GENERAL NOTES:		GENERAL NOTES CONT:		GENERAL NOTES CONT:			
1. ALL WORK SHALL COMPLY WITH APPLICABLE STATE, FEDERAL, AND LOCAL CODES, AND ALL NECESSARY LICENSES AND PERMITS SHALL BE OBTAINED BY THE CONTRACTOR AT ITS EXPENSE, UNLESS OTHERWISE SPECIFIED IN THE CONTRACT DOCUMENTS. 2. DEVIATION FROM THESE PLANS WITHOUT THE PRIOR WRITTEN CONSENT OF THE ENGINEER MAY BE CAUSE FOR THE WORK TO BE UNACCEPTABLE. 3. IN THE EVENT OF A CONFLICT BETWEEN THE AGREEMENT, ITS EXHIBITS, OR THE CONSTRUCTION DOCUMENTS (PLANS AND SPECIFICATIONS) THE AGREEMENT CONTROLS, FOLLOWED BY ITS EXHIBITS. 4. ALL PIPE LENGTHS AND DISTANCES BETWEEN STRUCTURES ARE MEASURED FROM CENTER OF STRUCTURE TO CENTER OF STRUCTURE ALONG A HORIZONTAL PLANE UNLESS OTHERWISE STATED OR SHOWN. 5. ELEVATIONS FOR THE PROPOSED PIPELINE ARE TO THE INVERT OF THE PIPE AS SHOWN ON PROFILE. 6. MINOR CHANGES IN THE HORIZONTAL AND VERTICAL ALIGNMENT OF THE PIPELINES MAY BE PROPOSED BY THE CONTRACTOR AND SUBMITTED TO THE ENGINEER FOR APPROVAL TO FACILITATE CONSTRUCTION AND AVOID FIELD CONFLICTS. 7. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING SURVEY MONUMENTS OR MARKERS DURING CONSTRUCTION. 8. LOCATIONS OF EXISTING SHOWN UTILITIES ARE APPROXIMATE. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO DETERMINE THE SIZE, DEPTH, ORIENTATION, MATERIAL AND LOCATION OF ALL EXISTING UNDERGROUND UTILITIES PRIOR TO CONSTRUCTION AND SUBMIT THIS INFORMATION TO THE ENGINEER. THE CONTRACTOR SHALL TAKE WHATEVER STEPS ARE NECESSARY TO PROVIDE FOR THE PROTECTION OF EXISTING UTILITIES. THE ENGINEER HAS ATTEMPTED TO LOCATE AND INDICATE ALL EXISTING FACILITIES ON THE PLANS; HOWEVER, THIS INFORMATION IS SHOWN FOR THE CONTRACTOR'S CONVENIENCE ONLY. THE ENGINEER OR CITY OF ROSEVILLE ASSUMES NO RESPONSIBILITY FOR THE LOCATIONS OF UTILITIES SHOWN OR NOT SHOWN. CONTRACTOR SHALL HAVE ALL UTILITIES LOCATED BY CALLING "UNDERGROUND SERVICE ALERT" ("USA") 1-800-227-2600 TWO (2) DAYS MINIMUM TO FOURTEEN (14) DAYS MAXIMUM BEFORE BEGINNING ANY EXCAVATION. THE CONTRACTOR SHALL CONTACT ANY UTILITY COMPANY WHOSE UTILITIES ARE NOT LOCATED BY "USA" FOR EXACT LOCATION OF THEIR UTILITIES PRIOR TO STARTING CONSTRUCTION. IT SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR TO REPAIR AND/OR REPLACE ANY AND ALL DAMAGE MADE TO UTILITIES BY THE CONTRACTOR TO EXISTING CONDITIONS AT THE CONTRACTOR'S EXPENSE. THE CONTRACTOR SHALL COORDINATE WORK WITH CONFLICTING UTILITIES AND PROVIDE FOR REMOVAL, RELOCATION AND REPLACEMENT AS NECESSARY FOR INSTALLATION OF THE PROPOSED UTILITIES. UTILITY COORDINATION SHALL BE INCLUDED IN THE PROJECT SCHEDULE AND IT IS THE EXPLICIT RESPONSIBILITY OF THE CONTRACTOR TO ASSURE THAT THE PROJECT SCHEDULE INCLUDES THE NECESSARY RELOCATION. THE CONTRACTOR SHALL NOT BE PAID ADDITIONALLY FOR THIS COORDINATION OR ANY RELOCATION. 9. BURIED TELEPHONE, GAS AND CATV CABLES (FIBER OPTICS AND CONVENTIONAL) ARE KNOWN TO VARY IN DEPTH AND LOCATION DUE TO INSTALLATION TECHNIQUES. THE CONTRACTOR SHALL BE FULLY RESPONSIBLE FOR COORDINATING WITH THE UTILITY COMPANY TO DETERMINE SPECIFIC UTILITY LOCATIONS AND NOTIFYING THE ENGINEER OF THE EXACT LOCATION (HORIZ & VERT) OF THE UTILITIES. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL COSTS ASSOCIATED WITH LOCATING. COORDINATION FOR RELOCATION OR REPAIR OF BURIED CABLES AND GAS ALONG THE PIPELINE ALIGNMENT. 10. EXISTING OVERHEAD ELECTRIC AND TELEPHONE TRANSMISSION LINES IN THE PROJECT AREA MAY BE NOT SHOWN ON DRAWINGS. EXTREME CAUTION SHALL BE USED WHEN WORKING IN THE VICINITY OF OVERHEAD UTILITIES SO AS TO PREVENT INJURY TO WORKERS OR DAMAGE TO THE UTILITIES. 11. THE CONTRACTOR SHALL NOTIFY THE ENGINEER IMMEDIATELY SHOULD ANY FIELD CONDITIONS BE ENCOUNTERED THAT VARY FROM THE INFORMATION PROVIDED IN THE CONTRACT DOCUMENTS. 12. THE CONTRACTOR SHALL NOTIFY ROSEVILL ELECTRIC PRIOR TO EXCAVATING CLOSER THAN TEN FEET TO AN EXISTING UTILITY POLE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR COORDINATING ANY ADDITIONAL SUPPORT OF EXISTING POWER POLES AS REQUIRED FOR TRENCH EXCAVATION. ALL COSTS OF SUCH WORK SHALL BE PAID BY THE CONTRACTOR. 13. THE CONTRACTOR SHALL INSTALL ALL TEMPORARY AND PERMANENT SIGNS AS REQUIRED BY THE CITY OF ROSEVILLE. IN ACCORDANCE WITH TRAFFIC CONTROL PLANS PROVIDED BY THE CONTRACTOR AND APPROVED BY THE AGENCY OR JURISDICTION. 14. THE CONTRACTOR SHALL INSTALL PROJECT DESCRIPTION TEMPORARY SIGNS AS REQUIRED BY PERMIT CONDITIONS . CONTRACT DOCUMENTS, ENGINEER OR CITY OF ROSEVILLE. 15. MINIMUM PIPE COVER FOR ALL UTILITIES SHALL BE AS SHOWN ON THE PLANS BUT NO LESS THAN 3 FEET UNLESS LESS COVER IS SPECIFICALLY APPROVED BY THE ENGINEER OR SHOWN ON PLANS. 16. THE CONTRACTOR SHALL REMOVE AND REINSTALL ALL EXISTING FENCE AS REQUIRED FOR FACILITIES INSTALLATION. ANY ADDITIONAL FENCE MATERIALS REQUIRED SHALL BE PROVIDED BY THE CONTRACTOR AT NO ADDITIONAL COST TO THE PRIVATE PROPERTY OWNERS OR CITY OF ROSEVILLE. REPLACED FENCE SHALL MATCH EXISTING FENCE TYPE. 17. CARE SHALL BE TAKEN TO PROTECT EXISTING PLANTS, SHRUBS, TREES, LAWN, LANDSCAPE AREAS AND IRRIGATION SYSTEMS. ANY ITEMS REMOVED OR DAMAGED SHALL BE REPLACED. ALL ITEMS WHICH REQUIRE REMOVAL OR ARE DAMAGED BY THE CONTRACTOR'S OPERATION SHALL BE REPLACED TO ORIGINAL CONDITION AND TO THE APPROVAL OF THE ENGINEER AND AT CONTRACTOR COST.		18. PRIOR TO CONSTRUCTION, CONTRACTOR SHALL DEVELOP AND SUBMIT TO THE ENGINEER AN EXCAVATION AND SHORING PLAN. THE CONTRACTOR SHALL FURNISH AND INSTALL ALL SHEETING, SHORING AND BRACING REQUIRED FOR THE INSTALLATION OF THE UTILITY. ALL EXCAVATIONS SHALL BE KEPT WITHIN THE BOUNDARIES OF DESIGNATED EASEMENTS. 19. PRIOR TO CONSTRUCTION, THE CONTRACTOR SHALL DEVELOP AND SUBMIT TO THE ENGINEER, A TRAFFIC CONTROL PLAN. THE CONTRACTOR SHALL COMPLY WITH THE APPROVED TRAFFIC CONTROL PLAN AT ALL TIMES. THE CONTRACTOR SHALL BE SOLELY AND COMPLETELY RESPONSIBLE FOR FURNISHING, INSTALLING AND MAINTAINING ALL WARNING SIGNS AND DEVICES NECESSARY TO SAFEGUARD THE GENERAL PUBLIC AND THE WORK, AND TO PROVIDE FOR THE PROPER AND CONTINUOUS SAFE ROUTING OF VEHICULAR AND PEDESTRIAN TRAFFIC DURING THE PERFORMANCE OF THE WORK. THIS REQUIREMENT SHALL APPLY CONTINUOUSLY AND NOT BE LIMITED TO WORKING HOURS. THE USE OF FLAGGERS, BARRICADES AND CONSTRUCTION SIGNING SHALL COMPLY WITH THE CALIFORNIA MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (CMUTCD), LATEST EDITION. 20. ALL MATERIAL CLEARED AND GRUBBED BY THE CONTRACTOR IN ORDER TO CONSTRUCT THE WORK, SUCH AS TREES, VEGETATION, FENCING, ETC., SHALL BECOME THE PROPERTY OF THE CONTRACTOR AND SHALL BE PROPERLY DISPOSED OF OFF-SITE AT AN APPROVED DISPOSAL SITE. 21. THE CONTRACTOR SHALL MAINTAIN A SAFE MEANS FOR VEHICULAR AND PEDESTRIAN INGRESS/EGRESS AT ALL TIMES. 22. THE CONTRACTOR SHALL PROVIDE ALL CONSTRUCTION SURVEYING. 23. ALL CONSTRUCTION ACTIVITY SHALL BE LIMITED TO STREET RIGHTS-OF-WAY, CITY OF ROSEVILLE PROPERTY, AND TEMPORARY CONSTRUCTION EASEMENTS OR LICENSE AREA AS SHOWN ON PLANS. 24. THE CONTRACTOR SHALL RESTORE ALL ACCESS ROADS AND STREETS WITHIN THE CONSTRUCTION LIMITS TO PRE-CONSTRUCTION CONDITIONS OR BETTER WITH THE EXCEPTION OF IMPROVEMENTS AS SHOW ON THE CONTRACT DRAWINGS. 25. ALL TRENCHING AND BACKFILL SHALL BE IN ACCORDANCE WITH CITY OF ROSEVILLE STANDARDS AND AS MODIFIED IN THE CONSTRUCTION DETAILS ELSEWHERE IN THE PLANS AND TECHNICAL SPECIFICATIONS. TRENCH BACKFILL SHALL BE MECHANICALLY COMPACTED. ALL TRENCHES SHALL BE CLOSED OR COVERED SECURELY WITH STEEL TRENCH PLATES AT THE END OF THE WORK DAY. 26. FOR ALL TRENCHING EXCAVATIONS 5 FEET OR MORE IN DEPTH, THE CONTRACTOR SHALL OBTAIN A PERMIT FROM THE DIVISION OF INDUSTRIAL RELATIONS PRIOR TO BEGINNING ANY EXCAVATION. A COPY OF THIS PERMIT SHALL BE AVAILABLE AT THE CONSTRUCTION SITE AT ALL TIMES. 27. THE CONTRACTOR SHALL ONLY ACCESS THE CONSTRUCTION AREAS VIA ROUTES DESIGNATED AS "CONSTRUCTION ACCESS" ON THE PLANS. ACCESS TO CONSTRUCTION AREAS VIA ALTERNATE ROUTES IS PROHIBITED, UNLESS CONTRACTOR RECEIVES APPROVAL FROM PROPERTY OWNER IN WRITING. CONTRACTOR SHALL PROVIDE CITY OF ROSEVILLE A COPY OF THE SIGNED AGREEMENT BEFORE USING THE ALTERNATE ACCESS. CONTRACTOR SHALL BE RESPONSIBLE FOR ALL CITY / STATE / COUNTY / ENVIRONMENTAL PERMITTING FOR ALT ENTRANCES. 28. THE CONTRACTOR SHALL CONDUCT ALL WORK WITHIN THE AREAS DESIGNATED AS "CONSTRUCTION LIMITS" ON THE PLANS. 29. THE CONTRACTOR SHALL VERIFY ALL DIMENSIONS PRIOR TO STARTING CONSTRUCTION. THE ENGINEER SHALL BE NOTIFIED OF ANY DISCREPANCIES OR INCONSISTENCIES. 30. STRUCTURES NOTED IN THE PLANS AS EXISTING SHALL BE FIELD VERIFIED BY THE CONTRACTOR AND ANY DISCREPANCIES NOTED SHALL BE REPORTED TO THE ENGINEER. 31. TYPICAL DETAILS AND SCHEDULES INDICATED MAY NOT BE SPECIFICALLY REFERENCED ON THE PLANS. THE CONTRACTOR IS RESPONSIBLE TO DETERMINE WHERE EACH TYPICAL DETAIL OR SCHEDULE APPLIES. IF LOCATIONS ARE FOUND WHERE NO TYPICAL DETAIL, TYPICAL SCHEDULE, OR SPECIFIC DETAIL APPLIES, THE ENGINEER SHALL BE NOTIFIED. 32. OBSERVATION VISITS (SITE VISITS) BY REPRESENTATIVES OF CITY OF ROSEVILLE DO NOT INCLUDE INSPECTION OF CONSTRUCTION MEANS AND METHODS. SITE VISITS DURING CONSTRUCTION ARE NOT CONTINUOUS AND DETAILED INSPECTION SERVICES ARE TO BE PERFORMED BY OTHERS. OBSERVATIONS ARE PERFORMED SOLELY FOR THE PURPOSE OF DETERMINING IF THE CONTRACTOR UNDERSTANDS DESIGN INTENT SHOWN IN THE CONTRACT DRAWINGS. OBSERVATIONS DO NOT GUARANTEE CONTRACTOR'S PERFORMANCE AND ARE NOT TO BE CONSTRUED AS SUPERVISION, THE VERIFICATION OF CONSTRUCTION, OR ACCEPTANCE OF THE WORK. 33. ALL SPECIFICATIONS AND CODES NOTED SHALL BE THE LATEST APPROVED EDITIONS AND REVISIONS BY THE AGENCY HAVING JURISDICTION OVER THIS PROJECT. 34. DISPOSAL OF ALL EXISTING MATERIALS NOTED TO BE DEMOLISHED SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR. 35. CONSTRUCTION AT THE SITE MUST COMPLY WITH APPLICABLE PROVISIONS OF THE CALIFORNIA FIRE CODE CHAPTER 33 "FIRE SAFETY DURING CONSTRUCTION AND DEMOLITION" AND STANDARD DETAIL AND SPECIFICATION SI-7. 36. CONTRACTOR SHALL MONITOR, RECORD AND REPORT GROUND WATER / STORM WATER DISCHARGE FOR ALL DISCHARGE PER SPEC 01140.		37. ALL CONSTRUCTION SHALL CONFORM TO THE LATEST EDITION OF THE CITY OF ROSEVILLE STANDARD SPECIFICATIONS, DESIGN & CONSTRUCTION STANDARDS, AND THE SPECIAL PROVISIONS. 38. THE CITY OF ROSEVILLE IS A MEMBER OF THE UNDERGROUND SERVICE ALERT (USA) ONE-CALL SYSTEM. 39. THE CONTRACTOR SHALL MARK IN THE WHITE PAINT ALL AREAS TO BE EXCAVATED PRIOR TO CONTACTING USA. ANY AREAS NOT MARKED WILL NOT BE SUBJECT TO USA, AND THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE RESULTING FROM EXCAVATION. 40. THE CONTRACTOR SHALL TAKE EXTREME CARE TO PROTECT EXISTING SITE AND ADJACENT IMPROVEMENTS FROM THE DAMAGE. THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR OR REPLACE ALL CRACKS AND/OR DAMAGE MADE TO PRE-EXISTING PUBLIC IMPROVEMENTS ALONG THE FRONTAGE OF THE PROJECT SITE AND ANY DAMAGE OF PRE-EXISTING FACILITIES RESULTING FROM CONSTRUCTION, TO CURRENT CITY STANDARDS AND AT THEIR OWN EXPENSE. THE EXTENT OF THE REPAIRS SHALL BE DETERMINED BY THE DEVELOPMENT SERVICES CONSTRUCTION INSPECTOR AND SHALL BE COMPLETED PRIOR TO THE CITY'S ACCEPTANCE OF THE IMPROVEMENTS. 41. THE CONTRACTOR SHALL MAINTAIN ALL EXISTING WATER, SEWER AND/OR DRAINAGE FACILITIES WITHIN THE CONSTRUCTION AREA UNTIL THE PROPOSED IMPROVEMENTS ARE IN PLACE AND FUNCTIONING. 42. CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING MONUMENTS AND OTHER SURVEY MARKERS ON THE JOB SITE. CONTRACTOR SHALL NOTIFY ENGINEER WHERE THE WORK MIGHT CAUSE SURVEY MONUMENTS TO BECOME DISTURBED OR DESTROYED. CONTRACTOR SHALL PROVIDE A LICENSES LAND SURVEYOR TO SET REFERENCES AND RESTORE SURVEY MONUMENTS IN ACCORDANCE WITH COUNTY AND CITY STANDARDS. 43. CONTRACTOR SHALL COORDINATE AND NOTIFY THE CONSTRUCTION MANAGER WHEN WORK IS READY FOR INSPECTIONS. PRESENCE OR ABSENCE OF INSPECTOR WILL NOT RELIEVE CONTRACTOR OF FULL RESPONSIBILITY FOR PROPER PERFORMANCE ON WORK. 44. CONTRACTOR SHALL REMOVE AND LEGALLY DISPOSE OF ALL MATERIALS THAT ARE TO BE REMOVED FROM THE SITE INCLUDING, SURPLUS EXCAVATION MATERIALS AND DEBRIS. CONTRACTOR SHALL MAINTAIN THE SITE IN A SAFE, NEAT AD ORDERLY CONDITION. CONTRACTOR SHALL DELIVER MATERIALS OR EQUIPMENT TO BE SALVAGED AND RETURNED TO THE OWNER AT THE LOCATION TO BE DETERMINED BY THE ENGINEER. 45. CONTRACTOR SHALL ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR JOB SITE CONDITIONS AND SECURITY, INCLUDING PROTECTION OF PUBLIC AND PRIVATE PROPERTY ADJACENT TO THE PROJECT SITE DURING THE CONSTRUCTION OF THE PROJECT. 46. ALL EXISTING FACILITIES NOT DESIGNATED FOR REMOVAL/DEMOLITION DURING CONSTRUCTION OF NEW FACILITIES TO BE PROTECTED IN PLACE RE REPLACED IN KIND AT THE CONTRACTORS OWNERS EXPENSE. 47. ALL PAVEMENT, INCLUDING ASPHALT CONCRETE (AC) AND PORTLAND CEMENT (PCC) PAVING SHALL BE SAW CUT TO A NEAT STRAIGHT LINE AND THE EXPOSED EDGE SHALL BE TACKED WITH EMULSION PRIOR TO PAVING. THE EXPOSED BASE MATERIAL SHALL BE GRADED, RECOMPACTED AND RESEALED PRIOR TO PAVING. 48. COMPLY WITH ALL FEDERAL, STATE AND LOCAL LAWS AND ORDINANCES RELATING TO SAFETY AND CHARACTER OF WORK, EQUIPMENT AND LABOR COMPLIANCE. THIS SHALL INCLUDE, BUT NOT LIMITED TO, SHORING OF TRENCHES, AND VENTILATION OF CONFINED SPACES. 49. CONTRACTOR SHALL VERIFY ALL CONTROLLING FIELD DIMENSIONS BEFORE COMMENCING WORK. 50. WHEN EXCAVATION IS REQUIRED AROUND EXISTING UTILITIES THOSE UTILITIES SHALL BE SUPPORTED USING STEEL BEAMS OR OTHER SUITABLE SUPPORTS. 51. ALL CONCRETE TO BE USED IN CURBS AND SIDEWALKS SHALL BE MINOR CONCRETE AS DEFINED IN THE CORDCS. 52. THE CONTRACTOR SHALL SUBMIT A TRAFFIC CONTROL PLAN THAT SHALL BE APPROVED BY ENGINEERING DIVISION BEFORE START OF WORK IN RIGHT-OF-WAY AND SHALL BE IN ACCORDANCE WITH THE MOST RECENT VERSION OF THE MUTCD WITH ALL APPLICABLE CALIFORNIA SUPPLEMENTS 7 AMENDMENTS. AT LEAST ONE LAGE IN EACH DIRECTION SHALL REMAIN OPEN TO TRAFFIC UNLESS OTHERWISE SHOWN ON THE PLANS. TRAFFIC CONTROL HOURS ARE SUBJECT TO LIMITATION BY THE CITY. TRAFFIC CONTROL WITH LANE CLOSURES THAT AFFECT TRAFFIC FLOW MAY REQUIRE NIGHT WORK. IF, AS A PART OF TRAFFIC CONTROL MEASURES, A ROADWAY CLOSURE HAS BEEN APPROVED, THE CONTRACTOR SHALL NOTIFY ENGINEERING DIVISION 72 HOURS IN ADVANCE OF SETTING UP THIS CLOSURE.		53. CONTRACTOR SHALL COMPLY WITH ALL ENVIRONMENTAL POLLUTION CONTROL RULES, REGULATIONS, ORDINANCES AND STATUTES WHICH APPLY TO ANY WORK PERFORMED PURSUANT TO THE CONTRACT, INCLUDING ANY WATER POLLUTION CONTROL RULES, REGULATIONS AND STATUTES SPECIFIED BY THE MOST CURRENT STATE OF CALIFORNIA NPDES GENERAL PERMIT FOR STORM WATER DISCHARGES ASSOCIATES WITH CONSTRUCTION ACTIVITY. (REFER TO GENERAL CONDITIONS SECTION 5, FOR ADDITIONAL REQUIREMENTS). IN THE EVENT OF ANY VIOLATIONS THE CONTRACTOR SHALL BE FULLY RESPONSIBLE FOR ALL FINES, CITATIONS, PENALTIES AND ALL OTHER JUDGEMENTS THAT SHALL BE IMPOSED. 54. THE CONTRACT DOCUMENTS SHALL CONSTITUTE THESE PLANS, THE TECHNICAL SPECIFICATIONS, THE GENERAL CONDITIONS, THE SUPPLEMENTARY CONDITIONS, AND ALL REFERENCE DOCUMENTS INCLUDING THE MOST RECENT VERSION OF THE CITY OF ROSEVILLE DESIGN AND CONSTRUCTION STANDARDS.

1. UNLESS OTHERWISE NOTED, PLAN DIMENSIONS ARE TO NOMINAL SURFACE OF MASONRY, FACE OF STUDS AND FACE OF CONCRETE WALLS.
2. REPETITIVE FEATURES ARE NOT DRAWN IN THEIR ENTIRETY AND SHALL BE COMPLETELY PROVIDED AS IF DRAWN IN FULL.
3. CONTRACTOR SHALL VERIFY ALL ROUGH-IN DIMENSIONS FOR EQUIPMENT PROVIDED IN THIS CONTRACT, OR BY OTHERS.
4. REFER TO ARCHITECTURAL, STRUCTURAL, MECHANICAL, ELECTRICAL AND OTHER CATEGORIES OF DRAWINGS FOR ADDITIONAL NOTES.
5. VERIFY SIZE AND LOCATION OF, AND PROVIDE: ALL OPENINGS THROUGH FLOORS AND WALLS, ACCESS DOORS, FURRING, CURBS, ANCHORS AND INSERTS. PROVIDE ALL BASES, BLOCKING REQUIRED FOR ACCESSORIES, MECHANICAL, ELECTRICAL AND OTHER EQUIPMENT.

1. THE NON-RESIDENTIAL PROVISIONS OF THE 2016 CALGREEN CODE OUTLINE PLANNING, DESIGN AND DEVELOPMENT METHODS THAT INCLUDE ENVIRONMENTAL RESPONSIBLE SITE SELECTION, BUILDING DESIGN, BUILDING SITTING AND DEVELOPMENT TO PROTECT, RESTORE AND ENHANCE THE ENVIRONMENTAL QUALITY OF THE SITE AND RESPECT THE INTEGRITY OF ADJACENT PROPERTIES; ESTABLISHES THE MEANS OF CONSERVING WATER USED INDOORS, OUTDOORS AND IN WASTEWATER CONVEYANCE; OUTLINES MEANS OF ACHIEVING MATERIAL CONSERVATION AND RESOURCE EFFICIENCY; AND OUTLINES MEANS OF REDUCING THE QUANTITY OF AIR CONTAMINANTS.
2. SWPPP: DEVELOP A SWPPP COMPLIANT WITH STATE STORM WATER NPDES CONSTRUCTION PERMIT OR LOCAL ORDINANCE, WHICHEVER IS STRICTER PER CALGREEN 5.106.1.
3. GRADING AND PAVING: SITE GRADING AND DRAINAGE SYSTEM SHALL SLOPE AWAY FROM THE BUILDING PER THE CONSTRUCTION DRAWINGS AND CALGREEN 5.106.10.
4. WEATHER PROTECTION: PROVIDE A WEATHER-RESISTANT EXTERIOR WALL AND FOUNDATION ENVELOPE AS SHOWN IN THE CONSTRUCTION DRAWINGS AND AS REQUIRED BY CALIFORNIA BUILDING CODE SECTION 1403.2 AND CALIFORNIA ENERGY CODE SECTION 150, MANUFACTURER'S INSTALLATION INSTRUCTIONS OR LOCAL ORDINANCE, WHICHEVER IS MORE STRINGENT PER CALGREEN 5.407.1.
5. CONSTRUCTION WASTE MANAGEMENT: RECYCLE AND/OR SALVAGE FOR REUSE A MINIMUM OF 65% OF NONHAZARDOUS CONSTRUCTION AND DEMOLITION DEBRIS OR MEET LOCAL ORDINANCE, WHICHEVER IS MORE STRINGENT PER CALGREEN 5.408.1.
6. CONSTRUCTION WASTE MANAGEMENT PLAN: WHERE A LOCAL JURISDICTION DOES NOT HAVE A CONSTRUCTION AND DEMOLITION WASTE MANAGEMENT ORDINANCE THAT IS MORE STRINGENT, SUBMIT A CONSTRUCTION WASTE MANAGEMENT PLAN PER CALGREEN 5.408.1.1.
7. WASTE MANAGEMENT COMPANY: UTILIZE A WASTE MANAGEMENT COMPANY THAT CAN PROVIDE VERIFIABLE DOCUMENTATION THAT THE PERCENTAGE OF CONSTRUCTION AND DEMOLITION WASTE MATERIAL DIVERTED FROM THE LANDFILL COMPLIES WITH THE CONSTRUCTION WASTE MANAGEMENT. THE OWNER OR CONTRACTOR SHALL MAKE THE DETERMINATION IF THE CONSTRUCTION AND DEMOLITION WASTE MATERIAL WILL BE DIVERTED BY A WASTE MANAGEMENT COMPANY PER CALGREEN 5.408.1.2.
8. DOCUMENTATION: PROVIDE TO THE ENFORCING AGENCY WHICH DEMONSTRATES COMPLIANCE WITH CALGREEN SECTION 5.408.1.1 THROUGH 5.408.1.3. THE WASTE MANAGEMENT PLAN SHALL BE UPDATED AS NECESSARY AND SHALL BE ACCESSIBLE DURING CONSTRUCTION FOR EXAMINATION BY THE ENFORCING AGENCY PER CALGREEN 5.408.1.4.
9. EXCAVATED SOIL AND LAND CLEARING DEBRIS: 100 PERCENT OF TREES, STUMPS, ROCKS AND ASSOCIATED VEGETATION AND SOILS FROM LAND CLEARING SHALL BE REUSED OR RECYCLED PER CALGREEN 5.408.3.
10. TESTING AND ADJUSTING: TESTING AND ADJUSTING OF SYSTEMS SHALL BE REQUIRED FOR NEW BUILDINGS LESS THAN 10,000 SQUARE FEET OR NEW SYSTEMS TO SERVE AN ADDITION OR ALTERATION SUBJECT TO CALGREEN SECTION 303.1 PER CALGREEN SECTION 5.410.4.
11. SYSTEMS: DEVELOP A WRITTEN PLAN OF PROCEDURES FOR TESTING AND ADJUSTING SYSTEMS. SYSTEMS TO BE INCLUDED FOR TESTING AND ADJUSTING SHALL INCLUDE, AS APPLICABLE TO THE PROJECT HVAC AND LIGHTING AND CONTROLS PER CALGREEN 5.410.4.2.
12. PROCEDURES: PERFORM TESTING AND ADJUSTING PROCESS IN ACCORDANCE WITH THE PROJECT SPECIFICATIONS, MANUFACTURER'S SPECIFICATIONS AND CALGREEN 5.410.4.3.
13. REPORTING: AFTER COMPLETION OF TESTING, ADJUSTING, AND BALANCING, PROVIDE A FINAL REPORT OF TESTING SIGNED BY THE INDIVIDUAL RESPONSIBLE FOR PERFORMING THE SERVICES PER CALGREEN 5.410.4.4.
14. O & M MANUAL: PROVIDE THE BUILDING OWNER OR REPRESENTATIVE WITH DETAILED OPERATING AND MAINTENANCE INSTRUCTIONS AND COPIES OF GUARANTIES/WARRANTIES FOR EACH SYSTEM. O & M INSTRUCTIONS SHALL BE CONSISTENT WITH THE PROJECT SPECIFICATIONS, OSHA REQUIREMENTS IN CCR, TITLE 8 SECTION 5142, AND CALGREEN 5.410.4.5. INCLUDE A COPY OF ALL INSPECTION VERIFICATIONS AND REPORTS REQUIRED BY THE ENFORCING AGENCY.

15. COVERING OF DUCT OPENING AND PROTECTION OF MECHANICAL EQUIPMENT DURING CONSTRUCTION: AT THE TIME OF ROUGH INSTALLATION OR DURING STORAGE ON THE CONSTRUCTION SITE AND UNTIL FINAL STARTUP OF THE HEATING AND COOLING EQUIPMENT, ALL DUCT AND OTHER RELATED AIR DISTRIBUTION COMPONENT OPENINGS SHALL BE COVERED WITH TAPE, PLASTIC, SHEET METAL OR OTHER METHODS ACCEPTABLE TO THE ENFORCING AGENCY TO REDUCE THE AMOUNT OF DUST OR DEBRIS WHICH MAY COLLECT IN THE SYSTEM PER CALGREEN 5.504.3.
16. ADHESIVES, SEALANTS, CAULKS: ADHESIVES AND SEALANTS USED ON THE PROJECT SHALL MEET THE REQUIREMENTS OF THE FOLLOWING STANDARDS PER CALGREEN 5.504.4.1:
 - a. ADHESIVES, ADHESIVE BONDING PRIMERS, ADHESIVE PRIMERS, SEALANTS, SEALANT PRIMERS, AND CAULKS SHALL COMPLY WITH LOCAL OR REGIONAL AIR POLLUTION CONTROL OR AIR QUALITY MANAGEMENT DISTRICT RULES WHERE APPLICABLE, OR SCAQMD RULE 1168 VOC LIMITS, AS SHOWN IN CALGREEN TABLES 5.504.4.1 AND 5.504.4.2.
 - b. AEROSOL ADHESIVES, AND SMALLER UNIT SIZES OF ADHESIVES, AND SEALANT OR CAULKING COMPOUNDS (IN UNITS OF PRODUCT, LESS PACKAGING, WHICH DO NOT WEIGH MORE THAN ONE POUND AND DO NOT CONSIST OF MORE THAN 16 FLUID OUNCES) SHALL COMPLY WITH STATEWIDE VOC STANDARDS AND OTHER REQUIREMENTS, INCLUDING PROHIBITIONS ON USE OF CERTAIN TOXIC COMPOUNDS, OF CALIFORNIA CODE OF REGULATIONS, TITLE 17, COMMENCING WITH SECTION 94507.
17. PAINTS AND COATINGS: ARCHITECTURAL PAINTS AND COATINGS SHALL COMPLY WITH CALGREEN TABLE 5.504.4.2 UNLESS MORE STRINGENT LOCAL LIMITS APPLY PER CALGREEN 5.504.4.3.
18. AEROSOL PAINTS AND COATINGS: AEROSOL PAINTS AND COATINGS SHALL MEET THE PWMIR LIMITS FOR ROC IN SECTION 94522(A)(3) AND OTHER REQUIREMENTS, INCLUDING PROHIBITIONS ON USE OF CERTAIN TOXIC COMPOUNDS AND OZONE DEPLETING SUBSTANCES IN SECTIONS 94522(C)(2) AND (D)(2) OF CALIFORNIA CODE OF REGULATIONS, TITLE 17, COMMENCING WITH SECTION 94520 PER CALGREEN 5.504.4.3.1.
19. VERIFICATION: VERIFICATION OF POLLUTANT CONTROL SHALL BE PROVIDED AT THE REQUEST OF THE ENFORCING AGENCY. DOCUMENTATION MAY INCLUDE, BUT IS NOT LIMITED TO, THE MANUFACTURER'S PRODUCT SPECIFICATION OR FIELD VERIFICATION OF ON-SITE PRODUCT CONTAINERS PER CALGREEN 5.504.4.3.2.
20. INDOOR MOISTURE CONTROL: BUILDINGS SHALL MEET OR EXCEED THE PROVISIONS OF CBC, CCR, TITLE 24, PART 2, SECTIONS 1203 (VENTILATION) AND CHAPTER 14 (EXTERIOR WALLS) PER CALGREEN 5.505.1.
21. OUTSIDE AIR DELIVERY: FOR MECHANICALLY OR NATURALLY VENTILATED SPACES IN BUILDINGS, MEET THE MINIMUM REQUIREMENTS OF SECTION 120.1 OF THE 2013 CEC, OR THE APPLICABLE LOCAL CODE, WHICHEVER IS MORE STRINGENT, AND DIVISION 1, CHAPTER 4 OF CCR, TITLE 8 PER CALGREEN 5.506.1.
22. CFCS: INSTALL HVAC AND REFRIGERATION EQUIPMENT THAT DOES NOT CONTAIN CFCS PER CALGREEN 5.508.1.1.

DOOR SCHEDULE						
DOOR NUMBER	DOOR DIMENSION	LITES	SILL DETAIL	EXIT DEVICE	WALL	CLOSURE
1	5'-8" x 7'-2"	G	8110, TYPE B	R	CMU	R
2	3'-0" x 7'-2"	G	8110, TYPE B	NR	CMU	R
3	3'-0" x 7'-2"	G	8111	R	CMU	NR
4	5'-8" x 7'-10"	-	8110, TYPE B	R	CMU	R

1. INSTALL DOORS AND FRAMES IN ACCORDANCE WITH THE STEEL DOOR INSTITUTE'S RECOMMENDATIONS. PROVIDE TRIM AND JOINT SEALANT AROUND FRAMES TO INSURE A WEATHERTIGHT BARRIER.
2. SEE SPEC SECTION 08700 - DOOR HARDWARE FOR ALL DOOR HARDWARE INCLUDING EXIT DEVICES AND PRIVACY LATCHES. PROVIDE CLOSERS ONLY ON EXTERIOR DOORS.
3. R = REQUIRED, NR = NOT REQUIRED, NP = NOT PERMITTED, G = HALF GLASS, N = NARROW LITE

WEST SIDE TANK AND
PUMP STATION PROJECT
(PHASE 2)
ROSEVILLE, CALIFORNIA

GENERAL

DATE	NOVEMBER 2019
PROJECT NUMBER	17-083
DRAWING NUMBER	WD00-G-007
SHEET NUMBER	7

DESIGN CRITERIA:

1. APPLICABLE CODE: 2016 CALIFORNIA BUILDING CODE (2015 INTERNATIONAL BUILDING CODE (IBC), AS AMENDED BY THE STATE OF CALIFORNIA).
2. REFER TO THE SPECIFICATIONS FOR ADDITIONAL AND SPECIFIC STRUCTURAL LOADINGS AND REQUIREMENTS.
3. ROOF LOAD:
- MINIMUM LIVE LOAD 20 psf
4. FLOOR LOAD:
- LIGHT MANUFACTURING 125 psf
 - STAIRS AND EXITS 100 psf
5. WIND LOAD:
- BASIC WIND SPEED (ASCE 7-10) 115 mph
 - EXPOSURE CATEGORY C
 - DESIGN METHOD DIRECTIONAL PROCEDURE
6. SEISMIC LOAD:
- RISK CATEGORY IV
 - IMPORTANCE FACTOR I_e 1.5
 - S_s : 0.538 S_{os} : 0.491
 - S_1 : 0.260 S_{o1} : 0.326
 - SITE CLASS D
 - SEISMIC DESIGN CATEGORY D
7. LATERAL FORCE RESISTING SYSTEM:
- FACILITY 20 TREATMENT BUILDING
 - SPECIAL REINFORCED MASONRY SHEAR WALLS
 - $V = C_s W$
 - $C_s = 0.148$
 - $R = 5$
 - ANALYSIS PROCEDURE = EQUIVALENT LATERAL FORCE
 - FACILITY 40 PARTIALLY BURIED CONCRETE TANK
 - $R_c = 1.0$
 - $R_t = 3.25$
 - $V = \text{SQRT}[(P_1 + P_2 + P_3)^2 + P_4^2 + P_{EG}^2]$
 - ANALYSIS PROCEDURE = AWWA D110-13, ACI 350.3-06, and ASCE 7-10

GENERAL INFORMATION:

1. ALL CONSTRUCTION SHALL CONFORM TO THE 2016 EDITION OF THE BUILDING CODE.
2. DESIGN DETAILS ARE INTENDED TO BE TYPICAL AND SHALL APPLY TO ALL SIMILAR SITUATIONS OCCURRING THROUGHOUT THE PROJECT, WHETHER OR NOT THEY ARE KEYED IN EACH LOCATION. CONSULT THE ENGINEER FOR REVIEW PRIOR TO CONSTRUCTION.
3. VERIFY ALL OPENING DIMENSIONS IN WALLS, SLABS, AND DECKS WITH THE ARCHITECTURAL, MECHANICAL, HVAC AND ELECTRICAL DRAWINGS.
4. FOR NUMBER, TYPE, SIZE, ARRANGEMENT, AND/OR LOCATION OF EQUIPMENT PADS AND OPENINGS SEE ARCHITECTURAL, MECHANICAL, ELECTRICAL, HVAC AND PLUMBING DRAWINGS. COORDINATE ALL OPENINGS AND EQUIPMENT PADS WITH OTHER DISCIPLINES AND EQUIPMENT SUPPLIERS PRIOR TO PLACING SLABS, WALLS AND FOUNDATIONS.
5. NO STRUCTURAL MEMBER SHALL BE CUT FOR PIPES, DUCTS, ETC UNLESS SPECIFICALLY DETAILED OR APPROVED IN WRITING BY THE ENGINEER.

FOUNDATIONS:

1. IN ACCORDANCE WITH THE GEOTECHNICAL INVESTIGATION REPORT #11801.103 BY BAJADA GEOSCIENCES INC., FOUNDATIONS HAVE BEEN DESIGNED FOR THE FOLLOWING VALUES:
- ALLOWABLE BEARING CAPACITY:
 - PRESTRESSED CONCRETE TANK 4,000 psf
 - ALL OTHER FACILITIES 2,000 psf
 - MINIMUM FOOTING EMBEDMENT 18 INCHES
 - LATERAL EARTH PRESSURES (DRAINED):
 - ACTIVE 40 pcf
 - AT-REST 55 pcf
 - LATERAL EARTH PRESSURE (UNDRAINED):
 - ACTIVE 81 pcf
 - AT-REST 90 pcf
 - PASSIVE RESISTANCE 350 pcf
 - SLIDING FRICTION COEFFICIENT:
 - NATIVE SOILS 0.30
 - AT THE PRESTRESSED CONC TANK 0.40
2. NO BACKFILL SHALL BE PLACED BEHIND CANTILEVERED, FREE TOP WALLS UNTIL THE CONCRETE HAS ATTAINED 100% OF ITS SPECIFIED COMPRESSIVE STRENGTH.
3. GRADE TO DRAIN AWAY FROM STRUCTURES A MINIMUM GRADE OF 5% FOR A MINIMUM OF 10'-0" FROM STRUCTURE PERIMETER.
4. THE CONTRACTOR SHALL PROVIDE THE ENGINEER AT LEAST 48 BUSINESS HOURS NOTICE FOLLOWING EXCAVATION FOR FOUNDATIONS AND PRIOR TO THE PLACEMENT OF FORMWORK, REINFORCING STEEL AND CONCRETE.

FORMWORK, SHORING AND BRACING:

1. THE STRUCTURES SHOWN ON THE DRAWINGS HAVE BEEN DESIGNED FOR STABILITY UNDER FINAL CONDITIONS ONLY. THE DESIGN SHOWN DOES NOT INCLUDE THE NECESSARY COMPONENTS OR EQUIPMENT FOR THE STABILITY OF THE STRUCTURE DURING CONSTRUCTION. THE CONTACTOR IS RESPONSIBLE FOR ALL WORK RELATING TO CONSTRUCTION ERECTION METHODS, BRACING, SHORING, RIGGING, GUYS SCAFFOLDING, FORMWORK, AND OTHER WORK AIDS REQUIRED TO SAFELY PERFORM THE WORK SHOWN. CONSTRUCTION OF SHORING AND BRACING OF FORMWORK SHALL BE IN ACCORDANCE WITH ACI 347 "GUIDE TO FORMWORK FOR CONCRETE".

CONCRETE:

1. STRUCTURAL CONCRETE SHALL HAVE A MINIMUM COMPRESSIVE STRENGTH OF 4,000 PSI AND 5,000 PSI AS SPECIFIED IN SECTION 03300 - CAST-IN-PLACE CONCRETE. NONSTRUCTURAL CONCRETE SHALL HAVE A MINIMUM COMPRESSIVE STRENGTH OF 2,500 PSI
2. THE CONTRACTOR SHALL SUBMIT THE CONCRETE MIX DESIGNS TO THE ENGINEER FOR REVIEW AND APPROVAL PRIOR TO USE.
3. HORIZONTAL CONSTRUCTION JOINTS SHALL BE PREPARED TO EXPOSE CLEAN, SOLIDLY EMBEDDED AGGREGATE OVER THE ENTIRE JOINT INTERFACE.
4. PLACEMENT OF PIPES, CONDUITS OR OTHER EMBEDDED ITEMS IN THE CONCRETE SHALL BE IN ACCORDANCE WITH THESE DRAWINGS OR SHALL BE APPROVED BY THE ENGINEER.
5. NO ALUMINUM OR ANY OTHER MATERIAL INJURIOUS TO CONCRETE SHALL BE EMBEDDED IN THE CONCRETE.
6. CONCRETE SHALL BE MIXED AND DELIVERED IN ACCORDANCE WITH ASTM C94.
7. THE REQUIREMENTS FOR CONCRETE MIXES, PLACING, TESTING AND CURING ARE CONTAINED IN THE PROJECT SPECIFICATIONS.
8. PORTLAND CEMENT SHALL CONFORM TO ASTM C150 TYPE II, AGGREGATE SHALL CONFORM TO ASTM C33.
9. CONTINUOUS WATERSTOP, AS SPECIFIED, SHALL BE INSTALLED IN ALL EXPANSION, CONTRACTION, CONTROL AND CONSTRUCTION JOINTS IN WALLS AND SLABS OF WATER HOLDING BASINS, EXCEPT WHERE SPECIFICALLY NOTED OTHERWISE.
10. THE CONCRETE JOINTS IN SLABS AND WALLS, AS SHOWN, ARE MINIMUM REQUIREMENTS. CONTRACTOR MAY SUBMIT ALTERNATE CONSTRUCTION JOINT LAYOUT DRAWINGS, SUBJECT TO SPECIFIED REQUIREMENTS, TO THE ENGINEER FOR REVIEW AND APPROVAL PRIOR TO CONSTRUCTION.
11. THE CONTRACTOR SHALL PROVIDE THE ENGINEER AT LEAST 48 BUSINESS HOURS NOTICE PRIOR TO THE PLACEMENT OF CONCRETE TO ALLOW SUFFICIENT TIME FOR INSPECTIONS AND SCHEDULING OF TESTING SERVICES.

CONCRETE REINFORCING:

1. CLEARANCE FOR REINFORCEMENT BARS, UNLESS SHOWN OTHERWISE, SHALL BE: CAST AGAINST EARTH = 3", CONCRETE SURFACES OF WATER BEARING STRUCTURES = 2", ALL OTHER CONCRETE SURFACES: #5 BAR OR SMALLER = 1 1/2", #6 BAR OR LARGER = 2".
2. REFER TO WALL CORNER AND WALL INTERSECTION REINFORCING DETAIL 3303. WALL CORNER REINFORCING SIZES AND SPACINGS SHALL BE AS SHOWN ON THE DRAWINGS AND REFERENCED TO THIS DETAIL. TYPICAL HORIZONTAL WALL REINFORCING SHALL LAP WITH THE CORNER HORIZONTAL REINFORCING.
3. PROVIDE A MINIMUM OF TWO VERTICAL WALL BARS WITH MATCHING DOWELS AT WALL ENDS, CORNERS AND INTERSECTIONS WITH SIZE TO MATCH TYPICAL VERTICAL REINFORCING STEEL AS SHOWN. VERTICAL WALL BARS SHALL BE LAPPED WITH DOWELS FROM BASE SLABS AND EXTENDED INTO THE TOP FACE OF ROOF SLABS AND LAPPED WITH TOP SLAB REINFORCEMENT.
4. ALL BENDS, UNLESS OTHERWISE SHOWN, SHALL BE 90 DEGREE ACI 318 STANDARD HOOKS.
5. ALL REINFORCING BENDS AND LAPS, UNLESS OTHERWISE NOTED, SHALL SATISFY THE FOLLOWING MINIMUM REQUIREMENTS:
- | CONCRETE DESIGN STRENGTH = 4,000 PSI # | | GRADE 60 REINFORCED STEEL | | | | | | |
|--|--|---------------------------|-------|-------|--------|-------|--------|-------|
| BAR SIZE | | #4 | #5 | #6 | #7 | #8 | #9 | #10 |
| LAP SPLICE LENGTH | | | | | | | | |
| TOP BAR * | | 2'-8" | 3'-4" | 4'-0" | 5'-10" | 6'-8" | 7'-7" | 8'-6" |
| OTHER BAR | | 2'-1" | 2'-7" | 3'-1" | 4'-6" | 5'-2" | 5'-10" | 6'-7" |
- * TOP BARS SHALL BE DEFINED AS ANY HORIZONTAL BARS PLACED SUCH THAT MORE THAN 12" OF CONCRETE IS CAST IN THE MEMBER BELOW THE BAR IN ANY SINGLE POUR. HORIZONTAL WALL BARS ARE CONSIDERED TOP BARS.
- # WHERE 3,000 PSI CONCRETE IS USED, INCREASE ABOVE LENGTHS BY 16%.

STRUCTURAL STEEL:

1. STRUCTURAL STEEL SHALL BE FABRICATED AND ERECTED IN ACCORDANCE WITH AISC SPECIFICATIONS AND CODE OF STANDARD PRACTICE.
2. STRUCTURAL STEEL SHALL CONFORM TO THE FOLLOWING ASTM DESIGNATION:
- HOLLOW STRUCTURAL SECTIONS: A500 GRADE B MINIMUM $F_y = 46$ ksi
 - PIPE: A53 GRADE B MINIMUM $F_y = 35$ ksi
 - WIDE FLANGE SECTIONS: A992 MINIMUM $F_y = 50$ ksi
 - PLATES, ANGLES, AND CHANNELS: A36 MINIMUM $F_y = 36$ ksi
3. OPENINGS SHALL NOT BE PLACED IN STEEL MEMBERS UNLESS SPECIFICALLY DETAILED ON THE STRUCTURAL PLANS.
4. STRUCTURAL STEEL SHALL BE FREE OF EXCESSIVE RUST, MILL SCALE OR GREASE.
5. ALL WELDING SHALL BE PERFORMED BY AWS CERTIFIED WELDERS AND SHALL CONFORM TO THE REQUIREMENTS OF CBC SECTION 2204 AND THE AMERICAN WELDING SOCIETY (AWS), LATEST EDITION, AS FOLLOWS:
- D1.1, STRUCTURAL WELDING CODE – STEEL
 - D1.2, STRUCTURAL WELDING CODE – ALUMINUM
 - D1.6, STRUCTURAL WELDING CODE – STAINLESS STEEL
6. WELDING ELECTRODES SHALL BE THE FOLLOWING TYPES: E70XX.
7. ALL FILLET WELDS SHALL BE AISC MINIMUM AND BUTT WELDS SHALL BE COMPLETE JOINT PENETRATION (CJP) UNLESS INDICATED OTHERWISE.
8. ALL BOLTS SHALL BE HIGH-STRENGTH ASTM A325X UNLESS NOTED OTHERWISE. ASTM F1852 HIGH-STRENGTH BOLTS SHALL BE USED FOR TWIST-OFF BOLTS. ALL HIGH-STRENGTH BOLTED CONNECTIONS SHALL BE ASSUMED TO BE SNUG-TIGHTENED JOINTS. SLIP CRITICAL CONNECTIONS SHALL BE NOTED AS A325X-SC, UNLESS NOTED OTHERWISE.
9. DISTANCE FROM EDGE OF PLATE TO CENTER OF BOLT SHALL BE 1 1/2" UNO.
10. INSTALLATION AND INSPECTION OF HIGH STRENGTH BOLTS SHALL CONFORM TO THE REQUIREMENTS OF THE LATEST AISC SPECIFICATION, SPECIFICATION FOR STRUCTURAL JOINTS USING HIGH-STRENGTH BOLTS (RCSC).
11. THE STRUCTURAL STEEL FABRICATOR/CONTRACTOR SHALL FURNISH SHOP DRAWINGS OF ALL STRUCTURAL STEEL FOR ENGINEERS REVIEW AND APPROVAL PRIOR TO FABRICATION.

SHEET NUMBER
8

PREFABRICATED OPEN WEB METAL JOISTS:

1. JOISTS SHALL BE DESIGNED, FABRICATED AND ERECTED IN ACCORDANCE WITH THE STANDARD SPECIFICATIONS OF THE AISC AND THE STEEL JOIST INSTITUTE.
2. DESIGN OPEN WEB STEEL JOISTS FOR THE FOLLOWING LOADS:
- ROOF LIVE LOAD 20 psf
 - SUPERIMPOSED ROOF DEAD LOAD 15 psf
 - FASCIA 200 lb CONCENTRATION AT OVERHANGS
 - MECH/ELEC/PIPING 300 lb POINT LOAD AT ANY PANEL POINT (BTM CHORD)
 - NET WIND UPLIFT, TYPICAL JOIST 18 psf OUTWARD
 - ROOF OVERHANGS 27 psf OUTWARD
 - AXIAL TOP CHORD DRAG FORCE 2.41 k (ASD, TENSION AND COMPRESSION)
3. LOADS INDICATED ABOVE ARE MINIMUM DESIGN LOADS AND SHALL NOT BE CONSTRUED TO BE ALL LOADS APPLICABLE TO THE DESIGN OF THE OPEN WEB METAL JOISTS. DEAD LOADS INFERRED BY THE DRAWINGS WHICH WOULD BE INCLUDED IN COMMON PRACTICE, INCLUDING EQUIPMENT LOADS AND CONSTRUCTION LOADS, SHALL BE INCLUDED IN THE DESIGN.
4. VERIFY AND COORDINATE EQUIPMENT WEIGHTS, LOCATIONS, AND ATTACHMENT REQUIREMENTS PRIOR TO JOIST FABRICATION. EQUIPMENT SUPPLIER SHALL BE RESPONSIBLE FOR THE DESIGN OF THE VERTICAL AND LATERAL SUPPORT OF THEIR EQUIPMENT. JOIST MANUFACTURER SHALL PROVIDE ADDITIONAL DIAGONAL WEB MEMBERS AT CONCENTRATED LOAD LOCATIONS.
5. WIND ANALYSIS FOR THE JOISTS SHALL USE THE PROVISIONS OF THE 2016 CBC AND ASCE 7-10 FOR COMPONENTS AND CLADDING.
6. JOIST SIZES AND CHORD SIZES INDICATED ON THE PLANS ARE MINIMUM ONLY. DESIGN BY THE JOIST MANUFACTURER MAY RESULT IN A LARGER SIZE. JOISTS SHALL HAVE DOUBLE ANGLE CHORDS.
7. PROVIDE CALCULATIONS, PRODUCT DATA, MATERIAL PROPERTIES, CONNECTION DETAILS, ETC. FOR ALL TYPES OF JOISTS. CALCULATIONS SHALL BE STAMPED AND SIGNED BY AN ENGINEER REGISTERED IN THE SAME STATE AS THE PROJECT.
8. JOIST BRIDGING, BOTTOM CHORD BRACING, AND OTHER ACCESSORIES SHALL BE PER THE MANUFACTURER'S STANDARDS AND AS INDICATED ON THE DRAWINGS. BRACING SHALL EXTEND TO WALLS.
9. JOIST ENDS SHALL BE DESIGNED WITH A SLOPED SEAT FOR THE LEVEL BEARING SURFACE.

MASONRY:

1. SOLID GROUT ALL CELLS UNLESS INDICATED OTHERWISE.
2. MORTAR SHALL CONFORM TO ASTM C270, TYPE S, HYDRATED AND SHALL HAVE A MINIMUM 28 DAY COMPRESSIVE STRENGTH OF 1,900 PSI.
3. GROUT SHALL CONFORM TO ASTM C476 AND SHALL HAVE A MINIMUM 28 DAY COMPRESSIVE STRENGTH OF 2,000 PSI CONTAINING NO MASONRY CEMENT.
4. CONCRETE BLOCK UNITS SHALL BE MEDIUM WEIGHT AND CONFORM TO ASTM C90 AND SHALL HAVE A MINIMUM 28 DAY COMPRESSIVE STRENGTH OF 1,900 PSI. LINEAR SHRINKAGE SHALL NOT EXCEED 0.065 PERCENT.
5. PLACE COURSES IN RUNNING BOND PATTERN, UNLESS SPECIFICALLY INDICATED OTHERWISE.
6. REINFORCING STEEL FOR MASONRY SHALL CONFORM TO ASTM A615, GRADE 60 FOR DEFORMED BARS. LAP VERTICAL REINFORCING 48 BAR DIAMETERS WITH DOWELS AT BUILDING WALLS. LAP ALL OTHER VERTICAL BARS 72 BAR DIAMETERS. LAP VERTICAL BARS IN CANTILEVER WALLS 72 BAR DIAMETERS. STAGGER ADJACENT LAP SPLICES BY 24 INCHES, WHEN SEPARATED BY 3 INCHES OR LESS. REFERENCE STANDARD DETAIL 4002 - REINFORCED CMU WALL.
7. HORIZONTAL REINFORCING BARS SHALL BE CONTINUOUS AROUND WALL CORNERS AND THROUGH WALL INTERSECTIONS AND HOOKED AT WALL ENDS AS SHOWN IN THE DETAILS.
8. VERTICAL REINFORCING SHALL BE PLACED AT CORNERS, EACH SIDE OF OPENINGS, END WALLS (INCLUDING EACH SIDE OF CONTROL JOINTS), AT A MAXIMUM SPACING INDICATED IN THE DRAWINGS, AND CONTINUOUS FROM FOUNDATION TO TOP OF WALL.
9. CMU REINFORCING AT WALL INTERSECTIONS AND CORNERS SHALL BE AS INDICATED IN STANDARD DETAIL 4001 - CMU WALL CORNERS, UNLESS INDICATED OTHERWISE.
10. CMU REINFORCING AT ALL WALL ENDS, JAMBS AND DOOR OPENINGS, WINDOW LINTELS, LOUVERS AND PENETRATIONS SHALL BE INDICATED IN STANDARD DETAIL 4004 - CMU OPENINGS GREATER THAN 3'-0" OR STANDARD DETAIL 4003 - CMU OPENINGS LESS THAN 3'-0", UNLESS INDICATED OTHERWISE.
11. CMU WALL CONTROL JOINTS SHALL BE LOCATED WHERE SHOWN ON THE DRAWINGS, AND SHALL RUN CONTINUOUS FROM THE TOP OF FOUNDATION TO TOP OF WALL OR PARAPET. ALL HORIZONTAL NON-STRUCTURAL BARS SHALL BE TERMINATED IN A STANDARD HOOK EACH SIDE OF JOINT. STRUCTURAL BARS SHALL BE CONTINUOUS THROUGH CONTROL JOINTS.

COLD-FORMED STEEL:

1. ALL MEMBERS AND ACCESSORIES SHALL BE ASTM A570 OR A446, WITH MINIMUM YIELD OF 33ksi FOR 18ga & 20ga, 50ksi FOR 14ga & 16ga, HAVING SECTION PROPERTIES AND GAUGE AS NOTED ON THE DRAWINGS.
2. FRAMING HARDWARE NOTED IS SIMPSON STRONG-TIE AND SHALL BE INSTALLED WITH CONNECTIONS SPECIFIED FOR EACH SPECIFIC DEVICE BY THE MANUFACTURER'S CURRENT CATALOG. EQUIVALENT DEVICES APPROVED BY THE ENGINEER MAY BE SUBSTITUTED.
3. INSTALLATION AND ERECTION SHALL BE IN ACCORDANCE WITH THE MANUFACTURER'S RECOMMENDATIONS AS MODIFIED BY NOTES ON THE DRAWINGS.
- STAINLESS STEEL:**
1. STAINLESS STEEL MEMBERS SHALL CONFORM TO ASTM SPECIFICATIONS:
- PLATES: A240
 - BARS AND SHAPES: A276
 - FASTENERS AND FITTINGS: A320
 - DEFORMED AND PLAIN BARS: A955
2. ALL COMPONENTS SHALL BE STAINLESS STEEL TYPE 316, UNLESS SHOWN OTHERWISE.
3. ALL WELDING SHALL BE PERFORMED BY AWS CERTIFIED WELDERS AND SHALL CONFORM TO THE REQUIREMENTS OF ANSI/AWS D1.6. WELDERS SHALL HOLD VALID CERTIFICATES ISSUED BY AN ACCEPTED TESTING AGENCY WITHIN THE LAST 12 MONTHS.
4. ALL FILLET WELDS SHALL BE AWS MINIMUM AND BUTT WELDS SHALL BE COMPLETE JOINT PENETRATION (CJP), UNLESS INDICATED OTHERWISE.
5. WELDERS SHALL SUBMIT PRE-QUALIFIED WELDS AND WELDING PROCEDURES FOR REVIEW AND TO BE AVAILABLE ON PREMISES FOR REVIEW.
6. OPENINGS SHALL NOT BE PLACED IN STAINLESS STEEL MEMBERS UNLESS SPECIFICALLY DETAILED ON THE STRUCTURAL PLANS.
7. THE STAINLESS STEEL FABRICATOR/CONTRACTOR SHALL FURNISH SHOP DRAWINGS OF ALL STAINLESS STEEL FOR ENGINEER'S REVIEW AND APPROVAL PRIOR TO FABRICATION.

ALUMINUM:

1. ALUMINUM CONSTRUCTION SHALL CONFORM TO THE LATEST EDITION OF THE ALUMINUM CONSTRUCTION MANUAL OF THE ALUMINUM ASSOCIATION.
2. UNLESS OTHERWISE INDICATED, STRUCTURAL ALUMINUM MEMBERS SHALL BE ALLOY 6061-T6.
3. WHERE ALUMINUM IS IN CONTACT WITH CONCRETE OR MASONRY SURFACES, CONTACT SURFACES SHALL BE COATED WITH HEAVY ALKALI-RESISTANT BITUMINOUS PAINT.
4. GRATING AND CHECKERED PLATE SHALL BE ALUMINUM, UNLESS NOTED OTHERWISE. PROVIDE FULLY BANDED ALUMINUM GRATING WITH NON-SKID SURFACE OVER AREAS INDICATED ON THE DRAWINGS. MATERIAL SHALL BE 6061-T6 OR 6063-T6 PROVIDED WITH AN ANODIZED FINISH AND MEET THE STRENGTH AND DEFLECTION REQUIREMENTS.
5. THE ALUMINUM FABRICATOR/CONTRACTOR SHALL FURNISH SHOP DRAWINGS OF ALL ALUMINUM MEMBERS AND GRATING FOR ENGINEERS REVIEW AND APPROVAL PRIOR TO FABRICATION.

ADHESIVE ANCHORS:

1. THE ADHESIVE ANCHOR SYSTEM USED FOR POST-INSTALLED ANCHORAGE TO CONCRETE SHALL CONFORM TO THE REQUIREMENTS OF THE MOST RECENTLY PUBLISHED ACI 308.4, ACCEPTANCE CRITERIA FOR QUALIFICATION OF POST-INSTALLED ADHESIVE ANCHORS IN CONCRETE AND COMMENTARY. THE ANCHOR SYSTEM SHALL BE ONE OF THE FOLLOWING:
- HILTI HIT-HY 200.
 - SIMPSON SET-XP.
2. ADHESIVE ANCHORS SHALL BE SUPPLIED AS AN ENTIRE SYSTEM INCLUDING, BUT NOT LIMITED TO, THE NEW ADHESIVE CARTRIDGE, A CLEAN MIXING NOZZLE, EXTENSION TUBE, A DISPENSING GUN, AND ALL MANUFACTURER RECOMMENDED SUPPLIES FOR PROPERLY CLEANING THE DRILLED HOLE.
3. ALL-THREAD ROD TO BE USED IN ADHESIVE ANCHOR ASSEMBLIES SHALL CONFORM TO ASTM A36, A193 (GR B7), A307, OR F1554. STAINLESS STEEL ANCHOR RODS SHALL BE TYPE 316. NUTS, WASHERS, AND OTHER HARDWARE USED WITH AN ALL-THREAD SHALL HAVE A MATERIAL OR ALLOY DESIGNATION THAT MATCHES THE ALL-THREAD MATERIAL / ALLOY.
4. REINFORCING BARS SHALL BE ASTM A615 OR A706.
5. CONCRETE SHALL HAVE A MINIMUM COMPRESSIVE STRENGTH OF 2,500 PSI AT THE TIME OF ADHESIVE ANCHOR INSTALLATION. CONCRETE SHALL HAVE A MINIMUM AGE OF 21 DAYS AT THE TIME OF ADHESIVE ANCHOR INSTALLATION.
6. CONCRETE TEMPERATURE AT THE TIME OF ADHESIVE ANCHOR INSTALLATION SHALL BE AT LEAST 50°F.
7. EMBEDMENT DEPTH AND ANCHOR PROJECTION FROM THE CONCRETE SURFACE SHALL BE AS SHOWN ON THE DRAWINGS FOR THE PARTICULAR ANCHOR OR GROUP OF ANCHORS BEING INSTALLED. ABSENT ANY INFORMATION, THE MINIMUM EMBEDMENT DEPTH SHALL BE 12d WHERE "d" IS THE ANCHOR DIAMETER.
8. ADHESIVE ANCHORS SHALL BE INSTALLED BY QUALIFIED PERSONNEL TRAINED TO INSTALL ADHESIVE ANCHORS IN ACCORDANCE WITH THE SPECIFICATIONS. POST-INSTALLED ADHESIVE ANCHORS SHALL BE INSTALLED IN ACCORDANCE WITH THE MANUFACTURER'S PRINTED INSTALLATION INSTRUCTIONS.
9. INSTALLATION OF ADHESIVE ANCHORS HORIZONTALLY OR UPWARDLY INCLINED TO SUPPORT SUSTAINED TENSION LOADS SHALL BE PERFORMED BY PERSONNEL CERTIFIED BY ACI/CRSI ADHESIVE ANCHOR INSTALLER CERTIFICATION PROGRAM. THESE ANCHORS ARE DESIGNATED WITH A (CERT) AFTER THE ANCHOR CALL-OUT.
10. THE INSTALLER'S QUALIFICATIONS SHALL BE SUBMITTED AND APPROVED IN ACCORDANCE WITH SECTION 05051 OF THE SPECIFICATIONS.
11. WHEN DRILLING HOLES IN EXISTING CONCRETE, USE CARE AND CAUTION TO AVOID CUTTING OR DAMAGING THE EXISTING REINFORCING BARS. MAINTAIN A REASONABLE CLEARANCE BETWEEN REINFORCEMENT AND THE DRILLED-IN ANCHOR.
12. SPECIAL INSPECTION IS REQUIRED PER CBC SECTION 1705 AND THE REQUIREMENTS OF THE ICC REPORT. THE SPECIAL INSPECTOR MUST BE PERIODICALLY ON THE JOBSITE DURING ANCHOR INSTALLATION TO VERIFY ANCHOR TYPE, ANCHOR DIMENSIONS, HOLE CLEANLINESS, EMBEDMENT DEPTH, CONCRETE TYPE, DRILL BIT DIAMETER, HOLE DEPTH, EDGE DISTANCE, ANCHOR SPACING, AND CONCRETE THICKNESS.
13. ADHESIVE ANCHORS INSTALLED IN HORIZONTAL OR UPWARDLY INCLINED ORIENTATIONS TO RESIST SUSTAINED TENSION LOADS SHALL BE CONTINUOUSLY INSPECTED DURING INSTALLATION BY AN INSPECTOR SPECIALLY APPROVED FOR THAT PURPOSE BY THE BUILDING OFFICIAL.

EXPANSION ANCHORS:

1. EXPANSION ANCHORS SHALL BE STAINLESS STEEL HILTI KWIK BOLT TZ OR SIMPSON STRONG-BOLT 2, UNLESS NOTED OTHERWISE. INSTALL ANCHORS IN CONFORMANCE WITH THE MANUFACTURER'S REQUIREMENTS AND ICC REPORT.
2. SPECIAL INSPECTION IS REQUIRED PER CBC SECTION 1705 AND THE REQUIREMENTS OF THE ICC REPORT.
3. CONTRACTOR SHALL VERIFY MINIMUM EDGE DISTANCES, SPACING AND THICKNESSES ARE IN ACCORDANCE WITH THE MANUFACTURER'S REQUIREMENTS PRIOR TO INSTALLING ANCHORS.
4. WHEN DRILLING HOLES IN EXISTING CONCRETE, USE CARE AND CAUTION TO AVOID CUTTING OR DAMAGING THE EXISTING REINFORCING BARS. MAINTAIN A REASONABLE CLEARANCE BETWEEN REINFORCEMENT AND THE DRILLED-IN ANCHOR.
5. THE SPECIAL INSPECTOR MUST BE PRESENT ON THE JOB SITE DURING ANCHOR INSTALLATION TO VERIFY ANCHOR TYPE, ANCHOR DIMENSIONS, HOLE CLEANLINESS, EMBEDMENT DEPTH, CONCRETE TYPE, DRILL BIT DIAMETER, HOLE DEPTH, EDGE DISTANCE, ANCHOR SPACING, AND CONCRETE THICKNESS.

DEFERRED SUBMITTALS:

1. PER 2016 CBC 107.3.4.1 THE FOLLOWING ITEMS, DRAWINGS AND CALCULATIONS, SHALL BE STAMPED BY AN ENGINEER REGISTERED IN THE STATE OF THE PROJECT. ITEMS SHALL BE SUBMITTED TO THE REGISTERED DESIGN PROFESSIONAL IN RESPONSIBLE CHARGE FOR REVIEW AND APPROVAL. FOLLOWING APPROVAL BY THE REGISTERED DESIGN PROFESSIONAL IN RESPONSIBLE CHARGE, THE CONTRACTOR SHALL SUBMIT THE ITEMS TO THE BUILDING OFFICIAL WITH A NOTATION INDICATING THAT THE DEFERRED SUBMITTAL DOCUMENTS HAVE BEEN REVIEWED AND FOUND TO BE IN GENERAL CONFORMANCE TO THE DESIGN OF THE STRUCTURE. THE CONTRACTOR SHALL NOT START FABRICATION OR ERECTION PRIOR TO REVIEW AND APPROVAL BY THE BUILDING OFFICIAL. THE CONTRACTOR SHALL INCLUDE IN HIS BID ALL TIME AND EFFORT REQUIRED TO OBTAIN A BUILDING OFFICIAL REVIEW/PERMIT FOR THE FOLLOWING PREFABRICATED STRUCTURAL COMPONENTS:
- HANDRAIL AND GUARDRAIL
 - PIPE SUPPORT SYSTEM
 - OPEN WEB STEEL JOISTS
 - ANCHORAGE OF EQUIPMENT OVER 400 POUNDS

STRUCTURAL OBSERVATION:

1. STRUCTURAL OBSERVATION SHALL BE IN ACCORDANCE WITH THE 2016 CBC SECTION 1704.6 TOGETHER WITH LOCAL AND STATE AMENDMENTS.
2. THE OWNER SHALL EMPLOY A REGISTERED DESIGN PROFESSIONAL TO PERFORM STRUCTURAL OBSERVATIONS FOR GENERAL CONFORMANCE TO THE APPROVED CONSTRUCTION DOCUMENTS. STRUCTURAL OBSERVATION DOES NOT WAIVE THE RESPONSIBILITY FOR ANY REQUIRED SPECIAL INSPECTIONS OR INSPECTIONS BY THE BUILDING OFFICIAL.
3. ONSITE STRUCTURAL OBSERVATION SHALL BE PERFORMED AT LEAST ONCE A MONTH, PLUS AT COMPLETION, FOR EACH SEISMIC FORCE OR WIND FORCE RESISTING SYSTEM IDENTIFIED, INCLUDING FOUNDATIONS AND CONNECTIONS.
4. AT THE CONCLUSION OF CONSTRUCTION, THE STRUCTURAL OBSERVER SHALL SUBMIT TO THE BUILDING OFFICIAL A WRITTEN STATEMENT THAT THE SITE VISITS HAVE BEEN MADE AND IDENTIFY ANY REPORTED DEFICIENCIES WHICH, TO THE BEST OF THE STRUCTURAL OBSERVER'S KNOWLEDGE, HAVE NOT BEEN RESOLVED.
5. STRUCTURAL OBSERVATION SHALL INCLUDE VISUAL OBSERVATION OF THE STRUCTURAL SYSTEM AT SIGNIFICANT CONSTRUCTION STAGES AND AT COMPLETION OF THE STRUCTURAL SYSTEM FOR EACH STRUCTURE CONTAINED IN THE WORK. THE CONTRACTOR SHALL SCHEDULE AND FACILITATE STRUCTURAL OBSERVATION INCLUDING THE FOLLOWING:
- FOUNDATION REINFORCING STEEL, WATERSTOPS, EMBEDS, AND SIMILAR ITEMS PRIOR TO CONCRETE PLACEMENT.
 - WALL TO FOUNDATION CONNECTIONS PRIOR TO FORM CLOSURE FOR ALL MATERIALS.
 - ELEVATED CONCRETE SLABS PRIOR TO CONCRETE PLACEMENT.
 - MASONRY WALL REINFORCING STEEL PRIOR TO GROUTING AND PRIOR TO CLOSING OF CLEANOUTS.
 - SYSTEM CONNECTION EMBEDS PRIOR TO GROUT OR CONCRETE PLACEMENTS.
 - CONCRETE WALL TO ROOF CONNECTIONS PRIOR TO FORM CLOSURE OR OTHER COVER.
 - STEEL DECK CONNECTIONS PRIOR TO INSTALLATION OF ROOFING.

STATEMENT OF SPECIAL INSPECTIONS:

1. SPECIAL INSPECTION IS IN ADDITION TO THE INSPECTIONS REQUIRED BY SECTION 110 OF THE CBC. THE OWNER SHALL EMPLOY A SPECIAL INSPECTOR DURING CONSTRUCTION ON THE TYPES OF WORK INDICATED BELOW.
2. SPECIAL INSPECTIONS SHALL BE PERFORMED BY AN INDEPENDENT QUALIFIED PERSON WHO IS ACCEPTABLE TO THE ENGINEER AND BUILDING DEPARTMENT. THE INSPECTORS FOR EACH SYSTEM AND MATERIAL WILL BE ICC CERTIFIED OR OTHERWISE APPROVED BY THE BUILDING OFFICIAL. THE SPECIAL INSPECTOR SHALL OBSERVE THE INDICATED WORK FOR COMPLIANCE WITH THE APPROVED CONTRACT DOCUMENTS AND SUBMIT RECORDS OF INSPECTION.
3. INSPECTION RECORDS AND TESTING REPORTS SHALL BE SUBMITTED TO THE ENGINEER, OWNER, AND BUILDING OFFICIAL WITHIN ONE WEEK OF INSPECTION OR WITHIN ONE WEEK OF TEST COMPLETION.
4. AT THE CONCLUSION OF CONSTRUCTION, A FINAL REPORT DOCUMENTING REQUIRED SPECIAL INSPECTIONS AND CORRECTION OF DISCREPANCIES SHALL BE SUBMITTED.
5. PERIODIC SPECIAL INSPECTION IS DEFINED AS SPECIAL INSPECTION BY THE SPECIAL INSPECTOR WHO IS INTERMITTENTLY PRESENT WHERE THE WORK TO BE INSPECTED HAS BEEN OR IS BEING PERFORMED
6. SPECIAL INSPECTION IS REQUIRED PER CHAPTER 17 OF THE CBC FOR THE FOLLOWING ITEMS:
- SOILS (BY CONTRACTOR PER SPECIFICATION SECTION 02300)
 - CONCRETE CONSTRUCTION
 - MASONRY CONSTRUCTION
 - STEEL CONSTRUCTION
 - OPEN-WEB STEEL JOISTS

REQUIRED VERIFICATION AND SPECIAL INSPECTION OF SOILS					
VERIFICATION AND INSPECTION		CONTINUOUS	PERIODIC	REFERENCED STANDARD	2016 CBC REFERENCE
1.	VERIFY MATERIALS BELOW SHALLOW FOUNDATIONS ARE ADEQUATE TO ACHIEVE THE DESIGN BEARING CAPACITY	-	X	SECTION 02300 - EARTHWORK	1705.6, 1804
2.	VERIFY EXCAVATIONS ARE EXTENDED TO PROPER DEPTH AND HAVE REACHED PROPER MATERIAL	-	X	SECTION 02300 - EARTHWORK	1705.6
3.	PERFORM CLASSIFICATION AND TESTING OF COMPACTED FILL MATERIALS	-	X	SECTION 02300 - EARTHWORK	1705.6
4.	VERIFY USE OF PROPER MATERIALS, DENSITIES AND LIFT THICKNESSES DURING PLACEMENT AND COMPACTION OF COMPACTED FILL	X	-	SECTION 02300 - EARTHWORK	1705.6
5.	PRIOR TO PLACEMENT OF COMPACTED FILL, OBSERVE SUBGRADE AND VERIFY THAT SITE HAS BEEN PREPARED PROPERLY	-	X	SECTION 02300 - EARTHWORK	1705.6

REQUIRED SPECIAL INSPECTION OF CONCRETE CONSTRUCTION					
VERIFICATION AND INSPECTION		CONTINUOUS	PERIODIC	REFERENCED STANDARD	2016 CBC REFERENCE
1.	INSPECTION OF REINF STEEL AND PLACEMENT	-	X	ACI 318: Ch. 20, 25.2, 25.3, 26.6.1-26.6.3	1908.4
3.	INSPECTION OF ANCHORS CAST IN CONCRETE	-	X	ACI 318: 17.8.2	-
4.a.	INSPECTION OF ADHESIVE ANCHORS INSTALLED IN HORIZONTALLY OR UPWARDLY INCLINED ORIENTATIONS TO RESIST SUSTAINED TENSION LOADS	X	-	ACI 318: 17.8.2.4	-
4.b.	INSPECTION OF MECHANICAL ANCHORS AND ADHESIVE ANCHORS NOT DEFINED IN 4.a.	-	X	ACI 318: 17.8.2	-
5.	VERIFYING USE OF REQUIRED DESIGN MIX	-	X	ACI 318: Ch. 19, 26.4.3, 26.4.4	1904.1, 1904.2, 1908.2, 1908.3
6.	PRIOR TO CONCRETE PLACEMENT, FABRICATE SPECIMENS FOR STRENGTH TESTS, PERFORM SLUMP AND AIR CONTENT TESTS, AND DETERMINE THE TEMPERATURE OF THE CONCRETE.	X	-	ASTM: C172, C31 ACI318: 26.4, 26.12	1908.10
7.	INSPECT CONCRETE AND SHOTCRETE PLACEMENT FOR PROPER APPLICATION TECHNIQUES	X	-	ACI 318: 26.5	1908.6, 1908.7, 1908.8
8.	VERIFY MAINTENANCE OF SPECIFIED CURING TEMPERATURE AND TECHNIQUES	-	X	ACI 318: 26.5.3-26.5.5	1908.9
9.	INSPECT PRESTRESSED CONCRETE FOR: A. APPLICATION OF PRESTRESSING FORCES	X	-	ACI 318: 26.10	-
11.	VERIFY IN-SITU CONCRETE STRENGTH, PRIOR TO STRESSING OF TENDONS	-	X	ACI 318: 26.11.2	-
12.	INSPECTION FORMWORK FOR SHAPE, LOCATION AND DIMENSIONS OF THE CONCRETE MEMBER BEING FORMED	-	X	ACI 318: 26.11.1.2(b)	-

REQUIRED SPECIAL INSPECTION OF MASONRY CONSTRUCTION, LEVEL C, RISK CATEGORY IV					
INSPECTION TASK		CONTINUOUS	PERIODIC	REFERENCE STANDARD: ACI 530/ASCE 5	REFERENCE STANDARD: ACI 530.1/ASCE 6
1.	VERIFY COMPLIANCE WITH THE APPROVED SUBMITTALS	-	X	-	Art. 1.5
2.	VERIFY THAT THE FOLLOWING ARE IN COMPLIANCE:				
2a.	PROPORTIONS OF SITE-PREPARED MORTAR AND GROUT	-	X	-	Art. 2.1, 2.6 A
2b.	GRADE, TYPE, AND SIZE OF REINF AND ANCHOR BOLTS	-	X	Sec. 1.16	Art. 2.4, 3.4
2c.	PLACEMENT OF MASONRY UNITS AND CONSTRUCTION OF MORTAR JOINTS	-	X	-	Art. 3.3 B
2d.	PLACEMENT OF REINF AND CONNECTORS	X	-	Sec. 1.16	Art. 3.2 E, 3.4, 3.6 A
2e.	GROUT SPACE PRIOR TO GROUTING	X	-	-	Art. 3.2 D, 3.2 F
2f.	PLACEMENT OF GROUT	X	-	-	Art. 3.5
2g.	SIZE AND LOCATION OF STRUCTURAL ELEMENTS	-	X	-	Art. 3.3 F
2h.	TYPE, SIZE AND LOCATION OF ANCHORS, INCLUDING OTHER DETAILS OF ANCHORAGE OF MASONRY TO STRUCTURAL MEMBERS, FRAMES OR OTHER CONSTRUCTION	X	-	Sec. 1.16.4.3, 1.17.1	-
2i.	WELDING AND REINFORCING BARS	X	-	Sec. 2.1.7.7.2, 3.3.3.4 (c), 8.3.3.4 (b)	-
2j.	PREPARATION, CONSTRUCTION, AND PROTECTION OF MASONRY DURING COLD WEATHER OR HOT WEATHER	-	X	-	Art. 1.8 C, 1.8 D
3.	OBSERVE PREPARATION OF GROUT SPECIMENS, MORTAR SPECIMENS, AND/OR PRISMS	X	-	-	Art. 1.4 B.2.a.3, 1.4 B.2.b.3, 1.4 B.2.c.3, 1.4 B.3, 1.4 B.4
REQUIRED MINIMUM TESTS:					
1.	VERIFICATION OF fm PRIOR TO CONSTRUCTION	-	X	-	Art. 1.4 B
2.	VERIFICATION OF PROPORTIONS OF MATERIALS IN PREMIXED OR PREBLENDED MORTAR, GROUT, AND GROUT OTHER THAN SELF-CONSOLIDATING GROUT AS DELIVERED TO THE PROJECT SITE				
3.	VERIFICATION OF SLUMP FLOW AND VSI AS DELIVERED TO THE SITE FOR SELF-CONSOLIDATING GROUT	-	X	-	Art. 1.5 B.1.b.3

REQUIRED SPECIAL INSPECTION OF OPEN-WEB STEEL JOISTS			
VERIFICATION AND INSPECTION		CONTINUOUS	PERIODIC
1.a.	END CONNECTIONS - WELDED OR BOLTED	-	X
1.b.	BRIDGING - HORIZONTAL OR DIAGONAL	-	X
1.b.1	STANDARD BRIDGING	-	X
1.b.2	BRIDGING THAT DIFFERS FROM THE SJI SPECIFICATIONS LISTED IN SECTION 2207.1	-	X

FOR PROPOSAL PURPOSES ONLY, NOT FOR CONSTRUCTION

STATEMENT OF SPECIAL INSPECTIONS CONTINUED:

REQUIRED SPECIAL INSPECTION OF STEEL CONSTRUCTION (ANSI/AISC 360-10)		
QUALITY CONTROL (QC) INSPECTION TASKS SHALL BE PERFORMED BY THE FABRICATOR'S OR ERECTOR'S QUALITY CONTROL INSPECTOR (QCI). QUALITY ASSURANCE (QA) INSPECTION OF FABRICATED ITEMS SHALL BE MADE AT THE FABRICATOR'S PLANT. QA INSPECTION OF ERECTED STEEL SYSTEMS SHALL BE MADE AT THE PROJECT SITE. THE QUALITY ASSURANCE INSPECTOR (QAI) SHALL REVIEW THE MATERIAL TEST REPORTS AND CERTIFICATIONS FOR COMPLIANCE WITH THE CONSTRUCTION DOCUMENTS. O = OBSERVE THESE ITEMS ON A RANDOM BASIS. P = PERFORM THESE TASKS FOR EACH WELDED JOINT OR MEMBER.		
INSPECTION TASKS PRIOR TO WELDING	QC	QA
1. WELDING PROCEDURE SPECIFICATIONS AVAILABLE	P	P
2. MANUFACTURER CERTIFICATIONS FOR WELDING CONSUMABLES AVAILABLE	P	P
3. MATERIAL IDENTIFICATION (TYPE/GRADE)	O	O
4. WELDER IDENTIFICATION SYSTEM	O	O
5. FIT-UP OF GROOVE WELDS	O	O

NOTES: - ONLY FLANGED END CONNECTIONS ARE SHOWN HERE FOR DOUBLE LINE FITTINGS. FITTINGS WITH OTHER END PATTERNS ARE SHOWN SIMILARLY ON THE CONSTRUCTION DRAWINGS. ALSO SEE PIPING SPECIFICATIONS AND THE PIPING SCHEDULE. - SYMBOLS SHOWN HERE FOR SINGLE LINE FITTINGS ARE GENERIC ONLY. REFER TO PIPING SPECIFICATIONS FOR SPECIFIC END CONNECTIONS FOR SINGLE LINE PIPE AND FITTINGS. GENERAL PIPING NOTES: - LAY PIPE TO UNIFORM GRADE BETWEEN INDICATED ELEVATION POINTS. MINIMUM COVER SHALL BE 36 INCHES UNLESS OTHERWISE SHOWN. - SIZE OF FITTINGS SHOWN ON DRAWINGS SHALL CORRESPOND TO ADJACENT STRAIGHT RUN OF PIPE, UNLESS OTHERWISE INDICATED. TYPE OF JOINT AND FITTING MATERIAL SHALL BE THE SAME AS SHOWN FOR ADJACENT STRAIGHT RUN OF PIPE. - LOCATION AND NUMBER OF PIPE HANGERS AND PIPE SUPPORTS SHOWN IS ONLY APPROXIMATE. FINAL SUPPORT REQUIREMENTS SHALL BE DETERMINED IN THE FIELD AND APPROVED BY THE ENGINEER PRIOR TO INSTALLATION. MAXIMUM SPACING SHALL BE AS SPECIFIED. - APPROPRIATE STANDARD WALL PIPE DETAIL SHALL BE USED WHEREVER PIPING PASSES FROM A STRUCTURE TO BACKFILL, AS NOTED ON DRAWINGS OR APPROVED BY ENGINEER. - ALL FLEXIBLE CONNECTORS OR FLANGED COUPLING ADAPTERS SHALL BE PROVIDED WITH THRUST TIES, BLOCKS, OR ANCHORS, UNLESS OTHERWISE NOTED. THRUST PROTECTION SHALL BE ADEQUATE FOR TEST PRESSURES SPECIFIED. - SYMBOLS, LEGENDS, AND PIPE USE IDENTIFICATIONS SHOWN SHALL BE FOLLOWED THROUGHOUT THE DRAWINGS, WHEREVER APPLICABLE. ALL OF THE VARIOUS APPLICATIONS ARE NOT NECESSARILY USED IN THE PROJECT. - ALL PIPING SPECIFIED TO BE PRESSURE TESTED, EXCEPT FLANGED, WELDED, GROOVED END, OR SCREWED PIPING, SHALL BE PROVIDED WITH TRUST PROTECTION AT ALL DIRECTION CHANGES, UNLESS OTHERWISE NOTED. SEE THRUST DETAILS AND NOTES ON DRAWINGS. - NUMBER AND LOCATION OF UNIONS SHOWN ON DRAWINGS ARE ONLY APPROXIMATE. PROVIDE ALL UNIONS NECESSARY TO FACILITATE CONVENIENT REMOVAL OF VALVES AND MECHANICAL EQUIPMENT. - THE CONTRACTOR FOR THIS PROJECT IS RESPONSIBLE FOR COORDINATING AND PERFORMING THE CONNECTION OF THE PIPING AND ASSOCIATED APPURTENANCES INSTALLED UNDER THIS CONTRACT TO BOTH THE EXISTING PIPING AND FACILITIES. - PRIOR TO SUBMITTING PIPING DRAWINGS FOR ANY NEW PIPE THAT IS TO CONNECT TO OR CROSS AN EXISTING PIPE OR STRUCTURE, THE CONTRACTOR SHALL EXPOSE THE EXISTING PIPE OR STRUCTURE TO VERIFY ITS EXACT LOCATION, SIZE, MATERIALS, AND INVERT ELEVATIONS. - COMPONENTS SHOWN WITH A DOUBLE ASTERISK (**) ARE PART OF A PACKAGE SYSTEM. 1. Buried PW piping 4-inches and larger shown as ductile iron with proprietary joints and mechanical joint fittings. At Contractor's option, buried PW piping 4-inches and larger may be cement lined and coated welded steel pipe (WSP) in lieu of ductile iron pipe. If WSP is selected, wall thimbles shown at structures as MxFLG shall be changed to FLGxFLG.
2. Provide rigid CPVC piping for sodium hypochlorite tank fill and discharge piping up to transition to tubing, as shown on the Drawings.
3. SS to be VCP or DIP at contractor's option, unless explicitly called out as DIP.

GENERAL NOTES:

1. This schedule is provided for the convenience of the CONTRACTOR. Some flow streams may be shown on the drawings, but not listed here.
2. Pipe Materials:

BSP – Black Steel Pipe

CHE – Chemical Tubing and Pipe System

COP – Copper Pipe

CPVC – Solvent Welded CPVC Pipe

DIP – Ductile Iron Pipe

HDPE1 – High Density Polyethylene Dual Wall Solid Drainage Pipe

HDPE2 – High Density Polyethylene Dual Wall Perforated Drainage Pipe

PVC1 – Solvent Welded Polyvinyl Chloride Pipe

PVC2 – PVC Pressure Pipe

PVC3 – Polyvinyl Chloride Drain, Waste and Vent Pipe

PVC4 – PVC Sewer Pipe

SSTP – Stainless Steel Pipe

SSTT – Stainless Steel Tubing

WSP – Welded Steel Pipe

WSSTP – Welded Stainless Steel Pipe

VCP - Vetrified Clay Pipe

4. Lining Systems:

CM – Cement Mortar

5. Coating Systems as specified in Section 09900.

5. Pipe colors shall be per City of Roseville Process Control Standards.
3. Joint Types

FLG – Flanged

GRV – Grooved End

MJ – Mechanical Joint

PO – Push On

PRJ – Proprietary Restrained Mechanical Joint

RMJ – Restrained Mechanical Joint

S – Swagelok stainless steel compression type

SLV – Solvent Welded Socket

SLD – Soldered Socket

THR – Threaded

WLD – Butt Welded

NOTES:

- ASPHALT CONCRETE PATCH, 6 INCHES THICK OR THAT OF EXISTING, WHICHEVER IS MORE.
- AGGREGATE BASE OR AGGREGATE BASE AND SUBBASE SECTION PER APPROVED PLAN. 95% RELATIVE COMPACTION.
- ASPHALT CONCRETE PAVEMENT SECTION PER APPROVED PLANS.
- 24 INCHES OF TWO SACK CONCRETE SLURRY PER CALTRANS STANDARD SPEC 19-3.062
- SIX INCHES OF SUBGRADE, PROCESSED TO 95% RELATIVE COMPACTION.
- NATIVE BACKFILL MATERIAL, 90% RELATIVE COMPACTION.
- EXISTING STREET PAVEMENT.
- TACK COAT ON ALL VERTICAL PAVEMENT SAWCUTS.
- TYPICAL EACH SIDE OF TRENCH IN EXISTING STREET.
- FOR PIPE EMBEDMENT SEE TB-2 FOR PLASTIC STORM DRAIN, W-1 FOR WATER PIPE, SS-1 FOR SANITARY SEWER PIPE, OF THESE CONSTRUCTION STANDARDS.
- PIPE
- FOR REINFORCED CONCRETE PIPE EMBEDMENT: PLACE 1/2 INCH CRUSHED ROCK UP TO SPRING LINE WITH MINIMUM OF FOUR (4) INCHES OF 1/2 INCH CRUSHED ROCK BEDDING. MAINTAIN MINIMUM OF SIX (6) INCHES OF CLEARANCE BETWEEN THE PIPE AND THE TRENCH WALL.
- ALTERNATE TRENCH BOTTOM. THE DIAMETER OF THE ALTERNATE ROUNDED TRENCH BOTTOM SHALL EQUAL THE WIDTH OF THE TRENCH.

NOTE: IN CONDITION #1, TRENCH CUT FEE MAY APPLY PER CITY ORDINANCE.

PIPE ONLY (NONRIGID)

NOTES:

- TRENCH WIDTH:
PIPE SIZE 30" AND UNDER
OVER 30"
TRENCH WIDTH = W
O.D. + 16"
O.D. x 1.25 + 12"
- HIGH DENSITY POLYETHYLENE (HDPE) STORM DRAIN PIPE SHALL BE TYPE "S" AS DESCRIBED IN SECTION 64 OF THE CALTRANS STANDARD SPECIFICATIONS. PIPE INSTALLATION AND PIPE CONFIGURATION SHALL BE AS SHOWN ON THIS DRAWING AND AS DESCRIBED IN THESE GENERAL NOTES. JOINTS SHALL BE SEALED WITH A RUBBER GASKET. GASKETS SHALL MEET THE REQUIREMENT OF ASTM F-477.
- FILL HEIGHTS "D" FOR NONRIGID (PVS & HDPE) DRAIN PIPE SHALL BE A MINIMUM OF 36 INCH AND A MAXIMUM OF 15 FEET, AND (SRHDPE) SHALL HAVE A MINIMUM OF ONE FOOT (IN ADDITION TO THE ROADWAY STRUCTURAL SECTION) AND A MAXIMUM OF 30 FEET FROM THE TOP OF PIPE FINISH GRADE. (SEE DETAILS A & B FOR TRENCH BACKFILL REQUIREMENTS. CONTRACTOR MAY USE EITHER DETAIL A OR B.)
- PIPE MATERIAL CHANGES BETWEEN STRUCTURES ARE PROHIBITED. OUTFALL/INLET RUNS AND STUBS INTO FUTURE SITES SHALL BE RCP. (SEE SECTION 101-6 D.I.C. AND 101-8 D.4. FOR CONCRETE PIPE APPLICATION.)
- REFER TO TB-1 FOR TREATMENT OF THE TOP PORTION OF THE TRENCH WITHIN THE CITY STREET.
- THE DIAMETER OF THE ALTERNATE, ROUNDED TRENCH BOTTOM SHALL BE EQUAL TO THE WIDTH OF THE TRENCH.

NOTES:

1. ALL CONCRETE SHALL BE "MINOR CONCRETE" AS DEFINED IN SECTION 71-5B OF THESE STANDARDS UNLESS OTHERWISE NOTED.
2. TOOL JOINTS" SEE DETAIL ST-17.
3. 4" THICK CONCRETE SLURRY CUTOFF WALL REQUIRED ADJACENT TO TURFED MEDIANS, AS ALLOWED PER THE CITY'S WATER EFFICIENT LANDSCAPE ORDINANCE.

LEGEND:

1. THE MAX. GRADE IS 5% IF LONGITUDINAL STREET GRADE ALLOWS. THE MAX. TRANSITION TO OBTAIN 5% IS 15 FEET. OTHERWISE, A MAX. GRADE OF 8.33% SHALL BE OBTAINED BETWEEN 15 AND 25 FEET. 25 FEET IS THE MAX. TRANSITION REQUIRED/ALLOWED, REGARDLESS OF LONGITUDINAL STREET GRADE.
2. "TOOL JOINT" SEE DETAIL ST-17.
3. SCORE MARKS EVERY 4 FEET FOR 4 FOOT SIDEWALK AND 5 FEET FOR 5 FOOT SIDEWALK ETC.
4. 1 INCH HIGH LIP AT 45 DEGREE BATTER.
5. "TYPE 2"(ST-17) CURB AND GUTTER.
6. DRIVEWAY WIDTH PER THE APPROVED PLAN. (MIN. 25', MAX 40' FOR COMMERCIAL 32' FOR RESIDENTIAL)
7. ADJACENT SIDEWALK.
8. GUTTER PAN CROSS SLOPE NOT TO EXCEED 5% MAX.

NOTES:

- A. SIDEWALK CROSS GRADE THROUGH THE ENTIRE DRIVEWAY SHALL BE 1% MINIMUM, 2% MAXIMUM.
- B. FOR COMMERCIAL DRIVEWAY: SIDEWALK, APRON AND GUTTER PAN SHALL BE 8" THICK WITH NO. 4, GRADE 60 REBAR ON 18" CENTERS EACH WAY. USE 3" DOBIES (REBAR SPACERS) AT 3" INTERVALS. FOR RESIDENTIAL: WALK, APRON AND GUTTER PAN SHALL BE 7" THICK NONREINFORCED. FOR COMMERCIAL AND RESIDENTIAL SIDEWALK, APRON AND GUTTER PAN SHALL BE PLACED MONOLITHICALLY. ALL CONCRETE SHALL BE "MINOR CONCRETE" AS DEFINED IN SECTION 71-5B OF THESE STANDARDS.
- C. BASE FOR CONCRETE SHALL BE NATIVE SOIL OR CLASS 2, 3/4 INCH AGGREGATE BASE, EITHER PROCESSED 6 INCHES THICK TO 95% RELATIVE COMPACTION.
- D. SEE SECTION 71-4 C.6. OF THE CONSTRUCTION STANDARDS FOR AC PATCH ADJACENT TO GUTTER LIP.
- E. FROM 8 TO 20 FEET BACK OF SIDEWALK, RAISE PRIVATE PAVING/LANDSCAPING TO A MINIMUM HEIGHT OF THE HIGHEST TOP OF CURB ELEVATION AT THE DRIVEWAY.

CASQA Detail SE-1

STANDARD BEST MANAGEMENT PRACTICE NOTES

- Solid and Demolition Waste Management:** Provide designated waste collection areas and containers on site away from streets, gutters, storm drains, and waterways, and arrange for regular disposal. Waste containers must be watertight and covered at all times except when waste is deposited. Refer to Erosion & Sediment Control Field Manual, 4th Edition (page C-3) or latest.
- Hazardous Waste Management:** Provide proper handling and disposal of hazardous wastes by a licensed hazardous waste material handler. Hazardous wastes shall be stored and properly labeled in sealed containers constructed of suitable materials. Refer to Erosion & Sediment Control Field Manual, 4th Edition (pages C-5 to C-6) or latest.
- Spill Prevention and Control:** Provide proper storage areas for liquid and solid materials, including chemicals and hazardous substances, away from streets, gutters, storm drains, and waterways. Spill control materials must be kept on site where readily accessible. Spills must be cleaned up immediately and contaminated soil disposed properly. Refer to Erosion & Sediment Control Field Manual, 4th Edition (pages C-7 to C-8, C-13 to C-14) or latest.
- Vehicle and Construction Equipment Service and Storage:** An area shall be designated for the maintenance, where on-site maintenance is required, and storage of equipment that is protected from stormwater run-on and runoff. Measures shall be provided to capture any waste oils, lubricants, or other potential pollutants and these wastes shall be properly disposed of off site. Fueling and major maintenance/repair, and washing shall be conducted off-site whenever feasible. Refer to Erosion & Sediment Control Field Manual, 4th Edition (page C-9) or latest.
- Material Delivery, Handling and Storage:** In general, materials should not be stockpiled on site. Where temporary stockpiles are necessary and approved by the County, they shall be covered with secured plastic sheeting or tarp and located in designated areas near construction entrances and away from drainage paths and waterways. Barriers shall be provided around storage areas where materials are potentially in contact with runoff. Refer to Erosion & Sediment Control Field Manual, 4th Edition (pages C-11 to C-12) or latest.
- Handling and Disposal of Concrete and Cement:** When concrete trucks and equipment are washed on-site, concrete wastewater shall be contained in designated containers or in a temporary lined and watertight pit where wasted concrete can harden for later removal. If possible have concrete contractor remove concrete wash water from site. In no case shall fresh concrete be washed into the road right-of-way. Refer to Erosion & Sediment Control Field Manual, 4th Edition (pages C-15 to C-16) or latest.
- Pavement Construction Management:** Prevent or reduce the discharge of pollutants from paving operations, using measures to prevent run-on and runoff pollution and properly disposing of wastes. Avoid paving in the wet season and reschedule paving when rain is in the forecast. Residue from saw-cutting shall be vacuumed for proper disposal. Refer to Erosion & Sediment Control Field Manual, 4th Edition (pages C-17 to C-18) or latest.
- Contaminated Soil and Water Management:** Inspections to identify contaminated soils should occur prior to construction and at regular intervals during construction. Remediating contaminated soil should occur promptly after identification and be specific to the contaminant identified, which may include hazardous waste removal. Refer to Erosion & Sediment Control Field Manual, 4th Edition (pages C-19 to C-20) or latest.
- Sanitary/Septic Water Management:** Temporary sanitary facilities should be located away from drainage paths, waterways, and traffic areas. Only licensed sanitary and septic waste haulers should be used. Secondary containment should be provided for all sanitary facilities. Refer to Erosion & Sediment Control Field Manual, 4th Edition (page C-21) or latest.
- Inspection & Maintenance:** Areas of material and equipment storage sites and temporary sanitary facilities must be inspected weekly. Problem areas shall be identified and appropriate additional and/or alternative control measures implemented immediately, within 24 hours of the problem being identified.

STANDARD EROSION CONTROL NOTES

- Sediment Control Management:**
 - Tracking Prevention & Clean Up:** Activities shall be organized and measures taken as needed to prevent or minimize tracking of soil onto the public street system. A gravel or proprietary device construction entrance/exit is required for all sites. Clean up of tracked material shall be provided by means of a street sweeper prior to an approaching rain event, or at least once at the end of each workday that material is tracked, or more frequently as determined by the County Inspector. Refer to Erosion & Sediment Control Field Manual, 4th Edition (pages B-31 to B-33) or latest.
 - Storm Drain Inlet and Catch Basin Inlet Protection:** All inlets within the vicinity of the project and within the project limits shall be protected with gravel bags placed around inlets or other inlet protection. At locations where exposed soils are present, staked fiber rolls or staked silt fences can be used. Inlet filters are not allowed due to clogging and subsequent flooding. Refer to Erosion & Sediment Control Field Manual, 4th Edition (pages B-49 to B-51) or latest.
 - Storm Water Runoff:** No storm water runoff shall be allowed to drain in to the existing and/or proposed underground storm drain system or other above ground watercourses until appropriate erosion control measures are fully installed.
 - Dust Control:** The contractor shall provide dust control in graded areas as required by providing wet suppression or chemical stabilization of exposed soils, providing for rapid clean up of sediments deposited on paved roads, furnishing construction road entrances and vehicle wash down areas, and limiting the amount of areas disturbed by clearing and earth moving operations by scheduling these activities in phases.
 - Stockpiling:** Excavated soils shall not be placed in streets or on paved areas. Borrow and temporary stockpiles shall be protected with appropriate erosion control measures (tarps, straw bales, silt fences, etc.) to ensure silt does not leave the site or enter the storm drain system or neighboring watercourse.
- Erosion Control:** During the rainy season, all disturbed areas must include an effective combination of erosion and sediment control. It is required that temporary erosion control measures are applied to all disturbed soil areas prior to a rain event. During the non-rainy season, erosion control measures must be applied sufficient to control wind erosion at the site.
- Inspection & Maintenance:** Disturbed areas of the Project's site, locations where vehicles enter or exit the site, and all erosion and sediment controls that are identified as part of the Erosion Control Plans must be inspected by the Contractor before, during, and after storm events, and at least weekly during seasonal wet periods. Problem areas shall be identified and appropriate additional and/or alternative control measures implemented immediately, within 24 hours of the problem being identified.
- Project Completion:** Prior to project completion and signoff by the County Inspector, all disturbed areas shall be reseeded, planted, or landscaped to minimize the potential for erosion on the subject site.
- It shall be the Owner's/Contractor's responsibility to maintain control of the entire construction operation and to keep the entire site in compliance with the erosion control plan.**
- Erosion and sediment control best management practices shall be operable year round or until vegetation is fully established on landscaped surfaces.**

NOTES:

- REPLACE "H" IN DRAWING REFERENCES WITH "WD00".
- SEE DWG WD00-C-201 FOR YARD PIPING.
- CITY INTENDS TO INITIATE CONSTRUCTION OF THE FUTURE OPERATIONS/CREW BUILDING IN THE AREA INDICATED ON THE PLANS BEFORE THE COMPLETION OF THIS PROJECT. CONTRACTOR WILL COMPLETE SITE GRADING AND DRAINAGE IMPROVEMENTS FOR THE FUTURE OPERATIONS/CREW BUILDING AREA AND EVACUATE THEIR EQUIPMENT, STAGING, AND ALL OTHER USES OF THIS AREA IN ACCORDANCE WITH PROJECT MILESTONE 2. THIS CONSTRUCTION WORK AREA IS DEDICATED FOR CREW FACILITY CONTRACTOR AFTER MILESTONE 2. KEEP CLEAR AT ALL TIMES AND COORDINATE OPERATIONS AND SWPPP ACTIVITIES WITH CREW FACILITY CONTRACTOR.

GRADING NOTES:

- NON-POTABLE WATER SHALL BE SPRAYED ON ALL EXPOSED EARTH SURFACES DURING CLEARING, GRADING, EARTH MOVING, AND OTHER SITE PREPARATION ACTIVITIES. THE EXPOSED EARTH SHALL BE WATERED THROUGHOUT THE DAY TO MINIMIZE DUST.
- TARPAULINS OR OTHER EFFECTIVE COVERS SHALL BE USED ON ALL STOCKPILED EARTH MATERIAL AND ON HAUL TRUCKS TO MINIMIZE DUST.
- THE CITY SHALL HAVE THE AUTHORITY TO STOP ALL GRADING OPERATIONS, IF, IN THE OPINION OF CITY STAFF, INADEQUATE DUST CONTROL MEASURES ARE BEING PRACTICED OR EXCESSIVE WIND CONDITIONS CONTRIBUTE TO FUGITIVE DUST EMISSIONS.
- ADJACENT STREET FRONTAGES SHALL BE SWEEPED AT LEAST ONCE A DAY TO REMOVE SILT AND OTHER DIRT WHICH IS EVIDENT FROM CONSTRUCTION ACTIVITIES. REFER TO SCHEDULES WITHIN SWPPP.
- THE CONTRACTOR SHALL BE RESPONSIBLE FOR CLEANING CONSTRUCTION VEHICLES LEAVING THE SITE ON A DAILY BASIS TO PREVENT DUST, SILT AND DIRT FROM BEING RELEASED OR TRACKED OFFSITE. REFER TO SWPPP FOR SPECIFIC REQUIREMENTS.
- CONSTRUCTION SHALL STOP IF CULTURAL RESOURCES ARE SUSPECTED. IT IS POSSIBLE THAT PREVIOUS ACTIVITIES HAVE OBSCURED SURFACE EVIDENCE OF CULTURAL RESOURCES. IF SIGNS OF AN ARCHEOLOGICAL SITE, SUCH AS ANY UNUSUAL AMOUNTS OF STONE, BONE, OR SHELL, ARE UNCOVERED DURING GRADING OR OTHER CONSTRUCTION ACTIVITIES, WORK SHALL BE HALTED WITHIN 100 FEET OF THE FIND AND THE CITY'S ENVIRONMENTAL COORDINATOR SHALL BE NOTIFIED. A QUALIFIED ARCHEOLOGIST SHALL BE CONSULTED FOR AN ON-SITE EVALUATION. THE ARCHEOLOGIST MAY REQUIRE ADDITIONAL MITIGATION.
- SHOULD GRADING OPERATIONS UNCOVER HAZARDOUS MATERIALS, OR WHAT APPEARS TO BE HAZARDOUS MATERIALS, THE FIRE DEPARTMENT SHALL BE CONTACTED IMMEDIATELY AT (916) 774-5820. THE AREA, WHICH CONTAINS THE HAZARDOUS MATERIALS, SHALL BE MARKED OFF UNTIL AN INVESTIGATION BY A MEMBER OF THE FIRE DEPARTMENT IS CONDUCTED.
- THE CONTRACTOR IS EXPECTED TO COMPLY WITH THE FUGITIVE DUST CONTROL REQUIREMENTS FROM THE PLACER COUNTY AIR POLLUTION CONTROL DISTRICT: WWW.PLACER.CA.GOV/APCD
- CONTRACTOR RESPONSIBLE FOR ANY/ALL FINES.

EROSION CONTROL LEGEND

 HYDROSEED AND INSTALL EROSION CONTROL MEASURES ON ALL DISTURBED AREAS PER SECTION 02936.

SLOPE TABLE	
SLOPE PERCENTAGE	SHEET FLOW LENGTH NOT TO EXCEED
0-25%	20 FEET
26-50%	15 FEET
OVER 51%	10 FEET

NOTES:

- EROSION CONTROL PER BEST MANAGEMENT PRACTICES AND EROSION NOTES AND DETAILS, SEE PAGES SD-16 AND SD-17.
- HYDROSEEDING (OR EQUIVALENT VEGETATION) WILL BE APPLIED TO INACTIVE DISTURBED AREAS THAT ARE DEEMED SUBSTANTIALLY COMPLETE. HYDROSEEDING (OR EQUIVALENT) WILL BE RE-APPLIED AS NEEDED TO MAINTAIN EFFECTIVENESS.
- STRAW MULCH WILL BE APPLIED TO ALL INACTIVE DISTURBED AREAS. AN INACTIVE DISTURBED AREA IS DEFINED AS AN AREA THAT HAS BEEN DISTURBED, IS NOT YET STABILIZED, AND WORK IS NOT SCHEDULED TO RESUME AT THE AREA WITHIN 14 DAYS. STRAW MULCH WILL BE RE-APPLIED AS NEEDED TO MAINTAIN EFFECTIVENESS.
- DISTURBED SLOPES THAT ARE NOT DEEMED SUBSTANTIALLY COMPLETE WILL BE STABILIZED WITH PLASTIC COVERS (HYDROSEEDING WILL BE USED WHEN DISTURBED SLOPES ARE DEEMED SUBSTANTIALLY COMPLETE). LINEAR SEDIMENT CONTROLS WILL BE DEPLOYED AT THE BASE OF AREAS PROTECTED WITH PLASTIC COVERS.
- LINEAR SEDIMENT CONTROLS (SILT FENCING, FIBER ROLLS, ETC.) WILL BE DEPLOYED ON DISTURBED SLOPES THAT HAVE A SLOPE UP TO 1:4 (V:H), AND A SLOPE LENGTH LESS THAN 100 FEET (FIBER ROLLS WILL BE USED WHEN SLOPE LENGTH EXCEEDS 100 FEET). FIBER ROLLS WILL BE DEPLOYED ON DISTURBED SLOPES GREATER THAN, OR EQUAL TO, 1:4 (V:H). THE CONTRACTOR SHALL APPLY LINEAR SEDIMENT CONTROLS ALONG THE TOE OF THE SLOPE, FACE OF THE SLOPE, AND AT THE GRADE BREAKS OF EXPOSED SLOPES TO COMPLY WITH SHEET FLOW LENGTHS IN ACCORDANCE WITH TABLE 300-1 "CRITICAL SLOPE/SHEET FLOW LENGTH COMBINATIONS", LOCATED ON THIS SHEET. ADDITIONALLY, LINEAR SEDIMENT CONTROLS WILL BE USED AS A PERIMETER CONTROL TO CONTAIN SEDIMENT WITHIN THE PROJECT AREA. IT IS NOT NECESSARY TO DEPLOY PERIMETER CONTROLS AT LOCATIONS WHERE SEDIMENT IS UNABLE TO LEAVE THE PROJECT SITE (SUCH AS AREAS THAT SLOPE INWARD).
- CHECK DAMS WILL BE DEPLOYED TO SLOW FLOW VELOCITIES IN UNLINED SWALES UNTIL GRASS IS ESTABLISHED.
- THE CONTRACTOR SHALL INSPECT ALL IMMEDIATE ACCESS ROADS DAILY. THE CONTRACTOR SHALL REMOVE ANY SEDIMENT OR OTHER CONSTRUCTION ACTIVITY RELATED MATERIALS THAT ARE DEPOSITED ON THE ROADS BY VACUUMING OR SWEEPING ON A DAILY BASIS AND PRIOR TO ANY RAIN EVENT.
- ANY STORM DRAIN INLETS DOWN GRADIENT OF DISTURBED SOIL AREAS WILL BE PROTECTED.
- A STABILIZED CONSTRUCTION ENTRANCE/EXIT WILL BE CONSTRUCTED. CONSTRUCTION ACTIVITY TRAFFIC TO AND FROM THE PROJECT WILL BE LIMITED TO THESE STABILIZED CONSTRUCTION ENTRANCES/EXITS. IF THE PROJECT'S STABILIZED CONSTRUCTION ENTRANCES/EXITS DO NOT SUFFICIENTLY REMOVE SEDIMENT FROM THE TIRES OF CONSTRUCTION VEHICLES AND EQUIPMENT, AN ENTRANCE/OUTLET TIRE WASH WILL BE CONSTRUCTED. ADDITIONAL TIRE WASHES WILL BE CONSTRUCTED AS NEEDED.
- ALL STOCKPILES WILL BE LOCATED A MINIMUM OF 50 FEET AWAY FROM CONCENTRATED FLOWS OF STORM WATER, DRAINAGE COURSES, AND INLETS. ALL STOCKPILES WILL BE BERMED. ADDITIONALLY, STOCKPILES WILL BE COVERED AT ALL TIMES (TO PROTECT THEM FROM THE WIND AND THE RAIN) WHEN THEY ARE NOT ACTIVELY BEING USED. STOCKPILES THAT ARE UNSTABILIZED DURING CONSTRUCTION ACTIVITIES WILL BE SPRAYED WITH WATER AS NEEDED FOR DUST CONTROL.
- AN ABOVE GRADE OR MOBILE CONCRETE WASHOUT WILL BE CONSTRUCTED OR PLACED AT THE STAGING AREA IF CONCRETE TRUCKS OR CONCRETE EQUIPMENT WILL BE WASHED ON-SITE. THE WASHOUT WILL BE LOCATED A MINIMUM OF 50 FEET AWAY FROM CONCENTRATED FLOWS OF STORM WATER, DRAINAGE COURSES, AND INLETS. ADDITIONAL WASHOUTS WILL BE UTILIZED AS NEEDED.

EROSION CONTROL NOTES:

- THE STATE'S GENERAL PERMIT FOR STORMWATER DISCHARGES ASSOCIATED WITH CONSTRUCTION ACTIVITY (2009-2009-DWQ) REQUIRES THE PREPARATION OF A STORMWATER POLLUTION PREVENTION PLAN (SWPPP) FOR SITES WITH SOIL DISTURBANCES GREATER THAN OR EQUAL TO ONE ACRE, OR FROM SITES SMALLER THAN ONE ACRE IF THE CONSTRUCTION ACTIVITY IS PART OF A LARGER PLAN OF DEVELOPMENT OR SALE THAT DISTURBS ONE ACRE OR MORE. CONSTRUCTION ACTIVITY SHALL NOT COMMENCE, NOR A PRE-CONSTRUCTION MEETING BE PERMITTED TO BE SCHEDULED, PRIOR TO THE SWPPP BEING ACCEPTED BY THE CITY. FOR MORE INFORMATION SEE: http://www.roseville.ca.us/eu/stormwater_management
- THE PROJECT STORMWATER POLLUTION PREVENTION PLAN (SWPPP) IS INCORPORATED BY REFERENCE INTO THIS SET OF PLANS. THE SWPPP IS CONSIDERED A DYNAMIC DOCUMENT AND WILL CHANGE AS CONDITIONS WARRANT. PERMANENT EROSION AND SEDIMENT CONTROL MEASURES WILL BE CONSTRUCTED AS SHOWN ON THESE PLANS.
- A COPY OF THE SWPPP SHALL BE KEPT AT THE PROJECT SITE AT ALL TIMES.
- ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE IMPLEMENTED AS SPECIFIED IN THE SWPPP.
- ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE MAINTAINED IN ACCORDANCE WITH THE SWPPP.
- THE CONTRACTOR SHALL ESTABLISH A SPECIFIC SITE WITHIN THE DEVELOPMENT FOR MAINTENANCE AND STORAGE OF EQUIPMENT OR ANY OTHER ACTIVITY THAT MAY ADVERSELY CONTRIBUTE TO THE WATER QUALITY OF THE RUNOFF IN ACCORDANCE WITH THE SWPPP.
- NO TRACKING ON PUBLIC STREET.

CITY OF ROSEVILLE RECYCLED WATER SPECIAL ON SITE IRRIGATION NOTES:

- THE INSTALLATION OF THE RECYCLED WATER SYSTEM SHALL CONFORM TO THE REGULATIONS FOR THE CONSTRUCTION OF RECYCLED WATER SYSTEMS WITHIN THE CITY OF ROSEVILLE AND THE ACCOMPANYING PLANS AND SPECIFICATIONS.
- ALL ON-SITE RECYCLED AND POTABLE WATER PIPING INSTALLED ON THIS PROJECT SHALL BE IDENTIFIED IN ACCORDANCE WITH THE CITY OF ROSEVILLE CONSTRUCTION STANDARDS FOR RECYCLED WATER INFRASTRUCTURE AND THE IRRIGATION SPECIFICATIONS.
- CITY OF ROSEVILLE ENVIRONMENTAL UTILITIES DEPARTMENT SHALL BE NOTIFIED TWO DAYS PRIOR TO THE START OF CONSTRUCTION AT (916) 774-5750 AND EACH WORKDAY THEREAFTER UNTIL COMPLETION OF PROJECT FOR COMMERCIAL IRRIGATION SYSTEMS. CITY OF ROSEVILLE PARKS DEPARTMENT SHALL BE NOTIFIED TWO DAYS PRIOR TO THE START OF CONSTRUCTION AT (916) 746-1758 FOR LANDSCAPE CORRIDORS AND PARKS. A PRE-CONSTRUCTION MATERIALS INSPECTION MUST BE ARRANGED PRIOR TO THE START OF CONSTRUCTION.
- NO FACILITY IS TO BE BACKFILLED UNTIL INSPECTED BY THE CITY OF ROSEVILLE ENVIRONMENTAL UTILITIES DEPARTMENT AND/OR PARKS DEPARTMENT INSPECTOR.
- ALL RECYCLED WATER INFRASTRUCTURE, BOTH ON-SITE AND OFF-SITE SHALL BE INSPECTED BY CITY OF ROSEVILLE ENVIRONMENTAL UTILITIES AND/OR PARKS DEPARTMENT. FOR INSPECTION OF RECYCLED WATER SYSTEM CONTACT ENVIRONMENTAL UTILITIES AT 774-5750 FORTY- EIGHT (48) HOURS IN ADVANCE. POINTS OF INSPECTION ARE:
 - PRE-CONSTRUCTION MATERIALS INSPECTION.
 - IRRIGATION SYSTEM INSTALLATION BEFORE LINES ARE COVERED.
 - PRESSURE TESTING.
 - SYSTEM CROSS CONNECTION CONTROL TEST.
 - SYSTEM COVERAGE TEST.
- ALL RECYCLED WATER PIPING SHALL BE PURPLE COLORED PVC UNLESS OTHERWISE SPECIFIED. WHERE PURPLE PVC IS NOT USED, PIPE SHALL BE IDENTIFIED (MARKED) IN ACCORDANCE WITH THE CITY OF ROSEVILLE CONSTRUCTION STANDARDS.
- MARKING ON THE PURPLE COLORED PVC PIPE SHALL INCLUDE THE FOLLOWING:

"CAUTION: RECYCLED WATER- DO NOT DRINK". NOMINAL PIPE SIZE. PVC-1120. PRESSURE RATING IN POUNDS PER SQUARE INCH AT 73 DEGREES. ASTM DESIGNATIONS SUCH AS 1785, 2241, 1672, 3139. PRINTING SHALL BE PLACED CONTINUOUSLY ON TWO SIDES OF THE PIPE.
- ALL RECYCLED WATER SPRINKLER CONTROL VALVES, VALVE RISERS, SPRINKLER RISERS, AND SWING JOINTS SHALL BE TAGGED WITH IDENTIFICATION TAGS OR ADHESIVE LABELS AS FOLLOWS:
 - TAGS SHALL BE WEATHERPROOF PLASTIC, 3" X 4", PURPLE COLOR WITH THE WORDS "WARNING: RECYCLED WATER- DO NOT DRINK" IMPRINTED ON ONE SIDE, AND "AVISA: AGUA IMPURA- NO TOMAR" ON THE OTHER SIDE. IMPRINTING SHALL BE PERMANENT AND BLACK IN COLOR. USE TAGS AS MANUFACTURED BY T. CHRISTY ENTERPRISES OR APPROVED EQUAL.
 - ONE TAG SHALL BE ATTACHED TO EACH VALVE AS FOLLOWS:
 - ATTACH TO VALVE STEM DIRECTLY OR WITH PLASTIC TIE-WRAP, OR
 - ATTACH TO SOLENOID WIRE DIRECTLY OR WITH PLASTIC TIE-WRAP.
 - RECYCLED WATER WARNING LABELS OR STICKERS THAT ARE CONSISTENT WITH CITY OF ROSEVILLE CONSTRUCTION STANDARDS FOR RECYCLED WATER INFRASTRUCTURE AND THE IRRIGATION SPECIFICATIONS MUST BE ATTACHED TO ALL PIPING NOT IN COMPLIANCE.
 - ALL SPRINKLER HEADS MUST BE DESIGNED FOR RECYCLED WATER USAGE, WITH PURPLE RECYCLED WATER WARNING CAPS.
 - SPRINKLER RISERS AND SWING JOINTS SHALL BE IDENTIFIED WITH PURPLE ADHESIVE 3" X 3" LABELS. EACH LABEL SHALL STATE "RECYCLED WATER - DO NOT DRINK" IN ENGLISH AND SPANISH.
- ALL RECYCLED WATER CONTROL VALVE BOXES SHALL BE PURPLE AND HAVE A WARNING LABEL PERMANENTLY MOLDED INTO OR AFFIXED ONTO THE LID WITH RIVETS, BOLTS, ETC. WARNING LABELS SHALL BE CONSTRUCTED OF A PURPLE WEATHERPROOF MATERIAL WITH THE WARNING PERMANENTLY STAMPED OR MOLDED INTO THE LABEL. THE WARNING SHALL CONTAIN THE FOLLOWING INFORMATION:
 - "NON-POTABLE" OR "RECYCLED WATER".
 - "DO NOT DRINK" IN ENGLISH AND SPANISH.
- RECYCLED WATER QUICK COUPLING VALVES SHALL HAVE A PURPLE RUBBER OR VINYL COVER. THE COVER SHALL BE OF A LOCKING TYPE AND HAVE A WARNING PERMANENTLY STAMPED OR MOLDED AS FOLLOWS: "RECYCLED WATER- DO NOT DRINK" IN ENGLISH AND SPANISH.
- PLASTIC WARNING TAPE SHALL BE USED ON ALL POTABLE WATER PIPING, POTABLE WATER WARNING TAPE SHALL BE A MINIMUM OF 3 INCHES WIDE AND SHALL RUN CONTINUOUSLY FOR THE ENTIRE LENGTH OF EACH LINE. THE TAPE SHALL BE ATTACHED TO THE TOP OF THE PIPE WITH NYLON TIE-WRAP BANDED AROUND THE WARNING TAPE AND THE PIPE EVERY FIVE FEET ON CENTER. WARNING TAPE FOR THE POTABLE WATER PIPING SHALL BE BLUE IN COLOR WITH WORDS "CAUTION: POTABLE WATER LINE BURIED BELOW" IMPRINTED IN MINIMUM 1-INCH HIGH LETTERS, BLACK IN COLOR. IMPRINTING SHALL BE CONTINUOUS AND PERMANENT.
- ALL PRESSURE MAIN LINE PIPING FROM THE RECYCLED WATER SYSTEM SHALL BE INSTALLED TO MAINTAIN 10 FEET MINIMUM HORIZONTAL SEPARATION FROM ALL POTABLE WATER PIPING. WHERE RECYCLED AND POTABLE WATER PRESSURE MAIN LINE PIPING CROSS, THE RECYCLED WATER PIPING SHALL BE INSTALLED 12" BELOW THE POTABLE WATER PIPING OD TO OD. WHERE THE RECYCLED WATER PRESSURE MAIN LINE MUST PASS ABOVE POTABLE WATER PIPING, THE RECYCLED WATER PIPING SHALL INSTALLED IN A CLASS 200 PURPLE COLORED PVC SLEEVE WHICH EXTENDS A MINIMUM OF FIVE FEET ON EITHER SIDE OF THE POTABLE WATER PIPING. A 12" VERTICAL SEPARATION OD TO OD MUST BE MAINTAINED. CONVENTIONAL (WHITE) PVC PIPE MAY BE USED FOR SLEEVING MATERIAL IF IT IS TAPED WITH THREE-INCH WIDE PURPLE WARNING TAPE, WHICH READS "RECYCLED WATER- DO NOT DRINK".
- ALL PRESSURE MAIN LINE PIPING FROM THE RECYCLED WATER SYSTEM SHALL BE INSTALLED TO MAINTAIN A TEN FOOT MINIMUM HORIZONTAL SEPARATION FROM ALL SANITARY SEWER LINES. WHERE RECYCLED AND SEWER CROSS, THE RECYCLED WATER PIPING SHALL BE INSTALLED A MINIMUM OF ONE FOOT ABOVE SEWER.
- FOR ON-SITE RECLAIMED WATER PIPING, THE MINIMUM DEPTH FROM FINISH GRADE TO TOP OF PIPE SHALL BE AS FOLLOWS:
 - INTERMITTENT PRESSURE LINES (ALL SIZES) - 12"
 - CONSTANT PRESSURE LINES 2.5" AND SMALLER - 18"
 - CONSTANT PRESSURE LINES 3" AND LARGER - 24"

CONT:

- PRESSURE AND CROSS CONNECTION TESTING FOR ON-SITE RECYCLED WATER SYSTEMS:
 - ALL TESTING OF RECYCLED WATER SYSTEMS MUST BE PERFORMED UTILIZING A POTABLE WATER SOURCE VIA A CONSTRUCTION WATER CONNECTION PER CITY OF ROSEVILLE CONSTRUCTION STANDARDS. NO RECYCLED WATER MAY ENTER A RECYCLED WATER SYSTEM UNTIL ALL TESTING IS SUCCESSFULLY COMPLETED.
 - THE SOURCE OF POTABLE WATER USED FOR TESTING MUST HAVE A METER AND AN APPROVED BACK FLOW PREVENTION DEVICE. THESE CAN BE OBTAINED THROUGH THE CITY OF ROSEVILLE.
 - THE CONTRACTOR SHALL PROVIDE A MEANS TO PLUMB IN PRESSURE AND CROSS CONNECTION TESTING APPARATUS AT THE POINT OF HIGHEST ELEVATION, FOR BOTH POTABLE AND CONSTANT PRESSURE RECYCLED WATER SYSTEMS.
 - THE CONSTANT PRESSURE RECYCLED WATER SYSTEM INCLUDING ALL APPURTENANCES SHALL BE TESTED AT 125 PSI AT HIGHEST POINT OF ELEVATION FOR 1 HOUR WITH NO DETECTABLE LEAKAGE.
 - PRESSURE TESTING MUST BE SUCCESSFULLY COMPLETED PRIOR TO CROSS CONNECTION TESTING.
 - THE RECYCLED WATER SYSTEM SHALL BE TESTED FOR CROSS-CONNECTION IN ACCORDANCE WITH UNIFORM PLUMBING CODE APPENDIX J PRIOR TO USE.
 - FOR PROJECTS BEING PERFORMED IN PHASES, A CROSS CONNECTION TEST SHALL BE PERFORMED ON EACH PHASE INDEPENDENTLY, BEFORE IT IS PUT INTO SERVICE. THE POTABLE WATER SOURCE USED FOR TESTING EACH PHASE MUST BE INDEPENDENT OF OTHER PREVIOUSLY COMPLETED PHASES.
 - AT THE TIME A CROSS CONNECTION TEST IS TO BE PERFORMED, CONSTRUCTION ON BOTH THE POTABLE AND THE RECYCLED WATER SYSTEMS BEING TESTED MUST BE COMPLETE, AND BOTH SYSTEMS FULLY OPERATIONAL AND FUNCTIONING AS DESIGNED.
 - CROSS CONNECTION TESTING SHALL BE PERFORMED ON THE SYSTEM BY CITY FORCES WITH THE ASSISTANCE OF THE CONTRACTOR. THE TEST WILL BE COORDINATED THROUGH THE ENVIRONMENTAL UTILITIES OR PARKS DEPARTMENT INSPECTOR. FORTY-EIGHT (48) HOURS NOTICE IS REQUIRED BEFORE THE TEST. DEPENDING ON THE COMPLEXITY OF THE SITE, A PRELIMINARY FIELD MEET MAY ALSO BE REQUIRED.
- COVERAGE TEST:
 - ADJUST SPRAY HEADS TO ELIMINATE OVERSPRAY ONTO NATIVE OAK AREAS AND INTO AREAS NOT UNDER THE CONTROL OF THE CUSTOMER. FOR EXAMPLE: POOL DECKS, PRIVATE PATIOS, STREETS AND SIDEWALKS.
- METER INSTALLATION:
 - ONCE THE ON-SITE RECYCLED WATER SYSTEM HAS BEEN PROPERLY INSPECTED AND PASSED PRESSURE AND CROSS CONNECTION TESTING, A METER MAY BE INSTALLED. THE METER MUST BE PURCHASED FROM THE CITY OF ROSEVILLE AND INSTALLED BY CITY FORCES. COORDINATE METER PURCHASE AND INSTALLATION WITH THE ENVIRONMENTAL UTILITIES OR PARKS DEPARTMENT INSPECTOR.
- NO CONNECTION SHALL BE MADE TO THE CITY'S EXISTING RECYCLED WATER SYSTEM UNTIL THE NEW FACILITIES HAVE BEEN SUCCESSFULLY PRESSURE AND CROSS CONNECTION TESTED. TAPS TO THE EXISTING RECYCLED SYSTEM WILL BE MADE BY CITY FORCES ONLY.
- FAILURE TO COMPLY WITH ANY OR ALL OF THE ABOVE GUIDELINES VIOLATES THE CITY OF ROSEVILLE DESIGN AND CONSTRUCTION STANDARDS FOR RECYCLED WATER INFRASTRUCTURE AND WILL RESULT IN TERMINATION OF SERVICE UNTIL THE APPROPRIATE CORRECTIVE STEPS HAVE BEEN TAKEN.

GENERAL LANDSCAPE REQUIREMENTS/NOTES

- NO PLANTING SHALL BE STARTED UNTIL SPRINKLER IRRIGATION SYSTEM HAS BEEN TESTED BY CONTRACTOR IN PRESENCE OF OWNER'S REPRESENTATIVE AND NOTED DEFICIENCIES CORRECTED.
- NO PLANTING SHALL BE STARTED UNTIL SOIL PREPARATION AND FINISH GRADING OPERATIONS HAVE BEEN COMPLETED AND APPROVED BY THE OWNER'S REPRESENTATIVE.
- PLANT MATERIAL IS SUBJECT TO APPROVAL OF OWNER'S REPRESENTATIVE

ENVIRONMENTAL REQUIREMENTS:

GENERAL: PROCEED WITH WORK IN ORDERLY AND TIMELY MANNER TO COMPLETE INSTALLATION OF LANDSCAPING WITHIN CONTRACT LIMITS.

PROTECTION:

LANDSCAPING: PROTECT LANDSCAPE WORK AND MATERIALS FROM DAMAGE DUE TO LANDSCAPE OPERATIONS, OPERATIONS BY OTHER CONTRACTORS AND TRADES AND TRESPASSERS. MAINTAIN PROTECTION DURING INSTALLATION AND MAINTENANCE PERIODS. TREAT, REPAIR OR REPLACE DAMAGED LANDSCAPE WORK AS DIRECTED AT NO ADDITIONAL COST TO CONTRACT.

ADVERSE CONDITIONS: WHEN CONDITIONS DETRIMENTAL TO PLANT GROWTH ARE ENCOUNTERED, SUCH AS RUBBLE FILL, ADVERSE DRAINAGE CONDITIONS, OR OBSTRUCTIONS, NOTIFY OWNER'S REPRESENTATIVE BEFORE STARTING WORK.

PLANTING INSTALLATION SEASONS AND CONDITIONS PLANTING

NO WORK SHALL BE DONE WHEN GROUND IS FROZEN, TOO WET OR IN AN OTHERWISE UNSUITABLE CONDITION FOR AMENDING SOIL, FINISH GRADING OR PLANTING.

SOIL TESTING:

- COORDINATE SOIL TESTING IN AN EXPEDITIOUS AND TIMELY MANNER AS REQUIRED FOR ON-SITE MATERIALS. RESPONSIBILITY OF CONTRACTING WITH A SOIL LABORATORY SHALL BE BORNE BY CONTRACTOR. COST OF SAMPLING AND TESTING SHALL BE INCLUDED IN CONTRACT PRICE. SIX (6) SAMPLES ARE REQUIRED. CONTRACTOR TO COLLECT SAMPLES IN THE PRESENCE OF OWNER'S REPRESENTATIVE. SAMPLES LOCATIONS TO BE IDENTIFIED ON PLAN.
- EACH SAMPLE SHALL BE SUBMITTED TO A LABORATORY. THE LABORATORY MUST BE APPROVED BY THE OWNER. SUBMIT SAMPLE SIZES AS REQUIRED BY LABORATORY.
- AS A MINIMUM, SOIL SAMPLES SHALL BE ANALYZED FOR: PH, SALINITY, AMMONIA, PHOSPHATE, POTASSIUM, CALCIUM, MAGNESIUM, BORON, AND SODIUM LEVELS. LABORATORY TO PROVIDE APPRAISAL OF CHEMICAL OF PROPERTIES, INCLUDING PARTICLE SIZE AND RECOMMENDATIONS FOR TYPES AND QUANTITIES OF AMENDMENTS AND FERTILIZERS.

SPRINKLER IRRIGATION NOTES:

- SPRINKLER SYSTEM SHALL COMPLY WITH CITY OF ROSEVILLE PARKS AND RECREATION DEPT REQUIREMENTS.
- DETERMINE LOCATION OF UNDERGROUND UTILITIES. DAMAGE CAUSED BY INSTALLATION OF THIS WORK SHALL BE REPAIRED TO SATISFACTION OF GOVERNING AGENCY OR OWNER AT NO ADDITIONAL COST TO THE CONTRACT.
- ALL LOCAL CODES AND ORDINANCES SHALL BE COMPLIED WITH. IF THERE IS A CONFLICT, NOTIFY OWNER'S REPRESENTATIVE IMMEDIATELY.
- TESTING:
 - PRESSURE TEST ALL UNDERGROUND PIPING AS FOLLOWS: SYSTEMS WITH OUT BOOSTER PUMP: MAIN LINE - AT STATIC PSI FOR 4 HOURS. LATERAL LINES - AT STATIC PSI FOR 2 HOURS.
 - COVERAGE TEST: NOTE: PRIOR TO REQUESTING COVERAGE TEST, INSURE ALL HEADS ARE SET PLUMB, NOZZLES ARE ADJUSTED PROPERLY AND SYSTEM HAS BEEN CHECKED FOR AUTOMATION. REQUEST OWNER'S REPRESENTATIVES PRESENCE ON-SITE WHEN SPRINKLER SYSTEM IS COMPLETELY INSTALLED AND FULLY AUTOMATIC. PROVIDE ADEQUATE PERSONNEL AT THIS MEETING TO ADJUST AND FINE TUNE SYSTEM TO SATISFACTION OF OWNER'S REPRESENTATIVE.
- LAYOUT ALL WORK PRIOR TO TRENCHING OPERATIONS TO DETERMINE IF MINOR MODIFICATIONS OR ADJUSTMENTS WILL BE REQUIRED.
- COORDINATE ALL WORK WITH OTHER TRADES SO PROGRESS OF WORK IS NOT INTERRUPTED AND CAN BE COMPLETED IN A TIMELY MANNER.

CIRCUMFERENTIAL PRESTRESSING NOTES

- 1) THE MAXIMUM STRESS TOLERANCE IN ANY STRAND AT ANY POINT AT ANY ELEVATION ON THE TANK WALL AT ANY TIME DURING THE WRAPPING OPERATION SHALL NOT EXCEED ± 320 POUNDS FROM THE AVERAGE FORCE SETTING OF $\pm 4,950$ POUNDS.
- 2) THE CONTRACTOR SHALL PROVIDE A CONTINUOUSLY ELECTRONICALLY RECORDED FORCE APPLICATION GRAPH FOR THE FULL LENGTH OF ALL WRAPPED STRAND AS PERMANENT DOCUMENTED EVIDENCE THAT THE FORCE APPLICATION REQUIREMENTS HAVE BEEN MET. ALL SUCH FORCE READINGS MUST BE BASED ON CONTINUOUS SENSING OF THE STRAND BETWEEN THE TENSIONING DRUM AND THE WALL AS THE STRAND IS BEING LAID ON THE WALL.
- 3) MANUAL, INDIVIDUAL, OR INTERMITTENT FORCE READINGS TAKEN WHEN THE STRAND IS IN FULL BODILY CONTACT WITH THE WALL WILL NOT BE ACCEPTED.
- 4) FORCE READINGS BASED ON ANYTHING OTHER THAN INSTANTANEOUS MONITORING AS THE STRAND IS BEING TENSIONED WILL NOT BE ACCEPTED.
- 5) INTERNAL TENDONS PLACED CIRCUMFERENTIALLY INSIDE THE COREWALL WILL NOT BE ACCEPTED.
- 6) THE STRAND SHALL BE $3/8"$ Ø BEFORE GALVANIZING WITH A MINIMUM GALVANIZING OF 0.85 OUNCES PER SQUARE FOOT AND A MINIMUM BREAKING STRENGTH OF 21,400 POUNDS AFTER GALVANIZING.
- 7) THE STRAND SHALL BE INSTALLED AS INDICATED BY THE WALL WRAPPING REQUIREMENTS.
- 8) PRIOR TO PLACING ANY STRAND OR SHOTCRETE ON THE WALL, ALL EXTERIOR SURFACES OF THE CONCRETE COREWALL WHICH WILL RECEIVE STRANDWRAPPING SHALL BE ABRASIVELY BLASTED WITH A SELF-CONTAINED WATER-BLASTING SYSTEM TO REMOVE ALL LAITANCE, FORMOIL, OR OTHER TYPES OF COATINGS. THE SURFACE SHALL BE CUT TO A MINIMUM CSP5 SURFACE PROFILE AS ESTABLISHED BY ICRI OVER A MINIMUM OF 90% OF THE SURFACE BEING PREPARED. ONCE THE ABRASIVE BLASTING IS COMPLETE THE TANK WALL SURFACE SHALL BE PRESSURE WASHED TO REMOVE ALL DUST RESIDUE ON THE WALL SURFACE.
- 9) PROVIDE 1 1/2" MINIMUM OF SHOTCRETE COVERAGE OVER THE OUTER LAYER OF STRAND.
- 10) ALL SHOTCRETE TO BE APPLIED WITH AN AUTOMATED PROCESS KEEPING THE NOZZLE AT A CONSTANT DISTANCE AND ANGLE AS IT TRAVELS AT A UNIFORM BI-DIRECTIONAL SPEED. FINAL SHOTCRETE COVER TO HAVE A NATURAL GUN FINISH.

NOTES PERTAINING TO CONDUIT SCHEDULE:

- CONDUIT TYPE "SPEC" IS AS DEFINED IN SPECIFICATIONS SECTION 16110 FOR NON-EXPOSED AND EXPOSED PORTIONS OF CONDUIT RUN.
- SEE SPECIFICATIONS AND EXPOSED TRANSITION DETAIL OR EQUIPMENT SPECIFIC DETAIL FOR CONDUIT TRANSITION MATERIALS AND METHODS FROM BELOW GROUND TO EXPOSED PORTIONS OF RUN.
- CONDUITS OVER 15 FT LENGTH (EITHER EMPTY OR WITH CONDUCTORS SIZED LESS THAN #8 AWG), SHALL INCLUDE A POLY PULL STRING. STRING SHALL BE TIED OFF AT EACH END.
- FITTINGS, CONDULETS, BOXES AND COVERS SHALL MATCH DUTY OF ADJACENT PIPE, SEE SPECIFICATIONS 16110.
- WIRE SIZING IN TABLE IS BASED ON COPPER CONDUCTORS, THHN INSULATION, WITH TYPE C STRANDING. OTHER CONDUCTOR TYPES, IF ALLOWED OR REQUIRED PER SPECIFICATION, MAY REQUIRE CONDUITS TO BE UPSIZED BY CONTRACTOR AND SUBMITTED FOR APPROVAL.
- SEE GENERAL NOTES ON LIGHTING AND RECEPTACLE PLAN FOR CONDUIT REQUIREMENTS FOR ELECTRICAL DEVICES WITHOUT CONDUITS SHOWN, CONDUIT NUMBERS, OR NOT LISTED IN SCHEDULE.

NOTES PERTAINING TO CONDUIT SCHEDULE:

1. CONDUIT TYPE "SPEC" IS AS DEFINED IN SPECIFICATIONS SECTION 16110 FOR NON-EXPOSED AND EXPOSED PORTIONS OF CONDUIT RUN.
2. SEE SPECIFICATIONS AND EXPOSED TRANSITION DETAIL OR EQUIPMENT SPECIFIC DETAIL FOR CONDUIT TRANSITION MATERIALS AND METHODS FROM BELOW GROUND TO EXPOSED PORTIONS OF RUN.
3. CONDUITS OVER 15 FT LENGTH (EITHER EMPTY OR WITH CONDUCTORS SIZED LESS THAN #8 AWG), SHALL INCLUDE A POLY PULL STRING. STRING SHALL BE TIED OFF AT EACH END.
4. FITTINGS, CONDULETS, BOXES AND COVERS SHALL MATCH DUTY OF ADJACENT PIPE, SEE SPECIFICATIONS 16110.
5. WIRE SIZING IN TABLE IS BASED ON COPPER CONDUCTORS, THHN INSULATION, WITH TYPE C STRANDING. OTHER CONDUCTOR TYPES, IF ALLOWED OR REQUIRED PER SPECIFICATION, MAY REQUIRE CONDUITS TO BE UPSIZED BY CONTRACTOR AND SUBMITTED FOR APPROVAL.
6. SEE GENERAL NOTES ON LIGHTING AND RECEPTACLE PLAN FOR CONDUIT REQUIREMENTS FOR ELECTRICAL DEVICES WITHOUT CONDUITS SHOWN, CONDUIT NUMBERS, OR NOT LISTED IN SCHEDULE.

SCHEDULE (PRELIMINARY)

DATE
NOVEMBER 2019

PROJECT NUMBER
17-083

DRAWING NUMBER
WD00-GE-008

SHEET NUMBER 122

GENERAL NOTES:

- EACH BREAKER SHALL HAVE A PADLOCKABLE HASP TO LOCK BREAKER IN THE OFF POSITION.
- ALL DIMENSIONS ARE APPROXIMATE. ACTUAL DIMENSIONS SHALL BE PER MANUFACTURER APPROVED IN SUBMITTAL.
- FURNISH AND APPLY ENGRAVED WHITE LETTERING ON BLACK PLASTIC NAMEPLATES FOR DEVICES AND BREAKERS WHERE NOTED, ON EXTERIOR DOORS AT MINIMUM, WITH A LETTERED BOX. TEXT HEIGHT SHALL BE 1/4 INCH MINIMUM. REFERENCE ONE-LINE DIAGRAM FOR LABEL.
- FURNISH CODE REQUIRED WARNING LABELS AND EQUIPMENT RATINGS LABELS.
- SEE TAGGING CONVENTIONS ON P&IDs TO COMPLETE EQUIPMENT TAG NUMBERS.

SWITCHBOARD ONE-LINE

METER/MAIN WEATHERWRAP

- ALL DIMENSIONS ARE APPROXIMATE. ACTUAL DIMENSIONS SHALL BE PER MANUFACTURER APPROVED IN SUBMITTAL.

SWITCHBOARD ELEVATION
OUTDOOR, NEMA 3R

12"x24" OPEN WINDOW WITH EDGE GUARD GASKET (TYP OF 2)

WEATHERWRAP FABRICATION METHODS

- NEMA 3R WEATHER-PROOF FOR OUTDOOR INSTALLATION.
- OUTER DOORS SHALL BE SEALED WITH RUBBERIZED FOAM GASKET.
- EXTERIOR FABRICATED FROM GALVANEAL (PAINT BOND) SHEET STEEL.
- 12 GAUGE EXTERIOR AND 14 GAUGE INTERIOR.
- ALL SEAMS SHALL HAVE CONTINUOUS WELD, GROUND SMOOTH.
- OUTER DOORS TO BE PADLOCKABLE WITH HEAVY DUTY 3 POINT LATCHES.
- DOOR HINGES AND PINS SHALL BE 316 STAINLESS STEEL.
- NO SCREWS, RIVETS, OR BOLTS SHALL PROTRUDE EXTERNALLY.
- INTERNAL SCREWS, RIVETS, BOLTS, AND NUTS SHALL BE STAINLESS STEEL.
- PAINT APPLICATION SHALL BE AS FOLLOWS:
A. TWO STAGE CHEMICAL BATH CLEANING.
B. ELECTROSTATICALLY APPLIED POWDER COAT PAINT FINISH.
C. OVEN CURED FOR TWO HOURS.
D. EXTERIOR COLOR SHALL BE: HOSPITAL WHITE.
- PHENOLIC SCREW MOUNTED NAMEPLATES SHALL BE PROVIDED FOR ALL OUTER DOOR SECTIONS.
- FABRICATION, COMPONENTS, AND WIRING SHALL CONFORM TO UL, NEC AND NEMA STANDARDS. PANEL SHALL BE APPROPRIATELY LABELLED.
- ALL WIRING SHALL BE LABELLED ON BOTH ENDS OF WIRE.
- AS-BUILT WIRING DIAGRAMS SHALL BE SHIPPED WITH PANEL.
- PROVIDE DRAWING POCKET ON INSIDE OF CONTROL PANEL DOOR.

FOR PROPOSAL PURPOSES ONLY,
NOT FOR CONSTRUCTION

GENERAL NOTES:

1. REAR ACCESS SHALL NOT BE REQUIRED TO SERVICE OR REPLACE SWITCHBOARD COMPONENTS.
2. EACH BREAKER SHALL HAVE A PADLOCKABLE HASP TO LOCK BREAKER IN THE OFF POSITION.
3. ALL DIMENSIONS ARE APPROXIMATE. ACTUAL DIMENSIONS SHALL BE PER MANUFACTURER APPROVED IN SUBMITTAL.
4. FURNISH AND APPLY ENGRAVED WHITE LETTERING ON BLACK PLASTIC NAMEPLATES FOR DEVICES AND BREAKERS WHERE NOTED, AT MINIMUM, WITH A LETTERED BOX. TEXT HEIGHT SHALL BE 1/4 INCH MINIMUM. REFERENCE ONE-LINE DIAGRAM FOR LABEL.
5. FURNISH CODE REQUIRED WARNING LABELS AND EQUIPMENT RATINGS LABELS.
6. SEE TAGGING CONVENTIONS ON P&IDS TO COMPLETE EQUIPMENT TAG NUMBERS.

NOTES REFERENCED IN DRAWING:

- ① CABLES SHALL BE FIELD CUT TO LENGTH, STRIPPED, AND FIT. BRACE WIRES TO MAINTAIN 65K AIC RATING. PROVIDE 6 SETS 535 MCM TYPE K STRANDED CABLE PER PHASE WITH COMPRESSION LUG CONNECTORS.

GENERAL NOTES

1. TYPE 1 ENCLOSURE WITH CUSTOM RAIN SHIELD AND REAR ACCESS PANEL.
FREE STANDING, FORMED FRAME CONSTRUCTION.
2. NEC STANDARD GAUGE PAN TYPE DOOR WITH LOCKABLE HANDLE.
3. FINISH: ANSI 61 GRAY, POLYESTER POWDER STANDARD. OTHER ANSI
COLORS AVAILABLE CONSULT FACTORY UL RECOGNIZED.
4. CONSTRUCTION IS IN ACCORDANCE WITH APPLICABLE REQUIREMENTS
OF UL 1008.
5. RECOMMENDED CLEARANCES: FRONT: 48 INCHES REAR: 36 INCHES
A 20% RATED GROUND BUS IS PROVIDED.
7. UNIT IS DESIGNED FOR COMBINATION TOP AND BOTTOM CABLE ENTRY.
THE STANDARD SWITCHING CONFIGURATION IS FOR TOP LUGS EMERGENCY
AND LOAD AND BOTTOM LUGS NORMAL OPERATION. THE SWITCH MAY
BE SUPPLIED WITH REVERSE NORMAL & EMERGENCY LUGS. (REFER TO
THE WIRING DIAGRAM FURNISHED WITH EACH TRANSFER SWITCH TO
DETERMINE TERMINATION POSITIONS).
8. NEUTRAL CONFIGURATIONS:
AN OPTIONAL FULL RATED NEUTRAL CONFIGURATION FOR EACH
SOURCE AND THE LOAD MAY BE PROVIDED. WHEN EQUIPPED
IT IS IN ONE OF THE FOLLOWING FORMATS AS SPECIFIED BY THE
CATALOG NUMBER NO. NEUTRAL TYPE:
(A) SOLID (COPPER BUS) NEUTRAL
(B) SWITCHED NEUTRAL POLE
(C) OVERLAPPING NEUTRAL POLE (NOT AVAILABLE ON ACTS/ADTS UNITS)

TERMINATIONS

1. ALL SIZES SUPPLIED STANDARD WITH MECHANICAL (SCREW TYPE) LUGS. (SEE AMP SIZE BELOW)
 - A. LUG MATERIAL: ALUMINUM ALLOY 8061-T6 WITH ELECTRO TIN PLATED FINISH.
 - B. SCREW MATERIAL: ALUMINUM ALLOY 6262-T9 WITH ELECTRO TIN PLATED FINISH.
 - C. UL LISTED, CSA CERTIFIED.
 - D. LUG SCREW TIGHTENING TORQUE PER UL 486B: 19 FT-LBS.
 - E. SUITABLE WIRE BENDING SPACE IS PROVIDED. (SEE AMP SIZE BELOW)
2. OPTIONAL COPPER CRIMP LUGS MAY BE SUPPLIED. (SEE AMP SIZE BELOW)
 - A. LUG MATERIAL: HIGH CONDUCTIVITY WROUGHT COPPER FINISH, ELECTRO TIN PLATED.
 - B. UL LISTED, CSA CERTIFIED.
 - C. LUG MOUNTING HARDWARE TIGHTENING TORQUE: (REFER TO WITHSTAND CURRENT RATING LABEL PROVIDED ON EACH TRANSFER SWITCH).
 - D. SUITABLE WIRE BENDING SPACE IS PROVIDED. (SEE AMP SIZE BELOW)
3. CONSULT FACTORY FOR OTHER TERMINATION REQUIREMENTS.
4. GROUND LUGS ARE PROVIDED STANDARD AS FOLLOWS. (SEE AMP SIZE BELOW).
5. CUSTOMER TERMINAL BLOCKS:
 - FOR ALL 7000 SERIES UNITS THE TB WILL BE MOUNTED ON THE UPPER RIGHT INSIDE OF ENCLOSURE.
 - FOR 4000 SERIES UNITS TB WILL BE MOUNTED ON THE TRANSFER SWITCH FRAME AS INDICATED.

CABLING NOTES 2600-3000 AMPS

1. SUPPLIED WITH STANDARD MECHANICAL (SCREW TYPE) LUGS ON THE NORMAL, EMERGENCY & LOAD BUS STABS. TWO (2) LUG PER PHASE AND NEUTRAL EACH SUITABLE FOR CONNECTION OF TWELVE (12) 1/0 - 750MCM CU/AL CABLE (SEE NOTE "E" BELOW).
 - A. SUITABLE WIRE BENDING SPACE IS PROVIDED FOR UP TO TWELVE (12) 750MCM CABLES PER TERMINAL PER TABLE 373-6(a) OF NFPA 70 OF THE NEC.
2. OPTIONAL COPPER CRIMP LUGS MAY BE SUPPLIED. UP TO EIGHT (8) TWO HOLE, LONG BARREL CU CRIMP LUGS RATED FOR UP TO 600MCM. (REFER TO CRIMP LUG INSTALLATION DATA PROVIDED WITH UNIT FOR FULL INSTALLATION DETAILS).
 - A. SUITABLE WIRE BENDING SPACE IS PROVIDED FOR UP TO EIGHT (8) 600MCM CABLES PER TERMINAL PER TABLE 373-6(b) OF NFPA 70 OF THE NEC.
3. GROUND LUGS ARE PROVIDED STANDARD AS FOLLOWS;
(36) 1/0 - 750MCM CU/AL CABLE

1. SEE ELECTRICAL SYMBOLS AND ABBREVIATIONS DRAWING FOR SYMBOL DEFINITION.
2. ALL WORK SHALL CONFORM TO LOCAL CODES AND NATIONAL ELECTRIC CODE.
3. SITEPLAN ACCURATE FOR ELECTRICAL WORK ONLY. COORDINATE WITH OTHER DISCIPLINES.
4. CONFIRM HOOKUP REQUIREMENTS FOR ELECTRICAL AND MECHANICAL EQUIPMENT PRIOR TO INSTALLING UNDERGROUND CONDUIT AND STUB-UPS. MISSING CONDUITS, INCORRECT SIZING, OR OTHER ISSUES MUST BE BROUGHT TO THE ATTENTION OF ENGINEER PRIOR TO BACKFILL.
5. CONDUIT ROUTING IS SHOWN GENERALLY DIAGRAMMATIC AND DOES NOT INDICATE TRENCH WIDTH OR TRENCH LAYOUT. FOR CONDUITS OUTSIDE BUILDINGS, IF CONTRACTOR WANTS TO RUN CONDUITS IN ROUTES OTHER THAN THOSE SHOWN FOR ANY REASON, THEN HE SHALL SUBMIT THE PLAN FOR APPROVAL PRIOR TO INSTALLATION. SPECIFY REASON FOR CHANGE.
6. INSTALL NON-UTILITY CONDUITS PER DRAWING DETAILS AND SPECIFICATIONS SECTION 16110.
7. CONDUITS SIZE, TYPE AND FILL DEFINED BY TAG NAME IN CONDUIT AND WIRE ROUTING SCHEDULE.
8. INSTALL UNDERGROUND CONDUITS PER ELECTRICAL DETAIL RCE.
9. CONDUIT TRANSITIONS SHALL BE PER EXPOSED CONDUIT TRANSITION DETAIL ECT.
10. EXPOSED CONDUIT TYPE AND FITTINGS TO BE USED ABOVE TRANSITION SHALL BE PER AREA CLASSIFICATION DEFINED IN CONDUIT SPECIFICATIONS AND EQUIPMENT SPECIFIC DETAIL.
11. REPAIR SURFACE TO PREVIOUS CONDITION FOR ALL UNDERGROUND CONDUIT ROUTES. GROUT, CAULK, AND PAINT ANY PENETRATIONS INTO STRUCTURES FOR WATERTIGHT SEAL.
12. USE SS EXPANSION WEDGE ANCHORS OR EPOXY ANCHORS AS NECESSARY FOR EQUIPMENT MOUNTING.
13. RECEPTACLES TO BE GROUND FAULT INTERRUPTER (GFI) TYPE AND WEATHERPROOF (WP) OUTDOORS AND WHERE SHOWN.

1 EQUIPMENT NUMBERS AND INSTRUMENT TAGS ON THIS DRAWING ARE INCOMPLETE. REFER TO P&IDS FOR COMPLETE TAG NUMBERS.

2 ALL TYPE A FIXTURES TO BE MOUNTED AT 10 FEET AFF (TYPICAL).

GENERAL NOTES THAT APPLY TO LIGHTING AND RECEPTACLE PLAN.

1. THESE NOTES SHALL APPLY TO ALL EQUIPMENT OR FIXTURES WITH ELECTRICAL CONNECTIONS BUT WITHOUT CONDUITS SHOWN, CONDUIT NUMBERS, OR NOT LISTED IN SCHEDULE.
2. PROVIDE AND INSTALL NECESSARY WIRES IN SURFACE MOUNT 3/4" (MINIMUM) GRS CONDUIT FOR FOR ELECTRICAL FIXTURE ARRANGEMENT AS SHOWN. MAXIMUM 3 CIRCUITS PER CONDUIT SECTION OVER 24" IN LENGTH. CONDUITS SHALL NOT EXCEED 40% FILL.
3. CONDUITS UNDER SLAB SHALL BE PVC-40 WITH STUB-OUTS PER EXPOSED CONDUIT TRANSITION DETAIL.
4. ACCESS TO ATTIC AREA SHALL NOT BE REQUIRED TO INSTALL CONDUCTORS.
5. DEVICE BOXES AND CONDUIT BODIES SHALL BE CAST IRON OR ALUMINUM WITH THREADED HUB.
6. CONDUCTORS SHALL BE COPPER TYPE THHN, CLASS C STRANDING, #12 AWG (MINIMUM).
7. MOUNT CONDUITS USING SINGLE BOLT GALVANIZED PIPE STRAPS AND CLAMP BACK SPACERS.
8. USE SS EXPANSION WEDGE ANCHORS OR EPOXY ANCHORS AS NECESSARY FOR EQUIPMENT MOUNTING.
9. EXPOSED CONDUIT SHALL BE PAINTED WITH WALL AND/OR CEILING AS SPECIFIED.
10. PROVIDE AND INSTALL FIXTURES PER SCHEDULE THIS PAGE, QUANTITY AS SHOWN IN DRAWINGS.
11. PROVIDE AND INSTALL ALL DEVICE BOXES, JUNCTION BOXES, RECEPTACLES, SWITCHES, AND COVERS MOUNT ALL RECEPTACLES AT 48" AFF UNLESS OTHERWISE NOTED.
12. RECEPTACLES TO BE GROUND FAULT INTERRUPTER (GFI) TYPE AND WEATHERPROOF (WP) WHERE SHOWN.
13. SEE ELECTRICAL SYMBOLS AND ABBREVIATIONS DRAWING FOR SYMBOL DEFINITION.
14. ALL WORK SHALL CONFORM TO LOCAL CODES AND NATIONAL ELECTRIC CODE.
15. SWITCH TYPE: T= TIME SWITCH, M= MOTION DETECTOR, 3= 3-WAY.

DRAWING REFERENCED NOTES:

1. EQUIPMENT NUMBERS AND INSTRUMENT TAGS ON THIS DRAWING ARE INCOMPLETE. REFER TO P&IDS FOR COMPLETE TAG NUMBERS.
2. ALL TYPE A FIXTURES TO BE MOUNTED AT 10 FEET AFF (TYPICAL) IN PUMP ROOM AND ON CEILING IN ELECTRICAL AND CHEMICAL ROOMS.

COUNCIL COMMUNICATION

CC #: 0864
File #: 0203-06

Title: Audio Visual Services - Contract Purchase Agreement and Service Agreement Amendment
Contact: Tisha Chinn 916-774-5702 tchinn@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.3.

RECOMMENDATION TO COUNCIL

Staff recommends Council adopt a resolution to approve Amendment No. 1 to Service Agreement (S1909066) with Better Presentation Systems, Inc., and authorize the City Manager to execute it. The original contract term is being extended from January 20, 2020 to January 20, 2021. Revisions were also made to the contract to reflect recent changes in State law.

Staff also requests Council adopt a resolution to approve Contract Purchase Agreement 3000292 to incorporate Exhibit B, Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, and authorize the City Manager to execute it.

BACKGROUND

On March 20, 2019, City Council approved a service agreement for audio visual services with Better Presentation Systems. Projects range in size from small conference room upgrades to large facility system installations. The original contract was for 3 one-year terms and two optional renewal years. This amendment is to extend the term of the existing contract retroactively from January 20, 2020 through January 20, 2021. This will be the second of the two optional renewal years. Revisions were also made to the contract to reflect recent changes in State law.

Staff is also requesting approval for Contract Purchase Agreement 3000292 to incorporate Exhibit B, Contract Provisions for Non-Federal Entity Contracts Under Federal .

FISCAL IMPACT

This is a one-year extension to use the balance of an existing \$200,000 on-call agreement. Funding for work under this agreement comes from the requesting department upon identification of adequate funds in their respective budgets.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

Respectfully Submitted,

Tisha Chinn, Administrative Technician

Jason Shykowski, Public Works Director

This Contract Purchase Agreement is sent for your review and acceptance. Notify the Buyer via email of any needed changes to the company name, address, and contact information. The Buyer will update the agreement prior to you signing the document.

Return signed copies of the agreement to the Buyer noted on the agreement. Alterations or modifications to the agreement are not allowed. Upon receipt of all necessary documents, the City will sign the agreement and return a fully executed copy to you. Receipt of the signed copy will be your notice to proceed with the work in accordance with the terms and conditions of the agreement. Work must not begin until the contract has been fully executed.

The following guidelines must be followed for the signature block on the agreement:

Sole proprietorship - By owner

Partnership - Any general partner

Corporation - Two options:

(1) A signature from the President and the corporate seal; OR

(2) One signature from the Chairman of the Board, President, or any Vice President AND one signature from the Secretary, any Assistant Secretary, Chief Financial Officer, or any Treasurer or Assistant Treasurer of the corporation

***General Manager, Office Manager and/or Sales Manager are not corporate officer titles.** The agreement will be rejected if not signed in accordance with these guidelines.

Insurance requirements:

The City's insurance requirements are referenced on Attachment A of the agreement. By signing the agreement, you are confirming that your company has the minimum insurance limits required.

Description of Labor, equipment and/or materials
 START DATE: EXECUTED AGREEMENT
 END DATE: 1/20/21

The contractor shall furnish all labor, equipment, and materials necessary to accomplish the services called for under the City of Roseville Request for Proposal (RFP) #12-009 titled "Audio Visual Services" and contractor's proposal thereto titled "Bid Response for: City of Roseville Audiovisual Services RFP" (herein after "Proposal"). The terms and scope of work of the RFP and contractor's proposal are herein made part of this agreement and fully incorporated by reference. All jobs must be quoted and approved in advanced by an authorized member of the City's Information Technology (IT) Department utilizing contractor's "Attachment C Rate Schedule." Exhibit B rev. 4/2/20 shall also be incorporated by reference.

Contact Pete McLemore in the IT Dept. at (916)774-5431 or pmclmore@roseville.ca.us for questions.

The agreement amount is an approximate value only. The City does not guarantee whatsoever the actual amount to be spent.

Attention: Total Cost not to exceed the agreement amount without prior approval of the Purchasing office.

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
10. Contractor agrees to the below insurance requirements:
 - a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.

- b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:
 - (1) the minimum coverage and limits specified in this Agreement; or
 - (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of

subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

- i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.
12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

20. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Chemical/Environmental: _____

General Liability:
\$3 Million/occurrence
\$6 Million aggregate
Pollution – \$2 Million/Occurrence
Auto - \$2 Million/Occurrence

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239

Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

Asbestos-Containing Materials in City-Owned Buildings

California Health and Safety Code Section 25915 requires that all City of Roseville employees, contractors and lessees be notified annually of the presence of asbestos in City-owned buildings constructed prior to 1979. Please post this notice in an area(s) accessible to all employees, contractors and lessees. Contact Facility Maintenance & Operations at (916) 774-5740 for more information about Asbestos Containing Materials (ACMs) in specific City-owned buildings. For more information about asbestos refer to the OSHA website.

The City of Roseville is committed to maintaining a safe and healthy work environment. The City's Facility Maintenance & Operations staff conducts ongoing inspections to identify and safely manage previously installed asbestos-containing products. Renovation of City-owned buildings **MUST** be reviewed in advance by Facility Maintenance & Operations to ensure the City is in compliance with building codes, Americans with Disabilities Act and that no ACMs are disturbed without proper safeguards. Work that requires removal or repair of ACMs is restricted to trained and qualified persons only. **Facility Maintenance & Operations will need to approve the qualified contractors.**

Use the following measures to protect you and others from exposure to airborne asbestos:

- Presume all building materials contain asbestos until determined otherwise by Facility Maintenance & Operations.
- Do not install walls, closets, cabinets, ceilings.
- Do not remove, cut, drill, sand, grind or otherwise disturb any material in the buildings, including carpet and tile.
- Do not paint (this includes any walls, ceilings, floors and electrostatic painting of office furniture).
- Do not remove any items nailed or screwed to the walls (this includes pictures, cabinets, electrical, etc.).
- Do not go above ceilings, behind walls or into building spaces such as attics and crawlspaces unless these areas have been inspected and cleared by Facility Maintenance & Operations.
- Do not pull cable or wiring through above-ceiling spaces with asbestos.
- Do not install screws, pins, nails or hangers into asbestos ceiling or wall plaster.
- Be careful not to damage walls, ceilings or floors when moving furniture or equipment. It is recommended that Facility Maintenance & Operations be contacted prior to moving furniture or equipment.
- Do not brush, sweep or vacuum textured asbestos ceiling plaster or plaster debris.
- Immediately report any damage or deterioration of suspect building materials to Facility Maintenance & Operations or Risk Management.

It is important to note that the presence of asbestos does not mean you have been exposed. Exposure results when friable asbestos particles are inhaled or ingested. Asbestos becomes friable when material containing asbestos is drilled, sanded or disturbed by remodeling or demolition work or when the ACM has deteriorated. Intact, bonded, sealed or undisturbed asbestos does not pose a hazard.

Employees may review the asbestos survey reports, results of bulk sampling or air monitoring conducted in City-owned buildings. All asbestos data will be available by appointment with Facility Maintenance & Operations.

Exhibit B
Revised 4/2/20

Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

1. For purposes of this Exhibit B, the terms contractor, consultant, supplier, and vendor shall be used interchangeably and specifically refer to the party furnishing good and/or services to the City of Roseville (hereinafter "City") pursuant to the Agreement.
2. **Contractual remedies for breach of the Agreement:** Should any party breach any of the terms of the Agreement, the non-breaching party may commence any legal action against the other party arising out of the breach of the Agreement or the performance thereof. The prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of the Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
3. **Termination for cause or convenience:** At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided contractor is given thirty (30) days' written notice. City's termination shall be without further liability to City, however contractor shall be entitled to all costs reasonably incurred prior to the date of termination. contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
4. **Equal Employment Opportunity:** The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this Agreement, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for

employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Contractor Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Contractor Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further City contracts or federally assisted construction contracts in accordance with procedures authorized in Contractor Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Contractor Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Contractor Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect

to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, That if the applicant so participating is a State or local City, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such City which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Contractor Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, City contracts and federally assisted construction contracts pursuant to the Contractor Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Contractor Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

5. **Davis Bacon Act:** If the Agreement is a prime construction contracts in excess of \$2,000, contractor agrees:
 - a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.
 - b. Contractor is required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

- c. Additionally, contractor is required to pay wages not less than once a week.
6. **Copeland Anti-Kickback Act:** If the Agreement is a contract for construction or repair in excess of \$2,000, contractor agrees:
- a. Contractor. The contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
 - b. Subcontracts. The contractor or subcontractors shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.
 - c. Breach. A breach of the contract clauses above may be grounds for termination of the Agreement, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.
7. **Contract Work Hours and Safety Standards Act:** This section applies if the Agreement is in excess of \$100,000 under grant and cooperative agreement programs and involves the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
- (1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
 - (2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.
 - (3) *Withholding for unpaid wages and liquidated damages.* The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work

Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

- (4) *Subcontracts*. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

8. Clean Air Act and Federal Water Pollution Control Act: If the Agreement is in excess of \$150,000:

- a. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq., and the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.
- b. The contractor agrees to report each violation to the City and understands and agrees that the City will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
- c. The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. Debarment and Suspension:

- (1) This Agreement is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).
- (2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
- (3) This certification is a material representation of fact relied upon by the City. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the City, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.
- (4) The contractor agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The contractor further agrees to include a provision requiring such compliance in its lower tier covered transactions.

10. Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended):

If the Agreement is \$100,000 or more, contractor shall file the required certification under the Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or

organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

11. Procurement of Recovered Materials:

- i. In the performance of this contract, the contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired:
 - 1. Competitively within a timeframe providing for compliance with the contract performance schedule;
 - 2. Meeting contract performance requirements; or
 - 3. At a reasonable price.
- ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>.
- iii. The contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.

12. Access to Records:

- (1) The contractor agrees to provide City, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.
- (2) The contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.
- (3) The contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.
- (4) In compliance with the Disaster Recovery Act of 2018, the City and the contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

13. No Obligation by Federal Government:

The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

14. Program Fraud and False or Fraudulent Statements or Related Acts:

The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract.

Firm Qualifications

Better Presentation Systems, Inc. Statement of Qualifications;

Better Presentation Systems, Inc. was founded in May of 2002 as an audio and video systems integration company. We specialize in the design, procurement, and installation of commercial A/V systems for corporate, government, and education clients. We have extensive experience in all aspects of A/V integration from small tenant improvement single room projects to multi-room projects to complex operational centers. We pride ourselves in closing projects on time and on budget. Our experience and time in the field guarantees that we can design a system on paper and make it work in the field.

For the past eleven years Better Presentation Systems has been the exclusive A/V integration company to Hewlett Packard's Roseville campus. The A/V projects for HP have ranged from approximately 75 simple conference rooms to large combine/divide public hearing rooms. In 2006 Hewlett Packard re-purchased and rebuilt the Addison Avenue house in Palo Alto and redesigned the house as a conference center for their highest level executives and board members. The Addison Ave house is where Mr. Hewlett and Mr. Packard started the company that was to bear their name. Based on our performance over the years Better Presentation Systems was selected over Bay Area competitors as the A/V vendor to design and install the A/V and audio conferencing system in the Addison Avenue house. This house has been recognized by the Historical Society as the "Birthplace of Silicon Valley". In the summer of 2015 Better Presentation Systems, Inc. integrated eighteen (18) conference rooms for CalWIN at the HP campus. The conference rooms ranged in complexity from simple huddle rooms to large, acoustically challenging teleconference rooms.

Better Presentation Systems has also provided all A/V services for Sacramento Municipal Utilities District (SMUD) since 2005 throughout the district and main campus. Projects have included the redesign of the display system for the entire electrical grid throughout the Sacramento area, and its' counterpart back-up system located at the Rancho Seco Facility. We have designed and installed over 30 A/V systems throughout the campus including their public boardroom and complex Lighting Classroom, and have been providing ongoing support for these projects. In 2009 Better Presentation Systems was considered for SMUD's Power Player Awards as an outstanding business that has performed at an exemplary level on previous contracts. In the summer of 2013, Better Presentation Systems completed various A/V systems for SMUDs Eastern Campus Operations Center (ECOC), the first utilities facility to reach LEED Platinum certification.

In 2005 The City of Sacramento adopted Resolution 2005-588 suspending the competitive bidding process in order to ensure that Better Presentation Systems, Inc. was selected to design and install the A/V system in the Historic City Hall. This was done due to the importance of this building, and based on our performance on previous projects. In 2015 the City of Sacramento is once again looking to Better Presentation Systems, Inc. to sole source another wide scale City Hall City Council Board Chambers A/V modernization project that is slated to start this December.

**Better
Presentation
Systems, Inc.**

Better Presentation Systems, Inc. In-House Services Include:

- Project Design and Engineering – Engineering services that will produce a bill of materials, line diagrams, mounting details, heat calculations, weight calculations, acoustic coverage calculations, etc.
- Prevailing Wage Field Labor – Running cable, mounting displays, installing microphones, physical installation of A/V equipment
- Computer Aided Drafting – Production of as-built drawings, shop drawings, additional schematics as they relate to other trades, etc.
- Custom Control Processor Programming – Configuration/programming of control systems, development of Graphical User Interfaces (GUI) for touch screen controllers, development of enterprise LAN monitoring of networked A/V equipment, produce un-compiled program files for client safe keeping
- Field Engineering – Engineering oversight of field technicians, custom fabricated solutions that are needed in the field as they relate to the changing conditions of the job site or additional requirements of functionality, coordination in the field with other trades as they relate to the A/V portion of the project
- Project Management – Supervision of technicians work, manage work flow scheduling, also works with other trades during large projects, attendance of safety meeting, attendance of construction meetings, acts as a consistent liaison between client and BPS
- A/V Maintenance Service – Trouble shooting of existing A/V equipment (does not cover component level repair), projector lamp replacement, projector filter cleaning, impedance testing for speakers, etc.
- Shop Labor/ Rack Fabrication – Configure rack mounted equipment prior to being delivered onsite, dressing cables, terminating cables, initial testing, patch panel fabrication
- Documentation and Administration – Assemble submittal documentation, produce physical printed shop/design/as-built drawings, produce user guides for training staff, bonding paper work and administration, production of prevailing wage and other labor reports
- A/V Equalization and Commissioning – Testing of the A/V system post installation preprogramming, testing speaker noise levels, testing speaker polarity, testing HDMI and HDCP signal path and EDID configurations, Digital Sound Processing (DSP) configuration, audio conferencing SIP configuration (along with client telecom staff), IP address assignment (along with client telecom staff), etc.

Better Presentation Systems, Inc.

Better Presentation Systems, Inc. Sub-Consultant Services Include:

- Custom Control Processor Programming- Same description as aforementioned, but Better Presentation Systems may sub-contract to Phulogic for programming services in times that our in-house programmer is occupied with a project.
- Acoustic Engineering and Consulting – Better Presentation Systems may sub-contract to J.C. Brennan & Associates for acoustical engineering when dealing with large, complex acoustic environments. J.C. Brennan offer the following services; ANSI type 1 sound level measurement, computer modeling of noise impacts, GIS mapping, and have plans to add EASE modeling. J.C Brennan has a standing history with the City of Roseville as they have done testing at the Roseville Energy Park.

Better Presentation Systems, Inc. Organization Chart:

Since 2010 company size has ranged from 8-12 staff members.

Experience And References

Sacramento Municipal Utilities District

Jim Dayringer

Phone: (916)390-3135

BPS has held a standing A/V service agreement with SMUD since 2005. In that span BPS has deployed countless conference rooms, board rooms, auditoriums, and other A/V systems. BPS has developed many business practices that help manage and track tasks at SMUD, as there are always multiple tasks open and in continual progress at any given time. SMUD has renewed its contract with BPS at every available opportunity and BPS plans to maintain this relationship through strong communication and project management.

San Joaquin County

Steve Herzfeldt

Phone: (209) 468-3943

From 2011 through 2013 San Joaquin County maintained a service contract for a \$1.5 million dollar Board Chambers A/V system. Budget constraints have prevented San Joaquin County from renewing the annual contract, but they exclusively use BPS for their A/V service on an as needed basis. Additionally, San Joaquin has employed BPS to engineer and design a new microphone and voting system to be deployed in the near future.

City of Roseville

Randy Beckman

Phone: (916) 774-5402

For the last three years the City of Roseville has issued service agreements (S1404136, S1501136, and S1604125) to BPS for small A/V projects and general A/V service. In that time BPS has integrated A/V systems in the HR interview room, Roseville Electric conference room, and Mahany Park among other services. BPS has developed a few A/V system templates that meet level of functionality and simplicity that the City of Roseville staff have been delighted with since implementation. This standard will allow staff to have a consistent A/V operation experience regardless of familiarity of the system.

Presentation
Systems, Inc.**

DMV

Larry Sopp

Phone: (916)825-6990

In 2013 DMV awarded BPS a two year A/V service contract. DMV had 250,000 square feet of office space that had nine conference rooms with A/V systems covered by the service contract and various other A/V systems that BPS worked on an as needed basis outside of the service contract. At the end of the two year contract BPS helped put DMV back in control of their A/V systems. BPS generated working wire diagrams, rewrote control system code, and reterminated cabling to alleviate the aches of their aging A/V systems. BPS was invited to bid on the contract renewal, but due to a change in the contract to almost exclusively use weekend hours to perform work, BPS chose not to rebid.

Better Presentation Systems, Inc. Organization Chart:

BPS office is located at 2008 Opportunity Drive #170 in Roseville, California. All BPS staff members live within a 30 minute drive of the office. This gives BPS an advantage when supporting local businesses and government agencies.

**Better
Presentation
Systems, Inc.**

Proposal Understanding

BPS has firsthand knowledge of the projects that the City of Roseville desires to have installed and supported, and the services required to achieve these projects. BPS believes that the City of Roseville desires a contractor that will provide an accurate needs analysis, design a robust, easy to use, and budget conscious system, then work towards active project management to complete the project on time and on budget, and last maintain the A/V system. Strong communication is essential with each of the previously stated needs and is the strong suit of BPS.

As with many government agencies, there are a few challenges that any contractor will encounter. A problem that is seen far too often are large A/V systems that are unused by staff. The causes of system abandonment can be tracked down to a few overlooked flaws. One flaw is being too complex/poor user interface. The other common flaw is not designing an A/V system with enough connectivity to add the newest piece of technologies. BPS has been working with The City of Roseville staff to create a resolution to these issues. BPS has created a few A/V system templates that will sufficiently cover the needs of most all philosophies of use, have consistent user controls so staff can be train once and use multiple systems, and finally have some extra connectivity for connection of future, state of the art equipment. Using room templates also has the added benefit of having similar equipment from room to room and thus, a few spare pieces of equipment can ensure uptime for the systems on the same template. Furthermore, using equipment with room for expansion is a small cost when compared to large alterations to retrofit a system with new, larger components with sufficient connectivity.

Conversely, BPS also understands that the template formula will not be conducive to large scale, complex projects such as the EOC modernization at the RUEC. BPS is also at home and comfortable with the challenges that these projects produce. The keys to success at the large projects are three fold: impeccable upfront engineering, exceptional project management, and perfectly executed control system design and implementation. Engineering will set the foundation for the A/V system and allow avoidance of any roadblocks or short comings. Another result of such engineering is the ability to prefabricate the system at BPS to ensure the mocked up system can be tested prior to arriving onsite. Next, project management will set the project timelines and expectations, and execute consistent communication, which is at the heart of BPS project manager's duty. Lastly, control system design is where the rubber hits the road and is the product that City staff will lay their hands on. It cannot be understated how important the implementation of the control interface can be to a project; it truly is a make or break aspect to the system. BPS holds its control system programming paramount and spends countless hours scrutinizing how the system GUI will be best laid out and how to simplify even the most complex control scenarios.

**Better
Presentation
Systems, Inc.**

Proposal Implementation

BPS has decades of A/V system integration that have led to the following implementation model;

- Client will contact the account executive and initiate a site walk of a potential A/V project.
- The account executive will determine if it is necessary to include the project manager or engineer to the site walk.
- At the site walk the account executive will perform a needs assessment. The assessment will cover: construction of the A/V system environment, identify existing components, identify any deficiencies or functionalities that the current system lacks, identify the intended use of the A/V system, investigate what type of content will be shown or heard on the system, inquire as to what type of staff or public will use the system, determine the need, if any, for ADA compliant devices, and other pertinent data collection.
- Post needs assessment; the account executive will work with the engineer to provide presale engineering support. The engineer will identify the system components, formulate component locations and mounting details, figure wire pathways, and identify any other needed areas of attention.
- Next the account executive will engage the project manager to formulate; project timeline, estimation of needed labor hours, and allocation of staff.
- The account executive will then engage the senior programmer to establish how the GUI will work and look to accomplish the intended functionality the client has requested.
- The account executive will then compile the information into a scope of work and present it to the client. The client will then review the scope and submit any needs, changes, errors, changes in functionality, or confirm acceptance of the scope of work.
- The account executive will receive a purchase order or deposit and engage the engineer in producing system drawings, documentation, etc. Bonding documentation will be produced if needed, submittals arranged, and other documentation and administrative work commenced.
- After completion of the system documents the account executive will turn the project over to the business operation manager for equipment procurement.

Better Presentation Systems, Inc.

- After procurement the project will be turned over to the project manager. The project manager will ensure the client is informed of equipment delivery dates and also coordinate with the client any wire pulling or prep work that needs to take place prior to the first days of the project.
- If possible the wiring pulling and infrastructure work will take place in tandem with receiving the equipment and fabrication of the rack equipment.
- After rack fabrication, the system will be mocked up, and initial programming will take place. This is a very important step that saves countless hours spent in the field. Mocking the system at BPS's office will allow staff to easily identify issues and problems prior to impacting other trades or worse, client delays.
- After ensuring the system is free of any bugs or errors, the technicians will integrate the components into the client's environment.
- Next the A/V commissioning and equalization technician will again verify that the system is working and passes audio, video, HDCP, EDID, and other critical communications. The commissioning and equalization will also set IP addresses, configure SIP for teleconferencing, and in general work alongside client IT staff to adapt the A/V system to the client's IT environment. At this time the final red line revisions will be made to the field drawings and will then be made into as-builts by the engineer.
- The programmer will then finalize his portion of the project. Testing code as he works with any 3rd party systems, i.e. lighting, HVAC, blind, privacy glass, etc.
- Next the A/V commissioning and equalization technician will put the system through a final stage of testing which will produce a report that will be given to the client and will serve as a part of the final acceptance documentation.
- Last will be training and close out documentation. The account manager and project manager will deliver the training, owner's manuals, and sign off documents to the client for acceptance.

Select all provisions that apply:

☒ The term of the Agreement is extended for an additional year, and the expiration date of the Agreement is changed from **1/20/20** to **1/20/21**.

☒ The Agreement terms and conditions are modified to include the following clause:

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

All other provisions of the Agreement shall remain unchanged and in full force and effect.

Title: Heating, Ventilation and Air Conditioning Maintenance Services - Service Agreement Amendment
Contact: Tisha Chinn 916-774-5702 tchinn@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.4.

RECOMMENDATION TO COUNCIL

Staff is requesting Council adopt a resolution to approve Amendment No. 1 to Service Agreement S2008043 to incorporate the COVID-19 language, and authorize the City Manager to execute it.

BACKGROUND

In May of 2018, staff solicited Request for Proposals (RFP) for Heating, Ventilation and Air Conditioning (HVAC) maintenance, repair and replacement services and one of the awarded bidders was ACCO Engineered Systems Inc. Staff is requesting approval of Amendment No. 1 of service agreement S2008043 to add COVID-19 language to the agreement for the purchase of upgraded air filters in all City facilities in March 2020. The COVID-19 language is included in the contract as Exhibit B contract provisions and will allow the City to request disaster assistance reimbursement for the filters.

FISCAL IMPACT

The maximum contract amount for this agreement is \$350,000.00. The work is funded through the approved FY2019-20 Building Maintenance, Environmental Utilities, Electric, and Park Maintenance budgets.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. An amendment to a service agreement for heating, ventilation and air conditioning meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Tisha Chinn, Administrative Technician

Jason Shykowski, Public Works Director

Dominick Casey, City Manager

Exhibit B
Revised 4/2/20

Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

1. For purposes of this Exhibit B, the terms contractor, consultant, supplier, and vendor shall be used interchangeably and specifically refer to the party furnishing good and/or services to the City of Roseville (hereinafter "City") pursuant to the Agreement.
2. **Contractual remedies for breach of the Agreement:** Should any party breach any of the terms of the Agreement, the non-breaching party may commence any legal action against the other party arising out of the breach of the Agreement or the performance thereof. The prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of the Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
3. **Termination for cause or convenience:** At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided contractor is given thirty (30) days' written notice. City's termination shall be without further liability to City, however contractor shall be entitled to all costs reasonably incurred prior to the date of termination. contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
4. **Equal Employment Opportunity:** The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this Agreement, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for

employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Contractor Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Contractor Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further City contracts or federally assisted construction contracts in accordance with procedures authorized in Contractor Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Contractor Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Contractor Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect

to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, That if the applicant so participating is a State or local City, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such City which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Contractor Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, City contracts and federally assisted construction contracts pursuant to the Contractor Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Contractor Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

5. **Davis Bacon Act:** If the Agreement is a prime construction contracts in excess of \$2,000, contractor agrees:
 - a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.
 - b. Contractor is required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

- c. Additionally, contractor is required to pay wages not less than once a week.
6. **Copeland Anti-Kickback Act:** If the Agreement is a contract for construction or repair in excess of \$2,000, contractor agrees:
- a. Contractor. The contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
 - b. Subcontracts. The contractor or subcontractors shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.
 - c. Breach. A breach of the contract clauses above may be grounds for termination of the Agreement, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.
7. **Contract Work Hours and Safety Standards Act:** This section applies if the Agreement is in excess of \$100,000 under grant and cooperative agreement programs and involves the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
- (1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
 - (2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.
 - (3) *Withholding for unpaid wages and liquidated damages.* The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work

Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

- (4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

8. Clean Air Act and Federal Water Pollution Control Act: If the Agreement is in excess of \$150,000:

- a. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq., and the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.
- b. The contractor agrees to report each violation to the City and understands and agrees that the City will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
- c. The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. Debarment and Suspension:

- (1) This Agreement is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).
- (2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
- (3) This certification is a material representation of fact relied upon by the City. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the City, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.
- (4) The contractor agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The contractor further agrees to include a provision requiring such compliance in its lower tier covered transactions.

10. Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended):

If the Agreement is \$100,000 or more, contractor shall file the required certification under the Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or

organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

11. Procurement of Recovered Materials:

- i. In the performance of this contract, the contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired:
 - 1. Competitively within a timeframe providing for compliance with the contract performance schedule;
 - 2. Meeting contract performance requirements; or
 - 3. At a reasonable price.
- ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>.
- iii. The contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.

12. Access to Records:

- (1) The contractor agrees to provide City, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.
- (2) The contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.
- (3) The contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.
- (4) In compliance with the Disaster Recovery Act of 2018, the City and the contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

13. No Obligation by Federal Government:

The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

14. Program Fraud and False or Fraudulent Statements or Related Acts:

The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract.

COUNCIL COMMUNICATION

CC #: 0862
File #: 0203-06

Title: Technology Equipment - Purchase Order Renewal
Contact: Sage Armstrong 916-774-5679 sarmstrong@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.5.

RECOMMENDATION TO COUNCIL

Staff recommends City Council authorize the renewal of an open purchase order with Dell Marketing, L.P. for Roseville Electric's purchases of general technology equipment and supporting software on an as-needed basis. This open purchase order with Dell Marketing, L.P. uses the following competitively-bid cooperative contract which has recently been extended through July 31, 2021: Dell Marketing, LP, utilizing Western States Contracting Alliance - National Association of State Procurement Officials (WSCA-NASPO) ValuePoint Cooperative master agreement number MNWNC-108 with the State of California Participating Addendum number 7-15-70-34-003.

BACKGROUND

Roseville Electric supports and maintains industrial control systems which provide critical information on the output, status, and conditions of distribution and generation operational environments. These control systems utilize proprietary and general technology equipment including network routers and switches, desktop computers, servers, and accessories. In order to take advantage of competitive pricing for general technology equipment and related software, RE is utilizing open purchase orders, piggybacking on the following existing contract: Dell Marketing, LP, utilizing Western States Contracting Alliance - National Association of State Procurement Officials (WSCA-NASPO) ValuePoint Cooperative master agreement number MNWNC-108 with the State of California Participating Addendum number 7-15-70-34-003. This contract is extended through July 31, 2021, so staff is seeking approval for renewing the purchase order by continuing to utilize the extended contract.

In addition, the Dell Marketing, LP purchase order was initially authorized by Council on a combined basis with vendor CDW-G on November 16, 2018. Roseville Electric is seeking to renew this purchase order on an individual basis due to two different renewal dates between Dell Marketing, LP and CDW-G.

FISCAL IMPACT

The total cost of the hardware and software purchases will not exceed \$120,000. Funding is included in the Electric Operations Fund FY2020-21 budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378.

A purchase order renewal meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Sage Armstrong, Electric Technology System Administrator

Michelle Bertolino, Electric Utility Director

Dominick Casey, City Manager

Description

Naspo ValuePoint Master-Agreement MNWNC-108

Calif. Participating Addendum 1448052476

AMENDMENT NO. 2 TO CONTRACT MNWNC-108

THIS AMENDMENT is by and between the State of Minnesota, acting through its commissioner of Administration ("State"), and Dell Marketing L.P., One Dell Way, Mailstop RR1-33 Legal, Round Rock, TX 78682 ("Contract Vendor").

WHEREAS, the State has a Contract with the Contract Vendor identified as Contract No. MNWNC-108, April 1, 2015, through March 31, 2020 ("Contract"), to provide Computer Equipment: Desktops, Laptops, Tablets, Servers, and Storage, including Related Peripherals and Services; and

WHEREAS, Minn. Stat. § 16C.03, subd. 5, affords the commissioner of Administration, or delegate pursuant to Minn. Stat. § 16C.03, subd. 16, the authority to amend contracts; and

WHEREAS, the terms of the Contract allow the State to amend the Contract as specified herein, upon the mutual agreement of the Office of State Procurement and the Contract Vendor in a fully executed amendment to the Contract.

NOW, THEREFORE, it is agreed by the parties to amend the Contract as follows:

1. That Contract No. MNWNC-108 is extended through July 31, 2021, at the same terms, conditions, and prices.

This Amendment is effective beginning April 1, 2020, or upon the date that the final required signatures are obtained, whichever occurs later, and shall remain in effect through contract expiration, or until the Contract is canceled, whichever occurs first.

Except as herein amended, the provisions of the Contract between the parties hereto are expressly reaffirmed and remain in full force and effect.

IN WITNESS WHEREOF, the parties have caused this Amendment to be duly executed intending to be bound thereby.

1. DELL MARKETING L.P. The Contractor certifies that the appropriate person(s) have executed this Amendment on behalf of the Contractor as required by applicable articles, bylaws, resolutions, or ordinances. AMENDMENT NO. 1 TO CONTRACT NO. MNWNC-108

THIS AMENDMENT is by and between the State of Minnesota, acting through its commissioner of Administration ("State"), and Dell Marketing L.P., One Dell Way, Mailstop RR1-33 Legal, Round Rock, TX 78682 ("Contract Vendor").

WHEREAS, the State has a Contract with the Contract Vendor identified as Contract No. MNWNC-108, April 1, 2015, through March 31, 2017 ("Contract"), to provide Computer Equipment: (Desktops, Servers, and Storage including Related Peripherals and Services); and

WHEREAS, Minn. Stat. § 16C.03, subd. 5, affords the commissioner of Administration, or delegate pursuant to Minn. Stat. § 16C.03, subd. 16, the authority to amend contracts; and

WHEREAS, the terms of the Contract allow the State to amend the Contract as specified herein, upon the mutual agreement of the Materials Management Division and the Contract Vendor in a fully executed amendment to the Contract.

NOW, THEREFORE, it is agreed by the parties to amend the Contract as follows:

1. That Contract No. MNWNC-108 is extended through March 31, 2020, at the same terms and conditions.
2. The Contract Vendor shall provide Computer Equipment: (Desktops, Servers, and Storage including Related Peripherals and Services) at the prices set forth on the attached Exhibit B, Pricing Schedule.

This Amendment is effective beginning April 1, 2017, or upon the date that the final required signatures are obtained, whichever occurs later, and shall remain in effect through contract expiration, or until the Contract is canceled, whichever occurs first.

Except as herein amended, the provisions of the Contract between the parties hereto are expressly reaffirmed and remain in full force and effect.

IN WITNESS WHEREOF, the parties have caused this Amendment to be duly executed intending to be bound thereby.

MINNESOTA WSCA-NASPO MASTER AGREEMENT AWARD SUMMARY

1. **BACKGROUND.** The State of Minnesota, Department of Administration, Materials Management Division publicly posted a Request for Proposal on behalf of the State of Minnesota and WSCA-NASPO Cooperative Procurement Program ("WSCA-NASPO") resulting in a Master Agreement Award. After evaluation by a multi-state sourcing team the solicitation resulted in this Minnesota WSCA-NASPO Master Agreements with qualified manufacturers for:

Computer Equipment (Desktops, Laptops, Tablets, Servers, and Storage including related Peripherals & Services.

The original solicitation contains the requirements and definitions establishing the following Product Bands allowed on the Master Agreement. The configuration limits and restrictions for this Master Agreement are provided below. Participating Entities may revise these in their Participating Addendum. **Bands awarded are identified below:**

Band 1: Desktop	Band 3: Tablet	Band 5: Storage
Band 2: Laptop	Band 4: Server	

The original solicitation included Band 6: Ruggedized. This band has been removed and ruggedized equipment will be allowed in Bands 1-5. The original solicitation and responses may be found on the WSCA-NASPO Website.

2. **EFFECTIVE DATE:** The Master Agreement contract term will begin on April 1, 2015, or upon final executed signatures, whichever is later, through March 31, 2017 with the option to extend up to 36 months, upon agreement by both parties. Contract Sales may not begin until the Website, Product and Service Schedule and third party products have been approved by the Master Agreement Administrator.
3. **PARTICIPATION.** All authorized governmental entities in any State are welcome to use the resulting Master Agreements through WSCA-NASPO with the approval of the State Chief Procurement Official. Contract Vendors are able to sign Participating Addendums (PA) at the option of Participating States. Participating States reserve the right to add State specific terms and conditions and modify the scope of the contract in their Participating Addendum as allowed by the Master Agreement.
4. **CONFIGURATION DOLLAR LIMITS.** The following configuration limits apply to the Master Agreement. Participating States may define their configuration limits in their participating addendum. The Participating State's Chief Procurement Official may increase or decrease the configuration limits, as defined in their Participating Addendum. The Participating State will determine with the Contract Vendor how to approve these modifications to the State's Product and Service Schedule.

The dollar limits identified below are based on a **SINGLE** computer configuration. This is **NOT** a restriction on the purchase of multiple configurations (e.g. an entity could purchase 10 laptops @ \$10,000 for a total purchase price of \$100,000).

ITEM	CONFIGURATION*
Server	\$500,000
Storage	\$500,000
Desktops	\$ 10,000
Laptops	\$ 10,000
Tablets	\$ 5,000
Peripherals	\$ 5,000
Services	Addressed by each State in participating addendum

* Configuration is defined as the combination of hardware and software components that make up the total functioning system. Software purchases are considered a part of the configuration limit of the equipment.

5. **RESTRICTIONS.** The following restrictions apply to the Master Agreement. A Participating State may set further restrictions of products in their Participating Addendum. The Participating State will determine with the Contract Vendor how to approve these modifications to the State's Product and Service Schedule.

a. Software

1. Software is restricted to operating systems and commercial off-the-shelf (COTS) software and is subject to equipment configuration limits.
2. Software is an option which must be related to the procurement of equipment.
3. Software must be pre-loaded or provided as an electronic link with the initial purchase of equipment.
4. Software such as middleware which is not always installed on the equipment, but is related to storage and server equipment (Band 4&5) purchased, is allowed and may be procured after the initial purchase of equipment.

b. Services

1. Services must be related to the procurement of equipment.
2. Service limits will be addressed by each State.
3. Wireless phone and internet service is not allowed.
4. Cloud Services including acquisitions structured as managed on-site services are not allowed.
5. Managed Print Services are not allowed.

c. Third Party Products.

1. Contract Vendors can only offer Third Party Products in the bands they have been awarded.
2. Contract Vendor cannot offer products manufactured by another Contract Vendor holding a Minnesota WSCA-NASPO Master Agreement unless approved by the Lead State.

d. Additional Product/Services

1. Hardware and software required to solely support wide area network (WAN) operation and management are not allowed.
2. Lease/Rentals of equipment may be allowed and will be addressed by each State.
3. Cellular Phone Equipment is not allowed.
4. EPEAT Bronze requirement may be waived, on a State case by case basis, if approved by the State's Chief Procurement Officer.

6. **PARTNER UTILIZATION:** Each state represented by WSCA-NASPO that chooses to participate in this Master Agreement independently has the option of utilizing partners. Only partners approved by the Participating State may be deployed. The participating State will define the process to add and remove partners in their participating addendum.

COMPUTER EQUIPMENT 2014-2019

MINNESOTA WSCA-NASPO MASTER AGREEMENT AWARD

EXHIBIT A - TERMS & CONDITIONS

MASTER AGREEMENT TERMS AND CONDITIONS

A. GENERAL TERMS, CONDITIONS & INSTRUCTIONS

1. **ACCEPTANCE OF TERMS AND CONDITIONS.** The contents of the RFP and the response of the successful responder will become Master Agreement contractual obligations, along with the final Master Agreement, if acquisition action ensues. A statement of acceptance of the proposed Contract Terms and Conditions, unless taken exception to, as specified in the RFP must be included in the response. Any suggestions for alternate language shall be presented. The Lead State is under no obligation to accept wording changes submitted by the responder. The Lead State is solely responsible for rendering decisions in matters of interpretation on all terms and conditions. Any response which fails to comply with this requirement may be disqualified as nonresponsive.

All general proposal terms, specifications and WSCA-NASPO Terms & Conditions form a part of this RFP and will apply to any Master Agreements entered into as a result thereof.

2. **CONFLICT OF TERMS/ORDER OF PRECEDENCE:**

- a. A Participating Entity's Participating Addendum ("PA");
- b. Minnesota WSCA-NASPO Master Agreement (includes negotiated Terms & Conditions)
- c. The Solicitation including all Addendums; and
- d. Contract Vendor's response to the Solicitation

These documents shall be read to be consistent and complementary. Any conflict among these documents shall be resolved by giving priority to these documents in the order listed above. Contract Vendor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to the Master Agreement as an Exhibit or Attachment. No other terms and conditions shall apply, including terms and conditions listed in the Contract Vendor's response to the Solicitation, or terms listed or referenced on the Contract Vendor's website, in the Contract Vendor quotation/sales order or in similar documents subsequently provided by the Contract Vendor. The solicitation language prevails unless a mutually agreed exception has been negotiated.

3. **ADDENDA TO THE RFP.** Any addendum issued will become a part of the RFP. The Lead State may modify or clarify the RFP by issuing one or more addenda to all parties who have received the RFP. Each responder must follow the directions on the addendum. Addenda will be numbered consecutively in the order they are issued.
4. **AWARD.** The award of this solicitation will be based upon the total accumulated points as established in the RFP, for separate items, by grouping items, or by total lot, and where at its sole discretion the Lead State believes it will receive the best value. The Lead State reserves the right to award this solicitation to a single responder, or to multiple responders, whichever is in the best interest of the Lead State. It is the State's intent to award to multiple responders. The Lead State reserves the right to accept all or part of an offer, to reject all offers, to cancel the solicitation, or to re-issue the solicitation, whichever is in the best interest of the Lead State.

The Sourcing Team will make a recommendation on the award of this RFP. The commissioner of Administration or designee may accept or reject the recommendation of the Sourcing Team. The final award decision will be made by the Commissioner of Administration and the WSCA-NASPO Management Board.

5. **CLARIFICATION.** If a responder discovers any significant ambiguity, error, conflict, discrepancy, omission, or other deficiency in the RFP, the responder shall immediately notify the Acquisition Management Specialist in writing, as

specified in the introduction, of such error and request modification or clarification of the document. This notification is due no later than seven calendar days prior to the proposal due date and time.

Responders are cautioned that any activity or communication with a State employee or officer, or a member of the Evaluation Team, regarding this Solicitation's contents or process, is strictly prohibited and may, as a result, have its response rejected. Any communication regarding this Solicitation, its content or process, must be directed to the Acquisition Management Specialist listed in the Solicitation documents.

6. **COMPLETION OF RESPONSES.** A response may be rejected if it is conditional or incomplete. Responses that contain conflicting, false, or misleading statements or that provide references that contradict or do not support an attribute or condition stated by the responder, may be rejected.
7. **MASTER AGREEMENT ADMINISTRATOR.** The Master Agreement Administrator designated by WSCA-NASPO and the State of Minnesota, Department of Administration is: Susan Kahle. Direct all correspondence and inquiries, legal questions, general issues, or technical issues regarding this RFP to:

Susan Kahle
Acquisition Management Specialist
Department of Administration
Materials Management Division
50 Sherburne Avenue
112 Administration Building
St. Paul, MN 55155

Fax: 651.297.3996
E-mail: susan.kahle@state.mn.us

8. **DISPOSITION OF DATA SUBMITTED BY CONTRACT VENDOR.** All materials submitted in response to this RFP will become property of the Lead State and will become public record after the evaluation process is completed. The evaluation process is complete when negotiations with the selected vendors are final.

By executing this Contract, the Contract Vendor certifies and agrees that all information provided in the Contract and in response to the solicitation will be made public in accordance with the solicitation and that no information has been designated Trade Secret pursuant to the Minnesota Government Data Practices Act.

If the Contract Vendor submits information after execution of this Contract that it believes to be trade secret materials, as defined by the Minnesota Government Data Practices Act, Minn. Stat. § 13.37, the Contract Vendor must:

- clearly mark all trade secret materials at the time the information is submitted;
- include a statement with regard to the information justifying the trade secret designation for each item; and,
- defend any action seeking release of the materials it believes to be trade secret, and indemnify and hold harmless the Lead State, its agents and employees, from any judgments awarded against the Lead State in favor of the party requesting the materials, and any and all costs connected with that defense. This indemnification survives the Lead State's award of a Master Agreement. In submitting a response to the RFP, the responder agrees that this indemnification survives as long as the trade secret materials are in possession of the Lead State. The Lead State will not consider the prices submitted by the responder to be trade secret materials.

9. **DISPUTE RESOLUTION PROCEDURES.** Any issue a responder has with the RFP document, which includes, but is not limited to, the terms, conditions, and specifications, must be submitted in writing to and received by the Master Agreement Administrator prior to the opening due date and time. Any issue a responder has with the Master Agreement award must be submitted in writing to the Master Agreement Administrator within five working days from the time the notice of the intent to award is issued. This notice may be made by any of the following methods: notification by letter, fax or email, or posted on the Materials Management website, www.mmd.admin.state.mn.us. The Lead State will respond to any protest received that follows the above procedure. For those protests that meet the above submission requirements, the appeal process is, in sequence: The responsible Master Agreement Administrator, the Materials Management Division (MMD) Assistant Director, and the MMD Director.

10. **ELECTRONIC FILES TO DOWNLOAD, COMPLETE, AND RETURN.** Responders must download a Word/Excel document.

11. **ENTIRE AGREEMENT.** A written Master Agreement (including the contents of this RFP and selected portions of Contract Vendor's response incorporated therein by reference) and any written addenda thereto constitute the entire agreement of the parties to the Master Agreement.

12. IRREVOCABLE OFFER. In accordance with this Request for Proposal, and subject to all conditions thereof, the undersigned agrees that its response to this RFP, or any part thereof, is an irrevocable offer for 180 days following the submission deadline date unless stated otherwise in the RFP. It is understood and agreed that the response, or any part thereof, when accepted by the appropriate department and State officials in writing, may become part of a legal and binding Master Agreement between the undersigned vendor and the State of Minnesota.

13. MATERIAL DEVIATION. A responder shall be presumed to be in agreement with these terms and conditions unless it takes specific exception to one or more of the conditions. Submission by the responder of its proposed language shall not be viewed as an exception unless the responder specifically states in the response that its proposed changes are intended to supersede the terms and conditions.

RESPONDERS ARE CAUTIONED THAT BY TAKING ANY EXCEPTION THEY MAY BE MATERIALLY DEVIATING FROM THE REQUEST FOR PROPOSAL. IF A RESPONDER MATERIALLY DEVIATES FROM THE GENERAL TERMS, CONDITIONS AND INSTRUCTIONS OR THE WSCA-NASPO TERMS AND CONDITIONS AND/OR SPECIFICATIONS, ITS RESPONSE MAY BE REJECTED.

A material deviation is an exception to the Request for Proposal general or WSCA-NASPO terms and conditions and/or specifications that:

- a. gives the responder taking the exception a competitive advantage over other vendors; or,
- b. gives the Lead State something significantly different from that which the Lead State requested.

14. NONRESPONSIVE RESPONSES. Responses that do not comply with the provisions in the RFP may be considered nonresponsive and may be rejected.

15. NOTICES. If one party is required to give notice to the other under the Master Agreement, such notice shall be in writing and shall be effective upon receipt. Delivery may be by certified United States mail or by hand, in which case a signed receipt shall be obtained. A facsimile transmission shall constitute sufficient notice, provided the receipt of the transmission is confirmed by the receiving party. Either party must notify the other of a change in address for notification purposes. All notices to the Lead State shall be addressed as follows:

STATE OF MINNESOTA:

MN WSCA-NASPO COMPUTER EQUIPMENT CONTRACT ADMINISTRATOR
112 Administration Bldg.
50 Sherburne Avenue
St. Paul, MN 55155
651-296-2600

MASTER AGREEMENT TERMS AND CONDITIONS

B. WSCA-NASPO TERMS AND CONDITIONS

1. **ADMINISTRATIVE FEES.** The Contract Vendor shall pay a WSCA-NASPO Administrative Fee of one-tenth of one percent (0.1% or 0.001) in accordance with the Terms and Conditions of the Master Agreement no later than 60 days following the end of each calendar quarter. The WSCA-NASPO Administrative Fee shall be submitted quarterly and is based on sales of products and services (less any charges for taxes or shipping). The WSCA-NASPO Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with proposal.

Additionally, some states may require an additional fee be paid directly to the state on purchases made by Purchasing Entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement. The Contract Vendor may adjust the Master Agreement pricing accordingly for purchases made by Purchasing Entities within the jurisdiction of the state. All such agreements may not affect the WSCA-NASPO Administrative Fee or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee.

2. **AGREEMENT ORDER OF PRECEDENCE.** The Master Agreement shall consist of the following documents:
 - a. A Participating Entity's Participating Addendum ("PA");
 - b. Minnesota WSCA-NASPO Master Agreement (includes negotiated Terms and Conditions)
 - c. The Solicitation including all addendums; and
 - d. Contract Vendor's response to the Solicitation

These documents shall be read to be consistent and complementary. Any conflict among these documents shall be resolved by giving priority to these documents in the order listed above. Contract Vendor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to this Master Agreement as an Exhibit or Attachment. No other terms and conditions shall apply, including terms and conditions listed in the Contract Vendor's response to the Solicitation, or terms listed or referenced on the Contract Vendor's website, in the Contract Vendor quotation/sales order or in similar documents subsequently provided by the Contract Vendor. The solicitation language prevails unless a mutually agreed exception has been negotiated.

3. **AMENDMENTS.** The terms of this Master Agreement shall not be waived, altered, modified, supplemented or amended in any manner whatsoever without prior written approval of the WSCA-NASPO Master Agreement Administrator.
4. **ASSIGNMENT OF ANTITRUST RIGHTS.** Contract Vendor irrevocably assigns to a Participating Entity any claim for relief or cause of action which the Contract Vendor now has or which may accrue to the Contract Vendor in the future by reason of any violation of state or federal antitrust laws (15 U.S.C. § 1-15 or a Participating Entity's state antitrust provisions), as now in effect and as may be amended from time to time, in connection with any goods or services provided to the Contract Vendor for the purpose of carrying out the Contract Vendor's obligations under this Master Agreement or Participating Addendum, including, at a Participating Entity's option, the right to control any such litigation on such claim for relief or cause of action.
5. **ASSIGNMENT/SUBCONTRACT.** Contract Vendor shall not assign, sell, transfer, subcontract or sublet rights, or delegate responsibilities under this Master Agreement, in whole or in part, without the prior written approval of the WSCA-NASPO Master Agreement Administrator.
6. **CANCELLATION.** Unless otherwise stated in the terms and conditions, any Master Agreement may be canceled by either party upon 60 days' notice, in writing, prior to the effective date of the cancellation. Further, any Participating Entity may cancel its participation upon 30 days written notice, unless otherwise limited or stated in the special terms and conditions of this solicitation or in the applicable Participating Addendum. Cancellation may be in whole or in part. Any cancellation under this provision shall not affect the rights and obligations attending orders outstanding at the time of cancellation, including any right of a Participating Entity to indemnification by the Contract Vendor, rights of payment for goods/services delivered and accepted, and rights attending any warranty or default in performance in association with any order. Cancellation of the Master Agreement due to Contract Vendor default may be immediate if defaults cannot be reasonably cured as allowed per Default and Remedies term.
7. **CONFIDENTIALITY, NON-DISCLOSURE AND INJUNCTIVE RELIEF. NEGOTIATED.**
 - 7.1 **Confidentiality.** The parties acknowledge that they and their employees or agents may, in the course of providing the Product and Services under this Master Agreement, be exposed to or acquire information that is confidential. Any and all information of any form that is marked as confidential or would by its nature be deemed

confidential obtained in the performance of this Master Agreement, including, but not necessarily limited to (a) any Participating Entity records, (b) personnel records, (c) information concerning individuals, (d) software, (e) product plans, (f) marketing and sales information, (g) customer lists, and (h) "know-how," or trade secrets, is confidential information ("Confidential Information"). Any reports or other documents or items (including software) that result from the use of the Confidential Information shall be treated in the same manner as the Confidential Information. Confidential Information does not include information that (a) is or becomes (other than by disclosure by disclosing party) publicly known; (b) is rightfully furnished by the disclosing party to others without restrictions similar to those imposed by this Master Agreement; (c) is rightfully in recipient party's possession without the obligation of nondisclosure prior to the time of its disclosure under this Master Agreement; (d) is obtained from a source other than disclosing party without the obligation of confidentiality, (e) is disclosed with the written consent of disclosing party or; (f) is independently developed by employees, agents or subcontractor of the parties who can be shown to have had no access to the Confidential Information

7.2 Non-Disclosure. The parties shall hold Confidential Information in confidence, using at least the industry standard of confidentiality, and not to copy, reproduce, sell, assign, license, market, transfer or otherwise dispose of, give, or disclose Confidential Information to third parties or use Confidential Information for any purposes whatsoever other than the performance of this Master Agreement, and to advise each of its employees and agents of their obligations to keep Confidential Information confidential. The parties shall use commercially reasonable efforts in identifying and preventing any unauthorized use or disclosure of any Confidential Information. Without limiting the generality of the foregoing, parties shall advise each other immediately if they learn or have reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of this Master Agreement and shall at their expense cooperate in seeking injunctive or other equitable relief against any such person. Except as directed in writing, the parties will not at any time during or after the term of this Master Agreement disclose, directly or indirectly, any Confidential Information to any person, except in accordance with this Master Agreement, and that upon termination of this Master Agreement the parties shall turn over all documents, papers, and other matter in the recipient party's possession that embody Confidential Information. Notwithstanding the foregoing, the recipient party may keep one copy of such Confidential Information necessary for quality assurance, audits and evidence of the performance of this Master Agreement.

7.3 Injunctive Relief. The parties acknowledge that breach of this Section, including disclosure of any Confidential Information, may cause irreparable injury that is inadequately compensable in damages. Accordingly, the injured party may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available. The parties acknowledge and agree that the covenants contained herein are necessary for the protection of the legitimate business interests and are reasonable in scope and content.

7.4 Participating Entity is agreeing to the above language to the extent is not in conflict with Participating Entities public disclosure laws.

8. **DEBARMENT.** The Contract Vendor certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (Master Agreement) by any governmental department or agency. If the Contract Vendor cannot certify this statement, attach a written explanation for review by WSCA-NASPO.

In any order against this Master Agreement for a requirement established by a Purchasing Entity that discloses the use of federal funding, to the extent another form of certification is not required by a Participating Addendum or the order of the Purchasing Entity, the Contractor's quote represents a recertification consistent with the terms of paragraph 8, Section 2D, Minnesota Terms and Conditions

9. **DEFAULTS & REMEDIES.**

- a. The occurrence of any of the following events shall be an event of default under this Master Agreement:
- i. Nonperformance of contractual requirements; or
 - ii. A material breach of any term or condition of this Master Agreement; or
 - iii. Any representation or warranty by Contract Vendor in response to the solicitation or in this Master Agreement proves to be untrue or materially misleading; or
 - iv. Institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Contract Vendor, or the appointment of a receiver or similar officer for Contract Vendor or any of its property, which is not vacated or fully stayed within thirty (30) calendar days after the institution or occurrence thereof; or
 - v. Any default specified in another section of this Master Agreement.
- b. Upon the occurrence of an event of default, Lead State shall issue a written notice of default, identifying the nature of the default, and providing a period of 30 calendar days in which Contract Vendor shall have an opportunity to cure the default. The Lead State shall not be required to provide advance written notice or a cure period and may immediately terminate this Master Agreement in whole or in part if the Lead State, in its sole

discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. Time allowed for cure shall not diminish or eliminate Contract Vendor's liability for damages, including liquidated damages to the extent provided for under this Master Agreement.

- c. If Contract Vendor is afforded an opportunity to cure and fails to cure the default within the period specified in the written notice of default, Contract Vendor shall be in breach of its obligations under this Master Agreement and Lead State shall have the right to exercise any or all of the following remedies:
 - i. Exercise any remedy provided by law; and
 - ii. Terminate this Master Agreement and any related Master Agreements or portions thereof; and
 - iii. Impose liquidated damages as provided in this Master Agreement; and
 - iv. Suspend Contract Vendor from receiving future bid solicitations; and
 - v. Suspend Contract Vendor's performance; and
 - vi. Withhold payment until the default is remedied.
- d. In the event of a default under a Participating Addendum, a Participating Entity shall provide a written notice of default as described in this section and have all of the rights and remedies under this paragraph regarding its participation in the Master Agreement, in addition to those set forth in its Participating Addendum. Unless otherwise specified in a Purchase Order, a Purchasing Entity shall provide written notice of default as described in this section and have all of the rights and remedies under this paragraph and any applicable Participating Addendum with respect to an Order placed by the Purchasing Entity. Nothing in these Master Agreement Terms and Conditions shall be construed to limit the rights and remedies available to a Purchasing Entity under the applicable commercial code.

10. DELIVERY. Unless otherwise indicated in the Master Agreement, the prices are the delivered price to any Purchasing Entity. All deliveries shall be F.O.B. destination with all transportation and handling charges paid by the Contract Vendor. Additional delivery charges will not be allowed for back orders.

11. FORCE MAJEURE. Neither party to this Master Agreement shall be held responsible for delay or default caused by fire, riot, acts of God and/or war which is beyond that party's reasonable control. The WSCA-NASPO Master Agreement Administrator may terminate this Master Agreement after determining such delay or default will reasonably prevent successful performance of the Master Agreement.

12. GOVERNING LAW. This procurement and the resulting agreement shall be governed by and construed in accordance with the laws of the Lead State sponsoring and administering the procurement. The construction and effect of any Participating Addendum or order against the Master Agreements shall be governed by and construed in accordance with the laws of the Participating Entity's State. Venue for any claim, dispute or action concerning an order placed against the Master Agreements or the effect of a Participating Addendum shall be in the Purchasing Entity's State.

13. INDEMNIFICATION. DELETED SEE SECTION 2C17.

14. INDEMNIFICATION – INTELLECTUAL PROPERTY. DELETED SEE SECTION 2C17.

15. INDEPENDENT CONTRACT VENDOR. The Contract Vendor shall be an independent Contract Vendor, and as such shall have no authorization, express or implied to bind WSCA-NASPO or the respective states to any agreements, settlements, liability or understanding whatsoever, and agrees not to perform any acts as agent for WSCA-NASPO or the states, except as expressly set forth herein.

16. INDIVIDUAL CUSTOMER. Except to the extent modified by a Participating Addendum, each Participating Entity shall follow the terms and conditions of the Master Agreement and applicable Participating Addendum and will have the same rights and responsibilities for their purchases as the Lead State has in the Master Agreement, including but not limited to, any indemnity or to recover any costs allowed in the Master Agreement and applicable Participating Addendum for their purchases. Each Purchasing Entity will be responsible for its own charges, fees, and liabilities. The Contract Vendor will apply the charges and invoice each Purchasing Entity individually.

17. INSURANCE. Except to the extent modified by a Participating Addendum, Contract Vendor shall, during the term of this Master Agreement, maintain in full force and effect, the insurance described in this section. Contract Vendor shall acquire such insurance from an insurance carrier or carriers licensed to conduct business in the Participating Entity's state and having a rating of A-, Class VII or better, in the most recently published edition of Best's Reports. Failure to buy and maintain the required insurance may result in this Master Agreement's termination or at a Participating Entity's option, result in termination of its Participating Addendum.

Coverage shall be written on an occurrence basis. The minimum acceptable limits shall be as indicated below, with no deductible for each of the following categories:

- a. Commercial General Liability covering the risks of bodily injury (including death), property damage and personal injury, including coverage for contractual liability, with a limit of not less than \$1 million per occurrence/\$2 million general aggregate;
- b. Contract Vendor must comply with any applicable State Workers Compensation or Employers Liability Insurance requirements.

Contract Vendor shall pay premiums on all insurance policies. Such policies shall also reference this Master Agreement and shall have a condition that they not be revoked by the insurer until thirty (30) calendar days after notice of intended revocation thereof shall have been given to Participating Entity by the Contract Vendor.

Prior to commencement of the work, Contract Vendor shall provide to the Participating Entity a written endorsement to the Contract Vendor's general liability insurance policy that (i) names the Participating Entity as an additional insured, (ii) provides that no material alteration, cancellation, non-renewal, or expiration of the coverage contained in such policy shall have effect unless the named Participating Entity has been given at least thirty (30) days prior written notice, and (iii) provides that the Contract Vendor's liability insurance policy shall be primary, with any liability insurance of the Participating Entity as secondary and noncontributory.

Contract Vendor shall furnish to Participating Entity copies of certificates of all required insurance within thirty (30) calendar days of the Participating Addendum's effective date and prior to performing any work. Copies of renewal certificates of all required insurance shall be furnished within thirty (30) days after renewal date. These certificates of insurance must expressly indicate compliance with each and every insurance requirement specified in this section. Failure to provide evidence of coverage may, at the Lead State Master Agreement Administrator's sole option, result in this Master Agreement's termination.

Coverage and limits shall not limit Contract Vendor's liability and obligations under this Master Agreement.

18. **LAWS AND REGULATIONS.** Any and all supplies, services and equipment offered and furnished shall comply fully with all applicable Federal and State laws and regulations.

19. **LICENSE OF PRE-EXISTING INTELLECTUAL PROPERTY.** ~~DELETED – SEE SECTION 2B30 FOR REVISED TERM ADDRESSING TITLE OF PRODUCT.~~

20. **NO WAIVER OF SOVEREIGN IMMUNITY.** The Lead State, Participating Entity or Purchasing Entity to the extent it applies does not waive its sovereign immunity by entering into this Contract and fully retains all immunities and defenses provided by law with regard to any action based on this Contract.

If a claim must be brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court of the Participating Entity's State.

21. **ORDER NUMBERS.** Contract order and purchase order numbers shall be clearly shown on all acknowledgments, shipping labels (if possible), packing slips, invoices, and on all correspondence.

22. **PARTICIPANTS.** WSCA-NASPO Cooperative Purchasing Organization LLC is not a party to the Master Agreement. It is a nonprofit cooperative purchasing organization assisting states in administering the WSCA/NASPO cooperative purchasing program for state government departments, institutions, agencies and political subdivisions (e.g., colleges, school districts, counties, cities, etc.) for all 50 states and the District of Columbia. Obligations under this Master Agreement are limited to those Participating States who have signed a Participating Addendum where contemplated by the solicitation. Financial obligations of Participating States are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating States incur no financial obligations on behalf of political subdivisions. Unless otherwise specified in the solicitation, the resulting award will be permissive.

23. **PARTICIPATION OF ENTITIES.** Use of specific WSCA-NASPO cooperative Master Agreements by state agencies, political subdivisions and other entities (including cooperatives) authorized by individual state's statutes to use state contracts are subject to the approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the respective State Chief Procurement Official.

24. **PAYMENT.** Payment for completion of an order under this Master Agreement is normally made within 30 days following the date the entire order is delivered or the date a correct invoice is received, whichever is later. After 45 days the Contract Vendor may assess overdue account charges up to a maximum rate of one percent per month

on the outstanding balance. Payments will be remitted by mail. Payments may be made via a State or political subdivision "Purchasing Card" with no additional charge.

- 25. PUBLIC INFORMATION.** The Master Agreement and all related documents are subject to disclosure pursuant to the Participating Entity's public information laws.
- 26. RECORDS ADMINISTRATION AND AUDIT.** The disclosure of records in Participating States relating to Participating addenda and orders placed against the Master Agreement shall be governed by the laws of the Participating State and entity who placed the order.

The Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Agreement and orders placed by Purchasing Entities under it to the extent and in such detail as shall adequately reflect performance and administration of payments and fees. Contractor shall permit the Lead State, a Participating Entity, a Purchasing Entity, the federal government (including its grant awarding entities and the U.S. Comptroller General), and any other duly authorized agent of a governmental agency, to audit, inspect, examine, copy and/or transcribe Contractor's books, documents, papers and records directly pertinent to this Master Agreement or orders placed by a Purchasing Entity under it for the purpose of making audits, examinations, excerpts, and transcriptions. This right shall survive for a period of five (5) years following termination of this Agreement or final payment for any order placed by a Purchasing Entity against this Agreement, whichever is later, to assure compliance with the terms hereof or to evaluate performance hereunder.

Without limiting any other remedy available to any governmental entity, the Contractor shall reimburse the applicable Lead State, Participating Entity, or Purchasing Entity for an overpayments inconsistent with the terms of the Master Agreement or orders or underpayment of fees found as a result of the examination of the Contractor's records.

The rights and obligations herein right exist in addition to any quality assurance obligation in the Master Agreement requiring the Contractor to self-audit contract obligations and that permits the Lead State Master Agreement Administrator to review compliance with those obligations.

Records will be retained longer if required by Participating Entity's law.

- 27. REPORTS - SUMMARY AND DETAILED USAGE.** In addition to other reports that may be required by this solicitation, the Contract Vendor shall provide the following WSCA-NASPO reports.
- a. **Summary Sales Data.** The Contractor shall submit quarterly sales reports directly to WSCA-NASPO using the WSCA-NASPO Quarterly Sales/Administrative Fee Reporting Tool found at <http://www.naspo.org/WNCPO/Calculator.aspx>. Any/all sales made under the contract shall be reported as cumulative totals by state. Even if Contractor experiences zero sales during a calendar quarter, a report is still required. Reports shall be due no later than the last day of the month following the end of the calendar quarter (as specified in the reporting tool).
 - b. **Detailed Sales Data.** Contract Vendor shall also report detailed sales data by: state; entity/customer type, e.g., local government, higher education, K12, non-profit; Purchasing Entity name; Purchasing Entity bill-to and ship-to locations; Purchasing Entity and Contract Vendor Purchase Order identifier/number(s); Purchase Order Type (e.g., sales order, credit, return, upgrade, determined by industry practices); Purchase Order date; Ship Date; and line item description, including product number if used. The report shall be submitted in any form required by the solicitation. Reports are due on a quarterly basis and must be received by the Lead State no later than the last day of the month following the end of the reporting period. Reports shall be delivered to the Lead State and to the WSCA-NASPO Cooperative Development Team electronically through email; CD-Rom, jump drive or other electronic matter as determined by the Lead State.
- Detailed sales data reports shall include sales information for all sales under Participating Addenda executed under this Master Agreement. The format for the detailed sales data report is in Section 6, Attachment H.
- c. Reportable sales for the summary sales data report and detailed sales data report includes sales to employees for personal use where authorized by the Participating Addendum. Specific data in relation to sales to employees for personal use to be defined in the final contract award to ensure only public information is reported.
 - d. Timely submission of these reports is a material requirement of the Master Agreement. The recipient of the reports shall have exclusive ownership of the media containing the reports. The Lead State and WSCA-NASPO

shall have a perpetual, irrevocable, non-exclusive, royalty free, transferable right to display, modify, copy, and otherwise use reports, data and information provided under this section.

28. ACCEPTANCE AND ACCEPTANCE TESTING.

A. Acceptance. Purchasing Entity (the entity authorized under the terms of any Participating Addendum to place orders under this Master Agreement) shall determine whether all Products and Services delivered meet the Contractor's published specifications (a.k.a. "Specifications"). No payment shall be made for any Products or Services until the Purchasing Entity has accepted the Products or Services. The Purchasing Entity will make every effort to notify the Contractor within thirty (30) calendar days following delivery of non-acceptance of a Product or completion of Service. In the event that the Contractor has not been notified within 30 calendar days from delivery of Product or completion of Service, the Product and Services will be deemed accepted on the 31st day after delivery of Product or completion of Services. This clause shall not be applicable, if acceptance testing and corresponding terms have been mutually agreed to by both parties in writing.

B. Acceptance Testing. The Purchasing Entity (the entity authorized under the terms of any Participating Addendum to place orders under this Master Agreement) and the Contract Vendor shall determine if Acceptance Testing is applicable and/or required for the purchase. The terms in regards to acceptance testing will be negotiated, in writing, as mutually agreed. If Acceptance Testing is NOT applicable, the terms regarding Acceptance in the Contract shall prevail.

29. SYSTEM FAILURE OR DAMAGE. In the event of system failure or damage caused by the Contract Vendor or its Product, the Contract Vendor agrees to use its commercially reasonable efforts to restore or assist in restoring the system to operational capacity. The Contract Vendor shall be responsible under this provision to the extent a 'system' is defined at the time of the Order; otherwise the rights of the Purchasing Entity shall be governed by the Warranty.

30. TITLE OF PRODUCT. NEGOTIATED.

OWNERSHIP

- a. **Ownership of Documents/Copyright.** Any reports, studies, photographs, negatives, databases, computer programs, or other documents, whether in tangible or electronic forms, prepared by the Contract Vendor in the performance of its obligations under the Master Agreement and paid for by the Purchasing Entity shall be the exclusive property of the Purchasing Entity and all such material shall be remitted to the Purchasing Entity by the Contract Vendor upon completion, termination or cancellation of the Master Agreement. The Contract Vendor shall not use, willingly allow or cause to allow such material to be used for any purpose other than performance of the Contract Vendor's obligations under this Master Agreement without the prior written consent of the Purchasing Entity.
- b. **Rights, Title and Interest.** All rights, title, and interest in all of the intellectual property rights, including copyrights, patents, trade secrets, trade marks, and service marks in the said documents that the Contract Vendor conceives or originates, either individually or jointly with others, which arises out of the performance of the Master Agreement, will be the property of the Purchasing Entity and are, by the Master Agreement, assigned to the Purchasing Entity along with ownership of any and all copyrights in the copyrightable material. The Contract Vendor also agrees, upon the request of the Purchasing Entity, to execute all papers and perform all other acts necessary to assist the Purchasing Entity to obtain and register copyrights on such materials. Where applicable, works of authorship created by the Contract Vendor for the Purchasing Entity in performance of the Master Agreement shall be considered "works for hire" as defined in the U.S. Copyright Act.
- c. **Notwithstanding the above,** the Purchasing Entity will not own any of the Contract Vendor's pre-existing intellectual property that was created prior to the Master Agreement and which the Purchasing Entity did not pay the Contract Vendor to create. Subject to payment in full for the products, equipment or services, the Contract Vendor grants the Purchasing Entity a perpetual, irrevocable, non-exclusive, royalty free license for Contract Vendor's pre-existing intellectual property that is contained in the products, materials, equipment or services that are purchased through this Master Agreement. Contract Vendor will retain all right, title and interest in and to all Intellectual Property Rights in or related to the services, or tangible components thereof, including but not limited to (a) all know-how, intellectual property, methodologies, processes, technologies, algorithms, software or development tools used in performing the services, and (b) such ideas, concepts, know-how, processes and reusable reports, designs, charts, plans, specifications, documentation, forms, templates or output which are developed, created or otherwise used by or on behalf of Contract Vendor in the course of performing the services

or creating the deliverables, other than portions that specifically incorporate proprietary or Confidential Information or data of Ordering Entity (collectively, the "Residual IP"), even if embedded in the deliverable.

- 31. WAIVER OF BREACH.** Failure of Lead State Master Agreement Administrator, Participating Entity, or Purchasing Entity to declare a default or enforce any rights and remedies shall not operate as a waiver under this Master Agreement or Participating Addendum. Any waiver by the Lead State or Participating Entity must be in writing. Waiver by the Lead State Master Agreement Administrator, Participating Entity, or Purchasing Entity of any default, right or remedy under this Master Agreement or Participating Addendum, or breach of any terms or requirements shall not be construed or operate as a waiver of any subsequent default or breach of such term or requirement, or of any other term or requirement under this Master Agreement, a Participating Addendum, or order.
- 32. WARRANTY.** The warranty provided must be the manufacturers written warranty tied to the product at the time of purchase and must include the following: (a) the Product performs according to the specifications (b) the Product is suitable for the ordinary purposes for which such Product is used, (c) the Product is designed and manufactured in a commercially reasonable manner, and (d) the Product is free of defects.

For third party products sold by the Contract Vendor, the Contract Vendor will assign the manufacturer or publisher's warranty and maintenance. The Contract Vendor will provide warranty and maintenance call numbers and assist the customer in engaging the manufacturer on warranty and maintenance issues.

Upon breach of the warranty, the Contract Vendor will repair or replace (at no charge to the Purchasing Entity) the Product whose nonconformance is discovered and made known to the Contract Vendor. If the repaired and/or replaced Product proves to be inadequate, or fails of its essential purpose, the Contract Vendor will refund the full amount of any payments that have been made. The rights and remedies of the parties under this warranty are in addition to any other rights and remedies of the parties provided by law or so ordered by the court.

33. LIMITATION OF LIABILITY. NEGOTIATED.

- A. CONTRACT VENDOR WILL NOT BE LIABLE FOR ANY INCIDENTAL, INDIRECT, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE PRODUCTS, SOFTWARE OR SERVICES PROVIDED HEREUNDER. EXCEPT FOR YOUR BREACH OF PAYMENT OBLIGATIONS OR CONFIDENTIALITY REQUIREMENTS, NEITHER PARTY SHALL HAVE LIABILITY FOR THE FOLLOWING: (1) LOSS OF REVENUE, INCOME, PROFIT OR SAVINGS; (2) LOST OR CORRUPTED DATA OR SOFTWARE, LOSS OF USE OF A SYSTEM OR NETWORK OR THE RECOVERY OF SUCH; (3) LOSS OF BUSINESS OPPORTUNITY; (4) BUSINESS INTERRUPTION OR DOWNTIME; OR (5) DELIVERABLES, DELL PRODUCTS OR THIRD-PARTY PRODUCTS NOT BEING AVAILABLE FOR USE.
- B. CONTRACT VENDOR'S TOTAL LIABILITY FOR ANY AND ALL CLAIMS ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT AND ALL PARTICIPATING ADDENDA SOURCED FROM THIS MASTER AGREEMENT (INCLUDING ANY PRODUCTS, SOFTWARE, OR SERVICES PROVIDED HEREUNDER) SHALL NOT EXCEED THE AGGREGATE AMOUNT OF TEN MILLION DOLLARS (\$10,000,000).
- C. THESE LIMITATIONS, EXCLUSIONS AND DISCLAIMERS SHALL APPLY TO ALL CLAIMS FOR DAMAGES, WHETHER BASED IN CONTRACT, WARRANTY, STRICT LIABILITY, NEGLIGENCE, TORT OR OTHERWISE. THE PARTIES AGREE THAT THESE LIMITATION OF LIABILITY ARE AGREED ALLOCATIONS OF RISK CONSTITUTING IN PART THE CONSIDERATION FOR CONTRACT VENDOR'S SALE OF PRODUCTS, SOFTWARE OR SERVICES TO ORDERING ENTITY, AND SUCH LIMITATIONS WILL APPLY NOTWITHSTANDING THE FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY AND EVEN IF A PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LIABILITIES.

- 34. SERVICE AGREEMENTS. NEGOTIATED.** Contract Vendor may provide Services, Software or Deliverables to you in accordance with one or more "Service Agreements." "Service Agreements" are service contracts, including "Service Descriptions" available at www.dell.com/servicecontracts/us, "Statements of Work," and any other such mutually agreed upon documents. Each Service Agreement will be interpreted as a single agreement, independent of any other Service Agreement, so that all of the provisions are given as full effect as possible.

Any and all licensing, maintenance, or order specific agreements referenced within the terms and conditions of this Master agreement are agreed to only to the extent that the terms do not conflict with the terms of the Participating Addendum or the Master Agreement, and to the extent the terms are not in conflict with the Participating Entities' applicable laws. In the event of conflict the terms and conditions, the Participating Addendum, and then the Master Agreement shall take precedence, as detailed in the Order of Precedence defined herein. Notwithstanding the

foregoing, licensing, maintenance agreements, or order specific agreements may be further negotiated by the Contract Vendor and the potential Purchasing Entity, provided the contractual documents are duly executed in writing.

- 35. SOFTWARE LICENSE. NEGOTIATED.** Software (defined as any software, library, utility, tool, or other computer or program code, in object (binary) or source-code form as well as the related documentation provided by Contract Vendor to Purchasing Entity) is subject to the separate license agreements accompanying the Software, along with any product guides, operating manuals, or other documentation included with the software media packaging or presented to Purchasing Entity during the installation or use of the Software. Purchasing Entity agrees that it will be bound by such license agreement.

Any and all licensing, maintenance, or order specific agreements referenced within the terms and conditions of this Master agreement are agreed to only to the extent that the terms do not conflict with the terms of the Participating Addendum or the Master Agreement, and to the extent the terms are not in conflict with the Participating Entities' applicable laws. In the event of conflict the terms and conditions, the Participating Addendum, and then the Master Agreement shall take precedence, as detailed in the Order of Precedence defined herein. Notwithstanding the foregoing, licensing, maintenance agreements, or order specific agreements may be further negotiated by the Contract Vendor and the potential Purchasing Entity, provided the contractual documents are duly executed in writing.

- 36. EXPORT COMPLIANCE. NEGOTIATED.** Contract Vendor, Lead State and Purchasing Entities acknowledge that products (including software) sold or licensed under this Master Agreement are subject to the export control laws and regulations of the United States and other countries from which they were supplied and in which they are used and Purchasing Entity agrees to abide by those laws and regulations. Purchasing Entity warrants that any software provided by it and used as a part of the services supplied by Contract Vendor under this Master Agreement contains no encryption or to the extent that it contains encryption such software is approved for export under the relevant laws or regulations.

- 37. RETURNS AND EXCHANGES. NEGOTIATED.** Contract Vendor's return policy can be found at www.dell.com/returnspolicy and applies to any returns and exchanges. Before returning or exchanging a Product, Purchasing Entity must contact Contract Vendor directly to obtain an authorization number to include with the return. Purchasing Entity must return Products to Contract Vendor in their original or equivalent packaging, and Purchasing Entity is responsible for risk of loss, as well as shipping and handling fees. Additional fees, including up to a 15% restocking fee, may apply. Restocking fees must be approved by the customer. If Purchasing Entity fails to follow the return or exchange instructions provided by Contract Vendor, Contract Vendor will not be responsible for any loss, damage, or modification of a Product, or processing of a Product for disposal or resale. Credit for partial returns may be less than invoice or individual component prices due to bundled or promotional pricing associated with the original purchase. This restocking fee shall not apply in the case of Contract Vendor error.

MASTER AGREEMENT TERMS AND CONDITIONS

C. MINNESOTA TERMS AND CONDITIONS

1. **ACCEPTANCE OF PROPOSAL CONTENT.** The contents of this RFP and selected portions of response of the successful Proposer will become contractual obligations, along with the final Master Agreement, if acquisition action ensues. The Lead State is solely responsible for rendering the decision in matters of interpretation of all terms and conditions.
2. **ACCESSIBILITY STANDARDS.** The State of Minnesota has developed IT Accessibility Standards effective September 1, 2010, which entails, in part, the Web Content Accessibility Guidelines (WCAG) 2.0 (Level AA) and Section 508 Subparts A-D which can be viewed at http://www.mmd.admin.state.mn.us/pdf/accessibility_standard.pdf

Responders must complete the WCAG VPAT form included in the FORMS section of the RFP. The completed VPAT form will be scored based on its compliance with the Accessibility Standards. The requested WCAG VPAT applies to the responder's website to be offered under the Contract. For products offered, VPATS are only to be provided upon request by the participating entity.

Upon request by the participating entity, the responder must make best efforts to provide Voluntary Product Accessibility Templates (VPATS) for all products offered in its response. Click here for link to VPATS for both Section 508 VPAT and WCAG 2.0 VPAT <http://mn.gov/oet/policies-and-standards/accessibility/#>.

3. **ADMINISTRATIVE PERSONNEL CHANGES.** The Contract Vendor must notify the Contract Administrator of changes in the Contract Vendor's key administrative personnel, in advance and in writing. Any employee of the Contract Vendor who, in the opinion of the State of Minnesota, is unacceptable, shall be removed from the project upon written notice to the Contract Vendor. In the event that an employee is removed pursuant to a written request from the Acquisition Management Specialist, the Contract Vendor shall have 10 working days in which to fill the vacancy with an acceptable employee.
4. **AMENDMENT(S).** Master Agreement amendments shall be negotiated by the Lead State with the Contract Vendor whenever necessary to address changes in the terms and conditions, costs, timetable, or increased or decreased scope of work. An approved Master Agreement amendment means one approved by the authorized signatories of the Contract Vendor and the Lead State as required by law.
5. **AMERICANS WITH DISABILITIES ACT (ADA).** DELETED.
6. **AWARD OF RELATED CONTRACTS.** In the event the Lead State undertakes or awards supplemental Contracts for work related to the Master Agreement or any portion thereof, the Contract Vendor shall cooperate fully with all other Contract Vendors and the State in all such cases. All Master Agreements between subcontractors and the Contract Vendor shall include a provision requiring compliance with this section.
7. **AWARD OF SUCCESSOR CONTRACTS.** In the event the State undertakes or awards a successor for work related to the Contract or any portion thereof, the current Contract Vendor shall cooperate fully during the transition with all other Contract Vendors and the State in all such cases. All Master Agreements between subcontractors and the Contract Vendor shall include a provision requiring compliance with this section.
8. **CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION**
 - a. Certification regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions.
Instructions for certification:
 1. By signing and submitting this proposal, the prospective lower tier participant [responder] is providing the certification set out below.
 2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
 3. The prospective lower tier participant shall provide immediate written notice to the person to whom this proposal [response] is submitted if at any time the prospective lower tier participant learns that its certification

was erroneous when submitted or had become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarred, suspended, ineligible lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverages section of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective lower tier participant agrees by submitting this response that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction [subcontract equal to or exceeding \$25,000] with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled, "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion – Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of parties excluded from federal procurement and nonprocurement programs.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

b. **Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions.**

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.
2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

9. **CHANGE REQUESTS.** The Lead State reserves the right to request, during the term of the Master Agreement, changes to the products offered. Products introduced during the term of the Master Agreement shall go through a formal review process. A formal process of changing the Master Agreement shall be developed during the negotiation of the Master Agreement. The Contract Vendor shall evaluate and recommend products for which agencies have an expressed need. The Lead State shall require the Contract Vendor to provide a summary of its research of those products being recommended for inclusion in the Master Agreement as well as defining how adding the product will enhance the Master Agreement. The Lead State may request that products, other than those recommended, are added to the Master Agreement.

In the event that the Lead State desires to add new products and services that are not included in the original Master Agreement, the Lead State requires that independent manufacturers and resellers cooperate with the already established Contract Vendor in order to meet the Lead State's requirements. Evidence of the need to add products or services should be demonstrated to the Lead State. The Master Agreement shall be modified via supplement or

amendment. The Lead State will negotiate the inclusion of the products and services with the Contract Vendor. No products or services will be added to the Master Agreement without the Lead State's prior approval.

10. **CONFLICT MINERALS.** Contract Vendor must provide information to the public on its website regarding the use of conflict minerals, as required by Section 13(p) of the Securities Exchange Act of 1934, as amended, and the rules promulgated thereunder. See: <http://www.sec.gov/rules/final/2012/34-67716.pdf>.
11. **COPYRIGHTED MATERIAL WAIVER.** The Lead State reserves the right to use, reproduce and publish proposals in any manner necessary for State agencies and local units of government to access the responses and/or to respond to request for information pursuant to Minnesota Government Data Practices Act, , including but not limited to emailing, photocopying, State Intranet/Internet postings, broadcast faxing, and direct mailing. In the event that the response contains copyrighted or trademarked materials, it is the responder's responsibility to obtain permission for the Lead State to reproduce and publish the information, regardless of whether the responder is the manufacturer or reseller of the products listed in the materials. By signing its response, the responder certifies that it has obtained all necessary approvals for the reproduction and/or distribution of the contents of its response and agrees to indemnify, protect, save and hold the Lead State, its representatives and employees harmless from any and all claims arising from the violation of this section and agrees to pay all legal fees incurred by the Lead State in the defense of any such action.
12. **EFFECTIVE DATE.** Pursuant to Minnesota law, the Master Agreement arising from this RFP shall be effective upon the date of final execution by the Lead State, unless a later date is specified in the Master Agreement.
13. **FOREIGN OUTSOURCING OF WORK.** Upon request, the Contract Vendor is required to provide information regarding the location of where services, data storage and/or location of data processing under the Master Agreement will be performed.
14. **GOVERNMENT DATA PRACTICES.** The Contract Vendor and the Lead State must comply with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, (and where applicable, if the Lead State contracting party is part of the judicial branch, with the Rules of Public Access to Records of the Judicial Branch promulgated by the Minnesota Supreme Court as the same may be amended from time to time) as it applies to all data provided by the Lead State to the Contract Vendor and all data provided to the Lead State by the Contract Vendor. In addition, the Minnesota Government Data Practices Act applies to all data created, collected, received, stored, used, maintained, or disseminated by the Contract Vendor in accordance with the Master Agreement that is private, nonpublic, protected nonpublic, or confidential as defined by the Minnesota Government Data Practices Act, Ch. 13 (and where applicable, that is not accessible to the public under the Rules of Public Access to Records of the Judicial Branch).

In the event the Contract Vendor receives a request to release the data referred to in this article, the Contract Vendor must immediately notify the Lead State. The Lead State will give the Contract Vendor instructions concerning the release of the data to the requesting party before the data is released. The civil remedies of Minn. Stat. § 13.08, apply to the release of the data by either the Contract Vendor or the Lead State.

The Contract Vendor agrees to indemnify, save, and hold the State of Minnesota, its agent and employees, harmless from all claims arising out of, resulting from, or in any manner attributable to any violation of any provision of the Minnesota Government Data Practices Act (and where applicable, the Rules of Public Access to Records of the Judicial Branch), including legal fees and disbursements paid or incurred to enforce this provision of the Master Agreement. In the event that the Contract Vendor subcontracts any or all of the work to be performed under the Master Agreement, the Contract Vendor shall retain responsibility under the terms of this article for such work.

15. **HAZARDOUS SUBSTANCES.** To the extent that the goods to be supplied by the Contract Vendor contain or may create hazardous substances, harmful physical agents or infectious agents as set forth in applicable State and federal laws and regulations, the Contract Vendor must provide Material Safety Data Sheets regarding those substances. A copy must be included with each delivery.
16. **HUMAN RIGHTS/AFFIRMATIVE ACTION.** The Lead State requires affirmative action compliance by its Contract Vendors in accordance with Minn. Stat. § 363A.36 and Minn. R. 5000.3400 to 5000.3600.
 - a. Covered contracts and Contract Vendors. One-time acquisitions, or a contract for a predetermined amount of goods and/or services, where the amount of your response is in excess of \$100,000 requires completion of the Affirmative Action Certification page. If the solicitation is for a contract for an indeterminate amount of goods and/or services, and the State estimated total value of the contract exceeds \$100,000 whether it will be a multiple award contract or not, you must complete the Affirmative Action Certification page. If the contract dollar amount or the State estimated total contract amount exceeds \$100,000 and the Contract Vendor employed more than

40 full-time employees on a single working day during the previous 12 months in Minnesota or in the state where it has its principal place of business, the Contract Vendor must comply with the requirements of Minn. Stat. § 363A.36, subd. 1 and Minn. R. 5000.3400 to 5000.3600. A Contract Vendor covered by Minn. Stat. § 363A.36, subd. 1 and Minn. R. 5000.3400 to 5000.3600 that had more than 40 full-time employees within Minnesota on a single working day during the previous 12 months must have a certificate of compliance issued by the commissioner of the Department of Human Rights (certificate of compliance). A Contract Vendor covered by Minn. Stat. § 363A.36, subd. 1 that did not have more than 40 full-time employees on a single working day during the previous 12 months within Minnesota but that did have more than 40 full-time employees in the state where it has its principal place of business and that does not have a certificate of compliance must certify that it is in compliance with federal affirmative action requirements.

- b. Minn. Stat. § 363A.36, subd. 1 requires the Contract Vendor to have an affirmative action plan for the employment of minority persons, women, and qualified disabled individuals approved by the commissioner of the Department of Human Rights (commissioner) as indicated by a certificate of compliance. Minn. Stat. § 363A.36 addresses suspension or revocation of a certificate of compliance and contract consequences in that event. A contract awarded without a certificate of compliance may be voided.
- c. Minn. R. 5000.3400-5000.3600 implement Minn. Stat. § 363A.36. These rules include, but are not limited to, criteria for contents, approval, and implementation of affirmative action plans; procedures for issuing certificates of compliance and criteria for determining a Contract Vendor's compliance status; procedures for addressing deficiencies, sanctions, and notice and hearing; annual compliance reports; procedures for compliance review; and contract consequences for noncompliance. The specific criteria for approval or rejection of an affirmative action plan are contained in various provisions of Minn. R. 5000.3400-5000.3600 including, but not limited to, parts 5000.3420-5000.3500 and parts 5000.3552-5000.3559.
- d. Disabled Workers. Minn. R. 5000.3550 provides the Contract Vendor must comply with the following affirmative action requirements for disabled workers.

AFFIRMATIVE ACTION FOR DISABLED WORKERS

- (a) The Contract Vendor must not discriminate against any employee or applicant for employment because of physical or mental disability in regard to any position for which the employee or applicant for employment is qualified. The Contract Vendor agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.
 - (b) The Contract Vendor agrees to comply with the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.
 - (c) In the event of the Contract Vendor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with Minn. Stat. § 363A.36 and the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.
 - (d) The Contract Vendor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the commissioner of the Minnesota Department of Human Rights. Such notices must state the Contract Vendor's obligation under the law to take affirmative action to employ and advance in employment qualified disabled employees and applicants for employment, and the rights of applicants and employees.
 - (e) The Contract Vendor must notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the Contract Vendor is bound by the terms of Minn. Stat. § 363A.36 of the Minnesota Human Rights Act and is committed to take affirmative action to employ and advance in employment physically and mentally disabled persons.
- e. Consequences. The consequences of a Contract Vendor's failure to implement its affirmative action plan or make a good faith effort to do so include, but are not limited to, suspension or revocation of a certificate of compliance by the commissioner, refusal by the commissioner to approve subsequent plans, and termination of all or part of the Contract by the commissioner or the State.

- f. Certification. The Contract Vendor hereby certifies that it is in compliance with the requirements of Minn. Stat. § 363A.36, subd. 1 and Minn. R. 5000.3400-5000.3600 and is aware of the consequences for noncompliance. It is agreed between the parties that Minn. Stat. 363.36 and Minn. R. 5000.3400 to 5000.3600 are incorporated into any contract between these parties based upon this specification or any modification of it. A copy of Minn. Stat. § 363A.36 and Minn. R. 5000.3400 to 5000.3600 are available upon request from the contracting agency.

- 17. INDEMNIFICATION. NEGOTIATED.** The Contract Vendor shall indemnify, protect, save and hold harmless the Lead State and the Participating Entity, its representatives and employees, from any and all third party claims or causes of action for personal bodily injury, including death, and damage to tangible personal property, including all legal fees incurred by the Lead State and the Participating Entity arising from the negligence in the performance of the Master Agreement by the Contract Vendor or its agents, employees, or subcontractors. This clause shall not be construed to bar any legal remedies the Contract Vendor may have with the Lead State's and Participating Entity's failure to fulfill its obligations pursuant to the Master Agreement.

If the Participating Entity's laws require approval of a third party to defend Participating Entity, Participating Entity will seek such approval and if approval is not received, Contract Vendor is not required to defend that Participating Entity.

- 18. INTELLECTUAL PROPERTY INDEMNIFICATION. NEGOTIATED** In the event of any such claim by any third party against the Participating Entity that Products, Software, Services or Deliverables (excluding Third-Party Products and open source software) prepared or produced by Dell and delivered pursuant to this Agreement infringe or misappropriate that third party's U.S. patent, copyright, trade secret, or other intellectual property rights ("**Indemnified Claims**"), the Participating Entity shall promptly notify the Contract Vendor. The Contract Vendor, at its own expense, shall indemnify; defend to the extent permitted by the Participating Entity's laws, and hold harmless the Participating Entity against any loss, cost, expense, or liability (including legal fees) arising out of such a claim, whether or not such claim is successful against the Participating Entity.

If Contract Vendor receives prompt notice such a claim that in the Contract Vendor's opinion is likely to result in an adverse ruling, the Contract Vendor shall at its option (1) obtain a right for the Participating Entity to continue using such Products, Deliverables or Software or allow Contract Vendor to continue performing the Services; (2) modify such Products, Software, Services or Deliverables to make them non-infringing; (3) replace such Products, Software, Services or Deliverables with a non-infringing equivalent; or (4) refund any pre-paid fees for the allegedly infringing Services that have not been performed or provide a reasonable depreciated or pro rata refund for the allegedly infringing Product, Deliverables or Software.

Notwithstanding the foregoing, Contract Vendor shall have no obligation under this Section for any claim resulting or arising from (1) modifications of the Products, Software, Services Deliverables that were not performed by or on behalf of Contract Vendor; (2) the combination, operation, or use of the Products, Software, Services or Deliverables in connection with a third-party product, software or service (the combination of which causes the claimed infringement); or (3) Contract Vendor's compliance with Participating Entity's written specifications or directions, including the incorporation of any software or other materials or processes provided by or requested by Participating Entity. Contract Vendor's duty to indemnify and defend under this Section is contingent upon: (x) Contract Vendor receiving prompt written notice of the third-party claim or action for which Contract Vendor must indemnify Participating Entity, (y) Contract Vendor having the right to solely control the defense and resolution of such claim or action, and (z) Participating Entity's cooperation with Contract Vendor in defending and resolving such claim or action. This Section states Participating Entity's exclusive remedies for any third-party intellectual property claim or action, and nothing in this Agreement or elsewhere will obligate Contract Vendor to provide any greater indemnity to Participating Entity.

- 19. JURISDICTION AND VENUE.** This RFP and any ensuing Master Agreement, its amendments and supplements thereto, shall be governed by the laws of the State of Minnesota, USA. Venue for all legal proceedings arising out of the Master Agreement, or breach thereof, shall be in the State or federal court with competent jurisdiction in Ramsey County, Minnesota. By submitting a response to this Request for Proposal, a Responder voluntarily agrees to be subject to the jurisdiction of Minnesota for all proceedings arising out of this RFP, any ensuing Master Agreement, or any breach thereof.

- 20. LAWS AND REGULATIONS.** Any and all services, articles or equipment offered and furnished must comply fully with all local, State and federal laws and regulations, including Minn. Stat. § 181.59 prohibiting discrimination and business registration requirements of the Office of the Minnesota Secretary of State.

- 21. NONVISUAL ACCESS STANDARDS.** Pursuant to Minn. Stat. § 16C.145, the Contract Vendor shall comply with the following nonvisual technology access standards :

- a. That the effective interactive control and use of the technology, including the operating system applications programs, prompts, and format of the data presented, are readily achievable by nonvisual means;
- b. That the nonvisual access technology must be compatible with information technology used by other individuals with whom the blind or visually impaired individual must interact;
- c. That nonvisual access technology must be integrated into networks used to share communications among employees, program participants, and the public; and
- d. That the nonvisual access technology must have the capability of providing equivalent access by nonvisual means to telecommunications or other interconnected network services used by persons who are not blind or visually impaired.

These standards do not require the installation of software or peripheral devices used for nonvisual access when the information technology is being used by individuals who are not blind or visually impaired.

22. NOTICE TO RESPONDERS. Pursuant to Minn. Stat. § 270C.65, subd. 3, Contract Vendors are required to provide their Federal Employer Identification Number or Social Security Number. This information may be used in the enforcement of federal and State tax laws. Supplying these numbers could result in action to require a Contract Vendor to file tax returns and pay delinquent tax liabilities. These numbers will be available to federal and State tax authorities and State personnel involved in the payment of State obligations.

23. ORGANIZATIONAL CONFLICTS OF INTEREST. The responder warrants that, to the best of its knowledge and belief, and except as otherwise disclosed, there are no relevant facts or circumstances which could give rise to organizational conflicts of interest. An organizational conflict of interest exists when, because of existing or planned activities or because of relationships with other persons:

- a Contract Vendor is unable or potentially unable to render impartial assistance or advice to the State;
- the Contract Vendor's objectivity in performing the work is or might be otherwise impaired; or
- the Contract Vendor has an unfair competitive advantage.

The Contract Vendor agrees that if an organizational conflict of interest is discovered after award, an immediate and full disclosure in writing shall be made to the Assistant Director of the Department of Administration's Materials Management Division that shall include a description of the action the Contract Vendor has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict of interest is determined to exist, the State may, at its discretion, cancel the Master Agreement. In the event the Contract Vendor was aware of an organizational conflict of interest prior to the award of the Master Agreement and did not disclose the conflict to the Master Agreement Administrator, the State may terminate the Master Agreement for default. The provisions of this clause shall be included in all subcontracts for work to be performed, and the terms "Contract," "Contract Vendor," "Master Agreement," "Master Agreement Administrator" and "Contract Administrator" modified appropriately to preserve the State's rights.

24. PAYMENT CARD INDUSTRY DATA SECURITY STANDARD AND CARDHOLDER INFORMATION SECURITY. Contract Vendor assures all of its Network Components, Applications, Servers, and Subcontractors (if any) comply with the Payment Card Industry Data Security Standard ("PCIDSS"). "Network Components" shall include, but are not limited to, Contract Vendor's firewalls, switches, routers, wireless access points, network appliances, and other security appliances; "Applications" shall include, but are not limited to, all purchased and custom external (web) applications. "Servers" shall include, but are not limited to, all of Contract Vendor's web, database, authentication, DNS, mail, proxy, and NTP servers. "Cardholder Data" shall mean any personally identifiable data associated with a cardholder, including, by way of example and without limitation, a cardholder's account number, expiration date, name, address, social security number, or telephone number.

Subcontractors (if any) must be responsible for the security of all Cardholder Data in its possession; and will only use Cardholder Data for assisting cardholders in completing a transaction, providing fraud control services, or for other uses specifically required by law. Contract Vendor must have a business continuity program which conforms to PCIDSS to protect Cardholder Data in the event of a major disruption in its operations or in the event of any other disaster or system failure which may occur to operations; will continue to safeguard Cardholder Data in the event this Agreement terminates or expires; and ensure that a representative or agent of the payment card industry and a representative or agent of the State shall be provided with full cooperation and access to conduct a thorough security

review of Contract Vendor's operations, systems, records, procedures, rules, and practices in the event of a security intrusion in order to validate compliance with PCIDSS.

- 25. PERFORMANCE WHILE DISPUTE IS PENDING.** Notwithstanding the existence of a dispute, the parties shall continue without delay to carry out all of their responsibilities under the Master Agreement that are not affected by the dispute. If a party fails to continue without delay to perform its responsibilities under the Master Agreement, in the accomplishment of all undisputed work, any additional cost incurred by the other parties as a result of such failure to proceed shall be borne by the responsible party.

26. PREFERENCE.

Targeted/Economically Disadvantaged. In accordance with Minn. Stat. § 16C.16, subds. 6 and 7, eligible certified targeted group (TG) businesses and certified economically disadvantaged (ED) businesses will receive a 6 percent preference on the basis of award for this RFP. The preference is applied only to the first \$500,000 of the response to the RFP. Eligible TG businesses must be currently certified by the Materials Management Division prior to the bid opening date and time.

To verify TG/ED certification, refer to the Materials Management Division's web site at www.mmd.admin.state.mn.us under "Vendor Information, Directory of Certified TG/ED Vendors."

To verify TG eligibility for preference, refer to the Materials Management Division's web site under "Vendor Information, Targeted Groups Eligible for Preference in State Purchasing" or call the Division's HelpLine at 651.296.2600.

Reciprocal Preference. In accordance with Minn. Stat. § 16C.06, subd 7, the acquisition of goods or services shall be allowed a preference over a non-resident vendor from a state that gives or requires a preference to vendors from that state, the preference shall be equal to the preference given or required by the state of the non-resident vendor. If you wish to be considered a Minnesota Resident vendor you must claim that by filling out the Resident Vendor Form included in this solicitation and include it in your response.

Veteran. In accordance with Minn. Stat. § 16C.16, subd. 6a, (a) Except when mandated by the federal government as a condition of receiving federal funds, the commissioner shall award up to a six percent preference in the amount bid on state procurement to **certified small businesses that are majority-owned and operated by:**

- (1) recently separated veterans who have served in active military service, at any time on or after September 11, 2001, and who have been discharged under honorable conditions from active service, as indicated by the person's United States Department of Defense form DD-214 or by the commissioner of veterans affairs;
- (2) veterans with service-connected disabilities, as determined at any time by the United States Department of Veterans Affairs; or
- (3) any other veteran-owned small businesses certified under section 16C.19, paragraph (d).

In accordance with Minn. Stat. § 16C.19 (d), a veteran-owned small business, the principal place of business of which is in Minnesota, is certified if it has been verified by the United States Department of Veterans Affairs as being either a veteran-owned small business or a service disabled veteran-owned small business, in accordance with Public Law 109-461 and Code of Federal Regulations, title 38, part 74.

To receive a preference the veteran-owned small business must meet the statutory requirements above by the solicitation opening date and time. The preference is applied only to the first \$500,000 of the response. If responder is claiming the veteran-owned preference, attach documentation, sign and return form with response to the solicitation. Only eligible veteran-owned small businesses that meet the statutory requirements and provide adequate documentation will be given the preference.

- 27. PUBLIC INFORMATION.** Once the information contained in the responses is deemed public information, interested parties may request to obtain the public information. You may call 651.201.2413 between the hours of 8:00 a.m. to 4:30 p.m. to arrange this.

- 28. PUBLICITY.** Any publicity given to the program, publications or services provided resulting from a State contract for goods or services, including but not limited to notices, informational pamphlets, press releases, research, reports, signs and similar public notices prepared by or for the Contract Vendor, or its employees individually or jointly with others, or any subcontractors, shall identify the State as the sponsoring agency and shall not be released, unless such release is a specific part of an approved work plan included in the Master Agreement prior to its approval by the State's Authorized Representative and the State's Assistant Director or designee of Materials Management Division. The Contract Vendor shall make no representations of the State's opinion or position as to the quality or effectiveness of the products and/or services that are the subject of the Master Agreement without the prior written consent of the

State's Assistant Director or designee of Materials Management Division. Representations include any publicity, including but not limited to advertisements, notices, press releases, reports, signs, and similar public notices.

- 29. PURCHASE ORDERS. NEGOTIATED.** The State requires that there will be no minimum order requirements or charges to process an individual purchase order. The Master Agreement number and the PO number must appear on all documents (e.g., invoices, packing slips, etc.). The Ordering Entity's purchase order constitutes a binding contract. Unless otherwise expressly agreed between a Purchasing Entity and the Contract Vendor, any preprinted terms on the Purchasing Entity's purchase order shall be given no force or effect and no terms of a purchase order that conflict with this Master Agreement or the Participating Addendum shall be binding on Contract Vendor.
- 30. RIGHTS RESERVED.** Notwithstanding anything to the contrary, the State reserves the right to:
- reject any and all responses received;
 - select, for Master Agreements or for negotiations, a response other than that with the lowest cost;
 - waive or modify any informalities, irregularities, or inconsistencies in the responses received;
 - negotiate any aspect of the proposal with any responder and negotiate with more than one responder;
 - request a BEST and FINAL OFFER, if the State deems it necessary and desirable; and
 - terminate negotiations and select the next response providing the best value for the State, prepare and release a new RFP, or take such other action as the State deems appropriate if negotiations fail to result in a successful Master Agreement.
- 31. RISK OF LOSS OR DAMAGE.** The State is relieved of all risks of loss or damage to the goods and/or equipment during periods of transportation, and installation by the Contract Vendor and in the possession of the Contract Vendor or their authorized agent.
- 32. SEVERABILITY.** If any provision of the Master Agreement, including items incorporated by reference, is found to be illegal, unenforceable, or void, then both the State and the Contract Vendor shall be relieved of all obligations arising under such provisions. If the remainder of the Master Agreement is capable of performance it shall not be affected by such declaration or finding and shall be fully performed.
- 33. STATE AUDITS** (Minn. Stat. § 16C.05, subd. 5). The books, records, documents, and accounting procedures and practices of the Contract Vendor or other party, that are relevant to the Master Agreement or transaction are subject to examination by the contracting agency and either the Legislative Auditor or the State Auditor as appropriate for a minimum of six years after the end of the Master Agreement or transaction. The State reserves the right to authorize delegate(s) to audit this Master Agreement and transactions.
- 34. SURVIVABILITY.** The following rights and duties of the State and responder will survive the expiration or cancellation of the resulting Master Agreements. These rights and duties include, but are not limited to paragraphs: Indemnification, Hold Harmless and Limitation of Liability, State Audits, Government Data Practices, Governing Law, Jurisdiction and Venue, Publicity, Intellectual Property Indemnification, and Admin Fees.
- 35. TRADE SECRET/CONFIDENTIAL INFORMATION.** Any information submitted as Trade Secret must be identified and submitted per the Trade Secret Form and must meet Minnesota Trade Secret as defined in Minn. Stat. § 13.37

COMPUTER EQUIPMENT 2014-2019

MINNESOTA WSCA-NASPO MASTER AGREEMENT AWARD

EXHIBIT B - PRICING

1. **BAND(S) AWARDED:** Band 1: Desktop Band 2: Laptop Band 3: Tablet Band 4: Server Band 5: Storage.
2. **PRICE STRUCTURE.** The contract employs a MINIMUM discount-off baseline price list structure with category exceptions for each band. The category discounts may be higher or lower than the band discount. The minimum discount and categorized exceptions will be applied to all "quantity one" procurements. An end user will be able to verify pricing using the named base line price list and the minimum discounts with the categorized exceptions provided in the Master Agreement.
3. **PRICE GUARANTEE.** These discounts must remain firm, or the discount may be increased, during the term of the Master Agreement.
4. **BASELINE PRICE LIST.** The Base Line Price is designated in the Pricing Discount Schedule. The Base Line Price List must be accessible and verifiable by potential end users preferably on the Contract Vendor Website. All historic versions of the Baseline Price List must be made available upon request pursuant to the audit provisions.
5. **PRODUCT AND SERVICE SCHEDULE (PSS).** The Product and Service Schedule (PSS) identifies a complete listing of all products and services included in the awarded Master Agreement. The PSS serves as the Contract Catalog. **The PSS will be submitted to the Lead State following contract award and must be approved by the Lead State prior to the start of any sales.** The PSS must be available on the Contract Vendor website for end users to verify pricing based on the minimum discounts with category exceptions provided off a designated base line price list. The Contract Vendor will work with each State to develop a satisfactory PSS reflecting the individual States restrictions.
6. **CHANGES TO THE PSS.** Contract Vendor will request changes to the PSS utilizing an Action Request Form (ARF). Submittals will be reviewed by the Lead State quarterly. Obsolete and discontinued products will be removed.
7. **BULK/VOLUME PRICING.** Further bulk/quantity savings may be obtained when additional quantities are requested. Additional savings are expected when competing awarded vendors for volume pricing.
8. **PROMOTIONAL OFFERS.** Contract Vendors may provide promotions for deeply discounted products based on their inventory and sales. The Contract Vendors will be responsible to market these offers.
9. **PREMIUM SAVINGS PACKAGE PROGRAM.** Contract Vendors participating in the Premium Savings Package (PSP) Program will commit to the standard configurations. The standards currently are refreshed every six months (May and November). Refresh schedule is subject to change. See current configurations: <http://www.wnpsp.com/index.html>. States and other Participating Entities can choose to purchase these packages without any signing additional documents.
10. **TRADE-IN.** Trade-In Programs are the option of the Participating Entity. The Participating Addendum by each State may address the allowance of Trade-Ins.
11. **SERVICES.** Services are at the option of the Participating Entity. The Participating Addendum by each State may address service agreement terms and related travel.

12. **LEASING.** The Discount schedule will indicate if the Contract Vendor provides leasing. Participating Entities may enter in to lease agreements if they have the legal authority to enter into these types of agreements. The Participating Addendum by each State will identify if and how leasing agreement terms will be conducted.
13. **FREIGHT.** All prices shall be FOB Destination, prepaid and allowed (with freight included in the price), to the address, receiving dock or warehouse as specified on the ordering agency's purchase order. In those situations in which the "deliver-to" address has no receiving dock or agents, the Contract Vendor must be able to deliver to the person specified on the PO without additional cost. If there is a special case where inside delivery fee must be charged, the Contract Vendor will notify the customer in advance in order for the customer to determine if the additional cost will affect the decision to utilize the Contract Vendor.
14. **DELIVERY.** Delivery of ordered product should be completed within thirty (30) calendar days after receipt of an order, unless otherwise agreed to by the ordering agency.

COMPUTER EQUIPMENT 2014-2019

MINNESOTA WSA-NASPO MASTER AGREEMENT AWARD

EXHIBIT B - PRICING SCHEDULE

1. BASELINE PRICING DELL RETAIL PRICE LIST

LINK: <http://ftpbox.us.dell.com/slg/weekly/dellpricereport.pdf>

2. BAND DISCOUNTS - (CATEGORY EXCEPTIONS APPLICABLE IN ALL BANDS)

	DELL CATEGORY	MINIMUM DISCOUNT

On-site - Next Business Day On-site (extended yrs); Critical Care On-site Service (all yrs); other svcs	R,Z,Z1&ZS	5%

5. LEASING

Participating Addendum may identify if and how leasing agreement terms will be conducted.

6. ADDITIONAL DISCOUNTS - Request a quote for discounts on bulk/volume purchases.

a. Per Transaction Multiple Unit: Contact your Sales Representative for additional discounts for volume purchases.

Minimum Dollar Volume Associated with Single Transaction	Maximum Dollar Volume Associated with Single Transaction	Cat A only, Single Transaction, Maximum of 10 ship to Locations
\$50,000.00	\$99,999.99	Greater than or Equal to 1%
\$100,000.00	\$199,999.99	Greater than or Equal to 2%
\$200,000.00	\$499,999.99	Greater than or Equal to 4%
\$500,000.00	\$999,999.99	Greater than or Equal to 6%
\$1,000,000.00	No Maximum	Greater than or Equal to 8%

b. Cumulative: Cumulative Discounts are managed at the Master Agreement Level based on total volume.

Cumulative Dell Spend "Gates"	Category A Discount (Adjustment to the Matrix)
Up to \$2B	13.5%
\$2B to \$4B	14%
\$4B to \$6B	14.5%
\$6B to \$8B	15%
\$8B to \$10B	15.5%
Over \$10B	16%

c. Other Discounts provided: For purchases made online via Dell.com, Dell offers an additional 0.5% per category, except for Category O. For online purchases of Category O Services, Dell will offer a 13.5% discount.

COMPUTER EQUIPMENT 2014-2019

MINNESOTA WSCA-NASPO MASTER AGREEMENT AWARD

EXHIBIT C - PRODUCT AND SERVICE SCHEDULE (PSS)

1. **MAINTAINING THE PSS.** The Product and Service Schedule (PSS) identifies a complete listing of all products and services included in the awarded Master Agreement. The PSS serves as the WSCA-NASPO Contract Catalog. **The PSS will be submitted to the Lead State following contract award and must be approved by the Lead State prior to the start of any sales.** The PSS must be available on the Contract Vendor website for end users to verify pricing based on the minimum discounts with category exceptions provided off a designated base line price list. The Contract Vendor will work with each State to develop a satisfactory PSS reflecting the individual States restrictions. The Contract Vendor will work to develop a PSS satisfactory to the Lead State prior to the start of sales and containing the following information:
 - a. Band number
 - b. Part # - SKU #
 - c. Manufacturer
 - d. Description
 - e. Minimum Discount
 - f. Category Code (This code will be refined during the approval process)
 - g. Other fields approved by the Lead State
2. **CHANGES TO THE PSS:** Contract Vendor will request changes to the PSS utilizing an Action Request Form (ARF). Submittals will be reviewed by the Lead State quarterly. Obsolete and discontinued products will be removed.
3. **FORMAT:** The format for the final product and service schedule will be approved within 30 days of contract award. Suggested format is provided below:

MANUFACTURER NAME _____ DATE: _____
BASELINE PRICE LIST: _____
LINK: _____

BAND	Part # - SKU#	MANUFACTURER	DESCRIPTION	MINIMUM DISCOUNT	CATEGORY CODE
1	XYZ	ABC	DESKTOP	60%	1M
2	550	ZZZZZZZ	LAPTOP CART	10%	2TM
3	123A	ABC	SUPER TABLET	25%	3A

4. **THIRD PARTY PRODUCTS:** A list of third party products is to be submitted to the Lead State. Approval must be received from the Lead State prior to adding third party products to the Product and Service Schedule. Master Agreement restrictions of third party products include:
 - a. Contract Vendors can only offer Third Party Products in the bands they have been awarded.
 - b. Contract Vendor cannot offer products manufactured by another Contract Vendor holding a Minnesota WSCA-NASPO Master Agreement unless approved by the Lead State.
 - c. The Contract Vendor will assign the manufacturer or publisher's warranty and maintenance. The Contract Vendor will provide warranty and maintenance call numbers and assist the customer in engaging the manufacturer on warranty and maintenance issues.
 - d. Any additions to the Third Party Product list must be submitted utilizing the Action Request Form.
 - e. The approved Third Party Product list will be clearly posted on the Vendor provided website and updated as products are approved.

COMPUTER EQUIPMENT 2014-2019

MINNESOTA WSCA-NASPO MASTER AGREEMENT AWARD

EXHIBIT D - WEBSITE

1. **IMPLEMENTATION.** Within 30 calendar days of Master Agreement award, the Contract Vendor must provide a sample URL of the Master Agreement webpage to the Lead State for review and approval. The Lead State will review and determine acceptability of the website format and data. If the information is determined to be unacceptable or incorrect, the Contract Vendor will have 15 calendar days to provide revisions to the Lead State. Once the website is approved, the Contract Vendor may not make material changes to the website without notifying the Lead State and receiving written approval of the changes utilizing the Action Request Form. The Contract Vendor must continue to monitor and update the website throughout the life of the contract. Periodic audits may be conducted to ensure websites are updated and Contract Vendors will be expected to correct deficiencies.
2. **WEBSITE CONTENT.** The website must be separate from the Contract Vendor's commercially available (i.e., public) on-line catalog and ordering systems. Contract Vendor agrees to pursue design of a website to include the items listed below. The Lead State will review and determine acceptability of the website format and data as stated in Item 1 above.
 - a. Baseline Price List and historic versions
 - b. Approved Product and Service Schedule (PSS)
 - c. Product specifications, pricing, and configuration aids for the major product categories proposed that can be used to obtain an on-line quote
 - d. Third Party Product list will be clearly posted on the Vendor provided website and updated as products are approved
 - e. Link to the WSCA-NASPO EmarketCenter
 - f. Online ordering capability with the ability to remember multiple ship to locations if applicable to product
 - g. Contact information for order placement, service concerns (warranty and maintenance), problem reporting, and billing concerns
 - h. Sales representatives for participating entities
 - i. Purchase order tracking
 - j. Available Twenty-four (24) hours per day, seven (7) days per week availability, except for regularly scheduled maintenance
 - k. Additional Terms may not be posted on the Website without written approval of the Lead State
 - l. Link to the WSCA-NASPO EmarketCenter if a State is participating
 - m. Information on accessibility and accessible products
 - n. If participating in Premium Savings Package Program, lead with these products and display prominently on the website
 - o. Links to environmental certification, including but not limited to take-back/recycling programs,
 - p. Information regarding the use of Conflict minerals, as required by Section 13(p) of the Securities Exchange Act of 1934, as amended, and the rules promulgated thereunder. See: <http://www.sec.gov/rules/final/2012/34-67716.pdf>
 - q. Service options, service agreements for negotiations when allowed by a participating addendum
 - r. EPEAT, Energy Star, etc.
 - s. Link to Signed Participating Addendums
 - t. Link to Signed Master Agreement
 - u. Link to solicitation and Response
3. **TERMINATION** Upon termination or expiration of the Master Agreement awarded from this RFP all websites, on-line offering systems and Electronic Catalog functions supported and/or available as part of the Master Agreement will cease and be removed from public viewing access without redirecting to another website.

COMPUTER EQUIPMENT 2014-2019

MINNESOTA WSCA-NASPO MASTER AGREEMENT AWARD

EXHIBIT E - ACTION REQUEST UPDATE FORM (ARF)

The Action Request Form (ARF) provided in this document must be utilized by the Contract Vendor to provide quarterly updates of PSS and to make requests. The Action Request Forms may be reviewed quarterly by the Lead State.

DATE: _____

ATTN: WSCA-NASPO Master Agreement Administrator

RE: Master Agreement # _____ with _____ (Contract Vendor)

Dear WSCA-NASPO Master Agreement Administrator:

_____ (Contract Vendor) is providing the following update and/or requesting the action noted below.

Action Requested: _____

Action Log: _____ Verify Log is attached

SELECT ACTION BELOW AND PROVIDE REQUIRED INFORMATION:

- | | |
|--|--|
| ☐ Update of Product & Service Schedule | Provide summary of additions, deletions and pricing changes. |
| NOTE: THIS WILL BE A NOTIFICATION OF CHANGES TO THE PSS, APPROVAL WILL NOT BE NEEDED | |
| ☐ Quarterly Self Audit | Check this box to verify the Quarterly Self Audit has been completed |
| ☐ Third Party Product Addition | Provide warranty Guarantee |
| ☐ Marketing Approval | Attach Materials for review |
| ☐ Material Website Change | Describe and provide link for review |
| ☐ Miscellaneous Inquiry | Provide detail (e.g. key contact change, etc.) |

The Contract Vendor certifies Products and Services provided meet the terms and conditions of the Master Agreement and understands they may be audited for compliance. Additional information may be requested upon submission. The Lead State may remove previously approved items throughout the life of the Master Agreement if in the best interest at its sole discretion.

Contract Vendor: _____ Name of Requester: _____

Title of Requester: _____

COMPUTER EQUIPMENT 2014-2019

EXHIBIT F - REPORTING

- OWNERSHIP:** Recipient of the reports shall have exclusive ownership of the media containing the reports. The Lead State and WSCA-NASPO shall have a perpetual, irrevocable, non-exclusive, royalty free, transferable right to display, modify, copy, and otherwise use reports, data and information provided.
- DUE DATE:** Reports shall be due no later than the last day of the month following the end of the calendar quarter.

	FROM	TO	DUE
Q1	January 1	March 31	April 30
Q2	April 1	June 30	July 31
Q3	July 1	September 30	October 31
Q4	October 1	December 31	January 31

3. REQUIRED REPORTS:

	Report Name	Submitted to	Purpose & Submittal
1	WSCA-NASPO Administrative Fee	WSCA-NASPO	Identify total sales and administrative fee due to WSCA-NASPO 1) Go to: http://www.naspo.org/WNCPO/Calculator.aspx 2) Complete all contract report information fields 3) Enter total sales per State or Select "no sales for quarter" checkbox 4) Click on Submit button
2	WSCA-NASPO Detailed Sales	WSCA-NASPO	Detailed sales data by line item. Currently via an Excel Report template. Future MAY involve a portal. No modifications may be made by the Contract Vendor to the template. This report may also fulfill the reporting requirements of self audits, premium savings sales, and Bring Your Own Device Employee Sales.
3	Participating States	Participating State	Contract Vendor may utilize the detailed sales report to report to individual States unless otherwise directed by the State. States may require additional reporting.
4	Participating Addendum Status	WSCA-NASPO	Provides status of Participating Addendums. Excel Template to be provided by WSCA-NASPO.
5	Premium Saving Package (PSP)	PSP Lead	Additional reporting may be requested.
6	Quarterly Updates of PSS and Self Audit	Lead State	Utilize the Action Request Form (ARF)

COMPUTER EQUIPMENT 2014-2019

MINNESOTA WSCA-NASPO MASTER AGREEMENT AWARD

EXHIBIT G - DEFINITIONS

Acceptance. See Master Agreement Terms regarding Acceptance and Acceptance Testing.

Accessory. Accessories do not extend the functionality of the computer, but enhances the user experience i.e., mouse pad, monitor stand. For the purposes of this proposal, accessories are considered peripherals.

Bands: For the purpose of this solicitation, there are six product bands which may be awarded. Each product band includes related peripherals and services. Responders must only respond to Bands in which they manufacture the defined product. Responder may receive an award in one or more bands for which they manufacture a product based on the evaluation.

BAND 1: DESKTOP. A desktop computer is a personal computer intended for regular use at a single location. A desktop computer typically comes in several units connected together during installation: 1) the processor, 2) display monitor and 3) input devices usually a keyboard and a mouse. All operating systems for tablets are allowed. Zero Clients, Thin clients, all in ones and workstations will also be included under desktops. Ruggedized equipment may also be included in the Product and Service schedule for this band.

BAND 2: LAPTOP. A laptop computer is a personal computer for mobile use. A laptop includes a display, keyboard, point device such as a touchpad and speakers into a single unit. A laptop can be used away from an outlet using a rechargeable battery. All operating systems for tablets are allowed. Laptops will include notebooks, ultrabook, mobile thin clients, chromebooks and netbooks. Computers with mobile operating systems will also be included under laptops. Tablets that have the option to be utilized with a keyboard can be sold in this band. Ruggedized equipment may also be included in the Product and Service Schedule for this band.

BAND 3: TABLET. A tablet is a mobile computer that provides a touchscreen which acts as the primary means of control. All operating systems for tablets are allowed. Ruggedized equipment may also be included as a category in the Product and Service Schedule for this band.

BAND 4: SERVER. A server is a physical computer dedicated to run one or more services or applications (as a host) to serve the needs of the users of other computers on a network. This band also includes server appliances. Server appliances have their hardware and software preconfigured by the manufacturer. It also includes embedded networking components such as those found in blade chassis systems. Ruggedized equipment may also be included in the Product and Service Schedule for this band.

BAND 5: STORAGE. Storage is hardware with the ability to store large amounts of data. This band includes SAN switching necessary for the proper functioning of the storage environment. Ruggedized equipment may also be included in the Product and Service Schedule for this band.

~~**BAND 6: RUGGEDIZED DEVICES** Ruggedized refers to devices specifically designed to operate reliably in harsh usage environments and conditions, such as strong vibrations, extreme temperatures and wet or dusty conditions. Ruggedized Devices may also be offered under bands 1-5 of the Master Agreement. BAND 6 REMOVED. RUGGEDIZED EQUIPMENT MAY BE SOLD IN BANDS 1-5, PROVIDED IT MEETS BAND REQUIREMENTS.~~

Cloud Services. Delivery of computing as a service rather than a product, whereby shared resources, software and information are provided to computers and other devices as a utility over a network, such as the Internet. (Cloud Services including acquisitions structured as managed on-site services are not allowed.)

Contract Vendor or Contractor. The manufacturer responsible for delivering products or performing services under the terms and conditions set forth in the Master Agreement. The Contract Vendor must ensure partners utilized in the performance of this contract adhere to all the terms and conditions. For the purposes of this RFP, the term Partner will be utilized in naming the relationship a manufacturer has with another company to market and sell the contract. Participating States will have final determination/approval if a Partner may be approved for that state in the role identified by the Contract Vendor.

Components. Parts that make up a computer configuration.

Configuration. The combination of hardware and software components that make up the total functioning system.

Desktop. This is Band 1 of this solicitation. A desktop computer is a personal computer intended for regular use at a single location. A desktop computer typically comes in several units connected together during installation: 1) the processor,

2) display monitor and 3) input devices usually a keyboard and a mouse. Desktop virtualization endpoints such as zero and thin clients will also be included under the Desktop Band.

Energy Star®. A voluntary energy efficiency program sponsored by the U.S. Environmental Protection Agency. The Energy Star program makes identification of energy efficient computers easy by labeling products that deliver the same or better performance as comparable models while using less energy and saving money. Energy Star qualified computers and monitors automatically power down to 15 watts or less when not in use and may actually last longer than conventional products because they spend a large portion of time in a low-power sleep mode. For additional information on the Energy Star program, including product specifications and a list of qualifying products, visit the Energy Star website at <http://www.energystar.gov>.

EPEAT. A system for identifying more environmentally preferable computer desktops, laptops, and monitors. It includes an ANSI standard - the IEEE 1680 EPEAT standard – and website www.epeat.net to identify products manufacturers have declared as meeting the standard. EPEAT provides a clear and consistent set of performance criteria for the design of products. It is not a third-party certification program. Instead, Manufacturers self-certify that their products are in conformance with the environmental performance standard for electronic products.

FOB Destination. Shipping charges are included in the price of the item and the shipped item becomes the legal property and responsibility of the receiver when it reaches its destination unless there is acceptance testing required.

FOB Inside Delivery. Special Shipping arrangements, such as inside delivery, may include additional fees payable by the Purchasing Entity. Any FOB inside delivery must be annotated on the Purchasing Entity ordering document.

General Consulting. Services related to advising agencies on how best to use information technology to meet business objectives. Examples of such services would include management and administration of IT systems. Each State will have varying laws, rules, policies and procedures surrounding general consulting which need adherence. Minnesota Statute section 16C.08 defines general consulting for the State of Minnesota. <https://www.revisor.mn.gov/statutes/?id=16C.08>

Laptop. This is Band 2 of this solicitation. A laptop computer is a personal computer for mobile use. A laptop includes a display, keyboard, point device such as a touchpad and speakers into a single unit. A laptop can be used away from an outlet using a rechargeable battery. Laptop Band may include notebooks, ultrabooks, and netbooks. Computers with mobile operating systems will also be included under the Laptop Band.

Lead State. The State conducting this cooperative solicitation and centrally administering any resulting Master Agreement with the permission of the Signatory States. Minnesota is the Lead State for this procurement and the laws of Minnesota Statute Chapter 16C apply to this procurement.

Manufacturer. A company that, as one of its primary business function, designs, assembles owns the trademark/patent and markets branded computer equipment.

Master Agreement. The underlying agreement executed by and between the Lead State and the Contract Vendor.

Middleware. Middleware is the software "glue" that helps programs and databases (which may be on different computers) work together. Its most basic function is to enable communication between different pieces of software.

Options. An item of equipment or a feature that may be chosen as an addition to or replacement for standard equipment and features.

Order. A purchase order, sales order, or other document used by a Purchasing Entity to order the Equipment.

Participating Addendum. A written statement of agreement signed by the Contract Vendor and a Participating State or other Participating Entity that clarifies the operation of this Master Agreement for the Participating Entity (e.g., ordering procedures specific to a Participating State) and may add other state-specific language or other requirements. A Participating Addendum evidences the Participant's willingness to purchase and the Contract Vendor's willingness to provide equipment under the terms and conditions of this Master Agreement with any and all exceptions noted and agreed upon.

Participating States. States that utilize the Master Agreement established by the RFP and enter into a Participating Addendum which further defines their participation.

Participating Entity. A Participating State, or other legal entity, properly authorized by a Participating State to enter into the Master Agreement through a Participating Addendum and that authorizes orders from the Master Agreement by Purchasing Entities. Under the WSCA-NASPO program, in some cases, local governments, political subdivisions or other entities in a State may be authorized by the chief procurement official to execute its own Participating Addendum where a Participating Addendum is not executed by the chief procurement official for that state that covers local governments, political subdivisions, or other government entities in the state.

Partner. A company, authorized by the Contract Vendor and approved by the Participating State, to provide marketing, support, or other authorized contract services on behalf of the Contract Vendor in accordance with the terms and conditions of the Contract Vendor's Master Agreement. In the RFP, Partner is the term that is used to call out the many different relationships a manufacturer may have with another company to market their product including, but not limited to agents, subcontractors, partners, fulfillment partners, channel partners, business partners, servicing subcontractor, etc.

Peripherals. A peripheral means any hardware product that can be attached to, added within or networked with personal computers, servers and storage. Peripherals extend the functionality of a computer without modifying the core components of the system. For the purposes of this proposal, peripherals are defined as including accessories.

Peripherals may be manufactured by a third party, however, Contract Vendor shall not offer any peripherals manufactured by another Contract Vendor holding a Master Agreement. The Contract Vendors shall provide the warranty service and

maintenance for all peripherals on the Master Agreement. **Examples of peripherals/accessories/options:** Include but are not limited to: printers, monitors, multifunction printers, audiovisual equipment, instructional equipment, cabling, modems, networking to support server, storage and client applications such as routers, switches. Software is an option which must be related to the purchase of equipment and subject to configuration limits. **Third party products are allowed to be offered as peripherals/accessories/options and may be offered in any related band.**

Per Transaction Multiple Unit Discount. A contractual volume discount based on dollars in a single purchase order or combination of purchase orders submitted at one time by a Participating Entity or multiple entities conducting a cooperative purchase.

Premium Savings Packages. Deeply discounted standard configurations available to Purchasing Entities using the Master Agreement. This specification includes a commitment to maintain and upgrade (keep pace with the advance of technology) the standard configurations for a stated period of time or intervals. WSCA-NASPO reserves the right to expand and modify the PSP throughout the life of the contract. See <http://www.wnpsp.com/index.html>.

Purchasing Entity – means a state, city, county, district, other political subdivision of a State, and a nonprofit organization under the laws of some states if authorized by a Participating Addendum, that issues an order against the Master Agreement and becomes financially committed to the purchase.

Ruggedized. This was band 6 of this solicitation. Ruggedized refers to equipment specifically designed to operate reliably in harsh usage environments and conditions, such as strong vibrations, extreme temperatures and wet or dusty conditions.

Services. Broadly classed as installation/de-installation, maintenance, support, training, migration, and optimization of products offered or supplied under the Master Agreement. These types of services may include, but are not limited to: warranty services, maintenance, installation, de-installation, factory integration (software or equipment components), asset management, recycling/disposal, training and certification, pre-implementation design, disaster recovery planning and support, service desk/helpdesk, and any other directly related technical support service required for the effective operation of a product offered or supplied. Contract Vendors may offer, but participating States and entities do not have to accept, limited professional services related **ONLY** to the equipment and configuration of the equipment purchased through the resulting contracts. **EACH PARTICIPATING STATE DETERMINES RESTRICTIONS AND NEGOTIATES TERMS FOR SERVICES.**

Server. This is Band 4 of this solicitation. A server is a physical computer dedicated to run one or more services or applications (as a host) to serve the needs of the users of other computers on a network. This band also includes server appliances. Server appliances have their hardware and software preconfigured by the manufacturer. It also includes embedded networking components such as those found in blade chassis systems. Ruggedized equipment may also be included in the Product and Service Schedule for this band.

Storage. This is Band 5 of this solicitation. Storage is hardware with the ability to store large amounts of data. This band includes SAN switching necessary for the proper functioning of the storage environment. Ruggedized equipment may also be included in the Product and Service Schedule for this band.

Storage Area Network. A storage area network (SAN) is a high-speed special-purpose network (or subnetwork) that interconnects different kinds of data storage devices with associated data servers on behalf of a larger network of users.

Storage as a Service (STaaS). An architecture model by which a provider allows a customer to rent or lease storage space on the provider's hardware infrastructure on a subscription basis. E.g., manage onsite or cloud services.

Software. For the purposes of this proposal, software is commercial operating off the shelf machine-readable object code instructions including microcode, firmware and operating system software that are preloaded on equipment. The term "Software" applies to all parts of software and documentation, including new releases, updates, and modifications of software.

Tablet. This is Band 3 of this solicitation. A tablet is a mobile computer that provides a touchscreen which acts as the primary means of control. Tablet band may include notebooks, ultrabooks, and netbooks that are touchscreen capable.

Takeback Program. The Contract Vendor's process for accepting the return of the equipment or other products at the end of life.

Third Party Products. Products sold by the Contract Vendor which are manufactured by another company.

Upgrade. Refers to replacement of existing software, hardware or hardware component with a newer version.

Warranty. The Manufacturers general warranty tied to the product at the time of purchase.

Wide Area Network or WAN. A data network that serves users across a broad geographic area and often uses transmission devices provided by common carriers.

WSCA-NASPO. The WSCA-NASPO cooperative purchasing program, facilitated by the WSCA-NASPO Cooperative Purchasing Organization LLC, a 501(c)(3) limited liability company that is a subsidiary organization of the National Association of State Procurement Officials (NASPO). The WSCA-NASPO Cooperative Purchasing Organization facilitates administration of the cooperative group contracting consortium of state chief procurement officials for the benefit of state departments, institutions, agencies, and political subdivisions and other eligible entities (i.e., colleges, school districts, counties, cities, some nonprofit organizations, etc.) for all states and the District of Columbia. The WSCA-NASPO Cooperative Development Team is identified in the Master Agreement as the recipient of reports and may be performing contract administration functions as assigned by the Lead State Contract Administrator.

PARTICIPATING ADDENDUM
NASPO ValuePoint Cooperative Purchasing Program

COMPUTER EQUIPMENT MASTER AGREEMENT
Minnesota Master Agreement No.: MNWNC-108

California Participating Addendum No. 7-15-70-34-003
DELL MARKETING, L.P. (Contractor)

This Participating Addendum Number **7-15-70-34-003** is entered into between the State of California, Department of General Services (hereafter referred to as "State" or "DGS") and Dell Marketing, L.P. (hereafter referred to as "Contractor") under the NASPO ValuePoint Cooperative Purchasing Program Master Agreement Number MNWNC-108 ("Master Agreement") executed by the State of Minnesota.

1. Scope

- A. This Participating Addendum covers the purchase of Computer Equipment under the Master Agreement for the following product bands:

Band 1 – Desktop
Band 2 – Laptop
Band 3 – Tablet
Band 4 – Server
Band 5 – Storage

- B. This Participating Addendum is available for use by California political subdivisions/local governments (hereafter referred to as "Purchasing Entities"). A political subdivision/local government is defined as any city, county, city and county, district, or other local governmental body or corporation, including the California State Universities (CSU) and University of California (UC) systems, K-12 schools and community colleges empowered to expend public funds.
- C. Political subdivision/local government use of this Participating Addendum is optional. Each political subdivision/local government is to make its own determination whether this Participating Addendum and the Minnesota Master Agreement are consistent with its procurement policies and regulations.
- D. Participating Entities may enter into lease agreements for the products covered in the Master Agreement, if they have the legal authority to enter into these types of agreements.

2. Term

- A. The term of this Participating Addendum shall begin upon signature approval by the State and will end March 31, 2017, or upon termination by the State, whichever occurs first.
- B. Lead State amendments to extend the Master Agreement term date are automatically incorporated into this Participating Addendum unless terminated early in accordance with the terms and conditions of the Master Agreement or this Participating Addendum.

3. Order of Precedence

In the event of any inconsistency between the articles, attachments, or provisions which constitute this agreement, the following descending order of precedence shall apply:

- A. California Participating Addendum 7-15-70-34-003
- B. Minnesota WSCA-NASPO Master Agreement MNWNC-108

4. Terms and Conditions

The California General Provisions - Information Technology (GSPD401IT), revised and effective 09/5/14, is hereby incorporated by reference and made a part of this Participating Addendum. The 12 page document is available at:
http://www.documents.dgs.ca.gov/pd/poliproc/GSPD401IT14_0905.pdf.

5. Price List

Contractor shall maintain a website dedicated to this Participating Addendum which contains the Product and Service Schedule (PSS) and designated base line price list for participating entities to verify product/service pricing and applicable discounts offered under the Master Agreement.

6. Partner Utilization

- A. Contractor may use Partners under this Participating Addendum for sales and service functions as defined herein. Each Purchasing Entity will determine whether use of Partners is consistent with its procurement policies and regulations.
- B. Contractor shall be responsible for successful performance and compliance with all requirements in accordance with the terms and conditions under this Participating Addendum, even if work is performed by Partners.
- C. Contractor will be the sole point of contact with regard to Participating Addendum contractual matters, reporting, and administrative fee requirements.
- D. Partners are classified as follows:
 - 1) "Authorized Reseller"
 - a. Authorized Resellers may provide quotes, accept purchase orders, fulfill purchase orders, perform maintenance/warranty services and accept payment from ordering agencies for products and associated services offered under this Participating Addendum.
 - b. Authorized Resellers are responsible for sending a copy of all purchase orders and invoices to the Contractor for compliance with quarterly usage reporting and administrative fee requirements.
 - c. All purchase documents to Authorized Resellers shall reference the Participating Addendum Number.
 - d. If applicable, Authorized Reseller(s) under this Participating Addendum will be listed on the Contractor's dedicated website.

2) "Agent"

- a. Agents are only authorized to provide quotes, sales assistance, configuration guidance and ordering support for products and associated services offered under this Participating Addendum.
- b. Agents are not authorized to accept orders or payments.
- c. If applicable, Agent(s) under this Participating Addendum will be listed on the Contractor's dedicated website.

7. Invoicing

The Participating Addendum Number and Ordering Agency Purchase Order Number shall appear on each purchase order and invoice for all purchases placed under this Participating Addendum.

8. Usage Reporting

- A. Contractor shall submit usage reports on a quarterly basis to the State Contract Administrator for all California entity purchases using the WSCA-NASPO Detailed Sales report template.
- B. The report is due even when there is no activity.
- C. The report shall be an Excel spreadsheet transmitted electronically to the DGS mailbox at PDWSCA@dgs.ca.gov.
- D. Any report that does not follow the required format or that excludes information will be deemed incomplete. Contractor will be responsible for submitting corrected reports within five business days of the date of written notification from the State.
- E. Tax must not be included in the report, even if it is on the purchase order.
- F. Reports are due for each quarter as follows:

Reporting Period	Due Date
JUL 1 to SEP 30	OCT 31
OCT 1 to DEC 31	JAN 31
JAN 1 to MAR 31	APR 30
APR 1 to JUN 30	JUL 31

- G. Failure to meet reporting requirements and submit the reports on a timely basis shall constitute grounds for suspension of this contract.

9. Administrative Fee

- A. Contractor shall submit a check, payable to the State of California, remitted to the Department of General Services, Procurement Division for the calculated amount equal to one percent (0.01) of the sales for the quarterly period.
- B. Contractor must include the Participating Addendum Number on the check. Those checks submitted to the State without the Participating Addendum Number will be returned to Contractor for additional identifying information.
- C. Administrative fee checks shall be submitted to:
- State of California
Department of General Services, Procurement Division
Attention: Multiple Awards Program
707 3rd Street, 2nd Floor, MS 2-202
West Sacramento, CA 95605
- D. The administrative fee shall not be included as an adjustment to Contractor's Master Agreement pricing.
- E. The administrative fee shall not be invoiced or charged to the ordering agency.
- F. Payment of the administrative fee is due irrespective of payment status on orders or service contracts from a Purchasing Entity.
- G. Administrative fee checks are due for each quarter as follows:

Reporting Period	Due Date
JUL 1 to SEP 30	OCT 31
OCT 1 to DEC 31	JAN 31
JAN 1 to MAR 31	APR 30
APR 1 to JUN 30	JUL 31

- H. Failure to meet administrative fee requirements and submit fees on a timely basis shall constitute grounds for suspension of this contract.

10. Contract Management

- A. The primary contact individuals this Participating Addendum shall be as follows:

Contractor	
Name:	Amanda Hudson
Phone:	(512) 723-6806
Fax:	(512) 283-2691
E-Mail:	<u>Amanda_Hudson@Dell.com</u>
Address:	One Dell Way, Mailstop RR1-33 Legal Round Rock, Texas 78682

State Contract Administrator	
Name:	Julie Matthews
Phone:	(916) 375-4612
Fax:	(916) 375-4663
E-Mail:	Julie.Matthews@dgs.ca.gov
Address:	Department of General Services Procurement Division 707 Third Street, 2nd Floor, MS 2-202 West Sacramento, CA 95605

- B. Should the contact information for either party change, the party will provide written notice with updated information no later than ten business days after the change.

11. Termination of Agreement

The State may terminate this Participating Addendum at any time upon 30 days prior written notice to the Contractor. Upon termination or other expiration of this Participating Addendum, each party will assist the other party in orderly termination of the Participating Addendum and the transfer of all assets, tangible and intangible, as may facilitate the orderly, nondisrupted business continuation of each party. This provision shall not relieve the Contractor of the obligation to perform under any purchase order or other similar ordering document executed prior to the termination becoming effective.

12. Agreement

- A. This Participating Addendum and the Master Agreement together with its exhibits and/or amendments, set forth the entire agreement between the parties with respect to the subject matter of all previous communications, representations or agreements, whether oral or written, with respect to the subject matter hereof. Terms and conditions inconsistent with, contrary or in addition to the terms and conditions of this Participating Addendum and the Master Agreement, together with its exhibits and/or amendments, shall not be added to or incorporated into this Participating Addendum or the Master Agreement and its exhibits and/or amendments, by any subsequent purchase order or otherwise, and any such attempts to add or incorporate such terms and conditions are hereby rejected. The terms and conditions of this Participating Addendum and the Master Agreement and its exhibits and/or amendments shall prevail and govern in the case of any such inconsistent or additional terms.
- B. By signing below Contractor agrees to offer the same products/and or services as on the Master Agreement, at prices equal to or lower than the prices on that contract.
- C. IN WITNESS WHEREOF, the parties have executed this Participating Addendum as of the date of execution by both parties below.

COUNCIL COMMUNICATION

CC #: 0863
File #: 0203-06

Title: Technology Equipment - Purchase Order Renewal
Contact: Sage Armstrong 916-774-5679 sarmstrong@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.6.

RECOMMENDATION TO COUNCIL

Staff recommends City Council authorize the renewal of an open purchase order with CDW Government, LLC (CDW-G) for Roseville Electric's (RE) purchases of general technology equipment and supporting software on an as-needed basis. This open purchase order with CDW-G uses the following competitively bid cooperative contract: National Intergovernmental Purchasing Alliance (National IPA) contract number 2018011-01, which is valid until February 4, 2023.

Staff requests Council adopt a resolution authorizing staff to continue utilizing this contract without further Council approvals, pending approval of the budget each fiscal year, until the contract expires or until City staff determines that continuing with the same vendor is not in the City's best interest.

BACKGROUND

RE supports and maintains industrial control systems which provide critical information on the output, status, and conditions of distribution and generation operational environments. These control systems utilize proprietary and general technology equipment including network routers and switches, desktop computers, servers, and accessories. In order to take advantage of competitive pricing for general technology equipment and related software, RE is utilizing open purchase orders and piggybacking on the following cooperative contract with CDW-G: National Intergovernmental Purchasing Alliance (National IPA) contract number 2018011-01.

In addition, the CDW-G purchase order was initially authorized by Council on a combined basis with Dell Marketing on November 16, 2018. RE is seeking to renew this purchase order on an individual basis due to two different renewal dates between Dell Marketing, LP and CDW-G.

FISCAL IMPACT

The total cost of the hardware and software purchases will not exceed \$180,000. Funding is included in the Electric Operations Fund FY2020-21 budget. Total estimated costs for future

years are \$100,000 for FY2021-22 and \$100,000 for FY2022-23. Future renewals will be contingent upon approval of the budget each year until the contract expires or until City staff determines that continuing with the same vendor is not in the City's best interest.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378.

A purchase order renewal meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Sage Armstrong, Electric Technology System Administrator

Michelle Bertolino, Electric Utility Director

Dominick Casey, City Manager

Description

Resolution No. 20-272

2018011 CDW-G Agreement

RESOLUTION NO. 20-272

APPROVING A PURCHASE ORDER RENEWAL FOR TECHNOLOGY EQUIPMENT

WHEREAS, a purchase order for technology equipment, between the City of Roseville and CDW Government, LLC, has been reviewed by the Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said purchase order renewal is hereby approved and the City Manager or his designee is additionally authorized to execute two (2) optional one (1) year renewals of the purchase order, provided that the applicable budget is approved by the City Council, or until City staff determines that continuing with the same vendor is not in the City's best interest.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2020, by the following vote on roll call:

Mayor's Welcome.

Invocation by Pastor Ben Diaz with Palabra de Vida (Word of Life).

Pledge of Allegiance was led by Councilmember Thompson.

Awards, Recognitions and Announcements.

There were no awards, recognitions or announcements.

1. Take action on all consent agenda items.

All items listed with an asterisk (*) will be considered as a group by the City Council and will be enacted with one motion. There will be no separate discussion of these items unless a Councilmember or citizen requests, in which event the item will be removed from the consent agenda and considered as a separate item. If a citizen wants an item removed from the consent agenda, a blue card must be completed and given to the City Clerk prior to the Council's vote on the consent agenda.

It was moved by Councilmember Thompson, seconded by Councilmember Glover, that the consent agenda items be approved.

Carried unanimously.

*2. Approval of minutes from previous meetings as written.

Minutes from the January 8, 11, and 22, 2018 Council meetings.

3. Take action on the following liquor license applications:

*3-a. It Ain't Chemo

This is a one-day event to be held on Saturday, February 10, 2018 from 9:00 A.M. to 9:00 P.M. at Riverview Park, 2100 West Rio Salado Parkway. **(District 1)**

*3-b. AMC Superstition East 12

A multi-screen cinema is requesting a new Series 6 Bar License for American Multi-Cinema Inc., 1935 South Signal Butte Road - Andrea Dahlman Lewkowitz, agent. There is no existing license at this location. **(District 6)**

*3-c. ATL Wings

A restaurant that serves lunch and dinner is requesting a new Series 12 Restaurant License for Stapley Wings LLC, 1455 South Stapley Drive, Suites 22-24 - Andrea Dahlman Lewkowitz, agent. The existing license held by Mark Killian, sole proprietor, will revert to the State. **(District 4)**

*3-d. Elgin Distillery

This is a one-day craft distillery festival to be held on Saturday, March 3, 2018 from 9:00 A.M. to 4:00 P.M. at Sunland Village, 4601 East Dolphin Avenue. **(District 2)**

*3-e. Village of Elgin Winery

This is a one-day wine festival event to be held on Saturday, March 3, 2018 from 9:00 A.M. to 4:00 P.M. at Sunland Village, 4601 East Dolphin Avenue. **(District 2)**

4. Take action on the following off-track betting license application:

*4-a. Turf Paradise, TP Racing LLLP

New Off-Track Betting License for Turf Paradise, TP Racing LLLP to telecast at Moose & Bear, located at 118 East McKellips Road, Suite 103, TB Concepts LLC. Applicant: Vincent Acri Francia. **(District 1)**

5. Take action on the following contracts:

*5-a. One-Year Renewal to the Term Contract for Executive Physicals for Citywide Departments as requested by the Human Resources Department. **(Citywide)**

This contract provides annual physicals for the City's executive staff as a means of maintaining optimum health. There are approximately 65-70 positions eligible to participate in this program.

The Human Resources Department and Purchasing recommend authorizing the renewal contract with Banner Occupational Health Clinics, at \$88,500, based on estimated usage.

- *5-b. One-Year Renewal to the Term Contract for Deceased Animal Collection Services for the Community Services Department. **(Citywide)**

This contract provides a vendor to collect and dispose of deceased animals up to 150 pounds that are reported within the City. The contractor is responsible for the proper disposal by cremation or other means in accordance with the standards and methods approved by the Maricopa County Health Department.

The Community Services Department and Purchasing recommend authorizing the renewal contract with APM/Couts Enterprises, Inc., dba Arizona Pet Mortuary, at \$54,000, based on estimated usage.

- *5-c. Purchase of One Replacement Fire Apparatus, an Air Light/Rehab Unit, for the Fire and Medical Department (Sole Source). **(Citywide)**

The apparatus being replaced has met established replacement criteria and will be sold by a sealed bid process or traded-in as part of the City's fire apparatus purchase agreement with Pierce Manufacturing. In addition, Fire and Medical will trade-in two units to further offset the price for the Air/Light Rehab unit.

The Fire and Medical Department and Purchasing recommend authorizing the purchase using the City's five-year purchase agreement with Pierce Manufacturing Inc., through their designated local dealer, Hughes Fire Equipment Inc., at \$502,264.75. This purchase is funded by the Capital-General Fund and authorized 2013 Public Safety Bonds.

- *5-d. Three-Year Term Contract for Landscape Maintenance Services for Parks, Retention Basins and Sports Fields - Zones 1, 2, 3 and 4 for the Parks, Recreation and Community Facilities Department (PRCF). **(Citywide)**

These contracts provide landscape maintenance services for sports fields, parkways, medians, parks, retention basins or grounds adjacent to City facilities. The City has divided the landscaping into geographic areas known as Zones 1, 2, 3 and 4. PRCF has done an analysis to bring the work under this contract in-house and, at this time, contracting continues to be in the best financial interest of the City.

The evaluation committee recommends awarding the contract to the highest-scored proposal from Mariposa Landscape Arizona, Inc.; Zone 1, at \$1,435,319.57 annually; Zone 2, at \$959,183.45 annually; Zone 3, at \$974,364.20 annually; and Zone 4, at \$1,221,738.22 annually; based on estimated usage.

- *5-e. Three-Year Term Contract for Plumbing Services for the Parks, Recreation and Community Facilities Department. **(Citywide)**

This contract will establish a list of pre-qualified plumbing contractors to perform plumbing services on various City facilities/projects on an as-needed basis.

The evaluation committee recommends awarding the contract to the four, highest-scored proposals from Mesa Energy Systems Inc.; RKS Plumbing and Mechanical Inc.; Sun Mechanical Inc.; and W.D. Manor Mechanical Contractors, Inc.; cumulatively not to exceed \$100,000 annually, based on estimated usage.

- *5-f. Purchase of Furniture for the Main Library as requested by the Library Services Department. **(Citywide)**

This purchase will provide seating and tables for two new rooms at the Main Library, Teen Room and ThinkSpot. The Library worked with several vendors utilizing cooperative contracts specifying their needs and goals with this project.

The Library Services Department and Purchasing recommend authorizing the purchase using the Northern Arizona University cooperative contract with Atmosphere Commercial Interiors, at \$50,876.25.

- *5-g. Five-Year Term Contract with CDW Government, LLC and SHI International Corp. for Information Technology Solutions and Services for Various Departments throughout the City. **(Citywide)**

This contract will provide the City and participating agencies a full range of information technology solution products and services to meet varying requirements of governmental agencies. The scope of products and services available under these contracts include standard business and high-end workstations; laptop and notebook computers; network equipment; computer and network products and peripherals; monitors; various cloud, consulting, and technical support services; financing; various software products; and the contractors' comprehensive product offering.

Mesa, as the lead agency, has partnered with the National Intergovernmental Purchasing Alliance Company (National IPA) to lead this contract. The contract will be available to over 45,000 public agencies nationally. While no minimum volume is guaranteed to the suppliers, the estimated annual volume of IT Solutions purchased under this master agreement is approximately \$500 million per year. The City will receive rebates annually for administering and awarding this contract.

A committee representing the Police, and Information Technology Departments, City Manager's Office, Police-Information Technology, National IPA and Purchasing evaluated responses. The evaluation committee recommends awarding the contract to the highest-scored proposals from CDW Government, LLC and SHI International Corp., at \$3,100,000 annually, based on estimated usage.

- *5-h. One-Year Term Contract for Electrical and Lighting Supplies for the Materials and Supply Warehouse (for Citywide Departments). **(Citywide)**

Multiple departments use this Citywide contract for their miscellaneous electrical equipment and supplies.

The Business Services Department and Purchasing recommend authorizing the purchase using the State of Arizona cooperative contract with Border States Industries, Inc., at \$100,000, based on estimated usage.

- *5-i. Re-Award the Three-Year Term Contract for Microfilm Conversion Services for the Police Department. **(Citywide)**

This contract will provide services to convert Police Department data from microfilm to digital media. Police, Records Division use microfilm that is becoming worn and damaged. The previous vendor is unable to satisfactorily fulfill the contract requirements.

The Police Department and Purchasing recommend re-awarding the contract to the second highest scored proposal, ICM Conversions, at \$400,000 annually, based on estimated usage.

- *5-j. Purchase of Falcon District Brand Signage as requested by the Economic Development Department. **(Citywide)**

Continuing to build awareness and to promote the Falcon Field Economic Activity Area, this purchase for the Falcon District signage includes the installation of two branded monument signs to be located on Greenfield and Higley Roads, south of the 202. Additionally, the City will install utility and transit signal box wraps and will mount branded banners promoting aerospace, technology, and manufacturing on light poles around the airport.

The Economic Development Department and Purchasing recommend authorizing the purchase using the City of Peoria cooperative contract with YESCO Phoenix, at \$146,670.49. This purchase is funded by Local Streets Sales Tax.

- *5-k. Purchase of Three Replacement Rollback Trailers for the Transportation Department. **(Citywide)**

These trailers will replace three aging equipment trailers that are at the end of their service life. The trailers will meet the needs and safety requirements for transporting the large equipment required to perform street and right-of-way maintenance.

The Transportation Department and Purchasing recommend authorizing the purchase using the National Joint Powers Alliance contract with Empire Southwest (a Mesa business), at \$176,764.77. This purchase is funded by Local Streets Sales Tax.

- *5-l. One-Year Renewal to the Term Contract for Radio-Based Endpoint Encoders (for Water Meter Reading) for the Water Resources Department. **(Citywide)**

This contract provides Itron radio-based endpoint encoders and accessories purchased directly from Itron, Inc., the manufacturer. The endpoint stores 40 days of hourly reads to ensure data integrity and offers advanced customer side leak detection and reverse flow and tamper alarms. Water Utility installs approximately 540 radio-based endpoint encoders on new and existing meters annually.

The Water Resources Department and Purchasing recommend authorizing the renewal with Itron, Inc., at \$100,000, based on estimated usage.

- *5-m. Purchase of Water Treatment Plant Shop Tools and Equipment for the New Signal Butte Water Treatment Plant as requested by the Water Resources Department. **(Citywide)**

This purchase is for tools and equipment needed for the start-up and maintenance in the various shops at the new Signal Butte Water Treatment Plant.

The Water Resources Department and Purchasing recommend awarding the contract to the lowest, responsive and responsible bidders: Copper State Bolt & Nut Co. (a Mesa business); Glendale Industrial Supply, LLC, dba UNICOA Construction and Industrial Supply; Mallory Safety & Supply LLC; and W.W. Grainger, Inc.; cumulatively not to exceed \$153,000, based on estimated usage.

- *5-n. One-Year Renewal to the Term Contract for Fire Hydrant Water Meters for the Water Resources Department. **(Citywide)**

This contract provides 3" fire hydrant water meters to accurately measure construction water use of fire hydrants. The meters are installed by Water Utility staff to serve contractors and other customers needing to connect to City fire hydrants for temporary construction water service and dust control purposes.

The Water Resources Department and Purchasing recommend authorizing the renewal with Badger Meter Inc., dba National Meter Automation, at \$35,000, based on estimated usage.

- *5-o. Greenfield Water Reclamation Plant (GWRP), Phase III Expansion Guaranteed Maximum Price (GMP) No. 2. **(Citywide)**

The City of Mesa, Town of Gilbert, and Town of Queen Creek seek to provide an additional 14 million gallons per day annual average day flow of liquids and solids treatment capacity at the existing GWRP, complete with the required infrastructure, technology, and environmental features to ensure a reliable, efficient, and expanded plant to meet the current and future demands.

Staff recommends awarding the contract for the completion of this project to McCarthy Building Companies in the amount of \$120,302,333 and authorize a change order allowance \$6,015,117 (5%) for a total project amount of \$126,317,450. This project is funded by the Greenfield Water Reclamation Plant Joint Venture Fund, with contributions coming from its members based on usage. Mesa's portion of this GMP is \$72,229,521 and is funded by 2014 authorized Wastewater Bonds.

- *5-p. Sewer Pipe and Manhole Rehabilitation: Mesa Drive, Millet Avenue, Horne, and 6th Avenue. **(District 4)**

The existing sanitary sewer lines covered by this project were built during the 1950's and 1960's. The age of these pipes greatly increases their risk of failure and emergency repairs. This method of construction can be completed while leaving the pipe in place and without excavation. Similarly, the sewer manholes will be cleaned, repaired, and coated in place. Only the concrete adjustment rings will be removed and replaced.

Staff recommends awarding the contract for this project to the lowest, responsible bidder, B and F Contracting, Inc, in the amount of \$1,394,294.67, and authorize a change order allowance in the amount of \$139,430 (10%), for a total amount of \$1,533,724.67. Funding for this project is available from the 2014 Wastewater Bond Program.

- *5-q. Sidewalks at Railroad Crossing on Alma School. **(Districts 3 and 4)**

To continue to meet current railroad approach and clearance standards at the Alma School Road railroad crossing, additional safety improvements will need to be made. The project improvements for roadway and sidewalk approach at this location will facilitate greater public safety and needed clearances from railroad signals along with a smoother roadway crossing of the Union Pacific Railroad track. Mesa will participate in the federally-funded Railway-Highway Grade Crossing Program, and will be responsible

for adjusting the existing concrete sidewalks around the proposed cantilevers and gates, and installing concrete medians.

This project was previously awarded by Council on July 10, 2017, however, the previously selected contractor could not comply with the federal requirements and the project was released for bid a second time.

Staff recommends awarding the contract to the lowest, responsible bidder, AJP Electric, in the amount of \$149,494, plus an additional \$14,949 (10%) as a change order allowance, for a total amount of \$164,443. Funding is available from the Local Streets Sales Tax, of which 94.3% will be reimbursed by Arizona Department of Transportation (Federal) Grant under the Railway-Highway Grade Crossing.

6. Take action on the following resolutions:

- *6-a. Approving and authorizing the City Manager to submit the Second Substantial Amendment to the Fiscal Year 2017/2018 Annual Action Plan to the U.S. Department of Housing and Urban Development related to the allocation of funding obtained under the Community Development Block Grant (CDBG) program. This Amendment will allow for reallocation of \$600,000 in CDBG funds from the Senior Center Renovation Project (247 North Macdonald) to the Eagles Park Project (828 East Broadway Road). **(District 4)** – Resolution No. 11088.
- *6-b. Approving and authorizing the City Manager to enter into a Grant Agreement with the Arizona Department of Public Safety to accept \$1,335,284 in Victims of Crime Act (VOCA) grant funds. The finding will be used for salaries and expenses for the Mesa Prosecutors Office, Victim Services Unit for a three-year period. **(Citywide)** – Resolution No. 11089.
- *6-c. Approving and authorizing the City Manager to enter into a Lease Agreement with New Cingular Wireless PCS for a cellular site on a portion of 5950 East Virginia Street, also known as Mesa Fire Station 214. **(District 5)** – Resolution No. 11090.
- *6-d. Approving and authorizing the City Manager to enter into a Development Agreement for City-Share Reimbursement with PPGN-Ray, LLLP, for the reimbursement of \$100,568 for regional street and street lighting improvements that are being required by the City in conjunction with a proposed residential development known as Crismon Road at PPGN, located at 5461 South Ellsworth Road. **(District 6)** – Resolution No. 11091.
- *6-e. Approving and authorizing the City Manager to enter into an Intergovernmental Agreement with the Maricopa County, Department of Transportation for the pavement rehabilitation of Adobe Road from Higley Road to Recker Road. The City will contribute an estimated \$54,417 for the portion of the project that is within City boundaries that will be funded from the 2013 Streets Bond Program. **(District 5)** – Resolution No. 11092.
- *6-f. Approving and authorizing the City Manager to enter into First Amendments to the Development Agreement, Ground and Air Lease, and License Agreement with 3W Management, LLC, to facilitate the development of, and job creation and retention at, the City-owned property generally located at the southwest corner of Main Street and South Pomeroy and 34 South Pomeroy, which is the development commonly known as The GRID. **(District 4)** – Resolution No. 11093.

7. Introduction of the following ordinance and setting February 26, 2018 as the date of the public hearing on this ordinance:

- *7-a. **ZON17-00323 (District 5)** The 8800 to 8900 blocks of East Main Street (south side). Located west of Red Mountain Freeway on the south side of Main Street (16.4± acres). Rezoning from RS-43 and GC to GC-PAD; and Site Plan Review. This request will allow for the development of an RV dealership and storage facility. Jeff Welker, Welker Development Resources, applicant; Roger D. Overson, owner.

Staff Recommendation: Approval with conditions

P&Z Board Recommendation: Approval with conditions (Vote: 6-0)

8. Discuss, receive public comment, and take action on the following ordinances:

- *8-a. **ZON17-00309 (District 2)** The 5200 block of East Inverness Avenue (south side). Located east of Higley Road south of the US60 Freeway (1.9 ± acres). Rezoning from RM-3-PAD to LC; and Site Plan Review. This request will allow for the development of a commercial building. John Schoenauer, HD Management, applicant; Sevilla, LLC, owner. – Ordinance No. 5419.

Staff Recommendation: Approval with conditions

P&Z Board Recommendation: Approval with conditions (Vote: 7-0)

- *8-b. **ZON17-00283 (District 6)** The 7100 to 7300 blocks of East Ray Road (north side). Located east of Power Road on the north side of Ray Road (56.0± acres). Rezone from LI-AF to LI-AF-PAD. This request will allow for the development of an industrial subdivision. Omar Cervantes, XCL Engineering, LLC, applicant; Phx-Mesa Gateway Airport 193, LLC, owner. – Ordinance No. 5420.

Staff Recommendation: Approval with conditions

P&Z Board Recommendation: Approval with conditions (Vote: 7-0)

- *8-c. **ZON17-00432 (District 3)** The 800 and 900 blocks of West Southern Avenue (south side), the 1200 and 1300 blocks of South Extension Road (west side), and the 800 and 900 blocks of West Grove Avenue (north side). Located at the southwest corner of Southern Avenue and Extension Road (19.3 ± acres). PAD Amendment; Site Plan Modification. This request will allow the development of a new multiple-residence building in an existing multiple-residence complex. Reese Anderson, Pew and Lake, PLC, applicant; Edward B. Frankel, Trustee of the Frankel Family Trust, owner. – Ordinance No. 5421.

Staff Recommendation: Approval with conditions

P&Z Board Recommendation: Approval with conditions (Vote: 7-0)

9. Take action on the following subdivision plat:

- *9-a. "Allred Ranch" **(District 2)** The 2900 to 3100 blocks of East Southern Avenue (north side), and the 900 to 1200 blocks of South Los Alamos (west side). Located east of

Lindsay Road on the north side of Southern Avenue. 108 RSL-4.5 PAD lots (25± acres).
KB Home Phoenix, Inc., developer; Dan Auxier, EPS Group, engineer.

Items not on the Consent Agenda

10. Items from citizens present.

There were no items from citizens present.

11. Adjournment.

Without objection, the Regular Council Meeting adjourned at 5:57 p.m.

ATTEST:

DEE ANN MICKELSEN, CITY CLERK

JOHN GILES, MAYOR

I hereby certify that the foregoing minutes are a true and correct copy of the minutes of the Regular Council Meeting of the City Council of Mesa, Arizona, held on the 5th day of February, 2018. I further certify that the meeting was duly called and held and that a quorum was present.

DEE ANN MICKELSEN, CITY CLERK

CITY OF MESA AGREEMENT PURSUANT TO SOLICITATION

This Agreement pursuant to solicitation ("Agreement") is entered into this 28th day of February, 2018, by and between the City of Mesa, Arizona, an Arizona municipal corporation ("City"), and **CDW GOVERNMENT LLC**, an Illinois limited liability company ("Contractor"). The City and Contractor are each a "Party" to the Agreement or together are "Parties" to the Agreement.

RECITALS

- A. The City issued solicitation number **2018011** ("Solicitation") for **INFORMATION TECHNOLOGY SOLUTIONS & SERVICES**, to which Contractor provided a response ("Response"); and
- B. The City Selected Contractor's Response as being in the best interest of the City and wishes to engage Contractor in providing the services/materials described in the Solicitation and Response.

In consideration of the reciprocal promises contained in the Agreement, and for other valuable and good consideration, which the Parties acknowledge the receipt and sufficiency of, the Parties agree to the following Terms & Conditions.

TERMS & CONDITIONS

- 1. **Term.** This Agreement is for a term beginning on **March 1, 2018** and ending on **February 28, 2023**. The use of the word "Term" in the Agreement includes the aforementioned period as well as any applicable extensions or renewals in accordance with this Section 1.
 - 1.1 **Renewals.** On the mutual written agreement of the Parties, the Term may be renewed up to a maximum of **two (2), one (1) year** periods. Any renewal(s) will be a continuation of the same terms and conditions as in effect immediately prior to the expiration of the then-current term.
 - 1.2 **Extension for Procurement Processes.** Upon the expiration of the Term of this Agreement, including any renewals permitted herein, at the City's sole discretion this Agreement may be extended on a month-to-month basis for a maximum of six (6) months to allow for the City's procurement processes in the selection of a Contractor to provide the services/materials provided under this Agreement. The City will notify the Contractor in writing of its intent to extend the Agreement at least thirty (30) calendar days prior to the expiration of the Term. Any extension under this Subsection 1.2 will be a continuation of the same terms and conditions as in effect immediately prior to the expiration of the then-current term.
 - 1.3 **Delivery.** Delivery shall be made to the location(s) contained in the Scope of Work within thirty (30) days after receipt of an order. Title to Products and risk of loss or damage during shipment pass from Contractor to City upon delivery to the destination specified on the applicable purchase order (F.O.B. Destination, freight prepaid and allowed). Contractor agrees to deliver all products to be delivered F.O.B. destination, freight pre-paid and allowed to various locations throughout the City. In many cases within the City, the Contractor may be asked to deliver all products to the front counter within a given department. For special orders, the Parties agree to negotiate in good faith an alternative delivery date when necessary. Notwithstanding the foregoing, title to software will remain with the applicable licensor(s), and the City's rights therein are contained in the license agreement between such licensor(s) and the City.
- 2. **Scope of Work.** The Contractor will provide the necessary staff, services and associated resources to provide the City with the services, materials, and obligations attached to this Agreement as **Exhibit A** ("Scope of Work") Contractor will be responsible for all costs and expenses incurred by Contractor that are incident to the performance of the Scope of Work unless otherwise

stated in **Exhibit A**. Contractor will supply all equipment and instrumentalities necessary to perform the Scope of Work. If set forth in **Exhibit A**, the City will provide Contractor's personnel with adequate workspace and such other related facilities as may be required by Contractor to carry out the Scope of Work.

The Agreement is based on the Solicitation and Response which are hereby incorporated by reference into the Agreement as if written out and included herein. In addition to the requirements specifically set forth in the Scope of Work, the Parties acknowledge and agree that the Parties shall perform in accordance with all terms, conditions, specifications and other requirements set forth within the Solicitation and Response unless modified herein.

3. **Orders.** Orders must be placed with the Contractor by either a: (i) Purchase Order when for a one-time purchase; (ii) procurement card; (iii) Delivery Order or Blanket Purchase Order for a requirements contract where multiple as-needed orders will be placed with the Contractor; (iv) Executed Statement of Work (SOW); or (v) Executed Cloud Service Order (CSO) Form. The City may use the Internet to communicate with Contractor and to place orders as permitted under this Agreement. Unless explicitly stated in a separate writing executed by the Parties, the terms and conditions on any order form, quote, or similar document provided by Contractor to the City will not take precedence over the language set forth in this Agreement or any of the documents outlined in Section 4 below.
4. **Document Order of Precedence.** In the event of any inconsistency between the terms of the body of the Agreement, Exhibits, Solicitation, and Response, the language of the documents will control in the following order.
 - a. Amendments to the Agreement
 - b. Agreement
 - c. Exhibits
 1. Mesa Standard Terms & Conditions (Exhibit C)
 2. Pricing (Exhibit B)
 3. Scope of Work (Exhibit A)
 4. Other Exhibits not listed above
 - d. Solicitation including any addenda
 - e. Contractor's Response
5. **Payment.** Subject to the provisions of the Agreement, the City will pay Contractor the sum(s) described in **Exhibit B** ("Pricing") in consideration of Contractor's performance of the Scope of Work during the Term.
6. **Pricing.** Contractor's pricing shall be in the format of a minimum percentage discount off a verifiable price index. Contractor may submit discounts for various manufacturers. At the time of purchase, Contractor may offer deeper discounts beyond the discounted price list, based on volume or other factors, as applicable. Minimum discounts will remain firm during the entirety of the Term of the Agreement, unless the Contractor requests to increase its discount percentage, and Pricing will include all charges that may be incurred in fulfilling requirement(s). In addition to decreasing prices for the balance of the Term due to a change in market conditions, a Contractor may conduct sales promotions involving price reductions for a specified lesser period. In the event a product is discontinued, Contractor will provide a product of the same or greater functionality, utilizing the discount structure.

It is the Contractor's responsibility to provide the City with an up-to-date price list for the duration of the Agreement.
- 6.1 **Prices.** All pricing discounts shall be firm for the Term and all extensions or renewals of the Term except where otherwise provided in this Agreement, and will include all costs of the Contractor providing the materials/service including transportation, insurance and

warranty costs. No fuel surcharges will be accepted unless allowed in this Agreement. The City shall not be invoiced at prices higher than those stated in the Agreement.

No price modifications will be accepted without proper request by the Contractor and response by the City's Purchasing Division.

- 6.2 **Price Adjustment.** Any requests for reasonable price adjustments must be submitted in accordance with this Section. Requests for adjustment in cost of labor and/or materials must be supported by appropriate documentation. There is no guarantee the City will accept a price adjustment; therefore, Contractor should be prepared for the Pricing to be firm over the Term of the Agreement. The City is only willing to entertain price adjustments based on an increase to Contractor's actual expenses or other reasonable adjustment in providing the services/materials under the Agreement. If the City agrees to the adjusted price terms, the City shall issue written approval of the change.

During the sixty (60) day period prior to the expiration of the then-current term date of the Agreement, the Contractor may submit a written request to the City to allow an increase to the prices in an amount not to exceed the twelve (12) month change in the ***Consumer Price Index for All Urban Consumers*** (CPI-U), US City Average, All Items, Not Seasonally Adjusted as published by the U.S. Department of Labor, Bureau of Labor Statistics (<http://www.bls.gov/cpi/home.htm>). The City shall review the request for adjustment and respond in writing; such response and approval shall not be unreasonably withheld.

- 6.3 **Renewal and Extension Pricing.** Any extension of the Agreement will be at the same pricing as the initial term. If the Agreement is renewed in accordance with Section 1, pricing may be adjusted for amounts other than inflation that represent actual costs to the Contractor based on the mutual agreement of the Parties. Contractor may submit a request for a price adjustment along with appropriate supporting documentation demonstrating the cost to the Contractor. Renewal prices shall be firm for the term of the renewal period and may be adjusted thereafter as outlined in the Subsection 6.2. There is no guarantee the City will accept a price adjustment.

- 6.4 **Invoices.** Payment will be made to Contractor following the City's receipt of a properly completed invoice. Any issues regarding billing or invoicing must be directed to the City Department/Division requesting the service or material from the Contractor. A properly completed invoice should contain, at a minimum, all of the following:

- a. Contractor name, address, and contact information;
- b. City billing information;
- c. City contract number as listed on the first page of the Agreement;
- d. Invoice number and date;
- e. Payment terms;
- f. Date of service or delivery;
- g. Description of materials or services provided;
- h. If materials provided, the quantity delivered and pricing of each unit;
- i. Applicable taxes; and
- j. Total amount due.

- 6.5 **Payment of Funds.** Contractor acknowledges the City may, at its option and where available use a Procurement Card/e-Payables to make payment for orders under the Agreement; otherwise, payment will be through a traditional method of a check or Electronic Funds Transfer (EFT) as available.

- 6.6 **Disallowed Costs, Overpayment.** If at any time the City determines that a cost for which payment was made to Contractor is a disallowed cost, such as an overpayment or a charge for materials/service not in accordance with the Agreement, the City will notify Contractor in writing of the disallowance; such notice will state the means of correction which may be, but is not limited to, adjustment of any future claim/invoice submitted by Contractor in the amount of the disallowance or to require repayment of the disallowed amount by Contractor. Contractor will be provided with the opportunity to respond to the notice.

7. **Insurance.**

- 7.1 Contractor must obtain and maintain at its expense throughout the Term of the Agreement, at a minimum, the types and amounts of insurance set forth in this Section 7 from insurance companies authorized to do business in the State of Arizona; the insurance must cover the materials/service to be provided by Contractor under the Agreement. For any insurance required under the Agreement, Contractor will name the City of Mesa, its agents, representatives, officials, volunteers, officers, elected officials, and employees as additional insured, as evidenced by providing either an additional insured endorsement or proper insurance policy excerpts.
- 7.2 Nothing in this Section 7 limits Contractor's responsibility to the City. The insurance requirements herein are minimum requirements for the Agreement and in no way limit any indemnity promise(s) contained in the Agreement.
- 7.3 The City does not warrant the minimum limits contained herein are sufficient to protect Contractor and subcontractor(s) from liabilities that might arise out of performance under the Agreement by Contractor, its agents, representatives, employees, or subcontractor(s). Contractor is encouraged to purchase additional insurance as Contractor determines may be necessary.
- 7.4 Each insurance policy required under the Agreement must be in effect at or prior to the execution of the Agreement and remain in effect for the Term of the Agreement.
- 7.5 Prior to the execution of the Agreement, Contractor will provide the City with a Certificate of Insurance (using an appropriate "ACORD" or equivalent certificate) signed by the issuer with applicable endorsements. The City reserves the right to request additional copies of any or all of the policies, endorsements, or notices relating thereto required under the Agreement.
- 7.6 When the City requires a Certificate of Insurance to be furnished, Contractor's insurance is primary of all other sources available. When the City is a certificate holder and/or an additional insured, Contractor agrees no policy will expire, be canceled, or be materially changed to affect the coverage available without advance written notice to the City.
- 7.7 The policies required by the Agreement must contain a waiver of transfer rights of recovery (waiver of subrogation) against the City, its agents, representatives, officials, volunteers, officers, elected officials, and employees for any claims arising out of the work of Contractor.
- 7.8 All insurance certificates and applicable endorsements are subject to review and approval by the City's Risk Management Division.
- 7.9 **Types and Amounts of Insurance.** Contractor must obtain and retain throughout the term of the Agreement, at a minimum, the following:
- 7.9.1 Worker's compensation insurance in accordance with the provisions of Arizona law. If Contractor operates with no employees, Contractor must provide the City

with written proof Contractor has no employees. If employees are hired during the course of this Agreement, Contractor must procure worker's compensations in accordance with Arizona law.

7.9.2 The Contractor shall maintain at all times during the term of this contract, a minimum amount of \$1 million per occurrence/\$2 million aggregate Commercial General Liability insurance, including Contractual Liability. For Commercial General Liability insurance, the City of Mesa, their agents, officials, volunteers, officers, elected officials or employees shall be named as additional insured, as evidenced by providing an additional insured endorsement.

7.9.3 Automobile liability, bodily injury and property damage with a limit of \$1 million per occurrence including owned, hired and non-owned autos.

8. **Requirements Contract.** Contractor acknowledges and agrees the Agreement is a requirements contract; the Agreement does not guarantee any purchases will be made (minimum or maximum). Orders will only be placed when the City identifies a need and issues a purchase order or a written notice to proceed. The City reserves the right to cancel purchase orders or a notice to proceed within three (3) business days of issuance; any such cancellation will be in writing. Should a purchase order or notice to proceed be canceled, the City agrees to reimburse Contractor for any actual and documented costs incurred by Contractor. The City will not reimburse Contractor for any avoidable costs incurred after receipt of cancellation including, but not limited to, lost profits, shipment of materials, or performance of services. The City reserves the right to purchase contracted items through other sources if determined in the best interests of the City to do so.

9. **Notices.** All notices to be given pursuant to the Agreement will be delivered to the Contractor at the address listed on Page 1 of this Agreement. Notice will be delivered pursuant to the requirements set forth the Mesa Standard Terms and Conditions that are attached to the Agreement as **Exhibit C**.

10. **Representations of Contractor.** To the best of Contractor's knowledge, Contractor agrees that:

- a. Contractor has no obligations, legal or otherwise, inconsistent with the terms of the Agreement or with Contractor's undertaking of the relationship with the City;
- b. Performance of the services called for by the Agreement do not and will not violate any applicable law, rule, regulation, or any proprietary or other right of any third party;
- c. Contractor will not use in the performance of Contractor's responsibilities under the Agreement any proprietary information or trade secret of a former employer of its employees (other than City, if applicable); and
- d. Contractor has not entered into and will not enter into any agreement, whether oral or written, in conflict with the Agreement.

11. **Mesa Standard Terms and Conditions.** **Exhibit C** to the Agreement is the Mesa Standard Terms and Conditions as modified by the Parties, which are incorporated by reference into the Agreement as though fully set forth herein. In the event of any inconsistency between the terms of the Agreement and the Mesa Standard Terms and Conditions, the language of the Agreement will control. The Parties or a Party are referred to as a "party" or "parties" in the Mesa Standard Terms and Conditions. The Term is referred to as the "term" in the Mesa Standard Terms and Conditions.

12. **Counterparts and Facsimile or Electronic Signatures.** This Agreement may be executed in two (2) or more counterparts, each of which will be deemed an original and all of which, taken together, will constitute one agreement. A facsimile or other electronically delivered signature to the

Agreement will be deemed an original and binding upon the Party against whom enforcement is sought.

13. **Incorporation of Recitals and Exhibits.** All Recitals and Exhibits to the Agreement are hereby incorporated by reference into the Agreement as if written out and included herein. In the event of any inconsistency between the terms of the body of the Agreement and the Exhibits, the language of the Agreement will control.

Exhibits to this Agreement are the following:

- (A) Scope of Work / Technical Specifications
- (B) Pricing
- (C) Mesa Standard Terms and Conditions

14. **Attorneys' Fees.** The prevailing Party in any litigation arising out of the Agreement will be entitled to the recovery of its reasonable attorney's fees, court costs, and other litigation related costs and fees from the other Party.
15. **Additional Acts.** The Parties agree to execute promptly such other documents and to perform such other acts as may be reasonably necessary to carry out the purpose and intent of the Agreement.
16. **Headings.** The headings of the Agreement are for reference only and will not limit or define the meaning of any provision of the Agreement.

By executing below, each Party acknowledges that it understands, approves, and accepts all of the terms of the Agreement and the attached exhibits.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first above written.

EXHIBIT A

SCOPE OF WORK

1. **MINIMUM REQUIREMENTS.** Contractor must meet the following minimum qualifications:
 - a. A full range of information technology solution products and services to meet varying requirements of governmental agencies.
 - b. Have a strong national presence as a computer solutions provider.
 - c. Have a distribution model capable of delivering products, free of charge, in a timely manner on a nationwide basis.
 - d. Have a demonstrated sales presence.
 - e. Ability to provide a toll-free telephone and state of the art electronic facsimile and internet ordering and billing capabilities.
 - f. Be able to meet the minimum requirements of the cooperative purchasing program detailed herein.

2. **ORDERING.** Although the City is open to alternate ordering methods, the primary methods for customers placing orders with the Contractor is through the following:
 - a. Online
 - b. Telephone
 - c. Fax
 - d. Email

3. **SCOPE OF PRODUCTS.** Contractor will provide the ability to purchase a comprehensive, wide variety of Information Technology Solution Products including, but not limited to, the following categories:
 - a. Personal Computer Systems: National brand name desktop PCs, notebooks and laptops from Enterprise Tier and Middle Tier Contractors that are business related computers, manufactured by companies, such as, Apple, COMPAQ, Dell, Gateway, Hewlett Packard, IBM / Lenovo and Toshiba.
 - b. Standard Business Workstation: These will be used for typical tasks, which will include word processing, spreadsheet analysis, database management, business graphics, statistical analysis, internet, and other office automation activities. Product will include the operating system license, software media and documentation in the hardware shipment.
 - c. High End Workstation: These will be used by application developers using GIS, CASE or other high-level language development tools, Computer Aided Design and Drafting professional, Internet Application developers or other sophisticated application work. Product will include the operating system license, software media and documentation in the hardware shipment.
 - d. Laptop Computer or Notebook: These will be used by traveling or remote access users for typical office automation and business productivity use. With a port replicator or docking station, it may also be used as a standard desktop. Product will include the operating system license, software media and documentation in the hardware shipment.
 - e. Network Equipment: This includes equipment primarily used for communications over an IP network. This includes layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces (i.e. serial, T1, T3, OC3) and fiber channel. Class of equipment should include home office, small and medium business, and enterprise. Contractors may include, but not limited to, Cisco Systems, Dell, Juniper Networks, HP, Extreme Networks, Enterasys Networks, D-Link, Netgear, and Brocade Communications Systems.

EXHIBIT A

SCOPE OF WORK

- f. Monitors: These will include plug and play compatible monitors that are manufactured for the above systems and/or any other brand that may be specifically called for by the ordering entity and which meet the most current UL and OSHA requirements.
 - g. Computer and Network Products and Peripherals: Complete availability of major manufacturers Product lines on items such as, but not limited to RAM, graphic accelerator cards, network interface cards, cables, printers, scanners, keyboards, drives, memory cards, cables, batteries, etc.
 - h. Services:
 - i. Services means such as, consulting, technical support, trade-ins, repair, design, analysis, configuration, implementation, installation, training, and maintenance, etc. In addition, services which are related to the design, use or operation of the Products being purchased such as system configurations, testing, hardware/software installation, upgrades, imaging, etc. as described generally in this Agreement and as more particularly described in a Statement of Work or SOW (meaning a document in electronic or written form that is signed and delivered by each of the Parties for the performance of Services).
 - ii. Cloud Computing means third party cloud computing and storage services, where Contractor acts as a rebiller only and has no control over the delivery of the cloud computing and storage services. City acknowledges that the cloud service provider, and not Contractor, will be responsible for performance of the Cloud Services. Also, before Contractor can sell cloud computing and/or storage services from a third party to the City, City must execute an agreement governing said cloud computing and/or storage services with the third-party cloud services provider.
 - i. Comprehensive Product Offering: Contractor's catalog and Services set forth in Exhibit B shall be available. The City reserves the right to accept or reject any or all items offered.
 - j. Financing: Options available such as lease programs and conditional sales contracts.
4. **LICENSES**. The City may be required to sign a separate agreement, rider or End User Licensing Agreement ("EULA"), or such other terms as required by manufacturers, software publisher, or cloud service provider.
5. **DEFECTIVE PRODUCT**. All defective Products shall be replaced and exchanged by the Contractor. The cost of transportation, re-shipping or other like expenses shall be paid by the Contractor and in the case of certain, special orders, other reasonable charges may be paid by the Contractor as defined in the order or as otherwise agreed to by the Parties. All replacement Products must be received by the City within seven (7) days of initial notification, when such products are in Contractor stock; if replacement Product is not in Contractor's stock, Contractor will use commercially reasonable efforts to order the product within one (1) business day of the initial notification from the City and will ensure product is received within seven (7) days after Contractor's receipt of the product.

CDW•G will work with Manufacturers and the City or Participating Agencies, as applicable, post award to ensure they are aware of and participating in special manufacturer programs.

CDW•G Account Managers will work with the City or Participating Agencies, as applicable, post award to determine if large orders qualify to receive additional discounts. These discounts are dependent on order size, delivery schedule and will be negotiated with Manufacturers.

As Apple's largest Corporate Channel Partner in the U.S., CDW•G has negotiated to offer Apple Products to Eligible Government and Educational Entities at the discount listed above and in the pricing table in this Exhibit B.

CDW•G Professional Services Offering			
Major Metro Service Areas			
Washington, DC New York City Metro Los Angeles San Francisco San Diego Boston Metro Chicago Federal Philadelphia Seattle	Raleigh Houston Tampa Atlanta National Dallas Cincinnati Detroit Minneapolis St. Louis/KC Denver Nashville Portland	Madison Wausau Milwaukee Appleton Grand Rapids Indianapolis Cleveland	
Services apply to both CDW•G executed professional services and services which are sub-contracted through a CDW•G authorized third party provider. Hourly or fixed rates will be negotiated based on the customer, geography, scope of the professional service engagement, and level of engineer required to perform the service. CDW•G will create a Statement of Work (SOW) detailing the exact scoping and pricing of the Services to be provided, which will be executed by CDW•G and the National IPA member prior to the start of Services. Sample SOW is included in our proposal. Expenses (T and E) may be an additional consideration depending on project specifics.

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

1. **INDEPENDENT CONTRACTOR.** It is expressly understood that the relationship of Contractor to the City will be that of an independent contractor. Contractor and all persons employed by Contractor, either directly or indirectly, are Contractor's employees, not City employees. Accordingly, Contractor and Contractor's employees are not entitled to any benefits provided to City employees including, but not limited to, health benefits, enrollment in a retirement system, paid time off or other rights afforded City employees. Contractor employees will not be regarded as City employees or agents for any purpose, including the payment of unemployment or workers' compensation. If any Contractor employees or subcontractors assert a claim for wages or other employment benefits against the City, Contractor will defend, indemnify and hold harmless the City from all such claims.
2. **SUBCONTRACTING.** Contractor may not subcontract work under this Agreement without the express written permission of the City. If Contractor has received authorization to subcontract work, it is agreed that all subcontractors performing work under the Agreement must comply with its provisions. Further, all agreements between Contractor and its subcontractors must provide that the terms and conditions of this Agreement be incorporated therein.
3. **ASSIGNMENT.** This Agreement may not be assigned either in whole or in part without first receiving the City's written consent. Any attempted assignment, either in whole or in part, without such consent will be null and void and in such event the City will have the right at its option to terminate the Agreement. No granting of consent to any assignment will relieve Contractor from any of its obligations and liabilities under the Agreement.
4. **SUCCESSORS AND ASSIGNS, BINDING EFFECT.** This Agreement will be binding upon and inure to the benefit of the parties and their respective permitted successors and assigns.
5. **NO THIRD-PARTY BENEFICIARIES.** This Agreement is intended for the exclusive benefit of the parties. Nothing set forth in this Agreement is intended to create, or will create, any benefits, rights, or responsibilities in any third parties.
6. **NON-EXCLUSIVITY.** The City, in its sole discretion, reserves the right to request the materials or services set forth herein from other sources when deemed necessary and appropriate. No exclusive rights are encompassed through this Agreement.
7. **AMENDMENTS.** There will be no oral changes to this Agreement. This Agreement can only be modified in a writing signed by both parties. No charge for extra work or material will be allowed unless approved in writing, in advance, by the City and Contractor.
8. **TIME OF THE ESSENCE.** Time is of the essence to the performance of the parties' obligations under this Agreement.
9. **COMPLIANCE WITH APPLICABLE LAWS.**
 - a. **General.** Contractor must procure all permits and licenses, and pay all charges and fees necessary and incidental to the lawful conduct of business. Contractor must stay fully informed of existing and future federal, state, and local laws, ordinances, and regulations that in any manner affect the fulfillment of this Agreement and must comply with the same at its own expense. Contractor bears full responsibility for training, safety, and providing necessary equipment for all Contractor personnel to achieve throughout the term of the Agreement. Upon request, Contractor will demonstrate to the City's satisfaction any programs, procedures, and other activities used to ensure compliance.
 - b. **Drug-Free Workplace.** Contractor is hereby advised that the City has adopted a policy establishing a drug-free workplace for itself and those doing business with the City to ensure the safety and health of all persons working on City contracts and projects. Contractor will require a drug-free workplace for all Contractor personnel working under this Agreement. Specifically, all Contractor personnel who are working under this Agreement must be notified in writing by Contractor that they are prohibited from the manufacture, distribution, dispensation, possession, or unlawful use of a controlled substance in the workplace.

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

Contractor agrees to prohibit the use of intoxicating substances by all Contractor personnel, and will ensure that Contractor personnel do not use or possess illegal drugs while in the course of performing their duties.

- c. **Federal and State Immigration Laws.** Contractor agrees to comply with the Immigration Reform and Control Act of 1986 (IRCA) in performance under this Agreement and to permit the City and its agents to inspect applicable personnel records to verify such compliance as permitted by law. Contractor will ensure and keep appropriate records to demonstrate that all Contractor personnel have a legal right to live and work in the United States.
- i. As applicable to Contractor, under the provisions of A.R.S. § 41-4401, Contractor hereby warrants to the City that Contractor and each of its subcontractors will comply with, and are contractually obligated to comply with, all federal immigration laws and regulations that relate to their employees and A.R.S. § 23-214(A) (hereinafter "Contractor Immigration Warranty").
 - ii. A breach of the Contractor Immigration Warranty will constitute as a material breach of this Agreement and will subject Contractor to penalties up to and including termination of this Agreement at the sole discretion of the City.
 - iii. The City retains the legal right to inspect the papers of all Contractor personnel who provide services under this Agreement to ensure that Contractor or its subcontractors are complying with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any such inspections.
 - iv. The City may, at its sole discretion, conduct random verification of the employment records of Contractor and any subcontractor to ensure compliance with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any random verification performed.
 - v. Neither Contractor nor any subcontractor will be deemed to have materially breached the Contractor Immigration Warranty if Contractor or subcontractor establishes that it has complied with the employment verification provisions prescribed by Sections 274A and 274B of the Federal Immigration and Nationality Act and the E-Verify requirements prescribed by A.R.S. § 23-214 (A).
- d. **Nondiscrimination.** Contractor represents and warrants that it does not discriminate against any employee or applicant for employment or person to whom it provides services because of race, color, religion, sex, national origin, or disability, and represents and warrants that it complies with all applicable federal, state, and local laws and executive orders regarding employment. Contractor and Contractor's personnel will comply with applicable provisions of Title VII of the U.S. Civil Rights Act of 1964, as amended, Section 504 of the Federal Rehabilitation Act, the Americans with Disabilities Act (42 U.S.C. § 12101 et seq.), and applicable rules in performance under this Agreement.
- e. **State Sponsors of Terrorism Prohibition.** Per A.R.S. § 35-392, Contractor must not be in violation of section 6(j) of the Federal Export Administration Act and subsequently prohibited by the State of Arizona from selling goods or services to the City.

10. **SALES/USE TAX, OTHER TAXES.**

- a. Contractor is responsible for the payment of all taxes including federal, state, and local taxes related to or arising out of Contractor's services under this Agreement, including by way of illustration but not limitation, federal and state income tax, Social Security tax, unemployment insurance taxes, and any other taxes or business license fees as required. If any taxing authority should deem Contractor or Contractor employees an employee of the City, or should otherwise claim the City is liable for the payment of taxes that are Contractor's responsibility under this Agreement, Contractor will indemnify the City for any tax liability, interest, and penalties imposed upon the City.

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

- b. The City is exempt from paying certain federal excise taxes and will furnish an exemption certificate upon request. The City is not exempt from state and local sales/use taxes.
11. **AMOUNTS DUE THE CITY.** Contractor must be current and remain current in all obligations due to the City during the performance of Services under the Agreement. Payments to Contractor may be offset by any delinquent amounts due the City or fees and charges owed to the City.
12. **PUBLIC RECORDS.** Contractor acknowledges that the City is a public entity, subject to Arizona's public records laws (A.R.S. § 39-121 et. seq.) and that any documents related to this Agreement may be subject to disclosure pursuant to state law in response to a public records request or to subpoena or other judicial process.
- a. If Contractor believes document related to the Agreement contains trade secrets or other proprietary data, Contractor must notify the City and include with the notification a statement that explains and supports Contractor's claim. Contractor also must specifically identify the trade secrets or other proprietary data that Contractor believes should remain confidential.
- b. In the event the City determines it is legally required to disclose pursuant to law any documents or information Contractor deems confidential trade secrets or proprietary data, the City, to the extent possible, will provide Contractor with prompt written notice by certified mail, fax, email or other method that tracks delivery status of the requirement to disclose the information so Contractor may seek a protective order from a court having jurisdiction over the matter or obtain other appropriate remedies. The notice will include a time period for Contractor to seek court ordered protection or other legal remedies as deemed appropriate by Contractor. If Contractor does not obtain such court ordered protection by the expiration of said time period, the City may release the information without further notice to Contractor.
13. **AUDITS AND RECORDS.** Contractor must preserve the records related to this Agreement for six (6) years after completion of the Agreement. The City or its authorized agent reserves the right to inspect any records related to the performance of work specified herein. In addition, the City may inspect any and all payroll, billing or other relevant records kept by Contractor in relation to the Agreement. Contractor will permit such inspections and audits during normal business hours and upon reasonable notice by the City. The audit of records may occur at Contractor's place of business or at City offices, as determined by the City. Notwithstanding the foregoing, any Agreement audits must be pursuant to a signed Confidentiality Agreement agreed to by both parties which will be subject to applicable law, including the Arizona Public Records law. Contractor is not required to keep original documents and copies of relevant documents will suffice for the purposes of this provision. The audit must be conducted during regular business hours at a mutually agreeable time and location, and upon reasonable advanced notice of records to be audited.
14. **BACKGROUND CHECK.** The City may conduct criminal, driver history, and all other requested background checks of Contractor personnel who would perform services under the Agreement or who will have access to the City's information, data, or facilities in accordance with the City's current background check policies. Any officer, employee, or agent that fails the background check must be replaced immediately for any reasonable cause not prohibited by law.
15. **SECURITY CLEARANCE AND REMOVAL OF CONTRACTOR PERSONNEL.** The City will have final authority, based on security reasons: (i) to determine when security clearance of Contractor personnel is required; (ii) to determine the nature of the security clearance, up to and including fingerprinting Contractor personnel; and (iii) to determine whether or not any individual or entity may provide services under this Agreement. If the City objects to any Contractor personnel for any reasonable cause not prohibited by law, then Contractor will, upon notice from the City, remove any such individual from performance of services under this Agreement.
16. **DEFAULT.**
- a. A party will be in default if that party:

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

- i. Is or becomes insolvent or is a party to any voluntary bankruptcy or receivership proceeding, makes an assignment for a creditor, or there is any similar action that affects Contractor's capability to perform under the Agreement;
 - ii. Is the subject of a petition for involuntary bankruptcy not removed within sixty (60) calendar days;
 - iii. Conducts business in an unethical manner as set forth in the City Procurement Rules Article 7 or in an illegal manner; or
 - iv. Fails to carry out any term, promise, or condition of the Agreement.
 - b. Contractor will be in default of this Agreement if Contractor is debarred from participating in City procurements and solicitations in accordance with Article 6 of the City's Procurement Rules.
 - c. **Notice and Opportunity to Cure.** In the event a party is in default then the other party may, at its option and at any time, provide written notice to the defaulting party of the default. The defaulting party will have thirty (30) days from receipt of the notice to cure the default; the thirty (30) day cure period may be extended by mutual agreement of the parties, but no cure period may exceed ninety (90) days. A default notice will be deemed to be sufficient if it is reasonably calculated to provide notice of the nature and extent of such default. Failure of the non-defaulting party to provide notice of the default does not waive any rights under the Agreement.
 - d. **Anticipatory Repudiation.** Whenever the City in good faith has reason to question Contractor's intent or ability to perform, the City may demand that Contractor give a written assurance of its intent and ability to perform. In the event that the demand is made and no written assurance is given within five (5) calendar days, the City may treat this failure as an anticipatory repudiation of the Agreement.
17. **REMEDIES.** The remedies set forth in this Agreement are not exclusive. Election of one remedy will not preclude the use of other remedies. In the event of default:
- a. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.
 - b. The City may purchase the services required under the Agreement from the open market, complete required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute services exceeds the contract price, the City may recover the excess cost by: (i) requiring immediate reimbursement to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and/or performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as provided by law. Costs includes any and all, fees, and expenses incurred in obtaining substitute services and expended in obtaining reimbursement, including, but not limited to, administrative expenses, attorneys' fees, and costs.
 - c. The non-defaulting party will have all other rights granted under this Agreement and all rights at law or in equity that may be available to it.
 - d. Neither party will be liable for incidental, special, or consequential damages.
18. **CONTINUATION DURING DISPUTES.** Contractor agrees that during any dispute between the parties, Contractor will continue to perform its obligations until the dispute is settled, instructed to cease performance by the City, enjoined or prohibited by judicial action, or otherwise required or obligated to cease performance by other provisions in this Agreement.
19. **TERMINATION FOR CONVENIENCE.** The City reserves the right to terminate this Agreement in part or in whole upon thirty (30) calendar days' written notice.
20. **TERMINATION FOR CONFLICT OF INTEREST (A.R.S. § 38-511).** Pursuant to A.R.S. § 38-511, the City may cancel this Agreement within three (3) years after its execution, without penalty or

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

further obligation, if any person significantly involved in initiating, securing, drafting, or creating the Agreement for the City becomes an employee or agent of Contractor.

21. **TERMINATION FOR NON-APPROPRIATION AND MODIFICATION FOR BUDGETARY CONSTRAINT.** The City is a governmental agency which relies upon the appropriation of funds by its governing body to satisfy its obligations. If the City reasonably determines that it does not have funds to meet its obligations under this Agreement, the City will have the right to terminate the Agreement without penalty on the last day of the fiscal period for which funds were legally available. In the event of such termination, the City agrees to provide written notice of its intent to terminate thirty (30) calendar days prior to the stated termination date.
22. **PAYMENT TO CONTRACTOR UPON TERMINATION.** Upon termination of this Agreement, Contractor will be entitled only to payment for those services performed up to the date of termination, and any authorized expenses already incurred up to such date of termination. The City will make final payment within thirty (30) calendar days after the City has both completed its appraisal of the materials and services provided and received Contractor's properly prepared final invoice.
23. **NON-WAIVER OF RIGHTS.** There will be no waiver of any provision of this agreement unless approved in writing and signed by the waiving party. Failure or delay to exercise any rights or remedies provided herein or by law or in equity, or the acceptance of, or payment for, any services hereunder, will not release the other party of any of the warranties or other obligations of the Agreement and will not be deemed a waiver of any such rights or remedies.
24. **INDEMNIFICATION/LIABILITY.**
 - a. To the fullest extent permitted by law, Contractor agrees to defend, indemnify, and hold the City, its officers, agents, and employees, harmless from and against any and all liabilities, demands, claims, suits, losses, damages, causes of action, fines or judgments, including costs, attorneys', witnesses', and expert witnesses' fees, and expenses incident thereto, relating to, arising out of, or resulting from: (i) misconduct by Contractor personnel under this Agreement; (ii) any negligent acts, errors, mistakes or omissions by Contractor or Contractor personnel; and (iii) Contractor or Contractor personnel's failure to comply with this Agreement. However, notwithstanding the prior sentence, any claim shall not be an indemnified claim if such claim or damage was caused in whole by the actions of the City, its employees, agents, contractors or representatives.
 - b. Contractor will update the City during the course of the litigation to timely notify the City of any issues that may involve the independent negligence of the City that is not covered by this indemnification.
 - c. The City assumes no liability for actions of Contractor and will not indemnify or hold Contractor or any third party harmless for claims based on this Agreement or use of Contractor-provided supplies or Services.
 - d. IN THE EVENT OF ANY LIABILITY INCURRED BY CONTRACTOR OR ANY OF ITS AFFILIATES HEREUNDER, INCLUDING INDEMNIFICATION OF CITY BY CONTRACTOR, THE ENTIRE LIABILITY OF CONTRACTOR AND ITS AFFILIATES FOR DAMAGES FROM ANY CAUSE WHATSOEVER WILL NOT EXCEED \$5,000,000.00 OVER THE ENTIRE TERM OF THE AGREEMENT.
25. **WARRANTY.** Contractor warrants that the services and materials will conform to the requirements of Exhibit A. Additionally, Contractor warrants that all services will be performed in a good, workman-like and professional manner, as stated below.
 - a. **Manufacturer's Warranty.** The City understands that the Contractor is not the manufacturer of the products purchased by the City hereunder and the only materials (product) warranties offered are those of the manufacturer, not the Contractor or its affiliates unless the manufacturer is the Contractor or its affiliates. THE CONTRACTOR AND ITS AFFILIATES HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES EITHER EXPRESS OR IMPLIED,

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

RELATED TO PRODUCTS, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF TITLE, ACCURACY, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WARRANTY OF NONINFRINGEMENT, OR ANY WARRANTY RELATING TO THIRD PARTY SERVICES. THE DISCLAIMER CONTAINED IN THIS PARAGRAPH DOES NOT AFFECT THE TERMS OF ANY MANUFACTURER'S WARRANTY.

- b. **Services Warranty.** City's sole and exclusive remedy with respect to a warranty on the Services provided by Contractor will be, at the sole option of Contractor, to either: (a) use its reasonable commercial efforts to reperform any services not in substantial compliance with this warranty, or (b) refund amounts paid by City related to the portion of the services not in substantial compliance; provided, in each case, City notifies Contractor in writing within five (5) business days after performance of the applicable Services. City shall be solely responsible for daily back-up and other protection of its data and software against loss, damage or corruption during the performance of services and for any necessary reconstruction thereof.
 - c. **Third Party Services Warranty.** In connection with the products (materials), certain services, such as extended warranty service by manufacturers, are sold by the Contractor as a distributor or sales agent ("Third Party Services"). In the case of Third Party Services, the third party will be the party responsible for providing the services to the City and the City will look to the third party for any loss, claims or damages arising from or related to the provision of such Third-Party Services. Any amounts, including, but not limited to, taxes, associated with Third Party Services which may be collected by the Contractor will be collected solely in the capacity as an independent sales agent.
26. **THE CITY'S RIGHT TO RECOVER AGAINST THIRD PARTIES.** Contractor will do nothing to prejudice the City's right to recover against third parties for any loss, destruction, or damage to City property, and will at the City's request and expense, furnish to the City reasonable assistance and cooperation, including assistance in the prosecution or defense of suit and the execution of instruments of assignment in favor of the City in obtaining recovery.
27. **NO GUARANTEE OF WORK.** Contractor acknowledges and agrees that it is not entitled to deliver any specific amount of materials or services or any materials or services at all under this Agreement and acknowledges and agrees that the materials or services will be requested by the City on an as needed basis at the sole discretion of the City. Any document referencing quantities or performance frequencies represent the City's best estimate of current requirements, but will not bind the City to purchase, accept, or pay for materials or services which exceed its actual needs.
28. **OWNERSHIP.**
- a. Except as it pertains to the Work Product in Subsection (b) below, all deliverables, services, and information provided by Contractor or the City pursuant to this Agreement (whether electronically or manually generated) including without limitation, reports, test plans, and survey results, graphics, and technical tables, originally prepared in the performance of this Agreement, are the property of the City and will not be used or released by Contractor or any other person except with prior written permission by the City.
 - b. City's rights to Work Product (meaning deliverables to be provided or created individually or jointly in connection with the services, not materials, provided by Contractor, including but not limited to, all inventions, discoveries, methods, processes, formulae, ideas, concepts, techniques, know-how, data, designs, models, prototypes, works of authorship, computer programs, proprietary tools, methods of analysis and other information, whether or not capable of protection by patent, copyright, trade secret, confidentiality, or other proprietary rights, or discovered in the course of performance of this Agreement that are embodied in such work or materials) will be, upon payment in full, a non-transferable, non-exclusive, royalty-free license to use such Work Product solely for City's internal use. City obtains no ownership or other property rights thereto. City agrees that Contractor may incorporate intellectual property created by third parties into the Work Product and that City's right to use such Work Product may be subject to the rights of, and limited by agreements with, such third parties

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

29. **USE OF NAME.** Contractor will not use the name of the City of Mesa in any advertising or publicity without obtaining the prior written consent of the City.
30. **PROHIBITED ACTS.** Pursuant to A.R.S. § 38-504, a current or former public officer or employee within the last twelve (12) months shall not represent another organization before the City on any matter for which the officer or employee was directly concerned and personally participated in during their service or employment or over which they had a substantial or material administrative discretion. Further, while employed by the City and for two (2) years thereafter, public officers or employees are prohibited from disclosing or using, without appropriate authorization, any confidential information acquired by such personnel in the course of his or her official duties at the City.
31. **FOB DESTINATION FREIGHT PREPAID AND ALLOWED.** All deliveries will be FOB destination freight prepaid and allowed unless otherwise agreed.
32. **RISK OF LOSS.** Contractor agrees to bear all risks of loss, injury, or destruction of Contractor's goods or equipment incidental to providing these services and such loss, injury, or destruction will not release Contractor from any obligation hereunder.
33. **SAFEGUARDING CITY PROPERTY.** Contractor will be responsible for any damage to City real property or damage or loss of City personal property when such property is the responsibility of or in the custody of Contractor or its employees.
34. **WARRANTY OF RIGHTS.** Contractor warrants it has title to, or the right to allow the City to use, the materials and services being provided and that the City may use same without suit, trouble or hindrance from Contractor or third parties.
35. **PROPRIETARY RIGHTS INDEMNIFICATION.** Without limiting the foregoing, Contractor will at its expense defend the City against all claims asserted by any person that anything provided by Contractor infringes a patent, copyright, trade secret or other intellectual property right (collectively "Claim") and must, without limitation, pay the costs, damages and attorneys' fees awarded against the City in any Claim, or pay any settlement of such Claim. Each party agrees to notify the other promptly of any matters to which this provision may apply and to cooperate with each other in connection with such defense or settlement. If a preliminary or final judgment is obtained against the City's use or operation of the items provided by Contractor hereunder or any part thereof by reason of any alleged infringement, Contractor will, at its sole option and its expense and without limitation, either: (a) modify the item so that it becomes non-infringing; (b) procure for the City the right to continue to use the item; (c) substitute for the infringing item other item(s) having at least equivalent capability; or (d) refund to the City an amount equal to the price paid, less reasonable usage, from the time of installation acceptance through cessation of use, which amount will be calculated on a useful life not less than five (5) years based on a five (5) year straight line amortized basis. The foregoing provisions in this Section state the entire liability of Contractor and the sole and exclusive remedy of the City with respect to any Claim. Contractor shall have no liability or obligation to the City to the extent any Claim is based upon: (i) any combination of anything provided by Contractor with other software, hardware or other materials not authorized by Contractor or manufacturer; or (ii) any addition to, or modification of, anything provided by Contractor made after delivery to the City by any person other than Contractor.
36. **CONTRACT ADMINISTRATION.** The contract will be administered by the Purchasing Administrator and/or an authorized representative from the using department. All questions regarding the contract will be referred to the administrator for resolution. Supplements may be written to the contract for the addition or deletion of services. Payment will be negotiated and determined by the contract administrator(s).
37. **FORCE MAJEURE.** Failure by either party to perform its duties and obligations will be excused by unforeseeable circumstances beyond its reasonable control, including acts of nature, acts of the public enemy, riots, fire, explosion, legislation, and governmental regulation. The party whose performance is so affected will within five (5) calendar days of the unforeseeable circumstance notify the other party of all pertinent facts and identify the force majeure event. The party whose

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

performance is so affected must also take all reasonable steps, promptly and diligently, to prevent such causes if it is feasible to do so, or to minimize or eliminate the effect thereof. The delivery or performance date will be extended for a period equal to the time lost by reason of delay, plus such additional time as may be reasonably necessary to overcome the effect of the delay, provided however, under no circumstances will delays caused by a force majeure extend beyond one hundred-twenty (120) calendar days from the scheduled delivery or completion date of a task unless agreed upon by the parties.

38. **COOPERATIVE USE OF CONTRACT.** This contract is available through National IPA to agencies nationwide. The City has also entered into various cooperative purchasing agreements with other Arizona government agencies, including the Strategic Alliance for Volume Expenditures (SAVE) cooperative. Under the SAVE Cooperative Purchasing Agreement, any contract may be extended for use by other municipalities, school districts and government agencies through National IPA or SAVE in the State of Arizona with the approval of Contractor. Any such usage by other entities must be in accordance with the statutes, codes, ordinances, charter and/or procurement rules and regulations of the respective government agency.

A contractor, subcontractor or vendor or any employee of a contractor, subcontractor or vendor who is contracted to provide services on a regular basis at an individual school shall obtain a valid fingerprint clearance card pursuant to title 41, chapter 12, article 3.1. A school district governing board shall adopt policies to exempt a person from the requirements of this subsection if the person's normal job duties are not likely to result in independent access to or unsupervised contact with pupils. A school district, its governing board members, its school council members and its employees are exempt from civil liability for the consequences of adoption and implementation of policies and procedures pursuant to this subsection unless the school district, its governing board members, its school council members or its employees are guilty of gross negligence or intentional misconduct.

Additionally, Contractor will comply with the governing body's fingerprinting policy of each individual school district and public entity. Contractor, subcontractors, vendors and their employees will not provide services on school district properties until authorized by the school district.

Orders placed by other agencies and payment thereof will be the sole responsibility of that agency. The City is not responsible for any disputes arising out of transactions made by others. The City is not a party to any agreements between the Contractor and National IPA, National IPA and other agencies, the Contractor and other agencies, or any third-party contracts in any way related to this Agreement or the cooperative use of this Agreement.

39. **FUEL CHARGES AND PRICE INCREASES.** No fuel surcharges will be accepted. No price increases will be accepted without proper request by Contractor and response by the City's Purchasing Division.
40. **NOTICES.** All notices to be given pursuant to this Agreement must be delivered to the parties at their respective addresses. Notices may be (i) personally delivered; (ii) sent via certified or registered mail, postage prepaid; (iii) sent via overnight courier; or (iv) sent via email or facsimile. If provided by personal delivery, receipt will be deemed effective upon delivery. If sent via certified or registered mail, receipt will be deemed effective three (3) calendar days after being deposited in the United States mail. If sent via overnight courier, email or facsimile, receipt will be deemed effective two (2) calendar days after the sending thereof.
41. **GOVERNING LAW, FORUM.** This Agreement is governed by the laws of the State of Arizona. The exclusive forum selected for any proceeding or suit in law or equity arising from or incident to this Agreement will be Maricopa County, Arizona.
42. **INTEGRATION CLAUSE.** This Agreement, including all attachments and exhibits hereto, supersede all prior oral or written agreements, if any, between the parties and constitutes the entire agreement between the parties with respect to the work to be performed.

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

43. **PROVISIONS REQUIRED BY LAW.** Any provision required by law to be in this Agreement is a part of this Agreement as if fully stated in it.
44. **SEVERABILITY.** If any provision of this Agreement is declared void or unenforceable, such provision will be severed from this Agreement, which will otherwise remain in full force and effect. The parties will negotiate diligently in good faith for such amendment(s) of this Agreement as may be necessary to achieve the original intent of this Agreement, notwithstanding such invalidity or unenforceability.
45. **SURVIVING PROVISIONS.** Notwithstanding any completion, termination, or other expiration of this Agreement, all provisions which, by the terms of reasonable interpretation thereof, set forth rights and obligations that extend beyond completion, termination, or other expiration of this Agreement, will survive and remain in full force and effect. Except as specifically provided in this Agreement, completion, termination, or other expiration of this Agreement will not release any party from any liability or obligation arising prior to the date of termination.
46. **A.R.S. SECTIONS 1-501 and 1-502.** Pursuant to Arizona Revised Statutes Sections 1-501 and 1-502, any person who applies to the City for a local public benefit (the definition of which includes a grant, contract or loan) must demonstrate his or her lawful presence in the United States. As the Agreement is deemed a local public benefit, if Contractor is an individual (natural) person or sole proprietorship, Contractor agrees to sign and submit the necessary documentation to prove compliance with the statutes as applicable.

RE: Information Technology Solutions and Services Solicitation #2018011

Dear Ms. Brause:

CDW-G is pleased to present the following proposal to the City of Mesa. As a leading provider of IT solutions to state and local entities, we are excited to present our response to your needs. Over the past decade through our relationship with National IPA, we have seen a consistent 30% annual growth of our contract. Our contract expertise, customer-focus, and commitment to diversity have enabled us to bring our customers the solutions and services that deliver outstanding value. We regularly respond to varied IT needs: Be it small rural communities to large municipalities and states, the City of Mesa can be sure that we are ready to be your partner in any IT enterprise. Below are just a few of the benefits that the members of this cooperative will enjoy:

Contract Expertise. Consistently meeting your needs is our main focus which is why we'll update your contract, adding new technologies as soon as you need them. If it is in our catalog, we can add it to your contract. Whatever your needs may be, we will work with you to make sure those needs are met. Included in your contract are pricing options that will enable the City of Mesa to compare pricing options. This benefit enables you to make more informed decisions and provides you with purchasing reports.

Local Presence, National Reach. Whether it's in small towns, rural counties, or large cities, we'll be where you are to leverage our national network of service providers, bringing you the expert/customer-centered solutions you've come to expect from us. With 30 locations nationally and coworkers located in 45 states, we are dedicated to serving our customers' needs, wherever they are. You will enjoy a dedicated team of CDW-G resources who stand ready to work with you and solve today's technology challenges. Coupled with our strong centralized support locations, we offer you a national contract with a local focus, tailored to your requirements, with a flexibility to grow with you as your needs change.

Commitment to Diversity. We work with hundreds of diverse suppliers to promote historically underutilized and local businesses. These local suppliers are part of the reason we are able to deliver exceptional products and services. As members of your local community, we work with these suppliers to better understand our customers' needs and to support locally-focused businesses. We partner with over 600 MBE/WBE businesses and achieve more than \$1.5B annually in overall diversity spend.

We look forward to establishing a collaborative working relationship and are confident that our proposal will exceed your expectations. To discuss our response, please contact Proposal Specialist Cale LaSalata at calelas@cdw.com or 203-851-7211.

Sincerely,

Christina V. Rother
President, CDW Government LLC

Executive Summary

The City of Mesa, through this solicitation, has partnered with the National Intergovernmental Purchasing Alliance Company (“National IPA”) to enable public and non-public entities in Arizona to purchase all manner of IT solutions and services. Understanding that value and efficiency in procurement are hot-button issues for the City of Mesa, we have kept that as our guiding principles for the response contained herein. As states and municipalities work within constrained budgets, now more than ever, value and sound purchasing practices of utmost importance when choosing an IT solutions provider and partner. CDW Government LLC (“CDW•G”) has been a reliable partner of National IPA for over a decade with a demonstrable track record of delivering outstanding IT solutions, with efficient delivery, and all of the benefits that come from this contract.

What sets our offer apart from what our competition will provide is that our approach to our customers is to treat them as a partner. Everything that we do as a company revolves around the main focus of our business: our customers. Because we provide solutions to a variety of entities (from public to private; small businesses and rural communities, to the federal government and large municipalities), we know that solutions aren’t “one-size fits all.” Tailoring our solutions to our customers requires us to get to know you and meet you where you are to gain a better understanding of what drives your business.

Evidenced by our ten year successful relationship with the team at National IPA, our approach to IT solutions reflects a belief that true value comes from delivering to our customers exactly what they want, when they want it. Efficient online purchasing, dedicated support, highly certified services providers, and contract compliance are only a few of the features of what we can deliver to the City of Mesa.

Contract Excellence

Understanding that compliance with city policy and state financial statutes is important to the City of Mesa, we have built our response to Mesa around our approach to working with government customers. We know that the City of Mesa has legal and regulatory compliance requirements to which you have to adhere. That is why our approach incorporates your regulatory compliance needs and builds your contract around those obligations. Contract participants’ Account Center has a wealth of information which will enable them to make better informed purchasing decisions and provide them reports on purchases, updated pricing, and much more.

What differentiates us from our competition is our Program Management team who oversee the administration of negotiated contracts. While some of our competition may have one or two individuals tasked to ensure contract compliance, we maintain a team of highly trained professionals whose sole goal is ensure that we meet our commitments to our contract customers. Program Managers also work with our Marketing department to promote your contract and educate our sales force on the particularities of the contract. Our Program Management teams work to make sure that our sales teams are educated on the contract requirements.

Our Program Management team also compiles a variety of reports, ranging from updated pricing and product options to purchase history and analyses of the success of the contract.

Some of the features of what we will provide you are:

- o Understand and Comply with all applicable statutory and contractual provisions;
- o Maintain consistent, contract-compliant pricing;
- o Comply with any security requirements;
- o Follow proper protocols, including obtaining customer approval, prior to making any substitutions or deviations from the original contract requirements and specifications;
- o Engage directly, honestly and truthfully in our discussions with agency representatives and government employees

In addition to a flexible contract, contract participants will enjoy the advantages of a dynamic pricing structure. As CDW•G employs a vendor-neutral approach to IT solutions, we leverage that method to deliver better pricing to our customers. Because of our size and reputation in the IT marketplace, we have the ability to deliver volume discounts, exclusive pricing, and special promotions unavailable with other IT solution providers.

National Services Presence

We have over 30 offices around the United States. Meeting contract participants where they are is really important to us: We want to understand our customers' needs, their environment, the particularities that make contract participants the unique customers they are. Understanding what drives purchasing decisions helps us provide more tailored solutions. We have a national network of service providers, all trained in the latest approaches, methodologies, and solutions, consistently carrying the highest level of OEM certifications. This means that when contract participants need us to come into their environments and provide guidance, they can be sure that they're receiving guidance from seasoned experts with years of experience in solution deployment.

Our Services model offers customers an unusual combination: the close relationship and easy access of a local provider who understands your IT environment inside and out, and the scale, efficiency and resources of a multinational provider. We have 30-plus local branch offices throughout the United States and Canada. So, chances are, we're within driving distance of contract participants. In addition to our local branches, we have over 1,100 services professionals and a network of trusted service and solutions partners. In fact, because of our national scale, CDW•G is able to identify areas of emerging need for our customers and then ramp up our expertise and resourcing in those areas.

Logistics

One of the many benefits of our proposed solution is how we work with you to deliver your IT purchases. From order placement to delivery, how we bring you your purchases is almost as important to us as what you buy. Making the purchasing and delivery process easier and time-efficient, we work hard to guarantee that you receive the most cost-effective purchasing options available. Your account center will enable you to:

- o Connect with your dedicated account manager and team of specialists;
- o Create and retrieve quotes and collaborate with your account manager;
- o Promote IT standards;
- o Track orders and shipments;
- o Manage purchases and payments;
- o Set shipping and billing preferences and manage contact information

Factor in our two strategically-located distribution centers that hold \$220M of inventory, on average, you can be sure that we have what you need when you need it, and have the ability to get it to you quickly. We maintain both a 450,000-square-foot distribution center located at our headquarters in Vernon Hills, IL and a 513,000-square-foot distribution center located in North Las Vegas, NV. The combined square footage of our distribution centers is three times greater than most of our competition. These locations facilitate quick distribution of products to our growing customer base throughout the country

Breadth of Coverage

CDW•G has over 840 Account Manager and 65 Field Representatives forming account teams across five verticals: Higher Education, K12 Education, Healthcare, Federal Government, and State & Local Government. In addition, our account teams are organized geographically: North, South, East, and West which facilitates their ability to be uniquely aware of the local landscape, identifying key partnerships and common local practices for contracting. These account teams are supported by technology specialists and segment technologists who can go deep into particular solution sets with our customers. No other national provider can claim the size and depth of knowledge of our highly skilled account teams, it is a particular point of pride for CDW•G. Wherever our customers are located, CDW•G invests heavily in our sales teams' ability to meet our customers' needs.

Summary

The City of Mesa can be confident that by partnering with CDW•G for the National IPA contract, we will be able to meet your needs and deliver the best value for contract participants. Evidenced by our successful ten year relationship with the City of Tucson, Mesa can expect the same level of local attention from a national IT solution provider. We stand ready to bring you a contract that will be tailored to your requirements and considerate of what's important to you. At every stage of the lifecycle of your contract, your dedicated team of Account Managers, Program Managers, and Service providers is prepared to advise you and work with you to guarantee your total satisfaction; ensuring our commitment to you is consistently met. We are pleased to offer you the following proposal and look forward to being your trusted partner for years to come.

Tab 2

Program Description and Method of Approach

1. Provide a response to the national program.
 - a. Include a detailed response to Attachment D, Exhibit A, National IPA Response for National Cooperative contract. Responses should demonstrate a strong national presence, describe how offeror will educate its national sales force about the contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and reported to National IPA.

CDW•G Response:

A. Method of Approach

Response to National IPA Cooperative Contract

1. Provide a response to the national program.
- A. Include a detailed response to Attachment B, Exhibit A, National IPA Response for National Cooperative contract. Responses should demonstrate a strong national presence, describe how offeror will educate its national sales force about the contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and reported to National IPA.

3.1 SUPPLIER QUALIFICATIONS

Supplier must supply the following information in order for the Principal Procurement Agency to determine Supplier's qualifications to extend the resulting Master Agreement to Participating Public Agencies through National IPA.

3.2 Company

- A. Brief history and description of your company.

Founded in 1984, CDW is a leading provider of technology solutions to over 250,000 customers composed of small-, medium-, and large-sized public and private entities. CDW Government LLC (CDW•G) is a wholly owned subsidiary of CDW Corporation, incorporated in 1998 to address the specific needs of our government, education, and healthcare customers. Our unique company structure provides our customers products and services only a large national reseller can provide, combined with a local presence typical of a small business. We have a large manufacturer presence in our offices across the country and blanketed in the field with our field account executives. Account Teams are further segmented by agency type, education (K12/High Ed) or government, which allows us to provide each customer with one contact who is knowledgeable of every nuance of their organization.

CDW•G is one of the largest direct marketing resellers in the U.S., currently carrying more

than 100,000 name-brand technology products from over 1,100 leading IT manufacturers.

CDW•G delivers more than just product; we also deliver IT solutions. We offer a full range of technology services including: cloud computing, consulting, system configurations, implementation, and training. CDW•G designs and implements complete business solutions that address a full range of complex issues including, but not limited to: Business Continuity, Infrastructure Optimization, Networking, Security Management, and Unified Communications.

B. Total number and location of sales persons employed by your company.

CDW•G currently employs more than 1,456 coworkers, part of our larger organization of 8,800 employees nationwide and in Canada, with over 30 different locations. More than 840 of our CDW•G dedicated sales force are Account Managers, in addition to 65 Field Account Executives placed throughout communities across the nation.

C. Number and location of support centers (if applicable)

When CDW•G was awarded a similar contract with National IPA's involvement in 2008, we had offices in five states and Canada. We have drastically expanded our location portfolio across 20 additional states, and have added second/multiple offices in a number of our original five states and Canada. Currently, we have over 30 separate locations. Speaking specifically to the benefit of this contract, seven of the states with new locations are also in the ten states with the highest historical spend on the contract.

D. Annual sales for the three previous fiscal years.

Below you can see evidence of CDW Corporation's sales growth, CDW•G's growth, and our growth on the contract as well. CDW•G consistently drives compounding growth in both areas, and anticipates these upward trends to continue. The growth rates of National IPA

exceed the standard rate for CDW•G, demonstrating our results to both grow organically and promote the contract within our existing client base.

Explosive Sales Growth						
Year	Annual Revenues			YOY Growth		
	National IPA (\$ Millions)	CDW•G (\$ Billions)	CDW (\$ Billions)	National IPA	CDW•G	CDW
2013	\$113	\$4.2	\$10.8			
2014	\$160.1	\$4.9	\$12.1	41.5%	16.7%	25.0%
2015	\$253.7	\$5.1	\$13.0	58.5%	4.1%	7.4%
2016	\$390	\$5.6	\$14.0	53.7%	9.8%	7.7%

E. Submit your FEIN and Dun & Bradstreet report.

CDW•G FEIN: 36-4230110

Dun & Bradstreet numbers:

CDW Corporation	107627952
CDW Government LLC	026157235

CDW•G cannot supply a Dun & Bradstreet report, as it violates our contract with Dun and Bradstreet. The City of Mesa can obtain a report for CDW•G from Dun & Bradstreet.

3.3 Distribution, Logistics

A. Describe how your company proposes to distribute the products/service nationwide.

We offer more than 100,000 brand-name products from over 1,100 leading manufacturers. We carry over \$200 million in inventory, and ship most in-stock products the same day they are ordered. The result is that contract purchasers receive a shipment from CDW•G in just **3-5 days**, far surpassing our competitor's capabilities

CDW•G keeps a large breadth of products and fresh inventory on hand, in order to provide contract members with new technology as it becomes available. We constantly monitor trends within the IT industry to ensure that we offer our customers the latest technology and the most optimal solutions. Our inventory management system enables our purchasing department to excel at maintaining a one- to four-week supply of products in our distribution centers. Our inventory turns over 24-26 times per year.

The distribution centers' automated system scans bar-code labels on each product, pick list, and shipping label, resulting in increased delivery speed and accuracy. Some of smaller items require coworker assembly; "Ready Ship" products (items that ship in their original carton) move through the system even faster. Once the order shipment is ready for loading, a final scan determines the correct truck and sends it down the designated conveyor into the truck. The automated systems even help to load the trucks in ways that optimize shipment-processing speeds.

CDW•G's strategic relationships with industry leading original equipment manufacturer (OEM) technology partners, such as HP, Cisco, Lenovo, and Apple, means that we not only have access to steep product discounts, but also greater access to the products and a more efficient procurement processes.

We receive notification regarding product changes, including advance notification of product shortages, and products nearing end of life. When there is a product shortage and other vendors do not have access to these products, we can often procure them from another source. When

CDW•G receives notification of an upcoming stock outage, we utilize our distribution centers' large capacity for volume purchases, keeping stock on hand for our customer's present and future needs.

- B. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.

CDW•G has positioned ourselves very closely with the major carriers, in order to provide a wide range of delivery options to meet our customers' varying needs. We ship the majority of our products via UPS and FedEx. Both companies have employees on site at our warehouses, individuals with a long history of supporting CDW•G. We can also leverage the carrier's intermodal transport options. Additionally, we have contracts with truckload (TL) and less than truckload (LTL) carriers for large orders and heavy products. If a carrier is not meeting our on-time delivery requirements, we remove the carrier from our preferred shipper list.

- C. Provide the number, size and location of your company's distribution facilities, warehouses and retail network as applicable.

CDW•G's two strategically located distribution centers have a combined size of almost one million square feet. Our Central Distribution Center in Vernon Hills, IL, ships primarily to customers in the eastern half of the U.S. Our Western Distribution Center, in Northern Las Vegas, NV, ships primarily to customers in the western half of the U.S. Each distribution center serves as backup for the other. A state-of-the-art Warehouse Management System (WMS) controls both of these centers, ensuring speed and accuracy throughout the order fulfillment and distribution processes.

In addition to working with OEM partners to supplement our direct purchasing model, CDW•G has developed strong affiliations with principal distributors: Synnex, Tech Data, and Ingram Micro. Our OEM partners send us daily electronic data interchange (EDI) downloads, giving us visibility to inventory at their locations. Our top three distribution partners provide real time inventory information. Using this multi-layered procurement structure, we secure out-of-stock product(s) within as little as 24-48 hours, depending on customer requirements.

- D. State any return and restocking policy and fees, if applicable, associated with returns. CDW•G offers a 30-day return policy on most products sold. Of the returns we accept, a minimum 15% restocking fee applies for non-defective product returns. For our complete return policy, please see Tab 7, Appendix of this response. Customers may also obtain

additional information by contacting their Account Manager or CDW customer relations at 866.SVC.4CDW, returns@cdw.com.

3.4 Marketing and Sales

- A. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as your company's primary go to market strategy for Public Agencies to your teams nationwide, to include, but not limited to:
 - I. Executive leadership endorsement and sponsorship of the award as the public sector go-to- market strategy within first 10 days

Per Arizona Revised Statutes § 44-405, the following information is confidential and proprietary and it might contain trade secrets therefore not subject to disclosure in case there is a request.

Part of CDW•G's commitment to our customer base is constantly seeking out opportunities to strengthen our national partner relationships. We view executive alignment as a key part of a successful contract strategy. We bring senior leaders from across our public-sector management team together with National IPA 2-3 times per year to review contract initiatives and customer feedback.

Our ongoing efforts with National IPA in seven specific target accounts highlights this unique and longstanding collaboration. We meet monthly to review the current state of business and execution of each account's growth strategy. In 2017, we have already seen success in Los Angeles World Airports and the City of Kansas City. The combined teams will continue to drive contract adoption amongst non-participating agencies.

CDW•G's leadership team is securely behind the growth and strategy of this program – both to the benefit of the City of Mesa and also across the nation. Key members of the leadership team include:

David Hutchins, CDW•G's VP of Education Sales, is an executive sponsor of the City's contract. He continues to focus sales teams on the success of the contract, and continually collaborates with manufacturer partners, allowing CDW•G to provide the latest technology solutions to help further the mission of 'the connected classroom' across the nation.

Robert F. Kirby, CDW•G's VP of Federal and State & Local Sales, is an executive sponsor for this contract. He will ensure that sales teams work towards the success of the contract and consistently works with manufacturer partners to allow CDW•G to bring contract participants further benefits through targeted solution campaigns, like our public safety initiative.

Tara Barbieri, CDW•G's Director of Capture, is also an executive sponsor for the contract. She has endorsed and sponsored this contract since the inception in 2008, and shall continue this role upon award. In her position, she is dedicated exclusively to our company's contractual sales, and leads

with the knowledge and experience in cooperative purchasing contracts. Internally, she has promoted this contract to CDW's President Tom Richards and, externally, to HPE's Meg Whitman. This is to say that for over ten years, she has worked tirelessly to champion this contract and has been integral to growing this contract into what it is today.

To facilitate our growth strategy, CDW•G holds many public agreements, some with mandatory use requirements within individual states. We cannot agree to market the City's contract as our *primary public sector go-to-market strategy*; however, we have included an appropriate marketing plan and pledge to continue focusing on the contract's success and awareness. We believe this pledge should not be viewed lightly, as with our support, this contract's volume has surpassed the \$350M mark as of last year in yearly sales. We understand through competitive research that our competitors rarely take issue with similar requests for commitments; yet we can easily find evidence that they too hold plenty of public contracts.

Dell	Zones	WWT	Connection	Carahsoft
National Cooperative Purchasing Alliance (NCPA)	National Joint Powers Alliance (NJPA)	California CMAS	Texas DIR	US Communities
NASPO Value Point (NVP)	Texas DIR	State of MO PC Prime Vendor Contract	Massachusetts ITC47	National Cooperative Purchasing Alliance (NCPA)
Midwestern Higher Ed Compact (MHEC)	California CMAS	Ohio Hardware, Software & Services	National Cooperative Purchasing Alliance	PEPPM
Texas Dept of Information Resources	PEPPM	Texas DIR	TIPS/TAPS	MICTA
Massachusetts ITC47	National Cooperative Purchasing Alliance	Massachusetts ITC47	Public Sourcing Solutions (PSS)	Massachusetts Higher Ed Consortium

CDW•G takes our partner commitments very seriously and Mesa is our partner in delivering on the accompanying National IPA Agreement. In the first ten days post-award, our CDW•G Program Management team will provide a company-wide contract award announcement, as well as develop a contract training program for all SLED Account Managers to attend. CDW•G has a successful contract launch history where we focus on five areas of the contract which are: Intake, Set-Up & Compliance, Education, Measure and Growth. By focusing on these areas specifically, we are able to launch contracts to the CDW•G teams with the most powerful and applicable details to make the new National IPA agreement more successful than the one currently in place

- II. Training and education of your national sales force with participation from the executive leadership of your company, along with the National IPA team within

first 90 days

Our Public Sector Account Managers are actively marketing the current contract to their customers and are very familiar with the structure of the contract. This is an enormous benefit to the City, National IPA, and the immediate momentum of the new contract. A 'refresh' training to enhance understanding of the new National Program, its updates and nuances with City of Mesa as lead agency will be conducted within the first 30 days post award.

Familiarizing a completely new management team and educating a new group of Account Managers to a new contract is unnecessary with CDW•G. Other vendors, even after training, are likely to experience a significant period of growing pains, acclimating their sales staff to the offering. This ramp-up time will certainly have an impact on contract sales. This is often the case with new contracts, as National IPA and the City are aware. The current contract saw success atypical of most, quickly achieving \$4 million dollars in purchases within the first four months from inception. We believe this success was due in large part to CDW•G's experience in managing contracts and National IPA's commitment to sound marketing strategies. The contract is now supporting almost **fifty-eight times** its 2009 purchases (the first full year of the contract). We believe that CDW•G is uniquely qualified to deliver growth over \$400 million in 2018.

All aspects of transitioning to the new contract will be seamless. The City and National IPA do not have to worry about member confusion or orders lost during training and setup time. Business will continue to flourish and training time will be used as a refresher, providing contract updates and focusing on strategies to increase business.

- B. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:
 - I. Creation and distribution of a co-branded press release to trade publications within first 10 days

CDW•G's Marketing contact will work with National IPA to create and distribute this announcement at the transition of the new award.

- II. Announcement, contract details and contact information published on the company website within first 30 days

CDW•G can reload the new contract pricing structure within a matter of minutes and will have our website operation on the 1st day of the new contract. CDW•G will be able to seamlessly transition all agencies buying off of our current National Cooperative contract to the new contract, upon contract launch.

- III. Design, publication and distribution of co-branded marketing materials within first 90 days

CDW•G already has much of this material. We are poised to perform updates to the material and shall accomplish this well within the 90-day time frame. We propose a marketing strategy meeting with National IPA to discuss a refreshed approach and specific goals/targets for the new contract. CDW•G is eager to share our current marketing processes for the contract, including our attendance at the National IPA Regional Summit, aimed at increasing contract awareness; our Sales Wiki site, giving account teams easy access to marketing strategy and materials; and our monthly email campaigns to all National IPA members.

We also look forward to talking about our ideas to gain a better contract understanding, with an increased focus in the K12 sector and our top OEM partners.

Announcements and events

IT needs on one agreement - CDW•G and National IPA

CDW•G is pleased to be awarded by the City of Tucson, AZ, through public competitive solicitation, a cooperative purchasing contract for Information Technology Solutions (contract # 083052). This agreement features a comprehensive range of technology solutions and is available to public agencies nationwide via National Intergovernmental Purchasing Alliance (National IPA).

To simplify the purchasing process, CDW•G offers National IPA participating agencies special pricing on technology solutions across a breadth of vendors. Through National IPA, find discounts in software, software licensing and maintenance, hardware and peripherals, and more. From CDW•G, receive unmatched levels of service, advice and support from expert teams.

We encourage you to visit the Information Technology Solutions Agreement online at CDWG.com/nationalipasolutions for a complete list of products and services available. Search by keyword or browse by product category, and use the resource links to access National IPA websites.

Contract #083052

- IV. Commitment to attendance and participation with National IPA at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, etc.) and supplier- specific trade shows, conferences and meetings throughout the term of the Master Agreement

In 2018, CDW•G's schedule includes over 100 regional and nearly as many national events. In past years, we have attended many events in which we promoted the contract, including NIGP, NASPO, CAPPO, and FAPPO. We will continue this practice with the new agreement, as well. For 2018, we are already committed to attend NASPO, and the National IPA Partner Summit.

We are willing to continue to share our best practices with other non- competing National IPA vendors. Sales Manager Pat O'Brien has agreed to share some of these practices with other National IPA vendors at the Partner Summit, helping increase the success of all National IPA's contracts.

- V. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by National IPA for partner suppliers. Booth space will be purchased and staffed by your company. In addition, you commit to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by National IPA.

CDW•G has enjoyed participating in the NIGP Annual Forum and will continue to do so. We believe in the theme "Building Together" and look forward to sharing our best practices with other National IPA vendors.

- VI. Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement

CDW•G advertises the contract in our own highly viewed publications and our contract specific email campaign. We will continue to promote the contract via avenues such as our EdTech and StateTech publication sites, while continuing to penetrate the market with a live-touch approach.

- VII. Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, etc.)

CDW•G continues to market and promote the contract, through various avenues such as announcements in our publications, email campaigns, as well as on the contract's CDW•G premium page. We look forward to working with National IPA to develop our marketing strategies even further.

- VIII. Dedicated National IPA internet web-based homepage with:

- National IPA standard logo;
- Copy of original Request for Proposal;
- Copy of contract and amendments between Principal Procurement Agency and Supplier;
- Summary of Products and pricing;
- Marketing Materials
- Electronic link to National IPA's online registration page;
- A dedicated toll free number and email address for National IPA

CDW•G exceeds this requirement, as our current National IPA Premium Page, www.cdwg.com/nationalipasolutions presently includes these elements. The page includes the National IPA logo and a description of the contract, with multiple direct links to National IPA's Home Page and Registration Page. We provide members with categories that mirror the contract, easily allowing them to locate the product or service they are looking for. We include "featured products" highlighting solutions that we select for their excellent value or popularity among purchasers.

We have a toll-free number and address for National IPA members, and feature a dedicated Account Team included on the website, which highlights when they are available for customers. In conjunction with National IPA, we will continue to develop this site, increasing functionalities and promotion of the contract.

National IPA Information Technology Solutions Agreement

Publicly solicited and awarded by City of Tucson, Arizona and offered nationally through National IPA. Welcome to the National Intergovernmental Purchasing Alliance Information Technology Solutions Agreement Website. This agreement (Contract #130733) is a result of a competitively bid solicitation by the City of Tucson and awarded to CDW-G.

This agreement offers discounts in software, software licensing & maintenance, hardware and peripherals. Agencies may become participants of National IPA via their website at www.nationalipa.org National IPA is a cooperative purchasing program offered to public agencies and agencies for public benefit. It is an optional program with no minimum purchase requirements and no fees.

C. Describe how your company will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through National IPA. Include a list of current

cooperative contracts (regional and national) your company holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

As the City and National IPA are both well aware, CDW•G currently holds a significant number of cooperative purchasing contracts including National Intergovernmental Purchasing Agency (National IPA), Association of Educational Purchasing Agencies (AEPA), and National Joint Powers Alliance (NJPA). CDW•G is solutions-focused, vendor agnostic and provides consultation to assist our customers to select the contract best suited for their specific procurement needs. For all of our national contracts, we have maintained the transparency of our contract portfolio to our customer and negotiated the removal of language such as “most favored customer” and requirements such as this.

CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our portfolio of offerings. We have transitioned a number of customers and their solicitation opportunities to this contract, in the form of participating agreements. Some of these customers include the City of New York, City of Phoenix, City of Atlanta, University of Colorado, and DeKalb County. Moving forward, we will continue to loop new members in to the contract and sustain the growth.

- D. Acknowledge that your company agrees to provide its company/corporate logo(s) to National IPA and agrees to provide permission for reproduction of such logo in marketing communications and promotions.

National IPA has several CDW•G logos at their disposal under our general guidelines for intended use, they are included here for ease of evaluation.

Logos & Guidelines

CDW welcomes customers, media and other entities to use our corporate logo, as needed. The core component of CDW's brand identity is its corporate logo; therefore, we ask that you carefully consider the following guidelines when using it.

When using the CDW logo, you agree to the following:

1. You may use the logo(s) only in the exact form provided by CDW and only to accurately and actively link from a website that is under your control to the home page of CDW.com (or another address provided by CDW) and for no other purpose.
 2. You may not incorporate the logo(s) into any other logo or design.
 3. You may not to use the logo(s) in a way that suggests that you or your company or products are affiliated with CDW or its products or services in any way.
 4. You may not display the logo(s) on any website that disparages CDW or its products or services, infringes any CDW intellectual property or other rights, or violates any law or regulation.
 5. No other logo or design element should appear within 0.5 inches of the CDW logo.
 6. You may not frame or alter the CDW website in any way.
 7. At CDW's direction, you will immediately remove the logo(s).
 8. Your limited right to use the logo(s) does not constitute a grant of any other right or license. All other rights are reserved by CDW.
 9. CDW disclaims all warranties, express and implied, regarding the logo(s), including warranties against infringement. You agree to indemnify CDW from and against any and all claims and liabilities arising out of your use of the logo(s).
- E. Supplier is responsible for proactive direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by National IPA. All sales materials are to use the National IPA logo. At a minimum, the Supplier's sales initiatives should communicate:
- I. Master Agreement was competitively solicited by a Principal Procurement Agency

- II. Best government pricing
- III. No cost to participate
- IV. Non-exclusive contract

We are happy to update our current National IPA flyer with the new contract information. We would like to further discuss the inclusion of II and IV, and will revise our marketing pieces to include mutually agreeable message that best represents the value of the contract.

NATIONAL IPA™

EXPERIENCED * FOCUSED * TRUSTED

CDW•G is YOUR Solution for Modern-Day Classrooms!

CDW•G Is Committed To Texas K-12 Education

Today's modern-day classrooms are using technologies such as mobile devices, interactive technology and engaging learning spaces to make teaching and learning more effective. CDW•G understands K-12 education and will help you discover the solutions that can help improve learning outcomes, while keeping your classrooms connected and networks secure.

CDW•G offers multiple solution sets to meet your classrooms every need. Below are some of the key suppliers that CDW•G partners with.

Platform Solution Set

Devices Solution Set

Networking Solution Set

Audio Visual Solution Set

2. Provide a description of the product lines that can be provided by your firm.

CDW•G Response: CDW•G is offering our entire catalogue, including our complete portfolio of product offerings which includes over 100,000+ products from more than 1,100 vendors. We also offer a full suite of professional services to users of this contract. Given the landscape of the IT industry and its rapid changes, we have defined these categories broadly to easily facilitate adding new technologies and services to the resulting Agreement over the contract period. We intend to be your go-to supplier for all of your IT solution needs; so, whatever your need may be, you can be sure we have the solution that works for you. We are the largest, direct reseller in the US for many of our OEM partners which include: Adobe, Cisco, HP, Lenovo, and Panasonic. Based on the strength of our success and our product portfolio, we are able to offer our customers the newest technologies, more robust discounts, and OEM support unavailable with our competition. Additionally, as technology is constantly evolving, we are always on the lookout for new vendors and new technologies to add to our offerings. Our product line cards, organized by product category and manufacturer, follows this page.

3. Provide a description of the services that can be provided by your firm.

CDW•G Response: Our services portfolio that we bring to our customers encompasses a wide array of both standard and specialized services. With over 1,600 highly trained and certified engineers in 30 locations nationwide, we offer the City of Mesa and National IPA contract participants the most optimal services in the IT industry. Below is a sampling of the services we provide to our customers:

Cloud Computing: We know how important cloud computing is to our customer base, and are determined to lead the industry in mastering this complex, highly customizable service. Our internal cloud campaign is educating our Account Managers on how to assist our customers in determining the best-valued cloud option for their needs, while our technicians continue training to master the solution, and working with our manufacturer partners to expand our portfolio. Our Cloud offerings do require an additional Cloud Services form, but your Account Manager will walk you through the process.

CDW•G offers a cafeteria-style set of cloud solutions. Our portfolio includes public, private, community, and hybrid deployment options. Our broad cloud offering currently includes over thirty different manufacturers, and we continue investigating other manufacturer solutions to add to this portfolio. Our cloud computing solutions; Software as a Service (SaaS), Infrastructure as a Service (IaaS), and Platform as a Service (PaaS), cater to the specific needs of the span of our entire customer makeup

Consulting and Analysis: Most of our projects begin with either an assessment or planning and design session. CDW•G technical specialists and field solution architects are experts in many areas including unified communications, networking, wireless, network and physical security and server/storage solutions. CDW•G will save contract members staff time and effort because our experts have already initiated the due diligence process. We share our knowledge of the latest technologies as well as our expertise regarding the pros and cons of each potential solution. We also offer a variety of more complex consulting/analysis solutions for those customers who need a more in-depth evaluation of their systems.

Technical Support: CDW•G's Staff Augmentation services offering includes assisting customers with onsite help desk and technical support services. This service provides skilled, temporary staffing to assist with IT challenges

Trade-Ins: CDW•G coordinates with our manufacturer partners to provide trade-in services to our customers.

Repair: In addition to offering onsite repair, we have our own repair center. CDW's Repair Center offers fast turnaround time and low cost out-of-warranty repair prices, as well as great in-warranty service. Our factory certified repair technicians complete typical repairs on an average of 7-10 business days. We are an authorized Service Center for the following Manufacturers:

- | | | |
|-------------------------------|------------------------------|-----------------------------------|
| ☐ Acer | ☐ HP | ☐ Service Net |
| ☐ Apple | ☐ IBM | ☐ Sony |
| ☐ Fujitsu | ☐ Lenovo | ☐ Toshiba |

Please note: due to manufacturer policies, limitations, and agreements, CDW may not be able to service all computer models or lines made by these manufacturers.

Design: Most of our projects begin with either an assessment or planning and design session. Our architects review your needs and perform an evaluation of your existing environment to develop a comprehensive solution to meet your particular project objectives.

Configuration/System Configurations: While onsite configuration services are available, CDW•G often recommends our in-house configuration services. CDW•G builds preconfigured technology solutions in our two ISO 2008-certified configuration centers, so they arrive at their correct location(s) ready to plug and play. We have a 25,000-square-foot configuration center in our North Las Vegas distribution center and a 24,000-square-foot configuration center in our Vernon Hills, IL distribution center, including an 8,000-square-foot enclosed area for enterprise configurations. To complement this space, CDW•G has more than 150 configuration technicians, providing a spectrum of customized configuration services.

CDW•G's configuration services include:

- Hardware and software installation and configuration
- Customized imaging
- Asset tagging, custom labeling, and laser etching
- Router/switch configuration
- Server rack configuration

Implementation: Our national footprint is expansive, with over 600 engineers on staff in more than 26 service offices, complimented by a national traveling team. Additionally, we have capabilities to ship 3,000+ custom-configured systems daily; we configure over 750,000 custom solutions in our two state-of-the art distribution centers annually. Our large number of engineers, paired with our configuration capabilities, allows CDW•G to handle any rollout project that contract members may have.

Training: CDW•G's project methodology ensures technicians and project managers work with the mindset of being an extension of the customer's IT staff. Throughout the project our team not only focus on designing bullet-proof solutions, but continually engaging the IT staff; sharing knowledge, and ensuring the staff knows how to navigate the solution in which the customer vested their resources. Should a customer require training outside of this transfer of knowledge, we have a blended solution of CDW•G offerings, manufacturer standard trainings, and technology training companies.

Maintenance: CDW•G recognizes that maintenance/support contracts are of great importance to many customers because uptime is vital to their success. Our strong partnerships with the industry's top technology manufacturers, paired with our own maintenance solutions, offers a variety of viable options to our customers. Our maintenance options include the following:

- Warranty extensions and upgrades
- Post-warranty support
- Accidental damage protection
- Maintenance contract agreements (coterminous, break/fix, and retainer)
- Post-sale technical support
- Product and certification
- Help desk services

Hardware and Software Installation: Our installation services encompass the following solutions. Installation services can include installing and deploying new systems; moving existing equipment; assessing systems and testing installed equipment; and advanced IT support. We also offer staging options, should a customer need to complete their installation in numerous rollouts.

- Client Computing Installation
- Data Center Installation
- Network Installation
- Security Installation
- Microsoft Configuration and Installation
- Microsoft Accelerators
- Visual Solutions Installation

System Testing: All of CDW•G's service projects incorporate testing every aspect of the final solution, ensuring all acceptance criteria is met.

Upgrades: Many products offer a variety of system upgrades. Our dedicated Account Managers work with their customers to explain the benefits of each upgrade, and help determine if these upgrades would be a wise purchase for the customer's needs. The Account Manager then collaborates with CDW•G dedicated manufacturer partner specialists to incorporate the upgrades into the final product build. Additionally, CDW•G performs a number of upgrades, such as asset tagging and laser etching, in house in our configuration center.

Imaging: In addition to our configuration services, CDW•G performs imaging services in house in our configuration centers as well. Our A+ certified imaging technicians routinely image the following products:

- Laptops
- Desktops
- Workstations
- Flash Drives
- Servers
- Hard drives
- Apple products, including iPods and iPads

Customers can provide their own image or CDW•G can create one for them. As with all services completed in our configuration centers, each piece of equipment goes through a comprehensive quality assurance check prior to shipping to ensure the unit is function properly. CDW•G also stores images on our secure server, completely isolated from other networks, and only accessible to a few authorized individuals. Many times customers choose to have us store their images as it allows CDW•G to load custom configured images quickly on their machines.

- 4. Provide a detailed description of any programs available for Participating Agencies seeking to set and meet goals for historically underutilized businesses (e.g. minority, woman, veteran, disabled, etc.). Discuss how transaction is between offeror and tier one suppliers and Participating Agencies and tier one suppliers will be tracked and accounted for and any quality assurance measures that are in place to assure a high-performance standard for tier one suppliers.**

5. Describe how your firm proposes to distribute the products/services nationwide.

CDW•G Response: We have access to more than 100,000 top brand-name products from more than 1,000 manufacturers. We carry over \$220 million in inventory, and ship most in-stock products the same day they are ordered. Because of our distribution centers are strategically located in Vernon Hills, IL and Las Vegas, NV; we have the capability to deliver a wide array of shipping options that best fit your needs.

Because of our position as one of the largest direct resellers in the U.S., we work closely with all of the major shipping companies to ensure you receive your orders on time. We work with UPS, FedEx, CEVA, UPS Freights, Dynamex, and Veterans Messenger service to get you what you need, when you need it. We offer overnight, same day, 2 day, 3 day, and ground shipping options to best meet your needs. On average, we ship up to

54,000 boxes per day and contract purchasers receive a shipment from CDW•G in just **3-5 days**, far surpassing our competitor's capabilities.

Our two distribution centers have a combined square footage of almost a million square feet. Every stage of our distribution process is automated, with our custom-designed sorting systems, built to optimize the shipping process. Packed boxes are sorted and weighed onto the conveyor system. Combined, our distribution centers have almost twelve miles of conveyor belts that feed the sorting system. The barcode scanner reads the shipping label and the packed box's correct loading dock is determined. Once the order shipment is ready for loading, a final scan determines the correct truck (for instance, FedEx overnight) and sends it down the designated conveyor into the truck. The automated systems even help to load the trucks in ways that optimize shipment-processing speeds. When your package reaches the correct shipping portal, the sorting system drops your package down a chute that brings your order to the door dock to be loaded onto the correct carrier's truck and then your package is on its way for delivery.

The benefits of our automated distribution systems are that the City of Mesa will receive the right products, configured to your specifications and ready to use out of the box, and delivered on time

6. Identify all subcontractors that will be involved in processing agency orders under this contract and describe their distribution/delivery processes.

CDW•G Response: CDW•G believes another important step in successful order fulfillment is utilizing shipping partners that are as focused on customer service excellence as we are. CDW•G processes all purchase orders. If our customers have customized agreement that

include a Tier 1 diversity requirement, we work with diverse supplier partners local to customers, to deliver your products and your orders on time.

Distribution Partners. Our Distribution Partner Network includes over 130 different suppliers, meaning we can provide any product National IPA members would need. Like our OEM partners, we're the largest partner for many of our Distributors. And like our manufacturer partner relationships, this results in direct benefits for CDW•G and our customers. Most send us EDI downloads or real time information on their available inventory, resulting in access to products usually in as little as a day. As another example, we are a top Ingram Micro partner and hold Elite Partner status. This partnership provides a customized and exclusive support resource to our Account Teams and customers, among other benefits. The CDW dedicated priority phone queue has an average wait time of less than two minutes.

We ship the majority of our products via UPS and FedEx, due to their extensive service capabilities, excellent record for on-time delivery and competitive pricing. In fact, both companies have employees on site at our warehouses, individuals with a long history of supporting CDW•G. We can also leverage the carrier's intermodal transport options. Additionally, we have contracts with truck load (TL) and less than truck load (LTL) carriers for large orders and heavy products. If a carrier is not meeting our on-time delivery requirements, we remove the carrier from our preferred shipper list.

Shipping Partners. We have a number of shipping partners to provide our customers their products, fast. In fact, both companies have employees on site at our warehouses. These individuals have a long history of supporting our logistics operation, ensuring efficient processing and movement of customer orders. This helps us keep our carrier goal of 99.04%, beating the industry standard of 98%. Some additional benefits of our UPS partnership includes a customized Loss Prevention Program to ensure integrity of customer packages; a collaborative tracking program with our customer relations department; and IT automation between

All contract management functions will continue to be handled by Mark Ellis and his Program Management team. When any of our partners are involved, CDW•G manages the relationship and liability involved. We do ask customers to mutually agree to and sign Statements of Work for all service engagements through CDW•G. This is to ensure we keep Members apprised of the responsibilities, timelines, and progress of the project.

In instances where customers would like to integrate their e-Pro applications with our own, CDW•G will provide the integration assistance; however, the relationship the member has

with their e-Pro application vendor is their own, any applicable vendor fees resulting from the integration will be the responsibility of the member

- 7. Provide the number, size, and location of your firm's distribution facilities, warehouses, and retail network as applicable. Provide information on the productivity of your facilities and systems as follows:**
- a. How many orders are processed daily on an average**
 - b. How many devices does your facility configure daily on an average**
 - c. What is the highest number of orders processed in a single day**
 - d. What is the highest number of devices configured in a single day from the facilities described**

CDW•G Response A: Our two distribution centers process an average of 54,000 units per day.

CDW•G Response B: Our configuration staff, which includes 200+ Technicians, Engineers, Management, and Support Staff, complete an average of 7,000 custom configurations per day.

CDW•G Response C: At peak times, our two distribution centers process a combined average of 135,000 units per day.

CDW•G Response D: During seasonal spikes, our configuration staff configures almost 12,000 devices per day.

CDW•G's two strategically located distribution centers have a combined size of almost one million square feet. Our Central Distribution Center in Vernon Hills, IL, ships primarily to customers in the eastern half of the U.S. Our Western Distribution Center, in Northern Las Vegas, NV, ships primarily to customers in the western half of the U.S. However, each distribution center serves as backup for the other. They receive inventory valued at about \$21.0 million per day, or between 78 to 80 truckloads a day, processing a combined average of 135,000 units daily. A state-of-the-art Warehouse Management System (WMS) controls both of these centers, ensuring speed and accuracy throughout the order fulfillment and distribution processes.

CDW•G's Configuration Centers, also located in Vernon Hills and Las Vegas, maintain a combined square footage of over 100,000 feet.

In addition to working with OEM partners to supplement our direct purchasing model, CDW•G has developed strong affiliations with principal distributors. Like our OEM partners, they send us daily electronic data interchange (EDI) downloads, giving us visibility to inventory at their locations. Further, our top three distribution partners provide real time inventory information. Using this multi-layered procurement structure, we secure out-of-stock product(s) within as little as 24-48 hours, depending on customer requirements.

8. State any return and restocking policy, and any fees, if applicable associated with returns.

CDW•G Response: CDW•G offers a 30-day return policy on most products sold. Of the returns we accept, a minimum 15% restocking fee applies for non-defective product returns. Please see Tab 7 "Appendix" for our full return policy.

9. Describe your invoicing process. Is electronic invoicing available? Is summary invoicing available? Are there other options on how an agency receives an invoice?

CDW•G Response: CDW•G mails invoices the day after the product(s) is shipped out of one of our distribution centers or, if you prefer an electronic invoice, you can request that invoices be sent via PDF instead. We send the PDF the same day that the system generates the invoice. When a product is drop-shipped from a vendor, CDW•G invoices the customer once we receive the invoice from the vendor. As an added convenience, you can also print copies of original invoices via your CDW•G Extranet. Our standard invoices include the information listed below.

- | | |
|-------------------------------------|---|
| • CDW•G remit to address | • CDW•G part number |
| • Invoice date | • Description of product |
| • Invoice number | • Quantity ordered/shipped |
| • PO number affiliated with invoice | • Unit price (based off of pricing structure agreed to in the contract) |
| • Payment due date | • Extended price |
| • Order date | • Ship to address |
| • Shipping method | |

All of the information pertaining to the customer's specific requirements are included on the invoice as well. CDW•G supports many EDI formats and can customize invoices to reflect customers' required data fields. For more information regarding our EDI capabilities, we encourage the City to visit www.cdwg.com/edi.

10. Describe your delivery commitment:

a. What is your fill rate guarantee?

CDW•G Response: CDW•G's same-day fill rate is between 97-99% for credit-approved orders and in-stock product, depending on the complexity of the order and this is our best effort and therefore, not a guarantee. Should an item be out of stock, it typically takes 2-10 days, after receipt of order, to receive the product (subject to availability). We receive timely notification regarding product changes, including advance notification of product shortages, and products nearing end of life. When there is a product shortage and other vendors do not have access to these products, we can often procure them from another source. Many times when CDW•G receives notification of an upcoming stock outage, we utilize our distribution center's large capacity for volume purchases, keeping stock on hand for our customer's present and future needs.

b. What are your delivery days?

CDW•G Response: CDW•G's standard delivery is M-F excluding Thanksgiving, Christmas, and New Year's Day. Arrangements can be made based on need to fulfill orders on weekends and holidays for an additional fee. Customers should provide at least a 48-hour notice in order to allow time to properly set up any weekend or holiday deliveries.

c. Do you offer next day delivery?

CDW•G Response: Yes, CDW•G can ship same day, overnight, 2nd day, 3rd day, and ground. An expedited freight charge may be added for this service.

d. How do you facilitate emergency orders?

CDW•G Response: Whenever a contract member's order requires expediting, CDW•G treats it with priority. We direct all customers to contact their dedicated Account Manager if an emergency situation arises. They focus on placing the order and arranging for expedited delivery. Due to our very large inventory at our two distribution centers, we usually have the products in stock and available for immediate shipping. Our vast distribution capabilities means that we can draw from our OEM partners to ensure that, if we do not have your item in stock, we can still procure and deliver your order.

e. Are shipping charges exempt for ALL who use this contract?

CDW•G Response: Prices include lowest ground freight for shipments/packages less than 70 pounds within the 48 contiguous United States when referencing this Agreement. All orders are subject to Seller's standard shipping policies in effect at the time of order placement. In those instances that are larger than 70 pounds or call for express or overnight delivery, shipping costs will be pre-paid by Seller and added to the customer invoice. There is no additional fee assessed for smaller orders, unlike some of our competitors.

Since inception of this contract, we have become authorized for increasingly complex technologies, including large storage arrays where freight costs must be considered in the overall quote to the customer. In separating shipping costs for heavier items, it removes the need to consider the costs in the entire category discount, and allows us to provide customers deeper discounts for all products that fall within the category

f. Describe how problems (such as a customer ordering a wrong product or a customer receiving a defective product; etc.) are resolved.

CDW•G Response: CDW•G encourages customers to contact their Account Manager to assist with any such issues. If the Account Manager evaluates the issue and if they cannot personally assist the customer, they will engage and collaborate with our Customer Relations Department to assist. Customers may also reach out to Customer Relations directly.

If a wrong product is ordered, the customer's dedicated CDW•G Account Manager will work with the customer to determine the best solution to resolve the issue. For any products returned, whether defective or incorrect item, CDW•G requires customers to provide a Return Merchandise Authorization (RMA) number before shipping back any product. This process allows us to expedite the process and helps ensure the proper action or credit,

upon processing. Customers can get the RMA request form from their Account Manager, online via their CDW•G Extranet Account, or by contacting Customer Relations.

CDW•G tracks the reason for all returns, allowing us to make appropriate changes, as necessary. For example, a high volume of returns damaged in shipment would lead us to audit the carrier and review product packaging. CDW•G also monitors how quickly and efficiently the Customer Relations staff handles RMA requests, aiming to respond to requests within 24 hours or less.

11. Describe the types of customer service available to agencies that use this contract:

CDW•G Response: Your Account Manager stands ready to assist you in any type of query you may have and is available, during business hours and beyond, to assist you and your customer service needs. Their sole goal is to ensure your complete satisfaction. If you experience any type of technical issue, your Account Manager will facilitate a timely resolution.

In the event that your Account Manager is unavailable, CDW•G's customer service team is well-equipped to help you resolve your problem. All customer support is based in the United States. All Help Desk technicians are CompTIA certified; hold at a minimum A+ and Network+ certifications, and many are accredited in various engineering and manufacturing training courses. Our customer service team assists customers to ensure the product is working as the manufacturer intended. CDW•G provides this value added support, at no charge, for up to two years or manufacturers end of life, whichever comes first.

We offer our customers Sales Support, Technical Support, and Website Support. All of our customer support options can be accessed via phone, fax, email or chat. For all of our support options and hours of operation, please visit: <https://www.cdw.com/content/contact-us/support.aspx>.

a. Is online support available?

CDW•G Response: Yes, CDW•G's online technical and customer support services include live chat and E-support, and remote support.

Live chat and E-support

To supplement our industry leading toll-free technical support, we provide access to online live chat, accessible through the customer's Extranet site. We staff this support by our

trained technicians from 6am to 5pm MST. This site also provides support case management.

Remote Login

Our technicians have access to LogMeIn, a remote login utility, which allows them to connect to the end users computer for more in-depth troubleshooting and quicker resolution.

b. Is phone support available?

CDW•G Response: Customers can use our toll free phone number 800.383.4239, Monday – Friday from 6 am – 6 pm MST, to reach our dedicated technical support team.

c. Can agencies request a dedicated service representative and/or a dedicated service team? If a dedicated customer service representative and/or team are assigned, what types of services does the representative/team provide? How do you help the customer manage our account?

CDW•G Response: With CDW•G every customer is automatically provided one single point of contact, their Account Manager, from the very first inquiry for service. Irrespective of the size of your order or what your needs might be, every CDW•G customer receives a dedicated Account Manager who will see to ensuring your satisfaction. Account Managers are assigned to customers based on a specific segment (State and Local government, Higher Education, K12, etc.), as well as a specific region in the country.

CDW•G Account Managers attend onboarding training, known as the “Account Manager Academy,” for three months before they begin interacting with customers on their own. This training program focuses on sales consulting, product training, operational systems, and customer service. This process is much longer than industry standard practices, providing a higher level of support that our customers are quick to notice. Our Account

Managers also participate in the Sales Residency Program which delivers another layer of customer-focused training to your Account Manager.

On average, our customer relationship is 11.1 years which means our Account Managers dedicate their time to getting to know our customers and what drives their purchasing decisions. This means that our customers, particularly in the public sector, choose to work with us, year after year. This is a testament to our dedication to our customers' satisfaction.

Account managers focus on learning their customers' processes, requirements, needs, and challenges. For larger, enterprise class accounts, there are multiple Account Managers assigned to those accounts. These teams work as a team to make sure you receive the highest level of customer service. This allows them to provide expertly the following services to agencies:

- o Registration assistance to participate in National IPA
- o Contacting customers and notifying them of the benefits of the contract
- o Pre-sales consultation, including providing product and system compatibility information
- o Providing industry - specific insight on technology solutions
- o Acting as a quality control check by reviewing and approving all quote requests
- o Keeping customers abreast of availability issues and assisting with any needed alternative sourcing options
- o Coordinating any special delivery requests, including emergency orders
- o Working with available CDW•G resources, and coordinating contact for any needed subject matter expert insight
- o Keeping updated and available to assist in developing a service solution
- o Facilitating communication between the customer and National IPA, as needed

CDW•G ensures Account Managers are supported by a network of subject matter experts. Account Managers utilize these resources to provide complete guidance to their customers. This network includes:

Sales Manager	Sales Managers lead a team of Account Managers and Account Specialists to provide comprehensive solutions and outstanding sales support. They visit customer site(s) for business planning and discussions of future projects, as needed. They also assist Account Managers with expedited orders and problem remediation.
Business Development Manager	Our public sector also has Business Development Managers who focus on aligning with our customers. Their main role is to work with customers' procurement teams to review current contracts, align with strategic initiatives that the procurement team is looking to roll out, act as project manager for B2B integrations and a main point of contact to help resolve issues.
Field Account Executive	Field Account Executives ("FAE") work in tandem with Account Managers and Account Specialists to provide comprehensive solutions and outstanding sales support. Each FAE is dedicated to a specific region and industry, and provide onsite visits to customers in communities across the country. Their site visits include business reviews and other meetings, as needed. FAEs also work with System Engineers to provide onsite road mapping, project development, and technical expertise.
Solution Architects	Customers also have dedicated Solution Architects (SA) for each of their service solution needs. Solution Architects are dedicated to specific Account Teams and are the expert in supporting our customers with the appropriate service resources and tools including deployment technicians, project management and implementation engineers. The Solution Architect works closely with CDW•G customers to accurately

	scope project requirements, making certain we provide the specific skills, proper staff and solution needed to fully service the customer. Upon agreement to move forward with the service offering, the Solution Architect hands off the service delivery to the customer's dedicated CDW•G Project Coordinator and/or Project Manager to ensure successful execution.
OEM Specific Resources	Account Managers utilize an integrated network of both internal and external sales force. Many OEMs have pre-sales engineers and channel account managers (often onsite at CDW•G) providing consultation and immediate support to Account Managers. CDW•G badged Brand Managers, Field Solution Architects, and Partner Business managers work with both Account Managers and the external teams mentioned, providing further support.
Program Manager	Program Managers launch and manage contracts once awarded. They are a valuable resource to Account Managers, training Account Managers in the contracts scope and guidelines, provide contract information and updates, and assist with Extranet/Premium page issues.

d. How are problems resolved?

CDW•G Response: CDW•G Account Managers assist their customers in resolving any issues and is the primary point of contact for problem resolution. Your Account Manager has extensive relationships with our OEM partners and have internal processes to escalate your problem to the appropriate resource with our partners. Your Account Manager, being your primary point of contact, will address or route to his support team issues regarding:

- Customer service requests
- Quote and order issues
- Billing problems

If your Account Manager is unavailable to assist you, he/she will escalate your issue to their Sales Manager. If for any reason their Sales Manager is unable to resolve the issue, they will escalate the problem to their Director or the segment Vice President, if needed.

You may contact CDW•G's Customer Relations department at either 866-782-4239 or CustomerRelations@web.cdw.com. A representative will be assigned to your case, based on their skills and expertise, who will then engage the resources necessary to resolve your issue. CDW•G tries to resolve all issues within 24 hours.

If a problem is in regards to an Account Manager, we encourage customers to contact the Account Managers Sales Manager.

e. What are the location and hours of your call centers?

CDW•G Response: We have call

centers in North Las Vegas, NV; Vernon Hills, IL; Phoenix, AZ; Shelton, CT; Tampa, FL; Reston, VA; and Eatontown, NJ. Their hours of operation are 6am-8pm MST.

We strive to make it easy for our customers to get in touch with us. From your dedicated Account Manager to our customer service team, we have multiple options available to our customers to address your needs. CDW•G provides post-sales customer support Monday – Friday from 6am – 6pm Mountain Standard Time. Our customer service team assists customers to ensure the product is working as the manufacturer intended and work with them in case of any issue. CDW•G provides this value added support, at no charge, for up to two years or manufacturers end of life, whichever comes first

f. What response time is guaranteed when a customer service request is made?

CDW•G Response: Response depends on the seriousness of the request made but typically CDW•G makes every effort to respond to all Customer Service Requests (CSRs) within 24 hours. CDW•G understands some requests are more urgent than others, and utilizes a detailed incident management process for critical systems. Severity level dictates the response time of this practice and employed for issues with our own network services, co-located systems, hosted solutions, websites, or our Internet services.

We constantly monitor our customer service process, ensuring we are continuing to meet the needs of our customers. The Customer Relations Supervisor reviews all CSRs at the end of the day to ensure that each CSR is being handled promptly. Additionally, Customer Relations Quality Analysts audit 30 cases per Customer Relations Representative per month to ensure representatives meet quality standards and that we provide proper training. We make adjustments and evaluate process changes as needed when we see high volumes for particular types of Customer Service Requests (CSRs).

g. Do you measure/track the success of your customer service program? If so, how do you do this, and what are your findings?

CDW•G Response: Yes, we focus continually on improving our ability to provide the best service and products in the industry to our customers. Most inquiries and issues are resolved by your Account Manager. We have an internal customer assistance network (ICAN) that supports your Account Manager in providing you with optimal customer service. Our internal network helps your Account Manager resolve issues with: purchasing, drop ship, new items, and distribution. This internal network strives to resolve issue in 3 hours or less. Beyond your Account Manager, we have a number of corrective processes in place which include:

- o Our Purchasing Department monitors return rates on purchased products to look for quality issues.
- o We aim to respond to Return Merchandise Authorization (RMA) requests within 24 hours.
- o When we see high volumes for particular types of Customer Service Requests (CSRs), or RMAs we make adjustments and evaluate process changes, as needed.
- o The Customer Relations Supervisor reviews all CSRs at the end of the day to ensure that we handle each CSR right away.

- o Customer Relations Quality Analysts audit 30 cases per Customer Relations Representative each month to ensure our representatives are meeting quality standards and that we are providing proper training.

We offer many ways for our customers to provide us with their feedback, the primary avenue being the website (www.cdwg.com/content/about/cdw-reviews.aspx). The results have been overwhelmingly positive, with customers rating their experience with CDW•G 4.6 stars out of 5. We also survey our customers to understand how we can meet their needs better. In 2016 we added three additional surveys to better respond to our customers. We've begun to specifically survey our customers' opinions in the following additional areas:

- o Sales Contact Center
- o Customer Relations
- o Advance Technology Services

CDW•G conducts monthly loyalty surveys to measure the customer's perception of CDW•G. We utilize these surveys to collect information for several internal departments including shipping, billing, and customer relations. We select customers on a random basis to participate in the surveys. If a customer ranks us "poor" or "fair", then the appropriate CDW•G department contacts the customer to determine the reason for their unsatisfactory response and offer additional action to rectify the problem. This fortunately is rare, as the majority of end-users express favorable survey comments. The positive comment that we receive most often is "*CDW•G is extremely customer focused*".

h. Describe in detail your company's ability to hold/warehouse customers' orders and if there are any costs associated.

CDW•G Response: We will work with you to hold and warehouse your products in our distribution center for a pre-arranged period of time, depending on your project needs. CDW•G will purchase your products from the OEM or distribution channel partners and perform any required configurations. At that point, we will hold your products at our distribution center until you are ready for them. With 48 hour notification, we will prepare your order for shipment and release your order based on your schedule.

Typically customers will pay upfront for this service: one charge for the space to hold your purchase and one charge for the labor. Space and labor fees are based on the factors such as the pallet space required, the amount of time you request to hold your products in our warehouse, and the timeline for your product shipments. These fees are negotiated prior to warehousing your purchases and your Account Manager can provide you with more information on our holding and warehousing capabilities

12. Describe how your company will assist customers in navigating OEM warranty process.

CDW•G Response: Your Account Manager will assist you in navigating the OEM warranty process. Products sold by CDW•G come with the manufacturer's standard warranty and the City of Mesa customers can contact our Technical Support Department for technical support on hardware purchased from CDW•G. We provide technical support on the products that we sell for up to two years from the date of purchase. If the Technical Support representative

determines the customer needs warranty support, they connect them to the manufacturer's warranty department.

CDW•G offers a number of product lifecycle support options in addition to manufacturer warranties. This suite includes:

- Warranty extensions and upgrades
- Post warranty support
- Accidental damage protection
- Maintenance contract agreements
- Post-sale technical support
- Product and certification training
- Help desk services

We send warranty expiration emails to our Account Managers, who then inform their customers when their hardware protection is about to expire. Account Managers assist their customers in determining the best warranty and coverage solutions to keep IT investments up and running, or finding a best-valued replacement.

13. Describe how your firm will notify customer of new products.

CDW•G Response: As technology is constantly evolving, there are always new products and services coming to market. Our customers depend on the latest technologies to make their enterprises run more efficiently and CDW•G prides ourselves on being on the forefront of technical development in the IT industry and our relationships with top manufacturers often results in advanced notification of upcoming releases of new products. Our website, www.cdwg.com, is constantly updating with new products and services that we offer to our customers. Our live catalogue is updated daily and you can browse our most current products and services.

As a contract customer, we deploy a number of ways to keep you informed. Via our website (www.cdwg.com) and your Premium Page, you will be able to view the latest technologies available to you and pricing options to help you make better-informed purchasing decisions. They are constantly up-to-date on the most current and emerging technologies. Be it your Account Manager, our website, or your Premium Page, you can be sure that we will work tirelessly to keep you informed of ways to improve how you do business and which solutions best fit your needs.

14. Describe how your company will assist and support customers when their standardized is reaching EOL (end of life).

CDW•G Response: We often receive advance notification from manufacturers when a product is nearing end of life, and we make every attempt to communicate these changes to customers who may be affected. Your Account Manager will be the first source of updates on products that are nearing end of life. Because we maintain a live catalogue on our website, you will also be able to see in real time which products that we offer are nearing end of life. Your Account Manager also has visibility into our distribution partners' warehouses through EDI feeds updated at least twice daily. As part of their value-added service, they assist customers in finding substitute products that will help customers achieve the same business results.

15. Describe if technical support questions are handled the same way as a customer service request? If not, describe the type(s) of technical support available, the location of technical support, and the hours of technical support. Is it the intent to use employees of your company or will this be an outsourced function?

CDW•G Response: Your Account Manager stands ready to help you navigate this process. They receive regular trainings on new products and technologies from OEMs, receiving OEM certifications as trained, certified experts which enable them to assist their customers. We encourage customers to contact their Account Manager when technical support is necessary. If the Account Manager is unable to assist, he/she determine the best next steps. They may work with the customer and dedicated manufacturer support coworker to resolve the issues, solicit assistance from their Sales Manager, or connect the customer to our help desk. CDW•G customers can also contact our technical support team directly from our website or their Extranet site, in a variety of ways including email, chat, and telephone. Our technical support team is available Monday – Friday from 6am – 6pm Mountain Standard Time. All customer support is based in the United States. All Help Desk technicians are CompTIA certified; hold at a minimum A+ and Network+ certifications, and many are accredited in various engineering and manufacturing training courses. Our customer service team assists customers to ensure the product is working as the manufacturer intended. CDW•G provides this value added support, at no charge, for up to two years or manufacturers end of life, whichever comes first.

16. Describe what other services you offer that would be applicable to this contract (e.g. cloud, services, maintenance, implementation, design, analysis, training, repair, etc.)

CDW•G Response:

Available Services	
Cloud	Our cloud services will enable you to grow as cloud solutions change and evolve over time. We have been at the forefront of the emerging virtualization technology and are well-positioned to advise you on the Cloud Solution that best fits your needs. We are vendor neutral and we currently work with over 40 cloud solution providers. We offer a range of Cloud Solutions and will work to make sure that you receive the most cost-

	effective solution. Some of our Cloud Solution services include: • Planning Services • Migration Services • Integration Services • Managed Services
Maintenance	CDW•G recognizes that maintenance/support contracts are of great importance to many customers because uptime is vital to their success. Our strong partnerships with the industry's top technology manufacturers, paired with our own maintenance solutions, offers a variety of viable options to our customers. Our maintenance options include the following: • Warranty extensions and upgrades • Post-warranty support • Accidental damage protection • Maintenance contract agreements (conterminous, break/fix, and retainer) • Post-sale technical support • Product and certification training • Help desk services
Implementation	Our national footprint is expansive, with over 600 engineers on staff in more than 15 service offices, complimented by a national traveling team. Additionally, we have capabilities to ship 3,000+ custom-configured systems daily; we configure over 750,000 custom solutions in our two state-of-the art distribution centers annually. Our large number of engineers, paired with our configuration capabilities, allows CDW•G to handle any rollout project that contract members may have.
Design	Most of our projects begin with either an assessment or planning and design session. Our architects review your needs and can perform an evaluation of your existing environment to develop a comprehensive solution to meet your particular project objectives.
Consulting and Analysis	Most of our projects begin with either an assessment or planning and design session. CDW•G technical specialists and field solution architects are experts in many areas including unified communications, networking, wireless, network and physical security and server/storage solutions. CDW•G will save contract members staff time and effort because our experts have already initiated the due diligence process. We share our knowledge of the latest technologies as well as our expertise regarding the pros and cons of each potential solution. We also offer a variety of more complex consulting/analysis solutions for those customers who need a more in-depth evaluation of their system.
Training	CDW•G's project methodology ensures technicians and project managers work with the mindset of being an extension of the customer's IT staff. Throughout the project our team not only focuses on designing bullet- proof

	solutions, but continually engaging the IT staff; sharing knowledge, and ensuring the staff knows how to navigate the solution in which the customer vested their resources. Should a customer require training outside of this transfer of knowledge, we have a blended solution of CDW•G offerings, manufacturer standard trainings, and technology training companies.
Repair	In addition to offering onsite repair, we have our own repair center. CDW's Repair Center offers fast turnaround time and low cost out-of-warranty repair prices, as well as great in-warranty service. Our factory certified repair technicians complete typical repairs on an average of 7-10 business days. We are an authorized Service Center for the following Manufacturers: • Acer • Apple • Fujitsu • HP • IBM • Lenovo • Service Net • Sony • Toshiba
Asset Tagging/ Configuration	We provide asset tagging and configuration services To better help our customers protect their assets and to ensure that you have an accurate accounting of your inventory. We provide multiple asset tagging options: From serial or part numbers, to location or manufacturer, your equipment can be asset tagged using our CDW•G asset tags or your own tags, customized to your specifications. We can configure your equipment in our Configuration Centers according to your needs so that your products come ready to use out-of-the-box. These services will save you time and increase productivity. Your Account Manager will help you determine which options are the best fit for you.

Please note: due to manufacturer policies, limitations, and agreements, CDW may not be able to service all computer models or lines made by these manufacturers.

17. Describe options for leasing and financing and the various payment methods accepted.

CDW•G Response: CDW•G has a department dedicated solely to assisting our customers with their leasing needs. We take a vendor agnostic approach and CDW•G's leasing team can work with the City to find the best leasing option that fits within any unique budget constraints the City may be experiencing.

Leasing allows the City to procure needed equipment now, so you do not have to wait years down the road when your budget allows a large- scale purchase. With leasing and financing,

the City also has the ability to bundle costs. Therefore, if you are also working with outdated software, you can purchase it with your products, and even services, all in one fell swoop. Budgeting for leasing is easier than purchasing outright, as your monthly payments are agreed upon upfront. With a lease, you can choose to add to your lease term; and once you choose to end the lease, you often have the option between purchasing and returning the equipment.

CDW•G's Leasing Team helps members navigate through all the available leasing providers to select the best option to fit the customer's needs. For members with a Master Lease Agreement established, we more than likely have a partnership in place with their provider, or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. We are a recognized force with many of our leasing partners, such as our 2014 HP PartnerOne Financial Services Partner of the Year Award. Often, we are able to leverage our relationship with our partners with more advantageous rates or terms. For Members that have diversity requirements to meet, we can recommend our WBE certified leasing partner, Commonwealth Capital Corporation.

We'll incorporate leasing into our sales team trainings for the contract, so that sales can recognize opportunities where leasing would benefit the members and to be able to speak to the different lease options available.

We are also able to accept payment via the following methods: Credit Cards (American Express, Discover, MasterCard, Visa), Checks, EDI, EFT (Electronic Funds Transfer), and Procurement Cards.

Tab 3

Pricing Forms

- 1. Provide price proposal as requested on the Pricing Document (Attachment A- "National TAB") attached herein. In addition to indicating your proposed discounts on the Price Page, you must also apply those discounts to the sample items listed in the City's Market Basket listed in Attachment A.**

CDW•G Response: The central metric in a pricing structure is the index from which that price is derived. CDW•G utilizes our Nationally Advertised Price (NAP) as the starting point in our price proposal. Contrasted with traditional MSRP (Manufacturer's Suggested Retail Pricelists) which does not reflect market conditions and therefore does not change, our NAP pricing is scaled and adjusted to remain competitive in the marketplace. Our customers can be sure that the pricing quoted is the most up-to-date and competitive available.

To provide National IPA with a complete catalog offering, CDW•G is proposing contractual pricing to be factored by applying discounts to CDW•G's product taxonomy. This approach ensures a complete catalog offering, provides the greatest breadth of product offering, as well as an easy "on-ramping" as new product and technologies are introduced. For ease of evaluation and to be compliant with the RFP requirements, CDW•G has conformed to the City of Mesa's product taxonomy in the market basket as well as the National Discount sections of the price proposal, however the resultant contract will be managed utilizing the CDW•G Category table listed below:

CDW•G Categories	Discount
Accessories	6.75%
Power, Cooling & Racks	5.00%
Desktop Computers	3.00%
PC Compatible Desktop Computer	2.10%
Data Storage / Drives	5.50%
Enterprise Storage	5.00%
Point of Sale/Data Capture	4.25%
Servers & Server Management	4.00%
Services (CDW Delivered)	0.00%
Notebook/Mobile Devices	2.50%
Notebook Computers	2.10%
Convertible PCs/Slate PCs/iPAD	2.25%
Chromebooks	0.00%

2. Propose and provide details of additional discounts or rebates for volume orders, special manufacturers' offers, free goods program, the total annual spend, etc.

CDW•G Response: Under the contract, individual clients who purchase significantly larger amounts may qualify for an additional discount on individual purchases. Additionally, as a partner on the contract, CDW-G will be leveraging its influence on manufacturer partners for additional cost saving programs based on contract spend.

With our dedicated Account manager model, CDW•G Account Managers are tasked with providing exceptional customer service and excellent value to each customer who purchases from National IPA. With that goal in mind, if a customer were to forecast larger quantities, the Account manager will work with manufacturer partners on behalf of his/her customer to achieve greater than contract discounts. The discounts and effective savings will be dependent on manufacturer support as well as the size and volume of the order. Depending on the product type the discounts can be anywhere from 2- 20% additional savings.

Per the requirements of the solicitation, Attachment A- Pricing Forms is included and attached in Excel format.

Tab 4

Qualifications (Abilities, Experience, and Expertise)

1. Provide a brief history and description of your firm. Discuss firm's national presence in the IT solutions industry.

CDW•G Response: In 1982, 28-year-old, strapped-for-cash Michael Krasny placed a \$3 classified ad in the Chicago Tribune for his IBM personal computer. After a flood of offers and a \$200 profit, he had an idea. Krasny formed MPK Computers and he became a computer broker. This company later became CDW. Krasny's goal was to make CDW the most successful seller of IT products in the U.S. Some of his first tasks to solve customers' problems include establishing a computerized database of product and customer info, creating algorithms to gauge product sales and demand, and a hand-operated warehouse roller to fill backlogged orders.

Michael Krasny compiled a list of guiding principles—principles that remain at the core of every decision CDW makes today. We believe the reason the National IPA/CDW•G relationship is so successful is because our values and philosophies practically mirror the values that make up the National IPA Way.

Our values begin with the belief that “People do business with people they like.” This is why we recruit top IT graduates, hire the industry's most experienced technology experts, partner with business entrepreneurs and educators, and engage military veterans with battlefield experience. It's because we want to support our customers with talented people who have not only walked a mile in their shoes but are committed to providing solutions that work.

CDW's way of business hasn't changed much since '82. We are still recognized by the hybrid business model developed by Krasny, a perfect blend of distribution and IT solutions provider in one knowledgeable force. We still practice a healthy dose of self and competitor evaluation, going from area to area looking for our weakest links and turning them into strengths. In fact, it is from this idea that CDW•G was born. We realized that neither we, nor our competitors, we're doing a great job of providing the segment-specific support to our public customers that they needed, or deserved. So in 1998, CDW•G was established, providing our government and education customers insight and expertise that fit their specific needs. In 2005, we incorporated healthcare segment into this mix.

We continue to use our innovative tools and our deep relationships with our customers and vendor partners to evolve our business as our customer needs dictate, such as our

expansive cloud portfolio. Proof this approach is working is our \$13.9 billion in sales for 2016 and our growing customer base of over 350,000 valued organizations.

Many customers have remained loyal to CDW•G for decades because they know we aren't satisfied with past successes. Instead, we've been focusing on providing advanced solutions and service in areas like cloud computing, mobility, security, virtualization and networking.

2. Provide the total number and location of sales persons employed by your firm.

CDW•G Response: CDW•G currently employees 1456 coworkers in 43 different locations nationwide. Over 840 of our CDW•G sales force are Account Manager, with an additional 65 Field Account Executives dispersed throughout the country.

3. Provide the number and location of support centers (if applicable).

CDW•G Response: Currently, we have 43 separate locations. Speaking specifically to the benefit of this contract, seven of the states with new locations are also in the ten states with the highest historical spend on the contract.

4. Provide public sector sales figures for 2014, 2015, and 2016 and the percentage mix of hardware, software, and services.

CDW•G Response: Below you can see evidence of National IPA Contract sales growth. The growth rates of National IPA exceed the standard rate for CDW•G, verifying our good faith effort to promote the contract within our existing client base.

National IPA Contract Sales		
Year	Sales In Millions	% of Growth
2008	\$4	N/A
2009	\$21.7	442.50%
2010	\$44.1	103.20%
2011	\$83.3	88.90%
2012	\$99.4	19.30%
2013	\$113	13.68%
2014	\$160.1	41.68%

2015	\$253.7	58.46%
2016	\$390	53.72%

5. Please submit you FEIN and Dun & Bradstreet report.

CDW•G Response: CDW•G FEIN: 36-4230110.

Dun & Bradstreet numbers:

CDW LLC: 10-762-7952; CDW Government LLC: 02-615-7235

CDW•G cannot supply a Dun & Bradstreet report, as it violates our contract with Dun and Bradstreet. The City of Mesa can obtain a report for CDW•G from Dun & Bradstreet.

6. Provide a summarization of your experience in performing work similar to that outlined in this solicitation.

CDW•G Response: CDW•G holds a number of similarly structured contracts. Since 2008, we have grown our contract with National IPA, as evidenced in the chart above, and have demonstrated success in broadening and promoting the National IPA contract. Over the past eight years, National IPA contract sales have consistently grown, year after year, most recently reaching \$390M.

For our references we provide customers that can attest to our abilities of both managing this contract, and to addressing and meeting their needs as our customer. We provide contact information for these customers in a separate, confidential file.

7. Provide a minimum of three references for which your firm has provided the same solution (please include company name, address, contact person, phone number, email address and dates of service). References from other public agencies, particularly municipal governments are preferred.

- 9. Provide information regarding if your organization ever failed to complete any work awarded.**

CDW•G Response: At the time of submission and to the best of our knowledge, CDW•G has never had a contract terminated for cause

- 10. Provide information regarding if your firm, either presently or in the past, has been involved in any litigation, bankruptcy, or reorganization.**

CDW•G Response: Though CDW•G has been involved in litigation, it has not nor is it expected to impact our ability to provide products and services on this agreement. We have not filed any bankruptcies.

Tab 5

Technology

1. Describe your website and the ease-of-use for customers to perform the following types of tasks:
 - a. to search for products
 - b. to find alternate products (if a certain product is not available)
 - c. to perform side-by-side price comparison of products
 - d. to order products
 - e. to track order status, to include backordered items
 - f. to determine when an item was received and who received it
 - g. to restrict/block the ordering of certain line items and to restrict/block the ordering of groups
 - h. to create approval paths/levels for orders, to include creating an approval path for restricted items
 - i. to create “favorites” list or subscribed purchases other personalized list of frequently ordered items
 - j. to create a “shared” list for an agency to use
 - k. to obtain online customer service
 - l. to receive online training
 - m. to accept credit card payment (and describe the level of data offered; also describe your security measure for credit card orders)
 - n. to track their budget for purchases
 - o. to generate reports

CDW•G Response: Each Agency utilizing the contract has their own customized Extranet that is available to users 24 hours per day, seven days a week. This value-added tool makes working with CDW•G easy, convenient and efficient. We have been the pioneers in tapping the power of the web – and we continue to develop enhancements based on customer feedback. Our extensive suite of extranet tools is provided to contract users at no additional cost. We have enabled more interactive information about updates to the website via <http://www.cdwsiteinfo.com/>.

Our web capabilities provide an extra level of convenience, customization, and efficiency for all users. Our award-winning e-Procurement tool brings customers:

Speed — Customers can research, purchase and track technology easier and faster than ever. CDW•G makes the buying process simple and more efficient. With one click, authorized purchasers can procure the best solutions at the best price from one of the industry's largest inventories of brand-name products. Consolidating purchases through our "one-stop shop" saves customers both time and money.

Information — Our extranets provide the industry's most comprehensive suite of e-Procurement tools to gather the breadth and depth of detail to help make the right purchasing decisions. The site puts customers in direct contact with their Account Manager who can personally guide with suggestions and recommendations to help make informed purchase decisions.

Reporting — As a rich source of detail on purchase history, license agreements, and asset tracking, your Extranet site lightens the burden of report generation. This customizable extranet is a productivity-enhancing tool, giving the exact detail customers require whenever they need it. As detailed in Question #10 of this section, customers can also download reports into a variety of formats, including Microsoft Excel, CSV and tab-delimited files. The value-added benefit of a customized extranet is the ability to manage data and information that will enable customers to make more cost-effective decisions. It also reduces the administrative and purchasing costs involved in procurement.

Extranet Features

We provide specific features of a customized extranet below:

Contract Pricing — View Negotiated Contracts in Real-Time, Receive Bids Quickly

Agencies can view the City's contract pricing, right from their extranet. City of Tucson contract users can view all eligible contract pricing as they shop. Their extranet automatically provides their special prequalified pricing and discounts on tens of thousands of products. Authorized users can access contract and/or special pricing in real-time, as the site is constantly updated to reflect the latest status. Buyers from any location can view approved contract pricing to ensure this pricing structure holds true throughout the entire organization.

Account Team — Access Expert Support with a Personal Touch

Your extranet page allows customers to work directly with your dedicated Account Manager and team of sales support, as well as customer service professionals and certified technicians during every step of the purchasing cycle. The page displays pictures of the customer's Account Team, view their contact information and check their availability in and out of the office.

Online Quotes — Create, Review and Place Orders in Minutes

Purchasers can review quotes online just moments after their Account Manager create it. From here, users can print it, forward it to colleagues or manager for pre-authorization, or convert it to a live order. This feature also lets customers create their own quote right from their shopping cart, in addition to viewing contracts, volume and bid pricing online.

Company Solutions — Compare and Buy Single or Bundled Products with One Click

This capability enables agencies to customize their extranet home page to show the products and configurations their organization uses, and to streamline standard product orders. They can choose a variety of formats to view products individually, in bundles, by manufacturer or even in side-by-side comparisons. By grouping products into bundles, there is no guesswork when making repeat purchases on your standardized solutions. The

extranet page also allows customers to perform quick product searches and to “comparison shop” by viewing side-by-side, detailed product descriptions before they even place an order. This takes the hassle out of downloading data from multiple manufacturer websites.

Catalogs and Custom Catalogs – Limit Product Purchase Rights

The catalog feature allows agencies to create customized catalogs. Customized catalogs can be used to limit the purchasing ability of end-users based on: Purchase History, Corporate Solutions, Contract(s), Manufacturer Part Number, the CDW•G EDC, and through the Search function. The same engine and keywords that drive the Search Engine are also available to search for product. This allows purchasers to refine items listed before making them a part of their agency’s custom catalog for one or multiple users. These rules can be used to add product to a catalog or exclude items from one as well. Once applied to a group or PAS workflow, they can really help control the spending habits of end users and help keep IT budgets on only the standard of items approved.

Asset Management — Follow Asset-Tagged Hardware throughout Agencies

Your extranet page provides an online asset management tool to track asset tagged products. Products are searchable by serial number, order number, date of purchase, product description, warranty length, invoice number, or location. Users can even create their own custom fields and add or enter products purchased from other vendors. This extranet feature also allows customers to modify their records to reflect the transfer of equipment from one location to another, a real plus for customers with multiple locations. Asset Management then lets the user create and download a detailed report of their hardware assets.

Account Linking — View, Place and Track Orders from Multiple Addresses

Account Linking lets customers view, place and track orders, including historical purchases across multiple bill-to addresses. A single login gives authorized users a way to efficiently access their order status from across the enterprise to anywhere in the world. This eases the challenge of multiple purchases from disparate locations by centralizing the purchasing process, yet offering the flexibility to place and track orders by address and location.

My Purchases — Track Order Status and Purchasing History Instantly

This feature offers a full breadth of tools to track order status, purchasing history and financing options. Original invoices can be printed; giving a view into outstanding balances and invoices, credits, adjustments and/or payments. Agencies can download their purchasing history in preferred time increments (such as month-to date, last six months, prior year, etc.) in any number of formats. The system lets users automatically save this data in spreadsheet or database applications. Authorized users can readily search their order, get a tracking number, check shipping status, and request a Return Merchandise Authorization (RMA).

Purchasing Authorization System (PAS) — Streamline Purchasing Approvals

The extranet page also automates the approval process. PAS enables customers to restrict their employees' purchasing power and to automate required approvals before they place any order. PAS bypasses the laborious step of having a purchasing administrator personally place each order. This process allows for multiple levels of approval, as well as multiple approval systems, which can all function independently for many departments/locations within the procurement process. This system also allows for reporting that is specific to orders which have moved through the requisition process setup through PAS. All reporting is as dynamic and editable as the other tools on their extranet.

Product Finders — Easily Find the Right Accessories and Supplies

CDWG.com now offer Product Finders to make it even easier to find supplies for printers, fax machines, copiers, multi-functions, and other devices. Customers can also search for desktops and notebooks. Product Finders guides to the technology solutions that fit agencies needs and will even help find information for discontinued models. These Finders were designed to ensure

compatibility for product categories including cables, desktops, ink and toner, memory, notebooks, power protection, and cases and bags.

2. Describe additional functionality offered by your website. Provide screenshots, a demo “CD/jump drive,” demo URL, a manual, etc., or any other format that will aid the City in our evaluation of your website.

CDW•G Response: The City can review the current contract's CDW•G Premium Page at www.cdwg.com/nationalipasolutions. When placing an order, agency members log into their own personal CDW•G Extranet to complete the procurement. This account is available twenty-four hours a day, seven days a week. On this site, agencies can compare products, quickly find compatible accessories, and select from a number of shipping options. However, this account offers more than just ordering functions. Agencies can track spend history, manage assets, and create customized reports. If they are in need of customer service assistance, they can reach their account manager, chat with or email a representative, and even place an RMA request. For an Extranet tour, visit <http://www.cdwsiteinfo.com/extranet-video/>.

The Extranet is not the only site we offer helpful tools to our customers, our main page, [cdwg.com](http://www.cdwg.com) has a plethora as well. For a tour of this site's functionalities, visit <http://www.cdwsiteinfo.com/cdw-site-tour/>.

CDW•G will continue to build new e-Procurement solutions and feature enhancements based on customer feedback. We strive to regularly incorporate new features and capabilities that ease inventory headaches.

3. Describe any national awards and/or other recognition that your website has received.

CDW•G Response: In October 2015 CDW•G was ranked No. 8 on the list of America's 500 largest e-retailers by Internet Retailer's Top 500 Retail Web Sites Guide.

4. Describe the hours your website is available? What are your hours of downtime, such as for system maintenance?

CDW•G Response: CDW•G does not have any scheduled extranet down time. Our website's availability is above 99.95%. We are constantly imaging and activating revisions while the site is fully operational. CDW•G works to ensure that there is redundancy in place to minimize any risk of downtime for contract purchasers.

We typically inform our customers of scheduled extranet outages 24-48 hours in advance. When these outages must occur, which is not often, we tend to schedule them on weekends when there is the least impact on the customer. We advise our customers on any significant changes 45 days ahead of the scheduled change. Customers can let their Account team know if they would like to be added to this notification list.

5. Does your website offer real time product availability?

CDW•G Response: Yes, most manufacturers send us daily Electronic Data Interchange (EDI) downloads with pricing and product availability information. Our channel distributor partners send us daily EDI downloads, which allows us visibility to inventory items and pricing broken down by local or remote facilities. Furthermore, our top three distribution partners provide real time inventory information.

Using a Just-In-Time inventory management system, our purchasing department excels at keeping a one-to-four-week supply of products in our distribution centers (depending on current sales volume trends for each product). We scan inventory as it enters the distribution center, as it moves through the fulfillment process, and before it leaves the centers. This allows us to maintain near perfect inventory accuracy. The system processes and transmits each scan in real-time, providing immediate inventory updates.

6. How does your company leverage your website to inform customers of the additional savings that may be available?

CDW•G Response: Our website has a dedicated tab for informing our customers of additional savings and deals that are available to them. Under the "Deals" header, as shown below, we advertise discounted products and pass this on to our customers. Deals span all product categories and manufacturers, and we inform our customers if a specific OEM is running a particular deal. We strive to pass on value and savings to our customers, and this is another way our website keeps our customers updated and apprised of our latest offerings.

7. Describe the types of email confirmations that your website generates. What events trigger an email going to the customer?

CDW•G Response: CDW•G's website generates a number of customer email confirmations including quote and order confirmations, notification of back orders, and shipment notifications. National IPA members can enroll in paperless billing to receive credit card invoices via email, and reminders to order frequently used products. Order status information is available 24 hours a day on our Quick Order Status tool.

8. Describe the registration process to set up new customers for you online ordering process. Is self-registration available? If an agency does not want self-registration, are you available to assist in the registration process?

CDW•G Response: Yes, self-registration is available. Additionally, your Account Manager will be happy to walk you through the registration process and ensure that you're properly entered into the system. Your Account Manager are trained to enroll new customers to access the National IPA contract, should our customers need immediate access. A confirmation number is generated and sent to your Account Manager who will then then provide this confirmation and the customer's CDW•G account number to your dedicated Program Manager, who immediately adds them to the system for contract access. Jumana DiHu, your Program Manager, adds new members to the contract typically within a week of receiving a new member list from National IPA.

If the agency does not already have an Extranet account, there are a few short steps for them to create an account. Once the customer creates their account, they simply log on to access the contract. Account Managers will provide any registration assistance.

9. Describe if your website can be customized for an agency's specific needs, such as placing our logo on your website, associating an agency blanket purchase order number on all orders, creating a bulletin board or other place to display customized messages, displaying approved configurations, naming certain fields (i.e., user defined fields, ability to include budget information), etc.

CDW•G Response: Your Extranet account can be customized to your exact specifications. We can include your favorite items, frequently purchased products, bundled items. Your site will be tailored to your needs. The site currently displays the National IPA logo, displays a customized message, highlights appropriate products, and has fields named as specified by the City. Agencies customized extranet home page will provide authorized users with quick and easy access to the following features:

Quick Cart – Enables users to add items directly to their cart by typing in the CDW part number.

Account Team – Displays the "In/Out" status of your dedicated Account Manager and provides immediate and direct access to your dedicated Account Manager via phone fax and email. Also, provides a link to your entire dedicated Account Team.

News – Provides additional information on extranet tools and enhanced features.

Promotions and Updates - Shows current promotions and updates to technology solutions.

Featured Products – Highlights specific products and solutions.

Recent Orders – Displays information for orders for the past 45 days including order status, purchase date, purchase order number, purchaser, and sub-total.

Contracts – Provides details of pricing contracts for your organization and enables you to download pricing for your contracts.

Bundles – Takes the guesswork out of repeat purchases. Administrators can create custom bundles containing their company's standardized solutions.

Individual Products – Allows administrators to highlight products for quick and easy access.

Comparison Charts – Helps users to compare the features and prices of multiple products during the shopping process and save those comparisons for future reference.

Links – Lets users maintain easy access to manufacturer websites and other helpful online destinations. There are links to additional extranet features that are only a click away. These features include:

My Purchases – Offers a full breadth of tools to track order status, purchase history, and financial information.

Security Settings – Enables administrators to restrict users' access to specific functions.

Asset Management – Enables you to create and download a detailed report of your organization's hardware assets that have been asset tagged.

Software License Tracker – Simplifies software license management and reduces the risk of noncompliance.

Quotes – Enables you to create your own quote right from your shopping cart, forward it for preauthorization, and convert it to a live order.

Purchase Authorization – Automates approval process and manages users' purchasing power.

Custom Catalogs – Displays only products approved for purchase by your organization.

Online Chat – Puts users in direct contact with customer relations, technical support, and e-support team representatives.

10. Describe the types of online reporting that are available. Is customized reporting available?

CDW•G Response: CDW•G's reporting capabilities are extremely flexible and comprehensive. CDW•G Extranet provides access to real-time information in a way that is convenient and easy to use.

The City of Mesa authorized users have access to your extranet 24 hours per day, 7 days per week. Authorized users have the ability to generate a variety of reports via their agency's extranet. Data fields include, but are not limited to:

- Product name
- Item description
- Part number
- Cost per unit
- Order quantity
- Delivery location
- Date ordered

- Purchase Order#
- Purchased by

Agencies can view standard reports, and create and save custom reports. Reports can also be generated for a variety of timeframes; differentiated by site, division, department, buyer, city, state, product, etc. Users can select from Microsoft Excel, CSV and tab-delimited files for report downloading.

11. Describe your online return process (if available).

CDW•G Response: In order to return any product to CDW•G, including damaged or defective products, contract users must request a Return Merchandise Authorization (RMA) number. The most efficient way to request an RMA number is via the customer's CDW•G Extranet. When an RMA request is entered, the system automatically checks several factors to see if the RMA can be automatically approved. If the return meets these factors, the RMA number is emailed directly to the customer. Should the auto-approval criteria not be met, the RMA will route to Customer Relations for processing. The benefit of our automated system is faster turnaround time on most RMA approvals. Once CDW•G has processed the request, the customer receives an email with the RMA number. The approved RMA number must be clearly noted on the shipping label of each box.

CDW•G carries many more highly customizable products than what we have historically carried on this contract. A uniquely customized product is not as simple to return as an off-the-shelf product. Once a product has been customized, we are unable to return it to the OEM ourselves; that activity must be handled directly between the purchaser and the OEM. Therefore, CDW•G proposes the following return policy:

- o Except for certain products that are uniquely customized to City specifications, which shall be indicated at the time of Quote, all defective products shall be identified within thirty (30) days of receipt and will then be replaced and exchanged by the Contractor. The cost of transportation, unpacking, inspection, re-packing, re-shipping or other like expenses shall be paid by the Contractor. All replacement products must be received by the City within seven (7) days of initial notification.
- o Uniquely customized products are typically indicated by the inclusion of the designation "CTO," "BTO" or "Customer's Name" in the product description of the item. When providing a quote for products that are uniquely customized to City specifications, Contractor shall include the following statement on the quote: *"This quote contains a custom item, this item may not be able to be returned, depending on manufacturer restrictions."*

More often than not, we are able to find a return remedy - even in the case of customized products. To ensure customer clarity around returning customized items, we will instruct our Account Managers to discuss the return policy with the customer during the building process for customized solutions, if they are not already doing so.

12. Describe any third-party integration that you have successfully implemented. For example, is your website integrated with any third-party procurement, financial, or purchasing/credit card systems? Is there a cost for these services?

CDW•G Response: CDW•G has implemented eCommerce solutions with over 72 eProcurement partners, for over five thousand customers on most of the major purchasing platforms. There is no charge for integration support, unlike some of our competitors.

CDW•G has overseen cXML and OCI Punch-Out solutions since 2001, with over 8,000 integrations to date. These integrations make up a quarter of our web business. There are three teams that span the eCommerce/IT/Sales departments that are solely dedicated to eProcurement integration projects.

We likewise provide level III/tier 3 credit card reporting and provide financial reports (invoices and histories) in different automated formats for compatibility with financial systems. While our website is compatible with third party e-commerce solutions, the CDW•G is owned and managed in-house without reliance on third party support for our key web systems. There is no additional charge for these services.

Below are examples of ecommerce methods CDW•G currently supports with our customers:

FTP (File Transfer Protocol)

CDW•G's FTP processing is flexible; we can exchange fixed length, wrapped or unwrapped files, with or without CR/LF. We can also exchange stream files – one continuous stream of data (variable length). Naming conventions for files and the number of files exchanged are flexible.

CDW•G or the customer can host the FTP site. UserID and Password are required to access our FTP site. CDW can delete files that have been retrieved. Partners will be expected to delete files after they are retrieved.

CDW•G uses PGP to encrypt data exchanged FTP. PGP (Pretty Good Privacy) is widely available and uses public-key cryptography to exchange files, with both privacy and authentication, over all kinds of networks. CDW•G can also support FTP using SSH or SSL session encryption.

EDIINT-AS1

This communication method uses the e-mail system to transfer encrypted data over the internet. The partner needs to have an AS1 compliant software package that can encrypt and decrypt EDIINT AS1 data.

EDIINT-AS2

This method uses the internet to exchange data. This communication method uses an HTTP post (language of web sites) to transfer encrypted data over the internet. The partner needs to have an AS2 compliant software package that can encrypt and decrypt EDIINT AS2 data.

HTTPS (HyperText Transmission Protocol, Secure)

This method allows CDW to send and receive data through a Web Server using HTTP/S. HTTP is traditionally used for displaying interactive Web pages, but can also be used as a communication method.

VAN (Value Added Network)

A VAN is the least desirable method due to the fees incurred for this third-party service. CDW•G will be happy to work with you in any capacity to eliminate the use of VANs as a communication method. If necessary, we can establish a secure connection to a VAN and the VAN should exchange in a secure fashion as well.

13. Describe your strategic vision for your website – i.e., Is new functionality expected to be added? If so, describe the functionality and the timeline for implementation. How often is the web redesigned? As technology evolves (for example, new search engines are more robust), does your website evolve, too? Etc.

CDW•G Response: The CDW•G website is the 10th largest website in the world measured by revenue volume. While we no longer release specific website sales numbers, past numbers indicate that our website is now processing over \$2 billion per year in transactions. Additionally, the website is estimated to assist with another \$4 billion in sales that are finalized on the phone or via purchase order.

The extreme volume and business-critical nature of the CDW•G website means we must focus on usability and uptime at all times. CDW•G employs over 200 in house IT personnel to keep the website accurate and running; their success is reflected in the less than 6 minutes of unplanned downtime last year - an uptime exceeding 99.997%.

Because the website processes such volume, new functionality is constantly in the works but never fully implemented until we have conducted rigorous testing for usability, compatibility and perceived value to our customers. We have also added a new Solutions & Services section, which contains streaming content and white papers that cover all the comprehensive categories where our software and hardware solutions pair with best in class support and advanced technology services.

As a world-leading website, the CDW•G site has the functionality to be compatible with our most advanced customer needs, including advanced security, multi-level approvals, asset tracking and others. Our staff of 200 will always be expanding these capabilities as advancements in technology and customer needs dictate.

Other Forms

The following forms should be completed and signed:

1. Vendor Information Form
2. Exceptions & Confidential Information Form
3. General Questionnaire Form
4. Lawful Presence Affidavit
5. Respondent Certification Form (Offer and Acceptance)
6. Respondent Questionnaire
7. W-9 Form. All responses should include a fully completed, current W-9 form. Failure to include the W-9 will not disqualify your response, however the W-9 must be submitted to the City prior to the execution of any contract pursuant to this Solicitation.

CDW•G Response: CDW•G's response to these forms follow this page.

Section/Page	Term, Condition, or Specification	Exception/Deviation	City Accepts
35/Exhibit 1, Draft Agreement, Exhibit C, Mesa Terms & Conditions, page 37	PROPRIETARY RIGHTS INDEMNIFICATION. Without limiting the foregoing, Contractor will without limitation, at its expense defend the City against all claims asserted by any person that anything provided by Contractor infringes a patent, copyright, trade secret or other intellectual property right and must, without limitation, pay the costs, damages and attorneys' fees awarded against the City in any such action, or pay any settlement of such action or claim. Each party agrees to notify the other promptly of any matters to which this provision may apply and to cooperate with each other in connection with such defense or settlement. If a preliminary or final judgment is obtained against the City's use or operation of the items provided by Contractor hereunder or any part thereof by reason of any alleged infringement, Contractor will, at its expense and without limitation, either: (a) modify the item so that it becomes non-infringing; (b) procure for the City the right to continue to use the item; (c) substitute for the infringing item other item(s) having at least equivalent capability; or (d) refund to the City an amount equal to the price paid, less reasonable usage, from the time of installation acceptance through cessation of use, which amount will be calculated on a useful life not less than five (5) years, plus any additional costs the City may incur to acquire substitute supplies or services.	The City's sole rights to the work product, materials and other deliverables to be provided or created (individually or jointly) in connection with the services, including but not limited to, all inventions, discoveries, methods, processes, formulae, ideas, concepts, techniques, know-how, data, designs, models, prototypes, works of authorship, computer programs, proprietary tools, methods of analysis and other information (whether or not capable of protection by patent, copyright, trade secret, confidentiality, or other proprietary rights) or discovered in the course of performance of this Contract that are embodied in such work or materials ("Work Product") will be, upon payment in full, a non-transferable, non-exclusive, royalty-free license to use such Work Product solely for the City's internal use. The City will have no ownership or other property rights thereto, and the City shall have no right to use any such Work Product for any other purpose whatsoever. The City acknowledges that the Contractor may incorporate intellectual property created by third parties into the Work Product ("Third Party Intellectual Property"). The City agrees that its right to use Work Product containing Third Party Intellectual Property may be subject to the rights of third parties and limited by agreements with such third parties.	

Confidential Information

The following parts of our response are exempt from public disclosure. Subject to applicable state law, we request that the information detailed below be treated as confidential.

Exemptions from Public Disclosure Confidential Information		
Page	Lines	Reasoning
Tab #2 Pages 23-24	Page #: Requirement #4, p. 23 -24 Starting at "CDW-G's Supplier" Page #: p. 23 (Requirement #4) Ending at "Reporting Capabilities," p. 24	Per Arizona Revised Statutes § 44-405, the following information is confidential and proprietary and it might contain trade secrets therefore not subject to disclosure in case there is a request.

GENERAL QUESTIONNAIRE

1. Compliance with Applicable Laws. Respondent complies with Exhibit 1, Draft Agreement, Exhibit C, Mesa Standard Terms & Conditions, 9. "Compliance with Applicable Laws"? ☒ Yes ☐ No
2. Delivery. Delivery, as stated in Detailed Specifications, can be met. ☒ Yes ☐ No
If no, specify number of days for delivery _____
3. Payment terms. Payment Due (Not less than net 30 days): 30 days
Payment Discount of _____% if invoices are paid within _____ days of receipt.
4. Procurement Card. Does Respondent allow payment of invoices using a Procurement Card?
☒ Yes ☐ No (Marking a "no" answer will not disqualify your Response.)
Discount for Procurement Card Purchases? _____%
5. Cooperative Purchasing. The use of this Agreement as a cooperative purchasing agreement available to other governmental agencies is described in the Mesa Standard Terms and Conditions. The use of this Agreement as a cooperative purchasing agreement is subject to approval by the Respondent as designated below.
6. Does Respondent agree to extend the prices, terms and conditions of the Agreement to other agencies as specified in the Standard Terms and Conditions?
☒ Yes ☐ No (Marking a "no" answer will not disqualify your Response.)

Addenda.

Respondents are responsible for verifying receipt of any addenda issued by checking the City's website at www.mesaaz.gov/business/purchasing or the Vendor Self Service portal prior to the Response Due date and time. Failure to acknowledge any addenda issued may result in a response being deemed non-responsive. Failure to review addenda does not negate Respondent's initial offer and holds Respondent for any changes prior to Response Due date and time.

Acknowledgement of Receipt and Consideration of Addenda (if applicable):

RESPONDENT CERTIFICATION

By submitting the Response and signing this Certification, the Respondent understands and certifies to all of the following:

- a) The information provided in Respondent's Response is true and accurate to the best of Respondent's knowledge.
- b) Respondent is under no legal prohibition that would prevent Respondent from contracting with the City of Mesa.
- c) Respondent has read and understands the Solicitation packet as a whole (including attachments, exhibits, and referenced documents) and: (i) can attest that Respondent is in compliance with the requirements of the Solicitation packet; and (ii) is capable of fully carrying out the requirements of the Solicitation as set forth in Respondent's Response.
- d) To Respondent's knowledge, Respondent and Respondent's employees have no known, undisclosed conflicts of interest as defined by applicable law or City of Mesa Procurement Rules. If Respondent or Respondent employees have a known conflict of interest, Respondent has disclosed the conflict in its Response.
- e) Respondent did not engage in any anti-competitive practices related to its Response or the Solicitation. The prices offered by Respondent were independently developed without consultation or collusion with any other Respondents or potential Respondents.
- f) No gifts, payments or other consideration were made to any City employee, officer, elected official, agent, or consultant who has or may have a role in the procurement process for the services/materials covered by the Solicitation.
- g) Respondent grants the City of Mesa permission to copy all parts of its Response including, without limitation, any documents and materials copyrighted by Respondent: (i) for the City's use in evaluating the Response; and (ii) to be disclosed in response to a public records request under Arizona's public records law (A.R.S. § 39-121 et. seq.) or other applicable law, subpoena, or other judicial process provided such disclosure is in accordance with City of Mesa Procurement Rule 6.13.
- h) If a contract is awarded to Respondent as a result of the Response submitted to the Solicitation Respondent will:
 - i. Provide the materials or services specified in the Response in compliance with all applicable federal, state, and local statutes, rules and policies;
 - ii. Honor all elements of the Response submitted by Respondent to the City including, but not limited to, the price and the materials/services to be provided; and
 - iii. Enter into an agreement with the City based on the terms and conditions of the Solicitation and the Response, subject to any negotiated exceptions and terms.
- i) Respondent is current in all obligations due to the City including any amounts owed the City and any licenses/permits required for the general lawful conduct of business. Respondent shall acquire all licenses/permits necessary to lawfully conduct business specific to the Solicitation prior to the execution of a contract with the City pertaining to the Solicitation.
- j) The signatory of this Certification is an officer or duly authorized agent of Respondent with full power and authority to submit binding offers for the goods/services specified herein. Respondent intends by the submission of this Certification to be bound by the terms of the Certification, Solicitation, and Response, subject to any negotiated terms/exceptions.

To CDW Government LLC Customers:

CDW Government LLC is your supplier/vendor. CDW Government LLC's FEIN is 36-4230110. This is the number displayed on our invoices.

CDW Government LLC is treated as a disregarded entity for federal income tax purposes. The Internal Revenue Service requires the W-9 to be completed by an entity that is not a disregarded entity for federal tax purposes. For CDW Government LLC, that entity is the parent corporation, CDW LLC, FEIN 36-3310735. Consequently, CDW Government LLC's W-9 lists CDW LLC as the "Name (as shown on the income tax return)" and the "Business name" as CDW Government LLC.

The address on our W-9, (230 N. Milwaukee Ave. Vernon Hills, IL 60061), is our mailing address registered with the IRS. CDW Government LLC requests your payments to be mailed to another address, (75 Remittance Dr, Suite 1515, Chicago, IL 60675). This is merely for payment processing and is not a CDW Government LLC physical location.

We apologize for any confusion our organizational structure may cause you; however, we have completed the W-9 as required by the Internal Revenue Service.

Please feel free to contact us at taxteam@cdw.com should you have any questions or require additional documentation.

Thank you,

CDW Tax Department

- Assisted in the development of new Account Managers
- Focused on helping customers with their technology purchases
- Focused on building relationships with customers to ensure they met their technology goals
- Developed new relationships within existing customers to bring them the value and benefits of CDW

CDW PRODUCT RETURN POLICY

Seller offers a 30-day return policy on most products sold. Manufacturer restrictions apply to certain merchandise, as detailed below and as updated from time to time. Customer may obtain additional details and any applicable updates from the dedicated Seller account manager and may obtain manufacturer contact information by contacting CDW Customer Relations, which may be reached by calling 866.SVC.4CDW or by emailing returns@cdw.com.

1. Return Restrictions.

- Defective Product Returns. Customer may return most *defective* Products directly to Seller within fifteen (15) days of invoice date and receive, at Seller's option, credit, replacement, exchange, or repair. After fifteen (15) days, only the manufacturer warranty applies.
- Non-Defective Product Returns. Customer may return most *non-defective* Products directly to Seller within thirty (30) days of invoice date and receive, at Customer's option, credit or exchange, except that an automatic Seller restocking charge will reduce the value of any such credit or exchange by a minimum of fifteen percent (15%).
- Restricted, Repair-Only Returns. Certain Products can only be returned for repair—not for exchange, replacement or credit—based on current manufacturer requirements. Such Products should be returned to Seller, shipped directly to the manufacturer, or taken to an authorized service center in Customer's vicinity. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.
- Restricted, Manufacturer-Only Assistance. Certain Products cannot be returned to Seller for any reason—without exception—and Customer must contact the manufacturer directly for any needed assistance. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.
- Special Orders. Products that are specially ordered may be non-returnable or may have unique return restrictions provided at the time of sale. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.

- Return of Software or DVDs. Seller offers refunds only for unopened, undamaged software and DVD movies that are returned within 30 days of invoice date. Seller offers *only replacement* for software products and DVD movies that either: (i) are defective but are returned *within* thirty (30) days of invoice date; or (ii) are unopened and undamaged, but are returned *more than* 30 days after invoice date; such replaceable merchandise may be exchanged only for the same software or DVD movie title. Multiple software licenses may be returned for refund or exchange *only* (i) if specifically authorized in advance by the manufacturer; *and* (ii) if returned *within* thirty (30) days of invoice date.

2. Customer Shipment of Returned Merchandise.

- Return Merchandise Authorization (RMA) Number. No returns of any type will be accepted by Seller unless accompanied by a unique RMA number, which Customer may obtain by providing the following information to CDW Customer Relations: customer name, applicable invoice number, product serial number, and details of Customer's issue with the product. Customer has five (5) days to return a Product after the applicable RMA is issued. CDW reserves the right to refuse any UNAUTHORIZED returns: those that occur after the five (5) day period or those involving Products that are unaccompanied by valid RMA's.
- Returned Products Must Be Complete. All Products *MUST BE* returned one hundred percent (100%) complete, including all original boxes, packing materials, manuals, blank warranty cards, and other accessories provided by the manufacturer. CDW reserves the right to refuse the return of incomplete Products. In addition, CDW will charge a minimum fifteen percent (15%) restocking fee for returns that are accepted.
- Responsibility for Shipping Costs. Customer is responsible for the cost of shipping returned items; Seller is responsible for the cost of shipping replacements or exchanges of returned items and will match Customer's shipping method.
- Customer Shipping Insurance. Customer is strongly advised to purchase full insurance to cover loss and damage in transit for shipments of returned items and to use a carrier and shipping method that provide proof of delivery. Seller is not responsible for loss during such shipment.

3. Merchandise Damaged in Transit.

- Refusal/Receipt of Damaged Products. If a package containing items purchased from Seller arrives at Customer's address *DAMAGED*, Customer should *REFUSE* to accept delivery from the carrier. If Customer *does* accept delivery of such a package, Customer must: (i) note the damage on the carrier's delivery record so that Seller may file a claim; (ii) save, as is, the merchandise *AND* the original box and packaging it arrived in; and (iii) promptly notify Seller either by calling CDW Customer Relations or by contacting the Seller account manager to arrange for carrier's inspection and pickup of the damaged merchandise. If Customer does not so note the damage and save the received merchandise and does not so notify Seller within fifteen (15) days of delivery acceptance, Customer will be deemed to have accepted the merchandise as if it had arrived undamaged, and Seller's regular return policy, as described in sections 1 and 2 above, and all current manufacturer warranties and restrictions will apply.

4. Credits

Any credit issued by Seller to Customer under this return policy must be used within two (2) years from the date that the credit was issued and may only be used for future purchases of Product and/or Services. Any credit or portion thereof not used within the two (2) year period will automatically expire.

COUNCIL COMMUNICATION

CC #: 0867
File #: 0800-05

Title: ProofID Software Configuration and Support Services - Professional Services Agreement Amendment
Contact: Pete McLemore 916-774-5431 pmclemore@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.7.

RECOMMENDATION TO COUNCIL

Recommend Council adopt a resolution to approve a First Amendment to Professional Services Agreement with PEGRight, Inc., dba ProofID, to move forward with the Single Sign-On (SSO) and Multi-Factor Authentication (MFA) project which is needed to ensure the City can work in a safe and secure manner.

BACKGROUND

SSO and MFA provide services that will greatly impact the City and the ability to ensure proper security measures are being taken while also improving user experience. SSO provides the ability for someone to sign-in once and then have access to other applications without the need to sign-in again; this helps users by decreasing the number of passwords needed for various systems and applications. MFA provides added security around accounts by requiring people to authenticate with a second factor, via app or phone call, after entering their credentials to ensure security. This functionality has already been deployed for Office 365 (Outlook, SharePoint, etc.) and Citrix; and is currently being tested for Oracle ERP and Global Protect - Virtual Private Network (VPN) connection.

FISCAL IMPACT

This will be a one-time purchase of \$8,000 for additional support hours utilizing the purchasing contract we have in place with PEGRight, Inc, dba ProofID, funded by the IT Operations Fund budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines

§15060(c)(3) and §15378. An amendment to a professional services agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Pete McLemore, IT-Business Systems Analyst

Hong Sae, Chief Information Officer

Dominick Casey, City Manager

Signed PSA Amendment

Statement of Work

RESOLUTION NO. 20-265

APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT, BY
AND BETWEEN THE CITY OF ROSEVILLE AND PEGRIGHT, INC. DBA PROOFID, AND
AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF
THE CITY OF ROSEVILLE

WHEREAS, a first amendment to professional services agreement for ProofID software configuration and support services, by and between the City of Roseville and PEGRight, Inc. dba ProofID, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said first amendment is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

**FIRST AMENDMENT TO
PROFESSIONAL SERVICES AGREEMENT**

ProofID Software Configuration and Support Services

THIS FIRST AMENDMENT TO AGREEMENT is made and entered into this 27 day of June, 2020, by and between the City of Roseville, a municipal corporation ("CITY"), and PEGRight, Inc. dba ProofID, a Colorado corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated July 10, 2019 ("Agreement") regarding ProofID software configuration and support services ("Project"); and

WHEREAS, CITY desires to amend the Agreement to include additional services as described in CONSULTANT's letter/proposal dated April 27, 2020, which is attached hereto as Exhibit "A-2" and incorporated herein by reference; and

WHEREAS, CONSULTANT is willing and able to provide such additional services.

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall provide additional services as described in Exhibit "A-2" of this First Amendment to Agreement.
2. Section 2 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY shall pay eight thousand dollars (\$8,000), in consideration of the additional services as set forth in Exhibit "A-2" to the First Amendment to Agreement. This brings the total not to exceed contract amount to forty thousand, eight hundred and ten dollars (\$40,810)."

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20____, and CONSULTANT has caused this First Amendment to Agreement to be executed.

EXHIBIT "A-2"

Exhibit A-2

Statement of Work ("SOW")

This Statement of Work ("**SOW**") is executed under the terms and conditions of Independent Contractor Agreement dated June 19, 2019 (the "**Agreement**") between PEGRight, Inc. dba ProofID ("**Company**") and City of Roseville ("**Client**"). Company and Client may be referred to individually as a "**Party**" and collectively as the "**Parties**". This SOW describes the Services and Deliverables to be performed and provided by Company to Client. In the event of any conflict or inconsistency between the terms of this SOW and the terms of the Agreement, the terms of this SOW shall govern and prevail. This SOW is effective as of April 27, 2020 ("**Effective Date**").

1. Company Contact

Cody Cook, Director Professional Services
1755 Telstar Drive, Suite 206
Colorado Springs, CO 80920
Telephone Number: (719) 310-7124
E-mail address: cody.cook@pegright.com

2. Customer Contact

Pete McLemore
316 Vernon Street
Roseville, CA 95678
Telephone Number: (916) 774-5431
Email: pmclemore@roseville.ca.us

3. Scope

3.1. Overview

This SOW is focused on providing support to the Customer IAM Team as part of their IAM Modernization effort, specifically supporting the PingFederate product. This SOW outlines the activities and parameters for the engagement.

3.2. Description of Services

Company will provide engineering labor hours to the Client in order to perform Services within the Not-To-Exceed (NTE) resource hours and cost specified in Section 6 of this SOW. Services are related to development and delivery of the following:

- **Service #1: Ping Identity Product Integration Support**

Provide engineering labor to act as an extension of the Customer IAM Team, assisting the team with their IAM and Ping Identity product implementation project, specifically the PingFederate product. Tasking for the work will be provided by the Customer Contact. Support can be requested by email or telephone. Contractor and Customer will determine schedule, milestones, and deliverables for each requested support task, which will be confirmed via email.

3.3. Description of Deliverables

The following is the list of Deliverables that will be provided by Company to Client pursuant to this SOW.

None

3.4. Project Prerequisites

The following project prerequisites and/or dependencies must be completed by Customer prior to project kickoff.

- Create/Maintain appropriate accounts for Company consultants with remote VPN access
- Provide appropriate privileged access to Company consultants upon Ping Identity product servers including PingOne instance

3.5. Project Assumptions

The following assumptions were made to create this SOW. Should any of these project assumptions prove to be incorrect or incomplete, then the Parties may modify the Fees and Terms, Scope, and/or Period of Performance by mutual agreement. Should any of these project assumptions not be provided in a timely manner, then the Parties may modify the Fees and Terms, Scope, and/or Period of Performance. Timely is defined as a reasonable amount of time for a service request to be completed, e.g. five (5) working days from the time of a reasonable request by a Party or from a date agreed upon in writing, such as in a project plan signed by both Parties.

- It is assumed that Client will provide and coordinate access to necessary staff in order to complete the Services and Deliverables defined within this SOW.
- It is assumed that Company will perform Services remotely and that Client will provide high-speed remote access to Company for hardware and software resources required to complete the Services and Deliverables defined within this SOW.
- It is assumed that any existing issues that would preclude successful implementation, whether performance or functional, are disclosed and are not included in the scope of this Description of Services.
- It is assumed all environments required for completion of this work effort are stable, consistent, and accessible.
- It is assumed that Client will own and manage all change management and communications efforts required for this implementation and rollout.
- It is assumed that Client will provide test accounts to Company for testing PingFederate SAML-based SSO to applications

3.6. Project Out of Scope Items

The following items are considered out of scope for the project:

- Dev-Ops activities or development of any custom deployment automation software
- Configuration/support/etc. of any Ops user management tools
- Formal Ping Identity product training
- Development/execution of automated testing scripts
- Custom development
- Implementation of any Ping Identity product outside of PingFederate
- Outbound Provisioning for any Service Provider Connections

4. Acceptance Procedure

Each Deliverable, as defined in this SOW, will be approved in accordance with the following procedure:

- a. Within five (5) business days, Client will either accept the Deliverable or provide the Company Project Manager a written list of requested changes. If no written response (either accepting or requesting changes) is received from Client within five (5) business days, the Deliverable shall be deemed accepted;
- b. If a written list of requested changes is received within five (5) business days,

Company will make the agreed upon revisions in order to satisfy requirements based upon the scope of the Services, Deliverables, and the Acceptance Criteria, and Company will, within five (5) business days, re-submit the updated version to Client;

- c. At that time, Client has five (5) business days to review and request changes for the final Deliverable. If no written response (either accepting or requesting changes) is received from Client within five (5) business days, the Deliverable shall be deemed accepted. Upon acceptance of the final Deliverable from Company to the Client, the Client accepts responsibility for the final Deliverable such that the Company Warranty Period is complete. The Warranty Period is defined as the period of time from when a Deliverable is provided to the Client for review until acceptance of the final Deliverable, based on the Acceptance Criteria, by the Client.

5. Period of Performance

This agreement shall expire as of April 6, 2021.

6. Fees and Terms

Contract Type: Time and Materials

Company will provide "best effort," consistent with all assumptions being satisfied toward providing the Services and Deliverables defined in the SOW within the *not to exceed* (NTE) cost specified in the table below. In the event Company reasonably anticipates that the NTE will be exceeded, it shall provide notice thereof to Client as far in advance as reasonably practicable and shall not exceed the NTE without Client's written authorization. For the avoidance of doubt, the NTE cost below shall not be construed as a minimum payment requirement.

Project Role	Rate	Hours	Cost
Solutions Engineer	USD 200.00	40	USD 8,000.00
TOTAL			USD 8,000.00

Company will assign only duly qualified persons to the Project who have the skills and experience commensurate with their respective role in the process.

If Client requests additional effort that requires additional labor hours, whether to complete Services and Deliverables defined in the SOW, or to add additional Services and Deliverables, then Company and the Client will define the labor rate and estimated number of labor hours via a supplemental agreement in the form of a Change Order consistent with this SOW.

6.1. Working Hours

Company resources will work normal business hours (8am to 5pm, Monday to Friday). For onsite activities this will be in the time zone where the Client is physically located otherwise it will be in the Mountain Time zone.

6.2. Invoicing/Billing Information

Client agrees to pay Company for the full amount of hours specified in section 7, which will be invoiced upon SOW execution.

Invoices will be submitted/mailed to: [accountspayable@ roseville.ca.us](mailto:accountspayable@roseville.ca.us)

7. Estimated Travel Expenses

Within the period of performance (PoP) as stated in Section 5 of this SOW, travel expenses pre-approved by Client that are incurred by Company will be billed to Client. Client agrees to pay any and all actual and reasonable travel and other business-related expenses. Actual and reasonable travel expenses may include airfare (coach class for domestic United States), lodging, local transportation, meals, parking, and miscellaneous expenses as required.

If Company is approved to travel to provide Services, then in the event that the Client cancels the travel, regardless of the advance written notice given, Client is required to reimburse Company for all non-refundable travel expenses that Company incurred as of the date of cancellation.

8. Pre-Existing Intellectual Property

Pursuant to Section 7 of the Agreement, and for the avoidance of doubt, Company will continue to own all of its Pre-Existing Intellectual Property, which Company grants to Client a non-exclusive, royalty-free, perpetual, irrevocable and world-wide right to use, modify, and reproduce the Deliverables solely for Client's business use in conjunction with Client's use of the Pre-Existing Intellectual Property. All Company Pre-Existing Intellectual Property utilized in the performance of this SOW are specifically described below. In the event of a conflict between Section 7 of the Agreement and Section 8 of this SOW, Section 8 of this SOW shall control with respect to such conflict.

None

Exhibit A-2

Statement of Work ("SOW")

This Statement of Work ("**SOW**") is executed under the terms and conditions of Independent Contractor Agreement dated June 19, 2019 (the "**Agreement**") between PEGRight, Inc. dba ProofID ("**Company**") and City of Roseville ("**Client**"). Company and Client may be referred to individually as a "**Party**" and collectively as the "**Parties**". This SOW describes the Services and Deliverables to be performed and provided by Company to Client. In the event of any conflict or inconsistency between the terms of this SOW and the terms of the Agreement, the terms of this SOW shall govern and prevail. This SOW is effective as of April 27, 2020 ("**Effective Date**").

1. Company Contact

Cody Cook, Director Professional Services
1755 Telstar Drive, Suite 206
Colorado Springs, CO 80920
Telephone Number: (719) 310-7124
E-mail address: cody.cook@pegtright.com

2. Customer Contact

Pete McLemore
316 Vernon Street
Roseville, CA 95678
Telephone Number: (916) 774-5431
Email: pmclemore@roseville.ca.us

3. Scope

3.1. Overview

This SOW is focused on providing support to the Customer IAM Team as part of their IAM Modernization effort, specifically supporting the PingFederate product. This SOW outlines the activities and parameters for the engagement.

3.2. Description of Services

Company will provide engineering labor hours to the Client in order to perform Services within the Not-To-Exceed (NTE) resource hours and cost specified in Section 6 of this SOW. Services are related to development and delivery of the following:

- **Service #1: Ping Identity Product Integration Support**

Provide engineering labor to act as an extension of the Customer IAM Team, assisting the team with their IAM and Ping Identity product implementation project, specifically the PingFederate product. Tasking for the work will be provided by the Customer Contact. Support can be requested by email or telephone. Contractor and Customer will determine schedule, milestones, and deliverables for each requested support task, which will be confirmed via email.

3.3. Description of Deliverables

The following is the list of Deliverables that will be provided by Company to Client pursuant to this SOW.

None

3.4. Project Prerequisites

The following project prerequisites and/or dependencies must be completed by Customer prior to project kickoff.

- Create/Maintain appropriate accounts for Company consultants with remote VPN access
- Provide appropriate privileged access to Company consultants upon Ping Identity product servers including PingOne instance

3.5. Project Assumptions

The following assumptions were made to create this SOW. Should any of these project assumptions prove to be incorrect or incomplete, then the Parties may modify the Fees and Terms, Scope, and/or Period of Performance by mutual agreement. Should any of these project assumptions not be provided in a timely manner, then the Parties may modify the Fees and Terms, Scope, and/or Period of Performance. Timely is defined as a reasonable amount of time for a service request to be completed, e.g. five (5) working days from the time of a reasonable request by a Party or from a date agreed upon in writing, such as in a project plan signed by both Parties.

- It is assumed that Client will provide and coordinate access to necessary staff in order to complete the Services and Deliverables defined within this SOW.
- It is assumed that Company will perform Services remotely and that Client will provide high-speed remote access to Company for hardware and software resources required to complete the Services and Deliverables defined within this SOW.
- It is assumed that any existing issues that would preclude successful implementation, whether performance or functional, are disclosed and are not included in the scope of this Description of Services.
- It is assumed all environments required for completion of this work effort are stable, consistent, and accessible.
- It is assumed that Client will own and manage all change management and communications efforts required for this implementation and rollout.
- It is assumed that Client will provide test accounts to Company for testing PingFederate SAML-based SSO to applications

3.6. Project Out of Scope Items

The following items are considered out of scope for the project:

- Dev-Ops activities or development of any custom deployment automation software
- Configuration/support/etc. of any Ops user management tools
- Formal Ping Identity product training
- Development/execution of automated testing scripts
- Custom development
- Implementation of any Ping Identity product outside of PingFederate
- Outbound Provisioning for any Service Provider Connections

4. Acceptance Procedure

Each Deliverable, as defined in this SOW, will be approved in accordance with the following procedure:

- a. Within five (5) business days, Client will either accept the Deliverable or provide the Company Project Manager a written list of requested changes. If no written response (either accepting or requesting changes) is received from Client within five (5) business days, the Deliverable shall be deemed accepted;
- b. If a written list of requested changes is received within five (5) business days,

Company will make the agreed upon revisions in order to satisfy requirements based upon the scope of the Services, Deliverables, and the Acceptance Criteria, and Company will, within five (5) business days, re-submit the updated version to Client;

- c. At that time, Client has five (5) business days to review and request changes for the final Deliverable. If no written response (either accepting or requesting changes) is received from Client within five (5) business days, the Deliverable shall be deemed accepted. Upon acceptance of the final Deliverable from Company to the Client, the Client accepts responsibility for the final Deliverable such that the Company Warranty Period is complete. The Warranty Period is defined as the period of time from when a Deliverable is provided to the Client for review until acceptance of the final Deliverable, based on the Acceptance Criteria, by the Client.

5. Period of Performance

This agreement shall expire as of April 6, 2021.

6. Fees and Terms

Contract Type: Time and Materials

Company will provide "best effort," consistent with all assumptions being satisfied toward providing the Services and Deliverables defined in the SOW within the *not to exceed* (NTE) cost specified in the table below. In the event Company reasonably anticipates that the NTE will be exceeded, it shall provide notice thereof to Client as far in advance as reasonably practicable and shall not exceed the NTE without Client's written authorization. For the avoidance of doubt, the NTE cost below shall not be construed as a minimum payment requirement.

Project Role	Rate	Hours	Cost
Solutions Engineer	USD 200.00	40	USD 8,000.00
TOTAL			USD 8,000.00

Company will assign only duly qualified persons to the Project who have the skills and experience commensurate with their respective role in the process.

If Client requests additional effort that requires additional labor hours, whether to complete Services and Deliverables defined in the SOW, or to add additional Services and Deliverables, then Company and the Client will define the labor rate and estimated number of labor hours via a supplemental agreement in the form of a Change Order consistent with this SOW.

6.1. Working Hours

Company resources will work normal business hours (8am to 5pm, Monday to Friday). For onsite activities this will be in the time zone where the Client is physically located otherwise it will be in the Mountain Time zone.

6.2. Invoicing/Billing Information

Client agrees to pay Company for the full amount of hours specified in section 7, which will be invoiced upon SOW execution.

Invoices will be submitted/mailed to: [accountspayable@ roseville.ca.us](mailto:accountspayable@roseville.ca.us)

7. Estimated Travel Expenses

Within the period of performance (PoP) as stated in Section 5 of this SOW, travel expenses pre-approved by Client that are incurred by Company will be billed to Client. Client agrees to pay any and all actual and reasonable travel and other business-related expenses. Actual and reasonable travel expenses may include airfare (coach class for domestic United States), lodging, local transportation, meals, parking, and miscellaneous expenses as required.

If Company is approved to travel to provide Services, then in the event that the Client cancels the travel, regardless of the advance written notice given, Client is required to reimburse Company for all non-refundable travel expenses that Company incurred as of the date of cancellation.

8. Pre-Existing Intellectual Property

Pursuant to Section 7 of the Agreement, and for the avoidance of doubt, Company will continue to own all of its Pre-Existing Intellectual Property, which Company grants to Client a non-exclusive, royalty-free, perpetual, irrevocable and world-wide right to use, modify, and reproduce the Deliverables solely for Client's business use in conjunction with Client's use of the Pre-Existing Intellectual Property. All Company Pre-Existing Intellectual Property utilized in the performance of this SOW are specifically described below. In the event of a conflict between Section 7 of the Agreement and Section 8 of this SOW, Section 8 of this SOW shall control with respect to such conflict.

None

COUNCIL COMMUNICATION

CC #: 0855

File #: 0400-04-12-1 & 0400-07

Title: Sierra Vista KT-2A - Final Map and Subdivision Agreement

Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 7.8.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council take the following actions:

1. Approve the final map on file with the City Clerk and accept on behalf of the public, subject to improvement, Lots A and B and the rights of way and the easements offered thereon.
2. Adopt the attached resolution approving the Subdivision Agreement and authorize the City Manager to execute the agreement on behalf of the City.

BACKGROUND

The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 70 residential lots, 2 public Landscape lots and 1 Designated Remainder lot for future development.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Sierra Vista KT 2A final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Sierra Vista KT-2A final map was accomplished with preparation of the Sierra Vista Specific Plan EIR (Adopted: May 5, 2010) (SCH#2008032017) and the Mitigated Negative Declaration (MND) and associated Mitigation Monitoring Program approved by the City of Roseville on June 6, 2012. Because the Sierra Vista KT-2A final map is consistent with the project evaluated in the Sierra Vista Specific Plan Environmental Impact Report (EIR), no new effects would be expected to occur and all applicable mitigation measures from the Sierra Vista Specific Plan EIR will be implemented. As such, no

additional CEQA action is required at this time.

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

SUBDIVISION AGREEMENT

SIERRA VISTA -KT - 2A SUBDIVISION

THIS AGREEMENT, made and entered into this ____ day of _____,
20__, by and between the CITY OF ROSEVILLE, a municipal corporation ("CITY"), and
SIERRA VISTA COMMUNITIES, LLC,
a CALIFORNIA LIMITED LIABILITY COMPANY, ("SUBDIVIDER"),

W I T N E S S E T H:

WHEREAS, SUBDIVIDER is possessed of a tract of land lying in the City of Roseville,
County of Placer, known as "SIERRA VISTA - KT-2A Subdivision" (Subdivision
no. PL17-0305 ; "the Subdivision"); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning
Commission on the 10 day of December, 2015, and the final map of the Subdivision
has been approved subject to the execution of this Agreement; and

WHEREAS, the final map has been filed on the ____ day of _____, 20__ in
Book _____ of Parcel/Subdivision Maps at Page _____ in the Official Records, Placer
County Recorder, file no. _____; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the subdivision of land in the City, requires that SUBDIVIDER shall execute and file an agreement between itself and CITY relating to the improvements to be made in a subdivision, prior to the approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects all lands, right-of-ways, and easements offered for dedication on the final map of the Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers of dedication in accordance with Government Code Section 66477.2. All such offers may be accepted by CITY in its sole discretion at any later date without further notice to SUBDIVIDER as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this Agreement.

2. Improvements - Time Limit. SUBDIVIDER agrees to cause all improvements to be made and constructed in the Subdivision to fully comply with the requirements of the Roseville Municipal Code and the Subdivision Map Act of the State of California according to the improvement plans for the Subdivision prepared by MSA Engineering, Inc., dated June 11, 2019 and approved by the City Engineer and including any changes or alterations to such improvements required by the City Engineer, and to install, on or before December 31, 2021, such survey monuments as may be required by the City Engineer ("the Work"). SUBDIVIDER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in

connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

SUBDIVIDER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by SUBDIVIDER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by SUBDIVIDER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that SUBDIVIDER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at anytime prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-way, the City Engineer shall give written notice to SUBDIVIDER to eliminate the safety hazard. If SUBDIVIDER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. SUBDIVIDER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to SUBDIVIDER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. SUBDIVIDER shall deposit the estimated inspection fee and reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. SUBDIVIDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of \$ 1,540,385.70. One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 15

(commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. SUBDIVIDER shall also file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be released upon SUBDIVIDER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that SUBDIVIDER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its

improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. SUBDIVIDER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. Subdivider's Obligation to Warn Public During Construction. Until final acceptance of the Work, SUBDIVIDER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. SUBDIVIDER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY. SUBDIVIDER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, SUBDIVIDER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if SUBDIVIDER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to SUBDIVIDER and to SUBDIVIDER'S Surety. In such event, SUBDIVIDER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before SUBDIVIDER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. SUBDIVIDER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, SUBDIVIDER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of SUBDIVIDER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

SUBDIVIDER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. SUBDIVIDER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE

LIMITS OF LIABILITY

General Liability

\$2,000,000 per occurrence

\$4,000,000 aggregate

Personal Injury:

\$2,000,000 per occurrence

\$4,000,000 aggregate

Automobile Liability

\$1,000,000 combined single limit

a. Form. SUBDIVIDER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. SUBDIVIDER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of SUBDIVIDER. The additional insured coverage under the SUBDIVIDER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. SUBDIVIDER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply

on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. SUBDIVIDER hereby agrees to waive subrogation which any insurer of SUBDIVIDER may acquire from SUBDIVIDER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by SUBDIVIDER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve SUBDIVIDER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be

brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by SUBDIVIDER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith

purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD required by Section 3.20 or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event SUBDIVIDER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of SUBDIVIDER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of SUBDIVIDER. In the event CITY seeks recourse against a security, CITY shall also have recourse against SUBDIVIDER for any and all amounts necessary to complete the obligations of SUBDIVIDER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and SUBDIVIDER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

Marc Stout, City Engineer
City of Roseville
311 Vernon Street
Roseville, CA 95678

Sierra Vista Communities LLC
1025 Creekside Ridge Dr., #240
Roseville, CA 95661
Attn: Larry Gualco

Either party may amend its address by giving written notice to the other.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and SUBDIVIDER has caused this Agreement to be executed.

COUNCIL COMMUNICATION

CC #: 0856

File #: 0400-04-12-1 & 0400-07

Title: Sierra Vista KT-3A - Final Map and Subdivision Agreement

Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 7.9.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council take the following actions:

1. Approve the final map on file with the City Clerk and accept on behalf of the public, subject to improvement, Lots A, B, & C and the rights of way and the easements offered thereon.
2. Adopt the attached resolution approving the Subdivision Agreement and authorize the City Manager to execute the agreement on behalf of the City.

BACKGROUND

The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 110 residential lots and 3 public landscape lots.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Sierra Vista KT 3A final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Sierra Vista KT-3A final map was accomplished with preparation of the Sierra Vista Specific Plan EIR (Adopted: May 5, 2010) (SCH#2008032017) and the Mitigated Negative Declaration (MND) and associated Mitigation Monitoring Program approved by the City of Roseville on June 6, 2012. Because the Sierra Vista KT-3A final map is consistent with the project evaluated in the Sierra Vista Specific Plan Environmental Impact Report (EIR), no new effects would be expected to occur and all applicable mitigation measures from the Sierra Vista Specific Plan EIR will be implemented. As such, no

additional CEQA action is required at this time.

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

SUBDIVISION AGREEMENT

SIERRA VISTA -KT - 3A SUBDIVISION

THIS AGREEMENT, made and entered into this ____ day of _____,
20____, by and between the CITY OF ROSEVILLE, a municipal corporation ("CITY"), and
SIERRA VISTA COMMUNITIES, LLC,
a CALIFORNIA LIMITED LIABILITY COMPANY, ("SUBDIVIDER"),

W I T N E S S E T H:

WHEREAS, SUBDIVIDER is possessed of a tract of land lying in the City of Roseville,
County of Placer, known as "SIERRA VISTA - KT-3A Subdivision" (Subdivision
no. PL17-0305; "the Subdivision"); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning
Commission on the 10 day of December, 2015, and the final map of the Subdivision
has been approved subject to the execution of this Agreement; and

WHEREAS, the final map has been filed on the ____ day of _____, 20__ in
Book _____ of Parcel/Subdivision Maps at Page _____ in the Official Records, Placer
County Recorder, file no. _____; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the subdivision of land in the City, requires that SUBDIVIDER shall execute and file an agreement between itself and CITY relating to the improvements to be made in a subdivision, prior to the approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects all lands, right-of-ways, and easements offered for dedication on the final map of the Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers of dedication in accordance with Government Code Section 66477.2. All such offers may be accepted by CITY in its sole discretion at any later date without further notice to SUBDIVIDER as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this Agreement.

2. Improvements - Time Limit. SUBDIVIDER agrees to cause all improvements to be made and constructed in the Subdivision to fully comply with the requirements of the Roseville Municipal Code and the Subdivision Map Act of the State of California according to the improvement plans for the Subdivision prepared by MSA Engineering, Inc., dated June 27, 2019 and approved by the City Engineer and including any changes or alterations to such improvements required by the City Engineer, and to install, on or before December 31, 2021, such survey monuments as may be required by the City Engineer ("the Work"). SUBDIVIDER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in

connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

SUBDIVIDER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by SUBDIVIDER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by SUBDIVIDER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that SUBDIVIDER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at anytime prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-way, the City Engineer shall give written notice to SUBDIVIDER to eliminate the safety hazard. If SUBDIVIDER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. SUBDIVIDER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to SUBDIVIDER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. SUBDIVIDER shall deposit the estimated inspection fee and reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. SUBDIVIDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of \$ 2,503,946.38. One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 15

(commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. SUBDIVIDER shall also file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be released upon SUBDIVIDER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that SUBDIVIDER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its

improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. SUBDIVIDER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. Subdivider's Obligation to Warn Public During Construction. Until final acceptance of the Work, SUBDIVIDER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. SUBDIVIDER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY. SUBDIVIDER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, SUBDIVIDER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if SUBDIVIDER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to SUBDIVIDER and to SUBDIVIDER'S Surety. In such event, SUBDIVIDER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before SUBDIVIDER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. SUBDIVIDER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, SUBDIVIDER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of SUBDIVIDER 's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

SUBDIVIDER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. SUBDIVIDER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE

General Liability

Automobile Liability

LIMITS OF LIABILITY

\$2,000,000 per occurrence

\$4,000,000 aggregate

Personal Injury:

\$2,000,000 per occurrence

\$4,000,000 aggregate

\$1,000,000 combined single limit

- a. Form. SUBDIVIDER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- b. Additional Insureds. SUBDIVIDER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of SUBDIVIDER. The additional insured coverage under the SUBDIVIDER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- c. Cancellation/Modification. SUBDIVIDER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.
- d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply

on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. SUBDIVIDER hereby agrees to waive subrogation which any insurer of SUBDIVIDER may acquire from SUBDIVIDER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by SUBDIVIDER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve SUBDIVIDER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be

brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by SUBDIVIDER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith

purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD required by Section 3.20 or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event SUBDIVIDER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of SUBDIVIDER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of SUBDIVIDER. In the event CITY seeks recourse against a security, CITY shall also have recourse against SUBDIVIDER for any and all amounts necessary to complete the obligations of SUBDIVIDER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and SUBDIVIDER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

Marc Stout, City Engineer
City of Roseville
311 Vernon Street
Roseville, CA 95678

Sierra Vista Communities LLC
1025 Creekside Ridge Dr., #240
Roseville, CA 95661
Attn: Larry Gualco

Either party may amend its address by giving written notice to the other.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ____ day of ____, 20__, and SUBDIVIDER has caused this Agreement to be executed.

COUNCIL COMMUNICATION

CC #: 0857

File #: 0400-04012-1 & 0400-07

Title: Sierra Vista KT-3B Final Map and Subdivision Agreement

Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 7.10.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council take the following actions:

1. Approve the final map on file with the City Clerk and accept on behalf of the public, subject to improvement, Lot A and the rights of way and the easements offered thereon.
2. Adopt the attached resolution approving the Subdivision Agreement and authorize the City Manager to execute the agreement on behalf of the City.

BACKGROUND

The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 97 residential lots and 1 public landscape lot.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Sierra Vista KT-3B final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Sierra Vista KT-3B final map was accomplished with preparation of the Sierra Vista Specific Plan EIR (Adopted: May 5, 2010) (SCH#2008032017) and the Mitigated Negative Declaration (MND) and associated Mitigation Monitoring Program approved by the City of Roseville on June 6, 2012. Because the Sierra Vista KT-3B final map is consistent with the project evaluated in the Sierra Vista Specific Plan Environmental Impact Report (EIR), no new effects would be expected to occur and all applicable mitigation measures from the Sierra Vista Specific Plan EIR will be implemented. As

such, no additional CEQA action is required at this time.

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

Dominick Casey, City Manager

SUBDIVISION AGREEMENT

SIERRA VISTA -KT - 3B SUBDIVISION

THIS AGREEMENT, made and entered into this ____ day of _____,
20__, by and between the CITY OF ROSEVILLE, a municipal corporation ("CITY"), and
SIERRA VISTA COMMUNITIES, LLC,
a CALIFORNIA LIMITED LIABILITY COMPANY, ("SUBDIVIDER"),

W I T N E S S E T H:

WHEREAS, SUBDIVIDER is possessed of a tract of land lying in the City of Roseville,
County of Placer, known as "SIERRA VISTA - KT-3B Subdivision" (Subdivision
no. PL17-0305 ; "the Subdivision"); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning
Commission on the 10 day of December, 2015, and the final map of the Subdivision
has been approved subject to the execution of this Agreement; and

WHEREAS, the final map has been filed on the ____ day of _____, 20__ in
Book _____ of Parcel/Subdivision Maps at Page _____ in the Official Records, Placer
County Recorder, file no. _____; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the subdivision of land in the City, requires that SUBDIVIDER shall execute and file an agreement between itself and CITY relating to the improvements to be made in a subdivision, prior to the approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects all lands, right-of-ways, and easements offered for dedication on the final map of the Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers of dedication in accordance with Government Code Section 66477.2. All such offers may be accepted by CITY in its sole discretion at any later date without further notice to SUBDIVIDER as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this Agreement.

2. Improvements - Time Limit. SUBDIVIDER agrees to cause all improvements to be made and constructed in the Subdivision to fully comply with the requirements of the Roseville Municipal Code and the Subdivision Map Act of the State of California according to the improvement plans for the Subdivision prepared by MSA Engineering, Inc., dated June 27, 2019 and approved by the City Engineer and including any changes or alterations to such improvements required by the City Engineer, and to install, on or before December 31, 2021, such survey monuments as may be required by the City Engineer ("the Work"). SUBDIVIDER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in

connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

SUBDIVIDER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by SUBDIVIDER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by SUBDIVIDER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that SUBDIVIDER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at anytime prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-way, the City Engineer shall give written notice to SUBDIVIDER to eliminate the safety hazard. If SUBDIVIDER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. SUBDIVIDER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to SUBDIVIDER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. SUBDIVIDER shall deposit the estimated inspection fee and reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. SUBDIVIDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of \$ 4,002,834.15. One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 15

(commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. SUBDIVIDER shall also file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be released upon SUBDIVIDER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that SUBDIVIDER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its

improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. SUBDIVIDER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. Subdivider's Obligation to Warn Public During Construction. Until final acceptance of the Work, SUBDIVIDER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. SUBDIVIDER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY. SUBDIVIDER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, SUBDIVIDER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if SUBDIVIDER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to SUBDIVIDER and to SUBDIVIDER'S Surety. In such event, SUBDIVIDER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before SUBDIVIDER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. SUBDIVIDER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, SUBDIVIDER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of SUBDIVIDER 's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

SUBDIVIDER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. SUBDIVIDER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE

General Liability

Automobile Liability

LIMITS OF LIABILITY

\$2,000,000 per occurrence

\$4,000,000 aggregate

Personal Injury:

\$2,000,000 per occurrence

\$4,000,000 aggregate

\$1,000,000 combined single limit

a. Form. SUBDIVIDER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. SUBDIVIDER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of SUBDIVIDER. The additional insured coverage under the SUBDIVIDER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. SUBDIVIDER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply

on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. SUBDIVIDER hereby agrees to waive subrogation which any insurer of SUBDIVIDER may acquire from SUBDIVIDER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by SUBDIVIDER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve SUBDIVIDER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be

brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by SUBDIVIDER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith

purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD required by Section 3.20 or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event SUBDIVIDER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of SUBDIVIDER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of SUBDIVIDER. In the event CITY seeks recourse against a security, CITY shall also have recourse against SUBDIVIDER for any and all amounts necessary to complete the obligations of SUBDIVIDER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and SUBDIVIDER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

Marc Stout, City Engineer
City of Roseville
311 Vernon Street
Roseville, CA 95678

Sierra Vista Communities LLC
1025 Creekside Ridge Dr., #240
Roseville, CA 95661
Attn: Larry Gualco

Either party may amend its address by giving written notice to the other.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ____ day of ____, 20__, and SUBDIVIDER has caused this Agreement to be executed.

SUBDIVISION FAITHFUL PERFORMANCE BOND
(Subdivision: Sierra Vista Village KT-3B)

WHEREAS, the City of Roseville ("CITY"), and Sierra Vista Communities, LLC ("PRINCIPAL")
have entered into an agreement whereby PRINCIPAL agrees to install and complete
certain designated public improvements, which said agreement ("AGREEMENT"),
dated , 20 , and identified as
Sierra Vista Village KT-3B is hereby referred to and made a
(Name of Subdivision)
part hereof; and

WHEREAS, said PRINCIPAL is required under the terms of said AGREEMENT
to furnish a bond for the faithful performance of said AGREEMENT; and

NOW, THEREFORE, the PRINCIPAL and Lexon Insurance Company
a Texas corporation, admitted and duly authorized to transact
business under the laws of the State of California, as SURETY ("SURETY"), are held
and firmly bound unto the CITY of Roseville, hereinafter called "CITY", in the penal sum
of Four million two thousand eight hundred thirty-four and 15/100 dollars
(\$ 4,002,834.15) lawful money of the United States, for the payment of which sum
well and truly to be made, SURETY binds itself, its heirs, successors, executors and
administrators, jointly and severally, firmly to this instrument.

The condition of this obligation is such that if the PRINCIPAL, his or its heirs,
executors, administrators, successors or assigns, shall abide by, and in all respects
perform the covenants, conditions and provisions in said AGREEMENT and any
alteration thereof made as therein provided, on his or its part to be kept and performed
at the time and in the manner therein specified, and in all respects according to their
true intent and meaning, and shall indemnify and save harmless CITY, its officers,
agents and employees, as therein stipulated, then this obligation shall be null and void;
otherwise, this obligation shall be and remain in full force and effect.

As part of the obligation secured hereby and in addition to the face amount
specified therefore, there shall be included costs and reasonable expenses and fees,
including reasonable attorneys' fees, incurred by CITY in successfully enforcing such
obligation, all to be taxed as costs and included in any judgment rendered.

The SURETY hereby stipulates and agrees that no change, extension of time,
alteration or addition to the terms of the AGREEMENT or to the work to be performed
thereunder or the specifications accompanying the same shall in any way affect
SURETY'S obligations under this bond, and it does hereby waive notice of any such

change, extension of time, alteration or addition to the terms of the agreement or to the work or to the specifications. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. The SURETY hereby waives the provisions of Section 2819 of the Civil Code.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the 28th day of May, 2020.

Lexon Insurance Company

KNOW ALL MEN BY THESE PRESENTS, that **LEXON INSURANCE COMPANY**, a Texas Corporation, with its statutory home office in Austin, Texas, does hereby constitute and appoint: Mechelle Larkin, Kathy R. Mair, My Hua, Brenda Wong, Tenzer V. Cunningham, Martha Gonzales, Joaquin Perez, Jeffrey Strassner its true and lawful Attorney(s)-In-Fact to make, execute, seal and deliver for, and on its behalf as surety, any and all bonds, undertakings or other writings obligatory in nature of a bond.

This authority is made under and by the authority of a resolution which was passed by the Board of Directors of **LEXON INSURANCE COMPANY** on the 1st day of July, 2003 as follows:

Resolved, that the President of the Company is hereby authorized to appoint and empower any representative of the Company or other person or persons as Attorney-In-Fact to execute on behalf of the Company any bonds, undertakings, policies, contracts of indemnity or other writings obligatory in nature of a bond not to exceed \$5,000,000.00, Five Million Dollars, which the Company might execute through its duly elected officers, and affix the seal of the Company thereto. Any said execution of such documents by an Attorney-In-Fact shall be as binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company. Any Attorney-In-Fact, so appointed, may be removed for good cause and the authority so granted may be revoked as specified in the Power of Attorney.

Resolved, that the signature of the President and the seal of the Company may be affixed by facsimile on any power of attorney granted, and the signature of the Assistant Secretary, and the seal of the Company may be affixed by facsimile to any certificate of any such power and any such power or certificate bearing such facsimile signature and seal shall be valid and binding on the Company. Any such power so executed and sealed and certificate so executed and sealed shall, with respect to any bond of undertaking to which it is attached, continue to be valid and binding on the Company.

IN WITNESS THEREOF, **LEXON INSURANCE COMPANY** has caused this instrument to be signed by its President, and its Corporate Seal to be affixed this 22nd day of June, 2018.

SUBDIVISION PAYMENT BOND
(Subdivision: Sierra Vista Village KT-3B)

WHEREAS, the City of Roseville ("CITY"), and Sierra Vista Communities, LLC
("PRINCIPAL") have entered into an agreement whereby PRINCIPAL agrees to install
and complete certain designated public improvements, which said agreement,
("AGREEMENT") dated _____, 20____, and identified
as Sierra Vista Village KT-3B
(Name of Subdivision)
is hereby referred to and made a part hereof; and

WHEREAS, under the terms of said AGREEMENT, PRINCIPAL is required
before entering upon the performance of the work, to file a good and sufficient payment
bond with the CITY to secure the claims to which reference is made in Title 1
(commencing with Section 8000) of Part 6 of Division 4 of the Civil Code of the State of
California; and

NOW, THEREFORE, said PRINCIPAL and the undersigned
Lexon Insurance Company a Texas,
admitted and duly authorized to transact business under the laws of the State of
California, as SURETY ("SURETY"), are held and firmly bound unto the CITY
and all contractors, subcontractors, laborers, materialmen and other
persons employed in the performance of the aforesaid AGREEMENT and referred
to in the aforesaid Civil Code in the sum of _____
Four million two thousand eight hundred thirty-four and 15/100 dollars
(\$4,002,834.15), for materials furnished or labor thereon of any kind, or for amounts
due under the Unemployment Insurance Act with respect to such work or labor, that
said SURETY will pay the same in an amount not exceeding the amount hereinabove
set forth, and also in case suit is brought upon this bond, will pay, in addition to the face
amount thereof, costs and reasonable expenses and fees, including reasonably
attorney's fees, incurred in successfully enforcing such obligation, to be awarded and
fixed by the court, and to be taxed as costs and to be included in the judgment therein
rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the
benefit of any of any and all persons, companies and corporations entitled to file claims
under Title 1 (commencing with Section 8000) of Part 6 of Division 4 of the Civil Code
so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall
become null and void, otherwise it shall be and remain in full force and effect.

The SURETY hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said AGREEMENT or to the work to be performed thereunder or the specifications accompanying the same shall in any way affect its obligations under this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the AGREEMENT or to the work or to the specifications. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. The SURETY hereby waives the provisions of Section 2819 of the Civil Code.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the 28th day of May, 2020.

Bond No. LICX1195234-M

Premium \$ Included in Perf. Bond

**SUBDIVISION MAINTENANCE BOND
GUARANTEE AND WARRANTY SECURITY**
(Subdivision: Sierra Vista Village KT-3B)

WHEREAS, the City of Roseville ("CITY") and Sierra Vista Communities, LLC

("PRINCIPAL") have entered into an agreement by which PRINCIPAL agrees to install and complete certain designated public improvements and to guarantee and warrant the work for a period of one year following its completion and acceptance, which agreement, dated _____, 20____, and identified as _____

Sierra Vista Village KT-3B

(Name of Subdivision)

is hereby referred to and made a part hereof; and

WHEREAS, said PRINCIPAL is required under the terms of said AGREEMENT to furnish a bond to guarantee and warrant the work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, to comply with the terms of said AGREEMENT; and

NOW, THEREFORE, we, the PRINCIPAL and Lexon Insurance Company
a Texas, admitted and duly authorized to transact business
under the laws of the State of California, as Surety ("SURETY"), are held and firmly
bound unto the CITY in the penal sum of _____
Four hundred thousand two hundred eighty-three and 42/100 dollars
(\$ 400,283.42), lawful money of the United States, for the payment of which
sum well and truly to be made, we bind ourselves, our heirs, successors, executors and
administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, his or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, on his or its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents and employees, as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

The SURETY hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the AGREEMENT or to the work to be performed thereunder or the specifications accompanying the same shall in any way affect SURETY'S obligations under this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the agreement or to the work or to the specifications. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. The SURETY hereby waives the provisions of Section 2819 of the Civil Code.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the 28th day of May, 2020.

Lexon Insurance Company

KNOW ALL MEN BY THESE PRESENTS, that **LEXON INSURANCE COMPANY**, a Texas Corporation, with its statutory home office in Austin, Texas, does hereby constitute and appoint: Mechelle Larkin, Kathy R. Mair, My Hua, Brenda Wong, Tenzer V. Cunningham, Martha Gonzales, Joaquin Perez, Jeffrey Strassner its true and lawful Attorney(s)-In-Fact to make, execute, seal and deliver for, and on its behalf as surety, any and all bonds, undertakings or other writings obligatory in nature of a bond.

This authority is made under and by the authority of a resolution which was passed by the Board of Directors of **LEXON INSURANCE COMPANY** on the 1st day of July, 2003 as follows:

Resolved, that the President of the Company is hereby authorized to appoint and empower any representative of the Company or other person or persons as Attorney-In-Fact to execute on behalf of the Company any bonds, undertakings, policies, contracts of indemnity or other writings obligatory in nature of a bond not to exceed \$5,000,000.00, Five Million Dollars, which the Company might execute through its duly elected officers, and affix the seal of the Company thereto. Any said execution of such documents by an Attorney-In-Fact shall be as binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company. Any Attorney-In-Fact, so appointed, may be removed for good cause and the authority so granted may be revoked as specified in the Power of Attorney.

Resolved, that the signature of the President and the seal of the Company may be affixed by facsimile on any power of attorney granted, and the signature of the Assistant Secretary, and the seal of the Company may be affixed by facsimile to any certificate of any such power and any such power or certificate bearing such facsimile signature and seal shall be valid and binding on the Company. Any such power so executed and sealed and certificate so executed and sealed shall, with respect to any bond of undertaking to which it is attached, continue to be valid and binding on the Company.

IN WITNESS THEREOF, **LEXON INSURANCE COMPANY** has caused this instrument to be signed by its President, and its Corporate Seal to be affixed this 22nd day of June, 2018.

COUNCIL COMMUNICATION

CC #: 0859

File #: 0400-04-12-1 & 0400-07

Title: Sierra Vista Village KT-5A Final Map and Subdivision Agreement

Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 7.11.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council take the following actions:

1. Approve the final map on file with the City Clerk and accept on behalf of the public, subject to improvement, Lot A and the rights of way and the easements offered thereon.
2. Adopt the attached resolution approving the Subdivision Agreement and authorize the City Manager to execute the agreement on behalf of the City.

BACKGROUND

The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 69 residential lots and 1 public landscape lot.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Sierra Vista Village KT-5A final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Sierra Vista Village KT-5A final map was accomplished with preparation of the Sierra Vista Specific Plan EIR (Adopted: May 5, 2010) (SCH#2008032017) and the Mitigated Negative Declaration (MND) and associated Mitigation Monitoring Program approved by the City of Roseville on June 6, 2012. Because the Sierra Vista Village KT-5A final map is consistent with the project evaluated in the Sierra Vista Specific Plan Environmental Impact Report (EIR), no new effects would be expected to occur and all applicable mitigation measures from the Sierra Vista Specific Plan EIR will be

implemented. As such, no additional CEQA action is required at this time.

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

SUBDIVISION AGREEMENT

SIERRA VISTA VILLAGE KT - 5A SUBDIVISION

THIS AGREEMENT, made and entered into this ____ day of _____,
20____, by and between the CITY OF ROSEVILLE, a municipal corporation ("CITY"), and
SIERRA VISTA COMMUNITIES, LLC,
a CALIFORNIA LIMITED LIABILITY COMPANY, ("SUBDIVIDER"),

W I T N E S S E T H:

WHEREAS, SUBDIVIDER is possessed of a tract of land lying in the City of Roseville,
County of Placer, known as "SIERRA VISTA VILLAGE KT-5A Subdivision" (Subdivision
no. PL17-0305 ; "the Subdivision"); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning
Commission on the 10 day of December, 2015, and the final map of the Subdivision
has been approved subject to the execution of this Agreement; and

WHEREAS, the final map has been filed on the ____ day of _____, 20__ in
Book _____ of Parcel/Subdivision Maps at Page _____ in the Official Records, Placer
County Recorder, file no. _____; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the subdivision of land in the City, requires that SUBDIVIDER shall execute and file an agreement between itself and CITY relating to the improvements to be made in a subdivision, prior to the approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects all lands, right-of-ways, and easements offered for dedication on the final map of the Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers of dedication in accordance with Government Code Section 66477.2. All such offers may be accepted by CITY in its sole discretion at any later date without further notice to SUBDIVIDER as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this Agreement.

2. Improvements - Time Limit. SUBDIVIDER agrees to cause all improvements to be made and constructed in the Subdivision to fully comply with the requirements of the Roseville Municipal Code and the Subdivision Map Act of the State of California according to the improvement plans for the Subdivision prepared by R.E.Y. Engineers, Inc., dated May 24, 2019 and approved by the City Engineer and including any changes or alterations to such improvements required by the City Engineer, and to install, on or before December 31, 2021, such survey monuments as may be required by the City Engineer ("the Work"). SUBDIVIDER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in

connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

SUBDIVIDER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by SUBDIVIDER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by SUBDIVIDER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that SUBDIVIDER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at anytime prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-way, the City Engineer shall give written notice to SUBDIVIDER to eliminate the safety hazard. If SUBDIVIDER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. SUBDIVIDER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to SUBDIVIDER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. SUBDIVIDER shall deposit the estimated inspection fee and reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. SUBDIVIDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of \$ 1,266,885.38. One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 15

(commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. SUBDIVIDER shall also file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be released upon SUBDIVIDER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that SUBDIVIDER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its

improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. SUBDIVIDER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. Subdivider's Obligation to Warn Public During Construction. Until final acceptance of the Work, SUBDIVIDER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. SUBDIVIDER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY. SUBDIVIDER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, SUBDIVIDER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if SUBDIVIDER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to SUBDIVIDER and to SUBDIVIDER'S Surety. In such event, SUBDIVIDER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before SUBDIVIDER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. SUBDIVIDER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, SUBDIVIDER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of SUBDIVIDER 's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

SUBDIVIDER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. SUBDIVIDER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE

General Liability

Automobile Liability

LIMITS OF LIABILITY

\$2,000,000 per occurrence

\$4,000,000 aggregate

Personal Injury:

\$2,000,000 per occurrence

\$4,000,000 aggregate

\$1,000,000 combined single limit

a. Form. SUBDIVIDER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. SUBDIVIDER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of SUBDIVIDER. The additional insured coverage under the SUBDIVIDER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. SUBDIVIDER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply

on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. SUBDIVIDER hereby agrees to waive subrogation which any insurer of SUBDIVIDER may acquire from SUBDIVIDER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by SUBDIVIDER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve SUBDIVIDER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be

brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by SUBDIVIDER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith

purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD required by Section 3.20 or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event SUBDIVIDER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of SUBDIVIDER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of SUBDIVIDER. In the event CITY seeks recourse against a security, CITY shall also have recourse against SUBDIVIDER for any and all amounts necessary to complete the obligations of SUBDIVIDER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and SUBDIVIDER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

Marc Stout, City Engineer
City of Roseville
311 Vernon Street
Roseville, CA 95678

Sierra Vista Communities LLC
1025 Creekside Ridge Dr., #240
Roseville, CA 95661
Attn: Larry Gualco

Either party may amend its address by giving written notice to the other.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ____ day of ____, 20__, and SUBDIVIDER has caused this Agreement to be executed.

COUNCIL COMMUNICATION

CC #: 0858

File #: 0400-04-12-1 & 0400-07

Title: Sierra Vista Village JM-20 - Phase 3.1A Final Map and Subdivision Agreement

Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 7.12.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council take the following actions:

1. Approve the final map on file with the City Clerk and accept on behalf of the public, subject to improvement, the rights of way and easements offered thereon; and,
2. Adopt the attached resolution approving the Subdivision Agreement and authorize the City Manager to execute the agreement on behalf of the City.

BACKGROUND

The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 69 residential lots.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Sierra Vista Village JM-20 - Phase 3.1A final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Sierra Vista Village JM-20 - Phase 3.1A final map was accomplished with preparation of the Sierra Vista Specific Plan EIR (Adopted: May 5, 2010) (SCH#2008032017) and the Mitigated Negative Declaration (MND) and associated Mitigation Monitoring Program approved by the City of Roseville on June 6, 2012. Because the Sierra Vista Village JM-20 - Phase 3.1A final map is consistent with project evaluated in the Sierra Vista Specific Plan Environmental Impact Report (EIR), no new effects would be expected to occur and all applicable mitigation measures from the Sierra Vista Specific Plan EIR will be implemented. As such, no additional CEQA action

is required at this time.

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

SUBDIVISION AGREEMENT

Sierra Vista Village JM-20 - Phase 3.1A SUBDIVISION

THIS AGREEMENT, made and entered into this ____ day of _____,
20____, by and between the CITY OF ROSEVILLE, a municipal corporation ("CITY"), and

John Mourier Construction, Inc. _____,
a _____ California corporation _____, ("SUBDIVIDER"),

W I T N E S S E T H:

WHEREAS, SUBDIVIDER is possessed of a tract of land lying in the City of Roseville,
County of Placer, known as "Sierra Vista Village JM-20 - Phase 3.1A Subdivision" (Subdivision
no. 2012PL-038; "the Subdivision"); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning
Commission on the 9th day of January, 2020, and the final map of the Subdivision
has been approved subject to the execution of this Agreement; and

WHEREAS, the final map has been filed on the ____ day of _____, 20__ in
Book _____ of Parcel/Subdivision Maps at Page _____ in the Official Records, Placer
County Recorder, file no. _____; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the subdivision of land in the City, requires that SUBDIVIDER shall execute and file an agreement between itself and CITY relating to the improvements to be made in a subdivision, prior to the approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects all lands, right-of-ways, and easements offered for dedication on the final map of the Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers of dedication in accordance with Government Code Section 66477.2. All such offers may be accepted by CITY in its sole discretion at any later date without further notice to SUBDIVIDER as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this Agreement.

2. Improvements - Time Limit. SUBDIVIDER agrees to cause all improvements to be made and constructed in the Subdivision to fully comply with the requirements of the Roseville Municipal Code and the Subdivision Map Act of the State of California according to the improvement plans for the Subdivision prepared by Baker Williams Engineering Group, dated April 10, 2020 and approved by the City Engineer and including any changes or alterations to such improvements required by the City Engineer, and to install, on or before December 31, 2021, such survey monuments as may be required by the City Engineer ("the Work"). SUBDIVIDER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in

connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

SUBDIVIDER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by SUBDIVIDER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by SUBDIVIDER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that SUBDIVIDER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at anytime prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-way, the City Engineer shall give written notice to SUBDIVIDER to eliminate the safety hazard. If SUBDIVIDER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. SUBDIVIDER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to SUBDIVIDER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. SUBDIVIDER shall deposit the estimated inspection fee and reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. SUBDIVIDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of \$ ~~1,863,474~~. One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 15

(commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. SUBDIVIDER shall also file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be released upon SUBDIVIDER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that SUBDIVIDER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its

improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. SUBDIVIDER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. Subdivider's Obligation to Warn Public During Construction. Until final acceptance of the Work, SUBDIVIDER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. SUBDIVIDER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY. SUBDIVIDER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, SUBDIVIDER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if SUBDIVIDER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to SUBDIVIDER and to SUBDIVIDER'S Surety. In such event, SUBDIVIDER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before SUBDIVIDER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. SUBDIVIDER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, SUBDIVIDER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of SUBDIVIDER 's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

SUBDIVIDER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. SUBDIVIDER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE

LIMITS OF LIABILITY

General Liability

\$2,000,000 per occurrence

\$3,000,000 aggregate

Personal Injury:

\$2,000,000 per occurrence

\$3,000,000 aggregate

Automobile Liability

\$1,000,000 combined single limit

a. Form. SUBDIVIDER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. SUBDIVIDER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of SUBDIVIDER. The additional insured coverage under the SUBDIVIDER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. SUBDIVIDER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply

on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. SUBDIVIDER hereby agrees to waive subrogation which any insurer of SUBDIVIDER may acquire from SUBDIVIDER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by SUBDIVIDER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve SUBDIVIDER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be

brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by SUBDIVIDER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith

purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD required by Section 3.20 or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event SUBDIVIDER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of SUBDIVIDER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of SUBDIVIDER. In the event CITY seeks recourse against a security, CITY shall also have recourse against SUBDIVIDER for any and all amounts necessary to complete the obligations of SUBDIVIDER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and SUBDIVIDER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

Marc Stout, City Engineer
City of Roseville
311 Vernon Street
Roseville, CA 95678

Steve A. Schnable
John Mourier Construction, Inc.
1430 Blue Oaks Blvd, Suite 190
Roseville, CA 95747

Either party may amend its address by giving written notice to the other.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and SUBDIVIDER has caused this Agreement to be executed.

COUNCIL COMMUNICATION

CC #: 0841

File #: 0400-04-18-1 & 0400-07

Title: Campus Oaks CO-04 Final Map and Subdivision Agreement

Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 7.13.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council take the following actions:

1. Approve the final map on file with the City Clerk and accept on behalf of the public, Lot A, and accept subject to improvement, Lots B, C, K, L, M & N, and the rights of way and the public easements offered thereon; and approve the abandonment of the easements listed thereon.
2. Adopt the attached resolution approving the Subdivision Agreement and authorize the City Manager to execute the agreement on behalf of the City.

BACKGROUND

The Development Services Department, Engineering Division, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 132 residential lots, 7 public landscape lots and 7 private common area lots.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Campus Oaks CO-04 final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Campus Oaks CO-04 final map was accomplished with the preparation of an Addendum to the Hewlett-Packard Master Plan Environmental Impact Report (HPMP EIR) as part of the analysis for the Campus Oaks Master Plan project (Hewlett-Packard Campus Oaks Addendum), which was approved by City Council on August 5, 2015. Because the Campus Oaks CO-04 final map is consistent with project evaluated in the Hewlett-Packard Campus Oaks Addendum, no new effects would be expected to occur and all applicable mitigation measures identified in the Addendum to the HPMP

will be implemented. As such, no additional CEQA action is required at this time.

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

Dominick Casey, City Manager

Description

Final Map

Resolution No. 20-258

Subdivision Agreement

OWNER'S STATEMENT

THE UNDERSIGNED HEREBY CERTIFY THAT THEY ARE THE ONLY PERSONS HAVING ANY RECORD TITLE INTEREST IN THE REAL PROPERTY INCLUDED WITHIN THE SUBDIVISION SHOWN UPON THIS FINAL MAP OF "CAMPUS OAKS CO-4, 5 & 15" AND DO HEREBY CONSENT TO THE PREPARATION AND RECORDATION OF THIS FINAL MAP; HEREBY OFFER FOR DEDICATION, AND DO HEREBY DEDICATE FOR PARTICULAR PURPOSES THE FOLLOWING:

THE REAL PROPERTY DESCRIBED BELOW IS DEDICATED AS AN EASEMENT FOR PUBLIC PURPOSES:

(A) PUBLIC EASEMENTS FOR THE INSTALLATION AND MAINTENANCE OF, BUT NOT LIMITED TO, ELECTROLIERS, WATER AND GAS PIPES, AND SEWER PIPES, AND FOR UNDERGROUND WIRES AND CONDUITS FOR ELECTRIC, TELEPHONE, AND TELEVISION, SERVICES AND TRAFFIC CONTROL APPURTENANCES TOGETHER WITH ANY AND ALL APPURTENANCES PERTAINING THERETO ON, OVER UNDER AND ACROSS LOTS A AND B AND THOSE STRIPS OF LAND LYING CONTIGUOUS TO THE PUBLIC RIGHT OF WAY AS SHOWN HEREON AND DESIGNATED "P.U.E." (PUBLIC UTILITY EASEMENT).

(B) PUBLIC EASEMENTS FOR THE INSTALLATION AND MAINTENANCE OF, BUT NOT LIMITED TO, WATER AND GAS PIPES, AND SEWER PIPES, AND FOR UNDERGROUND WIRES AND CONDUITS FOR ELECTRIC, TELEPHONE, AND TELEVISION, AND SERVICES TOGETHER WITH ANY AND ALL APPURTENANCES PERTAINING THERETO ON, OVER, UNDER AND ACROSS LOTS E, F, G, H, I, J, K, L, M, AND N AND THOSE STRIPS OF LAND LYING BETWEEN THE LINES OF THE LOTS SHOWN HEREON AND DESIGNATED "P.U.E." (PUBLIC UTILITY EASEMENT).

(C) PUBLIC EASEMENTS FOR THE INSTALLATION AND MAINTENANCE OF, DRAINAGE PIPES, TOGETHER WITH ANY AND ALL APPURTENANCES PERTAINING THERETO ON,OVER, UNDER AND ACROSS LOT E AND THOSE STRIPS OF LAND LYING BETWEEN THE LINES OF THE LOTS SHOWN HEREON AND DESIGNED "D.E." (DRAINAGE EASEMENT).

(D) EMERGENCY ACCESS EASEMENTS FOR THE INGRESS AND EGRESS OF EMERGENCY SERVICE VEHICLES, ON, OVER AND ACROSS THOSE STRIPS OF LAND LYING BETWEEN THE LINES OF THE LOTS SHOWN HEREON AND DESIGNATED "E.V.A.E." (EMERGENCY VEHICLE ACCESS EASEMENT).

THE REAL PROPERTY DESCRIBED BELOW IS DEDICATED IN FEE FOR PUBLIC PURPOSES:

(A) BRAVE HAWK LOOP AND EDGECOMB WAY, TOGETHER WITH LOTS B AND C, K, L, M AND N, AS PUBLIC RIGHT OF WAY.

(B) LOT A, FOR PUBLIC PASEO AND PUBLIC UTILITY PURPOSES.

THE REAL PROPERTY DESCRIBED BELOW IS DEDICATED AS AN EASEMENT FOR PRIVATE PURPOSES:

(A) ACCESS EASEMENTS FOR INGRESS AND EGRESS PURPOSES ACROSS THOSE STRIPS OF LAND SHOWN HEREON AS "ACCESS EASEMENT" FOR THE MUTUAL BENEFIT OF ALL LOTS SHOWN HEREON.

(B) PEDESTRIAN EASEMENTS FOR PEDESTRIAN INGRESS AND EGRESS PURPOSES ACROSS THOSE STRIPS OF LAND SHOWN HEREON AS "P.E." (PEDESTRIAN EASEMENT) FOR THE MUTUAL BENEFIT OF ALL LOTS SHOWN HEREON.

THE REAL PROPERTY DESCRIBED BELOW IS RESERVED, BY THE OWNER, AS AN EASEMENT, FOR FUTURE DEDICATION TO THE HOME OWNERS ASSOCIATION.

(A) ACCESS EASEMENTS FOR INGRESS AND EGRESS PURPOSES ACROSS THOSE STRIPS OF LAND SHOWN HEREON AS "ACCESS EASEMENT" FOR THE MUTUAL BENEFIT OF ALL LOTS SHOWN HEREON.

(B) PEDESTRIAN EASEMENTS FOR PEDESTRIAN INGRESS AND EGRESS PURPOSES ACROSS THOSE STRIPS OF LAND SHOWN HEREON AS "P.E." (PEDESTRIAN EASEMENT) FOR THE MUTUAL BENEFIT OF ALL LOTS SHOWN HEREON.

(C) PRIVATE EASEMENTS FOR THE INSTALLATION AND MAINTENANCE OF DRAINAGE PIPES, TOGETHER WITH ANY AND ALL APPURTENANCES PERTAINING THERETO ON, OVER, UNDER AND ACROSS THOSE STRIPS OF LAND LYING BETWEEN THE LINES OF THE LOTS SHOWN HEREON AND DESIGNATED "P.D.E." (PRIVATE DRAINAGE EASEMENT).

RESOLUTION NO. 20-258

APPROVING A SUBDIVISION AGREEMENT, BY AND BETWEEN THE CITY OF
ROSEVILLE AND BBC ROSEVILLE OAKS, LLC AND LENNAR HOMES OF
CALIFORNIA, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON
BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a subdivision agreement, by and between the City of Roseville and BBC
Roseville Oaks, LLC and Lennar Homes of California, Inc., for the Campus Oaks – CO-4
subdivision, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that
said agreement is approved and that the City Manager is authorized to execute it on behalf of the
City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of

SUBDIVISION AGREEMENT

Campus Oaks – CO-04 Subdivision

THIS AGREEMENT, made and entered into this ____ day of _____,
20____, by and between the CITY OF ROSEVILLE, a municipal corporation (“CITY”), and
BBC Roseville Oaks LLC, an Illinois limited liability company (the “DEVELOPER”) and
Lennar Homes of California Inc., a California corporation (the “BUILDER”).

W I T N E S S E T H:

WHEREAS, BUILDER is possessed and owner of a tract of land lying in the City of
Roseville, County of Placer, known as “Campus Oaks – CO-04 Subdivision” (Subdivision no.
PL18-147; “the Subdivision”); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning
Commission on the 27th day of September, 2018, and the final map of the Subdivision has been
approved subject to the execution of this Agreement; OR

WHEREAS, the final map has been filed on the ____ day of _____,
20____ in Book _____ of Parcel/Subdivision Maps at Page _____ in the Official
Records, Placer County Recorder, file no. _____; and

WHEREAS, BUILDER has purchased the Subdivision ("Property") from the
DEVELOPER; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the
subdivision of land in the City, requires that DEVELOPER shall execute and file an agreement
between itself and CITY relating to the improvements to be made in a subdivision, prior to the
approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects
all lands, right-of-ways, and easements offered for dedication on the final map of the
Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers
of dedication in accordance with Government Code Section 66477.2. All such offers may be
accepted by CITY in its sole discretion at any later date without further notice to DEVELOPER
as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or
part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this
Agreement.

2. Improvements - Time Limit. DEVELOPER agrees to cause all improvements to
be made and constructed in the Subdivision to fully comply with the requirements of the
Roseville Municipal Code and the Subdivision Map Act of the State of California according to

the improvement plans for the Subdivision prepared by Morton & Pitalo Inc., dated June 12, 2019 and approved by the City Engineer and including any changes or alterations to such improvements required by the City Engineer, and to install, on or before December 31, 2020, such survey monuments as may be required by the City Engineer ("the Work"). DEVELOPER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

DEVELOPER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by DEVELOPER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by DEVELOPER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that DEVELOPER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from DEVELOPER, DEVELOPER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at any time prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-way, the City Engineer shall give written notice to DEVELOPER to eliminate the safety hazard. If DEVELOPER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from DEVELOPER, DEVELOPER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. DEVELOPER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to DEVELOPER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. DEVELOPER shall deposit the estimated inspection fee and

reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. DEVELOPER and BUILDER have agreed that BUILDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of \$ 4,736,407.73. One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 15 (commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. DEVELOPER shall file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be

released upon DEVELOPER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that DEVELOPER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. DEVELOPER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. DEVELOPER's Obligation to Warn Public During Construction. Until final acceptance of the Work, DEVELOPER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. DEVELOPER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY. DEVELOPER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, DEVELOPER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if DEVELOPER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to DEVELOPER and to DEVELOPER'S Surety. In such event, DEVELOPER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before DEVELOPER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. DEVELOPER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, DEVELOPER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and

volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of DEVELOPER 's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

DEVELOPER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. DEVELOPER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
General Liability	\$2,000,000 per occurrence \$4,000,000 aggregate Personal Injury: \$2,000,000 per occurrence \$4,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Workers' Compensation	Statutory

a. Form. DEVELOPER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. DEVELOPER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of DEVELOPER. The additional insured coverage under the DEVELOPER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. DEVELOPER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. DEVELOPER hereby agrees to waive subrogation which any insurer of DEVELOPER may acquire from DEVELOPER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by DEVELOPER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve DEVELOPER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may

be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by DEVELOPER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith

purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD required by Section 3.20 or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event DEVELOPER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of DEVELOPER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of DEVELOPER. In the event CITY seeks recourse against a security, CITY shall also have recourse against DEVELOPER for any and all amounts necessary to complete the obligations of DEVELOPER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and DEVELOPER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

CITY: Marc Stout, City Engineer
City of Roseville
311 Vernon Street
Roseville, CA 95678

DEVELOPER: BBC Roseville Oaks LLC
130 Diamond Creek Place, #1
Roseville, CA 95747

BUILDER: Larry Gualco, VP
Lennar Homes of California, Inc.
1025 Creekside Ridge Drive, Suite 240
Roseville, CA 95678

Parties may amend their address by giving written notice to the other parties.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ____ day of _____, 20____, and DEVELOPER and BUILDER have caused this Agreement to be executed.

COUNCIL COMMUNICATION

CC #: 0847

File #: 0400-04-09-1

Title: Fiddymment Ranch - Phase 2 F-71 Off-Site Infrastructure Project - Notice of Completion

Contact: Darin Crockett 916-751-9196 dcrockett@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 7.14.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution accepting Fiddymment Ranch - Phase 2 F-71 Off-Site Infrastructure project, CWJ #190177, as complete and authorizing the City Engineer to execute the Notice of Completion.

BACKGROUND

The Engineering Division has made a final inspection of the above project and has found the roadway infrastructure work complete in accordance with the improvement plans and City specifications.

FISCAL IMPACT

The actions requested as part of this action have no impact to the City's General Fund. Construction costs were paid by the developer.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378.

Approving a Notice of Completion for the Fiddymment Ranch - Phase 2 F-71 Off-Site Infrastructure project meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Darin Crockett, Construction Inspector

Mike Isom, Development Services Director

Dominick Casey, City Manager

City of Roseville Fiddymment Ranch - Phase 2 F-71 Off-Site Infrastructure

RESOLUTION NO. 20-262

RESOLUTION OF THE COUNCIL OF THE CITY OF ROSEVILLE ACCEPTING THE PUBLIC WORK KNOWN AS **Fiddymment Ranch - Phase 2 F-71 Off-Site Infrastructure** PROJECT, APPROVING THE "NOTICE OF COMPLETION", AND AUTHORIZING AND DIRECTING THE CITY ENGINEER TO EXECUTE SAID NOTICE ON BEHALF OF THE CITY OF ROSEVILLE, THEREFORE, AND ACCEPTING A PORTION OF THE DEDICATIONS OFFERED ON THE RECORDED MAP OF THE SUBDIVISION.

BE IT RESOLVED by the Council of the City of Roseville as follows:

1. The "Notice of Completion" on file in the City Clerk's Department relative to that public work known as the **Fiddymment Ranch – Phase 2 F-71 Off-Site Infrastructure** is hereby approved and the public work accepted.
2. A portion of the right-of-way and easements offered for dedication on the final map of **Fiddymment Ranch Phase 3** recorded in Book **EE** of Maps, Page **74**, in the office of the recorder of Placer County, is hereby accepted by the City in part as said dedications relates to the improvement plan set known as **Fiddymment Ranch – Phase 2 F-71 Off-Site Infrastructure**
3. The City Engineer is hereby authorized and directed to execute said Notice on behalf of the City of Roseville.

COUNCIL COMMUNICATION

CC #: 0846

File #: 0114

Title: Federal Advocacy Services - Professional Services Agreement Amendment

Contact: Mark Wolinski 916-774-5179 mwolinski@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 7.15.

RECOMMENDATION TO COUNCIL

Staff recommends the City Council adopt a resolution to approve the Third Amendment to Professional Services Agreement with The Ferguson Group, LLC (TFG) to extend by one year a professional services agreement to provide federal advocacy services, and authorize the City Manager to execute it.

BACKGROUND

Over the past 15 years, City Council and staff have become increasingly involved in working with federal elected officials and agencies on a number of issues that are significantly important to Roseville and the region. The undertakings have demonstrated that having a strong local presence at the federal level increases the possibilities of realizing positive outcomes on funding, policy and regulatory matters. To support these efforts, the City has contracted with TFG to provide professional representation on federal issues.

The services provided by TFG include a comprehensive, bipartisan government strategy that assists Roseville with the development and implementation of an effective federal legislative and regulatory program. Services include legislative and administrative representation with Members of Congress, Senators, House and Senate staff and pertinent federal agencies and departments. The services also include meeting with federal authorities and representing the City's interests as directed by the City.

Scope of Services

TFG works to secure federal grants, to provide the City's perspective to federal elected officials and agencies and to support various coalition efforts of City departments. The scope of services provided by TFG builds upon the professional representation they have provided to the City over the years and focuses on the following areas:

- Law enforcement funding, including for body cameras;
- Endangered Species Act and assistance with the Army Corp of Engineers and U.S. Fish and Wildlife permitting processes;
- Cybersecurity;
- Funding/grants for Fire Department equipment and training;

- Irrigation and flood control funding, regulations and policy;
- Land use issues as impacted by federal policy and permitting;
- Transportation policy and funding, including transit, highway funding and rail safety;
- Economic development
- Municipal government finance and revenue protection; and,
- Housing, homelessness, and social services including veteran's affairs.

TFG's more than 31 years of experience and presence in Washington D.C. gives them extensive and strong relationships with congressional leaders, the California congressional delegation, and key congressional committee staff.

In addition to their Capitol Hill relationships, TFG also has long-standing working relationships with key federal agencies relevant to Roseville including the Army Corps of Engineers, the Environmental Protection Agency, the Department of Transportation, the Department of Housing and Urban Development, the White House Office of Intergovernmental Affairs, and the Department of Veterans Affairs. Furthermore, this experience and understanding of Roseville's federal legislative history, concerns, and interests continue to be critical as funding levels for federal programs and services are discussed during budget discussions underway in Congress.

A recent example of TFG's work involves their focused and timely interactions with Congress regarding the federal pandemic relief bills. During this national emergency that has impacted the nation, state, and Roseville, TGF has provided well-timed, insightful information on the actions being considered by Congress regarding the pandemic. In addition to keeping the City informed, TGF advocated for funding and programs that were critically important to Roseville and our entire community. TFG's strong understanding of how the discussions unfolded provides exceptional direction and support to staff to ensure the City's interests are represented effectively in the discussion and with the City's congressional delegation.

FISCAL IMPACT

There is no change to the total annual cost of \$87,635 for the professional services under this amendment. Funding for the professional services agreement is included in the City Council's FY2020-21 budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval for a third amendment to a professional services agreement for Federal Advocacy Services meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Mark Wolinski, Government Relations Administrator

Megan MacPherson, Deputy City Manager

Dominick Casey, City Manager

Description

Resolution No. 20-261

Professional Services Agreement Amendment

RESOLUTION NO. 20-261

APPROVING A THIRD AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT,
BY AND BETWEEN THE CITY OF ROSEVILLE AND THE FERGUSON GROUP, LLC,
AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF
THE CITY OF ROSEVILLE

WHEREAS, a third amendment to professional services agreement for federal advocacy services, by and between the City of Roseville and The Ferguson Group, LLC, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said third amendment is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

**THIRD AMENDMENT TO
PROFESSIONAL SERVICES AGREEMENT**

Federal Advocacy Services

THIS THIRD AMENDMENT TO AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and The Ferguson Group, LLC, a District of Columbia limited liability company (“CONSULTANT”); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated October 19, 2016, amended August 15, 2018 and June 3, 2019 (“Agreement”) regarding Federal Advocacy Services (“Project”); and

WHEREAS, CITY desires to amend the Agreement to extend the term of the agreement for one (1) additional year; and

WHEREAS, CONSULTANT is willing and able to provide such additional services.

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall continue to provide services as described in Exhibit “A” of the Agreement.
2. Paragraph 1 of the Agreement is amended by adding an additional paragraph to read as follows:

"Term. The term of this Agreement shall commence on July 1, 2020 and expire on June 30, 2021."

3. Paragraph 2 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY shall pay eighty-seven thousand, six hundred thirty-five dollars (\$87,635.00), in consideration of the additional term as set forth in the Third Amendment to Agreement. This brings the total not to exceed contract amount for CITY work to four hundred seventy-four thousand, five hundred seventy dollars (\$474,570.00)."

4. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Third Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and CONSULTANT has caused this Third Amendment to Agreement to be executed.

Title: Roseville Energy Park Turbine Upgrade Project - Professional Services Agreement
Contact: Nathan Ribordy 916-746-1673 nribordy@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.16.

RECOMMENDATION TO COUNCIL

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Professional Services Agreement with DayZen, LLC. (Consultant) for services in support of the required amendment to the Roseville Energy Park's (REP) permit to operate with the California Energy Commission (CEC) and Placer County Air Pollution Control District (PCAPCD).

BACKGROUND

Siemens Energy, Inc., the manufacturer of the two Roseville Energy Park (REP) gas turbines, has proposed upgrades to enhance power output and efficiency. The proposed enhancements increase maximum power output by over 5%, reduce the minimum stable power output by over 25%, and improve operating efficiency by over 10%. This will allow the plant to produce more power and have greater operating flexibility to better accommodate renewable energy, all at a lower cost.

To realize the full benefits of the upgrade modifications must be made to the REP's permit to operate. This requires coordinating air modeling, preparing submittals, attending required meetings with external agencies, and providing professional oversight to the process on behalf of the City. In support of this effort, DayZen, LLC has been selected to provide this professional service. DayZen staff is uniquely qualified due to their previous experience permitting the REP and providing legal support.

FISCAL IMPACT

The total cost of the service is not to exceed \$112,000. Funding is included in the Electric Department's Turbine and Heat Recovery Steam Generator Rehabilitation project budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not

considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. A professional services agreement for consulting services meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Nathan Ribordy, Senior Power Plant Engineer

Michelle Bertolino, Electric Utility Director

Dominick Casey, City Manager

COUNCIL COMMUNICATION

CC #: 0842

File #: 0709-03-01

Title: Campus Oaks CO-4 Belle Maison - Affordable Purchase Housing Agreement

Contact: Trisha Isom 916-746-1239 tisom@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 7.17.

RECOMMENDATION TO COUNCIL

Staff recommends that City Council adopt a resolution approving the attached Affordable Purchase Housing Agreement (APHA) for Lennar Homes - Campus Oaks Master Plan Parcel CO-4 (aka Belle Maison) and authorize the City Manager to execute the agreement and any related documents.

BACKGROUND

The City of Roseville's General Plan Housing Element requires a 10% affordable housing obligation for residential development and recommends that developers provide a distribution of the required affordable housing as follows: 40% very low; 40% low and 20% middle income. Since the 1980's, the City's Housing Division has implemented the General Plan's recommended distribution for compliance with the 10% affordable housing obligation. The proposed Affordable Purchase Housing Agreement (APHA) will assist the City in meeting its affordable housing policy goals and Regional Housing Needs Allocation (RHNA).

On September 27, 2018, the Planning Commission approved the Lennar Homes - Campus Oaks Master Plan Parcel CO-4 (aka Belle Maison) tentative subdivision map. A condition of approval of the map requires the developer, Lennar Homes, to enter into an APHA with the City to implement the affordable housing obligations. Based on the affordable rental units already obligated on Parcel CO-22 & CO-23 in the Campus Oaks Master Plan, it is determined that the developer has an obligation to provide 8 affordable purchase units.

The North Roseville Specific Plan Development Agreement language allows the affordable units in North Roseville Specific Plan DC30-31 to be transferred outside the Plan area. The developer has proposed to transfer 6 middle income affordable units from DC30-33 to Campus Oaks Master Plan CO-4. On Parcel CO-4, the developer will build a total of fourteen (14) of the subdivision's one hundred thirty-two (132) homes as affordable to middle income households.

The proposed APHA establishes the methods and terms by which the affordable housing is sold to income-qualified affordable buyers, see Attachment 1. The subsidies to buyers are captured as a silent second loan on title that gets repaid to the City's affordable housing funds upon resale or

thirty (30) years, whichever comes first. The repayment is then used to assist new income-qualified buyers to purchase and/or can assist in other affordable housing development.

FISCAL IMPACT

The subsidies for implementing the Campus Oaks Master Plan APHA are funded by the developer and do not impact the General Fund. The subsidies to buyers are captured as a silent second loan on title that gets repaid to the City's affordable housing funds upon resale or thirty (30) years, whichever comes first. The repayment is then reinvested into the community to assist new income-qualified buyers to purchase and/or can assist in other affordable housing development.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378.

The Affordable Purchase Housing Agreement for Parcel CO-4 meets the above criteria and is not subject to CEQA. No additional environmental review is required.

AFFORDABLE PURCHASE HOUSING AGREEMENT

Project Name: Lennar Homes – Belle Maison – (CO Parcel 4)

This Affordable Purchase Housing Agreement ("the APHA" or "Agreement") is made and entered into this _____ day of _____, 2020, between the City of Roseville, a municipal corporation ("CITY"), and Lennar Homes of California, Inc., a California corporation ("DEVELOPER"), and

W I T N E S S E T H:

WHEREAS, on June 13, 2013, CITY approved the updated Housing Element of the General Plan which applies a ten percent (10%) affordability requirement to all new specific plan areas or properties for which zoning is amended to change residential density; and

WHEREAS, on September 27, 2018, CITY approved the Campus Oaks Master Plan Parcel CO-4 (Lennar Homes) tentative subdivision map (Subdivision Map no. PL18-0147; "the Subdivision"); and

WHEREAS, the conditions of approval of the Subdivision require that eight (8) of the 132 lots in the Subdivision be improved with single-family dwellings and made available for sale at prices affordable to middle income families (the "Affordable Units"); and

WHEREAS, CITY has approved the transfer of six (6) Affordable Units from Parcel DC 30-33 project site to Parcel CO-4 for a total of fourteen (14) Affordable Units; and

WHEREAS, the conditions of approval of the Subdivision require DEVELOPER to enter into an affordable housing agreement to the satisfaction of City Attorney of CITY, implementing the affordable housing obligations of DEVELOPER; and

WHEREAS, DEVELOPER and CITY enter into this APHA in order to implement DEVELOPER's affordable housing obligations; and

WHEREAS, the Affordable Units will be governed by the "Special Development and Use Standards" ("the Standards"), which are attached to this APHA, marked as Exhibit "B," and are incorporated herein by this reference; and

NOW, THEREFORE, the parties agree as follows:

1. Subject Property. The real property which is the subject of this APHA (the "Subject Property") is described in Exhibit "A," which is attached to this APHA and incorporated herein by reference. The Subject Property consists of all real property within the Subdivision.
2. Ownership. DEVELOPER represents that it has a legal interest in the Subject Property and that all other persons holding legal or equitable interests, if any, in the Subject Property have signed an "acknowledgment and consent certificate," in a form approved by the City Attorney of CITY, acknowledging and consenting to the terms of this Agreement. All persons holding any legal or equitable interest in the Subject Property shall be bound by this Agreement.
3. Covenants Run with the Land. This APHA shall run with the land. The burdens of this APHA bind, and the benefits of the APHA inure to, the successors in interest of the parties. This APHA shall be recorded in the Office of the Placer County Recorder.

DEVELOPER's obligations under this APHA shall terminate with respect to each of the Affordable Units upon sale of each such Affordable Unit as a completed home, if such sale is in conformance with the requirements of this APHA; provided that the City agrees to execute and record in the Office of the Placer County Recorder (at DEVELOPER's cost) concurrently with each market unit sale a Notice of Termination. Responsibility for compliance with this APHA to each Affordable Unit shall thereafter be the burden of the then owner of such Affordable Unit.

DEVELOPER shall remain responsible for compliance with this APHA as to all other Affordable Units.

Those units which have not been designated as Affordable Units ("the Market Rate Units") shall be released from this APHA upon compliance by DEVELOPER with the terms and conditions of the Standards governing release. CITY's City Manager, or designee, ("the City Manager"), will execute and acknowledge a satisfaction and release of this APHA for each such Market Rate Unit within the Subject Property.

4. Standards. The parties agree that the Standards shall apply to the Subject Property. To the extent not specified in the Standards, or in this APHA, development of the Subject Property shall be governed by this Agreement and the provisions of the Roseville Municipal Code as they now exist or may hereafter be modified.

5. Due Diligence. DEVELOPER agrees to proceed in good faith and in a reasonable and diligent manner to implement the provisions of this APHA.

6. Changes to Regulations of No Effect. Except as provided in paragraph 4, CITY agrees that, unless this APHA is amended or canceled pursuant to the provisions of paragraphs 8, 9 or 15 below, this APHA shall be enforceable by the CITY and DEVELOPER or their respective successors in interest despite any change in any applicable general plan, specific plan, zoning ordinance, subdivision ordinance, or building regulations adopted by CITY, which change alters or amends the Standards.

7. Monitoring\Breach\Cure. DEVELOPER's compliance with the provisions of this APHA shall be reviewed at least annually, and at such other times as CITY may require, upon thirty (30) days prior written notice. During any such review, DEVELOPER shall bear the burden of proof to demonstrate good faith compliance with the terms of this APHA. If, as a result of such review, CITY finds and determines that DEVELOPER has not complied in good faith with the terms and conditions of this Agreement, CITY shall give written notice to DEVELOPER of its findings and of the exact nature of DEVELOPER's non-compliance. DEVELOPER shall be given a period of sixty (60) days after receipt of any such notice in which to cure, to the reasonable satisfaction of CITY, any inconsistencies or conditions of default. In the event CITY fails to give DEVELOPER notice of a failure to comply at or before the annual review, DEVELOPER shall not be held responsible for any failure to comply with the terms and conditions of this Agreement during that year.

8. CITY Remedies for Breach. If DEVELOPER is unwilling or unable to cure any such conditions of default within sixty (60) days after its receipt of notice pursuant to paragraph 7, CITY may, in addition to any other remedy provided by law or equity, modify or terminate this APHA, withhold further building permits, seek liquidated damages in accordance with this APHA, or take any action available to it under this Agreement.

In particular, and without limitation by reason of enumeration, DEVELOPER acknowledges and agrees that any default by DEVELOPER under this APHA shall, at the option of the CITY, constitute a default under this Agreement as to all other property within the Subdivision that is then subject to the APHA.

In addition, and without limitation by reason of enumeration, DEVELOPER acknowledges and agrees that CITY shall have the right to withhold issuance of all building permits within the Subdivision until such breach is cured.

9. Amendments. Except as otherwise provided herein, this APHA may be amended only by mutual written consent of the parties or their successors in interest. Such amendment shall be recorded in the Office of the Placer County Recorder.

10. Force Majeure. Performance by either party hereunder shall not be deemed to be in default where delays or defaults are due to war, insurrection, strikes, walkouts, riots, floods, earthquakes, fires, casualties, acts of God, governmental entities, or enactment of conflicting state or federal laws or regulations.

11. No Waiver. CITY does not waive any claim or defect in performance by DEVELOPER if upon review it does not propose to modify or terminate the APHA or otherwise seek enforcement of its provisions.

12. Notices. All notices required by this APHA shall be in writing and delivered in person or sent by U.S. mail, first class postage prepaid, to the following addresses:

CITY

Housing Manager
City of Roseville
316 Vernon Street, #150
Roseville, CA 95678

DEVELOPER

Lennar Homes of California, Inc.
Attn: Larry Gualco
1025 Creekside Ridge Drive, Ste. #240
Roseville, CA 95678

Either party may change its address by giving notice in writing to the other party.

13. Indemnification. DEVELOPER shall defend, indemnify and hold harmless CITY, its officers, agents, employees and volunteers, from liability or claims for damage of any nature, including but not limited to personal injury to any person, bodily injury to any person, including death, or property damage, which may arise from or be connected with the direct or indirect operations, inaction, or actions of DEVELOPER or its contractors, subcontractors, agents or employees arising out of or connected with this APHA, except those matters arising from the sole active negligence of CITY. This provision is intended to be broadly construed and extends to, among other things, any challenge to the validity of this APHA, except that it shall not extend to claims regarding the validity or invalidity of any adopted City policy.

14. Attorney Fees. If legal action is brought by either party against the other for breach of this Agreement or to compel performance of this Agreement, the prevailing party shall be entitled to reasonable attorneys' fees and costs. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie.

15. Term. The term of this APHA shall begin immediately upon its execution by the parties and shall end fifteen (15) years after the close of escrow on the last Affordable Unit sold to a Qualified Purchaser and/or after the release by CITY of such affordable obligation pursuant to Section 3.c of the Standards. Notwithstanding the foregoing, this APHA may be terminated or modified pursuant to the provisions of paragraphs 8 and 9 above.

16. Notice upon Transfer. DEVELOPER shall notify the CITY in writing thirty (30) days prior to any transfer of all or substantially all of its interest in the Subject Property. Said notice shall include the legal name of the new party(ies) and their current mailing address.

17. Liquidated Damages. The parties agree that, were DEVELOPER to fail to comply with the terms of this APHA subject to all applicable notice and cure periods and Force Majeure delay, the damage to CITY would be large but immeasurable. The parties estimate such damages at, and therefore agree to set the amount of liquidated damages for breach of this APHA by DEVELOPER at, the sum of one thousand dollars (\$1,000) per day during a default by

DEVELOPER under this Agreement following the expiration of the cure period described in paragraph 7 hereof (which cure period shall be extended for periods of Force Majeure delay).

18. Developer Payment. In order to partially offset the cost of the annual review to be performed, DEVELOPER agrees to pay to CITY the sum of six hundred dollars (\$600) when each affordable unit is sold. The payment shall be paid upon close of escrow.

19. Integration. This is an integrated agreement, and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

20. Consent of Lien Holders. The acknowledgment and consent of those (besides Developer) holding a legal interest in all or any part of the Subject Property is attached hereto as Exhibit "F."

21. Severability. The parties agree that the provisions of this Agreement are severable. If any provision is deemed invalid by a court of competent jurisdiction, the balance of this Agreement shall be considered to remain intact and be enforceable on its terms consistent with the findings and purposes set forth herein.

EXHIBIT "B"

SPECIAL DEVELOPMENT AND USE STANDARDS

CITY and DEVELOPER agree that the following special development and use standards shall apply to the Subject Property.

1. The Reservation of Affordable Units. DEVELOPER agrees to reserve fourteen (14) single-family dwelling units (the "Affordable Units") for inclusion within the CITY's Affordable Purchase Housing Program. The Affordable Units shall be located on lots no. 9, 17, 27, 42, 54, 66, 79, 85, 87, 98, 100, 118, 125, and 129 of the Subdivision. DEVELOPER agrees to offer the Affordable Units for sale at an Affordable Price.

2. Definitions.

The following terms shall be defined for purposes of this APHA as set forth in this section:

a. "Affordable Purchase Price" - The sales price to be paid by a Qualified Purchaser for an Affordable Unit as determined in accordance with the provisions of Section 3.b below.

b. "Affordable Unit" - A single-family dwelling unit of at least three bedrooms and one bath, affordable at the time of sale to a Low Income Household or Middle Income Household.

c. "CITY MANAGER" – The City Manager for the City of Roseville and his or her designee.

d. "Immediate Family Member" - Parent, Stepparent, Child, Stepchild, or Spouse.

e. "Initial Subsidy" - The difference between the Affordable Purchase Price and the Market Value at the time of the original purchase under this Agreement.

f. "Market Value" - The fair market value of a unit determined by an independent appraiser approved by the CITY MANAGER.

g. (i) "Middle Income Household" - A family household, approved by the CITY MANAGER, consisting of one (1) or more persons earning no more than 100% of the median household income for a family of four, as defined in accordance with the most recent information issued by the United States Department of Housing and Urban Development (HUD) for the Sacramento—Arden- Arcade—Roseville Metropolitan Statistical Area ("Sacramento MSA"). CITY will use the income limit for a household of four (4) for a one-two (1-2) person household and income limit for a household of six (6) for a three (3) or more person household.

Provided, however, applications of persons or families who submit down payments exceeding twenty percent (20%), possess cash assets in excess of one hundred thousand dollars (\$100,000), receive a gift in excess of ten thousand dollars (\$10,000) toward a down payment, and/or qualify with a co-mortgagor

will be reviewed on a case by case basis, and the City may refuse to qualify such applicants if, in the opinion of the CITY MANAGER, the applicant(s) have sufficient cash assets or other financial support that enables them to purchase new units within the City without relying on this program.

h. "Non-Qualified Purchaser" - Any person or entity other than a Qualified Purchaser.

i. "Qualified Purchaser" – A Low Income Household or Middle Income Household that meets the eligibility criteria required to qualify to purchase an Affordable Unit. Qualified Purchasers are subject to the approval of the CITY MANAGER.

j. "Resale Price" - The sales price for an Affordable Unit paid to an Affordable Purchaser upon resale of the Affordable Unit by an Affordable Purchaser.

3. DEVELOPER's Affordable Housing Obligations. The following provisions apply to the sale of Affordable Units:

a. The Offer of Affordable Units. DEVELOPER shall offer fourteen (14) Affordable Units. The Affordable Units shall be similar in size, quality, fixtures, amenities and architecture to Market Rate Units within the subdivision in which they are located. The Affordable Units may have two-car garages and are not required to include fireplaces.

b. Establishing the Affordable Purchase Price. The Affordable Purchase Price for each Affordable Unit will be established at the time such Affordable Unit is offered for sale to prospective Qualified Purchasers. The Middle Income Affordable Purchase Price shall not exceed, for a three-bedroom unit (14 units), the price at which a four person household earning no more than 95% of the median income can qualify such income level to be determined in accordance with the definition of "Middle Income Household" above), living in the Sacramento MSA, under the financing program offered by DEVELOPER's preferred lender or similar lending institutions. DEVELOPER acknowledges that this amount will vary with time and will be established by the CITY MANAGER in accordance with paragraph 5.

The CITY MANAGER shall review the DEVELOPER's calculation of the proposed Affordable Purchase Price and shall require an appropriate adjustment in the Affordable Purchase Price if the financing program offered by DEVELOPER's preferred lender or similar lending institutions will not, in the CITY MANAGER's discretion, qualify a Low Income Household or Middle Income Household for purchase of the Affordable Unit. The financing program offered by DEVELOPER's preferred lender or similar lending institutions shall not require a down payment of greater than three percent (3%) of the Affordable Purchase Price and must offer a fixed rate loan of thirty (30) years or more.

c. Phasing of Development and Release of Market Rate Units. DEVELOPER expects to develop the Subdivision in phases. The first phase of development will include approximately thirty-two (32) lots, at least three (3) of which will be improved with Affordable Units; the second phase of development

will include approximately twenty-eight (28) lots, at least five (5) of which will be improved with an Affordable Unit; the third phase of development will include approximately fourteen (14) lots, at least one (1) of which will be improved with Affordable Units; the fourth phase of development will include approximately thirty-four (34) lots, at least four (4) of which will be improved with an Affordable Unit; and the fifth phase of development will include approximately twenty-four (24) lots, at least one (1) of which will be improved with an Affordable Unit. Subsequent to the issuance of building permits for Affordable Units for the first phase of development, CITY and DEVELOPER shall record, at DEVELOPER's expense, a notice of termination with respect to each of the Market Rate Units in the first phase of development, releasing each such Market Rate Unit from the force and effect of this APHA.

Prior to the issuance of building permits for each new phase of development, DEVELOPER shall provide the CITY MANAGER with written notification specifying:

- (i) the total number of building permits issued for the prior phase(s);
- (ii) the number and location of the Affordable Units from the prior phase (s) that have been sold to Qualified Purchasers;
- (iii) the total number of units to be included in the new phase of development; and
- (iv) the number and location of the Affordable Units to be included in the new phase of development.

The CITY MANAGER shall review such written notification and shall determine if DEVELOPER is making reasonable progress toward fulfillment of its affordable housing obligations as set forth herein. If the CITY MANAGER concludes reasonable progress is being made, CITY and DEVELOPER shall record, subsequent to the issuance of building permits for the new phase of development, a notice of termination with respect to each of the Market Rate Units in the new phase of development, releasing each such lot from the force and effect of this APHA. Such Notices of Termination shall be recorded at DEVELOPER's expense.

d. Marketing Affordable Units. Once an Affordable Purchase Price has been established, DEVELOPER agrees to use its best efforts to sell the Affordable Unit in accordance with this APHA. Such best efforts shall include, without limitation, (i) special advertising approved by the CITY MANAGER including, but not limited to, advertisements in local newspapers, direct mailers, and e-mails, prior to the release of the Affordable Unit for sale indicating the availability of the Affordable Unit to Middle Income Households, (ii) maintenance of a waiting list of Middle Income Households seeking housing opportunities in the area, (iii) notification of such Middle Income Households (and any other such applicant households identified by the CITY MANAGER) prior to the release of the Affordable Unit, and the pre-release, by at least one week, of the Affordable Unit to such notified households. In addition, for any Affordable Unit for which a contract of sale has not been entered into with a Middle Income Household after the above efforts, DEVELOPER shall not enter into a contract of sale of the available Affordable Unit, except with a Qualified

Purchaser, for ninety (90) days after release of the Affordable Unit to the general public (the "Initial Release Period").

e. Approval of Prospective Qualified Purchasers. DEVELOPER agrees that prior to sale of an Affordable Unit, each prospective Qualified Purchaser shall be required to complete a form substantially similar to the form attached hereto as Exhibit "C." No Affordable Unit shall be sold by DEVELOPER to a prospective purchaser whose household income level, as disclosed on the form or other documents submitted by the prospective purchaser, exceeds the target household income level (either low or middle) for a family of four in the Sacramento MSA, as annually adjusted. DEVELOPER shall maintain copies of all such forms until the termination of this APHA. The originals of such form shall be delivered to the CITY MANAGER who shall determine whether or not such prospective purchasers qualify as Qualified Purchasers.

f. Sale to Non-Qualified Purchaser. If, in spite of DEVELOPER's best efforts, as defined above, a Qualified Purchaser is not found, DEVELOPER may sell the unsold Affordable Unit to a Non-Qualified Purchaser at a market price with the CITY's consent, and shall remit to CITY a fee equal to half of the agreed upon subsidy if not sold to a Qualified Purchaser ("Non-Conversion Fee"). All Non-Conversion Fees will be deposited into CITY's Housing Trust Fund for use in the provision and preservation of affordable housing. Concurrently with such a sale of an Affordable Unit to a Non-Qualified Purchaser in accordance with this Section 3.f, the CITY and DEVELOPER shall record, at DEVELOPER's cost, a notice of termination, releasing such Affordable Unit from the terms of this APHA

g. Sale to a Qualified Purchaser. Each Qualified Purchaser shall be required to purchase the Affordable Unit with cash, a mortgage secured by a first deed of trust on the Affordable Unit, loan(s) from other affordable purchase programs, or a combination of the these sources. If a mortgage is secured, DEVELOPER must ensure that the Qualified Purchaser receives a fixed rate loan of thirty (30) years or more. The Qualified Purchaser must make at least a one percent (1%) downpayment towards the Affordable Purchase Price, excluding closing costs.

h. Notice of Sale to a Qualified Purchaser. Any contract of sale for an Affordable Unit between DEVELOPER and a prospective Qualified Purchaser shall be contingent upon approval of the Qualified Purchaser by the CITY MANAGER. Upon execution of such a contract of sale for an Affordable Unit between DEVELOPER and a Qualified Purchaser and upon approval of the Qualified Purchaser by a lender, DEVELOPER shall, within three (3) working days, notify the CITY MANAGER of the pending escrow. DEVELOPER shall, at the time of notification, also provide information verifying the buyers' qualifications as a Qualified Purchaser, including a copy of a completed form substantially similar to the form attached as Exhibit "C."

i. Approval of Qualified Purchaser. The CITY MANAGER shall within ten (10) working days of receipt from DEVELOPER of a complete buyer qualification package, either approve the prospective purchaser as a Qualified

Purchaser or provide DEVELOPER with a written explanation specifying the reasons the prospective purchaser does not qualify.

j. Appraisal Required. The Market Value of the Affordable Unit to be sold to a Qualified Purchaser shall be determined by an independent appraiser at least fifteen (15) days but not more than six (6) months prior to the contract for sale of an Affordable Unit to a Qualified Purchaser. The appraiser shall be approved by the CITY MANAGER. In lieu of an appraisal and at CITY's sole discretion, CITY may use recent comparable market rate sales within the Subdivision where the Affordable Unit is located to establish Market Value.

k. Note Required. In each sale to a Qualified Purchaser, CITY shall take back a note from the Qualified Purchaser, secured by a first or second deed of trust utilizing documents substantially similar to the documents attached as Exhibit "E," "E-1" and "E-2" in an amount equal to the Initial Subsidy together with the calculated interest as determined in accordance with Section 3.l.i. The provisions of the note and deed of trust shall include the substantial equivalent of the following:

1) No interest; no principal payments; due in thirty (30) years from date of execution.

2) During the first fifteen (15) years after sale of an Affordable Unit to a Qualified Purchaser, the full principal amount of the note shall be: due on sale to any Non-Qualified Purchaser; due on change of use from single-family residential to any other use or if the Affordable Unit is rented; due on any change in title, whether voluntary or involuntary, which adds any person to the title other than a spouse or any other Immediate Family Member provided such Immediate Family Member resided in the Affordable Unit at the time the Qualified Purchaser purchased the Affordable Unit; and due on any refinance of the Affordable Unit either not approved by the CITY MANAGER, or in an amount exceeding the Qualified Purchaser's equity at that time.

3) Reissued to a subsequent Qualified Purchaser approved by the CITY MANAGER if the sale is within fifteen (15) years.

4) Due on sale after fifteen (15) years from the date of original purchase under this Agreement.

5) The note shall include a provision requiring that notice be given to the CITY MANAGER upon the occasion of satisfaction of the note and/or reconveyance of the Affordable Unit pursuant to the terms of the deed of trust.

l. Type of Note. The Qualified Purchaser will execute a Promissory Note with the following provisions:

(i) Promissory Note (Exhibit E-1). Where the Note becomes due for any of the reasons set forth in Section 3.k.2 above, simple interest shall be computed based upon the unpaid balance of the principal amounts and at the annual rate of two percent (2%) for the first 15 years. Beginning at the first day of the sixteenth (16th) year all accrued interest shall be forgiven and the Note shall be retired upon payment of the principal balance only.

If the Affordable Unit is sold to a Qualified Purchaser within fifteen (15) years of the original sale, CITY may reinvest any available affordable funds. CITY's note shall be adjusted, upon reissuance of a new note to the new Qualified Purchaser pursuant to Section 3.k.3 above, to reflect the addition of the CITY's investment. If the Affordable Unit is sold to a Non-Qualified Purchaser within fifteen (15) years of the original sale or to any purchaser thereafter, the interest shall be distributed in accordance with the allocations set forth in this section.

m. Notice to City on Resale. During the first fifteen (15) years after the initial sale by DEVELOPER to a Qualified Purchaser, the Qualified Purchaser shall notify the CITY MANAGER in writing sixty (60) days prior to offering the Affordable Unit for resale in order to allow CITY time to identify, qualify and provide a subsequent Qualified Purchaser. The Qualified Purchaser shall disclose to the CITY MANAGER the proposed Sales Price. Such Sales Price must be consistent with Market Value at the time of sale as determined in an appraisal made at the Qualified Purchaser's expense by an independent appraiser, approved by the CITY MANAGER. Such notice shall be addressed to:

Housing Manager
City of Roseville
316 Vernon Street #150
Roseville, CA 95678

n. Mandatory Resale to City - Provided Qualified Purchaser. CITY shall have sixty (60) days from the date of receipt of notice pursuant to Section 3.m. to identify, qualify and provide a subsequent Qualified Purchaser.

The Qualified Purchaser shall offer to sell the Affordable Unit to the subsequent Affordable Purchaser, if one is provided by CITY.

o. Hazard Insurance. A Qualified Purchaser shall at all times maintain hazard/fire insurance equal to replacement cost of the Affordable Unit.

p. Initial Subsidy of Five Thousand Dollars (\$5,000) or Less. If the difference between the Affordable Purchase Price and the Market Value at the time of original sale under this Agreement is five thousand dollars (\$5,000) or less, the requirements of Section 3.j, 3.k, 3.l, 3.m, 3.n, 3.o and 3.p above shall not apply. Concurrently with the sale of an Affordable Unit to a Qualified Purchaser at an Affordable Purchase Price that is within five thousand dollars (\$5,000) of the original Market Value, CITY and DEVELOPER shall record, at DEVELOPER's cost, a notice of termination, releasing the property under the contract of sale from the terms of this Agreement. For every Affordable Unit for which a notice of termination is recorded pursuant to this Section 3.p, CITY shall waive the monitoring fee set forth in Section 18 of the APHA.

q. Foreclosures. In the event of a foreclosure or deed in lieu of foreclosure of a first deed of trust, any provisions herein or any provisions in any other collateral agreement restricting the use of the Affordable Unit to moderate income households or otherwise restricting the Qualified Purchaser's ability to sell the Affordable Unit shall have no further force or effect on subsequent

owners or purchaser of the Affordable Unit. Any person, including his or her successors or assigns (other than the Qualified Purchaser or a related entity of the Qualified Purchaser), receiving title to the Affordable Unit through a foreclosure or deed in lieu of foreclosure of the first deed of trust, shall receive title to the Affordable Unit free and clear from such restrictions.

4. City Inspection of Records of Sale. DEVELOPER agrees, upon reasonable notice, to make available to CITY for audit, inspection and copying its records of sale for the purpose of assuring compliance with this APHA, including without limitation, those forms maintained pursuant to Section 3.d.

5. Annual Adjustment of Median Income. Median income shall be adjusted annually by the CITY MANAGER to coincide with the changes in the low/middle household income for a four (4) person household for the Sacramento MSA as published in the Federal Register or the most recent available circular distributed by the U.S. Department of Housing and Urban Development. The CITY MANAGER shall notify DEVELOPER in writing of each annual adjustment. If DEVELOPER does not agree with the annual adjustment, DEVELOPER may, within fifteen (15) calendar days of notification by the CITY MANAGER, present to the CITY MANAGER additional information which it wishes the CITY MANAGER to consider. The CITY MANAGER will review this information and, within fifteen (15) calendar days, decide on and notify DEVELOPER of an annual income limit adjustment. The decision of the CITY MANAGER shall be final.

6. Changing the Location of an Affordable Unit. DEVELOPER has reserved the units identified in Section 1 as the locations for the Affordable Units. DEVELOPER may change the location of an Affordable Unit to another location within the Subdivision upon the written approval of the CITY MANAGER, provided, however, that Affordable Units shall not be clustered in one location. If an Affordable Unit is relocated to another location, DEVELOPER shall record a notice, in a form approved by the CITY MANAGER, both on the unit being released from this APHA and on the unit being newly encumbered by this APHA.

7. Right to Cure. In the event that title to an Affordable Unit is conveyed to a Non-Qualified Purchaser in breach of this Agreement, DEVELOPER or DEVELOPER's successor or assignee may cure the default by designating an additional, different unit within the Subject Property as an Affordable Unit. Such designation shall be subject to the written approval of the CITY MANAGER. DEVELOPER or DEVELOPER's successor or assignee shall record a notice, in a form approved by CITY MANAGER, on the unit being newly designated and encumbered as an Affordable Unit under this Agreement. CITY and DEVELOPER shall, at DEVELOPER's cost, record a notice of termination, releasing the unit that was conveyed to a Non-Qualified Purchaser in breach of this Agreement, from the terms of this Agreement.

8. Handbook Required. Prior to sale of any Affordable Unit, DEVELOPER shall give to the Qualified Purchaser a copy of this Agreement and a handbook, prepared

by the CITY, explaining in general the terms and conditions of this Agreement. DEVELOPER shall also require the Qualified Purchaser to sign a statement acknowledging receipt of this Agreement and the handbook. The form of such handbook shall be approved by the CITY MANAGER.

9. Local Residents, Employees and Veterans. Consistent with all federal, state and local laws, DEVELOPER agrees to use its best efforts to sell the affordable units to persons who are employed in the City of Roseville, reside in the City of Roseville or who are honorably discharged veterans and agrees, in cooperation with CITY, to notify major employers in Roseville, in a timely fashion, of the type and availability of housing being constructed by DEVELOPER. If CITY determines at any time that the requirements of this paragraph conflict with applicable law, the CITY MANAGER shall notify DEVELOPER and this paragraph shall thereafter be deemed to be of no further force or effect.

10. Home Buyer Training. DEVELOPER shall ensure the approved affordable purchasers have attended 8 hours of homebuyer training. The training shall be performed by an accredited (either by the U.S. Department of Housing & Urban Development or other recognized entity) home buying counseling agency. A typical training would include 3 hours of home buying process, 2 hours of budgeting and credit workshop, and 3 hours of home maintenance/good neighbor training. The cost of such training shall not be borne by the affordable purchaser.

EXHIBIT "C" -- Part 1

CERTIFICATION OF QUALIFIED PURCHASER ELIGIBILITY

I/We have read and answered truthfully, fully, frankly and personally each of the following questions for all persons who are to purchase the unit being applied for in the above residential project. Listed below are the names of all persons who intend to reside in the unit:

1. Name of Members of the <u>Household</u>	2. Relationship to head of <u>Household</u>	3. <u>Age</u>	4. Social Security <u>Number</u>	5. Place of <u>Employment</u>
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

INCOME COMPUTATION

6. The total anticipated income calculated in accordance with this paragraph 6, of all persons (except children under the age of 18 years) listed above for the 12-month period beginning the date that I/we plan to move into a unit is \$_____.

Included in the total anticipated income listed above are:

- a. All wages and salaries, overtime pay, commissions, fees, bonuses, tips and other compensation for personal services, before payroll deductions.
- b. Net income from operation of a business or profession.
- c. Periodic amounts received from social security, retirement funds, and the like.
- d. Income received in place of earnings (such as unemployment benefits).
- e. Welfare assistance payments.
- f. Periodic allowances like spousal or child support.
- g. Military pay.

Excluded from such anticipated income are:

- a. Casual, sporadic or irregular gifts.
- b. Amounts which are specifically for or in reimbursement of medical expenses for any family member.

- c. Lump sum additions to family assets, such as inheritances, insurance payments (including payments under health and accident insurance and worker's compensation), capital gains and settlement for personal or property losses.
- d. Amounts of student financial assistance paid directly to the student or the educational institution, and amounts paid by the government to a veteran for use in meeting the costs of tuition, fees, books, and equipment. Any amounts of such scholarships or payments to veterans not used for the above purposes are to be included in income.
- e. Hazardous duty pay to a family member in the armed forces who is away from home and exposed to hostile fire.
- f. Foster child or adult care payments.
- g. The value of coupon allotments or Electronic Benefit Transfer ("EBT") cards for the purchase of food pursuant to the Food Stamp Act of 1977.

7. This certificate is made with the knowledge that it will be relied upon by the DEVELOPER to determine maximum income for eligibility to occupy the unit; and I/we declare that all information set forth herein is true, correct and complete and based upon information I/we deem reliable and that the statement of total anticipated income contained in paragraph 6 is reasonable and based upon such investigation as the undersigned deemed necessary.

8. I/We will assist the DEVELOPER in obtaining any information or documents required to verify the statements made herein, including either an income verification from my/our present employer(s) or copies of federal tax returns for the immediately preceding calendar year.

9. I/We acknowledge that I/we have been advised that the making of any misrepresentation or misstatement in this declaration will constitute a material breach of my/our agreement with the DEVELOPER to purchase the unit and will entitle the DEVELOPER to cancel my/our contract for sale.

10. **I/We understand that the property we are buying is subject to an Affordable Purchase Housing Agreement between DEVELOPER and the City of Roseville, and that the Agreement contains provisions which may affect my/our title to the property, right to sell the property, and share of appreciation in the property.** As owners, I/we will be subject to the Agreement, and I/we agree to comply with it. I/We acknowledge receipt of a copy of the Agreement and of a handbook generally explaining its terms, if applicable (if a 2nd mortgage is provided by CITY to ensure affordability).

I/We declare under penalty of perjury that the foregoing is true and correct.

TO PROTECT THE SECURITY OF THIS DEED OF TRUST, TRUSTOR AGREES:

(1) To keep said property in good condition and repair; not to remove or demolish any building thereon; to complete or restore promptly and in good and workmanlike manner any building which may be constructed, damaged or destroyed thereon and to pay when due all claims for labor performed and materials furnished therefor; to comply with all laws affecting said property or requiring any alterations or improvements to be made thereon; not to commit or permit waste thereof; not to commit, suffer or permit any act upon said property in violation of law; to cultivate, irrigate, fertilize, fumigate, prune and do all other acts which from the character or use of said property may be reasonably necessary, the specific enumerations herein not excluding the general.

(2) To provide, maintain and deliver to Beneficiary fire insurance satisfactory to and with loss payable to Beneficiary. The amount collected under any fire or other insurance policy may be applied by Beneficiary upon indebtedness secured hereby and in such order as Beneficiary may determine, or at option of Beneficiary the entire amount so collected or any part thereof may be released to Trustor. Such application or release shall not cure or waive any default or notice of default hereunder or invalidate any act done pursuant to such notice.

(3) To appear in and defend any action or proceeding purporting to affect the security hereof or the rights or powers of Beneficiary or Trustee; and to pay all costs and expenses, including cost of evidence of title and attorney's fees in a reasonable sum, in any such action or proceeding in which Beneficiary or Trustee may appear, and in any suit brought by Beneficiary to foreclose this Deed.

(4) To pay: at least ten (10) days before delinquency all taxes and assessments affecting said property, including assessments on appurtenant water stock; when due, all encumbrances, charges and liens, any interest, on said property or any part thereof, which appear to be prior or superior hereto; all costs, fees and expenses of this Trust.

Should Trustor fail to make any payment or to do any act as herein provided, then Beneficiary or Trustee, but without obligation so to do and without notice to or demand upon Trustor and without releasing Trustor from any obligation hereof, may: make or do the same in such manner and to such extent as either may deem necessary to protect the security hereof, Beneficiary or Trustee being authorized to enter upon said property for such purposes; appear in and defend any action or proceeding purporting to affect the security hereof or the rights or powers of Beneficiary or Trustee; pay, purchase, contest or compromise any encumbrance, charge or lien which in the judgment of either appears to be prior or superior hereto; and, in exercising any such powers, pay necessary expenses, employ counsel and pay his reasonable fees.

(5) To pay immediately and without demand all sums so expended by Beneficiary or Trustee, with interest from date of expenditure at the amount allowed by law in effect at the date hereof, and to pay for any statement provided for by law in effect at the date hereof regarding the obligation secured hereby any amount demanded by the Beneficiary not to exceed the maximum allowed by law at the time when said statement is demanded.

(6) That any award of damages in connection with any condemnation for public use of or injury to said property or any part thereof is hereby assigned and shall be paid to Beneficiary who may apply or release such moneys received by him in the same manner and with the same effect as above provided for disposition of proceeds of fire or other insurance.

(7) That by accepting payment of any sum secured hereby after its due date, Beneficiary does not waive his right either to require prompt payment when due of all other sums so secured or to declare default for failure so to pay.

(8) That at any time or from time to time, without liability therefor and without notice, upon written request of Beneficiary and presentation of this Deed and said note for endorsement, and without affecting the personal liability of any person for payment of the indebtedness secured hereby, Trustee may: reconvey any part of said property; consent to the making of any map or plat thereof; join in granting any easement thereon; or join in any extension agreement or any agreement subordinating the lien or charge hereof.

(9) That upon written request of Beneficiary stating that all sums secured hereby have been paid, and upon surrender of this Deed and said note to Trustee for cancellation and retention and upon payment of its fees, Trustee shall reconvey, without warranty, the property then held hereunder. The recitals in such reconveyance of any matters or facts shall be conclusive proof of the truthfulness thereof. The grantee in such reconveyance may be described as "the person or persons legally entitled thereto." Five (5) years after issuance of such full reconveyance, Trustee may destroy said note and this Deed (unless directed in such request to retain them).

(10) That as additional security, Trustor hereby gives to and confers upon Beneficiary the right, power and authority, during the continuance of these Trusts, to collect the rents, issues and profits of said property, reserving unto Trustor the right, prior to any default by Trustor in payment of any indebtedness secured hereby or in performance of any agreement hereunder, to collect and retain such rents, issues and profits as they become due and payable. Upon any such default, Beneficiary may at any time without notice, either in person, by agent, or by a receiver to be appointed by a court, and without regard to the adequacy of any security for the indebtedness hereby secured, enter upon and take possession of said property or any part thereof, in his own name sue or otherwise collect such rents, issues and profits, including those past due and unpaid, and apply the same, less costs and expenses of operation and collection, including reasonable attorney's fees, upon any indebtedness secured hereby, and in such order as Beneficiary may determine. The entering upon and taking possession of said property, the collection of such rents, issues and profits and the application thereof as aforesaid, shall not cure or waive any default or notice of default hereunder or invalidate any act done pursuant to such notice.

(11) That upon default by Trustor in payment of any indebtedness secured hereby or in performance of any agreement hereunder, Beneficiary may declare all sums secured hereby immediately due and payable by delivery to Trustee of written declaration of default and demand for sale and of written notice of default and of election to cause to be sold said property, which notice Trustee shall cause to be filed for record. Beneficiary also shall deposit with Trustee this Deed, said note and all documents evidencing expenditures secured hereby.

After the lapse of such time as may then be required by law following the recordation of said notice of default, and notice of sale having been given as then required by law, Trustee, without demand on Trustor, shall sell said property at the time and place fixed by it in said notice of sale, either as a whole or in separate parcels and in such order as it may determine at public auction to the highest bidder for cash in lawful money of the United States, payable at time of sale. Trustee may postpone sale of all or any portion of said property by public announcement at such time and place of sale, and from time to time thereafter may postpone such sale by public announcement at the time fixed by the preceding postponement. Trustee shall deliver to such purchaser its deed conveying the property so sold, but without any covenant or warranty, express or implied. The recitals in

such deed of any matters or facts shall be conclusive proof of the truthfulness thereof. Any person, including Trustor, Trustee, or Beneficiary as hereinafter defined, may purchase at such sale.

After deducting all costs, fees and expenses of Trustee and of this Trust, including cost of evidence of title in connection with sale, Trustee shall apply the proceeds of sale to payment of: all sums expended under the terms hereof, not then repaid, with accrued interest at the amount allowed by law in effect at the date hereof; all other sums then secured hereby; and the remainder, if any, to the person or persons legally entitled thereto.

(12) Beneficiary, or any successor in ownership of any indebtedness secured hereby, may from time to time, by instrument in writing, substitute a successor or successors to any Trustee named herein or acting hereunder, which instrument, executed by the Beneficiary and duly acknowledged and recorded in the office of the recorder of the county or counties where said property is situated, shall be conclusive proof of proper substitution of such successor Trustee or Trustees, who shall, without conveyance from the Trustee predecessor, succeed to all its title, estate, rights, powers and duties. Said instrument must contain the name of the original Trustor, Trustee and Beneficiary hereunder, the book and page where this Deed is recorded and the name and address of the new Trustee.

(13) That this Deed applies to inure to the benefit of, and binds all parties hereto, their heirs, legatees, devisees, administrators, executors, successors and assigns. The term Beneficiary shall mean the owner and holder, including pledges, of the note secured hereby, whether or not named as Beneficiary herein. In this Deed, whenever the context so requires, the masculine gender includes the feminine and/or neuter, and the singular number includes the plural.

(14) The Trustee accepts this Trust when this Deed, duly executed and acknowledged, is made a public record as provided by law. Trustee is not obligated to notify any party hereto of pending sale under any other Deed of Trust or of any action or proceeding in which Trustor, Beneficiary or Trustee shall be a party unless brought by Trustee.

(15) Trustee shall act as Trustee under Deeds of Trust given solely for the purpose of securing obligations for the repayment of money other than corporate bonds. (California Financial Code §1590.)

Promissory Note

**CITY OF ROSEVILLE
DOWN PAYMENT ASSISTANCE PROGRAM
PROMISSORY NOTE SECURED BY DEED OF TRUST**

Borrower:

Property Address:

Lender: City of Roseville

Principal Amount:

Date: _____

The "Borrower(s)", _____ for value received, promise to pay the City of Roseville ("HOLDER"), at 316 Vernon Street #150, Roseville, CA 95678 or any other place designated in writing submitted by Holder to Borrower, the principal sum of Dollars (\$,000.00) ("Principal Amount") plus interest on the unpaid principal balance according to the terms contained in this note.

Use of Funds: The loan is being made in order to assist Borrower in purchasing the property at the address above.

Term: This Note shall be for a term of thirty (30) years at which time all unpaid principal and interest remaining will be due and payable. Said maturity shall be on the same day of the year as the Date of this Note.

Interest: This Note shall bear interest on the unpaid principal balance from the Date (as stated above), and be computed as simple interest upon the unpaid balance of the principal amounts and at the annual rate of 2% for the first 15 years. Beginning at the first day of the sixteenth (16th) year all accrued interest shall be forgiven and the Note shall be retired upon the payment of the principal balance only.

Payments: No installment payments of principal or interest are required during the first thirty years after the making of this Note at which time the Note shall become all due and payable in lawful money of the United States.

Acceleration: The principal and accrued interest stated in this Note shall become all due and payable upon any total or partial sale, transfer, conveyance, assignment or lease of the whole or any part of the real property described in the Deed of Trust.

Obligations of Persons Under this Note: If more than one person signs this Note, each person is fully and personally obligated to keep all the promises made in this Note, including the promise to pay the full amount owed. The Note Holder may enforce its rights under this Note against each Borrower individually or against all Borrowers. This means that any Borrower may be required to pay the entire amount owed under this Note.

Resale of Unit: During the first fifteen (15) years after the initial sale, Borrower shall notify Holder in writing, no less than ten (10) business days, prior to listing the affordable unit for resale. The property shall be listed on MetroList, or other similar home sale website. Holder shall have sixty (60) days from the date of receipt of notice to identify, qualify and provide a subsequent qualified purchaser. Borrower shall offer to sell the affordable unit to the subsequent affordable purchaser, if one is provided by Holder.

Giving of Notice: Unless applicable law requires a different method, any notice that must be given to Borrower under this Note will be given by first class mail to Borrower at the property address above or at a different address if Borrower gives the Note Holder a notice of a different address.

Subordination: Any subordination request shall be submitted to the City of Roseville Housing Division for approval or rejection, which approval or rejection shall be made in the interests of the City and according to Housing Program purposes. This Note shall be subordinate to the original senior loan; any refinancing or early pay-off or release of the note secured by the senior deed of trust shall cause this Note to move into senior position, unless with respect to any approved refinancing, the City of Roseville Housing Division agrees to subordinate the deed of trust securing this Note to such approved refinancing.

Attorney's Fees: Borrower(s) agree to pay the following costs, expenses and attorney's fees paid or incurred by the Note Holder. If the Holder brings any action or proceeding in connection with the enforcement or collection of this Note, the Prevailing Party (as hereafter defined) in any such proceeding, action or appeal thereon, shall be entitled to reasonable attorney's fees. Such fees may be awarded in the same suit or recovered in a separate suit, whether or not such action or proceeding is pursued to decision or judgment. The term "Prevailing Party" shall include, without limitation, the party who substantially obtains or defeats the relief sought, as the case may be, whether by compromise, settlement, judgment, or the abandonment by the other party of its claim or defense. The attorney's fees award shall not be computed in accordance with any court fee schedule, but shall be such as to fully reimburse all attorneys' fees reasonably incurred.

In addition to the foregoing award of attorneys' fees, the Note Holder shall be entitled to its attorney fees incurred in any post judgment proceedings to enforce any judgment in connection with this Note. This provision is separate and several and shall survive the merger of this provision into any judgment.

OWNER OCCUPIED RESIDENCE. Borrower understands that so long as an unpaid balance remains under this Note, Borrower must live in the property as Borrower's principal residence. If at any time during the term of this Note Borrower lives elsewhere, the Note Holder will have the right to require payment of all principal and accrued interest (see "Acceleration" above).

COUNCIL COMMUNICATION

CC #: 0852
File #: 0800-02

Title: Northern California Water Association - Councilmember Membership and Board Participation
Contact: Sean Bigley 916-774-5513 sbigley@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.18.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council approve City Councilmember Pauline Roccucci to be the designated Roseville City Councilmember to serve on the Northern California Water Association (NCWA) as either a primary board member or an alternate board member.

BACKGROUND

Staff would like to move forward with applying for membership for the City of Roseville in the Northern California Water Agency (NCWA).

Formed in 1992, NCWA is a water users association made up of mostly agricultural and some urban water users in the Sacramento Valley that divert water off of the Sacramento, American, Feather and Yuba Rivers. NCWA is generally viewed as an influential water association in state and federal circles focused on advocating on issues important to Northern California water agencies and communities. In staff's assessment, NCWA's mission is compatible with, and would add value to, furthering the City's legislative and regulatory priorities. Also, the Placer County Water Agency, a key business partner of the City of Roseville, recently joined NCWA.

Additional information on NCWA can be found at www.norcalwater.org.

If the City of Roseville's NCWA membership application is accepted, the City of Roseville will initially have an alternate board seat made available to the City of Roseville. Election to the Board of Directors happens every two years, with the last election happening recently. Other elected officials from NCWA member agencies, not elected on the Board, are considered "alternate" board members and are allowed to participate in NCWA Board meetings.

In consultation with Roseville Mayor John Allard, City Councilmember Pauline Roccucci is being recommended to represent the City of Roseville on the NCWA Board. Staff is requesting City Council's approval of Councilmember Roccucci to serve in this capacity representing the City of Roseville.

FISCAL IMPACT

Roseville membership in NCWA is estimated to cost \$9,873 for 2020 and adjusts yearly based on total annual water diverted, which is budgeted in FY2020-21 in the Water Utility Administration budget funded through the Water Operations Fund which receives revenue from utility service sales.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. An appointment to serve on the Northern California Water Association meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Sean Bigley, Assistant Director Environmental Utilities

Richard Plecker, Director Environmental Utilities

Dominick Casey, City Manager

Description

NCWA Fact Sheet

NCWA
Northern California Water Association

California history is filled with stories of competing interests seeking new water supplies to satisfy their ever increasing needs. Over the years, many of these attempts have threatened the water rights and supplies, the environment, communities and the way of life in Northern California. The Northern California Water Association (NCWA) was formed in 1992 to present a unified voice to ensure that this region has reliable and affordable water supplies—both now and into the future.

Who We Are:

We are the water districts, water companies, small towns, rural communities and landowners that beneficially use both surface and groundwater resources in the Sacramento Valley. NCWA's Board of Directors and staff are committed to safeguard water supplies in the Sacramento Valley and constructive leadership in the pursuit of solutions to resolve California's most perplexing water problems. As a result, NCWA is the recognized voice of Northern California water. NCWA represents the entire Sacramento Valley, which extends from Sacramento to north of Redding, and between the crests of the Sierra Nevada and the Coast Range.

Board of Directors

NCWA is governed by a Board of Directors (Board) who are elected by the NCWA members every other year. The Board meets six times a year in different places throughout the Sacramento Valley. The Board sets the priorities for NCWA, oversees the organization and actively represents NCWA in various state and federal venues. The Board members are listed at www.norcalwater.org/about/board-members.

NCWA Staff

NCWA is actively involved in all aspects of California water at both the state and federal level, including the various regulatory, legislative, legal, and communication arenas. A full listing of the NCWA staff and their biographies can be seen at www.norcalwater.org/about/staff. NCWA staff are always available to help NCWA members at any time by phone and we can attend Board meetings, annual meetings and any other meeting upon request.

What We Do:

NCWA brings the water leaders in the region together to safeguard the region's water rights and supplies by working with Congress, the State Legislature, state and federal agencies, and various stakeholders throughout the state. NCWA has also led and coordinated efforts for water resources managers to implement sustainability initiatives and integrated regional planning across this diverse region.

Efficient. Essential. Exceptional.
www.norcalwater.org

NCWA Priorities:

The NCWA Board of Directors annually develops priorities for the upcoming year. The current Strategic Planning and Priorities is available from NCWA.

We Support:

NCWA members provide reliable supplies of clean water for the natural and working landscapes between the crests of the Sierra Nevada and the Coast Range, which includes a unique mosaic:

- Two million acres of family farms are the economic engine for the region, provides a working landscape and pastoral setting and serves as valuable habitat for fish and waterfowl along the Pacific Flyway;
 - The small towns and rural communities that form the backbone of the region, as well as the State Capital that serves as the center of government for the State of California;
 - Freshwater habitat for four runs of Chinook salmon; including the threatened and endangered winter-run and spring-run salmon, steelhead and green sturgeon;
 - Six National Wildlife Refuges, more than fifty State Wildlife Areas and other privately managed wetlands that support the annual migration of waterfowl, geese and waterbirds in the Pacific Flyway. These seasonal and permanent wetlands provide for 65% of the North American Water-fowl Management Plan objectives;
 - The forests and meadows in the numerous watersheds of the Sierra Nevada and Coast Range.
-

Contact:

Please visit our website at www.norcalwater.org

We can be reached at:

455 Capitol Mall, Suite 335 Sacramento, CA 95814
(916) 442-8333

Communications and Information

For more information on NCWA communications and how to get more information on California water issues, please see: [How to Get Water Information Affecting the Sacramento Valley](#).

Meetings

NCWA hosts an annual meeting in March to showcase the region and to invite diverse parties to share their perspectives on water and the Sacramento Valley. NCWA also has various Task Forces on topics that are important to the Sacramento Valley. This includes the Bay-Delta, Groundwater Management, and Communications. NCWA also has managers meetings to discuss timely topics of interest.

NorCal Water Leaders Program

NCWA hosts an intensive 6-month water leaders program every other year. Representatives for NCWA members are encouraged to participate in the program and to assist us in cultivating future water leadership in the Sacramento Valley.

COUNCIL COMMUNICATION

CC #: 0843
File #: 0400-07

Title: Campus Oaks Town Center - Final Map
Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.19.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council approve the final map on file with the City Clerk and accept on behalf of the public, subject to improvement, Lot A and the public easements offered thereon; and approve the abandonment of the easement listed thereon.

BACKGROUND

The Development Services Department, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 9 commercial and 1 public right of way lots.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Campus Oaks Town Center final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Campus Oaks Town Center final map was accomplished with the preparation of an Addendum to the Hewlett-Packard Master Plan Environmental Impact Report (HPMP EIR) as part of the analysis for the Campus Oaks Master Plan project (Hewlett-Packard Campus Oaks Addendum), which was approved by City Council on August 5, 2015. Because the Campus Oaks Town Center final map is consistent with project evaluated in the Hewlett-Packard Campus Oaks Addendum, no new effects would be expected to occur and all applicable mitigation measures identified in the Addendum to the HPMP will be implemented. As such, no additional CEQA action is required at this time.

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

COUNCIL COMMUNICATION

CC #: 0848
File #: 0400-07

Title: Fiddymment Ranch Phase 2 Village 11-A1-0001 - Final Map
Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.20.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council approve the final map on file with the City Clerk and accept on behalf of the public, Lot B and the rights of way and the easements offered thereon, and approve the abandonment of the rights of way and easements listed thereon.

BACKGROUND

The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 4 residential lots and 1 landscape lot.

On September 18, 2019, City Council approved the Fiddymment Ranch Phase 2 Village 11-A1 final map creating a subdivision of 47 residential lots and 2 public landscape lots. The map was then subsequently recorded with the Placer County Recorder's office. During construction of the improvements for the subdivision, it was discovered that the back property line of 4 of the lots needed to be adjusted to match the location of the pilasters and fence that had been installed next to the lots. This new map will relocate the property lines between 4 residential lots and a public landscape lot to match the location of the pilasters and fence.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Fiddymment Ranch Phase 2 Village 11-A1-0001 final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Fiddymment Ranch Phase 2 Village 11-A1-0001 final map was accomplished with the preparation

of the West Roseville Specific Plan EIR (SCH#2002082057) that was certified by the City of Roseville on February 4, 2004. Because the Fiddymont Ranch Phase 2 Village 11-A1-0001 final map is consistent with project evaluated in the West Roseville Specific Plan EIR, no new effects would be expected to occur and all applicable mitigation measures from the West Roseville Specific Plan EIR will be implemented. As such, no additional CEQA action is required at this time.

COUNCIL COMMUNICATION

CC #: 0849
File #: 0400-07

Title: Fiddymment Ranch Phase 2 Village 11-A3-0001 - Final Map
Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.21.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council approve the final map on file with the City Clerk and accept on behalf of the public, Lots A & B and the rights of way and the easements offered thereon, and approve the abandonment of the rights of way and easements listed thereon.

BACKGROUND

The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 29 residential lots and 2 landscape lot.

On September 18, 2019, City Council approved the Fiddymment Ranch Phase 2 Village 11-A3 final map creating a subdivision of 71 residential lots and 2 public landscape lots. The map was then subsequently recorded with the Placer County Recorder's office. During construction of the improvements for the subdivision, it was discovered that the back property line of 29 of the lots needed to be adjusted to match the location of the pilasters and fence that had been installed next to the lots. This new map will relocate the property lines between 29 residential lots and 2 public landscape lots to match the location of the pilasters and fence.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Fiddymment Ranch Phase 2 Village 11-A3-0001 final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Fiddymment Ranch Phase 2 Village 11-A3-0001 final map was accomplished with the preparation

of the West Roseville Specific Plan EIR (SCH#2002082057) that was certified by the City of Roseville on February 4, 2004. Because the Fiddymont Ranch Phase 2 Village 11-A3-0001 final map is consistent with project evaluated in the West Roseville Specific Plan EIR, no new effects would be expected to occur and all applicable mitigation measures from the West Roseville Specific Plan EIR will be implemented. As such, no additional CEQA action is required at this time.

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

Dominick Casey, City Manager

SURVEYOR’S STATEMENT

THIS "FINAL MAP OF FIDDYMENT RANCH PHASE 2, VILLAGE 11–A3–0001" WAS PREPARED BY ME OR UNDER MY DIRECTION AND IS BASED UPON A FIELD SURVEY IN CONFORMANCE WITH THE REQUIREMENTS OF THE SUBDIVISION MAP ACT AND LOCAL ORDINANCE AT THE REQUEST OF ATC REALTY ONE, LLC., ON JANUARY 1, 2018. I HEREBY STATE THAT THIS FINAL MAP SUBSTANTIALLY CONFORMS TO THE APPROVED OR CONDITIONALLY APPROVED TENTATIVE MAP (IF ANY), THAT ALL MONUMENTS ARE OF THE CHARACTER AND OCCUPY THE POSITIONS INDICATED OR THAT THEY WILL BE SET IN THOSE POSITIONS ON OR BEFORE DECEMBER 31, 2020, AND THAT SAID MONUMENTS ARE OR WILL BE SUFFICIENT TO ENABLE THE SURVEY TO BE RETRACED.

DATED THIS _____ DAY OF _____, 2020.

SCOTT A. SHORTLIDGE, P.L.S. NO. 6441

CITY ENGINEER’S STATEMENT

I HEREBY STATE THAT I HAVE EXAMINED THIS FINAL MAP OF FIDDYMENT RANCH PHASE 2 VILLAGE 11–A3–0001 AND FIND IT TO BE SUBSTANTIALLY THE SAME AS THE TENTATIVE MAP ON FILE AND ANY APPROVED ALTERATIONS THEREOF, AND THAT IT COMPLIES WITH ALL PROVISIONS OF THE SUBDIVISION MAP ACT AND ALL APPLICABLE CITY ORDINANCES.

MARC STOUT

COUNCIL COMMUNICATION

CC #: 0850
File #: 0400-07

Title: Fiddymment Ranch Phase 2 Village 12-0001 - Final Map
Contact: Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.22.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council approve the final map on file with the City Clerk and accept on behalf of the public, Lot B and the rights of way and the easements offered thereon, and approve the abandonment of the rights of way and easements listed thereon.

BACKGROUND

The Development Services, Engineering section, has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met. This map will create 6 residential lots and 1 landscape lot.

On September 18, 2019, City Council approved the Fiddymment Ranch Phase 2 Village 12 final map creating a subdivision of 97 residential lots and 2 public landscape lots. The map was then subsequently recorded with the Placer County Recorder's office. During construction of the improvements for the subdivision, it was discovered that the back property line of 6 of the lots needed to be adjusted to match the location of the pilasters and fence that had been installed next to the lots. This new map will relocate the property lines between 6 residential lots and a public landscape lot to match the location of the pilasters and fence.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Approval of the Fiddymment Ranch Phase 2 Village 12-0001 final map is an action that is subject to California Environmental Quality Act (CEQA). Project level CEQA compliance for the Fiddymment Ranch Phase 2 Village 12-0001 final map was accomplished with the preparation of the West

Roseville Specific Plan EIR (SCH#2002082057) that was certified by the City of Roseville on February 4, 2004. Because the Fiddymment Ranch Phase 2 Village 12-0001 final map is consistent with project evaluated in the West Roseville Specific Plan EIR, no new effects would be expected to occur and all applicable mitigation measures from the West Roseville Specific Plan EIR will be implemented. As such, no additional CEQA action is required at this time.

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Mike Isom, Development Services Director

Dominick Casey, City Manager

Title: Proclamation - Park and Recreation Month
Contact: Ellen Worland 916-774-5131 eworland@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 7.23.

RECOMMENDATION TO COUNCIL

Proclaim July, 2020 as Park and Recreation Month and encourage citizens to join with their communities in participation of Park and Recreation Month.

BACKGROUND

Not applicable.

FISCAL IMPACT

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378.

The proclaiming of a Park and Recreation Month meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Helen Dreyer, City Clerk Technician

Sonia Orozco, City Clerk

Dominick Casey, City Manager

Proclamation

CITY OF ROSEVILLE

PARK AND RECREATION MONTH

July 2020

WHEREAS, the City of Roseville is committed to recognizing Parks and Recreation programs are an integral part of communities throughout this country; and

WHEREAS, Parks and Recreation promote physical, emotional, mental health, and wellness through organized and self-directed fitness, play, and activity; and

WHEREAS, our Parks and Recreation are vitally important to establishing and maintaining the quality of life in our communities, enhancing the health of all residents, and contributing to the economic and environmental well-being of our region; and

WHEREAS, Parks and Recreation supports human development and endless learning opportunities that foster social, intellectual, physical, and emotional growth in people of all ages and abilities; and

WHEREAS, Parks and Recreation supports safe, vibrant, attractive, progressive communities that make life better through positive alternatives offered in recreational opportunities; and

WHEREAS, Parks and Recreation strengthens community identity by providing facilities and services that reflect and celebrate community character, heritage, culture, history, aesthetics, and landscape; and

WHEREAS, Parks and Recreation programs increase a community's economic prosperity through increased property values, expansion of local tax base, increased tourism, the attraction and retention of businesses, and crime reduction; and

WHEREAS, Parks and natural recreation areas improve water quality, protect groundwater, prevent flooding, improve the quality of the air we breathe, provide vegetative buffers to development, and produce habitat for wildlife ensuring the ecological beauty of our community and provide a place for children and adults to connect with nature; and

NOW, THEREFORE, I, JOHN B. ALLARD II, MAYOR OF THE CITY OF ROSEVILLE, CALIFORNIA, do hereby proclaim the month of **July 2020** as **PARK AND RECREATION MONTH** and encourage citizens to join with their communities in participation of Park and Recreation Month.

SIGNED this 1st day of July 2020.

Title: Villages at Sierra Vista Community Facilities District No. 1 Series 2020 Bond Issuance

Contact: Jeannine Thrash 916-774-5473 jthrash@roseville.ca.us
Dennis Kauffman 916-774-5413 dkauffman@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 8.1.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the issuance of special tax bonds for, and on behalf of, the City of Roseville Villages at Sierra Vista Community Facilities District (CFD) No. 1 (Public Facilities), approving and directing the execution of a Supplement to Fiscal Agent Agreement, approving the form of the Preliminary Official Statement, approving sale of such bonds, approving and directing the execution of a Bond Purchase Agreement, and approving other related documents and actions. The attached resolution authorizes the execution and delivery of the following documents required for Villages at Sierra Vista CFD No. 1 (Public Facilities):

- Supplemental Agreement No. 1 to Fiscal Agent Agreement
- Preliminary Official Statement
- Bond Purchase Agreement

BACKGROUND

Villages at Sierra Vista CFD No. 1 (Public Facilities) was formed on May 2, 2018 with Resolution 18-119. The maximum authorized indebtedness for the District is \$310,000,000. On July 23, 2019, the first series of bonds were issued in the amount of \$12,540,000. The current outstanding principal balance is \$12,540,000. The 2020 Bonds are being issued at the developer's request, in an amount not to exceed \$10,500,000, to: (1) construct and acquire certain public facilities of benefit to the CFD; (2) establish a debt service reserve fund for the 2020 Bonds, and (iii) pay the costs of issuing the 2020 bonds. The 2020 bonds are the second series of bonds being issued for the CFD.

FISCAL IMPACT

The CFD will generate special taxes that will be paid by the property owners sufficient to pay the costs of the debt service, CFD administration, and any authorized pay-as-you-go facilities, as well

as provide funding in the future for maintenance/replacement of constructed facilities. The issuance of these bonds will not impact the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The issuance of Special Tax Bonds meets the above criteria and is not subject to CEQA. No additional environmental review is required.

COMPLIANCE STATEMENT

In accordance with Government Code 5852.1, the following information consists of estimates of certain costs and charges for the Bonds that have been provided by the City's municipal financial advisor, which has been represented by such party to have been provided in good faith: (1) estimated true interest costs of the Bonds: 4.1%; (2) estimated finance charge of the Bonds (sum of all fees and charges paid to third parties): \$455,000; (3) estimated amount of proceeds of the Bonds received by the City (net of finance charges, reserves and capitalized interest, if any): \$8,364,000; and (4) estimated total payment amount (sum total of all payments to pay debt service on the Bonds plus the finance charge not paid with proceeds of the Bonds) calculated to the final maturity of the Bonds: \$17,667,850.

Respectfully Submitted,

Jeannine Thrash, Administrative Analyst

Dennis Kauffman, Assistant City Manager/Chief Financial Officer

Description

Resolution No. 20-271

Preliminary Official Statement

Bond Purchase Agreement

Supplemental Agreement No. 1 to Fiscal Agent Agreement

RESOLUTION NO. 20-271

A RESOLUTION AUTHORIZING THE ISSUANCE OF SPECIAL TAX BONDS FOR AND ON BEHALF OF THE CITY OF ROSEVILLE VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES), APPROVING AND DIRECTING THE EXECUTION OF SUPPLEMENT NO. 1 TO FISCAL AGENT AGREEMENT, APPROVING THE FORM OF PRELIMINARY OFFICIAL STATEMENT, APPROVING BOND PURCHASE AGREEMENT, APPROVING SALE OF SUCH BONDS, AND APPROVING OTHER RELATED DOCUMENTS AND ACTIONS

WHEREAS, this City Council (the "Council") of the City of Roseville (the "City") has conducted proceedings under and pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, Chapter 2.5 of Part 1 of Division 2 of Title 5, commencing at Section 53311, of the California Government Code (the "Act"), to form the Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the "District"), to authorize the levy of special taxes upon the land within the District, and to issue bonds secured by said special taxes for the purpose of providing moneys for the construction and acquisition of authorized improvements for the District; and

WHEREAS, the Council, as legislative body of the District, previously authorized the issuance of special tax bonds of the City for the District in the maximum aggregate principal amount of not to exceed \$310,000,000 (the "Bond Authorization"); and

WHEREAS, the City previously issued for and on behalf of the District, the City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2019 (the "2019 Bonds"), in the initial principal amount of \$12,540,000, which 2019 Bonds constituted the first series of bonds issued pursuant to the Bond Authorization; and

WHEREAS, City now desires to issue the second series of the special tax bonds pursuant to the Bond Authorization, as described in more detail herein (the "Bonds"); and

WHEREAS, there has been submitted to the Council a Supplemental Agreement No. 1 to Fiscal Agent Agreement (the "Supplemental Agreement"), which will supplement and amend the Fiscal Agent Agreement, dated as of July 1, 2019 (as so supplemented, the "Fiscal Agent Agreement"), between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent, providing for the issuance of the Bonds of the City for the District, and the Council, with the aid of City staff, has reviewed the Supplemental Agreement and found it to be in proper order, and now desires to approve the Supplemental Agreement and the issuance of the Bonds; and

WHEREAS, the City proposes to sell the Bonds to Piper Sandler & Co., as underwriter (the "Underwriter"), pursuant to the terms of a Bond Purchase Agreement by and between the City and the Underwriter, and the Underwriter proposes to offer the Bonds to the investing public by means of a Preliminary Official Statement, and the Council, with the aid of City staff, has reviewed the Bond Purchase Agreement and the Preliminary Official Statement and found them to be in proper order, and now desires to approve said documents; and

WHEREAS, all conditions, things and acts required to exist, to have happened and to have been performed precedent to and in the issuance of the Bonds as contemplated by this Resolution and the documents referred to herein exist, have happened and have been performed in due time, form and manner as required by the laws of the State of California, including the Act.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF ROSEVILLE RESOLVES AS FOLLOWS:

1. **Findings.** This Council finds and determines that it is prudent in the management and development of land in the City and the District to issue the Bonds, secured on parity with the 2019 Bonds, for the purpose of providing moneys for the construction and acquisition of authorized improvements for the District.

2. **Law Applicable.** For the purposes of these proceedings in and for the District, the Act shall be the authority for the issuance of the Bonds.

3. **Bonds Authorized.** Pursuant to the Act, this Resolution and the Fiscal Agent Agreement, special tax bonds of the City for the District designated as "City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds Series 2020" in an aggregate principal amount not to exceed \$10,500,000 are hereby authorized to be issued. The Bonds shall be executed in the form set forth in and otherwise as provided in the Fiscal Agent Agreement.

The Bonds shall not be issued unless the value of the real property within the District subject to the special tax to pay debt service on the Bonds, based on assessed values and/or an appraisal by an independent appraiser hired by the City for the purpose of determining such value, is at least three (3) times the proposed principal amount of the outstanding bonds plus the Bonds proposed to be issued and secured by a special tax levied pursuant to the Act on property within the District.

4. **Supplemental Agreement.** The Council hereby approves the Supplemental Agreement in the form presented to the Council at this meeting. The City Manager, Assistant City Manager/Chief Financial Officer or such other person or persons as any of them may designate (each, an "Authorized Officer"), each acting alone or together with any other Authorized Officer, are each hereby authorized and directed to execute the Supplemental Agreement, in such form, together with any additions thereto or changes therein deemed necessary or advisable by the Authorized Officer executing such document upon consultation with Jones Hall, A Professional Law Corporation, as bond counsel to the City ("Bond Counsel"). The proceeds of the Bonds shall be applied by the City for the purposes and in the amounts as set forth in the Supplemental Agreement. The Council hereby authorizes the delivery and performance by the City of the Supplemental Agreement and the Fiscal Agent Agreement.

5. **Covenant to Foreclose.** The City hereby covenants, for the benefit of the owners of the Bonds, to commence and diligently pursue to completion any foreclosure action regarding delinquent installments of any amount levied as a special tax for the payment of interest or principal of the Bonds, said foreclosure action to be commenced and pursued as more completely set forth in the Fiscal Agent Agreement.

6. **Approval of Official Statement.** The Council hereby approves the Preliminary Official Statement with respect to the Bonds, in substantially the form on file with the City Clerk. Distribution of the Preliminary Official Statement by the City and the Underwriter is hereby approved, and, prior to the distribution of the Preliminary Official Statement, and each Authorized Officer, each acting alone or together with any other Authorized Officer, is authorized and directed, on behalf of the City, to deem the Preliminary Official Statement "final" pursuant to Rule 15c2-12 under the Securities Exchange Act of 1934 (the "Rule"). The execution of the final Official

Statement, which shall include such changes and additions thereto deemed advisable by the Authorized Officer executing the same, and such information permitted to be excluded from the Preliminary Official Statement pursuant to the Rule, is hereby approved for delivery to the purchasers of the Bonds, and each Authorized Officer, each acting alone or together with any other Authorized Officer, is authorized and directed to execute and deliver the final Official Statement for and on behalf of the City, to deliver to the Underwriter a certificate with respect to the information set forth therein and to deliver to the Underwriter a continuing disclosure undertaking, the form of which is included as part of the Preliminary Official Statement, in substantially such form, together with such changes and additions thereto deemed advisable by the Authorized Officer executing the same.

7. **Approval of Bond Purchase Agreement.** The Council hereby approves the Bond Purchase Agreement between the City and the Underwriter, in substantially the form on file with the City Clerk; provided, that the aggregate principal amount of Bonds shall not exceed \$10,500,000 or result in an underwriter's discount in excess of 1.4%, or a true interest cost in excess of 5.5%. Subject to the foregoing parameters, an Authorized Officer is hereby authorized and directed to execute the Bond Purchase Agreement in substantially the form on file with the City Clerk, together with such changes and additions thereto deemed advisable by the Authorized Officer executing the same. The Council hereby finds and determines that the sale of the Bonds at negotiated sale as contemplated by the Bond Purchase Agreement will result in a lower overall cost.

8. **Actions Authorized.** All actions heretofore taken by the officers, employees and agents of the City with respect to the establishment of the District and the sale and issuance of the Bonds are hereby approved, confirmed and ratified, and the Authorized Officers of the City are hereby authorized and directed to do any and all things and take any and all actions and execute any and all certificates, agreements and other documents, which they, or any of them, may deem necessary or advisable in order to consummate the lawful issuance and delivery of the Bonds in accordance with this resolution, and any certificate, agreement, and other document described in the documents herein approved. All actions to be taken by a specified Authorized Officer as specified herein, may be taken by the Authorized Officer or any designee, with the same force and effect as if taken by such Authorized Officer.

9. **Effectiveness.** This Resolution shall take effect upon its adoption.

* * * * *

I hereby certify that the foregoing Resolution was duly adopted by the City Council of the City of Roseville, California, at a regularly scheduled meeting thereof, held on the _____ day of _____, 2020, by the following vote of the City Council:

AYES: COUNCILMEMBERS
NOES: COUNCILMEMBERS

City Clerk

PRELIMINARY OFFICIAL STATEMENT DATED _____, 2020**NEW ISSUE-FULL BOOK ENTRY****NOT RATED**

In the opinion of Jones Hall, A Professional Law Corporation, San Francisco, California, Bond Counsel, subject, however to certain qualifications described herein, under existing law, the interest on the 2020 Bonds is excluded from gross income for federal income tax purposes and such interest is not an item of tax preference for purposes of the federal alternative minimum tax. In the further opinion of Bond Counsel, such interest is exempt from California personal income taxes. See "TAX MATTERS" herein.

**CITY OF ROSEVILLE
VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES)
SPECIAL TAX BONDS
SERIES 2020**

Dated: Date of Delivery**Due: September 1, as shown below**

The bonds captioned above (the "2020 Bonds"), are being issued by the City of Roseville (the "City") by and through its Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the "District"). The 2020 Bonds are special tax obligations of the City, authorized pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, being California Government Code Section 53311, et seq. (the "Act"), and are issued pursuant to the Resolution of Issuance (as defined herein) and a Fiscal Agent Agreement dated as of July 1, 2019, as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the "Fiscal Agent Agreement") by and between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (the "Fiscal Agent"). The 2020 Bonds are being issued to (i) construct and acquire certain public facilities of benefit to the District, (ii) provide for a deposit to a debt service reserve account for the 2020 Bonds, (iii) provide capitalized interest for debt service due on the 2020 Bonds through [September 1, 2020], and (iv) pay costs of issuance of the 2020 Bonds. Interest on the 2020 Bonds is payable semiannually on March 1 and September 1 of each year, commencing September 1, 2020. In 2019, the City issued its \$12,540,000 initial principal amount of City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2019 (the "2019 Bonds"). The 2020 Bonds represent the second series of special tax bonds issued for the District, payable on a parity with the 2019 Bonds, and the issuance of additional parity bonds in the future is contemplated, subject to the conditions set forth in the Fiscal Agent Agreement. See "THE BONDS – Authority for Issuance" and "SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Parity Bonds."

The 2020 Bonds are being issued as fully registered bonds, registered in the name of Cede & Co. as nominee of The Depository Trust Company ("DTC"), and will be available to ultimate purchasers in the denomination of \$5,000 or any integral multiple thereof, under the book-entry system maintained by DTC. See "APPENDIX G – DTC AND THE BOOK-ENTRY ONLY SYSTEM."

The 2020 Bonds are secured by and payable from a pledge of Special Tax Revenues (as defined herein) derived from Special Taxes (as defined herein) to be levied by the City on real property within the boundaries of the District, from the proceeds of any foreclosure actions brought following a delinquency in the payment of the Special Taxes, and from amounts held in certain funds under the Fiscal Agent Agreement, all as more fully described herein. **Unpaid Special Taxes do not constitute a personal indebtedness of the owners of the parcels within the District. In the event of delinquency, proceedings may be conducted only against the parcel of real property securing the delinquent Special Tax. There is no assurance the owners will be able to pay the Special Tax or that they will pay a Special Tax even though financially able to do so.** To provide funds for payment of the 2020 Bonds and the interest thereon as a result of any delinquent Special Taxes, the City will establish a debt service reserve account for the 2020 Bonds from proceeds of the 2020 Bonds, as described herein. See "SECURITY AND SOURCES OF PAYMENT FOR THE BONDS."

Property currently in the District and subject to the Special Tax comprises approximately 115 acres planned for 678 residential homes in the Sierra Vista Specific Plan, which is located in the northwest portion of the City. This includes 73 acres planned for 395 residential homes in the original boundary of the District, plus 42 acres planned for 283 residential units that were annexed into the District in 2020 from a future annexation area established for the District. John Mourier Construction, Inc. ("JMC Homes") is developing the land in the District into four distinct neighborhoods for sale to individual homeowners, with the initial 395 planned units constituting phase 1 of the development and the next 283 planned units constituting phase 2. The land currently in the District constitutes a portion of a larger development project being undertaken by JMC Homes in the area, and additional land is expected to annex into the District from the future annexation area. As of April 21, 2020 (the date of value for the appraisal described herein), 114 residential units within the District were owned by individual homeowners, with the remainder of the lots owned by JMC Homes. See "THE DISTRICT" and "OWNERSHIP OF PROPERTY WITHIN THE DISTRICT."

The 2020 Bonds are subject to optional and mandatory redemption prior to maturity as described herein. See "THE BONDS — Redemption."

NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE CITY, THE COUNTY OF PLACER, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF IS PLEDGED TO THE PAYMENT OF THE 2020 BONDS. THE 2020 BONDS DO NOT CONSTITUTE A DEBT OF THE CITY WITHIN THE MEANING OF ANY STATUTORY OR CONSTITUTIONAL DEBT LIMITATION. THE INFORMATION SET FORTH IN THIS OFFICIAL STATEMENT, INCLUDING INFORMATION UNDER THE HEADING "SPECIAL RISK FACTORS," SHOULD BE READ IN ITS ENTIRETY.

This cover page contains certain information for general reference only. It is not a summary of all of the provisions of the 2020 Bonds. Prospective investors must read the entire Official Statement to obtain information essential to the making of an informed investment decision. See "SPECIAL RISK FACTORS" herein for a discussion of the special risk factors that should be considered, in addition to the other matters and risk factors set forth herein, in evaluating the investment quality of the 2020 Bonds.

The 2020 Bonds are offered when, as and if issued, subject to approval as to their legality by Jones Hall, a Professional Law Corporation, San Francisco, California, Bond Counsel. Certain legal matters will also be passed on by Jones Hall, as Disclosure

Counsel and Kutak Rock LLP, Irvine, California, as counsel to the Underwriter. Certain legal matters will be passed upon for the City by the City Attorney. It is anticipated that the 2020 Bonds will be available for delivery to DTC on or about _____, 2020.

GENERAL INFORMATION ABOUT THIS OFFICIAL STATEMENT

Use of Official Statement. This Official Statement is submitted in connection with the sale of the 2020 Bonds referred to herein and may not be reproduced or used, in whole or in part, for any other purpose. This Official Statement is not to be construed as a contract with the purchasers of the 2020 Bonds.

Estimates and Forecasts. When used in this Official Statement and in any continuing disclosure by the City, in any press release and in any oral statement made with the approval of an authorized officer of the City, the words or phrases “will likely result,” “are expected to”, “will continue”, “is anticipated”, “estimate”, “project,” “forecast”, “expect”, “intend” and similar expressions identify “forward looking statements.” Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those contemplated in such forward-looking statements. Any forecast is subject to such uncertainties. Inevitably, some assumptions used to develop the forecasts will not be realized and unanticipated events and circumstances may occur. Therefore, there are likely to be differences between forecasts and actual results, and those differences may be material. The information and expressions of opinion herein are subject to change without notice, and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, give rise to any implication that there has been no change in the affairs of the City since the date hereof.

Limit of Offering. No dealer, broker, salesperson or other person has been authorized by the City to give any information or to make any representations in connection with the offer or sale of the 2020 Bonds other than those contained herein and if given or made, such other information or representation must not be relied upon as having been authorized by the City or the Underwriter. This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the 2020 Bonds by a person in any jurisdiction in which it is unlawful for such person to make such an offer, solicitation or sale.

Involvement of Underwriter. The Underwriter has reviewed the information in this Official Statement in accordance with, and as a part of, their responsibilities to investors under the Federal Securities Laws as applied to the facts and circumstances of this transaction, but the Underwriter does not guarantee the accuracy or completeness of such information. The information and expressions of opinions herein are subject to change without notice and neither delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the City since the date hereof. All summaries of the documents referred to in this Official Statement, are made subject to the provisions of such documents, respectively, and do not purport to be complete statements of any or all of such provisions.

IN CONNECTION WITH THIS OFFERING, THE UNDERWRITER MAY OVERALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN THE MARKET PRICE OF THE 2020 BONDS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

THE 2020 BONDS HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, IN RELIANCE UPON AN EXCEPTION FROM THE REGISTRATION REQUIREMENTS CONTAINED IN SUCH ACT. THE 2020 BONDS HAVE NOT BEEN REGISTERED OR QUALIFIED UNDER THE SECURITIES LAWS OF ANY STATE.

OFFICIAL STATEMENT

\$ _____ *

CITY OF ROSEVILLE
VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES)
SPECIAL TAX BONDS
SERIES 2020

This Official Statement, including the cover page and all Appendices hereto, is provided to furnish certain information in connection with the issuance by the City of Roseville (the “**City**”) by and through its Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the “**District**”) of the bonds captioned above (the “**2020 Bonds**”).

Any statements made in this Official Statement involving matters of opinion or of estimates, whether or not so expressly stated, are set forth as such and not as representations of fact, and no representation is made that any of the estimates will be realized. Definitions of certain terms used herein and not defined herein have the meaning set forth in the Fiscal Agent Agreement. See APPENDIX F.

INTRODUCTION

This introduction is not a summary of this Official Statement. It is only a brief description of and guide to, and is qualified by, more complete and detailed information contained in the entire Official Statement, including the cover page and attached appendices, and the documents summarized or described in this Official Statement. A full review should be made of the entire Official Statement. The offering of the 2020 Bonds to potential investors is made only by means of the entire Official Statement.

The City. The City is located in the County of Placer (the “**County**”), which is located in the Sacramento Valley near the foothills of the Sierra Nevada mountain range, about 16 miles northeast of Sacramento and 110 miles east of San Francisco. The City presently occupies 43 square miles in the southwestern part of the County and is the largest city in the County as well as the residential and business center of the County. It is bordered by Sacramento County to the south, the City of Rocklin to the north and unincorporated County to the east and west. For additional information on the City and the County, see APPENDIX C.

The District. On March 21, 2018, the City Council of the City (the “**City Council**”), as legislative body of the District, adopted a Resolution of Intention to form the District under the Mello-Roos Community Facilities Act of 1982, as amended (the “**Act**”), to levy a special tax and to incur bonded indebtedness for the purpose of financing the Improvements and making contributions to certain public facilities. After conducting a noticed public hearing, on May 2, 2018, the City Council adopted a Resolution of Formation (the “**Resolution of Formation**”), which established the District

* Preliminary; subject to change.

and a future annexation area for the District (the “**Future Annexation Area**”), set forth the Special Tax Formula within the District and set forth the necessity to incur bonded indebtedness in a total amount not to exceed \$310,000,000. On the same day, an election was held within the District in which the qualified elector in the District, John Mourier Construction, Inc. (“**JMC Homes**”), approved the proposed bonded indebtedness and the levy of the Special Tax. Change proceedings were undertaken in the District in January 2019 to amend the Special Tax Formula, which proceedings were approved by JMC Homes, as the qualified elector in the District. See “OWNERSHIP OF PROPERTY WITHIN THE DISTRICT”.

Property currently in the District and subject to the Special Tax comprises 115 acres developing into 678 residential homes in the Sierra Vista Specific Plan, which is located in the northwest portion of the City. This includes 73 acres planned for 395 residential homes in the original boundary of the District, plus 42 acres planned for 283 residential units that were annexed into the District in 2020 from the future annexation area.

JMC Homes anticipates annexing additional lots into the District from the future annexation area every few years as market conditions warrant. JMC Homes expects that each annexation will contain a similar number of lots as the initial number of lots in the District. However, the timing of each annexation and number of lots in each annexation may vary based on market conditions. Upon annexation of additional lots into the District additional bonds may be issued by the City on a parity with the 2020 Bonds and 2019 Bonds (defined below) upon the satisfaction of certain conditions set forth in the Fiscal Agent Agreement (defined below) in order to finance additional infrastructure improvements needed by JMC Homes for the development of the project.

Authority for Issuance of the 2020 Bonds. The 2020 Bonds are issued pursuant to the Act, a resolution adopted by the City Council on _____, 2020 (the “**Resolution of Issuance**”) and a Fiscal Agent Agreement dated as of July 1, 2019, as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the “**Fiscal Agent Agreement**”) between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (the “**Fiscal Agent**”).

Bond Terms. The 2020 Bonds will be dated as of and bear interest from the date of delivery thereof at the rate or rates set forth on the cover page of this Official Statement. Interest on the 2020 Bonds is payable on March 1 and September 1 of each year (each an “**Interest Payment Date**”), commencing September 1, 2020. The 2020 Bonds will be issued without coupons in denominations of \$5,000 or any integral multiple thereof.

Registration of Ownership of 2020 Bonds. The 2020 Bonds will be issued only as fully registered bonds in book-entry form, registered in the name of Cede & Co., as nominee of The Depository Trust Company (“**DTC**”). Ultimate purchasers of 2020 Bonds will not receive physical certificates representing their interest in the 2020 Bonds. So long as the 2020 Bonds are registered in the name of Cede & Co., as nominee of DTC, references herein to the Owners will mean Cede & Co., and will not mean the ultimate purchasers of the 2020 Bonds. Payments of the principal, premium, if any, and interest on the 2020 Bonds will be made directly to DTC, or its nominee, Cede & Co. so long as DTC or Cede & Co. is the registered owner of the 2020 Bonds. Disbursements of such payments to DTC’s Participants is the responsibility of DTC and disbursements of such payments to the Beneficial Owners is the responsibility of DTC’s Participants and Indirect Participants, as more fully described herein. See “APPENDIX G – DTC AND THE BOOK-ENTRY ONLY SYSTEM.”

Use of Proceeds. Proceeds of the 2020 Bonds will primarily be used to finance a portion of the costs of acquiring and constructing certain public infrastructure improvements (the “**Improvements**,” as described herein) as part of the development being undertaken by JMC Homes. The Improvements consist generally of water, wastewater, drainage, roadway and other infrastructure improvements necessary for development of property within the District and the surrounding area, as well as park and open space improvements (which include environmental mitigation costs). See “THE IMPROVEMENTS.” Proceeds of the 2020 Bonds will also be deposited to a debt service reserve account for the 2020 Bonds, to provide capitalized interest for debt service due on the 2020 Bonds due [September 1, 2020] and to pay costs of issuance.

Security and Source of Payment of the Bonds. As security for the payment of the Bonds, a special tax applicable to each taxable parcel in the District will be levied and collected according to the tax liability determined by the City Council through the application of the Amended Rate, Method of Apportionment, and Manner of Collection of Special Tax for the District (the “**Special Tax Formula**”). The Special Tax Formula is set forth in its entirety in APPENDIX A hereto. Pursuant to the Special Tax Formula, a “Facilities Special Tax” will be levied and collected until the earlier of (i) the Transition Year or (ii) Fiscal Year 2082-83, and a “Maintenance Special Tax” will be levied and collected beginning in the Transition Year. *Only the “Facilities Special Tax” is pledged to the payment of the Bonds, and the definition of “Special Taxes” used in the Fiscal Agent Agreement and this Official Statement refers only to the “Facilities Special Tax” levied in accordance with the Special Tax Formula.* See “SECURITY AND SOURCES OF PAYMENT OF THE BONDS – Special Tax Methodology.”

The 2020 Bonds, 2019 Bonds and any Additional Bonds are payable from the “**Special Tax Revenues**,” consisting of the proceeds of the Special Taxes received by the City, including all scheduled payments and delinquent payments thereof, interest thereon and proceeds of the redemption or sale of property sold as a result of foreclosure of the lien of the Special Taxes, net of the administration charge of the County (currently at 1%), but do not include any interest in excess of the interest due on the Bonds or any penalties collected in connection with any such foreclosure. The 2020 Bonds are also payable from amounts held in certain funds and accounts pursuant to the Fiscal Agent Agreement, including a reserve fund, all as more fully described herein. See “–2020 Reserve Account of the Reserve Fund,” below.

The Special Taxes represent liens on the parcels of land subject to a Special Tax, and failure to pay the Special Taxes could result in proceedings to foreclose the delinquent property. The Special Taxes do not constitute the personal indebtedness of the owners of taxed parcels. See “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Special Tax Methodology” and “APPENDIX A – RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX.”

Additional Parity Bonds. The maximum authorized indebtedness for the District is \$310,000,000. In 2019, the City issued its \$12,540,000 initial principal amount of City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2019 (the “**2019 Bonds**”), which was the first series of special tax bonds issued under this authorization. The 2020 Bonds are the second series of special tax bonds issued under this authorization, and additional series of parity bonds (“**Additional Bonds**”) are expected in the future to finance additional infrastructure improvements needed by JMC Homes for the development of the project as additional property is annexed into the District. In addition, the City may utilize a portion of the available authorized bond amount for the funding of certain deferred impact fees owed to the City, as described below under “– Use of Bond Authorization for Development Impact Fee Deferral Bonds.”

The principal amount of the 2020 Bonds has been sized based on the Special Taxes that can be generated from the 283 residential units annexed into the District in 2020 (although all of the Special Taxes levied in the District are pledged to the 2020 Bonds, the 2019 Bonds and any Additional Bonds, on a parity basis). Additional Bonds are expected to be issued for Improvements as additional property in the future annexation area is annexed into the District. For the purpose of financing the Improvements, Bonds are expected to be issued in an aggregate principal amount of approximately \$110,000,000, including the 2020 Bonds and the 2019 Bonds. This approximate principal amount does not take into account refunding bonds and bonds issued to pay for the Development Impact Fee Deferral for property in the District. However, the actual aggregate amount of Additional Bonds to fund Improvements and the Development Impact Fee Deferral may vary depending on interest rates at the time of bond issuance, the timing of each bond issue and other factors that may impact the timing and size of each bond issue.

The District may issue Additional Bonds secured by Special Tax Revenues on parity with the 2020 Bonds and the 2019 Bonds, upon the satisfaction of certain conditions set forth in the Fiscal Agent Agreement. Following the issuance of the 2020 Bonds in the amount of \$_____,*, the remaining authorized amount of indebtedness to be issued is \$_____.*. So long as the 2020 Bonds or 2019 Bonds are outstanding, any future bonds issued for the District and secured on parity with the 2020 Bonds and 2019 Bonds (herein, “**Additional Bonds**” and collectively with the 2020 Bonds and the 2019 Bonds, the “**Bonds**”) are required to meet certain conditions of issuance as set forth in the Fiscal Agent Agreement, and no bonds having a lien senior to the lien of the 2020 Bonds or 2019 Bonds are allowed. See “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Parity Bonds.”

Use of Bond Authorization for Development Impact Fee Deferral Bonds. In connection with the approval of development in the District, the City agreed that payment of certain impact fees owed by JMC Homes and merchant builders will be deferred (referred to as the “Development Impact Fee Deferral” in the Special Tax Formula) to allow payment of the deferred fees after the 2019 Bonds have been fully paid. The City expects to receive payment for the deferred impact fees either through continued collection of Special Taxes or through the issuance of future bonds after the 2019 Bonds have matured. If the City chooses to issue bonds to pay deferred impact fees, the remaining authorization will be available to be utilized by the City as a means therefor. [CONFIRM]

2020 Reserve Account of the Reserve Fund. In connection with the issuance of the 2019 Bonds, a Reserve Fund (the “**Reserve Fund**”) was established under the Fiscal Agent Agreement, and within the Reserve Fund separate accounts are established for each series of Bonds. Accordingly, a reserve account for the 2019 Bonds was established within the Reserve Fund (the “**2019 Reserve Account**”), and a reserve account for the 2020 Bonds will be established within the Reserve Fund (the “**2020 Reserve Account**”). Amounts in the 2019 Reserve Account are available solely for the payment of debt service on the 2019 Bonds, and amounts in the 2020 Reserve Account is available solely for the payment of debt service on the 2020 Bonds. See “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Reserve Fund.” If there are additional delinquencies after depletion of funds in the 2020 Reserve Account of the Reserve Fund, the City is not obligated to pay the 2020 Bonds or supplement the 2020 Reserve Account of the Reserve Fund.

Appraised Value of Property. Property in the District is security for the Special Tax which secures the 2020 Bonds and the 2019 Bonds. The City authorized the preparation of an appraisal

* Preliminary; subject to change.

for the 678 lots currently within the District, with a date of value of April 21, 2020, which sets forth an aggregate not-less-than appraised value of \$124,108,750 as of such date. The valuation assumes certain proceeds from the 2020 Bonds and 2019 Bonds (but not any Additional Bonds that may be issued in the future) are available to reimburse for certain completed infrastructure improvements and accounts for the impact of the lien of the Special Tax and adds the estimated bond amount to the value of property. See "THE IMPROVEMENTS." In considering the estimates of value evidenced by the appraisal, it should be noted that the appraisal is based upon a number of standard and special assumptions, which affect the estimates as to value, in addition to the assumption of completion of the Improvements and the availability of certain of the proceeds of the 2020 Bonds and 2019 Bonds to reimburse for completed Improvements. The Improvements to be paid for with proceeds of the 2020 Bonds and 2019 Bonds are now [substantially] complete. See "VALUE OF PROPERTY WITHIN THE DISTRICT – The Appraisal" and APPENDIX B.

The appraised value of property in the District is 5.78* times the \$21,465,794* aggregate principal amount of the 2020 Bonds and 2019 Bonds (and overlapping general obligation bond debt of \$175,794). This is an average, and individual parcels may vary widely from the average. See "VALUE OF PROPERTY WITHIN THE DISTRICT – Value to Special Tax Burden Ratios."

Development of land in the District is underway by JMC Homes, with 114 homes owned by individual homeowners as of April 21, 2020 (the date of value for the appraisal) and an additional ____ homes that have sold and closed to individual homeowners as of _____, 2020. See "THE DISTRICT – Development in the District" and "OWNERSHIP OF PROPERTY WITHIN THE DISTRICT."

Risks of Investment; COVID-19. See the section of this Official Statement entitled "SPECIAL RISK FACTORS" for a discussion of special factors that should be considered, in addition to the other matters set forth herein, in considering the investment quality of the 2020 Bonds. ***In particular, no assurance can be given that the timing of construction of homes and/or sale of homes projected by JMC Homes in this Official Statement will be accomplished. Neither the City nor the Underwriter can predict the impact of COVID-19 on home production and home sales activities or the willingness of owners of land in the District, including JMC Homes, to pay the Special Taxes securing the 2020 Bonds. See "SPECIAL RISK FACTORS – COVID-19."***

Limited Obligation of the City. The general fund of the City is not liable and the full faith and credit of the City is not pledged for the payment of the interest on, or principal of or redemption premiums, if any, on the 2020 Bonds. The 2020 Bonds are not secured by a legal or equitable pledge of or charge, lien or encumbrance upon any property of the City or any of its income or receipts, except the money in the funds established and pledged to the Bonds under the Fiscal Agent Agreement, and neither the payment of the interest on nor principal of or redemption premiums, if any, on the 2020 Bonds is a general debt, liability or obligation of the City. The 2020 Bonds do not constitute an indebtedness of the City within the meaning of any constitutional or statutory debt limitation or restrictions, and neither the City Council, the City nor any officer or employee thereof are liable for the payment of the interest on or principal of or redemption premiums, if any, on the 2020 Bonds other than from the proceeds of the Special Taxes and the money in the funds established and pledged to the Bonds, as provided in the Fiscal Agent Agreement.

Summary of Information. Brief descriptions of certain provisions of the Fiscal Agent Agreement, the Bonds and certain other documents are included herein. The descriptions and summaries of documents herein do not purport to be comprehensive or definitive, and reference is made to each such document for the complete details of all its respective terms and conditions, copies of which are available for inspection at the office of the Chief Financial Officer of the City. All statements herein with respect to certain rights and remedies are qualified by reference to laws and principles of equity relating to or affecting creditors' rights generally. Capitalized terms used in this Official Statement and not otherwise defined herein have the meanings ascribed to such terms in the Fiscal Agent Agreement. The information and expressions of opinion herein speak only as of the date of this Official Statement and are subject to change without notice. Neither delivery of this Official Statement, any sale made hereunder, nor any future use of this Official Statement shall, under any circumstances, create any implication that there has been no change in the affairs of the City or the District since the date hereof.

Any statements made in this Official Statement involving matters of opinion or of estimates, whether or not so expressly stated, are set forth as such and not as representations of fact, and no representation is made that any of the estimates will be realized.

Estimated Uses of Funds:

Deposit to Improvement Fund	\$
Deposit to 2020 Reserve Account of the Reserve Fund ⁽¹⁾	
Deposit to Bond Fund ⁽²⁾	
Costs of Issuance ⁽³⁾	
Total	\$

(1) Equal to the Reserve Requirement for the 2020 Bonds.

(2) Represents an amount scheduled to provide for capitalized interest due on the 2020 Bonds on [September 1, 2020].

(3) Includes fees of bond and disclosure counsel, fees, expenses and charges of the Fiscal Agent, printing costs, fees of the special tax administrator, appraiser, and municipal advisor, Underwriter's discount, and other costs of issuance.

THE BONDS

Authority for Issuance

The 2020 Bonds are issued pursuant to the Fiscal Agent Agreement, the Resolution of Issuance and the Act.

On March 21, 2018, the City Council adopted a Resolution of Intention to form a community facilities district under the Act, to levy a special tax and to incur bonded indebtedness for the purpose of financing the Improvements and making contributions to certain public facilities. After conducting a noticed public hearing, on May 2, 2018, the City Council adopted the Resolution of Formation, which established the District and the Future Annexation Area, set forth the Special Tax Formula within the District and set forth the necessity to incur bonded indebtedness in a total amount not to exceed \$310,000,000. On the same day, an election was held within the District in which the qualified elector in the District, JMC Homes, approved the proposed bonded indebtedness and the levy of the Special Tax. Change proceedings were undertaken in the District in January 2019 to amend the Special Tax Formula, which proceedings were approved by JMC Homes, as the qualified elector in the District. See "OWNERSHIP OF PROPERTY WITHIN THE DISTRICT" below and APPENDIX A.

The principal amount of the 2020 Bonds has been sized based on the Special Taxes that can be generated from the 283 residential units annexed into the District in 2020 (although all of the Special Taxes levied in the District are pledged to the 2020 Bonds, the 2019 Bonds and any Additional Bonds, on a parity basis). Additional Bonds are expected to be issued for Improvements as additional property in the future annexation area is annexed into the District. For the purpose of financing the Improvements, Bonds are expected to be issued in an aggregate principal amount of approximately \$110,000,000, including the 2020 Bonds and the 2019 Bonds. This approximate principal amount does not take into account refunding bonds and bonds issued to pay for the Development Impact Fee Deferral for property in the District. However, the actual aggregate amount of Additional Bonds to fund Improvements and the Development Impact Fee Deferral may vary depending on interest rates at the time of bond issuance, the timing of each bond issue and other factors that may impact the timing and size of each bond issue.

Description of the Bonds

Bond Terms. The 2020 Bonds will be dated as of and bear interest from the date of delivery thereof at the rates and mature in the amounts and years, as set forth on the cover page hereof. The 2020 Bonds are being issued in the denomination of \$5,000 or any integral multiple thereof.

Interest on the 2020 Bonds will be payable semiannually on March 1 and September 1 of each year (each an "**Interest Payment Date**"), commencing September 1, 2020. The principal of the 2020 Bonds and premiums due upon the redemption thereof, if any, will be payable in lawful money of the United States of America at the principal corporate trust office of the Fiscal Agent in Los Angeles, California, or such other place as designated by the Fiscal Agent, upon presentation and surrender of the 2020 Bonds; provided that so long as any 2020 Bonds are in book-entry form, payments with respect to such 2020 Bonds will be made by wire transfer, or such other method acceptable to the Fiscal Agent, to DTC.

Book-Entry Only System. The 2020 Bonds are being issued as fully registered bonds, registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("**DTC**"), and will be available to ultimate purchasers under the book-entry system

maintained by DTC. Ultimate purchasers of 2020 Bonds will not receive physical certificates representing their interest in the 2020 Bonds. So long as the 2020 Bonds are registered in the name of Cede & Co., as nominee of DTC, references herein to the Owners will mean Cede & Co., and will not mean the ultimate purchasers of the 2020 Bonds. The Fiscal Agent will make payments of the principal, premium, if any, and interest on the 2020 Bonds directly to DTC, or its nominee, Cede & Co., so long as DTC or Cede & Co. is the registered owner of the 2020 Bonds. Disbursements of such payments to DTC's Participants are the responsibility of DTC and disbursements of such payments to the Beneficial Owners are the responsibility of DTC's Participants and Indirect Participants, as more fully described herein. See "APPENDIX G – DTC AND THE BOOK-ENTRY ONLY SYSTEM."

Calculation and Payment of Interest. Interest on the 2020 Bonds will be computed on the basis of a 360-day year consisting of twelve 30-day months. Interest on the 2020 Bonds (including the final interest payment upon maturity or earlier redemption) is payable by check of the Fiscal Agent mailed on each Interest Payment Date by first class mail to the registered Owner thereof at such registered Owner's address as it appears on the registration books maintained by the Fiscal Agent at the close of business on the 15th day of the month preceding the month in which the Interest Payment Date occurs whether or not such day is a Business Day (the "**Record Date**") preceding the Interest Payment Date, or by wire transfer made on such Interest Payment Date upon written instructions received by the Fiscal Agent on or before the Record Date preceding the Interest Payment Date, of any Owner of \$1,000,000 or more in aggregate principal amount of 2020 Bonds; provided that so long as any 2020 Bonds are in book-entry form, payments with respect to such 2020 Bonds will be made by wire transfer, or such other method acceptable to the Fiscal Agent, to DTC. See "APPENDIX G – DTC AND THE BOOK-ENTRY ONLY SYSTEM."

Each 2020 Bond will bear interest from the Interest Payment Date next preceding the date of authentication thereof unless (i) it is authenticated on an Interest Payment Date, in which event it will bear interest from such date of authentication, or (ii) it is authenticated prior to an Interest Payment Date and after the close of business on the Record Date preceding such Interest Payment Date, in which event it will bear interest from such Interest Payment Date, or (iii) it is authenticated prior to the Record Date preceding the first Interest Payment Date, in which event it will bear interest from the Dated Date; provided, however, that if at the time of authentication of a 2020 Bond, interest is in default thereon, such 2020 Bond will bear interest from the Interest Payment Date to which interest has previously been paid or made available for payment thereon. So long as the 2020 Bonds are registered in the name of Cede & Co., as nominee of DTC, payments of the principal, premium, if any, and interest on the 2020 Bonds will be made directly to DTC, or its nominee, Cede & Co. Disbursements of such payments to DTC's Participants are the responsibility of DTC and disbursements of such payments to the Beneficial Owners are the responsibility of DTC's Participants and Indirect Participants, as more fully described herein. See "APPENDIX G – DTC AND THE BOOK-ENTRY ONLY SYSTEM."

Redemption*

Optional Redemption. The 2020 Bonds are subject to optional redemption from any source of available funds (other than Prepayments of the Special Tax by property owners), in whole or in part among maturities as specified by the City and by lot within a maturity, on any date on and after September 1, 20__ at the following respective redemption prices (expressed as percentages of the principal amount of the 2020 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

<u>Redemption Dates</u>	<u>Redemption Price</u>
September 1, 20__ through August 31, 20__	103%
September 1, 20__ through August 31, 20__	102
September 1, 20__ through August 31, 20__	101
September 1, 20__ and any date thereafter	100

Mandatory Redemption From Prepayments. The 2020 Bonds are subject to mandatory redemption from Prepayments of the Special Tax by property owners, in whole or in part among maturities as specified by the City and by lot within a maturity, on any Interest Payment Date at the following respective redemption prices (expressed as percentages of the principal amount of the 2020 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

<u>Redemption Dates</u>	<u>Redemption Price</u>
September 1, 20__ through and including March 1, 20__	103%
September 1, 20__ and March 1, 20__	102
September 1, 20__ and March 1, 20__	101
September 1, 20__ and any Interest Payment Date thereafter	100

Mandatory Sinking Fund Redemption. The Term 2020 Bonds maturing September 1, 20__ and September 1, 20__ are subject to mandatory sinking payment redemption in part on September 1, 20__ and September 1, 20__, respectively, and on each September 1 thereafter to maturity, by lot, at a redemption price equal to 100% of the principal amount thereof to be redeemed, without premium, in the aggregate respective principal amounts as set forth in the following tables:

Term 2020 Bonds Maturing September 1, 20__

Mandatory Redemption Date (Sept. 1)	Sinking Fund Payment
---	-------------------------

(maturity)

* Preliminary; subject to change.

Term 2020 Bonds Maturing September 1, 20__

Mandatory Redemption Date (Sept. 1)	Sinking Fund Payment
---	-------------------------

(maturity)

The amounts in the foregoing tables will be reduced pro rata, at the direction of the City in an Officer's Certificate, as a result of any prior partial optional redemption or mandatory redemption of the 2020 Bonds. In the event of a Prepayment, the City shall determine the allocation of prepayment proceeds among the 2020 Bonds, 2019 Bonds and Additional Bonds (if any).

Purchase In Lieu of Redemption. In lieu of redemption, moneys in the Bond Fund may be used and withdrawn by the Fiscal Agent for purchase of Outstanding 2020 Bonds, upon the filing with the Fiscal Agent of an Officer's Certificate requesting such purchase, at public or private sale as and when, and at such prices (including brokerage and other charges) as such Officer's Certificate may provide, but in no event may 2020 Bonds be purchased at a price in excess of the principal amount thereof, plus interest accrued to the date of purchase.

Redemption Procedure by Fiscal Agent. The Fiscal Agent will cause notice of any redemption to be mailed by first class mail, postage prepaid, at least 20 days but not more than 60 days prior to the date fixed for redemption, to the Securities Depositories and to one or more Information Services, and to the respective registered Owners of any 2020 Bonds designated for redemption, at their addresses appearing on the registration books in the Principal Office of the Fiscal Agent; but such mailing is not a condition precedent to such redemption and failure to mail or to receive any such notice, or any defect therein, will not affect the validity of the proceedings for the redemption of such 2020 Bonds.

Such notice will state the redemption date and the redemption price and, if less than all of the then Outstanding 2020 Bonds are to be called for redemption, will designate the CUSIP numbers and bond numbers of the 2020 Bonds to be redeemed by giving the individual CUSIP number and bond number of each 2020 Bond to be redeemed or will state that all 2020 Bonds between two stated bond numbers, both inclusive, are to be redeemed or that all of the 2020 Bonds of one or more maturities have been called for redemption, will state as to any 2020 Bond called in part the principal amount thereof to be redeemed, and will require that such 2020 Bonds be then surrendered at the Principal Office of the Fiscal Agent for redemption at the said redemption price, and will state that further interest on such 2020 Bonds will not accrue from and after the redemption date.

The City has the right to rescind any notice of the optional redemption of 2020 Bonds and such notice may be cancelled and annulled if for any reason funds will not be or are not available on the date fixed for redemption for the payment in full of the 2020 Bonds then called for redemption.

Whenever provision is made in the Fiscal Agent Agreement for the redemption of less than all of the 2020 Bonds of any maturity, the City will select the 2020 Bonds to be redeemed, from all 2020 Bonds or such given portion thereof of such maturity by lot in any manner which the City in its sole discretion deems appropriate that results in relatively uniform debt service. Upon surrender of 2020 Bonds redeemed in part only, the City will execute and the Fiscal Agent will authenticate and deliver to the registered Owner, at the expense of the City, a new 2020 Bond or 2020 Bonds, of the

same series and maturity, of authorized denominations in aggregate principal amount equal to the unredeemed portion of the 2020 Bond or 2020 Bonds.

Effect of Redemption. From and after the date fixed for redemption, if funds available for the payment of the principal of, and interest and any premium on, the 2020 Bonds so called for redemption are deposited in the Bond Fund, such 2020 Bonds so called will cease to be entitled to any benefit under the Fiscal Agent Agreement other than the right to receive payment of the redemption price, and no interest will accrue thereon on or after the redemption date specified in such notice.

Transfer or Exchange of Bonds

So long as the 2020 Bonds are registered in the name of Cede & Co., as nominee of DTC, transfers and exchanges of 2020 Bonds will be made in accordance with DTC procedures. See "APPENDIX G – DTC AND THE BOOK-ENTRY ONLY SYSTEM." Any 2020 Bond may, in accordance with its terms, be transferred or exchanged by the person in whose name it is registered, in person or by his duly authorized attorney, upon surrender of such 2020 Bond for cancellation, accompanied by delivery of a duly written instrument of transfer in a form approved by the Fiscal Agent. Whenever any 2020 Bond or 2020 Bonds are surrendered for transfer or exchange, the City will execute and the Fiscal Agent will authenticate and deliver a new 2020 Bond or 2020 Bonds, for a like aggregate principal amount of 2020 Bonds of authorized denominations and of the same maturity. The cost for any services rendered or any expenses incurred by the Fiscal Agent in connection with any such transfer or exchange will be paid by the City. The Fiscal Agent will collect from the Owner requesting such transfer any tax or other governmental charge required to be paid with respect to such transfer or exchange. No transfers or exchanges of 2020 Bonds will be required to be made (i) within 15 days prior to the date established by the Fiscal Agent for selection of 2020 Bonds for redemption or (ii) with respect to a 2020 Bond after such 2020 Bond has been selected for redemption.

SECURITY AND SOURCES OF PAYMENT FOR THE BONDS

Special Taxes

The Bonds (consisting of the 2020 Bonds, the 2019 Bonds and any Additional Bonds that may be issued in the future) are payable from and secured by proceeds of the Special Taxes received by the City, including all scheduled payments and delinquent payments thereof, interest and penalties thereon and proceeds of the redemption or sale of property sold as a result of foreclosure of the lien of the Special Taxes (but excluding any interest in excess of the interest due on the Bonds or any penalties collected in connection with any such foreclosure), and net of a 1% administration charge of the County (the “**Special Tax Revenues**”). All of the Special Tax Revenues and all moneys deposited in the Bond Fund and, until disbursed as provided herein, in the Improvement Fund and the Special Tax Fund are pledged to secure the repayment of the Bonds. In addition, with respect to each Series of Bonds, all moneys in the applicable subaccount of the Reserve Fund for such Series is pledged to secure the repayment of the applicable Series. The Special Tax Revenues and all moneys deposited into such funds (except as otherwise provided in the Fiscal Agent Agreement) are dedicated to the payment of the principal of, including any mandatory sinking fund payments, and interest and any premium on, the Bonds as provided in the Fiscal Agent Agreement and in the Act until all of the Bonds have been paid and retired or defeased in accordance with the Fiscal Agent Agreement.

A Special Tax applicable to each taxable parcel in the District will be levied and collected according to the tax amount determined by the City Council through the application of the Special Tax Formula administered by Willdan Financial Services, Temecula, California (the “**Special Tax Administrator**”) and set forth in APPENDIX A hereto for all taxable properties in the District. Prior to remittance of the Special Tax collections to the City, the County deducts and retains a 1% County administration fee, as noted above. Interest and principal on the Bonds is payable from the annual Special Tax Revenues to be paid to the City from Special Tax levies and collections on taxable property within the District, from amounts held in certain funds and accounts established under the Fiscal Agent Agreement and from the proceeds, if any, from the sale of such property for delinquency of such Special Taxes.

The Special Taxes are exempt from the property tax limitation of Article XIII A of the California Constitution, pursuant to Section 4 thereof as a “special tax” authorized by a two-thirds vote of the qualified electors. The levy of the Special Taxes was authorized by the City pursuant to the Act in an amount determined according to the Special Tax Formula approved by the City. See “Special Tax Methodology” below and “APPENDIX A – RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX.”

The amount of Special Taxes that the District may levy in any year, and from which principal and interest on the Bonds is to be paid, is strictly limited by the maximum rates approved by the qualified electors within the District, which is set forth in the Special Tax Formula. Under the Special Tax Formula, Special Taxes for the purpose of making payments on the Bonds will be levied annually in an amount not in excess of the maximum approved amount. The Special Taxes and any interest earned on the Special Taxes constitute a trust fund for the principal of and interest on the Bonds pursuant to the Fiscal Agent Agreement and, so long as the principal of and interest on these obligations remains unpaid, the Special Taxes and investment earnings thereon will not be used for any other purpose, except as permitted by the Fiscal Agent Agreement, and will be held in trust for the benefit of the owners thereof and will be applied pursuant to the Fiscal Agent Agreement. The Special Tax Formula apportions the Annual Facilities Costs (as defined in the Special Tax Formula and described below) among the taxable parcels of real property within the District according to the

rate and methodology set forth in the Special Tax Formula. See “Special Tax Methodology” below. See also “APPENDIX A — RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX.”

The City may levy the Special Tax up to the amount of the Maximum Annual Facilities Special Tax set forth in the Special Tax Formula, if conditions so require. The City has covenanted to annually levy the Special Taxes in an amount at least sufficient to pay the Annual Facilities Costs (as defined below). Because each Special Tax levy is limited to the Maximum Annual Facilities Special Tax rates authorized as set forth in the Special Tax Formula, no assurance can be given that, in the event of Special Tax delinquencies, the amount of the Annual Facilities Costs will in fact be collected in any given year. In addition, Section 53321(d) of the Act provides that the special tax levied against any parcel for which an occupancy permit for private residential use has been issued may not be increased as a consequence of delinquency or default by the owner of any other parcel within a community facilities district by more than 10% above the amount that would have been levied in such Fiscal Year had there never been any such delinquencies or defaults. See “SPECIAL RISK FACTORS – Tax Delinquencies” herein. The Special Taxes are collected for the City by the County in the same manner and at the same time as *ad valorem* property taxes.

Special Tax Methodology

Pursuant to the Special Tax Formula, a “Facilities Special Tax” will be levied and collected until the earlier of (i) the Transition Year or (ii) Fiscal Year 2082-83, and a “Maintenance Special Tax” will be levied and collected beginning in the Transition Year. For the definition of “Transition Year” and related matters, see APPENDIX A. *Only the “Facilities Special Tax” is pledged to the payment of the Bonds, and the definition of “**Special Taxes**” used in the Fiscal Agent Agreement and this Official Statement refers only to the “Facilities Special Tax” levied in accordance with the Special Tax Formula. Capitalized terms set forth in this section and not otherwise defined have the meanings set forth in the Special Tax Formula.*

Determination of Annual Facilities Costs. Each year, the City will determine the Annual Facilities Costs of the District for the upcoming Fiscal Year. The “**Annual Facilities Costs**” includes the following amounts (less any available earnings on any reserve fund, special tax funds, available capitalized interest or any other available revenues):

- (i) Debt Service to be paid from Facilities Special Taxes;
- (ii) the amount needed to replenish bond reserve funds to the level required by Bond documents, to the extent not included in a computation of Annual Facilities Costs in a previous Fiscal Year;
- (iii) Administrative Expenses for such Fiscal Year;
- (iv) the amount needed to (1) cure any delinquencies in the payment of principal or interest on Bonds which have occurred in the prior Fiscal Year, and (2) to fund any foreseeable deficiency of the amount to be available for the payment of principal or interest on Bonds which are expected to occur in the current or any previous Fiscal Year, to the extent not already included in the calculation of Annual Facilities Costs;
- (v) the amount needed to (1) cure any delinquencies in the payment of the Facilities Special Taxes in the prior Fiscal Year, (2) to fund any foreseeable deficiency of the amount to be available for the payment of Facilities Special Taxes which are expected to

occur in such Fiscal Year, in each case, to the extent not already included in the calculation of Annual Facilities Costs;

(vi) pay-as-you-go expenditures for authorized improvements; and

(vii) during the Deferral Bonding Period, the amount needed to pay Development Impact Fee Deferrals not financed by Bonds.

The Annual Facilities Costs is the basis for the amount of Special Tax to be levied within the District. In no event may the City levy a Special Tax in any year above the Maximum Annual Facilities Special Tax identified for each parcel in the Special Tax Formula.

Parcels Subject to the Facilities Special Tax. The Special Tax Formula designated five “original parcels,” corresponding to five separate development areas within the District, and additional parcels that are annexed into the District over time. Each fiscal year, the City will prepare a list of the parcels subject to the Special Tax using the records of the City and the County Assessor. The City will tax parcels within each zone within the District pursuant to the Special Tax Formula. Taxable Parcels that are acquired by a public agency after the District is formed will remain subject to the Facilities Special Tax unless a “trade” resulting in no loss of Facilities Special Tax revenue can be made, as described in the Special Tax Formula.

Limitation on Increases in Levy of Facilities Special Tax. If owners are delinquent in the payment of Facilities Special Taxes, the City may not increase Facilities Special Tax levies to make up for delinquencies for prior Fiscal Years above the Maximum Facilities Special Tax rates specified for each category of property within the District. In addition, Section 53321(d) of the Act provides that the special tax levied against any parcel for which an occupancy permit for private residential use has been issued may not be increased as a consequence of delinquency or default by the owner of any other parcel within a community facilities district by more than 10% above the amount that would have been levied in such Fiscal Year had there never been any such delinquencies or defaults. In cases of significant delinquency, these factors may result in defaults in the payment of principal of and interest on the Bonds. See “SPECIAL RISK FACTORS.”

Duration of the Facilities Special Tax; Transition Year. The Facilities Special Tax will be levied and collected (up to maximum allowable amount) until the earlier of (i) the Transition Year or (ii) Fiscal Year 2082-83. Transition Year means the first Fiscal Year following the Fiscal Year in which the Transition Event occurred, and Transition Event means the earlier of (i) after the Initial Bonding Period, the Fiscal Year in which the Administrator determines the Development Impact Fee Deferral has been repaid in full to the City and the City determines funding is no longer needed for Annual Facilities Costs, or (ii) Fiscal Year 2083-84. Initial Bonding Period means the period in which Bonds are outstanding or refunded which financed Authorized Facilities costs other than the Development Impact Fee Deferral.

Prepayment of the Facilities Special Tax. The Special Tax Formula provides that landowners may prepay some of the Facilities Special Tax by a cash settlement with the City. The amount of the prepayment required is to be calculated according to a formula set forth in the Special Tax Formula, which is generally based on the net present value of the remaining years in which the Facilities Special Tax will be collected, including the effect of a 2% per year escalation factor applicable for the time Bonds remain outstanding using a discount rate equal to the most current yield for the 30-year Treasury Constant Maturity as the discount factor, plus an amount representing the Development Impact Fee Deferral Amount (which amount is not available for prepayment of the Bonds), all as described in Section 8 of the Special Tax Formula set forth in APPENDIX A.

Prepayment is only allowed if the City determines that the prepayment does not jeopardize its ability to make timely payments of debt service on outstanding Bonds.

Levy of Annual Special Tax; Maximum Special Tax

The annual Special Tax will be calculated by the City and levied to provide money for debt service on the Bonds, replenishment of the Reserve Fund, certain delinquencies, administration of the District, and for payment of pay-as-you-go expenditures (to the extent permitted by the City) of the authorized District-funded facilities not funded from Bond proceeds. In no event may the City levy a Special Tax in any year above the maximum identified for each parcel in the Special Tax Formula.

For the 307 planned low-density-residential (LDR) units in the current boundary of the District, the Maximum Annual Facilities Special Tax for Fiscal Year 2020-21 equals \$1,872.72 per unit, while for the 88 planned medium-density-residential (MDR) units in the initial boundary of the District, the Maximum Annual Facilities Special Tax for Fiscal Year 2020-21 equals \$1,664.64 per unit. However, these amounts are subject to adjustment based upon the actual number of units built (in the event that less homes are built than are expected in the Special Tax Formula). The Maximum Annual Facilities Special Tax (as defined in the Special Tax Formula) shall escalate by 2% per year until the Transition Event, and thereafter shall no longer be levied. See "APPENDIX A – RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX" and for a table showing the expected land uses and assigned Maximum Special Taxes, see "Attachment 2" in such Appendix.

Annual Special Tax Levy. The Special Tax will be levied each year by calculating the amount needed to be generated by all Taxable Parcels in the District; the Special Tax (up to the maximum allowable amount) will be levied against each Taxable Parcel until the Special Tax revenue equals such amount; however, the Special Tax Formula establishes a priority for which properties will be levied a Special Tax. First, all "Developed Parcels" in the District receive a levy. If additional amounts are needed, a levy is made against each "Small Lot Tentative Map Parcel" in the District, then each "Large Lot Parcel" in the District, then each "Undeveloped Parcel" in the District. For single-family detached property, Developed Parcels are parcels shown on a Final Small Lot Subdivision Map recorded prior to May 1 of the preceding Fiscal Year. See "APPENDIX A – RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX."

The City covenants in the Fiscal Agent Agreement to fix and levy the amount of Special Taxes within the District required for the payment of principal of and interest on any outstanding Bonds of the District becoming due and payable during the ensuing year, including any necessary replenishment or expenditure of the Reserve Fund for the Bonds and an amount estimated to be sufficient to pay the Administrative Expenses during such year, all in accordance with the Special Tax Formula. The Special Tax is authorized to be levied in an amount not to exceed the Maximum Special Tax levy as described in the Special Tax Formula notwithstanding that a lower amount is sufficient to pay debt service on the Bonds. The Special Tax Formula provides a mechanism whereby the City may utilize the pay-as-you-go component to pay for and/or reimburse developers for a portion of the cost of Improvements not funded by proceeds of the bonds issued for the District. Proceeds of the annual Special Tax levy will first be used to pay the "Annual Facilities Costs" (which include debt service payments on the Bonds) other than pay-as-you-go expenditures, and the City contemplates that the levy will include a pay-as-you-go component in an amount equal to the Maximum Annual Facilities Special Tax on Developed Parcels, for deposit into the Improvement Fund for authorized costs not funded from Bond proceeds. See "THE IMPROVEMENTS" and "APPRAISAL OF PROPERTY WITHIN THE DISTRICT." See also "SECURITY AND SOURCES OF

PAYMENT FOR THE BONDS – Special Tax Methodology” above. See “APPENDIX A – RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX” for a copy of the Special Tax Formula.

Special Tax Fund

When received, the Special Tax Revenues are required under the Fiscal Agent Agreement to be deposited into a Special Tax Fund to be held by the City in trust for the benefit of the City and the Owners of the Bonds. Within the Special Tax Fund, the City has established and will maintain the Surplus Account, to the credit of which the City will deposit surplus Special Tax Revenue, if any, as described below. Moneys in the Special Tax Fund will be disbursed as provided below and, pending any disbursement, will be subject to a lien in favor of the Owners of the Bonds.

All Special Tax Revenue will be deposited in the Special Tax Fund upon receipt. Prior to each Interest Payment Date, the City will withdraw from the Special Tax Fund and transfer (i) to the Fiscal Agent for deposit in the reserve accounts of the Reserve Fund, an amount which when added to the amount then on deposit therein is equal to the Reserve Requirement with respect to each series of Bonds, and (ii) to the Fiscal Agent for deposit in the Bond Fund an amount, taking into account any amounts then on deposit in the Bond Fund, such that the amount in the Bond Fund equals the principal, premium, if any, and interest due on the Bonds on the next Interest Payment Date; provided, however, that as soon as practicable after the receipt by the City of any prepayments of Special Taxes, but no later than 10 Business Days after such receipt, the City shall transfer such prepayments to the Fiscal Agent for deposit into the Prepayment Account to be used for the redemption of Bonds. At such time as deposits to the Special Tax Fund equal the principal, premium if any, and interest becoming due on the Bonds for the current Bond Year and the amount needed to restore the reserve accounts of the Reserve Fund balance to the Reserve Requirement with respect to each series of Bonds, the amount in the Special Tax Fund in excess of such amount may, at the discretion of the City, be transferred to the Surplus Account, which will occur on or after September 2nd of each year. From time to time, the City may withdraw from the Surplus Account of the Special Tax Fund amounts needed to pay the City’s administrative expenses and County fees; provided that such transfers will not be in excess of the portion of the Special Tax Revenues collected by the City that represent levies for administrative expenses. Moneys in the Surplus Account may also be transferred, at the City’s discretion, to the Improvement Fund to pay for costs of the Improvements (including reimbursements to developers for the cost of Improvements not funded from proceeds of bonds issued for the District) or authorized facility contributions, to pay the principal of, premium, if any, and interest on the Bonds or to replenish amounts in the Reserve Fund. See “THE IMPROVEMENTS – Construction and Acquisition of the Improvements.”

Delinquent Payments of Special Tax; Covenant for Superior Court Foreclosure

The Special Tax will be collected in the same manner and the same time as *ad valorem* property taxes, except at the City’s option, the Special Taxes may be billed directly to property owners or collected at a different time to meet the City’s financial obligations. In the event of a delinquency in the payment of any installment of Special Taxes, the City is authorized by the Act to order institution of an action in superior court to foreclose the lien therefor.

The City has covenanted in the Fiscal Agent Agreement with and for the benefit of the Owners of the Bonds that it will annually on or before September 1 of each year review the public records of the County relating to the collection of the Special Tax in order to determine the amount of the Special Tax collected in the prior fiscal year, and if the City determines on the basis of such review that the amount so collected is deficient by more than 5% of the total amount of the Special Tax levied in the District in such Fiscal Year, it will within 30 days thereafter institute foreclosure proceedings as authorized by the Act in order to enforce the lien of the delinquent installment of the

Special Tax against each separate lot or parcel of land in the District for which such installment of the Special Tax is delinquent, and will diligently prosecute and pursue such foreclosure proceedings to judgment and sale; *provided*, that if the City determines on the basis of such review that (a) the amount so collected is deficient by less than 5% of the total amount of the Special Tax levied in the District in such Fiscal Year, but that property owned by any single property owner in the District is delinquent by more than \$5,000 with respect to the Special Tax due and payable by such property owner in such Fiscal Year, or (b) property owned by any single property owner in the District is delinquent cumulatively by more than \$3,250 with respect to the current and past Special Tax due (irrespective of the total delinquencies in the District), then the City will institute, prosecute and pursue such foreclosure proceedings in the time and manner provided herein against each such property owner.

Under the Act, foreclosure proceedings are instituted by the bringing of an action in the superior court of the county in which the parcel lies, naming the owner and other interested persons as defendants. The action is prosecuted in the same manner as other civil actions. In such action, the real property subject to the special taxes may be sold at a judicial foreclosure sale for a minimum price that will be sufficient to pay or reimburse the delinquent special taxes.

The owners of the 2020 Bonds benefit from the 2020 Reserve Account within the Reserve Fund established pursuant to the Fiscal Agent Agreement; however, if delinquencies in the payment of the Special Taxes with respect to the 2020 Bonds are significant enough to completely deplete the 2020 Reserve Account within the Reserve Fund, there could be a default or a delay in payments of principal and interest to the owners of the 2020 Bonds pending prosecution of foreclosure proceedings and receipt by the City of the proceeds of foreclosure sales. Provided that it is not levying the Special Tax at the Maximum Annual Facilities Special Tax rates set forth in the Special Tax Formula, the City may adjust the Special Taxes levied on all property within the District subject to the Special Tax to provide an amount required to pay debt service on the 2020 Bonds, 2019 Bonds and any Additional Bonds, and to replenish the reserve accounts established for each respective series of Bonds in the Reserve Fund. However, such adjustment is subject to the Maximum Annual Facilities Special Tax and to the limitation described under the caption “–Special Tax Methodology” above.

Under current law, a judgment debtor (property owner) has at least 120 days from the date of service of the notice of levy to redeem the property to be sold. If a judgment debtor fails to redeem and the property is sold, his or her only remedy is an action to set aside the sale, which must be brought within 90 days of the date of sale. If, as a result of such an action a foreclosure sale is set aside, the judgment is revived and the judgment creditor is entitled to interest on the revived judgment as if the sale had not been made (California Code of Civil Procedure Section 701.680).

Foreclosure by court action is subject to normal litigation delays, the nature and extent of which are largely dependent upon the nature of the defense, if any, put forth by the debtor and the condition of the calendar of the superior court of the county. Such foreclosure actions can be stayed by the superior court on generally accepted equitable grounds or as the result of the debtor's filing for relief under the Federal bankruptcy laws. The Act provides that, upon foreclosure, the Special Tax lien will have the same lien priority as is provided for *ad valorem* taxes and special assessments. See “APPRAISAL OF PROPERTY WITHIN THE DISTRICT – Priority of Lien.”

No assurances can be given that the real property subject to a judicial foreclosure sale will be sold or, if sold, that the proceeds of sale will be sufficient to pay any delinquent Special Tax installment. The Act does not require the District to purchase or otherwise acquire any lot or parcel of property foreclosed upon if there is no other purchaser at such sale.

Section 53356.6 of the Act requires that property sold pursuant to foreclosure under the Act be sold for not less than the amount of judgment in the foreclosure action, plus post-judgment interest and authorized costs, unless the consent of the owners of 75% of the outstanding Bonds is obtained. However, under Section 53356.6 of the Act, the District, as judgment creditor, is entitled to purchase any property sold at foreclosure using a “credit bid,” where the District could submit a bid crediting all or part of the amount required to satisfy the judgment for the delinquent amount of the Special Tax. If the District becomes the purchaser under a credit bid, the District must pay the amount of its credit bid into the redemption fund established for the Bonds, but this payment may be made up to 24 months after the date of the foreclosure sale.

2020 Reserve Account of Reserve Fund

In connection with the issuance of the 2019 Bonds, the Reserve Fund was established under the Fiscal Agent Agreement, and within the Reserve Fund separate accounts are established for each series of Bonds. Accordingly, the 2019 Reserve Account was established for the 2019 Bonds, and the 2020 Reserve Account is being established for the 2020 Bonds. Amounts in the 2019 Reserve Account are available solely for the payment of debt service on the 2019 Bonds, and amounts in the 2020 Reserve Account are available solely for the payment of debt service on the 2020 Bonds. If there are additional delinquencies after depletion of funds in the 2020 Reserve Account of the Reserve Fund, the City is not obligated to pay the 2020 Bonds or supplement the 2020 Reserve Account of the Reserve Fund.

Upon delivery of the 2020 Bonds, the Fiscal Agent will deposit an amount of the proceeds into the 2020 Reserve Account of the Reserve Fund so that the amount therein equals the “**Reserve Requirement**,” which means, with respect to any series of Bonds, the least of (i) 125% of the average Annual Debt Service with respect to the applicable series of Bonds; (ii) Maximum Annual Debt Service with respect to the applicable series of Bonds; and (iii) 10% of the original principal amount of the applicable series of Bonds (or, if the applicable series of Bonds has more than a de minimis amount of original issue discount or premium, 10% of the issue price of such series of Bonds); provided, that—

(a) the Reserve Requirement for the 2020 Bonds or 2019 Bonds shall not increase after the date of issuance of the 2020 Bonds or 2019 Bonds, respectively;

(b) in no event shall the City be obligated to deposit an amount in any reserve fund in excess of the amount permitted by the applicable provisions of the Code to be so deposited from the proceeds of tax-exempt bonds without having to restrict the yield of any investment purchased with any portion of such deposit and, if the amount of any such deposit is so limited, the Reserve Requirement shall be only the amount of such deposit as permitted by the Code; and

(c) the City may meet all or a portion of the Reserve Requirement with respect to any series of Bonds by depositing a Qualified Reserve Fund Credit Instrument.

For each series of Additional Bonds, the Fiscal Agent shall establish a separate subaccount within the Reserve Fund for such series and moneys in each subaccount shall be held in trust by the Fiscal Agent for the benefit of the Owners of the respective series of Bonds.

The City has the right to either meet the Reserve Requirement at the time of issuance of a series of Bonds or at any time thereafter to cause the Fiscal Agent to release cash from the Reserve

Fund, in whole or in part, by tendering to the Fiscal Agent: (1) a Qualified Reserve Fund Credit Instrument, and (2) in the case of a release, an opinion of Bond Counsel stating that such release will not, of itself, cause the portion of the interest on the Bonds secured thereby to become includable in gross income for purposes of federal income taxation. Upon tender of such items to the Fiscal Agent in connection with a release of cash, the Fiscal Agent will transfer such funds to the City. Prior to the expiration of any Qualified Reserve Fund Credit Instrument, if applicable, the City is obligated either to replace such Qualified Reserve Fund Credit Instrument with a new Qualified Reserve Fund Credit Instrument, or to deposit or cause to be deposited with the Fiscal Agent an amount of funds such that the funds on deposit in the Reserve Fund together with all Qualified Reserve Fund Credit Instruments held by the Fiscal Agent is at least equal to the Reserve Requirement (which funds may come from a draw by the Fiscal Agent on the Qualified Reserve Fund Credit Instrument prior to its expiration).

“Qualified Reserve Fund Credit Instrument” means an irrevocable standby or direct-pay letter of credit or surety bond issued by a commercial bank or insurance company and deposited with the Fiscal Agent, provided that all of the following requirements are met: (a) the long-term credit rating of such bank or insurance company is rated in the top two categories (without regard to modifier) by S&P or Moody’s at the time of issuance; (b) such letter of credit or surety bond has a term of at least 12 months; (c) such letter of credit or surety bond has a stated amount at least equal to the portion of the Reserve Requirement being met by such instrument or with respect to which funds are proposed to be released pursuant to the Fiscal Agent Agreement; and (d) the Fiscal Agent is authorized pursuant to the terms of such letter of credit or surety bond to draw thereunder an amount equal to any deficiencies which may exist from time to time in the Bond Fund for the purpose of making payments required pursuant to the Fiscal Agent Agreement.

Whenever, on the Business Day prior to any Interest Payment Date, the amount in any reserve account within the Reserve Fund exceeds the Reserve Requirement for the applicable series of Bonds covered by such reserve account, the Fiscal Agent shall provide written notice to the Chief Financial Officer of the amount of the excess. The Chief Financial Officer shall advise the Fiscal Agent in writing of the amount, if any, of any transfer required pursuant to the Fiscal Agent Agreement, and otherwise direct the Fiscal Agent to transfer an amount equal to the excess to the Improvement Fund, if the Project has not been completed as of the date of such transfer, or if the Project has been completed, to the Bond Fund to be used for the payment of the principal of and interest on the Outstanding Bonds covered by the applicable reserve account in accordance with the Fiscal Agent Agreement; provided, that to the extent that such excess results from the prepayment of Special Taxes and redemption of Bonds, such amount shall be transferred to the Prepayment Account and applied to the corresponding redemption of Bonds.

Whenever the balance in the Reserve Fund exceeds the amount required to redeem or pay the Outstanding Bonds, including interest accrued to the date of payment or redemption and premium, if any, due upon redemption, and make any other transfer required under the Fiscal Agent Agreement, the Fiscal Agent will transfer the amount in the Reserve Fund to the Bond Fund to be applied, on the next succeeding Interest Payment Date, to the payment and redemption of all of the Outstanding Bonds. If the amount so transferred from the Reserve Fund to the Bond Fund exceeds the amount required to pay and redeem the Outstanding Bonds, the balance in the Reserve Fund will be transferred to the City, after payment of any amounts due the Fiscal Agent, to be used for any lawful purpose of the City.

Improvement Fund

Under the Fiscal Agent Agreement, there is established an Improvement Fund (and within the Improvement Fund, accounts corresponding to respective series of Bonds), which is to be held in trust by the Fiscal Agent and will be disbursed as provided in the Fiscal Agent Agreement for the payment or reimbursement of the costs of the construction and acquisition of the Improvements in accordance with the Acquisition Agreement (as described herein). Interest earnings from the investment of amounts in the Improvement Fund will be retained in the Improvement Fund to be used for the purposes of the Improvement Fund.

Upon completion of the Improvements and payment to JMC Homes or other entities that are due reimbursement for Improvements, the Fiscal Agent will transfer the amount, if any, remaining in the Improvement Fund to the Bond Fund for application to the payment of principal of and interest on the Bonds in accordance with the Fiscal Agent Agreement, and the Improvement Fund will be closed. See "THE IMPROVEMENTS."

Parity Bonds

The Resolution of Formation authorizes the issuance of up to \$310,000,000 of special tax bonds for the District. In 2019, the City issued \$12,540,000 initial principal amount of 2019 Bonds, which was the first series of special tax bonds issued under this authorization. The 2020 Bonds represent the second series of special tax bonds issued under this authorization. The City expects that it will, by a Supplemental Agreement, authorize the issuance of one or more additional series of Additional Bonds payable from Special Taxes and secured by the Special Tax Revenues on a parity with the 2020 Bonds and 2019 Bonds, as development progresses in the District and upon compliance by the City with the conditions set forth in the Fiscal Agent Agreement, which include the following:

(i) There shall be deposited into a reserve account of the Reserve Fund, an amount at least equal to the Reserve Requirement with respect to such Additional Bonds.

(ii) For each Bond Year the Additional Bonds are Outstanding, projected Special Taxes Revenues, if levied at the maximum annual Special Tax rates per the Special Tax Formula, in each Fiscal Year are at least equal to 110% of Debt Service due in the Bond Year that begins in the corresponding Fiscal Year, as calculated by the special tax consultant to the City.

(iii) Both of the following conditions are met:

(A) Regarding All Parcels in the District: The aggregate value of all parcels in the District subject to the Special Tax, including then existing improvements and any facilities to be constructed or acquired with the proceeds of the Additional Bonds, as determined by an MAI appraisal, assessed valuations shown on the then current County tax roll, or by a combination of both methods, is at least 3.00 times the sum of (1) the aggregate principal amount of all Bonds then Outstanding, plus (2) the aggregate principal amount of the Additional Bonds proposed to be issued, plus (3) the aggregate principal amount of any bonds then outstanding and payable from assessments which are a lien against property in the District, plus (4) a portion of the aggregate principal amount of all bonds issued under the Act, other than Bonds then Outstanding, payable at least partially from special taxes to be levied on parcels of land subject to the Special Tax within the District (the "**Other Mello-Roos Bonds**")

equal to the aggregate principal amount of the Other Mello-Roos Bonds multiplied by a fraction, the numerator of which is the amount of special taxes levied for the Other Mello-Roos Bonds on parcels of land within the District subject to the Special Tax, and the denominator of which is the total amount of special taxes levied for the Other Mello-Roos Bonds on all parcels of land subject to the Special Tax against which the special taxes are levied to pay the Other Mello-Roos Bonds (such fraction to be determined based upon the special taxes which could be levied the year in which maximum annual debt service on the Other Mello-Roos Bonds occurs), based upon information from the most recent available Fiscal Year.

(B) Regarding Recently Annexed Parcels: The aggregate value of the Recently Annexed Parcels, including then existing improvements and any facilities to be constructed or acquired with the proceeds of the Additional Bonds, as determined by an MAI appraisal, assessed valuations shown on the then current County tax roll, or by a combination of both methods, is at least 3.00 times the sum of (1) the Attributable Principal Amount of all Bonds then Outstanding, plus (2) the Attributable Principal Amount of the Additional Bonds proposed to be issued, plus (3) the amount of any bonds then outstanding and payable from assessments which are a lien against the Recently Annexed Parcels, plus (4) the allocation of Other Mello-Roos Bonds determined to be applicable to the Recently Annexed Parcels.

As used herein, “*Recently Annexed Parcels*” means all parcels in the District subject to the Special Tax which were annexed into the District following the closing date for the then-most recently issued series of Bonds, and “*Attributable Principal Amount*” means for the Bonds or any Additional Bonds, calculated separately, an amount equal to the aggregate outstanding principal amount of such Bonds and Additional Bonds multiplied by a fraction, the numerator of which is the amount of special taxes that will be levied for such Bonds and Additional Bonds on Recently Annexed Parcels in the first fiscal year in which the levy includes debt service for the applicable series of Additional Bonds, and the denominator of which is the total amount of special taxes that will be levied for the Bonds and Additional Bonds on all parcels of land in the District against which the special taxes are levied to pay the Bonds and Additional Bonds in such fiscal year.

Additional Bonds may be issued for the purpose of refunding any outstanding Bonds without meeting the foregoing conditions so long as debt service on the refunding Bonds in each Bond Year is less than debt service on the Bonds refunded.

Nothing in the Fiscal Agent Agreement shall be interpreted to prohibit issuance of bonds or Additional Bonds secured on a subordinate basis to the Bonds.

In connection with the approval of development in the District, the City has agreed that payment of certain impact fees owed by JMC Homes will be deferred (referred to as the “Development Impact Fee Deferral” in the Special Tax Formula) to allow payment of the deferred fees after the 2019 Bonds have been fully paid. [The City expects to receive payment for the deferred impact fees either through continued collection of Special Taxes or through the issuance of future bonds after the 2019 Bonds have matured.] If the City chooses to issue bonds to pay deferred impact fees, the remaining authorization will be available to be utilized by the City as a means therefor.

DEBT SERVICE SCHEDULES

The annual debt service on the 2020 Bonds, based on the interest rates and maturity schedule set forth on the cover of this Official Statement, together with the annual debt service on the 2019 Bonds, in each case, assuming no early redemptions, is set forth below.

THE SIERRA VISTA SPECIFIC PLAN

The Sierra Vista Specific Plan (“**SVSP**”) is the primary land use, policy and regulatory document used to guide development of the project area. The Specific Plan establishes a development framework for land use, affordable housing, resource protection, circulation, utilities and services, implementation and design. The intent is to promote the systematic and orderly development of the plan area. All subsequent development projects and related activities in the SVSP area are required to be consistent with the SVSP. The SVSP implements the goals and policies of the City of Roseville General Plan and augments these goals and policies by providing specific direction to reflect conditions unique to the project and Plan Area. The General Plan serves as the long-term policy guide for the physical, economic and environmental growth of the City. The property within the District was included within the SVSP at adoption, and is a component of the SVSP. The full text of the SVSP is available on the City’s website.

Land Use Concept. The SVSP is planned primarily as a residential community, with a significant commercial and employment center along Baseline Road, which properties are not part of the District and not subject to the Special Taxes securing the Bonds. The overall mix and intensity of uses is similar to that found in adjacent portions of the City. The SVSP also provides for recreation, open space, employment and educational opportunities available to residents both within and outside the SVSP area.

The primary elements that comprise the form of the SVSP land use plan include: the residential neighborhoods; a range of commercial and employment uses, schools, parks and open space, as more particularly described below.

Residential Neighborhoods - A variety of housing styles similar to that found elsewhere in the City are planned, including affordable housing and designated age restricted neighborhoods. High density residential comprises approximately 30% of planned residential uses.

Commercial and Employment - A range of commercial and employment uses are proposed within the SVSP, including commercial mixed-use, business professional mixed-use, and community commercial uses. Conventional commercial sites are provided as well, typically along arterial roadways. The SVSP’s employment and service uses are intended to complement and further diversify the City’s employment, retail, service, and revenue base.

Neighborhood Parks - Neighborhood parks are proposed throughout the SVSP, some are located adjacent to the elementary schools and middle school sites, maximizing the potential for joint-use opportunities with the outdoor recreation facilities. Park facilities range from approximately one to approximately 10 acres in size. Some of the SVSP’s neighborhood parks would be linked to a system of paseos, providing a comprehensive network of pedestrian and bikeway connections to the SVSP’s parks and open space system. Neighborhood parks typically include a mix of soccer and baseball fields, tot lots, playgrounds, picnic area, and hard surface game courts.

Open Space - Approximately 317 acres of the SVSP are proposed as Open Space, comprising approximately 15 percent of the total project site acreage. Open Space land use and zoning is generally applied to lands that are environmentally sensitive or otherwise significant due to habitat, natural features, or man-made features. Open space corridors provide for passive recreation opportunities, preservation of significant resources, viewsheds, potential floodwater conveyance and retention, resource mitigation, wildlife

movement corridors, and can function to improve the interface between uses. In many locations, the preserve area accommodates a dedicated Class I pedestrian pathway to be shared with a vehicle maintenance road for maintenance activities. In addition, open space areas could accommodate utility lines and provide the conduit for drainage and space for storm water treatment and detention facilities within the SVSP area. Any disturbance or construction within open space preserve areas of the SVSP would comply with the provisions of the Army Corps of Engineers approved Open Space Management Plan and Section 404 permit requirements.

Land Use Plan. The SVSP land use plan includes a blend of residential, service, employment, open space and public uses. The SVSP area is statistically projected to house approximately 22,045 residents and in excess of 9,000 employees. The SVSP includes a total of 8,679 dwelling units on approximately 2,064 gross acres. Proposed land uses include a total of approximately 317 acres set aside in open space; 106 acres for dedication to parks; 71 acres of public/quasi-public uses; 190 acres of community commercial; 27 acres of business professional; and 41 acres of commercial mixed use.

THE DISTRICT

Location and Description of the District and the Immediate Area

General. John Mourier Construction, Inc. (referred to herein as “JMC Homes”) is developing approximately 115 acres of property into 678 residential units, within the current boundary of the District. The District is located in the SVSP area, which is in the northwest portion of the City. Property in the District is within the Center Joint Unified School District. The property was annexed into the City in 2010 when the property was owned by Mourier Investments, LLC (“MILLC”), an investment affiliate of JMC Homes. Areas of future annexation into the District are currently owned by MILLC and consist of approximately 562 acres of property. The land owned by JMC Homes and MILLC in the SVSP area is generally level topography, currently with large open annual grassland areas. The SVSP has targeted a majority of the creek corridors, and a portion of the seasonal wetlands, for preservation in permanent open space. High-voltage power lines run adjacent to certain land in the District. See “THE SIERRA VISTA SPECIFIC PLAN” above.

Map. A map showing the entire project, including both the initial boundary of the District and the areas in the Future Annexation Area, is shown on the following page. The pages following thereafter provide aerial overviews of portions of land within the District; the aerials do not show all of the property in the District.

[Reserved for boundary map]

[Aerial map #1]

[Aerial map #2]

Entitlements and Development

JMC Homes has provided the following information with respect to entitlements and current and anticipated development of land in the District. No assurance can be given that all information is complete. No assurance can be given that development of land in the District will be completed, or that it will be completed in a timely manner. Since the ownership of the parcels is subject to change, the development plans outlined below may not be continued by the subsequent owner if the parcels are sold, although development by any subsequent owner will be subject to the SVSP, the Development Agreements described herein and the policies and requirements of the City. No assurance can be given that the plans or projections detailed below will actually occur.

Overview. As noted above, development within the current District boundary is anticipated by JMC Homes to be consistent with the SVSP land uses, which primarily consist of low-density and medium-density residential neighborhoods. Permitted land uses are configured to reinforce the neighborhood identity and sense of community. See “THE SIERRA VISTA SPECIFIC PLAN” above.

MILLC and JMC Homes currently own approximately 677 acres in the SVSP area, which is approved for development in the SVSP for 2,839 residential units and 25.3 acres of non-residential (retail/office) uses. Property currently in the District and subject to the Special Tax comprises approximately 115 acres planned for 678 residential homes. This includes 73 acres planned for 395 residential homes in the original boundary of the District, plus 42 acres planned for 283 residential units that were annexed into the District in 2020 from the future annexation area. JMC Homes is a homebuilder and expects to build-out the entirety of the 678 residential units in the current boundary of the District over time. Further, JMC Homes has, with respect to the 283 residential units annexed to the District in 2020, and expects to continue in the future, purchase the property comprising the future annexation areas from MILLC, as market conditions warrant.

Entitlements. The entitlements permit a development proposal related to a particular parcel to proceed through tentative map subdivision and design-review permitting processes to final mapping provided the development application is in accord with the entitlements and the final map conditions. The land received full land use approval in 2010, including, but not limited to, approval of Specific Plan Zoning and Development Agreements, and subsequently received a Section 404 (wetlands) permit, California Water Board Section 401 Certification, and U.S. Fish and Wildlife Service Biological Opinion.

With respect to the 395 lots that were part of the initial District boundary, these lots received a grading permit and site improvement plans from the City in 2018 and 2019. Site development for these 395 lots commenced in May 2018 and concluded in April 2019 for JM-2A, JM-3A and JM-20A and in February 2020 for JM-4 with all of the improvements accepted by the City. With respect to the 283 lots that were annexed into the District boundary in 2020, these lots received a grading permit and site improvement plans from the City in 2020. Site development for these 283 lots commenced in May 2020 and is expected to be completed and accepted by the City in the first quarter of 2021.

Property currently within the District encompasses approximately 115 gross acres, planned for development into 678 residential units. Property in the Future Annexation Area encompasses approximately 561 gross acres, planned for development into an additional 2,161 residential units; these parcels are not currently in the District and are therefore not currently subject to the Special Tax securing the Bonds. JMC Homes anticipates annexing additional lots into the District every few years as market conditions warrant. JMC Homes expects that each annexation will contain a similar number of lots as the initial number of lots in the District. However, the timing of each annexation

and number of lots in each annexation may vary based on market conditions. Further, the City and JMC Homes could choose to create new community facilities districts or separate improvement areas for land within the Future Annexation Area.

The tables on the following page shows the entitlements for all of the land owned by MILLC and JMC Homes in the SVSP. Currently, only parcels JM-2A, JM-3A, JM-4 and JM-20A are located within the boundary of the District and subject to the Special Tax securing the Bonds.

Development Agreements

General. MILLC entered into Development Agreements, dated June 18, 2010 (“**Development Agreements**”) with the City in accordance with applicable state and local codes. The Development Agreements vest development rights, set forth infrastructure improvements and dedication requirements, secure the timing and methods for financing improvements, and specify other performance obligations as related to development in the Sierra Vista Specific Plan area. All of the property in the District is subject to the requirements of the Development Agreements as well as the SVSP. The Development Agreements were entered into in accordance with Sections 65864 through 65869.5 of the California Government Code, as implemented through Article V, Chapter 19.84 of the City’s Zoning Ordinance No. 802.

Development Agreements are the primary implementation tools for the SVSP and are intended to create a binding contract between the City and MILLC and their assigned successors in interest, which set forth the needed infrastructure improvements, park dedication requirements, timing and method for financing improvements and other specific performance obligations of the City and MILLC, including obligations related to development of the property in the District, with the terms, conditions, rules, regulations, entitlements, vested rights and other provisions relating to the development of the property in the District according to the SVSP entitlements. Included are provisions relating to infrastructure improvements, public dedication requirements, landscaping amenities and other obligations of the parties. The Development Agreements have a 30-year term, run with the property, and may be modified only by mutual consent of the City and landowner and in a manner consistent with the SVSP. With the Development Agreements in place, subject to compliance with the terms of the Development Agreements, construction of homes within the District may occur upon City approval of subdivision maps, satisfaction of certain design requirements and conditions of such maps and issuance of building permits.

Land use and development entitlements granted under the Development Agreements for property in the District are consistent with the SVSP as described under the caption “THE SIERRA VISTA SPECIFIC PLAN” and summarized above.

Improvements. The Development Agreements set forth the responsibility of MILLC and its successors (including JMC Homes) for a portion of the costs of certain public improvements required for its development within the SVSP, including an electric substation. The dedication of the electric substation site occurred on May 26, 2017, and [it is now fully functioning]. JMC Homes does not believe any of these improvements – including completion of the electric substation by the City – will impair its ability to timely obtain building permits.

Funding of the Improvements with the 2020 Bonds and Additional Bond proceeds will satisfy a portion, but not all, of the relevant obligations of the District for infrastructure improvements required by the Development Agreements. See Table 6 herein for a sources and uses table. The improvements not funded from the 2020 Bonds and Additional Bonds or Special Taxes are required to be funded by JMC Homes. See “THE IMPROVEMENTS” below.

No Affordable Units. There are no affordable unit requirements for the land in the current District boundary.

Environmental Matters

Flood Hazard Map Information. According to the Federal Emergency Management Agency’s flood insurance rate maps (Flood Area Panel Number 060243, with an effective date of

November 2, 2018), the developable portions of the property in the project area (including land in the District) are located within Flood Zone X, described as areas of minimal flooding (outside of the 100 and 500-year floodplains).

Wetland Conditions. According to the City's planning department, some jurisdictional wetlands will be affected by the development of the project, however the impact has been mitigated by the landowner. No additional environmental permits are required to be obtained.

Seismic Conditions. The property expected to be developed as part of the project (including land in the District) is not located within a seismic special studies zone, designated by the California State Division of Mines and Geology, in accordance with the Alquist-Priolo Special Study Zone Act of 1972.

OWNERSHIP OF PROPERTY WITHIN THE DISTRICT

Unpaid Special Taxes do not constitute a personal indebtedness of the owners of the property within the District. There is no assurance that the present property owners or any subsequent owners will have the ability to pay the Special Taxes or that, even if they have the ability, they will choose to pay the Special Taxes. An owner may elect to not pay the Special Taxes when due and cannot be legally compelled to do so. Neither the City nor any Bond Owner will have the ability at any time to seek payment directly from the owners of property within the District of the Special Tax or the principal or interest on the Bonds, or the ability to control who becomes a subsequent owner of any property within the District.

JMC Homes has provided the information set forth in this section entitled "OWNERSHIP OF PROPERTY WITHIN THE DISTRICT." No assurance can be given that all information is complete. In addition, any Internet addresses included below are for reference only, and the information on those Internet sites is not a part of this Official Statement or incorporated by reference into this Official Statement.

No assurance can be given that development of the property will be completed, or that it will be completed in a timely manner, as described herein. The Special Taxes are not personal obligations of JMC Homes or of any subsequent landowners; the Bonds are secured only by the Special Taxes and moneys available under the Fiscal Agent Agreement. See "SECURITY AND SOURCES OF PAYMENT FOR THE BONDS" and "SPECIAL RISK FACTORS" herein.

Current Property Owners in the District

As of April 21, 2020 (the date of value of the Appraisal), JMC Homes had 15 model homes built and open to the public. The model homes are located in JM-2A, JM-3A, JM-4 and JM-20A, within phase 1 of the development, but available to serve phase 1 and phase 2 production. Sales are currently underway within phase 1 of the development, and as of April 24, 2020, 191 homes have sold of which 114 have closed to individual homeowners. JMC Homes estimates that the last of the 395 homes planned for phase 1 of the development will be completed and sold to individual homeowners by January 2024, while the last of the 283 homes planned for phase 2 of the development will be completed and sold to individual homeowners by October 2023.

The following table shows ownership and value-to-lien ratios for parcels in the District as of April 21, 2020 (the Appraiser's date of value).

Table 2
City of Roseville
Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities)
Current Ownership in the District as of April 21, 2020

Ownership ⁽¹⁾ / Tax Status ⁽²⁾	No. of Parcels	No. of Units	Appraised Value ⁽²⁾	FY 2020-21 Maximum Facilities Tax	Projected FY 2020-21 Facilities Special Tax Levy ⁽⁵⁾ *	Allocable CFD Bonds ⁽⁶⁾⁽⁷⁾ *	% of Total CFD Bonds ⁽⁷⁾	Overlapping Debt ⁽⁸⁾	Total Direct & Overlapping Debt *	Average Value to Lien Ratios *
Individual Homeowners – Developed	114	114	\$58,185,000	\$208,080	\$208,080	\$3,626,917	17.04%	\$31,211	\$3,658,128	15.91

* Preliminary, subject to change.

- (1) Ownership as of the April 21, 2020 inspection date of the Appraisal Report.
- (2) For the fiscal year 2020-21 Special Tax levy, Developed Parcels consist of all District parcels for which a Final Small Lot Subdivision Map was recorded before May 1, 2020 while Tentative Map Parcels consist of all parcels included in a Small Lot Tentative Map that was approved before May 1, 2020 and which have not yet become a Developed Parcel.
- (3) Planned number of residential lots per the District's Special Tax Formula.
- (4) Appraised Values as of April 21, 2020.
- (5) The Projected FY 2020-21 Special Tax Levy consists of the parcels within the original CFD boundary to be taxed at 100% of the Maximum Facilities Special Tax while the 283 entitled units within Annexation No. 1 expected to be taxed at a Special Tax rate of 85%* of the Maximum Facilities Special Tax.
- (6) Represents the outstanding balance of \$12,540,000 of the 2019 Bonds and the estimated par amount of \$8,750,000* of the 2020 Bonds.
- (7) This table allocates the CFD Debt based upon each parcel's share of the District's Maximum Facilities Special Tax.
- (8) Overlapping debt liens of the District parcels as of May 1, 2020 as summarized under the "Direct and Overlapping Tax and Assessment Debt" table in the overlapping debt report prepared by California Municipal Statistics, Inc. No direct charges related to PACE liens secured by Special Taxes were levied onto the District parcels in FY 2019-20; the existence of any PACE Liens would not be reflected in the overlapping debt report.
- (9) This ownership Includes one parcel owned by Mourier Investments LLC which consists of 69 tentatively approved MDR lots.
- (10) All taxable property within Annexation No. 1 is considered to be Tentative Map Parcels for the fiscal year 2020-21 Special Tax Levy.

Information Regarding JMC Homes

JMC Homes has been doing business in the greater Sacramento area as a homebuilder since 1978. It has averaged annual new homes sales volume in excess of \$110 million for the past five years and is currently ranked as the 100th largest homebuilder by *Professional Builder* magazine. It is currently building and selling homes in Roseville, Rocklin, Lincoln and Marysville in the Sacramento area. *JMC Homes' website address is <http://www.jmchomes.com>. The website address is given for reference and convenience only, the information on the website may be incomplete or inaccurate and has not been reviewed by the City or the Underwriter. Nothing on the website is a part of this Official Statement or incorporated into this Official Statement by reference.*

Current and Proposed Development by JMC Homes

Overview. As noted above, development within the initial District boundary has so far been, and is anticipated by JMC Homes to continue to be, consistent with the SVSP land uses, which primarily consist of low-density residential neighborhoods. Permitted land uses are configured to reinforce the neighborhood identity and sense of community. See "THE SIERRA VISTA SPECIFIC PLAN" above.

Subdivision Maps. The current configuration of parcels in the District, together with final map status, is set forth in the following table.

Table 3

Source: JMC Homes.

In-Tract Improvements. In addition to the Improvements described below, subdivision in-tract improvements have been underway at the project since 2018. With respect to the 395 units planned for phase 1, in-tract improvements for all phase 1 are now complete. With respect to the 283 units planned for phase 2, in-tract improvements for phase 2 began in May 2020 and are expected to be complete in [month, year].

Backbone Infrastructure. With respect to the 395 units planned for phase 1, JMC Homes completed all basic (sometimes referred to as "backbone") infrastructure required for development

of the initial 395 homes in the District (including major roads and offsite improvements), and was accepted by the City on May 17, 2019.

With respect to the 283 units planned for phase 2, JMC Homes is utilizing much of the same backbone improvements that serve the 395 units in phase 1. Additional backbone infrastructure to be built as part of phase 2 consists of a portion of Vista Grande Boulevard, which will be completed in 2020.

Upon completion of various components of such infrastructure, JMC Homes is eligible to be reimbursed for the cost thereof from proceeds of the Bonds as provided in an acquisition agreement entered into with the City, provided such proceeds are available.

JMC Homes is responsible for the cost of construction of the infrastructure improvements and other costs required for the initial District boundary and the Future Annexation Area. Proceeds of the Bonds and any additional bonds will provide a portion of the cost of improvements and the remainder will be contributed by JMC Homes. See “THE IMPROVEMENTS – Estimated Cost of the Improvements”. Bonds for the District are expected to be issued on a parity with the 2020 Bonds and 2019 Bonds in multiple series as development progresses and annexation of land into the District occurs. The pace of home construction in the District will be determined by JMC Homes, largely by market conditions and demand for homes.

Utilities. All typical urban utility services for finished lots are available at the lots or will be extended to the lots within the District. These utilities include electric power, natural gas, telephone, cable television, water, refuse, and sanitary sewer and storm water facilities. The City provides electric, water, sewer refuse and storm water facilities, and police and fire services. Pacific Gas & Electric provides natural gas.

Model Homes and Production Homes. As of April 21, 2020 (the date of value of the Appraisal), JMC Homes had 15 model homes built and open to the public. The model homes are located in JM-2A, JM-3A, JM-4 and JM-20A, within phase 1 of the development, but available to serve phase 1 and phase 2 production. Sales are currently underway within phase 1 of the development, and as of May 31, 2020, 103 homes have sold to individual homeowners and 122 in escrow, 50 of which are expected to close by August 1, 2020. JMC Homes estimates that the last of the 395 homes planned for phase 1 of the development will be completed and sold to individual homeowners by January 2024, while the last of the 283 homes planned for phase 2 of the development will be completed and sold to individual homeowners by October 2023.

However, no assurance can be given that such timing will be accomplished, particularly in light of the current impact of COVID-19 on home production and home sales activities or the willingness of owners of land in the District, including JMC Homes, to pay the Special Taxes securing the 2020 Bonds. See “SPECIAL RISK FACTORS – COVID-19.”

Planned Home Sale Plans and Sizes. The following table sets forth JMC Homes’ current expectations with respect to floorplans, sizes and asking base prices for the 678 homes planned for the land currently in the District (phase 1 and phase 2). Base sales prices are subject to change and exclude options, upgrades, lot premiums and any incentives or price reductions being offered. There can be no assurance that sales prices of the remaining homes in the future annexation areas will equal or exceed the sales prices for the homes in the current District boundary.

Table 4

City of Roseville
Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities)
Planned Home Sale Plans, Sizes and Asking Base Prices

INITIAL BOUNDARY (395 LOTS) – Phase 1

Village	No. of Lots	Completed Models ⁽¹⁾	Project Floorplans	Floorplan Size Range (sf)		Asking Base Prices ⁽²⁾
				Low	High	
Palisade	88	4	8	1,343	2,341	\$399,990 – \$519,990

Between June 1, 2020 and _____, 2020, JMC Homes closed escrow on _____ homes to individual purchasers. During that time, there were _____ sale contracts entered into and _____ cancellations for a total of _____ net sale contracts.

THE IMPROVEMENTS

Eligible Facilities

The Bonds will provide a funding source to JMC Homes for moneys expended for a portion of the cost of the Improvements and for certain JMC Homes fees paid or to be paid by JMC Homes. The eligible Improvements authorized to be funded with proceeds of the Bonds include, but are not limited to, the following:

Transportation Improvements. Public roadway improvements designed to meet the needs of the project, including those improvements identified in the Development Agreement, including but not limited to:

- Federico Drive.
- Fiddymment Road.
- Market Street.
- Santucci Boulevard.
- Summerfaire Drive.
- Silver Spruce Drive.
- Sierra Glen Drive.
- Vista Park Drive.
- Vista Grande Boulevard.
- Westbrook Boulevard.

Eligible roadway improvements include the following items: acquisition of land and easements; roadway design; project management; geotechnical engineering, testing and observations, bridge crossings and culverts; clearing, grubbing, and demolition; grading, soil import/export, paving (including slurry seal), and decorative/enhanced pavement concrete or pavers; power pole relocations; joint trenches, underground utilities, and undergrounding of existing utilities; dry utilities and appurtenances; curbs, gutters, sidewalks, bike trails (including on- and off-site), park and ride facilities, bus rapid transit improvements, including transfer stations and regional public transit improvements; retaining walls, sound walls, enhanced fencing, and access ramps; street lights, signalization, and traffic signal control systems; bus turnouts; signs and striping; erosion control; median and parkway landscaping and irrigation; entry monumentation; bus shelters; masonry walls; traffic control and agency fees; and other improvements related thereto. Eligible improvements for the roads listed above also include any and all necessary underground potable and non-potable water, sanitary sewer, and storm drainage system improvements.

Potable and Non-Potable Water System Improvements. Authorized facilities include any and all on- and off-site backbone water facilities designed to meet the needs of development of the project. These facilities include potable and non-potable mains, valves, services, and appurtenances; wells; and water treatment and storage facilities, and related improvements, including but not limited to: site clearing, grading, and paving; curbs and gutters; recycled water storage tanks, booster pump stations, and all appurtenances thereto; wells; water treatment; stand-by generator; site lighting, drainage, sanitary sewer, and water service; landscaping and irrigation; access gates and fencing; striping and signage; among others.

Drainage System Improvements. Authorized facilities include any and all on- and off-site backbone drainage and storm drainage improvements designed to meet the needs of development of the project. These facilities include mains, pipelines and appurtenances, outfalls and water quality

measures, temporary drainage facilities, detention/retention basins, and drainage pretreatment facilities; drainage ways/channels, pump stations, landscaping, and irrigation; access roads, gates, and fencing; striping and signage, among others.

Wastewater System Improvements. Authorized facilities include any and all on- and off-site backbone wastewater facilities designed to meet the needs of development of the project. These facilities include pipelines and all appurtenances thereto; manholes; tie-in to existing main line; force mains; lift stations; odor-control facilities; sewer treatment plant improvements and permitting related thereto; and related sewer system improvements, among others.

Solid Waste Improvements. Authorized facilities include any and all backbone solid waste improvements designed to meet the needs of development of the project. Eligible improvements also include the project's pro-rata contribution, as described in the project DA, to the SVSP Solid Waste Recycling Center.

Park, Landscape Corridor and Paseo Improvements. Authorized facilities include any and all improvements to parks, landscape corridors and paseos located in the project, including but not limited to construction of Park Sites as identified by the Specific Plan, and construction of Paseos as identified by the SVSP.

Open Space Improvements. Authorized facilities include any and all open space improvements designed to meet the needs of development of the project, including bike trails, bike/pedestrian bridges, storm drain crossings, storm drain detention/retention, wetland mitigation, tree mitigation, on- and off-site hawk/raptor mitigation, agricultural mitigation or wetland mitigation, property acquisition, endowment payments for open space management, landscaping and irrigation, access gates and fencing, and related open space improvements, among others.

Utilities. Authorized facilities include any and all on- and off-site utility improvements designed to meet the needs of development of the project. All utility improvements, easement payments, and land acquisition not located under or alongside transportation improvements are considered authorized facilities. Authorized facilities also shall include costs related to the acquisition of the off-site electric substation site; site clearing; grading; street frontage improvements, including curbs, gutters, and paving; and construction of an all-weather access road to the site from the nearest public street or extension of temporary 12kV overhead lines as described in the project DA, among others.

Other Public Facilities and Impact Fees. Authorized facilities includes any and all public facilities or infrastructure, including the project's pro-rata contribution to the land acquisition of the off-site fire station site, site clearing, grading, and street frontage improvements including curbs, gutters, and paving, including fire station site reimbursement obligations in the Development Agreement. Authorized facilities also include development impact fees paid and not otherwise reimbursed, whether standard City or County fees levied at the time of the issuance of a building permit or required as part of the DA for the property. Fees include, but are not limited to, the South Placer Regional Transportation Authority Tier II Traffic Fee, City of Roseville City Wide Park Fee, City of Roseville Public Facilities Fee, and Public Benefit Fee.

Estimated Cost of the Improvements

General. The total estimated cost of the Improvements for the land currently within the District (678 units) is approximately \$79.8 million, as shown in the table below. The 2019 Bonds provided \$12.4 million of proceeds for the Improvements, while the 2020 Bonds are expected to provide an additional approximately \$___ million*. Additional infrastructure will be required for areas of future annexation and Additional Bonds are expected to be sold in the future.

Table 5
City of Roseville
Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities)
Summary of Partial Authorized Facilities and Estimated Cost in Current District Boundary

Item	Estimated Total Cost ⁽¹⁾
Transportation Improvements	\$9,643,222
Potable and Non-Potable Water System Improvements	2,425,164
Drainage System Improvements	3,810,002
Wastewater System Improvements	3,671,763
Parks, Landscape Corridor and Paseo Improvements	3,727,127
Open Space Improvements	5,802,951
Utilities	3,092,339
Other Public Facilities and Impact Fees	47,642,423
Total	\$79,814,990

(1) Includes soft cost and contingency.

Source: JMC Homes.

Funding Sources. In connection with the issuance of the 2019 Bonds, the City and JMC Homes have entered into a Funding, Construction and Acquisition Agreement (the “**Acquisition Agreement**”) which provides that JMC Homes will construct (or cause to be constructed or funded) the Improvements and related facilities, and the City, upon completion of construction and acceptance by the City, or through progress payments prior to completion of the entire improvement, will purchase the Improvements or reimburse JMC Homes for expended amounts using a portion of the proceeds of the Bonds pursuant to the terms of the Acquisition Agreement. JMC Homes will be responsible for the portion of the cost of construction of the Improvements not paid with Bonds.

* Preliminary; subject to change.

The following table shows estimated sources and uses for JMC Homes related to the development and sale of the 678 homes planned for phase 1 and phase 2 in the District.

2019-20	\$6,582,845	--	\$6,582,845	N/A
2020-21		available approx July 13		available approx July 13

Source: Assessed Values - Respective Placer County Secured Property Rolls as compiled by Willdan Financial Services.

The Appraisal

General. Integra Realty Resources, Sacramento, California (the “**Appraiser**”) prepared an appraisal report with a date of value of April 21, 2020 (the “**Appraisal**”). The Appraisal was prepared at the request of the City in order to obtain an additional indication of value of land in the District. The Appraisal is set forth in APPENDIX B hereto. The description herein of the Appraisal is intended for limited purposes only; the Appraisal should be read in its entirety. The conclusions reached in the Appraisal are subject to certain assumptions and qualifications which are set forth in the Appraisal.

Property Appraised. The appraised properties consist of all of the taxable property currently in the District, which is owned by JMC Homes and individual homeowners, and planned for development into 678 single-family residential units. For completed homes that did not have an structural assessed value on the property tax roll, the Appraiser provided a not-less-than value per completed home, based on the smallest floor plan within the applicable subdivision.

Value Estimates. The Appraisal provides a market value, in bulk, of 547 lots that are part of appraised property owned by JMC Homes, a not-less-than value for completed homes owned by individual homeowners and an appraised value for finished homes owned by JMC Homes as of the date of value (based on the hypothetical condition the improvements to be financed by the 2020 Bonds and 2019 Bonds were in place as of the date of valuation). The valuation accounts for the impact of the lien of the Special Tax and represents the hypothetical market value (based on the hypothetical condition) of all the land in the District. The property appraised excludes property in the District designated for public and quasi-public purposes.

The aggregate value estimate for the appraised properties as of the April 21, 2020 date of value, using the methodologies described in the Appraisal and subject to the limiting conditions and special assumptions set forth in the Appraisal, and based on the ownership of the property as of that date, is not less than \$124,108,750.

This aggregate appraised value is further described as follows:

<u>Owner/Subdivision</u>	<u>Value per Parcel</u>	<u>No. of Parcels</u>	<u>Aggregate Value</u>
<u>Individual Homeowners – Completed Homes⁽¹⁾</u>			
Monument	\$495,000	37	\$18,315,000

Pinnacle	532,000	6	3,192,000
Sentinel	489,250	<u>3</u>	<u>1,467,750</u>
Sub-Total		17	\$8,193,750
<u>JMC Homes – Market Value in Bulk (547 Lots)</u>			\$57,730,000
Aggregate Value of Appraised Properties			\$124,108,750

(1) Represents not-less-than value, based on the smallest floor plan within each applicable subdivision.

Hypothetical Condition. *The value estimate is subject to a hypothetical condition, defined as that which is contrary to what exists but is supposed for the purposes of analysis. For purposes of the hypothetical condition, the Appraiser assumed that certain proceeds of the 2020 Bonds are available to reimburse for infrastructure improvements completed.*

Assumptions and Limiting Conditions. In considering the estimate of value evidenced by the Appraisal, the Appraisal is based upon a number of standard and special assumptions which affect the estimates as to value, some of which include the following. See “APPENDIX B – THE APPRAISAL.”

- The value estimates assume certain proceeds from the 2020 Bonds and 2019 Bonds (but not any Additional Bonds that may be issued in the future) are available to reimburse for certain completed infrastructure improvements and accounts for the impact of the lien of the Special Tax and adds the estimated bond amount to the value of property. See “THE IMPROVEMENTS.”

- The Appraiser has assumed that there is no hazardous material on or in the property that would cause a loss in value. Should future conditions and events reduce the level of permitted development or delay the completion of any projected development, the value of the undeveloped land would likely be reduced from that estimated by the Appraiser. See “APPENDIX B – THE APPRAISAL” hereto for a description of certain assumptions made by the Appraiser. Accordingly, because the Appraiser arrived at an estimate of current market value based upon certain assumptions which may or may not be fulfilled, no assurance can be given that should the parcels become delinquent due to unpaid Special Taxes, and be foreclosed upon and offered for sale for the amount of the delinquency, that any bid would be received for such property or, if a bid is received, that such bid would be sufficient to pay such delinquent Special Taxes.

Exposure Time. Exposure time is the length of time the subject property would have been exposed for sale in the market had it sold on the effective valuation date at the concluded market value. Exposure time is always presumed to precede the effective date of the Appraisal. Based on the Appraiser’s review of recent sales transactions for similar properties and its analysis of supply and demand in the local land market, the Appraiser’s opinion was that the probable exposure time for the appraised property at the concluded market value stated previously is 12 months.

Marketing Time. Marketing time is an estimate of the amount of time it might take to sell a property at the concluded market value immediately following the effective date of value. As the Appraiser foresees no significant changes in market conditions in the near term, the Appraiser's opinion was that a reasonable marketing period for the appraised property in bulk is likely to be the same as the exposure time. Accordingly, the Appraiser estimated the marketing period at 12 months.

No assurance can be given that a sale of the property in bulk by JMC Homes could be achieved or attained over an extended period of time; real estate is cyclical in nature, and it is impossible to accurately forecast and project specific demand over a particular period. See "SPECIAL RISK FACTORS – Property Values and Property Development."

Limitations of Appraisal Valuation. Property values may not be evenly distributed throughout the District; thus, certain parcels may have a greater value than others. This disparity is significant because in the event of nonpayment of the Special Tax, the only remedy is to foreclose against the delinquent parcel.

No assurance can be given that the foregoing valuation can or will be maintained during the period of time that the 2020 Bonds are outstanding in that the City has no control over the market value of the property within the District or the amount of additional indebtedness that may be issued in the future by other public agencies, the payment of which, through the levy of a tax or an assessment, may be on a parity with the Special Taxes. See "–Overlapping Liens and Priority of Lien" below.

For a description of certain risks that might affect the assumptions made in the Appraisal, see "SPECIAL RISK FACTORS" herein.

Value to Special Tax Burden Ratios

In comparing the value of the real property within the District and the principal amount of the Bonds, it should be noted that only the real property upon which there is a delinquent Special Tax can be foreclosed upon, and the real property within the District cannot be foreclosed upon as a whole to pay delinquent Special Taxes of the owners of such parcels within the District unless all of the property is subject to a delinquent Special Tax. In any event, individual parcels may be foreclosed upon separately to pay delinquent Special Taxes levied against such parcels.

Other public agencies whose boundaries overlap those of the District could, without the consent of the City and in certain cases without the consent of the owners of the land within the District, impose additional taxes or assessment liens on the land within the District. Property owners can also voluntarily add Property Assessed Clean Energy (PACE) assessment liens on their property to finance energy efficiency improvements. The lien created on the land within the District through the levy of such additional taxes or assessments may be on a parity with the lien of the Special Tax. In addition, construction loans may be obtained by JMC Homes or home loans may be obtained by ultimate homeowners. The deeds of trust securing such debt on property within the District, however, will be subordinate to the lien of the Special Tax.

Appraised Value to Lien Ratios by Development Status and Land Use. The following table sets forth appraised value, maximum special tax, allocable District debt, and average value to lien ratios by status of development, based on the status of development in the District as of April 21, 2020 (the Appraiser's date of value), and on assumptions detailed therein.

Footnotes Follow on Next Page

* Preliminary, subject to change.

- (1) Status of home construction as of April 21, 2020 per Appraiser.
- (2) Status of subdivision lot recordation as of May 1, 2020 per JMC Homes.
- (3) Land use per the District's Special Tax Formula.
- (4) Planned number of residential lots per the District's Special Tax Formula.
- (5) Appraised Values as of April 21, 2020, includes bulk values for each development status category under Homes Partially Completed, Final Map Lots and Tentative Map Lots.
- (6) The Projected FY 2020-21 Special Tax Levy consists of the parcels within the original CFD boundary to be taxed at 100% of the Maximum Facilities Special Tax while the 283 entitled units within Annexation No. 1 expected to be taxed at a Special Tax rate of 85%* of the Maximum Facilities Special Tax.
- (7) Represents the outstanding balance of \$12,540,000 of the 2019 Bonds and the preliminary par amount of \$8,750,000* of the 2020 Bonds. This table allocates the CFD Debt upon each parcel's Maximum Facilities Special Tax..
- (8) The overlapping debt liens of the District parcels as of May 1, 2020 as summarized under "Direct and Overlapping Tax and Assessment Debt" table in the overlapping debt report prepared by California Municipal Statistics, Inc. No direct charges related to PACE liens secured by Special Taxes were levied onto the District parcels in FY 2019-20; the existence of any PACE Liens would not be reflected in the overlapping debt report.
- (9) Represents homes sold to individual homeowners as of April 21, 2020 per Appraiser.
- (10) A partially completed home represents a single-family lot upon which a building permit has been issued together with substantial construction towards the completion of the structure's footings or more.
- (11) Represents all property within the District's Annexation No. 1.
- (12) All of the Annexation No. 1 territory was approved tentative map property at the time of the appraisal but all 139 of the LDR lots and 79 of the 144 MDR lots within the Annexation No.1 were converted to final lots upon the recordation of the subdivision maps on May 4, 2020.

Appraised Value to Lien Ratio Categories. The appraised value of all taxable property within the District is \$124,108,750. The principal amount of direct and overlapping bonded debt in the District (including the 2020 Bonds and 2019 Bonds) is \$21,465,794*. Consequently, the estimated value of the taxable property within the District is approximately 5.78* times the principal amount of the direct and overlapping bonded debt. The following table sets forth the appraised value, maximum special tax, projected special tax levy tax and allocable District debt by value to lien ratio range categories.

Overlapping Liens and Priority of Lien

The principal of and interest on the Bonds are payable from the Special Tax authorized to be collected within the District, and payment of the Special Tax is secured by a lien on certain real property within the District. Such lien is co-equal to and independent of the lien for general taxes and any other liens imposed under the Act, regardless of when they are imposed on the property in the District. The imposition of additional special taxes, assessments and general property taxes will increase the amount of independent and co-equal liens which must be satisfied in foreclosure. The City, the County and certain other public agencies are authorized by the Act to form other community facilities districts and improvement areas and, under other provisions of State law, to form special assessment districts, either or both of which could include all or a portion of the land within the District.

Set forth below is an overlapping debt table showing the existing direct and overlapping bonded debt payable with respect to property within the District. This table has been prepared by California Municipal Statistics Inc. as of the date indicated, and is included for general information purposes only. The City has not reviewed the data for completeness or accuracy and makes no representations in connection therewith. In addition to bonded debt, property in the District is also subject to special taxes authorized to be levied on behalf of the City's Sierra Vista Community Facilities District No. 2 (Public Services) and Community Facilities District No. 3 (Municipal Services) for municipal services, which districts provide for escalating annual special taxes on residential property. The Fiscal Year 2020-21 annual amount is \$352.63 per lot (low density and medium density) for CFD No. 2 and the Fiscal Year 2019-20 amounts are \$456.66 per lot (low density)/\$267.05 per lot (medium density) for CFD No. 3; the CFD No. 3 tax rates are subject to annual escalation up to 4% depending on the City's public safety budget each year.

There can be no assurance that JMC Homes, its affiliates or any subsequent owner will not petition for the formation of other community facilities districts and improvement areas or for a special assessment district or districts and that parity special taxes or special assessments will not be levied by the County or some other public agency to finance additional public facilities; however, no other special districts are currently contemplated by the City or JMC Homes.

Private liens, such as deeds of trust securing loans obtained by JMC Homes, may be placed upon property in the District at any time. Under California law, the Special Taxes have priority over all existing and future private liens imposed on property subject to the lien of the Special Taxes.

Estimated Tax Burden on Single-Family Home

Based on current and estimated sales prices for the smallest floorplan for MDR and LDR homes provided by JMC Homes being planned for the first 678 homes in the District (phase 1 and phase 2 of the development), the Special Tax Administrator has projected that the overall tax burden for the smallest floorplan homes planned for the District will be approximately 1.75% and 1.72%, respectively, as shown in the following table. The projected overall tax burden for larger floorplan homes is expected to be smaller, as a percentage of the projected assessed value of the homes.

SPECIAL RISK FACTORS

The purchase of the 2020 Bonds described in this Official Statement involves a degree of risk that may not be appropriate for some investors. The following includes a discussion of some of the risks that should be considered before making an investment decision.

Limited Obligation of the City to Pay Debt Service

The City has no obligation to pay principal of and interest on the 2020 Bonds in the event Special Tax collections are delinquent, other than from amounts, if any, on deposit in the Reserve Fund or funds derived from the tax sale or foreclosure and sale of parcels on which levies of the Special Tax are delinquent, nor is the City obligated to advance funds to pay such debt service on the 2020 Bonds. The 2020 Bonds are not general obligations of the City but are limited obligations of the City and the District payable solely from the proceeds of the Special Tax and certain funds held under the Fiscal Agent Agreement, including amounts deposited in the Reserve Fund and investment income thereon, and the proceeds, if any, from the sale of property in the event of a foreclosure. See “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS.” Any tax for the payment of the 2020 Bonds will be limited to the Special Tax to be collected within the jurisdiction of the District.

Concentration of Ownership

Land in the District is mostly owned by a single entity, JMC Homes. Owners of property are not personally obligated to pay the Special Tax attributable to their property. Rather, the Special Tax is an obligation only against the parcel of property, secured by the amount which could be realized in a foreclosure proceeding against the property, and not by any promise of the owner to pay. If the value of the property is not sufficient, taking into account other obligations also constituting a lien against the property, the City, Fiscal Agent and owners of the 2020 Bonds have no recourse against the owner, such as filing a lawsuit to collect money.

Failure of JMC Homes or any future owner of significant property subject to the Special Taxes in the District to pay installments of Special Taxes when due could cause the depletion of the Reserve Fund prior to reimbursement from the resale of foreclosed property or payment of the delinquent Special Tax and, consequently, result in the delinquency rate reaching a level that would cause an insufficiency in collection of the Special Tax to meet the District’s obligations on the 2020 Bonds. For a description of JMC Homes, see “OWNERSHIP OF PROPERTY WITHIN THE DISTRICT.” In that event, there could be a delay or failure in payments on the 2020 Bonds. See “– Bankruptcy and Foreclosure Delays” below and “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Delinquent Payments of Special Tax; Covenant for Superior Court Foreclosure.”

Appraised Values

The Appraisal summarized in APPENDIX B estimates the market value of the taxable property within the District. This market value is merely the present opinion of the Appraiser, and is subject to the assumptions and limiting conditions stated in the Appraisal. The City has not sought the present opinion of any other appraiser of the value of the taxed parcels. A different present opinion of value might be rendered by a different appraiser.

The opinion of value relates to sale by a willing seller to a willing buyer as of the date of valuation, each having similar information and neither being forced by other circumstances to sell or

to buy. Consequently, the opinion is of limited use in predicting the selling price at a foreclosure sale, because the sale is forced and the buyer may not have the benefit of full information.

In considering the estimates of value evidenced by the appraisal, it should be noted that the appraisal is based upon a number of standard and special assumptions which affect the estimates as to value, in addition to hypothetical conditions, as set forth in the Appraisal (see APPENDIX B hereto). The improvements to be financed by the 2020 Bonds were not in place as of the date of inspection; thus, the value estimate is subject to a hypothetical condition (of such improvements being in place)

In addition, the opinion is a present opinion. It is based upon present facts and circumstances. Differing facts and circumstances may lead to differing opinions of value. The appraised market value is not evidence of future value because future facts and circumstances may differ significantly from the present.

No assurance can be given that any of the appraised property in the District could be sold in a foreclosure for the estimated market value contained in the Appraisal. Such sale is the primary remedy available to Bondowners if that property should become delinquent in the payment of Special Taxes.

Property Values and Property Development

The value of Taxable Parcels within the District is a critical factor in determining the investment quality of the 2020 Bonds. If a property owner defaults in the payment of the Special Tax, the District's only remedy is to foreclose on the delinquent property in an attempt to obtain funds with which to pay the delinquent Special Tax. Land development and land values could be adversely affected by economic and other factors beyond the City's control, such as: a general economic downturn; adverse judgments in future litigation that could affect the scope, timing or viability of development; relocation of employers out of the area; stricter land use regulations; shortages of water, electricity, natural gas or other utilities; destruction of property caused by earthquake, flood or other natural disasters; environmental pollution or contamination.

The Appraisal information included as APPENDIX B sets forth certain assumptions of the Appraiser in estimating the market value of the property within the District as of the date indicated. No assurance can be given that the land values are accurate if these assumptions are incorrect or that the values will not decline in the future if one or more events, such as natural disasters or adverse economic conditions, occur. See "Appraised Values" above.

Neither the District, the Underwriter, nor the City has evaluated development risks. Since these are largely business risks of the type that property owners customarily evaluate individually, and inasmuch as changes in land ownership may well mean changes in the evaluation with respect to any particular parcel, the District is issuing the 2020 Bonds without regard to any such evaluation. Thus, the creation of the District and the issuance of the 2020 Bonds in no way implies that the District, the Underwriter, or the City has evaluated these risks or the reasonableness of these risks.

The following is a discussion of specific risk factors that could affect the timing or scope of property development in the District or the value of property in the District.

Land Development. Land values are influenced by the level of development in the area in many respects.

First, undeveloped or partially developed land is generally less valuable than developed land and provides less security to the owners of the 2020 Bonds should it be necessary for the District to foreclose on undeveloped or partially developed property due to the nonpayment of Special Taxes.

Second, failure to complete development on a timely basis could adversely affect the land values of those parcels that have been completed. Lower land values would result in less security for the payment of principal of and interest on the 2020 Bonds and lower proceeds from any foreclosure sale necessitated by delinquencies in the payment of the Special Tax. See "VALUE OF PROPERTY WITHIN THE DISTRICT – Value to Special Tax Burden Ratios." No assurance can be given that the proposed development within the District will be completed, and in assessing the investment quality of the 2020 Bonds, prospective purchasers should evaluate the risks of noncompletion.

JMC Homes provides no assurances to the City that the project will be developed or that sources of financing that will actually be available will be sufficient to complete the currently projected development. JMC Homes has no obligation to the City or to owners of the 2020 Bonds to complete the project.

Risks of Real Estate Investment Generally. Continuing development of land within the District may be adversely affected by changes in general or local economic conditions, fluctuations in the real estate market, increased construction costs, development, financing and marketing capabilities of individual property owners, water or electricity shortages, and other similar factors. Development in the District may also be affected by development in surrounding areas, which may compete with the District. In addition, land development operations are subject to comprehensive federal, state and local regulations, including environmental, land use, zoning and building requirements. There can be no assurance that proposed land development operations within the District will not be adversely affected by future government policies, including, but not limited to, governmental policies to restrict or control development, or future growth control initiatives. There can be no assurance that land development operations within the District will not be adversely affected by these risks.

Natural Disasters. The value of the parcels in the District in the future can be adversely affected by a variety of natural occurrences, particularly those that may affect infrastructure and other public improvements and private improvements on the parcels in the District and the continued habitability and enjoyment of such private improvements. For example, the areas in and surrounding the District, like those in much of California, may be subject to earthquakes or other unpredictable seismic activity, however, the District is not located in a seismic special studies zone.

Other natural disasters could include, without limitation, landslides, floods, droughts, wildfires or tornadoes. One or more natural disasters could occur and could result in damage to improvements of varying seriousness. Although the District is not in a high-risk area for landslides, floods, wildfires or tornadoes, natural disasters such as these are unpredictable and may occur anywhere throughout the State, with devastating consequences. The damage may entail significant repair or replacement costs and that repair or replacement may never occur either because of the cost, or because repair or replacement will not facilitate habitability or other use, or because other considerations preclude such repair or replacement. Under any of these circumstances there could be significant delinquencies in the payment of Special Taxes, and the value of the parcels may well depreciate.

Drought. California has been subject to droughts from time-to-time in the past. Although the City does not believe any future drought would impact development in the District, no assurances can be given in this regard.

The City employs a portfolio approach to its water supplies which includes the use of surface water, groundwater and recycled water. This portfolio approach is designed to provide a more reliable water supply. Surface water is the City's primary water supply which is delivered from the Folsom Reservoir under contracts with the Bureau of Reclamation and the Placer County Water Agency. The City also uses groundwater to supplement its surface water supplies during emergency and drought conditions. These ground water wells are designated to accommodate Aquifer Storage and Recovery (ASR). The City's ASR program allows for the storage of treated surface water in the groundwater basin through direct injection through the ASR wells. This water can be extracted later from the same wells for use during emergency or drought conditions. This water "banking" allows the City to use groundwater without significant impact to the ground water table when surface water supplies are limited. The City also uses recycled water generated from its wastewater treatment facilities for irrigation purposes in commercial landscaping, public rights-of way, parks and golf courses. The use of recycled water reduces the demand for treated water for these purposes and leaving more for domestic use. However, no assurance can be given that a future drought affecting homes in the District would not result in decreased values.

JMC Homes and the City indicate that the existing Development Agreement protects JMC Homes's ability to access water for the project through an agreed upon water allocation. Further, the City indicates it has adequate surface water and groundwater supplies to meet the allocation for all three phases of development in accordance with applicable law and regulations. However, in the event that the City's water supply is severely limited or cut off by virtue of future actions beyond its control resulting from ongoing or future drought conditions, development within the District may be delayed or even stopped. The Development Agreement provides that should the City need to restrict development it must do so City-wide and cannot single out the Villages at Sierra Vista property in restricting development activity. In turn, the anticipated diversity of land ownership within the District could also be reduced, making the owners of the 2020 Bonds more dependent upon JMC Homes's or other owners of undeveloped land timely payment of the Special Taxes levied on undeveloped property. Furthermore, such an increased period of concentrated ownership of undeveloped land increases the potential negative impact of any bankruptcy or other financial difficulties experienced by JMC Homes or successor owners. Any reduction or interruption in the water supply would also likely cause a reduction in the land value and thus a reduction in the security in the event of a need to foreclose on land within the District following a delinquency in the payment of Special Taxes.

Legal Requirements. Other events that may affect the value of a parcel include changes in the law or application of the law. Such changes may include, without limitation, local growth control initiatives, local utility connection moratoriums and local application of statewide tax and governmental spending limitation measures. Development in the District may also be adversely affected by the application of laws protecting endangered or threatened species.

Hazardous Substances. Any discovery of a hazardous substance detected on property within the District would affect the marketability and the value of some or all of the property in the District. In that event, the owners and operators of a parcel within the District may be required by law to remedy conditions of the parcel relating to releases or threatened releases of hazardous substances. The federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, sometimes referred to as "CERCLA" or the "Superfund Act," is the most well-known and widely applicable of these laws. California laws with regard to hazardous substances are also applicable to property within the District and are as stringent as the federal laws. Under many of

these laws, the owner (or operator) is obligated to remedy a hazardous substance condition of property whether or not the owner (or operator) has anything to do with creating or handling the hazardous substance. The effect, therefore, should any of the parcels be contaminated by a hazardous substance is to reduce the marketability and value of the parcel by the costs of remedying the condition, because the purchaser, upon becoming owner, will become obligated to remedy the condition just as is the seller.

The values set forth in the Appraisal do not take into account the possible reduction in marketability and value of any of the parcels within the District by reason of the possible liability of the owner (or operator) for the remedy of a hazardous substance condition on a parcel. Although the City is not aware that the owner (or operator) of any of the property within the District has a current liability for a hazardous substance with respect to any of the parcels, it is possible that such liabilities do currently exist and that the City is not aware of them.

Further, it is possible that liabilities may arise in the future with respect to any of the parcels within the District resulting from the existence, currently, on the parcel of a substance presently classified as hazardous but which has not been released or the release of which is not presently threatened, or may arise in the future resulting from the existence, currently, on the parcel of a substance not presently classified as hazardous but which may in the future be so classified. Further, such liabilities may arise not simply from the existence of a hazardous substance but from the method of handling it. All of these possibilities could significantly affect the value of a parcel within the District that is realizable upon a foreclosure sale.

Endangered and Threatened Species. It is illegal to harm or disturb any plants or animals in their habitat that have been listed as endangered species by the United States Fish & Wildlife Service under the Federal Endangered Species Act or by the California Fish & Game Commission under the California Endangered Species Act without a permit. Although JMC Homes believes that no federally listed endangered or threatened species would be affected by the proposed development within the District, other than any that are permitted by the entitlements already received (which allow for the impact of development and specify the mitigation required), the discovery of an endangered plant or animal could delay development of vacant property in the District or reduce the value of undeveloped property.

Levy and Collection of Special Taxes

General. The principal source of payment of principal of and interest on the 2020 Bonds is the proceeds of the annual levy and collection of the Special Tax against property within the District.

Limitation on Maximum Special Tax Rate. The annual levy of the Special Tax is subject to the Maximum Annual Facilities Special Tax rate authorized in the Special Tax Formula. The levy cannot be made at a higher rate even if the failure to do so means that the estimated proceeds of the levy and collection of the Special Tax, together with other available funds, will not be sufficient to pay debt service on the 2020 Bonds.

In addition to the Maximum Annual Facilities Special Tax rate limitation in the Special Tax Formula, Section 53321(d) of the Act provides that the special tax levied against any parcel for which an occupancy permit for private residential use has been issued may not be increased as a consequence of delinquency or default by the owner of any other parcel within a community facilities district by more than 10% above the amount that would have been levied in such Fiscal Year had there never been any such delinquencies or defaults. In cases of significant delinquency, these factors may result in defaults in the payment of principal of and interest on the 2020 Bonds.

No Relationship Between Property Value and Special Tax Levy. Because the Special Tax Formula is not based on property value, the levy of the Special Tax will rarely, if ever, result in a uniform relationship between the value of particular parcels of Taxable Property and the amount of the levy of the Special Tax against those parcels. Thus, there will rarely, if ever, be a uniform relationship between the value of the parcels of Taxable Property and their proportionate share of debt service on the 2020 Bonds, and certainly not a direct relationship.

Factors that Could Lead to Special Tax Deficiencies. The following are some of the factors that might cause the levy of the Special Tax on any particular parcel of Taxable Property to vary from the Special Tax that might otherwise be expected:

Transfers to Governmental Entities. The number of parcels of Taxable Property could be reduced through the acquisition of Taxable Property by a governmental entity and failure of the government to pay the Special Tax based upon a claim of exemption or, in the case of the federal government or an agency thereof, immunity from taxation, thereby resulting in an increased tax burden on the remaining taxed parcels.

Property Tax Delinquencies. Failure of the owners of Taxable Property to pay property taxes (and, consequently, the Special Tax), or delays in the collection of or inability to collect the Special Tax by tax sale or foreclosure and sale of the delinquent parcels, could result in a deficiency in the collection of Special Tax revenues. See “– Tax Delinquencies” below. There is currently no history of tax levies in the District.

Delays Following Special Tax Delinquencies and Foreclosure Sales. The Fiscal Agent Agreement generally provides that the Special Tax is to be collected in the same manner as ordinary *ad valorem* property taxes are collected and, except as provided in the special covenant for foreclosure described in “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Delinquent Payments of Special Tax; Covenant for Superior Court Foreclosure” and in the Act, is subject to the same penalties and the same procedure, sale and lien priority in case of delinquency as is provided for ordinary *ad valorem* property taxes. Under these procedures, if taxes are unpaid for a period of five years or more, the property is deeded to the State and then is subject to sale by the County.

If sales or foreclosures of property are necessary, there could be a delay in payments to owners of the 2020 Bonds pending such sales or the prosecution of foreclosure proceedings and receipt by the City of the proceeds of sale if the Reserve Fund is depleted. See “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Delinquent Payments of Special Tax; Covenant for Superior Court Foreclosure.”

The ability of the City to collect interest and penalties specified by State law and to foreclose against properties having delinquent Special Tax installments may be limited in certain respects with regard to properties in which the Federal Deposit Insurance Corporation (the “**FDIC**”) has or obtains an interest. The FDIC would obtain such an interest by taking over a financial institution that has made a loan that is secured by property within the District. See “– FDIC/Federal Government Interests in Properties” below.

Other laws generally affecting creditors’ rights or relating to judicial foreclosure may affect the ability to enforce payment of Special Taxes or the timing of enforcement of Special Taxes. For example, the Soldiers and Sailors Civil Relief Act of 1940 affords protections such as a stay in enforcement of the foreclosure covenant, a six-month period after termination of military service to

redeem property sold to enforce the collection of a tax or assessment and a limitation on the interest rate on the delinquent tax or assessment to persons in military service if the court concludes the ability to pay such taxes or assessments is materially affected by reason of such service.

FDIC/Federal Government Interests in Properties

General. The ability of the District to foreclose the lien of delinquent unpaid Special Tax installments may be limited with regard to properties in which the Federal Deposit Insurance Corporation (the “**FDIC**”), the Drug Enforcement Agency, the Internal Revenue Service, or other federal agency has or obtains an interest.

Federal courts have held that, based on the supremacy clause of the United States Constitution, in the absence of Congressional intent to the contrary, a state or local agency cannot foreclose to collect delinquent taxes or assessments if foreclosure would impair the federal government interest.

The supremacy clause of the United States Constitution reads as follows: “This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the contrary notwithstanding.”

This means that, unless Congress has otherwise provided, if a federal governmental entity owns a parcel that is subject to Special Taxes within the District but does not pay taxes and assessments levied on the parcel (including Special Taxes), the applicable state and local governments cannot foreclose on the parcel to collect the delinquent taxes and assessments.

Moreover, unless Congress has otherwise provided, if the federal government has a mortgage interest in the parcel and the District wishes to foreclose on the parcel as a result of delinquent Special Taxes, the property cannot be sold at a foreclosure sale unless it can be sold for an amount sufficient to pay delinquent taxes and assessments on parity with the Special Taxes and preserve the federal government’s mortgage interest. In *Rust v. Johnson* (9th Circuit; 1979) 597 F.2d 174, the United States Court of Appeal, Ninth Circuit held that the Federal National Mortgage Association (“**FNMA**”) is a federal instrumentality for purposes of this doctrine, and not a private entity, and that, as a result, an exercise of state power over a mortgage interest held by FNMA constitutes an exercise of state power over property of the United States.

Bankruptcy and Foreclosure Delays

The payment of the Special Tax and the ability of the District to foreclose the lien of a delinquent unpaid tax, as discussed in “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Delinquent Payments of Special Tax; Covenant for Superior Court Foreclosure,” may be limited by bankruptcy, insolvency or other laws generally affecting creditors’ rights or by the laws of the State of California relating to judicial foreclosure. The various legal opinions to be delivered concurrently with the delivery of the 2020 Bonds (including Bond Counsel’s approving legal opinion) will be qualified as to the enforceability of the various legal instruments by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors’ rights, by the application of equitable principles and by the exercise of judicial discretion in appropriate cases.

Although bankruptcy proceedings would not cause the Special Taxes to become extinguished, bankruptcy of a property owner could result in a delay in prosecuting superior court

foreclosure proceedings and could result in the possibility of delinquent Special Tax installments not being paid in full. Such a delay would increase the likelihood of a delay or default in payment of the principal of and interest on the 2020 Bonds. To the extent that property in the District continues to be owned by a limited number of property owners, the chances are increased that the Reserve Fund established for the 2020 Bonds could be fully depleted during any such delay in obtaining payment of delinquent Special Taxes. As a result, sufficient moneys would not be available in the Reserve Fund for transfer to the Bond Fund to make up shortfalls resulting from delinquent payments of the Special Tax and thereby to pay principal of and interest on the 2020 Bonds on a timely basis.

To the extent that bankruptcy or similar proceedings were to involve a large property owner, the chances would increase the likelihood that the Reserve Fund could be fully depleted during any resulting delay in receiving payment of delinquent Special Taxes. As a result, sufficient monies would not be available in the Reserve Fund for transfer to the Bond Fund to make up any shortfalls resulting from delinquent payments of the Special Tax and thereby to pay principal of and interest on the 2020 Bonds on a timely basis.

On July 30, 1992, the United States Court of Appeals for the Ninth Circuit issued its opinion in a bankruptcy case entitled *In re Glasply Marine Industries*. In that case, the court held that *ad valorem* property taxes levied by Snohomish County in the State of Washington after the date that the property owner filed a petition for bankruptcy were not entitled to priority over a secured creditor with a prior lien on that property. The court upheld the priority of unpaid *ad valorem* taxes imposed before the bankruptcy petition (the “pre-petition taxes”), but unpaid taxes imposed after the filing of the bankruptcy petition (“post-petition taxes”) were declared to be unsecured “administrative expenses” of the bankruptcy estate, and were therefore held to be payable from the bankruptcy estate only after payment of all secured creditors. As a result, the secured creditor of the property was able to foreclose on the property and retain all of the proceeds of the sale except for the amount of the pre-petition taxes.

According to the court’s ruling, as administrative expenses, post-petition taxes would have to be paid, but only if the debtor had sufficient assets not subject to other perfected security interests to do so. In certain circumstances, payment of such administrative expenses may also be allowed to be deferred. Once the property is transferred out of the bankruptcy estate (through foreclosure or otherwise) it would at that time again become subject to and would secure liens for then current and future *ad valorem* taxes.

Glasply was controlling precedent on bankruptcy courts in the State of California for several years subsequent to the date of the Ninth Circuit’s holding. Pursuant to state law, the lien date for general *ad valorem* property taxes levied in the State of California is the January 1 preceding the fiscal year for which the taxes are levied. Under the *Glasply* holding, a bankruptcy petition filing would have prevented the lien for general *ad valorem* property taxes levied in fiscal years subsequent to the filing of a bankruptcy petition from attaching and becoming a lien so long as the property was a part of the estate in bankruptcy. However, the *Glasply* holding was for the most part subsequently rendered inoperative with respect to the imposition of a lien for and the collection of *ad valorem* taxes by amendments to the federal Bankruptcy Code (Title 11 U.S.C.) which were part of the Bankruptcy Reform Act of 1994 (the “Bankruptcy Reform Act”) passed by Congress during the later part of 1994. The Bankruptcy Reform Act added a provision to the automatic stay section of the Bankruptcy Code which, pursuant to Section 362(b)(18) thereof, excepts from the Bankruptcy Code’s automatic stay provisions, “the creation of a statutory lien for an *ad valorem* property tax imposed by . . . a political subdivision of a state, if such tax comes due after the filing of the petition” by a debtor in bankruptcy court. The effect of this provision is to continue the secured interest of *ad*

valorem taxes on real property (i.e., post-petition taxes) in effect during the period following the filing of a bankruptcy petition, including during the period bankruptcy proceedings are pending.

Without further clarification by the courts or Congress, the original rationale of the *Glasply* holding could, however, still result in the treatment of post-petition special taxes as “administrative expenses,” rather than as tax liens secured by real property, at least during the pendency of bankruptcy proceedings. This treatment might result from the fact that, although the lien of special taxes is of record from the date of the filing of a Notice of Special Tax Lien, the actual special tax is levied annually. As noted above, special taxes have a different lien date than the lien date for general *ad valorem* taxes in the State of California noted above. The lien of a Mello-Roos special tax attaches upon recordation of the notice of the special tax lien, as provided for in Section 53328.3 of the Act, as opposed to the annual January 1 lien date for general *ad valorem* taxes. Thus, in deciding whether the original *Glasply* ruling is applicable to a bankruptcy proceeding involving special taxes rather than general *ad valorem* property taxes, a court might consider the differences in the statutory provisions for creation of the applicable tax lien (general *ad valorem* or special tax) in determining whether there is a basis for post petition special taxes to be entitled to a lien on the property during pending bankruptcy proceedings. If a court were to apply *Glasply* to eliminate the priority of the special tax lien as a secured claim against property with respect to post-petition levies of the Special Taxes made against property owners within the District who file for bankruptcy, collections of the Special Taxes from such property owners could be reduced as the result of being treated as “administrative expenses” of the bankruptcy estate. Also, and most importantly, is the fact that the original holding in *Glasply* and the mitigation of that holding by the Bankruptcy Reform Act of 1994 both appear to be applicable only to general *ad valorem* taxes, and, therefore, the exemption from the automatic stay in Section 362(b)(18) discussed above may not be applicable to special taxes since they were not expressly mentioned or provided for in this section, nor defined to be included within the term “*ad valorem* taxes.”

Parity Taxes and Special Assessments; Private Debt

The City, the County and certain other public agencies are authorized by the Act to form other community facilities districts and improvement areas and, under other provisions of State law, to form special assessment districts, either or both of which could include all or a portion of the land within the District.

Property in the District is currently subject to certain overlapping tax and assessment liens, as shown in the overlapping debt statement. Property in the District is also subject to the special tax of two additional community facilities districts formed to fund services and known as the Sierra Vista Community Facilities District No. 2 (Public Services) and the City’s Community Facilities District No. 3 (Municipal Services). The property is not subject to any other special tax or assessment liens (other than the lien of the Special Tax). See “VALUE OF PROPERTY WITHIN THE DISTRICT – Estimated Tax Burden on Single Family Home.”

In addition, other governmental obligations may be authorized and undertaken or issued in the future, the tax, assessment or charge for which may become an obligation of one or more of the parcels of taxable property and may be secured by a lien on a parity with the lien of the Special Tax securing the 2020 Bonds. The principal of and interest on the 2020 Bonds are payable from the Special Tax authorized to be collected within the District, and payment of the Special Tax is secured by a lien on certain real property within the District. Such lien is co-equal to and independent of the lien for general taxes and any other liens imposed under the Act, regardless of when they are imposed on the property in the District. The imposition of additional special taxes, assessments and general property taxes will increase the amount of independent and co-equal liens which must be

satisfied in foreclosure if unpaid. The City, the County and certain other public agencies are authorized by the Act to form other community facilities districts and improvement areas and, under other provisions of State law, to form special assessment districts, either or both of which could include all or a portion of the land within the District. Although the Special Taxes will generally have priority over non-governmental liens on a parcel of taxable property, regardless of whether the non-governmental liens were in existence at the time of the levy of the Special Tax or not, this result may not apply in the case of bankruptcy. See “– Bankruptcy and Foreclosure Delays” above.

There can be no assurance that property owners within the District will not petition for the formation of other community facilities districts and improvement areas or for a special assessment district or districts and that parity special taxes or special assessments will not be levied by the County or some other public agency to finance additional public facilities. Property owners may also elect to finance improvements to their homes through Property Assessed Clean Energy (PACE) financings, which are secured by assessment district liens. In addition to liens for special taxes or assessments to finance public improvements of benefit to land within the District, owners of property may obtain loans from banks or other private sources which loans may be secured by a lien on the parcels in the District. Such loans would increase amounts owed by the owner of such parcel with respect to development of its property in the District. However, the lien of such loans would be subordinate to the lien of the Special Taxes.

Tax Delinquencies

Under provisions of the Act, the Special Taxes will be billed to the properties within the District on the regular property tax bills sent to owners of such properties. Such Special Tax installments are due and payable, and bear the same penalties and interest for nonpayment, as do regular property tax installments. Special Tax installment payments cannot be made separately from property tax payments. Therefore, the unwillingness or inability of a property owner to pay regular property tax bills as evidenced by property tax delinquencies may also indicate an unwillingness or inability to make regular property tax payments and Special Tax payments in the future.

The annual Special Tax will be billed and collected in two installments payable without penalty by December 10 and April 10. In the event such Special Taxes are not timely paid, moneys available to pay debt service on the 2020 Bonds becoming due on the subsequent respective March 1 and September 1 may be insufficient, except to the extent moneys are available in the Reserve Fund.

In the event of non-payment of Special Taxes, funds in the 2020 Reserve Account of the Reserve Fund, if available, may be used to pay principal of and interest on the 2020 Bonds. If funds in the 2020 Reserve Account of the Reserve Fund for the 2020 Bonds are depleted, the funds can be replenished from the proceeds of the levy and collection of the Special Tax that are in excess of the amount required to pay all amounts to be paid to the 2020 Bond holders pursuant to the Fiscal Agent Agreement. However, no replenishment from the proceeds of a Special Tax levy can occur as long as the proceeds that are collected from the levy of the Special Tax against property within the District at the maximum Special Tax rates, together with other available funds, remains insufficient to pay all such amounts. Thus it is possible that the 2020 Reserve Account of the Reserve Fund will be depleted and not be replenished by the levy of the Special Tax.

See “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Delinquent Payments of Special Tax; Covenant for Superior Court Foreclosure” for a discussion of the provisions which apply, and procedures which the City is obligated to follow, in the event of delinquency in the payment of Special Taxes. See also “SECURITY AND SOURCES OF PAYMENT FOR THE

BONDS – Special Tax Methodology” for a discussion of a limitation imposed by the Act applicable to Special Tax increases on residential property.

No Acceleration Provisions

The 2020 Bonds do not contain a provision allowing for the acceleration of the 2020 Bonds in the event of a payment default or other default under the terms of the 2020 Bonds or the Fiscal Agent Agreement. Under the Fiscal Agent Agreement, a 2020 Bond holder is given the right for the equal benefit and protection of all 2020 Bond holders similarly situated to pursue certain remedies. So long as the 2020 Bonds are in book-entry form, DTC will be the sole 2020 Bond holder and will be entitled to exercise all rights and remedies of 2020 Bond holders.

Ballot Initiatives

From time to time, initiative measures qualify for the State ballot pursuant to the State’s constitutional initiative process, and those measures could be adopted by California voters. The adoption of any such initiative might place limitations on the ability of the State, the City, the County or other local districts to increase revenues or to increase appropriations or on the ability of the landowners to complete the development of the District. See “–Property Values and Property Development – Land Development” above. See also “–Voter Initiatives” below.

Voter Initiatives

Under the California Constitution, the power of initiative is reserved to the voters for the purpose of enacting statutes and constitutional amendments. Since 1978, the voters have exercised this power through the adoption of Proposition 13 and similar measures, including Proposition 218, which was approved in the general election held on November 5, 1996, and Proposition 26, which was approved on November 2, 2010.

Any such initiative may affect the collection of fees, taxes and other types of revenue by local agencies such as the District. Subject to overriding federal constitutional principles, such collection may be materially and adversely affected by voter-approved initiatives, possibly to the extent of creating cash-flow problems in the payment of outstanding obligations such as the 2020 Bonds.

Proposition 218—Voter Approval for Local Government Taxes—Limitation on Fees, Assessments, and Charges—Initiative Constitutional Amendment, added Articles XIIIC and XIID to the California Constitution, imposing certain vote requirements and other limitations on the imposition of new or increased taxes, assessments and property-related fees and charges.

On November 2, 2010, California voters approved Proposition 26, entitled the “Supermajority Vote to Pass New Taxes and Fees Act”. Section 1 of Proposition 26 declares that Proposition 26 is intended to limit the ability of the State Legislature and local government to circumvent existing restrictions on increasing taxes by defining the new or expanded taxes as “fees.” Proposition 26 amended Articles XIII A and XIIIC of the State Constitution. The amendments to Article XIII A limit the ability of the State Legislature to impose higher taxes (as defined in Proposition 26) without a two-thirds vote of the Legislature. Article XIIIC requires that all new local taxes be submitted to the electorate before they become effective. Taxes for general governmental purposes require a majority vote and taxes for specific purposes (“special taxes”) require a two-thirds vote.

The Special Taxes and the issuance of special tax bonds of the District were each authorized by not less than a two-thirds vote of the landowners within the District who constituted the qualified

electors at the time of such voted authorization. The District believes, therefore, that issuance of the 2020 Bonds does not require the conduct of further proceedings under the Mello-Roos Act, Proposition 218 or Proposition 26.

Like their antecedents, Proposition 218 and Proposition 26 are likely to undergo both judicial and legislative scrutiny before the impact on the District can be determined. Certain provisions of Proposition 218 and Proposition 26 may be examined by the courts for their constitutionality under both State and federal constitutional law, the outcome of which cannot be predicted.

Recent Case Law Related to the Mello-Roos Act

On August 1, 2014, the California Court of Appeal, Fourth Appellate District, issued its opinion in *City of San Diego v. Melvin Shapiro, et al.* (D063997). The case involved a Convention Center Facilities District (the “CCFD”) established by the City of San Diego. The CCFD is a financing district established under the City’s charter (the “Charter”) and was intended to function much like a community facilities district established under the Mello-Roos Act. The CCFD was comprised of all of the real property in the entire City. However, the CCFD special tax was to be levied only on properties in the CCFD that were improved with a hotel.

At the election to authorize the CCFD special tax, the CCFD proceedings limited the electorate to owners of hotel properties and lessees of real property owned by a governmental entity on which a hotel was located. Registered voters in the City of San Diego were not permitted to vote. This definition of the qualified electors of the CCFD was based on Section 53326(c) of the Mello-Roos Act, which generally provides that, if a special tax will not be apportioned in any tax year on residential property, the legislative body may provide that the vote shall be by the landowners of the proposed community facilities district whose property would be subject to the special tax.

The *San Diego* Court held that the CCFD special tax election did not comply with the City’s Charter and with applicable provisions of the California Constitution -- specifically Article XIII A, section 4 (“Cities, Counties and special districts, by a two-thirds vote of the qualified electors of such district, may impose special taxes on such district....”) and Article XIII C, section 2(d) (“No local government may impose, extend, or increase any special tax unless and until that tax is submitted to the electorate and approved by a two-thirds vote.”) -- because the electors in the CCFD election should have been the registered voters residing within the CCFD (the boundaries of which were coterminous with the boundaries of the City of San Diego).

As to the District, there were no registered voters within the District at the time of the election to authorize the Special Taxes. Significantly, the *San Diego* Court expressly stated that it was not addressing the validity of a landowner election to impose special taxes on residential property pursuant to the Mello-Roos Act in situations where there are fewer than 12 registered voters. Therefore, by its terms, the *San Diego* Court’s holding does not apply to the special tax election in the District.

Moreover, Sections 53341 and 53359 of the Act establish a limited period of time in which special taxes levied under the Mello-Roos Act may be challenged by a third party:

53341. Any action or proceeding to attack, review, set aside, void, or annul the levy of a special tax or an increase in a special tax pursuant to [the Mello-Roos Act] shall be commenced within 30 days after the special tax is approved by the voters....

53359. An action to determine the validity of bonds issued pursuant to [the Mello-Roos Act] or the validity of any special taxes levied pursuant to [the Mello-Roos Act] ... shall be commenced within 30 days after the voters approve the issuance of the bonds or the special tax ...

Section 53326(b) of the Mello-Roos Act defines the authorized voters for an election in which the special taxes will be levied on residential property: “Except as otherwise provided in subdivision (c), if at least 12 persons, who need not necessarily be the same 12 persons, have been registered to vote within the territory of the proposed community facilities district for each of the 90 days preceding the close of the protest hearing, the vote shall be by the registered voters of the proposed district, with each voter having one vote. Otherwise, the vote shall be by the landowners of the proposed district and each person who is the owner of land at the close of the protest hearing, or the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the proposed community facilities district not exempt from the special tax....”

Landowner voters approved the Special Taxes and the issuance of bonds for the District in compliance with all applicable requirements of the Mello-Roos Act in 2018. Therefore, pursuant to Sections 53341 and 53359 of the Mello-Roos Act, the statute of limitations period to challenge the validity of the special tax has expired. Because the *San Diego* Court expressly stated that it did not consider the facts presented by the District and because the period for challenging the Special Taxes has passed, the City believes the Special Taxes are valid and cannot be challenged.

Recent Changes in Tax Law

H.R. 1 of the 115th U.S. Congress, known as the “Tax Cuts and Jobs Act,” was enacted into law on December 22, 2017 (the “**Tax Act**”). The Tax Act makes significant changes to many aspects of the Code that could have an impact on future property development. The Tax Act reduces the amount of mortgage interest expense and state local income tax and property tax expense that individuals may deduct from their gross income for federal income tax purposes, which could increase the cost of home ownership within the District and could adversely affect the sale of homes by JMC Homes. However, neither the City nor JMC Homes can predict the effect that the Tax Act may have on the cost of home ownership or the price of homes in the District, the rate at which homes in the District are sold to individual homeowners, or the ability or willingness of homeowners to pay special taxes or property taxes on Taxable Property within the District. The appraised values do not take into account any of the potential impacts of the Tax Act on home values or home sales in the District.

COVID-19

The spread of the COVID-19 coronavirus pandemic, and responses intended to slow its spread, are likely to result in negative impacts to the homebuilding operations and sales of homes within the District. In addition, no assurance can be given that the property tax payment dates will not be deferred in the future, which may cause a delay in the receipt of Special Tax Revenues by the City for the payment of the 2020 Bonds. Finally, stock and municipal bond markets in the U.S. and globally have seen significant volatility attributed to coronavirus concerns; there can be no assurances that these or other concerns that emerge later will not materially adversely impact the secondary market for the 2020 Bonds.

There can be no assurances that the spread of the virus and the related shelter in place order and social distancing requirements currently imposed by the State of California, or other State or

local mandates and/or other responses intended to slow its spread will not materially adversely impact the pace of homesales or the willingness of owners of land in the District to pay the Special Taxes securing the 2020 CFD Bonds and the Prior CFD Bonds.

As a measure to assist certain taxpayers impacted by COVID 19, on May 6, 2020 the Governor of the State issued Executive Order N-61-20 which waives penalties and interest on property tax installments for residential property occupied by the taxpayer and certain other real property which is used for a small business, subject to certain filing requirements and proof of economic hardship due to COVID-19 or any local, state or federal response to COVID-19. The order applies to taxes not delinquent prior to March 4, 2020, and waives and forgives penalties and interest through May 6, 2021.

Negative impacts on the collection of Special Taxes could occur because Special Tax payments are deferred and could be further deferred, or some taxpayers may be unable to make their property and special tax payments. Such impacts could be offset because the County operates under the Teeter Plan, which shields the City from delinquencies. There is the possibility that the County could end the Teeter Plan in the future, although County staff has indicated that they have no plan to do that. Through _____, 2020, the County reports it has received _____ percent of the property tax levy, which results in a delinquency rate of approximately _____ percent, which is [slightly higher than the normal _____ percent delinquency rate]. The value of property on the 2020-21 and future tax rolls could be reduced, which will not be known until the tax roll is released sometime in **late July 2020**. At this time, there is no way to provide an estimate of the impact that the pandemic could have on future property taxes.

CONSTITUTIONAL LIMITATIONS ON TAXATION AND APPROPRIATIONS

Article XIII A of the California Constitution, commonly known as “**Proposition 13**,” provides that each county will levy the maximum *ad valorem* property tax permitted by Proposition 13 and will distribute the proceeds to local agencies in accordance with an allocation formula based in part on pre-Proposition 13 *ad valorem* property tax rates levied by local agencies.

Article XIII A limits the maximum *ad valorem* tax on real property to 1% of “full cash value,” which is defined as the County Assessor’s valuation of real property as shown on the 1975-76 tax bill under full cash value, or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment. The full cash value may be adjusted annually to reflect increases of no more than 2% per year or decreases in the consumer price index or comparable local data, or declining property value caused by damage, destruction or other factors.

Article XIII A exempts from the 1% tax limitation any taxes to repay indebtedness approved by the voters prior to July 1, 1978, and requires a vote of two-thirds of the qualified electorate to impose Special Taxes or any additional *ad valorem*, sales, or transaction taxes on real property. In addition, Article XIII A requires the approval of two-thirds of all members of the State Legislature to change any State laws resulting in increased tax revenues. On June 3, 1986, California voters approved an amendment to Article XIII A of the California Constitution to allow local governments and school districts to raise their property tax rates above the constitutionally mandated 1% ceiling for the purpose of paying off certain new general obligation debt issued for the acquisition or improvement of real property and approved by two-thirds of the votes cast by the qualified electorate. If any such voter-approved debt is issued, it may be on a parity with the lien of the Special Tax on the parcels within the District.

State and local government agencies in the State, and the State itself are subject to annual appropriation limits, imposed by Article XIII B of the State Constitution. Article XIII B prohibits government agencies and the State from spending "appropriations subject to limitation" in excess of the appropriations limits imposed. "Appropriations subject to limitation" are authorizations to spend "proceeds of taxes," which consist of tax revenues, certain state subventions and certain other funds, including proceeds from regulatory licenses, user charges or other fees to the extent that such proceeds exceed the cost reasonably borne by such entity in providing the regulation, product or service. No limit is imposed on appropriations of funds which are not "proceeds of taxes" such as debt service on indebtedness existing or authorized before January 1, 1979, or subsequently authorized by the voters, appropriations required to comply with mandates of courts or the federal government, reasonable user charges or fees and certain other non-tax funds.

CONTINUING DISCLOSURE

The City has covenanted for the benefit of owners of the 2020 Bonds to provide certain financial information and operating data relating to the District by not later than nine months after the end of the City's fiscal year (presently June 30) in each year (the "**City Annual Report**") commencing with its report for the 2019-20 fiscal year (due April 1, 2021) and to provide notices of the occurrence of certain enumerated events.

JMC Homes has also covenanted for the benefit of owners of the 2020 Bonds to provide certain financial information and operating data relating to the property it or its affiliates owns in the District by not later than April 1st and October 1st of each year, beginning with the report due October 1, 2020 (the "**Developer Periodic Reports**") and to provide notices of the occurrence of certain enumerated events. The obligation of JMC Homes to provide such information is in effect only so long as JMC Homes and its affiliates, or their successors, are collectively responsible for 20% or more of the Special Taxes, as described in the Developer Periodic Reports and JMC Homes' undertaking includes a provision that if a portion of JMC Homes' property which is responsible for such 20% is sold, the reporting obligation may be assumed by the new owner and JMC Homes' obligations with respect to such property will be terminated, or if not so assumed, JMC Homes is to report such required information, as applicable to the transferee.

The City Annual Report and the Developer Periodic Reports and notices of listed events will be filed with the Municipal Securities Rulemaking Board. The covenants of the City have been made in order to assist the Underwriter in complying with Securities Exchange Commission Rule 15c2-12(b)(5) (the "**Rule**"). The specific nature of the information to be contained in the Annual Report or the notices of listed events by the City and JMC Homes is summarized in "APPENDIX E — FORM OF CONTINUING DISCLOSURE UNDERTAKINGS."

The City believes it currently is in material compliance with all of its continuing disclosure undertakings for the last five years. Notwithstanding the foregoing, in the last five years:

(1) The Annual Reports for Fiscal Year 2014-15 for certain of the City's then-outstanding obligations were not timely filed, including up to 510 days late.

(2) In the last five years, the City has not in a timely manner filed all significant event notices of changes in the ratings of certain then-outstanding obligations resulting from changes in ratings to the bond insurers who insured such obligations or the underlying rates for such obligations, including up to 1,983 days late. However, the City has submitted all undisclosed significant event notices of changes in ratings occurring during the last five years on all currently outstanding obligations.

JMC Homes has represented to the City that, during the past five years, JMC Homes has been in material compliance with its continuing disclosure undertakings.

UNDERWRITING

The 2020 Bonds were purchased through negotiation by Piper Sandler & Co., as underwriter (the "**Underwriter**"). The Underwriter agreed to purchase the 2020 Bonds at a price of \$_____ (which is equal to the par amount of the 2020 Bonds, plus/less an original issue premium/discount of \$_____ and less the Underwriter's discount of \$_____). The initial public offering prices set forth on the cover page hereof may be changed by the

Underwriter. The Underwriter may offer and sell the 2020 Bonds to certain dealers and others at a price lower than the public offering prices set forth on the cover page hereof.

MUNICIPAL ADVISOR

The City has retained Hilltop Securities Inc., Encino, California, as registered municipal advisor (the “**Municipal Advisor**”) in connection with the issuance of the 2020 Bonds. The Municipal Advisor is not obligated to undertake, and has not undertaken to make, an independent verification or assume responsibility for the accuracy, completeness, or fairness of the information contained in this Official Statement. The fees of the Municipal Advisor are contingent upon the sale and delivery of the 2020 Bonds.

LEGAL OPINION

The validity of the 2020 Bonds and certain other legal matters are subject to the approving opinion of Jones Hall, a Professional Law Corporation, Bond Counsel. A complete copy of the proposed form of Bond Counsel opinion is contained in APPENDIX D to this Official Statement, and the final opinion will be made available to registered owners of the 2020 Bonds at the time of delivery. The fees of Bond Counsel are contingent upon the sale and delivery of the 2020 Bonds.

TAX MATTERS

Federal Tax Status. In the opinion of Jones Hall, A Professional Law Corporation, San Francisco, California, Bond Counsel, subject, however to the qualifications set forth below, under existing law, the interest on the 2020 Bonds is excluded from gross income for federal income tax purposes and such interest is not an item of tax preference for purposes of the federal alternative minimum tax.

The opinions set forth in the preceding paragraph are subject to the condition that the City comply with all requirements of the Internal Revenue Code of 1986, as amended (the “**Tax Code**”) relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the 2020 Bonds. The City has made certain representations and covenants in order to comply with each such requirement. Inaccuracy of those representations, or failure to comply with certain of those covenants, may cause the inclusion of such interest in gross income for federal income tax purposes, which may be retroactive to the date of issuance of the 2020 Bonds.

Tax Treatment of Original Issue Discount and Premium. If the initial offering price to the public at which a 2020 Bond is sold is less than the amount payable at maturity thereof, then such difference constitutes “original issue discount” for purposes of federal income taxes and State of California personal income taxes. If the initial offering price to the public at which a 2020 Bond is sold is greater than the amount payable at maturity thereof, then such difference constitutes “original issue premium” for purposes of federal income taxes and State of California personal income taxes. *De minimis* original issue discount and original issue premium are disregarded.

Under the Tax Code, original issue discount is treated as interest excluded from federal gross income and exempt from State of California personal income taxes to the extent properly allocable to each owner thereof subject to the limitations described in the first paragraph of this section. The original issue discount accrues over the term to maturity of the 2020 Bond on the basis of a constant interest rate compounded on each interest or principal payment date (with straight-line interpolations

between compounding dates). The amount of original issue discount accruing during each period is added to the adjusted basis of such 2020 Bonds to determine taxable gain upon disposition (including sale, redemption, or payment on maturity) of such 2020 Bond. The Tax Code contains certain provisions relating to the accrual of original issue discount in the case of purchasers of the 2020 Bonds who purchase the 2020 Bonds after the initial offering of a substantial amount of such maturity. Owners of such 2020 Bonds should consult their own tax advisors with respect to the tax consequences of ownership of 2020 Bonds with original issue discount, including the treatment of purchasers who do not purchase in the original offering, the allowance of a deduction for any loss on a sale or other disposition, and the treatment of accrued original issue discount on such 2020 Bonds under federal individual alternative minimum taxes.

Under the Tax Code, original issue premium is amortized on an annual basis over the term of the 2020 Bond (said term being the shorter of the 2020 Bond's maturity date or its call date). The amount of original issue premium amortized each year reduces the adjusted basis of the owner of the 2020 Bond for purposes of determining taxable gain or loss upon disposition. The amount of original issue premium on a 2020 Bond is amortized each year over the term to maturity of the 2020 Bond on the basis of a constant interest rate compounded on each interest or principal payment date (with straight-line interpolations between compounding dates). Amortized 2020 Bond premium is not deductible for federal income tax purposes. Owners of premium 2020 Bonds, including purchasers who do not purchase in the original offering, should consult their own tax advisors with respect to State of California personal income tax and federal income tax consequences of owning such 2020 Bonds.

California Tax Status. In the further opinion of Bond Counsel, interest on the 2020 Bonds is exempt from California personal income taxes.

Other Tax Considerations. Current and future legislative proposals, if enacted into law, clarification of the Tax Code or court decisions may cause interest on the 2020 Bonds to be subject, directly or indirectly, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent beneficial owners from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislative proposals, clarification of the Tax Code or court decisions may also affect the market price for, or marketability of, the 2020 Bonds. It cannot be predicted whether or in what form any such proposal might be enacted or whether, if enacted, such legislation would apply to bonds issued prior to enactment.

The opinions expressed by Bond Counsel are based upon existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of such opinion, and Bond Counsel has expressed no opinion with respect to any proposed legislation or as to the tax treatment of interest on the 2020 Bonds, or as to the consequences of owning or receiving interest on the 2020 Bonds, as of any future date. Prospective purchasers of the 2020 Bonds should consult their own tax advisors regarding any pending or proposed federal or state tax legislation, regulations or litigation, as to which Bond Counsel expresses no opinion.

Owners of the 2020 Bonds should also be aware that the ownership or disposition of, or the accrual or receipt of interest on, the 2020 Bonds may have federal or state tax consequences other than as described above. Other than as expressly described above, Bond Counsel expresses no opinion regarding other federal or state tax consequences arising with respect to the 2020 Bonds, the ownership, sale or disposition of the 2020 Bonds, or the amount, accrual or receipt of interest on the 2020 Bonds.

NO RATINGS

The City has not applied to a rating agency for the assignment of a rating to the 2020 Bonds and does not contemplate applying for a rating.

NO LITIGATION

At the time of delivery of and payment for the 2020 Bonds, the City Attorney will deliver his opinion that to the best of its knowledge there is no action, suit, proceeding, inquiry or investigation at law or in equity before or by any court or regulatory agency pending against the City affecting its existence or the titles of its officers to office or seeking to restrain or to enjoin the issuance, sale or delivery of the 2020 Bonds, the application of the proceeds thereof in accordance with the Fiscal Agent Agreement, or the collection or application of the Special Tax to pay the principal of and interest on the 2020 Bonds, or in any way contesting or affecting the validity or enforceability of the 2020 Bonds, the Fiscal Agent Agreement or any action of the City contemplated by any of said documents, or in any way contesting the completeness or accuracy of this Official Statement or any amendment or supplement thereto, or contesting the powers of the City or its authority with respect to the 2020 Bonds or any action of the City contemplated by any of said documents.

EXECUTION

The execution and delivery of this Official Statement by the City has been duly authorized by the City Council on behalf of the District.

CITY OF ROSEVILLE

By: _____
Chief Financial Officer

APPENDIX A

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

APPENDIX B
THE APPRAISAL

APPENDIX C

THE CITY OF ROSEVILLE AND PLACER COUNTY

The District is located in the City of Roseville (the “City”), which is located in southwestern Placer County (the “County”), California (the “State”). Certain financial and economic data for the City, County and State are presented in this appendix for information purposes only. The 2020 Bonds are not a debt or obligation of the City, County or State, but are a limited obligation of the City, secured solely by the Special Tax Revenues and other amounts pledged under the Fiscal Agent Agreement, all as described in more detail in this Official Statement.

General

The City is located in the County, which is located in the Sacramento Valley near the foothills of the Sierra Nevada mountain range, about 16 miles northeast of Sacramento and 110 miles east of San Francisco. The City presently occupies 43 square miles in the southwestern part of the County and is the largest city in the County as well as the residential and business center of the County. It is bordered by Sacramento County to the south, the City of Rocklin to the north and un-incorporated Placer County to the east and west. The estimated population of the City as of January 1, 2019 was approximately 139,643.

The City has warm summers typical of central California, with an average July temperature of 77 degrees. Winter temperatures are moderate; the average January temperature is 46 degrees. The temperature drops below freezing an average of eight days per year. Rainfall averages 20 inches annually and falls mostly during the winter.

The City is predominately comprised of residential housing, small and large businesses, as well as numerous retail centers, the latter of which play a vital role in the economy of the City and contribute significantly to City and County sales tax receipts. The City has the thirteenth highest retail sales of all cities in the State, and the City is considered a regional shopping destination. The Westfield Galleria at Roseville is the main shopping center in the City and the second largest shopping mall in Northern California. Across from the Westfield Galleria lies the “Fountains at Roseville,” a 330,000 square foot retail center, containing additional stores and several recreation centers. Plans call for future construction of hotel, additional retail, and office buildings in connection with the Fountains at Roseville project. In addition to the Westfield Galleria and Fountains at Roseville, the City has many shopping plazas surrounding the Westfield Galleria and the Douglas Boulevard financial corridor. The City is also home to one of the largest auto malls in the United States and a popular water park, Roseville Golf and SunSplash.

Municipal Government

The City was incorporated on April 10, 1909 and is a charter city. The City operates under the council-manager form of government, with a five-member City Council elected at large for staggered four-year terms. At each election, the council member receiving the most votes is appointed mayor pro-tempore for two years and becomes mayor for the final two years.

City services include, among others, police and fire protection, library services, street maintenance, and parks and recreation. The City also owns two golf courses and provides its own electricity, water, sewer and refuse services to its citizens.

Population

The following table sets forth population estimates for the City, County and State for the past five years.

POPULATION ESTIMATES
City, County and State
Calendar Years 2016 through 2020, as of January 1

<u>Year</u>	<u>City of Roseville</u>	<u>Placer County</u>	<u>State of California</u>
2016	132,676	376,508	39,131,307
2017	135,398	383,598	39,398,702
2018	137,983	389,387	39,586,646
2019	141,299	395,978	39,695,376
2020	145,163	403,711	39,782,870

Effective Buying Income

Effective buying income (“**EBI**”) is designated as personal income less personal tax and non-tax payments. Personal income is the aggregate of wages and salaries, other labor income (such as employer contributions to private pension funds), proprietor’s income, rental income (which includes imputed rental income of owner-occupants of non-farm dwellings), dividends paid by corporations, personal interest income from all sources, and transfer payments (such as pensions and welfare assistance). Deducted from this total are personal taxes (federal, state and local), non-tax payments (such as fines, fees, penalties), and personal contributions for social insurance. Effective buying income is a bulk measure of market potential. It indicates the general ability to buy and is essential in comparing, selecting and grouping markets on that basis. The following table demonstrates the growth in annual estimated EBI for the City, the County, the State and the United States.

EFFECTIVE BUYING INCOME (EBI) City, County, State and United States As of January 1, 2016 through 2020

Year	Area	Total Effective Buying Income (000's Omitted)	Median Household Effective Buying Income
2016	City of Roseville	\$3,959,073	\$64,615
	Placer County	11,729,490	64,480
	California	981,231,666	53,589
	United States	7,757,960,399	46,738
2017	City of Roseville	\$4,126,395	\$66,668
	Placer County	12,122,101	65,269
	California	1,036,142,723	55,681
	United States	8,132,748,136	48,043
2018	City of Roseville	\$4,470,762	\$70,438

Employment and Industry

The unemployment rate in the Sacramento--Roseville--Arden-Arcade MSA was 3.8 percent in February 2020, down from a revised 3.9 percent in January 2020, and below from the year-ago estimate of 4.0 percent. This compares with an unadjusted unemployment rate of 4.3 percent for California and 3.8 percent for the nation during the same period. The unemployment rate was 3.7 percent in El Dorado County, 3.2 percent in Placer County, 3.8 percent in Sacramento County, and 4.9 percent in Yolo County.

The following table summarizes the civilian labor force, employment and unemployment, as well as employment by industry, in the Sacramento--Arden-Arcade--Roseville MSA for the years 2015 through 2019. Annual figures are not yet available for 2020.

The County's 2019-20 assessment roll totaled \$80.0 billion as compared to the prior year's assessment roll of \$75.3 billion, which reflected a 6.24% increase this year. These numbers over the last two years contrast with the real estate decline years of 2008 and after, where the County assessment roll experienced declines.

The following table shows residential and non-residential building permits issued within the County for calendar years 2014 through 2018. Annual figures are not yet available for 2019.

Transportation

The transportation network in and around the City is an integral part of its development. Centrally located in the State, the area is the hub of several major highways. Interstate 80 runs through the City, connecting San Francisco to New York. Highway 65 runs north through the City, from I-80 to Lincoln and Marysville. Interstate 5, which is west of the City, runs north to Seattle and south to Los Angeles.

Union Pacific Railroad bought Southern Pacific in 1996 and the J.R. Davis Yard, located in Roseville, is the largest rail facility on the West Coast. Union Pacific owns and operates track in 23 states, primarily west of the Mississippi River. Amtrak provides passenger service daily to San Francisco and San Jose, and the California Zephyr connects the County to the Midwest and Chicago.

Greyhound operates a station in the City, providing interstate destination services. Greyhound also operates throughout the County, with bus depots or regularly scheduled stops in most of the communities along major highways and roads.

Sacramento International Airport serves the Roseville area. Served by ten major carriers and several commuter airlines, as well as air-freight carriers, the airport handles passenger flights to over 140 cities with more than 130 scheduled departures per day and 4.3 million passengers annually. Nearby Auburn Municipal Airport serves charter and private aircraft for coastal, state and transcontinental flights. Executive air service is available as well. Auburn Municipal has an elevation of 1,520 feet and an east/west runway 3,100 feet in length.

Several trucking companies serve the City, ranging from interstate lines to local haulers, and transporting a wide variety of goods. United Parcel Service, with a distribution center in Rocklin, offers freight transportation services as well.

APPENDIX D
FORM OF OPINION OF BOND COUNSEL

[Closing Date]

City Council
City of Roseville
311 Vernon Street
Roseville, California 95678

OPINION: \$_____ City of Roseville Villages at Sierra Vista Community Facilities
 District No. 1 (Public Facilities) Special Tax Bonds Series 2020

Members of the City Council:

We have acted as bond counsel to the City of Roseville (the "City") in connection with the issuance by the City of the \$_____ City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds Series 2020 (the "Bonds"), pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, constituting Section 53311, et seq. of the California Government Code (the "Act") and a Fiscal Agent Agreement dated as of July 1, 2019, as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the "Fiscal Agent Agreement"), by and between the City, on behalf of the City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities), and The Bank of New York Mellon Trust Company, N.A., as fiscal agent. We have examined the law and such certified proceedings and other papers as we deem necessary to render this opinion.

As to questions of fact material to our opinion, we have relied upon representations of the City contained in the Fiscal Agent Agreement, and in the certified proceedings and other certifications of public officials furnished to us, without undertaking to verify the same by independent investigation.

Based upon the foregoing, we are of the opinion, under existing law, as follows:

1. The City is duly created and validly existing as a public body, corporate and politic, with the power to adopt the resolution authorizing the issuance of the Bonds, enter into the Fiscal Agent Agreement and perform the agreements on its part contained therein, and to issue the Bonds.

2. The Bonds have been duly authorized, executed and delivered by the City and are valid and binding limited obligations of the City, payable solely from the sources provided therefor in the Fiscal Agent Agreement.

3. The Fiscal Agent Agreement has been duly entered into by the City and constitutes a valid and binding obligation of the City enforceable upon the City.

4. Pursuant to the Act, the Fiscal Agent Agreement creates a valid lien on the funds pledged by the Fiscal Agent Agreement.

5. The interest on the Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax. The opinions set forth in the preceding sentence are subject to the condition that the City comply with all requirements of the Internal Revenue Code of 1986, as amended, relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the Bonds. The City has made certain representations and covenants in order to comply with each such requirement. Inaccuracy of those representations, or failure to comply with certain of those covenants, may cause the inclusion of such interest in gross income for federal income tax purposes, which may be retroactive to the date of issuance of the Bonds.

6. The interest on the Bonds is exempt from personal income taxation imposed by the State of California.

We express no opinion regarding any other tax consequences arising with respect to the ownership, sale or disposition of, or the amount, accrual or receipt of interest on, the Bonds.

The rights of the owners of the Bonds and the enforceability of the Bonds are limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights generally, and by equitable principles, whether considered at law or in equity.

This opinion is given as of the date hereof, and we assume no obligation to revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention, or any changes in law that may hereafter occur. Our engagement with respect to this matter has terminated as of the date hereof.

Respectfully submitted,

A Professional Law Corporation

APPENDIX E

FORMS OF CONTINUING DISCLOSURE UNDERTAKINGS

CONTINUING DISCLOSURE CERTIFICATE (City)

This CONTINUING DISCLOSURE CERTIFICATE (this “Disclosure Certificate”) dated as of _____ 1, 2020, is executed and delivered by the CITY OF ROSEVILLE (the “City”) in connection with the execution and delivery of its City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds Series 2020 (the “Bonds”). The Bonds are being executed and delivered pursuant to a Fiscal Agent Agreement dated as of July 1, 2019, as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the “Fiscal Agent Agreement”), by and between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (the “Fiscal Agent”).

The District covenants and agrees as follows:

Section 1. Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by the City for the benefit of the holders and beneficial owners of the Bonds and in order to assist the Participating Underwriter in complying with S.E.C. Rule 15c2-12(b)(5).

Section 2. Definitions. In addition to the definitions set forth above and in the Fiscal Agent Agreement, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined in this Section 2, the following capitalized terms shall have the following meanings:

“Annual Report” means any Annual Report provided by the City pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

“Annual Report Date” means the date that is nine months after the end of the City’s fiscal year (currently April 1 based on the City’s fiscal year end of June 30).

“Dissemination Agent” means Willdan Financial Services, or any successor Dissemination Agent designated in writing by the City and which has filed with the City a written acceptance of such designation.

“Listed Events” means any of the events listed in Section 5(a) of this Disclosure Certificate.

“MSRB” means the Municipal Securities Rulemaking Board, which has been designated by the Securities and Exchange Commission as the sole repository of disclosure information for purposes of the Rule, or any other repository of disclosure information that may be designated by the Securities and Exchange Commission as such for purposes of the Rule in the future.

“Official Statement” means the final official statement executed by the City in connection with the issuance of the Bonds.

“Participating Underwriter” shall mean any of the original underwriters of the Bonds.

“Rule” means Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as it may be amended from time to time.

Section 3. Provision of Annual Reports.

(a) The City shall, or shall cause the Dissemination Agent to, not later than the Annual Report Date, commencing April 1, 2020, with the report for the 2018-19 fiscal year, provide to the MSRB, in an electronic format as prescribed by the MSRB, an Annual Report that is consistent with the requirements of Section 4 of this Disclosure Certificate. Not later than 15 Business Days prior to the Annual Report Date, the City shall provide the Annual Report to the Dissemination Agent (if other than the City). If by 15 Business Days prior to the Annual Report Date the Dissemination Agent (if other than the City) has not received a copy of the Annual Report, the Dissemination Agent shall contact the City to determine if the City is in compliance with the previous sentence. The Annual Report may be submitted as a single document or as separate documents comprising a package, and may include by reference other information as provided in Section 4 of this Disclosure Certificate; provided that the audited financial statements of the City may be submitted separately from the balance of the Annual Report, and later than the Annual Report Date, if not available by that date. If the City’s fiscal year changes, it shall give notice of such change in the same manner as for a Listed Event under Section 5(b). The City shall provide a written certification with each Annual Report furnished to the Dissemination Agent to the effect that such Annual Report constitutes the Annual Report required to be furnished by the City hereunder.

(b) If the City does not provide (or cause the Dissemination Agent to provide) an Annual Report by the Annual Report Date, the City shall provide (or cause the Dissemination Agent to provide) in a timely manner to the MSRB, in an electronic format as prescribed by the MSRB, a notice in substantially the form attached as Exhibit A to this Disclosure Certificate.

(c) With respect to each Annual Report, the Dissemination Agent shall:

(i) determine prior to each Annual Report Date the then-applicable rules and electronic format prescribed by the MSRB for the filing of annual continuing disclosure reports; and

(ii) if the Dissemination Agent is other than the City, file a report with the City certifying that the Annual Report has been provided pursuant to this Disclosure Certificate, and stating the date it was provided.

Section 4. Content of Annual Reports. The City’s Annual Report shall contain or incorporate by reference the following:

(a) The City’s audited financial statements prepared in accordance with generally accepted accounting principles as promulgated to apply to governmental entities from time to time by the Governmental Accounting Standards Board. If the City’s audited financial statements are not available by the Annual Report Date, the Annual Report shall contain unaudited financial statements in a format similar to the financial statements contained in the Official Statement, and the audited financial statements shall be filed in the same manner as the Annual Report when they become available.

(b) The following information, unless otherwise specified, as of September 30 of the preceding year:

(i) Principal amount of all outstanding bonds of the District.

(ii) Balance in the improvement fund.

(iii) Balance in 2020 Reserve Account of the Reserve Fund, and statement of the Reserve Requirement for the Bonds. Statement of projected draws on the 2020 Reserve Account of the Reserve Fund, if any.

(iv) Balance in other funds and accounts held by the City or fiscal agent related to the Bonds.

(v) Additional debt authorized by the City and payable from or secured by assessments or special taxes with respect to property within the District.

(vi) The Special Tax levy, the delinquency rate, total amount of delinquencies, number of parcels delinquent in payment for the five most recent fiscal years.

(vii) Notwithstanding the September 30 reporting date, the following information shall be reported as of the last day of the month immediately preceding the date of the Annual Report rather than as of September 30. Identity of each delinquent taxpayer responsible for 5 percent or more of total Special Tax levied, and the following information: assessor parcel number, assessed value of applicable properties, amount of Special Tax levied, amount delinquent by parcel number and status of foreclosure proceedings. If any foreclosure has been completed, summary of results of foreclosure sales or transfers.

(viii) Most recently available total assessed value of all parcels subject to the Special Tax.

(ix) List of landowners and assessor's parcel number of parcels subject to 20% or more of the Special Tax levy including the following information: development status to the extent shown in City records, land use classification, assessed value (land and improvements).

(c) In addition to any of the information expressly required to be provided under this Disclosure Certificate, the City shall provide such further material information, if any, as may be necessary to make the specifically required statements, in the light of the circumstances under which they are made, not misleading.

(d) Any or all of the items listed above may be included by specific reference to other documents, including official statements of debt issues of the City or related public entities, which are available to the public on the MSRB's Internet web site or filed with the Securities and Exchange Commission. The City shall clearly identify each such other document so included by reference.

Section 5. Reporting of Significant Events.

(a) The City shall give, or cause to be given, notice of the occurrence of any of the following Listed Events with respect to the Bonds:

- (1) Principal and interest payment delinquencies.
- (2) Non-payment related defaults, if material.
- (3) Unscheduled draws on debt service reserves reflecting financial difficulties.
- (4) Unscheduled draws on credit enhancements reflecting financial difficulties.
- (5) Substitution of credit or liquidity providers, or their failure to perform.
- (6) Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the security, or other material events affecting the tax status of the security.
- (7) Modifications to rights of security holders, if material.
- (8) Bond calls, if material, and tender offers.
- (9) Defeasances.
- (10) Release, substitution, or sale of property securing repayment of the securities, if material.
- (11) Rating changes.
- (12) Bankruptcy, insolvency, receivership or similar event of the City or other obligated person.
- (13) The consummation of a merger, consolidation, or acquisition involving the City or an obligated person, or the sale of all or substantially all of the assets of the City or an obligated person (other than in the ordinary course of business), the entry into a definitive agreement to undertake such an action, or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material.
- (14) Appointment of a successor or additional fiscal agent or the change of name of the fiscal agent, if material.
- (15) Incurrence of a financial obligation of the City, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the City, any of which affect security holders, if material (for the definition of "financial obligation," see clause (e)).

- (16) Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the City, any of which reflect financial difficulties (for the definition of “financial obligation,” see clause (e)).

(b) Whenever the City obtains knowledge of the occurrence of a Listed Event, the City shall, or shall cause the Dissemination Agent (if not the City) to, file a notice of such occurrence with the MSRB, in an electronic format as prescribed by the MSRB, in a timely manner not in excess of 10 business days after the occurrence of the Listed Event. Notwithstanding the foregoing, notice of Listed Events described in subsections (a)(8) and (9) above need not be given under this subsection any earlier than the notice (if any) of the underlying event is given to holders of affected Bonds under the Fiscal Agent Agreement.

(c) The City acknowledges that the events described in subparagraphs (a)(2), (a)(7), (a)(8) (if the event is a bond call), (a)(10), (a)(13), (a)(14) and (a)(15) of this Section 5 contain the qualifier “if material” and that subparagraph (a)(6) also contains the qualifier “material” with respect to certain notices, determinations or other events affecting the tax status of the Bonds. The City shall cause a notice to be filed as set forth in paragraph (b) above with respect to any such event only to the extent that it determines the event’s occurrence is material for purposes of U.S. federal securities law. Whenever the City obtains knowledge of the occurrence of any of these Listed Events, the City will as soon as possible determine if such event would be material under applicable federal securities law. If such event is determined to be material, the City will cause a notice to be filed as set forth in paragraph (b) above. The Dissemination Agent shall not be responsible for determining whether an event is material.

(d) For purposes of this Disclosure Certificate, any event described in paragraph (a)(12) above is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent, or similar officer for the City in a proceeding under the United States Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the City, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement, or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the City.

(e) For purposes of Section 5(a)(15) and (16), “financial obligation” means a (i) debt obligation; (ii) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (iii) guarantee of (i) or (ii). The term financial obligation shall not include municipal securities as to which a final official statement has been provided to the MSRB consistent with the Rule.

Section 6. Identifying Information for Filings with the MSRB. All documents provided to the MSRB pursuant to this Disclosure Certificate shall be accompanied by identifying information as prescribed by the MSRB.

Section 7. Termination of Reporting Obligation. The City’s obligations under this Disclosure Certificate shall terminate upon the legal defeasance, prior redemption or payment in full of all of the Bonds. If such termination occurs prior to the final maturity of the Bonds, the City shall give notice of such termination in the same manner as for a Listed Event under Section 5(b).

Section 8. Dissemination Agent. The City may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Certificate, and may discharge any Dissemination Agent, with or without appointing a successor Dissemination Agent. Any Dissemination Agent may resign by providing 30 days' written notice to the City.

Section 9. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, the City may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, provided that the following conditions are satisfied:

(a) if the amendment or waiver relates to the provisions of Sections 3(a), 4 or 5(a), it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of an obligated person with respect to the Bonds, or type of business conducted;

(b) the undertakings herein, as proposed to be amended or waived, would, in the opinion of nationally recognized bond counsel, have complied with the requirements of the Rule at the time of the primary offering of the Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(c) the proposed amendment or waiver either (i) is approved by holders of the Bonds in the manner provided in the Fiscal Agent Agreement for amendments to the Fiscal Agent Agreement with the consent of holders, or (ii) does not, in the opinion of nationally recognized bond counsel, materially impair the interests of the holders or beneficial owners of the Bonds.

If the annual financial information or operating data to be provided in the Annual Report is amended pursuant to the provisions hereof, the first Annual Report filed pursuant hereto containing the amended operating data or financial information shall explain, in narrative form, the reasons for the amendment and the impact of the change in the type of operating data or financial information being provided.

If an amendment is made to this Disclosure Certificate modifying the accounting principles to be followed in preparing financial statements, the Annual Report for the year in which the change is made shall present a comparison between the financial statements or information prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles. The comparison shall include a qualitative discussion of the differences in the accounting principles and the impact of the change in the accounting principles on the presentation of the financial information, in order to provide information to investors to enable them to evaluate the ability of the City to meet its obligations. To the extent reasonably feasible, the comparison shall be quantitative.

A notice of any amendment made pursuant to this Section 9 shall be filed in the same manner as for a Listed Event under Section 5(b).

Section 10. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the City from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the City chooses to include any information in any Annual Report or notice of occurrence of a Listed Event in addition to that which is specifically

required by this Disclosure Certificate, the City shall have no obligation under this Disclosure Certificate to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event.

Section 11. Default. If the City fails to comply with any provision of this Disclosure Certificate, the Participating Underwriter or any holder or beneficial owner of the Bonds may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the City to comply with its obligations under this Disclosure Certificate. A default under this Disclosure Certificate shall not be deemed an Event of Default under the Fiscal Agent Agreement, and the sole remedy under this Disclosure Certificate in the event of any failure of the City to comply with this Disclosure Certificate shall be an action to compel performance.

Section 12. Duties, Immunities and Liabilities of Dissemination Agent.

(a) The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate, and the City agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents, harmless against any loss, expense and liabilities which they may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including attorneys' fees) of defending against any claim of liability, but excluding liabilities due to the Dissemination Agent's negligence or willful misconduct. The Dissemination Agent shall have no duty or obligation to review any information provided to it by the City hereunder and shall not be deemed to be acting in any fiduciary capacity for the City, the Bond holders, or any other party. The obligations of the City under this Section shall survive resignation or removal of the Dissemination Agent and payment of the Bonds.

(b) The Dissemination Agent shall be paid compensation by the City for its services provided hereunder in accordance with its schedule of fees as amended from time to time, and shall be reimbursed for all expenses, legal fees and advances made or incurred by the Dissemination Agent in the performance of its duties hereunder.

Section 13. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the City, the Dissemination Agent, the Participating Underwriter and the holders and beneficial owners from time to time of the Bonds, and shall create no rights in any other person or entity.

Section 14. Counterparts. This Disclosure Certificate may be executed in several counterparts, each of which shall be regarded as an original, and all of which shall constitute one and the same instrument.

IN WITNESS WHEREOF, the parties hereto have executed this Disclosure Certificate as of the date first above written.

**FORM OF CONTINUING DISCLOSURE CERTIFICATE
(Developer)**

THIS CONTINUING DISCLOSURE AGREEMENT (the "Disclosure Certificate") dated as of _____, 2020, is executed by John Mourier Construction, Inc., a California corporation (the "Developer") in connection with the execution and delivery by the City of Roseville of its City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds Series 2020 (the "Bonds"). The Bonds are being executed and delivered pursuant to a Fiscal Agent Agreement, dated as of July 1, 2019, as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the "Fiscal Agent Agreement"), by and between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (the "Fiscal Agent").

The Developer covenants and agrees as follows:

Section 1. Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by the Developer for the benefit of the holders and beneficial owners of the Bonds.

Section 2. Definitions. In addition to the definitions set forth above and in the Fiscal Agent Agreement, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined in this Section, the following capitalized terms shall have the following meanings:

"Affiliate" of another Person means (a) a Person directly or indirectly owning, controlling, or holding with power to vote, 5% or more of the outstanding voting securities of such other Person, (b) any Person, 5% or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by such other Person, and (c) any Person directly or indirectly controlling, controlled by, or under common control with, such other Person. For purposes hereof, control means the power to exercise a controlling influence over the management or policies of a Person, unless such power is solely the result of an official position with such Person.

"Assumption Agreement" means an undertaking of a Major Owner, or an Affiliate thereof, for the benefit of the holders and beneficial owners of the Bonds containing terms substantially similar to this Disclosure Certificate (as modified for such Major Owner's development and financing plans with respect to the District), whereby such Major Owner or Affiliate agrees to provide periodic reports and notices of significant events, setting forth the information described in sections 4 and 5 hereof, respectively, with respect to the portion of the property in the District owned by such Major Owner and its Affiliates and, at the option of the Developer or such Major Owner, agrees to indemnify the Dissemination Agent (if any) pursuant to a provision substantially in the form of Section 11 hereof.

"Dissemination Agent" means Willdan Financial Services, or any successor Dissemination Agent designated in writing by the Developer, and which has filed with the Developer, the City and the Fiscal Agent a written acceptance of such designation, and which is experienced in providing dissemination agent services such as those required under this Disclosure Certificate.

"Listed Events" means any of the events listed in Section 5(a) of this Disclosure Certificate.

“Major Owner” means, as of any Report Date, an owner of land in the District that is responsible in the aggregate for 20% or more of the Special Taxes in the District anticipated to be levied at any time during the then-current fiscal year.

“MSRB” means the Municipal Securities Rulemaking Board, which has been designated by the Securities and Exchange Commission as the sole repository of disclosure information for purposes of the Rule, or any other repository of disclosure information that may be designated by the Securities and Exchange Commission as such for purposes of the Rule in the future.

“Official Statement” means the final official statement executed by the City in connection with the issuance of the Bonds.

“Participating Underwriter” means Piper Sandler & Co., the original Underwriter of the Bonds.

“Periodic Report” means any Periodic Report provided by the Developer pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

“Person” means an individual, a corporation, a partnership, a limited liability company, an association, a joint stock company, a trust, any unincorporated organization or a government or political subdivision thereof.

“Property” means the property owned by the Developer in the District.

“Report Date” means April 1 and October 1 of any fiscal year.

“Rule” means Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

“Special Taxes” means the special taxes of the District levied on taxable property within the District.

Section 3. Provision of Periodic Reports.

(a) The Developer shall, or, upon written direction of the Developer the Dissemination Agent shall, not later than the Report Date, commencing October 1, 2020, file or cause to be filed with the MSRB a Periodic Report which is consistent with the requirements of Section 4 of this Disclosure Certificate with a copy to the Fiscal Agent (if different from the Dissemination Agent), the Participating Underwriter and the City. Not later than 15 calendar days prior to the Report Date, the Developer shall provide the Periodic Report to the Dissemination Agent (if different from the Developer). The Developer shall provide a written certification with (or included as a part of) each Periodic Report furnished to the Dissemination Agent (if different from the Developer), the Fiscal Agent (if different from the Dissemination Agent), the Participating Underwriter and the City to the effect that such Periodic Report constitutes the Periodic Report required to be furnished by it under this Disclosure Certificate. The Dissemination Agent, the Fiscal Agent, the Participating Underwriter and the City may conclusively rely upon such certification of the Developer and shall have no duty or obligation to review the Periodic Report. The Periodic Report may be submitted as a single document or as separate documents comprising a package, and may incorporate by reference other information as provided in Section 4 of this Disclosure Certificate.

(b) If the Dissemination Agent does not receive a Periodic Report by 15 calendar days prior to the Report Date, the Dissemination Agent shall send a reminder notice to the Developer that the Periodic Report has not been provided as required under Section 3(a) above. The reminder notice shall instruct the Developer to determine whether its obligations under this Disclosure Certificate have terminated (pursuant to Section 6 below) and, if so, to provide the Dissemination Agent with a notice of such termination in the same manner as for a Listed Event (pursuant to Section 5 below). If the Developer does not provide, or cause the Dissemination Agent to provide, a Periodic Report to the MSRB by the Report Date as required in subsection (a) above, the Dissemination Agent shall send a notice to the MSRB in substantially the form attached hereto as Exhibit A, with a copy to the Fiscal Agent (if other than the Dissemination Agent), the City and the Participating Underwriter.

(c) With respect to the Periodic Report, the Dissemination Agent shall, to the extent the Periodic Report has been furnished to it, file the Periodic Report with the MSRB and file a report with the Developer (if the Dissemination Agent is other than the Developer), the City and the Participating Underwriter certifying that the Periodic Report has been provided pursuant to this Disclosure Certificate, stating the date it was provided to and filed with the MSRB.

Section 4. Content of Periodic Reports. The Developer's Periodic Report shall contain or incorporate by reference the information set forth in Exhibit B relating to the Developer, any or all of which may be included by specific reference to other documents, including official statements of debt issues of the Developer or related public entities, which have been submitted to the MSRB or the Securities and Exchange Commission. If the document included by reference is a final official statement, it must be available from the MSRB. The Developer shall clearly identify each such other document so included by reference.

In addition to any of the information expressly required to be provided in Exhibit B, the Developer's Periodic Report shall include such further information, if any, as may be necessary to make the specifically required statements, in the light of the circumstances under which they are made, not misleading.

Section 5. Reporting of Significant Events.

(a) The Developer shall give, or cause to be given, notice of the occurrence of any of the following Listed Events with respect to itself or the Property, if material:

(i) bankruptcy or insolvency proceedings commenced by or against the Developer and, if known, any bankruptcy or insolvency proceedings commenced by or against any Affiliate of the Developer that is reasonably likely to have a significant impact on the Developer's ability to pay Special Taxes or to sell or develop the Property;

(ii) failure to pay any taxes, special taxes (including the Special Taxes) or assessments due with respect to the Property on or prior to the delinquency date;

(iii) filing of a lawsuit of which the Developer is aware against the Developer or an Affiliate seeking damages, which is reasonably likely to have a significant impact on the Developer's ability to pay Special Taxes or to sell or develop the Property;

(iv) material damage to or destruction of any of the improvements on the Property; and

(v) any payment default or other material default by the Developer on any loan with respect to the construction of improvements on the Property.

(b) Whenever the Developer obtains knowledge of the occurrence of a Listed Event, the Developer shall as soon as possible determine if such event would be material under applicable Federal securities law.

(c) If the Developer determines that knowledge of the occurrence of a Listed Event would be material under applicable Federal securities law, the Developer shall, or shall cause the Dissemination Agent to, promptly file a notice of such occurrence with the MSRB, with a copy to the Fiscal Agent, the City and the Participating Underwriter.

Section 6. Duration of Reporting Obligation.

(a) All the Developer's obligations hereunder shall commence on the date hereof and terminate (except as provided in Section 11) on the earliest to occur of the following:

(i) upon the legal defeasance, prior redemption or payment in full of all the Bonds, or

(ii) at such time as property owned by the Developer is no longer responsible for payment of 20% or more of the Special Taxes, or

(iii) the date on which the Developer prepays in full all of the Special Taxes attributable to the Property, or

(iv) the date on which (A) the Developer has completed construction of all buildings to be constructed within property it owns in the District and (B) each such building constructed by the Developer and intended for lease by the Developer has been, since completion of construction, at least 80% occupied at one time or another, if applicable.

The Developer shall give notice of the termination of its obligations under this Disclosure Certificate in the same manner as for a Listed Event under Section 5.

(b) If a portion of the Property owned by the Developer, or any Affiliate of the Developer, is conveyed to a Person that, upon such conveyance, will be a Major Owner, the obligations of the Developer hereunder with respect to the property in the District owned by such Major Owner and its Affiliates may be assumed by such Major Owner or by an Affiliate thereof, and if so assumed the Developer's obligations hereunder with respect to such portion of the Property will be terminated. In order to effect such an assumption, such Major Owner or Affiliate shall enter into an Assumption Agreement in form and substance reasonably satisfactory to the City and the Participating Underwriter. If not so assumed, the Developer shall report the information, as applicable to the transferee, required herein so long as the transferee is a Major Owner.

Section 7. Dissemination Agent. The Developer may, from time to time, appoint or engage a Dissemination Agent to assist the Developer in carrying out its obligations under this Disclosure Certificate, and may discharge any such Dissemination Agent, with or without appointing a successor Dissemination Agent. The Dissemination Agent may resign by providing thirty days' written notice to the City, the Developer and the Participating Underwriter.

Section 8. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, the Developer may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, provided that the following conditions are satisfied (provided, however, that the Dissemination Agent shall not be obligated under any such amendment that modifies or increases its duties or obligations hereunder without its written consent thereto):

(a) if the amendment or waiver relates to the provisions of sections 3(a), 4 or 5(a), it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of an obligated person with respect to the Bonds, or type of business conducted; and

(b) the proposed amendment or waiver either (i) is approved by holders of the Bonds in the manner provided in the Fiscal Agent Agreement, with the consent of holders, or (ii) does not, in the opinion of nationally recognized bond counsel, materially impair the interests of the holders or beneficial owners of the Bonds.

Section 9. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the Developer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Periodic Report or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the Developer chooses to include any information in any Periodic Report or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the Developer shall have no obligation under this Disclosure Certificate to update such information or include it in any future Periodic Report or notice of occurrence of a Listed Event.

Section 10. Default. In the event of a failure of the Developer to comply with any provision of this Disclosure Certificate, the Fiscal Agent shall (upon written direction and only to the extent indemnified to its satisfaction from any liability, cost or expense, including fees and expenses of its attorneys), and the Participating Underwriter and any holder or beneficial owner of the Bonds may, take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the Developer to comply with its obligations under this Disclosure Certificate. A default under this Disclosure Certificate shall not be deemed an Event of Default under the Fiscal Agent Agreement, and the sole and exclusive remedy under this Disclosure Certificate in the event of any failure of the Developer to comply with this Disclosure Certificate shall be an action to compel performance.

Section 11. Duties, Immunities and Liabilities of Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate, and the Developer agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents (each, an "Indemnified Party"), harmless against any loss, expense and liabilities which it may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the reasonable costs and expenses (including attorneys' fees) of defending against any claim of liability, but excluding loss, liabilities, costs and expenses due to an Indemnified Party's negligence or willful misconduct or failure to perform its duties hereunder. The Dissemination Agent shall be paid compensation for its services provided hereunder in accordance with its schedule of fees as amended from time to time, which schedule, as amended, shall be reasonably acceptable, and all reasonable expenses, reasonable legal fees and advances made or incurred by the Dissemination Agent in the performance of its duties hereunder. The Dissemination Agent shall have no duty or obligation to review any information

provided to it hereunder and shall not be deemed to be acting in any fiduciary capacity for the City, the Developer, the Fiscal Agent, the Bond owners, or any other party. The obligations of the Developer under this Section shall survive resignation or removal of the Dissemination Agent and payment of the Bonds.

Section 12. Notices. Any notice or communications to be among any of the parties to this Disclosure Certificate may be given as follows:

To the Developer	John Mourier Construction, Inc. Attn: _____ _____ _____
To the Dissemination Agent:	Willdan Financial Services 27368 Via Industria, Suite 200 Temecula, CA 92590
To the Issuer/City:	City of Roseville 311 Vernon Street Roseville, CA 95678 Attn: CFD Administrator
To the Fiscal Agent:	The Bank of New York Mellon Trust Company, N.A. 400 South Hope Street, Suite 400 Los Angeles, CA 90071 Attn: Corporate Trust
To the Participating Underwriter:	Piper Sandler & Co. Attn: _____ 2321 Rosecrans Avenue, Suite 3200, El Segundo, CA 90245

Any person may, by written notice to the other persons listed above, designate a different address or telephone number(s) to which subsequent notices or communications should be sent.

Section 13. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the City, the Developer (its successors and assigns), the Fiscal Agent, the Dissemination Agent, the Participating Underwriter and holders and beneficial owners from time to time of the Bonds, and shall create no rights in any other person or entity. All obligations of the Developer hereunder shall be assumed by any legal successor to the obligations of the Developer as a result of a sale, merger, consolidation or other reorganization.

Section 14. Counterparts. This Disclosure Certificate may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

IN WITNESS WHEREOF, the Developer has executed this Disclosure Certificate as of the date first above written.

EXHIBIT B

PERIODIC REPORT

This Periodic Report is hereby submitted under Section 4 of the Continuing Disclosure Certificate (the "Disclosure Certificate") dated _____ 1, 2020, executed by the undersigned (the "Developer") in connection with the issuance of the above-captioned bonds by the City of Roseville (the "City") with respect to its City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the "District").

Capitalized terms used in this Periodic Report but not otherwise defined have the meanings given to them in the Disclosure Certificate.

I. Property Ownership and Development

The information in this section is provided as of _____ (this date must be not more than 60 days before the date of this Periodic Report).

A. Property currently owned by the Developer in the District (the "Property"):

Development name: _____

Number of lots (acreage): _____

B. Status of land development or construction activities:

C. Status of building permits and any significant amendments to land use or development entitlements:

D. Aggregate property sold, optioned or leased by the Developer to end users or merchant builders:

Since the Date of
Issuance of the Bonds

Since the Last Periodic
Report

Acres* _____
Lots _____
Bldg. Sq. Ft. _____

Acres* _____
Lots _____
Bldg. Sq. Ft. _____

* For bulk land sales only (excluding sales of finished lots or completed buildings).

E. Status of any land purchase contracts with regard to the Property, whether acquisition of land in the District by the Developer or sales of land in the District to other property

owners, distinguishing between (i) end users (e.g., condominiums), (ii) developers and (iii) merchant builders.

F. With respect to occupied buildings owned and leased by Developer, (i) occupancy percentage and (ii) a rent roll consisting solely of (A) term of lease and (B) number of square feet subject to the lease, if applicable.

II. Legal and Financial Status of Developer

Unless such information has previously been included or incorporated by reference in a Periodic Report, describe any change in the legal structure of the Developer or the financial condition and financing plan of the Developer that would materially and adversely interfere with its ability to complete its development plan described in the Official Statement.

III. Change in Development or Financing Plans

Unless such information has previously been included or incorporated by reference in a Periodic Report, describe any development plans or financing plans relating to the Property *that are materially different from* the proposed development and financing plan described in the Official Statement.

IV. Official Statement Updates

Unless such information has previously been included or incorporated by reference in a Periodic Report, describe any other significant changes in the information relating to the Developer or the Property contained in the Official Statement under the heading "OWNERSHIP OF PROPERTY WITHIN THE DISTRICT" that would materially and adversely interfere with the Developer's ability to develop and sell the Property as described in the Official Statement.

V. Other Material Information

In addition to any of the information expressly required above, provide such further information, if any, as may be necessary to make the specifically required statements, in the light of the circumstances under which they are made, not misleading.

Certification

The undersigned Developer hereby certifies that this Periodic Report constitutes the Periodic Report required to be furnished by the Developer under the Disclosure Certificate.

ANY STATEMENTS REGARDING THE DEVELOPER, THE DEVELOPMENT OF THE PROPERTY, THE DEVELOPER'S FINANCING PLAN OR FINANCIAL CONDITION, OR THE BONDS, OTHER THAN STATEMENTS MADE BY THE DEVELOPER IN AN OFFICIAL RELEASE, OR FILED WITH THE MUNICIPAL SECURITIES RULEMAKING BOARD, ARE NOT AUTHORIZED BY THE DEVELOPER. THE DEVELOPER IS NOT RESPONSIBLE FOR THE ACCURACY, COMPLETENESS OR FAIRNESS OF ANY SUCH UNAUTHORIZED STATEMENTS.

THE DEVELOPER HAS NO OBLIGATION TO UPDATE THIS PERIODIC REPORT OTHER THAN AS EXPRESSLY PROVIDED IN THE DISCLOSURE CERTIFICATE.

APPENDIX F

SUMMARY OF CERTAIN PROVISIONS OF FISCAL AGENT AGREEMENT

APPENDIX G

DTC AND THE BOOK-ENTRY ONLY SYSTEM

The following description of the Depository Trust Company ("DTC"), the procedures and record keeping with respect to beneficial ownership interests in the 2020 Bonds, payment of principal, interest and other payments on the 2020 Bonds (herein, the "Securities") to DTC Participants or Beneficial Owners, confirmation and transfer of beneficial ownership interest in the Securities and other related transactions by and between DTC, the DTC Participants and the Beneficial Owners is based solely on information provided by DTC. Accordingly, no representations can be made concerning these matters and neither the DTC Participants nor the Beneficial Owners should rely on the foregoing information with respect to such matters, but should instead confirm the same with DTC or the DTC Participants, as the case may be.

Neither the issuer of the Securities (the "Issuer") nor the fiscal agent appointed with respect to the Securities (the "Agent") takes any responsibility for the information contained in this Appendix.

No assurances can be given that DTC, DTC Participants or Indirect Participants will distribute to the Beneficial Owners (a) payments of interest, principal or premium, if any, with respect to the Securities, (b) certificates representing ownership interest in or other confirmation or ownership interest in the Securities, or (c) redemption or other notices sent to DTC or Cede & Co., its nominee, as the registered owner of the Securities, or that they will so do on a timely basis, or that DTC, DTC Participants or DTC Indirect Participants will act in the manner described in this Appendix. The current "Rules" applicable to DTC are on file with the Securities and Exchange Commission and the current "Procedures" of DTC to be followed in dealing with DTC Participants are on file with DTC.

1. The Depository Trust Company ("DTC") will act as securities depository for the securities (the "Securities"). The Securities will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Security certificate will be issued for each issue of the Securities, each in the aggregate principal amount of such issue, and will be deposited with DTC. If, however, the aggregate principal amount of any issue exceeds \$500 million, one certificate will be issued with respect to each \$500 million of principal amount, and an additional certificate will be issued with respect to any remaining principal amount of such issue.

2. DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding

company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com. *The information contained on this Internet site is not incorporated herein by reference.*

3. Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC's records. The ownership interest of each actual purchaser of each Security ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Securities, except in the event that use of the book-entry system for the Securities is discontinued.

4. To facilitate subsequent transfers, all Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Securities may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Securities, such as redemptions, tenders, defaults, and proposed amendments to the Security documents. For example, Beneficial Owners of Securities may wish to ascertain that the nominee holding the Securities for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

6. Redemption notices shall be sent to DTC. If less than all of the Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

7. Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Securities unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting

rights to those Direct Participants to whose accounts Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

8. Redemption proceeds, distributions, and dividend payments on the Securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from Issuer or Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Agent, or Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of Issuer or Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

9. DTC may discontinue providing its services as depository with respect to the Securities at any time by giving reasonable notice to Issuer or Agent. Under such circumstances, in the event that a successor depository is not obtained, Security certificates are required to be printed and delivered.

10. Issuer may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered to DTC.

11. The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that Issuer believes to be reliable, but Issuer takes no responsibility for the accuracy thereof.

\$ _____
CITY OF ROSEVILLE
VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1
(PUBLIC FACILITIES)
SPECIAL TAX BONDS
SERIES 2020

BOND PURCHASE AGREEMENT

_____, 2020

City of Roseville
Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities)
311 Vernon Street
Roseville, California 95678

Ladies and Gentlemen:

The undersigned, Piper Sandler & Co., as underwriter (the “**Underwriter**”), acting not as a fiduciary or agent for you, but on behalf of itself, offers to enter into this Bond Purchase Agreement (this “**Purchase Agreement**”) with the City of Roseville (the “**City**”) for its Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the “**Community Facilities District**”), which upon acceptance will be binding upon the Underwriter and the City. The agreement of the Underwriter to purchase the Bonds (as hereinafter defined) is contingent upon the City satisfying all of the obligations imposed upon it under this Purchase Agreement. This offer is made subject to the City’s acceptance by the execution of this Purchase Agreement and its delivery to the Underwriter at or before 11:59 p.m., California time, on the date hereof, and, if not so accepted, will be subject to withdrawal by the Underwriter upon notice delivered to the City at any time prior to the acceptance hereof by the City. All capitalized terms used herein, which are not otherwise defined, shall have the meaning provided for such terms in the Fiscal Agent Agreement, dated as of July 1, 2019 as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the “**Fiscal Agent Agreement**”) by and between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (the “**Fiscal Agent**”).

1. Purchase, Sale and Delivery of the Bonds.

A. Subject to the terms and conditions and in reliance upon the representations, warranties and agreements set forth herein: the Underwriter hereby agrees to purchase from the City and the City hereby agrees to sell to the Underwriter all (but not less than all) of the \$ _____ aggregate principal amount of the City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2020 (the “**Bonds**”), dated the Closing Date (as hereinafter defined), bearing interest at the rates and maturing on the dates and in the principal amounts set forth in Appendix A hereto.

B. The purchase price for the Bonds shall be \$ _____ (being 100% of the aggregate principal amount thereof, plus net original issue premium of \$ _____, less an Underwriter’s discount of \$ _____).

The Underwriter agrees to make a bona fide initial public offering of all of the Bonds in compliance with federal and state securities laws, at a price not in excess of the initial offering prices

(or yields) set forth in Appendix A attached hereto and incorporated herein by reference. Subsequent to the initial public offering, the Underwriter reserves the right to change the public offering prices (or yields) as it deems necessary in connection with the offering of the Bonds, without any requirement of prior notice, provided that the Underwriter shall not change the interest rates set forth in Appendix A. The Bonds may be offered and sold to certain dealers at prices lower than such initial offering prices.

The Bonds shall be substantially in the form described in, shall be issued and secured under the provisions of, and shall be payable from the Special Taxes and certain other amounts as provided in the Fiscal Agent Agreement, the Preliminary Official Statement (as hereinafter defined), and the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, Part 1, Division 2, Title 5 of the Government Code of the State of California (the “**Community Facilities District Act**” or the “**Act**”). The issuance of the Bonds has been duly authorized by the City pursuant to a resolution (the “**Resolution**”), adopted by its City Council (the “**City Council**”) on behalf of the Community Facilities District, on _____, 2020. The Bonds are being issued on a parity basis with the \$12,540,000 initial principal amount of City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2019 (the “**2019 Bonds**”).

The proceeds of the Bonds shall be used to (i) construct and acquire certain public facilities of benefit to the Community Facilities District, (ii) provide for a deposit to a debt service reserve account for the Bonds, (iii) provide capitalized interest on the Bonds through [September 1, 2020], and (iv) pay costs of issuance of the Bonds.

C. The City hereby acknowledges that the Underwriter is entering into this Purchase Agreement in reliance on the representations, warranties and agreements made by the City on behalf of itself and on behalf of the Community Facilities District herein, and the City shall take all action necessary to enforce its rights hereunder for the benefit of the Underwriter and shall immediately notify the Underwriter if it becomes aware that any representation, warranty or agreement made by the City, on behalf of itself or on behalf of the Community Facilities District, herein is incorrect in any material respect.

D. The City acknowledges and agrees that: (i) the primary role of the Underwriter, as an underwriter, is to purchase securities for resale to investors in an arm’s-length commercial transaction between the City and the Underwriter and that the Underwriter has financial and other interests that differ from those of the City and the Community Facilities District; (ii) the Underwriter is not acting as a municipal advisor, financial advisor or fiduciary to the City, the Community Facilities District, or any other person or entity and has not assumed any advisory or fiduciary responsibility to the City or the Community Facilities District with respect to the transaction contemplated hereby and the discussions, undertakings and proceedings leading thereto (irrespective of whether the Underwriter has provided other services or is currently providing other services to the City or the Community Facilities District on other matters); (iii) the only obligations the Underwriter has to the City or the Community Facilities District with respect to the transaction contemplated hereby expressly are set forth in this Purchase Agreement, except as otherwise provided by applicable rules and regulations of the Securities and Exchange Commission or the rules of the Municipal Securities Rulemaking Board (the “**MSRB**”); and (iv) the City has consulted its own legal, accounting, tax, financial and other advisors, as applicable, to the extent it has deemed appropriate in connection with the transaction contemplated herein. The City acknowledges that it has previously provided the Underwriter with an acknowledgement of receipt of the required Underwriter disclosure under Rule G-17 of the MSRB and acknowledges that it has engaged Hilltop Securities Inc. (the “**Municipal Advisor**”), as its municipal advisor (as defined in Securities and

Exchange Commission Rule 15Ba1) and will rely solely on the Municipal Advisor for financial advice with respect to the Bonds.

E. Pursuant to the authorization of the City, the Underwriter has distributed copies of the Preliminary Official Statement dated _____, 2020, relating to the Bonds, which, together with the cover page, inside cover page and appendices thereto is herein called the **“Preliminary Official Statement.”** By its acceptance of this Purchase Agreement, the City hereby consents to and ratifies the use and distribution by the Underwriter of the Preliminary Official Statement, and the City agrees to execute a final official statement relating to the Bonds (the **“Official Statement”**) which will consist of the Preliminary Official Statement with such changes as may be made thereto, with the approval of Jones Hall, a Professional Corporation, Bond Counsel and Disclosure Counsel (herein called **“Bond Counsel”**), and the Underwriter, and to provide copies thereof to the Underwriter as set forth in Section 2(S) hereof. The City hereby authorizes and requires the Underwriter to use and promptly distribute, in connection with the offer and sale of the Bonds, the Preliminary Official Statement, the Official Statement and any supplement or amendment thereto. The City further authorizes the Underwriter to use and distribute, in connection with the offer and sale of the Bonds, the Fiscal Agent Agreement, this Purchase Agreement and all information contained herein, and all other documents, certificates and statements furnished by or on behalf of the City or the Community Facilities District to the Underwriter in connection with the transactions contemplated by this Purchase Agreement. The Preliminary Official Statement and/or the Official Statement may be delivered and printed in a “designated electronic format” as defined in the MSRB’s Rule G-32 and as may be agreed to by the City and the Underwriter. The City confirms that it does not object to distribution of the Preliminary Official Statement or the Official Statement in electronic form. A copy of the most recent Preliminary Official Statement sent to a potential purchaser shall be sent by first class mail or electronically (or other equally prompt means) not later than the first business day following the day upon which each such request is received.

F. To assist the Underwriter in complying with Securities and Exchange Commission Rule 15c2-12(b)(5) (the **“Rule”**), the City will undertake pursuant to the City Continuing Disclosure Certificate, in the form attached as an appendix to the Official Statement (the **“City Continuing Disclosure Certificate”**), to provide annual reports and notices of certain enumerated events. A description of this undertaking is set forth in the Preliminary Official Statement and will also be set forth in the Official Statement.

G. Except as the Underwriter and the City may otherwise agree, the City will deliver to the Underwriter, at the offices of Bond Counsel in San Francisco, California, or at such other location as may be mutually agreed upon by the Underwriter and the City, the documents hereinafter mentioned; and the City will deliver to the Underwriter through The Depository Trust Company’s (**“DTC”**) FAST delivery system, the Bonds, in definitive form (all Bonds bearing CUSIP® numbers printed thereon), duly executed by the City and authenticated by the Fiscal Agent in the manner provided for in the Fiscal Agent Agreement and the Community Facilities District Act at 8:00 a.m. California time, on _____, 2020 (the **“Closing Date”**), and the Underwriter will accept such delivery and pay the purchase price of the Bonds as set forth in paragraph (B) of this Section by wire transfer, payable in federal or other immediately available funds (such delivery and payment being herein referred to as the **“Closing”**). The Bonds shall be in fully registered book-entry form (which may be typewritten) and shall be registered in the name of Cede & Co., as nominee of DTC, which will act as securities depository for the Bonds, and the specimen Bonds will be made available for checking by the Underwriter not less than 5 days prior to the Closing.

H. Except as the City and the Underwriter may otherwise agree, the City will deliver to the Underwriter, at the offices of Bond Counsel in San Francisco, California, or at such

other location as may be mutually agreed upon by the Underwriter and the City, the documents hereinafter mentioned on the Closing Date.

2. Representations, Warranties and Covenants of the Community Facilities District. The City represents, warrants and covenants to the Underwriter, on behalf of itself and the Communities Facilities District, as the case may be, that:

A. The City is a municipal corporation duly organized and validly existing pursuant to the Constitution and laws of the State of California (the “**State**”), and has duly authorized the formation of the Community Facilities District pursuant to resolutions duly adopted by the City Council (the “**Community Facilities District Formation Resolution**” and, together with the Resolution, the “**Community Facilities District Resolutions**”) and the Act. The City Council, as the legislative body of the Community Facilities District, has duly adopted the Community Facilities District Formation Resolution, has duly adopted a Resolution and Ordinance levying the Special Taxes (for all purposes herein, as such are defined in the Fiscal Agent Agreement) within the Community Facilities District (the “**Ordinance**”), and has caused to be recorded in the real property records of Placer County, a notice of special tax lien (the “**Notice of Special Tax Lien**”) (the Community Facilities District Formation Resolution, the Ordinance, and the Notice of Special Tax Lien being collectively referred to herein as the “**Formation Documents**”), and the City Council has duly adopted the Resolution. Each of the Formation Documents remains in full force and effect as of the date hereof and has not been amended. The Community Facilities District is duly organized and validly existing as a community facilities district under the laws of the State. The City has, and at the Closing Date will have, as the case may be, full legal right, power and authority: (i) to execute, deliver and perform its obligations under this Purchase Agreement and the Fiscal Agent Agreement and to carry out all transactions contemplated by each of such agreements; (ii) to enter into the City Continuing Disclosure Certificate; and (iii) to carry out, give effect to and consummate the transactions contemplated by the Formation Documents, the Fiscal Agent Agreement, this Purchase Agreement and the Official Statement.

This Purchase Agreement, the Fiscal Agent Agreement, and the City Continuing Disclosure Certificate are collectively referred to herein as the “**City Documents**.”

B. By all necessary official action of the City, the City has duly authorized and approved the execution and delivery by the City of, and the performance by City of, the obligations on its part contained in, the City Documents and has approved the use and distribution by the Underwriter of the Preliminary Official Statement and the execution, use and distribution by the Underwriter of the Official Statement, and, as of the date hereof, such authorizations and approvals are in full force and effect and have not been amended, modified or rescinded. When executed and delivered by the parties thereto, the City Documents will constitute the legally valid and binding obligations of the City, on its own behalf and on behalf of the Communities Facilities District, enforceable upon the City and the Community Facilities District in accordance with their respective terms, except as enforcement may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws or equitable principles relating to or affecting creditors’ rights generally. To the best of the City’s knowledge, the City has complied, and will at the Closing Date be in compliance in all respects, with the terms of the City Documents that are applicable to the City, and the Community Facilities District has complied, and will at the Closing Date be in compliance in all respects, with the terms of the City Documents that are applicable to the Community Facilities District.

C. The information in the Preliminary Official Statement (other than statements pertaining to the book-entry system and under the headings “THE DISTRICT – Entitlements and Development,” as to which no view is expressed) as of its date was and as of the date hereof is, and

in the Official Statement (other than statements pertaining to the book-entry system and under the headings “THE DISTRICT – Entitlements and Development,” as to which no view is expressed) as of its date is, true and correct in all material respects and does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading; and, upon delivery and up to and including 25 days after the End of the Underwriting Period (as defined in paragraph (D) below), the Official Statement will be amended and supplemented so as to contain no misstatement of any material fact or material omission of any statement necessary to make the statements contained therein, in the light of the circumstances in which such statements were made, not misleading.

D. Up to and including 25 days after the End of the Underwriting Period (as defined below), the City will advise the Underwriter promptly of any proposal to amend or supplement the Official Statement and will not effect or consent to any such amendment or supplement without the consent of the Underwriter, which consent will not be unreasonably withheld. The City will advise the Underwriter promptly of the institution of any proceedings known to it by any governmental agency prohibiting or otherwise materially affecting the use of the Official Statement in connection with the offering, sale or distribution of the Bonds. As used herein, the term “End of the Underwriting Period” means the later of such time as: (i) the Bonds are delivered to the Underwriter; or (ii) the Underwriter does not retain, directly or as a member of an underwriting syndicate, an unsold balance of the Bonds for sale to the public. Unless the Underwriter gives notice to the contrary, the End of the Underwriting Period shall be deemed to be the Closing Date. Any notice delivered pursuant to this provision shall be written notice delivered to the City at or prior to the Closing Date and shall specify a date (other than the Closing Date) to be deemed the “End of the Underwriting Period.” If in the opinion of the Underwriter any such event or proceedings requires the preparation and distribution of a supplement or amendment to the Official Statement, the City shall prepare and furnish to the Underwriter, at the City’s expense, such number of copies of the supplement or amendment to the Official Statement, in (i) a “designated electronic format” consistent with the requirements of the MSRB’s Rule G-32 and (ii) a printed format form in substance mutually agreed upon by the City and the Underwriter as the Underwriter may reasonably request. If such amendment or supplement to the Official Statement shall be made subsequent to the Closing Date, the City also shall furnish, or cause to be furnished, such additional legal opinions, certificates, instruments and other documents as the Underwriter may reasonably deem necessary to evidence the truth and accuracy of any such supplement or amendment to the Official Statement.

E. As of the time of acceptance hereof and as of the Closing Date, the City and the Community Facilities District, as applicable, have each complied, and will at the Closing Date be in compliance in all material respects, with the Formation Documents and the City Documents, and any immaterial noncompliance by the City or the Community Facilities District, if any, will not impair the ability of the City or the Community Facilities District, as applicable, to carry out, give effect to or consummate the transactions contemplated by the foregoing. From and after the date of issuance of its Bonds, the City will continue to comply with the covenants of the City contained in the City Documents and it shall cause the Community Facilities District to continue to comply with the covenants of the Community Facilities District contained in the City Documents.

F. Except as described in the Preliminary Official Statement, neither the City nor the Community Facilities District is, and as of the Closing Date, neither will be, in any respect material to the transactions referred to herein or contemplated hereby, in breach of or in default under, any law or administrative rule or regulation of the State, the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the City or the Community Facilities District, as the case

may be, is a party or is otherwise subject or bound; and, to the City's knowledge, no event has occurred and is continuing which, with the passage of time or the giving of notice, or both, would constitute a default or event of default under any such instrument which breach, default or event could have an adverse effect on the City's ability or the Community Facilities District's ability to perform their respective obligations under the City Documents; and as of such times, except as disclosed in the Official Statement, the authorization, execution and delivery of the City Documents and compliance with the provisions of each thereof, or the performance of the conditions precedent to be performed by the City pursuant to this Purchase Agreement, will not conflict with or constitute a breach of or default under any applicable law or administrative rule or regulation of the State, the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the City is a party or is otherwise subject or bound, in any manner which would materially and adversely affect the performance by the City or the Community Facilities District of their respective obligations under the City Documents or the performance of the conditions precedent to be performed by the City pursuant to this Purchase Agreement. The City has received all licenses, permits or other regulatory approvals required, if any, for the pledge, collection and/or application by the Community Facilities District of the Special Taxes (as defined in the Fiscal Agent Agreement) and other moneys pledged to the payment of the principal of and interest on the Bonds under the Fiscal Agent Agreement.

G. Except as may be required under the "blue sky" or other securities laws of any jurisdiction, all approvals, consents, authorizations, elections and orders of, or filings or registrations with, any governmental authority, board, agency or commission having jurisdiction which would constitute a condition precedent to, or the absence of which would materially adversely affect, the performance by the City or the Community Facilities District of their respective obligations under the City Documents, and the performance of the conditions precedent to be performed by the City pursuant to this Purchase Agreement, have been or will be obtained at the Closing Date and are or will be in full force and effect at the Closing Date.

H. At the time of acceptance hereof there is and as of the Closing there will be no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, government agency, public board or body (collectively and individually, an "**Action**") pending (notice of which has been served on the City or the Community Facilities District) or to the best knowledge of the City or the Community Facilities District threatened, in which any such Action: (i) in any way questions the powers of the City Council or the existence of the Community Facilities District or the titles of the officers of the City and/or the Community Facilities District to their respective offices; (ii) affects, contests or seeks to prohibit, restrain or enjoin the issuance or delivery of the Bonds or the payment or collection of Special Taxes or any amounts pledged or to be pledged to pay the principal of and interest on the Bonds, or in any way contests or affects the validity of the City Documents or the consummation of the transactions on the part of the City or the Community Facilities District contemplated thereby; (iii) contests the exclusion of interest on the Bonds from federal or State income taxation or contests the powers of the City or the Community Facilities District which may result in any material adverse change relating to the financial condition of the City or the Community Facilities District; (iv) except as disclosed in the Official Statement, wherein an unfavorable decision, ruling or finding would materially adversely affect the financial position or condition of the City or the Community Facilities District or would result in any material adverse change in the ability of the City to pledge or apply the Special Taxes or to pay debt service on the Bonds; or (v) contests the completeness or accuracy of the Preliminary Official Statement or the Official Statement or any supplement or amendment thereto or asserts that the Preliminary Official Statement or the Official Statement contained any untrue statement of a material fact or omitted to

state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; and as of the time of acceptance hereof there is and, as of the Closing Date, there will be no known basis for any Action of the nature described in clauses (i) through (v) of this sentence.

I. The City will furnish such information, execute such instruments and take such other action in cooperation with the Underwriter and at the expense of the Underwriter as the Underwriter may reasonably request in order: (i) to qualify the Bonds for offer and sale under the “blue sky” or other securities laws and regulations of such states and other jurisdictions of the United States of America as the Underwriter may designate; and (ii) to determine the eligibility of the Bonds for investment under the laws of such states and other jurisdictions and will use its best efforts to continue such qualifications in effect so long as required for the distribution of the Bonds, provided; however, that the City will not be required to execute a special or general consent to service of process or qualify as a foreign corporation in connection with any such qualification in any jurisdiction.

J. The City Documents conform as to form and tenor to the descriptions thereof contained in the Preliminary Official Statement. The City represents that the Bonds, when issued, executed and delivered in accordance with the Fiscal Agent Agreement and sold to the Underwriter as provided herein, will be validly issued and outstanding obligations of the City, entitled to the benefits of the Fiscal Agent Agreement. The City and the Community Facilities District will each comply with the covenant in the Fiscal Agent Agreement to cause the Special Taxes to be levied and collected at the same time and in the same manner as ordinary *ad valorem* property taxes. The Fiscal Agent Agreement creates a valid pledge of, first lien upon and security interest in, the Special Taxes, and in the moneys in the Special Tax Fund established pursuant to the Fiscal Agent Agreement, on the terms and conditions set forth in the Fiscal Agent Agreement. The Fiscal Agent Agreement creates a valid pledge of the moneys in certain funds and accounts established pursuant to the Fiscal Agent Agreement, subject in all cases to the provisions of the Fiscal Agent Agreement permitting the application thereof for the purposes and on the terms and conditions set forth therein.

K. Except as disclosed in the Preliminary Official Statement, there are, to the best of the City’s knowledge, no entities with outstanding assessment liens against any of the properties within the Community Facilities District which are senior to or on a parity with the Special Taxes.

L. The issuance and sale of the Bonds is not subject to any transfer or other documentary stamp taxes of the State or any political subdivision thereof.

M. The City shall not knowingly take or omit to take any action that, under existing law, may adversely affect the exclusion from gross income for federal income tax purposes, or the exemption from State of California personal income tax, of the interest on the Bonds. The City has not been notified of any listing or proposed listing by the Internal Revenue Service to the effect that the City is a bond issuer whose arbitrage certifications may not be relied upon.

N. Any certificate signed on behalf of the Community Facilities District by any officer or employee of the City authorized to do so and delivered to the Underwriter in connection with the issuance and sale of the Bonds shall be deemed to be a representation and covenant by the Community Facilities District to the Underwriter as to the statements made therein.

O. The City will apply the proceeds of the Bonds in accordance with the Fiscal Agent Agreement and as described in the Official Statement.

P. At or prior to the Closing, the City will have duly authorized, executed and delivered the City Continuing Disclosure Certificate. Based on a review of previous undertakings, the Preliminary Official Statement and the Official Statement describe the instances in which the City has failed to comply with any previous undertakings with regard to the Rule to provide annual reports or notices of enumerated events in the last five years.

Q. Between the date of this Purchase Agreement and the date of Closing, the City will not offer or issue any bonds, notes or other obligations for borrowed money not previously disclosed to the Underwriter and the City shall not create, assume or guarantee any indebtedness payable from, or pledge or otherwise encumber, the Special Taxes or other assets, properties, funds or interests that will be pledged as security for the Bonds pursuant to the City Documents.

R. Until such time as moneys have been set aside in an amount sufficient to pay all then outstanding Bonds at maturity or to the date of redemption if redeemed prior to maturity, plus unpaid interest thereon and premium, if any, to maturity or to the date of redemption if redeemed prior to maturity, the City will faithfully perform and abide by all of the covenants, undertakings and provisions contained in the Fiscal Agent Agreement.

S. The Preliminary Official Statement was deemed final by a duly authorized officer of the City prior to its delivery to the Underwriter, except for the omission of such information as is permitted to be omitted in accordance with paragraph (b)(1) of the Rule. The City hereby covenants and agrees that, within seven (7) business days from the date hereof, or upon reasonable written notice from the Underwriter within sufficient time to accompany any confirmation requesting payment from any customers of the Underwriter, the City shall cause a final electronic and/or printed form of the Official Statement as set forth in Section 1 above to be delivered to the Underwriter in sufficient quantity to comply with paragraph (b)(4) of the Rule and Rules G-12, G-15, G-32 and G-36 of the Municipal Securities Rulemaking Board.

T. The City hereby approves the preparation and distribution of the Official Statement, consisting of the Preliminary Official Statement with such changes as are noted thereon and as may be made thereto, with the approval of Bond Counsel and the Underwriter from time to time prior to the Closing Date.

U. The issuance of the Bonds complies with the City's "Local Agency Goals and Policies for Community Facilities Districts," pursuant to Section 53312.7 of the Act.

V. The City hereby ratifies any prior use of and authorizes the future use by the Underwriter, in connection with the offering and sale of the Bonds, of the Preliminary Official Statement, the Official Statement, this Purchase Agreement and all information contained herein, and all other documents, certificates and written statements furnished by the City to the Underwriter in connection with the transactions contemplated by this Purchase Agreement.

The execution and delivery of this Purchase Agreement by the City shall constitute a representation by the City to the Underwriter that the representations and warranties contained in this Section 2 with respect to the City and the Community Facilities District are true as of the date hereof.

3. Conditions to the Obligations of the Underwriter. The obligation of the Underwriter to accept delivery of and pay for the Bonds on the Closing Date shall be subject, at the option of the Underwriter, to the accuracy in all material respects of the representations and warranties on the part of the City, on its own behalf and on behalf of the Community Facilities District, contained herein, to the accuracy in all material respects of the statements of the officers and other officials of the City

and the Community Facilities District made in any certificates or other documents furnished pursuant to the provisions hereof, to the performance by the City and the Community Facilities District of their obligations to be performed hereunder at or prior to the Closing Date and, to the following additional conditions:

A. At the Closing Date, the Community Facilities District Resolutions, the Formation Documents, and the City Documents shall be in full force and effect, and shall not have been amended, modified or supplemented, except as may have been agreed to in writing by the Underwriter, and there shall have been taken in connection therewith, with the issuance of the Bonds, and with the transactions contemplated thereby, and by this Purchase Agreement, all such actions as, in the opinion of Bond Counsel, shall be necessary and appropriate.

B. At the Closing Date, except as was described in the Preliminary Official Statement, neither the City nor the Community Facilities District shall be, in any respect material to the Bonds, the City Documents or the transactions referred to herein or contemplated hereby, in breach of or in default under, any law or administrative rule or regulation of the State, the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the City or the Community Facilities District, respectively, is a party or is otherwise subject or bound, and the performance by the City or the Community Facilities District, respectively, of its obligations under the Bonds, the City Documents, the Community Facilities District Resolutions, this Purchase Agreement and any other instruments contemplated by any of such documents, and compliance with the provisions of each thereof, will not conflict with or constitute a breach of or default under any applicable law or administrative rule or regulation of the State, the United States of America or of any department, division, agency or instrumentality of either thereof or under any applicable court or administrative decree or order or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the City or the Community Facilities District, respectively, is a party or is otherwise subject or bound, in any manner which would materially and adversely affect the performance by the City or the Community Facilities District, respectively, of its obligations under the City Documents, the Bonds or the Community Facilities District Resolutions.

C. The information contained in the Official Statement is, as of the Closing Date and as of the date of any supplement or amendment thereto pursuant hereto, true and correct in all material respects and does not, as of the Closing Date or as of the date of any supplement or amendment thereto, contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading.

D. The Underwriter shall have the right to cancel its obligation to purchase the Bonds and to terminate this Purchase Agreement by written notice to the City if, between the date of this Purchase Agreement and the Closing Date, in the Underwriter's sole and reasonable judgment any of the following events shall occur (each a "**Termination Event**"):

1. Between the date hereof and the Closing Date, the market price or marketability, at the initial offering prices set forth on the cover page of the Official Statement, of the Bonds, or the ability of the Underwriter to enforce contracts for the sale of the Bonds, shall have been materially adversely affected, in the judgment of the Underwriter (evidenced by a written notice to the City terminating the obligation of the Underwriter to accept delivery of and pay for the Bonds), by reason of any of the following:

a. Legislation introduced in or enacted (or resolution passed) by the Congress of the United States of America or the legislature of the State or recommended to the Congress by the President of the United States of America or a member of the President's Cabinet, the Department of the Treasury, the Internal Revenue Service or any member of Congress or favorably reported for passage to either House of Congress by any committee of such House to which such legislation had been referred for consideration, or a decision rendered by a court established under Article III of the Constitution of the United States of America or by the Tax Court of the United States of America, or an order, ruling, regulation (final, temporary or proposed), press release or other form of notice issued or made by or on behalf of the Treasury Department of the United States of America, the Internal Revenue Service or other federal or State authority with appropriate jurisdiction, with the purpose or effect, directly or indirectly, of imposing federal or State income taxation upon such interest as would be received by any owners of the Bonds beyond the extent to which such interest is subject to taxation as of the date hereof;

b. Legislation introduced in or enacted (or resolution passed) by the Congress, or shall have been favorably reported out of committee or be pending in committee, or shall have been recommended to the Congress for passage by the President of the United States of America or a member of the President's Cabinet, or an order, decree, injunction or decision issued by any court of competent jurisdiction, or an order, ruling, regulation (final, temporary or proposed), press release, statement or other form of notice issued or made by or on behalf of the Securities and Exchange Commission, or any other governmental agency having jurisdiction of the subject matter, to the effect that obligations of the general character of the Bonds, the Resolution or the City Documents, are not exempt from registration under or other requirements of the Securities Act of 1933, as amended, or that the Fiscal Agent Agreement is not exempt from qualification under or other requirements of the Trust Indenture Act of 1939, as amended, or that the issuance, offering or sale of obligations of the general character of the Bonds, as contemplated hereby or by the Official Statement or otherwise, is or would be in violation of the federal securities laws as amended and then in effect;

c. A general suspension of trading in securities on the New York Stock Exchange or other major exchange shall be in force, or minimum or maximum prices for trading shall have been fixed and be in force, or maximum ranges for prices for securities shall have been required and be in force on any such exchange, whether by virtue of determination by that exchange or by order of the Securities and Exchange Commission or any other governmental authority having jurisdiction;

d. There shall have occurred (1) an outbreak or escalation of hostilities or the declaration by the United States of a national emergency or war or (2) any other calamity or crisis in the financial markets of the United States or elsewhere or the escalation of such calamity or crisis;

e. Except as disclosed in or contemplated by the Official Statement, any material adverse change in the affairs of the City or the Community Facilities District shall have occurred;

2. The introduction, proposal or enactment of any amendment to the federal or California Constitution or any action by any federal or State court, legislative body, regulatory body or other authority materially adversely affecting the tax status of the City or the Community Facilities District, their property, income, securities (or interest thereon), the validity or enforceability of Special Taxes;

3. Any event occurring or information becoming known which, in the judgment of the Underwriter, makes untrue or incorrect in any material respect any statement or information contained in the Preliminary Official Statement or in the Official Statement or has the effect that the Preliminary Official Statement or the Official Statement contains any untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

4. A general banking moratorium shall have been declared by federal, State of New York or State of California officials authorized to do so or a material disruption in securities settlement, payment or clearance services affecting the Bonds shall have occurred;

5. Any new restriction on transactions in securities materially affecting the market for securities (including the imposition of any limitation in interest rates) or the extension of credit by, or a charge to the net capital requirements of, underwriters shall have been established by the New York Stock Exchange, the Comptroller of the Currency, the Securities and Exchange Commission or any other federal or State agency or the Congress of the United States of America, or by Executive Order;

6. A decision by a court of the United States of America shall be rendered, or a stop order, release, regulation or no-action letter by or on behalf of the Securities and Exchange Commission or any other governmental agency having jurisdiction of the subject matter shall have been issued or made, to the effect that the issuance, offering or sale of the Bonds as contemplated by this Purchase Agreement or by the Official Statement, or any document relating to the issuance, offering or sale of the Bonds is or would be in violation of any provision of the federal securities laws at the Closing Date, including the Securities Act of 1933, the Securities Exchange Act of 1934 and the Trust Indenture Act of 1939;

7. Any proceeding shall have been commenced or be threatened in writing by the Securities and Exchange Commission against the City or the Community Facilities District.

8. The commencement of an Action described in Section 2(H).

Upon the occurrence of a Termination Event and the termination of this Purchase Agreement by the Underwriter, all obligations of the City, the Community Facilities District, and the Underwriter under this Agreement shall terminate, without further liability, except that the City and the Underwriter shall pay their respective expenses as set forth in Section 6 below.

E. At or prior to the Closing Date, the Underwriter shall have received a counterpart original or certified copy of the following documents, in each case satisfactory in form and substance to the Underwriter:

1. Official Statement. The Official Statement and each supplement or amendment, if any thereto, executed by an authorized officer of the City;

2. Fiscal Agent Agreement. The Fiscal Agent Agreement, duly executed and delivered by the City and the Fiscal Agent;

3. Resolutions. Certifications by the City Clerk with respect to each resolution and ordinance of the City Council, for the City or as the legislative body of the

Community Facilities District, relating to the City Documents, the transactions contemplated thereby, formation of the Community Facilities District and issuance of the Bonds;

4. City Continuing Disclosure Certificate. The City Continuing Disclosure Certificate executed and delivered by the City;

5. Bond Counsel Opinion. An unqualified approving opinion for the Bonds, dated the Closing Date and addressed to the City, of Bond Counsel, to the effect that the Bonds are the valid, legal and binding obligations of the City and that the interest thereon is excluded from gross income for federal income tax purposes and exempt from personal income taxes of the State, in substantially the form included as Appendix D to the Official Statement, together with a letter of Bond Counsel, dated the Closing Date and addressed to the Underwriter, to the effect that such opinion addressed to the City may be relied upon by the Underwriter to the same extent as if such opinion was addressed to it;

6. Supplemental Opinion. A supplemental opinion or opinions, dated the Closing Date and addressed to the Underwriter, of Bond Counsel, to the effect that:

(i) this Purchase Agreement has been duly authorized, executed and delivered by the City and, assuming due authorization, execution and delivery by the other parties thereto, constitutes the legal, valid and binding agreement of the City and is enforceable in accordance with its terms, except to the extent that enforceability may be limited by moratorium, bankruptcy, reorganization, insolvency or other similar laws affecting creditors' rights generally or by the exercise of judicial discretion in accordance with general principles of equity or otherwise in appropriate cases and by limitations on legal remedies against public agencies in the State;

(ii) the Bonds are not subject to the registration requirements of the Securities Act of 1933, as amended, and the Fiscal Agent Agreement is exempt from qualification under the Trust Indenture Act of 1939, as amended;

(iii) the information contained in the Official Statement on the cover and under the captions "THE BONDS" (other than by reference Appendix G – THE BOOK ENTRY SYSTEM), "SECURITY AND SOURCES OF PAYMENT FOR THE BONDS," "LEGAL OPINION," "TAX MATTERS" and in Appendices D and F to the Official Statement (excluding any financial, statistical and economic data, forecasts, numbers, charts, graphs, estimates, projections, and assumptions and any information regarding The Depository Trust Company and the book-entry system as to which Bond Counsel need express no opinion or view, and further, excluding any material that may be treated as included under such captions by cross-reference), are accurate insofar as such statements purport to summarize certain provisions of the Bonds, the Fiscal Agent Agreement, Bond Counsel's final approving opinion and the Community Facilities District Act; and

(iv) the Community Facilities District has been duly formed, and the Special Taxes have been duly and validly levied in accordance with the provisions of the Act and, except to the extent prohibited by moratorium, bankruptcy, reorganization, fraudulent conveyance or transfer, insolvency or other similar laws affecting creditors' rights generally, a lien to secure payment of the Special Taxes has been imposed on taxable property in the Community Facilities District;

7. City Attorney Opinion. An opinion, dated the Closing Date and addressed to the Underwriter, of the City Attorney to the City and counsel to the Community Facilities District, substantially in the form of Appendix B hereto;

8. Closing Certificate of the City. A certificate, dated the Closing Date, and signed by an authorized officer of the City substantially in the form of Appendix C hereto, together with such additional certifications as Bond Counsel may require;

9. Bank Incumbency Certificate. Certified copies of the general resolution of the Fiscal Agent authorizing the execution and delivery of certain documents by certain officers of the Fiscal Agent, which resolution authorizes the execution of the Fiscal Agent Agreement and the authentication of the Bonds;

10. Fiscal Agent's Certificate. A certificate of the Fiscal Agent, dated the Closing Date, in form and substance acceptable to the Underwriter and its counsel, substantially in the form of Appendix D hereto;

11. Fiscal Agent's Counsel Opinion. An opinion of counsel to the Fiscal Agent, dated the Closing Date, addressed to the Underwriter and the City, substantially in the form of Appendix E hereto;

12. Disclosure Counsel Opinion. An opinion, dated the Closing Date and addressed to the Underwriter and to the City, of Jones Hall, a Professional Corporation, as disclosure counsel ("**Disclosure Counsel**"), in form and substance acceptable to the Underwriter;

13. Opinion of Underwriter's Counsel. An opinion of Kutak Rock LLP, counsel to the Underwriter, dated the date of the Closing, addressed to the Underwriter, in form and substance acceptable to the Underwriter;

14. Special Tax Consultant Certificate. A certificate, dated the Closing Date from Willdan Financial Services substantially in the form attached as Appendix F hereto;

15. Transcript. A transcript of all proceedings relating to the authorization, issuance, sale and delivery of the Bonds, including certified copies of the Fiscal Agent Agreement and all resolutions of the City and the Community Facilities District relating thereto;

16. Nonarbitrage Certificate. A certificate of the City, dated the Closing Date, in a form acceptable to Bond Counsel and the Underwriter, that the Bonds are not arbitrage bonds within the meaning of Section 148 of the Internal Revenue Code of 1986, as amended;

17. Specimen Bonds. Copies of the Specimen Bonds;

18. Issue Price Certificate. An issue price certificate of the Underwriter in the form attached as Appendix K hereto;

19. Certificate of Underwriter. A certificate from the Underwriter to the City, in form satisfactory to the City and signed by an authorized officer of the Underwriter, accepting delivery of the Bonds to the Underwriter and receipt of all documents required by the Underwriter, and the satisfaction or waiver of all conditions and terms of this Purchase Agreement by the City, and confirming to the City that as of the Closing Date, all of the representations of the

Underwriter contained in this Purchase Agreement are true, complete and correct in all material respects;

20. Form 8038-G. An Information Return for Tax-Exempt Bond Issues (Internal Revenue Service Form 8038-G), in a form satisfactory to Bond Counsel for filing, executed by a duly authorized officer of the City, together with evidence that such Form 8038-G has been mailed;

21. CDIAC Statements. Copies of filings with the California Debt and Investment Advisory Commission relating to the issuance of the Bonds;

22. Letter of Representations. A copy of the Blanket Letter of Representations to DTC relating to the Bonds signed by the City;

23. Certificate Regarding Preliminary Official Statement. Prior to and in connection with printing and distribution of the Preliminary Official Statement, (i) an executed certificate of the City, and (ii) an executed certificate of John Mourier Construction, Inc. (“**JMC Homes**” or the “**Property Owner**”) in the form under Appendix G hereto.

24. Property Owner Continuing Disclosure Certificate. An executed copy of the Property Owner Continuing Disclosure Certificate from JMC Homes in the form included as an appendix to the Official Statement.

25. Property Owner Bring-Down Certificate. An executed bring-down certificate from JMC Homes, dated as of the Closing Date, in forms and substance as set forth in Appendix H hereto.

26. Property Owner Counsel Opinion. The opinion of counsel to JMC Homes in the form attached under Appendix I hereto, addressed to the City and the Underwriter.

27. Appraiser Closing Certificate. A certificate in form and substance as set forth in Appendix J hereto of Integra Realty Resources, the appraiser of the property within the Community Facilities District, dated as of the Closing Date.

28. Parity Bonds Certificate. A certificate in form and substance required pursuant to the Fiscal Agent Agreement regarding the issuance of the Bonds as Additional Bonds on a parity with the 2019 Bonds.

29. Additional Documents. Such additional legal opinions, certificates, instruments and other documents as the Underwriter may reasonably request to evidence the truth and accuracy, as of the date hereof and as of the Closing Date, of the material representations and warranties of the City, on its own behalf and on behalf of the Community Facilities District, contained herein, and of the statements and information contained in the Official Statement and the due performance or satisfaction by the City at or prior to the Closing of all agreements then to be performed and all conditions then to be satisfied by the City and the Community Facilities District in connection with the transactions contemplated hereby and by the Fiscal Agent Agreement and the Official Statement.

If the City shall be unable to satisfy the conditions to the obligations of the Underwriter to purchase, accept delivery of and pay for the Bonds contained in this Purchase Agreement, or if the obligations of the Underwriter to purchase, accept delivery of and pay for the Bonds shall be

terminated for any reason permitted by this Purchase Agreement, this Purchase Agreement shall terminate and neither the City nor the Underwriter shall be under any further obligation hereunder, except that the respective obligations of the Underwriter and the City set forth in Section 6 hereof shall continue in full force and effect.

4. Representations and Agreements of the Underwriter. The Underwriter represents to and agrees with the City that, as of the date hereof and as of the date of the Closing:

A. The Underwriter is duly authorized to execute and deliver this Purchase Agreement and to take any action under the Purchase Agreement required to be taken by it.

B. The Underwriter is in compliance with MSRB Rule G-37 with respect to the City and the Community Facilities District, and is not prohibited thereby from acting as underwriter with respect to securities of the City and the Community Facilities District. The Underwriter is in compliance with MSRB Rule G-17 with respect to the City and the Community Facilities District.

C. The Underwriter has, and has had, no financial advisory relationship with the City or the Community Facilities District with respect to the Bonds, and no investment firm controlling, controlled by or under common control with the Underwriter has or has had any such financial advisory relationship, within the meaning of California Government Code Section 53590, or otherwise.

D. The Underwriter has not paid or agreed to pay, nor will it pay or agree to pay, any entity, company, firm or person (including, but not limited to, the City's financial consultants, or any officer, agent or employee thereof), other than a bona fide officer, agent or employee working for the Underwriter, any compensation, fee, gift or other consideration contingent upon or resulting from the award of or entering into this Purchase Agreement.

E. The Underwriter has reasonably determined that the City's undertaking in the City Continuing Disclosure Certificate to provide continuing disclosure with respect to the Bonds is sufficient to effect compliance with the Rule.

5. Establishment of Issue Price.

A. The Underwriter agrees to assist the City in establishing the issue price of the Bonds and shall execute and deliver to the City at Closing an "issue price" or similar certificate, together with the supporting pricing wires or equivalent communications, substantially in the form attached hereto as Appendix K, with such modifications as may be appropriate or necessary, in the reasonable judgment of the Underwriter, the City and Bond Counsel, to accurately reflect, as applicable, the sales price or prices or the initial offering price or prices to the public of the Bonds.

B. Except as otherwise set forth in Appendix A attached hereto, the City will treat the first price at which 10% of each maturity of the Bonds (the "**10% test**") is sold to the public as the issue price of that maturity. At or promptly after the execution of this Purchase Agreement, the Underwriter shall report to the City the price or prices at which it has sold to the public each maturity of Bonds. If at that time the 10% test has not been satisfied as to any maturity of the Bonds, the Underwriter agrees to promptly report to the City the prices at which it sells the unsold Bonds of that maturity to the public. That reporting obligation shall continue, whether or not the Closing Date has occurred, until either (i) the Underwriter has sold all Bonds of that maturity or (ii) the 10% test has been satisfied as to the Bonds of that maturity, provided that, the Underwriter's reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the City

or Bond Counsel. For purposes of this Section, if Bonds mature on the same date but have different interest rates, each separate CUSIP number within that maturity will be treated as a separate maturity of the Bonds.

C. The Underwriter confirms that it has offered the Bonds to the public on or before the date of this Purchase Agreement at the offering price or prices (the “**initial offering price**”), or at the corresponding yield or yields, set forth in Appendix A attached hereto, except as otherwise set forth therein. Appendix A also sets forth, as of the date of this Purchase Agreement, the maturities, if any, of the Bonds for which the Underwriter represents that (i) the 10% test has been satisfied (assuming orders are confirmed by the close of the business day immediately following the date of this Purchase Agreement) and (ii) the 10% test has not been satisfied and for which the City and the Underwriter agree that the restrictions set forth in the next sentence shall apply, which will allow the City to treat the initial offering price to the public of each such maturity as of the sale date as the issue price of that maturity (the “**hold-the-offering-price rule**”). So long as the hold-the-offering-price rule remains applicable to any maturity of the Bonds, the Underwriter will neither offer nor sell unsold Bonds of that maturity to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

- a. the close of the fifth (5th) business day after the sale date; or
- b. the date on which the Underwriter has sold at least 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

The Underwriter will advise the City promptly after the close of the fifth (5th) business day after the sale date whether it has sold 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

D. The Underwriter confirms that:

(i) any selling group agreement and any third-party distribution agreement relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each dealer who is a member of the selling group and each broker-dealer that is a party to such third-party distribution agreement, as applicable:

(A)(i) to report the prices at which it sells to the public the unsold Bonds of each maturity allocated to it, whether or not the Closing Date has occurred, until either all Bonds of that maturity allocated to it have been sold or it is notified by the Underwriter that the 10% test has been satisfied as to the Bonds of that maturity, provided that, the reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the Underwriter and (ii) to comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the Underwriter,

(B) to promptly notify the Underwriter of any sales of Bonds that, to its knowledge, are made to a purchaser who is a related party to an underwriter participating in the initial sale of the Bonds to the public (each such term being used as defined below), and

(C) to acknowledge that, unless otherwise advised by the dealer or broker-dealer, the Underwriter shall assume that each order submitted by the dealer or broker-dealer is a sale to the public.

(ii) any selling group agreement relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each dealer that is a party to a third-party distribution agreement to be employed in connection with the initial sale of the Bonds to the public to require each broker-dealer that is a party to such third-party distribution agreement to (A) report the prices at which it sells to the public the unsold Bonds of each maturity allocated to it, whether or not the Closing Date has occurred, until either all Bonds of that maturity allocated to it have been sold or it is notified by the Underwriter or the dealer that the 10% test has been satisfied as to the Bonds of that maturity, provided that, the reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the Underwriter or the dealer, and (B) comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the Underwriter or the dealer and as set forth in the related pricing wires.

E. The City acknowledges that, in making the representation set forth in this section, the Underwriter will rely on (i) in the event a selling group has been created in connection with the initial sale of the Bonds to the public, the agreement of each dealer who is a member of the selling group to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, as set forth in a selling group agreement and the related pricing wires, and (ii) in the event that a third-party distribution agreement was employed in connection with the initial sale of the Bonds to the public, the agreement of each broker-dealer that is a party to such agreement to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, as set forth in the third-party distribution agreement and the related pricing wires. The City further acknowledges that the Underwriter shall not be liable for the failure of any dealer who is a member of a selling group, or of any broker-dealer that is a party to a third-party distribution agreement, to comply with its corresponding agreement to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds.

F. The Underwriter acknowledges that sales of any Bonds to any person that is a related party to an underwriter participating in the initial sale of the Bonds to the public (each such term being used as defined below) shall not constitute sales to the public for purposes of this section. Further, for purposes of this section:

a. “public” means any person other than an underwriter or a related party;

b. “underwriter” means (A) any person that agrees pursuant to a written contract with the City (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the public and (B) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (A) to participate in the initial sale of the Bonds to the public (including a member of a selling group or a party to a third-party distribution agreement participating in the initial sale of the Bonds to the public);

c. a purchaser of any of the Bonds is a “related party” to an underwriter if the underwriter and the purchaser are subject, directly or indirectly, to (A) more than 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (B) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (C) more than

50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other); and

d. “sale date” means the date of execution of this Purchase Agreement by all parties.

6. Expenses.

A. Whether or not the Underwriter accepts delivery of and pays for the Bonds as set forth herein, it shall be under no obligation to pay, and the City shall pay out of the proceeds of the Bonds or any other legally available funds of the City, all expenses incidental to the performance of the City’s obligations hereunder, including but not limited to the cost of printing and delivering the Bonds to the Underwriter; the costs of printing and shipping the Preliminary Official Statement and the Official Statement; the fees and disbursements of the City, the Community Facilities District, the Fiscal Agent, Bond Counsel, Disclosure Counsel, accountants and any other experts or consultants retained by the City or the Community Facilities District in connection with the issuance and sale of the Bonds; and any other expenses not specifically enumerated in paragraph (B) of this Section incurred in connection with the issuance and sale of the Bonds.

B. Whether or not the Bonds are delivered to the Underwriter as set forth herein, the City shall be under no obligation to pay, and the Underwriter shall be responsible for and pay, CUSIP® and CDIAF fees and expenses to qualify the Bonds for sale under any “blue sky” laws; and all other expenses incurred by the Underwriter in connection with its public offering and distribution of the Bonds not specifically enumerated in paragraph (A) of this Section, including the fees and disbursements of its counsel.

7. Undertakings of the City. The City agrees: (a) to inform the Underwriter, from time to time, upon the reasonable request of the Underwriter, of the amount then on deposit in the Reserve Fund and all accounts thereunder; and (b) to make available to the Underwriter, upon reasonable request of the Underwriter, at the expense of the City, sufficient copies of its audited financial statements, if any, and any resolutions of its legislative body with respect to the Community Facilities District Resolutions, the Bonds, the Fiscal Agent Agreement, the Official Statement, any amendments or supplements thereto, and other documents relating to the Bonds and pertaining to the City or the Community Facilities District adopted or executed, as the case may be, after the Closing Date, to the extent that such documents are publicly available.

8. Notices. Any notice of other communication to be given to the City under this Purchase Agreement may be given by delivering the same in writing to the City of Roseville, 311 Vernon Street, Roseville, California 95678, Attention: Finance Director; any notice or other communication to be given to the Underwriter under this Purchase Agreement may be given by delivering the same in writing to Piper Sandler & Co., 2321 Rosecrans Ave., Suite 3200, El Segundo, California 90245 Attention: Public Finance. All such notices, requests or other communications may be made by telephone, personal or courier delivery, registered or certified mail, facsimile transmission or electronic communication, provided that delivery by facsimile transmission or electronic communication must be confirmed by the sender. The City and the Underwriter may, by notice given as aforesaid, specify a different address for any such notices, requests or other communications.

9. Parties In Interest. This Purchase Agreement is made solely for the benefit of the City and the Underwriter (including any successors or assignees of the Underwriter) and no other person shall acquire or have any right hereunder or by virtue hereof. The City and the Underwriter may not assign this Agreement. The term “successor” shall not include any holder of any Bonds merely by virtue of such holding.

10. Survival of Representations and Warranties. The representations and warranties of the City under this Purchase Agreement shall not be deemed to have been discharged, satisfied or otherwise rendered void by reason of the Closing and regardless of any investigations made by or on behalf of the Underwriter (or statements as to the results of such investigations) concerning such representations and statements of the City or the Community Facilities District and regardless of delivery of and payment for the Bonds.

11. Severability. If any provision of this Purchase Agreement is, or is held or deemed to be, invalid, inoperative or unenforceable as applied in any particular case in any jurisdiction or jurisdictions, because it conflicts with any provisions of any constitution, statute, rule of public policy or for any other reason, such circumstances shall not make the provision in question invalid, inoperative or unenforceable in any other case or circumstance, or make any other provision or provisions of this Agreement invalid, inoperative or unenforceable to any extent whatsoever.

12. Execution in Counterparts. This Purchase Agreement may be executed by the parties hereto in separate counterparts, each of which when so executed and delivered shall be an original, but all such counterparts shall together constitute but one and the same instrument.

13. Effective. This Purchase Agreement shall become effective and binding upon the respective parties hereto upon the execution of the acceptance hereof by the City and shall be valid and enforceable as of the time of such acceptance.

14. No Prior Agreements. This Purchase Agreement supersedes and replaces all prior negotiations, agreements and understanding between the parties hereto in relation to the sale of the Bonds by the City.

15. Governing Law. This Purchase Agreement shall be governed by the laws of the State.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

16. Effective Date. This Purchase Agreement shall become effective and binding upon the respective parties hereto upon the execution of the acceptance hereof by the City and shall be valid and enforceable as of the time of such acceptance.

Very truly yours,
PIPER SANDLER & CO.

OPINION OF CITY ATTORNEY

_____, 2020

Piper Sandler & Co.
2321 Rosecrans Ave., Suite 3200
El Segundo, California 90245
Attention: Public Finance

City of Roseville
Villages at Sierra Vista Community Facilities
District No. 1
(Public Facilities)
311 Vernon Street
Roseville, California 95678

Re: City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2020

Ladies and Gentlemen:

We have acted as City Attorney for the City of Roseville (the “City”) and counsel for the Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the “Community Facilities District”), in connection with the purchase and sale of the City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2020 (the “Bonds”). As such Counsel, we have reviewed the Bond Purchase Agreement, dated _____, 2020 (the “Purchase Agreement”), by and between Piper Sandler & Co. (the “Underwriter”) and the City, the Fiscal Agent Agreement, dated as of July 1, 2019, as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the “Fiscal Agent Agreement”) by and between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (the “Fiscal Agent”), the City Continuing Disclosure Certificate, dated _____, 2020, by and between the Fiscal Agent and the City (the “City Continuing Disclosure Certificate”), the Preliminary Official Statement, dated _____, 2020, relating to the Bonds (the “Preliminary Official Statement”), the Official Statement, dated _____, 2020, relating to the Bonds (the “Official Statement”), Resolution No. _____ adopted by the City Council of the City on _____, 2020 (“Bond Resolution”), and such other documents, certificates, records and papers as we have deemed necessary to render the below opinions.

The Bonds, Fiscal Agent Agreement, Purchase Agreement, and the City Continuing Disclosure Certificate, are collectively referred to herein as the “Bond Documents.” Capitalized terms used herein and not otherwise defined shall have the meanings assigned to them in the Purchase Agreement.

With your permission we have assumed, without undertaking to verify the same by independent investigation, the following: (a) the authenticity of original documents and the genuineness of all signatures (other than those of the City and the Community Facilities District); (b) the conformity to the originals of all documents submitted to us as copies; (c) the truth, accuracy, and completeness of the information, representations, and warranties contained in these documents, certificates, records and papers we have reviewed; and (d) compliance with all covenants and agreements contained in such documents.

Based on the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The City is a municipal corporation duly organized and validly existing pursuant to the Constitution and laws of the State of California;

2. The Community Facilities District is duly organized and validly existing as a community facilities district under the Constitution and laws of the State;

3. The Bond Resolution was duly adopted at a meeting of the City Council, which meeting was duly called and held pursuant to law and with all public notice required by law and at which a quorum was present and acting throughout;

4. The preparation and distribution of the Preliminary Official Statement and the Official Statement have been duly approved by the City Council, acting for itself or as the Legislative Body of the Community Facilities District;

5. The execution and delivery by the City of the Bond Documents, and the Bonds and the performance of its obligations thereunder have been duly authorized by all requisite action of the City Council, acting for itself or as the Legislative Body of the Community Facilities District, and the Bonds and the Bond Documents have been duly executed and delivered by the Community Facilities District, and constitute legal, valid and binding obligations of the Community Facilities District enforceable against the Community Facilities District, in accordance with their respective terms, subject to bankruptcy, insolvency, reorganization, moratorium and other laws affecting the enforcement of creditors' rights in general and to the application of equitable principles if equitable remedies are sought;

6. To the best of our knowledge, no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, regulatory agency, public board or body is pending or to the best of such counsel's knowledge, threatened in any way affecting the existence of the City or the Community Facilities District or the titles of the officers of each to their respective offices, or seeking to restrain or to enjoin the execution and delivery of the Bond Documents, or the issuance, sale or delivery of the Bonds or the application of the proceeds thereof or the collection or application of the Special Taxes, or the exclusion from gross income for State personal income taxes of interest on the Bonds, or in any way contesting or affecting the validity or enforceability of the Bonds, the Bond Documents or any action of the City or the Community Facilities District contemplated by any of said documents or in any way contesting the completeness or accuracy of the Preliminary Official Statement or the Official Statement or the powers of the City or its authority with respect to the Purchase Agreement or any other applicable agreement, or any action on the part of the City or the Community Facilities District contemplated by any of said documents;

7. To the best of our knowledge, the City and the Community Facilities District are not in breach of or in default under any court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the City or the Community Facilities District is a party or is otherwise subject or bound, including the Bond Documents, a consequence of which could be to materially and adversely affect the ability of the City or the Community Facilities District to perform their obligations under the Bonds, the Bond Documents or which, with the passage of time or the giving of notice or both, would constitute an event of default thereunder; and;

8. To the best of our knowledge, the adoption of the Bond Resolution and the execution and delivery of the Bonds and the Bond Documents, did not and will not conflict with or constitute a breach of or default under any applicable court or administrative decree or order, or under any loan agreement, note, ordinance, resolution, indenture, contract, agreement or other instrument to which the City or the Community Facilities District, as the case may be, is a party or is otherwise subject or bound, a consequence of which could be to materially and adversely affect the ability of City or the Community Facilities District to perform their obligations under the Bonds or any Bond Documents.

The opinions set forth above are subject to the following additional qualifications:

General principles of equity, regardless of whether such enforceability is considered in a proceeding in equity or at law; and limitations imposed by bankruptcy, insolvency, fraudulent conveyance, receivership, conservatorship, reorganization, arrangement, liquidation, moratorium or other similar laws affecting the enforcement of creditors' rights in general heretofore or hereafter enacted, as such laws may be applied in the event of bankruptcy, insolvency, reorganization, arrangement, receivership, conservatorship, liquidation, readjustment of debt or other similar proceedings of, or moratorium or similar occurrence affecting municipal corporations in the State.

We express no opinion as to matters governing by laws other than the laws of the State and the federal laws of the United States of America, or the enforceability of any choice of law provision in the documents described herein.

This opinion is solely for your benefit in connection with the transactions covered by the first paragraph of this letter and may not be relied upon or used by, circulated, quoted or referred to, nor may copies hereof be delivered to, any other person or for any other purpose without our prior written approval; provided, however, copies of this opinion may be included in the closing transcripts for the transactions connected with the issuance of the Bonds. We disclaim any obligation to update this opinion letter for events occurring or coming to our attention after the date hereof.

Respectfully submitted,

APPENDIX C

CITY OF ROSEVILLE VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES) SPECIAL TAX BONDS SERIES 2020

CLOSING CERTIFICATE OF THE CITY

I, the undersigned, hereby certify that I am the _____ of the City of Roseville (the “City”), the City Council (the “City Council”) of which is the Legislative Body for Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the “Community Facilities District”), a community facilities district duly organized and existing under the laws of the State of California (the “State”) and I am authorized to execute this Certificate on behalf of the City in connection with the issuance of the above-captioned bonds (the “Bonds”). All capitalized terms herein not otherwise defined shall have the meanings given such terms in the Bond Purchase Agreement (the “Bond Purchase Agreement”), dated _____, 2020, by and between the City and Piper Sandler & Co.

I further certify on behalf of the City that:

(i) The representations, warranties and covenants of the City contained in the Bond Purchase Agreement, made on behalf of the City and the Community Facilities District, are true and correct in all material respects on and as of the date hereof as if made on the date hereof;

(ii) The Community Facilities District Resolutions, Formation Documents and the City Documents are in full force and effect and have not been amended, modified or supplemented;

(iii) Except as described in the Official Statement, there is no action, suit, proceeding, inquiry or investigation at law or in equity, or by any court or regulatory agency, public board or body pending, with respect to which the City or the Community Facilities District has been served with process, or to the best knowledge of the City or the Community Facilities District, threatened wherein an unfavorable decision, ruling or finding would: (a) affect the creation, organization, existence or powers of the City or the Community Facilities District, or the titles of their officers to their respective offices, (b) enjoin or restrain the issuance, sale and delivery of the Bonds, the levy or collection of the Special Taxes or any other moneys or property pledged or to be pledged under the Fiscal Agent Agreement, or the pledge thereof, (c) in any way question or affect any of the rights, powers, duties or obligations of the City or the Community Facilities District with respect to the Special Taxes or moneys and assets pledged or to be pledged to pay the principal of, premium, if any, or interest on the Bonds, (d) in any way question or affect any authority for the issuance of the Bonds, or the validity or enforceability of the Bonds or the proceedings relating to the issuance of the Bonds, or (e) in any way question or affect the Bond Purchase Agreement or the transactions contemplated thereby, the Official Statement or the City Documents;

(iv) The information in the Preliminary Official Statement (other than statements pertaining to the book-entry system and under the headings “THE DISTRICT – Entitlements and Development,” as to which no view is expressed) as of its date was and as of the date hereof is, and in the Official Statement (other than statements pertaining to the book-entry system and under the headings “THE DISTRICT – Entitlements and Development,” as to which no view is expressed) as

of its date was and as of the date hereof is, true and correct in all material respects and does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading;

(v) The City has complied with all agreements and covenants, and satisfied all conditions, on its part to be complied with or satisfied under the Bond Purchase Agreement and under the Community Facilities District Resolutions, the Formation Documents, the City Documents and the Official Statement at or prior to the date hereof;

(vi) No event has occurred since the date of the Official Statement which either makes untrue or incorrect in any material respect as of the date hereof any statement or information contained in the Preliminary Official Statement or the Official Statement (other than statements pertaining to the book-entry system and under the headings "THE DISTRICT – Entitlements and Development," as to which no view is expressed) or is not reflected in the Official Statement but should be reflected therein in order to make the statements and information therein not misleading in any material respect;

(vii) The use of and distribution by the Underwriter of the Preliminary Official Statement and the Official Statement in connection with the offer and sale of the Bonds is hereby ratified; and

(viii) The City and the Community Facilities District are each in compliance with all covenants set forth in the Fiscal Agent Agreement.

IN WITNESS WHEREOF, the undersigned has executed this certificate as of the date set forth below.

APPENDIX D

FISCAL AGENT'S CERTIFICATE

The undersigned is an authorized officer of The Bank of New York Mellon Trust Company, N.A. (the "Bank"), and as such, is familiar with the facts herein certified and is authorized and qualified to state and certify the following:

(i) The Bank is duly organized and existing as a national banking association under the laws of the United States of America, having the full power and authority to accept and perform its duties under the Fiscal Agent Agreement, dated as of July 1, 2019, as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the "Fiscal Agent Agreement") by and between the City and the Bank. Capitalized terms used herein and not otherwise defined have the meanings given to such terms in the Bond Purchase Agreement, dated _____, 2020, by and between the City and Piper Sandler & Co.;

(ii) Pursuant to the Fiscal Agent Agreement, the Bank will apply the proceeds from the Bonds to the purposes specified in the Fiscal Agent Agreement;

(iii) The Bank is duly authorized to accept the obligations created by the Fiscal Agent Agreement and to authenticate the Bonds pursuant to the terms of the Fiscal Agent Agreement;

(iv) The Fiscal Agent Agreement has been duly authorized, executed and delivered by the Bank and, assuming due authorization, execution and delivery thereof by the other parties thereto, constitutes a valid and binding agreement of the Bank enforceable against the Bank in accordance with its terms;

(v) The Bonds have been validly authenticated and delivered by the Bank pursuant to the Fiscal Agent Agreement;

(vi) No consent, approval, authorization or other action by any governmental or regulatory authority having jurisdiction over the Bank that has not been obtained is or will be required for the authentication of the Bonds or the consummation by the Bank of the other transactions contemplated to be performed by the Bank in connection with the authentication of the Bonds and the acceptance and performance of the obligations created by the Fiscal Agent Agreement;

(vii) There is no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, regulatory agency, public board or body that has been served on the Bank or, to the best of its knowledge, threatened in any way affecting the existence of the Bank, or seeking to restrain or to enjoin the execution and delivery of the Fiscal Agent Agreement or the authentication of the Bonds, by the Bank, or in any way contesting or affecting the validity or enforceability, as against the Bank, of the Fiscal Agent Agreement or any action of the Bank contemplated by any of said documents, or in which an adverse outcome would materially and adversely affect the ability of the Bank to perform its obligations under the Fiscal Agent Agreement;

(viii) The Bank is not in breach of or in default under any applicable law or administrative rule or regulation of the State of California (the “State”) or the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the Bank is a party or is otherwise subject or bound, a consequence of which could be to materially and adversely affect the ability of the Bank to perform its obligations under the Fiscal Agent Agreement (*provided, however*, that the Bank does not certify as to compliance with State or federal securities laws); and

(ix) The authentication of the Bonds, and the execution and delivery of the Fiscal Agent Agreement by the Bank, and compliance with the provisions of each, will not conflict with or constitute a breach of or default under any applicable law or administrative rule or regulation of the State or the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, ordinance, resolution, Fiscal Agent Agreement, contract, agreement or other instrument to which the Bank is a party or is otherwise subject or bound, a consequence of which could be to materially and adversely affect the ability of the Bank to perform its obligations under the Fiscal Agent Agreement.

APPENDIX E
FISCAL AGENT’S COUNSEL OPINION

_____, 2020

City of Roseville
Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities)
Roseville, California 95678

Piper Sandler & Co.
2321 Rosecrans Ave., Suite 3200
El Segundo, California 90245

**Re: City of Roseville Villages at Sierra Vista Community Facilities District
No. 1 (Public Facilities) Special Tax Bonds, Series 2020**

Ladies and Gentlemen:

We have acted as counsel for The Bank of New York Mellon Trust Company, N.A., a national banking association (the “Bank”) in connection with the execution by the Bank of the Fiscal Agent Agreement, dated as of July 1, 2019, as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the “Fiscal Agent Agreement”) by and between the City and the Bank. We are generally familiar with the Articles of Association and the Bylaws of the Bank and are also familiar with the corporate proceedings of the Bank with regard to its authorization, execution and delivery of the Fiscal Agent Agreement. Capitalized terms used herein shall have the respective meanings ascribed to them in the Fiscal Agent Agreement, except as otherwise defined herein.

We have examined such documents and have reviewed such questions of law as we have considered necessary and appropriate for the purposes of this opinion. In such review, we have assumed the genuineness of all signatures, the authenticity of all documents submitted to us as originals, and the conformity with originals of all documents submitted to us as copies. Where questions of fact material to our opinions expressed below were not established independently, we have relied upon statements of officers of the Bank as contained in their certificates.

Based upon the foregoing, we are of the opinion that:

1. The Bank is a national banking association duly organized, validly existing and in good standing under the laws of the United States of America.
2. The Bank has all requisite corporate power, authority and legal right to execute and deliver the Fiscal Agent Agreement and to perform its duties and obligations under the Fiscal Agent Agreement, and has taken all necessary corporate action to authorize the execution and delivery thereof and the performance of its obligations thereunder, including the authentication and delivery of the Bonds in its capacity as Fiscal Agent under the Fiscal Agent Agreement.

3. The Bank has duly authorized, executed and delivered the Fiscal Agent Agreement. Assuming the due authorization, execution and delivery thereof by the other parties thereto, the Fiscal Agent Agreement is a legal, valid and binding agreement of the Bank, enforceable in accordance with its terms against the Bank.

4. To our knowledge, no authorization, approval, consent, or order of any governmental agency or regulatory authority having jurisdiction over the Bank that has not been obtained by the Bank is required for the authorization, execution and delivery by the Bank of the Fiscal Agent Agreement or the authentication and delivery of the Bonds by the Bank under the Fiscal Agent Agreement.

The opinions set forth above are subject to the following qualifications and exceptions:

(a) the opinions are subject to the effect of any applicable bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium or other similar laws of general application affecting creditors' rights; and

(b) the opinions are subject to the effect of general principles of equity, including (without limitation) concepts of materiality, reasonableness, good faith and fair dealing, and other similar doctrines affecting the enforceability of agreements generally (regardless of whether considered in a proceeding in equity or at law).

Our opinions expressed above are limited to the laws of the State of California and the federal laws of the United States of America.

The foregoing opinions are being furnished to you solely for your benefit and may not be relied upon by, nor may copies be delivered to, any other person without our prior written consent.

Very truly yours,

APPENDIX F

CITY OF ROSEVILLE VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES) SPECIAL TAX BONDS SERIES 2020

CERTIFICATE OF SPECIAL TAX CONSULTANT

The undersigned hereby states and certifies:

1. That he/she is an authorized officer of Willdan Financial Services, Inc. (the “Special Tax Consultant”) and as such is familiar with the facts herein certified and is authorized and qualified to certify the same.

2. That the Special Tax Consultant is familiar with the Rate and Method of Apportionment of Special Tax (the “Rate and Method”) as set forth in Appendix A to the Official Statement dated _____, 2020, for the City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the “Community Facilities District”) Special Tax Bonds, Series 2020 (the “Bonds”). Capitalized terms not otherwise defined herein shall be defined as provided in the Rate and Method or the Fiscal Agent Agreement, dated as of July 1, 2019, as supplemented and amended by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____ 1, 2020 (together, the “Fiscal Agent Agreement”) by and between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (the “Fiscal Agent”).

3. That the Special Taxes (net of a 1% administration charge of the County of Placer (the “County Charge”)), if levied in accordance with the Rate and Method and collected will annually yield sufficient revenue to make timely payments of the annual debt service on the 2019 Bonds and the Bonds, and projected annual Administrative Expenses related to the levy and collection of the Special Taxes and the expenses of the Fiscal Agent for the 2019 Bonds and the Bonds (no representation is made as to the actual amounts that will be collected in future years).

4. That the Annual Special Tax (net of the County Charge), if collected in the maximum amounts permitted pursuant to the Rate and Method on the Closing Date, would generate at least 110% of the Annual Debt Service payable with respect to the 2019 Bonds and the Bonds payable from such Special Taxes for Fiscal Year 2020-21 and every year thereafter through the final maturity of the 2019 Bonds and the Bonds, assuming the debt service schedule shown in the Official Statement is true and correct.

5. That all information supplied by the Special Tax Consultant for use in the Official Statement is believed to be true and correct, as of the date of the Official Statement and as of the date hereof.

6. That, as of the dates of the Preliminary Official Statement and the Official Statement and as of the date hereof, the information contained in those portions of the Official Statement entitled “SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Special Taxes, - Special Tax Methodology and – Levy of Annual Special Tax; Maximum Special Tax,” “VALUE OF PROPERTY WITHIN THE DISTRICT,” “APPENDIX A,” including the tables sourced to the

Special Tax Consultant, and the other data provided by the Special Tax Consultant and included in the Official Statement, do not, to our knowledge, contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made therein, in light of the circumstances under which they were made, not misleading.

7. The Community Facilities District, the City, the Underwriter, and all the professionals involved in the financing are entitled to rely on this Certificate.

Title: _____

APPENDIX G

CITY OF ROSEVILLE VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES) SPECIAL TAX BONDS SERIES 2020

CERTIFICATE OF PROPERTY OWNER

_____, 2020

The undersigned party certifies and represents that he or she is duly authorized on behalf of JOHN MOURIER CONSTRUCTION, INC., a California corporation (“JMC Homes” or the “Property Owner”), to execute and deliver this certificate (this “Certificate”) in connection with the issuance, sale and delivery by City of Roseville of the Bonds captioned above (the “Bonds”).

Capitalized terms used but not defined in this Certificate have the same meaning as is set forth in the Bond Purchase Agreement with respect to the Bonds between Piper Sandler & Co., as underwriter (the “Underwriter”), and the City.

As used in this Certificate, the phrase “Actual Knowledge of the Undersigned” means the knowledge that the undersigned currently has as of the date of this Certificate or has obtained through (i) interviews with such current officers and responsible employees of the Property Owner as the undersigned has reasonably determined are likely, in the ordinary course of their respective duties, to have knowledge of the matters set forth in this Certificate, and/or (ii) review of documents reasonably available to the undersigned and which the undersigned reasonably deemed necessary for the undersigned to obtain knowledge of the matters set forth in this Certificate. The undersigned has not conducted any extraordinary inspection or inquiry other than such inspections or inquiries as are prudent and customary in connection with the ordinary course of the Property Owner’s current business and operations.

As used in this Certificate, the term “Relevant Entity” of the Property Owner means any Person presently directly or indirectly through one or more intermediaries controlling, controlled by or under common control with the Property Owner, and about whom information could be material to potential investors in their investment decision regarding the Bonds (including without limitation information relevant to the Property Owner’s proposed development of the Property (defined herein), or to the Property Owner’s ability to pay the Special Taxes due with respect to the Property prior to delinquency). As used in this Certificate, the term “Person” means an individual, a corporation, a partnership, a limited liability company, an association, a joint stock company, a trust, any unincorporated organization or a government or political subdivision thereof. For purposes hereof, the term “control” (including the terms “controlling,” “controlled by” or “under common control with”) means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a Person, whether through the ownership of voting securities, by contract or otherwise.

As used in this Certificate, the term “Property” means the real property currently owned by the Property Owner within the City of Roseville Villages at Sierra Vista Community Facilities

District No. 1 (Public Facilities) (the “Community Facilities District”), as further described in the Preliminary Official Statement.

The undersigned certifies that he or she is familiar with the facts set forth in this Certificate, and further hereby certifies to the Actual Knowledge of the Undersigned as follows, as an authorized officer or representative of the Property Owner:

(1) The Property Owner has been duly organized and validly exists in good standing under the laws of the State of California and has or will have prior to the Closing, as required, all requisite right, power and authority:

(i) to execute and deliver this Certificate;

(ii) to own, develop and sell the Property, as described in the Preliminary Official Statement;

(iii) to execute and deliver the Property Owner Continuing Disclosure Agreement at Closing;

(iv) to perform its obligations under the Property Owner Continuing Disclosure Agreement; and

(v) to carry on its business as described in the Preliminary Official Statement.

(2) The Property Owner agrees to execute at Closing the Property Owner Continuing Disclosure Agreement substantially in the form attached as an appendix to the Preliminary Official Statement, with such additional changes as may be agreed upon by the Underwriter, Bond Counsel and the Property Owner.

(3) Except as disclosed in the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, Property Owner is not aware of any material failures by it or any entity under managerial control of Property Owner to comply in all material respects with previous continuing disclosure undertakings in a written certificate or agreement executed by it or its Relevant Entities to provide periodic continuing disclosure reports or notices of material events respecting securities offerings in California within the past five (5) years.

(4) To the Actual Knowledge of the Undersigned, execution and delivery of the Property Owner Continuing Disclosure Agreement, and the performance by the Property Owner of its obligations under the Property Owner Continuing Disclosure Agreement, will not conflict with or constitute a breach of or default under any loans, lines of credit, agreements, or other contractual or financial obligations of the Property Owner or any applicable law, regulation, judgment or decree.

(5) To the Actual Knowledge of the Undersigned, neither the Property Owner nor any of its Relevant Entities is currently in material default on any loans, lines of credit, credit agreements, or other material contractual or financial obligations, or in breach of any applicable law, regulation, judgment or decree, and no event has occurred and is continuing that would constitute such a default or breach, the result of which could reasonably be expected to materially and adversely affect the ability of the Property Owner:

(i) to own, develop and sell the Property, as described in the Preliminary Official Statement;

(ii) to pay Special Taxes on the Property (to the extent the responsibility of the Property Owner) prior to delinquency;

(iii) to carry on its business as described in the Preliminary Official Statement; and

(iv) to perform its obligations under the Property Owner Continuing Disclosure Agreement.

(6) Except as disclosed in the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, the Property Owner has not assumed any obligations under any loans, lines of credit, credit agreements, or other material contractual or financial obligations, or any applicable judgment or decree, which could reasonably be expected to materially and adversely affect the ability of the Property Owner:

(i) to own, develop and sell the Property, as described in the Preliminary Official Statement,

(ii) to pay Special Taxes on the Property (to the extent the responsibility of the Property Owner) prior to delinquency, or

(iii) to carry on its business as described in the Preliminary Official Statement.

(7) Except as described in the Preliminary Official Statement, the Property Owner has no loans outstanding and unpaid and no lines of credit that are secured by the Property.

(8) Except as disclosed in the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, neither the Property Owner nor any of its Relevant Entities is currently in default in, or, in the last five (5) years, has ever defaulted to any material extent in, the payment of special taxes or assessments in connection with the Community Facilities District or any other community facilities districts or assessment districts in California that was not cured prior to the institution of any enforcement action with a court of law.

(9) Except as disclosed in the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, there is no litigation, inquiry, investigation or administrative proceeding of any nature pending against the Property Owner (with service of process to the Property Owner having been accomplished), or to the Actual Knowledge of the Undersigned, overtly threatened in writing against the Property Owner, or to the Actual Knowledge of the Undersigned, pending (with service of process to such Relevant Entity having been accomplished) or overtly threatened in writing against any Relevant Entity of the Property Owner, in each case which, if successful, could reasonably be expected to:

(i) materially and adversely affect the ability of the Property Owner to own, develop and sell the Property, as described in the Preliminary Official Statement;

(ii) materially and adversely affect the ability of the Property Owner to pay Special Taxes on the Property (to the extent the responsibility of the Property Owner) prior to delinquency;

(iii) materially and adversely affect the ability of the Property Owner to carry on its business as described in the Preliminary Official Statement;

(iv) materially adversely affect the ability of the Property Owner to perform its obligations under the Property Owner Continuing Disclosure Agreement;

(v) challenge, question the validity or enforceability of, or restrain or enjoin the performance of, the Special Taxes, the Bonds, the Resolution, the Fiscal Agent Agreement, the Property Owner Continuing Disclosure Agreement or the Bond Purchase Agreement; or

(vi) restrain or enjoin collection of Special Taxes or other sums to be pledged to pay the principal of and interest on the Bonds.

(10) Except as disclosed in the Preliminary Official Statement or in this Certificate:

(i) the Property Owner and, to the Actual Knowledge of the Undersigned, its Relevant Entities, are solvent;

(ii) to the Actual Knowledge of the Undersigned, there are no proceedings pending (with service of process to the Property Owner having been accomplished) or overtly threatened in writing in which the Property Owner or any of its Relevant Entities may be adjudicated as bankrupt, become the debtor in a bankruptcy proceeding, be discharged from any or all of its respective debts or obligations, be granted an extension of time to pay its respective debts or obligations, or be granted a reorganization or readjustment of its respective debts or obligations; and

(iii) Neither the Property Owner nor, to the Actual Knowledge of the Undersigned, any of its Relevant Entities, has filed for bankruptcy or been declared bankrupt in the last ten (10) years.

(11) As of the date hereof, the information in the sections of the Preliminary Official Statement entitled "THE DISTRICT," "THE IMPROVEMENTS," "OWNERSHIP OF PROPERTY WITHIN THE DISTRICT," "CONTINUING DISCLOSURE" and "SPECIAL RISK FACTORS" concerning the Property Owner and its Relevant Entities, the Property, the Property Owner's development and financing plans, and the Property Owner's contractual arrangements (but excluding any information cited as coming from a source other than the Property Owner) is true and correct in all material respects, and contains no untrue statement of a material fact and does not omit any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

(12) Except as disclosed in the Preliminary Official Statement, the Property Owner has not submitted an application for, nor received actual notice of,

(i) the formation or authorization of any other assessment district or community facilities district that would include any portion of the Property, or

(ii) the authorization or issuance of any debt secured by an assessment or another special tax to be levied on any portion of the Property, other than the Special Tax.

(13) Except as set forth in the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, there are no claims, disputes, lawsuits, actions or contingent liabilities of or against the Property Owner or its Relevant Entities, or among, by or between the Property Owner and any contractors working on the development of the Property, which could reasonably be expected to materially and adversely affect:

(i) the ability of the Property Owner to own, develop and sell the Property, as described in the Preliminary Official Statement;

(ii) the ability of the Property Owner to pay Special Taxes on the Property (to the extent the responsibility of the Property Owner) prior to delinquency;

(iii) the ability of the Property Owner to carry on its business as described in the Preliminary Official Statement; or

(iv) the ability of the Property Owner to perform its obligations under the Property Owner Continuing Disclosure Agreement.

(14) To the Actual Knowledge of the Undersigned, all information submitted by, or on behalf of, the Property Owner to (i) the Appraiser, as such information is set forth in the Appraisal, was, at the time of submission, and, except as modified by later information submitted by such Property Owner, is, as of the date of this Certificate, true and correct in all material respects, and (ii) the City, the Community Facilities District, Bond Counsel, Disclosure Counsel, or the Underwriter in connection with the issuance of the Bonds was, at the time of submission and, except as modified by later information submitted by such Property Owner, is as of the date of this Certificate, true and correct in all material respects.

(15) The Property Owner covenants that, while the Bonds or any refunding obligations related thereto are outstanding, the Property Owner will not bring any action, suit, proceeding, inquiry or investigation at law or in equity, before any court, regulatory agency, public board or body, that in any way:

(i) seeks to challenge or overturn the formation of the Community Facilities District;

(ii) seeks to challenge the adoption of the ordinance levying Special Taxes within the Community Facilities District;

(iii) seeks to invalidate the Community Facilities District or any of the Bonds or any refunding obligations; or

(iv) seeks to invalidate the special tax liens imposed under Section 3115.5 of the Streets and Highways Code based on recordation of the notices of special tax lien relating thereto.

The foregoing covenant shall not prevent the Property Owner in any way from bringing any other action, suit, proceeding, inquiry or investigation at law or in equity relating to the following:

(a) a claim that the Special Tax has not been levied in accordance with the Rate and Method;

(b) the application or use of the Special Taxes levied and collected; or

(c) the enforcement of the obligations of the City or the Community Facilities District under the Fiscal Agent Agreement or any agreements between the Property Owner and the City or the Community Facilities District or under which the Property Owner is a beneficiary.

(16) The Property Owner has received a copy of the Rate and Method containing the prepayment formula. The Property Owner acknowledges that any prepayment of the Special Taxes may only be made in accordance with the Rate and Method.

(17) The Property Owner shall comply with the provision of the Mello-Roos Community Facilities Act of 1982, as amended, relating to the Notice of Special Tax described in California Government Code Section 53341.5 in connection with the sale of the Property.

(18) Based upon its current development plans, including, without limitation, its current budget and subject to economic conditions and risks generally inherent in the development of real property, the Property Owner anticipates that it will have sufficient funds to (i) carry on its business as described in the Preliminary Official Statement, (ii) own, develop and sell the Property as described in the Preliminary Official Statement, and (iii) pay Special Taxes on the Property (to the extent the responsibility of the Property Owner) prior to delinquency.

However, no assurance can be given that sources of financing available to the Property Owner will be sufficient to complete the property development and home construction as currently anticipated and as described in the Preliminary Official Statement. While the Property Owner has made such internal financing available in the past, there can be no assurance whatsoever of its willingness or ability to do so in the future. Neither the Property Owner nor any of its Relevant Entities has any legal obligation of any kind to make any such funds available or to obtain loans. Other than pointing out the willingness of the Property Owner to provide internal financing in the past, the Property Owner has not represented in any way that it will do so in the future. If and to the extent that internal financing and home sales revenues are inadequate to pay the costs to complete the Property Owner's planned development in the Community Facilities District and other financing by the Property Owner is not put into place, there could be a shortfall in the funds required to complete the proposed development by the Property Owner and portions of the Property may not be developed.

(19) The Property Owner consents to the issuance of the Bonds. The Property Owner acknowledges and agrees that the proceeds of such Bonds will be used for the acquisition and construction of the improvements described in the Preliminary Official Statement. The Property Owner acknowledges that the costs to acquire and construct such improvements are estimates, and that any increase in costs in excess of the estimated costs relating to improvements will reduce the improvements which may be financed by the City, and neither the City, nor the Community Facilities District has any obligation to provide moneys to pay for any such costs.

(20) During the period between the date of this Certificate and the Closing Date, if the Property Owner has actual knowledge of any event relating to or affecting the Property Owner, its Relevant Entities, or the ownership, development or sale of the Property which could cause the information under the captions of the Preliminary Official Statement indicated in Section 11 of this Certificate (and subject to the limitations and exclusions contained in Section 11 of this Certificate) to contain an untrue statement of a material fact or to omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, the Property Owner shall notify the City and the Underwriter and if, in the opinion of counsel to the City or the Underwriter, such event requires the preparation and publication of a supplement or amendment to the Preliminary Official Statement, the Property Owner shall reasonably cooperate with the City in the preparation of an amendment or supplement to the Preliminary Official Statement in form and substance satisfactory to counsel to the City and to the Underwriter.

(21) As a condition to the issuance of the Bonds, the Property Owner agrees to deliver a bring-down certificate, dated the Closing Date, in substantially the form attached as Appendix H to the Bond Purchase Agreement, to affirm and restate the Property Owner's certifications, representations and covenants made in this Certificate. If any event related to or affecting the Property Owner, its Relevant Entities or the ownership, development or sale of the Property occurs, as a result of which it is necessary to modify the bring-down certificate, the Property Owner agrees to deliver a new bring-down certificate revised to reflect such event.

(22) The Property Owner acknowledges and agrees that:

(i) in connection with the purchase and sale of the Bonds under the Bond Purchase Agreement, and with the discussions, undertakings and procedures leading up to the consummation of the purchase and sale of the Bonds under the Bond Purchase Agreement, the Underwriter is and has been acting solely as principal and is not acting as the agent or fiduciary of the Property Owner;

(iii) the Underwriter has not assumed a fiduciary responsibility in favor of the Property Owner with respect to (a) the offering of the Bonds contemplated hereby or the process leading thereto (whether or not the Underwriter, or any affiliate of the Underwriter, has advised or is currently advising the Property Owner on other matters), or (b) any other obligation to the Property Owner with respect to the offering contemplated by the Bond Purchase Agreement; and

(iii) the Property Owner has consulted its own legal, financial and other advisors to the extent it has deemed appropriate in connection with the offering contemplated by the Bond Purchase Agreement.

On behalf of the Property Owner, I have reviewed the contents of this Certificate and the Property Owner has consulted with counsel regarding the meaning of its contents. The Property Owner acknowledges and understands that a variety of state and federal laws, including but not limited to the Securities Act of 1933, as amended, and Rule 10b-5 promulgated under the Securities Exchange Act of 1934, as amended, may apply to the Property Owner, and that under some circumstances certification as to the matters set forth in this Certificate, without additional disclosures or other action, may not fully discharge all duties and obligations of the Property Owner under such laws.

BRING-DOWN CERTIFICATE OF PROPERTY OWNER

_____, 2020

The undersigned party certifies and represents that he or she is duly authorized on behalf of JOHN MOURIER CONSTRUCTION, INC., a California corporation (“JMC Homes” or the “Property Owner”), to execute and deliver this certificate (this “Certificate”) in connection with the issuance, sale and delivery by City of Roseville of the Bonds captioned above (the “Bonds”).

This Bring-Down Certificate is delivered pursuant to the Bond Purchase Agreement with respect to the Bonds dated _____, 2020, between Piper Sandler & Co., as underwriter, and the City (the “Purchase Agreement”).

In connection with the distribution of the Preliminary Official Statement relating to the Bonds, the Property Owner executed a Certificate of Property Owner dated _____, 2020 (the “Certificate”).

Capitalized terms used but not defined in this Bring-Down Certificate have the same meanings as set forth in the Purchase Agreement and the Certificate.

The undersigned, on behalf of the Property Owner, further certifies as follows:

(1) The undersigned is familiar with the facts certified in the Certificate and this Bring-Down Certificate, and is authorized and qualified to certify the same as an authorized officer or representative of the Property Owner.

(2) The undersigned has received the final Official Statement relating to the Bonds (the “Final Official Statement”).

(3) Each statement made in the Certificate is affirmed and restated as if made on the date hereof; provided that each statement made in the Certificate referring to the Preliminary Official Statement is affirmed as it relates to the Final Official Statement.

(4) To the Actual Knowledge of the Undersigned (as defined in the Certificate), no event has occurred since the date of the Preliminary Official Statement that has, in any material way, adversely affected the statements and information described in Paragraph 11 of the Certificate (and subject to the limitations and exclusions contained in Paragraph 11 of the Certificate) relating to the Property Owner and its Relevant Entities, the Property, the Property Owner's development and financing plans, and the Property Owner's contractual arrangements (but excluding any information cited as coming from a source other than the Property Owner), which should be disclosed in the Final Official Statement for the purposes for which it is to be used in order to make such statements and information contained in the Final Official Statement not misleading in any material respect.

(5) For a period of 90 days after the Closing Date, if the Property Owner has actual knowledge of any event relating to or affecting the Property Owner, its Relevant Entities, or the ownership development or sale of the Property which could cause the information under the captions of the Final Official Statement indicated in Paragraph 11 of the Certificate (and subject to the limitations and exclusions contained in Paragraph 11 of the Certificate) to contain an untrue statement of a material fact or to omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, the Property Owner shall notify the City and the Underwriter and if, in the opinion of counsel to the City or the Underwriter, such event requires the preparation and publication of a supplement or amendment to the Final Official Statement, the Property Owner shall reasonably cooperate with the City in the preparation of an amendment or supplement to the Final Official Statement in form and substance satisfactory to counsel to the City and to the Underwriter.

(6) The Property Owner has duly executed and delivered the Property Owner Continuing Disclosure Agreement, and the Property Owner Continuing Disclosure Agreement constitutes the legal, valid and binding obligation of the Property Owner, enforceable against the Property Owner in accordance with its terms, except as such enforcement is limited by bankruptcy, insolvency, reorganization, arrangement, moratorium, fraudulent conveyance, and other similar laws relating to or affecting the rights of creditors and certain equitable, legal, or statutory principles affecting the enforcement of contractual rights generally, regardless of whether such enforcement is considered in a proceeding in equity or at law.

**Re: City of Roseville Villages at Sierra Vista Community Facilities District No. 1
(Public Facilities) Special Tax Bonds, Series 2020**

Ladies and Gentlemen:

We have acted as counsel to John Mourier Construction, Inc. (the "Property Owner") in connection with the issuance and sale by City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the "District") of \$_____ City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2020 (the "Bonds"). This opinion is rendered pursuant to the Bond Purchase Agreement dated _____, 2020 (the "Bond Purchase Agreement"), entered into in connection therewith. Capitalized terms used herein without definition shall have the meanings set forth in the Bond Purchase Agreement.

In rendering the opinions set forth herein, we have reviewed and examined such documents as we have determined to be appropriate, including the following documents:

- A. The Bond Purchase Agreement;
- B. The Preliminary Official Statement dated _____, 2020 and the Official Statement dated _____, 2020 (collectively, the "Official Statement") for the offer and sale of the Bonds;
- C. The Property Owner Continuing Disclosure Certificate, dated _____, 2020 (the "Property Owner Continuing Disclosure Certificate") by the Property Owner and Willdan Financial Services, as dissemination agent; and

D. The Property Owner Closing Certificate provided by Property Owner to the City and Underwriter pursuant to Section 3 of the Bond Purchase Agreement (the “Property Owner Closing Certificate”).

For purposes of this opinion, the term “Litigation Search” shall mean a litigation search of Developer, performed in the Superior Court of the State of California, County of Placer; the California Court of Appeal, Third Appellate District; the United States District Court, Eastern District of California; the United States Bankruptcy Court, Eastern District of California; and the United States Ninth Circuit Court of Appeal, conducted by Corporation Service Company (Order Date _____, 2020; Order No. _____) (the “Litigation Search”), but without warranty as to the completeness and accuracy thereof due to the potential for errors or inaccuracies in the data and files made available from the applicable courts.

With respect to factual matters underlying our opinions herein, we have made no independent investigation or inquiry and have relied solely upon the Property Owner Closing Certificate and the Litigation Search. We advise you that the phrase “to our knowledge,” as used herein, means that no facts have come to our attention, based upon an inquiry of attorneys in this firm who devote substantive legal attention to Property Owner, or as a result of our examination of the Property Owner Closing Certificate and the Litigation Search, that indicate to us anything contrary to the statement to which the phrase relates. Except as expressly set forth above, the phrase does not mean that we have conducted any investigation or inquiry or performed any other examination, or review. We have no reason to believe that any factual matters or assumptions relied upon by us are not true, correct and complete.

Our opinions herein are limited to the internal laws of the State of California and the federal laws of the United States of America. We express no opinion whatsoever with respect to the laws of any other jurisdiction and assume no responsibility for the applicability of such laws. In rendering our opinions herein, we have assumed the following, with your approval:

(i) The genuineness and authenticity of all signatures on original documents submitted to us (other than any signatures on behalf of Property Owner); the authenticity and completeness of all documents submitted to us as originals; the conformity to originals of all documents submitted to us as copies; where any signature, other than any signature on behalf of Property Owner purports to have been made in a corporate, governmental, fiduciary or other capacity, the person who affixed such signature had the full power and authority to do so;

(ii) The due authorization, execution and delivery of the applicable agreements by the parties thereto, other than the Property Owner, and the legality, validity, binding effect and enforceability against such parties of their respective obligations under such agreements;

(iii) The truth, accuracy and completeness of all factual representations and warranties of all parties under the documents described in paragraphs A through D, above;

(iv) The constitutionality or validity of a relevant statute, rule, regulation or agency action is not in issue unless a reported decision in the State of California has specifically addressed but not resolved, or has established, its unconstitutionality or invalidity; and

(v) All official public records relied upon by us are accurate and complete.

Based upon the foregoing and in reliance thereon, and based on our examination of such questions of law as we have deemed appropriate under the circumstances, and subject to any further assumptions, comments, exceptions, qualifications and limitations set forth below, as of the date hereof, it is our opinion that:

1. The Property Owner is a limited liability company duly incorporated and validly existing in the State of California and in good standing under the laws of the State of California. The Property Owner is qualified to do business in the State of California.

2. The Property Owner Continuing Disclosure Certificate has been duly authorized, executed and delivered by Property Owner, and constitutes legal, valid and binding obligations of the Property Owner, enforceable against the Property Owner in accordance with its terms.

3. To our knowledge, the execution and delivery by Property Owner of the Property Owner Continuing Disclosure Certificate and the performance of its obligations thereunder do not and will not result in a violation or any provision of, or in default under any agreement or other instrument to which Developer is a party.

4. To our knowledge, Property Owner is not in violation of any provision of or in default under, its organizational documents or any agreement or other instrument, violation or default under which would materially and adversely affect the business, properties, assets, liabilities or conditions (financial or other) of the Property Owner with respect to Property Owner's ability to develop real property owned by Property Owner within the District.

5. To our knowledge, except as set forth in the Official Statement, there are no actions, suits or proceedings pending or threatened against Property Owner which, if determined adversely, would have a material adverse effect (a) on the ability of Property Owner to perform its obligations under the Property Owner Continuing Disclosure Certificate or (b) on the development, construction, use, occupancy or operation of the Development or a material portion thereof.

6. Without having undertaken to independently determine the accuracy, completeness or fairness of the discussion contained in the Official Statement under the captions "THE DISTRICT," "THE IMPROVEMENTS," "OWNERSHIP OF PROPERTY WITHIN THE DISTRICT," "CONTINUING DISCLOSURE," and "SPECIAL RISK FACTORS" (except that no opinion or belief is expressed as to any information relating to The Depository Trust Company, or any information relating to CUSIP numbers, or with respect to any financial, statistical or engineering information, data or forecasts, numbers, charts, estimates, projections, assumptions or expressions of opinion, assessed valuations or appraised values, or to any information which is attributable to a source other than Property Owner, contained in the Official Statement), no facts came to our attention during the course of our representation of Property Owner that would lead us to believe that the information under said captions of the Official Statement relating to the Property Owner and the Property Owner's organizations, activities, properties and financial condition, and its proposed development of the property, contains any untrue statement of a material fact or omits any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

In addition, all of our opinions expressed hereinabove are specifically subject to and limited by the following:

(a) We express no opinion as to matters governed by any laws other than the substantive laws of California which are in effect as of the date hereof, and we assume no obligation to modify or supplement this opinion with respect to changes in such laws after the date hereof.

(b) As counsel to the Property Owner in this matter, we have not rendered financial advice to the Property Owner and do not represent, by this opinion or otherwise, that we have reviewed or made any assessment about, nor do we offer any opinion about, the financial condition of the Property Owner, past, present or future; nor have we reviewed the financial feasibility of this transaction or those matters which the proceeds of the Bonds will fund or any of its components and, accordingly, we offer no opinion whatsoever regarding such financial feasibility.

(c) The effect of laws or court decisions relating to bankruptcy, insolvency, fraudulent conveyance, equitable subordination, reorganization, arrangement, moratorium or other laws or court decisions relating to or affecting creditors' rights generally.

(d) Limitations imposed by California or federal law or equitable principles upon the availability of the remedy of specific performance of any of the remedies, covenants or other provisions of any document or agreement and upon the availability of injunctive relief or other equitable remedies.

In addition, we express no opinion as to the title of the property within the District or any entitlements, permits, approvals or other assets relating to the Property Owner's development of its property as proposed in the Official Statement.

We express no opinion as to any matter other than as expressly set forth above, and, in conjunction therewith, specifically express no opinion concerning the application of or compliance with any federal securities law, including, but not limited to, the Securities Act of 1933, as amended, and the Trust Indenture Act of 1939, as amended, any state securities or "Blue Sky" law, or any federal, state or local tax law, as respecting the Bonds.

This letter is intended solely for your use in accordance with the Bond Purchase Agreement and may not be reproduced or filed publicly or relied upon for any other purpose by you or for any purpose whatsoever by any other party without the express written consent of the undersigned except that this Opinion may be copied and distributed as part of a closing book of the bond transaction documents, provided that such distribution shall not expand in any way the permitted uses of this letter.

We assume no responsibility for the effect of any fact or circumstance occurring subsequent to the date of this letter, including without limitation, legislative or other changes in the law. Further, we assume no responsibility to advise you of any facts or circumstances of which we become aware after the date hereof, regardless of whether or not they may affect our opinions herein. This opinion is given as of the date hereof and we assume no obligation to update our opinions herein after the date hereof.

Very truly yours,

CERTIFICATE OF APPRAISER

Integra Realty Resources (the “Appraiser”), Sacramento, California prepared an appraisal of the properties within the City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the “Community Facilities District”) dated _____, 2020 (the “Appraisal”). The Appraisal is described and summarized in the Preliminary Official Statement dated _____, 2020 (the “Preliminary Official Statement”) and the Official Statement dated _____, 2020 (the “Official Statement”), including as Appendix B thereto, relating to the bonds captioned above.

The Appraiser hereby certifies that, to the best of his knowledge and belief, all information with respect to the Appraisal in the Preliminary Official Statement and in the Official Statement was true and correct as of the date of the Appraisal and that the Appraiser is aware that acts and events may have occurred since the date of the Appraisal which could result in both positive and negative effects on market value; however, an updated Appraisal has not been completed as of this date.

The Appraiser hereby consents to the use of the Appraisal in connection with the distribution and use of the Preliminary Official Statement and Official Statement.

APPENDIX K

CITY OF ROSEVILLE VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES) SPECIAL TAX BONDS SERIES 2020

FORM OF ISSUE PRICE CERTIFICATE

The undersigned, on behalf of Piper Sandler & Co. (“Piper”) hereby certifies as set forth below with respect to the sale and issuance of the above-captioned obligations (the “Bonds”).

1. ***Sale of the General Rule Maturities.*** As of the date of this certificate, for each Maturity of the General Rule Maturities, the first price at which at least 10% of such Maturity was sold to the Public is the respective price listed in Schedule A.

2. ***Initial Offering Price of the Hold-the-Offering-Price Maturities.***

(a) Piper offered the Hold-the-Offering-Price Maturities to the Public for purchase at the respective initial offering prices listed in Schedule A (the “Initial Offering Prices”) on or before the Sale Date. A copy of the pricing wire or equivalent communication for the Bonds is attached to this certificate as Schedule B.

(b) As set forth in the Bond Purchase Agreement, Piper has agreed in writing that, (i) for each Maturity of the Hold-the-Offering-Price Maturities, it would neither offer nor sell any of the Bonds of such Maturity to any person at a price that is higher than the Initial Offering Price for such Maturity during the Holding Period for such Maturity (the “hold-the-offering-price rule”), and (ii) any selling group agreement shall contain the agreement of each dealer who is a member of the selling group, and any retail distribution agreement shall contain the agreement of each broker-dealer who is a party to the retail distribution agreement, to comply with the hold-the-offering-price rule. Pursuant to such agreement, no Underwriter (as defined below) has offered or sold any Maturity of the Hold-the-Offering-Price Maturities at a price that is higher than the respective Initial Offering Price for that Maturity of the Bonds during the Holding Period.

3. ***Defined Terms.***

(a) *General Rule Maturities* means those Maturities of the Bonds listed in Schedule A hereto as the “General Rule Maturities.”

(b) *Hold-the-Offering-Price Maturities* means those Maturities of the Bonds listed in Schedule A hereto as the “Hold-the-Offering-Price Maturities.”

(c) *Holding Period* means, with respect to a Hold-the-Offering-Price Maturity, the period starting on the Sale Date and ending on the earlier of (i) the close of the fifth business day after the Sale Date, or (ii) the date on which Piper has sold at least 10% of such Hold-the-Offering-Price

Maturity to the Public at prices that are no higher than the Initial Offering Price for such Hold-the-Offering-Price Maturity.

(d) *Issuer* means City of Roseville.

(e) *Maturity* means Bonds with the same credit and payment terms. Bonds with different maturity dates, or Bonds with the same maturity date but different stated interest rates, are treated as separate maturities.

(f) *Public* means any person (including an individual, trust, estate, partnership, association, company, or corporation) other than an Underwriter or a related party to an Underwriter. The term “related party” for purposes of this certificate generally means any two or more persons who have greater than 50 percent common ownership, directly or indirectly.

(g) *Sale Date* means the first day on which there is a binding contract in writing for the sale of a Maturity of the Bonds. The Sale Date of the Bonds is _____, 2020.

(h) *Underwriter* means (i) any person that agrees pursuant to a written contract with the Issuer (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the Public, and (ii) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (i) of this paragraph to participate in the initial sale of the Bonds to the Public (including a member of a selling group or a party to a retail distribution agreement participating in the initial sale of the Bonds to the Public).

The representations set forth in this certificate are limited to factual matters only. Nothing in this certificate represents Piper’s interpretation of any laws, including specifically Sections 103 and 148 of the Internal Revenue Code of 1986, as amended, and the Treasury Regulations thereunder. The undersigned understands that the foregoing information will be relied upon by the Issuer with respect to certain of the representations set forth in the Certificates as to Arbitrage and with respect to compliance with the federal income tax rules affecting the Bonds, and by Jones Hall, A Professional Law Corporation in connection with rendering its opinion that the interest on the Bonds is excluded from gross income for federal income tax purposes, the preparation of the Internal Revenue Service Form 8038-G, and other federal income tax advice that it may give to the Issuer from time to time relating to the Bonds.

Dated: _____, 2020

SUPPLEMENTAL AGREEMENT NO. 1 TO FISCAL AGENT AGREEMENT

THIS SUPPLEMENTAL AGREEMENT NO. 1 TO FISCAL AGENT AGREEMENT (this "Supplemental Agreement No. 1" or "Agreement"), dated as of _____ 1, 2020, is by and between the CITY OF ROSEVILLE, a charter city and public body, corporate and politic, organized and existing under and by virtue of the Constitution and laws of the State of California (the "City") for and on behalf of the City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the "District"), and THE BANK OF NEW YORK MELLON TRUST COMPANY, N.A., as fiscal agent (the "Fiscal Agent") under a Fiscal Agent Agreement, dated as of July 1, 2019 (the "Original Fiscal Agent Agreement") by and between the Fiscal Agent and the City.

RECITALS:

WHEREAS, the City Council of the City has formed the District under the provisions of the Mello-Roos Community Facilities Act of 1982, as amended (constituting Section 53311 *et seq.* of the California Government Code) (the "Act"); and

WHEREAS, the City Council, as the legislative body of the District, is authorized under the Act to levy special taxes to pay for the costs of facilities within the District and to authorize the issuance of bonds secured by said special taxes under the Act; and

WHEREAS, the Council, as legislative body of the District, previously authorized the issuance of special tax bonds of the City for the District in the maximum aggregate principal amount of not to exceed \$310,000,000 (the "Bond Authorization"); and

WHEREAS, pursuant to the provisions of the Act and the Original Fiscal Agent Agreement, the City previously issued, for and on behalf of the District, \$12,540,000 initial principal amount of City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2019 (the "2019 Bonds") for the purpose of financing various public improvements authorized to be funded by the District, which 2019 Bonds constituted the first series of bonds issued pursuant to the Bond Authorization; and

WHEREAS, Section 5.17 of the Original Fiscal Agent Agreement authorizes the issuance by Supplemental Agreement of Additional Bonds (as such terms are defined in the Original Fiscal Agent Agreement) secured under the Original Fiscal Agent Agreement on parity with the 2019 Bonds; and

WHEREAS, after due investigation and deliberation the City has determined that it is in the interests of the City and the District at this time for the City, for and on behalf of the District, to provide for the issuance of City of Roseville Community Facilities District No. 1 Special Tax Bonds, Series 2020 in the initial aggregate principal amount of \$_____ (the "2020 Bonds"), to provide moneys needed to construct and acquire the facilities necessary for development of property within the City; and

WHEREAS, this Supplemental Agreement No. 1 is a "Supplemental Agreement" as defined in Section 1.03 of the Original Fiscal Agent Agreement and the 2020 Bonds are "Additional Bonds" as defined in Section 1.03 of the Original Fiscal Agent Agreement and secured under the Original Fiscal Agent Agreement, as amended and supplemented by this Supplemental Agreement No. 1, on parity with the 2019 Bonds;

WHEREAS, the City and the Fiscal Agent desire to enter into this Supplemental Agreement No. 1 pursuant to Sections 5.17 of the Original Fiscal Agent Agreement and to provide for the issuance of the 2020 Bonds;

WHEREAS, to provide for the issuance of the 2020 Bonds, it is necessary to supplement and amend the Original Fiscal Agent Agreement, as more particularly provided herein, as authorized by Sections 5.17 and 8.05 of the Original Fiscal Agent Agreement; and

WHEREAS, the City has determined that all acts and proceedings required by law necessary to make the 2020 Bonds, when executed by the City for the District, authenticated and delivered by the Fiscal Agent and duly issued, the valid, binding and legal special obligations of the City for the District, and to constitute the Original Fiscal Agent Agreement, as amended and supplemented by this Supplemental Agreement No. 1, a valid and binding agreement for the uses and purposes herein and therein set forth, in accordance with its terms, have been done or taken and the execution and delivery of this Supplemental Agreement No. 1 have been in all respects duly authorized.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and the mutual agreements herein contained, and for other consideration the receipt and sufficiency of which are hereby acknowledged, the parties hereto do hereby agree as follows:

SECTION 1. Supplement to Original Fiscal Agent Agreement. In accordance with the provisions of Section 5.17 and 8.05 of the Original Fiscal Agent Agreement, the Original Fiscal Agent Agreement is hereby amended by adding a new article thereto, to be designated as Article X. Such Article X shall read in its entirety as follows:

ARTICLE X

2020 BONDS

Section 10.01. Definitions. The Original Fiscal Agent Agreement is amended to add the following definitions to Section 1.03.

“Article X” means this Article X which has been incorporated in and made a part of this Agreement pursuant to Supplemental Agreement No. 1, together with all amendments of and supplements to this Article X entered into pursuant to the provisions of Section 8.01.

“Continuing Disclosure Certificate” means (i) with respect to the 2019 Bonds, the Continuing Disclosure Agreement, dated as of July 1, 2019, by and between the City and Willdan Financial Services, in its capacity as Dissemination Agent, as originally executed and as it may be amended from time to time in accordance with the terms thereof and (ii) with respect to the 2020 Bonds, the Continuing Disclosure Agreement, dated as of _____, 1, 2020, by and among the City and Willdan Financial Services, in its capacity as Dissemination Agent, as originally executed and as it may be amended from time to time in accordance with the terms thereof.

“Interest Payment Dates” means (i) with respect to the 2019 Bonds, March 1 and September 1 of each year, commencing September 1, 2019, and (ii) with respect to the 2020 Bonds, March 1 and September 1 of each year, commencing September 1, 2020.

“Supplemental Agreement No. 1” means Supplemental Agreement No. 1 to Fiscal Agent Agreement, dated as of _____ 1, 2020, between the City, for and on behalf of the District, and the Fiscal Agent.

“2020 Bonds” means the City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2020, authorized to be issued under Section 10.02.

“2020 Costs of Issuance” means items of expense payable or reimbursable directly or indirectly by the City and related to the authorization, sale and issuance of the 2020 Bonds, which items of expense shall include, but not be limited to, printing costs, costs of reproducing and binding documents, closing costs, filing and recording fees, initial fees, expenses and charges of the Fiscal Agent including its first annual administration fee, expenses incurred by the City in connection with the issuance of the 2020 Bonds, financial advisor fees, (underwriter’s) discount or underwriting fee for the 2020 Bonds, legal fees and charges, including bond counsel, disclosure counsel, charges for execution, transportation and safekeeping of the 2020 Bonds and other costs, charges and fees in connection with the foregoing.

“2020 Costs of Issuance Fund” means the fund by that name established and held by the Fiscal Agent pursuant to Section 10.07.

“2020 Improvement Account” means the account by that name established in Section 3(A) of this Supplemental Agreement No. 1 hereof.

“2020 Reserve Account” means the account by that name established in Section ____ of this Supplemental Agreement No. 1 hereof.

“Term 2020 Bonds” means the 2020 Bonds maturing September 1, 20__ and September 1, 20__.

Section 10.02. Authorization of 2020 Bonds. 2020 Bonds in the aggregate principal amount of \$_____, are hereby authorized to be issued as Additional Bonds under and subject to the terms of this Agreement, the Act, and other applicable laws of the State of California. The 2020 Bonds shall be designated the “City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds, Series 2020.”

Jurisdiction is hereby reserved to issue subsequent Additional Bonds; provided that the maximum aggregate principal amount of bonds which may be issued for the District, including Bonds outstanding under this Agreement, shall not exceed the Bond Authorization.

Section 10.03. Terms of 2020 Bonds.

(A) Form; Denominations. The 2020 Bonds shall be issued as fully registered Bonds without coupons in the denomination of \$5,000 or any integral multiple of \$5,000 in excess thereof.

(B) Date of the 2020 Bonds. The 2020 Bonds shall be dated the Closing Date for the 2020 Bonds.

(C) CUSIP Identification Numbers. "CUSIP" identification numbers shall be imprinted on the 2020 Bonds, but such numbers shall not constitute a part of the contract evidenced by the 2020 Bonds and any error or omission with respect thereto shall not constitute cause for refusal of any purchaser to accept delivery of and pay for the 2020 Bonds. In addition, failure on the part of the City or the Fiscal Agent to use such CUSIP numbers in any notice to Owners shall not constitute an event of default or any violation of the City's contract with such Owners and shall not impair the effectiveness of any such notice.

(D) Maturities, Interest Rates. The 2020 Bonds shall be issued as serial bonds and term bonds, and shall mature and become payable as follows:

<u>Maturity Date</u> <u>(Sept. 1)</u>	<u>Principal</u> <u>Amount</u>	<u>Interest</u> <u>Rate</u>	<u>Maturity Date</u> <u>(Sept.1)</u>	<u>Principal</u> <u>Amount</u>	<u>Interest</u> <u>Rate</u>
--	-----------------------------------	--------------------------------	---	-----------------------------------	--------------------------------

(E) Interest and Method of Payment. Interest on the 2020 Bonds shall be payable as provided in Section 2.02(E) of this Agreement, with the Closing Date as used therein being the Closing Date as defined in Section 1.02, and payments shall be made on the 2020 Bonds as provided in Section 2.02(F), with the first Interest Payment Date being September 1, 2020.

Section 10.04. Redemption of 2020 Bonds.

(A) Redemption Dates.

(i) Optional Redemption. The 2020 Bonds are subject to optional redemption from any source of available funds (other than Prepayments of the Special Tax by property owners), in whole or in part among maturities as specified by the City and by lot within a maturity, on any date on and after September 1, 20__ at the following respective redemption prices (expressed as percentages of the principal amount of the 2020 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

<u>Redemption Dates</u>	<u>Redemption Price</u>
September 1, 20__ through August 31, 20__	103%
September 1, 20__ through August 31, 20__	102
September 1, 20__ through August 31, 20__	101
September 1, 20__ and any date thereafter	100

(ii) Mandatory Redemption From Prepayments. The 2020 Bonds are subject to mandatory redemption from Prepayments of the Special Tax by property owners, in

whole or in part among maturities as specified by the City and by lot within a maturity, on any Interest Payment Date at the following respective redemption prices (expressed as percentages of the principal amount of the 2020 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

<u>Redemption Dates</u>	<u>Redemption Price</u>
Interest Payment Dates through March 1, 20__	103%
September 1, 20__ and March 1, 20__	102
September 1, 20__ and March 1, 20__	101
September 1, 20__ and Interest Payment Dates thereafter	100

(iii) Mandatory Sinking Payment Redemption. The Term 2020 Bonds maturing September 1, 20__ are subject to mandatory sinking payment redemption in part on September 1, 20__ and on each September 1 thereafter to maturity, by lot, at a redemption price equal to one hundred percent (100%) of the principal amount thereof to be redeemed, without premium, in the aggregate respective principal amounts as set forth in the following table:

Mandatory Redemption Date (Sept. 1)	Sinking Fund Payment
20__	\$
20__	
20__	
20__	
20__ (maturity)	

The Term 2020 Bonds maturing September 1, 20__ are subject to mandatory sinking payment redemption in part on September 1, 20__ and on each September 1 thereafter to maturity, by lot, at a redemption price equal to one hundred percent (100%) of the principal amount thereof to be redeemed, without premium, in the aggregate respective principal amounts as set forth in the following table:

Mandatory Redemption Date (Sept. 1)	Sinking Fund Payment
20__	\$
20__	
20__	
20__	
20__ (maturity)	

The amounts in the foregoing tables shall be reduced pro rata, at the direction of the City in an Officer's Certificate, as a result of any prior partial optional or mandatory redemption of the Term 2019 Bonds pursuant to clause (A)(i) or clause (A)(ii) above. In the event of a redemption pursuant to clause (A)(i) or clause (A)(ii) above, the City shall provide the Fiscal Agent with a revised sinking fund schedule giving effect to the redemption so completed.

In lieu of redemption under this Section 10.04, moneys in the Bond Fund may be used and withdrawn by the Fiscal Agent for purchase of Outstanding 2020 Bonds, upon the filing with the Fiscal Agent of an Officer's Certificate requesting such purchase, at public or private sale as and when, and at such prices (including brokerage and other charges) as such Officer's

Certificate may provide, but in no event may 2020 Bonds be purchased at a price in excess of the principal amount thereof, plus interest accrued to the date of purchase.

(B) Notice to Fiscal Agent. The City shall give the Fiscal Agent an Officer's Certificate containing notice of its intention to redeem 2020 Bonds pursuant to clause (A)(i) or clause (A)(ii) not less than 45 days prior to the applicable redemption date.

(C) Redemption Procedure by Fiscal Agent; Rescission; Effect of Redemption. The redemption provisions set forth in Section 2.03(C) and Section 2.03(D) shall apply to the 2020 Bonds as if set forth herein.

Section 10.05. Form of 2020 Bonds; Authentication and Delivery.

(A) Form of 2020 Bonds. The 2020 Bonds, the form of Fiscal Agent's certificate of authentication, and the form of assignment to appear thereon, shall be substantially in the respective forms set forth in Exhibit C attached hereto and by this reference incorporated herein, with necessary or appropriate variations, omissions and insertions, as permitted or required by this Agreement and the Act.

(B) Execution of 2020 Bonds. The 2020 Bonds shall be executed on behalf of the City by the Mayor and the City Clerk of the City who are in office on the date of adoption of this Agreement or at any time thereafter, and the seal of the City may be impressed, imprinted or reproduced by facsimile signature thereon. If any officer whose signature appears on any 2020 Bond ceases to be such officer before delivery of the 2020 Bonds to the Owner, such signature shall nevertheless be as effective as if the officer had remained in office until the delivery of the 2020 Bonds to the Owner. Any 2020 Bond may be signed and attested on behalf of the City by such persons as at the actual date of the execution of such 2020 Bond shall be the proper officers of the City although at the nominal date of such 2020 Bond any such person shall not have been such officer of the City.

Only such of the 2020 Bonds as shall bear thereon a certificate of authentication in the form set forth in Exhibit C, manually or electronically executed and dated by the Fiscal Agent, shall be valid or obligatory for any purpose or entitled to the benefits of this Agreement, and such certificate of the Fiscal Agent shall be conclusive evidence that such 2020 Bonds have been duly authenticated and delivered hereunder and are entitled to the benefits of this Agreement.

(C) Authentication and Delivery of 2020 Bonds; Transfer and Exchange; Additional Provisions of the 2020 Bonds. At any time after the execution of Supplemental Agreement No. 1 and delivery by the City of an Officer's Certificate that the requirements of Section 5.17 for the issuance of the 2020 Bonds as Additional Bonds have been met, the City may issue the 2020 Bonds for the District in the aggregate principal amount set forth in Section 10.02 and deliver the 2020 Bonds to the Original Purchaser. The Authorized Officers of the City are hereby authorized and directed to deliver any and all documents and instruments necessary to cause the issuance of the 2020 Bonds in accordance with the provisions of the Act and this Agreement, as supplemented by Supplemental Agreement No. 1, to authorize the payment of 2020 Costs of Issuance and costs of the Project by the Fiscal Agent from the proceeds of the 2020 Bonds and to do and cause to be done any and all acts and things necessary or convenient for delivery of the 2020 Bonds to the Original Purchaser.

The provisions of Sections 2.06 through 2.13 of the Original Fiscal Agent Agreement shall apply to the 2020 Bonds in a like manner as applied to the 2019 Bonds.

Section 10.06. Application of Proceeds of Sale of 2020 Bonds.

(A) Proceeds of 2020 Bonds. The proceeds of the purchase of the 2020 Bonds by the Original Purchaser in the amount of \$_____, calculated as the principal amount of the 2020 Bonds, less an underwriter's discount of \$_____, plus/less a [net] original issue premium/discount of \$_____, shall be paid to the Fiscal Agent, who shall forthwith set aside, pay over and deposit such proceeds on the Closing Date as follows:

- (i) Deposit in the 2020 Improvement Account of the Improvement Fund \$_____;
- (ii) Deposit in the 2020 Reserve Account of the Reserve Fund \$_____;
- (iii) Deposit in the 2020 Capitalized Interest Account of the Bond Fund \$_____; and
- (iv) Deposit in the 2020 Costs of Issuance Fund \$_____.

(B) 2020 Reserve Account. In accordance with Section 4.03(A), the Fiscal Agent shall establish a separate subaccount within the Reserve Fund known as the "2020 Reserve Account," into which the amounts set forth in Section 10.06(A)(ii) shall be deposited. The 2019 Reserve Account and the 2020 Reserve Account shall be held by the Fiscal Agent within the Reserve Fund, and administered as set forth in the Agreement.

(C) Additional Funds and Accounts. The Fiscal Agent may, in its discretion, establish a temporary fund or account in its books and records to facilitate transfers required under this Section 10.06.

Section 10.07. 2020 Costs of Issuance Fund. There is hereby established a separate fund to be known as the "2020 Costs of Issuance Fund", which shall be held by the Fiscal Agent in trust. Amounts in the Costs of Issuance Fund shall be disbursed from time to time to pay 2020 Costs of Issuance, as set forth in an Officer's Certificate containing respective amounts to be paid to the designated payees, signed by the Chief Financial Officer or a designee thereof and delivered to the Fiscal Agent. The Fiscal Agent shall pay all 2020 Costs of Issuance upon receipt of an invoice from any such payee which requests payment in an amount which is less than or equal to the amount set forth with respect to such payee in such Officer's Certificate, or upon receipt of an Officer's Certificate requesting payment of a 2020 Costs of Issuance not listed on the initial Officer's Certificate delivered to the Fiscal Agent on the Closing Date. The Fiscal Agent shall maintain the 2020 Costs of Issuance Fund for a period of 45 days from the Closing Date and then shall transfer any moneys remaining therein, including any investment earnings thereon, to the 2020 Improvement Account. Thereafter, every invoice received by the Fiscal Agent shall be paid from amounts on deposit in the 2020 Improvement Account and the Fiscal Agent shall close the 2020 Costs of Issuance Fund. Moneys in the 2020 Costs of Issuance Fund shall be invested and deposited in accordance with Section 6.01. Interest earnings and profits resulting from said investment shall be retained by the Fiscal Agent in the 2020 Costs of Issuance Fund to be used for the purposes of such fund.

Section 10.08. Procedure for Disbursement of 2020 Improvement Account.

(A) Disbursements. Disbursements from the 2020 Improvement Account shall be made by the Fiscal Agent according to the procedure set forth in Section 3.04, and an Officer's Certificate substantially in the form of Exhibit B to the Agreement (except that in such Officer's Certificate, reference shall be made to the 2020 Improvement Account and to the 2020 Bonds).

(B) Investment. Moneys in the Improvement Fund and the accounts established thereunder shall be invested and deposited in accordance with Section 6.01. Interest earnings and profits from the investment of amounts in the Improvement Fund shall be retained by the Fiscal Agent in the Improvement Fund to be used for the purposes of the Improvement Fund.

(C) Closing of Fund. Upon the filing of an Officer's Certificate stating that the portion of the Project to be financed from the Improvement Fund and the accounts established thereunder has been completed and that all costs of such portion of the Project have been paid or are not required to be paid from the Improvement Fund, the Fiscal Agent shall transfer the amount, if any, remaining in the Improvement Fund to the Bond Fund for application to the payment of principal of and interest on the Bonds in accordance with Section 4.02 and the Improvement Fund shall be closed.

Section 10.09. Security for 2020 Bonds. The 2020 Bonds shall be Additional Bonds which shall be secured in the manner and to the extent set forth in Articles IV and V, and in this Article X.

Section 10.10. Effect of this Article X. Except as in this Article X expressly provided or except to the extent inconsistent with any provision of this Article X, the 2020 Bonds shall be deemed to be "Bonds" under and within the meaning of Section 1.03, and every term and condition contained in the foregoing provisions of this Agreement shall apply to the 2020 Bonds with full force and effect, with such omissions, variations and modifications thereof as may be appropriate to make the same conform to this Article X.

SECTION 2. Attachment of Exhibit C. The Original Fiscal Agent Agreement is hereby further amended by incorporating therein an Exhibit C setting forth the form of the 2020 Bonds, which shall read in its entirety as set forth in Exhibit A attached hereto and hereby made a part hereof.

SECTION 3. Additional Amendments to Original Fiscal Agent Agreement. The Original Fiscal Agent Agreement is hereby further amended as follows:

(A) Section 3.04(A) of the Agreement is hereby amended by adding thereto, as a new third sentence thereof, the following: "There is also hereby created within the Improvement Fund a separate account designated as the "2020 Improvement Account" of the Improvement Fund, which account is hereby established for purposes of accounting for the use and disposition of 2020 Bond proceeds directed to the Improvement Fund pursuant to Section 10.06 and 10.08.

(B) Section 4.02(A) of the Agreement is hereby amended by adding thereto, as a new paragraph at the end thereof, the following: "There is also hereby created within the Bond Fund a "2020 Capitalized Interest Account" which account is hereby established for purposes of accounting for the disposition of 2020 Bonds, a portion of the proceeds of which will be deposited to such 2020 Capitalized Interest Account pursuant to Section 10.06. The amount deposited to the 2020 Capitalized Interest Account and any investment earnings thereon shall

be used solely to make payments on the 2020 Bonds, and the amount deposited to the 2020 Capitalized Interest Account and any investment earnings thereon shall be applied solely to make payments on the 2020 Bonds on September 1, 2020. Any excess amounts therein on September 2, 2020 shall be transferred to the Bond Fund, and the 2020 Capitalized Interest Account shall thereupon be closed.

(C) References in the Original Fiscal Agent Agreement to the 2019 Bonds which, if the context requires reference to the 2019 Bonds and any Additional Bonds in order to maintain the parity relationship of the 2019 Bonds and any Additional Bonds and the security therefor, shall be deemed to refer to "Bonds" as defined in the Original Fiscal Agent Agreement rather than "2019 Bonds."

SECTION 4. Partial Invalidity. If any section, paragraph, sentence, clause or phrase of this Supplemental Agreement No. 1 shall for any reason be held illegal, invalid or unenforceable, such holding shall not affect the validity of the remaining portions of this Supplemental Agreement No. 1. The City hereby declares that it would have entered into this Supplemental Agreement No. 1 and each and every other Section, paragraph, sentence, clause or phrase hereof and authorized the issue of the 2020 Bonds pursuant thereto irrespective of the fact that any one or more Sections, paragraphs, sentences, clauses, or phrases of this Supplemental Agreement No. 1 may be held illegal, invalid or unenforceable.

SECTION 5. Execution in Counterparts. This Supplemental Agreement No. 1 may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

SECTION 6. Governing Law. This Supplemental Agreement No. 1 shall be construed and governed in accordance with the laws of the State of California applicable to contracts made and performed in such State.

IN WITNESS WHEREOF, the City and the Fiscal Agent have caused this Supplemental Agreement No. 1 to Fiscal Agent Agreement to be executed as of _____ 1, 2020.

CITY OF ROSEVILLE
VILLAGES AT SIERRA VISTA
COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES)
SPECIAL TAX BOND
SERIES 2020

INTEREST RATE: MATURITY DATE: BOND DATE: CUSIP:
September 1, _____, 2020

REGISTERED OWNER: CEDE & CO.

PRINCIPAL AMOUNT: _____ DOLLARS

The City of Roseville (the "City") for and on behalf of the City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) (the "District"), for value received, hereby promises to pay solely from the Special Tax (as hereinafter defined) to be collected in the District or amounts in certain funds and accounts held under the Agreement (as hereinafter defined), to the Registered Owner named above, or registered assigns (the "Owner"), on the Maturity Date set forth above, unless redeemed prior thereto as hereinafter provided, the Principal Amount set forth above, and to pay interest on such principal amount from the Bond Date shown above, or from the most recent Interest Payment Date (as hereinafter defined) to which interest has been paid or duly provided for, semiannually on March 1 and September 1, commencing September 1, 2020 (the "Interest Payment Dates"), at the Interest Rate set forth above, until the principal amount hereof is paid or made available for payment. The principal of this 2020 Bond is payable to the Owner hereof in lawful money of the United States of America upon presentation and surrender of this 2020 Bond at a designated corporate trust office of The Bank of New York Mellon Trust Company, N.A. in San Francisco, California (the "Fiscal Agent"). Interest on this 2020 Bond shall be paid by check of the Fiscal Agent mailed by first class mail on each Interest Payment Date to the Owner hereof as of the close of business on the 15th day of the month preceding the month in which the Interest Payment Date occurs (the "Record Date") at such Owner's address as it appears on the registration books maintained by the Fiscal Agent, or by wire transfer made on such Interest Payment Date upon written instructions delivered to the Fiscal Agent by the applicable Record Date of any Owner of \$1,000,000 or more in aggregate principal amount of 2020 Bonds.

This 2020 Bond is one of a duly authorized issue of bonds approved by resolution of the City Council of the City on _____, 2020 (the "Resolution"), pursuant to the Mello-Roos

Community Facilities Act of 1982, as amended, Sections 53311, *et seq.*, of the California Government Code (the "Mello-Roos Act") for the purpose of providing moneys for the construction and acquisition of improvements within the District, and is one of the bonds designated "City of Roseville Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities) Special Tax Bonds Series 2020" (the "2020 Bonds"). The issuance of the 2020 Bonds and the terms and conditions thereof are provided for by a Fiscal Agent Agreement, dated as of July 1, 2019, as amended and supplemented by a Supplemental Agreement No. 1 to Fiscal Agent Agreement dated as of _____, 1, 2020 (together, the "Agreement"), by and between the City and the Fiscal Agent and this reference incorporates the Agreement herein, and by acceptance hereof the Owner of this 2020 Bond assents to said terms and conditions. The Agreement is authorized under, this 2020 Bond is issued under and both are to be construed in accordance with, the laws of the State of California.

Pursuant to the Mello-Roos Act, the Agreement and the Resolution, the principal of and interest on this 2020 Bond are payable, on parity with previously issued bonds of the District, solely from the Special Tax Revenues and the amounts in certain funds held under the Agreement. "Special Tax Revenues" means the proceeds of the facilities special tax ("Special Taxes") levied under the Mello-Roos Act in the District that are received by the City, including all scheduled payments and delinquent payments thereof, interest thereon and proceeds of the redemption or sale of property sold as a result of foreclosure of the lien of the special taxes, net of a 1% administration charge of the County (as such charge may be changed in the future), but not including interest in excess of the interest due on the Bonds or any penalties collected in connection with any such foreclosure.

Interest on this 2020 Bond shall be payable from the Interest Payment Date next preceding the date of authentication hereof, unless (i) it is authenticated on an Interest Payment Date, in which event it shall bear interest from such Interest Payment Date, or (ii) such date of authentication is after a Record Date but on or prior to an Interest Payment Date, in which event interest will be payable from such Interest Payment Date, or (iii) such date of authentication is prior to the first Record Date, in which event interest will be payable from the 2020 Bond Date shown above; provided however, that if at the time of authentication of this 2020 Bond, interest is in default hereon, this 2020 Bond shall bear interest from the Interest Payment Date to which interest has previously been paid or made available for payment hereon.

Any tax for the payment hereof shall be limited to the Special Tax, except to the extent that provision for payment has been made by the City as may be permitted by law. The 2020 Bonds do not constitute obligations of the City for which the City is obligated to levy or pledge, or has levied or pledged, general or special taxation other than described herein above.

The 2020 Bonds are subject to optional redemption from any source of available funds (other than Prepayments of the Special Tax by property owners), in whole or in part among maturities as specified by the City and by lot within a maturity, on any date on and after September 1, 20__ at the following respective redemption prices (expressed as percentages of the principal amount of the 2020 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

<u>Redemption Dates</u>	<u>Redemption Price</u>
September 1, 20__ through August 31, 20__	103%
September 1, 20__ through August 31, 20__	102
September 1, 2027 through August 31, 20__	101

September 1, 20__ and any date thereafter

100

The 2020 Bonds are subject to mandatory redemption from Prepayments of the Special Tax by property owners, in whole or in part among maturities as specified by the City and by lot within a maturity, on any Interest Payment Date at the following respective redemption prices (expressed as percentages of the principal amount of the 2020 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

<u>Redemption Dates</u>	<u>Redemption Price</u>
Interest Payment Dates through March 1, 20__	103%
September 1, 20__ and March 1, 20__	102
September 1, 20__ and March 1, 20__	101
September 1, 20__ and Interest Payment Dates thereafter	100

The Term 2020 Bonds maturing September 1, 20__ are subject to mandatory sinking payment redemption in part on September 1, 20__ and on each September 1 thereafter to maturity, by lot, at a redemption price equal to one hundred percent (100%) of the principal amount thereof to be redeemed, without premium, in the aggregate respective principal amounts as set forth in the following table:

Mandatory Redemption Date (Sept. 1)	Sinking Fund Payment
20__	\$
20__	
20__	
20__	
20__ (maturity)	

The Term 2020 Bonds maturing September 1, 20__ are subject to mandatory sinking payment redemption in part on September 1, 20__ and on each September 1 thereafter to maturity, by lot, at a redemption price equal to one hundred percent (100%) of the principal amount thereof to be redeemed, without premium, in the aggregate respective principal amounts as set forth in the following table:

Mandatory Redemption Date (Sept. 1)	Sinking Fund Payment
20__	\$
20__	
20__	
20__	
20__ (maturity)	

The amounts in the foregoing tables shall be reduced pro rata, at the direction of the City in an Officer's Certificate, as a result of any prior partial optional or mandatory redemption of the Term 2020 Bonds.

Notice of redemption with respect to the 2020 Bonds to be redeemed shall be given to the Owners thereof, in the manner, to the extent and subject to the provisions of the Agreement.

This 2020 Bond shall be registered in the name of the Owner hereof, as to both principal and interest. Each registration and transfer of registration of this 2020 Bond shall be entered by the Fiscal Agent in books kept by it for this purpose and authenticated by its manual signature upon the certificate of authentication endorsed hereon.

No transfer or exchange hereof shall be valid for any purpose unless made by the registered owner, by execution of the form of assignment endorsed hereon, and authenticated as herein provided, and the principal hereof, interest hereon and any redemption premium shall be payable only to the registered owner or to such Owner's order. The Fiscal Agent shall require the Owner requesting transfer or exchange to pay any tax or other governmental charge required to be paid with respect to such transfer or exchange. No transfer or exchange hereof shall be required to be made (i) within 15 days prior to the date established by the Fiscal Agent for selection of 2020 Bonds for redemption or (ii) with respect to a 2020 Bond after such 2020 Bond has been selected for redemption.

The Agreement and the rights and obligations of the City thereunder may be modified or amended as set forth therein. The principal of the 2020 Bonds is not subject to acceleration upon a default under the Agreement or any other document. This 2020 Bond shall not become valid or obligatory for any purpose until the certificate of authentication hereon endorsed shall have been dated and manually signed by the Fiscal Agent. It is hereby certified, recited and declared that all acts, conditions and things required by law to exist, happen and be performed precedent to and in the issuance of this 2020 Bond have existed, happened and been performed in due time, form and manner as required by law, and that the amount of this 2020 Bond, together with all other indebtedness of the City, does not exceed any debt limit prescribed by the laws or Constitution of the State of California.

Unless this 2020 Bond is presented by an authorized representative of The Depository Trust Company to the Fiscal Agent for registration of transfer, exchange or payment, and any 2020 Bond issued is registered in the name of Cede & Co. or such other name as requested by an authorized representative of The Depository Trust Company and any payment is made to Cede & Co., ANY TRANSFER, PLEDGE OR OTHER USE HEREOF FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL since the registered owner hereof, Cede & Co., has an interest herein.

IN WITNESS WHEREOF, the City of Roseville has caused this 2020 Bond to be dated _____, 2020, to be signed by the manual or facsimile signature of its Mayor and attested by the manual or facsimile signature of its City Clerk.

File #: 0800-02

Title: Integrated Resource Plan - Professional Services Agreement Amendment
Contact: Sean Bigley 916-774-5513 sbigley@roseville.ca.us

Meeting Date: 7/1/2020
Item #: 8.2.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve the First Amendment to Professional Services Agreement with Stantec Consulting Services, Inc. and authorize the City Manager to execute it.

BACKGROUND

The City of Roseville is a full service city that owns and operates its own water, electric, wastewater, solid waste and recycled water utilities. The Environmental Utilities Department (EU) is responsible for the ongoing delivery of services and prospective planning for the water, wastewater, solid waste and recycled water utilities and is responsible for the management of the City's stormwater program.

In late 2018, EU issued a Request for Proposals (RFP) and had one responsive company, Stantec, Inc. that was eventually awarded a Professional Services Agreement by the Roseville City Council on December 5, 2018, to begin to develop EU's Integrated Resources Plan and related activities, as scoped.

In early 2019, EU, with Stantec's help, began the development of a comprehensive Integrated Resources Plan (IRP) that 1) documents current settings, service levels and resource portfolios in the water, wastewater and recycled water utilities and stormwater program; 2) considers a range of possible changed futures stemming from regulatory/legislative/judicial changes, environmental changes, climate change, and changing customer or business needs leading up to the year 2050; 3) develop a range of alternative program or project responses to meet changed conditions, for reduced, similar and enhanced service levels; 4) assemble a master plan of activities and projects over the 2050 planning period; and 5) summarize an integrated implementation plan to 2050 including the technical, operational, financial, legislative, educational, and customer strategies and tactics necessary for success.

Once completed, it is expected the IRP will be an embodiment of EU's collective institutional knowledge and a foundational document for how EU conducts business through 2050. As such,

cross-functional collaboration from senior to junior EU staff ranks is expected and encouraged in plan development.

This planning effort will span over approximately two years and has included a series of educational sessions on foundational utility operational factors, utility tools of the trade and a greater understanding of outside institutions, systems, frameworks and processes to allow for EU staff to participate in developing an IRP with a full context.

So far, EU staff have participated in and taught, with the assistance of Stantec, six learning sessions to provide the initial background and context to allow for the next sessions which will focus on planning and development of the IRP.

Additionally, Stantec, working with the EU Director and senior management staff, have deployed and received initial results of EU's organizational assessment, which is a key element for the upcoming planning effort and development of the IRP.

As these activities are completed, based on initial insights gathered, EU's Director and senior management staff would like to undertake some additional follow-up activities based on the outcomes of the organizational assessment and the learning sessions, as follows:

- Add up to four additional workshops, with up to 30 City staff, to further develop the water reliability assessment which is foundational to the IRP;
- Add budget to complete the Water Reliability Assessment Technical Memorandum;
- Add budget to further develop water supply portfolio options evaluation through up to three additional workshops, with up to 30 City staff, as well as complete the Water Reliability Enhancement Options Technical Memorandum;
- Add up to two additional workshops on the development of an implementation strategy for the IRP, with up to 30 City staff, once finished;
- Add up to four additional workshops, with up to 30 City staff, to develop and complete the IRP document;
- Add budget to complete the Executive Summary Technical Memorandum and related presentation materials which will include key conclusions that will guide City water management planning decisions through 2050.
- Related project management fees associated with the work outlined above and as detailed in the attached amended scope of services.

The EU Director and senior EU management believe these additional activities are necessary and key to the development of an IRP that will meet the department's long-range water resources planning needs relative to current and future opportunities and threats, organizational optimization, leadership development and succession planning.

FISCAL IMPACT

The First Amendment to Professional Services Agreement with Stantec Consulting Services, Inc., for development of an Integrated Resource Plan for the Environmental Utilities Department (EU) with a modified Scope of Services and an increase to the not-to-exceed amount from \$339,752 to \$753,752, is budgeted in FY2020-21 and funded from the Water Construction Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. An amendment to a professional services agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Respectfully Submitted,

Sean Bigley, Assistant Director Environmental Utilities

Richard Plecker, Director Environmental Utilities

Dominick Casey, City Manager

ATTACHMENTS:

Description

Resolution 20-263

First Amendment to Professional Services Agreement

RESOLUTION NO. 20-263

APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND STANTEC CONSULTING SERVICES, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a first amendment to professional services agreement for an Integrated Resource Plan, by and between the City of Roseville and Stantec Consulting Services, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said first amendment is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

**FIRST AMENDMENT TO
PROFESSIONAL SERVICES AGREEMENT**

Project: Integrated Resource Plan

THIS FIRST AMENDMENT TO AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and Stantec Consulting Services, Inc., a New York corporation (“CONSULTANT”); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated December 5, 2018 (“Agreement”) regarding the development of an Integrated Resource Plan and related services (“Project”); and

WHEREAS, CITY desires to amend the Agreement to include the additional services as described in CONSULTANT’s letter dated April 20, 2020, which is attached hereto as Exhibit “A” and incorporated herein by reference; and

WHEREAS, CONSULTANT is willing and able to provide such additional services.

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall provide additional services as described in Exhibit “A” of this First Amendment to Agreement.
2. Paragraph 2 of the Agreement is amended by adding an additional paragraph to read as follows:

“CITY shall pay four hundred fourteen thousand dollars (\$414,000), in consideration of the additional services as set forth in Exhibit “A” to the First Amendment to Agreement. This brings the total not to exceed contract amount to seven hundred fifty-three thousand, seven hundred fifty-two dollars (\$753,752).”

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and CONSULTANT has caused this First Amendment to Agreement to be executed.

EXHIBIT “A”

SCOPE OF SERVICES – Amendment #1

Description of Services

Stantec Consulting Services Inc. (hereinafter called “CONSULTANT”) agrees to perform the following services: Development of an Integrated Resource Plan (IRP) and Related Services.

Background

The City of Roseville’s (CITY) Environmental Utilities Department (EU) is requesting the development of an IRP and related services. The process for developing the IRP is broken into 6 steps that are organized into 5 Tasks:

- Step 1: Organization Situation Assessment and Process Design (Task 4)
- Step 2: Water Reliability Assessment (Task 2)
- Step 3: Options Identification (Task 3)
- Step 4: Options Evaluation (Task 3)
- Step 5: Implementation Strategy (Task 1)
- Step 6: IRP Preparation (Task 1)
- As needed implementation support (Task 5)

These 5 planning and technical tasks in this Scope of Services are numbered consistent with that in the Request for Proposals (dated 8 Aug 2018). In addition to those 5 tasks, a project management task is included as Task 6.

Amendment #1 revises the original Scope of Services (Agreement executed 5 Dec 2018, Resolution No. 18-483) to reflect additional work to be performed by CONSULTANT, based on discussions with and direction from the CITY Project Manager (PM). Included services are described below.

Task 1 – IRP Executive Summary and Related Overarching Elements

The purpose of the IRP Executive Summary and related elements is to set the purpose and objectives of the IRP as it relates to EU’s planning goals to 2050. The deliverable will summarize the plan’s framework, objectives, and organization in a manner that executive-level staff and elected officials can get a quick and clear summary of the IRP. The project deliverables noted in Tasks 2, 3 and 4, will effectively become attachments to the IRP. CONSULTANT will:

IRP Development Step	Activity	Original Agreement (Dec 2018)	Amendment #1 (Apr 2020)
Step 5: Implementation Strategy	Develop implementation strategy for prioritized reliability enhancement options. The trade-off analysis of identified options evaluated in Step 4 (Task 3) will be developed, reviewed, and prioritized. Informational graphics and representations will be developed to best display the outcomes of the multi-factor evaluation. The implementation strategy will include sequencing of the prioritized options and key milestone and decision points for phasing.	X	
	Conduct up to two (2) workshops for implementation strategy development. Each workshop will be at least 3 hours in duration, EU staff will be involved in the development and presentation of workshop modules. Up to 30 CITY Management and EU staff are expected to participate.		X
Step 6: IRP Preparation	Prepare Draft IRP Executive Summary (ES). The Draft IRP ES will rely on outcomes from Tasks 2 – 5, incorporating findings from prepared Technical Memorandums (TM), to be included as attachments. It will be developed as a stand-alone document to memorialize IRP purposes, process, findings, and recommendations.	X	
	Prepare Final IRP ES. The Final ES will reflect CITY review feedback on the Draft IRP. Associated presentation and briefing materials will be prepared, if requested by the CITY PM.	X	
	Conduct up to two (2) workshops for IRP preparation. Each workshop will be at least 3 hours in duration. EU staff will be involved in the development and presentation of workshop modules. Up to 30 CITY Management and EU staff are expected to participate. Presenter and participant questions, input, and feedback will be coordinated and considered in coordination with the CITY PM.		X

Task 2.0 - Water Reliability Assessment

The purpose of the water supply reliability assessment is to evaluate the CITY's current and future water supply reliability needs, assess the risks and impact of current and future droughts (hydrological and regulatory), including the effects of climate change, and summarize the baselines risks and economic costs for the CITY associated with the a "no action" scenario. Assessment of the CITY's vulnerabilities in terms of its water supply reliability will also be conducted. Information and data needed to develop the vulnerability assessment will use of existing and readily available sources along with original analyses. The planning horizons for the assessment will be focused on 2020, 2035 and 2050. CONSULTANT will:

IRP Development Step	Activity	Original Agreement (Dec 2018)	Amendment #1 (Apr 2020)
Step 2: Water Reliability Assessment	Define Planning Scenarios. A range of possible futures will be identified that incorporate potential regulatory/legislative/judicial changes, environmental changes, climate change, and changing customer or business needs to the year 2050. These planning scenarios will be designed to cover a range of potential slow and fast growth rates for the CITY, and moderate to extreme drought conditions.	X	
	Conduct Water Supply Portfolio Analysis. The analysis will (1) develop an estimate of total water demands under existing and projected future demands, (2) estimate total source capacity and storage capacity, and (3) compare total source capacity with estimated water demands for existing and future demand conditions under various hydrologic conditions. Information on water rights and contract entitlements, groundwater production capacity, and recycled water will be summarized for this analysis, and the priority and place of use restrictions for surface water rights and reliability of contract entitlements will be assessed.	X	
	Inventory Major Water Infrastructure. Key water infrastructure assets will be inventoried along with a GIS-based map of major CITY and regional water infrastructure to identify the current ability to move water around the region. The resulting information will be used to characterize the adequacy of regional conveyance capacities and interconnections.	X	
	Determine CITY's Ideal Level of Service. Desired levels of service (or water supply reliability threshold) will be developed under drought conditions and level of risk tolerance with regard to water reliability. These thresholds will be used to measure the degree of vulnerability from the various threats.	X	
	Identify Potential Threats and Vulnerabilities. Water supply reliability vulnerabilities will be assessed under various conditions and organized into logical categories that facilitate identification and evaluation of potential mitigation and response actions.	X	
	Summarize Risks and Economic Costs of "Do Nothing" Option. A concise description of the water reliability (shortage) risks, economic costs, and lost economic opportunities for a "do nothing" option under each of planning scenarios will be developed. Graphical displays will be included.	X	
	Conduct up to two (2) workshops for the water reliability assessment.	X	

IRP Development Step	Activity	Original Agreement (Dec 2018)	Amendment #1 (Apr 2020)
	Modify initial two (2) workshops. Each workshop will be at least 3 hours in duration. EU staff will be involved in the development and presentation of workshop modules. Up to 30 CITY Management and EU staff are expected to participate. Presenter and participant questions, input, and feedback will be coordinated and considered in coordination with the CITY PM.		X
	Conduct up to four (4) additional workshops for the water reliability assessment. Each workshop will be at least 3 hours in duration. EU staff will be involved in the development and presentation of workshop modules. Up to 30 CITY Management and EU staff are expected to participate. Presenter and participant questions, input, and feedback will be coordinated and considered in coordination with the CITY PM.		X
	Prepare Draft Water Reliability Assessment TM. The Draft TM will summarize output from Step 2 and the technical workshops and be delivered electronically.	X	X
	Prepare Revised Draft TM. The Revised Draft TM will reflect CITY review feedback on the Draft TM and be delivered electronically.	X	X

Task 3 - Reliability Enhancement Options Evaluation

The reliability enhancement options evaluation will serve as input to the IRP development process, which will take an expansive look at potential actions and activities to improve water reliability. CONSULTANT will:

IRP Development Step	Activity	Original Agreement (Dec 2018)	Amendment #1 (Apr 2020)
Step 3: Options Identification	Develop comprehensive list of options for enhancing the CITY's water reliability that includes both already identified strategic options as well as new strategic options and combinations/permutations. Input from workshop participants will be used.	X	X
	Conduct preliminary screening of comprehensive list of options to identify major flaws or undesirable attributes of the compiled options, which will be eliminated from further consideration. Screening will use input from workshop participants.	X	X

IRP Development Step	Activity	Original Agreement (Dec 2018)	Amendment #1 (Apr 2020)
	Prepare Draft Reliability Enhancement Options Identification TM. The Draft TM will summarize output from Step 3 and the technical workshops and be delivered electronically.	X	X
	Prepare Revised Draft TM. The Revised Draft TM will reflect CITY review feedback on the Draft TM and be delivered electronically.	X	X
Step 4: Options Evaluation	Establish evaluation criteria and associated metrics for evaluation of options. A scoring process and prioritization methodology will be also developed. Input from workshop participants will be used.	X	X
	Evaluate options. Existing analyses, technical memorandum or studies, and costs and benefits information will be used to the maximum extent possible and practical, with original analyses incorporated, as needed. Results of these evaluations will be vetted with EU staff in technical workshops.	X	X
	Prioritize evaluated options. The prioritization process will be setup to facilitate prudent decision making through comparison of the varying degrees of complexity, uncertainty, cost, and acceptability of the options. Prioritization results will be vetted with EU staff in technical workshops.	X	X
	Prepare Draft Reliability Enhancement Options Evaluation TM. The Draft TM will summarize output from Step 4 and the technical workshops and be delivered electronically.	X	X
	Prepare Revised Draft TM. The Revised Draft TM will reflect CITY review feedback on the Draft TM and be delivered electronically.	X	X
Steps 3 and 4	Conduct up to two (2) workshops for the reliability enhancement options evaluation.	X	
	Modify initial two (2) workshops. Each workshop will be at least 3 hours in duration. EU staff will be involved in the development and presentation of workshop modules. Up to 30 CITY Management and EU staff are expected to participate. Presenter and participant questions, input, and feedback will be coordinated and considered in coordination with the CITY PM.		X

IRP Development Step	Activity	Original Agreement (Dec 2018)	Amendment #1 (Apr 2020)
	Conduct up to three (3) additional workshops for the reliability enhancement options evaluation. Each workshop will be at least 3 hours in duration. EU staff will be involved in the development and presentation of workshop modules. Up to 30 CITY Management and EU staff are expected to participate. Presenter and participant questions, input, and feedback will be coordinated and considered in coordination with the CITY PM.		X

Task 4 – Organization Situation Assessment and Process Design

The internal Situation Assessment (SA) conducted by CONSULTANT will be used to inform future project design phases, engagement, and collaboration; resulting in an appraisal of agency and stakeholder needs, wants, and values. CONSULTANT will:

IRP Development Step	Activity	Original Agreement (Dec 2018)	Amendment #1 (Apr 2020)
Step 1: Organization Situation Assessment and Process Design	Confirm key internal stakeholder voices that must be engaged in IRP development.	X	
	Establish planning goals for IRP development using existing plans and documents,	X	
	Conduct a multi-faceted internal situation assessment to measure organizational readiness for a new planning approach using tools such as surveys, interviews, and focus groups.	X	
	Provide opportunity for EU staff to learn about and give input on the results.	X	
	Prepare Draft TM. The Draft TM will summarize output from Step 1 and be delivered electronically.	X	
	Prepare Revised Draft TM. The Revised Draft TM will reflect CITY review feedback on the Draft TM and be delivered electronically.	X	

Task 5.0 – IRP Updates and Implementation Assistance

Original Agreement: At the request of the CITY and up to the budget authorized, CONSULTANT will (1) update part, or all, of the IRP, as needed to ensure that the document serves as a living strategy document for use by EU staff through 2050, and (2) provide IRP-related implementation support.

Amendment #1: No additional services.

Task 6.0 – Project Management

Original Agreement: CONSULTANT will manage the services under this Agreement such that the work is completed within the cost proposal stated (attached), in accordance with the project schedule, and in good quality. In this task, CONSULTANT will conduct project coordination and management for the duration of the Agreement including monthly project invoices and progress status summaries, team coordination, management of project budget and scope, etc.

Amendment #1: Anticipated duration of the Agreement is through December 31, 2021.

Summary of Deliverables

Task	Deliverables	Original Agreement (Dec 2018)	Amendment #1 (Apr 2020)
1	Draft IRP Executive Summary	X	X
	Final IRP Executive Summary	X	X
	Presentation and briefing materials	X	X
2	Draft and Revised Water Reliability Assessment TM (electronic format)	X	X
3	Draft and Revised Draft Reliability Enhancement Options Identification TM (electronic format).	X	X

**OFFICER'S CERTIFICATE
of
STANTEC CONSULTING SERVICES INC.
A NEW YORK CORPORATION**

I, the undersigned, do hereby certify that:

1. I am the duly elected and acting **Assistant Secretary** of **Stantec Consulting Services Inc.**, a **New York** corporation (the "**Corporation**").
2. On **June 15, 2018**, the following resolution was adopted by the Corporation's Board of Directors:

BE IT RESOLVED THAT:

1. the Corporation hereby adopts the Signing Authority Policy, as modified or amended from time to time, of Stantec Inc.
2. execution of any documents for and on behalf of the Corporation shall be governed by the Signing Authority Policy, as modified or amended from time to time, of Stantec Inc.;
3. the Secretary or any of the Corporate Counsels of the Corporation be authorized, empowered and directed from time to time as required to facilitate the execution of contracts or submission of proposals, to sign, and to seal with the Corporate Seal, Certificates of the foregoing action evidencing the authority delegated in the Signing Authority Policy, as amended from time to time, of Stantec Inc.

Yung-Hsin Sun is a **Vice President** of the Corporation, and in that capacity is duly authorized to sign proposals and enter into agreements for professional services in accordance with the Corporation's Signing Authority Policy in connection with the following project:

**Integrated Resource Plan
for City of Roseville
Environmental Utilities Department**

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Corporation, this 22nd day of October 2018.

Corporate Seal:

Jeffrey P. Stone
Vice President and Associate General Counsel
Assistant Secretary

RESOLUTIONS OF THE DIRECTORS OF
STANTEC CONSULTING SERVICES INC.
PASSED AND ADOPTED BY THE DIRECTORS
THIS 15th DAY OF JUNE, 2018

The undersigned, being all the directors of Stantec Consulting Services Inc. (the "**Corporation**"), hereby consent to the adoption of the following resolutions in lieu of holding a regular Board of Directors' meeting.

WHEREAS, from time to time the Corporation is required to provide evidence that certain individual employees have been authorized and empowered by the Board to sign contracts or proposals on behalf of the Corporation; and

WHEREAS, the Corporation and its affiliated companies have developed, published and operate utilizing the Signing Authority Policy, as modified and amended from time to time, of Stantec Inc., which includes authority to sign contracts and proposals on behalf of the Corporation.

BE IT RESOLVED THAT:

1. the Corporation hereby adopts the Signing Authority Policy, as modified or amended from time to time, of Stantec Inc.
2. execution of any documents for and on behalf of the Corporation shall be governed by the Signing Authority Policy, as modified or amended from time to time, of Stantec Inc.;
3. the Secretary or any of the Corporate Counsels of the Corporation be authorized, empowered and directed from time to time as required to facilitate the execution of contracts or submission of proposals, to sign, and to seal with the Corporate Seal, Certificates of the foregoing action evidencing the authority delegated in the Signing Authority Policy, as amended from time to time, of Stantec Inc.

This action may be signed in one or more counterparts, each of which shall be deemed an original and all of which shall constitute one instrument. Each director may execute this resolution in electronic format, either by facsimile or portable document format (PDF) and delivery of such executed document shall be proof of execution by the director thereto. This action shall be filed with the minutes of the proceedings of the Board of Directors and shall be effective as of the date set forth above.

THE UNDERSIGNED, being all of the directors of the Corporation entitled to attend and vote at a meeting of the directors of the Corporation, do hereby consent to and approve of the foregoing resolutions in writing as evidenced by their signatures hereto on the day and year first above written.

SCOTT L. MURRAY

JEFFREY P. STONE

COUNCIL COMMUNICATION

CC #: 0853

File #: 0400-04-09-1 & 0400-08 & 0400-06-02 & 0400-07

Title: Plaza at Blue Oaks - Mitigated Negative Declaration, Design Review Permit, Tentative Subdivision Map, and Tree Permit

Contact: Kinarik Shallow 916-746-1309 kshallow@roseville.ca.us

Meeting Date: 7/1/2020

Item #: 9.1.

RECOMMENDATION TO COUNCIL

Based on the May 14, 2020 Planning Commission hearing, staff recommends the City Council deny the appeal of the Planning Commission's approval of entitlements related to the Plaza at Blue Oaks project and take the following actions:

- A. Adopt the Plaza at Blue Oaks Initial Study/Mitigated Negative Declaration and the Mitigation Monitoring and Reporting Program; and
- B. Adopt a resolution denying the appeal from the May 14, 2020 approvals by the Planning Commission; adopting the four (4) findings of fact and approving the Design Review Permit subject to one hundred one (101) conditions of approval; adopting the three (3) findings of fact and approving the Tentative Subdivision Map subject to thirty-nine (39) conditions of approval; and adopting the two (2) findings of fact and approving the Tree Permit subject to twenty (20) conditions of approval.

BACKGROUND

This Council Communication provides a summary of the project, the Planning Commission hearing and the appeal. A detailed project background and evaluation is provided in the Planning Commission staff report, included as Attachment 1.

The 13.35-acre project site is located in the City's West Roseville Specific Plan (WRSP) area, at the northeast corner of Blue Oaks Boulevard and Fiddymont Road. The subject property is located on Parcel F-31 of the WRSP and has a zoning and General Plan land use designation of Community Commercial (CC). Per the WRSP, Parcel F-31 is anticipated for the development of a conventional community/neighborhood retail center.

The project entitlements include a Design Review Permit to construct an 82,100-square-foot shopping center consisting of a 35,000-square-foot anchor grocery store, a 12-pump gas station with a 3,500-square-foot-convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet. The project also includes a Tentative Subdivision Map to subdivide the 13.35-acre parcel into eight (8) lots and a Tree Permit to remove 28 native oak trees on the westerly portion of the site. Building elevations were not included for the convenience store building (Pad 3) and gas station canopy; therefore, a separate

Design Review Permit will be required in the future to ensure consistency with the overall project design and applicable design guidelines and standards.

An Initial Study/Mitigated Negative Declaration (IS/MND) was prepared for the project pursuant to the provisions of the California Environmental Quality Act (CEQA) (see Exhibit A). The IS/MND was released for a 20-day public review, from April 17, 2020 to May 7, 2020. The City received a letter, dated May 6, 2020, from the Law Office of Robert M. Bone representing an unincorporated association of Roseville community residents (the "Association") that challenged the adequacy of the environmental document. To summarize, the letter claims that the IS/MND is not in compliance with CEQA and does not consider feasible mitigation measures to reduce environmental impacts. Staff provided a response to the letter in a memorandum to the Planning Commission, dated May 13, 2020. The memorandum, along with the Association's letter, is included as Attachment 2. As detailed in staff's memorandum, the Association failed to offer any evidence that the initial study analysis is flawed or that available mitigation measures were not considered. As clearly stated in CEQA Guidelines Section 15384, "argument, speculation, [and] unsubstantiated opinion or narrative" is not substantial evidence. In addition, Ironhorse Law Group submitted a letter on behalf of the project applicant that supported the adequacy of the IS/MND and reiterated that the Association does not provide substantial evidence to support its claims (see Attachment 3).

The project was heard by the Planning Commission on May 14, 2020. Prior to the hearing, the City received a total of nine letters from the public in opposition of the project and two letters in support of the project. This correspondence is included as Attachment 4. The letters in opposition of the project cited similar concerns regarding the environmental impacts of the project.

Staff is confident the May 13th memorandum adequately addresses the issues raised. Mr. Bone submitted additional correspondence on behalf of the Association that focused on concerns with the overall project design. These concerns are identical to those raised in the appeal letter and are identified and addressed below.

At the Planning Commission hearing, Mr. Bone spoke in opposition of the project and repeated concerns stated in his prior correspondence, including effects of the project on the environment, the removal of oak trees, and increase in traffic. After receiving testimony, the Planning Commission deliberated on the item and ultimately voted to approve the Design Review Permit, Tentative Subdivision Map, and Tree Permit, with a vote of 6 aye, 0 nay, 1 absent.

On May 26, 2020, the City received an appeal of the Planning Commission's decision from the Law Office of Robert M. Bone representing the Association (see Attachment 5). The appeal provides the following grounds to reject the Planning Commission's decision: inconsistency with the General Plan, Bicycle Master Plan, and Pedestrian Master Plan; conflict with the City's site design guidelines; loss of oak trees; and inadequate environmental review.

This Council Communication responds to the issues raised in the appeal.

General Plan, Bicycle Master Plan, and Pedestrian Master Plan

The appeal states that the project does not support the City's bicycle and pedestrian use goals established in the General Plan.

The Circulation Element of the General Plan includes goals, policies, and implementation measures that guide the Bicycle Master Plan and the development of bikeways. The site is adjacent to two arterial roadways—Blue Oaks Boulevard and Fiddymont Road—both of which are designed with existing on-street bike lanes consistent with the Bicycle Master Plan. In addition, these roadways both include Class 1A sidewalks which are wider sidewalks capable of allowing slower bicycle and pedestrian travel as identified by the Bicycle Master Plan. Development of the project will not result in the elimination of these bike lanes and sidewalk facilities.

One of the goals of the Bicycle Master Plan is to create an environment that includes facilities that support and encourage commuter and recreational bicycle riding. The project achieves this goal by providing safe and secure short-term and long-term bike parking through the use of bike racks, bike lockers, and internal bike storage within the grocery store building. The bike locker is

conveniently located adjacent to the park-and-ride spaces located to the north of the Shops 1 building, which helps promote ridesharing (see Exhibit B – Site Plan).

One of the implementation measures identified in the Circulation Element is the City's Transportation System Management (TSM) Ordinance. The TSM Ordinance requires any project site with 50 or more employees to submit a TSM plan consisting of measures to reduce the number and length of home-to-work commute trips through actions such as ridesharing, flexible work hours, and support of public transportation. The Design Review Permit for the project includes condition #34, which requires the applicant/developer prepare a TSM plan to be reviewed and approved by the Transportation Commission (see Attachment 6 – Conditions of Approval).

The Pedestrian Master Plan is intended to guide and influence the design and development of public pedestrian walkways in the City. The project includes the completion of sidewalks and landscaping around the project perimeter. The sidewalks consist of pedestrian paths designed consistent with the WRSP that will provide access from surrounding uses. One of the goals of the Pedestrian Master Plan is to create streetscape environments that result in a pleasant environment for walking. The project achieves this goal through the building and landscape design. The buildings utilize pedestrian-scale materials and architectural details such as fabric awnings and green screen trellises. The landscaping consists of planter strips along the project frontage that separate pedestrians from vehicular traffic. Hedges and border shrubs are also proposed around the entire project perimeter to screen parking areas, service areas, future gas station canopies, and drive-through lanes from view.

The project includes several internal pedestrian pathways that will provide connections to the perimeter sidewalks and between buildings and parking areas. In addition to the sidewalks along the vehicle entries, pedestrian connections will be provided at locations where foot traffic is most likely to occur to provide easy access to the site. These connections are provided near the corner of Blue Oaks Boulevard and Fiddymont Road, near the corner of Fiddymont Road and Harvey Way, and along Oak Meadow Drive. The project will utilize stamped and decorative pavement in key areas and pathways to define the pedestrian environment.

Based on these reasons, staff finds the project is consistent with the goals and policies of the General Plan, Bicycle Master Plan, and Pedestrian Master Plan.

Community Design Guidelines

The appeal claims that the project does not comply with the City's Community Design Guidelines pertaining to site planning and building siting. Each of the three guidelines listed in the appeal is listed below and is followed by an explanation of how the project is consistent with the guideline.

CC-1: Buildings should be arranged to define, connect, and activate pedestrian edges and public spaces.

The project's pad buildings are located forward along Blue Oaks Boulevard and Fiddymont Road, behind the landscape frontages, while the parking lots are located internal to the site. The anchor grocery store is identified as Major 1 with in-line tenants on either side (identified as Shops 1 and Shops 2), and is located on the northern portion of the site. Although the front entrances to the pad buildings are oriented towards the interior of the site, away from the street, the street-facing elevations are enhanced with architectural detailing that activates the pedestrian edges. In addition, the buildings are arranged adjacent to pedestrian pathways connecting to the perimeter sidewalks. This provides pedestrians easy access to the buildings. The pad buildings also feature outdoor patios that are arranged to provide views of the project landscaping, which helps provide a connection between the indoor and outdoor spaces.

CC-2: Buildings should be arranged to provide convenient access to transit stops.

The project site is located adjacent to a planned transit stop and bus shelter along Fiddymont Road, to the west of the Pad 5 building. As mentioned above, the project arranges the pad buildings forward along the adjacent roadways and provides pedestrian pathways connecting from the perimeter sidewalks in to the site. This provides convenient access to the transit stop. In

addition, the WRSP designates this site as a Park-and-Ride lot. Park-and-Ride lots provide parking for commuters to leave their vehicles to meet carpools, vanpools, or access transit. The project provides 20 park-and-ride spaces to the north of the Shops 1 building, which is conveniently located in close proximity to the planned transit stop along Fiddymment Road.

CC-3: The relationship and orientation of buildings to arterial and other prominent roadways should be considered to enhance street frontage.

The building design is well articulated through the use of building projections and recesses, trellises, awnings, and window styles. The building materials primarily consist of cement plaster with brick veneer applied strategically to highlight areas of interest. The buildings include metal cornices and bands, modern glass and anodized aluminum storefronts, and metal trellises. Fabric awnings are used to complement these materials and soften the façades. The building colors consist of earth tones including olive green, gray, tan, and rust colored panels and banding.

Architectural treatment is applied to all building elevations. The project's street-facing elevations are enhanced with faux storefronts and other architectural detailing such as clerestory windows, green screen trellises, fabric awnings, and angled roof elements to provide a visually engaging streetscape.

Tree Removal

The appeal states that the trees should be landscaped into the project, rather than destroyed. Staff worked with the applicant to preserve as many of the trees to the extent feasible; however, a majority of the trees will require removal because they conflict with the proposed improvements. The loss of these trees was anticipated in the WRSP EIR, which identified the oak trees on the project site as being lost due to development. Of the 33 trees, 28 trees with a total aggregate diameter of 721 inches are proposed for removal to facilitate development of the site, while five (5) trees are proposed to be retained. Eight (8) of the trees proposed for removal were identified as having failed and being in a down and dead condition.

The trees that will be retained are located at the northwestern and southwestern corners of the site. These trees are incorporated into the landscape design of the project and will help to frame the intersections. The outdoor patios of Pad Buildings 4—6 will provide views of these oak trees. As discussed in the Tree Permit evaluation section of the Planning Commission staff report, the applicant will comply with the City's Tree Preservation Ordinance by mitigating for the loss of trees through a combination of on-site plantings and payment of in-lieu fees.

Environmental Review

Similar to the appellant's May 6, 2020 letter, the appeal states that the project fails to adequately inform the public about environmental impacts, alleging that the IS/MND prepared is not in compliance with CEQA and does not consider feasible mitigation measures to reduce environmental impacts, specifically as it relates to noise, air quality, and transportation. However, the appeal letter does not offer any evidence to support these claims. As mentioned in the May 13, 2020 memorandum to the Planning Commission, CEQA Guidelines Section 15384 states that "argument, speculation, [and] unsubstantiated opinion or narrative" is not substantial evidence. The Initial Study is supplemented with technical studies prepared by qualified consultants including an Environmental Noise Assessment, Health Risk Analysis, and a short-term traffic study, and the initial study analysis relies on two certified Specific Plan Environmental Impact Reports (EIRs)—the West Roseville Specific Plan EIR and the Amoroso Ranch Specific Plan EIR. Staff is confident that the Initial Study adequately discloses, evaluates, and mitigates the Project's environmental impacts and a Mitigated Negative Declaration is the appropriate environmental determination for this project; the Initial Study provides substantial evidence to support this finding.

FISCAL IMPACT

The project is not anticipated to result in any negative impacts to the City's General Fund. The project will generate construction jobs and employment opportunities associated with the future uses on the site. Once operational, the development will positively contribute to property, sales, and gas tax revenues.

ENVIRONMENTAL REVIEW

An Initial Study/Mitigated Negative Declaration (IS/MND) was prepared pursuant to the provisions of the California Environmental Quality Act (CEQA). The IS/MND was released for a 20-day public review, from April 17, 2020 to May 7, 2020. As mentioned previously, written comments on the adequacy of the document were received and are included in the memorandum to the Planning Commission, along with staff's responses to these comments (Attachment 2). At the May 14, 2020 Planning Commission meeting, the Planning Commission considered and adopted the Plaza at Blue Oaks Mitigated Negative Declaration and associated Mitigation Monitoring and Reporting Program. The IS/MND and associated Mitigation Monitoring and Reporting Program are included as Exhibit A.

Respectfully Submitted,

Kinarik Shallow, Associate Planner

Mike Isom, Development Services Director

Dominick Casey, City Manager

**PLANNING DIVISION STAFF REPORT
PLANNING COMMISSION MEETING**

May 14, 2020

Prepared by: Kinarik Shallow, Associate Planner

ITEM 6.3: Design Review Permit, Tentative Subdivision Map, and Tree Permit – 1950 Blue Oaks Boulevard – WRSP PCL F-31 – The Plaza at Blue Oaks – File # PL17-0368

REQUEST

The applicant requests approval of a Design Review Permit to allow the construction of an 82,100-square-foot shopping center consisting of a 35,000-square-foot anchor grocery store, a 12-pump gas station with a 3,500-square-foot-convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet. The project includes a Tentative Subdivision Map to subdivide the 13.35-acre parcel into eight (8) lots and a Tree Permit to remove several native oak trees on the westerly portion of the site.

Applicant/Property Owner – Joe Zawidski, Signature Management Company

SUMMARY RECOMMENDATION

The Planning Division recommends that the Planning Commission take the following actions:

- A. Adopt the Plaza at Blue Oaks Initial Study/Mitigated Negative Declaration and the Mitigation Monitoring and Reporting Program;
- B. Adopt the four (4) findings of fact and approve the Design Review Permit subject to one hundred one (101) conditions of approval;
- C. Adopt the three (3) findings of fact and approve the Tentative Subdivision Map subject to thirty-nine (39) conditions of approval; and
- D. Adopt the two (2) findings of fact and approve the Tree Permit subject to twenty (20) conditions of approval.

SUMMARY OF OUTSTANDING ISSUES

There are no outstanding issues associated with this request. The applicant has reviewed and is in agreement with all recommended conditions of approval.

BACKGROUND

The 13.35-acre project site is located in the City's West Roseville Specific Plan (WRSP) area, at the northeast corner of Blue Oaks Boulevard and Fiddymont Road (see Figure 1). The WRSP was approved by the City on February 4, 2004 and established the land use designations and zoning standards for the specific plan area. The subject property is located on Parcel F-31 of the WRSP and has a zoning and General Plan land use designation of Community Commercial (CC). Per the WRSP, Parcel F-31 is anticipated for the development of a conventional community/neighborhood retail center.

The proposed project is a request for a Design Review Permit to construct a retail center consisting of a ±35,000 square-foot anchor grocery store, a 12-pump gas station with a ±3,500 square-foot convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet, as well as associated parking, lighting, and landscaping. The total building square footage will be approximately 82,100 square feet. The project also includes a Tentative Subdivision Map to subdivide the parcel into eight (8) lots and a Tree Permit to allow the removal of several native oak trees on the westerly portion of the site in order to facilitate development. The proposed Lot 2 on the

northeastern corner of the site encompasses the future second phase of the project and will require a separate Design Review Permit.

Figure 1: Project Location

SITE INFORMATION

Location: 1950 Blue Oaks Boulevard; APN 017-117-093-000

Total Size: 13.35 acres

Topography and Setting: The project site is currently undeveloped and is comprised mostly of annual grasslands and several native oak trees. The site varies in grade; it generally slopes downward on the southwestern and northwestern corners of the site, where the oak trees are located, and then becomes level with the roadways. There are significant grade changes from Fiddymont Road and Harvey Wy. to the project with these roadways being significantly higher than the project site. The site is also adjacent to Harvey Way to the north with an undeveloped High Density Residential (HDR) parcel beyond, Oak Meadow Drive to the east with Fiddymont Ranch Apartments beyond, Blue Oaks Boulevard to the south with single-family residential uses beyond, and Fiddymont Road to the west with a medical office building beyond. Street and utility improvements for the streets adjacent to the site were completed with the Fiddymont Phase 1 infrastructure improvements.

EVALUATION: DESIGN REVIEW PERMIT

Section 19.78.060(B) of the City of Roseville Zoning Ordinance requires four findings of fact be made in order to approve a Design Review Permit. The four findings for approval of the Design Review Permit are listed below and are followed by an evaluation.

- 1. The project as approved preserves and accentuates the natural features of the property, such as open space, topography, trees, wetlands and water courses, provides adequate drainage for the project, and allows beneficial use to be made of the site for development.**
- 2. The project site design as approved provides open space, access, vehicle parking, vehicle, pedestrian and bicycle circulation, pedestrian walks and links to alternative modes of transportation, loading areas, landscaping and irrigation and lighting which results in a safe, efficient, and harmonious development and which is consistent with the applicable goals, policies and objectives set forth in the General Plan, the Community Design Guidelines and the West Roseville Specific Plan.**
- 3. The building design, including the materials, colors, height, bulk, size and relief, and the arrangement of the structures on the site, as approved is harmonious with other development and buildings in the vicinity and which is consistent with the applicable goals, policies and objectives set forth in the General Plan, the Community Design Guidelines and the West Roseville Specific Plan.**
- 4. The design of the public services, as approved, including, but not limited to, trash enclosures and service equipment are located so as not to detract from the appearance of the site, and are screened appropriately and effectively using construction materials, colors and landscaping that are harmonious with the site and the building designs.**

The evaluation of the Design Review Permit has been based on the applicable development and design standards within the City's Zoning Ordinance, the City's Community Design Guidelines (CDG), and the WRSP. Staff reviewed the proposal for consistency with all applicable standards and found the project to be consistent with the pertinent requirements and guidelines. The following sections of evaluation focus on areas of interest.

Site Planning & Building Siting: The project creates a commercial setting along the adjacent roadways by situating the pad buildings forward along the street (outside of the frontage easements) and locating the parking lots internal to the site (see Figure 2).

Figure 2: Site Plan

The anchor grocery store is identified as Major 1 with in-line tenants on either side (identified as Shops 1 and Shops 2), and is located on the northern portion of the site. A loading dock is proposed on the rear of the building that will be screened with a 9-foot tall wall to comply with the recommendations of the noise study (see Attachment 6 of Exhibit A, the Initial Study/Mitigated Negative Declaration). In addition, a 6-foot tall masonry wall with decorative stone pilasters will be located behind the proposed landscaping along Harvey Way to buffer the future HDR use to the north from the project's loading dock and on-site truck circulation areas.

Pad 1 is designed to accommodate a drive-through user. Although Pad 1 is located along Blue Oaks Boulevard, the drive-through aisle will be screened by a 3-foot tall wall and by the 50-foot wide landscape corridor, consistent with the CDG. Pad 3 is anticipated to be a convenience store with a gas station and drive-through car wash; however, building elevations for Pad 3 and the gas canopy were not included with the project materials. As such, a condition of approval has been added requiring a separate Design Review Permit for Pad 3 to ensure consistency with the overall project design and compliance with applicable design guidelines and standards (Condition #4 of the Design Review Permit).

Vehicle Access & Circulation: The proposed project includes two entries on Blue Oaks Boulevard, one entry on Fiddymment Road, two entries on Harvey Road, and two entries on Oak Meadow Drive. All driveways will be restricted to right turn ingress and egress only, with the exception of the eastern driveway along Harvey Road and the two driveways on Oak Meadow Drive, which will allow for both right and left turning movements. The proposed access and circulation design was evaluated in a technical memorandum prepared by Kimley-Horn, which is included as Attachment 7 of Exhibit A. This study was used to determine driveway spacing, entryway throat depths, turn pocket lengths, and other elements of access and circulation design for the proposed project. The project was also reviewed by the City Engineering and City Fire Department staff and was found to comply with refuse service standards and with emergency circulation requirements.

Pedestrian Access & Circulation: The project includes several internal pedestrian pathways and includes the completion of sidewalks and landscaping around the project perimeter. The sidewalks will provide access from the surrounding uses. Consistent with the WRSP, all frontage pedestrian paths will be a minimum of eight (8) feet in width along Blue Oaks Boulevard and Fiddymment Road, and a minimum of four (4) feet in width along Harvey Way and Oak Meadow Drive. In addition to the sidewalks along the vehicle entries, pedestrian connections will be provided at locations where foot traffic is most likely to occur to provide easy access to the site. These connections are provided near the corner of Blue Oaks Boulevard and Fiddymment Road, near the corner of Fiddymment Road and Harvey Way, and along Oak Meadow Drive. The project is consistent with the WRSP and CDG related to pedestrian access and circulation.

Parking: Based on the City's Zoning Ordinance parking standards for shopping centers, the project is required to provide a total of 411 parking spaces (one space per 200 square feet). As tenant spaces are leased, each tenant will utilize the applicable parking requirement for the use as outlined in the Zoning Ordinance. The project provides a total of 420 parking spaces, which exceeds the total parking requirement. Additionally, the WRSP designates the project site as a Park and Ride lot, with a total of 20 spaces required. The project provides these spaces to the north of the Shops 1 building, which is in close proximity to the transit stop along Fiddymment Road.

Architecture: The WRSP provides standards and guidelines for streetscapes and project design intent, but defers to the CDG for the evaluation of architecture and building design. Key guidelines related to architectural design within the CDG include direction to define development character through the use of a consistent design concept (CC-39), to use variation in wall planes and building form (CC-41), to provide articulation at main building entries (CC-44), to use a variation of colors and materials (CC-46), and to apply architectural treatment to all sides of a building facing public areas (CC-47).

The applicant has proposed a "contemporary prairie" design concept, with an emphasis on clean, horizontal lines and a complementary mix of materials. The building façades have overlapping rectangular forms and flat roofs of varying heights, which provide sufficient screening of mechanical rooftop equipment. Consistent

with the CDG, the building design is well articulated through the use of building projections and recesses, trellises, awnings, and window styles. The building materials primarily consist of cement plaster with brick veneer applied strategically to highlight areas of interest. The buildings include metal cornices and bands, modern glass and anodized aluminum storefronts, and metal trellises. Fabric awnings are used to complement these materials and soften the façades. The building colors consist of earth tones including olive green, gray, tan, and rust colored panels and banding. Figure 3 illustrates the front building elevation of the in-line building that consists of Major 1 (the anchor grocery store) and Shops 1 and 2. The main building entry areas are defined by forward presentation, variation in the roofline, and aluminum storefront windows. The variation in colors and materials combined with the variation in wall planes create texture and depth in the façade.

Figure 3: Major 1, Shops 1 and 2 Front Elevation

The project's street-facing elevations are designed with faux storefronts and other architectural detailing such as clerestory windows, green screen trellises, fabric awnings, and angled roof elements to provide a visually engaging streetscape. Figure 4 below illustrates the south and west elevations of Pad 6, which face Blue Oaks Boulevard and Fiddymment Road, respectively. Overall, the pad buildings are designed to tie in cohesively with the anchor building, achieving a consistent design character for the center. The project architecture is also harmonious with development in the vicinity of the site, using similar and complementing earth tone colors and materials as the medical office building to the west and the Fiddymment Ranch Apartments to the east.

Figure 4: Pad 6 South and West Elevations

Landscaping and Lighting: Landscaping for the project site includes frontage improvements along the perimeter of the property, at project entry points, and within the parking lot. As required by the WRSP Design Guidelines, the landscape corridors for Blue Oaks Boulevard and Fiddymment Road have widths of 50 feet and 35 feet, respectively. Primary street trees consist of Grecian laurel and red maple along Blue Oaks Boulevard, Interior live oak and sour gum along Fiddymment Road, deodar cedar along Harvey Way, and red maple along Oak Meadow Drive. Hedge and border shrubs are proposed around the entire project perimeter to screen parking areas, service areas, future gas station canopies, and drive-through lanes from view. The City's minimum requirement of 50% shading in parking lots is accomplished with a mix of Chinese pistache and evergreen elm trees. As proposed and conditioned, staff finds the landscape plan meets the intent of the CDG and the WRSP design guidelines, and is consistent with the City's Water Efficient Landscape Ordinance.

As mentioned, the project is located at the northeast intersection of Blue Oaks Boulevard and Fiddymont Road, which is considered a key intersection in the WRSP. The existing neighborhood entry feature located at this corner will be retained, which consists of a combination of plant materials, hardscape elements (such as pilasters and raised planters), and signage that is intended to visually define the Plan Area and reinforce the streetscape theme within the Fiddymont Ranch neighborhood. Although the project will involve the removal of native oak trees, some of the existing oak trees located at the northwestern and southwestern corners of the site will be retained and incorporated into the project design, which will help frame the intersections. The outdoor patios of Pads 4—6 will provide views of these oak trees. Further discussion on the removal of oak trees is provided in the Tree Permit evaluation section of this report.

In addition to the planting plan, the landscape plans also include furnishings and fixtures. Furnishings include three-foot tall pre-cast concrete split-rail fencing, building mounted light fixtures that complement the style of the building, steel shade arbors in outdoor patio areas, and the use of stamped and decorative pavement in key areas and pathways to define the pedestrian environment. A photometric plan was included for the project, which demonstrates consistency with the City's minimum lighting level requirements (0.5 foot-candles in pedestrian areas and 1.0 foot-candles in vehicle areas).

Design Review Permit Conclusion

Based on the analysis contained in this staff report and with the project conditions, staff finds that the proposed project is consistent with the policies and intent of the General Plan, the WRSP, and the City's Community Design Guidelines. The project will not be detrimental to public health or safety, nor will it be detrimental to the public welfare.

EVALUATION: TENTATIVE SUBDIVISION MAP

Section 18.06.180 of the City of Roseville Subdivision Ordinance requires that three findings be made to approve or conditionally approve a Tentative Subdivision Map. The three findings are listed below in ***italicized, bold*** text and are followed by an evaluation of the map in relation to each finding.

- 1. The size, design, character, grading, location, orientation and configuration of lots, roads and all improvements for the tentative subdivision map are consistent with the density, uses, circulation and open space systems, applicable policies and standards of the general plan or any applicable specific plan for the area, whichever is more restrictive, and the design standards of Title 18 (Subdivision Ordinance) of the Roseville Municipal Code.***

Parcel size, design, configuration, location, orientation, and character: The proposed subdivision will result in the creation of eight parcels ranging in size from approximately 0.66 to 2.87 acres. The locations of the parcels are based on the locations of the proposed buildings and their associated parking areas. The Map Act and Subdivision Ordinance do not contain any maximum or minimum lot sizes. Based on the Design Review Permit evaluation section, the lots are large enough to adequately allow for the proposed development on the parcels.

Grading and Drainage: Grading and drainage required for development of the parcels have been reviewed with the Design Review Permit and have been determined to comply with City standards as shown in the grading and drainage plan, and as conditioned.

Access & Circulation: The project is conditioned to ensure the driveways are constructed to comply with the City's design standards, and to allow reciprocal access and parking easements on both parcels. On-site circulation has been reviewed with the Design Review Permit and found to be adequate. Access and circulation is consistent with the City's Subdivision Ordinance and the City's Improvement Standards.

- 2. The subdivision will result in lots which can be used or built upon. The subdivision will not create lots which are impractical for improvement or use due to the steepness of terrain or***

location of watercourses in the area; the size or shape of the lots or inadequate building area; inadequate frontage or access; or, some other physical condition of the area.

The proposed parcels are of sufficient size and shape to accommodate the proposed development and are consistent with the applicable zoning and design requirements, as discussed in the Design Review Permit evaluation section of the staff report. There are no watercourses or other natural features on the site that would impede development.

3. The design and density of the subdivision will not violate the existing requirements prescribed by the Regional Water Quality Control Board for the discharge of waste into the sewage system, pursuant to Division 7 of the Water Code.

Anticipated water quality impacts and discharge of waste are not affected by the proposed Tentative Subdivision Map. The design of the sewer lines in the project area and treatment capacity at the City's sewage treatment plant have adequate conveyance and capacity to accommodate development on the proposed parcels created by the Tentative Subdivision Map.

EVALUATION – TREE PERMIT

Pursuant to Zoning Ordinance Section 19.66.030, a Tree Permit is required for any removal of native oak trees or for more than 20% encroachment into the dripline of a native oak tree. The proposed project will result in the removal of several native oak trees. The required findings to approve a Tree Permit are listed below.

- 1. Approval of the Tree Permit will not be detrimental to the public health, safety or welfare, and approval of the Tree Permit is consistent with the provisions of Chapter 19.66.***
- 2. Measures have been incorporated into the project or permit to mitigate impacts to remaining trees or to provide replacement for trees removed.***

An arborist report including a tree inventory summary was provided by California Tree and Landscape Consulting, Inc., dated February 20, 2020 (see Exhibit J). A total of 33 protected oak trees were identified on the property. Staff worked with the applicant to preserve as many of the trees to the extent feasible; however, a majority of the trees will require removal because they conflict with the proposed improvements. The loss of these trees were anticipated in the WRSP Environmental Impact Report, which identified the oak trees on the project site as being lost due to development. Of the 33 trees, 28 trees with a total aggregate diameter of 721 inches are proposed for removal to facilitate development of the site, while five (5) trees are proposed to be retained. Eight (8) of the trees proposed for removal were identified as having failed and being in a down and dead condition. Figure 5 and Exhibit K includes the tree locations; those identified in green are proposed for retention and those identified in red are proposed for removal.

The applicant has proposed to comply with the compensation requirements of the City's Tree Preservation Ordinance. Mitigation will be completed with a combination of on-site planting and payment into the City's in-lieu fee program. The total number of mitigation inches for this project is 721. The Tree Preservation Ordinance allows up to 50% of the replacement requirement be met with planting of non-native species, which amounts to 360.5 inches for this project. The project also includes the planting of 13, 24-inch box native oak trees, which provide a total mitigation credit of 26 inches. The remaining 333 inches will be mitigated through payment of in-lieu fees. These funds are used for the replanting and preservation of trees throughout the City. Mitigation fees are calculated at \$118 per inch of tree removed when measured at the tree's diameter at breast height (DBH). The tree mitigation fees for the project equate to \$39,294 and are required to be paid prior to the removal of the trees.

Figure 5: Protected Oak Tree Locations

The Tree Permit contains all of the standard conditions of approval, which includes a requirement to follow all of the recommendations of the Arborist Report. The arborist's recommendations include monitoring any excavation for the retaining wall footings for the trees to remain on the site. The removal of these trees will not be detrimental to the public health, safety, or welfare, and measures have been incorporated to mitigate impacts.

PUBLIC OUTREACH

The proposed project was distributed to all internal and external agencies and departments who have requested such notice, and all comments or recommended conditions of approval have been incorporated into the project, as appropriate. Notice of the application was also distributed to the Roseville Coalition of Neighborhood Associations (RCONA), and the project was brought to the joint Westpark/Fiddyment Farms Neighborhood Association meeting of February 11, 2020. Feedback at the neighborhood meeting, which was attended by more than 50 people, was positive. Questions were generally focused on the types of tenants expected in the center and construction timelines. A public notice of the Planning Commission hearing was published on May 1, 2020 and a notice of hearing was also distributed to RCONA, to all interested persons, and to all property owners within 300 feet of the site. To date, no comments have been received.

ENVIRONMENTAL DETERMINATION

As required by the California Environmental Quality Act (CEQA), the City of Roseville, acting as Lead Agency, prepared an Initial Study/Mitigated Negative Declaration (IS/MND) to evaluate the environmental effects of the project. The document was released for a 20-day public comment period, which began on April 17, 2020 and ended on May 7, 2020. The document analyzed the potential for environmental impacts due to project implementation and determined that potentially significant impacts related to Biological Resources, Noise, and Cultural Resources could be reduced to less than significant levels with mitigation. The Mitigated Negative Declaration and associated Mitigation Monitoring and Reporting Program are included as Exhibit A. On May 7th, Staff received a letter from the Law Office of Robert M. Bone, representing an unincorporated association of Roseville community residents, expressing concern that the environmental impacts of the proposed project had not been adequately reviewed. Staff will provide a separate memorandum including the correspondence and staff's response to the letter prior to the hearing.

RECOMMENDATION

The Planning Division recommends the Planning Commission take the following actions:

- A. Adopt the **Plaza at Blue Oaks Mitigated Negative Declaration and the Mitigation Monitoring and Reporting Program**;
- B. Adopt the four (4) findings of fact as stated in the staff report and approve the **DESIGN REVIEW PERMIT – 1950 BLUE OAKS BOULEVARD – WRSP PCL F-31 – THE PLAZA AT BLUE OAKS – PL17-0368** subject to one hundred one (101) conditions of approval;
- C. Adopt the three (3) findings of fact as stated in the staff report and approve the **TENTATIVE SUBDIVISION MAP – 1950 BLUE OAKS BOULEVARD – WRSP PCL F-31 – THE PLAZA AT BLUE OAKS – PL17-0368** subject to thirty-nine (39) conditions of approval; and
- D. Adopt the two (2) findings of fact as stated in the staff report and approve the **TREE PERMIT – 1950 BLUE OAKS BOULEVARD – WRSP PCL F-31 – THE PLAZA AT BLUE OAKS – PL17-0368** subject to twenty (20) conditions of approval.

CONDITIONS OF APPROVAL FOR THE DESIGN REVIEW PERMIT (FILE #PL17-0368)

- 1. This design review permit approval shall be effectuated within a period of two (2) years from **May 14, 2020** and if not effectuated shall expire on **May 14, 2022**. Prior to said expiration date, the applicant may apply for an extension of time, provided this approval does not extend the expiration beyond **May 14, 2023**. (Planning)
- 2. The project is approved as shown in Exhibits B—K, and as conditioned or modified below. (Planning)
- 3. The project shall comply with all required environmental mitigation identified in the Plaza at Blue Oaks Mitigated Negative Declaration. (Planning)
- 4. The applicant shall submit and gain approval of a Design Review Permit for Pad 3 prior to building permit issuance. (Planning)
- 5. The applicant shall submit and gain approval of a Design Review Permit for the future development of Phase 2 (Lot 2). (Planning)
- 6. The project shall be addressed as 1950 Blue Oaks Blvd. The lots and the buildings thereon shall be addressed as follows: Lot 1 (along with Major 1) shall be addressed as 1970 Blue Oaks Blvd, Lot 2 shall be addressed as 2081 Oak Meadow Dr, Lot 3 (along with the building on PAD 3) shall be addressed as 1930 Blue Oaks Blvd, Lot 4 (along with Shops 2) shall be addressed 1960 Blue Oaks Blvd, Lot 5 (along with the building on PAD 2) shall be addressed 1940 Blue Oaks Blvd, Lot 6 (along

with the building on PAD 1) shall be addressed 1980 Blue Oaks Blvd, Lot 7 (along with the building on PAD 6) shall be addressed 2000 Blue Oaks Blvd and the building on PAD 5 shall be addressed 2010 Blue Oaks Blvd, Lot 8 (along with Shops 1) shall be addressed 1990 Blue Oaks Blvd and the building on PAD 4 shall be addressed 2020 Blue Oaks Blvd. All projects with multi-tenants or buildings must submit a site plan with building footprint(s) and suite numbers to the Development Services Department (Business Services – Addressing) for review and approval. The City Addressing Guidelines should be used for reference when assigning suite numbers. (Business Services)

7. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. Project billing may occur up to two (2) months after the end of warranty or the Notice of Termination date for the SWPPP, whichever occurs later. (Engineering, Environmental Utilities, Electric, Finance)
8. The design and construction of all improvements shall conform to the Design and Construction Standards of the City of Roseville, or as modified by these conditions of approval, or as directed by the City Engineer. (Engineering)
9. The applicant shall not commence with any on-site improvements or improvements within the right-of-way until such time as grading and/or improvement plans are approved and grading and/or encroachment permits are issued by the Department of Development Service Engineering Division (Engineering)
10. The approval of this project does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)

PRIOR TO ISSUANCE OF BUILDING PERMITS:

11. Parking stalls shall meet, or exceed, the following minimum standards:
 - a. All parking stalls shall be double-striped. Parking stalls adjacent to sidewalks, landscaped areas or light fixtures, and all Accessible stalls shall about a 6" raised curb or concrete bumper. (Planning)
 - b. Standard -- 9 feet x 18 feet; Compact--9 feet x 16 feet; Accessible--14 feet x 18 feet (a 9 foot wide parking area plus a 5 foot wide loading area) and a minimum of one (1) parking space shall be Accessible van accessible--17 feet x 18 feet (9 foot wide parking area plus an 8 foot wide loading area). (Planning)
 - c. An 'exterior routes of travel' site accessibility plan incorporating slope, cross-slope, width, pedestrian ramps, curb ramps, handrails, signage, detectable warnings or speed limit signs or equivalent means shall comprise part of the site improvement plans submitted to City for review, prior to building plan check approvals. This site accessibility plan shall also include:
 - i) Accessible parking stalls shall be dispersed and located closest to accessible entrances. The total number of accessible parking spaces shall be established by Table 11B-208.2 of the CBC.
 - ii) Accessible Parking spaces and crosswalks shall be signed, marked and maintained as required by Chapter 11B of the CBC.
 - iii) Accessible parking and exterior route of travel shall comply with CBC, Sections 11B-206 and 11B-208. (Building)

12. Signs and/or striping shall be provided on-site as required by the Planning Department to control on-site traffic movements. Parking lot striping and signage shall be maintained in a visible and legible manner. (Planning)
13. The plans submitted to the Building Department for permits shall indicate all approved revisions/alterations as approved by the Commission including all conditions of approval. (Planning)
14. The project Landscape Plans shall comply with the following:
 - a. The Landscape Plan shall indicate the location of, and be designed to avoid conflicts with, all pole-mounted light fixtures and utility equipment including (but not limited to) electric transformers, switchgear, and overhead lines, backflow preventors, fire department connections, and public water, sewer, and storm drain facilities. (Planning, Fire, EUD, Electric, Public Works)
 - b. The tree plantings in the parking lot shall be designed to provide a minimum of 50% shade coverage after 15 years. (Planning)
 - c. At a minimum, landscaped areas not covered with live material shall be covered with a rock, 3" bark (no shredded bark) or 3" mulch covering. (Planning)
 - d. The landscape plan shall comply with the Landscape Guidelines for West Roseville Specific Plan and the City of Roseville Water Efficient Landscape Ordinance. (Planning)
 - f. All landscaping in areas containing electrical service equipment shall conform with the Electric Department's Landscape Requirements and Work Clearances as outlined in Section 10.00 of the Departments "Specification for Commercial Construction." (Electric)
15. Any roof-mounted equipment and satellite dishes proposed shall be shown on the building plans. The equipment shall be fully screened from public streets and the surrounding properties. (Planning)
16. At the time of building permit application and plan submittal, the project applicant shall submit a proposed plan which shows the suite addressing plan for individual tenant spaces within the building. The Chief Building Official, or the designate, shall approve said plan prior to building permit approval. (Building)
17. A separate Architectural Site Accessibility Plan which details the project's site accessibility information as required by California Title 24, Part 2 shall be submitted as part of the project Building Permit Plans. (Building)
18. For Multiple Building Complexes: As part of the required Architectural Site Accessibility Plan, the developer shall delineate the extent of the site accessibility improvements being installed as part of the initial improvements for the project, and those that are planned to be developed as part of subsequent phases (i.e. around future pad buildings). (Building)
19. Building permit plans shall comply with all applicable code requirements (California Building Code – CBC – based on the International Building Code, California Green Building Standards Code-CGBSC, California Mechanical Code – CMC – based on the Uniform Mechanical Code, California Plumbing Code – CPC – based on the Uniform Plumbing Code, California Fire Code – CFC – based on the International Fire Code – with City of Roseville Amendments – RFC, California Electrical Code – CEC – based on the National Electrical Code, and California Energy Standards – CEC T-24 Part 6), California Title 24 and the American with Disabilities Act - ADA requirements, and all State and Federally mandated requirements in effect at the time of submittal for building permits (contact the Building Division for applicable Code editions). (Building)

20. Parapet/cornice construction shall support the weight of a ladder leaning against the parapet as well as a 330-pound vertical load applied to the **leading edge** of the horizontal projection of the cornice (a 250-pound firefighter carrying 80 pounds of equipment stepping off of a ladder onto the top of the cornice). (CFC Chapter 1) (Building)
21. For restaurants, or other food services, contact the Placer County Health Department. (Building)
22. For restaurants, or other food services. The developer shall obtain all required approvals and permits from the Placer County Health Department and the City of Roseville Industrial Waste Division. (Building, Environmental Utilities)
23. Maintenance of copy of building plans: Health and Safety Code section 19850 requires the building department of every city or county to maintain an official copy of the building plans for the life of the building. As such, each individual building shall be submitted as a separate submittal package. Building plan review, permit issuance and archiving is based on each individual building address. (Building)
24. The Improvement Plans shall include a complete set of Landscape Plans. The Landscape Plans shall be approved with the Improvement Plans. (Planning, Engineering, Fire, Environmental Utilities, Electric)
25. A note shall be added to the grading plans that states:
*“Prior to the commencement of grading operations, the contractor shall identify the site where the **excess/borrow** earthen material shall be imported/deposited. If the **borrow/deposit** site is within the City of Roseville, the contractor shall produce a report issued by a geotechnical engineer to verify that the exported materials are suitable for the intended fill, and shall show proof of all approved grading plans. Haul routes to be used shall be specified.”* (Engineering)
26. Blue Oaks Boulevard shall be improved with two A-7 driveways. The western driveway shall be a minimum of 30-foot in width and the eastern driveway shall be a minimum of 35-foot in width. Both driveways shall be restricted to right turn ingress and egress only. An Auxiliary lane with a 90-foot entry taper shall be constructed along the frontage to provide right turn access to the driveway and will terminate into the existing right turn lane at Fiddymment Road. All frontage pedestrian paths shall be a minimum of 8-foot in width. (Engineering)
27. Fiddymment Road shall be improved with a 35-foot wide A-7 driveway. This driveway shall be restricted to right turn ingress and egress only. All frontage pedestrian paths shall be a minimum of 8-foot in width. (Engineering)
28. Harvey Way shall be improved with two A-7 driveways. The western driveway shall be a minimum of 35-foot in width and restricted to right turn ingress and egress access only. The eastern driveway shall be a minimum of 30-foot in width. All frontage pedestrian paths shall be a minimum of 4-foot in width. (Engineering)
29. Oak Meadow Drive shall be improved with two 35-foot wide A-7 driveways. All frontage pedestrian paths shall be a minimum of 4-foot in width. (Engineering)
30. The Developer shall provide striping and signage to prevent the blockage at the first onsite intersections located off of Fiddymment Road driveway and the western driveway on Harvey Way. (Engineering)
31. The Developer shall enter into a construction fee agreement based upon a construction cost of \$10,000 per shelter for future construction of the Bus Shelter on the NE corner of Fiddymment Road and Blue Oak Blvd. (shelter number 176) (Engineering, Alternative Transportation)

32. The project shall include a 20-space park-and-ride per the Specific Plan requirements and in proximity to the transit shelter on Fiddymment Road. The park-and-ride lot shall include accessible parking as required by the building code, a path of travel from the accessible parking to the transit shelter on Fiddymment Road, signs identifying the park-and-ride spaces and their availability to the public. The park-and-ride area shall include appropriate lighting and security measures. The landowner shall be responsible for maintenance of the park-and-ride lot and all its appurtenances. (Engineering, Alternative Transportation)
33. Bike parking and clean air vehicle spaces shall be provided per the California Green Building Standards. Bike rack/locker design and location shall be approved by Alternative Transportation. Parking stall markings are to be marked as "Carpool/Clean Air/EV" instead of using the words "Vanpool". The "clean air" spaces should be distributed throughout the site, including near the major buildings. The building permit plans shall show internal bike parking. (Alternative Transportation, Building)
34. The applicant/developer shall prepare a Transportation Systems Management (TSM) plan for *The Plaza at Blue Oaks* to be reviewed and approved by the Transportation Commission (Alternative Transportation)
35. The applicant shall dedicate all necessary rights-of-way or Public Utility Easement for the widening of any streets or transfer of public utilities across and over any portion of the property as required with this entitlement. A separate document shall be drafted for approval and acceptance by the City of Roseville, and recorded at the County Records Office. (Engineering)
36. All storm drainage, including roof drains, shall be collected on site and treated with Best Management Practices (BMP's) per the City's Stormwater Quality Design Manual. All storm water shall be routed to the nearest existing storm drain system or natural drainage facility. Drain outfalls shall extend down to the receiving water and shall be constructed with adequate velocity attenuation devices. The grading/improvement plans for the site shall be accompanied with a shed map that defines that area tributary to this site and all drainage facilities shall be designed to accommodate the tributary flow. The storm drain system and proposed BMP's shall be privately owned and maintained by the property owner. Prior to the issuance of any permits, the owner shall provide a plan for the maintenance of the proposed BMP's. (Engineering)
37. Prior to the approval of the Improvement Plans, the project proponent shall provide proof of preparation and submittal of a Storm Water Pollution Prevention Plan (SWPPP) to the Regional Water Quality Control Board (RWQCB). Proof shall be in the form of the Waste Discharge Identification Number (WDID#), provided to the applicant from RWQCB, placed on the coversheet of the improvement plans. Upon approval of the improvement plans, a copy of the SWPPP shall be required onsite and available for viewing by City inspection staff upon request. (Engineering)
38. The developer shall be responsible for any necessary relocation of signal interconnect cables that may require re-location as a result of the construction of turn lanes and/or driveways. (Engineering)
39. To ensure that the design for any necessary widening, construction, or modifications of Public Streets does not conflict with existing dry utilities generally located behind the curb and gutter, and prior to the submittal of design drawings for those frontage improvements, the project proponent shall have the existing dry utilities pot holed for verification of location and depth. (Engineering)
40. Sight distances for all driveways shall be clearly shown on the improvement plans to verify that minimum standards are achieved. It will be the responsibility of the project proponent to provide appropriate landscaping and improvement plans, and to relocate and/or modify existing facilities as needed to meet these design objectives. (Engineering)

41. The applicant shall remove and reconstruct any existing damaged curb, gutter, and sidewalk along the property frontage. During plan check of the improvement plans and/or during inspection, Public Works will designate the exact areas to be reconstructed. Any existing public facilities damaged during the course of construction shall be repaired by the property owner and at the property owner's expense, to the satisfaction of the City. (Engineering)
42. Prior to the approval of the improvement plans, it will be the project proponent's responsibility to pay the standard City Trench Cut Recovery Fee for any cuts within the City streets that are required for the installation of underground utilities. (Engineering)
43. Prior to the issuance of building permits, the property owner shall pay into the following fee programs: Citywide Drainage Fee, Citywide Traffic Mitigation Fee (TMF), Highway 65 Joint Partners Association (JPA), South Placer Regional Transportation Authority (SPRTA), and City/County Fee. (Engineering)
44. Upon issuance of each building permit, the property owner shall pay the WRSP Transit Shuttle Service Fee per Development Agreement Section 3.15.14. (Alternative Transportation)
45. The applicant/developer shall prepare a Transportation Systems Management (TSM) Plan for the Plaza at Blue Oaks to be reviewed and approved by the Transportation Commission. (Public Works)
46. Prior to the issuance of a grading permit or approval of Improvement Plans, the grading plans shall clearly identify all existing water, sewer and recycled water utilities within the boundaries of the project (including adjoining public right of way). Existing utilities shall be identified in plan view and in profile view where grading activities will modify existing site elevations over top of or within 15 feet of the utility. Any utilities that could potentially be impacted by the project shall be clearly identified along with the proposed protection measures. The developer shall be responsible for taking measures and incurring costs associated with protecting the existing water, sewer and recycled water utilities to the satisfaction of the Environmental Utilities Director. (Environmental Utilities)
47. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)
48. Water and sewer infrastructure shall be designed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards and shall include:
 - a. Utilities or permanent structures shall not be located within the area which would be disturbed by an open trench needed to expose sewer trunk mains deeper than 12' unless approved by Environmental Utilities in these conditions. The area needed to construct the trench is a sloped cone above the sewer main. The cone shall have 1:1 side slopes.
 - b. Water, sewer and recycled mains shall not exceed a depth of 12' below finished grade, unless authorized in these conditions of approval.
 - c. All sewer manholes shall have all-weather 10-ton vehicle access unless authorized by these conditions of approval. (Environmental Utilities)
49. Recycled water infrastructure shall be designed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards. The applicant shall pay all applicable recycled water fees. Easements shall be provided as necessary for recycled water infrastructure. (Environmental Utilities)
50. Trash enclosures, recycling areas, and enclosure approaches shall be designed to current Refuse Division specifications, the materials and colors shall match the building, and the location of such facilities shall be reviewed and approved by the Refuse Division, Planning and the Fire Department. The enclosure must have inside dimensions of 12 feet wide and 9 feet deep and be built to the specifications of the Solid Waste Department's Enclosure Description. (Refuse, Planning, Fire)

51. Access to trash enclosures shall have an inside turning radius of 25 feet and an outside turning radius of 45 feet must be maintained to allow the refuse truck access to and from the enclosure. Enclosures must have a clear approach of 65 feet in front of the enclosure to allow servicing bins. (Refuse)
52. A trash enclosure and recycling enclosure is required for each building and each tenant, otherwise, the building owner is responsible for the trash service. (Refuse)
53. The design and installation of all fire protection equipment shall conform to the California Fire Code and the amendments adopted by the City of Roseville, along with all standards and policies implemented by the Roseville Fire Department. (Fire)
54. The applicable codes and standards adopted by the City shall be enforced at the time construction plans have been submitted to the City for permitting (Fire)
55. The fire flow required, at a 50% reduction due to the buildings being sprinklered, will be based on the largest single structure in accordance with the California Fire Code at the time detail plans are submitted to the City of Roseville for review. The maximum fire flow will not exceed 4,000 gpm based on the Appendix III-AA of the California Fire Code. (Fire)
56. The fire department access road shall meet the City's requirements for width and turning radii of 30 and 50 as noted on the fire department standards for access. This shall be enforced at the time plan are submitted for review, Additional information can be found on the City's web site www.roseville.ca.us or contact Jason Rizzi, Fire Division Chief, at 916-774-5802 or jrizzi@roseville.ca.us with the Fire and Life Safety Division for information. (Fire)
57. If high-pile storage is involved as part of the construction of this occupancy, a separate fire permit shall be obtain from the fire department in accordance with the California Fire Code. Plans shall be submitted for approval prior to installation. (Fire)
58. Automatic fire extinguishing system risers, fire alarm system panels and digital alarm communicator system panels shall be located within an approved fire control room and shall be accessible from an adjacent fire apparatus roadway. There shall be only one fire control room per building. Said fire control room shall be a minimum size of thirty-five (35) square feet in size and shall be openable from the exterior via an approved door opening. (Fire)
59. All fire apparatuses, such as fire department connections and post indicating valves, serving identified building shall be designed and installed adjacent to each structure for first responder's operational purposes. (Fire)
60. If the existing water supply is unable to support the automatic fire sprinkler system, a listed fire pump would be your only option. If this is the case, you required fire pump room will have to be enlarged to accommodate all the required apparatuses needed to operate such a system. (Fire)
61. The phasing of this project shall not limit the fire department requirements for access and circulation throughout the project as a result of continuous construction in accordance with the California Fire Code, 2016 with the City of Roseville's Amendments. A separate phasing plan (and permit issued by the Building Department) shall be reviewed and approved by this department. (Fire)
62. This building shall be designed with fire department access doors every 100 lineal feet in accordance with Chapter 32 of the California Fire Code. (Fire)
63. This project shall not reduce the responsibilities of the owner(s) or future owners of these parcels from maintaining all on-site fire systems including all underground water lines if applicable. Private

underground fire lines that serve multiple buildings and/or parcels shall be part of the reciprocal easement agreement. There shall be a clear language regarding maintenance and common easements agreement for service in the CCRs. A service company shall be obtained to maintain all on-site fire protection systems as noted in the conditions of approval. (Fire)

64. If added cornice construction is involved, the design shall support the weight of a ladder leaning against the assembly as well as a 330-pound vertical load applied to the **leading edge** of the horizontal projection of the cornice (a 250-pound firefighter carrying 80 pounds of equipment stepping off of a ladder onto the top of the cornice). (Fire)
65. Use, increase of hazardous materials or storage, liquids, gases and/or chemicals shall meet the requirements of the Chapter 6.95 of the Health and Safety Code, the Roseville Fire Department and the National Fire Codes. Submit a complete plan set and the Hazardous Materials Business Plan, including names and amount of any hazardous materials that will be stored or used, to the Fire and Life Safety Division for review and approval. A permit application shall also be provided at the time of submittal. Contact Steve Anderson of our Hazardous Materials Division within the Fire Department at (916) 774-5821 to initiate the process. Satisfaction of storage and use shall be determined prior to requesting occupancy. (Fire)
66. Adequate radio coverage shall be provided within all buildings for public safety agencies, as required by Roseville Municipal Code and the California Fire Code. A field test shall be provided by a person in possession of a current FCC License, or a current technician certification issued by the Associated Public-Safety Communications Officials International (APCO), or the National Association of Business and Educational Radio (NABER). The building owner shall retain all test records on the inspected premises and a copy shall be submitted to the Fire Department officials in accordance with Section 510 of the California Fire Code.
67. Adequate radio coverage shall include all of the following:
 - a. A minimum signal strength of 95 dBm available in 90% of the area of each floor of the building when transmitted from the closest City of Roseville Radio Communication site.
 - b. A minimum signal strength of 95 dBm received at the closest City of Roseville Communication site when transmitted from 90% of the area of each floor of the building.
 - c. The frequency range that must be supported shall be 821-824 MHz and 866-869 MHz.
 - d. A 100 % reliability factor. (Fire, Police)
68. The Electric Department requires the submittal of the following information in order to complete the final electric design for the project:
 - a. one (1) set of improvement plans
 - b. load calculations
 - c. electrical panel one-line drawings (Electric)
69. All on-site external lighting shall be installed and directed to have no off-site glare. Lighting within the parking areas and pedestrian walkways shall provide a maintained minimum of one (1) foot candle, and 0.5 foot candle of light, respectively. All exterior light fixtures shall be vandal resistant. (Planning & Police)
70. The parking lot shall have properly posted signs that state the use of the parking area is for the exclusive use of employees and customers of this project. (See California Vehicle Code Sections 22507.8, 22511.5, 22511.8, 22658(a), and the City of Roseville Municipal Code Section 11.20.110). The location of the signs shall be shown on the approved site plan. (Planning & Police)

71. It is the developer's responsibility to notify PG&E of any work required on PG&E facilities. (PG&E)

DURING CONSTRUCTION & PRIOR TO ISSUANCE OF OCCUPANCY PERMITS:

72. Any backflow preventors visible from the street shall be painted green to blend in with the surrounding landscaping. The backflow preventors shall be screened with landscaping and shall comply with the following criteria:
- a. There shall be a minimum clearance of four feet (4'), on all sides, from the backflow preventor to the landscaping.
 - b. For maintenance purposes, the landscaping shall only be installed on three sides and the plant material shall not have thorns.
 - c. The control valves and the water meter shall be physically unobstructed.
 - d. The backflow preventor shall be covered with a green cover that will provide insulation. (Planning, Environmental Utilities)
73. The following easements shall be provided by separate instrument and shown on the site plan, unless otherwise provided for in these conditions:
- b. Water, sewer, and reclaimed water easements. (Engineering, Environmental Utilities)
 - c. Additional internal easements will be required to cover primary electrical facilities to the project when the final electrical design is completed. (Electric)
 - d. If not already provided with the subdivision map, the applicant shall dedicate a separate easement to the City of Roseville for the bus stop located on NE corner of Fiddymont Road at Blue Oaks Blvd. (shelter #176). The easement documents shall be drafted for approval and acceptance by the City of Roseville and recorded at the County Recorders' office. (Alternative Transportation, Engineering)
74. Easement widths shall comply with the City's Improvement Standards and Construction Standards. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville". All legal descriptions shall be prepared by a licensed land Surveyor. All existing public utility, electric, water, sewer and reclaimed water easements shall be maintained unless otherwise authorized by these conditions of approval. (Public Works, Environmental Utilities, Electric)
75. Inspection of the potable water supply system on new commercial projects shall be as follows:
- a. The Environmental Utilities Inspector will inspect all potable water supply up to the downstream side of the backflow preventor.
 - b. The property owner/applicant shall be responsible for that portion of the water supply system from the backflow preventor to the building. The builder/contractor shall engage a qualified inspector to approve the installation of this portion of the water supply. The Building Division will require from the builder/ contractor, a written document certifying that this portion of the potable water supply has been installed per improvement plans and in accordance with the Uniform Plumbing Code. This certificate of compliance shall be submitted to the Building Division before a temporary occupancy or a building final is approved.

- c. The building inspectors will exclusively inspect all potable water supply systems for the building from the shutoff valve at the building and downstream within the building. (Building, Environmental Utilities)
- 76. All improvements being constructed in accordance with the approved grading and improvement plans shall be accepted as complete by the City. (Engineering)
- 77. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUE's) located along public roadways. (Engineering)
- 78. The applicant/developer shall prepare a Transportation Systems Management (TSM) agreement for The Plaza at Blue Oaks to be reviewed and approved by the City Manager (Alternative Transportation).
- 79. Water, sewer and reclaimed water shall be constructed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards. (Environmental Utilities)
- 80. All water backflow devices shall be tested and approved by the Environmental Utilities Department. (Environmental Utilities)
- 81. **Restaurants or other Food Service Establishment (FSE).** The applicant shall design for installation and/or install an exterior grease interceptor if the proposed business could potentially discharge substances containing fats, oils and grease (FOG) into the sewer system. The grease interceptor shall be adequate to separate and remove FOG contained in the wastewater from FSE's prior to discharge to the public sewer. (Environmental Utilities)
- 82. In the event an exterior grease interceptor cannot be installed due to space limitation, the developer shall install a grease trap, per City Standards, that will mechanically separate the FOG contained in the wastewater from the FSE prior to discharge to the public sewer. (Environmental Utilities)
- 83. Pursuant to the Municipal Code, the applicant shall apply for and obtain a FOG waste discharge permit (FOG WDP) from the Environmental Utilities Industrial Waste Division prior to occupancy or prior to discharging waste to the public sewer. The applicant shall submit information required by the Environmental Utilities Department for evaluation, including but not limited to: site plans, floor plans, mechanical and plumbing plans, and details to show all sewers, FOG control device, grease interceptor or other pretreatment equipment and appurtenances by size, location and elevation. Additional information related to the applicant's business operations and potential discharge may be requested to properly evaluate the FOG WDP application. (Environmental Utilities)
- 84. All Electric Department facilities, including streetlights where applicable, shall be designed and built to the "City of Roseville Specifications for Commercial Construction." (Electric)
- 85. The City of Roseville Electric Department has electrical construction charges which are to be paid by the developer and which are explained in the City of Roseville "Specification for Commercial Construction." These charges will be determined upon completion of the final electrical design. (Electric)
- 86. Any relocation, rearrangement, or change of existing electric facilities due to this development shall be at the developer's expense. (Electric)
- 87. Any facilities proposed for placement within public/electric utility easements shall be subject to review and approval by the Electric Department before any work commences in these areas. This includes, but is not limited to, landscaping, lighting, paving, signs, trees, walls, and structures of any type. (Electric)

88. All electric metering shall be directly outside accessible. This can be accomplished in any of the following ways:
- a. Locate the metered service panel on the outside of the building.
 - b. Locate the metered service panel in a service room with a door that opens directly to the outside. The developer will be required to provide a key to the door for placement in a lock box to be installed on the outside of the door. Any doors leading from the service room to other areas of the building shall be secured to prohibit unauthorized entry. (Electric)
89. One 3/4" conduit with a 2-pair phone line shall be installed from the buildings telephone service panel to the meter section of the customer's electrical switchgear or panel. (Electric)
90. It is the responsibility of the developer to insure that all existing electric facilities remain free and clear of any obstruction during construction and when the project is complete. (Electric)

OTHER CONDITIONS OF APPROVAL:

90. Signs shown on the elevations are not approved as part of the Design Review Permit. A Sign Permit is required for all project signs. (Planning)
91. Following the installation of the landscaping, all landscape material shall be maintained in a healthy and weed free condition; dead plant material shall be replaced immediately. All trees shall be maintained and pruned in accordance with the accepted practices of the International Society of Arboriculture (ISA). (Planning)
92. The City reserves the right to restrict vehicle turning movements within the public right-of-way in the future if deemed necessary by the City Engineer. (Engineering)
93. The required width of fire apparatus access roads shall not be obstructed in any manner, including the parking of vehicles. Minimum required widths and vertical clearances established by the Fire Code shall be maintained at all times during construction. Closure of accesses for fire apparatus by gates, barricades and other devices shall be prohibited unless approved by the Fire Chief. (Fire)
94. Temporary aboveground storage tanks may be used at construction sites for diesel fuel only and shall not exceed 1,000 gallon capacity. Tanks shall comply with all provisions found within the Fire Code. A Fire Department Permit shall be obtained prior to tank installation. The permit shall expire after 90 days from the date of issuance, unless extended by the Fire Chief. (Fire)
95. If site survey or earth moving work results in the discovery of hazardous materials in containers or what appears to be hazardous wastes released into the ground, the contractor or person responsible for the building permit must notify the Roseville Fire Department immediately. A representative from the Fire Department will make a determination as to whether the incident is reportable or not and if site remediation is required. (Fire)
96. The location and design of the gas service shall be determined by PG&E. The design of the gas service for this project shall not begin until PG&E has received a full set of City approved improvement plans for the project. (PG&E)
97. All commercial air conditioning units 5 tons or less (<65,000 btu/ h) shall meet the current Consortium for Energy Efficiency ("CEE") Tier I specifications. The SEER/EER ratings will be specified on building plans and Title 24 compliance certificates at the time building permits are requested. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be utilized in the overall energy compliance calculations required for issuance of any building permit for

any commercial building in the Plan Area. Any variances, with the exception of Tier 2 compliance, must be approved by the Electric Department's Retail Energy Services Department. (Electric)

98. The project is subject to the noise standards established in the City's Noise Ordinance. In accordance with the City's Noise Ordinance project construction is exempt between the hours of seven a.m. and seven p.m. Monday through Friday, and between the hours of eight a.m. and eight p.m. Saturday and Sunday. Provided, however, that all construction equipment shall be fitted with factory installed muffling devices and that all construction equipment shall be maintained in good working order. (Building)
99. The developer (or designated consultant) shall certify that the building foundation location has been placed according to all approved setback requirements shown on the approved site plan. The developer shall prepare a written statement confirming building placement and provide an original copy to the City Building Division Field Inspector at the time of or prior to the foundation inspection. (Building)
100. Prior to Certificate of Occupancy, the applicant may apply for a Temporary Certificate of Occupancy (TCO) of the building. If a TCO is desired, the applicant must submit a written request to the Building Division a minimum of thirty (30) days prior to the expected temporary occupancy date and shall include a schedule for occupancy and a description of the purpose for the Temporary Certificate of Occupancy. (Building)
101. Concurrent with submittal for plan check and prior to a request for final building inspection, the applicant may request City approval of an occupancy phasing plan to allow individual or multiple building occupancies. This request shall be made in writing to the Building Department and shall include 10 copies of the following:
 - a. A description of measures that will be undertaken to minimize conflict between residents/building occupants and construction traffic (e.g. fencing, etc.);
 - b. A phasing plan showing the proposed buildings, internal roads and access routes, landscaping, trash enclosure locations, and any other improvements planned for each phase; and
 - c. Estimated time frame for each phase and a specific date for the first phase. (Planning, Building)

CONDITIONS OF APPROVAL FOR THE TENTATIVE SUBDIVISION MAP (FILE #PL17-0368)

1. The approval of a Tentative Map and/or tentative site plan does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)
2. The design and construction of all improvements shall conform to the Improvement Standards and Construction Standards of the City of Roseville, or as modified by these conditions of approval, or as directed by the City Engineer. (Engineering)
3. The applicant shall not commence with any on-site improvements or improvements within the right-of-way until such time as grading and/or improvement plans are approved and grading and/or encroachment permits are issued by the Department of Development Service Engineering Division (Engineering)
4. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. Project billing may occur up to two (2) months after the end of warranty or the Notice of

Termination date for the SWPPP, whichever occurs later. (Engineering, Environmental Utilities, Electric, Finance)

PRIOR TO ISSUANCE OF A GRADING PERMIT AND/OR IMPROVEMENT PLANS:

5. Grading around the native oak trees shall be as shown on the tentative map or as approved in these conditions. (Planning)
6. The applicant shall submit to the Planning and Engineering Departments the appropriate Army Corps of Engineers permit or clearance, the California Department of Fish and Game Stream Bed Alteration Agreement, and/or the Regional Water Quality Control Board Water Quality Certificate. (Planning)
7. Water and sewer infrastructure shall be designed and constructed pursuant to the adopted City of Roseville Improvement Standards and Construction Standards and shall reflect the following:
 - a) Sewer and water service laterals shall not be allowed off of water and sewer mains larger than 12 inches in diameter.
 - b) Utilities or permanent structures shall not be located within the area which would be disturbed by an open trench needed to expose sewer trunk mains deeper than 12' unless approved by Environmental Utilities in these conditions. The area needed to construct the trench is a sloped cone above the sewer main. The cone shall have 1:1 side slopes.)
 - c) Water and sewer mains shall not exceed a depth of 12' below finished grade, unless authorized in these conditions
 - d) All sewer manholes shall have all-weather 10-ton vehicular access unless authorized by these conditions. (Environmental Utilities)
8. Recycled water infrastructure shall be designed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards. The applicant shall pay all applicable recycled water fees. Easements shall be provided as necessary for recycled water infrastructure. (Environmental Utilities)
9. All sewer on-site between MHs shall be considered public. (Environmental Utilities)
10. Organic enclosures shall be located perpendicular to the main drive aisle. (Environmental Utilities)
11. Fire hydrants shall be located as required by the Fire Department. The maximum distance between fire hydrants shall not exceed 1000 feet on center. (Fire)
12. Minimum fire flow is 3,000 gallons per minute with 20 lbs. psi residual pressure. A change in any of the conditions may increase the required fire flow. (Fire)
13. Any facilities proposed for placement within public/electric utility easements shall be subject to review and approval by the Electric Department before any work commences in these areas. This includes, but is not limited to, landscaping, lighting, paving, signs, trees, walls, and structures of any type. (Electric)
14. The design for electrical service for this project will begin when the Electric Department has received a full set of improvement plans for the project. (Electric)
15. All landscaping in areas containing electrical service equipment shall conform with the "Electric Department Landscape Design Requirements" as outlined in Section 10.00 of the Electric Department's "Specifications for Commercial Construction." (Electric)

16. The Electric Department requires the submittal of the following information in order to complete the final electric design for the project:
 - one (1) set of improvement plans
 - load calculations
 - electrical panel one-line drawings
17. The location and design of the gas service shall be determined by PG&E. The design of gas service for this project shall not begin until PG&E has received a full set of City approved improvement plans for the project. (PG&E)
18. It is the developer's responsibility to notify PG&E of any work required on PG&E facilities. (PG&E)

PRIOR TO OR UPON RECORDATION OF FINAL/PARCEL MAP:

19. The following easements shall be provided and shown on the Final/Parcel Map or by separate instrument, unless otherwise provided for in these conditions:
 - a) Water, sewer, and reclaimed water easements; and,
 - b) The applicant shall dedicate an easement to the City of Roseville for the bus stop located on NE corner of Fiddymment Road at Blue Oaks Blvd. (shelter #176). The easement language/documents shall be drafted for approval and acceptance by the City of Roseville and recorded with the map. (Alternative Transportation, Engineering)

Easement widths shall comply with the City's Improvement Standards and Construction Standards. (Environmental Utilities, Electric, Engineering)

20. All existing easements shall be maintained, unless otherwise provided for in these conditions. (Environmental Utilities, Electric, Engineering)
21. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville". All legal descriptions shall be prepared by a licensed Land Surveyor (Environmental Utilities, Electric, Engineering)
22. A declaration of Conditions, Covenants and Restrictions (CC&Rs), in a form approved by the City Attorney, shall be recorded on the entire property concurrently with the Final/Parcel Map. The CC&Rs shall include the following item(s):
 - a) A clause stating that the property owners within this subdivision shall agree to participate in a Transportation Systems Management (TSM) Plan and shall agree to enter into a Transportation Management Agreement with the City of Roseville (Alternative Transportation, Planning).
 - b) A clause prohibiting the amendment, revision or deletion of any sections in the CC&Rs required by these conditions of approval without the prior written consent of the City Attorney. (Attorney)
 - c) A clause requiring reciprocal access and parking for all parcels. (Planning)

23. In the event that the Final (Parcel) Map will record prior to the completion of on-site construction, all utility and access easements shall be placed on the face of the Map to the satisfaction of the City Engineer. If all on-site improvements are complete prior to the recordation of the map, then a separate agreement allowing all parcels/lots the rights of reciprocal access, rights to construct, and parking shall

be submitted to the City as a part of final/parcel map submittal. Said agreement shall be in a form acceptable to the City Attorney and referenced on the face of the recorded map. (Engineering)

24. The Final/Parcel Map shall include an irrevocable offer to dedicate public rights-of-way and public and/or private easements as required by the City. (Engineering)
25. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUE's) located along public roadways. (Engineering)
26. The Final/Parcel Map shall be submitted per, "The Digital Submittal of Cadastral Surveys." A plot or print of the submittal shall accompany the electronic copy. The complete submittal shall occur after the Engineering Department approval but prior to City Council approval of the Final/Parcel Map. (Engineering)
27. Electric construction costs incurred by the City of Roseville Electric Department for this project shall be paid for by the developer per the applicable policy. (Electric)
28. Additional internal easements will be required to cover primary electrical facilities to the project when the final electrical design is completed. (Electric)
29. All Electric Department facilities, including streetlights where applicable, shall be designed and built to the "City of Roseville Specifications for Commercial Construction." (Electric)
30. The City of Roseville Electric Department has electrical construction charges which are to be paid by the developer and which are explained in the City of Roseville "Specification for Commercial Construction." These charges will be determined upon completion of the final electrical design. (Electric)
31. The Environmental Utilities Department shall make a determination that there is adequate conveyance and treatment capacity in the City sewer system to handle the newly created Lot/Parcels. (Environmental Utilities)
32. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)

OTHER CONDITIONS OF APPROVAL:

33. The applicant shall pay City's actual costs for providing plan check, installation and inspection services. This may be a combination of staff costs and direct billing for contract professional services. (Environmental Utilities, Engineering)
34. Any relocation, rearrangement, or change to existing electric facilities due to this development shall be at the developer's expense. (Electric)
35. It is the responsibility of the developer to insure that all existing electric facilities remain free and clear of any obstructions during construction and when the project is complete. (Electric)
36. No grading activities shall be permitted within 10 feet around the power poles. If there are major grade changes around the poles, they will be handled case-by-case during civil improvement plan review. (Electric)
37. Contractors working under and around power lines shall maintain Cal OSHA requirements, which will be discussed at the Pre-Construction meeting. (Electric)
38. If site survey or earth moving work results in the discovery of hazardous materials in containers or what appears to be hazardous wastes released into the ground, the contractor shall notify the Roseville Fire Department immediately. A representative from the Fire Department will make a determination as to

whether the incident is reportable or not and if site remediation is required. Non emergency releases or notifications about the presence of containers found shall be reported to the Fire Department. (Fire)

39. The project shall comply with all applicable environmental mitigation measures identified in the Plaza at Blue Oaks Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program. (Planning)

CONDITIONS OF APPROVAL FOR THE TREE PERMIT (FILE #PL17-0368)

PRIOR TO ISSUANCE OF ANY PERMITS OR ANY CONSTRUCTION ON-SITE:

1. All recommendations contained in the Arborist Report (Exhibit J) are incorporated by reference into these conditions, except as modified herein. (Planning)
2. Tree(s) # 1510, 1513, 1514, 1521, 1522, 1523, 1528, 1529, 1530, 1531, 1532, 1533, 1534, 1535, 1536, 1537, 1538, 1539, 1540, 1541, 1542, 1543, 1544, 1545, 1559, 1562, 1563, 1564 (or as listed in Exhibit J and shown on Exhibit K) are approved for removal with this tree permit. All other native oak trees shall remain in place. Trees to be removed shall be clearly marked in the field and inspected by Planning Staff prior to removal. Removal of the trees shall be performed by or under the supervision of a certified arborist. (Planning)
3. The developer shall be responsible for the replacement of the total number of inches proposed for removal. The total number of inches for this project is 721. Mitigation must be provided in the form of payment in the amount of \$39,294 prior to tree removal, and planting of non-native and native trees (as shown in the landscape plan, included as Exhibit I). (Planning)
4. No activity shall be permitted within the protected zone of any native oak tree beyond those identified by this report. (Planning)
5. A \$10,000 cash deposit or bond (or other means of security provided to the satisfaction of the Planning Division) shall be posted to ensure the preservation of all remaining trees during construction. The cash deposit or bond shall be posted in a form approved by the City Attorney. Each occurrence of a violation on any condition regarding tree preservation shall result in forfeiture of all or a portion of the cash deposit or bond. (Planning)
6. A violation of any of the conditions of this Tree Permit is a violation of the Roseville Municipal Code, the Zoning Ordinance (Chapter 19.74) and the Tree Preservation Ordinance (Chapter 19.66). Penalties for violation of any of the conditions of approval may include forfeiture of the bond, suspension or revocation of the permit, payment of restitution, and criminal penalties. (Planning)
7. A fencing plan shall be shown on the approved site plan and/or improvement plans demonstrating the Protected Zone for the affected trees. A maximum of three feet beyond the edge of the walls, driveways, or walkways will be allowed for construction activity and shall be shown on the fencing plan. The fencing plan shall be reviewed and approved by the Planning Division prior to the placement of the protective fencing. (Planning)
8. The applicant shall install a minimum of a five-foot high chain link fence (or acceptable alternative) at the outermost edge of the Protected Zone of the oak tree. Where encroachment is permitted pursuant to Condition 4, above, the fencing for encroachments shall be installed at the limit of construction activity. The applicant shall install signs at two equidistant locations on the temporary fence that are clearly visible from the front of the lot and where construction activity will occur. The size of each sign shall be a minimum of two feet (2') by two feet (2') and must contain the following language: "WARNING THIS

FENCE SHALL NOT BE REMOVED OR RELOCATED WITHOUT WRITTEN AUTHORIZATION FROM THE PLANNING DIVISION". (Planning)

9. Once the fencing is installed, the applicant shall schedule an appointment with the Planning Division to inspect and approve the temporary fencing before beginning any construction. (Planning)
10. The applicant shall arrange with the arborist to perform, and certify in writing, the completion of deadwooding, fertilization, and all other work recommended for completion prior to the approval of improvement plans. Pruning shall be done by an Arborist or under the direct supervision of a Certified Arborist, in conformance with International Society of Arboriculture (I.S.A.) standards. Any watering and deep root fertilization which the arborist deems necessary to protect the health of the trees as noted in the arborist report or as otherwise required by the arborist shall be completed by the applicant. (Planning)
11. A utility trenching pathway plan shall be submitted depicting all of the following systems: storm drains, sewers, water mains, and underground utilities. The trenching pathway plan shall show the proposed locations of all lateral lines. (Planning)
12. A Site Planning Meeting shall be held with the applicant, the applicant's primary contractor, the Planning Division and the Engineering Division to review this permit, the approved grading or improvement plans, and the tree fencing prior to any grading on-site. The Developer shall call the Planning Division and Engineering Division two weeks prior to the start of grading work to schedule the meeting and fencing inspection. (Planning)
13. The following information must be located on-site during construction activities: Arborist Report, approved site plan/improvement plans including fencing plan, and conditions of approval for the Tree Permit. All construction must follow the approved plans for this tree permit without exception. (Planning)
14. All preservation devices (aeration systems, oak tree wells, drains, special paving, etc.) shall be designed and installed as required by these conditions and the arborist's recommendations, and shall be shown on the improvement plans or grading plans. (Planning)
15. If any native ground surface fabric within the Protected Zone must be removed for any reason, it shall be replaced within forty-eight (48) hours. (Planning)
16. Storage or parking of materials, equipment, or vehicles is not permitted within the Protected Zone of any oak tree. Vehicles and other heavy equipment shall not be operated within the Protected Zone of any oak tree. (Planning)
17. Where recommended by the arborist, portions of the foundation shall be hand dug under the direct supervision of the project arborist. The certified arborist shall immediately treat any severed or damaged roots. Minor roots less than one (1) inch in diameter may be cut, but damaged roots shall be traced back and cleanly cut behind any split, cracked or damaged area. Major roots over one (1) inch in diameter may not be cut without approval of an arborist and any arborist recommendations shall be implemented. (Planning)
18. The temporary fencing shall remain in place throughout the entire construction period and shall not be removed without obtaining written authorization from the Planning Division. In no event shall the fencing be removed before the written authorization is received from the Planning Division. (Planning)

PRIOR TO ISSUANCE OF FINAL:

19. Within 5 days of the completion of construction, a Certification Letter from a certified arborist shall be submitted to and approved by the Planning Division. The certification letter shall attest to all of the work (regulated activity) that was conducted in the protected zone of the tree, either being in conformance with this permit or of the required mitigation still needing to be performed. (Planning)
20. The approval of this Tree Permit shall run with the Design Review Permit and shall tentatively expire on **May 14, 2022**. The applicant may extend the tree permit for an additional year subject to the extension requirements for a Design Review Permit. (Planning)

EXHIBITS

- A. Initial Study/Mitigated Negative Declaration
- B. Site Plan
- C. Tentative Subdivision Map
- D. Preliminary Grading & Drainage Plan
- E. Preliminary Utility Plan

DEVELOPMENT SERVICES DEPARTMENT – PLANNING DIVISION

311 Vernon Street, Roseville, CA 95678 (916) 774-5276

MEMORANDUM

To: Planning Commission

From: Kinarik Shallow, Associate Planner

Date: May 13, 2020

Re: Comments on the Initial Study/Mitigated Negative Declaration for WRSP PCL F-31 – The Plaza at Blue Oaks (File #PL17-0368)

The purpose of this memorandum is to provide a response to the May 6, 2020 letter from the Law Office of Robert M. Bone, representing an unincorporated association of Roseville community residents (the “Association”), to the City of Roseville (City). The letter is included as Attachment 1.

In the letter, the Association challenges the adequacy of the City’s environmental review, alleging that the Initial Study/Mitigated Negative Declaration (IS/MND) prepared for the Plaza at Blue Oaks project (“Project”) is not in compliance with the California Environmental Quality Act (CEQA). However, as this response will show, the Association has failed to offer any evidence that the initial study analysis is flawed. As clearly stated in CEQA Guidelines Section 15384, “argument, speculation, [and] unsubstantiated opinion or narrative” is not substantial evidence.

The Association’s letter claims that the IS/MND fails to adequately inform the public about environmental impacts, by citing CEQA Guidelines Section 15002(a), which identifies the basic purposes of CEQA. The Association has included a paraphrased portion of this section and inaccurately concludes that the environmental impacts of a project are required to be analyzed in an Environmental Impact Report (EIR). The Association fails to acknowledge the process in determining whether an EIR is the appropriate environmental document. For instance, CEQA Section 15063(a) identifies that an initial study is used to determine if the project may have a significant effect on the environment. An initial study is not required if the lead agency can determine that an EIR will clearly be required for the project, but it may still be desirable. In the case of this Project, the City prepared an initial study that led to a mitigated negative declaration. The Project’s initial study analysis relies upon two certified Specific Plan EIRs (the Amourso Ranch Specific Plan EIR and the West Roseville Specific Plan EIR) and is consistent with the land use designations examined in these documents. In fact, the WRSP anticipated the Project site to be developed with a conventional community/neighborhood retail center, consistent with the proposed Project. Consistent with CEQA Guidelines Section 15183, the Initial Study focuses on effects particular to the specific project site, impacts which were not analyzed within the EIRs, and impacts which may require revisiting due to substantial new information.

The Association asserts the City’s findings in determining a Mitigated Negative Declaration were incorrectly reached, but does not provide substantial evidence to support this claim. The Association further alleges the Project cannot be approved as proposed because there are “feasible mitigation measures available” that were not considered in the IS/MND. Again, the letter does not provide substantial evidence to support this claim nor does it identify what these supposed mitigation measures are.

Noise

The Association claims that the initial study analysis found noise impacts would occur only during construction and that the analysis “dismissed” the noise impacts caused by operation of the Project. This statement is flawed, as the IS/MND concluded noise impacts would occur during both construction and operation of the Project, and that these impacts would be considered less than significant and less than significant with mitigation, respectively (see Section XIII of the Initial Study). Mitigation measures were

incorporated based on the findings and recommendations made in the Environmental Noise Assessment (ENA) prepared by Bollard Acoustical Consultants, Inc. (see Attachment 6 of the IS/MND). While the ENA recommended mitigation measures specific to the car wash operations, loading dock and on-site truck circulation areas (as these were found to be the Project's "primary stationary noise sources"), the IS/MND also includes noise mitigation measures applicable to all commercial uses within 150 feet of residential uses. These measures are included as Attachment 2 of the IS/MND. The Association claims the noise analysis underestimates the noise levels that would be generated by the Project, but does not provide any data to support this argument. The ENA analysis is based on a combination of on-site noise level measurements, application of accepted noise modeling techniques, and file data for comparable commercial centers, which was then compared against the City's noise level standards.

Air and Water Quality

The Association argues that air quality issues were not properly considered in the IS/MND. The Association further argues that the proposed 12-pump gas station and car wash would increase poor air quality, ground water quality, and soil contamination during construction and operation. The Association fails to provide substantial evidence to support these claims and instead relies on argument and speculation.

Air quality impacts of the Project were evaluated in Section III (Air Quality) of the Initial Study. The analysis concluded that the Project was under the Placer County Air Pollution Control District (PCAPCD)'s adopted thresholds of significance for both construction and operational emissions for criterial air pollutants. In addition, the PCAPCD governs air quality impacts specifically related to gas stations and requires permits prior to construction and prior to dispensing gasoline to ensure the required local, state, and federal standards are adhered to as it relates to air quality impacts. The air quality analysis is supplemented with a Health Risk Analysis (HRA), prepared by Trinity Consultants, to determine the potential cancer risk that will be generated as a result of the Project (see Attachment 3 of the IS/MND). The HRA was reviewed by PCAPCD and concluded the annual amount of gasoline dispensed from the facility would be below PCAPCD's significance thresholds for cancer and non-cancer health risks.

As stated in Section X (Hydrology & Water Quality) of the Initial Study, the City's CEQA Findings of Implementing Procedures indicate that compliance with the City's Design/Construction Standards (Resolution 07-107), Urban Stormwater Quality Management and Discharge Control Ordinance (RMC Ch. 14.20), and Stormwater Quality Design Manual (Resolution 16-152) will prevent significant impacts related to water quality and erosion. In addition, grading activities are subject to the City's Improvement Standards, which include provision of proper drainage, appropriate dust control, and erosion control measures. The Project is required to prepare and submit a Storm Water Pollution Prevention Plan (SWPP) to the Regional Water Quality Control Board (RWQCB) to prevent the discharge of any unpermitted pollution and to preserve water quality.

Transportation

The Association claims that "morning, afternoon, and other peak-hour commute times will be permanently greatly increased" from the Project and identified this as a significant impact. The letter fails to provide substantial evidence to support this claim. As cited in Section XVII (Transportation) of the Initial Study, CEQA Guidelines Section 15064.3 indicates that a project's effect on automobile delay cannot be considered a significant impact. However, the project is evaluated for consistency with the General Plan Circulation Element, which includes an analysis of delay as a potential policy impact. The Circulation Element establishes Level of Service (LOS) C or better as an acceptable operating condition at all signalized intersections during a.m. and p.m. peak hours; a minimum of 70% of all signalized intersections must maintain LOS C. The Initial Study is supplemented with a short-term traffic study prepared by Kimley-Horn (Attachment 7 of the IS/MND), which concluded that the signalized intersections surrounding the project would operate at LOS C or better during the Existing (2018) plus Project conditions. In addition, the traffic study included recommendations to ensure sufficient vehicle throat depths, tapers, and storage capacity; the Project incorporated these recommendations into the project design.

Conclusion

The Association concludes in the same manner it began, by claiming the IS/MND fails to adequately disclose, evaluate, and mitigate the Project's environmental impacts, and requests an "appropriate" environmental review be conducted and circulated for public review. As stated throughout this response letter, the Association does not provide substantial evidence to support its claims. Staff is confident that the Initial Study adequately discloses, evaluates, and mitigates the Project's environmental impacts and a Mitigated Negative Declaration is the appropriate environmental determination for this project; the Initial Study provides substantial evidence to support this finding.

Roseville, California 95678

RE: Comments on Proposed Mitigated Negative Declaration for
WRSP PCL F-31 – The Plaza at Blue Oaks; File # PL17-0368

Dear Sir or Madam:

Our firm writes on behalf of an unincorporated association of Roseville community residents (the "Association") to provide comments on the proposed mitigated negative declaration finding prepared by the City of Roseville Planning Commission ("Planning Commission"), and proposed by Joe Zawidski, West Roseville Development Company, Inc., the project owner ("Owner"), and Joe Zawidski, Signature Management Company, the project developer ("Developer") for the Project defined below.

The proposed Project, located at 1950 Blue Oaks Boulevard, in the City of Roseville, Placer County, CA (APN 017-117-093-000) is a proposed retail center consisting of an approximately 35,000 square-foot anchor grocery store, a 12-pump gas station with an approximately 3,500 square-foot convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet (the "Project"). The Project approvals include a Design Review Permit to review the site design and proposed buildings, a Tree Permit to remove several native oak trees on the westerly portion of the site, and a Tentative Subdivision Map to subdivide the parcel into eight (8) lots (the "Approvals"). No building is being proposed on Lot 2 at this time, which will be located on the northeastern corner of the site and will consist of approximately 1.3 acres.

The Association includes individuals that may be adversely affected by the potential traffic, air quality, ground water quality, soil quality, noise, public health, and other environmental impacts caused by the Project. The Association includes individuals who live and work in Roseville and their families. Because they are local residents, the individual members of the Association would be directly affected by the traffic, air quality, ground water quality, noise, public health and other environmental issues created by the Project. Individual members may also

work on the Project itself. As such, they would be first in line to be exposed to any health and safety hazards that exist on site.

The Initial Study/Mitigated Negative Declaration is Not in Compliance With CEQA

The IS/MND Fails to Adequately Inform the Public About Environmental Impacts

Based upon our review of the initial study/mitigated negative declaration (“IS/MND”), we feel the IS/MND fails to comply with California Environmental Quality Act (“CEQA”) requirements in the following ways. CEQA is designed to inform decisionmakers, and the public about the potential significant environmental effects of a project. CEQA Guidelines §15002(a)(1). CEQA requires that an agency analyze potentially significant environmental impacts in an [environmental impact report (“EIR”)]. Pub. Resources Code §21000; CEQA Guidelines §15002. Specifically, that EIR should result from “extensive research and information gathering,” including consultation with state and federal agencies, local officials, *and the interested public*. (emphasis added.) *Berkeley Keep Jets Over the Bay Comm. v. Board of Port Comm.* (2001) 91 Cal.App.4th 1344, 1367 (Berkeley Jets); *Schaeffer Land Trust v. San Jose City Council* (1989) 215 Cal.App.3d 612, 620.

CEQA also directs public agencies to avoid, or reduce, environmental damage when possible by requiring alternatives, or mitigation measures. CEQA Guidelines §15002(a)(2)-(3); *Berkeley Jets*, *supra*, 91 Cal.App. 4th at 1354. The EIR serves to provide public agencies and the public in general with information about the effect that a proposed project is likely to have on the environment and to “identify ways that environmental damage can be avoided or significantly reduced.” CEQA Guidelines §15002(a)(2). If a project has a significant effect on the environment, the agency may approve the project only upon a finding that it has “eliminated or substantially lessened all significant effects on the environment where feasible,” and that any unavoidable significant effects on the environment are “acceptable due to overriding concerns” specified in CEQA §21081. CEQA Guidelines §15092(b)(2)(A)-(B).

The IS/MND begins with a Declaration, on page 2, that states:

The Planning Manager has determined that the above project will not have significant effects on the environment and therefore does not require preparation of an Environmental Impact Report. The determination is based on the attached initial study and the following findings [“(Findings”)]

A. The project will not have the potential to degrade the quality of the environment, substantially reduce the habitat of fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels,

threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of an endangered, rare or threatened species, reduce the number or restrict the range of rare or endangered plants or animals or eliminate important examples of the major periods of California history or prehistory.

B. The project *will not have the potential to achieve short-term, to the disadvantage of long-term, environmental goals. (emphasis added.)*

C. The project *will not have impacts, which are individually limited, but cumulatively considerable. (emphasis added.)*

D. The project *will not have environmental effects, which will cause substantial adverse effects on human beings, either directly or indirectly. (emphasis added.)*

E. No *substantial evidence exists that the project may have a significant effect on the environment. (emphasis added.)*

F. The project incorporates all applicable mitigation measures identified in the attached initial study.

G. This Mitigated Negative Declaration reflects the independent judgment of the lead agency.

The Association asserts that substantial evidence exists to support their assertion that the Findings, noted above, were incorrectly reached. It defies imagination how the construction of a 12-pump gas station, with its attendant underground gasoline storage tanks, a car wash that will undoubtedly wash chemicals into the soil, and potentially into the ground water, and other commercial uses *will not cause any impact* to the environment such that a fulsome environmental review is unnecessary. The planned uses will have considerable cumulative, long-term, adverse impacts on the environment and nearby residents, either directly, or indirectly. Approving the Project without a full environmental review amounts to achieving a short-term goal to the disadvantage of long-term environmental goals.

The IS/MND incorporates a checklist of potential environmental impacts. Although the analysis considered various impacts as provided in the checklist, and as required by CEQA, the IS/MND found in the vast majority of the analysis that the Project would have “No Impact,” or a “Less Than Significant Impact” on the environment. Thus, mitigation measures were not adequately considered.

Potential impacts were found in only two cases. In one case, the IS/MND found the Project may create significant impacts on the resources of California Native American tribes. Of greater concern to the Association, however, is the fact that the analysis found noise impacts would occur only during construction of the Project, but dismissed the noise impacts caused by operation of the Project after the construction is completed. This effect was considered to be “Less Than Significant With Mitigation” if such mitigation measures were implemented during construction. Little attention was paid to the fact that the Project will flank two existing residential neighborhoods. The permanent noise levels that will be generated by a 12-pump gas station, an automatic car wash and convenience store, and 35,000 a foot grocery store, in addition to other anticipated commercial uses, are certain to increase substantially over current ambient noise levels in the neighborhood. This is hardly a “Less Than Significant” impact. This impact, and potential mitigation measures to lessen the impact, warrants further study.

Other than the two instances noted above, the IS/MND noted no significant impacts to the environment caused by the Project. The Association disagrees. The subdivision of a single parcel into 8 parcels and the construction of more than 48,000 square feet of commercial structures in that footprint absolutely creates significant negative impacts on the surrounding residential community. These impacts to the traffic, air quality, ground water quality, soil quality, noise and other aspects of the community must be properly determined and studied.

Air quality issues were not properly considered in the IS/MND. Many of the residents near the Project are older and/or are otherwise considered to be sensitive receptors. The dust, soot, exhaust, fumes and other particulate matter that will necessarily increase due to large construction vehicles, and further due to permanently increased traffic and idling vehicles in the area, will create negative health impacts on residents, who are sensitive receptors, for an unknown period of time. These sensitive receptors may experience prolonged and significant impacts to their health.

The negative health effects on area residents caused by the Project will be exacerbated by the construction of a 12-pump gas station as the site. Not only will this increase poor air quality, ground water quality, and soil contamination during construction, but nearby residents will be permanently negatively impacted by known carcinogens that will be pumped into underground tanks, as well as exhaust and fumes created by cars idling and using the gas station. Additionally, detergents, waxes and other chemicals used by the car wash will be rinsed away, and may flow into the ground, eventually reaching the water table. This will have deleterious effects on the water table and the health of nearby residents. These issues were found to cause either “No Impact,” or “Less Than Significant Impact” in the IS/MND. These deleterious impacts must be properly studied so that their true impacts on nearby residents can be determined and mitigated.

The IS/MND Fails to Consider Feasible Mitigation Measures That Alleviate Negative Environmental Impacts

The Planning Commission cannot approve the Project as proposed because there are feasible mitigation measures available which would substantially lessen one, or more, of the Project’s significant environmental effects. Pub. Resources Code, § 21002. For example, morning,

Roseville Planning Commission
WRSP PCL F-31 – The Plaza at Blue Oaks
File # PL17-0368
May 6, 2020
Page 5 of 5

afternoon and other peak-hour commute times will be permanently greatly increased throughout the area if the Project is developed as currently proposed. The IS/MND failed to propose mitigation measures to alleviate this significant impact.

The Environmental Noise Assessment, included as Attachment 6 to the IS/MND, states, in pertinent part, on Page 6 that the “Noise Element of the City of Roseville General Plan establishes non-transportation noise exposure limits as summarized...in Table 1 (Table IX-3 of the Noise Element). These limits are applicable to non-transportation noise sources (i.e., on-site truck movements, loading docks, and car wash operations) affecting existing noise-sensitive land uses.” The report suggests that a 6-foot sound barrier be constructed and that construction trucks be limited in their hours of operation. The report dubiously suggested this 6-foot sound barrier is enough to mitigate the significant impact the operation of the gas station, the loading dock, the car wash and the other commercial uses will cause to adjacent neighborhoods after construction.

The noise assessment in the IS/MND dismissed operations noise that will be caused by idling vehicles and traffic at the 12-pump gas station and ignores the Project’s other commercial uses. Instead, although the document recognized the fact that the nearest noise-sensitive land uses to the Project site are existing and future residential developments located north, south, and east of the Project site, significant impacts to these receptors was minimized by the report. It was assumed that each of the evaluated noise sources would only operate during limited, mostly daytime, hours. Based on this assumption, Roseville’s daytime and nighttime noise level standards for noise-sensitive residential land were applied to the Project’s noise sources. This represents a serious underestimation of the noise levels to be generated by the commercial uses in this Project.

Due to the fact that the IS/MND wholly dismissed the vast majority of the potential environmental impacts caused by the Project, mitigation measures were inadequately considered or completely ignored. For this reason, the IS/MND fails to adequately disclose, evaluate, and mitigate the Project’s environmental impacts, resulting in a legally deficient CEQA document. The Planning Commission must conduct an appropriate environmental review that addresses these inadequacies and must circulate the document for public review to consider these critical issues. Thank you for your attention to these comments.

Sincerely,

Robert M. Bone, Esq.

**RE: Comments on the Initial Study/Mitigated negative Declaration for WRSP PCL F-31
– The Plaza at Blue Oaks (File #PL17-0368))**

Dear Sir or Madam:

This office represents West Roseville Project Development Company, Inc., the project owner ("Owner"), and Signature Management Company, the project developer ("Developer"), of the above-referenced project. The purpose of this letter is to provide a response to the May 6, 2020 letter from the Law Offices of Robert M. Bone, representing an unincorporated association of Roseville community residents (the "Association"), to the City of Roseville ("City"). Owner and Developer are real parties in interest.

In the letter, the Association challenges the adequacy of the City's environmental review, alleging that the Initial Study/Mitigated Negative Declaration ("IS/MND") prepared for the Plaza at Blue Oaks project ("Project") is not in compliance with the California Environmental Quality Act ("CEQA"). However, Owner and Developer agree with Planning Commission Staff ("Staff") that the Initial Study adequately discloses, evaluates, and mitigates the Project's environmental impacts and a Mitigated Negative Declaration is the appropriate environmental determination for this project. Owner and Developer also assert that all aspects of CEQA with regard to the IS/MND have been fully complied with and that an Environmental Impact Report ("EIR") is not required for the Project.

CEQA requires the preparation of an EIR whenever an agency proposes to approve or implement a project that "may have a significant effect on the environment." (§§ 21100, 21151.) "If there is no substantial evidence of any significant environmental impact, however, the agency may [instead] adopt a negative declaration." (*City of Redlands v. County of San Bernardino*, (2002) 96 Cal.App.4th 398, 405.) A *mitigated* negative declaration may be utilized by an agency when a project as initially proposed may have a significant effect on the environment but will not have a significant environmental effect because changes have been made or agreed on that mitigate such potential effects. (Cal. Code Regs. tit. 14, § 15071(e)). In evaluating a claim that an agency improperly approved a project by using a negative declaration, rather than preparing an EIR, a trial court applies the "fair argument" test. (*Porterville Citizens for Responsible Hillside Development v. City of Porterville*, (2007) 157 Cal.App.4th 885, 899.) "Under this test, the agency must prepare an EIR whenever substantial evidence in the record supports a fair

May 12, 2020

Page 2

argument that a proposed project may have a significant effect on the environment." (Gentry v. City of Murrieta, (1995) 36 Cal.App.4th 1359, 1399-1400.) A trial court's function is to decide whether substantial evidence supports the agency's conclusion as to whether a fair argument of environmental impact could be made. (Id. at p. 1399.)

Like any petitioner challenging an agency's decision to proceed by negative declaration, the Association bears the burden of proof "to demonstrate by citation to the record the existence of substantial evidence supporting a fair argument of significant environmental impact." Gentry v. City of Murrieta (1995) 36 Cal.App.4th 1359, 1379. The Association cannot meet this burden.

CEQA and its implementing regulations provide that facts, reasonable assumptions predicated on facts, and expert opinions supported by facts may constitute substantial evidence; argument, speculation, unsubstantiated opinion or narrative, clearly inaccurate or erroneous factual statements or evidence of social or economic impacts that do not result in physical impacts on the environment may not. (§§ 21080, subd. (c); 21080. 2, subd (c); 14 Cal. Code Regs., §§ 15064, subd. (f)(5), 15384.) "[I]n the absence of a specific factual foundation in the record, dire predictions by non-experts regarding the consequences of a project do not constitute substantial evidence." (Porterville Citizens for Responsible Hillside Development, *supra*, 157 Cal.App.4th at p. 901.) In its letter, the Association relies on nothing more than argument, speculation, and unsubstantiated opinion and narrative in its attempt to claim that further environmental study is required. Such a dearth of substantiated evidence cannot and will not rise to the level of substantial evidence required to overcome the Planning Commission's discretionary and well-supported decision as set forth in its IS/MND.

The Planning Commission has taken all necessary specific actions to achieve CEQA compliance to date and no further environmental review is required.

Sincerely,

IRONHORSE LAW GROUP PC

Please don't push a new Sprouts Market at Fiddymment and Blue Oaks Blvd through the planning commission during the current crisis.

There are already five other grocery stores within a 3.5 mile radius from the proposed location. Why add more traffic congestion for a sixth store in such a small area? Additionally, there are five other drug stores and six gas stations within the same 3.5 mile radius.

I have concerns regarding the impact of traffic, the environment, and to the quality of life for all of us. Please do not push this through.

Concerned Roseville Resident

Sprouts is not a good fit for this area why do out of state Competition!! Especially during this pandemic!! We need union based companies, That have supported are community with competitive wages , excellent medical benefits and to retire with dignity! why not promote local area stores that have supported this community for years, companies whose Dollars go back into are community.. we need to respectful to are own citizens who many have lost jobs ... be smart with this ...

To Whom it May Concern:

I am writing you today in regards to the Plaza at Blue Oaks project. I am concerned the this project will have a negative impact on traffic (which will also impact emergency response times), air quality, existing union jobs and small businesses. I would like to request that a full comprehensive EIR be conducted to effectively show the actual impact that this project would have on the residents, existing businesses, and those who work in the area. There are currently incomplete projects nearby and as a result, does not reflect the real time impact on the community; the development of those existing projects and the complete impact that they will have on the community should be included in the EIR as requested above. Health, safety, and the quality of lives is the most important aspect of any community. There is a huge responsibility to ensure public health and safety of those who live and work in the community and whose will be directly impacted by this project.

Thank you for your time,

Subject: OPPOSE - Sprout's Family Market at The Plaza at Blue Oaks

EXTERNAL: This email originated from outside of the organization. Do not click on any links or open attachments unless you recognize the sender and know the content is safe.

Dear Roseville Planning Commission:

I am writing to submit my opposition to the proposed new Sprout's Family Market planned for The Plaza at Blue Oaks.

This project will increase traffic dramatically in this area and cause more backups on Highway 65. I have worked in Placer County for over 30 years, and every year the traffic gets more congested and outrageous.

The environmental impacts will also be detrimental to the air quality and to the animals in the area.

This proposed new store will take away business from employers currently operating in the surrounding area which will hurt the people employed at those location which in turn will hurt the economy.

For the reasons listed above, I OPPOSE this project. Please vote NO.

Thank you for your time and consideration.

Sincerely,

Donna Rauch

Subject: Another grocery store in West Roseville

EXTERNAL: This email originated from outside of the organization. Do not click on any links or open attachments unless you recognize the sender and know the content is safe.

To whom it may concern

It has been brought to my attention that there are plans for yet another grocery store in West Roseville. There is already 4 grocery stores within a 2 mile driving distance of my home and they are breaking ground on a 5th. That Number of grocery stores in such a small area raise major concerns for me. One being this is only going to make the traffic worse on my end of town. The other is that this is going to adversely affect my friends and neighbors who currently work in the existing grocery stores. This would adversely affect them in their number of hours due to a loss of business. I don't want their hours to be cut or the other companies to do potential layoffs due to the fact that this end of town becomes oversaturated with grocery stores. Thank you for your time and consideration in this matter.

To whom it may concern,

My name is Joan Burgdorf, I work at Raley's in Lincoln and have for the past four years. In regards to the proposed retail center at 1950 Blue Oaks Blvd. I would like to share my concerns and objections to this project.

Fist and foremost the traffic will be absolutely unmanageable. Highway 65 is a mess on a good day, and having such a project built off of Blue Oaks would exacerbate an already bad situation. Between Whitney High School and the new high school being built there is a large number of teen drivers. By adding to the congestion it will definitely make a long drive extremely longer. As a mom who works full time the hours that I will spend stuck in traffic will be most painful to my family. Added traffic will put yet another obstacle in the way of the communities emergency services. Services that will be greatly needed with all of the new teen drivers from the high schools and it will slow down the transportation of patience to the two major hospitals in the area. While the junction of hwy 80 and 65 have been widened for better flow the rest of 65 has not had the same accommodations made. Before anymore development is made in area the roads should be addressed.

Another concern I have is the fact that Sprouts is lined up to build another store in the proposed development. As a grocery worker in the area this is of great concern. By allowing another non union retailer to open their doors in the area we are lowering the standards that have been set for our community. Sprout who is essentially the Walmart of produce, takes away from businesses like Raley's, and Safeway. Retailers who not only pay their employees well but also provide medical, dental and vision benefits to their employees. Sprouts does not compensate their employees as they should and are below the standard that people like me have pushed so hard to reach. Sprouts does not adequately provide for their now "essentia." workers. By allowing this subpar employer to develop a new site it will put a strain on the ability to negotiate our contracts. Please consider that we are out here serving our community, even when it puts our health and our families at risk. Are we essential or expendable? By putting our lively hood at risk it tells us we and our families are not valued, instead we are only important when a pandemic is sweeping the nation.

When a new Sprouts moves in it impacts the sales of the surrounding retailers big and small, which in turn can take good jobs away from good people. A store like Sprouts can have a detrimental effect on small local businesses. With COVID-19 still impacting small businesses, do we really need to give them unfair competition? Many small businesses are already on the brink of disappearing.

I know that I am only one voice but I do speak for many. Obviously you will not read this letter and suddenly decide to decline the project. All I am asking is to consider the implications of this new development and insist on a full and comprehensive EIR. Maybe even ask the land developer to look into and explore other alternatives for the land in question.

Planning Commission,

The proposed plaza at Blue Oaks will negatively impact traffic, emergency response times, existing UNION jobs and small businesses and air quality. I live off of Baseline on Oakborough Ave and it is extremely difficult to get across Baseline to go East and almost impossible during commute times. We want to reasonably require that a full and comprehensive EIR be conducted to ensure the public health and safety of people who live and work near the proposed site who may be negatively impacted by the project. As part of a full EIR, the Commission should also instruct the developer to consider alternative uses for the site that would have less of a negative impact on residents as well as detailed mitigation measures to offset any impacts to traffic and more should the developers not be willing to consider relocation the project to another site.

Thank you!

Commissioners,

I just want to go on the record that the developer did send representatives who presented at our neighbor meeting on February 11th, 2020.

Attendees were from Fiddymment Farm, Westpark, and Blue Oaks neighborhoods. As well the meeting was open to the public.

There was no opposition to the project and the neighborhoods welcome the commercial development.

Here is an excerpt from the meeting minutes (they can be found on Fiddymmentfarm.org website).

"Guest Speaker #1: (7:07 PM)

The Plaza at Blue Oaks--Fiddymment Road). Project Managers Joe Ziwitzki and Jason Gallali, and Kinnie Shallow from City of Roseville Planning gave updates on the commercial property at the NE corner of Fiddymment Road and Blue Oaks Blvd.

- They hope to break ground this year and open stores in the spring of 2022. This will not be a 24-hour facility. Per City regulations, services and deliveries are restricted to 7AM to 10PM. Screens will be provided to block back of delivery area from public, and they are keeping as many trees on the site as the City allows.
- They said the stores weren't locked in yet so they couldn't confirm any names yet, but they indicated expected potential "Pad" features in two phases, including: major grocery; dry cleaners, hair salon, coffee/restaurants; bank; patio seating on corner spot; Day Care; gas station/car wash (linked with grocery); dental office, pet supply store, and possible postal store site.
- The developers said that the restaurants are expected to be QSR (Quick Service Restaurants) in future, even current notable full-serve restaurants are changing over to QSR due to rising staffing costs.
- Developers will comply with City building restrictions, including measures to keep dust down. To a question about 'activities areas' like a trampoline space, the developers indicated those types of facilities are expensive to build and maintain and probably not expected here."

So, once again let me state the neighborhoods welcome this commercial development.

Thank you.

Loren Cook
President
Fiddymment Farm Neighborhood Association

Dear Sir or Madam:

Our office recently provided comments to you, dated as of May 6, 2020, from an unincorporated association of Roseville residents ("Association"), on the pending permit approvals for the Plaza at Blue Oaks. The project, located at 1950 Blue Oaks Boulevard, in the City of Roseville, Placer County, CA (APN 017-117-093-000) is a proposed retail center consisting of an approximately 35,000 square-foot anchor grocery store, a 12-pump gas station with an approximately 3,500 square-foot convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet (the "Project"). The Project approvals include a Design Review Permit to review the site design and proposed buildings, a Tree Permit to remove several native oak trees on the westerly portion of the site, and a Tentative Subdivision Map to subdivide the parcel into eight (8) lots (the "Approvals").

Our previous comments detailed our clients' concerns regarding the Environmental Effects that will be caused by the Project. Please consider the following additional comments on the Project Approvals:

The Project Approvals do not conform to the Roseville General Plan, the City's Bicycle Plan, or the community's Pedestrian Plan, each of which has been carefully crafted and amended to flow together to create an aesthetically pleasing and accessible community for all Roseville residents. The Project does not support these various plans as it is currently configured in that these various development guidelines state that commercial buildings should be arranged to promote bicycle, transit and pedestrian modes. The layout of the Project does not adhere to these principles.

The Trees Should be Landscaped Into the Project, Rather Than Destroyed

As a threshold matter, the Project Approvals contemplate the removal of precious, irreplaceable oak trees. Our community needs to protect our existing trees and native foliage. Rather than being destroyed, the trees should be incorporated into the Project landscape and the structures built around them. This should not be difficult as the trees are concentrated in one area of the property.

The Roseville General Plan Contains Bicycle and Pedestrian Use Goals for Developments That are Not Supported by the Project

Roseville has several community plans that contain circulation elements that are collectively designed to create a bicycle and pedestrian-friendly community. For example, the Circulation Element of the Roseville General Plan includes Goals, Policies and Implementation Measures that guide the Bicycle Master Plan and the development of Bikeways and Trails. Likewise, the 2007 Bicycle Master Plan Update includes recommended

modifications to the General Plan Circulation Element to reflect recommended changes to policies, programs and development standards to increase these "walkability" and "bikability" goals.

The overarching bikeway goals of the General Plan, as amended, include:

Goal 1: Increase the percentage of all trips made by bicyclists in Roseville.

Goal 2: Establish and maintain a safe, comprehensive, and integrated bikeway and trail system that encourages the use of bikes and walking for commuting, recreation and other trips.

Goal 3: Establish education, encouragement and enforcement programs that increase bicyclist and motorist awareness of the rights and responsibilities of bicyclists in order to create a climate of acceptance for bike riding.

Goal 4: Obtain the Bicycle Friendly Community Designation from the League of American Bicyclists.

Other elements of the General Plan also include goals and policies that address bikeway development. These include the Open Space and Conservation Element, and the Recreation element. Importantly, both Blue Oaks Boulevard and Fiddymont Road (the majors streets flanking the Project) are designated for Class II Bike Lanes. Developments located on these streets should be designed with cyclists in mind especially when it comes to the layout and orientation of the development. Herein lies the problem with the current configuration of the Project. It does not comply with the aesthetic plans for the local community.

The Project Does Not Comply With the Roseville Site Design Guidelines

Site planning is intended to respect and enhance the natural environment, to connect a project to its surroundings, to promote "walkability" of developments, and to ensure effective site access and traffic circulation within and around a project. This includes adding green design features, and providing for essential services and storage.

In order to support these goals, the Roseville Site Planning and Building Siting Design Guidelines provide:

CC-1 Buildings should be arranged to define, connect, and activate pedestrian edges and public spaces.

CC-2 Buildings should be arranged to provide convenient access to transit stops.

CC-3 The relationship and orientation of buildings to arterial and other prominent roadways should be considered to enhance street frontage.

The Site Plan for the Project shows that the buildings are oriented toward the inside of the Project, leaving the back of the buildings facing the street. Firstly, the bicycle lanes near the Project must be properly striped and provision must be made for bikes and pedestrians to safely access the Project, and traverse around it. Secondly, as the Project is currently configured, in order for bicyclists and pedestrians to access the retail stores inside the Project, they must traverse a driveway that is intended for vehicle traffic, and then ride or walk through the parking lot to access the stores. This creates a potentially dangerous situation.

The Project and the Approvals must be evaluated in light of Roseville's existing General Plan, Bicycle Plan and Pedestrian Plan to ensure that the Project meets the community's development goals. The Approvals must be set aside and the above-referenced impacts on the environment must be fully and appropriately studied before any permits may be issued.

Good Evening,

I would like to submit these written comments into the public record regarding the Plaza at Blue Oaks for tonight's planning commission hearing:

"Good evening commissioners, my name is Luke Saxelby, I reside at 1204 Vista Verde Drive, approximately ½ mile north of the proposed project. My family and I would like to express our support for the proposed project. We are pleased to see continued commercial development in West Roseville and believe this project is well designed and would provide us with a local shopping destination in close proximity to where we live. Currently, the majority of our shopping requires us to travel down Blue Oaks and cross Highway 65, or down Foothills Blvd to reach our favorite grocery stores, retail centers, and restaurants. While I have not been engaged by any party to review this project, I am a professional acoustic and noise control engineer and I run the consulting firm of Saxelby Acoustics which is based in Roseville. I have reviewed the project noise study prepared by Bollard Acoustical Consultants and I believe the study to be adequate and meeting the requirements of the City and CEQA, and would not have an adverse impact on existing or future residential uses in the area. I encourage the council to approve the project. Thank you for your consideration of my comments."

Regards,

---Luke

RE: Appeal of Approval of Mitigated Negative Declaration for
WRSP PCL F-31 – The Plaza at Blue Oaks; File # PL17-0368

Dear Honorable Councilmember:

Our firm writes on behalf of an unincorporated association of Roseville community residents (the “Association”) to appeal the decision by the Roseville Planning Commission (“Planning Commission”) on the mitigated negative declaration finding for the Project defined below.

The proposed Project, located at 1950 Blue Oaks Boulevard, in the City of Roseville, Placer County, CA (APN 017-117-093-000) is a proposed retail center consisting of an approximately 35,000 square-foot anchor grocery store, a 12-pump gas station with an approximately 3,500 square-foot convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet (the “Project”). The Project approvals include a Design Review Permit to review the site design and proposed buildings, a Tree Permit to remove several native oak trees on the westerly portion of the site, and a Tentative Subdivision Map to subdivide the parcel into eight (8) lots (the “Approvals”). No building is being proposed on Lot 2 at this time, which will be located on the northeastern corner of the site and will consist of approximately 1.3 acres.

The Association includes individuals that may be adversely affected by the potential traffic, air quality, ground water quality, soil quality, noise, public health, and other environmental impacts caused by the Project. The Association includes individuals who live and work in Roseville and their families. Because they are local residents, the individual members of the Association would be directly affected by the traffic, air quality, ground water quality, noise, public health and other environmental issues created by the Project. Individual members may also work on the Project itself. As such, they would be first in line to be exposed to any health and safety hazards that exist on site.

BY FAX

The Project Approvals do not conform to the Roseville General Plan, the City's Bicycle Plan, or the community's Pedestrian Plan, each of which has been carefully crafted and amended to flow together to create an aesthetically pleasing and accessible community for all Roseville residents. The Project does not support these various plans as it is currently configured in that these various development guidelines state that commercial buildings should be arranged to promote bicycle, transit and pedestrian modes. The layout of the Project does not adhere to these principles.

The Trees Should be Landscaped Into the Project, Rather Than Destroyed

As a threshold matter, the Project Approvals contemplate the removal of precious, irreplaceable oak trees. Our community needs to protect our existing trees and native foliage. Rather than being destroyed, the trees should be incorporated into the Project landscape and the structures built around them. This should not be difficult as the trees are concentrated in one area of the property.

The Roseville General Plan Contains Bicycle and Pedestrian Use Goals for Developments That are Not Supported by the Project

Roseville has several community plans that contain circulation elements that are collectively designed to create a bicycle and pedestrian-friendly community. For example, the Circulation Element of the Roseville General Plan includes Goals, Policies and Implementation Measures that guide the Bicycle Master Plan and the development of Bikeways and Trails. Likewise, the 2007 Bicycle Master Plan Update includes recommended modifications to the General Plan Circulation Element to reflect recommended changes to policies, programs and development standards to increase these "walkability" and "bikability" goals.

The overarching bikeway goals of the General Plan, as amended, include:

Goal 1: Increase the percentage of all trips made by bicyclists in Roseville.

Goal 2: Establish and maintain a safe, comprehensive, and integrated bikeway and trail system that encourages the use of bikes and walking for commuting, recreation and other trips.

Goal 3: Establish education, encouragement and enforcement programs that increase bicyclist and motorist awareness of the rights and responsibilities of bicyclists in order to create a climate of acceptance for bike riding.

Goal 4: Obtain the Bicycle Friendly Community Designation from the League of American Bicyclists.

Other elements of the General Plan also include goals and policies that address bikeway development. These include the Open Space and Conservation Element, and the Recreation element. Importantly, both Blue Oaks Boulevard and Fiddymment Road (the majors streets flanking the Project) are designated for Class II Bike Lanes. Developments located on these streets should be designed with cyclists in mind especially when it comes to the layout and orientation of the development. Herein lies the problem with the current configuration of the Project. It does not comply with the aesthetic plans for the local community.

The Project Does Not Comply With the Roseville Site Design Guidelines

Site planning is intended to respect and enhance the natural environment, to connect a project to its surroundings, to promote "walkability" of developments, and to ensure effective site access and traffic circulation within and around a project. This includes adding green design features, and providing for essential services and storage.

In order to support these goals, the Roseville Site Planning and Building Siting Design Guidelines provide:

CC-1 Buildings should be arranged to define, connect, and activate pedestrian edges and public spaces.

CC-2 Buildings should be arranged to provide convenient access to transit stops.

CC-3 The relationship and orientation of buildings to arterial and other prominent roadways should be considered to enhance street frontage.

The Site Plan for the Project shows that the buildings are oriented toward the inside of the Project, leaving the back of the buildings facing the street. Firstly, the bicycle lanes near the Project must be properly striped and provision must be made for bikes and pedestrians to safely access the Project, and traverse around it. Secondly, as the Project is currently configured, in order for bicyclists and pedestrians to access the retail stores inside the Project, they must traverse a driveway that is intended for vehicle traffic, and then ride or walk through the parking lot to access the stores. This creates a potentially dangerous situation.

The Project and the Approvals must be evaluated in light of Roseville's existing General Plan, Bicycle Plan and Pedestrian Plan to ensure that the Project meets the community's development goals. The Approvals must be set aside and the above-referenced impacts on the environment must be fully and appropriately studied before any permits may be issued.

The Project Approvals Fail to Adequately Inform the Public About Environmental Impacts

Based upon our review of the Project Approvals, we feel the Approvals fail to comply with California Environmental Quality Act (“CEQA”) requirements in the following ways. CEQA is designed to inform decisionmakers, and the public about the potential significant environmental effects of a project. CEQA Guidelines §15002(a)(1). CEQA requires that an agency analyze potentially significant environmental impacts in an [environmental impact report (“EIR”)]. Pub. Resources Code §21000; CEQA Guidelines §15002. Specifically, that EIR should result from “extensive research and information gathering,” including consultation with state and federal agencies, local officials, *and the interested public*. (emphasis added.) *Berkeley Keep Jets Over the Bay Comm. v. Board of Port Comm.* (2001) 91 Cal.App.4th 1344, 1367 (*Berkeley Jets*); *Schaeffer Land Trust v. San Jose City Council* (1989) 215 Cal.App.3d 612, 620.

CEQA also directs public agencies to avoid, or reduce, environmental damage when possible by requiring alternatives, or mitigation measures. CEQA Guidelines §15002(a)(2)-(3); *Berkeley Jets*, supra, 91 Cal.App. 4th at 1354. The EIR serves to provide public agencies and the public in general with information about the effect that a proposed project is likely to have on the environment and to “identify ways that environmental damage can be avoided or significantly reduced.” CEQA Guidelines §15002(a)(2). If a project has a significant effect on the environment, the agency may approve the project only upon a finding that it has “eliminated or substantially lessened all significant effects on the environment where feasible,” and that any unavoidable significant effects on the environment are “acceptable due to overriding concerns” specified in CEQA §21081. CEQA Guidelines §15092(b)(2)(A)-(B).

The IS/MND begins with a Declaration, on page 2, that states:

The Planning Manager has determined that the above project will not have significant effects on the environment and therefore does not require preparation of an Environmental Impact Report. The determination is based on the attached initial study and the following findings [“Findings”]

A. The project will not have the potential to degrade the quality of the environment, substantially reduce the habitat of fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of an endangered, rare or threatened species, reduce the number or restrict the range of rare or endangered plants or animals or eliminate important examples of the major periods of California history or prehistory.

B. The project *will not have the potential to achieve short-term, to the disadvantage of long-term, environmental goals. (emphasis added.)*

C. The project *will not have impacts, which are individually limited, but cumulatively considerable. (emphasis added.)*

D. The project *will not have environmental effects, which will cause substantial adverse effects on human beings, either directly or indirectly. (emphasis added.)*

E. No *substantial evidence exists that the project may have a significant effect on the environment. (emphasis added.)*

F. The project incorporates all applicable mitigation measures identified in the attached initial study.

G. This Mitigated Negative Declaration reflects the independent judgment of the lead agency.

Substantial evidence exists to support the assertion that the Findings, noted above, were incorrectly reached. It defies imagination how the construction of a 12-pump gas station, with its attendant underground gasoline storage tanks, a car wash that will undoubtedly wash chemicals into the soil, and potentially into the ground water, and other commercial uses *will not cause any impact* to the environment such that a fulsome environmental review is unnecessary. The planned uses will have considerable cumulative, long-term, adverse impacts on the environment and nearby residents, either directly, or indirectly. Approving the Project without a full environmental review amounts to achieving a short-term goal to the disadvantage of long-term environmental goals.

The initial study/mitigated negative declaration (“IS/MND”) incorporates a checklist of potential environmental impacts. Although the analysis considered various impacts as provided in the checklist, and as required by CEQA, the IS/MND found in the vast majority of the analysis that the Project would have “No Impact,” or a “Less Than Significant Impact” on the environment. Thus, mitigation measures were not adequately considered.

Potential impacts were found in only two cases. In one case, the IS/MND found the Project may create significant impacts on the resources of California Native American tribes. Of greater concern to the Association, however, is the fact that the analysis found noise impacts would occur only during construction of the Project, but dismissed the noise impacts caused by operation of the Project after the construction is completed. This effect was considered to be “Less Than Significant With Mitigation” if such mitigation measures were implemented during construction. Little attention was paid to the fact that the Project will flank two existing residential neighborhoods. The

permanent noise levels that will be generated by a 12-pump gas station, an automatic car wash and convenience store, and 35,000 a foot grocery store, in addition to other anticipated commercial uses, are certain to increase substantially over current ambient noise levels in the neighborhood. This is hardly a “Less Than Significant” impact. This impact, and potential mitigation measures to lessen the impact, warrants further study.

Other than the two instances noted above, the IS/MND noted no significant impacts to the environment caused by the Project. The Association disagrees. The subdivision of a single parcel into 8 parcels and the construction of more than 48,000 square feet of commercial structures in that footprint absolutely creates significant negative impacts on the surrounding residential community. These impacts to the traffic, air quality, ground water quality, soil quality, noise and other aspects of the community must be properly determined and studied.

Air quality issues were not properly considered in the IS/MND. Many of the residents near the Project are older and/or are otherwise considered to be sensitive receptors. The dust, soot, exhaust, fumes and other particulate matter that will necessarily increase due to large construction vehicles, and further due to permanently increased traffic and idling vehicles in the area, will create negative health impacts on residents, who are sensitive receptors, for an unknown period of time. These sensitive receptors may experience prolonged and significant impacts to their health.

The negative health effects on area residents caused by the Project will be exacerbated by the construction of a 12-pump gas station as the site. Not only will this increase poor air quality, ground water quality, and soil contamination during construction, but nearby residents will be permanently negatively impacted by known carcinogens that will be pumped into underground tanks, as well as exhaust and fumes created by cars idling and using the gas station. Additionally, detergents, waxes and other chemicals used by the car wash will be rinsed away, and may flow into the ground, eventually reaching the water table. This will have deleterious effects on the water table and the health of nearby residents. These issues were found to cause either “No Impact,” or “Less Than Significant Impact” in the IS/MND. These deleterious impacts must be properly studied so that their true impacts on nearby residents can be determined and mitigated.

The Project Approvals Fail to Consider Feasible Mitigation Measures That Alleviate Negative Environmental Impacts

The Approvals were granted in error because there are feasible mitigation measures available which would substantially lessen one, or more, of the Project’s significant environmental effects. Pub. Resources Code, § 21002. For example, morning, afternoon and other peak-hour commute times will be permanently greatly increased throughout the area if the Project is developed as currently proposed. The IS/MND failed to propose mitigation measures to alleviate this significant impact.

The Environmental Noise Assessment, included as Attachment 6 to the IS/MND, states, in pertinent part, on Page 6 that the “Noise Element of the City of Roseville General Plan establishes non-transportation noise exposure limits as summarized...in Table 1 (Table IX-3 of the Noise

BY FAX

Roseville City Council
WRSP PCL F-31 – The Plaza at Blue Oaks
File # PL17-0368
May 26, 2020
Page 7 of 7

Element). These limits are applicable to non-transportation noise sources (i.e., on-site truck movements, loading docks, and car wash operations) affecting existing noise-sensitive land uses.” The report suggests that a 6-foot sound barrier be constructed and that construction trucks be limited in their hours of operation. The report dubiously suggested this 6-foot sound barrier is enough to mitigate the significant impact the operation of the gas station, the loading dock, the car wash and the other commercial uses will cause to adjacent neighborhoods after construction.

The noise assessment in the IS/MND dismissed operations noise that will be caused by idling vehicles and traffic at the 12-pump gas station and ignores the Project’s other commercial uses. Instead, although the document recognized the fact that the nearest noise-sensitive land uses to the Project site are existing and future residential developments located north, south, and east of the Project site, significant impacts to these receptors was minimized by the report. It was assumed that each of the evaluated noise sources would only operate during limited, mostly daytime, hours. Based on this assumption, Roseville’s daytime and nighttime noise level standards for noise-sensitive residential land were applied to the Project’s noise sources. This represents a serious underestimation of the noise levels to be generated by the commercial uses in this Project.

Due to the fact that the IS/MND wholly dismissed the vast majority of the potential environmental impacts caused by the Project, mitigation measures were inadequately considered or completely ignored. For this reason, the Project Approvals fail to adequately disclose, evaluate, and mitigate the Project’s environmental impacts, resulting in a legally deficient CEQA review. The City Council must order the Planning Commission to conduct an appropriate environmental review that addresses these inadequacies and must circulate the document for public review to consider these critical issues.

The Association has commissioned an environmental report and a traffic report. We will submit it to the City Council in support of our position as soon as they are available. Thank you for your attention to this matter.

Sincerely,

Robert M. Bone, Esq.

SUBJECT: WRSP PCL-31 – The Plaza at Blue Oaks
File # PL17-0368
Citywide Job # 180129

On MAY 14, 2020, the *Planning Commission* **ADOPTED THE PLAZA AT BLUE OAKS INITIAL STUDY/MITIGATED NEGATIVE DECLARATION** and the **MITIGATION MONITORING AND REPORTING PROGRAM** and **APPROVED** the **DESIGN REVIEW PERMIT** to allow the construction of an 82,100-square-foot shopping center consisting of a 35,000-square-foot anchor grocery store, a 12-pump gas station with a 3,500-square-foot-convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet, a **TENTATIVE SUBDIVISION MAP** to subdivide the 13.35-acre parcel into eight (8) lots, and, a **TREE PERMIT** to remove several native oak trees on the westerly portion of the site located at **1950 BLUE OAKS BL.**

EXPIRATION DATE

You have two (2) years from the date of the Planning Commission's approval in which to effectuate the permit, or else the **DESIGN REVIEW PERMIT**, **TENTATIVE SUBDIVISION MAP**, and **TREE PERMIT** approval becomes null and void.

The expiration date of this request is **MAY 14, 2022**.

EXTENSION OF PERMIT

You may request that a permit be extended for a period up to a maximum of one (1) year. An application for an extension shall be submitted to the Planning Division prior to the expiration date indicated above. No notice will be sent to you prior to the date of permit expiration.

YOU WILL BE RESPONSIBLE FOR REQUESTING ANY EXTENSION.

FEE NOTIFICATION

Per Government Code Section 66000, et seq, this notice shall serve as notification that the 90 day appeal period has begun in which the applicant may protest the imposition of fees, dedications, reservations, or other exactions imposed under the provisions of Government Code Section 66020 to the City Council. The appeal shall be filed in writing or on a form provided by the City stating the reasons for the appeal as provided for in Government Code Section 66020. **The appeal shall be filed with the City Clerk.**

APPEAL PROCEDURE

The decision of the Planning Commission is final unless appealed. This decision must be appealed to the **City Council** by filing a written appeal and paying the required fee **within ten (10) calendar days of May 14, 2020. The appeal shall be filed with the City Clerk.**

You may be precluded from filing a lawsuit to challenge this decision unless you use this opportunity for administrative appeal and raise any issues you believe to be wrongly decided.

Persons wishing to commence a court case challenging this decision must do so within ninety (90) days of the final decision (after all administrative appeals are exhausted) pursuant to Code of Civil Procedures Section 1094.6. (See Roseville City Council Resolution No. 82-81)

CONDITIONS OF APPROVAL FOR DESIGN REVIEW PERMIT

1. This design review permit approval shall be effectuated within a period of two (2) years from **May 14, 2020** and if not effectuated shall expire on **May 14, 2022**. Prior to said expiration date, the applicant may apply for an extension of time, provided this approval does not extend the expiration beyond **May 14, 2023**. (Planning)
2. The project is approved as shown in Exhibits B—K, and as conditioned or modified below. (Planning)
3. The project shall comply with all required environmental mitigation identified in the Plaza at Blue Oaks Mitigated Negative Declaration. (Planning)
4. The applicant shall submit and gain approval of a Design Review Permit for Pad 3 prior to building permit issuance. (Planning)
5. The applicant shall submit and gain approval of a Design Review Permit for the future development of Phase 2 (Lot 2). (Planning)
6. The project shall be addressed as 1950 Blue Oaks Blvd. The lots and the buildings thereon shall be addressed as follows: Lot 1 (along with Major 1) shall be addressed as 1970 Blue Oaks Blvd, Lot 2 shall be addressed as 2081 Oak Meadow Dr, Lot 3 (along with the building on PAD 3) shall be addressed as 1930 Blue Oaks Blvd, Lot 4 (along with Shops 2) shall be addressed 1960 Blue Oaks Blvd, Lot 5 (along with the building on PAD 2) shall be addressed 1940 Blue Oaks Blvd, Lot 6 (along with the building on PAD 1) shall be addressed 1980 Blue Oaks Blvd, Lot 7 (along with the building on PAD 6) shall be addressed 2000 Blue Oaks Blvd and the building on PAD 5 shall be addressed

2010 Blue Oaks Blvd, Lot 8 (along with Shops 1) shall be addressed 1990 Blue Oaks Blvd and the building on PAD 4 shall be addressed 2020 Blue Oaks Blvd. All projects with multi-tenants or buildings must submit a site plan with building footprint(s) and suite numbers to the Development Services Department (Business Services – Addressing) for review and approval. The City Addressing Guidelines should be used for reference when assigning suite numbers. (Business Services)

7. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. Project billing may occur up to two (2) months after the end of warranty or the Notice of Termination date for the SWPPP, whichever occurs later. (Engineering, Environmental Utilities, Electric, Finance)
8. The design and construction of all improvements shall conform to the Design and Construction Standards of the City of Roseville, or as modified by these conditions of approval, or as directed by the City Engineer. (Engineering)
9. The applicant shall not commence with any on-site improvements or improvements within the right-of-way until such time as grading and/or improvement plans are approved and grading and/or encroachment permits are issued by the Department of Development Service Engineering Division (Engineering)
10. The approval of this project does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)

PRIOR TO ISSUANCE OF BUILDING PERMITS:

11. Parking stalls shall meet, or exceed, the following minimum standards:
 - a. All parking stalls shall be double-striped. Parking stalls adjacent to sidewalks, landscaped areas or light fixtures, and all Accessible stalls shall abut a 6" raised curb or concrete bumper. (Planning)
 - b. Standard -- 9 feet x 18 feet; Compact--9 feet x 16 feet; Accessible--14 feet x 18 feet (a 9 foot wide parking area plus a 5 foot wide loading area) and a minimum of one (1) parking space shall be Accessible van accessible--17 feet x 18 feet (9 foot wide parking area plus an 8 foot wide loading area). (Planning)
 - c. An 'exterior routes of travel' site accessibility plan incorporating slope, cross-slope, width, pedestrian ramps, curb ramps, handrails, signage, detectable warnings or speed limit signs or equivalent means shall comprise part of the site improvement plans submitted to City for review, prior to building plan check approvals. This site accessibility plan shall also include:

- i) Accessible parking stalls shall be dispersed and located closest to accessible entrances. The total number of accessible parking spaces shall be established by Table 11B-208.2 of the CBC.
 - ii) Accessible Parking spaces and crosswalks shall be signed, marked and maintained as required by Chapter 11B of the CBC.
 - iii) Accessible parking and exterior route of travel shall comply with CBC, Sections 11B-206 and 11B-208. (Building)
- 12. Signs and/or striping shall be provided on-site as required by the Planning Department to control on-site traffic movements. Parking lot striping and signage shall be maintained in a visible and legible manner. (Planning)
- 13. The plans submitted to the Building Department for permits shall indicate all approved revisions/alterations as approved by the Commission including all conditions of approval. (Planning)
- 14. The project Landscape Plans shall comply with the following:
 - a. The Landscape Plan shall indicate the location of, and be designed to avoid conflicts with, all pole-mounted light fixtures and utility equipment including (but not limited to) electric transformers, switchgear, and overhead lines, backflow preventors, fire department connections, and public water, sewer, and storm drain facilities. (Planning, Fire, EUD, Electric, Public Works)
 - b. The tree plantings in the parking lot shall be designed to provide a minimum of 50% shade coverage after 15 years. (Planning)
 - c. At a minimum, landscaped areas not covered with live material shall be covered with a rock, 3" bark (no shredded bark) or 3" mulch covering. (Planning)
 - d. The landscape plan shall comply with the Landscape Guidelines for West Roseville Specific Plan and the City of Roseville Water Efficient Landscape Ordinance. (Planning)
 - e. All landscaping in areas containing electrical service equipment shall conform with the Electric Department's Landscape Requirements and Work Clearances as outlined in Section 10.00 of the Departments "Specification for Commercial Construction." (Electric)
- 15. Any roof-mounted equipment and satellite dishes proposed shall be shown on the building plans. The equipment shall be fully screened from public streets and the surrounding properties. (Planning)
- 16. At the time of building permit application and plan submittal, the project applicant shall submit a proposed plan which shows the suite addressing plan for individual tenant spaces within the building. The Chief Building Official, or the designate, shall approve said plan prior to building permit approval. (Building)

17. A separate Architectural Site Accessibility Plan which details the project's site accessibility information as required by California Title 24, Part 2 shall be submitted as part of the project Building Permit Plans. (Building)
18. For Multiple Building Complexes: As part of the required Architectural Site Accessibility Plan, the developer shall delineate the extent of the site accessibility improvements being installed as part of the initial improvements for the project, and those that are planned to be developed as part of subsequent phases (i.e. around future pad buildings). (Building)
19. Building permit plans shall comply with all applicable code requirements (California Building Code – CBC – based on the International Building Code, California Green Building Standards Code-CGBSC, California Mechanical Code – CMC – based on the Uniform Mechanical Code, California Plumbing Code – CPC – based on the Uniform Plumbing Code, California Fire Code – CFC – based on the International Fire Code – with City of Roseville Amendments – RFC, California Electrical Code – CEC – based on the National Electrical Code, and California Energy Standards – CEC T-24 Part 6), California Title 24 and the American with Disabilities Act - ADA requirements, and all State and Federally mandated requirements in effect at the time of submittal for building permits (contact the Building Division for applicable Code editions). (Building)
20. Parapet/cornice construction shall support the weight of a ladder leaning against the parapet as well as a 330-pound vertical load applied to the **leading edge** of the horizontal projection of the cornice (a 250-pound firefighter carrying 80 pounds of equipment stepping off of a ladder onto the top of the cornice). (CFC Chapter 1) (Building)
21. For restaurants, or other food services, contact the Placer County Health Department. (Building)
22. For restaurants, or other food services. The developer shall obtain all required approvals and permits from the Placer County Health Department and the City of Roseville Industrial Waste Division. (Building, Environmental Utilities)
23. Maintenance of copy of building plans: Health and Safety Code section 19850 requires the building department of every city or county to maintain an official copy of the building plans for the life of the building. As such, each individual building shall be submitted as a separate submittal package. Building plan review, permit issuance and archiving is based on each individual building address. (Building)
24. The Improvement Plans shall include a complete set of Landscape Plans. The Landscape Plans shall be approved with the Improvement Plans. (Planning, Engineering, Fire, Environmental Utilities, Electric)
25. A note shall be added to the grading plans that states:

*“Prior to the commencement of grading operations, the contractor shall identify the site where the **excess/borrow** earthen material shall be imported/deposited. If the **borrow/deposit** site is within the City of Roseville, the contractor shall produce a report issued by a geotechnical engineer to verify*

that the exported materials are suitable for the intended fill, and shall show proof of all approved grading plans. Haul routes to be used shall be specified.” (Engineering)

26. Blue Oaks Boulevard shall be improved with two A-7 driveways. The western driveway shall be a minimum of 30-foot in width and the eastern driveway shall be a minimum of 35-foot in width. Both driveways shall be restricted to right turn ingress and egress only. An Auxiliary lane with a 90-foot entry taper shall be constructed along the frontage to provide right turn access to the driveway and will terminate into the existing right turn lane at Fiddymment Road. All frontage pedestrian paths shall be a minimum of 8-foot in width. (Engineering)
27. Fiddymment Road shall be improved with a 35-foot wide A-7 driveway. This driveway shall be restricted to right turn ingress and egress only. All frontage pedestrian paths shall be a minimum of 8-foot in width. (Engineering)
28. Harvey Way shall be improved with two A-7 driveways. The western driveway shall be a minimum of 35-foot in width and restricted to right turn ingress and egress access only. The eastern driveway shall be a minimum of 30-foot in width. All frontage pedestrian paths shall be a minimum of 4-foot in width. (Engineering)
29. Oak Meadow Drive shall be improved with two 35-foot wide A-7 driveways. All frontage pedestrian paths shall be a minimum of 4-foot in width. (Engineering)
30. The Developer shall provide striping and signage to prevent the blockage at the first onsite intersections located off of Fiddymment Road driveway and the western driveway on Harvey Way. (Engineering)
31. The Developer shall enter into a construction fee agreement based upon a construction cost of \$10,000 per shelter for future construction of the Bus Shelter on the NE corner of Fiddymment Road and Blue Oak Blvd. (shelter number 176) (Engineering, Alternative Transportation)
32. The project shall include a 20-space park-and-ride per the Specific Plan requirements and in proximity to the transit shelter on Fiddymment Road. The park-and-ride lot shall include accessible parking as required by the building code, a path of travel from the accessible parking to the transit shelter on Fiddymment Road, signs identifying the park-and-ride spaces and their availability to the public. The park-and-ride area shall include appropriate lighting and security measures. The landowner shall be responsible for maintenance of the park-and-ride lot and all its appurtenances. (Engineering, Alternative Transportation)
33. Bike parking and clean air vehicle spaces shall be provided per the California Green Building Standards. Bike rack/locker design and location shall be approved by Alternative Transportation. Parking stall markings are to be marked as “Carpool/Clean Air/EV” instead of using the words “Vanpool”. The “clean air” spaces should be distributed throughout the site, including near the major buildings. The building permit plans shall show internal bike parking. (Alternative Transportation, Building)

34. The applicant/developer shall prepare a Transportation Systems Management (TSM) plan for *The Plaza at Blue Oaks* to be reviewed and approved by the Transportation Commission (Alternative Transportation)
35. The applicant shall dedicate all necessary rights-of-way or Public Utility Easement for the widening of any streets or transfer of public utilities across and over any portion of the property as required with this entitlement. A separate document shall be drafted for approval and acceptance by the City of Roseville, and recorded at the County Records Office. (Engineering)
36. All storm drainage, including roof drains, shall be collected on site and treated with Best Management Practices (BMP's) per the City's Stormwater Quality Design Manual. All storm water shall be routed to the nearest existing storm drain system or natural drainage facility. Drain outfalls shall extend down to the receiving water and shall be constructed with adequate velocity attenuation devices. The grading/improvement plans for the site shall be accompanied with a shed map that defines that area tributary to this site and all drainage facilities shall be designed to accommodate the tributary flow. The storm drain system and proposed BMP's shall be privately owned and maintained by the property owner. Prior to the issuance of any permits, the owner shall provide a plan for the maintenance of the proposed BMP's. (Engineering)
37. Prior to the approval of the Improvement Plans, the project proponent shall provide proof of preparation and submittal of a Storm Water Pollution Prevention Plan (SWPPP) to the Regional Water Quality Control Board (RWQCB). Proof shall be in the form of the Waste Discharge Identification Number (WDID#), provided to the applicant from RWQCB, placed on the coversheet of the improvement plans. Upon approval of the improvement plans, a copy of the SWPPP shall be required onsite and available for viewing by City inspection staff upon request. (Engineering)
38. The developer shall be responsible for any necessary relocation of signal interconnect cables that may require re-location as a result of the construction of turn lanes and/or driveways. (Engineering)
39. To ensure that the design for any necessary widening, construction, or modifications of Public Streets does not conflict with existing dry utilities generally located behind the curb and gutter, and prior to the submittal of design drawings for those frontage improvements, the project proponent shall have the existing dry utilities pot holed for verification of location and depth. (Engineering)
40. Sight distances for all driveways shall be clearly shown on the improvement plans to verify that minimum standards are achieved. It will be the responsibility of the project proponent to provide appropriate landscaping and improvement plans, and to relocate and/or modify existing facilities as needed to meet these design objectives. (Engineering)
41. The applicant shall remove and reconstruct any existing damaged curb, gutter, and sidewalk along the property frontage. During plan check of the improvement plans and/or during inspection, Public Works will designate the exact areas to be reconstructed. Any existing public facilities damaged during the course of construction shall be repaired by the property owner and at the property owner's expense, to the satisfaction of the City. (Engineering)

42. Prior to the approval of the improvement plans, it will be the project proponent's responsibility to pay the standard City Trench Cut Recovery Fee for any cuts within the City streets that are required for the installation of underground utilities. (Engineering)
43. Prior to the issuance of building permits, the property owner shall pay into the following fee programs: Citywide Drainage Fee, Citywide Traffic Mitigation Fee (TMF), Highway 65 Joint Partners Association (JPA), South Placer Regional Transportation Authority (SPRTA), and City/County Fee. (Engineering)
44. Upon issuance of each building permit, the property owner shall pay the WRSP Transit Shuttle Service Fee per Development Agreement Section 3.15.14. (Alternative Transportation)
45. The applicant/developer shall prepare a Transportation Systems Management (TSM) Plan for the Plaza at Blue Oaks to be reviewed and approved by the Transportation Commission. (Public Works)
46. Prior to the issuance of a grading permit or approval of Improvement Plans, the grading plans shall clearly identify all existing water, sewer and recycled water utilities within the boundaries of the project (including adjoining public right of way). Existing utilities shall be identified in plan view and in profile view where grading activities will modify existing site elevations over top of or within 15 feet of the utility. Any utilities that could potentially be impacted by the project shall be clearly identified along with the proposed protection measures. The developer shall be responsible for taking measures and incurring costs associated with protecting the existing water, sewer and recycled water utilities to the satisfaction of the Environmental Utilities Director. (Environmental Utilities)
47. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)
48. Water and sewer infrastructure shall be designed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards and shall include:
 - a. Utilities or permanent structures shall not be located within the area which would be disturbed by an open trench needed to expose sewer trunk mains deeper than 12' unless approved by Environmental Utilities in these conditions. The area needed to construct the trench is a sloped cone above the sewer main. The cone shall have 1:1 side slopes.
 - b. Water, sewer and recycled mains shall not exceed a depth of 12' below finished grade, unless authorized in these conditions of approval.
 - c. All sewer manholes shall have all-weather 10-ton vehicle access unless authorized by these conditions of approval. (Environmental Utilities)
49. Recycled water infrastructure shall be designed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards. The applicant shall pay all applicable recycled water fees. Easements shall be provided as necessary for recycled water infrastructure. (Environmental Utilities)
50. Trash enclosures, recycling areas, and enclosure approaches shall be designed to current Refuse Division specifications, the materials and colors shall match the building, and the location of such

facilities shall be reviewed and approved by the Refuse Division, Planning and the Fire Department. The enclosure must have inside dimensions of 12 feet wide and 9 feet deep and be built to the specifications of the Solid Waste Department's Enclosure Description. (Refuse, Planning, Fire)

51. Access to trash enclosures shall have an inside turning radius of 25 feet and an outside turning radius of 45 feet must be maintained to allow the refuse truck access to and from the enclosure. Enclosures must have a clear approach of 65 feet in front of the enclosure to allow servicing bins. (Refuse)
52. A trash enclosure and recycling enclosure is required for each building and each tenant, otherwise, the building owner is responsible for the trash service. (Refuse)
53. The design and installation of all fire protection equipment shall conform to the California Fire Code and the amendments adopted by the City of Roseville, along with all standards and policies implemented by the Roseville Fire Department. (Fire)
54. The applicable codes and standards adopted by the City shall be enforced at the time construction plans have been submitted to the City for permitting (Fire)
55. The fire flow required, at a 50% reduction due to the buildings being sprinklered, will be based on the largest single structure in accordance with the California Fire Code at the time detail plans are submitted to the City of Roseville for review. The maximum fire flow will not exceed 4,000 gpm based on the Appendix III-AA of the California Fire Code. (Fire)
56. The fire department access road shall meet the City's requirements for width and turning radii of 30 and 50 as noted on the fire department standards for access. This shall be enforced at the time plan are submitted for review, Additional information can be found on the City's web site www.roseville.ca.us or contact Jason Rizzi, Fire Division Chief, at 916-774-5802 or jrizzi@roseville.ca.us with the Fire and Life Safety Division for information. (Fire)
57. If high-pile storage is involved as part of the construction of this occupancy, a separate fire permit shall be obtain from the fire department in accordance with the California Fire Code. Plans shall be submitted for approval prior to installation. (Fire)
58. Automatic fire extinguishing system risers, fire alarm system panels and digital alarm communicator system panels shall be located within an approved fire control room and shall be accessible from an adjacent fire apparatus roadway. There shall be only one fire control room per building. Said fire control room shall be a minimum size of thirty-five (35) square feet in size and shall be openable from the exterior via an approved door opening. (Fire)
59. All fire apparatuses, such as fire department connections and post indicating valves, serving identified building shall be designed and installed adjacent to each structure for first responder's operational purposes. (Fire)

60. If the existing water supply is unable to support the automatic fire sprinkler system, a listed fire pump would be your only option. If this is the case, you required fire pump room will have to be enlarged to accommodate all the required apparatuses needed to operate such a system. (Fire)
61. The phasing of this project shall not limit the fire department requirements for access and circulation throughout the project as a result of continuous construction in accordance with the California Fire Code, 2016 with the City of Roseville's Amendments. A separate phasing plan (and permit issued by the Building Department) shall be reviewed and approved by this department. (Fire)
62. This building shall be designed with fire department access doors every 100 lineal feet in accordance with Chapter 32 of the California Fire Code. (Fire)
63. This project shall not reduce the responsibilities of the owner(s) or future owners of these parcels from maintaining all on-site fire systems including all underground water lines if applicable. Private underground fire lines that serve multiple buildings and/or parcels shall be part of the reciprocal easement agreement. There shall be a clear language regarding maintenance and common easements agreement for service in the CCRs. A service company shall be obtained to maintain all on-site fire protection systems as noted in the conditions of approval. (Fire)
64. If added cornice construction is involved, the design shall support the weight of a ladder leaning against the assembly as well as a 330-pound vertical load applied to the **leading edge** of the horizontal projection of the cornice (a 250-pound firefighter carrying 80 pounds of equipment stepping off of a ladder onto the top of the cornice). (Fire)
65. Use, increase of hazardous materials or storage, liquids, gases and/or chemicals shall meet the requirements of the Chapter 6.95 of the Health and Safety Code, the Roseville Fire Department and the National Fire Codes. Submit a complete plan set and the Hazardous Materials Business Plan, including names and amount of any hazardous materials that will be stored or used, to the Fire and Life Safety Division for review and approval. A permit application shall also be provided at the time of submittal. Contact Steve Anderson of our Hazardous Materials Division within the Fire Department at (916) 774-5821 to initiate the process. Satisfaction of storage and use shall be determined prior to requesting occupancy. (Fire)
66. Adequate radio coverage shall be provided within all buildings for public safety agencies, as required by Roseville Municipal Code and the California Fire Code. A field test shall be provided by a person in possession of a current FCC License, or a current technician certification issued by the Associated Public-Safety Communications Officials International (APCO), or the National Association of Business and Educational Radio (NABER). The building owner shall retain all test records on the inspected premises and a copy shall be submitted to the Fire Department officials in accordance with Section 510 of the California Fire Code.
67. Adequate radio coverage shall include all of the following:
 - a. A minimum signal strength of 95 dBm available in 90% of the area of each floor of the building when transmitted from the closest City of Roseville Radio Communication site.

- b. A minimum signal strength of 95 dBm received at the closest City of Roseville Communication site when transmitted from 90% of the area of each floor of the building.
 - c. The frequency range that must be supported shall be 821-824 MHz and 866-869 MHz.
 - d. A 100 % reliability factor. (Fire, Police)
68. The Electric Department requires the submittal of the following information in order to complete the final electric design for the project:
- a. one (1) set of improvement plans
 - b. load calculations
 - c. electrical panel one-line drawings (Electric)
69. All on-site external lighting shall be installed and directed to have no off-site glare. Lighting within the parking areas and pedestrian walkways shall provide a maintained minimum of one (1) foot candle, and 0.5 foot candle of light, respectively. All exterior light fixtures shall be vandal resistant. (Planning & Police)
70. The parking lot shall have properly posted signs that state the use of the parking area is for the exclusive use of employees and customers of this project. (See California Vehicle Code Sections 22507.8, 22511.5, 22511.8, 22658(a), and the City of Roseville Municipal Code Section 11.20.110). The location of the signs shall be shown on the approved site plan. (Planning & Police)
71. It is the developer's responsibility to notify PG&E of any work required on PG&E facilities. (PG&E)

DURING CONSTRUCTION & PRIOR TO ISSUANCE OF OCCUPANCY PERMITS:

72. Any backflow preventors visible from the street shall be painted green to blend in with the surrounding landscaping. The backflow preventors shall be screened with landscaping and shall comply with the following criteria:
- a. There shall be a minimum clearance of four feet (4'), on all sides, from the backflow preventor to the landscaping.
 - b. For maintenance purposes, the landscaping shall only be installed on three sides and the plant material shall not have thorns.
 - c. The control valves and the water meter shall be physically unobstructed.
 - d. The backflow preventor shall be covered with a green cover that will provide insulation. (Planning, Environmental Utilities)
73. The following easements shall be provided by separate instrument and shown on the site plan, unless otherwise provided for in these conditions:

- a. Water, sewer, and reclaimed water easements. (Engineering, Environmental Utilities)
 - b. Additional internal easements will be required to cover primary electrical facilities to the project when the final electrical design is completed. (Electric)
 - c. If not already provided with the subdivision map, the applicant shall dedicate a separate easement to the City of Roseville for the bus stop located on NE corner of Fiddymment Road at Blue Oaks Blvd. (shelter #176). The easement documents shall be drafted for approval and acceptance by the City of Roseville and recorded at the County Recorders' office. (Alternative Transportation, Engineering)
74. Easement widths shall comply with the City's Improvement Standards and Construction Standards. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville". All legal descriptions shall be prepared by a licensed land Surveyor. All existing public utility, electric, water, sewer and reclaimed water easements shall be maintained unless otherwise authorized by these conditions of approval. (Public Works, Environmental Utilities, Electric)
75. Inspection of the potable water supply system on new commercial projects shall be as follows:
- a. The Environmental Utilities Inspector will inspect all potable water supply up to the downstream side of the backflow preventor.
 - b. The property owner/applicant shall be responsible for that portion of the water supply system from the backflow preventor to the building. The builder/contractor shall engage a qualified inspector to approve the installation of this portion of the water supply. The Building Division will require from the builder/ contractor, a written document certifying that this portion of the potable water supply has been installed per improvement plans and in accordance with the Uniform Plumbing Code. This certificate of compliance shall be submitted to the Building Division before a temporary occupancy or a building final is approved.
 - c. The building inspectors will exclusively inspect all potable water supply systems for the building from the shutoff valve at the building and downstream within the building. (Building, Environmental Utilities)
76. All improvements being constructed in accordance with the approved grading and improvement plans shall be accepted as complete by the City. (Engineering)
77. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUE's) located along public roadways. (Engineering)
78. The applicant/developer shall prepare a Transportation Systems Management (TSM) agreement for The Plaza at Blue Oaks to be reviewed and approved by the City Manager (Alternative Transportation).
79. Water, sewer and reclaimed water shall be constructed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards. (Environmental Utilities)

80. All water backflow devices shall be tested and approved by the Environmental Utilities Department. (Environmental Utilities)
81. **Restaurants or other Food Service Establishment (FSE).** The applicant shall design for installation and/or install an exterior grease interceptor if the proposed business could potentially discharge substances containing fats, oils and grease (FOG) into the sewer system. The grease interceptor shall be adequate to separate and remove FOG contained in the wastewater from FSE's prior to discharge to the public sewer. (Environmental Utilities)
82. In the event an exterior grease interceptor cannot be installed due to space limitation, the developer shall install a grease trap, per City Standards, that will mechanically separate the FOG contained in the wastewater from the FSE prior to discharge to the public sewer. (Environmental Utilities)
83. Pursuant to the Municipal Code, the applicant shall apply for and obtain a FOG waste discharge permit (FOG WDP) from the Environmental Utilities Industrial Waste Division prior to occupancy or prior to discharging waste to the public sewer. The applicant shall submit information required by the Environmental Utilities Department for evaluation, including but not limited to: site plans, floor plans, mechanical and plumbing plans, and details to show all sewers, FOG control device, grease interceptor or other pretreatment equipment and appurtenances by size, location and elevation. Additional information related to the applicant's business operations and potential discharge may be requested to properly evaluate the FOG WDP application. (Environmental Utilities)
84. All Electric Department facilities, including streetlights where applicable, shall be designed and built to the "City of Roseville Specifications for Commercial Construction." (Electric)
85. The City of Roseville Electric Department has electrical construction charges which are to be paid by the developer and which are explained in the City of Roseville "Specification for Commercial Construction." These charges will be determined upon completion of the final electrical design. (Electric)
86. Any relocation, rearrangement, or change of existing electric facilities due to this development shall be at the developer's expense. (Electric)
87. Any facilities proposed for placement within public/electric utility easements shall be subject to review and approval by the Electric Department before any work commences in these areas. This includes, but is not limited to, landscaping, lighting, paving, signs, trees, walls, and structures of any type. (Electric)
88. All electric metering shall be directly outside accessible. This can be accomplished in any of the following ways:
 - a. Locate the metered service panel on the outside of the building.
 - b. Locate the metered service panel in a service room with a door that opens directly to the outside. The developer will be required to provide a key to the door for placement in a lock box to be

installed on the outside of the door. Any doors leading from the service room to other areas of the building shall be secured to prohibit unauthorized entry. (Electric)

89. One 3/4" conduit with a 2-pair phone line shall be installed from the buildings telephone service panel to the meter section of the customer's electrical switchgear or panel. (Electric)
90. It is the responsibility of the developer to insure that all existing electric facilities remain free and clear of any obstruction during construction and when the project is complete. (Electric)

OTHER CONDITIONS OF APPROVAL:

90. Signs shown on the elevations are not approved as part of the Design Review Permit. A Sign Permit is required for all project signs. (Planning)
91. Following the installation of the landscaping, all landscape material shall be maintained in a healthy and weed free condition; dead plant material shall be replaced immediately. All trees shall be maintained and pruned in accordance with the accepted practices of the International Society of Arboriculture (ISA). (Planning)
92. The City reserves the right to restrict vehicle turning movements within the public right-of-way in the future if deemed necessary by the City Engineer. (Engineering)
93. The required width of fire apparatus access roads shall not be obstructed in any manner, including the parking of vehicles. Minimum required widths and vertical clearances established by the Fire Code shall be maintained at all times during construction. Closure of accesses for fire apparatus by gates, barricades and other devices shall be prohibited unless approved by the Fire Chief. (Fire)
94. Temporary aboveground storage tanks may be used at construction sites for diesel fuel only and shall not exceed 1,000 gallon capacity. Tanks shall comply with all provisions found within the Fire Code. A Fire Department Permit shall be obtained prior to tank installation. The permit shall expire after 90 days from the date of issuance, unless extended by the Fire Chief. (Fire)
95. If site survey or earth moving work results in the discovery of hazardous materials in containers or what appears to be hazardous wastes released into the ground, the contractor or person responsible for the building permit must notify the Roseville Fire Department immediately. A representative from the Fire Department will make a determination as to whether the incident is reportable or not and if site remediation is required. (Fire)
96. The location and design of the gas service shall be determined by PG&E. The design of the gas service for this project shall not begin until PG&E has received a full set of City approved improvement plans for the project. (PG&E)
97. All commercial air conditioning units 5 tons or less (<65,000 btu/ h) shall meet the current Consortium for Energy Efficiency ("CEE") Tier I specifications. The SEER/EER ratings will be specified on building plans and Title 24 compliance certificates at the time building permits are requested. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be

utilized in the overall energy compliance calculations required for issuance of any building permit for any commercial building in the Plan Area. Any variances, with the exception of Tier 2 compliance, must be approved by the Electric Department's Retail Energy Services Department. (Electric)

98. The project is subject to the noise standards established in the City's Noise Ordinance. In accordance with the City's Noise Ordinance project construction is exempt between the hours of seven a.m. and seven p.m. Monday through Friday, and between the hours of eight a.m. and eight p.m. Saturday and Sunday. Provided, however, that all construction equipment shall be fitted with factory installed muffling devices and that all construction equipment shall be maintained in good working order. (Building)
99. The developer (or designated consultant) shall certify that the building foundation location has been placed according to all approved setback requirements shown on the approved site plan. The developer shall prepare a written statement confirming building placement and provide an original copy to the City Building Division Field Inspector at the time of or prior to the foundation inspection. (Building)
100. Prior to Certificate of Occupancy, the applicant may apply for a Temporary Certificate of Occupancy (TCO) of the building. If a TCO is desired, the applicant must submit a written request to the Building Division a minimum of thirty (30) days prior to the expected temporary occupancy date and shall include a schedule for occupancy and a description of the purpose for the Temporary Certificate of Occupancy. (Building)
101. Concurrent with submittal for plan check and prior to a request for final building inspection, the applicant may request City approval of an occupancy phasing plan to allow individual or multiple building occupancies. This request shall be made in writing to the Building Department and shall include 10 copies of the following:
 - a) A description of measures that will be undertaken to minimize conflict between residents/building occupants and construction traffic (e.g. fencing, etc.);
 - b) A phasing plan showing the proposed buildings, internal roads and access routes, landscaping, trash enclosure locations, and any other improvements planned for each phase; and
 - c) Estimated time frame for each phase and a specific date for the first phase. (Planning, Building)

CONDITIONS OF APPROVAL FOR THE TENTATIVE SUBDIVISION MAP

1. The approval of a Tentative Map and/or tentative site plan does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)
2. The design and construction of all improvements shall conform to the Improvement Standards and Construction Standards of the City of Roseville, or as modified by these conditions of approval, or as directed by the City Engineer. (Engineering)

3. The applicant shall not commence with any on-site improvements or improvements within the right-of-way until such time as grading and/or improvement plans are approved and grading and/or encroachment permits are issued by the Department of Development Service Engineering Division (Engineering)
4. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. Project billing may occur up to two (2) months after the end of warranty or the Notice of Termination date for the SWPPP, whichever occurs later. (Engineering, Environmental Utilities, Electric, Finance)

PRIOR TO ISSUANCE OF A GRADING PERMIT AND/OR IMPROVEMENT PLANS:

5. Grading around the native oak trees shall be as shown on the tentative map or as approved in these conditions. (Planning)
6. The applicant shall submit to the Planning and Engineering Departments the appropriate Army Corps of Engineers permit or clearance, the California Department of Fish and Game Stream Bed Alteration Agreement, and/or the Regional Water Quality Control Board Water Quality Certificate. (Planning)
7. Water and sewer infrastructure shall be designed and constructed pursuant to the adopted City of Roseville Improvement Standards and Construction Standards and shall reflect the following:
 - a) Sewer and water service laterals shall not be allowed off of water and sewer mains larger than 12 inches in diameter.
 - b) Utilities or permanent structures shall not be located within the area which would be disturbed by an open trench needed to expose sewer trunk mains deeper than 12' unless approved by Environmental Utilities in these conditions. The area needed to construct the trench is a sloped cone above the sewer main. The cone shall have 1:1 side slopes.)
 - c) Water and sewer mains shall not exceed a depth of 12' below finished grade, unless authorized in these conditions
 - d) All sewer manholes shall have all-weather 10-ton vehicular access unless authorized by these conditions. (Environmental Utilities)
8. Recycled water infrastructure shall be designed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards. The applicant shall pay all applicable recycled water fees. Easements shall be provided as necessary for recycled water infrastructure. (Environmental Utilities)
9. All sewer on-site between MHs shall be considered public. (Environmental Utilities)
10. Organic enclosures shall be located perpendicular to the main drive aisle. (Environmental Utilities)

11. Fire hydrants shall be located as required by the Fire Department. The maximum distance between fire hydrants shall not exceed 1000 feet on center. (Fire)
12. Minimum fire flow is 3,000 gallons per minute with 20 lbs. psi residual pressure. A change in any of the conditions may increase the required fire flow. (Fire)
13. Any facilities proposed for placement within public/electric utility easements shall be subject to review and approval by the Electric Department before any work commences in these areas. This includes, but is not limited to, landscaping, lighting, paving, signs, trees, walls, and structures of any type. (Electric)
14. The design for electrical service for this project will begin when the Electric Department has received a full set of improvement plans for the project. (Electric)
15. All landscaping in areas containing electrical service equipment shall conform with the "Electric Department Landscape Design Requirements" as outlined in Section 10.00 of the Electric Department's "Specifications for Commercial Construction." (Electric)
16. The Electric Department requires the submittal of the following information in order to complete the final electric design for the project:
 - one (1) set of improvement plans
 - load calculations
 - electrical panel one-line drawings
17. The location and design of the gas service shall be determined by PG&E. The design of gas service for this project shall not begin until PG&E has received a full set of City approved improvement plans for the project. (PG&E)
18. It is the developer's responsibility to notify PG&E of any work required on PG&E facilities. (PG&E)

PRIOR TO OR UPON RECORDATION OF FINAL/PARCEL MAP:

19. The following easements shall be provided and shown on the Final/Parcel Map or by separate instrument, unless otherwise provided for in these conditions:
 - a) Water, sewer, and reclaimed water easements; and,
 - b) The applicant shall dedicate an easement to the City of Roseville for the bus stop located on NE corner of Fiddymment Road at Blue Oaks Blvd. (shelter #176). The easement language/documents shall be drafted for approval and acceptance by the City of Roseville and recorded with the map. (Alternative Transportation, Engineering)

Easement widths shall comply with the City's Improvement Standards and Construction Standards. (Environmental Utilities, Electric, Engineering)

20. All existing easements shall be maintained, unless otherwise provided for in these conditions. (Environmental Utilities, Electric, Engineering)
21. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville". All legal descriptions shall be prepared by a licensed Land Surveyor (Environmental Utilities, Electric, Engineering)
22. A declaration of Conditions, Covenants and Restrictions (CC&Rs), in a form approved by the City Attorney, shall be recorded on the entire property concurrently with the Final/Parcel Map. The CC&Rs shall include the following item(s):
 - a) A clause stating that the property owners within this subdivision shall agree to participate in a Transportation Systems Management (TSM) Plan and shall agree to enter into a Transportation Management Agreement with the City of Roseville (Alternative Transportation, Planning).
 - b) A clause prohibiting the amendment, revision or deletion of any sections in the CC&Rs required by these conditions of approval without the prior written consent of the City Attorney. (Attorney)
 - c) A clause requiring reciprocal access and parking for all parcels. (Planning)
23. In the event that the Final (Parcel) Map will record prior to the completion of on-site construction, all utility and access easements shall be placed on the face of the Map to the satisfaction of the City Engineer. If all on-site improvements are complete prior to the recordation of the map, then a separate agreement allowing all parcels/lots the rights of reciprocal access, rights to construct, and parking shall be submitted to the City as a part of final/parcel map submittal. Said agreement shall be in a form acceptable to the City Attorney and referenced on the face of the recorded map. (Engineering)
24. The Final/Parcel Map shall include an irrevocable offer to dedicate public rights-of-way and public and/or private easements as required by the City. (Engineering)
25. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUE's) located along public roadways. (Engineering)
26. The Final/Parcel Map shall be submitted per, "The Digital Submittal of Cadastral Surveys." A plot or print of the submittal shall accompany the electronic copy. The complete submittal shall occur after the Engineering Department approval but prior to City Council approval of the Final/Parcel Map. (Engineering)
27. Electric construction costs incurred by the City of Roseville Electric Department for this project shall be paid for by the developer per the applicable policy. (Electric)
28. Additional internal easements will be required to cover primary electrical facilities to the project when the final electrical design is completed. (Electric)

29. All Electric Department facilities, including streetlights where applicable, shall be designed and built to the "City of Roseville Specifications for Commercial Construction." (Electric)
30. The City of Roseville Electric Department has electrical construction charges which are to be paid by the developer and which are explained in the City of Roseville "Specification for Commercial Construction." These charges will be determined upon completion of the final electrical design. (Electric)
31. The Environmental Utilities Department shall make a determination that there is adequate conveyance and treatment capacity in the City sewer system to handle the newly created Lot/Parcels. (Environmental Utilities)
32. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)

OTHER CONDITIONS OF APPROVAL:

33. The applicant shall pay City's actual costs for providing plan check, installation and inspection services. This may be a combination of staff costs and direct billing for contract professional services. (Environmental Utilities, Engineering)
34. Any relocation, rearrangement, or change to existing electric facilities due to this development shall be at the developer's expense. (Electric)
35. It is the responsibility of the developer to insure that all existing electric facilities remain free and clear of any obstructions during construction and when the project is complete. (Electric)
36. No grading activities shall be permitted within 10 feet around the power poles. If there are major grade changes around the poles, they will be handled case-by-case during civil improvement plan review. (Electric)
37. Contractors working under and around power lines shall maintain Cal OSHA requirements, which will be discussed at the Pre-Construction meeting. (Electric)
38. If site survey or earth moving work results in the discovery of hazardous materials in containers or what appears to be hazardous wastes released into the ground, the contractor shall notify the Roseville Fire Department immediately. A representative from the Fire Department will make a determination as to whether the incident is reportable or not and if site remediation is required. Non emergency releases or notifications about the presence of containers found shall be reported to the Fire Department. (Fire)
39. The project shall comply with all applicable environmental mitigation measures identified in the Plaza at Blue Oaks Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program. (Planning)

CONDITIONS OF APPROVAL FOR THE TREE PERMIT

PRIOR TO ISSUANCE OF ANY PERMITS OR ANY CONSTRUCTION ON-SITE:

1. All recommendations contained in the Arborist Report (Exhibit J) are incorporated by reference into these conditions, except as modified herein. (Planning)
2. Tree(s) # 1510, 1513, 1514, 1521, 1522, 1523, 1528, 1529, 1530, 1531, 1532, 1533, 1534, 1535, 1536, 1537, 1538, 1539, 1540, 1541, 1542, 1543, 1544, 1545, 1559, 1562, 1563, 1564 (or as listed in Exhibit J and shown on Exhibit K) are approved for removal with this tree permit. All other native oak trees shall remain in place. Trees to be removed shall be clearly marked in the field and inspected by Planning Staff prior to removal. Removal of the trees shall be performed by or under the supervision of a certified arborist. (Planning)
3. The developer shall be responsible for the replacement of the total number of inches proposed for removal. The total number of inches for this project is 721. Mitigation must be provided in the form of payment in the amount of \$39,294 prior to tree removal, and planting of non-native and native trees (as shown in the landscape plan, included as Exhibit I). (Planning)
4. No activity shall be permitted within the protected zone of any native oak tree beyond those identified by this report. (Planning)
5. A \$10,000 cash deposit or bond (or other means of security provided to the satisfaction of the Planning Division) shall be posted to ensure the preservation of all remaining trees during construction. The cash deposit or bond shall be posted in a form approved by the City Attorney. Each occurrence of a violation on any condition regarding tree preservation shall result in forfeiture of all or a portion of the cash deposit or bond. (Planning)
6. A violation of any of the conditions of this Tree Permit is a violation of the Roseville Municipal Code, the Zoning Ordinance (Chapter 19.74) and the Tree Preservation Ordinance (Chapter 19.66). Penalties for violation of any of the conditions of approval may include forfeiture of the bond, suspension or revocation of the permit, payment of restitution, and criminal penalties. (Planning)
7. A fencing plan shall be shown on the approved site plan and/or improvement plans demonstrating the Protected Zone for the affected trees. A maximum of three feet beyond the edge of the walls, driveways, or walkways will be allowed for construction activity and shall be shown on the fencing plan. The fencing plan shall be reviewed and approved by the Planning Division prior to the placement of the protective fencing. (Planning)
8. The applicant shall install a minimum of a five-foot high chain link fence (or acceptable alternative) at the outermost edge of the Protected Zone of the oak tree. Where encroachment is permitted pursuant to Condition 4, above, the fencing for encroachments shall be installed at the limit of construction activity. The applicant shall install signs at two equidistant locations on the temporary fence that are clearly visible from the front of the lot and where construction activity will occur. The size of each sign shall be a

minimum of two feet (2') by two feet (2') and must contain the following language: "WARNING THIS FENCE SHALL NOT BE REMOVED OR RELOCATED WITHOUT WRITTEN AUTHORIZATION FROM THE PLANNING DIVISION". (Planning)

9. Once the fencing is installed, the applicant shall schedule an appointment with the Planning Division to inspect and approve the temporary fencing before beginning any construction. (Planning)
10. The applicant shall arrange with the arborist to perform, and certify in writing, the completion of deadwooding, fertilization, and all other work recommended for completion prior to the approval of improvement plans. Pruning shall be done by an Arborist or under the direct supervision of a Certified Arborist, in conformance with International Society of Arboriculture (I.S.A.) standards. Any watering and deep root fertilization which the arborist deems necessary to protect the health of the trees as noted in the arborist report or as otherwise required by the arborist shall be completed by the applicant. (Planning)
11. A utility trenching pathway plan shall be submitted depicting all of the following systems: storm drains, sewers, water mains, and underground utilities. The trenching pathway plan shall show the proposed locations of all lateral lines. (Planning)
12. A Site Planning Meeting shall be held with the applicant, the applicant's primary contractor, the Planning Division and the Engineering Division to review this permit, the approved grading or improvement plans, and the tree fencing prior to any grading on-site. The Developer shall call the Planning Division and Engineering Division two weeks prior to the start of grading work to schedule the meeting and fencing inspection. (Planning)
13. The following information must be located on-site during construction activities: Arborist Report, approved site plan/improvement plans including fencing plan, and conditions of approval for the Tree Permit. All construction must follow the approved plans for this tree permit without exception. (Planning)
14. All preservation devices (aeration systems, oak tree wells, drains, special paving, etc.) shall be designed and installed as required by these conditions and the arborist's recommendations, and shall be shown on the improvement plans or grading plans. (Planning)
15. If any native ground surface fabric within the Protected Zone must be removed for any reason, it shall be replaced within forty-eight (48) hours. (Planning)
16. Storage or parking of materials, equipment, or vehicles is not permitted within the Protected Zone of any oak tree. Vehicles and other heavy equipment shall not be operated within the Protected Zone of any oak tree. (Planning)
17. Where recommended by the arborist, portions of the foundation shall be hand dug under the direct supervision of the project arborist. The certified arborist shall immediately treat any severed or damaged

roots. Minor roots less than one (1) inch in diameter may be cut, but damaged roots shall be traced back and cleanly cut behind any split, cracked or damaged area. Major roots over one (1) inch in diameter may not be cut without approval of an arborist and any arborist recommendations shall be implemented. (Planning)

18. The temporary fencing shall remain in place throughout the entire construction period and shall not be removed without obtaining written authorization from the Planning Division. In no event shall the fencing be removed before the written authorization is received from the Planning Division. (Planning)

PRIOR TO ISSUANCE OF FINAL:

19. Within 5 days of the completion of construction, a Certification Letter from a certified arborist shall be submitted to and approved by the Planning Division. The certification letter shall attest to all of the work (regulated activity) that was conducted in the protected zone of the tree, either being in conformance with this permit or of the required mitigation still needing to be performed. (Planning)
20. The approval of this Tree Permit shall run with the Design Review Permit and shall tentatively expire on **May 14, 2022**. The applicant may extend the tree permit for an additional year subject to the extension requirements for a Design Review Permit. (Planning)

NOTICE TO PROJECT APPLICANT: All materials introduced at a public hearing or included with the project's staff report, including but not limited to exhibits, photographs, video or audio tapes, plan sets, architectural drawings, models, color and materials palettes, and maps must be retained by the Planning Division as a part of the public record for one year following the City's final action on the project. Official project file materials will be kept in conformance with the Planning Division's adopted retention schedule. Color renderings and material boards will be disposed of after the project is built and the project receives a certificate of occupancy or at the end of one year, whichever is later.

MEMORANDUM

To: Planning Commission**From:** Kinarik Shallow, Associate Planner**Date:** May 13, 2020**Re:** Placer County Air Pollution Control District – Air Quality Permit Regulations

The purpose of this memorandum is to provide additional information regarding Placer County Air Pollution Control District (PCAPCD)'s rules and regulations related to air quality permits. Air quality impacts of the Plaza at Blue Oaks project were evaluated in the Initial Study prepared for the project, which determined that compliance with these rules and regulations would ensure impacts would be less than significant. The PCAPCD permit process ensures that the required local, state, and federal standards are adhered to as it relates to air quality impacts, and that no permit is provided if PCAPCD significance thresholds are exceeded. The applicable PCAPCD permit requirements, rules and regulations are included as Attachments 1-3, below.

Attachments

1. PCAPCD Air Quality Permitting
2. Rule 501 General Permit Requirements
3. PCAPCD Advisory Notice for Gasoline Dispensing Facilities

PCAPCD Air Quality Permitting

State law gives local air pollution control districts “the primary responsibility for control of air pollution from all sources, other than emissions from motor vehicles.” (Health & Safety Code, § 40000.) Pursuant to this authority, the Placer County APCD requires that gas stations obtain a permit known as an “Authority to Construct” prior to building the facility and another annual permit known as a “Permit to Operate” before dispensing gasoline. The APCD’s Rules and Regulations require denial of these permits if the proposed gas station’s air emissions would violate federal, State or local air quality standards. (Placer County APCD, Rules and Regulations, Rule 501, § 303, and Rule 502, § 408.) In addition to controlling the emission of various “criteria pollutants,” the APCD’s permits will address any potential emission of Toxic Air Contaminants from gas stations, including benzene. The APCD will review the proposed “annual throughput” for the gas station and will place any necessary restrictions on the operation to ensure that the facility’s emissions of TACs do not exceed the APCD’s established “health risk” threshold of 10 in 1 million. (See PCAPCD Advisory Notice for Gasoline Dispensing Facilities) Notably, this “10 in 1 million” threshold is identical to the APCD’s CEQA threshold of significance for TACs. Accordingly, it can be said with certainty that a gas station which must obtain an Authority to Construct and Permit to Operate from APCD will not result in any significant TAC emission impacts.

RULE 501 GENERAL PERMIT REQUIREMENTS

Adopted 12-08-70

(Amended 05-09-72, 11-12-74, 05-24-77, 06-19-79, 09-21-93, 11-03-94, 12-09-04, 8-12-10)

500 MONITORING AND RECORDS

- 501 TESTING PROCEDURES
- 502 MONITORING
- 503 RECORDKEEPING

100 GENERAL

101 PURPOSE: To provide an orderly procedure for the review of new sources of air pollution and modification and operation of existing sources through the issuance of permits. Procedures for issuing, modifying, or renewing Title V Permits to Operate for stationary sources that are subject to Rule 507, FEDERAL OPERATING PERMIT PROGRAM, shall also be consistent with the procedures specified in that rule.

102 EXEMPTION RECORDKEEPING: Records must be maintained to substantiate the following exemptions. Records must be maintained on site and made available to the District upon request.

110 EXEMPTION, GENERAL: An Authority to Construct and Permit to Operate shall not be required for the equipment listed in Sections 111 to 122, unless an emissions unit is:

110.1 Subject to New Source Performance Standards, except engines less than 50 horsepower subject to NSPS JJJJ, Standards of Performance for Stationary Spark Ignition ICE; or

110.2 Subject to National Emission Standards for Hazardous Air Pollutants; or

110.3 Subject to the requirements of Rule 507, FEDERAL OPERATING PERMIT PROGRAM; or

110.4 Emits, in levels deemed appropriate for review by the Air Pollution Control Officer, substances identified as a toxic air contaminant or which are under review pursuant to Health and Safety Code Section 39650 et seq.; or

110.5 The Air Pollution Control Officer makes a determination that the emission unit may not operate in compliance with the District Rules and Regulations; or

110.6 An emissions unit or stationary source for which emission reduction credits have been requested or granted in accordance with Rule 504, EMISSION REDUCTION CREDITS.

110.7 An otherwise exempt piece of equipment that is part of a process that requires a permit.

111 EXEMPTION, MOBILE SOURCES:

111.1 Engines used to propel mobile equipment or a motor vehicle of any kind, but not including any article, machine, equipment or other contrivance mounted on such a vehicle that would otherwise require a permit under the provisions of these rules and regulations.

111.2 Locomotives, airplanes and watercraft used to transport passengers or freight. This exemption shall not apply to equipment used for dredging of waterways or equipment used in pile driving adjacent to or in waterways.

112 EXEMPTION, COMBUSTION AND HEAT TRANSFER EQUIPMENT:

112.1 Internal combustion engines with a manufacturer's maximum continuous rating of 50 brake horsepower or less or gas turbine engines with a maximum heat input rate of 3,000,000 British Thermal Units (Btu) per hour or less at ISO standard day conditions (288 degrees Kelvin, 60 percent relative humidity, and 101.3

kilopascals pressure). The ratings of all engines or turbines used in the same process will be accumulated to determine whether this exemption applies.

112.2 Any combustion equipment that has a maximum heat input of less than 1,000,000 Btu per hour (gross) and is equipped to be fired exclusively with natural gas, liquefied petroleum gas or any combination thereof. The ratings of all combustion equipment used in the same process will be accumulated to determine whether this exemption applies.

113 EXEMPTION, RESIDENTIAL STRUCTURES: Equipment utilized exclusively in connection with any structure, when the structure is designed for and used exclusively as a dwelling for not more than four families.

114 EXEMPTION, AGRICULTURAL OPERATIONS: Equipment used exclusively in the growing of agricultural crops, or in the commercial raising of fowl or other animals. This exemption does not apply to an agricultural source, as defined in this Rule, that is:

114.1 A Major Stationary Source or Major Modification, as defined in Rule 502, NEW SOURCE REVIEW, or

114.2 A stationary source that emits in any 12-month period air contaminant emissions equal to or more than the following quantities of emissions:

- a. 50 percent of the major source thresholds for regulated air pollutants (excluding HAPs);
- b. 5 tons per year of a single HAP;
- c. 12.5 tons per year of any combination of HAPs; and
- d. 50 percent of any lesser threshold for a single HAP as the U.S. EPA may establish by rule.

115 EXEMPTION, COOLING SYSTEMS AND VACUUM CLEANING: Refrigeration, air conditioning, ventilating, or vacuum cleaning systems not designed to remove air contaminants generated by equipment which would require a permit under these rules and regulations.

116 EXEMPTION, COOLING TOWERS: Water cooling towers that have a circulation rate of less than 10,000 gallons per minute and which are not used for the cooling of process water, water from barometric jets, or water from barometric condensers.

117 EXEMPTION, STORAGE AND TRANSFER: Tanks, reservoirs, vessels or other containers and their associated dispensing, pumping and compression systems used exclusively for the storage of:

117.1 Liquefied or compressed gases.

117.2 Unheated organic materials with an initial boiling point of 150 degrees Celsius (302 degrees Fahrenheit) or greater, as determined by the testing procedure specified in Section 501.2, or with an organic vapor pressure of 5 mm Hg (0.1 psia) or less at 20°C, as determined by the testing procedure specified in Section 501.3.

117.3 Organic liquids with a vapor pressure of 77.5 mm Hg (1.5 psia) or less at 20°C, as determined by the testing procedure specified in Section 501.3, stored in containers having a capacity of 23,000 liters (6076 gallons or less). Equipment used exclusively for the transfer of organic liquids with a vapor pressure of 77.5 mm Hg (1.5 psia) at 20°C to or from storage.

117.4 Unheated solvent dispensing containers of 380 liters (100 gallons) capacity or less.

118 EXEMPTION, SURFACE COATING AND PREPARATION:

118.1 Water solution containing no more than two percent volatile organic compounds by weight for surface preparation, cleaning, stripping, etching (other than chemical milling) or the electrolytic plating with electrolytic polishing of, or the electrolytic stripping of brass, bronze, cadmium, copper, iron lead, nickel, tin, zinc, and precious metals.

118.2 Surface coating operations using a combined total of one gallon per day or less of coating material and solvent.

118.3 Unheated non-conveyorized solvent rinsing containers or unheated non-conveyorized coating dip tanks of 380 liters (100 gallons) capacity or less with an open surface area of one square meter (11 square feet) or less providing no more than 25 gallons of solvent are evaporated or lost to the atmosphere from all such equipment per calendar year.

119 EXEMPTION, FOOD PROCESSING: The following processing equipment for food or other human consumables and exhaust systems or collectors serving exclusively such equipment:

119.1 Used in eating establishments for the purpose of preparing food for human consumption.

119.2 Smokehouses in which the maximum horizontal inside cross sectional area does not exceed 2 square meters (21.5 square feet).

119.3 Mixers and blenders used in bakeries.

119.4 Confection cookers.

119.5 Used exclusively to grind, blend or package tea, cocoa, spices, or roasted coffee.

120 EXEMPTION, LABORATORY EQUIPMENT: Laboratory equipment used exclusively for chemical or physical analysis and bench scale tests, including associated vacuum-producing equipment.

121 EXEMPTION, REPAIRS AND MAINTENANCE: Repairs or maintenance not involving changes to any equipment for which a permit has been granted under Section 301 of this rule.

122 EXEMPTION, OTHER EQUIPMENT: Unless subject to the requirements of Rule 507, FEDERAL OPERATING PERMIT PROGRAM, other equipment authorized for exemption by the Air Pollution Control Officer and which would emit less than 2 pounds in any 24 hour period of any pollutants without the benefit of air pollution control devices.

200 DEFINITIONS: Unless otherwise defined below, the terms used in this rule are defined in Rule 502, NEW SOURCE REVIEW; Rule 504, EMISSIONS REDUCTION CREDITS; and Rule 102, DEFINITIONS; and apply in hierarchical order.

201 ADMINISTRATIVE PERMIT AMENDMENT: An amendment to a Permit to Operate which:

- 201.1 Corrects a typographical error; or
- 201.2 Identifies a minor administrative change at the stationary source; for example, a change in the name, address, or phone number of any person identified in the permit; or
- 201.3 Requires more frequent monitoring or reporting by a responsible official of the stationary source; or
- 202 AGRICULTURAL SOURCE OF AIR POLLUTION OR AGRICULTURAL SOURCE:** A source of air pollution or a group of sources used in the production of crops, or the raising of fowl or animals located on contiguous property under common ownership or control, including, but not limited to the following criteria:
- 202.1 Is a confined animal facility, including, but not limited to, any structure, building, installation, barn, corral, coop, feed storage area, milking parlor, or system for the collection, storage, treatment, and distribution of liquid and solid manure, if domesticated animals, including, but not limited to, cattle, calves, horses, sheep, goats, swine, rabbits, chickens, turkeys, or ducks are corralled, penned, or otherwise caused to remain in restricted areas for commercial agricultural purposes and feeding is by means other than grazing.
- 202.2 Is an internal combustion engine used in the production of crops or the raising of fowl or animals, including, but not limited to, an engine subject to Section 41750 of the California Health & Safety Code, except an engine that is used to propel implements of husbandry, as that term is defined in Section 36000 of the Vehicle Code, as that section existed on January 1, 2003.
- 203 ANNIVERSARY DATE:** The day and month of issuance of a Permit to Operate and that same day and month of each succeeding year.
- 204 APPLICABLE REQUIREMENTS:** Air quality requirements with which a facility must comply pursuant to the District's regulations, codes of California statutory law, the Federal Clean Air Act as amended in 1990 and implementing regulations, other provisions of the United States Code, and the Code of Federal Regulations.
- 205 AUTHORITY TO CONSTRUCT:** A preconstruction permit authorizing construction prior to the starting of construction and conforming to the requirements of Rule 502, NEW SOURCE REVIEW.
- 206 COMMENCE:** As applied to construction, means that the owner or operator has all of the necessary permits or approvals required under state and federal air quality control laws, District Rules and Regulations, and those air quality control laws and regulations which are part of the California State Implementation Plan, and has:
- 206.1 Begun, or caused to begin, a continuous program of on-site construction of the source, to be completed in a reasonable time; or
- 206.2 Entered into binding agreements or contractual obligations which cannot be canceled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.
- 207 CONTIGUOUS PROPERTY:** Two or more parcels of land with a common boundary or separated solely by a public roadway or other public right-of-way.

- 208 EMISSIONS UNIT:** An identifiable operation or piece of process equipment such as an article, machine, or other contrivance which controls, emits, may emit, or results in the emissions of any air pollutant directly or as fugitive emissions.
- 209 REGULATED POLLUTANT:** A pollutant for which an Ambient Air Quality Standard has been established by the EPA or by the California Air Resources Board (ARB), and the precursors to such pollutants.
- 210 RESPONSIBLE OFFICIAL:** An individual with the authority to certify that a source complies with all applicable requirements, including the conditions of permits issued to sources in accordance with Regulation 5, PERMITS. A "responsible official" means one of the following:
- 210.1** For a corporation, a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of such person if the representative is responsible for the overall operation of one or more manufacturing, production, or operating facilities applying for or subject to a permit and either:
 - 210.1.1** The facilities employ more than 250 persons or have gross annual sales or expenditures exceeding \$25 million (in second quarter 1980 dollars); or
 - 210.1.2** The delegation of authority to such representative is approved in advance by the Air Pollution Control Officer;
 - 210.2** For a partnership or sole proprietorship, a general partner or the proprietor, respectively; or
 - 210.3** For a municipality, state, federal, or other public agency, either a principal executive officer or a ranking elected official; or
 - 210.4** For an acid rain unit subject to Title IV (Acid Deposition Control) of the Clean Air Act, the "responsible official" is the designated representative of that unit for any purposes under Title IV and Rule 507, FEDERAL OPERATING PERMIT PROGRAM.
- 211 STARTUP:** means the setting in operation of a stationary source or emission unit for any purpose.
- 212 STATIONARY SOURCE (SOURCE OR FACILITY):** Any building, structure, facility, or emissions unit which emits or may emit any regulated pollutant directly or as fugitive emissions.
- 212.1** Building, structure, facility, or emissions unit includes all pollutant emitting activities which:
 - 212.1.1** Belong to the same industrial grouping; and
 - 212.1.2** Are located on one property or on two or more contiguous properties; and
 - 212.1.3** Are under the same or common ownership, operation, or control or which are owned or operated by entities which are under common control.

212.2 Pollutant emitting activities shall be considered as part of the same industrial grouping if:

212.2.1 They belong to the same two-digit standard industrial classification code under the system described in the 1987 Standard Industrial Classification Manual; or

212.2.2 They are part of a common production process. (Common production process includes industrial processes, manufacturing processes and any connected processes involving a common material.)

212.3 The emissions of cargo carriers associated with the stationary source shall be considered emissions from the stationary source to the extent that emission reductions from these cargo carriers are proposed as offsets.

213 TITLE V PERMITS: A permit issued, denied, renewed, amended, or reopened pursuant to Rule 507, FEDERAL OPERATING PERMIT PROGRAM, and the Federal Clean Air Act as amended in 1990 (42 U.S.C. Section 7401 et seq.), and Part 70 Code of Federal Regulations, "State Operating Permit Programs".

300 STANDARDS

301 AUTHORITY TO CONSTRUCT: Any person building, erecting, placing on site, altering or replacing any article, machine, equipment or other contrivance, the use of which may cause, eliminate, reduce, or control the issuance of air contaminants, shall first obtain authorization for such construction from the Air Pollution Control Officer (APCO) as specified in Section 403 of this rule. The emissions unit(s) shall not commence operation until the Air Pollution Control Officer takes final action to approve the Authority to Construct. After the emissions unit(s) commence operation, the Authority to Construct may remain in effect as a Temporary Permit to Operate until a Permit to Operate the equipment is granted or denied or the application is canceled.

301.1 An Authority to Construct, unless extended, shall expire no later than one year following the construction completion date given by the applicant, or no later than two years following the date of permit issuance, whichever occurs first.

301.2 If a written request to extend the Authority to Construct is received by the Air Pollution Control Officer prior to the expiration of the Authority to Construct, an extension may be granted for up to two years if the Air Pollution Control Officer determines that: (1) commencement of construction has occurred, and a good faith effort to complete the project has been made; and (2) the parameters of the project remain the same as in the initial application.

301.3 The Air Pollution Control Officer shall be notified of the anticipated date of initial startup or operation of any permitted emission unit.

301.4 The Air Pollution Control Officer shall be notified of the actual date of initial startup within five (5) days after such date.

302 PERMIT TO OPERATE: Any person operating an emission unit, shall first obtain a written permit from the Air Pollution Control Officer.

303 STANDARDS FOR GRANTING APPLICATIONS:

303.1 The Air Pollution Control Officer shall deny an Authority to Construct or Permit to Operate, except as provided in Rule 502, NEW SOURCE REVIEW, if the

applicant does not show that every emission unit is so designed, controlled, equipped, and operated with such air pollution control equipment that it may be shown to operate without emitting or without causing to be emitted air contaminants in violation of these rules and regulations or of such state or federal statutes as may be enforceable by the Air Pollution Control Officer on the date the application is deemed complete.

303.2 No Permit to Operate shall be granted, either by the Air Pollution Control Officer or the Hearing Board, for any emission unit which has been constructed or installed without authorization as required by Section 301 of this rule, until:

303.2.1 The information necessary to enable the Air Pollution Control Officer to make the determination required by Section 303 of this rule and Rule 502, NEW SOURCE REVIEW is presented to the Air Pollution Control Officer; and

303.2.2 Such emission unit is altered, if necessary, and made to conform to the standards set forth in Section 303 of this rule, elsewhere in these rules and regulations, and in the California Health and Safety Code.

303.3 In acting upon a Permit to Operate, if the Air Pollution Control Officer finds that the emission unit has not been constructed in accordance with the Authority to Construct, he or she shall deny the Permit to Operate. The Air Pollution Control Officer shall not accept any further application for a Permit to Operate the emission unit so constructed until he or she finds that the emission unit has been reconstructed in accordance with the Authority to Construct.

303.4 The Air Pollution Control Officer shall require enforceable emission limitations as permit conditions in Authorities to Construct and Permits to Operate to assure the permanence of surplus actual emissions reductions applied for use as internal reductions or emission reduction credits in accordance with Rule 502, NEW SOURCE REVIEW and Rule 504, EMISSION REDUCTION CREDITS.

303.5 The Air Pollution Control Officer shall determine that an applicant for an authority to construct or modify a potential source of air contaminants located within 1,000 feet from the outer boundary of a school has complied with the applicable requirements of California Health and Safety Code Section 42301.6, preparation and distribution of a public notice, prior to approving an application for an Authority to Construct permit.

303.6 Approval to construct shall not relieve any owner or operator of the responsibility to comply fully with all applicable requirements, including applicable provisions of the California State Implementation Plan, District Rules and Regulations, or State or Federal law.

303.7 The Air Pollution Control Officer shall require the applicant, as a condition of the Authority to Construct, to comply with the requirements of California Health and Safety Code Part 6, (Section 44300 et seq.), Air Toxics "Hot Spots" Information and Assessment Act.

304 PROVISION OF SAMPLING AND TESTING FACILITIES: In addition to the monitoring and testing required to comply with state or federal laws or regulations, the Air Pollution Control Officer may, upon reasonable written notice or before an Authority to Construct or Permit to Operate is granted, require the applicant or the owner or operator of any emission unit to:

- 304.1 Provide and maintain such facilities as are necessary for sampling and testing purposes in order to secure information that will disclose the nature, extent, quantity or degree of air contaminants discharged into the atmosphere from the equipment in question. In the event of such a requirement, the Air Pollution Control Officer shall notify the applicant in writing of the required size, number and location of sampling holes; the size and location of the sampling platform; the access to the sampling platform; and the utilities for operating the sampling, testing, and air monitoring equipment. Such platform and access shall be constructed in accordance with the applicable General Industry Safety Orders of the State of California.
- 304.2 Provide and maintain sampling and monitoring apparatus to measure emissions of air contaminants.
- 304.2.1 Continuous emission monitoring systems, as a minimum, shall be installed to meet the performance specifications required, by Section 502 of this rule.
- 304.2.2 A violation of emission standards of these rules, as shown by the continuous emission monitoring system, shall be reported by the owner or operator to the Air Pollution Control Officer within 96 hours, or such earlier time as may be required by Rule 404, UPSET CONDITIONS, BREAKDOWN AND SCHEDULED MAINTENANCE.
- 304.2.3 In the event of a breakdown of monitoring equipment, the owner or operator shall notify the Air Pollution Control Officer within 48 hours and shall initiate repairs. The owner or operator shall inform the Air Pollution Control Officer of the intent to shutdown any monitoring equipment at least 24 hours prior to the event.
- 304.2.4 Compliance with the subsections above, does not exempt the owner or operator from applicable provisions of Rule 404, UPSET CONDITIONS, BREAKDOWN AND SCHEDULED MAINTENANCE, the emergency provisions of Rule 507, FEDERAL OPERATING PERMIT PROGRAM, pursuant to 40 CFR 70.6(g), or the separate reporting requirements of other federal regulations to which the stationary source or emissions unit is subject.
- 304.3 If the Air Pollution Control Officer determines that technological or economic limitations on the application of measurement methodology to a particular class of sources would make the imposition of a numerical emission standard infeasible, the Air Pollution Control Officer may instead prescribe a design, operational, or equipment standard. In such cases, the Air Pollution Control Officer may require the installation or modification of process monitoring devices such that the design characteristics or equipment will be properly maintained, or that the operational conditions will be properly performed, so as to continuously achieve the assumed degree of control. To the extent applicable, reporting requirements for process monitors shall be the same as for continuous emission monitoring systems.
- 304.4 A person operating or using a continuous emission monitoring system shall, upon written notice from the Air Pollution Control Officer, provide a summary of the data obtained from such systems. This summary of the data shall be in the form and manner prescribed by the Air Pollution Control Officer. The summary of data shall be available for public inspection at the office of the Air Pollution Control District. Records from the monitoring equipment shall be kept by the owner or

operator for a period of five (5) years, during which time they shall be available to the Air Pollution Control Officer in such form as he or she directs.

305 TRANSFER: An Authority to Construct or Permit to Operate shall only be transferable, whether by operation of law or otherwise, either from one location to another, from one piece of equipment to another, or from one person to another by means of an application for authorization in accordance with Section 403 of this rule.

306 PERMIT RENEWAL: Every Permit to Operate, except as specified below, shall be renewable annually on the permit's anniversary date, commencing one (1) year after the date of issuance.

306.1 Action to suspend or revoke the permit has been initiated and such action has resulted in a final determination to suspend or revoke the permit by the Air Pollution Control Officer or the Hearing Board and all appeals, or time for appeals, has been exhausted.

306.2 Fees applicable to the renewal of the permit(s) to operate have not been paid, as specified in Regulation 6, FEES.

306.3 The Air Pollution Control Officer shall review every Permit to Operate upon annual renewal, pursuant to Health and Safety Code Section 42301(e), to determine that permit conditions are adequate to ensure compliance with, and the enforceability of, District Rules and Regulations and state and federal laws and regulations applicable to the emission unit for which the permit was issued. Applicable District Rules and Regulations shall include those which were in effect at the time the permit was issued or modified, or which have subsequently been adopted and made retroactively applicable to an existing emission unit by the District Board of Directors. The Air Pollution Control Officer shall revise the conditions, if such conditions are not consistent, in accordance with these rules, regulations, and laws.

306.4 The Air Pollution Control Officer may establish an annual permit renewal date for all Permits to Operate held by a stationary source. Thereafter, Permits to Operate shall be renewable that same day and month of each succeeding year, subject to any other requirements of these Rules and Regulations and of state law, regarding validity, voiding or revocation of permits.

307 PERFORMANCE TESTING: Within sixty (60) days after achieving the maximum production rate or the maximum rate of emissions to which the source is limited by enforceable conditions, but not later than one hundred eighty (180) days after initial startup of such source, or as otherwise required by the Air Pollution Control Officer to determine continuous compliance with emission limitations or to confirm emission reductions claimed, the owner or operator of such source shall conduct performance test(s) in accordance with methods and under operating conditions as are approved by the Air Pollution Control Officer and furnish the Air Pollution Control Officer a written report of the results of such performance test(s) within 60 days of completion of such tests..

307.1 Such test(s) shall be at the expense of the owner or operator.

307.2 Testing shall be conducted with the source(s) of emissions operating at maximum capacity or other rate conforming to the maximum rate of emissions to which the source(s) are limited by enforceable condition(s).

- 307.3 The Air Pollution Control Officer may monitor such test and may also conduct performance tests.
- 307.4 The owner or operator of a source shall provide the Air Pollution Control Officer prior notice of the performance test to afford the Air Pollution Control Officer the opportunity to have an observer present. Notice shall be at least 15 days prior to the test, or as agreed to by the Air Pollution Control Officer.
- 307.5 The Air Pollution Control Officer may waive the requirement for performance tests if the owner or operator of a source has demonstrated by other means to the Air Pollution Control Officer's satisfaction that the source is being operated in compliance with all local, state, and federal regulations which are part of the California State Implementation Plan.

400 ADMINISTRATIVE REQUIREMENTS

- 401 POSTING:** A person who has been granted a Permit to Operate any emission unit described in Section 302 of this rule shall maintain a legible copy of said permit on the premises of the subject equipment. Other information, analysis, plans or specifications which disclose the nature, extent, quantity, or degree of air contaminants which are or may be discharged from such source shall be readily available for inspection by the Air Pollution Control Officer.
- 402 ALTERING OF PERMIT:** A person shall not willfully deface, alter, forge, counterfeit, or falsify a Permit to Operate any emission unit described in Section 302 of this rule. A permit amendment or revision requested by the owner or operator, other than an administrative permit, shall require the filing of an application. For an administrative permit amendment, a responsible official may implement the change addressed in the written request immediately upon submittal of the request. The Air Pollution Control Officer shall take final action no later than sixty (60) days after receiving the written request for an administrative permit amendment.
- 402.1 After verifying that the permit revision is an administrative permit amendment, the Air Pollution Control Officer may revise the permit without providing notice to the public or any affected state.
- 402.2 The Air Pollution Control Officer shall provide a copy of the revised permit to the responsible official
- 402.3 While the Air Pollution Control Officer need not make a completeness determination on a written request, the Air Pollution Control Officer shall notify the responsible official if the Air Pollution Control Officer determines that the permit cannot be revised as an administrative permit amendment.
- 403 APPLICATIONS:** An application for an Authority to Construct, Permit to Operate, change of ownership, or an application for a permit amendment, permit reopening, or revision shall be filed in the manner and form prescribed by the Air Pollution Control Officer, and shall give all the information necessary to enable the Air Pollution Control Officer to make the determinations required by Section 303 of this rule and other applicable District Rules and Regulations and state and federal laws and regulations.
- 403.1 A responsible official representing the owner or operator shall certify the truth, accuracy and completeness of application forms.
- 403.2 When the information submitted with the application is insufficient for the Air Pollution Control Officer to make the required determinations, upon the written

request of the Air Pollution Control Officer a responsible official shall supplement any complete application with additional information within the time frame specified by the Air Pollution Control Officer.

403.3 A responsible official shall promptly provide additional information in writing to the Air Pollution Control Officer upon discovery of submittal of any inaccurate information as part of the application or as a supplement thereto, or of any additional relevant facts previously omitted which are needed for accurate analysis of the application.

403.4 Intentional or negligent submittal of inaccurate information shall be reason for denial of an application.

403.5 An application for an Authority to Construct, Permit to Operate, or permit amendment or revision shall be accompanied by payment of the application filing fee specified in Regulation 6, FEES.

404 ACTION ON APPLICATIONS: The Air Pollution Control Officer shall notify the applicant in writing of his or her approval, conditional approval, suspension, or denial of the application for an Authority to Construct or Permit to Operate.

404.1 In the event said notification or notification of application completeness pursuant to Rule 502, NEW SOURCE REVIEW, is not received by applicant within 30 days of the filing of the application, or within 30 days of providing further information as required by Section 403, the applicant may, at his or her option, deem the application to construct or Permit to Operate denied.

404.2 Service of said notification may be made in person or by mail, and such service may be proved by the written acknowledgment of the person(s) served or affidavit of the person making the service.

405 CONDITIONAL APPROVAL: The Air Pollution Control Officer may issue an Authority to Construct or a Permit to Operate subject to conditions which will bring the operation of the emission unit within the standards of Section 303 of this rule. The conditions shall be specified in writing. Commencing work under such an Authority to Construct, or operation under such a Permit to Operate, shall be deemed acceptance of all the conditions so specified. The Air Pollution Control Officer shall issue an Authority to Construct or a Permit to Operate with revised conditions upon receipt of a new application, if the applicant demonstrates that the emission unit can operate under the revised conditions within the standards of Section 303 of this rule.

406 DENIAL OF APPLICATION: In the event of a denial of an Authority to Construct or Permit to Operate, the Air Pollution Control Officer shall notify the applicant in writing of the reasons therefore. Service of this notification may be made in person or by mail, and such service may be proved by the written acknowledgment of the person(s) served or affidavit of the person making the service. The Air Pollution Control Officer shall not accept a further application unless the applicant has complied with the objections specified by the Air Pollution Control Officer as his or her reasons for denial of the Authority to Construct or the Permit to Operate.

407 DISCLOSURE: The Air Pollution Control Officer, at any time, may require from an applicant, or holder of, any permit provided for in these rules and regulations, such information, analyses, plans, or specifications which will disclose the nature, extent, quality, or degree of air contaminants which are, or may be, discharged by the source for which the permit was issued or applied. The Air Pollution Control Officer may require that such disclosures be certified by a professional engineer registered in the State of

California. A responsible official representing the owner or operator shall certify the truth, accuracy and completeness of disclosures. Studies necessary to provide such information shall be at the expense of the owner or operator of the source for which a permit was issued or applied.

408 EMISSION STATEMENT: Upon the request of the Air Pollution Control Officer and as directed by the Air Pollution Control Officer, the owner or operator of any stationary source operation which emits or may emit oxides of nitrogen or reactive organic gas shall provide the Air Pollution Control Officer with a written statement, in accordance with Rule 503, EMISSION STATEMENT, showing actual emissions of oxides of nitrogen and reactive organic gas from that source.

409 SUSPENSION: The Air Pollution Control Officer may suspend a permit if a holder of such permit willfully fails and refuses to furnish information, analyses, plans, and specifications, within a reasonable time, as requested by the Air Pollution Control Officer pursuant to California Health and Safety Code Section 42303, District Rules and Regulations, or any other law, rule, regulation, agreement, or order enforceable by the District. The Air Pollution Control Officer shall serve notice, in writing, of such suspension and the reasons therefore. Service of said notification may be made in person or by mail, and such service may be proved by the written acknowledgment of the persons served or affidavit of the person making the service. The permit shall be reinstated when the Air Pollution Control Officer is furnished with all requested information, analyses, plans, and specifications.

410 CANCELLATION OF APPLICATION: An Authority to Construct or Permit to Operate application may be canceled by the Air Pollution Control Officer:

410.1 At the request of the applicant; or

410.2 If additional information has been requested of the applicant in accordance with Section 403 without the subsequent submittal of information within a reasonable time.

410.3 If applicable permit fees of Rule 601, PERMIT FEES are not paid when due the application may be cancelled and any issued Authority to Construct or Permit to Operate may be voided.

411 CANCELLATION OF PERMIT TO OPERATE: If, prior to the surrender of the operating permit, the Air Pollution Control Officer determines that the source or the emissions unit has been removed or fallen into an inoperable or un-maintained condition, the Air Pollution Control Officer may notify the owner of the intent to cancel the permit, providing the owner or operator with 30 days to respond. If the owner cannot demonstrate to the satisfaction of the Air Pollution Control Officer that the owner intended to operate again, or the owner does not respond within 30 days from the date a second noticing of the District's intent to cancel the permit is mailed by the District to the owner or operator, then the Air Pollution Control Officer may cancel the permit and deem the source or emissions unit shutdown as of the last known date the source or emissions unit discharged emissions.

411.1 The owner or operator may request an extension of time, in writing prior to the end of the sixty (60) day period following the initial notice, from the Air Pollution Control Officer.

411.2 The Air Pollution Control Officer may grant an extension of time not to exceed ninety (90) days.

411.3 The owner or operator may claim emissions reductions resulting from the shutdown in accordance with the provisions of Rule 504, EMISSION REDUCTION CREDITS, prior to the end of the sixty (60) day period following the initial notice, or prior to the expiration of an extension.

411.4 The Air Pollution Control Officer shall advise, in writing, the owner or operator of the stationary source or emissions unit for which a permit is canceled of the cancellation decision.

411.5 The owner or operator may appeal the decision to cancel the permit pursuant to Section 413 of this rule.

412 TEMPORARY PERMIT: The Air Pollution Control Officer may issue a temporary Permit to Operate. The temporary Permit to Operate shall specify a reasonable period of time during which the emission unit may be operated in order for the District to determine whether it will operate in accordance with the conditions specified in the permit.

413 APPEALS: Within ten days after notice, by the Air Pollution Control Officer, of cancellation, suspension, denial, or conditional approval of an Authority to Construct, Permit to Operate, or emissions reduction credit application, the applicant or any other aggrieved person who participated in the permit issuance proceedings may petition the Hearing Board, in writing, for an order modifying or reversing that decision. The Hearing Board after public notice and a public hearing held within thirty days after filing the petition, may sustain or reverse the action of the Air Pollution Control Officer; such order may be made subject to specified conditions.

500 MONITORING AND RECORDS

501 TESTING PROCEDURES:

501.1 General Requirements: Except as otherwise specified in the District Rules and Regulations, the State Implementation Plan, and the applicable federal requirements of Rule 507, FEDERAL OPERATING PERMIT PROGRAM, testing methods for determining compliance with emission limits shall be:

501.1.1 The appropriate methods adopted by the California Air Resources Board and cited in Title 17, California Code of Regulations, Division 3, Subchapter 8, Compliance with Non-vehicular Emission Standards; or

501.1.2 The appropriate methods of 40 CFR part 50, Appendix M, Recommended Test Methods for State Implementation Plans; or

501.1.3 Any appropriate method of 40 CFR part 60, Appendix A, Test Methods; or

501.1.4 An alternative method following review and approval of that method by the California Air Resources Board and US Environmental Protection Agency.

501.2 Initial Boiling Point: ASTM D-1078-86, "Test Method for Distillation Range of Volatile Organic Liquids".

501.3 Vapor Pressure: ASTM D-2879-86, "Vapor Pressure-Temperature Relation and Initial Decomposition Temperature of Liquids by Isoteniscope".

502 MONITORING: As applicable, each emission source subject to the requirements of Section 301 and 302 shall comply with the following monitoring requirements:

502.1 The requirements of Title 40, Code of Federal Regulations, Part 60, Appendix B and F.

502.2 The applicable federal requirements for monitoring of Title V of the Federal Clean Air Act as amended in 1990 (42 U.S.C. Section 7401 et seq.).

503 RECORDKEEPING:

503.1 The following records shall be maintained and provided to the Air Pollution Control Officer upon request.

503.1.1 Emissions monitoring and process data records necessary for the determination and reporting of emissions, in accordance with applicable provisions of the District Rules and Regulations, shall be maintained. Records shall be kept for at least two years and shall be kept 5 years for sources subject to the applicable requirements of Title V and Rule 507, FEDERAL OPERATING PERMIT PROGRAM.

503.1.2 Other records of the nature and amounts of emissions or any other information as may be deemed necessary by the Air Pollution Control Officer to determine whether the stationary source or emissions unit is in compliance with applicable emission limitations, credited emission reductions, exemptions from rule provisions, or other requirements. The information must include emission measurements, continuous emission monitoring system performance testing measurements, performance evaluations, calibration checks and adjustments, maintenance performed on such monitoring systems, and other records and reports required by Title 40, Code of Federal Regulations, Part 60, Appendix B and F.

503.1.3 Operation and maintenance plans shall be submitted to the District for all add-on capture and control equipment for review and approval by the Air Pollution Control Officer. Such plans shall demonstrate, though the use of specific recordkeeping requirements, continuous operation of the add-on control equipment when emission producing operations are occurring. The plan shall also specify records to be kept to document the performance of required periodic maintenance. Records shall be consistent with compliance time frames and employ the most recent US Environmental Protection Agency recordkeeping guidance.

503.2 The Air Pollution Control Officer may require recordkeeping to verify or maintain any exemption.

RULE 502 NEW SOURCE REVIEW

Adopted 11-12-74

(Amended 05-24-77, 06-19-79, 09-21-93, 11-03-94, 08-09-01, 12-09-04,
rescinded and re-adopted 2-11-10, amended 10-13-11, 8-8-13)

- 601 RECORDKEEPING

100 GENERAL

101 PURPOSE: The purpose of this rule is to provide for the review of new and modified stationary air pollution sources and to provide mechanisms, including emission offsets, by which authorities to construct for such sources may be granted without interfering with the attainment or maintenance of ambient air quality standards.

102 APPLICABILITY: This rule shall apply to all new stationary sources and emissions units and all modifications to existing stationary sources and emissions units that, after construction, emit or may emit any NSR regulated pollutant within the District.

If any source or modification becomes a major source or major modification solely by virtue of the relaxation of any limitation that was established after August 7, 1980, on the capacity of the source or modification to emit a federal nonattainment pollutant or its precursor such as a restriction on hours of operation, then the requirements of this rule shall apply to such a source or modification as though construction had not yet commenced on the source or modification.

This rule shall not apply to prescribed burning of forest, agriculture or range land; open burning in accordance with District Regulation 3, OPEN BURNING; road construction, or any non-point source common to timber harvesting or agricultural practices.

The regulations in effect at the time any application for an Authority to Construct for a new or modified source is deemed complete shall apply to that source except when a new federal requirement not yet incorporated into this Rule applies to the new or modified source.

103 PUBLIC NOTIFICATION REQUIREMENTS: The public notice requirements of Sections 406 and 407 shall apply if the project is for a new or modified stationary source or emissions unit for which offsets are required pursuant to Section 303.1, and to all new or modified stationary sources that are projected to emit increased actual lead emissions at a rate of 5 tons per year or greater.

200 DEFINITIONS: The following definitions apply for all terms used in this Rule. If a term is not defined below, then the definitions provided in Rule 102, DEFINITIONS, and Rule 504, EMISSIONS REDUCTION CREDITS, apply in that hierarchical order.

201 ACTUAL EMISSIONS: Emissions having occurred from a source, based on source test and actual fuel consumption or process data, or monitoring data. If source test or monitoring data is not available, other appropriate, APCO-approved, emission factors may be used. Fugitive emissions associated with the emissions unit shall be included in the actual emissions of the emissions unit.

202 ACTUAL EMISSIONS REDUCTIONS (AER): The decrease of actual emissions, compared to Baseline Actual Emissions, from an emissions unit. AER shall be real, federally enforceable, quantifiable, surplus, and permanent.

203 ACTUAL INTERRUPTIONS OF ELECTRICAL POWER: When electrical service is interrupted by an unforeseeable event.

204 ALLOWABLE EMISSIONS: The emissions rate of a stationary source calculated using the maximum rated capacity of the source (unless the source is subject to federally enforceable limits which restrict the operating rate, hours of operation, or both) and the most stringent of the following:

204.1 Any applicable standards set forth in these regulations and 40 CFR Part 60, 61, or 63;

- 204.2 Any applicable emission limitation in the State Implementation Plan (SIP), including those with a future compliance date; or
- 204.3 The emissions rate specified as a federally enforceable permit condition, including those with a future compliance date.
- 205 AMBIENT AIR QUALITY STANDARDS:** There are both State and federal ambient air quality standards. For the purpose of submittal to the U.S. Environmental Protection Agency for inclusion in the California State Implementation Plan all references in this rule to Ambient Air Quality Standards shall be interpreted as National Ambient Air Quality Standards.
- 206 BASELINE ACTUAL EMISSIONS (BAE):**
- 206.1 "Baseline Actual Emissions" are the actual emissions for the existing emissions unit averaged over the consecutive two (2) year period immediately preceding the date of the application. If the last two years are unrepresentative of normal source operations as determined by the APCO, then any other 2 consecutive year period during the last five years which the APCO determines represents normal source operations may be used.
- 206.2 If, at any time during the 2 year period, actual emissions exceeded allowable emission levels, then actual emissions shall be reduced to reflect emission levels that would have occurred if the unit were in compliance with all applicable limitations and rules.
- 206.3 Where an emissions unit has been in operation for less than 2 years, a shorter averaging period of at least 12 months may be used, provided that the averaging period is representative of the full operational history of the emissions unit. If less than 12 months has passed since the date of issuance of the Permit to Operate then Actual Emissions shall be used as the Baseline Actual Emissions.
- 207 BEGIN ACTUAL CONSTRUCTION:** Initiation of physical on-site construction activities on an emissions unit which is of a permanent nature. Such activities include, but are not limited to, installation of building supports and foundations, laying of underground pipe work, and construction of permanent storage structures. With respect to a change in method of operation that does not involve a physical change, this term refers to those on-site activities, other than preparatory activities, which mark the start of the change in the method of operation.
- 208 BEST AVAILABLE CONTROL TECHNOLOGY (BACT):** The most stringent emission limitation or control technique of the following:
- 208.1 Achieved in practice for such category and class of source; or
- 208.2 Contained in any SIP approved by the EPA for such category and class of source. A specific limitation or control technique shall not apply if the owner of the proposed emissions unit demonstrates to the satisfaction of the APCO that such a limitation or control technique is not presently achievable; or
- 208.3 Contained in an applicable federal New Source Performance Standard; or
- 208.4 Any other emission limitation or control technique, including process and equipment changes of basic or control equipment, found by the APCO to be cost effective and technologically feasible for such class or category of sources.

- 209 CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):** The California Environmental Quality Act, Public Resources Code, Section 21000, et seq.
- 210 CLASS I AREA:** Any area listed as Class I in 40 CFR 81.405 or an area otherwise specified as Class I in the legislation that creates a national monument, a national primitive area, a national preserve, a national recreational area, a national wild and scenic river, a national wildlife refuge, a national lakeshore or seashore. The only designated Class I area within 20 miles of Placer County as of October 13, 2011 was Desolation Wilderness Area in El Dorado County.
- 211 COMMENCE:** As applied to construction of a major stationary source or major modification means that the owner or operator has all necessary preconstruction approvals or permits and either has:
- 211.1 Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time; or
- 211.2 Entered into binding agreements or contractual obligations, which cannot be canceled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.
- 212 CARGO CARRIERS:** Cargo carriers are trains dedicated to a specific source.
- 213 CONSTRUCTION:** Means any physical change or change in the method of operation (including fabrication, erection, installation, demolition, or modification of an emissions unit) which would result in a change in actual emissions.
- 214 CONTIGUOUS PROPERTY:** Two or more parcels of land with a common point or boundary or separated solely by a public roadway or other public right-of-way.
- 215 COST-EFFECTIVE:** A cost per unit of emissions reduction which is lower than or equivalent to the maximum unit costs of the same emissions reduction through the use of Best Available Control Technology, calculated in current year dollars, in accordance with methodology and criteria specified in guidelines developed by the District.
- 216 EMERGENCY ENGINES:** A stationary engine that meets the criteria specified below:
- 216.1 It is installed for the primary purpose of providing electrical power or mechanical work for emergency use and is not the source of primary power at the facility; and
- 216.2 It is operated to provide electrical power or mechanical work during any emergency use; and
- 216.3 It is operated no more than 100 hours per year for maintenance and testing, emissions testing or initial start-up testing. Diesel engines may be further limited by the California Air Resources Board's Airborne Toxic Control Measure for Stationary Compression Engines in Section 93115.6(a)).
- 217 EMERGENCY USE:** The providing of electrical power or mechanical work during any of the following events.
- 217.1 The failure or loss of all or part of normal electrical power service or normal natural gas supply to the facility, or the failure of a facility's internal power distribution system:

- 217.1.1 Which is caused by any reason other than the adherence to a contractual obligation the owner or operator has with a third party or any other party; and
- 217.1.2 Which is demonstrated by the owner or operator, to the APCO's satisfaction, to have been beyond the reasonable control of the owner or operator.
- 217.2 The pumping of water or sewage to prevent or mitigate a flood or sewage overflow.
- 217.3 The pumping of water for fire suppression or protection.
- 217.4 The powering of ALSF-1 or ALSF-2 airport runway lights under category II or III weather conditions.
- 217.5 The pumping of water to maintain pressure in the water distribution system for the following reasons:
 - 217.5.1 A pipe break that substantially reduces water pressure; or
 - 217.5.2 High demand on the water supply system due to high use of water for fire suppression; or
 - 217.5.3 The breakdown of electric-powered pumping equipment at sewage treatment facilities or water delivery facilities.
- 217.6 The emergency operation of ski lifts during an actual interruption of normal electrical power service to the facility.
- 218 EMISSION DECREASE:** Any modification that would result in an emission decrease of actual emissions.
- 219 EMISSION REDUCTION CREDITS (ERC):** Reductions of actual emissions from emission units that are certified by an air district in accordance with that district's rules and are issued by the air district in the form of ERC certificates.
- 220 EMISSIONS LIMITATION:** One or more federally enforceable permit conditions specific to an emissions unit that restricts its maximum emissions, at or below the emissions associated with the maximum design capacity; and that is contained in the latest Authority to Construct or enforceable by the latest Permit to Operate for the emission unit.

Emissions limitations should be stated in a manner consistent with testing procedures. They may be expressed as an enforceable design, operational, or equipment standard.
- 221 EMISSIONS UNIT:** An identifiable operation or piece of process equipment such as an article, machine, or other contrivance which controls, emits, may emit, or results in the emissions of any air pollutant directly or as fugitive emissions.
- 222 FEDERALLY ENFORCEABLE:** All limitations and conditions which are enforceable by the EPA administrator, including those requirements developed pursuant to 40 CFR parts 60, 61 and 63, requirements within the California State Implementation Plan (SIP), any permit requirements established pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR part 51, subpart I, including operating permits issued under an EPA-approved program that is incorporated into the SIP and expressly requires adherence to any permit issued under such program.

- 223 FUGITIVE EMISSIONS:** Those emissions that could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening.
- 224 FUNCTIONALLY EQUIVALENT EMISSION UNIT:** An emission unit that serves the identical function as the unit being replaced. The maximum rating and the potential to emit any pollutant shall not be greater from the functionally equivalent emission unit than the replaced unit. The emission increase from any such replacement shall not result in a major modification.
- 225 HALOGENATED HYDROCARBONS:** For the purposes of this rule, halogenated hydrocarbons are the following:
- 225.1 1,1,1-trichloroethane
 - 225.2 methylene chloride
 - 225.3 2,2-dichloro-1,1,1-trifluoroethane (HCFC-123)
 - 225.4 2-chloro-1,1,1,2-tetrafluoroethane (HCFC-124)
 - 225.5 trichlorofluoromethane (CFC-11)
 - 225.6 dichlorodifluoromethane (CFC-12)
 - 225.7 1,1,1-trichloro-2,2,2-trifluoroethane (CFC-113)
 - 225.8 1-chloro-1,1-difluoro-2-chloro-2,2-difluoroethane (CFC-114)
 - 225.9 chloropentafluoroethane (CFC-115)
 - 225.10 pentafluoroethane (HFC-125)
 - 225.11 1,1,2,2-tetrafluoroethane (HFC-134)
 - 225.12 tetrafluoroethane (HFC-134a)
 - 225.13 1,1-dichloro-1-fluoroethane (HCFC-141b)
 - 225.14 1-chloro-1,1-difluoroethane (HCFC-142b)
 - 225.15 1,1,1-trifluoroethane (HFC-143a)
 - 225.16 chlorodifluoromethane (HCFC-22)
 - 225.17 trifluoromethane (HFC-23)
 - 225.18 1,1-difluoroethane (HFC-152a)
 - 225.19 The following four classes of perfluorocarbon compounds:
 - a. Cyclic, branched, or linear, completely fluorinated alkanes.
 - b. Cyclic, branched, or linear, completely fluorinated ethers, with no unsaturations.
 - c. Cyclic, branched, or linear, completely fluorinated tertiary amines with no unsaturations.
 - d. Sulfur-containing perfluorocarbons with no unsaturations and with sulfur bonds only to carbon and fluorine.
 - e. Perfluorocarbon compounds will be assumed to be absent from a product or process unless a manufacturer or facility operator identifies the specific individual compounds (from the broad classes of perfluorocarbon compounds) and the amounts present in the product or process and provides a validated test method which can be used to quantify the specific compounds.
- 226 HAZARDOUS AIR POLLUTANT (HAP):** Any air pollutant listed pursuant to Section 112(b) of the Federal Clean Air Act as amended in 1990 (42 U.S.C. Section 7401 et seq.).
- 227 HISTORIC ACTUAL EMISSIONS (HAE):** Historic Actual Emissions shall be calculated for each pollutant.
- 227.1 For a new emissions unit Historic Actual Emissions are equal to zero.
 - 227.2 For an existing emissions unit, Historic Actual Emissions equals either, in hierarchical order;

227.2.1 The federally enforceable potential to emit (PTE) limit contained in the most recent Authority to Construct or Permit to Operate, if actual emissions are at least 80% of the permitted PTE limit, or

227.2.2 The federally enforceable PTE limit contained in the most recent Authority to Construct or Permit to Operate, if the emission unit was fully offset for any emission increases incurred since September 21, 1993, within the 5 year period prior to the date of application for the current project, or

227.2.3 The Baseline Actual Emissions.

- 228 IDENTICAL EMISSION UNIT:** A replacement emissions unit which is the same as the original unit in all respects except for serial number.
- 229 LAKE TAHOE AIR BASIN:** Established pursuant to Section 39606 of the Health & Safety Code of the State of California and as described in Title 17, California Code of Regulations, Section 60113 (b), the basin includes that portion of Placer County within the drainage area naturally tributary to Lake Tahoe including said Lake, plus that area in the vicinity of the head of the Truckee River described as follows: commencing at the point common to the aforementioned drainage area crest line and the line common to Townships 15 North and 16 North, Mount Diablo Base and Meridian (M.D.B. & M.), and following that line in a westerly direction to the northwest corner of Section 3, Township 15 North, Range 16 East, (M.D.B. & M.), thence south along the west line of Sections 3 and 10, Township 15 North, Range 16 East, M.D.B. & M., to the intersection with the drainage crest line, thence following the said drainage area boundary in a southwesterly, then northeasterly direction to and along the Lake Tahoe Dam, thence following the said drainage area crest line in a northeasterly, then northwesterly direction to the point of beginning. This Air Basin is delineated on an official map on file at the California Air Resources Board Headquarters Office.
- 230 MAJOR STATIONARY SOURCE – SACRAMENTO AIR BASIN:** A stationary source which emits or has the potential to emit: 25 tons per year (tpy) or more of nitrogen oxides or reactive organic compounds, or 100 tpy or more of sulfur oxides, or PM2.5. In addition, any physical change occurring at a stationary source not otherwise qualifying as a major stationary source, which would constitute a major stationary source by itself, makes the source a major stationary source.
- 231 MAJOR STATIONARY SOURCE – MOUNTAIN COUNTIES AIR BASIN:** A stationary source which emits or has the potential to emit 25 tons per year (tpy) or more of nitrogen oxides or reactive organic compounds. In addition, any physical change occurring at a stationary source not otherwise qualifying as a major stationary source, which would constitute a major stationary source by itself, makes the source a major stationary source.
- 232 MAJOR MODIFICATION:** A modification to a major stationary source in the Sacramento or Mountain Counties Air Basins which results in a significant emissions increase of the pollutant for which the source is classified as a major stationary source. For nitrogen oxides and reactive organic compounds, the increase shall be aggregated with all other increases and decreases in potential to emit over the period of the four consecutive years before the application for modification, plus the calendar year of the most recent application.
- 233 MODIFICATION:** Any physical change, change in method of operation (including change in fuel characteristics), addition to, or any change in hours of operation, or change in production rate of, which:

- 233.1 For an emissions unit: would necessitate a change in permit conditions, permit equipment description, or emissions limitation.
- 233.2 For a stationary source: is a modification of any emissions unit, or addition of any new emissions unit.
- 233.3 Unless previously limited by a permit condition and that permit condition must be changed, the following shall not be considered a modification:
- 233.3.1 A change in ownership.
- 233.3.2 Routine maintenance and repair, or an identical replacement.
- 233.3.3 The addition of a continuous emission monitoring system.
- 233.3.4 The replacement of air pollution control equipment with new control equipment if the actual emissions of the new equipment are less than or equal to those from the original piece of equipment and the replacement is not a major modification under the United States Environmental Protection Agency (EPA) regulations promulgated pursuant to Title I of the Federal Clean Air Act, including 40 CFR Part 51.
- 233.3.5 Use of an alternative fuel or raw material by reason of an order under Sections 2(a) and (b) of the Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation), or by reason of a natural gas curtailment plan pursuant to the Federal Power Act.
- 233.3.6 Use of an alternative fuel by reason of an order or rule under Section 125 of the Act.
- 233.4 A reconstructed stationary source or emissions unit shall be treated as a new stationary source or emissions unit, not as a modification.
- 234 MOUNTAIN COUNTIES AIR BASIN:** Established pursuant to Section 39606 of the Health & Safety Code of the State of California and as described in Title 17, California Code of Regulations, Section 60111 (I), the Mountain Counties Air Basin includes all of Placer County except that portion included in the Lake Tahoe Air Basin, defined by 17 CCR 60113(b), and that portion included in the Sacramento Valley Air Basin, defined by 17 CCR 60106(k).
- 235 NECESSARY PRECONSTRUCTION APPROVALS OR PERMITS:** Federal air quality control laws and regulations and those air quality control laws and regulations which are part of the SIP.
- 236 NONATTAINMENT POLLUTANT:** Any pollutant as well as any precursors of such pollutants which have been designated "nonattainment" by the U.S. Environmental Protection Agency as codified in 40 CFR 81.305, or which has been designated nonattainment by the California Air Resources Board pursuant to Section 39607 of the Health and Safety Code for specific air basins in Placer County.
- 237 NSR REGULATED POLLUTANT:** A pollutant for which an Ambient Air Quality Standard has been established by the EPA or by the California Air Resources Board (ARB), and the precursors to such pollutants, including, but not limited to, reactive organic compounds (ROC), nitrogen oxides (NOx), sulfur oxides (SOx), PM10, PM2.5, carbon monoxide (CO) and lead.

- 238 PM2.5:** Particulate matter with an aerodynamic diameter smaller than or equal to a nominal 2.5 microns. Gaseous emissions which condense to form PM2.5 shall also be counted as PM2.5.
- 239 PM10:** Particulate matter with an aerodynamic diameter smaller than or equal to a nominal 10 microns. Gaseous emissions which condense to form PM10 shall also be counted as PM10.
- 240 PORTABLE EQUIPMENT:** Equipment that is periodically relocated and is not operated more than a total of 180 days at any one location in the District within any continuous twelve (12) month period.
- 241 POTENTIAL TO EMIT (PTE):** The maximum physical and operational design capacity to emit an air pollutant. Any limitation on the physical or operational design capacity, including emission control devices and restrictions on hours of operation, or on the type, or amount of material combusted, stored, or processed, may be considered as part of the design only if the limitation, or the effect it would have on emissions, is incorporated into the Authority to Construct as a federally enforceable permit condition. Fugitive emissions associated with the emissions unit or stationary source shall be included in the potential to emit of the emissions unit or stationary source.
- 242 PRECURSOR:** A pollutant that, when emitted into the atmosphere, may undergo either a chemical or physical change which then produces another pollutant for which an Ambient Air Quality Standard has been adopted, or whose presence in the atmosphere will contribute to the violation of one or more Ambient Air Quality Standards. The following precursor-secondary air contaminant relationships shall be used for the purposes of this rule:

Precursor	Secondary Air Contaminant
Reactive Organic Compound	a. Photochemical oxidants (Ozone) b. Organic fraction of PM10
Nitrogen Oxides	a. Nitrogen dioxide b. Nitrate fraction of PM10 c. Nitrate fraction of PM2.5 d. Photochemical oxidants (Ozone)
Sulfur Oxides	a. Sulfur dioxide b. Sulfates c. Sulfate fraction of PM10 d. Sulfate fraction of PM2.5

- 243 PREVENTION OF SIGNIFICANT DETERIORATION (PSD):** A federal permitting program for new and modified major stationary sources of air pollution for pollutants that do not exceed National Ambient Air Quality Standards.
- 244 PRIORITY RESERVE BANK:** A depository for preserving emission reduction credits pursuant to Rule 505, PRIORITY RESERVE.
- 245 PROPOSED EMISSIONS:** Emissions based on the potential to emit for the new or modified emissions unit which will be incorporated into the permit as federally enforceable permit conditions.
- 246 QUARTERLY:** Calendar quarters beginning January 1, April 1, July 1, and October 1.
- 247 QUARTERLY EMISSION LIMITATION:** One or a combination of permit conditions specific to an emissions unit that restricts its maximum emissions, in pounds per quarter, at or below the emissions associated with the maximum design capacity. A quarterly emissions limitation must be:

- 247.1 Contained in the latest Authority to Construct or enforceable by the latest Permit to Operate for the emissions unit, and
- 247.2 Enforceable on a quarterly basis.
- 248 **REACTIVE ORGANIC COMPOUND:** For the purposes of this rule, reactive organic compound (ROC) has the same definition as volatile organic compound (VOC) in Rule 102, DEFINITIONS.
- 249 **RECONSTRUCTED SOURCE:** Any stationary source or emissions unit undergoing physical modification where the fixed capital cost of the new components exceeds 50 percent of the fixed capital cost of a comparable entirely new stationary source or emissions unit. Fixed capital cost means that capital needed to provide all the depreciable components. A reconstructed source shall be treated as a new stationary source or emissions unit.
- 250 **REDUCED SULFUR COMPOUNDS:** The sulfur compounds hydrogen sulfide, carbon disulfide and carbonyl sulfide.
- 251 **REPLACEMENT EMISSION UNIT:** An emissions unit for which all the criteria listed below are met. No creditable emission reductions shall be generated from shutting down the existing emissions unit that is replaced unless:
- 251.1 The emissions unit is a reconstructed unit within the meaning of 40 CFR 60.15(b)(1), or the emissions unit completely takes the place of an existing emissions unit, or
- 251.2 The emissions unit is an identical emission unit or a functionally equivalent emission unit, or
- 251.3 The replacement does not alter the basic design parameters of the process unit, and
- 251.4 The replaced emissions unit is permanently removed from the stationary source, otherwise permanently disabled, or permanently barred from operation by a permit that is federally enforceable. If the replaced emissions unit is brought back into operation, it shall constitute a new emissions unit.
- 252 **SACRAMENTO VALLEY AIR BASIN:** Established pursuant to Section 39606 of the Health & Safety Code of the State of California and as described in Title 17, California Code of Regulations, Section 60106(k), the basin includes that portion of Placer County which lies west of Range 9 east, Mount Diablo Base and Meridian (M.D.B. & M.).
- 253 **SIGNIFICANT:** In reference to an emissions increase or the potential of a source to emit any of the following pollutants, a rate of emissions that would equal or exceed any of the following rates:
- 253.1 Carbon monoxide: 100 tpy;
- 253.2 Nitrogen oxides: 25 tpy;
- 253.3 Sulfur dioxide: 40 tpy;
- 253.4 Ozone: 25 tpy of VOCs or 25 tpy of nitrogen oxides;
- 253.5 PM10: 15 tpy

- 253.6 PM2.5: 10 tpy of direct PM2.5 emissions or 40 tpy of sulfur dioxide emissions or 40 tpy of nitrogen oxide emissions
- 253.7 Lead: 0.6 tpy.
- 254 SIGNIFICANT EMISSIONS INCREASE:** For a regulated NSR pollutant, an increase in emissions that is significant for that pollutant.
- 255 STATIONARY SOURCE (SOURCE OR FACILITY):** Any building, structure, facility, or emissions unit that emits or may emit any NSR regulated pollutant directly or as fugitive emissions.
- 255.1 Building, structure, facility, or emissions unit includes all pollutant emitting activities which:
- 255.1.1 belong to the same industrial grouping, and;
- 255.1.2 are located on one property or on two or more contiguous properties, and;
- 255.1.3 are under the same or common ownership, operation, or control or which are owned or operated by entities which are under common control.
- 255.2 Pollutant emitting activities shall be considered as part of the same industrial grouping if:
- 255.2.1 they belong to the same two digit standard industrial classification code under the system described in the 1987 Standard Industrial Classification Manual, or;
- 255.2.2 they are part of a common production process. (Common production process includes industrial processes, manufacturing processes and any connected processes involving a common material.)
- 255.3 The emissions of cargo carriers associated with the stationary source shall be considered emissions from the stationary source to the extent that emission reductions from these cargo carriers are proposed as offsets.
- 256 STATIONARY SOURCE PTE:** The sum of the PTE for each emission unit which has been issued a Permit to Operate, Authority to Construct or for which an application has been submitted. Any fugitive emissions from such emission units shall be included in this calculation.
- 257 SURPLUS:** The amount of emission reductions that are, at the time of generation of an Emissions Reduction Credit (ERC), not otherwise required by federal, state, or local law, not required by any legal settlement or consent decree, and not relied upon to meet any requirement related to the California State Implementation Plan (SIP). However, emission reductions required by a state statute that provides that the subject emission reductions shall be considered surplus may be considered surplus for purposes of this Rule if those reductions meet all other applicable requirements.
- Examples of federal, state, and local laws, and of SIP-related requirements, include, but are not limited to, the following:
- 257.1 The federally-approved California SIP;

- 257.2 Other adopted state air quality laws and regulations not in the SIP, including but not limited to, any requirement, regulation, or measure that: (1) the District or the state has included on a legally-required and publicly-available list of measures that are scheduled for adoption by the District or the State in the future; or (2) is the subject of a public notice distributed by the District or the State regarding an intent to adopt such revision;
- 257.3 Any other source- or source-category specific regulatory or permitting requirement, including, but not limited to, Reasonable Available Control Technology (RACT), New Source Performance Standards (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAP), Best Available Control Measures (BACM), Best Available Control Technology (BACT), and the Lowest Achievable Emission Rate (LAER); and
- 257.4 Any regulation or supporting documentation that is required by the federal Clean Air Act but is not contained or referenced in 40 C.F.R. Part 52, including but not limited to: assumptions used in attainment and maintenance demonstrations (including Reasonable Further Progress demonstrations and milestone demonstrations), including any proposed control measure identified as potentially contributing to an enforceable near-term emissions reduction commitment; assumptions used in conformity demonstrations; and assumptions used in emissions inventories.
- 258 **TEMPORARY SOURCE:** Temporary emission sources such as pilot plants, and portable facilities which will be terminated or located outside the District after less than a cumulative total of 90 days of operation in any 12 continuous months.
- 259 **TOTAL REDUCED SULFUR COMPOUNDS:** The sulfur compounds hydrogen sulfide, methyl mercaptan, dimethyl sulfide and dimethyl disulfide.

300 STANDARDS

- 301 **EMISSION AND OFFSET CALCULATIONS:** The following provisions shall be used to calculate emission increases and decreases from all new and modified emissions units located at a stationary source.
- 301.1 **BACT – Emissions Increase:** The emissions increase for each emissions unit related to the project for the purposes of determining BACT applicability shall be calculated as the proposed emissions minus the Baseline Actual Emissions. Calculations shall be performed separately for each emissions unit for each calendar quarter.
- 301.2 **Offsets - Emissions Increase or Decrease:** The emissions increase or decrease for each emissions unit related to the project for the purposes of determining Offset applicability shall be calculated as the proposed emissions, minus the Historic Actual Emissions. Emission increases or decreases shall be calculated for each emission unit and the project as a whole.
- 301.3 **Project Emissions:** If a project consists of more than one emission unit, the total emissions from all emissions units shall be summed for each pollutant to determine the emissions increase for the project. The project includes the entire scope of the preconstruction application for a new or modified stationary source.
- 301.4 **Calculation Periods:** The emissions increase or decrease for a project shall be calculated on a daily, quarterly and annual basis for each pollutant.

- 301.5 Potential To Emit - Stationary Sources: The potential to emit of a new or modified stationary source shall be calculated as the sum of the potential to emit, including fugitive emissions, for all emissions units, based on emission limitations established by current Permits to Operate, Authorities to Construct where permits to operate have not been issued, and the pending application.
- 301.6 Quantity of Offsets Required For New Major Sources or Major Modifications: If offsets are required pursuant to Section 303.2, the quantity of offsets to be provided shall be determined by calculating the emission increase for the project and applying the appropriate offset ratio based on pollutant and location as specified in Section 303.3. The calculations shall be performed separately for each pollutant and each emissions unit for each calendar quarter.
- 301.7 Quantity of General (State) Offsets Required: If offsets are required pursuant to Section 303.1, the quantity of offsets to be provided shall be determined as follows:
- 301.7.1 If offsets have already been provided by a stationary source for a particular pollutant, then multiply the emission increase calculated for the project by the appropriate offset ratio based on pollutant and location as specified in Section 303.3, or
- 301.7.2 If no offsets have been provided previously by a stationary source for a particular pollutant, then subtract the offset threshold specified in Section 303.1 for that pollutant from the stationary source PTE and multiply the value by the appropriate offset ratio based on pollutant and location as specified in Section 303.3.
- 301.8 Quantity of Offsets Required For A Modification That Makes An Existing Source A Major Stationary Source: When the proposed modification will make an existing minor source a new major source, offsets required shall be calculated as the sum of proposed PTE for all emissions units installed after September 21, 1993 based on current permits to operate and Authority to Construct where permits to operate have not been issued, plus the pending application, minus offsets supplied since September 21, 1993. Calculations shall be performed separately for each pollutant and each emissions unit for each calendar quarter. The offset ratios of Section 303.3 shall be applied to determine the ERCs required.
- 302 REQUIREMENT TO APPLY BEST AVAILABLE CONTROL TECHNOLOGY:** An applicant shall apply Best Available Control Technology (BACT) to a new emissions unit or modification of an existing emissions unit, except cargo carriers, if the change would result in an increase in quarterly emissions of a NSR regulated pollutant from the new or modified emissions unit and if the PTE of the new or modified emissions unit equals or exceeds the levels specified below.

<u>Pollutant</u>	<u>lb/day</u>
Reactive organic compounds	10
Nitrogen oxides	10
Sulfur oxides	80
PM10	80
PM2.5	80
Carbon monoxide	550
Lead	3.3
Vinyl chloride	5.5
Sulfuric acid mist	38
Hydrogen sulfide	55

Total reduced sulfur compounds	55
Reduced sulfur compounds	55

303 OFFSET REQUIREMENTS

- 303.1 General Requirement to Provide Offsets: An applicant whose facility is located in the Sacramento Valley Air Basin or the Mountain Counties Air Basin shall provide offsets for a NSR regulated pollutant if the potential to emit of a new or modified source exceeds either of the threshold quantities listed below:

<u>Pollutant</u>	<u>Pounds per quarter</u>	<u>Tons per year</u>
Reactive organic compounds	5,000	10
Nitrogen oxides	5,000	10
Sulfur oxides	13,750	27.5
PM10	7,500	15
PM2.5	7,500	15
Carbon monoxide	49,500	99

- 303.2 Major Source or Major Modification Requirement to Provide Offsets: An applicant whose facility is located in the Sacramento Valley Air Basin or the Mountain Counties Air Basin, and whose project emissions will result in a new major source or major modification, shall provide offsets for each NSR regulated pollutant that constitutes a major source or major modification.

- 303.3 Location of Offsets and Offset Ratios: The applicable offset ratio shall be determined based on the location of the new or modified stationary source required to provide offsets and the distance to the location of the emission offsets, as indicated in the following table.

<u>Location of Offset</u>	<u>Offset Ratio</u>	<u>Offset Ratio</u>
	<u>NOx and ROC</u>	<u>Other Pollutants</u>
Same Source	1.0 to 1.0	1.0 to 1.0
Within 15-Mile radius and within the same air basin	1.3 to 1.0	1.2 to 1.0
Greater than 15-Miles but within 50-Mile radius within the same air basin	1.5 to 1.0	1.5 to 1.0
Greater than 50-Mile radius and within the same air basin	Greater than 1.5 to 1.0	Greater than 1.5 to 1.0

- 303.3.1 The APCO may impose, based on the air quality analysis, a higher offset ratio such that the new or modified stationary source will not prevent or interfere with the attainment or maintenance of any ambient air quality standard.

- 303.3.2 Applicants providing offsets obtained pursuant to Rule 505, PRIORITY RESERVE, shall be subject to an offset ratio of 1.2 to 1.0 for all pollutants, except NOx and VOC, at all distances. The offset ratio for NOx and VOC offsets obtained pursuant to Rule 505, PRIORITY RESERVE, shall be subject to an offset ratio of 1.3 to 1.0 at all distances.

303.4 General Offset Provisions

- 303.4.1 All offsets shall be real, surplus, federally enforceable, quantifiable and permanent.

- 303.4.2 All offsets provided for major sources and major modifications shall be surplus at the time ERCs are surrendered to the District.
- 303.4.3 All offsets shall be surrendered to the District prior to the initial startup of the new or modified source, and the offsets shall be maintained throughout the operation of the new or modified source which is the beneficiary of the offsets.
- 303.4.4 Offsets can only come from air basins with the same or worse air quality designations than that of the stationary source requiring the offsets.
- 303.4.5 In no case shall halogenated hydrocarbons, exempt compounds or any other compound excluded from the definition of reactive organic compounds, be used as offsets for reactive organic compounds.
- 303.4.6 For sources which have provided full offsets of total suspended particulate (TSP), the PM10 emissions from an existing stationary source shall be recalculated from the TSP emission increases and decreases which have occurred since December 31, 1976, using PM10 emission factors. When PM10 emission factors do not exist, it shall be assumed that 50% of the TSP is PM10.
- 303.5 Timing of Quarterly Emission Offsets: Sufficient offsets shall be provided, from the same calendar quarter as the proposed emission increase, with the following exceptions:
- 303.5.1 Emission reductions of reactive organic compounds or nitrogen oxides during the quarters starting April 1 or July 1 may be used to offset emission increases of the same pollutants during any calendar quarter.
- 303.5.2 Emission reductions of carbon monoxide during the quarters starting January 1 or October 1 may be used to offset emission increases of carbon monoxide during any calendar quarter.
- 303.5.3 Emission reductions of PM10 or PM2.5 during the quarters starting January 1 or October 1 may be used to offset emission increases of PM10 or PM2.5 during any calendar quarter.
- 303.5.4 Emission reductions of sulfur oxides during any quarter may be used to offset emission increases of sulfur oxides during any calendar quarter.
- 303.6 Interpollutant Offsets
- 303.6.1 The APCO may approve interpollutant offsets for precursor pollutants on a case by case basis, provided that the applicant demonstrates, through the use of an air quality model, that the emission increases from the new or modified source will not cause or contribute to a violation of an ambient air quality standard.
- 303.6.2 Interpollutant offsets between PM10 and PM10 precursors are allowed only if PM10 precursors contribute significantly to the PM10 levels that exceed the PM10 ambient standards.
- 303.6.3 PM10 emissions shall not be allowed to offset nitrogen oxides or reactive organic compound emissions in ozone nonattainment areas,

nor be allowed to offset sulfur oxide emissions in sulfate nonattainment areas.

303.6.4 Interpollutant emission offsets between PM_{2.5} precursors are not allowed unless modeling demonstrates that PM_{2.5} interpollutant offset ratios are appropriate in an approved PM_{2.5} attainment plan.

303.6.5 EPA and ARB must concur with all proposed interpollutant offsets ratios prior to use.

303.7 Intra-District Offsets

303.7.1 ERCs generated in another district may be used to offset emission increases in Placer County.

303.7.2 If the ERC generating source and the source with the proposed emissions increase are not in the same air basin, both of the following requirements must be met:

- a. The ERC generating source must be located in an upwind district that is classified, pursuant to Health and Safety Code Section 40910 et seq., as being in the same or a worse nonattainment status than the downwind district where the stationary source with the proposed emission increases will be located.
- b. The stationary source at which the emission increases are to be offset must be located in a downwind district that is overwhelmingly impacted, as determined pursuant to Health and Safety Code Section 39610, by emissions transported from the upwind district where the ERC generating source is located.

303.7.3 Any offset credited to a stationary source in one district using offsets obtained from reductions at a stationary source in another district shall be approved by a resolution adopted by the governing boards of both the upwind and downwind districts, after taking into consideration the impact of the offset on air quality, public health, and the regional economy. The District's governing board may delegate to the APCO the Board's authority to approve the offsets credited.

303.7.4 For ERCs generated in another district, the District may adjust the value of such credits to reflect any District requirements that would have applied if the credits had been generated within the District.

303.8 Emission Reductions, Shutdowns, and Curtailments: Actual emission reductions from an internal shutdown or curtailment of a permitted emission unit may be credited for the purposes of providing internal offsets provided:

303.8.1 The crediting of emission reductions from source shutdowns and curtailments comply with the current U.S. Environmental Protection Agency emissions trading policy and applicable federal regulations; and

303.8.2 Emissions reductions are ensured by federally enforceable emission limitations contained in the Permit to Operate, or the permanent surrender or cancellation of the Permit to Operate; and

303.8.3 If the shutdown emission unit is being replaced with a new or modified emission unit, the APCO may allow a maximum of 90 days as a

shakedown period for simultaneous operation of the existing and the new or modified emission unit.

303.9 Exemptions From Offset Requirements

- 303.9.1 Offsets shall not be required for temporary sources or portable equipment, if the emissions from such units do not constitute a major source or major modification to a major source.
- 303.9.2 Offsets shall not be required for an emergency engine which is used exclusively for testing, maintenance and emergency use, if the emissions from the emergency engine, excluding emergency use, do not exceed the offset limit by itself.
- 303.9.3 Offsets shall not be required for increases in carbon monoxide emissions if the applicant, using an Air Quality Model approved by the APCO, demonstrates that the increase in ambient concentration does not exceed 500 micrograms per cubic meter, 8 hour average, at or beyond the property line of the stationary source.
- 303.9.4 The requirement to provide offsets shall not apply to the following:
- a. Relocation of emissions units solely within only one air basin within the District, and the relocation does not result in any increase in potential to emit.
 - b. Replacement emissions units, provided the replacement does not constitute a major source or major modification.
 - c. Modifications necessary to comply with any regulations contained in Regulation 2 – PROHIBITIONS, or in the SIP, unless the modification will result in a major modification. This provision does not apply to changes in production rate, hours of operation, or any other change or modification not required for compliance with Regulation 2 or the SIP.
 - d. If requested by the APCO, the applicant shall demonstrate through the use of an air quality model that the emission increases from the new or modified source will not cause or contribute to a violation of an ambient air quality standard.

304 MAJOR SOURCE ADMINISTRATIVE REQUIREMENTS: The following administrative requirements shall apply to any new major source or major modification regulated by the rule. Power plants over 50 megawatts shall be subject to the additional requirements of Section 500.

- 304.1 Alternative Siting: The applicant shall prepare an analysis functionally equivalent to the requirements of Division 13 of the Public Resources Code (California Environmental Quality Act-CEQA). The District will not issue an Authority to Construct unless the APCO has concluded, based on the information included in the Alternative Siting Analysis that the benefits of the proposed source significantly outweigh the environmental and social cost imposed as a result of its location, construction, or modification.
- 304.2 Certification of Compliance: The owner or operator of the proposed new or modified source has certified that all existing major stationary sources owned or operated by such person (or by any entity controlling, controlled by, or under

common control with such person) in California which are subject to emission limitations are in compliance, or on an expeditious schedule for compliance, with all applicable emission limitations and standards.

- 304.3 Potential Visibility Impacts: The APCO shall consult with the Federal Land Manager on a proposed major stationary source or major modification that may impact visibility in any Class 1 Area, in accordance with 40 CFR 51.307 if the net emissions increase from the new or modified source exceeds 10 tons/year of PM_{2.5}, 15 tons/year of PM₁₀, or 40 tons/year of NO_x; and the location of the source, relative to the closest boundary of a specified federal Class I area is within 20 miles.

305 GENERAL PROVISIONS

- 305.1 Air Quality Models: All estimates of ambient concentrations required pursuant to this rule shall be based on applicable air quality models, databases, and other requirements specified in 40 CFR Part 51, Appendix W ("Guideline on Air Quality Models"). Where an air quality model specified in 40 CFR Part 51, Appendix W ("Guideline on Air Quality Models") is inappropriate, the model may be modified or another model substituted. Such a modification or substitution of a model may be made on a case-by-case basis or, where appropriate, on a generic basis. Written approval from the United States Environmental Protection Agency (EPA) must be obtained for any modification or substitution. In addition, use of a modified or substituted model must be subject to notice and opportunity for public comment.

- 305.2 Ambient Air Quality Standards: In no case shall emissions from the new or modified stationary source prevent or interfere with the attainment or maintenance of any applicable ambient air quality standard. The Air Pollution Control Officer (APCO) may require the use of an air quality model to estimate the effects of a new or modified stationary source. The analysis shall estimate the effects of the new or modified stationary source, and verify that the new or modified stationary source will not prevent or interfere with the attainment or maintenance of any ambient air quality standard. In making this determination the APCO shall take into account the mitigation of emissions through offsets pursuant to this rule and the impacts of transported pollutants on downwind pollutant concentrations. The APCO may impose, based on an air quality analysis, offset ratios greater than the requirements of Section 303.2.

400 APPLICATION PROCESSING

- 401 **REQUIREMENT TO SUBMIT APPLICATION:** Any person building, erecting, altering or replacing any article, machine, equipment or other contrivance, the use of which may cause, eliminate, reduce, or control the issuance of air contaminants, shall first obtain authorization for such construction from the APCO as specified in this rule. Exemptions from this requirement are listed in Rule 501, GENERAL PERMIT REQUIREMENTS. The application shall be submitted on forms supplied by the District.
- 402 **COMPLETE APPLICATION REQUIREMENT:** The APCO shall determine whether an application is complete no later than 30 days after receipt of the application, or after such longer time period that the applicant and the APCO have agreed to in writing.

If the APCO determines that the application is not complete, the applicant shall be notified in writing of the decision specifying the information required. Upon receipt of any re submittal of the application, a new 30-day period to determine completeness shall begin. Completeness of an application or a re-submitted application shall be evaluated on the basis of the information requirements set forth in District regulations as they exist on

the date on which the application or re-submitted application was received, or when the CEQA-related information which satisfies the requirements of the District's CEQA Guidelines has been received, whichever is later.

The APCO may, during the processing of the application, request an applicant to clarify, amplify, correct, or otherwise supplement the information submitted in the application.

- 403 PRELIMINARY DECISION:** Following acceptance of an application as complete, the APCO shall perform the evaluations required to determine compliance with all applicable District rules and regulations and make a preliminary written decision as to whether an Authority to Construct should be approved, conditionally approved, or denied.

The decision shall be based on the Section 300 standards in force on the date the application is deemed complete, except when a new federal requirement not yet incorporated into this Rule applies to the new or modified source.

When the District is the CEQA Lead Agency for a project, the APCO shall not issue a preliminary decision until the draft Environmental Impact Report or Negative Declaration is available for public review. The decision shall be supported by a succinct written analysis. For projects requiring offsets, the APCO shall transmit its preliminary written decision and analysis to the California Air Resources Board and the U.S. Environmental Protection Agency for a 45 day review period.

404 TIMING FOR FINAL ACTION

- 404.1** The APCO shall not take final action for any project for which an Environmental Impact Report (EIR) or a Negative Declaration is being prepared until a final EIR for that project has been certified or a Negative Declaration for that project has been approved, and the APCO has considered the information in that final EIR or Negative Declaration.

The APCO shall take final action on the application within whichever of the following periods of time is longer:

404.1.1 Within 180 days after the certification of the final EIR or approval of the Negative Declaration, or

404.1.2 Within 180 days of the date on which the application was determined complete by the APCO.

- 404.2** Except as provided in Section 103, the APCO shall provide written notice of the final action to the applicant, any commenters, the U.S. Environmental Protection Agency, and the California Air Resources Board.

- 405 AUTHORITY TO CONSTRUCT AND PERMIT TO OPERATE CONTENT:** Each Authority to Construct and/or Permit to Operate issued by the APCO shall include the following minimum terms and conditions:

- 405.1** A provision stating that the emission unit shall be operated in a manner consistent with the application used to determine compliance with this rule.

- 405.2** The following emissions limitations shall be included, if applicable:

405.2.1 BACT emission limitations if required by Section 302. Such condition(s) shall be expressed in a manner consistent with testing procedures, such as ppmv NOx, g/liter VOC, or lbs/hr.

405.2.2 A quarterly emissions limitation for each offset pollutant, if offsets are required pursuant to Section 303.

405.2.3 An emission limitation (daily, monthly, or quarterly) shall be contained in the Authority to Construct and Permit to Operate for all NSR pollutants for which offsets are not being provided pursuant to Section 303, or when required to be consistent with ambient air quality standards.

405.3 Design, Operational, or Equipment Standards: If the APCO determines that technological or economic limitations on the application of measurement methodology to a particular class of sources would make the imposition of a numerical emission standard infeasible, the APCO may instead prescribe a design, operational, or equipment standard. In such cases, the District shall make its best estimate as to the emission rate that will be achieved and shall specify that rate in required submissions to the U.S. Environmental Protection Agency. Any Authority to Construct or permit issued without an enforceable numerical emission standard must contain enforceable conditions which assure that the design characteristics or equipment will be properly maintained, or that the operational conditions will be properly performed, so as to continuously achieve the assumed degree of control.

406 **PUBLICATION AND PUBLIC COMMENT:** If a proposed project is required to provide offsets pursuant to Section 303, or if a proposed project may emit increased actual lead emissions at a rate of 5 tons per year or greater, within ten calendar days following a preliminary decision, the APCO shall publish in at least one newspaper of general circulation in the District a notice stating the preliminary decision of the APCO, noting how the pertinent information can be obtained, and inviting written public comment for a 30-day period following the date of publication.

407 **PUBLIC INSPECTION:** Except as provided in Section 103, the APCO shall make available for public inspection at the District's office the information submitted by the applicant and the APCO's analysis no later than the date the notice of the preliminary decision is published. Information submitted which contains trade secrets shall be handled in accordance with Section 6254.7 of the California Government Code and relevant sections of the California Administrative Code. Further, all such information shall be transmitted no later than the date of publication to the California Air Resources Board and the U.S. Environmental Protection Agency regional office, and to any party which requests such information.

408 **DENIAL, FAILURE TO MEET STANDARDS:** The APCO shall deny any Authority to Construct or Permit to Operate if the APCO finds that the subject of the application would not comply with the standards set forth in District, state, or federal rules or regulations.

409 **DENIAL, FAILURE TO MEET CEQA:** The APCO shall deny any Authority to Construct or Permit to Operate if the APCO finds that the subject of the application would not comply with the standards set forth in CEQA.

410 **ISSUANCE, PERMIT TO OPERATE:** The APCO shall issue a Permit to Operate an emissions unit subject to the requirements of this rule after determining that all conditions specified in the Authority to Construct have been complied with or will be complied with by the dates specified on the Authority to Construct. Such applicable conditions shall be contained in the Permit to Operate. Where a new or modified stationary source is, in whole or in part, a replacement for an existing stationary source on the same property, the APCO may allow a maximum of 90 days as a shakedown period for simultaneous operation of the existing stationary source and the new source or replacement.

500 **ADDITIONAL PROVISIONS FOR POWER PLANTS:** This Section shall apply to power plants with maximum ratings equal to, or in excess of 50 megawatts proposed to be constructed in the District and for which a Notice of Intention (NOI) or Application for Certification (AFC) has been accepted by the California Energy Commission.

501 Within 14 days of receipt of a Notice of Intention, the APCO shall notify the California Air Resources Board and the California Energy Commission of the District's intent to participate in the Notice of Intention proceeding. If the District chooses to participate in the Notice of Intention proceeding, the APCO shall prepare and submit a report to the California Air Resources Board and the California Energy Commission prior to the conclusion of the non-adjudicatory hearing specified in Section 25509.5 of the California Public Resources Code. That report shall include, at a minimum:

501.1 A preliminary specific definition of Best Available Control Technology for the proposed facility;

501.2 A preliminary discussion of whether there is substantial likelihood that the requirements of this rule and all other District regulations can be satisfied by the proposed facility;

501.3 A preliminary list of conditions which the proposed facility must meet in order to comply with this rule or any other applicable District regulation.

The preliminary determinations contained in the report shall be as specific as possible within the constraints of the information contained in the Notice of Intention.

502 Upon receipt of an Application for Certification for a power plant, the APCO shall conduct a determination of compliance review. This determination shall consist of a review identical to that which would be performed if an application for an Authority to Construct had been received for the power plant. If the information contained in the Application for Certification does not meet the requirements of this rule, the APCO shall, within 20 calendar days of receipt of the Application for Certification, so inform the California Energy Commission, and the Application for Certification shall be considered incomplete and returned to the applicant for re-submittal.

503 The APCO shall consider the Application for Certification to be equivalent to an application for a permit to construct during the determination of compliance review, and shall apply all provisions of this rule which apply to applications for an Authority to Construct.

504 The APCO may request from the applicant any information necessary for the completion of the determination of compliance review. If the APCO is unable to obtain the information, the APCO may petition the presiding Commissioner of the California Energy Commission for an order directing the applicant to supply such information.

505 Within 180 days of accepting an Application for Certification as complete, the APCO shall make a preliminary decision on:

505.1 Whether the proposed power plant meets the requirements of this rule and all other applicable District regulations, and;

505.2 In the event of compliance, what permit conditions will be required including the specific Best Available Control Technology requirements and a description of required mitigation measures.

The preliminary written decision of this Section shall be treated as a preliminary decision under Section 403 of this Rule, and shall be finalized by the APCO only after being

subject to the public notice and comment requirements of Sections 406 and 407. The APCO shall not issue a determination of compliance for the power plant unless all requirements of this rule are met.

- 506** Within 240 days of the filing date, the APCO shall issue and submit to the California Energy Commission a determination of compliance or, if such a determination cannot be issued, shall so inform the California Energy Commission. A determination of compliance shall confer the same rights and privileges as an Authority to Construct only when and if the California Energy Commission approves the Application for Certification, and the California Energy Commission certificate includes all requirements of the conditions contained within the determination of compliance.
- 507** Any applicant receiving a certificate from the California Energy Commission pursuant to this Section and in compliance with all conditions of the certificate shall be issued a Permit to Operate by the APCO.

600 MONITORING AND RECORDS

- 601 RECORDKEEPING:** The following records shall be maintained for two years. Records shall be provided to the APCO upon request.
- 601.1 Emergency Engines: Records of hours of operation for maintenance purposes and for actual interruptions of electrical power. Such records shall include the date and hours of operation, as well as the reason for operation.
- 601.2 Portable and Temporary Equipment: Records of operating location(s) and corresponding dates of operation.

1. The Board shall establish a process for the review and approval of all rules and regulations that are proposed to be adopted by the Board. The process shall include the following:

a. The Board shall establish a committee to review and approve all rules and regulations that are proposed to be adopted by the Board. The committee shall be composed of members of the Board who are not the author of the rule or regulation. The committee shall have the authority to recommend to the Board the adoption, modification, or repeal of any rule or regulation.

b. The Board shall establish a process for the review and approval of all rules and regulations that are proposed to be adopted by the Board. The process shall include the following:

c. The Board shall establish a process for the review and approval of all rules and regulations that are proposed to be adopted by the Board. The process shall include the following:

d. The Board shall establish a process for the review and approval of all rules and regulations that are proposed to be adopted by the Board. The process shall include the following:

e. The Board shall establish a process for the review and approval of all rules and regulations that are proposed to be adopted by the Board. The process shall include the following:

f. The Board shall establish a process for the review and approval of all rules and regulations that are proposed to be adopted by the Board. The process shall include the following:

ADVISORY NOTICE FOR GASOLINE DISPENSING FACILITIES

This advisory notice is intended for all persons who are required to *have a Permit to Operate for a retail or a non-retail gasoline dispensing facility* in Placer County. Information is provided below regarding Enhanced Vapor Recovery regulations and Air Toxics Review of new and/or existing gasoline dispensing facilities.

ENHANCED VAPOR RECOVERY

On April 1, 2001, the California Air Resources Board (ARB) adopted an "Enhanced Vapor Recovery" (EVR) program that seeks to fix existing problems with service station vapor recovery systems. This EVR Program will phase in new standards over a four (4) year period to achieve a total of 25 tons per day in statewide VOC emission reductions over the performance of existing systems. By April 1, 2005, all underground tanks will need to change to the new EVR equipment.

In the June 2002 Advisory sent out with this fiscal year's billing for your permits, the District noted that any changes that require an upgrade to EVR equipment requires an Authority to Construct. Based on clarification and information obtained from the California Air Resources Board (CARB), the District has refined the criteria for applying for and obtaining an Authority to Construct for the installation of Phase I EVR equipment.

The District is classifying the installation of Phase I EVR equipment into two categories: **major modifications** and **non-major modifications**.

A **major modification** is one in which underground excavation occurs and requires the replacement of Phase I vapor recovery equipment. All major modifications require an Authority to Construct prior to the installation of Phase I EVR replacement equipment.

A **non-major modification** occurs when replacing failed components on Phase I systems. All replacement parts must be EVR-certified parts or components. However, if Phase I EVR components or parts are not compatible, pre-EVR certified parts or components may continue to be sold and used. For example, currently there are no certified Phase I EVR components for Phase I coaxial systems, thus non-EVR components can still be used in repairs. All facilities that replace Phase I equipment as a non-major modification are required to notify the District to assure that such replacement is not considered a major modification. Additionally, facilities will be required to apply for and obtain an Authority to Construct to "capture" these changes when the EVR systems must be demonstrated to be in place by April 1, 2005.

Further information on EVR can be found at the CARB website under Programs at www.arb.ca.gov

AIR TOXICS REVIEW

Background

The Air Toxics "Hot Spots" Information and Assessment Act was enacted in September 1987, with subsequent amendments. The Air Toxics "Hot Spots" Act establishes a formal air toxics emission inventory risk quantification program that Districts manage. The goal of the Air Toxics "Hot Sports" Act is to:

- ? collect emission data indicative of routine predictable releases of toxic substances to the air;
- ? identify facilities having localized impacts;
- ? evaluate health risks from exposure to the emissions;
- ? notify nearby residents of significant risks; and
- ? reduce risk below the determined level of significance.

Those facilities that pose a potentially significant health risk are required to reduce their risks, thereby reducing the near-source exposure of Californians to toxic air pollutants. Significant risks posed by facilities require public notification and if requested, districts must make health risk assessments available for public review.

The District is evaluating both proposed and existing GDFs to determine the cancer risk that is based upon annual gasoline throughput. Listed below is the specific process for proposed and existing facilities.

For proposed facilities, the District is using an initial health risk screening that is based upon the proposed annual throughput for the facility. For those facilities proposing to pump 1.5 million gallons of gasoline or more a year (i.e. those that have a cancer risk greater than 10-in-a-million), a slightly refined risk screening analysis will be conducted by utilizing distance information from the centroid of the pump islands to the nearest commercial and residential structures. If the cancer risk remains greater than 10-in-a-million following the refined risk assessment, a gasoline throughput limitation will be placed upon the facility. This limitation will be based on a gasoline throughput that will reduce the cancer risk too less than 10-in-a-million. If the applicant chooses, a detailed health risk assessment, approved by the District, may be conducted by the applicant or risk reduction measures may be implemented to reduce emissions. These steps may result in the 10-in-a-million cancer risk threshold being exceeded at a higher annual gasoline throughput limitation.

For existing GDFs, the District is reviewing the high throughput facilities that have an initial screening of greater than 10-in-a-million cancer risk. Information regarding distances from the centroid of the pump islands to the nearest commercial and residential structures is being gathered to refine the initial screening. If the cancer risk remains greater than 10-in-a-million, then the risk analysis will be submitted to the facility for review and comment before being forwarded to the Office of Environmental Health Hazard Assessment (OEHHA) for approval.

Following OEHHA approval of the risk assessment, Public Notification is required of all persons exposed in accordance with adopted District policies, and risk reduction through gasoline throughput curtailment or improved emission controls will be required. These requirements are likely to apply to only those facilities that have a very high annual throughput and with neighbors in close proximity.

This advisory notice and other previously issued advisories can be found on our website at www.placer.ca.gov/apcd or by calling Ms. Ann Hobbs at (530) 889-7137.

City of Roseville City Council
311 Vernon Street
Roseville, CA 95678

**RE: WRSP PCL F-31 - The Plaza at Blue Oaks (File #PL17-0368)
Response to Associations' Appeal of Approval of Mitigated Negative Declaration**

Dear Council Members:

This office represents West Roseville Project Development Company, Inc., the project owner ("Owner"), and Signature Management Company, the project developer ("Developer"), of the above-referenced project. The purpose of this letter is to provide a response to the May 26, 2020 letter from the Law Offices of Robert M. Bone, representing an unincorporated association of Roseville community residents (the "Association"), to the City Council ("Council") appealing the May 14, 2020 decision of the Planning Commission to approve the Project's Initial Study/Mitigated Negative Declaration ("IS/MND") (the "Appeal"). Owner and Developer are real parties in interest.

The Project was heard by the Planning Commission on May 14, 2020. Prior to the hearing, the Planning Commission received a total of nine letters from the public in opposition of the project and two letters in support of the project. The letters in opposition of the project cited similar concerns regarding the environmental impacts of the project. Mr. Bone submitted additional correspondence on behalf of the Association that focused on additional concerns with the overall project design. These concerns are identical to those raised in the Appeal.

At the Planning Commission hearing, Mr. Bone spoke in opposition of the project and repeated the Association's concerns as stated in his prior correspondence, including effects of the project on the environment, the removal of oak trees, and increase in traffic. After receiving testimony, the Planning Commission deliberated on the item and ultimately voted to approve the Design Review Permit, Tentative Subdivision Map, and Tree Permit, with a vote of 6 aye, 0 nay, 1 absent.

On May 26, 2020, the City received the Association's appeal of the Planning Commission's decision from the Law Office of Robert M. Bone. In its Appeal, the Association challenges the adequacy of the City's environmental review, alleging the following grounds to reject the Planning Commission's decision: inconsistency with the General Plan, Bicycle Master Plan, and Pedestrian Master Plan; conflict with the City's site design guidelines; loss of oak trees; and inadequate environmental review.

Associate Planner Kinarik Shallow and Development Services Director Mike Isom are expected to submit a memo to the Council responding to the specific issues raised by the Appeal.

Owner and Developer agree with the Planning Commission that the Initial Study adequately evaluates, discloses, and mitigates the Project's environmental impacts and a Mitigated Negative Declaration is the appropriate environmental determination for the Project. Owner and Developer also assert that all aspects of CEQA with regard to the IS/MND have been fully complied with and that an Environmental Impact Report ("EIR") is not required for the Project. Owner and Developer further assert that the Project is consistent with the General Plan, Bicycle Master Plan, Pedestrian Master Plan; City site design guidelines; and tree protection ordinances.

CEQA requires the preparation of an EIR whenever an agency proposes to approve or implement a project that "may have a significant effect on the environment." (§§ 21100, 21151.) "If there is no substantial evidence of any significant environmental impact, however, the agency may [instead] adopt a negative declaration." (City of Redlands v. County of San Bernardino, (2002) 96 Cal.App.4th 398, 405.) A *mitigated* negative declaration may be utilized by an agency when a project as initially proposed may have a significant effect on the environment but will not have a significant environmental effect because changes have been made or agreed on that mitigate such potential effects. (Cal. Code Regs. tit. 14, § 15071(e)). In evaluating a claim that an agency improperly approved a project by using a negative declaration, rather than preparing an EIR, a trial court applies the "fair argument" test. (Porterville Citizens for Responsible Hillside Development v. City of Porterville, (2007) 157 Cal.App.4th 885, 899.) "Under this test, the agency must prepare an EIR whenever substantial evidence in the record supports a fair argument that a proposed project may have a significant effect on the environment." (Gentry v. City of Murrieta, (1995) 36 Cal.App.4th 1359, 1399-1400.) In that instance, a trial court's function is to decide whether substantial evidence supports the agency's conclusion as to whether a fair argument of environmental impact could be made. (Id. at p. 1399.)

Like any petitioner challenging an agency's decision to proceed by negative declaration, the Association bears the burden of proof "to demonstrate by citation to the record the existence of substantial evidence supporting a fair argument of significant environmental impact." Gentry v. City of Murrieta (1995) 36 Cal.App.4th 1359, 1379. The Association cannot meet this burden.

CEQA and its implementing regulations provide that facts, reasonable assumptions predicated on facts, and expert opinions supported by facts may constitute substantial evidence; whereas argument, speculation, unsubstantiated opinion or narrative, clearly inaccurate or erroneous factual statements or evidence of social or economic impacts that do not result in physical impacts on the environment may not. (§§ 21080, subd. (c); 21080. 2, subd (c); 14 Cal. Code Regs., §§ 15064, subd. (f)(5), 15384.) **"[I]n the absence of a specific factual foundation in the record, dire predictions by non-experts regarding the consequences of a project do not constitute substantial evidence."** (Porterville Citizens for Responsible Hillside Development, *supra*, 157 Cal.App.4th at p. 901 (emphasis added).)

In its Appeal, the Association relies on nothing more than argument, speculation, and unsubstantiated opinion and narrative in its attempt to claim that further environmental study is

June 15, 2020

Page 3

required. Such a dearth of substantiated evidence cannot and will not rise to the level of substantial evidence required to overcome the Planning Commission's discretionary and well-supported decision as set forth in its IS/MND. As such, Owner and Developer urge the Council to adopt the Plaza at Blue Oaks Initial Study/Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program; and adopt Resolution No. 20-xxx denying the Association's Appeal from the May 14, 2020 approvals by the Planning Commission; adopting the four (4) findings of fact and approving the design review permit subject to one hundred one (101) conditions of approval; adopting the three (3) findings of fact and approving the tentative subdivision map subject to thirty-nine (39) conditions of approval; and adopting the two (2) findings of fact and approving the tree permit subject to twenty (20) conditions of approval.

Lastly, in its Appeal, the Association states that it has "commissioned an environmental report and a traffic report" that it intends to submit to the Council in support of the Association's position. As of the drafting of this correspondence, said reports have not yet been submitted to the Council and are not part of the record. Owner and Developer submit that an adequate hearing can only be held once said reports are submitted and they and the City have had sufficient time to review, analyze, and, if necessary, respond to same.

Sincerely,

IRONHORSE LAW GROUP PC

A handwritten signature in black ink, reading "Nathan Scheg". The signature is written in a cursive, flowing style.

Nathan L. Scheg, Esq.

RESOLUTION NO. 20-264

DENYING THE APPEAL FROM THE MAY 14, 2020 APPROVALS BY THE PLANNING COMMISSION; ADOPTING THE PLAZA AT BLUE OAKS INITIAL STUDY/MITIGATED NEGATIVE DECLARATION AND THE MITIGATION MONITORING AND REPORTING PROGRAM; ADOPTING THE FOUR (4) FINDINGS OF FACT AND APPROVING THE DESIGN REVIEW PERMIT SUBJECT TO ONE HUNDRED ONE (101) CONDITIONS OF APPROVAL; ADOPTING THE THREE (3) FINDINGS OF FACT AND APPROVING THE TENTATIVE SUBDIVISION MAP SUBJECT TO THIRTY-NINE (39) CONDITIONS OF APPROVAL; AND ADOPTING THE TWO (2) FINDINGS OF FACT AND APPROVING THE TREE PERMIT SUBJECT TO TWENTY (20) CONDITIONS OF APPROVAL

WHEREAS, on May 14, 2020, the Planning Commission held a public hearing on the Plaza at Blue Oaks Project (Project) located on West Roseville Specific Plan Parcel F-31, at 1950 Blue Oaks Boulevard; and

WHEREAS, the Project consists of an 82,100-square-foot shopping center consisting of a 35,000-square-foot anchor grocery store, a 12-pump gas station with a 3,500-square-foot-convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet; and

WHEREAS, on May 14, 2020, the Planning Commission considered and adopted the Plaza at Blue Oaks Mitigated Negative Declaration and associated Mitigation Monitoring and Reporting Program; and

WHEREAS, on May 14, 2020, the Planning Commission voted 6-0 to approve the Design Review Permit after finding that the Project was consistent with the following four (4) Findings of Fact:

1. The project as approved preserves and accentuates the natural features of the property, such as open space, topography, trees, wetlands and water courses, provides adequate drainage for the project, and allows beneficial use to be made of the site for development.
2. The project site design as approved provides open space, access, vehicle parking, vehicle, pedestrian and bicycle circulation, pedestrian walks and links to alternative modes of transportation, loading areas, landscaping and irrigation and lighting which results in a safe, efficient, and harmonious development and which is consistent with the applicable goals, policies and objectives set forth in the General Plan, the Community Design Guidelines and the applicable specific plan and/or applicable design guidelines.
3. The building design, including the materials, colors, height, bulk, size and relief, and the arrangement of the structures on the site, as approved is harmonious with other development and buildings in the vicinity and which is consistent with the applicable goals, policies and objectives set forth in the General Plan, the Community Design Guidelines and the applicable specific plan and/or applicable design guidelines.
4. The design of the public services, as approved, including, but not limited to, trash enclosures and service equipment are located so as not to detract from the appearance of

the site, and are screened appropriately and effectively using construction materials, colors and landscaping that are harmonious with the site and the building designs.

WHEREAS, on May 14, 2020, the Planning Commission voted 6-0 to approve the Tentative Subdivision Map for the Project after finding that the Project was consistent with the following three (3) Findings of Fact:

1. The size, design, character, grading, location, orientation and configuration of lots roads and all improvements for the tentative subdivision map are consistent with the density, uses, circulation and open space systems, applicable policies and standards of the general plan or any applicable specific plan for the area, whichever is more restrictive, and the design standards of Title 18 (Subdivision Ordinance) of the Roseville Municipal Code.
2. The subdivision will result in lots which can be used or built upon. The subdivision will not create lots which are impractical for improvement or use due to the steepness of terrain or location of watercourses in the area; the size or shape of the lots or inadequate building area; inadequate frontage or access; or, some other physical condition of the area.
3. The design and density of the subdivision will not violate the existing requirements prescribed by the Regional Water Quality Control Board for the discharge of waste into the sewage system, pursuant to Division 7 of the Water Code.

WHEREAS, on May 14, 2020, the Planning Commission voted 6-0 to approve the Tree Permit for the Project after finding that the Project was consistent with the following two (2) Findings of Fact:

1. Approval of the Tree Permit will not be detrimental to the public health, safety or welfare, and approval of the Tree Permit is consistent with the provisions of Chapter 19.66.
2. Measures have been incorporated into the project or permit to mitigate impacts to remaining trees or to provide replacement for trees removed.

WHEREAS, following the Planning Commission's approval, an appeal was submitted on May 26, 2020 based on concerns that the project had an inadequate environmental review; the project was not consistent with the General Plan, Bicycle Master Plan, and Pedestrian Master Plan; the project was in conflict with the City's site design guidelines; and based on concerns with the loss of oak trees; and

WHEREAS, a review of the record shows that the Project's Initial Study provides substantial evidence to support the Mitigated Negative Declaration finding, including technical studies prepared by qualified consultants including an Environmental Noise Assessment, Health Risk Analysis, and a short-term traffic study; and the initial study analysis relies on two certified Specific Plan Environmental Impact Reports (EIRs)—the West Roseville Specific Plan EIR and the Amoruso Ranch Specific Plan EIR; and

WHEREAS, the Project was designed consistent with the goals and policies of the General Plan, Bicycle Master Plan, and Pedestrian Master Plan; and

WHEREAS, the Project was designed consistent with the City's Community Design Guidelines pertaining to site planning and building siting; and

WHEREAS, the Project retains the existing native oak trees on the site to the extent feasible and mitigates for the loss of trees through a combination of on-site plantings and payment of in-lieu fees; and

WHEREAS, after holding a hearing on July 1, 2020 and considering the entire record, staff recommends that the City Council deny the appeal of the Planning Commission's approval of the Design Review Permit, Tentative Subdivision Map, and Tree Permit because the necessary findings of facts can be made; and

WHEREAS, staff recommends that the City Council adopt the Plaza at Blue Oaks Initial Study/Mitigated Negative Declaration and the Mitigation Monitoring and Reporting Program; and

WHEREAS, staff recommends that the City Council adopt the four (4) Findings of Fact for the Design Review Permit and approve the Design Review Permit subject to one hundred one (101) conditions of approval; and

WHEREAS, staff recommends that the City Council adopt the three (3) Findings of Fact for the Tentative Subdivision Map and approve the Tentative Subdivision Map subject to thirty-nine (39) conditions of approval; and

WHEREAS, staff recommends that the City Council adopt the two (2) Findings of Fact for the Tree Permit and approve the Tree Permit subject to twenty (20) conditions of approval; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville hereby denies the appeal of the Planning Commission's May 14, 2020 approval of the Design Review Permit, Tentative Subdivision Map, and Tree Permit; and

BE IT FURTHER RESOLVED that the Plaza at Blue Oaks Initial Study/Mitigated Negative Declaration and the Mitigation Monitoring and Reporting Program are hereby adopted; and

BE IT FURTHER RESOLVED that the four (4) Findings of Fact for the Design Review Permit are hereby adopted and the Design Review Permit is hereby approved subject to one hundred one (101) conditions of approval; and

BE IT FURTHER RESOLVED that the three (3) Findings of Fact for the Tentative Subdivision Map are hereby adopted and the Tentative Subdivision Map is hereby approved subject to thirty-nine (39) conditions of approval; and

BE IT FURTHER RESOLVED that the two (2) Findings of Fact for the Tree Permit are hereby adopted and the Tree Permit is hereby approved subject to twenty (20) conditions of approval.

PASSED AND ADOPTED by the Council of the City of Roseville this_____, 20_, by the following vote on roll call:

AYES COUNCILMEMBERS:
NOES COUNCILMEMBERS:
ABSENT COUNCILMEMBERS:

MAYOR

City Clerk

NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

Notice is hereby given that, as Lead Agency, the City of Roseville, Development Services Department, Planning Division has prepared an Initial Study leading to a **Mitigated Negative Declaration** for the project referenced below. This Mitigated Negative Declaration is available for public review and comment.

Project Title/File#: WRSP PCL F-31 – The Plaza at Blue Oaks; File #PL17-0368

Project Location: 1950 Blue Oaks Boulevard, Roseville, Placer County, CA; APN 017-117-093-000

Project Owner: Joe Zawidski, Signature Management Company

Project Applicant: Joe Zawidski, West Roseville Development Company, Inc.

Project Planner: Kinarik Shallow, Associate Planner

Project Description: The proposed project is a retail center consisting of a ±35,000 square-foot anchor grocery store, a 12-pump gas station with a ±3,500 square-foot convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet. The project includes a Design Review Permit to review the site design and proposed buildings, a Tree Permit to remove several native oak trees on the westerly portion of the site, and a Tentative Subdivision Map to subdivide the parcel into eight (8) lots.

Document Review and Availability: The public review and comment period begins on April 17, 2020 and ends on May 7, 2020. The **Mitigated Negative Declaration** may be reviewed online at

<https://www.roseville.ca.us/cms/One.aspx?portalId=7964922&pageId=8774505>

Written comments on the adequacy of the Mitigated Negative Declaration may be submitted to Kinarik Shallow, Associate Planner, at kshallow@roseville.ca.us and must be received no later than 5:00 pm on May 7, 2020. Due to the currently in place Placer County Stay at Home Directive, physical correspondence will not be able to be considered during the review period.

This project will be scheduled for a public hearing before the City's Planning Commission. At this hearing, the Planning Commission will consider the Mitigated Negative Declaration and associated project entitlements. The tentative hearing date is May 14, 2020.

Greg Bitter
Planning Manager

Dated: April 15, 2020

Publish: April 17, 2020

MITIGATED NEGATIVE DECLARATION

Project Title/File Number: WRSP PCL F-31 – The Plaza at Blue Oaks; File # PL17-0368
Project Location: 1950 Blue Oaks Boulevard, Roseville, Placer County, CA; APN 017-117-093-000
Project Applicant: Joe Zawidski, Signature Management Company
Property Owner: Joe Zawidski, West Roseville Development Company, Inc.
Lead Agency Contact Person: Kinarik Shallow, Associate Planner - City of Roseville; (916) 746-1309
Date: April 15, 2020

Project Description:

The proposed project is a retail center consisting of a ±35,000 square-foot anchor grocery store, a 12-pump gas station with a ±3,500 square-foot convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet. The project includes a Design Review Permit to review the site design and proposed buildings, a Tree Permit to remove several native oak trees on the westerly portion of the site, and a Tentative Subdivision Map to subdivide the parcel into eight (8) lots.

DECLARATION

The Planning Manager has determined that the above project will not have significant effects on the environment and therefore does not require preparation of an Environmental Impact Report. The determination is based on the attached initial study and the following findings:

- A. *The project will not have the potential to degrade the quality of the environment, substantially reduce the habitat of fish or wildlife species, cause a fish or wildlife population to drop below self sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of an endangered, rare or threatened species, reduce the number or restrict the range of rare or endangered plants or animals or eliminate important examples of the major periods of California history or prehistory.*
- B. *The project will not have the potential to achieve short-term, to the disadvantage of long-term, environmental goals.*
- C. *The project will not have impacts, which are individually limited, but cumulatively considerable.*
- D. *The project will not have environmental effects, which will cause substantial adverse effects on human beings, either directly or indirectly.*
- E. *No substantial evidence exists that the project may have a significant effect on the environment.*
- F. *The project incorporates all applicable mitigation measures identified in the attached initial study.*
- G. *This Mitigated Negative Declaration reflects the independent judgment of the lead agency.*

INITIAL STUDY & ENVIRONMENTAL CHECKLIST

Project Title/File Number:	WRSP PCL F-31 – The Plaza at Blue Oaks; File #PL17-0368
Project Location:	1950 Blue Oaks Boulevard, Roseville, Placer County, CA; APN 017-117-093-000
Project Description:	The proposed project is a retail center consisting of a ±35,000 square-foot anchor grocery store, a 12-pump gas station with a ±3,500 square-foot convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet. The project includes a Design Review Permit to review the site design and proposed buildings, a Tree Permit to remove several native oak trees on the westerly portion of the site, and a Tentative Subdivision Map to subdivide the parcel into eight (8) lots.
Project Applicant:	Joe Zawidski, Signature Management Company
Property Owner:	Joe Zawidski, West Roseville Development Company, Inc.
Lead Agency Contact:	Kinarik Shallow, Associate Planner; Phone (916) 746-1309

This initial study has been prepared to identify and assess the anticipated environmental impacts of the above described project application. The document relies on previous environmental documents (see Attachments) and site-specific studies prepared to address in detail the effects or impacts associated with the project. Where documents were submitted by consultants working for the applicant, City staff reviewed such documents in order to determine whether, based on their own professional judgment and expertise, staff found such documents to be credible and persuasive. Staff has only relied on documents that reflect their independent judgment, and has not accepted at face value representations made by consultants for the applicant.

This document has been prepared to satisfy the California Environmental Quality Act (CEQA), (Public Resources Code, Section 21000 et seq.) and the State CEQA Guidelines (14 CCR 15000 et seq.). CEQA requires that all state and local government agencies consider the environmental consequences of projects over which they have discretionary authority before acting on those projects.

The initial study is a public document used by the decision-making lead agency to determine whether a project may have a significant effect on the environment. If the lead agency finds substantial evidence that any aspect of the project, either individually or cumulatively, may have a significant effect on the environment, regardless of whether the overall effect of the project is adverse or beneficial, the lead agency is required to prepare an EIR. If the agency finds no substantial evidence that the project or any of its aspects may cause a significant effect on the environment, a negative declaration shall be prepared. If in the course of analysis, the agency recognizes that the project may have a significant impact on the environment, but that by incorporating specific mitigation measures to which the applicant agrees, the impact will be reduced to a less than significant effect, a mitigated negative declaration shall be prepared.

PROJECT DESCRIPTION

Project Location

The 13.35-acre project site is located on Parcel F-31 of the West Roseville Specific Plan (WRSP), at the northeast corner of Blue Oaks Boulevard and Fiddymment Road (Figure 1). The address of the project site is 1950 Blue Oaks Boulevard.

Figure 1: Project Location

Background

The WRSP was approved by City Council in February 2004. The WRSP area includes 3,162 acres in the northwest portion of the City, west of Fiddymment Road and generally north of Pleasant Grove Boulevard. An Environmental Impact Report (EIR) was certified with the WRSP (State Clearinghouse #2002082057), which examined the impacts of Specific Plan buildout. This addressed the major cumulative impacts of developing the Specific Plan as a whole, including the subject property (Parcel F-31).

Environmental Setting

The project site is currently undeveloped and is comprised mostly of annual grasslands and several native oak trees. The site varies in grade, with a high point on the site at ± 106 feet above sea level and the low point of the site at ± 83 feet above sea level. The site generally slopes downward on the southwestern and northwestern corners of the site, where the oak trees are located, and then becomes level with the roadways. Streetlights are located along the roadway frontages and utility poles exist along Blue Oaks Boulevard. Curb and gutter improvements exist along the perimeter of the property. Sidewalks are fully constructed along Fiddymment Road,

while partial sidewalks exist along the remainder of the site. The corner of Blue Oaks Boulevard and Fiddymment Road consists of a neighborhood entry feature including hardscape elements such as pilasters, raised planters, and small accent trees. The site is adjacent to Harvey Way to the north with an undeveloped High Density Residential parcel beyond, Oak Meadow Drive to the east with Fiddymment Ranch Apartments beyond, Blue Oaks Boulevard to the south with single-family residential uses beyond, and Fiddymment Road to the west with a Community Commercial parcel beyond. Additionally, Pleasant Grove Creek is located approximately one mile north of the site.

Table 1: Adjacent Zoning and Land Use

Location	Zoning	General Plan Land Use	Actual Use of Property
Site	Community Commercial (CC)	Community Commercial (CC)	Vacant
North	Harvey Way with Attached Housing (R3) beyond	High Density Residential (HDR-24.8)	Vacant
South	Blue Oaks Boulevard with Residential Mixed Use/Special Area-Del Webb Specific Plan (RMU/SA-DW)	Low Density Residential (LDR-5)	Single-family residential
East	Oak Meadow Drive with R3 beyond	HDR-25	Apartment Complex
West	Fiddymment Road with CC beyond	CC	Medical Office

Proposed Project

The proposed project is a retail center consisting of a ±35,000 square-foot anchor grocery store, a 12-pump gas station with a ±3,500 square-foot convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet, as well as associated parking, lighting, and landscaping. The total building square footage will be approximately 82,100 square feet. The project includes a Design Review Permit to review the site design and proposed buildings, a Tree Permit to remove several native oak trees on the westerly portion of the site, and a Tentative Subdivision Map to subdivide the parcel into eight (8) lots. No building is being proposed on Lot 2 at this time, which will be located on the northeastern corner of the site and will consist of approximately 1.3 acres.

CITY OF ROSEVILLE MITIGATION ORDINANCES, GUIDELINES, AND STANDARDS

For projects that are consistent with the development density established by existing zoning, community plan, or general plan policies for which an EIR was certified, CEQA Guidelines section 15183(f) allows a lead agency to rely on previously adopted development policies or standards as mitigation for the environmental effects, when the standards have been adopted by the City, with findings based on substantial evidence, that the policies or standards will substantially mitigate environmental effects, unless substantial new information shows otherwise (CEQA Guidelines §15183(f)). The City of Roseville adopted CEQA Implementing Procedures (Implementing Procedures) which are consistent with this CEQA Guidelines section. The current version of the Implementing Procedures were adopted in April 2008, along with Findings of Fact, as Resolution 08-172. The below regulations and ordinances were found to provide uniform mitigating policies and standards, and are applicable

to development projects. The City's Mitigating Policies and Standards are referenced, where applicable, in the Initial Study Checklist.

- City of Roseville 2035 General Plan
- City of Roseville Zoning Ordinance (RMC Title 19)
- City of Roseville Improvement Standards (Resolution 02-37)
- City of Roseville Construction Standards (Resolution 01-208)
- Subdivision Ordinance (RMC Title 18)
- Noise Regulation (RMC Ch.9.24)
- Flood Damage Prevention Ordinance (RMC Ch.9.80)
- Drainage Fees (Dry Creek [RMC Ch.4.49] and Pleasant Grove Creek [RMC Ch.4.48])
- West Placer Stormwater Quality Design Manual (Resolution 16-152)
- Urban Stormwater Quality Management and Discharge Control Ordinance (RMC Ch. 14.20)
- Traffic Mitigation Fee (RMC Ch.4.44)
- Highway 65 Joint Powers Authority Improvement Fee (Resolution 2008-02)
- South Placer Regional Transportation Authority Transportation and Air Quality Mitigation Fee (Resolution 09-05)
- Tree Preservation Ordinance (RMC Ch.19.66)
- Community Design Guidelines (Resolution 95-347)
- Specific Plan Design Guidelines:
 - o West Roseville Specific Plan and Design Guidelines (Resolution 04-40)

OTHER ENVIRONMENTAL DOCUMENTS RELIED UPON

- Amoruso Ranch Specific Plan Final Environmental Impact Report
- West Roseville Specific Plan Environmental Impact Report (SCH #2002082057)

Pursuant to CEQA Guidelines Section 15183, any project which is consistent with the development densities established by zoning, a Community Plan, or a General Plan for which an EIR was certified shall not require additional environmental review, except as may be necessary to examine whether there are project-specific significant effects which are peculiar to the project or its site. The Amoruso Ranch Specific Plan EIR updated the City's General Plan to 2035, and updated Citywide analyses of traffic, water supply, water treatment, wastewater treatment, and waste disposal. The proposed project is consistent with the adopted land use designations examined within the environmental documents listed above. This Initial Study focuses on effects particular to the specific project site, impacts which were not analyzed within the EIR, and impacts which may require revisiting due to substantial new information. When applicable, the topical sections within the Initial Study summarize the findings within the environmental documents listed above. The analysis, supporting technical materials, and findings of the environmental document are incorporated by reference, and are available for review at the Civic Center, 311 Vernon Street, Roseville, CA.

EXPLANATION OF INITIAL STUDY CHECKLIST

The California Environmental Quality Act (CEQA) Guidelines recommend that lead agencies use an Initial Study Checklist to determine potential impacts of the proposed project on the physical environment. The Initial Study Checklist provides a list of questions concerning a comprehensive array of environmental issue areas potentially affected by this project. This section of the Initial Study incorporates a portion of Appendix G Environmental

Checklist Form, contained in the CEQA Guidelines. Within each topical section (e.g. Air Quality) a description of the setting is provided, followed by the checklist responses, thresholds used, and finally a discussion of each checklist answer.

There are four (4) possible answers to the Environmental Impacts Checklist on the following pages. Each possible answer is explained below:

- 1) A “Potentially Significant Impact” is appropriate if there is enough relevant information and reasonable inferences from the information that a fair argument based on substantial evidence can be made to support a conclusion that a substantial, or potentially substantial, adverse change may occur to any of the physical conditions within the area affected by the project. When one or more “Potentially Significant Impact” entries are made, an EIR is required.
- 2) A “Less Than Significant With Mitigation” answer is appropriate when the lead agency incorporates mitigation measures to reduce an impact from “Potentially Significant” to “Less than Significant.” For example, floodwater impacts could be reduced from a potentially-significant level to a less-than-significant level by relocating a building to an area outside of the floodway. The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less-than-significant level. Mitigation measures are identified as MM followed by a number.
- 3) A “Less Than significant Impact” answer is appropriate if there is evidence that one or more environmental impacts may occur, but the impacts are determined to be less than significant, or the application of development policies and standards to the project will reduce the impact(s) to a less-than-significant level. For instance, the application of the City’s Improvement Standards reduces potential erosion impacts to a less-than-significant level.
- 4) A “No Impact” answer is appropriate where it can be demonstrated that the impact does not have the potential to adversely affect the environment. For instance, a project in the center of an urbanized area with no agricultural lands on or adjacent to the project area clearly would not have an adverse effect on agricultural resources or operations. A brief explanation is required for all answers except “No Impact” answers that are adequately supported by the information sources cited in the Initial Study. Where a “No Impact” answer is adequately supported by the information sources cited in the Initial Study, further narrative explanation is not required. A “No Impact” answer is explained when it is based on project-specific factors as well as generous standards.

All answers must take account of the whole action involved, including off- and on-site, indirect, direct, construction, and operation impacts, except as provided for under State CEQA Guidelines.

INITIAL STUDY CHECKLIST

I. Aesthetics

The project site is located in a typical urbanized setting within a commercially zoned area of the City and is adjacent to roadways on all four sides. Public views of the site are from Blue Oaks Boulevard and Fiddymont Road, both arterial roadways, and its adjacent sidewalks. Public views are also from Harvey Way and Oak Meadow Drive, which are considered primary residential streets. The site is undeveloped and contains several native oak trees with grasses and small annual plants. The project will allow construction of a commercial shopping center consisting of multiple buildings totaling approximately 82,100 square feet. Surrounding uses include an undeveloped High Density Residential parcel to the north, an apartment complex (currently under construction) to the east, a single-family subdivision to the south, and a medical office building to the west.

Except as provided in Public Resources Code Section 21099, would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Have a substantial adverse effect on a scenic vista?				X
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?				X
c) In non-urbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from a publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?			X	
d) Create a new source of substantial light or glare, which would adversely affect day or nighttime views in the area?			X	

Thresholds of Significance and Regulatory Setting:

The significance of an environmental impact cannot always be determined through the use of a specific, quantifiable threshold. CEQA Guidelines Section 15064(b) affirms this by the statement “an ironclad definition of significant effect is not always possible because the significance of an activity may vary with the setting.” This is particularly true of aesthetic impacts. As an example, a proposed parking lot in a dense urban center would have markedly different visual effects than a parking lot in an open space area. For the purpose of this study, the significance thresholds are as stated in CEQA Guidelines Appendix G, as shown in a–d of the checklist below. The Findings of the Implementing Procedures indicate that compliance with the Zoning Ordinance (e.g. building height, setbacks, etc.), Subdivision Ordinance (RMC Ch. 18), Community Design Guidelines (Resolution 95-347), and applicable Specific Plan Policies and/or Specific Plan Design Guidelines will prevent significant impacts in urban settings as it relates to items a and b, below.

Discussion of Checklist Answers:

a–b) There are no designated or eligible scenic vistas or scenic highways within or adjacent to the City of Roseville.

c) The project site is in an urban setting and has street frontage on all four sides, with a future high density residential parcel to the north, a multi-family apartment complex to the east, low density residential uses to the south, and commercial uses to the west. The City of Roseville has adopted Community Design Guidelines (CDG) to establish common design elements and expectations for development within the City. The CDG includes provisions related to architectural design, site design and landscape design, to enhance the visual character of the urban environment. The CDG recommends preserving, to the extent feasible, visual resources such as native oak trees and creek or wetland resources. The site does not contain any creek or wetland resources; however, the project will require the removal of twenty-four (24) native oak trees on the project site, and therefore requires a Tree Permit. Consistent with the City's Tree Preservation ordinance (RMC Ch. 19.66), the Tree Permit would contain conditions of approval that include protective measures for the trees to remain on site, and mitigation measures that include payment of in-lieu mitigation fees to compensate for oak tree encroachment and removal. The project has been reviewed by City staff and was found to be consistent with the goals and policies of the CDG, the WRSP, and applicable zoning regulations. As such, impacts of the project related to this criterion are less than significant.

d) The project involves nighttime lighting to provide for the security and safety of project users. However, the project is already located within an urbanized setting with many existing lighting sources. Lighting for the project is conditioned to comply with City standards (i.e., Community Design Guidelines) to limit the height of light standards and to require cut-off lenses and glare shields to minimize light and glare impacts. The project will not create a new source of substantial light. None of the project elements are highly reflective, and therefore the project will not contribute to an increased source of glare. Impacts of the project are less than significant.

II. Agricultural & Forestry Resources

The State Department of Conservation oversees the Farmland Mapping and Monitoring Program, which was established to document the location, quality, and quantity of agricultural lands, and the conversion of those lands over time. The primary land use classifications on the maps generated through this program are: Urban and Built Up Land, Grazing Land, Farmland of Local Importance, Unique Farmland, Farmland of Statewide Importance, and Prime Farmland. According to the current California Department of Conservation Placer County Important Farmland Map (2012), the majority of the City of Roseville is designated as Urban and Built Up Land and most of the open space areas of the City are designated as Grazing Land. There are a few areas designated as Farmland of Local Importance and two small areas designated as Unique Farmland located on the western side of the City along Baseline Road. The current Williamson Act Contract map (2013/2014) produced by the Department of Conservation shows that there are no Williamson Act contracts within the City, and only one (on PFE Road) that is adjacent to the City. None of the land within the City is considered forest land by the Board of Forestry and Fire Protection.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?				X

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?				X
c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))?				X
d) Result in the loss of forest land or conversion of forest land to non-forest use?				X
e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use?				X

Thresholds of Significance and Regulatory Setting:

Unique Farmland, Farmland of Statewide Importance, and Prime Farmland are called out as protected farmland categories within CEQA Guidelines Appendix G. Neither the City nor the State has adopted quantified significance thresholds related to impacts to protected farmland categories or to agricultural and forestry resources. For the purpose of this study, the significance thresholds are as stated in CEQA Guidelines Appendix G, as shown in a–e of the checklist above.

Discussion of Checklist Answers:

a–e) The project site is not used for agricultural purposes, does not include agricultural zoning, is not within or adjacent to one of the areas of the City designated as a protected farmland category on the Placer County Important Farmland map, is not within or adjacent to land within a Williamson Act Contract, and is not considered forest land. Given the foregoing, the proposed project will have no impact on agricultural resources.

III. Air Quality

The City of Roseville, along with the south Placer County area, is located in the Sacramento Valley Air Basin (SVAB). The SVAB is within the Sacramento Federal Ozone Non-Attainment Area. Under the Clean Air Act, Placer County has been designated a "serious non-attainment" area for the federal 8-hour ozone standard, "non-attainment" for the state ozone standard, and a "non-attainment" area for the federal and state PM₁₀ standard.

(particulate matter less than 10 microns in diameter). Within Placer County, the Placer County Air Pollution Control District (PCAPCD) is responsible for ensuring that emission standards are not violated.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Conflict with or obstruct implementation of the applicable air quality plan?			X	
b) Result in a cumulatively considerable net increase of any criteria for which the project region is non-attainment under an applicable federal or state ambient air quality standard?			X	
c) Expose sensitive receptors to substantial pollutant concentrations?			X	
d) Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?			X	

Thresholds of Significance and Regulatory Setting:

In responding to checklist items a, b, and d, project-related air emissions would have a significant effect if they would result in concentrations that either violate an ambient air quality standard or contribute to an existing air quality violation. To assist in making this determination, the PCAPCD adopted thresholds of significance, which were developed by considering both the health-based ambient air quality standards and the attainment strategies outlined in the State Implementation Plan. The PCAPCD-recommended significance threshold for reactive organic gases (ROG) and nitrogen oxides (NO_x) is 82 pounds daily during construction and 55 pounds daily during operation, and for particulate matter (PM) is 82 pounds per day during both construction and operation. For all other constituents, significance is determined based on the concentration-based limits in the Federal and State Ambient Air Quality Standards. Toxic Air Contaminants (TAC) are also of public health concern, but no thresholds or standards are provided because they are considered to have no safe level of exposure. Analysis of TAC is based on the *Air Quality and Land Use Handbook – A Community Health Perspective* (April 2005, California Air Resources Board), which lists TAC sources and recommended buffer distances from sensitive uses. For checklist item c, the PCAPCD's *CEQA Air Quality Handbook (Handbook)* recommends that the same thresholds used for the project analysis be used for the cumulative impact analysis.

With regard to checklist item d, there are no quantified significance thresholds for exposure to objectionable odors. Significance is determined after taking into account multiple factors, including screening distances from odor sources (as found in the PCAPCD CEQA Handbook), the direction and frequency of prevailing winds, the time of day when odors are present, and the nature and intensity of the odor source.

Discussion of Checklist Answers:

a-b) Analyses are not included for sulfur dioxide, lead, and other constituents because there are no mass emission thresholds; these are concentration-based limits in the Federal and State Ambient Air Quality Standards which require substantial, point-source emissions (e.g. refineries, concrete plants, etc) before exceedance will occur, and the SVAB is in attainment for these constituents. Likewise, carbon monoxide is not analyzed because the SVAB is in attainment for this constituent, and it requires high localized concentrations (called carbon monoxide “hot spots”) before the ambient air quality standard would be exceeded. “Hot spots” are typically associated with heavy traffic congestion occurring at high-volume roadway intersections. The Amoruso Ranch EIR analysis of Citywide traffic indicated that 198 out of 226 signalized intersections would operate at level of service C or better—that is, they will not experience heavy traffic congestion. It further indicated that analyses of existing CO concentrations at the most congested intersections in Roseville show that CO levels are well below federal and state ambient air quality standards. The discussions below focus on emissions of ROG, NO_x, or PM.

PCAPCD recommends that lead agencies use the California Emissions Estimator Model (CalEEMod) to quantify a project’s construction and operational emissions for criterial air pollutants (NO_x, ROG, and PM). The results are then compared to the significance thresholds established by the district, as detailed above. However, according to PCAPCD’s published screening table, general commercial projects smaller than 249,099 square feet will not result in NO_x emissions that exceed 55 lbs/day, and therefore modeling is not required. Typically, NO_x emissions are substantially higher than ROG and PM₁₀; therefore, it can be assumed that projects that do not exceed the NO_x threshold will not exceed the ROG and PM₁₀ thresholds, and will not result in a significant impact related to operational emissions. The project proposes the construction of a shopping center consisting of six buildings totaling approximately 82,100 square feet, which is well below PCAPCD’s modeled example. Thus, the project is not expected to result in construction or operational emissions that would exceed the district’s thresholds for significance.

c) The project includes the construction of a gas station consisting of twelve (12) fuel pumps and an approximate 3,500 square-foot convenience store and car wash. A gasoline facility is a source of gasoline vapors that include TACs, primarily benzene. Prior to construction and operation of the gasoline facility, the applicant is required to obtain an Authority to Construct (ATC) permit from the PCAPCD. A Health Risk Analysis is required as part of the ATC permit in order to determine the potential cancer risk that will be generated as a result of the project. The applicant provided a project-specific Health Risk Analysis (Attachment 3), prepared by Trinity Consultants in March 2020, which concluded the annual amount of gasoline dispensed from the facility will be below the significance threshold for cancer risk of 10 in one million.

The Health Risk Analysis determined that the maximum cancer residential risk associated with the project would be 4.45 cancers/million, which is below the PCAPCD’s significance threshold of 10 cancers/million. The Analysis determined that the maximum non-cancer risks at nearby homes would be a hazard index (HI) of 0.02 for maximum chronic non-cancer risk and an HI of 0.23 for maximum acute non-cancer risk, both numbers well below the PCAPCD’s significance threshold of 1.0 HI for both chronic and acute non-cancer health risks. Based on these factors, impacts are less than significant.

d) Diesel fumes from construction equipment and delivery trucks are often found to be objectionable; however, construction is temporary and diesel emissions are minimal and regulated. Typical urban projects such as residences and retail businesses generally do not result in substantial objectionable odors when operated in compliance with City Ordinances (e.g. proper trash disposal and storage). The Project is a typical urban development that lacks any characteristics that would cause the generation of substantial unpleasant odors. Thus, construction and operation of the proposed project would not result in the creation of objectionable odors affecting a substantial number of people. A review of the project surroundings indicates that there are no substantial odor-generating uses near the project site; the project location meets the recommended screening distances from odor-generators provided by the PCAPCD. Impacts related to odors are less than significant.

IV. Biological Resources

The project site is currently undeveloped and consists of annual grasses and several native oak trees. City staff determined there are no evidence of wetlands or designated open space areas on the site.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?		X		
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies or regulations or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?			X	
c) Have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?				X
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?				X

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?			X	
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?				X

Thresholds of Significance and Regulatory Setting:

There is no ironclad definition of significance as it relates to biological resources. Thus, the significance of impacts to biological resources is defined by the use of expert judgment supported by facts, and relies on the policies, codes, and regulations adopted by the City and by regulatory agencies which relate to biological resources (as cited and described in the Discussion of Checklist Answers section). Thresholds for assessing the significance of environmental impacts are based on the CEQA Guidelines checklist items a–f, above. Consistent with CEQA Guidelines Section 15065, a project may have a significant effect on the environment if:

The project has the potential to substantially degrade the quality of the environment; substantially reduce the habitat of a fish or wildlife species; cause a fish or wildlife population to drop below self-sustaining levels; threaten to eliminate a plant or animal community; [or] substantially reduce the number or restrict the range of an endangered, rare or threatened species . . .

Various agencies regulate impacts to the habitats and animals addressed by the CEQA Guidelines checklist. These include the United States Fish and Wildlife Service, National Oceanic and Atmospheric Administration–Fisheries, United States Army Corps of Engineers, Central Valley Regional Water Quality Control Board, and California Department of Fish and Wildlife. The primary regulations affecting biological resources are described in the sections below.

Checklist item a addresses impacts to special status species. A “special status” species is one which has been identified as having relative scarcity and/or declining populations. Special status species include those formally listed as threatened or endangered, those proposed for formal listing, candidates for federal listing, and those classified as species of special concern. Also included are those species considered to be “fully protected” by the California Department of Fish and Wildlife (California Fish and Wildlife), those granted “special animal” status for tracking and monitoring purposes, and those plant species considered to be rare, threatened, or endangered in California by the California Native Plant Society (CNPS). The primary regulatory protections for special status species are within the Federal Endangered Species Act, California Endangered Species Act, California Fish and Game Code, and the Federal Migratory Bird Treaty Act (MBTA).

Checklist item b addresses all “sensitive natural communities” that may be affected by local, state, or federal regulations/policies while checklist item c focuses specifically on one type of such a community: federally-protected wetlands. Focusing first on wetlands, there are two questions to be posed in examining wet habitats: the first is whether the wetted area meets the technical definition of a wetland, making it subject to checklist item b, and the second is whether the wetland is subject to federal jurisdiction, making it subject to checklist item c.

The 1987 Army Corps Wetlands Delineation Manual is used to determine whether an area meets the technical criteria for a wetland. A delineation verification by the Army Corps verifies the size and condition of the wetlands and other waters in question, and determines the extent of government jurisdiction as it relates to Section 404 of the Federal Clean Water Act and Section 401 of the State Clean Water Act.

The Clean Water Act protects all “navigable waters”, which are defined as traditional navigable waters that are or were used for commerce, or may be used for interstate commerce; tributaries of covered waters; and wetlands adjacent to covered waters, including tributaries. Non-navigable waters are called isolated wetlands, and are not subject to either the Federal or State Clean Water Act. Thus, isolated wetlands are not subject to federal wetland protection regulations. However, in addition to the Clean Water Act, the State also has jurisdiction over impacts to surface waters through the Porter-Cologne Water Quality Control Act (Porter-Cologne), which does not require that waters be “navigable”. For this reason, isolated wetlands are regulated by the State of California pursuant to Porter-Cologne. The City of Roseville General Plan also provides protection for wetlands, including isolated wetlands, pursuant to the General Plan Open Space and Conservation Element. Federal, State and City regulations/policies all seek to achieve no net loss of wetland acreage, values, or function.

Aside from wetlands, checklist item b also addresses other “sensitive natural communities,” which includes any habitats protected by local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service. The City of Roseville General Plan Open Space and Conservation Element includes policies for the protection of riparian areas (streamside habitat) and floodplain areas; these are Vegetation and Wildlife section Policies 2 and 3. Policy 4 also directs preservation of additional area around stream corridors and floodplain if there is sensitive woodland, grassland, or other habitat which could be made part of a contiguous open space area. Other than wetlands, which were already discussed, US Fish and Wildlife and California Department of Fish and Wildlife habitat protections generally result from species protections, and are thus addressed via checklist item a.

For checklist item d, there are no regulations specific to the protection of migratory corridors. This item is addressed by an analysis of the habitats present in the vicinity and analyzing the probable effects on access to those habitats which will result from a project.

The City of Roseville Tree Preservation ordinance (RMC Ch.19.66) requires protection of native oak trees, and compensation for oak tree removal. The Findings of the Implementing Procedures indicate that compliance with the City of Roseville Tree Preservation ordinance (RMC Ch.19.66) will prevent significant impacts related to loss of native oak trees, referenced by item e, above.

Regarding checklist item f, there are no adopted Habitat Conservation Plans within the City of Roseville.

Discussion of Checklist Answers:

a) The project will require the removal of several oak trees, which could potentially provide habitat for nesting birds. Construction activities could also have the potential to disrupt offsite nesting species. A pre-construction nesting survey, **Mitigation Measure BIO-1**, is required in order to ensure that nesting birds are not harmed during construction. Ground disturbing activities shall not occur during the active nesting season, if it is necessary to conduct such activities during the nesting season, pre-construction surveys and mitigation as described in Mitigation Measure BIO-1, would be required. Compliance with Mitigation Measure BIO-1 will ensure that potential impacts to nesting birds are less than significant.

b-c) As discussed in the Environmental Setting, the project site is located in an urbanized area. The site is adjacent to paved roadways and is adjacent to residential and commercial uses. The property does not contain sensitive natural communities which are protected by federal, state or local policies, nor does it contain any wetlands; thus, the project will have no impact with regard to this criterion.

d) The City includes an interconnected network of open space corridors and preserves located throughout the City, to ensure that the movement of wildlife is not substantially impeded as the City develops. The development of the project site will not negatively impact these existing and planned open space corridors, nor is the project site located in an area that has been designated by the City, United States Fish and Wildlife, or California Department of Fish and Wildlife as vital or important for the movement of wildlife or the use of native wildlife nursery sites.

e) As defined by the City of Roseville Zoning Ordinance (Chapter 19.66, Tree Preservation), native oak trees greater than six (6") diameter at breast height are defined as protected. A Tree Permit is required for the removal of any protected tree, and for any regulated activity within the protected zone of a protected tree where the encroachment exceeds 20 percent. An arborist report including a tree inventory summary was provided by California Tree and Landscape Consulting, Inc., dated February 20, 2020 (Attachment 4). A total of 33 protected oak trees were identified on the property. Of the 33 trees, 28 trees with a total aggregate diameter of 721 inches are proposed for removal to facilitate development of the site, while five (5) trees are proposed to be retained (see Table 2 and Table 3). Eight (8) of the trees proposed for removal were identified as having failed and being in down and dead condition. These trees are identified in Table 2. The arborist's recommendations include monitoring any excavation for the retaining wall footings for the trees to remain on the site. The Tree Permit would contain conditions of approval to follow the recommendations of the Arborist Report, and mitigation measures that include payment of in-lieu mitigation fees to compensate for oak tree removal and on-site replacement plantings consisting of both native and non-native tree species. Any deviation from the approved permit would require a Tree Permit Modification, which would require approval by the City.

The above tree impacts were already anticipated and evaluated within the West Roseville Specific Plan EIR (prior EIR). The prior EIR included an evaluation of tree canopy loss within the entire Specific Plan area, and preserved the majority of the oak groves within open space. Figure 4.7-6 of the prior EIR (see Figure 3, EIR Tree Locations) shows the project site as a Community Commercial parcel, and identified the oak trees on this site as being lost due to development. The EIR estimated a total loss of nearly 6,000 inches of oak trees, and to offset this impact included a tree mitigation plan to plant nearly 7,000 oak trees within the WRSP open space. The proposed project is consistent with the prior EIR analysis, and thus does not result in new or previously undisclosed impacts to native oak tree resources. The EIR required future projects comply with the City's Tree Ordinance; this project includes a Tree Permit, consistent with the City's Tree Ordinance. Consistency with the requirements of the Tree Permit for this project will ensure that impacts are less than significant.

Figure 3: EIR Tree Locations

Table 2: Trees Proposed for Removal

Tree Number	Common Name	Structure Health	Dripline Radius (inches)	Total Diameter at Breast Height (DBH) (inches)
1510	Blue Oak	Failed	-	23
1513	Blue Oak	Failed	-	29
1514	Blue Oak	Poor to Fair	33	28
1521	Blue Oak	Failed	-	26
1522	Blue Oak	Fair	22	18
1523	Blue Oak	Failed	-	23
1528	Blue Oak	Poor to Fair	24	17
1529	Blue Oak	Poor to Fair	32	26

Total Inches				122

f) There are no Habitat Conservation Plans; Natural Community Conservation Plans; or other approved local, regional, or state habitat conservation plans that apply to the project site.

V. Cultural Resources

As described within the Open Space and Conservation Element of the City of Roseville General Plan, the Roseville region was within the territory of the Nisenan (also Southern Maidu or Valley Maidu). Two large permanent Nisenan habitation sites have been identified and protected within the City's open space (in Maidu Park). Numerous smaller cultural resources, such as midden deposits and bedrock mortars, have also been recorded in the City. The gold rush which began in 1848 marked another settlement period, and evidence of Roseville's ranching and mining past are still found today. Historic features include rock walls, ditches, low terraces, and other remnants of settlement and activity. A majority of documented sites within the City are located in areas designated for open space uses.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Cause a substantial adverse change in the significance of an historic resource pursuant to Section 15064.5?			X	
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?			X	
c) Disturb any human remains, including those interred outside of dedicated cemeteries?			X	

Thresholds of Significance and Regulatory Setting:

The significance of impacts to cultural resources is based directly on the CEQA Guidelines checklist items a–e listed above. The Archaeological, Historic, and Cultural Resources section of the City of Roseville General Plan also directs the proper evaluation of and, when feasible, protection of significant resources (Policies 1 and 2). There are also various federal and State regulations regarding the treatment and protection of cultural resources, including the National Historic Preservation Act and the Antiquities Act (which regulate items of significance in history), Section 7050.5 of the California Health and Safety Code, Section 5097.9 of the California Public

Resources Code (which regulates the treatment of human remains) and Section 21073 et seq. of the California Public Resources Code (regarding Tribal Cultural Resources). The CEQA Guidelines also contains specific sections, other than the checklist items, related to the treatment of effects on historic resources.

Pursuant to the CEQA Guidelines, if it can be demonstrated that a project will cause damage to a unique archaeological resource, the lead agency may require reasonable efforts to be made to permit any or all of these resources to be preserved in place or left in an undisturbed state. To the extent that they cannot be left undisturbed, mitigation measures are required (Section 21083.2 (a), (b), and (c)). A *historical resource* is a resource listed, or determined to be eligible for listing, in the California Register of Historical Resources (CRHR) (Section 21084.1); a resource included in a local register of historical resources (Section 15064.5(a)(2)); or any object, building, structure, site, area, place, record, or manuscript which a lead agency determines to be historically significant (Section 15064.5 (a)(3)). Public Resources Code Section 5024.1 requires evaluation of historical resources to determine their eligibility for listing on the CRHR.

Discussion of Checklist Answers:

a–c) No cultural resources are known to exist on the project site per the WRSP EIR; however, standard mitigation measures apply which are designed to reduce impacts to cultural resources, should any be found on-site. The measure requires an immediate cessation of work, and contact with the appropriate agencies to address the resource before work can resume. This mitigation need not be applied herein, as it is already applicable and required of the project pursuant to the WRSP. The project will not result in any new impacts beyond those already discussed and disclosed in the WRSP EIR; thus, project-specific impacts are less than significant.

VI. Energy

Roseville Electric provides electrical power in the City and Pacific Gas and Electric (PG&E) provides natural gas. The City purchases wholesale electrical power from both the Western Area Power Administration (WAPA), which is generated by the federal government's Central Valley Project, which produces 100 percent hydroelectric energy sources from a system of dams, reservoirs, and power plants within central and northern California. In addition, up to 50 percent of the City's power is generated at the City-owned Roseville Energy Park (REP). The REP is a 160 megawatt natural-gas-fired power plant that uses a combined cycle gas turbine technology. The City also owns the 48 megawatt combustion-turbine Roseville Power Plant 2 (REP 2), which is used for peaking energy. The City's electric power mix varies from year-to-year, but according to the most recent Citywide energy analysis (the Amoruso Ranch Environmental Impact Report), the mix in 2013/2014 was 25% eligible renewable (geothermal, small hydroelectric, and wind), 14% hydroelectric, 48% natural gas, and 13% from other sources (power purchased by contract).

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation?			X	

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?			X	

Thresholds of Significance and Regulatory Setting:

Established in 2002, California's Renewable Portfolio Standard (RPS) currently requires that 33 percent of electricity retail sales be served by renewable energy resources by 2020, and 50 percent by 2030. The City published a Renewables Portfolio Standard Procurement Plan in June 2018, and continues to comply with the RPS reporting and requirements and standards. There are no numeric significance thresholds to define "wasteful, inefficient, or unnecessary" energy consumption, and therefore significance is based on CEQA Guidelines checklist items a and b, above, and by the use of expert judgment supported by facts, relying on the policies, codes, and regulations adopted by the City and by regulatory agencies which relate to energy. The analysis considers compliance with regulations and standards, project design as it relates to energy use (including transportation energy), whether the project will result in a substantial unplanned demand on the City's energy resources, and whether the project will impede the ability of the City to meet the RPS standards.

Discussion of Checklist Answers:

a-b) The project would consume energy both during project construction and during project operation. During construction, fossil fuels, electricity, and natural gas would be used by construction vehicles and equipment. However, the energy consumed during construction would be temporary, and would not represent a significant demand on available resources. There are no unusual project characteristics that would necessitate the use of construction equipment or methods that would be less energy-efficient or which would be wasteful.

The completed project would consume energy related to building operation, exterior lighting, landscape irrigation and maintenance, and vehicle trips to and from the use. In accordance with California Energy Code Title 24, the project would be required to meet the Building Energy Efficiency Standards. This includes standards for water and space heating and cooling equipment; insulation for doors, pipes, walls, and ceilings; and appliances, to name a few. The project would also be eligible for rebates and other financial incentives from both the electric and gas providers for the purchase of energy-efficient appliances and systems, which would further reduce the operational energy demand of the project. The project was distributed to both PG&E and Roseville Electric for comments, and was found to conform to the standards of both providers; energy supplies are available to serve the project.

The project is consistent with the existing land use designation of Community Commercial, and has therefore been assumed for development with commercial uses in citywide environmental analyses, such as in the Amoruso Ranch Specific Plan, which updated the City's General Plan. The project is therefore consistent with the current citywide assessment of energy demand, and will not result in substantial unplanned demands. In addition, based on the foregoing analysis, the project will not result in inefficient, wasteful, or unnecessary consumption of energy; impacts are less than significant.

VII. Geology and Soils

As described in the Safety Element of the City of Roseville General Plan, there are three inactive faults (Volcano Hill, Linda Creek, and an unnamed fault) in the vicinity, but there are no known active seismic faults within Placer County. The last seismic event recorded in the South Placer area occurred in 1908, and is estimated to have been at least a 4.0 on the Richter Scale. Due to the geographic location and soil characteristics within the City, the General Plan indicates that soil liquefaction, landslides, and subsidence are not a significant risk in the area.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:			X	
i) Ruptures of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? (Refer to Division of Mines and Geology Special Publication 42.)			X	
• Strong seismic ground shaking?			X	
• Seismic-related ground failure, including liquefaction?			X	
• Landslides?			X	
b) Result in substantial soil erosion or the loss of topsoil?			X	
c) Be located in a geological unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?				X
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial direct or indirect risks to life or property?				X

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
e) Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater?				X
f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?			X	

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to geology and soils is based directly on the CEQA Guidelines checklist items a–e listed above. Regulations applicable to this topic include the Alquist-Priolo Act, which addresses earthquake safety in building permits, and the Seismic Hazards Mapping Act, which requires the state to gather and publish data on the location and risk of seismic faults.

The Findings of the Implementing Procedures indicate that compliance with the Flood Damage Prevention Ordinance (RMC Ch.9.80) and Design/Construction Standards (Resolution 07-107) will prevent significant impacts related to checklist item b. The Ordinance and standards include permit requirements for construction and development in erosion-prone areas and ensure that grading activities will not result in significant soil erosion or loss of topsoil. The use of septic tanks or alternative waste systems is not permitted in the City of Roseville, and therefore no analysis of criterion e is necessary.

Discussion of Checklist Answers:

a) The project will not expose people or structures to potential substantial adverse effects involving seismic shaking, ground failure or landslides.

i–iii) According to United States Geological Service mapping and literature, active faults are largely considered to be those which have had movement within the last 10,000 years (within the Holocene or Historic time periods)¹ and there are no major active faults in Placer County. The California Geological Survey has prepared a map of the state which shows the earthquake shaking potential of areas throughout California based primarily on an area's distance from known active faults. The map shows that the City lies in a relatively low-intensity ground-shaking zone. Commercial, institutional, and residential buildings as well as all related infrastructure are required, in conformance with Chapter 16, *Structural Design Requirements*, Division IV, *Earthquake Design* of the California Building Code, to lessen the exposure to potentially damaging vibrations through seismic-resistant design. In compliance with the Code, all structures in the Project area would be well-built to withstand ground shaking from possible earthquakes in the region; impacts are less than significant.

iv) Landslides typically occur where soils on steep slopes become saturated or where natural or manmade conditions have taken away supporting structures and vegetation. The existing and proposed slopes of the project site are not steep enough to present a hazard during development or upon completion of the

¹ United States Geological Survey, <http://earthquake.usgs.gov/learn/glossary/?term=active%20fault>, Accessed January 2016

project. In addition, measures would be incorporated during construction to shore minor slopes and prevent potential earth movement. Therefore, impacts associated with landslides are less than significant.

b) Grading activities will result in the disruption, displacement, compaction and over-covering of soils associated with site preparation (grading and trenching for utilities). Grading activities for the project will be limited to the project site. Grading activities require a grading permit from the Engineering Division. The grading permit is reviewed for compliance with the City's Improvement Standards, including the provision of proper drainage, appropriate dust control, and erosion control measures. Grading and erosion control measures will be incorporated into the required grading plans and improvement plans. Therefore, the impacts associated with disruption, displacement, and compaction of soils associated with the project are less than significant.

c, d) A review of the Natural Resources Conservation Service Soil Survey for Placer County, accessed via the Web Soil Survey (<http://websoilsurvey.nrcs.usda.gov/app/>), indicates that the soils on the site are Cometa-Fiddymont complex, 1 to 5 percent slopes, Ramona sandy loam, 2 to 9 percent slopes, and Xerofluvents, frequently flooded, none of which are listed as geologically unstable or sensitive. Therefore, the project has no impacts related to this criteria.

f) No paleontological resources are known to exist on the project site per the WRSP EIR; however, standard mitigation measures apply which are designed to reduce impacts to such resources, should any be found on-site. The measure requires an immediate cessation of work, and contact with the appropriate agencies to address the resource before work can resume. With these measures in place, project-specific impacts are less than significant.

VIII. Greenhouse Gases

Greenhouse gases trap heat in the earth's atmosphere. The principal greenhouse gases (GHGs) that enter the atmosphere because of human activities are carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), and fluorinated gases. As explained by the United States Environmental Protection Agency², global average temperature has increased by more than 1.5 degrees Fahrenheit since the late 1800s, and most of the warming of the past half century has been caused by human emissions. The City has taken proactive steps to reduce greenhouse gas emissions, which include the introduction of General Plan policies to reduce emissions, changes to City operations, and climate action initiatives.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?			X	
b) Conflict with an applicable plan, policy, or regulation adopted for the purpose of reducing the emissions of greenhouse gases?			X	

² <http://www3.epa.gov/climatechange/science/overview.html>, Accessed January 2016

Thresholds of Significance and Regulatory Setting:

In Assembly Bill 32 (the California Global Warming Solutions Act), signed by Governor Schwarzenegger of California in September 2006, the legislature found that climate change resulting from global warming was a threat to California, and directed that “the State Air Resources Board design emissions reduction measures to meet the statewide emissions limits for greenhouse gases . . .”. The target established in AB 32 was to reduce emissions to 1990 levels by the year 2020. CARB subsequently prepared the *Climate Change Scoping Plan* (Scoping Plan) for California, which was approved in 2008. The Scoping Plan provides the outline for actions to reduce California's GHG emissions. CARB's updated August 2011 Scoping Plan calculated a reduction needed of 21.7% from future “Business As Usual” (BAU) conditions in the year 2020. The current Scoping Plan (adopted May 2014) indicates that statewide emissions of GHG in 1990 amounted to 431 million metric tons, and that the 2020 “Business As Usual” (BAU) scenario is estimated as 509³ million metric tons, which would require a reduction of 15.3% from 2020 BAU. In addition to this, Senate Bill 32 was signed by the Governor on September 8, 2016, to establish a reduction target of 40 percent below 1990 levels by 2030. The Air Resources Board is currently updating the Scoping Plan to reflect this target.

The Placer County Air Pollution Control District (PCAPCD) recommends that thresholds of significance for GHG be related to AB 32 reduction goals, and has adopted thresholds of significance which take into account the 2030 reduction target. The thresholds include a de minimis and a bright-line maximum threshold. Any project emitting less than 1,100 metric tons of carbon dioxide equivalents per year (MT CO₂e/yr) during construction or operation results in less than significant impacts. The PCAPCD considers any project with emissions greater than the bright-line cap of 10,000 MT CO₂e/yr to have significant impacts. For projects exceeding the de minimum threshold but below the bright-line threshold, comparison to the appropriate efficiency threshold is recommended. The significance thresholds are shown in Table 1 below.

Table 1: GHG Significance Thresholds

Bright-line Threshold 10,000 MT CO ₂ e/yr			
Residential Efficiency (MT CO ₂ e/capita ¹)		Non-Residential Efficiency (MT CO ₂ e/ksf ²)	
Urban	Rural	Urban	Rural
4.5	5.5	26.5	27.3
De Minimis Threshold 1,100 MT CO ₂ e/yr			
1. Per Capita = per person			
2. Per ksf = per 1,000 square feet of building			

Discussion of Checklist Answers:

a–b) Greenhouse gases are primarily emitted as a result of vehicle operation associated with trips to and from a project, and energy consumption from operation of the buildings. Greenhouse gases from vehicles is assessed based on the vehicle miles traveled (VMT) resulting from a project, on a Citywide basis. Residential projects, destination centers (such as a regional mall), and major employers tend to increase VMT in a study area, either by adding new residents traveling in an area, or by encouraging longer trip lengths and drawing in trips from a broader regional area. However, non-residential projects and neighborhood-serving uses (e.g. neighborhood parks) tend to lower VMT in a study area because they do not generate new trips within the study area, they divert existing trips. These trips are diverted because the new use location is closer to home, on their way to another destination (e.g. work), or is otherwise more convenient.

³ Includes Pavely and Renewables Portfolio Standard reduction

As discussed, the project would not be anticipated to increase VMT, since it is providing services in closer proximity to developed residential areas of the City. In addition, as discussed in the Transportation section of this Initial Study, the project is anticipated to result in a lower trip generation than what was assumed in the City's traffic model for this area. Therefore, the focus of this analysis is on the emissions which would result from the operation of the proposed buildings. CalEEMod Version 2016.3.2 was used to calculate the operational emissions of the project (see Attachment 5), which includes energy run to the buildings, area emissions such as landscape equipment to maintain the site, and water and wastewater energy demands. According to the CalEEMod results, the project would result in annual operational emissions of 726.45 MT CO₂e, which is below the de minimis threshold of 1,100 MT CO₂e. Therefore, the proposed project would not result in significant operational emissions of GHG.

Construction-related GHG emissions occur at one point in time and are therefore not typically expected to significantly contribute to climate change. Climate change is a cumulative effect that occurs over time, as emissions increase on a year-to-year basis due to increases in developed area and other factors; construction emissions are a one-time emission source, which end once the project is built. The CalEEMod results indicate the project would result in annual construction emissions of 338.07 CO₂e in the most active construction year, which is below the de minimis threshold of 1,100 MT CO₂e/yr. Thus, the project-generated GHG emissions would not conflict with, and are consistent with, the State goals listed in AB32 and other policies and regulations adopted by the California Air Resources Board. This impact is considered less than significant.

IX. Hazards and Hazardous Materials

There are no hazardous cleanup sites of record within 1,000 feet of the site according to both the State Water Resources Control Envirostor database (<http://geotracker.waterboards.ca.gov/>) and the Department of Toxic Substances Control Envirostor database (<http://www.envirostor.dtsc.ca.gov/public/>). The project is not located on a site where existing hazardous materials have been identified, and the project does not have the potential to expose individuals to hazardous materials.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?			X	
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?			X	

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?				X
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?				X
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard or excessive noise for people residing or working in the project area?				X
f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?				X
g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury or death involving wildland fires?				X

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to hazardous materials is based directly on the CEQA Guidelines checklist items a–h listed above. A material is defined as hazardous if it appears on a list of hazardous materials prepared by a federal, state or local regulatory agency, or if it has characteristics defined as hazardous by such an agency. The determination of significance based on the above criteria depends on the probable frequency and severity of consequences to people who might be exposed to the health hazard, and the degree to which Project design or existing regulations would reduce the frequency of or severity of exposure. As an example, products commonly used for household cleaning are classified as hazardous when transported in large quantities, but one would not conclude that the presence of small quantities of household cleaners at a home would pose a risk to a school located within ¼-mile.

Many federal and State agencies regulate hazards and hazardous substances, including the United States Environmental Protection Agency (US EPA), California Department of Toxic Substances Control (DTSC), Central Valley Regional Water Quality Control Board (Regional Water Board), and the California Occupational Safety and Health Administration (CalOSHA). The state has been granted primacy (primary responsibility for oversight) by the US EPA to administer and enforce hazardous waste management programs. State regulations also have detailed planning and management requirements to ensure that hazardous materials are handled, stored, and disposed of properly to reduce human health risks. California regulations pertaining to hazardous waste management are published in the California Code of Regulations (see 8 CCR, 22 CCR, and 23 CCR).

The project is not within an airport land use plan or within two miles of a public or public use airport. Therefore, no further discussion is provided for items e.

Discussion of Checklist Answers:

a-b) Standard construction activities would require the use of hazardous materials such as fuels, oils, lubricants, glues, paints and paint thinners, soaps, bleach, and solvents. These are common household and commercial materials routinely used by both businesses and average members of the public. The materials only pose a hazard if they are improperly used, stored, or transported either through upset conditions (e.g. a vehicle accident) or mishandling. In addition to construction use, the operational project would result in the use of common hazardous materials as well, including bleach, solvents, and herbicides. Regulations pertaining to the transport of materials are codified in 49 Code of Federal Regulations 171–180, and transport regulations are enforced and monitored by the California Department of Transportation and by the California Highway Patrol. Specifications for storage on a construction site are contained in various regulations and codes, including the California Code of Regulations, the Uniform Fire Code, and the California Health and Safety Code. These same codes require that all hazardous materials be used and stored in the manner specified on the material packaging. In addition, compliance with state and federal standards governing gas stations, including the PCAPCD's permitting requirements for such uses, would ensure that the project does not result in significant impacts related to hazards and hazardous materials. Existing regulations and programs are sufficient to ensure that potential impacts as a result of the use or storage of hazardous materials are reduced to less than significant levels.

c) The project is not located within a ¼-mile of an existing or proposed school, and thus there is no impact with respect to this criterion.

d) The project is not located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5⁴; therefore, no impact will occur.

f) This project is located within an area currently receiving City emergency services and development of the site has been anticipated and incorporated into emergency response plans. As such, the project will cause a less than significant impact to the City's Emergency Response or Management Plans. Furthermore, the project will be required to comply with all local, State and federal requirements for the handling of hazardous materials, which will ensure less-than-significant impacts. These will require the following programs:

- A Risk Management and Prevention Program (RMPP) is required of uses that handle toxic and/or hazardous materials in quantities regulated by the California Health and Safety Code and/or the City.
- Businesses that handle toxic or hazardous materials are required to complete a Hazardous Materials Management Program (HMMP) pursuant to local, State, or federal requirements.

g) The California Department of Forestry and Fire Protection (CAL FIRE) is the state agency responsible for wildland fire protection and management. As part of that task, CAL FIRE maintains maps designating

⁴ <http://www.calepa.ca.gov/SiteCleanup/CorteseList/SectionA.htm>

Wildland Fire Hazard Severity zones. The City is not located within a Very High Fire Hazard Severity Zone, and is not in a CAL FIRE responsibility area; fire suppression is entirely within local responsibility. The project site is in an urban area, and therefore would not expose people to any risk from wildland fire. There would be no impact with regard to this criterion.

X. Hydrology and Water Quality

As described in the Open Space and Conservation Element of the City of Roseville General Plan, the City is located within the Pleasant Grove Creek Basin and the Dry Creek Basin. Pleasant Grove Creek and its tributaries drain most of the western and central areas of the City and Dry Creek and its tributaries drain the remainder of the City. Most major stream areas in the City are located within designated open space.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality?			X	
b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?			X	
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner which would:			X	
i. result in substantial erosion or siltation on or off-site;			X	
ii. substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site;			X	

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
iii. create or contribute runoff water which would exceed the capacity of existing or planned stormwater systems or provide substantial additional sources of polluted runoff; or			X	
iv. impede or redirect flood flows?				X
d) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?			X	
e) In flood hazard, tsunami, or seiches zones, risk release of pollutants due to project inundation?				X

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to hydrology and water quality is based directly on the CEQA Guidelines checklist items a–e listed above. For checklist item a, c (i), d, and e, the Findings of the Implementing Procedures indicate that compliance with the City of Roseville Design/Construction Standards (Resolution 07-107), Urban Stormwater Quality Management and Discharge Control Ordinance (RMC Ch. 14.20), and Stormwater Quality Design Manual (Resolution 16-152) will prevent significant impacts related to water quality or erosion. The standards require preparation of an erosion and sediment control plan for construction activities and includes designs to control pollutants within post-construction urban water runoff. Likewise, it is indicated that the Drainage Fees for the Dry Creek and Pleasant Grove Watersheds (RMC Ch.4.48) and City of Roseville Design/Construction Standards (Resolution 07-107) will prevent significant impacts related to checklist items c (ii) and c (iii). The ordinance and standards require the collection of drainage fees to fund improvements that mitigate potential flooding impacts, and require the design of a water drainage system that will adequately convey anticipated stormwater flows without increasing the rate or amount of surface runoff. These same ordinances and standards prevent impacts related to groundwater (items a and d), because developers are required to treat and detain all stormwater onsite using stormwater swales and other methods which slow flows and preserve infiltration. Finally, it is indicated that compliance with the Flood Damage Prevention Ordinance (RMC Ch. 9.80) will prevent significant impacts related to items c (iv) and e. The Ordinance includes standard requirements for all new construction, including regulation of development with the potential to impede or redirect flood flows, and prohibits development within flood hazard areas. Impacts from tsunamis and seiches were screened out of the analysis (item e) because the project is not located near a water body or other feature that would pose a risk of such an event.

Discussion of Checklist Answers:

a,c (i),d, e) The project will involve the disturbance of on-site soils and the construction of impervious surfaces, such as asphalt paving. Disturbing the soil can allow sediment to be mobilized by rain or wind, and cause displacement into waterways. To address this and other issues, the developer is required to receive approval of

a grading permit and/or improvement plants prior to the start of construction. The permit or plans are required to incorporate mitigation measures for dust and erosion control. In addition, the City has a National Pollutant Discharge Elimination System (NPDES) Municipal Stormwater Permit issued by the Central Valley Regional Water Quality Control Board which requires the City to reduce pollutants in stormwater to the maximum extent practicable. The City does this, in part, by means of the City's 2016 Design/Construction Standards, which require preparation and implementation of a Stormwater Pollution Prevention Plan. All permanent stormwater quality control measures must be designed to comply with the City's Manual for Stormwater Quality Control Standards for New Development, the City's 2016 Design/Construction Standards, Urban Stormwater Quality Management and Discharge Control Ordinance, and Stormwater Quality Design Manual. For these reasons, impacts related to water quality are less than significant.

b, d) The project does not involve the installation of groundwater wells. The City maintains wells to supplement surface water supplies during multiple dry years, but the effect of groundwater extraction on the aquifer was addressed in the Water Supply Assessment of the Amoruso Ranch Specific Plan EIR, which included a Citywide water analysis. The proposed project is consistent with the General Plan land use designation, and is thus consistent with the citywide Water Supply Assessment. Project impacts related to groundwater extraction are less than significant. Furthermore, all permanent stormwater quality control measures must be designed to comply with the Stormwater Quality Design Manual, which requires the use of bioswales and other onsite detention and infiltration methods. These standards ensure that stormwater will continue to infiltrate into the groundwater aquifer.

c (ii and iii)) The project has been reviewed by City Engineering staff for conformance with City ordinances and standards. The project includes adequate and appropriate facilities to ensure no net increase in the amount or rate of stormwater runoff from the site, and which will adequately convey stormwater flows.

c (iv) and e) The project has been reviewed by City Engineering staff for conformance with City ordinances and standards. The project is not located within either the Federal Emergency Management Agency floodplain or the City's Regulatory Floodplain (defined as the floodplain which will result from full buildout of the City). Therefore, the project will not impede or redirect flood flows, nor will it be inundated. The proposed project is located within an area of flat topography and is not near a waterbody or other feature which could cause a seiche or tsunami. There would be no impact with regard to these criterion.

XI. Land Use and Planning

The project site has a General Plan land use designation and zoning designation of Community Commercial (CC). Surrounding properties have commercial and residential land use and zoning designations, as described in the Background section of this Initial Study.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Physically divide an established community?				X
b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?				X

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to land use is based directly on the CEQA Guidelines checklist items a–c listed above. Consistency with applicable City General Plan policies, Improvement Standards, and design standards is already required and part of the City’s processing of permits and plans, so these requirements do not appear as mitigation measures. Land use regulations applicable to the site include the City’s General Plan 2035, the Zoning Ordinance, and the NERSP. The NERSP contains general design guidelines and policies for development within the NERSP as a whole.

Discussion of Checklist Answers:

- a) The project area has been planned for development, including adequate roads, pedestrian paths, and bicycle paths to provide connections within the community. The project involves frontage improvements including new driveways, sidewalks, and pedestrian connections. As such, the project will not physically divide an established community.
- b) With the application for a Tree Permit, the project is consistent with the Zoning Ordinance requirements for the removal and mitigation of oak trees. The project would be required to comply with the City’s Improvement Standards in order to receive a grading permit. The proposed project is consistent with the General Plan and the WRSP, and does not conflict with the City’s policies and regulations adopted for the purpose of avoiding or mitigating an environmental impact.

XII. Mineral Resources

The Surface Mining and Reclamation Act (SMARA) of 1975 requires the State Geologist to classify land into Mineral Resource Zones (MRZ’s) based on the known or inferred mineral resource potential of that land. The California Division of Mines and Geology (CDMG) was historically responsible for the classification and designation of areas containing—or potentially containing—significant mineral resources, though that responsibility now lies with the California Geological Survey (CGS). CDMG published Open File Report 95-10, which provides the mineral classification map for Placer County. A detailed evaluation of mineral resources has not been conducted within the City limits, but MRZ’s have been identified. There are four broad MRZ categories (MRZ-1 through MRZ-4), and only MRZ-2 represents an area of known significant mineral resources. The City of Roseville General Plan EIR included Exhibit 4.1-3, depicting the location of MRZ’s in the City limits. There is only one small MRZ-2 designation area, located at the far eastern edge of the City.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?				X

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?				X

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to mineral resources is based directly on the CEQA Guidelines checklist items a and b listed above.

Discussion of Checklist Answers:

a–b) The project site is not in the area of the City known to include any mineral resources that would be of local, regional, or statewide importance; therefore, the project has no impacts on mineral resources.

XIII. Noise

The project site is currently undeveloped and is surrounded by residential and commercial uses, which typically do not generate substantial noise volumes. Both of these roadways are identified as transportation noise sources in the City's General Plan Noise Element. According to the General Plan, the project site is within the 60 dB L_{dn} noise contour for existing roadways and within the 65 dB L_{dn} noise contour for future roadways (City of Roseville 2015, Figure IX-1 and Figure IX-2).

Would the project result in:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?		X		
b) Generation of excessive ground borne vibration of ground borne noise levels?			X	

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
c) For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?				X

Thresholds of Significance and Regulatory Setting:

Standards for transportation noise and non-transportation noise affecting existing or proposed land uses are established within the City of Roseville General Plan Noise Element Table IX-1 and IX-3, and these standards are used as the thresholds to determine the significance of impacts related to items a and c. The significance of other noise impacts is based directly on the CEQA Guidelines checklist items b and c listed above. The Findings of the Implementing Procedures indicate that compliance with the City Noise Regulation (RMC Ch. 9.24) will prevent significant non-transportation noise as it relates to items a and b. The Ordinance establishes noise exposure standards that protect noise-sensitive receptors from a variety of noise sources, including non-transportation/fixed noise, amplified sound, industrial noise, and events on public property. The project is not within an airport land use plan, within two miles of a public or public use airport and there are also no private airstrips in the vicinity of the project area. Therefore, item c has been ruled out from further analysis.

Discussion of Checklist Answers:

a) The City of Roseville General Plan Noise Element includes Policy 7, which requires proposed fixed noise sources to be mitigated so as not to exceed the noise level performance standards contained within Noise Element Table IX-3. These standards are included in Table 4 below. Fixed noise sources are defined as noises that come from a specified area, while moving noise sources are from transportation facilities (roadway noise, train noise, etc.); the proposed project will generate fixed noise.

Table 4: Noise Element Table IX-3

PERFORMANCE STANDARDS FOR NON-TRANSPORTATION NOISE SOURCES OR PROJECTS AFFECTED BY NON-TRANSPORTATION NOISE SOURCES (As Measured at the Property Line of Noise-Sensitive Uses)		
Noise Level Descriptor	Daytime (7 a.m. to 10 p.m.)	Nighttime (10 p.m. to 7 a.m.)
Hourly L_{eq} , dB	50	45
Maximum level, dB	70	65
¹ For municipal power plants consisting primarily of broadband, steady state noise sources, the hourly (L_{eq}) noise standard may be increased up to 10 dB(A), but not exceed 55 dB(A) Hourly L_{eq} dB. Each of the noise levels specified above should be lowered by five dB for simple tone noises, noises consisting primarily of speech or music, or for recurring impulsive noises. Such noises are generally considered by residents to be particularly annoying and are a primary source of noise complaints. These noise level standards do not apply to residential units established in conjunction with industrial or commercial uses (e.g., caretaker dwellings). No standards have been included for interior noise levels. Standard construction practices should, with exterior noise levels identified, result in acceptable interior noise levels.		

The proposed project is a shopping center including a grocery store and a mix of retail and commercial uses. The project includes two loading dock areas adjacent to the grocery store and Junior Major buildings on the northern portion of the site, south of Harvey Way. The project also includes a gas station with an approximate 3,500 square-foot convenience store building and drive-through car wash on Pad 3, which is located on the southeastern portion of the overall site (see Figure 3). An Environmental Noise Assessment was prepared for the project by Bollard Acoustical Consultants, Inc. (BAC) and is included as Attachment 6. The assessment evaluates noise from the proposed loading dock areas and car wash portion of the gas station. It concluded that the noise generated by on-site truck circulation, loading docks, and car wash dryer operations could potentially exceed the applicable noise level limits at the nearest residential uses. As such, noise mitigation measures are required in order to comply with the General Plan noise standards, and to ensure impacts are less than significant. Each of these noise sources and related mitigation measures are addressed separately, below.

On-Site Truck Circulation Noise

Noise exposure from on-site truck circulation is expected to exceed the applicable General Plan noise standard for nighttime noise (45 dB L_{eq} and 65 dB L_{max}) at the adjacent residential use to the north, across Harvey Way. Therefore, in order to avoid exceeding General Plan noise standards, **Mitigation Measure NOI-1** is included which requires a solid noise barrier measuring a minimum of 7 feet in height between the proposed truck lane and residential development to the north. Alternatively, commercial truck deliveries shall be restricted to daytime hours (7 a.m. to 10 p.m.) if a noise barrier is not constructed as prescribed.

Loading Dock Noise

Noise exposure from loading dock activities is expected to exceed the General Plan noise standard for daytime and nighttime noise at the adjacent future High Density Residential (HDR) use to the north, across Harvey Way. The assessment concluded a solid noise barrier measuring a minimum of 6 feet in height is required in order to comply with the daytime noise standards, while a solid noise barrier measuring a minimum of 9 feet in height is required in order to comply with the nighttime noise standards. If the noise barrier is less than 9 feet in height,

delivery activities shall be restricted to daytime hours (7 a.m. to 10 p.m.) in order to comply with the nighttime noise standards. This is reflected in Mitigation Measure NOI-1.

Car Wash Dryer Noise

The project includes a gas station facility with a car wash located at the southeastern corner of the overall site. The location of the car wash and nearest residential uses are shown on Figure 3. According to the study prepared by BAC, noise levels generated by car wash facilities are primarily due to the drying portion of the operation. As such, the effectiveness of installing car wash entrance and exit doors was considered and it was concluded that the doors would provide 14 dB of noise reduction when kept in the closed position during wash cycles. This meets the City's daytime noise level standard; however, the hourly average car wash noise levels could still exceed the City's 45 dB L_{eq} nighttime noise level standard by 3 dB at the nearest residential property line to the east. Therefore, Mitigation Measure NOI-1 also requires the installation of car wash entrance and exit doors that are kept in the closed position during wash cycles and limits the car wash operations to daytime hours (7 a.m. to 10 p.m.).

With mitigation, impacts will be less than significant.

Figure 3: Project Site Plan

b) Surrounding uses may experience short-term increases in groundborne vibration, groundborne noise, and airborne noise levels during construction. However, these increases would only occur for a short period of

time. When conducted during daytime hours, construction activities are exempt from Noise Ordinance standards, but the standards do apply to construction occurring during nighttime hours. While the noise generated may be a minor nuisance, the City Noise Regulation standards are designed to ensure that impacts are not unduly intrusive. Based on this, the impact is less than significant.

XIV. Population and Housing

The project site is located within the City's West Roseville Specific Plan (WRSP) area, is zoned for commercial uses and has a land use designation of Community Commercial. The City of Roseville General Plan Table II-4 identifies the total number of residential units and population anticipated as a result of buildout of the City, and the Specific Plan likewise includes unit allocations and population projections for the Plan Area. Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?			X	
b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?				X

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to population and housing is based directly on the CEQA Guidelines checklist items a–c listed above.

Discussion of Checklist Answers:

a) The CEQA Guidelines identify several ways in which a project could have growth-inducing impacts (Public Resources Code Section 15126.2), either directly or indirectly. Growth-inducement may be the result of fostering economic growth, fostering population growth, providing new housing, or removing barriers to growth. Growth inducement may be detrimental, beneficial, or of no impact or significance under CEQA. An impact is only deemed to occur when it directly or indirectly affects the ability of agencies to provide needed public services, or if it can be shown that the growth will significantly affect the environment in some other way. The project is consistent with the land use designation of the site. The City already has several developed commercial centers, so the presence or absence of commercial centers is not currently a constraint on City growth. Therefore, construction of this commercial center will not remove a barrier to growth or induce substantial growth. Therefore, the impact of the project is less than significant.

b) The project site is vacant. No housing exists on the project site, and there would be no impact with respect to this criterion.

XV. Public Services

Fire protection, police protection, park services, and library services are provided by the City. The project is located within the Roseville Elementary School District and the Roseville Joint Union High School District.

Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered government facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the following public services:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Fire protection?			X	
b) Police protection?			X	
c) Schools?			X	
d) Parks?			X	
e) Other public facilities?			X	

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to public services is based directly on the CEQA Guidelines checklist items a–e listed above. The EIR for the Amoruso Ranch Specific Plan, which updated Citywide analyses, addressed the level of public services which would need to be provided in order to serve planned growth in the community. The project is consistent with the existing land use designations. In addition, the project has been routed to the various public service agencies, both internal and external, to ensure that the project meets the agencies' design standards (where applicable) and to provide an opportunity to recommend appropriate conditions of approval.

a) Existing City codes and regulations require adequate water pressure in the water lines, and construction must comply with the Uniform Fire and Building Codes used by the City of Roseville. Additionally, the applicant is required to pay a fire service construction tax, which is used for purchasing capital facilities for the Fire Department. Existing codes, regulations, funding agreements, and facilities plans are sufficient to ensure less than significant impacts.

b) Sales taxes and property taxes resulting from development will add revenue to the General Fund, which provides funding for police services. Existing codes, regulations, funding agreements, and facilities plans are sufficient to ensure less than significant impacts.

c) Project applicants are required to pay school impact fees at a rate determined by the local school districts. School fees will be collected prior to the issuance of building permits, consistent with City requirements. Existing codes, regulations, funding agreements, and facilities plans are sufficient to ensure less than significant impacts.

d) Future park and recreation sites and facilities have already been identified as part of the Specific Plan process. Existing codes, regulations, funding agreements, and facilities plans are sufficient to ensure less than significant impacts.

e) Sales taxes and property taxes resulting from development will add revenue to the General Fund, which provides funding for the library system and other such facilities and services. In addition, the City charges fees to end-users for other services, such as garbage and greenwaste collection, in order to fund those

services. Existing codes, regulations, funding agreements, and facilities plans are sufficient to ensure less than significant impacts.

XVI. Recreation

There are no parks or recreation facilities immediately adjacent to the project site. The nearest recreation area is School House Park, located approximately 0.15-mile south of the site, along Fiddymment Road.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that physical deterioration of the facility would occur or be accelerated?			X	
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?				X

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to recreation services is based directly on the CEQA Guidelines checklist items a–b listed above.

Discussion of Checklist Answers:

a) The WRSP EIR addressed the level of park services—including new construction, maintenance, and operations—which would need to be provided in order to serve planned growth in the community. Given that the project is consistent with the General Plan and Specific Plan, the project would not cause any unforeseen or new impacts related to the use of existing or proposed parks and recreational facilities. Existing codes, regulations, funding agreements, and facilities plans are sufficient to ensure less than significant impacts.

b) Park sites and other recreational facilities were identified within the WRSP, and the plan-level impacts of developing those facilities were addressed within the Final EIR for the Specific Plan. The project will not cause any unforeseen or new impacts related to the construction or expansion of recreational facilities.

XVII. Transportation

The project site is located at the northwest corner of Blue Oaks Boulevard and Fiddymment Road, both of which are major arterials with transit facilities in the City of Roseville. Blue Oaks Boulevard includes on-street, striped bicycle lanes and partially constructed sidewalks. Fiddymment Road includes on-street, striped bicycle lanes, attached sidewalks, and a bus turn-out for a future transit stop.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Conflict with a program plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle and pedestrian facilities?			X	
b) Conflict or be inconsistent with CEQA Guidelines section 15064.3, subdivision (b)?			X	
c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?			X	
d) Result in inadequate emergency access?			X	

Thresholds of Significance and Regulatory Setting:

CEQA Guidelines Section 15064.3 indicates that a project's effect on automobile delay cannot be considered a significant impact, and directs transportation system analysis to focus on vehicle miles traveled (VMT), per checklist item b. However, the CEQA Guidelines also include consistency with a program, plan, or policy addressing transportation systems as an area of potential environmental effects (checklist item a). The City has adopted the following plans, ordinances, or policies applicable to this checklist item: Pedestrian Master Plan, Bicycle Master Plan, Short-Range Transit Plan, and General Plan Circulation Element. The project is evaluated for consistency with these plans and the policies contained within them, which includes an analysis of delay as a potential policy impact. The Circulation Element of the General Plan establishes Level of Service C or better as an acceptable operating condition at all signalized intersections during a.m. and p.m. peak hours. Exceptions to this policy may be made by the City Council, but a minimum of 70% of all signalized intersections must maintain LOS C. The Findings of the Implementing Procedures indicate that compliance with the Traffic Mitigation Fee (RMC Ch. 4.44) will fund roadway projects and improvements necessary to maintain the City's Level of Service standards for projects consistent with the General Plan and related Specific Plan. An existing plus project conditions (short-term) traffic impact study may be required for projects with unique trip generation or distribution characteristics, in areas of local traffic constraints, or to study the proposed project access. A cumulative plus project conditions (long-term) study is required if a project is inconsistent with the General Plan or Specific Plan and would generate more than 50 pm peak-hour trips. The guidelines for traffic study preparation are found in the City of Roseville Design and Construction Standards–Section 4.

For checklist item b, the CEQA Guidelines Section 15064.3 establishes a detailed process for evaluating the significance of transportation impacts. In accordance with this section, the analysis must focus on the generation

of VMT. Projects within one-half mile of either an existing major transit stop⁵ or a stop along an existing high quality transit corridor⁶ should be presumed to have less than significant impacts, as should any project which will decrease VMT when compared with the existing conditions. VMT may be analyzed qualitatively if existing models or methods are not available to estimate VMT for a particular project; this will generally be appropriate for discussions of construction traffic VMT.

Impacts with regard to items c and d are assessed based on the expert judgment of the City Engineer and City Fire Department, as based upon facts and consistency with the City's Design and Construction Standards.

Discussion of Checklist Answers:

a) The City of Roseville has adopted a Pedestrian Master Plan, Bicycle Master Plan, and Short-Range Transit Plan. The project was reviewed for consistency with these documents. Pedestrian facilities have already been constructed adjacent to Blue Oaks Boulevard, as well as a portion of Fiddymont Road. Bicycle facilities have also been constructed adjacent to Blue Oaks Boulevard and Fiddymont Road, and the project will not decrease the performance or safety of those facilities. The project design includes installation of sidewalks around the perimeter of the site, which would complete the pedestrian circulation system in the project vicinity. Thus, the project results in a beneficial impact related to pedestrian access and circulation. Additionally, the WRSP designates the project site as a park and ride lot. This requires the project to provide 20 parking spaces designated for commuters to leave their vehicles to meet carpools, vanpools or access transit. The project is consistent with the policies of the Pedestrian Master Plan, Bicycle Master Plan, and Short-Range Transit Plan.

A trip generation estimate was prepared by the City's Engineering Division in order to compare the project's anticipated p.m. peak hour trips to the City's modeled trips. Table 5, below, represents the anticipated trip generation for buildout of Transportation Analysis Zone 1107 with and without implementation of the project.

**Table 5: Project Trip Generation Estimate
Traffic Analysis Zone 1107**

Use	Units / Square Feet (sf)	Model Trip Rate	PM Peak Trips
2035 Build Out			
Retail	150,000 sf	2.46	369
Single-Family Residential (SFR)	131	0.69	90
Multi-Family Residential (MFR)	866	0.52	450
Existing			
Retail	0 sf	2.46	0
SFR	227	0.69	157
MFR	0	0.52	0
Proposed			
Retail	82,100 sf	2.46	202
2035 Build Out			910
Existing Plus Project			359
Total			-551

⁵ A site containing an existing rail transit station, a ferry terminal served by either a bus or rail transit service, or the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods. (Public Resources Code Section 21064.3)

⁶ A corridor with fixed route bus service at service intervals of 15 minutes or less during peak commute hours.

With the addition of the project's p.m. peak hour trips to the existing condition, the resulting trip generation of 359 peak trips is 551 trips less than what was anticipated for the TAZ. Therefore, a long-term traffic study was not required given the project does not exceed the number of trips anticipated in the General Plan.

Kimley-Horn prepared a short-term traffic study for the proposed project (Attachment 7) to evaluate the project's access points and localized circulation, including throat depths, tapers, storage, and driveway treatments that are necessary to ensure safe and efficient operations and to maintain the City's existing level of service. The study concluded that the signalized intersections at Blue Oaks Boulevard at Fiddymment Road and Blue Oaks Boulevard at Orchard View both operate at LOS C or better during the Existing (2018) plus Project conditions. However, the following improvements have been identified to be constructed by the project:

1. The western project driveway along Harvey Way be restricted to right-turn in/out movements with installation of a narrow-raised median along Harvey Way and the addition of appropriate signing and striping at the driveway approach. This will ensure sufficient storage capacity to accommodate the 95th percentile queue for the westbound left-turn at Harvey Way and Fiddymment Road.
2. For the site driveway along Fiddymment Road, install "KEEP CLEAR" signing and pavement marking within the driveway intersection with the upstream drive aisle to minimize the potential for driveway blockage.
3. Lengthen the deceleration lane along westbound Blue Oaks Boulevard approaching Intersection #2 by 360 feet to adequately accommodate slowing vehicles entering the site.

These improvements have been incorporated into the project plans. Given the fact that the project is consistent with the City's Traffic Model and the results of the study will be implemented by the project, impacts to traffic and level of service have been determined to be less than significant.

b) Traffic analyses focus on the number of trips traveling in specified areas during peak periods, in order to quantify impacts as specific intersections. However, there is no direct relationship between the number of trips and the amount of VMT generated by a use. Projects which substantially increase trips to a specific area may in fact decrease VMT in the City. As an example, if a new grocery store is added to an area, customers who go to that store were already going to a grocery store elsewhere, and are most likely to choose the new store because it is closer to home or on their way to another location (e.g. work). So while the store would generate substantial new trips, it would lower Citywide VMT. Unless a project includes unique characteristics, non-residential projects do not increase VMT; they divert existing trips into a similar or more efficient pathway.

The proposed project is non-residential development of a vacant property, surrounded by existing development. The project does not include any unique characteristics which would draw in regional traffic, or which would prompt longer trips. The project would locate services and employment in proximity to existing developed areas, and would therefore have a neutral or positive impact on vehicle miles traveled. Impacts are less than significant.

c-d) The project has been reviewed by the City Engineering and City Fire Department staff, and has been found to be consistent with the City's Design Standards. Furthermore, standard conditions of approval added to all City project require compliance with Fire Codes and other design standards. Compliance with existing regulations ensure that impacts are less than significant.

XVIII. Tribal Cultural Resources

As described within the Open Space and Conservation Element of the City of Roseville General Plan, the Roseville region was within the territory of the Nisenan (also Southern Maidu or Valley Maidu). Two large permanent Nisenan habitation sites have been identified and protected within the City's open space (in Maidu Park). Numerous smaller cultural resources, such as midden deposits and bedrock mortars, have also been

recorded in the City. A majority of documented sites within the City are located in areas designated for open space uses.

Would the project cause a substantial adverse change in the significance of a Tribal Cultural Resource as defined in Public Resources Code Section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k)?			X	
b) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1? In applying the criteria set forth in subdivision (c) of Public Resources Code Section 5024.1 the lead agency shall consider the significance of the resource to a California Native American tribe.		X		

Thresholds of Significance and Regulatory Setting:

In addition to archeological resources, tribal cultural resources are also given particular treatment. Tribal cultural resources are defined in Public Resources Code Section 21074, as either 1) a site, feature, place, geographically-defined cultural landscape, sacred place, or object with cultural value to a California Native American Tribe, that is listed or eligible for listing on the California Register or Historical Resources, or on a local register of historical resources or as 2) a resource determined by the lead agency, supported by substantial evidence, to be significant according to the historical register criteria in Public Resources Code section 5024.1(c), and considering the significance of the resource to a California Native American Tribe.

Discussion of Checklist Answers:

a) The WRSP EIR included a historic and cultural resources study, which concluded there were no listed or eligible sites documented in the project area. However, the WRSP EIR includes standard mitigation measures which are designed to reduce impacts to any previously undiscovered resources should any be found on site. Language included in the measure requires an immediate cessation of work, and the requirement to contact the appropriate agencies to address the resource before work can resume. The project will not result in any new

impacts beyond those already discussed and disclosed in the WRSP EIR; therefore, project-specific impacts are less than significant.

b) Notice of the proposed project was mailed to tribes which had requested such notice pursuant to Assembly Bill 52 (AB 52) on January 2, 2020. A request for consultation was received from the United Auburn Indian Community (UAIC) on January 7, 2020. City staff met with tribal representatives at the project site on February 7, 2020 and no resources were found to exist on the site. However, the UAIC recommended that a standard mitigation measure (**TCR-1**) be made a requirement of the project to reduce impacts to resources, should any be found on-site. The measure requires an immediate cessation of work, and contact with the appropriate agencies to address the resource before work can resume. This measure is already required by the prior EIR, but the standard language has been updated since the original EIR was published, and therefore the most current version of this measure is included herein as mitigation measure TCR-1.

In addition to the standard measure, the UAIC stated that oak trees in excess of 100 years in age should be considered tribal cultural resources, and that several of the largest trees on this site were likely to meet this criteria. Acting as lead agency, the City has evaluated the information provided by the UAIC to determine if it meets the definitions in Section 21074(a) of the Public Resources Code. This section states that tribal cultural resources are resources (including landscapes and features) which are:

- included or determined to be eligible for inclusion in the California Register of Historical Resources or a local register of historical resources or
- it meets the following National Register of Historic Places criteria and is determined to be significant, as supported by substantial evidence: it is associated with events that have made a significant contribution to the broad patterns of California's history and cultural heritage; is associated with the lives of persons important in our past; it embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values; or has yielded, or may be likely to yield, information important in prehistory or history.

The site is not listed on either the California or National Register of Historic Places. To be eligible for either register, a site or resource must be shown to meet one of the criteria for listing *and* must be found to be significant. Native oak trees are associated with tribal cultural history, and have served and continue to serve important purposes in tribal communities, including as a food supply and to provide materials for basketry, regalia and ceremonies, household utensils, structures, tools, and weapons. While oak trees in general are associated with events and persons important to cultural heritage, a site review found no resources on the site (such as hand stones) which would indicate that these trees in particular were associated with tribal activities.

In addition, the second part of the determination of eligibility requires a finding that the resource is significant. Significance requires the resource be uncommon, unique or have other particularly important characteristics. Several of the oak trees on this site are large, but not uncommonly so; there are many oak trees of similar size in the nearby open space preserve. The oak trees on the site do not have any uncommon, unique, or particularly important characteristics which would make them a significant resource. Therefore, the City acting as lead agency finds that the oak trees on the site do not meet the legal definitions of a tribal cultural resource.

The UAIC concluded consultation on April 14, 2020 with incorporation of the TCR-1 mitigation measure. With mitigation, impacts will be less than significant.

TCR-1: Inadvertent Discoveries – If any TCRs are discovered during ground disturbing construction activities, all work shall cease within 100 feet of the find. The appropriate tribal representatives from culturally affiliated tribes shall be immediately notified. Work at the discovery location cannot resume until it is determined, in consultation with culturally affiliated tribes, that the find is not a TCR, or that the find is a TCR and all necessary

investigation and evaluation of the discovery under the requirements of the CEQA, including AB 52, has been satisfied. Preservation in place is the preferred alternative under CEQA and UAIC protocols, and every effort must be made to preserve the resources in place, including through project redesign. The contractor shall implement any measures deemed by the CEQA lead agency to be necessary and feasible to preserve in place, avoid, or minimize impacts to the resource, including, but not limited to, facilitating the appropriate tribal treatment of the find, as necessary.

XIX. Utilities and Service Systems

Water and sewer services will be provided by the City of Roseville. The developer will be responsible for extending new lines onto the site in order to serve the project. Storm water will be collected on-site and transferred via pipe into an off-site storm drain system. Solid waste will be collected by the City of Roseville's Refuse Department. The City of Roseville will provide electric service to the site, while natural gas will be provided by PG&E. Comcast will provide cable. The project has been reviewed by the City's Engineering Division, Environmental Utilities, Roseville Electric and PG&E. Adequate services are available for the project.

Would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Require or result in the relocation or construction of new or expanded water, wastewater treatment or storm water drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects?			X	
b) Have sufficient water supplies available to serve the project and reasonably foreseeable future development during normal, dry and multiple dry years?			X	
c) Result in a determination by the wastewater treatment provider which serves the project that it has adequate capacity to serve the project's projected demand in addition of the provider's existing commitments?			X	

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
d) Generate solid waste in excess of State or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?			X	
e) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?			X	

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to utilities and service systems is based directly on the CEQA Guidelines checklist items a–g listed above.

Discussion of Checklist Answers:

a) The major utility infrastructure to serve this area is already installed, which includes a looped sewer line and looped water line system in the streets surrounding the site, and stormwater lines. Minor additional infrastructure will be constructed within the project site to tie the project into the major systems, but these facilities will be constructed in locations where site development is already occurring as part of the overall project; there are no additional substantial impacts specific or particular to the minor infrastructure improvements.

b) The City of Roseville 2015 Urban Water Management Plan (UWMP), adopted May 2016, estimates water demand and supply for the City through the year 2040, based on existing land use designations and population projections. In addition, the Amoroso Ranch Water Supply Assessment (AR WSA, Appendix E of the Amoroso Ranch FEIR), dated May 2016, estimates water demand and supply for ultimate General Plan buildout. The UWMP indicates that existing water supply sources are sufficient to meet all near term needs, estimating an annual water demand of 45,475 acre-feet per year (AFY) by the year 2020 and existing surface and recycled water supplies in the amount of 70,421 AFY. The AR WSA estimates a Citywide buildout demand of 64,370 AFY when including recycled water, and of 59,657 AFY of potable water. The AR WSA indicates that surface water supply is sufficient to meet demand during normal rainfall years, but is insufficient during single- and multiple-dry years. However, the City's UWMP establishes mandatory water conservation measures and the use of groundwater to offset reductions in surface water supplies. Both the UWMP and AR WSA indicate that these measures, in combination with additional purchased water sources, will ensure that supply meets projected demand. The project, which is consistent with existing land use designations, would not require new or expanded water supply entitlements.

c) The proposed project would be served by the Pleasant Grove Wastewater Treatment Plant (PGWWTP). The Central Valley Regional Water Quality Control Board (RWQCB) regulates water quality and quantity of effluent discharged from the City's wastewater treatment facilities. The Pleasant Grove WWTP has the capacity to treat 12 million gallons per day (mgd) and is currently treating 7.0 mgd. The volume of wastewater generated by the proposed project could be accommodated by the facility, because Citywide planning of sewer infrastructure is based on land use, and the project is consistent with the existing land use designations. The proposed project will not contribute to an exceedance of applicable wastewater treatment requirements. The impact would be less than significant.

d,e) The Western Placer Waste Management Authority is the regional agency handling recycling and waste disposal for Roseville and surrounding areas. The regional waste facilities include a Material Recovery Facility (MRF) and the Western Regional Sanitary Landfill (WRSL). Currently, the WRSL is permitted to accept up to 1,900 tons of municipal solid waste per day. According to the solid waste analysis of the Amoruso Ranch Specific Plan FEIR, under current projected development conditions the WRSL has a projected lifespan extending through 2058. The project is consistent with the existing land use designation, and therefore there is sufficient existing capacity to serve the proposed project. Though the project will contribute incrementally to an eventual need to find other means of waste disposal, this impact of City buildout has already been disclosed and mitigation applied as part of each Specific Plan the City has approved, including the most recent Amoruso Ranch Specific Plan. All residences and business in the City pay fees for solid waste collection, a portion of which is collected to fund eventual solid waste disposal expansion. The project will not result in any new impacts associated with major infrastructure. Environmental Utilities staff has reviewed the project for consistency with policies, codes, and regulations related to waste disposal and waste reduction regulations and policies and has found that the project design is in compliance.

XX. Wildfire

If located in or near state responsibility areas or lands classified as very high fire hazard severity zones, would the project:

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
a) Substantially impair an adopted emergency response plan or emergency evacuation plan?				X
b) Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to, pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?				X
c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?				X
d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of				X

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
runoff, post-fire slope instability, or drainage changes?				

Thresholds of Significance and Regulatory Setting:

The significance of impacts related to utilities and service systems is based directly on the CEQA Guidelines checklist items a–d listed above. The California Department of Forestry and Fire Protection (CAL FIRE) is the state agency responsible for wildland fire protection and management. As part of that task, CAL FIRE maintains maps designating Wildland Fire Hazard Severity zones. The City is not located within a Very High Fire Hazard Severity Zone, and is not in a CAL FIRE responsibility area; fire suppression is entirely within local responsibility.

Discussion of Checklist Answers:

a–d) Checklist questions a–d above do not apply, because the project site is not within a Very High Fire Hazard Severity Zone and is not in a CAL FIRE responsibility area.

XXI. Mandatory Findings of Significance

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
e) Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of an endangered, threatened or rare species, or eliminate important examples of the major periods of California history or prehistory?			X	
f) Does the project have impacts which are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and			X	

Environmental Issue	Potentially Significant Impact	Less Than Significant With Mitigation	Less Than Significant Impact	No Impact
the effects of probable future projects.)				
g) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?			X	

Significance Criteria and Regulatory Setting:

The significance of impacts related to mandatory findings of significance is based directly on the CEQA Guidelines checklist items a–c listed above.

Discussion of Checklist Answers:

a–c) Long term environmental goals are not impacted by the proposed project. The cumulative impacts do not deviate beyond what was contemplated in the WRSP EIR, and mitigation measures have already been incorporated. With implementation of the City's Mitigating Ordinances, Guidelines, and Standards and best management practices, mitigation measures described in this chapter, and permit conditions, the proposed project will not have a significant impact on the habitat of any plant or animal species. Based on the foregoing, the proposed project does not have the potential to degrade the quality of the environment, substantially reduce the habitat of any wildlife species, or create adverse effects on human beings.

ENVIRONMENTAL DETERMINATION:

*In reviewing the site specific information provided for this project and acting as Lead Agency, the City of Roseville, Development Services Department, Planning Division has analyzed the potential environmental impacts created by this project and determined that with mitigation the impacts are less than significant. As demonstrated in the initial study checklist, there are no "project specific significant effects which are peculiar to the project or site" that cannot be reduced to less than significant effects through mitigation (CEQA Section 15183) and therefore an EIR is **not** required. Therefore, **on the basis of the foregoing initial study:***

[X] I find that the proposed project COULD, but with mitigation agreed to by the applicant, clearly will not have a significant effect on the environment and a *MITIGATED NEGATIVE DECLARATION* has been prepared.

Initial Study Prepared by:

Kinarik Shallow

MITIGATION MONITORING AND REPORTING PROGRAM

Project Title/File Number:	WRSP PCL F-31 – The Plaza at Blue Oaks; File #PL17-0368
Project Location:	1950 Blue Oaks Boulevard, Roseville, Placer County, CA; APN 017-117-093-000
Project Description:	The proposed project is a retail center consisting of a ±35,000 square-foot anchor grocery store, a 12-pump gas station with a ±3,500 square-foot convenience store and car wash, and seven additional buildings ranging in size from approximately 3,750 square feet to 9,750 square feet. The project includes a Design Review Permit to review the site design and proposed buildings, a Tree Permit to remove several native oak trees on the westerly portion of the site, and a Tentative Subdivision Map to subdivide the parcel into eight (8) lots.
Environmental Document	Mitigated Negative Declaration
Project Applicant:	Joe Zawidski, Signature Management Company
Property Owner:	Joe Zawidski, West Roseville Development Company, Inc.
Lead Agency Contact Person:	Kinarik Shallow, Associate Planner, 916-746-1309

Section 21081.6 of the California Public Resources Code requires public agencies to "adopt a reporting and monitoring program for the changes to the project which it has adopted or made a condition of project approval in order to mitigate or avoid significant effects on the environment." This Mitigation Monitoring and Reporting Program has been adopted for the purpose of avoiding environmental impacts

MONITORING PROCESS: Existing monitoring mechanisms are in place that assist the City of Roseville in meeting the intent of CEQA. These existing monitoring mechanisms eliminate the need to develop new monitoring processes for each mitigation measure. These mechanisms include grading plan review and approval, improvement/building plan review and approval and on-site inspections by City Departments. Given that these monitoring processes are requirements of the project, they are not included in the mitigation monitoring program.

It shall be the responsibility of the project applicant/owner to provide written notification to the City using the Mitigation Verification Cover Sheet and Forms, in a timely manner, of the completion of each Mitigation Measure as identified on the following pages. The City will verify that the project is in compliance with the adopted Mitigation Monitoring and Reporting Program. Any non-compliance will be reported by the City to the applicant/owner, and it shall be the project applicant's/owner's responsibility to rectify the situation by bringing the project into compliance. The purpose of this program is to ensure diligent and good faith compliance with the Mitigation Measures which have been adopted as part of the project.

TABLE OF MITIGATION MEASURES					
Mitigation Measure	Implementation	Timing	Reviewing Party	Documents to be Submitted to City	Staff Use Only
BIO-1: Avoid nesting sites To ensure that fully protected bird and raptor species are not injured or disturbed by construction in the vicinity of nesting habitat, the project applicant shall implement the following measures: (a) When feasible, all tree removal shall occur between August 30 and February 15 to avoid the breeding season of any raptor species that could be using the area, and to discourage hawks from nesting in the vicinity of an upcoming construction area. This period may be modified with the authorization of the DFG; or (b) Prior to the beginning of mass grading, including grading for major infrastructure improvements, during the period between February 15 and August 30, all trees and potential burrowing owl habitat within 350 feet of any grading or earthmoving activity shall be surveyed for active raptor nests or burrows by a qualified biologist no more than 30 days prior to disturbance. If active raptor nests or burrows are found, and the site is within 350 feet of potential construction activity, a fence shall be erected around the tree or burrow(s) at a distance of up to 350 feet, depending on the species, from the edge of the canopy to prevent construction disturbance and intrusions on the nest area. The appropriate buffer shall be determined by the City in consultation with CDFG. (c) No construction vehicles shall be permitted within restricted areas (i.e., raptor protection zones), unless directly related to the management or protection of the legally protected species. (d) In the event that a nest is abandoned, despite efforts to minimize disturbance, and if the nestlings are still alive, the developer shall contact CDFG and, subject to CDFG approval, fund the recovery and hacking (controlled release of captive reared young) of the nestling(s). (e) If a legally protected species nest is located in a tree designated for removal, the removal shall be deferred until after August 30th, or until the adults and young of the year are no longer dependent on the nest site as determined by a qualified biologist. (f) The project applicant, in consultation with the CDFG, shall conduct a pre-construction survey within the phases of the project site that are scheduled for construction activities. The survey shall be conducted by a qualified biologist to determine if burrowing owls are occupying the project site. The survey shall be conducted no more than three weeks prior to grading of the project site. If the above survey does not identify burrowing owls on the project site, then no further mitigation would be required. However, should burrowing owls be found on the project site, the following measures shall be required: (g) The applicant shall avoid all potential burrowing owl burrows that may be disturbed by project construction during the breeding season between February 15 and August 30 (the period when nest burrows are typically occupied by adults with eggs or young). Avoidance shall include the establishment of a 350-foot diameter non-disturbance buffer zone around any occupied burrows. The buffer zone shall be delineated by highly visible temporary construction fencing. Disturbance of any occupied burrows shall only occur outside of the breeding season (August 30 through February 15). Based on approval by the CDFG, preconstruction and nonbreeding season exclusion measures may be implemented to preclude burrowing owl occupation of the project site prior to project-related disturbance (such as grading). Burrowing owls may be passively excluded from burrows in the construction area by placing one-way doors in the burrows according to current CDFG protocol. The one-way doors must be in place for a minimum of three days. All burrows that may be occupied by burrowing owls, regardless of whether they exhibit signs of occupation, must be cleared. Burrows that have been cleared through the use of the one-way doors shall then be closed or backfilled to prevent owls from entering the burrow. The one-way doors shall not be used more than two weeks before construction to ensure that owls do not recolonize the area of construction.	Results of preconstruction surveys shall be submitted prior to the issuance of a grading permit or Improvement Plans. Applicable construction restrictions shall be reflected within plans. The applicants shall prepare annual reports on the status and success of mitigation and shall submit these reports to USFWS and CDFG. The applicants shall coordinate with USFWS and CDFG to modify as necessary any mitigation plans in an effort to attain mitigation success.	<i>Pre-Construction and Construction:</i> Surveys required prior to construction. If surveys are positive for birds, then remainder of mitigation steps are required prior to construction. Add as note on Improvement Plans.	Engineering	Nesting bird surveys	
NOI-1: Commercial Noise Control	Project plans will be reviewed for compliance. The applicants shall submit site-specific acoustical	<i>Pre-Construction:</i> Prior to issuance of Improvement Plans and/or Building Permits	Engineering will review Improvement Plans for	An Acoustical Study	

For all commercial uses within 150 feet of residential uses, implement the following or equally effective measures: (a) For commercial loading docks and on-site truck circulation areas that are planned to be within 150 feet of sensitive receptors (including backyards), the following measures shall be implemented: (1) Loading docks and on-site truck circulation routes shall be designed to ensure that noise levels do not exceed 70 dB Lmax or 50 dB hourly Leq at the nearest residence. An acoustic analysis shall demonstrate that the loading area design, including any noise attenuation features (e.g., covering, sound walls, orientation) would be adequate to achieve this standard; and, (2) Deliveries shall generally be limited to the hours between 7:00 A.M. and 10:00 P.M. (b) For all commercial buildings, roof-top HVAC shall be oriented away from residential areas and systems shall not produce noise levels that exceed 50 dB at a distance of 25 feet. In addition, roof-top parapets shall block line-of-sight from noise-sensitive uses to HVAC equipment. (c) Setbacks or enhanced barriers (e.g., 8 feet tall) as needed to achieve City standards. (d) Car wash entrance and exit doors shall be kept in the closed potion during wash cycles. Car wash operations shall be limited to the hours of 7:00 A.M. and 10:00 P.M. An acoustical analysis shall be conducted to demonstrate that City noise standards would be achieved by these measures. Additional measures shall be implemented, if needed, to meet the standards.	analyses to the Chief Building Inspector for review.	Add as note on Improvement Plans and Building Plans	compliance with wall and noise requirements. <u>Building</u> will review Building Plans for compliance with HVAC requirements.		
TCR-1: Inadvertent Discoveries If any TCRs are discovered during ground disturbing construction activities, all work shall cease within 100 feet of the find. The appropriate tribal representatives from culturally affiliated tribes shall be immediately notified. Work at the discovery location cannot resume until it is determined, in consultation with culturally affiliated tribes, that the find is not a TCR, or that the find is a TCR and all necessary investigation and evaluation of the discovery under the requirements of the CEQA, including AB 52, has been satisfied. Preservation in place is the preferred alternative under CEQA and UAIC protocols, and every effort must be made to preserve the resources in place, including through project redesign. The contractor shall implement any measures deemed by the CEQA lead agency to be necessary and feasible to preserve in place, avoid, or minimize impacts to the resource, including, but not limited to, facilitating the appropriate tribal treatment of the find, as necessary.	This condition shall be reflected in all construction and building plans, and construction site workers shall be advised by the site manager of this measure.	<i>Construction:</i> Measure applies if resources are discovered during construction. Add as note on Improvement Plans and Building Plans.	Engineering and Building	None	

MITIGATION VERIFICATION SUBMITTAL COVER SHEET

SUMMARY OF VERIFICATION MATERIALS INCLUDED IN THIS SUBMITTAL

Mitigation Measure	Supporting Attachments Included	Date Complete

I HAVE ATTACHED THE FOLLOWING REQUIRED ITEMS:

- ☐ Table of Applicable Mitigation Measures
- ☐ Mitigation Verification Form(s)
- ☐ Specific supporting documentation required by measure(s), if applicable (e.g. biologist's report)

I hereby certify under penalty of perjury under the laws of the State of California that I am the property owner or an agent of the property owner and am authorized to submit this Mitigation Verification Form. I also certify that the above-listed mitigation measures have been completed in the manner required, and that all of the information in this submittal is true and correct, to the best of my knowledge:

Signature and Date Print Name Contact Number

MITIGATION VERIFICATION FORM

Mitigation Measure _____

Description of Monitoring and Verification Work Performed. The following information is a required part of the description: dates, personnel names or titles, and the stage/phase of construction work. Additional notes sheets may be attached, if necessary, or the below may simply reference a separate attachment that provides the required information.

INSTRUCTIONS

COVER SHEET:

A Cover Sheet for the project/development is prepared by City staff, with the top portion filled out. Each time Mitigation Verification Forms(s) are being submitted, a Cover Sheet completed by the Developer, Contractor, or Designee is required. An example of a completed summary table is provided below. The signature on the Cover Sheet must be *original wet ink*.

EXAMPLE MITIGATION VERIFICATION SUBMITTAL COVER SHEET

Project Title/Planning File #	New Coffee Shop, PL15-0000
Project Address	10 Justashort Street
Property Owner	Jane Owner
Planning Division Contact	Joe Planner, Associate Planner, (916) 774-####

SUMMARY OF VERIFICATION MATERIALS INCLUDED IN THIS SUBMITTAL

Mitigation Measure	Supporting Attachments Included	Date Complete
MM-3	Copy of survey report signed by biologist	5/10/2016
MM-4	All information included in Mitigation Verification Form	5/12/2016
MM-5	E-mail from Air District approving Dust Control Plan	5/05/2016

MITIGATION VERIFICATION FORM:

A Mitigation Verification Form is provided by City staff, along with the Cover Sheet and Table of Applicable Mitigation Measures. A form is filled in and submitted for each mitigation measure by the Developer, Contractor, or Designee. The form needs only the mitigation number to be filled in, along with the Description of Monitoring and Verification Work Performed. Multiple forms may be submitted simultaneously, under one cover sheet. It is also permissible to submit a form for each part of a measure, on separate dates. For instance, in the example measure MM-4 in the table above, the actual mitigation requires informing construction workers *and* retaining a qualified archeologist if resources are uncovered. Thus, a developer may submit a form in May certifying that construction workers have been informed, and also submit a second copy of the form in July because resources were discovered and additional actions had to be undertaken.

Each mitigation measure specifies the type of supporting documentation required; this must be submitted in order for the City to accept the mitigation as complete. An example of a completed Mitigation Verification Form is provided below.

EXAMPLE MITIGATION VERIFICATION FORM

Mitigation Measure MM3

Description of Monitoring and Verification Work Performed. The following information is a required part of the description: dates, personnel names or titles, and the stage/phase of construction work. Additional notes sheets may be attached, if necessary, or the below may simply reference a separate attachment that provides the required information.

The mitigation measure text is included on the Improvement Plans General Notes page (Improvement Plan EN15-0001). On May 4, 2016, prior to any ground-disturbing activities (the pre-construction phase), a site meeting was held. At this meeting, workers on the site were informed of the potential to unearth remains, and were instructed to cease work and notify their supervisor immediately if any resources were observed.

1. EXECUTIVE SUMMARY

Signature Homes, Inc. is developing a gas pad (The Facility) in the southeast corner of the Plaza at Blue Oaks development in Roseville, California. The Facility is under the jurisdiction of the Placer County Air Pollution Control District (PCAPCD). After reviewing the relevant Committee of the California Air Pollution Control Officers Association (CAPCOA) guidance for conducting health risk assessments (HRAs) at gasoline stations, it was determined that The Facility would be unable to screen out of doing an HRA, as the estimated impacts were above a 10 in 1 million cancer risk. Therefore, Signature Homes, Inc. is submitting this refined HRA for the Facility to demonstrate that health risk impacts are below 10 in 1 million cancer risk and a hazard index of 1. This report constitutes the results of the HRA performed in accordance with the Placer County Air Pollution Control District's guidelines for preparing a health risk assessment and the Office of Environmental Health Hazard Assessment (OEHHA) developed *Air Toxics Hot Spots Program Guidance Manual for the Preparation of Health Risk Assessments* (OEHHA HRA Guidance Manual).¹ The analysis uses the Hotspots Analysis and Reporting Program (HARP) Version 2.0 with inputs from US-EPA's AERMOD modeling program to perform the exposure/risk assessment.

The objectives of this HRA are to: (1) estimate off-site air concentrations of the substances identified in AB2588 and emitted from the facility, (2) evaluate potential exposures to the surrounding community, (3) characterize the potential health risks to individuals and the exposed population associated with those levels of exposure, and (4) determine if additional actions are required. This report presents the results of the HRA analysis. In addition to this HRA report, supplemental modeling and HRA files have been provided via an electronic data transfer system.

The results obtained from HARP provide the necessary information to generate the zones of impact (ZOIs) and identify potentially exposed populations. In addition, potential health effects were evaluated for the maximum exposed individual resident (MEIR) and the maximum exposed individual worker (MEIW) for both non-carcinogenic and carcinogenic health impacts. The results of the HRA are summarized in Table 1-1 below.

¹ Office of Environmental Health Hazard Assessment (OEHHA), *Air Toxics Hot Spots Program, Risk Assessment Guidelines, Guidance Manual for Preparation of Health Risk Assessments*, February 2015, California Environmental Protection Agency.

Table 1-1. HRA Results Summary

Receptor Type	Cancer Risk		Chronic		Acute	
	Receptor ID	Risk (in a million)	Receptor ID	Hazard Index	Receptor ID	Hazard Index
Point of Maximum Impact	319	48.39	319	0.23	291	0.73
Maximum Exposed Individual Resident	422	4.45	422	0.02	312	0.23
Maximum Exposed Individual Worker	320	2.42	320	0.13	347	0.48

1.1. APPLICABLE REGULATIONS

In accordance with our correspondence with Emmanuel Orozco of Placer County, dated March 24, 2016, public notice and risk reduction are triggered for a cancer risk greater than or equal to 10 in 1 million and non-cancer hazard index greater than or equal to 1. The results in Table 1-1 show that the Facility does not trigger the public notice or risk reduction thresholds for cancer risk or any of the non-cancer hazard indices.

For this HRA, Trinity used HARP – Air Dispersion and Risk Tool (Version 2.0 dated 19121).

2. FACILITY INFORMATION

Table 2-1. Facility Information

Facility Name	The Plaza at Blue Oaks Plaza
Facility Address	1950 Blue Oaks Blvd Fiddymment F-31 Roseville, CA
UTM Coordinates	642,811.78 m E, 4,294,994.31 m N
Datum	UTM, NAD83, Zone Grid 10S

2.1. FACILITY OPERATIONS

The Facility is a gas station that is being installed as part of the Plaza at Blue Oaks development project, which consists of 92,450 square feet of commercial and retail development in Roseville, California. The Facility specifically contains fuel pumps and underground fuel tanks with a Phase I & II vapor recovery system. The annual throughput of the Facility will have a maximum throughput of 5.5 million gallons per year.

2.2. EMISSIONS

The emissions for this HRA are based on the 2017 Risk Assessment Procedures provided by South Coast Air Quality Management District² and the maximum annual gasoline throughput. A summary of facility-wide emissions is provided in Table 2-2.

Table 2-2. Facility Emissions Summary

Pollutant ID	Pollutant Name	lbs/yr	lbs/hr
71432	Benzene	21.74	0.00248
100414	Ethylbenzene	19.96	00.00228
91203	Naphthalene	2.31	0.00026

² South Coast Air Quality Management District, *Risk Assessment Procedures for rules 1401, 1401.1 and 212 version 8.1*, September 1, 2017

3. SOURCE AND EMISSION INVENTORY INFORMATION

3.1. RELEASE INFORMATION

Emission source locations and elevations are provided in Table 3-1. Tables 3-2 and 3-3 identify the release information for the point sources and volume sources at the facility, respectively.

Table 3-1. Emission Source Modeling Locations

Model ID	Description	X (m)	Y (m)	Elevation	Emission Rate (g/s)
VENT	Loading	642,809.3	4,294,992.7	32.98	1
VENT2	Breathing	642,809.3	4,294,992.7	32.98	1
SPILL	Loading Spill Emissions	642,809.3	4,294,992.7	32.98	1
REFUEL	Refueling Emissions	642,809.3	4,294,992.7	32.98	1

Table 3-2. Emission Source Modeling Parameters – Point Sources

Model ID	Description	Stack Height (m)	Temp (F)	Stack Velocity (m/s)	Stack Diameter (ft)
VENT	Loading	3.66	60	0	2
VENT2	Breathing	3.66	60	0	2

Table 3-3. Emission Source Modeling Parameters – Volume Sources

Model ID	Description	Release Height (m)	Init. Lat. Dimension (m)	Init. Vert. Dimension (ft)
REFUEL	Loading Spill Emissions	1	3.02	1.86
SPILL	Refueling Emissions	0	3.02	1.86

4. EMISSION QUANTIFICATION

The emission factors and weight percent values from South Coast Air Quality Management District Risk Assessment Procedures were used to determine emission rates and potential health impacts. Using a maximum yearly throughput of 5.5 million gallons per year and the emission factors listed in Table 4-1, the estimated yearly emissions from the project are summarized in Tables 4-2 below.

Table 4-1. SCAQMD Risk Assessment Procedure Emission Factors

Pollutant	Source	Pollutant Emission Factor (lb Pollutant/1,000 gal)
Benzene	VENT	6.83E-04
	VENT2	1.09E-04
	SPILL	1.70E-03
	REFUEL	1.46E-03
Ethylbenzene	VENT	1.61E-04
	VENT2	2.57E-05
	SPILL	3.10E-03
	REFUEL	3.42E-04
Naphthalene	VENT	6.00E-07
	VENT2	9.60E-08
	SPILL	4.18E-04
	REFUEL	1.28E-06

Table 4-2. Yearly and Hourly Project Emissions

Pollutant	Source	Throughput (gal)	Emission Rate (lb/yr)	Emission Rate (lb/hr)
Benzene	VENT	5,500,000	3.76	8.58E-04
	VENT2	5,500,000	0.60	1.37E-04
	SPILL	5,500,000	9.35	2.13E-03
	REFUEL	5,500,000	8.03	1.83E-03
Ethylbenzene	VENT	5,500,000	0.89	2.02E-04
	VENT2	5,500,000	0.14	3.23E-05
	SPILL	5,500,000	17.1	3.89E-03
	REFUEL	5,500,000	1.88	4.29E-04
Naphthalene	VENT	5,500,000	0.003	7.53E-07
	VENT2	5,500,000	0.001	1.21E-07
	SPILL	5,500,000	2.30	5.25E-04
	REFUEL	5,500,000	0.007	1.61E-06

5. AIR DISPERSION INFORMATION

5.1.1. Spatial Averaging

Spatial averaging was not used to determine risk values for receptors. Instead, the most conservative, representative value for each receptor was chosen. This methodology results in a higher risk values than spatial averaging and is therefore a more conservative approach.

5.1.2. Meteorological and Elevation Data

Five years of pre-processed meteorological data supplied by the California Air Resources Board (CARB) for 2009 through 2013 were used for this model.³ The surface station data are from Sacramento International Airport (WBAN 23232) and the upper air data are from Oakland International Airport (WBAN 23230). Terrain data were obtained from the Multi-Resolution Land Characteristics Consortium (MRLC) in the form of National Elevation Dataset (NED) files at 1/3 arc second resolution.⁴

5.1.3. Model Options

Air dispersion modeling is performed with US-EPA AERMOD through the EPA approved BREEZE user interface. All modeling exercises were conducted using the previous version of EPA AERMOD (v18081). Air dispersion modeling was prepared prior to the release of v19191. No differences are expected between AERMOD versions. Modeling was performed utilizing all regulatory defaults as defined by EPA. Selected outputs were for the 1st high 1-hr and 1st high period values.

The following modeling input files are included electronically in Appendix D.

- Surface Met Data File (*.sfc)
- Profile Met Data File (*.pfl)
- National Elevation Database File (*.ned)
- AERMAP Source File (*.aermap.src)
- AERMAP Receptor File (*.aermap.rec)
- BPIP Input File (*.bpip.inp)
- AERMOD Input File (*.aermod.inp)

The following modeling output files are included electronically in Appendix D.

- AERMAP Output File (*.aermap.out)
- BPIP Summary File (*.bpip.sum)
- BPIP Output File (*.bpip.out)
- AERMOD Output File (*.aermod.out)
- AERMOD Error File (*.aermod.err)
- Plotfiles (*.plt and *.txt)

Building downwash was not included as CAPCOA guidelines for industry-wide risk assessments of gasoline stations states “Results of the modeling indicated that the placement of the buildings and their subsequent potential to create downwash have very little effect on the resultant risks from the vent pipes.”

³ <https://www.arb.ca.gov/toxics/harp/metfiles2.htm>

⁴ <https://www.mrlc.gov/viewerjs/>

5.1.4. Receptor Placement

The following receptor placements were used for this HRA.

- **Nearby Residences and Workers (Discrete Grid)** - The modeling discrete receptor grid uses a variable density receptor grid with 10 m spacing out to 150 m from the center of the facility, and 25m spacing out to 500m from the center of the facility. Given the nature of the facility emissions and the nearby workplaces and residences, a high density receptor approach was used to ensure the worst case Residential and Worker impacts were captured in the modeling exercise. Residential and workplace receptors were identified using a joining of modeled HRA impacts with satellite imagery. The MEI receptors were conservatively matched to grid receptors with the maximum impacts on parcels identified as residences and workplaces.
- **Sensitive Receptors** - No sensitive receptors were identified within the Zone of Influence (ZOI) of the facility.
- **Census Block Receptors** - AB2588 also requires an estimates of the number of impacted individuals in residences and off-site workplaces within the ZOI. Census data is used to determine affected populations within geographic areas defined by census tracts. A census tract centroid (geographical center) is identified as a receptor location, which represents exposure to the population within that census tract. For this HRA, affected populations were estimated based on census data obtained from the built-in HARP 2.0 2010 Census Database. Figure B-2 shows the impacted census tracts for this HRA within the ZOI. Census tract information was obtained directly from HARP 2.0 by inputting the facility center point and requesting receptors out to a radius of 300 meters. All census block receptors with a population of 0 were excluded from the Cancer Burden analysis. Only one census block receptor was identified within the ZOI and is listed in Table 5-1 below.

Table 5-1. Census Block Receptor

Track No.	Block No.	X (m)	Y (m)	Elev. (m)	Population
21039	1002	642,710	4,294,813	31.25	48

- **Onsite Receptors** – No onsite receptors were identified.

5.1.5. Receptors Evaluated for Multipathway Analysis

A summary of receptor pathways chosen for the analysis is shown in Table 5-2 below.

Table 5-2. Receptor Pathways Evaluated

Pathway	Residential Receptors	Worker Receptors
Inhalation	Y	Y
Soil	Y	Y
Dermal	Y	Y
Mother's Milk	Y	
Homegrown Crop		
Chicken		
Egg		

5.1.6. Multipathway and Exposure Parameters

Only default HARP2 values were used for the pathways identified in Section 5.1.6 of this report.

5.1.7. Health Values and HARP Version Used in Risk Analysis

For this HRA, Trinity used the last version of HARP – Air Dispersion and Risk Tool (Version 2.0 dated 19121). This version of HARP utilized a health.mdb file updated on May 1, 2019.

6. SUMMARY OF RESULTS

Summary results are presented in Tables A-1 through A-4. The content contained within each table is listed below:

- Table A-1. Summary of Maximum Cancer Health Risk Impacts
- Table A-2. Summary of Maximum Chronic Non-cancer Health Risk Impacts
- Table A-3. Summary of Maximum Acute Non-cancer Health Risk Impacts
- Table A-4. Census Block Receptors and Impacts

6.1.1. Risk Driver Tables

Tables A-5 through A-7 show the driving devices and pollutants for each MEIR, MEIW, and PMI for cancer, non-cancer chronic, and non-cancer acute impacts.

7. MAPS AND AERIAL PHOTOS REQUIRED BY DISTRICT

Figures B-1 through B-6 included in Appendix B include the required imagery and isopleths and are summarized below:

- > Figure B-1. Facility Location
- > Figure B-2. Census Receptor
- > Figure B-3. 1 in 1 million resident cancer risk isopleth
- > Figure B-4. 1 in 1 million worker cancer risk isopleth
- > Figure B-5. Acute non-cancer HI of 0.1 risk isopleth
- > Figure B-6. Chronic non-cancer HI of 0.1 risk isopleth

8. REQUIRED FILES

The following files are provided electronically.

- Written HRA report (*.pdf)
- HARP 2 Facility and Emissions Database (*.mdb)
- Project Summary Report (ProjectSummaryReport.txt)
- Ground Level Concentration Files (*.txt)
- Health Database (*.mdb)

PROPERTY TRANSITION ARBORIST REPORT

RE: Arborist Report and Tree Inventory for Fiddymment Farms, Unit 17 Project Site
City of Roseville, California

Executive Summary:

Signature Homes, Inc. contacted California Tree and Landscape Consulting, Inc. to document the trees on the property for a better understanding of the existing resource and any potential improvement obstacles that may arise. Signature Homes, Inc. requested an arborist report and tree inventory updates and impact assessment for the property located at Fiddymment Farms, Unit 17, suitable for submittal to the City of Roseville. This is an Updated Arborist Report and Tree Inventory for the filing of plans to develop the property.

Ed Stirtz, ISA Certified Arborist WE0510A, visited the property on February 17, 2020, to provide updated species identification, measurements of DBH and canopy, field condition notes, recommended actions, ratings, and approximate locations for the trees. A total of 26 trees were evaluated on this property, of which 26 are protected trees according to the City of Roseville's Municipal Code. Chapter 19.66, Tree Preservation, defines a "Protected Tree" as any native oak tree equal to or greater than 6 inches diameter at breast height (DBH) measured as a total of a single trunk or multiple trunks. The purpose of this field reconnaissance effort was to identify, inventory, and comment upon the current structure and vigor of the "protected trees" located within and/or overhanging the project site.

The vegetation on site includes those native oak trees as identified in the inventory and three to five other substandard size oak trees 1" to 2" diameter range.

TABLE 1

Tree Species	Trees on this Site	Protected Trees on the Site	Proposed for Removal for Development	Total Proposed for Retention
Blue Oak	13	13	11	2
Interior Live Oak	10	10	7	3
Valley Oak	3	3	2	1
TOTALS	26	26	20	6

ASSIGNMENT

Perform an examination of the site to document the presence and condition of trees protected by the City of Roseville. The “study area” for this effort includes the area as depicted on “The Plaza at Blue Oaks” preliminary tree impact plan prepared by TSD Engineering, Inc., dated February 5, 2020. (All trees protected by the City are included in the inventory.) Prepare a report of findings.

METHODS

Appendix 2 and Tables 1, 2 and 3 in this report are the detailed inventory and recommendations for the trees. The following terms and Table A – Ratings Descriptions will further explain our findings.

Species of trees is listed by our local common name and botanical name by genus and species.

DBH (diameter breast high) is normally measured at 4’6” (54” above the average ground, height but if that varies then the location where it is measured is noted here. A steel diameter tape was used to measure the trees.

Canopy radius is measured in feet. It is the farthest extent of the crown composed of leaves and small twigs measured by a Stanley digital distance meter. This measurement often defines the Critical Root Zone (CRZ) or Protection Zone (PZ), which is a circular area around a tree with a radius equal to this measurement.

Actions listed are recommendations to improve health or structure of the tree. Trees in public spaces require maintenance. If a tree is to remain and be preserved, then the tree may need some form of work to reduce the likelihood of failure and increase the longevity of the tree. Preservation requirements and actions based on a proposed development plan are not included here.

Arborist Rating is subjective to condition and is based on both the health and structure of the tree. All of the trees were rated for condition, per the recognized national standard as set up by the Council of Tree and Landscape Appraisers and the International Society of Arboriculture (ISA) on a numeric scale of 5 (being the highest) to 0 (the worst condition, dead). The rating was done in the field at the time of the measuring and inspection.

Table A – Ratings Descriptions

No problem(s)	5	excellent
No apparent problem(s)	4	good
<u>Minor problem(s)</u>	<u>3</u>	<u>fair</u>
Major problem(s)	2	poor
Extreme problem(s)	1	hazardous, non-correctable
Dead	0	dead

Rating #0: This indicates a tree that has no significant sign of life.

Rating #1: The problems are extreme. This rating is assigned to a tree that has structural and/or health problems that no amount of work or effort can change. The issues may or may not be considered a dangerous situation.

Rating #2: The tree has major problems. If the option is taken to preserve the tree, its condition could be improved with correct arboricultural work including, but not limited to: pruning, cabling, bracing, bolting, guying, spraying, mistletoe removal, vertical mulching, fertilization, etc. If the recommended actions are completed correctly, hazard can be reduced and the rating can be elevated to a 3. If no action is taken the tree is considered a liability and should be removed.

Rating #3: The tree is in fair condition. There are some minor structural or health problems that pose no immediate danger. When the recommended actions in an arborist report are completed correctly the defect(s) can be minimized or eliminated.

Rating #4: The tree is in good condition and there are no apparent problems that a Certified Arborist can see from a visual ground inspection. If potential structural or health problems are tended to at this stage future hazard can be reduced and more serious health problems can be averted.

Rating #5: No problems found from a visual ground inspection. Structurally, these trees have properly spaced branches and near perfect characteristics for the species. Highly rated trees are not common in natural or developed landscapes. No tree is ever perfect especially with the unpredictability of nature, but with this highest rating, the condition should be considered excellent.

Notes indicate the health, structure and environment of the tree and explain why the tree should be removed or preserved. Additional notes may indicate if problems are minor, extreme or correctible.

Remove is the recommendation that the tree be removed. The recommendation will normally be based either on poor structure or poor health and is indicated as follows:

Yes H – Tree is unhealthy

Yes S – Tree is structurally unsound

OBSERVATIONS AND CONCLUSIONS

The site is a partially developed commercial site in northwest Roseville. The east side of the site has been rough graded and has annual grasses and a single oak (#1535). The western portion of the site has two patches of oak trees, which are both well below the surrounding grade and on two sides of both patches are City arterial streets.

Development impacts to the two trees proposed to be retained in the south patch will sustain moderate impacts and are anticipated to adjust to the proposed site changes. The trees to be retained in the north patch will be subjected to some amount of summer irrigation runoff. It is difficult to say with any certainty if this will prove detrimental to the trees. It may, and it may be that the trees adjust and adapt to the presence of additional summer moisture.

Below is a summary of tree condition by Arborist Rating and Species.

TABLE 2

# Trees	Common Name	DBH	Canopy Radius	Arborist Rating	Defects Found	Retain/ Remove?
1	Blue Oak	28	33	1 Extreme Structure or Health Problems	Old callusing trunk, west side, 9' above grade with interior decay; slightly out of balance east; above average amount of deadwood.	1 Remove
1	Interior Live Oak	35	38	1 Extreme Structure or Health Problems	Old callusing basal trunk wound, north side; moderate to significant decay; out of balance north; slightly above average amount of deadwood.	1 Remove
1	Valley Oak	57	39	1 Extreme Structure or Health Problems	Numerous large scaffold failures, with resulting decay; scaffold limb failure, north side, resulting in a large callusing wound reaching from 2'-20' above grade, with moderate interior decay; above average amount of deadwood.	1 Remove

# Trees	Common Name	DBH	Canopy Radius	Arborist Rating	Defects Found	Retain/Remove?
1	Blue Oak	24	25	2 Major Structure or Health Problems	Measured 2' above grade. Old callusing trunk wound, south side, at point of limb failure, with interior decay; above average amount of deadwood.	1 Retain
11	Blue Oak	8-45	9-39	3 Fair - Minor Problems	See Tree Inventory.	11 Retain
9	Interior Live Oak	17-53	16-32	3 Fair - Minor Problems	See Tree Inventory.	9 Retain
2	Valley Oak	13-16	16-17	3 Fair - Minor Problems	Out of balance northwest.	1 Retain
26 TOTAL						3 Remove 23 Retain

RECOMMENDED REMOVALS

At this time, 3 trees (totaling 120 aggregate diameter inches) have been recommended for removal from the proposed project area due to the nature and extent of defects, compromised health, and/or structural instability noted at the time of field inventory efforts. If these trees were retained within the proposed project area, it is our opinion that they may be hazardous depending upon their proximity to planned development activities. For reference, the trees which have been recommended for removal due to the severity of noted defects, compromised health, and/or structural instability are highlighted in green within the accompanying Tree Inventory Summary and are briefly summarized as follows:

TABLE 3

Tag #	Protected By Code	Common Name	Species	Multi-Stems (inches)	DBH (inches)	Measured At	Measured Canopy Radius (feet)	Arborist Rating
1514	Yes	Blue Oak	<i>(Quercus douglasii)</i>		28	54	33	1 Extreme Structure or Health Problems
1539	Yes	Valley Oak	<i>(Quercus lobata)</i>		57	54	39	1 Extreme Structure or Health Problems
1540	Yes	Interior Live Oak	<i>(Quercus wislizeni)</i>	14,21	35	54	38	1 Extreme Structure or Health Problems

Trees numbered 1510, 1513, 1521, 1523, 1533, 1562, 1563 and 1564 were all identified as having failed and being in down and dead condition. Some of these trees were identified as down in previous updates and all have been removed from the improvement plans.

CONSTRUCTION REMOVALS

At this time, 20 trees (totaling 535 aggregate diameter inches) have been recommended for construction removal from the proposed project area. Those trees are briefly summarized as follows:

Tree #	Common Name	Species	Multi-Stems (inches)	Total DBH (inches)	DLR (feet)	Structure	Vigor
1522	Blue Oak	(<i>Quercus douglasii</i>)		18	22	Fair	Fair
1528	Blue Oak	(<i>Quercus douglasii</i>)		17	24	Poor to fair	Poor to fair
1529	Blue Oak	(<i>Quercus douglasii</i>)		26	32	Poor to fair	Fair
1530	Blue Oak	(<i>Quercus douglasii</i>)		27	33	Poor to fair	Fair
1531	Blue Oak	(<i>Quercus douglasii</i>)		24	31	Poor to fair	Fair
1532	Blue Oak	(<i>Quercus douglasii</i>)		8	9	Poor	Fair
1534	Blue Oak	(<i>Quercus douglasii</i>)		21	30	Poor	Fair
1535	Blue Oak	(<i>Quercus douglasii</i>)		14	17	Fair	Fair
1536	Interior Live Oak	(<i>Quercus wislizeni</i>)		21	22	Fair	Fair
1537	Blue Oak	(<i>Quercus douglasii</i>)		26	31	Fair	Fair
1538	Blue Oak	(<i>Quercus douglasii</i>)		45	37	Fair	Fair
1539	Valley Oak	(<i>Quercus lobata</i>)		57	39	Poor	Fair
1540	Interior Live Oak	(<i>Quercus wislizeni</i>)	14,21	35	38	Poor	Fair
1541	Blue Oak	(<i>Quercus douglasii</i>)		25	39	Fair	Fair
1542	Valley Oak	(<i>Quercus lobata</i>)		13	16	Poor to fair	Fair
1543	Interior Live Oak	(<i>Quercus wislizeni</i>)	12,12,13	37	32	Poor to fair	Fair
1544	Interior Live Oak	(<i>Quercus wislizeni</i>)	12,20,21	53	32	Poor to fair	Fair
1545	Interior Live Oak	(<i>Quercus wislizeni</i>)		21	29	Poor to fair	Fair
1559	Interior Live Oak	(<i>Quercus wislizeni</i>)		26	26	Poor to fair	Fair
1563	Interior Live Oak	(<i>Quercus wislizeni</i>)		21	32	Poor	Fair

DISCUSSION

Trees need to be protected from normal construction practices if they are to remain healthy and viable on the site. Our recommendations are based on experience, and County ordinance requirements, so as to enhance tree longevity. This requires their root zones remain intact and viable, despite heavy equipment being on site, and the need to install foundations, driveways, underground utilities, and landscape irrigation systems. Simply walking and driving on soil has serious consequences for tree health.

Following is a summary of Impacts to trees during construction and Tree Protection measures that should be incorporated into the site plans in order to protect the trees. Once the plans are approved, they become the document that all contractors will follow. ***The plans become the contract between the owner and the contractor, so that only items spelled out in the plans can be expected to be followed. Hence, all protection measures, such as fence locations, mulch requirements and root pruning specifications must be shown on the plans.***

Root Structure

The majority of a tree's roots are contained in a radius from the main trunk outward approximately two to three times the canopy of the tree. These roots are located in the top 6" to 3' of soil. It is a common misconception that a tree underground resembles the canopy (see Drawing A below). The correct root structure of a tree is in Drawing B. All plants' roots need both water and air for survival. Surface roots are a common phenomenon with trees grown in compacted soil. Poor canopy development or canopy decline in mature trees is often the result of inadequate root space and/or soil compaction.

Drawing A

Common misconception of where tree roots are assumed to be located

Drawing B

The reality of where roots are generally located

Structural Issues

Limited space for canopy development produces poor structure in trees. The largest tree in a given area, which is 'shading' the other trees is considered Dominant. The 'shaded' trees are considered Suppressed. The following picture illustrates this point. Suppressed trees are more likely to become a potential hazard due to their poor structure.

Dominant Tree

Growth is upright

Canopy is balanced by limbs and foliage equally

Suppressed Tree

Canopy weight all to one side

Limbs and foliage grow away from dominant tree

Co-dominant leaders are another common structural problem in trees.

Figure 6. Codominant stems are inherently weak because the stems are of similar diameter.

The tree in this picture has a co-dominant leader at about 3' and included bark up to 7 or 8'. Included bark occurs when two or more limbs have a narrow angle of attachment resulting in bark between the stems – instead of cell to cell structure. This is considered a critical defect in trees and is the cause of many failures.

Narrow Angle

Included Bark between the arrows

Pruning Mature Trees for Risk Reduction

There are few good reasons to prune mature trees. Removal of deadwood, directional pruning, removal of decayed or damaged wood, and end-weight reduction as a method of mitigation for structural faults are the only reasons a mature tree should be pruned. Live wood over 3" should not be pruned unless absolutely necessary. Pruning cuts should be clean and correctly placed. Pruning should be done in accordance with the American National Standards Institute (ANSI) A300 standards. It is far better to use more small cuts than a few large cuts as small pruning wounds reduce risk while large wounds increase risk.

Pruning causes an open wound in the tree. Trees do not "heal" they compartmentalize. Any wound made today will always remain, but a healthy tree, in the absence of decay in the wound, will 'cover it' with callus tissue. Large, old pruning wounds with advanced decay are a likely failure point. Mature trees with large wounds are a high failure risk.

Overweight limbs are a common structural fault in suppressed trees. There are two remedial actions for overweight limbs (1) prune the limb to reduce the extension of the canopy, or (2) cable the limb to reduce movement. Cables do not hold weight they only stabilize the limb and require annual inspection.

Photo of another tree – not at this site.

Normal limb structure

Over weight, reaching limb with main stem diameter small compared with amount of foliage present

Photo of another tree – not at this site

Lion's – Tailing is the pruning practice of removal of “an excessive number of inner and/or lower lateral branches from parent branches. Lion's tailing is not an acceptable pruning practice” ANSI A300 (part 1) 4.23. It increases the risk of failure.

Pruning – Cutting back trees changes their natural structure, while leaving trees in their natural form enhances longevity.

Arborist Classifications

There are different types of Arborists:

Tree Removal and/or Pruning Companies. These companies may be licensed by the State of California to do business, but they do not necessarily know anything about trees;

Arborists. Arborist is a broad term. It is intended to mean someone with specialized knowledge of trees but is often used to imply knowledge that is not there.

ISA Certified Arborist: An International Society of Arboriculture Certified Arborist is someone who has been trained and tested to have specialized knowledge of trees. You can look up certified arborists at the International Society of Arboriculture website: isa-arbor.org.

Consulting Arborist: An American Society of Consulting Arborists Registered Consulting Arborist is someone who has been trained and tested to have specialized knowledge of trees and trained and tested to provide high quality reports and documentation. You can look up registered consulting arborists at the American Society of Consulting Arborists website: <https://www.asca-consultants.org/>

Decay in Trees

Decay (in General): Fungi cause all decay of living trees. Decay is considered a disease because cell walls are altered, wood strength is affected, and living sapwood cells may be killed. Fungi decay wood by secreting enzymes. Different types of fungi cause different types of decay through the secretion of different chemical enzymes. Some decays, such as white rot, cause less wood strength loss than others because they first attack the lignin (causes cell walls to thicken and reduces susceptibility to decay and pest damage) secondarily the cellulose (another structural component in a cell walls). Others, such as soft rot, attack the cellulose chain and cause substantial losses in wood strength even in the initial stages of decay. Brown rot causes wood to become brittle and fractures easily with tension. Identification of internal decay in a tree is difficult because visible evidence may not be present.

According to Evaluation of Hazard Trees in Urban Areas (Matheny, 1994) decay is a critical factor in the stability of the tree. As decay progresses in the trunk, the stem becomes a hollow tube or cylinder rather than a solid rod. This change is not readily apparent to the casual observer. Trees require only a small amount of bark and wood to transport water, minerals and sugars. Interior heartwood can be eliminated (or degraded) to a great degree without compromising the transport process. Therefore, trees can contain significant amounts of decay without showing decline symptoms in the crown.

additional cells. The weakest of the vertical wall. Accordingly, decay progression inward at large are more than one pruning cut trunk of the tree, the likelihood of decay progression and the associated structural loss of integrity of the internal wood is high.

Compartmentalization of decay in trees is a biological process in which the cellular tissue around wounds is changed to inhibit fungal growth and provide a barrier against the spread of decay agents into the barrier zones is the formation of while a tree may be able to limit pruning cuts, in the event that there located vertically along the main

Oak Tree Impacts

Our native oak trees are easily damaged or killed by having the soil within the Critical Root Zone (CRZ) disturbed or compacted. All of the work initially performed around protected trees that will be saved should be done by people rather than by wheeled or track type tractors. Oaks are fragile giants that can take little change in soil grade, compaction, or warm season watering. Don't be fooled into believing that warm season watering has no adverse effects on native oaks. Decline and eventual death can take as long as 5-20 years with poor care and inappropriate watering. Oaks can live hundreds of years if treated properly during construction, as well as later with proper pruning, and the appropriate landscape/irrigation design.

RECOMMENTATIONS: SUMMARY OF TREE PROTECTION MEASURES

Hire a Project Arborist to help ensure protection measures are incorporated into the site plans and followed. The Project Arborist should, in cooperation with the Engineers and/or Architects:

- Identify the Root Protection Zones on the final construction drawings, prior to bidding the project.
- Show the placement of tree protection fences, as well as areas to be irrigated, fertilized and mulched on the final construction drawings.
- Clearly show trees for removal on the plans and mark them clearly on site. A Contractor who is a Certified Arborist should perform tree and stump removal. All stumps within the root zone of trees to be preserved shall be ground out using a stump router or left in place. **No trunk within the root zone of other trees shall be removed using a backhoe or other piece of grading equipment.**
- Prior to any grading, or other work on the site that will come within 50' of any tree to be preserved:
 1. Irrigate (if needed) and place a 3" layer of chip mulch over the protected root zone of all trees that will be impacted.
 2. Erect Tree Protection Fences. Place boards against trees located within 3' of construction zones, even if fenced off.
 3. Remove lower foliage that may interfere with equipment PRIOR to having grading or other equipment on site. The Project Arborist should approve the extent of foliage elevation, and oversee the pruning, performed by a contractor who is an ISA Certified Arborist.
- For cuts, expose roots by hand digging, potholing or using an air spade and then cut roots cleanly prior to further grading outside the tree protection zones.
- For fills, if a cut is required first, follow as for cuts.
- Where possible, specify geotextile fabric in lieu of compacting and root cutting, prior to placing fills on the soil surface. Any proposed retaining wall or fill soil shall be discussed with the engineer and arborist in order to reduce impacts to trees to be preserved.
- Clearly designate an area on the site outside the drip line of all trees where construction materials may be stored, and parking can take place. No materials or parking shall take place within the root zones of protected trees.
- Design utility and irrigation trenches to minimize disturbance to tree roots. Where possible, dig trenches with a hydraulic or air spade, placing pipes underneath the roots, or bore the deeper trenches underneath the roots.
- Include on the plans an Arborist inspection schedule to monitor the site during (and after) construction to ensure protection measures are followed and make recommendations for care of the trees on site, as needed.

General Tree protection measures are included as Appendix 3. These measures need to be included on the Site, Grading, Utility and Landscape Plans. A final report of recommendations specific to the plan can be completed as part of, and in conjunction with, the actual plans. This will require the arborist working directly with the engineer and architect for the project. If the above recommendations are followed, the amount of time required by the arborist for the final report should be minim this will require the arborist working directly

with the engineer and architect for the project. If the above recommendations are followed, the amount of time required by the arborist for the final report should be minimal.

TOTAL INVENTORIED TREES = 26 trees (685 aggregate diameter inches)
TOTAL RECOMMENDED REMOVALS = 3 trees (120 aggregate diameter inches)
PRECAUTIONARY TREES HIGHLIGHTED FOR REFERENCE
TOTAL CONSTRUCTION REMOVALS = 20 Trees (535 aggregate diameter inches)

APPENDIX 3 – GENERAL PRACTICES FOR TREE PROTECTION

Definitions

Root zone: The roots of trees grow fairly close to the surface of the soil, and spread out in a radial direction from the trunk of tree. A general rule of thumb is that they spread 2 to 3 times the radius of the canopy, or 1 to 1 ½ times the height of the tree. It is generally accepted that disturbance to root zones should be kept as far as possible from the trunk of a tree.

Inner Bark: The bark on large valley oaks and coast live oaks is quite thick, usually 1" to 2". If the bark is knocked off a tree, the inner bark, or cambial region, is exposed or removed. The cambial zone is the area of tissue responsible for adding new layers to the tree each year, so by removing it, the tree can only grow new tissue from the edges of the wound. In addition, the wood of the tree is exposed to decay fungi, so the trunk present at the time of the injury becomes susceptible to decay. Tree protection measures require that no activities occur which can knock the bark off the trees.

Methods Used in Tree Protection:

No matter how detailed Tree Protection Measures are in the initial Arborist Report, they will not accomplish their stated purpose unless they are applied to individual trees and a Project Arborist is hired to oversee the construction. The Project Arborist should have the ability to enforce the Protection Measures. The Project Arborist should be hired as soon as possible to assist in design and to become familiar with the project. He must be able to read and understand the project drawings and interpret the specifications. He should also have the ability to cooperate with the contractor, incorporating the contractor's ideas on how to accomplish the protection measures, wherever possible. It is advisable for the Project Arborist to be present at the Pre-Bid tour of the site, to answer questions the contractors may have about Tree Protection Measures. This also lets the contractors know how important tree preservation is to the developer.

Root Protection Zone (RPZ): Since in most construction projects it is not possible to protect the entire root zone of a tree, a Root Protection Zone is established for each tree to be preserved. The minimum Root Protection Zone is the area underneath the tree's canopy (out to the dripline, or edge of the canopy), plus 10'. The Project Arborist must approve work within the RPZ.

Irrigate, Fertilize, Mulch: Prior to grading on the site near any tree, the area within the Tree Protection fence should be fertilized with 4 pounds of nitrogen per 1000 square feet, and the fertilizer irrigated in. The irrigation should percolate at least 24 inches into the soil. This should be done no less than 2 weeks prior to grading or other root disturbing activities. After irrigating, cover the RPZ with at least 12" of leaf and twig mulch. Such mulch can be obtained from chipping or grinding the limbs of any trees removed on the site. Acceptable mulches can be obtained from nurseries or other commercial sources. Fibrous or shredded redwood or cedar bark mulch shall not be used anywhere on site.

Fence: Fence around the Root Protection Zone and restrict activity therein to prevent soil compaction by vehicles, foot traffic or material storage. The fenced area shall be off limits to all construction equipment, unless there is express written notification provided by the Project Arborist, and impacts are discussed and mitigated prior to work commencing.

No storage or cleaning of equipment or materials, or parking of any equipment can take place within the fenced off area, known as the RPZ.

The fence should be highly visible, and stout enough to keep vehicles and other equipment out. I recommend the fence be made of orange plastic protective fencing, kept in place by t-posts set no farther apart than 6'.

In areas of intense impact, a 6' chain link fence is preferred.

In areas with many trees, the RPZ can be fenced as one unit, rather than separately for each tree.

Where tree trunks are within 3' of the construction area, place 2" by 4" boards vertically against the tree trunks, even if fenced off. Hold the boards in place with wire. Do not nail them directly to the tree.

The purpose of the boards is to protect the trunk, should any equipment stray into the RPZ.

Elevate Foliage: Where indicated, remove lower foliage from a tree to prevent limb breakage by equipment. Low foliage can usually be removed without harming the tree, unless more than 25% of the foliage is removed. Branches need to be removed at the anatomically correct location in order to prevent decay organisms from entering the trunk. For this reason, a contractor who is an ISA Certified Arborist should perform all pruning on protected trees.¹

Expose and Cut Roots: Breaking roots with a backhoe, or crushing them with a grader, causes significant injury, which may subject the roots to decay. Ripping roots may cause them to splinter toward the base of the tree, creating much more injury than a clean cut would make. At any location where the root zone of a tree will be impacted by a trench or a cut (including a cut required for a fill and compaction), the roots shall be exposed with either a backhoe digging radially to the trunk, by hand digging, or by a hydraulic air spade, and then cut cleanly with a sharp instrument, such as chainsaw with a carbide chain. Once the roots are severed, the area behind the cut should be moistened and mulched. A root protection fence should also be erected to protect the remaining roots, if it is not already in place. Further grading or backhoe work required outside the established RPZ can then continue without further protection measures.

Protect Roots in Deeper Trenches: The location of utilities on the site can be very detrimental to trees. Design the project to use as few trenches as possible, and to keep them away from the major trees to be protected. Wherever possible, in areas where trenches will be very deep, consider boring under the roots of the trees, rather than digging the trench through the roots. This technique can be quite useful for utility trenches and pipelines.

Protect Roots in Small Trenches: After all construction is complete on a site, it is not unusual for the landscape contractor to come in and sever a large number of "preserved" roots during the installation of irrigation systems. The Project Arborist must therefore approve the landscape and irrigation plans. The irrigation system needs to be designed so the main lines are located outside the root zone of major trees, and the secondary lines are either laid on the surface (drip systems), or carefully dug with a hydraulic or air spade, and the flexible pipe fed underneath the major roots.

Design the irrigation system so it can slowly apply water (no more than ¼" to ½" of water per hour) over a longer period of time. This allows deep soaking of root zones. The system also needs to accommodate infrequent irrigation settings of once or twice a month, rather than several times a week.

Monitoring Tree Health During and After Construction: The Project Arborist should visit the site at least twice a month during construction to be certain the tree protection measures are being followed, to monitor the health of impacted trees, and make recommendations as to irrigation or other needs. After construction is

¹ International Society of Arboriculture (ISA), maintains a program of Certifying individuals. Each Certified Arborist has a number and must maintain continuing education credits to remain Certified.

complete, the arborist should monitor the site monthly for one year and make recommendations for care where needed. If longer term monitoring is required, the arborist should report this to the developer and the planning agency overseeing the project.

Plaza at Blue Oaks - Placer-Sacramento County, Annual

Project Characteristics - Start of construction and operational year are estimates. CO2 intensity factor adjusted to reflect R.E.'s anticipated progress towards statewide RPS goals.

Land Use -

Architectural Coating - Low VOC paint.

Vehicle Trips - Non-residential project not anticipated to increase vmt so no mobile analysis is required.

Area Coating - Low VOC.

Energy Use -

Sequestration - based on landscape plan.

Mobile Land Use Mitigation -

Mobile Commute Mitigation - designated park-n-ride site (20 spaces).

Area Mitigation -

Energy Mitigation -

Water Mitigation -

Environmental Noise Assessment

The Plaza at Blue Oaks Commercial Development

Roseville, California

BAC Job # 2018-026

Prepared For:

Signature Homes, Inc.

Attn: Mr. Stephen M. Hicks
4670 Willow Road, Suite 200
Pleasanton, CA 94588

Prepared By:

Bollard Acoustical Consultants, Inc.

Paul Bollard, President

April 2, 2018

Introduction

The proposed Plaza at Blue Oaks Commercial Development (project) is located on the east side of Fiddymment Road, between Blue Oaks Boulevard and Harvey Way in Roseville, California. The development proposes to include a shopping center, ARCO AM/PM facility with car wash, and other commercial uses on three parcels totaling approximately 13 acres. The project site is located adjacent to existing single-family residential uses (south), existing commercial uses (west), and future medium and high-density residential uses (north and east). The project area is shown on Figure 1. The overall project site plan and ARCO AM/PM facility site plan are shown on Figures 2 and 3, respectively.

Due to the proximity of the proposed commercial development to the adjacent existing and future residential uses, the City of Roseville has requested an environmental noise assessment to ensure that the applicable noise standards are satisfied. In response to this request, the project applicant has retained Bollard Acoustical Consultants, Inc. (BAC) to prepare this noise analysis. Specifically, the purposes of this analysis are to quantify noise levels associated with the proposed on-site commercial-related activities (i.e., on-site truck circulation, loading dock activities, and car wash operations), to assess the state of compliance of those noise levels with the applicable City of Roseville noise standards, and if necessary, to recommend measures to reduce those noise levels to acceptable limits at the nearest noise-sensitive uses.

Noise Fundamentals and Terminology

Noise is often described as unwanted sound. Sound is defined as any pressure variation in air that the human ear can detect. If the pressure variations occur frequently enough (at least 20 times per second), they can be heard, and thus are called sound. Measuring sound directly in terms of pressure would require a very large and awkward range of numbers. To avoid this, the decibel scale was devised. The decibel scale allows a million-fold increase in pressure to be expressed as 120 dB. Another useful aspect of the decibel scale is that changes in levels (dB) correspond closely to human perception of relative loudness. Appendix A contains definitions of Acoustical Terminology. Figure 4 shows common noise levels associated with various sources.

The perceived loudness of sounds is dependent upon many factors, including sound pressure level and frequency content. However, within the usual range of environmental noise levels, perception of loudness is relatively predictable, and can be approximated by weighing the frequency response of a sound level meter by means of the standardized A-weighting network. There is a strong correlation between A-weighted sound levels (expressed as dBA) and community response to noise. For this reason, the A-weighted sound level has become the standard tool of environmental noise assessment. All noise levels reported in this section are in terms of A-weighted levels in decibels.

Figure 3

Figure 4. Noise levels associated with common noise sources.

Community noise is commonly described in terms of the “ambient” noise level, which is defined as the all-encompassing noise level associated with a given noise environment. A common statistical tool to measure the ambient noise level is the average, or equivalent, sound level (L_{eq}) over a given time period (usually one hour). The L_{eq} is the foundation of the Day-Night Average Level noise descriptor, L_{dn} , and shows very good correlation with community response to noise.

The Day-Night Average Level (L_{dn}) is based upon the average noise level over a 24-hour day, with a +10 decibel weighing applied to noise occurring during nighttime (10 p.m. to 7 a.m.) hours. The nighttime penalty is based upon the assumption that people react to nighttime noise exposures as though they were twice as loud as daytime exposures. Because L_{dn} represents a 24-hour average, it tends to disguise short-term variations in the noise environment. L_{dn} -based noise standards are commonly used to assess noise impacts associated with traffic, railroad and aircraft noise sources.

Criteria for Acceptable Noise Exposure

City of Roseville General Plan Noise Element 2035

The Noise Element of the City of Roseville General Plan establishes non-transportation noise exposure limits as summarized below in Table 1 (Table IX-3 of the Noise Element). These limits are applicable to non-transportation noise sources (i.e., on-site truck movements, loading docks, and car wash operations) affecting existing noise-sensitive land uses.

Table 1 Performance Standards For Non-Transportation Noise Sources or Projects Affected by Non-Transportation Noise Sources (As Measured at the Property Line of the Noise-Sensitive Uses) City of Roseville General Plan Noise Element		
Noise Level Descriptor	Daytime (7 a.m. - 10 p.m.)	Nighttime (10 p.m. - 7 a.m.)
Hourly L_{eq} , dB	50	45
Maximum Level (L_{max}), dB	70	65
Notes: -Each of the noise limits specified above should be lowered by five dB for simple tone noises, noises consisting primarily of speech or music, or for recurring impulsive noises. Such noises are generally considered by residents to be particularly annoying and are a primary source of noise complaints. -These noise level standards do not apply to residential units established in conjunction with industrial or commercial uses (e.g., caretaker dwellings). -No Standards have been included for interior noise levels. Standard construction practices should, with exterior noise levels identified, result in acceptable interior noise levels. Source: City of Roseville General Plan Noise Element 2035, Table IX-3		

Noise Standards Applied to the Project

The nearest noise-sensitive land uses to the project site are existing and future residential developments located north, south, and east of the project site. Because the hours of operation of the future commercial uses are not known at this time, it was assumed that each of the evaluated noise sources could potentially occur during any hour within a 24-hour period. In reality, it is likely that the majority of the future commercial uses would not operate during nighttime hours (10 p.m. to 7 a.m.). Based on this conservative assumption, the City of Roseville daytime and nighttime noise level standards for noise-sensitive (residential) land uses shown in Table 1 were applied to the project noise sources.

Existing Ambient Noise Environment

The existing ambient noise level environment in the immediate project vicinity is primarily defined by traffic on Fiddymont Road and Blue Oaks Boulevard. To quantify the existing ambient noise environment in the project vicinity, BAC conducted a continuous (24-hour) noise level measurements at two (2) locations on the project site from February 14-15, 2018. The noise measurement locations are shown on Figure 1, identified as Sites 1 and 2.

Larson-Davis Laboratories (LDL) Model 820 precision integrating sound level meters were used to complete the noise level measurements. The meters were calibrated before use with an LDL Model CAL200 acoustical calibrator to ensure the accuracy of the measurements. The equipment used meets all pertinent specifications of the American National Standards Institute for Type 1 sound level meters (ANSI S1.4).

The results of the measurements are shown numerically and graphically in Appendices B and C, and are summarized below in Table 2. Photographs of the measurement sites are provided in Appendix D.

Table 2 Summary of Long-Term Ambient Noise Monitoring Results¹ The Plaza at Blue Oaks Commercial Development – Roseville, California February 14-15, 2018								
Site	Date	L _{dn} , dB	Average Measured Hourly Noise Levels (dB)					
			Daytime (7 a.m. to 10 p.m.)			Nighttime (10 p.m. to 7 a.m.)		
			L _{eq}	L ₅₀	L _{max}	L _{eq}	L ₅₀	L _{max}
1	2/15	56	50-55 (54)	49-55 (52)	61-73 (66)	42-53 (48)	38-50 (43)	56-71 (63)
2	2/14 – 2/15	57	50-57 (55)	47-56 (52)	64-77 (69)	45-56 (49)	39-54 (44)	59-72 (66)
Notes: ¹ Long-term ambient noise monitoring locations are shown on Figure 1, identified as Sites 1 and 2. Source: Bollard Acoustical Consultants, Inc. (2018)								

The Table 2 data indicate that measured average noise levels at the project site during daytime and nighttime hours were 54-55 dB L_{eq} and 48-49 dB L_{eq}, respectively. Maximum noise levels at the project site during daytime and nighttime hours were 66-69 dB L_{max} and 63-66 dB L_{max}, respectively.

Project Noise Generation

Noise generated by project-related activities were quantified through a combination of use of reference noise level measurements and application of accepted noise modeling techniques. Primary stationary noise sources associated with the proposed development include on-site truck circulation and loading dock activities from deliveries to businesses in buildings Major 1 and 2 at the northern end of the site, and car wash operations from the ARCO AM/PM facility located at the southeastern end of the site. Predicted noise levels resulting from each source are evaluated in the following sections. The predicted project noise levels take into account existing 6-foot tall noise barriers located adjacent to the residential developments to the northeast and south of the project site. Figure 2 shows the locations of the proposed noise sources, buildings, and existing noise barriers adjacent to the project site.

Evaluation of On-Site Truck Circulation Noise Levels

The project proposes a truck lane to be used for primary for deliveries to the businesses located in buildings Major 1 (grocery store) and Major 2. The locations of the proposed delivery truck lane and nearest residential uses are identified on Figure 2.

To quantify on-site truck circulation noise exposure at the nearest residential uses, BAC utilized file data for comparable commercial centers. For a conservative assessment of daily on-site truck circulation noise levels, it was assumed that 1-2 heavy trucks and 4 medium duty trucks/vans would deliver products to the stores at buildings Major 1 and 2 during a typical day. For the purposes of predicting hourly average noise levels for comparison against the city's hourly average (L_{eq}) noise standard, it was assumed that 1 heavy truck and 2 medium duty trucks could have store deliveries during the same hour.

BAC file data indicate that heavy truck passbys produce an average Sound Exposure Level (SEL) of approximately 90 dB at a distance of 50 feet, with medium duty trucks (including side step vans), producing a SEL of approximately 76 dB. In addition, the file data also indicate a single event maximum sound level for slow-moving heavy-duty trucks and medium-duty trucks of 75 dB and 70 dB L_{max} (respectively), at a reference distance of 50 feet. Based on these levels, assuming 1 semi-trailer delivery and 2 medium duty truck deliveries during any given hour, and assuming standard sound wave spreading loss (-4.5 dB per doubling of distance from a moving point source), on-site truck circulation noise exposure at the property lines of the nearest residential uses was calculated and the results of those calculations relative to the city's noise standards are presented in Tables 3 and 4.

The predicted on-site truck circulation noise levels at the nearest residential use to the northeast take into consideration the shielding provided by the existing 6-foot tall noise barrier along the development boundary, as indicated in Figure 2. To account for the screening provided by the existing barrier, an offset of -7 dB was conservatively applied to calculated noise levels at this land use.

Table 3 Predicted On-Site Truck Circulation Noise Levels vs. City Hourly L_{eq} Noise Standards The Plaza at Blue Oaks Commercial Development – Roseville, California				
Property Line	Distance from Passby Route (ft)	Predicted Combined Truck Passby Noise Level, L_{eq} (dB) ¹	Compliance with City Standard?	
			Daytime	Nighttime
North	100	50	Yes	No
East	350	42	Yes	Yes
Northeast	365	35	Yes	Yes
City of Roseville Noise Level Standards, Hourly L_{eq} (dB):			50	45
Notes: ¹ Predicted combined truck (heavy and medium) circulation noise levels at the residential use to the northeast take into consideration the shielding provided by the existing 6-foot tall noise barrier along the development boundary, and have been conservatively adjusted by -7 dB to account for this screening. Source: Bollard Acoustical Consultants, Inc. (2018)				

Table 4 Predicted On-Site Truck Circulation Noise Levels vs. City Maximum L_{max} Noise Standards The Plaza at Blue Oaks Commercial Development – Roseville, California					
Property Line	Distance from Passby Route, (ft)	Predicted Truck Passby Noise Level, L_{max} (dB) ¹		Compliance with City Standard?	
		Heavy-Truck (HT)	Medium Truck (MT)	Daytime (HT/MT)	Nighttime (HT/MT)
North	100	70	65	Yes/Yes	No/Yes
East	350	62	57	Yes/Yes	Yes/Yes
Northeast	365	55	50	Yes/Yes	Yes/Yes
City of Roseville Noise Level Standards, Maximum L_{max} (dB):				70	65
Notes: ¹ Predicted truck circulation noise levels at the residential use to the northeast take into consideration the shielding provided by the existing 6-foot tall noise barrier along the development boundary, and have been conservatively adjusted by -7 dB to account for this screening. Source: Bollard Acoustical Consultants, Inc. (2018)					

As indicated in Table 3, predicted combined truck passby noise levels at the property lines of the nearest residential uses would satisfy the City of Roseville 50 dB L_{eq} daytime noise level standard. The Table 3 data also shows that predicted combined truck passby noise levels would satisfy the City of Roseville 45 dB L_{eq} nighttime noise level standard at the nearest residential uses to the east and northeast. However, the predicted combined truck passby noise level of 50 dB L_{eq} at the nearest proposed residential uses to the north would exceed the City of Roseville 45 dB L_{eq} nighttime noise level standard. As a result, additional consideration of on-site truck circulation noise mitigation measures would be necessary in order to satisfy the

City of Roseville 45 dB L_{eq} nighttime noise level standard at the nearest residential use to the north.

The Table 4 data indicate that predicted heavy and medium-truck passby noise levels at the property lines of the nearest residential uses would satisfy the City of Roseville 70 dB L_{max} daytime noise level standard. In addition, predicted medium-truck passby noise levels would also satisfy the city's nighttime noise level standard at the nearest residential uses. However, the Table 4 data indicates that heavy-truck passby noise levels are predicted to exceed the city's nighttime noise level standard by 5 dB at the property line of the nearest residential use to the north. As a result, additional consideration of heavy-truck passby noise mitigation measures would be necessary in order to satisfy the City of Roseville 65 dB L_{max} nighttime noise level standard at the nearest residential use to the north.

On-Site Truck Circulation Noise Mitigation Measures

Noise exposure from on-site truck circulation is expected to satisfy the applicable City of Roseville daytime noise level standards of 50 dB L_{eq} and 70 dB L_{max} at the nearest residential uses. However, should truck deliveries occur during nighttime hours (10 p.m. to 7 a.m.), truck passby noise levels are predicted to exceed the City of Roseville 45 dB L_{eq} and 65 dB L_{max} nighttime noise level standards at the nearest residential use to the north.

To mitigate on-site truck circulation noise exposure to a state of compliance with the City of Roseville nighttime noise level standards of 45 dB L_{eq} and 65 dB L_{max} at the nearest residential use to the north, the effectiveness of a solid noise barrier between the proposed truck lane and residential development to the north was evaluated. The results from the barrier analysis are provided in Appendices E-1 and E-2, and are summarized in Table 5 relative to the applicable City of Roseville noise standards.

Table 5 Predicted On-Site Truck Circulation Noise Barrier Effectiveness vs. City Standards The Plaza at Blue Oaks Commercial Development – Roseville, California			
Barrier Height (ft) ¹	Resulting Source Noise Level at Residential Use to North, dB ²		Compliance with Nighttime Standards? (Combined/HT)
	Combined Truck Passby, L_{eq}	HT Truck Passby, L_{max}	
6	46	66	No/No
7	45	65	Yes/Yes
City of Roseville Nighttime Noise Level Standards, L_{eq}/L_{max} (dB):			45 / 65
Notes: ¹ Figure 2 shows the location of the recommended noise barrier. ² Complete results of the barrier analysis are provided in Appendices E-1 and E-2. Source: Bollard Acoustical Consultants, Inc. (2018)			

The Table 5 data show that the construction of a solid noise barrier measuring a minimum of 7-feet in height at the location shown on Figure 2 would be required to satisfy the applicable City of Roseville nighttime noise criteria at the adjacent residential use to the north. Figure 2 shows the location of the noise barrier. Alternatively, truck deliveries would need to be restricted to daytime hours (7 a.m. to 10 p.m.) if a noise barrier is not constructed as indicated above.

Evaluation of Loading Dock Noise Levels

The project proposes two commercial delivery loading docks on the northern end of the project site, identified as Docks 1 and 2 on Figure 2. To predict noise levels generated by loading dock activity at the project site, BAC once again utilized file data for comparable commercial centers. BAC file data indicate a commercial loading dock noise level of 55 dB L_{eq} and 70 dB L_{max} at a distance of 100 feet for typical operations. Assuming standard sound wave spreading loss (-6 dB per doubling of distance from a stationary source), loading dock noise exposure at the nearest residential property lines was calculated and the results of those calculations relative to the city's noise standards are presented in Tables 6 and 7.

Table 6 Predicted Loading Dock Noise Levels vs. City Hourly L_{eq} Noise Standards The Plaza at Blue Oaks Commercial Development – Roseville, California						
Property Line	Distance from Loading Docks (ft)		Predicted Hourly Noise Level, L_{eq} (dB) ¹		Compliance with City Standard?	
	Dock 1	Dock 2	Dock 1	Dock 2	Daytime (Dock 1/Dock2)	Nighttime (Dock 1/Dock 2)
North	125	120	53	53	No/No	No/No
East	560	400	40	43	Yes/Yes	Yes/Yes

Notes: ¹ Predicted loading dock noise levels at the residential use to the northeast take into consideration the shielding provided by the existing 6-foot tall noise barrier along the development boundary, and have been conservatively adjusted by -7 dB to account for this screening. Source: Bollard Acoustical Consultants, Inc. (2018)						

As indicated in Table 6, predicted loading dock noise levels at the property lines of the nearest residential uses to the east and southeast would satisfy the City of Roseville 50 and 45 dB L_{eq} daytime and nighttime noise level standards (respectively). However, at the adjacent residential use to the north, loading dock noise levels are expected to exceed the applicable City of Roseville daytime and nighttime noise level criteria. As a result, additional consideration of loading dock noise mitigation measures would be necessary in order to satisfy the City of Roseville 50 and 45 dB L_{eq} daytime and nighttime noise level standards at the nearest residential use to the north.

The Table 7 data indicate that predicted loading dock noise levels at the property lines of the nearest residential uses would satisfy the City of Roseville 70 dB L_{max} daytime noise level standard. In addition, predicted loading dock noise exposure is also expected to satisfy the city's nighttime maximum noise level standard at the nearest residential uses to the east and northeast. However, the Table 7 data indicates that loading dock noise levels are predicted to exceed the city's 65 dB L_{max} nighttime noise level standard at the property line of the adjacent residential use to the north. As a result, additional consideration of loading dock noise mitigation measures would be necessary in order to satisfy the City of Roseville 65 dB L_{max} nighttime noise level standard at the nearest residential use to the north.

Loading Dock Noise Mitigation Measures

Noise exposure from loading dock activities is expected to satisfy the applicable City of Roseville daytime and nighttime hourly and maximum noise level standards at the nearest residential uses to the east and southeast. In addition, predicted loading dock noise exposure will also satisfy the city's daytime 70 dB L_{max} noise level standard at the nearest residential use to the north. However, noise levels from loading dock activities are predicted to exceed the City

of Roseville 50 and 45 dB L_{eq} daytime and nighttime noise standards (respectively), and 65 dB L_{max} nighttime noise level standard at the nearest proposed residential uses to the north.

To mitigate loading dock noise exposure to a state of compliance with the applicable City of Roseville noise level criteria at the adjacent residential use to the north, the effectiveness of a solid noise barrier at the location indicated on Figure 2 was evaluated. The results from the barrier analysis are provided in Appendices E-3 through E-6, and are summarized below in Table 8 relative to the applicable City of Roseville noise standards.

Table 8 Predicted Loading Dock Noise Barrier Effectiveness vs. City Standards The Plaza at Blue Oaks Commercial Development – Roseville, California				
Barrier Height (ft) ¹	Resulting Source Noise Level at Residential Use to North, dB ²		Compliance with City Standards?	
	Loading Docks 1 & 2		Daytime (L_{eq}/L_{max})	Nighttime (L_{eq}/L_{max})
	L_{eq}	L_{max}		
6	48	63	Yes/Yes	No/No
7	47	62	Yes/Yes	No/Yes
8	46	61	Yes/Yes	No/Yes
9	45	61	Yes/Yes	Yes/Yes
City of Roseville Noise Level Standards, L_{eq}/L_{max} (dB):			50 / 70	45 / 65
Notes: ¹ Figure 2 shows the location of the noise barrier. ² Complete results of the barrier analysis are provided in Appendices E-3 through E-6. Source: Bollard Acoustical Consultants, Inc. (2018)				

The Table 8 data shows varies noise barrier heights required to satisfy the City of Roseville noise criteria at the adjacent residential use to the north. As shown in Table 8, loading dock activities would need to be restricted to daytime hours (7 a.m. to 10 p.m.) if a noise barrier less than 9-feet in height is constructed at the location shown on Figure 2.

Based on the proposed location of Loading Dock 2, it is expected that the residential use to the north will receive partial shielding from the recommended noise barrier. Due to the reduced level of shielding from the noise barrier, it is recommended that delivery activities at Loading Dock 2 be limited to daytime hours (7 a.m. to 10 p.m.). The restriction of activities at Loading Dock 2 during nighttime hours (10 p.m. to 7 a.m.) will minimize the potential for an exceedance of the City of Roseville nighttime noise level standards at the adjacent residential use to the north.

Evaluation of Car Wash Dryer Noise Levels

The project proposes an ARCO AM/PM facility with a car wash located at the southeastern end of the commercial development. The location of the car wash and nearest residential uses are shown on Figure 3.

Based on the experience of Bollard Acoustical Consultants, noise levels generated by car wash facilities are primarily due to the drying portion of the operation. According to information obtained from the equipment supplier, the proposed car wash will utilize a Ryko 3-Fan Slimline Dryer Model #6050-D. The manufacturer's specifications, provided as Appendix F, indicate that the reference sound level varies relative to the tunnel entrance, exit, and off-axis positions. Figure 3 illustrates the location of the proposed car wash tunnel, and the direction vehicles will move through the tunnel (north to south). Based on the manufacturer reference noise data sheet (Appendix F), and the proposed orientation of the car wash, the worst-case dryer noise exposure at the future high-density residential development to the east will occur at a position 90 degrees off-axis from the car wash tunnel entrance, and 45 degrees off-axis from the tunnel exit. Because the car wash tunnel exit is proposed to be south-facing, the existing residential development to the south will receive direct (0 degrees off-axis) dryer noise exposure.

When the car wash is at its worst-case maximum capacity, the dryers are anticipated to operate for no more than 15 minutes during that hour. The reference noise levels provided in Appendix F represent maximum (L_{max}) dryer noise levels. Because the dryers would be in operation for no more than 15 minutes during any hour, average (L_{eq}) noise levels would be approximately 6 dB less than maximum noise levels. Assuming standard spherical spreading loss (-6 dB per doubling of distance), and 15 minutes of operation during worst-case hour, car wash dryer noise exposure at the nearest residential uses was calculated and the results of those calculations relative to the city's noise standards are presented in Tables 9 and 10.

The predicted car wash dryer noise levels at the existing residential development to the south take into consideration the shielding provided by the existing 6-foot tall noise barrier along the development boundary, as indicated in Figures 2 and 3. To account for the screening provided by the existing barrier, an offset of -7 dB was conservatively applied to calculated noise levels at this land use.

Table 9
Predicted Car Wash Dyer Noise Levels vs. City Hourly L_{eq} Noise Standards
The Plaza at Blue Oaks Commercial Development – Roseville, California

Property Line	Reference Noise Level	Distance to Property Line (ft) ¹	Predicted Noise Level, L_{eq} (dB) ^{2,3}	Compliance with City Standard?	
				Daytime	Nighttime
East	65 dB at 30 feet (entrance, 90° off-axis)	65	52	No	No
East	76 dB at 40 feet (exit, 45° off-axis)	100	62	No	No
South	74 dB at 70 feet (exit, in line)	320	48	Yes	No
City of Roseville Noise Level Standards, Hourly L_{eq} (dB):				50	45

Notes:

- ¹ Distances from car wash dryer equipment to nearest property lines were scaled using the provided site plans.
² The predicted equipment noise levels at the residential use to the south take into consideration the shielding provided by an existing 6-foot tall solid noise barrier along the development boundary, and have been conservatively adjusted by -7 dB to account for this shielding.
³ Hourly average L_{eq} based on 15 minutes of dryer operation during a worst-case hour.

Source: Bollard Acoustical Consultants, Inc. (2018)

Table 10
Predicted Car Wash Dryer Noise Levels vs. City Maximum L_{max} Noise Standards
The Plaza at Blue Oaks Commercial Development – Roseville, California

Property Line	Reference Noise Level	Distance to Property Line (ft) ¹	Predicted Noise Level, L_{max} (dB) ^{2,3}	Compliance with City Standard?

² The predicted equipment noise levels at the residential use to the south take into consideration the shielding provided by an existing 6-foot tall solid noise barrier along the development boundary, and have been conservatively adjusted by -7 dB to account for this shielding.

Source: Bollard Acoustical Consultants, Inc. (2018)

The Table 9 data indicate that predicted car wash dryer hourly average noise levels at the nearest residential property line to the south would satisfy the City of Roseville 50 dB L_{eq} daytime noise level standard, but exceed the city's 45 dB L_{eq} nighttime criteria. Further, predicted car wash dryer (entrance and exit) noise levels would also exceed the City of Roseville daytime and nighttime noise level criteria at the adjacent residential property line to the east.

As indicated in Table 10, predicted car wash dryer noise levels at the property lines of the nearest residential uses to the east and south would satisfy the City of Roseville 70 dB L_{max} daytime noise level standard. In addition, predicted car wash dryer noise exposure is also expected to satisfy the city's 65 dB L_{max} nighttime noise level standard at the nearest residential use to the south. However, the Table 10 data indicates that car wash dryer (exit) noise levels are predicted to exceed the city's 65 dB L_{max} nighttime noise level standard at the property line of the adjacent residential use to the east.

Car Wash Dryer Noise Mitigation Measures

Car wash dryer noise exposure at the nearest residential property lines is predicted to exceed the City of Roseville daytime and nighttime noise criteria. To mitigate these identified exceedances, the effectiveness of installing car wash entrance and exit doors was considered. Specifically, equipment manufacturer BayWatch offers tunnel doors that provide approximately 14 dB of dryer noise reduction when doors are in the closed position (air tight seal) during wash cycles. The equipment manufacturer reference noise data sheet is provided in Appendix G. Assuming an offset of -14 dB from the reference noise levels shown in Tables 9 and 10 to account for the tunnel doors being in the closed position during the drying cycle of the car wash (air-tight seal), dryer noise levels were predicted at the property lines of the adjacent residential uses. The results of this analysis are summarized in Table 11.

Table 11 Predicted Car Wash Dryer Noise Levels – Mitigated The Plaza at Blue Oaks Commercial Development – Roseville, California					
Property Line	Reference Noise Level	Distance to Property Line (ft)	Offset, dB	Predicted Noise Levels (dB) ¹	
				L _{eq} ²	L _{max}
East	65 dB at 30 feet (entrance, 90° off-axis)	65	-14	38	44
East	76 dB at 40 feet (exit, 45° off-axis)	100	-14	48	54
South	74 dB at 70 feet (exit, in line)	320	-14	34	40
Notes: ¹ Predicted dryer noise levels take into consideration the noise reduction provided by closed entrance and exit doors during drying cycle (air-tight seal), and have been offset by -14 dB to account for this noise reduction. ² Hourly average L _{eq} based on 15 minutes of dryer operation during a worst-case hour. Source: Bollard Acoustical Consultants, Inc. (2018)					

Provided the project incorporates the recommended car wash entrance and exit doors, and that the doors are kept in the closed position with an air tight seal during wash cycles, car wash noise exposure at the adjacent residential property lines to the east and south would satisfy the City of Roseville daytime noise level standards. However, even after implementation of the recommended car wash doors, hourly average car wash noise levels could still exceed the city's 45 dB L_{eq} nighttime noise level standard by 3 dB at the residential property line to the east. Thus, if the recommended car wash entry and exit doors provide 14 dB of noise reduction, car wash operations should be limited to daytime hours (7 a.m. to 10 p.m.). However, should the applicant opt for nighttime car wash operations (10 p.m. to 7 a.m.), the recommended tunnel entrance and exit doors would need to provide a minimum noise level reduction of 17 dB.

Evaluation of Car Wash Vacuum Noise Levels

Based on the site plans, the project proposes two (2) vacuum units on the eastern side of the ARCO AM/PM facility building (see Figure 3). According to information obtained from the equipment distributor, the project proposes two JE Adams Super Vac (3-motor) Model #9200 series vacuum units. The manufacturer's specifications are provided as Appendix H. For the purposes of this analysis, it was assumed that the two vacuums would be in operation concurrently and continuously for the duration of an hour (worst-case hour). Because the vacuums were assumed to be in continuous operation for a full hour, hourly average (L_{eq}) and maximum (L_{max}) noise levels would be equivalent. Based upon the manufacturer's data, the proposed location of the vacuum units, and assuming the continuous use of the vacuums for a given hour, vacuum noise exposure at the nearest residential property lines was calculated and the results of those calculations are presented below in Table 12.

The predicted vacuum noise levels at the residential use to the south take into consideration the shielding provided by an existing 6-foot noise barrier along the development boundary, and have been conservatively adjusted by -7 dB to account for this shielding. In addition, because the proposed intervening ARCO AM/PM building would break line of sight of the vacuum units, predicted vacuum noise levels at the adjacent residential use the east were conservatively adjusted by -10 dB to account for this screening.

Table 12				
Predicted Vacuum Noise Levels ¹				
The Plaza at Blue Oaks Commercial Development – Roseville, California				
Property Line	Reference Noise Level ²	Distance to Property Line (feet)	Offset (dB) ³	Predicted Vacuum Noise Levels, L _{eq} / L _{max} (dB) ⁴
East	65 dBA at 40 feet	205	-10	41
South		330	-7	40
City of Roseville Daytime Noise Level Standards, L _{eq} /L _{max} (dB):				50 / 70
City of Roseville Nighttime Noise Level Standards, L _{eq} /L _{max} (dB):				45 / 65
Notes:				
1 The proposed vacuum system location is illustrated on Figure 3.				
2 The two proposed vacuums were assumed to be operating concurrently.				
3 Offsets of -10 and -7 dB were applied to account for the shielding provided by the proposed intervening ARCO AM/PM building (east) and existing 6-foot tall solid noise barrier (south), respectively.				
4 Because the vacuums were assumed to be in continuous operation for a full hour, hourly average (L _{eq}) and maximum (L _{max}) noise levels would be equivalent.				
Source: Bollard Acoustical Consultants, Inc. (2018)				

As shown in Table 12, predicted vacuum operation noise levels at the residential property lines to the south and west would satisfy the City of Roseville average and maximum daytime and nighttime noise level criteria. As a result, no further consideration of noise mitigation measures would be warranted for this aspect of the project.

Conclusions

This analysis concludes that noise generated by on-site truck circulation, loading docks, and car wash dryer operations at the proposed The Plaza at Blue Oaks Commercial Development project could potentially exceed the applicable City of Roseville noise level limits at the nearest residential uses. In order to comply with the applicable noise criteria, the following noise mitigation measures are recommended:

On-Site Truck Circulation Noise

Noise exposure from on-site truck circulation is expected to exceed the applicable City of Roseville nighttime noise criteria at the adjacent residential use to the north. In order to comply with the city's nighttime noise criteria at the nearest residential use to the north, a solid noise barrier measuring a minimum of 7-feet in height will be required at the location shown on Figure

2. Alternatively, commercial truck deliveries would need to be restricted to daytime hours (7 a.m. to 10 p.m.) if a noise barrier is not constructed as prescribed.

Loading Dock Noise

Noise exposure from loading dock activities is expected to exceed the City of Roseville daytime and nighttime noise criteria the adjacent residential use to the north. In order to comply with the city's noise criteria at the residential use to the north, a solid noise barrier will be required at the location shown on Figure 2. Specific barrier heights required to comply with the city's daytime and nighttime noise criteria are shown in Table 8. In addition, because it is expected that the residential use to the north will receive a reduced level of shielding from the required noise barrier, it is recommended that delivery activities at Loading Dock 2 be limited to daytime hours (7 a.m. to 10 p.m.). The restriction of delivery activities at Loading Dock 2 during nighttime hours (10 p.m. to 7 a.m.) will minimize the potential for an exceedance of the City of Roseville nighttime noise level standards at the residential land use to the north.

Car Wash Dryer Noise

Car wash dryer noise exposure at the residential uses to the east and south is predicted to exceed the City of Roseville daytime and nighttime noise level criteria. In order to comply with the City of Roseville daytime noise criteria, the installation of car wash entrance and exit doors would be required. As an example, car wash entrance and exit doors offered by BayWatch provide up to approximately 14 dB of dryer noise reduction (see Appendix G). In order to maximize the effectiveness of the equipment, the car wash entrance and exit doors must be kept in the closed position during wash cycles to create an air tight seal. Provided that the project implement car wash entrance and exit doors that provide a minimum of 14 dB of dryer noise level reduction, project car wash dryer noise exposure is expected to comply with the City of Roseville daytime noise criteria. However, in order to comply with the City of Roseville nighttime noise criteria, the recommended tunnel entrance and exit doors would need to provide a minimum noise level reduction of 17 dB.

Following implementation of the measures recommended above, it is BAC's professional opinion that the project will be satisfactory relative to the applicable City of Roseville noise criteria and would not result in adverse noise impacts at the adjacent residential uses. Ultimately, each use operating within the Plaza at Blue Oaks Commercial Development will be responsible for operating in compliance with the noise standards of the City of Roseville.

This concludes BAC's noise assessment for the proposed Plaza at Blue Oaks Commercial Development in Roseville, California. Please contact BAC at (916) 663-0500 or paulb@bacnoise.com with any questions regarding this assessment.

Appendix A

Acoustical Terminology

Acoustics	The science of sound.
Ambient Noise	The distinctive acoustical characteristics of a given space consisting of all noise sources audible at that location. In many cases, the term ambient is used to describe an existing or pre-project condition such as the setting in an environmental noise study.
Attenuation	The reduction of an acoustic signal.
A-Weighting	A frequency-response adjustment of a sound level meter that conditions the output signal to approximate human response.
Decibel or dB	Fundamental unit of sound, A Bell is defined as the logarithm of the ratio of the sound pressure squared over the reference pressure squared. A Decibel is one-tenth of a Bell.
CNEL	Community Noise Equivalent Level. Defined as the 24-hour average noise level with noise occurring during evening hours (7 - 10 p.m.) weighted by a factor of three and nighttime hours weighted by a factor of 10 prior to averaging.
Frequency	The measure of the rapidity of alterations of a periodic signal, expressed in cycles per second or hertz.
L_{dn}	Day/Night Average Sound Level. Similar to CNEL but with no evening weighting.
L_{eq}	Equivalent or energy-averaged sound level.
L_{max}	The highest root-mean-square (RMS) sound level measured over a given period of time.
Loudness	A subjective term for the sensation of the magnitude of sound.
Masking	The amount (or the process) by which the threshold of audibility is for one sound is raised by the presence of another (masking) sound.
Noise	Unwanted sound.
Peak Noise	The level corresponding to the highest (not RMS) sound pressure measured over a given period of time. This term is often confused with the Maximum level, which is the highest RMS level.
RT₆₀	The time it takes reverberant sound to decay by 60 dB once the source has been removed.
Sabin	The unit of sound absorption. One square foot of material absorbing 100% of incident sound has an absorption of 1 sabin.
SEL	A rating, in decibels, of a discrete event, such as an aircraft flyover or train passby, that compresses the total sound energy of the event into a 1-s time period.
Threshold of Hearing	The lowest sound that can be perceived by the human auditory system, generally considered to be 0 dB for persons with perfect hearing.
Threshold of Pain	Approximately 120 dB above the threshold of hearing.

FEATURES

- Double service doors offer easy access to clean out compartment and 4 filter bag system (Replacement Item #8076)
- Digital display timer with built-in coin counter, scrolls messages, prices for service and counts down remaining time (Replacement Item #8000-10)
- Visual and audible last coin alarm
- Coin box secured with pin lock (Replacement Item #8638)
- Faceplate secured with 2 Medeco cam locks (Replacement Item #8953)
- Hose: 2" x 15', swivel cuff and nozzle included (15', 25', and 50' available in 1 1/2" or 2")
- Coinco bill acceptor takes \$1.00 and \$5.00 bills (Replacement Item #8130-6)
- Imonex coin acceptor takes quarters (Replacement Item #8149)
- Lighted dome available in red, blue, yellow, dark green, light green, purple and white
- Optional coin mechs, motors, colored hoses, extra security, and clean-out containers are available

PROGRAMMER

- 8000-30 Remote control programmer for digital display, 8 oz.

DECALS

- 9200-11 Yellow decals
- 9200-12 Blue decals
- 9200-13 Violet decals
- 9200-14 Black decals (standard)

SUPER VAC 9200-1LD SHOWN WITH OPTIONAL BLUE DOME, BLUE HOSE, BLUE DECAL PACKAGE, SERVICE DOORS SECURITY COVER, AND COIN BOX SECURITY PACKAGE

Re: *The Plaza at Blue Oaks*
Traffic Evaluation
Roseville, California

Date: April 6, 2018

Per your request and authorization, we have prepared this traffic evaluation for the above referenced project.

Project Understanding

Kimley-Horn understands that a 13.35-acre neighborhood shopping center is proposed for the vacant site located in the northeast corner of the Blue Oaks Boulevard intersection with Fiddymment Road in the Fiddymment Ranch Development of the City of Roseville. According to the project applicant, the project is proposed to be constructed in two phases, with Phase 2 excluded from the initial Design Review Permit application which is the trigger for this traffic analysis. The proposed project consists of a 35,000-square foot (sf) grocery anchor store, an approximately 20,000-sf major retail store, a gas station (approximately 3,050-sf convenience store with 12 fueling pumps), and seven additional buildings ranging in size from 3,250-sf to 6,045-sf. Access to the project is proposed to be from all four surrounding roadways; one right-in/right-out driveway along Blue Oaks Boulevard, one right-in/right-out driveway along Fiddymment Road, two full access driveways along Harvey Way, and two full access driveways along Oak Meadow Drive. The project site plan is provided in **Exhibit 1**.

The purpose of this analysis is to evaluate the proposed project's access points and localized circulation, including throat depths, tapers, storage, and driveway treatments that are necessary to ensure safe and efficient operations.

Study Facilities and Evaluation Parameters

The following ten intersections (see **Exhibit 2**) were identified in consultation with the City and are included in this access evaluation. **Exhibit 3** details the study intersections' geometries while **Exhibit 4** presents the Existing (2018) conditions AM and PM peak hour traffic volumes, collected on February 27 and March 6 to March 8, 2018. Raw traffic counts are provided in **Attachment A**. For each location, traffic/access control and the primary evaluation parameter(s) are described below:

1. Blue Oaks Boulevard @ Fiddymment Road
 - o Existing traffic signal
 - o Primary consideration is anticipated mix of volumes with project volumes, with a focus on the left- and u-turn movements, and vehicle delay and queuing
2. Blue Oaks Boulevard @ Site Access Driveway
 - o Proposed right-in/right-out driveway
 - o Primary considerations are the minimum required throat depth (MRTD) and the size of the right-turn deceleration lane

3. Blue Oaks Boulevard @ Oak Meadow Drive
 - o Existing side-street stop controlled (SSSC) intersection
 - o Primary consideration is anticipated mix of volumes with project volumes, with a focus on the southbound queue in relation to the South Project Access Driveway intersection
4. Blue Oaks Boulevard @ Orchard View Road
 - o Existing traffic signal
 - o Primary consideration is anticipated mix of volumes with project volumes, with a focus on the left- and u-turn movements
5. Fiddymment Road @ Project Access Driveway Intersection
 - o Proposed right-in/right-out driveway
 - o Primary considerations are the minimum required throat depth (MRTD) and the need for a right-turn deceleration lane
6. Harvey Way @ Fiddymment Road
 - o Existing SSSC intersection
 - o Primary consideration is the anticipated mix of volumes with project volumes, with a focus on the southbound left-turn movement onto Harvey Way
7. Harvey Way @ West Project Access Driveway
 - o Access initially assumed to be full access
 - o Primary considerations are the need for turn restrictions and the MRTD
8. Harvey Way @ Oak Meadow Drive
 - o Existing SSSC intersection
 - o Primary consideration is the anticipated mix of volumes with project volumes, with a focus on the need for all-way stop control (AWSC)
9. Harvey Way @ Orchard View Road
 - o Existing SSSC intersection
 - o Primary consideration is the anticipated mix of volumes with project volumes, with a focus on the need for AWSC
10. Oak Meadow Drive @ South Project Access Driveway
 - o Access initially assumed to be full access
 - o Primary considerations are the need for turn restrictions and the MRTD

This analysis did not include the eastern project driveway along Harvey Way and the northern project driveway along Oak Meadow Drive as these driveway intersections are not anticipated to affect the operations at the adjacent offsite city intersections.

The access evaluation was conducted for the weekday AM and PM peak hours under Existing (2018) plus Proposed Project conditions. Kimley-Horn applied methods defined in the *Highway Capacity Manual (HCM)*, using Synchro 9 traffic analysis software.

Assessment of Proposed Project

Trip Generation

The number of trips anticipated to be generated by the proposed project were approximated using *Trip Generation Manual, 10th Edition* published by the Institute of Transportation Engineers (ITE). **Table 1** presents the trip generation data for the proposed project.

Table 1 – Proposed Project Trip Generation

	Size (KSF/ Fueling Pumps)	Daily Trips	AM Peak Hour			PM Peak Hour		
			Total	In	Out	Total	In	Out
Supermarket (850)	35	3738	134	80	54	323	165	158
Shopping Center (820)	55.2	2082	52	32	20	210	101	109
Gas Station with Convenience Store (960)	12 (Fueling Pumps)	2766	337	169	168	276	138	138
Subtotal Trips		8,586	523	281	242	809	404	405
Supermarket Pass-by Trip Reduction : PM Peak-Hour (36%)		0	0	0	0	-116	-59	-57
Shopping Center Pass-by Trip Reduction: PM Peak-hour (34%)		0	0	0	0	-71	-34	-37
Gas Station with Convenience Store Passby Trip Reduction: AM Peak-Hour (62%), PM Peak- Hour (56%)		0	-208	-104	-104	-154	-77	-77
Net New Project Trips		8,586	315	177	138	468	234	234

Source: Trip Generation Manual, 10th Edition, ITE

As reflected in **Table 1**, the proposed project is anticipated to generate 315 new AM peak-hour and 468 new PM peak-hour trips. A pass by trip reduction of 208 and 341 trips was applied during the AM and PM peak-hours, respectively, in accordance with the procedures contained in the *Trip Generation Handbook, 3rd Edition*.

Trip Distribution

The distribution of new project trips was developed based on existing project area roadway volumes, general knowledge of project area traffic patterns, the proposed project layout, guidance from *Transportation and Land Development, 2nd Edition* published by ITE, and engineering judgment. Project trips were assigned to the study intersections and the surrounding roadway network according to these patterns. The assignment of project trips to the site driveways accounts for the turn restrictions at project driveways along Blue Oaks Boulevard and Fiddymment Road.

The trip distribution percentages are presented in **Exhibit 5**. Project only volumes are reflected in **Exhibit 6**. Existing (2018) plus Proposed Project volumes are reflected in **Exhibit 7**.

Traffic Assessment Methodology

As previously discussed, the focus of this traffic evaluation is on vehicle queuing entering the site and the Minimum Required Throat Depth (MRTD) at each project site driveway. For this evaluation, the City's guidelines¹ were referenced to determine the driveways' MRTD.

Synchro was used to evaluate the anticipated operations at the signalized study intersections at Blue Oaks Boulevard/Fiddymment Road (Intersection #1) and Blue Oaks Boulevard/Orchard View Road (Intersection #4) under Existing (2018) plus Proposed Project conditions.

¹ Section 4 Traffic Impact Studies, City of Roseville Design Standards, January 2016.

Additionally, an evaluation of the warrants for All-Way Stop Control (AWSC) was evaluated at the side-street stop controlled study intersections at Harvey Way/Oak Meadow Drive (Intersection #8) and Harvey Way/Orchard View Road (Intersection #9). This AWSC warrant evaluation was performed in accordance with the guidance contained in Section 2B.07 of the *California Manual on Uniform Traffic Control Devices (CMUTCD), 2014 Edition, Revision 3 (March 9, 2017)*.

Signalized Intersection Operations and Queuing

In an effort to confirm the adequacy of the existing configuration at the intersections of Blue Oaks Boulevard/Fiddymont Road (Intersection #1) and Blue Oaks Boulevard/Orchard View Road (Intersection #4), Synchro was used to determine the anticipated 95th percentile vehicle queues, delay, and Level of Service (LOS) under Existing (2018) plus Proposed Project conditions. **Table 2** summarizes the delay and LOS at the two signalized study intersections. Analysis worksheets are provided in **Attachment B**.

Table 2 – Intersection Level of Service for Existing (2018) plus Proposed Project Conditions

Intersection	Control	Peak Hour	Existing (2018)		Existing (2018) plus Proposed Project	
			Delay (sec)	LOS	Delay (sec)	LOS
#1 Blue Oaks Boulevard @ Fiddymont Road	Signal	AM	27.2	C	29.3	C
		PM	29.5	C	33.2	C
#4 Blue Oaks Boulevard @ Orchard View Road	Signal	AM	3.8	A	4.2	A
		PM	3.2	A	4.1	A

As shown in **Table 2**, the project intersections are shown to operate at or above acceptable LOS C during both peak-hours.

As congestion increases it is common for traffic at signals and stop signs to form lines of stopped (or queued) vehicles. Queue lengths were determined for each lane and measure the distance that vehicles will back up in each direction approaching an intersection. The 95th percentile queues were calculated for the two signalized study intersections by using 95th percentile traffic to account for fluctuations in traffic and represents a condition where 95 percent of the time during the peak period, traffic volumes and related queuing will be at, or less, than determined by the analysis. **Table 3** presents a summary of the queuing results. Analysis worksheets are provided in **Attachment B**.

Table 3 – Intersection Queuing for Existing (2018) plus Proposed Project Conditions

Existing (2018)	N/A		N/A		
Existing (2018) plus Project	200	0	200	0	

Note: Shaded results reflect locations where 95th percentile queues exceed available storage capacity

As shown in **Table 3**, two project intersections are anticipated to experience 95th percentile queues that exceed available storage at the following locations:

- Blue Oaks Boulevard and Fiddymment Road (Intersection #1)
 - o WBL movement during the PM peak-hour
- Harvey Way and Fiddymment Road (Intersection #6)
 - o WBLT movement during the PM peak-hour

Minimum Required Throat Depth (MRTD)

MRTDs were calculated for four site driveways (Intersections #2, #5, #7, and #10) under Existing (2018) plus Proposed Project conditions. **Table 4** and **Table 5** summarize the findings of the MRTD evaluation based on the City's guidelines for the AM and PM peaks, respectively. Analysis worksheets are provided in **Attachment C**.

Table 4 – MRTD at site driveways (AM Peak-Hour)

INT	TS	Approach Volume	ConflVol (Left)	ConflVol (Right)	LT Out	RT Out	RT%	Minimum Required Throat Depth (MRTD)
2	1	105		159				100
5	1	118		219				100

Table 5 – MRTD at site driveways (PM Peak-Hour)

INT	TS	Approach Volume	ConflVol (Left)	ConflVol (Right)	LT Out	RT Out	RT%	Minimum Required Throat Depth (MRTD)
2	1	175		266				125
5	1	195		222				150
7	0	102	38	23	102	0	0%	75
10	0	77	108	16	18	59	77%	25

The following is a summary of this evaluation:

- Intersection #2 (right-in/right-out), as currently proposed per **Exhibit 1**, has a throat depth of 140-feet, which is greater than the minimum required distance of 125-feet (PM peak-hour) that was calculated for the outbound right-turn. Based on the calculations the existing throat depth is sufficient under these conditions.
- Intersection #5 (right-in/right-out), as currently proposed per **Exhibit 1**, has a throat depth of 130-feet, which is less than the minimum required distance of 150 feet (PM peak-hour) that was calculated for the outbound right-turn. Based on the calculations the existing throat depth is insufficient under these conditions.
- Intersection #7 (full access), as currently proposed per **Exhibit 1**, has a throat depth of 35-feet, which is less than the minimum distance of 75 feet (PM peak-hour) that was calculated for the outbound right- and left-turns. Based on the calculations the existing throat depth is insufficient under these conditions.
- Intersection #10 (full access), as currently proposed per **Exhibit 1**, has a throat depth of 25-feet, which is equal to the minimum distance of 25-feet (PM peak-hour) that was calculated for the outbound right- and left-turns. Based on the calculations the existing throat depth is sufficient under these conditions.

All Way Stop Control (AWSC) Warrant Evaluation

According to Section 2B.07 of the *California Manual on Uniform Traffic Control Devices (CMUTCD)*, the total vehicle volumes entering the intersection along the main street approaches must average at least 300 vehicles over an eight-hour period to satisfy AWSC warrants. The volumes for Harvey Way at Oak Meadow Drive (Intersection # 8) and Harvey Way at Orchard View Drive (Intersection #9) are below this threshold for both the AM and PM peak-hours. Therefore, an AWSC warrant would not be satisfied at Intersections #8 and #9 under the Existing (2018) plus Proposed Project conditions.

Right- Turn Deceleration Lane

According to the City's guidelines², a right-turn deceleration lane is required when all four of the following conditions are satisfied:

- A. The driveway is located on an arterial or expressway.
- B. Right turn ingress volume is expected to exceed fifty (50) during peak hour flows on the roadway. For right turn ingress volumes between ten (10) and fifty (50) a right turn curb taper shall be constructed in conformance with the Standard Drawings.
- C. There is ample room and frontage to fit a deceleration lane as determined by the City Engineer.
- D. The travel speed of the roadway, as determined by the City Engineer, equals or exceeds 45 mph.

The requirements and conditions at the project driveways along Blue Oaks Boulevard (Intersection #2) and Fiddymment Road (Intersection #5) are summarized in **Table 6**.

Table 6 – Right Turn Deceleration Lanes

Project Driveway	Time Period	Located on Arterial or Expressway?	Right Turn Volume	Right Turn Volume over 50?	Ample Room and Frontage?	85th Percentile Travel Speed	Travel Speed ≥ 45 mph?	Deceleration Lane Appropriate?
Project Driveway #2	AM	Yes	156	Yes	Yes	51.9	Yes	Yes
	PM	Yes	233	Yes	Yes	51.9	Yes	Yes
Project Driveway #5	AM	Yes	81	Yes	Yes	52.3	Yes	Yes
	PM	Yes	121	Yes	Yes	52.3	Yes	Yes

Based on these guidelines, both driveways satisfy the need for a right turn deceleration lane. According to the Section 201 of the Highway Design Manual³ and the posted speed limit of 45 mph, the required stopping sight distance is 360 feet. Therefore, a 360-foot right-turn deceleration lane would be appropriate for both Intersection #2 (westbound) and Intersection #5 (northbound). The distance between the project driveway along Blue Oaks Boulevard (Intersection #2) and the intersection of Blue Oaks Boulevard and Oak Meadow Drive (Intersection #3) is approximately 360 feet. The right-turn deceleration lane featured in the proposed project site plan should be lengthened to accommodate this stopping sight distance. There is approximately 320 feet available between project driveway along Fiddymment Road (Intersection #5) and the intersection of Blue Oaks Boulevard and Fiddymment (Intersection #1) to the south. Given the existing bus-only striping and the site frontage design as illustrated on the project site plan, there is adequate lateral space to include a right-turn deceleration lane before the driveway. However, there is not adequate space for the entire 360 feet in length to achieve a deceleration lane that meets calculated stopping sight distance.

Conclusions

The following are the primary conclusions based on the analyses discussed herein:

- The signalized intersections at Blue Oaks Boulevard at Fiddymment Road (Intersection #1) and Blue Oak Boulevard at Orchard View (Intersection #4) both operate at LOS C or better during the Existing (2018) plus Project conditions.
- The available storage capacity at the study intersections is sufficient to accommodate the 95-percentile queue lengths under Existing (2018) plus Project conditions, with the exception of the westbound left-turn movement at Blue Oaks Boulevard and Fiddymment Road (Intersection #1) and the westbound left-thru movement at Harvey Way and Fiddymment Road (Intersection #6) during the PM peak hour.

² Section 5 Traffic Impact Studies, City of Roseville Design Standards, January 2016.

³ Section 201, Highway Design Manual, Caltrans, December 2015.

- o The 95th percentile queue for the westbound left-turn at Blue Oaks Boulevard and Fiddymment Road (Intersection #1) is anticipated to exceed the available storage by approximately 3 vehicles. These vehicles are expected to be accommodated within the existing taper and not extend into the adjacent through lane. Additionally, this calculated queue length is conservative as it represents a condition where 95 percent of the time during the peak period, queues will be at or less than the value reported in Synchro. It is recommended that the City monitor queuing at this intersection approach during the peak hours and perform signal timing adjustments as needed.
- o The 95th percentile queue for the westbound left-turn at Harvey Way and Fiddymment Road (Intersection #6) is anticipated to exceed the available storage by approximately 4 vehicles. This condition may restrict access for vehicles making a northbound left-turn out from the project driveway along Harvey Drive (Intersection #7) and potentially result in on-site queues at the project driveway which would block inbound vehicles from Harvey Drive. It is recommended that the western project driveway along Harvey Way (Intersection #7) be restricted to right-turn in/out movements with installation of a narrow-raised median along Harvey Way and the addition of appropriate signing and striping at the driveway approach. This driveway access restriction will extend the storage capacity of the westbound approach back to the easterly driveway along Harvey Way, resulting in sufficient storage capacity. Vehicles assumed to make a left-turn out of the western project driveway would be rerouted to the site driveways along Fiddymment Road (Intersection #5) and eastern project driveway along Harvey Road. The rerouted vehicles are anticipated to be adequately accommodated at these project driveways.
- The volumes at the intersections of Harvey Way at Oak Meadow Drive (Intersection # 8) and Harvey Way at Orchard View Drive (Intersection #9) do not satisfy AWSC warrants. The existing SSSC control at both intersections are appropriate under the Existing (2018) plus Project conditions.
- The site driveway along Fiddymment Road (Intersection #5) and western site driveway along Harvey Way (Intersection #7) have deficient Minimum Required Throat Depth (MRTD). At Intersection #5, the MRTD exceeds the available throat depth by one vehicle length. The MRTD should be provided by installing “KEEP CLEAR” signing and pavement marking within the driveway intersection with the upstream drive aisle to minimize the potential for driveway blockage. There is also a MRTD deficiency at the western project driveway along Harvey Way (Intersection #7). However, this deficiency will also be resolved by restricting driveway access to right-turn in/out movements. The outbound vehicles will be rerouted to the site driveways along Fiddymment Road (Intersection #5) and eastern project driveway along Harvey Road, as described above.
- Right-turn deceleration lanes are appropriate for the project driveways along Blue Oaks Boulevard (Intersection #2) and Fiddymment Road (Intersection #5). As shown on the proposed project site plan, the design accommodates a northbound right-turn deceleration lane along Fiddymment Road, however the available distance is less than the required stopping sight distance. The deceleration lane along westbound Blue Oaks Boulevard approaching Intersection #2 should be lengthened to 360 feet to adequately accommodate slowing vehicles entering the site.

- GENERAL NOTES
1. THIS TENTATIVE PARCEL MAP SUBDIVIDES LOT 22 OF BOOK AA OF MAPS, AT PAGE 10, RECORDS OF PLACER COUNTY.
 2. PARCEL DIMENSIONS AND AREAS ARE APPROXIMATE.
 3. PARCEL LINES AND AREAS MAY BE ADJUSTED AT THE TIME OF THE FINAL PARCEL MAP PROVIDED NO NEW ADDITIONAL PARCELS ARE CREATED, SUBJECT TO THE APPROVAL OF THE CITY OF ROSEVILLE.
 4. THE FINAL MAPPING AND SUBSEQUENT DEVELOPMENT OF LOTS MAY BE PHASED IN ANY SEQUENCE PROVIDED EACH PHASE PROVIDES FOR ACCESS AND FOR BACKBONE INFRASTRUCTURE, SUBJECT TO THE APPROVAL OF THE CITY OF ROSEVILLE.
 5. THE EXTENT OF CONSTRUCTION OF PUBLIC STREETS MAY ALSO BE PHASED, SUBJECT TO THE APPROVAL OF THE CITY OF ROSEVILLE.
 6. PURSUANT TO GOVERNMENT CODE SECTION 66456.1, THE SUBDIVIDER MAY FILE MULTIPLE FINAL MAPS BASED UPON THIS TENTATIVE PARCEL MAP. THE FILING OF A FINAL MAP ON A PORTION OF THIS TENTATIVE PARCEL MAP SHALL NOT INVALIDATE ANY PART OF THIS TENTATIVE PARCEL MAP.
 7. RECIPROCAL ACCESS, PARKING, DRAINAGE, AND UTILITY INFRASTRUCTURE AGREEMENTS ARE TO BE RECORDED WITH THE FILING OF EACH PARCEL MAP RELATING TO THIS TENTATIVE PARCEL MAP.
 8. EASEMENTS TO ACCOMMODATE NEW PUBLIC UTILITY IMPROVEMENTS, ACCESS REQUIRED FOR PARCEL DEVELOPMENT, OR OTHER SIMILAR MAPPING REQUIREMENTS NEEDED TO ACCOMPLISH THE FINAL DESIGN MAY BE ADDED PRIOR TO EACH FINAL MAP BASED ON THIS TENTATIVE PARCEL MAP.

PROPERTY TRANSITION ARBORIST REPORT

RE: Arborist Report and Tree Inventory for Fiddymment Farms, Unit 17 Project Site
City of Roseville, California

Executive Summary:

Signature Homes, Inc. contacted California Tree and Landscape Consulting, Inc. to document the trees on the property for a better understanding of the existing resource and any potential improvement obstacles that may arise. Signature Homes, Inc. requested an arborist report and tree inventory updates and impact assessment for the property located at Fiddymment Farms, Unit 17, suitable for submittal to the City of Roseville. This is an Updated Arborist Report and Tree Inventory for the filing of plans to develop the property.

Ed Stirtz, ISA Certified Arborist WE0510A, visited the property on February 17, 2020, to provide updated species identification, measurements of DBH and canopy, field condition notes, recommended actions, ratings, and approximate locations for the trees. A total of 26 trees were evaluated on this property, of which 26 are protected trees according to the City of Roseville's Municipal Code. Chapter 19.66, Tree Preservation, defines a "Protected Tree" as any native oak tree equal to or greater than 6 inches diameter at breast height (DBH) measured as a total of a single trunk or multiple trunks. The purpose of this field reconnaissance effort was to identify, inventory, and comment upon the current structure and vigor of the "protected trees" located within and/or overhanging the project site.

The vegetation on site includes those native oak trees as identified in the inventory and three to five other substandard size oak trees 1" to 2" diameter range.

TABLE 1

Tree Species	Trees on this Site	Protected Trees on the Site	Proposed for Removal for Development	Total Proposed for Retention
Blue Oak	13	13	11	2
Interior Live Oak	10	10	7	3
Valley Oak	3	3	2	1
TOTALS	26	26	20	6

ASSIGNMENT

Perform an examination of the site to document the presence and condition of trees protected by the City of Roseville. The “study area” for this effort includes the area as depicted on “The Plaza at Blue Oaks” preliminary tree impact plan prepared by TSD Engineering, Inc., dated February 5, 2020. (All trees protected by the City are included in the inventory.) Prepare a report of findings.

METHODS

Appendix 2 and Tables 1, 2 and 3 in this report are the detailed inventory and recommendations for the trees. The following terms and Table A – Ratings Descriptions will further explain our findings.

Species of trees is listed by our local common name and botanical name by genus and species.

DBH (diameter breast high) is normally measured at 4’6” (54” above the average ground, height but if that varies then the location where it is measured is noted here. A steel diameter tape was used to measure the trees.

Canopy radius is measured in feet. It is the farthest extent of the crown composed of leaves and small twigs measured by a Stanley digital distance meter. This measurement often defines the Critical Root Zone (CRZ) or Protection Zone (PZ), which is a circular area around a tree with a radius equal to this measurement.

Actions listed are recommendations to improve health or structure of the tree. Trees in public spaces require maintenance. If a tree is to remain and be preserved, then the tree may need some form of work to reduce the likelihood of failure and increase the longevity of the tree. Preservation requirements and actions based on a proposed development plan are not included here.

Arborist Rating is subjective to condition and is based on both the health and structure of the tree. All of the trees were rated for condition, per the recognized national standard as set up by the Council of Tree and Landscape Appraisers and the International Society of Arboriculture (ISA) on a numeric scale of 5 (being the highest) to 0 (the worst condition, dead). The rating was done in the field at the time of the measuring and inspection.

Table A – Ratings Descriptions

No problem(s)	5	excellent
No apparent problem(s)	4	good
<u>Minor problem(s)</u>	<u>3</u>	<u>fair</u>
Major problem(s)	2	poor
Extreme problem(s)	1	hazardous, non-correctable
Dead	0	dead

Rating #0: This indicates a tree that has no significant sign of life.

Rating #1: The problems are extreme. This rating is assigned to a tree that has structural and/or health problems that no amount of work or effort can change. The issues may or may not be considered a dangerous situation.

Rating #2: The tree has major problems. If the option is taken to preserve the tree, its condition could be improved with correct arboricultural work including, but not limited to: pruning, cabling, bracing, bolting, guying, spraying, mistletoe removal, vertical mulching, fertilization, etc. If the recommended actions are completed correctly, hazard can be reduced and the rating can be elevated to a 3. If no action is taken the tree is considered a liability and should be removed.

Rating #3: The tree is in fair condition. There are some minor structural or health problems that pose no immediate danger. When the recommended actions in an arborist report are completed correctly the defect(s) can be minimized or eliminated.

Rating #4: The tree is in good condition and there are no apparent problems that a Certified Arborist can see from a visual ground inspection. If potential structural or health problems are tended to at this stage future hazard can be reduced and more serious health problems can be averted.

Rating #5: No problems found from a visual ground inspection. Structurally, these trees have properly spaced branches and near perfect characteristics for the species. Highly rated trees are not common in natural or developed landscapes. No tree is ever perfect especially with the unpredictability of nature, but with this highest rating, the condition should be considered excellent.

Notes indicate the health, structure and environment of the tree and explain why the tree should be removed or preserved. Additional notes may indicate if problems are minor, extreme or correctible.

Remove is the recommendation that the tree be removed. The recommendation will normally be based either on poor structure or poor health and is indicated as follows:

Yes H – Tree is unhealthy

Yes S – Tree is structurally unsound

OBSERVATIONS AND CONCLUSIONS

The site is a partially developed commercial site in northwest Roseville. The east side of the site has been rough graded and has annual grasses and a single oak (#1535). The western portion of the site has two patches of oak trees, which are both well below the surrounding grade and on two sides of both patches are City arterial streets.

Development impacts to the two trees proposed to be retained in the south patch will sustain moderate impacts and are anticipated to adjust to the proposed site changes. The trees to be retained in the north patch will be subjected to some amount of summer irrigation runoff. It is difficult to say with any certainty if this will prove detrimental to the trees. It may, and it may be that the trees adjust and adapt to the presence of additional summer moisture.

Below is a summary of tree condition by Arborist Rating and Species.

TABLE 2

# Trees	Common Name	DBH	Canopy Radius	Arborist Rating	Defects Found	Retain/ Remove?
1	Blue Oak	28	33	1 Extreme Structure or Health Problems	Old callusing trunk, west side, 9' above grade with interior decay; slightly out of balance east; above average amount of deadwood.	1 Remove
1	Interior Live Oak	35	38	1 Extreme Structure or Health Problems	Old callusing basal trunk wound, north side; moderate to significant decay; out of balance north; slightly above average amount of deadwood.	1 Remove
1	Valley Oak	57	39	1 Extreme Structure or Health Problems	Numerous large scaffold failures, with resulting decay; scaffold limb failure, north side, resulting in a large callusing wound reaching from 2'-20' above grade, with moderate interior decay; above average amount of deadwood.	1 Remove

# Trees	Common Name	DBH	Canopy Radius	Arborist Rating	Defects Found	Retain/Remove?
1	Blue Oak	24	25	2 Major Structure or Health Problems	Measured 2' above grade. Old callusing trunk wound, south side, at point of limb failure, with interior decay; above average amount of deadwood.	1 Retain
11	Blue Oak	8-45	9-39	3 Fair - Minor Problems	See Tree Inventory.	11 Retain
9	Interior Live Oak	17-53	16-32	3 Fair - Minor Problems	See Tree Inventory.	9 Retain
2	Valley Oak	13-16	16-17	3 Fair - Minor Problems	Out of balance northwest.	1 Retain
26 TOTAL						3 Remove 23 Retain

RECOMMENDED REMOVALS

At this time, 3 trees (totaling 120 aggregate diameter inches) have been recommended for removal from the proposed project area due to the nature and extent of defects, compromised health, and/or structural instability noted at the time of field inventory efforts. If these trees were retained within the proposed project area, it is our opinion that they may be hazardous depending upon their proximity to planned development activities. For reference, the trees which have been recommended for removal due to the severity of noted defects, compromised health, and/or structural instability are highlighted in green within the accompanying Tree Inventory Summary and are briefly summarized as follows:

TABLE 3

Tag #	Protected By Code	Common Name	Species	Multi-Stems (inches)	DBH (inches)	Measured At	Measured Canopy Radius (feet)	Arborist Rating
1514	Yes	Blue Oak	<i>(Quercus douglasii)</i>		28	54	33	1 Extreme Structure or Health Problems
1539	Yes	Valley Oak	<i>(Quercus lobata)</i>		57	54	39	1 Extreme Structure or Health Problems
1540	Yes	Interior Live Oak	<i>(Quercus wislizeni)</i>	14,21	35	54	38	1 Extreme Structure or Health Problems

Trees numbered 1510, 1513, 1521, 1523, 1533, 1562, 1563 and 1564 were all identified as having failed and being in down and dead condition. Some of these trees were identified as down in previous updates and all have been removed from the improvement plans.

CONSTRUCTION REMOVALS

At this time, 20 trees (totaling 535 aggregate diameter inches) have been recommended for construction removal from the proposed project area. Those trees are briefly summarized as follows:

Tree #	Common Name	Species	Multi-Stems (inches)	Total DBH (inches)	DLR (feet)	Structure	Vigor
1522	Blue Oak	(<i>Quercus douglasii</i>)		18	22	Fair	Fair
1528	Blue Oak	(<i>Quercus douglasii</i>)		17	24	Poor to fair	Poor to fair
1529	Blue Oak	(<i>Quercus douglasii</i>)		26	32	Poor to fair	Fair
1530	Blue Oak	(<i>Quercus douglasii</i>)		27	33	Poor to fair	Fair
1531	Blue Oak	(<i>Quercus douglasii</i>)		24	31	Poor to fair	Fair
1532	Blue Oak	(<i>Quercus douglasii</i>)		8	9	Poor	Fair
1534	Blue Oak	(<i>Quercus douglasii</i>)		21	30	Poor	Fair
1535	Blue Oak	(<i>Quercus douglasii</i>)		14	17	Fair	Fair
1536	Interior Live Oak	(<i>Quercus wislizeni</i>)		21	22	Fair	Fair
1537	Blue Oak	(<i>Quercus douglasii</i>)		26	31	Fair	Fair
1538	Blue Oak	(<i>Quercus douglasii</i>)		45	37	Fair	Fair
1539	Valley Oak	(<i>Quercus lobata</i>)		57	39	Poor	Fair
1540	Interior Live Oak	(<i>Quercus wislizeni</i>)	14,21	35	38	Poor	Fair
1541	Blue Oak	(<i>Quercus douglasii</i>)		25	39	Fair	Fair
1542	Valley Oak	(<i>Quercus lobata</i>)		13	16	Poor to fair	Fair
1543	Interior Live Oak	(<i>Quercus wislizeni</i>)	12,12,13	37	32	Poor to fair	Fair
1544	Interior Live Oak	(<i>Quercus wislizeni</i>)	12,20,21	53	32	Poor to fair	Fair
1545	Interior Live Oak	(<i>Quercus wislizeni</i>)		21	29	Poor to fair	Fair
1559	Interior Live Oak	(<i>Quercus wislizeni</i>)		26	26	Poor to fair	Fair
1563	Interior Live Oak	(<i>Quercus wislizeni</i>)		21	32	Poor	Fair

DISCUSSION

Trees need to be protected from normal construction practices if they are to remain healthy and viable on the site. Our recommendations are based on experience, and County ordinance requirements, so as to enhance tree longevity. This requires their root zones remain intact and viable, despite heavy equipment being on site, and the need to install foundations, driveways, underground utilities, and landscape irrigation systems. Simply walking and driving on soil has serious consequences for tree health.

Following is a summary of Impacts to trees during construction and Tree Protection measures that should be incorporated into the site plans in order to protect the trees. Once the plans are approved, they become the document that all contractors will follow. ***The plans become the contract between the owner and the contractor, so that only items spelled out in the plans can be expected to be followed. Hence, all protection measures, such as fence locations, mulch requirements and root pruning specifications must be shown on the plans.***

Root Structure

The majority of a tree's roots are contained in a radius from the main trunk outward approximately two to three times the canopy of the tree. These roots are located in the top 6" to 3' of soil. It is a common misconception that a tree underground resembles the canopy (see Drawing A below). The correct root structure of a tree is in Drawing B. All plants' roots need both water and air for survival. Surface roots are a common phenomenon with trees grown in compacted soil. Poor canopy development or canopy decline in mature trees is often the result of inadequate root space and/or soil compaction.

Drawing A

Common misconception of where tree roots are assumed to be located

Drawing B

The reality of where roots are generally located

Structural Issues

Limited space for canopy development produces poor structure in trees. The largest tree in a given area, which is 'shading' the other trees is considered Dominant. The 'shaded' trees are considered Suppressed. The following picture illustrates this point. Suppressed trees are more likely to become a potential hazard due to their poor structure.

Dominant Tree

Growth is upright

Canopy is balanced by limbs and foliage equally

Suppressed Tree

Canopy weight all to one side

Limbs and foliage grow away from dominant tree

Co-dominant leaders are another common structural problem in trees.

The tree in this picture has a co-dominant leader at about 3' and included bark up to 7 or 8'. Included bark occurs when two or more limbs have a narrow angle of attachment resulting in bark between the stems – instead of cell to cell structure. This is considered a critical defect in trees and is the cause of many failures.

Narrow Angle

Included Bark between the arrows

Figure 6. Codominant stems are inherently weak because the stems are of similar diameter.

Photo from Evaluation of Hazard Trees in Urban Areas by Nelda P. Matheny and James R. Clark, 1994 International Society of Arboriculture

Pruning Mature Trees for Risk Reduction

There are few good reasons to prune mature trees. Removal of deadwood, directional pruning, removal of decayed or damaged wood, and end-weight reduction as a method of mitigation for structural faults are the only reasons a mature tree should be pruned. Live wood over 3" should not be pruned unless absolutely necessary. Pruning cuts should be clean and correctly placed. Pruning should be done in accordance with the American National Standards Institute (ANSI) A300 standards. It is far better to use more small cuts than a few large cuts as small pruning wounds reduce risk while large wounds increase risk.

Pruning causes an open wound in the tree. Trees do not "heal" they compartmentalize. Any wound made today will always remain, but a healthy tree, in the absence of decay in the wound, will 'cover it' with callus tissue. Large, old pruning wounds with advanced decay are a likely failure point. Mature trees with large wounds are a high failure risk.

Overweight limbs are a common structural fault in suppressed trees. There are two remedial actions for overweight limbs (1) prune the limb to reduce the extension of the canopy, or (2) cable the limb to reduce movement. Cables do not hold weight they only stabilize the limb and require annual inspection.

Photo of another tree – not at this site.

Normal limb structure

Over weight, reaching limb with main stem diameter small compared with amount of foliage present

Photo of another tree – not at this site

Lion's – Tailing is the pruning practice of removal of “an excessive number of inner and/or lower lateral branches from parent branches. Lion's tailing is not an acceptable pruning practice” ANSI A300 (part 1) 4.23. It increases the risk of failure.

Pruning – Cutting back trees changes their natural structure, while leaving trees in their natural form enhances longevity.

Arborist Classifications

There are different types of Arborists:

Tree Removal and/or Pruning Companies. These companies may be licensed by the State of California to do business, but they do not necessarily know anything about trees;

Arborists. Arborist is a broad term. It is intended to mean someone with specialized knowledge of trees but is often used to imply knowledge that is not there.

ISA Certified Arborist: An International Society of Arboriculture Certified Arborist is someone who has been trained and tested to have specialized knowledge of trees. You can look up certified arborists at the International Society of Arboriculture website: isa-arbor.org.

Consulting Arborist: An American Society of Consulting Arborists Registered Consulting Arborist is someone who has been trained and tested to have specialized knowledge of trees and trained and tested to provide high quality reports and documentation. You can look up registered consulting arborists at the American Society of Consulting Arborists website: <https://www.asca-consultants.org/>

Decay in Trees

Decay (in General): Fungi cause all decay of living trees. Decay is considered a disease because cell walls are altered, wood strength is affected, and living sapwood cells may be killed. Fungi decay wood by secreting enzymes. Different types of fungi cause different types of decay through the secretion of different chemical enzymes. Some decays, such as white rot, cause less wood strength loss than others because they first attack the lignin (causes cell walls to thicken and reduces susceptibility to decay and pest damage) secondarily the cellulose (another structural component in a cell walls). Others, such as soft rot, attack the cellulose chain and cause substantial losses in wood strength even in the initial stages of decay. Brown rot causes wood to become brittle and fractures easily with tension. Identification of internal decay in a tree is difficult because visible evidence may not be present.

According to Evaluation of Hazard Trees in Urban Areas (Matheny, 1994) decay is a critical factor in the stability of the tree. As decay progresses in the trunk, the stem becomes a hollow tube or cylinder rather than a solid rod. This change is not readily apparent to the casual observer. Trees require only a small amount of bark and wood to transport water, minerals and sugars. Interior heartwood can be eliminated (or degraded) to a great degree without compromising the transport process. Therefore, trees can contain significant amounts of decay without showing decline symptoms in the crown.

additional cells. The weakest of the vertical wall. Accordingly, decay progression inward at large are more than one pruning cut trunk of the tree, the likelihood of decay progression and the associated structural loss of integrity of the internal wood is high.

Compartmentalization of decay in trees is a biological process in which the cellular tissue around wounds is changed to inhibit fungal growth and provide a barrier against the spread of decay agents into the barrier zones is the formation of while a tree may be able to limit pruning cuts, in the event that there located vertically along the main

Oak Tree Impacts

Our native oak trees are easily damaged or killed by having the soil within the Critical Root Zone (CRZ) disturbed or compacted. All of the work initially performed around protected trees that will be saved should be done by people rather than by wheeled or track type tractors. Oaks are fragile giants that can take little change in soil grade, compaction, or warm season watering. Don't be fooled into believing that warm season watering has no adverse effects on native oaks. Decline and eventual death can take as long as 5-20 years with poor care and inappropriate watering. Oaks can live hundreds of years if treated properly during construction, as well as later with proper pruning, and the appropriate landscape/irrigation design.

RECOMMENTATIONS: SUMMARY OF TREE PROTECTION MEASURES

Hire a Project Arborist to help ensure protection measures are incorporated into the site plans and followed. The Project Arborist should, in cooperation with the Engineers and/or Architects:

- Identify the Root Protection Zones on the final construction drawings, prior to bidding the project.
- Show the placement of tree protection fences, as well as areas to be irrigated, fertilized and mulched on the final construction drawings.
- Clearly show trees for removal on the plans and mark them clearly on site. A Contractor who is a Certified Arborist should perform tree and stump removal. All stumps within the root zone of trees to be preserved shall be ground out using a stump router or left in place. **No trunk within the root zone of other trees shall be removed using a backhoe or other piece of grading equipment.**
- Prior to any grading, or other work on the site that will come within 50' of any tree to be preserved:
 1. Irrigate (if needed) and place a 3" layer of chip mulch over the protected root zone of all trees that will be impacted.
 2. Erect Tree Protection Fences. Place boards against trees located within 3' of construction zones, even if fenced off.
 3. Remove lower foliage that may interfere with equipment PRIOR to having grading or other equipment on site. The Project Arborist should approve the extent of foliage elevation, and oversee the pruning, performed by a contractor who is an ISA Certified Arborist.
- For cuts, expose roots by hand digging, potholing or using an air spade and then cut roots cleanly prior to further grading outside the tree protection zones.
- For fills, if a cut is required first, follow as for cuts.
- Where possible, specify geotextile fabric in lieu of compacting and root cutting, prior to placing fills on the soil surface. Any proposed retaining wall or fill soil shall be discussed with the engineer and arborist in order to reduce impacts to trees to be preserved.
- Clearly designate an area on the site outside the drip line of all trees where construction materials may be stored, and parking can take place. No materials or parking shall take place within the root zones of protected trees.
- Design utility and irrigation trenches to minimize disturbance to tree roots. Where possible, dig trenches with a hydraulic or air spade, placing pipes underneath the roots, or bore the deeper trenches underneath the roots.
- Include on the plans an Arborist inspection schedule to monitor the site during (and after) construction to ensure protection measures are followed and make recommendations for care of the trees on site, as needed.

General Tree protection measures are included as Appendix 3. These measures need to be included on the Site, Grading, Utility and Landscape Plans. A final report of recommendations specific to the plan can be completed as part of, and in conjunction with, the actual plans. This will require the arborist working directly with the engineer and architect for the project. If the above recommendations are followed, the amount of time required by the arborist for the final report should be minim this will require the arborist working directly

with the engineer and architect for the project. If the above recommendations are followed, the amount of time required by the arborist for the final report should be minimal.

Root pruning may be necessary.	
1563	Interior Live Oak	(Quercus wislizeni)		21	32	Poor	Poor	Fair	Fair	Poor	Fair	3 Fair - Minor Problems	AKA Tree 905 Partial failure of the root system has left the tree growing prone on grade toward the south; terminal 15' is dead.	Tree removal.	None at this time.	21

TOTAL INVENTORIED TREES = 26 trees (685 aggregate diameter inches)
TOTAL RECOMMENDED REMOVALS = 3 trees (120 aggregate diameter inches)
PRECAUTIONARY TREES HIGHLIGHTED FOR REFERENCE
TOTAL CONSTRUCTION REMOVALS = 20 Trees (535 aggregate diameter inches)

APPENDIX 3 – GENERAL PRACTICES FOR TREE PROTECTION

Definitions

Root zone: The roots of trees grow fairly close to the surface of the soil, and spread out in a radial direction from the trunk of tree. A general rule of thumb is that they spread 2 to 3 times the radius of the canopy, or 1 to 1 ½ times the height of the tree. It is generally accepted that disturbance to root zones should be kept as far as possible from the trunk of a tree.

Inner Bark: The bark on large valley oaks and coast live oaks is quite thick, usually 1" to 2". If the bark is knocked off a tree, the inner bark, or cambial region, is exposed or removed. The cambial zone is the area of tissue responsible for adding new layers to the tree each year, so by removing it, the tree can only grow new tissue from the edges of the wound. In addition, the wood of the tree is exposed to decay fungi, so the trunk present at the time of the injury becomes susceptible to decay. Tree protection measures require that no activities occur which can knock the bark off the trees.

Methods Used in Tree Protection:

No matter how detailed Tree Protection Measures are in the initial Arborist Report, they will not accomplish their stated purpose unless they are applied to individual trees and a Project Arborist is hired to oversee the construction. The Project Arborist should have the ability to enforce the Protection Measures. The Project Arborist should be hired as soon as possible to assist in design and to become familiar with the project. He must be able to read and understand the project drawings and interpret the specifications. He should also have the ability to cooperate with the contractor, incorporating the contractor's ideas on how to accomplish the protection measures, wherever possible. It is advisable for the Project Arborist to be present at the Pre-Bid tour of the site, to answer questions the contractors may have about Tree Protection Measures. This also lets the contractors know how important tree preservation is to the developer.

Root Protection Zone (RPZ): Since in most construction projects it is not possible to protect the entire root zone of a tree, a Root Protection Zone is established for each tree to be preserved. The minimum Root Protection Zone is the area underneath the tree's canopy (out to the dripline, or edge of the canopy), plus 10'. The Project Arborist must approve work within the RPZ.

Irrigate, Fertilize, Mulch: Prior to grading on the site near any tree, the area within the Tree Protection fence should be fertilized with 4 pounds of nitrogen per 1000 square feet, and the fertilizer irrigated in. The irrigation should percolate at least 24 inches into the soil. This should be done no less than 2 weeks prior to grading or other root disturbing activities. After irrigating, cover the RPZ with at least 12" of leaf and twig mulch. Such mulch can be obtained from chipping or grinding the limbs of any trees removed on the site. Acceptable mulches can be obtained from nurseries or other commercial sources. Fibrous or shredded redwood or cedar bark mulch shall not be used anywhere on site.

Fence: Fence around the Root Protection Zone and restrict activity therein to prevent soil compaction by vehicles, foot traffic or material storage. The fenced area shall be off limits to all construction equipment, unless there is express written notification provided by the Project Arborist, and impacts are discussed and mitigated prior to work commencing.

No storage or cleaning of equipment or materials, or parking of any equipment can take place within the fenced off area, known as the RPZ.

The fence should be highly visible, and stout enough to keep vehicles and other equipment out. I recommend the fence be made of orange plastic protective fencing, kept in place by t-posts set no farther apart than 6'.

In areas of intense impact, a 6' chain link fence is preferred.

In areas with many trees, the RPZ can be fenced as one unit, rather than separately for each tree.

Where tree trunks are within 3' of the construction area, place 2" by 4" boards vertically against the tree trunks, even if fenced off. Hold the boards in place with wire. Do not nail them directly to the tree.

The purpose of the boards is to protect the trunk, should any equipment stray into the RPZ.

Elevate Foliage: Where indicated, remove lower foliage from a tree to prevent limb breakage by equipment. Low foliage can usually be removed without harming the tree, unless more than 25% of the foliage is removed. Branches need to be removed at the anatomically correct location in order to prevent decay organisms from entering the trunk. For this reason, a contractor who is an ISA Certified Arborist should perform all pruning on protected trees.¹

Expose and Cut Roots: Breaking roots with a backhoe, or crushing them with a grader, causes significant injury, which may subject the roots to decay. Ripping roots may cause them to splinter toward the base of the tree, creating much more injury than a clean cut would make. At any location where the root zone of a tree will be impacted by a trench or a cut (including a cut required for a fill and compaction), the roots shall be exposed with either a backhoe digging radially to the trunk, by hand digging, or by a hydraulic air spade, and then cut cleanly with a sharp instrument, such as chainsaw with a carbide chain. Once the roots are severed, the area behind the cut should be moistened and mulched. A root protection fence should also be erected to protect the remaining roots, if it is not already in place. Further grading or backhoe work required outside the established RPZ can then continue without further protection measures.

Protect Roots in Deeper Trenches: The location of utilities on the site can be very detrimental to trees. Design the project to use as few trenches as possible, and to keep them away from the major trees to be protected. Wherever possible, in areas where trenches will be very deep, consider boring under the roots of the trees, rather than digging the trench through the roots. This technique can be quite useful for utility trenches and pipelines.

Protect Roots in Small Trenches: After all construction is complete on a site, it is not unusual for the landscape contractor to come in and sever a large number of "preserved" roots during the installation of irrigation systems. The Project Arborist must therefore approve the landscape and irrigation plans. The irrigation system needs to be designed so the main lines are located outside the root zone of major trees, and the secondary lines are either laid on the surface (drip systems), or carefully dug with a hydraulic or air spade, and the flexible pipe fed underneath the major roots.

Design the irrigation system so it can slowly apply water (no more than ¼" to ½" of water per hour) over a longer period of time. This allows deep soaking of root zones. The system also needs to accommodate infrequent irrigation settings of once or twice a month, rather than several times a week.

Monitoring Tree Health During and After Construction: The Project Arborist should visit the site at least twice a month during construction to be certain the tree protection measures are being followed, to monitor the health of impacted trees, and make recommendations as to irrigation or other needs. After construction is

¹ International Society of Arboriculture (ISA), maintains a program of Certifying individuals. Each Certified Arborist has a number and must maintain continuing education credits to remain Certified.

complete, the arborist should monitor the site monthly for one year and make recommendations for care where needed. If longer term monitoring is required, the arborist should report this to the developer and the planning agency overseeing the project.
