STATE OF CALIFORNIA - DEPARTMENT OF TRANSPORTATION

COST PROPOSAL

ON-CALL CONTRACT - OH & FEE ON DELTAS, WITH PREDETERMINED INCREASE, **DIRECT LABOR METHOD OF ACCOUNTING**

ADM 2033 (Rev. 10/23/18)

NORTHERN CALIFORNIA
NC-63-3-9-2020-2

Participation Amount

Consultant/Subconsultant Name: Ghirardelli Associates, Inc.
Agreement Number: ON-CALL CONSTRUCTION RESIDENT ENGINEER AND INSPECTION SERVICES
RFQ No.: City of Roseville Release Date: April 23, 2021
Attachment 2
Tax ID No.: 94-3395064
Date Prepared: 5/18/2021
Page No.: x of xx

Loaded Billing Rate Calculations:

Non Exempt Employee Loaded Billing Rates
A) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
B) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

Exempt Employee Loaded Billing Rates - Compensated for PW OT:
C) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
D) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

The PW Deltas (Base & Fringe) above for Loaded Billing Rates, are applicable for services covered under DIR determations. Includes Exempt employees who are normally not paid for OT worked, per company policy

Exempt Employee Loaded Billing Rates - Not Compensated for OT (Uncompensated OT):
E) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
F) No Overtime. (Columns are shaded out.)

Exempt Employee Loaded Billing Rates - Compensated for OT @ ST Rate:
G) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
H) ST Loaded Billing Rate + (1.5 x 0) or ST Loaded Billing Rate + (2.0 x 0)

STATE OF CALIFORNIA - DEPARTMENT OF TRANSPORTATION

COST PROPOSAL

ON-CALL CONTRACT - OH & FEE ON DELTAS, WITH PREDETERMINED INCREASE, **DIRECT LABOR METHOD OF ACCOUNTING**

ADM 2033 (Rev. 10/23/18)

NORTHERN CALIFORNIA
NC-63-3-9-2020-2

Participation Amount

Consultant/Subconsultant Name: Ghirardelli Associates, Inc.
Agreement Number: ON-CALL CONSTRUCTION RESIDENT ENGINEER AND INSPECTION SERVICES
RFQ No.: City of Roseville Release Date: April 23, 2021
Attachment 2
Tax ID No.: 94-3395064
Date Prepared: 5/18/2021
Page No.: x of xx

Loaded Billing Rate Calculations:

Non Exempt Employee Loaded Billing Rates
A) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
B) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

Exempt Employee Loaded Billing Rates - Compensated for PW OT:
C) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
D) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

The PW Deltas (Base & Fringe) above for Loaded Billing Rates, are applicable for services covered under DIR determations. Includes Exempt employees who are normally not paid for OT worked, per company policy

Exempt Employee Loaded Billing Rates - Not Compensated for OT (Uncompensated OT):
E) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
F) No Overtime. (Columns are shaded out.)

Exempt Employee Loaded Billing Rates - Compensated for OT @ ST Rate:
G) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
H) ST Loaded Billing Rate + (1.5 x 0) or ST Loaded Billing Rate + (2.0 x 0)

STATE OF CALIFORNIA - DEPARTMENT OF TRANSPORTATION

COST PROPOSAL

ON-CALL CONTRACT - OH & FEE ON DELTAS, WITH PREDETERMINED INCREASE, **DIRECT LABOR METHOD OF ACCOUNTING**

ADM 2033 (Rev. 10/23/18)

NORTHERN CALIFORNIA
NC-63-3-9-2020-2

Participation Amount

Consultant/Subconsultant Name: Ghirardelli Associates, Inc.
Agreement Number: ON-CALL CONSTRUCTION RESIDENT ENGINEER AND INSPECTION SERVICES
RFQ No.: City of Roseville Release Date: April 23, 2021
Attachment 2
Tax ID No.: 94-3395064
Date Prepared: 5/18/2021
Page No.: x of xx

Loaded Billing Rate Calculations:

Non Exempt Employee Loaded Billing Rates

A) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]

B) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

Exempt Employee Loaded Billing Rates - Compensated for PW OT:

C) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]

D) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

The PW Deltas (Base & Fringe) above for Loaded Billing Rates, are applicable for services covered under DIR determations. Includes Exempt employees who are normally not paid for OT worked, per company policy

Exempt Employee Loaded Billing Rates - Not Compensated for OT (Uncompensated OT):

E) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]

F) No Overtime. (Columns are shaded out.)

Exempt Employee Loaded Billing Rates - Compensated for OT @ ST Rate:

G) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]

H) ST Loaded Billing Rate + (1.5 x 0) or ST Loaded Billing Rate + (2.0 x 0)

STATE OF CALIFORNIA - DEPARTMENT OF TRANSPORTATION

COST PROPOSAL

ON-CALL CONTRACT - OH & FEE ON DELTAS, WITH PREDETERMINED INCREASE, **DIRECT LABOR METHOD OF ACCOUNTING**

ADM 2033 (Rev. 10/23/18)

NORTHERN CALIFORNIA
NC-63-3-9-2020-2

Participation Amount

Consultant/Subconsultant Name: Ghirardelli Associates, Inc.
Agreement Number: ON-CALL CONSTRUCTION RESIDENT ENGINEER AND INSPECTION SERVICES
RFQ No.: City of Roseville Release Date: April 23, 2021
Attachment 2
Tax ID No.: 94-3395064
Date Prepared: 5/18/2021
Page No.: x of xx

Loaded Billing Rate Calculations:

Non Exempt Employee Loaded Billing Rates
A) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
B) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

Exempt Employee Loaded Billing Rates - Compensated for PW OT:
C) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
D) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

The PW Deltas (Base & Fringe) above for Loaded Billing Rates, are applicable for services covered under DIR determations. Includes Exempt employees who are normally not paid for OT worked, per company policy

Exempt Employee Loaded Billing Rates - Not Compensated for OT (Uncompensated OT):
E) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
F) No Overtime. (Columns are shaded out.)

Exempt Employee Loaded Billing Rates - Compensated for OT @ ST Rate:
G) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
H) ST Loaded Billing Rate + (1.5 x 0) or ST Loaded Billing Rate + (2.0 x 0)

Tax ID No.: 94-3395064
Date Prepared: 5/18/2021
Page No.: x of xx

Loaded Billing Rate Calculations:

Non Exempt Employee Loaded Billing Rates

A) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]

B) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

Exempt Employee Loaded Billing Rates - Compensated for PW OT:

C) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]

D) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

The PW Deltas (Base & Fringe) above for Loaded Billing Rates, are applicable for services covered under DIR determations. Includes Exempt employees who are normally not paid for OT worked, per company policy

Exempt Employee Loaded Billing Rates - Not Compensated for OT (Uncompensated OT):

E) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]

F) No Overtime. (Columns are shaded out.)

Exempt Employee Loaded Billing Rates - Compensated for OT @ ST Rate:

G) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]

H) ST Loaded Billing Rate + (1.5 x 0) or ST Loaded Billing Rate + (2.0 x 0)

STATE OF CALIFORNIA - DEPARTMENT OF TRANSPORTATION

COST PROPOSAL

ON-CALL CONTRACT - OH & FEE ON DELTAS, WITH PREDETERMINED INCREASE, **DIRECT LABOR METHOD OF ACCOUNTING**

ADM 2033 (Rev. 10/23/18)

NORTHERN CALIFORNIA
NC-63-3-9-2020-2

Participation Amount

Consultant/Subconsultant Name: Ghirardelli Associates, Inc.
Agreement Number: ON-CALL CONSTRUCTION RESIDENT ENGINEER AND INSPECTION SERVICES
RFQ No.: City of Roseville Release Date: April 23, 2021
Attachment 2
Tax ID No.: 94-3395064
Date Prepared: 5/18/2021
Page No.: x of xx

Loaded Billing Rate Calculations:

Non Exempt Employee Loaded Billing Rates
A) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
B) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

Exempt Employee Loaded Billing Rates - Compensated for PW OT:
C) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
D) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

The PW Deltas (Base & Fringe) above for Loaded Billing Rates, are applicable for services covered under DIR determations. Includes Exempt employees who are normally not paid for OT worked, per company policy

Exempt Employee Loaded Billing Rates - Not Compensated for OT (Uncompensated OT):
E) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
F) No Overtime. (Columns are shaded out.)

Exempt Employee Loaded Billing Rates - Compensated for OT @ ST Rate:
G) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
H) ST Loaded Billing Rate + (1.5 x 0) or ST Loaded Billing Rate + (2.0 x 0)

STATE OF CALIFORNIA - DEPARTMENT OF TRANSPORTATION

COST PROPOSAL

ON-CALL CONTRACT - OH & FEE ON DELTAS, WITH PREDETERMINED INCREASE, **DIRECT LABOR METHOD OF ACCOUNTING**

ADM 2033 (Rev. 10/23/18)

NORTHERN CALIFORNIA
NC-63-3-9-2020-2

Participation Amount

Consultant/Subconsultant Name: Ghirardelli Associates, Inc.
Agreement Number: ON-CALL CONSTRUCTION RESIDENT ENGINEER AND INSPECTION SERVICES
RFQ No.: City of Roseville Release Date: April 23, 2021
Attachment 2
Tax ID No.: 94-3395064
Date Prepared: 5/18/2021
Page No.: x of xx

Loaded Billing Rate Calculations:

Non Exempt Employee Loaded Billing Rates
A) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
B) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

Exempt Employee Loaded Billing Rates - Compensated for PW OT:
C) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
D) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

The PW Deltas (Base & Fringe) above for Loaded Billing Rates, are applicable for services covered under DIR determations. Includes Exempt employees who are normally not paid for OT worked, per company policy

Exempt Employee Loaded Billing Rates - Not Compensated for OT (Uncompensated OT):
E) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
F) No Overtime. (Columns are shaded out.)

Exempt Employee Loaded Billing Rates - Compensated for OT @ ST Rate:
G) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
H) ST Loaded Billing Rate + (1.5 x 0) or ST Loaded Billing Rate + (2.0 x 0)

STATE OF CALIFORNIA - DEPARTMENT OF TRANSPORTATION

COST PROPOSAL

ON-CALL CONTRACT - OH & FEE ON DELTAS, WITH PREDETERMINED INCREASE, **DIRECT LABOR METHOD OF ACCOUNTING**

ADM 2033 (Rev. 10/23/18)

NORTHERN CALIFORNIA
NC-63-3-9-2020-2

Participation Amount

Consultant/Subconsultant Name: Ghirardelli Associates, Inc.
Agreement Number: ON-CALL CONSTRUCTION RESIDENT ENGINEER AND INSPECTION SERVICES
RFQ No.: City of Roseville Release Date: April 23, 2021
Attachment 2
Tax ID No.: 94-3395064
Date Prepared: 5/18/2021
Page No.: x of xx

Loaded Billing Rate Calculations:

Non Exempt Employee Loaded Billing Rates
A) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
B) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

Exempt Employee Loaded Billing Rates - Compensated for PW OT:
C) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
D) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

The PW Deltas (Base & Fringe) above for Loaded Billing Rates, are applicable for services covered under DIR determations. Includes Exempt employees who are normally not paid for OT worked, per company policy

Exempt Employee Loaded Billing Rates - Not Compensated for OT (Uncompensated OT):
E) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
F) No Overtime. (Columns are shaded out.)

Exempt Employee Loaded Billing Rates - Compensated for OT @ ST Rate:
G) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
H) ST Loaded Billing Rate + (1.5 x 0) or ST Loaded Billing Rate + (2.0 x 0)

STATE OF CALIFORNIA - DEPARTMENT OF TRANSPORTATION

COST PROPOSAL

ON-CALL CONTRACT - OH & FEE ON DELTAS, WITH PREDETERMINED INCREASE, **DIRECT LABOR METHOD OF ACCOUNTING**

ADM 2033 (Rev. 10/23/18)

NORTHERN CALIFORNIA
NC-63-3-9-2020-2

Participation Amount

Consultant/Subconsultant Name: Ghirardelli Associates, Inc.
Agreement Number: ON-CALL CONSTRUCTION RESIDENT ENGINEER AND INSPECTION SERVICES
RFQ No.: City of Roseville Release Date: April 23, 2021
Attachment 2
Tax ID No.: 94-3395064
Date Prepared: 5/18/2021
Page No.: x of xx

Loaded Billing Rate Calculations:

Non Exempt Employee Loaded Billing Rates
A) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
B) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

Exempt Employee Loaded Billing Rates - Compensated for PW OT:
C) Straight Time (ST) Loaded Billing Rate = [Actual Hourly Rate + ST Delta Base + ST Delta Fringe] * [(1 + Field OH) * (1 + Fee)]
D) ST Loaded Billing Rate + (1.5 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)] **or** ST Loaded Billing Rate + (2.0 Base PW Rate - ST Base PW Rate) * [(1+Field OH) * (1+Fee)]

The PW Deltas (Base & Fringe) above for Loaded Billing Rates, are applicable for services covered under DIR determations. Includes Exempt employees who are normally not paid for OT worked, per company policy

Exempt Employee Loaded Billing Rates - Not Compensated for OT (Uncompensated OT):
E) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
F) No Overtime. (Columns are shaded out.)

Exempt Employee Loaded Billing Rates - Compensated for OT @ ST Rate:
G) ST Loaded Billing Rate = Actual Hourly Rate * [(1 + Home OH) * (1 + Fee)]
H) ST Loaded Billing Rate + (1.5 x 0) or ST Loaded Billing Rate + (2.0 x 0)

Contract Specific Footnotes (by Consultants):
1 ICR Rate Jan 2019 - DEC 2019
2
3
4

Notes for Consultants:

1. Note employees/classifications that are subject to prevailing wage requirements with one asterisk (*) or two (**). Prevailing Wage specified is based on DIR determination, including known Predetermined increase(s), as of date of RFQ/RFP advertisement.
2. The employees' actual hourly rates shown in this cost proposal are the rates that were effective as of the RFQ/RFP advertisement date. Caltrans Contract Manager's pre-approval is required to add staff not previously listed on the cost proposal. The billing rates for these employees, including those that fall under general classifications, will be calculated and reimbursed based on their actual hourly rates as of the RFQ/RFP advertisement date (12/11/2020). Hourly rates for new employees hired after the date of this cost proposal will not exceed (or shall be in line with) the rates of similar personnel listed on this cost proposal having similar experience, and requires prior-approval from the Caltrans Contract Manager.
5. **Travel Time:** California minimum wage laws require an employer to count employee travel time as hours worked whenever it requires employees to travel, no matter when the travel occurs. This includes any time employees are required
   If an employee's travel time to a transportation center (airport, bus station, train station, etc.) is about the same as the travel time to the employee's usual workplace, the employer may begin counting the employee's travel time as hours worked once he or she arrives at the transportation center. CA Division of Labor Standards Enforcement (DLSE) 46.3
   Employers must also count as hours worked time spent by employees traveling from a central reporting location to their actual work location. CA DLSE 46.2
   Employers are permitted to pay employees a lower wage rate for waiting or standby time than they do for time when employees are performing actual job duties. The employer must notify employees they will be paid the lower wage rate before the travel begins. CA DLSE 46.3.2

   Managers/Supervisors: Up to a maximum of 8 hours will be charged for work time or any combination of travel and work time (On Weekdays). **Billing rate for travel time= Loaded Rate Formula "C" above.**
   Exempt staff: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed as follows: **Billing rate for travel time= Loaded Rate Formula "C" above, if working on a public works project.**
   When performing **Non-Prevailing Wage** duties on this project during the regular work day, the **Billing rate for travel time = Loaded Rate Formula "E" above.**
   All travel time, outside of the regular work day, will be billed without the application of overhead rate as follows: **Billing Rate = (Actual Hourly Rate) (1 + Fee) + (Delta Base + Delta Fringe) * (1 + Fee)**
   Non-Exempt staff: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed at the Straight Time rate (i.e., without the application of the 1.5X or 2.0X multiplier for Overtime), as follows: **Billing rate for travel time= Loaded Rate Formula "A" above.**

EXHIBIT 10-K CONSULTANT ANNUAL CERTIFICATION OF INDIRECT COSTS AND FINANCIAL MANAGEMENT SYSTEM

(Note: If a Safe Harbor Indirect Cost Rate is approved, this form is not required.)

Consultant's Full Legal Name: Ghirardelli Associates, Inc

Important: Consultant means the individual or consultant providing engineering and design related services as a party of a contract with a recipient or sub-recipient of Federal assistance. Therefore, the Indirect Cost Rate(s) shall not be combined with its parent company or subsidiaries.

Indirect Cost Rate:

Combined Rate 119.98 % **OR**

Home Office Rate_____% and Field Office Rate (if applicable)_____%

Facilities Capital Cost of Money 0.06 % (if applicable)

Fiscal period * 01/01/2019 -12/31/2019

* Fiscal period is annual one year applicable accounting period that the Indirect Cost Rate was developed (not the contract period). The Indirect Cost Rate is based on the consultant's one-year applicable accounting period for which financial statements are regularly prepared by the consultant.

I have reviewed the proposal to establish an Indirect Cost Rate(s) for the **fiscal period** as specified above and have determined to the best of my knowledge and belief that:

- All costs included in the cost proposal to establish the indirect cost rate(s) are allowable in accordance with the cost principles of the Federal Acquisition Regulation (FAR) 48, Code of Federal Regulations (CFR), Chapter 1, Part 31 (48 CFR Part 31);
- The cost proposal does not include any costs which are expressly unallowable under the cost principles of 48 CFR Part 31;
- The accounting treatment and billing of prevailing wage delta costs are consistent with our prevailing wage policy as either direct labor, indirect costs, or other direct costs on all federally-funded A&E Consultant Contracts.
- All known material transactions or events that have occurred subsequent to year-end affecting the consultant's ownership, organization, and indirect cost rates have been disclosed as of the date of this certification.

I am providing the required and applicable documents as instructed on Exhibit 10-A.

Financial Management System:

Our labor charging, job costing, and accounting systems meet the standards for financial reporting, accounting records, and internal control adequate to demonstrate that costs claimed have been incurred, appropriately accounted for, are allocable to the contract, and comply with the federal requirements as set forth in Title 23 United States Code (U.S.C.) Section 112(b)(2); 48 CFR Part 31.201-2(d); 23 CFR, Chapter 1, Part 172.11(a)(2); and all applicable state and federal rules and regulations.

Our financial management system has the following attributes:

- Account numbers identifying allowable direct, indirect, and unallowable cost accounts;
- Ability to accumulate and segregate allowable direct, indirect, and unallowable costs into separate cost

accounts;

- Ability to accumulate and segregate allowable direct costs by project, contract and type of cost;
- Internal controls to maintain integrity of financial management system;
- Ability to account and record costs consistently and to ensure costs billed are in compliance with FAR;
- Ability to ensure and demonstrate costs billed reconcile to general ledgers and job costing system; and
- Ability to ensure costs are in compliance with contract terms and federal and state requirement

Cost Reimbursements on Contracts:

I also understand that failure to comply with 48 CFR Part 16.301-3 or knowingly charge unallowable costs to Federal-Aid Highway Program (FAHP) contracts may result in possible penalties and sanctions as provided by the following:

- Sanctions and Penalties - 23 CFR Part 172.11(c)(4)
- False Claims Act - Title 31 U.S.C. Sections 3729-3733
- Statements or entries generally - Title 18 U.S.C. Section 1001
- Major Fraud Act - Title 18 U.S.C. Section 1031

All A&E Contract Information:

- Total participation amount $85,976,000 on all State and FAHP contracts for Architectural & Engineering services that the consultant received in the last three fiscal periods.
- The number of states in which the consultant does business is 1.00.
- Years of consultant's experience with 48 CFR Part 31 is 21.00.
- Audit history of the consultant's current and prior years (if applicable)

☐ Cognizant ICR Audit ☐ Local Gov't ICR Audit ☐ Caltrans ICR Audit
☑ CPA ICR Audit ☐ Federal Gov't ICR Audit

I, the undersigned, certify all of the above to the best of my knowledge and belief and that I have reviewed the Indirect Cost Rate Schedule to determine that any costs which are expressly unallowable under the Federal cost principles have been removed and comply with Title 23 U.S.C. Section 112(b)(2), 48 CFR Part 31, 23 CFR Part 172, and all applicable state and federal rules and regulations. I also certify that I understand that all documentation of compliance must be retained by the consultant. I hereby acknowledge that costs that are noncompliant with the federal and state requirements are not eligible for reimbursement and must be returned to Caltrans.

Name**: Alain Charles
Title**: Corporate Controller
Signature: Alain Charles
Date of Certification (mm/dd/yyyy): 03/30/2021

SPECIFIC RATE OF COMPENSATION (USE FOR ON-CALL OR AS-NEEDED CONTRACTS)
(CONSTRUCTION ENGINEERING AND INSPECTION CONTRACTS)

Note: Mark-ups are Not Allowed

Consultant Albat Prime Consultant x Subconsultant

Project No. City of Roseville, On-Call CM Contract No. TBD Date 5/14/2021

SCHEDULE OF OTHER DIRECT COST ITEMS					
Description of Item		**Quantity**	**Unit**	**Unit Cost**	**Total**
External Printing and Reproduction			1	Actual (note 3)	
Color Copy			1	Actual (note 3)	
Postage/Delivery/Overnight			1	Actual (note 3)	
Personal Vehicle			Mile	Note 3	
Rental Vehicle, Gas			Day	Note 3	
Tolls, Parking			Each	Note 3	
Per Diem			Day	Note 3	
Cell Phones				N/C	
Office Computers				N/C	
Other Misc. Field costs (as approved)					
Subconsultant:					

1. List other direct cost items with estimated costs. These costs should be competitive in their respective industries and supported with appropriate documentation.
2. Proposed ODC items should be consistently billed regardless of client and contract type.
3. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
4. Items such as special tooling, will be reimbursed at actual cost with supporting documentation (invoice).
5. Items listed above that would be considered "tools of the trade" are not reimbursable as other direct cost.
6. Travel related costs should be pre-approved by the contracting agency and shall not exceed current State Department of Personnel Administration rules.
7. If mileage is claimed, the rate should be properly supported by the consultant's calculation of their actual costs for company vehicles. In addition, the miles claimed should be supported by mileage logs.
8. If a consultant proposes rental costs for a vehicle, the company must demonstrate that this is its standard procedure for all of their contracts and that they do not own any vehicles that could be used for the same purpose.
9. The cost proposal format shall not be amended. All costs must comply with the Federal cost principles.
10. Add additional pages if necessary.
11. Subconsultants must provide their own cost proposals.

EXHIBIT 10-H2 COST PROPOSAL

Certification of Direct Costs:

I, the undersigned, certify to the best of my knowledge and belief that all direct costs identified on the cost proposal(s) in this contract are actual, reasonable, allowable, and allocable to the contract in accordance with the contract terms and the following requirements:

1. Generally Accepted Accounting Principles (GAAP)
2. Terms and conditions of the contract
3. Title 23 United States Code Section 112 - Letting of Contracts
4. 48 Code of Federal Regulations Part 31 - Contract Cost Principles and Procedures
5. 23 Code of Federal Regulations Part 172 - Procurement, Management, and Administration of Engineering and Design Related Service
6. 48 Code of Federal Regulations Part 9904 - Cost Accounting Standards Board (when applicable)

All costs must be applied consistently and fairly to all contracts. All documentation of compliance must be retained in the project files and be in compliance with applicable federal and state requirements. Costs that are noncompliant with the federal and state requirements are not eligible for reimbursement.

1. Prevailing Wages specified are based on current DIR determination. Any future DIR escalation of prevailing wage rates will be reflected in the loaded rates
2. "NC" denotes No Charge for work more than 8 hours per day and for weekends and holidays for this contract only.
3. The billing rates shown in this cost proposal for field staff entitled for PW rates are calculated with estimated fringe benefits of the staff. The actual billing rates to be used in the invoices will be calculated by using the actual PW fringe benefits of the individual staff in accordance with the certified benefits statement submitted with each invoice.
4. The employees' actual hourly rates shown in this cost proposal are the rates that were effective on xx/xx/xx. Caltrans Contract Manager's pre-approval is required for addition of staff not previously listed on the cost proposal. The billing rates for these employees, including those that fall under general classifications, will be calculated and reimbursed based on their actual hourly rates on xx/xx/xx. Hourly rates for new employees hired after the date of this cost proposal will not exceed (or shall be in line with) the rates of similar personnel listed on this cost proposal having similar experience.
5. Travel Time Charges:
   For Managers: On weekdays up to a maximum of 8 hours will be charged for work time, travel time or any combination of travel and work time. Billing Rate = Loaded Rate Formula "C" above.
   For Exempt staff: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed as follow:
   Billing rate for travel time = Loaded Rate Formula "C" above.
   All travel time, outside of the regular work day, will be billed without the application of overhead rate as follow: Billing Rate = (Actual Hourly Rate) (1+ Fee) + (Delta Base + Delta Fringe)
   For Non-Exempt Employees: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed at full normal overhead rate (i.e. without the application of the 1.5X or 2.0X multiplier for overtime as follow:

Please Note: Consultant completes all applicable items and deletes what is not applicable

Important Notes:
1. "N/C" denotes No Charge
2. Pre-approved travel and Per Diem will be reimbursed in accordance with the current Caltrans Travel Guide for consultants, and detailed in executed Task Order Cost Estimates. No charge will be invoiced for employee relocation costs.
3. Actual costs are based on prices from appropriate vendors and should be competitive in their respective industries. The costs will be supported with appropriate documents detailed in executed Task Order Cost Estimates. Proposed vendors shall be presented in the Task Order Cost Estimate for each project. Pre-approval by the Caltrans Contract Manager will be required and shall be submitted along with the actual invoice.
4. Parking, tolls and local transportation cost resulting from commuting to and from the employee's residence to the job site as assigned in the Task Order are not reimbursable.
5. Other Direct Cost (ODC) items claimed shall be in compliance with 48 Code of Federal Regulation, Chapter 1, part 31 (Federal Acquistion Regulation – FAR cost principles) and shall be consistent with the firm's company-wide allocation policies and charging practices with all clients including federal government, state governments, local agencies and private clients.
6. Proposed items shall be consistently billed directly to all clients (Commercial entities, Federal Govt., State Govt., and Local Govt. Agency), and not just when the client will pay for them as a direct cost.
7. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
8. For those items listed here as "tools of the trade" that is part of indirect cost and not applicable as a direct cost, note as Not Applicable (NA).

California Safe Harbor Indirect Cost Rate Program

Consultant Firm Certification of Eligibility and Certification of Financial Management System

Consultant Firm Name Albat

Local Agency (if applicable) City of Roseville

Contract Number / Federal Project Number TBD

Contract Total $ TBD

For Subconsultant Firms – estimated % of work to be performed TBD %

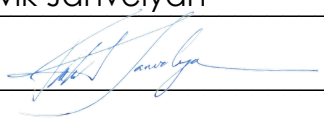
Safe Harbor Indirect Cost Rate (SHR): **Home: 120% and/or Field: 90%**
Field SHR will be utilized for contracts where the work deliverables are not completed from the consultant offices (i.e. Construction Inspection, Material Testing, Sources Inspection, others)**.**

Consultant Firm Certification of Eligibility

I, the undersigned, certify that I am eligible to use the Safe Harbor indirect cost rate as I:

1. Am not a Prime Consultant Firm on a Caltrans contract > $3.5M, or
   Local Government contract > $1M, regardless of the participation amount.
2. Have not used SHR for more than three (3) years since entering the program on a state or federally funded contract.

   AND



1. Do not have relevant contract cost history to use as a base for developing a Federal Acquisition Regulations (FAR) of Title 48, Code of Federal Regulations (CFR), Part 31 compliant ICR.
2. Do not have a previously accepted ICR by a cognizant agency, or with an audited/accepted actual ICR, and do not have an existing contract with a provisional rate.

Certification of Financial Management System

I, the undersigned, certify that our financial management system in place for this contract and moving forward meets the standards for the Safe Harbor indirect cost rate requirements and financial reporting, accounting records, internal and budget control as set forth in 2 CFR 200, Subpart D. These standards require consulting firms have an accounting system

adequate to accumulate, and track allowable, allocable, and reasonable direct labor and other direct costs by contract; segregate indirect costs and remove unallowable costs.

Print Name Tatevik Janvelyan

Signature 
(Electronic Signature Allowed)

Title President

Date Completed 5/17/2021

Note: The certification of this Safe Harbor Rate was made by, and are the responsibility of, the Company's management.

Definition of Terms

Direct Cost is any cost that is identified specifically with a particular cost objective. Direct costs are not limited to items that are incorporated in the end products as material or labor. Costs identified specifically with a contract are direct costs of that contract. All costs identified with other final cost objectives of the contractor are direct costs of those objectives, 48 CFR 31.202.

Indirect or overhead cost is any cost that is not directly identified with a single final cost objective but is identified with two or more final cost objectives or with at least one intermediate cost objective, 48 CFR 31. 203.

Consultant Bennett Engineering Services Prime Consultant x Subconsultant

Project No. _____ Contract No. _____ Date 5/12/2021

SCHEDULE OF OTHER DIRECT COST ITEMS

Description of Item	Quantity	Unit	Unit Cost	Total
External Printing and Reproduction		1	Actual (note 3)	
Color Copy		1	Actual (note 3)	
Postage/Delivery/Overnight		1	Actual (note 3)	
Personal Vehicle		Mile	Note 3	
Rental Vehicle, Gas		Day	Note 3	
Tolls, Parking		Each	Note 3	
Per Diem		Day	Note 3	
Cell Phones			N/C	
Office Computers			N/C	
Other Misc. Field costs (as approved)				
Subconsultant:				

1. List other direct cost items with estimated costs. These costs should be competitive in their respective industries and supported with appropriate documentation.
2. Proposed ODC items should be consistently billed regardless of client and contract type.
3. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
4. Items such as special tooling, will be reimbursed at actual cost with supporting documentation (invoice).
5. Items listed above that would be considered "tools of the trade" are not reimbursable as other direct cost.
6. Travel related costs should be pre-approved by the contracting agency and shall not exceed current State Department of Personnel Administration rules.
7. If mileage is claimed, the rate should be properly supported by the consultant's calculation of their actual costs for company vehicles. In addition, the miles claimed should be supported by mileage logs.
8. If a consultant proposes rental costs for a vehicle, the company must demonstrate that this is its standard procedure for all of their contracts and that they do not own any vehicles that could be used for the same purpose.
9. The cost proposal format shall not be amended. All costs must comply with the Federal cost principles.
10. Add additional pages if necessary.
11. Subconsultants must provide their own cost proposals.

EXHIBIT 10-H2 COST PROPOSAL

Certification of Direct Costs:

I, the undersigned, certify to the best of my knowledge and belief that all direct costs identified on the cost proposal(s) in this contract are actual, reasonable, allowable, and allocable to the contract in accordance with the contract terms and the following requirements:

1. Generally Accepted Accounting Principles (GAAP)
2. Terms and conditions of the contract
3. Title 23 United States Code Section 112 - Letting of Contracts
4. 48 Code of Federal Regulations Part 31 - Contract Cost Principles and Procedures
5. 23 Code of Federal Regulations Part 172 - Procurement, Management, and Administration of Engineering and Design Related Service
6. 48 Code of Federal Regulations Part 9904 - Cost Accounting Standards Board (when applicable)

All costs must be applied consistently and fairly to all contracts. All documentation of compliance must be retained in the project files and be in compliance with applicable federal and state requirements. Costs that are noncompliant with the federal and state requirements are not eligible for reimbursement.

Prime Consultant or Subconsultant Certifying:

Name: Leo Rubio Title *: President

Signature :  Date of Certification (mm/dd/yyyy): 5/12/2021

Email: lrubio@ben-en.com Phone Number: 916-783-4100

* An individual executive or financial officer of the consultant's or subconsultant's organization at a level no lower than a Vice President or a Chief Financial Officer, or equivalent, who has authority to represent the financial information utilized to establish the cost proposal for the contract.

List services the consultant is providing under the proposed contract:

Engineering consulting services

EXHIBIT 10-K CONSULTANT ANNUAL CERTIFICATION OF INDIRECT COSTS AND FINANCIAL MANAGEMENT SYSTEM

(Note: If a Safe Harbor Indirect Cost Rate is approved, this form is not required.)

Consultant's Full Legal Name: Bennett Engineering Services Inc

Important: Consultant means the individual or consultant providing engineering and design related services as a party of a contract with a recipient or sub-recipient of Federal assistance. Therefore, the Indirect Cost Rate(s) shall not be combined with its parent company or subsidiaries.

Indirect Cost Rate:

Combined Rate 192.47 % **OR**

Home Office Rate_____% and Field Office Rate (if applicable)_____%

Facilities Capital Cost of Money_____% (if applicable)

Fiscal period * 01/01/2019 - 12/31/2019

* Fiscal period is annual one year applicable accounting period that the Indirect Cost Rate was developed (not the contract period). The Indirect Cost Rate is based on the consultant's one-year applicable accounting period for which financial statements are regularly prepared by the consultant.

I have reviewed the proposal to establish an Indirect Cost Rate(s) for the **fiscal period** as specified above and have determined to the best of my knowledge and belief that:

- All costs included in the cost proposal to establish the indirect cost rate(s) are allowable in accordance with the cost principles of the Federal Acquisition Regulation (FAR) 48, Code of Federal Regulations (CFR), Chapter 1, Part 31 (48 CFR Part 31);
- The cost proposal does not include any costs which are expressly unallowable under the cost principles of 48 CFR Part 31;
- The accounting treatment and billing of prevailing wage delta costs are consistent with our prevailing wage policy as either direct labor, indirect costs, or other direct costs on all federally-funded A&E Consultant Contracts.
- All known material transactions or events that have occurred subsequent to year-end affecting the consultant's ownership, organization, and indirect cost rates have been disclosed as of the date of this certification.

I am providing the required and applicable documents as instructed on Exhibit 10-A.

Financial Management System:

Our labor charging, job costing, and accounting systems meet the standards for financial reporting, accounting records, and internal control adequate to demonstrate that costs claimed have been incurred, appropriately accounted for, are allocable to the contract, and comply with the federal requirements as set forth in Title 23 United States Code (U.S.C.) Section 112(b)(2); 48 CFR Part 31.201-2(d); 23 CFR, Chapter 1, Part 172.11(a)(2); and all applicable state and federal rules and regulations.

Our financial management system has the following attributes:

- Account numbers identifying allowable direct, indirect, and unallowable cost accounts;
- Ability to accumulate and segregate allowable direct, indirect, and unallowable costs into separate cost

accounts;

- Ability to accumulate and segregate allowable direct costs by project, contract and type of cost;
- Internal controls to maintain integrity of financial management system;
- Ability to account and record costs consistently and to ensure costs billed are in compliance with FAR;
- Ability to ensure and demonstrate costs billed reconcile to general ledgers and job costing system; and
- Ability to ensure costs are in compliance with contract terms and federal and state requirement

Cost Reimbursements on Contracts:

I also understand that failure to comply with 48 CFR Part 16.301-3 or knowingly charge unallowable costs to Federal-Aid Highway Program (FAHP) contracts may result in possible penalties and sanctions as provided by the following:

- Sanctions and Penalties - 23 CFR Part 172.11(c)(4)
- False Claims Act - Title 31 U.S.C. Sections 3729-3733
- Statements or entries generally - Title 18 U.S.C. Section 1001
- Major Fraud Act - Title 18 U.S.C. Section 1031

All A&E Contract Information:

- Total participation amount $ 6,220,436 on all State and FAHP contracts for Architectural & Engineering services that the consultant received in the last three fiscal periods.
- The number of states in which the consultant does business is 1.
- Years of consultant's experience with 48 CFR Part 31 is 12.
- Audit history of the consultant's current and prior years (if applicable)
  - ☐ Cognizant ICR Audit
  - ☐ Local Gov't ICR Audit
  - ☐ Caltrans ICR Audit
  - ☐ CPA ICR Audit
  - ☐ Federal Gov't ICR Audit

I, the undersigned, certify all of the above to the best of my knowledge and belief and that I have reviewed the Indirect Cost Rate Schedule to determine that any costs which are expressly unallowable under the Federal cost principles have been removed and comply with Title 23 U.S.C. Section 112(b)(2), 48 CFR Part 31, 23 CFR Part 172, and all applicable state and federal rules and regulations. I also certify that I understand that all documentation of compliance must be retained by the consultant. I hereby acknowledge that costs that are noncompliant with the federal and state requirements are not eligible for reimbursement and must be returned to Caltrans.

NOTES:

1. Key personnel **must** be marked with an asterisk (*) and employees that are subject to prevailing wage requirements must be marked with two asterisks (**).All costs must comply with the Federal cost principles. Subconsultants will provide their own cost proposals.

2. The cost proposal format shall not be amended.

3. Billing rate = actual hourly rate * (1+ ICR) * (1+ Fee). Indirect cost rates shall be updated on an annual basis in accordance with the consultant's annual accounting period and established by a cognizant agency or accepted by Caltrans. All costs must comply with the Federal cost principles for reimbursement.

4. For named employees and key personnel enter the actual hourly rate. For classifications only, enter the Average Hourly Rate for that classification.

SPECIFIC RATE OF COMPENSATION (USE FOR ON-CALL OR AS-NEEDED CONTRACTS)

(CONSTRUCTION ENGINEERING AND INSPECTION CONTRACTS)

Consultant BSK Associates ☐ Prime Consultant ■ Subconsultant

Project: _____ Contract: _____ Date 4/16/2021

SCHEDULE OF OTHER DIRECT COST ITEMS				
DESCRIPTION OF ITEMS	QUANTITY	UNIT	UNIT COST	TOTAL
Unit Prices (Per attached fee schedule)				TBD
Laboratory Services (Per attached fee schedule)				TBD

NOTES:

1. List other direct cost items with estimated costs. These costs should be competitive in their respective industries and supported with appropriate documentation.
2. Proposed ODC items should be consistently billed regardless of client and contract type.
3. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
4. Items such as special tooling, will be reimbursed at actual cost with supporting documentation (invoice).
5. Items listed above that would be considered "tools of the trade" are not reimbursable as other direct cost.
6. Travel related costs should be pre-approved by the contracting agency and shall not exceed current State Department of Personnel Administration rules.
7. If mileage is claimed, the rate should be properly supported by the consultant's calculation of their actual costs for company vehicles. In addition, the miles claimed should be supported by mileage logs.
8. If a consultant proposes rental costs for a vehicle, the company must demonstrate that this is its standard procedure for all of their contracts and that they do not own any vehicles that could be used for the same purpose.
9. The cost proposal format shall not be amended. All costs must comply with the Federal cost principles.
10. Add additional pages if necessary.
11. Subconsultants must provide their own cost proposals.

EXHIBIT 10-H2 COST PROPOSAL Page 3 of 3

Certification of Direct Costs:

I, the undersigned, certify to the best of my knowledge and belief that all direct costs identified on the cost proposal(s) in this contract are actual, reasonable, allowable, and allocable to the contract in accordance with the contract terms and the following requirements:

7. Generally Accepted Accounting Principles (GAAP)
8. Terms and conditions of the contract
9. Title 23 United States Code Section 112 - Letting of Contracts
10. 48 Code of Federal Regulations Part 31 - Contract Cost Principles and Procedures
11. 23 Code of Federal Regulations Part 172 - Procurement, Management, and Administration of Engineering and Design Related Service
12. 48 Code of Federal Regulations Part 9904 - Cost Accounting Standards Board (when applicable)

All costs must be applied consistently and fairly to all contracts. All documentation of compliance must be retained in the project files and be in compliance with applicable federal and state requirements. Costs that are noncompliant with the federal and state requirements are not eligible for reimbursement.

Prime Consultant or Subconsultant Certifying:

Name: Tim Rodriguez

Title*: Vice-President, Northern Regional Manager

Signature :

Date of Certification (mm/dd/yyyy): 04/16/2021

Email: trodriguez@bskassociates.com

Phone Number: 209-914-7258

Address: 550 W. Locust Avenue, Fresno, CA 93650

* An individual executive or financial officer of the consultant's or subconsultant's organization at a level no lower than a Vice President or a Chief Financial Officer, or equivalent, who has authority to represent the financial information utilized to establish the cost proposal for the contract.

List services the consultant is providing under the proposed contract:

Materials Testing and Inspection Services

1. Prevailing Wages specified are based on current DIR determination. Any future DIR escalation of prevailing wage rates will be reflected in the loaded rates
2. "NC" denotes No Charge for work more than 8 hours per day and for weekends and holidays for this contract only.
3. The billing rates shown in this cost proposal for field staff entitled for PW rates are calculated with estimated fringe benefits of the staff. The actual billing rates to be used in the invoices will be calculated by using the actual PW fringe benefits of the individual staff in accordance with the certified benefits statement submitted with each invoice.
4. The employees' actual hourly rates shown in this cost proposal are the rates that were effective on xx/xx/xx. Caltrans Contract Manager's pre-approval is required for addition of staff not previously listed on the cost proposal. The billing rates for these employees, including those that fall under general classifications, will be calculated and reimbursed based on their actual hourly rates on xx/xx/xx. Hourly rates for new employees hired after the
5. Travel Time Charges:
   For Managers: On weekdays up to a maximum of 8 hours will be charged for work time, travel time or any combination of travel and work time. Billing Rate = Loaded Rate Formula "C" above.
   For Exempt staff: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed as follow:
   For Non-Exempt Employees: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed at full normal overhead rate (i.e. without the application of the 1.5X or 2.0X multiplier for overtime as follow:

EXHIBIT 10-K CONSULTANT ANNUAL CERTIFICATION OF INDIRECT COSTS AND FINANCIAL MANAGEMENT SYSTEM

(Note: If a Safe Harbor Indirect Cost Rate is approved, this form is not required.)

Consultant's Full Legal Name: BSK Associates

Important: Consultant means the individual or consultant providing engineering and design related services as a party of a contract with a recipient or sub-recipient of Federal assistance. Therefore, the Indirect Cost Rate(s) shall not be combined with its parent company or subsidiaries.

Indirect Cost Rate:

Combined Rate 201.74% % **OR**

Home Office Rate N/A % and Field Office Rate (if applicable) N/A %

Facilities Capital Cost of Money N/A % (if applicable)

Fiscal period * 01/01/2019-12/31/2019

* Fiscal period is annual one year applicable accounting period that the Indirect Cost Rate was developed (not the contract period). The Indirect Cost Rate is based on the consultant's one-year applicable accounting period for which financial statements are regularly prepared by the consultant.

I have reviewed the proposal to establish an Indirect Cost Rate(s) for the **fiscal period** as specified above and have determined to the best of my knowledge and belief that:

- All costs included in the cost proposal to establish the indirect cost rate(s) are allowable in accordance with the cost principles of the Federal Acquisition Regulation (FAR) 48, Code of Federal Regulations (CFR), Chapter 1, Part 31 (48 CFR Part 31);
- The cost proposal does not include any costs which are expressly unallowable under the cost principles of 48 CFR Part 31;
- The accounting treatment and billing of prevailing wage delta costs are consistent with our prevailing wage policy as either direct labor, indirect costs, or other direct costs on all federally-funded A&E Consultant Contracts.
- All known material transactions or events that have occurred subsequent to year-end affecting the consultant's ownership, organization, and indirect cost rates have been disclosed as of the date of this certification.

I am providing the required and applicable documents as instructed on Exhibit 10-A.

Financial Management System:

Our labor charging, job costing, and accounting systems meet the standards for financial reporting, accounting records, and internal control adequate to demonstrate that costs claimed have been incurred, appropriately accounted for, are allocable to the contract, and comply with the federal requirements as set forth in Title 23 United States Code (U.S.C.) Section 112(b)(2); 48 CFR Part 31.201-2(d); 23 CFR, Chapter 1, Part 172.11(a)(2); and all applicable state and federal rules and regulations.

Our financial management system has the following attributes:

- Account numbers identifying allowable direct, indirect, and unallowable cost accounts;
- Ability to accumulate and segregate allowable direct, indirect, and unallowable costs into separate cost

accounts;

- Ability to accumulate and segregate allowable direct costs by project, contract and type of cost;
- Internal controls to maintain integrity of financial management system;
- Ability to account and record costs consistently and to ensure costs billed are in compliance with FAR;
- Ability to ensure and demonstrate costs billed reconcile to general ledgers and job costing system; and
- Ability to ensure costs are in compliance with contract terms and federal and state requirement

Cost Reimbursements on Contracts:

I also understand that failure to comply with 48 CFR Part 16.301-3 or knowingly charge unallowable costs to Federal-Aid Highway Program (FAHP) contracts may result in possible penalties and sanctions as provided by the following:

- Sanctions and Penalties - 23 CFR Part 172.11(c)(4)
- False Claims Act - Title 31 U.S.C. Sections 3729-3733
- Statements or entries generally - Title 18 U.S.C. Section 1001
- Major Fraud Act - Title 18 U.S.C. Section 1031

All A&E Contract Information:

- Total participation amount $ 6,551,022 on all State and FAHP contracts for Architectural & Engineering services that the consultant received in the last three fiscal periods.
- The number of states in which the consultant does business is 4.
- Years of consultant's experience with 48 CFR Part 31 is 54.
- Audit history of the consultant's current and prior years (if applicable)

☐ Cognizant ICR Audit ☐ Local Gov't ICR Audit ☐ Caltrans ICR Audit
☐ CPA ICR Audit ☐ Federal Gov't ICR Audit

I, the undersigned, certify all of the above to the best of my knowledge and belief and that I have reviewed the Indirect Cost Rate Schedule to determine that any costs which are expressly unallowable under the Federal cost principles have been removed and comply with Title 23 U.S.C. Section 112(b)(2), 48 CFR Part 31, 23 CFR Part 172, and all applicable state and federal rules and regulations. I also certify that I understand that all documentation of compliance must be retained by the consultant. I hereby acknowledge that costs that are noncompliant with the federal and state requirements are not eligible for reimbursement and must be returned to Caltrans.

Name**: Richard Johnson Title**: President

Signature: Date of Certification (mm/dd/yyyy): 08/06/2020

NOTES:

1. Key personnel must be marked with an asterisk (*) and employees that are subject to prevailing wage requirements must be marked with two asterisks (**).All costs must comply with the Federal cost principles. Subconsultants will provide their own cost proposals.
2. The cost proposal format shall not be amended.
3. Billing rate = actual hourly rate * (1+ ICR) * (1+ Fee). Indirect cost rates shall be updated on an annual basis in accordance with the consultant's annual accounting period and established by a cognizant agency or accepted by Caltrans. All costs must comply with the Federal cost principles for reimbursement.
4. For named employees and key personnel enter the actual hourly rate. For classifications only, enter the Average Hourly Rate for that classification.
5. Rates Shown for PW are Average Hourly Rates. Billing Rates per DIR Determination NC-63-3-9-2020-2. Billing rates for Second Shift Work shall be increased 12% to reflect increase in prevailing wage rate associated with Second Shift Work.

(CONSTRUCTION ENGINEERING AND INSPECTION CONTRACTS)

Note: Mark-ups are Not Allowed

Consultant Kleinfelder Prime Consultant x Subconsultant

□ Prime Consultant □ 2nd Tier Subconsultant

Project No. _____ Contract No. _____ Date 5/14/2021

SCHEDULE OF OTHER DIRECT COST ITEMS

Description of Item		Quantity	Unit	Unit Cost	Total
Mileage Costs			EA	$ 0.56	$
Equipment & Supplies			EA	See Schedule	$
Permit Fees				$	$
Plan Sheets				$	$
Laboratory Test			EA	Per Schedule	$
Vehicle				$	$
Subconsultant 1:					$
Subconsultant 2:					$
Subconsultant 3:					$
Subconsultant 4:					$
Subconsultant 5:					$

1. List other direct cost items with estimated costs. These costs should be competitive in their respective industries and supported with appropriate documentation.
2. Proposed ODC items should be consistently billed regardless of client and contract type.
3. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
4. Items such as special tooling, will be reimbursed at actual cost with supporting documentation (invoice).
5. Items listed above that would be considered "tools of the trade" are not reimbursable as other direct cost.
6. Travel related costs should be pre-approved by the contracting agency and shall not exceed current State Department of Personnel Administration rules.
7. If mileage is claimed, the rate should be properly supported by the consultant's calculation of their actual costs for company vehicles. In addition, the miles claimed should be supported by mileage logs.
8. If a consultant proposes rental costs for a vehicle, the company must demonstrate that this is its standard procedure for all of their contracts and that they do not own any vehicles that could be used for the same purpose.
9. The cost proposal format shall not be amended. All costs must comply with the Federal cost principles.
10. Add additional pages if necessary.
11. Subconsultants must provide their own cost proposals.

EXHIBIT 10-H2 COST PROPOSAL

Certification of Direct Costs:

I, the undersigned, certify to the best of my knowledge and belief that all direct costs identified on the cost proposal(s) in this contract are actual, reasonable, allowable, and allocable to the contract in accordance with the contract terms and the following requirements:

1. Generally Accepted Accounting Principles (GAAP)
2. Terms and conditions of the contract
3. Title 23 United States Code Section 112 - Letting of Contracts
4. 48 Code of Federal Regulations Part 31 - Contract Cost Principles and Procedures
5. 23 Code of Federal Regulations Part 172 - Procurement, Management, and Administration of Engineering and Design Related Service
6. 48 Code of Federal Regulations Part 9904 - Cost Accounting Standards Board (when applicable)

All costs must be applied consistently and fairly to all contracts. All documentation of compliance must be retained in the project files and be in compliance with applicable federal and state requirements. Costs that are noncompliant with the federal and state requirements are not eligible for reimbursement.

Prime Consultant or Subconsultant Certifying:

Name: Jeremy Mason Title *: Vice President

Signature :  Date of Certification (mm/dd/yyyy): 5/17/2021

Email: jmason@kleinfelder.com Phone Number: 916-366-1701

Address: 2882 Prospect Park Drive, Suite 200, Rancho Cordova, CA 95670

* An individual executive or financial officer of the consultant's or subconsultant's organization at a level no lower than a Vice President or a Chief Financial Officer, or equivalent, who has authority to represent the financial information utilized to establish the cost proposal for the contract.

List services the consultant is providing under the proposed contract:

1. Prevailing Wages specified are based on current DIR determination. Any future DIR escalation of prevailing wage rates will be reflected in the loaded rates
2. "NC" denotes No Charge for work more than 8 hours per day and for weekends and holidays for this contract only.
3. The billing rates shown in this cost proposal for field staff entitled for PW rates are calculated with estimated fringe benefits of the staff. The actual billing rates to be used in the invoices will be calculated by using the actual PW fringe benefits of the individual staff in accordance with the certified benefits statement submitted with each invoice.
4. The employees' actual hourly rates shown in this cost proposal are the rates that were effective on xx/xx/xx. Caltrans Contract Manager's pre-approval is required for addition of staff not previously listed on the cost proposal. The billing rates for these employees, including those that fall under general classifications, will be calculated and reimbursed based on their actual hourly rates on xx/xx/xx. Hourly rates for new employees hired after the date of this cost proposal will not exceed (or shall be in line with) the rates of similar personnel listed on this cost proposal having similar experience.
5. Travel Time Charges:

For Managers: On weekdays up to a maximum of 8 hours will be charged for work time, travel time or any combination of travel and work time. Billing Rate = Loaded Rate Formula "C" above.

For Exempt staff: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed as follow:
Billing rate for travel time = Loaded Rate Formula "C" above.
All travel time, outside of the regular work day, will be billed without the application of overhead rate as follow: Billing Rate = (Actual Hourly Rate) (1+ Fee) + (Delta Base + Delta Fringe)

For Non-Exempt Employees: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed at full normal overhead rate (i.e. without the application of the 1.5X or 2.0X multiplier for overtime as follow:

EXHIBIT 10-K CONSULTANT ANNUAL CERTIFICATION OF INDIRECT COSTS AND FINANCIAL MANAGEMENT SYSTEM

(Note: If a Safe Harbor Indirect Cost Rate is approved, this form is not required.)

Consultant's Full Legal Name: Kleinfelder, Inc.

Important: Consultant means the individual or consultant providing engineering and design related services as a party of a contract with a recipient or sub-recipient of Federal assistance. Therefore, the Indirect Cost Rate(s) shall not be combined with its parent company or subsidiaries.

Indirect Cost Rate:

Combined Rate 158.02 % **OR**

Home Office Rate_____% and Field Office Rate (if applicable)_____%

Facilities Capital Cost of Money 0.27 % (if applicable)

Fiscal period *4/1/2019 - 3/31/2020

* Fiscal period is annual one year applicable accounting period that the Indirect Cost Rate was developed (not the contract period). The Indirect Cost Rate is based on the consultant's one-year applicable accounting period for which financial statements are regularly prepared by the consultant.

I have reviewed the proposal to establish an Indirect Cost Rate(s) for the **fiscal period** as specified above and have determined to the best of my knowledge and belief that:

- All costs included in the cost proposal to establish the indirect cost rate(s) are allowable in accordance with the cost principles of the Federal Acquisition Regulation (FAR) 48, Code of Federal Regulations (CFR), Chapter 1, Part 31 (48 CFR Part 31);
- The cost proposal does not include any costs which are expressly unallowable under the cost principles of 48 CFR Part 31;
- The accounting treatment and billing of prevailing wage delta costs are consistent with our prevailing wage policy as either direct labor, indirect costs, or other direct costs on all federally-funded A&E Consultant Contracts.
- All known material transactions or events that have occurred subsequent to year-end affecting the consultant's ownership, organization, and indirect cost rates have been disclosed as of the date of this certification.

I am providing the required and applicable documents as instructed on Exhibit 10-A.

Financial Management System:

Our labor charging, job costing, and accounting systems meet the standards for financial reporting, accounting records, and internal control adequate to demonstrate that costs claimed have been incurred, appropriately accounted for, are allocable to the contract, and comply with the federal requirements as set forth in Title 23 United States Code (U.S.C.) Section 112(b)(2); 48 CFR Part 31.201-2(d); 23 CFR, Chapter 1, Part 172.11(a)(2); and all applicable state and federal rules and regulations.

Our financial management system has the following attributes:

- Account numbers identifying allowable direct, indirect, and unallowable cost accounts;
- Ability to accumulate and segregate allowable direct, indirect, and unallowable costs into separate cost

accounts;

- Ability to accumulate and segregate allowable direct costs by project, contract and type of cost;
- Internal controls to maintain integrity of financial management system;
- Ability to account and record costs consistently and to ensure costs billed are in compliance with FAR;
- Ability to ensure and demonstrate costs billed reconcile to general ledgers and job costing system; and
- Ability to ensure costs are in compliance with contract terms and federal and state requirement

Cost Reimbursements on Contracts:

I also understand that failure to comply with 48 CFR Part 16.301-3 or knowingly charge unallowable costs to Federal-Aid Highway Program (FAHP) contracts may result in possible penalties and sanctions as provided by the following:

- Sanctions and Penalties - 23 CFR Part 172.11(c)(4)
- False Claims Act - Title 31 U.S.C. Sections 3729-3733
- Statements or entries generally - Title 18 U.S.C. Section 1001
- Major Fraud Act - Title 18 U.S.C. Section 1031

All A&E Contract Information:

- Total participation amount $60,000,000 on all State and FAHP contracts for Architectural & Engineering services that the consultant received in the last three fiscal periods.
- The number of states in which the consultant does business is 18.00.
- Years of consultant's experience with 48 CFR Part 31 is 22.00.
- Audit history of the consultant's current and prior years (if applicable)

☑ Cognizant ICR Audit ☐ Local Gov't ICR Audit ☑ Caltrans ICR Audit
☑ CPA ICR Audit ☐ Federal Gov't ICR Audit

I, the undersigned, certify all of the above to the best of my knowledge and belief and that I have reviewed the Indirect Cost Rate Schedule to determine that any costs which are expressly unallowable under the Federal cost principles have been removed and comply with Title 23 U.S.C. Section 112(b)(2), 48 CFR Part 31, 23 CFR Part 172, and all applicable state and federal rules and regulations. I also certify that I understand that all documentation of compliance must be retained by the consultant. I hereby acknowledge that costs that are noncompliant with the federal and state requirements are not eligible for reimbursement and must be returned to Caltrans.

Subconsultant:					

1. List other direct cost items with estimated costs. These costs should be competitive in their respective industries and supported with appropriate documentation.
2. Proposed ODC items should be consistently billed regardless of client and contract type.
3. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
4. Items such as special tooling, will be reimbursed at actual cost with supporting documentation (invoice).
5. Items listed above that would be considered "tools of the trade" are not reimbursable as other direct cost.
6. Travel related costs should be pre-approved by the contracting agency and shall not exceed current State Department of Personnel Administration rules.
7. If mileage is claimed, the rate should be properly supported by the consultant's calculation of their actual costs for company vehicles. In addition, the miles claimed should be supported by mileage logs.
8. If a consultant proposes rental costs for a vehicle, the company must demonstrate that this is its standard procedure for all of their contracts and that they do not own any vehicles that could be used for the same purpose.
9. The cost proposal format shall not be amended. All costs must comply with the Federal cost principles.
10. Add additional pages if necessary.
11. Subconsultants must provide their own cost proposals.

EXHIBIT 10-H2 COST PROPOSAL

Certification of Direct Costs:

I, the undersigned, certify to the best of my knowledge and belief that all direct costs identified on the cost proposal(s) in this contract are actual, reasonable, allowable, and allocable to the contract in accordance with the contract terms and the following requirements:

1. Generally Accepted Accounting Principles (GAAP)
2. Terms and conditions of the contract
3. Title 23 United States Code Section 112 - Letting of Contracts
4. 48 Code of Federal Regulations Part 31 - Contract Cost Principles and Procedures
5. 23 Code of Federal Regulations Part 172 - Procurement, Management, and Administration of Engineering and Design Related Service
6. 48 Code of Federal Regulations Part 9904 - Cost Accounting Standards Board (when applicable)

All costs must be applied consistently and fairly to all contracts. All documentation of compliance must be retained in the project files and be in compliance with applicable federal and state requirements. Costs that are noncompliant with the federal and state requirements are not eligible for reimbursement.

1. Prevailing Wages specified are based on current DIR determination. Any future DIR escalation of prevailing wage rates will be reflected in the loaded rates
2. "NC" denotes No Charge for work more than 8 hours per day and for weekends and holidays for this contract only.
3. The billing rates shown in this cost proposal for field staff entitled for PW rates are calculated with estimated fringe benefits of the staff. The actual billing rates to be used in the invoices will be calculated by using the actual PW fringe benefits of the individual staff in accordance with the certified benefits statement submitted with each invoice.
4. The employees' actual hourly rates shown in this cost proposal are the rates that were effective on xx/xx/xx. Caltrans Contract Manager's pre-approval is required for addition of staff not previously listed on the cost proposal. The billing rates for these employees, including those that fall under general classifications, will be calculated and reimbursed based on their actual hourly rates on xx/xx/xx. Hourly rates for new employees hired after the date of this cost proposal will not exceed (or shall be in line with) the rates of similar personnel listed on this cost proposal having similar experience.
5. Travel Time Charges:

For Managers: On weekdays up to a maximum of 8 hours will be charged for work time, travel time or any combination of travel and work time. Billing Rate = Loaded Rate Formula "C" above.

For Exempt staff: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed as follow:

Billing rate for travel time = Loaded Rate Formula "C" above.

All travel time, outside of the regular work day, will be billed without the application of overhead rate as follow: Billing Rate = (Actual Hourly Rate) (1+ Fee) + (Delta Base + Delta Fringe)

For Non-Exempt Employees: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed at full normal overhead rate (i.e. without the application of the 1.5X or 2.0X multiplier for overtime as follow:

Please Note: Consultant completes all applicable items and deletes what is not applicable

Important Notes:
1. "N/C" denotes No Charge
2. Pre-approved travel and Per Diem will be reimbursed in accordance with the current Caltrans Travel Guide for consultants, and detailed in executed Task Order Cost Estimates. No charge will be invoiced for employee relocation costs.
3. Actual costs are based on prices from appropriate vendors and should be competitive in their respective industries. The costs will be supported with appropriate documents detailed in executed Task Order Cost Estimates. Proposed vendors shall be presented in the Task Order Cost Estimate for each project. Pre-approval by the Caltrans Contract Manager will be required and shall be submitted along with the actual invoice.
4. Parking, tolls and local transportation cost resulting from commuting to and from the employee's residence to the job site as assigned in the Task Order are not reimbursable.
5. Other Direct Cost (ODC) items claimed shall be in compliance with 48 Code of Federal Regulation, Chapter 1, part 31 (Federal Acquistion Regulation – FAR cost principles) and shall be consistent with the firm's company-wide allocation policies and charging practices with all clients including federal government, state governments, local agencies and private clients.
6. Proposed items shall be consistently billed directly to all clients (Commercial entities, Federal Govt., State Govt., and Local Govt. Agency), and not just when the client will pay for them as a direct cost.
7. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
8. For those items listed here as "tools of the trade" that is part of indirect cost and not applicable as a direct cost, note as Not Applicable (NA).

EXHIBIT 10-K CONSULTANT ANNUAL CERTIFICATION OF INDIRECT COSTS AND FINANCIAL MANAGEMENT SYSTEM

(Note: If a Safe Harbor Indirect Cost Rate is approved, this form is not required.)

Consultant's Full Legal Name: RFE Engineering, Inc.

Important: Consultant means the individual or consultant providing engineering and design related services as a party of a contract with a recipient or sub-recipient of Federal assistance. Therefore, the Indirect Cost Rate(s) shall not be combined with its parent company or subsidiaries.

Indirect Cost Rate:

Combined Rate 119.19 % **OR**

Home Office Rate_____% and Field Office Rate (if applicable)_____%

Facilities Capital Cost of Money_____% (if applicable)

Fiscal period * January 2021-December 2021

* Fiscal period is annual one year applicable accounting period that the Indirect Cost Rate was developed (not the contract period). The Indirect Cost Rate is based on the consultant's one-year applicable accounting period for which financial statements are regularly prepared by the consultant.

I have reviewed the proposal to establish an Indirect Cost Rate(s) for the **fiscal period** as specified above and have determined to the best of my knowledge and belief that:

- All costs included in the cost proposal to establish the indirect cost rate(s) are allowable in accordance with the cost principles of the Federal Acquisition Regulation (FAR) 48, Code of Federal Regulations (CFR), Chapter 1, Part 31 (48 CFR Part 31);
- The cost proposal does not include any costs which are expressly unallowable under the cost principles of 48 CFR Part 31;
- The accounting treatment and billing of prevailing wage delta costs are consistent with our prevailing wage policy as either direct labor, indirect costs, or other direct costs on all federally-funded A&E Consultant Contracts.
- All known material transactions or events that have occurred subsequent to year-end affecting the consultant's ownership, organization, and indirect cost rates have been disclosed as of the date of this certification.

I am providing the required and applicable documents as instructed on Exhibit 10-A.

Financial Management System:

Our labor charging, job costing, and accounting systems meet the standards for financial reporting, accounting records, and internal control adequate to demonstrate that costs claimed have been incurred, appropriately accounted for, are allocable to the contract, and comply with the federal requirements as set forth in Title 23 United States Code (U.S.C.) Section 112(b)(2); 48 CFR Part 31.201-2(d); 23 CFR, Chapter 1, Part 172.11(a)(2); and all applicable state and federal rules and regulations.

Our financial management system has the following attributes:

- Account numbers identifying allowable direct, indirect, and unallowable cost accounts;
- Ability to accumulate and segregate allowable direct, indirect, and unallowable costs into separate cost

accounts;

- Ability to accumulate and segregate allowable direct costs by project, contract and type of cost;
- Internal controls to maintain integrity of financial management system;
- Ability to account and record costs consistently and to ensure costs billed are in compliance with FAR;
- Ability to ensure and demonstrate costs billed reconcile to general ledgers and job costing system; and
- Ability to ensure costs are in compliance with contract terms and federal and state requirement

Cost Reimbursements on Contracts:

I also understand that failure to comply with 48 CFR Part 16.301-3 or knowingly charge unallowable costs to Federal-Aid Highway Program (FAHP) contracts may result in possible penalties and sanctions as provided by the following:

- Sanctions and Penalties - 23 CFR Part 172.11(c)(4)
- False Claims Act - Title 31 U.S.C. Sections 3729-3733
- Statements or entries generally - Title 18 U.S.C. Section 1001
- Major Fraud Act - Title 18 U.S.C. Section 1031

All A&E Contract Information:

- Total participation amount $ 250,000 on all State and FAHP contracts for Architectural & Engineering services that the consultant received in the last three fiscal periods.
- The number of states in which the consultant does business is 1.00.
- Years of consultant's experience with 48 CFR Part 31 is 4.00.
- Audit history of the consultant's current and prior years (if applicable)

☐ Cognizant ICR Audit ☐ Local Gov't ICR Audit ☑ Caltrans ICR Audit
☐ CPA ICR Audit ☐ Federal Gov't ICR Audit

I, the undersigned, certify all of the above to the best of my knowledge and belief and that I have reviewed the Indirect Cost Rate Schedule to determine that any costs which are expressly unallowable under the Federal cost principles have been removed and comply with Title 23 U.S.C. Section 112(b)(2), 48 CFR Part 31, 23 CFR Part 172, and all applicable state and federal rules and regulations. I also certify that I understand that all documentation of compliance must be retained by the consultant. I hereby acknowledge that costs that are noncompliant with the federal and state requirements are not eligible for reimbursement and must be returned to Caltrans.

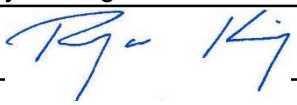
Subconsultant:					

1. List other direct cost items with estimated costs. These costs should be competitive in their respective industries and supported with appropriate documentation.
2. Proposed ODC items should be consistently billed regardless of client and contract type.
3. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
4. Items such as special tooling, will be reimbursed at actual cost with supporting documentation (invoice).
5. Items listed above that would be considered "tools of the trade" are not reimbursable as other direct cost.
6. Travel related costs should be pre-approved by the contracting agency and shall not exceed current State Department of Personnel Administration rules.
7. If mileage is claimed, the rate should be properly supported by the consultant's calculation of their actual costs for company vehicles. In addition, the miles claimed should be supported by mileage logs.
8. If a consultant proposes rental costs for a vehicle, the company must demonstrate that this is its standard procedure for all of their contracts and that they do not own any vehicles that could be used for the same purpose.
9. The cost proposal format shall not be amended. All costs must comply with the Federal cost principles.
10. Add additional pages if necessary.
11. Subconsultants must provide their own cost proposals.

EXHIBIT 10-H2 COST PROPOSAL

Certification of Direct Costs:



I, the undersigned, certify to the best of my knowledge and belief that all direct costs identified on the cost proposal(s) in this contract are actual, reasonable, allowable, and allocable to the contract in accordance with the contract terms and the following requirements:

1. Generally Accepted Accounting Principles (GAAP)
2. Terms and conditions of the contract
3. Title 23 United States Code Section 112 - Letting of Contracts
4. 48 Code of Federal Regulations Part 31 - Contract Cost Principles and Procedures
5. 23 Code of Federal Regulations Part 172 - Procurement, Management, and Administration of Engineering and Design Related Service
6. 48 Code of Federal Regulations Part 9904 - Cost Accounting Standards Board (when applicable)

All costs must be applied consistently and fairly to all contracts. All documentation of compliance must be retained in the project files and be in compliance with applicable federal and state requirements. Costs that are noncompliant with the federal and state requirements are not eligible for reimbursement.

1. Prevailing Wages specified are based on current DIR determination. Any future DIR escalation of prevailing wage rates will be reflected in the loaded rates
2. "NC" denotes No Charge for work more than 8 hours per day and for weekends and holidays for this contract only.
3. The billing rates shown in this cost proposal for field staff entitled for PW rates are calculated with estimated fringe benefits of the staff. The actual billing rates to be used in the invoices will be calculated by using the actual PW fringe benefits of the individual staff in accordance with the certified benefits statement submitted with each invoice.
4. The employees' actual hourly rates shown in this cost proposal are the rates that were effective on xx/xx/xx. Caltrans Contract Manager's pre-approval is required for addition of staff not previously listed on the cost proposal. The billing rates for these employees, including those that fall under general classifications, will be calculated and reimbursed based on their actual hourly rates on xx/xx/xx. Hourly rates for new employees hired after the date of this cost proposal will not exceed (or shall be in line with) the rates of similar personnel listed on this cost proposal having similar experience.
5. Travel Time Charges:
   For Managers: On weekdays up to a maximum of 8 hours will be charged for work time, travel time or any combination of travel and work time. Billing Rate = Loaded Rate Formula "C" above.
   For Exempt staff: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed as follow:
   Billing rate for travel time = Loaded Rate Formula "C" above.
   All travel time, outside of the regular work day, will be billed without the application of overhead rate as follow: Billing Rate = (Actual Hourly Rate) (1+ Fee) + (Delta Base + Delta Fringe)
   For Non-Exempt Employees: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed at full normal overhead rate (i.e. without the application of the 1.5X or 2.0X multiplier for overtime as follow:

Please Note: Consultant completes all applicable items and deletes what is not applicable

Important Notes:
1. "N/C" denotes No Charge
2. Pre-approved travel and Per Diem will be reimbursed in accordance with the current Caltrans Travel Guide for consultants, and detailed in executed Task Order Cost Estimates. No charge will be invoiced for employee relocation costs.
3. Actual costs are based on prices from appropriate vendors and should be competitive in their respective industries. The costs will be supported with appropriate documents detailed in executed Task Order Cost Estimates. Proposed vendors shall be presented in the Task Order Cost Estimate for each project. Pre-approval by the Caltrans Contract Manager will be required and shall be submitted along with the actual invoice.
4. Parking, tolls and local transportation cost resulting from commuting to and from the employee's residence to the job site as assigned in the Task Order are not reimbursable.
5. Other Direct Cost (ODC) items claimed shall be in compliance with 48 Code of Federal Regulation, Chapter 1, part 31 (Federal Acquistion Regulation – FAR cost principles) and shall be consistent with the firm's company-wide allocation policies and charging practices with all clients including federal government, state governments, local agencies and private clients.
6. Proposed items shall be consistently billed directly to all clients (Commercial entities, Federal Govt., State Govt., and Local Govt. Agency), and not just when the client will pay for them as a direct cost.
7. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
8. For those items listed here as "tools of the trade" that is part of indirect cost and not applicable as a direct cost, note as Not Applicable (NA).

EXHIBIT 10-K CONSULTANT ANNUAL CERTIFICATION OF INDIRECT COSTS AND FINANCIAL MANAGEMENT SYSTEM

(Note: If a Safe Harbor Indirect Cost Rate is approved, this form is not required.)

Consultant's Full Legal Name: Terracon Consultants, Inc.

Important: Consultant means the individual or consultant providing engineering and design related services as a party of a contract with a recipient or sub-recipient of Federal assistance. Therefore, the Indirect Cost Rate(s) shall not be combined with its parent company or subsidiaries.

Indirect Cost Rate:

Combined Rate _____ % **OR**

Home Office Rate 177.53 % and Field Office Rate (if applicable) 145.22 %

Facilities Capital Cost of Money 0.53 % (if applicable)

Fiscal period * 1/1/2020 - 12/31/2020

* Fiscal period is annual one year applicable accounting period that the Indirect Cost Rate was developed (not the contract period). The Indirect Cost Rate is based on the consultant's one-year applicable accounting period for which financial statements are regularly prepared by the consultant.

I have reviewed the proposal to establish an Indirect Cost Rate(s) for the **fiscal period** as specified above and have determined to the best of my knowledge and belief that:

- All costs included in the cost proposal to establish the indirect cost rate(s) are allowable in accordance with the cost principles of the Federal Acquisition Regulation (FAR) 48, Code of Federal Regulations (CFR), Chapter 1, Part 31 (48 CFR Part 31);
- The cost proposal does not include any costs which are expressly unallowable under the cost principles of 48 CFR Part 31;
- The accounting treatment and billing of prevailing wage delta costs are consistent with our prevailing wage policy as either direct labor, indirect costs, or other direct costs on all federally-funded A&E Consultant Contracts.
- All known material transactions or events that have occurred subsequent to year-end affecting the consultant's ownership, organization, and indirect cost rates have been disclosed as of the date of this certification.

I am providing the required and applicable documents as instructed on Exhibit 10-A.

Financial Management System:

Our labor charging, job costing, and accounting systems meet the standards for financial reporting, accounting records, and internal control adequate to demonstrate that costs claimed have been incurred, appropriately accounted for, are allocable to the contract, and comply with the federal requirements as set forth in Title 23 United States Code (U.S.C.) Section 112(b)(2); 48 CFR Part 31.201-2(d); 23 CFR, Chapter 1, Part 172.11(a)(2); and all applicable state and federal rules and regulations.

Our financial management system has the following attributes:

- Account numbers identifying allowable direct, indirect, and unallowable cost accounts;
- Ability to accumulate and segregate allowable direct, indirect, and unallowable costs into separate cost

accounts;

- Ability to accumulate and segregate allowable direct costs by project, contract and type of cost;
- Internal controls to maintain integrity of financial management system;
- Ability to account and record costs consistently and to ensure costs billed are in compliance with FAR;
- Ability to ensure and demonstrate costs billed reconcile to general ledgers and job costing system; and
- Ability to ensure costs are in compliance with contract terms and federal and state requirement

Cost Reimbursements on Contracts:

I also understand that failure to comply with 48 CFR Part 16.301-3 or knowingly charge unallowable costs to Federal-Aid Highway Program (FAHP) contracts may result in possible penalties and sanctions as provided by the following:

- Sanctions and Penalties - 23 CFR Part 172.11(c)(4)
- False Claims Act - Title 31 U.S.C. Sections 3729-3733
- Statements or entries generally - Title 18 U.S.C. Section 1001
- Major Fraud Act - Title 18 U.S.C. Section 1031

All A&E Contract Information:

- Total participation amount $440,000,000.00 on all State and FAHP contracts for Architectural & Engineering services that the consultant received in the last three fiscal periods.
- The number of states in which the consultant does business is 50.00.
- Years of consultant's experience with 48 CFR Part 31 is 55.00.
- Audit history of the consultant's current and prior years (if applicable)

☐ Cognizant ICR Audit ☐ Local Gov't ICR Audit ☐ Caltrans ICR Audit
☑ CPA ICR Audit ☐ Federal Gov't ICR Audit

I, the undersigned, certify all of the above to the best of my knowledge and belief and that I have reviewed the Indirect Cost Rate Schedule to determine that any costs which are expressly unallowable under the Federal cost principles have been removed and comply with Title 23 U.S.C. Section 112(b)(2), 48 CFR Part 31, 23 CFR Part 172, and all applicable state and federal rules and regulations. I also certify that I understand that all documentation of compliance must be retained by the consultant. I hereby acknowledge that costs that are noncompliant with the federal and state requirements are not eligible for reimbursement and must be returned to Caltrans.

			Total ODC's	$0.00

Note: Add Additional pages if necessary.

NOTES:
1. List other direct cost items with estimated costs. These costs should be competitive in their respective industries and supported with appropriate documentation.
2. Proposed ODC items should be consistently billed regardless of client and contract type.
3. Items when incurred for the same purpose, in like circumstance, should not be included in any indirect cost pool or in the overhead rate.
4. Items such as special tooling, will be reimbursed at actual cost with supporting documentation (invoice).
5. Items listed above that would be considered "tools of the trade" are not reimbursable as other direct cost.
6. Travel related costs should be pre-approved by the contracting agency and shall not exceed current State Department of Personnel Administration rules.
7. If mileage is claimed, the rate should be properly supported by the consultant's calculation of their actual costs for company vehicles. In addition, the miles claimed should be supported by mileage logs.
8. If a consultant proposes rental costs for a vehicle, the company must demonstrate that this is its standard procedure for all of their contracts and that they do not own any vehicles that could be used for the same purpose.
9. The cost proposal format shall not be amended. All costs must comply with the Federal cost principles.
10. Add additional pages if necessary.
11. Subconsultants must provide their own cost proposals

EXHIBIT 10-H2 COST PROPOSAL Page 3 of 3

Certification of Direct Costs:

I, the undersigned, certify to the best of my knowledge and belief that all direct costs identified on the cost proposal(s) in this contract are actual, reasonable, allowable, and allocable to the contract in accordance with the contract terms and the following requirements:

1. Generally Accepted Accounting Principles (GAAP)
2. Terms and conditions of the contract
3. Title 23 United States Code Section 112 - Letting of Contracts
4. 48 Code of Federal Regulations Part 31 - Contract Cost Principles and Procedures
5. 23 Code of Federal Regulations Part 172 - Procurement, Management, and Administration of Engineering and Design Related Service
6. 48 Code of Federal Regulations Part 9904 - Cost Accounting Standards Board (when applicable)

All costs must be applied consistently and fairly to all contracts. All documentation of compliance must be retained in the project files and be in compliance with applicable federal and state requirements. Costs that are noncompliant with the federal and state requirements are not eligible for reimbursement.
Local governments are responsible for applying only cognizant agency approved or Caltrans accepted Indirect Cost Rate(s).

For Subconsultant Firms – estimated % of work to be performed **TBD** _____ %

Safe Harbor Indirect Cost Rate (SHR): **Home: 120% and/or Field: 90%**
Field SHR will be utilized for contracts where the work deliverables are not completed from the consultant offices (i.e. Construction Inspection, Material Testing, Sources Inspection, others)**.**

Consultant Firm Certification of Eligibility

I, the undersigned, certify that I am eligible to use the Safe Harbor indirect cost rate as I:

1. Am not a Prime Consultant Firm on a Caltrans contract > $3.5M, or
   Local Government contract > $1M, regardless of the participation amount.
2. Have not used SHR for more than three (3) years since entering the program on a state or federally funded contract.

   AND

1. Do not have relevant contract cost history to use as a base for developing a Federal Acquisition Regulations (FAR) of Title 48, Code of Federal Regulations (CFR), Part 31 compliant ICR.
2. Do not have a previously accepted ICR by a cognizant agency, or with an audited/accepted actual ICR, and do not have an existing contract with a provisional rate.

Certification of Financial Management System

I, the undersigned, certify that our financial management system in place for this contract and moving forward meets the standards for the Safe Harbor indirect cost rate requirements and financial reporting, accounting records, internal and budget control as set forth in 2 CFR 200, Subpart D. These standards require consulting firms have an accounting system

adequate to accumulate, and track allowable, allocable, and reasonable direct labor and other direct costs by contract; segregate indirect costs and remove unallowable costs.

Date Completed 5/17/2021 _____

Note: The certification of this Safe Harbor Rate was made by, and are the responsibility of, the Company's management.

Definition of Terms

Direct Cost is any cost that is identified specifically with a particular cost objective. Direct costs are not limited to items that are incorporated in the end products as material or labor. Costs identified specifically with a contract are direct costs of that contract. All costs identified with other final cost objectives of the contractor are direct costs of those objectives, 48 CFR 31.202.

Indirect or overhead cost is any cost that is not directly identified with a single final cost objective but is identified with two or more final cost objectives or with at least one intermediate cost objective, 48 CFR 31. 203.

COUNCIL COMMUNICATION

CC #: 1850
File #: 0721 & 0214

Title:	Federal Transit Administration - Grant Authorization for Transit Fleet Replacement
Contact:	Ed Scofield 916-774-5449 ecscofield@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.12.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt the attached resolution authorizing the City Manager or his designee to submit an FTA Fiscal Year 2021 5339(b) Buses and Bus Facilities Infrastructure Investment Program grant for $5,320,000 for the purchase of up to seven zero-emission electric transit buses, and to execute the related forms and agreements necessary for implementation of the grant and for use of the funds should the grant funds be awarded.

BACKGROUND

State legislative mandates, state and federal funding support, and advancements in bus electrification technology have compelled Alternative Transportation staff to begin the pursuit of transit fleet electrification. As part of Roseville Transit's transition from diesel-powered buses to zero-emission electric buses, staff is submitting a grant request to purchase seven electric buses to replace existing commuter buses that were put into service in 2009. This purchase is consistent with the Roseville Short Range Transit Plan's Fleet Utilization and Replacement Plan, as well as Roseville Transit's most recent Transit Asset Management Plan.

City staff is requesting Council authorization to apply for a grant through the FTA 5339(b) Buses and Bus Facilities Infrastructure Investment Program. This grant proposal would pay for 80% of the buses. The remaining 20%, which represents the minimum local match, would likely come from local transit funds.

In 2018, the California Air Resources Board mandated that California transit bus fleets must be converted to zero-emission vehicles by 2040 and that all bus purchases in 2029 and after must be zero emission buses. Staff continues to work towards satisfying this mandate. In October, staff issued a purchase order for the acquisition of its first five electric commuter buses. Additionally, design is nearly complete on the future electric bus charging facility that will be constructed in 2022 at the Corp Yard. This facility will be the charging location for the future seven buses once acquired.

The bus procurement will take approximately two years to complete and will begin in in mid-2022. Staff expects to utilize the State of California's existing bus contracts to purchase the seven

vehicles.

FISCAL IMPACT

The total estimated cost of the buses is anticipated to be up to $6,650,000. If successful, the 5339(b) Buses and Bus Infrastructure Program grant would pay for $5,320,000. The remaining $1,330,000 would be paid by local transit funds. Staff will continue to seek other grant opportunities, such as the State of California's Hybrid and Zero-Emission Truck and Bus Voucher Incentive Program (HVIP), to help fund the balance of this bus purchase. In the event that FTA awards a lesser grant amount, the local funds will be reduced proportionally to meet the required 80/20 match requirement. Staff will present a final funding plan for the project to the City Council at a future meeting. No General Fund resources will be used for this project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3). Applying for Low or No Emission grant funds does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Description

RESOLUTION NO. 21-490

AUTHORIZING THE CITY MANAGER TO SUBMIT A 5339(B) GRANT APPLICATION AND TO EXECUTE THE RELATED GRANT APPLICATION, FORMS AND AGREEMENTS

WHEREAS, state legislative mandates, state and federal funding support, and advancements in bus electrification technology have compelled Alternative Transportation staff to begin the pursuit of transit fleet electrification; and

WHEREAS, as part of Roseville Transit's transition from diesel-powered buses to zero-emission electric buses, staff would like to submit a grant request to purchase seven electric buses to replace existing commuter buses that were put into service in 2009; and

WHEREAS, funds from the Federal Transit Authority (FTA) 5339(b) Buses and Bus Facilities Infrastructure Investment Program grant would pay for 80% of the buses and the remaining 20%, which represents the minimum local match, would likely come from local transit funds; and

WHEREAS, staff recommends the City of Roseville apply for a grant of FTA §5339 funds in the amount of $5,320,000.

NOW THEREFORE, BE IT RESOLVED, that the City Council of the City of Roseville hereby authorizes the City Manager or his designee to submit all applications, forms and agreements for use of available FTA funds, and to execute the related forms and agreements.

COUNCIL COMMUNICATION

CC #: 1848
File #: 0704-02

Title: Sunset Industrial Ponds - Limited Right of Entry Agreement
Contact: Eric Dexter 916-746-1769 edexter@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.13.

RECOMMENDATION TO COUNCIL

Staff recommends adoption of a resolution authorizing the City Manager to execute the Limited Right of Entry Agreement between the City of Roseville and Placer County, allowing City Staff to enter County property to access the Foothills Business Park Preserve to perform required maintenance activities within the preserve.

BACKGROUND

The City of Roseville owns and manages the Foothills Business Park Preserve located on the Northern boundary of the City adjacent to a parcel owned by Placer County, Sunset Industrial Ponds. Due to the location of the Foothills Business Park Preserve, vehicle access is blocked or very difficult to manage. The most accessible point of entrance is off Cincinnati Ave through the Placer County parcel. The City of Roseville Parks Division has worked with Placer County to gain access through County property since 2010. The current five-year agreement expires in 2021. This agreement, like the previous agreement, has an initial term of one year and will automatically renew on an annual basis for up to five years, unless otherwise terminated by either party. This agreement will terminate in 2026.

The access will be utilized to perform routine maintenance in the preserve, the creek, and to install and maintain tree mitigation projects.

FISCAL IMPACT

The Right-of-Entry agreement will have no impact on the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). The Sunset Industrial Ponds

Right of Entry Agreement does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

SUNSET INDUSTRIAL PONDS

This Limited Right of Entry Agreement, hereinafter referred to as "Agreement" is made and entered into the day of _____, by and between, the City of Roseville, hereinafter referred to as “Licensee,” and the County of Placer, hereinafter referred to as "County." Licensee and County are sometimes hereafter each singularly referred to as “PARTY” and collectively referred to as the “PARTIES.”

RECITALS:

WHEREAS, Licensee desires to perform routine maintenance consisting of invasive species removal, firebreak mowing, trash clean up, erosion control, creek maintenance, and biological monitoring of the natural resources, and for mitigation planting of approximately 1,800 oak trees by Licensee on the Licensee’s property; and,

WHEREAS, County is the owner of the following property:

Property Description/Address	Assessor’s Parcel Number(s)
Sunset Industrial Ponds	017-117-009-000 (as deeded to County and recorded in Document No. 19829, Official Records of Placer County)

The above-described property is hereinafter referred to as “County’s Property” and are depicted on Exhibit A attached hereto; and,

WHEREAS, the County is willing to grant this non-exclusive Right of Entry to Licensee to access County’s Property, based on the following terms and conditions, which provide the County with assurances and protections in connection with this access.

NOW THEREFORE, in consideration of the mutual promises and obligations contained herein, the PARTIES agree as follows:

1. Entry: Licensee, or its contractor, shall have the non-exclusive right, upon reasonable advance written notice as provided herein, to access County’s Property using the Access Way as depicted on Exhibit A for the purposes described in Section 3. Upon such notice to County, County and Licensee shall confirm the duration and times that Licensee will access County’s Property. County may at its sole discretion deny entry for any reason. The requirement to provide advance written notice shall be waived in circumstances where Licensee’s access is necessary for an emergency. This Agreement grants no rights of access to any other areas associated with the County’s Property.

2. Term: The Initial Term of this Agreement (“Initial Term”) shall be for one (1) year commencing on the Effective Date of this Agreement. Said Effective Date shall be the date upon which the last PARTY signs the Agreement. Following the Initial Term, this Agreement shall automatically renew on annual basis unless otherwise terminated pursuant to Section 10. The maximum duration of this agreement shall not exceed five years from the Effective Date.

3. Purpose: The purpose of this Agreement is to provide Licensee, its agents or its Contractors access to County’s Property via the Access Way to access adjacent Licensee property to plant and periodically perform routine and emergency maintenance consisting of invasive

species removal, firebreak mowing, trash clean up, planting, erosion control, creek maintenance, and biological monitoring of the natural resources, and the future planting of mitigation trees by Licensee on the Licensee's property. Licensee, its Agent, or its Contractor may not for any reason provide services to or from the County's Property. Licensee typically accesses County's Property once in the Spring, Summer, and Fall seasons, and as needed to perform maintenance.

4. Damage to Property: Licensee, its agents, or its contractors shall take all reasonable precautions to avoid damage to the County's Property. County may conduct an inspection of the County's Property following each Entry Period and shall notify Licensee of any damage discovered. If County determines that the County's Property has not been left in a satisfactory condition, Licensee agrees to immediately take all steps necessary to return it to such condition.

5. Hazardous Materials: Licensee shall not keep on the County's Property any substance, material, and/or waste that is or becomes regulated or classified as hazardous or toxic under any federal, State or local laws or regulations. The indemnity provisions of Section 7 of this Agreement apply to any claims, losses and/or liabilities associated with any such hazardous or toxic substance, material, and/or waste.

6. Insurance: Licensee for itself shall procure and require its Representatives to obtain insurance in accordance with Exhibit C of this Agreement. Licensee shall provide a copy of its insurance policy to County by email to: ptatoole@placer.ca.gov.

7. Hold Harmless: Licensee hereby agrees to protect, defend, indemnify, and hold County free and harmless from any and all losses, claims, liens, demands, and causes of action of every kind and character, including, but not limited to, the amounts of judgments, penalties, interest, court costs, legal fees, and all other expenses incurred by County incident to, in connection with, or arising directly or indirectly out of the contract or agreement. Licensee agrees to investigate, respond to, provide defense for, and defend any such claims, demands, or suits at the sole expense of Licensee. Licensee also agrees to bear all other costs and expenses related thereto, even if the claim or claims alleged are groundless, false, or fraudulent. As used in this section, the term County means Placer County or its officers, agents, employees, and volunteers. This section shall survive the expiration or termination of this Agreement.

   As used above, the term County means County or its officers, agents, employees, and volunteers.

8. Notices:

   All notices required or authorized by this Agreement shall be in writing and shall be deemed to have been served if (1) sent by email (upon confirmation by recipient); (2) personally delivered (upon delivery); or (3) deposited in the United States mail, postage prepaid and properly addressed as set forth below (three days after deposit). Notice given by any other means that is actually received shall also be effective with respect to the receiving party. Changes in contact person or address information shall be made by notice, in writing, to the other party.

9. All Rights Included: The right granted to Licensee in this Agreement is only for the term stated in Section 2 and for the purpose stated in Section 3. Nothing in this Agreement shall be construed as to grant Licensee any other rights or privileges in connection with the County's Property. Approval of this Agreement in no way obligates the County to allow access to the County's Property in the future.

10. Termination: County shall have the right to terminate this Agreement at any time during the Term by giving sixty (60) days advance written notice to Licensee. Failure to comply with this Agreement will result in the immediate revocation of this Agreement and a requirement to immediately vacate the County's Property.

11. Authority and Execution: Each signatory executing this Agreement on behalf of a PARTY represents and warrants that such person is duly and validly authorized to do so on behalf of the entity which it purports to bind and, if such PARTY is a partnership, corporation or trustee, that such partnership, corporation or trustee has full right and authority to enter into this Agreement and any rights granted by this Agreement.

IN WITNESS WHEREOF, the PARTIES have executed this Agreement, which shall be effective on the day and year the last PARTY signs herein.

EXHIBIT A
COUNTY'S PROPERTY
APN 017-117-009-000

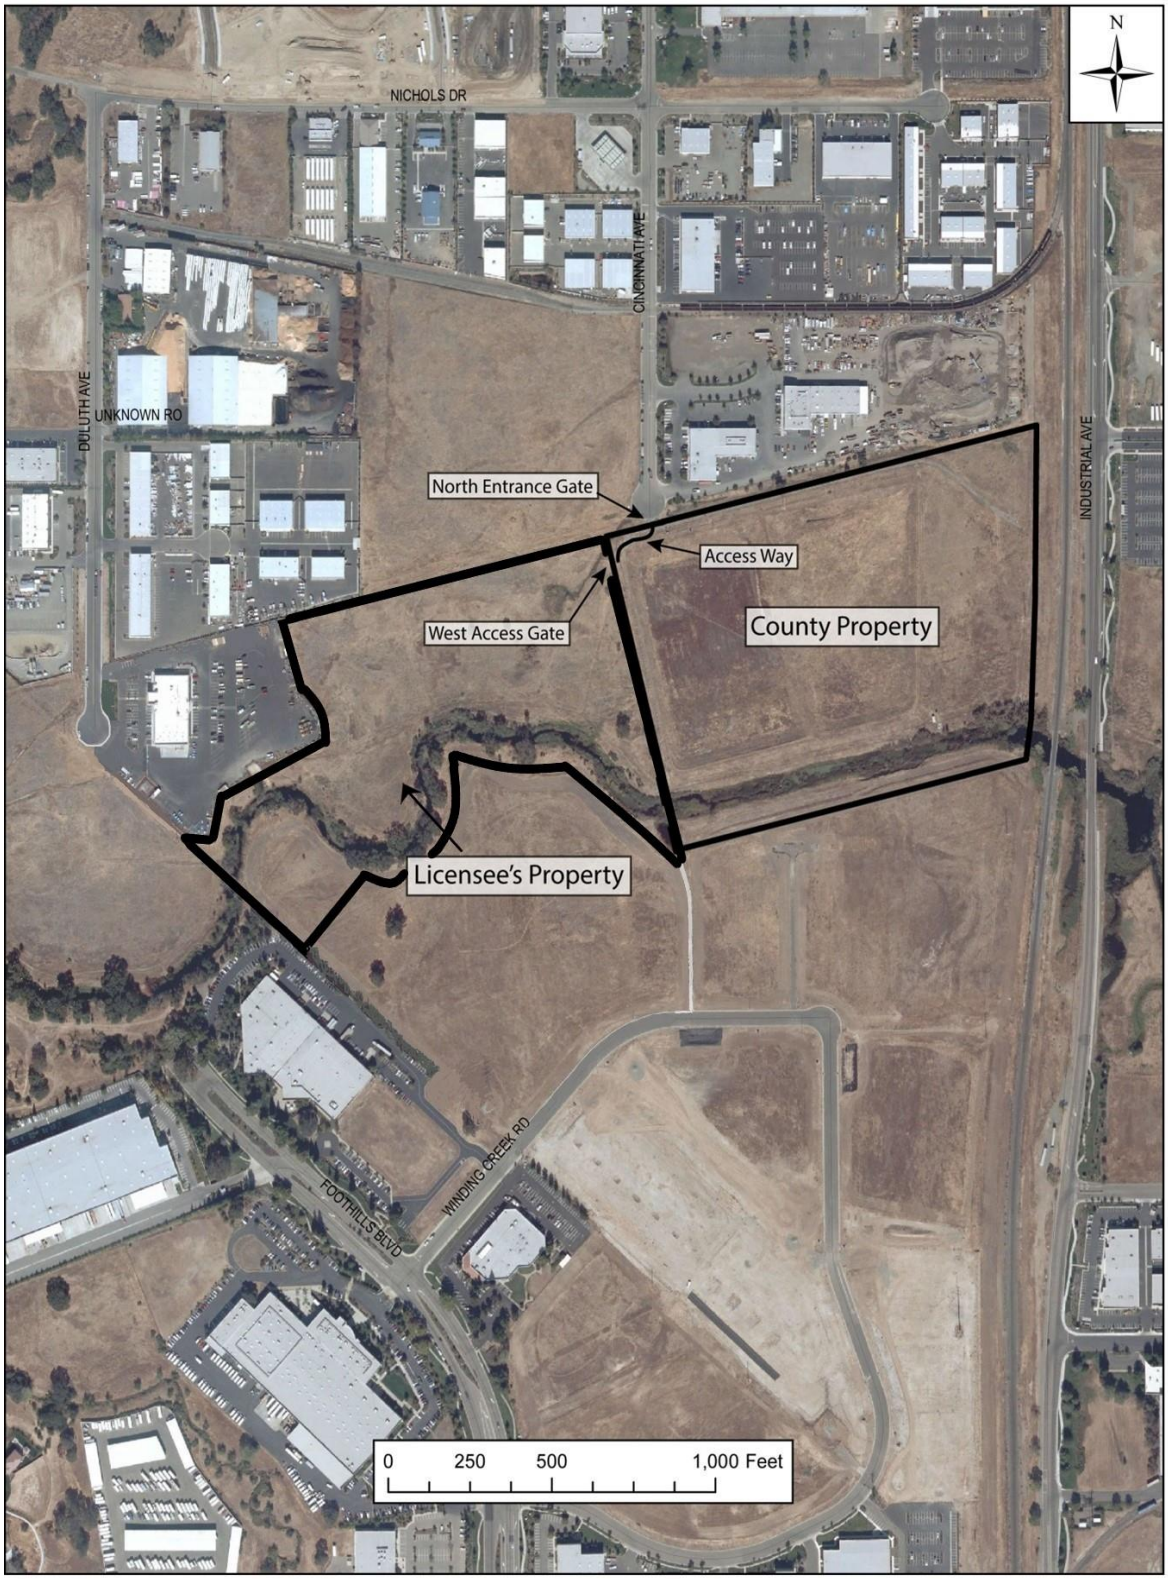

EXHIBIT B
GENERAL PROVISIONS

1. ENTIRE AGREEMENT.
This Agreement and any attachments hereto constitute the sole, final, complete, exclusive, and integrated expression and statement of the terms and conditions of the agreement among the PARTIES hereto concerning the subject matter addressed herein, and supersede all prior negotiations, representations, or agreements, oral or written, that may be related to the subject matter of this Agreement.

2. EXHIBITS.
Any and all exhibits referred to in and/or attached to this Agreement are hereby incorporated into this Agreement as if set forth in full herein.

3. AMENDMENTS.
No revision or amendment to this Agreement shall be valid unless made in writing and signed by duly authorized representatives of all PARTIES.

4. FURTHER ASSURANCES.
From time to time, either PARTY, at the request of the other PARTY, and without further consideration, shall execute and deliver further instruments and take such other actions as the requesting PARTY may reasonably require to complete more effectively the transactions contemplated by this Agreement.

5. TIME OF THE ESSENCE.
Time is of the essence with respect to the obligations to be performed under this Agreement.

6. SUCCESSORS IN INTEREST.
The covenants herein contained shall apply to and bind the successors and assigns (to the extent assignment is permitted) of the PARTIES hereto.

7. STATUS OF EMPLOYEES.
All persons performing services for Licensee in the Use Area shall be solely employees or contractors of Licensee and not employees of County, except those persons expressly and directly employed by County. Furthermore, Licensee is not an agent of County.

8. CONSTRUCTION AND INTERPRETATION.
It is agreed and acknowledged by the PARTIES that the provisions of this Agreement have been arrived at through negotiation, and that each of the PARTIES has had a full and fair opportunity to review the provisions of this Agreement and to have such provisions reviewed by legal counsel. Therefore, the normal rule of construction that any ambiguities are to be resolved against the drafting party shall not apply in construing or interpreting this Agreement.

9. CAPTIONS.
The captions in this Agreement are for convenience only and shall not be deemed to be relevant in resolving any question of interpretation or construction of any section or paragraph of this Agreement. All references to section numbers refer to sections in this Agreement.

10. COUNTERPARTS.
This Agreement may be executed in counterparts, each of which shall be deemed an original, and all of which when affixed together shall constitute but one and the same instrument.

11. SEVERABILITY.

The invalidity of any term or provision of this Agreement as determined by a court of competent jurisdiction shall in no way affect the validity of any other provision hereof. Each remaining term and provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

12. WAIVER.

The failure of any PARTY to insist upon strict performance of any of the terms, covenants, or conditions of this Agreement shall not be deemed a waiver of any right or remedy that said PARTY may have and shall not be deemed a waiver of said PARTY's right to require strict performance of all terms, covenants, and conditions thereafter, nor a waiver of any remedy for the subsequent breach of any of the terms, covenants or conditions.

13. FORCE MAJEURE.

If any PARTY hereto shall be delayed or prevented from the performance of any act required hereunder by reason of acts of God, strikes, lockouts, labor troubles, inability to procure materials, or other cause without fault and beyond the control of the PARTY obligated (financial inability excepted), performance of such act shall be excused for the period of the delay and the period for the performance of any such act shall be extended for a period equivalent to the period of such delay.

14. LEGAL JURISDICTION.

The PARTIES hereto expressly agree that this Agreement shall be governed by, interpreted under, and construed and enforced in accordance with the laws of the State of California. Venue for any disputes shall be the Superior Court for the State of California, in Placer County. The PARTIES hereby waive any federal court removal rights and/or original jurisdiction rights that they may have.

15. AUTHORITY OF DIRECTOR.

The Director of the Department of Facilities Management, or designee, shall administer this Agreement on behalf of County. Unless otherwise provided herein or required by applicable law, the Director shall be vested with all rights, powers, and duties of County hereunder.

16. AUTHORITY OF EXECUTION.

Each person executing this Agreement on behalf of a PARTY represents and warrants that such person is duly and validly authorized to do so on behalf of the entity which it purports to bind and, if such PARTY is a partnership, corporation or trustee, that such partnership, corporation or trustee has full rights and authority to enter into this Agreement and perform all of its obligations hereunder.

EXHIBIT C

INSURANCE REQUIREMENTS

The following insurance provisions will, by this reference, become a part of and are incorporated into the Site License Agreement attached hereto as **Exhibit C.**

1. INSURANCE.
   Supplier shall file with Customer concurrently herewith a Certificate of Insurance, in companies acceptable to Customer, with a Best's Rating of no less than A-:VII showing.
2. WORKER'S COMPENSATION AND EMPLOYER'S LIABILITY.
   Worker's Compensation Insurance shall be provided as required by any applicable law or regulation. Employer's liability insurance shall be provided in amounts not less than one million dollars ($1,000,000) each accident for bodily injury by accident, one million dollars ($1,000,000) policy limit for bodily injury by disease, and one million dollars ($1,000,000) each employee for bodily injury by disease. If there is an exposure of injury to Supplier's employees under the U.S. Longshoremen's and Harbor Worker's Compensation Act, the Jones Act, or under laws, regulations, or statutes applicable to maritime employees, coverage shall be included for such injuries or claims. Each Worker's Compensation policy shall be endorsed with the following specific language:

   A. Cancellation Notice - "This policy shall not be changed without first giving thirty (30) days prior written notice and ten (10) days prior written notice of cancellation for non-payment of premium to the County of Placer".
   B. Waiver of Subrogation - The workers' compensation policy shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against the Customer, its officers, directors, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this agreement by the Supplier.
   C. Contractors - shall require all SUBCONTRACTORS to maintain adequate Workers' Compensation insurance. Certificates of Workers' Compensation shall be filed forthwith with the Customer upon demand.

GENERAL LIABILITY INSURANCE

1. COMPREHENSIVE GENERAL LIABILITY OR COMMERCIAL GENERAL LIABILITY.
   Covering all operations by or on behalf of Supplier, providing insurance for bodily injury liability and property damage liability for the limits of liability indicated below and including coverage for:
   A. Contractual liability insuring the obligations assumed by Supplier in this Agreement.
   B. One of the following forms is required:
      (i) Comprehensive General Liability.
      (ii) Commercial General Liability (Occurrence); or
      (iii) Commercial General Liability (Claims Made).
   C. If Supplier carries a Comprehensive General Liability policy, the limits of liability shall not be less than a Combined Single Limit for bodily injury, property damage, and Personal Injury Liability of:
      - One million dollars ($1,000,000) each occurrence
      - Two million dollars ($2,000,000) aggregate
   D. If Supplier carries a Commercial General Liability (Occurrence) policy:
      (i) The limits of liability shall not be less than:

- One million dollars ($1,000,000) each occurrence (combined single limit for bodily injury and property damage)
- One million dollars ($1,000,000) for Products-Completed Operations
- Two million dollars ($2,000,000) General Aggregate

(ii) If the policy does not have an endorsement providing that the General Aggregate Limit applies separately, or if defense costs are included in the aggregate limits, then the required aggregate limits shall be two million dollars ($2,000,000).

E. Special Claims Made Policy Form Provisions:
Supplier shall not provide a Commercial General Liability (Claims Made) policy without the express prior written consent of Customer, which consent, if given, shall be subject to the following conditions:

(i) The limits of liability shall not be less than:

- One million dollars ($1,000,000) each occurrence (combined single limit for bodily injury and property damage)
- One million dollars ($1,000,000) aggregate for Products Completed Operations
- Two million dollars ($2,000,000) General Aggregate

(ii) The insurance coverage provided by Supplier shall contain language providing coverage up to one (1) year following the completion of the contract in order to provide insurance coverage for the hold harmless provisions herein if the policy is a claims-made policy.

2. CONFORMATION OF COVERAGE.
If more than one policy is used to meet the required coverages, such as a separate umbrella policy, such policies shall be consistent with all other applicable policies used to meet these minimum requirements. For example, all policies shall be Occurrence Liability policies, or all shall be Claims Made Liability policies, if approved by the County as noted above. In no cases shall the types of polices be different.

3. ENDORESMENT.
Comprehensive or Commercial General Liability policy shall be endorsed with the following specific language:

A. "The County of Placer, its officers, agents, employees, and volunteers are to be covered as an additional insured for all liability arising out of the operations by or on behalf of the named insured in the performance of this Agreement."

B. "The insurance provided by the Supplier, including any excess liability or umbrella form coverage, is primary coverage to the County of Placer with respect to any insurance or self-insurance programs maintained by the County of Placer and no insurance held or owned by the County of Placer shall be called upon to contribute to a loss."

C. "This policy shall not be changed without first giving thirty (30) days prior written notice and ten (10) days prior written notice of cancellation for non-payment of premium to the County of Placer".

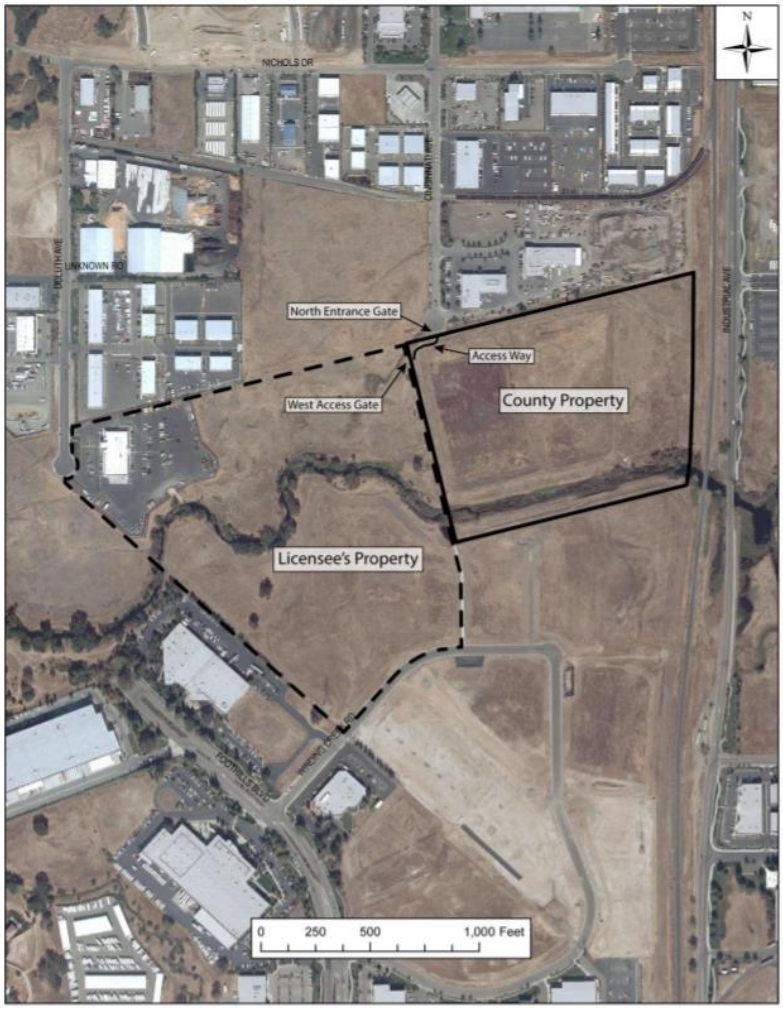
4. AUTOMOBILE INSURANCE.
Automobile Liability insurance covering bodily injury and property damage in an amount no less than one million dollars ($1,000,000) combined single limit for each occurrence.

A. Covered vehicles shall include owned, non-owned, and hired automobiles/trucks.

6. ADDITIONAL REQUIREMENTS.
Premium Payments - The insurance companies shall have no recourse against the Customer and funding agencies, its officers, and employees or any of them for payment of any premiums or assessments under any policy issued by a mutual insurance company.
Policy Deductibles - The Supplier shall be responsible for all deductibles in all of the Supplier's insurance policies. Deductibles greater than $25,000 shall require Supplier to submit written

documentation including bank statements or other indicia establishing financial ability to pay the higher deductible.

Supplier's Obligations - Supplier's indemnity and other obligations shall not be limited by the foregoing insurance requirements and shall survive the expiration of this agreement.



Verification of Coverage - Supplier shall furnish the Customer with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the Customer before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Supplier's obligation to provide them. The Customer reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Material Breach - Failure of the Supplier to maintain the insurance required by this agreement, or to comply with any of the requirements of this section, shall constitute a material breach of the entire agreement.

It is agreed that Customer shall always maintain during the performance of this Agreement insurance coverage or self-insurance in the amounts described.

COUNCIL COMMUNICATION

CC #: 1838
File #: 0704-01-01 & 0400-04-09-1

Title:	West Roseville Specific Plan Parcel F-81 - Maintenance Agreement
Contact:	Tara Gee 916-774-5253 tgee@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.14.

RECOMMENDATION TO COUNCIL

Staff recommends that City Council adopt a resolution to approve the F-81 Maintenance Agreement between the City and Dhillon Enterprises, Inc., and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

Parcel F-81 is a private, commercial parcel located in West Roseville on Angus and Fiddyment Roads. During the specific plan process, Fiddyment Road was realigned from its original planned alignment to accommodate higher traffic volumes. In anticipation of the original planned alignment of Fiddyment Road, street frontage landscaping, irrigation walkways and drainage improvements were installed as a part of the Crocker Ranch subdivision, which is immediately adjacent and located in the North Roseville Specific Plan. These improvements are in the right-of-way and now lie between the F-81 parcel and the Crocker Ranch subdivision. The Crocker Ranch Community Facilities District No. 2 (Public Services) funds the maintenance of those improvements.

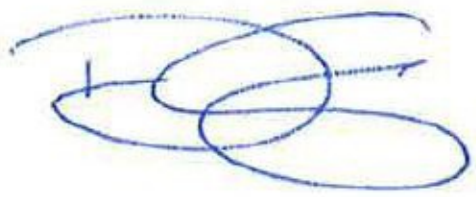
On September 26, 2019, a design review permit was approved for the F-81 parcel. The proposed development is a mixed-use commercial project that includes a gas station and fueling canopy, an 8,802 square-foot commercial building, a 2,887 square-foot convenience store and associated site improvements such as parking, lighting and landscaping. New landscaping will include improvements on the City's property and will create impacts to and increase the necessary maintenance of the existing improvements on City property. Because of this, a Condition of Approval requires that, prior to the issuance of building permits, the Developer of F-81 enter into a maintenance agreement with the City which includes a right-of entry onto City property to maintain new improvements as well as reimbursement to the City for any increased costs for maintenance due to removal of trash, weeds and maintenance of the drainage improvements.

FISCAL IMPACT

The maintenance agreement ensures that added and increased costs related to this F-81 development is not an obligation of the General Fund. No General Fund impacts are anticipated.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The F-81 maintenance agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world
Goal D - Enhance economic vitality
Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Tara Gee, Park Planning & Development Superintendent

Jill Geller, Parks, Recreation & Libraries Director

MAINTENANCE AGREEMENT
PARCEL F-81

This Maintenance Agreement ("Agreement") is made and entered into this ___ day of _____, 2021, by and between the City of Roseville, a municipal corporation, ("CITY") and Dhillon and Son Enterprises, Inc., a California corporation ("DEVELOPER"); and

W I T N E S E T H:

A. DEVELOPER is the owner of certain real property located at 4701 Fiddyment Road (APN 492-013-001) (the "Subject Property") in the City of Roseville ("City"), County of Placer. The legal description for the Subject Property is attached hereto as Exhibit "A" and incorporated by this reference.

B. The Subject Property, also known as Parcel F-81 of the West Roseville Specific Plan, was created during the specific plan process when Fiddyment Road was realigned from its original planned alignment to accommodate higher traffic volumes.

C. In anticipation of the original planned alignment of Fiddyment Road, street frontage landscaping, irrigation, walkways and drainage improvements (the "Existing

Improvements") were installed as a part of the development of the adjacent Crocker Ranch subdivision, located in the North Roseville Specific Plan. The Existing Improvements are now located in CITY's right-of-way between the Subject Property and the Crocker Ranch subdivision (the "CITY Property"), as shown on Exhibit "B," which is attached hereto and incorporated by this reference. The Crocker Ranch Community Facilities District (CFD #2) funds maintenance of the Existing Improvements.

D. On September 26, 2019, CITY approved DEVELOPER's application for a Design Review Permit to develop the Subject Property with a mixed-use commercial development, including a gas station and fueling canopy (with five dispensers/ten pumps), an 8,802 square-foot commercial building that includes 3,977 square feet of retail space, 1,938 square feet of restaurant space, and 2,887 square feet for a convenience store, and associated site improvements including parking, lighting, and landscaping (the "Project").

E. DEVELOPER will be installing additional landscaping improvements (the "New Improvements") on the CITY Property, upon CITY's approval of the improvement plans for the Project.

F. Development of the Subject Property pursuant to the Design Review Permit will create impacts to, and increase the necessary maintenance of, the Existing Improvements on the CITY Property. As such, Condition No. 28 of the Conditions of Approval of the Design Review Permit requires that, prior to the issuance of building permits, DEVELOPER enter into a maintenance agreement with CITY.

G. DEVELOPER and CITY enter into this Agreement to outline the maintenance obligations of DEVELOPER and provide for reimbursement to CITY of the additional costs

associated with increased maintenance of the Existing Improvements on the CITY Property caused by development of the Subject Property.

NOW, THEREFORE, in consideration of the covenants set forth herein, CITY and DEVELOPER hereby agree as follows:

1. Construction and Installation of New Improvements. DEVELOPER shall cause the New Improvements to be constructed on the CITY Property, in accordance with the approved improvement plans and Parks Construction Standards. CITY shall not be responsible for any costs related to the installation of New Improvements, nor shall DEVELOPER be eligible for reimbursement from CITY for same. DEVELOPER shall obtain any necessary permits and install the New Improvements in a manner consistent with the approved improvement plans for the Project.

2. Maintenance of New Improvements. DEVELOPER, at its sole cost, shall maintain all New Improvements in accordance with the City Park Maintenance Service Levels at the Standard mode, as described in Exhibit "C," attached hereto and incorporated by this reference.

3. Maintenance of Existing Improvements. CITY will maintain all Existing Improvements on the CITY Property. DEVELOPER shall reimburse CITY for any increased costs associated with the development of the Subject Property, including but not limited to increased costs for removal of weeds and trash, and maintenance of the drainage improvements on the CITY Property. CITY shall provide DEVELOPER with an annual accounting demonstrating increased costs for maintenance of the Existing Improvements, as compared to average annual costs prior to development of the Subject Property, not including any adjustments

for inflation. DEVELOPER shall remit payment to CITY within sixty (60) days of receipt of the annual accounting. If any payment is not received by CITY on or before the tenth (10th) day following the due date, it shall be deemed delinquent. Delinquent amounts shall be subject to a monthly late charge at the rate of five percent (5%) of the total delinquent amount.

4. Compliance with Laws. DEVELOPER shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the obligations under this Agreement.

5. Right of Entry. CITY grants DEVELOPER, its employees, agents and contractors permission to enter upon and use the CITY Property, as may be reasonably necessary in order to install and maintain the New Improvements, consistent with Sections 1 and 2 of this Agreement. If at any time DEVELOPER or its employees, agents and contractors cause any damage to any portion of the CITY Property as a result of its entry or work hereunder, DEVELOPER shall promptly cause such damage to be repaired at its sole cost and expense. In addition, DEVELOPER is not permitted to store personal property or equipment on the CITY Property.

6. Prior To Commencement of Work. Prior to installation of the New Improvements, DEVELOPER shall comply with the following: (1) obtain pre-approval from CITY of DEVELOPER's construction documents; (2) cause its contractor to obtain an encroachment permit from CITY prior to commencement of construction activities in CITY's right of way (and land adjacent thereto); and (3) cause its contractor to provide insurance and related documentation to CITY in accordance with Section 8 of this Agreement.

7. Indemnification. To the fullest extent allowed by law, DEVELOPER shall defend, indemnify, and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of,

injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of DEVELOPER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

DEVELOPER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

8. Insurance. Prior to the issuance of an encroachment permit and commencement of any construction of the New Improvements, DEVELOPER shall, or shall cause its contractor to, have on file with CITY throughout the duration of construction and maintenance of the New Improvements, and maintain in full force the following policies of insurance:

POLICY	LIMITS OF LIABILITY
Commercial General Liability, Including endorsements for comprehensive form, premises operations, products/completed operations, broad form property damage, independent contractors, contractual, personal injury, explosion/collapse and underground hazard	Bodily Injury: $2,000,000 each occurrence $4,000,000 aggregate Property Damage: $2,000,000 each occurrence Personal Injury: $2,000,000 each occurrence $4,000,000 aggregate
Workers' Compensation	Statutory
Automobile Liability	$1,000,000 combined single limit

a. Form. DEVELOPER shall submit a certificate evidencing such coverage in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work

hereunder. Any insurance written on a claims-made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. DEVELOPER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, prior to undertaking any work hereunder. Such insurance shall specifically cover the contractual liability of DEVELOPER. The additional insured coverage under DEVELOPER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. DEVELOPER shall provide ten (10) calendar days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Contractors. DEVELOPER agrees to include in its contracts with all contractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the contractor's work. Furthermore, DEVELOPER shall require its contractors to agree to be bound to DEVELOPER and CITY in the same manner and to the same extent as DEVELOPER is bound to CITY under this Agreement. Additionally, DEVELOPER shall obligate its contractors to comply with these same provisions with respect to any subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the contractor or any subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. DEVELOPER hereby agrees to waive subrogation which any insurer of DEVELOPER may acquire from DEVELOPER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability, or Automobile Liability policy. All Workers Compensation, Commercial General Liability, and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by DEVELOPER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve DEVELOPER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

9. Assignment. DEVELOPER shall not assign this Agreement without the prior written consent of CITY.

10. Successors and Assigns. Each and every provision of this Agreement shall be binding and inure to the benefit of the successors and assigns of the parties hereto.

11. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

12. Notices. All notices required by this Agreement shall be delivered in writing and delivered in person or sent by certified mail, postage prepaid.

Notice required to be given to CITY shall be addressed as follows:

Director of Parks, Recreation & Libraries
City of Roseville
316 Vernon Street, Suite 400
Roseville, CA 95678

Notice required to be given to DEVELOPER shall be addressed as follows:

Surjit Singh, President
201 Bellingham Court
Lincoln, CA 95648

13. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

14. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

15. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding, and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville ("CITY"), a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 2021, and DEVELOPER has caused this Agreement to be executed.

EXHIBIT "A"

EXHIBIT A

The land referred to is situated in the County of Placer, City of Roseville, State of California, and is described as follows:

Lot 39, as shown and designated on the Final Map of Subdivision No. 03-11, entitled, "Fiddyment Ranch Phase 2", filed July 28, 2006 in book BB of Maps at page 24 in the office of the Placer County Recorder.

Assessor's Parcel Number (APN): 492-010-031

EXHIBIT "B"

WRSP Parcel F-81 – Fiddyment Plaza, 4701 Fiddyment Road (APN: 492-001-031)

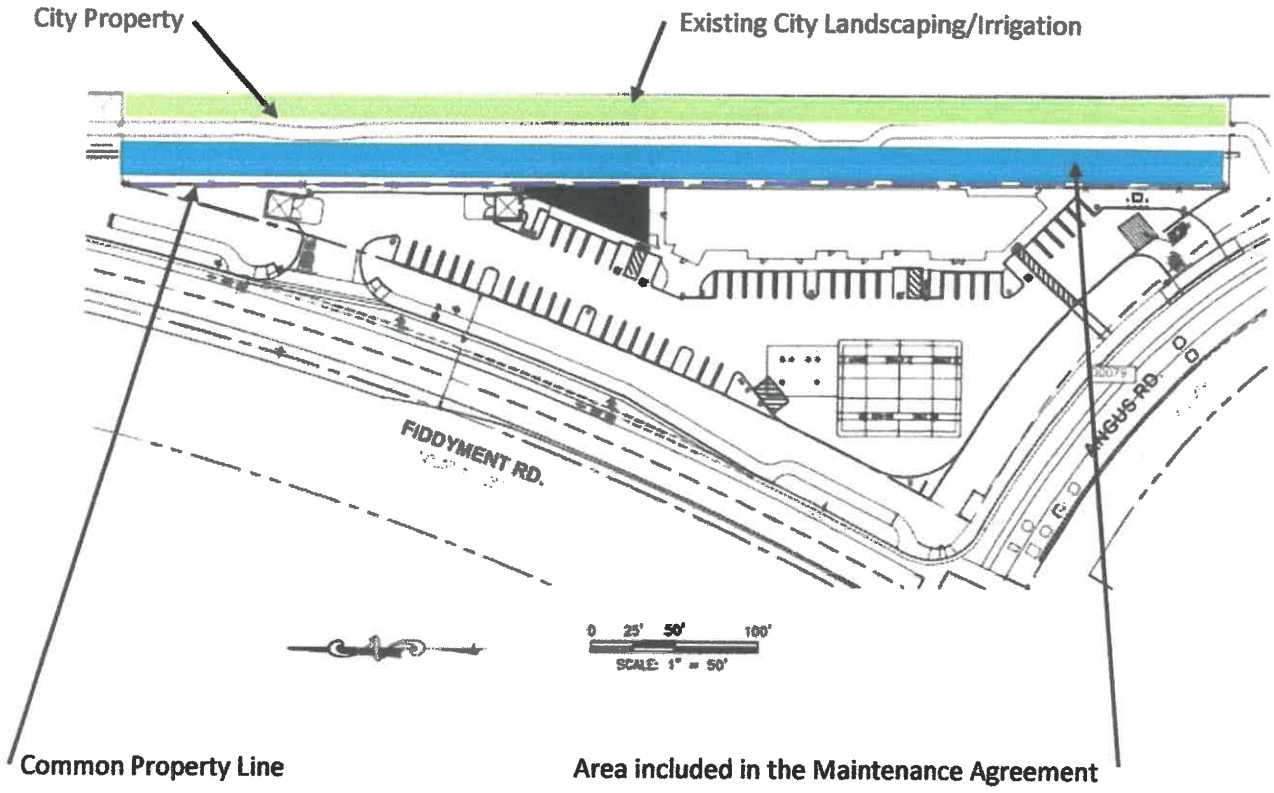

EXHIBIT "C"

SERVICE LEVELS

The chart below outlines differences in allowable tolerances based on the four service levels. Each park or streetscape is assigned a service level and the Contractor is expected to provide maintenance at that level unless otherwise noted. Tasks not listed in the chart below shall be maintained at the basic maintenance level described above.

	Premium	Standard	Core	Low
Turf Care				
Maintained between: Warm season (Bermuda) Cool season (Fescue & Bluegrass)	 1"-2" 2"-3.5"	 1"-2.5" 2"-3.5"	 1"-2.5" 2"-4"	 1"-2.5" 2.5"-4.5"
Bare Areas	None	up to 15%	Up to 30%	Up to 40%
Edging	Every other week	One every 3 weeks	Once per month	None
Weeds	None (street frontages, play/picnic areas, etc.)	No more than 20%	No more than 40%	No more than 60%
Aeration	2x/year (minimum)	1x/year & as needed	1x/year	None
Landscaping & Trees				
Hedge pruning	At top of fence/wall	Within 1' under top of wall/fence	No more than 1' over top of fence/wall	Acceptable
Missing plant material (includes trees)	None	None within high visibility areas	In limited areas (up to 20%)	Acceptable
Weeds	None	None within high visibility areas	In limited areas (up to 25%)	1-4 applications per year as budget allows
Pruning Shrubs	3/x year (Minimum)	3/x year (Minimum)	2/x per year	1/x per year
Portering Services (Parks)				
Litter/Trash Receptacle Servicing	Daily	3 non-consecutive days/week	2x/week	2x/month
Playground and Sports Facility Raking	4 days/week	3 non-consecutive days/week	2 non-consecutive days/week	1 time per week
Sports Courts	4 times/month	2 times/month	1 time/month	None

COUNCIL COMMUNICATION

CC #: 1826
File #: 0400-04-09-1 & 0400-07

Title:	Fiddyment Ranch - Phase 3 Village F-6C1 - Final Map and Subdivision Agreement
Contact:	Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.15.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council approve the final map on file with the City Clerk and accept on behalf of the public, the public utility easements offered thereon, and accept subject to improvement, Lots A, B, and C, and the rights of way offered thereon, and approve the abandonment of the rights of way and easements listed thereon.

Staff recommends City Council adopt a resolution approving the subdivision agreement and authorizing the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

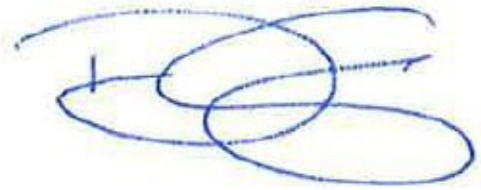
The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 135 residential lots and 3 open space lots.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Fiddyment Ranch - Phase 3 Village F-6C1 final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Fiddyment Ranch - Phase 3 Village F-6C1 final map was accomplished with the preparation of the West Roseville Specific Plan EIR (SCH#2002082057) that was certified by the City of Roseville on February 4, 2004. Because the Fiddyment Ranch - Phase 3 Village F-6C1 final map is consistent with project evaluated in the West Roseville Specific Plan EIR, no new effects would be expected to occur and all applicable mitigation measures from the West Roseville Specific Plan EIR will be implemented. As such, no additional CEQA action is required at this time.



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

BASIS OF BEARINGS STATEMENT

THE BASIS OF BEARINGS FOR THIS SURVEY IS THE WEST LINE OF LOT 3 AS SAID LOT IS SHOWN ON THE FINAL MAP OF FIDDYMENT RANCH PHASE 3 – VILLAGE F-6 LARGE LOT SUBDIVISION. FILED FOR RECORD IN BOOK FF OF MAPS, AT PAGE 75, PLACER COUNTY RECORDS, SAID LINE IS TAKEN TO BEAR NORTH 00°13'02" WEST. DISTANCES SHOWN HEREON ARE GROUND BASED.

NOTES

1. ALL CURVES DIMENSIONED WITH RADIUS, DELTA, ARC LENGTH, CHORD BEARING, AND CHORD DISTANCE.
2. ALL DISTANCES SHOWN HEREON ARE EXPRESSED IN FEET AND DECIMALS THEREOF.
3. DUE TO ROUNDING, THE SUM OF THE INDIVIDUAL DIMENSIONS MAY NOT EQUAL THE OVERALL DIMENSION.
4. TOTAL AREA FOR THIS "FIDDYMENT RANCH PHASE 3 – VILLAGE F-6C1" SUBDIVISION IS 12.960± ACRES, CONSISTING OF 135 RESIDENTIAL LOTS AND 3 OPEN SPACE LOTS.
5. A GEOTECHNICAL ENGINEERING REPORT TITLED "FIDDYMENT RANCH PHASE-3" WAS PREPARED BY MID PACIFIC ENGINEERING, INC., MPE NO. 02525-33, DATED SEPTEMBER 9, 2019. A COPY OF THIS REPORT IS ON FILE FOR PUBLIC INSPECTION AT THE PUBLIC WORKS DEPARTMENT OF THE CITY OF ROSEVILLE (FILE NUMBER 308-922).
6. 5/8" REBAR CAPPED "LS 8067" WILL BE SET AT ALL REAR LOT CORNERS, ALONG WITH ALL LOT LINE ANGLE POINTS OR AT A 2.00 FOOT PROJECTION ALONG LOT LINES ADJACENT TO WALLS (2.00 FOOT BY 2.00 FOOT OFFSETS FOR ANGLE POINTS ADJACENT TO WALLS). FRONT CORNERS WILL BE SET WITH A 1" BRASS DISK STAMPED "LS 8067" AT A 1.00 FOOT PROJECTION OF THE PROPERTY LINE ONTO THE SIDEWALK.
7. PURSUANT TO SECTION 66434(g) OF THE GOVERNMENT CODE, THE FOLLOWING PUBLIC IRREVOCABLE OFFER OF DEDICATION/RIGHT OF WAY (IOD/RW) AND IRREVOCABLE OFFER OF DEDICATION/PUBLIC UTILITY EASEMENT (PUE) AND SANITARY SEWER EASEMENT (SSE) ARE HEREBY ABANDONED AND ARE NOT SHOWN HEREON:

7.1. THOSE PORTIONS OF THE IOD/RW DEPICTED ON THE MAP ENTITLED "FIDDYMENT RANCH PHASE 3 – VILLAGE F-6 LARGE LOT SUBDIVISION", FILED IN BOOK FF OF MAPS, AT PAGE 75, O.R.P.C., WHICH LIE WITHIN THE BOUNDARY OF THIS MAP.

7.2. THOSE PORTIONS OF THE PUE DEPICTED ON THE MAP ENTITLED "FIDDYMENT RANCH PHASE 3 – VILLAGE F-6 LARGE LOT SUBDIVISION", FILED IN BOOK FF OF MAPS, AT PAGE 75, O.R.P.C., WHICH LIE WITHIN THE BOUNDARY OF THIS MAP.

7.2. THOSE PORTIONS OF THE SSE DEPICTED ON THE MAP ENTITLED "FIDDYMENT RANCH PHASE 2A – LARGE LOT SUBDIVISION", FILED IN BOOK DD OF MAPS, AT PAGE 88, O.R.P.C., WHICH LIE WITHIN THE BOUNDARY OF THIS MAP.

SUBDIVISION AGREEMENT

Fiddyment Ranch - Phase 3 Village F-6C1 SUBDIVISION

THIS AGREEMENT, made and entered into this ___ day of _____, 20__, by and between the CITY OF ROSEVILLE, a municipal corporation ("CITY"), and JEN California 15 LLC, a California limited liability company, ("SUBDIVIDER"),

W I T N E S S E T H:

WHEREAS, SUBDIVIDER is possessed of a tract of land lying in the City of Roseville, County of Placer, known as "Fiddyment Ranch - Ph 3 Village F-6C1 Subdivision" (Subdivision no. PL14-0465; "the Subdivision"); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning Commission on the 23rd day of April, 2015, and the final map of the Subdivision has been approved subject to the execution of this Agreement; and

WHEREAS, the final map has been filed on the ____ day of _____, 20__ in Book _____ of Parcel/Subdivision Maps at Page _____ in the Official Records, Placer County Recorder, file no. _____; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the subdivision of land in the City, requires that SUBDIVIDER shall execute and file an agreement between itself and CITY relating to the improvements to be made in a subdivision, prior to the approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects all lands, right-of-ways, and easements offered for dedication on the final map of the Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers of dedication in accordance with Government Code Section 66477.2. All such offers may be accepted by CITY in its sole discretion at any later date without further notice to SUBDIVIDER as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this Agreement.

2. Improvements - Time Limit. SUBDIVIDER agrees to cause all improvements to be made and constructed in the Subdivision to fully comply with the requirements of the Roseville Municipal Code and the Subdivision Map Act of the State of California according to the improvement plans for the Subdivision prepared by Wood Rodgers, Inc., dated June, 2021 and approved by the City Engineer and including any changes or

alterations to such improvements required by the City Engineer, and to install, on or before October 8, 2022, such survey monuments as may be required by the City Engineer ("the Work"). SUBDIVIDER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

SUBDIVIDER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by SUBDIVIDER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by SUBDIVIDER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that SUBDIVIDER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at anytime prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-

way, the City Engineer shall give written notice to SUBDIVIDER to eliminate the safety hazard. If SUBDIVIDER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. SUBDIVIDER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to SUBDIVIDER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. SUBDIVIDER shall deposit the estimated inspection fee and reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. SUBDIVIDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of $2,150,431.00. One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 15 (commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. SUBDIVIDER shall also file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be released upon SUBDIVIDER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that SUBDIVIDER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. SUBDIVIDER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. Subdivider's Obligation to Warn Public During Construction. Until final acceptance of the Work, SUBDIVIDER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. SUBDIVIDER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY.

SUBDIVIDER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, SUBDIVIDER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if SUBDIVIDER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to SUBDIVIDER and to SUBDIVIDER'S Surety. In such event, SUBDIVIDER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before SUBDIVIDER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. SUBDIVIDER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, SUBDIVIDER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of SUBDIVIDER 's willful misconduct or negligent act or omission while engaged in the performance of obligations or

exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

SUBDIVIDER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. SUBDIVIDER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
General Liability	$2,000,000 per occurrence $4,000,000 aggregate Personal Injury: $2,000,000 per occurrence $4,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Workers' Compensation	Statutory

a. Form. SUBDIVIDER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. SUBDIVIDER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual

liability of SUBDIVIDER. The additional insured coverage under the SUBDIVIDER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. SUBDIVIDER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. SUBDIVIDER hereby agrees to waive subrogation which any insurer of SUBDIVIDER may acquire from SUBDIVIDER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by SUBDIVIDER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve SUBDIVIDER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be

determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by SUBDIVIDER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD required

by Section 3.20 or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event SUBDIVIDER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of SUBDIVIDER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of SUBDIVIDER. In the event CITY seeks recourse against a security, CITY shall also have recourse against SUBDIVIDER for any and all amounts necessary to complete the obligations of SUBDIVIDER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and SUBDIVIDER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

Marc Stout, City Engineer City of Roseville 311 Vernon Street Roseville, CA 95678	Clifton Taylor, Vice President JEN California 15 LLC 508 Gibson Drive, Suite 260 Roseville, CA 95678

Either party may amend its address by giving written notice to the other.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and SUBDIVIDER has caused this Agreement to be executed.

COUNCIL COMMUNICATION

CC #: 1827
File #: 0400-04-09-1 & 0400-07

Title:	Fiddyment Ranch - Phase 3 Village F-6C2 - Final Map and Subdivision Agreement
Contact:	Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.16.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council approve the final map on file with the City Clerk and accept on behalf of the public, the public utility easements offered thereon, and accept subject to improvement, Lots A, B, C and D, and the rights of way offered thereon, and approve the abandonment of the rights of way and easements listed thereon.

Staff recommends City Council adopt a resolution approving the subdivision agreement and authorizing the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

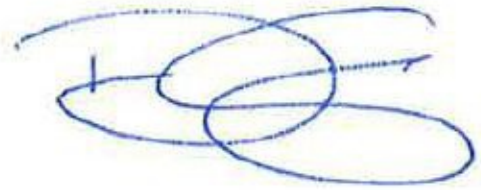
The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 172 residential lots, 1 landscape lot and 3 open space lots.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Fiddyment Ranch - Phase 3 Village F-6C2 final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Fiddyment Ranch - Phase 3 Village F-6C2 final map was accomplished with the preparation of the West Roseville Specific Plan EIR (SCH#2002082057) that was certified by the City of Roseville on February 4, 2004. Because the Fiddyment Ranch - Phase 3 Village F-6C2 final map is consistent with project evaluated in the West Roseville Specific Plan EIR, no new effects would be expected to occur and all applicable mitigation measures from the West Roseville Specific Plan EIR will be implemented. As such, no additional CEQA action is required at this time.



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

SUBDIVISION AGREEMENT

Fiddyment Ranch Phase 3 - Village F-6C2 SUBDIVISION

THIS AGREEMENT, made and entered into this ___ day of _____, 20__, by and between the CITY OF ROSEVILLE, a municipal corporation ("CITY"), and JEN California 15 LLC, a California limited liability company, ("SUBDIVIDER"),

W I T N E S S E T H:

WHEREAS, SUBDIVIDER is possessed of a tract of land lying in the City of Roseville, County of Placer, known as "Fiddyment Ranch Phase 3 - Village F-6C2 Subdivision" (Subdivision no. 14-0625; "the Subdivision"); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning Commission on the 23 day of April, 2015, and the final map of the Subdivision has been approved subject to the execution of this Agreement; and

WHEREAS, the final map has been filed on the ____ day of _____, 20__ in Book _____ of Parcel/Subdivision Maps at Page _____ in the Official Records, Placer County Recorder, file no. _____; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the subdivision of land in the City, requires that SUBDIVIDER shall execute and file an agreement between itself and CITY relating to the improvements to be made in a subdivision, prior to the approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects all lands, right-of-ways, and easements offered for dedication on the final map of the Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers of dedication in accordance with Government Code Section 66477.2. All such offers may be accepted by CITY in its sole discretion at any later date without further notice to SUBDIVIDER as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this Agreement.

2. Improvements - Time Limit. SUBDIVIDER agrees to cause all improvements to be made and constructed in the Subdivision to fully comply with the requirements of the Roseville Municipal Code and the Subdivision Map Act of the State of California according to the improvement plans for the Subdivision prepared by Wood Rodgers, Inc., dated June, 2021 and approved by the City Engineer and including any changes or

alterations to such improvements required by the City Engineer, and to install, on or before October 8, 2022, such survey monuments as may be required by the City Engineer ("the Work"). SUBDIVIDER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

SUBDIVIDER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by SUBDIVIDER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by SUBDIVIDER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that SUBDIVIDER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at anytime prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-

way, the City Engineer shall give written notice to SUBDIVIDER to eliminate the safety hazard. If SUBDIVIDER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. SUBDIVIDER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to SUBDIVIDER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. SUBDIVIDER shall deposit the estimated inspection fee and reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. SUBDIVIDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of $3,131,671.00. One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 15 (commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. SUBDIVIDER shall also file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be released upon SUBDIVIDER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that SUBDIVIDER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. SUBDIVIDER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. Subdivider's Obligation to Warn Public During Construction. Until final acceptance of the Work, SUBDIVIDER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. SUBDIVIDER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY.

SUBDIVIDER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, SUBDIVIDER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if SUBDIVIDER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to SUBDIVIDER and to SUBDIVIDER'S Surety. In such event, SUBDIVIDER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before SUBDIVIDER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. SUBDIVIDER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, SUBDIVIDER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of SUBDIVIDER 's willful misconduct or negligent act or omission while engaged in the performance of obligations or

exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

SUBDIVIDER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. SUBDIVIDER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
General Liability	$2,000,000 per occurrence $4,000,000 aggregate Personal Injury: $2,000,000 per occurrence $4,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Workers' Compensation	Statutory

a. Form. SUBDIVIDER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. SUBDIVIDER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual

liability of SUBDIVIDER. The additional insured coverage under the SUBDIVIDER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. SUBDIVIDER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. SUBDIVIDER hereby agrees to waive subrogation which any insurer of SUBDIVIDER may acquire from SUBDIVIDER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by SUBDIVIDER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve SUBDIVIDER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be

determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by SUBDIVIDER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD required

by Section 3.20 or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event SUBDIVIDER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of SUBDIVIDER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of SUBDIVIDER. In the event CITY seeks recourse against a security, CITY shall also have recourse against SUBDIVIDER for any and all amounts necessary to complete the obligations of SUBDIVIDER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and SUBDIVIDER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

Marc Stout, City Engineer
City of Roseville
311 Vernon Street
Roseville, CA 95678

Clifton Taylor, Vice President
JEN California 15 LLC
508 Gibson Drive, Suite 260
Roseville, CA 95678

Either party may amend its address by giving written notice to the other.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and SUBDIVIDER has caused this Agreement to be executed.

COUNCIL COMMUNICATION

CC #: 1831
File #: 0400-04-12-01

Title:	Sierra Vista Village JM-40 - Notice of Completion
Contact:	Cody Allen 916-517-7598 cjallen@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.17.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt the attached resolution accepting Sierra Vista Village JM-40, CWJ# 190544 as complete and authorizing the City Engineer to execute the Notice of Completion.

BACKGROUND

The Engineering Division has made a final inspection of the above project and has found the roadway infrastructure work complete in accordance with the improvement plans and City specifications.

FISCAL IMPACT

The actions requested as part of this action have no impact to the City's General Fund. Construction costs were paid by the developer.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a Notice of Completion meets the above criteria and is not subject to CEQA. No additional environmental review is required.

COUNCIL COMMUNICATION

CC #: 1829
File #: 0400-04-12-01

Title:	Sierra Vista Village JM-20 - Phase 3.1B - Notice of Completion
Contact:	Cody Allen 916-517-7598 cjallen@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.18.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt the attached resolution accepting Sierra Vista Village JM-20 - Phase 3.1B, CWJ# 190505 as complete and authorizing the City Engineer to execute the Notice of Completion.

BACKGROUND

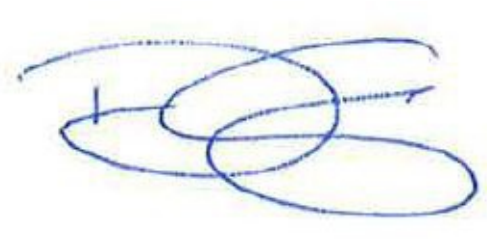
The Engineering Division has made a final inspection of the above project and has found the roadway infrastructure work complete in accordance with the improvement plans and City specifications.

FISCAL IMPACT

The actions requested as part of this action have no impact to the City's General Fund. Construction costs were paid by the developer.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a Notice of Completion meets the above criteria and is not subject to CEQA. No additional environmental review is required.



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Cody Allen, Construction Inspector

COUNCIL COMMUNICATION

CC #: 1819
File #: 0400-04-13 & 1008

Title:	Creekview Specific Plan Phase 3 & 4 Backbone Infrastructure - Reimbursement Agreement
Contact:	Marc Stout 916-774-5482 mstout@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.19.

RECOMMENDATION TO COUNCIL

Staff recommends City Council adopt a resolution to approve the Reimbursement Agreement between the City and Anthem United Creekview Developments Limited Partnership in the amount of $1,505,919, to be paid from the Creekview Set-aside in the Traffic Mitigation Fund, and authorize the City Manager to execute the agreement on behalf of the City.

BACKGROUND

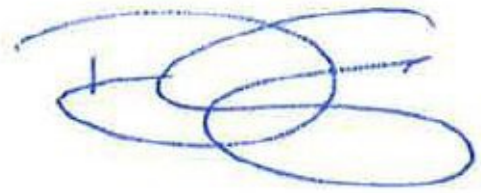
On October 3, 2012, City Council approved the Development Agreement (DA) for the Creekview Specific Plan. The DA allows the developer of the Creekview Specific Plan the opportunity to receive reimbursement for City roadway improvements along Blue Oaks Boulevard, Westbrook Boulevard and signalized intersections that are beyond the responsibility of the Developer. Funding for the City improvements is supplied through the Creekview Set-aside in the Traffic Mitigation Fund. The Creekview Set-aside is funded by developer fees and is intended to specifically fund the capital improvements associated with the Creekview Specific Plan.

FISCAL IMPACT

The actions requested as part of this item will have no impact to the City's General Fund. This reimbursement agreement is funded through the Creekview Set-aside in the Traffic Mitigation Fund, which is funded through developer-paid fees collected over time.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

reimbursement agreement

RESOLUTION NO. 21-478

APPROVING A CITY/DEVELOPER REIMBURSEMENT AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND ANTHEM UNITED CREEKVIEW DEVELOPMENTS LIMITED PARTNERSHIP, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a City/Developer Reimbursement Agreement for the Creekview Specific Plan Phases 3 and 4 Backbone Improvements: Westbrook Boulevard Segments 3 and 4, Lower Bank Drive, Westbrook Boulevard CIP Lanes, Blue Oaks Boulevard Segment 5, Benchmark Drive and Holt Parkway, with Anthem United Creekview Developments Limited Partnership, has been reviewed by City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said reimbursement agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville; and

PASSED AND ADOPTED by the Council of the City of Roseville this____day of _____, 2021, by the following vote on roll call:

CITY/DEVELOPER
REIMBURSEMENT AGREEMENT

Creekview Specific Plan Phases 3 and 4 Backbone Improvements: Westbrook Boulevard Segments 3 and 4, Lower Bank Drive, Westbrook Boulevard CIP Lanes, Blue Oaks Boulevard Segment 5, Benchmark Drive and Holt Parkway

THIS AGREEMENT is made and entered into this ___ day of _____, 2021, by and between the City of Roseville, a municipal corporation, ("CITY") and Anthem United Creekview Developments Limited Partnership, a Washington limited partnership ("Anthem" or "DEVELOPER"); and

W I T N E S E T H:

A. DEVELOPER is the owner of certain real property under development known as the Creekview Specific Plan ("Creekview") located in the City of Roseville ("City"), County of Placer. For the purposes of this Agreement, the term "DEVELOPER" shall mean Anthem, including any subsidiaries or affiliates. DEVELOPER owns the portion of Creekview described in Exhibit "A," and generally shown on Exhibit "B" incorporated by this reference (the "Property").

B. CITY and DEVELOPER entered into a Development Agreement dated October 3, 2012, which was recorded against the Property on November 28, 2012, as Document Number 2012-0113752-00 in the Official Records of Placer County, the First Amendment of Development Agreement, dated November 6, 2019, which was recorded against the Property on December 19, 2019, as Document Number 2019-0103338-00 in the Official Records of Placer County, and the Second Amendment of Development Agreement, dated September 1, 2021,

which was recorded against the Property on October 8, 2021, as Document Number 2021-0125462-00 in the Official Records of Placer County (collectively referred to as "DA").

C. DEVELOPER intends to develop or oversee development of Creekview as a master planned community consisting of residential, commercial, park, open space, and public-quasi public uses.

D. Pursuant to the DA, certain Public Improvements constructed by DEVELOPER are reimbursable to the DEVELOPER from the CITY with monies collected at the time of building permit issuance for the fee program. The reimbursements are owned personally by DEVELOPER and do not run with the Property to successors and assigns, unless DEVELOPER provides written notice to the CITY that said credits and reimbursements are assigned to a third party.

E. DEVELOPER intends to construct and install improvements shown on Exhibit "C" and described in Exhibit "D," attached hereto and made part of this Agreement ("Public Improvements"). Specifically, DEVELOPER will be responsible for constructing Westbrook Boulevard Segments 3 and 4, Westbrook Boulevard CIP lanes, Lower Bank Drive, Blue Oaks Boulevard Segment 5, Benchmark Drive, and Holt Parkway.

F. DEVELOPER and CITY will substantially benefit from the construction and installation of the Public Improvements as described in paragraph E above.

G. The total cost of constructing the Public Improvements as estimated using current prevailing wages and in accordance with the Improvement Plans is estimated at approximately fourteen million, five hundred seventy-five thousand, three hundred thirty-four dollars ($14,575,334) ("Improvement Costs"), as more particularly set out in the breakdown of costs

("Breakdown of Costs and Reimbursements"), Exhibit "E," attached and incorporated by this reference.

H. Pursuant to the Breakdown of Costs and Reimbursements (Exhibit "E"), the parties have determined that the obligation of Improvement Costs will be allocated among the DEVELOPER and Creekview TMF Set Aside Fund as follows:

	DEVELOPER Obligation	Creekview TMF Set Aside Fund	TOTAL
Westbrook Boulevard Segment 3	$7,443,816	$93,168	$7,536,984
Lower Bank Drive	0	$78,000	$78,000
Westbrook Boulevard Segment 4	$3,941,335	$385,770	$4,327,105
Westbrook Boulevard CIP Lanes	$209,928	$659,892	$869,820
Blue Oaks Boulevard Segment 5	$1,474,336	$205,089	$1,679,425
Benchmark Drive	0	$42,000	$42,000
Holt Parkway	0	$42,000	$42,000
	$13,069,415	$1,505,919	$14,575,334

I. DEVELOPER and CITY desire to enter into this Agreement providing for the direct installation by DEVELOPER of the Public Improvements in accordance with the approved Improvement Plans, for subsequent reimbursement pursuant to the Breakdown of Costs and Reimbursements by CITY directly to DEVELOPER as described herein.

NOW, THEREFORE, in consideration of the covenants set forth herein, CITY and DEVELOPER hereby agree as follows:

1. Construction of the Public Improvements. DEVELOPER shall cause the Public Improvements to be constructed and installed in accordance with the approved Improvement Plans. DEVELOPER is also required, and the specifications and bid and contract documents shall require all contractors and subcontractors, to pay prevailing wages and to otherwise comply with applicable provisions of the California Labor Code, Government Code, and Public Contracts Code relating to public works projects of cities and/or as may be required by CITY standards and procedures.

2. Contractor Registration. No contractor or subcontractor may be listed on a bid proposal for the Public Improvements or work on the Public Improvements unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. DEVELOPER shall be responsible for ensuring that these contractor registration requirements are adhered to since this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

3. Reimbursement of the Costs of the Public Improvements. In consideration of the satisfactory completion of the Public Improvements, CITY shall reimburse DEVELOPER for those portions of the Improvement Costs attributable to CITY as set forth in Recital H, hereof (the "Reimbursable Costs") with funds collected within the Creekview TMF Set Aside Fund. CITY and DEVELOPER acknowledge that the actual Reimbursable Costs may vary from the estimated costs, depending upon the actual costs of constructing and installing the eligible Public Improvements. Any variation in costs shall be agreed to by the parties.

The Reimbursable Costs shall include the contract bid amount for the Public Improvements as reflected on the Breakdown of Costs and Reimbursements (Exhibit "E") and reasonable change orders, as approved by CITY.

4. Timing of Reimbursements. CITY shall reimburse DEVELOPER for the Reimbursable Costs following acceptance by CITY of the Public Improvements on a first completed, first paid basis as monies are collected and made available within the Creekview TMF Set Aside Fund. Upon submission by DEVELOPER and approval by CITY of itemized invoices evidencing the costs for which reimbursement is to be provided in accordance with this Agreement, CITY shall make quarterly payments to DEVELOPER as funds are available from the Creekview TMF Set Aside Fund.

5. Permits. DEVELOPER shall be responsible for obtaining all necessary permits. CITY shall approve all plans prior to issuing any permit.

6. Changes in the Scope of Work. If, during construction, field conditions require a change of scope different than contemplated in Exhibits "C," "D", or "E" as referenced above, and prior to making any changes that will affect the scope of this Agreement, DEVELOPER shall contact CITY and get approval by CITY for those changes.

7. Prior To Commencement of Work. Prior to commencement of Work, DEVELOPER shall comply with the following: (1) obtain pre-approval from CITY of DEVELOPER's construction documents; (2) cause its contractor to obtain an encroachment permit from City prior to commencement of construction activities in CITY's right of way (and adjacent thereto); and, (3) cause its contractor to provide insurance and related documentation to CITY in accordance with Paragraph 9 of this Agreement. In addition, as required by California Labor Code Section 1773.3, DEVELOPER shall notify the Department of Industrial Relations of

the project within five (5) calendar days of the award of a contract to a contractor for the CIP eligible Public Improvements.

8. Indemnification. To the fullest extent allowed by law, DEVELOPER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of DEVELOPER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

DEVELOPER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Insurance. Prior to the issuance of an encroachment permit and commencement of any field construction for those certain improvements as shown on Exhibit "C," the DEVELOPER shall, or shall cause its contractor to, have on file with CITY throughout the duration of construction and maintain in full force the following policies of insurance:

POLICY	LIMITS OF LIABILITY
Commercial General Liability, Including endorsements for comprehensive form, premises operations, products/completed operations, broad form property damage, independent contractors,	Bodily Injury: $2,000,000 each occurrence $4,000,000 aggregate Property Damage: $2,000,000 each occurrence Personal Injury:

contractual, personal injury, explosion/collapse and underground hazard	$2,000,000 each occurrence $4,000,000 aggregate
Workers' Compensation	Statutory
Automobile Liability	$1,000,000 combined single limit

a. Form. DEVELOPER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims-made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. DEVELOPER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, prior to undertaking any work hereunder. Such insurance shall specifically cover the contractual liability of DEVELOPER. The additional insured coverage under the DEVELOPER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. DEVELOPER shall provide ten (10) calendar days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Contractors. DEVELOPER agrees to include in its contracts with all contractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the contractor's work. Furthermore, DEVELOPER shall require its contractors to agree to be bound to DEVELOPER and CITY in the same manner and to the same extent as DEVELOPER is bound to CITY under this Agreement. Additionally, DEVELOPER shall obligate its contractors to comply with these same provisions with respect to any subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the contractor or any subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. DEVELOPER hereby agrees to waive subrogation which any insurer of DEVELOPER may acquire from DEVELOPER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability, or Automobile Liability policy. All Workers Compensation, Commercial General Liability, and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by DEVELOPER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve DEVELOPER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

10. Obligations Arising From Agreement. Neither the General Fund nor any other fund or monies of CITY, except for the Creekview TMF Set Aside Fund, shall be utilized for payment of any obligations arising from this Agreement. Neither the credit nor the taxing power of CITY is pledged for the payment of any obligations arising from this Agreement. CITY's obligations arising from this Agreement are not a debt of CITY, or a legal or equitable pledge, charge, lien or encumbrance upon any of its property, or upon any of its income, receipts or revenues.

11. Successors and Assigns. Each and every provision of this Agreement shall be binding and inure to the benefit of the successors and assigns of the parties hereto.

12. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses,

including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

13. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

14. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

15. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding, and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 2021, and DEVELOPER and CITY have caused this Agreement to be executed.

Exhibit D
Public Improvements – Description

The improvements subject to this reimbursement agreement include all those items identified as improvements in excess of the DEVELOPER's obligation within the Development Agreement of the Creekview Specific Plan and as identified in either of the CITY's Capital Improvement Program (CIP). Reimbursements include the costs of design, plan review, construction, inspection, and construction management for eligible improvements identified in the fee programs, the costs of which are shown as separate line items.

Reimbursable improvements are shown on Exhibits C through Exhibit C-6 and include portions of Westbrook Boulevard Segment 3, Lower Bank Drive, Westbrook Boulevard Segment 4, Westbrook Boulevard CIP Lanes, and Blue Oaks Boulevard Segment 5, with eligible improvements being reimbursed per this agreement. Removal of transitions and other accommodations of any phased construction are the obligation of the DEVELOPER and not subject to reimbursement. More particularly the reimbursable improvements include:

Westbrook Boulevard Segment 3. As shown on Exhibit C, C-1, C-1.1, and C-1.2, this roadway extends from the south parcel line of Pleasant Grove Creek Open Space parcels C-53 and C-54 to the north curb return of Celebrate Drive (formerly Creekpark Drive) (approximately 1,306 linear feet). Reimbursable CIP improvements include, but are not limited to, the final grading and placement of aggregate base and asphalt pavement that make up the road section, and permanent pavement in excess of the Developer's frontage obligation, and all traffic signal conduit for the future installation of traffic signals. Additional reimbursable improvements from other parties, not part of this agreement, include reimbursement for upsized potable water and recycled water.

Lower Bank Drive. As shown on Exhibits C and C-2, this roadway extends from the east curb return of Westbrook Boulevard to the north curb return of Blue Oaks Boulevard (approximately 1,500 linear feet). Reimbursable CIP improvements include, but are not limited to, all traffic signal conduit and loop installation for the future installation of the traffic signals at Westbrook Boulevard/Lower Bank Drive and Blue Oaks Boulevard/Lower Bank Drive.

Westbrook Boulevard Segment 4. As shown on Exhibit C, C-3, and C-3.1, this roadway extends from the north curb return of Celebrate Drive (formerly Creekpark Drive) to the north curb return of Adirondack Place (approximately 1,124 linear feet). Reimbursable CIP improvements include, but are not limited to, the final grading and placement of aggregate base and asphalt pavement that make up the road section, and permanent pavement in excess of the Developer's frontage obligation, and all traffic signal conduit, loops, and pole installations for future installation of the traffic signal at the Westbrook Boulevard and Benchmark Drive/Holt Parkway intersection. Additional reimbursable improvements from other parties, not part of this agreement, include reimbursement for upsized potable water and recycled water.

Westbrook Boulevard CIP Lanes. As shown on Exhibit C, C-4, and C-4.1, this roadway extends from north of Blue Oaks Boulevard to south of Celebrate Drive (formerly Creekpark Drive) (approximately

1,730 linear feet). Reimbursable CIP improvements include, but are not limited to, the final grading and the placement of aggregate base and asphalt pavement that make up the road section of pavement for two lanes in excess of Developer's frontage obligation.

Blue Oaks Boulevard Segment 5. As shown on Exhibit C, C-5, and C-5.1, this roadway is on the south boundary of the Creekview property and extends from west Creekview property line to the west curb return of Cloud Dance Drive (approximately 767 linear feet) as the northerly half-section of a six-lane arterial roadway. Reimbursable CIP improvements include, but are not limited to, the final grading of the south sixteen feet of the north road half section, placement of aggregate base and asphalt pavement that make up the road section of the south sixteen feet of road, and all traffic signal conduit and loop installation for the future installation the traffic signal at Blue Oaks Boulevard and Cloud Dance Drive.

Benchmark Drive and Holt Parkway. As shown on Exhibit C, C-5, and C-6 these roadways extend from the Westbrook Boulevard east and west curb returns and extend to the Creekview property lines. Reimbursable CIP improvements include, but are not limited to, all traffic signal conduit and loop installation for the future traffic signal of Westbrook Boulevard and Benchmark Drive/Holt Parkway.

COUNCIL COMMUNICATION

CC #: 1847
File #: 0316-04

Title: 2021 Speed Limit Ordinance Update
Contact: Jana Cervantes 916-774-5498 jcervantes@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.20.

RECOMMENDATION TO COUNCIL

This is a request to set the speed limits on certain roads in the City of Roseville. Two options are available for Council's consideration. Staff recommends that City Council adopt an ordinance to:

1. Approve the attached speed limit ordinance, or
2. Modify the attached speed limit ordinance as desired and adopt a modified speed limit ordinance. Roadway segments with lower speed limits than those recommended may not be radar enforceable.

Staff recommends option 1, approval of the attached speed limit ordinance.

BACKGROUND

State law establishes the process for setting speed limits for roadways in California. The California Vehicle Code (CVC) and the California Manual on Uniform Traffic Control Devices (CaMUTCD) contain the guidelines and processes that must be followed in order to make speed limits radar enforceable. Certain roadways are assigned speed limits by default (called "prima facie" speed limits), such as 25 mph for residential streets and business districts, 15 mph in alleys, and 65 mph on all other roadways. Those do not require any kind of study as they are established by law. To justify a posted speed limit other than 65 mph that is radar enforceable, local jurisdictions are required to conduct and approve an Engineering and Traffic Survey (ETS). An ETS is based on two factors; the measured 85th percentile speed (that speed at which 85% of the traffic is traveling at or below) and whether or not "conditions not readily apparent to motorists" are present.

The California Department of Transportation (Caltrans) has an established set of standards and procedures for conducting an ETS. These standards require that in order for a speed limit to be radar enforceable, the posted speed limit should be set at the 5 mph increment nearest the 85th percentile speed. The recommended speed limit can be lowered an additional 5 mph if "conditions not readily apparent to motorists" are present. Conditions not readily apparent can include a variety of things such as accident history, number of driveways along the roadway,

adjacent land uses, or bike lanes, for example. The CVC requires that speed surveys must be conducted every five to ten years, or when there is a major change to a roadway.

Staff has recently completed 29 ETS's (See Table 1, attached). There are 4 new roadways surveyed; 23 surveys with no change recommended; and 2 surveys with a proposed decrease. The proposed decreases are along Orchard View Road and Scarborough Drive, due to a reduction of the 85th percentile speeds.

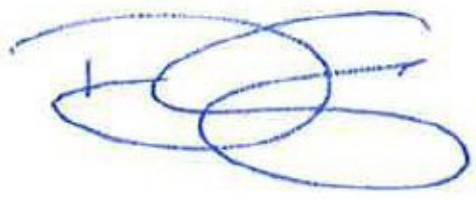
In addition to the summary of speed surveys shown in the attached Table 1, a copy of the complete set of speed survey updates is also attached. The CVC requires that posted speed limits be consistent with the results of the ETS to be radar enforceable. Public Works, Police, and the City Attorney are all in agreement that in order for the City to be in compliance with State law, posted speed limits need to be set using the State guidelines.

FISCAL IMPACT

The cost of completing speed limit surveys and changing the recommended speed limit signs is included in existing operating budgets.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA environment (CEQA Guidelines §15061(b)(3)).



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community
Goal E - Deliver exceptional city services

Respectfully Submitted,

Jana Cervantes, Senior Engineer

Jason Shykowski, Public Works Director

Dominick Casey, City Manager

Description

Speed Limit Ordinance

Table 1 - 2021 Speed Limit Changes

2021 Speed Limit Ordinance Update Binder

ORDINANCE NO.

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION 11.28.010 OF CHAPTER 11.28 OF TITLE 11 OF THE ROSEVILLE MUNICIPAL CODE REGARDING SPEED LIMITS

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 11.28.010 of Chapter 11.28 of Title 11 of the Roseville Municipal Code is hereby amended to read as follows:

11.28.10 Change in speed limits set by state law.

Pursuant to authority contained in Sections 22357 and 22358 of the Vehicle Code, the city council determines upon the basis of an engineering and traffic survey that the prima facie speed limits set forth in this section would facilitate the orderly movement of vehicular traffic and would be reasonable and safe, except when passing school grounds, and it is determined that a speed limit greater than those hereinafter set forth would be more than is reasonable or safe. It is declared that the prima facie speed limits hereinafter set forth are established according to law:

1. Alexandra Drive:
    a. Between East Roseville Parkway and Secret Ravine Parkway, 35 mph;
2. All-America City Boulevard:
    a. Between Los Vegas Avenue and Washington Boulevard, 25 mph;
3. Angus Road:
    a. Between Fiddyment Road and Casa Sedona Drive, 35 mph;
4. Antelope Creek Drive:
    a. Between Galleria Boulevard and Creekside Ridge Drive, 30 mph,
    b. Between Creekside Ridge Drive and end, 30 mph;
5. Atkinson Street:
    a. Between Denio Loop and Church Street, 40 mph,
    b. Between Denio Loop and PFE, 45 mph;
6. Atlantic Street:
    a. Between Yosemite Street and Interstate 80, 40 mph;
7. Auburn Boulevard:
    a. Between Riverside and city limits, 35 mph;

8. Automall Drive: 30 mph;

9. Baseline Road:

    a. Between Foothills Boulevard and Fiddyment Road, 45 mph;

10. Berry Street:

    a. Between 156 Berry Street and Galleria Boulevard, 35 mph;

11. Blue Oaks Boulevard:

    a. Between Fiddyment Road and eastern city limits, 45 mph,

    b. Between Fiddyment Road and Hayden Parkway, 50 mph;

12. Bob Doyle Drive:

    a. Between Kennerleigh Parkway and Hayden Parkway, 35 mph;

13. Brady Lane:

    a. Between Vineyard Road and Baseline Road, 40 mph;

14. Brookstone Drive:

    a. Between Westbrook Boulevard (N) and Westbrook Boulevard (S), 30 mph;

15. Casa Sedona Drive:

    a. Between Angus Road and Crocker Ranch Road, 30 mph;

16. Central Park Drive:

    a. Between Fairway Drive and Highland Park Drive, 25 mph;

17. Chase Drive:

    a. Between Cirby Way and end, 30 mph;

20. Cirby Way:

    a. Between Foothills Boulevard and Old Auburn Boulevard, 40 mph;

21. Commerce Drive:

a. Vernon Street and Roseville Road, 35 mph;

22. Country Club Drive:

a. Between Baseline Road and Pleasant Grove Boulevard, 35 mph;

23. Crawford Parkway:

a. Between Schellhous Drive and Fiddyment Road, 35 mph;

b. Between North Hayden Boulevard to Schellhous Drive, 25 mph;

24. Creekside Ridge Drive:

a. Between Roseville Parkway and end, 25 mph;

25. Crimson Ridge Way:

a. Between Woodcreek Oaks Boulevard and Roseville Parkway, 30 mph;

26. Crocker Ranch Road:

a. Between Blue Oaks Boulevard and Opal Drive, 35 mph;

27. Del Webb Boulevard:

a. Between Fiddyment Road and Blue Oaks Boulevard, 35 mph;

28. Diamond Creek Boulevard:

a. Between Blue Oaks Boulevard and Parkside Way, 35 mph;

29. Douglas Boulevard:

a. Between Vernon Street and 1-80, 30 mph,

b. Between I-80 and Rocky Ridge, 35 mph,

c. Between Rocky Ridge Drive and Sierra College Boulevard, 45 mph;

30. Eastridge Drive:

a. Between Old Auburn Road and Weston Way, 30 mph;

31. East Roseville Parkway:

a. Between Taylor Road and Sierra College Boulevard, 45 mph,

b. Between Sierra College Boulevard and eastern City limits, 40 mph;

32. Estates Drive:

a. Between Folsom Road and Harding Boulevard, 25 mph;

33. Eureka Road:

a. Between Interstate 80 and Sierra College Boulevard, 40 mph;

34. Fairway Drive:

a. Between northern city limits and Stanford Ranch Road, 40 mph;

35. Fiddyment Road:

a. Between Pleasant Grove Boulevard and northern city limits, 45 mph,

b. Between Pleasant Grove Boulevard and Baseline Road, 50 mph;

36. Fidelity Way:

a. Between Blue Oaks Boulevard and Freedom Way, 30 mph;

37. Folsom Road:

a. Between Vernon Street and Douglas Boulevard, 25 mph;

38. Foothills Boulevard:

a. Between Cirby Way and Blue Oaks Boulevard, 45 mph,

b. Between Blue Oaks Boulevard and northern city limits, 40 mph;

39. Freedom Way:

a. Between Industrial Avenue and Washington Boulevard, 40 mph;

40. Galilee Road:

a. Between Pleasant Grove Boulevard and Industrial Avenue, 35 mph;

41. Galleria Boulevard:

a. Between Harding Boulevard and Roseville Parkway, 45 mph,

b. Between Roseville Parkway and SR-65, 40 mph;

42. Gibson Drive:

a. Between Roseville Parkway (E) and Roseville Parkway (W), 40 mph;

43. Hallissy Drive:

a. Between Washington Boulevard and Pleasant Grove Boulevard, 30 mph;

44. Harding Boulevard:

a. Between Douglas Boulevard and Estates Drive, 30 mph,

b. Between Estates Drive and Lead Hill Boulevard, 35 mph,

c. Between Lead Hill Boulevard and Wills Road, 40 mph;

45. Hayden Parkway:

a. Between Fiddyment Road and Blue Oaks Boulevard, 35 mph;

46. Highland Park Drive:

a. Between Fairway Drive and Pleasant Grove Boulevard, 30 mph,

b. Between Pleasant Grove Boulevard and Stanford Ranch, 35 mph;

47. Hillsborough Drive:

a. Between East Roseville Parkway and Eureka Road, 35 mph;

48. Holt Parkway:

a. Between Fiddyment Road and North Hayden Parkway, 30 mph;

49. Industrial Avenue:

Summary

Street: BLUE OAKS BL
Limits: FIDDYMENT RD
N. HAYDEN PW

Field Observer: RY / HC
Checked By: J CERVANTES
Date: 06/30/2021

Factors	Direction: WEST / EAST	
A. Prevailing Speed Data		
Location of Survey	1,500' E. OF N. HAYDEN PW	
85th Percentile	54.2	
10 mph Pace	45-54 MPH	
Percent in Pace	58.3%	
Posted Speed Limit	50 MPH	
B. Collision History		
Date Range Covered	04/26/2018 to 04/26/2021	(3 YEARS)
Total Collisions	1	
Collision Rate (Acc/MVM)	0.20	
Expected Collision Rate	2.95	
C. Traffic Factors		
Average Daily Traffic	6,335	
Length of Segment	3,890'	
Lane Configuration	SINGLE LANE EACH DIRECTION	
Street Classification	ARTERIAL	
D. Conditions Not Readily Apparent		
Conditions	SEE: ROADSIDE CONDITIONS ON SPEED SURVEY MAP	
Roadway Geometrics	HORIZONTAL CURVES	
Comments	NO PARKING ON BOTH SIDES OF STREET	
E. Adjacent Land Use	OPEN SPACE; RESIDENTIAL	
Posted Speed Limit	50 MPH	
Speed Limit Change?	NO	
Revised Speed Limit

2021 Traffic Engineering and Speed Map – Speed Zone Survey

City of Roseville
Engineering and Traffic Survey
Summary

Street: CRAWFORD PKWY
Limits: NORTH HAYDEN PKWY
SCHELLHOUS DRIVE

Field Observer: RY HC
Checked By: J CERVANTES
Date: 10/28/2021

Factors	Direction: EB/WB	
A. Prevailing Speed Data		
Location of Survey	500' East of North Hayden Pkwy	
85th Percentile	30.0 MPH	
10 mph Pace	20-29	
Percent in Pace	50.7%	
Posted Speed Limit	30 & 25 MPH	
B. Collision History		
Date Range Covered	4/26/2018 to 4/26/2021	(3 YEARS)
Total Collisions	0	
Collision Rate (Acc/MVM)	0.00	
Expected Collision Rate	2.95	
C. Traffic Factors		
Average Daily Traffic	570	
Length of Segment	2226	
Lane Configuration	Single Lane Each Direction	
Street Classification	Primary Residential	
D. Conditions Not Readily Apparent		
Conditions	See: Roadside Conditions on Speed Zone Survey Map	
Roadway Geometrics	Horizontal Curve	
Comments	School, Heavy Construction Traffic	
E. Adjacent Land Use	Single family residential	
Posted Speed Limit	30 & 25MPH	
Speed Limit Change?	Yes	
Revised Speed Limit	25MPH

Engineering and Traffic Survey
Summary

Street: DOUGLAS BL
Limits: ROCKY RIDGE DR
I80 E

Field Observer: RY / JDT
Checked By: JANA CERVANTES
Date: 8/24/2021

Factors	Direction: East/West
A. Prevailing Speed Data	
Location of Survey	100' E OF SIERRA GARDENS
85th Percentile	42.0
10 mph Pace	32 - 41
Percent in Pace	77.0%
Posted Speed Limit	35
B. Collision History	
Date Range	4/26/2018 To 4/26/2021 (3 YEARS)
Total Collisions	98
Collision Rate (Acc/MVM)	1.703
Expected Collision Rate	2.75
C. Traffic Factors	
Average Daily Traffic	54885
Length of Segment	5047
Lane Configuration	3 Lanes Each Direction
Street Classification	Arterial
D. Conditions Not Readily Apparent	
Conditions	See: Roadside Conditions on the Speed Zone Survey Map
Roadway Geometrics	No shoulder
Comments	MANY COMMERCIAL DRIVEWAYS; TRAFFIC CONGESTION
E. Adjacent Land Use	Commercial
Posted Speed Limit	35
Speed Limit Change?	No
Revised Speed Limit	35

City of Roseville
Engineering and Traffic Survey
Summary

Street: FOLSOM RD
Limits: VERNON ST
DOUGLAS BL

Field Observer: HC/JDT
Checked By: J CERVANTES
Date: 7/13/2021

Factors	Direction: North/South
A. Prevailing Speed Data	
Location of Survey	215 FOLSOM RD
85th Percentile	30.6
10 mph Pace	22 - 31
Percent in Pace	79.0%
Posted Speed Limit	25
B. Collision History	
Date Range	4/26/2018 To 4/26/2021 (3 YEARS)
Total Collisions	6
Collision Rate (Acc/MVM)	1.539
Expected Collision Rate	2.95
C. Traffic Factors	
Average Daily Traffic	5025
Length of Segment	3161
Lane Configuration	Single Lane Each Direction
Street Classification	Collector
D. Conditions Not Readily Apparent	
Conditions	See: Roadside Conditions on the Speed Zone Survey Map
Roadway Geometrics	Horizontal Curve
Comments	NUMEROUS DRIVWAYS; NUMEROUS RESIDENTIAL SIDE STREETS.
E. Adjacent Land Use	Single Family Residential
Posted Speed Limit	25
Speed Limit Change?	No
Revised Speed Limit

A. Prevailing Speed Data		
Location of Survey	100' WEST OF THUNDERBIRD WY	
85th Percentile	45.6 MPH	
10 mph Pace	35-44	
Percent in Pace	60.0%	
Posted Speed Limit	35	
B. Collision History		
Date Range Covered	04/26/2018 to 04/26/2021	(3 YEARS)
Total Collisions	1	
Collision Rate (Acc/MVM)	0.00	
Expected Collision Rate	2.95	
C. Traffic Factors		
Average Daily Traffic	2375	
Length of Segment	2270	
Lane Configuration	Single Lane Each Direction	
Street Classification	Collector	
D. Conditions Not Readily Apparent		
Conditions		
Roadway Geometrics		
Comments		
E. Adjacent Land Use	Residential	
Posted Speed Limit	35	
Speed Limit Change?	NO	
Revised Speed Limit	N/A

2021 Traffic Engineering and Speed Map - Speed Zone Survey

City of Roseville
Engineering and Traffic Survey
Summary

Street: RESERVE DR
Limits: DIAMOND OAKS RD
ROSEVILLE PW

Field Observer: RY, HC
Checked By: J CERVANTES
Date: 9/29/2021

Factors	Direction: NB/SB	
A. Prevailing Speed Data		
Location of Survey	320' South of Roseville Parkway	
85th Percentile	28.9 MPH	
10 mph Pace	20-29	
Percent in Pace	77.7%	
Posted Speed Limit	25	
B. Collision History		
Date Range Covered	04/26/2018 to 04/26/2021	(3 YEARS)
Total Collisions	1	
Collision Rate (Acc/MVM)	1.05	
Expected Collision Rate	2.95	
C. Traffic Factors		
Average Daily Traffic	10618	
Length of Segment	1298	
Lane Configuration	Single Lane Each Direction	
Street Classification	Collector	
D. Conditions Not Readily Apparent		
Conditions	See: Roadside Conditions on the Speed Zone Survey Map.	
Roadway Geometrics	Horizontal Curve	
Comments	Roundabouts; numerous pedestrians	
E. Adjacent Land Use	Commercial	
Posted Speed Limit	25	
Speed Limit Change?	NO	
Revised Speed Limit	N/A	

Approved and Authorized for release by City of Roseville Traffic Engineering Department:

City of Roseville
Engineering and Traffic Survey
Summary

Street: SECRET RAVINE PW
Limits: E ROSEVILLE PW
SIERRA COLLEGE BL

Field Observer: RY / JDT
Checked By: J CERVANTES
Date: 7/8/2021

Factors	Direction: North/South
A. Prevailing Speed Data	
Location of Survey	560' WEST OF SCARBOROUGH DR.
85th Percentile	48.9
10 mph Pace	41 - 50
Percent in Pace	80.5%
Posted Speed Limit	45
B. Collision History	
Date Range	4/26/2018 To 4/26/2021 (3 YEARS)
Total Collisions	12
Collision Rate (Acc/MVM)	0.775
Expected Collision Rate	2.95
C. Traffic Factors	
Average Daily Traffic	9578
Length of Segment	8034
Lane Configuration	2 Lanes Each Direction
Street Classification	Arterial
D. Conditions Not Readily Apparent	
Conditions	See: Roadside Conditions on the Speed Zone Survey Map
Roadway Geometrics	Horizontal Curve and Vertical Curves
Comments	LIMITED SIGHT DISTANCE; NUMEROUS SIDE STREETS; CLASS II BIKE LANES.
E. Adjacent Land Use	Single Family Residential
Posted Speed Limit	45
Speed Limit Change?	No
Revised Speed Limit

Engineering and Traffic Survey
Summary

Street: SIERRA GARDENS DR
Limits: N SUNRISE AV
DOUGLAS BL

Field Observer: RY/JDT
Checked By: J CERVANTES
Date: 9/8/2021

Factors	Direction: East/West
A. Prevailing Speed Data	
Location of Survey	800' N OF DOUGLAS
85th Percentile	35.0
10 mph Pace	28 - 37
Percent in Pace	90.0%
Posted Speed Limit	30
B. Collision History	
Date Range	4/26/2018 To 4/26/2021 (3 YEARS)
Total Collisions	1
Collision Rate (Acc/MVM)	0.141
Expected Collision Rate	2.95
C. Traffic Factors	
Average Daily Traffic	11037
Length of Segment	3095
Lane Configuration	Single Lane Each Direction
Street Classification	Collector
D. Conditions Not Readily Apparent	
Conditions	See: Roadside Conditions on the Speed Zone Survey Map
Roadway Geometrics	Horizontal Curve & Vertical Curve
Comments	NUMEROUS COMMERCIAL DRIVEWAYS; DOG PARK; BUS STOP/TRANSFER STATION; PEDESTRIAN CROSSINGS; CLASS II BIKE LANES; LIMITED SIGHT DISTANCE
E. Adjacent Land Use	Commercial
Posted Speed Limit	30
Speed Limit Change?	No
Revised Speed Limit

City of Roseville
Engineering and Traffic Survey
Summary

Street: TAYLOR RD
Limits: E ROSEVILLE PW
CITY LIMIT

Field Observer HC RY
Checked By: J CERVANTES
Date: 5/27/2021

Factors	Direction: North/South
A. Prevailing Speed Data	
Location of Survey	200' South of Plumber Wy
85th Percentile	50.0
10 mph Pace	42 - 51
Percent in Pace	80.0%
Posted Speed Limit	45
B. Collision History	
Date Range	4/26/2018 To 4/26/2021 (3 Years)
Total Collisions	15
Collision Rate (Acc/MVM)	0.619
Expected Collision Rate	2.95
C. Traffic Factors	
Average Daily Traffic	17209
Length of Segment	5561
Lane Configuration	Single Lane Each Direction
Street Classification	Primary Arterial
D. Conditions Not Readily Apparent	
Conditions	See: Roadside Conditions on the Speed Zone Survey Map
Roadway Geometrics	Vertical and Horizontal Curve
Comments	Numerous commerical driveways; Numberous large trucks; Vehicles entering and exiting freeway.
E. Adjacent Land Use	Commericial and Open Space
Posted Speed Limit	45
Speed Limit Change?	No
Revised Speed Limit

Title:	Northwest Specific Plan Area Fencing - Budget Adjustment
Contact:	Eric Dexter 916-746-1769 edexter@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.21.

RECOMMENDATION TO COUNCIL

Staff requests Council adopt an ordinance approving a budget adjustment in the amount of $200,000 for ongoing fencing replacement and repairs in the Northwest Specific Plan Area.

BACKGROUND

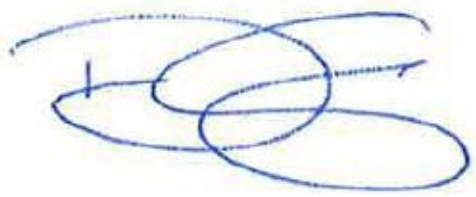
Funding from a community facilities district bond refunding is to be used only in the Northwest Specific Plan Area (District) for infrastructure replacement and repairs. In the past, these funds have been used for irrigation controller replacements, irrigation and landscape improvements. The current priority is replacement of fences in the District. Staff recommends a budget adjustment for $200,000 to allow for completion of various fence replacement projects in the District.

FISCAL IMPACT

The funding source is from a community facilities district bond refunding in prior years within the Northwest Specific Plan Area. The fund balance is sufficient to accommodate the recommended budget adjustment. There is no impact to the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Title:	Community Facilities Districts and Lighting and Landscape Districts - Budget Adjustment
Contact:	Eric Dexter 916-746-1769 edexter@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.22.

RECOMMENDATION TO COUNCIL

Staff request Council adopt an ordinance approving a budget adjustment in the amount of $142,000 for ongoing landscape and park maintenance contract work, landscape renovation work and structural repairs in two Lighting & Landscape Districts (LLD) and two Community Facilities Districts (CFD).

BACKGROUND

Ongoing landscape and park maintenance contract work, structural repairs and landscape renovations are needed in multiple Lighting & Landscape Districts (LLD) and Community Facilities Districts (CFD). This work totals $142,000 and consists of the following projects that were not included in the original FY2021-22 budget:

- Riverside Avenue LLD landscape improvements were made to the District landscape that were not originally planned in FY2021-22.
- Fiddyment Ranch CFD has accident damage that resulted in unexpected repairs. Subrogation payments have not been determined yet.
- Westpark CFD will be adding restroom locks and a shade structure at Luken Park.
- Vernon Street LLD had accident damage in FY2020-21 with repairs that were not completed until FY2021-22. Subrogation payments of $49,000 were received in FY2020-21 and will offset the repair costs.

Staff recommends a budget adjust totaling $142,000 to allow for the completion of these projects.

FISCAL IMPACT

There are sufficient fund balances in the districts to accommodate the recommended budget adjustments. This work will be funded in the respective LLDs and CFDs. There is no impact to the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

COUNCIL COMMUNICATION

CC #: 1837
File #: 0203-02

Title:	Waste Collection Vehicle Fuel Capacity Increase - Budget Adjustment
Contact:	Devin Whittington 916-774-5783 dwhittington@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.23.

RECOMMENDATION TO COUNCIL

Staff recommends City Council adopt an ordinance to approve a budget adjustment in the amount of $86,000 to increase the fuel capacity on seven waste collection vehicles currently in production.

BACKGROUND

The Environmental Utilities (EU) Waste Services Division is converting certain vehicles to operate using compressed natural gas (CNG). These trucks will eventually be fueled at the Pleasant Grove Wastewater Treatment Plant and use renewable natural gas. This is part of EU's effort to create a local closed-loop system.

With the City's first CNG waste collection trucks, it was discovered that the CNG pressure was low on longer route days, resulting in trucks needing to break off route early to refuel. Collection trucks typically fuel once per day to save time and be more efficient at collecting material. Staff believes that by increasing the fuel capacity from 60 DGE (diesel gallon equivalent) to 75 DGE, the residential CNG fleet will be able to fuel once per day.

FISCAL IMPACT

Waste Services is requesting an additional appropriation of $86,000 from the available resources in the Solid Waste Operations Fund to cover the cost of increasing the fuel capacity on the seven CNG waste collection vehicles currently in production. This request includes a 15 percent contingency to hedge against any unforeseen costs related to this purchase.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a budget adjustment meets the above criteria and is not

subject to CEQA. No additional environmental review is required.

RECOMMENDATION TO COUNCIL

Staff recommends City Council accept the following informational reports prepared for the 2020-21 levy year to be filed with the City Clerk. No other action is required.

BACKGROUND

Senate Bill 165 (SB 165) enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that any local special tax/local bond measure subject to voter approval contain a statement indicating the specific purposes of the special tax, that the proceeds of the special tax be applied to those purposes, the creation of an account into which the proceeds shall be deposited, and an annual report containing specified information concerning the use of the proceeds. The Act only applies to bonds issued on or after January 1, 2001 in accordance with Sections 50075.1 and 53410 of the California Government Code. The filing of the attached SB165 reports for FY2020-21 fulfills Government Code Sections 50075.3 and 53411.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378 . The Local Agency Special Tax and Bond Accountability Act Reports meet the above criteria and are not subject to CEQ A. No additional environmental review is required.

City of Roseville
Non-Bonded Community Facilities Districts
Senate Bill 165 Annual Report
Fiscal Year 2020/21

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval provide specified accountability measures. Although not all of the non-bonded Mello Roos Districts ("Non-Bonded CFD" or "Services District") formed by the City of Roseville (the "City") are subject to the Act's reporting requirements, information for all of the City's Services CFDs is reported below.

Each Services District subject to the Act is required to state the specific purposes of the Special Tax, restrict the Special Tax revenues to be used only for those purposes, create an account into which the Special Tax revenues shall be deposited and prepare an annual report containing collection and expenditure information together with the status of the project.

Some of these requirements of the Act are fulfilled during the formation of each Services District while others are handled through annual reports. This annual report intends to comply with Section 50075.3 of the California Government Code by providing the following for each Services District:

(a) The amount of funds collected and expended during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the Special Taxes.

A. STATED PURPOSE AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the Special Tax and ii) that the Special Tax revenues be applied to those purposes, were fulfilled through the formation documents of each Services CFD. Shortly thereafter, a Special Tax Fund was created for each district where the Special Tax revenues and other collections of each District are to be deposited and expenditures from each district's Special Tax Fund are to be restricted to only the authorized services and costs of the respective Services District.

B. SPECIAL TAX FUND – COLLECTIONS AND EXPENDITURES

All revenues of the Services Districts are deposited into and maintained in one or more accounts within the Special Tax Fund of each respective Services District.

Total collections and expenditures through each Services District's Special Tax Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are listed below.

Non-Bonded Services CFD	Total Collections	Total Expenditures
CFD 3, Municipal Services	$4,986,918	$4,951,579
CFD 4 Infill, Services District	$186,764	$157,421
Creekview CFD 2, Public Services	$0	$3,346
Crocker Ranch CFD 2, Services District	$315,143	$290,471
Fiddyment Ranch CFD 2, Public Services	$1,121,573	$1,172,936
Highland Reserve North CFD 2, Services District	$588,475	$512,953
HP Campus Oaks CFD 2, Public Services	$2,353	$21,353
Longmeadow CFD 2, Services District	$121,911	$116,683
North Roseville CFD 2, Services District	$522,212	$371,181
Sierra Vista CFD 2, Public Services	$166,043	$108,224
Stone Point CFD 2, Services District	$88,241	$81,225
Stone Point CFD 4, Services District	$74,105	$62,709
Stoneridge CFD 1, Services District	$702,776	$671,537
Stoneridge Parcel 1 CFD 2, Services District	$36,751	$42,131
Westbrook CFD 2, Public Services	$275,434	$195,880
Westpark CFD 2 SD, Public Services	$1,375,133	$1,247,465
Woodcreek East CFD 2, Services District	$182,368	$183,160
Woodcreek West CFD 2, Services District	$453,270	$431,301

Each year, the Special Tax fund of each district is analyzed to determine if any surplus funds exist. Surplus district funds, when available, are then applied against the budgeted annual costs of each such district, which would result in a reduction in the amount levied to the property owners than would have otherwise been charged.

C. STATUS OF PROJECTS

The status of the project of each Services District is ongoing.

The revenues generated by each District are to fund the authorized costs of each respective District. The Projects of each Services CFD are specific to each and may include costs to maintain and/or replace certain public improvements and/or municipal services and administration costs; such funding shall continue on an annual basis into perpetuity.

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Creekview CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$0
EXPENDITURES	
Debt Service Expenditures	$258,024
All Other Expenditures	4,395
Total Operating Fund Expenditures	$262,419

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On November 6, 2019, the City formed the District through the adoption of Resolution No. 19-456. The District is located in the Creekview Specific Plan in the northwest portion of the City. The District is planned primarily for single-family residential uses.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include transportation improvements, backbone drainage, water and sanitary sewer improvements, open space and park improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2020 Project Fund
Bond Proceeds Deposited	$10,317,173
Prior Net Increase/(Decrease)	N/A
Project Fund Balance, July 1, 2020	N/A
FY 2020/21 Net Increase/(Decrease)	(10,317,173)
Project Fund Balance, June 30, 2021	$0
Status of Project	Project is Ongoing

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Crocker Ranch CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$1,491,068
EXPENDITURES	
Debt Service Expenditures	$1,407,372
All Other Expenditures	53,051
Total Operating Fund Expenditures	$1,460,422

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On February 6, 2002, the City formed the District through the adoption of Resolution No. 02-53. The District is located in the northwestern area of the City within a portion of the North Roseville Specific Plan area. The area is generally bounded by the Highway 65 Bypass to the east, Blue Oaks Boulevard to the south, Fiddyment Road to the west, and the Placer County/Roseville City Limit on the north.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include transportation improvements, water and wastewater system improvements, drainage improvements, City capital improvements and incidental expenses related thereto of benefit to the District.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Diamond Creek CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$403,249
EXPENDITURES	
Debt Service Expenditures	$378,050
All Other Expenditures	24,080
Total Operating Fund Expenditures	$402,130

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On April 4, 2007, the City formed the District by the adoption of Resolution No. 07-155. The District lies within the City's North Roseville Specific Plan area and identified as Specific Plan Parcel DC-31. The District is bounded by Diamond Creek Boulevard to the west, Blue Oaks Boulevard to the south and Parkside Way to the north. Upon formation, the District, consisted of 19.1 acres which had been approved for residential and non-residential uses.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway improvements, drainage, water and sanitary sewer improvements and park improvements related thereto of benefit to the District.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2007 Project Fund	Series 2019 Project Fund
Bond Proceeds Deposited	$5,622,000	$300,000
Prior Net Increase/(Decrease)	(5,622,000)	N/A
Project Fund Balance, July 1, 2020*	$0	$302,941
FY 2020/21 Net Increase/(Decrease)	0	(40,260)
Project Fund Balance, June 30, 2021	$0	$262,681
Status of Project	Project is Ongoing	

* The balance of the Series 2019 Project Fund as of May 9, 2020 was $301,917. The balance shown above includes projected interest earnings on this amount to July 1, 2020.

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On September 15, 2004, the City formed the District by the adoption of Resolution No. 04-431. The District is located in the northwestern area of the City within a portion of the West Roseville Specific Plan area. This area is generally west of Fiddyment Road and bounded by Phillip Road on the south. The Placer County/Roseville City Limit line is the northern boundary. A substantial portion of the District has been developed.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway, sewer, water, drainage, parks and open space improvements. The backbone infrastructure needed for development in the District has been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

HP Campus Oaks Community Facilities District No. 1 (Public Facilities)
Senate Bill 165 Annual Report
Fiscal Year 2020/21

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	HP Campus Oaks CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$1,720,279
EXPENDITURES	
Debt Service Expenditures	$1,470,488
All Other Expenditures	354,289
Total Operating Fund Expenditures	$1,824,777

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On September 22, 2015, the City formed the District by the adoption of Resolution No. 15-443. The District is located in the City's North Industrial Planning Area along the City's northern boundary. The site is located in a primarily residential area, bound by Blue Oaks Boulevard to the north, the Hewlett Packard Campus to the east, Woodcreek Golf Club to the south, and Woodcreek Oaks Boulevard to the west.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, backbone drainage, water and sanitary sewer improvements, including sewer and water treatment facilities and park and open space improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2016 Project Fund
Bond Proceeds Deposited	$19,900,000
Prior Net Increase/(Decrease)	(19,900,000)
Project Fund Balance, July 1, 2020	$0
FY 2020/21 Net Increase/(Decrease)	(0)
Project Fund Balance, June 30, 2021	$0
Status of Project	Substantially Complete

City of Roseville
Longmeadow Parkside Community Facilities District No. 1
Senate Bill 165 Annual Report
Fiscal Year 2020/21

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Longmeadow Parkside CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$575,651
EXPENDITURES	
Debt Service Expenditures	$567,150
All Other Expenditures	22,557
Total Operating Fund Expenditures	$589,707

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On October 19, 2005, the City formed the District by the adoption of Resolution No. 05-538. The District consists of two non-contiguous single-family residential subdivisions identified as Longmeadow at Crocker Ranch ("Longmeadow") and Parkside Estates ("Parkside"). Longmeadow is situated along the north line of Blue Oaks Boulevard, east of Woodcreek Oaks Boulevard. Parkside Estates is located at the southeast quadrant of Junction Boulevard and Porter Drive, approximately 3 miles from the Longmeadow area. Both properties are located in the western portion of the City.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, drainage, water and sanitary sewer improvements and park improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District

approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2005 Project Fund
Bond Proceeds Deposited	$7,663,621
Prior Net Increase/(Decrease)	(7,663,621)
Project Fund Balance, July 1, 2020	$0
FY 2020/21 Net Increase/(Decrease)	0
Project Fund Balance, June 30, 2021	$0
Status of Project	Completed

EXPENDITURES	
Debt Service Expenditures	$1,437,336
All Other Expenditures	53,014
Total Operating Fund Expenditures	$1,490,350

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On June 9, 1998, the City formed the District by the adoption of Resolution No. 98-184. The District is located west of State Highway 65 via Blue Oaks Boulevard. The Sunset Industrial Area (in unincorporated Placer County) and the North Industrial Planning Area of the City border the District on the north.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway, sewer, water and drainage facilities, acquire land for a school site, acquire a fire station site, and other public improvements.as well as incidental expenses related thereto of benefit to the District.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's

Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

Senate Bill 165 Annual Report
Fiscal Year 2020/21

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Northeast Roseville CFD 2
REVENUES	
Total Operating Fund Collections and Revenues	$90,676
EXPENDITURES	
Debt Service Expenditures	$798,788
All Other Expenditures	23,146
Total Operating Fund Expenditures	$821,934

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On December 19, 1990, the City formed the District by the adoption of Resolution No. 90-308. The District is located in the northeast section of the City. The CFD is generally bounded by Interstate 80 to the west, the Highway 65 Bypass to the north and Douglas Boulevard to the south. The District is primarily buildout.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, drainage, water and sanitary sewer improvements and park improvements. All financed improvements have been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The Project is complete. No proceeds for District improvements were generated from any financings subject to the Act. Because the Bonds have matured, information related to this District will not be shown in future SB 165 annual reports.

City of Roseville

Senate Bill 165 Annual Report
Fiscal Year 2020/21

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Northwest Roseville CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$16,842
EXPENDITURES	
Debt Service Expenditures	$2,145,970
All Other Expenditures	1,941
Total Operating Fund Expenditures	$2,147,911

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On July 5, 1989, the City formed the District by the adoption of Resolution No. 89-109. The District lies within the northwest section of the City and is bound by Baseline Road on the south, generally between Fiddyment Road and Woodcreek Oaks Road on the west and generally Washington Boulevard on the east. The District is primarily built out.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, drainage, water and sanitary sewer improvements, utility improvements and a portion of school improvements. All of the financed facilities have been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The Project is complete. No proceeds for District improvements were generated from any financings subject to the Act. Because the Bonds have matured, information related to this District will not be shown in future SB 165 annual reports.

Senate Bill 165 Annual Report
Fiscal Year 2020/21

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Stoneridge East CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$1,262,623
EXPENDITURES	
Debt Service Expenditures	$1,168,819
All Other Expenditures	44,328
Total Operating Fund Expenditures	$1,213,147

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On June 20, 2001, the City formed the District by the adoption of Resolution No. 01-300. The District is located in the easterly portion of the City within a portion of the Stoneridge Specific Plan area, west of Sierra College Boulevard, north of Olympus Drive, east of Roseville Parkway, and south of the Roseville city limit. The District territory had been approved for approximately 1,512 residential units upon formation.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include transportation improvements, water and wastewater system improvements, drainage improvements, park improvements and other capital improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2001 Project Fund	Series 2007 Project Fund
Bond Proceeds Deposited	$14,395,235	$855,369

City of Roseville
Stoneridge Parcel 1 Community Facilities District No. 1
Senate Bill 165 Annual Report
Fiscal Year 2020/21

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Stoneridge Parcel 1 CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$155,302
EXPENDITURES	
Debt Service Expenditures	$138,213
All Other Expenditures	8,804
Total Operating Fund Expenditures	$147,016

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On July 7, 1999, the City formed the District by the adoption of Resolution No. 99-248. The District is located in the easterly portion of the City, of which all the property in the district is located within a portion of the City's 1,089-acre Stoneridge Specific Plan area. The District is located at the southerly apex of the Stoneridge Specific Plan area and is bounded by Roseville Parkway to the west and south, Olympus Drive to the east and south, and vacant land to the north zoned for park and recreational use.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway improvements and incidental expenses related thereto of benefit to the District.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2000 Project Fund
Bond Proceeds Deposited	$1,716,415
Prior Net Increase/(Decrease)	(1,716,415)
Project Fund Balance, July 1, 2020	$0
FY 2020/21 Net Increase/(Decrease)	0
Project Fund Balance, June 30, 2021	$0
Status of Project	Completed

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On July 18, 2001, the City formed the District by the adoption of Resolution No. 01-362. The District is located in the easterly portion of the City within a portion of the Stoneridge Specific Plan area, west of Sierra College Boulevard, north of Olympus Drive, east of Roseville Parkway, and south of Secret Ravine Parkway. The District represents only a portion of the Stoneridge Specific Plan area.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway, sewer, water, drainage, park facilities and development fees related thereto of benefit to the District.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On December 5, 2007, the City formed the District by the adoption of Resolution No. 07-635. The District is located in the north central portion of the City next to the Westfield Galleria mall and is bounded by Reserve Drive to the west, Roseville Parkway to the north and Galleria Blvd to the east. The District is a fully developed commercial site.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, drainage, water and sanitary sewer improvements and development impact fees. The financed improvements required to develop have been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

Senate Bill 165 Annual Report
Fiscal Year 2020/21

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Westbrook CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$2,417,112
EXPENDITURES	
Debt Service Expenditures	$2,093,963
All Other Expenditures	83,053
Total Operating Fund Expenditures	$2,177,015

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On April 16, 2014, the City formed the District by the adoption of Resolution No. 14-131. The District lies within the Sierra Vista Specific Plan and is located along the south side of Pleasant Grove Boulevard, immediately south and west of the Westpark master planned community and the West Roseville Specific Plan.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of public facilities authorized to be financed by the District include roadway improvements, backbone drainage, water and sanitary sewer improvements, including sewer and water treatment facilities, park and open space improvements and development impact fees.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2014 Project Fund	Series 2018 Project Fund	Series 2019 Project Fund

City of Roseville
Westpark Community Facilities District No. 1 (Public Facilities)
Senate Bill 165 Annual Report
Fiscal Year 2020/21

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code ("GC") by providing the following:

(a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2021.
(b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act's requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the "District") and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the "Bonds")

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the "Operating Fund").

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2021 ("Fiscal Year 2020/21") are reported in the table below.

Description	Westpark CFD 1
REVENUES	
Total Operating Fund Collections and Revenues	$6,923,441
EXPENDITURES	
Debt Service Expenditures	$5,428,450
All Other Expenditures	215,716
Total Operating Fund Expenditures	$5,644,166

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On September 15, 2004, the City formed the District by the adoption of Resolution No. 04-439. The District is located in the northwestern area of the City within a portion of the West Roseville Specific Plan area. The area is approximately 1-mile north of Baseline Road and generally bounded by Fiddyment Road to the east, the then City limit to the west, Pleasant Grove Boulevard to the southwest (and north and south of Pleasant Grove Boulevard in the southeast area of the District), with Phillip Road forming the northern boundary. The District is substantially developed.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, backbone drainage, water and sanitary sewer improvements and park improvements and development impact fees.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District

approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2005 Project Fund	Series 2006 Project Fund
Bond Proceeds Deposited	$48,135,105	$20,774,854
Prior Net Increase/(Decrease)	(48,135,105)	(20,758,477)
Project Fund Balance, July 1, 2020	$0	$16,377
FY 2020/21 Net Increase/(Decrease)	0	212
Project Fund Balance, June 30, 2021	$0	$16,589
Status of Project	Substantially Complete

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On October 11, 2000, the City formed the District by the adoption of Resolution No. 00-489. The District is located in the northwestern portion of the City and is bounded by the Roseville City Limits to the north, Woodcreek Oaks Boulevard to the west and generally bounded by Blue Oaks Boulevard to the south and Foothills Boulevard to the east. The District comprises of 350 single family units and is fully built out.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, drainage, water and sanitary sewer improvements, sound attenuation and park improvements. The financed improvements required in order to develop the District have been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On October 15, 1999, the City formed the District by the adoption of Resolution No. 99-384. The District is located in the northwestern portion of the City contiguous to the City's then western limit and is bounded by Pleasant Grove Boulevard to the North, Fiddyment Road to the west and Baseline Road to the south.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway improvements, drainage, water and sanitary sewer improvements and park improvements. The financed improvements required in order to develop the District have been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information for District Bonds subject to the Act, including the amount of bond proceeds deposited into the Project Fund and its beginning and ending balances. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2005 Project Fund

Project Fund Balance, June 30, 2021	$0
Status of Project	Completed

COUNCIL COMMUNICATION

CC #: 1843
File #: 0800-03

Title: Electric Utility Wildfire Mitigation Plan
Contact: Jason Grace 916-774-5643 jgrace@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.25.

RECOMMENDATION TO COUNCIL

Roseville Electric Utility staff recommends the City Council accept the attached Electric Utility Wildfire Mitigation Plan and independent evaluator's report.

BACKGROUND

The purpose of the Electric Utility Wildfire Mitigation Plan (Plan) is to ensure the safety of the public and City employees with regard to utility operations, and meet the requirements of Senate Bill 901 (SB 901) and other regulatory requirements. The Plan describes the range of activities the utility is taking to mitigate the threat of wildfires ignited by power lines and other equipment. It is subject to review by the City Council and is implemented by the Electric Department Director and his/her designees. The Plan complies with the requirements of the Public Utilities Code section 8387 for publicly-owned electric utilities to prepare a wildfire mitigation plan reviewed by an independent evaluator and accepted by the governing board, by January 1, 2020, and annually thereafter.

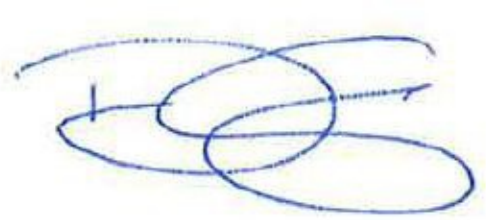
The City of Roseville is located in a region of the state with a very low wildfire risk. No part of the City's electric service territory is located in or near the High Fire Threat District (HFTD) designated in the California Public Utilities Commission's (CPUC) Fire-Threat Map.

FISCAL IMPACT

There is no cost associated with the acceptance of the plan and independent evaluator's report.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and§15378. Acceptance of the Electric Utility Wildfire Mitigation Plan meets the above criteria and is not subject to CEQA. No additional environmental review is required.



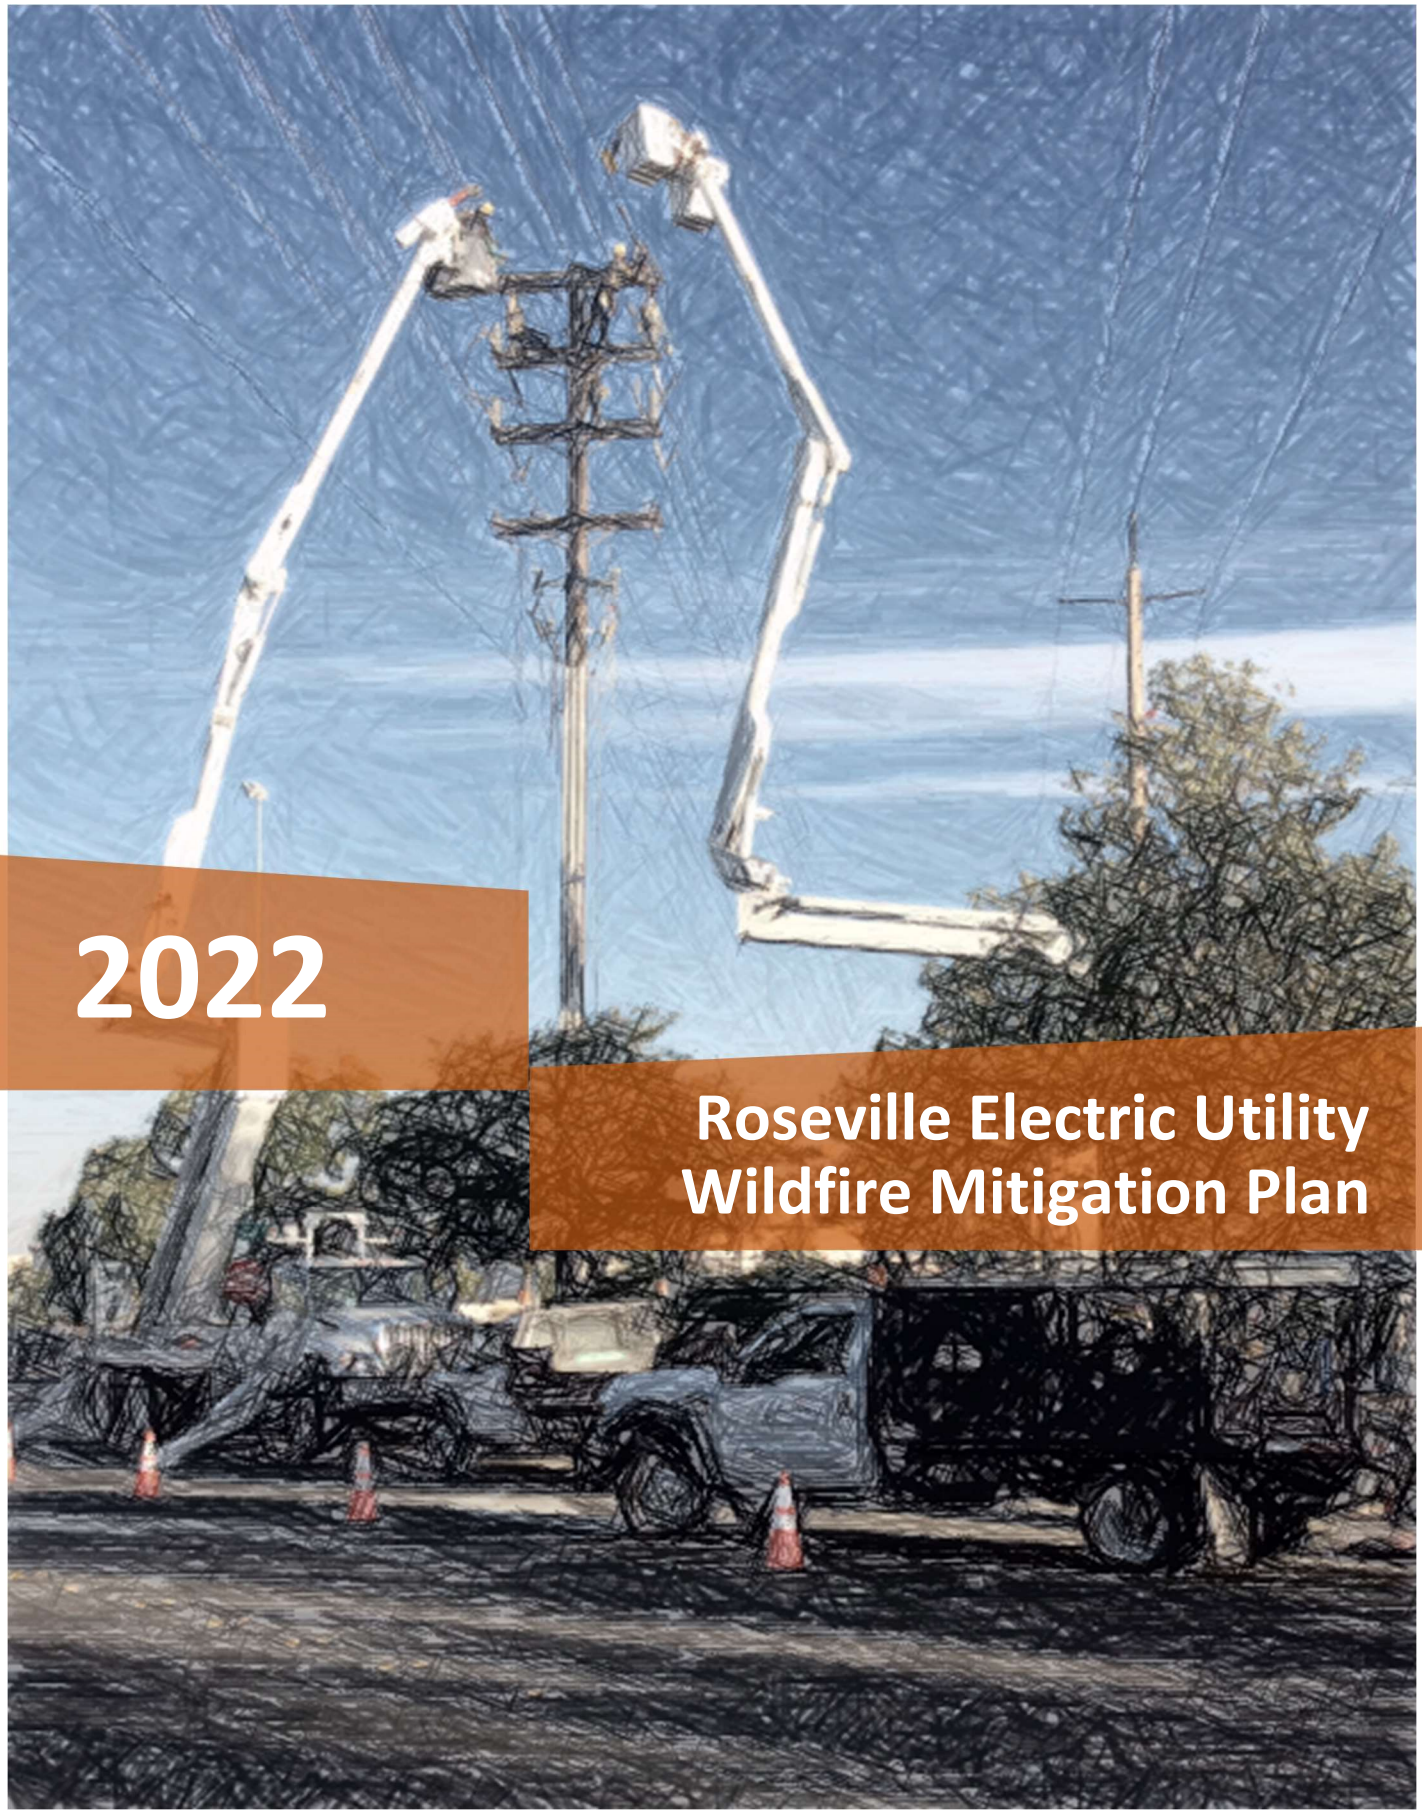
CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community
Goal E - Deliver exceptional city services

Respectfully Submitted,

Jason Grace, Electric Operations Manager

Michelle Bertolino, Electric Utility Director



_____
Dominick Casey, City Manager

2. PUC 8387 REQUIREMENT TABLE

PUC 8387	Requirement	Location in WMP
(A)	An accounting of the responsibilities of persons responsible for executing the plan.	Section 4 Governance Structure (Pg. 8)
(B)	The objectives of the wildfire mitigation plan.	Section 3 Plan Objectives (Pg. 7)
(C)	A description of the preventive strategies and programs to be adopted by the local publicly owned electric utility or electrical cooperative to minimize the risk of its electrical lines and equipment causing catastrophic wildfires, including consideration of dynamic climate change risks.	Section 6 Wildfire Preventative Strategies (Pg. 21)
(D)	A description of the metrics the local publicly owned electric utility or electrical cooperative plans to use to evaluate the wildfire mitigation plan's performance and the assumptions that underlie the use of those metrics.	Section 8 Metrics for Measuring Performance (Pg. 35)
(E)	A discussion of how the application of previously identified metrics to previous wildfire mitigation plan performances has informed the wildfire mitigation plan.	Section 8 Impact of Metrics on the Plan (Pg. 35)
(F)	Protocols for disabling reclosers and deenergizing portions of the electrical distribution system that consider the associated impacts on public safety, as well as protocols related to mitigating the public safety impacts of those protocols, including impacts on critical first responders and on health and communication infrastructure.	Section 6 Reclosing Policy (Pg. 32)
(G)	Appropriate and feasible procedures for notifying a customer who may be impacted by the deenergizing of electrical lines. The procedures shall direct notification to all public safety offices, critical first responders, health care facilities, and operators of telecommunications infrastructure with premises within the footprint of potential de-energization for a given event.	Section 6 De-energization (Pg. 33)
(H)	Plans for vegetation management.	Section 6 Vegetation Management (Pg. 28)
(I)	Plans for inspections of the local publicly owned electric utility's or electrical cooperative's electrical infrastructure.	Section 6 Inspections (PG. 32)

(J)(i, ii)	A list that identifies, describes, and prioritizes all wildfire risks, and drivers for those risks, throughout the local publicly owned electric utility's or electrical cooperative's service territory. The list shall include, but not be limited to, both of the following: (i) Risks and risk drivers associated with design, construction, operation, and maintenance of the local publicly owned electric utility's or electrical cooperative's equipment and facilities. (ii) Particular risks and risk drivers associated with topographic and climatological risk factors throughout the different parts of the local publicly owned electric utility's or electrical cooperative's service territory.	Section 5 Wildfire Risks and Drivers (Pg. 17)
(K)	Identification of any geographic area in the local publicly owned electric utility's or electrical cooperative's service territory that is a higher wildfire threat than is identified in a commission fire threat map, and identification of where the commission should expand a high fire-threat district based on new information or changes to the environment.	Section 6 High Fire Threat District (Pg. 21)
(L)	A methodology for identifying and presenting enterprise wide safety risk and wildfire-related risk.	Section 5 Enterprise-Wide Safety Risks (Pg. 16)
(M)	A statement of how the local publicly owned electric utility or electrical cooperative will restore service after a wildfire.	Section 7 Restoration of Service (Pg. 34)
(N)(i, ii, iii)	A description of the processes and procedures the local publicly owned electric utility or electrical cooperative shall use to do all of the following: (i) Monitor and audit the implementation of the wildfire mitigation plan. (ii) Identify any deficiencies in the wildfire mitigation plan or its implementation and correct those deficiencies. (iii) Monitor and audit the effectiveness of electrical line and equipment inspections, including inspections performed by contractors, that are carried out under the plan, other applicable statues, or commission rules.	Section 8 Plan Evaluation (Pg. 35)

3. PLAN OVERVIEW

Plan Statement

The City of Roseville's overarching goal is to provide safe, reliable and economic electric service to its local community. In order to help meet this goal, Roseville Electric Utility (REU) constructs, maintains, and operates its electrical lines and equipment in a manner that minimizes the risk of catastrophic wildfire posed by its electrical lines and equipment. This Wildfire Mitigation Plan, or "Plan", is enacted in order to ensure the safety of the public and City employees, and maintain the reliability of the electric sub-transmission and distribution system.

The City has applied careful consideration in the development of broad strategies to mitigate utility-posed wildfire risks while remaining consistent with the intention of Senate Bill 901 (SB 901) and other regulatory requirements.

Purpose of the Wildfire Mitigation Plan

This document describes the range of activities that Roseville Electric Utility is taking to mitigate the threat of wildfires ignited by power lines, including its various plans, policies and procedures. This Plan is subject to direct supervision by the City Council and is implemented by the Electric Department Director and his/her designees. This Plan complies with the requirements of the Public Utilities Code section 8387 for publicly-owned electric utilities to prepare a wildfire mitigation plan by January 1, 2020, and annually thereafter.

The City of Roseville is located in a region of the state with a very low wildfire risk. No part of the City's electric service territory is located in or near the High Fire Threat District (HFTD) designed in the California Public Utilities Commission's (CPUC) Fire-Threat Map. All of the City's electric service territory is designated as "non-fuel" or "moderate" in the California Department of Forestry and Fire Protection's (CAL FIRE) Fire and Resource Assessment Plan (FRAP) Fire Threat Map.

More than 85% of Roseville Electric Utility's electric supply system is located underground. Historically, undergrounded electric lines have not been associated with catastrophic wildfires. The undergrounding of electric lines serves as an effective mitigation measure to reduce the potential of wildfires ignited by power lines. Based on a review of local conditions and historical fires, Roseville Electric Utility has determined that its electrical lines and equipment do not pose a significant risk of catastrophic wildfire.

Despite this low risk, Roseville Electric Utility takes appropriate actions to help its region prevent and respond to the increasing risk of wildfires. In its role as a public agency, REU closely coordinates with other local safety and emergency officials to help protect against fires and respond to emergencies. In its role as a utility, REU follows all applicable design, construction, operation, and maintenance requirements that reduce safety risks associated with its system. This Wildfire Mitigation Plan describes the safety-related measures that REU follows to reduce its risk of causing wildfires.

Plan Objectives

Minimizing Sources of Ignition

The primary goal of this Wildfire Mitigation Plan is to describe Roseville Electric Utility's existing programs, practices, and measures that effectively reduce the probability that REU's electric supply system could be the origin or contributing source for the ignition of a wildfire.

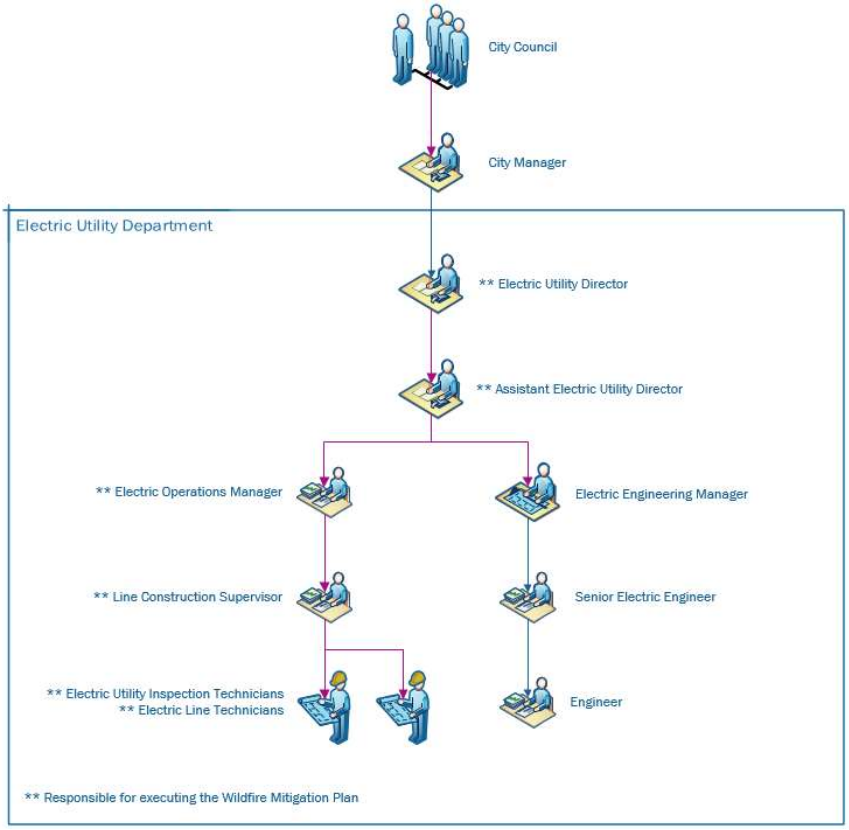
This goal is primarily achieved through providing minimum separation between wires and vegetation to eliminate potential electrical shock and reducing potential wildfire hazards from tree/wire conflicts and downed power lines caused by trees.

Roseville Electric Utility utilizes the CPUC statewide Fire-Threat Map adopted January 19, 2019, in addition to informational fire threat maps from other State of California government agencies to inform and aid in the development of this plan and its subsequent updating. All portions of REU's electric service territory are currently exempt from the HFTD; the CPUC Map does not designate any portion of the Roseville Electric Utility service territory in "Tier 2 – Elevated Risk" or "Tier 3- Extreme Risk".

Resiliency of the Electric Grid

The secondary goal of this Plan is to improve the resiliency of the electric grid. As part of the development of this Plan, Roseville Electric Utility assesses new industry practices and technologies that will reduce the likelihood of an interruption (frequency) in service and improve the restoration (duration) of service.

Distinctive inspections of the electric sub-transmission and distribution power lines/equipment located within designated City Wildfire Reduction Zones shall occur routinely in order to ensure that the probability is as low as practically possible that the Roseville Electric Utility electric supply system could be the origin, or contributing source for, the ignition of a wildfire. To support this goal, REU regularly evaluates prudent and cost-effective improvements to its physical assets, operations, and training that can help reduce the risk of equipment-related fires.



In early 2018, REU met with the Roseville Fire Department (RFD) to determine what areas exist within REU's electric service territory that could be augmented by additional measures to help mitigate potential wildfire risk. A designated "open space" area was identified as one that could benefit from additional fire counter-measures due to live and dead vegetation that can accumulate and increase the likelihood of a vegetation fire. Additionally, it is more difficult to get certain fire apparatus in portions of this area, subsequently labeled the "City Wildfire Reduction Zone."

Minimizing Unnecessary or Ineffective Actions

The final goal of the Plan is to evaluate the effectiveness of specific mitigation strategies as they apply to Roseville Electric Utility. Where a particular action, program or protocol is determined to be unnecessary or ineffective, REU will evaluate whether modification or replacement is suitable. This approach will also help determine if more cost-effective measures would produce the same or better results.

4. ROLES AND RESPONSIBILITIES

Governance Structure

The City of Roseville is a Council-Manager form of government in which responsibilities are vested in the City Council and the City Manager. In this form of government, the City Council's role is that of a legislative policy-making body which determines not only the local laws that regulate community life, but also determines public policy and gives direction to the City Manager.

The *City Manager* administers the affairs of the city government in a businesslike and prudent manner. The public is invited to attend City Council meetings, which are typically held on the first and third Wednesday of the month in the City Council Chambers, 311 Vernon Street. Special meetings and workshops are scheduled as needed.

The *Electric Utility Director* has overall functional management of the Electric Utility and provides oversight of the Electric Utility. The Director utilizes *Assistant Electric Utility Directors* for division oversight. *The Electric Utility Director is responsible for executing the Plan.*

The *Electric Operations Manager* oversees the daily electric utility operations, including; construction; maintenance; energy control; vegetation management; and other ancillary duties. The Electric Operations Manager maintains functional management of assigned sections within the Electric Utility and reports to an Assistant Electric Utility Director. *The Electric Utility Director has designated the Electric Operations Manager with the authority to implement, execute and modify the Plan as necessary*.

The *Electric Engineering Manager* oversees the design/engineering tasks associated with distribution system modification and development/maintenance of material specifications. The Electric Engineering Manager maintains functional management over the electric engineering related tasks within the Electric Utility and reports directly to an Assistant Electric Utility Director.

The *Electric Line Construction Supervisor/Operations Supervisor* oversees the daily staff/crew work including establishing schedules and methods for assigned staff, implementing policies and procedures, and acting as a technical lead in support of the department's computer maintenance management system.

Wildfire Prevention

Roseville Electric Utility facility design is performed by the engineering division using criteria that typically meets or exceeds relevant industry standards. Maintenance activities, inspections and vegetation management are performed by the operations division.

REU staff have the following responsibilities regarding fire prevention, response and investigation:

- Conduct work and operate the electric supply system in a manner that will minimize potential fire risks
- Take all reasonable and practicable actions to prevent and suppress fires resulting from REU electric facilities
- Coordinate as needed with Federal, State, and local fire management personnel to ensure that appropriate preventative fire measures are in place
- Take corrective action when observing or having been notified that fire protection measures have not been properly installed or maintained
- Ensure compliance with relevant Federal, State, and industry standard requirements
- Maintain adequate fire prevention training programs for all relevant employees
- Immediately report fires, pursuant to existing POU practices and the requirements of this Wildfire Mitigation Plan
- Take corrective action when the staff witnesses or is notified that fire protection measures have not been properly installed or maintained
- Comply with relevant Federal, State, and industry wildfire standard requirements, including the industry standards established by the CPUC

Wildfire Response and Recovery

Field Staffing Coverage during Business-Hours

Roseville Electric Utility typically operates an electric dispatch center from 0600 to 1900, Monday through Friday and the following operational personnel from 0600 to 1530, Monday through Friday:

- Line Construction Crews
- Warehousing
- Inspections/USA Locates
- Troubleshooting
- Metering
- Substations

Daily hours are subject to change based on various conditions such as weather, air quality and business needs.

Field Staffing Coverage After-Hours

A structured standby and call out procedure has been established in order to respond as part of the City's statutory duties, and for Roseville Electric Utility distribution operations personnel to respond effectively in handling the emergencies that arise within the City.

Roseville Electric Utility maintains coverage for after-hour emergencies, per the Operations Standby Policy [1]:

- For conditions which must be responded to on short notice due to significant and immediate health and safety considerations, including, but not limited to, power outages, damage to electrical equipment or assets and Police/Fire emergency requests, or
- In order to respond to a civil emergency when a City Emergency Plan is implemented which results in the activation of the Emergency Operation Center (EOC) or the Department Operation Center (DOC).

Standardized Emergency Management System

The City of Roseville has an Emergency Management Team (EMT) that meets regularly and has representatives from each City department as part of the team. The EMT works to ensure that the City is prepared to respond to disasters that may occur within the City. The City Manager acts as the Emergency Services Director. The Director works closely with city staff during a disaster; while the day-to-day operation of disaster preparedness and readiness lies with the Emergency Preparedness Manager, a Roseville Fire Department Battalion Chief.

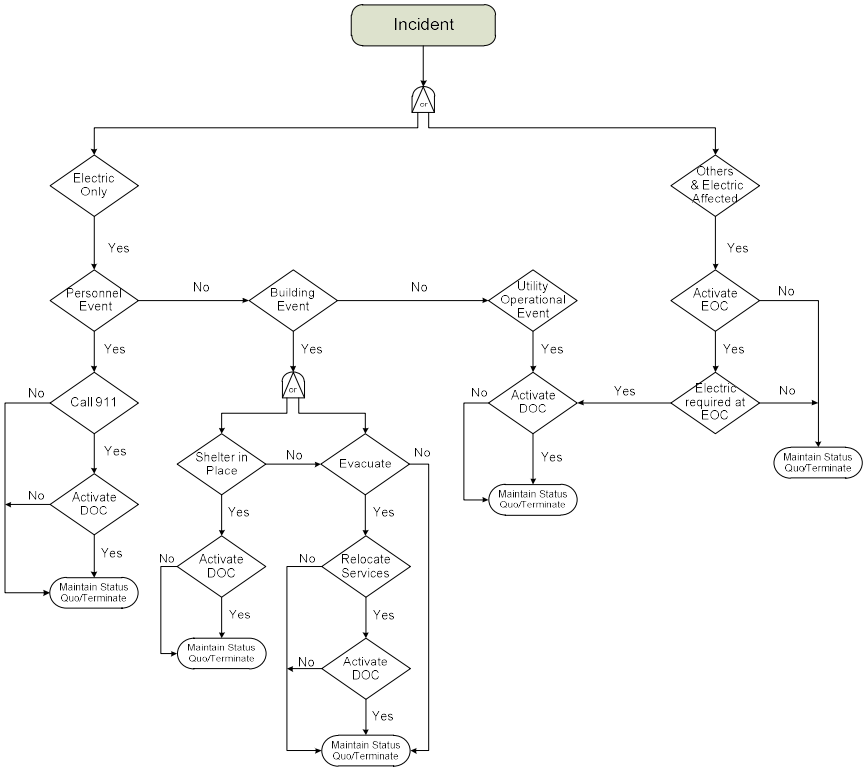
As a local governmental agency, the City Office of Emergency Services has planning, communication, and coordination obligations pursuant to the California Office of Emergency Services' (Cal OES) Standardized Emergency Management System (SEMS) Regulations, adopted in accordance with Government Code section 8607. The SEMS Regulations specify roles, responsibilities, and structures of communications at five different levels: field response, local government, operational area, regional, and state. Pursuant to this structure, the City annually coordinates and communicates with the relevant safety agencies as well as other relevant local and state agencies and may activate its' EOC if necessary.

An EOC is the central command and control facility responsible for carrying out the principles of emergency preparedness and emergency management, or disaster management functions at a strategic level during an emergency, and ensuring the continuity of operation of the City. It is a 24-hour operation. When a disaster occurs, the Emergency Services Director meets with city staff to prioritize and develop strategies to handle the disaster incident. The EOC becomes the center of communication and coordination of resources. The Emergency Preparedness Manager coordinates all of the functions within the EOC.

An EOC is responsible for strategic direction and operational decisions and does not normally directly control field assets, instead leaving tactical decisions to lower commands. The common functions of EOC's are to collect, gather and analyze data; make decisions that protect life and property, maintain continuity of the organization, and disseminate those decisions to all concerned agencies and individuals. When activated, the EOC can be comprised of representatives from every department within the City, including Law Enforcement, Fire and Rescue, Public Works, Parks and Recreation (Care & Shelter), Electric Utility and Environmental Utilities. These operations can also include representatives from outside agencies such as Placer County or Cal OES.

Public external communications is handled by Public Information Officers that report to the EOC structure and include the use of electronic billboards, radio and social media (see "Emergency Communications" Section).

City of Roseville EOC Positions



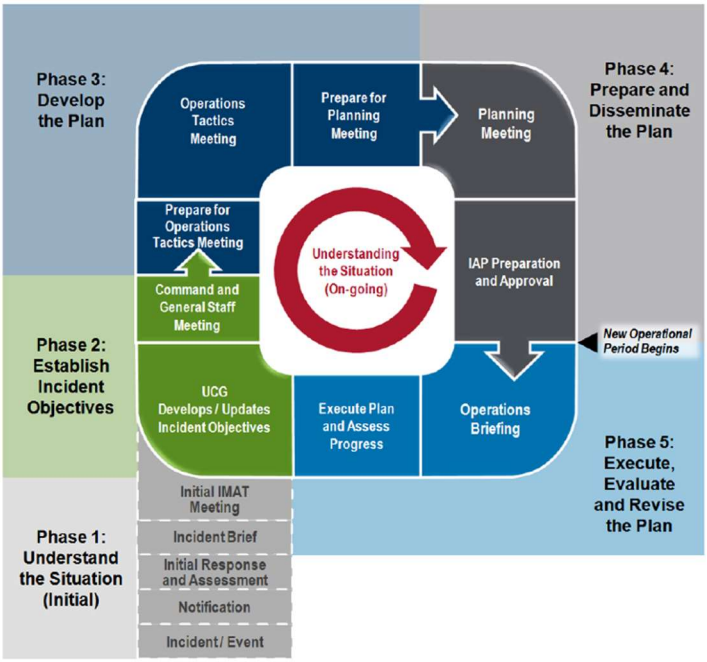
Function *	Primary Department Responsible
Operations Section Chief	Determined at the time of the emergency
Law Enforcement	Police Department
Fire and Rescue	Fire Department
Public Works	Public Works Department
Care & Shelter	Parks and Recreation
Electric	Electric Department
Environmental Utilities	Environmental Utilities Department
Planning Section Chief	Planning Department
Situation Status	Planning Department
Resources Status	Planning Department
Damage Assessment	Planning Department
Documentation	Planning Department
GIS	Fire Department
Logistics Section Chief	Central Services
Supply /Ordering	Central Services
Human Resources	Human Resources
Fleet	Central Services
Facilities	Central Services
Communications	Information Technology
Finance Section Chief	Finance Department
Cost	Finance Department
Procurement	Finance Department

The DOC is the Roseville Electric Utility Department Command Post during times of emergencies. The DOC functions similarly to the EOC, but at a department level. The DOC coordinates strategic, operational and tactical decisions for field operations. If an emergency, such as a widespread fire, necessitates the citywide activation of the EOC, the DOC will likely report directly to the EOC command structure. An independent DOC activation may be authorized by specific electric management staff.

Pursuant to the SEMS structure, the City of Roseville participates in annual training exercises. The subject matter of the exercise is chosen by the City of Roseville EMT. The subject could be fire related in nature but is variable and could be changed from exercise to exercise.

The City of Roseville is a member of the California Utility Emergency Association (CUEA), which plays a key role in ensuring communications between utilities during emergencies. CUEA serves as a point-of-contact for critical infrastructure utilities, Cal OES and other governmental agencies before, during and after an event to:

- Facilitate communications and cooperation between member utilities and public agencies; and with non-member utilities (where resources and priorities allow).
- Provide emergency response support wherever practical for electric, petroleum pipeline, telecommunications, gas, water and wastewater utilities.
- Support utility emergency planning, mitigation, training, exercises and education.



Once activated, the EOC/DOC utilizes the Planning Cycle to establish a continuum for Incident Action Planning (IAP) during both emergency and non-emergency operations and is an integral tool for managing an emergency incident.

Sound, timely planning provides the foundation for effective incident management. The planning process represents a template for strategic, operational, and tactical planning that includes all steps that an Incident Command/Unified Command (IC/UC) and other members of the Command and General Staff should take to develop and disseminate an IAP.

The planning process may begin with the:

1. Scheduling of a planned event
2. Identification of a credible threat
3. Initial response to an actual or impending incident

The process continues with the implementation of the formalized steps and the staffing required for the development of an IAP. Decisions on preemptive power shutoff will be evaluated based on the current (or pending) situation by either EOC/DOC or the Electric Dispatch Center.

Emergency Communications – Public Awareness During and Post Incident

Emergency Communication Priority

The public's response to any emergency is based on an understanding of the nature of the emergency, the potential hazards, the response of emergency services, and knowledge of what individuals and groups should do to increase their chances of survival and recovery.

The magnitude of an emergency or disaster will directly affect the City of Roseville's emergency operations communication and recovery efforts and what resources we use to disseminate that to the public.

Emergency Public Information EOC Procedure

Emergency Public Information (EPI) is a priority of utmost importance during emergencies and disasters. The City of Roseville EPI organization and procedures for the dissemination of accurate and timely instructions and information to the public during periods of emergency are as follows: response to media inquiries and calls from the public; establishment of a 24 hour EPI contact point; and, establishment of a Public Information Officer function of the EOC.

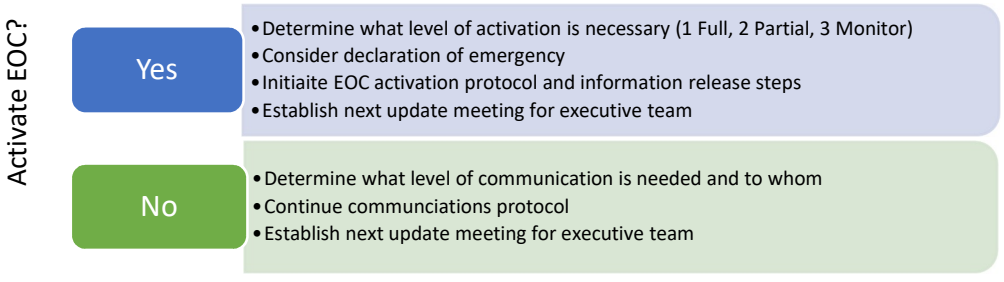
Emergency Public Information Resources

The following are resources we have at our discretion to use during an emergency:

- City telephone system (Consolidated Communications land-lines). Designated emergency phone lines for information hotline and public information can be established. Emergency messages can be established on different main city voicemails to give out pertinent information.
- A Google number can be established for public information hotline if the need arises.
- Everbridge can used to send alerts out residents. Neighboring counties have access to this system and assist us in the use of this if needed. Everbridge includes the ability to call out to landlines as well as send messages to cell phones that have registered through Alert Placer. The company was initially focused on providing a way of sending 'Mass Notification' messages via SMS or email with very fast execution to ensure messages were received when there was a threat to life. Through acquisition of industry technologies and ongoing research & development, Everbridge has broadened its capabilities and now provides a Critical Event Management platform.
- Cellular phone network (Verizon), each PIO and City communicator has a City-issued cell phone.
- City website has an emergency page and banner that can be activated. This can be edited and updated throughout the duration of the event.
- Social Media. The City has several online social media accounts through several different platforms. Facebook, Twitter, Nextdoor and Instagram can be used to push information out.
- Gov delivery email system (if practical and if working) can be used to send notifications to all utility billing customers. This also has a text function that can be used.
- Electronic Billboards.
- Local and regional television media.
- AM/FM Radio.
- City Private Radio System.
- EOC SharePoint Site (requires internet connection and VPN access to City IT Servers) will be used for internal communication.

External Communication Resources

The City of Roseville has the ability to work with local and state resources to ensure information is provided in a timely and efficient manner. The following are examples for the resources available:



- Placer Operational Area Office of Emergency Services
- The State of California, Office of Emergency Services (OES)
- CAL FIRE
- Sacramento County
- Yolo County

Emergency Public Information Assumptions

The City of Roseville trains and is prepared to handle the follow EPI assumptions of communication issues that will arise during an emergency:

- The general public will demand information about the emergency situation and instructions on proper survival/response actions;
- The media will demand information about the emergency:
- The local media will perform an essential role in providing emergency instructions and periodic updates to the public;
- Depending on the severity of the emergency, or the media's perception of the severity of the emergency, regional and national media may also demand information and may play a role in reassuring (or alarming) distant relatives of disaster victims;
- Depending on the severity of the emergency, telephone communications may be sporadic or impossible;
- Local and regional radio/television stations without emergency power may also be off the air; telephones may be inoperative; and/or,
- The emergency organization will become overwhelmed by the demand for information if sufficiently trained staff is not available.

Steps for Information Releases

Key Audiences and Stakeholders

We will consider the most effective method of communicating with each stakeholder group, as it may be different based on the group.

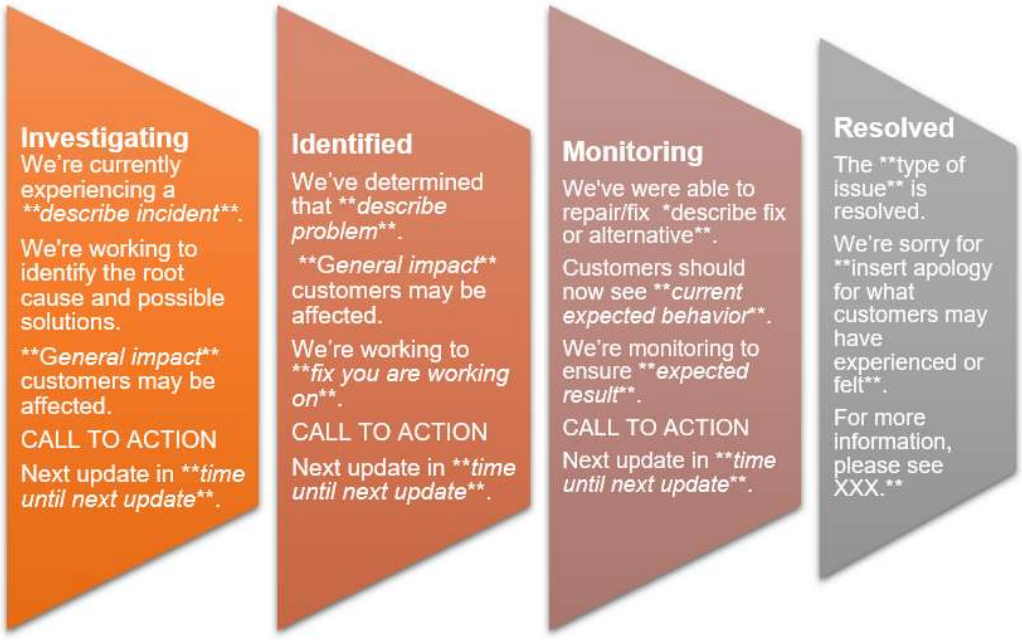
Important questions we will consider include:

- Who will be most impacted and how?

- Are there stakeholders who need to keep in the loop? How will we prioritize them?
- How will we effectively reach each stakeholder group if they are busy dealing with the emergency at hand?

By categorizing the different interested parties, a strategy can be drafted for how to engage with each of them, in what order and to what extent. Stakeholders who have both influence and are impacted by the event will be the most critical to engage with first.

Those stakeholders include, but are not limited to: Employees, Residents, City Council, Partner agencies/Cities/Placer County, Businesses, Community Organizations.



General Template Response

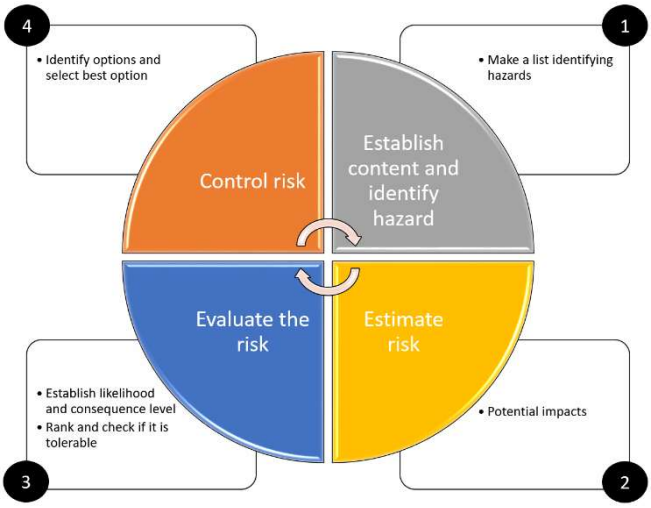
Each incident/crisis will require specific and more directly relevant responses given the scale, scope, and the type of scenario.

We will incorporate more details as they become available during each incident/crisis but will include a status update, what we are doing to rectify the issue, general impact to customers, what customers should do (in the event a call to action is necessary) and when we will provide updates.

The information will be tailored for each communication channel and could be included as part of:

- The initial statement
- Key message development for customer service
- Common questions development for customer service, website copy, and social media posting
- Used for media relations
- Serve as content for social media posting

5. WILDFIRE RISKS AND DRIVERS



Enterprise-Wide Safety Risks

Roseville Electric Utility's approach to risk management includes an Enterprise Risk Profile (ERP) analysis with the goal of providing a unified picture of risks to the Utility, thereby improving the ability to manage the risks effectively.

Each risk analysis includes the following factors:

Likelihood

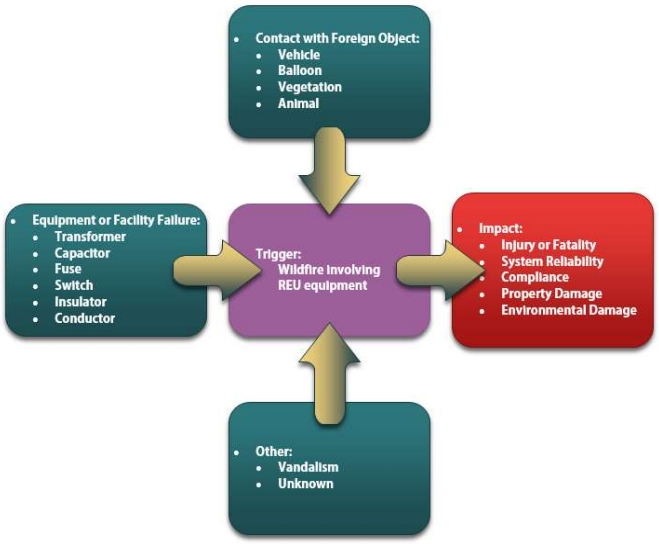
1. Effectiveness of controls and mitigations in place
2. Number of processes and systems involved
3. Skills and competencies managing the risk
4. Political/regulatory environment
5. Time horizon

Velocity

1. Early detection opportunities
2. Reaction time available
3. Current mitigation strategies
4. Sudden or gradual impact

Trend – the likelihood or velocity of the risk is predicted to increase, remain constant or decrease over the next reporting period.

Ranking



1. **Extremely high** – very low level of comfort that mitigations will reduce level of risk to an acceptable level within the target timeframe. Immediate corrective action is necessary.
2. **High** - relatively low level of comfort that mitigations will reduce level of risk to an acceptable level within the target timeframe. Corrective action within specific period of time is necessary.
3. **Medium** - medium level of comfort that mitigations will reduce level of risk to an acceptable level within the target timeframe. Corrective action is necessary.
4. **Low** - high level of comfort that mitigations will reduce level of risk to an acceptable level within the target timeframe. No corrective but monitoring action is necessary.

REU Electric System Risks

Fire Risks and Possible Sources of Ignition

- Contact with foreign objects (objects in aerial lines)
  - Vehicle vs pole
  - Mylar balloons
  - Vegetation
  - Animals
- Equipment failure
  - Transformer
  - Capacitor
  - Fuse
  - Switch
  - Insulator
  - Conductor
- Vandalism
  - Object thrown onto lines
- Other
  - Workforce

Overhead power lines in Roseville are non-insulated bare wire that rests on top of insulated structures. Keeping the line insulated from any adjacent lines and any object touching the ground is paramount. In spite of this fact, line contact can occur. Animals, such as squirrels, and balloons made of mylar are highly conductive and when a conductive object comes into contact with bare (exposed) electrical wires, sparks can occur. Tree branches can fall during storms and catch in power lines or out-of-control vehicles may strike poles causing wires to break and fall to the ground. Special equipment (such as fuses or breakers) installed on the Roseville electric system are intended to minimize the impact of these types of incidents by de-energizing the circuit they protect but do not operate quickly enough to prevent a spark from occurring.

Equipment installed on the electric system can fail due to a variety of issues. Components of the equipment can emit sparks as the equipment is breaking down, leading to a fire. Energized portions of the equipment can emit sparks prior to a fuse or breaker operating to protect the circuit. This same equipment is installed in many public areas, which leaves the system susceptible to vandalism. Depending on severity, equipment may be vandalized and damaged to a level which may cause sparks and trigger fires in the vicinity.

California currently has a strong need for Qualified Electrical Workers (QEW's). While Roseville has been fortunate to retain highly-trained QEW's, staff shortages could occur which could lead to delayed maintenance cycles and inspections, resulting in increased equipment failure on the Roseville system over time.

Topographic and Climatological Risk Factors

Impacts from climate change are happening now. These impacts extend well beyond an increase in temperature, affecting ecosystems and communities in the United States and around the world. Things that we depend upon and value — water, energy, transportation, wildlife, agriculture, ecosystems, and human health — are experiencing the effects of a changing climate. [2]

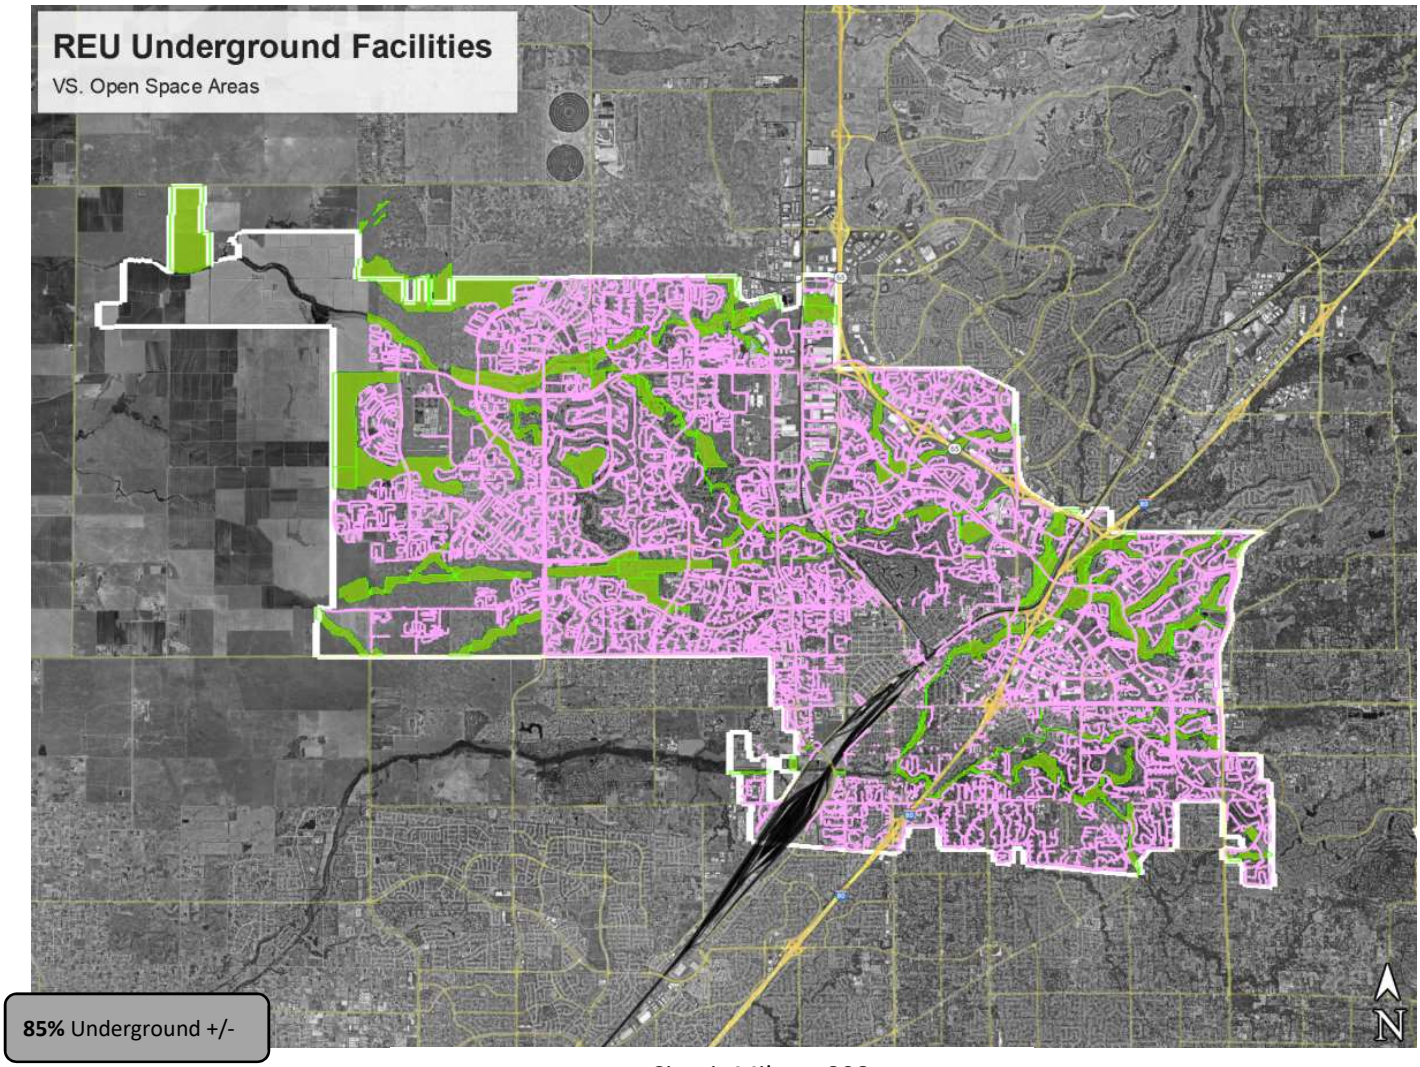
Climate change will make forests more susceptible to extreme wildfires. By 2100, if greenhouse gas emissions continue to rise, one study found that the frequency of extreme wildfires burning over approximately 25,000 acres would increase by nearly 50 percent, and that average area burned statewide would increase by 77 percent by the end of the century. [3]

An extensive scientific review supported by the Fourth Assessment found that reducing tree density and restoring beneficial fire can improve long-term resilience to California's forests. Simulations of large-scale fuels treatments in Sierra Nevada forests substantially reduce increases in burned area. Improving forest health by removing fuels can have important impacts to reduce rising wildfire insurance costs. Increasing understanding of megafires remains a critical research need for California. [3]

Roseville Electric Utility does not contain, within its service area, a high hazard for wildfires. The flatness of Roseville (as a whole) is a benefit, since steep canyons can make a heavier fuel load. Within Roseville Electric Utility's service territory and the surrounding areas, the primary risk drivers for wildfires are the following:

- Extended drought
- Vegetation type
- Vegetation Density
- Weather
- High winds
- Terrain
- Changing Weather Patterns (Climate Change)

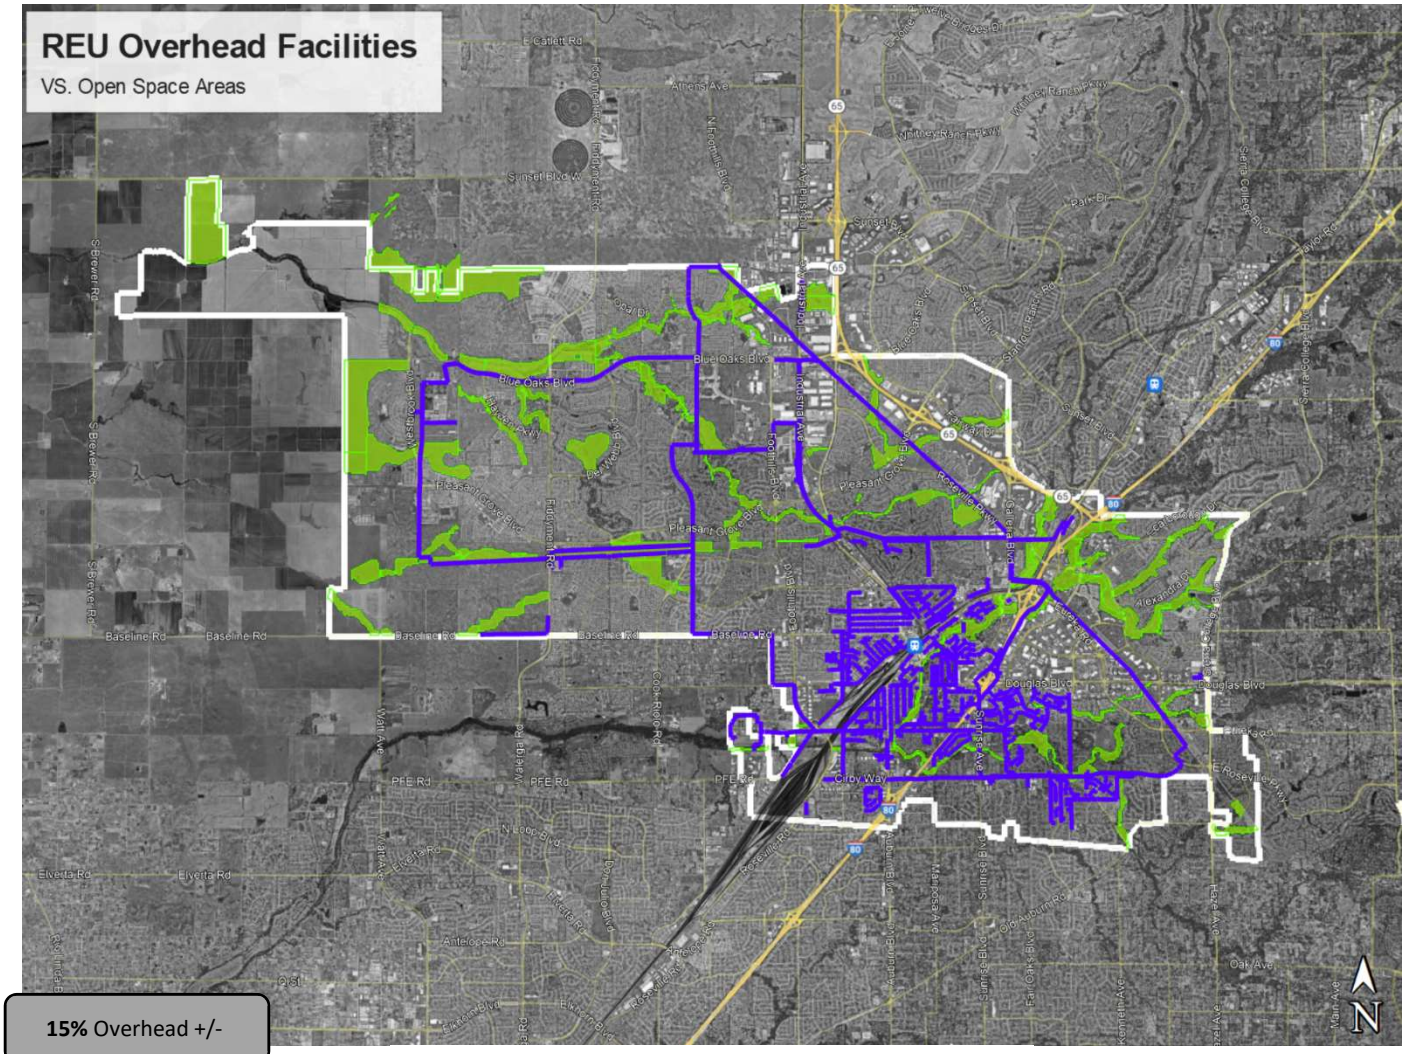
Should climate change result in sustained higher temperatures, risk factors will include added stress on the electrical equipment, leading to an increase equipment failures and reduced reliability.



In an emergency situation, de-energization of circuits due to (or in preparation of) a major weather-related event would typically be directed from the Emergency Operation Center or Department Operation Center (see "Standardized Emergency Management System" Section 4).

Open space areas are any open piece of land that is undeveloped (has no buildings or other built structures) and is accessible to the public. Open space can include:

- Green space (land that is partly or completely covered with grass, trees, shrubs, or other vegetation). Green space includes parks, community gardens, and cemeteries.
- Schoolyards
- Playgrounds
- Public seating areas
- Public plazas
- Vacant lots



Open space provides recreational areas for residents and helps to enhance the beauty and environmental quality of neighborhoods.

Circuit Miles = 808

Circuit Miles = 144

6. WILDFIRE PREVENTATIVE STRATEGIES

High Fire Threat District

BACKGROUND - In October 2007, devastating wildfires driven by strong Santa Ana winds burned hundreds of square miles in Southern California. Several of the worst wildfires were reportedly ignited by overhead utility power lines and aerial communication facilities in close proximity to power lines. In response to these wildfires, the CPUC initiated Rulemaking (R.) 08-11-005 to consider and adopt regulations to protect the public from potential fire hazards associated with overhead power line facilities and nearby aerial communication facilities.

Beginning in 2009, the CPUC issued several decisions in R.08-11-005 that together adopted dozens of new fire-safety regulations. Most of the adopted fire-safety regulations consisted of new or revised rules in General Order (GO) 95. Several of the adopted fire-safety regulations apply only to areas referred to as "high fire-threat areas," where there is an elevated risk for power line fires igniting and spreading rapidly. These high fire-threat areas are designated by several maps that were adopted on an interim basis. Each of the interim maps covers a different part of the state and uses its own methodology for identifying high fire-threat areas, presenting consistency and potential enforcement issues. To address these issues, the CPUC also commenced the development of a single statewide fire-threat map to designate areas where (1) there is an elevated risk for destructive power line fires, and (2) where stricter fire-safety regulations should apply.

In May 2015, the CPUC closed R.08-11-005 and initiated successor rulemaking R.15-05-006 to complete the outstanding tasks in R.08-11-005. The general scope of R.15-05-006 was to address the following matters carried over from the scope of R.08-11-005: (1) develop and adopt a statewide fire-threat map that delineates the boundaries of a new HFTD where the previously adopted regulations will apply, (2) determine the need for additional fire-safety regulations in the HFTD, and (3) revise GO 95 to include a definition and maps of the HFTD, as well as any new fire-safety regulations. The scope and schedule for R.15-05-006 was divided into two parallel tracks. One track focused on the development and adoption of a statewide fire-threat map. The second track focused on the identification, evaluation, and adoption of fire-safety regulations in the HFTD.

In 2012, the CPUC ordered the development of a statewide map that is designed specifically for the purpose of identifying areas where there is an increased risk for utility-associated wildfires. The development of the CPUC -sponsored fire-threat map, herein "CPUC Fire-Threat Map," started in R.08-11-005 and continued in R.15-05-006.

A multistep process was used to develop the statewide CPUC Fire-Threat Map. The first step was to develop Fire Map 1 (FM 1), an agnostic map which depicts areas of California where there is an elevated hazard for the ignition and rapid spread of power line fires due to strong winds, abundant dry vegetation, and other environmental conditions. These are the environmental conditions associated with the catastrophic power line fires that burned 334 square miles of Southern California in October 2007. FM 1 was developed by CAL FIRE and adopted by the CPUC in Decision 16-05-036.

FM 1 served as the foundation for the development of the final CPUC Fire-Threat Map. The CPUC Fire-Threat Map delineates, in part, the boundaries of a new HFTD where utility infrastructure and operations will be subject to stricter fire-safety regulations. Importantly, the CPUC Fire-Threat Map (1) incorporates the fire hazards associated with historical power line wildfires besides the October 2007 fires in Southern California (e.g., the Butte Fire that burned 71,000 acres in Amador and Calaveras Counties in September 2015), and (2) ranks fire-threat areas based on the risks that utility-associated wildfires pose to people and property.

Primary responsibility for the development of the CPUC Fire-Threat Map was delegated to a group of utility mapping experts known as the Peer Development Panel (PDP), with oversight from a team of independent experts known as the Independent Review Team (IRT). The members of the IRT were selected by CAL FIRE and CAL FIRE served as the Chair of the IRT. The development of CPUC Fire-Threat Map includes input from many stakeholders, including investor-owned and publicly-owned electric utilities, communications infrastructure providers, public interest groups, and local public safety agencies.

The PDP served a draft statewide CPUC Fire-Threat Map on July 31, 2017, which was subsequently reviewed by the IRT. On October 2 and October 5, 2017, the PDP filed an Initial CPUC Fire-Threat Map that reflected the results of the IRT's review through September 25, 2017. The final IRT-approved CPUC Fire-Threat Map was filed on November 17, 2017. On November 21, 2017, Safety and Enforcement Division (SED) filed on behalf of the IRT a summary report detailing the production of the CPUC Fire-Threat Map (referenced at the time as Fire Map 2). Interested parties were provided opportunity to submit alternate maps, written comments on the IRT-approved map and alternate maps (if any), and motions for Evidentiary Hearings. No motions for Evidentiary Hearings or alternate map proposals were received. As such, on January 19, 2018, the CPUC adopted, via SED's disposition of a Tier 1 Advice Letter, the final CPUC Fire-Threat Map.

In D.17-01-009, as modified by D.17-06-024, the CPUC adopted a work plan for the development and adoption of the CPUC Fire-Threat Map, which constitutes one part of the HFTD. Pursuant to these decisions, the HFTD is a composite of two maps:

- Tier 1 High Hazard Zones (HHZs) on the U.S. Forest Service-CAL FIRE joint map of Tree Mortality HHZs ("Tree Mortality HHZ Map").
- Tier 2 and Tier 3 fire-threat areas on the CPUC Fire-Threat Map

The Tree Mortality HHZ Map is an off-the-shelf map. Tier 1 HHZs are zones in direct proximity to communities, roads, and utility lines, and are a direct threat to public safety. Tier 2 fire-threat areas depict areas where there is an elevated risk (including likelihood and potential impacts on people and property) from utility-associated wildfires. Tier 3 fire-threat areas depict areas where there is an extreme risk (including likelihood and potential impacts on people and property) from utility-associated wildfires.

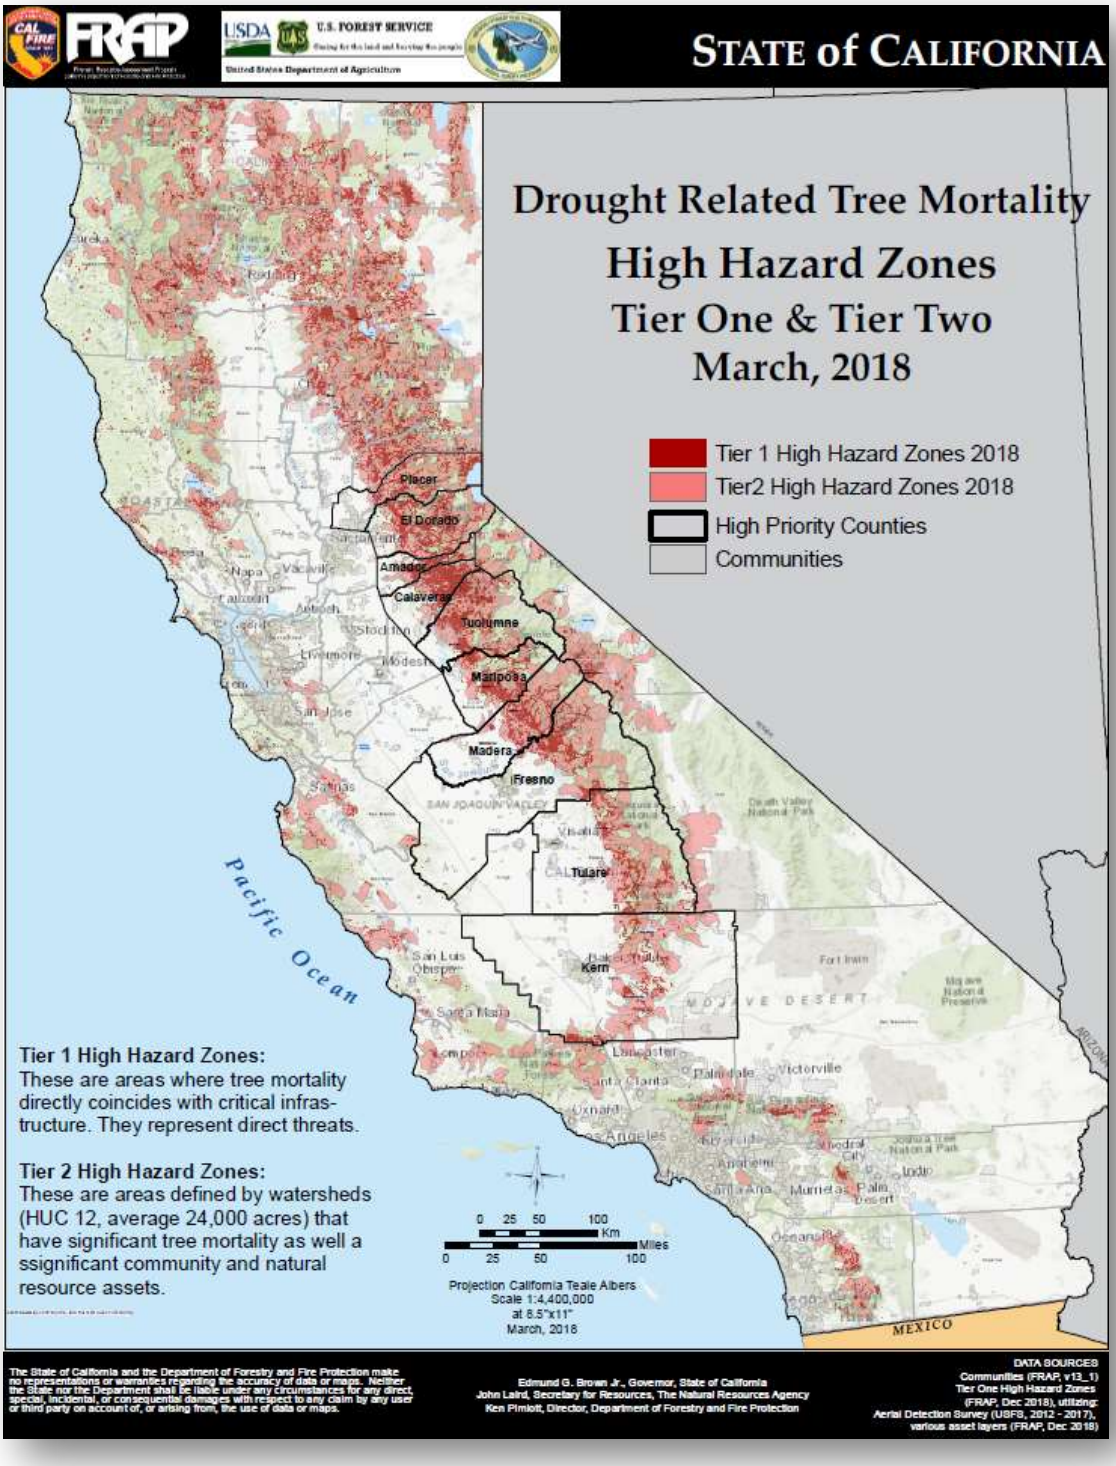
It should be noted that (1) Tier 2 and Tier 3 fire-threat areas on the CPUC Fire-Threat Map may overlap Tier 1 HHZs on the Tree Mortality HHZ Map, (2) the Tree Mortality HHZ Map is not owned or maintained by the CPUC, and (3) the Tree Mortality HHZ Map is updated much more frequently (approximately annually) than the 10-year update cycle adopted by the above-mentioned decisions for the CPUC Fire-Threat Map.

The fire-safety regulations described below apply only to areas designated as "high fire-threat areas" in accordance with the adopted interim maps. Similarly, the HFTD, as described in this section, is intended to depict an analogous area based, in part, upon a mapping product (i.e. CPUC Fire-Threat Map) developed specifically for the purpose of scoping utility regulations.

The fire-safety regulations adopted in R.08-11-005 that relied on the interim maps include:

- GO 95, Rule 18A, which requires electric utilities and communication infrastructure providers (CIPs) to place a high priority on the correction of significant fire hazards in high fire-threat areas of Southern California.

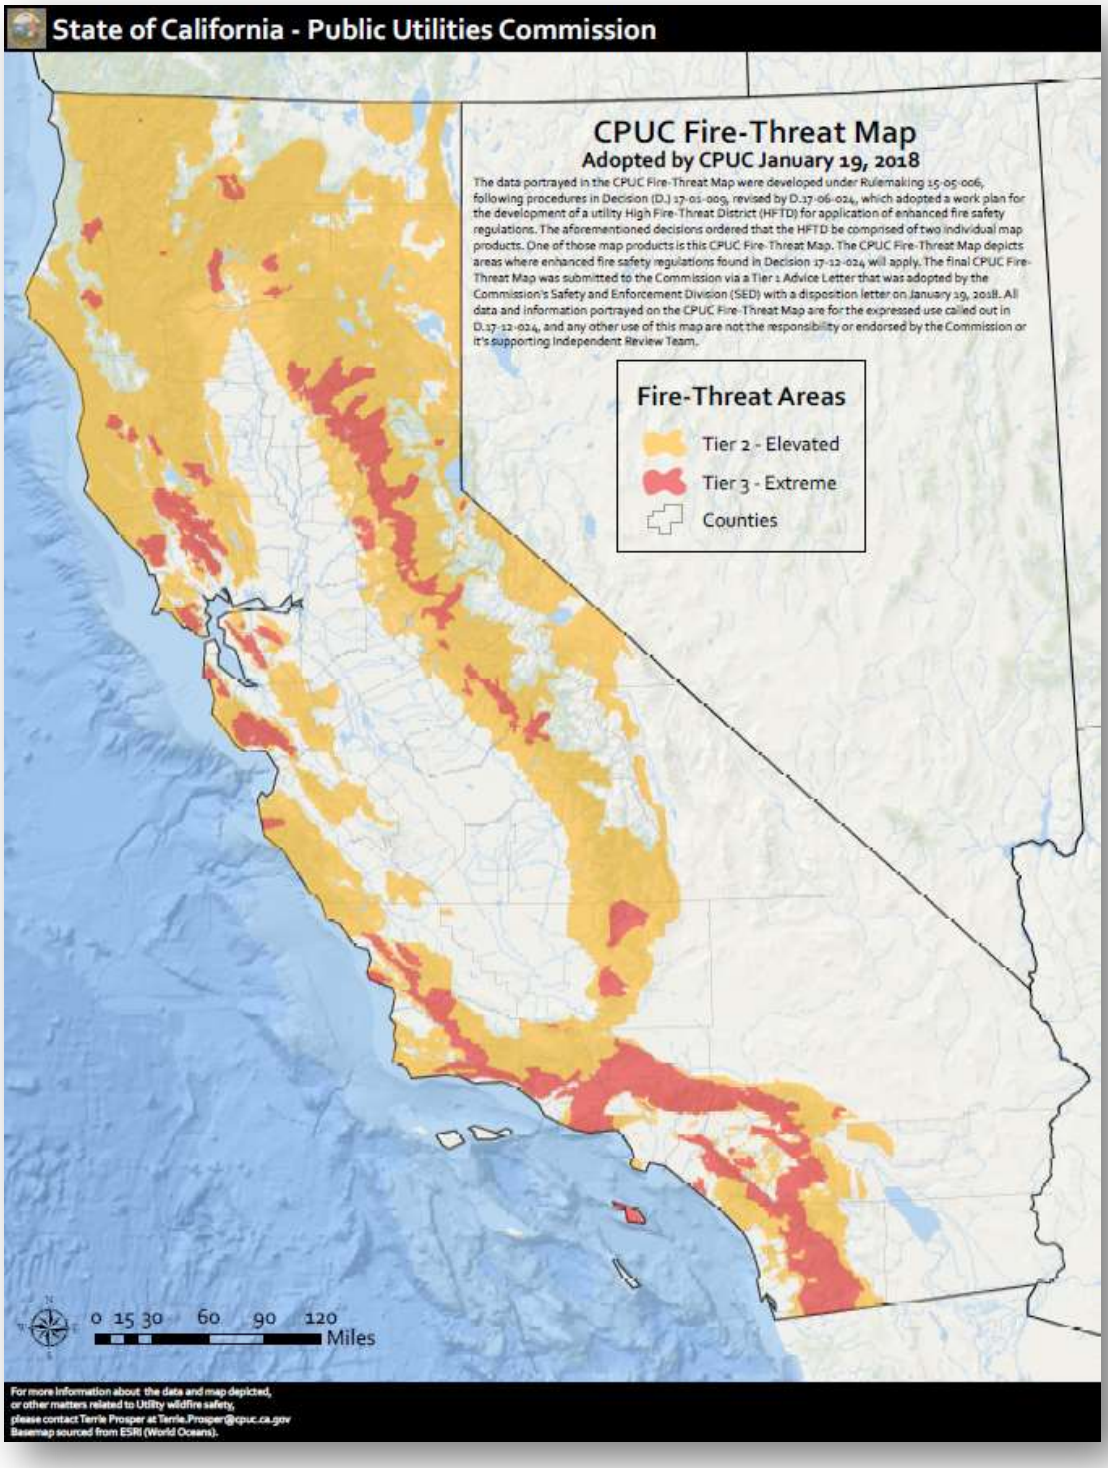
- GO 95, Rules 31.2, 80.1A, and 90.1B, which set the minimum frequency for inspections of aerial communication facilities located in close proximity to power lines in high fire-threat areas throughout California.
- GO 95, Rule 35, Table 1, Case 14, which requires increased radial clearances between bare-line conductors and vegetation in high fire-threat areas of Southern California.
- GO 95, Appendix E, which authorizes increased time-of-trim clearances between bare-line conductors and vegetation in high fire-threat areas of Southern California.
- GO 165, Appendix A, Table 1, which requires more frequent patrol inspections of overhead power line facilities in rural, high fire-threat areas of Southern California.
- GO 166, Standard 1.E., which requires each electric utility in Southern California to develop and submit a plan to reduce the risk of fire ignitions by overhead facilities in high fire-threat areas during extreme fire-weather events. Electric utilities in Northern California must also develop and submit a plan if they have overhead facilities in high fire-threat areas that are subject to extreme fire-weather events.



The scope of R.15-05-006 included the identification, evaluation, and adoption of additional fire-safety regulations for the High Fire-threat District (HFTD). To this end, a series of public workshops were held by a group known as the Fire Safety Technical Panel (FSTP), chaired by the CPUC's SED and Southern California Edison Company (SCE).

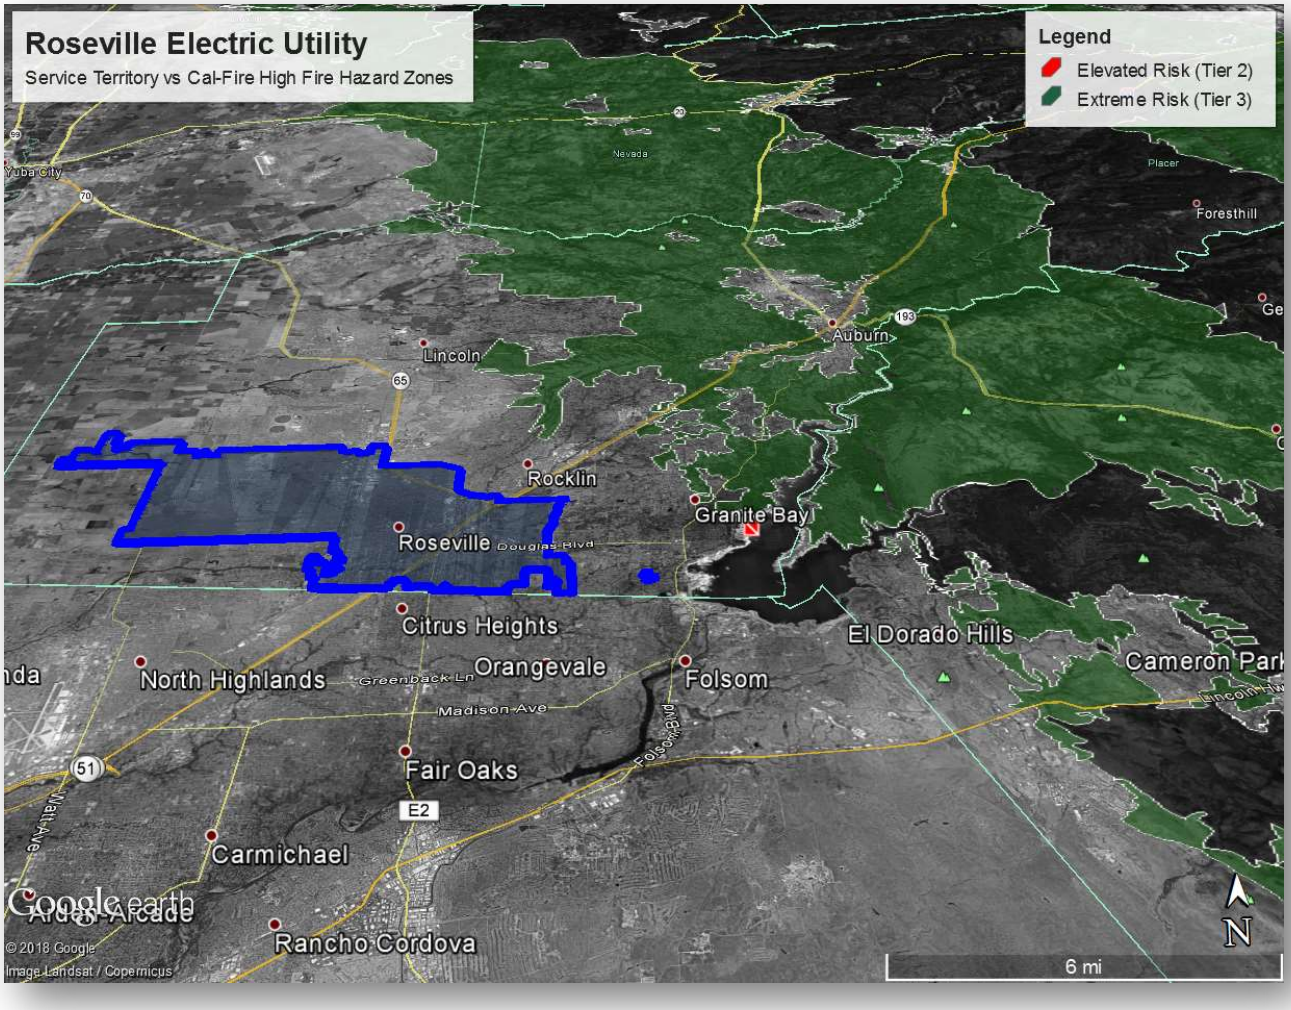
On July 10, 2017, the FSTP filed a Workshop Report that contained 23 proposed fire-safety regulations and eight (8) alternatives. Interested parties filed opening comments on July 31, 2017, and reply comments on August 11, 2017. On December 21, 2017, the CPUC issued D.17-12-024, adopting new fire-safety regulations in the HFTD.

On December 21, 2017, the CPUC issued Decision (D.) 17-12-024 adopting regulations to enhance fire-safety in the HFTD, effectively completing the second track of R.15-05-006 described above.



On January 19, 2018, the CPUC adopted, via SED's disposition of a Tier 1 Advice Letter, the final CPUC Fire-Threat Map. The adopted CPUC Fire-Threat Map, together with the map of Tier 1 High Hazard Zones (HHZs) on the USFS-CAL FIRE joint map of Tree Mortality HHZs, comprise the HFTD Map where stricter fire-safety regulations apply. [4]

Figure 2 - California Fire High Hazard Zones

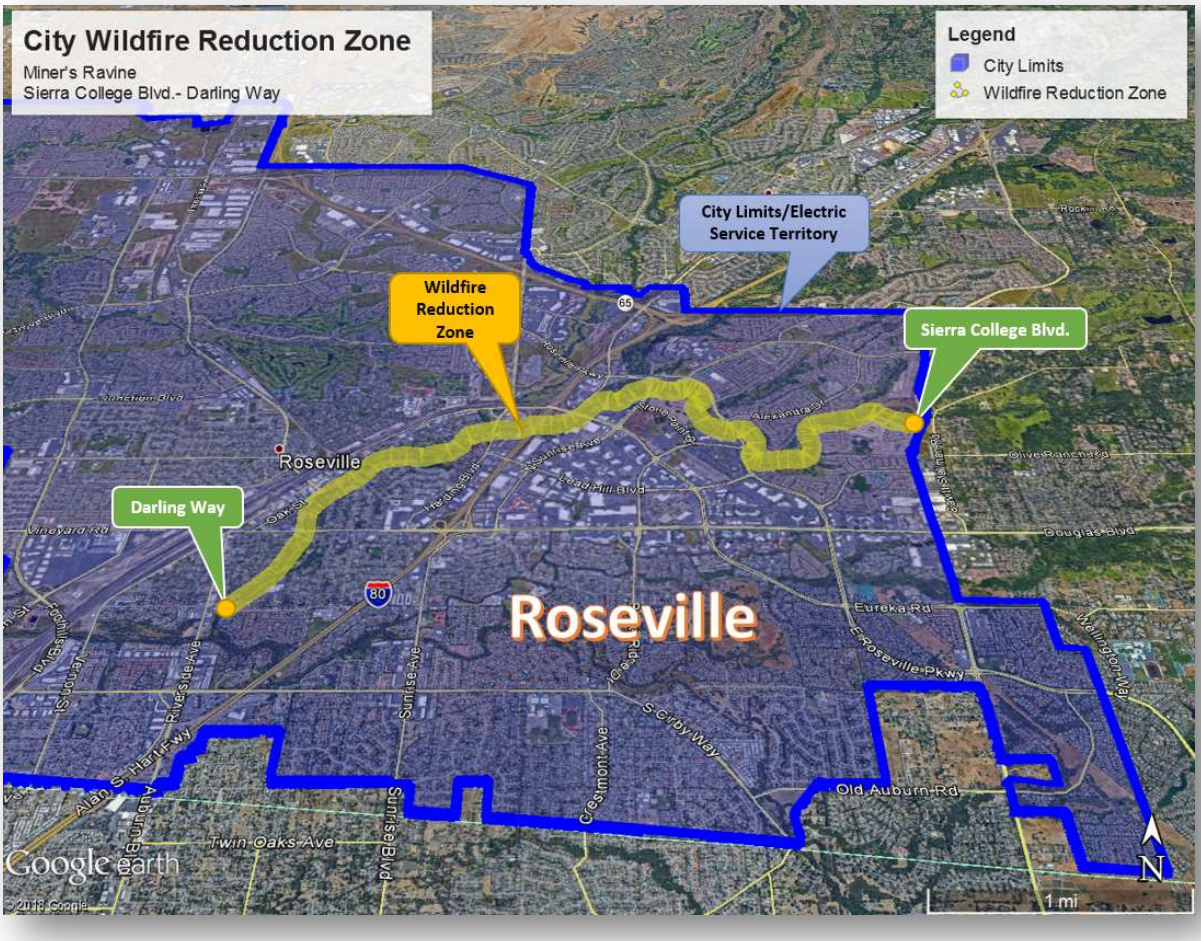


Note: The City of Roseville is not currently located within a USFS-CAL FIRE designated High Hazard Zone. High Hazard Zones are based on estimated tree mortality rates.

Figure 3 - CPUC Fire Map (Tier 2 & 3)

Note: The City of Roseville is not currently located within a CPUC designated high fire-threat area. The CPUC defines two fire threat tiers: Tier 2 – Elevated risk for utility-associated wildfires / Tier 3 – Extreme risk for utility-associated wildfires.

Figure 4 – Roseville Electric Utility Service Territory vs .Cal-Fire High Fire Hazard Zones



Roseville Electric Utility reviewed the boundaries of the HFTD and confirmed that, based on local conditions and historical fire data, all of Roseville Electric Utility's service territory was properly excluded.

City Wildfire Reduction Zone

The area designated as the "City Wildfire Reduction Zone" (WRZ) incorporates a specific section of Miners Ravine that runs through a portion of the city. This is mostly an open space area that has increased precautionary measures for electric utility inspections and maintenance actions.

Figure 5 – City Wildfire Reduction Zone

Grid Hardening

Roseville recently installed Cal-Fire approved expulsion proof fusing for all overhead transformer assets within the WRZ, which are ideal for areas prone to grass fires.

The S&C "Fault Tamer" type fusing helps to minimize equipment damage and improve service continuity. No parts are expelled during a circuit interuption.

Expulsion Proof Fusing

S&C Fault Tamer Fuse - Closed

S&C Fault Tamer Fuse - Open

Design and Construction Standards

Roseville Electric Utility's electric facilities are designed and constructed to meet or exceed the relevant Federal, State, or industry standard. Roseville Electric Utility treats CPUC GO 95 and GO 128 as a key industry standard for design and construction standards for overhead and underground electrical facilities. Roseville Electric Utility meets or exceeds all standards in GO 95 and GO 128. Additionally, Roseville Electric Utility monitors and follows, as appropriate, National and/or California Electric Safety Codes. In the City Wildfire Reduction Zone Roseville Electric Utility has installed Cal Fire approved fault-tamer equipment which is intended to have no sparking should a fault occur.

Vegetation Management

Roseville Electric Utility meets or exceeds the minimum industry standard vegetation management practices. For distribution level facilities, Roseville Electric Utility meets: (1) Public Resources Code section 4292; (2) Public Resources Code Section 4293; (3) GO 95 Rule 35; and, (4) the GO 95 Appendix E Guidelines to Rule 35. These standards require significantly increased clearances in the High Fire Threat District (HFTD), which do not apply to Roseville; however, REU's goal is a more effective separation distance by increasing the trim around primary lines to 10-feet at the time of the trimming. Internal staff review has shown that this approach to high-voltage vegetation management in Roseville has historically proven beneficial in preventing the REU electric system from starting wildfires.

REU utilizes two overhead (aerial) voltage levels: 12kV and 60kV. Per GO95, Rule 35, Table 1, the radial clearance of bare line conductors from vegetation in a HFTD is 48-inches (18-inches for 12kV in non-HFTD). Roseville tree contractors exceed this separation distance by increasing the trim around primary lines to 10 feet in order to obtain a more-effective clearance. This safety and reliability effort typically allows the REU tree crews enough time to return to the same location and trim again before the tree branches grow within the minimum allowable clearances.

Vegetation includes trees, bush, weeds, grass and other plants.

Figure 6 – GO95, Rule 35, Table 1

GO 95, Rule 35, Table 1					
Case	Type of Clearance	Trolley Contact, Feeder and Span Wires, 0-5kv	Supply Conductors and Supply Cables, 750 - 22,500 Volts	Supply Conductors and Supply Cables, 22.5 - 300 kV	Supply Conductors and Supply Cables, 300 - 550 kV (mm)
13	Radial clearance of bare line conductors from tree branches or foliage	18 inches	18 inches	¼ Pin Spacing	½ Pin Spacing
14	Radial clearance of bare line conductors from vegetation in the Fire-Threat District	18 inches	48 inches	48 inches	120 inches

Figure 7 – Appendix E, Guidelines to Rule 35

Appendix E Guidelines to Rule 35		
The radial clearances shown below are recommended minimum clearances that should be established, at time of trimming, between the vegetation and the energized conductors and associated live parts where practicable. Reasonable vegetation management practices may make it advantageous for the purposes of public safety or service reliability to obtain greater clearances than those listed below to ensure compliance until the next scheduled maintenance. Each utility may determine and apply additional appropriate clearances beyond clearances listed below, which take into consideration various factors, including: line operating voltage, length of span, line sag, planned maintenance cycles, location of vegetation within the span, species type, experience with particular species, vegetation growth rate and characteristics, vegetation management standards and best practices, local climate, elevation, fire risk, and vegetation trimming requirements that are applicable to State Responsibility Area lands pursuant to Public Resource Code Sections 4102 and 4293.		
Voltage of Lines	**Case 13**	**Case 14**
Radial clearances for any conductor of a line operating at 2,400 or more volts, but less than 72,000 volts	4 feet	12 feet

Tree Pruning

REU utilizes industry-standard vegetation management practices recommended by the American National Standards Institute (ANSI) A300 for Tree Care Operations - Standard Practices for Tree Pruning, California Occupational Safety and Health Administration (OSHA) and the California Public Utility Commission (CPUC). All personnel, equipment and tools meet regulations as written in the American National Standard Institute Z.133.1 requirement for pruning, trimming, repairing, maintaining and removing trees and for cutting brush.

Directional pruning methods are used to encourage trees to grow away from electric lines. Sometimes the situation requires pruning only one side of the tree, pruning one side more than the other, or pruning just the middle of the tree. These variations are known as side pruning, slope pruning or "V pruning." Trees may appear unbalanced at first, but a healthy tree will cope with the changes, and its appearance will soften over time.

The primary pruning of deciduous trees is typically during the dormant season. Damaged trees, or those that constitute health or safety hazards, are pruned at any time of the year as required. All pruning cuts are usually made to lateral branches. Clearing of vegetation around poles and equipment is also performed.

Side Pruning

Slope Pruning

V-Pruning

Crown reduction (when necessary)

Priority for Trimming

Routine tree-trimming priorities are based on the total number of customers potentially impacted due to a tree/vegetation event:

1. 60KV sub-transmission facilities,
2. 12KV distribution facilities,
3. 12KV distribution taps (down-stream of fuses).

Other priorities include:

1. Trees/Vegetation in contact with primary wire (Burners),
2. Trees/Vegetation within 18 inches of contact with primary conductor,
3. Trees/Vegetation within 10 feet of primary conductors and based on the growth rate of species,
4. Trees/Vegetation in contact with secondary conductors.

Firebreaks and Weed Abatement

REU firebreak clearances are utilized in open-space areas for structural protection of power poles. Firebreak clearances are applicable within an imaginary cylindroid space surrounding each pole on which a switch, fuse, transformer or lightning arrester is attached and surrounding each dead end or corner pole unless such pole is exempt from minimum clearance requirements by provisions of California Code of Regulations Title 14 CCR 1255 or PRC 4296. The radius of the cylindroid is 3.1 m (10 feet) measured horizontally from the outer circumference of the specified pole. Flammable vegetation and materials located wholly or partially within the firebreak space is treated as follows:

a) At ground level -remove flammable materials, including but not limited to, ground litter, duff and dead or desiccated vegetation that will allow fire to spread, and;
b) From 0-2.4 m (0-8 feet) above ground level -remove flammable trash, debris or other materials, grass, herbaceous and brush vegetation. All limbs and foliage of living trees are removed up to a height of 2.4 m (8 feet).
c) From 2.4 m (8 feet) to horizontal plane of highest point of conductor attachment -remove dead, diseased or dying limbs and foliage from living sound trees and any dead, diseased or dying trees in their entirety.

In order to maintain firebreaks, chemical vegetation management is used in open-space areas (as needed). Treatment around the base of poles in these areas include pre-emergence or post-emergence herbicides in order to control young emerging and existing vegetation. Chemical treatments are completed every other year for each location with the use of alternative methods, such as weed-eaters, for the gap treatment year. Treatment records are submitted to REU after application.

Responsible Parties

REU relies on Subject Matter Experts (SME's) in order to utilize their expertise to assist in Plan review and/or individual recommendations for specific Plan items. This includes consulting with the following City positions as needed:

- Roseville Fire Department, Fire Division Chief – position requires eight years of increasingly responsible experience in municipal fire suppression duties, including five years of supervisory responsibility at the Fire Captain level or higher.
- Roseville Urban Forester – requires three years of professional experience performing assessment and maintenance of trees in an urban environment, including one year of lead responsibility and training from an accredited college or university in urban forestry, biology, environmental science, ornamental horticulture or a related field.
- Park Planning and Development Superintendent – position requires training from an accredited college or university with major course work in landscape architecture, park planning, construction management.

REU personnel that manage and execute the electric utility Vegetation Program:

- Electric Utility Director - the Utility Director plans, organizes, directs and reviews the broad activities and operations of the Electric Department including distribution, generation, planning, retail and administrative services. This position coordinates assigned activities with other departments and outside agencies and provides highly responsible and complex administrative support to an Assistant City Manager.
- Electric Operations Manager – the Operations Manager plans, organizes, directs, and coordinates the activities of electric distribution operations within the Electric Utility Department including installation, construction, operation and maintenance of the electric utility distribution system to include substations, warehousing, and metering; coordinates operation and maintenance activities with other sections, divisions, departments or outside agencies and utilities; and provides highly responsible technical support to the Assistant Electric Utility Director. Position requires five years of increasingly responsible experience in electrical systems construction, maintenance and repair work, including two years of supervisory responsibility.
- Electric Operations Supervisor – the Operations Supervisor plans, organizes, directs and supervises electric operations within the Electric Utility Department. The position may be assigned to one or more of the following electric utility operational areas: line construction and maintenance, troubleshooting, metering, dispatch, warehouse, vegetation management, or street lighting. This position requires three years of increasingly responsible experience in electric utility systems operations, construction, maintenance and repair work; including one year providing technical and functional supervision over assigned personnel.
- Tree-Trimming Contractors - most Electric Utility tree pruning/vegetation management work are performed by an outside tree-trimming contractor, but may be performed by REU crews as needed. The contractor work consists of furnishing all labor, supervision, training, methods, tools, fuel, disposal of brush/chips and equipment necessary to accomplish the vegetation management work. The contractor crew must be qualified and able to perform all high-voltage energized line clearance tree trimming work utilizing an aerial device, such as a bucket truck, or by climbing. In addition to certified tree workers, the contractor must also employ a certified arborist.

  The REU contractor patrols all City owned overhead power lines annually. Tree-trimming schedules are prioritized based on the level of corrective maintenance action needed. The contractor will also respond to service order requests and other maintenance work requiring tree/vegetation trimming or removal at the direction of REU management.

Work Review

Contractor trimming work includes the use of hand saws, pruners, pole saws, hand pruners, wood chippers, axes and wedges, and chain-saws. Most work is performed by a crew utilizing a variety of vehicles and equipment including bucket trucks, wood chippers, . REU regularly reviews and inspects the equipment the contractor intends to use. A supervisor provided by the contractor is required to perform safety inspections and perform training as needed to assure the safety of contractor's personnel. All contractor trimming or pruning work near high voltage distribution and transmission lines are performed by a certified and qualified line clearance tree trimmer.

Record Keeping

A complete record of all tree work is maintained by the contractor and REU. Line clearance tree trimming records include the type of tree work performed, date, species, and location.

Property Owner Notification

Property owners are typically notified a minimum of 24 hours prior to trimming on private property. Door hangers are left at each location or with the occupant of the property. A "Letter of Understanding" must be signed by the property owner prior to removal of any tree (unless an emergency condition exists). Public notification may not be required for emergency call-out work.

Emergency Work

Emergency vegetation trimming/removal work is performed for the safety of the public, REU employees and the safety/reliability of the REU electric system. Standard notifications may not be issued for emergency work depending on the severity of the issue.

Inspections

Roseville Electric Utility meets or exceeds the minimum inspection requirements provided in CPUC GO 165 and CPUC GO 95, Rule 18. Pursuant to these rules, utilities inspect electric facilities in the HFTD more frequently than the other areas of its service territory. As described above, Roseville Electric Utility currently does not have any overhead power lines located within or near the HFTD within the CPUC's Fire-Threat Map. However, Roseville Electric Utility performs a detailed-type inspections within the City Wildfire Reduction Zone on an annual basis, as stated in the Wildfire Reduction Zone Inspection and Maintenance Program [5].

The inspection target is to be completed annually, before the start of fire season each year. Intrusive-type inspections will be performed approximately every five-years as per the standard Distribution Inspection and Maintenance Program. The inspection process is unchanged during high-risk and red flag days. **See attached EOP 1.02 and 1.07 for further information**.

Note: if Roseville Electric Utility staff discovers a facility in need of repair that is owned by an entity other than Roseville Electric Utility, Roseville Electric Utility will issue a notice to repair (Safety Hazard Notification) to the facility owner so that necessary repairs can be completed.

Reclosing Policy

Roseville Electric Utility does not currently have any distribution recloser equipment installed on electric supply circuits and thus no policy is currently needed:

> REU does not have 12kV reclosers located along distribution feeders. Reclosing operations are performed by feeder breakers located in REU's substations. In most instances, the reclose function is set to operate once for underground feeders and twice for overhead feeders. In most cases, 60kV substation line breakers are set to reclose one time.

Engineering and operations management have reviewed the current system protection (reclose) philosophy and, considering our annual summer preparedness work, have determined there is no immediate apparent advantage to changing our approach to protection reclosing.

Note: Substation breakers are placed in "no-test" during maintenance procedures that necessitate that action.

Public Safety Power Shutoff (PSPS)

Protocols for de-energizing portions of the electrical system defer to one of several methods that depend upon the severity and type of situation. Roseville's customers are not directly connected (or interconnected) to investor owned utilities (IOU's) and therefore should not experience an IOU PSPS event. Roseville has not had, or expects to have, the need to implement a PSPS event within the REU service territory however, a plan is in place should the need arise to curtail load for any reason. In the unlikely event of a load curtailment event, REU will follow the established emergency protocols in the REU Summer Preparedness Plan. These protocols include: City Emergency Operations Center activation, Electric Department Emergency Operation Center activation, emergency communications, emergency public information priorities, mutual assistance options, and critical and at-risk customer considerations. Working with City Police and Fire Departments, REU developed the following restoration list that will be used in reverse to prioritize load curtailment:

- Priority 1 – Restores power to communication facilities and the most at risk population.
- Priority 2 – Restores power to the critical at risk population
- Priority 3 – Restores power to potable water. This priority was determined based on available generation at the City of Roseville's water treatment facility and that the generator does not fail.
- Priority 4 – Restores power to larger capacity fueling facilities.
- Priority 5 – Solid waste and wastewater. The city is capable of handling much of this without supplied power because of onsite generation
- Priority 6 - Jail/Detention and Court house.
- Priority 7 – Key Accounts, Eating/Dining/Mall. These include restaurants, grocery stores, and warehouses. All at-risk personnel and sanitation is complete. Power to grocery stores, food ware houses and restaurants (fast food and sit down) becomes a need so that people can be fed and potentially prevent the discarding of food that has not been refrigerated properly.
- Priority 8 – Assembly areas – these include schools, theater and churches. The intent is to provide locations for cooling centers to be available. These are large gathering sites and if logistical support is needed for residents, they are in central areas to make aid support easier.

De-energization

Roseville Electric Utility has the authority to preemptively shut off power due to fire-threat conditions, however, this option will only be used in extraordinary circumstances. Upon confirmation of a planned fire-threat de-energization event, advance notice (as much as possible and/or practical) will be given to all Roseville customers, such as residences and businesses, through the communication tactics as previously stated.

Critical facilities and some key electric customers, such as Fire Departments, Law Enforcement and Hospitals, may be contacted directly to give as much notice as possible as to the planned de-energization of their electric service due to a fire-threat condition.

Typical methods used for internal city communication of a major de-energization event may be through Dispatch (for example, Electric Dispatch to Police Dispatch), radio or cellular equipment. Should a major de-energization event occur due to a fire-threat, it is likely that the EOC will be activated and the Electric, Police and Fire Departments will be directly involved in the emergency process.

7. RESTORATION OF SERVICE

Electric Outage Restoration Procedure

REU has procedures for electric outage restoration [6]. The purpose of the these procedures are to provide a consistent set of procedures for Electric System Dispatchers and field personnel to communicate, safely assess, isolate and restore power to areas affected by an unscheduled power outage. The same procedures apply after an electric outage event due to a wildfire.

This procedure classifies unscheduled outages in the following categories:

- 12kV Feeder – Laterals
- 12kV Feeder – Mainline
- 60/12kV Distribution Substation
- 230/60kV Receiving Station
- Complete System Blackout

Steps are outlined for each outage category restoration effort. All overhead circuits will be inspected and cleared prior to re-energization per applicable regulations.

Outage Notification Procedure for Electric Dispatch

REU establishes broad power outage notification procedures [7] that is adhered to by all REU Electric System Dispatchers involved in the notification process for scheduled and unscheduled power outages. Notification procedures for REU Dispatchers and describes their role in the notification process for scheduled and unscheduled power outages during and after normal working hours are divided into the following categories:

- Scheduled Power Outages
- Unscheduled Power Outages – Non-Circuit/Normal Hours
- Unscheduled Power Outages – Non-Circuit/After Hours
- Unscheduled Power Outages – Circuit/VIP Normal Hours
- Unscheduled Power Outages – Circuit/VIP After Hours

Priorities:

1. Physical safety of employees and the public
2. Integrity and reliability of the power system
3. Protection of equipment
4. Service to the customer

8. PLAN EVALUATION

Metrics for measuring plan performance

Roseville Electric Utility will track two metrics to measure the performance of this Wildfire Mitigation Plan: (1) number of fire ignitions; and (2) wires down within the service territory.

Metric 1: Fire Ignitions

For purposes of this metric, a fire ignition is defined as follows:

- A Roseville Electric Utility distribution asset was associated with the fire;
- The fire was self-propagating and of a material other than electrical and/or communication facilities;
- The resulting fire traveled greater than one linear meter from the ignition point; and,
- Roseville Electric Utility has knowledge that the fire occurred.

Metric 2: Wire Down

The second metric is the number of distribution wires downed within REU's service territory. For purposes of this metric, a wires down event includes any instance where an electric primary distribution conductor falls to the ground or on to a foreign object.

Roseville Electric Utility will not normalize this metric by excluding unusual events, such as severe storms. Instead, Roseville Electric Utility will supplement this metric with a qualitative description of any such unusual events.

Impact of Metrics on Plan

In the initial years, Roseville Electric Utility anticipates that there will be relatively limited data gathered through these metrics. However, as the data collection history becomes more robust, Roseville Electric Utility will be able to identify areas of its operations and service territory that are disproportionately impacted. Roseville Electric Utility will then evaluate potential improvements to the plan.

Monitoring and Auditing the Plan

Review of the Wildfire Mitigation Plan will occur by REU staff annually, or as needed throughout the year. The annual review will include an assessment of this Plan's associated programs and performance. This Plan will be presented publicly to City Council on an annual basis or consistent with State mandates. Additionally, a qualified independent evaluator may present a report on this Plan to the City Council.

Identifying and Correcting Deficiencies to the Plan

During any review of the Plan, the Electric Director, or his/her designee, has the authority to, and is responsible for, correcting the deficiencies.

Monitoring the Effectiveness of Inspections

Roseville Electric Utility uses General Orders 95 (GO95), 128 (GO128) and 165 (GO165), respectively as it's guide to inspect its electric supply system. Field staff routinely inspect assets (typically based on an interval process) within the electric service territory and identify and perform corrective action as deficiencies are encountered. For reactive maintenance that cannot be repaired upon discovery, a priority level is assigned and a subsequent work order is created. Work orders require personnel to input information, which establishes accountability, for those charged with completing the order, along the order processing continuum. REU tracks inspections and reactive maintenance in its Computerized Maintenance Management System and, per GO165, reports information to the CPUC annually.

REU staff meets regularly (typically monthly) to review electric outages. Several metrics, such as outage response times, fire ignition, wires down, and reliability indices undergo review. Below are the metrics that will be used to measure the performance of this Plan:

Specific metric	Indicator	Measure of effectiveness
Fire ignition	Count of events	Reduction in general trends
Wires down	Count of events	Reduction in general trends

9. INDEPENDENT AUDITOR

Public Utilities Code section 8387(c) requires Roseville Electric Utility to contract with a qualified independent evaluator with experience in assessing the safe operation of electrical infrastructure to review and assess the comprehensiveness of this Wildfire Mitigation Plan. The independent evaluator must issue a report that is posted to the City's website. This report must also be presented to City Council at a public meeting.

10. PLAN APPROVAL PROCESS

The Plan is posted on the City website and available in print for public review and comment. Roseville's process for approval includes an independent evaluator presenting the Plan in a publicly held City Council meeting and Council approving the Plan for use. Wildfire mitigation funding is typically derived from the Council approved field operations maintenance budget and/or engineering rehabilitation funds.

Subject: Independent Evaluator's Report of 2021 Roseville Electric Utility Wildfire Mitigation Plan

I. INTRODUCTION

The Roseville Electric Utility (REU) contracted with Dudek to engage in an independent evaluation of its Wildfire Mitigation Plan (WMP). This independent evaluation report (Report) describes the technical review and evaluation of the WMP prepared by Dudek, performed between October 2021 and November 2021.

Dudek conducted an evaluation of REU's WMP, as required under California Public Utilities Code (PUC) §8387(b). PUC §8387(b), as modified by Senate Bill (SB) 901, and the Administrative Law Judge's Ruling issued on January 17, 2019 in California Public Utilities Commission (CPUC) Docket No. R.18-10-007 (ALJ Ruling), applies to local publicly owned electric utilities and required preparation of a WMP before January 1, 2020, and revising/updating the WMP in 2020 and annually thereafter.

The WMP requirements are codified in PUC §8387 for publicly owned electric utilities (POUs). PUC §8387(c) requires that an independent evaluator review and assess the comprehensiveness of a POU's WMP and issue a summary report. Further refinements to the submitted Wildfire Mitigation Plans have been issued in guidance documents produced by the Wildfire Safety Advisory Board (WSAB) that describe the desired format for the submitted plans and for the plan contents for each required element.

Dudek conducted an initial review of REU's WMP and provided recommendations for clarifications/modifications. The focus of the evaluation was to determine whether the WMP included all elements required under PUC §8387(b)(2) (listed in Attachment A). The following summarizes the deficiencies identified during the initial review, by required element. Required elements not identified below were determined to satisfactorily meet code requirements in the WMP.

DUDEK

853 LINCOLN WAY, SUITE 208
AUBURN, CALIFORNIA 95603
530.887.8500

- 8387(b)(2)(H): Plans for vegetation management. **The WMP did not contain a description of REU's plans for Vegetation Management.**
- 8387(b)(2)(I): Plans for inspections of the local publicly owned electric utility's or electrical cooperative's electrical infrastructure. **The WMP did not contain a description of REU's plans for the inspection of REU's infrastructure.**
- 8387(b)(2(J): A list that identifies, describes, and prioritizes all wildfire risks, and drivers for those risks, throughout the local publicly owned electric utility's or electrical cooperative's service territory. The list shall include, but not be limited to, both of the following: (i) Risks and risk drivers associated with design, construction, operation, and maintenance of the local publicly owned electric utility's or electrical cooperative's equipment and facilities. (ii) Particular risks and risk drivers associated with topographic and climatological risk factors throughout the different parts of the local publicly owned electric utility's or electrical cooperative's service territory. **The plan contained an incomplete description of the risk drivers present in REU territory and did not describe which risks these risk drivers were connected to.**

Following updates to all the above, the WMP was found to meet all the requirements of PUC §8387(b)(2). In addition, Dudek evaluated the WMP for compliance with the Wildfire Safety Advisory Board (WSAB) Guidance Advisory Opinion documents and made recommendations to the Roseville Electric Utility for updating the WMP to include the WSABs recommendations, even though the Guidance document recommendations are not requirements.

II. WILDFIRE MITIGATION PLAN REQUIREMENTS

A. Senate Bill 901

Per SB 901, all Publicly Owned Utilities (POUs) are required to adopt a Wildfire Mitigation Plan (WMP), which shall be reviewed by an independent third-party evaluator. SB 901 requires the governing board to determine whether any portion of the geographical area where the utility's overhead electrical lines and equipment are located has a significant risk of catastrophic wildfire resulting from those electrical lines and equipment. The bill directs electrical utilities to annually prepare WMPs that include several mitigation and response elements in each utility's strategies, protocols, and programs. Each electric utility is to prepare and adopt a comprehensive WMP before January 1, 2020. The requirements for POUs are presented in PUC §8387. In addition, the WMP shall be reviewed by an approved, independent, third-party evaluator to review and assess the comprehensiveness of, and the POU's compliance with, this Plan.

DUDEK

853 LINCOLN WAY, SUITE 208
AUBURN, CALIFORNIA 95603
530.887.8500

B. AB 1054 & AB 111

Per AB 1054, POUs must annually submit a WMP to the California Wildfire Safety Advisory Board, which will review the WMP and provide recommendations on mitigating wildfire risk. AB 1054 contains similar WMP requirements to SB 901 but allows WMPs of a three-year, rather than one-year duration.

AB 111 establishes the Office of Energy Infrastructure Safety within the Natural Resources Agency after July 1, 2021.

C. The Roseville Electric Utility WMP Requirements

California Public Utilities Code (PUC) §8387(b)(2) lists the statutory requirements for WMPs. These are the specific elements that the independent evaluator must review to make its determination for this report. The specific elements that must be addressed in REU's WMP are included in Attachment A and are summarized here for reference.

- The persons responsible for executing the plan.
- The objectives of the wildfire mitigation plan.
- The preventive strategies and programs to be adopted to minimize the risk of its electrical lines and equipment causing catastrophic wildfires.
- The metrics used to evaluate the wildfire mitigation plan's performance.
- How the application of previously identified metrics has informed the wildfire mitigation plan.
- Protocols for disabling reclosers and deenergizing portions of the electrical distribution system that consider the associated impacts to public safety.
- Procedures for notifying a customer who may be impacted by the deenergizing of electrical lines.
- Plans for vegetation management.
- Plans for inspections of the electrical infrastructure.
- Description of all wildfire risks, and drivers for those risks, throughout the service territory, including design, construction, operation, and maintenance of equipment and facilities, and topographic and climatological risk factors.
- Identification of any geographic area in the service territory that is a higher wildfire threat than is identified in a commission fire threat map.
- A methodology for identifying enterprise-wide safety risk.
- How electrical service will be restored after a wildfire.
- The processes and procedures used to monitor and audit the implementation of the wildfire mitigation plan, identify any deficiencies, and the effectiveness of electrical line and equipment inspections.

III. DESCRIPTION OF THE ROSEVILLE ELECTRIC UTILITY

The City of Roseville is located on the eastern side of the Sacramento metropolitan area in the relatively flat Sacramento Valley. No portion of the City is located within a CAL FIRE High Fire Hazard Severity Zone or a California Public Utility Code (CPUC) High Fire Threat District. To the east of the City borders begins the foothills of the Sierra Nevada mountains and there are CPUC Tier 2 High Fire Threat Areas in the neighboring City of Rocklin but not immediately adjacent to Roseville borders. Much of the City is developed with structures, roads, and infrastructure. Undeveloped lots and open spaces are present in the City but are generally scattered throughout the developed area. The exception to this is the western boarder of the City which has not been fully developed yet and the areas along Miners Ravine which starts on the east side of the city and ends near the west side of the City.

DUDEK

853 LINCOLN WAY, SUITE 208
AUBURN, CALIFORNIA 95603
530.887.8500

The REU has approximately 952 circuit miles of power lines throughout the City. Of the 952 miles of lines, 808 circuit miles are located underground, and 144 circuit miles are overhead lines. The underground and overhead lines are not evenly distributed throughout the City, instead the overhead lines are concentrated in the urbanized areas along the Union Pacific Railroad and Interstate 80. In contrast, the underground wires are spread throughout the residential areas surrounding the downtown and urban areas along the highways.

IV. INDEPENDENT EVALUATION

A. Independent Evaluator Requirement

PUC §8387 requires each POU to "contract with a qualified independent evaluator with experience in assessing the safe operation of electrical infrastructure to review and assess the comprehensiveness of its wildfire mitigation plan." Additionally, the independent evaluator's assessment of the comprehensiveness of the POU's WMP must be issued in a report that is both posted to the POU's website and presented at a public meeting of the POU's governing board.

B. Dudek's Qualifications

According to PUC §8387(c), the qualified independent evaluator that performs the assessment of REU's WMP must have "experience in assessing the safe operation of electrical infrastructure to review and assess the comprehensiveness of its wildfire mitigation plan." The REU has determined that Dudek is the independent evaluator who adequately understands the local conditions and fire risks of the service area.

C. Evaluation Methodology

Dudek evaluated the comprehensiveness of the REU WMP using the following measures:

- Statutory Compliance: Dudek ensured that each required element specified in PUC §8387 is addressed in the REU's WMP.
- Industry Comparison: Dudek is familiar with existing industry practices and has reviewed the local POU WMPs previously filed with the California Public Utilities Commission (CPUC). Dudek has compared the REU's WMP against existing practices and any comparable actions planned by the POUs.

D. Metrics

The REU WMP proposes the following metrics to measure performance of its wildfire mitigation measures: (1) number of fire ignitions and (2) wire down events. Dudek has determined that these are appropriate metrics for a WMP and meet the minimum requirements in CPUC 8387.

Dudek will continue to monitor the metrics selected in the CPUC's current Wildfire Mitigation Plan rulemaking for utilities (per R.18-10-007) and WSAB guidance documents to determine if any additional metrics are applicable to POUs and should be incorporated into future REU WMPs.

DUDEK

853 LINCOLN WAY, SUITE 208
AUBURN, CALIFORNIA 95603
530.887.8500

V. EVALUATION OF THE ROSEVILLE ELECTRIC UTILITY WILDFIRE MITIGATION PLAN

A. Minimizing Wildfire Risks

PUC §8387(a) requires the following: Each local publicly owned electric utility and electrical cooperative shall construct, maintain, and operate its electrical lines and equipment in a manner that will minimize the risk of wildfire posed by those electrical lines and equipment.

The WMP describes the safety-related measures that the REU follows to reduce its risk of causing wildfires. Dudek has determined that the REU complies with this requirement with the REU's operations and maintenance standards meeting CPUC requirements for electrical systems. The REU's vegetation management program complies CPUC and PRC rules for vegetation clearance near power lines and equipment as well as the removal of hazardous vegetation on the surface near REU equipment. Finally, the REU has installed most of its electric lines underground and requires that new electric lines be installed underground as well.

B. Evaluation of WMP Elements

Dudek found that REU's WMP meets the statutory requirements of comprehensiveness per PUC §8387. The review of the WMP's elements is summarized relative to the application of the WMP. The table in Attachment A lists each required element for REU's WMP and provides Dudek's assessment of the comprehensiveness of that element within the WMP.

Below is a summary of WMP elements as required by PUC §8387, including restating sections of the WMP where applicable.

(A): Responsibilities of persons responsible for executing the plan.
The Electric Utility Director has overall functional management of the Electric Utility and provides oversight of the Electric Utility. The Director utilizes Assistant Electric Utility Directors for division oversight. The Electric Utility Director is responsible for executing the Plan.

(B): Objectives of the Wildfire Mitigation Plan
The REU has stated the goal and objectives of the WMP. The Roseville Electric Utility will operate its system to meet the following goals: minimizing sources of ignition, improve the resiliency of the electric grid, and minimize unnecessary or ineffective actions.

(C): Prevention Strategies and Programs
The WMP describes the four wildfire prevention programs that REU uses to mitigate wildfire risk in their electrical system. (1) A City Wildfire Reduction Zone where the utility performs increased inspections and has increased cautionary measures, (2) Design and Construction standards for electric utilities, (3) Vegetation Management Program for surface vegetation and trees near wires and equipment, (4) Equipment and wire inspections.

(D): Metrics and Assumptions for Measuring WMP Performance
REU tracks two metrics to measure the performance of the WMP: (1) number of fire ignitions caused by the utility's equipment; (2) wire down events. As REU collects more data from these metrics, they will review mitigation plan metrics to see if they need to be revised and/or updated.

DUDEK

853 LINCOLN WAY, SUITE 208
AUBURN, CALIFORNIA 95603
530.887.8500

(E): Impact of Previous Metrics on WMP
The WMP describes that the REU currently does not have enough data collected about the metrics to evaluate the plan's performance. As the REU collects more data they will use that information to inform future versions of the WMP.

(F): Reclosing Protocols
The Roseville Electric Utility does not currently have any distribution recloser equipment installed on electric supply circuits and no protocol is currently needed.

(G): De-energization Notification Procedures
The WMP contains a description of the REU's protocols for notifying customers of a pending de-energization event that include direct contact for critical facilities and first responders as well as the notification distribution tactics that will be used to alert residents. Since the REU is part of the City government, the plan also contains a description of the City's emergency public information resources and processes that would be utilized during a de-energization event.

(H): Plans for Vegetation Management
The REU WMP describes its established tree inspection and tree trimming program that meets or exceeds the standards for line clearance under the PUC GO 95 and PRC 4292 & 4293. This section goes on to describe the types of vegetation trimmed during its line clearance operations, when line clearance operations typically begin, and the REU's tree trimming priorities based on the total number of customers potential impacted. This section also includes a description of REU's annual weed abatement work that is performed on the portions of its system that traverse open space or unmaintained properties.

(I): Plans for Inspections:
The REU WMP describes its established pole inspection program that is in accordance with the inspection requirements provided in CPUC General Order (GO) 165 and CPUC GO 95, Rule 18. Roseville Electric Utility performs a detailed-type inspections within the City Wildfire Reduction Zone on an annual basis. The inspection target is to be completed annually before the start of fire season each year. Intrusive-type inspections will be performed approximately every five-years as per the standard Distribution Inspection and Maintenance Program. The inspection process is unchanged during high-risk and red flag days. The WMP includes the REU's operating procedures that describe their inspection program as an attachment.

(J)(i): Risks and Risk Drivers Associated with Design, Construction, Operation, and Maintenance Standards
The WMP describes the risks present in REU's territory that are associated with its facilities and equipment as well as their operations. The WMP describes the connection between the risks and the risk-drivers in their equipment and operations.

(J)(ii): Risks and Risk Drivers Associated with Topographic and Climatological Risk Factors
The WMP describes the risks present in REU's territory that are associated with the local climate and weather conditions. The REU territory is generally flat, and topography is not expected to have a significant influence on the risk of ignition or fire behavior.

DUDEK

853 LINCOLN WAY, SUITE 208
AUBURN, CALIFORNIA 95603
530.887.8500

(K): Geographical Area of Higher Wildfire Threat
The REU WMP acknowledges the areas within the City that are at a higher risk of wildfire due to the unmaintained vegetation present but concludes that these areas should not be included in future fire threat maps based on local conditions and historical fire data. No recommendations are made to expand the Tier 2 or 3 areas in the CPUC Fire Threat maps.

(L): Enterprise-wide Safety Risks
The WMP describes that the REU includes an Enterprise Risk Profile (ERP) analysis in their risk management strategy and the WMP describes how ERP works.

(M): Restoration of Service
The WMP describes the utility's procedures for restoring power after a de-energization event and describes how the City and utility prioritize the restoration of service to the various customers and services in the utility's territory.

(N)(i): Monitoring and Auditing WMP Implementation
The WMP describes that REU staff will review the plan on an annual basis or as needed throughout the year. This annual review will include an assessment of WMP's associated programs and performance.

(N)(ii): Identifying and correcting WMP deficiencies
The WMP describes that during the review of the plan, the Electric Director, is responsible for correcting deficiencies discovered in the plan.

(N)(iii): Monitoring and Auditing the effectiveness of inspections
The WMP describes that REU use General Orders 95 (GO95), 128 (GO128) and 165 (GO165), respectively as it's guide to inspect its electric supply system. REU tracks inspections and reactive maintenance in its Computerized Maintenance Management System and, per GO165, reports information to the CPUC annually.

VI. ASSESSMENT OF INDUSTRY STANDARDS

Dudek compared the mitigation measures described in the WMP against mitigation measures in approved WMPs from comparable POU's and industry standards.

Covered Conductors

Covered conductors are wires that are covered with an insulating layer that protects the wire against accidental or inadvertent contacts. Covered conductors are designed to withstand contact with adjacent vegetation and conductive objects without creating a spark. Covered Conductors are effective in mitigating wildfire risk.

REU's does not utilize covered conductors, instead the utility utilizes increased precautionary measures for electric utility inspections and maintenance actions in areas determined to be at a higher risk for wildfire.

DUDEK

853 LINCOLN WAY, SUITE 208
AUBURN, CALIFORNIA 95603
530.887.8500

Non-Expulsive Fuses

Fuses are devices installed in the electrical system that protect the utilities equipment and facilities from a fault condition. Expulsion fuses are traditionally used for these applications; however, expulsion fuses expel hot particles and gases that can start wildfires. Non-expulsive fuses are available that provide the same level of fault protection and can mitigate the risk of fires by eliminating the release of material that can start new fires is the fuse is triggered.

Roseville recently installed Cal-Fire approved expulsion proof fusing for all overhead transformer assets within the wildfire reduction zone along Miners Ravine.

REU's installation of non-expulsive fuses in areas determined to be at a higher risk for wildfire is consistent with best practices at comparable utilities.

Undergrounding Power Lines

Power lines installed underground have not been associated with the ignition of any catastrophic fires. The undergrounding of electric lines serves as an effective mitigation measure to reduce the potential of wildfires ignited by power lines.

Roseville Electric Utility has installed most of its power lines (85%) underground and requires that electrical lines for new construction must installed underground.

REU's undergrounding of power lines is consistent with best practices at comparable utilities.

VII. CONCLUSION

Dudek concludes that the Roseville Electric Utility Wildfire Mitigation Plan addresses all the applicable statutory requirements for a Publicly Owned Utilities' WMP as specified in California Public Utilities Code Section 8387. The plan has been updated based on information obtained over the last year of implementation and recommendations made by the Independent Evaluator. Dudek finds that REU has taken actions to minimize the risk that its lines or equipment will cause a wildfire.

COUNCIL COMMUNICATION

CC #: 1825
File #: 0103-34-02

Title:	Fiscal Year 2020-21 Grants Advisory Commission Year End Summary Report
Contact:	Trisha Isom 916-746-1239 tisom@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.26.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council accept, for informational purposes, the Citizens Benefit Fund (CBF) and Roseville Employees Annual Charitable Hearts (REACH) year end summary report highlighting non-profit accomplishments for the grant funding cycle of FY2020-21.

BACKGROUND

The Grants Advisory Commission is sharing the annual year end summary report that highlights the accomplishments of non-profit organizations that received Citizens Benefit Fund (CBF) and Roseville Employee Annual Charitable Hearts (REACH) funding awards for the FY2020-21 grant funding cycle. A total of $388,400 was distributed to 21 organizations for use between July 2020 and June 2021. The attached report provides a summary of each organization's goals and accomplishments. The report will be posted on the City's website to allow for transparency of our grant program, greater visibility of accomplishments, and to celebrate the non-profit successes.

FISCAL IMPACT

The annual Grants Advisory Commission summary report has no fiscal impact on the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Grants Advisory Commission summary report does not constitute a project and therefore, has no potential for a significant environmental effect, and is not subject to CEQA.

Grant Advisory Commission

Citizens Benefit Fund & Roseville Employees Annual Charitable Hearts

CITY OF ROSEVILLE CALIFORNIA

A total of $388,400 in grant funds were awarded to

$388,400

21 organizations for use from July 2020 to June 2021.

ORGANIZATION	GRANT FUNDS USED	ACCOMPLISHMENTS	SUCCESS MEASURES
ATOU A Touch of Understanding®, Inc.	$20,000	Development of a Virtual Speaker's Panel that reached more than 1,700 students with approximately 35% from Roseville	Survey of participants
AMI Housing	$22,133	Grant partially funded housing for 230 people, including veterans, chronically homeless, transitional age youth and parenting youth	Utilized tools such as HMIS and MHSA Portal
The Arc Placer County	$5,759	Grant funded programing for individuals with intellectual and developmental disabilities from across Placer County of which 75% are Roseville residents	Client surveys
AL assistance league® Greater Placer	$25,500	Grant partially funded clothing for 296 school age children in Roseville	Survey of participating families
CAMPUS LIFE CONNECTION	$10,000	Grant funded programs for low income teens including engagement with senior citizens over Zoom, cheer and basketball, sewing/arts/crafts classes, bike rides, boating and snowboarding; also served meals to families	Surveys of participants
child advocates of Placer County	$11,250	Grant partially funded connecting 30 families, of which 15 were from Roseville, with resources (Dept of Rehabilitation, Roseville Adult School, Employment Services, etc.) and funding for rent, utilities and medical expenses	Intake and retrospective surveys

ORGANIZATION	GRANT FUNDS USED	ACCOMPLISHMENTS	SUCCESS MEASURES
KEATON'S Child Cancer Alliance	$30,000	Grant partially funded navigation assistance to 120 Roseville residents (patients & family members) to help them access resources and peer support for childhood cancer	Increased access to care and improved patient care
Lighthouse Counseling & Family Resource Center	$25,000	Provided counseling services to 41 Roseville residents	Evidence-based measurement including pre/post surveys, assessment scales and self-reports
The Petal Connection	$10,000	Grant funded delivery of nearly 1,000 bouquets with meals to Roseville seniors	Success Measures: Phone calls and notes received from recipients
CHAPLAIN LAW ENFORCEMENT CHAPLAINCY STATE OF CALIFORNIA PLACER COUNTY	$12,000	Grant partially funded the volunteer chaplains who responded to over 36 calls for service to assist Roseville citizens for incidents such as suicides, death notifications, traffic fatalities and homicides as well as ride along check-ins with Roseville Police officers	Hugs, tears and appreciation expressed by law enforcement personnel and being consistently requested whenever there is a need
PLACER FOOD BANK Nourishing Communities. Ending Hunger.	$20,000	Grant partially funded serving Roseville students and residents 127,721 lbs of perishable and non-perishable food	Number of people served and amount of food distributed
PIRS	$2,075	Grant funded equipment for six adults with disabilities from across Placer County	Through clients' independence to move from bed, shower and toilet and their ease in being able to leave home with the aid of a ramp
PLACER VETERANS STAND DOWN FREE to all Vets & their spouses and children	$10,000	Grant partially funded services to host a one-day event to provide clothing and health care education to veterans as well as support through the "Adopt-a-Vet" program	Increase in the quality of life for veterans supported
ROSEVILLE POLICE RPAL POLICE ACTIVITIES LEAGUE	$16,668	Grant partially funded a six-week summer program for 71 Roseville students	Pre- and post- surveys of participants

ORGANIZATION	GRANT FUNDS USED	ACCOMPLISHMENTS	SUCCESS MEASURES
Seniors First™ Keeping Seniors Independent	$13,400	Grant partially funded home-delivered meals to 279 Roseville seniors	Number of participants served and client surveys
Sierra College Foundation scf	$20,500	Provided 257 Care Packs to at-risk college students including 38% former foster youth and 62% underserved students	Student persistence/graduation rates
St. Vincent de Paul Preventing Hunger and Homelessness Since 1983	$30,000	Grant partially funded the food locker program which served 1,255 households from across Placer County of which 68% live in Roseville	Annual survey of clients
STAND UP PLACER EMPOWERING SURVIVORS. SAVING LIVES.	$27,000	Grant provided partial funding for 903 Roseville residents with 16,830 services including crisis intervention, temporary restraining orders and therapy sessions	Client data and anecdotal stories, ability to meet emergency needs, and number of client served
the gathering inn providing a hand up, not a handout	$39,375	Grant partially funded services to 257 unduplicated guests from across Placer County of which 87% are from Roseville, and 13,717 bed nights of care; also partially funded two new positions: Housing Coordinator and Data Systems Manager	Number of guests served and number who find employment, connections to benefits including mental health & sobriety programs, and placement to permanent supportive housing
TOMMY APOSTOLOS FUND	$14,000	Grant funded $170 in clothing (excluding discounts) for each of 100 children in need of which 95% were from Roseville	Number of children helped, value of clothing provided and whether families felt safe participating
wellness within CANCER SUPPORT SERVICES	$17,500	Grant partially funded over 200 online support classes, podcasts and video resources for over 13,500 individuals facing cancer of which over 700 were from Roseville; some resources were available in Spanish as well as English	User growth and engagement, online responses from clients, and feedback from hospital staff who assisted with programming

Title: Appointment of Youth Board Member and Youth Commissioners
Contact: Katrina Six 916-774-5267 kmsix@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 7.27.

RECOMMENDATION TO COUNCIL

Appoint Ryan Leung as the Grants Advisory Commission Youth Commissioner to a term ending December 31, 2022.

Appoint Amre Abunmarkhieh as the Library Board Youth Member to a term ending December 31, 2022.

Appoint Tanvi Panchal as the Parks and Recreation Commission Youth Commissioner to a term ending December 31, 2022.

Appoint Marissa Laucirica as the Transportation Commission Youth Commissioner to a term ending December 31, 2022.

BACKGROUND

The Municipal Code allows for the opportunity for high school students to serve a one-year term on the Grants Advisory Commission, Library Board, Parks and Recreation Commission, and Transportation Commission. The terms of Youth Commissioners are one year and expire every year on December 31.

Recruitment of Youth Commissioners was conducted by the City Clerk's Department in October. The opportunity to serve as a Youth Commissioner was advertised on the City website and with the Press Tribune. Counselors and administrators at the City's high schools were also notified of the City's recruitment efforts.

Review of the applications and interviews of the applicants were completed by the Boards and Commissions in November. Staff is now requesting City Council approve the recommended appointments.

FISCAL IMPACT

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The appointment of members to boards or commissions does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Title:	Street Name Change - Sierra Glen Drive to Nicole Gee Drive
Contact:	Scott Miller 916-774-5491 smiller@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 8.1.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve a street name change in the Sierra Vista Specific Plan from “Sierra Glen Drive” to “Nicole Gee Drive.”

BACKGROUND

Landowners Westpark Communities and Mourier Land Investment Corporation in the Sierra Vista Specific Plan area have requested to rename Sierra Glen Drive to Nicole Gee Drive. Sierra Glen Drive is an east-west roadway connecting Upland Drive and Westbrook Boulevard.

Nicole Gee was a Sergeant in the United States Marine Corps and a former resident of Roseville. She was killed while helping with evacuation efforts at Kabul International Airport in Afghanistan. Westpark Communities and Mourier Land Investment Corporation would like to honor her service and life by renaming this shared roadway through their respective neighborhoods.

This roadway is not under construction yet, so no homes or businesses are located on this roadway that would further complicate a street name change.

FISCAL IMPACT

There is no impact to the City’s General Fund as part of this action. All costs will be recovered from the project developer.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

Title: Local Road Safety Plan
Contact: Jana Cervantes 916-746-1300 jcervantes@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 8.2.

RECOMMENDATION TO COUNCIL

Staff recommends the City Council adopt a resolution to approve the Local Road Safety Plan.

BACKGROUND

In March of 2020, Council adopted a resolution to authorize the execution of a program supplemental agreement to receive funding from the California Department of Transportation (Caltrans) for the development of a Local Road Safety Plan (LRSP). The LRSP provides the framework for local stakeholders to identify, analyze, and prioritize roadway safety improvements within the City. The plan identifies goals, objectives, and strategies to reduce collisions focusing most importantly on reducing fatalities and the most serious injury collisions. The City builds upon the safety practices that have led to prioritizing traffic safety across its road network in this LRSP by identifying areas of emphasis and systemic recommendations that can be implemented. In addition, the LRSP will soon be a requirement for several state and federal transportation safety grant applications the City may want to pursue for various transportation projects in the future.

The development of the City's LRSP included establishing a stakeholders group that was comprised of a multidisciplinary team that included representatives from City Council, Public Works, Electric, Police, Fire, and more. The stakeholders developed a vision and set of goals which focuses on reducing the number of serious and fatal collisions within the City of Roseville. The development process for the LRSP included data analysis, review of existing City transportation plans and policies, upcoming CIP projects, site specific visits, and countermeasure evaluation. The project analysis identified locations with crash patterns or high-crash severities and their proposed countermeasures. The countermeasures chosen are based on their calculated Crash Modification Factor, Crash Reduction Factor, and their effectiveness in reducing crashes including pedestrian, bicycle, and nighttime crashes.

The implementation of the LRSP will consist of continued collaboration with stakeholders to identify funding and grant opportunities to accelerate the implementation of the plan's proposed safety improvements. In addition, the City will routinely update the LRSP, continue to monitor safety and collision trends on City roads, and will evaluate the effectiveness of implemented transportation safety programs and improvements with the goal of continuously improving the

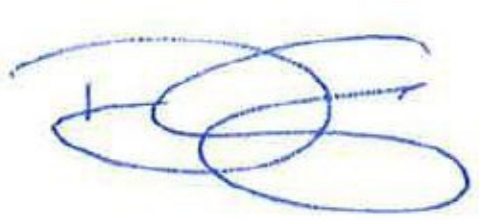
safety of Roseville's transportation network.

FISCAL IMPACT

The cost of the City's Local Road Safety Plan was $151,000 including staff time and professional services and was funded by $119,700 in Caltrans grant funding, and $31,300 in Highway User Tax funding. No General Fund resources were used for the project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of the City's Local Road Safety Plan meets the above criteria and no additional environmental review is required.



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community
Goal E - Deliver exceptional city services
Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Jana Cervantes, Senior Engineer

Jason Shykowski, Public Works Director

Description

Resolution 21-485

Local Road Safety Plan

RESOLUTION NO. 21-485

ADOPTING THE LOCAL ROAD SAFETY PLAN

WHEREAS, in March of 2020, Council adopted a resolution to authorize the execution of a program supplemental agreement to receive funding from the California Department of Transportation (Caltrans) for the development of a Local Road Safety Plan (LRSP); and

WHEREAS, the development of the City's LRSP included establishing a stakeholders group that was comprised of a multidisciplinary team that included representatives from City Council, Public Works, Electric, Police, Fire, and more; and

WHEREAS, the development process for the LRSP included data analysis, review of existing City transportation plans and policies, upcoming CIP projects, site specific visits, and countermeasure evaluation; and

WHEREAS, the project analysis identified locations with crash patterns or high-crash severities and their proposed countermeasures; and

WHEREAS, the countermeasures chosen are based on their calculated Crash Modification Factor, Crash Reduction Factor, and their effectiveness in reducing crashes including pedestrian, bicycle, and nighttime crashes; and

WHEREAS, the implementation of the LRSP will consist of continued collaboration with stakeholders to identify funding and grant opportunities to accelerate the implementation of the plan's proposed safety improvements; and

WHEREAS, City Council has reviewed the Local Road Safety Plan.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that the Local Road Safety Plan is hereby adopted.

PASSED AND ADOPTED by the Council of the City of Roseville this____day of _____, 20_, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

23 U.S.C. § 409: US Code

1. INTRODUCTION

The City of Roseville is the largest city in Placer County with a population of approximately 143,900 residents over a total area of 44 square miles. Roseville is the hub of South Placer County, which is one of the fastest growing regions in the state. The City's transportation network includes 485 centerline miles of City-maintained roads and 186 traffic signals, the majority of which are located on key arterial and collector roadways.

This Local Roadway Safety Plan (LRSP) identifies emphasis areas to inform and guide further safety evaluation of the City's transportation network. The emphasis areas include type of crash, certain locations, and notable relationships between current efforts and crash history. The LRSP analyzes crash data on an aggregate basis as well as at specific locations to identify citywide trends, high-crash locations, high-risk locations, and locations with unusual crash patterns or high-crash severities. The analysis of crash history throughout the City's transportation network allows for opportunities to:

- Identify safety factors in the transportation network that may be challenging for all roadway users
- Improve safety at specific high-crash locations
- Develop safety measures aligning with the California Strategic Highway Safety Plan (SHSP) Five Es of safety: Engineering, Enforcement, Education, Emergency Services, and Emerging Technologies, to encourage safer driver behavior and reduce fatalities and serious injuries

The process and analysis performed in development of the City's LRSP, including establishing the initial vision and goals for the LRSP, performing crash history analysis, identification of emphasis areas and recommended engineering and non-engineering safety countermeasures are summarized in this LRSP. The information compiled will provide a foundation for decision making and prioritization for safety countermeasures and projects that enhance safety for all modes of travel within the City.

The City has taken steps to enhance multi-modal safety throughout the City and through this LRSP, is continuing to make safety a priority in its planning processes. The City builds upon the safety practices that have led to prioritizing traffic safety across its road network in this LRSP by identifying areas of emphasis and systemic recommendations that can be implemented to further enhance safety. This LRSP analyzes the most recent range of crash data that was available at the start of the project (January 1, 2015 – December 31, 2019) and roadway improvements to assess historic trends, patterns, and areas of increasing concern.

The intent of the LRSP is to:

- Create a greater awareness of road safety and risks
- Reduce the number of fatal and severe-injury crashes
- Develop lasting partnerships through collaboration among professionals in various disciplines
- Support for grant/funding applications
- Assist in prioritizing investments in traffic safety

23 U.S.C. § 409: US Code

1.1. Document Organization

The LRSP is organized into the following sections:

- **Section 1** provides an introduction to the LRSP.
- **Section 2** presents the vision, goal, and objectives for the LRSP.
- **Section 3** summarizes the LRSP development process including guidance documents and analysis techniques.
- **Section 4** presents the project stakeholders and stakeholder engagement.
- **Section 5** summarizes the review of City planning documents.
- **Section 6** contains the LRSP data sources.
- **Section 7** provides a summary of safety trends.
- **Section 8** includes recommended engineering and non-infrastructure countermeasures.
- **Section 9** summarizes the evaluation and implementation of the safety countermeasures.
- **Section 10** identifies next steps**.**
- **Appendices**

23 U.S.C. § 409: US Code

2. VISION, GOAL, AND OBJECTIVES

The Roseville LRSP evaluates the transportation network as well as non-infrastructure programs and policies within the City. Mitigation measures are evaluated using criteria to analyze the safety of road users (drivers and passengers, bicyclists, and pedestrians), the interaction of travel modes, and the potential benefits of safety countermeasures. This effort is intended to use historical data to identify trends and develop a toolbox of countermeasures applicable to conditions in the City that can be used for proactive identification and implementation of opportunities, without relying solely on a reaction and response to crashes as they occur.

The Federal Highway Administration (FHWA) maintains a list of Proven Safety Countermeasures. The list currently has 20 Proven Safety Countermeasures, and LRSPs are included on the list of 20 Proven Safety Countermeasures. Implementation of LRSPs has improved safety in local jurisdictions across the country by providing a guide for local jurisdictions to systemically address the conditions that lead to fatal and severe-injury crashes. They provide a locally developed and customized roadmap to directly address the most common safety challenges in the given jurisdiction.

Following discussions with Roseville staff and a review of existing plans and policies for the area, the following Vision, Goal, and Objectives have been established for this LRSP.

Vision:	**Support the California vision of moving towards significantly reducing fatalities and serious injuries for all road users**
Goal:	Identify transportation safety initiatives (projects and programs) and partnerships to continue reducing fatalities and serious injuries in Roseville.
Objectives:	▪ Identify major contributing factors to crashes and define priority locations for safety improvements. ▪ Identify cost-effective countermeasures and safety investments that can be applied systemically (i.e., retroreflective backplates, leading pedestrian interval, etc.) ▪ Promote safe, equitable, and multimodal mobility opportunities ▪ Document Roseville's procedures for on-going crash data monitoring

23 U.S.C. § 409: US Code

3. PROCESS

The primary goal of the City of Roseville and its stakeholders is to provide safe, sustainable, and efficient mobility choices for their residents and visitors. The City will continue its collaboration with stakeholders to identify and discuss safety issues within the community through the development of the LRSP and its implementation.

Guidance on the LRSP process is provided at both the national (FHWA) and California Department of Transportation (Caltrans) level. Both agencies have developed a general framework of data and recommendations to be included in a LRSP.

The FHWA encourages:

- The establishment of a working group (Stakeholders) to participate in developing an LRSP
- Review crash, traffic, and roadway data to identify areas of concern
- Establish goals, priorities, and countermeasures to recommend improvements at spot locations, systemically, and comprehensively

Caltrans guidance follows a similar outline with the following steps:

- Establish leadership
- Analyze the safety data
- Determine emphasis areas
- Identify strategies
- Prioritize and incorporate strategies
- Evaluate and update the LRSP

This LRSP documents the results of data and information obtained, including the vision, goal, and objectives for the LRSP; existing safety efforts; collision analysis; emphasis areas; and project sheets for priority locations. Furthermore, the development of the LRSP recommendations considers the Five Es of traffic safety defined by the California SHSP: Engineering, Enforcement, Education, Emergency Response, and Emerging Technologies throughout its process.

3.1. Guiding Manuals

The following section describes the analysis process undertaken to evaluate safety within the City at a systemic level. Using a network screening process, locations within the City that will most likely benefit from safety enhancements were identified. Using historic crash data, crash risk factors for the entire network are derived. The outcomes inform the identification and prioritization of engineering and non-infrastructure safety countermeasures that address certain roadway characteristics and related behaviors that contribute to motor vehicle crashes as well as active transportation users.

This process uses the latest National and State best practices for statistical roadway analysis described in the following sections.

23 U.S.C. § 409: US Code

3.1.1. Local Roadway Safety: A Manual for California's Local Road Owners

The Local Roadway Safety: A Manual for California's Local Road Owners (Version 1.5, April 2020) (LRSM) purpose is to encourage local agencies to pursue a proactive approach to identifying and analyzing safety issues, while preparing to compete for project funding opportunities. A proactive approach is defined as analyzing the safety of the entire roadway network through either a one-time, network wide analysis, or by routine analyses of the roadway network.

According to the LRSM, "The California Department of Transportation (Caltrans) – Division of Local Assistance is responsible for administering California's federal safety funding intended for local safety improvements."

To provide the most benefit and to be competitive for funding, the analysis leading to countermeasure selection should focus on both intersections and roadway segments and be considerate of roadway characteristics and traffic volumes. The result should be a list of locations that are most likely to benefit from cost-effective countermeasures, preferably prioritized by benefit/cost ratio (BCR). The LRSM suggests using a mixture of quantitative and qualitative measures to identify and rank locations that considers both crash frequency and crash rates. These findings should then be screened for patterns such as crash types and severity to aid in the determination of issues causing higher numbers of crashes and the potential countermeasures that could be most effective. Qualitative analysis should include field visits and a review of existing roadway characteristics and devices. The specific roadway context can then be used to assess what conditions may increase safety risk at the site and systematic level.

Countermeasure selection should be supported using Crash Modification Factors (CMFs). These factors are the peer reviewed product of before and after research that quantifies the expected rate of crash reduction that can be expected from implementation of a given countermeasure. If more than one countermeasure is under consideration, the LRSM provides guidance on how to apply CMFs appropriately.

3.1.2. Highway Safety Manual

The American Association of State Highway and Transportation Officials (AASHTO) Highway Safety Manual (HSM), published in 2010, presents a variety of methods for quantitatively estimating crash frequency or severity at a variety of locations. This four-part manual is divided into Parts: A) Introduction, Human Factors, and Fundamentals, B) Roadway Safety Management Process, C) Predictive Method, D) Crash Modification Factors.

Chapter 4 of Part B of the HSM discusses the Network Screening process. The Network Screening Process is a tool for an agency to analyze their entire network and identify/rank locations that, based on the implementation of a countermeasure, are most likely to least likely realize a reduction in the frequency of crashes.

The HSM identifies five steps in this process:

1. **Establish Focus:** Identify the purpose or intended outcome of the network screening analysis. This decision will influence data needs, the selection of performance measures and the screening method that can be applied.
2. **Identify Network and Establish Reference Populations:** Specify the types of sites or facilities being screened (i.e., segments, intersections, geometrics) and identify groupings of similar sites or facilities.

23 U.S.C. § 409: US Code

3. **Select Performance Measures:** There are a variety of performance measures available to evaluate the potential to reduce crash frequency at a site. In this step, the performance measure is selected as a function of the screening focus and the data and analytical tools available.
4. **Select Screening Method:** There are three principal screening methods described in this chapter (i.e., ranking, sliding window, peak searching). Each method has advantages and disadvantages; the most appropriate method for a given situation should be selected.
5. **Screen and Evaluate Results:** The final step in the process is to conduct the screening and analysis and evaluate the results.

The HSM provides several statistical methods for screening roadway networks to identify high risk locations based on overall crash histories. In addition to identifying the total number of crashes, this LRSP uses a method referred to as Critical Crash Rate (CCR) to analyze the data.

3.2. Analysis Techniques

3.2.1. Crash and Network Screening Analysis

Intersections and roadways were analyzed using four crash metrics:

- Number of Crashes
- CCR (HSM Ch. 4)
- Probability of Specific Crash Types Exceeding Threshold Proportion (HSM Ch. 4)
- Equivalent Property Damage Only (HSM Ch. 4)

The initial steps of the crash analysis established sub-populations of roadway segments and intersections that have similar characteristics. For this LRSP, intersections were grouped by their control type (Signalized and Unsignalized) and segments by their roadway category (Arterial, Collector, Minor Collector, and Local). Individual crash rates were calculated for each sub-population. The population level crash rates were then used to assess whether a specific location has more or fewer crashes than expected. These sub-populations were also used to determine typical crash patterns to help identify locations where unusual numbers of specific crash types are occurring.

The network screening process ranks intersections and roadway segments by the number of crashes that occurred at each one over the analysis period, and then identifies areas that had more of a given type of crash than would be expected for that type of location. These crash type factors were:

- Crash severity - fatal, serious injury, other visible injury, complaint of pain, and property damage only (PDO)
- Crash type - broadside, rear-end, sideswipe, head-on, hit object, overturned, bicycle, pedestrian, and other
- Environmental factors – lighting and wet roads
- Driver behavior - impaired, aggressive, and distracted driving

From the results of the network screening analyses, a short-list of locations was chosen based on crash activity, CCR, crash severity, crash patterns, location type, and area within the City to provide the greatest variety of locations covering the widest range of safety opportunities for toolbox development. **The intent is to populate the safety toolbox with mitigation measures that will be applicable to most of the crash activity in the City.**

23 U.S.C. § 409: US Code

3.2.2. Critical Crash Rate (CCR) Analysis

Reviewing the number of crashes at a location is a good way to understand the cost to society incurred at the local level but does not provide a complete indication of the level of risk for those who use that intersection or roadway segment on a daily basis. The HSM describes the CCR method, which provides a statistical review of locations to determine where risk is higher than that experienced by other similar locations. It is also the first step in analyzing for patterns that may suggest systemic issues that can be addressed at that location, and proactively at others to prevent new safety challenges from emerging.

The CCR compares the observed crash rate to the expected crash rate at a particular location based on facility type and traffic volume using a locally calculated average crash rate for the specific type of intersection or roadway segment being analyzed. Based on traffic volumes and a weighted citywide crash rate for each facility type, a critical crash rate threshold is established at the 95% confidence level to determine locations with higher crash rates that are unlikely to be random. The threshold is calculated for each location individually based on its traffic volume and the crash profile of similar facilities.

Critical Crash Rate Formula

$$R_{c,i} = R_a + \left[P \times \sqrt{\frac{R_a}{MEV_i}}\right] + \left[\frac{1}{(2 \times (MEV_i))}\right]$$

Where,

$R_{c,i}$ = Critical crash rate for intersection i

R_a = Weighted average crash rate for reference population

P = P-value for corresponding confidence level

MEV_i = Million entering vehicles for intersection i

Source: Highway Safety Manual

Data Needs

CCR is calculated using:

- Daily Entering Volume (DEV) for intersections, or Vehicle Miles Traveled (VMT) for roadway segments
- Intersection control types to separate them into like populations
- Roadway functional classification to separate them into like populations
- Crash records in Geographic Information Systems (GIS) or tabular form including coordinates or linear measures

Strengths

- Reduces low volume exaggeration
- Considers variance
- Establishes comparison threshold

23 U.S.C. § 409: US Code

3.2.3. Probability of Specific Crash Types Exceeding Threshold Proportion

When analyzing crash data systematically, it is important to identify areas where certain types of crashes are occurring with greater frequency. The HSM describes a method of identifying locations where probability of a specific crash type exceeds the threshold population. This method prioritizes locations based on the probability that the true proportion (long-term predicted proportion) of a type of crash or injury level will exceed the threshold proportion. The threshold proportion is based on the proportion of a specific crash type/severity to all crashes within the dataset (HSM, Chapter 4). This analysis identifies locations where certain crash types are over-represented to be isolated for further analysis.

3.2.4. Equivalent Property Damage Only (EPDO)

The EPDO method is described in the HSM. This method assigns weighting factors to crashes based on injury level (severe, injury, property damage only) to develop a property damage only score. In this analysis, the injury crash costs were calculated for each location (based on the latest Caltrans injury costs). This value is then divided by the injury cost for a property damage only crash. The resulting number is the equivalent number of property damage only crashes at each site. This value allows all locations to be compared based on injury crash costs (HSM, Chapter 4).

23 U.S.C. § 409: US Code

4. STAKEHOLDER ENGAGEMENT

As part of the LRSP, local stakeholders were included in the process to ensure local perspective was kept at the forefront of this planning effort. A stakeholder group comprised of City staff and external stakeholders was formed. This group consisted of elected officials, members of City staff, representatives from the Roseville Police Department and Roseville Fire Department.

The stakeholders were called together to offer insight on the safety concerns present in the City's transportation network. After the initial network screening and safety analysis, the stakeholder group met in the field to observe 10 "priority" locations and discuss potential countermeasures. The summary of the stakeholder meetings are outlined below.

4.1. Stakeholder Meetings

A project stakeholder workshop was conducted virtually on February 16, 2021. At the meeting, the LRSP stakeholder group was introduced to the project and provided an overview of the data used, data analysis approach, preliminary results and priority/emphasis areas.

In addition to the LRSP overview, stakeholders were asked to provide local insight and knowledge at 20 "priority" locations that were identified after the initial network screening and crash analysis process.

The stakeholder group met in the field on March 25, 2021, at 10 "priority" locations selected based on the crash analysis and stakeholder input. This meeting provided an opportunity to perform a field assessment and offer another opportunity to solicit feedback from members of the multidisciplinary stakeholder group. Potential safety countermeasures for each location were recommended and discussed at the field review meeting.

23 U.S.C. § 409: US Code

5. REVIEW OF CITY PLANNING DOCUMENTS

Existing plans, policies, and projects that were recently completed, planned, or are on-going within the City were compiled at the start of the LRSP process to gain perspective on the existing efforts for transportation-related improvements within the City. High-level key points regarding transportation improvements and safety-related topics were identified to inform decision making in this LRSP.

The following planning documents were reviewed to obtain planned and programmed projects:

- Bicycle Master Plan, 2008
- Pedestrian Master Plan, 2011
- General Plan – Circulation Element, 2020
- Creekview Specific Plan, 2012
- Amorouso Ranch Specific Plan, 2016
- Sierra Vista Specific Plan, 2012
- Annual Budget 2020-21: Capital Improvement Projects, 2020/2021
- Blueprint Transportation/Land Use Study, 2005
- Oak Ridge Drive Bridge Replacement Project, 2021
- Roseville Parkway Extension Project, Current
- Washington/Andora Widening Project, Current
- Roseville Downtown Bridges, 2019
- Resurfacing Plan, 2020-2023 (bi-yearly)
- Metropolitan Transportation Plan/Sustainable Communities Strategy, 2020
- Sacramento Region Blueprint, 2004
- Regional Bicycle, Pedestrian, and Trails Master Plan, 2015
- 2040 Regional Transportation Plan, 2019
- Roseville Transit Short-Range Transit Plan, 2018-2025
- Placer County Short-Range Transit Plan
- Regional Bikeway Plan, 2018
- ITS Master Plan Update, 2020
- Pleasant Grove Widening (Washington to Woodcreek), Current
- Roseville Parkway Widening (Pleasant Grove to I-80), Current
- Vernon Street/Atlantic RAB (Future)
- Planned/Future FYA Deployments

A matrix identifying plans and improvements is included in **Appendix A**. The intent of this matrix is to provide an idea of the types of strategies in place or encouraged by the City and to reveal projects that may impact the safety analysis process.

In addition to reviewing planning documents, the City also provided their current policies related to various safety countermeasures. These policies are included in **Appendix B**.

23 U.S.C. § 409: US Code

6. DATA SOURCES

The following data was obtained from the City for use in crash data analysis.

6.1. Roadway Network

The collision analysis, which is described in detail in **Section 3**, requires each corridor within the City to be classified. The City's roadway network was categorized using the City's roadway classification system. The roadway network classification was assigned to each corridor roadway segment as either a major arterial, minor arterial, collector, and residential road to compare the functional design and capacity to better stratify analysis results, only comparing roadway segment safety performance with similar peer roadways (i.e., only major arterials are compared to major arterials).

6.2. Intersections

The crash analysis also required each intersection within the City to be classified by control type. Intersections throughout the City were classified by control type as either signalized or unsignalized. The safety analysis also only compared intersection safety performance with similar control types (i.e., signalized intersections are only compared to signalized intersections) within the City.

6.3. Crashes

Crash data for the most recent five-year period (January 1, 2015 through December 31, 2019) was used for the crash analysis. Using data for the past five-year period is sufficient to identify potential trends in crashes by location and types, while not being so long as to have data that would include long-term technology and cultural changes. The crash data was obtained from Crossroads Software, which processes crash records from the Statewide Integrated Traffic Records System (SWITRS). Crossroads provides the most up-to-date law enforcement records and geocodes them into a GIS format that can be used in the network screening process. Crash records were allocated to intersections and the roadway network segments.

23 U.S.C. § 409: US Code

7. SAFETY TRENDS

The following sections contain the results of the analysis process which included evaluation of Roseville fatal and serious injury (K+SI) crashes to statewide K+SI crashes, among other evaluations including crash by severity level, cause, pedestrian, and bicycle crashes. Summary tables presenting the crash data analysis and network screening results for all intersections and roadway segments are provided in Appendix C and Appendix D, respectively.

7.1. Roseville K+SI Crashes Compared to Statewide K+SI Crashes

The California SHSP focuses on 16 challenge areas identified by the SHSP Executive Leadership and Steering Committees after an in-depth analysis of California K+SI crash data as well as an extensive statewide outreach process that involved hundreds of diverse traffic stakeholders around the state. Crashes can be attributed to 13 of the 16 challenge areas. **Table 1** contains a comparison of City K+SI crashes to the statewide K+SI crashes. Challenge areas where the City percentages were higher than the statewide percentages are noted in **Table 1**.

Table 1 – City K+SI Crashes Compared to Statewide K+SI Crashes

California SHSP Challenge Area	Roseville Comparison to Statewide Percentages	Roseville	California SHSP
Aggressive Driving	Higher	39.5%	33.1%
Aging Drivers (≥65)	Higher	19.5%	12.4%
Bicyclists	Lower	4.5%	8.3%
Commercial Vehicles	Lower	2.5%	6.4%
Distracted Driving	Higher	6.5%	5.0%
Impaired Driving	Higher	30.0%	25.1%
Intersections	Higher	25.5%	23.6%
Lane Departure	Lower	38.5%	43.3%
Motorcyclists	Lower	20.0%	21.0%
Occupant Protection (Seat Belts, Helmets, Child Seats)	Higher	15.5%	14.2%
Pedestrians	Lower	13.5%	19.2%
Work Zones	Higher	3.0%	1.4%
Young Drivers (15-20)	Higher	15.5%	13.1%

Source: Statewide Integrated Traffic Records System (2015 – 2019).
Notes:

1. *Percentages will not add up to 100%, as a fatality or serious injury could have involved multiple Challenge Areas (i.e., a young driver that was impaired and unrestrained)*
2. *California SHSP does not have reported crash data for the following three challenge areas: Driver Licensing, Emergency Response, and Emerging Technology*

23 U.S.C. § 409: US Code

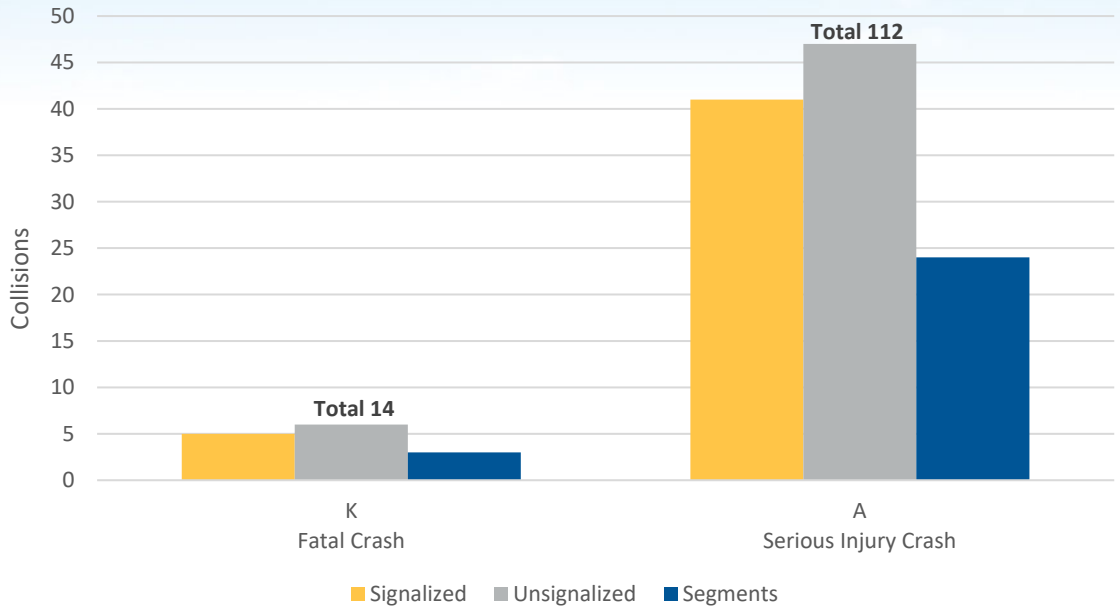
7.2. Severity Level

Knowing the impacts of the crash (the injuries or type of damage which occurred) is a key part of assessing the environment and safety factors around the site of the crash. Over the observed time period, there was a total of 14 fatal crashes and 112 crashes resulting in serious injuries, as shown in **Figure 1**. **Figure 2** presents crashes by severity resulting in non-incapacitating injuries, possible injuries, and no injury (PDO). **Table 2** below summarizes the crashes by severity for signalized intersections, unsignalized intersections, and segments.

The National Safety Council developed the "KABCO" injury scale, which is frequently used by law enforcement for classifying injuries:

- K – Fatal crash
- A – Serious injury crash
- B – Non-incapacitating injury crash
- C – Possible injury crash
- O – No injury (property damage only) crash

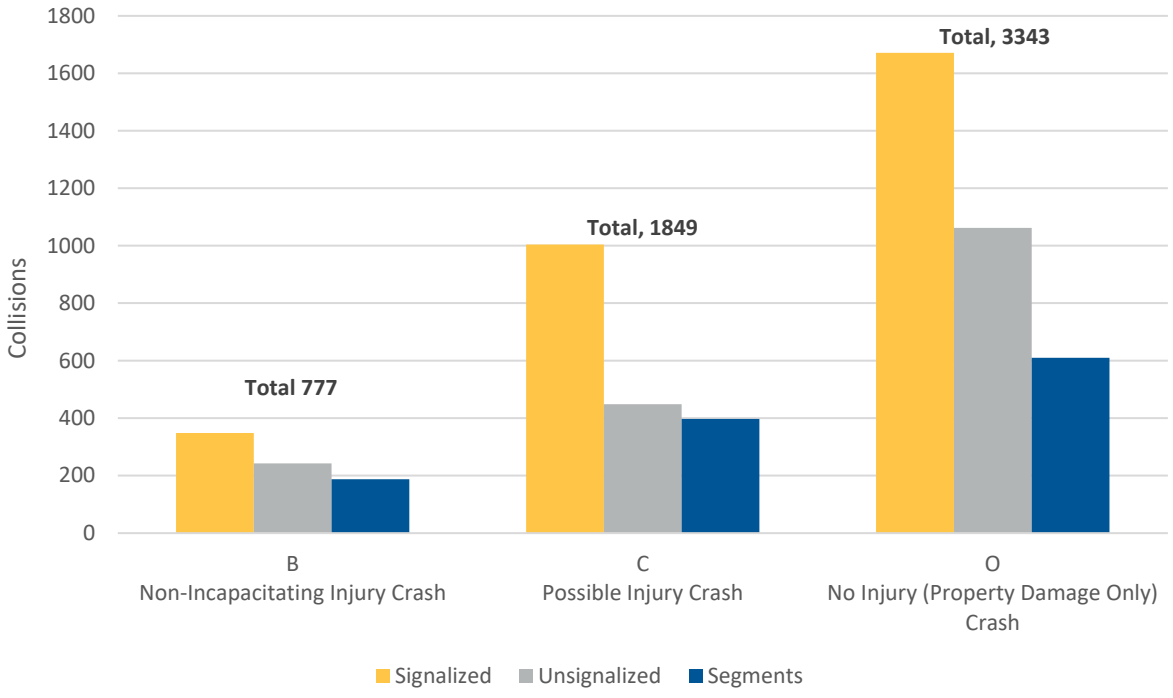
Table 2 – Crashes by Severity



Severity	Signalized Intersections		Unsignalized Intersections		Segments		Total	
	Collisions	%	Collisions	%	Collisions	%	Collisions	%
K	5	<1%	6	<1%	3	<1%	14	<1%
A	41	<1%	47	<1%	24	<1%	112	2%
B	348	6%	242	4%	187	3%	777	13%
C	1,004	17%	448	7%	397	7%	1,849	30%
O	1,671	28%	1,062	17%	610	10%	3,343	55%
Total	**3,069**	**50%**	**1,805**	**30%**	**1,221**	**20%**	**6,095**	**100%**

Source: Statewide Integrated Traffic Records System (2015 – 2019); processed by Crossroads.

As summarized in **Table 2**, a high proportion (80%) of crashes in the City over the five year period occurred at intersections. **Figure 3** illustrates the intersection K+SI crashes throughout the City.



23 U.S.C. § 409: US Code

Figure 1 – Crashes by Severity: KA

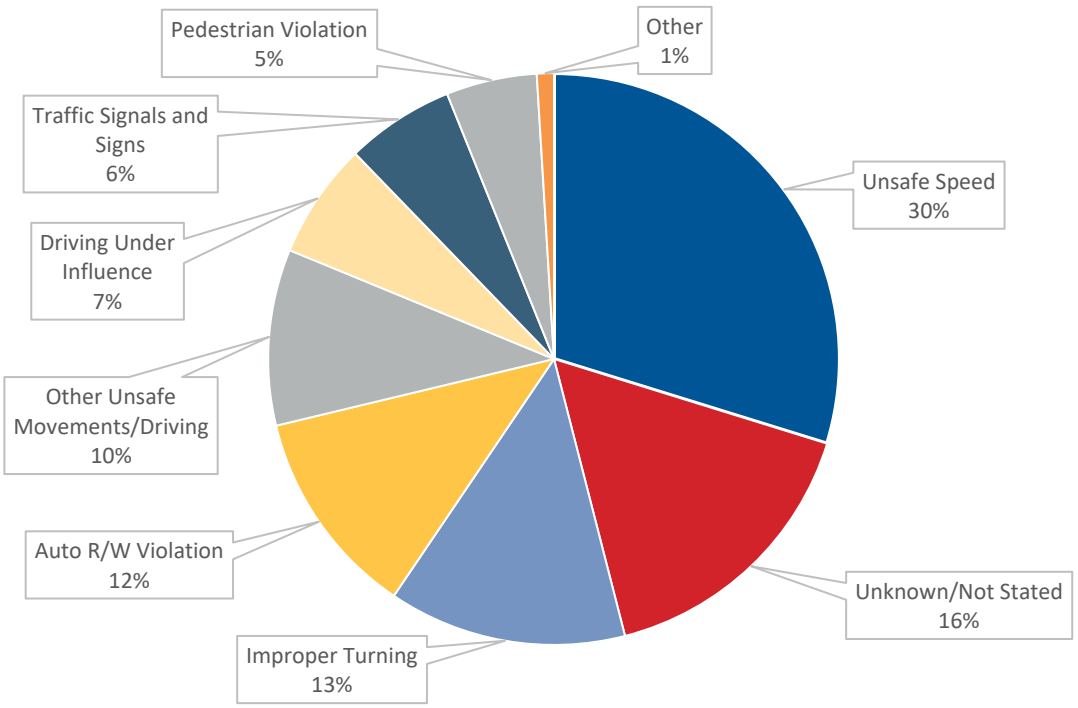
23 U.S.C. § 409: US Code

Figure 3 – Intersection K+SI Crashes Map



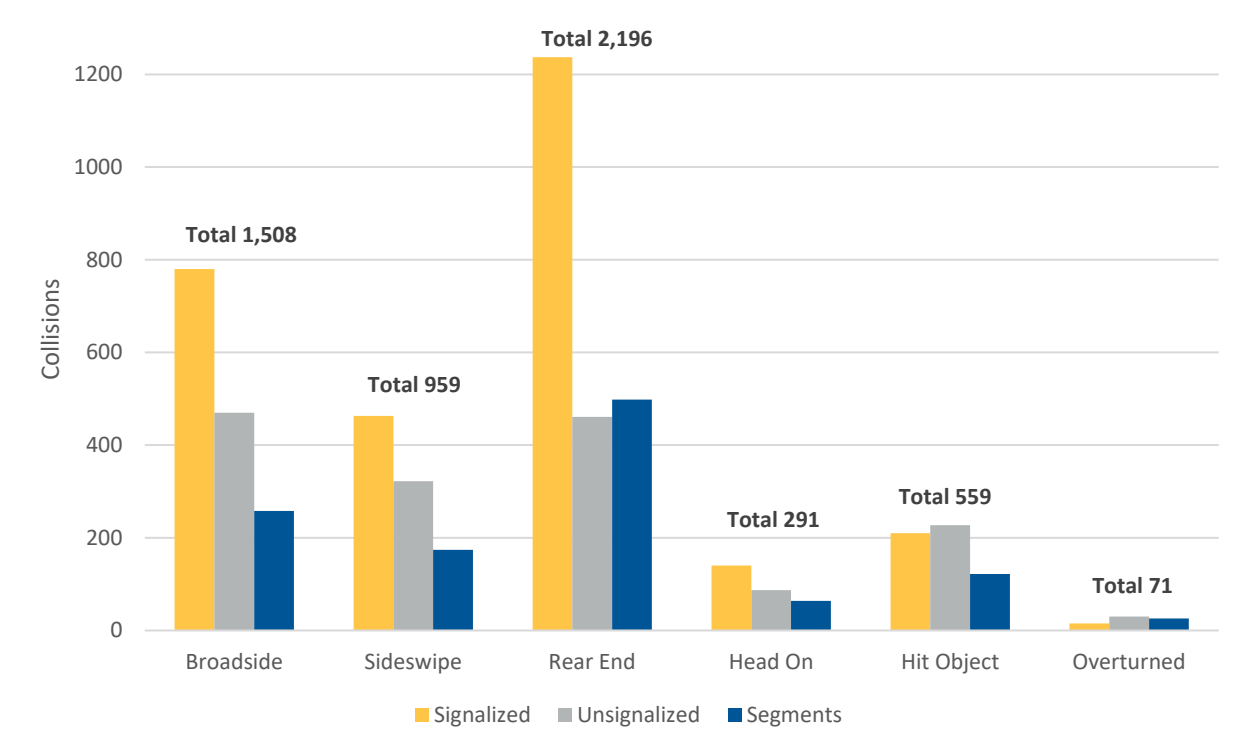
Source: Crossroads Collision Data (2015-2019)

23 U.S.C. § 409: US Code

7.3. Cause of Crash

As shown in **Figure 4**, the most frequent contributing factor as identified by the responding officer for collisions was unsafe speed (30%), followed by improper turning (13%), auto right-of-way (R/W) violation (12%), and other unsafe driving movements and maneuvers (10%). Sixteen percent of the collisions either did not have a contributing factor stated or were unknown. The remaining causes make up approximately 19% of all collisions. The remaining causes included driving under the influence (7%), traffic signals and signs (6%), pedestrian violations (5%), and other (1%).

Figure 4 – Crashes by Cause



Source: Statewide Integrated Traffic Records System (2015 – 2019); processed by Crossroads.

7.4. Highest Occurring Crash Types

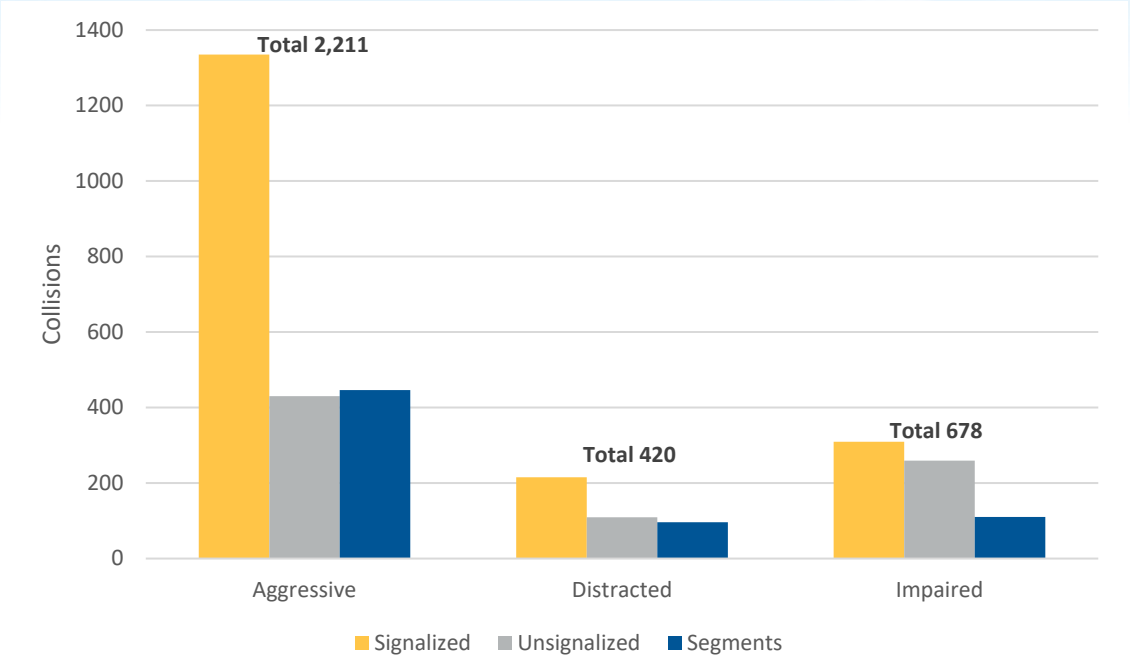
According to reported data, approximately 6,095 collisions occurred within the City of Roseville during the five-year study period. **Figure 5** indicates that rear end collisions are consistently the most common collision type within the City, making up 36% of all collisions. The second most common are broadside collisions, which make up 24% of all collisions. Within the City of Roseville, 15% of all reported collisions involved lane departures.

23 U.S.C. § 409: US Code

Figure 5 – Crashes by Type

Source: Statewide Integrated Traffic Records System (2015 – 2019); processed by Crossroads.

7.5. Lane Departure



Caltrans defines crashes involving lane departure as those with crash types listed as 'Head-On', 'Hit Object', or 'Overturned'. This also includes instances where a vehicle runs off the road or crosses into the opposing lane prior to the crash. There were 921 lane departure collisions over the study period, making up approximately 15% of all collisions in the City. Of the 921 lane departure collisions, 10 were fatal, 30 were reported with serious injury, 138 with visible injuries, and 190 with complaints of pain. Six of these collisions were not geolocated along a segment or intersection.

7.6. Aggressive, Impaired, and Distracted Crashes

Figure 6 contains a summary of aggressive, distracted, and impaired crashes by intersections and segments. Additional information is included in the following sections.

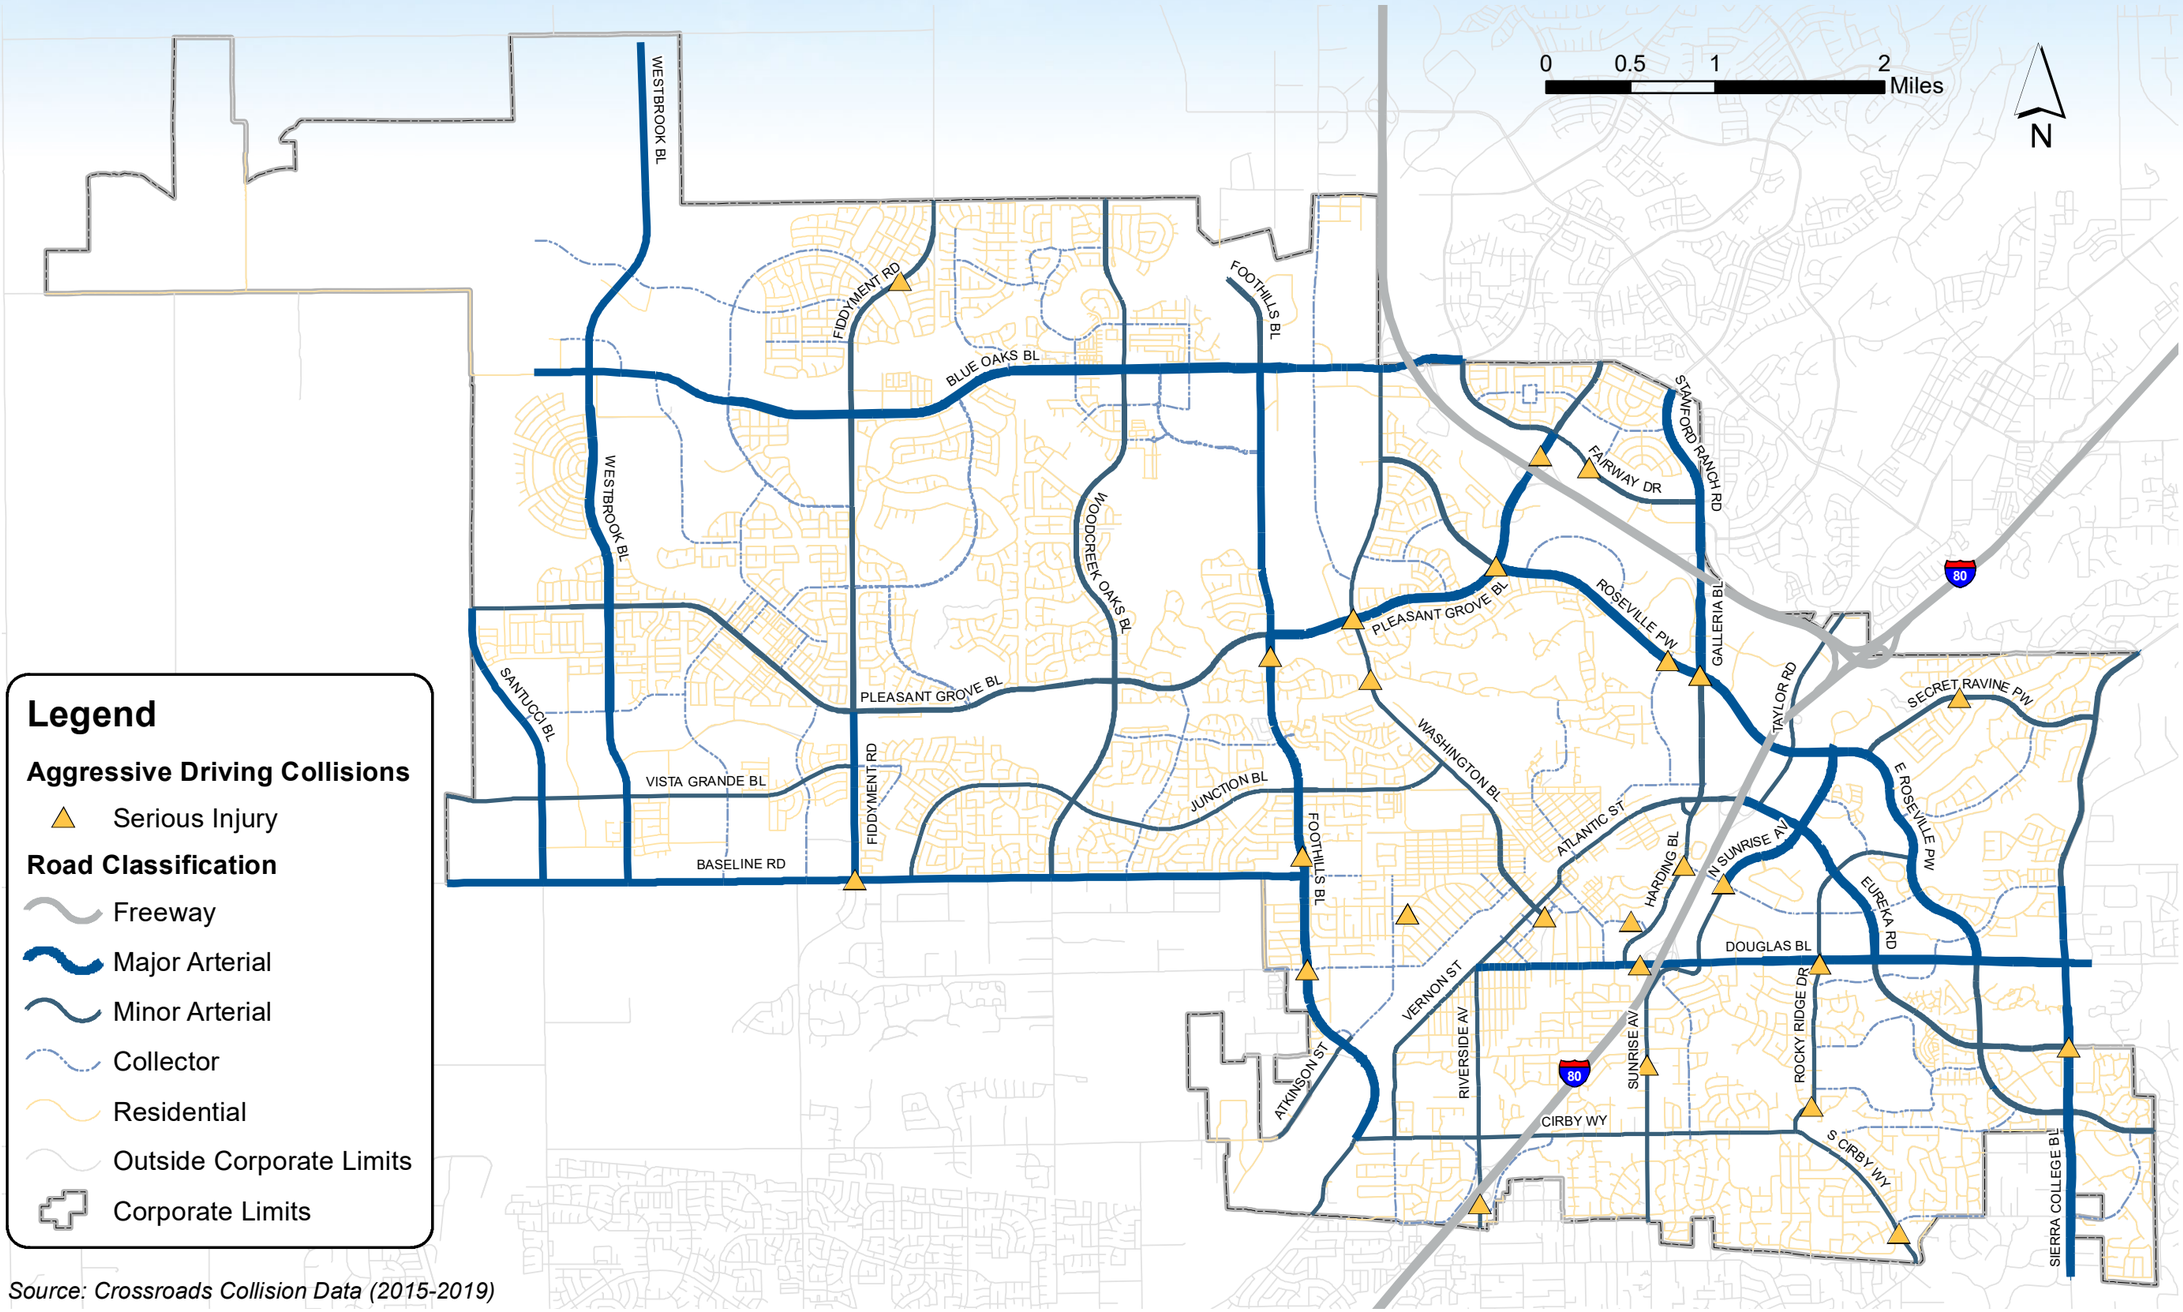
23 U.S.C. § 409: US Code

Figure 6 – Aggressive, Impaired, and Distracted Driving Crashes

Source: Statewide Integrated Traffic Records System (2015 – 2019); processed by Crossroads.

7.6.1. Aggressive Driving

The California SHSP data definition for aggressive driving is a collision where primary collision factor violation category is unsafe speed, following too closely, or traffic signals and signs or the other associated factor violation category is failure to heed stop signal, failure to heed stop sign, unsafe speed, reckless driving, or following too closely. There were 2,211 aggressive driving collisions between 2015-2019, accounting for 36% of collisions within the City of Roseville. **Figure 7** contains a figure of aggressive driving K+SI collisions within the City.



7.6.2. Impaired Driving

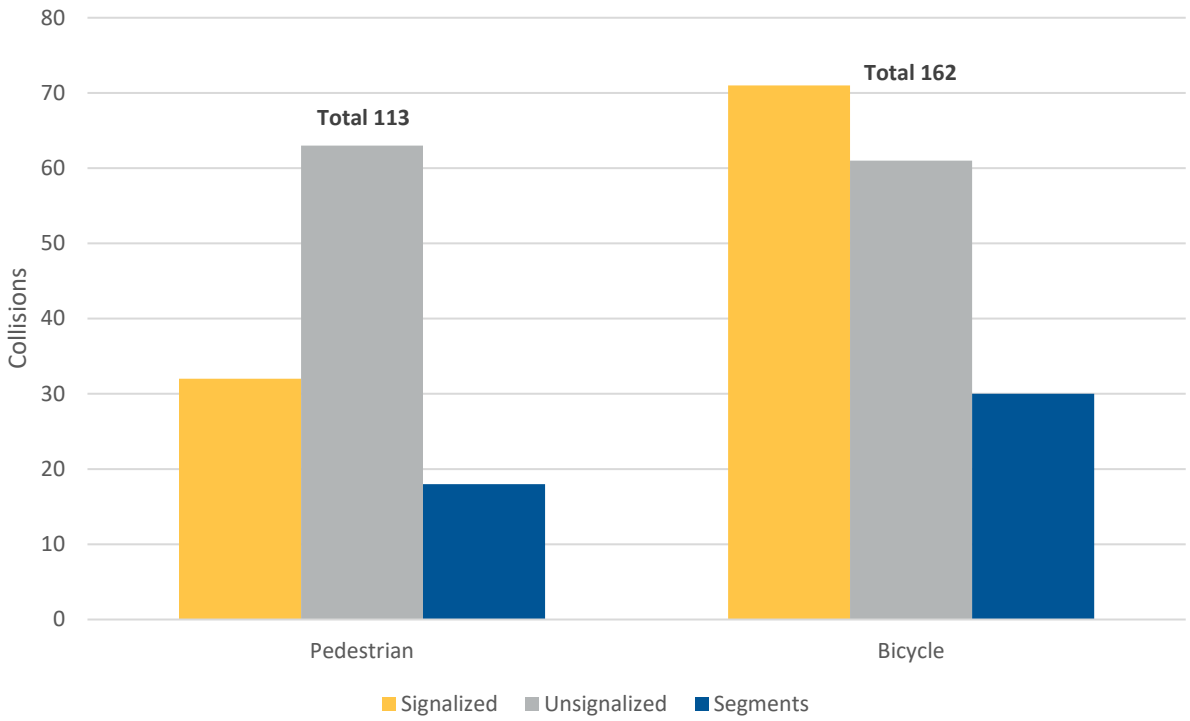
Collisions involving drugs or alcohol include all collisions where there was any evidence of drug or alcohol use by the driver. This is different from impaired driving statistics in that drivers do not need to exceed the legally defined threshold of intoxication to be counted. Caltrans considers any level of alcohol consumption to have the potential to impact driver responsiveness and decision making. Approximately 11% of collisions within City of Roseville were associated with alcohol or drugs. Ten of the collisions resulted in fatalities and 30 resulted in serious injuries. Furthermore, 10 of the 14 fatal collisions within Roseville during the study period involved impaired drivers. In the City of Roseville, collisions related to impaired driving represent approximately 30% of all fatal and serious injury collisions, which is more than the state average of 25%.

23 U.S.C. § 409: US Code

Figure 7 – Aggressive Driving K+SI Crashes Map

Source: Crossroads Collision Data (2015-2019)

23 U.S.C. § 409: US Code



7.6.3. Distracted Driving

Distracted driving is another newer challenge area within the SHSP that identifies collisions where the driver of a motor vehicle was not paying attention or using an electronic device. The SWITRS database includes an attribute for inattention as a factor in collisions. It also has a field for cell phone use. Both collisions with inattention and handheld cell phone use have been trending toward more occurrences in recent years. There were 420 distracted driving collisions between 2015-2019 accounting for 7% of collisions within the City of Roseville.

7.7. Bicycle and Pedestrian Crashes

As shown in **Figure 8**, the majority of bicycle and pedestrian crashes are occurring at intersections as opposed to roadway segments. Pedestrian crashes are more prevalent at unsignalized intersections and bicycle crashes are more prevalent at signalized intersections. **Figure 9** illustrates the locations of pedestrian and bicycle crashes within the City. Additional information on pedestrian and bicycle crashes is provided in the following sections.

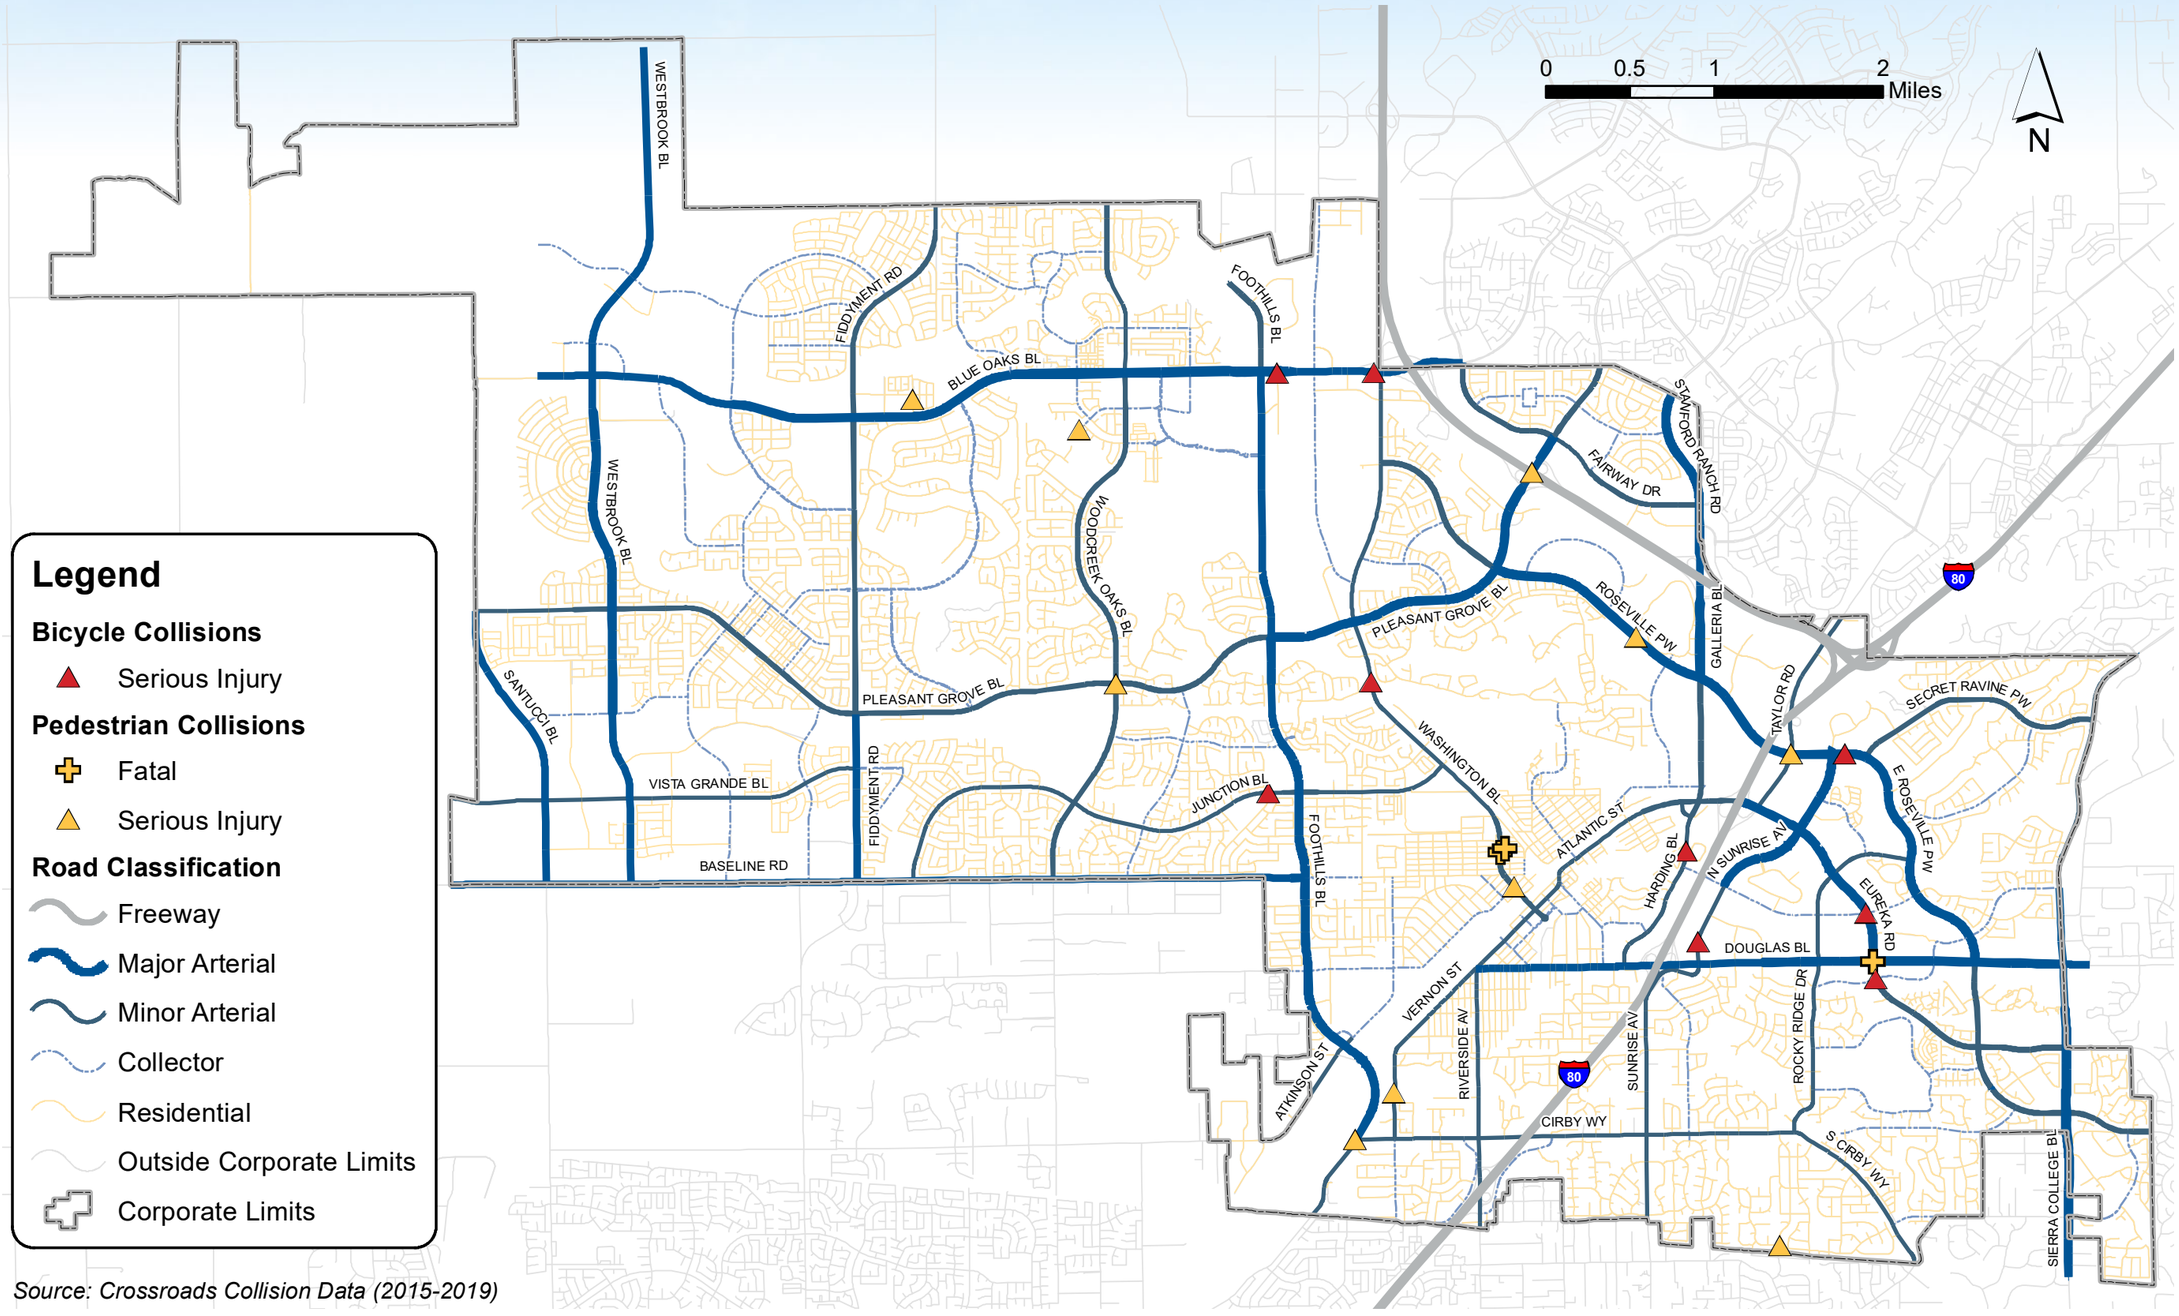
Figure 8 – Bicycle and Pedestrian Crashes

Source: Statewide Integrated Traffic Records System (2015 – 2019); processed by Crossroads.

7.7.1. Bicycle Crashes

There were 162 bicycle-involved collisions over the study period, making up 2.7% of all collisions in the City. Of the 162 bicycle-involved collisions, none were fatal, nine were reported with serious injury, 81 with visible injuries, and 46 with complaints of pain.

23 U.S.C. § 409: US Code



7.7.2. Pedestrian Crashes

Over the span of 2015-2019, a total of 113 pedestrian-involved collisions occurred, making up just over 1% of all collisions within the City. Of the 102 pedestrian-involved injury collisions, three were fatal, 10 were reported with serious injury, 50 with visible injuries, and 39 with complaints of pain.

23 U.S.C. § 409: US Code

23 U.S.C. § 409: US Code

8. RECOMMENDATIONS

The following sections provide more information on potential engineering and non-infrastructure safety countermeasures that are likely to address conditions that were observed to contribute to crash activity in the City.

8.1. Engineering Countermeasures

While there are many safety countermeasures that could be used to systemically improve roadway safety, the following sections provide countermeasures for consideration by the City of Roseville. The following sections contain a description of Crash Modification Factors (CMFs) and Crash Reduction Factors (CRFs) associated with the engineering countermeasures toolbox.

8.1.1. Crash Modification Factors (CMFs)

When identifying potential systemic safety improvements, it is important to look at CMFs for the proposed improvements. The CMF Method is found in Part D of the HSM. CMFs are defined as the ratio of effectiveness of one condition in comparison to another condition and represent the relative change in crash frequency due to a change in one specific condition. In other words, a CMF is a multiplicative factor used to compute the expected number of crashes after implementing a given countermeasure at a specific site. Countermeasures with CMFs less than one are expected to reduce crashes if applied, while those countermeasures with CMFs greater than one are expected to increase crashes. **Figure 10** illustrates the definition of CMFs.

Figure 10 – CMF Calculation

$$CMF = \frac{\text{EXPECTED CRASHES WITH TREATMENT}}{\text{EXPECTED CRASHES WITHOUT TREATMENT}}$$

CMF = 1.0	Expected to have no impact on safety
CMF < 1.0	Expected to reduce crashes
CMF > 1.0	Expected to increase crashes

The CMF Method is used to calculate the expected number of crashes by taking the observed number of crashes and multiplying those crashes by the applicable CMF for the proposed countermeasure. It is recommended that CMFs be applied to a minimum of three years of crash data for urban and suburban sites and five years of crash data for a rural site. **Figure 11** is a sample calculation of the CMF method with one CMF being applied to a particular site for a single year.

Figure 11 – CMF Method Sample Calculation

10.1 crashes / year x 0.91 (CMF) =	9.2 crashes / year: a reduction of 0.9 total crashes per year and a CRF of 9%

23 U.S.C. § 409: US Code

A CRF is similar to a CMF but stated in different terms. A CRF is defined as a percentage of crash reduction that might be expected after the implementation of a given countermeasure at a specific site. **Figure 12** presents how a CRF is calculated in relationship to a CMF.

Figure 12 – CRF Calculation

$$CRF = (1 - CMF) \times 100$$

Caution should be used in the selection of appropriate CMFs. The following guidance should be considered when selecting CMFs for predictive crash analysis:

- CMFs should be selected from the HSM Part D, the LRSM, or from the FHWA CMF Clearinghouse website (http://www.cmfclearinghouse.org).
- Read the countermeasure abstract to determine if the CMF is applicable to the proposed improvement.
- Only CMFs with a four-star rating or higher should be considered for use in analysis.
- Be sure the selected CMF is applicable to the set of crash data being used for analysis. Some CMFs may only be applicable to a subset of the crash data.
- The application of multiple CMFs can overestimate the expected crash reduction. Unless each CMF addresses independent crash types, multiple CMFs should not be used. It is suggested that no more than three independent CMFs be applied to a particular site.

The countermeasures proposed in this document were chosen because of their effectiveness in reducing crashes.

8.1.2. Engineering Countermeasures Toolbox

The systemic improvements identified as most likely effective for the City are listed in **Table 3,** and include low-cost and higher-cost items that can be implemented in phases where appropriate. The CMF indicates how effective the countermeasure is at reducing crashes. CMFs and CRFs have been provided for reference to aid the City in understanding potential reductions from crashes by different countermeasures.

23 U.S.C. § 409: US Code

Table 3 – Roseville Engineering Countermeasures Toolbox

Countermeasure	Also Addresses		Crash Modification Factor (CMF)	Crash Reduction Factor (CRF)	CRF Applies to			Caltrans Funding
	Pedestrian	Bicycle			All	Nighttime	Pedestrian and Bicycle	
Signalized Intersections								
Install intersection lighting			0.6	40%		X		100%
Retroreflective backplates			0.85	15%	X			100%
Improve signal timing (coordination)			0.85	15%	X			50%
Advanced dilemma zone detection			0.6	40%	X			100%
Install Left Turn Lane, Add Left Turn Phase			0.45	55%	X			100%
Protected left turn phase			0.7	30%	X			100%
Convert signal from pedestal-mounted to mast arm			0.7	30%	X			100%
Install raised pavement markers and striping			0.9	10%	X			100%
Install signs with LED borders as advanced warning			0.7	30%	X			100% (if beacons are utilized)
Install High Friction Surface Treatment (HFST)			0.45	55%	X			100%
Install raised median on approaches			0.75	25%	X			100%
Install pedestrian median fencing on approaches	X		0.65	35%			X	90%
Pedestrian countdown signal heads	X		0.75	25%			X	100%
Pedestrian scramble	X		0.6	40%			X	100%
Advanced stop bar before crosswalk and bicycle box	X	X	0.85	15%			X	100%
Modify signal to provide a Leading Pedestrian Interval (LPI)	X		0.4	60%			X	100%
Flashing yellow arrow			0.94	6%	X			N/A
Unsignalized Intersection								
Add intersection lighting			0.6	40%		X		100%
Install all-way STOP control			0.5	50%	X			100%
Convert intersection to roundabout			Varies	Varies	X			100%
Install/upgrade intersection warning/regulatory signs			0.85	15%	X			100%
Upgrade pavement markings			0.75	25%	X			100%
Install flashing beacons at stop-controlled intersections			0.85	15%	X			100%
Install signs with LED borders as advanced warning			0.7	30%	X			100% (if beacons are utilized)
Clear sight triangles			0.8	20%	X			90%

23 U.S.C. § 409: US Code

Countermeasure	Also Addresses		Crash Modification Factor (CMF)	Crash Reduction Factor (CRF)	CRF Applies to			Caltrans Funding
	Pedestrian	Bicycle			All	Nighttime	Pedestrian and Bicycle	
Install HFST			0.55	55%	X			100%
Install splitter-islands on minor road approaches			0.6	40%	X			100%
Install raised median on approaches			0.75	25%	X			90%
Directional median openings to restrict turning movements			0.5	50%	X			90%
Reduced Left-Turn Conflict (R-CUT) intersections			0.5	50%	X			90%

Retroreflective strips on sign posts			Not Available	Not Available	X			
Crosswalk lighting	X		0.6	40%			X	100%
Colored bicycle lanes		X	0.61	39%			X	
Curb extensions	X		0.63	37%			X	

8.1.3. Project Sheets for Priority Locations

From the citywide analysis, six project case study locations and one systemic signalized intersections project were selected for further analysis and development of safety improvement recommendations. For each of these priority locations, project sheets were developed to provide a case study to organize projects when applying for funding. These locations were identified through the analysis process based on their crash histories, the observed crash patterns, and their differing characteristics to provide the most insight into potential systemic safety countermeasures that the City can employ to achieve the most cost-effective safety benefits.

Each project sheet includes location maps with an aerial, crash data summary, and list of recommended safety countermeasures with corresponding CMFs, number of crashes anticipated to be reduced, 10-year crash reduction estimate and benefit, and planning level construction cost estimates. The potential safety countermeasures identified reflect safety improvements that can be applied to reduce the likelihood of future crashes. Countermeasures were subjected to a benefit/cost assessment to determine their potential return on investment. These case studies can be used to select the most appropriate countermeasure(s), and to potentially phase improvements over the longer-term. The potential benefit of these countermeasures at locations with similar design characteristics can then be extrapolated regardless of crash history. These project sheets can also be used to position the City for future grant funding opportunities.

Table 4 presents a summary of the potential safety countermeasures identified for each of the priority locations listed below and corresponding benefit/cost. A project sheet was developed for each of the priority locations containing additional information and are included in **Appendix E.**

- Signalized intersection safety improvements/upgrades (42 intersections)
- Sunrise Avenue and Cirby Way
- Pleasant Grove Boulevard and Highland Pointe Drive
- Cirby Way and Riverside Avenue
- Cirby Way and Melody Lane
- Blue Oaks Boulevard and Washington Boulevard
- Atlantic Street/Vernon Street, including S-curve between Jefferson Street and Branstetter Street (Segment)

A map presenting the 42 intersections included in the systemic signalized intersection safety improvements/upgrades project is provided in **Figure 13**. Additionally, a list of potential safety countermeasures identified for the 42 signalized intersections is provided in **Appendix F**.

23 U.S.C. § 409: US Code

Figure 13 – Systemic Signalized Intersections Location Map

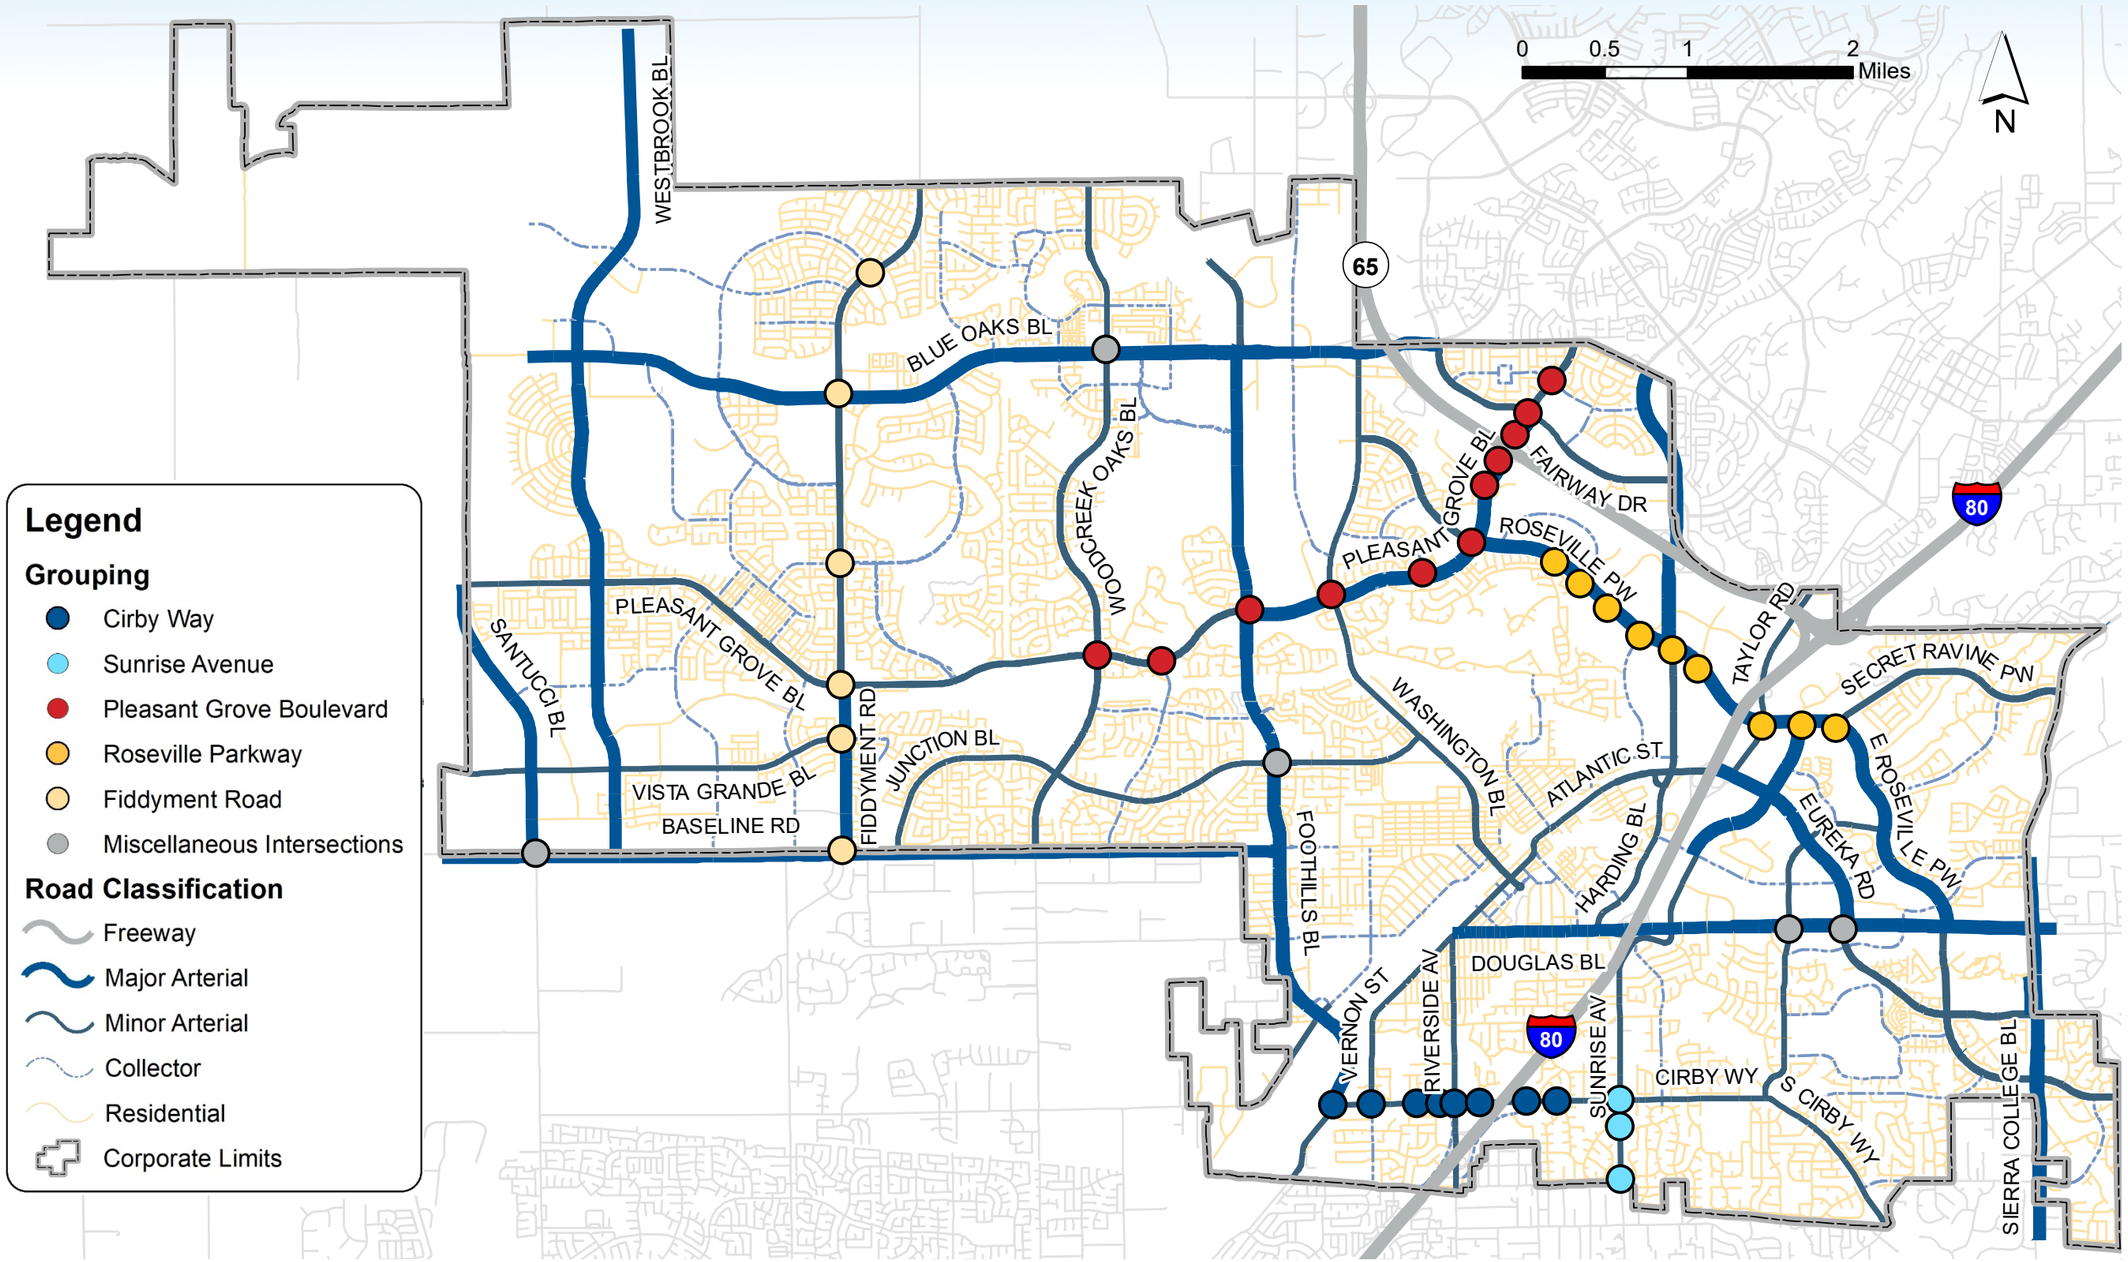

Table 4 – Priority Location Summary

Location	Potential Countermeasures	B/C
Intersections		
Sunrise Avenue and Cirby Way	Install Retroreflective Backplates	97.2
	Implement Leading Pedestrian Interval (LPI)	113.5
	Install advance stop bar	105.1
	Install raised median to restrict driveway access	694.0
	Install "Stop Here on Red" sign	3,643.4
Pleasant Grove Boulevard and Highland Pointe Drive	Install Retroreflective Backplates	93.4
	Install green bike lane markings at conflict zones	2.6
	Install additional/enhanced pavement markings for downstream freeway access	342.5
	Signal Timing (Coordination)	308.3
Cirby Way and Riverside Avenue	Install Retroreflective Backplates	83.9
	Install additional signal heads (eastbound)	209.7
	Install additional street lighting	78.6
	Install additional/enhanced pavement markings for downstream freeway access	1,572.6
Cirby Way and Melody Lane	Install advanced warning flashing beacon system	78.3
	Install additional/enhanced pavement markings for downstream freeway access	507.6
	Install additional signage for downstream freeway access	1,713.2
	Install speed limit pavement markings	1,015.2
Blue Oaks Boulevard and Washington Boulevard	Install green bike lane striping and raised delineators (eastbound Blue Oaks Blvd)	94.7
	Install signalized bicycle crossing across SR-65 SB on-ramp	16.4
Segment		
Atlantic Street/Vernon Street, between Jefferson Street and Branstetter Street	Install roundabout	1.1
	Install additional street lighting	1.3
	Install enhanced pedestrian crossing with flashing beacons	6.6
	Install additional curve warning signage	761.3

Collision diagrams were also developed for the five site-specific locations and are included in **Appendix G**.

23 U.S.C. § 409: US Code

8.2. Non-Infrastructure Countermeasures

The National Highway Traffic Safety Administration (NHTSA) *Countermeasures that Work, Ninth Edition,* is a reference to assist safety stakeholders in selecting effective, science-based non-infrastructure traffic safety countermeasures for major highway safety problem areas. While many of the countermeasures are more appropriate to apply at the state-level or require legislative modifications to implement, **Table 5** contains countermeasures that have demonstrated effectiveness and could be applied at the City level. Access to Drug Recognition Experts (DREs) and Advanced Roadside Impaired Driving Enforcement (ARIDE) training for law enforcement is not included in the document but is something that could also be considered for the City.

Table 5 – Roseville Non-Infrastructure Countermeasures Toolbox

Countermeasure	Effectiveness	Cost to Implement	Use	Time to Implement
Impaired Driving				
Publicized Sobriety Checkpoints	*****	$$$	Medium	Short
High-Visibility Saturation Patrols	****	$$	High	Short
Occupant Protection (Seat Belts, Helmets, Child Seats)				
Short-term high visibility enforcement	*****	$$$	Medium	Medium
Integrated nighttime seat belt enforcement	****	$$$	Unknown	Medium
Distracted Driving				
High visibility cellphone/text messaging enforcement	****	$$$	Low	Medium

Effectiveness:
****** Demonstrated to be effective by several high quality evaluations with consistent results*
***** Demonstrated to be effective in certain situations*
Cost to Implement:
$$$ Requires extensive new facilities, staff, equipment, or publicity, or makes heavy demands on current resources
$$ Requires some additional staff time, equipment, facilities, and/or publicity
$ Can be implemented with current staff, perhaps with training; limited costs for equipment, facilities, and publicity
†Can be covered by income from citations
Use:
High: More than two-thirds of states, or a substantial majority of communities
Medium: Between one-third and two-thirds of states or communities
Low: Less than one-third of states or communities
Unknown: Data not available
Time to Implement:
Long: More than 1 year
Medium: More than 3 months but less than 1 year
Short: 3 months or less

23 U.S.C. § 409: US Code

9. EVALUATION AND IMPLEMENTATION

9.1. Evaluation

The success of the LRSP will be evaluated using the preliminary process outlined below. This process will be useful to ensure proper implementation of goals and to determine when updates are needed.

- Quarterly progress meetings are recommended to be conducted to track the implementation of the plan. In addition, the success of the plan will be evaluated on a reoccurring (quarterly) basis.
- An update to the plan should be considered after no more than five to seven years.
- Continued monitoring and recording of traffic incidents on local roadways by law enforcement.
- Maintain a list of focus areas where there are transportation safety concerns, based on historical crash data.

9.2. Implementation

Implementation of the LRSP can be accomplished through several avenues including development of projects, the establishment of new policies and programs, and development/strengthening of relationships with stakeholders.

With regard to projects, the following identifies potential focus areas for the City in the near-to-mid-term.

9.2.1. Near- and Mid-Term Focus Areas

The opportunities identified in this LRSP provide more of the systemic countermeasures that can be applied within the City. Over the next three to five years, it is recommended that the City concentrate its efforts on the following emphasis areas:

- Aggressive Driving
- Lane Departures
- Impaired Driving
- Intersections
- Aging Drivers

Analysis conducted at the citywide level indicated that these factors were some of the most frequent influences contributing to K+SI crashes within the City. The countermeasure opportunities previously discussed in this LRSP for both systemic and project-specific improvements can be used as a basis for developing projects at locations where addressing these focus areas would be of the most benefit. Projects that address these focused areas can be developed with a high benefit-to-cost ratio (by applying citywide crash rates), allowing competitive projects to be developed even at sites with little to no direct crash history, but with conditions that might contribute to future crashes.

9.3. Routine Monitoring of Safety on City Roads

Routine monitoring of safety on City roads is important to understand if there are changes in crashes and if modifications are needed to address safety on the roads.

23 U.S.C. § 409: US Code

- Traffic Engineering meets twice a year with the Police Department, Signal Maintenance, Street Maintenance, and Risk to go over top ten crash locations, safety concerns, logistics, etc.
    1) Meeting No. 1 – Identify top ten crash locations and discuss safety concerns at each location
    2) Meeting No. 2 – Review recommended safety countermeasures from engineering and non-engineering countermeasures toolbox (Table 3 and Table 5) and identify applicable countermeasures for implementation
- The City Traffic Engineering Manager reads all the crash reports (forwarded by PD). If there is a potential crash pattern or a potential engineering solution is identified, a traffic study is opened for further review and implementation.
- The City Traffic Engineering Manager is part of the Multi-disciplinary Accident Investigation Team (MAIT). After MAIT call outs (serious or fatal injury crash, City Traffic Engineering staff will review crash history and all existing signage and striping).
- Traffic Engineering, the Police Department, and the Safe Routes to School (SRTS) Coordinator meet with all new schools and existing schools on a rotating basis to develop/update a SRTS map and review traffic control around school sites.
- Traffic Engineering completes safety data review checklist annually (included as **Appendix H**)

9.4. Updates to the LRSP

The following steps outline the process for updating the City's LRSP every 5 to 7 years.

1) Access necessary data
    - Roadway and intersection classification/configurations
    - Average Daily Traffic Volumes (Collected from counts where available)
    - Collision history
2) Network screening
    - Calculate the CCR for each roadway functional classification and intersection control type
    - Rank for each facility type
        i) Roadway Segment
            (1) Primary
            (2) Secondary
            (3) Local
        ii) Intersection
            (1) Signalized
            (2) Unsignalized
3) Select locations
    - Identify the location with a higher CCR than what is typical of comparable facility types within City
    - Analyze the collision history and work with local officials to understand any significant exterior influences on the location

23 U.S.C. § 409: US Code

4) Countermeasures
   - Using the Engineering Countermeasures Toolbox (**Table 3**) and Non-Infrastructure Toolbox (**Table 5**), identify potential countermeasures that can be applied to the local to enhance safety features
5) Develop a Project Sheet that can serve as a template for analyzing future locations
6) Calculate the benefit and the cost of each applicable countermeasure using Highway Safety Improvement Program (HSIP) tool and LRSM countermeasures. If those are not available, refer to other resources such as the CMF Clearinghouse and follow a similar calculation (using 20-year cost and benefit numbers). See more information in the section **HSIP Analyzer** below.

The LRSP has completed steps 1 through 6. In subsequent years, the City can begin at step 1 to continue the LRSP process. Additional items the City can do to keep the LRSP current are:

1) When new or reconstruction projects arise, use the data processed to identify locations with similar characteristics and apply countermeasures which proved effective
2) Proactively update its roadway and traffic standards to address systemic safety issues identified in the LRSP

9.4.1. HSIP Analyzer

As of 2021, the preferred way to calculate the BCR for the HSIP program uses Caltrans HSIP Analyzer tool in the form of an active PDF. The PDF tool contains 4 sections which are used to calculate the Benefit Cost Ratio for the Highway Safety Improvement Program.

This tool can be accessed on the Caltrans at:

https://dot.ca.gov/programs/local-assistance/fed-and-state-programs/highway-safety-improvement-program/apply-now

Projects appropriate for other state grant programs can be analyzed using the Life-Cycle Benefit Cost Analysis Model (CalB/C) which has a much more comprehensive benefit assessment tool set.

9.4.2. HSIP Eligibility

Per Chapter 9 of the Highway Safety Improvement Program, funds are eligible for projects that improve the safety of its users on any public road or publicly owned bicycle or pedestrian pathway or trail, or on tribal lands for general use of tribal members.

HSIP looks for safety projects that can be designed and constructed expeditiously and do not require significant acquisition of rights-of-way. Proposed projects should not require extensive environmental review and mitigation. Additional information on the HSIP project selection criteria can be accessed online at:

23 U.S.C. § 409: US Code

- Benefit Cost Ratio Applications
  https://dot.ca.gov/-/media/dot-media/programs/local-assistance/documents/hsip/2020/hsipanalyzerinstructions2020bcr.pdf

- Funding Set-asides (Non-Benefit Cost Ratio Applications)
  https://dot.ca.gov/-/media/dot-media/programs/local-assistance/documents/hsip/2020/hsipanalyzerinstructions2020sa.pdf

HSIP project eligibility is subject to the California SHSP. The SHSP identifies statewide challenge areas that correspond to safety concerns at the statewide level and potential countermeasure to address them and determine HSIP project eligibility. SHSP's are developed in compliance with FHWA requirements. A list of eligible project types can be seen in the current HSIP Analyzer. More information can be accessed online at the Caltrans HSIP grant website:

https://dot.ca.gov/programs/local-assistance/fed-and-state-programs/highway-safety-improvement-program/apply-now

9.5. Funding

Competitive funding resources are available to assist in the development and implementation of safety projects in Roseville. The City should continue to seek available funding and grant opportunities from local, state, and federal resources to accelerate their ability to implement safety improvements throughout Roseville. The following is a high-level introduction into some of the main funding programs and grants for which the City can apply.

9.5.1. Highway Safety Improvement Program (HSIP)

The Highway Safety Improvement Program (HSIP) is a Federal program housed under Fixing America's Surface Transportation (FAST) Act. This program apportions funding as a lump sum for each state, which is then divided among apportioned programs. These flexible funds can be used for projects to preserve or improve safety conditions and performance on any Federal-aid highway, bridge projects on any public road, facilities for non-motorized transportation, and other project types. Safety improvement projects eligible for this funding include:

- New or upgraded traffic signals
- Upgraded guard rails
- Marked crosswalks

California's local HSIP focuses on infrastructure projects with national recognized crash reduction factors. Normally HSIP call-for-projects is made at an interval of one to two years. The applicant must be a city, a county, or a tribal government federally recognized within the State of California.

Additional information regarding this program at the Federal level is available at: https://safety.fhwa.dot.gov/hsip/. California specific HSIP information – including dates for upcoming call for projects – is available at: http://www.dot.ca.gov/hq/LocalPrograms/hsip.html.

9.5.2. Caltrans Active Transportation Program (ATP)

Caltrans Active Transportation Program (ATP) is a statewide funding program, created in 2013, consolidating several federal and state programs. The ATP funds projects that encourage increased mode share for walking and bicycling, improve mobility and safety for non-motorized

23 U.S.C. § 409: US Code

users, enhance public health, and decrease greenhouse gas emissions. Projects eligible for this funding include:

- Bicycle and pedestrian infrastructure projects
- Bicycle and pedestrian planning projects (e.g. safe routes to school)
- Non-infrastructure programs (education and enforcement)

This program funding is provided annually. The ATP call for projects typically comes out in the spring. Information on this program and cycles can be found online at: http://www.dot.ca.gov/hq/LocalPrograms/atp/

9.5.3. State Transportation Improvement Program (STIP)

The State Transportation Improvement Program (STIP) provides state and federal gas tax money for improvements both on and off the state highway system. STIP programming occurs every two years. The programming cycle begins with the release of a proposed fund estimate, followed by California Transportation Commission (CTC) adoption of the fund estimate. The fund estimate serves to identify the amount of new funds available for the programming of transportation projects. Once the fund estimate is adopted, Caltrans and the regional planning agencies prepare transportation improvement plans for submittal. Caltrans prepares the Interregional Transportation Improvement Program (ITIP) using Interregional Improvement Program (IIP) funds, and regional agencies prepare Regional Transportation Improvement Programs (RTIPs) using Regional Improvement Program (RIP) funds. The STIP is then adopted by the CTC.

9.5.4. California Senate Bill 1 (SB 1)

SB 1 is a landmark transportation investment to rebuild California by fixing neighborhood streets, freeways and bridges in communities across California and targeting funds toward transit and congested trade and commute corridor improvements.

California's state-maintained transportation infrastructure will receive roughly half of SB 1 revenue: $26 billion. The other half will go to local roads, transit agencies and an expansion of the state's growing network of pedestrian and cycle routes. Each year, this new funding will be used to tackle deferred maintenance needs both on the state highway system and the local road system, including:

- Bike and Pedestrian Projects: $100 million
- This will go to cities, counties and regional transportation agencies to build or convert more bike paths, crosswalks and sidewalks. It is a significant increase in funding for these projects through the Active Transportation Program (ATP).
- Local Planning Grants: $25 million

9.5.5. California Office of Traffic Safety (OTS) Grants

This program has funding for projects related to traffic safety, including transportation safety education and encouragement activities. Grants applications must be supported by local crash data (such as the data analyzed in this LRSP) and must relate to the following priority program areas:

- Alcohol Impaired Driving
- Distracted Driving
- Drug-Impaired Emergency Medical Services

23 U.S.C. § 409: US Code

- Motorcycle Safety
- Occupant Protection
- Pedestrian and Bicycle Safety
- Police Traffic Services
- Public Relations, Advertising, and Marketing Program
- Roadway Safety and Traffic Records

9.5.6. SACOG Regional Funding Programs

The Sacramento Area Council of Governments (SACOG) provides funding allocation for various multi-modal transportation projects in the Sacramento region. Projects that are considered for this regional funding program must be eligible for CMAQ, RSTP, or STIP funds.

Performance outcomes which are considered for selection include those which:

- Reduce regional VMT per capita
- Reduce regional congest VMT per capita
- Increase multi-modal or alternative travel choices
- Provide long term benefits, sustaining both rural and urban economies
- Improve movement of goods, in and through the region
- Improve safety and security
- Maintain and improve upon the existing transportation system

23 U.S.C. § 409: US Code

10. NEXT STEPS

The City of Roseville has completed this LRSP to guide the process of future transportation safety improvements for years to come. The data-driven analysis process identified crash types, related primary crash factors, and locations of many crashes. Based on this process, emphasis areas were identified. These emphasis areas will guide traffic safety improvements, education programs, and capital improvements for the City.

Using the analyzed data and outputs from this LRSP, the City will:

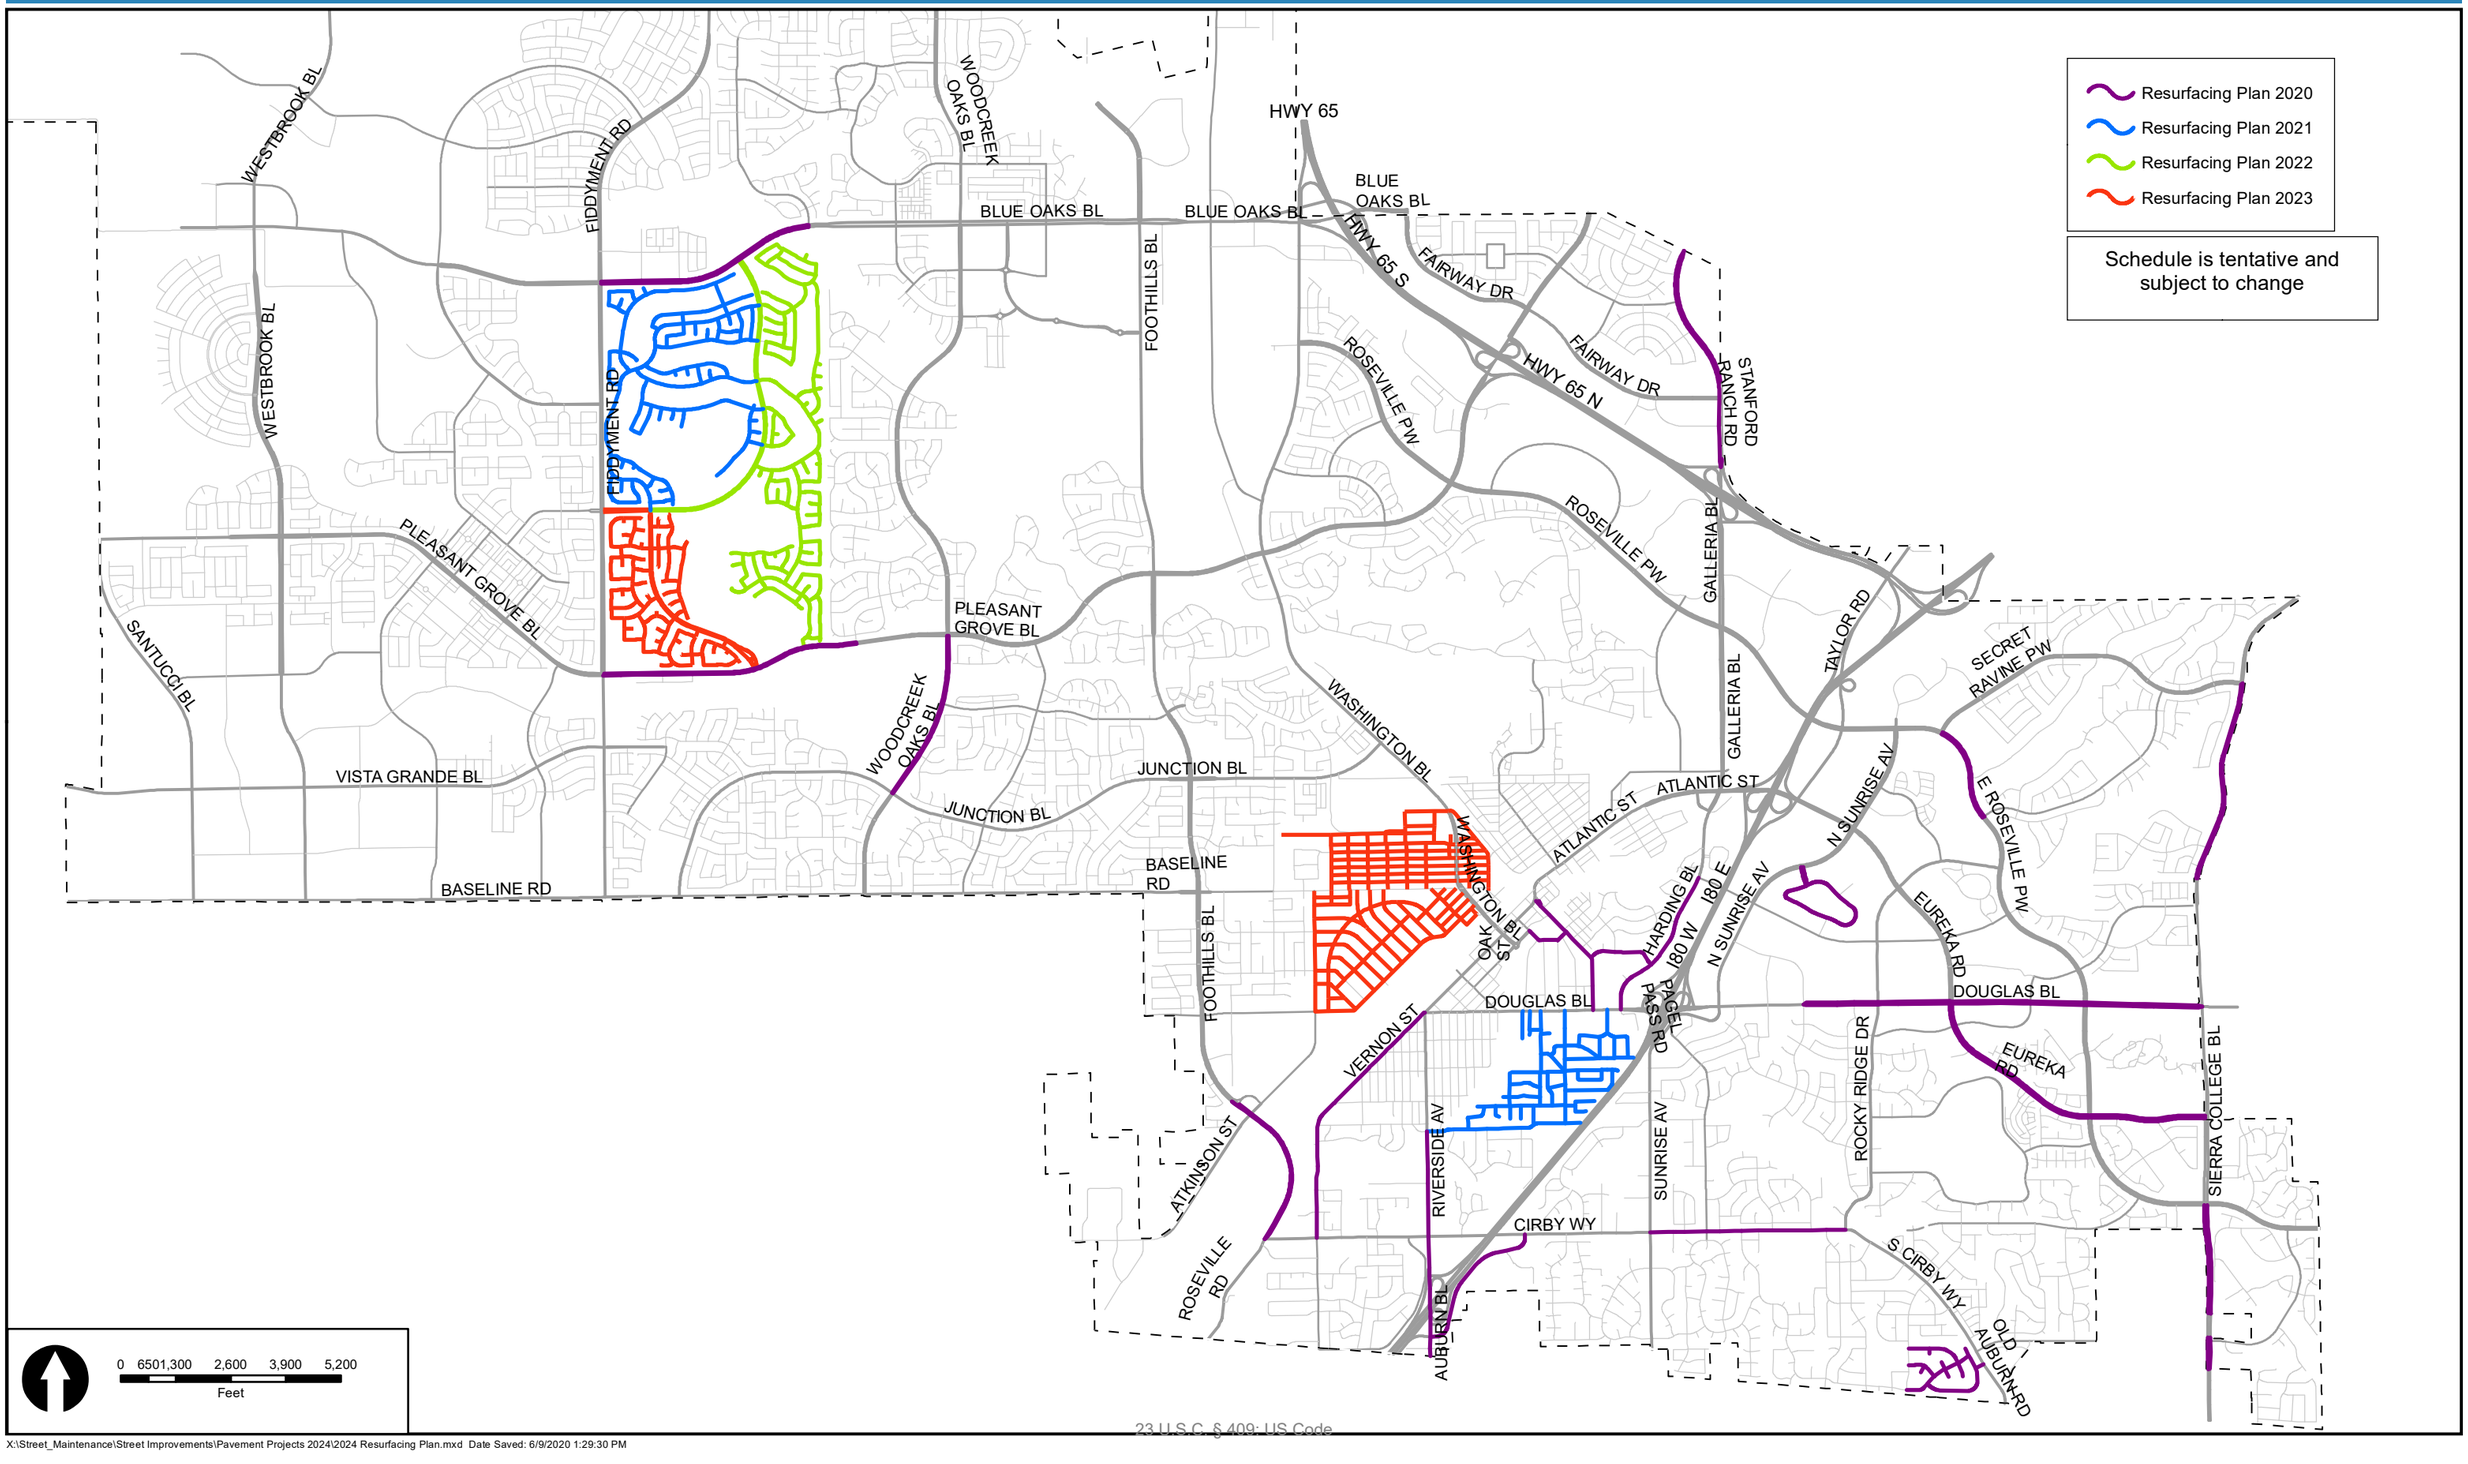
- Apply for HSIP grant funding for safety improvements throughout the City that address the various emphasis areas identified, including intersections and vulnerable users (pedestrians and bicyclists)
- Actively seek other funding opportunities to improve safety for all modal users
- Collaborate with established stakeholders and neighboring municipalities (i.e. Rocklin) as improvements are made to create a cohesive transportation network
- Iteratively evaluate existing and proposed transportation safety programs and capital improvements to design and operate a safer transportation network in Roseville
- Complete annual review of safety data

The City also plans to have the City Council formally approve and adopt this LRSP. Based on current Caltrans guidelines, the City will plan to update the LRSP in five years in 2026.

23 U.S.C. § 409: US Code

APPENDIX A

MATRIX REVIEW OF PLANNING DOCUMENTS



Document Name	Year	Agency	Document Description	Transportation Improvements / Policies	Safety	Funding
Bicycle Master Plan	2008	Roseville	Guidance for bikeway policies, programs, and development standards in the City	See attached recommended bike network. High Priority Routes: - Class I - Dry Creek Regional Path, Hewlett Packard Bike Path, Miners Ravine Bike Path, Northwest Roseville Neighborhoods - Class II - Washington Blvd, Church St, Cirby Way - Class III - Washington Blvd, Vernon St, Diamond Oaks / Sierra Vista neighborhood, Riverside Ave	- establish an on-line system for reporting, evaluating, tracking and responding to maintenance and safety concerns on bikeways - updating construction standards to include provisions for closing bike lanes during construction - assist PD in officer training efforts related to bicycle issues and laws - implement education programs targeted to adults and school-age children for safe bike riding techniques	SAFETEA-LU, Bicycle Transportation Account, Local Transportation Fund, Environmental Enhancement and Mitigation Program, Safe Routes to School Bill, Developer Impact Fees, Assessment Districts
Pedestrian Master Plan	2011	Roseville	Policies, projects, and programs that improve the pedestrian system in the City	See attached ranked sidewalk projects - Annual Sidewalk Repair Program - $80k per year - ADA Transition Plan - 140 segments with incomplete or missing sidewalks to be constructed - Crossing Safety - City developing Traffic Accident Analysis System to provide guidelines for engineering staff to evaluate top pedestrian collision locations and provide mitigation measures		Transportation and Community and System Preservation Program, CA Safe Routes to School grants, CA Transportation Development Act, Tax increment financing, Transportation Development Act, STIP
General Plan - Circulation Element	2020	Roseville	Identifies Roseville's goals for circulation, level of service standards, design requirements, and policies for circulation	- Pedestrian districts - areas with greater emphasis on non-vehicular travel, where LOS requirements do not apply; special design considerations such as wide sidewalks, planter strips, curb radii, crossing enhancements. See attached enhancements that are encouraged for Pedestrian Districts. - Class IA bike paths - widened sidewalks along major roadways, separated from the road with landscaped strips	- SRTS program - encourages greater enforcement of traffic laws, educates the public, and explores other context-specific ways to create safer streets - Policy - In reviewing proposed development projects and implementing public projects, the City will incorporate standards designed to...minimize the potential for collisions involving pedestrians.	Traffic impact fees, 1/2 cent gas tax, assessment districts
Creekview Specific Plan	2012	Roseville	Comprehensive land use framework to guide 501.3-acre site development	Blue Oaks Boulevard extension project - 6 lanes with Class II bike lanes Westbrook Boulevard - extended north - 6 lanes with Class II bike lanes Holt Parkway - extended west - 4 lanes with Class II bike lanes		Developer financing, City impact fees, community facilities district, school impact fees
Amorouso Ranch Specific Plan	2016	Roseville	Comprehensive land use framework to guide 694-acre site development	Future Placer Parkway - planned 15-mile long high-speed limited-access facility between SR-65 and SR-99 - will travel through the ARSP area Westbrook Boulevard - extended north - 6 lanes with Class II bike lanes		Developer financing, City traffic mitigation fees, annual tax burden, backbone infrastructure burden
Sierra Vista Specific Plan	2012	Roseville	Comprehensive land use framework to guide 2,064-acre site development	Baseline Road - extended west - 6 lanes with Class II bike lanes Pleasant Grove Blvd - extended west Fiddyment Road - add bike lanes		Developer financing, City impact fees, community facilities district, school impact fees
Annual Budget 2020-21: Capital Improvement Projects	2020/2021	Roseville	Operating budget for FY 2020-2021	New projects: - Blue Oaks Blvd - construction of Blue Oaks Blvd for development - Westpark Drive Extension - Pleasant Grove Blvd Widening - from 2 lanes to 3 lanes in each direction - Roseville Pkwy & Pleasant Grove Blvd - widen Roseville Pkwy and provide triple southbound left turns at intersection Carried over from previous budgets: - Washington and Andora Widening - Roseville Parkway Extension	New projects: - LED Streetlights Upgrade - 13,000 streetlight replacements - Streetlight relocation - where blocking sidewalks - Vernon St & Atlantic Street Roundabout Carried over from previous budgets: - Downtown Pedestrian Safety Connected Vehicle Project - ped-actuated flashing signs at uncontrolled crosswalks in downtown with CV technology to warn CV-equipped vehicles of the presence of a pedestrian - Washington Blvd All American Roundabout - Junction Park Regency Traffic Signal	Developer financing, City traffic mitigation fees, North Central CFD, Highway Users Tax,
Blueprint Transportation / Land Use Study	2005	Roseville	Provides a menu of options to support SACAG's Blueprint Growth Principles in the City.	9 growth principles - the following apply to transportation directly: - Transportation Choices - pedestrian friendly development, transit - Compact Development - encourages walking, biking, and transit - Quality Design - contribute to desire of residents to get out and walk or bike - Education and Outreach - benefits of compact mixed use development	- Bicycle Safety Checklist - for reviewing development projects - Develop a pedestrian oriented policy to provide guidance for safe routes to transit - Vernon St / Historic Old Town ped bridge project - Washington Boulevard pedestrian under-crossing improvements - Consider traffic calming techniques in existing and new residential neighborhoods (bulb-outs, street tables at intersections)	
Oak Ridge Drive Bridge Replacement Project	Current	Roseville	Project Description	- provide a new bridge over Linda Creek north of Cirby Way and south of Coloma Way - wider lanes and shoulder widths - improved storm water passage under bridge	- wider sidewalks - raised roadway profile for better ADA access - Flashing pedestrian crossing	Fully funded by the Federal Highway Bridge Program and Toll Credit funds
Roseville Parkway Extension Project	Current	Roseville	Project Description	- provide new 4-lane roadway between Washington and Foothills Boulevard with sidewalk and class II bike lanes	- Multi-use path over bridge	Fully funded by developer-paid Traffic Mitigation Fees
Washington / Andora Widening Project	Current	Roseville	Project Description	- Install new traffic signals at Washington Blvd & Kaseberg Drive, and modify signals at Diamond Oaks Rd, Sawtell and Junction - Construct new multi-use trail along east side of Washington Boulevard from Pleasant Grove Blvd to All America City Blvd - Widen Washington Blvd from 2 to 4 lanes - Replace existing Union Pacific RR Andora bridge	- Enhance current bike and pedestrian facility railroad under-crossing	CTC Active Transportation Grant, Congestion Mitigation and Air Quality (CMAQ) program, local funding
Roseville Downtown Bridges	2019	Roseville	Project Description		- Provide pedestrian bridges to connect Civic Center and Royer Park for walking and biking to downtown destinations	SB1

Document Name	Year	Agency	Document Description	Transportation Improvements / Policies	Safety	Funding
Arterial Resurfacing Project	2020-2023	Roseville	Street maintenance resurfacing plan	See attached resurfacing plan		Road Maintenance and Rehabilitation Fund
ITS Master Plan Update	2020	Roseville	Provide a safe, efficient, and reliable customer centered transportation network through the use of technology	Near Term ITS technologies / strategies: - Big data - play a large role in affecting the evolution of the Sacramento Transportation Area Network (STARNET) - Connected Vehicle (CV) readiness - infrastructure and institutions - Autonomous Vehicle (AV) readiness - institutions and policies See attached for map of proposed signal, CCTV, and CMS deployment	- Crash Detection Systems - for automated vehicle accident detection will help with rapid response of traffic incidents; City will monitor the continued development of this technology and look for opportunities for pilot tests at critical intersections where safety is an issue - Automated Pedestrian Detection - connected to traffic signal controller and can extend the pedestrian phase for a pedestrian to fully cross a street; City will consider deployment of this detection technology at intersections with high pedestrian activity, or areas that may have a need for periodic extension of the pedestrian phase (i.e. schools or senior centers)	Local - CIP State - HSIP, SB 1, California Transportation Commission ATP Federal - Surface Transportation Block Grant Program (STBG), Transportation Infrastructure Finance and Innovation Act (TIFIA), Better Utilizing Investments to Leverage Development (BUILD) Grants, Nationally Significant Freight and Highway Projects Program, Advanced Transportation and Congestion Management Technologies Deployment (ATCMTD)
N/A		Roseville	Mentioned in 10/08/2020 monthly meeting	Pleasant Grove Widening (Washington to Woodcreek)

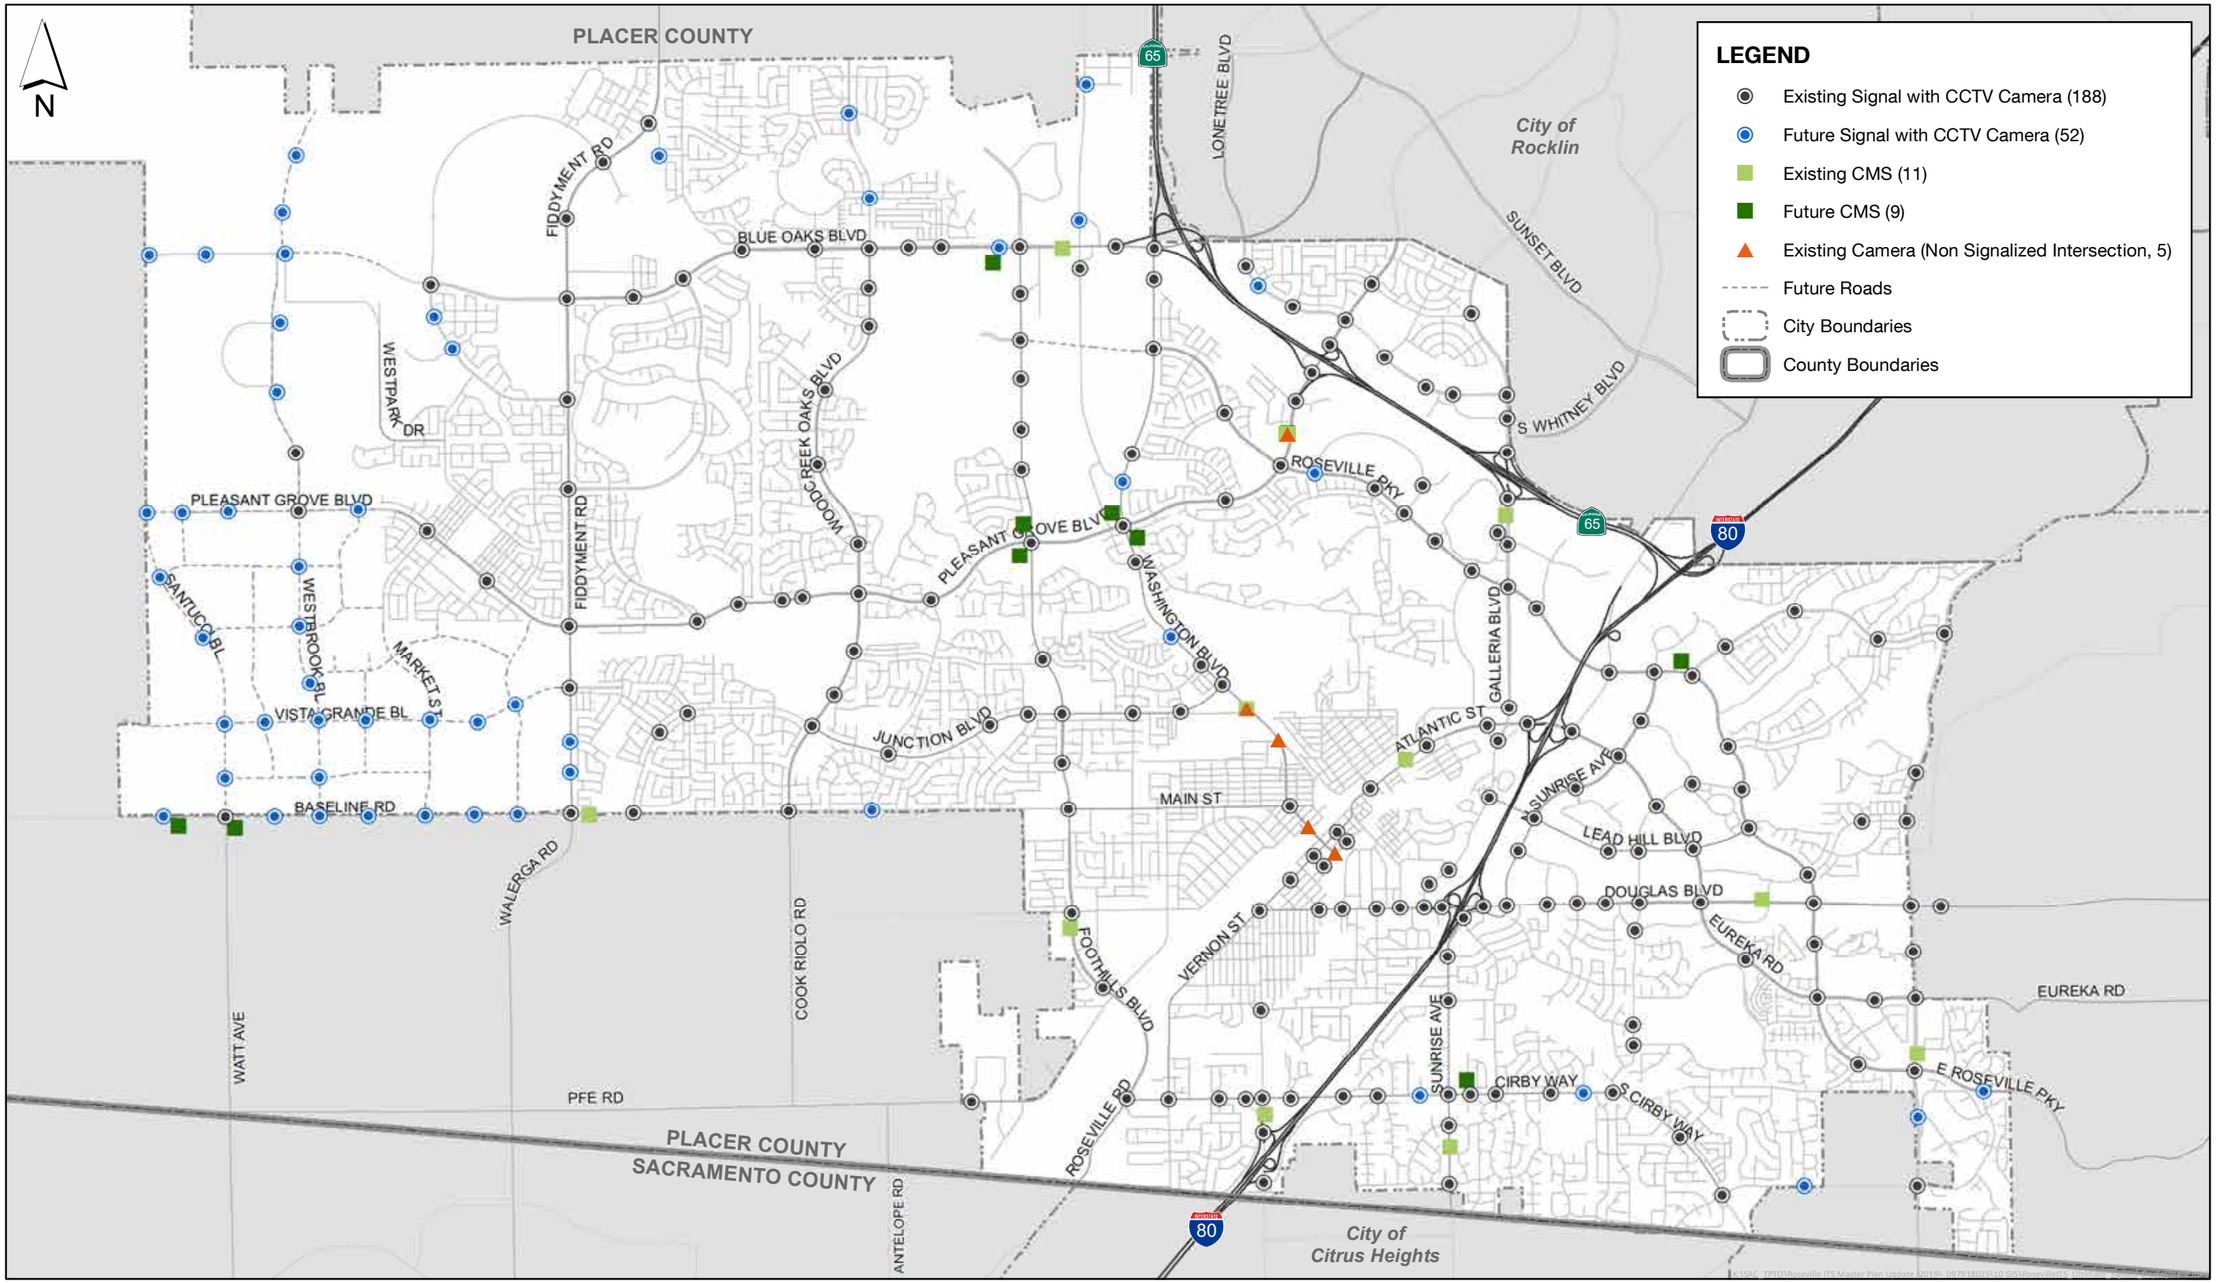
N-E = North or East side of street; **S-W** = South or West side of street

[1] Railroad property on west side, sidewalk will not be installed



[2] On Sierra College Blvd., sidewalk in Roseville is complete; remainder to be built is in Placer County.

September 2010 Dowling Associates, Inc

Although the Country Club Drive and Pleasant Grove Boulevard segments rank low, they are identified as priority projects in the ADA Transition Plan because of their proximity to a senior community. Additionally, it's important to note that segment ranking does not indicate the order in which projects will be completed. Funding types and availability heavily influence the project's completion dates. For example, the sidewalk on Industrial Avenue between Alantown and Finisteria Drives will be completed in the near future, even though its ranking is one, because the City received a grant to retrofit the bridge.

APPENDIX B

CITY POLICIES WITH RESPECT TO SAFETY COUNTERMEASURES

CITY OF ROSEVILLE CALIFORNIA

Memorandum

Public Works – Engineering

To: Implementation Guidelines

From: Jana Cervantes, Senior Engineer, PW/Traffic Engineering

Date: 7/30/2019

Subject: Buffered Bicycle Lane Policy

When staff determines a collector roadway meets all of the following criteria, buffered bicycle lanes *may* be installed.

1. Bike lanes are consistent with the Bikeway Masterplan.
2. There is sufficient pavement width to allow 2' minimum buffer with minimum (11') travel lanes.

- Buffer lanes should have two foot width minimum.
- Buffer lane striping to be Detail 39.
- Buffer lanes three feet or more in width shall have hash marks at 30° angle (approximately every 10-40 feet).

CITY OF ROSEVILLE CALIFORNIA

Memorandum

Public Works – Engineering

To: Implementation Guidelines

From: Jana Cervantes, Senior Engineer, PW/Traffic Engineering

Date: May 05, 2016

Subject: Flashing Pedestrian Warning Pilot Installation Program

When staff determines that if an uncontrolled marked pedestrian crossing is in a Pedestrian Overlay District or meets all of the following criteria, a flashing pedestrian (W11-2) sign may be installed.

1. A volume of at least 100 pedestrians per hour during the peak hour;
2. This volume of pedestrians occurs on a regular everyday basis;
3. A majority of the pedestrian traffic occurs in the evening (dark) for a portion of the year;

*Before consideration of this Traffic Control Device, other factors/options should be considered.

CITY OF ROSEVILLE CALIFORNIA

Memorandum

Public Works – Engineering

To: Implementation Guidelines

From: Jana Cervantes, Senior Engineer, PW/Traffic Engineering

Date: 7/11/2018

Subject: Residential Flashing Speed Limit Signs

When staff determines a residential street meets all of the following criteria, a flashing Speed Limit (R2-1) sign may be installed.

1. Roadway meets California Vehicle Code (CVC) definition for a residential roadway.
2. 85th percentile speed is 38 mph or higher on consistent speed studies.
3. Speed Limit signs and Legends existed at the time speed studies were conducted.
4. Average daily Traffic (ADT) exceeds 2500 vehicles per day for the street.
5. Police, speed trailers, and other education and enforcement tools have been tried.

*Before consideration of this Traffic Control Device, other options should be considered.

CITY OF ROSEVILLE CALIFORNIA

Memorandum

Public Works – Engineering

To: Implementation Guidelines

From: Jana Cervantes, Senior Engineer, PW/Traffic Engineering

Date: 2/04/2020

Subject: Flashing Stop Signs

When staff determines that an all-way STOP meets all of the following criteria, a flashing Stop Sign (R1-1) sign may be installed.

1. A STOP study has determined that a STOP sign is a warranted traffic control device;
2. The roadway(s) is a designated arterial or collector;
3. The 85th percentile speed is 45 mph or higher on consistent speed studies;
4. Average daily Traffic (ADT) exceeds 8000 vehicles per day for at least one of the intersection roadways;
5. One or more of the intersecting roadways has two or more lanes (including right, thru, and lefts) of traffic in each direction;
6. Police, speed trailers, and other education and enforcement tools have been tried for stop sign compliance.

*Before consideration of this Traffic Control Device, other options should be considered.

CITY OF ROSEVILLE CALIFORNIA

Memorandum

Public Works – Engineering

To: Implementation Guidelines

From: Jana Cervantes, Senior Engineer, PW/Traffic Engineering

Date: January 08, 2019

Subject: "KEEP CLEAR" Pavement Legends

Specifications for the installation of a "KEEP CLEAR" pavement legend are as follows:

1. Only allowed on four-lane roads.
2. It must be the only public entrance and exist to the subdivision.
3. It is only allowed for public roadway intersections – not driveways.
4. "Do not block intersection" signage must be tried first with inadequate results.

23 U.S.C. § 409: US Code

CITY OF ROSEVILLE CALIFORNIA

Memorandum

Public Works – Engineering

To: Implementation Guidelines

From: Jana Cervantes, Senior Engineer, PW/ Traffic Engineering

Date: March 04, 2016

Subject: "Signal Ahead" Legends

When staff determines that the visibility of traffic signal heads may be impeded by roadway alignment, landscape, or other roadway features, "Signal Ahead" legends may be installed on the approach to a signal to supplement W3-3 signs.

Per the City of Roseville Design Standards, W3-3 signs shall be installed on all approaches to a signalized intersection.

The table below lists the minimum distances for which at least two signal faces should be continuously visible to approaching drivers. If the minimum sight distances are not met, "Signal Ahead" legends may be utilized.

85th-Percentile Speed	Minimum Sight Distance
20 mph	175 feet
25 mph	215 feet
30 mph	270 feet
35 mph	325 feet
40 mph	390 feet
45 mph	460 feet
50 mph	540 feet
55 mph	625 feet
60 mph	715 feet

WHY SPEED HUMPS ARE NO LONGER INSTALLED IN ROSEVILLE

In the late 1980's, the Roseville City Council voted to allow speed humps on residential streets on a trial basis to see how successful the program would be. In 1992 the City Council discontinued the program and imposed a moratorium on the installation of speed humps. This moratorium was placed due to resident complaints, and problems associated with the humps.

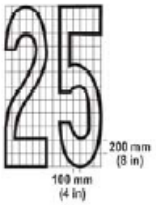
The following problems have been observed with speed humps:

- Response time for emergency vehicles increased 10 to 12 seconds per speed hump.
- Some motorists swerve around the speed humps, necessitating the installation of metal posts (Bollards) on both sides of the speed humps.
- Some motorists increase their speed between the speed humps to make up for lost time.
- Numerous speed humps are necessary on a long stretch of road. This can frustrate motorists and cause them to drive over the speed humps at 30 to 35 mph because at this speed, many vehicles can absorb the impact of the speed humps with little discomfort to the driver.
- There is increased noise at speed hump locations due to vehicles slowing, accelerating, or driving over the hump at high speed.
- Speed humps cause traffic to divert to parallel streets.

On average, the prevailing speed of vehicles dropped from 33 mph to 27 mph by installing speed humps. However, due to the problems associated with speed humps, the City Council felt that the disadvantages outweighed the benefits. We now have a Council approved speed hump removal program whereby residents can request removal of the speed humps if they so desire.

If you have any questions regarding this issue, please contact the City's Traffic Studies Section at 746-1300.

23 U.S.C. § 409: US Code



MEMORANDUM

TO: **Jason Shykowski, Associate Engineer**

FROM: **Jana Cervantes, Assistant Engineer II**

SUBJECT: ***Speed Limit Pavement Markings Guidelines/Policy***

DATE: **August 19, 2004**

- **25 MPH Pavement Markings** will only be used on residential streets where the measured 85th percentile speed is greater than 34 mph. It will be placed at the entrance to a subdivision off a main road (arterial/collector) near a speed limit sign. If the primary residential is longer than 1 mile, an additional 25 mph pavement marking may be considered midway along the length of the roadway if warranted.
- **25 MPH Pavement Markings** may be used in business districts that have high pedestrian usage.
- **25 MPH Pavement Markings** may be used at locations where a collector roadway turns into a residential street (i.e. Northpark, N. Cirby).
- **25 MPH Pavement Markings** may be used on the approaches to parks and schools located on residential streets where the 85th percentile speed is greater than 34 mph. It will be placed near a speed limit sign (legend may be yellow for school locations).

TRAFFIC CONTROL DEVICE POLICIES

"DO NOT BLOCK" INTERSECTION SIGN

- Only allowed on two or four lane roads.
- For a subdivision: It must be the only public entrance and exit to the subdivision.
- It is only allowed for public intersections – not driveways unless the driveway causes a safety hazard in the public roadway. i.e. signage won't be installed for the sole purpose of providing access to the driveway.
- Other signage must be tried first with inadequate results.

"YIELD TO PED" (R1-6) IN STREET CROSSWALK SIGN

- May be used at a crosswalk that has been installed on a temporary basis (lane width and turning movements permitting).
- May be used on a temporary basis (90 days max) on newly installed crosswalks at unsignalized collector and arterial intersections (lane width and turning movements permitting).
- May be used permanently at uncontrolled crosswalks on collectors and arterials with lane widths greater than 12' and where turning movements would not conflict with the signage.
- May be used adjacent to schools at uncontrolled crossings on a portable system during school hours.

"25" PAVEMENT MARKINGS

- **25 mph Pavement markings** shall only by used on residential streets where the measured 85th percentile speed is greater than 34 mph. It will be placed at the entrance to a subdivision off a main road (arterial/collector) near a speed limit sign. If the primary residential is longer than 1 mile, an additional 25 mph pavement marking may be considered midway along the length of the roadway if warranted.
- **25 mph Pavement markings** may be used in business districts that have high pedestrian usage.
- **25 mph Pavement markings** may be used at locations where a collector roadway turns into a residential street (i.e. Northpark, N. Cirby).
- **25 mph Pavement markings** may be used on the approaches to parks and schools located on residential streets where the 85th percentile speed is greater 34 mph. It will be placed near a speed limit sign.

CURVE WARNING SIGNS

For Roadway Curves

- 20 mph or less as determined from ball bank or SD analysis, place a W3 and W6 sign.
- 15 mph or less, place both the sign and detail 23 pavement striping. Detail 23 shall only be used if the roadway pavement width is 32' or greater. If the pavement width is less than 32', no further action other than the sign is required.

For Knuckles

- For residential streets, no action will be required.*
- For roadways with 32’ or greater pavement width, Detail 23 may be placed with no signage.

*If centerline striping were used on roadways less than 32’ wide (pavement width), the travel lane width would be less than 10’ if vehicles were parked at the curb.

Memorandum

Public Works – Engineering

To: Implementation Guidelines

From: Jana Cervantes, Senior Engineer, PW/ Traffic Engineering

Date: September 28, 2015

Subject: Visually Impaired Requests for Free Right Turns at "Pork Chop" Islands

When requested for the benefit of the visually impaired to assist in the crossing of uncontrolled free right turns at signalized intersections with "pork chops", staff will evaluate for the installation of enhanced crosswalks and signage such as:

- hatched crosswalk markings, and;
- advance regulatory signage, and;
- high visibility signage at the crossing (as shown below)

CITY OF ROSEVILLE CALIFORNIA

Memorandum

Public Works – Engineering

To: POLICY MEMORANDUM

From: Jana Cervantes, Senior Engineer, PW/Engineering

Date: September 24, 2014

Subject: Yellow 3M Tape for Signal Heads

3M Yellow tape may be applied to the outside perimeter of signal head backplates on the overhead signal heads of an intersection meeting the following criteria:

- The signal is located within 800' of the next signal, and;
- The documented accident rate exceeds the Caltrans expected rate.

In addition, the tape may be used for pre-signals located at railroad crossings.

APPENDIX E

PROJECT SHEETS

Roseville Local Road Safety Plan
Project Description for Signalized Intersection Improvements

Signalized Intersections - Citywide

Location: Citywide Signalized Intersections (42 signals)
Agency Name: City of Roseville
Contact Name: Cervanes, Jana
E-mail: jcervantes@roseville.ca.us

List of Groupings:
Dark Blue CIRBY WAY
Light Blue SUNRISE AVENUE
Red PLEASANT GROVE BOULEVARD
Gold ROSEVILLE PARKWAY
Light Gold FIDDYMENT ROAD
Grey MISCELLANEOUS INTERSECTIONS

Total Crashes	1,409
Local CCR Differential	N/A
Equivalent Property Damage Only	9,423
Fatal	4
Serious Injury	22
Other Visible Injury	146
Complaint of Pain	461
PDO	776
Crash Type	
Broadside	347
Sideswipe	222
Rear End	571
Head On	74
Hit Object	80
Overturned	6
Non-Motorist Crashes	
Pedestrian	17
Bicycle	26
Contributing Factors	
Aggressive	634
Distracted	111
Impaired	142
Crash Conditions	
Dark	381
Wet	194

Note: There are 42 Signalized Intersections within this grouping

SAFETY DATA ANALYSIS CHECKLIST

SAFETY DATA ANALYSIS CHECKLIST

- ☐ Traffic Engineering Manager reviews crash reports obtained from Police Department to identify crash trends and patterns. Additional items to review and compare with previous years data include:
  - Number of fatal and severe injury crashes
  - Number of non-motorized (pedestrian and bicycle) crashes
  - Crashes by cause
  - Highest occurring crashes type
  - Top ten crash locations (intersections and segments)
  - Other emerging crash trends

- ☐ **Multi-disciplinary Safety Team Meetings** ***[Bi-Annual]*** **-** Traffic Engineering, Police Department, Signal Maintenance, Street Maintenance, and Risk Management departments

  - ☐ Review top ten crash locations to identify safety concerns, trends in crash types and contributing factors.

  - ☐ Review potential safety countermeasures and discuss prioritization of implementation. *Refer to Engineering Countermeasures Toolbox (Table 3 in LRSP Report) and Non-Engineering Countermeasures Toolbox (Table 5 in LRSP Report)*

- ☐ Multi-disciplinary Accident Investigation Team (MAIT) reviews fatal and serious injury crashes for further investigation

- ☐ Traffic Engineering reviews existing roadway conditions including striping and signage at all locations with fatal and serious injury crashes

- ☐ **Safe Routes to School Meetings** - Traffic Engineering, Police Department, and Safe Routes to School (SRTS) Coordinator conducts meetings with all district schools to review traffic control and develop/update SRTS map and informational material ***[All new schools and on rotational basis for existing schools]***

COUNCIL COMMUNICATION

CC #: 1862
File #: 0600-01

Title:	International Union of Operating Engineers, Stationary Engineers, Local 39 - Memorandum of Understanding and Salary Schedule Update
Contact:	Stacey Peterson 916-774-5374 slpeterson@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 9.1.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council:

1. Adopt a resolution approving the attached International Union of Operating Engineers, Stationary Engineers, Local 39 (Local 39) Memorandum of Understanding.

2. Adopt an ordinance to approve the attached Local 39 Salary Schedule A and Salary Schedule B (Appendix A) reflecting a 3% general salary increase and Salary Schedule B compressed salary ranges from 15 steps to 12 salary steps.

BACKGROUND

The current Memorandum of Understanding (MOU) for Local 39 represented employees expires on December 31, 2021. During negotiations in the last and current cycles with the City of Roseville employee bargaining units, the City's goal has been to ensure it is competitive in the marketplace on recruitment and retention among comparable agencies while remaining fiscally responsible.

As a service organization, labor is the City's biggest expense and the City has taken steps to control costs in this area. In the past eight years, the City has implemented policies to slow payroll growth, reduce retirement benefits, set total compensation (salaries and benefit packages) at median in the labor market (except for Electric Department positions), and control pension costs by transferring the responsibility to employees to fund 100 percent of the employees' share of pension costs. During the time the City was implementing these cost-control measures, services were expanded to meet the needs of our growing population, yet staffing was reduced by 40 percent per capita from FY2007-08 to FY2021-22.

Maintaining the quality of services along with the integrity of the City's more than $4 billion worth of infrastructure requires balancing our ability to attract and retain a high-performing workforce while living within our means. To this end, the City has strived during this round of bargaining to recognize the exceptional efforts of City staff through the COVID pandemic by providing outstanding service to the community which has been substantiated by the recent community surveys. This resulted in recommending the City salary philosophy align to the 55th percentile of the market, which is estimated to increase compensation by about 1.5 percent to recruit and retain highly engaged employees to continue great service to the community. The City also created a tiered benefits structure to provide a different contribution at the Employee only,

Employee plus One or Employee plus Family benefit levels to be used by active employees to remain competitive and cost effective in the market.

Ultimately, the City's compensation philosophy seeks to maintain internal equity among employee groups' medical benefits for current employees and to compare its total compensation with jurisdictions that are similar in size, services, and geographical location to remain competitive and retain our talented City employees who have produced high service levels affirmed by the community.

RECOMMENDATION
After numerous bargaining sessions since September 9, 2021, Local 39 membership ratified the Tentative Agreement reached during contract negotiations on November 8, 2021. The significant provisions of the agreement are as follows:

Term

The term covers two years from January 1, 2022 to December 31, 2023.

Salaries and Benefits
Adjustments to the salaries fall in two categories: those that address general salary increases across the group and labor market adjustments.

1. **General Wage Increase**

   A 3.0% general base wage increase is recommended for all classifications in the bargaining group (both Salary Schedule A and Salary Schedule B) effective January 1, 2022, which will offset labor market adjustments in 2023.

2. **Labor Market Adjustments**

   A total compensation study will be conducted in 2022 to determine the job classifications in the bargaining group behind the labor market. The City will provide a salary increase for each classification falling below the 55th percentile of the total compensation market by an amount to match the 55th percentile of the market. Staff will present the results of the study to Council for review and approval of the updated salary schedules to be effective the first full pay period in January 2023.

3. **Salary Schedule B Salary Ranges – Reduce from 15 steps to 12 steps**

   To promote retention of staff and stay competitive in our market, the Schedule B salary ranges will be reduced from 15 steps to 12 steps, using the same top and bottom salary steps, establishing 3 percent between salary steps, except for the difference between salary step A to B.

4. **Health and Welfare Benefits – Tiered Flex Credit for Active Employees**

   To address increasing premium costs, the Flex Credit benefit is revised to provide a different level of contribution for those enrolled in Employee Only versus Employee Plus One or Employee Plus Family medical plans, to cover approximately eighty percent of the premium costs for medical, dental and vision at the family level. The following includes a summary of the recommended Flex Credit benefit adjustments to create a 3 Tiered benefit contribution:

Flex Credit	Employee Only	Employee Plus One	Employee Plus Family
Effective January 1, 2022	-$58/month	+$15/month	+$150/month
Effective January 1, 2023	No change	+$45/month	+$75/month

5. **Compensatory Time Off**

   Maximum accumulation of compensatory time shall be reduced from 160 hours to one hundred 100 hours.

6. **Safety Boot/Shoe Allowance**

   The safety boot/shoe allowance shall be increased from $200 to $250 per year.

7. **Certifications**

   To address recruitment and retention issues in the Fleet Services Division, several certification pays are recommended between 1%-2.5% of base pay as designated by management.

8. **Non-recurring Holiday**
   The bargaining group will no longer observe non-recurring holidays as appointed by the President of the United States or the Governor of the State of California. This will remove the unanticipated loss of productivity and disruption of services to the City.

FISCAL IMPACT

FISCAL IMPACT

The current total annual salary and benefit cost to the City for the 520.38 full-time positions in the Local 39 bargaining group is $42,513,343, of which $18,167,146 is funded by the General Fund. The additional ongoing incremental cost for each calendar year of the 2 year term of the successor MOU is as follows:

	Incremental Calendar Year 1	*Incremental* Calendar Year 2
Wages:		
General Salary Increase (3%)	$1,075,917	-
Labor Market Adjustment	0	TBD**
Schedule B Adjustment	$337,725	-
Other costs:		
Pension*	$158,588	$1,394
Health (eff Jan 1st)	$217,972	$361,423
Boot and Cert pay	$20,123	$20,292
Deferred compensation	$23,895	-
Other Benefits (Life, LTD, OPEB)	$59,041	$266
Taxes (Medicare, SUI)	$24,218	$213
Total Incremental Cost *General Fund Portion:*	$1,917,479 *$827,252*	$383,588 *$155,861*

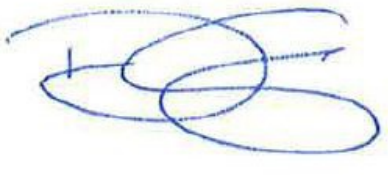
**This incremental pension cost results only from the negotiated wage increase and does not include the cost of anticipated PERS rate changes. The terms and conditions of the pension benefit plan remain unchanged.*
***The value of 1% of total compensation is $425,133.*

While the incremental cost of the negotiated agreement for calendar year 2022 is projected to be $1,917,479 (4.5% of total compensation), and $383,588 (.9% of total compensation) in 2023, the increases are compounding and therefore the projected total salary and benefit cost increase for the items specified above is $4.2M, of which $1.8M is to the General Fund, not accounting for the cost in calendar year 2 of the Labor Market adjustments to maintain salaries at the 55th percentile of the market consistent with the City's new salary philosophy. Prior to implementation of the labor market adjustments in year 2, the cost to maintain salaries at the 55th percentile will be presented to Council with the updated salary schedules.

The cost of the successor Local 39 salary and benefit adjustments for the FY21-22 is $958,740 based on 13 pay periods remaining, of which $413,626 is the cost to the General Fund. The cost to the current fiscal year will be covered by appropriations included in the FY21-22 budget. Below are the costs by fund:

Fund	FY2021-22 (Jan 2022 - Jun 2022)	FY2022-23 (Jul 2022 - Jun 2023)	FY2023-24 (Jul 2023- Dec 2023)	Total
1001 - General	$ 413,626	$ 491,557	$ 77,931	$ 983,113
1130 - Stormwater	5,605	7,315	1,710	14,630
2824 - Affordable Housing In Lieu and Program Equity	766	766	-	1,532
4001 - Fleet Services	38,809	50,355	11,546	100,709
4005 - Fleet Replacement	2,331	2,331	-	4,661
4061 - Facility Services	22,800	26,580	3,780	53,160
4065 - Facility Rehabilitation	1,929	2,289	360	4,577
4101 - IT Operations	103,493	117,083	13,590	234,166
6001 - Electric	88,293	106,313	18,021	212,626
6101 - Water Operations	67,167	83,659	16,492	167,317
6201 - Wastewater Operations	59,282	71,612	12,330	143,224
6301 - Waste Services Operations	106,059	132,781	26,723	265,562
6511 - Transit	5,881	7,365	1,484	14,729
6520 - Transportation	5,982	7,332	1,350	14,663
6540 - Consolidated Transit Services Agency	3,150	3,150	-	6,300
6591 - Youth Development	33,569	40,049	6,480	80,098
Total	$ 958,740	$ 1,150,534	$ 191,794	$ 2,301,067

ENVIRONMENTAL REVIEW



The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Adoption of a Memorandum of Understanding and Salary Schedule meet the above criteria, and therefore are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community
Goal E - Deliver exceptional city services

Respectfully Submitted,

Stacey Peterson, Human Resources Director

Dominick Casey, City Manager

MASTER MEMORANDUM OF UNDERSTANDING
ON WAGES, HOURS AND OTHER TERMS AND CONDITIONS OF EMPLOYMENT

CHAPTER 1. ADMINISTRATIVE

ARTICLE I. PARTIES TO UNDERSTANDING

This Memorandum of Understanding (MOU) relates to issues within the scope of representation existing between the CITY OF ROSEVILLE, CALIFORNIA (City), and the INTERNATIONAL UNION OF OPERATING ENGINEERS, STATIONARY ENGINEERS, LOCAL NO. 39 (Local 39 or Union), and those employees occupying the classes listed in Appendix "A" attached hereto and incorporated herein by this reference.

ARTICLE II. STATE LAW COMPLIANCE

This MOU complies with the provisions of Section 3500 et seq. of the Government Code of the State of California, in that the Employer-Employee representatives noted herein did meet and confer in good faith and did reach agreement on those matters within the scope of representation.

ARTICLE III. LENGTH OF AGREEMENT

This MOU shall be effective January 1, 2022, and shall expire December 31, 2023. Should either party desire to commence the Meet and Confer process for the next subsequent Memorandum of Understanding, they shall notify the other in writing no earlier than one hundred and twenty (120) days prior to the expiration date of this MOU, and the Meet and Confer process shall begin no later than ninety (90) days prior to the expiration date of this Agreement.

ARTICLE IV. SEVERABILITY OF MEMORANDUM

This MOU is severable. Should any article, section, or portion thereof of this MOU be held unlawful or unenforceable by any court of competent jurisdiction, such decision of the court shall only apply to the specific article, section, or portion thereof directly specified in the decision, and the remainder of this MOU shall not be affected thereby.

ARTICLE V. MEMORANDUM OF UNDERSTANDING APPROVAL

It is the mutual understanding of the parties that this MOU is of no force or effect until submitted to, and accepted by, the City Council and ratified by the Local 39 membership.

ARTICLE VI. DEFINITION OF TERMS

3.00.200 Classified service.
"Classified service" (syn. "competitive service") means all positions in the City exclusive of: elected positions; board, committee and commission members; persons engaged under contract; temporary positions; the city manager, assistant city managers, the city attorney, all attorneys employed in the office of the city attorney and all department head positions; all persons holding an assistant department head position who were hired or promoted to that position after March 5, 2014; emergency employees hired to meet immediate requirements of an emergency condition; employees hired for a temporary, seasonal or special purpose, employed in a professional or scientific capacity to conduct an inquiry, investigation, examination or project; volunteer and reserve personnel; and those specifically designated by the Council or these rules to be exempted from classified service.

3.00.330 (A) Regular Employee.

A. "Regular employee" means a classified service employee who has successfully completed the prescribed probationary period and has been retained as provided in these rules.

1. A regular full-time employee is an employee who provides full-time services to the city in a non-temporary capacity and who is compensated at full pay and benefits for the assigned position.

2. A modified schedule employee is a regular employee who provides less than full-time service to the city and who is compensated proportionally to the amount of service provided to the city.

CHAPTER 2. SALARIES

ARTICLE I. SALARIES

A. **General Wage Increase**

Effective January 1, 2022, all employees assigned to the classifications listed in Appendix "A" shall receive a base salary increase of three percent (3%).

B. **Labor Market Adjustments**

Effective the first full pay period in January 2023, the parties agree to use the survey agencies agreed upon for the 2020 Labor Market study. The effective date of the Total Compensation Study survey data is July 1, 2022.

The Total Compensation Study will be based on the same salary and benefit elements and methodology used in the 2020 Total Compensation Study for each classification, which include:

Minimum Base Salary
Maximum Base Salary
Employee's Portion of PERS Paid by the Employer (%)
Employee's Portion of PERS Paid by the Employer
Deferred Compensation
Longevity Pay (Year 10)
Maximum Education/Certification Pay
Education/Certification Pay Notes
Cafeteria Plan
Health (Most Expensive Plan)
Dental
Vision
Life Insurance
Long-Term Disability Insurance
Retiree Health Savings Account (RHSA)
Social Security/Medi-Care
Employee Contributions Towards RHSA
Employer Portion of Retirement Paid by the Employee

The Total Compensation Study will be prepared at the City's expense and the City will provide a draft of the result of the Total Compensation Study to Local 39 for comments and to review for accuracy no later than October 14, 2022. The Local 39 will provide any comments regarding the accuracy of the Total Compensation Survey no later than October 28, 2022. The City will provide a salary increase for each classification falling below the 55th Percentile of the total compensation market by an amount to match the 55th Percentile market.

C. **Salary Schedule B Salary Ranges: Reduce from 15 steps to 12 steps**

Effective January 1, 2022, the Schedule B salary ranges will be reduced from 15 steps to 12 steps, using the same top and bottom salary steps, establishing 3 percent between salary steps, except for the difference between salary step A to B.

D. All employees hired before February 6, 2016, will remain on the current salary schedule (A) for all listed classifications in the bargaining unit. All such employees will continue on this salary schedule when promoted or transferred to other classifications.

E. Effective February 6, 2016, salary schedule (B) will apply to new hires for all classifications in the bargaining unit. For purposes of this provision, any employee who was initially hired before January 1, 2016 that had a break in City service and was rehired after January 1, 2016 will be deemed a newly hired employee under this provision.

F. Management staff in the Parks, Recreation & Libraries Department will designate in writing three (3) Parks Maintenance Worker I/II and/or Senior Parks Maintenance Workers approved in writing by the department head to maintain their commercial driver's license and operate commercial vehicles/equipment as needed. The designated employees will be compensated at a rate of two and one-half percent (2.5%) of base salary higher than other parks maintenance staff.

G. Management staff in Public Works Department Fleet Services will designate in writing one (1) Warehouse Worker approved in writing by the department head to maintain their commercial driver's license and operate commercial vehicles/equipment as needed. The designated employee will be compensated at a rate of two and one-half percent (2.5%) of base salary higher than other warehouse worker staff.

H. A one and one-half percent (1.5%) of base salary differential will be paid to employees in the classification of Senior Parks Maintenance Worker and Park Maintenance Worker II who possess a Playground Safety Inspector or Certified Pesticide Applicator certification and have been designated in writing by the department head to perform duties related to the certification. The Senior Worker is only eligible for compensation for one (1) of these two (2) certificates depending on area of assignment.

I. The City shall pay two and one-half percent (2.5%) of base salary certificate pay to employees in the classification of Natural Resources Technician who possess an Arborist Certification and who have been designated in writing by the department head to perform duties related to the certification.

J. Management staff in the Parks, Recreation & Libraries Department will designate in writing a minimum of two (2) but not more than four (4) Parks Maintenance Worker I/II and/or Senior Parks Maintenance Workers to maintain a Certified Pool Operator Certificate. The designated employees will be compensated at a rate of two and one-half percent (2.5%) of base salary.

K. Management staff in the Environmental Utilities Department will designate in writing a maximum of two (2) staff to maintain a crane certification. The designated employees will be compensated at a rate of two and one-half percent (2.5%) of base salary.

L. Public Works Fleet Services Management staff will designate four (4.0) employees who need to maintain a DOT Tanker Endorsement based on operational needs. The designated employees who possess the required DOT Tanker Endorsement will be compensated at a rate of one percent (1%) higher than their base hourly pay rate.

M. Management staff in the Public Works Fleet Services will designate in writing Senior Mechanic, Mechanic and/or Equipment Service Workers to maintain a crane certification. The designated employees will be compensated at a rate of two and one-half percent (2.5%) of base salary.

N. Management staff in the Public Works Fleet Services will designate in writing Senior Mechanic, Mechanic and/or Equipment Service Workers to maintain a Government Fleet Program Smog Check Inspector certification. The designated employees will be compensated at a rate of one percent (1%) of base salary.

O. City shall compensate employees who are certified by the Human Resources Department as Spanish speaking at the rate of $46.15 bi-weekly ($100.00 per month). At the discretion of the Department Head and upon certification by the Human Resources Department, employees may be compensated $100.00 per month for other languages used including sign language during the course of employment. However, $100 per month bilingual pay is the maximum amount an employee may receive no matter how many languages the employee is certified to speak.

P. Streets Division Certified Pesticide Applicator Differential:
Effective February 6, 2016, employees in the classifications of Street Maintenance Worker II and Senior Street Maintenance Worker who have been designated in writing by the department head to perform duties related to the certification and who possess a Certified Pesticide Applicator certification shall be eligible for a 1.5% of base salary differential.

Q. The City shall pay a two and one-half (2.5%) of base salary differential to employees in the classification of Refuse Truck Driver I or Refuse Truck Driver II, who possess and maintain a Class A commercial driver's license with applicable endorsements and operate commercial vehicles/equipment as needed. A maximum of three employees may be designated in writing by the department head to receive the differential.

R. Management staff will designate the number of employees who need to possess a USA Locator certification based on operational needs. The designated employees who possess the required USA Locator certification will be compensated at a rate of one percent (1%) higher than their base hourly pay rate.

S. Reopener Provision:
City may reopen the terms and conditions if any of the following occur:

1. City loses the ability to collect, levy or transfer revenues in the amount of one million dollars ($1M); or
2. The Roseville electorate, by local ballot initiative, approves the elimination of revenue currently levied or collected in the above amount.

City shall identify Local 39's proportionate share of any revenue shortfall.

In the event other revenues increase and exceed the amount of any lost revenue, City will not exercise the reopener clause; however, any future increase in revenues must clearly offset general fund expenditures.

REGISTRATION PAY

A five percent (5%) differential will be paid to employees in engineering classifications who possess a California Professional Engineer Certificate (PE), where it is not a requirement of the classification.

CERTIFICATION PAY

Employees in the Environmental Utilities Department will have the ability to earn a maximum of three percent (3%) (cumulative) in certification pay. Employees have the opportunity to earn Certification Pay as shown in the tables below:

	Water Treatment Plant Operator	**%**
Water Treatment Plant Operator 3	Water Treatment Plant Operator 4,5 (DPH) (cumulative) Distribution Operator Grade 2, 3 (DPH) (non-cumulative)	1% 1%
Water Treatment Plant Operator 2	Water Treatment Plant Operator 3,4,5 (DPH) (cumulative) Distribution Operator Grade 2, 3 (DPH) (non-cumulative)	1% 1%

	Wastewater Treatment Plant Operator	**%**
Wastewater Treatment Plant Operator 4	Wastewater Treatment Plant Operator Certificate 5 (SWRCB)	1%
Wastewater Treatment Grade 3 Operator, Shift Operator	Wastewater Treatment Plant Operator Certificate 4, 5 (SWRCB) (cumulative) CWEA Collections Grade 1 (DPH) Laboratory Certification, Level 1	1% 1% 1%

	(CWEA)	
Wastewater Treatment Grade 2 Operator	Wastewater Treatment Plant Operator Certificate 3, 4, 5 (SWRCB) (cumulative)	1%
	CWEA Collections Grade 1	1%
	Laboratory Certification, Level 1 (CWEA)	1%

ARTICLE II. SERVICE TERM BONUS

City will provide the following service term bonus:

1. Employees hired prior to February 6, 2016:

SERVICE TERM	ANNUAL BONUS AMOUNT
Beginning of the 10th year	2.5% of base salary
Beginning of the 15th year	An additional 2.5% of base salary

Such service term bonus shall be included in each eligible employee's biweekly payroll.

2. Employees hired on or after February 6, 2016 who receive a satisfactory or above annual performance review shall be eligible for an annual lump sum performance bonus as follows:

Service Term	Annual Bonus Amount
Beginning of 10th year to completion of 14th year	2.5% of employee's base salary
Beginning of 15th year and every year thereafter	5.0% of employee's base salary

The annual lump sum performance bonus shall be paid with the first full pay check in January each year based upon the employee's base salary for the first full pay period in November of each year.

ARTICLE III. OVERTIME AND HOLIDAY WORK

(Refer to Personnel Rules Section 3.11.070)

A. Overtime work may be required of any employee in order to meet special or unusual needs of service beneficial to the city and community. Overtime is defined as the paid time in excess, and as an extension, of the normal schedule of work hours as illustrated below:

Employee Work Schedule	Overtime
Eight hours per day, five days per week (5/8 plan)	Over forty hours per week Saturday - Friday
Ten hours per day, four days per week (4/10 plan)	Over forty hours per week Saturday - Friday
Flex 40 schedule	Over 40 hours per week Saturday-Friday
Twenty-four hours per shift (56 hour work week)	Over twenty-four hours per shift for shift extensions (see subsection “F”)
A 9/80 schedule approved by the City Manager in writing	Over forty hours per FLSA week. The week varies based upon the employee’s 9/80 schedule

B. Overtime in excess of eight (8) minutes or more shall be compensable and shall be rounded to the nearest fifteen (15) minutes.

C. Overtime shall be compensable in increments of fifteen (15) minutes.

D. Overtime shall be compensable at the rate of one and one-half (1 ½) times the employee's base hourly rate except as noted in Subsection "E" of this section.

E. Emergency (unscheduled) Overtime. Regular employees shall be compensated at double the employee's normal hourly rate when working overtime between the hours of 10:00 p.m. to 6:00 a.m. Overtime hours worked before or after the hours noted above will be paid in accordance with Subsection “D.”

In the event that the City Council or the Governor declare a state of emergency, employees will be compensated at a rate of one and one-half (1 ½) times the employee’s base hourly rate for all overtime hours worked during the declared emergency period.

F. Employees in the Water/Wastewater Treatment Plants who work a twenty-four (24) hour shift shall be compensated as follows for overtime worked:

1. Emergency Overtime. Emergency overtime shall be compensated at double the employee's normal hourly rate. "Emergency Overtime" is defined as all calls in which the employee is called back to work on their normal day off to assist at a major incident.

2. Regular Overtime. Regular overtime shall be compensated at one and one-half (1-1/2) the employee's normal hourly rate. “Regular Overtime" is defined to include all extra shift assignments, special assignments and other assignments not specifically mentioned in Subdivision 1 of this subsection. Emergency calls during an extra shift assignment shall be compensated at the regular overtime (one and one-half) rate.

3. Shift Extension. If an employee is called to work early or is worked beyond their normal work shift, compensation for overtime shall be calculated in accordance with Subsection "C" of this section.

4. Holidays, sick leave, compensatory time off, vacation leave, paid leave time, and floating holidays are considered time worked for the purposes of computing overtime.

5. Workers' Compensation leave, leave without pay requested by the employee, suspension or disciplinary action and a short week worked by a new employee are those occasions which are not to be considered as time worked for the purpose of computing overtime.

6. No employee may be required to work overtime during any scheduled workweek in which that employee is on an unpaid status due to disciplinary action.

G. Incidental Overtime. Those employees assigned to a twenty-four (24) hour work shift will be compensated for incidental overtime for overtime of eight (8) hours or less. If an employee works more than eight (8) hours of overtime, the entire eight-hour period shall be compensated at the regular overtime rate. The incidental overtime rate is computed based on the hourly wage of an eight-hour per day employee. The regular overtime rate is based on a twenty-four (24) hour shift assignment, i.e., 2912 hours annually.

H. Compensatory Time. Compensatory time shall be governed as follows:

1. Regular and probationary employees may, with the prior approval of their supervisor, accrue compensatory time in lieu of overtime pay. The accrual rate for compensatory time shall be one and one-half (1-1/2) hours for each hour of compensatory time worked.

2. Once an employee has been credited with compensatory time, the employee may not receive a lump sum payment for the hours accrued unless the employee is separated from City service.

3. Upon separation the employee will be paid at the employee's current hourly rate or average of last three (3) years whichever is higher for the remaining compensatory balance.

4. Maximum accumulation of compensatory time shall be reduced as follows:
    a. Effective January 1, 2020, the maximum accumulation of CTO shall be one hundred sixty (160) hours;
    b. Effective January 1, 2022, the maximum accumulation of CTO shall be one hundred (100) hours;
    c. Employees with CTO balances above the maximum cap on January 1, 2022, shall be allowed to maintain said balances but shall not be allowed to accrue additional CTO hours until their balance drops below the cap.

5. The employee's immediate supervisor shall determine whether an employee shall accrue compensatory time or paid overtime. However, the supervisor shall not deny the request for compensatory time for arbitrary or capricious reasons.

6. An employee may use up to eighty (80) hours per calendar year of accrued compensatory time with prior approval from the employee's manager or first-line supervisor.

I. Employees assigned to shift work in the Water and Wastewater treatment plants, whose regular work schedule requires work on a holiday shall be compensated at their straight time hourly base rate of pay for performance of work on holidays. Compensation for holidays worked for such employees shall be in accordance with this MOU.

J. Employees who are entitled to take holidays off work as holidays occur, and who are required to work on a holiday when they would otherwise observe the holiday off, shall be compensated by either of the following methods, the choice of which shall be made by the employee's supervisor in advance of such work:

1. If an employee works the holiday and does not receive any other scheduled workday off in lieu of working the holiday, the employee shall be compensated at the rate of regular pay plus time and one-half the employee's base hourly rate (for the actual number of hours worked on the holiday).

2. If an employee works the holiday and receives another scheduled workday off in lieu of working the holiday, the employee shall be compensated at the rate of time and one-half (1 1/2) the employee's base hourly rate for the actual number of hours worked on the holiday. Under this option, the employee must be given another scheduled workday off within the period of five (5) working days before to five (5) working days after the worked holiday with corresponding notations upon appropriate payroll reports.

ARTICLE IV. SLEEP SHIFT AND MEAL TIME PERIODS FOR TREATMENT PLANTS

A. During each 24-hour shift, employees shall have an eight-hour period designated as sleep time. Except as provided herein, this sleep time shall be uncompensated and not counted as “hours worked” for purposes of calculating pay and overtime pay.

B. During each 24-hour shift, employees shall be entitled to meal periods as follows: Forty-five (45) minutes for breakfast, one (1) hour for lunch and one (1) hour for dinner. Each such period shall be compensated and be counted as “hours worked” for purposes of calculating pay and overtime pay. Employees are obligated to respond to work situations during meal periods without additional compensation.

C. Employees shall make daily written reports of periods when their sleep periods are interrupted by emergencies or other work requirements. When sleep periods are interrupted, the employee shall be entitled to a minimum of two (2) hours, regardless if the hours actually worked are less than two (2) hours. Multiple interruptions shall not entitle the employee to more than two (2) hours Sleep Shift Overtime (SSOT), unless the actual time worked exceeds two (2) hours, provided, however, that per Fair Labor Standards Act (FLSA) regulations if any employee is unable to get five (5) hours of uninterrupted sleep, then the entire eight (8) hour period shall be counted as hours worked.

D. When employees work three shifts (72 hours in a week) City shall count eight (8) of the twenty-four (24) hours of sleep as “hours worked” for purposes of calculating overtime. For overtime calculations pursuant to this section, “hours worked” shall not include paid time status, but only actual time worked.

ARTICLE V. WORKING IN A HIGHER CLASS

(Refer to Personnel Rules Section 3.07.080)

The principle for paying employees for performing higher level job responsibilities due to operational necessity is based on such considerations as: the employee's ability and qualifications to perform at a higher level, whether the employee would be required to perform only routine or a significant range of the higher job responsibilities, whether the lower level position is in direct line and job scope of the higher class, and the length of time necessary for an employee to perform in a higher class.

The purpose of compensating employees for performing work in a higher class is to establish a system by which employees will continuously receive a pay rate comparable to those job factors that establish pay for each class of work in City service. Authorization for an assignment to work in a higher class must be given by the employee's supervisor and, except under emergency circumstances, requires advance approval of the department head, Human Resources Director and City Manager. The following conditions shall prevail as the definition and standards of compensation:

A. Employees are required to work at least four (4) hours in the higher class to receive the higher class pay, except in classifications where employees are required to operate heavy equipment that is paid at a higher level; in such cases employees will be eligible for higher class pay after one (1) hour of continuous work.

B. Compensation in excess of an employee's regular base salary rate shall not be authorized for work in a higher class unless such employee is in all respects qualified to perform in the higher class and required to perform at least a substantial range of the more essential tasks of the higher class. Additionally, if an employee is temporarily assigned to perform work that is generally within the scope of their current class, but the work assignment is normally performed by a higher class due to the nature or scope of such work, then the temporarily assigned employee shall not receive additional compensation for performance of their normal and customary duties as prescribed by their regular classification.

C. Employees assigned to work in a higher class, who are both qualified and required to perform at least a substantial range of the higher tasks, shall be compensated for the time worked in the higher class as follows:

    1. Compensation shall be five percent (5%) more than the employee’s current salary rate in the lower class unless the difference between classifications is less than five percent (5%). In the event that the top step in the higher range is less than five percent (5%), the employee will be compensated at the top step in the higher class.

    2. Employees assigned to management classifications shall be compensated ten percent (10%) more than the employee’s current salary rate in the lower class or five percent (5%) below Step A of the higher class, whichever is more. In the event that the top step in the higher range is less than ten percent (10%), the employee will be compensated at the top step in the higher class.

    3. Employees assigned to work in a higher class for thirty (30) calendar days or less shall be compensated pursuant to items C1 or C2 above only for actual hours worked, i.e., the out of class compensation shall not be applied to any non-productive time, such as leave time, compensatory time off (CTO), or holiday pay taken during the out of class

assignment. Employees assigned to work in a higher class for more than thirty (30) calendar days shall be compensated at the out of class rate of pay for all time worked and any non-productive time taken during that portion of the out of class assignment that exceeds thirty (30) calendar days.

D. Work periods in higher-class assignments shall not apply toward seniority for layoff purposes as regard the higher class or time-in-class consideration for lay-off purposes as regards the higher class.

E. Temporary Acting Pay

An employee temporarily assigned in writing to an acting position in a classification with a higher salary range shall be compensated for the duration of the acting assignment by the payment of ten percent (10%) of the regular salary the employee received prior to the acting assignment, or the salary provided for in Step A of the higher classification, whichever is greater, but not to exceed top step of the higher classification for all time worked and any leave time paid. The higher classified position must be temporarily vacant due to a long-term absence of the incumbent or pending the filling of a vacant position. The temporary acting pay assignment shall be for a minimum of two full-time pay periods and limited to one year. Authorization for a temporary acting assignment must be given by the employee's supervisor and requires advance approval of the Department Head, Human Resources Director and City Manager.

ARTICLE VI. STANDBY

City agrees to the following standby provision concerning represented employees:

A. Employees assigned to standby duty shall be compensated per the following schedule:

Monday-Friday Standby	1.5 hours straight time rate per day
Saturday, Sunday & Holiday Standby	3 hours straight time rate per day
Weekly Standby	13.5 hours straight time rate per week

B. Such payment shall be in addition to the overtime payments, which may be payable for call backs pursuant to City Personnel Rules and Regulations. However, employees shall not be compensated at a minimum of two (2) hours of overtime pay for incidents occurring within the time frame of an original call. For example, an employee has been called back, completes the task in one-half (1/2) hour and gets another call before leaving to return home. In this case, the employee would not receive a minimum of two (2) hours of overtime pay for the second and subsequent calls. If the employee returns home and receives subsequent callbacks, the employee would be entitled to a minimum of two (2) hours pay for that (those) call(s). An employee on weekend standby may be authorized to take a City vehicle home, provided the employee lives within the area bound by heavy black lines on the attached map (Appendix B).

C. Cumulative time spent in excess of fifteen (15) minutes or more shall be compensable as a call back. Cumulative time spent from eight (8) to fifteen (15) minutes on work calls during standby shall be rounded to 15 minutes and compensated as overtime. This applies only to phone calls received while on standby which do not require call out.

D. Departments shall make standby assignments voluntary whenever practical.

ARTICLE VII. SHORT NOTICE SHIFT ADJUSTMENT

Any employee involved in a mandatory permanent change of schedule which involves a modification in an employee's starting time or days off will be given a minimum of five (5) working days' notice.

This provision may be waived in emergency situations as determined by the department head or his/her designated authority.

ARTICLE VIII. MEALS

All classified employees required to work due to an emergency or unscheduled event at least two (2) hours beyond or prior consecutive hours to their normal work shift shall be eligible for meals as provided below:

A. Employees required to work two (2) to four (4) extra hours shall be entitled to one (1) meal break.

B. Employees required to work at least eight (8) extra hours shall be entitled to two (2) meal breaks.

C. Employees required to work at least twelve (12) extra hours shall be entitled to three (3) meal breaks.

D. In no event shall an employee be entitled to more than three (3) meal breaks in a given twenty-four (24) hour period.

Arrangement for meals shall be as follows:

A. City may provide a meal by bringing food to the work site.

B. City may allow the employee to go to a restaurant of his/her own choice for a period of one-half (1/2 hour), during which time the employee shall be on paid time, and the City shall reimburse the employee $20.00 for each meal on their next regular paycheck.

C. If circumstances permit, the supervisor, in lieu of options contained in paragraphs A and B, may authorize the employee to go home on paid time and consume a meal at no cost to City for a period not to exceed one (1) hour.

D. Employees in the plants who are assigned to work a 24-hour overtime shift will be entitled to $30.00 per diem.

ARTICLE IX. PAID LUNCH PERIODS

A. City will provide for a twenty-five (25) minute paid lunch for Child Care Site Coordinator, Assistant Child Care Site Coordinators, Youth Development Program Coordinators, night shift mechanics, night shift street sweeper operators, and custodians.

B. Refuse truck drivers and solid waste maintenance staff will work a straight eight-hour work schedule with no recognized lunch period.

ARTICLE X. UNIFORM AND SAFETY SHOE/WORK BOOT PROVISIONS

A. Subject to A (3) below, the City agrees to continue to provide two (2) options for a uniform allowance. Each division will determine whether they will receive the City-provided/laundered uniform or a uniform allowance.

1. City agrees to provide eligible employees within divisions who have elected the allowance with a $300.00 uniform allowance per year for shirts, pants, and shorts payable in January of each year of the contract. The value of the uniform allowance is reported to CalPERS as compensation subject to retirement contributions for employees in the classic retirement tier (not PEPRA).

OR

2. Entire divisions may elect to receive eleven (11) shirts and pants/shorts per employee to wear during working hours, which will be cleaned and maintained by the City. This decision will be for the balance of the contract period. The rental and maintenance of the uniform will be up to $500 each fiscal year based on the cost of renting and laundering of the uniform. The value of the uniform provided, cleaned and maintained, is reported to CalPERS as compensation subject to retirement contributions for employees in classic retirement tiers (not PEPRA). This excludes the monetary value for personal health and safety equipment.

3. For safety reasons, the City reserves the right to deny an employee's request to wear shorts.

B. City agrees to continue to provide a safety boot/shoe allowance of $250.00 per year payable in January of each year of the contract.

1. The prescribed shoe or boot must be appropriate to job class and must meet CAL-OSHA (ANSI) regulations. In addition, the boots must meet the following criteria:
    - All safety work boots/shoes must be approximately six (6) inches in height measured from the insole to the top of the upper (for maximum ankle support).
    - All safety work boots/shoes must have slip resistant soles.
    - All boot/shoes will have reinforced toes.

2. Employees receiving the boot/shoe allowance are required to wear the prescribed boot/shoe whenever conditions require it or be subject to disciplinary action. City reserves the right to determine if a shoe or boot is appropriate to job class in conformance with Section B.

C. It is understood that by the provision of such uniform apparel, designated employees are required to wear such uniform apparel during all duty hours and to maintain a clothing standard that would be consistent with appropriate representation of the City. Regardless of selected option, uniforms must be kept in a well maintained, repaired, and clean condition.

D. Employees in the Parks, Recreation & Libraries Department who are required to work outside in cold weather shall be provided a heavy duty Carhartt type jacket. The City agrees to provide replacement jackets as needed.

CLASSIFICATIONS ELIGIBLE FOR UNIFORM AND/OR BOOT ALLOWANCE

Classification	Uniform Provided or Uniform Allowance	Boot Allowance
Arborist Technician	X	X
Aquatics Maintenance Technician	X	X
Building Maintenance Worker I/II	X	X
Construction Inspector I/II		X
Construction Inspector Supervisor		X
Courier	X	
Custodian	X	
Engineering Technician I/II		X
Equipment Serviceworker	X	X
Industrial Waste Specialist	X	
Industrial Waste Technician	X	
Irrigation Technician	X	X
Laboratory Technician I/II	X	
Mechanic I/II	X	X
Meter Reader	X	
Meter Service Worker	X	X
Natural Resource Specialist I/II	X	X
Natural Resources Worker I/II	X	X
Parks Maintenance Worker I/II	X	X
Parks Project Technician	X	X
Refuse Maintenance Worker I/II	X	X

Vehicle Maintenance Parts Buyer	X	X
Vehicle Maintenance Servicewriter	X	X
Warehouse Worker I/II	X	X
Wastewater Treatment Plant Operator I/II/III/IV	X	X
Water Treatment Plant Operator I/II/III	X	X

As new classifications are added, the City shall determine whether a uniform and/or boot allowance shall be provided based upon the provisions set forth in this Article. The City shall meet and confer with local 39 regarding its decision.

E. All new employees, after completing their first six months of employment, will receive a pro-rated amount of uniform allowance based on the number of months remaining in the calendar year if their division selects the allowance. All new employees who are required to wear safety boots on the job shall receive an immediate pro-rated boot allowance based on the number of months remaining in the calendar year. At the discretion of the department head, a new employee may be provided with safety boots to ensure compliance with Section B.

F. New hires get the selection that the division has made for the year (i.e. allowance or uniform service).

G. Employees who transfer midyear stay with the annual election they have made until the new election period arises.

H. No employee reimbursement of uniform allowance is required when a Local 39 employee is promoted into management or any other non-uniformed classification.

ARTICLE XI. EMPLOYEE TOOL ALLOWANCE

Regular employees in the classes of Equipment Service Worker, Mechanic I/II, and Senior Mechanic shall receive an annual tool allowance of one thousand dollars ($1,000) per fiscal year. The purpose of this tool allowance is to reimburse employees for expenses incurred in the purchase, upgrade and maintenance of personal hand tools. Employees hired after the start of the fiscal year shall receive a prorated allowance.

Employees shall maintain a set of adequate and appropriate hand tools to be used in the performance of the employees' duties with the City. Such tools are and shall remain the property of the employee.

At least once each year employees shall submit an inventory of personal hand tools (Tool List) to the City. The Tool List shall identify all hand tools used by the employee in the performance of his/her duties with the City.

When an employee purchases a new hand tool, it is the responsibility of the employee to update his/her Tool List and submit it to the City.

Damaged individual tools not covered by manufacturer’s warranty will not be reimbursed by the City.

Employees may submit claims for the replacement of tools lost due to a catastrophic event, unusual circumstances, or theft. All claims for replacement tools shall be approved by the department head whose decision shall be final. Denied claims for replacement tools shall not be subject to the grievance procedure.

ARTICLE XII. REST PERIODS

City will provide a fifteen (15) minute rest break for every four (4) hours of work. Authorized rest period time taken shall be counted as time worked.

ARTICLE XIII. REST PERIOD BETWEEN WORKDAYS

It is the intent of this Article to provide for and insure a reasonable amount of rest for employees who may be required to work an extraordinary number of overtime hours between workdays or on a continuous emergency work schedule. In such circumstances, the City agrees to the following provisions as a means of assuring adequate rest, and the prevention of fatigue and safety hazards.

A. Rest Period Between Workdays

1. If an employee has worked for four (4) or more hours during the eight (8) hour period immediately preceding the beginning of his/her regular work shift, he/she is entitled to a four (4) hour rest period upon the completion of such overtime work.

2. If an employee has worked for six (6) or more hours during the twelve (12) hour period immediately preceding the beginning of his/her regular work shift, he/she is entitled to a six (6) hour rest period upon the completion of such overtime work.

3. If an employee has worked for eight (8) or more hours during the sixteen (16) hour period immediately preceding the beginning of his/her regular work shift, he/she is entitled to an eight (8) hour rest period upon the completion of such overtime work.

4. Rest periods are to begin immediately upon employee's release from overtime work. If the rest period in whole or in part overlaps the employee's regular work hours he/she will receive pay at the straight time rate for the extent of the overlap.

5. If the rest period overlaps his/her regular work hours but does not extend into the second half of his/her workday, the employee may be excused from reporting for work until the beginning of the second half of his/her workday. Employee, in advance, will notify supervisor if he/she intends to exercise this option. The employee may request vacation or comp time to make up hours.

6. If the rest period extends into the second half of his/her regular day, the employee may be excused from reporting for work until the beginning of the following workday. Employee, in advance, will notify supervisor if he/she intends to exercise this option. The employee may request vacation or comp time to make up hours.

B. Continuous or Emergency Work Schedule. When, in circumstances of emergencies or other business necessity, it becomes necessary for the City to require a continuous work schedule of twenty-four (24) or more hours of work, employees shall work under close supervision and will be released for rest at the discretion of the department head or designee. In such

circumstances, the employee shall be entitled to the prevailing rate of overtime pay, and shall remain at such rate of pay until released from the work schedule for a minimum of eight (8) hours.

ARTICLE XIV. MODIFIED DUTY ASSIGNMENTS

A. Refer to Administrative regulation 2.17 on Modified Duty for current policy on modified duty assignments.

B.. When an employee is assigned a modified duty assignment, the employee shall be compensated for hours worked at the regular rate of base salary and benefits regardless of whether or not the employee performs work within the regular classified position. If an employee is assigned to a modified duty assignment of less than full time, either accrued sick leave, or other available leave for hours worked may supplement compensation. In this case, the employee should contact the Employment Development Department (EDD) to confirm availability of partial benefits under State Disability Insurance (SDI) Program.

ARTICLE XV. SHIFT DIFFERENTIAL

A. Shift differential for purposes of this Article is defined as a shift of eight (8) hours or more where fifty percent (50%) of the shift falls between the hours of 10 p.m. and 6 a.m. except as otherwise stated in section C below.

B. Any employee who works an assigned regular time shift as described in “A” above, shall be paid an additional two and one-half percent (2.5%) of his/her base hourly rate for each hour actually worked. No shift differential will be paid on sick leave, vacation, CTO or any other time off.

C. Hours worked on overtime, whether the employee is held over, called in to cover a shift or partial shift, or volunteers for an overtime shift, will not be eligible for shift differential pay.

D. This provision does not apply to any shift with allowable sleep time.

CHAPTER 3. BENEFITS

ARTICLE I. HEALTH AND WELFARE PROGRAM

A. Eligibility

Any classified employee working fifty percent (50%) or more of a full-time schedule shall be eligible to enroll in any health and welfare benefit provided by this Article and currently authorized by the Local 39 bargaining unit. Regular part-time employees who are hired into a position funded as regular part-time after January 1, 2005, or current employees who laterally transfer or promote into a regular part-time allocated position will receive a pro-rated amount toward their health and welfare contribution based on actual hours worked. The contribution amount will be based on the percentage of full-time the employee works. For example, employees working twenty (20) hours per week will receive fifty percent (50%) of the full-time contribution; employees working thirty (30) hours per week will receive seventy-five percent (75%) of the full-time contribution, etc.

B. Medical Insurance Benefits

The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. Effective the first of the month after approval by the City Council or as soon as administratively possible, the City's maximum monthly contribution for each eligible active employee shall be equal to the minimum employer contribution required under the Public Employees' Medical and Hospital Care Act (PEMHCA).

C. Cafeteria Plan

1. The City agrees to maintain a Cafeteria Plan, pursuant to Section 125 of the Internal Revenue Code or any related regulations, for the purpose of providing employees with access to various health and welfare benefits. Benefits available through the Cafeteria Plan include medical insurance, dental insurance, vision insurance and Long Term Disability (LTD) insurance.

2. The City agrees to provide a Cafeteria Plan Allowance to all employees eligible to participate in City sponsored health and welfare benefits under Section A of this Article of up to $1,347.00 monthly (less the direct PEMHCA payment provided in paragraph B) for the term of the agreement.

3. Effective January 1, 2022, the City agrees to provide a flex plan credit based on medical plan tier election (EE only, EE+1, or Family) to be used by active employees for any benefit covered under the Cafeteria Plan, as follows:

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$273/month	$598/month

4. Effective January 1, 2023, the City agrees to provide a flex plan credit based on medical plan tier election (EE only, EE+1, or Family) to be used by active employees for any benefit covered under the Cafeteria Plan, as follows:

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$318/month	$673/month

5. Employees who elect not to participate in any of the medical, dental, vision or LTD insurance benefits sponsored by the City and who provide proof of other medical coverage will not receive any Cafeteria Plan Allowance under Section C(2) of this Article. Instead, employees who opt out of these City sponsored benefits will receive $150 per month reported as taxable income.

6. Any Cafeteria Plan Allowance provided for under Section C(2) of this Article can only be used by an employee to offset the cost of participation in City sponsored medical, dental, vision, and LTD insurance benefits for the employee and any eligible dependents.

D. All employees will be enrolled in the State Disability Insurance (SDI) Program without benefit of election. Employee accepts sole responsibility for payment of any and all costs under this program. All payments will be collected via payroll deduction.

E. City agrees to provide a dental benefit as described in the evidence of coverage document. The City reserves the right to select any dental carrier. The City will provide two (2) cleanings per year (except for periodontal patients who will continue to have four (4) cleanings). Open enrollment will be as described in the evidence of coverage document which will be evaluated regularly and may be changed at the City's discretion in order to manage premiums for the City and represented employees.

F. The City agrees to provide a vision benefit. Details of the City's vision benefit are described in the evidence of coverage document. The City reserves the right to select any vision carrier. Open enrollment will be as described in the evidence of coverage document.

ARTICLE II. RETIREE HEALTH BENEFITS

A. Medical Insurance Benefits

The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. Effective the first of the month after approval by the City Council or as soon as administratively possible, the City's maximum monthly medical insurance contribution for each eligible retired employee shall be equal to the minimum employer contribution required for active employees under the Public Employees' Medical and Hospital Care Act (PEMHCA).

The parties agreement to move from the CalPERS equal contribution method to the PEMHCA minimum employer contribution method does not modify retiree health benefits for employees in Tiers I and II pursuant to Article II B and C below.

B. For Employees Hired Prior to January 1, 2005 (Tier 1)

Employees hired prior to January 1, 2005 that qualify for post-retirement health benefits shall qualify for such benefits based on rules in effect prior to January 1, 2005, i.e. an employee that retires from the

City of Roseville and is eligible for CalPERS service retirement shall receive a City contribution towards their post-retirement medical insurance benefit at the same level as full-time regular employees covered by this Agreement.

C. For Employees Hired On or After January 1, 2005 and Prior To January 1, 2014. (Tier 2)

For employees hired on or after January 1, 2005 and prior to January 1, 2014, to be eligible to receive post-retirement health benefits, an employee must complete at least five (5) years of CalPERS-credited service with the City of Roseville. Employees who retire from the City of Roseville after meeting the service requirement stated above and who have at least ten (10) years of CalPERS-credited service will receive a City contribution towards their post-retirement health benefits as follows:

Total Credited Years of Service	% of City Contribution
10	50 %
11	55
12	60
13	65
14	70
15	75
16	80
17	85
18	90
19	95
20 +	100

Employees who have CalPERS-credited service through other public agencies must complete at least five (5) years of service with the City of Roseville and retire from the City of Roseville to be eligible for post-retirement health benefits. However, once an employee has completed five (5) years of service with the City of Roseville, their eligibility for post-retirement health benefits will include all years of CalPERS-credited service.

The vesting requirements for post-retirement health benefits will become effective January 1, 2005. Employees hired on or after January 1, 2005 shall be subject to the above post-retirement vesting schedule for health benefits.

D. For Employees Hired On or After January 1, 2014. (Tier 3)

1. Employee hired on or after January 1, 2014 shall have no vested right in any post-employment medical benefits provided by the City of Roseville. Instead, upon hire, those employees shall contribute one percent (1%) of their base salary each pay period to a City sponsored Retirement Health Savings (RHS) account and shall contribute an additional one percent (1%) per pay period per year annually, up to a maximum of five percent (5%) per pay period annually thereafter, to be used to fund the employee's medical costs upon retirement from the City.

2. After five (5) years of continuous service with the City of Roseville, and beginning on the first pay period of the sixth year of service, the City shall contribute a flat dollar amount equal to $100 per month to be deposited to the employee's RHS account up until the employee's retirement date or separation from the City. After accruing ten (10) cumulative years of service with the City and pursuant to the

vesting schedule in Section C of this Article, employees may draw from the City contribution to this account upon retirement.

3. Employees who terminate City service for reasons other than retirement prior to twenty (20) years of cumulative service with the City will forfeit any City contributions.

4. Employees must retire from the City of Roseville and be enrolled in the City of Roseville's health plan in order to utilize City contributions to the employee's RHS accounts. After ten (10) years of cumulative service with the City of Roseville, City contributions to the employee's RHS account may be used for all covered medical expenses pursuant to Section 213 of the IRS Code including participation in non-City sponsored plans.

ARTICLE III. PERS /OTHER POST EMPLOYMENT BENEFITS

In the event that the City wants to explore leaving CalPERS medical during the term of this Agreement, a committee will be formed with representatives from all six (6) bargaining groups (Local 39, IBEW, RPOA, RPA, RFF, and Management/ Confidential).

The committee will work towards consensus in all decision making. Minimum requirements from all bargaining groups will be submitted to the committee for consideration and will be met if reasonably possible at the time that alternative health care insurance is considered.

If unable to reach consensus on staying in/withdrawing from PEHMCA, each bargaining group will have the option of taking the committee's majority proposal to their membership. After membership review, the committee will continue discussions toward consensus.

If groups representing two thirds (2/3's) of the employees and representing at least fifty-one percent (51%) of the employees cannot decide on an alternative health care plan, the City will not leave PEHMCA.

If it is decided to change, management will make its best effort to find plans that mirror CalPERS plans and meet the minimum requirements agreed upon by the committee. There will be at least one (1) portable plan and at least one (1) plan that provides for no lifetime maximums.

Local 39 actives and retirees will be covered by the same health benefit provider(s) and will have the same levels of coverage.

If information comes to light that changes the fiscal viability of withdrawing from PEHMCA, and the City does not have time to take the information back to the committee for review, the City reserves the right to make the final determination to remain in PEHMCA. City does not reserve the right to pull out of PEHMCA without the approval of the committee.

The parties agree to meet during the term of this MOU to continue discussing Retiree Health Benefits.

ARTICLE IV. LONG TERM DISABILITY PLAN

A. City agrees to maintain a Long Term Disability (LTD) program consisting of a sixty (60) calendar day qualifying period; whereupon an eligible employee shall be entitled to receive sixty percent (60%) of his/her gross monthly salary in accordance with the LTD Plan. Other details of City's

LTD Plan are described in the plan booklet.

B. After five (5) years as a regular employee of the City, City agrees to pay one hundred percent (100%) of the premium for the LTD Plan.

ARTICLE V. DEFERRED COMPENSATION

A. City agrees to maintain a voluntary program of employee funded deferred compensation for classified full and part-time employees. It is understood that City is solely responsible for selection of the deferred compensation plan and plan administrator(s).

B. Effective June 30, 2012, the City agrees to contribute three percent (3%) of the employee's base wages into the deferred compensation plan for employees who have completed five (5) continuous years of classified employment with the City of Roseville.

ARTICLE VI. PUBLIC EMPLOYEES RETIREMENT SYSTEM

A. Retirement System. Unit members are provided retirement benefits under the California Public Employee Retirement System (CalPERS) as described in this Article.

B. Tier One: 2.7% at 55 Retirement Program – Bargaining Unit Members Hired On or Before December 31, 2012 and Unit Members Qualified for Reciprocity (Classic Member)

This Section B, including subsections, shall apply to bargaining unit members hired on or before December 31, 2012. In addition, this Section B shall apply to bargaining unit members hired on or after January 1, 2013, who are qualified for pension reciprocity as stated in Government Code Section 7522.02(c) and related CalPERS reciprocity requirements (Classic Member):

1. 2.7% at 55 Pension Formula

The "2.7% @ 55" retirement program will be available to bargaining unit members covered by this Section.

2. Final Compensation Based On 12-Month Period

For the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by this Section B shall mean the highest twelve (12) consecutive month period as specified in Government Code Section 20042.

3. Required Contributions

Bargaining unit members covered by this Section B shall continue to pay, through payroll deduction, 8.0% of compensation earnable contribution to CalPERS. 6.197% shall be contributed toward the City's pension costs, and 1.803% shall be contributed toward the employees' pension contribution.

The City shall pay 6.197% of compensation earnable as EPMC (Employer Paid Member Contribution) and shall report the same percent (value) of compensation earnable as special compensation pursuant to Government Code Section 20636(c) (4).

C. Tier Two: PEPRA Retirement Tier Required For Bargaining Unit Members Hired On or After January 1, 2013 and Not Qualified For Reciprocity

This Section C, including subsections, shall apply to bargaining unit members who were hired on or after January 1, 2013, and who do not qualify for pension reciprocity as stated in Government Code Section 7522.02(c).

1. 2% at 62 Pension Formula

The "2% @ 62" retirement program will be available to bargaining unit members covered by this Section C.

2. Final Compensation Based On 36 Months

Effective January 1, 2013, for the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by this Section C shall mean the highest annual average pensionable compensation earned during thirty-six (36) consecutive months of service.

3. Required Bargaining Unit Member Contributions

As required by Government Code Section 7522.04(g), effective January 1, 2013, bargaining unit members covered by this Section C shall pay, through payroll deduction, fifty percent (50%) of normal costs as determined by CalPERS.

D. Other Options Included In CalPERS Contract

Unit members continue to be eligible for the following options included in the City's contract with CalPERS:

- Government Code Section 20965 (Conversion of unused sick leave balance to service credit.)
- Government Code Section 21573 (Third Level of 1959 Survivor Benefits).
- Government Code Section 21548 (Pre-Retirement Option 2W Death Benefit).

ARTICLE VII. EMPLOYEE ASSISTANCE PROGRAM

A. City agrees to continue to provide an Employee Assistance Program (EAP), which allows for six (6) paid counseling visits for each employee and each dependent family member per calendar year. City reserves the right to select the program provider.

ARTICLE VIII. LIFE INSURANCE

A. City agrees to provide eligible employees with a fully paid term life insurance program in the amount of twice the annual salary in effect as of July 1st of each year as provided in the Evidence of Coverage. City reserves the right to select the insurance provider.

CHAPTER 4. LEAVES

ARTICLE I. HOLIDAYS -- GENERAL

A. The following holidays shall be observed by the City with respect to all employees, except shift employees in the water/wastewater treatment plants. City offices shall be closed on these days except as otherwise provided herein:

1. January 1st (New Year's Day)

2. The third Monday in January (Martin Luther King's Birthday)

3. The third Monday in February (Washington's Birthday)

4. The last Monday in May (Memorial Day)

5 July 4th (Independence Day)

6. The first Monday in September (Labor Day)

7. November 11th (Veteran's Day)

8. The day in November appointed by the President of the United States as Thanksgiving Day

9. The day immediately following Thanksgiving Day

10. December 25th (Christmas)

11. Sixteen (16) hours (floating holiday) to be taken any time during the calendar year by employees who have completed at least six (6) months probationary service (pro-rated for part time regular employees). The number of floating holiday hours to be credited to a new employee hired after January 1 shall be pro-rated based on the number of full months employed during that year. Employees unable to complete six (6) months of probationary service prior to December 31 shall not accrue or be eligible for any floating holidays that year. The employees and the employee's supervisor shall jointly determine a convenient date to take such leave.

B. If January 1st, July 4th, November 11th, or December 25th falls on a Saturday, the preceding Friday shall be a holiday; if any such day falls on a Sunday, then the following Monday shall be a holiday. If a holiday occurs on the employee's first normal day off, the employee shall take the preceding day as the holiday; however, if the holiday occurs on the employee's second consecutive normal day off, the employee shall take the following day as the holiday. This policy shall be adhered to where practical and may be modified only by written consent to other conditions by the department head.

If an employee has taken more holidays than have been earned at the time of separation from service, the City may deduct an equivalent amount of pay for the holidays taken in advance from the employee's final check.

C. Christmas Holiday Week Time Off

Employees may request in writing to take off one (1) or more days during the City's designated Christmas holiday week. Approval shall be subject to the operating needs of the City. Employees approved for this time off may use accrued vacation leave, holiday time, compensation time off and/or leave without pay.

HOLIDAYS - TREATMENT PLANTS

A. Treatment Plant non-shift employees shall receive ten (10) holidays per year to be taken as they occur as well as two (2) floating holidays per year.

B. Treatment Plant shift employees shall receive six (6) fully paid holiday shifts per year, in advance, on January 1st of each year, earned in twelve (12) hour increments for each one (1) month of continuous employment. Employees may take holidays in full shifts or half shifts, but may take no more than six (6) half shifts during the hours of 0700 and 1900, local time, within a calendar year. Should an employee take six (6) half (morning or a.m.) shifts, the employee may take the rest of the holidays as pay in three (3) full shifts, or as six (6) half (night or p.m.) shifts.

1. In lieu of holiday time off, shift employees may elect to receive straight salary for up to three (3) shifts of earned and unused holiday credit within each calendar year. All holiday time to be converted to pay by an employee shall be in full shift increments. All employees opting for pay may do so only once during any calendar year.

2. All holiday time off is subject to advance approval of the department head.

C. If an employee has taken more holidays than have been earned at the time of separation from service, City may deduct an equivalent amount of pay for the holidays taken in advance from the employee's final check.

ARTICLE II. SICK LEAVE

(Refer to Section 3.12.070 of the Personnel Rules):

A. The objective of this section is to provide methods of furthering the health and general welfare of City employees, as well as ensuring maximum and reasonable job attendance.

Sick leave should not be viewed as a right to be used at the employee's discretion; rather it is a privilege of paid time away from work duties in the event of one (1) of the following circumstances:

1. Actual illness or injury of the employee that occurred away from the job setting, except where such injury/illness occurred in connection with off-duty (outside) employment when an injury is job-related, the employee shall be charged with sick leave usage only to the extent that their salary is not covered by Worker’s Compensation.

2. The employee's exposure to a contagious disease.

3. Where the employee's medical attention to an immediate family member is required. Immediate family member includes any person living in the employee's immediate household and as defined pursuant to Municipal Code 3.00.420.

4. Emergency leave due to the death or imminent death of family members.

B. Accrual/Use: Sick leave is accrued by all classified employees on the basis of biweekly payrolls based upon eighty (80) hours of paid time per pay period for all employees except 24-hour workers whose accrual will be based upon one hundred and twelve (112) hours per pay period. On each day following completion of one (1) month of continuous service, eligible full-time employees shall receive credit for eight (8) hours or one-half (1/2) of a 24-hour shift leave with pay, the total of which shall not exceed twelve (12) days or six (6) shifts in any twelve (12) month period. Sick leave may be used for those purposes listed above. Employees on a modified schedule work assignment shall accrue sick leave on a pro rata basis of hours worked. Maximum accumulation of sick leave shall be unlimited.

Employees may be granted sick leave in minimum units of one-half (1/2) hour for those reasons specified in Subsection A, provided that such time has been earned.

Department heads may require probationary employees to support each incident of sick leave use after the first twenty-four (24) hours of sick leave is taken by use of a medical certification of a health care provider as set forth in section G below.

Employees shall not use sick leave for disabilities determined to be job related, except as provided for in Section 3.12.100 of the Roseville Municipal Code, nor shall employees be allowed to use sick leave for the sole purpose of utilizing such accrued time prior to separation from service.

C. Illness/Injury During Vacation: An employee who becomes ill or injured while on vacation may have such period of illness/injury charged to the employee's accumulated sick leave rather than vacation, provided that:

Immediately upon return to duty, the employee submits to the department head a written request for sick leave, accompanied by a signed statement from the employee's health care provider that complies with section G below.

D. Holidays During Sick Leave Or Disability: Observed holidays occurring during sick leave shall not be counted as a day of sick leave or disability, but shall be regarded as the taking of a holiday.

E. Sick Leave For Immediate Family Care: All classified employees are allowed to use sick leave days for the required care of immediate family members pursuant to Municipal Code 3.12.070(a).

F. Funeral and Bereavement Leave: All regular non-24-hour shift employees may be granted a maximum of sixty-four (64) hours and all regular 24-hour shift employees may be granted a maximum of three (3) shifts of sick leave for each such instance to:

1. Attend the funeral of an immediate family member, grandparents, grandchildren, or in-laws.
2. Deal with matters related to the death of critical illness where death appears imminent of any member of the employee's immediate family.

Requests for funeral and bereavement leave shall be evaluated by the employee's department head to determine the appropriate amount of leave to be granted in each instance.

G. Procedure to Receive Sick Leave: The employee must notify the first level management supervisor in the work unit prior to or not later than one (1) hour after the start of the day's/shift's work of the need for sick leave. In the event sick leave is required by the employee for an unforeseen emergency, department management personnel shall use reasonable discretion in the exercise of requiring notification, and the employee shall immediately request permission for absence and use of sick leave from the available departmental management personnel. An emergency, as used here, refers to funeral or bereavement leave and medical emergencies involving the employee or immediate family members.

Generally, the certificate of a health care provider is not required for sick leave absences of less than five (5) days or two and one-half (2-1/2) consecutive shifts, unless it is deemed necessary for the protection of the City's interests, and in cases of probationary employees when required by the department head. However, absences of five (5) days or two and one-half (2-1/2) shifts may be required to be supported by a medical certificate by a health care provider.

Generally, a department director may require that the employee provide written certification from a health care provider when he/she has been absent due to illness or injury for more than five consecutive days. However, the City reserves the right to require a medical certification. The certification must include:

1. The employee’s name
2. The name and address of the health care provider.
3. A statement by the health care provider that the employee is under the care of the health care provider and that the illness/injury prevents the employee from performing his/her duties.
4. Date(s) employee was seen or will be seen by the health care provider.
5. Certification must be provided by the health care provider.

If, in the opinion of the department head or the Human Resources Director, any single occurrence of an employee's use of sick leave was in connection with a condition that may be detrimental to the health and welfare of other employees, either of these officers may require the employee to obtain a medical release by a physician of City's choice and at City's expense.

In all instances of sick leave, certification of approved or disapproved use shall be made by the employee's supervisor. The Human Resources Director will prescribe all forms related to City's sick leave use policy, and shall maintain accurate records of sick leave use, including annual surveys to determine possible corrective measures. The Human Resources Department is available to hear any concerns regarding the medical certification process.

H. Sick Leave Without Pay: Upon written request of an employee, the Human Resources Director may grant leave without pay due to personal illness/injury for up to thirty (30) calendar days and

may grant extensions up to a total maximum period of ninety (90) calendar days. Extensions of sick leave without pay up to a maximum of an additional ninety (90) calendar days must be approved by the City Manager. The initial and subsequent requests for sick leave without pay must be accompanied by a physician's certificate stating the nature and approximate duration of medical disability.

I. Abuse of Sick Leave: The sick leave program is designed to provide employees with two benefits: (i) available paid leave for a reasonable amount of short-term illnesses, and (ii) provide a savings bank of time to ensure available paid leave for long-term illnesses. In order to ensure that the sick leave program is being utilized for both purposes, all City employees are monitored to ensure that their usage of the sick leave benefits is not abusive.

However, employees found to have claimed sick leave fraudulently will be handled through City's disciplinary process separate from this section.

This section is not intended for those City employees who have been identified as having chronic medical problems, which may result in numerous absences from their job through no fault of their own. These cases will be evaluated on a case-by-case basis as to the appropriate City action, if any. For purposes of this section a chronic illness is defined as one that is chronic in nature and that results in a minimum of three (3) absences per calendar year totaling twenty-four (24) or more hours. In order for an illness to be considered chronic, medical evidence must be submitted to the Human Resources Director for approval. Once an employee has a chronic condition identified, any and all subsequent absences due to the employee's chronic condition may require a doctor's certificate to support the absence(s).

J. Return to Work Physicals: Prior to the resumption of work duties after taking any occurrence of sick leave or industrial disability leave due to injury or illness, an employee may be required to undergo a physical examination by a City selected physician or submit a certificate of employability from the employee's treating physician where it is in City's best interest. In all cases of medical absence due to a contagious condition, or its potential, the afflicted employee shall notify the department head and Human Resources Director immediately by telephone of such condition, and shall be required to provide medical evidence of employability before returning to work.

K. Payment For Unused Sick Leave Upon Retirement: The payment of unused sick leave is authorized by City as a means of rewarding employees who have made conscientious efforts to maximize their attendance on the job.

Employees in the classified service, regardless of service length, shall be entitled to payment for accrued (not pro rata) sick leave (as indicated below), up to their date of retirement. However, employees whose separation is caused by dismissal shall not be entitled to payment for unused sick leave.

Number of Sick Leave Days Accumulated	Percent of Days For Which Compensation is Given
120 - 150	60
96 - 119	50
72 - 95	40
48 - 71	30
24 - 47	20
0 - 23	0

In the event of a job related death, the beneficiary of the employee, as shown on the records of the public employees' retirement system, shall be paid for those sick leave and vacation days for which the employee would have been paid had employment terminated on the date of death. No more than one hundred and fifty (150) such sick leave days may be used in ascertaining the amount of days for which the employee will be compensated at time of termination or retirement.

L. Conversion to Retirement Credit: In lieu of Subsection K above, a retiring employee may elect to convert his/her sick leave balance to retirement credit in accordance with the provision of the California Public Employees' Retirement System.

ARTICLE III. MILITARY LEAVE

A. Classified employees obligated to serve periods of active military duty for training shall be compensated by the City at their regular rate of compensation for normal duty hours and days or shifts during such absence from work, up to a maximum of two hundred and forty (240) hours in any calendar year. The number of hours used shall be determined by the employee's regular schedule.

B. Classified employees exercising this provision of military leave will be required to submit properly documented evidence of their call to active duty prior to such duty if for regularly scheduled training or within thirty (30) calendar days following the conclusion of duty ordered as the result of an emergency. Such documentation must be submitted through the chain of command to the Human Resources Director.

ARTICLE IV. JURY DUTY LEAVE

A. Classified employees who have been summoned or subsequently selected to serve on a jury shall receive their regular rate of compensation by City for normal work hours and days or shifts during such absence from work.

B. Employees will be allowed to retain any mileage compensation granted to them by the respective court jurisdiction to which they were summoned or selected for jury duty.

C. Employees summoned to jury duty must provide evidence of such summons and subsequent jury duty days away from work through their respective department heads to the Human Resources Director.

D. If a worker normally assigned to any shift except days is called to jury duty and ordered to report, the employee's shift shall be changed to days until the jury obligation has been fulfilled. Any day that the employee is released from service having served fewer hours than normally

scheduled, the employee shall report to work for the remainder of the shift.

ARTICLE V. DISABILITY LEAVE

Employees may be granted paid disability leave, based on the following circumstances, terms, and conditions. The purpose of providing these programs of paid disability leave is to ensure that employees have reasonable and equitable provisions concerning their job and economic security.

A. Work related temporary disability. If a classified employee is temporarily disabled by injury or illness arising out of and in the course of performing assigned job duties, the employee shall become entitled to a leave of absence regardless of length of service while so disabled without loss of salary, less workers' compensation disability payments, for up to seventy-five (75) calendar days, commencing upon the first calendar day after the injured employee leaves work as a result of the injury.

B. Following the initial seventy-five (75) days of temporary disability, an eligible employee may supplement their temporary disability payments with available leave balances (i.e., vacation, sick leave) until such balances are exhausted (up to twelve (12) months).

C. During the time of work related disability, an eligible employee will continue to accrue the normal leave, i.e., vacation, sick leave, until such time as their leave balances have been exhausted (up to twelve (12) months).

D. During the period of time of work-related disability, City will continue to contribute its share to the employee's health and dental plan until such time as all leave balances are exhausted (up to twelve (12) months).

E. Employees who are found to abuse or fraudulently use the privilege and benefits of the temporary disability program as prescribed above shall be subject to disciplinary action, including termination from City service. The employee exercising these temporary disability provisions shall be required to provide the department head and Human Resources Director with a copy of the attending physician's report, which shall contain a description of the nature and anticipated duration of the disability, and the employee shall keep the department head and Human Resources Director apprised of the medical condition at intervals prescribed by the Human Resources Director.

ARTICLE VI. LEAVES OF ABSENCE

A. Department heads may grant a probationary or regular employee leave of absence without pay or benefits related to employment for a period not to exceed one (1) calendar week. Such leaves shall be reported in writing to the Human Resources Director.

B. Leaves of absence without pay or benefits related to employment for a period not to exceed three (3) consecutive months may be granted to regular employees upon recommendation of the department head and approval of the Human Resources Director and City Manager. Following the initial three (3) months, the leave of absence may be extended for a maximum of an additional six (6) months if recommended by the department head and Human Resources Director, and approved by the City Manager. However, no such leave shall be granted except

upon written request of the employee, setting forth the reason(s), circumstances and length of the requested leave.

C. Upon expiration of an approved leave of absence, the employee may be reinstated in the position held at the time leave was granted. Failure on the part of an employee on leave of absence to report for work promptly at the expiration of leave, or within a reasonable time after notice to return to duty, shall be cause for dismissal and the employee shall automatically waive all rights under this MOU. The depositing of a first class letter of notification to return to duty in the United States mail, addressed to the employee's last known address, shall constitute reasonable notice.

D. The granting of any leave of absence without pay or benefits related to employment for any period exceeding one (1) full month shall result in the setting of a new salary anniversary date for the employee. Such date shall be based on the employee's original salary date advanced by the number of calendar days leave in excess of one (1) full pay period.

E. Temporary Leave With Pay. Notwithstanding the provisions of this Article, upon the recommendation of the Human Resources Director, the City Manager may approve the temporary assignment of an employee to a status of leave with pay, pending conduct or completion of such investigations or hearings as may be required to determine if disciplinary action is to be taken.

ARTICLE VII. MATERNITY LEAVE

A. Continuation of Employment. A pregnant employee may continue employment as long as her health, the health of the unborn fetus, or the employee's ability to adequately perform prescribed job responsibilities would not be adversely affected by continued employment.

B. Notification. Applicable employees shall notify the department head and Human Resources Director in writing upon notice by their treating physician that such pregnancy exists, including the anticipated date of childbirth or other related medical conditions and their anticipated date of return to full duty. At any time during the pregnancy, the Human Resources Director may require the employee to furnish medical evidence or information to support the employee's medical suitability for continued employment.

C. Term of Leave. Maternity leave shall be granted only for medical reasons arising out of and in the course of a pregnancy, the subsequent childbirth, or other related medical conditions, as provided below:

1. Sick Leave With Pay. A pregnant employee may take accrued sick leave with pay for reasons of medical necessity relating to the employee's physical condition resulting from the pregnancy, childbirth, or other related medical condition. However, under no circumstances shall such paid sick leave exceed the total of the employee's accumulated but unused sick leave, nor shall paid sick leave be granted beyond the date the employee is no longer considered medically disabled from normal work activities.

2. Other Paid Leave. A pregnant employee may elect to utilize accrued vacation, compensatory time off, or any other earned form of paid absence from work in lieu of,

or in combination with, paid sick leave during the period of pregnancy related leave, the combination of which may not exceed normal full pay.

3. Sick Leave Without Pay. Eligible employees may be granted sick leave without pay pursuant to Section 3.12.070(H) of the Personnel Rules and Regulations.

ARTICLE VIII. VACATION LEAVE

The purpose of vacation leave is to provide eligible employees the opportunity to take paid time off from their job responsibilities in order to maintain a high standard of mental, emotional and physical conditioning.

A. Eligibility: All regular employees in the classified service shall be entitled to annual vacation leave with pay. Each employee will earn and accrue vacation hours pursuant to the accrual schedule as noted in subsection B. Exceptions to this provision shall only be granted in unusual circumstances substantiated by the department head in a recommendation to the City Manager who may approve or disapprove such variances.

B. Accrual: Each classified employee shall earn and accrue vacation leave based upon eighty (80) hours of paid time each pay period for all employees except 24-hour workers whose accrual is based upon one hundred and twelve (112) hours per pay period with pay as follows. (Employees on a modified schedule work assignment shall accrue vacation leave on a pro-rata basis of hours worked.)

Service Category	Biweekly Accrual	Days/Year Equivalent	Max. Hrs. Accrual
New employee to completion of 4th year	3.692 hr.	12 days	240
Start of 5th year to completion of 9th year	4.307 hr.	14 days	280
Start of 10th year to completion of 14th year	4.923 hr.	16 days	320
Start of 15th year to completion of 19th year	5.538 hr.	18 days	360
Start of 20th year and succeeding years	6.153 hr.	20 days	400

Each full-time classified employee in the Treatment Plants working a twenty-four (24) hour shift shall accrue vacation leave with pay as follows:

Service Category	Biweekly Accrual	Days/Year Equivalent	Max. Hrs. Accrual
1 – 4 years	5.538 hr.	6 shifts (144 hrs)	360
5 - 9 years	6.462 hr.	7 shifts (168 hrs)	420
10 -14 years	7.385 hr.	8 shifts (192 hrs)	480
15 -19 years	8.308 hr.	9 shifts (216 hrs)	540
20 + years	9.231 hr.	10 shifts (240 hrs)	600

1. As noted in Subsection A, new employees shall earn vacation at the biweekly rate shown above from the hire date. Eligible employees shall advance to the next higher rate of accrual upon completion of the maximum number of years at the lower accrual rate, and shall begin to accrue at the higher rate at the start of their qualifying year. Part-time employees shall receive a prorated accrual.

2. Except as provided in this Section B, an employee's maximum accrual of vacation hours may not exceed two and a half (2 1/2) the employee's annual accrual rate as specified above and an employee will stop earning and accruing vacation hours while the employee's accrual remains at the maximum allowed under this Section B. One (1) month prior to the employee's anniversary date, the department head shall review the number of hours accrued by the employee.

3. If the amount exceeds specified limits, the employee shall take the excess number of vacation hours up to a maximum of twenty (20) hours prior to the anniversary date or, if operational necessity will not permit taking such time, the employee may be paid the straight time hourly equivalent. Additionally, the maximum vacation hours an employee may accrue will be extended when an employee's is on disability leave, jury duty, or military leave as provided in these rules. The employee shall be allowed to liquidate such excess accrual within thirty (30) calendar days following return to duty, by means of taking such time up to a maximum of twenty (20) hours or receiving the straight time hourly equivalent in compensation.

C. Use: Per Section 3.12.060(C) of the Personnel Rules and Regulations, an employee may elect to take all or part of earned vacation, or may carry over to the next service year all or part of earned vacation as approved by the department head and consistent with the provisions of Subsection B. However, the dates and amount of vacation selected by the employee shall be subject to approval of the department head. Vacation leave shall generally be taken in minimum increments of one (1) full work day/work shift, except that unusual, emergency, necessary and infrequent use of vacation leave may be granted in one (1) hour increments. Employees must request the vacation at least ten (10) work days prior to the desired start of vacation leave. Under unusual or personal emergency circumstances, employees may request and department heads may consider the approval of vacation leave with fewer than ten (10) working days' notice. In the event it becomes necessary to call an employee back to work from a scheduled vacation, the employee shall be credited with the unused vacation hours and shall have the opportunity to take such remaining vacation leave at a time of the employee's choosing and the department head's approval.

D. Holidays Within Vacation Leave: Except for shift personnel in the Water/Wastewater Plants, holidays which occur during a scheduled vacation period shall be counted as a holiday. Employees may request in advance that they extend their vacation leave by the number of holidays occurring within their scheduled leave, or they may request fewer vacation hours which, together with the holiday(s), will comprise the total time period of their scheduled leave.

ARTICLE IX. PERSONAL LEAVE TIME

Effective January 1, 2017, each employee who has completed six months of his/her initial employment with the City shall be provided a bank of forty-five (45) hours of Personal Leave Time (PLT). Part-time employees will receive a prorated bank. Thereafter, employees shall be provided a bank of forty-five (45) hours of PLT on the first pay period of each calendar year. Any employee hired after the first pay period shall be granted a prorated amount at .86538 hours per week for the remainder of the calendar year, but shall not have access to this bank until they have completed six (6) months of work.

Use of PLT time shall be subject to the following:

1. PLT may be used by employees for time off on an hour for hour basis until the employee has exhausted the bank.

    a. Use of PLT shall be subject to the operating needs of the City. The City may deny an employee time off on PLT if such release time will adversely impact the operating or staffing needs of a City department.

2. PLT shall have cash value and may be cashed out by the employee on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay. Employees may cash out unused PLT in any regular pay period pursuant to procedures established by the City Human Resources Department. Pursuant to Chapter 3, Article V of this MOU, employees may defer some or all cashed out PLT into the City's deferred compensation plan.

3. Any PLT time remaining in an employee's PLT bank on the last pay period of the calendar year shall not roll over into the next calendar year. Such PLT time shall be cashed out by the City on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay.

4. Employees who leave the bargaining unit or terminate employment with the City shall be cashed out at the rate of .86538 hours per week up to the balance of the employees PLT bank. If an employee terminates and has taken more PLT in advance than.86538 hours per week, the City shall deduct an equivalent amount of pay for the PLT. Any time cashed out will be paid on an hour-for hour basis at the employee's regular straight-time hourly rate of pay.

ARTICLE X. CATASTROPHIC LEAVE

Pursuant to City Personnel Rules Section 3.12.065, pertaining to Catastrophic Leave.

The parties have interest in making revisions to the catastrophic leave program/policy and will meet and confer over forthcoming City proposed revisions.

CHAPTER 5. MISCELLANEOUS ISSUES

ARTICLE I. MEMBERSHIP DUES AND AUTHORIZED DEDUCTIONS

A. The Union shall be entitled to have membership dues and other lawful deductions of its members deducted from their paychecks in accordance with the procedures required by law and set forth herein. To the extent required by Government Code Sections 1157.3 and 1157.12, the City shall honor employees' voluntary authorizations for Union dues deductions from employee paychecks. Such authorized deductions shall be remitted monthly to the Union along with an adequate itemized record of deductions. The City shall make every reasonable effort to remit the amounts deducted within ten (10) working days following the payday on which the deductions were made.

B. In making such authorized membership dues deductions, the City shall rely on written certification from the Union confirming that the Union has and will maintain authorizations signed by each individual employee from whose paychecks the deduction is to be made that the individual affirmatively consents to the dues deduction in a manner that meets the requirements of state and federal law, including but not limited to applicable provisions of Government Code Sections 1150-1157.12 and the First Amendment of the United States Constitution. After providing the required certification, the Union shall not be required to provide a copy of individual authorizations to the City unless a dispute arises about the existence or terms of the authorization. To the extent required by law, the City will rely on information provided by the Union in writing regarding whether dues deductions were properly cancelled or changed. Any requests from the Union that the City change dues deductions shall include a certification that the changes are requested with the affirmative consent of the individual employee(s) and otherwise comply with all requirements of state and federal law.

C. The amount of membership dues shall be set by the Union. All changes in dues deductions shall become effective the first of the month following written notification to the City's Chief Financial Officer.

D. The City agrees to direct all employees to the Union with regard to any questions or concerns related to membership dues or any other mutually agreed payroll deduction.

E. The City agrees to provide to the Union on a monthly basis a payroll dues deduction report.

F. The employee's earnings must be regularly sufficient, after other legal and required deductions are made, to cover the amount of the dues check-off authorized. When an employee, in good standing in the Union, is in a non-pay status, for the full pay period when his/her dues would normally be withheld, no dues deduction will be made to cover that withholding from the current or future earnings; nor will the employee deposit the amount with the City which would have been withheld if the employee had been in a pay status during that period. In the case of an employee who is in a non-pay status during only a part of the pay period and the salary is not sufficient to cover the full withholding, no deduction shall be made. In this connection, all other legal and required deductions have priority over Union dues.

G. The Union shall indemnify, defend, protect and hold harmless the City and its elected and appointed officials, officers, employees, officers and agents (collectively hereafter the "Indemnitees") from and against any and all claims, liabilities, losses, damages, fines, penalties,

claims, demands, suits, actions, causes of action, judgments, costs and expenses (including, but not limited to, reasonable attorneys' fees and court costs) arising from the application of any provisions under this Article, including, but not limited to, any claims made by any member employees for the membership dues deductions the City made in reliance on the Union's certification, and any claims made by any member employees for any deduction cancellation or modification the City made in reliance on the information provided by the Union, provided that the City promptly notify the Union of any such matter for which it is seeking indemnification after the City has knowledge of the occurrence of such matter.

H. In the event any such action or proceeding is brought against the City by reason of any such claim, the Union, upon notice from the City, covenants to defend such action or proceeding by counsel reasonably satisfactory to the City. Further, the Union agrees to indemnify and hold harmless the Indemnitees for any loss or damage arising from the Union's actions or inactions under this Article.

ARTICLE II. CAUSES FOR DISCIPLINE

(Refer to Section 3.16.020 of the Personnel Rules)

ARTICLE III. TYPES OF DISCIPLINE

(Refer to Section 3.16.030 of the Personnel Rules)

ARTICLE IV. GRIEVANCES - GENERAL AND PROCEDURES

Any represented employee who wishes to call his or her union business representative regarding employment related matters, may do so on City paid time at his or her own expense, provided such telephone calls do not represent or create any unreasonable disruption of work such as non-routine travel time and distance to use a pay telephone.

A. Grievances in General. An employee, a group of employees, and or a Local 39 representative may complain to the City management through the grievance procedure in this Article regarding any matter relating to employee wages, hours, or conditions of employment. A grievance may be either formal or informal. An informal grievance is a prerequisite to filing a formal grievance.

B. Informal Grievances. An employee, a group of employees, and/or a Local 39 representative with a grievance shall first discuss the matter with the immediate supervisor within ten (10) calendar days of the matter complained of. The supervisor and the employee shall attempt to informally resolve the dispute. If the matter is not resolved, the employee shall next discuss the matter with the department head within ten (10) calendar days of the supervisor's decision. The department head and the employee shall attempt to informally resolve the dispute. The decision of the department head regarding an informal grievance shall be final unless the employee files a formal grievance.

C. Formal Grievances.

1. An employee, a group of employees, and/or a Local 39 representative who has a grievance which remains unresolved after utilizing the informal grievance procedure may file a formal grievance in writing. The employee shall file a formal written grievance with the City Manager within ten (10) calendar days after the final decision

on the informal grievance. The formal grievance shall contain all relevant information relating to the grievance, which the employee wishes the City Manager to consider. The City Manager shall meet with and respond in writing to the employee, group of employees, and his/her Local 39 union representative within ten (10) calendar days of the receipt of the grievance.

2. Except in those cases where the grievance is subject to Administrative Appeal to the Personnel Board pursuant to Roseville Municipal Code, Chapter 3.23, or Chapter 5, Article VI of this Memorandum of Understanding, the decision of the City Manager regarding a formal grievance is final.

ARTICLE V. GRIEVANCES - MOU INTERPRETATION AND APPLICATION

A. City agrees to the establishment of a three (3) member Review Board, the composition of which will consist of one (1) member selected by City, one (1) member selected by the Union which shall not be an employee of City, and one (1) member selected jointly by City and Union from among list(s) of available representatives provided by the State Mediation and Conciliation Service who shall serve as chairperson of the Review Board.

B. The Review Board shall only be convened to hear evidence in connection with an allegation that some term or condition of a specific provision contained in this Agreement was not interpreted or applied properly, and only after the grieving party has properly exercised the grievance procedures prescribed in this Article VI of this Chapter. Members of the Review Board shall not have the authority to change, delete, add, or in any way modify any word, term or phrase contained in this Agreement, but shall be limited to interpretation of existing language only.

C. An employee or group of employees or Local 39 representative who have been aggrieved by the interpretation and application of any provision of this Agreement, and who have not had such grievance adjusted satisfactorily following the decision of the City Manager, shall file a written request with the Human Resources Director within ten (10) calendar days after the City Manager's decision to have the matter heard by the Review Board. At the time of filing such a written request, the grieving party shall additionally supply the Human Resources Director with copies of any other documents pertaining to the grievance or alleged infraction, which shall be referred to the Review Board in advance of a hearing date. If requested by the grieving party, the Human Resources Director shall supply the grieving party with a copy of any package provided the Review Board in advance of a hearing date.

D. The Review Board shall be conducted informally and shall interview persons the board deems appropriate in order to ascertain sufficient facts upon which to base its recommendation. Within ten (10) calendar days after the board has interviewed its last witness, the board shall submit to the City Manager, with a copy to the Union, a written statement of the facts of the matter based upon evidence provided, conclusions, and recommendations. Such written facts, conclusions, and recommendations shall reflect the opinions of the majority of Review Board members. Recommendations made by Review Boards shall be advisory only, and shall not bind the City in any manner to its decision.

ARTICLE VI. NO STRIKES/CONCERTED ACTIONS

For the effective period of this Agreement, Union and its members agree that it shall not call, sanction, or engage in any strike, slowdown, suspension, or stoppage of work activity, and City agrees it shall not engage in nor cause a work lockout.

ARTICLE VII. EDUCATIONAL TRAINING

Employees interested in professional training shall submit written requests through their immediate supervisor. The supervisor shall review such requests with recommendations to the department head. The department head shall make a determination as to whether the training is necessary and/or job related. Funding for the training shall be from available funds within the budget, or if necessary, through approved budget adjustments. Training which is denied under this section may be submitted under Article X Educational Reimbursement.

ARTICLE VIII. TRAINING, LICENSES AND CERTIFICATES

City will pay or reimburse employees for all special training, licenses and certificates, including renewals that employees are required to maintain as a condition of continued employment so long as the employee successfully completes all phases of the training, license and certification including passing required examinations.

A. Training will be scheduled during employee's normal workday, if possible.

B. When mandatory training cannot be scheduled during employee's normal work day/hours, the employee's schedule will be temporarily changed to conform to the scheduled training for the shift immediately prior to the training. This is not considered a shift change for purposes of notification.

C. City will provide necessary equipment and/or tools necessary for training and/or testing.

ARTICLE IX. EDUCATIONAL REIMBURSEMENT

Employees may be reimbursed for the tuition and fees connected with job-related educational courses and/or professional certification classes, including courses offered through adult education programs up to $1,500 per fiscal year. Books and CD's required for the actual class are not entitled to reimbursement. The employee will submit the request for reimbursement to the supervisor, who will accept or reject the request. The request must be made before the class has been completed. All requests for educational reimbursement shall be forwarded to the Human Resources Director regardless of approval or denial. The Human Resources Director will make the final decision to accept or reject the request. No payment will be made until the final proof of passing grade or course completion is submitted to the Human Resources Director. The City will establish an annual fund of $15,000 for Local 39 employees to be administered by the Human Resources Department for educational reimbursement. An employee will only be reimbursed one time per class. Educational reimbursement requests shall be submitted to the Human Resources department by 5:00 p.m. on June 30th of each year. If valid requests for education reimbursements exceed the $15,000 fund, then a random drawing by the Human Resources Director will be held to determine which requests are honored. Once the fund balance is depleted, no further reimbursements will be approved.

ARTICLE X. ORIENTATION

City shall, during orientation of new or transferred employees, provide to each new unit member a copy of this MOU, a Local 39 new hire package and a list (provided by Local 39 of Local 39 officers and representatives) for future contact.

ARTICLE XI. PROBATIONARY PERIODS

Union agrees that the classifications listed in Appendix "A" are subject to a twelve (12) month probationary period of employment. Employees hired at step A of the salary range may be eligible for a merit step increase after six (6) months of employment.

Classified employees who are terminated during their probationary period shall receive compensation for accrued and unused vacation.

ARTICLE XII. PROMOTIONS

Any employee who is promoted to a position in a class with a higher salary range shall be placed in the step in the new higher range, which is at least a ten percent (10%) increase over the employee's current salary step. In the event that the top step in the new range is less than ten percent (10%) the employee will then be assigned to the top step on the new salary range.

ARTICLE XIII. LEAVE DURING NOTICE PERIOD

Employees who have given two (2) weeks or more notice to retire may take vacation or sick leave during their notice period if the leave is approved and is in accordance with City rules and regulations.

ARTICLE XIV. ALCOHOL AND DRUG POLICY

City and Union agree to continue to enforce the Alcohol and Drug Abuse Policy, Administrative Regulation 2.08.

ARTICLE XV. SAFETY GLASSES

City agrees to provide safety glasses in compliance with Administrative Regulation 2.02.

ARTICLE XVI. HEALTH AND SAFETY

City shall pay for and offer paid time off for hepatitis inoculations for personnel in job classifications who have occupational exposure. The Human Resources Department will maintain a list of eligible classifications.

ARTICLE XVII. JOB SHARING

A. Job sharing shall be open to only current permanent employees of the City of Roseville. The employee(s) must voluntarily request job sharing and institute the request. Arrangements for two (2) employees shall also be made by the employee(s).

B. Certain department positions lend themselves to job sharing; a department head shall have the ability to deny any request, without appeal of "job sharing."

C. All job sharing shall require prior approval of the Human Resources Director and the City Manager.

D. Employee(s) who job share will share salary and benefits with no cost to City.

E. Each sharer will work full time to cover for the other sharer's sick leave (when possible) and vacation time up to a maximum specified in the "job sharing agreement" below.

F. A "job sharing agreement" between City and the two (2) employees shall be drawn which will address conditions of the job share including but not limited to the work schedule, holiday schedule, and the number of days/hours each sharer will be responsible to cover for the other sharer's sick leave and vacation time.

G. At any time one of the "sharers" terminates the job share, the other share will assume full-time responsibilities until a "sharer" is obtained. The full time responsibility is that of the remaining employee. The sharing position will remain full-time and the department will not be required to accommodate the other employee.

H. A department head may terminate a job share at any time for department efficiency. This will be accomplished in accordance with Personnel Rules 3.07.120; Layoff.

ARTICLE XVIII. HEALTH MAINTENANCE PHYSICALS

When, in the opinion of the City Manager, Human Resources Director, or department head, it would be in the best interest of City or a specific function of City service to evaluate the medical or psychological condition of any candidate or employee, the Human Resources Director may schedule such employee(s) for an examination with a physician, or other appropriate licensed health professional, selected by City and at City expense. The results of such examination shall be available to the Human Resources Director, City Manager, and the department head as may be appropriate in the same manner as new employee examinations. Each employee is independently responsible for compliance with the advice and suggestions made by the physician/licensed health professional as a result of such examination. All care, treatment, or other requirements recommended by the physician/licensed health professional shall be at the expense of the employee. City shall receive from the City-selected physician/licensed health professional a notice of examination completion, whether or not further treatment or specialized diagnosis is required, and a certification that the employee is able to continue job performance. In the event an employee is certified by the City physician/licensed health professional as unable to continue performance of the duties assigned to the position, that employee shall not return to the active service until such time as the employee is determined by the City physician/licensed health professional to be permanently able to continue job performance.

ARTICLE XIX. BULLETIN BOARDS

City will allow Union approximately two (2) feet of bulletin board space and access to the electronic notice board section of City’s electronic mail system to post Union-related information for the members of the unit. Posted material will be nonpolitical in nature and will serve as an information center for

Union members. This information will be limited to benefits and current Union issues which will in no way comment on City policies, procedures and activities. It will be Union's responsibility to keep its bulletin board space in an orderly fashion. All electronic messages require the Human Resources Director's review and authorization prior to distribution. City reserves the right to remove any material that is offensive, derogatory or violates this provision. The bulletin board space will be provided in City locations where Union employees have access to the material.

ARTICLE XX. CITY MANAGEMENT RIGHTS

Pursuant to Section 3.17.030 of the City's Personnel Rules, the following shall constitute City's management rights:

A. To ensure that City is able to carry out its statutory functions and responsibilities, nothing contained in this Article shall be construed to require City to negotiate on matters which are solely a function of management, including the following:

1. To manage City generally and to determine the issues of policy.

2. To determine the existence of facts which are the basis of management decisions.

3. To determine the necessity for and organization of any service or activity conducted by City, and to expand or diminish services.

4. To determine the nature, manner, means, technology, and extent of services to be provided to the public.

5. To determine methods of financing.

6. To determine types of equipment or technology to be used.

7. To determine and/or change the facilities, methods, technology, means, organizational structure, and size and composition of the work force, and to allocate and assign the work by which City operations are to be conducted.

8. To determine and change the number of locations, relocations, and types of operations, processes, and materials to be used in carrying out all City functions, including, but not limited to, the right to contract for or subcontract any work or operation of City, except where such contracts for service would be for the purpose of workforce reductions.

9. To assign work to and schedule employees in accordance with requirements as determined by City, and to establish and change work schedules and assignments upon reasonable notice and good faith consultation.

10. To lay off employees from duties because of lack or work or funds, or under conditions where continued work would be ineffective or non-productive.

11. To establish and modify productivity and performance programs and standards.

12. To dismiss, suspend without pay, demote, reprimand, withhold salary step increases, or otherwise discipline employees for cause.

13. To determine minimum qualifications, skills, abilities, knowledge, selection procedures and standards, and job classifications, and to reclassify employees.

14. To hire, transfer, promote, and demote employees for non-disciplinary reasons.

15. To determine policies, procedures, and standards for selection, training, and promotion of employees.

16. To establish reasonable employee performance standards including, but not limited to, quality and quantity standards; and to require compliance therewith.

17. To maintain order and efficiency in City facilities and operations.

18. To establish, publish, and/or modify rules and regulations to maintain order and safety health in City, which are not in contravention with this Agreement or the Personnel Rules and Regulations.

19. To restrict the activity of an employee organization on the municipal property and on municipal time except as set forth in this Agreement or the Personnel Rules and Regulations.

20. To take any and all necessary action to carry out the mission of City in emergencies.

B. No neutral third party, including the Personnel Board, shall have the authority to add, delete or otherwise modify any provision of these employer rights, authorities, or functions, but shall be limited to matters of interpretation only.

C. The management rights shall not remove or limit the right of any classified employee to exercise grievance procedures.

ARTICLE XXI. PAYROLL ERRORS

A. In the event an error has been made in the payment of an employee's salary, overtime payment or leave accruals, balances or usages, City shall, for purposes of future compensation, adjust such compensation to the correct amount, giving written notice to employee.

B. In the event an employee received an overpayment or underpayment of wages, the employee may select one of the following methods:

1. Lump sum payment by employee or employer;

2. One-time deduction from usable vacation, compensatory time off (CTO), or holiday leave balances equivalent to the overpayment at the employee's current hourly rate;

3. A repayment schedule through payroll adjustment; and/or

4. Other means, as may be mutually agreed to between the parties.

C. Action to enforce repayment of an overpayment, or to correct an underpayment, shall be limited to a period beginning on the first day of the City pay period two (2) years prior to the date that either City or the employee gives written notice to the other that a payment error has occurred.

ARTICLE XXII. PERFORMANCE EVALUATIONS

A. Upon request of Local 39, the City agrees to provide Local 39 with an annual report identifying the step increase effective dates for Local 39 represented employees.

B. Effective January 1, 2022, whichever is sooner, this section supersedes Personnel Rule 3.11.030 C (1) only where salary Step A is paid upon initial employment, the employee shall become eligible for advancement to Step B upon their anniversary date, based on demonstrated satisfactory job progress and normal increased productivity. No salary step advancement shall be granted unless recommended by the department head and approved by the City Manager.

ARTICLE XXIII. REMOTE E-MAIL ACCESS

Employees will be allowed to enter into a remote email access agreement with the City of Roseville as described in Administrative Regulation 1.04.2. Local 39 understands that this voluntary policy is being adopted for employee convenience and no compensation will be provided to employees as a result of their incidental access to the City's email system.

ARTICLE XXIV. SELECTIVE RECRUITMENT AND CERTIFICATION OF EMPLOYMENT LISTS FOR FUNCTIONAL AREAS

Certification provisions shall be governed pursuant to Roseville Municipal Code Section 3.05.010 and 3.05.110, except for situations where, as determined by the Human Resources Director, class specifications specify functional areas, the following may apply:

A. Selective recruitment and certification may be based on special skills and experience that are defined by designated functional areas for a classification. Individual employment lists can be created for each functional area, at the sole discretion and determination of the Human Resources Director. The position for which selective recruitment and certification is utilized must perform duties requiring the specialized skills identified for the functional area.
B. A department needing selective certification for functional areas shall submit its request to the Human Resources Director. The department requesting selective certification must substantiate that the functional area skills are a requirement of the position. The special duties involved must be defined specifically. The primary duties must cover the specific tasks which typically would be performed by persons selectively certified because of the special skills they possess.
C. The Human Resources Director must approve use of selective recruitment and certification for the special skills, which is required in some, but not all, positions in a classification. After the Human Resources Director has approved selective certification

for particular skillsets in a job classification, no further action is required to apply the selective recruitment and certification to positions in the classification. The principal duties shall be included on the job specification.

D. The special skill required must be included in the examination announcement and tested as part of the examination process.
E. Each functional area may result in a separate recruitment and resulting employment list. Separate employment lists may be established for each functional area approved for a classification. The functional area employment list will be identified by a classification title with the special skill involved appearing in parenthesis following the title.

EXECUTION

The provisions cited above represent agreements made in conjunction with a negotiated settlement between the City of Roseville and the International Union of Operating Engineers, Stationary Engineers, Local No. 39, and such provisions shall be contained in a current Memorandum of Understanding signed by duly authorized representatives of the City and Stationary Engineers, Local No. 39. Such provisions shall be valid for the period January 1, , 2022 through December 31, 2023 as agreed to by the employer-employee representatives whose signatures appear on the attached page on behalf of their respective representation. Both parties understand that all other terms and conditions of employment will remain the same during the length of this Agreement.

MASTER MEMORANDUM OF UNDERSTANDING
ON WAGES, HOURS AND OTHER TERMS AND CONDITIONS OF EMPLOYMENT

CHAPTER 1. ADMINISTRATIVE

ARTICLE I. PARTIES TO UNDERSTANDING

This Memorandum of Understanding (MOU) relates to issues within the scope of representation existing between the CITY OF ROSEVILLE, CALIFORNIA (City), and the INTERNATIONAL UNION OF OPERATING ENGINEERS, STATIONARY ENGINEERS, LOCAL NO. 39 (Local 39 or Union), and those employees occupying the classes listed in Appendix "A" attached hereto and incorporated herein by this reference.

ARTICLE II. STATE LAW COMPLIANCE

This MOU complies with the provisions of Section 3500 et seq. of the Government Code of the State of California, in that the Employer-Employee representatives noted herein did meet and confer in good faith and did reach agreement on those matters within the scope of representation.

ARTICLE III. LENGTH OF AGREEMENT

This MOU shall be effective January 1, 2022, and shall expire December 31, 2021~~3~~. Should either party desire to commence the Meet and Confer process for the next subsequent Memorandum of Understanding, they shall notify the other in writing no earlier than one hundred and twenty (120) days prior to the expiration date of this MOU, and the Meet and Confer process shall begin no later than ninety (90) days prior to the expiration date of this Agreement.

ARTICLE IV. SEVERABILITY OF MEMORANDUM

This MOU is severable. Should any article, section, or portion thereof of this MOU be held unlawful or unenforceable by any court of competent jurisdiction, such decision of the court shall only apply to the specific article, section, or portion thereof directly specified in the decision, and the remainder of this MOU shall not be affected thereby.

ARTICLE V. MEMORANDUM OF UNDERSTANDING APPROVAL

It is the mutual understanding of the parties that this MOU is of no force or effect until submitted to, and accepted by, the City Council and ratified by the Local 39 membership.

ARTICLE VI. DEFINITION OF TERMS

3.00.200 Classified service.
"Classified service" (syn. "competitive service") means all positions in the City exclusive of: elected positions; board, committee and commission members; persons engaged under contract; temporary positions; the city manager, assistant city managers, the city attorney, all attorneys employed in the office of the city attorney and all department head positions; all persons holding an assistant department head position who were hired or promoted to that position after March 5, 2014; emergency employees hired to meet immediate requirements of an emergency condition; employees hired for a temporary, seasonal or special purpose, employed in a professional or scientific capacity to conduct an inquiry, investigation, examination or project; volunteer and reserve personnel; and those specifically

designated by the Council or these rules to be exempted from classified service.

3.00.330 (A) Regular Employee.
A. "Regular employee" means a classified service employee who has successfully completed the prescribed probationary period and has been retained as provided in these rules.

1. A regular full-time employee is an employee who provides full-time services to the city in a non-temporary capacity and who is compensated at full pay and benefits for the assigned position.

2. ~~——~~A modified schedule employee is a regular employee who provides less than full-time service to the city and who is compensated proportionally to the amount of service provided to the city.

CHAPTER 2. SALARIES

ARTICLE I. SALARIES

A. General Wage Increase

Effective January 1, 2022, all employees assigned to the classifications listed in Appendix "A" shall receive a base salary increase of three percent (3%).

B. Labor Market Adjustments

Effective the first full pay period in January 2023, the parties agree to use the survey agencies agreed upon for the 2020 Labor Market study. The effective date of the Total Compensation Study survey data is July 1, 2022.

The Total Compensation Study will be based on the same salary and benefit elements and methodology used in the 2020 Total Compensation Study for each classification, which include:

Minimum Base Salary
Maximum Base Salary
Employee's Portion of PERS Paid by the Employer (%)
Employee's Portion of PERS Paid by the Employer
Deferred Compensation
Longevity Pay (Year 10)
Maximum Education/Certification Pay
Education/Certification Pay Notes
Cafeteria Plan
Health (Most Expensive Plan)
Dental
Vision
Life Insurance
Long-Term Disability Insurance
Retiree Health Savings Account (RHSA)
Social Security/Medi-Care
Employee Contributions Towards RHSA
Employer Portion of Retirement Paid by the Employee

The Total Compensation Study will be prepared at the City's expense and the City will provide a draft of the result of the Total Compensation Study to Local 39 for comments and to review for accuracy no later than October 14, 2022. The Local 39 will provide any comments regarding the accuracy of the Total Compensation Survey no later than October 28, 2022. The City will provide a salary increase for each classification falling below the 55th Percentile of the total compensation market by an amount to match the 55th Percentile market.

~~D~~C. **Salary Schedule B Salary Ranges: Reduce from 15 steps to 12 steps**

Effective January 1, 2022, the Schedule B salary ranges will be reduced from 15 steps to 12 steps, using the same top and bottom salary steps, establishing 3 percent between salary steps, except for the difference between salary step A to B.

~~A. Labor Market Adjustments – Effective June 8, 2019, the following salary increases shall be implemented for employees in the classifications listed below:~~

~~CLASSIFICATION TITLE~~	~~Salary Schedule B~~	~~Salary Schedule A~~

~~B. **General Wage Adjustment**: 2% base wage increase applied to both salary schedule A and B, effective the first full pay period in January 2020.~~

~~C. **Labor Market Adjustments**: First full pay period in January 2021.~~

~~The parties agree to meet and confer over the survey agencies to be included in the Labor Market study, including the criteria to be used for the survey agencies. The same benchmark job classifications used in the 2018 Total Compensation Study will be studied in 2020 unless the parties mutually agree to add different benchmark classifications. The effective date of the Total Compensation Study survey data is July 1, 2020.~~

~~The Total Compensation Study will be based on the same salary and benefit elements and methodology used in the 2018 Total Compensation Study for each classification, which include:~~

~~Minimum Base Salary~~
~~Maximum Base Salary~~
~~Employee's Portion of PERS Paid by the Employer (%)~~
~~Employee's Portion of PERS Paid by the Employer~~
~~Deferred Compensation~~

~~Social Security/Medi-Care~~
~~Employee Contributions Towards RHSA~~
~~Employer Portion of Retirement Paid by the Employee~~

~~The Total Compensation Study will be prepared at the City's expense and the City will provide a draft of the result of the Total Compensation Study to Local 39 for comments and to review~~

~~for accuracy no later than November 2, 2020. The Local 39 will provide any comments regarding the accuracy of the Total Compensation Survey no later than November 13, 2020.~~

D. ~~-~~All employees hired before February 6, 2016, will remain on the current salary schedule (A) for all listed classifications in the bargaining unit. All such employees will continue on this salary schedule when promoted or transferred to other classifications.

E. ~~-~~Effective February 6, 2016, salary schedule (B) will apply to new hires for all classifications in the bargaining unit. ~~The salary steps for the new salary schedule will be approximately 2.5% apart for each classification in the bargaining unit.~~ For purposes of this provision, any employee who was initially hired before January 1, 2016 that had a break in City service and was rehired after January 1, 2016 will be deemed a newly hired employee under this provision.

F. ~~-~~Management staff in the Parks, Recreation & Libraries Department will designate in writing three (3) Parks Maintenance Worker I/II and/or Senior Parks Maintenance Workers approved in writing by the department head to maintain their commercial driver's license and operate commercial vehicles/equipment as needed. The designated employees will be compensated at a rate of two and one-half percent (2.5%) of base salary higher than other parks maintenance staff.

G. Management staff in Public Works Department Fleet Services will designate in writing one (1) Warehouse Worker approved in writing by the department head to maintain their commercial driver's license and operate commercial vehicles/equipment as needed. The designated employee will be compensated at a rate of two and one-half percent (2.5%) of base salary higher than other warehouse worker staff.

~~G.~~H. A one and one-half percent (1.5%) of base salary differential will be paid to employees in the classification of Senior Parks Maintenance Worker and Park Maintenance Worker II who possess a Playground Safety Inspector or Certified Pesticide Applicator certification and have been designated in writing by the department head to perform duties related to the certification. The Senior Worker is only eligible for compensation for one (1) of these two (2) certificates depending on area of assignment.

I. ~~H.~~ The City shall pay two and one-half percent (2.5%) of base salary certificate pay to employees in the classification of Natural Resources Technician who possess an Arborist Certification and who have been designated in writing by the department head to perform duties related to the certification.

J~~I~~. Management staff in the Parks, Recreation & Libraries Department will designate in writing a minimum of two (2) but not more than four (4) Parks Maintenance Worker I/II and/or Senior Parks Maintenance Workers to maintain a Certified Pool Operator Certificate. The designated employees will be compensated at a rate of two and one-half percent (2.5%) of base salary.

K~~J~~. M ~~M~~anagement staff in the Environmental Utilities Department will designate in writing a maximum of two (2) staff to maintain a crane certification. The designated employees will be compensated at a rate of two and one-half percent (2.5%) of base salary.

L. Public Works Fleet Services Management staff will designate four (4.0) employees who need to maintain a DOT Tanker Endorsement based on operational needs. The designated employees who possess the required DOT Tanker Endorsement will be compensated at a rate of one percent (1%) higher than their base hourly pay rate.

M. Management staff in the Public Works Fleet Services will designate in writing Senior Mechanic, Mechanic and/or Equipment Service Workers to maintain a crane certification. The designated employees will be compensated at a rate of two and one-half percent (2.5%) of base salary.

N. Management staff in the Public Works Fleet Services will designate in writing Senior Mechanic, Mechanic and/or Equipment Service Workers to maintain a Government Fleet Program Smog Check Inspector certification. The designated employees will be compensated at a rate of one percent (1%) of base salary.

OK. City shall compensate employees who are certified by the Human Resources Department as Spanish speaking at the rate of $46.15 bi-weekly ($100.00 per month). At the discretion of the Department Head and upon certification by the Human Resources Department, employees may be compensated $100.00 per month for other languages used including sign language during the course of employment. However, $100 per month bilingual pay is the maximum amount an employee may receive no matter how many languages the employee is certified to speak.

PL. Streets Division Certified Pesticide Applicator Differential:

Effective February 6, 2016, employees in the classifications of Street Maintenance Worker II and Senior Street Maintenance Worker who have been designated in writing by the department head to perform duties related to the certification and who possess a Certified Pesticide Applicator certification shall be eligible for a 1.5% of base salary differential.

QM. The City shall pay a two and one-half (2.5%) of base salary differential to employees in the classification of Refuse Truck Driver I or Refuse Truck Driver II, who possess and maintain a Class A commercial driver's license with applicable endorsements and operate commercial vehicles/equipment as needed. A maximum of three employees may be designated in writing by the department head to receive the differential.

RN. Management staff will designate the number of employees who need to possess a USA Locator certification based on operational needs. The designated employees who possess the required USA Locator certification will be compensated at a rate of one percent (1%) higher than their base hourly pay rate.

SO. Reopener Provision:

City may reopen the terms and conditions if any of the following occur:

1. City loses the ability to collect, levy or transfer revenues in the amount of one million dollars ($1M); or
2. The Roseville electorate, by local ballot initiative, approves the elimination of revenue

currently levied or collected in the above amount.

City shall identify Local 39's proportionate share of any revenue shortfall.

In the event other revenues increase and exceed the amount of any lost revenue, City will not exercise the reopener clause; however, any future increase in revenues must clearly offset general fund expenditures.

REGISTRATION PAY

A five percent (5%) differential will be paid to employees in engineering classifications who possess a California Professional Engineer Certificate (PE), where it is not a requirement of the classification.

CERTIFICATION PAY

Employees in the Environmental Utilities Department will have the ability to earn a maximum of three percent (3%) (cumulative) in certification pay. Employees have the opportunity to earn Certification Pay as shown in the tables below:

	Water Treatment Plant Operator	**%**
Water Treatment Plant Operator 3	Water Treatment Plant Operator 4,5 (DPH) (cumulative) Distribution Operator Grade 2, 3 (DPH) (non-cumulative)	1% 1%
Water Treatment Plant Operator 2	Water Treatment Plant Operator 3,4,5 (DPH) (cumulative) Distribution Operator Grade 2, 3 (DPH) (non-cumulative)	1% 1%

	Wastewater Treatment Plant Operator	**%**
Wastewater Treatment Plant Operator 4	Wastewater Treatment Plant Operator Certificate 5 (SWRCB)	1%
Wastewater Treatment	Wastewater Treatment Plant Operator Certificate 4, 5	1%

Grade 3 Operator, Shift Operator	(SWRCB) (cumulative) CWEA Collections Grade 1 (DPH) Laboratory Certification, Level 1 (CWEA)	 1% 1%
Wastewater Treatment Grade 2 Operator	Wastewater Treatment Plant Operator Certificate 3, 4, 5 (SWRCB) (cumulative) CWEA Collections Grade 1 Laboratory Certification, Level 1 (CWEA)	1% 1% 1%

ARTICLE II. SERVICE TERM BONUS

City will provide the following service term bonus:

1. Employees hired prior to February 6, 2016:

SERVICE TERM	ANNUAL BONUS AMOUNT
Beginning of the 10th year	2.5% of base salary
Beginning of the 15th year	An additional 2.5% of base salary

Such service term bonus shall be included in each eligible employee's biweekly payroll.

2. Employees hired on or after February 6, 2016 who receive a satisfactory or above annual performance review shall be eligible for an annual lump sum performance bonus as follows:

Service Term	**Annual Bonus Amount**
Beginning of 10th year to completion of 14th year	2.5% of employee's base salary
Beginning of 15th year and every year thereafter	5.0% of employee's base salary

The annual lump sum performance bonus shall be paid with the first full pay check in January each year based upon the employee's base salary for the first full pay period in November of each year.

ARTICLE III. OVERTIME AND HOLIDAY WORK

(Refer to Personnel Rules Section 3.11.070)

A. Overtime work may be required of any employee in order to meet special or unusual needs of service beneficial to the city and community. Overtime is defined as the paid time in excess, and as an extension, of the normal schedule of work hours as illustrated below:

Employee Work Schedule	Overtime
Eight hours per day, five days per week (5/8 plan)	Over forty hours per week Saturday - Friday
Ten hours per day, four days per week (4/10 plan)	Over forty hours per week Saturday - Friday
Flex 40 schedule	Over 40 hours per week Saturday-Friday
Twenty-four hours per shift (56 hour work week)	Over twenty-four hours per shift for shift extensions (see subsection “F”)
A 9/80 schedule approved by the City Manager in writing	Over forty hours per FLSA week. The week varies based upon the employee’s 9/80 schedule

B. Overtime in excess of eight (8) minutes or more shall be compensable and shall be rounded to the nearest fifteen (15) minutes.

C. Overtime shall be compensable in increments of fifteen (15) minutes.

D. Overtime shall be compensable at the rate of one and one-half (1 ½) times the employee's base hourly rate except as noted in Subsection "E" of this section.

E. Emergency (unscheduled) Overtime. Regular employees shall be compensated at double the employee's normal hourly rate when working overtime between the hours of 10:00 p.m. to 6:00 a.m. Overtime hours worked before or after the hours noted above will be paid in accordance with Subsection “D.”

In the event that the City Council or the Governor declare a state of emergency, employees will be compensated at a rate of one and one-half (1 ½) times the employee’s base hourly rate for all overtime hours worked during the declared emergency period.

F. Employees in the Water/Wastewater Treatment Plants who work a twenty-four (24) hour shift shall be compensated as follows for overtime worked:

1. Emergency Overtime. Emergency overtime shall be compensated at double the employee's normal hourly rate. "Emergency Overtime" is defined as all calls in which the employee is called back to work on their normal day off to assist at a major incident.

2. Regular Overtime. Regular overtime shall be compensated at one and one-half (1-1/2) the employee's normal hourly rate. “Regular Overtime" is defined to include all extra shift assignments, special assignments and other assignments not specifically

mentioned in Subdivision 1 of this subsection. Emergency calls during an extra shift assignment shall be compensated at the regular overtime (one and one-half) rate.

3. Shift Extension. If an employee is called to work early or is worked beyond their normal work shift, compensation for overtime shall be calculated in accordance with Subsection "C" of this section.

4. Holidays, sick leave, compensatory time off, vacation leave, paid leave time, and floating holidays are considered time worked for the purposes of computing overtime.

5. Workers' Compensation leave, leave without pay requested by the employee, suspension or disciplinary action and a short week worked by a new employee are those occasions which are not to be considered as time worked for the purpose of computing overtime.

6. No employee may be required to work overtime during any scheduled workweek in which that employee is on an unpaid status due to disciplinary action.

G. Incidental Overtime. Those employees assigned to a twenty-four (24) hour work shift will be compensated for incidental overtime for overtime of eight (8) hours or less. If an employee works more than eight (8) hours of overtime, the entire eight-hour period shall be compensated at the regular overtime rate. The incidental overtime rate is computed based on the hourly wage of an eight-hour per day employee. The regular overtime rate is based on a twenty-four (24) hour shift assignment, i.e., 2912 hours annually.

H. Compensatory Time. Compensatory time shall be governed as follows:

1. Regular and probationary employees may, with the prior approval of their supervisor, accrue compensatory time in lieu of overtime pay. The accrual rate for compensatory time shall be one and one-half (1-1/2) hours for each hour of compensatory time worked.

2. Once an employee has been credited with compensatory time, the employee may not receive a lump sum payment for the hours accrued unless the employee is separated from City service.

3. Upon separation the employee will be paid at the employee's current hourly rate or average of last three (3) years whichever is higher for the remaining compensatory balance.

4. Maximum accumulation of compensatory time shall be reduced as follows:
   a. Effective January 1, 2020, the maximum accumulation of CTO shall be one hundred sixty (160) hours;
   b. Effective January 1, 2022, the maximum accumulation of CTO shall be one hundred (100) hours;
   ~~a.~~c. Employees with CTO balances above the maximum cap on January 1, 2022~~0~~, shall be allowed to maintain said balances but shall not be allowed to accrue additional CTO hours until their balance drops below the cap.

5. The employee's immediate supervisor shall determine whether an employee shall

accrue compensatory time or paid overtime. However, the supervisor shall not deny the request for compensatory time for arbitrary or capricious reasons.

6. An employee may use up to eighty (80) hours per calendar year of accrued compensatory time with prior approval from the employee's manager or first-line supervisor.

I. Employees assigned to shift work in the Water and Wastewater treatment plants, whose regular work schedule requires work on a holiday shall be compensated at their straight time hourly base rate of pay for performance of work on holidays. Compensation for holidays worked for such employees shall be in accordance with this MOU.

J. Employees who are entitled to take holidays off work as holidays occur, and who are required to work on a holiday when they would otherwise observe the holiday off, shall be compensated by either of the following methods, the choice of which shall be made by the employee's supervisor in advance of such work:

1. If an employee works the holiday and does not receive any other scheduled workday off in lieu of working the holiday, the employee shall be compensated at the rate of regular pay plus time and one-half the employee's base hourly rate (for the actual number of hours worked on the holiday).

2. If an employee works the holiday and receives another scheduled workday off in lieu of working the holiday, the employee shall be compensated at the rate of time and one-half (1 1/2) the employee's base hourly rate for the actual number of hours worked on the holiday. Under this option, the employee must be given another scheduled workday off within the period of five (5) working days before to five (5) working days after the worked holiday with corresponding notations upon appropriate payroll reports.

ARTICLE IV. SLEEP SHIFT AND MEAL TIME PERIODS FOR TREATMENT PLANTS

A. During each 24-hour shift, employees shall have an eight-hour period designated as sleep time. Except as provided herein, this sleep time shall be uncompensated and not counted as “hours worked” for purposes of calculating pay and overtime pay.

B. During each 24-hour shift, employees shall be entitled to meal periods as follows: Forty-five (45) minutes for breakfast, one (1) hour for lunch and one (1) hour for dinner. Each such period shall be compensated and be counted as “hours worked” for purposes of calculating pay and overtime pay. Employees are obligated to respond to work situations during meal periods without additional compensation.

C. Employees shall make daily written reports of periods when their sleep periods are interrupted by emergencies or other work requirements. When sleep periods are interrupted, the employee shall be entitled to a minimum of two (2) hours, regardless if the hours actually worked are less than two (2) hours. Multiple interruptions shall not entitle the employee to more than two (2) hours Sleep Shift Overtime (SSOT), unless the actual time worked exceeds two (2) hours, provided, however, that per Fair Labor Standards Act (FLSA) regulations if any employee is unable to get five (5) hours of uninterrupted sleep, then the entire eight (8) hour period shall be counted as hours worked.

D. When employees work three shifts (72 hours in a week) City shall count eight (8) of the twenty-four (24) hours of sleep as “hours worked” for purposes of calculating overtime. For overtime calculations pursuant to this section, “hours worked” shall not include paid time status, but only actual time worked.

ARTICLE V. WORKING IN A HIGHER CLASS

(Refer to Personnel Rules Section 3.07.080)

The principle for paying employees for performing higher level job responsibilities due to operational necessity is based on such considerations as: the employee's ability and qualifications to perform at a higher level, whether the employee would be required to perform only routine or a significant range of the higher job responsibilities, whether the lower level position is in direct line and job scope of the higher class, and the length of time necessary for an employee to perform in a higher class.

The purpose of compensating employees for performing work in a higher class is to establish a system by which employees will continuously receive a pay rate comparable to those job factors that establish pay for each class of work in City service. Authorization for an assignment to work in a higher class must be given by the employee's supervisor and, except under emergency circumstances, requires advance approval of the department head, Human Resources Director and City Manager. The following conditions shall prevail as the definition and standards of compensation:

A. Employees are required to work at least four (4) hours in the higher class to receive the higher class pay, except in classifications where employees are required to operate heavy equipment that is paid at a higher level; in such cases employees will be eligible for higher class pay after one (1) hour of continuous work.

B. Compensation in excess of an employee's regular base salary rate shall not be authorized for work in a higher class unless such employee is in all respects qualified to perform in the higher class and required to perform at least a substantial range of the more essential tasks of the higher class. Additionally, if an employee is temporarily assigned to perform work that is generally within the scope of their current class, but the work assignment is normally performed by a higher class due to the nature or scope of such work, then the temporarily assigned employee shall not receive additional compensation for performance of their normal and customary duties as prescribed by their regular classification.

C. Employees assigned to work in a higher class, who are both qualified and required to perform at least a substantial range of the higher tasks, shall be compensated for the time worked in the higher class as follows:

1. Compensation shall be five percent (5%) more than the employee’s current salary rate in the lower class unless the difference between classifications is less than five percent (5%). In the event that the top step in the higher range is less than five percent (5%), the employee will be compensated at the top step in the higher class.

2. Employees assigned to management classifications shall be compensated ten percent (10%) more than the employee’s current salary rate in the lower class or five percent (5%) below Step A of the higher class, whichever is more. In the event that the top step

in the higher range is less than ten percent (10%), the employee will be compensated at the top step in the higher class.

3. Employees assigned to work in a higher class for thirty (30) calendar days or less shall be compensated pursuant to items C1 or C2 above only for actual hours worked, i.e., the out of class compensation shall not be applied to any non-productive time, such as leave time, compensatory time off (CTO), or holiday pay taken during the out of class assignment. Employees assigned to work in a higher class for more than thirty (30) calendar days shall be compensated at the out of class rate of pay for all time worked and any non-productive time taken during that portion of the out of class assignment that exceeds thirty (30) calendar days.

D. Work periods in higher-class assignments shall not apply toward seniority for layoff purposes as regard the higher class or time-in-class consideration for lay-off purposes as regards the higher class.

E. Temporary Acting Pay

An employee temporarily assigned in writing to an acting position in a classification with a higher salary range shall be compensated for the duration of the acting assignment by the payment of ten percent (10%) of the regular salary the employee received prior to the acting assignment, or the salary provided for in Step A of the higher classification, whichever is greater, but not to exceed top step of the higher classification for all time worked and any leave time paid. The higher classified position must be temporarily vacant due to a long-term absence of the incumbent or pending the filling of a vacant position. The temporary acting pay assignment shall be for a minimum of two full-time pay periods and limited to one year. Authorization for a temporary acting assignment must be given by the employee's supervisor and requires advance approval of the Department Head, Human Resources Director and City Manager.

ARTICLE VI. STANDBY

City agrees to the following standby provision concerning represented employees:

A. Employees assigned to standby duty shall be compensated per the following schedule:

Monday-Friday Standby	1.5 hours straight time rate per day
Saturday, Sunday & Holiday Standby	3 hours straight time rate per day
Weekly Standby	13.5 hours straight time rate per week

B. Such payment shall be in addition to the overtime payments, which may be payable for call backs pursuant to City Personnel Rules and Regulations. However, employees shall not be compensated at a minimum of two (2) hours of overtime pay for incidents occurring within the time frame of an original call. For example, an employee has been called back, completes the task in one-half (1/2) hour and gets another call before leaving to return home. In this case, the employee would not receive a minimum of two (2) hours of overtime pay for the second and subsequent calls. If the employee returns home and receives subsequent callbacks, the employee would be entitled to a minimum of two (2) hours pay for that (those) call(s). An employee on weekend standby may be authorized to take a City vehicle home, provided the employee lives within the area bound by heavy black lines on the attached map (Appendix B).

C. Cumulative time spent in excess of fifteen (15) minutes or more shall be compensable as a call back. Cumulative time spent from eight (8) to fifteen (15) minutes on work calls during standby shall be rounded to 15 minutes and compensated as overtime. This applies only to phone calls received while on standby which do not require call out.

D. Departments shall make standby assignments voluntary whenever practical.

ARTICLE VII. SHORT NOTICE SHIFT ADJUSTMENT

Any employee involved in a mandatory permanent change of schedule which involves a modification in an employee's starting time or days off will be given a minimum of five (5) working days' notice.

This provision may be waived in emergency situations as determined by the department head or his/her designated authority.

ARTICLE VIII. MEALS

All classified employees required to work due to an emergency or unscheduled event at least two (2) hours beyond or prior consecutive hours to their normal work shift shall be eligible for meals as provided below:

A. Employees required to work two (2) to four (4) extra hours shall be entitled to one (1) meal break.

B. Employees required to work at least eight (8) extra hours shall be entitled to two (2) meal breaks.

C. Employees required to work at least twelve (12) extra hours shall be entitled to three (3) meal breaks.

D. In no event shall an employee be entitled to more than three (3) meal breaks in a given twenty-four (24) hour period.

Arrangement for meals shall be as follows:

A. City may provide a meal by bringing food to the work site.

B. City may allow the employee to go to a restaurant of his/her own choice for a period of one-half (1/2 hour), during which time the employee shall be on paid time, and the City shall reimburse the employee $20.00 for each meal on their next regular paycheck.

C. If circumstances permit, the supervisor, in lieu of options contained in paragraphs A and B, may authorize the employee to go home on paid time and consume a meal at no cost to City for a period not to exceed one (1) hour.

D. Employees in the plants who are assigned to work a 24-hour overtime shift will be entitled to $30.00 per diem.

ARTICLE IX. PAID LUNCH PERIODS

A. City will provide for a twenty-five (25) minute paid lunch for Child Care Site Coordinator, Assistant Child Care Site Coordinators, Youth Development Program Coordinators, night shift mechanics, night shift street sweeper operators, and custodians.

B. Refuse truck drivers and solid waste maintenance staff will work a straight eight-hour work schedule with no recognized lunch period.

ARTICLE X. UNIFORM AND SAFETY SHOE/WORK BOOT PROVISIONS

A. Subject to A (3) below, the City agrees to continue to provide two (2) options for a uniform allowance. Each division will determine whether they will receive the City-provided/laundered uniform or a uniform allowance.

1. City agrees to provide eligible employees within divisions who have elected the allowance with a $300.00 uniform allowance per year for shirts, pants, and shorts payable in January of each year of the contract. The value of the uniform allowance is reported to CalPERS as compensation subject to retirement contributions for employees in the classic retirement tier (not PEPRA).~~,~~

OR

2. Entire divisions may elect to receive eleven (11) shirts and pants/shorts per employee to wear during working hours, which will be cleaned and maintained by the City. This decision will be for the balance of the contract period. The rental and maintenance of the uniform will be up to $500 each fiscal year based on the cost of renting and laundering of the uniform. The value of the uniform provided, cleaned and maintained, is reported to CalPERS as compensation subject to retirement contributions for employees in classic retirement tiers (not PEPRA). This excludes the monetary value for personal health and safety equipment.

3. For safety reasons, the City reserves the right to deny an employee's request to wear shorts.

B. City agrees to continue to provide a safety boot/shoe allowance of $250~~0~~.00 per year payable in January of each year of the contract.

1. The prescribed shoe or boot must be appropriate to job class and must meet CAL-OSHA (ANSI) regulations. In addition, the boots must meet the following criteria:
    - All safety work boots/shoes must be approximately six (6) inches in height measured from the insole to the top of the upper (for maximum ankle support).
    - All safety work boots/shoes must have slip resistant soles.
    - All boot/shoes will have reinforced toes.

2. Employees receiving the boot/shoe allowance are required to wear the prescribed boot/shoe whenever conditions require it or be subject to disciplinary action. City reserves the right to determine if a shoe or boot is appropriate to job class in conformance with Section B.

C. It is understood that by the provision of such uniform apparel, designated employees are

required to wear such uniform apparel during all duty hours and to maintain a clothing standard that would be consistent with appropriate representation of the City. Regardless of selected option, uniforms must be kept in a well maintained, repaired, and clean condition.

D. Employees in the Parks, Recreation & Libraries Department who are required to work outside in cold weather shall be provided a heavy duty Carhartt type jacket. The City agrees to provide replacement jackets as needed.

~~An asterisk (*) indicates classification is eligible for City-provided uniforms and laundry or uniform/jean allowance and safety shoe or prescribed work boot.~~ As new classifications are added, the City shall determine whether a uniform and/or boot allowance shall be provided based upon the provisions set forth in this Article. The City shall meet and confer with local 39 regarding its decision.

E. All new employees, after completing their first six months of employment, ~~-~~will receive a pro-rated amount of uniform allowance based on the number of months remaining in the calendar year ~~in which they are hired~~ if their division selects the allowance. All new employees who are required to wear safety boots on the job shall receive an immediate pro-rated boot allowance based on the number of months remaining in the calendar year. At the discretion of the department head, a new employee may be provided with safety boots to ensure compliance with Section B.

F. New hires get the selection that the division has made for the year (i.e. allowance or uniform service).

G. Employees who transfer midyear stay with the annual election they have made until the new election period arises.

H. No employee reimbursement of uniform allowance is required when a Local 39 employee is promoted into management or any other non-uniformed classification.

ARTICLE XI. EMPLOYEE TOOL ALLOWANCE

Regular employees in the classes of Equipment Service Worker, Mechanic I/II, and Senior Mechanic shall receive an annual tool allowance of one thousand dollars ($1,000) per fiscal year. The purpose of this tool allowance is to reimburse employees for expenses incurred in the purchase, upgrade and maintenance of personal hand tools. Employees hired after the start of the fiscal year shall receive a prorated allowance.

Employees shall maintain a set of adequate and appropriate hand tools to be used in the performance of the employees' duties with the City. Such tools are and shall remain the property of the employee.

At least once each year employees shall submit an inventory of personal hand tools (Tool List) to the City. The Tool List shall identify all hand tools used by the employee in the performance of his/her

duties with the City.

When an employee purchases a new hand tool, it is the responsibility of the employee to update his/her Tool List and submit it to the City.

Damaged individual tools not covered by manufacturer's warranty will not be reimbursed by the City.

Employees may submit claims for the replacement of tools lost due to a catastrophic event, unusual circumstances, or theft. All claims for replacement tools shall be approved by the department head whose decision shall be final. Denied claims for replacement tools shall not be subject to the grievance procedure.

ARTICLE XII. REST PERIODS

City will provide a fifteen (15) minute rest break for every four (4) hours of work. Authorized rest period time taken shall be counted as time worked.

ARTICLE XIII. REST PERIOD BETWEEN WORKDAYS

It is the intent of this Article to provide for and insure a reasonable amount of rest for employees who may be required to work an extraordinary number of overtime hours between workdays or on a continuous emergency work schedule. In such circumstances, the City agrees to the following provisions as a means of assuring adequate rest, and the prevention of fatigue and safety hazards.

A. Rest Period Between Workdays

1. If an employee has worked for four (4) or more hours during the eight (8) hour period immediately preceding the beginning of his/her regular work shift, he/she is entitled to a four (4) hour rest period upon the completion of such overtime work.

2. If an employee has worked for six (6) or more hours during the twelve (12) hour period immediately preceding the beginning of his/her regular work shift, he/she is entitled to a six (6) hour rest period upon the completion of such overtime work.

3. If an employee has worked for eight (8) or more hours during the sixteen (16) hour period immediately preceding the beginning of his/her regular work shift, he/she is entitled to an eight (8) hour rest period upon the completion of such overtime work.

4. Rest periods are to begin immediately upon employee's release from overtime work. If the rest period in whole or in part overlaps the employee's regular work hours he/she will receive pay at the straight time rate for the extent of the overlap.

5. If the rest period overlaps his/her regular work hours but does not extend into the second half of his/her workday, the employee may be excused from reporting for work until the beginning of the second half of his/her workday. Employee, in advance, will notify supervisor if he/she intends to exercise this option. The employee may request vacation or comp time to make up hours.

6. If the rest period extends into the second half of his/her regular day, the employee may

be excused from reporting for work until the beginning of the following workday. Employee, in advance, will notify supervisor if he/she intends to exercise this option. The employee may request vacation or comp time to make up hours.

B. Continuous or Emergency Work Schedule. When, in circumstances of emergencies or other business necessity, it becomes necessary for the City to require a continuous work schedule of twenty-four (24) or more hours of work, employees shall work under close supervision and will be released for rest at the discretion of the department head or designee. In such circumstances, the employee shall be entitled to the prevailing rate of overtime pay, and shall remain at such rate of pay until released from the work schedule for a minimum of eight (8) hours.

ARTICLE XIV. MODIFIED DUTY ASSIGNMENTS

A. Refer to Administrative regulation 2.17 on Modified Duty for current policy on modified duty assignments.

B.. When an employee is assigned a modified duty assignment, the employee shall be compensated for hours worked at the regular rate of base salary and benefits regardless of whether or not the employee performs work within the regular classified position. If an employee is assigned to a modified duty assignment of less than full time, either accrued sick leave, or other available leave for hours worked may supplement compensation. In this case, the employee should contact the Employment Development Department (EDD) to confirm availability of partial benefits under State Disability Insurance (SDI) Program.

ARTICLE XV. SHIFT DIFFERENTIAL

A. Shift differential for purposes of this Article is defined as a shift of eight (8) hours or more where fifty percent (50%) of the shift falls between the hours of 10 p.m. and 6 a.m. except as otherwise stated in section C below.

B. Any employee who works an assigned regular time shift as described in “A” above, shall be paid an additional two and one-half percent (2.5%) of his/her base hourly rate for each hour actually worked. No shift differential will be paid on sick leave, vacation, CTO or any other time off.

C. Hours worked on overtime, whether the employee is held over, called in to cover a shift or partial shift, or volunteers for an overtime shift, will not be eligible for shift differential pay.

D. This provision does not apply to any shift with allowable sleep time.

CHAPTER 3. BENEFITS

ARTICLE I. HEALTH AND WELFARE PROGRAM

A. Eligibility

Any classified employee working fifty percent (50%) or more of a full-time schedule shall be eligible to enroll in any health and welfare benefit provided by this Article and currently authorized by the Local 39 bargaining unit. Regular part-time employees who are hired into a position funded as regular part-time after January 1, 2005, or current employees who laterally transfer or promote into a regular part-time allocated position will receive a pro-rated amount toward their health and welfare contribution based on actual hours worked. The contribution amount will be based on the percentage of full-time the employee works. For example, employees working twenty (20) hours per week will receive fifty percent (50%) of the full-time contribution; employees working thirty (30) hours per week will receive seventy-five percent (75%) of the full-time contribution, etc.

B. Medical Insurance Benefits

The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. Effective the first of the month after approval by the City Council or as soon as administratively possible, the City's maximum monthly contribution for each eligible active employee shall be equal to the minimum employer contribution required under the Public Employees' Medical and Hospital Care Act (PEMHCA).

C. Cafeteria Plan

1. The City agrees to maintain a Cafeteria Plan, pursuant to Section 125 of the Internal Revenue Code or any related regulations, for the purpose of providing employees with access to various health and welfare benefits. Benefits available through the Cafeteria Plan include medical insurance, dental insurance, vision insurance and Long Term Disability (LTD) insurance.

2. The City agrees to provide a Cafeteria Plan Allowance to all employees eligible to participate in City sponsored health and welfare benefits under Section A of this Article of up to $1,347.00 monthly (less the direct PEMHCA payment provided in paragraph B) for the term of the agreement.

3. Effective January 1, 2022, ~~T~~the City agrees to provide a flex plan credit based on medical plan tier election (EE only, EE+1, or Family) ~~of $168 per month~~ to be used by active employees for any benefit covered under the Cafeteria Plan, as follows: ~~Effective December 1, 2019, the City will increase the flex plan credit to $198. Effective December 1, 2020, the City will increase the flex plan credit to $228. Effective December 1, 2021, the City will increase the flex plan credit to $258.~~

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$273/month	$598/month

4. Effective January 1, 2023, the City agrees to provide a flex plan credit based on medical plan tier election (EE only, EE+1, or Family) to be used by active employees for any benefit covered under the Cafeteria Plan, as follows:

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$318/month	$673/month

5. Employees who elect not to participate in any of the medical, dental, vision or LTD insurance benefits sponsored by the City and who provide proof of other medical coverage will not receive any Cafeteria Plan Allowance under Section C(2) of this Article. Instead, employees who opt out of these City sponsored benefits will receive $150 per month reported as taxable income.

6~~5~~. Any Cafeteria Plan Allowance provided for under Section C(2) of this Article can only be used by an employee to offset the cost of participation in City sponsored medical, dental, vision, and LTD insurance benefits for the employee and any eligible dependents.

D. All employees will be enrolled in the State Disability Insurance (SDI) Program without benefit of election. Employee accepts sole responsibility for payment of any and all costs under this program. All payments will be collected via payroll deduction.

E. City agrees to provide a dental benefit as described in the evidence of coverage document. The City reserves the right to select any dental carrier. The City will provide two (2) cleanings per year (except for periodontal patients who will continue to have four (4) cleanings). Open enrollment will be as described in the evidence of coverage document which will be evaluated regularly and may be changed at the City's discretion in order to manage premiums for the City and represented employees.

F. The City agrees to provide a vision benefit. Details of the City's vision benefit are described in the evidence of coverage document. The City reserves the right to select any vision carrier. Open enrollment will be as described in the evidence of coverage document.

ARTICLE II. RETIREE HEALTH BENEFITS

A. Medical Insurance Benefits

The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. Effective the first of the month after approval by the City Council or as soon as administratively possible, the City's maximum monthly medical insurance contribution for each eligible retired employee shall be equal to the minimum employer contribution required for active employees under the Public Employees' Medical and Hospital Care Act (PEMHCA).

The parties agreement to move from the CalPERS equal contribution method to the PEMHCA minimum employer contribution method does not modify retiree health benefits for employees in Tiers I and II pursuant to Article II B and C below.

B. For Employees Hired Prior to January 1, 2005 (Tier 1)

Employees hired prior to January 1, 2005 that qualify for post-retirement health benefits shall qualify for such benefits based on rules in effect prior to January 1, 2005, i.e. an employee that retires from the City of Roseville and is eligible for CalPERS service retirement shall receive a City contribution towards their post-retirement medical insurance benefit at the same level as full-time regular employees covered by this Agreement.

C. For Employees Hired On or After January 1, 2005 and Prior To January 1, 2014. (Tier 2)

For employees hired on or after January 1, 2005 and prior to January 1, 2014, to be eligible to receive post-retirement health benefits, an employee must complete at least five (5) years of CalPERS-credited service with the City of Roseville. Employees who retire from the City of Roseville after meeting the service requirement stated above and who have at least ten (10) years of CalPERS-credited service will receive a City contribution towards their post-retirement health benefits as follows:

Total Credited Years of Service	% of City Contribution
10	50 %
11	55
12	60
13	65
14	70
15	75
16	80
17	85
18	90
19	95
20 +	100

Employees who have CalPERS-credited service through other public agencies must complete at least five (5) years of service with the City of Roseville and retire from the City of Roseville to be eligible for post-retirement health benefits. However, once an employee has completed five (5) years of service with the City of Roseville, their eligibility for post-retirement health benefits will include all years of CalPERS-credited service.

The vesting requirements for post-retirement health benefits will become effective January 1, 2005. Employees hired on or after January 1, 2005 shall be subject to the above post-retirement vesting schedule for health benefits.

D. For Employees Hired On or After January 1, 2014. (Tier 3)

1. Employee hired on or after January 1, 2014 shall have no vested right in any post-employment medical benefits provided by the City of Roseville. Instead, upon hire, those employees shall contribute one percent (1%) of their base salary each pay period to a City sponsored Retirement Health Savings (RHS) account and shall contribute an additional one percent (1%) per pay period per year annually, up to a maximum of five percent (5%) per pay period annually thereafter, to be

used to fund the employee's medical costs upon retirement from the City.

2. After five (5) years of continuous service with the City of Roseville, and beginning on the first pay period of the sixth year of service, the City shall contribute a flat dollar amount equal to $100 per month to be deposited to the employee's RHS account up until the employee's retirement date or separation from the City. After accruing ten (10) cumulative years of service with the City and pursuant to the vesting schedule in Section C of this Article, employees may draw from the City contribution to this account upon retirement.

3. Employees who terminate City service for reasons other than retirement prior to twenty (20) years of cumulative service with the City will forfeit any City contributions.

4. Employees must retire from the City of Roseville and be enrolled in the City of Roseville's health plan in order to utilize City contributions to the employee's RHS accounts. After ten (10) years of cumulative service with the City of Roseville, City contributions to the employee's RHS account may be used for all covered medical expenses pursuant to Section 213 of the IRS Code including participation in non-City sponsored plans.

ARTICLE III. PERS /OTHER POST EMPLOYMENT BENEFITS

In the event that the City wants to explore leaving CalPERS medical during the term of this Agreement, a committee will be formed with representatives from all six (6) bargaining groups (Local 39, IBEW, RPOA, RPA, RFF, and Management/ Confidential).

The committee will work towards consensus in all decision making. Minimum requirements from all bargaining groups will be submitted to the committee for consideration and will be met if reasonably possible at the time that alternative health care insurance is considered.

If unable to reach consensus on staying in/withdrawing from PEHMCA, each bargaining group will have the option of taking the committee's majority proposal to their membership. After membership review, the committee will continue discussions toward consensus.

If groups representing two thirds (2/3's) of the employees and representing at least fifty-one percent (51%) of the employees cannot decide on an alternative health care plan, the City will not leave PEHMCA.

If it is decided to change, management will make its best effort to find plans that mirror CalPERS plans and meet the minimum requirements agreed upon by the committee. There will be at least one (1) portable plan and at least one (1) plan that provides for no lifetime maximums.

Local 39 actives and retirees will be covered by the same health benefit provider(s) and will have the same levels of coverage.

If information comes to light that changes the fiscal viability of withdrawing from PEHMCA, and the City does not have time to take the information back to the committee for review, the City reserves the right to make the final determination to remain in PEHMCA. City does not reserve the right to pull out of PEHMCA without the approval of the committee.

The parties agree to meet during the term of this MOU to continue discussing Retiree Health Benefits.

ARTICLE IV. LONG TERM DISABILITY PLAN

A. City agrees to maintain a Long Term Disability (LTD) program consisting of a sixty (60) calendar day qualifying period; whereupon an eligible employee shall be entitled to receive sixty percent (60%) of his/her gross monthly salary in accordance with the LTD Plan. Other details of City's LTD Plan are described in the plan booklet.

B. After five (5) years as a regular employee of the City, City agrees to pay one hundred percent (100%) of the premium for the LTD Plan.

ARTICLE V. DEFERRED COMPENSATION

A. City agrees to maintain a voluntary program of employee funded deferred compensation for classified full and part-time employees. It is understood that City is solely responsible for selection of the deferred compensation plan and plan administrator(s).

B. Effective June 30, 2012, the City agrees to contribute three percent (3%) of the employee's base wages into the deferred compensation plan for employees who have completed five (5) continuous years of classified employment with the City of Roseville.

ARTICLE VI. PUBLIC EMPLOYEES RETIREMENT SYSTEM

A. Retirement System. Unit members are provided retirement benefits under the California Public Employee Retirement System (CalPERS) as described in this Article.

B. Tier One: 2.7% at 55 Retirement Program – Bargaining Unit Members Hired On or Before December 31, 2012 and Unit Members Qualified for Reciprocity (Classic Member)

This Section B, including subsections, shall apply to bargaining unit members hired on or before December 31, 2012. In addition, this Section B shall apply to bargaining unit members hired on or after January 1, 2013, who are qualified for pension reciprocity as stated in Government Code Section 7522.02(c) and related CalPERS reciprocity requirements (Classic Member):

1. 2.7% at 55 Pension Formula

   The "2.7% @ 55" retirement program will be available to bargaining unit members covered by this Section.

2. Final Compensation Based On 12-Month Period

   For the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by this Section B shall mean the highest twelve (12) consecutive month period as specified in Government Code Section 20042.

3. Required Contributions

   Bargaining unit members covered by this Section B shall continue to pay, through payroll

deduction, 8.0% of compensation earnable contribution to CalPERS. 6.197% shall be contributed toward the City's pension costs, and 1.803% shall be contributed toward the employees' pension contribution.

The City shall pay 6.197% of compensation earnable as EPMC (Employer Paid Member Contribution) and shall report the same percent (value) of compensation earnable as special compensation pursuant to Government Code Section 20636(c) (4).

C. Tier Two: PEPRA Retirement Tier Required For Bargaining Unit Members Hired On or After January 1, 2013 and Not Qualified For Reciprocity

This Section C, including subsections, shall apply to bargaining unit members who were hired on or after January 1, 2013, and who do not qualify for pension reciprocity as stated in Government Code Section 7522.02(c).

1. 2% at 62 Pension Formula

The "2% @ 62" retirement program will be available to bargaining unit members covered by this Section C.

2. Final Compensation Based On 36 Months

Effective January 1, 2013, for the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by this Section C shall mean the highest annual average pensionable compensation earned during thirty-six (36) consecutive months of service.

3. Required Bargaining Unit Member Contributions

As required by Government Code Section 7522.04(g), effective January 1, 2013, bargaining unit members covered by this Section C shall pay, through payroll deduction, fifty percent (50%) of normal costs as determined by CalPERS.

D. Other Options Included In CalPERS Contract

Unit members continue to be eligible for the following options included in the City's contract with CalPERS:

- Government Code Section 20965 (Conversion of unused sick leave balance to service credit.)
- Government Code Section 21573 (Third Level of 1959 Survivor Benefits).
- Government Code Section 21548 (Pre-Retirement Option 2W Death Benefit).

ARTICLE VII. EMPLOYEE ASSISTANCE PROGRAM

A. City agrees to continue to provide an Employee Assistance Program (EAP), which allows for six (6) paid counseling visits for each employee and each dependent family member per calendar year. City reserves the right to select the program provider.

ARTICLE VIII. LIFE INSURANCE

A. City agrees to provide eligible employees with a fully paid term life insurance program in the amount of twice the annual salary in effect as of July 1st of each year as provided in the Evidence of Coverage. City reserves the right to select the insurance provider.

CHAPTER 4. LEAVES

ARTICLE I. HOLIDAYS -- GENERAL

A. The following holidays shall be observed by the City with respect to all employees, except shift employees in the water/wastewater treatment plants. City offices shall be closed on these days except as otherwise provided herein:

1. January 1st (New Year's Day)

2. The third Monday in January (Martin Luther King's Birthday)

3. The third Monday in February (Washington's Birthday)

4. The last Monday in May (Memorial Day)

5 July 4th (Independence Day)

6. The first Monday in September (Labor Day)

7. November 11th (Veteran's Day)

8. The day in November appointed by the President of the United States as Thanksgiving Day

9. The day immediately following Thanksgiving Day

10. December 25th (Christmas)

11. Sixteen (16) hours (floating holiday) to be taken any time during the calendar year by employees who have completed at least six (6) months probationary service (pro-rated for part time regular employees). The number of floating holiday hours to be credited to a new employee hired after January 1 shall be pro-rated based on the number of full months employed during that year. Employees unable to complete six (6) months of probationary service prior to December 31 shall not accrue or be eligible for any floating holidays that year. The employees and the employee's supervisor shall jointly determine a convenient date to take such leave.

~~B. The following non-recurring holidays shall be observed in any year in which they occur: Every day appointed by the President of the United States or the Governor of the State of California for a public fast, thanksgiving, or holiday (except Admission Day).~~

B~~C~~. If January 1st, July 4th, November 11th, or December 25th falls on a Saturday, the preceding Friday shall be a holiday; if any such day falls on a Sunday, then the following Monday shall be a holiday. If a holiday occurs on the employee's first normal day off, the employee shall take the preceding day as the holiday; however, if the holiday occurs on the employee's second consecutive normal day off, the employee shall take the following day as the holiday. This policy

shall be adhered to where practical and may be modified only by written consent to other conditions by the department head.

If an employee has taken more holidays than have been earned at the time of separation from service, the City may deduct an equivalent amount of pay for the holidays taken in advance from the employee's final check.

C~~D~~. Christmas Holiday Week Time Off

Employees may request in writing to take off one (1) or more days during the City's designated Christmas holiday week. Approval shall be subject to the operating needs of the City. Employees approved for this time off may use accrued vacation leave, holiday time, compensation time off and/or leave without pay.

HOLIDAYS - TREATMENT PLANTS

A. Treatment Plant non-shift employees shall receive ten (10) holidays per year to be taken as they occur as well as two (2) floating holidays per year.

B. Treatment Plant shift employees shall receive six (6) fully paid holiday shifts per year, in advance, on January 1st of each year, earned in twelve (12) hour increments for each one (1) month of continuous employment. Employees may take holidays in full shifts or half shifts, but may take no more than six (6) half shifts during the hours of 0700 and 1900, local time, within a calendar year. Should an employee take six (6) half (morning or a.m.) shifts, the employee may take the rest of the holidays as pay in three (3) full shifts, or as six (6) half (night or p.m.) shifts.

1. In lieu of holiday time off, shift employees may elect to receive straight salary for up to three (3) shifts of earned and unused holiday credit within each ~~fiscal~~ calendar year. All holiday time to be converted to pay by an employee shall be in full shift increments. All employees opting for pay may do so only once during any ~~fiscal~~ calendar year~~, and City shall pay that employee in a separate draft~~.

2. All holiday time off is subject to advance approval of the department head.

C. If an employee has taken more holidays than have been earned at the time of separation from service, City may deduct an equivalent amount of pay for the holidays taken in advance from the employee's final check.

ARTICLE II. SICK LEAVE

(Refer to Section 3.12.070 of the Personnel Rules):

A. The objective of this section is to provide methods of furthering the health and general welfare of City employees, as well as ensuring maximum and reasonable job attendance.

Sick leave should not be viewed as a right to be used at the employee's discretion; rather it is a privilege of paid time away from work duties in the event of one (1) of the following circumstances:

1. Actual illness or injury of the employee that occurred away from the job setting, except where such injury/illness occurred in connection with off-duty (outside) employment when an injury is job-related, the employee shall be charged with sick leave usage only to the extent that their salary is not covered by Worker's Compensation.

2. The employee's exposure to a contagious disease.

3. Where the employee's medical attention to an immediate family member is required. Immediate family member includes any person living in the employee's immediate household and as defined pursuant to Municipal Code 3.00.420.

4. Emergency leave due to the death or imminent death of family members.

B. Accrual/Use: Sick leave is accrued by all classified employees on the basis of biweekly payrolls based upon eighty (80) hours of paid time per pay period for all employees except 24-hour workers whose accrual will be based upon one hundred and twelve (112) hours per pay period. On each day following completion of one (1) month of continuous service, eligible full-time employees shall receive credit for eight (8) hours or one-half (1/2) of a 24-hour shift leave with pay, the total of which shall not exceed twelve (12) days or six (6) shifts in any twelve (12) month period. Sick leave may be used for those purposes listed above. Employees on a modified schedule work assignment shall accrue sick leave on a pro rata basis of hours worked. Maximum accumulation of sick leave shall be unlimited.

Employees may be granted sick leave in minimum units of one-half (1/2) hour for those reasons specified in Subsection A, provided that such time has been earned.

Department heads may require probationary employees to support each incident of sick leave use after the first twenty-four (24) hours of sick leave is taken by use of a medical certification of a health care provider as set forth in section G below.

Employees shall not use sick leave for disabilities determined to be job related, except as provided for in Section 3.12.100 of the Roseville Municipal Code, nor shall employees be allowed to use sick leave for the sole purpose of utilizing such accrued time prior to separation from service.

C. Illness/Injury During Vacation: An employee who becomes ill or injured while on vacation may have such period of illness/injury charged to the employee's accumulated sick leave rather than vacation, provided that:

Immediately upon return to duty, the employee submits to the department head a written request for sick leave, accompanied by a signed statement from the employee's health care provider that complies with section G below.

D. Holidays During Sick Leave Or Disability: Observed holidays occurring during sick leave shall not be counted as a day of sick leave or disability, but shall be regarded as the taking of a holiday.

E. Sick Leave For Immediate Family Care: All classified employees are allowed to use sick leave days for the required care of immediate family members pursuant to Municipal Code 3.12.070(a).

F. Funeral and Bereavement Leave: All regular non-24-hour shift employees may be granted a maximum of sixty-four (64) hours and all regular 24-hour shift employees may be granted a maximum of three (3) shifts of sick leave for each such instance to:

1. Attend the funeral of an immediate family member, grandparents, grandchildren, or in-laws.
2. Deal with matters related to the death of critical illness where death appears imminent of any member of the employee's immediate family.

Requests for funeral and bereavement leave shall be evaluated by the employee's department head to determine the appropriate amount of leave to be granted in each instance.

G. Procedure to Receive Sick Leave: The employee must notify the first level management supervisor in the work unit prior to or not later than one (1) hour after the start of the day's/shift's work of the need for sick leave. In the event sick leave is required by the employee for an unforeseen emergency, department management personnel shall use reasonable discretion in the exercise of requiring notification, and the employee shall immediately request permission for absence and use of sick leave from the available departmental management personnel. An emergency, as used here, refers to funeral or bereavement leave and medical emergencies involving the employee or immediate family members.

Generally, the certificate of a health care provider is not required for sick leave absences of less than five (5) days or two and one-half (2-1/2) consecutive shifts, unless it is deemed necessary for the protection of the City's interests, and in cases of probationary employees when required by the department head. However, absences of five (5) days or two and one-half (2-1/2) shifts may be required to be supported by a medical certificate by a health care provider.

Generally, a department director may require that the employee provide written certification from a health care provider when he/she has been absent due to illness or injury for more than five consecutive days. However, the City reserves the right to require a medical certification. The certification must include:

1. The employee’s name
2. The name and address of the health care provider.
3. A statement by the health care provider that the employee is under the care of the health care provider and that the illness/injury prevents the employee from performing his/her duties.
4. Date(s) employee was seen or will be seen by the health care provider.
5. Certification must be provided by the health care provider.

If, in the opinion of the department head or the Human Resources Director, any single occurrence of an employee's use of sick leave was in connection with a condition that may be detrimental to the health and welfare of other employees, either of these officers may require the employee to obtain a medical release by a physician of City's choice and at City's expense.

In all instances of sick leave, certification of approved or disapproved use shall be made by the employee's supervisor. The Human Resources Director will prescribe all forms related to City's sick leave use policy, and shall maintain accurate records of sick leave use, including annual surveys to determine possible corrective measures. The Human Resources Department is available to hear any concerns regarding the medical certification process.

H. Sick Leave Without Pay: Upon written request of an employee, the Human Resources Director may grant leave without pay due to personal illness/injury for up to thirty (30) calendar days and may grant extensions up to a total maximum period of ninety (90) calendar days. Extensions of sick leave without pay up to a maximum of an additional ninety (90) calendar days must be approved by the City Manager. The initial and subsequent requests for sick leave without pay must be accompanied by a physician's certificate stating the nature and approximate duration of medical disability.

I. Abuse of Sick Leave: The sick leave program is designed to provide employees with two benefits: (i) available paid leave for a reasonable amount of short-term illnesses, and (ii) provide a savings bank of time to ensure available paid leave for long-term illnesses. In order to ensure that the sick leave program is being utilized for both purposes, all City employees are monitored to ensure that their usage of the sick leave benefits is not abusive.

However, employees found to have claimed sick leave fraudulently will be handled through City's disciplinary process separate from this section.

This section is not intended for those City employees who have been identified as having chronic medical problems, which may result in numerous absences from their job through no fault of their own. These cases will be evaluated on a case-by-case basis as to the appropriate City action, if any. For purposes of this section a chronic illness is defined as one that is chronic in nature and that results in a minimum of three (3) absences per calendar year totaling twenty-four (24) or more hours. In order for an illness to be considered chronic, medical evidence must be submitted to the Human Resources Director for approval. Once an employee has a chronic condition identified, any and all subsequent absences due to the employee's chronic condition may require a doctor's certificate to support the absence(s).

J. Return to Work Physicals: Prior to the resumption of work duties after taking any occurrence of sick leave or industrial disability leave due to injury or illness, an employee may be required to undergo a physical examination by a City selected physician or submit a certificate of employability from the employee's treating physician where it is in City's best interest. In all cases of medical absence due to a contagious condition, or its potential, the afflicted employee shall notify the department head and Human Resources Director immediately by telephone of such condition, and shall be required to provide medical evidence of employability before returning to work.

K. Payment For Unused Sick Leave Upon Retirement: The payment of unused sick leave is authorized by City as a means of rewarding employees who have made conscientious efforts to maximize their attendance on the job.

Employees in the classified service, regardless of service length, shall be entitled to payment

for accrued (not pro rata) sick leave (as indicated below), up to their date of retirement. However, employees whose separation is caused by dismissal shall not be entitled to payment for unused sick leave.

Number of Sick Leave Days Accumulated	Percent of Days For Which Compensation is Given
120 - 150	60
96 - 119	50
72 - 95	40
48 - 71	30
24 - 47	20
0 - 23	0

In the event of a job related death, the beneficiary of the employee, as shown on the records of the public employees' retirement system, shall be paid for those sick leave and vacation days for which the employee would have been paid had employment terminated on the date of death. No more than one hundred and fifty (150) such sick leave days may be used in ascertaining the amount of days for which the employee will be compensated at time of termination or retirement.

L. Conversion to Retirement Credit: In lieu of Subsection K above, a retiring employee may elect to convert his/her sick leave balance to retirement credit in accordance with the provision of the California Public Employees' Retirement System.

ARTICLE III. MILITARY LEAVE

A. Classified employees obligated to serve periods of active military duty for training shall be compensated by the City at their regular rate of compensation for normal duty hours and days or shifts during such absence from work, up to a maximum of two hundred and forty (240) hours in any calendar year. The number of hours used shall be determined by the employee's regular schedule.

B. Classified employees exercising this provision of military leave will be required to submit properly documented evidence of their call to active duty prior to such duty if for regularly scheduled training or within thirty (30) calendar days following the conclusion of duty ordered as the result of an emergency. Such documentation must be submitted through the chain of command to the Human Resources Director.

ARTICLE IV. JURY DUTY LEAVE

A. Classified employees who have been summoned or subsequently selected to serve on a jury shall receive their regular rate of compensation by City for normal work hours and days or shifts during such absence from work.

B. Employees will be allowed to retain any mileage compensation granted to them by the respective court jurisdiction to which they were summoned or selected for jury duty.

C. Employees summoned to jury duty must provide evidence of such summons and subsequent jury duty days away from work through their respective department heads to the Human Resources Director.

D. If a worker normally assigned to any shift except days is called to jury duty and ordered to report, the employee's shift shall be changed to days until the jury obligation has been fulfilled. Any day that the employee is released from service having served fewer hours than normally scheduled, the employee shall report to work for the remainder of the shift.

ARTICLE V. DISABILITY LEAVE

Employees may be granted paid disability leave, based on the following circumstances, terms, and conditions. The purpose of providing these programs of paid disability leave is to ensure that employees have reasonable and equitable provisions concerning their job and economic security.

A. Work related temporary disability. If a classified employee is temporarily disabled by injury or illness arising out of and in the course of performing assigned job duties, the employee shall become entitled to a leave of absence regardless of length of service while so disabled without loss of salary, less workers' compensation disability payments, for up to seventy-five (75) calendar days, commencing upon the first calendar day after the injured employee leaves work as a result of the injury.

B. Following the initial seventy-five (75) days of temporary disability, an eligible employee may supplement their temporary disability payments with available leave balances (i.e., vacation, sick leave) until such balances are exhausted (up to twelve (12) months).

C. During the time of work related disability, an eligible employee will continue to accrue the normal leave, i.e., vacation, sick leave, until such time as their leave balances have been exhausted (up to twelve (12) months).

D. During the period of time of work-related disability, City will continue to contribute its share to the employee's health and dental plan until such time as all leave balances are exhausted (up to twelve (12) months).

E. Employees who are found to abuse or fraudulently use the privilege and benefits of the temporary disability program as prescribed above shall be subject to disciplinary action, including termination from City service. The employee exercising these temporary disability provisions shall be required to provide the department head and Human Resources Director with a copy of the attending physician's report, which shall contain a description of the nature and anticipated duration of the disability, and the employee shall keep the department head and Human Resources Director apprised of the medical condition at intervals prescribed by the Human Resources Director.

ARTICLE VI. LEAVES OF ABSENCE

A. Department heads may grant a probationary or regular employee leave of absence without pay or benefits related to employment for a period not to exceed one (1) calendar week. Such leaves shall be reported in writing to the Human Resources Director.

B. Leaves of absence without pay or benefits related to employment for a period not to exceed three (3) consecutive months may be granted to regular employees upon recommendation of the department head and approval of the Human Resources Director and City Manager. Following the initial three (3) months, the leave of absence may be extended for a maximum of an additional six (6) months if recommended by the department head and Human Resources Director, and approved by the City Manager. However, no such leave shall be granted except upon written request of the employee, setting forth the reason(s), circumstances and length of the requested leave.

C. Upon expiration of an approved leave of absence, the employee may be reinstated in the position held at the time leave was granted. Failure on the part of an employee on leave of absence to report for work promptly at the expiration of leave, or within a reasonable time after notice to return to duty, shall be cause for dismissal and the employee shall automatically waive all rights under this MOU. The depositing of a first class letter of notification to return to duty in the United States mail, addressed to the employee's last known address, shall constitute reasonable notice.

D. The granting of any leave of absence without pay or benefits related to employment for any period exceeding one (1) full month shall result in the setting of a new salary anniversary date for the employee. Such date shall be based on the employee's original salary date advanced by the number of calendar days leave in excess of one (1) full pay period.

E. Temporary Leave With Pay. Notwithstanding the provisions of this Article, upon the recommendation of the Human Resources Director, the City Manager may approve the temporary assignment of an employee to a status of leave with pay, pending conduct or completion of such investigations or hearings as may be required to determine if disciplinary action is to be taken.

ARTICLE VII. MATERNITY LEAVE

A. Continuation of Employment. A pregnant employee may continue employment as long as her health, the health of the unborn fetus, or the employee's ability to adequately perform prescribed job responsibilities would not be adversely affected by continued employment.

B. Notification. Applicable employees shall notify the department head and Human Resources Director in writing upon notice by their treating physician that such pregnancy exists, including the anticipated date of childbirth or other related medical conditions and their anticipated date of return to full duty. At any time during the pregnancy, the Human Resources Director may require the employee to furnish medical evidence or information to support the employee's medical suitability for continued employment.

C. Term of Leave. Maternity leave shall be granted only for medical reasons arising out of and in the course of a pregnancy, the subsequent childbirth, or other related medical conditions, as provided below:

1. Sick Leave With Pay. A pregnant employee may take accrued sick leave with pay for reasons of medical necessity relating to the employee's physical condition resulting from the pregnancy, childbirth, or other related medical condition. However, under no circumstances shall such paid sick leave exceed the total of the employee's accumulated but unused sick leave, nor shall paid sick leave be granted beyond the date the employee is no longer considered medically disabled from normal work activities.

2. Other Paid Leave. A pregnant employee may elect to utilize accrued vacation, compensatory time off, or any other earned form of paid absence from work in lieu of, or in combination with, paid sick leave during the period of pregnancy related leave, the combination of which may not exceed normal full pay.

3. Sick Leave Without Pay. Eligible employees may be granted sick leave without pay pursuant to Section 3.12.070(H) of the Personnel Rules and Regulations.

ARTICLE VIII. VACATION LEAVE

The purpose of vacation leave is to provide eligible employees the opportunity to take paid time off from their job responsibilities in order to maintain a high standard of mental, emotional and physical conditioning.

A. Eligibility: All regular employees in the classified service shall be entitled to annual vacation leave with pay. Each employee will earn and accrue vacation hours pursuant to the accrual schedule as noted in subsection B. Exceptions to this provision shall only be granted in unusual circumstances substantiated by the department head in a recommendation to the City Manager who may approve or disapprove such variances.

B. Accrual: Each classified employee shall earn and accrue vacation leave based upon eighty (80) hours of paid time each pay period for all employees except 24-hour workers whose accrual is based upon one hundred and twelve (112) hours per pay period with pay as follows. (Employees on a modified schedule work assignment shall accrue vacation leave on a pro-rata basis of hours worked.)

Service Category	Biweekly Accrual	Days/Year Equivalent	Max. Hrs. Accrual
New employee to completion of 4th year	3.692 hr.	12 days	240
Start of 5th year to completion of 9th year	4.307 hr.	14 days	280
Start of 10th year to completion of 14th year	4.923 hr.	16 days	320
Start of 15th year to completion of 19th year	5.538 hr.	18 days	360
Start of 20th year and succeeding years	6.153 hr.	20 days	400

Each full-time classified employee in the Treatment Plants working a twenty-four (24) hour shift shall accrue vacation leave with pay as follows:

Service Category	Biweekly	Days/Year Equivalent	Max. Hrs. Accrual

	Accrual		
1 – 4 years	5.538 hr.	6 shifts (144 hrs)	360
5 - 9 years	6.462 hr.	7 shifts (168 hrs)	420
10 -14 years	7.385 hr.	8 shifts (192 hrs)	480
15 -19 years	8.308 hr.	9 shifts (216 hrs)	540
20 + years	9.231 hr.	10 shifts (240 hrs)	600

1. As noted in Subsection A, new employees shall earn vacation at the biweekly rate shown above from the hire date. Eligible employees shall advance to the next higher rate of accrual upon completion of the maximum number of years at the lower accrual rate, and shall begin to accrue at the higher rate at the start of their qualifying year. Part-time employees shall receive a prorated accrual.

2. Except as provided in this Section B, an employee's maximum accrual of vacation hours may not exceed two and a half (2 1/2) the employee's annual accrual rate as specified above and an employee will stop earning and accruing vacation hours while the employee's accrual remains at the maximum allowed under this Section B. One (1) month prior to the employee's anniversary date, the department head shall review the number of hours accrued by the employee.

3. If the amount exceeds specified limits, the employee shall take the excess number of vacation hours up to a maximum of twenty (20) hours prior to the anniversary date or, if operational necessity will not permit taking such time, the employee may be paid the straight time hourly equivalent. Additionally, the maximum vacation hours an employee may accrue will be extended when an employee's is on disability leave, jury duty, or military leave as provided in these rules. The employee shall be allowed to liquidate such excess accrual within thirty (30) calendar days following return to duty, by means of taking such time up to a maximum of twenty (20) hours or receiving the straight time hourly equivalent in compensation.

C. Use: Per Section 3.12.060(C) of the Personnel Rules and Regulations, an employee may elect to take all or part of earned vacation, or may carry over to the next service year all or part of earned vacation as approved by the department head and consistent with the provisions of Subsection B. However, the dates and amount of vacation selected by the employee shall be subject to approval of the department head. Vacation leave shall generally be taken in minimum increments of one (1) full work day/work shift, except that unusual, emergency, necessary and infrequent use of vacation leave may be granted in one (1) hour increments. Employees must request the vacation at least ten (10) work days prior to the desired start of vacation leave. Under unusual or personal emergency circumstances, employees may request and department heads may consider the approval of vacation leave with fewer than ten (10) working days' notice. In the event it becomes necessary to call an employee back to work from a scheduled vacation, the employee shall be credited with the unused vacation hours and shall have the opportunity to take such remaining vacation leave at a time of the employee's choosing and the department head's approval.

D. Holidays Within Vacation Leave: Except for shift personnel in the Water/Wastewater Plants, holidays which occur during a scheduled vacation period shall be counted as a holiday. Employees may request in advance that they extend their vacation leave by the number of holidays occurring within their scheduled leave, or they may request fewer vacation hours which,

together with the holiday(s), will comprise the total time period of their scheduled leave.

ARTICLE IX. PERSONAL LEAVE TIME

Effective January 1, 2017, each employee who has completed six months of his/her initial employment with the City shall be provided a bank of forty-five (45) hours of Personal Leave Time (PLT). Part-time employees will receive a prorated bank. Thereafter, employees shall be provided a bank of forty-five (45) hours of PLT on the first pay period of each calendar year. Any employee hired after the first pay period shall be granted a prorated amount at .86538 hours per week for the remainder of the calendar year, but shall not have access to this bank until they have completed six (6) months of work.

Use of PLT time shall be subject to the following:

1. PLT may be used by employees for time off on an hour for hour basis until the employee has exhausted the bank.

    a. Use of PLT shall be subject to the operating needs of the City. The City may deny an employee time off on PLT if such release time will adversely impact the operating or staffing needs of a City department.

2. PLT shall have cash value and may be cashed out by the employee on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay. Employees may cash out unused PLT in any regular pay period pursuant to procedures established by the City Human Resources Department. Pursuant to Chapter 3, Article V of this MOU, employees may defer some or all cashed out PLT into the City's deferred compensation plan.

3. Any PLT time remaining in an employee's PLT bank on the last pay period of the calendar year shall not roll over into the next calendar year. Such PLT time shall be cashed out by the City on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay.

4. Employees who leave the bargaining unit or terminate employment with the City shall be cashed out at the rate of .86538 hours per week up to the balance of the employees PLT bank. If an employee terminates and has taken more PLT in advance than.86538 hours per week, the City shall deduct an equivalent amount of pay for the PLT. Any time cashed out will be paid on an hour-for hour basis at the employee's regular straight-time hourly rate of pay.

ARTICLE X. CATASTROPHIC LEAVE

Pursuant to City Personnel Rules Section 3.12.065, pertaining to Catastrophic Leave.

The parties have interest in making revisions to the catastrophic leave program/policy and will meet and confer over forthcoming City proposed revisions.

CHAPTER 5. MISCELLANEOUS ISSUES

ARTICLE I. MEMBERSHIP DUES AND AUTHORIZED DEDUCTIONS

A. The Union shall be entitled to have membership dues and other lawful deductions of its members deducted from their paychecks in accordance with the procedures required by law and set forth herein. To the extent required by Government Code Sections 1157.3 and 1157.12, the City shall honor employees' voluntary authorizations for Union dues deductions from employee paychecks. Such authorized deductions shall be remitted monthly to the Union along with an adequate itemized record of deductions. The City shall make every reasonable effort to remit the amounts deducted within ten (10) working days following the payday on which the deductions were made.

B. In making such authorized membership dues deductions, the City shall rely on written certification from the Union confirming that the Union has and will maintain authorizations signed by each individual employee from whose paychecks the deduction is to be made that the individual affirmatively consents to the dues deduction in a manner that meets the requirements of state and federal law, including but not limited to applicable provisions of Government Code Sections 1150-1157.12 and the First Amendment of the United States Constitution. After providing the required certification, the Union shall not be required to provide a copy of individual authorizations to the City unless a dispute arises about the existence or terms of the authorization. To the extent required by law, the City will rely on information provided by the Union in writing regarding whether dues deductions were properly cancelled or changed. Any requests from the Union that the City change dues deductions shall include a certification that the changes are requested with the affirmative consent of the individual employee(s) and otherwise comply with all requirements of state and federal law.

C. The amount of membership dues shall be set by the Union. All changes in dues deductions shall become effective the first of the month following written notification to the City's Chief Financial Officer.

D. The City agrees to direct all employees to the Union with regard to any questions or concerns related to membership dues or any other mutually agreed payroll deduction.

E. The City agrees to provide to the Union on a monthly basis a payroll dues deduction report.

F. The employee's earnings must be regularly sufficient, after other legal and required deductions are made, to cover the amount of the dues check-off authorized. When an employee, in good standing in the Union, is in a non-pay status, for the full pay period when his/her dues would normally be withheld, no dues deduction will be made to cover that withholding from the current or future earnings; nor will the employee deposit the amount with the City which would have been withheld if the employee had been in a pay status during that period. In the case of an employee who is in a non-pay status during only a part of the pay period and the salary is not sufficient to cover the full withholding, no deduction shall be made. In this connection, all other legal and required deductions have priority over Union dues.

G. The Union shall indemnify, defend, protect and hold harmless the City and its elected and appointed officials, officers, employees, officers and agents (collectively hereafter the "Indemnitees") from and against any and all claims, liabilities, losses, damages, fines, penalties,

claims, demands, suits, actions, causes of action, judgments, costs and expenses (including, but not limited to, reasonable attorneys' fees and court costs) arising from the application of any provisions under this Article, including, but not limited to, any claims made by any member employees for the membership dues deductions the City made in reliance on the Union's certification, and any claims made by any member employees for any deduction cancellation or modification the City made in reliance on the information provided by the Union, provided that the City promptly notify the Union of any such matter for which it is seeking indemnification after the City has knowledge of the occurrence of such matter.

H. In the event any such action or proceeding is brought against the City by reason of any such claim, the Union, upon notice from the City, covenants to defend such action or proceeding by counsel reasonably satisfactory to the City. Further, the Union agrees to indemnify and hold harmless the Indemnitees for any loss or damage arising from the Union's actions or inactions under this Article.

ARTICLE II. CAUSES FOR DISCIPLINE

(Refer to Section 3.16.020 of the Personnel Rules)

ARTICLE III. TYPES OF DISCIPLINE

(Refer to Section 3.16.030 of the Personnel Rules)

ARTICLE IV. GRIEVANCES - GENERAL AND PROCEDURES

Any represented employee who wishes to call his or her union business representative regarding employment related matters, may do so on City paid time at his or her own expense, provided such telephone calls do not represent or create any unreasonable disruption of work such as non-routine travel time and distance to use a pay telephone.

A. Grievances in General. An employee, a group of employees, and or a Local 39 representative may complain to the City management through the grievance procedure in this Article regarding any matter relating to employee wages, hours, or conditions of employment. A grievance may be either formal or informal. An informal grievance is a prerequisite to filing a formal grievance.

B. Informal Grievances. An employee, a group of employees, and/or a Local 39 representative with a grievance shall first discuss the matter with the immediate supervisor within ten (10) calendar days of the matter complained of. The supervisor and the employee shall attempt to informally resolve the dispute. If the matter is not resolved, the employee shall next discuss the matter with the department head within ten (10) calendar days of the supervisor's decision. The department head and the employee shall attempt to informally resolve the dispute. The decision of the department head regarding an informal grievance shall be final unless the employee files a formal grievance.

C. Formal Grievances.

1. An employee, a group of employees, and/or a Local 39 representative who has a grievance which remains unresolved after utilizing the informal grievance procedure may file a formal grievance in writing. The employee shall file a formal written grievance with the City Manager within ten (10) calendar days after the final decision

on the informal grievance. The formal grievance shall contain all relevant information relating to the grievance, which the employee wishes the City Manager to consider. The City Manager shall meet with and respond in writing to the employee, group of employees, and his/her Local 39 union representative within ten (10) calendar days of the receipt of the grievance.

2. Except in those cases where the grievance is subject to Administrative Appeal to the Personnel Board pursuant to Roseville Municipal Code, Chapter 3.23, or Chapter 5, Article VI of this Memorandum of Understanding, the decision of the City Manager regarding a formal grievance is final.

ARTICLE V. GRIEVANCES - MOU INTERPRETATION AND APPLICATION

A. City agrees to the establishment of a three (3) member Review Board, the composition of which will consist of one (1) member selected by City, one (1) member selected by the Union which shall not be an employee of City, and one (1) member selected jointly by City and Union from among list(s) of available representatives provided by the State Mediation and Conciliation Service who shall serve as chairperson of the Review Board.

B. The Review Board shall only be convened to hear evidence in connection with an allegation that some term or condition of a specific provision contained in this Agreement was not interpreted or applied properly, and only after the grieving party has properly exercised the grievance procedures prescribed in this Article VI of this Chapter. Members of the Review Board shall not have the authority to change, delete, add, or in any way modify any word, term or phrase contained in this Agreement, but shall be limited to interpretation of existing language only.

C. An employee or group of employees or Local 39 representative who have been aggrieved by the interpretation and application of any provision of this Agreement, and who have not had such grievance adjusted satisfactorily following the decision of the City Manager, shall file a written request with the Human Resources Director within ten (10) calendar days after the City Manager's decision to have the matter heard by the Review Board. At the time of filing such a written request, the grieving party shall additionally supply the Human Resources Director with copies of any other documents pertaining to the grievance or alleged infraction, which shall be referred to the Review Board in advance of a hearing date. If requested by the grieving party, the Human Resources Director shall supply the grieving party with a copy of any package provided the Review Board in advance of a hearing date.

D. The Review Board shall be conducted informally and shall interview persons the board deems appropriate in order to ascertain sufficient facts upon which to base its recommendation. Within ten (10) calendar days after the board has interviewed its last witness, the board shall submit to the City Manager, with a copy to the Union, a written statement of the facts of the matter based upon evidence provided, conclusions, and recommendations. Such written facts, conclusions, and recommendations shall reflect the opinions of the majority of Review Board members. Recommendations made by Review Boards shall be advisory only, and shall not bind the City in any manner to its decision.

ARTICLE VI. NO STRIKES/CONCERTED ACTIONS

For the effective period of this Agreement, Union and its members agree that it shall not call, sanction, or engage in any strike, slowdown, suspension, or stoppage of work activity, and City agrees it shall not engage in nor cause a work lockout.

ARTICLE VII. EDUCATIONAL TRAINING

Employees interested in professional training shall submit written requests through their immediate supervisor. The supervisor shall review such requests with recommendations to the department head. The department head shall make a determination as to whether the training is necessary and/or job related. Funding for the training shall be from available funds within the budget, or if necessary, through approved budget adjustments. Training which is denied under this section may be submitted under Article X Educational Reimbursement.

ARTICLE VIII. TRAINING, LICENSES AND CERTIFICATES

City will pay or reimburse employees for all special training, licenses and certificates, including renewals that employees are required to maintain as a condition of continued employment so long as the employee successfully completes all phases of the training, license and certification including passing required examinations.

A. Training will be scheduled during employee's normal workday, if possible.

B. When mandatory training cannot be scheduled during employee's normal work day/hours, the employee's schedule will be temporarily changed to conform to the scheduled training for the shift immediately prior to the training. This is not considered a shift change for purposes of notification.

C. City will provide necessary equipment and/or tools necessary for training and/or testing.

ARTICLE IX. EDUCATIONAL REIMBURSEMENT

Employees may be reimbursed for the tuition and fees connected with job-related educational courses and/or professional certification classes, including courses offered through adult education programs up to $1,500 per fiscal year. Books and CD's required for the actual class are not entitled to reimbursement. The employee will submit the request for reimbursement to the supervisor, who will accept or reject the request. The request must be made before the class has been completed. All requests for educational reimbursement shall be forwarded to the Human Resources Director regardless of approval or denial. The Human Resources Director will make the final decision to accept or reject the request. No payment will be made until the final proof of passing grade or course completion is submitted to the Human Resources Director. The City will establish an annual fund of $15,000 for Local 39 employees to be administered by the Human Resources Department for educational reimbursement. An employee will only be reimbursed one time per class. Educational reimbursement requests shall be submitted to the Human Resources department by 5:00 p.m. on June 30th of each year. If valid requests for education reimbursements exceed the $15,000 fund, then a

random drawing by the Human Resources Director will be held to determine which requests are honored. Once the fund balance is depleted, no further reimbursements will be approved.

ARTICLE X. ORIENTATION

City shall, during orientation of new or transferred employees, provide to each new unit member a copy of this MOU, a Local 39 new hire package and a list (provided by Local 39 of Local 39 officers and representatives) for future contact.

ARTICLE XI. PROBATIONARY PERIODS

Union agrees that the classifications listed in Appendix "A" are subject to a twelve (12) month probationary period of employment. Employees hired at step A of the salary range may be eligible for a merit step increase after six (6) months of employment.

Classified employees who are terminated during their probationary period shall receive compensation for accrued and unused vacation.

ARTICLE XII. PROMOTIONS

Any employee who is promoted to a position in a class with a higher salary range shall be placed in the step in the new higher range, which is at least a ten percent (10%) increase over the employee's current salary step. In the event that the top step in the new range is less than ten percent (10%) the employee will then be assigned to the top step on the new salary range.

ARTICLE XIII. LEAVE DURING NOTICE PERIOD

Employees who have given two (2) weeks or more notice to retire may take vacation or sick leave during their notice period if the leave is approved and is in accordance with City rules and regulations.

ARTICLE XIV. ALCOHOL AND DRUG POLICY

City and Union agree to continue to enforce the Alcohol and Drug Abuse Policy, Administrative Regulation 2.08.

ARTICLE XV. SAFETY GLASSES

City agrees to provide safety glasses in compliance with Administrative Regulation 2.02.

ARTICLE XVI. HEALTH AND SAFETY

City shall pay for and offer paid time off for hepatitis inoculations for personnel in job classifications who have occupational exposure. The Human Resources Department will maintain a list of eligible classifications.

ARTICLE XVII. JOB SHARING

A. Job sharing shall be open to only current permanent employees of the City of Roseville. The employee(s) must voluntarily request job sharing and institute the request. Arrangements for

two (2) employees shall also be made by the employee(s).

B. Certain department positions lend themselves to job sharing; a department head shall have the ability to deny any request, without appeal of "job sharing."

C. All job sharing shall require prior approval of the Human Resources Director and the City Manager.

D. Employee(s) who job share will share salary and benefits with no cost to City.

E. Each sharer will work full time to cover for the other sharer's sick leave (when possible) and vacation time up to a maximum specified in the "job sharing agreement" below.

F. A "job sharing agreement" between City and the two (2) employees shall be drawn which will address conditions of the job share including but not limited to the work schedule, holiday schedule, and the number of days/hours each sharer will be responsible to cover for the other sharer's sick leave and vacation time.

G. At any time one of the "sharers" terminates the job share, the other share will assume full-time responsibilities until a "sharer" is obtained. The full time responsibility is that of the remaining employee. The sharing position will remain full-time and the department will not be required to accommodate the other employee.

H. A department head may terminate a job share at any time for department efficiency. This will be accomplished in accordance with Personnel Rules 3.07.120; Layoff.

ARTICLE XVIII. HEALTH MAINTENANCE PHYSICALS

When, in the opinion of the City Manager, Human Resources Director, or department head, it would be in the best interest of City or a specific function of City service to evaluate the medical or psychological condition of any candidate or employee, the Human Resources Director may schedule such employee(s) for an examination with a physician, or other appropriate licensed health professional, selected by City and at City expense. The results of such examination shall be available to the Human Resources Director, City Manager, and the department head as may be appropriate in the same manner as new employee examinations. Each employee is independently responsible for compliance with the advice and suggestions made by the physician/licensed health professional as a result of such examination. All care, treatment, or other requirements recommended by the physician/licensed health professional shall be at the expense of the employee. City shall receive from the City-selected physician/licensed health professional a notice of examination completion, whether or not further treatment or specialized diagnosis is required, and a certification that the employee is able to continue job performance. In the event an employee is certified by the City physician/licensed health professional as unable to continue performance of the duties assigned to the position, that employee shall not return to the active service until such time as the employee is determined by the City physician/licensed health professional to be permanently able to continue job performance.

ARTICLE XIX. BULLETIN BOARDS

City will allow Union approximately two (2) feet of bulletin board space and access to the electronic notice board section of City's electronic mail system to post Union-related information for the members of the unit. Posted material will be nonpolitical in nature and will serve as an information center for Union members. This information will be limited to benefits and current Union issues which will in no way comment on City policies, procedures and activities. It will be Union's responsibility to keep its bulletin board space in an orderly fashion. All electronic messages require the Human Resources Director's review and authorization prior to distribution. City reserves the right to remove any material that is offensive, derogatory or violates this provision. The bulletin board space will be provided in City locations where Union employees have access to the material.

ARTICLE XX. CITY MANAGEMENT RIGHTS

Pursuant to Section 3.17.030 of the City's Personnel Rules, the following shall constitute City's management rights:

A. To ensure that City is able to carry out its statutory functions and responsibilities, nothing contained in this Article shall be construed to require City to negotiate on matters which are solely a function of management, including the following:

1. To manage City generally and to determine the issues of policy.

2. To determine the existence of facts which are the basis of management decisions.

3. To determine the necessity for and organization of any service or activity conducted by City, and to expand or diminish services.

4. To determine the nature, manner, means, technology, and extent of services to be provided to the public.

5. To determine methods of financing.

6. To determine types of equipment or technology to be used.

7. To determine and/or change the facilities, methods, technology, means, organizational structure, and size and composition of the work force, and to allocate and assign the work by which City operations are to be conducted.

8. To determine and change the number of locations, relocations, and types of operations, processes, and materials to be used in carrying out all City functions, including, but not limited to, the right to contract for or subcontract any work or operation of City, except where such contracts for service would be for the purpose of workforce reductions.

9. To assign work to and schedule employees in accordance with requirements as determined by City, and to establish and change work schedules and assignments upon reasonable notice and good faith consultation.

10. To lay off employees from duties because of lack or work or funds, or under conditions where continued work would be ineffective or non-productive.

11. To establish and modify productivity and performance programs and standards.

12. To dismiss, suspend without pay, demote, reprimand, withhold salary step increases, or otherwise discipline employees for cause.

13. To determine minimum qualifications, skills, abilities, knowledge, selection procedures and standards, and job classifications, and to reclassify employees.

14. To hire, transfer, promote, and demote employees for non-disciplinary reasons.

15. To determine policies, procedures, and standards for selection, training, and promotion of employees.

16. To establish reasonable employee performance standards including, but not limited to, quality and quantity standards; and to require compliance therewith.

17. To maintain order and efficiency in City facilities and operations.

18. To establish, publish, and/or modify rules and regulations to maintain order and safety health in City, which are not in contravention with this Agreement or the Personnel Rules and Regulations.

19. To restrict the activity of an employee organization on the municipal property and on municipal time except as set forth in this Agreement or the Personnel Rules and Regulations.

20. To take any and all necessary action to carry out the mission of City in emergencies.

B. No neutral third party, including the Personnel Board, shall have the authority to add, delete or otherwise modify any provision of these employer rights, authorities, or functions, but shall be limited to matters of interpretation only.

C. The management rights shall not remove or limit the right of any classified employee to exercise grievance procedures.

ARTICLE XXI. PAYROLL ERRORS

A. In the event an error has been made in the payment of an employee's salary, overtime payment or leave accruals, balances or usages, City shall, for purposes of future compensation, adjust such compensation to the correct amount, giving written notice to employee.

B. In the event an employee received an overpayment or underpayment of wages, the employee may select one of the following methods:

1. Lump sum payment by employee or employer;

2. One-time deduction from usable vacation, compensatory time off (CTO), or holiday leave balances equivalent to the overpayment at the employee's current hourly rate;

3. A repayment schedule through payroll adjustment; and/or

4. Other means, as may be mutually agreed to between the parties.

C. Action to enforce repayment of an overpayment, or to correct an underpayment, shall be limited to a period beginning on the first day of the City pay period two (2) years prior to the date that either City or the employee gives written notice to the other that a payment error has occurred.

ARTICLE XXII. PERFORMANCE EVALUATIONS

A. Upon request of Local 39, the City agrees to provide Local 39 with an annual report identifying the step increase effective dates for Local 39 represented employees.

~~A.~~B. Effective January 1, 2022, whichever is sooner, this section supersedes Personnel Rule 3.11.030 C (1) only where salary Step A is paid upon initial employment, the employee shall become eligible for advancement to Step B upon their anniversary date, based on demonstrated satisfactory job progress and normal increased productivity. No salary step advancement shall be granted unless recommended by the department head and approved by the City Manager.

ARTICLE XXIII. REMOTE E-MAIL ACCESS

Employees will be allowed to enter into a remote email access agreement with the City of Roseville as described in Administrative Regulation 1.04.2. Local 39 understands that this voluntary policy is being adopted for employee convenience and no compensation will be provided to employees as a result of their incidental access to the City's email system.

ARTICLE XXIV. SELECTIVE RECRUITMENT AND CERTIFICATION OF EMPLOYMENT LISTS FOR FUNCTIONAL AREAS

Certification provisions shall be governed pursuant to Roseville Municipal Code Section 3.05.010 and 3.05.110, except for situations where, as determined by the Human Resources Director, class specifications specify functional areas, the following may apply:

A. Selective recruitment and certification may be based on special skills and experience that are defined by designated functional areas for a classification. Individual employment lists can be created for each functional area, at the sole discretion and determination of the Human Resources Director. The position for which selective recruitment and certification is utilized must perform duties requiring the specialized skills identified for the functional area.

B. A department needing selective certification for functional areas shall submit its request to the Human Resources Director. The department requesting selective certification must substantiate that the functional area skills are a requirement of the position. The special duties involved must be defined specifically. The primary duties must cover the specific tasks which typically would be performed by persons selectively certified because of the special skills they possess.

C. The Human Resources Director must approve use of selective recruitment and certification for the special skills, which is required in some, but not all, positions in a classification. After the Human Resources Director has approved selective certification for particular skillsets in a job classification, no further action is required to apply the selective recruitment and certification to positions in the classification. The principal duties shall be included on the job specification.

D. The special skill required must be included in the examination announcement and tested as part of the examination process.

E. Each functional area may result in a separate recruitment and resulting employment list. Separate employment lists may be established for each functional area approved for a classification. The functional area employment list will be identified by a classification title with the special skill involved appearing in parenthesis following the title.

EXECUTION

The provisions cited above represent agreements made in conjunction with a negotiated settlement between the City of Roseville and the International Union of Operating Engineers, Stationary Engineers, Local No. 39, and such provisions shall be contained in a current Memorandum of Understanding signed by duly authorized representatives of the City and Stationary Engineers, Local No. 39. Such provisions shall be valid for the period ~~June~~ January 1, ~~8~~, 2022~~19~~ through December 31, 2023~~1~~ as agreed to by the employer-employee representatives whose signatures appear on the attached page on behalf of their respective representation. Both parties understand that all other terms and conditions of employment will remain the same during the length of this Agreement.

ORDINANCE NO. 6433

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING ORDINANCE NO. 6420, THE SALARY ORDINANCE FOR EMPLOYEES REPRESENTED BY THE INTERNATIONAL UNION OF OPERATING ENGINEERS, STATIONARY ENGINEERS, LOCAL 39, AS AMENDED BY APPENDIX "A" TO BE EFFECTIVE JANUARY 1, 2022, AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6420, the Salary Ordinance for employees represented by the International Union of Operating Engineers, Stationary Engineers, Local 39, is hereby amended as shown on Appendix "A" for salary schedules A & B attached hereto, to reflect a general salary increase and Salary Schedule B compressed salary range.

SECTION 2. Salary Schedule Effective Date.

This Ordinance shall be effective January 1, 2022 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect January 1, 2022. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this____day of _____, 20___, by the following vote on roll call:

COUNCIL COMMUNICATION

CC #: 1853
File #: 0600-01

Title:	Management and Confidential Employees - Terms, Conditions and Understandings and Salary Schedule Updates
Contact:	Stacey Peterson 916-774-5374 slpeterson@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 9.2.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council take the following actions:

1. Adopt a resolution approving the attached Terms, Conditions and Understandings for Management and Confidential Employees.
2. Adopt an ordinance to approve the attached Management Salary Schedule A and Salary Schedule B (Appendix A) reflecting a 3% general wage increase and Salary Schedule B compressed salary ranges from 13 steps to 10 salary steps.
3. Adopt an ordinance to approved the Confidential Salary Schedule A and Salary Schedule B (Appendix A) reflecting a 3% general wage increase and Salary Schedule B compressed salary ranges from 13 steps to 10 salary steps.

BACKGROUND

The current Terms, Conditions and Understandings of compensation and employment for unrepresented management and confidential employees expires on December 31, 2021. The City's goal has been to ensure it is competitive in the marketplace on recruitment and retention among comparable agencies while remaining fiscally responsible.

As a service organization, labor is the City's biggest expense and the City has taken steps to control costs in this area. In the past eight years, the City has implemented policies to slow payroll growth, reduce retirement benefits, set total compensation (salaries and benefit packages) at median in the labor market (except for Electric Department positions), and control pension costs by transferring the responsibility to employees to fund 100 percent of the employees' share of pension costs. During the time the City was implementing these cost-control measures, services were expanded to meet the needs of our growing population, yet staffing was reduced by 40 percent per capita from FY2007-08 to FY2021-22.

Maintaining the quality of services along with the integrity of the City's more than $4 billion worth of infrastructure requires balancing our ability to attract and retain a high-performing workforce while living within our means. To this end, the City has strived during this round of bargaining to recognize the exceptional efforts of City staff through the COVID pandemic by providing outstanding service to the community which has been substantiated by the recent

community surveys. This resulted in recommending the City salary philosophy align to the 55th percentile of the market, which is estimated to increase compensation by about 1.5 percent to recognize and reward employees for regularly going above and beyond in their service to the City. The City also created a tiered benefits structure to provide a different contribution at the Employee only, Employee plus One or Employee plus Family benefit levels to be used by active employees to remain competitive and cost effective in the market.

Ultimately, the City's compensation philosophy seeks to maintain internal equity among employee groups' medical benefits for current employees and to compare its total compensation with jurisdictions that are similar in size,

services, and geographical location to remain competitive and retain our talented City employees who have produced high service levels affirmed by the community.

RECOMMENDATION
The significant provisions of the Terms, Conditions and Understandings are as follows:

Term

A two-year term from January 1, 2022 to December 31, 2023.

Salaries and Benefits
Adjustments to the salaries fall in two categories: those that address general wage increases across the group and labor market adjustments.

1. **General Wage Increase**

   A 3.0% general base wage increase is recommended for all classifications in the bargaining group (both Salary Schedule A and Salary Schedule B) effective January 1, 2022, which will offset labor market adjustments in 2023.

2. **Labor Market Adjustments**

   A total compensation study will be conducted in 2022 to determine the job classifications in the bargaining group behind the labor market. The City will provide a salary increase for each classification falling below the 55th percentile of the total compensation market by an amount to match the 55th percentile of the market. Staff will present the results of the study to Council for review and approval of the updated salary schedules to be effective the first full pay period in January 2023.

3. **Salary Schedule B Salary Ranges – Reduce from 13 steps to 10 steps**

   To promote retention of staff and stay competitive in our market, the Schedule B salary ranges will be reduced from 13 steps to 10 steps, using the same top and bottom salary step, establishing 3 percent between salary steps, except for the difference between salary step A to B.

4. **Health and Welfare Benefits – Tiered Flex Credit for Active Employees**

   To address increasing premium costs, the Flex Credit benefit is revised to provide a different level of contribution for those enrolled in Employee Only versus Employee Plus One or Employee Plus Family medical plans, to cover approximately eighty percent of the premium costs for medical, dental and vision at the family level. The following includes a summary of the recommended Flex Credit benefit adjustments to create a 3 Tiered benefit contribution:

Flex Credit	Employee Only	Employee Plus One	Employee Plus Family
Effective January 1, 2022	-$58/month	+$15/month	+$150/month
Effective January 1, 2023	No change	+$45/month	+$75/month

5. **Compensatory Time Off**

   Maximum accumulation of compensatory time shall be reduced from 160 hours to one hundred 100 hours.

6. **Vacation Accrual Cap**

   The vacation accrual cap is being adjusted to match the vacation accrual cap in the Local 39 to encourage promotion into unrepresented management positions from the City's largest labor group.

7. **Non-recurring Holiday**

The bargaining group will no longer observe non-recurring holidays as appointed by the President of the United States or the Governor of the State of California. This will remove the unanticipated loss of productivity and disruption of services to the City.

FISCAL IMPACT

The current total annual salary and benefit cost to the City for the 264.5 full-time positions in the Management group is $43,924,156, of which $21,573,618 is funded by the General Fund, and for the 29.6 full-time positions in the Confidential group the cost is $2,570,516, of which $2,217,940 is funded by the General Fund. The additional ongoing incremental cost for each calendar year of the new two-year term for both management and confidential units is as follows:

	Incremental Calendar Year 1	*Incremental* Calendar Year 2
Wages:		
General Salary Increase (3%)	$1,153,496	-
Labor Market Adjustment		TBD**
Schedule B Adjustment	$110,101	-
Other costs:		
Pension*	$154,119	
Health	$210,960	
Deferred compensation	$28,837	
Other Benefits (Life, LTD, OPEB)	$45,310	
Taxes (Medicare, SUI)	$21,481	
Total Incremental Cost *General Fund Portion:*	$1,724,304 *$892,935*	$339,783 *$187,683*

**This incremental pension cost results only from the negotiated wage increase and does not include the cost of anticipated PERS rate changes. The terms and conditions of the pension benefit plan remain unchanged.*
***The value of 1% of total compensation is $461,420.*

While the incremental cost of the successor Terms, Conditions, and Understandings for calendar year 2022 is projected to be $1,724,304 (3.7% of total compensation), and $339,783 (0.7% of total compensation) in 2023, the increases are compounding and therefore the projected total salary and benefit cost increase for the items specified above is $3.8 million, of which $2 million is to the General Fund, not accounting for the cost in calendar year 2 of the Labor Market adjustments to maintain salaries at the 55th percentile of the market consistent with the City's new salary philosophy. Prior to implementation of the labor market adjustments in year 2, the cost to maintain salaries at the 55th percentile will be presented to Council with the updated salary schedules.

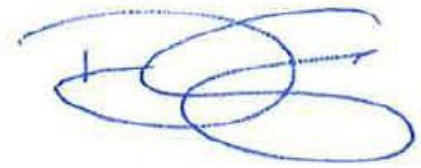
The cost of the management and confidential salary and benefit adjustments for the remainder of the FY2021-22 is $862,152 based on 13 pay periods remaining, of which $446,468 is the cost to the General Fund. The cost to the current fiscal year will be covered by appropriations included in the FY2021-22 budget. Below are the costs by fund:

Fund	FY2021-22 (Jan 2022 - Jun 2022)	FY2022-23 (Jul 2022 - Jun 2023)	FY2023-24 (Jul 2023- Dec 2023)	Total
1001 - General	$ 446,468	$ 540,309	$ 93,842	$ 1,080,618
1130 - Stormwater	3,336	3,696	360	7,391
2824 - Affordable Housing In Lieu and Program Equity	4,083	4,083	-	8,166
4001 - Fleet Services	5,855	8,555	2,700	17,110
4061 - Facility Services	7,450	10,150	2,700	20,300
4101 - IT Operations	39,360	44,760	5,400	89,520
4211 - Workers Compensation	$ 6,763	$ 8,473	$ 1,710	$ 16,946
6001 - Electric	203,325	235,905	32,580	471,810

6101 - Water Operations	45,527	53,357	7,830	106,714
6201 - Wastewater Operations	48,729	59,619	10,890	119,237
6301 - Waste Services Operations	34,872	43,692	8,820	87,383
6511 - Transit	6,093	7,443	1,350	14,886
6520 - Transportation	1,979	2,339	360	4,678
6540 - Consolidated Transit Services Agency	1,712	1,712	-	3,423
6591 - Youth Development	6,603	7,953	1,350	15,905
Total	**$ 862,152**	**$ 1,032,044**	**$ 169,892**	**$ 2,064,087**

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Adoption of Terms, Conditions and Understandings does not include the potential for a significant environmental effect, and therefore is not subject to CEQA. No additional environmental review is required.



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world
Goal C - Maintain a safe and healthy community

Goal E - Deliver exceptional city services

Respectfully Submitted,

Stacey Peterson, Human Resources Director

Dominick Casey, City Manager

TERMS, CONDITIONS AND UNDERSTANDINGS OF COMPENSATION AND EMPLOYMENT FOR MANAGEMENT/CONFIDENTIAL EMPLOYEES

The City Council of the City of Roseville hereby establishes the following salary, benefits and other provisions related to the employment of the City's Management/Confidential employees during the period of January 1, 2021~~19~~ through December 31, 2023~~1~~

SUMMARY OF CONFIDENTIAL DESIGNATION

The confidential designation of selected positions protects the confidentiality of the City's bargaining process and strategy, both in general contract negotiations and in day-to-day interaction with employee unions and associations. The employees who occupy positions designated as confidential serve as essential support members to the management team and their confidentiality is assured by their exclusion from any organized bargaining unit.

DEFINITION

The term "confidential employee" identifies those employees who are regularly required to assist City managers responsible for developing and implementing City policies within the area of labor relations. A confidential employee is an employee who normally participates or assists in writing and/or preparing policies affecting employees' wages, hours, and working conditions; or an employee who regularly has advance knowledge of decisions which affect labor relations; or who processes information relating to the city's confidential labor relations matters.

CRITERIA

The following factors are used (in their totality) to determine those positions to be designated as confidential:

A. The duties assigned to these positions include responsibility for providing clerical and/or technical support to managers who regularly participate in labor negotiations as a chief negotiator or team member; processing paperwork relating to labor negotiations, notes, research, management proposals, contract costing, strategies and plans, strike contingency plans, salary surveys, and problems within departments which are addressed during negotiations.

B. Responsibility for processing paperwork relating to the disposition of union/association grievances, Skelly hearings, letters of reprimand, counseling memos, employee background checks, and other documents including those relating to all other forms of employee discipline.

C. All non-management employees in the following departments are deemed to be confidential employees:

1. City Attorney
2. City Manager
3. Human Resources
4. Finance – Payroll only
5. Administrative Assistants to all Department Heads

ARTICLE I. SALARIES

A. General Wage Increase -

Effective ~~the first full pay period after~~ January 1, 2022~~0~~, the City shall provide a three~~wo~~ percent (3~~2~~%) increase to base wage for all employees designated as Management/Confidential.

B. Labor Market Adjustments: Effective the f~~F~~irst full pay period in January 2023~~1~~

Salary increases shall be determined for employees classified as management or confidential based on a Total Compensation Study. The effective date of the Total Compensation Study survey data is July 1, 2022~~0~~.

The Total Compensation Study will use the City market agencies and will be based on the same salary and benefit elements and methodology used in the 2020~~18~~ Total Compensation Study for each classification, which include:

- Minimum Base Salary
- Maximum Base Salary
- Employee's Portion of PERS Paid by the Employer (%)
- Employee's Portion of PERS Paid by the Employer
- Deferred Compensation
- Longevity Pay (Year 10)
- Maximum Education/Certification Pay
- Education/Certification Pay Notes
- Cafeteria Plan
- Health (Most Expensive Plan)
- Dental
- Vision
- Life Insurance
- Long-Term Disability Insurance
- Retiree Health Savings Account (RHSA)

- Social Security/Medi-Care
- Employee Contributions Towards RHSA
- Employer Portion of Retirement Paid by the Employee

The Total Compensation Study will be prepared no later than ~~November 2~~October 14, 202~~2~~0. The City will provide a salary increase for each classification falling below 55th percentile of the total compensation market ~~median~~ by an amount to match the 55th percentile market ~~median~~.

C. Salary Schedule B

Salary Schedule B was created January 9, 2016 for classifications in the unrepresented management and confidential units where the total compensation was 5% or more above the median total compensation for benchmarked classifications in the surveyed jurisdictions. All other classification's top step in the new Salary Schedule B remained the same as Salary Schedule A.

Annual Merit Step Increases

1. All employees on Salary Schedule A in January 2016 will remain on Salary Schedule A for all listed classifications in the unrepresented management and confidential units. All such employees will continue on this salary schedule when promoted or transferred to other classifications.

2 Employees hired onto Salary Schedule B will continue on this salary schedule when promoted or transferred to other classifications. ~~The salary steps for the new Salary Schedule B are approximately 2.5% apart for each classification in the unit.~~ For purposes of this provision, any employee who was initially hired onto Salary Schedule A that had a break in City service and was rehired after implementation of Salary Schedule B in January 2016 will be placed on Salary Schedule B.

D. Salary Schedule B Salary Ranges: Reduce from 13 steps to 10 steps

Effective January 1, 2022, the Schedule B salary ranges will be reduced from 13 steps to 10 steps, using the same top and bottom salary step and establishing 3 percent between salary steps, except for the difference between salary step A to B.

E. Effective January 1, 2022, this section supersedes Personnel Rule 3.11.030 C (1) only where salary Step A is paid upon initial employment, the employee shall become eligible for advancement to Step B upon their anniversary date, based on demonstrated satisfactory job progress and normal increased productivity. No salary step advancement shall be granted unless recommended by the department head and approved by the City Manager.

F. Bilingual Pay - employees certified by the Human Resources Department as Spanish speaking will be paid $100.00 per month ($46.15 bi-weekly). At the discretion of the Department Head and upon certification by the Human Resources Department, employees may be compensated $100.00 per month for other languages used during the course of employment. However, $100 per month bilingual pay is the maximum amount an employee may receive no matter how many languages he/she is certified to speak.

G. A five percent (5%) differential will continue to be paid to management employees in engineering classifications (except Wastewater Utility Manager and Water Utility Manager who had their PE pay converted to salary in 2000) who possess a California Professional Engineer Certificate (PE) but whose position does not require such possession.

H. Fire Battalion Chiefs will earn time and one-half overtime when covering a shift assignment.

I. The Assistant Fire Chief, Fire Division Chiefs and Fire Battalion Chiefs (8 hour shift only) when acting in the capacity of the Battalion Chief (24 hour), will be paid at the Battalion Chief (24 hour) time and one-half rate.

J. The Assistant Fire Chief, Fire Division Chiefs and Battalion Chiefs will receive the following certification pay:

a. Five percent (5%) of base pay bi-weekly for HazMat Technician or Specialist certification. HazMat certification must be maintained by attending the necessary trainings and proving competency through annual testing.

b. Two percent (2%) of base pay bi-weekly for possessing the requisite certificates for departmental rescue certification (possessing RS1, RS2, Confined Space Rescue, and Trench rescue certification). Rescue certification must be maintained by attending the necessary trainings and proving competency through annual testing.

K. Police Lieutenants required to spend time as a peace officer or watch commander will be compensated at time-and-one-half rate for time spent in excess of their normal shift. The overtime rate is for SWAT, mandatory shift scheduling and additional watch commander shifts based on operational need where the employee is not serving in his/her regular management role.

L. Batallion Chiefs assigned to Office of Emergency Services' deployments (i.e., Strike Team Leader, Line EMT, Overhead or other recognized positions) shall receive a five percent (5%) differential for any reimbursable incident. The differential shall apply from the time of deployment to the employee's return from the deployment (i.e., portal to portal).

M. Upon approval of the City Manager, exempt fire management employees are eligible to work in state or federal service and are eligible for pay in excess of their regular salary as follows:

a. When assigned to state or federal service on a non-work day, the exempt employee shall receive one and a half (1 ½) times their regular rate of pay.

b. When assigned to work for another exempt employee who is working in state or federal service on a regularly scheduled workday, the exempt employee shall receive one and one-half times (1 ½) the regular rate of pay.

~~K.~~N. Reopener Provision:

The City may reopen the terms and conditions if any of the following occurs:

1. General Fund revenue declines, or is projected to decline, by two percent (2%) or more in one year or one percent (1%) per year over two (2) years. The contract can be reopened only after: (a) closing out the previous fiscal year, (b) receiving County property tax projections for the current fiscal year, and (c) the Finance Department revising revenue projections for the current fiscal year based on (a) and (b).

2. General Fund expenses increase by two percent (2%) or more, with no offsetting increase in revenue, based on unfunded mandates of the State of California or an agency of the State.

3. The Roseville electorate, by local ballot initiative, approves a limitation to the salaries of Roseville management employees.

The City shall identify Management/Confidential's proportionate share of any revenue shortfall.

In the event other revenues increase and exceed the amount of any lost revenue, the City will not exercise the reopener clause; however, any future increase in revenues must clearly offset general fund expenditures.

~~L.~~O. Compensatory Time. Compensatory time shall be governed as follows:

1. Regular and probationary employees may, with the prior approval of their supervisor, accrue compensatory time in lieu of overtime pay. The accrual rate for compensatory time shall be one and one-half (1-1/2) hours for each hour of compensatory time worked.

2. Once an employee has been credited with compensatory time, the employee may not receive a lump sum payment for the hours accrued unless the employee is separated from City service.

3. Upon separation the employee will be paid at the employee's current hourly rate or average of last three (3) years whichever is higher for the remaining compensatory balance.

4. Maximum accumulation of compensatory time shall be reduced as follows:
   a. Effective January 1, 2020, the maximum accumulation of CTO shall be one hundred sixty (160) hours;
   b. Effective January 1, 2022, the maximum accumulation of CTO shall be one hundred (100) hours;
   c. Employees with CTO balances above the maximum cap on January 1, 202~~0~~2, shall be allowed to maintain said balances but shall not be allowed to accrue additional CTO hours until their balance drops below the cap.

5. The employee's immediate supervisor shall determine whether an employee shall accrue compensatory time or paid overtime. However, the supervisor shall not deny the request for compensatory time for arbitrary or capricious reasons.

ARTICLE II. SALARY UPON PROMOTION

Any regular employee who is promoted to a position in a class with a higher salary range shall be placed in the step in the new salary range which represents at least a ten percent (10%) increase over the employee's current step. In the event that the new range does not have a step that is at least ten percent (10%) higher than the employee's current range, the employee shall be assigned to the highest step in the range. A promoted employee is assigned a new salary anniversary date effective on the date of the promotion.

ARTICLE III. DEFERRED COMPENSATION

The City shall maintain a program of deferred compensation for eligible employees. It is understood that the City is solely responsible for selection of the Deferred Compensation plan and plan administrator(s).

Effective the first full pay period in January of 2016, the City agrees to contribute one percent (1%) of the base salary into the city sponsored 457 deferred compensation plan for employees who have completed five (5) continuous years of regular employment with the City of Roseville.

Effective the first full pay period in January of 2017, the City agrees to contribute an additional one percent (1%) for a total of two percent (2%) of the base wages into the city sponsored deferred compensation plan for employees who have completed five (5) continuous years of regular employment with the City of Roseville.

Effective the first full pay period in January 2018, the City agrees to contribute an additional one percent (1%) for a total of three percent (3%) of the base wages into the city sponsored deferred compensation plan for employees who have completed five (5) continuous years of regular employment with the City of Roseville.

ARTICLE IV. WORKING OUT OF CLASS

Pursuant to Roseville Municipal Code Section 3.07.080, no employee shall be required to perform duties which are not closely related both in kind of work and in level of responsibility to duties formerly assigned to positions in the class, except on a short-term, temporary or emergency basis. However, if a supervisor assigns an employee to work out of class for four (4) hours or more, or one-half (1/2) shift or more, the employee shall be paid out of class pay equal to ten percent (10%) or top step of the higher class where there is not ten percent (10%) differential between the two classes.

Temporary Acting Pay

An employee temporarily assigned in writing to an acting position in a classification with a higher salary range shall be compensated for the duration of the acting assignment by the payment of ten percent (10%) of the regular salary the employee received prior to the acting assignment, or the salary provided for in Step A of the higher classification, whichever is greater, but not to exceed top step of the higher classification for all time worked and any leave time paid. The higher classified position must be temporarily vacant due to a long-term absence of the incumbent or pending the filling of a vacant position. The temporary acting pay assignment shall be for a minimum of two full-time pay periods and limited to one year. Authorization for a temporary acting assignment must be given by the employee's supervisor and requires advance approval of the Department Head, Human Resources Director and City Manager.

This section does not apply to regular employees whose positions are designated to act in the absence of the department, division or section head.

ARTICLE V. PUBLIC EMPLOYEES RETIREMENT SYSTEM

A. The City provides and maintain membership in the California Public Employees' Retirement System (CalPERS) for the benefit of eligible employees based on the following CalPERS definitions and contract provisions:

1. New Member means:
   i. A unit member who becomes a member of a public retirement system for the first time on or after January 1, 2013 and who was not a member of any other public retirement system prior to that date;

   ii. A unit member who becomes a member of a public retirement system for the first time on or after January 1, 2013 and who was a member of another public retirement system prior to that date, but who was not subject to reciprocity under Gov. Code §7522.02(c) and related CalPERS reciprocity requirements; or

   iii. A unit member who was an active member in a public retirement system with another employer and who, after a break in service of more than six (6) months, returns to active membership in CalPERS with the City.

2. Classic Member means: a unit member who entered into membership with a qualifying public retirement system on or before December 31, 2012 who does not meet the definition of "New Member" under Government Code §7522.04(f) and related CalPERS membership requirements. Status as a classic member shall be determined by CalPERS.

B. Retirement Benefits:

Safety Members

1. Retirement Plan for Employees Hired On or Before December 31, 2012, and Classic Members as Defined by CalPERS:

   Employees hired on or before December 31, 2012 shall receive the 3% at 50 retirement benefit. For purposes of determining a retirement benefit, final compensation for employees covered by Section B.1. shall mean the single highest year of compensation earnable.

   Each employee covered by Section B.1. shall pay through payroll deduction, 100% of the required bargaining unit member contribution, which is nine percent (9%). As permitted by CalPERS, the City agrees to report the amount paid by the employee as part of the employer's contribution and to report the same amount as EPMC and compensation earnable.

2. Retirement Plan for Employees Hired On or After January 1, 2013, Who Are Not Classic Members.

   Employees hired on or after January 1, 2013 who are new members, as defined by CalPERS, shall receive the 2.7% at 57 benefit.

   For purposes of determining a retirement benefit, final compensation for unit members covered by Section B.2. shall mean the highest annual average pensionable compensation earned during thirty-six (36) consecutive months of service.

   As required by Government Code §7522.30, unit members covered by Section B.2. shall pay, through payroll deduction, fifty percent (50%) of the total normal cost of their retirement plan as determined annually by CalPERS.

3. In addition to the benefits listed above, the City contracts for the following optional benefits for employees covered by Section B(1) and B(2):

   - Government Code Section 21624/21626 (Post-Retirement Survivor Allowance)
   - Government Code Section 21548 (Optional Settlement2W Death Benefit)
   - Government Code Section 20965 (Conversion of unused sick leave balance to service credit)
   - Two-percent (2%) Retirement COLA
   - Government Code Section §21573 (Third Level of 1959 Survivor Benefit)
   - Government Code Section 21573 (1959 Survivor Benefit Level 4) for Public Safety - Police

4. Employee contributions shall be made in accordance with Section 414(h)(2) of the Internal Revenue Code wherein payment to CalPERS is made pretax, to the extent permitted by Internal Revenue Code, 26 USC Section 414(h)(2).

Miscellaneous Members

5. This Section B, including subsections, shall apply to bargaining unit members hired on or before December 31, 2012. In addition, this Section B shall apply to bargaining unit members hired on or after January 1, 2013, who are qualified for pension reciprocity as stated in Government Code Section 7522.02(c) and related CalPERS reciprocity requirements (Classic Member):

   The “2.7% @ 55” retirement program will be available to bargaining unit members covered by Section B(5).

For the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by Section B(5) shall mean the highest twelve (12) consecutive month period as specified in Government Code Section 20042.

Bargaining unit members covered by Section B(5) shall continue to pay, through payroll deduction, 8.0% of compensation earnable contribution to CalPERS. 6.197% shall be contributed toward the City's pension costs, and 1.803% shall be contributed toward the employees' pension contribution. The City shall pay 6.197% of compensation earnable as EPMC (Employer Paid Member Contribution) and shall report the same percent (value) of compensation earnable as special compensation pursuant to Government Code Section 20636(c) (4).

6. This Section B, including subsections, shall apply to bargaining unit members who were hired on or after January 1, 2013, and who do not qualify for pension reciprocity as stated in Government Code Section 7522.02(c) (PEPRA Members).

   The "2% @ 62" retirement program will be available to bargaining unit members covered by Section B(6).

   Effective January 1, 2013, for the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by Section B(6) shall mean the highest annual average pensionable compensation earned during thirty-six (36) consecutive months of service.

   As required by Government Code Section 7522.04(g), effective January 1, 2013, bargaining unit members covered by Section B(6) shall pay, through payroll deduction, fifty percent (50%) of normal costs as determined by CalPERS.

7. Unit members covered by Section B(5) and B(6) continue to be eligible for the following options included in the City's contract with CalPERS:

   - Government Code Section 20965 (Conversion of unused sick leave balance to service credit)
   - Government Code Section 21573 (1959 Survivor Benefit Level 3)
   - Government Code Section 21548 (Pre-Retirement Option 2W Death Benefit)
   - Government Code Section 21329 (Two percent (2%) Retirement COLA)

8. Employee contributions shall be made in accordance with Section 414(h)(2) of the Internal Revenue Code wherein payment to CalPERS is made pretax, to the extent permitted by Internal Revenue Code, 26 USC Section 414(h)(2).

ARTICLE VI. HEALTH AND WELFARE PROGRAM

A. Eligibility

Any regular employee working fifty percent (50%) or more of a full-time schedule shall be eligible to enroll in any health and welfare benefit provided by this Article. Regular part-time employees who are hired into a position funded as regular part-time after January 1, 2004, or current employees who laterally transfer or promote into a regular part-time allocated position will receive a pro-rated amount toward their health and welfare contribution based on actual hours worked. The contribution amount will be based on the percentage of full-time the employee works. For example, employees working twenty (20) hours per week will receive fifty percent (50%) of the full-time contribution; employees working thirty (30) hours per week will receive seventy-five percent (75%) of the full-time contribution, etc.

B. Medical Insurance Benefits

The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. Effective the first of the month following City Council approval of this resolution or as soon as administratively possible, the City's maximum monthly contribution for each eligible active employee shall be equal to the minimum employer contribution required under the Public Employees' Medical and Hospital Care Act (PEMHCA).

C. Cafeteria Plan

1. The City agrees to maintain a Cafeteria Plan, pursuant to Section 125 of the Internal Revenue Code and any related regulations, for the purpose of providing employees with access to various health and welfare benefits. Benefits available through the Cafeteria Plan include medical insurance, dental insurance, vision insurance and long term disability (LTD).

2. ~~Effective December 1, 2018, t~~The City provides a Cafeteria Plan Allowance to all employees eligible to participate in City sponsored health and welfare benefits under Section A of this Article of up to $ 1,347 monthly (less the direct PEMHCA payment provided in paragraph B) for the term of the agreement.

3. Effective January 1, 2022, ~~T~~the City provides a flex credit based on medical plan tier election (EE only, EE+1, or Family) ~~of up to $168.00 per month~~ to be used by active employees for any benefit covered under the Cafeteria Plan, as follows:~~.~~ ~~Effective January 1, 2020, the City will increase the flex credit to $198. Effective January 1, 2021, the City will increase the flex credit to $228. Effective December 31, 2021, the City will increase the flex credit to $258, starting the first pay period for the next plan year, unless a different benefit is authorized in successor terms, conditions and understandings.~~

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$273/month	$598/month

4. Effective January 1, 2023, the City agrees to provide a flex plan credit based on medical plan tier election (EE only, EE+1 or Family) to be used by active employees for any benefit covered under the Cafeteria Plan, as follows:

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$318/month	$673/month

5. Employees who elect not to participate in any of the medical, dental, vision and LTD insurance benefits sponsored by the City and who provide proof of other medical coverage will not receive any Cafeteria Plan Allowance under Section C(2) or Flex Plan Credit under Section C(3) of this Article. Instead, employees who opt out of these City sponsored benefits will receive $150 per month that will be treated as taxable income.

~~Effective January 1, 2020, the City agrees to provide an additional flex credit of up to $90 per month to be used for the payment of medical insurance by active employees who elect family medical coverage. The additional $90 flex credit will be included in the Cafeteria Plan contribution as part of total compensation referenced in Article I (C).~~

~~Effective January 1, 2021, for active employees electing family medical coverage, the City agrees to provide an additional amount towards flex credit of up to $100 per month, which is in addition to the $90 per month increase agreed upon and referenced in (5) above, for a total of $190 per~~

~~month additional flex credit to be used for the payment of medical insurance by active employees who elect family medical coverage.~~

6. Any Cafeteria Plan Allowance provided for under Section C(2) of this Article can only be used by an employee to offset the cost of participation in City sponsored medical, dental, vision and LTD, insurance benefits for the employee and any eligible dependents.

D. The City agrees to continue its existing Section 125 plan. The City reserves the right to select the provider or self-administer this program and to set limits for medical reimbursement accounts.

E. The City agrees to provide a dental benefit. The City agrees to provide a dental benefit to include two (2) preventative cleanings per year. Other details of the City's dental benefit are described in the evidence of coverage document. The City reserves the right to select any dental carrier. Open enrollment will be as described in the evidence of coverage document.

F. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. The City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

G. Management and Confidential employees may utilize the Employee Assistance Program. Each employee and each dependent is eligible for a maximum of six (6) City paid counseling sessions.

H. The City agrees to continue its existing vision program and reserves the right to select an insurance provider or choose to self-insure this benefit.

ARTICLE VII. RETIREE HEALTH BENEFITS

A. Medical Insurance Benefits
The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. Effective the first of the month following City Council approval of thisresolution or as soon as administratively possible, the City's maximum monthly medical contribution for each eligible retiree shall be equal to the minimum employer contribution required for active employees under the Public Employees' Medical and Hospital Care Act (PEMHCA).

The parties' agreement to move from the CalPERS equal contribution method to the PEMHCA minimum employer contribution method does not modify retiree health benefits for employees in Tiers I and II pursuant to Article VI B and C below. Employees who are currently in Tier 1 who promote into a management position covered, herein, shall maintain Tier 1 benefits until retirement or a break in service. Employees who leave City employment and return to City employment shall not be covered by Tier 1 or Tier 2 retiree health benefits.

B. For Employees Hired Prior to January 1, 2004 (Tier 1)
Employees hired prior to January 1, 2004 that qualify for post-retirement health benefits shall qualify for such benefits based on rules in effect prior to January 1, 2004, i.e. an employee that retires from the City of Roseville and is eligible for CalPERS service retirement shall receive a City contribution towards their post-retirement medical insurance benefit at the same level as full-time regular employees covered by this agreement.

C. For Employees Hired on or after January 1, 2004 and Prior to January 1, 2014 (Tier 2)
For employees hired on or after January 1, 2004 and prior to January 1, 2014, to be eligible to receive post-retirement health benefits, an employee must complete at least five (5) years of CalPERS-credited service with the City of Roseville. Employees who retire from the City of Roseville after meeting the service requirement stated above and who have at least ten (10)

years of CalPERS-credited service will receive a City contribution towards their post-retirement health benefits as follows:

Total Credited Years of Service	% of City Contribution
10	50 %
11	55
12	60
13	65
14	70
15	75
16	80
17	85
18	90
19	95
20 +	100

Employees who have PERS-credited service through other public agencies must complete at least five (5) years of service with the City of Roseville and retire from the City of Roseville to be eligible for post-retirement health benefits. However, once an employee has completed five (5) years of service with the City of Roseville, their eligibility for post-retirement health benefits will include all years of PERS-credited service.

The vesting requirements for post-retirement health benefits will become effective January 1, 2004. Employees hired on or after January 1, 2004 shall be subject to the above post-retirement vesting schedule for health benefits.

D. For Employees Hired on or After January 1, 2014 (Tier 3)

1. Employees hired on or after January 1, 2014 shall have no vested right in any post-employment medical benefits provided by the City of Roseville. Instead, upon hire, those employees shall contribute one percent (1%) of their base salary each pay period to a City sponsored Retirement Health Savings (RHS) account and shall contribute an additional one percent (1%) per pay period per year annually, up to a maximum of five percent (5%) per pay period annually thereafter, to be used to fund the employee's medical costs upon retirement from the City.

2. After five (5) years of continuous service with the City of Roseville, and beginning on the first pay period of the sixth year of service, the City shall contribute a flat dollar amount equal to $100 per month to be deposited to the employee's RHS account up until the employee's retirement date or separation from the City. After accruing ten (10) cumulative years of service with the City and pursuant to the vesting schedule in Section C of this Article, employees may draw from the City contribution to this account upon retirement.

3. Employees who terminate City service for reasons other than retirement prior to twenty (20) years of cumulative service with the City will forfeit any City contributions.

4. Employees must retire from the City of Roseville and be enrolled in the City of Roseville's health plan in order to utilize City contributions to the employee's RHS accounts. After ten (10) years of cumulative service with the City of Roseville, City contributions to the employee's RHS account may be used for all covered medical expenses pursuant to Section 213 of the IRS Code.

ARTICLE VIII. LONG TERM DISABILITY PLAN

A. The City agrees to maintain a long term disability (LTD) program consisting of a sixty (60) calendar day qualifying period; whereupon an eligible employee shall be entitled to receive sixty percent (60%) of his/her gross monthly salary in accordance with the LTD Plan. Other details of the City's LTD plan are described in the plan booklet.

B. After five (5) years as a regular employee, the City agrees to pay one hundred percent (100%) of the premium for the LTD plan.

C. A program of voluntary group Supplemental LTD is available to those employees assigned to the classifications in Management Appendix "A", CCAP Appendix "A", and Confidential Appendix "A". The City reserves the right to select the insurance provider. The employee accepts sole responsibility for payment of any and all costs under this program. All premiums will be collected via payroll deduction.

ARTICLE IX. LIFE INSURANCE

The City agrees to continue to provide a City paid life insurance program for eligible employees as covered in the plan document. The City reserves the right to select the life insurance benefit provider. The program will provide a policy equivalent to twice the annual salary in effect as of July 1 of each year.

ARTICLE X. SERVICE TERM/PERFORMANCE BONUS

A. SERVICE TERM BONUS
In recognition of the substantial contribution to the community made by Confidential employees as a result of the length of their City service, the City shall annually award, not compounded, each applicable employee a service term bonus as indicated below.

1. The City agrees to provide Confidential employees the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of the 10th year	2.5% of base salary

2. The City agrees to continue to provide Assistant Fire Chief, Fire Division Chief and Fire Battalion Chief the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of 10th year to completion of 14th year	2.5% of base salary
Beginning of 15th year to completion of 19th year	5.0% of base salary
Beginning of 20th year and every year thereafter	7.5% of base salary

3. The City agrees to provide Police Lieutenants and Captains the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of 10th year to completion of 14th year	2.5% of base salary
Beginning of 15th year to	5.0% of base salary

completion of 19th yearand every year thereafter	

Such service term bonus shall be included in each eligible employee's bi-weekly payroll.

B. Employees hired on or after January 1, 2016, who receive a satisfactory or above annual performance review shall be eligible for an annual lump sum performance bonus as follows:

1. The City agrees to provide Confidential employees the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of the 10th year	2.5% of base salary

2. The City agrees to continue to provide Assistant Fire Chief, Fire Division Chief and Fire Battalion Chief the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of 10th year to completion of 14th year	2.5% of base salary
Beginning of 15th year to completion of 19th year	5.0% of base salary
Beginning of 20th year and every year thereafter	7.5% of base salary

3. The City agrees to provide Police Lieutenants and Police Captains the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of 10th year to completion of 14th year	2.5% of base salary
Beginning of 15th year to completion of 19th year and every year thereafter	5.0% of base salary

The annual lump sum performance bonus shall be paid with the first full pay check in January each year based upon the base salary paid during the first full pay period in the previous November of each year.

ARTICLE XI. HOLIDAYS

A. The following holidays shall be observed by the City with respect to all employees. City offices shall be closed on these days except as otherwise provided herein.

1. January 1 (New Year's Day).

2. The third Monday in January (Martin Luther King's Birthday).
3. The third Monday in February (Washington's Birthday).
4. The last Monday in May (Memorial Day).
5. July 4 (Independence Day).
6. The first Monday in September (Labor Day).
7. November 11 (Veteran's Day).
8. The day in November appointed by the President of the United States as Thanksgiving Day.
9. The day immediately following Thanksgiving Day.
10. December 25 (Christmas).
11. Sixteen (16) hours (floating Holiday) to be taken any time during the calendar year by employees who have completed at least six (6) months prior service (pro-rated for modified schedule employee). The employee and the employee's supervisor shall jointly determine a convenient date. Upon separation from service, if an employee has taken more holidays in advance than have been earned during the fiscal year, the City shall deduct an equivalent amount of pay for the holidays taken in advance from the employee's final paycheck, or such amount shall otherwise be owed to the City by the employee.

~~B. The following non-reoccurring holidays shall be observed in any year in which they occur:~~

~~Every day appointed by the President of the United States or the Governor of the State of California for a public fast, thanksgiving, or holiday (except Admission Day) if approved by city council.~~

B~~C~~. If January 1, July 4, November 11, or December 25 falls on a Saturday, the preceding Friday shall be a holiday; if any such day falls on a Sunday, then the following Monday shall be a holiday.

If a holiday occurs on the employee's first normal day off, the employee shall take the preceding day as the holiday; however, if the holiday occurs on the employee's second consecutive normal day off, the employee shall take the following day as the holiday. This policy shall be adhered to where practical and may be modified only by written consent to other conditions by the department head.

C. Refer to Section 3.12.140 of the Personnel Rules, for provisions not in conflict with the provisions above.

ARTICLE XII. VACATION LEAVE

A. Vacation provisions shall be governed pursuant to Roseville Municipal Code Section 3.12.060 with the exceptions noted in Subsection B.

B. Except as noted below, each full-time ~~classified public safety Fire Department~~management and confidential employee (excluding classified Fire Department public safety employees) shall accrue vacation leave with pay as follows:

Service Category	Biweekly Accrual	Days/Year Equivalent	Max. Hrs. Accrual
New employee to completion of 4th year	3.692 hr.	12 days	240
Start of 5th year to completion of 9th year	4.307 hr.	14 days	280
Start of 10th year to completion of 14th year	4.923 hr.	16 days	320
Start of 15th year to completion of 19th year	5.538 hr.	18 days	360

Start of 20th year and succeeding years	6.153 hr.	20 days	400

Except as noted below, each full-time classified public safety Fire Department employee shall accrue vacation leave with pay as follows:

Service Category	Bi-weekly Accrual	Days/Year Equivalent	Maximum Hours
New employee to completion of 4th year	3.693 hr	12 days (96 hours)	~~192~~240
Start of 5th yr to completion of 9th year	4.615~~2~~ hr	15 days (120 hours)	~~240~~280
Start of 10th yr to completion of 14th yr	5.231 hr	17 days (135 hours)	~~272~~320
Start of 15th yr to completion of 19th yr	5.846 hr	19 days (152 hours)	~~304~~360
Start of 20th yr and succeeding years	6.462 hr	21 days (168 hours)	~~336~~400

Each full-time management employee in the Fire Department working a twenty-four (24) hour shift shall accrue vacation leave with pay as follows:

Service Category	Bi-weekly Accrual	Days/Year Equivalent	Maximum Hours
New employee to completion of 4th year	5.538 hr	6 shifts (144 hours)	288
Start of 5th yr to completion of 9th year	7.385 hr	8 shifts (192 hours)	384
Start of 10th yr to completion of 14th yr	8.308 hr	9 shifts (216 hours)	432
Start of 15th yr to completion of 19th yr	9.231 hr	10 shifts (240 hours)	480
Start of 20th yr and succeeding years	10.154 hr	11 shifts (264 hours)	528

C. All employees in the unit who are on probation may use vacation leave with prior approval from their supervisor.

ARTICLE XIII. MANAGEMENT LEAVE PLAN

Each calendar year management employees will be eligible to receive up to one hundred (100) hours of management leave. The actual number of hours allocated to each employee will be determined based on:

A. The employee's accomplishments, efforts and performance as determined by the department head and the City Manager. The City Manager has the discretion to determine the number of management leave hours for new hires.

B. By December 1st (for the subsequent year) each department will submit to the Human Resources Director their recommendation (and any supporting justification) for the amount of management leave to be allocated to each employee. The City Manager will have final approval of all management leave allocations.

Employees will be issued hours on January 1st each year and will not be allowed to carry unused hours beyond the end of the current calendar year. Employees may receive a lump sum payoff of up to fifty (50) hours. Department Heads may receive a lump sum payoff off of up to 100 hours. Employees may make an early payoff request any time after July 1 of each year. Employee may not be compensated for more hours than earned (based on an annual pro-ration) at the time of the payoff request. If an employee does not make an early request then the payoff of up to fifty (50) hours will be made on the pay period that includes December 31st.

A department head may recommend a revised allocation if an employee's work schedule or job duties change during the year. Any payoff of management leave will be based on the revised allocation. Upon separation from City service, an employee's allocation shall be deemed revised, prorated to correspond to the portion of the calendar year prior to separation, and net payoff of management leave shall be adjusted accordingly.

ARTICLE XIV. PERSONAL LEAVE TIME

Each full-time employee in the confidential unit shall be provided a bank of forty-five (45) hours of Personal Leave Time (PLT) on the first pay period of each calendar year. Part-time employees shall receive a pro-rated bank.

Use of PLT time shall be subject to the following:

A. ~~A.~~ PLT may be used by employees for time off on an hour for hour basis until the employee has exhausted the bank.

B. ~~1.~~ Use of PLT shall be subject to the operating needs of the City. The City may deny an employee time off on PLT if such release time will adversely impact the operating or staffing needs of a City department.

C. ~~B.~~ PLT shall have cash value and may be cashed out by the employee on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay. Employees may cash out unused PLT in any regular pay period pursuant to procedures established by the City Human Resources Department.

D. ~~C.~~ Any PLT time remaining in an employee's PLT bank on the last pay period of the calendar year shall not roll over into the next calendar year. Such PLT time shall be cashed out by the City on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay.

E. ~~D.~~ Employees who terminate employment with the City or leave the bargaining unit shall be cashed out at the rate of 0.~~.~~86539 hours per week up to the balance of the employee's PLT bank. If an employee terminates and has taken more PLT in advance than 0.86539 hours per week, the City shall deduct an equivalent amount of pay for the excess PLT. Any time cashed out will be paid on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay. Part-time employees will receive a pro-rated cash out of their PLT bank.

F. ~~E.~~ Any employee hired after the first of the year shall be granted a prorated amount at 0.86539 hours per week for the remainder of the calendar year. For example, if an employee is hired on July 1, the employee shall be granted twenty two and a half (22.5) hours of PLT.

ARTICLE XV. HOLIDAY PAYOFF FOR PUBLIC SAFETY MANAGERS

A. Police Lieutenants assigned to patrol will be issued one hundred and ten (110) holiday hours annually.

B. At any time after July 1st, police managers may submit a request for a one-time lump sum of up to forty (40) hours of holiday pay prior to taking time off at straight salary.

C. Battalion Chiefs (24 hour) will be issued one hundred and forty-four (144) hours of holiday time annually. In lieu of holiday time off, Battalion Chiefs may elect to receive straight salary for up to six (6) shifts of earned and unused holiday credit prior to the end of each January. All holiday time to be converted to pay shall be in one-half (1/2) shift increments.

ARTICLE XVI. SICK LEAVE INCENTIVE PROGRAM

A. Refer to Section 3.12.070 of the Personnel Rules, section A-I.

B. Payment for Unused Sick Leave Upon Retirement

The payment of unused sick leave is authorized by the City as a means of rewarding employees who have made conscientious efforts to maximize their attendance on the job.

1. Upon retirement, permanent employees shall be entitled to the payment for accrued sick leave as follows:

Non-24 Hour Shift Number of Sick Leave Hours Accumulated			**24 Hour Shift Number of Sick Leave Hours Accumulated**			**Percent of Compensation Given**
		Max			Max	
1200	To	1600	1800	to	2400	70%
956	To	1199.99	1434	to	1799.99	60%
764	To	955.99	1146	to	1433.99	50%
572	To	763.99	858	to	1145.99	40%
380	To	571.99	570	to	857.99	30%
188	To	379.99	282	to	569.99	20%
0	To	187.99	0	to	281.99	0%

OR

2. Upon retirement, for employees hired or promoted to a management position prior to Janaury 1, 2016 with a minimum of one hundred and fifty (150) days (1200 hours) of sick leave may “run out” their balance up to a maximum of six (6) months. During this “run out” period, the employee will remain on City payroll and will receive all health and welfare contributions as if they were actually working. Employee will not earn any additional vacation, sick, holiday, administrative or any other form of leave, nor will they receive salary or step increases. Employee will not receive auto allowance, performance pay or City paid deferred compensation contributions while on “run down.” Finally, employee will not receive any long term disability or life insurance benefits while running down their sick leave.

C. Any remaining sick leave balances after choice of either "1" or "2" can be converted to CalPERS service credit.

D. In the event of a job-related death, the beneficiary of the employee, as shown on the records of the Public Employees' Retirement System, shall be paid for those sick leave and vacation days for which the employee would have been paid had employment terminated on the date of death.

E. In the event of a non-job-related death of firefighting personnel, the beneficiary of the employee as described above shall be paid for 100 percent of the employee's unused sick leave at the time of his or her death up to the maximum sick leave amount listed in the tables above for accumulated sick leave.

ARTICLE XVII. CATASTROPHIC LEAVE

Pursuant to City Personnel Rules Section 3.12.065, pertaining to Catastrophic Leave.

ARTICLE XVIII. ADDITIONAL APPLICATION

In addition to the specific application of the above terms, conditions and understanding of compensation of employment, the provisions of Articles V, VI, VII, VIII, IX, XI, XII, XVI, XVII, XVIII, XX, XXI, XXII, XXIII, and XXIV shall apply to the City Manager and the City Attorney.

ARTICLE XIX. UNIFORM ALLOWANCE

A. Police management will be provided uniforms in accordance with department procedures. Police Lieutenants who are assigned to investigations for a period of one year or more who have not served in that assignment for at least two (2) years are eligible to receive a one-time clothing reimbursement of $400 to offset increased clothing costs associated with the assignment. Such clothing will be cleaned at the City's expense.

B. The City will continue to provide uniforms, clean and replace uniforms for fire management personnel.

~~B.~~C. The City will report to CalPERS for Classic members (not PEPRA) the monetary value of the City's cost of providing, replacing and maintaining employee uniforms, as special compensation up to $800 annually. This excludes the monetary value for personal health and safety equipment.

ARTICLE XX. EDUCATIONAL REIMBURSEMENT

Employees may be reimbursed for the tuition and fees connected with approved job related educational courses recognized by the U.S. Secretary of Education not to exceed the California State University full-time tuition rate per year. The cost of books is not covered in this agreement. The employee will submit the request for reimbursement to the Human Resources Department.

The request must be made before the class has been completed. The Human Resources Department will make the final decision to accept or reject the request. No payment will be made until the final proof of passing grade is submitted to Human Resources. The City has established an annual educational reimbursement fund of $6,000 to be administered by the Human Resources Department. Once the fund balance is depleted, no further reimbursements will be approved.

ARTICLE XXI. ALCOHOL AND DRUG ABUSE POLICY

The Alcohol and Drug Abuse Policy will continue to be enforced. All employees will be required to immediately notify the City in writing of any criminal drug or alcohol related conviction.

ARTICLE XXII. DEPARTMENT HEAD CONTRACTS AND SEPARATION INCENTIVE PLAN AND ADMINISTRATIVE SETTLEMENTS

A. The City agrees to grant the City Manager the authority to enter into employment contracts with department head staff. One of the provisions of the contract will be to provide up to six (6) months' severance pay for department heads whose contracts are not renewed.

B. The City agrees to grant the City Manager the authorization to create a separation incentive plan using a 401 tax qualified plan and for the City Manager to serve as the Plan Administrator.

C. The City Manager is authorized to approve administrative settlements through separation of service agreements with up to 2 weeks compensation for each year of service credit, up to a maximum of 26 weeks.

~~D. The City Manager is authorized to approve a 5% professional development pay for the Chief Financial Officer.~~

ARTICLE XXIII. RELOCATION ASSISTANCE

The City agrees to grant the City Manager the authority to provide up to $15,000 in relocation assistance for positions the manager deems appropriate.

ARTICLE XX1V. NO SMOKING POLICY

Sworn employees hired after January 1, 2004 must be tobacco free and cannot use tobacco products on or off duty.

TERMS, CONDITIONS AND UNDERSTANDINGS OF COMPENSATION AND EMPLOYMENT FOR MANAGEMENT/CONFIDENTIAL EMPLOYEES

The City Council of the City of Roseville hereby establishes the following salary, benefits and other provisions related to the employment of the City's Management/Confidential employees during the period of January 1, 2021 through December 31, 2023

SUMMARY OF CONFIDENTIAL DESIGNATION

The confidential designation of selected positions protects the confidentiality of the City's bargaining process and strategy, both in general contract negotiations and in day-to-day interaction with employee unions and associations. The employees who occupy positions designated as confidential serve as essential support members to the management team and their confidentiality is assured by their exclusion from any organized bargaining unit.

DEFINITION

The term "confidential employee" identifies those employees who are regularly required to assist City managers responsible for developing and implementing City policies within the area of labor relations. A confidential employee is an employee who normally participates or assists in writing and/or preparing policies affecting employees' wages, hours, and working conditions; or an employee who regularly has advance knowledge of decisions which affect labor relations; or who processes information relating to the city's confidential labor relations matters.

CRITERIA

The following factors are used (in their totality) to determine those positions to be designated as confidential:

A. The duties assigned to these positions include responsibility for providing clerical and/or technical support to managers who regularly participate in labor negotiations as a chief negotiator or team member; processing paperwork relating to labor negotiations, notes, research, management proposals, contract costing, strategies and plans, strike contingency plans, salary surveys, and problems within departments which are addressed during negotiations.

B. Responsibility for processing paperwork relating to the disposition of union/association grievances, Skelly hearings, letters of reprimand, counseling memos, employee background checks, and other documents including those relating to all other forms of employee discipline.

C. All non-management employees in the following departments are deemed to be confidential employees:

1. City Attorney
2. City Manager
3. Human Resources
4. Finance – Payroll only
5. Administrative Assistants to all Department Heads

ARTICLE I. SALARIES

A. General Wage Increase -

Effective January 1, 2022, the City shall provide a three percent (3%) increase to base wage for all employees designated as Management/Confidential.

B. Labor Market Adjustments: Effective the first full pay period in January 2023

Salary increases shall be determined for employees classified as management or confidential based on a Total Compensation Study. The effective date of the Total Compensation Study survey data is July 1, 2022.

The Total Compensation Study will use the City market agencies and will be based on the same salary and benefit elements and methodology used in the 2020 Total Compensation Study for each classification, which include:

- Minimum Base Salary
- Maximum Base Salary
- Employee's Portion of PERS Paid by the Employer (%)
- Employee's Portion of PERS Paid by the Employer
- Deferred Compensation
- Longevity Pay (Year 10)
- Maximum Education/Certification Pay
- Education/Certification Pay Notes
- Cafeteria Plan
- Health (Most Expensive Plan)
- Dental
- Vision
- Life Insurance
- Long-Term Disability Insurance
- Retiree Health Savings Account (RHSA)
- Social Security/Medi-Care
- Employee Contributions Towards RHSA
- Employer Portion of Retirement Paid by the Employee

The Total Compensation Study will be prepared no later than October 14, 2022. The City will provide a salary increase for each classification falling below 55th percentile of the total compensation market by an amount to match the 55th percentile market.

C. Salary Schedule B

Salary Schedule B was created January 9, 2016 for classifications in the unrepresented management and confidential units where the total compensation was 5% or more above the median total compensation for benchmarked classifications in the surveyed jurisdictions. All other classification's top step in the new Salary Schedule B remained the same as Salary Schedule A.

Annual Merit Step Increases

1. All employees on Salary Schedule A in January 2016 will remain on Salary Schedule A for all listed classifications in the unrepresented management and confidential units. All

such employees will continue on this salary schedule when promoted or transferred to other classifications.

2 Employees hired onto Salary Schedule B will continue on this salary schedule when promoted or transferred to other classifications. For purposes of this provision, any employee who was initially hired onto Salary Schedule A that had a break in City service and was rehired after implementation of Salary Schedule B in January 2016 will be placed on Salary Schedule B.

D. Salary Schedule B Salary Ranges: Reduce from 13 steps to 10 steps

Effective January 1, 2022, the Schedule B salary ranges will be reduced from 13 steps to 10 steps, using the same top and bottom salary step and establishing 3 percent between salary steps, except for the difference between salary step A to B.

E. Effective January 1, 2022, this section supersedes Personnel Rule 3.11.030 C (1) only where salary Step A is paid upon initial employment, the employee shall become eligible for advancement to Step B upon their anniversary date, based on demonstrated satisfactory job progress and normal increased productivity. No salary step advancement shall be granted unless recommended by the department head and approved by the City Manager.

F. Bilingual Pay - employees certified by the Human Resources Department as Spanish speaking will be paid $100.00 per month ($46.15 bi-weekly). At the discretion of the Department Head and upon certification by the Human Resources Department, employees may be compensated $100.00 per month for other languages used during the course of employment. However, $100 per month bilingual pay is the maximum amount an employee may receive no matter how many languages he/she is certified to speak.

G. A five percent (5%) differential will continue to be paid to management employees in engineering classifications (except Wastewater Utility Manager and Water Utility Manager who had their PE pay converted to salary in 2000) who possess a California Professional Engineer Certificate (PE) but whose position does not require such possession.

H. Fire Battalion Chiefs will earn time and one-half overtime when covering a shift assignment.

I. The Assistant Fire Chief, Fire Division Chiefs and Fire Battalion Chiefs (8 hour shift only) when acting in the capacity of the Battalion Chief (24 hour), will be paid at the Battalion Chief (24 hour) time and one-half rate.

J. The Assistant Fire Chief, Fire Division Chiefs and Battalion Chiefs will receive the following certification pay:

a. Five percent (5%) of base pay bi-weekly for HazMat Technician or Specialist certification. HazMat certification must be maintained by attending the necessary trainings and proving competency through annual testing.

b. Two percent (2%) of base pay bi-weekly for possessing the requisite certificates for departmental rescue certification (possessing RS1, RS2, Confined Space Rescue, and Trench rescue certification). Rescue certification must be maintained by attending the necessary trainings and proving competency through annual testing.

K. Police Lieutenants required to spend time as a peace officer or watch commander will be compensated at time-and-one-half rate for time spent in excess of their normal shift. The overtime rate is for SWAT, mandatory shift scheduling and additional watch commander shifts based on operational need where the employee is not serving in his/her regular management role.

L. Batallion Chiefs assigned to Office of Emergency Services' deployments (i.e., Strike Team Leader, Line EMT, Overhead or other recognized positions) shall receive a five percent (5%) differential for any reimbursable incident. The differential shall apply from the time of deployment to the employee's return from the deployment (i.e., portal to portal).

M. Upon approval of the City Manager, exempt fire management employees are eligible to work in state or federal service and are eligible for pay in excess of their regular salary as follows:

a. When assigned to state or federal service on a non-work day, the exempt employee shall receive one and a half (1 ½) times their regular rate of pay.
b. When assigned to work for another exempt employee who is working in state or federal service on a regularly scheduled workday, the exempt employee shall receive one and one-half times (1 ½) the regular rate of pay.

N. Reopener Provision:

The City may reopen the terms and conditions if any of the following occurs:

1. General Fund revenue declines, or is projected to decline, by two percent (2%) or more in one year or one percent (1%) per year over two (2) years. The contract can be reopened only after: (a) closing out the previous fiscal year, (b) receiving County property tax projections for the current fiscal year, and (c) the Finance Department revising revenue projections for the current fiscal year based on (a) and (b).

2. General Fund expenses increase by two percent (2%) or more, with no offsetting increase in revenue, based on unfunded mandates of the State of California or an agency of the State.

3. The Roseville electorate, by local ballot initiative, approves a limitation to the salaries of Roseville management employees.

The City shall identify Management/Confidential's proportionate share of any revenue shortfall.

In the event other revenues increase and exceed the amount of any lost revenue, the City will not exercise the reopener clause; however, any future increase in revenues must clearly offset general fund expenditures.

O. Compensatory Time. Compensatory time shall be governed as follows:

1. Regular and probationary employees may, with the prior approval of their supervisor, accrue compensatory time in lieu of overtime pay. The accrual rate for compensatory time shall be one and one-half (1-1/2) hours for each hour of compensatory time worked.

2. Once an employee has been credited with compensatory time, the employee may not receive a lump sum payment for the hours accrued unless the employee is separated from City service.

3. Upon separation the employee will be paid at the employee's current hourly rate or average of last three (3) years whichever is higher for the remaining compensatory balance.

4. Maximum accumulation of compensatory time shall be reduced as follows:
   a. Effective January 1, 2020, the maximum accumulation of CTO shall be one hundred sixty (160) hours;
   b. Effective January 1, 2022, the maximum accumulation of CTO shall be one hundred (100) hours;

c. Employees with CTO balances above the maximum cap on January 1, 2022, shall be allowed to maintain said balances but shall not be allowed to accrue additional CTO hours until their balance drops below the cap.

5. The employee's immediate supervisor shall determine whether an employee shall accrue compensatory time or paid overtime. However, the supervisor shall not deny the request for compensatory time for arbitrary or capricious reasons.

ARTICLE II. SALARY UPON PROMOTION

Any regular employee who is promoted to a position in a class with a higher salary range shall be placed in the step in the new salary range which represents at least a ten percent (10%) increase over the employee's current step. In the event that the new range does not have a step that is at least ten percent (10%) higher than the employee's current range, the employee shall be assigned to the highest step in the range. A promoted employee is assigned a new salary anniversary date effective on the date of the promotion.

ARTICLE III. DEFERRED COMPENSATION

The City shall maintain a program of deferred compensation for eligible employees. It is understood that the City is solely responsible for selection of the Deferred Compensation plan and plan administrator(s).

Effective the first full pay period in January of 2016, the City agrees to contribute one percent (1%) of the base salary into the city sponsored 457 deferred compensation plan for employees who have completed five (5) continuous years of regular employment with the City of Roseville.

Effective the first full pay period in January of 2017, the City agrees to contribute an additional one percent (1%) for a total of two percent (2%) of the base wages into the city sponsored deferred compensation plan for employees who have completed five (5) continuous years of regular employment with the City of Roseville.

Effective the first full pay period in January 2018, the City agrees to contribute an additional one percent (1%) for a total of three percent (3%) of the base wages into the city sponsored deferred compensation plan for employees who have completed five (5) continuous years of regular employment with the City of Roseville.

ARTICLE IV. WORKING OUT OF CLASS

Pursuant to Roseville Municipal Code Section 3.07.080, no employee shall be required to perform duties which are not closely related both in kind of work and in level of responsibility to duties formerly assigned to positions in the class, except on a short-term, temporary or emergency basis. However, if a supervisor assigns an employee to work out of class for four (4) hours or more, or one-half (1/2) shift or more, the employee shall be paid out of class pay equal to ten percent (10%) or top step of the higher class where there is not ten percent (10%) differential between the two classes.

Temporary Acting Pay

An employee temporarily assigned in writing to an acting position in a classification with a higher salary range shall be compensated for the duration of the acting assignment by the payment of ten percent (10%) of the regular salary the employee received prior to the acting assignment, or the salary provided for in Step A of the higher classification, whichever is greater, but not to exceed top step of the higher classification for all time worked and any leave time paid. The higher classified position must be temporarily vacant due to a long-term absence of the incumbent or pending the filling of a vacant position. The temporary acting pay assignment shall be for a minimum of two full-time pay periods and limited to

one year. Authorization for a temporary acting assignment must be given by the employee's supervisor and requires advance approval of the Department Head, Human Resources Director and City Manager.

This section does not apply to regular employees whose positions are designated to act in the absence of the department, division or section head.

ARTICLE V. PUBLIC EMPLOYEES RETIREMENT SYSTEM

A. The City provides and maintain membership in the California Public Employees' Retirement System (CalPERS) for the benefit of eligible employees based on the following CalPERS definitions and contract provisions:

1. New Member means:
   i. A unit member who becomes a member of a public retirement system for the first time on or after January 1, 2013 and who was not a member of any other public retirement system prior to that date;

   ii. A unit member who becomes a member of a public retirement system for the first time on or after January 1, 2013 and who was a member of another public retirement system prior to that date, but who was not subject to reciprocity under Gov. Code §7522.02(c) and related CalPERS reciprocity requirements; or

   iii. A unit member who was an active member in a public retirement system with another employer and who, after a break in service of more than six (6) months, returns to active membership in CalPERS with the City.

2. Classic Member means: a unit member who entered into membership with a qualifying public retirement system on or before December 31, 2012 who does not meet the definition of "New Member" under Government Code §7522.04(f) and related CalPERS membership requirements. Status as a classic member shall be determined by CalPERS.

B. Retirement Benefits:

Safety Members

1. Retirement Plan for Employees Hired On or Before December 31, 2012, and Classic Members as Defined by CalPERS:

   Employees hired on or before December 31, 2012 shall receive the 3% at 50 retirement benefit. For purposes of determining a retirement benefit, final compensation for employees covered by Section B.1. shall mean the single highest year of compensation earnable.

   Each employee covered by Section B.1. shall pay through payroll deduction, 100% of the required bargaining unit member contribution, which is nine percent (9%). As permitted by CalPERS, the City agrees to report the amount paid by the employee as part of the employer's contribution and to report the same amount as EPMC and compensation earnable.

2. Retirement Plan for Employees Hired On or After January 1, 2013, Who Are Not Classic Members.

   Employees hired on or after January 1, 2013 who are new members, as defined by CalPERS, shall receive the 2.7% at 57 benefit.

For purposes of determining a retirement benefit, final compensation for unit members covered by Section B.2. shall mean the highest annual average pensionable compensation earned during thirty-six (36) consecutive months of service.

As required by Government Code §7522.30, unit members covered by Section B.2. shall pay, through payroll deduction, fifty percent (50%) of the total normal cost of their retirement plan as determined annually by CalPERS.

3. In addition to the benefits listed above, the City contracts for the following optional benefits for employees covered by Section B(1) and B(2):

   - Government Code Section 21624/21626 (Post-Retirement Survivor Allowance)
   - Government Code Section 21548 (Optional Settlement2W Death Benefit)
   - Government Code Section 20965 (Conversion of unused sick leave balance to service credit)
   - Two-percent (2%) Retirement COLA
   - Government Code Section §21573 (Third Level of 1959 Survivor Benefit)
   - Government Code Section 21573 (1959 Survivor Benefit Level 4) for Public Safety - Police

4. Employee contributions shall be made in accordance with Section 414(h)(2) of the Internal Revenue Code wherein payment to CalPERS is made pretax, to the extent permitted by Internal Revenue Code, 26 USC Section 414(h)(2).

Miscellaneous Members

5. This Section B, including subsections, shall apply to bargaining unit members hired on or before December 31, 2012. In addition, this Section B shall apply to bargaining unit members hired on or after January 1, 2013, who are qualified for pension reciprocity as stated in Government Code Section 7522.02(c) and related CalPERS reciprocity requirements (Classic Member):

   The “2.7% @ 55” retirement program will be available to bargaining unit members covered by Section B(5).

   For the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by Section B(5) shall mean the highest twelve (12) consecutive month period as specified in Government Code Section 20042.

   Bargaining unit members covered by Section B(5) shall continue to pay, through payroll deduction, 8.0% of compensation earnable contribution to CalPERS. 6.197% shall be contributed toward the City’s pension costs, and 1.803% shall be contributed toward the employees’ pension contribution. The City shall pay 6.197% of compensation earnable as EPMC (Employer Paid Member Contribution) and shall report the same percent (value) of compensation earnable as special compensation pursuant to Government Code Section 20636(c) (4).

6. This Section B, including subsections, shall apply to bargaining unit members who were hired on or after January 1, 2013, and who do not qualify for pension reciprocity as stated in Government Code Section 7522.02(c) (PEPRA Members).

   The “2% @ 62” retirement program will be available to bargaining unit members covered by Section B(6).

   Effective January 1, 2013, for the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by Section B(6) shall mean the highest

annual average pensionable compensation earned during thirty-six (36) consecutive months of service.

As required by Government Code Section 7522.04(g), effective January 1, 2013, bargaining unit members covered by Section B(6) shall pay, through payroll deduction, fifty percent (50%) of normal costs as determined by CalPERS.

7. Unit members covered by Section B(5) and B(6) continue to be eligible for the following options included in the City's contract with CalPERS:

   - Government Code Section 20965 (Conversion of unused sick leave balance to service credit)
   - Government Code Section 21573 (1959 Survivor Benefit Level 3)
   - Government Code Section 21548 (Pre-Retirement Option 2W Death Benefit)
   - Government Code Section 21329 (Two percent (2%) Retirement COLA)

8. Employee contributions shall be made in accordance with Section 414(h)(2) of the Internal Revenue Code wherein payment to CalPERS is made pretax, to the extent permitted by Internal Revenue Code, 26 USC Section 414(h)(2).

ARTICLE VI. HEALTH AND WELFARE PROGRAM

A. Eligibility

Any regular employee working fifty percent (50%) or more of a full-time schedule shall be eligible to enroll in any health and welfare benefit provided by this Article. Regular part-time employees who are hired into a position funded as regular part-time after January 1, 2004, or current employees who laterally transfer or promote into a regular part-time allocated position will receive a pro-rated amount toward their health and welfare contribution based on actual hours worked. The contribution amount will be based on the percentage of full-time the employee works. For example, employees working twenty (20) hours per week will receive fifty percent (50%) of the full-time contribution; employees working thirty (30) hours per week will receive seventy-five percent (75%) of the full-time contribution, etc.

B. Medical Insurance Benefits

The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. Effective the first of the month following City Council approval of this resolution or as soon as administratively possible, the City's maximum monthly contribution for each eligible active employee shall be equal to the minimum employer contribution required under the Public Employees' Medical and Hospital Care Act (PEMHCA).

C. Cafeteria Plan

1. The City agrees to maintain a Cafeteria Plan, pursuant to Section 125 of the Internal Revenue Code and any related regulations, for the purpose of providing employees with access to various health and welfare benefits. Benefits available through the Cafeteria Plan include medical insurance, dental insurance, vision insurance and long term disability (LTD).

2. The City provides a Cafeteria Plan Allowance to all employees eligible to participate in City sponsored health and welfare benefits under Section A of this Article of up to $ 1,347 monthly (less the direct PEMHCA payment provided in paragraph B) for the term of the agreement.

3. Effective January 1, 2022, the City provides a flex credit based on medical plan tier election (EE only, EE+1, or Family) to be used by active employees for any benefit covered under the Cafeteria Plan, as follows:

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$273/month	$598/month

4. Effective January 1, 2023, the City agrees to provide a flex plan credit based on medical plan tier election (EE only, EE+1 or Family) to be used by active employees for any benefit covered under the Cafeteria Plan, as follows:

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$318/month	$673/month

5. Employees who elect not to participate in any of the medical, dental, vision and LTD insurance benefits sponsored by the City and who provide proof of other medical coverage will not receive any Cafeteria Plan Allowance under Section C(2) or Flex Plan Credit under Section C(3) of this Article. Instead, employees who opt out of these City sponsored benefits will receive $150 per month that will be treated as taxable income.

6. Any Cafeteria Plan Allowance provided for under Section C(2) of this Article can only be used by an employee to offset the cost of participation in City sponsored medical, dental, vision and LTD, insurance benefits for the employee and any eligible dependents.

D. The City agrees to continue its existing Section 125 plan. The City reserves the right to select the provider or self-administer this program and to set limits for medical reimbursement accounts.

E. The City agrees to provide a dental benefit. The City agrees to provide a dental benefit to include two (2) preventative cleanings per year. Other details of the City's dental benefit are described in the evidence of coverage document. The City reserves the right to select any dental carrier. Open enrollment will be as described in the evidence of coverage document.

F. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. The City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

G. Management and Confidential employees may utilize the Employee Assistance Program. Each employee and each dependent is eligible for a maximum of six (6) City paid counseling sessions.

H. The City agrees to continue its existing vision program and reserves the right to select an insurance provider or choose to self-insure this benefit.

ARTICLE VII. RETIREE HEALTH BENEFITS

A. Medical Insurance Benefits

The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. Effective the first of the month following City Council approval of thisresolution or as soon as administratively possible, the City's maximum monthly medical contribution for each eligible retiree shall be equal to the minimum employer contribution required for active employees under the Public Employees' Medical and Hospital Care Act (PEMHCA).

The parties' agreement to move from the CalPERS equal contribution method to the PEMHCA minimum employer contribution method does not modify retiree health benefits for employees in

Tiers I and II pursuant to Article VI B and C below. Employees who are currently in Tier 1 who promote into a management position covered, herein, shall maintain Tier 1 benefits until retirement or a break in service. Employees who leave City employment and return to City employment shall not be covered by Tier 1 or Tier 2 retiree health benefits.

B. For Employees Hired Prior to January 1, 2004 (Tier 1)
Employees hired prior to January 1, 2004 that qualify for post-retirement health benefits shall qualify for such benefits based on rules in effect prior to January 1, 2004, i.e. an employee that retires from the City of Roseville and is eligible for CalPERS service retirement shall receive a City contribution towards their post-retirement medical insurance benefit at the same level as full-time regular employees covered by this agreement.

C. For Employees Hired on or after January 1, 2004 and Prior to January 1, 2014 (Tier 2)
For employees hired on or after January 1, 2004 and prior to January 1, 2014, to be eligible to receive post-retirement health benefits, an employee must complete at least five (5) years of CalPERS-credited service with the City of Roseville. Employees who retire from the City of Roseville after meeting the service requirement stated above and who have at least ten (10) years of CalPERS-credited service will receive a City contribution towards their post-retirement health benefits as follows:

Total Credited Years of Service	% of City Contribution
10	50 %
11	55
12	60
13	65
14	70
15	75
16	80
17	85
18	90
19	95
20 +	100

Employees who have PERS-credited service through other public agencies must complete at least five (5) years of service with the City of Roseville and retire from the City of Roseville to be eligible for post-retirement health benefits. However, once an employee has completed five (5) years of service with the City of Roseville, their eligibility for post-retirement health benefits will include all years of PERS-credited service.

The vesting requirements for post-retirement health benefits will become effective January 1, 2004. Employees hired on or after January 1, 2004 shall be subject to the above post-retirement vesting schedule for health benefits.

D. For Employees Hired on or After January 1, 2014 (Tier 3)

1. Employees hired on or after January 1, 2014 shall have no vested right in any post-employment medical benefits provided by the City of Roseville. Instead, upon hire, those employees shall contribute one percent (1%) of their base salary each pay period to a City sponsored Retirement Health Savings (RHS) account and shall contribute an additional one percent (1%) per pay period per year annually, up to a maximum of five percent (5%) per pay period annually thereafter, to be used to fund the employee's medical costs upon retirement from the City.

2. After five (5) years of continuous service with the City of Roseville, and beginning on the first pay period of the sixth year of service, the City shall contribute a flat dollar amount equal to $100 per month to be deposited to the employee's RHS account up until the employee's retirement date or separation from the City. After accruing ten (10) cumulative years of service with the City and pursuant to the vesting schedule in Section C of this Article, employees may draw from the City contribution to this account upon retirement.

3. Employees who terminate City service for reasons other than retirement prior to twenty (20) years of cumulative service with the City will forfeit any City contributions.

4. Employees must retire from the City of Roseville and be enrolled in the City of Roseville's health plan in order to utilize City contributions to the employee's RHS accounts. After ten (10) years of cumulative service with the City of Roseville, City contributions to the employee's RHS account may be used for all covered medical expenses pursuant to Section 213 of the IRS Code.

ARTICLE VIII. LONG TERM DISABILITY PLAN

A. The City agrees to maintain a long term disability (LTD) program consisting of a sixty (60) calendar day qualifying period; whereupon an eligible employee shall be entitled to receive sixty percent (60%) of his/her gross monthly salary in accordance with the LTD Plan. Other details of the City's LTD plan are described in the plan booklet.

B. After five (5) years as a regular employee, the City agrees to pay one hundred percent (100%) of the premium for the LTD plan.

C. A program of voluntary group Supplemental LTD is available to those employees assigned to the classifications in Management Appendix "A", CCAP Appendix "A", and Confidential Appendix "A". The City reserves the right to select the insurance provider. The employee accepts sole responsibility for payment of any and all costs under this program. All premiums will be collected via payroll deduction.

ARTICLE IX. LIFE INSURANCE

The City agrees to continue to provide a City paid life insurance program for eligible employees as covered in the plan document. The City reserves the right to select the life insurance benefit provider. The program will provide a policy equivalent to twice the annual salary in effect as of July 1 of each year.

ARTICLE X. SERVICE TERM/PERFORMANCE BONUS

A. SERVICE TERM BONUS
In recognition of the substantial contribution to the community made by Confidential employees as a result of the length of their City service, the City shall annually award, not compounded, each applicable employee a service term bonus as indicated below.

1. The City agrees to provide Confidential employees the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of the 10th year	2.5% of base salary

2. The City agrees to continue to provide Assistant Fire Chief, Fire Division Chief and Fire Battalion Chief the following service term bonus:

SERVICE TERM	BONUS AMOUNT

Beginning of 10th year to completion of 14th year	2.5% of base salary
Beginning of 15th year to completion of 19th year	5.0% of base salary
Beginning of 20th year and every year thereafter	7.5% of base salary

3. The City agrees to provide Police Lieutenants and Captains the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of 10th year to completion of 14th year	2.5% of base salary
Beginning of 15th year to completion of 19th yearand every year thereafter	5.0% of base salary

Such service term bonus shall be included in each eligible employee's bi-weekly payroll.

B. Employees hired on or after January 1, 2016, who receive a satisfactory or above annual performance review shall be eligible for an annual lump sum performance bonus as follows:

1. The City agrees to provide Confidential employees the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of the 10th year	2.5% of base salary

2. The City agrees to continue to provide Assistant Fire Chief, Fire Division Chief and Fire Battalion Chief the following service term bonus:

SERVICE TERM	BONUS AMOUNT
Beginning of 10th year to completion of 14th year	2.5% of base salary
Beginning of 15th year to completion of 19th year	5.0% of base salary
Beginning of 20th year and every year thereafter	7.5% of base salary

3. The City agrees to provide Police Lieutenants and Police Captains the following service term bonus:

SERVICE TERM	BONUS AMOUNT

Beginning of 10th year to completion of 14th year	2.5% of base salary
Beginning of 15th year to completion of 19th year and every year thereafter	5.0% of base salary

The annual lump sum performance bonus shall be paid with the first full pay check in January each year based upon the base salary paid during the first full pay period in the previous November of each year.

ARTICLE XI. HOLIDAYS

A. The following holidays shall be observed by the City with respect to all employees. City offices shall be closed on these days except as otherwise provided herein.

1. January 1 (New Year's Day).
2. The third Monday in January (Martin Luther King's Birthday).
3. The third Monday in February (Washington's Birthday).
4. The last Monday in May (Memorial Day).
5. July 4 (Independence Day).
6. The first Monday in September (Labor Day).
7. November 11 (Veteran's Day).
8. The day in November appointed by the President of the United States as Thanksgiving Day.
9. The day immediately following Thanksgiving Day.
10. December 25 (Christmas).
11. Sixteen (16) hours (floating Holiday) to be taken any time during the calendar year by employees who have completed at least six (6) months prior service (pro-rated for modified schedule employee). The employee and the employee's supervisor shall jointly determine a convenient date. Upon separation from service, if an employee has taken more holidays in advance than have been earned during the fiscal year, the City shall deduct an equivalent amount of pay for the holidays taken in advance from the employee's final paycheck, or such amount shall otherwise be owed to the City by the employee.

B. If January 1, July 4, November 11, or December 25 falls on a Saturday, the preceding Friday shall be a holiday; if any such day falls on a Sunday, then the following Monday shall be a holiday.

If a holiday occurs on the employee's first normal day off, the employee shall take the preceding day as the holiday; however, if the holiday occurs on the employee's second consecutive normal day off, the employee shall take the following day as the holiday. This policy shall be adhered to where practical and may be modified only by written consent to other conditions by the department head.

C. Refer to Section 3.12.140 of the Personnel Rules, for provisions not in conflict with the provisions above.

ARTICLE XII. VACATION LEAVE

A. Vacation provisions shall be governed pursuant to Roseville Municipal Code Section 3.12.060 with the exceptions noted in Subsection B.

B. Except as noted below, each full-time management and confidential employee (excluding classified Fire Department public safety employees) shall accrue vacation leave with pay as follows:

Service Category	Biweekly Accrual	Days/Year Equivalent	Max. Hrs. Accrual
New employee to completion of 4th year	3.692 hr.	12 days	240
Start of 5th year to completion of 9th year	4.307 hr.	14 days	280
Start of 10th year to completion of 14th year	4.923 hr.	16 days	320
Start of 15th year to completion of 19th year	5.538 hr.	18 days	360
Start of 20th year and succeeding years	6.153 hr.	20 days	400

Except as noted below, each full-time classified public safety Fire Department employee shall accrue vacation leave with pay as follows:

Service Category	Bi-weekly Accrual	Days/Year Equivalent	Maximum Hours
New employee to completion of 4th year	3.693 hr	12 days (96 hours)	240
Start of 5th yr to completion of 9th year	4.615 hr	15 days (120 hours)	280
Start of 10th yr to completion of 14th yr	5.231 hr	17 days (135 hours)	320
Start of 15th yr to completion of 19th yr	5.846 hr	19 days (152 hours)	360
Start of 20th yr and succeeding years	6.462 hr	21 days (168 hours)	400

Each full-time management employee in the Fire Department working a twenty-four (24) hour shift shall accrue vacation leave with pay as follows:

Service Category	Bi-weekly Accrual	Days/Year Equivalent	Maximum Hours
New employee to completion of 4th year	5.538 hr	6 shifts (144 hours)	288
Start of 5th yr to completion of 9th year	7.385 hr	8 shifts (192 hours)	384
Start of 10th yr to completion of 14th yr	8.308 hr	9 shifts (216 hours)	432
Start of 15th yr to completion of 19th yr	9.231 hr	10 shifts (240 hours)	480
Start of 20th yr and succeeding years	10.154 hr	11 shifts (264 hours)	528

C. All employees in the unit who are on probation may use vacation leave with prior approval from their supervisor.

ARTICLE XIII. MANAGEMENT LEAVE PLAN

Each calendar year management employees will be eligible to receive up to one hundred (100) hours of management leave. The actual number of hours allocated to each employee will be determined based on:

A. The employee's accomplishments, efforts and performance as determined by the department head and the City Manager. The City Manager has the discretion to determine the number of management leave hours for new hires.

B. By December 1st (for the subsequent year) each department will submit to the Human Resources Director their recommendation (and any supporting justification) for the amount of management leave to be allocated to each employee. The City Manager will have final approval of all management leave allocations.

Employees will be issued hours on January 1st each year and will not be allowed to carry unused hours beyond the end of the current calendar year. Employees may receive a lump sum payoff of up to fifty (50) hours. Department Heads may receive a lump sum payoff off of up to 100 hours. Employees may make an early payoff request any time after July 1 of each year. Employee may not be compensated for more hours than earned (based on an annual pro-ration) at the time of the payoff request. If an employee does not make an early request then the payoff of up to fifty (50) hours will be made on the pay period that includes December 31st.

A department head may recommend a revised allocation if an employee's work schedule or job duties change during the year. Any payoff of management leave will be based on the revised allocation. Upon separation from City service, an employee's allocation shall be deemed revised, prorated to correspond to the portion of the calendar year prior to separation, and net payoff of management leave shall be adjusted accordingly.

ARTICLE XIV. PERSONAL LEAVE TIME

Each full-time employee in the confidential unit shall be provided a bank of forty-five (45) hours of Personal Leave Time (PLT) on the first pay period of each calendar year. Part-time employees shall receive a pro-rated bank.

Use of PLT time shall be subject to the following:

A. PLT may be used by employees for time off on an hour for hour basis until the employee has exhausted the bank.

B. Use of PLT shall be subject to the operating needs of the City. The City may deny an employee time off on PLT if such release time will adversely impact the operating or staffing needs of a City department.

C. PLT shall have cash value and may be cashed out by the employee on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay. Employees may cash out unused PLT in any regular pay period pursuant to procedures established by the City Human Resources Department.

D. Any PLT time remaining in an employee's PLT bank on the last pay period of the calendar year shall not roll over into the next calendar year. Such PLT time shall be cashed out by the City on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay.

E. Employees who terminate employment with the City or leave the bargaining unit shall be cashed out at the rate of 0.86539 hours per week up to the balance of the employee's PLT bank. If an employee

terminates and has taken more PLT in advance than 0.86539 hours per week, the City shall deduct an equivalent amount of pay for the excess PLT. Any time cashed out will be paid on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay. Part-time employees will receive a pro-rated cash out of their PLT bank.

F. Any employee hired after the first of the year shall be granted a prorated amount at 0.86539 hours per week for the remainder of the calendar year. For example, if an employee is hired on July 1, the employee shall be granted twenty two and a half (22.5) hours of PLT.

ARTICLE XV. HOLIDAY PAYOFF FOR PUBLIC SAFETY MANAGERS

A. Police Lieutenants assigned to patrol will be issued one hundred and ten (110) holiday hours annually.

B. At any time after July 1st, police managers may submit a request for a one-time lump sum of up to forty (40) hours of holiday pay prior to taking time off at straight salary.

C. Battalion Chiefs (24 hour) will be issued one hundred and forty-four (144) hours of holiday time annually. In lieu of holiday time off, Battalion Chiefs may elect to receive straight salary for up to six (6) shifts of earned and unused holiday credit prior to the end of each January. All holiday time to be converted to pay shall be in one-half (1/2) shift increments.

ARTICLE XVI. SICK LEAVE INCENTIVE PROGRAM

A. Refer to Section 3.12.070 of the Personnel Rules, section A-I.

B. Payment for Unused Sick Leave Upon Retirement

The payment of unused sick leave is authorized by the City as a means of rewarding employees who have made conscientious efforts to maximize their attendance on the job.

1. Upon retirement, permanent employees shall be entitled to the payment for accrued sick leave as follows:

Non-24 Hour Shift Number of Sick Leave Hours Accumulated			**24 Hour Shift Number of Sick Leave Hours Accumulated**			**Percent of Compensation Given**
		Max			Max	
1200	To	1600	1800	to	2400	70%
956	To	1199.99	1434	to	1799.99	60%
764	To	955.99	1146	to	1433.99	50%
572	To	763.99	858	to	1145.99	40%
380	To	571.99	570	to	857.99	30%
188	To	379.99	282	to	569.99	20%
0	To	187.99	0	to	281.99	0%

OR

2. Upon retirement, for employees hired or promoted to a management position prior to Janaury 1, 2016 with a minimum of one hundred and fifty (150) days (1200 hours) of sick leave may "run out" their balance up to a maximum of six (6) months. During this "run out" period, the employee will remain on City payroll and will receive all health and welfare contributions as if they were actually working. Employee will not earn any additional vacation, sick, holiday, administrative or any other form of leave, nor will they receive salary or step increases. Employee will not receive auto allowance, performance pay or City paid deferred compensation contributions while on "run down." Finally, employee will not receive any long term disability or life insurance benefits while running down their sick leave.

C. Any remaining sick leave balances after choice of either "1" or "2" can be converted to CalPERS service credit.

D. In the event of a job-related death, the beneficiary of the employee, as shown on the records of the Public Employees' Retirement System, shall be paid for those sick leave and vacation days for which the employee would have been paid had employment terminated on the date of death.

E. In the event of a non-job-related death of firefighting personnel, the beneficiary of the employee as described above shall be paid for 100 percent of the employee's unused sick leave at the time of his or her death up to the maximum sick leave amount listed in the tables above for accumulated sick leave.

ARTICLE XVII. CATASTROPHIC LEAVE

Pursuant to City Personnel Rules Section 3.12.065, pertaining to Catastrophic Leave.

ARTICLE XVIII. ADDITIONAL APPLICATION

In addition to the specific application of the above terms, conditions and understanding of compensation of employment, the provisions of Articles V, VI, VII, VIII, IX, XI, XII, XVI, XVII, XVIII, XX, XXI, XXII, XXIII, and XXIV shall apply to the City Manager and the City Attorney.

ARTICLE XIX. UNIFORM ALLOWANCE

A. Police management will be provided uniforms in accordance with department procedures. Police Lieutenants who are assigned to investigations for a period of one year or more who have not served in that assignment for at least two (2) years are eligible to receive a one-time clothing reimbursement of $400 to offset increased clothing costs associated with the assignment. Such clothing will be cleaned at the City's expense.

B. The City will continue to provide uniforms, clean and replace uniforms for fire management personnel.

C. The City will report to CalPERS for Classic members (not PEPRA) the monetary value of the City's cost of providing, replacing and maintaining employee uniforms, as special compensation up to $800 annually. This excludes the monetary value for personal health and safety equipment.

ARTICLE XX. EDUCATIONAL REIMBURSEMENT

Employees may be reimbursed for the tuition and fees connected with approved job related educational courses recognized by the U.S. Secretary of Education not to exceed the California State University full-time tuition rate per year. The cost of books is not covered in this agreement. The employee will submit the request for reimbursement to the Human Resources Department.

The request must be made before the class has been completed. The Human Resources Department will make the final decision to accept or reject the request. No payment will be made until the final proof of passing grade is submitted to Human Resources. The City has established an annual educational reimbursement fund of $6,000 to be administered by the Human Resources Department. Once the fund balance is depleted, no further reimbursements will be approved.

ARTICLE XXI. ALCOHOL AND DRUG ABUSE POLICY

The Alcohol and Drug Abuse Policy will continue to be enforced. All employees will be required to immediately notify the City in writing of any criminal drug or alcohol related conviction.

ARTICLE XXII. DEPARTMENT HEAD CONTRACTS AND SEPARATION INCENTIVE PLAN AND ADMINISTRATIVE SETTLEMENTS

A. The City agrees to grant the City Manager the authority to enter into employment contracts with department head staff. One of the provisions of the contract will be to provide up to six (6) months' severance pay for department heads whose contracts are not renewed.

B. The City agrees to grant the City Manager the authorization to create a separation incentive plan using a 401 tax qualified plan and for the City Manager to serve as the Plan Administrator.

C. The City Manager is authorized to approve administrative settlements through separation of service agreements with up to 2 weeks compensation for each year of service credit, up to a maximum of 26 weeks.

ARTICLE XXIII. RELOCATION ASSISTANCE

The City agrees to grant the City Manager the authority to provide up to $15,000 in relocation assistance for positions the manager deems appropriate.

ARTICLE XX1V. NO SMOKING POLICY

Sworn employees hired after January 1, 2004 must be tobacco free and cannot use tobacco products on or off duty.

ORDINANCE NO. 6434

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING ORDINANCE NO. 6422, THE SALARY ORDINANCE FOR MANAGEMENT EMPLOYEES, AS AMENDED BY APPENDIX "A" TO BE EFFECTIVE JANUARY 1, 2022, AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6422, the Salary Ordinance for Management Employees, is hereby amended as shown on Appendix "A" for salary schedules A & B attached hereto, to reflect a general salary increase and Salary Schedule B compressed salary range.

SECTION 2. Salary Plan Effective Date.

This Ordinance shall be effective January 1, 2022 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect January 1, 2022. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this_____day of _____, 2021, by the following vote on roll call:

ORDINANCE NO. 6435

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING ORDINANCE NO. 6309, THE SALARY ORDINANCE FOR CONFIDENTIAL EMPLOYEES, AS AMENDED BY APPENDIX "A" TO BE EFFECTIVE JANUARY 1, 2022, AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6309, the Salary Ordinance for Confidential Employees, is hereby amended as shown on Appendix "A" for salary schedules A & B attached hereto, to reflect a general salary increase and Salary Schedule B compressed salary range.

SECTION 2. Salary Schedule Effective Date.

This Ordinance shall be effective January 1, 2022 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect January 1, 2022. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this_____day of _____, 20___, by the following vote on roll call:

AYES COUNCILMEMBERS:

COUNCIL COMMUNICATION

CC #: 1860
File #: 0600-01

Title:	Roseville Police Association - Memorandum of Understanding and Salary Schedule Update
Contact:	Stacey Peterson 916-774-5374 slpeterson@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 9.3.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council:

1. Adopt a resolution approving the attached Roseville Police Association (RPA) Memorandum of Understanding.

2. Adopt an ordinance to approve the attached RPA Salary Schedule A and Salary Schedule B (Appendix A) reflecting a 3% general wage increase and Salary Schedule B compressed salary ranges from 15 steps to 12 salary steps.

BACKGROUND

The current Memorandum of Understanding (MOU) for the Roseville Police Association (RPA) expires on December 31, 2021. During negotiations in the prior and current cycles with the City of Roseville employee bargaining units, the City's goal has been to ensure it is competitive in the marketplace on recruitment and retention among comparable agencies while remaining fiscally responsible.

As a service organization, labor is the City's biggest expense and the City has taken steps to control costs in this area. In the past eight years, the City has implemented policies to slow payroll growth, reduce retirement benefits, set total compensation (salaries and benefit packages) at median in the labor market (except for Electric Department positions), and control pension costs by transferring the responsibility to employees to fund 100 percent of the employees' share of pension costs. During the time the City was implementing these cost-control measures, services were expanded to meet the needs of our growing population, yet staffing was reduced by 40 percent per capita from FY2007-08 to FY2021-22.

Maintaining the quality of services along with the integrity of the City's more than $4 billion worth of infrastructure requires balancing our ability to attract and retain a high-performing workforce while living within our means. To this end, the City has strived during this round of bargaining to

recognize the exceptional efforts of City staff through the COVID pandemic by providing outstanding service to the community which has been substantiated by the recent community surveys. This resulted in recommending the City salary philosophy align to the 55th percentile of the market, which is estimated to increase compensation by about 1.5 percent to recruit and retain highly engaged employees to continue great service to the community. The City also created a tiered benefits structure to provide a different contribution at the Employee only, Employee plus One or Employee plus Family benefit levels to be used by active employees to remain competitive and cost effective in the market.

Ultimately, the City's compensation philosophy seeks to maintain internal equity among employee groups' medical benefits for current employees and to compare its total compensation with jurisdictions that are similar in size, services, and geographical location to remain competitive and retain our talented City employees who have produced high service levels affirmed by the community.

RECOMMENDATION

After numerous bargaining sessions since September 9, 2021, Roseville Police Association membership ratified the Tentative Agreement reached during contract negotiations on December 2, 2021. The significant provisions of the agreement are as follows:

Term

The term covers two years from January 1, 2022 to December 31, 2023.

Salaries and Benefits

Adjustments to the salaries fall in two categories: those that address general salary increases across the group and labor market adjustments.

1. **General Wage Increase**

   A 3.0% general base wage increase is recommended for all classifications in the bargaining group (both Salary Schedule A and Salary Schedule B) in the first full pay period in January 2022, which will offset labor market adjustments in 2023.

2. **Labor Market Adjustments**

   A total compensation study will be conducted in 2022 to determine the job classifications in the bargaining group behind the labor market. The City will provide a salary increase for each classification falling below the 55th percentile of the total compensation market by an amount to match the 55th percentile of the market. Staff will present the results of the study to Council for review and approval of the updated salary schedules to be effective the first full pay period in January 2023.

3. **Salary Schedule B Salary Ranges - Reduce from 15 steps to 12 steps**

   To promote retention of staff and stay competitive in our market, the Schedule B salary ranges will be reduced from 15 steps to 12 steps, using the same top and bottom salary steps, establishing 3 percent between salary steps, except for the difference between salary step A to B.

4. **Health and Welfare Benefits - Tiered Flex Credit for Active Employees**

To address increasing premium costs, the Flex Credit benefit is revised to provide a different level of contribution for those enrolled in Employee Only versus Employee Plus One or Employee Plus Family medical plans, to cover approximately eighty percent of the premium costs for medical, dental and vision at the family level. The following includes a summary of the recommended Flex Credit benefit adjustments to create a 3 Tiered benefit contribution:

Flex Credit Effective	Employee Only	Employee Plus One	Employee Plus Family
January 1, 2022	-$58/month	+$15/month	+$150/month
January 1, 2023	No change	+$45/month	+$75/month

5. Certification Pay

Add 2.5% to base pay for four Police Scene Technicians who possess the Crime Scene Investigations POST certification.

6. Shift Differential

To support retention, increase the graveyard shift differential to 5 percent and added a 2.5 percent swing shift differential.

7. Non-recurring Holiday

The bargaining group will no longer observe non-recurring holidays as appointed by the President of the United States or the Governor of the State of California. This will remove the unanticipated loss of productivity and disruption of services to the City.

FISCAL IMPACT

The current total annual salary and benefit cost to the City for the 62 full-time positions in the RPA bargaining group is $5,286,740, which is fully funded by the General Fund. The additional ongoing incremental cost for each calendar year of the 2 year term of the successor MOU is as follows:

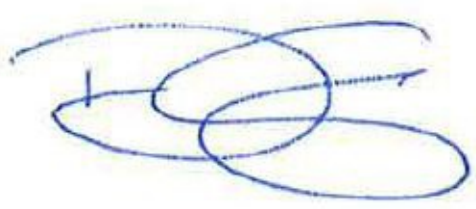
	Incremental Calendar Year 1	*Incremental* Calendar Year 2
Wages:		
General Salary Increase (3%)	$129,685	-
Labor Market Adjustment	0	TBD**
Schedule B Adjustment	$50,446	
Other costs:		
Pension*	$20,183	$941
Health (eff Jan 1st)	$19,980	$34,251
Certification and Shift Pay	$8,583	$8,660
Deferred compensation	$2,556	
Other Benefits (Life, LTD, OPEB)	$6,052	$260
Taxes (Medicare, SUI)	$3,156	$147
Total Incremental Cost	$240,641	$44,259

**This incremental pension cost results only from the negotiated wage increase and does not include the cost of anticipated PERS rate changes. The terms and conditions of the pension benefit plan remain unchanged.*
***The value of 1% of total compensation is $55,044.*

While the incremental cost of the negotiated agreement for calendar year 2022 is projected to be $240,641 (4.4% of total compensation), and $44,259 (.8% of total compensation) in 2023, the increases are compounding and therefore the projected total salary and benefit cost increase for the items specified above is $525,541 to the General Fund, not accounting for the cost in calendar year 2 of the Labor Market adjustments to maintain salaries at the 55th percentile of the market consistent with the City's new salary philosophy. Prior to implementation of the labor market adjustments in year 2, the cost to maintain salaries at the 55th percentile will be presented to Council with the updated salary schedules.

The cost to the General Fund of the successor RPA salary and benefit adjustments for the FY2021-22 is $120,321 based on 13 pay periods remaining. The cost to the current fiscal year will be covered by appropriations included in the FY2021-22 budget.

ENVIRONMENTAL REVIEW



The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Adoption of a Memorandum of Understanding and Salary Schedule meet the above criteria, and therefore are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community
Goal E - Deliver exceptional city services

Respectfully Submitted,

Stacey Peterson, Human Resources Director

MEMORANDUM OF AGREEMENT

CHAPTER 1. ADMINISTRATION

ARTICLE I. PREAMBLE

This Memorandum of Agreement, hereafter referred to alternatively as "the Agreement," “Memorandum of Understanding,” or “MOU,” entered into by the City of Roseville, hereafter referred to as "the City" or "the employer" pursuant to Section 3500, et seq. of the Government Code of the State of California and Resolution No. 72-55 of the City of Roseville, and the Roseville Police Association, hereafter referred to as "RPA" or "the Association" has as its purpose the promotion of harmonious labor relations between the City and RPA; establishment of an equitable and peaceful procedure for the resolution of differences; and the establishment of rates of pay, hours of work, and other terms and conditions of employment.

The term "Agreement" as used herein means the written agreement provided under Section 3505.1 of the Government Code.

ARTICLE II. RECOGNITION

Pursuant to the Meyers-Milias-Brown Act the City recognizes the Roseville Police Association as the exclusive representative for all employees in the bargaining unit as provided by Chapter 3.17 of the City's Personnel Rules.

ARTICLE III. CONTINUATION OF BENEFITS

A. This Memorandum of Understanding is intended both as the final expression of the agreement between the parties with respect to the included terms and as a complete and exclusive statement of the terms of this Memorandum of Understanding. No amendment, alteration, understanding, variation, waiver or modification of any terms of provisions of this Memorandum of Understanding shall in any manner be binding upon the parties unless made and executed in writing between the parties hereto and approved and implemented by the City Council.

B. Terms and conditions of employment as specified in this Memorandum shall remain in full force and effect during the term of this Memorandum unless modified pursuant to the above paragraph.

ARTICLE IV. TERMS OF UNDERSTANDING

This Memorandum of Understanding incorporates all modifications regarding wages, hours, and other terms and conditions of employment. This Memorandum of Understanding shall be effective January 1, 2022 upon City Council ratification and shall expire December 31,2023~~1~~.

ARTICLE V. SEVERABILITY OF AGREEMENT

This Memorandum of Understanding is severable. Should any provision of this Agreement be found unlawful or unenforceable by a court of competent jurisdiction, or invalidated by subsequently enacted legislation, the remainder of the Agreement shall continue in force. Upon occurrence of such an event, the parties shall meet and confer as soon as practical to renegotiate the invalidated provision(s).

CHAPTER 2. SALARIES AND OTHER COMPENSATION

ARTICLE I. SALARIES

~~A.~~ ~~Labor Market Adjustments – Effective March 16, 2019, Year 1 below, and in the first full pay period in January 2020, Year 2 below, the following salary increases shall be implemented for employees in the classifications listed below:~~

~~Job Title~~	~~Schedule B Year 1~~	~~Schedule B Year 2~~	~~Schedule A Year 1~~	~~Schedule A Year 2~~
~~Animal Control Officer~~	~~4.00%~~	~~.66%~~	~~4.00%~~	~~.66%~~
~~Animal Control Supervisor~~	~~4.00%~~	~~.66%~~	~~4.00%~~	~~.66%~~
~~Communications Supervisor~~	~~4.00%~~	~~2.06%~~	~~4.00%~~	~~2.06%~~
~~Community Services Officer I~~	~~4.00%~~	~~.72%~~	~~4.00%~~	~~.72%~~
~~Community Services Officer II~~	~~4.00%~~	~~.73%~~	~~4.00%~~	~~.73%~~
~~Crime Analyst~~	~~4.89%~~	~~4.89%~~	~~4.89%~~	~~4.89%~~
~~Dispatcher I~~	~~4.00%~~	~~2.06%~~	~~4.00%~~	~~2.06%~~
~~Dispatcher II~~	~~4.00%~~	~~2.07%~~	~~4.00%~~	~~2.07%~~
~~Police Officer Trainee~~	~~4.19%~~	~~4.19%~~	~~4.19%~~	~~4.19%~~
~~Police Property and Evidence Clerk I~~	~~4.00%~~	~~0.27%~~	~~4.00%~~	~~0.27%~~
~~Police Property and Evidence Clerk II~~	~~4.00%~~	~~0.25%~~	~~4.00%~~	~~0.25%~~
~~Police Property and Evidence Supervisor~~	~~4.00%~~	~~2.06%~~	~~4.00%~~	~~2.06%~~
~~Police Records Clerk I~~	~~3.46%~~	~~0%~~	~~3.46%~~	~~0%~~
~~Police Records Clerk II~~	~~3.44%~~	~~0%~~	~~3.44%~~	~~0%~~
~~Police Scene Technician I~~	~~4.00%~~	~~2.07%~~	~~4.00%~~	~~2.07%~~
~~Police Scene Technician II~~	~~4.00%~~	~~2.06%~~	~~4.00%~~	~~2.06%~~
~~Public Safety Outreach and Community Relations Coordinator~~	~~4.00%~~	~~3.39%~~	~~4.00%~~	~~3.39%~~
~~Public Safety Program Coordinator~~	~~4.00%~~	~~2.06%~~	~~4.00%~~	~~2.06%~~
~~Rangemaster~~	~~4.00%~~	~~0.26%~~	~~4.00%~~	~~0.26%~~
~~Records Supervisor~~	~~3.46%~~	~~0%~~	~~3.46%~~	~~0%~~

~~B.~~A. **General Wage Increase:** Effective the first full pay period in January 2022~~0 or upon approval of the City Council, whichever is later~~, all employees assigned to the classification listed in Appendix "G" shall receive a base salary increase of three~~two~~ percent (3~~2~~%).

~~C.~~B. **Labor Market Adjustments:** ~~**First full pay period in January 2021**~~

Effective the first full pay period in January 2023, t~~T~~he same benchmark job classifications used in the 2020~~18~~ Total Compensation Study will be studied in 2022~~0~~. The effective date of the Total Compensation Study survey data is July 1, 2022~~0~~.

The Total Compensation Study will use the agencies provided in Appendix "Z" for comparison and will be based on the same salary, benefit elements and methodology used in the 2020~~18~~ Total Compensation Study for each classification, which include:

Minimum Base Salary

Maximum Base Salary
Employee's Portion of PERS Paid by the Employer (%)
Employee's Portion of PERS Paid by the Employer
Deferred Compensation
Longevity Pay (Year 10)
Maximum Education/Certification Pay
Education/Certification Pay Notes
Cafeteria Plan
Health (Most Expensive Plan)
Dental
Vision
Life Insurance
Long-Term Disability Insurance
Retiree Health Savings Account (RHSA)
Social Security/Medi-Care
Employee Contributions Towards RHSA
Employer Portion of Retirement Paid by the Employee
Employer Portion of Retirement Paid by the Employee

The Total Compensation Study will be prepared at the City's expense and the City will provide a draft of the result of the Total Compensation Study to RPA for comments and to review for accuracy no later than October 14, 2022~~November 2, 2020~~. The RPA will provide any comments regarding the accuracy of the Total Compensation Survey no later than October 28, 2022~~November 13, 2020~~. The City will provide a salary increase for each classification falling below the total compensation 55th percentile by an amount to match the market 55th percentile

Prior to May 1, 2022, the City will complete the classification study and appropriate benchmarks of previously agreed surveyed agencies for the, Police Property and Evidence Clerk I/II, Police Property and Evidence Supervisors, Police Records Clerk I/II, and Records Supervisor. Parties agree to meet and confer over any proposed revisions.

~~D.~~C. Salary Schedules A and B

a. All employees hired before February 6, 2016, will remain on the current salary schedule (A) for all listed classifications in the bargaining unit. All such employees will continue on this salary schedule when promoted or transferred to other classifications within the bargaining unit.

b. Effective February 6, 2016, the City created a second salary schedule (B) which will apply to all new hires for all listed classifications in the bargaining unit. ~~The salary steps for the new salary schedule will be approximately two and a half percent (2.5%) for each classification in the bargaining unit.~~ For purposes of this provision, any employee who was initially hired before February 6, 2016 that had a break in City service and was rehired after February 6, 2016, will be deemed a newly hired employee under this provision.

D. Salary Schedule B Salary Ranges: Reduce from 15 steps to 12 steps

Effective the first full pay period in January or the first full pay period after Council approval, whichever is later, the Schedule B salary ranges will be reduced from 15 steps to 12 steps, using the same top and bottom salary steps, establishing 3 percent between salary steps, except creating a new entry salary step that is 4.7% below the new step B.

E. Reopener Provision.

The City may reopen this contract if the following occurs:

1. The City loses the ability to collect, levy or transfer to the general fund various fees and the loss of these revenue sources exceeds $1m; or

2. The Roseville voters by local ballot initiative approve the elimination or reduction of a revenue currently being levied or collected in the amount listed above.

The City and RPA shall mutually agree to the manner in which reductions in expenditures are obtained to balance the City's General Fund. Any negotiation and implementation period shall not exceed sixty (60) days.

The City will meet and confer over any impacts proposed due to a revenue loss. The City will also work closely with RPA to mitigate the impacts of these revenue losses.

In the event the City's other revenues increase or exceed the amount of any lost revenue, levy or transfer to the General Fund, the City shall not reopen the MOU.

ARTICLE II. DIFFERENTIAL/TRAINING PAY

Any employee designated in writing to provide formalized training to a new employee shall receive a five percent (5%) differential in salary for all hours worked in such capacity as identified in the below parameters. Formalized training programs must be established in order for an employee to be eligible for the training differential pay. In service training does not qualify for the training differential pay.

The following parameters apply to qualifying for the differential/training pay:

1. Communications Training Officer
   Up to Four (4) Communications Training Officers will be identified through an interview process. Minimum qualifications for this position shall include a non-probationary employee with the City of Roseville and the completion of the POST Communication Training Officer Course. Communications Training Officers will receive the differential/training pay even when they are not assigned a trainee. Communications Training Officers are subject to the following parameters:

   a. Interviews will be held annually to identify individuals qualified to perform as Communications Training Officers.

   b. Following each shift/schedule bid process, up to four Communications Training Officers will be assigned to perform in that capacity until the next shift bid process is complete. Assignment of a Communications Training Officer to a dispatch shift/schedule will be based on operational needs.

   c. Communication Training Officers will assist supervisors/managers to ensure all staff are clear on policy and procedure and ensure quality standards for emergency medical dispatch.

   d. Communications Training Officers will be evaluated by the Dispatch Manager each assignment for continued participation as a Communications Training Officer. If the evaluation determines the Communications Training Officer is no longer meeting the requirements of the position, the Dispatch Manager may recommend to the Chief of Police that the Communications Training Officer be removed from the role. Participation as a Communications Training Officer will be at the discretion of the Chief of Police.

2. Training Pay
   Any employee, excluding those classifications that require training as part of the assignment (e.g. supervisors), designated by the department in advance to provide formalized training to a new employee or an employee who management has identified as needing formalized training, shall receive a five percent (5%) differential in salary for that time served in such capacity. Formalized training programs must be established in order for an employee to be eligible for the training differential pay. In-service training does not qualify for the training differential pay.

ARTICLE III. SPECIAL PAYS

A. Employees shall not be deemed eligible to receive such pay until they have successfully completed their one (1) year probationary period.

~~B. Police Scene Technicians (formerly Crime Scene Technician and Multi-Services Officer) hired prior to January 1, 1997 who have a BA/BS degree in a job related forensic field will receive bi-weekly payment of one hundred and ten dollars ($110.00).~~

~~C.~~B. Employees in the job classes listed in Appendix W who acquire and maintain the corresponding certificates as listed will be paid two and one-half percent (2.5%) of their base salary.

~~D.~~ Where more than one certificate is listed per job class, no stacking of payments will be made (no additional payment will be made for a second certificate by an employee). ~~Police Scene Technicians who receive the special payment as described in Section B of this Article will not be eligible for any certification pay as described in Appendix W. Employees hired between 10/1/13 to 12/1/17, who possess an EMD certificate, shall receive 2.5% EMD special pay retroactive to the date their EMD cert was provided to the City, and are eligible for one (1) additional certificate pay as listed in Appendix W. Employees hired after 12/1/2017 are not eligible for EMD certificate pay.~~

Exception: Communications Supervisor and Dispatcher I and Dispatcher II hired on or before October 1, 2013 who currently are paid for Emergency Medical Dispatch (EMD) Certificates will also be eligible for one (1) additional certificate as listed in Appendix W. Dispatcher I and Dispatcher II ~~E~~employees hired between 10/1/13 to 12/1/17, who possess an EMD certificate, ~~shall receive 2.5% EMD special pay retroactive to the date their EMD cert was provided to the City, and~~ are eligible for one (1) additional certificate pay as listed in Appendix W. Employees hired after 12/1/2017 are not eligible for EMD certificate pay.

Employees must be using the referenced certificate as part of their primary job assignment.

~~E.~~C. Employees promoting into supervisory positions are eligible to retain a lower level certification pay for a maximum of two (2) years following promotion or employment into an eligible position or until eligible for the Supervisory POST certificate, whichever comes first.

~~F.~~D. Employees who possess certificates are responsible for submitting their certificate with the corresponding Personnel Action Form in order to be paid the two and one-half percent (2.5%) stated above.

ARTICLE IV. SERVICE TERM BONUS

In recognition of the substantial contribution to the community made by employees as a result of the length of their aggregate City service, the City shall annually award each applicable employee a service term bonus pay as indicated below.

Service Term	Service Term Bonus
Beginning of 10th year and every year thereafter	2.5% of base salary
Beginning of the 15th year and every year thereafter	An additional 2.5% of base salary

Such service term bonus pay shall be included on each eligible employee's bi-weekly payroll.

Effective February 17, 2007, for employees hired before January 1, 2016, the following certification pays will be calculated on service term bonus, previously referred to as "longevity" and reported to CalPERS as special compensation.

- Emergency Medical Dispatch Certificate

The service term bonus is to be considered as part of an employee's total compensation. However, only actual costs of the service term bonus shall be used when calculating total compensation for the purpose of comparing salaries and benefits of the City to other benchmark agencies.

Employees hired on or after January 1, 2016, who receive a satisfactory or above annual performance review shall be eligible for an annual lump sum performance bonus as follows:

Service Term	Service Term Bonus
Beginning of 10th year to completion of 14th year	2.5% of base salary.
Beginning of the 15th year and every year thereafter	5.0% of base salary.

The annual lump sum performance bonus shall be paid with the first full pay check in January each year.

ARTICLE V. COURT APPEARANCE

A. Employees who are off duty (excluding sick leave days off or Workers' Compensation leave) awaiting court appearance and such appearance is cancelled by the court, shall receive standby pay of two (2) hours pay at their overtime rate. In the event the employee is notified of the cancelled court appearance prior to the end of their last regularly scheduled shift the employee shall not be entitled to any standby pay. If an employee is scheduled to appear in court within two (2) hours of the time he/she is to report for duty and the appearance is cancelled by the court the employee will receive standby pay only up to the time he/she is to report for duty. In no way will the employee's eligibility for standby pay and actual work hours overlap. The required notification for this provision shall be one of the following:

1. Notice in person or by telephone to the employee including messages left on telephone recorders, cell phones, email, or answering devices at the employee's place of residence.

2. Voice mail delivered thirty (30) minutes prior to the end of the employee's last regularly scheduled shift.

3. Outlook Calendar, for those employees who have been issued a Department smartphone.

B. Employees who are off duty and are required to make a court appearance shall be entitled to a minimum of four (4) hours of overtime pay for court appearances. Where the first court appearance of the day overlaps with a second court appearance, employees shall receive overtime compensation hour-for-hour beyond the conclusion of the first four (4) hours Employees who begin a regular or other work shift within four (4) hours of their required court appearance time (travel time included for court appearances outside of Roseville) will be compensated hour-for-hour for time spent in court prior to the beginning of their work shift. If during the four (4) hours an employee is required to report to a regular or other work shift, the court pay will terminate. In no way will court time pay overlap with a regular or other work shift.

C. Employees attending court shall not be compensated for the lunch recess.

D. Employees shall not be eligible for meal reimbursement during or for court appearances except in the case when a court appearance occurs on an employee's day off and the appearance is continued through the court lunch break. In this case the employee may be reimbursed for the actual cost of the meal not to exceed ten dollars ($10.00). Each reimbursement request must be accompanied by a receipt.

E. For multiple same day subpoenas an employee is entitled to receive standby pay in accordance with Section "A" of this Article when the employee has subpoenas for the morning (0800-1200 hours) and afternoon (1300-1700 hours) and when one or both are cancelled. Standby shall be paid for one or both subpoenas so long as appearance times do not overlap or unless the employee is notified prior to 1230 hours in reference to any cancellation of the afternoon subpoena. Such notification shall be either via telephone or in person.

ARTICLE VI. OVERTIME

A. Overtime work may be required of any employee in order to meet special or unusual needs of service beneficial to the City and community. Employees shall be provided seven (7) days' notice prior to being assigned mandatory overtime other than shift extension overtime. Advance notice is not required for mandatory overtime caused by sick leave requests or other protected leaves. However, no employee may be required to work overtime during any scheduled work week in which he/she is on unpaid status due to disciplinary action. Overtime is defined as the number of hours worked in excess of the normal weekly schedule of work hours as illustrated below:

	EMPLOYEE WORK SCHEDULE	OVERTIME
1.	Eight hours per day, five days per week (5/8 Plan)	Over eight hours per day and forty hours per week
2.	Ten hours per day, four days per week (4/10 Plan)	Over ten hours per day and forty hours per week
3.	A flex-time schedule approved by the City Manager	Over the prescribed number of hours per day

Workers' Compensation leave hours are not to be considered to be hours worked for overtime purposes.

B. Incidental overtime, defined here as less than fifteen (15) minutes nonrecurrent extension of the workday/shift, is not compensable in any form.

C. Overtime shall be compensable in increments of thirty (30) minutes.

D. Overtime shall be compensable at the rate of one and one-half (1 ½) times the employee's base hourly rate.

E. Shift Extension. If an employee is called to work early or is worked beyond his/her normal work shift, compensation for overtime shall be calculated in accordance with Subsection C of this section.

F. Shift Change. When a police unit employee is required to work more than four (4) consecutive shifts as a result of a shift change, the employee will be eligible for overtime pay beginning with the fifth and succeeding consecutive shifts worked, for employees on 4/10 schedule. Employees on 5/8 schedule who are required to work more than five (5) consecutive shifts as a result of a shift change, will be eligible for overtime pay beginning with the sixth and succeeding consecutive shifts worked provided the shift change for either a 4/10 or 5/8 schedule results in the employee being off work between shifts for less than twenty-four (24) hours. Shift changes which exceed twenty-four (24) hours and shift changes for purposes of training, shall not be eligible under this provision.

G. Compensatory Time. Compensatory time shall be governed as follows:

1. Regular and probationary employees may, with the prior approval of their supervisor, accrue compensation time in lieu of overtime pay. The accrual rate for compensatory time shall be one and one-half (1 ½) hours for each hour of overtime time worked.

2. Once an employee has been credited with compensatory time, the employee shall either take the CTO or shall be paid for all hours accrued. Employees requesting payment for accrued CTO hours shall be paid by the next full pay period from the date requested.

3. Upon separation the employee will be paid at the employee's current hourly rate or average of last three (3) years whichever is higher for the remaining compensatory balance.

4. Maximum accumulation of compensatory time shall be reduced as follows:
~~Effective March 16, 2019, the maximum accumulation of CTO shall be one hundred twenty (120) hours;~~
~~Effective January 1, 2020, the maximum accumulation of CTO shall be one hundred (100) hours, except for Dispatcher and Communication Supervisor which will have a maximum accumulation of one hundred twenty (120) hours; and~~
~~Effective January 1, 2021, the maximum accumulation of CTO shall be eighty (80) hours, except for Dispatcher and Communication Supervisor which will have a maximum accumulation of one hundred twenty (120) hours.~~
a. Effective January 1, 2022, the maximum accumulation of CTO shall be one hundred (100) hours.
~~b.~~Employees with CTO balances above the maximum cap on ~~March 16, 2019~~January 1, 2022,
~~a.~~ shall be allowed to maintain said balances but shall not be allowed to accrue additional CTO hours until their balance drops below the cap. ~~identified above that respective year.~~
~~c. Employees at or below a CTO balance of 200 on March 16, 2019, shall be covered under subsection 4b of this Article and shall be capped at 120 hours. Employees at or below a CTO balance of 100 hours on March 16, 2019, shall be covered under subsection 4c of this Article and shall be capped at 80 hours.~~
~~a.~~b.

5. The parties further agree that usage of accrued compensatory time shall be governed as follows:

The City and Department agree that an employee's CTO request will generally be granted, unless granting the CTO would provide undue disruption to operation of the Department as determined by the Chief of Police or designee, including if it would result in below recommended minimum staffing levels on any shift. If the CTO request is for less than forty (40) hours and the employee provides at least fourteen (14) days' notice for the request, the Department agrees to grant CTO leave on the specific date requested even where backfilling on overtime is required unless granting the CTO would provide an undue disruption to operation of the Department as specified herein. If the CTO request is for more than forty (40) hours and the employee provides at least twenty-eight (28) days' notice for the request, the Department agrees to grant CTO leave on the specific date requested even where backfilling on overtime is required unless granting the CTO would provide an undue disruption to operation of the Department as specified herein.

a. Each shift shall be treated and considered separately.

b. Granting the CTO shift, as set forth in subparagraph 5, shall apply to requests issued after shift bidding. Requests for CTO leave prior to shift bidding shall be granted at the discretion of the Chief of Police or his/her designee.

c. The employee requesting the use of compensatory time off shall generally be notified as to whether the request has been granted by the end of his/her shift, or within a reasonable amount time thereafter. If an employee requests to use CTO on multiple shifts where other circumstances delay the Department's ability to grant or deny the request immediately, the Department shall notify the employee of whether the request is granted within a reasonable amount of time.

If within one year of employee's request, the time off has not been granted, the City shall cash-out the amount of CTO requested.

d. Supervisors may grant CTO requests at their discretion where granting the leave may require the Department to backfill for overtime. Generally, such requests will be granted where the employee is able to demonstrate a special need for the CTO leave usage, and the use of other available leave types is not practical.

e. CTO requests from Communications staff for time off shall be submitted no less than 7 days before date of request.

H. Employees assigned to shift work in the police department whose regular work schedule requires work on a holiday shall be compensated at their straight time hourly base rate of pay for performance of work on holidays. Compensation for holidays worked for such employees shall be as set forth in this Agreement.

I. Employees who are entitled to take holidays off work as holidays occur, and who are required to work on a holiday when they would otherwise observe the holiday off, shall be compensated by either of the following methods, the choice of which shall be made by the employee's supervisor in advance of such work:

1. If an employee works the holiday and does not receive any other scheduled work day off in lieu of working the holiday, the employee shall be compensated at the rate of regular pay plus time and-one half the employee's base hourly rate (for the actual number of hours worked on the holiday).

2. If an employee works the holiday and receives another scheduled work day off in lieu of working the holiday, the employee shall be compensated at the rate of time and one-half the employee's base hourly rate for the actual number of hours worked on the holiday. Under this option, the employee must be given another scheduled work day off within the period of five (5) working days after the worked holiday with corresponding notations upon appropriate payroll reports.

ARTICLE VII. STANDBY

The City agrees to the following standby provision concerning represented employees.

A. Standby assignments will be made on a weekly basis. Employees assigned to a weekly standby (Saturday through Friday) will be compensated at a rate of eleven (11) hours straight time pay per week.

B. Employees who are scheduled for intermittent standby (assignments of less than one (1) week) shall receive $1.50 per hour for all hours while assigned.

C. Such payment shall be in addition to the overtime payments, which may be payable for call backs, pursuant to City Personnel Rules and Regulations. An employee on standby may be authorized to take a City vehicle home, provided the employee lives within the area bounded by heavy black lines on the attached map (Appendix "X").

D. Standby assignments require the employee so assigned:
   1. To be ready to respond immediately to calls from the City and to be called into work,
   2. To be reachable by telephone,
   3. Employees will be expected to respond to call backs as soon as possible but within one (1) hour of notification, and to refrain from activities which might impair their ability to perform any assigned duties.

E. The department shall make standby assignments voluntary whenever practical.

F. The City reserves the right to schedule standby as needed.

ARTICLE VIII. CALL BACK

Pursuant to Sections 3.12.040 of the City's Personnel Rules call back shall be governed as follows:

All regular and probationary employees are entitled to a minimum call back pay of two (2) hours at the appropriate overtime rate when said employee is required to return to work after leaving the work site at the end of their scheduled work shift or required to return to work on their scheduled day off. This provision does not apply when (i) employees are required to work beyond their normal work day/shift without having been called to return to work or (ii) when an employee is called in to work prior to the start of their work shift and the employee continues to work into their normal shift without having been released to go home.

ARTICLE VIX. WORK OUT OF CLASS

Pursuant to Roseville Municipal Code, Section 3.07.080, no employee shall be required to perform duties which are not closely related both in kind of work and in level of responsibility to duties formerly assigned to positions in the class, except on a short-term, temporary or emergency basis. However, if a supervisor assigns an employee to work out of class for four (4) hours or more, or one-half (½) shift or more, the employee shall be paid the salary appropriate to that class for the entire day or the entire shift. If an employee is required to work out of class for a substantial period of time, request should be made by the department head either for reallocation of the existing position or for temporary appointment to a position in a more appropriate class. No request for reallocation or temporary appointment shall be considered, however, in situations where work assignment is less than one calendar month's duration.

Compensation shall be five percent (5%) more than the employee's current salary rate in the lower class.

For employees assigned to management classifications the compensation shall be ten percent (10%) more than the employee's current salary rate in the lower class. In the event that the top step in the higher range is less than ten percent (10%), the employee will be compensated at the top step of the higher class.

Temporary Acting Pay

An employee temporarily assigned in writing to an acting position in a classification with a higher salary range shall be compensated for the furation of the acting assignment by the payment of ten perdcent (10%) of the regular salary the employee received prior to the acting assign,ment, or the salary provided for in Step A of the higher classification, whichever is greater, but not to exceed top step of the higher classifcaiton. The higher classified positon must be temporarily vacant due to a long-term absence of the incumbent or pending the filling of a vacant position. The temporary acting pay assignment shall be for a minimum of two full-time pay periods and limited to one year. Authorizaiton for a temporary acting assignment must be given by the employee's supervisor and requires advance approval of the Department Head, Human Resources Director and City Manager.

ARTICLE X. BILINGUAL PAY

Employees who are certified by the Human Resources Department as bi-lingual speaking shall be paid one hundred dollars ($100) per month ($46.15 bi-weekly).

ARTICLE XI. SWING AND GRAVEYARD SHIFT DIFFERENTIAL

A. Swing s~~S~~hift differential for purposes of this section is defined as a shift of ~~eight~~ ten(10~~8~~) hours or more where fifty percent (50%) of the shift falls between the hours of 4 ~~10~~ pm and 10 pm~~7 am~~ except as otherwise stated in section C below.

B. Any employee who works an assigned regular time shift as described in "A" above, shall be paid an additional two and one-half percent (2.5%) of their ~~his/her~~ base hourly rate for each hour actually worked. No shift differential will be paid on sick leave, vacation, CTO or any other time off.

C. Hours worked on overtime, whether the employee is held over, called in to cover a shift or partial shift, or volunteers for an overtime shift, will be judged independently, but on the same standard. If at least half of the overtime hours are between 4 p.m. and 10 p.m., all overtime hours worked will qualify for the two and one-half percent (2.5%) shift differential and will be paid at two and one-half percent (2.5%) of the base hourly rate and not the overtime rate.

D. Graveyard shift differential for purposes of this section is defined as a shift of ten (10) hours or more where fifty percent (50%) of the shift falls between the hours of 10 p.m. and 6 a.m. except as otherwise stated in section E below.

E. Any employee who works an assigned regular time shift as described in "D" above, shall be paid an additional five (5%) of his/her base hourly rate for each hour actually worked. No shift differential will be paid on sick leave, vacation, CTO or any other time off.

F~~C~~. Hours worked on overtime, whether the employee is held over, called in to cover a shift or partial shift, or volunteers for an overtime shift, will be judged independently, but on the same standard. If at least half of the overtime hours are between 10 p.m. and 6~~7~~ a.m., all overtime hours worked will qualify for the five ~~two and one-half~~ percent (5~~2.5~~%) shift differential and will be paid at five ~~two and one-half~~ percent (~~2.~~5%) of the base hourly rate and not the overtime rate.

~~D. This provision does not apply to any shift with allowable sleep time.~~

ARTICLE XII. PAYROLL ERRORS

A. In the event an error has been made in the payment of an employee's compensation (which may include, but is not limited to salary, overtime, payment or leave accruals), balances or usages, City shall, for purposes of future compensation adjust such compensation to the correct amount, giving written notice to employee.

B. In the event an employee received an overpayment or underpayment of wages, the employee may select one of the following methods:

1. Lump sum payment by employee or employer;
2. One-time deduction from usable vacation, compensatory time off (CTO), or holiday leave balances equivalent to the overpayment at the employee's current hourly rate;
3. A repayment schedule through payroll adjustment; and/or
4. Other means, as may be mutually agreed to between the parties.

C. Action to enforce repayment of an overpayment, or to correct an underpayment, shall be limited to a period beginning on the first day of the City pay period two (2) years prior to the date that either City or the employee gives written notice to the other that a payment error has occurred.

ARTICLE XIII. MERIT STEP INCREASE WHEN HIRED AT SALARY STEP A

This section supercedes Personnel Rule 3.11.030 C (1) only where salary Step A is paid upon initial employment, the employee shall become eligible for advancement to Step B upon their anniversary date, based on demonstrated satisfactory job progress and normal increased productivity. No salary step advancement shall be granted unless recommended by the department head and approved by the City Manager.

CHAPTER 3. LEAVES

ARTICLE I. HOLIDAYS

A. Employees who are allowed to take holidays off shall receive holidays as provided below

1. The following holidays shall be observed by the City with respect to all employees, except shift employees in the police department. For purposes of this section shift employees (otherwise known as "shift workers") are those employees who are not allowed to take holidays off as they fall.

   a. January 1st (New Year's Day)
   b. The third Monday in January (Martin Luther King's Birthday)
   c. The third Monday in February (Washington's Birthday)
   d. The last Monday in May (Memorial Day)
   e. July 4th (Independence Day)
   f. The first Monday in September (Labor Day)
   g. November 11th (Veteran's Day)
   h. The day in November appointed by the President of the United States as Thanksgiving Day
   i. The day immediately following Thanksgiving Day
   j. December 25th (Christmas)
   k. Sixteen (16) hours floating holiday to be taken any time during the fiscal year by employees who have completed at least six (6) months probationary service (pro-rated for part-time regular employees). The number of floating holiday hours to be credited to a new employee hired after July 1st shall be pro-rated based on the number of full months employed during that year. Employees unable to complete six (6) months of probationary service prior to June 30th shall not accrue or be eligible for any floating holidays that year. The employees and the employees' supervisors shall jointly determine a convenient date.

~~2. The following non-recurring holidays shall be observed in any year in which they occur: Every day appointed by the President of the United States or the Governor of the State of California for a public fast, thanksgiving, or holiday (except Admission Day).~~

2~~3~~. If January 1st, July 4th, November 11th, or December 25th falls on a Saturday, the preceding Friday shall be a holiday; if any such day falls on a Sunday, then the following Monday shall be a holiday. If a holiday occurs on the employee's first normal day off, the employee shall take the preceding day as the holiday; however, if the holiday occurs on the employee's second consecutive normal day off, the employee shall take the following day as the holiday. This policy shall be adhered to where practical and may be modified only by written consent to other conditions by the department head.

B. Employees who are not allowed to take holidays off as they fall (shift workers) shall receive one hundred and ten (110) holiday hours to be credited in advance on January 1st of each year. Employees may submit a request at any time after January 1st for a one-time lump sum of up to forty (40) hours' holiday pay prior to taking time off at straight salary. The balance of holiday hours must be requested by the employee. Payoff for unused holiday hours at the end of the calendar year will be granted only to employees who have previously submitted and been denied remaining holiday time off (excluding denials requested on holidays) otherwise employees shall lose the balance of holiday hours remaining at the end of the calendar year (December 31st).

1. All holiday time off is subject to advance approval of the first level management supervisor and department head. Employees must request holiday time off at least seven (7) workdays prior to the requested holiday.

2. Upon separation from service, if an employee has taken more holidays in advance than have been earned during the calendar year, the City shall deduct an equivalent amount of pay for the holidays taken in advance from the employee's final paycheck, or such amount shall otherwise be owed to the City by the employee.

   Upon separation from service, if an employee has an accrued holiday leave balance, said employee shall be paid for all earned hours at their final rate of pay.

C. The determination of whether an employee is categorized as able to take holidays or scheduled to work holidays for the purpose of holidays shall be based upon the employee's assignment as of January 1st of each year.

ARTICLE II. MILITARY

A. Classified employees obligated to serve involuntary periods of active military duty shall be compensated for normal work hours and days or shifts during such absence from work, up to a maximum of thirty (30) calendar days in any calendar year.

B. Employees exercising this provision of military leave are required to submit properly documented evidence of their call to active duty within ten (10) calendar days prior to such military duty. Such documentation must be submitted through the department head to the Human Resources Director.

ARTICLE III. JURY DUTY

A. Employees who have been summoned or subsequently selected to serve on a jury shall receive their regular rate of compensation by the City for normal work hours and days or shifts during such absence from work, provided the employee endorses to the City that compensation received by the employee for jury duty service. No compensation will be made for jury duty served on days off. Jury duty is not considered time worked for overtime purposes.

B. An employee who is empaneled on jury duty and normally works a night shift will be changed to the day shift for those days required to be on jury duty. If the jury is empaneled for less than eight (8) hours, the employee must report to work for the balance of the shift.

C. Employees will be allowed to retain any mileage compensation granted to them by the respective court jurisdiction to which they were summoned or selected for jury duty.

D. Employees summoned to jury duty must provide evidence of such summons and subsequent jury duty days away from work through their respective department heads to the Human Resources Director.

ARTICLE IV. VACATION

Vacation provisions shall be governed pursuant to Roseville Municipal Code Section 3.12.060. It is understood that this section may not be amended without first meeting and conferring in accordance with Government Code 3500 et seq. Each employee may request and receive payment at the regular hourly rate for up to eighty (80) hours per year of accrued vacation leave, provided there is a minimum remaining balance of one hundred (100) hours following payment. All buy backs will be subject to an eighty (80) hour maximum within a twelve (12) month period. Any tax liability created by this form of compensation shall be the sole responsibility of each employee.

The purpose of vacation leave is to provide eligible employees the opportunity to take paid time off from their job responsibilities in order to maintain a high standard of mental, emotional and physical conditioning.

A. Eligibility. All full-time and part-time employees in the classified service and unclassified service as defined in Section 3.01.050.B.1 shall be entitled to annual vacation leave with pay. Each employee will earn and accrue vacation hours pursuant to the accrual schedule as noted in subsection B. Exceptions to this provision shall only be granted in unusual circumstances substantiated by the Department Head in a recommendation to the City manager who may approve or disapprove such variance.

B. Accrual**.** Unless specified in applicable labor agreements, each full-time eligible employee identified in subsection A shall earn and accrue vacation leave, subject to the conditions stated in this section, with pay as follows:

Service Category	Biweekly Accrual	Days/Year Equivalent	Max. Hours Accrual
New employee to completion/4th year	3.693/hr	12 days (96 hours)	192
Start of 5th year to completion/9th year	4.307/hr	14 days (112 hours)	240
Start of 10th year to completion/14th year	4.923/hr	16 days (128 hours)	272
Start of 15th year to completion/19th year	5.538/hr	18 days (144 hours)	304
Start of 20th year and succeeding years	6.153/hr	20 days (160 hours)	336

1. Employees working a part-time schedule will accrue vacation hours on a prorated basis, in proportion to the full-time equivalent (FTE).

2. As noted in subsection A of this section, new employees shall earn vacation at the biweekly rate shown above, commencing on the date of hire. Eligible employees shall advance to the next higher rate of accrual upon completion of the maximum number of years at the lower accrual rate, and shall begin to accrue at the higher rate at the start of their qualifying year.

3. Except as provided in Section B, an employee's maximum accrual of vacation hours may not exceed the employee's annual accrual rate as specified above and an employee will stop earning and accruing vacation hours while the employee's accrual remains at the maximum allowed in Section B. This maximum level is monitored at the employee's hire anniversary date. If accrued hours exceed such amount as of the hire anniversary date, vacation accrual will be suspended until the balance is brought below the maximum accrual amount.

4. If the accrued amount exceeds specified limits, the employee shall take leave for the excess number of vacation hours or, if the department head determines that operational necessity will not permit taking such leave, the employee may be paid the straight time hourly equivalent for not more than twenty (20) hours. Additionally, the maximum vacation hours an employee may accrue will be extended when an employee is on disability leave, jury duty, or military leave as provided in these rules. The employee shall be allowed to liquidate such excess accrual within thirty (30) calendar days following return to duty, by means of taking such leave time or receiving straight time hourly equivalent compensation for not more than twenty (20) hours of vacation.

C. Use. An employee may elect to take all or part of earned vacation, or may carry over to the next service year all or part of earned vacation as approved by the department head and consistent

with the provisions of subsection B of this section. However, the dates and amount of vacation selected by the employee shall be subject to approval of the employee's supervisor. Vacation leave shall generally be taken in minimum increments of one full workday/work shift, except that unusual, emergency, necessary and infrequent use of vacation leave may be granted in one hour increments. Employees must request vacation leave at least seven~~ten~~ (7~~10~~) workdays prior to the desired start of vacation leave. Under unusual or personal emergency circumstances, employees may request and supervisors may consider the approval of vacation leave with fewer than seven ~~ten~~ (7~~10~~) working days' notice. In the event it becomes necessary to call an employee back to work from a scheduled vacation, the employee shall be credited with the unused vacation hours and shall have the opportunity to take such remaining vacation leave at a time of the employee's choosing and the supervisor's approval.

D. Holidays Within Vacation Leave. Except for shift personnel, holidays which occur during a scheduled vacation period shall be counted as a holiday. Employees may request in advance that they extend their vacation leave by the number of holidays occurring within their scheduled leave, or they may request fewer vacation hours which, together with the holiday(s), will comprise the total time period of their scheduled leave.

ARTICLE V. PERSONAL LEAVE TIME

Each full-time employee in the RPA unit who has completed his/her initial probationary period with the City shall be provided a bank of forty-five (45) hours of PLT on the first pay period of each calendar year. Part-time employees shall receive a pro-rated bank.

Use of PLT time shall be subject to the following:

A. PLT may be used by employees for time off on an hour for hour basis until the employee has exhausted the bank.
Use of PLT shall be subject to the operating needs of the City. The City may deny an employee time off on PLT if such release time will adversely impact the operating or staffing needs of a City department. Employees must request PLT time off at least seven (7) workdays prior to the desired start of the requested time off.

B. PLT shall have cash value and may be cashed out by the employee on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay. Employees may cash out unused PLT in any regular pay period pursuant to procedures established by the City Human Resources Department.

C. Any PLT time remaining in an employee's PLT bank on the last pay period of the calendar year shall not roll over into the next calendar year. Such PLT time shall be cashed out by the City on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay.

D. Employees who terminate employment with the City or leave the bargaining unit shall be cashed out at the rate of .86538 hours per week up to the balance of the employees PLT bank. If an employee terminates and has taken more PLT in advance than .86538 hours per week, the City shall deduct an equivalent amount of pay for the PLT. Any time cashed out will be paid on an hour-for hour basis at the employee's regular straight-time hourly rate of pay. Part-time employees will receive a pro-rated cash out of their bank.

E. Any employee hired after the 1st of the year shall be granted a prorated amount at .86538 hours per week for the remainder of the calendar year, after the completion of their probation. For example, if an employee is hired on July 1, the employee shall be granted 22.5 hours of PLT.

ARTICLE VI. MODIFIED DUTY

MODIFIED/ALTERNATE DUTY PROGRAM

PURPOSE

To enable employees who have an injury, illness, or accident, as outlined by a health care provider/treating physician ("health care provider"), that renders them temporarily unable to perform one

or more of the essential functions/job duties listed in their Job Specification to work in a Modified/Alternate Duty Assignment.

This program is not available to those who have received permanent restrictions from a health care provider and should not be construed as recognition that an employee has a disability as defined by the Americans with Disabilities Act (ADA) or 1990 or the ADA Amendments Act (ADAAA) of 2009.

POLICY

It is the policy of the City of Roseville to work with an employee who has been injured on or off the job and/or who may have an illness or condition that temporarily limits them from performing one or more of the essential functions/job duties listed in their Job Specification.

PROCEDURE

When an employee has an injury, illness or accident that renders them temporarily unable to perform one or more the essential functions/job duties associated with their regular job, they are eligible to participate in a Modified/Alternate Duty Assignment.

1. If the injury/illness is non-work related, the employee may return to a Modified/Alternate Duty Assignment should one be available that meets the restrictions imposed by the employee's health care provider.

2. If the injury/illness is work related, the employee is required to return to a Modified/Alternate Duty Assignment should one be available that meets the restrictions imposed by the employee's health care provider.

When an employee's health care provider imposes restrictions, the Human Resources Department will determine if the restrictions preclude the employee from performing one or more of the essential functions/job duties listed in their Job Specification and if it is necessary to place the employee in a Modified/Alternate Duty Assignment. The Human Resources representative will work with the health care provider and the department to clarify restrictions if necessary.

Supervisory Notification

The employee's work restrictions will be identified in a Work Status Report or on the City of Roseville Certificate for Return to Work or Further Treatment (Attachment A) provided by the health care provider.

1. If the employee's department is able to accommodate the restrictions, the employee's supervisor will notify Human Resources and a Modified/Alternate Duty Form (Attachment B) will be completed by Human Resources. The form shall include a description of the assignment being offered and the restrictions of the employee. The form must be signed by both the supervisor and employee and returned to Human Resources for final approval before the employee is returned to work. If the employee has already returned to work, and if the employee does not sign the agreement he/she will be removed from work.

2. If the employee's department is unable to accommodate a Modified/Alternate Duty Assignment, the department will notify Human Resources immediately. Human Resources will contact other departments for possible Modified/Alternate Duty Assignments based upon the employee's restrictions. If an assignment is found within another department, Human Resources will coordinate the placement of the employee.

When a Modified/Alternate Duty Assignment is unavailable in any department, the employee will be placed on temporary disability/sick leave/unpaid leave depending on the nature of injury/illness and availability of leaves.

Employees who are off work are required to contact their supervisor and Human Resources ***by the start of the next business day*** following a change in their work restrictions or medical condition as determined

by his/her health care provider. Additionally, each time the employee attends a follow-up visit, a new work status report shall be obtained by the employee and a copy ***must*** be provided to the Human Resources Department even if restrictions have not changed. Failure to provide Human Resources and/or their supervisor with current work status reports may result in the employee being taken off work and required to utilize available personal leaves, if available.

It is the responsibility of the employee and the employee's supervisor to ensure the employee is complying with, and working within, the work restrictions imposed by the health care provider.

Workers' Compensation Injuries Only:

If an employee completes a Modified/Alternate Duty Assignment, and no additional Modified/Alternate duty work is available, the employee will be placed off work while receiving all benefits afforded them through the Workers' Compensation system.

An employee on Workers' Compensation may choose to refuse the Modified/Alternate Duty Assignment if the assignment is expected to last one week or less. However an employee who refuses a Modified/Alternate Duty Assignment is subject to having their workers' compensation temporary disability benefits terminated and will be required to use personal leave, excluding sick leave, for lost time.

Duration

Modified/Alternate Duty Assignments will typically not exceed two hundred and seventy (270) calendar days per injury/illness. Upon completion of the assignment, the employee shall be removed from work until released to full duty or deemed to have permanent restrictions. The employee may use any benefits available to them at that time. In no case will a Modified/Alternate Duty Assignment continue once an employee has received permanent restrictions from a treating physician.

Timekeeping

When an employee is assigned a Modified/Alternate Duty Assignment, the employee shall be compensated for hours worked at their regular rate of base salary and benefits (24-hour shift employees exception noted below) regardless of whether or not the employee performs work within the regular classified position or is assigned to the employee's regularly assigned department. If an employee is assigned to a Modified/Alternate Duty Assignment of less than full time, compensation for hours worked may be supplemented by either temporary disability, accrued sick leave, or other available leave depending on the nature of the injury/illness. Modified/Alternate Duty Assignments will be noted as such within the payroll timekeeping system to ensure accurate reporting of time worked.

24-Hour Shift Conversion

For changes in the middle of a pay period from one schedule to another schedule (e.g. 24-hour shift personnel to an 8-hour/5-day shift), actual hours worked will be referenced in the notes section of the payroll timekeeping system. When a Modified/Alternate Duty Assignment continues to subsequent pay periods, the employee's schedule will be changed in the payroll timekeeping system to reflect the actual schedule worked. In this case, the employee's holiday bank will be maintained but sick and vacation leave will be converted to reflect the assigned schedule accruals. The conversion rate for vacation and sick leave banks will be 1.5 unless noted in the following table.

24 Hour Fire Department Vacation Conversion Rates:

New to 4 years	1.499
5 – 9 years	1.598
10 – 14 years	1.588
15 – 19 years	1.591
20+ years	1.511

The employee's banks will be converted back utilizing the same conversion factors when the employee is released to full duty.

RESPONSIBILITY

It is the employee's responsibility to ensure his/her supervisor and Human Resources have the most recent physician statement on file and to notify their supervisor if they feel the work they are doing exceeds the restrictions set forth by their health care provider.
Should an employee be placed in another area, division, or department, it is the employee's and Human Resources' responsibility to convey the restrictions to the supervisor in charge of the Modified/Alternate Duty Assignment.

It is the current supervisor's responsibility to ensure employee restrictions are adhered to during the Modified/Alternate Duty placement. Coordination between the Modified/Alternate Duty supervisor and the employee's regular supervisor is encouraged.

It is the department's responsibility to ensure Modified/Alternate Duty Assignments are flexible enough to allow placement while adhering to the restrictions placed by the health care provider.
Any medical information received should be limited to a listing of work restrictions/functional limitations and duration of such. This information should **only** be shared with those that need to know as a means of protecting privacy. Should you have questions, please do not hesitate to contact Human Resources for clarification.

Human Resources is responsible for ensuring the employee in a Modified/Alternate Duty Assignment is aware of the importance of communicating any changes placed upon them by their health care provider to their supervisor and the Human Resources Department as soon as possible. Human Resources will monitor the various assignments to ensure compliance with City policy.

It is imperative that departments advise the Human Resources Department of any Modified/Alternate Duty Assignments, regardless of duration and/or whether they are work-related or non-industrial.

ARTICLE VII. SICK LEAVE

A. Refer to Section 3.12.070, Personnel Rules, section A-I.

B. Payment for Unused Sick Leave Upon Retirement

Effective February 16, 2019, payment for unused sick leave is authorized by the city as a means of rewarding employees who have made conscientious efforts to maximize their attendance on the job.

1. Non-probationary employees shall be entitled to a minimum payment as follows: (1) for sick leave accrued (not pro rata) up to their date of retirement. However, employees whose separation is caused by dismissal shall not be entitled to payment for unused sick leave.
2. No more than the maximum sick leave amount listed in the tables below may be used in ascertaining the amount of time for which the employee will be compensated at time of retirement. Payment will be determined as follows:

Non-24-Hour Shift Number of Sick Leave Hours Accumulated		**24-Hour Shift Number of Sick Leave Hours Accumulated**		**Percent of Compensation Given**
	Max		**Max**	
956 to	1200	1434 to	1800	60%
764 to	955.99	1146 to	1433.99	50%
572 to	763.99	858 to	1145.99	40%
380 to	571.99	570 to	857.99	30%

188 to	379.99	282 to	569.99	20%
0 to	187.99	0 to	281.99	0%

3. In the event of a job-related death, the beneficiary of the employee, as shown on the records of the Public Employees' Retirement System, shall be paid for those sick leave and vacation days for which the employee would have been paid had employment terminated on the date of death.
4. Any sick leave balances remaining after payment shall be converted to PERS service credit.

ARTICLE VIII. CATASTROPHIC LEAVE

Pursuant to City Personnel Rules Section 3.12.065, pertaining to Catastrophic Leave.

The parties have interest in making revisions to the catastrophic leave program/policy and will meet and confer over forthcoming City proposed revisions.

ARTICLE IX. DISABILITY LEAVE

Employees may be granted paid disability leave, based on the following circumstances, terms and conditions. The purpose of providing these programs of paid disability leave is to ensure that employees have reasonable and equitable provisions concerning their job and economic security.

A. Work related temporary disability. If a regular employee, other than those entitled to benefits under Section 4850 et seq. of the California Labor Code, is temporarily disabled by injury or illness arising out of and in the course of performing assigned job duties, the employee shall become entitled to a leave of absence while so disabled without loss of salary, less workers' compensation disability payments, for up to seventy-five (75) calendar days, commencing upon the first calendar day after the injured employee leaves work as a result of the injury. Correctional Officers and Correctional Supervisor shall be entitled to up to one hundred (100) calendar days.

B. Following the initial seventy-five (75) days of temporary disability (100 days for correctional staff), an eligible employee may supplement their temporary disability payments with available leave balances (i.e., vacation, sick leave, until such balances are exhausted (up to twelve (12) months).

C. During the time of work related disability, an eligible employee will continue to accrue the normal leave, i.e., vacation, sick leave, until such time as their leave balances have been exhausted (up to twelve (12) months).

D. During the period of time of work related disability, the City will continue to contribute its share to the employee's health and dental plan until such time as all leave balances are exhausted (up to twelve (12) months).

E. Employees who are found to abuse or fraudulently use the privilege and benefits of the temporary disability program as prescribed above shall be subject to disciplinary action, including termination from City service. The employee exercising these temporary disability provisions shall be required to provide the department head and Human Resources Director with a copy of the attending physician's report, which shall contain a description of the nature and anticipate duration of the disability, and the employee shall keep the department head and Human Resources Director apprised of the medical condition at intervals prescribed by the Human Resources Director.

F. Employees subject to the provisions of Section 4850 et seq. of the California Labor Code shall not have any portion of their work related disability leave charged against accrued sick leave.

CHAPTER 4. –RETIREMENT/INSURANCE

ARTICLE I. RETIREMENT

A. Retirement System. Unit members are provided retirement benefits under the California Public Employee Retirement System (CalPERS) as described in this Article.

B. Tier One: 2.7% at 55 Retirement Program – Bargaining Unit Members Hired On or Before December 31, 2012 and Unit Members Qualified for Reciprocity (Classic Member).

This Section B, including subsections, shall apply to bargaining unit members hired on or before December 31, 2012. In addition, this Section B shall apply to bargaining unit members hired on or after January 1, 2013, who are qualified for pension reciprocity as stated in Government Code Section 7522.02(c) and related CalPERS reciprocity requirements (Classic Member):

1. 2.7% at 55 Pension Formula
The "2.7% @ 55" retirement program will be available to bargaining unit members covered by this Section.

2. Final Compensation Based On 12-Month Period
For the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by this Section B shall mean the highest twelve (12) consecutive month period as specified in Government Code Section 20042.

3. Required Contributions
Bargaining unit members covered by this Section B shall continue to pay, through payroll deduction, 8.0% of compensation earnable contribution to CalPERS.

C. Tier Two: PEPRA Retirement Tier Required For Bargaining Unit Members Hired On or After January 1, 2013 and Not Qualified For Reciprocity

This Section C, including subsections, shall apply to bargaining unit members who were hired on or after January 1, 2013, and who do not qualify for pension reciprocity as stated in Government Code Section 7522.02(c).

1. 2% at 62 Pension Formula
The "2% @ 62" retirement program will be available to bargaining unit members covered by this Section C.

2. Final Compensation Based On 36-Months
Effective January 1, 2013, for the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by this Section C shall mean the highest annual average pensionable compensation earned during thirty-six (36) consecutive months of service.

3. Required Bargaining Unit Member Contributions
As required by Government Code Section 7522.04(g), effective January 1, 2013, bargaining unit members covered by this Section C shall pay, through payroll deduction, fifty percent (50%) of normal costs as determined by CalPERS.

D. Other Options Included In CalPERS Contract
Unit members continue to be eligible for the following options included in the City's contract with CalPERS:

- Government Code Section 20965 (Unused Sick Leave Credit – Local Member.)
- Government Code Section 21573 (1959 Survivor Benefit Level 3).
- Government Code Section 21548 (Pre-Retirement Option 2W Death Benefit).
- Government Code Section 21329 (2% Annual Cost-of-Living Allowance Increase).

E. Employee contributions shall be made in accordance with Section 414.h(2) of the IRS code wherein the payment to CalPERS is made pre-tax.

F. As permitted by law and CalPERS regulations, City of Roseville employees who separate from city service and subsequently return to service with the City of Roseville, shall return to the retirement tier from which they were previously enrolled while employed with the City of Roseville.

ARTICLE II. DEFERRED COMPENSATION

The City agrees to maintain a program of deferred compensation for covered employees. It is understood that the City is solely responsible for selection of the Deferred Compensation plan and plan administrator(s).

The City agrees to contribute three percent (3%) of the base wages of employees who have completed five (5) continuous years of regular employment with the City of Roseville.

ARTICLE III. HEALTH AND WELFARE CONTRIBUTION

A. Eligibility
Any regular employee working fifty percent (50%) or more of a full-time schedule shall be eligible to enroll in any health and welfare benefit provided by this Article and currently authorized by the RPA bargaining unit. Regular part-time employees who are hired into a position funded as regular part-time after January 1, 2004, or current employees who laterally transfer or promote into a regular part-time allocated position, will receive a pro-rated amount toward their health and welfare contribution based on actual hours worked. The contribution amount will be based on the percentage of full-time the employee works. For example, employees working twenty (20) hours per week will receive fifty percent (50%) of the full-time contribution; employees working thirty (30) hours per week will receive seventy-five percent (75%) of the full-time contribution, etc.

B. Medical Insurance Benefits
The City contracts with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. The City's maximum monthly contribution for each eligible active employee shall be equal to the minimum employer contribution required under the Public Employees Medical and Hospital Care Act (PEMHCA).

C. Cafeteria Plan

1. The City agrees to maintain a Cafeteria Plan, pursuant to Section 125 of the Internal Revenue Code or any related regulations, for the purpose of providing employees with access to various health and welfare benefits. Benefits available through the Cafeteria Plan include medical insurance, dental insurance, and vision insurance.

2. ~~Effective December 1, 2018, T~~the City agrees to provide a Cafeteria Plan Allowance to all employees eligible to participate in City sponsored health and welfare benefits under Section A of this Article of up to $1347 per month (less the direct PEMHCA payment provided in paragraph B).

3. Effective January 1, 2022, ~~or upon Council approval, whichever is later, T~~the City provides a flex plan credit based on medical plan tier election (EE only, EE+1, Family) ~~of $168.00 per month~~ to be used by active employees for any benefit covered under the Cafeteria Plan as follows:
~~Effective December 1, 2019, the City will increase the flex plan credit to $198. Effective December 1, 2020, the City will increase the flex plan credit to $228. Effective December 1, 2021, the City will increase the flex plan credit to $258.~~

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$273/month	$598/month

4. Effective January 1, 2023, the City agrees to provide a flex plan credit based on ~~-~~medical plan tier election (EE only, EE+1 or Family) to be used by active employees for any benefit covered under the Cafeteria Plan, as follows:

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$318/month	$673/month

~~5.~~ ~~-~~Employees who elect not to participate in any of the medical, dental, and vision insurance~~-~~benefits sponsored by the City and who provide proof of other medical coverage will not receive any Cafeteria Plan Allowance under Section C(2) or Flex Plan Credit under Section C(3) of this Article. Instead, employees who opt out of these City sponsored benefits will receive $150 per month reported as taxable income.

6. Any Cafeteria Plan Allowance provided for under Section C(2) of this Article can only be used by an employee to offset the cost of participation in City sponsored medical, dental, and vision, insurance benefits for the employee and any eligible dependents.

The City reserves the right to select the provider or self-administer this program and to set limits for ~~-~~medical reimbursement accounts.

D. The City provides a dental benefit to include two (2) preventative cleanings per year. Other details of the City's dental benefit are described in the evidence of coverage document. The City reserves the right to select any dental carrier. Open enrollment will be as described in the evidence of coverage document.

E. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

ARTICLE IV. RETIREE HEALTH BENEFITS

A. Medical Insurance Benefits

The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing retirees and their eligible dependents with medical insurance benefits. The City's maximum monthly medical contribution for each eligible retiree shall be equal to the minimum employer contribution required for active employees under the Public Employees Medical and Hospital Care Act (PEMHCA).

The parties agreement to move from the CalPERS equal contribution method to the PEMHCA minimum employer contribution method does not modify retiree health benefits for employees in Tiers I and II pursuant to Article IV B and C below.

B. For Employees Hired Prior to January 1, 2004 (Tier 1)

Employees hired prior to January 1, 2004 that qualify for post-retirement health benefits shall qualify for such benefits based on rules in effect prior to January 1, 2004, .e.g. an employee that retires from the City of Roseville and is eligible for CalPERS service retirement shall receive a City contribution towards their post-retirement medical insurance benefit at the same level as full-time regular employees covered by this Agreement.

C. For Employees Hired on or after January 1, 2004 and Prior to October 1, 2013 (Tier 2)
For employees hired on or after January 1, 2004 and prior to October 1, 2013, to be eligible to receive post-retirement health benefits, an employee must complete at least five (5) years of CalPERS-credited service with the City of Roseville. Employees who retire from the City of Roseville after meeting the service requirement stated above and who have at least ten (10) years of CalPERS-credited service will receive a City contribution towards their post-retirement health benefits as follows:

Total Credited Years of Service	% of City Contribution
10	50 %
11	55
12	60
13	65
14	70
15	75
16	80
17	85
18	90
19	95
20 +	100

Employees who have CalPERS-credited service through other public agencies must complete at least five (5) years of service with the City of Roseville and retire from the City of Roseville to be eligible for postretirement health benefits. However, once an employee has completed five (5) years of service with the City of Roseville, their eligibility for post-retirement health benefits will include all years of CalPERS-credited service.

The vesting requirements for post-retirement health benefits will become effective January 1, 2004. Employees hired on or after January 1, 2004 shall be subject to the above post-retirement vesting schedule for health benefits.

D. For Employees Hired on or After October 1, 2013 (Tier 3)

1. Employees hired on or after October 1, 2013 shall have no vested right in any post-employment medical benefits provided by the City of Roseville. Instead, upon hire, those employees shall contribute one percent (1%) of their base salary each pay period to a City sponsored Retirement Health Savings (RHS) account and shall contribute an additional one percent (1%) per pay period per year annually, up to a maximum of five percent (5%) per pay period annually thereafter, to be used to fund the employee's medical costs upon retirement from the City.

2. After five (5) years of continuous service with the City of Roseville, and beginning on the first pay period of the sixth year of service, the City shall contribute a flat dollar amount equal to $100 per month to be deposited to the employee's RHS account up until the employee's retirement date or separation from the City. After accruing ten (10) cumulative years of service with the City and pursuant to the vesting schedule in Section C of this Article, employees may draw from the City contribution to this account upon retirement.

3. Employees who terminate City service for reasons other than retirement prior to twenty (20) years of cumulative service with the City will forfeit any City contributions.

4. Employees must retire from the City of Roseville and be enrolled in the City of Roseville's health plan in order to utilize City contributions to the employee's RHS account. After ten (10) years of cumulative service with the City of Roseville, City contributions to the

employee's RHS account may be used for all covered medical expenses pursuant to Section 213 of the Internal Revenue Service (IRS) Code.

Upon written request from RPA, the City agrees to meet to discuss proposed revisions to the medical insurance provision of the MOU. This discussion may begin after January 1, 2014 and conclude no later than December 31, 2014, unless mutually agreed to by the parties.

ARTICLE V. EMPLOYEE ASSISTANCE PROGRAM

A. The City agrees to provide an Employee Assistance Program (EAP) for employees pursuant to the current EAP Plan document. The plan will include no less than six (6) visits per calendar year. The plan document is available through the City's Human Resources Office.

B. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. The City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

ARTICLE VI. LIFE INSURANCE

A. The City provides eligible employees with a fully paid life insurance program in the amount of twice the annual salary in effect as of July 1 of each year. The City reserves the right to select the insurance provider.

B. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. The City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

ARTICLE VII. LONG TERM DISABILITY (LTD) INSURANCE

A. The City provides a Long Term Disability Program with a waiting period of sixty (60) calendar days; whereupon an eligible employee shall be entitled to receive sixty percent (60%) of their gross monthly salary until age sixty-seven (67) in accordance with the LTD Plan.

B. After disability benefits have been payble for twenty-four (24) months, an employee is deemed disabled if the injury or sickness makes him/her unable to perform all the material duties of any occupation for which he/she may reasonably become qualified based on education, training or experience.

C. Other details of the City's LTD plan are described in the plan booklet. The City reserves the right to select any LTD carrier.

D. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. The City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

CHAPTER 5. SAFETY

ARTICLE I. SAFETY

The City of Roseville agrees that the safety of its employees is of utmost concern and accordingly agrees to make every effort to provide to the extent possible, a safe and hazard free work environment.

ARTICLE II. SAFETY EQUIPMENT

A. The City will furnish the appropriate safety equipment as follows:

Animal Control Officer, Animal Control Supervisor

Quantity	Item
1 each	Uniform badge
1	Flashlight
1	Pepper spray (OC) and holder
1	Duty belt
1	Collapsible baton and holder
1	Key ring holder
3	Keepers
1	Soft body armor (If requested)
1	Rain gear
1	Protective case for gloves
1	Reflective safety vest
1	Taser

Police Scene Technician I/II, Property Supervisor

Quantity	Item
1 each	Uniform badge
1	Flashlight
1	Duty belt
1	Key ring holder
3	Keepers
1	Rain gear
1	Protective case for gloves

Community Services Officer I/II

Quantity	Item
1each	Uniform badge
1	Flashlight
1	Pepper spray (OC) and holder
1	Duty belt
1	Key ring holder
3	Keepers
1	Soft body armor (If requested)
1	Rain gear
1	Protective case for gloves
1	Reflective safety vest

B. All safety equipment described above shall be replaced on an as needed basis as approved by the department head or designated authority. New issues will be nylon. City agrees to replace existing leather as needed.

C. All safety equipment described above shall remain the property of the City and shall be returned to the Police Chief upon request or upon the employee's termination of employment.

D. Applicable employees shall continue to be required to adhere to safety equipment specifications, appearance, and maintenance standards established by the Police Department.

E. Personnel on patrol issued soft body armor shall be required to wear such when on duty except as otherwise authorized by the supervisor.

CHAPTER 6. WORK HOURS

ARTICLE I. GENERAL WORK HOURS

Except as noted below hours of work provisions shall be governed pursuant to Roseville Municipal Code Section 3.12.010.

A. Personnel assigned to Investigations Unit, Patrol and Traffic Unit, Records Unit, Jail Unit, and Communications shall be allowed to work a four (4) day workweek of ten (10) hours per day.

Persons assigned to modified duty shall be assigned their normal schedule (i.e. 4/10). However, assignment of days off and or shifts shall be at the discretion of the department.

B. Rest Period. Except as noted below, probationary and regular employees when required to actually work (does not include standby time, etc.) more than fourteen (14) hours in a twenty-four (24) hour period shall not be required to return to work without at least an eight (8) hour rest period starting from the time released from work. Rest periods as defined are not compensable.

1. Shift Change.

a. Back to Back Shifts: When an employee is required to work two (2) consecutive shifts as a result of a shift change, the employee shall be given at least eight (8) hours as a rest period to be taken at the midway point of the second shift.
b. Return Shifts: No employee shall be required to work two (2) shifts during a shift change without being given at least eight (8) hour as a rest period to be taken between shifts.
c. Change of Shift Hours: Any employee involved in a mandatory change of shift which involves a change in shift starting time of ten (10) or more hours will be given a minimum of at least four (4) days notice.

These provisions may be waived in emergency situations as determined by the Police Chief or his/her designated authority.

2. Day's Off Changes.

Except in uncommon situations where it is in the best interest of the City, as determined by the Police Chief or his/her designated authority, employees will be given a minimum of at least seven (7) day's notice prior to a change in days off.

C. Lunch Periods: At the discretion of the Police Chief, represented personnel receive thirty-five (35) minute paid lunches.

CHAPTER 7. TRAVEL/MEAL EXPENSES

ARTICLE I. OUT OF AREA TRAVEL

When any employee is required to travel beyond a thirty (30) mile radius of the Police Department as the result of a business related function, the following compensation shall be provided:

A. Compensable hours under this provision shall be actual travel time to and from and all hours worked during such assignment. Compensation for such hours shall be governed by the overtime provision of this Agreement.

B. Employees performing such function may be provided the option of use of a City vehicle. Where an employee's personal vehicle is used, the employee shall be reimbursed mileage in accordance with this Agreement.

C. Employees shall be reimbursed other travel related expenses in accordance with this Agreement.

ARTICLE II. BUSINESS AND TRAVEL EXPENSE

The City shall reimburse employees for travel expenses in accordance with current City policy except as noted below:

For all reimbursement requests an employee is required to supply receipts verifying expenses. Where receipts are lost or unavailable, the employee is required to supply a statement indicating the amount spent and reasons for the missing receipt(s).

ARTICLE III. MEALS

A. All regular and probationary employees required to work at least two (2) hours beyond or prior to their normal work shift shall be eligible for meals as provided below:

1. Employees required to work between two (2) to four (4) extra hours shall be entitled to one (1) meal break.

2. Employees required to work at least eight (8) extra hours shall be entitled to two (2) meal breaks.

3. Employees required to work at least twelve (12) extra hours shall be entitled to three (3) meal breaks.

4. In no event shall an employee be entitled to more than three (3) meals breaks in a given twenty-four (24) hour period.

B. Arrangements for meals shall be as follows:

1. City may provide a meal by bringing food to the work site.

2. City may allow the employee to go to a restaurant ofthe employee's own choice for a period of thirty-five (35) minutes during which time the employee shall be on paid time, and the City shall pay the employee $12.00 for a meal. Effective March 16, 2019, the City shall pay the employee $15.00 for a meal.

3. If circumstances do not permit the employee to obtain a meal under "B2" above, the City shall pay the employee $12.00 to obtain a meal after the overtime work is completed. Effective

March 16, 2019, the City shall pay the employee $15.00 for a meal after the overtime work is completed.

4. The meal allowance will be recorded each eligible day in timekeeping to be paid with normal payroll periods.

CHAPTER 8. GENERAL ISSUES

ARTICLE I. LEAVE REDUCTION

Pursuant to Section 3.16.030 of the City's Personnel Rules:

A. Disciplinary suspensions may be administered by reducing an employees's vacation, compensatory time and/or holiday time by up to forty (40) hours. Reductions of time in excess of forty (40) hours must be with the approval of the employee. If the employee refuses reductions beyond forty (40) hours, the department head may choose another form of discipline to supplement the leave reduction. In no instance shall the chosen discipline combined with the leave reduction exceed the discipline proposed.

B. An employee who has forfeited previously scheduled time off may substitute other forms of accumulated time off to enable him/her to take the previously scheduled time off.

ARTICLE II. UNIFORM ALLOWANCE

A. The following classifications shall be provided the listed uniforms. The City will report to CalPERS for Classic members the monetary value of the City's cost of providing, replacing and maintaining employee uniforms, as special compensation. For Classic employees, in the first year of employment, the reported special compensation earned, in an amount not to exceed $600, except for Community Services Officer and Animal Control Officer $1,250. All other uniform replacement and maintenance costs reported as special compensation earned may not exceed $500 annually. This excludes the monetary value for personal health and safety equipment. Replacement and maintenance will be provided in lieu of a uniform allowance. Provided uniforms must be worn in accordance with department policy.

1. Dispatcher I / II, Communications Supervisor, Public Safety Volunteer Coordinator
   a. Shirts (3 – Brand, style and color of shirt must be authorized by the Chief, and the Roseville Police logo must appear on the shirt)
   b. Class A uniform trousers (1) and long sleeve shirt (1)
   c. Class A tie
   d. Appropriate patches

2. Community Services Officer I / II, Animal Control Officer, Animal Control Supervisor
   a. Uniform trousers & shirts (3 pants, 3 long sleeve, 3 short sleeve)
   b. Windbreaker
   c. Cold Weather jacket
   d. Class A uniform trousers (1) and long sleeve shirt (1)
   e. Class A tie
   f. Appropriate patches

3. Police Records Clerk I / II, Police Records Supervisor, Crime Analyst
   a. Shirts (3 – Brand, style and color of shirt must be authorized by the Chief, and the Roseville Police logo must appear on the shirt)
   b. Pants or skirts (3 total of any combination- Brand, style and color must be authorized by the Chief)
   c. Class A uniform trousers (1) and long sleeve shirt (1)
   d. Class A tie
   e. Appropriate patches

4. Police Property and Evidence Clerk I / II, Police Property and Evidence Supervisor, Police Scene Technician, Public Safety Outreach and Community Relations Analyst,
   a. Polo shirts (3 long sleeve & 3 short sleeve – Brand, style and color must be authorized by the Chief of Police & Police Logo must appear on the polo)

b. BDU/ Cargo pants (3 – Brand, style and color must be authorized by the Chief of Police)
c. Uniform trousers (1) uniform shirt (1) Optional in lieu of one polo/pant pair
d. Class A uniform trousers (1) and long sleeve uniform shirt (1)
e. Class A tie
f. Appropriate patches

ARTICLE III. DISCIPLINE

The following may be causes for the City to initiate disciplinary action including demotion, reduction in pay, suspension, or dismissal of any employee, pursuant to these rules and regulation. The causes cited below are for both specific and exemplary reasons to alert employees to the more commonplace types of disciplinary issues. There are some serious acts of misconduct that by their nature are not appropriate for progressive discipline. Behavior of this type should be disciplined by suspension, or, if warranted, discharge on the first occasion. The rules governing discipline shall prevail as if the unlisted issue or infraction were listed as follows:

A. Attendance.

1. Improper or unauthorized use or abuse of sick leave;
2. Excessive absenteeism regardless of reason;
3. Being absent without authorized leave, repeated tardiness to assigned work station, or leaving assigned work without authorization.

B. Behavior.

1. Willful or negligent violation of the personnel rules and regulations, resolutions, and other related ordinances including departmental rules, regulations, and policies;
2. Insubordination (failure to carry out a direct order from a supervisor);
3. Acceptance of gifts or gratuities in connection with or relating to the employee's duties, except as provided in Section 3.16.0203.15.030;
4. Conduct that is unbecoming a City officer or employee which tends to discredit the City or City service, including the wearing of City-identified uniforms off duty into a public or private establishment; the nature of which may adversely reflect upon the City; willful misrepresentation of the City;
5. Conviction of a crime, the nature of which reflects a possibility of serious consequences related to the continued assignment or employment of the employee;
6. Falsifying information related to employment application, payroll, or any work related record or report;
7. Soliciting outside work for personal gain during the conduct of City business, engaging in outside employment for any business under contract by the City, participating in any outside employment that adversely affects the employee's City work performance, and engaging in unauthorized outside employment;
8. Discourteous treatment of the public or City employees;
9. Conduct interfering with the reasonable management and discipline of the City or any of its departments or divisions;
10. Engaging in political activities while on duty;
11. Violation or neglect of safety rules;
12. Theft;
13. Physical altercations;
14. Any act or conduct that is discriminatory in nature towards another person's race, creed, color, national origin, sex (including sexual harassment), age, religious beliefs, or political affiliations, disability, or any status protected by state or federal law.
15. Dishonesty.

C. Work Performance.

1. Inefficiency, incompetence, or negligence in the performance of duties, including failure to perform assigned tasks of training or failure to discharge duties in a prompt, competent, and reasonable manner;
2. Refusal or inability to improve job performance in accordance with written or verbal direction after reasonable trial period;
3. Refusal to accept reasonable and proper assignment from an authorized supervisor;
4. Intoxication, or incapacity on duty due to the use of, alcohol or drugs; or illegal possession of drugs or open container of alcoholic beverage while on duty;
5. Driving under the influence of alcohol or drugs while on duty; suspension of driver's license where job duties require driving; possession for use or sale of an illegal controlled substance.
6. Careless, negligent, or improper use of City property, equipment or funds, including unauthorized removal, or use for private purpose, or use involving damage or unreasonable risk of damage to property;
7. Unauthorized release of confidential information or official records;
8. Participation in an unlawful strike, sympathy strike work stoppage, slowdown, or other job action against the City.

ARTICLE IV. EDUCATIONAL REIMBURSEMENT

Employees may be reimbursed for the tuition and fees connected with approved job related educational courses recognized by the U.S. Secretary of Education up to the California State University full-time tuition rate per year. The cost of books is not covered in this Agreement. The employee will submit the request for reimbursement to the Police Chief, who will accept or reject the request. The request must be made before the class has been completed. The request will then be forwarded with the Police Chief's recommendation to the Human Resources Department, who will make the final decision to accept or reject the request. No payment will be made until the final proof of passing grade is submitted to Human Resources. The City has established an educational reimbursement fund of $8,000 to be administered each fiscal year by the Human Resources Department. Once the fund balance is depleted, no further reimbursements will be approved.

CHAPTER 9. ASSOCIATION/CITY ISSUES

ARTICLE I. MEMBERSHIP DUES AND AUTHORIZED DEDUCTIONS

A. The Association shall be entitled to have membership dues and other lawful deductions of its members deducted from their paychecks in accordance with the procedures required by law and set forth herein To the extent required by Government Code Sections 1157.3 and 1157.12, the City shall honor employees' voluntary authorizations for Association dues deductions from employee paychecks. Such authorized deductions shall be remitted monthly to Association along with an adequate itemized record of deductions. The City shall make every reasonable effort to remit the amounts deducted within ten (10) working days following the payday on which the deductions were made.

B. In making such authorized membership dues deductions, the City shall rely on written certification from the Association confirming that the Association has and will maintain authorizations signed by each individual employee from whose paychecks the deduction is to be made that the individual affirmatively consents to the dues deduction in a manner that meets the requirements of state and federal law, including but not limited to applicable provisions of Government Code Sections 1150-1157.12 and the First Amendment of the United States Constitution. After providing the required certification, the Association shall not be required to provide a copy of individual authorizations to the City unless a dispute arises about the existence or terms of the authorization. To the extent required by law, the City will rely on information provided by the Association in writing regarding whether dues deductions were properly cancelled or changed. Any requests from the Association that the City change dues deductions shall include a certification that the changes are requested with the affirmative consent of the individual employee(s) and otherwise comply with all requirements of state and federal law.

C. The amount of membership dues shall be set by the Association. All changes in dues deductions shall become effective the first of the month following written notification to the City Finance Director.

D. The City agrees to direct all employees to the Association with regard to any questions or concerns related to membership dues or any other mutually agreed payroll deduction. The City agrees to send requests to cancel or change dues deductions to the Association.

E. The City agrees to provide to Association on a monthly basis a payroll dues deduction report.

F. The employee's earnings must be regularly sufficient, after other legal and required deductions are made, to cover the amount of the dues check-off authorized. When an employee, in good standing in the Association, is in a non-pay status, for the full pay period when his/her dues would normally be withheld, no dues deduction will be made to cover that withholding from the current or future earnings; nor will the employee deposit the amount with the City which would have been withheld if the employee had been in a pay status during that period. In the case of an employee who is in a non-pay status during only a part of the pay period and the salary is not sufficient to cover the full withholding, no deduction shall be made. In this connection, all other legal and required deductions have priority over Association dues.

G. The Association shall indemnify, defend, protect and hold harmless the City and its elected and appointed officials, officers, employees, officers and agents (collectively hereafter the "Indemnitees") from and against any and all claims, liabilities, losses, damages, fines, penalties, claims, demands, suits, actions, causes of action, judgments, costs and expenses (including, but not limited to, reasonable attorneys' fees and court costs) arising from the application of any provisions under this Article, including, but not limited to, any claims made by any member employees for the membership dues deductions the City made in reliance on the Association's certification, and any claims made by any member employees for any deduction cancellation or modification the City made in reliance on the information provided by the Association, provided

that the City promptly notify the Association of any such matter for which it is seeking indemnification after the City has knowledge of the occurrence of such matter.

In the event any such action or proceeding is brought against the City by reason of any such claim, the Association, upon notice from the City, covenants to defend such action or proceeding by counsel reasonably satisfactory to the City. Further, the Association agrees to indemnify and hold harmless the Indemnitees for any loss or damage arising from the Association's actions or inactions under this Article.

ARTICLE II. ACCESS RIGHTS

Any representative of a recognized employee organization shall give notice to the respective department head before contacting departmental employee on City facilities during the duty period of the employees, provided that solicitation for membership or other employee organization business shall be conducted during the non-duty hours of all employees concerned. Prearrangement for routine contact may be made, and when made shall continue until revoked by the department head.

ARTICLE III. BULLETIN BOARD

RPA shall have access to employee association bulletin boards. Any new materials posted must be dated and initialed by the RPA representative/officer responsible for the posting. The City shall provide reasonable bulletin board space for the use of RPA and the City located in the day room. RPA shall designate one individual who shall be the liaison with management regarding the usage of association bulletin boards.

RPA agrees that no materials shall be officially posted which are in violation of existing laws or which exceed constitutional parameters, and further agrees to remove as soon as possible any such materials which have been posted without RPA authorization.

ARTICLE IV. USE OF CITY FACILITIES

A. The City shall continue to permit use of certain facilities for RPA meetings subject to the operating needs of the employer and Section 3.17.120 of the City's Personnel Rules.

B. RPA shall have access to the internal department mail boxes for distribution of RPA employee relations and association materials for all its unit members.

C. RPA representatives/officers shall have reasonable access to City telephones for local employee relations (including Sacramento area) calls as approved by their immediate supervisors. Access to phones shall not be unreasonably denied and use of the phones shall not be disruptive to the employee's work performance.

ARTICLE V. ORIENTATION

The City shall, during orientation of new employees, provide to each new unit member a copy of the MOU and a list (provided by RPA) of RPA officers and representatives for future contact.

ARTICLE VI. REPRISALS

In accordance with Section 3.17.110 and 3.17.150 of the City's Personnel Rules, the City and RPA shall not impose or threaten to impose reprisals on employees to discriminate or threaten to discriminate against employees or otherwise interfere with, restrain, or coerce employees because of the exercise of their rights guaranteed by the Meyers-Milias-Brown Act, this Agreement, and all applicable sections of the California Government Code.

ARTICLE VII. CONCERTED ACTIVITY

A. During the term of this Agreement, neither RPA, its agents nor any Bargaining Unit employee, for any reason, will authorize, institute, aid, condone or engage in a work slowdown, work stoppage, strike, sympathy strike or any other action which precludes the City from carrying out its functions or obligations.

B. RPA agrees to notify all of its officers, stewards, and staff of the obligation and responsibility for maintaining compliance with this Section, including the responsibility to remain at work during any job action initiated by others.

ARTICLE VIII. MANAGEMENT RIGHTS

Pursuant to Section 3.17.030 of the City's Personnel Rules all rights are reserved to the City, except as abridged by this Agreement.

ARTICLE IX. NON-DISCRIMINATION

The Association hereby certifies that it has no restrictions on membership based on race, color, creed, gender, disability, national origin, political affiliation, religious beliefs, or any status protected by state or federal law.

ARTICLE X. GRIEVANCE PROCEDURE

Pursuant to Chapters 3.23 and 3.24 of the Personnel Rules and Regulations, the following provision shall govern the grievance procedure for this Agreement.

A. Grievances in General.

An employee, individually or in representation of a group of employees, may complain to the City management through the grievance procedure in this chapter regarding any matter relating to that employee's wages, hours, or conditions of employment. A grievance may be either formal or informal. An informal grievance is a prerequisite to filing a formal grievance.

B. Informal Grievance.

An employee, individually or in representation of a group of employees, with a grievance shall first discuss the matter with his or her immediate supervisor within ten (10) calendar days of the matter complained of. The supervisor and the employee shall attempt to informally resolve the dispute. If this is not accomplished, the employee shall next discuss the matter with the next level of supervision within ten (10) calendar days of the unsuccessful discussion and so on, until the employee reaches the department head. The decision of the department head regarding an informal grievance shall be final unless the employee files a formal grievance.

C. Formal Grievance.

1. An employee, individually or in representation of a group of employees, who has a grievance which remains unresolved after utilizing the informal grievance procedure may file a formal grievance in writing. The employee shall file a formal written grievance with the City Manager within ten (10) calendar days after the final decision on the informal grievance. The formal grievance shall contain all relevant information relating to the grievance which the employee wishes the City Manager to consider. The City Manager shall meet with and respond in writing to the employee within ten (10) calendar days of the receipt of the grievance.

2. The decision of the City Manager as prescribed in "1" above shall be final and binding for all grievances except as noted in "3" below.

3. A grievance that claims an employee has been unfairly treated due to an alleged improper application of (i) a departmental regulation or; (ii) any expressed terms(s) of this Agreement may be appealed to the Personnel Board as provided by Subsection D below.

D. Administrative Appeals.

1. Within five (5) working days after the decision by the City Manager regarding a formal grievance, an employee may file a written administrative appeal to the Personnel Board with the Human Resources Director. Such written administrative appeal shall, at minimum, contain the following information:

   A. The name and classification of the employee;

   B. The name, address, telephone number, and organizational affiliation, if any, of any representative of the employee;

   C. A copy of the formal grievance papers filed with the department head and the City Manager and their written responses;

   D. Any other relevant information or documents the aggrieved employee wishes to submit.

2. The Human Resources Director shall arrange for a hearing before the Personnel Board within forty-five (45) calendar days. The employee may request in writing that the date of hearing be postponed beyond forty-five (45) days; or such date may be extended at the request of the Personnel Board Chairperson.

3. The Human Resources Director shall provide at least five (5) days'written notice of the date, time, and place for hearing to the employee (and representative, if any).

ARTICLE XI. SHIFT BIDDING

Shift bidding for personnel in Communications, Records, Property and Evidence, Crime Scene Investigation, Animal Control, Jail and Community Service Officers assigned to patrol shall take place every six (6) months. Bidding shall be completed no longer than seven (7) calendar days from the date bidding commences and thirty (30) calendar days before the start of the new shift. Communications staff shall be provided a designated time frame in which he/she must bid for their shift. This time frame will be reasonable and not result in a hardship for any employee. At the request of the affected employee, a previously designated proxy may be utilized in anticipation of the affected employee's absence during shift bid procedures.

ARTICLE XII. SENIORITY

A. Seniority in the Police Department is established by continuous time served in class. When two (2) or more employees within the same class have identical service and appointment dates, the employee with the higher position on the City Employment list from which the appointments were made is deemed to be the senior.

Individuals who are demoted, whether voluntarily or involuntarily, shall have all time served in the higher rank within a class series counted for purposes of seniority (see Appendix Y).

Effective the first shift change in calendar year 2017, employees who elect to voluntarily work less than full-time shall accrue police department seniority on a prorated basis. For example, an employee who voluntarily elects to work half-time shall accrue seniority for purposes of this Section at fifty percent (50%); an employee who voluntarily elects to work three-quarters time shall accrue seniorty for purposes of this Section at seventy-five percent (75%).

B. Seniority list placement qualifies an employee for shift, team, vacation, and day's off preference.

C. Shift Bidding: Employees shall be permitted to bid for shift/days off/team on the basis of seniority.

1. Bidding shall take place every six (6) months and shall be completed within seven (7) calendar days after bidding commences, and thirty (30) calendar days before the start of the new shift.

2. When a vacancy in a shift occurs during the interim of a shift period (after bidding has occurred for the six (6) month period) the department may fill that vacancy with another employee of their choosing for the remainder of the shift period. In the event the vacancy or temporary assignment extends to the next shift bidding period, the absent employee may personally bid or may relinquish/transfer their seniority status for the purpose of shift bidding to the assigned replacement employee.

3. Once probationary employees have completed training, they are assigned to a shift on the basis of seniority. From time to time it is necessary to reassign a probationary employee to other shifts for purposes of evaluation or training. Such transfer of a probationary employee may necessitate the temporary transfer of other employees to different shifts. These transfers will be of relatively short duration, and reasonable notice will be give to all affected employees.

ARTICLE XIII. PERSONNEL FILES

The City shall maintain two (2) personnel files on each employee, an official file in the Human Resources Department and a departmental file at the department. The personnel files shall be maintained at a location identified to each employee by the City. Upon request by an employee, the employee and/or his/her authorized representative may review the personnel files during regular office hours except where denial of access is authorized by statute. No other personnel files other than that permitted by this provision may be kept on an employee. Information contained in an employee's personnel file shall be confidential and available for inspection only to authorized management personnel, the supervisor of the employee and the City's attorneys; except, however, that information in an employee's personnel file may be released pursuant to court order, subpoena, or with a release signed by the employee. The department shall notify the employee of the existence of such court order, subpoena, or a motion for court order to gain access to the personnel file prior to the release of any information. No material which relates to the employee's conduct, attitude, work performance, or service will be included in his/her personnel file without being signed and dated by the author of such material. Before such material is placed in the employee's file, the department head or designated authority shall provide the employee the opportunity to review the material and sign and date it. A copy of such material shall be provided to the employee. The employee shall have the right to insert in his/her file within thirty (30) calendar days of the employer placing an item in the file, supplementary material and a written response to any item in the file. Such response shall remain attached to the material it supplements for as long as the material remains in the file.

Retention of Materials.

Internal affairs investigations shall be kept in a separate file under complainant's name and shall be purged and destroyed after five (5) years. All personnel records dealing with disciplinary actions that affect payroll, leave balances, etc, personnel transaction forms, and voluntary-nonvoluntary deduction forms shall be maintained permanently. All other information shall be destroyed after five (5) years from the date filed. Written reprimands shall be destroyed after five (5) years if no further discipline or similar reprimands have been filed within the five (5) year period. If there are other similar documents on file, the written reprimands cannot be destroyed until five (5) years after the most recent occurrence.

Counseling memos are considered to be part of the performance evaluation process and can be included in the evaluation document at the supervisor's discretion.

ARTICLE XIV. PROCEDURAL RIGHTS

Subjection to Interrogation.

When any regular employee is under investigation and subjected to interrogation by his or her commanding officer, or any other member of the employing public safety department, which could lead to punitive action, such interrogation shall be conducted in accordance with the rights provided public safety officers in Government Code Section 3303 under the following conditions. For the purpose of this chapter, punitive action is defined as any action which may lead to dismissal, demotion, suspension or reduction in salary.

A. The interrogation shall be conducted at a reasonable hour, preferably at a time when the employee is on duty, or during the normal waking hours for the employee unless the seriousness of the investigation requires otherwise.

B. The employee under investigation shall be informed prior to such interrogation of the rank, name and command of the officer in charge of the interrogation, the interrogating officers, and all other persons to be present during the interrogation. All questions directed to the employee under interrogation shall be asked by and through no more than two (2) interrogators at one time.

C. The employee under investigation shall be informed of the nature of the investigation prior to any interrogation.

D. The interrogating session shall be for a reasonable period taking into consideration the gravity and complexity of the issue being investigated. The person under interrogation shall be allowed to attend to his or her own personal physical necessities.

E. The employee under interrogation shall not be subjected to offensive language or threatened with punitive action, except that an employee refusing to respond to questions or submit to interrogations shall be informed that failure to answer questions directly related to the investigation or interrogation may result in punitive action. No promise of reward shall be made as an inducement to answering any question. The employer shall not cause the employee under interrogation to be subjected to visits by the press or news media without his or her express consent nor shall his or her home address or photograph be given to the press or news media without his or her express consent.

F. The complete interrogation of an employee may be recorded. If a tape recording is made of the interrogation, the employee shall have access to the tape if any further proceedings are contemplated or prior to any further interrogation at a subsequent time. The employee shall be entitled to a transcribed copy of any notes made by a stenographer or to any reports or complaints made by investigators or other persons, except those which are deemed by the investigating agency to be confidential. Notes or reports which are deemed to be confidential may be entered in the employee's personnel file. The employee being interrogated shall have the right to bring his or her own recording device and record any and all aspects of the interrogation.

G. If prior to or during the interrogation of an employee it is deemed that he or she may be charged with a criminal offense, he or she shall be immediately informed of his or her constitutional rights.

H. Upon the filing of a formal written statement of charges, or whenever an interrogation focuses on matters which are likely to result in punitive action against any employee, that employee at his or her request, shall have the right to be represented by a representative of his or her choice who may be present at all times during such interrogation. The representative shall not be a person subject to the same investigation. The representative shall not be required to disclose, nor be subject to any punitive action for refusing to disclose, any information received from the employee under investigation for noncriminal matters. This section shall not apply to any interrogation of an employee in the normal course of duty, counseling instruction, or informal verbal admonishment

by, or other routine or unplanned contact with, a supervisor or any other employee nor shall this section apply to an investigation concerned solely and directly with alleged criminal activities.

Protection of Rights

No employee shall be subjected to punitive action, or denied promotion, be threatened with any such treatment, because of the lawful exercise of the rights granted under this chapter, or the exercise of any rights under any existing administrative grievance procedure. Nothing in this section shall preclude a head of any agency from ordering an employee to cooperate with other agencies involved in criminal investigations. If an employee fails to comply with such an order, the agency may officially charge him or her with insubordination.

Polygraph Examination

No employee shall be compelled to submit to a polygraph examination against his or her will. No disciplinary action or other recrimination shall be taken against an employee refusing to submit to a polygraph examination, nor shall any comment be entered anywhere in the investigator's notes or anywhere else that the employee refused to take a polygraph examination, nor shall any testimony or evidence be admissible at a subsequent hearing, trial, or proceeding, judicial or administrative, to the effect that the employee refused to take a polygraph examination.

Search of Locker

No employee shall have his/her locker, or other space for storage that may be assigned to him or her searched except in his or her presence, or with his or her consent, or unless after notification the employee fails to show within ten (10) calendar days to open the locker in which case the department may open the locker in the presence of a union official. However, any material obtained in such a manner shall not be used for other than administrative purposes.

ARTICLE XV. EMPLOYEE RELEASE TIME

A. The City recognizes and agrees to deal with designated representatives of RPA on all matters related to grievances.

B. A written list of all RPA representatives shall be furnished to the City immediately after their designation and RPA shall notify the City promptly of any change of representatives.

C. An aggrieved employee shall be allowed reasonable release time for the purpose of attending administrative or Skelly hearings or an internal affairs investigation during working hours without loss of compensation subject to prior notification and approval by his/her immediate supervisor.

D. Upon request of an employee an RPA representative shall be allowed reasonable release time for the purpose of representing the employee in all administrative or Skelly hearings or an internal affairs investigation during working hours without loss of compensation subject to prior notification and approval by his/her immediate supervisor.

E. Employee release time hours are not to be considered to be hours worked for overtime purposes.

F. Employees are entitled to representation in accordance with the provisions of this Agreement and Government Code Section 3300 et seq.

G. The City and RPA agree to continue an RPA Time Bank for use by employees for the sole purpose of performing or conducting association business subject to the following conditions:

1. RPA members must donate one (1) hour each year of vacation hours from an association member's accrued leave balance for such hours. Such donation shall be non-revocable and not returnable to the employee. Donations will be allowed only during January of each year.

2. The maximum number of hours any member shall donate is one (1) hour per year. Any remaining unused hours in the time bank on December 31st shall be carried over into the next calendar year. The maximum number of hours that can be accrued is two hundred (200).

3. Time bank hours shall not be used without prior approval of RPA representatives. All time submitted to payroll for reimbursement from the bank must have RPA and department approval. The Human Resources and Finance Departments will be responsible for processing the appropriate donation forms and any payment(s).

4. RPA members assume any tax liability for being assessed vacation or CTO hours and/or using Time Bank Hours. Hours donated to association members shall not be considered time worked for overtime, retirement or any other benefit purpose. However, any donated hours will be subject to applicable state and federal payroll taxes.

ARTICLE XVI. INTERNAL AFFAIRS INVESTIGATIONS

The City will conduct internal affairs investigations of police department personnel as expeditiously as possible. In the event that the investigation takes over sixty (60) calendar days to conclude, the department will provide a status report to the employee.

ARTICLE XVII. REMOTE EMAIL ACCESS

Employees will be allowed to enter into a remote email access agreement with the City of Roseville as described in the applicable Administrative Regulation. Employees understand that this voluntary policy is being adopted for their convenience and no compensation will be as a result of their incidental access to the City's email system.

The terms and conditions of this Memorandum of Understanding are executed this _____day of _____, by the Employer-Employee representatives whose signatures appear below on behalf of their respective organizations.

MEMORANDUM OF AGREEMENT

CHAPTER 1. ADMINISTRATION

ARTICLE I. PREAMBLE

This Memorandum of Agreement, hereafter referred to alternatively as "the Agreement," “Memorandum of Understanding,” or “MOU,” entered into by the City of Roseville, hereafter referred to as "the City" or "the employer" pursuant to Section 3500, et seq. of the Government Code of the State of California and Resolution No. 72-55 of the City of Roseville, and the Roseville Police Association, hereafter referred to as "RPA" or "the Association" has as its purpose the promotion of harmonious labor relations between the City and RPA; establishment of an equitable and peaceful procedure for the resolution of differences; and the establishment of rates of pay, hours of work, and other terms and conditions of employment.

The term "Agreement" as used herein means the written agreement provided under Section 3505.1 of the Government Code.

ARTICLE II. RECOGNITION

Pursuant to the Meyers-Milias-Brown Act the City recognizes the Roseville Police Association as the exclusive representative for all employees in the bargaining unit as provided by Chapter 3.17 of the City's Personnel Rules.

ARTICLE III. CONTINUATION OF BENEFITS

A. This Memorandum of Understanding is intended both as the final expression of the agreement between the parties with respect to the included terms and as a complete and exclusive statement of the terms of this Memorandum of Understanding. No amendment, alteration, understanding, variation, waiver or modification of any terms of provisions of this Memorandum of Understanding shall in any manner be binding upon the parties unless made and executed in writing between the parties hereto and approved and implemented by the City Council.

B. Terms and conditions of employment as specified in this Memorandum shall remain in full force and effect during the term of this Memorandum unless modified pursuant to the above paragraph.

ARTICLE IV. TERMS OF UNDERSTANDING

This Memorandum of Understanding incorporates all modifications regarding wages, hours, and other terms and conditions of employment. This Memorandum of Understanding shall be effective January 1, 2022 upon City Council ratification and shall expire December 31,2023.

ARTICLE V. SEVERABILITY OF AGREEMENT

This Memorandum of Understanding is severable. Should any provision of this Agreement be found unlawful or unenforceable by a court of competent jurisdiction, or invalidated by subsequently enacted legislation, the remainder of the Agreement shall continue in force. Upon occurrence of such an event, the parties shall meet and confer as soon as practical to renegotiate the invalidated provision(s).

CHAPTER 2. SALARIES AND OTHER COMPENSATION

ARTICLE I. SALARIES

A. General Wage Increase: Effective the first full pay period in January 2022, all employees assigned to the classification listed in Appendix "G" shall receive a base salary increase of three percent (3%).

B. Labor Market Adjustments:

Effective the first full pay period in January 2023, the same benchmark job classifications used in the 2020 Total Compensation Study will be studied in 2022. The effective date of the Total Compensation Study survey data is July 1, 2022.

The Total Compensation Study will use the agencies provided in Appendix "Z" for comparison and will be based on the same salary, benefit elements and methodology used in the 2020 Total Compensation Study for each classification, which include:

Minimum Base Salary
Maximum Base Salary
Employee's Portion of PERS Paid by the Employer (%)
Employee's Portion of PERS Paid by the Employer
Deferred Compensation
Longevity Pay (Year 10)
Maximum Education/Certification Pay
Education/Certification Pay Notes
Cafeteria Plan
Health (Most Expensive Plan)
Dental
Vision
Life Insurance
Long-Term Disability Insurance
Retiree Health Savings Account (RHSA)
Social Security/Medi-Care
Employee Contributions Towards RHSA
Employer Portion of Retirement Paid by the Employee
Employer Portion of Retirement Paid by the Employee

The Total Compensation Study will be prepared at the City's expense and the City will provide a draft of the result of the Total Compensation Study to RPA for comments and to review for accuracy no later than October 14, 2022. The RPA will provide any comments regarding the accuracy of the Total Compensation Survey no later than October 28, 2022. The City will provide a salary increase for each classification falling below the total compensation 55th percentile by an amount to match the market 55th percentile

Prior to May 1, 2022, the City will complete the classification study and appropriate benchmarks of previously agreed surveyed agencies for the, Police Property and Evidence Clerk I/II, Police Property and Evidence Supervisors, Police Records Clerk I/II, and Records Supervisor. Parties agree to meet and confer over any proposed revisions.

C. Salary Schedules A and B

a. All employees hired before February 6, 2016, will remain on the current salary schedule (A) for all listed classifications in the bargaining unit. All such employees will continue on this salary schedule when promoted or transferred to other classifications within the bargaining unit.

b. Effective February 6, 2016, the City created a second salary schedule (B) which will apply to all new hires for all listed classifications in the bargaining unit. For purposes of this provision, any employee who was initially hired before February 6, 2016 that had a break in City service and was rehired after February 6, 2016, will be deemed a newly hired employee under this provision.

D. Salary Schedule B Salary Ranges: Reduce from 15 steps to 12 steps

Effective the first full pay period in January or the first full pay period after Council approval, whichever is later, the Schedule B salary ranges will be reduced from 15 steps to 12 steps, using the same top and bottom salary steps, establishing 3 percent between salary steps, except creating a new entry salary step that is 4.7% below the new step B.

E. Reopener Provision.

The City may reopen this contract if the following occurs:

1. The City loses the ability to collect, levy or transfer to the general fund various fees and the loss of these revenue sources exceeds $1m; or

2. The Roseville voters by local ballot initiative approve the elimination or reduction of a revenue currently being levied or collected in the amount listed above.

The City and RPA shall mutually agree to the manner in which reductions in expenditures are obtained to balance the City's General Fund. Any negotiation and implementation period shall not exceed sixty (60) days.

The City will meet and confer over any impacts proposed due to a revenue loss. The City will also work closely with RPA to mitigate the impacts of these revenue losses.

In the event the City's other revenues increase or exceed the amount of any lost revenue, levy or transfer to the General Fund, the City shall not reopen the MOU.

ARTICLE II. DIFFERENTIAL/TRAINING PAY

Any employee designated in writing to provide formalized training to a new employee shall receive a five percent (5%) differential in salary for all hours worked in such capacity as identified in the below parameters. Formalized training programs must be established in order for an employee to be eligible for the training differential pay. In service training does not qualify for the training differential pay.

The following parameters apply to qualifying for the differential/training pay:

1. Communications Training Officer
   Up to Four (4) Communications Training Officers will be identified through an interview process. Minimum qualifications for this position shall include a non-probationary employee with the City of Roseville and the completion of the POST Communication Training Officer Course. Communications Training Officers will receive the differential/training pay even when they are not assigned a trainee. Communications Training Officers are subject to the following parameters:

   a. Interviews will be held annually to identify individuals qualified to perform as Communications Training Officers.

   b. Following each shift/schedule bid process, up to four Communications Training Officers will be assigned to perform in that capacity until the next shift bid process is complete. Assignment of a Communications Training Officer to a dispatch shift/schedule will be based on operational needs.

c. Communication Training Officers will assist supervisors/managers to ensure all staff are clear on policy and procedure and ensure quality standards for emergency medical dispatch.

d. Communications Training Officers will be evaluated by the Dispatch Manager each assignment for continued participation as a Communications Training Officer. If the evaluation determines the Communications Training Officer is no longer meeting the requirements of the position, the Dispatch Manager may recommend to the Chief of Police that the Communications Training Officer be removed from the role. Participation as a Communications Training Officer will be at the discretion of the Chief of Police.

2. Training Pay
Any employee, excluding those classifications that require training as part of the assignment (e.g. supervisors), designated by the department in advance to provide formalized training to a new employee or an employee who management has identified as needing formalized training, shall receive a five percent (5%) differential in salary for that time served in such capacity. Formalized training programs must be established in order for an employee to be eligible for the training differential pay. In-service training does not qualify for the training differential pay.

ARTICLE III. SPECIAL PAYS

A. Employees shall not be deemed eligible to receive such pay until they have successfully completed their one (1) year probationary period.

B. Employees in the job classes listed in Appendix W who acquire and maintain the corresponding certificates as listed will be paid two and one-half percent (2.5%) of their base salary.

Where more than one certificate is listed per job class, no stacking of payments will be made (no additional payment will be made for a second certificate by an employee).

Exception: Communications Supervisor and Dispatcher I and Dispatcher II hired on or before October 1, 2013 who currently are paid for Emergency Medical Dispatch (EMD) Certificates will also be eligible for one (1) additional certificate as listed in Appendix W. Dispatcher I and Dispatcher II employees hired between 10/1/13 to 12/1/17, who possess an EMD certificate, are eligible for one (1) additional certificate pay as listed in Appendix W. Employees hired after 12/1/2017 are not eligible for EMD certificate pay.

Employees must be using the referenced certificate as part of their primary job assignment.

C. Employees promoting into supervisory positions are eligible to retain a lower level certification pay for a maximum of two (2) years following promotion or employment into an eligible position or until eligible for the Supervisory POST certificate, whichever comes first.

D. Employees who possess certificates are responsible for submitting their certificate with the corresponding Personnel Action Form in order to be paid the two and one-half percent (2.5%) stated above.

ARTICLE IV. SERVICE TERM BONUS

In recognition of the substantial contribution to the community made by employees as a result of the length of their aggregate City service, the City shall annually award each applicable employee a service term bonus pay as indicated below.

Service Term	Service Term Bonus
Beginning of 10th year and every year thereafter	2.5% of base salary

Beginning of the 15th year and every year thereafter	An additional 2.5% of base salary

Such service term bonus pay shall be included on each eligible employee's bi-weekly payroll.

Effective February 17, 2007, for employees hired before January 1, 2016, the following certification pays will be calculated on service term bonus, previously referred to as “longevity” and reported to CalPERS as special compensation.

- Emergency Medical Dispatch Certificate

The service term bonus is to be considered as part of an employee's total compensation. However, only actual costs of the service term bonus shall be used when calculating total compensation for the purpose of comparing salaries and benefits of the City to other benchmark agencies.

Employees hired on or after January 1, 2016, who receive a satisfactory or above annual performance review shall be eligible for an annual lump sum performance bonus as follows:

Service Term	Service Term Bonus
Beginning of 10th year to completion of 14th year	2.5% of base salary.
Beginning of the 15th year and every year thereafter	5.0% of base salary.

The annual lump sum performance bonus shall be paid with the first full pay check in January each year.

ARTICLE V. COURT APPEARANCE

A. Employees who are off duty (excluding sick leave days off or Workers' Compensation leave) awaiting court appearance and such appearance is cancelled by the court, shall receive standby pay of two (2) hours pay at their overtime rate. In the event the employee is notified of the cancelled court appearance prior to the end of their last regularly scheduled shift the employee shall not be entitled to any standby pay. If an employee is scheduled to appear in court within two (2) hours of the time he/she is to report for duty and the appearance is cancelled by the court the employee will receive standby pay only up to the time he/she is to report for duty. In no way will the employee's eligibility for standby pay and actual work hours overlap. The required notification for this provision shall be one of the following:

1. Notice in person or by telephone to the employee including messages left on telephone recorders, cell phones, email, or answering devices at the employee's place of residence.

2. Voice mail delivered thirty (30) minutes prior to the end of the employee’s last regularly scheduled shift.

3. Outlook Calendar, for those employees who have been issued a Department smartphone.

B. Employees who are off duty and are required to make a court appearance shall be entitled to a minimum of four (4) hours of overtime pay for court appearances. Where the first court appearance of the day overlaps with a second court appearance, employees shall receive overtime compensation hour-for-hour beyond the conclusion of the first four (4) hours Employees who begin a regular or other work shift within four (4) hours of their required court appearance time (travel time included for court appearances outside of Roseville) will be compensated hour-for-hour for time spent in court prior to the beginning of their work shift. If during the four (4) hours an employee is required to report to a regular or other work shift, the court pay will terminate. In no way will court time pay overlap with a regular or other work shift.

C. Employees attending court shall not be compensated for the lunch recess.

D. Employees shall not be eligible for meal reimbursement during or for court appearances except in the case when a court appearance occurs on an employee's day off and the appearance is continued through the court lunch break. In this case the employee may be reimbursed for the actual cost of the meal not to exceed ten dollars ($10.00). Each reimbursement request must be accompanied by a receipt.

E. For multiple same day subpoenas an employee is entitled to receive standby pay in accordance with Section "A" of this Article when the employee has subpoenas for the morning (0800-1200 hours) and afternoon (1300-1700 hours) and when one or both are cancelled. Standby shall be paid for one or both subpoenas so long as appearance times do not overlap or unless the employee is notified prior to 1230 hours in reference to any cancellation of the afternoon subpoena. Such notification shall be either via telephone or in person.

ARTICLE VI. OVERTIME

A. Overtime work may be required of any employee in order to meet special or unusual needs of service beneficial to the City and community. Employees shall be provided seven (7) days' notice prior to being assigned mandatory overtime other than shift extension overtime. Advance notice is not required for mandatory overtime caused by sick leave requests or other protected leaves. However, no employee may be required to work overtime during any scheduled work week in which he/she is on unpaid status due to disciplinary action. Overtime is defined as the number of hours worked in excess of the normal weekly schedule of work hours as illustrated below:

	EMPLOYEE WORK SCHEDULE	**OVERTIME**
1.	Eight hours per day, five days per week (5/8 Plan)	Over eight hours per day and forty hours per week
2.	Ten hours per day, four days per week (4/10 Plan)	Over ten hours per day and forty hours per week
3.	A flex-time schedule approved by the City Manager	Over the prescribed number of hours per day

Workers' Compensation leave hours are not to be considered to be hours worked for overtime purposes.

B. Incidental overtime, defined here as less than fifteen (15) minutes nonrecurrent extension of the workday/shift, is not compensable in any form.

C. Overtime shall be compensable in increments of thirty (30) minutes.

D. Overtime shall be compensable at the rate of one and one-half (1 ½) times the employee's base hourly rate.

E. Shift Extension. If an employee is called to work early or is worked beyond his/her normal work shift, compensation for overtime shall be calculated in accordance with Subsection C of this section.

F. Shift Change. When a police unit employee is required to work more than four (4) consecutive shifts as a result of a shift change, the employee will be eligible for overtime pay beginning with the fifth and succeeding consecutive shifts worked, for employees on 4/10 schedule. Employees on 5/8 schedule who are required to work more than five (5) consecutive shifts as a result of a shift change, will be eligible for overtime pay beginning with the sixth and succeeding consecutive shifts worked provided the shift change for either a 4/10 or 5/8 schedule results in the employee

being off work between shifts for less than twenty-four (24) hours. Shift changes which exceed twenty-four (24) hours and shift changes for purposes of training, shall not be eligible under this provision.

G. Compensatory Time. Compensatory time shall be governed as follows:

1. Regular and probationary employees may, with the prior approval of their supervisor, accrue compensation time in lieu of overtime pay. The accrual rate for compensatory time shall be one and one-half (1 ½) hours for each hour of overtime time worked.

2. Once an employee has been credited with compensatory time, the employee shall either take the CTO or shall be paid for all hours accrued. Employees requesting payment for accrued CTO hours shall be paid by the next full pay period from the date requested.

3. Upon separation the employee will be paid at the employee's current hourly rate or average of last three (3) years whichever is higher for the remaining compensatory balance.

4. Maximum accumulation of compensatory time shall be reduced as follows:
   a. Effective January 1, 2022, the maximum accumulation of CTO shall be one hundred (100) hours.
   b. Employees with CTO balances above the maximum cap on January 1, 2022, shall be allowed to maintain said balances but shall not be allowed to accrue additional CTO hours until their balance drops below the cap.

5. The parties further agree that usage of accrued compensatory time shall be governed as follows:

   The City and Department agree that an employee's CTO request will generally be granted, unless granting the CTO would provide undue disruption to operation of the Department as determined by the Chief of Police or designee, including if it would result in below recommended minimum staffing levels on any shift. If the CTO request is for less than forty (40) hours and the employee provides at least fourteen (14) days' notice for the request, the Department agrees to grant CTO leave on the specific date requested even where backfilling on overtime is required unless granting the CTO would provide an undue disruption to operation of the Department as specified herein. If the CTO request is for more than forty (40) hours and the employee provides at least twenty-eight (28) days' notice for the request, the Department agrees to grant CTO leave on the specific date requested even where backfilling on overtime is required unless granting the CTO would provide an undue disruption to operation of the Department as specified herein.

   a. Each shift shall be treated and considered separately.

   b. Granting the CTO shift, as set forth in subparagraph 5, shall apply to requests issued after shift bidding. Requests for CTO leave prior to shift bidding shall be granted at the discretion of the Chief of Police or his/her designee.

   c. The employee requesting the use of compensatory time off shall generally be notified as to whether the request has been granted by the end of his/her shift, or within a reasonable amount time thereafter. If an employee requests to use CTO on multiple shifts where other circumstances delay the Department's ability to grant or deny the request immediately, the Department shall notify the employee of whether the request is granted within a reasonable amount of time.

      If within one year of employee's request, the time off has not been granted, the City shall cash-out the amount of CTO requested.

d. Supervisors may grant CTO requests at their discretion where granting the leave may require the Department to backfill for overtime. Generally, such requests will be granted where the employee is able to demonstrate a special need for the CTO leave usage, and the use of other available leave types is not practical.

e. CTO requests from Communications staff for time off shall be submitted no less than 7 days before date of request.

H. Employees assigned to shift work in the police department whose regular work schedule requires work on a holiday shall be compensated at their straight time hourly base rate of pay for performance of work on holidays. Compensation for holidays worked for such employees shall be as set forth in this Agreement.

I. Employees who are entitled to take holidays off work as holidays occur, and who are required to work on a holiday when they would otherwise observe the holiday off, shall be compensated by either of the following methods, the choice of which shall be made by the employee's supervisor in advance of such work:

1. If an employee works the holiday and does not receive any other scheduled work day off in lieu of working the holiday, the employee shall be compensated at the rate of regular pay plus time and-one half the employee's base hourly rate (for the actual number of hours worked on the holiday).

2. If an employee works the holiday and receives another scheduled work day off in lieu of working the holiday, the employee shall be compensated at the rate of time and one-half the employee's base hourly rate for the actual number of hours worked on the holiday. Under this option, the employee must be given another scheduled work day off within the period of five (5) working days after the worked holiday with corresponding notations upon appropriate payroll reports.

ARTICLE VII. STANDBY

The City agrees to the following standby provision concerning represented employees.

A. Standby assignments will be made on a weekly basis. Employees assigned to a weekly standby (Saturday through Friday) will be compensated at a rate of eleven (11) hours straight time pay per week.

B. Employees who are scheduled for intermittent standby (assignments of less than one (1) week) shall receive $1.50 per hour for all hours while assigned.

C. Such payment shall be in addition to the overtime payments, which may be payable for call backs, pursuant to City Personnel Rules and Regulations. An employee on standby may be authorized to take a City vehicle home, provided the employee lives within the area bounded by heavy black lines on the attached map (Appendix "X").

D. Standby assignments require the employee so assigned:
1. To be ready to respond immediately to calls from the City and to be called into work,
2. To be reachable by telephone,
3. Employees will be expected to respond to call backs as soon as possible but within one (1) hour of notification, and to refrain from activities which might impair their ability to perform any assigned duties.

E. The department shall make standby assignments voluntary whenever practical.

F. The City reserves the right to schedule standby as needed.

ARTICLE VIII. CALL BACK

Pursuant to Sections 3.12.040 of the City's Personnel Rules call back shall be governed as follows:

All regular and probationary employees are entitled to a minimum call back pay of two (2) hours at the appropriate overtime rate when said employee is required to return to work after leaving the work site at the end of their scheduled work shift or required to return to work on their scheduled day off. This provision does not apply when (i) employees are required to work beyond their normal work day/shift without having been called to return to work or (ii) when an employee is called in to work prior to the start of their work shift and the employee continues to work into their normal shift without having been released to go home.

ARTICLE VIX. WORK OUT OF CLASS

Pursuant to Roseville Municipal Code, Section 3.07.080, no employee shall be required to perform duties which are not closely related both in kind of work and in level of responsibility to duties formerly assigned to positions in the class, except on a short-term, temporary or emergency basis. However, if a supervisor assigns an employee to work out of class for four (4) hours or more, or one-half (½) shift or more, the employee shall be paid the salary appropriate to that class for the entire day or the entire shift. If an employee is required to work out of class for a substantial period of time, request should be made by the department head either for reallocation of the existing position or for temporary appointment to a position in a more appropriate class. No request for reallocation or temporary appointment shall be considered, however, in situations where work assignment is less than one calendar month's duration.

Compensation shall be five percent (5%) more than the employee's current salary rate in the lower class.

For employees assigned to management classifications the compensation shall be ten percent (10%) more than the employee's current salary rate in the lower class. In the event that the top step in the higher range is less than ten percent (10%), the employee will be compensated at the top step of the higher class.

Temporary Acting Pay

An employee temporarily assigned in writing to an acting position in a classification with a higher salary range shall be compensated for the furation of the acting assignment by the payment of ten perdcent (10%) of the regular salary the employee received prior to the acting assign,ment, or the salary provided for in Step A of the higher classification, whichever is greater, but not to exceed top step of the higher classifcaiton. The higher classified positon must be temporarily vacant due to a long-term absence of the incumbent or pending the filling of a vacant position. The temporary acting pay assignment shall be for a minimum of two full-time pay periods and limited to one year. Authorizaiton for a temporary acting assignment must be given by the employee's supervisor and requires advance approval of the Department Head, Human Resources Director and City Manager.

ARTICLE X. BILINGUAL PAY

Employees who are certified by the Human Resources Department as bi-lingual speaking shall be paid one hundred dollars ($100) per month ($46.15 bi-weekly).

ARTICLE XI. SWING AND GRAVEYARD SHIFT DIFFERENTIAL

A. Swing shift differential for purposes of this section is defined as a shift of ten(10) hours or more where fifty percent (50%) of the shift falls between the hours of 4 pm and 10 pm except as otherwise stated in section C below.

B. Any employee who works an assigned regular time shift as described in "A" above, shall be paid an additional two and one-half percent (2.5%) of their base hourly rate for each hour actually worked. No shift differential will be paid on sick leave, vacation, CTO or any other time off.

C. Hours worked on overtime, whether the employee is held over, called in to cover a shift or partial shift, or volunteers for an overtime shift, will be judged independently, but on the same standard. If at least half of the overtime hours are between 4 p.m. and 10 p.m., all overtime hours worked will qualify for the two and one-half percent (2.5%) shift differential and will be paid at two and one-half percent (2.5%) of the base hourly rate and not the overtime rate.

D. Graveyard shift differential for purposes of this section is defined as a shift of ten (10) hours or more where fifty percent (50%) of the shift falls between the hours of 10 p.m. and 6 a.m. except as otherwise stated in section E below.

E. Any employee who works an assigned regular time shift as described in "D" above, shall be paid an additional five (5%) of his/her base hourly rate for each hour actually worked. No shift differential will be paid on sick leave, vacation, CTO or any other time off.

F. Hours worked on overtime, whether the employee is held over, called in to cover a shift or partial shift, or volunteers for an overtime shift, will be judged independently, but on the same standard. If at least half of the overtime hours are between 10 p.m. and 6 a.m., all overtime hours worked will qualify for the five percent (5%) shift differential and will be paid at five percent (5%) of the base hourly rate and not the overtime rate.

ARTICLE XII. PAYROLL ERRORS

A. In the event an error has been made in the payment of an employee's compensation (which may include, but is not limited to salary, overtime, payment or leave accruals), balances or usages, City shall, for purposes of future compensation adjust such compensation to the correct amount, giving written notice to employee.

B. In the event an employee received an overpayment or underpayment of wages, the employee may select one of the following methods:

1. Lump sum payment by employee or employer;
2. One-time deduction from usable vacation, compensatory time off (CTO), or holiday leave balances equivalent to the overpayment at the employee's current hourly rate;
3. A repayment schedule through payroll adjustment; and/or
4. Other means, as may be mutually agreed to between the parties.

C. Action to enforce repayment of an overpayment, or to correct an underpayment, shall be limited to a period beginning on the first day of the City pay period two (2) years prior to the date that either City or the employee gives written notice to the other that a payment error has occurred.

ARTICLE XIII. MERIT STEP INCREASE WHEN HIRED AT SALARY STEP A

This section supercedes Personnel Rule 3.11.030 C (1) only where salary Step A is paid upon initial employment, the employee shall become eligible for advancement to Step B upon their anniversary date, based on demonstrated satisfactory job progress and normal increased productivity. No salary step advancement shall be granted unless recommended by the department head and approved by the City Manager.

CHAPTER 3. LEAVES

ARTICLE I. HOLIDAYS

A. Employees who are allowed to take holidays off shall receive holidays as provided below

1. The following holidays shall be observed by the City with respect to all employees, except shift employees in the police department. For purposes of this section shift employees (otherwise known as "shift workers") are those employees who are not allowed to take holidays off as they fall.

    a. January 1st (New Year's Day)
    b. The third Monday in January (Martin Luther King's Birthday)
    c. The third Monday in February (Washington's Birthday)
    d. The last Monday in May (Memorial Day)
    e. July 4th (Independence Day)
    f. The first Monday in September (Labor Day)
    g. November 11th (Veteran's Day)
    h. The day in November appointed by the President of the United States as Thanksgiving Day
    i. The day immediately following Thanksgiving Day
    j. December 25th (Christmas)
    k. Sixteen (16) hours floating holiday to be taken any time during the fiscal year by employees who have completed at least six (6) months probationary service (pro-rated for part-time regular employees). The number of floating holiday hours to be credited to a new employee hired after July 1st shall be pro-rated based on the number of full months employed during that year. Employees unable to complete six (6) months of probationary service prior to June 30th shall not accrue or be eligible for any floating holidays that year. The employees and the employees' supervisors shall jointly determine a convenient date.

2. If January 1st, July 4th, November 11th, or December 25th falls on a Saturday, the preceding Friday shall be a holiday; if any such day falls on a Sunday, then the following Monday shall be a holiday. If a holiday occurs on the employee's first normal day off, the employee shall take the preceding day as the holiday; however, if the holiday occurs on the employee's second consecutive normal day off, the employee shall take the following day as the holiday. This policy shall be adhered to where practical and may be modified only by written consent to other conditions by the department head.

B. Employees who are not allowed to take holidays off as they fall (shift workers) shall receive one hundred and ten (110) holiday hours to be credited in advance on January 1st of each year. Employees may submit a request at any time after January 1st for a one-time lump sum of up to forty (40) hours' holiday pay prior to taking time off at straight salary. The balance of holiday hours must be requested by the employee. Payoff for unused holiday hours at the end of the calendar year will be granted only to employees who have previously submitted and been denied remaining holiday time off (excluding denials requested on holidays) otherwise employees shall lose the balance of holiday hours remaining at the end of the calendar year (December 31st).

1. All holiday time off is subject to advance approval of the first level management supervisor and department head. Employees must request holiday time off at least seven (7) workdays prior to the requested holiday.

2. Upon separation from service, if an employee has taken more holidays in advance than have been earned during the calendar year, the City shall deduct an equivalent amount of pay for the holidays taken in advance from the employee's final paycheck, or such amount shall otherwise be owed to the City by the employee.

Upon separation from service, if an employee has an accrued holiday leave balance, said employee shall be paid for all earned hours at their final rate of pay.

C. The determination of whether an employee is categorized as able to take holidays or scheduled to work holidays for the purpose of holidays shall be based upon the employee's assignment as of January 1st of each year.

ARTICLE II. MILITARY

A. Classified employees obligated to serve involuntary periods of active military duty shall be compensated for normal work hours and days or shifts during such absence from work, up to a maximum of thirty (30) calendar days in any calendar year.

B. Employees exercising this provision of military leave are required to submit properly documented evidence of their call to active duty within ten (10) calendar days prior to such military duty. Such documentation must be submitted through the department head to the Human Resources Director.

ARTICLE III. JURY DUTY

A. Employees who have been summoned or subsequently selected to serve on a jury shall receive their regular rate of compensation by the City for normal work hours and days or shifts during such absence from work, provided the employee endorses to the City that compensation received by the employee for jury duty service. No compensation will be made for jury duty served on days off. Jury duty is not considered time worked for overtime purposes.

B. An employee who is empaneled on jury duty and normally works a night shift will be changed to the day shift for those days required to be on jury duty. If the jury is empaneled for less than eight (8) hours, the employee must report to work for the balance of the shift.

C. Employees will be allowed to retain any mileage compensation granted to them by the respective court jurisdiction to which they were summoned or selected for jury duty.

D. Employees summoned to jury duty must provide evidence of such summons and subsequent jury duty days away from work through their respective department heads to the Human Resources Director.

ARTICLE IV. VACATION

Vacation provisions shall be governed pursuant to Roseville Municipal Code Section 3.12.060. It is understood that this section may not be amended without first meeting and conferring in accordance with Government Code 3500 et seq. Each employee may request and receive payment at the regular hourly rate for up to eighty (80) hours per year of accrued vacation leave, provided there is a minimum remaining balance of one hundred (100) hours following payment. All buy backs will be subject to an eighty (80) hour maximum within a twelve (12) month period. Any tax liability created by this form of compensation shall be the sole responsibility of each employee.

The purpose of vacation leave is to provide eligible employees the opportunity to take paid time off from their job responsibilities in order to maintain a high standard of mental, emotional and physical conditioning.

A. Eligibility. All full-time and part-time employees in the classified service and unclassified service as defined in Section 3.01.050.B.1 shall be entitled to annual vacation leave with pay. Each employee will earn and accrue vacation hours pursuant to the accrual schedule as noted in subsection B. Exceptions to this provision shall only be granted in unusual circumstances

substantiated by the Department Head in a recommendation to the City manager who may approve or disapprove such variance.

B. Accrual**.** Unless specified in applicable labor agreements, each full-time eligible employee identified in subsection A shall earn and accrue vacation leave, subject to the conditions stated in this section, with pay as follows:

Service Category	Biweekly Accrual	Days/Year Equivalent	Max. Hours Accrual
New employee to completion/4th year	3.693/hr	12 days (96 hours)	192
Start of 5th year to completion/9th year	4.307/hr	14 days (112 hours)	240
Start of 10th year to completion/14th year	4.923/hr	16 days (128 hours)	272
Start of 15th year to completion/19th year	5.538/hr	18 days (144 hours)	304
Start of 20th year and succeeding years	6.153/hr	20 days (160 hours)	336

1. Employees working a part-time schedule will accrue vacation hours on a prorated basis, in proportion to the full-time equivalent (FTE).

2. As noted in subsection A of this section, new employees shall earn vacation at the biweekly rate shown above, commencing on the date of hire. Eligible employees shall advance to the next higher rate of accrual upon completion of the maximum number of years at the lower accrual rate, and shall begin to accrue at the higher rate at the start of their qualifying year.

3. Except as provided in Section B, an employee's maximum accrual of vacation hours may not exceed the employee's annual accrual rate as specified above and an employee will stop earning and accruing vacation hours while the employee's accrual remains at the maximum allowed in Section B. This maximum level is monitored at the employee's hire anniversary date. If accrued hours exceed such amount as of the hire anniversary date, vacation accrual will be suspended until the balance is brought below the maximum accrual amount.

4. If the accrued amount exceeds specified limits, the employee shall take leave for the excess number of vacation hours or, if the department head determines that operational necessity will not permit taking such leave, the employee may be paid the straight time hourly equivalent for not more than twenty (20) hours. Additionally, the maximum vacation hours an employee may accrue will be extended when an employee is on disability leave, jury duty, or military leave as provided in these rules. The employee shall be allowed to liquidate such excess accrual within thirty (30) calendar days following return to duty, by means of taking such leave time or receiving straight time hourly equivalent compensation for not more than twenty (20) hours of vacation.

C. Use. An employee may elect to take all or part of earned vacation, or may carry over to the next service year all or part of earned vacation as approved by the department head and consistent with the provisions of subsection B of this section. However, the dates and amount of vacation selected by the employee shall be subject to approval of the employee's supervisor. Vacation leave shall generally be taken in minimum increments of one full workday/work shift, except that unusual, emergency, necessary and infrequent use of vacation leave may be granted in one hour increments. Employees must request vacation leave at least seven (7) workdays prior to the

desired start of vacation leave. Under unusual or personal emergency circumstances, employees may request and supervisors may consider the approval of vacation leave with fewer than seven (7) working days' notice. In the event it becomes necessary to call an employee back to work from a scheduled vacation, the employee shall be credited with the unused vacation hours and shall have the opportunity to take such remaining vacation leave at a time of the employee's choosing and the supervisor's approval.

D. Holidays Within Vacation Leave. Except for shift personnel, holidays which occur during a scheduled vacation period shall be counted as a holiday. Employees may request in advance that they extend their vacation leave by the number of holidays occurring within their scheduled leave, or they may request fewer vacation hours which, together with the holiday(s), will comprise the total time period of their scheduled leave.

ARTICLE V. PERSONAL LEAVE TIME

Each full-time employee in the RPA unit who has completed his/her initial probationary period with the City shall be provided a bank of forty-five (45) hours of PLT on the first pay period of each calendar year. Part-time employees shall receive a pro-rated bank.

Use of PLT time shall be subject to the following:

A. PLT may be used by employees for time off on an hour for hour basis until the employee has exhausted the bank.
Use of PLT shall be subject to the operating needs of the City. The City may deny an employee time off on PLT if such release time will adversely impact the operating or staffing needs of a City department. Employees must request PLT time off at least seven (7) workdays prior to the desired start of the requested time off.

B. PLT shall have cash value and may be cashed out by the employee on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay. Employees may cash out unused PLT in any regular pay period pursuant to procedures established by the City Human Resources Department.

C. Any PLT time remaining in an employee's PLT bank on the last pay period of the calendar year shall not roll over into the next calendar year. Such PLT time shall be cashed out by the City on an hour-for-hour basis at the employee's regular straight-time hourly rate of pay.

D. Employees who terminate employment with the City or leave the bargaining unit shall be cashed out at the rate of .86538 hours per week up to the balance of the employees PLT bank. If an employee terminates and has taken more PLT in advance than .86538 hours per week, the City shall deduct an equivalent amount of pay for the PLT. Any time cashed out will be paid on an hour-for hour basis at the employee's regular straight-time hourly rate of pay. Part-time employees will receive a pro-rated cash out of their bank.

E. Any employee hired after the 1st of the year shall be granted a prorated amount at .86538 hours per week for the remainder of the calendar year, after the completion of their probation. For example, if an employee is hired on July 1, the employee shall be granted 22.5 hours of PLT.

ARTICLE VI. MODIFIED DUTY

MODIFIED/ALTERNATE DUTY PROGRAM

PURPOSE

To enable employees who have an injury, illness, or accident, as outlined by a health care provider/treating physician ("health care provider"), that renders them temporarily unable to perform one or more of the essential functions/job duties listed in their Job Specification to work in a Modified/Alternate Duty Assignment.

This program is not available to those who have received permanent restrictions from a health care provider and should not be construed as recognition that an employee has a disability as defined by the Americans with Disabilities Act (ADA) or 1990 or the ADA Amendments Act (ADAAA) of 2009.

POLICY

It is the policy of the City of Roseville to work with an employee who has been injured on or off the job and/or who may have an illness or condition that temporarily limits them from performing one or more of the essential functions/job duties listed in their Job Specification.

PROCEDURE

When an employee has an injury, illness or accident that renders them temporarily unable to perform one or more the essential functions/job duties associated with their regular job, they are eligible to participate in a Modified/Alternate Duty Assignment.

1. If the injury/illness is non-work related, the employee may return to a Modified/Alternate Duty Assignment should one be available that meets the restrictions imposed by the employee's health care provider.

2. If the injury/illness is work related, the employee is required to return to a Modified/Alternate Duty Assignment should one be available that meets the restrictions imposed by the employee's health care provider.

When an employee's health care provider imposes restrictions, the Human Resources Department will determine if the restrictions preclude the employee from performing one or more of the essential functions/job duties listed in their Job Specification and if it is necessary to place the employee in a Modified/Alternate Duty Assignment. The Human Resources representative will work with the health care provider and the department to clarify restrictions if necessary.

<u>Supervisory Notification</u>

The employee's work restrictions will be identified in a Work Status Report or on the City of Roseville Certificate for Return to Work or Further Treatment (Attachment A) provided by the health care provider.

1. If the employee's department is able to accommodate the restrictions, the employee's supervisor will notify Human Resources and a Modified/Alternate Duty Form (Attachment B) will be completed by Human Resources. The form shall include a description of the assignment being offered and the restrictions of the employee. The form must be signed by both the supervisor and employee and returned to Human Resources for final approval before the employee is returned to work. If the employee has already returned to work, and if the employee does not sign the agreement he/she will be removed from work.

2. If the employee's department is unable to accommodate a Modified/Alternate Duty Assignment, the department will notify Human Resources immediately. Human Resources will contact other departments for possible Modified/Alternate Duty Assignments based upon the employee's restrictions. If an assignment is found within another department, Human Resources will coordinate the placement of the employee.

When a Modified/Alternate Duty Assignment is unavailable in any department, the employee will be placed on temporary disability/sick leave/unpaid leave depending on the nature of injury/illness and availability of leaves.

Employees who are off work are required to contact their supervisor and Human Resources ***by the start of the next business day*** following a change in their work restrictions or medical condition as determined by his/her health care provider. Additionally, each time the employee attends a follow-up visit, a new work status report shall be obtained by the employee and a copy ***must*** be provided to the Human Resources Department even if restrictions have not changed. Failure to provide Human Resources and/or their

supervisor with current work status reports may result in the employee being taken off work and required to utilize available personal leaves, if available.

It is the responsibility of the employee and the employee's supervisor to ensure the employee is complying with, and working within, the work restrictions imposed by the health care provider.

Workers' Compensation Injuries Only:

If an employee completes a Modified/Alternate Duty Assignment, and no additional Modified/Alternate duty work is available, the employee will be placed off work while receiving all benefits afforded them through the Workers' Compensation system.

An employee on Workers' Compensation may choose to refuse the Modified/Alternate Duty Assignment if the assignment is expected to last one week or less. However an employee who refuses a Modified/Alternate Duty Assignment is subject to having their workers' compensation temporary disability benefits terminated and will be required to use personal leave, excluding sick leave, for lost time.

Duration

Modified/Alternate Duty Assignments will typically not exceed two hundred and seventy (270) calendar days per injury/illness. Upon completion of the assignment, the employee shall be removed from work until released to full duty or deemed to have permanent restrictions. The employee may use any benefits available to them at that time. In no case will a Modified/Alternate Duty Assignment continue once an employee has received permanent restrictions from a treating physician.

Timekeeping

When an employee is assigned a Modified/Alternate Duty Assignment, the employee shall be compensated for hours worked at their regular rate of base salary and benefits (24-hour shift employees exception noted below) regardless of whether or not the employee performs work within the regular classified position or is assigned to the employee's regularly assigned department. If an employee is assigned to a Modified/Alternate Duty Assignment of less than full time, compensation for hours worked may be supplemented by either temporary disability, accrued sick leave, or other available leave depending on the nature of the injury/illness. Modified/Alternate Duty Assignments will be noted as such within the payroll timekeeping system to ensure accurate reporting of time worked.

24-Hour Shift Conversion

For changes in the middle of a pay period from one schedule to another schedule (e.g. 24-hour shift personnel to an 8-hour/5-day shift), actual hours worked will be referenced in the notes section of the payroll timekeeping system. When a Modified/Alternate Duty Assignment continues to subsequent pay periods, the employee's schedule will be changed in the payroll timekeeping system to reflect the actual schedule worked. In this case, the employee's holiday bank will be maintained but sick and vacation leave will be converted to reflect the assigned schedule accruals. The conversion rate for vacation and sick leave banks will be 1.5 unless noted in the following table.

24 Hour Fire Department Vacation Conversion Rates:

New to 4 years	1.499
5 – 9 years	1.598
10 – 14 years	1.588
15 – 19 years	1.591
20+ years	1.511

The employee's banks will be converted back utilizing the same conversion factors when the employee is released to full duty.

RESPONSIBILITY

It is the employee's responsibility to ensure his/her supervisor and Human Resources have the most recent physician statement on file and to notify their supervisor if they feel the work they are doing exceeds the restrictions set forth by their health care provider.
Should an employee be placed in another area, division, or department, it is the employee's and Human Resources' responsibility to convey the restrictions to the supervisor in charge of the Modified/Alternate Duty Assignment.

It is the current supervisor's responsibility to ensure employee restrictions are adhered to during the Modified/Alternate Duty placement. Coordination between the Modified/Alternate Duty supervisor and the employee's regular supervisor is encouraged.

It is the department's responsibility to ensure Modified/Alternate Duty Assignments are flexible enough to allow placement while adhering to the restrictions placed by the health care provider.
Any medical information received should be limited to a listing of work restrictions/functional limitations and duration of such. This information should **only** be shared with those that need to know as a means of protecting privacy. Should you have questions, please do not hesitate to contact Human Resources for clarification.

Human Resources is responsible for ensuring the employee in a Modified/Alternate Duty Assignment is aware of the importance of communicating any changes placed upon them by their health care provider to their supervisor and the Human Resources Department as soon as possible. Human Resources will monitor the various assignments to ensure compliance with City policy.

It is imperative that departments advise the Human Resources Department of any Modified/Alternate Duty Assignments, regardless of duration and/or whether they are work-related or non-industrial.

ARTICLE VII. SICK LEAVE

A. Refer to Section 3.12.070, Personnel Rules, section A-I.

B. Payment for Unused Sick Leave Upon Retirement

Effective February 16, 2019, payment for unused sick leave is authorized by the city as a means of rewarding employees who have made conscientious efforts to maximize their attendance on the job.

1. Non-probationary employees shall be entitled to a minimum payment as follows: (1) for sick leave accrued (not pro rata) up to their date of retirement. However, employees whose separation is caused by dismissal shall not be entitled to payment for unused sick leave.
2. No more than the maximum sick leave amount listed in the tables below may be used in ascertaining the amount of time for which the employee will be compensated at time of retirement. Payment will be determined as follows:

Non-24-Hour Shift Number of Sick Leave Hours Accumulated		**24-Hour Shift Number of Sick Leave Hours Accumulated**		**Percent of Compensation Given**
	Max		**Max**	
956 to	1200	1434 to	1800	60%
764 to	955.99	1146 to	1433.99	50%
572 to	763.99	858 to	1145.99	40%
380 to	571.99	570 to	857.99	30%
188 to	379.99	282 to	569.99	20%
0 to	187.99	0 to	281.99	0%

3. In the event of a job-related death, the beneficiary of the employee, as shown on the records of the Public Employees' Retirement System, shall be paid for those sick leave and vacation days for which the employee would have been paid had employment terminated on the date of death.
4. Any sick leave balances remaining after payment shall be converted to PERS service credit.

ARTICLE VIII. CATASTROPHIC LEAVE

Pursuant to City Personnel Rules Section 3.12.065, pertaining to Catastrophic Leave.

The parties have interest in making revisions to the catastrophic leave program/policy and will meet and confer over forthcoming City proposed revisions.

ARTICLE IX. DISABILITY LEAVE

Employees may be granted paid disability leave, based on the following circumstances, terms and conditions. The purpose of providing these programs of paid disability leave is to ensure that employees have reasonable and equitable provisions concerning their job and economic security.

A. Work related temporary disability. If a regular employee, other than those entitled to benefits under Section 4850 et seq. of the California Labor Code, is temporarily disabled by injury or illness arising out of and in the course of performing assigned job duties, the employee shall become entitled to a leave of absence while so disabled without loss of salary, less workers' compensation disability payments, for up to seventy-five (75) calendar days, commencing upon the first calendar day after the injured employee leaves work as a result of the injury. Correctional Officers and Correctional Supervisor shall be entitled to up to one hundred (100) calendar days.

B. Following the initial seventy-five (75) days of temporary disability (100 days for correctional staff), an eligible employee may supplement their temporary disability payments with available leave balances (i.e., vacation, sick leave, until such balances are exhausted (up to twelve (12) months).

C. During the time of work related disability, an eligible employee will continue to accrue the normal leave, i.e., vacation, sick leave, until such time as their leave balances have been exhausted (up to twelve (12) months).

D. During the period of time of work related disability, the City will continue to contribute its share to the employee's health and dental plan until such time as all leave balances are exhausted (up to twelve (12) months).

E. Employees who are found to abuse or fraudulently use the privilege and benefits of the temporary disability program as prescribed above shall be subject to disciplinary action, including termination from City service. The employee exercising these temporary disability provisions shall be required to provide the department head and Human Resources Director with a copy of the attending physician's report, which shall contain a description of the nature and anticipate duration of the disability, and the employee shall keep the department head and Human Resources Director apprised of the medical condition at intervals prescribed by the Human Resources Director.

F. Employees subject to the provisions of Section 4850 et seq. of the California Labor Code shall not have any portion of their work related disability leave charged against accrued sick leave.

CHAPTER 4. RETIREMENT/INSURANCE

ARTICLE I. RETIREMENT

A. Retirement System. Unit members are provided retirement benefits under the California Public Employee Retirement System (CalPERS) as described in this Article.

B. Tier One: 2.7% at 55 Retirement Program – Bargaining Unit Members Hired On or Before December 31, 2012 and Unit Members Qualified for Reciprocity (Classic Member).

This Section B, including subsections, shall apply to bargaining unit members hired on or before December 31, 2012. In addition, this Section B shall apply to bargaining unit members hired on or after January 1, 2013, who are qualified for pension reciprocity as stated in Government Code Section 7522.02(c) and related CalPERS reciprocity requirements (Classic Member):

1. 2.7% at 55 Pension Formula
The "2.7% @ 55" retirement program will be available to bargaining unit members covered by this Section.

2. Final Compensation Based On 12-Month Period
For the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by this Section B shall mean the highest twelve (12) consecutive month period as specified in Government Code Section 20042.

3. Required Contributions
Bargaining unit members covered by this Section B shall continue to pay, through payroll deduction, 8.0% of compensation earnable contribution to CalPERS.

C. Tier Two: PEPRA Retirement Tier Required For Bargaining Unit Members Hired On or After January 1, 2013 and Not Qualified For Reciprocity

This Section C, including subsections, shall apply to bargaining unit members who were hired on or after January 1, 2013, and who do not qualify for pension reciprocity as stated in Government Code Section 7522.02(c).

1. 2% at 62 Pension Formula
The "2% @ 62" retirement program will be available to bargaining unit members covered by this Section C.

2. Final Compensation Based On 36-Months
Effective January 1, 2013, for the purposes of determining a retirement benefit, final compensation for bargaining unit members covered by this Section C shall mean the highest annual average pensionable compensation earned during thirty-six (36) consecutive months of service.

3. Required Bargaining Unit Member Contributions
As required by Government Code Section 7522.04(g), effective January 1, 2013, bargaining unit members covered by this Section C shall pay, through payroll deduction, fifty percent (50%) of normal costs as determined by CalPERS.

D. Other Options Included In CalPERS Contract
Unit members continue to be eligible for the following options included in the City's contract with CalPERS:

- Government Code Section 20965 (Unused Sick Leave Credit – Local Member.)
- Government Code Section 21573 (1959 Survivor Benefit Level 3).
- Government Code Section 21548 (Pre-Retirement Option 2W Death Benefit).
- Government Code Section 21329 (2% Annual Cost-of-Living Allowance Increase).

E. Employee contributions shall be made in accordance with Section 414.h(2) of the IRS code wherein the payment to CalPERS is made pre-tax.

F. As permitted by law and CalPERS regulations, City of Roseville employees who separate from city service and subsequently return to service with the City of Roseville, shall return to the retirement tier from which they were previously enrolled while employed with the City of Roseville.

ARTICLE II. DEFERRED COMPENSATION

The City agrees to maintain a program of deferred compensation for covered employees. It is understood that the City is solely responsible for selection of the Deferred Compensation plan and plan administrator(s).

The City agrees to contribute three percent (3%) of the base wages of employees who have completed five (5) continuous years of regular employment with the City of Roseville.

ARTICLE III. HEALTH AND WELFARE CONTRIBUTION

A. Eligibility
Any regular employee working fifty percent (50%) or more of a full-time schedule shall be eligible to enroll in any health and welfare benefit provided by this Article and currently authorized by the RPA bargaining unit. Regular part-time employees who are hired into a position funded as regular part-time after January 1, 2004, or current employees who laterally transfer or promote into a regular part-time allocated position, will receive a pro-rated amount toward their health and welfare contribution based on actual hours worked. The contribution amount will be based on the percentage of full-time the employee works. For example, employees working twenty (20) hours per week will receive fifty percent (50%) of the full-time contribution; employees working thirty (30) hours per week will receive seventy-five percent (75%) of the full-time contribution, etc.

B. Medical Insurance Benefits
The City contracts with the California Public Employees' Retirement System (CalPERS) for the purpose of providing employees and their eligible dependents with medical insurance benefits. The City's maximum monthly contribution for each eligible active employee shall be equal to the minimum employer contribution required under the Public Employees Medical and Hospital Care Act (PEMHCA).

C. Cafeteria Plan

1. The City agrees to maintain a Cafeteria Plan, pursuant to Section 125 of the Internal Revenue Code or any related regulations, for the purpose of providing employees with access to various health and welfare benefits. Benefits available through the Cafeteria Plan include medical insurance, dental insurance, and vision insurance.

2. The City agrees to provide a Cafeteria Plan Allowance to all employees eligible to participate in City sponsored health and welfare benefits under Section A of this Article of up to $1347 per month (less the direct PEMHCA payment provided in paragraph B).

3. Effective January 1, 2022, the City provides a flex plan credit based on medical plan tier election (EE only, EE+1, Family) to be used by active employees for any benefit covered under the Cafeteria Plan as follows:

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$273/month	$598/month

4. Effective January 1, 2023, the City agrees to provide a flex plan credit based on medical plan tier election (EE only, EE+1 or Family) to be used by active employees for any benefit covered under the Cafeteria Plan, as follows:

Active Employee Medical Election Tier	Employee Only (EE Only)	Employee Plus One Dependent (EE+1)	Employee Plus Family (Family)
Flex Plan Credit	$200/month	$318/month	$673/month

5. Employees who elect not to participate in any of the medical, dental, and vision insurancebenefits sponsored by the City and who provide proof of other medical coverage will not receive any Cafeteria Plan Allowance under Section C(2) or Flex Plan Credit under Section C(3) of this Article. Instead, employees who opt out of these City sponsored benefits will receive $150 per month reported as taxable income.

6. Any Cafeteria Plan Allowance provided for under Section C(2) of this Article can only be used by an employee to offset the cost of participation in City sponsored medical, dental, and vision, insurance benefits for the employee and any eligible dependents.

   The City reserves the right to select the provider or self-administer this program and to set limits for medical reimbursement accounts.

D. The City provides a dental benefit to include two (2) preventative cleanings per year. Other details of the City's dental benefit are described in the evidence of coverage document. The City reserves the right to select any dental carrier. Open enrollment will be as described in the evidence of coverage document.

E. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

ARTICLE IV. RETIREE HEALTH BENEFITS

A. Medical Insurance Benefits
The City agrees to contract with the California Public Employees' Retirement System (CalPERS) for the purpose of providing retirees and their eligible dependents with medical insurance benefits. The City's maximum monthly medical contribution for each eligible retiree shall be equal to the minimum employer contribution required for active employees under the Public Employees Medical and Hospital Care Act (PEMHCA).

The parties agreement to move from the CalPERS equal contribution method to the PEMHCA minimum employer contribution method does not modify retiree health benefits for employees in Tiers I and II pursuant to Article IV B and C below.

B. For Employees Hired Prior to January 1, 2004 (Tier 1)
Employees hired prior to January 1, 2004 that qualify for post-retirement health benefits shall qualify for such benefits based on rules in effect prior to January 1, 2004, .e.g. an employee that retires from the City of Roseville and is eligible for CalPERS service retirement shall receive a City contribution towards their post-retirement medical insurance benefit at the same level as full-time regular employees covered by this Agreement.

C. For Employees Hired on or after January 1, 2004 and Prior to October 1, 2013 (Tier 2)
For employees hired on or after January 1, 2004 and prior to October 1, 2013, to be eligible to receive post-retirement health benefits, an employee must complete at least five (5) years of CalPERS-credited service with the City of Roseville. Employees who retire from the City of Roseville after meeting the service requirement stated above and who have at least ten (10)

years of CalPERS-credited service will receive a City contribution towards their post-retirement health benefits as follows:

Total Credited Years of Service	% of City Contribution
10	50 %
11	55
12	60
13	65
14	70
15	75
16	80
17	85
18	90
19	95
20 +	100

Employees who have CalPERS-credited service through other public agencies must complete at least five (5) years of service with the City of Roseville and retire from the City of Roseville to be eligible for postretirement health benefits. However, once an employee has completed five (5) years of service with the City of Roseville, their eligibility for post-retirement health benefits will include all years of CalPERS-credited service.

The vesting requirements for post-retirement health benefits will become effective January 1, 2004. Employees hired on or after January 1, 2004 shall be subject to the above post-retirement vesting schedule for health benefits.

D. For Employees Hired on or After October 1, 2013 (Tier 3)

1. Employees hired on or after October 1, 2013 shall have no vested right in any post-employment medical benefits provided by the City of Roseville. Instead, upon hire, those employees shall contribute one percent (1%) of their base salary each pay period to a City sponsored Retirement Health Savings (RHS) account and shall contribute an additional one percent (1%) per pay period per year annually, up to a maximum of five percent (5%) per pay period annually thereafter, to be used to fund the employee's medical costs upon retirement from the City.

2. After five (5) years of continuous service with the City of Roseville, and beginning on the first pay period of the sixth year of service, the City shall contribute a flat dollar amount equal to $100 per month to be deposited to the employee's RHS account up until the employee's retirement date or separation from the City. After accruing ten (10) cumulative years of service with the City and pursuant to the vesting schedule in Section C of this Article, employees may draw from the City contribution to this account upon retirement.

3. Employees who terminate City service for reasons other than retirement prior to twenty (20) years of cumulative service with the City will forfeit any City contributions.

4. Employees must retire from the City of Roseville and be enrolled in the City of Roseville's health plan in order to utilize City contributions to the employee's RHS account. After ten (10) years of cumulative service with the City of Roseville, City contributions to the employee's RHS account may be used for all covered medical expenses pursuant to Section 213 of the Internal Revenue Service (IRS) Code.

Upon written request from RPA, the City agrees to meet to discuss proposed revisions to the medical insurance provision of the MOU. This discussion may begin after January 1, 2014 and conclude no later than December 31, 2014, unless mutually agreed to by the parties.

ARTICLE V. EMPLOYEE ASSISTANCE PROGRAM

A. The City agrees to provide an Employee Assistance Program (EAP) for employees pursuant to the current EAP Plan document. The plan will include no less than six (6) visits per calendar year. The plan document is available through the City's Human Resources Office.

B. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. The City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

ARTICLE VI. LIFE INSURANCE

A. The City provides eligible employees with a fully paid life insurance program in the amount of twice the annual salary in effect as of July 1 of each year. The City reserves the right to select the insurance provider.

B. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. The City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

ARTICLE VII. LONG TERM DISABILITY (LTD) INSURANCE

A. The City provides a Long Term Disability Program with a waiting period of sixty (60) calendar days; whereupon an eligible employee shall be entitled to receive sixty percent (60%) of their gross monthly salary until age sixty-seven (67) in accordance with the LTD Plan.

B. After disability benefits have been payble for twenty-four (24) months, an employee is deemed disabled if the injury or sickness makes him/her unable to perform all the material duties of any occupation for which he/she may reasonably become qualified based on education, training or experience.

C. Other details of the City's LTD plan are described in the plan booklet. The City reserves the right to select any LTD carrier.

D. From time to time, the City will change benefit providers due to administrative, service, economic or other reasons. Due to carrier policies and procedures and Department of Insurance requirements, there can be no guarantee that one policy will exactly mirror the preceding one. The City desires to provide a consistent benefit, and insofar as is possible, benefits and language will be matched.

CHAPTER 5. SAFETY

ARTICLE I. SAFETY

The City of Roseville agrees that the safety of its employees is of utmost concern and accordingly agrees to make every effort to provide to the extent possible, a safe and hazard free work environment.

ARTICLE II. SAFETY EQUIPMENT

A. The City will furnish the appropriate safety equipment as follows:

Animal Control Officer, Animal Control Supervisor

Quantity	Item
1 each	Uniform badge
1	Flashlight
1	Pepper spray (OC) and holder
1	Duty belt
1	Collapsible baton and holder
1	Key ring holder
3	Keepers
1	Soft body armor (If requested)
1	Rain gear
1	Protective case for gloves
1	Reflective safety vest
1	Taser

Police Scene Technician I/II, Property Supervisor

Quantity	Item
1 each	Uniform badge
1	Flashlight
1	Duty belt
1	Key ring holder
3	Keepers
1	Rain gear
1	Protective case for gloves

Community Services Officer I/II

Quantity	Item
1each	Uniform badge
1	Flashlight
1	Pepper spray (OC) and holder
1	Duty belt
1	Key ring holder
3	Keepers
1	Soft body armor (If requested)
1	Rain gear
1	Protective case for gloves
1	Reflective safety vest

B. All safety equipment described above shall be replaced on an as needed basis as approved by the department head or designated authority. New issues will be nylon. City agrees to replace existing leather as needed.

C. All safety equipment described above shall remain the property of the City and shall be returned to the Police Chief upon request or upon the employee's termination of employment.

D. Applicable employees shall continue to be required to adhere to safety equipment specifications, appearance, and maintenance standards established by the Police Department.

E. Personnel on patrol issued soft body armor shall be required to wear such when on duty except as otherwise authorized by the supervisor.

CHAPTER 6. WORK HOURS

ARTICLE I. GENERAL WORK HOURS

Except as noted below hours of work provisions shall be governed pursuant to Roseville Municipal Code Section 3.12.010.

A. Personnel assigned to Investigations Unit, Patrol and Traffic Unit, Records Unit, Jail Unit, and Communications shall be allowed to work a four (4) day workweek of ten (10) hours per day.

Persons assigned to modified duty shall be assigned their normal schedule (i.e. 4/10). However, assignment of days off and or shifts shall be at the discretion of the department.

B. Rest Period. Except as noted below, probationary and regular employees when required to actually work (does not include standby time, etc.) more than fourteen (14) hours in a twenty-four (24) hour period shall not be required to return to work without at least an eight (8) hour rest period starting from the time released from work. Rest periods as defined are not compensable.

1. Shift Change.

a. Back to Back Shifts: When an employee is required to work two (2) consecutive shifts as a result of a shift change, the employee shall be given at least eight (8) hours as a rest period to be taken at the midway point of the second shift.
b. Return Shifts: No employee shall be required to work two (2) shifts during a shift change without being given at least eight (8) hour as a rest period to be taken between shifts.
c. Change of Shift Hours: Any employee involved in a mandatory change of shift which involves a change in shift starting time of ten (10) or more hours will be given a minimum of at least four (4) days notice.

These provisions may be waived in emergency situations as determined by the Police Chief or his/her designated authority.

2. Day's Off Changes.

Except in uncommon situations where it is in the best interest of the City, as determined by the Police Chief or his/her designated authority, employees will be given a minimum of at least seven (7) day's notice prior to a change in days off.

C. Lunch Periods: At the discretion of the Police Chief, represented personnel receive thirty-five (35) minute paid lunches.

CHAPTER 7. TRAVEL/MEAL EXPENSES

ARTICLE I. OUT OF AREA TRAVEL

When any employee is required to travel beyond a thirty (30) mile radius of the Police Department as the result of a business related function, the following compensation shall be provided:

A. Compensable hours under this provision shall be actual travel time to and from and all hours worked during such assignment. Compensation for such hours shall be governed by the overtime provision of this Agreement.

B. Employees performing such function may be provided the option of use of a City vehicle. Where an employee's personal vehicle is used, the employee shall be reimbursed mileage in accordance with this Agreement.

C. Employees shall be reimbursed other travel related expenses in accordance with this Agreement.

ARTICLE II. BUSINESS AND TRAVEL EXPENSE

The City shall reimburse employees for travel expenses in accordance with current City policy except as noted below:

For all reimbursement requests an employee is required to supply receipts verifying expenses. Where receipts are lost or unavailable, the employee is required to supply a statement indicating the amount spent and reasons for the missing receipt(s).

ARTICLE III. MEALS

A. All regular and probationary employees required to work at least two (2) hours beyond or prior to their normal work shift shall be eligible for meals as provided below:

1. Employees required to work between two (2) to four (4) extra hours shall be entitled to one (1) meal break.

2. Employees required to work at least eight (8) extra hours shall be entitled to two (2) meal breaks.

3. Employees required to work at least twelve (12) extra hours shall be entitled to three (3) meal breaks.

4. In no event shall an employee be entitled to more than three (3) meals breaks in a given twenty-four (24) hour period.

B. Arrangements for meals shall be as follows:

1. City may provide a meal by bringing food to the work site.

2. City may allow the employee to go to a restaurant ofthe employee’s own choice for a period of thirty-five (35) minutes during which time the employee shall be on paid time, and the City shall pay the employee $12.00 for a meal. Effective March 16, 2019, the City shall pay the employee $15.00 for a meal.

3. If circumstances do not permit the employee to obtain a meal under "B2" above, the City shall pay the employee $12.00 to obtain a meal after the overtime work is completed. Effective

March 16, 2019, the City shall pay the employee $15.00 for a meal after the overtime work is completed.

4. The meal allowance will be recorded each eligible day in timekeeping to be paid with normal payroll periods.

CHAPTER 8. GENERAL ISSUES

ARTICLE I. LEAVE REDUCTION

Pursuant to Section 3.16.030 of the City's Personnel Rules:

A. Disciplinary suspensions may be administered by reducing an employees's vacation, compensatory time and/or holiday time by up to forty (40) hours. Reductions of time in excess of forty (40) hours must be with the approval of the employee. If the employee refuses reductions beyond forty (40) hours, the department head may choose another form of discipline to supplement the leave reduction. In no instance shall the chosen discipline combined with the leave reduction exceed the discipline proposed.

B. An employee who has forfeited previously scheduled time off may substitute other forms of accumulated time off to enable him/her to take the previously scheduled time off.

ARTICLE II. UNIFORM ALLOWANCE

A. The following classifications shall be provided the listed uniforms. The City will report to CalPERS for Classic members the monetary value of the City's cost of providing, replacing and maintaining employee uniforms, as special compensation. For Classic employees, in the first year of employment, the reported special compensation earned, in an amount not to exceed $600, except for Community Services Officer and Animal Control Officer $1,250. All other uniform replacement and maintenance costs reported as special compensation earned may not exceed $500 annually. This excludes the monetary value for personal health and safety equipment. Replacement and maintenance will be provided in lieu of a uniform allowance. Provided uniforms must be worn in accordance with department policy.

1. Dispatcher I / II, Communications Supervisor, Public Safety Volunteer Coordinator
   a. Shirts (3 – Brand, style and color of shirt must be authorized by the Chief, and the Roseville Police logo must appear on the shirt)
   b. Class A uniform trousers (1) and long sleeve shirt (1)
   c. Class A tie
   d. Appropriate patches

2. Community Services Officer I / II, Animal Control Officer, Animal Control Supervisor
   a. Uniform trousers & shirts (3 pants, 3 long sleeve, 3 short sleeve)
   b. Windbreaker
   c. Cold Weather jacket
   d. Class A uniform trousers (1) and long sleeve shirt (1)
   e. Class A tie
   f. Appropriate patches

3. Police Records Clerk I / II, Police Records Supervisor, Crime Analyst
   a. Shirts (3 – Brand, style and color of shirt must be authorized by the Chief, and the Roseville Police logo must appear on the shirt)
   b. Pants or skirts (3 total of any combination- Brand, style and color must be authorized by the Chief)
   c. Class A uniform trousers (1) and long sleeve shirt (1)
   d. Class A tie
   e. Appropriate patches

4. Police Property and Evidence Clerk I / II, Police Property and Evidence Supervisor, Police Scene Technician, Public Safety Outreach and Community Relations Analyst,
   a. Polo shirts (3 long sleeve & 3 short sleeve – Brand, style and color must be authorized by the Chief of Police & Police Logo must appear on the polo)

b. BDU/ Cargo pants (3 – Brand, style and color must be authorized by the Chief of Police)
c. Uniform trousers (1) uniform shirt (1) Optional in lieu of one polo/pant pair
d. Class A uniform trousers (1) and long sleeve uniform shirt (1)
e. Class A tie
f. Appropriate patches

ARTICLE III. DISCIPLINE

The following may be causes for the City to initiate disciplinary action including demotion, reduction in pay, suspension, or dismissal of any employee, pursuant to these rules and regulation. The causes cited below are for both specific and exemplary reasons to alert employees to the more commonplace types of disciplinary issues. There are some serious acts of misconduct that by their nature are not appropriate for progressive discipline. Behavior of this type should be disciplined by suspension, or, if warranted, discharge on the first occasion. The rules governing discipline shall prevail as if the unlisted issue or infraction were listed as follows:

A. Attendance.

1. Improper or unauthorized use or abuse of sick leave;
2. Excessive absenteeism regardless of reason;
3. Being absent without authorized leave, repeated tardiness to assigned work station, or leaving assigned work without authorization.

B. Behavior.

1. Willful or negligent violation of the personnel rules and regulations, resolutions, and other related ordinances including departmental rules, regulations, and policies;
2. Insubordination (failure to carry out a direct order from a supervisor);
3. Acceptance of gifts or gratuities in connection with or relating to the employee's duties, except as provided in Section 3.16.0203.15.030;
4. Conduct that is unbecoming a City officer or employee which tends to discredit the City or City service, including the wearing of City-identified uniforms off duty into a public or private establishment; the nature of which may adversely reflect upon the City; willful misrepresentation of the City;
5. Conviction of a crime, the nature of which reflects a possibility of serious consequences related to the continued assignment or employment of the employee;
6. Falsifying information related to employment application, payroll, or any work related record or report;
7. Soliciting outside work for personal gain during the conduct of City business, engaging in outside employment for any business under contract by the City, participating in any outside employment that adversely affects the employee's City work performance, and engaging in unauthorized outside employment;
8. Discourteous treatment of the public or City employees;
9. Conduct interfering with the reasonable management and discipline of the City or any of its departments or divisions;
10. Engaging in political activities while on duty;
11. Violation or neglect of safety rules;
12. Theft;
13. Physical altercations;
14. Any act or conduct that is discriminatory in nature towards another person's race, creed, color, national origin, sex (including sexual harassment), age, religious beliefs, or political affiliations, disability, or any status protected by state or federal law.
15. Dishonesty.

C. Work Performance.

1. Inefficiency, incompetence, or negligence in the performance of duties, including failure to perform assigned tasks of training or failure to discharge duties in a prompt, competent, and reasonable manner;
2. Refusal or inability to improve job performance in accordance with written or verbal direction after reasonable trial period;
3. Refusal to accept reasonable and proper assignment from an authorized supervisor;
4. Intoxication, or incapacity on duty due to the use of, alcohol or drugs; or illegal possession of drugs or open container of alcoholic beverage while on duty;
5. Driving under the influence of alcohol or drugs while on duty; suspension of driver's license where job duties require driving; possession for use or sale of an illegal controlled substance.
6. Careless, negligent, or improper use of City property, equipment or funds, including unauthorized removal, or use for private purpose, or use involving damage or unreasonable risk of damage to property;
7. Unauthorized release of confidential information or official records;
8. Participation in an unlawful strike, sympathy strike work stoppage, slowdown, or other job action against the City.

ARTICLE IV. EDUCATIONAL REIMBURSEMENT

Employees may be reimbursed for the tuition and fees connected with approved job related educational courses recognized by the U.S. Secretary of Education up to the California State University full-time tuition rate per year. The cost of books is not covered in this Agreement. The employee will submit the request for reimbursement to the Police Chief, who will accept or reject the request. The request must be made before the class has been completed. The request will then be forwarded with the Police Chief's recommendation to the Human Resources Department, who will make the final decision to accept or reject the request. No payment will be made until the final proof of passing grade is submitted to Human Resources. The City has established an educational reimbursement fund of $8,000 to be administered each fiscal year by the Human Resources Department. Once the fund balance is depleted, no further reimbursements will be approved.

CHAPTER 9. ASSOCIATION/CITY ISSUES

ARTICLE I. MEMBERSHIP DUES AND AUTHORIZED DEDUCTIONS

A. The Association shall be entitled to have membership dues and other lawful deductions of its members deducted from their paychecks in accordance with the procedures required by law and set forth herein To the extent required by Government Code Sections 1157.3 and 1157.12, the City shall honor employees' voluntary authorizations for Association dues deductions from employee paychecks. Such authorized deductions shall be remitted monthly to Association along with an adequate itemized record of deductions. The City shall make every reasonable effort to remit the amounts deducted within ten (10) working days following the payday on which the deductions were made.

B. In making such authorized membership dues deductions, the City shall rely on written certification from the Association confirming that the Association has and will maintain authorizations signed by each individual employee from whose paychecks the deduction is to be made that the individual affirmatively consents to the dues deduction in a manner that meets the requirements of state and federal law, including but not limited to applicable provisions of Government Code Sections 1150-1157.12 and the First Amendment of the United States Constitution. After providing the required certification, the Association shall not be required to provide a copy of individual authorizations to the City unless a dispute arises about the existence or terms of the authorization. To the extent required by law, the City will rely on information provided by the Association in writing regarding whether dues deductions were properly cancelled or changed. Any requests from the Association that the City change dues deductions shall include a certification that the changes are requested with the affirmative consent of the individual employee(s) and otherwise comply with all requirements of state and federal law.

C. The amount of membership dues shall be set by the Association. All changes in dues deductions shall become effective the first of the month following written notification to the City Finance Director.

D. The City agrees to direct all employees to the Association with regard to any questions or concerns related to membership dues or any other mutually agreed payroll deduction. The City agrees to send requests to cancel or change dues deductions to the Association.

E. The City agrees to provide to Association on a monthly basis a payroll dues deduction report.

F. The employee's earnings must be regularly sufficient, after other legal and required deductions are made, to cover the amount of the dues check-off authorized. When an employee, in good standing in the Association, is in a non-pay status, for the full pay period when his/her dues would normally be withheld, no dues deduction will be made to cover that withholding from the current or future earnings; nor will the employee deposit the amount with the City which would have been withheld if the employee had been in a pay status during that period. In the case of an employee who is in a non-pay status during only a part of the pay period and the salary is not sufficient to cover the full withholding, no deduction shall be made. In this connection, all other legal and required deductions have priority over Association dues.

G. The Association shall indemnify, defend, protect and hold harmless the City and its elected and appointed officials, officers, employees, officers and agents (collectively hereafter the "Indemnitees") from and against any and all claims, liabilities, losses, damages, fines, penalties, claims, demands, suits, actions, causes of action, judgments, costs and expenses (including, but not limited to, reasonable attorneys' fees and court costs) arising from the application of any provisions under this Article, including, but not limited to, any claims made by any member employees for the membership dues deductions the City made in reliance on the Association's certification, and any claims made by any member employees for any deduction cancellation or modification the City made in reliance on the information provided by the Association, provided

that the City promptly notify the Association of any such matter for which it is seeking indemnification after the City has knowledge of the occurrence of such matter.

In the event any such action or proceeding is brought against the City by reason of any such claim, the Association, upon notice from the City, covenants to defend such action or proceeding by counsel reasonably satisfactory to the City. Further, the Association agrees to indemnify and hold harmless the Indemnitees for any loss or damage arising from the Association's actions or inactions under this Article.

ARTICLE II. ACCESS RIGHTS

Any representative of a recognized employee organization shall give notice to the respective department head before contacting departmental employee on City facilities during the duty period of the employees, provided that solicitation for membership or other employee organization business shall be conducted during the non-duty hours of all employees concerned. Prearrangement for routine contact may be made, and when made shall continue until revoked by the department head.

ARTICLE III. BULLETIN BOARD

RPA shall have access to employee association bulletin boards. Any new materials posted must be dated and initialed by the RPA representative/officer responsible for the posting. The City shall provide reasonable bulletin board space for the use of RPA and the City located in the day room. RPA shall designate one individual who shall be the liaison with management regarding the usage of association bulletin boards.

RPA agrees that no materials shall be officially posted which are in violation of existing laws or which exceed constitutional parameters, and further agrees to remove as soon as possible any such materials which have been posted without RPA authorization.

ARTICLE IV. USE OF CITY FACILITIES

A. The City shall continue to permit use of certain facilities for RPA meetings subject to the operating needs of the employer and Section 3.17.120 of the City's Personnel Rules.

B. RPA shall have access to the internal department mail boxes for distribution of RPA employee relations and association materials for all its unit members.

C. RPA representatives/officers shall have reasonable access to City telephones for local employee relations (including Sacramento area) calls as approved by their immediate supervisors. Access to phones shall not be unreasonably denied and use of the phones shall not be disruptive to the employee's work performance.

ARTICLE V. ORIENTATION

The City shall, during orientation of new employees, provide to each new unit member a copy of the MOU and a list (provided by RPA) of RPA officers and representatives for future contact.

ARTICLE VI. REPRISALS

In accordance with Section 3.17.110 and 3.17.150 of the City's Personnel Rules, the City and RPA shall not impose or threaten to impose reprisals on employees to discriminate or threaten to discriminate against employees or otherwise interfere with, restrain, or coerce employees because of the exercise of their rights guaranteed by the Meyers-Milias-Brown Act, this Agreement, and all applicable sections of the California Government Code.

ARTICLE VII. CONCERTED ACTIVITY

A. During the term of this Agreement, neither RPA, its agents nor any Bargaining Unit employee, for any reason, will authorize, institute, aid, condone or engage in a work slowdown, work stoppage, strike, sympathy strike or any other action which precludes the City from carrying out its functions or obligations.

B. RPA agrees to notify all of its officers, stewards, and staff of the obligation and responsibility for maintaining compliance with this Section, including the responsibility to remain at work during any job action initiated by others.

ARTICLE VIII. MANAGEMENT RIGHTS

Pursuant to Section 3.17.030 of the City's Personnel Rules all rights are reserved to the City, except as abridged by this Agreement.

ARTICLE IX. NON-DISCRIMINATION

The Association hereby certifies that it has no restrictions on membership based on race, color, creed, gender, disability, national origin, political affiliation, religious beliefs, or any status protected by state or federal law.

ARTICLE X. GRIEVANCE PROCEDURE

Pursuant to Chapters 3.23 and 3.24 of the Personnel Rules and Regulations, the following provision shall govern the grievance procedure for this Agreement.

A. Grievances in General.

An employee, individually or in representation of a group of employees, may complain to the City management through the grievance procedure in this chapter regarding any matter relating to that employee's wages, hours, or conditions of employment. A grievance may be either formal or informal. An informal grievance is a prerequisite to filing a formal grievance.

B. Informal Grievance.

An employee, individually or in representation of a group of employees, with a grievance shall first discuss the matter with his or her immediate supervisor within ten (10) calendar days of the matter complained of. The supervisor and the employee shall attempt to informally resolve the dispute. If this is not accomplished, the employee shall next discuss the matter with the next level of supervision within ten (10) calendar days of the unsuccessful discussion and so on, until the employee reaches the department head. The decision of the department head regarding an informal grievance shall be final unless the employee files a formal grievance.

C. Formal Grievance.

1. An employee, individually or in representation of a group of employees, who has a grievance which remains unresolved after utilizing the informal grievance procedure may file a formal grievance in writing. The employee shall file a formal written grievance with the City Manager within ten (10) calendar days after the final decision on the informal grievance. The formal grievance shall contain all relevant information relating to the grievance which the employee wishes the City Manager to consider. The City Manager shall meet with and respond in writing to the employee within ten (10) calendar days of the receipt of the grievance.

2. The decision of the City Manager as prescribed in "1" above shall be final and binding for all grievances except as noted in "3" below.

3. A grievance that claims an employee has been unfairly treated due to an alleged improper application of (i) a departmental regulation or; (ii) any expressed terms(s) of this Agreement may be appealed to the Personnel Board as provided by Subsection D below.

D. Administrative Appeals.

1. Within five (5) working days after the decision by the City Manager regarding a formal grievance, an employee may file a written administrative appeal to the Personnel Board with the Human Resources Director. Such written administrative appeal shall, at minimum, contain the following information:

   A. The name and classification of the employee;

   B. The name, address, telephone number, and organizational affiliation, if any, of any representative of the employee;

   C. A copy of the formal grievance papers filed with the department head and the City Manager and their written responses;

   D. Any other relevant information or documents the aggrieved employee wishes to submit.

2. The Human Resources Director shall arrange for a hearing before the Personnel Board within forty-five (45) calendar days. The employee may request in writing that the date of hearing be postponed beyond forty-five (45) days; or such date may be extended at the request of the Personnel Board Chairperson.

3. The Human Resources Director shall provide at least five (5) days'written notice of the date, time, and place for hearing to the employee (and representative, if any).

ARTICLE XI. SHIFT BIDDING

Shift bidding for personnel in Communications, Records, Property and Evidence, Crime Scene Investigation, Animal Control, Jail and Community Service Officers assigned to patrol shall take place every six (6) months. Bidding shall be completed no longer than seven (7) calendar days from the date bidding commences and thirty (30) calendar days before the start of the new shift. Communications staff shall be provided a designated time frame in which he/she must bid for their shift. This time frame will be reasonable and not result in a hardship for any employee. At the request of the affected employee, a previously designated proxy may be utilized in anticipation of the affected employee's absence during shift bid procedures.

ARTICLE XII. SENIORITY

A. Seniority in the Police Department is established by continuous time served in class. When two (2) or more employees within the same class have identical service and appointment dates, the employee with the higher position on the City Employment list from which the appointments were made is deemed to be the senior.

Individuals who are demoted, whether voluntarily or involuntarily, shall have all time served in the higher rank within a class series counted for purposes of seniority (see Appendix Y).

Effective the first shift change in calendar year 2017, employees who elect to voluntarily work less than full-time shall accrue police department seniority on a prorated basis. For example, an employee who voluntarily elects to work half-time shall accrue seniority for purposes of this Section at fifty percent (50%); an employee who voluntarily elects to work three-quarters time shall accrue seniorty for purposes of this Section at seventy-five percent (75%).

B. Seniority list placement qualifies an employee for shift, team, vacation, and day's off preference.

C. Shift Bidding: Employees shall be permitted to bid for shift/days off/team on the basis of seniority.

1. Bidding shall take place every six (6) months and shall be completed within seven (7) calendar days after bidding commences, and thirty (30) calendar days before the start of the new shift.

2. When a vacancy in a shift occurs during the interim of a shift period (after bidding has occurred for the six (6) month period) the department may fill that vacancy with another employee of their choosing for the remainder of the shift period. In the event the vacancy or temporary assignment extends to the next shift bidding period, the absent employee may personally bid or may relinquish/transfer their seniority status for the purpose of shift bidding to the assigned replacement employee.

3. Once probationary employees have completed training, they are assigned to a shift on the basis of seniority. From time to time it is necessary to reassign a probationary employee to other shifts for purposes of evaluation or training. Such transfer of a probationary employee may necessitate the temporary transfer of other employees to different shifts. These transfers will be of relatively short duration, and reasonable notice will be give to all affected employees.

ARTICLE XIII. PERSONNEL FILES

The City shall maintain two (2) personnel files on each employee, an official file in the Human Resources Department and a departmental file at the department. The personnel files shall be maintained at a location identified to each employee by the City. Upon request by an employee, the employee and/or his/her authorized representative may review the personnel files during regular office hours except where denial of access is authorized by statute. No other personnel files other than that permitted by this provision may be kept on an employee. Information contained in an employee's personnel file shall be confidential and available for inspection only to authorized management personnel, the supervisor of the employee and the City's attorneys; except, however, that information in an employee's personnel file may be released pursuant to court order, subpoena, or with a release signed by the employee. The department shall notify the employee of the existence of such court order, subpoena, or a motion for court order to gain access to the personnel file prior to the release of any information. No material which relates to the employee's conduct, attitude, work performance, or service will be included in his/her personnel file without being signed and dated by the author of such material. Before such material is placed in the employee's file, the department head or designated authority shall provide the employee the opportunity to review the material and sign and date it. A copy of such material shall be provided to the employee. The employee shall have the right to insert in his/her file within thirty (30) calendar days of the employer placing an item in the file, supplementary material and a written response to any item in the file. Such response shall remain attached to the material it supplements for as long as the material remains in the file.

Retention of Materials.

Internal affairs investigations shall be kept in a separate file under complainant's name and shall be purged and destroyed after five (5) years. All personnel records dealing with disciplinary actions that affect payroll, leave balances, etc, personnel transaction forms, and voluntary-nonvoluntary deduction forms shall be maintained permanently. All other information shall be destroyed after five (5) years from the date filed. Written reprimands shall be destroyed after five (5) years if no further discipline or similar reprimands have been filed within the five (5) year period. If there are other similar documents on file, the written reprimands cannot be destroyed until five (5) years after the most recent occurrence.

Counseling memos are considered to be part of the performance evaluation process and can be included in the evaluation document at the supervisor's discretion.

ARTICLE XIV. PROCEDURAL RIGHTS

Subjection to Interrogation.

When any regular employee is under investigation and subjected to interrogation by his or her commanding officer, or any other member of the employing public safety department, which could lead to punitive action, such interrogation shall be conducted in accordance with the rights provided public safety officers in Government Code Section 3303 under the following conditions. For the purpose of this chapter, punitive action is defined as any action which may lead to dismissal, demotion, suspension or reduction in salary.

A. The interrogation shall be conducted at a reasonable hour, preferably at a time when the employee is on duty, or during the normal waking hours for the employee unless the seriousness of the investigation requires otherwise.

B. The employee under investigation shall be informed prior to such interrogation of the rank, name and command of the officer in charge of the interrogation, the interrogating officers, and all other persons to be present during the interrogation. All questions directed to the employee under interrogation shall be asked by and through no more than two (2) interrogators at one time.

C. The employee under investigation shall be informed of the nature of the investigation prior to any interrogation.

D. The interrogating session shall be for a reasonable period taking into consideration the gravity and complexity of the issue being investigated. The person under interrogation shall be allowed to attend to his or her own personal physical necessities.

E. The employee under interrogation shall not be subjected to offensive language or threatened with punitive action, except that an employee refusing to respond to questions or submit to interrogations shall be informed that failure to answer questions directly related to the investigation or interrogation may result in punitive action. No promise of reward shall be made as an inducement to answering any question. The employer shall not cause the employee under interrogation to be subjected to visits by the press or news media without his or her express consent nor shall his or her home address or photograph be given to the press or news media without his or her express consent.

F. The complete interrogation of an employee may be recorded. If a tape recording is made of the interrogation, the employee shall have access to the tape if any further proceedings are contemplated or prior to any further interrogation at a subsequent time. The employee shall be entitled to a transcribed copy of any notes made by a stenographer or to any reports or complaints made by investigators or other persons, except those which are deemed by the investigating agency to be confidential. Notes or reports which are deemed to be confidential may be entered in the employee's personnel file. The employee being interrogated shall have the right to bring his or her own recording device and record any and all aspects of the interrogation.

G. If prior to or during the interrogation of an employee it is deemed that he or she may be charged with a criminal offense, he or she shall be immediately informed of his or her constitutional rights.

H. Upon the filing of a formal written statement of charges, or whenever an interrogation focuses on matters which are likely to result in punitive action against any employee, that employee at his or her request, shall have the right to be represented by a representative of his or her choice who may be present at all times during such interrogation. The representative shall not be a person subject to the same investigation. The representative shall not be required to disclose, nor be subject to any punitive action for refusing to disclose, any information received from the employee under investigation for noncriminal matters. This section shall not apply to any interrogation of an employee in the normal course of duty, counseling instruction, or informal verbal admonishment by, or other routine or unplanned contact with, a supervisor or any other employee nor shall this section apply to an investigation concerned solely and directly with alleged criminal activities.

Protection of Rights

No employee shall be subjected to punitive action, or denied promotion, be threatened with any such treatment, because of the lawful exercise of the rights granted under this chapter, or the exercise of any rights under any existing administrative grievance procedure. Nothing in this section shall preclude a head of any agency from ordering an employee to cooperate with other agencies involved in criminal investigations. If an employee fails to comply with such an order, the agency may officially charge him or her with insubordination.

Polygraph Examination

No employee shall be compelled to submit to a polygraph examination against his or her will. No disciplinary action or other recrimination shall be taken against an employee refusing to submit to a polygraph examination, nor shall any comment be entered anywhere in the investigator's notes or anywhere else that the employee refused to take a polygraph examination, nor shall any testimony or evidence be admissible at a subsequent hearing, trial, or proceeding, judicial or administrative, to the effect that the employee refused to take a polygraph examination.

Search of Locker

No employee shall have his/her locker, or other space for storage that may be assigned to him or her searched except in his or her presence, or with his or her consent, or unless after notification the employee fails to show within ten (10) calendar days to open the locker in which case the department may open the locker in the presence of a union official. However, any material obtained in such a manner shall not be used for other than administrative purposes.

ARTICLE XV. EMPLOYEE RELEASE TIME

A. The City recognizes and agrees to deal with designated representatives of RPA on all matters related to grievances.

B. A written list of all RPA representatives shall be furnished to the City immediately after their designation and RPA shall notify the City promptly of any change of representatives.

C. An aggrieved employee shall be allowed reasonable release time for the purpose of attending administrative or Skelly hearings or an internal affairs investigation during working hours without loss of compensation subject to prior notification and approval by his/her immediate supervisor.

D. Upon request of an employee an RPA representative shall be allowed reasonable release time for the purpose of representing the employee in all administrative or Skelly hearings or an internal affairs investigation during working hours without loss of compensation subject to prior notification and approval by his/her immediate supervisor.

E. Employee release time hours are not to be considered to be hours worked for overtime purposes.

F. Employees are entitled to representation in accordance with the provisions of this Agreement and Government Code Section 3300 et seq.

G. The City and RPA agree to continue an RPA Time Bank for use by employees for the sole purpose of performing or conducting association business subject to the following conditions:

    1. RPA members must donate one (1) hour each year of vacation hours from an association member's accrued leave balance for such hours. Such donation shall be non-revocable and not returnable to the employee. Donations will be allowed only during January of each year.

2. The maximum number of hours any member shall donate is one (1) hour per year. Any remaining unused hours in the time bank on December 31st shall be carried over into the next calendar year. The maximum number of hours that can be accrued is two hundred (200).

3. Time bank hours shall not be used without prior approval of RPA representatives. All time submitted to payroll for reimbursement from the bank must have RPA and department approval. The Human Resources and Finance Departments will be responsible for processing the appropriate donation forms and any payment(s).

4. RPA members assume any tax liability for being assessed vacation or CTO hours and/or using Time Bank Hours. Hours donated to association members shall not be considered time worked for overtime, retirement or any other benefit purpose. However, any donated hours will be subject to applicable state and federal payroll taxes.

ARTICLE XVI. INTERNAL AFFAIRS INVESTIGATIONS

The City will conduct internal affairs investigations of police department personnel as expeditiously as possible. In the event that the investigation takes over sixty (60) calendar days to conclude, the department will provide a status report to the employee.

ARTICLE XVII. REMOTE EMAIL ACCESS

Employees will be allowed to enter into a remote email access agreement with the City of Roseville as described in the applicable Administrative Regulation. Employees understand that this voluntary policy is being adopted for their convenience and no compensation will be as a result of their incidental access to the City's email system.

The terms and conditions of this Memorandum of Understanding are executed this _____day of _____, by the Employer-Employee representatives whose signatures appear below on behalf of their respective organizations.

ORDINANCE NO. 6432

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING ORDINANCE NO. 6305, THE SALARY ORDINANCE FOR NON-SWORN EMPLOYEES REPRESENTED BY THE ROSEVILLE POLICE ASSOCIATION, AS AMENDED BY APPENDIX "A" TO BE EFFECTIVE JANUARY 1, 2022 AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6305, the Salary Ordinance for non-sworn employees represented by the Roseville Police Association, is hereby amended as shown on Appendix "A" for salary schedules A & B attached hereto, to reflect a general salary increase and Salary Schedule B compressed salary range.

SECTION 2. Salary Schedule Effective Date.

This Ordinance shall be effective January 1, 2022 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect January 1, 2022. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

COUNCIL COMMUNICATION

CC #: 1835
File #: 0600

Title: Travel and Expense Reimbursement Policy Update
Contact: Dennis Kauffman 916-774-5313 dkauffman@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 10.1.

RECOMMENDATION TO COUNCIL

Staff recommends City Council adopt a resolution approving the updated Travel and Expense Reimbursement Policy for City Council members and boards and commission members.

BACKGROUND

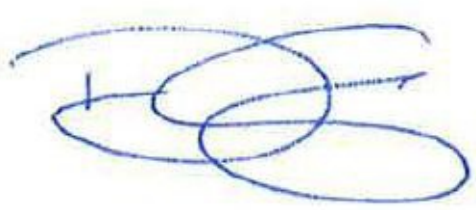
California Assembly Bill 1234 was adopted by the state legislature in 2006. It requires the legislative body of a local agency such as a municipality to adopt, in a public meeting, a travel and expense reimbursement policy if it reimburses its members for actual and necessary expenses incurred in the performance of official duties. The policy must specify the types of occurrences that qualify a member to receive reimbursement of expenses relating to travel, meals, lodging, and other actual and necessary expenses. The City's policy was originally consistent with existing City regulations and policies, but now requires some limited modernization. It will apply to elected and appointed Council members and members of a City legislative body, i.e., board and commission members.

Periodically, City staff review and update City policies and administrative regulations. Staff recommends an update to this Council-adopted policy to incorporate modern modes of transportation including ride-share companies and to clarify and modernize terminology throughout the policy. In addition, staff recommend removing references to employees and contract employees from this policy because they are covered by an internal administrative regulation. If approved, this updated policy is intended to supersede and replace the previous policy and the internal administrative regulation concerning the same subject as applied to Council members and members of other City legislative bodies.

FISCAL IMPACT

Because the revised policy is substantially consistent with current City policies and practices, approval of the updated policy is anticipated to have no significant fiscal impact.

ENVIRONMENTAL REVIEW



The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The adoption of financial policies meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Respectfully Submitted,

Travel and Expense Reimbursement Policy - Redline

Travel and Expense Reimbursement Policy - Clean

RESOLUTION NO. 21-480

ADOPTING AN UPDATED TRAVEL AND EXPENSE REIMBURSEMENT POLICY

WHEREAS, California Assembly Bill 1234 was adopted in 2006 and requires the legislative body of a local agency such as a municipality to adopt, in a public meeting, a travel and expense reimbursement policy if it reimburses its members for actual and necessary expenses incurred in the performance of official duties; and

WHEREAS, the policy must specify the types of occurrences that qualify a member to receive reimbursement of expenses relating to travel, meals, lodging, and other actual and necessary expenses; and

WHEREAS, the updated Travel and Expense Reimbursement Policy will apply to City Council members and boards and commission members; and

WHEREAS, the City Council has reviewed the updated Travel and Expense Reimbursement Policy.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Roseville hereby adopts the updated Travel and Expense Reimbursement Policy.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 20__, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

City Clerk

TRAVEL AND EXPENSE REIMBURSEMENT POLICY

1. FINDINGS

WHEREAS, the City of Roseville takes its stewardship over the use of its limited public resources seriously.

WHEREAS, public resources should only be used when there is a substantial benefit to the City.

WHEREAS, such benefits include, without limitation:

1. The opportunity to discuss the community's concerns with local, regional, state and federal officials;
2. Participating in local, regional, state and national organizations whose activities affect the City;
3. Attending educational seminars designed to improve ~~officials'~~ skill and information levels; and
4. Promoting public service and morale by recognizing such service.

WHEREAS, this policy provides guidance to elected and appointed council members~~officials~~, and members of a City legislative body, e.g., board, and commission members, (collectively referred to as "Official"), ~~employees and contract employees,~~ on the use and expenditure of City resources, as well as the standards against which those expenditures will be measured.

WHEREAS, this policy would satisfy the requirements of Government Code section 53232.2 and 532322~~3~~.3 in the event such requirements could be constitutionally applied to charter cities.

WHEREAS, this policy supplements the definition of actual and necessary expenses for purposes of state laws relating to permissible uses of public resources.

WHEREAS, this policy also supplements the definition of necessary and reasonable expenses for purposes of federal and state income tax laws.

WHEREAS, this policy also applies to any charges made to a City credit card.

WHEREAS, (1) legislative and other regional, state and federal agency business is frequently conducted over meals; (2) sharing a meal with regional, state and federal officials is frequently the best opportunity for a more extensive, focused and uninterrupted communication about the City's policy concerns; and (3) each meal expenditure must comply with the limits and

reporting requirements of local, state and federal law.

2. AUTHORIZED EXPENSES

City funds, equipment, supplies (including letterhead), and staff time must only be used for authorized City business. Expenses incurred in connection with the following types of activities generally constitute authorized expenses, as long as the other requirements of this policy are met:

a. Communicating with representatives of local, regional, state and national government on City adopted policy positions.
b. Attending educational seminars designed to improve ~~officials'~~ skill and information levels.
c. Participating in local, regional, state and national organizations whose activities affect the City's interest.
d. Recognizing service to the City (for example, thanking a longtime employee with a retirement gift or celebration of nominal value and cost).
e. Attending City events.
f. Implementing a City approved strategy for attracting or retaining businesses to the City, which will typically involve at least one staff member.
g. Other meetings as required to further the City's interests (e.g., meetings with financial rating agencies).

All other expenditures, including but not limited to international travel, require prior approval by the City Council. Note, for appointed members of a City legislative body, e.g., a board or commission, no expense shall be incurred without first receiving approval from the City Manager's Office, or its designee(s). ~~The following expenses specifically require prior governing body approval:~~

~~a. International travel.~~
~~b. Travel outside the states of California, Oregon, Nevada, and Arizona.~~

Formatted: Normal, No bullets or numbering, Tab stops: Not at 1.95" + 1.95"

Formatted: Normal, Space Before: 0 pt, No bullets or numbering, Tab stops: Not at 1.92" + 1.92"

Examples of personal expenses that the City will not reimburse include, but are not limited to:

a. The personal portion of any trip.
b. Political or charitable contributions or events.
c. Family expenses, including partner's expenses when accompanying official on agency-related business, as well as children or pet related expenses.
d. Entertainment expenses, including theater, movies (either in-room or the theater), sporting events or activities (including gym, massage and/or golf related expenses), concerts or other cultural events.
e. Non-mileage personal automobile expenses, including repairs, traffic citations, insurance or gasoline.
f. Personal losses incurred while on City business.

g. Alcoholic beverages.

Any questions regarding the propriety of a particular type of expense should be resolved by the approving authority before the expense is incurred.

For travel of two (2) or more individuals to the same event, activity, meeting, etc., outside of the City's jurisdictional limits, reasonable efforts should be made to reduce costs by coordinating arrangements while remaining in compliance with the Brown Act.

2.1. Transportation

The most economical mode and class of transportation reasonably consistent with safety, scheduling needs and cargo space requirements, and other applicable considerations, must be used, ~~using~~ via the most direct and time- efficient route. Government and group rates must be used when available and appropriate.

2.1.1. Airfare: The lowest reasonably available ~~economy class~~main cabin airfare rates, or

~~2.1.1.~~ equivalent thereto, are presumed to be the most economical and reasonable for purposes of reimbursement, except when other considerations (safety, accessibility, etc.) reasonably justify other arrangements ~~under this policy~~.

2.1.2. Automobile: ~~Automobile mileage is reimbursed at Internal Revenue Service rates presently in effect (see www.irs.gov). For 2007, the rate is 48.5 cents per mile. These rates are designed to compensate the driver for gasoline, insurance, maintenance, and other expenses associated with operating the vehicle. This amount does not include parking or bridge and road tolls, which are also reimbursable. Valet parking is reimbursable if the rates are reasonably comparable to self parking or if self parking is not available.~~ Personal automobile mileage ~~for activities conducted outside the City limits~~ is reimbursed at Internal Revenue Service rates presently in effect (available at the Travel sub-page on the Finance Department's Intranet site) to and from the Official's residence or from another location where official City business was being conducted. The mileage reimbursement does not include parking or bridge and road tolls, which may also be reimbursable. Valet parking is reimbursable if the rates are reasonably comparable to self-parking or if self-parking is not available.

2.1.3. Car Rental: ~~-~~Rental vehicles must be rented through the current City rental car contract designated by Fleet Services. Current vendor and rental procedures can be found on the Fleet Services Intranet site. ~~rates that are equal or less than those available through the State of California's website (http://www.catravelsmart.com/default.htm) shall be considered the most economical and reasonable for purposes of reimbursement under this policy.~~ Car rentals, and fuel related thereto, are reimbursable when other means of ground transportation are not reasonably available or if the car rental rates are more economical than other means of ground transportation, e.g., two (2) or more travelers sharing car rental(s).

2.1.4. ~~Taxis/Shuttles/Hired Vehicles~~Other Reimbursable Transportation Expense: Taxis, ~~or~~ shuttle, transit, ~~or~~ hired vehicle, tolls and app-based ride share fares may be reimbursed, including up to a ~~15~~ 20 percent gratuity per fare, when the cost of such fares is equal or less than the cost of car rentals, gasoline and parking combined, or when such transportation is reasonable ~~necessary~~ for time/travel-efficiency.

2.2. **Lodging**

Lodging expenses will be reimbursed or paid for when travel on official City business reasonably requires an overnight stay.

2.2.1. Conferences/Meetings: If such lodging is in connection with a conference, lodging expenses must not exceed the group rate published by the conference sponsor for the meeting in question if such rates are available at the time of booking. If the group rate is not available, lodging at accommodations comparable to the lodging provided in connection with a conference, which does not substantially increase ~~transportation~~ costs or interfere with an Oofficial's duties, are presumed to be reasonable and hence reimbursable for purposes of this policy.

2.2.2. Other Lodging: Hotel reservations should be made in advance in order to secure government rates. If government rates are not available, lodging at accommodations (including hotels, motels, residence rental, etc.) in an area that is safe and provides reasonable transportation access to conduct the City's business are presumed to be reasonable and hence reimbursable for purposes of this policy.

2.3. **Meals**

As authorized herein and serving the public purposes described above, meal expenses and associated gratuities may be reimbursed when incurred in connection with City business.

Meal expense incurred while traveling on City business overnight(s) shall be paid for on either a reimbursable basis, with itemized receipts; or on a per diem basis, without receipts, either advanced or after the trip, based on https://www.gsa.gov/travel/plan-book/per-diem-rates. Per diem for the first and last calendar day of travel shall be paid at 75% of the daily per diem rate. Per diem is provided to cover meals and incidentals. Incidentals include fees and tips given to porters, baggage carriers, and hotel staff. Per diem rates are set at the levels prescribed by the United States Government and rates vary by destination City.

~~Meal expenses and associated gratuities will be reimbursed in accordance with the current Administrative Regulation 6.11 (or successor regulation). Alternatively, per-diem advances may be available in accordance with Administrative Regulation 6.16 (or successor regulation). The City will not pay for alcoholic beverages or any personal bar expenses.~~

2.4. **Internet**

Officials may be reimbursed for reasonable Internet access connection and/or usage fees away from home, if such access is necessary for City-related business.

~~2.4. **Telephone/Fax/Cellular**~~

~~Officials will be reimbursed for actual telephone and fax expenses incurred on City business. Telephone bills should identify which calls were made on City business. For ce11ular calls when the official has a particular number of minutes~~

~~included in the official's plan, the official can identify the percentage of calls made on public business. An employee traveling out of town for City business will be reimbursed for one telephone call to family members each day, provided that the call does not exceed three minutes, as provided by Administration Regulation 6.11.~~

~~City Council members, the City Manager, the City Attorney, department heads and other officials designated by a department head to maintain ce11ular phone availability for City purposes, and who are not assigned a City-provided cellular phone, shall be eligible to receive monthly reimbursement for cellular phone expenses in accordance with Administrative Regulation 6.13, and not to exceed the following amounts:~~

~~a. City Council members, City Manager and City Attorney: $35.00~~
~~b. Department heads and other officials: $30.00~~

2.5. **Airport Parking**

The most economical and reasonable parking option should generally be used. Long-term parking should be ~~must be~~ used for travel exceeding 24-hours, except when other considerations (safety, accessibility, etc.) reasonably justify other parking arrangements.

2.6. **Other**

2.6.1. If an airline provides one checked bag at no cost, costs for additional personal checked bag(s) is not an authorized expense. Checking of bags consisting solely of City property (e.g., law enforcement equipment, etc.), however, is an authorized reimbursable expense.

2.6.2. Expenses for which Officials receive reimbursement from another agency/entity are not reimbursable.

2.6.3. Registration fees and applicable materials related to, for example, attendance at a conference, if paid directly by the Official, are reimbursable.

2.6.4. Tipping is considered an appropriate expense, not to exceed ~~15~~20%; however, the amount must be reasonable and for appropriate services such as food servers, taxi or rideshare, or other appropriate attendants. Per diem for incidentals includes fees and tips given to porters, baggage carriers, and hotel staff.

~~Baggage handling fees of up to $1 per bag and gratuities of up to 15 percent will be reimbursed.~~

~~Expenses for which City officials receive reimbursement from another agency are not reimbursable.~~

3. CREDIT CARD USE POLICY

City ~~office holders~~credit card holders may use the City's credit card for such purposes as airline tickets and hotel reservations ~~by following the same procedures for cash advances~~. Receipts documenting expenses incurred on the City credit card ~~and compliance with this policy~~ must be submitted pursuant to the City credit card policy in effect at that time (currently, Administrative Regulation 6.07.1). ~~within 30 business days of use.~~

City credit cards may not be used for meals or incidentals advanced or expected to be reimbursed by per diem.

City credit cards may not be used for personal expenses, even if the O~~o~~fficial subsequently reimburses the City.

4. EXPENSE REPORT CONTENT AND SUBMISSION DEADLINE

All expense reimbursement requests and credit card expenses ~~and expense reimbursement requests~~ must be submitted on an expense report form or online system provided by the City. All submissions are subject to the following admonition and acknowledgement by the Official, which is considered to have occurred by virtue of the Official's review of this policy~~This form shall include the following advisory~~:

> *All expenses reported ~~on this form~~ must comply with the City's policies relating to expenses and use of public resources. The information submitted on an expense ~~this form~~/online submission is a public record. Penalties for misusing public resources and violating the City's policies include loss of reimbursement privileges, restitution, civil and criminal penalties, additional income tax liability, and employment disciplinary action (if applicable), up to and including termination from employment.*

Expense reports must document that the expense in question met the requirements of this policy, and, if applicable, include factual justifications and considerations for expenses incurred relating to other arrangements. For example, if the meeting is with a legislator, the local agency O~~o~~fficial should explain whose meals were purchased, what issues were discussed and how those relate to the adopted legislative positions and priorities.

Officials must submit their expense ~~reports~~ reimbursement requests within thirty (30) days of an expense being incurred, accompanied by itemized receipts documenting each expense. ~~Detailed~~Itemized r~~R~~estaurant receipts, in addition to any credit card receipts, are also part of the necessary documentation. Expense reports for credit card expenses are due on the first day of the following calendar month.

Inability to provide such documentation in a timely fashion may result in the expense being borne by the O~~o~~fficial.

All expenses are subject to verification that they comply with this policy.

At the following regular meeting, each Official shall briefly report on any Brown Act meetings attended at City expense as well as any conferences, educational seminars or meetings with

legislators or other governmental officials. If multiple Officials attended that same meeting/event, a joint report may be made. The report may be made orally or in writing.

~~4.1. Audits of Expense Reports~~

~~All expenses are subject to verification that they comply with this policy.~~

5. COMPLIANCE WITH LAWS

City O~~o~~fficials should keep in mind that some expenditures may be subject to reporting under the Political Reform Act and other laws. Generally, ~~All~~ agency expenditures are public records subject to disclosure under the Public Records Act.

Travel and travel-related payments, reimbursements or value (e.g. discounts, rebates, coverage/waiver of costs, etc.) received by individuals directly from third parties may be subject to gift limits and legal restrictions. (See generally, regulations and laws administered by the California Fair Political Practices Commission (FPPC), http://www.fppc.ca.gov/; and Roseville Municipal Code Section 3.15.030.) Individuals directly receiving payment, reimbursement or value from a third party in connection with travel, must contact the Offices of the City Attorney and City Clerk at least thirty (30) days prior to travelling, or as soon as practicable prior to travelling.

~~6. ADMINISTRATIVE REGULATIONS~~

~~Administrative Regulations of the City address several topics covered by this policy. The Administrative Regulations and this policy are intended to be complementary, but any conflict between this policy and an Administrative Regulation will be resolved in favor of compliance with this policy.~~

6~~7~~. VIOLATION OF THIS POLICY

Use of public resources or falsifying expense reports in violation of this policy may result in any or all of the following: (1) loss of reimbursement privileges; (2) a demand for restitution to the City; (3) the agency's reporting the expenses as income to the ~~elected~~ O~~o~~fficial to state and federal tax authorities; (4) civil penalties of up to $1,000 per day and three times the value of the resources used; and (5) prosecution for misuse of public resources~~; and (6) employment disciplinary action, up to and including termination from employment~~.

TRAVEL AND EXPENSE REIMBURSEMENT POLICY

1. FINDINGS

WHEREAS, the City of Roseville takes its stewardship over the use of its limited public resources seriously.

WHEREAS, public resources should only be used when there is a substantial benefit to the City.

WHEREAS, such benefits include, without limitation:

1. The opportunity to discuss the community's concerns with local, regional, state and federal officials;
2. Participating in local, regional, state and national organizations whose activities affect the City;
3. Attending educational seminars designed to improve skill and information levels; and
4. Promoting public service and morale by recognizing such service.

WHEREAS, this policy provides guidance to elected and appointed council members, and members of a City legislative body, e.g., board, and commission members, (collectively referred to as “Official”), on the use and expenditure of City resources, as well as the standards against which those expenditures will be measured.

WHEREAS, this policy would satisfy the requirements of Government Code section 53232.2 and 53232.3 in the event such requirements could be constitutionally applied to charter cities.

WHEREAS, this policy supplements the definition of actual and necessary expenses for purposes of state laws relating to permissible uses of public resources.

WHEREAS, this policy also supplements the definition of necessary and reasonable expenses for purposes of federal and state income tax laws.

WHEREAS, this policy also applies to any charges made to a City credit card.

WHEREAS, (1) legislative and other regional, state and federal agency business is frequently conducted over meals; (2) sharing a meal with regional, state and federal officials is frequently the best opportunity for a more extensive, focused and uninterrupted communication about the City's policy concerns; and (3) each meal expenditure must comply with the limits and reporting requirements of local, state and federal law.

2. AUTHORIZED EXPENSES

City funds, equipment, supplies (including letterhead), and staff time must only be used for authorized City business. Expenses incurred in connection with the following types of activities generally constitute authorized expenses, as long as the other requirements of this policy are met:

a. Communicating with representatives of local, regional, state and national government on City adopted policy positions.
b. Attending educational seminars designed to improve skill and information levels.
c. Participating in local, regional, state and national organizations whose activities affect the City's interest.
d. Recognizing service to the City (for example, thanking a longtime employee with a retirement gift or celebration of nominal value and cost).
e. Attending City events.
f. Implementing a City approved strategy for attracting or retaining businesses to the City, which will typically involve at least one staff member.
g. Other meetings as required to further the City's interests (e.g., meetings with financial rating agencies).

All other expenditures, including but not limited to international travel, require prior approval by the City Council. Note, for appointed members of a City legislative body, e.g., a board or commission, no expense shall be incurred without first receiving approval from the City Manager’s Office, or its designee(s).

Examples of personal expenses that the City will <u>not</u> reimburse include, but are not limited to:

a. The personal portion of any trip.
b. Political or charitable contributions or events.
c. Family expenses, including partner's expenses when accompanying official on agency-related business, as well as children or pet related expenses.
d. Entertainment expenses, including theater, movies (either in-room or the theater), sporting events or activities (including gym, massage and/or golf related expenses), concerts or other cultural events.
e. Non-mileage personal automobile expenses, including repairs, traffic citations, insurance or gasoline.
f. Personal losses incurred while on City business.
g. Alcoholic beverages.

Any questions regarding the propriety of a particular type of expense should be resolved by the approving authority before the expense is incurred.

For travel of two (2) or more individuals to the same event, activity, meeting, etc., outside of the City's jurisdictional limits, reasonable efforts should be made to reduce costs by coordinating arrangements while remaining in compliance with the Brown Act.

2.1. **Transportation**

The most economical mode and class of transportation reasonably consistent with safety, scheduling needs and cargo space requirements, and other applicable considerations, must be used, via the most direct and time- efficient route. Government and group rates must be used when available and appropriate.

2.1.1. Airfare: The lowest reasonably available main cabin airfare rates, or equivalent thereto, are presumed to be the most economical and reasonable for purposes of reimbursement, except when other considerations (safety, accessibility, etc.) reasonably justify other arrangements.

2.1.2. Automobile: Personal automobile mileage is reimbursed at Internal Revenue Service rates presently in effect (available at the Travel sub-page on the Finance Department's Intranet site) to and from the Official's residence or from another location where official City business was being conducted. The mileage reimbursement does not include parking or bridge and road tolls, which may also be reimbursable. Valet parking is reimbursable if the rates are reasonably comparable to self-parking or if self-parking is not available.

2.1.3. Car Rental: Rental vehicles must be rented through the current City rental car contract designated by Fleet Services. Current vendor and rental procedures can be found on the Fleet Services Intranet site. Car rentals, and fuel related thereto, are reimbursable when other means of ground transportation are not reasonably available or if the car rental rates are more economical than other means of ground transportation, e.g., two (2) or more travelers sharing car rental(s).

2.1.4. Other Reimbursable Transportation Expense: Taxis, shuttle, transit, hired vehicle, tolls and app-based ride share fares may be reimbursed, including up to a 20 percent gratuity per fare, when the cost of such fares is equal or less than the cost of car rentals, gasoline and parking combined, or when such transportation is reasonable for time/travel-efficiency.

2.2. **Lodging**

Lodging expenses will be reimbursed or paid for when travel on official City business reasonably requires an overnight stay.

2.2.1. Conferences/Meetings: If such lodging is in connection with a conference, lodging expenses must not exceed the group rate published by the conference sponsor for the meeting in question if such rates are available at the time of booking. If the group rate is not available, lodging at accommodations comparable to the lodging provided in connection with a conference, which does not substantially increase costs or interfere with an Official's duties, are

presumed to be reasonable and hence reimbursable for purposes of this policy.

2.2.2. Other Lodging: Hotel reservations should be made in advance in order to secure government rates. If government rates are not available, lodging at accommodations (including hotels, motels, residence rental, etc.) in an area that is safe and provides reasonable transportation access to conduct the City's business are presumed to be reasonable and hence reimbursable for purposes of this policy.

2.3. **Meals**

As authorized herein and serving the public purposes described above, meal expenses and associated gratuities may be reimbursed when incurred in connection with City business.

Meal expense incurred while traveling on City business overnight(s) shall be paid for on either a reimbursable basis, with itemized receipts; or on a per diem basis, without receipts, either advanced or after the trip, based on https://www.gsa.gov/travel/plan-book/per-diem-rates. Per diem for the first and last calendar day of travel shall be paid at 75% of the daily per diem rate. Per diem is provided to cover meals and incidentals. Incidentals include fees and tips given to porters, baggage carriers, and hotel staff. Per diem rates are set at the levels prescribed by the United States Government and rates vary by destination City.

2.4. **Internet**

Officials may be reimbursed for reasonable Internet access connection and/or usage fees away from home, if such access is necessary for City-related business.

2.5. **Airport Parking**

The most economical and reasonable parking option should generally be used. Long-term parking should be used for travel exceeding 24-hours, except when other considerations (safety, accessibility, etc.) reasonably justify other parking arrangements.

2.6. **Other**

2.6.1. If an airline provides one checked bag at no cost, costs for additional personal checked bag(s) is not an authorized expense. Checking of bags consisting solely of City property (e.g., law enforcement equipment, etc.), however, is an authorized reimbursable expense.

2.6.2. Expenses for which Officials receive reimbursement from another agency/entity are not reimbursable.

2.6.3. Registration fees and applicable materials related to, for example, attendance at a conference, if paid directly by the Official, are reimbursable.

2.6.4. Tipping is considered an appropriate expense, not to exceed 20%; however, the amount must be reasonable and for appropriate services such as food servers, taxi or rideshare, or other appropriate attendants. Per diem for incidentals includes fees and

tips given to porters, baggage carriers, and hotel staff.

3. CREDIT CARD USE POLICY

City credit card holders may use the City's credit card for such purposes as airline tickets and hotel reservations. Receipts documenting expenses incurred on the City credit card must be submitted pursuant to the City credit card policy in effect at that time (currently, Administrative Regulation 6.07.1).

City credit cards may not be used for meals or incidentals advanced or expected to be reimbursed by per diem.

City credit cards may not be used for personal expenses, even if the Official subsequently reimburses the City.

4. EXPENSE REPORT CONTENT AND SUBMISSION DEADLINE

All expense reimbursement requests and credit card expenses must be submitted on an expense report form or online system provided by the City. All submissions are subject to the following admonition and acknowledgement by the Official, which is considered to have occurred by virtue of the Official's review of this policy:

> *All expenses reported must comply with the City's policies relating to expenses and use of public resources. The information submitted on an expense form/online submission is a public record. Penalties for misusing public resources and violating the City's policies include loss of reimbursement privileges, restitution, civil and criminal penalties, additional income tax liability, and employment disciplinary action (if applicable), up to and including termination from employment.*

Expense reports must document that the expense in question met the requirements of this policy, and, if applicable, include factual justifications and considerations for expenses incurred relating to other arrangements. For example, if the meeting is with a legislator, the local agency Official should explain whose meals were purchased, what issues were discussed and how those relate to the adopted legislative positions and priorities.

Officials must submit their expense reimbursement requests within thirty (30) days of an expense being incurred, accompanied by itemized receipts documenting each expense. Itemized restaurant receipts, in addition to any credit card receipts, are also part of the necessary documentation. Expense reports for credit card expenses are due on the first day of the following calendar month.

Inability to provide such documentation in a timely fashion may result in the expense being borne by the Official.

All expenses are subject to verification that they comply with this policy.

At the following regular meeting, each Official shall briefly report on any Brown Act meetings attended at City expense as well as any conferences, educational seminars or meetings with legislators or other governmental officials. If multiple

Officials attended that same meeting/event, a joint report may be made. The report may be made orally or in writing.

5. COMPLIANCE WITH LAWS

City Officials should keep in mind that some expenditures may be subject to reporting under the Political Reform Act and other laws. Generally, agency expenditures are public records subject to disclosure under the Public Records Act.

Travel and travel-related payments, reimbursements or value (e.g. discounts, rebates, coverage/waiver of costs, etc.) received by individuals directly from third parties may be subject to gift limits and legal restrictions. (See generally, regulations and laws administered by the California Fair Political Practices Commission (FPPC), http://www.fppc.ca.gov/; and Roseville Municipal Code Section 3.15.030.) Individuals directly receiving payment, reimbursement or value from a third party in connection with travel, must contact the Offices of the City Attorney and City Clerk at least thirty (30) days prior to travelling, or as soon as practicable prior to travelling.

6. VIOLATION OF THIS POLICY

Use of public resources or falsifying expense reports in violation of this policy may result in any or all of the following: (1) loss of reimbursement privileges; (2) a demand for restitution to the City; (3) the agency's reporting the expenses as income to the Official to state and federal tax authorities; (4) civil penalties of up to $1,000 per day and three times the value of the resources used; and (5) prosecution for misuse of public resources.

COUNCIL COMMUNICATION

CC #: 1849
File #: 0800-02

Title:	Waste Disposal and Organic Processing - Negotiations Authorization
Contact:	Devin Whittington 916-774-5783 dwhittington@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 10.2.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council: (1) receive for information, a waste disposal and organics processing Term Sheet between the City of Roseville and Recology Inc.; and (2) authorize and direct staff to negotiate further terms, conditions, pricing and associated contracts for waste disposal and organics processing that would be brought before the City Council at a later date for approval and execution.

BACKGROUND

Environmental Utilities (EU) staff routinely evaluates its strategy, planning, and operations for all utility operations. In looking at the available options to comply with new waste disposal requirements set forth in CA Senate Bill (SB) 1383, and to help control costs and user rates, the EU Department's Waste Services division began exploring a variety of operational strategies and disposal options. One such option revealed the merit of soliciting a Term Sheet from Recology Inc. to further explore disposal and organics processing options.

Recology Inc. privately operates a variety of collection, disposal, and processing facilities throughout Northern California and within the proximity of Roseville. Staff intends for the Term Sheet from Recology Inc. to serve as the basis upon which more detailed information and economic analysis can be performed. This information from Recology Inc. will be compared to other alternative regional pricing and terms to determine the most favorable options and path forward for the City of Roseville to dispose of waste in compliance with SB 1383.

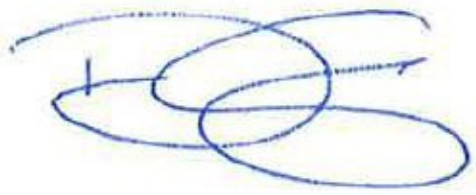
The City has already retained an outside third party consultant, MSW Consultants, to assist staff in developing its business case and to further evaluate the financial and operational merits of all waste disposal and organics processing options. Once these technical evaluations and negotiations are complete, staff will bring a recommendation to the City Council on a path forward and consideration of a variety of disposal and processing options.

FISCAL IMPACT

The fiscal impacts associated with the recommended action are contemplated in the EU FY2021-22 budget and are adequately resourced. Fiscal impacts associated with any future actions will be evaluated at the time of any forthcoming recommendations.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The acceptance of a Term Sheet from Recology Inc. meets the above criteria and is not subject to CEQA. No additional environmental review is required.



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A: Remain fiscally responsible in a changing world
Goal C: Maintain a safe and healthy community
Goal E: Deliver exceptional City services

Description

Term Sheet

LANDFILL DISPOSAL AND ORGANIC WASTE PROCESSING TERM SHEET

This term sheet summarizes the principal terms of a proposed transaction between the City of Roseville, a California municipal corporation ("City") and Recology Ostrom Road, a California corporation ("Recology") as described below. This term sheet is not intended to include an exhaustive list of any rights or obligations and does not create any obligations on the part of City or Recology. All binding obligations will be set forth in one or more definitive agreements to be signed by the City and Recology, and no obligations are created until such definitive agreements are properly executed.

Transaction Overview

Recology owns and operates the fully permitted Class II landfill and organics processing facility, located at 5900 Ostrom Road, Wheatland, CA (the "Facility"). The City collects solid waste and organic waste from single family, multi-dwelling, and commercial customers located in the City. The City wishes to engage Recology to provide landfill disposal of all nonhazardous solid waste and composting of all nonhazardous organic waste collected within the boundaries of City, and Recology wishes to provide such services, all on the terms and conditions as further described below.

1. Parties

City of Roseville

Recology Ostrom Road

2. Facility

Class II landfill and organics processing facility located at 5900 Ostrom Road, Wheatland, CA

3. Term

From the execution date and shall initially run for a period of up to fifteen (15) years. The Term may be extended by mutual written agreement for up to two (2) additional one (1) year periods.

4. Material Volumes and Transport

4.1 Tonnage Commitment. City shall deliver to the Facility all Acceptable Solid Waste and all Acceptable Organic Waste collected by City or its designee within the boundaries of City, excluding Acceptable Solid Waste collected in roll-off debris boxes. For purposes of this Term Sheet:

"Acceptable Solid Waste" means "solid waste" as defined in Section 40191 of the California Public Resources Code, generated within City and collected from within City, excluding Excluded Waste and Acceptable Organic Waste, but expressly including any organic waste that would otherwise be Acceptable Organic Waste but for the presence of Contamination.

"Acceptable Organic Waste" means any combination of Green Waste and Food Waste, generated within City and collected on a source-separated basis from within City, that contains no more than 4.0% Contamination, and no glass, painted or treated wood, or Excluded Waste.

"Contamination" means any Excluded Waste and any material that does not meet the definition of Food Waste or Green Waste. Contamination includes non-compostable food packaging materials, compostable bags and food service ware, bioplastics, dead animals, painted or treated wood, glass, metal, plastic, brick, ceramic, tile, rock, gravel, dirt, concrete and construction and demolition debris. The percentage Contamination level of a load shall be the percentage Contamination by volume (or, if higher, by weight) reasonably determined by the Facility personnel based on a visual inspection of the untipped load.

"Excluded Waste" means any material or category of material that (i) is or contains substances defined, regulated or listed as "hazardous," "toxic," a "pollutant," or words of similar import under any Applicable Laws, (ii) is or contains "designated waste" as defined in California Water Code Section 13173, (iii) is "medical waste" as defined under the California Medical Waste Management Act, (iv) is prohibited from being received, composted, or disposed of at the Facility under Applicable Laws, (v) is Special Waste, or (vi) in Recology's reasonable opinion would present a risk to human health or the environment, cause a nuisance, or otherwise create or expose Recology or City to potential liability.

"Special Waste" means any waste that can be accepted at a Class II landfill but that under applicable law requires special treatment, handling or disposal procedures beyond those normally required for nonhazardous municipal solid waste. Special Waste includes ash, contaminated soil, asbestos-containing materials, treated wood waste, waste containing free liquids, abandoned vehicles and parts thereof, and discarded home and industrial appliances

4.2 Capacity Commitment; Acceptable Solid Waste. Recology shall accept and dispose of all Acceptable Solid Waste delivered to the Facility by City, *provided, however*, that the Facility shall not be required to accept more than a combined total of One Thousand (1,000) tons of Acceptable Solid Waste in any day. Volume above such maximums may be accepted at Recology's sole discretion.

4.3 Capacity Commitment; Acceptable Organic Waste. Recology shall accept and compost all Acceptable Organic Waste delivered to the Facility by City and dispose of any residue from such composting, *provided, however*, that the Facility shall not be required to accept more than a combined total of One Hundred Fifty (150) tons of Acceptable Organic Waste in any day. Volume above such maximums may be accepted at Recology's sole discretion.

4.4 Delivery Locations & Times. All deliveries of Acceptable Solid Waste and Acceptable Organic Waste by City shall be made to the Facility, and shall be delivered during the Facility's standard receiving hours as in effect from time to time (currently Monday-Friday 6:00 AM-4:00 PM and Saturday-Sunday, 6:00 AM-2:30 PM, excluding holidays).

4.5 Transport. City shall be solely responsible for, and shall bear all cost of, transporting Acceptable Waste to and within the Facility until the material is unloaded in the area

designated for that purpose. City shall ensure that all material is collected, transferred and transported in compliance with Applicable Law.

4.6 Weighing. To determine the weight of each load, Recology shall weigh the vehicle fully loaded and unloaded on a scale maintained in compliance with applicable law, except that if Recology has a tare (i.e. unloaded) weight for that vehicle on file, it may use it instead of weighing the empty vehicle. Recology shall provide each driver a weight ticket showing the date, time and tonnage delivered. Absent manifest error, such weights shall be conclusive. Either party may have a vehicle re-tared if there is reason to believe the tare weight on file is inaccurate.

5. **Compensation**

5.1 Initial Fees. The initial Tip Fees charged by Recology to City for the services performed shall be as follows:

5.1.1 For each ton of Acceptable Solid Waste delivered by City to the Facility and accepted by Recology, City shall pay Recology a Tip Fee of Thirty-Seven Dollars ($37.00) per ton.

5.1.2 For each ton of source-separated Acceptable Organic Waste collected from single-family or multi-family residences within City, delivered by City to the Facility, and accepted by Recology, City shall pay Recology a Tip Fee of Sixty-One Dollars and Twenty-Five Cents ($61.25) per ton.

5.1.3 For each ton of source-separated Acceptable Organic Waste collected from non-residential premises or generators within City, delivered by City to the Facility, and accepted by Recology, City shall pay Recology a Tip Fee of Eighty-Six Dollars ($86.00) per ton.

5.1.4 If a load is delivered for organics processing and does not meet the definition of Acceptable Organic Waste as a result of Contamination, then Recology may Dispose of the load and charge the City the then-applicable Tip Fee for Acceptable Solid Waste plus a handling fee of Two Hundred Fifty Dollars ($250.00) per load.

5.2 CPI Adjustments. Each year, the then-applicable Tip Fee shall be automatically adjusted by a percentage equal to the percentage change in CPI over the twelve (12) month period preceding the adjustment date. “CPI” means the Consumer Price Index, All Urban Consumers, San Francisco-Oakland-Hayward, All Items, Not Seasonally Adjusted, Series ID: CUURS49BSA0, published by the U.S. Department of Labor, Bureau of Labor Statistics.

5.3 Changes in Regulatory Fees. Recology may increase each then-applicable Tip Fee to reflect any change in regulatory fees taking effect after the date hereof. Recology shall provide City with sixty (60) days’ prior written notice of any Tip Fee increase, together with a reasonable description and supporting documentation of the change in regulatory fees, and if applicable, the calculation of City’s pro rata share.

5.4 Payment. Recology shall invoice City on a monthly basis. City shall pay invoiced amounts within thirty (30) days after invoice receipt. Overdue payments shall accrue interest at the lesser of one-and-one-half percent (1.5%) per month or the maximum amount permitted by law. Recology may suspend provision of services hereunder if and for so long as City is overdue in its payments.

6. Unacceptable Materials

6.1 Load Check. City shall use commercially reasonable efforts, including by implementing a reasonable load check program, to ensure that all material delivered to Recology hereunder contains only Acceptable Waste and no Excluded Waste.

6.2 Excluded Waste. Recology may reject or revoke acceptance of any material delivered or tendered for delivery hereunder that is or contains (or that Recology reasonably believes to be or contain) Excluded Waste. If Recology rejects or revokes acceptance of any material under this section, then Recology shall request City (which request may be by phone or email) to remove such material from the Facility at City's expense, within 24 hours of Recology's request.

6.3 Title. Title to, ownership of and liability for Acceptable Waste shall transfer from City to Recology upon acceptance of the material at the Facility, *provided, however*, that title to, ownership of and liability for Excluded Material (including Excluded Material intermixed with Acceptable Waste) shall under no circumstances pass to Recology.

7. Compliance

Each party represents and warrants that it has all necessary licenses, permits and authorizations necessary for it to perform its obligations hereunder.

8. Default & Termination

City or Recology may terminate the Agreement upon written notice to the other party if:

(i) Any representation or warranty of such other party proves to have been materially false or misleading when made; or

(ii) Such other party has breached any of its obligations under the Agreement (other than payment obligations) and has failed to cure such breach within thirty (30) days after written notice of the breach by the non-breaching party, *provided, however*, that if the nature of the breach is such that it is not capable of being cured within such thirty (30) day period, the cure period shall be extended for such additional time as is reasonably necessary to effect the cure, provided that the breaching party promptly commences reasonable efforts to cure the breach and diligently pursues such efforts until the breach is cured; or

(iii) Such other party fails to pay its debts generally as they become due, or commences a proceeding for relief under any bankruptcy, insolvency or similar law, or an involuntary proceeding is commenced against it under any such law which remains undismissed or unstayed for sixty (60) days, or if an order is made or a resolution is passed for its liquidation, dissolution or winding up.

9. **Insurance**

9.1 Each party shall maintain the following policies of insurance with at least the following limits:

Workers' Compensation	Statutory limits for state(s) where goods or services provided	
Employer's Liability	Bodily Injury by Accident – Each Accident	$1,000,000
	Bodily Injury by Disease – Each Employee	$1,000,000
	Bodily Injury by Disease – Policy Limit	$1,000,000
Commercial General Liability	Premises-Operations – Each Occurrence	$1,000,000
	Annual Aggregate (Other Than Products – Completed Operations)	$1,000,000
	Products-Completed Operations – Each Occurrence	$1,000,000
	Products-Completed Operations – Annual Aggregate	$1,000,000
Automobile Liability*	Combined Single Limit – Each Accident	$1,000,000
Pollution Liability**	Single Limit – Each Occurrence	$5,000,000
	Annual Aggregate	$5,000,000
Umbrella Liability***	Single Limit – Each Occurrence	$5,000,000
	Policy Limit	$5,000,000

10. **Indemnification**

10.1 General Indemnity. Each party ("Indemnitor") shall defend (with counsel reasonably acceptable to the other party), indemnify and hold harmless the other party, its Affiliates, and its and their respective employees, officers, directors, owners, agents and subcontractors (collectively, "Indemnitees"), from and against any and all liabilities, costs, damages, penalties, fines, forfeitures, liens, demands, claims, causes of action, suits, and judgments, and costs and expenses incidental thereto, including court costs and reasonable attorneys' fees (collectively, "Claims"), which any or all of the Indemnitees may hereafter suffer, incur, be responsible for or pay out, to the extent caused by (i) any breach of this Agreement, including any representations and warranties herein, or (ii) any willful misconduct, negligent action or omission, or violation of applicable law in connection with the Agreement, in each of (i) or (ii), of or by Indemnitor, its Affiliates, or its or their respective employees, officers, directors, owners, agents or subcontractors.

10.2 Environmental Indemnity. City shall defend (with counsel reasonably acceptable to Recology), indemnify and hold harmless Recology, its Affiliates, and its and their respective employees, officers, directors, owners, agents and subcontractors, from and against any and all Claims arising from or caused by the presence, handling or disposal of Excluded Waste delivered or tendered for delivery hereunder by City, its Affiliates, or its or their agents or subcontractors, and Recology shall defend (with counsel reasonably acceptable to City), indemnify and hold harmless City, its Affiliates, and its and their respective employees, officers, directors, owners, agents and subcontractors from and against any and all Claims arising from or caused by the presence, handling or disposal of any waste, substance or material at the Facility, other than Excluded Waste delivered or tendered for delivery hereunder by City, its Affiliates, or its or their agents or subcontractors.

COUNCIL COMMUNICATION

CC #: 1856
File #: 0800-02

Title:	Groundwater Sustainability Plan - Adoption and Memorandum of Agreement
Contact:	Trevor Joseph 916-517-2578 tjoseph@roseville.ca.us

Meeting Date: 12/15/2021
Item #: 11.1.

RECOMMENDATION TO COUNCIL

Recommend Council:

1. Adopt a resolution authorizing the adoption of the Groundwater Sustainability Plan (GSP) for the North American Groundwater Subbasin (NASb) and authorize submittal of the GSP to the California Department of Water Resources in accordance with the provisions of the Sustainable Groundwater Management Act (SGMA).

2. Adopt a resolution approving the Memorandum of Agreement (MOA) Regarding Coordination Between Groundwater Sustainability Agencies (GSAs) and Implementation of the Groundwater Sustainability Plan for the North American Subbasin and authorize the City Manager to execute it on behalf of the City of Roseville as a participating member of the Western Placer Groundwater Sustainability Agency (WPGSA).

BACKGROUND

This item recommends that the City of Roseville, as a participating member of the Western Placer Groundwater Sustainability Agency (WPGSA), join with four additional Groundwater Sustainability Agencies (GSAs) to adopt and begin to implement the North American Groundwater Subbasin (NASb) Groundwater Sustainability Plan (GSP) required under the State of California's Sustainable Groundwater Management Act (SGMA).

In September 2014, then-Governor Brown signed into law a three-bill legislative package collectively known as the Sustainable Groundwater Management Act (SGMA). For the first time in California history, the SGMA set a framework for sustainable groundwater management – "management and use of groundwater in a manner that can be maintained during the planning and implementation horizon without causing undesirable results."

The SGMA empowered local entities to form Groundwater Sustainability Agencies (GSAs) to manage groundwater basins sustainably, and required the GSAs to adopt Groundwater Sustainability Plans (GSPs) no later than January 31, 2022. In response to the SGMA, the City of Roseville joined with Placer County, Placer County Water Agency, Nevada Irrigation District,

California American Water Company and the City of Lincoln to form the Western Placer Groundwater Sustainability Agency (WPGSA) in 2017.

The WPGSA implements activities that preserve and enhance groundwater resources for the Placer County region. This locally controlled effort works to protect the basin from overdraft, create sustainable water supplies for agriculture and for current and future development, support a stable and growing local economy, and contribute to land and habitat conservation.

The WPSGA is one of five GSAs that cover the 548 square mile area (about 342,000 acres) that makes up the NASb. This subbasin encompasses portions of Placer, Sacramento, and Sutter counties and is bounded by the American, Bear, Feather, and Sacramento Rivers. The four other GSAs involved in management of the NASb include the Sacramento Groundwater Authority, Reclamation District 1001, South Sutter Water District, and Sutter County.

Since November 2020, GSAs in the NASb have worked together to draft the North American Subbasin's GSP. The draft GSP has been developed with multiple public meetings and extensive stakeholder input. By October 29, 2021, the NASb GSA's received approximately 11 comments on the draft GSP from landowners, environmental groups, and other stakeholders. The GSAs working together have carefully evaluated these comments, which have influenced the preparation of a final GSP.

An Executive Summary of the GSP is attached to this memorandum. The full plan, numbering more than 2,800 pages, can be found at the following link: https://portal.nasbgroundwater.org/documents.

GSAs have also created a Memorandum of Agreement (MOA) to guide collaborative implementation of the GSP. Based on this careful planning, Environmental Utilities staff recommends that Council approves the GSP and related MOA that documents shared GSP implementation responsibilities, including cost share. The MOA covers a 20-year time horizon.

The NASb GSAs must submit the GSP to the California Department of Water Resources (CDWR) by January 31, 2022. The NASb GSAs believe the NASb already is being managed in accordance with sustainability requirements and if CDWR concurs, the NASb GSAs will implement the GSP in order to ensure sustainable groundwater management for the region.

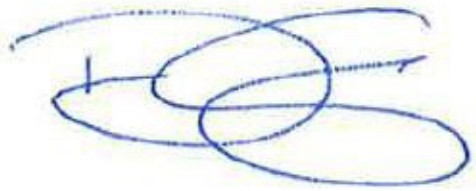
General Information Memorandums on this issue were sent to Council on November 2, 2020, after public release of GSP sections, and on September 9, 2021, to discuss the timetable for Council decision-making on the GSP and MOA documents.

FISCAL IMPACT

NASb GSAs estimate a budget of $1.055 million over the next five years for monitoring, reporting, GSP assessment and update, data management, coordination, outreach, and management actions. The budget includes a 20 percent contingency for unanticipated expenses. The City of Roseville's estimated annual cost share is $25,000 and will be paid from the Water Operations Fund budget.

ENVIRONMENTAL REVIEW

In accordance with Section 10728.6 of the California Water Code, approval of the proposed Groundwater Sustainability Plan and related Memorandum of Agreement is statutorily exempt from the California Environmental Quality Act (CEQA, [Division 13, commencing with Section 21000] of the Public Resources Code). No additional environmental review is required.



CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Invest in well-planned infrastructure and growth.

NORTH AMERICAN SUBBASIN
Groundwater Sustainability Plan

Executive Summary

PREPARED FOR:

RD1001 GSA
Sacramento Groundwater Authority GSA
South Sutter Water District GSA
Sutter County GSA
West Placer County GSA

DECEMBER 2021

Executive Summary

Overview

In 2014, the California Legislature passed the Sustainable Groundwater Management Act (SGMA), which became effective on January 1, 2015. SGMA requires local Groundwater Sustainability Agencies (GSAs) to develop Groundwater Sustainability Plans (GSPs) that, among other things, explain how the basin will be managed sustainably over a 20-year timeframe. SGMA provides authorities to support locally controlled sustainable management of groundwater – meaning in a way that does not produce undesirable results such as chronic lowering of groundwater levels, causing subsidence or degrading water quality.

The North American Subbasin (NASb or Subbasin) includes five GSAs that have worked cooperatively to develop this single GSP covering the 548 square-mile subbasin that includes portions of Placer, Sacramento, and Sutter counties. The GSAs include: Reclamation District 1001 (RD 1001) GSA; Sacramento Groundwater Authority (SGA) GSA; South Sutter Water District (SSWD) GSA; Sutter County GSA; and West Placer GSA.

SGMA requires certain information be included in every GSP. This includes, among other things, the subbasin setting, a hydrogeological conceptual model, a comprehensive water budget, a basin-wide monitoring network, sustainable management criteria, and projects and management actions necessary to ensure the Subbasin's sustainability. A summary of each of the primary NASb GSP sections is provided below.

ES 1 – Introduction

SGMA effectively prescribes four basic steps to the management process: 1) form a GSA; 2) develop and adopt a GSP; 3) implement the GSP to achieve a sustainability goal and avoid undesirable results within 20 years; and 4) report the implementation activities to DWR to document whether progress towards the sustainability goal and the avoidance of undesirable results are being achieved.

Ultimately, five GSAs were formed to manage groundwater in the NASb, completing Step 1. Figure ES-1 shows the location of the Subbasin and the GSAs. This GSP and adoption by each GSA will complete Step 2. The GSP will be assessed every 5 years as additional information becomes available. Steps 3 and 4 will be implemented over the next 20 years.

The NASb is bounded by four adjacent subbasins. Figure ES-1 shows the location of the NASb along with the adjacent subbasin names and locations. The NASb is closely coordinating with these subbasins.

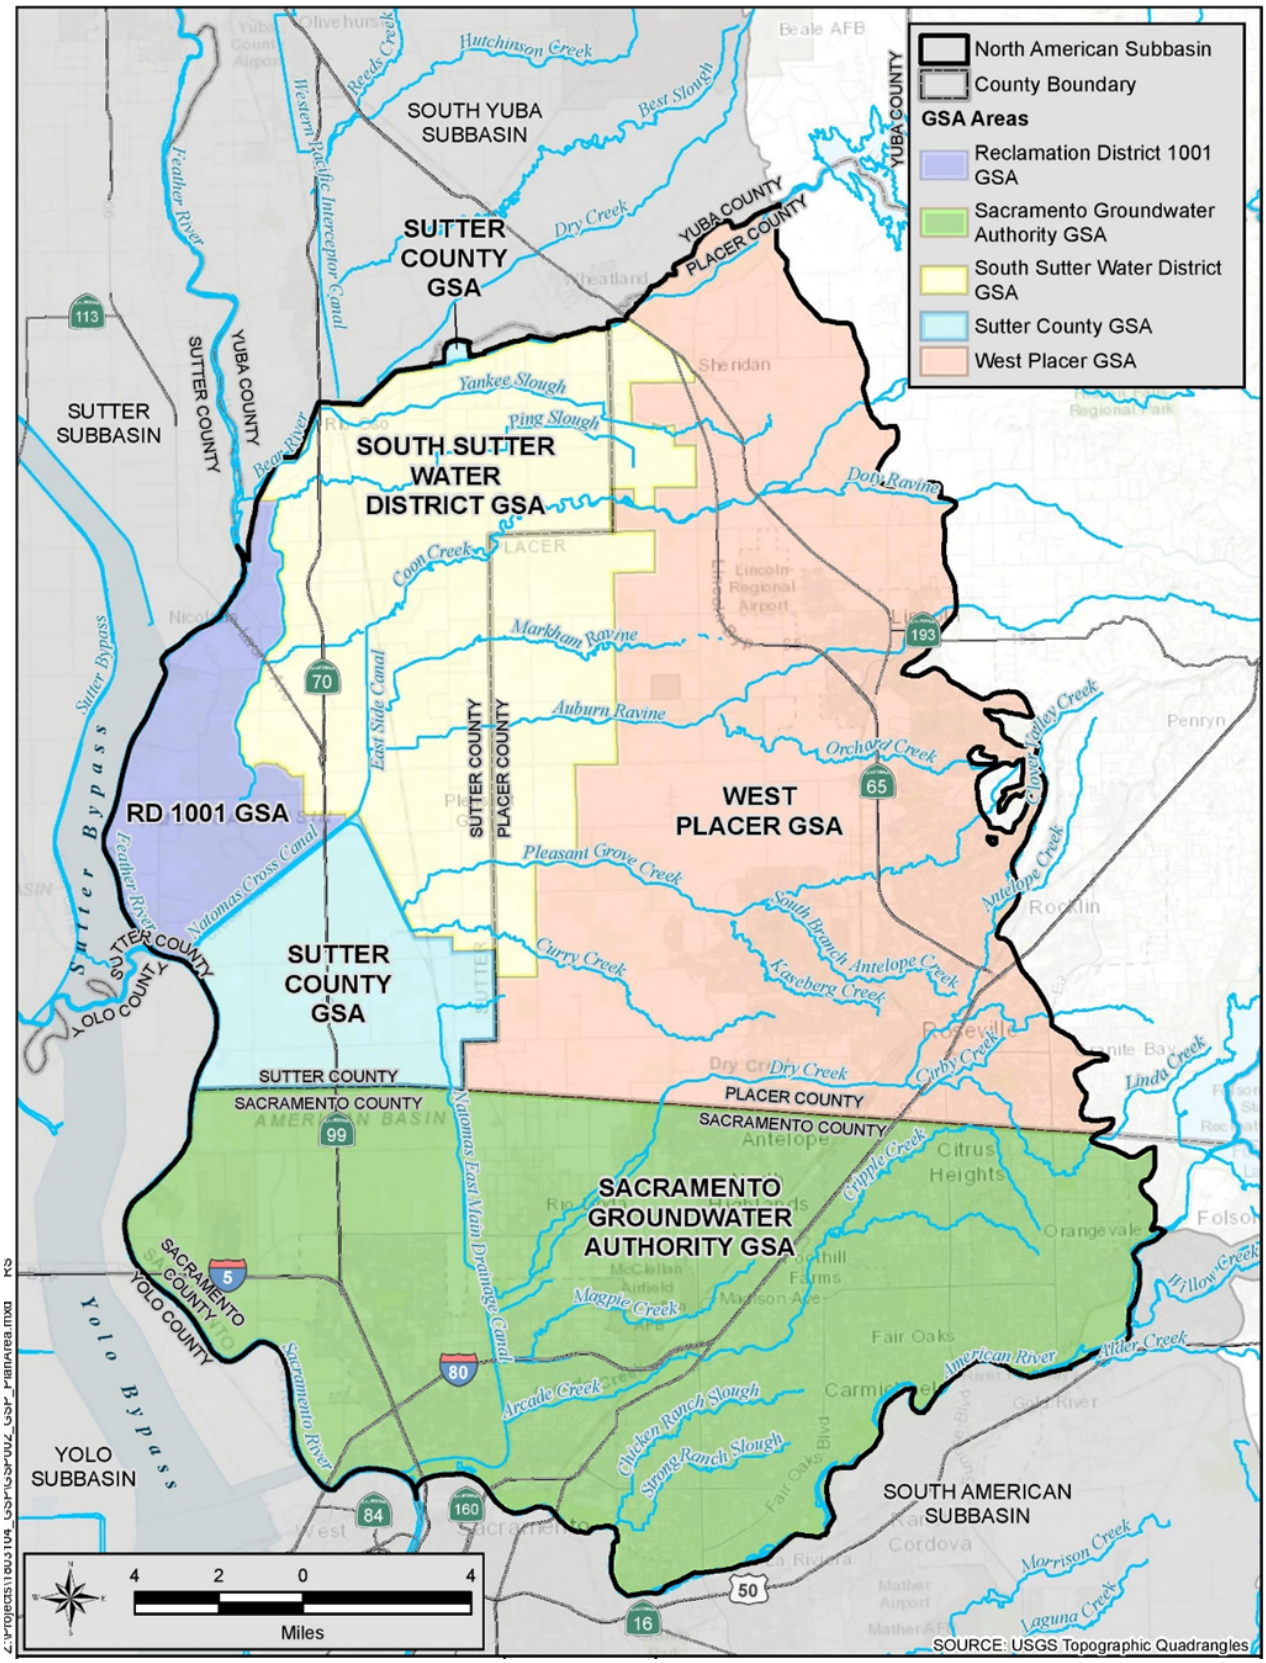

Figure ES-1. North American Subbasin, GSAs and Adjacent Subbasins

ES 2 – Agency Information

The five GSAs, by mutual agreement, selected the SGA GSA to be the Plan manager and lead agency for the preparation and implementation of the NASb GSP. The GSAs have entered into a Memorandum of Agreement (MOA) for the implementation of this GSP, which includes monitoring and reporting in the Subbasin along with projects and management actions.

ES 3 – Plan Area

The NASb encompasses about 342,000 acres in Sutter, Placer, and Sacramento counties and is bounded by the American, Bear, Feather, and Sacramento rivers. The Sierra Nevada foothills form the eastern boundary of the Subbasin. The NASb is about 40 percent urban, 30 percent farmland (mostly in Placer and Sutter counties), and less than 1 percent riparian vegetation. About 30 percent of the land is either native vegetation or fallowed farmland that could not be fully characterized. Most of the urban area is in Sacramento County and the southeastern portion of Placer County. Currently, the NASb has about 16,900 acres of habitat conservation preserves and easements, of which about 1,700 acres is riparian habitat. Figure ES-2 shows the general locations of these water use sectors.

Within the NASb, there are federal, state, county, and tribal agencies with land use jurisdiction. Within Placer and Sacramento counties, there are 20 water agencies, water districts, city/county water departments and water wholesalers that provide water to residents in the cities and towns. There are also over 40 small community water and non-community non-transient water systems, that are overseen by the counties and the state, whose water supply is from groundwater. Irrigation districts are also present that provide surface water for agriculture. Within many of the irrigation districts and cities are reclamation districts that are responsible for managing and maintaining the levees, freshwater channels, or sloughs, canals, pumps, and other flood protection structures in the area.

Surface water is available to most areas of the Subbasin and is supplemented with groundwater. There are about 3,800 water supply wells present in the Subbasin (about 2,600 domestic, 800 agricultural, 400 municipal and industrial wells).

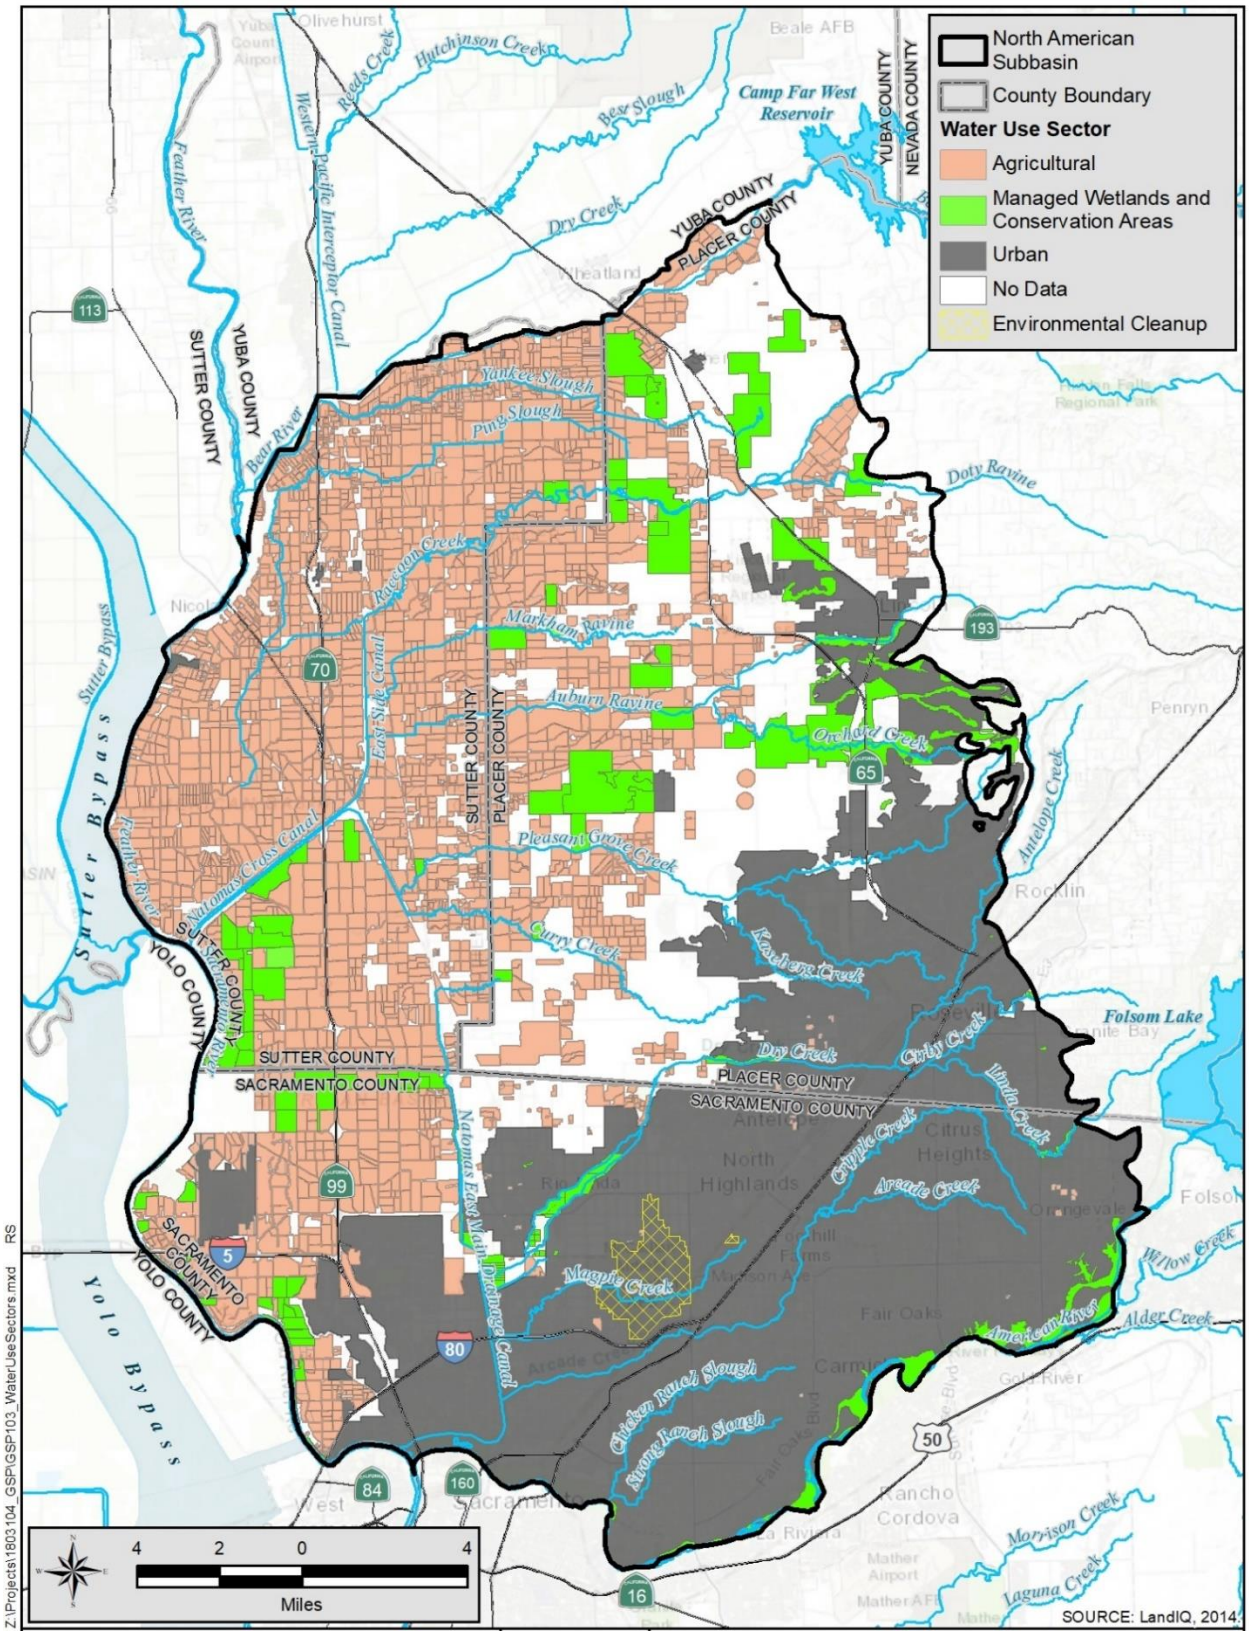

Figure ES-2. Water Use Sectors

ES 4 – Hydrogeologic Setting

The NASb is in the Sacramento Valley and is filled largely with sediments derived from the adjacent Sierra Nevada foothills, which contain fresh water. In general, these fresh-water bearing sediments beneath the NASb are thinnest to the east and thicken up to 2,000 feet to the west (see Figure ES-3). The sediments consist of alternating layers of clays, silts, sand and gravel. The sand and gravels layers into which wells are constructed are referred to as aquifers. These sand and gravel layers were deposited by meandering rivers and creeks, so they are not continuous across the entire Subbasin. Although the sediments are not present as continuous layers, they are interconnected. This was demonstrated by observing that groundwater levels in the various sand and gravel layers have similar levels and trends. Based on this information, the NASb is interpreted as having one principal aquifer.

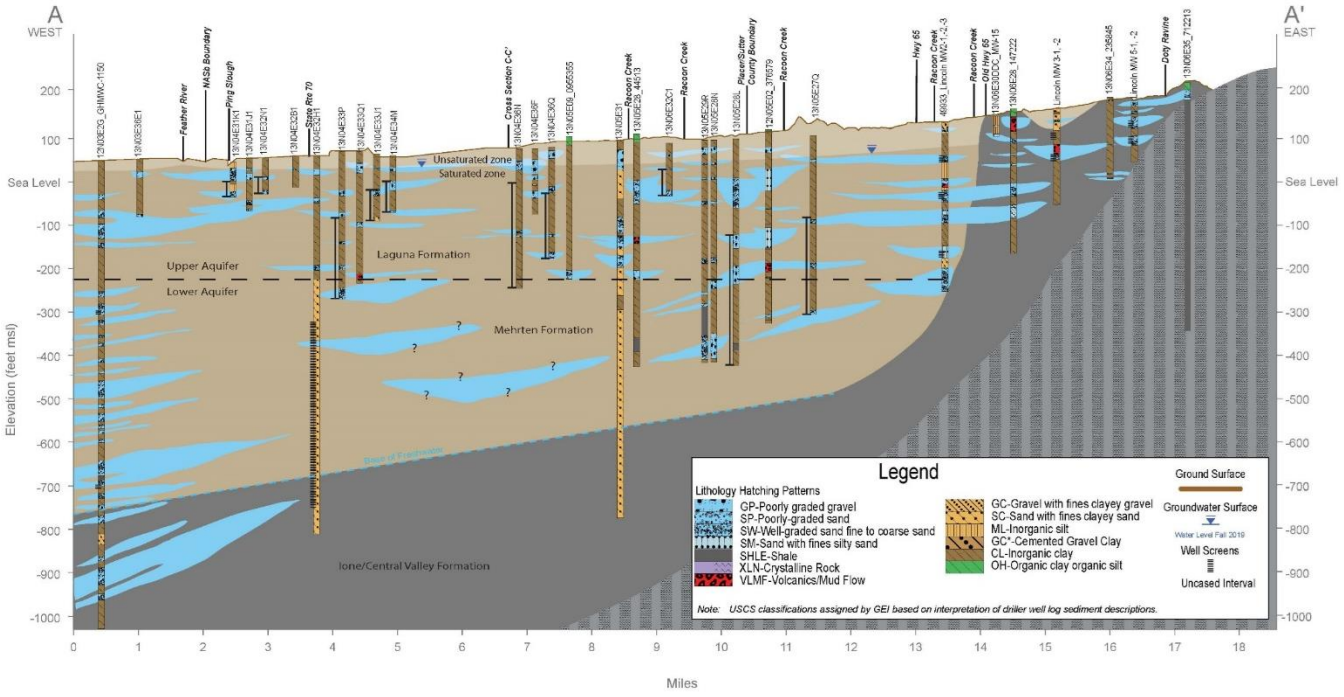

Figure ES-3. Geologic Section

Groundwater is recharged from throughout the surface of the Subbasin and from groundwater inflow from adjacent subbasins. No geologic sediments are impermeable, so some recharge occurs in all areas that are not covered by impermeable surfaces (such as asphalt or concrete). This is particularly important in agricultural areas where, even though there are low permeability soils, there are more than one hundred thousand acres of land that have applied or ponded water throughout the growing season, which results in large volumes of recharge to the Subbasin.

Groundwater discharge occurs along some of the creeks, canals, and rivers. The conditions may change seasonally from recharge to discharge conditions. These discharge areas are typically along the rivers and creeks as they represent topographic lows where the groundwater surface may intersect the ground surface.

ES 5 – Groundwater Conditions

Groundwater levels in the western portion of the Subbasin are generally stable through time dating back to early in the 20th century. Groundwater levels in the central part of the Subbasin showed long-term declines in the north-central portion until the mid-1960s and in the south-central portion until the mid-1990s, when conjunctive use programs arrested these declines and allowed groundwater levels to begin to recover. Groundwater levels in the eastern portion of the subbasin have been generally stable since the 1970s, but they do show declines during dry periods with recovery during wet periods.

The groundwater contours show a pumping depression in the center of the Subbasin that is currently about 30 feet below mean sea level. Groundwater flows radially toward this depression, from the fringes of the Subbasin toward the center. The depression has been stabilized, with groundwater levels generally declining during dry periods and recovering during wet periods.

Limited land subsidence due to groundwater pumping was documented up to the early 1990s, but there were no documented impacts associated with the subsidence. Since then, the subsidence has been negligible.

Areas with surface water that is interconnected with groundwater were identified along portions of the American, Bear, Feather, and Sacramento rivers, along with creeks primarily in the western part of the Subbasin.

Potential groundwater dependent ecosystems (GDEs) identified in the natural communities commonly associated with groundwater dataset were evaluated using groundwater levels and the types of vegetation to classify them as *Likely*, *Less Likely* or *Unlikely* GDEs. Classifications of the species types and diversity of vegetation were used to further prioritize these areas. In many cases, GDEs were identified along canals and natural waterways that are used to convey surface water to agricultural users. In some cases, GDEs were identified in areas that could be supported by groundwater, but it appears their primary source of supply is groundwater pumped from wells.

Generally, the quality of groundwater in the Subbasin is suitable for nearly all uses, with the exception of contamination plumes and localized, naturally-occurring and human-caused quality issues, which may affect the supply, beneficial uses, and potential management of groundwater in the Subbasin if not properly managed. Total dissolved solids (TDS) and nitrate were identified as constituents that represent general conditions in the Subbasin, with some wells displaying upward trends. Nitrate is below the drinking water standards for all wells in the Subbasin. TDS exceeds the drinking water standards in some wells, predominantly in the western and eastern portions of the Subbasin. The higher salinity concentrations are generally considered to be present due to natural sources.

In the NASb, there are a few large groundwater contamination sites and multiple smaller sites that could affect supply and beneficial uses of groundwater in the Subbasin. The most significant of these sites are the former McClellan AFB and the Aerojet Superfund Site (outside of the Subbasin). Cleanup activities, as overseen by U.S. Environmental Protection Agency, SWRCB, and the California Department of Toxic Substances Control, have been in progress for years and contaminants appear to be contained. SGA and interested water agencies meet with regulators on a quarterly basis to discuss the plumes' containment and how groundwater management activities may affect the remediation.

ES 6 – Water Budgets

Water budgets were created utilizing the Cosumnes-South American-North American (CoSANA) model, a fully integrated surface and groundwater numerical flow model that covers the entire NASb as well as the adjacent South American and the Cosumnes subbasins. CoSANA integrates the groundwater aquifer with the surface hydrologic system and land surface processes and operations. CoSANA was used to preform analyses of hydrogeologic conditions, agricultural and urban water demands, agricultural and urban water supplies and an evaluation of current and projected future regional conditions, including climate change, for the NASb. Because the model is integrated with the adjacent subbasins to the south, future projected conditions, along with climate change and projects, were assessed for the entire region.

The water budget for current conditions in the NASb showed the Subbasin has a current surplus of water, which was confirmed by groundwater levels rising in the central portions of the Subbasin. This surplus continues into the future, but in lesser amounts. The future conditions modeling included planned new developments, along with changes in agriculture and projected changes in water supply. When the future conditions were modeled with a central tendency climate change scenario, the Subbasin has an estimated future deficit of about 3,500 acre-feet per year. Table ES-1 shows the average annual estimated change in groundwater storage under each of these conditions.

Table ES-1. Estimated groundwater change in storage

Model Baseline Condition	Average Annual Groundwater Storage Change (acre-feet)
Historical (water years 2009 through 2018)	31,900
Current (water years 1970 through 2019)	14,900
Projected Future Demands over 50 years (using 1970 through 2019 hydrology)	5,400
Projected Future Demands over 50 years with Climate Change (using 1970 through 2019 hydrology)	-3,500

ES 7 – Monitoring Networks

Groundwater levels and water quality are currently being monitored by the GSAs, local agencies, counties, DWR and federal entities in over 160 wells, not including those present near contamination sites. Representative monitoring wells were selected from this larger network that are spatially distributed, actively being monitored, and have construction details to prove which portion of the aquifer they are monitoring. A total of 41 representative monitoring wells for groundwater levels (to monitor for chronic lowering of groundwater levels, reduction of storage, the potential for subsidence, and surface water depletion) were selected. The monitoring locations were developed to protect beneficial uses and users including, domestic well owners, GDEs and interconnected surface water.

Separate representative groundwater quality monitoring networks were developed. Sixteen shallow groundwater monitoring wells were selected to monitor water quality in the shallow portions of the aquifer in areas that are used by domestic well owners. The deeper portions of the aquifer, commonly used by public water systems, will be monitored by over 200 public supply wells that are required to monitor and report the analyses to state agencies.

There are instances of poorer water quality along the westerly and eastern edges of the Subbasin, so a separate sentry well monitoring network was developed to track the potential movement of these waters into the Subbasin. This sentry well network is not designated as being representative monitoring wells where minimum thresholds and measurable objectives would have been established.

ES 8 – Sustainable Management Criteria (SMC)

The NASb sustainability goal is to:

> *Manage groundwater resources sustainably for beneficial uses and users to support the lasting health of the Subbasin's community, economy, and environment. This will be achieved through:*
>
> - *The monitoring and management of established SMC;*
> - *Continued expansion of conjunctive management of groundwater and surface water;*
> - *Proactively working with local well permitting and land use planning agencies on effective groundwater policies and practices;*
> - *Continued GSA coordination and stakeholder engagement; and*
> - *Continued improvement of our understanding of the Subbasin.*

Undesirable results, minimum thresholds, and measurable objectives were developed for five of the six SGMA sustainability indicators: chronic lowering of groundwater levels, reduction of storage, land subsidence, degradation of water quality, and surface water depletion. Seawater intrusion has not occurred in the past and is unlikely to occur in the future and, therefore, sustainability criteria were not established for this sustainability indicator. As allowed under SGMA, the NASb uses groundwater elevations as a proxy for minimum thresholds and measurable objectives for its applicable sustainability indicators, with the exception of degradation of water quality. Undesirable results are summarized in Table ES-2 below.

Table ES-2. NASb undesirable results

Sustainability Indicator	Undesirable Result Definition
Chronic lowering of groundwater levels	*20% or more of all NASb representative monitoring sites have minimum threshold exceedances for 2 consecutive Fall measurements (8 out of 41 wells)*
Reduction of storage	*20% or more of all NASb representative monitoring sites have minimum threshold exceedances for 2 consecutive Fall measurements (8 out of 41 wells)*
Degraded groundwater quality	For public water system wells • *The basin wide average total dissolved solids (TDS) concentrations of all public water system wells exceeds 400 mg/l* *OR* • *The basin wide average nitrate (as N) concentration of all public water system wells exceeds 8 mg/l* For the shallow aquifer (i.e. domestic and self-supplied) wells • *25% of the representative monitoring sites' (RMS) total dissolved solids (TDS) and nitrate (as N) concentrations exceed state maximum contaminant levels (MCLs)*
Land Subsidence	*The rate of inelastic subsidence exceeds 0.5 feet over a five-year period over an area covering approximately five or more square miles*
Depletion of surface water	*20% or more of the NASb interconnected surface water (ISW) representative monitoring sites (RMSs) have minimum threshold exceedances for 2 consecutive Fall measurements (5 out of 23)*

ES 9 – Projects and Management Actions

Because the water budget estimated that the Subbasin may be about 3,500 AFY in deficit with future demands and with climate change, the NASb evaluated a conjunctive use project that can resolve the deficit and has a net benefit of reducing groundwater pumping by 5,000 AFY. The project uses, for the most part, existing infrastructure, so project costs are minimal and are to be funded by the public water suppliers participating in the program.

A second planned project will make improve flood protection and habitat for aquatic species in the Natomas Cross Canal. As part of the continued water resources management of the NASb, six supplemental projects that are in the conceptual or planning level stages are also identified in the event projected conditions are worse than expected.

Five management actions are identified. The first management action is to continue development of the Sacramento Regional Water Bank, which will expand conjunctive use to further ensure basin sustainability. The second action is to explore potential revisions to Placer, Sacramento, and Sutter

counties' and the City of Roseville's well permitting programs to assess whether the permitting ordinances can be improved to be more protective of domestic wells, GDEs and interconnected surface water, along with reducing potential impacts to designated representative wells. The third action is to proactively coordinate with land use agencies on their development of plans and approvals of new developments, to improve communications with the agencies and inform them of findings of this GSP, annual report findings, and whether groundwater can be relied upon for future growth without causing undesirable results. The fourth action will improve data collection and communication with domestic and other shallow well owners to protect these beneficial users of groundwater in the NASb. The fifth action will continue monitoring and assessment of the NASb's GDEs to better understand these ecosystems to help protect them.

ES 10 – Plan Implementation

The NASb GSAs estimate a budget of $1.15 million over the next five years for monitoring, reporting, GSP assessment and update, data management, coordination, outreach, and management actions. The budget also includes a 20 percent contingency for unanticipated expenses. The GSAs have also identified a funding plan in an MOA for GSP implementation. The budget does not include estimates of the costs for conjunctive use or development of the Sacramento Regional Water Bank, which already have funding through individual participating agencies. The budget also does not include the value of the in-kind time being provided by the participating GSAs.

The GSP identifies 28 specific implementation actions with associated schedules, where applicable. These actions are organized into the following categories: monitoring; data management; data analysis; coordination and outreach; and other management activities.

ES 11 – Notice and Communications

The GSAs reached out to the public by developing a website (nasbgroundwater.org) and a list of more than 300 interested parties. The GSAs sought input from small community water systems by notifying them through direct mailer post cards. The GSAs developed informational materials and held over 40 public meetings (both at board and city councils and monthly technical committee meetings) and four NASb-wide public workshops.

The public had opportunities to comment directly on this GSP during releases of draft chapters, through workshops and on the Public Draft GSP. If a comment was specific to an individual section of the GSP, the GSP text was revised. General comments that raised substantial technical or policy issues may have resulted in changes to multiple GSP sections. Comments that were general in nature or that did not raise substantial issues were noted, but no changes were made. The GSAs plan to continue public outreach and stakeholder engagement through the GSP implementation phase through various activities, including an annual public meeting to release the results of the Annual Report and the status of projects and management actions.

RESOLUTION NO. 21-498

APPROVING A MEMORANDUM OF AGREEMENT REGARDING COORDINATION BETWEEN GROUNDWATER SUSTAINABILITY AGENCIES AND IMPLEMENTATION OF THE GROUNDWATER SUSTAINABILITY PLAN FOR THE NORTH AMERICAN SUBBASIN, BY AND BETWEEN THE CITY OF LINCOLN, THE CITY OF ROSEVILLE, THE COUNTY OF PLACER, THE COUNTY OF SUTTER, THE NATOMAS CENTRAL MUTUAL WATER COMPANY, THE PLACER COUNTY WATER AGENCY, THE RECLAMATION DISTRICT 1001, THE SACRAMENTO GROUNDWATER AUTHORITY AND THE SOUTH SUTTER WATER DISTRICT, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Memorandum of Agreement, by and between the City of Lincoln, the City of Roseville, the County of Placer, the County of Sutter, the Natomas Central Mutual Water Company, the Placer County Water Agency, the Reclamation District 1001, the Sacramento Groundwater Authority and the South Sutter Water District, has been reviewed by the City Council;

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said memorandum of agreement is approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this____day of _____, 20_, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

_____
MAYOR

ATTEST:

_____
City Clerk

MEMORANDUM OF AGREEMENT
REGARDING COORDINATION BETWEEN GROUNDWATER SUSTAINABILITY AGENCIES AND IMPLEMENTATION OF THE GROUNDWATER SUSTAINABILITY PLAN FOR THE NORTH AMERICAN SUBBASIN

THIS MEMORANDUM OF AGREEMENT (MOA or Agreement) is entered into and effective this day of [DATE], 2021 (Effective Date) by and among the City of Lincoln, the City of Roseville, the County of Placer, the County of Sutter, the Natomas Central Mutual Water Company, the Placer County Water Agency, the Reclamation District 1001, the Sacramento Groundwater Authority, and the South Sutter Water District (all hereafter known individually as a "Party" and collectively as "Parties").

RECITALS

Whereas, on August 29, 2014, the California Legislature passed comprehensive groundwater legislation contained in SB 1168, SB 1319, and AB 1739. Collectively, those bills, as subsequently amended in later years, enacted the Sustainable Groundwater Management Act (SGMA). Governor Brown signed the legislation on September 16, 2014 and it became effective on January 1, 2015; and

Whereas, SGMA requires "sustainable groundwater management "for all groundwater basins and requires “sustainable groundwater management” via a Groundwater Sustainability Plan (GSP) for all groundwater basins or subbasins that are designated as high-priority or medium- priority basins by the California Department of Water Resources (DWR) in its' report entitled "California's Groundwater: Bulletin 118”; and

Whereas, the North American Subbasin (NASb) of the Sacramento Valley Groundwater Basin, DWR Basin No. 5-21.64, has been designated as a high priority subbasin in Bulletin 118; and

Whereas, the following Groundwater Sustainability Agencies (GSAs) collectively cover under their respective jurisdictions, the entire NASb; Reclamation District 1001; Sacramento Groundwater Authority; South Sutter Water District; County of Sutter (consisting of the County of Sutter and the Natomas Central Mutual Water Company); and West Placer GSA (consisting of the City of Lincoln, the City of

Roseville, the County of Placer, the Nevada Irrigation District and the Placer County Water Agency); and

Whereas, the Nevada Irrigation District Board of Directors took action on November 10, 2021] to formally withdraw from the West Placer GSA thereby removing them as a Party to this Agreement; and

Whereas, the California American Water Company and the Golden State Water Company are participants, as defined by SGMA, in certain GSAs overlying the NASb; and

Whereas, the GSAs overlying the NASb have jointly prepared a single Groundwater Sustainability Plan (GSP) to cover the entire NASb, and each Party plans to adopt the GSP to ensure continued sustainable management of the basin; and

Whereas, it is the desire of the Parties to coordinate on the development and long-term implementation of the GSP for the NASb; and

Whereas, the Parties seek to memorialize the terms and conditions of the development and long-term coordination of the GSP and long term SGMA coordination through this Memorandum of Agreement.

THEREFORE, in consideration of the mutual promises, covenants and conditions herein set forth, the Parties agree as follows:

I. **DEFINITIONS.** As used in this Agreement, the meaning of the terms hereinafter set forth shall be as follows:

A. **"Agreement"** shall mean this Memorandum of Agreement Regarding Coordination Between Groundwater Sustainability Agencies and Implementation of the Groundwater Sustainability Plan for the North American Subbasin.

B. **"Annual Budget" or "Budget"** means the budget provided for in this Agreement.

C. **“California Public Records Act”** shall mean California Government Code section 6250, *et seq*.

D. **“Contracting Entity”** shall mean the Party appointed from time to time by agreement of a majority of the NASb GSA Representatives in the manner set forth in this Agreement, who is authorized to collect funds annually from the approved budgets from each Party and contract with service providers for common GSP activities, including monitoring, analysis, and reporting, as well as implementation of Projects and Management Actions.

E. **“Coordination Committee”** shall mean, the five-member committee organized to oversee GSP implementation and SGMA compliance for the NASb.

F. **“Data Management System” or “DMS”** shall mean a system that is capable of storing and reporting information relevant to the development or implementation of the GSP and monitoring of the subbasin as defined by the GSP Regulations (California Code of Regulations, Title 23, Division 2, Chapter 1.5, Subchapter 2).

G. **"Day” or “Days”** shall mean calendar day.

H. **"Fiscal and Contracting Entity”** shall mean either the GSP Administrator or GSP Coordinator while acting from their home agency to perform financial accounting and contracting duties on behalf of the NASb GSAs.

I. **"Fiscal Year”** shall mean the term to which the Annual Budget applies from July 1 through June 30.

J. **"Funds"** means funds received by the Fiscal and Contracting Entity from the Parties, or any other source for use in carrying out the purposes of this Agreement.

K. **"Groundwater Sustainability Agency" or "GSA"** shall mean an agency or combination of local agencies authorized by SGMA to regulate a portion of

a groundwater subbasin cooperatively with all other Groundwater Sustainability Agencies formed in a subbasin, in compliancewith SGMA.

L. **"Groundwater Sustainability Plan" or "GSP"** shall have the definition set forth in SGMA.

M. **"GSP Coordinator"** shall mean a Coordination Committee Primary or Alternate Representative appointed from time to time by agreement of a majority of the NASb GSA Representatives, in the manner set forth in this Agreement, who is authorized to administer the activities contemplated by this Agreement. Generally, the nature of this position is technical coordination.

N. **"GSP Administrator"** shall mean a Coordination Committee Primary Representative appointed from time to time by agreement of a majority of the NASb GSA Representatives, in the manner set forth in this Agreement, who is authorized to coordinate the activities contemplated by this Agreement. Generally, the nature of this position is administrative including meeting coordination and documentation.

O. **"GSP Managers"** shall mean, collectively, the GSP Coordinator and the GSP Administrator.

P. **"GSP Plan Manager"** shall mean a Coordination Committee Primary or Alternate Representative appointed as GSP Plan Manager, as defined in SGMA, as part of this MOA and by the NASb GSAs from time to time by agreement of a majority of the NASb GSA Representatives. The GSP Plan Manager may also serve as the GSP Coordinator or the GSP Administrator. Generally, the duty of this position is to submit required documents to and be the point of contact with the DWR.

Q. **"Management Action"** shall have the definition set forth in SGMA.

R. **"NASb" or "Subbasin"** as used in this Agreement shall mean the North American Subbasin of the Sacramento Valley Groundwater Basin, DWR Basin No. 5-21.64 as its boundaries may be modified from time to time in accordance with California Water Code section 10722.2.

S. **“NASb GSAs”** as used in this Agreement shall mean the GSAs formed in the North American Subbasin consisting of the Reclamation District 1001 GSA; the Sacramento Groundwater Authority GSA; the South Sutter Water District GSA; the Sutter County GSA; and the West Placer GSA.

T. **“NASb GSA Representative” or “Representative”** shall mean the staff member (and/or alternates), designated from time to time by each NASb GSA, who is authorized to take actions under this Agreement to the extent permitted, until such time as the NASb GSA notifies the GSP Administrator and the other Parties of a change in its NASb GSA Representative.

U. **“Party” or "Parties"** shall mean the entities listed in the Preamble to this Agreement.

V. **“Project”** shall mean projects defined in the GSP and projects proposed by the Parties to this Agreement following adoption of the GSP.

W. **"SGMA"** shall mean the Sustainable Groundwater Management Act and all regulations adopted under the legislation (SB 1168, SB 1319 and AB 1739) that collectively comprise the Act, as that legislation and those regulations may be amended from time to time.

X. **“Super Majority”** shall mean a vote of four-fifths (4/5) of the Coordination Committee representatives voting on an item.

Y. **“Undesirable Results”** shall mean one or more of the following effects as defined in SGMA, caused by groundwater conditions occurring throughout the basin: (NASb specific measures can be found in the GSP):

1. Chronic lowering of groundwater levels indicating a significant and unreasonable depletion of supply if continued over the planning and implementation horizon. Overdraft during a period of drought is not sufficient to establish a chronic lowering of groundwater levels if extractions and groundwater recharge are managed as necessary to ensure that reductions in groundwater levels or storage during a period of drought are offset by increases in groundwater levels or storage during other periods.

2. Significant and unreasonable reduction of groundwater storage.
3. Significant and unreasonable seawater intrusion.
4. Significant and unreasonable degraded water quality, including the migration of contaminant plumes that impair water supplies.
5. Significant and unreasonable land subsidence that substantially interferes with surface land uses.
6. Depletions of interconnected surface water that have significant and unreasonable adverse impacts on beneficial uses of the surface water.

II. PURPOSE AND TERM

A. **Compliance with SGMA.** The purpose of this Agreement is to ensure that: (i) the NASb GSAs, including the members of each NASb GSA, are appropriately coordinated to achieve sustainable management of the basin; (ii) the NASb remains under the coordinated local management of the GSAs and does not become a "probationary" basin as defined by SGMA; and (iii) the NASb GSAs consistently implement the NASb GSP and any subsequent amendments or updates to the GSP as required by SGMA or as otherwise made by the NASb GSAs.

B. **Responsibilities of Parties.** The Parties agree that by executing this Agreement, they are committing to the other Parties to carry out the actions specified in this Agreement in good faith, and in a manner consistent with their individual responsibilities to comply with the California Sustainable Groundwater Management Act of 2014 ("SGMA").

C. **Agreement Term.** This Agreement shall remain in effect until amended or terminated by the Parties as provided herein.

III. ORGANIZING PRINCIPLES

A. **Obligation to Coordinate.**
1. The Parties shall strive to provide for, in addition to the interests of GSAs, the interests of all legal users and stakeholders of groundwater within the NASb. To that end, the Parties intend to update and seek input from the public and other interested stakeholders as part of the NASb GSP implementation and SGMA compliance.

2. The Parties shall consider the interests of all beneficial users and uses of groundwater within the NASb, GSA member agencies, and members of the general public. To that end, the Parties intend to update and seek input from the public and other interested stakeholders as part of the NASb GSP implementation and SGMA compliance.

3. Those Parties with land use authorities shall communicate with and inform other Parties of potential land use decisions as they may relate to the GSP and the intended objectives of SGMA.

4. The Parties will share with each other information that is relevant to GSP implementation and SGMA compliance as provide herein.

B. **Obligation to Fund Common Activities, Projects, and Management Actions**.

The Parties agree to fund common activities that are approved in accordance with this Agreement, to achieve the sustainability goals for the NASb, as may be amended from time to time, and to meet the requirements of SGMA. Common activities include, but are not limited to, monitoring, analysis, and reporting of groundwater conditions and implementation of projects or actions determined necessary for sustainability. For planning and budgeting purposes, anticipated common activities will be estimated over a five-year period for each five-year period leading up to the required GSP updates due to DWR by January 31 of, 2027, 2032, 2037 and 2042. The Parties agree that this Agreement constitutes a binding commitment to fund the approved five-year costs presented and approved, by all Parties, at the beginning of each five-year period.

Individual NASb GSAs will have an obligation to fund approved and required projects or management actions determined necessary by actual measured "Undesirable Results" conditions to mitigate Undesirable Results from discretionary projects or actions (or inactions) taken by them or by their GSA members to ensure the sustainable management criteria are met in compliance with SGMA.

C. **Duties of Individual Parties**.

1. Each Party agrees to individually undertake activities and actions to carry out SGMA, in accordance with the terms of the GSP, within their respective GSA boundaries in the NASb. Each Party, or the GSA that Party is a member of, is individually responsible to make decisions consistent with the GSP and to fund and implement activities, plans, or decisions necessary to prevent Undesirable Results within their respective GSA.

2. Each Party shall appoint and authorize one Primary Representative and one Alternate to participate in coordination functions as described herein, and to facilitate reasonably timely and informed input and direction to the Coordination Committee and the GSP Managers.

3. By execution of this Agreement, each Party confirms the authority of its Primary Representative or Alternate to provide input and direction to the Coordination Committee and the GSP Managers on behalf of that Party, and each Party understands that the Coordination Committee and the GSP Managers may undertake further consideration or conduct further analysis on the basis of that input and direction.

4. Each Party shall work cooperatively and in good faith with other Parties within their respective GSA boundaries to manage local groundwater to meet Sustainability Criteria as established and defined within the NASb GSP and to investigate, and address if applicable, Undesirable Results as defined within the NASb GSP.

5. Parties with land use authorities shall work in good faith when making land use decisions to do so in a manner consistent with the GSP and shall seek to achieve the intended objectives of SGMA within the NASb.

IV. GOVERNANCE

A. NASb Coordination Committee.

1. **Purpose.** The purpose of the NASb Coordination Committee is to oversee GSP implementation and SGMA compliance for the NASb.

2. **Representatives.** Each GSA a shall appoint a Primary representative from the staff level to the Coordination Committee. Each GSA shall also appoint an Alternate representative, from the staff level, to serve in the place of Primary representative should the Primary representative be unavailable to attend a Coordination Committee meeting(s). Each NASb GSA Representative and Alternate will serve at the pleasure of the appointing Party. There will be no limit on the term of participation.

3. **Engagement** Each GSA agrees to use best efforts to ensure at least one of its NASb GSA Representatives attend Coordination Committee meetings. If a NASb GSA is not represented by at least one of its NASb GSA representatives at more than two consecutive meetings, the GSP Administrator may request the GSA appoint a new representative(s).

4. **Meeting Frequency.** The NASb Coordination Committee will strive to meet at least quarterly of each calendar year but may meet more or less frequently as otherwise determined by the Coordination Committee. Meetings of the Coordination Committee are not public meetings unless specifically advertised as public by the Coordination Committee and as provided below.

   The NASb Coordination Committee will hold at least one annual public meeting to inform and update stakeholders on NASb activities and basin wide conditions. Nothing within this Agreement precludes the Coordination Committee or individual NASb GSAs from holding additional public stakeholder meetings regarding GSP activities. NASb GSAs shall provide reasonable notice to the Coordination Committee of any planned public meetings regarding GSP activities that they intend to hold regarding NASb GSP activities.

   If a NASb GSA holds a public meeting for their stakeholders regarding GSP activities, the GSA shall provide the Coordination Committee with documentation of the meeting for posting on the NASb website. Acceptable documentation includes but is not limited to presentation recording (if recorded), presentation materials, and meeting agenda/minutes.

5. **Designation of Fiscal and Contracting Entity.** The Coordination Committee shall designate either the GSP Administrator or GSP Coordinator to serve as the Fiscal and Contracting Entity for the Coordination Committee.

6. **Responsibilities.** The Coordination Committee will have the responsibility and authority to act on or otherwise manage the following, on its own account, or through the Fiscal and Contracting Entity, as the case may be:

    i. Selection of the GSP Plan Manager, GSP Coordinator, GSP Administrator, and the Contracting Entity, if not otherwise identified herein.

    ii. Development and adoption of an annual work plan and associated annual budget.

    iii. Approval of service providers, scope of work, fee, and schedule for contracted work.

    iv. Review, comment, and approval of technical work, including monitoring, analysis, and reporting.

    v. Selection of Projects and Management Actions.

    vi. Reporting back to their respective NASb GSAs on GSP implementation.

7. **Quorum.** A majority (three of five – 3/5) of NASb GSA Representatives (one from each GSA) on the Coordination Committee will constitute a Quorum. A Quorum is required for the Coordination Committee to meet.

8. **Meeting Location.** The Coordination Committee may meet in a virtual setting or in person at locations agreed to by the Coordination Committee.

9. **Agenda.** An Agenda will be developed by the GSP Coordinator or GSP Administrator in advance of each Coordination Committee meeting.

B. **GSP Coordinator, GSP Administrator, GSP Plan Manager, and Fiscal and Contracting Entity.**

1. **Selection.** The Parties hereby appoint the Primary or Alternate Representative from the Sacramento Groundwater Authority GSA to be the GSP Coordinator and GSP Plan Manager. The Parties hereby appoint the Primary Representative from the West Placer GSA to be the GSP Administrator. The Fiscal and Contracting Entity shall be selected by the Coordination Committee.

2. **Term.** The Coordination Committee will reaffirm the GSP Managers and the Fiscal and Contracting Entity at the first meeting of the Coordination Committee of each calendar year and they will also be reevaluated at the time of each GSP Update as required by SGMA. If the GSP Coordinator and/or the GSP Administrator or the Fiscal and Contracting Entity is unable to fulfill the required responsibilities as set forth herein, the Coordination Committee shall, by a Super Majority vote, reassign the role to another NASb GSA Representative, or, through the Fiscal and Contracting Entity, retain Consultant services. If the Fiscal and Contracting Entity is unable to fulfil the required responsibilities as set forth herein, the Coordinating Committee shall reassign the role to another Party to fulfill the responsibilities.

3. **Responsibilities.**

   i. The GSP Coordinator will be responsible for the following:

      a. Coordinate the preparation and submittal of Annual Reports as required by SGMA.

      b. Coordinate the preparation and submittal of GSP Updates as required by SGMA.

   ii. The GSP Administrator will be responsible to:

      a. Plan and facilitate Coordination Committee meetings and action items.

   iii. The GSP Plan Manager will be responsible to:
      a. To submit required documents to and be the point of contact with the DWR.

iv. The Fiscal and Contracting Entity will be responsible to:

a. Collect the established contributions to the annual budget at the beginning of each budget year.

b. Contract with service providers, including professional consultants and construction contractors, to implement common GSP activities.

v. The GSP Managers, if requested by the Coordination Committee shall:

a. Prepare grant applications and administration of grants.

b. Contract for consulting services after review and recommendation of the Coordination Committee.

c. Manage projects.

vi. The Fiscal and Contracting Entity shall comply with the procurement and contracting requirements of their respective entity, as well as state and federal laws as applicable.

vii. The GSP Managers shall be designated to fulfill, or provide direction to the Fiscal and Contracting Entity for the following actions upon and after prior approval by the Coordination Committee:

a. To undertake or arrange for approved activities in accordance with the provisions of this Agreement consistent with the approved budget and approving action by the Coordinating Committee.

b. To apply for, accept and expend Funds for use in carrying out the purposes of this Agreement consistent with the approved budget and approving action by the Coordinating Committee.

c. To hold Funds for the purposes herein mentioned provided such Funds are not presently needed to pay costs related to the authorized uses of such Funds under this Agreement consistent with the approved budget and approving action by the Coordinating Committee.

d. To make and enter into contracts reasonably necessary to carry out the purpose of this Agreement, consistent with the approved budget,

recommended action and scope of activities by the Coordinating Committee and within that agency's procurement rules and regulations.

viii. Fiscal and Contracting Entity shall have the following responsibilities:

a. Serve as the contracting counterparty for engagement of third-party service providers, including consultants and contractors as the Coordination Committee directs, be engaged through approved contracts.

b. Establish separate accounts, and receive, hold, manage, and provide strict accounting for funds contributed by the members, or obtained from other sources such as grant proceeds, in furtherance of this Agreement. The Fiscal and Contracting Entity shall perform these functions as a fiduciary for the Committee.

V. INFORMATION SHARING

A. **Obligation to Share Information.** The Parties acknowledge and recognize pursuant to this Agreement that the Parties will need to exchange information amongst and between the Parties. The Parties agree that each NASb GSA shall provide the data reasonably required to implement the GSP, develop the Annual Report and update the GSP as required by SGMA.

B. **Procedure for Exchange of Information.**

1. The Parties shall exchange relevant public and non-privileged information through collaboration and/or informal requests made at the Coordination Committee level or through subcommittees designated by the Coordination Committee. However, to the extent it is necessary to make a written request for information to another Party, each Party shall designate a representative to respond to information requests and provide the name and contact information of the designee to the Coordination Committee. Requests may be communicated in writing and transmitted in person or by mail, email, or other electronic means to the designated representative. The designated representative shall respond in a reasonably timely manner.

2. Nothing in this Agreement shall be construed to prohibit any Party from voluntarily exchanging information with any other Party by any other mechanism separate from the Coordination Committee.

3. The Parties agree that the Coordination Committee is not a public agency and shall take reasonable steps to refer any data requests made under the Public Records Act or otherwise to the appropriate NASb GSA or public entity.

4. To the extent that a court order, subpoena, or the California Public Records Act is applicable to a Party and applicable or relevant to the GSP, such Party in responding to a request made pursuant to any such authority for release of information exchanged from another Party or Parties shall notify each Party in writing of its proposed release of information within a reasonable time prior to disclosure to allow the appropriate entity the ability to seek a court order restricting such disclosure.

C. **Disclosures.** The Parties agree to disclose to the other Parties non-privileged information that is reasonably relevant to GSP implementation and SGMA compliance. Information that is not time sensitive (e.g., groundwater quality results) shall be disclosed through the NASb GSA representative at the next Coordination Committee meeting or to the GSP Managers. Information that is deemed time sensitive (e.g., groundwater substitution request with timelines attached) shall be disclosed within 5 business days in writing, via mail, email, or other electronic means, to each NASb GSA Coordination Committee Primary or Alternate Representative and to the GSP Managers.

VI. FUNDING PROVISIONS

A. **Budget.**

1. The Coordination Committee shall create, approve, and recommend an Annual Budget aligned to the fiscal year, which will run from July 1 through June 30. The initial annual budget shall be prepared and agreed to within ninety (90) days of the effective date of this Agreement and include a five-year look ahead and budget estimate for the period leading up to the first required GSP update. Thereafter, a Budget shall be agreed upon no later than February 1 of the preceding fiscal year or other such date as approved

by the Coordination Committee. The Budget must be approved by unanimous vote of the Coordinating Committee and recommended for approval to and subsequently approved by the governing body of each Party to this Agreement.

a. Where the Annual Budget anticipates expenditures attributable to multiple NASb GSAs, the Fiscal and Contracting Entity, as approved by the Coordination Committee, will be responsible for handling funds and reporting on financial accounts as otherwise described in Section III, herein. Funds collected but not used in a fiscal year will roll over as a contribution for the following year.

   The Annual Budget shall identify the activities, costs, and cost share to each NASb GSA associated with common expenses required to meet SGMA / GSP compliance. The first year annual Draft Budget is contained in Exhibit 1. Also included in Exhibit 1 is a five-year projection of total costs required to submit the first required NASb GSP update by January 31, 2027.

B. **Coordination Expenses.** Each NASb GSA shall share in the general operating and administrative costs of complying with SGMA and implementing the GSP as approved in the Annual Budget. Approved budgeted costs shall be shared in accordance with the percentages set forth in Exhibit 2 attached hereto and incorporated herein. The cost share formula shall remain in effect for the five-year projected expenses in Exhibit 1 at which time the formula will be reviewed for equity.

C. **Alternative Funding Sources.** The Coordination Committee may pursue State of California, federal, local, or private company grants, but shall not create any indebtedness without prior approval of all Parties to this Agreement.

D. **Accounting of Funds**. The Fiscal and Contracting Entity shall maintain a strict accounting of funds collected, spent, and maintained on behalf of the Coordinating Committee, and shall provide fiscal statements not less frequently than Annually. The books and records of the Fiscal Agent shall be open to inspection by any Party upon reasonable notice.

E. **Individual Party Resources**. Each Party shall bear its own costs associated with activities performed under this Agreement. No Party shall incur debt, liabilities, or obligations on behalf of any other Party unless provided for in a separate agreement.

VII. DECISION-MAKING

A. **Voting.**

1. In the event a vote of the Coordination Committee is necessary, each GSA Representative shall be entitled to one vote. Said vote may be cast by either the Primary or Alternate Representative.

2. The GSA Representative (or, if applicable, GSA Alternate Representative) must be in attendance at a meeting to vote.

3. Prior to voting, the Coordination Committee shall endeavor in good faith to reach consensus on the matters to be determined such that any subsequent vote shall be to confirm the consensus of the Coordination Committee. If any NASb GSA Representative objects to a consensus-based decision prior to a vote being cast, the Representative shall work in good faith to reasonably resolve such objection, and, if the same is not resolved collaboratively, then the matter will proceed to a vote for final resolution.

B. **Unanimous vote Requirements for Certain Actions**. Coordination Committee recommendation of the Annual Budget will require a unanimous vote.

C. **Super Majority Vote Requirements for Certain Actions.** All actions not considered as general business, as determined by the Coordination Committee, shall require a Super Majority vote of the Coordination Committee.

VIII. GROUNDWATER MONITORING NETWORK

A. **Obligation to Develop and Maintain a Groundwater Monitoring Network.** In accordance with SGMA, the Parties hereby agree to coordinate in the development, information sharing, and maintenance of a Groundwater Monitoring Network at the Subbasin level and as established pursuant to the

NASb GSP. This may include but not be limited to the addition of monitoring wells if determined necessary to assess basin conditions in accordance with the GSP and/or SGMA, making repairs to and taking measurements at monitoring network facilities, and collection and analysis of water quality samples.

IX. DATA MANAGEMENT SYSTEM

A. **Obligation to Develop and Maintain a Data Management System.** In accordance with SGMA, the Parties hereby agree to coordinate in the development, information sharing and maintenance of a Data Management System capable of storing and reporting information relevant to the reporting requirements established pursuant to the GSP and SGMA. Data shall be provided in the format required by the Data Management System.

X. REQUEST TO JOIN, WITHDRAW AND TERMINATION

A. **Request to Join.** Requests to join this Agreement shall be considered by the Coordination Committee and per the provisions of Section XIII, Other Provisions/Modifications.

B. **Termination of Participation.**

1. Each Party may, in its sole discretion, unilaterally withdraw from and terminate its participation in this Agreement effective upon ninety (90) days prior written notice to the NASb GSA Representatives participating on the Coordination Committee and the GSP Managers, provided that the withdrawing Party will remain responsible for its proportionate share of any indebtedness incurred prior to the effective date of withdrawal. Such withdrawal by a Party will not cause a termination of this Agreement as to the remaining Parties.

2. Upon withdrawal, the withdrawing Party acknowledges it has a continuing obligation to comply with SGMA and any coordination guidelines or regulations issued by the Department of Water Resources or the State Water Resources Control Board. The Withdrawing Party also acknowledges the need to coordinate with all NASb GSAs in accordance

with applicable law. This obligation shall survive the withdrawal from this Agreement and is for the express benefit of the remaining Parties.

3. Subject to the requirements of Section XI, Procedures for Resolving Conflict, nothing in this section shall be construed as a limitation on the right of a Party to seek legal remedies against a Withdrawing Party.

4. Upon withdrawal, any Party shall be entitled to use any data or other information developed under this Agreement during its time as a Party to this Agreement. After withdrawal, a Party shall be entitled to utilize the NASb GSP for future implementation of SGMA compliance within its legal boundary. Should the Withdrawing Party have an obligation under State law to comply with SGMA, the Withdrawing Party agrees to comply with the coordination requirements set forth in SGMA allowing multiple GSPs over a basin.

C. **Termination.** The Agreement shall terminate if the requirements of SGMA are no longer applicable. This Agreement may be terminated by a unanimous vote of the Parties. However, in the event of termination, each of the Parties will remain responsible for its proportionate share of all debts, liabilities and obligations incurred prior to the effective date of termination.

XI. PROCEDURES FOR RESOLVING CONFLICT

A. Procedures for Resolving Conflict

1. If any dispute arises among the Parties relating to this Agreement or the rights and obligations arising from this Agreement, the aggrieved Party or Parties shall provide written notice to the GSP Managers of the dispute. Within 20 days after receipt of such written notice, the GSP Administrator and/or GSP Coordinator shall call a meeting of the Coordination Committee. Members of the Coordination Committee shall attempt in good faith to resolve the dispute through informal means for a period of 60 days. If the Parties, through the Coordination Committee, cannot agree upon resolution of the dispute within 60 days from the date of the first meeting of the Coordination Committee on the issue in dispute, the Parties shall submit the dispute to non-binding mediation prior to commencement of any legal action. The cost of mediation shall be paid in equal proportion

amongst Parties involved in the dispute. Upon completion of mediation, if the controversy has not been resolved, any Party may exercise any and all rights to bring a legal action relating to the dispute.

2. In the event a dispute or claim is not resolved by a mutually agreeable settlement through negotiation or mediation, the aggrieved Party may file suit in Placer County Superior Court, Sacramento County Superior Court, or Sutter County Superior Court.

XII. OTHER PROVISIONS

A. **Agreement Limitations.** The Parties expressly intend that this Agreement shall not limit or interfere with the respective Parties' rights and authorities over their own internal matters, including, but not limited to, a Party's legal rights to surface water supplies and assets, groundwater supplies and assets, facilities, operations, water management and water supply matters. The Parties make no commitments by entering into this Agreement to share or otherwise contribute their water supply assets as part of the development or implementation of a GSP.

B. **Amendment of Agreement.** The Parties agree this Agreement may be amended from time to time by a written amendment approved by unanimous vote of the Coordination Committee and subsequent approval by all Parties.

C. **Non-Indemnification.** No Party to this Agreement, nor any director, officer or employee of a Party, shall be responsible for any damage or liability occurring by reason of anything done or omitted to be done by another Party under or in connection with this Agreement.

D. **Good Faith.** The Parties agree to exercise their best efforts and good faith to effectuate all terms and conditions of the Agreement and, to take appropriate, expedient, or proper actions reasonably necessary to carry out the intent and purposes of this Agreement.

E. **Governing Law.** The validity and interpretation of this Agreement will be governed by the laws of the State of California.

F. **Counterparts.** This Agreement may be executed in any number of counterparts, each of which will be an original, but all of which will constitute one and the same agreement.

G. **Construction and Interpretation.** The Agreement has been developed through negotiation and each of the Parties has had a full and fair opportunity to review and to make suggestions to revise the terms of this Agreement. As a result, the normal rule of construction that any ambiguities are to be resolved amongst the drafting Parties shall not apply in the construction or interpretation of this Agreement.

H. **Severability.** If any term, provision, covenant, or condition of this Agreement is determined to be unenforceable by a court of competent jurisdiction, it is the Parties' intent that the remaining provisions of this Agreement will remain in full force and effect and will not be affected, impaired, or in validated by such a determination.

I. **Authority of Signers.** The individuals executing this Agreement represent and warrant that they have the authority to enter into this Agreement and to legally bind the Party for whom they are signing to the terms and conditions of this Agreement.

IN WITNESS WHEREOF, the Parties have executed this Agreement on the day and year first above-written.

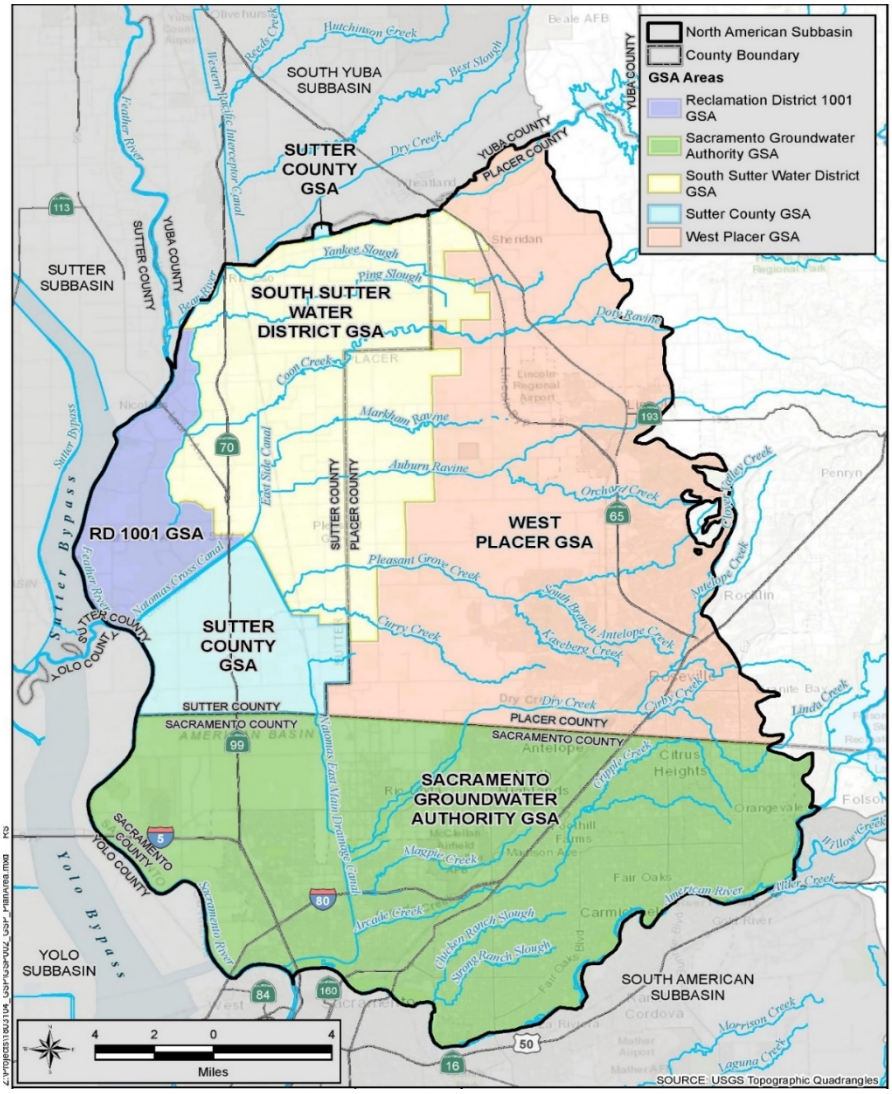
Exhibit 2: Cost Sharing Acreage Summary

Exhibit 1



2022 ANNUAL BUDGET AND FOUR-YEAR PROJECTION SUMMARY					
GSA Name	**Estimated Annual Contribution by GSAs (a)**				
	2022	**2023**	**2024**	**2025**	**2026**
Reclamation District 1001	11,673	11,673	11,673	11,673	11,673
Sacramento Groundwater Authority	83,171	83,171	83,171	83,171	83,171
South Sutter Water District	44,521	44,521	44,521	44,521	44,521
Sutter County	13,583	13,583	13,583	13,583	13,583
West Placer Groundwater Sustainability Agency	76,912	76,912	76,912	76,912	76,912
TOTAL	**$229,860**	**$229,860**	**$229,860**	**$229,860**	**$229,860**
FIVE-YEAR TOTAL	**$1,149,300**				

NOTES:

a. The Parties acknowledge the need to establish an aggregate contingency budget of up to 20%. Any future use of any portion of the contingency budget shall be provided to each GSA for review and approved by a unanimous vote of the Parties at a GSA Basin Coordination Meeting before implementation. Upon approval of the use of the contingency budget, SGA will invoice the Parties to collect the agreed upon contingency amount.

Exhibit 2

COST SHARING SUMMARY		
GSA Name	**Total Acreage**	**Percent Share**
Reclamation District 1001	17,394.5	5.08%
Sacramento Groundwater Authority	123,933.3	36.18%
South Sutter Water District	66,340.6	19.37%
Sutter County	20,240.2	5.91%
West Placer Groundwater Sustainability Agency	114,607.8	33.46%
TOTAL	**342,516.4**	**100%**

There are 5 Groundwater Sustainability Agencies (GSAs) that cover the entire North American Groundwater Subbasin as illustrated above. For the **West Placer GSA,** it is made up of:

- City of Roseville
- City of Lincoln
- Placer County Water Agency
- Placer County
- California American Water
