The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). The action under consideration authorizes the funding of a professional services agreement, which includes work to prepare CEQA documentation for the design of improvements to the Electrical Power System at the Pleasant Grove Wastewater Treatment Plant. The CEQA document prepared will analyze the project design, which will then be brought to the City Council for consideration and approval at a later date.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community
Goal E - Deliver exceptional city services
Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Jeremy Snyder, Preventative Maintenance Supervisor

Richard D. Plecker, Environmental Utilities Director

RESOLUTION NO. 24-427

APPROVING A PROFESSIONAL DESIGN SERVICES AGREEMENT, BY AND BETWEEN
THE CITY OF ROSEVILLE AND CAROLLO ENGINEERS, INC., AND AUTHORIZING
THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a professional design services agreement for Pleasant Grove Wastewater Treatment Plant Electrical Power System Capacity Expansion Project Design services, by and between the City of Roseville and Carollo Engineers, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

PROFESSIONAL DESIGN SERVICES AGREEMENT

Pleasant Grove Wastewater Treatment Plant Electrical Power System

Capacity Expansion Project Design Services

THIS AGREEMENT is made and entered into this ____ day of _____, 20__,
by and between the City of Roseville, a municipal corporation (“CITY”), and Carollo Engineers,
Inc., a Delaware corporation (“CONSULTANT”); and

W I T N E S S E T H:

WHEREAS, CITY desires professional design services consisting of design services for
the Pleasant Grove Wastewater Treatment Plant Electrical Power System Capacity Expansion
Project; and

WHEREAS, CONSULTANT has prepared a proposal dated July 31, 2024, which
describes the scope of work to be performed by CONSULTANT, the budget for the work, and
the schedule for performance of the work; and

WHEREAS, CONSULTANT is qualified and experienced to provide such professional
design services.

NOW, THEREFORE, the parties agree as follows:

1. Services. CONSULTANT shall perform, at the direction of CITY, the scope of
services as described in EXHIBIT “A,” attached hereto and incorporated herein by this
reference.

2. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the budget estimate as described in EXHIBIT “B,” attached hereto and incorporated herein by this reference. Total compensation shall not exceed five million, five hundred thirty-two thousand, four hundred dollars (\$ 5,532,400).

CONSULTANT shall submit monthly invoices for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one-tenth (1/10) hours. CITY shall pay invoices within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

3. Indemnification. To the fullest extent allowed by law, CONSULTANT agrees to indemnify, including the cost to defend CITY, and its officers, agents, employees and volunteers from any and all claims, demands, costs or liability that arise out of, or pertain to, or relate to the negligence, recklessness, or willful misconduct of CONSULTANT and its agents in the performance of services under this contract, but this indemnity does not apply to liability for damages for death or bodily injury to persons, injury to property, or other loss, arising from the sole negligence, willful misconduct or defects in design by CITY or the agents, servants, or independent contractors who are directly responsible to CITY, or arising from the active negligence of CITY. Notwithstanding any terms of this section, indemnification and defense obligations shall conform to California Civil Code Section 2782.8.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that

CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

4. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$2,000,000 each occurrence \$4,000,000 aggregate Personal Injury: \$2,000,000 each occurrence \$4,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$2,000,000 per claim \$4,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation

and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is

bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

5. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a

period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

6. Time is of the Essence. Time is of the essence of this Agreement.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars (\$200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

10. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

11. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

12. The Levine Act Disclosure. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to CITY elected or appointed officers totaling more than \$250 within the twelve (12) months prior to the CITY decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by CONSULTANT and/or its agent(s), CONSULTANT is responsible for compliance, including for its disclosure obligations, if any, as further described at:

https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

13. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

14. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

15. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location

of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

16. Representation and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

17. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

18. Copyright, Ownership and Use of Materials. All tangible materials ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings, papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are

maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of Agreement. The City may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any Material, notwithstanding any termination or any dispute regarding the amount to be paid.

20. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

21. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

22. Severability. If any of the provisions contained in this Agreement is for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

23. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE

Jeremy Snyder
Preventative Maintenance Supervisor
1800 Booth Road
Roseville, CA 95747

CONSULTANT

Beverly Hann, PE, PMP
Project Manager
2880 Gateway Oaks Drive, Suite 300
Sacramento, CA 95833

Either party may amend its address for notice by giving notice to the other party in writing.

24. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No._____, adopted by the Council of the City of Roseville on the____day of_____, 20_, and CONSULTANT has caused this Agreement to be executed.

Subject: Proposal for Pleasant Grove Wastewater Treatment Plant Electrical Power System Capacity Expansion Project Design Services, RFP 08-127

Dear Selection Panel:

The electrical power system at the Pleasant Grove Wastewater Treatment Plant (PGWWTP) has reached three critical triggers, requiring system improvement and additional electrical capacity to maintain reliable electrical service at the plant. The City is looking for an engineering partner to support the design-assist delivery of this capacity expansion project. This support is best provided by a dedicated team that is already up to speed on the project and has already demonstrated its passion for collaboration and innovation. Carollo is committed to the City and your delivery team. We offer:

- **A thoughtful approach to facility design that prioritizes the City's most pressing needs.** We have developed an approach for project delivery that (1) prioritizes redundancy and electrical consolidation within the facility design for enhanced system resilience and flexibility, (2) provides options for the City's consideration to maximize scope within available project budget, (3) will address operational, environmental, and regulatory needs to minimize related impacts during construction, and (4) embraces collaborative working sessions for efficient and ongoing transfer of knowledge to/from the City's team.
- **Collaborative partnership that the City can trust.** Our team has worked in collaboration with the City to deliver several recent projects including the evaluation that identified the need for this work. We provide valuable team continuity with Beverly Hann, Jamshid "JD" Dorafsha, and Jeff West (all currently working with the City's team to deliver electrical improvement projects at the Dry Creek WWTP and the Barton Road WTP) and several other team members who are currently working with the City's team to complete design improvements for design-assist delivery at the Dry Creek WWTP.
- **Proven electrical expertise.** Our local design experience is supplemented with technical expertise from Chris Heger, Erik Bahnamen, and Marissa Petty, all with project-specific expertise in medium voltage design, backup generation design with all levels of emissions abatement, and various in-plant distribution loop configurations.

Carollo will perform the services and adhere to the requirements of your RFP. We look forward to continuing our record of quality service to the City of Roseville and we look forward to the opportunity to continue our record of quality service to the City.

Sincerely,
CAROLLO ENGINEERS, INC.

Carollo offers you reliable experience with effective cost management strategies, a top-notch team, and proven results.

From 50+ offices across North America, Carollo employees have provided planning and design and construction services for more than 2,000 public agencies across the United States.

CAROLLO ENGINEERS, INC.

For 91 years, cities, utilities, and special districts of all sizes have counted on Carollo to help navigate increasingly complex water-related challenges. We work with our clients to cost-effectively and sustainably protect the environment and public health while meeting regulatory requirements and public expectations.

Water is all we do. While Carollo's focus is water, an integral part of all water projects are the electrical and instrumentation components of the facilities. To this end, Carollo has one of the largest electrical and instrumentation groups in the country dedicated to providing safe, reliable, and user friendly power and control systems.

FIRM ORGANIZATION

Carollo is a privately held corporation owned solely by our shareholders, who are all full-time employees of the firm. Of those shareholders, a select few form our Board of Directors, which governs the company. Our organization chart for all our projects is built on a foundation of strong client service and superior quality and project management. Successful project execution is achieved through a collaborative team of discipline leads, support staff, and subconsultants.

SERVICES TO BE PROVIDED

By Carollo

Carollo will complete all design, contractor procurement support, on-site engineering, and engineering during construction activities with in-house team members proposed herein.

By Subconsultants

Subconsultants will provide:

- Geotechnical – Fugro USA Land, Inc
- Surveying – CTA Engineering & Surveying
- Potholing – Arrow Construction
- Environmental/CEQA Services – Ascent Environmental
- Emission Abatement Permitting – Mizutani Environmental
- Arc Flash and Electrical Testing – ERS
- Fire Protection/Suppression – Jensen Hughes

CAROLLO STAFFING LEVELS

Carollo has consistently grown in size over the last ten years, attracting new industry talent focused on water-related engineering. Carollo's growth is completely organic and has not been achieved through acquisitions. The value to Roseville is clear. We have a healthy and growing group of committed technical staff ready to help the City with this and future projects.

WE ARE LEADERS IN EI&C SERVICES

We're an industry leader in the planning, design, and implementation of EI&C and computerized SCADA/telemetry systems for water and wastewater agencies. As a water-focused process treatment consulting firm we know how facilities operate and understand how to integrate the design of a new electrical system into treatment processes. Our clients range from small municipalities to some of the largest utilities in the country with treatment plants that range in size from under 1 mgd to more than 600 mgd with power distribution systems from 480V to 115kV.

We Provide a Wide Range of Design Services

Carollo offers a full suite of design services focused on electrical engineering, including planning and analysis, design, and implementation.

- Electrical, Controls, and Instrumentation Condition Assessment.
- Power System Design (voltages from 480V to 115kV).
- Standby Power Generation at 480V to 115kV, with both open and closed transition.
- Tier 2 and Tier 4 power generation systems complete with emissions treatment.
- Coordination with electrical utility power and protective relay requirements.
- Safety by design to limit incident energy and remove staff from directly interacting with power equipment.
- Duct bank system designs including, radial, loop, and double loop in-plant distribution systems.
- Instrumentation Design (P&IDs, Advanced Networks, Installation Drawings, Calibration, Testing).
- Electrical System Studies: Fault Current, Protective Device Coordination, and Arc Flash for both existing and new facilities.
- Engineering Services During Construction.
- Startup, Training, Commissioning.

Our EI&C and SCADA Services are EPIC!

Our Equation is Simple: Best-in-class

Electrical + Programming + Instrumentation + Control = EPIC® Solutions

CORE SERVICES

ELECTRICAL

Power system designs focus on energy reliability, power savings, and sustainability. Our approach incorporates “safety by design”, to minimize incident energy levels and shock hazards throughout the design period.

INSTRUMENTATION AND CONTROL

From the simplistic to the cutting edge, our I&C designs are customized to provide reliable, optimized control of the power systems.

PROGRAMMING

Our programming group is available to assist Roseville's programming efforts for monitoring and control of the power system for optimal performance.

STRATEGIC SERVICES

Carollo's staff regularly works with Client's IT departments to design system that are compatible and consistent with the client's HMI systems. Carollo can also provide third party Cybersecurity designs and penetration testing.

➔ **EPIC®** provides a one-stop shop for an array of electrical, programming, instrumentation, and control services from the planning phases to design and through implementation. These services include master plans; electrical systems and electrical system studies; full-service electrical and I&C design; control and business systems network design; electrical safety programs; Cybersecurity program development; HMI and PLC migration; programming standards development; and PLC, DCS, and HMI programming. Our engineers and programmers use a unique collection of tools and methodologies to get stakeholder input and generate ideas that gain support and are financially defensible. With these plans, we help our clients manage their assets, migrate to new systems, and update their critical infrastructure so they can face the challenges that lie ahead.

← We leverage innovative tools such as **RESERVOIR®**, an information management system, to efficiently coordinate cross-discipline efforts, document assets, and minimize risk through database management. We base our selection on which tools are right for your project, on the project's unique challenges and needs. We do not provide “cookie cutter” designs. The purpose of our tools is to automate the minutiae so we can focus on our client's specific needs.

The Right Experience to Deliver Your Project

Carollo's EI&C group consists of more than 135 engineers and technicians, making this group one of the largest in the water industry. This group of dedicated electrical and instrumentation engineers and technicians, along with our process, mechanical, structural, architectural, and civil engineering groups are exceptionally qualified to provide the wide variety of technical skills required to plan, design, and implement your project.

*Carollo has delivered hundreds of electrical-related projects for clients throughout California. Our **electrical, programming, instrumentation, and control services (EPIC®)** engineers work with these clients to provide planning, studies, design, and construction services on their water-related projects.*

After 20+ years working with the City, we know your facilities, staff, procedures, and standards

We bring a proven working relationship with City staff, a thorough understanding of your project delivery requirements, and a strong track record working seamlessly with your teams to produce quality projects. Recent project examples include:

■ PGWWTP Electrical System Evaluation.

Carollo completed the updated electrical system capacity analysis for the Pleasant Grove WWTP, which identified the capacity upgrades necessary for reliable operation and included in the Electrical Power System Capacity Expansion Project.

■ PGWWTP Design and Construction Projects.

- » Carollo delivered the first project at Pleasant Grove—design and construction-phase services for the \$100-million, 12-mgd greenfield facility in 2005.
- » Carollo completed the first major PGWWTP expansion to upgrade the secondary process, provide new primary and solids processes, and convert the facility to UV disinfection.
- » Carollo completed design for the UV Disinfection System Addition Project and is working with the City during construction of improvements via design-assist contract.

■ Electrical Projects.

Carollo is working with the City and our lead design-builder, Auburn Constructors, to deliver the following electrical projects via design-build:

- » Dry Creek WWTP MCC and Switchgear Replacement Project.
- » Barton Road WTP MCC Replacement Project.

EchoWater Program

Sacramento Area Sewer District, CA

Carollo provided design, construction phase support, and commissioning assistance on four of the seven projects that made up Sac Sewer's \$1.7 billion EchoWater Project, three of which included significant electrical power distribution upgrades described below.

Tertiary Treatment Facilities: This project included a 330-mgd filter influent pump station, 217 mgd of granular media filters, and ancillary pumping, storage, and chemical treatment facilities. New electrical facilities included two (2) new 12kV substations that feed three (3) 12kV double-ended transformer sets (all housed in/around 4 new electrical buildings).

Nitrifying Sidestream Treatment: Project included nitrifying sequencing batch reactors for ammonia reduction in the solids treatment system supernatant. New electrical facilities included two (2) new 12kV substations feeding 480V switchgear and MCC for power distribution to new facilities (all housed in/around new electrical building).

Return Activated Sludge Pumping: Project replaced 48 return activated sludge pumps (210-mgd total capacity) and all associated piping. Associated electrical improvements included modifications to existing MCC lineups, new MCCs, and harmonic filters and new VFDs for all 48 RAS pumps.

Relevance:

- Medium voltage power distribution in WWTP.
- Arc flash incident energy protection for all new switchgear.
- Remote switchgear racking through PLC control.

PPS-1 15kV Switchgear Replacement

Clean Water Services, Portland, OR

Carollo initially completed an evaluation of the power distribution system at the Rock Creek Advanced Wastewater Treatment Facility as part of an Electrical Master Plan, which ultimately identified the replacement of existing 15kV switchgear PPS-1, existing 15kV switchgear 100SWGR-1A/1B, and existing 480V switchboard SWBD-4.

Carollo completed preliminary design and worked with the utility to prepare a pre-purchase package for the new 15kV PPS-1 switchgear. The final facility also included relocation of secondary unit substation transformers TU-3 and TU-4, demolition and rerouting of 15KV duct bank and existing electrical gear, and a detailed sequence of work to avoid service interruptions during commissioning.

JD worked closely with the contractor during construction as approximately half of the facility loads were transferred from PPS-1 to new electrical facilities without any significant facility shutdowns.

Relevance:

- Implementation of dual utility power feeds for additional redundancy and resilience.
- Medium voltage power distribution.
- Detailed construction sequencing to minimize facility shutdowns.

Southeast Water Pollution Control Plant 020 Headworks

City and County of San Francisco, CA

Carollo designed a new 250-mgd headworks facility to replace two existing aging headworks facilities. The new facility significantly increases screening and grit removal and provides increased reliability in an urban environment with very limited site space. The headworks facilities include an influent junction structure, multi-rake bar screens, screenings handling, grit basins, grit handling using Coanda grit classifiers, flow splitting/distribution structures, odor control scrubbers, and electrical/control buildings. The project will also retrofit and rehabilitate new electrical facilities, an existing influent lift station, and major structural modifications to the pier supported structure to address current seismic design requirements. Controls for the new and retrofit facilities will tie-in to the existing plant DCS and provide full remote automatic control for dry weather and wet weather operation.

The new electrical facilities include two double-ended substations with medium voltage step-down transformers. One substation serves the headworks and one substation services the odor control facility. Both substations are installed in prefabricated electrical enclosures (powerhouse) and installed at an elevation above projected sea level rise. Equipment monitoring is done by power meters on the main breakers networked to the DCS and SEL power meters networked to an electrical monitoring system.

Relevance:

- Double-ended substations with medium voltage step-down transformers.
- Networked power metering.
- Design, construction support, and commissioning.

Draper Water Treatment Plant Power Generator Facilities WT-0138

City of Oklahoma City, OK

This project consisted of the design of three-2725 kW Tier 4-Final diesel generators that operate in parallel with the utility to provide backup for 100-150 mgd of treatment capacity at the Draper WTP.

Carollo closely coordinated the electrical system studies and power availability studies during design to confirm that the system would meet the safety and operational needs of the plant during design and into construction. Carollo applied arc-flash stickers and safety training for staff at the conclusion of the project.

The project involved an aggressive schedule and extensive coordination with Oklahoma City Water Utilities Trust and OG&E to incorporate FEMA and CDBG Federal grant funding sources. Carollo teamed with the City, a pre-purchase contractor, and building/installation contractor to complete the work successfully, without affecting plant operations.

Carollo designed 4.16kV generator paralleling switchgear and a generator building, with provisions to add one additional 2725 kW prime diesel engine generator in the future, including all connections to interface with the existing Auxiliary High Service Pump Station service switchgear. Additionally, the design included a sound-attenuated structure rated for EF-2 tornado wind speeds to house the generators, switchgear, and auxiliary systems for Tier 4 system operation.

Relevance:

- New electrical and generator building to house electrical gear, Tier 4 standby generators, and ancillary emission treatment systems.
- Sound attenuation for generators.
- Short Circuit Analysis/Arc Flash Studies.

Blower System and Building Rehabilitation

Portland Bureau of Environmental Services, OR

Carollo is leading the Blower System and Building Rehabilitation project for Portland BES. Carollo's approach will help BES increase process reliability, efficiency, and sustainability.

This project presents a significant opportunity for the Bureau to not only replace the blowers, but to permanently reduce its power cost and carbon footprint using a holistic view of the associated aeration system, electrical power distribution system, and the buildings housing these components. Carollo is developing an approach to incorporate improved performance and cost savings into this project.

Carollo is designing an upgraded electrical system to replace the existing 5KV 1,500HP blowers with new 5KV 2,000HP blowers. The electrical modifications required for the upgrade will include replacement of existing 12KV switchgear, 5KV blower starters, 480V motor control center, and redistribution of the 15KV distribution loop originating from the 15KV arc-resistant switchgear to feed the new 12KV-480V substation transformer for the blower building.

Facility design is scheduled for completion by end of 2025, with planned contractor bidding in early 2026.

Relevance:

- Cost/benefit analysis for project alternatives.
- Medium voltage power distribution.
- Arc-resistant switchgear replacement.

JD Dorafsha - El&C

Headworks Rehabilitation and Expansion

Orange County Sanitation District, CA

The existing electrical systems providing power to Plant 1 headworks had to be brought up to current OC San design standards for critical "water in/water out" facilities. Through close collaboration with OC San staff, Carollo's El&C team evaluated a series of alternatives to accomplish the client's objectives. We collectively established solid concepts to replace all of the existing power distribution equipment at Power Building 3A with new equipment, strategically located in separate buildings/rooms for improved reliability and constructability that included paralleling 4 new -2500kW, 3,125kVA, 12.47kV engine generators using hybrid grounding for better protection of the synchronous alternators.

We have already identified several components of a detailed construction sequencing plan that will be critical to maintaining electrical reliability at all times during construction, provide the ability to fully test all new equipment and systems, and transfer loads safely and efficiently.

Relevance:

- Overlapping zones of high-impedance differential protection to provide equipment protection and reduce the arc-flash incident energy levels.
- Paralleled generators with hybrid grounding for synchronous alternator protection.
- Maintaining Level-3 power to existing headworks loads during transfer of existing standby generators.

Central Treatment Plant Electrical Upgrades

City of Tacoma, WA

Carollo provided engineering services to replace and add reliability to the aging medium voltage electrical distribution system at the Central Treatment Plants.

The project included the replacement of the plant's main 15kV service entrance switchgear and repowering the existing transformers and load centers from the new switchgear. The Carollo team added more than 3,000 lineal feet of concrete encased reinforced duct bank, installed over 20 miles of medium voltage electrical cables, constructed a 3,400 square-foot building for storing and operating the new electrical equipment, and installed a new 15kV switchgear with pad-mounted transformers.

Carollo led technical conversations with Tacoma Power to coordinate a new primary service connection to the Central Treatment Plant and provided permitting and easement support.

Carollo also provided technical on-site/office support during construction and startup/commissioning assistance. Carollo's electrical advisor/inspector provided training of City inspector personnel and part-time field observation of medium voltage infrastructure installation for activities, such as setting up electrical inspection protocols, identifying critical project junctures, and minor deviations to field routing.

Relevance:

- New primary service connection from power utility.
- Radial medium voltage distribution with full redundancy for all critical process areas.
- Major electrical upgrades to increase plant reliability.

WWTP Improvements Project

American Valley Community Service District, CA

Carollo completed design and provided engineering services during construction and full-time on-site construction management and inspection services for the American Valley WWTP Improvements project. The project included new headworks facilities, new secondary treatment facilities, solids digestion and dewatering facilities, disinfection and chemical system improvements, and ancillary storage basin and effluent outfall pipeline improvements.

New electrical facilities were required to support improvements including an upsized electrical service, new power distribution facilities, a new backup power generator, and a new SCADA system for full facility operation.

Relevance:

- Coordination with power supplier for new/upsized power feed for increased WWTP power capacity.
- New power distribution facilities, housed in new Title24 compliant building.
- Full service support from design through training and O&M Manual development.

Tab C: Qualifications of Team

Tab C: Qualifications of Team

The benefit of Carollo's team is familiarity with your facilities, procedures, and staff, as well as experience spanning numerous electrical upgrade projects.

THE RIGHT TEAM FOR ROSEVILLE

We have assembled an optimal team based on a simple but powerful principle—put the most qualified people in the roles essential to help you make sound decisions and deliver a successful project. Our team consists of local and familiar individuals supplemented with technical experts to address the specific needs of your project. The individuals shown in the organization chart below will be committed to this project from start to finish.

Beverly will manage your project from our local office in Sacramento with participation of several key staff from our nearby office in Walnut Creek and a strong bench of supplemental in-house EPIC®, structural, and architectural staff.

Proposed Team Members

**Beverly
Hann, PE, PMP**
PROJECT
MANAGER

OFFICE LOCATION: Sacramento
YEARS WITH CAROLLO: 19
TOTAL YEARS OF EXPERIENCE: 21
AVAILABILITY: 25%

Beverly is a Carollo Senior Project Manager bringing 21 years of experience in all aspects of water and wastewater treatment facilities from planning to construction, with the last 5 years working closely with the City of Roseville on several projects. She has successfully led a diverse range of projects – everything from headworks for municipal wastewater treatment plants to industrial water recycling facilities. She knows how to best leverage technical expertise within the company to get projects done.

**JD
Dorafsha, PE**
DESIGN MANAGER

OFFICE LOCATION: Walnut Creek
YEARS WITH CAROLLO: 18
TOTAL YEARS OF EXPERIENCE: 32
AVAILABILITY: 50%

JD is Carollo's EPIC Regional Lead for Northern California and brings 32 years of experience designing, managing, and providing electrical and instrumentation engineering services for municipal, institutional, and government projects. JD has extensive design expertise in both medium and high-voltage electrical distribution systems, as well as preparation of arc-flash and coordination studies, short circuit studies, and condition assessment of electrical systems.

**Chris
Heger, PE***
QA/QC

OFFICE LOCATION: Denver
YEARS WITH CAROLLO: 16
TOTAL YEARS OF EXPERIENCE: 16
AVAILABILITY: 15%

Chris serves as Carollo's Electrical Chief and brings 16 years of experience in electrical and instrumentation design for both water and wastewater treatment facilities. He has extensive experience in medium voltage design, including design of power generation systems and automatic controls, and P&ID development. Chris' experience includes protective device coordination studies, extensive field investigation of electrical and instrumentation equipment and development of power availability studies.

**Erik
Bahneman, PE**
ELECTRICAL LEAD

OFFICE LOCATION: Walnut Creek
YEARS WITH CAROLLO: 12
TOTAL YEARS OF EXPERIENCE: 16
AVAILABILITY: 40%

Erik is a lead electrical engineer with 16 years of experience in design and construction support of electrical and control systems for water and wastewater facilities, as well as design of switchgear, motor controls, instrumentation, and SCADA systems. The City will benefit from Erik's ability to coordinate his electrical designs with civil, structural, and mechanical disciplines during both the design and construction phases of the project.

**Daniel
Robinson, PE**
I&C

OFFICE LOCATION: Sacramento
YEARS WITH CAROLLO: 11
TOTAL YEARS OF EXPERIENCE: 24
AVAILABILITY: 40%

Daniel has 23 years of I&C experience in the water/wastewater industry, including 480VAC electrical distribution systems; variable frequency drives, reduced voltage soft starters, and full-voltage motor control design; PLC and control panel design; process instrumentation; UL, NEC, NEMA, and NFPA 70E requirements; and relay/ladder logic.

**Ryan
Hook, PE**
CIVIL LEAD

OFFICE LOCATION: Sacramento
YEARS WITH CAROLLO: 21
TOTAL YEARS OF EXPERIENCE: 22
AVAILABILITY: 40%

Ryan has 23 years of civil engineering experience. He has served as construction manager, lead inspector, design engineer, project engineer, and civil engineer. Ryan's engineering expertise includes planning, analysis, design, and construction of wastewater treatment facilities, wastewater pump stations and pipelines, and potable water pump stations and pipelines, as well as preparation and review of plans and specifications.

* Licensed in a state other than California

**Marissa
Petty, PE***
ELECTRICAL
DESIGN

OFFICE LOCATION: Albuquerque
YEARS WITH CAROLLO: 16
TOTAL YEARS OF EXPERIENCE: 16
AVAILABILITY: 50%

Marissa specializes in electrical and instrumentation design and construction management of wastewater treatment facilities. Her electrical experience includes power distribution, lighting, motor controls, high voltage, and grounding. She is also experienced in the coordination of electrical and instrumentation work with civil, structural, and mechanical work during design and construction. Her diverse experience has given her an opportunity to work with multiple clients and contractors directly in the field to identify and solve issues.

**Jeffrey
West**
ELECTRICAL
DESIGN

OFFICE LOCATION: Denver
YEARS WITH CAROLLO: 4
TOTAL YEARS OF EXPERIENCE: 12
AVAILABILITY: 50%

Jeff joined Carollo in 2019 as an electrical engineer and has experience with water and wastewater projects. He has been responsible for the development of 100 percent electrical design and specifications, as well as engineering services during construction. His recent electrical work includes several projects for Alameda County Flood Control and Water Conservation District, Orange County Sanitation District, Veolia Water/City of Richmond, and the City of Roseville.

**James
Doering,
PE, SE**
STRUCTURAL
LEAD

OFFICE LOCATION: Orange County
YEARS WITH CAROLLO: 23
TOTAL YEARS OF EXPERIENCE: 31
AVAILABILITY: 25%

James has 31 years of experience in structural analysis, design, seismic retrofit, rehabilitation, review, and assessment for a variety of structures, such as wastewater and water treatment facilities, pump stations, reservoirs, tanks, clarifiers, large pipe supports, retaining walls, and operations and maintenance facilities. He is Carollo's structural lead engineer.

**Michele
Hollenbaugh,
RA***
ARCHITECTURAL
LEAD

OFFICE LOCATION: Phoenix
YEARS WITH CAROLLO: 9
TOTAL YEARS OF EXPERIENCE: 23
AVAILABILITY: 40%

Michele is a detail-oriented professional architect with 23 years of experience in the design, delivery, construction, and management of water and wastewater treatment plants. Her work experience includes renovation to existing construction, plant design, administration buildings, laboratories, maintenance buildings, operational buildings, pump stations, and tenant improvements.

**Jenny
Warren, PE***
WW PROCESS
AND SEQUENCING

OFFICE LOCATION: Reno
YEARS WITH CAROLLO: 3
TOTAL YEARS OF EXPERIENCE: 21
AVAILABILITY: 25%

Jenny is a Design Manager and process engineer with expertise in all aspects of wastewater engineering, including project management, design, permitting, studies, and construction administration. Jenny has completed multiple wastewater treatment plant process improvement projects in each phase of treatment for plants up to 50 mgd.

**Brian
Ream**
ELECTRICAL FIELD
SERVICES

OFFICE LOCATION: Fort Collins
YEARS WITH CAROLLO: 10
TOTAL YEARS OF EXPERIENCE: 30+
AVAILABILITY: 25%

Brian is a master electrician specializing in electrical and control systems for water and wastewater facilities. He brings expertise in EI&C designs, constructability reviews, and experience in I&C inspection. Brian's experience as field operations manager for an electrical contractor provides him with the right balance of design and construction experience to provide electrical support in the sequencing of equipment installation and potential cost benefits that may result from sequencing alternatives.

**Jason
Rozgony, PE***
COST ESTIMATING

OFFICE LOCATION: Denver
YEARS WITH CAROLLO: 6
TOTAL YEARS OF EXPERIENCE: 29
AVAILABILITY: 25%

Jason's experience has focused on cost estimating for engineering projects and "at-risk," CMAR, design-build, and hard-bid projects. He has developed corporate estimating standards and has managed estimating staff across the United States. Jason has prepared discipline-level estimates and has led complete estimates for more than 250 design and fixed price construction projects requiring collaboration with design engineers, vendors, and subcontractors from preliminary through final design.

**Chad
Green, PE**
BUILDING
SERVICES

OFFICE LOCATION: Dallas
YEARS WITH CAROLLO: 11
TOTAL YEARS OF EXPERIENCE: 15
AVAILABILITY: 25%

Chad is an associate vice president and principal building mechanical engineer with Carollo. He manages Carollo's Building Services Group and supervises all aspects of design services and quality control for the company related to building mechanical. Chad is well-known for developing innovative recommendations for facility upgrades and design options and possesses in-depth background performing generator system designs and planning for wastewater facilities.

* Licensed in a state other than California

SUBCONSULTANTS

Ronald L. Bajuniemi, PE*
GEOTECHNICAL
Fugro USA Land, Inc.

OFFICE LOCATION: Sacramento
TOTAL YEARS OF EXPERIENCE: 50+

Mr. Bajuniemi brings vast experience in water and wastewater treatment plant projects covering a wide range of services for new site investigation, expansion projects. He has led Fugro's work on previous geotechnical assessments at the City's Pleasant Grove Wastewater Treatment Plant. Mr. Bajuniemi supervises and guides the activities of the geotechnical engineers and geologists during the design phase of all projects. His extensive geotechnical work has been effective in delivering timely and cost-effective geotechnical investigations.

Damon Burns, PLS
SURVEYING
CTA Engineering and Surveying

OFFICE LOCATION: Sacramento
TOTAL YEARS OF EXPERIENCE: 39

Mr. Burns has been involved with various aspects of the surveying, mapping and construction profession in the Greater Sacramento region. Previous work experience has provided him the opportunity to successfully complete projects throughout the State of California. As Surveyor/Survey Manager, Mr. Burns draws on this experience, his knowledge of technologies and his project management skills to ensure that projects are successfully completed, on time and on budget. Damon is currently supporting Carollo on the Dry Creek WWTP Biofilter Replacement Project.

Will Wegener
POTHOLING
Arrow Construction

OFFICE LOCATION: Sacramento
TOTAL YEARS OF EXPERIENCE: 9

Will brings 9 years of experience as a project manager and estimator. He has managed many projects of this scope, size, and complexity, including advertising, estimating, RFI's, cost and data analysis, report formatting for management or customer review, vetting out contract verbiage, and also the Project Management side of the operation, including submittals, tracking and managing costs, developing deliverables to meet the specific needs of the given customer, scheduling, updating budgets, coordinating directly with superintendents, inspectors, and municipalities.

Stephanie Rasmussen
ENVIRONMENTAL/
CEQA SERVICES
Ascent Environmental

OFFICE LOCATION: Sacramento
TOTAL YEARS OF EXPERIENCE: 20

Stephanie has assisted with preparation of CEQA and NEPA, documents, habitat conservation plans, resource management plans, and permit packages. Her project experience includes work on public and private sector projects, including wastewater treatment, public facilities, water resources, flood control, and development projects. Stephanie's responsibilities include project management and coordination as well as writing, editing, and compiling the various sections of environmental documents. She understands the regulatory guidelines and legal requirements, as well as the fundamentals of preparing and delivering these documents.

**Licensed in a state other than California*

Courtney Mizutani
EMISSIONS ABATEMENT/
PERMITTING
Mizutani Environmental

OFFICE LOCATION: Concord
TOTAL YEARS OF EXPERIENCE: 33

Courtney has 33 years of engineering experience. Her primary area of expertise is regulatory, with an emphasis on air permitting and regulatory evaluations for municipal facilities in the Bay Area Air Quality Management District, Placer County Air Pollution Control District, San Joaquin Valley Air Pollution Control District, and South Coast Air Quality Management District. Courtney is currently supporting Carollo on the Dry Creek WWTP Biofilter Replacement Project.

To complete our Team, we have our friends from ERS, Jensen Hughes, and Ewing Construction Services.

For more than 50 years, **ERS'** team of NETA certified engineers and technicians have dedicated their time and shared their expertise to foster a safe and reliable world. ERS is an electrical engineering and testing company that will provide arc flash and electrical testing services to reduce risk and secure regulatory compliance for your project.

Jensen Hughes, an industry leader in their field, will provide fire protection consulting and bid-level design services for the project.

Ewing Construction has more than 40 years of construction experience with particular emphasis in planning and construction of water/wastewater treatment plants and other water resource/recovery projects and will provide constructability reviews for our team.

Tab D: Project Understanding

Tab D: Project Understanding

Carollo's recent evaluation of your electrical power system identified the deficiencies that trigger this capacity expansion project.

Carollo worked with the City's team to evaluate the capacity of the electrical power system at the WWTP, updating our previous electrical planning projections based on completed and in-process construction of new facilities and measured electrical maximum demand power usage. This evaluation resulted in three events that triggered this project:

Projected exceedance of the existing 4 mega-watt (MW) electric service capacity.	Projected exceedance of the existing standby generation capacity.	Excessive fault current at the switchgear during closed-transition operation of the standby generators.
☒ This will be addressed with an upsized power service to PGWWTP.	☒ This will be addressed through (1) the addition of two new 12KV, 2.5MW standby generators connected to a new 12KV service switchgear, and (2) the removal of the existing 480V generators from the electrical distribution system (since the need for load shedding during power outages will be eliminated).	☒ This will also be addressed by the addition of the new standby generators since the closed transition switching operation will be implemented at the new 12KV service switchgear.

The City has decided to include future (buildout) electrical loads in this electrical expansion project, thus expanding the overall facility plan presented in the 2022 Carollo evaluation. This will require additional effort to determine the best approach for upsizing the power feed to the WWTP to incorporate redundancy, how to maximize the overall scope within the budget available for the project, and how to navigate the various operational, environmental, and regulatory needs with minimized impact at the plant.

Our approach summarizes several critical factors for the project that will require strong collaboration between the Carollo and City project teams for project success:

 Right-sizing the new electrical system for future loads.	 Maintaining the existing 4MW power service to increase the long-term capacity and resilience of the WWTP's power supply.	 Balancing redundancy against cost for in-plant electrical distribution.
 Designing your facility for safety, efficiency, ease of O&M, and future expansion.	 Planning for anticipated emission treatment requirements now to save money in the future.	 Minimizing plant shutdowns with informed construction sequencing.

Right-sizing the new electrical system for future loads.

With the expectation that a treatment capacity upgrade may be necessary at the WWTP in the near-term and given the overall cost/complexity of electrical system upgrades, it is logical for the City to design the electrical power feed and distribution facilities for the ultimate build-out condition. Sizing the system adequately now for future needs is a critical factor for long-term success of the project.

We completed a preliminary estimate for the electrical capacity requirements for the WWTP based on current plus expected future electrical need for systems and equipment master planned for the build-out condition. Our preliminary evaluation resulted in a connected load demand of approximately 763 amps, or 405 amps (7.9MW) using the demand factor of 0.53.

A new 1,200 amp, 12KV switchgear will have sufficient capacity to supply power to plant loads through the future expansions (34% loaded at build out condition). Additionally, per the 2022 Carollo TM, the existing 480V switchgears are between 25% to 60% loaded during the worst-case scenario condition (when the switchgears tie breakers are closed). As a result, existing 480V switchgears located downstream of the new electrical facilities proposed for this project can remain in place and handle the addition of 480V loads in their vicinity in future.

We are ready to hit the floor running! One of our first orders of business will be to work with the City to confirm the findings of this preliminary evaluation so that we can complete other alternative evaluations and move efficiently into design.

New MVSA-A/B 12KV Switchgear Demand Projection

Equipment	Capacity/ Rating	Calculated Connected Load Demand (Amps)	Estimated/Metered Demand (Amps)		% Loaded (Ratio of Existing Loads to Total Capacity)	
		2022	DF ⁽⁵⁾	Meter	DF	Meter
Existing 12KV MVSA(1)	1,200	473	251	158	21	13
Build-out Loads (1)(2)	-	290(3)	154	-	-	-
New MVS-A/B ⁽⁴⁾	1,200	763	405	N/A ⁽⁵⁾	34	N/A ⁽⁵⁾

(1) Values from Electrical Power System Capacity Evaluation TM (2022).

(2) Estimated additional electrical demand for build-out condition.

(3) Based on estimated future load of 6,000 horsepower for future projects.

(4) Based on the demand factor (DF) of 0.53 calculated in the Electrical Power System Capacity Evaluation TM Carollo's 2022).

(5) N/A – Not Available

Preliminary estimates for projected electrical demand indicate that a minimum electrical service size of 763 amps (approximately 8MW) will be required for the build-out condition at the WWTP.

Maintaining the existing 4MW power service to increase the long-term capacity and resilience of the WWTP's power supply.

The City is considering an 8 to 10 MW service, depending on utility substation available capacity. This range should provide the necessary power supply but will be mostly encumbered when the build-out condition occurs (i.e. a build-out demand of 7.9MW will reach 100% capacity if a new 8MW service is installed and 80% of capacity of a new 10MW service is installed). Given this, it would be prudent for the City to pursue an option to keep the existing 4MW service as an alternate/supplemental power service.

If found feasible in discussion with Roseville Electric, the City could install the necessary provisions for the new 8 to 10MW service on City's property while the existing 4MW service and 12KV switchgear continue to supply power to the plant (thus, avoiding power interruptions during construction). Ultimately, the existing 4MW service could be rerouted to connect to the new 12KV switchgear after the construction of the new electrical building and 12KV switchgear is completed to increase the capacity, redundancy, and resilience of the overall electrical supply to the plant.

JD worked with Clean Water Services to evaluate (and ultimately implement) two separate utility services for the PPS-1 15KV Switchgear Replacement Project. Two underground utility services were intercepted and rerouted to the new PPS-1 switchgear to provide additional resiliency, redundancy, and reliability to the Rockcreek WWTP.

Balancing redundancy against cost for in-plant electrical distribution

It will also be important to work with the City’s team to evaluate different options for in-plant electrical distribution so that the final design meets the City’s goals for redundancy without unnecessary overspending. Our team has developed some preliminary options for the City’s consideration, all which assume that (1) the existing 4MW utility service is maintained and (2) the new 12KV utility service is routed through the Blue Oaks substation.

Alternative 1: Primary (12KV) radial distribution with each double-ended substation transformer connected directly to bus A or bus B of the new 12KV switchgear.

The new switchgear will have four separate busses; bus A and bus B on either end and standby and cogen busses in the middle. With this alternative, single and/or double-ended substation transformers would be connected directly to busses A and B with new 12KV feeder cables. New and future standby diesel generators would be connected to the standby bus, and the existing and new microturbine cogeneration units would be connected to the Cogen bus.

Possible Duct Bank Routing at PGWWTP

This configuration allows the standby generators and/or the microturbines to supply power to the plant from either bus A or bus B for greater resiliency and redundancy.

The 12KV duct bank routing shown here would work for all Alternatives, noting that the PMSs would be used for Alternatives 2 and 3 only and the future routing shown is an approximate representation of how Alternative 3 could be implemented.

BENEFIT

Dedicated 12KV feeders for substation transformers will provide good redundancy but will be an expensive option.

BENEFIT

Added flexibility with standby generator and/or microturbine power supply to the plant from either bus A or bus B.

Preliminary one-line diagram for Alternative 1

Balancing redundancy against cost for in-plant electrical distribution

Alternative 2: Primary (12KV) selective distribution system with multiple loops.

This alternative uses the same 12KV switchgear bus arrangement as that described for Alternative 1 but uses a single 12KV loop routed through the plant to supply power to existing substation transformers and switchgears 1000, 2000, and 3000 via pad-mounted switches (PMSs). The advantage of this alternative is the cost savings for running a single 12KV loop and duct bank through the plant as compared to the cost for individual 12KV feeders for each substation transformer (Alternative 1). Additional feeder loops can be added for future substation transformers when required.

Alternative 3: Single 12KV loop primary selective distribution system.

This alternative uses the same 12KV switchgear bus arrangement as Alternatives 1 and 2, but uses a single 12KV loop to supply power to existing and future substations via PMSs. Additional PMSs would be required for this alternative as part of the current project, but the long-term cost would be less than Alternative 2 since additional 12KV loops would not be required to supply power to future substations. With the addition of future substations, the City could add a single set of 12KV loop feeder cables and extend the duct banks from the last PMS to new PMSs to supply power to the future substations.

PROOF

Carollo evaluated options for in-plant distribution of power at the San Leandro WPCP, ultimately recommending a two-loop 12KV system to replace the existing radial system. This is similar to Alternative 2 presented herein, but in this case both 12KV loops were installed at the same time and the existing substations equally divided between the two loops. The approach ultimately saved the City money through avoidance of multiple routings.

Preliminary one-line diagram for Alternative 2

Preliminary one-line diagram for Alternative 3

Designing your facility for safety, efficiency, ease of O&M, and future expansion.

Carollo takes pride in designing facilities that are safe, efficient, easy to operate, and well-planned for future expansion. We will work with your team to review comparable projects, highlighting the advantages and disadvantages of differing approaches, so that the City is well-equipped to make design decisions early on.

An example floor plan for your new Electrical Building No. 3, with several separate rooms (per base scope) and best-in-class design considerations for ancillary facilities.

1. Installation of exhaust silencers and acoustical silencer assemblies at the intake and radiator discharge to reduce generator noise level to dB ratings established for the project.
2. Ingress/egress designed to meet operator needs and simplify movement throughout the building.
3. Urea facilities with proper mixing systems to maintain the quality of urea supply, with controls that are well coordinated with generator controls.
4. Space for future fuel storage tanks with common slab and containment area.
5. Fuel facilities located close to the building (eliminating the need for day tank facilities) and close to the main plant road for easy fuel delivery (fill stations not shown).
6. A separate fire suppression room should only be required if there is not adequate water pressure (and flow volume) available for tie in on-site.
7. Building design with ample space for future standby generators (including equipment pads, electrical routing, space for controls, and installation/removal access).
8. Separate Control Room with an operator desk and SCADA screens.
9. A dedicated, well ventilated, Battery Room to remove risk of battery off-gas impacting other rooms.
10. Separate low voltage (MCC Room) with separate access and clearly posted arc flash details.
11. Several options for enhanced arc flash safety, like arc-resistant gear, arc-flash detection relays, maintenance mode switches, flash guard type MCCs, remote racking capability, and remote breaker control panels. Preventive safety features could include I/R inspection windows, absence/presence of voltage detectors, and thermal monitoring.
12. Viewing window between the SWGR Room and the Control Room (located outside of arc flash zone) to facilitate safe visual confirmation of breakers unracked remotely. A camera in front of the switchgear with video feed of the SWGR Room in the Control Room is another good option for this.
13. Separate medium voltage (SWGR Room) with separate access.

Planning for anticipated emission treatment requirements now to save money in the future.

Making sure that your generators will meet emission requirements when they are installed (3 years +/- from start of design) is critical to the operational reliability and future compliance of your standby power system.

The current minimum emissions requirements applicable to standby generators of this size and use in Placer County is Tier 2, which requires no after treatment for generator exhaust. However, there are a few reasons that Tier 4 generators could be required before this project is fully constructed permitted:

- The Placer County Air Pollution Control District (APCD) does not currently have Tier 4 best available control technology (BACT) requirements for standby diesel generators. They currently base compliance with CARB's Air Toxic Control Measure to determine acceptability, but this could change quickly if the APCD were challenged about how they determine BACT.
- Tier 4 emission limits could also be required based on health risk. The health risk concern would be driven by diesel PM, the size of the engine, and the nearness of sensitive receptors (like a school).
- Additionally, Tier 4 generators will likely be required if the City pursues the inclusion of storm avoidance and demand peak shaving capabilities in the generator controls in the final project (as required by the RFP).

Tier 4 emission abatement requirements will be very costly to implement (regardless) but will come with extra expense and complication if the City doesn't plan for Tier 4 and it is subsequently required.

Proactive pursuit of project-specific emission requirements will help the City with early design decisions.

Our approach to helping the City navigate this issue includes:

1. Early discussions with the City to evaluate goals for storm avoidance and demand peak shaving against probable Tier 4 requirements and associated costs.
2. If Tier 4 requirements seem likely based on the findings of the above step, we will work with the City to approach the APCD with a request for Health Risk Assessment (HRA). This will determine whether or not Tier 4 is required for health reasons (because of impact to nearby receptors).
3. If ultimately required to meet Tier 4 requirements, we will work with the City to determine the compliance approach that best meets the City's needs (Certified vs. Compliant – see sidebar).

Tier 4 emission abatement will increase the cost of new building significantly due to increased ceiling heights required to accommodate emission after treatment systems, costly platforms for O&M access of taller systems, and dedicated space and facilities for selective catalytic reduction (SCR) and urea injection.

If Tier 4 treatment is ultimately required for this project, we will help the City evaluate options to possibly reduce project costs (i.e. housing the generators in separate enclosures versus dedicated space in the new building).

Tier 4 standby generators installed at the Draper WTP in Oklahoma City required a ceiling height of 35 feet and a full room working platform for O&M access of the emission treatment equipment.

Tier 4 Compliance Options

The EPA classifies Tier 4 Generators in two compliance levels, Certified and Compliant. While both levels meet the Tier 4 requirements, each has advantages and disadvantages that should be considered:

Certified: A Tier 4 Certified generator has had the emissions aftertreatment equipment tested and pre-approved by the EPA as meeting all emissions requirements.

- **Advantages:** No source testing during startup or afterward.
- **Disadvantages:** Higher cost, minimal customization/modifications available, and associated "Inducement Shutdowns", which are a legal requirement on Certified generators, occur in the event of a system fault or failure in the emissions aftertreatment system, and involve a series of derating and shutdown steps if not properly addressed at start of inducement.

Compliant: A Tier 4 Compliant Generator has similar emissions aftertreatment equipment as the Tier 4 Certified generator, however the aftertreatment equipment is fitted by an aftermarket company (not the generator manufacturer).

- **Advantages:** Lower overall system cost and no Inducement Shutdown requirements.
- **Disadvantages:** Additional source testing requirements at equipment startup, as well as subsequent periodic testing required for the life of the generator. Source testing is typically required every 3 years for the life of the generator.

Minimizing plant shutdowns with informed construction sequencing.

Minimizing plant shutdowns is paramount to the success of this project – this is true for our team as much as it is for yours.

Our approach highlights the benefits of maintaining the existing 4MW service as a permanent redundant power source. Whether feasible (or not) as a permanent connection to plant's electrical system, this service will be useful for temporary power during construction. Using this as a high-level basis for construction, we prepared a preliminary sequencing plan. We will work with your team to solidify details during design so that operational impacts can be minimized during construction.

Preliminary Sequencing Plan:

1. Procure new electrical equipment including switchgear, motor control centers, transformers, and generators as needed.
2. Construct the new electrical building.
3. Electrical equipment delivery/installation/testing startup.
4. Transfer of plant loads to the new system once the new 12KV switchgear, standby generators, and ancillary building electrical equipment have been tested and commissioned.

With this sequencing plan it is possible to transfer all loads except SWGR-3000 and the microturbines.

Steps for Transferring Loads:

- **Step 1:** Open 12KV breakers feeding side B of SWGR-1000 and 2000.
- **Step 2:** Close tie breakers in SWGR-1000 and 2000 so the entire switchgear is fed from side A.
- **Step 3:** Disconnect the side B feeder cables for one transformer from the SWGR-1000 and SWGR-2000 double-ended substations.
- **Step 4:** Connect side B of SWGR-1000 and 2000 to side B of the new 12KV switchgear with new 12KV feeder cables.
- **Step 5:** Open side A breakers in existing 12KV switchgear feeding side A of SWGR-1000 and 2000.
- **Step 6:** Close side B breakers in the new 12KV switchgear to feed side B of SWGR-1000 and 2000
- **Step 7:** Both SWGR-1000 and 2000 are now supplied with power from the new 12KV switchgear. Therefore, side A feeder cables for these switchgears can be disconnected from the existing 12KV switchgear to the new 12KV switchgear.
- **Step 8:** Transfer of SWGR-3000 will require a shutdown since it is a single-ended substation transformer.
- **Step 9:** Transfer and reconnection of the microturbines the new 12KV switchgear will require the shutdown of that system. Note: a new interconnection agreement application will be required for paralleling the microturbines with the utility and the implementation of closed-transition operation for the new standby generators.

Tab E: Project Plan

Tab E: Project Plan

Our approach is simple and straightforward—plan the work and work the plan. Our commitment to always keeping the end goal in mind has allowed us to continually meet or exceed client expectations.

WORK PLAN

The development of the Project Plan is based on work plans successfully implemented elsewhere. Key components for project success include:

- An organized schedule of events, deliverables, and review workshops.
- Ongoing collaboration with City staff.
- QA/QC reviews by senior staff not otherwise involved in the project.

This process is well defined and repeatable, enabling ongoing team engagement, key stakeholder feedback, informed design documents, and quality constructed facilities. A schematic that depicts the simplified work plan for the project is presented on the next page. The work plan is supported by the detailed Scope of Work, summarized herein, and a Project Schedule developed for all phases of work through construction.

STAFF ASSIGNED TO EACH TASK

The following core team members will work on every project task:

- Beverly Hann (Project Manager)
- Chris Heger (QA/QC)
- JD Dorafsha (Design Manager)
- Erik Bahneman (Electrical Lead)
- Marissa Petty (Electrical Support)
- Jeffrey West (Electrical Support)
- Daniel Robinson (I&C Lead)
- Ryan Hook (Civil Lead)
- Jenny Warren (WW Process/Sequencing)
- Brian Ream (Electrician)
- James Doering (Structural Lead)
- Michele Hollenbaugh (Architectural Lead)
- Jason Rozgony (Cost Estimating)
- Chad Green (Building Services)

Subconsultants will provide:

- Fugro USA Land, Inc – Geotechnical
- CTA Engineering & Surveying – Surveying
- Arrow Construction – Potholing
- Ascent Environmental – Environmental/CEQA Services
- Mizutani Environmental – Emission Abatement/Permitting
- ERS – Arc Flash Study and Electrical Testing
- Jensen Hughes – Fire Protection/Suppression
- Ewing Construction Services – Constructability Review

A detailed breakdown of staff hours for each task and sub-task is provided in the Cost Proposal, which has been submitted separately.

WORK PLAN

Our delivery plan is enhanced with quality reviews by senior staff, ongoing collaboration with City staff through project completion, and a strong plan for partnership with the City's hired contractor during construction of facility improvements.

Notes: ¹ ESDC = Engineering Services During Construction. ESDC includes office engineering for submittal and RFI reviews, preparation of design clarifications, and assistance with change order preparation.
² Warranty period not shown.

SCOPE OF WORK

This Scope of Work is based on the information presented in the Request for Proposal (RFP), our understanding of the project as discussed with City staff, and experience with similar projects.

CONSULTANT will provide comprehensive design, procurement support, engineering services during construction (ESDC), and on-site engineering for design-assist delivery of the Electrical Power System Capacity Expansion Project (Project), which includes the following improvements at the Pleasant Grove Wastewater Treatment Plant (PGWWTP):

- A new 12kV utility feed from Roseville Electric to replace the existing 4MW feed.
- Two (2) new 12kV standby generators (2.5 MW each) connected to the 12kV switchgear with incorporation of design details for:
 - » Eliminating open-transition switching and load shedding requirements during power outages.
 - » Eliminating fault current rating exceedances for closed-transition switching and back transfer to Roseville Electric.
 - » Proper generator emission treatment to meet Placer County Air Pollution Control District (APCD) requirements and for storm avoidance and demand control.
- The switchgear equipment, generator building, and controls will be designed to accommodate spare capacity for two future 2.5MW generators.
- A new 12kV switchgear line-up (with customer metering with communication to SCADA).
- New Electric Building #3 to house the new 12kV switchgear, the new standby generators, and spare pads for two (2) future standby generators. Electrical Building #3 will be designed with the following improvements (at minimum):
 - » HVAC/mechanical and storage room.
 - » Battery room.
 - » Electrical control room including breaker switching and racking of medium voltage breakers for safety/ARC flash protection, PCM control panel, network cabinet, etc.
 - » Medium Voltage (12KV) Switchgear room.
 - » Low voltage (480V) motor control center room.
 - » Urea room for Tier 4 emissions.
 - » Fire suppression/protection.
 - » Sound abatement for the generators.
- Associated duct banks, cable, wiring, and ancillary items.

The Project also includes the following efforts, as defined herein:

- Geotechnical, topographic survey, and other field investigations necessary for the development of design.
- CEQA/environmental documentation and permitting support.
- Roseville Electric, Placer County Air Pollution Control District, and Roseville Fire Department coordination.
- System testing, including the verification/validation of appropriate operation.
- Preparation of electrical system studies including Short Circuit, Coordination, and ARC Flash studies, with ARC-Flash labels for the entirety of the plant.
- Fire protection/suppression design.
- Sound abatement analysis and design.

TASK 1 – PROJECT MANAGEMENT AND MEETINGS

1.1 – Project Management During Design

CONSULTANT's Project Manager will maintain scope, schedule, and budget for the duration of the Project, develop effective and regular communication with the City's Project Manager, work to minimize change orders and amendments through strong communication, innovative ideas, and quality and collaborative team efforts, and streamline the project timeline with development of effective teaming relationships with all project stakeholders.

As part of Task 1.1, CONSULTANT's Project Manager will prepare written monthly invoice showing the percentage of work completed and billed, a summary of the work completed during the month, and a projection for work to be completed during the following month. CONSULTANT's Project Manager will also maintain decision and action logs throughout the project to record the decisions made during technical workshops and project meetings, as well as project decisions or action items resulting from telephone conversations or by email. This task assumes completion of final design within 24 months of receipt of Notice to Proceed. This design schedule includes approximately 7 months for City procurement of a contractor partner between 80% and final design.

1.2 – Project Management Plan

CONSULTANT will prepare a project management plan that covers key design activities. The plan will define the personnel, project schedule, scope of services, QA/QC control plan, communication protocol, and other procedures.

1.3 – Project Kickoff Meeting

CONSULTANT will conduct a Project Kickoff Meeting to address the overall approach to managing the project tasks for scope, schedule, and budget, as well as communication and project team roles/responsibilities. This meeting will also include a review of the City's goals and objectives for the project. CONSULTANT will prepare meeting notes with accurate recording of project activities, action items, and decisions.

1.4 – Meetings with Roseville Electric

CONSULTANT will participate in a pre-design meeting with Roseville Electric and the City's project leads, and design review meetings.

1.4.1 – Predesign Meeting with Roseville Electric

CONSULTANT will participate in a pre-design meeting with Roseville Electric and the City's project leads to discuss project objectives, service conductor and conduit sizing, and design options and to request feedback about utility-specific requirements for the new electrical service feed. The fee associated with this task assumes a 2-hour, in-person meeting attended by up to three (3) members of CONSULTANT's team.

1.4.2 – Design Coordination Meetings with Roseville Electric

CONSULTANT will participate in up to two (2) design coordination meetings with Roseville Electric and the City's project leads to coordinate timing and design details between CONSULTANT's design of the WWTP electrical facilities and Roseville Electric's design of the new electrical service feed. The fee associated with this task assumes 2-hour, in-person meetings attended by up to three (3) members of CONSULTANT's team.

1.5 – Monthly Progress Meetings during Design

CONSULTANT will conduct monthly progress meetings (MS Teams) during the design phase of the project to maintain effective and regular communication. At a minimum, the following will be reviewed at the monthly progress meetings: current project status, action and decision logs, information needs, and the project look-ahead schedule.

TASK 1 MEETINGS

- » Project Kickoff Meeting.
- » Pre-Design Meeting with Roseville Electric.
- » Design Review Meetings with Roseville Electric.
- » Monthly Progress Meetings.

TASK 1 DELIVERABLES

- » Project Management Plan.
- » Agenda and Meeting Minutes for Kickoff Meeting.
- » Agenda and Meeting Minutes for Pre-Design Meeting with Roseville Electric.
- » Agenda and Meeting Minutes for Design Review Meetings with Roseville Electric.
- » Agendas and Minutes from Monthly Progress Meetings.

TASK 2 – FIELD INVESTIGATIONS

2.1 – Geotechnical Investigation

Under this task, subconsultant Fugro USA Land, Inc. will conduct a geotechnical investigation and prepare a project geotechnical report to define geotechnical conditions as required for construction of the proposed improvements. This scope assumes the following:

- Preparation of a site-specific Health and Safety Plan.
- Review of previously prepared geotechnical reports for the site.
- Field preparation activities including the coordination of boring locations and notification of Underground Service Alert (USA).
- Drilling permit application and fees.
- Field exploration, including drilling up to five (5) bores using a hollow-stem auger with four (4) up to depths of 20-30 feet and one (1) to a depth of 50 feet (for determination of liquefaction potential).
- Standard penetration resistance testing.
- Geotechnical laboratory testing of soil samples to provide soil index properties and assess corrosion potential of existing soils.
- Analysis and recommendations for earthwork and foundations for the project

A Draft Geotechnical Report will be prepared to summarize the methodologies, findings, and recommendations for City review. Comments received from the City will be incorporated into a final version of the report.

2.2 – Site Survey

CONSULTANT will manage the efforts of the site survey subconsultant (CTA Engineering & Surveying) to perform a field survey of the site using the appropriate vertical and horizontal plant datum to produce a topographic mapping for use in the preparation of design drawings. The survey will be developed with spot elevations every 50 feet, all surface features surveyed, and manholes and catch basin rims and invert elevations measured.

2.3 – Potholing

CONSULTANT will manage the efforts of the potholing subcontractor (Arrow Construction) to complete potholing necessary for location of underground utilities. Early efforts to accurately locate existing facilities can significantly reduce the risk of change orders due to unforeseen conditions. The fee associated with this task assumes the following:

- Coordination of appropriate USA markings and removal (as required by the City).
- Five (5) days of field crew efforts to pothole existing utilities on-site.
- Core drilling of asphalt and/or concrete cap surfaces at up to ten (10) locations.
- Soil off haul and disposal.
- Imported HMA material for backfilling pothole cores, and restoration of pothole surface.
- One (1) day of field crew effort for completion of ground penetrating radar (GPR) survey.

TASK 2 MEETINGS

- » Informal, as needed.

TASK 2 DELIVERABLES

- » Geotechnical Report (draft and final).
- » Topographic mapping file.

TASK 3 – PERMITTING

3.1 – Initial Study/Mitigated Negative Declaration

CONSULTANT will manage the efforts of our environmental subconsultant (Ascent Environmental, Inc.), in collaboration with the City's environmental team, to complete the necessary California Environmental Quality Act (CEQA) documentation and associated environmental permitting for the new Electrical Building No. 3, which will be located within the PGWWTP perimeter, but on undeveloped land.

The fee associated with this task assumes that an IS/MND will be the appropriate level of CEQA documentation required for this project, under which all potential environmental impacts would be mitigable to less-than-significant levels. This is based on effort completed by Ascent during the PGWWTP Expansion and Energy Recovery Project, and the findings and recommendations of the West Roseville Specific Plan (which covers the Southern Expansion Area at PGWWTP where the new electrical building will be located). An amendment to the contract will be required if additional environmental effort (above the IS/MDN level) is required.

3.1.1 – Admin Draft IS/MND

This task includes preparation of an Initial Study (IS) in full compliance with CEQA and the State CEQA Guidelines. We anticipate completing the CEQA Environmental Checklist with explanations and analysis for each response, including "No Impact" responses. The level of analysis and degree of impact will vary depending upon the environmental topic but will be sufficient to provide substantial evidence to support the conclusions, consistent with CEQA requirements. For each environmental issue, the IS will describe existing conditions, assess potential environmental impacts, and recommend feasible mitigation measures, as needed.

All issue areas included in Appendix G of the State CEQA Guidelines will be addressed, with emphasis on those issues with the potential for substantial changes compared to existing conditions, including air quality, noise, and biological resources. Construction emissions will be estimated, and noise will be calculated. This task also includes budget for a biologist to visit the site to document any sensitive resource conditions.

An Administrative Draft IS/MND will be prepared for City review along with a draft Notice of Intent (NOI) to adopt the Mitigated Negative Declaration (MND). This task includes up to one (1) meeting with Ascent to discuss content/findings in the Admin Draft IS MND.

3.1.2 – IS/MND for Public Review

Comments received on the Administrative Draft IS/MND and Draft NOI will be incorporated into final versions of each for public review. The IS/MND will be circulated for a 30-day public review period and with the NOI posted in parallel. It is assumed that City staff will distribute the documents and notices.

3.1.3 – Mitigation Monitoring and Reporting Program

This task includes the preparation of draft and final versions of the Mitigation Monitoring and Reporting Program (MMRP). The MMRP will include the information necessary to determine when a mitigation measure is complete or whether ongoing mitigation or monitoring is to be implemented in conformance with the IS/MND. Such information includes implementing party, timing, monitoring agent, and other pertinent measure-specific details.

A draft version of the MMRP will be submitted for City review, and comments received on the Draft MMRP will be incorporated into a Final MMRP. This task includes up to one (1) meeting with Ascent to discuss content/findings in the draft MMRP.

3.1.4 – Response to IS/MND Comments TM

Upon completion of the public review period for the IS/MND, a compilation of any comments received on the public draft IS/MND will be prepared along with a technical memorandum (TM) responding to comments that raise environmental issues. Though written responses to comments are not strictly required by CEQA for an IS/MND, it is recommended as a best practice to provide evidence that comments were public and agency comments were meaningfully considered by the lead agency prior to action on the project.

Upon adoption of the MND and approval of the project, a Notice of Determination (NOD) will be prepared and filed with the State Clearinghouse and County Clerk.

3.2 – Permit Needs TM

The City received permits under Section 404 of the Clean Water Act for fill of wetlands at and adjacent to the PGWWTP site for construction of the existing PGWWTP and development under the West Roseville Specific Plan. In addition, US Fish and Wildlife Services issued a biological opinion and exempted incidental take of vernal pool fairy shrimp and vernal pool tadpole shrimp from development activities associated with the West Roseville Specific Plan, which covers the project area. It is assumed that potential impacts to wetlands and listed species would be covered by these previous permits and no further permitting or compensatory mitigation would be required for the proposed project.

Under this task, we will complete a review of previous permits and CEQA documents covering development in the project area to confirm whether any additional project-specific permitting would be required and prepare a memo summarizing the recommendations for permitting based on this updated review. A Draft Permit TM will be prepared for City review, and any comments received will be incorporated into a final version of the document.

3.3 - Air Quality Permitting

CONSULTANT will manage the overall efforts associated with air quality permitting for the project, including the determination of emissions abatement needs and the Authority to Construct.

3.3.1 – Determination of Emissions Abatement Level Required for Project

CONSULTANT will work with the City, our hired air permitting subconsultant (Mizutani Environmental), and the Placer County Air Pollution Control District (APCD) to determine the level of emissions abatement needed for the project. The budget associated with this task assumes up to three (3) hybrid meetings (2 hours each) with the APCD, attended by two (2) management level CONSULTANT staff (and includes preparation time for CONSULTANT team and for the overall CONSULTANT/City project team).

3.3.2 – Authority to Construct

CONSULTANT will manage the preparation of a permit application for an Authority to Construct (ATC) from the Placer County Air Pollution Control District (APCD) for new Electrical Building No. 3 and associated equipment. This work will include:

- » Confirmation that equipment and facility design parameters comply with regulatory requirements.
- » Compiling and evaluating data and specifications for the development of emission estimates for the project (Task 3.3.1).
- » Interacting with APCD permitting staff during the application process prior to the initial submittal (phone/online).
- » Preparing APCD application for ATC. Deliverables include a draft application packet for City review and final application packet for City submittal to APCD.
- » Following up with APCD to address any questions following application submittal.

The budget associated with this task assumes that the Project will require only one permit application.

3.4 – Fire Department Coordination

A building permit is not required by the City for this project, but effort is needed to determine fire suppression requirements for the new building. CONSULTANT will coordinate with the City and the Roseville Fire Department to determine fire suppression requirements for the Project. This task includes:

- Participation in a Design Initiation Meeting with the Roseville Fire Department to preview project scope and collect initial feedback regarding possible fire suppression requirements.
- Participation in Design Review Meetings with the Roseville Fire Department at the 30%, 60%, and 80% design level to discuss design details and collect feedback.
- Associated coordination for design package submittals, meeting scheduling and preparation, and preparation of meeting agendas and minutes.

TASK 3 MEETINGS

- » Admin Draft IS/MND Review Meeting.
- » Draft MMRP Review Meeting.
- » Meetings with the Placer County APCD to discuss air permitting and emission abatement levels.
- » Meetings with Roseville Fire Department.

TASK 3 DELIVERABLES

- » Draft Administrative Draft IS/MND and Draft NOI to Adopt MND.
- » Agenda and Meeting Minutes for Admin Draft IS/MND Review Meeting.
- » Public Draft IS/MND.
- » Mitigation Monitoring and Reporting Program (draft and final).
- » Agenda and Meeting Minutes for Draft MMRP Review Meeting.
- » Response to IS/MND Comments TM (draft and final).
- » Notice of Determination.
- » Permit Needs TM (draft and final).
- » Authority to Construct Permit Application (draft and final).
- » Agenda and Meeting Minutes for APCD meetings.
- » Agenda and Meeting Minutes for Roseville Fire Department meetings.

TASK 4 – EVALUATION OF ALTERNATIVES

To facilitate key decisions required for efficient progression of design, CONSULTANT will work with the City to complete the alternative evaluations discussed herein.

4.1 – New Electrical Service Feed Alternatives Analysis

CONSULTANT's coordination of design details (meetings) for the new electrical service feed with Roseville Electric is covered under Task 1.4. This task includes budget hours for documentation of options, City's (and/or Roseville Electric's) selected alternative, and requirements for connected facilities based on the selected alternative. This analysis will include comparison of up to four (4) feasible alternatives, with the following as possible options:

- Single 8-10MW service feed routed from substation at Fiddymont.
- Single 8-10MW service feed routed from substation at Blue Oaks.
- Underground vs. overhead service feeds.
- Feasibility of maintaining the existing 4 MW service feed as an secondary power service.
- Other, as deemed potentially feasible by the City or Roseville Electric.

CONSULTANT will complete an evaluation of feasible alternatives available for new/upsized electrical service from Roseville Electric, prepare planning level 5 cost estimates for price comparisons of each, lead a workshop with the City to discuss draft findings, and document findings and recommendations in an Electrical Service Feed Alternatives Analysis TM.

A draft version of the Electrical Service Feed Alternatives Analysis TM will be submitted for City review, and comments received on the draft will be incorporated into a Final Electrical Service Feed Alternatives Analysis TM.

4.2 – In-Plant Electrical Distribution Alternatives Analysis

CONSULTANT will work with the City to evaluate options for in-plant electrical power distribution. This analysis will include comparison of up to four (4) feasible alternatives, with the following as possible options:

- Primary (12KV) radial distribution system connecting substation transformers directly to the switchgear busses.
- Primary (12KV) selective distribution system with multiple 12KV loops routed through the plant to supply power to existing and future substation transformers via pad-mounted switches (PMS).
- Primary (12KV) selective distribution system with a single 12KV loop routed through the plant to supply power to existing and future substation transformers via PMSs.
- Other, as deemed potentially feasible by the City.

CONSULTANT will complete an evaluation of alternatives for electrical distribution routing in the plant, prepare planning level I 4 cost estimates for price comparisons of each, lead a workshop with the City to discuss draft findings, and document findings and recommendations in an In-Plant Electrical Distribution Alternatives Analysis TM.

A draft version of the In-Plant Electrical Distribution Alternatives Analysis TM will be submitted for City review, and comments received on the draft will be incorporated into a Final In-Plant Electrical Distribution Alternatives Analysis TM.

4.3 - Standby Generator Configuration and Emissions Abatement Options

CONSULTANT will work with the City and our hired subconsultant (Mizutani Environmental) to evaluate option for standby configuration and emissions abatement based on project goals, feedback from Placer County APCD, experience with similar projects, and availability of project funds. This analysis will include comparison of up to four (4) feasible alternatives, with the following as possible options:

- Tier 2 generators, if permits are available by APCD.
- Tier 4 generators
 - » Certified Tier 4 generators – with emissions aftertreatment equipment tested and pre-approved by the EPA.
 - » Compliant Tier 4 generators – with aftertreatment equipment provided by an aftermarket supplier (not the generator manufacturer)

- In-building generator installation versus separate enclosure installation.
- Other, as deemed potentially feasible by the City or APCD.

CONSULTANT will complete an evaluation of options for standby generator configuration and emissions abatement, prepare planning level I 4 cost estimates for price comparisons of each, lead a workshop with the City to discuss draft findings, and document findings and recommendations in a Standby Power Configuration and Emissions Abatement Options TM.

A draft version of the Standby Power Configuration and Emissions Abatement Options TM will be submitted for City review, and comments received on the draft will be incorporated into a Final Standby Power Configuration and Emissions Abatement Options TM.

4.4 – Electrical Building No. 3 Layout Options Workshop

CONSULTANT will conduct a workshop with the City to discuss various options and for Electrical Building No. 3 including building sizing/configuration based on room layout, safety options, sound abatement options, HVAC layout options, architectural detailing, ingress/egress and equipment access, building automation options, fire protection/suppression options, fuel storage options (with/without day tank), and control room design (at minimum).

CONSULTANT will explain advantages and disadvantages of various options with relative cost comparison (low, medium, high), and collect feedback for City preference for preliminary design

TASK 4 MEETINGS

- » Electrical Building No. 3 Layout Options Workshop.

TASK 4 DELIVERABLES

- » Electrical Service Feed Alternatives Analysis TM (draft and final).
- » In-Plant Electrical Distribution Alternatives Analysis TM (draft and final).
- » Standby Power Configuration and Emissions Abatement Options TM (draft and final).

TASK 5 – COMPREHENSIVE DESIGN

CONSULTANT will design facilities and equipment outlined herein in collaboration with the City's team, develop design plans and specifications to be incorporated into the City's Design-Assist

procurement documents, and develop Contract Documents for construction based on input from the City's project team and the Contractor team chosen by the City during procurement.

Construction drawings will include applicable general, architectural, civil, fire protection, structural, mechanical, electrical, instrumentation and control, fire protection/suppression, and demolition drawings. All work items, definitions, references, inspections, testing, repair and replacements will comply with the latest edition of the American National Standards Institute/International Electrical Testing Association (ANSI/NETA). Maintenance Testing Specifications (MTS).

The City's Front End Contract Documents will be used for this project, coordinated with CONSULTANT's technical specifications in collaboration with the City team.

CONSULTANT will prepare construction cost estimates for each design deliverable, except the 100 Percent Design Documents (which will be estimated by the City's Design-Assist Contractor). Estimates will be based on available quantity take-offs, manufacturer's quotes, and experience incorporating similar project elements at other treatment facilities and will be escalated to the mid-point of construction. Project cost estimates will be prepared to a level of detail consistent with the standards of AACE International.

The fee associated with the detailed design phase is based on the number of drawings included in the Preliminary Drawing List (attached), based on the following general design assumptions:

5.1 – 30% Design Documents

Consultant will prepare 30% Design Documents for City review. The 30 percent design will include drawings, key technical specifications, and an AACE Class 3 cost estimate.

5.2 – 30% Design Review Workshop

A workshop will be held to review the 30% Design Documents and receive comments to be incorporated into the 60% design submittal. This task assumes hybrid attendance for up to four (4) CONSULTANT staff attending a four-hour workshop.

5.3 – 60% Design Documents

Incorporating comments received from the City on the 30% design review package, and in evolution of the design consistent with standard industry practice, CONSULTANT will develop and submit 60% Design Documents for City review. The 60% design submittal

will include drawings, key technical specifications, and an AACE Class 2 cost estimate.

5.4 – 60% Design Review Workshop

A workshop will be held to review the 60% design submittal and receive comments to be incorporated into the 80% design submittal. This task assumes hybrid attendance for up to four (4) CONSULTANT staff attending a four-hour workshop.

5.5 – 80% Design Documents

Added tasks 5.5.2 and 5.5.3 will facilitate City review and feedback on the final 80% Design Document submittal prior to release for public Contractor bidding.

5.5.1 – 80% Design Submittal

Incorporating comments received from the City on the 60% design review package, and in evolution of the design consistent with standard industry practice, CONSULTANT will prepare and submit a draft version of the 80% Design Documents for City review. The 80% design will include drawings, specifications, and an updated AACE Class 2 cost estimate.

5.5.2 – 80% Design Submittal Review Workshop

A workshop will be held to review the 80% design submittal and receive comments to be incorporated into the final Contractor procurement set. This task assumes hybrid attendance for up to four (4) CONSULTANT staff attending a four-hour workshop.

5.5.3 – Updated 80% Design Documents - Contractor Procurement Submittal

CONSULTANT will prepare an updated 80% design submittal to incorporate comments received from the City team during the 80% Design Submittal Review Workshop (task 5.5.2). The updated 80% Design Documents will be used to assist the City with procurement of a Contractor partner for the Design-Assist team. The fee associated with this task assumes that feedback received from the City's review will not result in significant design changes.

Quality Assurance/Quality Control

Quality Assurance/Quality Control (QA/QC) will be ongoing throughout the design process and will be discussed at regularly scheduled meetings. As with all Carollo projects, detailed technical reviews of each design deliverable will be performed by senior technical experts that are not otherwise involved in the project design. This will provide the City with an expert and objective review.

Constructability Reviews

CONSULTANT will coordinate third-party constructability reviews of the 30%, 60%, and 80% Design Documents in parallel with internal QA/QC reviews. Constructability reviews will be completed by Dave Ewing Construction Services to identify construction challenges, validate construction sequencing plans, and identify options to ease the overall construction process through proactive engineered solutions.

TASK 5 MEETINGS

- » 30% Design Review Workshop.
- » 60% Design Review Workshop.
- » 80% Design Review Workshop.

TASK 5 DELIVERABLES

- » 30% Design Documents.
- » 60% Design Documents.
- » 80% Design Documents (City Review Submittal).
- » 80% Design Documents (Contractor Procurement Submittal).
- » Agenda and Meeting Minutes for 30%, 60%, and 80% Design Review Workshops.

TASK 6 – PROCUREMENT SERVICES

CONSULTANT will assist the City during the procurement process for a Contractor partner, who will join the City's Design-Assist team during completion of design and who will ultimately lead the construction of the resulting Project.

6.1 – Pre-Proposal Meeting

CONSULTANT will prepare presentation slides for the pre-proposal meeting and present at the meeting. CONSULTANT's Project Manager will attend the pre-proposal conference and assist the City with describing the project and answering general questions that do not require technical interpretation. CONSULTANT's Project Manager will also attend a site walk with the bidders to help provide a general description of the project and highlight information that is readily available in the 80 Percent Design Submittal. Bidders will be advised that only written questions submitted to the City during the bidding period will be answered via addenda response to all potential bidders (Task 6.2).

6.2 – Prepare Addenda

CONSULTANT will answer proposing Contractor's questions directed to us by the City and prepare addenda as required. This task assumes up to three (3) addenda and a forty-five (45) day bidding period.

6.3 – Review Contractor Proposals

CONSULTANT will assist the City's team with review of Contractor proposals received from prospective bidders. The fee associated with this task assumes that up to two (2) members of CONSULTANT's management level team participate in the review and scoring of up to six (6) Contractor proposals (in accordance with requirements and scoring criterion developed by the City), and a review meeting with the City team for Contractor selection.

6.4 – Contractor Interviews and/or Contract Negotiations

CONSULTANT will assist the City with Contractor interviews and/or contract negotiations. The fee associated with this task assumes that up to two (2) members of CONSULTANT's management level team participate in the following Task 6.4 activities:

- Up to three (3) in-person interviews at the City's facilities (assumed to occur on the same day), and
- Up to two (2) hybrid contract negotiation meetings with the selected Contractor.

TASK 6 MEETINGS

- » Pre-Proposal Meeting.
- » Prospective Contractor Interviews.
- » Contract Review Meetings with Selected Contractor.

TASK 6 DELIVERABLES

- » Pre-Proposal Meeting Presentation.
- » Addenda, as required.
- » Contractor Proposal Scoring Summary.

TASK 7 – FINAL DESIGN

7.1 – Contractor Design Coordination Workshop

CONSULTANT will host a workshop with the selected Contractor and the City to review the 80 Percent Design Documents and coordinate Contractor and City feedback for the development of the 100 Percent Design Documents. This includes budget for the participation of up to four (4) CONSULTANT staff in a four (4) hour in-person workshop (including preparation and follow-up time).

7.2 – 100% Design Documents

CONSULTANT will develop and submit 100% Design Documents with the Contractor's and the City's input incorporated. The 100% design will include the full set of project drawings and all front-end and technical specifications.

TASK 7 MEETINGS

- » Contractor Design Coordination Workshop.

TASK 7 DELIVERABLES

- » 100% Design Documents (final).
- » Agenda and Meeting Minutes for Contractor Design Coordination Workshop.

TASK 8 – ENGINEERING SERVICES DURING CONSTRUCTION

CONSULTANT will provide comprehensive engineering services during construction (ESDC) as defined herein. The budget associated with this task assumes that the City will perform construction management and inspection, will directly receive and log submittals and shop drawings from the Contractor, and will submit them to CONSULTANT in electronic format for review.

8.1 – Project Management During Construction

This task includes budget for CONSULTANT's Project Management efforts during the construction phase. During this phase, CONSULTANT will continue to make staffing assignments, review work progress, communicate progress to the Owner, and manage the Project budget, schedule, and invoicing. This task assumes completion of all services included herein within 36 months of Contractor's receipt of Notice to Proceed (not counting Warranty Period services).

8.2 – Coordination Meetings During Construction

CONSULTANT will participate in various coordination meetings, including progress meetings, field meetings, and regular Project Manager status meetings throughout completion of construction to coordinate with Contractor and City on innovative design solutions in the design assist model. This task assumes hybrid one-hour-long, biweekly meetings attended by up to three (3) CONSULTANT staff (on average).

8.3 – Submittal Reviews

CONSULTANT will review Contractor and vendor equipment and material submittals, equipment O&M submittals, Contractor sequencing and testing submittals, vendor training submittals, and other project submittals as requested by the City's team. CONSULTANT will provide detailed, discipline-specific reviews to confirm compliance with the design intent of the project and the requirements stipulated in the 100 Percent Design Document. Written responses to each submittal will be provided

on Carollo's standard submittal response form, delivered electronically to the City.

As part of this task, CONSULTANT will prepare a live list of required spare parts with any adjustments made during construction.

The budget associated with this task assumes CONSULTANT's review of 350 submittals at six (6) hours per submittal (on average), including resubmittals.

8.4 – RFI Responses

CONSULTANT will respond to Contractor and client requests for information (RFIs). This task assumes 150 RFIs at four hours per RFI (on average).

8.5 – Design Changes or Modifications

CONSULTANT will prepare design changes and/or design modifications (DCMs). This task assumes 24 DCMs at eight hours per DCM (on average).

8.6 – On-Site Field Engineer

CONSULTANT will provide an on-site engineer during construction to assist the City and the Contractor in coordinated delivery of the Project and provide the following on-site support (at minimum):

- Participation in City and/or Contractor provided safety sessions and regular construction progress meetings.
- Assistance with as-needed inspection activities.
- Coordination of as-needed/in-field design changes with the City and the Contractor and prepare associated documentation.
- Provide support during testing, start-up, and commissioning activities.
- Assist with manufacturer training for plant personnel.
- Coordination of data transfer between the Contractor's team and the City's SCADA team (including the preparation of a data points list for the SCADA team's use).

The fee associated with this task assumes full-time/on-site participation of one (1) engineer for an average of three (3) days per week during active construction (fee estimate assumes 24 months of active construction within the overall 36-month construction period). Engineer's on-site time will be applied less regularly (0-1 days per week) during low construction periods so save budget for more regular participation (4-5 days per week) during heavy construction periods.

8.7 – O&M Services

CONSULTANT will prepare an updated Operations and Maintenance (O&M) Manual to reflect all changes to the electrical system at the PGWWTP, as impacted by the Project, and will provide training to summarize O&M Manual updates to Operations and Maintenance staff identified by the City's Project Manager. This task assumes that the existing O&M Manual is current with respect to all facility improvements (operational and construction improvements) and that O&M Manual chapters are available for electronic editing (via MS Word or similar) without necessary regulatory or formatting updates. The budget associated with this task also assumes that O&M training can be accomplished within six (6) – four (4) sessions lead by one (1) CONSULTANT staff member.

A Draft O&M Manual update will be submitted to the City for review in the form of "tracked changes". Comments received on the Draft O&M Manual edits will be incorporated into a final version for the City's use/files.

8.8 – Asset Management

CONSULTANT will collect the City's required asset management data from Contractor and submit finalized data spreadsheets to the City for input into Maximo.

8.9 – As-Built Drawings

CONSULTANT will prepare and submit as-built drawings to the City upon completion of construction. As-Built Drawings will include above-grade and below-grade changes from the original design drawings. Changes reflecting as-installed conditions will be made in the same level of detail and to the same degree of drafting quality as the original design drawings. The budget associated with this task assumes a total of 213 drawings, submittal of a Draft As-Built Drawing set for City review, and completion of a Final As-Built Drawing set that incorporates requested edits provided by the City in a single markup file.

TASK 8 MEETINGS

- » Biweekly Coordination Meetings.

TASK 8 DELIVERABLES

- » Agenda and Meeting Minutes for Biweekly Coordination Meetings.
- » Submittal review comments.
- » Responses to RFIs.
- » Project DCMs.
- » Updated O&M Manual (draft and final).
- » Asset Management Data Sheets.

- » As-Built Drawings (draft and final).

TASK 9 – TESTING, VALIDATION, AND COMMISSIONING

CONSULTANT will coordinate with Contractor, manufacturers, and the City during the testing, validation, and commissioning of the new electrical system and its associated components.

9.1 – Electrical Studies (Short Circuit, Coordination, and ARC Flash Studies)

CONSULTANT will manage the efforts of our subconsultant (ERS) for the completion of a Short Circuit Analysis and ARC Flash Study for the PGWWTP in compliance with associated requirements from the National Fire Protection Association (NFPA) 70E (Standard for Electrical Safety in the Workplace) and the National Electric Code (NEC).

This task includes updating City's latest SKM model for the plant to include the new facilities associated with this project. CONSULTANT will prepare a draft Short Circuit Analysis and ARC Flash Study Report for City review. Following the City's review of this report, a Protective Device Coordination and Arc Flash Mitigation Meeting will be conducted with the City to evaluate available options for mitigating protective device mis-coordination and arc flash incidences.

CONSULTANT will incorporate feedback received from the City during the Protective Device Coordination and Arc Flash Mitigation Meeting and the City's review of the Draft Short Circuit Analysis and Arc Flash Study Report and prepare a Final Short Circuit Analysis and ARC Flash Study Report. With delivery of the final report, CONSULTANT will prepare arc flash labels/stickers, place them in appropriate locations, and perform associated staff training.

9.2 – Testing, Validation, and Commissioning

CONSULTANT will attend acceptance testing (factory and field), review manufacturer test plans and results, review Contractor commissioning plans, and provide associated feedback.

This task assumes that testing of electrical safety devices (maintenance mode, breaker trip settings, safety relays, power monitors, overloads, switchgear/utility safety relays, remote racking, remote breaker transitions, etc.) will be completed by the Contractor hired to complete construction.

This task also assumes that the provision of start-up test reports, calibration information, and related calculations will be completed by the Contractor hired to complete construction, or their testing subcontractor.

TASK 9 MEETINGS

- » Protective Device Coordination and Arc Flash Mitigation Meeting.
- » Arc Flash Training Seminar.

TASK 9 DELIVERABLES

- » Short Circuit Analysis and Arc Flash Study Report (draft and final).
- » Arc Flash model files (native .skm file format on thumb drive).
- » Arc flash hazard labels.
- » Training seminar materials.
- » Certificates of completion of arc flash training.

ASSUMPTIONS

The following project assumptions apply, in addition to others outlined herein.

- The total Project duration (design through construction) will be 60 months.
- City's front-end (Division 0-1) specifications will be used.
- CONSULTANT's standard technical specifications (Divisions 02 through 17) will be used.
- CONSULTANT's standard CAD software, templates, and symbols will be used in the development of the drawings.
- The City will provide a current tagging system for incorporation into the Contract Documents.
- Electronic (pdf) delivery of all project submittals.
- Design of the electrical power feed facilities between Roseville Electric and the PGWWTP entrance will be completed by Roseville Electric (or other). CONSULTANT can complete these services with contract amendment if desired by Roseville Electric and the City.
- The City will provide source water and disposal for all geotechnical drilling operations.
- Soil in the Project area does contain contaminants.
- Onsite storage of geotechnical drilling spoils, cuttings/drilling mud, etc.
- Geotechnical borings backfilled with ordinary Portland cement bentonite grout.
- The CEQA environmental checklist will be addressed with readily available information from previous reports without the need for modeling, field visits, or other technical analyses.
- The new building will not be founded on any deep foundation systems or ground-improved soils.
- The new building will not be provided with a basement.
- Routing of conduits will not result in utility conflicts or require significant modifications to existing structures.
- Routing of conduits will be by sufficiently buried and protected duct banks (no shallow duct banks or elevated conduit racks).
- The City will provide an updated SKM model that incorporates all existing facilities.

PRELIMINARY DRAWING LIST

A preliminary drawing list is presented here summarizing the anticipated drawings that will be included in the design plan sets.

PRELIMINARY SCHEDULE

We have developed a preliminary project schedule based on our understanding of the RFP and the proposed scope of services included in our proposal. This schedule illustrates the major tasks, task durations, major milestones, key meetings, and deliverables. We will refine the project schedule based on input received from the City throughout the project, and use this schedule as an ongoing tool to help facilitate timely decisions and completion of the project.

Tab F: Cost Proposal

Tab F: Cost Proposal

Submitted separately.

Tab G: Required Statements/Documents

Tab G: Required Statements/Documents

STATEMENTS OF ASSURANCE

Team Member Non-Substitution

Designated project team members will be used for the duration of the project. Carollo will not substitute any of these team members without prior written approval from the City.

Conflict of Interest

Carollo is familiar with applicable conflict of interest laws and requirements. Neither our firm nor any of its employees involved with this project are aware of any conflict of interest that would preclude working on this project. Carollo, at all times, conducts its professional and business activities in a manner to prohibit conflict of interest on the part of the firm and its employees. We foresee no circumstances in which a conflict could arise.

Indemnification and Insurance Requirements

Indemnification

Carollo agrees with the City of Roseville's indemnification requirements as set forth in the Sample Contract.

Insurance

Carollo maintains insurance to protect both our client and our firm against the types of claims that may be alleged to result from our services on this project. Our current insurance coverage meets the minimum required by the City's Sample Contract.

Proprietary Statement

Carollo Engineers does not consider any of the information contained in this proposal to be proprietary. This proposal does not contain copyrighted material, trade secrets, or other proprietary information claimed as exempt from disclosure under the Public Records Act.

REQUIRED DOCUMENTS

As requested in the RFP, the documents below are provided on the following pages.

- Proof of registration with California Secretary of State (Att A)
- Proposer's Certification (Att B)
- Non-collusion Declaration (Att C)
- Sample Contract (Att D)
- Subcontractor List (Att E) - N/A
- Levine Act Disclosure Statement Form (Att G)

Tab H: Exceptions

Tab H: Exceptions

After careful review of the RFP documents and requirements, scope of work, and the City's sample contract, Carollo Engineers has no exceptions, alterations, or amendments to the documents.

Tab I: Competency of Proposers

Tab I: Competency of Proposers

Carollo has never been the subject of bankruptcy, lien, stop payment notice and/or foreclosure. Additionally, Carollo has not had a client terminate a contract for breach.

Carollo has been involved in the following filed and/or resolved lawsuits, arbitrations, and/or mediations in the past seven years.

- In 2017, Carollo was brought into a lawsuit between a client and the construction contractor claiming project delays related to the construction of a new wastewater treatment plant. The matter went to trial and Carollo was subsequently found to have no liability for any of the claims.
- In 2018, Carollo, the construction contractor, and a client were the subject of a lawsuit filed by property owners along a sewer interceptor realignment project where construction operations extended beyond the originally projected construction completion date. The matter was submitted to mediation and thereafter settled with no admission of fault by Carollo.
- In 2019, Carollo and several other large water engineering firms doing business in Florida were sued by a private citizen who has a history of suing governmental entities (i.e., his most recent lawsuit was against the Federal Reserve). The overall allegations of the citizen center around claims that Carollo was working with the other noted water firms to hide an alleged underground water source on the plaintiff's/citizen's property from our Florida clients. The lawsuit was subsequently dismissed.
- In 2020, Carollo and their joint venture partner were the subject of a lawsuit filed by a client related to tank corrosion as part of a design-build project completed in 2005. Carollo denies responsibility for any of the claims. The matter was submitted to mediation and thereafter settled with no admission of fault by Carollo.
- In 2021, Carollo was the subject of a lawsuit filed by a client related to the replacement of trickling filter media as part of a wastewater treatment plant rehabilitation project. The complaint alleges professional negligence, breach of contract and breach of express and implied warranty. Carollo denies all the allegations. The lawsuit is in progress.
- In 2021, Carollo and the construction contractor were the subject of a lawsuit filed on behalf of a client via subrogation by their insurance carrier related to ozone equipment installed as part of a new surface water treatment plant project. The complaint alleges breach of contract and negligence. The lawsuit was dismissed, without prejudice.

Appendix

Beverly J. Hann, PE, PMP

Beverly Hann, a vice president with Carollo Engineers, has experience in permitting, design, and construction of water and wastewater treatment facilities. She has completed a diverse list of projects – everything from headworks for municipal wastewater treatment plants to industrial water recycling facilities. This experience has allowed her to focus on project delivery and client service as her main career goals – she knows how to best leverage technical expertise within the company to get projects done right.

Relevant Experience

→ Project manager for the City of Roseville, California, Dry Creek Wastewater Treatment Plant Biofilter Evaluation. The project included analysis of the foul odor collection and treatment systems currently in place for the WWTP's screening, grit, and primary clarification areas to identify issues and develop options for upgrade and/or replacement. This effort included the development of lifecycle and capital costs (for comparison of options), staff coordination to review advantages/disadvantages of the various options, and preparation of a final report summarizing efforts and findings of the analysis.

→ Project Manager for the City of Roseville Potable Reuse Regulatory Support team supporting the City's Pure Water Roseville program. In line with the City's Water Future Initiative, the goal of this program is to strengthen the City's water supply portfolio through application of non-RO based indirect potable reuse.

→ Principal-in-charge for the City of Roseville, Aquifer Storage and Recovery (ASR) Well and Pump Station design. The project involves design, permitting, and construction of six new ASR wells injecting treated water from Folsom Lake. The goal of the project is to provide water supply resiliency during times of drought when the Folsom Lake supply may not provide the desired reliability.

→ Project manager for the City of Roseville, California, Tertiary Filter Replacement. The project includes an assessment of options for replacing the continuous backwash filter units at the City's Pleasant Grove Wastewater Treatment Plant and predesign of the selected replacement project.

→ Principle-in-charge for the City of Roseville, California, Barton Road Water Treatment Plant Condition Assessment. The project involves conducting visual assessments of treatment plant assets (Phase 1) followed by more detailed, invasive inspection of facilities. Assessment results will be incorporated into an asset management framework to prioritize rehabilitation and replacement needs. The project also includes integrating the asset management results with the City's Maximo® maintenance management system.

→ Commissioning Plan development manager for the Sacramento Regional County Sanitation District, California, EchoWater Project Tertiary Treatment Facilities Project Commissioning Plan. The project involved development of a detailed plan for commissioning new facilities during design of the new tertiary treatment facilities at the Sacramento Regional Wastewater Treatment Plant, including dry equipment testing (mechanical, electrical, and control system function), wet system testing (development of individual test plans and strategic water supply/discharge option for each system within the overall project, including the 343-mgd filter influent pump station, granular media filters, waste filter backwash system, disinfection contact basins, effluent observation structure, chemicals storage and feed systems, and miscellaneous pumping stations), and full facility testing (which required complex cutover strategies as new systems were integrated with existing systems).

→ Project manager for the City of Martinez, California, 2014 Electrical Power Distribution Upgrades. Responsible for interfacing with City staff, water treatment plant personnel, and design team to confirm the design meets the City's needs; tracking budget and

Awards

Feather River Branch Professional Award, American Society of Civil Engineers, 2003.

Civil Engineering Alumni Recognition Award, California State University, Chico, 2003

Beverly J. Hann, PE, PMP

schedule throughout the effort; and coordinating scoping and design review meetings. Preliminary and final design included replacement of major electrical distribution equipment (PG&E main service transformer, main switchboard, four in-plant motor control centers, 100 kVA transformer) and associated feeder conductors and conduit. The project also involved complex sequencing to reduce facility downtime and ongoing City, PG&E, and contractor coordination.

→ Principal-in-charge for the City of Martinez, California, Webster Drive Pump Station Improvements. The project involved predesign, design, and bid-phase services for replacement of the Webster Drive Pump Station for distribution of potable water to upstream customers. Work included replacement of hydropneumatic tanks and pumps, associated piping to and from the service main, electrical and control facilities, and pump station housing, as well as addition of a standby generator. Efforts also included preliminary design activities (surveying and geotechnical), coordination with the City's hydraulic modeler, air quality permit assistance, and design of a portable trailer pump skid for use in bypass pumping during facility shutdown for construction (and for future City use with existing City-Contra Costa Water District interties).

→ Project manager for engineering services during construction and construction management assistance for the City of Martinez, California, 2014 Electrical Power Distribution System Upgrades. Duties included interfacing with City staff, water treatment plant personnel, onsite contractor, PG&E, and design team members to support the City's construction manager during construction of project facilities. The project scope included submittal reviews, responses to requests for information, preparation and review of design clarifications and change orders, regular and specialty inspection, and attendance at biweekly construction progress meeting.

→ Project manager for the South Tahoe Public Utility District, California, Pressure Reducing Valve (PRV) Upgrades. The project involved identification of feasible water sys-

tem efficiency upgrades (through collection/use of flow and pressure data) at 19 of the 25 existing PRV stations located throughout the District's service area. Improvements for the first PRV upgrade site (Pine Valley) included new PRV and piping (due to condition) in the existing vault, pressure transmitters upstream and downstream of the existing PRV, valve controller (with position indicator) for flow monitoring, hydroelectric generator and associated electronics as the sole means of power supply, cellular modem, above-grade control panel, and temporary bypass pumping during construction.

→ Principal-in-charge for the City of Chico, California, Thickened Sludge Pump Station Improvements. This project involved demolition of the pump station building structure (with facilities still in use), miscellaneous piping, electrical, and control system improvements, and design and construction of an open-walled structurally integrated shade structure with pump removal hoists. All systems previously supported on pump station walls and ceilings were relocated to the new superstructure ceiling and/or independent control stands.

→ Project manager for the American Valley Community Services District, California, Wastewater Treatment Plant Improvements. The project includes headworks upgrades, secondary treatment system upgrades (nitrification-denitrification), new effluent pipeline to an existing outfall, ancillary pumping stations, solids digestion and dewatering facilities, new electrical service and backup power provisions, new motor control centers, and SCADA improvements to accommodate new facilities.

→ Principal-in-charge for the El Dorado Irrigation District, California, Folsom Lake Intake Improvements Construction Management and Inspection Services. The project involves rehabilitation of aging pump station infrastructure and electrical systems on Folsom Lake. Responsible for contract implementation and coordination with the engineering team to provide the District as-needed support.

Jamshid (JD) Dorafsha, PE

Jamshid (JD) Dorafsha is an associate vice president and the electrical & instrumentation design manager with Carollo. JD brings 30 years of experience in designing, managing, and providing electrical and instrumentation engineering services for municipal, institutional, and government projects. He has managed and designed a number of switchgear and substation replacement projects, as well as provided electrical improvements to water and wastewater clients throughout his career.

Relevant Experience

→ Project manager for the City of Roseville, California, Dry Creek Wastewater Treatment Plant MCC and Switchgear Replacements Design-Build project. The project includes replacement of five motor control centers and one switchgear at the City's Dry Creek Wastewater Treatment Plant. Carollo is providing design and engineering services during construction to the lead design-builder, Auburn Constructors.

→ Electrical engineer for the City of Roseville, California, \$20 million Pleasant Grove Wastewater Treatment Plant Phase I Expansion, which added new medium- and high-voltage equipment for power distribution to new process areas. The expansion included design of a UV disinfection system, fine screens, primary clarifier, and oxidation ditches, as well as evaluation of two existing 1,500kW standby generators.

→ Project manager for the City of Roseville, California, Dry Creek Wastewater Treatment Plant Short Circuit Coordination and Arc Flash Mitigation Studies. Responsible for site inspections, evaluation of safety hazards, and identification of electrical components presenting potential short circuit and arc flash risks. Work included evaluation and mitigation of arc flash hazard levels for electrical equipment throughout the plant using SKM PowerTools® analysis software. The evaluation included consideration for changing existing protective device settings, potential hardware changes, equipment-specific mitigation measures, and preparation of a plantwide mitigation implementation plan to lower arc flash hazard risk levels. Carollo also reviewed Roseville's compliance with the applicable NEC, NFPA-TOE, IEEE 1584A, and OSHA arc flash standards.

→ Electrical engineer for the City of Roseville, California, Pleasant Grove Wastewater Treatment Plant Short Circuit, Coordination,

and Arc Flash Studies. The project involved review of a short circuit, coordination, and arc flash studies using SKM PowerTools® for the electrical distribution system. The electrical system consists of two double-ended 12kV, 480V unit substations with two 1,500kW standby diesel generators connected to the 480V switchgears in a main-tie-main arrangement.

→ Electrical engineer for the City of Roseville, California, Bioassay and Reclaimed Water Pump Station Upgrade at the Dry Creek Wastewater Treatment Plant. Responsible for design of the electrical, instrumentation, and PLC system. The project included detailed design and layout of an Ethernet network connection of two new PLCs to an existing plant SCADA system using fiber optics as communication media.

→ Electrical engineer for the City of Roseville, California, Reclaimed Water Pump Station and Reservoir. Responsible for design of the electrical, instrumentation, and PLC system. The project included design and layout of PLC cabinet and radio communication system to the existing plant SCADA system. The pump station and reservoir served to mitigate the flow of water between the City's south pressure zone, Dry Creek and Pleasant Grove Wastewater Treatment Plants, and north pressure zone.

→ Electrical engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project Flow Equalization Project (FEQ). The \$130-million FEQ will provide 110 MG of additional storage capacity and includes roller-compacted concrete lined basins, spillways and interconnections structures, 84-inch final effluent distribution pipeline, underdrain pump station, and basin washdown system with manual and automated water cannons for washdown of over 60 acres of basin area.

Jamshid (JD) Dorafsha, PE

→ Electrical engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project Nitrifying Sidestream Treatment Project (NST). This \$50 million project will use nitrifying sequencing batch reactors to reduce ammonia in the solids treatment system supernatant necessary to meet interim permit conditions. It will also produce nitrate-rich effluent for odor control. NST includes influent and effluent pumping and lime addition.

→ Project engineer for the Clean Water Services, Oregon, PPS-1 Odor Control System Relocation, which included an evaluation of the power distribution system as part of the Electrical Master Plan. The project involved replacement of 15kV switchgear PPS-1, 15kV switchgear 1 OOSWGR-1A/1B, and 480V switchboard SWBD-4, as well as relocation of transformers TU-3 and TU-4, duct-bank construction, and demolition of existing electrical gear.

→ Electrical distribution and control design for medium voltage (MV), 5kV, 900-hp motors for complete rehabilitation and upgrade of the East Bay Municipal Utility District's new No. 2 Pump Station in Danville, California. Design included demolition of existing MV switches and gears and rerouting of PG&E's 21kV power source for feeding the new pump station. Also designed the security system for the pump station and generator building.

→ Electrical design lead for preliminary design of the City of Oak Harbor, Washington, Wastewater Treatment Plant. Participated in a preliminary design CAMP® and prepared 30% electrical, instrumentation, and control drawings for the preliminary treatment system, aeration/equalization basin, membrane system, UV disinfection/effluent equalization, solids handling, chemical system, odor control, administration building, electrical building, and standby generator for the Dawson Creek Pump Station.

→ Electrical engineer for the City of Livermore, California, Fuel Cell Cogeneration and 1500kW Standby Generator. The project involved an assessment of the existing electrical distribution system and equipment, including a plant-wide short circuit analysis

using SKM PowerTools®. As a result of this study, Carollo prepared drawings and procurement specifications to replace the existing single-ended 480V substation with a 21kV, 480V unit substation transformer and double-ended main-tie-tie-main 480V switchgear. Carollo then connected the fuel cell cogeneration units to the plant's electrical system.

→ Electrical engineer for design of the electrical distribution system for four new water pump stations for the South San Joaquin Irrigation District, California. Two pump stations were for the City of Manteca, one for the City of Lathrop, and one for the City of Tracy. Design included adjustable frequency drive motors with a range between 150 hp for Manteca and 400 hp for Tracy. Tracy's electrical system also included a permanent standby generator with an automatic transfer switch.

→ Project engineer for the City of Martinez, California, Electrical Power Distribution Upgrades. The project included replacement of the PG&E main service transformer, plant switchgear, four motor control centers, and associated lower voltage site transformers, as well as connection of feeder conductors and conduit for all replaced electrical components and downstream connected loads. The project also involved implementation of a load-shedding scheme for the facility; complex sequencing and ongoing coordination with the City, PG&E, and the contractor to reduce facility downtime during service transformer replacement; and continued coordination with the City's system integration team.

→ Electrical engineer for the West County Wastewater District, California, Electrical Replacement. Designed the replacement and relocation of an existing 480V switchgear lineup serving the majority of the plant's motor control centers. Developed a detailed construction sequencing plan designed to minimize the disruption to plant operations, and contributed to a plan for replacing the majority of the plant's motor control centers.

Christopher A. Heger, PE

Chris Heger joined Carollo in 2008, gaining experience in construction management and electrical and instrumentation design for both water and wastewater treatment facilities. Chris has experience in medium voltage and low voltage design, including development of conduit plans, design of power generation systems and automatic controls, P&ID development, and experience on many water and wastewater projects.

Relevant Experience

→ Lead electrical and instrumentation engineer and project engineer for the City of Oklahoma City, Oklahoma Draper Water Treatment Plant Electrical Distribution System Upgrades. The existing plant distribution was designed around a radial feed. The project replaced the existing electrical system with a loop feed that is capable of supporting future processes and plant capacity expansions in the future. The design documents included, one-lines, elevations, detailed conduit plans, P&IDs, network drawings, and site duct bank routing with profiles.

→ Lead electrical engineer for South Platte Renew, Colorado, Electrical Replacement project. The project included the replacement of two low voltage automatic transfer switchgear and the replacement on of one low voltage automatic transfer switchboard. Design documentation included specifications, one-lines, conduit and duct bank routing, sequencing plan, digital network drawings, schematics, and control descriptions.

→ Lead electrical and instrumentation engineer for the City of Greeley, Colorado, Wastewater Treatment Plant, Regulation 85 Improvements project. The project includes a new south secondary electrical building, VFD starters for new process pumps, and full automated control of upgraded aeration basins. Design documentation included specifications, one-lines, detailed conduit and duct bank routing, and sequencing plan.

→ Electrical lead for the City of Aurora, Colorado, Wemlinger Water Purification Facility Electrical and Communications Improvements. Carollo was selected for this design-bid-build project, which included \$21.3 million of improvements to the existing 80-mgd Wemlinger WPF. A significant element of the project involved modifying structures

to accommodate a new generator. This project included replacement of existing 12.47 kV service entrance gear with new 12.47 kV service entrance automatic transfer switchgear with standby diesel generators to provide back-up power to the entire facility. The Carollo team developed layouts and sequences to help transfer loads between the existing service entrance switchgear and the new service entrance switchgear, avoiding extended service interruptions and reliance on temporary diesel generators for extended periods of time.

→ Electrical engineer for the Colorado Springs Utilities, Colorado, Southern Delivery Project. The design project for the new 50-mgd Water Treatment Facility included a medium voltage loop feed distribution system, with two standby generators, and a finished water pump station containing four 700-hp pumps, two 400-hp pumps, and two 150-hp pumps. Three low voltage, arc flash rated switchgears were utilized for distribution and all circuit breakers, power monitoring, and motor starters were networked using Devicenet and Ethernet TCP/IP. The processes utilized in the treatment facility include flocculation, sedimentation, filters, chemical addition, and ozone injection. The design documents included one-lines, elevations, conduit development plans, cable tray routing plans, security and fire alarm plans, and site duct bank routing.

→ Electrical engineer for the Santa Fe Irrigation District, Rancho Santa Fe, California, R.E. Badger Water Filtration Plant Electrical Distribution System Replacement project. The project includes replacement of the 12 kV service entrance equipment, 4.16 kV switchgear with hydroelectric generator synchronizing equipment, low voltage emergency generator, low voltage distribution switchgear, 7 MCCs, and all lighting/distribution panels. As part of the replacement of the MCCs, the existing controls and power

Christopher A. Heger, PE

cables were re-used, which required significant coordination between Carollo, the contractor, and the manufacturer of the MCCs. Installation of the new switchgear also required the construction of a new electrical building where an isolated control room was provided to remove the staff from arc flash hazards.

→ QA/QC for the Oklahoma City, Oklahoma, North Canadian WWTP Master Plan and Improvements project. The project includes the design of a system-wide 12.47 kV electrical loop system, site-wide fiber optic system upgrades, and multiple improvements to rehabilitate critical electrical equipment (medium voltage switchgear, low voltage switchgear, MCC's, panels, etc.) at the site. The project includes improvements to the City's 12.47 kV and 4.16 kV generation systems to establish improved generator backup capabilities in the system, while providing a master plan for additional future power backup to establish increased redundancy and reliability system-wide.

→ Lead electrical engineer for the City of Grand Junction, Colorado, Master Plan and Electrical System Study. The project included a field investigation, master plan report with recommended improvements and associated cost estimates, load study, shock hazard analysis, arc flash hazard analysis, and protective device coordination studies for the City's Persigo Wastewater Treatment Plant. The plant includes dual Utility power to a loop fed medium voltage distribution system with local low voltage distribution at each process facility.

→ Electrical engineer for the City of Aurora, Colorado, Electrical System Study. The project included a field investigation as well as a load study, shock hazard analysis, arc flash hazard analysis, and protective device coordination studies for 33 of their pumping and distribution facilities. The facilities range from single pump installations up to eight 800-hp medium voltage pumps.

→ Electrical engineer for the Los Angeles Department of Water and Power, California, Electrical System Study for the Los Angeles Aqueduct Water Filtration Plant. The project included the full field investigation as well as

a load study, shock hazard analysis, arc flash hazard analysis, and protective device coordination studies for the 650-mgd Water Plant. The electrical system includes redundant service transformers to their medium voltage distribution switchgear, and 12-unit substations for their low voltage distribution.

→ Electrical engineer and project engineer for the City of Oklahoma City, Oklahoma, Electrical System Study. The project included a field investigation as well as a load study, shock hazard analysis, arc flash hazard analysis, and protective device coordination studies for 8 treatment facilities, and over 60 remote facilities in their pumping and distribution system. The facilities range from single pump installations up to 10 >1,000-hp medium voltage pumps.

→ Construction management services during construction for the Colorado Springs Utilities, Colorado, Edward W. Bailey Southern Delivery System (SDS) project. The design project for the new 50-mgd water treatment facility included a medium voltage loop feed distribution system, with two standby generators, and a finished water pump station containing four 700-hp pumps, two 400-hp pumps, and two 150-hp pumps. Three low voltage, arc flash rated switchgears were utilized for distribution and all circuit breakers, power monitoring, and motor starters were networked using Devicenet and Ethernet TCP/IP. The processes utilized in the treatment facility include flocculation, sedimentation, filters, chemical addition, and ozone injection. Construction responsibilities included submittal reviews, design changes, site inspections, and as-built drawings.

→ QA/QC for the City of Oklahoma City, Oklahoma, Hefner Water Treatment Plant Electrical Loop Improvements. The project consists of adding a medium voltage electrical service to the plant and interconnecting the electrical loop system to achieve enhanced redundancy and reliability. Finally, the project includes master planning for a future substation, permanent generator system, and future essential electrical equipment upgrades.

Erik M. Bahneman, PE

Erik Bahneman is experienced in the design of electrical, instrumentation, and control systems for water and wastewater projects, including switchgear, motor controls, instrumentation, and supervisory control and data acquisition (SCADA) systems. His experience includes the coordination of electrical work with civil, structural, and mechanical work, during both the design and construction phases of a project.

Education

BS Electrical and Electronic Engineering, California State University, Sacramento, 2008

Licenses

Electrical Engineer, California

Institute of Electrical and Electronic Engineers

Relevant Experience

→ Electrical and instrumentation engineer for the South Tahoe Public Utility (STPUD) Tahoe Keys and Upper Truckee Pump Stations Replacement. Carollo designed the new pump station wet well, submersible pump installation, and seismic retrofits and developed a construction sequencing plan that minimized the amount of time required for bypass pumping.

→ Instrumentation engineer for the Placer County Sewer Maintenance District, California, Wastewater Treatment Plant Upgrade and Expansion. Designed instrumentation upgrades for most of the plant facility, including new facilities for biological removal of nutrients and a new ultraviolet disinfection system. Authored specifications including complete, detailed control strategies for plant processes, and wrote addendums for electrical specifications.

→ Electrical engineer for the West County Wastewater, California, Carriage Hills, D'Avila, La Honda, and Tara Hills Lift Stations Upgrades. Various improvements at each lift station included upgrades to electrical system including service modifications, new standby generators, sequencing evaluations, hazardous area evaluations, ventilation, pump and variable frequency drive replacement, new electrical gear replacement, site security communication system, and instrumentation.

→ Electrical engineer for the Sacramento Area Sewer District, California, Sailor Bar Pump Station Rehabilitation. The project involved replacement of a wet-pit/dry-pit wastewater pump station with a new submersible station. A configuration of two separate wet wells and four pumps was selected to increase redundancy in an environmentally sensitive location. Other challenges included liquefiable soils, high turn-down ratios between average and peak

flows, dual force mains, transient surge protection, location in the 100-year floodplain, and construction sequencing to limit bypass pumping requirements.

→ Electrical and instrumentation engineer for the City of Arcata, California Arcata Wastewater Treatment Plant Improvements Final Design, Phase I. The project consisted of the final design for replacement and new treatment processes including headworks, pond improvements, wetlands improvements, pump stations, a new oxidation ditch and secondary clarifiers for nutrient removal, and a new UV disinfections step.

→ Lead electrical and instrumentation engineer for the City of Woodland, California, Well Replacement. Designed the power distribution system, motor control center, and process controls for the new well site. Worked with the City to integrate site particulars with existing city standards. Coordinated new service connections with PG&E.

→ Lead electrical engineer for the Sacramento Regional County Sanitation District (Regional San), California, N19 Arden Pump Station Wet Well Assessment and Remediation. In order to help Regional San maintain this valuable asset and restore its working life to an acceptable level, Carollo thoroughly assessed the condition and structural integrity of the wet well structure and its components during this initial project.

→ Lead electrical engineer for the City of Menlo Park, California, Sharon Heights Pump Station Replacement. The project entailed replacing a 50-year old pump station that is the only source of water for the Sharon Heights area of Menlo Park. As such, the pump station could not be removed from service, and its site was severely constrained being surrounded by multi-million dollar homes. The project entailed coordination with the local community to build consent for the appearance of the new pump station. The design of the new pump

Erik M. Bahneman, P E

station includes extensive sound control measures, and the construction of a temporary pump station to maintain service while the new pump station is being built.

→ Electrical engineer for the Santa Clara Valley Water District, California, Penitencia Delivery Main and Force Main Seismic Retrofit. The project involved replacement of existing 60-inch, 66-inch, and 72-inch diameter pipelines with new steel and earthquake resistant ductile iron pipe material

→ Lead electrical engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project \$400 million Tertiary Treatment Facilities Project (TTF). TTF will provide filtration and disinfection of secondary effluent to a level equivalent to Title 22 requirements for tertiary disinfected recycled water for unrestricted reuse. TTF includes a 330-mgd filter influent pump station, 217 mgd of granular media filters, backwash equalization and treatment, chemical feed systems, covered disinfection contact basin, three electrical substations, and a new area control center.

→ Electrical engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project \$130 million Flow Equalization Project (FEQ). FEQ will provide an additional 110 MG of storage capacity for the facility. Additional features include roller-compacted concrete lined basins, spillways and interconnections structures, an 84-inch diameter final effluent distribution pipeline, underdrain pump station, and a basin washdown system. The washdown system consists of manual and automated water cannons for efficient washdown of 60 acres of basin area.

→ Lead electrical engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project \$50 million Nitrifying Sidestream Treatment Project (NST). NST will use nitrifying sequencing batch reactors to reduce ammonia in the solids treatment system supernatant necessary to meet interim permit conditions. It will also produce nitrate-rich effluent for odor control. NST includes influent and effluent pumping and lime addition. The project was accelerated to save \$1.1 million per year in avoided sodium hypochlorite costs.

→ Electrical engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project Return Activated Sludge Pumping Project (RAS). To meet new 2010 requirements for the State of California, the District implemented the \$2 billion EchoWater Program. Carollo designed the \$28.8 million RAS Project that replaced 48 activated sludge pumps (210 mgd of total capacity), designed to deliver the higher flow and head conditions required by the new biological nutrient removal process. The project also included above-ground piping, valves, and flow meter replacement; pump cans and underground piping replacement; and mixed liquor channel improvements. RAS received the 2020 Project of the Year Award from the Sacramento Chapter of the American Public Works Association in the Environmental category.

→ Lead electrical engineer for the West County Wastewater District, California, Electrical Replacement. Designed the replacement and relocation of an existing 480V switchgear lineup serving the majority of the plant's motor control centers. Developed a detailed construction sequencing plan designed to minimize the disruption to plant operations, and contributed to a plan for replacing the majority of the plant's motor control centers.

→ Lead electrical engineer for the Napa Sanitation District, California, Phase I Recycled Water Expansion. Designed the power distribution systems, motor controls for a secondary effluent pump station, pond pump station, chlorine contact basin modifications, new dissolved air floatation clarifier with support facilities, two new filters, and filter facilities expansion.

→ Lead electrical and instrumentation engineer for the City of South San Francisco, California, Water Quality Control Plant Capital Improvements. Designed power distribution systems, motor controls, a fiber optic communications network, and PLC-based process automation systems for a new secondary clarifier, return activated sludge pumps, storm water pump stations, and gates at three flow splitting structures.

Daniel S. Robinson, PE

Daniel Robinson has 24 years of electrical and control systems experience in the water and wastewater industry. His experience includes supervising engineering teams, training new engineers, and developing engineering standards. Along with proficiency in AutoCAD Electric, Excel, Access, and SharePoint, Mr. Robinson's engineering skills include 480VAC electrical distribution systems; variable frequency drives (VFDs), reduced voltage soft starter (RVSS), and full-voltage (FV) motor control design; programmable logic controller (PLC) and industrial control panel design; control system architecture; serial, Ethernet, and radio communication; process instrumentation requirements; water/wastewater treatment processes; project management; UL, NEC, NEMA, and NFPA 70E requirements; and relay and ladder logic.

Mr. Robinson's primary responsibilities have included review of contractor plans and specifications and development of equipment packages to meet requirements; negotiation of changes, schedules, and equipment with customers, vendors, and end users; design of switchgear, motor control centers (MCCs), PLC panels, and instrumentation, control, and communication systems; creation of interconnection diagrams for power and control wiring between project equipment; creations of input/output (I/O) lists, loop diagrams, training documents, and factory and field test documentation; and development of control system descriptions, operations and maintenance (O&M) manuals, and load, thermal, and sizing calculations.

Mr. Robinson managed a design team to create, implement, and train an entire engineering department for transitioning to an electronic submittal process. He has been responsible for hundreds of projects as an engineering manager/supervisor.

Relevant Experience

→ Instrumentation and controls engineer for the City of Roseville, California, Dry Creek Wastewater Treatment Plant MCC and Switchgear Replacement Design-Build project. The project includes replacement of five motor control centers and one switchgear at the City's Dry Creek Wastewater Treatment Plant. Carollo is providing design and engineering services during construction to the lead design-builder, Auburn Constructors.

→ Instrumentation and controls engineer (I&C) for the City of Roseville, California, Aquifer Storage and Recovery (ASR) Wells. The project involves design, permitting, and construction of six new ASR wells injecting treated water from Folsom Lake. The goal of the project is to provide water supply resiliency during times of drought when the Folsom Lake supply may not provide the desired reliability. Assisted the lead I&C engineer with the initial phase of the I&C design, attended local meetings, attended the factory testing, and assisted with responses to requests for information and submittal review.

→ Instrumentation and controls engineer (I&C) for the City of Roseville, California, Pleasant Grove Wastewater Treatment Plant UV Replacement. The project included evaluation of UV alternatives, CFD modeling, design, engineering services during construction, start up and commissioning, and regulatory support and permit modifications for Title 22 recycled water production and wet weather discharge to surface water. Responsible for assisting the lead I&C engineer with the initial phase of the I&C design, attending local meetings, and site inspection.

→ Instrumentation and controls engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project Nitrifying Sidestream Treatment Project (NST). NST uses sequencing batch reactors to treat high ammonia loads being returned to the Sacramento Regional Wastewater Treatment Plant from the solids storage basins. The high nitrate NST effluent will then be used for odor control in the influent interceptor to offset the cost of sodium hypochlorite. The project includes influent and effluent pumping, sequencing batch reactors, effluent flow equalization, lime feed for

Daniel S. Robinson, PE

alkalinity control, aeration blowers, and associated electrical and instrumentation systems. NST must interface with several other EchoWater projects, including Site Preparation, Flow Equalization, Disinfection Chemical Storage, and Biological Nutrient Removal/Primary Effluent Pump Station.

→ Instrumentation and controls engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project Tertiary Treatment Facilities Project (TTF). TTF will provide filtration and disinfection of secondary effluent to a level equivalent to Title 22 requirements for tertiary disinfected recycled water for unrestricted reuse. Tertiary facilities include a 330-mgd filter influent pump station, 217 mgd of granular media filters, backwash equalization and treatment, chemical feed systems, covered disinfection contact basin, and new area control center.

→ Instrumentation and controls engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project Flow Equalization Project (FEQ). The \$158 million FEQ involves increasing the storage capacity of the existing emergency storage basins (ESBs) by 110 MG, lining the ESBs with roller compacted concrete, and installing new 84-inch-diameter basin interconnection piping, basin washdown system with an 8,000 gpm pump station and washdown monitors, and basin underdrain system and associated pump station to protect the liner from groundwater uplift.

→ Instrumentation and controls engineer for the Clean Water Services, Oregon, Rock Creek Advanced Wastewater Treatment Facility Centrifuge Replacement Final Design. This project finalizes the design and provides bidding and permitting services for the installation of the two new centrifuges as well as improvements to the odor control system. The design included replacement of existing belt filter presses with dewatering centrifuges. Included voluntary seismic retrofit of the solids handling building to keep operators safe.

→ Electrical and instrumentation engineer for the Clear Water Services, Oregon, Hillsboro and Forest Grove Wastewater

Treatment Plant UV Disinfection Systems Upgrades. Carollo provided engineering services to replace the District's aging medium pressure UV disinfection system. Ultra-high intensity low pressure lamps were selected to maintain a small number of lamps and small footprint while dramatically improving energy efficiency and performance. The Calgon Carbon C3500D system was selected through a competitively evaluated bid process.

→ Instrumentation and controls engineer for the City of Livermore, California, Primary and Secondary Treatment Improvements. Design and construction services for replacement of various older existing power distribution components such as MCCs, panelboards, lighting transformer transformers, controls panels, and instrumentation. This project also included major upgrade to power, control and communication circuits across the plant.

→ Electrical/instrumentation engineer for the City of Martinez, California, 2014 Electrical Power Distribution Upgrades. This project includes replacement of major electrical distribution equipment, including PG&E main service transformer and associated service conductors on the transformer secondary, main switchboard, four in-plant MCCs and associated feeder conductors and conduit, 100-kVA transformer, and feeder conductors and conduit between the main switchboard and downstream MCCs and equipment. The project also includes implementation of a load-shedding scheme and complex sequencing to reduce facility downtime and ongoing City, PG&E, and contractor coordination.

→ Instrumentation and controls engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project Return Activated Sludge Pumping Project (RAS). This \$32 million project will replace existing RAS pumps with new pumps designed to deliver the higher flow and head conditions required by the new BNR process. The RAS pumping system will have a capacity of over 200 mgd and includes 48 pumps located at 24 secondary sedimentation tanks.

Ryan A. Hook, PE

Ryan Hook has more than 21 years of civil engineering work experience, including planning, design, and construction of wastewater treatment facilities, wastewater pump stations and pipelines, potable water pump stations and pipelines, structural design of buildings, and soil percolation testing for septic systems.

Relevant Experience

→ Construction manager for the City of Roseville, California, Pleasant Grove Wastewater Treatment Plant Design Assist Aeration Improvements. The project consisted of installing new 30-HP and 75-HP aerators to the existing oxidation ditches. Additional improvements included a new charging station for the City's electric vehicles, new jockey pump and automatic strainer for the Recycled Water system, two new electrical buildings to accommodate the increased electrical draw from the new aerators, new submersible pumps for the emergency storage basins, new treadplate covers over various process areas, and miscellaneous paving, grading, piping, and site electrical improvements to accommodate the new changes. Construction management duties included part-time field inspection, review of pay requests and proposed contract changes, coordination between the City, contractor, and Carollo design staff, and leading weekly meetings.

→ Project manager for the West County Wastewater, California, Carriage Hills, D'Avila, La Honda, and Tara Hills Lift Station Upgrades. Various improvements at each lift station included pump replacement, wet well concrete rehabilitation, evaluation of bypass capabilities, pump hoist systems, new standby generators, electrical system upgrades, ventilation, site security communication system, and instrumentation.

→ Project engineer for the City of Folsom, California, Zone 2 and Zone 3 Cimmaron Pump Station Improvements. The project included replacing three vertical turbine pumps, installing four new pumps, installing new cement mortar-lined steel pipe up to 36 inches in diameter, installing two new surge tanks, and making modifications to two steel tank reservoirs. Designed and developed plans, specifications, and cost estimates for the civil and mechanical aspects of the project. Also responsible for

coordinating work between the civil, mechanical, and electrical engineering disciplines. Performed civil and mechanical submittal review and answered requests for information during construction. Attended meetings with the City, construction manager, and contractor to expedite solutions to issues that arose during construction.

→ Lead civil engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project Nitrifying Sidestream Treatment Project (NST). NST uses sequencing batch reactors to treat high ammonia loads being returned to the Sacramento Regional Wastewater Treatment Plant from the solids storage basins. The high nitrate NST effluent will then be used for odor control in the influent interceptor to offset the cost of sodium hypochlorite. The project includes influent and effluent pumping, sequencing batch reactors, effluent flow equalization, lime feed for alkalinity control, aeration blowers, and associated electrical and instrumentation systems.

→ Design engineer for preliminary design of the Sausalito-Marín City Sanitary District, California, Pump Station Reliability Improvements. The project increases the firm capacity of the District's Main Street Pump Station to accommodate anticipated peak wet weather flows by addition of a portable, 400 horsepower, diesel driven, standby pump and replaces two existing 250-horsepower, motor-driven pumps with new equipment. The project also improves the reliability of three other collection system pump stations by providing connections for portable standby pumps. Responsibilities included developing the predesign concepts to improve the reliability of the three collection system pump stations.

→ Project engineer for pump station preliminary design for the City of Modesto, California, River Trunk Realignment, Beard Brook Siphon and Cannery Segregation Line (CSL) Improvements. The City's wastewater

Ryan A. Hook, PE

collection and treatment system is divided into two separate systems: the domestic water system and the segregated cannery process water system. The main objectives of the project are to address capacity and structural deficiencies in the Sutter and River Trunk systems, as well as capacity and operations and maintenance (O&M) issues associated with the Beard Brook Siphon. During conceptual development, additional objectives were identified: address CSL peak flow limitations, improve River Trunk O&M access, and mitigate vulnerability of river washout. Eight pipeline reaches were evaluated and designed to address the main objectives of project. New 54- to 84-inch-diameter sewers in excess of 30 feet deep were evaluated to relocate the River Trunk sewer out of the Tuolumne River floodplain. In addition to the gravity sewer relocation, a new 54.5-mgd pump station approximately 80 feet deep was designed.

→ Design engineer for Santa Cruz County Sanitation District, California, Noble Gulch Trunkline Relocation Project. As part of an On-call Sewer Improvements contract, the project included the relocation of an existing trunk line following Noble Gulch into nearby roads to reduce environmental impacts and improve accessibility. The project included upsizing 6,600 feet of gravity pilot tube auger boring and CIPP. The existing trunk sewer was upsized from 12 to 15 inches to eliminate capacity constraints. Responsibilities included developing plans to achieve the desired slope of the sewer and layout of the boring pits.

→ Project engineer for the Nevada Irrigation District, California, Elizabeth George/Loma Rica Intertie Pump Station. The project included construction of a new 2.6-mgd booster pump station to pump potable water during high demand periods between the District's two water treatment plants' finished water storage tanks thereby increasing the treatment plant capacity. Project elements included three vertical turbine pumps, propane standby generator, and concrete masonry unit building to protect the pumps and generator. Responsible for pump selection, pump station layout design,

coordination with other disciplines and sub-consultants, and project meetings.

→ Design engineer for the Sacramento Regional County Sanitation District, California, EchoWater Project Return Activated Sludge Pumping Project (RAS). Assisted with development of project sequencing for the \$32 million RAS, which replaces existing return activated sludge pumps with new pumps designed to deliver the higher flow and head conditions required by the new biological nutrient removal (BNR) process. RAS will have a capacity of more than 200 mgd and includes 48 pumps located at 24 secondary sedimentation tanks. Preliminary design included an in-depth implementation plan to allow construction of improvements while minimizing the impact on the operation of the existing plant, as well as a completion schedule to allow timely commissioning of the new BNR facility.

→ Civil engineering discipline technical advisor for the Sacramento Regional County Sanitation District, California, EchoWater Project Flow Equalization Project (FEQ). The \$130 million FEQ will provide an additional 110 MG of storage capacity for the Sacramento Regional Wastewater Treatment Plant. Additional features include roller-compacted concrete lined basins, spillways and interconnections structures, 84-inch-diameter final effluent distribution pipeline, underdrain pump station, and basin washdown system. The washdown system consists of manual and automated water cannons for efficient washdown of the over 60 acres of basin area.

→ Project engineer for the El Dorado Irrigation District, California, El Dorado Hills Wastewater Treatment Plant Phase III Expansion, which increased the capacity of the treatment plant to 8.4 mgd. The project consisted of numerous modifications and additions to the existing treatment facility, including adding two biological nutrient removal basins and two aeration basins. Responsible for the biological nutrient removal and aeration basin designs. Assigned tasks to subordinate engineers and drafters and coordinated work with other consultants and subconsultants.

Marissa J. Petty, PE

Marissa Petty has 16 years of experience in electrical and instrumentation design and construction management of water and wastewater treatment facilities. Her electrical experience includes power distribution, lighting, motor controls, grounding, and electrical system studies. Marissa's instrumentation experience includes the development of process and instrumentation diagrams (P&IDs). She is also experienced in the coordination of electrical and instrumentation work with civil, structural, and mechanical work during design and construction. Marissa specializes in the replacement of existing electrical equipment, construction sequencing, and master planning.

Relevant Experience

→ Electrical design engineer for the Upper Blue Sanitation District, Breckenridge, Colorado – Farmers Korner North Plant. The expansion of this wastewater treatment plant included upgrading the existing headworks, and the addition of aeration basins, secondary clarification, filters, chemical feed system, and high-rate flocculation and sedimentation. Design responsibilities included electrical distribution, lighting design, motor controls, and grounding. ESDC were also performed including submittal reviews, design changes, and as-built drawings.

→ Electrical and instrumentation design engineer for San Joaquin County, California – Two Distribution Pump Stations for the Mountain House Wastewater Treatment Plant. The project included the electrical distribution, standby generation system, and instrumentation and control design for two remote wastewater pump stations being added to the Mountain House wastewater distribution system.

→ Lead EI&C field engineer for the Metro Wastewater Reclamation District, Denver, Colorado – PAR 1085 South Secondary Improvements. Responsibilities included oversight of all EI&C submittal reviews, response to request for information, design changes, and as-built drawings. Other responsibilities included development of startup and testing plans for electrical and instrumentation; coordination of Owner performed work, assisting with troubleshooting of protective relays; electrical system training; and oversight of electrical and instrumentation inspections. Electrical equipment included medium voltage switchgear, low voltage Switchgear, substation transformers, MCCs with smart overloads, RVSS, and VFDs.

→ Project manager for the Albuquerque Bernalillo County Water Utility Authority (ABCWUA), New Mexico – Multiple Electrical Projects at Southside Wastewater Reclamation Plant. The projects include multiple medium voltage loop improvements, including MCC and SWGR Replacement, Re-use Building Loop 3 Power Design and the Loop A & B project, as well as the Electrical Master Plan and the Electrical System Reliability Studies. The projects will provide increased maintainability, safety, reliability, code compliance, and replacement of aging equipment that is strategically sequenced to target the most critical projects and also to confirm all new installation complies with the Water Authority's standards.

→ Lead EI&C design engineer for the City of Oklahoma City – WT-0108 Low Lift Pump Station Improvements at the Hefner WTP. The project included preliminary study, final design, and construction. Study included evaluating medium voltage loop, condition assessment, construction sequencing, and pre-design for the new Low Lift Pump Station including two new PLC cabinets. Final design elements included preparation of detailed drawings and specifications. Construction included oversight of all EI&C submittal reviews, response to RFI, design changes, and as-built drawings.

→ Project manager for the Metro Wastewater Reclamation District, Denver, Colorado – PAR 1247 Electrical Transformer Replacement Project. This project included the replacement of two 4.16 kV to 13.2 kV substation transformers with low resistance and zig-zag transformer grounding, two 13.2 kV to 480 V substation transformers with high resistance grounding, and a 480 V load center. The design included extensive

Marissa J. Petty, PE

sequencing, construction of temporary facilities, schedule coordination, and liquidated damages.

→ Project engineer for the City of Riverside, California – Switchgear Assessment Study. The project included switchgear assessment to evaluate condition and prioritize replacement to provide flexibility for future plant expansion. The project evaluated automatic transfer to generator issues and utilized technicians to repair the non-functioning critical system. The project was also expanded to master plan upgrades to the 15 kV underground electrical distribution system.

→ Electrical engineer for the City of Peoria, Arizona – Beardsley WRF Expansion Project. The capacity of the Beardsley Road WRF was increased from 4 to 6 mgd. The project elements included upgrades to headworks, grit removal, aeration basins, blowers, filtration, disinfection, and odor control systems. The design also added new secondary clarifiers, RAS/ WAS pumping, upgrades to new UV disinfection equipment, and added a new reclaimed water pump station serving offsite reuse customers. In addition to electrical upgrades associated with the process improvements, the electrical distribution system nearing capacity was expanded, upgraded, and master planned to accommodate future expansion and allow equipment reaching end of useful life to be replaced.

→ Electrical engineer for the American Valley Community Services District, Quincy, California, American Valley WWTP Improvements. Project included the addition of new headworks, AerMod system, blower building, and dewatering building. New electrical equipment includes substation transformers, outdoor generator, automatic transfer switchgear, motor control centers, and low voltage electrical distribution for each building.

→ Electrical engineer for the City of Mesa, Arizona – Greenfield Water Reclamation Plant Phase III Expansion. Carollo was retained to provide engineering services during construction. Responsibilities include oversight of all EI&C submittal reviews, response to request for information, design

changes, and as-built drawings. Other responsibilities include ensuring Owner standards are being followed by the Contractor.

→ Project manager for the Clifton Water District, Colorado – Arc Flash Study. The project included electrical system studies, including short circuit, coordination, and arc flash. Field investigation was performed to document all electrical equipment, cable sizes, code issues, and equipment conditions issues. Additionally, a computer model, report, and pictorial one-line were created, along with conducting arc flash training.

→ Lead EI&C engineer for the City of Sedona, Arizona – Wastewater Collection System Improvements Design. Project included design of two lift stations including radio communication, utility coordination, motor control, standby generators, portable generator connections, and instrumentation. In addition, detailed sequencing was developed to maintain the lift stations throughout construction.

→ Lead EI&C engineer for the Metro Wastewater Reclamation District, Denver, Colorado – PAR 1259 Digester Complex Rehabilitation Project. This work involved design and construction of digester modifications to improve system reliability, redundancy, and maintainability. Responsibilities included conduit routing and network design to add multiple motorized valves to the Digesters.

→ Lead EI&C engineer for the Metro Wastewater Reclamation District, Denver, Colorado – PAR 1225 South Headworks and Grease Processing Improvements. This project includes addition and modification of all south headworks components including screening, screening handling, grit removal and grit handling and replacement of the grease processing building. Responsibilities included lighting design, conduit routing, P&ID development, network design, and 480V power distribution, including substation transformers, a load center, MCCs, and unitized distribution substations.

Education

School of Mines, 2012

Jeffrey L. West

Jeffrey West joined Carollo in 2019 as an electrical engineer and has experience with water and wastewater projects. Prior to joining Carollo, he served as a project engineer, where he planned and executed capital improvement projects in the steel, food and beverage, and plastic manufacturing industries.

Wastewater Treatment

→ Electrical engineer for the City of Roseville, California, Dry Creek Wastewater Treatment Plant MCC and Switchgear Replacement Design-Build project. The project includes replacement of five motor control centers and one switchgear at the City's Dry Creek Wastewater Treatment Plant. Carollo is providing design and engineering services during construction to the lead design builder, Auburn Constructors.

→ Electrical engineer for the Orange County Sanitation District, California, P1-105 Headworks Rehabilitation and Plant 1 Expansion. This project will expand the capacity at Plant 1 from 280 mgd to 320 mgd. The project included comprehensive rehabilitation and expansion of influent flow metering and diversion, bar screens, screenings handling, influent pumping, grit handling, primary flow splitting and metering, odor scrubbers, and electrical buildings. Responsible for development of the 100 percent electrical design and specifications, as well as engineering services during construction.

→ Electrical engineer for the City of Meridian, Idaho, Side Stream Phosphorous Recovery project. The project involved the addition of a new building and phosphorus (struvite) recovery process. Responsible for development of the 100 percent electrical design and specifications, as well as engineering services during construction.

→ Electrical engineer for the Milwaukee Metropolitan Sewerage District, Wisconsin, S02015 Aeration Diffuser Replacement Project at the South Shore Water Reclamation Facility. The project will retrofit 28 aeration basins at the 300-mgd facility with a new aeration system. The project includes new diffusers, new droplegs, aeration control and valves, and selector

zones and baffle walls to improve the secondary process reliability at the facility. Responsible for development of the 100 percent electrical design and specifications, as well as engineering services during construction.

→ Electrical engineer for Clean Water Services, Washington, Forest Grove UV Replacement project. The project involved replacement of existing UV equipment with a new UV facility. Responsible for development of the 100 percent electrical design and specifications, as well as engineering services during construction.

→ Electrical engineer for the Veolia Water Critical Improvements Project at the City of Richmond, California, Wastewater Treatment Plant. The project consisted of major process upgrades, including a new screening/grit removal facility, aeration upgrades, and secondary clarifier replacement.

Water Treatment

→ Electrical engineer for the Collier County, Florida, Isle of Capri Surge Control System engineering services during construction. The project involved design and installation of a hydropneumatic surge control system located at the Isle of Capri Water Pump Station. Responsible for development of the 100 percent electrical design and specifications, as well as engineering services during construction.

→ Electrical engineer for the Collier County, Florida, North County Regional Water Treatment Plant Surge Control System engineering services during construction. The project involved design and installation of a hydropneumatic surge control system located at the North County Regional Water Treatment Plant. Responsible for development of the 100 percent electrical design and specifications, as well

Awards

Other Accomplishments

Jeffrey L. West

as engineering services during construction.

→ Electrical engineer for the Alameda County Flood Control and Water Conservation District, California, Mocho Groundwater Demineralization Plant Concentrate Conditioning System. The project included replacement of the critical reverse osmosis concentrate pumps and construction of a new sulfuric acid chemical building. Responsible for development of the 100 percent electrical design and specifications, as well as engineering services during construction.

→ Electrical engineer for the Centennial Water and Sanitation District, Colorado, Joseph Blake Water Treatment Plant Phase 1A Improvements. The project involved replacement of all rapid mix, flocculation, and sedimentation equipment and installation of a new chemical storage and feed facility for the 40-mgd plant. Responsible for development of the 100 percent electrical design and specifications, as well as engineering services during construction.

→ Electrical engineer for the Centennial Water and Sanitation District, Colorado, Joseph Blake Water Treatment Plant Phase 1B Improvements. The project involved construction of a new chemical building and replacement of the existing 480V main distribution and standby generation equipment. Responsible for development of the 100 percent electrical design and specifications, as well as engineering services during construction.

James A. Doering, PE, SE

James Doering, a registered structural and civil engineer, is Carollo's structural lead engineer in Southern California. He manages structural design and evaluations for large and small projects. He has 30 years of experience in structural analysis, design, seismic retrofit, rehabilitation, review, and assessment for a variety of structures, such as wastewater and water treatment facilities, pump stations, reservoirs, tanks, clarifiers, large pipe supports, retaining walls, operations and maintenance facilities, office buildings, parking structures, post tensioned concrete structures, retail shopping centers, and warehouses.

Relevant Experience

→ Structural engineer for the Rock Creek Wastewater Treatment Plant Centrifuge Replacement, Clean Water Services, Oregon. This project finalizes the design and provides bidding and permitting services for the installation of the two new centrifuges as well as improvements to the odor control system. The design included replacement of existing belt filter presses with dewatering centrifuges. Included was also an ASCE 41-17 seismic evaluation and voluntary retrofit of the multi-story solids handling building to keep operators safe. Retrofit items included addition of new steel braced frames, strengthening of gusset connections, and addition of column anchorage to the foundation.

→ Structural engineer for the City of Wilsonville, Oregon, Wastewater Treatment Facilities Plan 2020. A seismic evaluation using ASCE 41-17 for the buildings and ACI 350 for water-bearing structures was performed to assess whether facilities at the City's wastewater treatment plant are capable of meeting state of Oregon resiliency goals considering a M9.0 Cascadia Subduction Zone (CSZ) earthquake. Vulnerabilities and mitigation recommendations were summarized in a technical memorandum.

→ Lead structural engineer for the County of San Luis Obispo Los Osos Water Reclamation Facility. The project included a new 3-mgd wastewater treatment plant with headworks, oxidation ditch, secondary clarifiers, equalization pond, digester, solids handling, blower building, electrical building, and administrative/maintenance facilities. Challenges at the site included high seismicity and expansive soils.

→ Structural engineer for the City of Simi Valley, California, WQCP Electrical Motor

Control Center Replacement. This project replaced most of the 480-volt electrical distribution system including: the main service entrance switchboard, two lineups of fused disconnect distribution switchgear, one automatic transfer switch, and two motor control centers.

→ Structural engineer for the City of Tacoma, Washington, Electrical Distribution Design project. The design included replacing CTP's main 15 kV switchgear and re-powering the existing transformers and load centers from the new switchgear. The project adds more than 3,000 lineal feet of concrete encased reinforced duct bank, installs over 20 miles of MV electrical cables, constructs a 3,400 square foot building for storing and operating the new electrical equipment, and installs a new 15-kV switchgear with pad-mounted transformers.

→ Structural engineer for West Basin Municipal Water District, Pall Microfiltration Expansion at the Edward C. Little Water Recycling Facility in El Segundo, California. The project provides a 3 mgd capacity expansion. Structural work includes expansion of steel-framed canopies, pipe supports, and anchorage of critical equipment.

→ Structural engineer for the Veolia Water West Operating Services/City of Palm Springs, California, Wastewater Treatment Plant Upgrade. The project included a new 22 mgd capacity headworks with Parshall flume and influent pump station, two new 100-ft diameter primary clarifiers with FRP launders, a primary sludge pump station, an elevated sludge dewatering facility, odor control, replacement of the existing Digester No. 2 floating steel dome with a new fixed steel dome, and an electrical building.

→ Structural engineer for El Estero Wastewater Treatment Plant Digester Nos. 1 and 2 Rehabilitation for the City of Santa Barbara, California. The project included identification of cracks at the interior of the digesters requiring repairs/sealing and preparation of associated details and repair procedures. The interior concrete was also repaired and coated with a polyurethane spray-on liner.

→ Value engineering team member for the Phase III Wastewater Treatment Plant Expansion for the Victor Valley Water Reclamation Authority, Victorville, California. The project involved the design of a \$110-million expansion to the existing wastewater treatment plant. Facilities proposed included a membrane bioreactor (MBR) facility comprised of ultraviolet (UV) Disinfection and Membrane Trains with associated tankage and a maintenance/control building. The MBR facility was an outdoor facility with a saw-tooth shaped steel-framed canopy with overhead bridge cranes in three bays. Tasks included the development of value engineering proposals for the structural and architectural elements of the project.

→ Structural engineer for engineering services during construction for the \$192 million Headworks Replacement project for the 340-mgd Orange County Sanitation District Wastewater Treatment Plant No. 2 in Huntington Beach, California. The project included facilities for metering, bar screening, screenings handling, grit removal, grit handling, odor control, chemical handling, and power distribution. The project also included an elevated 84-inch welded steel pipe for temporary bypass to facilitate construction

→ Structural engineer for the Post Point Wastewater Treatment Plant Improvements for the City of Bellingham, Washington. The project included modifications to the existing primary effluent pump station to facilitate the flow of an elevated hydraulic grade line. The design includes two aeration basins, a 120-foot diameter secondary clarifier on auger-cast piles with a wagon wheel feature roof structure, a blower building, and retrofit of an existing high-purity oxygen basin.

→ Structural engineer for the J.B. Latham Wastewater Treatment Plant Digester No. 3 Upgrades for the South Orange County Wastewater Authority, California. The project included rebuilding of the interior concrete surface at the upper walls and bottom of the roof slab with shotcrete and the provision of a protective liner.

→ Structural engineer for the Phase II Wastewater Treatment Plant Expansion for the City of Santa Maria, California. Facility additions included a 145-foot diameter primary clarifier, trickling filter, anaerobic digester, digester control building, sludge drying beds, and a bar screen addition to the existing headworks.

→ Structural engineer for the La Salina Wastewater Treatment Plant Upgrades for the City of Oceanside, California. The project included rehabilitation and upgrades to the following facilities: headworks, primary clarifiers, aeration basin/secondary clarifier, digestion, dissolved air flotation thickener, and administration building.

→ Structural engineer for the 2007 Water Distribution System Assessment for the City of Garden Grove, California. Completed facilities assessments consisting of 18 sites, which included 10 wells, 5 reservoirs, and 5 pressure-reducing stations, along with associated pumping stations, mechanical, structural, and electrical systems.

→ Structural engineer for the City of Oceanside, California, San Luis Rey Water Reclamation Plant Expansion. The project included a flash mix pump station for chemical addition, chemical storage and pumping facility, and pump station design for process feed water, drainage pump stations, and plant water reuse pumps. A new electrical and controls building was designed to house the new electrical equipment and provide controls and monitoring to match and communicate with the existing SCADA system.

Michele E. Hollenbaugh, RA, LEED AP

Michele Hollenbaugh is a detail-oriented professional architect with 22 years of experience in the design, delivery, construction, and management of water and wastewater treatment plants. Her work experience includes renovation to existing construction, plant design, administration buildings, laboratories, maintenance buildings, operational buildings, pump stations, and tenant improvements. Ms. Hollenbaugh has extensive knowledge of the International Code Council's Publications, ADA, ASTM, ANSI, and NFPA standards. In addition, her experience encompasses working with federal, state, and local authorities having jurisdiction. She is skilled in developing detailed construction documents, drafting utilizing Autodesk and Bentley Suite products, producing specifications using Microsoft applications, and cost estimating. Ms. Hollenbaugh also possesses experience with construction methods and building materials utilized locally and nationally, and provided construction services through RFI's, RFA's, engineers clarifications, submittal review, punch list, on-site inspections, and as-built construction drawings.

Relevant Experience

→ Lead architect for the City of Richmond, California, Wastewater Treatment Plant (WWTP) Critical Improvements Project. This project features major process upgrades that improve the overall reliability and condition of the WWTP including plant-wide seismic evaluations. A project element the architectural team assisted with was the Blower Building with an electrical room design and construction.

→ Project architect for the Los Angeles County Sanitation District, California, Valencia Advanced Wastewater Treatment Facility (AWTF). Ms. Hollenbaugh assisted the team with the completion the design for a 7-mgd AWTF project to remove chloride from the Santa Clarita Valley Sanitation District's Valencia Water Reclamation Plant before it is discharged to the Santa Clarita River. The project is currently under construction includes a prefabricated metal building to house the ultraviolet disinfection, microfiltration, nanofiltration, electrical building, and a control room with a restroom.

→ Project architect for the San Francisco Public Utilities Commission, California, Treasure Island Recycled Water Plant Expansion. Carollo has been retained to address aging infrastructure, ensure regulatory compliance and to satisfy wastewater and recycled water needs for future development on the island. Development of the plant included new structures for process and electrical needs and included an Operations and Operations and Maintenance building for

the plant staff. The plans developed for these buildings will be provided as part of the bridging documents for the Design Build team. Additionally, we assist with the Civic Design Review portion of the project to align the look of the plant with the master plan for the islands redevelopment and industrial construction embraced by the review board.

→ Project architect for the City of Woodland, California, ASR Wells 29 & 30. This project involved design, coordination, and bid phase services for two building to house the ASR Wells, Wastewater lineup, sodium hypochlorite dosing system, and the generator at Well 30. Coordination of the disciplines included internal and external sub consultants. Review of the documents was completed by a third-party consultant and required additional coordination and revisions, RFI's, and RFA's, and assistance during the construction phase.

→ Project architect for the Elsinore Valley Municipal Water District, California, Regional Water Reclamation Facility Program Management project. The project included administration building rehabilitation (office, laboratory, staff breakroom, and storage room), site visits, review of existing drawings, and programming of new spaces with the issuance of contract documents. Michele also assisted with bid, submittal review and RFI's during construction.

→ Project architect for the City of San Diego, California, Assessment of the Alvarado and NTC Laboratory Complexes to manage

Michele E. Hollenbaugh, RA, LEED AP

a condition assessment for the City's laboratory complexes at their Alvarado and NTC facilities. Project included alternatives to improve the City's existing facilities. Alternatives included building expansions, reorganization of spaces and finish updates.

→ Project architect for the City of Logan, Utah, Wastewater Treatment Facilities. The purpose of this project was to provide wastewater treatment facilities capable of complying with EPA's environmental effluent standards for phosphorus and ammonia. The project involved design and construction administration services for a three-stage Bardenpho™ bio-reactor mechanical treatment facility. Project elements included: a headworks facility basin; influent pump station building; eight bio-reactor basins; eight secondary clarifier basins; solids return and waste pump station building; two solids holding tanks; tertiary filter building; solids dewatering building; odor control building; administration building housing office space, training rooms, laboratory, public area; and electrical building.

→ Project architect for the San Jacinto River Authority, Woodlands, Texas, Wastewater Treatment Facility No. 2 Disinfection System Improvements. This project was initiated due to operational and hydraulic limitations of the existing facility's ultraviolet (UV) disinfection system. The objectives of the project were to replace the UV system with a chlorine gas disinfection system including the associated mechanical, electrical, and SCADA improvements. The new facilities will comply with applicable building, fire, environmental codes and regulations, and will provide safe and secure facilities for the new disinfection storage feed system.

→ Project architect for the Delta Diablo Sanitation District, Antioch, California, Treatment Wide Color Scheme. This project involved repainting the exterior of Delta Diablo's major facilities and process structures at its wastewater treatment plant to provide a more modern and contemporary look. The aesthetically pleasing color schemes were incorporated into guidelines for future design improvement projects for these facilities and structures.

→ Project architect for the Snyderville Basin Water Reclamation District, Park City, Utah, Silver Creek Water Reclamation Facility Expansion. This project was the second facility constructed by the Snyderville Basin Water Reclamation District and was designed to complement the first plant's architectural design, including pitched asphalt shingled roofs, HVAC units internal to the spaces, concrete masonry unit construction, and interior finishes. Existing materials and design details were integrated with current building, fire, and energy conservation codes and included compliance with COMcheck. In addition, seismic requirements were an integral design consideration and had to be coordinated with compliance, as outlined in the energy conservation code. The design of these eight buildings was a team effort including the process design layouts working within these constraints, incorporating electrical, and HVAC with the new energy conservation code. Color renderings of the buildings were provided to the client as part of this process. Ms. Hollenbaugh provided assistance from the preliminary design phase through construction administration. During the project she worked with the Client Services Manager, Project Manager, Discipline Leads, and the Field Engineer to assist in the delivery of this project, which is currently under construction.

→ Project architect for the Jordan Valley Conservancy District, Utah, Jordan Valley Water Treatment Facility Filter and Chemical Feed Upgrades. To support growing peak day demands and enable treatment of a new water supply, the District is expanding the JWTP from its current 180 mgd capacity to a future capacity of 255 mgd. The project modifies and re-rates the existing filters to achieve plant expansion and provides new and expanded operator-friendly chemical feed systems. The project includes preliminary design, final design, and construction services. Ms. Hollenbaugh provided assistance from the preliminary design phase through construction administration. During the project she worked with the Client Services Manager, Project Manager, Discipline Leads, and the Field Engineer to assist in the delivery of this project, which is currently under construction.

Jennifer Warren, PE

Jennifer Warren is an environmental engineer with more than 15 years of experience. She excels in various aspects of water and wastewater engineering, including project management, design, permitting, water quality analysis, technical writing, and construction administration. Jennifer is detail-oriented and diligent with excellent interpersonal skills and a constant focus on the budget and deadline of a project.

Relevant Experience

→ Design manager for City of Roseville, California, Dry Creek Wastewater Treatment Plant's Foul Air Collection System and Biofilter Rehabilitation Project, which is occurring under the design assist construction model. The project includes re-placement of the existing foul air collection system in the WWTP's screening, grit, and primary clarification areas and re-placement of the existing biofilter.

→ Process engineer for the City of Roseville, California, Pleasant Grove Wastewater Treatment Plant 30-mgd UV Design Assist Project, which entailed conversion from chlorination to ultraviolet for disinfection. Responsibilities included pipeline design and layout for revisions to a non-potable water system, drainage for the UV basin and utility trenches, and evaluation of existing air compressor and air receiver for operation of upflow sand filters and pneumatic valves. Provided engineering services during construction.

→ Project engineer for the City of Roseville, California, Pleasant Grove Wastewater Treatment Plant 30-mgd UV Design Assist Project. Designed the conversion of the chlorine contact basin to a recycled water storage basin and expansion of the coarse bubble channel aeration system and in-line screens for filtration of neutrally buoyant plastics.

→ Design engineer for the City of Roseville, California, Pleasant Grove Wastewater Treatment Plant Phase I Expansion, which involved increasing the flow from 12 mgd to 15 mgd. Duties included conducting design calculations and preparing plans and specifications for a pumped mixing system for the influent to the primary clarifiers and a fine screen facility.

→ Design Manager and Project Engineer for South Tahoe Public Utilities District, California, Wastewater Treatment Plant RAS Pump Station (PS) Building Rehabilitation Project, which encompasses rehabilitating the existing sludge PS due to the age of the pumps and electrical components, issues with process control of the existing pumping strategy, and seismic vulnerability of the building. An alternatives analysis was conducted that utilized hydraulic analysis, structural analysis, process optimization evaluation, and cost estimating to determine the optimal alternative between replace in kind, a decentralized RAS pumping scenario, and a new centralized RAS/WAS PS. Currently developing 30% design submittal of the recommended alternative, the new centralized RAS/WAS PS with new electrical building.

→ Project engineer for South Tahoe Public Utilities District, California, Wastewater Treatment Plant Recycled Water Strategic Plan. Responsibilities include development of conceptual level sizing of treatment trains for nutrient removal and corresponding cost estimates for various recycle disposal alternatives.

→ Project engineer for the California Department of Corrections and Rehabilitation California Men's Colony Wastewater Treatment Plant Disinfection Upgrade (5.2 mgd). Designed the ultraviolet disinfection system, tertiary treatment system, pump stations, effluent storage structure, effluent metering vault, and sodium hypochlorite dosing for recycled water and potable water. Conducted design calculations for UV system, pump sizing, and tertiary treatment system hydraulic calculations. Prepared plans and specifications.

→ Project engineer for the City of Galt, California, NPDES Permit Renewal Assistance. Provided regulatory assistance for the Wastewater Treatment Plant and Reclamation Facility during the permitting process to

Other Accomplishments

National Institute of Health Biotechnology Fellow at University of California, Davis.

2003 National Science Foundation-funded research assistant at the Montana State University Center for Biofilm Engineering on project using continuous flow reactors to evaluate oxidative species for disinfection.

2002 National Science Foundation-funded research assistant at the University of Colorado, Boulder, Environmental Engineering Department on project evaluating enhanced in-situ bioremediation.

Jennifer Warren, PE

obtain an NPDES permit. Prepared multiple letters to the Regional Water Quality Control Board and reports, including a Compliance Schedule Justification Statement and Analytical Methods Report.

→ Process engineer for the California Department of Corrections and Rehabilitation Deuel Vocational Institution Wastewater Treatment Plant. Assisted with the preparation of an NPDES permit application and Report of Waste Discharge. Provided regulatory assistance, including preparation of a Toxicity Reduction Evaluation Work Plan and coordination with the Regional Water Quality Control Board to relocate sampling locations.

→ Process engineer for the City of Chico Water Pollution Control Plant (12 mgd) Permit Assistance. Prepared an NPDES permit application and Report of Waste Discharge, including Technical Report. Worked with the Regional Water Quality Control Board to obtain accurate effluent limits in accordance with state and federal regulations. Assisted with writing technical reports for permit compliance, including a Project Performance Certification Report to satisfy the requirements of the State Revolving Fund Loan Program.

→ Project engineer for Lucero Olive Oil, LLC, California, Report of Waste Discharge (ROWD) Technical Report Assistance. Prepared the ROWD for land application of process waters and worked with the Regional Water Quality Control Board to obtain Waste Discharge Requirements. Performed calculations to determine appropriate application rates to meet regulatory nutrient loading limits and conducted an evaluation of the stormwater runoff containment. Prepared process schematics and liquid and solid mass balances for the ROWD.

→ Project engineer for the California Olive Ranch, Report of Waste Discharge (ROWD) Technical Report Assistance. Prepared the ROWD for land application of process waters and worked with the Regional Water Quality Control Board to obtain Waste Discharge Requirements.

→ Process engineer for the Quincy Community Services District, California, Regula-

tory Support. Provided regulatory assistance for permit compliance for the District, including preparation of a Toxicity Reduction Evaluation Workplan, Ammonia Compliance Workplan, Antidegradation Analysis, and Salinity Evaluation and Minimization Plan.

→ Design engineer for the State of California Statewide Program Environmental Impact Report for Anaerobic Digestion Facilities for Dairy Waste. Responsible for preparing risk assessment.

→ Process engineer for field commissioning testing conducted on the City of Roseville, California, Pleasant Grove Wastewater Treatment Plant's 30-mgd ultraviolet (UV) disinfection system. Testing was conducted to demonstrate the performance of the system as observed during original validation testing in order to obtain approval from the California Department of Public Health. This approval would allow the UV disinfection system to produce recycled water for unrestricted reuse applications.

→ Process engineer for field commissioning testing conducted on the City of Roseville, California, Dry Creek Wastewater Treatment Plant's 45-mgd ultraviolet disinfection system. Testing was conducted to demonstrate the performance of the system to obtain approval from the California Department of Public Health to produce recycled water for unrestricted reuse applications.

→ Process engineer for the El Dorado Irrigation District, California, Deer Creek Wastewater Treatment Plant checkpoint bioassay testing conducted at the existing Ozonia Aquaray® 40HO ultraviolet (UV) disinfection system. Testing was conducted to quantify system performance at higher UV light.

→ Senior engineer for the State of Montana Department of Environmental Quality (DEQ) Effluent Reuse Program. Served as DEQ's technical representative. Responsible for providing procedural guidance to applicants in meeting state regulations to implement wastewater effluent reuse.

Brian J. Ream

Brian Ream has 29 years of experience in the electrical industry for water and wastewater facilities. His recent experience includes project site inspections, constructability review, engineer cost estimates, and electrical, instrumentation and control designs.

Prior to joining Carollo, Mr. Ream managed the field operations for an electrical contractor. His experience includes business planning, staff development, master planning, design reviews, estimating, proposals, contracts, budgeting, schedules, electrical/ instrumentation, SCADA procurement and installations, commissioning, start-ups and client trainings.

Education

Independent Electrical Contractors Rocky Mountain Electrical Trade Career College, 1998

Licenses

Master Electrician, Colorado

Certification

International Code Council, Colorado

Professional Affiliations

International Association of Electrical Inspectors

Relevant Experience

→ Electrical designer for the City of Aurora, Colorado, Arc Flash Reduction Design. Project included electrical system study and design of new service entrance equipment at eleven remote sites.

→ Electrical engineer cost estimator for the City of Tacoma, Washington, Owner's Representative Treatment Plant System Upgrade. Services included upgrade/replacement of control system for the City's Central Treatment Plant (CTP) and North End Treatment Plant (NETP). The core of the existing control system comprises an ABB System Six distributed control system (DCS) with six Distributed Control Units (DCUs) located at the CTP and a single DCU located at the NETP. Auxiliary control systems included twelve PLCs that are interconnected to the DCUs, eleven PLC's that are stand-alone systems, and approximately nineteen remote IO cabinets.

→ Electrical, instrumentation and controls inspector for Metro Water Recovery, Colorado, PAR 1085 South Secondary Improvements Construction Services. Project included modifying and upgrading the South Secondary Treatment Facilities to treat 114 million gallons of wastewater per day. Project included design of electrical, instrumentation, and control elements for successful integration into facility SCADA system.

→ Electrical, instrumentation, and controls auditor for the Metro Water Recovery, Colorado, Owner's Advisor PAR 1088 Northern Treatment Plant Program Construction Services. The Owner's Advisor assisted the District in the management of the 7-year Program for all planning, procurement, con-

struction, and start-up services for the implementation of a 24-mgd advanced treatment facility, a 7-mile interceptor, and the 11-mile effluent pump back system. The Owner's Advisor was co-located with District staff for the delivery of the \$475-million Program. The Program includes the largest, constructed PDB project to date in the U.S. water/wastewater industry, and has been referenced by the Water Design-Build Council and Design-Build Institute of America as an example for best value, qualifications-based procurement.

→ Electrical constructability reviewer, field advisor and inspector for the construction of new medium voltage underground electrical distribution infrastructure for the City of Tacoma, Washington, Central Treatment Plant (CTP). This project included construction of a new switchgear building and replacement of CTP's main 15 kilovolt service entrance switchgear. It also involved the replacement of other aging electrical assets at the plant

→ Electrical designer for the City of Aurora, Colorado, System Wide UPS Replacement project. Tasks included field investigations, workshops with client, and design of 43 remote pump station site UPS systems.

→ Electrical designer for the City of Oceanside's Major Plant Automation Upgrades, Oceanside, California. Provided design assistance, software standards template development, control strategy review, and cost estimating assistance.

→ Electrical designer for the City of Aurora, Colorado, Sand Creek Water Reclamation Facility (WRF) Arc Flash Design. Project included electrical system study and design of

Brian J. Ream

new electrical distribution equipment at four locations at the Sand Creek WRF.

→ Instrumentation and controls designer and on-site inspector for the Metro Water Recovery, Colorado, PAR 1225 South Headworks and Grease Process Improvements. This work involved extensive modifications to the existing screening, grit removal, and grease processing facilities for the 100-mgd South plant.

→ Instrumentation designer for the City of Aurora, Colorado, Second Creek Interceptor Segment 1E Design. Project included a new wastewater vault with flow metering and communication equipment.

→ Electrical engineer cost estimator for the City of Fort Collins, Colorado, Electrical Master Plan.

→ Electrical engineer cost estimator for the City of Fresno, California, Water Treatment Design.

→ Electrical engineer cost estimator for the City of San Mateo, California, Wastewater Treatment Plant PCS Design.

→ Electrical engineer cost estimator for the City of Salem's Willow Lake Water Pollution Control Facility Gravity Thickeners/Sludge Degritting Improvements, Salem, Oregon.

→ Electrical engineer cost estimator for the City of Longmont, Colorado, Sludge Control Building Modifications.

→ Electrical engineer cost estimator for the Albuquerque Bernalillo County Water Utility, New Mexico, SWRP MCC and Switchgear Replacement. The project scope involved replacement of critical 480V switchgear to provide automatic transfer to the plants' existing 2MW generator. The scope also included the installation and interconnection of a new owner procured 4160V, 3MW generator, and the upgrade of an existing 480V switchgear to convert to automatic transfer to a 750kW generator.

→ Electrical inspector for the City of Edmond, Oklahoma, Coffee Creek Water Resource Recovery Facility Expansion. Carollo provided study, design, and construction phase services for expansion of Edmond's Water Resource Recovery Facility to treat an

average flow of 12 mgd (36 mgd peak) and to meet upcoming nitrate and future phosphorus effluent limits. This is the first large permanent power generation facility for Edmond, so the study phase included evaluation of several generator types and utility connections.

→ Electrical inspector for the City of Edmond, Oklahoma, Arcadia Lake Water Treatment Plant Expansion. Carollo performed a comprehensive condition assessment and, along with City staff, determined that the most cost-effective approach was to construct a new 30-mgd treatment plant then decommission the existing processes, allowing their space to be used for the ultimate 65-mgd future expansion.

→ Electrical inspector for the City of Sioux Falls, South Dakota, Water Reclamation Facility Expansion and Improvements. Carollo performed an electrical system and equipment evaluation to assess service equipment, backup generation, medium voltage distribution equipment and cables and process area low voltage equipment. Most existing plant equipment was 40 years old and had passed the expected useful age. Replacement alternatives were suggested for each process area based on equipment capacity, added loads, available space and detailed condition assessment. Value engineering was performed with the contractor to maximize equipment replacement benefit to meet the project budget.

→ Electrical, instrumentation and controls inspector for the Metro Water Recovery, Colorado, PAR 1247 Electrical Transformer Replacement Project and PAR 1259 Digester Complex Rehabilitation Project. Project included replacement of two 4.16 kV to 13.2 kV substation transformers with low resistance and zig-zag transformer grounding, two 13.2 kV to 480 V substation transformers with high resistance grounding, and a 480 V load center.

S. Jason Rozgony, PE

Jason Rozgony has 29 years of experience specializing in cost estimating for water and wastewater treatment plants, pump stations, and distribution systems. He manages Carollo's company-wide cost estimating standards and has extensive experience with Construction Manager at Risk delivery. Jason completed more than 150 cost estimates for design and fixed-price construction projects and successfully navigated large, unique, and complex change orders and provides independent estimates and support during the negotiation of requested changes to comply with contract documents.

Prior to his cost estimating experience, Jason worked as a project engineer, superintendent, and construction manager on a variety of water treatment and remediation projects in Illinois, Texas, Michigan, Iowa, Missouri, Connecticut, Colorado, Utah, and Wyoming. Since transitioning from a construction operations role to cost estimating, he and his teams have developed at-risk bids and guaranteed maximum price proposals exceeding \$2 billion for water/wastewater treatment plant work while producing over 500 opinions of probable cost estimates.

Relevant Experience

→ Cost estimator for the City of Oklahoma City, Oklahoma, WC-1006 Water System Hydraulic Evaluation Citywide. Carollo is updating the City's distribution system model and performing a master plan. The project team is performing modeling and preliminary routing and connection analysis; developing flushing and disinfection practices for the Hefner-Draper Interconnect project, developing water demand projections, updating the hydraulic model demands with recent billing data and allocate future demand, calibrating the model, evaluating the existing and future system, and identifying improvements.

→ Estimator for the City of Sunnyvale, California, Water Pollution Control Plant Secondary Treatment and Dewatering Facilities Design. This project included expanding the secondary treatment process to a conventional activated sludge (CAS) process, adding dewatering and thickening facilities for sludge handling, and adding sidestream ammonia treatment. The CAS process will remove nitrogen in anticipation of upcoming nutrient regulations in the San Francisco Bay. Construction value estimated at \$50 million.

→ Estimator for the City of Richmond, California, Veolia Wastewater Treatment Plant (WWTP) Critical Improvement project. Carollo provided design and engineering

services during construction for Veolia Water's Critical Improvements to the Richmond WWTP. The project included grit removal, fine screen, and odor control system upgrades at the headworks; aeration basin diffuser improvements; secondary effluent splitter box modifications; a new blower building; and secondary clarifier mechanism replacement for early implementation of critical facility components in parallel with the Facility Plan. The construction value is estimated at \$34 million.

→ Estimator for the City of Odessa, Texas, Water Quality Improvements – Phase III. This 55-mgd surface water treatment project included a new 20 mgd high rate flocculation/sedimentation facility which replaced existing facilities. This project included the Water Treatment Plant Rehabilitation and Miscellaneous Upgrades in which Carollo conducted a process evaluation to improve the water quality, which has high levels of hardness and total dissolved solids (TDS). The improvement project includes structural rehabilitation, new chemical and electrical facilities with advanced water treatment in mind, city-wide SCADA upgrades, and the construction of new plate settlers in lieu of aging flocculation and sedimentation basins. Construction value estimated at \$154 million.

S. Jason Rozgony, PE

→ Cost estimator for the City of Aurora, Colorado, North Campus Electrical Phase II. In order to improve electrical safety and standardize on control across the North Campus Well Field, Carollo provided the design for the electrical, control, and programming replacement for 17 wells. This included the separation of power from control for arc flash safety and the re-programming of each well to provide consistency across the wellfield as well as the City. Control narratives were developed to simplify and optimize operation based on experience from historical production.

→ QA/QC for the Metro Vancouver, British Columbia, Canada, Northwest Langley Wastewater Treatment Plant Upgrade Program. Carollo led an integrated Metro Vancouver/Consultant team of over 50 design and construction professionals that provided program management and effective project delivery support for the NLWWTP Program, a \$2.3 billion group of five major projects: pump station, SSO storage tank, large-diameter HDD installed force main, large-scale seismic ground improvements, 85MLD WWTP, and river outfall. Participated in a week-long Design CAMP® process to identify cost reduction measures to simplify and produce cost effective savings without compromising operations.

→ Estimator for Pasco County Utilities, Florida, Southeast Wastewater Treatment Plant Expansion – Phase 1. The Phase 1 engineering services included a condition assessment, process evaluation, capacity analysis report, and facility plan for the expansion and improvements of the Southeast WWTP. The scope also included a force main and route analysis for two force mains coming into the plant.

→ Estimator for the Eagle River Water and Sanitation District, Colorado, Avon Wastewater Treatment Facility Nutrient Upgrades. This project included improvements to the Avon Wastewater Treatment Facility secondary treatment process to meet Regulation 85 nutrient limits. The recommended process configuration included an Anaerobic/Anoxic/Oxic (A2O) process with

flexibility to operate in the 5-Stage Bardenpho configuration. Design elements included expanded and modified aeration basins, secondary pumping, a new secondary clarifier, and condition assessment improvements to screening, grit removal, primary sedimentation, and equalization basins. The project was delivered via a CMAR delivery model to include construction sequence and constructability approach in the design process. Construction value estimated at \$50 million.

→ Estimator for the City of Kansas City, Missouri, Blue River Wastewater Treatment Plant Biosolids Upgrades. This project includes the preliminary and conceptual design of a new THP system and necessary improvements for processing biosolids from three of the City's wastewater treatment facilities. Project included providing assistance to the City for procurement strategy development, packaging evaluations, development of preliminary design of the THP system, comprehensive evaluation of proposal submittals, and negotiation of a long-term service contract. Construction value estimated at \$155 million.

→ Estimator for the North Texas Municipal Water District, Texas, South Mesquite Regional Wastewater Treatment Plant Solids Handling Improvements. The project involved providing a new solids dewatering facility to process solids for the current 33-mgd plant capacity and including consideration for future equipment to process solids for the 41-mgd plant capacity. Construction value estimated at \$31 million.

→ Cost estimator for the City of Aurora, Colorado, Sand Creek WRF PLC Conversion and Improvements. Provided cost estimating support for the PLC conversion. The project included redesign of the PLC and SCADA infrastructure, including network block diagram, control cabinet and server rack design, P&IDs, control descriptions redevelopment, and PLC and SCADA hardware and software specifications. Construction value estimated at \$2.6 million.

Chad A. Green, PE

Chad Green, an associate vice president and principal building mechanical engineer, has 15 years of engineering experience. He manages Carollo's Building Services Group and supervises all aspects of design services and quality control related to building mechanical services. He has extensive knowledge and experience with designing heating, ventilation, air conditioning, controls, refrigeration systems, plumbing systems, fire protection systems, odor treatment, and fuel systems. His knowledge and experience are used to develop both client standards and corporate standards. He has an in-depth background performing generator system designs and planning for water facilities and is well-known for developing innovative recommendations for facility upgrades and design options.

→ 0138 Draper Water Treatment Plant Power Generation Facilities, City of Oklahoma City, Oklahoma. Carollo provided HVAC/plumbing for the new power generation facility, which featured a switchgear room, motor control center room, battery room, control room, generator room, storage room, and urea storage tank room. This project team also installed three 2.75-MW Tier 4 generators. Oversaw the mechanical designs for after-treatment exhaust systems, fuel systems, urea systems, and compressed air system design.

→ Lead building mechanical engineer for the Sobrante Water Treatment Plant Ozone Systems Improvements, East Bay Municipal Utility District, California. The scope consisted of the existing ozone generation building and ozone destruct building. The ozone generation building included an ozone generation room, cooling pump room, air prep room, public gallery, switchgear room, control room, PSU room, and storage rooms. The project also included fire protection design, calculations, and code reviews for the ozone generation building.

→ Lead building mechanical engineer for the Upper San Leandro Water Treatment Plant Ozone Systems Improvements, East Bay Municipal Utility District, California. HVAC improvements were completed at the existing ozone generation building and ozone destruct building. The ozone generation building included an ozone generation room, cooling pump room, air

prep room, public gallery, switchgear room, control room, PSU room, and storage rooms. The improvements involved fire protection design, calculations, and code reviews for the ozone generation building.

→ Lead building mechanical engineer for the Draper Water Treatment Plant High Auxiliary Pump Station Yard Piping and Hydraulics, City of Oklahoma City, Oklahoma. This new pump station project included the design of a pump room, surge tank room, variable frequency drive room, motor control center room, switchgear room, control room, battery room, storage room, and restroom.

→ Lead building mechanical engineer for the Big Cottonwood Water Treatment Plant Flocculation/Sedimentation Basin Rebuild Design and Construction Management, Salt Lake City Public Utilities, Utah. The HVAC components of the project were completed at the flash mix/flocculation/sedimentation superstructure and new main electrical building that houses a new generator. Oversaw the HVAC group for plumbing and generator fuel system designs, calculations, code reviews, drawings, specifications, and construction phase services.

→ Lead building mechanical engineer for the Bee Ridge Water Reclamation Facility Expansion and Conversion to Advanced Water Treatment, Sarasota County Environmental Services, Florida. The project scope consisted of a headworks, generator building, membrane bioreactor (MBR) basins, biological nutrient removal (BNR) basins, blower building, electrical buildings, operations building, visitor/security building,

Chad A. Green, PE

and chemical buildings. The scope also included the design of diesel fuel systems, combustion, radiator intake/discharge with sound mitigation measures. This project involved the application of NFPA 820 standards.

→ Lead building mechanical engineer for the Arcadia Lake Water Treatment Plant Expansion, City of Edmond, Oklahoma. The HVAC scope consisted of a filter building, pre-ozone building, ozone generation building, post-ozone contactor building, granular activated carbon building, chemical building, lime building, recycle pump station, thickened sludge pump station, dewatering building, high lift pump station, low lift pump station, and generator building. Geothermal ground-source cooling was utilized on this project for all cooling and heating of facilities. The project team also provided fire protection designs for the pre-ozone building, ozone generation building, post-ozone contactor building, chemical building, and lime building.

→ Lead building mechanical engineer for the Water Quality Control Plant Electrical Motor Control Center Replacement, City of Simi Valley, California. Led the HVAC designs for the blower building and headworks.

→ Lead building mechanical engineer for the Cogeneration Building Structural Repair, Encina Wastewater Authority, California. Carollo provided repair designs for the existing cogeneration building and screening room.

→ Lead building mechanical engineer for the Roberto R. Bustamante Wastewater Treatment Plant Headworks Improvements, El Paso Water, Texas. This project involves a new influent pump station, headworks, electrical building, existing grit facility, and foul air duct routing.

→ Lead building mechanical engineer for the Southwest Water Treatment Plant Ion Exchange System and Improvements, City of Sunrise, Florida. Provided HVAC calculations, designs, code reviews, drawings, and construction services for the generator room.

→ Lead building mechanical engineer for the Paul M. Neal Water Treatment Plant Ozone System Replacement, Central Lake County Joint Action Water Agency, Illinois. Provided HVAC calculations, designs, code reviews, drawings, and construction services for the ozone generator room and VSA gallery.

→ Project manager for the David L. Tippin Water Treatment Plant Master Plan Improvements Design-Build, TO-11 Electrical and Site Improvements, City of Tampa, Florida. This task order encompassed the design of a new TECO House Building and new standby generators with support appurtenances, including a fuel storage and feed area, diesel exhaust fluid system, electrical room, and sitewide ductbanks.

→ Lead building mechanical engineer for the David L. Tippin Water Master Plan Improvements Design-Build, TO-10 Ozone Improvements, City of Tampa, Florida. This task order includes the design of a new TECO House Building and new standby generators with support appurtenances, made up of a fuel storage and feed area, diesel exhaust fluid system, electrical room, and sitewide ductbanks.

→ Technical Advisor for the Joseph Blake Water Treatment Plant Phase 1B Improvements, Centennial Water and Sanitation District, Colorado. This project included a new chemical building with sodium hypochlorite, sodium hydroxide, coagulation aid polymer, ferric sulfate, ammonium sulfate, sodium permanganate, flocculation aid polymer, mechanical/electrical rooms, and new utility corridor to the existing pretreatment building. Modifications also included updating HVAC systems at portions of the pretreatment building.

→ Technical Advisor for the WT-0253 Draper Water Treatment Plant Existing High Service Pump Station (HSPS) Electrical Improvements, City of Oklahoma City, Oklahoma. The project included adding a new water source heat pump unit in the existing auxiliary HSPS building.

COUNCIL COMMUNICATION

CC #: 3689

File #: 0400-04-13-1 & 1002-06

Title: Creekview Ranch Subdivision - Summary Vacation of Water Channel Easement

Contact: Shelby Maples 916-746-1347 smaples@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.21.

RECOMMENDATION TO COUNCIL

Staff requests that the City Council adopt a resolution to summarily vacate the Water Channel Easement.

BACKGROUND

The project site is located in unincorporated Placer County on a parcel with APN 474-100-001, on the north side of PFE Rd., abutting the City boundary at the northeast corner of the parcel. This property is identified as a future subdivision known as Creekview Ranch. A portion of Lower Dry Creek is located within the northern portion of the parcel, and the City currently possesses an easement to access the water channel. The easement, dedicated to the City by the Schellhaus family in 1962 (Resolution 66-22) is isolated to the northeast corner of the parcel, and connects to City-owned property at 1800 Booth Rd. (The Dry Creek Wastewater Treatment Facility). The easement is approximately 565 feet long and 125 feet wide and covers a portion of Lower Dry Creek.

The current request includes the abandonment of the 125-wide easement for the water channel. The project will also include the dedication of a revised access easement, though that action does not require Council approval.

Government Code Section 8300 et. seq. (Streets and Highways Code) states that an easement may be terminated (vacated) by adopting a resolution of vacation. There are two pathways for vacation: summary or general. An abandonment request for an easement is eligible for the simpler summary vacation when any one of the three potential conditions applies:

- 1) The easement has not been used for the purpose for which it was dedicated or acquired or five consecutive years immediately preceding the proposed abandonment,
- 2) The easement has been in place for less than five years (making it ineligible for condition 1 above), but has been in place for at least a year and has not been used for the purpose for which it was dedicated or acquired, or
- 3) The need for the easement has been superseded by relocation, and there are no other public facilities in the easement.

The existing easement for the water channel will be superseded by relocation, meeting the third condition above. No public facilities are located in the existing easement. The proposed easement vacation was routed to all utilities which could be affected by the project, and no objections were received. For these reasons, staff concludes that Condition 3 (as described above) for a summary vacation applies, and recommends approval of the vacation request.

FISCAL IMPACT

There will be no fiscal impact to the City of Roseville.

ENVIRONMENTAL REVIEW

The Project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15305. The proposed project involves minor alteration in land use limitations in areas with an average slope of less than 20%, which do not result in any changes in land use or density. The project is not located in a particularly sensitive environment, and therefore no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Shelby Maples, Associate Planner

Mike Isom, Development Services Director

Resolution 24-426

Exemption

PL24-0826 – 1800 Booth Rd -- Vicinity Map

RESOLUTION NO. 24-426

ORDERING SUMMARY VACATION OF A WATER CHANNEL EASEMENT ON PARCEL
WITH APN 474-100-001, LOCATED IN UNINCORPORATED PLACER COUNTY, ADJACENT
TO 1800 BOOTH ROAD

BE IT RESOLVED by the City Council of the City of Roseville as follows:

WHEREAS, in accordance with the provisions of section 8330, et seq., of the Streets and Highways Code (Chapter 4, Summary Vacation), it is hereby found that a water channel easement APN 474-100-001 in unincorporated Placer County, described in Exhibit “A” and depicted in Exhibit “B”, which is attached hereto and incorporated herein by reference, is no longer needed; and

WHEREAS, the need for the easement has been superseded by relocation, and there are no other public facilities in the easement; and

IT IS HEREBY ORDERED:

1. That the public utility easement at APN 474-100-001 described in Exhibit “A” and depicted in Exhibit “B” is hereby vacated pursuant to Streets and Highways Code section 8335, and shall, as of the date of adoption of this resolution, no longer constitute a water channel easement; and
2. The City Manager is hereby authorized to execute any other documents required to effectuate the conveyance of the abandoned/vacated easement to the respective property owners; and
3. The City Clerk is hereby directed to cause a certified copy of this Resolution and Order, attested to by said Clerk under the seal of the City of Roseville, to be recorded in the Office of the County Recorder, and take any other actions necessary to effectuate the intent of this Resolution and Order.

PASSED AND ADOPTED by the Council of the City of Roseville this 18th day of December 2024, by the following vote on roll call:

Roseville, CA 95678

Project Title: Creekview Ranch Subdivision – Vacation of Water Channel Easement

Project Location: An easement within an approximately 141-acre parcel located within unincorporated Placer County (APN 474-100-001), adjacent to the Dry Creek Wastewater Treatment Plant (DCWWTP) located at 1800 Booth Road, Roseville, CA 95747.

Project Description: Development Services staff requests approval of the summary vacation for a portion of the water channel easement on APN 474-100-001 in unincorporated Placer County to allow for relocation of the easement and facilitate future development of the parcel. This property is identified as a future subdivision known as Creekview Ranch. A portion of Lower Dry Creek is located within the northern portion of the parcel, and the City currently possesses an easement located in the northeast corner of the parcel adjacent to the DCWWTP property. The project meets Streets and Highways Code criteria, allowing termination of an easement, as the easement will be superseded by relocation, and there are no public facilities located in the easement.

Public Agency Approving Project: Roseville City Council

Agency/Individual Carrying Out Project: City of Roseville Development Services Department

Reason why this Project is Exempt: This project qualifies for a Class 5 exemption as described in Section 15305 of the California Environmental Quality Act (CEQA) guidelines which states:

“Class 5 consists of minor alterations in land use limitations in areas with an average slope of less than 20%, which do not result in any changes in land use or density...”

The proposed summary vacation is consistent with the above criteria, and therefore a Class 5 exemption applies to the project.

Lead Agency Contact Person: Shelby Maples, Development Services Department, 311 Vernon Street, Roseville, CA 95678. (916) 746-1347.

Title: Parcel F-22, The Crawford - Affordable Rental Housing Agreement

Contact: Suzanne Acrell 916-774-5469 sacrell@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.22.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve an Affordable Rental Housing Agreement for an affordable housing project with Roseville Harvey 715, L.P., and authorize the City Manager to execute the agreement.

BACKGROUND

On April 21, 2021, City Council adopted a resolution to establish the Objective Design Standards (ODS) to streamline the construction of qualified affordable housing projects. The ODS were adopted in order to comply with State housing legislation. Qualified projects that comply with the ODS are subject to a non-discretionary ministerial permit process and can bypass the standard design review process as well as the public notification and hearing process and proceed directly to engineering and building permit review. A qualifying project is a housing development project where no less than 20% of the units are affordable to lower-income households.

On June 19, 2024, the City ministerially approved an affordable housing project located at 5251 Fiddymont Road in the West Roseville Specific Plan, using the Objective Design Standards process. Parcel F-22 project, known as The Crawford and developed by USA Properties, will include two hundred sixty-five (265) units, with 262 affordable units. The affordable units will be broken down as follows, 27 units at extremely low- (30% Area Median Income), 64 units at very low- (50% Area Median Income), and 171 at low-income (60% to 80% Area Median Income). The three market rate units will be reserved for use by on-site management staff.

The West Roseville Specific Plan Development Agreement requires development of 91 units for very low-income (50% of AMI and below) and 93 units for low-income (80% of AMI and below) households. The Affordable Rental Housing Agreement will ensure these requirements are met. The remaining 81 units developed in this project will be rented to low-income (80% of AMI and below) households, but will not be regulated by this agreement.

The purpose of this agreement is to regulate and restrict the occupancy, rents, operation, ownership, and management of the project for the benefit of the occupants and residence. These affordable units will serve a range of local housing needs, including members of the local

workforce, families, young couples, single households, and seniors with low and very low incomes. Workers in these units could hold jobs ranging from employment in the service industry, local teachers, office assistants, custodians, store clerks, and others who are likely to have job opportunities in Roseville. The recommended agreement before Council will continue to support the City's General Plan in meeting the City of Roseville affordable housing goals.

FISCAL IMPACT

No General Fund resources will be used for the implementation of the Affordable Rental Housing Agreement for The Crawford, a USA Properties' affordable rental housing project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of an Affordable Renting Housing Agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

AFFORDABLE RENTAL HOUSING AGREEMENT

(Project: The Crawford – Harvey Way)

This Affordable Rental Housing Agreement (“AGREEMENT”) is made this _____ day of _____, 2024 (“Effective Date”), by and between the City of Roseville, a municipal corporation (“CITY”), and Roseville Harvey 715, L.P., a California limited partnership (“OWNER/DEVELOPER”).

RECITALS

A. On August 18, 2021, CITY approved the updated Housing Element of the General Plan which applies ten percent (10%) affordability requirement to all new specific plan areas or properties for which zoning is amended to change residential density.

B. The OWNER/DEVELOPER is receiving the benefit of land entitlements either through the Specific Plan and Development Agreement process or by amendment of the zoning of the property to change residential density.

C. On June 19, 2024, CITY ministerially approved the qualified affordable housing project using the Objective Design Standards process (PL23-0360) (the “Project”).

D. The conditions of approval of the Project require OWNER/DEVELOPER to enter into an affordable housing rental agreement to the satisfaction of City Attorney of CITY, implementing the affordable housing obligations of OWNER/DEVELOPER.

E. OWNER/DEVELOPER and CITY enter into this AGREEMENT in order to implement OWNER/DEVELOPER’S affordable housing obligations.

F. OWNER/DEVELOPER has secured the possession of real property located at 1130 Harvey Way, Roseville, California, 95747, also referred to as Parcel F-22 of the West Roseville Specific Plan (as more particularly described in **Exhibit A** (the “Property”)). OWNER/DEVELOPER proposes to develop and construct a two hundred sixty-five (265) unit multi-family rental housing apartment project (the “Project”) on the Property, a portion of which shall be rented at rents that are affordable to Low and Very

Low-income households (the “Regulated Units”) as set forth herein. The Project is intended to serve as a community resource by providing decent, safe, and sanitary housing for households which would otherwise be unable to afford such housing. Development of the property is governed by the West Roseville Specific Plan.

G. OWNER/DEVELOPER intends to transfer the fee interest in the Property to Safehold Inc. or an affiliate thereof (“Ground Lessor”), and Ground Lessor intends to concurrently ground lease the leasehold interest in the Property to OWNER/DEVELOPER pursuant to a certain ground lease agreement (“Ground Lease”).

H. On November 6, 2024, by Resolution No. 24-379 of the Roseville CITY Council, the CITY agreed to the deferral of certain development impact fees related to construction of the Project in the approximate amount of five million, nine-hundred six thousand, five-hundred eighty-five dollars (\$5,906,585) for building permit final/certificate of occupancy permit.

- I. The purpose of this AGREEMENT is to regulate and restrict the occupancy, rents, operation, ownership, and management of the Project for the benefit of Project occupants and the people of the City of Roseville. The covenants in this AGREEMENT are intended to run with the land and be binding on OWNER/DEVELOPER and OWNER/DEVELOPER’s successors in interest for the full term of this AGREEMENT.

NOW, THEREFORE, OWNER/DEVELOPER and the CITY hereby agree as follows:

DEFINITIONS

The following terms have the meanings set forth in herein wherever used in this AGREEMENT or attached exhibits.

1. **“CITY”** means the City of Roseville, a municipal corporation.
2. **“AREA MEDIAN INCOME”** (referred to herein as “AMI”) means the median income for Placer County, which includes the City of Roseville, with adjustments for household size, as published annually by the State of California Housing and Community Development (“HCD”). If HCD should cease making such determination, the City may designate another method of calculation of area median income used by any federal or state agency and applicable to the City of Roseville.
3. **“OWNER/DEVELOPER”** means Roseville Harvey 715, L.P., a California limited partnership, together with its permitted successors and assigns.
4. **“PROJECT”** means the development, construction and operation of a residential, multi-family rental apartment project on the Property, to be rented at rents that are affordable to Low and Very Low income households.

5. **“PROPERTY”** means the real property located at 1130 Harvey Way, Roseville, California, 95747 identified and described in **Exhibit A**, attached hereto and incorporated into this AGREEMENT by this reference, and any buildings or improvements now or hereafter situated on such real property.

6. **“QUALIFYING HOUSEHOLD”** means a household in which household income does not exceed the percentage of Area Median Income prescribed for the applicable housing unit by the terms of this AGREEMENT.

7. **“QUALIFYING RENT”** means the maximum monthly rent allowed under **Exhibit B** “adjusted for family size appropriate to the unit” (as such term is defined by the California Tax Credit Allocation Committee – currently 1.5 persons per bedroom) including a reasonable allowance for tenant-paid utilities (also known as Utility Allowance). During the period a regulatory agreement governing the allocation and award of any federal tax credits is in effect, Qualifying Rent may be determined in accordance with such regulatory agreement and 26 U.S.C., Section 42.

8. **“REGULATED UNITS”** means one hundred eighty-four (184) rental dwelling units of the two hundred sixty-five (265) rental dwelling units on the Property constructed for the Project, (if applicable), that shall be rented at rents that are affordable to Low and Very Low income households and having the following composition: forty-six (46) one (1) bedroom units, ninety-two (92) two (2) bedroom units, and forty-six (46) three (3) bedroom units.

9. **“SENIOR LENDERS”** means the lenders of a construction or permanent loan on the Property and their successors and assigns.

OWNER/DEVELOPER’S OBLIGATIONS

10. **TERM OF AGREEMENT.** This AGREEMENT shall commence upon the Effective Date and shall remain in full force and effect for fifty-five (55) years after the date OWNER/DEVELOPER obtains a Certificate of Occupancy from CITY for the Project or, in the event the Project has multiple buildings or structures, a Certificate of Occupancy for the last habitable building or structure for the Project. The obligations in this AGREEMENT shall remain effective and fully binding on OWNER/DEVELOPER for this full term regardless of any expiration of the term of any loan, any payment, or prepayment of any loan, any assignment of a note, any reconveyance of a deed of trust, or any sale, assignment, transfer, or conveyance of the Property (other than certain transfers by foreclosure, deed in lieu of foreclosure, exercise of the power of sale or other similar transfer), unless terminated earlier by the CITY in a recorded writing.

11. **LEGAL INTEREST IN PROJECT.** OWNER/DEVELOPER represents that is has legal interest in the Subject Property and that all other persons holding legal or equitable interests in the Subject Property have signed an “Acknowledgement and Consent Certificate”, in a form approved by the City Attorney of the CITY,

acknowledging and consenting to the terms of this AGREEMENT. All persons holding any legal or equitable interest in the Subject Property shall be bound by this AGREEMENT.

PROJECT OCCUPANCY AND RENTS

12. **OCCUPANCY OF PROJECT.** OWNER/DEVELOPER shall limit, for the full term of this AGREEMENT identified in paragraph 8., above, the rental of Regulated Units to Qualifying Households according to the schedule contained in **Exhibit B** herein, which is hereby incorporated by reference into this AGREEMENT. The income levels and other qualifications of applicants shall be certified prior to initial occupancy in conformance with the Final Management Plan identified in paragraph 18 below, and the City of Roseville's rules governing income certification, as these rules may be amended from time to time by California law or as required in order to comply with California law. Specifically, OWNER/DEVELOPER covenants and agrees that for the full term of this Agreement it shall reserve for occupancy: (i) twenty-two (22) one-bedroom, forty-six (46) two-bedroom, and twenty-three (23) three-bedroom Regulated Units for households whose income does not exceed fifty percent (50%) of AMI (a "Very Low Income Household"), and (ii) twenty-four (24) one-bedroom, forty-six (46) two-bedroom, and twenty-three (23) three-bedroom Regulated Units for households whose income does not exceed eighty percent (80%) of AMI (a "Low Income Household"). Three (3) of the remaining eighty-one (81) unregulated units shall be two (2) two-bedroom units and one (1) three-bedroom unit reserved for use by on-site Project management staff.

The Project shall be owned, managed and operated as a single, multi-family residential rental project, which may be comprised of several buildings and structures, each consisting of more than one residential dwelling unit, together with facilities functionally related and subordinate thereto, in accordance with the applicable provisions of the Internal Revenue Code and applicable California law, as the same may be amended from time to time. All of the residential dwelling units in the Project will be similarly constructed and shall contain separate and complete facilities for living, sleeping, eating, cooking and sanitation for a single person or family, including sleeping area, bathing and sanitation facilities and cooking facilities equipped with a cooking range, refrigerator and sink. None of the residential dwelling units shall be utilized, at any time, on a transient basis. Neither the Project, nor any portion thereof, shall ever be used as a hotel, dormitory, fraternity house, sorority house, rooming house, hospital, nursing home, sanitarium, rest home or trailer park or court.

13. **PROJECT RENTS.** Rents for Regulated Units shall be limited to Qualifying Rents as set forth in **Exhibit B** as the same may be revised from time to time in accordance with this AGREEMENT and applicable federal or state laws and regulations. Rent shall be no greater than considered "affordable rent" for the applicable household pursuant to Section 50053 of the California Health and Safety Code, as amended, or any successor statute thereto. Nothing in this AGREEMENT shall prevent OWNER/DEVELOPER from charging lower rents.

14. RENTAL INCREASES FOR EXISTING TENANTS ON THE PROPERTY.

Irrespective of when income limits are published under Tax Credit Law, rents for Regulated Units may be adjusted no more frequently than: (a) twelve (12) months following the date of initial occupancy or (b) every twelve (12) months following the last permissible date of recorded rental adjustment. Rents for Regulated Units may be adjusted annually to coincide with the increases in the Annual Adjustment Factors ("AAFs") as published by the United States Department of Housing and Urban Development (HUD) for the West Region, however, in no event shall rents exceed the amount permitted under the Tax Credit Law.

In the event that HUD terminates publication of the AAFs, rents shall be adjusted annually to coincide with the State Department of Housing and Community Development ("HCD") State Income Limits, using the limits established for Placer County, adjusted for household size, unit type and affordability.

If OWNER/DEVELOPER does not agree with the adjustment factors provided herein, OWNER/DEVELOPER may, within fifteen (15) calendar days of notification by the CITY's Economic Development Director or successor ("the EDD") of that year's adjustment, present to the EDD information on which it wishes to base its annual rent adjustment. The EDD will review this information and decide on which adjustment factor OWNER/DEVELOPER shall base its annual rent increase. The decision of the EDD shall be final.

15. CONDOMINIUM CONVERSION PROHIBITED. OWNER/DEVELOPER shall not convert Project units, including Regulated Units and/or any unregulated units, to condominium or cooperative ownership or sell condominium or cooperative conversion rights to the Project units.

16. NONDISCRIMINATION.

A. OWNER/DEVELOPER herein covenants by and for itself, its subcontractors, its successors and assigns, and all persons claiming under or through them, that there shall be no discrimination against or segregation of, nor denial of the benefits of this AGREEMENT to, any person or group of persons, on the basis of race, color, ancestry, national origin or ethnic group identification, religion or religious creed, sex, gender or self-identified gender, gender expression, sexual orientation, marital status, age, mental disability, physical disability or medical condition (including cancer, HIV and AIDS), genetic information, military or veteran status, familial status, source of income, or political affiliation or belief, nor any unlawful discrimination against any employee or applicant for employment because of race, color, ancestry, national origin or ethnic group identification, religion or religious creed, sex, gender or self-identified gender, gender expression, sexual orientation, marital status, age (over 40), mental disability, physical disability or medical condition (including cancer, HIV and AIDS), use of family care leave, genetic information, military or veteran status, familial status, source of income, or political affiliation or belief. OWNER/DEVELOPER shall ensure that the evaluation and treatment of employees and applicants for employment are free

of such discrimination or harassment. In addition to the foregoing general obligations, OWNER/DEVELOPER shall comply with the provisions of the Fair Employment and Housing Act (Government Code Section 12900, et seq.), the regulations promulgated thereunder (Title 2, California Code of Regulations, Section 10000, et seq.), the provisions of Article 9.5, Chapter 1, Part 1, Division 3, Title 2 of the Government Code (Sections 11135-11139.5) and any state or local regulations adopted to implement any of the foregoing, as such statutes and regulations may be amended from time to time. To the extent this AGREEMENT subcontracts to OWNER/DEVELOPER services or works required of the CITY by the State of California pursuant to agreement between the CITY and the State, the applicable regulations of the Fair Employment and Housing Commission implementing Government Code Section 12990 (a) through (f), set forth in Subchapter 5 of Division 4.1 of Title 2 of the California Code of Regulations are expressly incorporated into this Regulatory Agreement by reference and made a part hereof as if set forth in full, and OWNER/DEVELOPER and any of its subcontractors shall give written notice of their obligations thereunder to labor organizations with which they have collective bargaining or other agreements.

B. The provisions of paragraph (A) shall further apply to the leasing, subleasing, transferring, use, occupancy, tenure or enjoyment of the Project, and OWNER/DEVELOPER and any person claiming under or through the OWNER/DEVELOPER, shall not establish or permit any such practice or practices of discrimination or segregation with reference to the selection, location, number, use or occupancy of tenants, lessees, sublessees, subtenants, or vendees in the Project.

C. OWNER/DEVELOPER shall include the provisions contained in this section in all contracts and subcontracts related to the Project.

17. **MANAGEMENT RESPONSIBILITIES.** OWNER/DEVELOPER is specifically responsible, subject to its obligations herein, for all management functions with respect to the Property, including, without limitation, the selection of tenants, certification and recertification of household size and income, evictions, collection of rents and deposits, maintenance, landscaping, routine and extraordinary repairs, replacement of capital items, and security. The CITY shall have no responsibility over management of the Property.

18. **MANAGEMENT ENTITY.** The CITY shall have the right to review and approve the management entity chosen by OWNER/DEVELOPER for the Property and, with the prior written consent of the Senior Lenders, Ground Lessor, and the tax credit investor (if applicable), shall have the right to require a change in the management agent for the Project in the event OWNER/DEVELOPER is in default under the AGREEMENT. Any contracting of management services by OWNER/DEVELOPER shall not relieve OWNER/DEVELOPER of its primary responsibilities for proper performance of management duties. The CITY approves of the use of USA Multifamily Management, Inc., a California corporation, engaged in the provision of multi-family residential and commercial property management services, as the designated initial management entity for the Project.

19 **DRAFT AND FINAL MANAGEMENT PLANS.**

A. **DRAFT MANAGEMENT PLAN.** OWNER/DEVELOPER shall prepare and submit to CITY a Draft Management Plan for CITY's review and approval. The Draft Management Plan shall be submitted to CITY at least one hundred eighty (180) calendar days prior to the anticipated date for completion of construction of the Project. The Draft Management Plan shall contain, but is not limited to, specific statement as to (1) the identity, experience and duties regarding operation of the Project of any non-profit, public benefit corporation who is a partner of OWNER/DEVELOPER; (2) marketing policies and strategies; (3) tenancy occupancy rules and regulations; (4) rental procedures and tenant income limitation; (5) eviction procedures; (6) operating policies and guidelines; (7) reserve account policies; (8) maintenance and capital improvement policies; and (9) shall provide as an exhibit thereto a sample form of lease agreement. Other than pursuant to the Ground Lease, or in connection with a foreclosure, deed in lieu of foreclosure, or other remedial action lawfully taken by any Senior Lender holding a security interest in the Property, upon transfer of the Project of OWNER/DEVELOPER'S interest in the Project, the party to who the Project is transferred shall, as a condition of such transfer, provide CITY with a copy of such party's Management Plan for the Project, which plan shall provide statements as called for herein.

B. **CITY REVIEW OF DRAFT MANAGEMENT PLAN.** Upon submittal of the Draft Management Plan by OWNER/DEVELOPER to CITY the CITY shall review the Draft Management Plan and provide written comments to OWNER/DEVELOPER within ninety (90) calendar days or as soon thereafter as is practicable.

C. **FINAL MANAGEMENT PLAN.** Prior to issuance of any Certificate of Occupancy for the Project, OWNER/DEVELOPER shall submit a Final Management Plan to the CITY for its review and final approval no later than thirty (30) calendar days prior to the anticipated date for completion of construction of the Project.

Notwithstanding the foregoing and subject to the rights of Senior Lenders and Ground Lessor, the CITY shall have the right to review and approve any proposed amendments to OWNER/DEVELOPER's contract with its management firm, or any new management contracts, during the term of this AGREEMENT; provided, however, that the CITY's approval shall not be required for a renewal of the initial management contract.

20. **MANAGEMENT AGENT.** The Project shall at all times be managed by an experienced Management Agent reasonably acceptable to CITY, with demonstrated ability to operate residential facilities like the Project in a manner that will provide decent, safe and sanitary housing. During the monitoring as described in Section 26, CITY will assess Management Agent's ability to operate the Project in a decent, safe and sanitary manner. One factor CITY will use to make its assessment will be a

comparison of calls for police and fire services with other senior (if applicable) rental complexes in Roseville which offer similar services.

OWNER/DEVELOPER shall submit for CITY's approval the identity of any proposed Management Agent. OWNER/DEVELOPER shall also submit such additional information about the background, experience, and financial condition of any proposed Management Agent as is reasonably necessary for CITY to determine whether the proposed Management Agent meets the standards for a qualified Management Agent set forth above.

If the proposed Management Agent meets the standards for a qualified Management Agent set forth above, CITY shall approve the proposed Management Agent by notifying OWNER/DEVELOPER in writing. Unless the proposed Management Agent is disapproved by CITY within thirty (30) days of said submission of identity and qualifications of proposed Management Agent, which disapproval shall state reasonable specificity the basis for disapproval it shall be deemed approved. USA Multifamily Management, Inc., a California corporation is hereby approved by the CITY as the initial Management Agent.

21. DISMISSAL OF MANAGEMENT AGENT. If CITY determines in its reasonable judgment that the Project is not being operated and managed in accordance with the terms of this Agreement, CITY shall deliver notice to OWNER/DEVELOPER of its intention to cause replacement of the Management Agent, including the reasons therefor, subject to the rights of Senior Lenders and Ground Lessor. Within fifteen (15) days of receipt by OWNER/DEVELOPER of such written notice, CITY staff and OWNER/DEVELOPER shall meet in good faith to consider methods for improving the operating status of the Project, including, without limitation, replacement of the Management Agent, which will be in OWNER/DEVELOPER's discretion subject to the rights of Senior Lenders and Ground Lessor.

22. MAINTENANCE AND SECURITY. OWNER/DEVELOPER shall at its own cost and expense maintain the Property in good condition, in good repair, and in decent, safe, sanitary, habitable, and tenantable living condition for the benefit of Project occupants. OWNER/DEVELOPER shall not commit or permit any waste on or to the Property, and shall prevent and/or rectify any physical deterioration of the Property. OWNER/DEVELOPER shall provide adequate ongoing security equipment and services for Project occupants. OWNER/DEVELOPER shall maintain the Property in conformance with all applicable state, federal, and local laws, ordinances, codes, and regulations and the Management Plan; but OWNER/DEVELOPER's maintenance obligations shall not be limited only to the standards contained in these laws or the Management Plan.

In the event the OWNER/DEVELOPER fails to maintain the Property in accordance with the foregoing standards, and after at least seven (7) calendar days' prior written notice to OWNER/DEVELOPER, Ground Lessor, and the Senior Lenders, the CITY or its agent may, but shall be under no obligation to, enter upon the Property,

make such repairs or replacements as are deemed necessary in CITY's reasonable discretion (with the prior written consent of the Senior Lenders and the Ground Lessor), and provide for payment thereof. Any amount advanced by CITY to make such repairs, together with the maximum legal interest rate thereon from the date of such shall become an additional obligation of OWNER/DEVELOPER to CITY shall be immediately due and payable to CITY.

23. **UNIT VACANCIES.** OWNER/DEVELOPER shall use its best efforts to fill vacancies in Regulated Units as quickly as possible.

24 **INSPECTION AND RECORDS.** OWNER/DEVELOPER shall maintain records which clearly document OWNER/DEVELOPER's performance of its obligations to operate the Property and the Project under the terms of this AGREEMENT. OWNER/DEVELOPER shall submit any records to the CITY within ten (10) business days of CITY's request. OWNER/DEVELOPER shall permit CITY to enter and inspect the Property and the Project for compliance with obligations under this AGREEMENT upon twenty-four (24) hours advance notice of such visit by CITY to OWNER/DEVELOPER or OWNER/DEVELOPER's management agent and to tenants of any inspected Project units, subject to the provisions of the lease regarding inspection and entry rights, which provisions must otherwise be consistent with state law.

25. **ANNUAL REPORT.** OWNER/DEVELOPER shall submit an annual report to CITY as required by California Health and Safety Code Section 33418, which shall include at a minimum for each Regulated Unit the rental rate and the income and household size of the occupants. The income information required under this report shall be supplied by the tenant in a certified statement on a form provided by CITY. CITY may request additional information be included in the annual report.

26. **MONITORING/NON-COMPLIANCE/CURE.** OWNER/DEVELOPER'S compliance with the provisions of this AGREEMENT shall be reviewed at least annually, and at such other times as CITY may require, upon thirty (30) days prior written notice from CITY. During any such review, OWNER/DEVELOPER shall bear the burden of proof to demonstrate good faith compliance with the terms of this AGREEMENT. If, as a result of such review, CITY finds and determines that OWNER/DEVELOPER has not complied in good faith with the terms and conditions of this AGREEMENT, CITY shall give written notice to OWNER/DEVELOPER of its findings and of the exact nature of OWNER/DEVELOPER'S non-compliance. OWNER/DEVELOPER shall be given a period of sixty (60) days after delivery of any such notice in which to cure, to the reasonable satisfaction of CITY, any non-compliance. In the event CITY fails to give OWNER/DEVELOPER notice of any non-compliance at or before the annual review, OWNER/DEVELOPER shall not be held responsible for any failure to comply with the terms and conditions of this AGREEMENT during the year covered by the annual review.

27. CITY REMEDIES FOR BREACH. If OWNER/DEVELOPER is unable or otherwise fails to cure any non-compliance within sixty (60) days after CITY delivers notice of non-compliance pursuant to Section 26, CITY may, in addition to any other remedy provided by law or equity, modify or terminate this AGREEMENT, seek liquidated damages in accordance with this AGREEMENT, or take any other action available to it under this AGREEMENT.

In particular, and without limitation by reason of enumeration, OWNER/DEVELOPER acknowledges and agrees that failure to cure any non-compliance under this AGREEMENT, whether by OWNER/DEVELOPER or any successor, shall, at the option of the CITY, constitute a breach and default under this AGREEMENT as to all other property within the Project.

In the event of any breach/default or violation of any agreement, obligation, or warranty under this AGREEMENT, CITY shall give written notice to OWNER/DEVELOPER, with copies to the Senior Lenders, Ground Lessor, and the limited partners of OWNER/DEVELOPER, specifying: (a) the nature of the breach or violation, (b) the action required to cure the breach or violation, and (c) a date, which shall not be less than thirty (30) calendar days from the date of the notice, by which such action to cure must be taken. If OWNER/DEVELOPER fails to cure the breach or violation within the time frame specified in the notice CITY additionally has the right, at its sole election, to:

A. Bring an action for equitable relief seeking the specific performance by OWNER/DEVELOPER of the terms and conditions of this AGREEMENT, and/or enjoining, abating, or preventing any violation of said terms and conditions, and/or seeking declaratory relief;

B. Intentionally deleted.

C. After notice provided for herein, make such repairs or replacements to the Property as are necessary and provide for payment thereof;

D. For violations of OWNER/DEVELOPER's obligations with respect to occupancy restrictions, Project maintenance, and unit vacancies, impose as liquidated damages a charge upon OWNER/DEVELOPER in an amount of THREE HUNDRED DOLLARS (\$300) per day for each Project unit that is not operated in compliance with this AGREEMENT; Prior to the imposition of liquidated damages, OWNER/DEVELOPER shall be given a period of thirty (30) days after delivery of written notice from CITY in which to cure, to the reasonable satisfaction of CITY, any such violations;

E. For violations of OWNER/DEVELOPER's obligations with respect to Project rents, impose as liquidated damages a charge upon OWNER/DEVELOPER in an amount equal to the actual amount OWNER/DEVELOPER has collected from any Qualifying Household in excess of the Qualifying Rent;

F. Pursue any other remedy allowed at law or in equity.

CITY's rights hereunder shall be in addition to, and not in lieu of, every other right or remedy provided for herein or now or hereafter existing at law or in equity by statute or otherwise, including, but not limited to injunctive relief, specific performance and damages. The exercise or beginning of exercise by CITY of any one or more rights or remedies, provided herein or now or hereafter existing at law or in equity by statute or otherwise, shall not preclude the simultaneous or later exercise by CITY of any or all other rights or remedies provided for in this AGREEMENT or now or hereafter existing at law or in equity or by statute or otherwise. All such rights and remedies shall be considered cumulative and nonexclusive.

The parties agree that the sums and formulas designated herein as liquidated damages represent a reasonable approximation of the damages CITY is likely to suffer from violations of the respective terms. OWNER/DEVELOPER agrees to pay in full any accrued liquidated damages to CITY within ten (10) calendar days of a written demand by CITY for such payment.

Notwithstanding anything to the contrary herein, the Tax Credit Investor has the right, but not the obligation, to cure any Event of Default or other default hereunder. CITY agrees that any cure of an Event of Default or other default by the Tax Credit Investor shall be deemed a cure by OWNER/DEVELOPER and shall be accepted or rejected on the same basis as if made by OWNER/DEVELOPER. CITY agrees to provide written notice of any Event of Default or other default to the Tax Credit Investor as provided herein concurrently with the provision of such notice to OWNER/DEVELOPER. As to the Tax Credit Investor, the cure period(s) specified herein shall commence upon the date of delivery of such notice to the Tax Credit Investor.

Notwithstanding anything to the contrary herein, CITY shall not exercise its rights under 26(C) or seek any money damages under this Agreement until the expiration of a 90-day period (the "Stand Still Period") following Senior Lender's and Ground Lessor's receipt from CITY of notice of a default under this Agreement; provided, however, the Stand Still Period shall be automatically extended for such period of time as (i) Senior Lender is diligently pursuing remedies for an Event of Default under Senior Lender's loan documents secured by the Property, or (ii) Ground Lessor is diligently pursuing remedies for an Event of Default under the Ground Lease. During the Stand Still Period, however, CITY shall be entitled to pursue specific performance and/or injunctive relief against OWNER/DEVELOPER for those rights and remedies under this Agreement relating to income, rent, or affordability restrictions. Senior Lender and Ground Lessor shall have the right, but not the obligation, to cure a default under this Agreement during the Stand Still Period. Following a Transfer of the Property in connection with a foreclosure, deed in lieu of foreclosure, or other remedial action lawfully taken by any Senior Lender holding a security interest in the Property, the

transferee shall not be liable under this Section 27 for any money damages that arose prior to the transferee having actual possession of the Property.

28. **FEES, TAXES, AND OTHER LEVIES.** OWNER/DEVELOPER shall be responsible for payment of all fees, assessments, taxes, charges, and levies imposed by any public authority or utility company with respect to the Property and the Project, and shall pay such charges prior to delinquency. However, OWNER/DEVELOPER shall not be required to pay any such charge so long as (a) the legality thereof is being contested in good faith and by appropriate proceedings, and (b) OWNER/DEVELOPER maintains reserves adequate to pay any contested liabilities.

29. **INSURANCE COVERAGE.** OWNER/DEVELOPER shall cause to have in full force and effect during the term of this AGREEMENT continuous insurance coverage as required by any lienholder.

30. **PROPERTY DAMAGE OR DESTRUCTION.** If any building or improvement erected by OWNER/DEVELOPER on the Property is damaged or destroyed, subject to the requirements of the Senior Lenders and Ground Lessor, OWNER/DEVELOPER shall, at its own cost and expense, repair or restore the Property consistent with the original Plans and Specifications for the Project. Such work shall be commenced within one hundred twenty (120) calendar days after the damage or loss occurs and shall be completed within three hundred and sixty-five (365) calendar days thereafter. Subject to the requirements of the Senior Lenders and Ground Lessor, all insurance proceeds collected for such damage or destruction shall be applied to the cost of such repairs or restoration and, if insurance proceeds are insufficient for such purpose, OWNER/DEVELOPER shall make up the deficiency.

GENERAL PROVISIONS

31. **SUBORDINATION.** Except as expressly set forth herein, this AGREEMENT shall not be subordinated in priority to any other interest in the Property that was not recorded on or prior to the date of recordation of this Agreement, unless the CITY expressly consents, in writing, to the subordination or junior priority of this AGREEMENT. Such consent, if any, shall be within the CITY's sole discretion, and may only be permitted, if at all, for purposes that conform with the circumstances authorized by California Health and Safety Code section 33334.14(a), and to the extent the proposed subordination does not jeopardize the CITY's security interest in the property and is otherwise consistent and compliant with all legal standards, including eligibility requirements and other conditions imposed by funding sources for the Project.

32. **TRANSFER AND ENCUMBRANCE OF PROPERTY.** During the term of this AGREEMENT, OWNER/DEVELOPER shall not make or permit any sale, agreement to sell, assignment, conveyance, lease (other than the rental of Project units to eligible residential tenant occupants), or transfer of the Property or any part thereof, including the sale of any general or limited partnership interests, the removal of any general partner, or any substantial change in operational or management control over

the Property (collectively referred to as "Transfers"), without the prior written consent of CITY. The limitations on OWNER/DEVELOPER's right of assignment or other transfer contained in this paragraph 32 shall not apply to any foreclosure, deed in lieu of foreclosure, or other remedial action lawfully taken by any Senior Lender holding a security interest in the Property; nor shall they apply to the transfer of limited partner interests in OWNER/DEVELOPER and/or the removal and substitution of a general partner or a limited partner pursuant to the terms and conditions of OWNER/DEVELOPER's organizational document ; nor shall it apply to (i) the sale of the fee estate in the Property to Ground Lessor, (ii) the Ground Lease, (iii) any remedy exercised pursuant to the Ground Lease and (iv) in connection with a subsequent sale or transfer of the Property following such exercise of remedy under the Ground Lease. .

CITY shall give its consent to a Transfer provided that it determines all of the following conditions are met: (a) OWNER/DEVELOPER is in compliance with this AGREEMENT or the Transfer will cure existing violations of this AGREEMENT; (b) the transferee agrees to assume all obligations of OWNER/DEVELOPER imposed by this AGREEMENT; (c) the transferee demonstrates to CITY's satisfaction that it is capable of owning and/or operating the Property and the Project in full compliance with this AGREEMENT; (d) the terms of the Transfer shall not jeopardize the CITY's security interest in the Property and is otherwise in full compliance with all legal standards, including eligibility requirements and other conditions imposed by funding sources for the Project; and (e) the Transfer has been approved by CITY's governing body, if such approval is required. For the avoidance of doubt, CITY 's prior written consent shall not be required in connection with a foreclosure or a deed-in-lieu of foreclosure of any senior deed of trust or in connection with any refinancing of the any loan made by a Senior Lender, so long as this Agreement remains senior and non-subordinate.

Other than the Ground Lease, any fee financing entered into by Ground Lessor, any loans provided by Senior Lenders or refinance loans, during the term of this AGREEMENT, OWNER/DEVELOPER shall not engage in any financing or other transaction creating any mortgage or other encumbrance or lien upon the Property and/or the Project (except for any financing provided by CITY), without the prior written consent of CITY, which consent may be withheld in CITY's sole discretion. CITY may give its consent to such financing if and only to the extent necessary to maintain or improve the affordability or condition of the Property and/or the Project.

33. NONLIABILITY OF OFFICIALS, EMPLOYEES, AND AGENTS. No member, official, director, employee, agent or independent contractor of CITY shall be personally liable to OWNER/DEVELOPER or third party beneficiaries for any obligation created under the terms of this AGREEMENT.

34. INDEMNITY AND WAIVER. Notwithstanding the insurance coverage required herein, OWNER/DEVELOPER shall indemnify and hold CITY, its members, officials, directors, employees, agents and independent contractors (collectively "Indemnitees"), harmless against any losses, damages, liabilities, claims, demands, judgments, actions, court costs, and legal or other expenses (including attorney's fees)

which Indemnitees may incur as a result of (1) OWNER/DEVELOPER's failure to perform any obligations as and when required by this AGREEMENT; (2) any failure of OWNER/DEVELOPER's representations or warranties to be true and complete in any material respect; or (3) any act or omission by OWNER/DEVELOPER or any contractor, subcontractor, management agent, or supplier with respect to the Project or the Property, except to the extent that such losses are caused solely by the negligence or willful misconduct of Indemnitees. The duty of the OWNER/DEVELOPER to indemnify includes the duty to defend Indemnitees in any court action, administrative action, or other proceeding brought by any third party arising from the Project or the Property. OWNER/DEVELOPER's duty to indemnify Indemnitees shall survive the term of this AGREEMENT. Following a Transfer of the Property in connection with (i) a foreclosure, deed in lieu of foreclosure, or other remedial action lawfully taken by any Senior Lender holding a security interest in the Property, or (ii) any remedy exercised pursuant to the Ground Lease, the transferee shall not be liable under this Section 34 for any obligations that arose prior to the transferee having actual possession of the Property.

OWNER/DEVELOPER hereby waives any claims, suits, or actions against the CITY on account of or arising from the Costa-Hawkins Rental Housing Act, California Civil Code Sections 1954.50 *et seq.* ("CHRA"). Furthermore, the parties hereby acknowledge and agree that, without limitation, any Project entitlements, permits, or approvals have conferred upon the OWNER/DEVELOPER and/or the Project either a direct financial contribution or other form of assistance pursuant to Section 1954.52(b) of the CHRA.

35. **GOVERNING LAW.** This AGREEMENT shall be interpreted under and be governed by the laws of the State of California, except for those provisions relating to choice of law and those provisions preempted by federal law.

36. **AGREEMENT CONTROLS.** In the event of a conflict between any provisions of this AGREEMENT and any of its exhibits, the terms of this AGREEMENT shall control.

37. **ATTORNEYS' FEES AND COSTS.** In the event that a legal or administrative action is brought to interpret or enforce the terms of this AGREEMENT, the prevailing party shall be entitled to recover all reasonable attorneys' fees and costs incurred in such action.

38. **TIME.** Time is of the essence in this AGREEMENT.

39. **CONSENTS AND APPROVALS.** Except as otherwise expressly provided in this AGREEMENT, any consent or approval required under the AGREEMENT shall not be unreasonably withheld or delayed.

40. **NOTICES, DEMANDS, AND COMMUNICATIONS.** Formal notices, demands, and communications between OWNER/DEVELOPER and CITY shall be given by first class or certified mail, return receipt requested, postage prepaid or

delivered personally, to OWNER/DEVELOPER and CITY as follows, or at such other address as a party may designate by written notice to the other party:

41. **BINDING UPON SUCCESSORS.** All provisions of this AGREEMENT shall be binding upon and inure to the benefit of the heirs, administrators, executors,

successors in interest, transferees, and assigns of OWNER/DEVELOPER and CITY, and shall run with the land for the full term of this AGREEMENT. Any successor in interest to OWNER/DEVELOPER and any purchaser or transferee of the Property shall be subject to all of the duties and obligations imposed on OWNER/DEVELOPER under this AGREEMENT for the full term of this AGREEMENT. The term "OWNER/DEVELOPER" as used in this AGREEMENT shall include all such assigns, successors-in-interest, and transferees.

42. **RELATIONSHIP OF PARTIES.** The relationship of OWNER/DEVELOPER and CITY for this Project during the term of this AGREEMENT shall not be construed as a joint venture, equity venture, or partnership. CITY neither undertakes nor assumes any responsibility or duty to OWNER/DEVELOPER or to any third party with respect to the operation of the Property or the actions of OWNER/DEVELOPER. Except as CITY may specify in writing, OWNER/DEVELOPER shall have no authority to act as an agent of CITY or to bind CITY to any obligation.

43. **WAIVER.** Any waiver by CITY of any obligation in this AGREEMENT must be in writing. No waiver shall be implied from any delay or failure by CITY to take action on any breach or default of OWNER/DEVELOPER or to pursue any remedy allowed under this AGREEMENT or applicable law. Any extension of time granted to OWNER/DEVELOPER to perform any obligation under this AGREEMENT shall not operate as a waiver or release from any of its obligations under this AGREEMENT. Consent by CITY to any act or omission by OWNER/DEVELOPER shall not be construed as the consent to any other or subsequent act or omission or to waive the requirement for CITY's written consent to future waivers.

44. **OTHER AGREEMENTS.** OWNER/DEVELOPER represents that it has not entered into any agreements that would restrict or compromise its ability to comply with the terms of this AGREEMENT. OWNER/DEVELOPER shall not enter into any agreements that are inconsistent with the terms of this AGREEMENT without an express written waiver by CITY.

45. **AMENDMENTS AND MODIFICATIONS.** Any amendments or modifications to this AGREEMENT must be in writing, and shall be effective only if executed by both OWNER/DEVELOPER and CITY, following receipt of all required approvals, and only with the consent of the Senior Lenders and Ground Lessor.

46. **SEVERABILITY.** Every provision of this AGREEMENT is intended to be severable. If any provision of this AGREEMENT is held invalid, illegal, or unenforceable by a court of competent jurisdiction, the validity, legality, and enforceability of the remaining provisions shall not be affected or impaired.

SPECIAL PROVISIONS

47. **REFINANCING REVIEW FEE.** In the event that the Property and/or the Project is a tax credit project and is refinanced during the term of this Agreement,

OWNER/DEVELOPER shall provide CITY a prepayment, upon request by OWNER/DEVELOPER, for CITY's staff costs in reviewing any refinancing documentation submitted to CITY for CITY's review and approval. Such prepayment shall be submitted by OWNER/DEVELOPER prior to CITY commencing any review. The prepayment will be ten thousand dollars (\$10,000.00). OWNER/DEVELOPER shall not be entitled to receive a refund of any such fee in the event that OWNER/DEVELOPER fails to complete such refinancing.

48. **TENANT MONITORING FEE.** Commencing one (1) year after the final Certificate of Occupancy for the Project and annually thereafter, OWNER/DEVELOPER shall pay to CITY, not later than March 31 of each year, a tenant monitoring fee equal to FORTY DOLLARS (\$40) for each occupied, rent restricted, apartment unit within the Project, with such fee to be adjusted to reflect the Project's actual occupancy rate. The fee for each unit shall be prorated over the portion of the year that the unit was occupied or leased. A penalty of ten percent (10%) per month shall be assessed against any fee not paid when due. Notwithstanding the foregoing, OWNER/DEVELOPER shall not be subject to a tenant monitoring fee, provided that the requirements of Government Code section 65915.3(b) are met.

49. **PARTICIPATION IN HOUSING CHOICE VOUCHER PROGRAM.** During the term of this AGREEMENT, OWNER/DEVELOPER agrees to participate in the Housing Choice Voucher ("HCV") program administered by the Roseville Housing Authority (the "Authority").

50. **CHECKLIST FOR REGULATED UNITS.** OWNER/DEVELOPER agrees that each prospective tenant, prior to rental of a Regulated Unit, shall be required to complete forms required by Exhibit C, or OWNER/DEVELOPER'S equivalent as approved in writing by CITY.

51. **GROUND LESSOR PROTECTION.** If Ground Lessor terminates the Ground Lease, it shall not be liable for any defaults or monetary obligations of OWNER/DEVELOPER arising prior to such termination. Ground Lessor shall not be obligated to construct or continue with construction of the Project.

IN WITNESS WHEREOF, the parties hereto have executed this AGREEMENT
as of the Effective Date.

CERTIFICATION OF RESIDENT ELIGIBILITY

Re: _____ Apt. # _____
Apartment Complex

I/we have read and answered truthfully, fully frankly and personally each of the following questions for all persons who are to occupy the unit being applied for in the above apartment project. Listed below are the names of all persons who intend to reside in the unit:

[illegible]

CERTIFICATION OF RESIDENT ELIGIBILITY (cont.)

INCOME COMPUTATION

- 6) The total anticipated income calculated in accordance with this paragraph 6, of all persons (except children under the age of 18 years) listed above for the 12-month period beginning the date that I/we plan to move into a unit is \$ _____ .

Included in the total anticipated income listed above are:

- a. All wages and salaries, overtime pay, commissions, fees and other compensation for personal services, before payroll deductions.

Excluded from such anticipated income are:

- a. Casual, sporadic or irregular gifts;
- b. Amounts which are specifically for or in reimbursement of medical expenses;
- c. Lump sum additions to family assets, such as inheritances, insurance payments (including payments under health and accident insurance and worker's compensation), capital gains and settlements for personal or property losses;
- d. Amounts of educational scholarships paid directly to the student or the educational institution and amounts paid by the government to a veteran for use in meeting the costs of tuition, fees, books, and equipment. Any amounts of such scholarships or payments to veterans not used for the above purposes are to be included in income;
- e. Hazardous duty pay to a family member in the Armed Forces who is away from home and exposed to hostile fire;
- f. Relocation payments under Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970;
- g. Foster child care payments;
- h. The value of coupon allotments for the purchase of food pursuant to the Food Stamp Act of 1977.

- 7) This certificate is made with the knowledge that it will be relied upon by the Owner to determine maximum income for eligibility to occupy the unit; and I/we

declare that all information set forth herein is true, correct and complete and based upon information I/we deem reliable and that the statement of total anticipated income contained in paragraph 6 is reasonable and based upon such investigation as the undersigned deemed necessary.

- 8) I/We will assist the Owner in obtaining any information or documents required to verify the statement made herein, including either an income verification from my/our present employer(s) or copies of federal tax returns for the immediately preceding calendar year.
- 9) I/We acknowledge that I/we have been advised that the making of any misrepresentation or misstatement in this declaration will constitute a material breach of my/our agreement with the Owner to lease the unit and will entitle the Owner to prevent or terminate my/our occupancy of the unit by institution of an action for eviction or other appropriate proceedings.

I/We declare under penalty of perjury that the foregoing is true and correct.

COUNCIL COMMUNICATION

CC #: 3663
File #: 0709-02

Title: HOUSING SUCCESSOR/CITY COUNCIL - Fiscal Year 2023-2024 Annual Report of the Low and Moderate Income Housing Asset Fund
Contact: Claudia Carreno 916-774-5476 ccarreno@roseville.ca.us
Trisha Isom 916-746-1239 tisom@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.23.

RECOMMENDATION TO COUNCIL

Staff requests that the City Council, acting as the Housing Successor, adopt a resolution approving the Fiscal Year 2023-24 Annual Report for the Low and Moderate Income Housing Asset Fund.

BACKGROUND

State of California legislation dissolved all California Redevelopment Agencies in 2012. As part of the dissolution process of the City of Roseville's Redevelopment Agency, the City elected to become the Housing Successor. State law requires the Housing Successor to maintain any funds transferred to it, together with any funds generated from housing assets in a separate Low and Moderate Income Housing Asset Fund and requires the funds to be used in accordance with applicable affordable housing-related provisions of the Community Redevelopment Law. These statutes require the Housing Successor to expend funds for specified administrative and monitoring costs related to ensuring the long-term affordability of deed-restricted affordable units.

Beginning in 2014, Housing Successors were required to produce an annual report of their housing activities, required by SB 341. The annual report, known as the Report of Required Information, is due to the Housing Successor's governing body by December 31st of each year and must include an independent financial audit of the Low and Moderate Income Housing Asset Fund ("Fund"), for the most recent fiscal year. The audit may be separate or included in the host jurisdiction's annual audit. The Report of Required Information must be included as part of the Annual Progress Report for the Housing Element which is reported to the State of California Department of Housing and Community Development and must also be posted on the Housing Successor's website by the end of the calendar year.

The Report of Required Information, per Health and Safety Code 34171.1(f), is mandated to include the following information from the prior year:

1. The amount deposited into the Low and Moderate Income Housing Asset Fund.
2. A statement of the fund balance as of the close of the last fiscal year.
3. A description of expenditures from the fund by category.
4. The statutory value of real property owned by the Housing Successor, the value of loans and grants receivable, and the sum of these two amounts.
5. A description of any transfers made.
6. A description and status of any project for which the Housing Successor receives or holds property tax revenue pursuant to the Recognized Obligation Payment Schedule.
7. For interests in real property acquired by the former Redevelopment Agency prior to February 1, 2012, a status update on compliance with Section 33334.16. For interests in real property acquired on or after February 1, 2012, a status update on the project.
8. A description of any outstanding obligations pursuant to Section 33413 that remained to transfer to the Housing Successor on February 1, 2012, of the Housing Successor's progress in meeting those obligations, and of the Housing Successor's plans to meet unmet obligations.
9. Reporting on income targeting requirements.
10. The percentage of units of deed-restricted rental housing restricted to seniors and assisted individually or jointly by the housing successor, its former redevelopment agency, and its host jurisdiction within the previous 10 years in relation to the aggregate number of units of deed-restricted rental housing assisted individually or jointly by the Housing Successor, its former redevelopment agency, and its host jurisdiction within the same time period.
11. The amount of any excess surplus, the amount of time that the Housing Successor has had excess surplus, and the Housing Successor's plan for eliminating the excess surplus. The completed Report of Required Information for the City of Roseville Housing Successor Agency is included as Attachment A of Attachment 1.
12. An inventory of homeownership units assisted by the former redevelopment agency or the Housing Successor that are subject to covenants or restrictions or to an adopted program that protects the former redevelopment agency's investment of moneys from the Low and Moderate Income Housing Fund pursuant to subdivision (f) of Section 33334.3.

For FY2023-24, the total deposits made into the Housing Successor fund totaled \$450,374 which is average from the preceding years. A total of \$56,700 was received as program income from loan payoff proceeds and \$252,532 from city loan payoffs. The total expenditures from the Housing Successor fund equaled \$913,696, an increase from the preceding year of \$280,343. The increase in expenditures is attributed to loaning \$500,000 for development of an affordable housing project and funding an Outreach Worker for \$80,000. The ending balance of the Housing Successor fund for FY2023-24 equaled \$1,918,010. The fund balance has not exceeded the sum of deposits in the prior four years.

Since the audit of Low and Moderate Income Asset Fund (Fund 2841) is included in the City of Roseville's Annual Comprehensive Financial Report (ACFR), as allowed by SB 341, that information will be provided to the State of California. The City's ACFR for FY2023-24 will be presented to the City Council in early 2025 and will be available on the City's website at www.roseville.ca.us under Departments & Divisions, Finance, Financial Transparency, or by searching for ACFR.

FISCAL IMPACT

Activities of the Low and Moderate Income Housing Asset Fund are separate and are not

dependent upon the General Fund. Use of these funds for the development and programming of local affordable housing units and homeless prevention and services reduces impacts on the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Fiscal Year 2023-24 Housing Successor Annual Report meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal D - Enhance economic vitality.

Resolution 24-402

23/24 Report of Required Information

RESOLUTION NO. 24-402

APPROVING THE ANNUAL REPORT FOR THE LOW AND MODERATE INCOME
HOUSING ASSET FUND FOR FISCAL YEAR 2023-24

WHEREAS, in 2012 the California State Legislature dissolved redevelopment agencies, and the City of Roseville Housing Successor Agency assumed the housing assets and functions of the former City of Roseville Redevelopment Agency; and

WHEREAS, SB-341 requires Housing Successors to produce an annual report of their housing activities by December 31st of each year; and

WHEREAS, staff has prepared the Report of Required Information for the Low and Moderate Income Housing Asset Fund for fiscal year 2023-24.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville approves the Report of Required Information for the Low and Moderate Income Housing Asset Fund for fiscal year 2023-24.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

Report of Required Information per Health and Safety Code 34176.1 (f)
City of Roseville Housing Successor
Fiscal Year 2023-24

1. Any amounts deposited into the Fund, with segregation of amounts deposited from payments pursuant to a Recognized Obligation Payment Schedule ("ROPS") from other sources.

<i>Amount</i>	<i>Source</i>	<i>Purpose</i>
\$60,864	Interest on Investments Earned	Fund Balance-Reserved
\$19,500	Interest on Notes/Loans	Fund Balance-Reserved
\$45,778	Monitoring Fees	Fund Balance-Reserved
\$252,532	20% Deposit from City Loan Payoff	Fund Balance-Reserved
\$56,700	Loan Payoffs-Program Income	Fund Balance-Reserved
\$15,000	Other Income	Fund Balance-Reserved
\$450,374	Total Deposits	

2. The balance in the Fund at the fiscal year end, with segregation of amounts held to meet obligations on a ROPS from other amounts.

<i>Amount</i>	<i>Description</i>
\$1,911,160	Ending Cash
\$6,850	Interest Receivable
\$1,918,010	Fund Balance 6/30/24

3. A description of expenditures from the Fund by category for:
- Monitoring and preserving the long-term affordability of units subject to affordability restrictions or covenants entered by the redevelopment agency or the housing successor and administering permitted affordable housing activities. *The amount that can be spent on monitoring and administration is capped at 2% of the value of the assets in the Fund or \$200,000 whichever is greater.*
 - Homeless prevention and rapid rehousing services. *This amount is limited to \$250,000 annually.*
 - Development of housing affordable to households at or below 80% of area median income ("AMI").

<i>Amount</i>	<i>Description</i>
\$50,452	a. Staff charges for Monitoring
\$101,046	a. Professional Services
\$12,199	a. Misc Office Charges
\$249,999	b. Homeless Prevention
\$500,000	c. Development of housing
\$913,696	Total Expenditures

Report of Required Information per Health and Safety Code 34176.1 (f)
City of Roseville Housing Successor
Fiscal Year 2023-24

4. The statutory value of real property owned by the housing successor, the value of loans and grants receivable, and the sum of these two amounts. *"Statutory value of real property" means the value of properties formerly held by the former redevelopment agency as listed on the housing asset transfer form approved by the Department of Finance ("DOF") and the purchase price of properties purchased by the housing successor.*

Amount	Description
\$875,000	Land - Note Receivable
\$5,760,000	Mercy Housing - Deferred Receivables
\$500,000	Hampstead Prospera at Fiddymont Workforce
\$3,693,755	FTHB/commercial Deferred Receivables
\$861,715	Residential
\$11,690,470	Total Value of Land & A/R

5. A description of any inter-jurisdictional transfers of monies from the Fund in the previous fiscal year as well as any transfer from prior fiscal years if the funds are still unencumbered and a description of and status update on any project for which transferred funds have been or will be expended if that project has not yet been placed in service.

None

6. A description of any project for which the housing successor receives or holds real property tax revenue pursuant to the ROPS and the status of that project.

None

7. For interests in real property acquired by the former redevelopment agency prior to February 1, 2012, a status update on compliance with the development of the property within five (5) years after the DOF approved the property as a housing asset, which would typically be the date of approval of the housing asset transfer list. For interests in real property acquired on or after February 1, 2012, a status update on the project.

Mercy Housing secured a loan from the Housing Successor for \$5,760,000 for the development of a 58-unit mixed-use affordable housing development at 623 Vernon Street, Roseville. The loan was approved by the City Council, acting as the Housing Successor, on November 16, 2016. The project was completed in November 2018.

In 2016, the Housing Successor committed \$600,000 of funding from the low/moderate affordable housing funds towards the Junction Crossing affordable rental housing development at 120 Pacific Street. The deferred low interest loan was approved by the City Council, acting as the Housing Successor, on October 20, 2021. This project includes 80 affordable units available for low- and very low-income households and was completed in February 2024.

Report of Required Information per Health and Safety Code 34176.1 (f)

City of Roseville Housing Successor

Fiscal Year 2023-24

The Housing Successor loaned \$500,000 in gap funding to Hampstead Company's Prospera at Fiddymment - Workforce Housing project for the development of a 104-unit mixed-income affordable housing development. The project is located at 2801 North Hayden Parkway in West Roseville and was completed in October 2024. The loan was approved by the City Council, acting as the Housing Successor, on April 3, 2024.

- 8. A description of any outstanding replacement housing and housing production obligations that transferred to the housing successor on February 1, 2012, the housing successor's progress in meeting those obligations, and the housing successor's plans to meet the unmet obligations.**

The Agency finalized a loan of \$500,000 from Low/Mod funds to one affordable rental project that developed 59 very low- and low-income units. The Agency will continue to use loan portfolio payoffs and 20% set-aside deposits from City loan payments to provide additional assistance for affordable housing developments. The value of the 20% loan receivable from the Successor Agency on June 30, 2024, is \$2,234,941 providing the California Department of Finance approves the payment of the City loans by the Successor Agency.

- 9. Reporting on income targeting requirements does not need to be included until December 31, 2019 for the period from January 1, 2014 through the end of the fiscal year covered by the report (June 30, 2019 for most housing successors), and every five years thereafter. However, it may be useful for housing successors to track this information on an annual basis to ensure the requirement is met every five years. *The required income targeting expenditures are that, over a five year period, the funds remaining after expenditures for monitoring and administration and rapid rehousing services, if any, must be expended for the development of housing affordable to and occupied by households earning 80% or less of the AMI, with at least 30% of the funds expended on the development of housing affordable to and occupied by households earning 30% or less of the AMI and not more than 20% of the funds expended on the development of housing affordable to and occupied by households earning between 60% and 80% of the AMI.***

<i>Project</i>	<i>Loan Mount</i>	<i>Assisted Units</i>	<i>AMI</i>
Prospera at Fiddymment Workforce	500,000.00	8	30%
Junction Crossing	438,000.00	8	30%
Junction Crossing	162,000.00	3	50%

Fiscal Year 2023-24

- 10. The percentage of units of deed-restricted rental housing restricted to seniors and assisted individually or jointly by the housing successor, its former redevelopment agency, and its host jurisdiction within the previous 10 years in relation to the total number of units of deed-restricted rental housing assisted individually or jointly by the housing successor, its former redevelopment agency, and its host jurisdiction within the same time period. *If the percentage of assisted senior rental housing is more than 50 percent of the total of all assisted rental housing, no additional senior rental housing can be assisted until the percentage falls to 50 percent or less.***

In last 10 years:

# of Units	Description
0	Senior Restricted Rental Housing Units
601	Non-Senior Restricted Rental Housing Units
601	Total Units
0%	% of Senior Restricted Rental Housing Units

- 11. The amount of any excess surplus, the amount of time that the successor agency has had the excess surplus, and the housing successor's plan for eliminating the excess surplus. *The definition of excess surplus has been modified so that an "excess surplus" exists to the extent a housing successor holds unencumbered funds in its Fund in an amount that exceeds the greater of \$1,000,000 or the total amount of deposits into the Fund for the preceding four fiscal years. The housing successor is required to spend the excess surplus amount or transfer that amount to another jurisdiction as provided in Health and Safety Code Section 34176.1(c)(2) within three fiscal years. If not, the excess surplus amount must be transferred to HCD to use pursuant to the Multifamily Housing Program or the Joe Serna, Jr. Farmworker Housing Grant Program.***

COUNCIL COMMUNICATION

CC #: 3681

File #: 0800-02 & 0800-03

Title: Customer Information System - Sole Source Master Professional Services Agreement and Support and Maintenance Agreement

Contact: Caitlin Ornelas 916-774-5178 cornelas@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.24.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute a sole source Master Professional Services Agreement and Support and Maintenance Agreement with Cayenta, a Division of N. Harris Computer Corporation. Staff also requests authority for the City Manager, or his designee, to execute two additional one-year renewals without further City Council approval, provided that the applicable budget is approved by the City Council each year.

BACKGROUND

Roseville first entered into an agreement with Cayenta, a division of N. Harris Computer Corporation, in 2014 to implement the Cayenta Customer Information System (CIS). The system went live in November 2017. Cayenta is the sole provider to deliver the necessary licensing, support, and maintenance services for the CIS, which is integral to the billing of utility services for the City of Roseville.

FISCAL IMPACT

The cost of this agreement for FY2024-25 is \$215,862.22 and all necessary funds are included in the Electric and Environmental Utilities FY2024-25 operating budgets. In accordance with the terms of the agreement, fees will increase annually by the greater of three percent (3%) or CPI, not to exceed seven percent (7%) annually. Therefore, staff request City Council provide authorization to adjust the annual contract cost for the optional years, and the appropriate amounts will be included in future year budgets. This recommendation has no impact on the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in

a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of this sole source Master Professional Services Agreement and Support and Maintenance Agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Goal F - Invest in well-planned infrastructure and growth

Description

Resolution 24-417

Master Agreement

Support and Maintenance Agreement

RESOLUTION NO. 24-417

APPROVING A MASTER PROFESSIONAL SERVICES AGREEMENT AND SUPPORT
AND MAINTENANCE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE
AND CAYENTA, A DIVISION OF N. HARRIS COMPUTER CORPORATION, AND
AUTHORIZING THE CITY MANAGER TO EXECUTE THEM
ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Master Professional Services Agreement, as well as a Support and Maintenance Agreement for the system utilized by Electric, Water, Wastewater, and Solid Waste departments for billing, customer service, field operations, analytics, and managing monthly billing, by and between the City of Roseville and Cayenta, a Division of N. Harris Computer Corporation, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said Master Professional Services Agreement, and associated Support and Maintenance Agreement, are hereby approved and that the City Manager is authorized to execute them on behalf of the City of Roseville.

BE IT FURTHER RESOLVED that the City Manager or his designee is authorized to execute two (2) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council each year, or until City staff determines that continuing with the same vendor is not in the City's best interest.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20__, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MASTER PROFESSIONAL SERVICES AGREEMENT

THIS MASTER PROFESSIONAL SERVICES AGREEMENT made as of the 1st day of November, 2024 (the “**Effective Date**”).

BETWEEN:

**CAYENTA, A DIVISION OF
N. HARRIS COMPUTER CORPORATION
 (“HARRIS”)**

- and -

**CITY OF ROSEVILLE, CA
 (“Organization”)**

WHEREAS:

- a) The Organization wishes to retain Harris to perform certain professional services as set out herein; and
- b) Harris has agreed to provide such services on the terms and conditions set out in this Agreement.

NOW THEREFORE, in consideration of the mutual covenants set out in this Agreement and for other good and valuable consideration (the receipt and sufficiency of which is hereby acknowledged), the parties agree as follows:

1. Term. This Agreement shall commence on the Effective Date and shall continue for a period of three (3) years (the “**Initial Term**”). Thereafter, this Agreement will automatically renew for up to two (2) additional one (1) year periods (each a “**Renewal Term**”). The Initial Term and the Renewal Terms shall collectively be referred to as the “**Term**”.

2. Services.

- a) **Statement(s) of Work.** The parties shall execute a Statement of Work for each project, which shall be attached hereto as Schedule “A”, Schedule “B”, and so on as required by Organization and agreed to by the parties. Each Statement of Work will be subject to the terms and conditions of this Agreement. In the event of conflict between this Agreement and any Statement of Work executed by the parties, the terms of this Agreement shall prevail.
- b) **Harris’s Obligations.** Harris shall use commercially reasonable efforts to provide the professional services set out in the applicable Statement of Work (the “**Services**”).

c) **Organization's Obligations.** To enable Harris to perform the Services, Organization agrees to provide the following to Harris:

- i. Information relative to Organization's hardware and software required for Harris to provide its Services;
- ii. Access to and use of Organization's facilities, equipment, hardware and software required by Harris to perform the Services;
- iii. Personnel and assistance as is reasonably required to enable Harris to perform the Services; and
- iv. A representative with authority to approve the plans and deliverables described in the applicable Statement of Work if so required.

d) **Ownership.** Organization may retain a PDF copy of any reports or other deliverables provided by Harris to Organization as part of the Services ("Deliverables"), however Harris is and shall remain the owner of all copyright, patents, trademarks, trade secrets and other intellectual property rights.

3. Fees.

- a) **Fees.** In consideration of providing the Services, Organization agrees to pay the fees set out in the applicable Statement of Work (the "**Fees**") to Harris. Organization acknowledges that the Fees may be increased from time to time, provided Harris first delivers notice of such Fees increase at least thirty (30) days prior to the anniversary of the Effective Date.
- b) **Invoices.** During the term of this Agreement, Harris shall deliver invoices to Organization. Unless otherwise stated in the applicable Statement of Work, each invoice delivered to Organization by Harris shall be due and payable upon receipt thereof by Organization.
- a) **Taxes.** The Fees are exclusive of taxes. Organization agrees to pay all applicable sales and use taxes, if any (excluding taxes on Harris's net income) ("**Taxes**") unless it provides HARRIS with a tax exemption certificate acceptable to the applicable taxing authorities.
- b) **Late Payment.** In the event Organization fails to pay all or any portion of an invoice on or before ninety (90) days after the date it becomes due ("Cure Period"), in addition to all other remedies Harris has under this Agreement or otherwise, Harris shall have the option to suspend or terminate all Services under this Agreement. Harris shall provide Organization with notice of non-payment during the Cure Period to allow Organization a reasonable time to cure such non-payment during the Cure Period. Suspension or termination of any such Services shall not relieve the Organization of its obligation to pay its outstanding invoices, including any applicable late charges.

4. Warranty

(a) **Warranty.** Harris warrants that the Services will be performed in a professional and diligent manner by personnel who are competent in performing their individual tasks.

(b) DISCLAIMER. TO THE GREATEST EXTENT PERMITTED BY LAW, EXCEPT FOR THE LIMITED WARRANTY PROVIDED IN SECTION 4(a), THE SERVICES ARE PROVIDED TO THE ORGANIZATION “AS IS” AND THERE ARE NO WARRANTIES, REPRESENTATIONS OR CONDITIONS, EXPRESSED OR IMPLIED, WRITTEN OR ORAL, ARISING BY STATUTE, OPERATION OF LAW, COURSE OF DEALING, USAGE OF TRADE OR OTHERWISE, REGARDING THEM OR ANY OTHER PRODUCT, SERVICE OR MATERIAL PROVIDED HEREUNDER OR IN CONNECTION HERewith.

HARRIS DISCLAIMS ANY IMPLIED WARRANTIES OR CONDITIONS REGARDING THE SERVICES AND ANY MATERIALS PROVIDED HEREUNDER OR IN CONNECTION HERewith, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABLE QUALITY, MERCHANTABILITY, DURABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NON-INFRINGEMENT.

HARRIS DOES NOT REPRESENT OR WARRANT THAT THE SERVICES SHALL MEET ANY OR ALL OF THE ORGANIZATION’S PARTICULAR REQUIREMENTS. NO AGREEMENTS VARYING OR EXTENDING ANY EXPRESS WARRANTIES SET FORTH IN THIS AGREEMENT SHALL BE BINDING ON EITHER PARTY UNLESS IN WRITING AND SIGNED BY AN AUTHORIZED SIGNING OFFICER OF HARRIS.

5. Termination

a) **Termination.** This Agreement may be terminated as follows:

- c) (i) In addition to any other rights and remedies available to it, either party may immediately terminate this Agreement in the event of material breach by the other party of its obligations and that breach is not cured within thirty (30) days of receipt of written notice to that effect;
- d) (ii) Either party may terminate this Agreement effective immediately upon written notice to the other party if the other party: (i) becomes insolvent; (ii) becomes the subject of any proceeding under any bankruptcy, insolvency or liquidation law, whether domestic or foreign, and whether voluntary or involuntary, which is not resolved favourably to the subject party within ninety (90) days of commencement thereof; or (iii) becomes subject to property seizure under court order, court injunction or other court order which has a material adverse effect on its ability to perform hereunder; or
- e) (iii) For convenience on ninety (90) days’ written notice by either party, provided that in the case of termination for convenience by Organization, it must pay for all Services performed up to and including the date of termination.

b) **Effects of Termination.**

- (i) In the event of termination of this Agreement Organization shall immediately pay all outstanding Fees and other amounts owing to HARRIS under this Agreement; and
- (ii) This Agreement shall automatically terminate in the event that the Software License

Agreement is terminated or expires.

6. Limitation of Liability

TO THE GREATEST EXTENT PERMITTED BY APPLICABLE LAW, HARRIS, ITS AFFILIATES, AND EACH OF THEIR RESPECTIVE DIRECTORS, OFFICERS, EMPLOYEES AND SHAREHOLDERS' ENTIRE LIABILITY AND ORGANIZATION'S EXCLUSIVE REMEDY WITH RESPECT TO THE SERVICES AND ANY OTHER PRODUCTS, MATERIALS SUPPLIED BY HARRIS IN CONNECTION WITH THIS AGREEMENT FOR DAMAGES FOR ANY CAUSE AND REGARDLESS OF THE CAUSE OF ACTION, WHETHER IN CONTRACT OR IN TORT, INCLUDING FUNDAMENTAL BREACH, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED IN THE AGGREGATE AN AMOUNT THAT IS EQUAL TO THE FEES PAID TO HARRIS BY ORGANIZATION PURSUANT TO THE RELEVANT STATEMENT OF WORK.

IN NO EVENT SHALL HARRIS, ITS AFFILIATES AND EACH OF THEIR RESPECTIVE DIRECTORS, OFFICERS, EMPLOYEES AND SHAREHOLDERS, BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, INDIRECT, EXEMPLARY, PUNITIVE, OR SPECIAL DAMAGES WHATSOEVER, INCLUDING BUT NOT LIMITED TO FOR LOST REVENUE OR LOSS OF PROFITS, LOSS OF BUSINESS, LOSS OF DATA, FAILURE TO REALIZE EXPECTED SAVINGS, OR COST OF SUBSTITUTE GOODS OR SERVICES ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT, EVEN IF IT HAS BEEN ADVISED OF THE LIKELIHOOD OF THE OCCURRENCE OF SUCH LOSS OR DAMAGE OR SUCH LOSS OR DAMAGE IS FORSEEABLE AND NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

7. Confidential Information

- a) **Definition.** Each party acknowledges that it may receive Confidential Information from the other party or otherwise in connection with this Agreement. "**Confidential Information**" means all information or material that the disclosing party treats as confidential and any information relating to third parties that the disclosing party has an obligation to treat as confidential, which is disclosed by or obtained by a party in connection with this Agreement, whether such information is in oral, written, graphic or electronic form, which: is (A) marked "Confidential," "Restricted," or "Proprietary Information" or other similar marking, (B) known by the parties to be considered confidential or proprietary, or (C) which should be known or understood to be confidential or proprietary by an individual exercising reasonable commercial judgment in the circumstances. Confidential Information does not include information to the extent that such information: (i) is or becomes generally known to the public by any means other than a breach of the obligations of a receiving party hereunder; (ii) was previously known to the receiving party as evidenced by its written records; (iii) is rightly received by the receiving party from a third party who is not under an obligation of confidentiality; or (iv) is independently developed by the receiving party without reference to or use of the other party's Confidential Information which such independent development can be established by evidence that would be acceptable to a court of competent jurisdiction.

- b) Confidentiality Obligations.** Each of the parties agrees:
 - f) to maintain the Confidential Information of the other party in confidence and to take all reasonable steps, which shall be no less than those steps it takes to protect its own confidential and proprietary information, to protect the Confidential Information of the other party from unauthorized use, disclosure, copying or publication;
 - g) not to use the Confidential Information of the other party other than in the course of exercising its rights or performing its obligations under this Agreement;
 - h) not to disclose or release such Confidential Information except to the extent required by applicable law or during the course of or in connection with any litigation, arbitration or other proceeding based upon or in connection with the subject matter of this Agreement, provided that the receiving party shall first give reasonable notice to the disclosing party prior to such disclosure so that the disclosing party may obtain a protective order or equivalent and provided that the receiving party shall comply with any such protective order or equivalent;
 - i) not to disclose or release such Confidential Information to any third person without the prior written consent of the disclosing party, except for authorized employees or agents of the receiving party who have a need to know such information for the purpose of performance under this Agreement and exercising its rights under this Agreement, and who are bound by confidentiality obligations at least as protective of the disclosing party's Confidential Information as this Agreement; and
 - j) to take such actions as may be reasonably necessary to enforce its agreements with its employees and agents, including commencing legal proceedings.

8. General

- a) **Mediation.** The parties agree to make best efforts to first address any claim, controversy or dispute arising out of or relating to this Agreement or the relationship created by this Agreement through senior level representatives of each party. A party may request the other party to participate in non-binding mediation in the State of California before bringing a claim, controversy or dispute in a court or before any other tribunal. Such mediation is to be conducted by either an individual mediator or a mediator appointed by mediation services mutually agreeable to the parties. Such mediator shall be knowledgeable in software system agreements. The mediation shall take place at a time and location in California which is also mutually agreeable; provided; however, that an agreed-upon mediation shall occur no later than ninety (90) days after either party notifies the other of its desire to have a dispute be placed before a mediator. The costs and expenses of mediation, including compensation and expenses of the mediator (and except for the attorney's fees incurred by either party), is to be shared by the parties equally. If the parties are unable to resolve the claim, controversy or dispute within ninety (90) days after the date either party provides the other notice of mediation, then either party may bring and initiate a legal proceeding to resolve the claim, controversy or dispute unless the time period is extended by a written agreement of the parties. Nothing in this Section shall inhibit a party's right to seek injunctive relief at any time.
- b) Notice.** Any notice required or permitted to be given to any party to this Agreement shall be given in writing and shall be delivered personally, or mailed by prepaid registered post or courier to the appropriate address set out below. Any such notice shall be conclusively deemed to have been given and received on the day on which it is delivered or transmitted,

if personally delivered or, if mailed, on the third business day following the date of mailing, and addressed, in the case of HARRIS, to:

Each party may change its particulars respecting notice, by issuing notice to the other party in the manner described in this Section 7(b).

- c) **Assignment.** Neither party may assign any of its rights or duties under this Agreement without the prior written consent of the other party, such consent not to be unreasonably withheld, except that either party may assign to an affiliate of such party or to successor entity in the event of its dissolution, acquisition, sale of substantially all of its assets, merger or other change in legal status. The Agreement shall inure to the benefit of and be binding upon the parties to this Agreement and their respective successors and permitted assigns.
- d) **Entire Agreement.** This Agreement shall constitute the entire agreement between the parties hereto with respect to the matters covered herein. No other understandings, agreements, representations, warranties or other matters, oral or written, purportedly agreed to or represented by or on behalf of Harris by any of its employees or agents, or contained in any sales materials or brochures, shall be deemed to bind the parties hereto with respect to the subject matter hereof. Organization acknowledges that it is entering into this Agreement solely on the basis of the representations contained herein. The terms of this Agreement may not be changed except by an amendment signed by an authorized representative of each party. No provisions in any purchase orders, or in any other

documentation employed by or on behalf of the Organization in connection with this Agreement, regardless of the date of such documentation, will affect the terms of this Agreement, even if such document is accepted by Harris, with such provisions being deemed deleted.

- e) **Governing Law.** This Agreement shall be governed by the laws of the federal laws of the United States and the laws of the State of California, as applicable. This Agreement excludes that body of law applicable to choice of law, the Uniform Commercial Code and the United Nations Convention on Contracts for the International Sale of Goods (UNCCISG and any legislation implementing such Convention).
- f) **Trial by Jury.** Organization and Harris hereby waive, to the fullest extent permitted by applicable law, the right to trial by jury in any action, proceeding or counterclaim filed by any party, whether in contract, tort or otherwise, relating directly or indirectly to this Agreement or any acts or omissions of Harris in connection therewith or contemplated thereby.
- g) **Severability.** The invalidity or unenforceability of any provision or covenant contained in this Agreement shall not affect the validity or enforceability of any other provision or covenant herein contained and any such invalid provision or covenant shall be deemed modified to the extent necessary in order to render such provision valid and enforceable; if such provision may not be so saved, it shall be severed and the remainder of this Agreement shall remain in full force and effect.
- h) **Waiver.** No waiver of any breach of any provision of this Agreement shall constitute a waiver of any prior, concurrent, or subsequent breach of the same or any other provisions hereof, and no waiver shall be effective unless made in writing and signed by an authorized representative of the waiving party.
- i) **Counterparts.** This Agreement may be executed in counterparts (whether by facsimile or PDF signature or otherwise), each of which when so executed shall constitute an original and all of which together shall constitute one and the same instrument.
- j) **Relationship.** The parties are and shall at all times remain, independent contractors in the performance of this Agreement and nothing herein shall be deemed to create a joint venture, partnership or agency relationship between the parties. Neither party will have the power to bind the other party or to contract in the name of or create any liability against the other party in any way for any purpose. Neither party will be responsible for the acts or defaults of the other party or of those for whom the other party is in law responsible.
- k) **Allocation of Risk.** Organization acknowledges that the limited warranties, disclaimers and limitations of liability contained in this Agreement are fundamental elements of the basis of bargain between Organization and Harris and set forth an allocation of risk reflected in the fees and payments due hereunder.

- l) **Force Majeure.** No default, delay or failure to perform on the part of Harris shall be considered a breach of this Agreement where such default, delay or failure is due to a force majeure or to circumstances beyond its control. Such circumstances will include, without limitation, strikes, riots, civil disturbances, , epidemics, war, terrorist acts, embargoes, severe weather, fire, earthquakes, acts of God .
- m) **Survival.** The following sections and articles shall survive the termination or expiration of this Agreement: Sections 2(c), 3, 4, 5(b), 6-8 and any other provisions which are required to ensure that the parties fully exercise their rights and obligations hereunder.

[Signatures on Following Page]

IN WITNESS WHEREOF the parties hereto have duly executed this Agreement to be effective as of the Effective Date.

COUNCIL COMMUNICATION

CC #: 3685
File #: 0800-03

Title: Sole Source Operational Software Maintenance and Support Services - General Terms and Conditions
Contact: Tom Pontes 916-774-5550 tpontes@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.25.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute General Terms and Conditions with AVEVA Software, LLC for software maintenance and support services.

BACKGROUND

Roseville Electric Utility (REU) utilizes a specialized software system to capture, process, and visualize operational data from its distribution and generation industrial control systems. This information is used by various divisions in the Department and is critical to the effective operation of the electric utility. AVEVA Software, LLC, the sole vendor for this proprietary system, provides essential software support and licensing. This three-year agreement includes a discounted rate structure and provisions for emergency system maintenance.

FISCAL IMPACT

The total cost of the three-year agreement will not exceed \$262,424.92. Funding is included in the the Electric Department's FY2024-25 budget in the Electric Fund. Funding for future years will be contingent on approval of the respective budgets.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. This software maintenance and support services agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Tom Pontes, Assistant Electric Utility Director

Dan Beans, Electric Utility Director

Dominick Casey, City Manager

Description

Resolution 24-421

Terms and Conditions

RESOLUTION NO. 24-421

APPROVING GENERAL TERMS AND CONDITIONS, BY AND BETWEEN AVEVA SOFTWARE, LLC AND THE CITY OF ROSEVILLE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, General Terms and Conditions for software maintenance and support services for Roseville Electric Utility, by and between the City of Roseville and AVEVA Software, LLC, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said General Terms and Conditions are hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

City Clerk

1. Interpretation. Unless the context clearly requires otherwise, references to “Agreement” mean, and this Agreement consists of, all of the following: (i) these General Terms and Conditions and any Appendices and Addenda attached hereto, (ii) any Order Form; and (iii) any and all AVEVA policy documents or support manuals referenced in any of the foregoing. In the event of a conflict between the provisions in any documents forming part of this Agreement, the documents shall be given precedence in the following descending order: (1) the provisions of these General Terms and Conditions, (2) the provisions of any Appendix or Addenda to this Agreement; and (3) the provisions of any Order Form. Unless otherwise stated, “including” and “e.g.” are not exclusive or limiting and will be deemed followed by “without limitation”.

2. Product License; Right to Access and Use

2.1 The following license terms shall apply to any On Premises Product: (i) conditioned upon the Customer complying with the terms and conditions of this Agreement (including payment of the applicable Charges), AVEVA hereby grants to the Customer, for the license term specified in such Order Form or otherwise in AVEVA Connect, a non-transferable, non-sublicensable, non-exclusive license to Use the On Premises Product only on the Customer Premises in accordance with this Agreement; and (ii) this license shall not extend to any Customer Affiliate unless such Affiliate is specifically named on the applicable Order Form.

2.2 The following right to use shall apply to any Cloud Service: (i) conditioned upon the Customer complying with the terms and conditions of this Agreement (including payment of the applicable Charges), AVEVA hereby grants to the Customer, for the subscription period specified in such Order Form or otherwise in AVEVA Connect, the right to access and use the Cloud Service (through AVEVA Connect) solely for internal business purposes and otherwise in accordance with this Agreement; and (ii) the Customer shall not make AVEVA Connect or the Cloud Service accessible or available for Use by any person or entity other than the Customer’s Users and Customer Affiliates.

3. General Use of the Products. Unless expressly required by Applicable Law without the possibility of contractual waiver, the Customer shall not:

3.1 reverse engineer, reproduce, decompile, recompile, disassemble, merge, modify, adapt or translate a Product or any component thereof, or create derivative works based on a Product, nor allow any third party to do the same;

3.2 work around any technical limitations in a Product or Use a Product in any way that exceeds the Product’s technical or usage limitations;

3.3 make more copies of a Product or documentation than is permitted under this Agreement or Use back-up copies of a Product for purposes other than restoring the Customer’s Use of the Product following a failure of that Product or the hardware that it is installed upon (including for purposes of training, testing or as a hot standby or caching server);

3.4 transfer, assign, sublicense, or rent a Product or any part thereof to any other person or entity, or permit timesharing or service bureau Use of, or commercially exploit a Product or any part thereof, in each case except in accordance with this Agreement;

3.5 incorporate a Product into anything not provided by AVEVA, except (i) for incorporation of a Product or documentation with application program interfaces that AVEVA makes publicly available for such Product or documentation, provided that such use is performed by the Customer for the Customer’s benefit only, (ii) to the extent expressly permitted, to customize a Product in accordance with the accompanying documentation, or (iii) as expressly permitted under a separate written agreement with AVEVA;

3.6 perform any benchmark testing or any of the following security testing of any Product without AVEVA’s prior written consent: network discovery, port and service identification, vulnerability scanning, password cracking, remote access testing, or penetration testing;

3.7 transfer a Product to another location or to other equipment without the prior written consent of AVEVA;

3.8 use a Product to store or transmit infringing, libellous, or otherwise unlawful or tortious material or to store or transmit material in breach of Applicable Laws or third party rights.

4. AVEVA Support Services

4.1 Conditioned upon the Customer complying with the terms and conditions of this Agreement (including payment of the applicable Charges), AVEVA shall provide the Support Services set out in the Order Form to the Customer.

4.2 Unless otherwise agreed in writing by AVEVA, AVEVA has no obligation to provide Support Services in respect of (i) Third Party Products or Resale Items; (ii) AVEVA software or hardware supplied by, or repaired by, any agent, distributor, reseller or other third party not authorized by AVEVA to supply or repair such AVEVA software or hardware; (iii) planning, installation, testing, and documentation of expansions, modifications or software upgrades of custom applications; (iv) hardware or software identified as retired phase or due to become retired under the AVEVA Software End of Life Policy (currently available at <https://www.aveva.com/en/legal/policies-compliance/>) (“Software EOL Policy”); (v) any version of a Product that is not the most up-to-date version of such Product; and (vi) any Pre-Production Product, Test Accounts, Partner Accounts or Preview. AVEVA reserves the right to charge the Customer additional Charges in respect of any Support Services provided for the matters set out in this Clause 4.2.

4.3 The Customer acknowledges that the Support Services are of an advisory nature and AVEVA provides no warranty, representation or undertaking that the Support Services shall achieve a specific business result.

4.4 Without prejudice to the Customer's statutory rights, AVEVA warrants that any parts for hardware which are supplied by AVEVA in performing the Support Services under this Agreement shall be free from material defects for a period of sixty (60) calendar days following Delivery of such parts. The Customer's sole and exclusive remedy and AVEVA's entire liability for a breach of this Clause 4.4 shall be to repair or replace the parts provided for the hardware by AVEVA.

4.5 To the extent AVEVA is contractually permitted to do so, it shall pass-through to the Customer any warranties from the original vendor and any upgrades, patches, service packs, or corrective fixes which are supplied for any Third Party Product while providing the Support Services under this Agreement. AVEVA shall not be responsible for any issues or defects with respect to any Third Party Products.

5. Charges; Expenses

5.1 The Customer shall pay the Charges for the Products, Support Services and Professional Services as set out in the Order Form.

5.2 In addition to the Charges set out in the Order Form, the Customer acknowledges that: (i) time spent providing the Professional Services or Support Services by AVEVA Personnel during hours outside of Normal Working Hours shall be charged by AVEVA to the Customer at the Overtime Rate; (ii) Standby Time shall be charged by AVEVA to the Customer whether or not any AVEVA Personnel are physically present at the Customer Premises, and if such Standby Time is outside of Normal Working Hours, the Customer shall be charged for such Standby Time at the Overtime Rate; (iii) all Support Services and Professional Services provided on the Customer Premises shall be charged to the Customer at the rates set forth in the Order Form, subject to the following: a minimum of four (4) hours will be charged by AVEVA to the Customer where hourly rates have been agreed with the Customer, and a minimum of one (1) day will be charged by AVEVA where daily rates have been agreed with the Customer; (iv) unless otherwise agreed in writing by AVEVA, any part of any hardware supplied by AVEVA that is identified as requiring replacement during the provision of the Support Services and Professional Services shall be charged by AVEVA to the Customer at the price notified by AVEVA to the Customer; and (v) if AVEVA agrees to provide additional Support Services or Professional Services to the Customer as result of any maintenance or repair work performed on any hardware by the Customer or any third party appointed by the Customer, AVEVA shall charge the Customer for such additional Support Services or Professional Services at the rates set forth in the Order Form.

5.3 Without prejudice to AVEVA's other rights and remedies under this Agreement or at law, if AVEVA cannot provide the Support Services or Professional Services in whole or in part due to a failure by the Customer to perform its obligations, then AVEVA may charge the Customer for any reasonable costs or other amounts that AVEVA may incur from such Customer failure, including the time of the affected AVEVA Personnel at AVEVA's then-standard rates.

5.4 Except as otherwise agreed in writing by Customer and AVEVA, Customer shall reimburse AVEVA for expenses incurred by AVEVA in the provision of the Support Services and Professional Services, including reasonable travel and living costs (including the cost of hotels, meals, and transport) of AVEVA Personnel engaged in the provision of the Support Services and Professional Services at the Customer Premises.

6. Invoicing and Payment

6.1 Unless otherwise agreed in the Order Form, the Customer shall pay the Charges set out in an invoice within thirty (30) calendar days from the date of such invoice and all Charges shall be in the currency identified in the Order Form. Customer shall pay a late charge of one and one-half percent (1.5%) (or the maximum rate permitted by law, if lower) per month above the base rate of the Federal Reserve on all payments which are not paid when due. Unless otherwise agreed by AVEVA in writing, the Charges set out in the Order Form shall be non-refundable, non-cancellable and non-contingent.

6.2 Without prejudice to any other rights or remedies available to AVEVA under this Agreement or at law if the Customer breaches any of its obligations to pay the Charges more than twice in any twelve (12) month period, or in AVEVA's reasonable opinion, there is a material adverse change in the Customer's financial condition, then AVEVA may issue an invoice to the Customer prior to the supply of the Products or the provision of the Support Services or Professional Services and any Charges set out in such invoice shall be due on the date of such invoice.

6.3 The Charges do not include taxes and, unless otherwise set out in the Order Form, the Customer shall pay all sales, use, value-added, gross receipt, stamp duty, stamp tax, goods and services tax, and other similar taxes ("**Transaction Taxes**") imposed by Applicable Laws on the Products, Support Services and Professional Services and associated with this Agreement, except for those taxes based on AVEVA's income. If Customer is exempt from paying a Transaction Tax, the Customer shall provide AVEVA with a written confirmation from the applicable tax authority of such valid Transaction Tax exemption at least twenty (20) calendar days before the due date for payment of the relevant invoice. In addition, Customer shall, on at least an annual basis and upon reasonable request from AVEVA, update or re-confirm such tax-exempt status. If AVEVA does not collect the required Transaction Taxes from Customer but is required to remit such Transaction Taxes to any taxing authority, the Customer shall reimburse AVEVA for (i) all such Transaction Taxes; and (ii) any accrued penalties and interest charges incurred by AVEVA where the failure to timely collect and remit was not due to AVEVA's own default. Without prejudice to AVEVA's other rights or remedies at law or under this Agreement, AVEVA reserves the right to invoice the Customer for Transaction Taxes if the Customer fails to provide the written confirmation of its tax-exempt status in accordance with this Clause 6.3. If the Customer is required by Applicable Laws to make any income tax withholding from the Charges under this Agreement, Customer will (i) withhold the legally required amount from payment; (ii) remit the withheld tax to the applicable taxing authority; and (iii) within sixty (60) days of payment, deliver to AVEVA original documentation or a certified copy evidencing remittance of withheld tax. If Customer does

not provide evidence of payment of withheld taxes, Customer will reimburse AVEVA for the tax withheld from payment to AVEVA within 60 days.

7. Pre-Production Product or Preview & Cloud Test and Partner Accounts; Resale Items

7.1 AVEVA may make a Pre-Production Product or Preview available to the Customer solely for the Customer's: (i) internal non-commercial purposes, non-production purposes, including demonstration, training, beta-testing and academic Use; (ii) evaluation of the Pre-Production Product or Preview; and (iii) providing feedback to AVEVA about such Pre-Production Product or Preview. Unless otherwise agreed in writing with AVEVA, the Customer shall not Use the Pre-Production Product or Preview for any other purpose (including in a production environment for commercial purposes). AVEVA reserves the right to revoke or suspend the Customer's Use of or access to the Pre-Production Product or Preview at any time and without notice.

7.2 If the Order Form states that the Customer's access to AVEVA Connect to receive the Cloud Services shall be a Test Account, then the Customer's right of use shall be limited to a right for the Customer to Use the Cloud Services solely for testing of the Cloud Service.

7.3 If the Order Form states that the Customer's access to AVEVA Connect to receive the Cloud Services shall be a Partner Account, then the Customer's right of use shall be limited to a right for the Customer to Use the Cloud Services solely to support the testing, development, promotion and sale of the Cloud Service.

7.4 All Test Accounts, Partner Accounts, Pre-Production Products, and Previews are provided "AS IS" and AVEVA hereby disclaims any and all liability, Damages, or obligation relating to the Test Accounts, Partner Accounts, Pre-Production Product or Preview and, without prejudice to the foregoing, AVEVA: (i) has no obligation to indemnify or defend the Customer for any Claim by any third party arising from or related to the Test Accounts, Partner Accounts, Pre-Production Product or Preview; (ii) hereby disclaims all warranties, express or implied, for the Test Accounts, Partner Accounts, Pre-Production Product or Preview; and (iii) shall not provide Support Services or any Service Level commitments for the Test Accounts, Partner Accounts, Pre-Production Product or Preview. If AVEVA provides the Customer with any Pre-Production Products or Previews identified as trial or demo software, the Customer shall have thirty (30) calendar days to use and evaluate such trial software, unless otherwise stated in the Order Form.

7.5 The Customer acknowledges that Resale Items may be provided to the Customer and that Resale Items: (i) are not Products, Support Services or Professional Services supplied or provided under this Agreement; (ii) may be subject to terms and conditions with third parties who are providing the Resale Items and to which the Customer agrees to be bound; and (iii) are received by the Customer solely at the Customer's own risk and without liability to AVEVA.

8. AVEVA's Right of Suspension. AVEVA may, in its sole discretion and without prior notice, suspend or limit the Customer's Use (or require the Customer to suspend or limit its Use) of the Products, Support Services and/or Professional Services, or any portion thereof, without incurring any liability to the Customer if: (i) AVEVA experiences or reasonably believes it will experience a security threat or system failure that endangers the integrity of AVEVA's internal systems; (ii) AVEVA is directed to do so by any law enforcement or regulatory agency; (iii) the continued performance of its obligations under this Agreement could result in AVEVA being in breach of Trade Controls or other Applicable Laws; (iv) AVEVA reasonably believes the Customer's Use of the Products amounts to excess usage; or (v) the Customer fails to pay the Charges. If AVEVA suspends or limits Customer's Use (or requires Customer to suspend or limit its Use) of the Product in accordance with any of the foregoing subclauses (i) through (iv), then AVEVA shall use commercially reasonable efforts to restore such Use as soon as reasonably practicable.

9. Customer Obligations

9.1 The Customer shall: (i) cooperate with AVEVA in good faith to enable AVEVA's provision of the Products, Support Services and Professional Services, including providing AVEVA with timely access to data, information and Customer Personnel; (ii) if any Support Services or Professional Services are to be provided at the Customer Premises, provide AVEVA Personnel with all necessary access to such Customer Premises on a without charge basis, including access to the Customer's information technology and telecommunications systems and any other facilities that are necessary for AVEVA to provide the Support Services or Professional Services; (iii) ensure that Customer's information technology and telecommunications systems comply with relevant specifications and requirements that may be provided by AVEVA from time to time; (iv) use commercially reasonable efforts to prevent any unauthorized Use of or access to the Products, and upon becoming aware of such unauthorized Use or access, promptly notify AVEVA in writing of such Use or access; and (v) obtain and maintain all necessary licenses, consents, and authorizations to allow AVEVA to supply the Products and provide the Support Services and Professional Services to the Customer, and for the Customer to Use the Products, receive the Support Services and Professional Services or share Customer Content.

9.2 The Customer agrees that it is responsible for use of the Products by Users and Customer's Affiliates and shall make all Users and Customer Affiliates aware of, and ensure that they comply with, the terms and conditions of this Agreement and AVEVA's Acceptable Use Policy. The Customer will be liable, jointly and severally with any User or Customer Affiliate, for all acts or omissions of such individual or entity, and any act or omission of such individual or entity that would be a breach of this Agreement if it were an act or omission of the Customer will constitute a breach of this Agreement by the Customer.

9.3 The Customer shall (i) not allow any User Credentials to be used by more than one individual User or Machine; and (ii) ensure that the User Credentials are kept confidential and secure. The Customer (and not AVEVA) shall be responsible for any unauthorized access to any of the Products through the misuse of the Customer's User Credentials.

9.4 AVEVA shall not be in breach of this Agreement and shall not be liable to the Customer for failure to perform its obligations under this Agreement if, and to the extent that, such failure (i) results from the Customer failing to perform any of its obligations under this Agreement; or (ii) is caused by any negligent, tortious or unlawful act or omission of the Customer.

10. Data Centre Locations. AVEVA may host AVEVA Connect and provide the Cloud Services for the Customer to Use the Cloud Service from such centres and locations as AVEVA may decide in its absolute discretion (including as AVEVA may decide to be necessary for any redundancy or backup purposes).

11. Health and Safety. The Customer shall ensure the Customer Premises are a safe environment for, and shall take all reasonable measures to protect the health and safety of, AVEVA Personnel engaged in the provision of the Support Services and Professional Services at the Customer Premises. AVEVA shall comply with the reasonable safety requirements, policies, procedures and rules of the Customer, where reasonably applicable, in respect of the Customer Premises provided that such safety requirements are provided to AVEVA at least fourteen (14) calendar days prior to such AVEVA Personnel arriving at the Customer Premises.

12. Regulatory Compliance

12.1 Each Party will comply with Applicable Laws in connection with the execution and performance of this Agreement. The Customer acknowledges that the Customer (and not AVEVA) is solely responsible for ensuring the Customer's compliance with all Applicable Laws.

12.2 Without limiting the generality of the foregoing:

1. each Party represents and undertakes that in connection with the execution and performance of this Agreement: (i) it will not, and will ensure that its authorized representatives and associated persons will not, directly or indirectly engage in or abet any activity, practice or conduct, which would constitute a breach of or an offense under applicable anti-bribery laws and regulations, including the U.K. Bribery Act 2010, the U.S. Foreign Corrupt Practices Act, any amendments and implementing regulations to such statutes, and any local anti-bribery laws and regulations (collectively, the "**Anti-Bribery Laws**"); (ii) it has and will maintain in place adequate procedures designed to prevent any authorized representatives and associated persons from undertaking any conduct that would give rise to a breach of or an offense under Anti-Bribery Laws; and (iii) from time to time at the reasonable request of the other Party, it will confirm in writing that it has complied with its undertakings under the foregoing subclauses (i) and (ii) and will provide any information reasonably requested by the other Party to confirm such compliance;

2. the Customer represents and undertakes that in connection with the performance of this Agreement, it will comply with all applicable Export Control Laws and Sanctions Laws in all respects related to the performance of this Agreement and each Order Form;

3. the Customer represents and undertakes that the Products, Support Services and Professional Services shall not be used: (i) in any country or territory subject to an export, import, financial or investment embargo under Export Control Laws or Sanctions Laws; (ii) in connection with any prohibited end use described under Export Control Laws or Sanctions Laws; (iii) by or for the benefit of any individual or entity denied party list maintained under Export Control Laws or Sanctions Laws, or any entity owned or controlled by such individual or entity; (iv) for any other use requiring an authorization under Export Control Laws or Sanctions Laws where such authorization has not been obtained; (v) in any manner, that could result in AVEVA being in breach of Export Control Laws or Sanctions Laws, and Customer represents and undertakes not to re-export or transfer any Products, Support Services or Professional Services in breach of any Export Control Laws or Sanctions Laws;

4. the Customer shall comply with AVEVA's Business Conduct Guidelines located at <https://www.aveva.com/>;

5. neither Party shall do anything that could reasonably prejudice the other Party's compliance with all Applicable Laws relating to anti-slavery and human trafficking.

12.3 AVEVA may, in its absolute discretion and without prejudice to its other rights and remedies under this Agreement or at law, revoke or suspend any of the rights granted under this Agreement if AVEVA believes, in its reasonable opinion, that the Customer is not in compliance with this Clause 12.

12.4 The Customer agrees that, within fourteen (14) calendar days of receipt of a written request from AVEVA, it will provide to AVEVA, in writing, the names of any and all of Customer's Users and Customer Affiliates in order for AVEVA to verify that the Customer is in compliance with this Clause 12.

13. Customer Content

13.1 During the Term, the Customer hereby grants and agrees to grant to AVEVA and its Affiliates a global, royalty-free, sub-licensable, non-exclusive license to use the Customer Content in order to: (i) provide the Products, Support Services, and Professional Services to the Customer; (ii) develop, improve, modify and optimize the Products, Support Services and Professional Services; and (iii) fulfil AVEVA's obligations under this Agreement, including making necessary disclosures and obtaining all licenses, permits, approvals, or consents required in connection with any Customer Content that is regulated content.

13.2 AVEVA may share Customer Content only to the extent that the Customer Content is aggregated and anonymized such that the Customer cannot be identified from the Customer Content.

13.3 The Customer warrants and represents that it owns or has the right to use all Intellectual Property Rights in and to the Customer Content, in connection with AVEVA's Products, Support Services and Professional Services.

13.4 The Customer acknowledges that to the extent that the Customer discloses or transmits Customer Content to a third party (including by allowing a third party to access Customer Content as a User), AVEVA shall not be responsible for the security, integrity or confidentiality of such Customer Content as disclosed or transmitted to such third party, notwithstanding anything to the contrary herein.

13.5 The Customer shall (i) be responsible for the accuracy, quality, integrity, legality, reliability, and appropriateness of the Customer Content, (ii) not include in any Customer Content any sensitive or special categories of Personal Data that would subject AVEVA to specific data security or data protection obligations, or other governmental regulation, (iii) ensure that the Customer Content is compatible with the application program interfaces in the Products, and (iv) be responsible for any security vulnerabilities, and the consequences of such security vulnerabilities, arising from the Customer Content, including any viruses, Trojan horses, worms or other harmful programming routines contained in the Customer Content. AVEVA may, in its absolute discretion and without prior notice to the Customer, delete any Customer Content that AVEVA identifies as containing any such security vulnerabilities.

13.6 The Customer acknowledges and agrees that the Cloud Services are not intended to act as a document or data retention system for the Customer and that the Cloud Service have limited capacity to store Customer's data (including the Customer Content) and the Customer must store and backup such data (including the Customer Content) in a separate system; and the Cloud Services may be subject to transmission errors, delivery failures, delays and other limitations inherent in the use of the internet and electronic communication.

14. Intellectual Property

14.1 All Intellectual Property Rights in and to the Products, Support Services and Professional Services, documentation and Deliverables, including techniques, knowledge or processes associated with design contributions, related knowledge or processes, and any and all updates, upgrades, modifications, enhancements, and derivative works of the foregoing, shall belong to, and vest in, AVEVA or, as applicable, its licensors, and the Customer hereby assigns and agrees to assign to AVEVA any and all Intellectual Property Rights that it might otherwise have in any of the foregoing. AVEVA retains all goodwill in, and the Customer has no rights in and to, any trade name, trademark, service mark, logo or other designation owned or controlled by AVEVA, whether registered or unregistered, including "AVEVA", the AVEVA logo, "Wonderware" and "InTouch".

14.2 If the Customer provides to AVEVA any suggestions, enhancement requests, recommendations, or other feedback related to the Products, Support Services, Professional Services, documentation or Deliverables (collectively, "**Feedback**"), AVEVA shall have and Customer hereby assigns and agrees to assign to AVEVA all right, title and interest, including all Intellectual Property Rights, in and to the Feedback. AVEVA shall have the unrestricted royalty-free right to use and incorporate into any of its products and services (including the Products, Support Services and Professional Services), documentation, and Deliverables, any and all Feedback. Furthermore, the Customer acknowledges and agrees that nothing herein shall limit AVEVA's rights to use its general knowledge, skills and experience, and any ideas, concepts, know-how and techniques, related to or derived from the performance of its obligations under this Agreement for any purpose.

15. Indemnification

15.1 Indemnification by AVEVA. Subject to the provisions of Clauses 15.3 and 22, AVEVA shall defend and indemnify the Customer against any Claims brought against the Customer by any third party alleging that Customer's Use of the Products or receipt of the Support Services and Professional Services in accordance with the terms and conditions of this Agreement infringes the Intellectual Property Rights of a third party ("**Third Party IP Claim**"), provided this indemnity shall not apply if the alleged infringement results from: (i) Use of the Products or receipt of the Support Services and Professional Services in conjunction or combination with any other software, services, product, data, item, or apparatus not provided by AVEVA to the Customer under this Agreement; (ii) anything the Customer provides or designs, including configurations, instructions, or specifications, and any Products or Support Services and Professional Services that were provided by AVEVA pursuant to Customer's designs, drawings, or specifications; (iii) a modification of a Product or the Support Services and Professional Services by the Customer or any third party; (iv) the Customer's failure to use the latest release or version of a Product or the Support Services and Professional Services (including any corrections or enhancements) where such use would have prevented such Claim; (v) AVEVA's compliance with designs or specifications of a published standard; (vi) the Customer's Use, storage, distribution, reproduction, or maintenance of the Products or the Support Services and Professional Services in breach of this Agreement; or (vii) any other breach of this Agreement by the Customer.

1. If AVEVA believes, in its reasonable opinion, that a Third Party IP Claim could or is likely to be made, or a Third Party IP Claim has been made, then AVEVA may, in its absolute discretion and at AVEVA's own cost (i) procure for the Customer the right to continue using the Product or receiving the Support Services and/or Professional Services under the terms of this Agreement; (ii) replace or modify the Product or the Support Services and/or Professional Services without a material decrease in functionality; or (iii) if either (i) or (ii) are not reasonably available, revoke any license in this Agreement for Products or Support Services and Professional Services that are the subject of such Third Party IP Claim. If AVEVA releases any Updates to

the Products to avoid or mitigate any such Third Party IP Claim, then the Customer shall install such Updates as soon as reasonably practicable and in no event more than seven (7) calendar days after receiving notice that such Updates have been issued by AVEVA.

15.2 Indemnification by the Customer. Subject to the provisions of Clause 15.3, the Customer shall defend and indemnify AVEVA and the AVEVA Personnel (collectively, the “**AVEVA Indemnitees**”) against Claims brought against the AVEVA Indemnitees by any third party arising from or related to: (i) the Customer’s use of the Products or the Support Services, and /or Professional Services in breach of any Applicable Laws or the terms of this Agreement; (ii) any Customer Content, including any allegation that any Customer Content infringes the Intellectual Property Rights of a third party; (iii) AVEVA’s use of or access to the Customer’s information technology and telecommunications systems or the Customer Premises in connection with the provision of Products, Support Services and Professional Services under this Agreement; and (iv) Customer’s Use of any of Product, Support Service or Professional Service in any application or situation where the failure of the Product, Support Service or Professional Service could lead to death or serious bodily injury to any person or to severe physical or environmental damage.

15.3 Indemnification Conduct of Claim. The indemnification obligations under this Clause 15 are conditional upon: (i) the Party against whom a Claim is brought timely notifying the other Party in writing of any such Claim; (ii) the Party who is obligated to defend a Claim having the right to fully control the defense of such Claim; (iii) the Party against whom a Claim is brought reasonably cooperating in the defense of such Claim; and (iv) in the case of a Third Party IP Claim, the Customer complying with AVEVA’s direction to cease any Use of the Products or Support Services and Professional Services which, in AVEVA’s reasonable opinion, may constitute an infringement. Neither Party shall settle any Claim in a manner that includes a financial or specific performance obligation on or admission of liability by the other Party without such Party’s prior written consent. The Party against whom a Claim is brought may appear and participate in the defense, at its own expense, through counsel reasonably acceptable to the Party obligated to defend such Claim, provided that the indemnifying party shall retain full control over the defense of the Claim. Without prejudice to AVEVA’s rights under Clause 15.1.1, neither Party shall undertake any action in response to any actual or alleged Third Party IP Claim that is prejudicial to the other Party’s rights.

16. Warranties, Representations and Undertakings

16.1 Authority. Each Party represents, warrants and undertakes that it has full capacity and authority and all necessary consents to enter into and to perform this Agreement and to grant the rights and licenses set forth in this Agreement, and that this Agreement is executed by its duly authorized representative and represents a binding commitment on it.

16.2 Limited Warranty for On-Premises Products. AVEVA warrants for a period of ninety (90) days following Delivery, that the On-Premises Product shall function in accordance with the accompanying documentation in all material respects. This warranty shall automatically become null and void if the warranty claim arises out of any modification or repair to the On-Premises Product that was made other than as expressly permitted by this Agreement. For any breach of this warranty, the Customer’s exclusive remedy, and AVEVA’s entire liability, shall be that AVEVA will, at AVEVA’s option: (a) promptly correct any On-Premises Product that fails to meet this limited warranty; (b) provide the Customer with a reasonable procedure to circumvent the nonconformity; or (c) refund the license fees paid by the Customer for the non-conforming On-Premises Product upon the Customer’s return of the same to AVEVA.

16.3 Limited Support Services Warranty. AVEVA will perform the Support Services in a professional manner. This warranty will be in effect for a period of thirty (30) days from the date of completion of the Support Service. For any breach of this warranty, the Customer’s exclusive remedy, and AVEVA’s entire liability, shall be the reperformance of the Support Services.

16.4 Limited Cloud Services Warranty. AVEVA warrants that during the Term of each applicable Order Form: (1) the Cloud Service will perform materially in accordance with the accompanying documentation; (2) the functionality of the Cloud Service will not be materially decreased; and (3) to the best of AVEVA’s knowledge, the Cloud Service does not contain, and AVEVA will not knowingly introduce, any Malicious Code.

17. Personal Data

17.1 Compliance with Laws. AVEVA and Customer shall, within the scope of this Agreement and in the context of their respective provision and use of the Products, Support Services and Professional Services, be responsible for complying with their obligations under Applicable Data Protection Legislation in their Processing of Personal Data.

17.2 AVEVA’s Processing of Account Personal Data. AVEVA Processes Account Personal Data for the following purposes:

1. AVEVA collects, uses and retains Account Personal Data (a) to manage the relationship with Customer; (b) to carry out AVEVA’s core business operations, such as accounting filing taxes and managing the business relationship with Customer; (c) to perform identity verification; (d) for its marketing activities, unless AVEVA has been otherwise specifically instructed by the relevant individuals; (e) to detect, prevent, or investigate security incidents, fraud, and other abuse or misuse of Products; (f) comply with AVEVA’s legal and regulatory obligations; and (g) as otherwise not prohibited or permitted, as the case may be, under Applicable Data Protection Legislation and the Agreement; and

2. AVEVA collects, uses and retains Account Personal Data through AVEVA’s various technical support or customer interaction channels in order to provide Support Services and Professional Services. For the avoidance of doubt, AVEVA does not Process Account Personal Data on behalf of Customer.

17.3 AVEVA’s Processing of Customer Personal Data on behalf of Customer. In the event that AVEVA Processes or is determined by any court or governmental authority with responsibility for data protection to Process any Customer Personal Data on behalf of the Customer, the Data Processing Addendum shall apply to such Processing of Customer Personal Data.

17.4 The Customer undertakes, represents and warrants that it has the right under Applicable Data Protection Legislation to share with AVEVA any and all Personal Data provided by the Customer to AVEVA.

18. Record Keeping. During the Term and for a period of two (2) years thereafter, the Customer shall maintain complete and accurate records documenting the location and Use of the Products and the receipt of the Support Services and Professional Services in a manner sufficient to permit AVEVA to conduct an audit in accordance with Clause 19 of this Agreement. The Customer acknowledges that AVEVA may collect, process and maintain Usage Metrics and other information relating to Use of the Products and receipt of the Support Services and Professional Services, including records of Users and from where they logged on to AVEVA Connect: (i) for AVEVA's own internal purposes; (ii) in order to verify the Customer's compliance with this Agreement; (iii) to comply with Applicable Laws; and (iv) to prevent fraud.

19. Audit

19.1 Without prejudice to Clause 19.2, during the Term and for a period of two (2) years thereafter, AVEVA (or its designee) shall be permitted to audit (at least once annually and in accordance with AVEVA's standard procedures, which may include on-site and/or remote audits of facilities, systems, records, and personnel during Normal Working Hours) the Use of the Products and the receipt of the Support Services and Professional Services (including identifying all of the Customer's Users and Affiliates) and the Customer's compliance with this Agreement.

19.2 Notwithstanding Clause 19.1, during the Term and for a period of five (5) years thereafter, AVEVA (or its designee) shall be permitted to audit (at least once annually and in accordance with AVEVA's standard procedures, which may include on-site and/or remote audits of facilities, systems, records, and personnel during Normal Working Hours) the Customer's compliance with Clause 12 of this Agreement.

19.3 The Customer shall cooperate reasonably in the conduct of any audit carried out pursuant to this Clause 19 and if: (i) the audit results indicate usage in excess of applicable usage limitations by five percent (5%) or more, (ii) underpayment of any Charges by five percent (5%) or more, or (iii) breach of this Agreement, all reasonable costs incurred by AVEVA for such audit shall be paid by the Customer.

20. License Compliance Monitoring

20.1 The Customer acknowledges that AVEVA may monitor Customer's and any third parties' compliance with any usage restrictions for the Products by legally permissible means, which may be by a security mechanism included in the Products and may include the detection, collection, transmission and processing of data (including Personal Data) by AVEVA, including IP addresses, email domains, and Wi-Fi geolocation, if an illegal copy of a Product is detected. The Customer consents to such compliance monitoring by AVEVA.

20.2 Within thirty (30) calendar days of receipt of a written request from AVEVA, the Customer shall provide AVEVA with a signed certification of compliance with the terms and conditions of this Agreement provided, however, that AVEVA shall not request more than one certificate of compliance annually.

20.3 If the Customer's Use of a Product exceeds the applicable usage limitations then, without prejudice to AVEVA's other rights and remedies at law or under this Agreement, AVEVA may suspend Use of such Product until the Customer: (i) pays Charges for such excess usage, which shall accrue from the date the excess usage began (together with an interest rate of one and one-half percent (1.5%) per month or partial month from the date such excess usage began until payment); and (ii) executes an additional Order Form documenting such excess usage and Charges.

21. Force Majeure. Except for the Customer's obligation to pay any Charges under this Agreement, neither Party shall be liable for delays or failure to perform caused, directly or indirectly, by circumstances beyond their reasonable control, including acts of God, earthquakes, fires, floods, wars, civil or military disturbances, acts of terrorism, sabotage, strikes, epidemics, pandemics, riots, power failures, computer failure and any other circumstances beyond their reasonable control that may cause interruption, loss or malfunction of utility, transportation, computer (hardware or software) or telephone communication service, accidents, labor disputes, acts of civil or military authority, governmental actions, or inability to obtain labor, material, equipment or transportation ("Force Majeure Event"). The affected Party shall provide notice of the Force Majeure Event to the other Party as soon as practicable. If a Party is prevented from meeting any deadlines under this Agreement as a result of a Force Majeure Event, such deadline will be extended by a period of time equal to the period of delay due to the Force Majeure Event, or to such other period as the Parties may agree in writing.

22. Limitations of Liability

22.1 No Implied Terms. Except for the representations and warranties expressly set out in this Agreement, AVEVA disclaims all other warranties, representations, or statements, whether express, implied or statutory, including, without limitation, any implied warranties of merchantability, fitness for a particular purpose, usage of trade, non-infringement or course of dealing, except to the extent that any such warranties cannot be validly waived under Applicable Laws. AVEVA does not warrant, represent or undertake that: (i) the Products, Support Services or Professional Services shall meet the Customer's requirements; (ii) the

Products, Deliverables, Support Services or Professional Services shall operate in combinations other than as specified in the documentation; (iii) the operation of the Products, Deliverables, Support Services or Professional Services shall be uninterrupted or error-free; or (iv) the Products, Deliverables, Support Services or Professional Services shall protect against all possible security threats, internet threats or other threats or interruptions.

22.2 No Indirect Loss. NOTWITHSTANDING ANYTHING TO THE CONTRARY HEREIN, IN NO EVENT SHALL EITHER PARTY BE LIABLE FOR: (I) ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, EXEMPLARY, SPECIAL, PUNITIVE OR SIMILAR DAMAGES; OR (II) LOSS OF BUSINESS, PROFITS, SAVINGS, OR REVENUE (EXCEPT TO THE EXTENT SUCH LOSS IS A DIRECT MEASURE OF DAMAGES FOR INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS), LOSS, CORRUPTION OR DESTRUCTION OF DATA, BUSINESS INTERRUPTION, OR DOWNTIME, IN EACH CASE ARISING OUT OF OR RELATED TO THIS AGREEMENT, REGARDLESS OF THE CAUSE OF ACTION OR BASIS OF LIABILITY (WHETHER IN CONTRACT, TORT, INDEMNITY, STRICT LIABILITY OR ANY OTHER LEGAL OR EQUITABLE THEORY), AND EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

22.3 Cap on Liability. Subject to Clause 22.4, the total aggregate liability of AVEVA and its Affiliates to the Customer for all Claims arising under or in relation to any particular Order Form and any activities taken or not taken in relation to such Order Form, regardless of the basis of liability (whether arising under breach of contract, obligations, or civil liability (including under any indemnity), tort (including negligence), misrepresentation, breach of statutory duty, breach of warranty, condition or Claims by third parties arising from any breach of this Agreement as applicable to such Order Form) shall not exceed the sum equal to (a) the Charges paid by Customer to AVEVA pursuant to such Order Form in the twelve (12) months preceding the date of the breach giving rise to the Claim, or (b) ten thousand US Dollars (\$10,000), whichever is greater. The Customer acknowledges that the provisions of this Clause 22.3 allocate the risks between AVEVA and the Customer and the Charges reflect this allocation of risk and the limitation of liability specified herein.

22.4 Nothing in this Agreement shall limit or exclude AVEVA's or its Affiliates' liability for: (i) intentional misconduct (ii) fraud; (iii) death or personal injury caused by negligence; or (iv) any liability to the extent such liability may not be excluded or limited under Applicable Laws.

23. Term; Termination

23.1 Term of the Agreement. This Agreement shall continue until either Party terminates this Agreement in accordance with Clause 23.3 ("Term").

23.2 Term of licenses/Order Form Term. The term of the license granted under Clause 2.1 for On Premises Products, and the right to access and use Cloud Services under Clause 2.2, will continue on a Product-by-Product basis for the applicable license term or subscription period identified in the Order Form, subject to the termination provisions herein.

23.3 Termination

1. Termination of General Terms and Conditions by notice. Either Party may terminate these General Terms and Conditions by giving no less than sixty (60) Business Days written notice to the other Party provided that such notice may not take effect earlier than the date which is 3 years from the Effective Date of the Agreement. These General Terms and Conditions will continue to govern any Order Form still in effect at the time of termination as if they had not been terminated.

2. Termination for Breach. Either Party may terminate this Agreement and/or any Order Form if the other Party commits a material breach of this Agreement or Order Form (including any failure to pay by the Customer) and fails to remedy such breach within twenty (20) Business Days of receipt of a written notice of default from the non-defaulting Party. In the event of a termination of this Agreement for breach of this Agreement, any Order Form then in force shall terminate. Termination of an individual Order Form shall not affect the continuation of this Agreement or any other Order Form. The Parties agree that the Customer's breach of Clauses 3. General Use of the Products, 9. Customer Obligations, 12. Regulatory Compliance, 17. Data Protection and Information Security, 18. Record Keeping, or 19. Audit, shall be deemed to be a material breach of this Agreement.

3. Termination for Insolvency. Either Party may terminate this Agreement if the other Party: (i) becomes or is declared insolvent, has a liquidator, receiver or administrative receiver appointed or passes a resolution for winding up (otherwise than for the purpose of a solvent amalgamation or reconstruction) or if a court having proper authority makes an order to that effect; (ii) enters into administration, is the subject of an administrative order or proposes to or enters into any voluntary arrangement with its creditors in the content of a potential liquidation; or (iii) is subject of any events or circumstances analogous to any of the foregoing in any applicable jurisdiction.

4. Termination for Change in Customer Status or Applicable Laws. (a) The Customer agrees that if it, its parent, or any Customer Affiliate, becomes subject to any Sanctions Laws, AVEVA may terminate this Agreement as required by such Sanctions Laws and retrieve any Products from the Customer and/or the Customer Premises within the time required. (b) AVEVA may terminate this Agreement or an Order Form at any time by giving written notice to the Customer if there is a change in any Applicable Laws such that the continued provision of the Products, Support Services, and/or Professional Services to the Customer would, in AVEVA's reasonable opinion, result in a breach of such Applicable Laws.

24. Consequences of Termination

24.1 Upon termination of this Agreement or any Order Form, or expiration of the license term of the applicable Products, the Customer shall, as instructed by AVEVA, destroy or return to AVEVA the Products (regardless of the media or device upon which such Products are fixed) and any related software install kits and documentation.

24.2 The Customer may request in writing during the Term that AVEVA return to the Customer any Customer Content stored on AVEVA Connect, and AVEVA shall, at the Customer's cost, use commercially reasonable efforts to return the Customer Content within sixty (60) calendar days of receipt of such written request, except where AVEVA is required to retain such Customer Content in accordance with Applicable Laws. From and after sixty (60) calendar days following the expiration or termination of this Agreement, AVEVA shall have no further obligations to continue to hold, store, export or return the Customer Content, and AVEVA may delete the Customer Content.

24.3 The Parties agree that Clauses 1. Interpretation, 5. Charges; Expenses, 6. Invoicing and Payment (with respect to any amounts owed as of the date of termination or expiration), 7.4. Pre-Production Product or Preview & Cloud Test and Partner Accounts; Resale Items, 14. Intellectual Property through to and including 19. Audit, 22. Limitations of Liability, 24. Consequences of Termination, and 26. Confidentiality through to and including 37. Governing Law, of this Agreement shall survive termination or expiration of this Agreement.

25. Products and Support Services End of Life. AVEVA may (i) modify any of its Products or Support Services at any time, provided that such modification will not compromise the material functionality of the Product or Support Service and (ii) discontinue marketing and support for any Product in accordance with the Software EOL Policy.

26. Confidentiality

26.1 From time to time, either Party (the “**Disclosing Party**”) may disclose or make available to the other Party (the “**Receiving Party**”) Confidential Information of or in the possession of the Disclosing Party in connection with this Agreement.

26.2 The Parties agree that Confidential Information shall not include any information, however designated, that: (i) the Receiving Party can show is or has become generally available to the public without breach of this Agreement by the Receiving Party or became rightfully known to the Receiving Party prior to disclosure to the Receiving Party by the Disclosing Party; (ii) was received from a third party without breach of any non-disclosure obligations to the Disclosing Party or otherwise in violation of the Disclosing Party's rights; or (iii) was developed by the Receiving Party independently of any Confidential Information received from the Disclosing Party.

26.3 Each Party shall (i) protect the Confidential Information received from the Disclosing Party in the same manner as it protects the confidentiality of its own proprietary and confidential materials, but in no event with less than reasonable care; and (ii) use the Confidential Information received from the Disclosing Party solely for the purposes of this Agreement and in accordance with the terms and conditions of this Agreement. Except as set out in Clause 26.5 and Clause 13.2, neither Party shall disclose to any person any Confidential Information received from the Disclosing Party without the Disclosing Party's prior written consent and the Receiving Party shall be responsible for any breach of this Clause 26 by its Affiliates, employees, contractors, and agents and any third party to whom it discloses Confidential Information in accordance with this Clause 26.

26.4 Upon termination or expiry of this Agreement or upon written request submitted by the Disclosing Party, whichever comes first, the Receiving Party shall use commercially reasonable efforts to return or destroy, as instructed by the Disclosing Party, all of the Disclosing Party's Confidential Information, provided however, that a party may retain the other party's Confidential Information during the pendency of a dispute or litigation between the Parties related to this Agreement, as required by Applicable Laws, or where it is unable to return or destroy such Confidential Information for technical or operational reasons.

26.5 Notwithstanding anything to the contrary in this Clause 26, the Receiving Party may disclose the Confidential Information of the Disclosing Party: (i) pursuant to an order of a court or governmental agency and provided that, if permitted by Applicable Laws, the Receiving Party shall first notify the Disclosing Party of such order and afford the Disclosing Party the opportunity to seek a protective order relating to such disclosure; and (ii) to such of its Affiliates (which, in the case of the Customer, shall be limited to those Customer Affiliates that receive Products, Support Services and Professional Services under this Agreement), employees, contractors, or agents who need to know the Confidential Information in order to support the performance of such Party's obligations under this Agreement and who are contractually bound by confidentiality obligations that are at least as onerous as those contained in this Agreement.

26.6 Neither Party shall issue any press release relating to this Agreement without the other Party's consent. Notwithstanding the foregoing, AVEVA may identify the Customer as a client of AVEVA in AVEVA's marketing literature and AVEVA is hereby granted a license for the Term to use the Customer's name and trade marks for this purpose, and AVEVA may describe the Products, Support Services and Professional Services provided under this Agreement to the Customer in AVEVA's promotional materials, presentations, case studies, qualification statements, and proposals.

27. Assignment and Subcontracting. Subject to this Clause 27, this Agreement shall extend to and be binding upon the Parties to this Agreement, their successors, and assigns, provided, however, that neither Party shall assign or transfer this Agreement without the other Party's prior written consent, which shall not be unreasonably withheld, delayed or made subject to a condition. AVEVA may make the provision of its consent to such an assignment by the Customer conditional on the Customer: (i) updating the Products, and /or Support Services that AVEVA supplies or provides to the Customer to the current version of such Products and/or Support

Services; or (ii) paying additional Charges. AVEVA may assign or transfer this Agreement, in whole or in part, without obtaining the consent of the Customer, to an Affiliate or in connection with the transfer or sale of its entire business or sale of all or substantially all of its assets, or in the event of a merger, divestiture, or consolidation with another company. AVEVA may contract with third party subcontractors to provide all or part of the Products, Support Services and/or Professional Services on behalf of AVEVA, and AVEVA may change or replace such subcontractors at any time in its sole discretion. AVEVA shall be responsible for the acts or omissions of such AVEVA subcontractors.

28. Notices. All notices to be given under this Agreement will be in writing and delivered by courier or delivery service with written verification of receipt, or by registered or certified mail, postage prepaid and return receipt requested to the addresses set out in the applicable Order Form or to such other address as may be specified in writing by either Party to the other. Notices will be deemed effective upon receipt. Notwithstanding the foregoing, any notices or other communications required or permitted to be provided pursuant to this Agreement may be provided by AVEVA to the Customer on AVEVA Connect; or by electronic mail to Customer's email address held in AVEVA's account information records.

29. Entire Agreement. This Agreement constitutes the entire agreement between the Parties relating to its subject matter and supersedes all prior or contemporaneous representations, understandings or agreements whether written or oral, relating to its subject matter. This Agreement will prevail over any additional, conflicting, or inconsistent terms and conditions that may be contained in any purchase order or other document provided by the Customer to AVEVA, or any clickwrap agreement covering the same subject matter. Each Party acknowledges that it is entering into this Agreement without reliance on any undertaking, warranty or representation given by or on behalf of the other, except as expressly set out in this Agreement.

30. Counterparts. This Agreement may be executed in counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument. An executed facsimile or electronic copy of this Agreement shall be construed as if it were an original.

31. Independent Contractor. Nothing in this Agreement: (i) shall be construed as establishing or implying any partnership or agency between the Parties; and (ii) shall authorize either Party, without obtaining the prior written consent of the other Party, to incur expenses or obligations on behalf of the other Party or to bind the other Party.

32. Waiver. The waiver (whether express or implied) by either Party of a breach or default of any of the provisions of this Agreement (including the Order Form) by the other Party shall not be construed as a waiver of any other breach of the same or other provisions, nor shall any delay or omission on the part of either Party to exercise or avail itself of any right power or privilege that it has or may have hereunder operate as a waiver of any breach or default by the other Party.

33. Severability. If any provision of this Agreement (including any Order Form) is found by any court to be invalid or unenforceable, the invalidity or unenforceability of such provision shall not affect the other provisions of this Agreement and all provisions not affected by such invalidity or unenforceability shall remain in full force and effect. The Parties hereby agree to attempt to substitute for any invalid or unenforceable provision a valid or enforceable provision which achieves to the greatest extent possible the economic, legal and commercial objectives of the invalid or unenforceable provision.

34. Anti-Competition. Nothing in this Agreement will be construed to preclude AVEVA from developing, using, or marketing products, services or other materials that may be competitive with the Products, Support Services and Professional Services supplied or provided to the Customer under this Agreement.

35. Third Party Rights and Affiliates. For the purposes of the UK Contracts (Rights of Third Parties) Act 1999 and any amendments and implementing regulations to it, the Parties do not intend any person other than a Party to this Agreement to be able to enforce any term of this Agreement (save where may be expressly stated otherwise in this Agreement).

36. Dispute Resolution

36.1 Informal Resolution. The Parties shall use all reasonable efforts to resolve any dispute arising out or in connection with the subject matter of this Agreement. Unless otherwise agreed in writing, all discussions shall be conducted without prejudice to the rights of each of the Parties and shall be conducted between the authorized representatives of the Parties.

36.2 Mediation. If a dispute cannot be resolved in accordance with Clause 36.1, the Parties shall refer the matter for at least one mediation session in accordance with Clause 36.2.1 and each Party shall use all reasonable efforts to participate in good

faith in the mediation session to resolve the dispute. Each Party shall bear its own costs of the mediation, except that the costs of the mediator shall be split equally between the Parties. If the first mediation session is unsuccessful, either Party may notify the other in writing that it intends to refer the dispute to a further mediation session and the other Party shall, within five (5) Business Days of receipt of such notice, acknowledge receipt of such notice and both Parties shall refer the matter to the further mediation session in accordance with Clause 36.2.1. If the further mediation session is unsuccessful or neither Party has notified the other in writing that it intends to refer the dispute to a further mediation session, either Party may refer the dispute to the courts identified in Clause 37 (Governing Law) which shall have exclusive jurisdiction, and such Party shall notify the other Party of the same in writing.

36.2.1 If a dispute is referred to mediation, the mediation shall be conducted in accordance with the JAMS Mediation and Arbitration Group processes and the following shall prevail in the event of a conflict with that procedure: (i) the mediation shall be conducted by a single mediator who shall be appointed by agreement in writing between the Parties or, if the Parties are unable to agree on the identity of the mediator within five (5) Business Days of the date of the request that the dispute be referred to a mediator, or if the mediator appointed is unable or unwilling to act, the mediator shall be appointed by the JAMS Mediation and Arbitration Group upon the application of either Party; and (ii) the mediation shall be held within fifteen (15) Business Days of the appointment of the mediator.

36.3 Notwithstanding the foregoing, AVEVA may file an action in any court of competent jurisdiction to enforce its intellectual property rights in its Products and Services without first submitting its claim to Informal Resolution or Mediation and Customer hereby submits to the jurisdiction of the courts and venue identified in Clause 37 (Governing Law) for this purpose.

36.4 Each Party waives, to the fullest extent permitted by Applicable Laws, any right it may have to a trial by jury in respect of any proceedings relating to the Agreement or any performance or failure to perform any of its obligations under the Agreement.

37. Governing Law. This Agreement and any dispute or claims arising out of or in connection with it or its subject matter or formation (including non-contractual disputes or claims) shall be governed by and construed in accordance with the laws of California without regard to conflict of laws principles that would require the application of the laws of another jurisdiction and brought exclusively in the venue of Orange County.

38. Language. The language of this Agreement is expressly stipulated to be English. In the event that this Agreement will be translated into another language, the English language version of this Agreement will be the governing version for purposes of interpreting and enforcing this Agreement. All Products, Documentation, Support Services, Professional Services and other information shall be provided in English unless otherwise indicated in an Order Form.

39. Insurance. During the Term of this Agreement, AVEVA shall maintain the following insurances in full force and effect below:

(a) Worker's Compensation/Employers Liability – covering all of AVEVA's employees engaged in the performance of Services hereunder with a limit per occurrence not less than USD 1,000,000 or the amount required by Law;

(b) Commercial General Liability Insurance – covering bodily injury (including death) and property damage, products liability and completed operations, with limits of not less than USD 1,000,000 per occurrence, products liability USD 2,000,000 in the annual aggregate.

(c) Automobile Liability Insurance - Covering owned, non-owned and hired vehicles used in connection with all operations, work and/or provision of services performed by or on behalf of supplier under or in connection with this Agreement with limit of not less than USD 1,000,000 each accident.

(d) Professional Liability / Errors and Omissions and Cyber/Privacy Liability insurance against any errors, omissions, negligent act arising out of the Services, limit not less than USD 5,000,000 each claim and USD 5,000,000 annual aggregate.

Each insurance above will be placed with an insurance carrier or carriers having an A. M. Best rating of A- or better, or an equivalent rating by another rating agency.

Upon request, AVEVA will provide Customer with copies of insurance certificates evidencing the insurances above. In respect of items 39.a, 39.b and 39.c above, limits may be satisfied with a combination of primary and umbrella or excess liability policy(s). In respect of item 39.b above, Customer, its officers, agents, employees and volunteers shall be included as a named insured on the policy via a blanket endorsement or section of the policy, and the policy shall include a waiver of subrogation, and be primary and non-contributory over any existing insurance and limited to liability arising out of the operations of the named insured. The certificate holder shall be listed as: The City of Roseville – Insurance Compliance, PO Box 10085-R1, Duluth, GA 30096.

Notice of Cancellation. AVEVA will provide Customer with written notice of any cancellation of any required insurance

policies within thirty (30) calendar days of receipt of notice from AVEVA's insurance carrier or broker.

DEFINITIONS APPENDIX

The following capitalised terms used in this Agreement shall have the respective meanings specified below:

“Acceptable Use Policy” or **“AUP”** means AVEVA’s then-current acceptable use policy, which is located at <https://www.aveva.com/en/legal/usage-policy>;

“Account Personal Data” means Personal Data that relates to Customer’s relationship with AVEVA, including the names or contact information of individuals authorized by Customer to access Customer’s account, and other individuals that Customer has associated with its account, and any Personal Data AVEVA may need to collect for the purpose of identity verification;

“Affiliates” with respect to a party, means any entity that directly or indirectly Controls, is Controlled by, or is under common Control with, another entity;

“Appendix” means an appendix to this Agreement;

1. **ORDER SUMMARY, PRODUCT SCHEDULES AND INVOICE SCHEDULE**

Section A: Order Summary

Total Flex Credit Fees:	USD 262,404.92
Total Flex Credits:	31,176
AVEVA Customer FIRST Program Service Level:	Premium

Through Flex Credits, Customer has access to the entire portfolio of AVEVA's Products on the AVEVA Connect platform. Customer can access a Cloud Service or download an On Premises Product via the AVEVA Connect platform and support websites. Customer's purchased or allocated credits will be deducted from the total number of credits (as applicable) shown in Customer's credit balance in the AVEVA Connect platform in accordance with the Product Rate Plan associated with the accessed or downloaded Products. The Product Rate Plan may change depending upon the Products that the Customer chooses throughout the course of the Term. Such changes will be shown in the AVEVA Connect platform. Appendix A sets out the agreed list of offers for Products initially selected by the Customer and their associated rate plan charges of said Products expressed in Flex Credits.

Section B: Order Details

AVEVA Flex Credits		
<u>AVEVA Product Code</u>	<u>Description</u>	<u>Quantity</u>
FLEXCR-003	AVEVA Flex Credits Designated for On-Premises Products	1188
FLEXCR-002	AVEVA Flex Credits Designated for Cloud Services	14550
FLEXCR-006	AVEVA Reward Credits for Cloud Services	15438
FLEXCR-001	Total AVEVA Flex Credits	31176

Customer acknowledges and agrees that any credits designated for On Premises Product can only be applied to On Premises Products and any credits designated for Cloud Service can only be applied to Cloud Service; they are not interchangeable.

Section C: Invoice Schedule and Product Fees

AVEVA will invoice Customer for the above Flex Credits in accordance with the invoice schedule below. Customer will pay to AVEVA the fees for the agreed Flex Credits set forth in this Order Form within 30 days of the invoice date set forth below.

Top-Up Flex Credits will be charged at the rate of USD 17.46 per credit (clause 2.2(c) below applies).

Item	Year 1	Year 2	Year 3
Invoice Amount	USD 83,254.02	USD 87,398.36	USD 91,752.54
Invoice Date	01 January 2025	01 January 2026	01 January 2027
Authorized Location(s) of Use	2090 Hilltop Circle, Roseville, CA 95747		

2. **Other Terms.**

- 2.1. Definitions. Capitalized terms used in this Order Form without definition have the meanings ascribed to them in the applicable document.
- "Authorized Location(s) of Use" means locations set forth in this Order Form where the On Premises Products are permitted to be installed.
- "AVEVA Connect Administrator" means the Customer representative(s) set out in the Order Form, which, in the management of the applicable Product(s) has the right to grant access or use to any Users of such Product on behalf of Customer.
- "Flex Credits" means Reward Credits, Test Credits or other electronic credits purchased by the Customer, which are then redeemed by the Customer for the use of On Premises Products or Cloud Service as the case may be. At the start of the Order Form Term, all Flex Credits for Products (whether On Premises or Cloud) purchased by the Customer as set forth in the Product Rate Plan, will be allotted in full to Customer for use throughout the entire Order Form Term. Any unused Flex Credits remaining at the end of the Order Form Term will expire and may not be carried forward to any other term or otherwise.
- "Product Rate Plan" means the information accessible via AVEVA Connect that provides a Customer with their then-current list of subscribed Products and the associated rate plan charges of said Products expressed in Flex Credits;
- "Reward Credits" means credits that AVEVA, in its sole discretion, may offer at no cost to the Customer.
- "Test Credits" means credits allocated to a Customer's AVEVA Connect Test Account. Such test account provides access to Products solely for non- production use.
- "Top-Up Flex Credits" means additional Flex Credits purchased by the Customer during the Order Form Term to remedy an AVEVA Connect Account that is overdrawn in Flex Credit usage or to supplement the Customer's Flex Credit usage.
- 2.2. Credit Based Subscription Model. The Customer understands that the Products supplied in connection with this Order Form are being provided on a credit based subscription model basis, and acknowledges that:
- a) The Customer's Use of the Products is controlled and restricted by the number of Flex Credits set out in this Order Form;
 - b) The Customer's initial Flex Credits as set out in this Order Form will expire at the end of the Order Form Term;

- c) If Customer owes AVEVA any unpaid fees or has any issued-and-outstanding invoice(s). Customer shall pay the full amount of such unpaid fees and/or invoice(s) to AVEVA prior to purchasing Top-Up Flex Credits;
- d) Where the Customer purchases Top-up Flex Credits, such Top-up Flex Credits will be purchased at the rate set out in this Order Form and such Top-up Flex Credits will expire at the end of the Order Form Term;
- e) Where the Customer's Use of the Products exceeds the number of Flex Credits or Top-Up Flex Credits purchased ("Excess Usage"), AVEVA reserves the right to: (1) suspend the Customer's right to Use in accordance with Clause 8 of the Agreement; and (2) charge the Customer for Excess Usage at the Top-Up Flex Credits rate set out in this Order Form in accordance with Clause 20.3 of the Agreement.

2.3. Non-Cancellable and Non-Refundable. This Order Form is non-cancellable and all fees paid are non-refundable.

2.4. Purchase Order ("PO") Instructions.

Customer will issue one PO to AVEVA for the total amount of the Order Form. To facilitate effective PO processing, Customer is asked to adhere to the following requirements, ensuring the PO contains all the information described. Notwithstanding anything else contained herein, Customer shall remain liable for the payment of all amounts owed pursuant to this Order Form, regardless of whether or not a PO is issued.

- i. The PO should be signed and dated by an authorized signatory.
- ii. Any documents requiring execution, including this Order Form, must be executed and provided at the same time as the PO is issued to AVEVA.
- iii. The PO MUST reference the Order Form Number OPP-480267.
- iv. The PO MUST state the following: "The AVEVA General Terms and Conditions reference #NA-EAP-000074 effective from 10 June 2024 shall regulate the work performed under this Purchase Order and will supersede the terms attached to this Purchase Order."
- v. Please issue the PO to: AVEVA Software, LLC, 26561 Rancho Parkway South, Lake Forest, CA 92630-8301, United States.
- vi. For processing, please send POs to: Software.USA@aveva.com.

COUNCIL COMMUNICATION

CC #: 3701
File #: 0800-02

Title: Western Area Power Administration Network Integrated Transmission Service – Agreement
Contact: Brian Schinstock 916-746-1658 bschinstock@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.26.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute a Service Agreement for Network Integrated Transmission Service (NITS) with the United States Department of Energy, Western Area Power Administration (WAPA).

BACKGROUND

The United States Department of Energy, Sierra Nevada Region of Western Area Power Administration (WAPA) is a federal agency that owns and operates several hundred miles of transmission facilities in Northern California. Roseville's electric distribution system is connected to the WAPA transmission system. Roseville contracts with WAPA through the Network Integrated Transmission Service (NITS) contract for high voltage transmission service. The NITS agreement helps Roseville meet three key needs: deliverability of generation coming from outside the City of Roseville, ability to deliver generation from Roseville to other utilities and balancing authority areas in the west, and a transmission transfer capability to enable participation in the California Independent System Operator's Western Energy Imbalance Market (WEIM).

The current contract is scheduled to expire on December 31, 2024. The renewal has two notable enhancements: it extends the contract term to December 31, 2034, and increases the real-time deliverability of energy to Roseville from 295 MW to 450 MW. This added capability will help accommodate the City's growth and enable greater participation in WEIM and future California energy market designs.

FISCAL IMPACT

There is no fiscal impact associated with this contract renewal.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in

a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of this contract meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Brian Schinstock, Electric Resource Planner

Daniel Beans, Electric Utility Director/Chief Executive Officer

Dominick Casey, City Manager

Description

Resolution 24-434

WAPA - NITS Contract

RESOLUTION NO. 24-434

APPROVING A SERVICE AGREEMENT FOR NETWORK INTEGRATION TRANSMISSION SERVICE, BY AND BETWEEN THE CITY OF ROSEVILLE AND THE UNITED STATES DEPARTMENT OF ENERGY, SIERRA NEVADA REGION OF WESTERN AREA POWER ADMINISTRATION, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, the City of Roseville contracts with the United States Department of Energy, Sierra Nevada Region of Western Area Power Administration (WAPA) through the Network Integrated Transmission Service (NITS) contract for high voltage transmission service; and

WHEREAS, the NITS agreement helps Roseville meet three key needs: deliverability of generation coming from outside the City of Roseville, ability to deliver generation from Roseville to other utilities and balancing authority areas in the west, and a transmission transfer capability to enable participation in the California Independent System Operator's Western Energy Imbalance Market (WEIM); and

WHEREAS, the current contract is set to expire on December 31, 2024; and

WHEREAS, staff wishes to extend the contract and increase the real-time deliverability of energy to Roseville from 295MW to 450MW; and

WHEREAS, a Service Agreement For Network Integration Service (Contract 24-SNR-03064), by and between the City of Roseville and the United States Department of Energy, Sierra Nevada Region of Western Area Power Administration, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

ATTACHMENT F

Service Agreement For Network Integration Transmission Service

- 1.0 This Service Agreement, dated as of _____, is entered into, by and between the Sierra Nevada Region of Western Area Power Administration (Transmission Provider or WAPA), and City of Roseville (Transmission Customer), each of whom are sometimes hereinafter individually called Party and both are sometimes hereinafter collectively called the Parties. For purposes of this Service Agreement, the Transmission Provider's Transmission Systems consist of the applicable facilities described in Attachment K to the Tariff. The Transmission Provider may revise charges or losses for Network Integration Transmission Service provided under this Service Agreement pursuant to applicable Federal laws, regulations and policies upon written notice to the Transmission Customer.
- 2.0 The Parties are currently operating under the terms and conditions of Contract 14-SNR-01857, which terminates on December 31, 2024, and wish to continue their contractual relationship.
- 3.0 The Transmission Customer has provided a Modification Application to the Transmission Provider requesting an increase to Network Integration Transmission Service under the Tariff to coincide with the execution of this new Service Agreement.
- 4.0 Service under this Service Agreement shall commence on January 1, 2025, or such other date as is mutually agreed. Service under this Service Agreement shall terminate on December 31, 2034.
- 5.0 The Transmission Provider agrees to provide, and the Transmission Customer agrees to take and pay for, Network Integration Transmission Service in accordance with the provisions of Part III of the Tariff, and this Service Agreement.
- 6.0 Any notice or request made to or by either Party regarding this Service Agreement shall be made to the representative of the other Party as indicated below.

Transmission Provider:

Vice President and Power Operations Manager
For Sierra Nevada Region
Western Area Power Administration
114 Parkshore Drive
Folsom, CA 95630-4710
(916) 353-4008

Transmission Customer:

Electric Utility Director
City of Roseville Electric Department
116 S Grant Street
Roseville, CA 95678
(916) 797-6937

Each Party may change the designation of its representative upon oral notice to the other, with confirmation of that change to be submitted in writing within ten (10) days thereafter.

- 7.0 The Tariff and the "Specifications for Network Integration Transmission Service" as presently constituted or as they may be revised or superseded are incorporated herein and made a part hereof.

IN WITNESS WHEREOF, the Parties have caused this Service Agreement to be executed by their respective authorized officials.

Open Access Transmission Service Tariff
Schedule of Rate For Network Integration Transmission Service (CV-NWT5)

Specifications for Network Integration Transmission Service

For purposes of this Service Agreement, the Transmission Provider's Transmission System consists of the Central Valley Project (CVP) transmission system as described in Attachment K.

1.0 The Transmission Provider will provide Network Integration Transmission Service over the Transmission Provider's Transmission System for the delivery of capacity and energy from the Transmission Customer's designated Network Resources to the Transmission Customer's designated Network Load. The Transmission Provider will also provide non-firm transmission service from non-designated Network Resources under the terms of this Service Agreement. The loss factors associated with this Network Integration Transmission Service are set forth below. Such losses shall be applied and accounted for as set forth in Section 5.

2.0 Designated Network Resources:

Designated Network Resources	Estimated Maximum Resource (MW)	WASN Point of Receipt	Delivering Party & Voltage
System Firm Purchases	450	Rd Mountain 230-kV	CAISO 230-kV
		Cottonwood 230-kV	CAISO 230-kV
		Olinda 230-kV	TANC 230-kV
		Tracy 230-kV	CAISO 230-kV
		Elverta 230-kV	SMUD 230-kV
		Hurley 230-kV	SMUD 230-kV
		Airport 230-kV	Redding 230-kV
		Keswick 230-kV	WASN 230-kV
		Keswick 115-kV	Redding 115-kV

3.0 Designated Network Loads:

Designated Network Load	Estimated Maximum Load (MW)	WASN Point of Delivery (kV)	WASN Meter	
			Number	Voltage (kV)
Roseville	225	Roseville 230	58-185-01	60
			58-185-03	60
Fiddymont	225	Fiddymont 230	58-185-05	230
			58-185-06	230

4.0 Behind The Meter Generation:

Designated Behind the Meter Generation	Estimated Generation (MW)	Point of Delivery	Meter Number	Voltage (kV)
Roseville Power Plant #2	50	Roseville	59-100-72 59-100-73	230
Roseville Energy Park	230	Fiddymont	59-105-97 59-105-99 59-106-01 59-106-03	230

5.0 Transmission Loss Factors:

5.1 If, based on operating experience and technical studies, the Transmission Provider determines that any of the transmission loss factors on the Transmission Provider's Transmission System differs from the loss factors set forth in this Service Agreement, the Transmission Provider will notify the Transmission Customer of the revised loss factor(s) pursuant to Section 1 of this Service Agreement.

5.2 Transmission Provider Transmission Loss Factors:

5.2.1 CVP Transmission Loss Factor: Transmission losses shall be one and six-tenths percent (1.6%) of the energy scheduled and transmitted from 230-kV point(s) of receipt to 230-kV point(s) of delivery on the CVP Transmission System.

5.2.2 CVP Loss Adjustment Factors: For the point of receipt at Keswick 115-kV, the transmission losses shall be one and nine-tenths percent (1.9%) of the energy scheduled to 230-kV point(s) of delivery on the CVP Transmission System.

5.2.3 CVP Loss Adjustment Factors: For the point of delivery at Roseville 230 kV, the transmission loss shall be one and eight-tenths percent (1.8%) of the energy scheduled to the 230-kV point of delivery metered at the 60-kV side.

5.3 Accounting and Settlement for Losses: Accounting and Settlement for losses shall be pursuant to WASN Operations Business Procedure BP-009.

6.0 The Transmission Customer's transmission facilities that are integrated with the Transmission Provider's Transmission System will receive zero credit. These facilities include the following:

6.1 None

- 7.0 Names of any intervening systems with whom the Transmission Customer has arranged for transmission service to the Transmission Provider's Transmission System:
- 7.1 California Independent System Operator
 - 7.2 California-Oregon Transmission Project
- 8.0 Power Factor: The Transmission Customer will be required to maintain a power factor between 95-percent lagging and 95-percent leading for all deliveries of capacity and energy to and from the Transmission Provider's Transmission System.
- 9.0 Ancillary Services
- 9.1 The following ancillary services are required:
 - 9.1.1 Scheduling, System Control, and Dispatch Service
 - 9.1.2 Reactive Supply and Voltage Control from Generation Sources Service
 - 9.1.3 Regulation and Frequency Response Service
 - 9.1.4 Energy Imbalance Service
 - 9.1.5 Spinning Reserve Service
 - 9.1.6 Supplemental Reserve Service
 - 9.2 Provided by Transmission Provider
 - 9.2.1 Scheduling, System Control and Dispatch Service
 - 9.2.2 Reactive Supply and Voltage Control from Generation or Other Sources
 - 9.2.3 Regulation and Frequency Response Service
 - 9.2.4 Energy Imbalance Service
 - 9.3 Provided by Transmission Provider, Transmission Customer, or from a third party.
 - 9.3.1 Operating Reserve – Spinning Reserve Service
 - 9.3.2 Operating Reserve – Supplemental Reserve Service
 - 9.4 Nothing in this Section 9.0 is intended to limit the rights of the Transmission Customer to request Ancillary Services under the Tariff or limit the obligation of the Transmission Provider to offer Ancillary Services under the Tariff.
- 10.0 Net Billing and Bill Crediting Option: The Parties have agreed to implement both Net Billing and Bill Crediting as set forth in Attachment J to the OATT.
- 11.0 Charges for Service: Charges for Network Integration Transmission Service and associated Ancillary Services shall be calculated in accordance with the applicable Rate Schedule(s) attached hereto and made a part of this Service

Agreement. The rates or rate methodology used to calculate the charges for service under those schedules were promulgated and may be modified pursuant to applicable Federal laws, regulations and policies.

- 12.0 Independent System Operator: The Parties understand that the Transmission Provider may join an independent system operator under the Federal Energy Regulatory Commission (FERC) jurisdiction. In the event the Transmission Provider either joins or is required to conform to protocols of the independent system operator, the Parties agree that the Transmission Provider either (1) may make any changes necessary to conform to the terms and conditions required by FERC approval of the independent system operator, or (2) terminate this Service Agreement by providing a one-year written notice to the Transmission Customer.

COUNCIL COMMUNICATION

File #: 0110-01

Title: Placer Valley Tourism - 2025 Strategic Plan and 2025 Budget
Contact: Jeannine Thrash 916-774-5473 jthrash@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.27.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve the 2025 Placer Valley Tourism Strategic Plan and 2025 Placer Valley Tourism Budget.

BACKGROUND

The South Placer County Tourism Corporation, dba Placer Valley Tourism (PVT), promotes and supports tourism efforts that generate overnight stays within the region. Revenue to support its efforts is derived by assessments on hotel room nights for all hotels in the cities of Lincoln, Rocklin and Roseville. This assessment was voted on and approved by all hotel owners in 2014.

On November 5, 2014 the City entered into a Marketing Management Agreement with PVT which authorizes PVT to administer and implement all the activities and improvements of the Placer Valley Sports Complex and Tourism Marketing District (District). Assessment received from the District are directed by the PVT Board, which is comprised of hotel, Chamber and city representatives from Roseville, Rocklin and Lincoln. Pursuant to the Marketing Management Agreement, and as required by state law, the PVT strategic marketing plan and budget shall undergo annual review and approval by the City Council. The City Council has the discretion to approve the strategic marketing plan and budget as submitted or may modify any particular matter contained within these documents.

The attached strategic marketing plan and budget was approved by the PVT Board of directors on November 21, 2024. The top priorities in the 2025 Strategic Marketing plan includes:

1. Maximize room night production for the Placer Valley Soccer Complex through PVT-related events
2. Sustainability and success of @ the Grounds
3. Partner engagement and advocacy
4. Financial resiliency
5. Strategic development of tourism-related facilities

FISCAL IMPACT

There is not a fiscal impact associated with this recommendation. Funding for these PVT activities is derived from room night assessments for all hotels in the cities of Lincoln, Rocklin and Roseville. This assessment is separate and distinct from the 10% transient occupancy tax (TOT) collected by the City of Roseville for all Roseville hotels. The PVT budget includes an expense for the final payment to the City, based on a payment plan, for the repayment of the long field project design costs incurred by the City's Citywide Park-West Roseville Specific Plan Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of the 2025 Placer Valley Tourism Strategic Plan and the 2025 Placer Valley Tourism Budget meet the above criteria and are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Goal D - Enhance economic vitality

Respectfully Submitted,

Jeannine Thrash, Management Analyst

Dennis Kauffman, Assistant City Manager/ Chief Financial Officer

Dominick Casey, City Manager

Description

Resolution 24-408

2025 PVT Strategic Plan

2025 PVT Budget

RESOLUTION NO. 24-408

APPROVING THE 2025 PLACER VALLEY TOURISM STRATEGIC PLAN
AND THE 2025 PLACER VALLEY TOURISM BUDGET

WHEREAS, the Placer Valley Sports Complex and Tourism Marketing District (District) was created in November 2014 to replace the former South Placer County Tourism Business Improvement Area; and

WHEREAS, Placer Valley Tourism (PVT) administers the District under a Marketing Management Agreement which requires PVT to submit an annual budget and work plan to the City; and

WHEREAS, the 2025 Placer Valley Tourism Strategic Plan and the 2025 Placer Valley Tourism Budget have been reviewed by the City Council;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville that the 2025 Placer Valley Tourism Strategic Plan and the 2025 Placer Valley Tourism Budget are hereby approved.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

OUR MISSION

To enhance hotel vitality and attract overnight stays in the cities of Roseville, Rocklin and Lincoln through strategic destination marketing.

OUR VISION

To position Placer Valley as a premier destination by fostering strategic tourism partnerships, sustainable growth, and community prosperity.

PVT Values

Collaboration

We build strong, cohesive relationships with key partners to enhance our region and achieve shared goals.

Passionate

We love what we do and are dedicated to creating meaningful, positive experiences for our clients and visitors, leaving a lasting impression with every interaction.

Dynamic

We embrace creative thinking and adaptability, approaching diverse tasks and challenges with innovative, sustainable solutions.

PVT Values

Integrity

We act with honesty and transparency, always prioritizing the trust and respect of our clients and visitors in every interaction.

Community Stewardship

We aim to be responsible stewards of our region's economic growth, fostering opportunities that strengthen our community for the future.

Top 5 Priorities

Priority 1:

Placer Valley Soccer Complex

Maximize room night production for the Placer Valley Soccer Complex through PVT-related events

Priority 2:

@the Grounds

Ensure the ongoing sustainability and success of @the Grounds while fostering continued growth and development

Priority 3:

Partner Engagement and Advocacy

Identify and cultivate relationships with key business and community partners, actively seeking opportunities to collaborate and drive positive impact

Top 5 Priorities

Priority 4:

Financial Resiliency

Plan for future projects and meet current obligations while ensuring financial strength and flexibility

Priority 5:

Tourism Related Facilities

Strategic development of tourism-related facilities is critical to driving hotel demand and fostering economic growth

Priority 1:

Placer Valley Soccer Complex

Maximize Room Nights

GOALS:

1. Engage with key event organizers
2. Identify and secure events with room nights
3. Secure at least one room night generating event to fill designated need-periods

TACTICS:

1. Secure Quality Events
2. Drive Sales Efforts
3. Expanded Marketing Outreach
4. Evaluation of Existing Events

MEASUREMENTS OF SUCCESS:

1. Conduct meetings with at least six key event organizers annually
2. Identify and secure four events projected to generate 200+ hotel room nights each
3. Book at least one room night-generating event to fill key need-periods such as Labor Day or Thanksgiving weekends

Priority 2:

@the Grounds

Sustainable and Strategic Growth

GOALS:

1. Maximize room night production
2. Complete the Master Plan Expansion and Feasibility Study while exploring its impact on PVT
3. Research and create awareness of potential opportunities and threats to facility

TACTICS:

1. Enhance Existing Events
2. Optimize Open/Available Weekends
3. Master Plan Expansion and Feasibility Study
4. SWOT Analysis

MEASUREMENTS OF SUCCESS:

1. % change in annual room night production
2. Completion of the Master Plan with clearly established benchmarks and timelines
3. SWOT analysis - Identification and awareness of key opportunities and threats to the facility

Priority 3:

Partner Engagement and Advocacy

Cultivate and Collaborate

GOALS:

1. Build and maintain strong relationships with key stakeholders in business, government, and community organizations
2. Foster collaborative partnerships that align with PVT goals and address community needs
3. Increase partner involvement in initiatives that drive tourism and economic growth

TACTICS:

1. Stakeholder Mapping and Outreach
2. Collaborative Initiatives
3. Education and Advocacy
4. Awareness and Support

MEASUREMENTS OF SUCCESS:

1. Increased positive feedback from key business and community partners
2. Greater awareness of PVT initiatives, reflected in higher attendance at PVT hosted or sponsored events
3. Measurable contributions to tourism or economic growth resulting from partnership-driven projects and collaborations

Priority 3:

Partner Engagement and Advocacy

Cultivate and Collaborate

Priority 4:

Financial Resiliency

Sustainable and Flexible

GOALS:

1. Ensure fiscal responsibility through robust budgeting, forecasting, and cost management
2. Build and sustain reserve funds to support long-term sustainability and unexpected needs
3. Maintain financial flexibility to adapt to changing economic conditions and evolving business needs

MEASUREMENTS OF SUCCESS:

1. Achieve and maintain approved budgets, with regular reviews and adjustments as needed to reflect changing circumstances
2. Increase or maintain reserve fund levels in alignment with long-term sustainability goals and organizational priorities
3. Implement conservative investment policies while maintaining high cash liquidity to ensure flexibility and readiness for new opportunities or challenges

TACTICS:

1. Adequate Reserves and Emergency Funds
2. Strong Financial Planning and Forecasting
3. Monitor and Adapt to Economic Trends

Priority 5:

Tourism Related Facilities

Strategic Growth and Advocacy

GOALS:

1. Advocate and promote meeting venue needs
2. Advocate and promote the development of a diamond complex
3. Maintain awareness and inclusion in future development and renovation projects

TACTICS:

1. Complete ATG Master Plan
2. Diamond Complex Awareness
3. Maintain Awareness and Inclusion on Future Development and Renovation Projects
4. Community Engagement

MEASUREMENTS OF SUCCESS:

1. Completion of master plan and a defined roadmap for next steps
2. Inclusion of a potential diamond complex in future master planning processes
3. An updated and comprehensive list of ongoing and new development projects, including key contacts and timelines

Comments									
1	Hotel Assessments - Statistics reflect the net amount after the deduction of the quarterly Bond payments.								
2	Web Site - Upgrades are required to improve the speed and efficiency of the site and streamline procedures for leads.								
3	Payroll - Increased expenses due to increase in Workers Compensation costs and additional staff coverage for medical benefits.								
4	Common Area Maintenance/Assoc Dues - Both office complex and building association dues are anticipated to increase.								
5	Office Supplies - Equipment/Furniture will include replacement of 5 computer workstations as they have reached end of life.								
6	Major Projects - No Major Project grants were approved in 2024. Funds were invested in certificates of deposit.								
7	Speedway Project - Expenses for @the Grounds Master Plan and Expansion Feasibility Study will be split between PVT and ATG.								
8	Long Field Reimbursement - Final payment is interest only to the City of Roseville.								
9	Soccer Complex - Naming rights fee for Placer Valley Soccer Complex.								
10	Lincoln - Room Nights are anticipated to increase due to completion of Holiday Inn Express & Suites Lincoln's renovation and opening of La Quinta Twelve Bridges.								

COUNCIL COMMUNICATION

CC #: 3679

File #: 0102-04 & 0103

Title: City Council/Boards, Commissions, & Committees Administrative Standards Updates

Contact: Helen Dreyer 916-774-5356 hdreyer@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.28.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution approving updates to the City Council/Boards, Commissions, & Committees Administrative Standards.

BACKGROUND

Section 4.06 of the Roseville City Charter authorizes the City Council to establish its own meeting procedures. Prior to 2019, the City Council and the then thirteen Boards, Commissions, and Committees had their own separate meeting procedures. On February 20, 2019, the City Council adopted a resolution to consolidate the individual meeting procedures into one Administrative Standards document for council/boards/commissions/committee members and one Administrative Standards document for staff.

Non-substantive updates to the Administrative Standards are being made to the City Council/Boards, Commissions & Committees Administrative Standards to address areas currently not addressed in the standards, and improve the overall flow of the document by removing duplication and changing the order of some items. The following is a summary of the changes:

- Staff version of Administrative Standards: Deleting this version and inserting the few lines of information not previously found in the City Council Council/Board, Commission & Committees' version of the Administrative Standards such as: Open Meeting Law: All public body meetings are subject to the Ralph M. Brown Act, requiring the meetings to be public.
- Presentation Material: Clarifying the policy that an individual making a presentation to a public body must submit all media to the City Clerk or secretary for review at least 72 hours in advance of the broadcasted meeting.
- Re-formatting various sections of the Administrative Standards for clarity and ease of reading.

FISCAL IMPACT

There is no fiscal impact associated with this request.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The update of meeting procedures meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal B - Support community engagement and advocacy

Respectfully Submitted,

Helen Dreyer, Assistant City Clerk

Michelle Sheidenberger, City Attorney

Dominick Casey, City Manager

Administrative Standards - FINAL

Administrative Standards - REDLINE

RESOLUTION NO. 24-414

APPROVING THE CITY COUNCIL/BOARDS, COMMISSIONS, AND COMMITTEES
ADMINISTRATIVE STANDARDS UPDATES

WHEREAS, on February 20, 2019, Council adopted a resolution to consolidate the individual meeting procedures of the City Council and the thirteen Boards, Commissions, and Committees into one Administrative Standards document; and

WHEREAS, non-substantive updates are being made to the Administrative Standards to address areas currently addressed in the standards, and improve the overall flow of the document by removing duplication and changing the order of some items; and

WHEREAS, the City Council/Boards, Commissions, and Committees Administrative Standards Updates, have been reviewed by City Council.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Roseville that the City Council/Boards, Commissions, and Committees Administrative Standards Updates are hereby approved.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

Administrative
Standards

Purpose

This handbook shall serve as the administrative standards for all City of Roseville boards, commissions, committees and City Council members (collectively “public officials”) so that expectations and practices are clearly articulated to guide members in their actions, and to provide a uniform framework for conduct. Informational appendices are included.

City overview

Form of government

The City of Roseville Charter, adopted in 1954, establishes a council-manager form of municipal government. (Appendix I)

City Council

The five (5) member City Council, which is comprised of four (4) members and the mayor, enacts legislation, adopts budgets, and determines policy.

City Manager and department heads

The City Manager is appointed by the City Council. The City Manager is responsible for the day-to-day management of the city and supervises the organization through department heads. Department heads are appointed by and report directly to the City Manager.

City Attorney

The City Attorney provides legal advice and support to the City Council and boards, commissions, and committees on the legal propriety of proposed actions, prepares and/or reviews all ordinances, resolutions, contracts, and other documents, represents the city in civil litigation and acts as liaison to outside special counsel.

City Clerk

The City Clerk conducts elections to elect City Council members, recruits board, commission, and committee members, establishes and tracks compliance of mandatory training, maintains city records and securities, prepares agendas and minutes for the City Council, and provides City Council action follow-up.

Staff

City staff, under the direction of the City Manager, is responsible for carrying out the policies and actions of the City Council and implementing the programs and services set out in the budget and identified in the City Council’s annual goals.

Boards, commissions and committees

Boards, commissions, and committees are established to provide a method for citizen input and are ancillary to the City Council. All board, commission, and committee members shall serve without compensation. The City of Roseville has 16 boards, commissions, and committees: Board of Appeals, Charter Review Committee*, Design Committee, Economic Development Advisory Committee, Grants Advisory Commission, Law & Regulation Committee, Library Board, Local Sales Tax Citizens’ Oversight Committee, Other Post Employment Benefits (OPEB) Trust Investment Review Committee***, Parks & Recreation Commission, Personnel Board, the Placer Mosquito Abatement & Vector Control District**, Planning Commission, Public Utilities Commission, Senior Commission, and Transportation Commission.

** Charter Review Committee is a temporary committee that each decade reviews the entire city Charter.*

***Placer Mosquito Abatement & Control District is comprised of five Placer County regional trustees. The City Council appoints one individual to serve as one of the five regional trustees*

****OPEB Trust Investment Review Committee is comprised of eleven members (consisting of representatives from each bargaining unit (five), four retirees, and two city staff) appointed by and at the discretion of the City Manager with the purpose of providing advisory and non-binding input to city staff on investment performance and other related matters.*

**City Council/
Boards, Commissions
& Committees**

Administrative
Standards

Membership

Eligibility

Except for the Economic Development Advisory Committee, all members of boards, commissions, and committees shall be residents of the City at the time of their appointment and continuously during their term of office. Members of the Economic Development Advisory Committee shall either live, work, own a business, or represent a business or industry in the City at the time of their appointment and continuously during their term of office.

Individuals can only serve on a single City of Roseville board or commission at a time. Notwithstanding the foregoing, individuals may serve concurrently on a single City of Roseville board or commission and a single City of Roseville committee.

Relatives (spouses, siblings, parents, domestic partners, co-habitants, and children) cannot serve on the same board, commission, or committee at the same time. In addition, current City of Roseville employees are ineligible to serve on a board, commission, or committee.

Incompatibility of office

An individual cannot hold two conflicting public offices. Be aware that acceptance of one governmental board appointment may result in the automatic forfeiture of another public seat.

Structure of terms of office

Members of the boards, commissions, and committees serve staggered terms of four years.* No member shall serve more than two consecutive terms. In the event a person is appointed to fill an unexpired term the appointment to fill said unexpired term will be considered a partial term and will not be counted as one of the two full consecutive terms.

**Members of the Economic Development Advisory Committee serve two-year terms. There are no limitations on the number of consecutive terms a member of the Economic Development Advisory Committee may serve.*

If at the expiration of an eligible member's term the City Council has not yet appointed a replacement, the member may continue to serve on a month-to-month basis until a replacement is appointed.

Youth members

The City Council may appoint a high school student that is a resident of Roseville as a voting member of the Library Board, Parks & Recreation Commission, the Transportation Commission, and the Grants Advisory Commission. Such member shall serve only during his or her enrollment in high school and for a one-year term. Such member may be re-appointed for a second term. Youth members must be enrolled in high school during the entirety of their term. Youth members may not serve as chair or vice chair.

Appointment policy

Procedure

If a vacancy on any board, commission, or committee occurs because the current term ended, resignation, death, moving, removal from incumbent's office, ineligibility for re-appointment, etc. the following procedure will be used:

- The City Clerk will advertise the vacancy in the city's legal newspaper and on the city's website, and will notify the Roseville Chamber of Commerce, and the Roseville Coalition of Neighborhood Associations of the vacancy;
- The City Clerk will establish a deadline for receiving applications;
- Applications received after the deadline will not be accepted;
- If fewer applications are received than twice the number of openings, the City Clerk may establish a new application deadline and the vacancy re-advertised as described in the first bullet point;
- The City Clerk will conduct video interviews of all applicants;
- Applications and video interviews will be provided to the City Council;
- If a new vacancy occurs after an application deadline and before an appointment is made, a new application process will not be re-advertised;
- City Council will cast their vote at a pre-designated meeting date via ballots;
- Ballots and applications of successful applicants are made part of the record and kept on file and made available for public review upon request.

Position requirements

Oath of office

Before attending a board, commission, or committee meeting, every new member shall take the oath of office stating that he/she will faithfully discharge the duties of the board, commission, or committee to which appointed.

New member training

New board, commission, and committee members shall receive general and commission-specific training from the City Clerk Department and from the staff liaison before beginning their term.

Conflict of Interest Code

Under the Political Reform Act of 1974, all public agencies are required to adopt a Conflict of Interest Code. The code designates positions required to file Statement of Economic Interests, and assigns disclosure categories specifying the types of interests to be reported. The City of Roseville designates members of Charter Review Committee, Design Committee, the Economic Development Advisory Committee, Grants Advisory Commission, Local Sales Tax Citizens' Oversight Committee, Planning Commission, Public Utilities Commission, and Transportation Commission as required filers of an Assuming, Annual, and Leaving Form 700 Statement of Economic Interests. State law requires a fine be assessed for those who fail to file required Fair Political Practices Commission documents. If a board, commission, or committee member fails to file an Assuming Office Form 700 Statement of Economic Interests for more than thirty (30) days after the final filing date, the member will be disqualified from any participation in the meetings or other activities of the board, commission, or committee until the member both files the required Statement of Economic Interests and pays any fines associated with the

failure to file. If the member fails to file and/or pay the associated fine for more than sixty (60) days after the final filing date, the member shall be removed from the board, commission, or committee by City Council action.

Ethics training

Assembly Bill 1234 imposes ethics training and compensation and reimbursement requirements on cities, counties, and special districts. For officials and board, commission, and committee members serving on or for a local agency, AB 1234 requires two (2) hours of ethics training within one year of appointment.* Thereafter, two (2) hours of ethics training every two years. Notification of this online training will be provided by the City Clerk Department. Failure to complete the online training shall result in removal from the board, commission, or committee.

Sexual harassment training

Assembly Bill 1661 imposes sexual harassment prevention training requirements on cities, counties, and special districts for officials serving on or for a local agency. Notification of this online training will be provided by the City Clerk Department.* Failure to complete the online training shall result in removal from the board, commission, or committee. In addition, the Department of Fair Employment and Housing requires all California employers to provide employees and volunteers the Department's sexual harassment pamphlet. (Appendix IV)

Unclassified service

As provided by the Charter, members of boards, commissions, and committees are considered unclassified employees and are required to comply with City of Roseville Administrative Regulation 2.03 – HARASSMENT, DISCRIMINATION, AND RETALIATION PREVENTION POLICY (Appendix II); and Roseville Administration Regulation 2.14 – ACCEPTANCE OF GIFTS AND GRATUITIES BY CITY EMPLOYEES. (Appendix III)

Social media

Statements and opinions using social media including, but not limited to Twitter, Facebook, Nextdoor, or professional networks like LinkedIn, must remain personal and cannot be intended as representing the city's nor the board, commission, or committee's official position.

In addition, the Brown Act prohibits a member of a public body from responding "directly to any communication on an Internet-based social media platform regarding a matter that is within the subject matter jurisdiction of the legislative body that is made, posted, or shared by any other member of the legislative body." This means that if a public official posted a comment in response to another public official's social media post about a city issue, that could be a Brown Act violation, assuming the two serve on the same public body. Overall, public officials must avoid commenting, liking or otherwise responding to each other's social media posts.

Dress code

Board, commission, and committee members are expected to portray a positive and professional image and are expected to wear clean and appropriate business attire.

Shirts with the city logo are permitted while attending functions in the capacity as a board, commission, or committee member.

Logo and materials

To reflect the official nature of the board, commission, or committee and to preserve consistency of the city brand, only the official city logo that contains the words "City of Roseville", shall be used on board, commission, or committee materials.

Attendance policy

It is the expectation that board, commission, and committee members attend all meetings. If a member is absent without excuse a total of 25% or more meetings in a rolling 12-month period, or more than one meeting in a rolling 12-month period if the board, commission, or committee meets quarterly, he or she shall forfeit the office. The secretary of each board, commission, or committee shall transmit attendance records to the City Clerk. Excused absences from meetings may be for any of the following reasons:

- Illness of the member or the member's family member;
- Family emergency related to illness or injury;
- Business commitment, notice of which was provided to the chair and secretary in advance;
- Previously scheduled vacation, notice of which was provided to the chair and secretary in advance;
- Attendance at a funeral, religious service or ceremony, wedding, or other similarly significant event, notice of which was provided to the chair and secretary in advance.

Removal from office

Except when otherwise provided by law or the City of Roseville Charter, members of boards, commissions, and committees of the city serve at the pleasure of the City Council, and may be removed by the City Council at any time with or without cause. A member's removal shall be by majority vote of the City Council.

Resignation

A member of a board, commission, or committee who wishes to resign prior to completing the member's term shall send a resignation letter to the City Clerk who shall notify the City Council and begin the recruitment process.

Safety information

- An automated external defibrillator (AED) and a cardio pulmonary resuscitation (CPR) mask are mounted on the wall next to the media control room;
- In case of an emergency, the chair should adjourn the meeting and advise everyone to exit through the double doors and gather across the street.

Travel and Expenses

Travel and other expenses incurred in connection with a public official's service on a board, commission, or committee, shall be authorized and reimbursed in accordance with the Travel and Expense Reimbursement Policy adopted by the City Council.

Roles and responsibilities

City Clerk

- Recruit board, commission, and committee applicants;
- Coordinate the appointment and re-appointment process with mayor and City Council;
- Maintain official roster with contact information for all members;
- Manage legally required training;
- Maintain original meeting minutes.

Liaison

Liaisons provide procedural direction and serve as staff support to the board, commission, or committee. The liaison is appointed from the department which most nearly encompasses the board, commission, or committee's activities.

Secretary

The secretary is appointed from the department which most nearly encompasses the board, commission, or committee's activities. The secretary assists in the board, commission, or committee's functions.

While the liaison and secretary roles are to assist the board, commission, or committee, the liaison, secretary and other staff are not employees of the board, commission, or committee. At all times, staff is strictly reportable to the department head and City Manager.

Chair

The chair and vice chair shall be selected by the board, commission, or committee members at a January or July meeting, or as soon thereafter as is practicable. Any voting member of the board, commission, or committee, except a youth member, can serve as chair and shall be seated at the next meeting. The length of term for the chair and vice chair shall be one (1) year. However, there are no limitations on the number of consecutive terms the chair or vice chair may serve.

The chair is the presiding officer of the meeting. In the absence of the chair, the vice chair shall be the presiding officer of the meeting. In the absence of the vice chair, a temporary chair shall be selected from among the other members present, with priority given to seniority, and shall be the presiding officer of the meeting. Upon the arrival of the chair or vice chair, the temporary chair shall relinquish the chair immediately upon the conclusion of the item of business before the members.

The chair shall preserve order at all official meetings of the board, commission, or committee and shall decide all questions of order without debate, subject to advice from the City Attorney or City Attorney designee. The chair shall not make any motion, but may second a motion. The presiding officer shall have all other rights and privileges of a board, commission, or committee member.

Additional role of the chair

- Attend City Council meetings as needed to represent the board, commission, or committee;
- Call a meeting to order and propose adjournment;
- Call for discussion and vote on motions;
- Clarify or request clarification of motions made by members;
- Rule whether motions are out of order;
- Interpret and enforce any meeting management bylaws or rules of procedure;
- Call members to order if they disregard rules of procedure or decorum for the meeting;
- Ensure that meetings are conducted in an efficient and productive manner.

Board, commission, or committee members

When the board, commission, or committee is in session, the members must preserve order and decorum. No member shall, by conversation or otherwise, delay or interrupt the proceedings or the peace of the board, commission, or committee, disturb any member while speaking, or refuse to obey the orders of the board, commission, or committee or its presiding officer.

A board, commission, or committee member is expected to:

- Attend scheduled meetings;
- Prepare in advance of meetings and be familiar with issues on the agenda;
- Contact the staff liaison if there are questions;
- Participate in meetings and carry out assignments;
- Use community members to obtain feedback on topics under consideration;
- Be considerate of fellow members and staff;
- Not direct staff;
- Not speak for the board, commission, or committee unless authorized by the board, commission, or committee;
- Not speak for the city unless authorized to do so by action of the City Council.

Limitations

Limited reports and comments at the end of the agenda are permissible as long as no action is taken.

Other persons

Persons addressing the board, commission, or committee shall step up to the podium and may, though not required, give their name for the record. All remarks shall be addressed to the body as a whole and not to any member thereof. No person, other than a member of the board, commission, or committee, staff liaison, or the person having the floor, shall be permitted to enter into any discussion without the permission of the presiding officer.

Any person making personal, impertinent or slanderous remarks, or who shall become boisterous or belligerent while addressing the board, commission, or committee, shall, by the presiding officer, be barred from further audience before the board, commission, or committee during that meeting, unless permission to continue is granted by consensus of the board, commission, or committee. (Appendix V)

Spokesperson for group of persons

Whenever any group of persons wishes to address the board, commission, or committee on the same subject matter, it shall be the discretion of the presiding officer to request that a spokesperson be chosen by the group to address the board, commission, or committee and, in case additional matters are to be presented at the time by any member of said group, to limit the number of persons addressing the board, commission, or committee, so as to avoid unnecessary repetitions. The presiding officer may set a time limit for each side of the issue.

Meeting procedures

These meeting procedures shall pertain to all City of Roseville boards, commissions, committees, and the City Council (collectively “public bodies”). To the extent these procedures do not address an issue of parliamentary procedure for legislative body meetings, “Rosenberg’s Rules of Order: Simple Parliamentary Procedures for the 21st Century” shall apply. (Appendix VI)

Other guiding documents

- The City of Roseville Charter, Roseville Municipal Code, and state statutes will govern public officials’ activities.
- Parliamentary Procedure dictates the body of rules, ethics, and customs governing meetings and other operations of clubs, organizations, legislative bodies, and deliberative assemblies.

- The Ralph M. Brown Act is an act of the California State Legislature, authored by Assembly member Ralph M. Brown and passed in 1953, that guarantees the public's right to attend and participate in meetings of local legislative bodies. (Appendix VII)

Meetings

Meetings of a majority of members

A meeting is a congregation of a majority of the members of a public body at the same time and place to hear, discuss, deliberate, or take action on an issue in the subject matter jurisdiction of the public body. Even if no action is taken, a gathering may constitute a meeting. This includes informal gatherings and electronic communications, with or without public attendance or city sponsorship.

The following situations would not be considered a meeting if a majority of the public body attend as long as: (1) matters within the public body's jurisdiction are not discussed, unless they are part of the program; and (2) program or events are open to the public:

- Open and publicized local public meeting;
- Open, noticed meeting of another body;
- Social or ceremonial event;
- Open, noticed meeting of a standing committee (can attend but cannot participate);
- Individual contacts or conversations among less than a majority of the members and a member of the public.

Although the above examples are generally not considered meetings, the City Attorney should be consulted prior to a majority of the public body attending a "non-meeting." It is often advisable to notice the meeting or limit the attendance to less than a majority of the public officials.

Further, any communication, including emails, social media posts, or other electronic communication or serial conversations between some or all members, could be considered a public meeting. Information or any type of communication to be shared by one member with other members of the public body shall be sent to the staff liaison or City Clerk who will forward it to all members of the public body.

Quorum

A quorum is more than half ($1/2 + 1$), of all member of the entire public body. In the absence of a quorum, a lesser number of public officials, the secretary, or City Clerk must adjourn the meeting after fifteen (15) minutes have passed. In addition, if a quorum is lost during the meeting due to a departure of a public official, a lesser number of public officials, the secretary, or City Clerk must adjourn the meeting.

Meeting cancellation

A meeting may be canceled because of a lack of quorum of voting members or the lack of agenda items. If the secretary has advanced notice that a meeting will not be held, he or she shall post a notice of cancellation in lieu of posting or distributing an agenda for the meeting.

If the agenda has already been distributed, a cancellation notice shall be posted and distributed in the same manner as the agenda was. The secretary must declare the meeting canceled by appearing at the meeting location, and waiting fifteen (15) minutes after the meeting start time to verbally announce the meeting is canceled. The secretary shall then post a notice of cancellation of the meeting on the door of the room where the meeting was to be held.

Regular meetings

Regular meetings shall be held as scheduled, bi-weekly, monthly, quarterly, or annually. The City Council establishes the regular meeting schedule for all boards, commissions and committees. If a regular meeting date falls on a legal holiday, the meeting shall be held at the same hour, same day the following week or may be canceled. Notice of all regular meetings shall be posted seventy-two (72) hours prior to the meeting.

Special meetings

Special meetings may be called by the City Manager, the City Attorney, the City Clerk, the presiding officer, or a quorum of voting members of the public body. Notice of the special meeting must be provided to the public officials at least seventy-two (72) hours in advance, except that for time sensitive business only twenty- four (24) hours' written notice is required.

Business transacted at any special meeting shall be limited to the subject(s) recited in the notice of the special meeting. Although not required by the Brown Act, a public comment period may be provided at special meetings to allow the public to address the public body on matters not listed on the special meeting agenda.

Adjourned meetings

Any regular or special meeting may be adjourned (continued) to a specified time and place.

Recess of a meeting

A recess of a meeting may be called at the discretion of the presiding officer.

Closed session

Prior to holding a closed session, the City Council or Personnel Board shall disclose, in an open meeting, the item or items to be discussed in the closed session as they are listed on the agenda and may only consider those matters. The City Council or Personnel Board shall publicly report any action taken in closed session and the vote or abstention of every member present thereon as required by state law. No other board, commission, or committee shall conduct a closed session without the prior written consent of the City Attorney.

Agendas

Open Meeting Law

All of the meetings of public bodies are subject to the Ralph M. Brown Act, requiring the entire deliberative process of a public body to be open to the public.

An agenda shall be prepared for each regular and special meeting containing the specific items of business to be transacted and the order thereof. Items of business may be placed on the agenda by the City Manager or the City Attorney. Items may also be placed on the agenda of any regular or special meeting with the consent of a majority of the public body obtained during the "Council/Board Member/Commissioner/Committee/Staff Reports" portion of a public meeting. Members of the public may not place items on the agenda but may request during public comments that an item be placed on a public body's future agenda. Placement of these items on the agenda is at the discretion of the City Manager, the City Attorney, or the consent of a majority of the public body.

An agenda for each meeting of a public body is prepared by the board, commission, or committee secretary or liaison or the City Clerk for the City Council. The agenda outlines the topics or items of business that will be introduced, discussed, and acted upon at each meeting. The agenda should include the date, time, and location of a meeting.

The order of business at all regular meetings shall be as follows:

- Call to Order

- Roll Call
- Pledge of Allegiance
- Public Comments
- Consent Calendar
- Requests/Presentations (and public hearings)
- Council/Board Member/Commissioner/Staff Reports
- Adjournment

Call to Order

The presiding officer of the public body shall take the chair precisely at the hour appointed for the meeting, and shall call the meeting to order.

Roll Call

The roll of the members shall be called by the board, commission, or committee secretary or the City Clerk for the City Council and the names of those present shall be entered into the minutes.

Public Comments

Public Comments is intended to allow the public to address the public body on matters not listed on the agenda. Individual comments shall be limited to three (3) minutes and shall not exceed a total of 25 minutes, unless such time is extended by the presiding officer. The presiding officer shall not permit the public to address items which are listed elsewhere on the agenda or which are not within the subject matter jurisdiction of the public body. The public body shall not engage in debate regarding, or take any action on, any matter brought under Public Comments except to refer the matter to staff or to determine that the matter should be included on a future agenda for debate and action.

Consent Calendar

The Consent Calendar consists of items that are routine or noncontroversial in nature. The entire calendar is intended to be acted on in one motion on a roll call vote. Any public official, staff, or the public may remove an item from the Consent Calendar for further discussion. Items removed from the Consent Calendar for further discussion shall be discussed separately following the approval of the remaining items on the Consent Calendar. If a public official has a question or wishes to remove an item from the Consent Calendar they should call the staff liaison or the City Clerk no later than noon the day of the meeting. The staff liaison or City Clerk will determine if the item can be handled after the Consent Calendar or if it needs to be held over to the next meeting. The staff liaison or City Clerk shall so inform the presiding officer.

Requests/Presentations

Requests/Presentation items include presentations by staff or others, which may prompt discussion and/or action by the public body.

Public Hearings

Public hearing items include opening the public hearing, presentation by staff, presentation by applicant or appellant, and testimony from the public.

The order of business at public hearings shall be as follows:

- Open public hearing by presiding officer
- Presentation by staff
- Presentation by applicant (unless applicant is appellant)
- Presentation by appellant

- Open public comment by presiding officer
- Public comment
- Close public comment by presiding officer
- Rebuttal by appellant
- Rebuttal by applicant (unless applicant is appellant)
- Close public hearing by presiding officer
- City Council/board/commission/committee deliberation
- City Council/board/commission/committee action

Council/Board Member/Commissioner/Committee/Staff Reports

Council/Board Member/Commissioner/Committee Reports are designed for members of the public body to briefly ask staff for information, ask a question for clarification, make an announcement, report on individual assignments and activities, or to request that an item be placed on a future agenda. The latter requires a majority consensus of the public body. Caution should be used to avoid any discussion or action on such items. Individuals are allocated five (5) minutes apiece, for comments.

In addition, pursuant to the Travel and Expense Reimbursement Policy adopted by the City Council, public officials shall briefly report on any Brown Act meetings attended at city expense as well as any conferences, educational seminars or meetings with legislators or other governmental officials. If multiple public officials attended that same meeting or event, a joint report may be made.

Staff Reports are designed for staff to make brief announcements and to provide the public body with brief reports on the city's activities, projects, and services.

Adjournment

A motion to adjourn shall not be debatable. It shall be in order at any time, and;

- Cannot interrupt a speaker who has the floor;
- Cannot be amended;
- Must be seconded;
- Cannot be reconsidered;
- Must have a majority vote;
- A motion to adjourn "to another time" is debatable only as to the time to which the meeting is adjourned.

Order of business

The order of business may be changed at any time by the presiding officer or by consensus of the public body.

Official record

Minutes

The Minutes serve as a permanent record of the public body's official actions. The board, commission, or committee secretary or the City Clerk shall be required to make a record only of such business as was actually passed upon by a vote of the public body, and shall not be required to record any remarks of public officials, or of any other person except at the special request of a public official.

Minutes of the previous meeting shall be provided to the public body prior to each meeting. The minutes may be approved by majority vote even if one or more of the voting members were not present at the meeting to which the minutes relate.

Correction to Minutes

Members of public bodies are to review minutes and make corrections if needed so that the approved minutes accurately reflect the work of the group. Corrections are made at the meeting when the minutes are brought forward for adoption. Corrections require a motion, second, and a majority vote, and, if approved, are noted in the minutes of the current meeting. Any changes to the draft minutes approved by the public body will be reflected in the minutes for the meeting at which the corrections are made.

Recordings

A recording may be made of public body meetings. Audio recordings of the meetings are to be kept for one (1) year, and video recordings are to be kept for three years after which time the recordings shall be destroyed. Recordings are not the official minutes of the public body.

Voting

All business requiring approval of the public body shall be taken individually by an affirmative or negative vote and entered into the record, except that where the vote is unanimous it shall be necessary only to state so.

Majority vote

A majority vote is more than half of the votes actually cast. In the event a motion on an item fails to obtain a majority vote, the presiding officer at his or her discretion shall require another motion, continue the item, or (with exception of the Personnel Board or Board of Appeals) refer the item to the City Council without recommendation if the item is before a board, commission, or committee. The number of motions that may be made on an item shall be at the discretion of the presiding officer.

Tie vote

If there is a tie vote on a motion, then the motion shall fail. In the event a motion on an item results in a tie vote, the presiding officer at his or her discretion shall require another motion, continue the item, or refer the item to the City Council without recommendation if the item is before a board, commission, or committee. The number of motions that may be made on an item shall be at the discretion of the presiding officer. If the matter involves an appeal, and an affirmative vote does not occur, the result is that the decision appealed remains in effect as decided by the decision-making person, board, commission, or committee from which the appeal was taken.

Abstention

An abstention occurs when a public official, although qualified to vote on a motion, chooses not to register his or her vote. An abstention constitutes no vote whatsoever. Public officials abstaining from a vote must clearly indicate for the record the basis for the abstention. A roll-call vote shall be taken to note that the public official was present but did not vote.

Conflict of interest

When a member has a conflict of interest, or the appearance of a conflict of interest, the member must:

- Publicly state the nature of the conflict;
- Step down from the dais and leave the room until consideration of the particular item is finished, unless the item is on the Consent Calendar;

- Not be counted toward achieving a quorum while the item is being discussed.

Recommendations

When a board, commission, or committee votes to make a recommendation to the City Council, such items may not be appealed since recommendations are not considered final approvals or decisions.

Rights of the public

Pursuant to the Ralph M. Brown Act and the First Amendment, the public must be allowed to:

- Attend, observe, and speak at meetings;
- Speak without being required to provide a name, address, or other information;
- Record the meeting with audio or video recorder and take photographs;
- Review agendas and other documents distributed to a majority of the public body other than those exempt from disclosure;
- Request in writing that the agenda or agenda-related documents be mailed to them for a cost not to exceed the actual cost of providing the service;
- Obtain a copy of any audio or video (if it exists) of the meeting (there is no requirement to prepare a transcript) for a cost not to exceed the actual cost of providing the service;
- Speak to each item on the agenda and to items under the jurisdiction of the public body;
- Criticize or complain about processes or procedures;
- Protest by wearing messages on clothing, holding signs, or engaging in nonverbal forms of communication.

However, the public's rights are not unlimited. The presiding officer may have removed any individual for disrupting a meeting. "Disrupting a meeting" means engaging in behavior that actually disrupts, disturbs, impedes, or renders infeasible the ability of the public body to orderly and efficiently conduct the meeting, or substantially interferes with the rights of other audience members. Disruptive behavior includes, but is not limited to, the following:

- Shouting from the audience;
- Interrupting or speaking over a person at the podium who has been recognized to speak by the presiding officer;
- Clapping, booing, or other expressions of support or opposition to a speaker or to the public body's discussion or decision;
- Verbally harassing or physically confronting audience members, city staff, or public officials;
- Interrupting staff while engaged with the public body;
- Interrupting the public body while it is considering a matter;
- Continuing to speak at the podium once the presiding officer has announced the person's time has expired;
- Recording or broadcasting the meeting in a manner that creates noise, illumination, or obstructions of view that constitutes a persistent disruption of the proceedings;
- Failing to follow the city's meeting procedures.

Failing to follow the city's meeting procedures

Prior to having the individual removed, the presiding officer shall warn the individual that their behavior is disrupting the meeting and that their failure to cease their behavior may result in their removal. If they do not promptly cease their disrupting behavior, they can be removed. No warning is required prior to removal if the individual is using force or threatening to use force.

If a group or groups of persons willfully disrupts a meeting and order cannot be restored by the removal of such individuals, the presiding officer after giving a warning may order the meeting room cleared and continue in session. No warning is required prior to removal if the group or groups of persons are using force or threatening to use force. Only matters appearing on the agenda may be considered in such session. Representatives of the press or other news media with valid credentials, except those participating in the disturbance, shall be allowed to attend such session. In addition, the presiding officer may readmit any individuals not responsible for disrupting the meeting.

As an alternative to removing individual(s), the presiding officer may call a recess to de-escalate the situation.

These rules shall be applied in a viewpoint neutral manner and do not prohibit criticism of the city, city staff, the public body, or city policies, programs, or services.

Americans with Disabilities Act

All legislative meetings open to the public must comply with the Americans with Disabilities Act. If members of the public body or members of the public attending the meetings require special assistance to participate in a meeting, individuals must notify the staff liaison or City Clerk at least seventy-two (72) hours prior to the meeting.

Limited English proficiency

Individuals who do not speak English as their primary language and who have a limited ability to read, speak, write, or understand English are considered limited English proficient. If an individual appears before the public body and is limited English proficient and requests assistance, the individual should be provided a certified foreign language interpreter. Individuals requesting an interpreter must notify the staff liaison or City Clerk at least seventy-two (72) hours prior to the meeting. Pursuant to the Ralph M. Brown Act, individuals using an interpreter shall be provided at least twice the allotted time given to other members of the public.

Presentation material

An individual making a presentation to a public body must submit all media to the City Clerk or secretary for review at least 72 hours in advance of the broadcasted meeting.

Any emergency exceptions must be approved by the City Manager.

Composition, responsibilities, and meeting dates of the City of Roseville boards, commissions, and committees

Charter Review Committee

Nine (9) members appointed by the City Council at least every ten (10) years

Responsibilities

Reviews the Charter and presents, or causes to be presented, to the City Council a written report recommending amendments, if any, which should be made to the Charter.

Meetings

The Charter Review Committee, once established, determines meeting day, time and location.

Design Committee

Three (3) members: two (2) members appointed by the City Council; one (1) member appointed by the Planning Commission; and one (1) alternate appointed by the Planning Commission

Responsibilities

- Reviews design-related applications for multiple-residential, commercial, and industrial projects.
- Reviews proposed site plans, architecture, and landscaping for conformance with the city's general plan, specific plans, and community design guidelines.
- Reviews applications required by the city's sign ordinance.

Meetings

The Design Committee meets the third Thursday of each month at 4:30 p.m. in the Civic Center meeting rooms 1 & 2, 311 Vernon Street.

**The chair of the committee shall be a current member of the Planning Commission. In the absence of the chair and vice chair of the committee, the alternate Planning Commissioner shall act as the presiding officer.*

Economic Development Advisory Committee

Seven (7) members appointed by the City Council: one (1) councilmember; one (1) Chamber of Commerce representative; and five (5) industry representatives

Responsibilities

- Ensures goals of the Roseville Economic Development Strategy (Strategy) are being met.
- Provides guidance to staff and recommendations to the City Council on implementation of the Strategy and recommends changes or additions as necessary to reflect changing economic conditions or opportunities.
- Reviews annual economic development work program and budget and makes recommendations to the City Council regarding economic development work program and budget.
- Reports to the City Council at least annually on Strategy progress and effectiveness of the Strategy.
- Review programs which assist existing and prospective businesses.

Meetings

The Economic Development Advisory Committee meets on the fourth Tuesday of January, April, July, and October at 1:30 p.m. in the Civic Center, 311 Vernon Street.

Grants Advisory Commission

Seven (7) members appointed by the City Council; additionally, the City Council may appoint a voting youth commissioner

Responsibilities

- Reviews and recommends Citizens' Benefit Fund (Chapter 4.06) and Roseville Employees Annual Charitable Hearts ("REACH") fund and grant application processes and policies for grants to be approved by the City Council.
- Acts as a forum for public participation in review of Citizens' Benefit Fund and REACH grant applications.
- Annually reviews and makes recommendations on Citizens' Benefit Fund and REACH grant applications.
- Monitors approved grants and reviews annual reports for measurable outcomes.
- Recommends to the City Council the use of the interest earned by the city on the proceeds of the sale of the Roseville Community Hospital in the award of Citizens' Benefit Fund grants.

Meetings

The Grants Advisory Commission meets the second Tuesday of each month at 5:30 p.m. in the council chambers, 311 Vernon Street.

Law and Regulation Committee

Two (2) council members, and one (1) alternate appointed by the City Council

Responsibilities

- Requests, considers, and evaluates state and federal legislation, policies and regulations brought before the Committee and makes recommendations to the full City Council on those items.
- Provides input to staff regarding concerns about the effects a specific piece of legislation, policy or regulation might have on the community.
- Requests additional information from staff regarding legislation, policies, and regulations.

Meetings

The regular day and time for meetings for the Law and Regulation Committee shall be established by resolution adopted by the City Council, as amended from time to time.

Library Board

Five (5) members appointed by the City Council; additionally, the City Council may appoint a voting youth member

Responsibilities

- Participates in strategic and long-range planning for the city library system.
- Serves as community liaisons/advocates for library programs and services.
- Reviews policies and procedures as presented by city library staff.
- Represents the library at city-sponsored functions.
- Advises the City Council on important library efforts.

Meetings

The Library Board meets the fourth Monday of odd-numbered months at 6 p.m. at various city libraries.

Local Sales Tax Citizens' Oversight Committee

Five (5) members appointed by the City Council.

Responsibilities

- Annually, review revenue receipts and expenditures of the Transactions and Use Tax.
- Annually, review status of programs and services, funded wholly or partially with proceeds from the Transactions and Use Tax.
- Annually, prepare and present an independent report to the City Council regarding the revenue and expenditures of the Transactions and Use Tax.

Meetings

The Local Sales Tax Citizens' Oversight Committee meets two to three times per year, or as determined by the City Manager.

Parks and Recreation Commission

Seven (7) members appointed by the City Council; additionally, the City Council may appoint a voting youth commissioner.

Responsibilities

- Reviews and makes recommendations on park projects, department operations, recreation programs, events and related issues.

Meetings

The Parks and Recreation Commission meets the first Monday of each month at 6 p.m. in the council chambers, 311 Vernon Street.

Planning Commission

Seven (7) members appointed by the City Council

Responsibilities

- Makes recommendations to the City Council on general plan, specific plan, zoning and other land use policy areas.
- Reviews and makes recommendations to the City Council on, and where appropriate, approves entitlements for compliance with the general plan, applicable specific plans, and other policy documents.
- Takes final action on major project permits, conditional use permits, tree permits, tentative subdivision maps, variances, and zoning interpretations.
- Determines the adequacy and consistency with the California Environmental Quality Act of environmental documentation associated with projects acted upon by the Planning Commission.
- Provides representation of the city at various conferences, before other agencies, etc.
- Provides commission members for service on special task forces/committees, as needed.
- Provides a forum for public involvement for the items listed above.

Meetings

The Planning Commission meets the second and fourth Thursdays of each month at 6:30 p.m. in the council chambers, 311 Vernon Street.

Public Utilities Commission

Seven (7) members appointed by the City Council

Responsibilities

- Studies and advises the City Council regarding all utilities and enterprises owned or operated by the city, including but not limited to, electrical, water, wastewater, recycled water, solid waste, and stormwater.
- Advises the City Council regarding planning, rates, public information, and other matters relating to such enterprises.
- Hears citizen concerns relating to utility operation and/or rates.
- Conducts public meetings and public hearings for the purpose of reviewing agreements, proposed utility-related projects, and rates prior to making a recommendation to the City Council.
- Reviews California Environmental Quality Act and National Environmental Policy Act documents for public utility-related projects.
- Advises the City Council regarding the activities of joint powers agencies, if the City Council appoints a representative of the commission to sit as a participant on the board, commission, or committee of a joint powers agency of which the city is a member.
- Quarterly reviews the departments' progress reports given to the commission to determine the progress of each utility.
- Monitors new emerging technology and services, and when appropriate, makes recommendations to the City Council.
- Provides a forum for public involvement for the items listed above.

Meetings

The Public Utilities Commission meets the fourth Tuesday of each month at 6 p.m. in the council chambers, 311 Vernon Street.

Senior Commission

Seven (7) members appointed by the City Council

Responsibilities

- Investigate opportunities for outside revenue sources (grants) which are or which may be available to provide funding for senior programs and share findings with staff.
- Highlight senior programs, services, and resources to the community.
- Serve as a forum for commission members' and residents' expression of ideas, needs, and concerns, as they affect seniors, particularly in areas over which the City of Roseville has purview
- Respond to requests for recommendations to other commissions, staff, and City Council on programs, special events, policies and services.
- Serve as the eyes and ears in the community, bringing pertinent information to staff to help improve senior services.
- Serve as ambassadors throughout the community for the services provided by the City of Roseville.

Meetings

The Senior Commission meets quarterly in February, May, August, and November on the second Wednesday of those months at 2:00 p.m. in the council chambers, 311 Vernon Street.

Transportation Commission

Seven (7) members appointed by the City Council; additionally, the City Council may appoint a voting youth commissioner

Responsibilities:

- Reviews and makes recommendations to the City Council on the general plan circulation element; the bicycle master plan, pedestrian master plan, short and long range transit plan, the capital improvement project plan; specific plan circulation plans; regional transportation plans, the public transit system; bikeway, pedestrian, transit, and roadway capital improvement projects and transportation systems management.
- Reviews and approves transportation systems management plans.
- Provides representation of the city at various conferences and before other agencies, as needed,
- Provides a forum for public involvement for the items listed above.

Meetings

The Transportation Commission meets the third Tuesday of each month at 6 p.m. in the council chambers, 311 Vernon Street.

The meeting procedures of the Board of Appeals, Personnel Board, and City Council are substantially unique and are therefore supplemented herein separately.

In the event of a conflict between the Uniform Meeting Procedures and these Supplemental Meeting Procedures, the provisions of the Supplemental Meeting Procedures shall govern.

**City Council/
Boards, Commissions
& Committees**

Administrative
Standards

Board of Appeals

Ten to fifteen (10-15) members appointed by the City Council

Responsibilities

- Serves as an advisory body to the City Council with respect to construction, building, code enforcement, or similar matters.
- Reviews matters as provided under the Uniform Building and Housing codes.
- Serves as a pool of hearing examiners for the purpose of formation of each ad hoc hearing examiner panel as provided herein.

Semi-annual meetings

The Board of Appeals meets the second Tuesday of January and July, or as soon thereafter on a date and time as practicable, at 4:00 p.m. in the Civic Center, 311 Vernon Street. A chair and vice chair of the board shall be selected as set forth under the "Roles and responsibilities" section of these Administrative Standards.

Hearing panels

Three (3) members selected by the City Attorney or his or her designee from a pool consisting of the Board of Appeals members.

Responsibilities

- Assembles at the request of the City Attorney and may hear violations of, and consider administrative penalties for, violations of the Roseville Municipal Code or conditions of approval associated with discretionary permits.

Hearing panel

The City Attorney's office shall fix a reasonable time and date for the convening of the hearing panel to hear and adjudicate claims before it.

Selection of hearing panel chair

A chair for each hearing panel shall be randomly selected by the City Attorney prior to the start of the hearing and shall be announced at the start of the hearing.

Order of business

The order of business at all hearings shall be as follows:

- Call to Order
- Identification of Chair
- Pledge of Allegiance
- Public Comment
- Swear in
- Matters to be Heard
 - Staff report, complainant's statement
 - Appellant's Response
 - Rebuttals and Panel Questions
 - Panel Discussion
 - Panel Decision
- Adjournment

Conduct of business

Agenda of matters to be heard

An agenda of matters to be heard shall be prepared by the staff liaison and shall be made available a minimum of seventy-two (72) hours before the commencement of the hearing.

Presentation material

If an individual plans to use audio/visual materials, he or she must submit all audio/visual materials to the staff liaison no later than forty-eight (48) hours prior to the hearing.

Announcement of chair

The designation of the chair for the hearing panel will be announced.

Call to order

The chair of the hearing panel shall call the meeting to order.

Swear in

All persons presenting evidence and/or testimony shall be sworn in.

Matters to be heard

The chair shall announce the matter to be heard and the panel may consider any competent and reasonable evidence. The standard of proof shall be based on the preponderance of the evidence. The panel may hear all evidence in its discretion. Formal rules of evidence shall not apply.

Staff report

The enforcement officer shall present a staff report. If applicable, the complainant may testify and present evidence. A copy of any staff report shall be provided to the responsible party/appellant at least five (5) days prior to the hearing. Additionally, a copy of the staff report shall be provided to the panel members at least five (5) days prior to the hearing.

Response, public testimony

The responsible party/appellant or the representative of the responsible party/appellant may respond to the staff report and/or the complainant. The response may include the presentation of testimony or evidence. Any materials provided by the responsible party/appellant to the City Attorney's office prior to the hearing shall also be provided to the panel members at least five (5) days before the hearing. Each side shall have five (5) minutes to make their initial presentation. If a translator is used, the person using the translator shall be provided at least ten (10) minutes for their initial presentation, which may be extended at the discretion of the chair.

Rebuttals and questions

The enforcement officer, the complainant, or the responsible party/appellant may offer rebuttal testimony. Each side shall have two (2) minutes for rebuttal. If a translator is used, the person using the translator shall be provided at least four (4) minutes for rebuttal, which may be extended at the discretion of the chair.

Rebuttal testimony is only to address relevant issues raised by the other party.

Panel discussion

Panel members may ask questions of city staff and of anyone who testified.

Decision

The chair shall close the matter and the panel may then consider the evidence. The hearing panel shall state its determination to the parties, based upon any required findings of fact.

If applicable, the chair will inform the responsible party/appellant of his/her appeal rights.

The panel shall proceed to the next matter to be heard until all such matters have been heard.

Appearances

Responsible party/appellant failure to appear

If the responsible party/appellant fails to appear for the hearing within 15 minutes after the hearing commences, the responsible party's/appellant's appeal will be automatically denied.

Complainant failure to appear

If the complainant fails to appear for the hearing within 15 minutes after the hearing commences, the responsible party's/appellant's appeal will be automatically granted as to the violation(s) dependent upon the complainant's testimony. The hearing panel may still hear any violation(s) not dependent upon the complainant's testimony.

Neither party appears

If both the responsible party/appellant and the complainant fail to appear for the hearing within 15 minutes after the hearing commences, the chair shall postpone the hearing pending rescheduling by the City Attorney. If both the responsible party/appellant and the complainant fail to appear for the rescheduled hearing within 15 minutes after the hearing commences, the responsible party's/appellant's appeal will be automatically granted as to the violation(s) dependent upon the complainant's testimony, and denied as to any violation(s) not dependent upon the complainant's testimony.

Official record

Minutes of the hearing, set off in paragraphs clearly stating the actions, findings and determinations of the panel, shall be kept by the City Attorney or the City Attorney designee. Additionally, the record may include a recording of the actual hearing (either audio, video, or stenographical) as technology permits.

Personnel Board

Five (5) members appointed by the City Council

Responsibilities:

- Provides advice to the City Council on all matters relating to personnel administration in the city service.
- Investigates and takes action on complaints of an employee or group of employees alleging unfair treatment resulting from a management decision or lack of decision.
- Interprets the city's rules and regulations governing personnel practices or working conditions.
- Investigates and decides the claim of any person that their application for employment or promotion has not been processed and considered pursuant to the Charter and the personnel rules.
- Hears and decides disciplinary, administrative and employment appeals from employees.
- Reviews and takes action on recommended changes to the personnel rules and regulations.

Meetings

The Personnel Board meets as needed in the Civic Center, 311 Vernon Street.

Disciplinary hearings

Legal advisor

An objective legal advisor to the board shall be provided in disciplinary hearings.

Pre-hearing procedures

Not later than seventy-two (72) hours prior to the hearing, the parties shall provide to each other and the board a list of witnesses to be called, and all exhibits to be presented, at the hearing.

Hearing procedures

- A. The parties shall be notified of the time and place of the hearing.
 1. All hearings shall be conducted in closed session unless the employee requests a public hearing.
 2. The employee shall be entitled to appear personally, produce evidence, and be represented by counsel
 3. The complainant may also be represented by counsel.
 4. The board shall be guided, but shall not be bound by rules of evidence used in California courts. Informality in any such hearing shall not invalidate any order or decision made or approved by the board.
 5. The parties may present witnesses and cross-examine witnesses
- B. The presiding officer shall rule on the admissibility of evidence and objections to the examination of witnesses during the hearing. The board may use the services of its counsel which may include assistance with ruling upon procedural questions, objections to evidence, and issues of law.
- C. The appellant/employee shall personally attend the hearing. Unexcused failure of an appellant to appear at a hearing shall be deemed a withdrawal of the appeal.

The order of business at disciplinary hearings shall be as follows:

- Call to Order
- Roll Call
- Preliminary Statement (advisor to the Personnel Board)
- Documents/stipulations
- Witnesses Sworn
- Opening Statements
- Proof of the Charges
- Proof of the Defense
- Rebuttal (if any)
- Summation
- Board Deliberations
- Board action/open session
- Adjournment

Hearing decision

The board shall affirm, modify, or revoke the recommended personnel action. The board shall announce its decision in open session and thereafter issue a written decision within thirty (30) calendar days of adjournment of the hearing. The written decision shall contain findings of fact and the personnel action approved, if any. The findings may reiterate the language of the pleadings or simply refer to them. The decision of the board shall be certified to the director or designee who recommended the personnel action, and he/she shall enforce the decision. A copy of the decision shall be delivered to the appellant or his/her designated representative personally or by registered mail. The decision of the board shall be final.

Conduct of business

Closed sessions

Whether a disciplinary hearing is open or closed to the public as permitted by the Brown Act, during the board deliberation concerning its decision, only the board members and the board's legal advisor shall be present.

At least one week before the date set for the disciplinary hearing, an employee appealing a disciplinary action must notify the human resources director whether the appeal hearing shall be an open or closed session.

Witnesses excluded

Whenever the board is conducting a disciplinary hearing, either the employee, the city, or the board may request that all witnesses be excluded and the chair shall order the exclusion. Notwithstanding the preceding sentence, neither the disciplined employee nor the city's designated representative shall be excluded, even though one or both may be witnesses in the hearing.

Appeals

Overturning the decision of the human resources director requires an affirmative vote of a majority of the board members present and qualified to act. If there is no majority vote to grant the appeal, the appeal is denied.

Official record

The minutes of the board for closed sessions shall be filed separately and secured for privacy purposes.

Recording of meetings

A professional transcriber/recorder will record closed disciplinary hearings.

City Council

Elective officers

The electors of the city shall elect a council of five (5) members each of whom shall be elected by district by the voters in that district for a four (4) year term of office. Commencing with the General Municipal Election in November of 2020 and every four (4) years thereafter, the voters in the odd-numbered electoral districts shall elect a councilmember. Commencing with the General Municipal Election in November of 2022 and every four (4) years thereafter, the voters in the even-numbered electoral districts shall elect a councilmember. The council shall constitute the legislative and governing body of the city and shall have authority, except as otherwise provided in the Charter, to exercise all powers of the city, and to adopt such ordinances and resolutions as may be proper in the exercise thereof. No councilmember shall serve more than two (2) consecutive four (4) year terms, commencing as of a date subsequent to April 9, 1974. A partial term of less than two (2) years served due to appointment or election

to a vacant council seat does not count as a term for purposes of this section of the Charter. However, a combination of an appointment to a vacant council seat followed by a subsequent election to fill the remainder of the unexpired term of that same vacant seat shall count as a term for purposes of this section of the Charter.

Eligibility for office

Only United States citizens may be elected or appointed officers of the city. Furthermore, in order to be eligible for city office, any councilmember elected or appointed to represent an electoral district must reside in that district and be a registered voter in that district, and any candidate for City Council must reside in, and be a registered voter in, the district in which the candidate seeks election at the time nomination papers are issued.

Assumption of office by, meeting of council, and seating of mayor and vice mayor

The council shall be sworn in and assume office, subject to the qualifying provisions of the Charter, upon receipt of a certified statement of the results of the election pursuant to California Elections Code 15372, as it may be hereafter amended. The council shall hold its first meeting at that time. The vice mayor shall be seated by rotation in sequential order of the five (5) districts. Upon termination of a councilmembers' term of office as vice mayor, the vice mayor shall be seated as mayor. The mayor and vice mayor shall each serve a two (2) year term.

Powers and duties of mayor

The mayor shall be the official head of the city government for purposes of ceremony. The mayor shall serve as the presiding officer at meetings of the City Council and shall decide all questions of order without debate, subject to advice from the City Attorney or the City Attorney designee. The mayor may not make any motion, but may second a motion. The mayor shall have all other rights and privileges of a councilmember.

Vice mayor

In the temporary absence or disability of the mayor, the vice mayor shall exercise the duties and prerogatives of the mayor. The mayor shall, whenever possible, notify the City Clerk of the mayor's intended absence from the city. In the event both the mayor and vice mayor are unable to perform their duties, the City Council may appoint one of its members to act only as chair of a meeting.

Compensation

Each member of the City Council shall receive a salary that shall be six hundred dollars (\$600) per month for each councilmember and the mayor shall receive an additional fifty dollars (\$50) per month. Councilmembers may, upon order of the City Council, be reimbursed for reasonable and necessary expenses actually incurred in the service of the city. Confirmation of reimbursement should be received before expenditures are made.

Auxiliary Positions

Councilmembers are expected to attend many meetings outside of the city and may or may not be compensated for their attendance. Every two years the mayor is responsible for bringing recommendations forward for the distribution of these councilmember responsibilities to serve on regional and local agencies, boards, commissions, committees, and joint power authorities. If unable to attend, councilmembers must ensure their alternates can attend to ensure a quorum of members is present.

Councilmember vacancies

- A. An office becomes vacant on the happening of any of the following events before the expiration of the councilmember's term:

1. Upon any of the grounds listed in Section 1770 of the California Government Code as it now exists or may hereafter be amended.
 2. Upon termination of residency in an electoral district by a councilmember elected or appointed to that district unless a substitute residence within the district is immediately declared and established within thirty (30) calendar days after the termination of residency.
- B. When a vacancy is, for any reason, anticipated in advance of its actual occurrence, the council shall initiate the appointment or election process in anticipation of the vacancy. The councilmember who will be vacating the seat may not participate in the process.
- C. Any vacancy on the council may be filled by a majority vote of the remaining councilmembers within sixty (60) calendar days after the vacancy occurs. A person appointed by the council to fill a vacancy shall hold office until the next feasible election. A councilmember elected to fill a vacancy thereafter shall hold office for the remainder of the unexpired term. No person may be appointed to the council more than once.
- D. If the council fails, for any reason, to fill such vacancy within the sixty (60) day period set forth in subsection c, it shall forthwith call an election for the earliest possible date to fill such vacancy. A councilmember elected to fill a vacancy shall hold office for the remainder of the unexpired term.
- E. A partial term of less than two years served either due to an appointment or an election to a vacant Council seat, does not count as a term. Further, a combination of an appointment to a vacant Council seat, followed by a subsequent election to fill the remainder of the unexpired term of the same vacant seat, does count as a term.
- F. In the event of a vacancy in the office of mayor, the vice mayor shall be seated as mayor and shall hold office for the remainder of the unexpired term being assumed. In the event of a vacancy in the office of vice mayor, a vice mayor shall be seated from the electoral district next in rotation and shall hold office for the remainder of the unexpired term being assumed. The filing of vacancies pursuant to this subsection, however, shall not disrupt the normal mayoral and vice mayoral rotation and shall not result in reducing a mayor's or vice mayor's scheduled term.

Regular meetings

The council shall hold regular meetings on the first and third Wednesday of each month; provided that, if a regular meeting date falls on a legal holiday, the meeting shall be held at the same hour, same day the following week or may be canceled. An agenda will provide the time and place of the meetings.

Special meetings

Special meetings may be called by the City Clerk, City Manager, City Attorney, or by written request of the mayor or any three (3) councilmembers by providing each councilmember with at least seventy-two (72) hours' written notice, except that for time sensitive business, only twenty-four (24) hours' written notice is required. Written notice shall be served personally, electronically, or left at each councilmembers' usual place of residence, and shall be publicly posted in accordance with the timeframes set forth in this section. Business transacted at any special meeting shall be limited to the subjects recited in the notice of such meeting.

Meeting place

All regular meetings shall be held in the council chambers, 311 Vernon Street, unless, by consensus, the City Council decides to meet elsewhere, in which case, notice of such alternate meeting place shall be posted by the City Clerk in a public place in advance of the proposed meeting in accordance with the Ralph M. Brown Act.

Meetings to be public

Except for closed sessions permitted by general state law, all City Council meetings shall be open to the public and members of the public shall have a reasonable opportunity to be heard.

Quorum

Three (3) councilmembers shall be a quorum for the transaction of business at City Council meetings except as otherwise provided by the Charter. In the absence of a quorum, a lesser number of councilmembers or the City Clerk may adjourn the meeting to a later date.

Attendance and conduct at meetings

The City Council may, by vote of not less than two (2) of its members, enforce orderly conduct and compel the attendance of its members and other city officers at its meetings. Any member of the City Council or other officer of the city who refuses to attend such meetings or conducts themselves in a disorderly manner shall be deemed guilty of misconduct in office. Upon request of the City Council, the City Manager shall designate a police official or officer to serve as the sergeant-at-arms of the City Council.

Council rules

The council shall determine its own rules and order of business subject to the following provisions. There shall be a journal of proceeding or minutes of all council meetings approved by the council and to which the public shall have access at all reasonable times. Within seven (7) days after any regular or special council meeting, the actions taken by the council at the meeting shall be available on the city's website, and within thirty (30) days after any regular or special council meeting, action minutes of the meeting shall be prepared by the council for its approval.

A vote upon all ordinances and resolutions shall be taken individually by an affirmative or negative vote and entered upon the journal, except that where the vote is unanimous it shall be necessary only to so state.

Order of business

The order of business at all closed sessions shall be as follows:

- Closed Session Call to Order
- Closed Session Roll Call
- Closed Session Public Comments
- Closed Session
- Closed Session Report Out
- Closed Session Adjournment

The order of business at all regular meetings of the City Council shall be as follows:

- Call to Order
- Roll Call
- Pledge of Allegiance
- Meeting Procedures
- Presentations

Purpose

This handbook shall serve as the administrative standards for all City of Roseville boards, commissions, committees and City Council members (collectively “public officials”) so that expectations and practices are clearly articulated to guide members in their actions, and to provide a uniform framework for conduct. Informational appendices are included.

City overview

Form of government

The City of Roseville Charter, adopted in 1954, establishes a council-manager form of municipal government. (Appendix I)

City Council

The five (5) member City Council, which is comprised of four (4) members and the mayor, enacts legislation, adopts budgets, and determines policy.

City Manager and department heads

The City Manager is appointed by the City Council. The City Manager is responsible for the day-to-day management of the city and supervises the organization through department heads. Department heads are appointed by and report directly to the City Manager.

City Attorney

The City Attorney provides legal advice and support to the City Council and boards, commissions, and committees on the legal propriety of proposed actions, prepares and/or reviews all ordinances, resolutions, contracts, and other documents, represents the city in civil litigation and acts as liaison to outside special counsel.

City Clerk

The City Clerk conducts elections to elect City Council members, recruits board, commission, and committee members, establishes and tracks compliance of mandatory training, maintains city records and securities, prepares agendas and minutes for the City Council, and provides City Council action follow-up.

Staff

City staff, under the direction of the City Manager, is responsible for carrying out the policies and actions of the City Council and implementing the programs and services set out in the budget and identified in the City Council’s annual goals.

Boards, commissions and committees

Boards, commissions, and committees are established to provide a method for citizen input and are ancillary to the City Council. All board, commission, and committee members shall serve without compensation. The City of Roseville has 16 boards, commissions, and committees: Board of Appeals, Charter Review Committee*, Design Committee, Economic Development Advisory Committee, Grants Advisory Commission, Law & Regulation Committee, Library Board, Local Sales Tax Citizens’ Oversight Committee, Other Post Employment Benefits (OPEB) Trust Investment Review Committee***, Parks & Recreation Commission, Personnel Board, the Placer Mosquito Abatement & Vector Control District**, Planning Commission, Public Utilities Commission, Senior Commission, and Transportation Commission.

**Charter Review Committee is a temporary committee
that each decade reviews the entire city Charter.*

***Placer Mosquito Abatement & Control District is comprised of five Placer County regional trustees. The City Council appoints one individual to serve as one of the five regional trustees.*

****OPEB Trust Investment Review Committee is comprised of eleven members (consisting of representatives from each bargaining unit (five), four retirees, and two city staff) appointed by and at the discretion of the City Manager with the purpose of providing advisory and non-binding input to city staff on investment performance and other related matters.*

Membership

Eligibility

Except for the Economic Development Advisory Committee, all members of boards, commissions, and committees shall be residents of the City at the time of their appointment and continuously during their term of office. Members of the Economic Development Advisory Committee shall either live, work, own a business, or represent a business or industry in the City at the time of their appointment and continuously during their term of office.

Individuals can only serve on a single City of Roseville board or commission at a time. Notwithstanding the foregoing, individuals may serve concurrently on a single City of Roseville board or commission and a single City of Roseville committee.

Relatives (spouses, siblings, parents, domestic partners, co-habitants, and children) cannot serve on the same board, commission, or committee at the same time. In addition, current City of Roseville employees are ineligible to serve on a board, commission, or committee.

Incompatibility of office

An individual cannot hold two conflicting public offices. Be aware that acceptance of one governmental board appointment may result in the automatic forfeiture of another public seat.

Structure of terms of office

Members of the boards, commissions, and committees serve staggered terms of four years.* No member shall serve more than two consecutive terms. In the event a person is appointed to fill an unexpired term the appointment to fill said unexpired term will be considered a partial term and will not be counted as one of the two full consecutive terms.

**Members of the Economic Development Advisory Committee serve two-year terms. There are no limitations on the number of consecutive terms a member of the Economic Development Advisory Committee may serve.*

If at the expiration of an eligible member's term the City Council has not yet appointed a replacement, the member may continue to serve on a month-to-month basis until a replacement is appointed.

Youth members

The City Council may appoint a high school student that is a resident of Roseville as a voting member of the Library Board, Parks & Recreation Commission, the Transportation Commission, and the Grants Advisory Commission. Such member shall serve only during his or her enrollment in high school and for a one-year term. Such member may be re-appointed for a second term. Youth members must be enrolled in high school during the entirety of their term. Youth members may not serve as chair or vice chair.

Appointment policy

Procedure

City Council/
Boards, Commissions
& Committees
Administrative
Standards

If a vacancy on any board, commission, or committee occurs because the current term ended, resignation, death, moving, removal from incumbent's office, ineligibility for re-appointment, etc. the following procedure will be used:

- The City Clerk will advertise the vacancy in the city's legal newspaper and on the city's website, and will notify the Roseville Chamber of Commerce, and the Roseville Coalition of Neighborhood Associations of the vacancy;
- The City Clerk will establish a deadline for receiving applications;
- Applications received after the deadline will not be accepted;
- If fewer applications are received than twice the number of openings, the City Clerk may establish a new application deadline and the vacancy re-advertised as described in the first bullet point;
- The City Clerk will conduct video interviews of all applicants;
- Applications and video interviews will be provided to the City Council;
- If a new vacancy occurs after an application deadline and before an appointment is made, a new application process will not be re-advertised;
- City Council will cast their vote at a pre-designated meeting date via ballots;
- Ballots and applications of successful applicants are made part of the record and kept on file and made available for public review upon request.

Position requirements

Oath of office

Before attending a board, commission, or committee meeting, every new member shall take the oath of office stating that he/she will faithfully discharge the duties of the board, commission, or committee to which appointed.

New member training

New board, commission, and committee members shall receive general and commission-specific training from the City Clerk Department and from the staff liaison before beginning their term.

Conflict of Interest Code

Under the Political Reform Act of 1974, all public agencies are required to adopt a Conflict of Interest Code. The code designates positions required to file Statement of Economic Interests, and assigns disclosure categories specifying the types of interests to be reported. The City of Roseville designates members of Charter Review Committee, Design Committee, the Economic Development Advisory Committee, Grants Advisory Commission, Local Sales Tax Citizens' Oversight Committee, Planning Commission, Public Utilities Commission, and Transportation Commission as required filers of an Assuming, Annual, and Leaving Form 700 Statement of Economic Interests. State law requires a fine be assessed for those who fail to file required Fair Political Practices Commission documents. If a board, commission, or committee member fails to file an Assuming Office Form 700 Statement of Economic Interests for more than thirty (30) days after the final filing date, the member will be disqualified from any participation in the meetings or other activities of the board, commission, or committee until the member both files the required Statement of Economic Interests and pays any fines associated with the failure to file. If the member fails to file and/or pay the associated fine for more than sixty (60) days after the final filing date, the member shall be removed from the board, commission, or committee by City Council action.

Ethics training

Assembly Bill 1234 imposes ethics training and compensation and reimbursement requirements on cities, counties, and special districts. For officials and board, commission, and committee members serving on or for a local agency, AB 1234 requires two (2) hours of ethics training within one year of appointment.* Thereafter, two (2) hours of ethics training every two years. Notification of this online training will be provided by the City Clerk Department. Failure to complete the online training shall result in removal from the board, commission, or committee.

Sexual harassment training

Assembly Bill 1661 imposes sexual harassment prevention training requirements on cities, counties, and special districts for officials serving on or for a local agency. Notification of this online training will be provided by the City Clerk Department.* Failure to complete the online training shall result in removal from the board, commission, or committee. In addition, the Department of Fair Employment and Housing requires all California employers to provide employees and volunteers the Department's sexual harassment pamphlet. (Appendix IV)

Unclassified service

As provided by the Charter, members of boards, commissions, and committees are considered unclassified employees and are required to comply with City of Roseville Administrative Regulation 2.03 – HARASSMENT, DISCRIMINATION, AND RETALIATION PREVENTION POLICY (Appendix II); and Roseville Administration Regulation 2.14 – ACCEPTANCE OF GIFTS AND GRATUITIES BY CITY EMPLOYEES. (Appendix III)

Social media

Statements and opinions using social media including, but not limited to Twitter, Facebook, Nextdoor, or professional networks like LinkedIn, must remain personal and cannot be intended as representing the city's nor the board, commission, or committee's official position.

In addition, the Brown Act prohibits a member of a public body from responding "directly to any communication on an Internet-based social media platform regarding a matter that is within the subject matter jurisdiction of the legislative body that is made, posted, or shared by any other member of the legislative body." This means that if a public official posted a comment in response to another public official's social media post about a city issue, that could be a Brown Act violation, assuming the two serve on the same public body. Overall, public officials must avoid commenting, liking or otherwise responding to each other's social media posts.

Dress code

Board, commission, and committee members are expected to portray a positive and professional image and are expected to wear clean and appropriate business attire.

Shirts with the city logo are permitted while attending functions in the capacity as a board, commission, or committee member.

Logo and materials

To reflect the official nature of the board, commission, or committee and to preserve consistency of the city brand, only the official city logo that contains the words "City of Roseville", shall be used on board, commission, or committee materials.

Attendance policy

It is the expectation that board, commission, and committee members attend all meetings. If a member is absent without excuse a total of 25% or more meetings in a rolling 12-month period, or more than one meeting in a rolling 12-month period if the board, commission, or committee meets quarterly, he or she shall forfeit the office. The secretary of each board, commission, or committee shall transmit attendance records to the City Clerk. Excused absences from meetings may be for any of the following reasons:

City Council/
Boards, Commissions
& Committees
Administrative
Standards

- Illness of the member or the member's family member;
- Family emergency related to illness or injury;
- Business commitment, notice of which was provided to the chair and secretary in advance;

- Previously scheduled vacation, notice of which was provided to the chair and secretary in advance;
- Attendance at a funeral, religious service or ceremony, wedding, or other similarly significant event, notice of which was provided to the chair and secretary in advance.

Removal from office

Except when otherwise provided by law or the City of Roseville Charter, members of boards, commissions, and committees of the city serve at the pleasure of the City Council, and may be removed by the City Council at any time with or without cause. A member's removal shall be by majority vote of the City Council.

Resignation

A member of a board, commission, or committee who wishes to resign prior to completing the member's term shall send a resignation letter to the City Clerk who shall notify the City Council and begin the recruitment process.

Safety information

- An automated external defibrillator (AED) and a cardio pulmonary resuscitation (CPR) mask are mounted on the wall next to the media control room;
- In case of an emergency, the chair should adjourn the meeting and advise everyone to exit through the double doors and gather across the street.

Travel and Expenses

Travel and other expenses incurred in connection with a public official's service on a board, commission, or committee, shall be authorized and reimbursed in accordance with the Travel and Expense Reimbursement Policy adopted by the City Council.

Roles and responsibilities

Liaison

Liaisons provide procedural direction and serve as staff support to the board, commission, or committee. The liaison is appointed from the department which most nearly encompasses the board, commission, or committee's activities.

Secretary

The secretary is appointed from the department which most nearly encompasses the board, commission, or committee's activities. The secretary assists in the board, commission, or committee's functions.

While the liaison and secretary roles are to assist the board, commission, or committee, the liaison, secretary and other staff are not employees of the board, commission, or committee. At all times, staff is strictly reportable to the department head and City Manager.

Chair

The chair and vice chair shall be selected by the board, commission, or committee members at a January or July meeting, or as soon thereafter as is practicable. Any voting member of the board, commission, or committee, except a youth member, can serve as chair and shall

be seated at the next meeting. The length of term for the chair and vice chair shall be one (1) year. However, there are no limitations on the number of consecutive terms the chair or vice chair may serve.

The chair is the presiding officer of the meeting. In the absence of the chair, the vice chair shall be the presiding officer of the meeting. In the absence of the vice chair, a temporary chair shall be selected from among the other members present, with priority given to seniority, and shall be the presiding officer of the meeting. Upon the arrival of the chair or vice chair, the temporary chair shall relinquish the chair immediately upon the conclusion of the item of business before the members.

The chair shall preserve order at all official meetings of the board, commission, or committee and shall decide all questions of order without debate, subject to advice from the City Attorney or City Attorney designee. The chair shall not make any motion, but may second a motion. The presiding officer shall have all other rights and privileges of a board, commission, or committee member.

Additional role of the chair

- Attend City Council meetings as needed to represent the board, commission, or committee;
- Call a meeting to order and propose adjournment;
- Call for discussion and vote on motions;
- Clarify or request clarification of motions made by members;
- Rule whether motions are out of order;
- Interpret and enforce any meeting management bylaws or rules of procedure;
- Call members to order if they disregard rules of procedure or decorum for the meeting;
- Ensure that meetings are conducted in an efficient and productive manner.

Board, commission, or committee members

When the board, commission, or committee is in session, the members must preserve order and decorum. No member shall, by conversation or otherwise, delay or interrupt the proceedings or the peace of the board, commission, or committee, disturb any member while speaking, or refuse to obey the orders of the board, commission, or committee or its presiding officer.

A board, commission, or committee member is expected to:

- Attend scheduled meetings;
- Prepare in advance of meetings and be familiar with issues on the agenda;
- Contact the staff liaison if there are questions;
- Participate in meetings and carry out assignments;
- Use community members to obtain feedback on topics under consideration;
- Be considerate of fellow members and staff;
- Not direct staff;
- Not speak for the board, commission, or committee unless authorized by the board, commission, or committee;
- Not speak for the city unless authorized to do so by action of the City Council.

City Council/
Boards, Commissions
& Committees
Administrative
Standards

Limitations

Limited reports and comments at the end of the agenda are permissible as long as no action is taken.

Other persons

Persons addressing the board, commission, or committee shall step up to the podium and may, though not required, give their name for the record. All remarks shall be addressed to the body as a whole and not to any member thereof. No person, other than a member of the board, commission, or committee, staff liaison, or the person having the floor, shall be permitted to enter into any discussion without the permission of the presiding officer.

Any person making personal, impertinent or slanderous remarks, or who shall become boisterous or belligerent while addressing the board, commission, or committee, shall, by the presiding officer, be barred from further audience before the board, commission, or committee during that meeting, unless permission to continue is granted by consensus of the board, commission, or committee. (Appendix V)

Spokesperson for group of persons

Whenever any group of persons wishes to address the board, commission, or committee on the same subject matter, it shall be the discretion of the presiding officer to request that a spokesperson be chosen by the group to address the board, commission, or committee and, in case additional matters are to be presented at the time by any member of said group, to limit the number of persons addressing the board, commission, or committee, so as to avoid unnecessary repetitions. The presiding officer may set a time limit for each side of the issue.

Meeting procedures

These meeting procedures shall pertain to all City of Roseville boards, commissions, committees, and the City Council (collectively "public bodies"). To the extent these procedures do not address an issue of parliamentary procedure for legislative body meetings, "Rosenberg's Rules of Order: Simple Parliamentary Procedures for the 21st Century" shall apply. (Appendix VI)

Other guiding documents

- The City of Roseville Charter, Roseville Municipal Code, and state statutes will govern public officials' activities.
- Parliamentary Procedure dictates the body of rules, ethics, and customs governing meetings and other operations of clubs, organizations, legislative bodies, and deliberative assemblies.
- The Ralph M. Brown Act is an act of the California State Legislature, authored by Assembly member Ralph M. Brown and passed in 1953, that guarantees the public's right to attend and participate in meetings of local legislative bodies. (Appendix VII)

Meetings

Majority of members

gregation of a majority of the members of a public body at the same
ear, discuss, deliberate, or take action on an issue in the subject matter
public body. Even if no action is taken, a gathering may constitute a meeting.
al gatherings and electronic communications, with or without public
ponsorship.
tions would not be considered a meeting if a majority of the public body
0) matters within the public body's jurisdiction are not discussed, unless they
ram; and (2) program or events are open to the public;
ublicized local publicmeeting;

Moved (insertion) [1]

- Open, noticed meeting of another body;
- Social or ceremonial event;
- Open, noticed meeting of a standing committee (can attend but cannot participate);
- Individual contacts or conversations among less than a majority of the members and a member of the public.

Although the above examples are generally not considered meetings, the City Attorney should be consulted prior to a majority of the public body attending a “non-meeting.” It is often advisable to notice the meeting or limit the attendance to less than a majority of the public officials.

Quorum

A quorum is more than half (1/2 + 1), of all voting members of the entire public body. A quorum is based on the number of voting members of the full public body. In the absence of a quorum, a lesser number of public officials, the secretary, or City Clerk must adjourn the meeting after fifteen (15) minutes have passed. In addition, if a quorum is lost during the meeting due to a departure of a public official, a lesser number of public officials, the secretary, or City Clerk must adjourn the meeting.

Meeting cancellation

A meeting may be canceled because of a lack of quorum of voting members or the lack of agenda items. If the secretary has advanced notice that a meeting will not be held, he or she shall post a notice of cancelation in lieu of posting or distributing an agenda for the meeting.

If the agenda has already been distributed, a cancelation notice shall be posted and distributed in the same manner as the agenda was. The secretary must declare the meeting canceled by appearing at the meeting location and waiting fifteen (15) minutes after the meeting start time to verbally announce the meeting is canceled. The secretary shall then post a notice of cancelation of the meeting on the door of the room where the meeting was to be held.

Formatted: Font: Bold

Regular meetings

Regular meetings shall be held as scheduled, bi-weekly, monthly, quarterly, or annually. The City Council establishes the regular meeting schedule for all boards, commissions and committees. If a regular meeting date falls on a legal holiday, the meeting shall be held at the same hour, same day the following week or may be canceled.

Deleted: ¶

Special meetings

Special meetings may be called by the City Manager, the City Attorney, the City Clerk, the presiding officer, or a quorum of voting members of the public body. Notice of the special meeting must be provided to the public officials at least seventy-two (72) hours in advance, except that for time sensitive business only twenty- four (24) hours' written notice is required.

Business transacted at any special meeting shall be limited to the subject(s) recited in the notice of the special meeting. Although not required by the Brown Act, a public comment period may be provided at special meetings to allow the public to address the public body on matters not listed on the special meeting agenda.

Adjourned meetings

Any regular or special meeting may be adjourned (continued) to a specified time and place.

Recess of a meeting

A recess of a meeting may be called at the discretion of the presiding officer.

Closed session

Prior to holding a closed session, the City Council or Personnel Board shall disclose, in an open meeting, the item or items to be discussed in the closed session as they are listed on the agenda and may only consider those matters. The City Council or Personnel Board shall publicly report any action taken in closed session and the vote or abstention of every member present thereon as required by state law. No other board, commission, or committee shall conduct a closed session without the prior written consent of the City Attorney.

City Council/
Boards, Commissions
& Committees
Administrative
Standards

Deleted: Quorum¶

A quorum is more than half ($1/2 + 1$), of all voting members of the entire public body. A quorum is based on the number of voting members of the full public body. In the absence of a quorum, a lesser number of public officials, the secretary, or City Clerk must adjourn the meeting after fifteen (15) minutes have passed. In addition, if a quorum is lost during the meeting due to¶ a departure of a public official, a lesser number of public officials, the secretary, or City Clerk must adjourn the meeting.¶

Moved up [1]: Meetings of a majority of members¶

A meeting is a congregation of a majority of the members of a public body at the same time and place to hear, discuss, deliberate, or take action on an issue in the subject matter¶ jurisdiction of the public body. Even if no action is taken, a gathering may constitute a meeting. This includes informal gatherings and electronic communications, with or without public attendance or city sponsorship.¶ The following situations would not be considered a meeting if a majority of the public body attend as long as: (1) matters within the public body's jurisdiction are not discussed, unless they are part of the program; and (2) program or events are open to the public:¶ Open and publicized local public meeting;¶ Open, noticed meeting of another body;¶ Social or ceremonial event;¶ Open, noticed meeting of a standing committee (can attend but cannot participate);¶ Individual contacts or conversations among less than a majority of the members and a member of the public.¶ Although the above examples are generally not considered meetings, the City Attorney should be consulted prior to a majority of the public body attending a "non-meeting." It is often advisable to notice the meeting or limit the attendance to less than a majority of the public officials.¶

Agendas

Open Meeting Law

All of the meetings of public bodies are subject to the Ralph M. Brown Act, requiring the entire deliberative process of a public body to be open to the public.

An agenda shall be prepared for each regular and special meeting containing the specific items of business to be transacted and the order thereof. Items of business may be placed on the agenda by the City Manager or the City Attorney. Items may also be placed on the agenda of any regular or special meeting with the consent of a majority of the public body obtained during the "Council/Board Member/Commissioner/Committee/Staff Reports" portion of a public meeting. Members of the public may not place items on the agenda but may request during public comments that an item be placed on a public body's future agenda. Placement of these items on the agenda is at the discretion of the City Manager, the City Attorney, or the consent of a majority of the public body.

An agenda for each meeting of a public body is prepared by the board, commission, or committee secretary or liaison or the City Clerk for the City Council. The agenda outlines the topics or items of business that will be introduced, discussed, and acted upon at each meeting. The agenda should include the date, time, and location of a meeting.

The order of business at all regular meetings shall be as follows:

- Call to Order
- Roll Call
- Pledge of Allegiance
- Public Comments
- Consent Calendar
- Requests/Presentations (and public hearings)
- Council/Board Member/Commissioner/Staff Reports
- Adjournment

Call to Order

The presiding officer of the public body shall take the chair precisely at the hour appointed for the meeting, and shall call the meeting to order.

Roll Call

The roll of the members shall be called by the board, commission, or committee secretary or the City Clerk for the City Council and the names of those present shall be entered into the minutes.

Public Comments

Public Comments is intended to allow the public to address the public body on matters not listed on the agenda. Individual comments shall be limited to three (3) minutes and shall not exceed a total of 25 minutes, unless such time is extended by the presiding officer. The presiding officer shall not permit the public to address items which are listed elsewhere on the agenda or which are not within the subject matter jurisdiction of the public body. The public body shall not engage in debate regarding, or take any action on, any matter brought under Public Comments except to refer the matter to staff or to determine that the matter should be included on a future agenda for debate and action.

Consent Calendar

The Consent Calendar consists of items that are routine or noncontroversial in nature. The entire calendar is intended to be acted on in one motion on a roll call vote. Any public official, staff, or the public may remove an item from the Consent Calendar for further discussion.

Items removed from the Consent Calendar for further discussion shall be discussed separately following the approval of the remaining items on the Consent Calendar. If a public official has a question or wishes to remove an item from the Consent Calendar they should call the staff liaison or the City Clerk no later than noon the day of the meeting. The staff liaison or City Clerk will determine if the item can be handled after the Consent Calendar or if it needs to be held over to the next meeting. The staff liaison or City Clerk shall so inform the presiding officer.

Requests/Presentations

Requests/Presentation items include presentations by staff or others, which may prompt discussion and/or action by the public body.

Public Hearings

Public hearing items include opening the public hearing, presentation by staff, presentation by applicant or appellant, and testimony from the public.

The order of business at public hearings shall be as follows:

- Open public hearing by presiding officer
- Presentation by staff
- Presentation by applicant (unless applicant is appellant)
- Presentation by appellant
- Open public comment by presiding officer
- Public comment
- Close public comment by presiding officer
- Rebuttal by appellant
- Rebuttal by applicant (unless applicant is appellant)
- Close public hearing by presiding officer
- City Council/board/commission/committee deliberation
- City Council/board/commission/committee action

Council/Board Member/Commissioner/Committee/Staff Reports

Council/Board Member/Commissioner/Committee Reports are designed for members of the public body to briefly ask staff for information, ask a question for clarification, make an announcement, report on individual assignments and activities, or to request that an item be placed on a future agenda. The latter requires a majority consensus of the public body. Caution should be used to avoid any discussion or action on such items. Individuals are allocated five (5) minutes apiece, for comments.

In addition, pursuant to the Travel and Expense Reimbursement Policy adopted by the City Council, public officials shall briefly report on any Brown Act meetings attended at city expense as well as any conferences, educational seminars or meetings with legislators or other governmental officials. If multiple public officials attended that same meeting or event, a joint report may be made.

Staff Reports are designed for staff to make brief announcements and to provide the public body with brief reports on the city's activities, projects, and services.

Adjournment

A motion to adjourn shall not be debatable. It shall be in order at any time, and;

- Cannot interrupt a speaker who has the floor;
- Cannot be amended;
- Must be seconded;
- Cannot be reconsidered;
- Must have a majority vote;
- A motion to adjourn "to another time" is debatable only as to the time to which the meeting is adjourned.

Order of business

The order of business may be changed at any time by the presiding officer or by consensus of the public body.

City Council/
Boards, Commissions
& Committees
Administrative
Standards

Voting

All business requiring approval of the public body shall be taken individually by an affirmative or negative vote and entered into the record, except that where the vote is unanimous it shall be necessary only to stateso.

Majority vote

A majority vote is more than half of the votes actually cast. In the event a motion on an item fails to obtain a majority vote, the presiding officer at his or her discretion shall require another motion, continue the item, or (with exception of the Personnel Board or Board of Appeals) refer the item to the City Council without recommendation if the item is before a board, commission, or committee. The number of motions that may be made on an item shall be at the discretion of the presiding officer.

Tie vote

If there is a tie vote on a motion, then the motion shall fail. In the event a motion on an item results in a tie vote, the presiding officer at his or her discretion shall require another motion, continue the item, or refer the item to the City Council without recommendation if the item is before a board, commission, or committee. The number of motions that may be made on an item shall be at the discretion of the presiding officer. If the matter involves an appeal, and an affirmative vote does not occur, the result is that the decision appealed remains in effect as decided by the decision-making person, board, commission, or committee from which the appeal was taken.

Abstention

An abstention occurs when a public official, although qualified to vote on a motion, chooses not to register his or her vote. An abstention constitutes no vote whatsoever. Public officials abstaining from a vote must clearly indicate for the record the basis for the abstention. A roll-call vote shall be taken to note that the public official was present but did not vote.

Conflict of interest

When a member has a conflict of interest, or the appearance of a conflict of interest, the member must:

- Publicly state the nature of the conflict;
- Step down from the dais and leave the room until consideration of the particular item is finished, unless the item is on the Consent Calendar;
- Not be counted toward achieving a quorum while the item is being discussed.

Recommendations

When a board, commission, or committee votes to make a recommendation to the City Council, such items may not be appealed since recommendations are not considered final approvals or decisions.

Meeting requirements

Open

All meetings of public bodies are subject to the Ralph M. Brown Act, requiring the entire proceedings of a public body to be open to the public.

Meetings shall include the convening of members, whether in person or through electronic communications, of the public body for the purpose of exercising the authority, power or duties delegated to that body. A meeting is subject to the public body meets for official purposes. When a quorum (1/2 + 1) of the public body are present, it is considered a meeting for official purposes. Meetings shall include social or chance gatherings.

Communication, including emails, social media posts, or other electronic or verbal conversations between some or all members, could be considered a meeting. Information or any type of communication to be shared by one member with other members of the public body shall be sent to the staff liaison who will forward it to all

Deleted: <object>Official record¶ Minutes¶

The Minutes serve as a permanent record of the public body's official actions. The board, commission, or committee secretary or the City Clerk shall be required to make a record only of such business as was actually passed upon by a vote of the public body, and shall not be required to record any remarks of public officials, or of any other person except at the special request of a public official.¶

Minutes of the previous meeting shall be provided to the public body prior to each meeting. The minutes may be approved by majority vote even if one or more of the voting members were not present at the meeting to which the minutes relate.¶

<object>¶

Correction to Minutes¶

Members of public bodies are to review minutes and make corrections if needed so that the approved minutes accurately reflect the work of the group. Corrections are made at the meeting when the minutes are brought forward for adoption. Corrections require a motion,¶ second, and a majority vote, and, if approved, are noted in the minutes of the current meeting. Any changes to the draft minutes approved by the public body will be reflected in the minutes for the meeting at which the corrections are made.¶

¶

Recordings¶

A recording may be made of public body meetings. Audio recordings of the meetings are to be kept for one (1) year, and video recordings are to be kept for three years after which time the recordings shall be destroyed. Recordings are not the official minutes of the public body.¶

¶

members of the public body.

Public notice

The Brown Act requires that all meetings of a governmental body be preceded by an official public notice:

- Regular meetings – when the meeting is held at a regular day, time, and location, the agenda must be posted seventy-two (72) hours in advance of the meeting.
- Special meetings – when the meeting is held at a different time, different day, and/or different location than a regular meeting, then the agenda must be posted seventy-two (72) hours in advance of the meeting, except that for time sensitive business the agenda may be posted only twenty-four (24) hours in advance of the meeting.
- Adjourned meetings – regular and special meetings may be adjourned or continued to a future day if the business could not be completed at the original meeting. The time and date of the adjourned (continued) meeting must be designated and announced to the members of the public who are present at the time of adjournment, as well as recorded in the minutes.
- An agenda for each meeting of the board, commission, or committee is prepared by the board, commission, or committee secretary or liaison. An agenda for each meeting of the City Council is prepared by the City Clerk. The agenda outlines the topics or items of business that will be introduced, discussed, and acted upon at each meeting. The agenda shall also include the date, time, and location of a meeting.

Rights of the public

Pursuant to the Ralph M. Brown Act and the First Amendment, the public must be allowed to:

- Attend, observe, and speak at meetings;
- Speak without being required to provide a name, address, or other information;
- Record the meeting with audio or video recorder and take photographs;
- Review agendas and other documents distributed to a majority of the public body other than those exempt from disclosure;
- Request in writing that the agenda or agenda-related documents be mailed to them for a cost not to exceed the actual cost of providing the service;
- Obtain a copy of any audio or video (if it exists) of the meeting (there is no requirement to prepare a transcript) for a cost not to exceed the actual cost of providing the service;
- Speak to each item on the agenda and to items under the jurisdiction of the public body;
- Criticize or complain about processes or procedures;
- Protest by wearing messages on clothing, holding signs, or engaging in nonverbal forms of communication.

However, the public's rights are not unlimited. The presiding officer may have removed any individual for disrupting a meeting. "Disrupting a meeting" means engaging in behavior that actually disrupts, disturbs, impedes, or renders infeasible the ability of the public body to orderly and efficiently conduct the meeting, or substantially interferes with the rights of other audience members. Disruptive behavior includes, but is not limited to, the following:

- Shouting from the audience;
- Interrupting or speaking over a person at the podium who has been recognized to speak by the presiding officer;
- Clapping, booing, or other expressions of support or opposition to a speaker or to the public body's discussion or decision;
- Verbally harassing or physically confronting audience members, city staff, or public officials;
- Interrupting staff while engaged with the public body;
- Interrupting the public body while it is considering a matter;
- Continuing to speak at the podium once the presiding officer has announced the person's time has expired;
- Recording or broadcasting the meeting in a manner that creates noise, illumination, or obstructions of view that constitutes a persistent disruption of the proceedings;
- Failing to follow the city's meeting procedures.

Prior to having the individual removed, the presiding officer shall warn the individual that their behavior is disrupting the meeting and that their failure to cease their behavior may result in their removal. If they do not promptly cease their disrupting behavior, they can be removed. No warning is required prior to removal if the individual is using force or threatening to use force.

If a group or groups of persons willfully disrupts a meeting and order cannot be restored by the removal of such individuals, the presiding officer after giving a warning may order the meeting room cleared and continue in session. No warning is required prior to removal if the group or groups of persons are using force or threatening to use force. Only matters appearing on the agenda may be considered in such session. Representatives of the press or other news media with valid credentials, except those participating in the disturbance, shall be allowed to attend such session. In addition, the presiding officer may readmit any individuals not responsible for disrupting the meeting.

As an alternative to removing individual(s), the presiding officer may call a recess to de-escalate the situation.

These rules shall be applied in a viewpoint neutral manner and do not prohibit criticism of the city, city staff, the public body, or city policies, programs, or services.

Americans with Disabilities Act

All legislative meetings open to the public must comply with the Americans with Disabilities Act. If members of the public body or members of the public attending the meetings require special assistance to participate in a meeting, individuals must notify the staff liaison or City Clerk at least seventy-two (72) hours prior to the meeting.

Limited English proficiency

Individuals who do not speak English as their primary language and who have a limited ability to read, speak, write, or understand English are considered limited English proficient. If an individual appears before the public body and is limited English proficient and requests assistance, the individual should be provided a certified foreign language interpreter. Individuals requesting an interpreter must notify the staff liaison or City Clerk at least seventy-two (72) hours prior to the meeting. Pursuant to the Ralph M. Brown Act, individuals using an interpreter shall be provided at least twice the allotted time given to other members of the public.

Presentation material

~~An individual making a presentation to a public body must submit all media to the City Clerk or secretary for review at least 72 hours in advance of the broadcasted meeting.~~

Any emergency exceptions must be approved by the City Manager.

Deleted: If a

Deleted: plans to make a presentation on an agenda item and plans to use audio/visual materials, he or she must submit all audio/visual materials to the staff liaison or City Clerk at least seventy- two (72) hours prior to the meeting.

Composition, responsibilities, and meeting dates of the City of Roseville boards, commissions, and committees

Charter Review Committee

Nine (9) members appointed by the City Council at least every ten (10) years

Responsibilities

Reviews the Charter and presents, or causes to be presented, to the City Council a written report recommending amendments, if any, which should be made to the Charter.

Meetings

The Charter Review Committee, once established, determines meeting day, time and location.

Design Committee

Three (3) members: two (2) members appointed by the City Council; one (1) member appointed by the Planning Commission; and one (1) alternate appointed by the Planning Commission

Responsibilities

- Reviews design-related applications for multiple-residential, commercial, and industrial projects.
- Reviews proposed site plans, architecture, and landscaping for conformance with the city's general plan, specific plans, and community design guidelines.
- Reviews applications required by the city's sign ordinance.

Meetings

The Design Committee meets the third Thursday of each month at 4:30 p.m. in the Civic Center meeting rooms 1 & 2, 311 Vernon Street.

**The chair of the committee shall be a current member of the Planning Commission. In the absence of the chair and vice chair of the committee, the alternate Planning Commissioner shall act as the presiding officer.*

Responsibilities

- Ensures goals of the Roseville Economic Development Strategy (Strategy) are being met.
- Provides guidance to staff and recommendations to the City Council on implementation of the Strategy and recommends changes or additions as necessary to reflect changing economic conditions or opportunities.
- Reviews annual economic development work program and budget and makes recommendations to the City Council regarding economic development work program and budget.
- Reports to the City Council at least annually on Strategy progress and effectiveness of the Strategy.
- Review programs which assist existing and prospective businesses.

City Council/
Boards, Commissions
& Committees
Administrative
Standards

Meetings

The Economic Development Advisory Committee meets on the fourth Tuesday of January, April, July, and October at 1:30 p.m. in the Civic Center, 311 Vernon Street.

Grants Advisory Commission

Seven (7) members appointed by the City Council; additionally, the City Council may appoint a voting youth commissioner

Responsibilities

- Reviews and recommends Citizens' Benefit Fund (Chapter 4.06) and Roseville Employees Annual Charitable Hearts ("REACH") fund and grant application processes and policies for grants to be approved by the City Council.
- Acts as a forum for public participation in review of Citizens' Benefit Fund and REACH grant applications.
- Annually reviews and makes recommendations on Citizens' Benefit Fund and REACH grant applications.
- Monitors approved grants and reviews annual reports for measurable outcomes.
- Recommends to the City Council the use of the interest earned by the city on the proceeds of the sale of the Roseville Community Hospital in the award of Citizens' Benefit Fund grants.

Meetings

The Grants Advisory Commission meets the second Tuesday of each month at 5:30 p.m. in the council chambers, 311 Vernon Street.

Law and Regulation Committee

Two (2) council members, and one (1) alternate appointed by the City Council

Responsibilities

- Requests, considers, and evaluates state and federal legislation, policies and regulations brought before the Committee and makes recommendations to the full City Council on those items.
- Provides input to staff regarding concerns about the effects a specific piece of legislation, policy or regulation might have on the community.
- Requests additional information from staff regarding legislation, policies, and regulations.

Meetings

The regular day and time for meetings for the Law and Regulation Committee shall be established by resolution adopted by the City Council, as amended from time to time.

Library Board

Five (5) members appointed by the City Council; additionally, the City Council may appoint a voting youth member

Responsibilities

- Participates in strategic and long-range planning for the city library system.
- Serves as community liaisons/advocates for library programs and services.
- Reviews policies and procedures as presented by city library staff.
- Represents the library at city-sponsored functions.
- Advises the City Council on important library efforts.

Meetings

The Library Board meets the fourth Monday of odd-numbered months at 6 p.m. at various city libraries.

Local Sales Tax Citizens' Oversight Committee

Five (5) members appointed by the City Council.

Responsibilities

- Annually, review revenue receipts and expenditures of the Transactions and Use Tax.
- Annually, review status of programs and services, funded wholly or partially with proceeds from the Transactions and Use Tax.
- Annually, prepare and present an independent report to the City Council regarding the revenue and expenditures of the Transactions and Use Tax.

Meetings

The Local Sales Tax Citizens' Oversight Committee meets two to three times per year, or as determined by the City Manager.

Parks and Recreation Commission

Seven (7) members appointed by the City Council; additionally, the City Council may appoint a voting youth commissioner.

Responsibilities

- Reviews and makes recommendations on park projects, department operations, recreation programs, events and related issues.

Meetings

The Parks and Recreation Commission meets the first Monday of each month at 6 p.m. in the council chambers, 311 Vernon Street.

Planning Commission

Seven (7) members appointed by the City Council

Responsibilities

- Makes recommendations to the City Council on general plan, specific plan, zoning and other land use policy areas.

City Council/
Boards, Commissions
& Committees
Administrative
Standards

- Reviews and makes recommendations to the City Council on, and where appropriate, approves entitlements for compliance with the general plan, applicable specific plans, and other policy documents.
- Takes final action on major project permits, conditional use permits, tree permits, tentative subdivision maps, variances, and zoning interpretations.
- Determines the adequacy and consistency with the California Environmental Quality Act of environmental documentation associated with projects acted upon by the Planning Commission.
- Provides representation of the city at various conferences, before other agencies, etc.
- Provides commission members for service on special task forces/committees, as needed.
- Provides a forum for public involvement for the items listed above.

Meetings

The Planning Commission meets the second and fourth Thursdays of each month at 6:30 p.m. in the council chambers, 311 Vernon Street.

Public Utilities Commission

Seven (7) members appointed by the City Council

Responsibilities

Standards

Supplemental meeting procedures

The meeting procedures of the Board of Appeals, Personnel Board, and City Council are substantially unique and are therefore supplemented herein separately. In the event of a conflict between the Uniform Meeting Procedures and these Supplemental Meeting Procedures, the provisions of the Supplemental Meeting Procedures shall govern.

Board of Appeals

Ten to fifteen (10-15) members appointed by the City Council

Responsibilities

- Serves as an advisory body to the City Council with respect to construction, building, code enforcement, or similar matters.
- Reviews matters as provided under the Uniform Building and Housing codes.
- Serves as a pool of hearing examiners for the purpose of formation of each ad hoc hearing examiner panel as provided herein.

Semi-annual meetings

The Board of Appeals meets the second Tuesday of January and July, or as soon thereafter on a date and time as practicable, at 4:00 p.m. in the Civic Center, 311 Vernon Street. A chair and vice chair of the board shall be selected as set forth under the “Roles and responsibilities” section of these Administrative Standards.

Hearing panels

Three (3) members selected by the City Attorney or his or her designee from a pool consisting of the Board of Appeals members.

Responsibilities

- Assembles at the request of the City Attorney and may hear violations of, and consider administrative penalties for, violations of the Roseville Municipal Code or conditions of approval associated with discretionary permits.

Hearing panel

The City Attorney’s office shall fix a reasonable time and date for the convening of the hearing panel to hear and adjudicate claims before it.

Selection of hearing panel chair

A chair for each hearing panel shall be randomly selected by the City Attorney prior to the start of the hearing and shall be announced at the start of the hearing.

Order of business

The order of business at all hearings shall be as follows:

- Call to Order
- Identification of Chair
- Pledge of Allegiance
- Public Comment
- Swear in
- Matters to be Heard
 - Staff report, complainant’s statement
 - Appellant’s Response
 - Rebuttals and Panel Questions
 - Panel Discussion
 - Panel Decision
- Adjournment

City Council/

& Committees
Administrative
Standards

Conduct of business

Agenda of matters to be heard

An agenda of matters to be heard shall be prepared by the staff liaison and shall be made available a minimum of seventy-two (72) hours before the commencement of the hearing.

Presentation material

If an individual plans to use audio/visual materials, he or she must submit all audio/visual materials to the staff liaison no later than forty-eight (48) hours prior to the hearing.

Announcement of chair

The designation of the chair for the hearing panel will be announced.

Call to order

The chair of the hearing panel shall call the meeting to order.

Swear in

All persons presenting evidence and/or testimony shall be sworn in.

Matters to be heard

The chair shall announce the matter to be heard and the panel may consider any competent and reasonable evidence. The standard of proof shall be based on the preponderance of the evidence. The panel may hear all evidence in its discretion. Formal rules of evidence shall not apply.

Staff report

The enforcement officer shall present a staff report. If applicable, the complainant may testify and present evidence. A copy of any staff report shall be provided to the responsible party/appellant at least five (5) days prior to the hearing. Additionally, a copy of the staff report shall be provided to the panel members at least five (5) days prior to the hearing.

Response, public testimony

The responsible party/appellant or the representative of the responsible party/appellant may respond to the staff report and/or the complainant. The response may include the presentation of testimony or evidence. Any materials provided by the responsible party/appellant to the City Attorney's office prior to the hearing shall also be provided to the panel members at least five (5) days before the hearing. Each side shall have five (5) minutes to make their initial presentation. If a translator is used, the person using the translator shall be provided at least ten (10) minutes for their initial presentation, which may be extended at the discretion of the chair.

Rebuttals and questions

The enforcement officer, the complainant, or the responsible party/appellant may offer rebuttal testimony. Each side shall have two (2) minutes for rebuttal. If a translator is used, the person using the translator shall be provided at least four (4) minutes for rebuttal, which may be extended at the discretion of the chair.

Rebuttal testimony is only to address relevant issues raised by the other party.

Panel discussion

Panel members may ask questions of city staff and of anyone who testified.

Decision

The chair shall close the matter and the panel may then consider the evidence. The hearing panel shall state its determination to the parties, based upon any required findings of fact.

If applicable, the chair will inform the responsible party/appellant of his/her appeal rights.

The panel shall proceed to the next matter to be heard until all such matters have been heard.

Appearances

Responsible party/appellant failure to appear

If the responsible party/appellant fails to appear for the hearing within 15 minutes after the hearing commences, the responsible party's/appellant's appeal will be automatically denied.

Complainant failure to appear

If the complainant fails to appear for the hearing within 15 minutes after the hearing commences, the responsible party's/appellant's appeal will be automatically granted as to the violation(s) dependent upon the complainant's testimony. The hearing panel may still hear any violation(s) not dependent upon the complainant's testimony.

Neither party appears

If both the responsible party/appellant and the complainant fail to appear for the hearing within 15 minutes after the hearing commences, the chair shall postpone the hearing pending rescheduling by the City Attorney. If both the responsible party/appellant and the complainant fail to appear for the rescheduled hearing within 15 minutes after the hearing commences, the responsible party's/appellant's appeal will be automatically granted as to the violation(s) dependent upon the complainant's testimony, and denied as to any violation(s) not dependent upon the complainant's testimony.

Official record

Minutes of the hearing, set off in paragraphs clearly stating the actions, findings and determinations of the panel, shall be kept by the City Attorney or the City Attorney designee. Additionally, the record may include a recording of the actual hearing (either audio, video, or stenographical) as technology permits.

Personnel Board

Five (5) members appointed by the City Council

Responsibilities:

- Provides advice to the City Council on all matters relating to personnel administration in the city service.
- Investigates and takes action on complaints of an employee or group of employees alleging unfair treatment resulting from a management decision or lack of decision.
- Interprets the city's rules and regulations governing personnel practices or working conditions.
- Investigates and decides the claim of any person that their application for employment or promotion has not been processed and considered pursuant to the Charter and the personnel rules.
- Hears and decides disciplinary, administrative and employment appeals from employees.
- Reviews and takes action on recommended changes to the personnel rules and regulations.

Disciplinary hearings

Legal advisor

An objective legal advisor to the board shall be provided in disciplinary hearings.

Pre-hearing procedures

Not later than seventy-two (72) hours prior to the hearing, the parties shall provide to each other and the board a list of witnesses to be called, and all exhibits to be presented, at the hearing.

Hearing procedures

- A. The parties shall be notified of the time and place of the hearing.
 1. All hearings shall be conducted in closed session unless the employee requests a public hearing.
 2. The employee shall be entitled to appear personally, produce evidence, and be represented by counsel
 3. The complainant may also be represented by counsel.
 4. The board shall be guided, but shall not be bound by rules of evidence used in California courts. Informality in any such hearing shall not invalidate any order or decision made or approved by the board.
 5. The parties may present witnesses and cross-examine witnesses
- B. The presiding officer shall rule on the admissibility of evidence and objections to the examination of witnesses during the hearing. The board may use the services of its counsel which may include assistance with ruling upon procedural questions, objections to evidence, and issues of law.
- C. The appellant/employee shall personally attend the hearing. Unexcused failure of an appellant to appear at a hearing shall be deemed a withdrawal of the appeal.

The order of business at disciplinary hearings shall be as follows:

- Call to Order
- Roll Call
- Preliminary Statement (advisor to the Personnel Board)
- Documents/stipulations
- Witnesses Sworn
- Opening Statements
- Proof of the Charges
- Proof of the Defense
- Rebuttal (if any)
- Summation
- Board Deliberations
- Board action/open session
- Adjournment

Hearing decision

The board shall affirm, modify, or revoke the recommended personnel action. The board shall announce its decision in open session and thereafter issue a written decision within thirty (30) calendar days of adjournment of the hearing. The written decision shall contain findings of fact and the personnel action approved, if any. The findings may reiterate the language of the pleadings or simply refer to them. The decision of the board shall be certified to the director or designee who recommended the personnel action, and he/she shall enforce the decision. A copy of the decision shall be delivered to the appellant or his/her designated representative personally or by registered mail. The decision of the board shall be final.

Conduct of business

Closed sessions

Whether a disciplinary hearing is open or closed to the public as permitted by the Brown Act, during the board deliberation concerning its decision, only the board members and the board's legal advisor shall be present.

At least one week before the date set for the disciplinary hearing, an employee appealing a disciplinary action must notify the human resources director whether the appeal hearing shall be an open or closed session.

Witnesses excluded

Whenever the board is conducting a disciplinary hearing, either the employee, the city, or the board may request that all witnesses be excluded and the chair shall order the exclusion. Notwithstanding the preceding sentence, neither the disciplined employee nor the city's designated representative shall be excluded, even though one or both may be witnesses in the hearing.

Appeals

Overturning the decision of the human resources director requires an affirmative vote of a majority of the board members present and qualified to act. If there is no majority vote to grant the appeal, the appeal is denied.

Official record

The minutes of the board for closed sessions shall be filed separately and secured for privacy purposes.

Recording of meetings

A professional transcriber/recorder will record closed disciplinary hearings.

City Council

Elective officers

The electors of the city shall elect a council of five (5) members each of whom shall be elected by district by the voters in that district for a four (4) year term of office. Commencing with the General Municipal Election in November of 2020 and every four (4) years thereafter, the voters in the odd-numbered electoral districts shall elect a councilmember. Commencing with the General Municipal Election in November of 2022 and every four (4) years thereafter, the voters in the even-numbered electoral districts shall elect a councilmember. The council shall constitute the legislative and governing body of the city and shall have authority, except as otherwise provided in the Charter, to exercise all powers of the city, and to adopt such ordinances and resolutions as may be proper in the exercise thereof. No councilmember shall serve more than two (2) consecutive four (4) year terms, commencing as of a date subsequent to April 9, 1974. A partial term of less than two (2) years served due to appointment or election

City Council/
Boards, Commissions
& Committees
Administrative
Standards

to a vacant council seat does not count as a term for purposes of this section of the Charter. However, a combination of an appointment to a vacant council seat followed by a subsequent election to fill the remainder of the unexpired term of that same vacant seat shall count as a term for purposes of this section of the Charter.

Eligibility for office

Only United States citizens may be elected or appointed officers of the city. Furthermore, in order to be eligible for city office, any councilmember elected or appointed to represent an electoral district must reside in that district and be a registered voter in that district, and any candidate for City Council must reside in, and be a registered voter in, the district in which the candidate seeks election at the time nomination papers are issued.

Assumption of office by, meeting of council, and seating of mayor and vice mayor

The council shall be sworn in and assume office, subject to the qualifying provisions of the Charter, upon receipt of a certified statement of the results of the election pursuant to California Elections Code 15372, as it may be hereafter amended. The council shall hold its first meeting at that time. The vice mayor shall be seated by rotation in sequential order of the five (5) districts. Upon termination of a councilmembers' term of office as vice mayor, the vice mayor shall be seated as mayor. The mayor and vice mayor shall each serve a two (2) year term.

Powers and duties of mayor

The mayor shall be the official head of the city government for purposes of ceremony. The mayor shall serve as the presiding officer at meetings of the City Council and shall decide all questions of order without debate, subject to advice from the City Attorney or the City Attorney designee. The mayor may not make any motion, but may second a motion. The mayor shall have all other rights and privileges of a councilmember.

Vice mayor

In the temporary absence or disability of the mayor, the vice mayor shall exercise the duties and prerogatives of the mayor. The mayor shall, whenever possible, notify the City Clerk of the mayor's intended absence from the city. In the event both the mayor and vice mayor are unable to perform their duties, the City Council may appoint one of its members to act only as chair of a meeting.

Compensation

Each member of the City Council shall receive a salary that shall be six hundred dollars (\$600) per month for each councilmember and the mayor shall receive an additional fifty dollars (\$50) per month. Councilmembers may, upon order of the City Council, be reimbursed for reasonable and necessary expenses actually incurred in the service of the city. Confirmation of reimbursement should be received before expenditures are made.

Auxiliary Positions

Councilmembers are expected to attend many meetings outside of the city and may or may not be compensated for their attendance. Every two years the mayor is responsible for bringing recommendations forward for the distribution of these councilmember responsibilities to serve on regional and local agencies, boards, commissions, committees, and joint power authorities. If unable to attend, councilmembers must ensure their alternates can attend to ensure a quorum of members is present.

Councilmember vacancies

- A. An office becomes vacant on the happening of any of the following events before the expiration of the councilmember's term:

1. Upon any of the grounds listed in Section 1770 of the California Government Code as it now exists or may hereafter be amended.
 2. Upon termination of residency in an electoral district by a councilmember elected or appointed to that district unless a substitute residence within the district is immediately declared and established within thirty (30) calendar days after the termination of residency.
- B. When a vacancy is, for any reason, anticipated in advance of its actual occurrence, the council shall initiate the appointment or election process in anticipation of the vacancy. The councilmember who will be vacating the seat may not participate in the process.
- C. Any vacancy on the council may be filled by a majority vote of the remaining councilmembers within sixty (60) calendar days after the vacancy occurs. A person appointed by the council to fill a vacancy shall hold office until the next feasible election. A councilmember elected to fill a vacancy thereafter shall hold office for the remainder of the unexpired term. No person may be appointed to the council more than once.
- D. If the council fails, for any reason, to fill such vacancy within the sixty (60) day period set forth in subsection c, it shall forthwith call an election for the earliest possible date to fill such vacancy. A councilmember elected to fill a vacancy shall hold office for the remainder of the unexpired term.
- E. A partial term of less than two years served either due to an appointment or an election to a vacant Council seat, does not count as a term. Further, a combination of an appointment to a vacant Council seat, followed by a subsequent election to fill the remainder of the unexpired term of the same vacant seat, does count as a term.
- F. In the event of a vacancy in the office of mayor, the vice mayor shall be seated as mayor and shall hold office for the remainder of the unexpired term being assumed. In the event of a vacancy in the office of vice mayor, a vice mayor shall be seated from the electoral district next in rotation and shall hold office for the remainder of the unexpired term being assumed. The filing of vacancies pursuant to this subsection, however, shall not disrupt the normal mayoral and vice mayoral rotation and shall not result in reducing a mayor's or vice mayor's scheduled term.

Regular meetings

The council shall hold regular meetings on the first and third Wednesday of each month; provided that, if a regular meeting date falls on a legal holiday, the meeting shall be held at the same hour, same day the following week or may be canceled. An agenda will provide the time and place of the meetings.

Special meetings

Special meetings may be called by the City Clerk, City Manager, City Attorney, or by written request of the mayor or any three (3) councilmembers by providing each councilmember with at least seventy-two (72) hours' written notice, except that for time sensitive business, only twenty-four (24) hours' written notice is required. Written notice shall be served personally, electronically, or left at each councilmembers' usual place of residence, and shall be publicly posted in accordance with the timeframes set forth in this section. Business transacted at any special meeting shall be limited to the subjects recited in the notice of such meeting.

City Council/
Boards, Commissions
& Committees
Administrative
Standards

Meeting place

All regular meetings shall be held in the council chambers, 311 Vernon Street, unless, by consensus, the City Council decides to meet elsewhere, in which case, notice of such alternate meeting place shall be posted by the City Clerk in a public place in advance of the proposed meeting in accordance with the Ralph M. Brown Act.

Meetings to be public

Except for closed sessions permitted by general state law, all City Council meetings shall be open to the public and members of the public shall have a reasonable opportunity to be heard.

Quorum

Three (3) councilmembers shall be a quorum for the transaction of business at City Council meetings except as otherwise provided by the Charter. In the absence of a quorum, a lesser number of councilmembers or the City Clerk may adjourn the meeting to a later date.

Attendance and conduct at meetings

The City Council may, by vote of not less than two (2) of its members, enforce orderly conduct and compel the attendance of its members and other city officers at its meetings. Any member of the City Council or other officer of the city who refuses to attend such meetings or conducts themselves in a disorderly manner shall be deemed guilty of misconduct in office. Upon request of the City Council, the City Manager shall designate a police official or officer to serve as the sergeant-at-arms of the City Council.

Council rules

The council shall determine its own rules and order of business subject to the following provisions. There shall be a journal of proceeding or minutes of all council meetings approved by the council and to which the public shall have access at all reasonable times. Within seven (7) days after any regular or special council meeting, the actions taken by the council at the meeting shall be available on the city's website, and within thirty (30) days after any regular or special council meeting, action minutes of the meeting shall be prepared by the council for its approval.

A vote upon all ordinances and resolutions shall be taken individually by an affirmative or negative vote and entered upon the journal, except that where the vote is unanimous it shall be necessary only to so state.

Order of business

The order of business at all closed sessions shall be as follows:

- Closed Session Call to Order
- Closed Session Roll Call
- Closed Session Public Comments
- Closed Session
- Closed Session Report Out
- Closed Session Adjournment

The order of business at all regular meetings of the City Council shall be as follows:

- Call to Order
- Roll Call
- Pledge of Allegiance
- Meeting Procedures
- Presentations
- Public Comments

COUNCIL COMMUNICATION

CC #: 3673
File #: 0800-04

Title: Purchase of Motor Vehicles Ordinance
Contact: Brandy LeBeau 916-774-5531 blebeau@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.29.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council introduce for first reading an uncodified ordinance for Fleet Services purchases, granting the Purchasing Officer authority to purchase motor vehicles equal to or greater than the bid amount established in the City Charter for a period of two years.

BACKGROUND

The Fleet Services Division of the Public Works Department is responsible for procuring motor vehicles and equipment for the City of Roseville. However, the current bid amount and City Council approval process create significant challenges in the current vehicle market. Due to the inflated cost of vehicles, nearly all replacements exceed the \$75,000 threshold, requiring City Council approval. This additional four-week approval process often results in missed manufacturer order windows or unavailable dealer inventory, making it difficult to procure essential vehicles. The highly competitive market, driven by supply chain disruptions and regulatory pressures, has further exacerbated this issue. To address these constraints, Fleet Services requests an extension of the Fleet Purchasing Ordinance to streamline purchasing and secure vehicles promptly.

The ordinance extension is critical in order to meet the state's Advanced Clean Fleet (ACF) regulation and ensure uninterrupted fleet operations. As vehicle manufacturers phase out internal combustion engine (ICE) models, securing them is becoming increasingly difficult. The extension will allow the City to purchase ICE vehicles while still available, maintaining fleet diversity for operations where electric vehicles (EVs) may not be viable. Additionally, by meeting the 50% EV purchase mandate over the next two budget cycles, the City can reach the required 10% ACF target which enables exemptions for ICE vehicles when the 100% EV mandate begins in 2027. This phased approach will also help the City fully utilize its existing EV infrastructure while preparing for future needs. Without this extension, the City risks operational disruptions, increased costs, and will have difficulty complying with the ACF.

To meet growing demand and ensure the best possible service and safety for Fleet Services customers, the Purchasing Officer requests the authority to purchase vehicles equal to or greater than the bid amount established in the City Charter. This would allow Fleet Services to act swiftly in procuring vehicles available at dealerships or placing orders as soon as manufacturer order

windows open. The competitive bidding process would still be followed, with awards made to the lowest responsible bidder, and all purchases would remain within the Council approved Fleet Replacement Fund budgeted amounts. The ordinance would automatically terminate two years after the approval date, providing a temporary but crucial measure to maintain fleet operations during this transitional period.

FISCAL IMPACT

There is no additional fiscal impact associated with this request. Funding for all purchases is included in the approved fiscal year budgets, and no additional funds are requested for this action.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of authority to purchase vehicles and trucks meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A – Remain fiscally responsible in a changing world.

Goal E – Deliver exceptional city services.

Goal F – Invest in well-planned infrastructure and growth.

Respectfully Submitted,

Brandy LeBeau, Fleet Manager

Jason Shykowski, Public Works Director

Dominick Casey, City Manager

Description

Ordinance

ORDINANCE NO.

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE GRANTING THE PURCHASING OFFICER AUTHORITY TO MAKE PURCHASES OF MOTOR VEHICLES EQUAL TO OR GREATER THAN THE BID AMOUNT ESTABLISHED IN THE CITY CHARTER FOR A PERIOD OF TWO YEARS

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The Fleet Services Division of the Public Works Department is responsible for procuring motor vehicles for the City of Roseville. Like other California municipalities, the City must comply with increasingly strict state regulations, including the Advanced Clean Fleets (ACF) and Advanced Clean Cars (ACC) regulations. Due to regulatory pressure, vehicle manufacturers are significantly reducing the production of internal combustion engine (ICE) vehicles, resulting in smaller allocations and limited availability. This supply chain constraint makes procuring ICE vehicles highly competitive and time-sensitive.

SECTION 2. The Fleet Services Division frequently faces challenges in procuring necessary motor vehicles because of the time required to obtain City Council approval for purchase orders, as mandated by the City's procurement rules and policies. This delays the City's ability to secure ICE vehicles, which are already in short supply, and risks missing out on limited allocations. Additionally, the availability of ICE vehicles is diminishing as manufacturers prioritize electric vehicle (EV) production.

Securing ICE vehicles within the subsequent two budget cycles is critical, as regulatory changes will further restrict ICE procurement. After this period, the City may be forced to purchase 100% EVs, even when an ICE vehicle would better meet operational needs. Further complicating procurement, exemptions to purchase ICE vehicles are becoming more challenging, requiring 10% of the City's fleet to be already electric. This restriction highlights the importance of acting swiftly to secure ICE vehicles before these limitations become even more stringent.

SECTION 3. Section 7.21 of the Charter of the City of Roseville provides that competitive prices or bids for all purchases and public works and improvements shall be obtained where practicable and the purchase made from, or the contract awarded to, the lowest responsible bidder. Section 7.21 further provides that sealed bids shall be asked for in all transactions involving the expenditure of seventy-five thousand dollars (\$75,000) or more.

SECTION 4. Section 4.12.090(A) of the Roseville Municipal Code provides that purchases of supplies or equipment of an estimated value equal to or greater than the bid amount established in the City Charter, shall be by written purchase order with the lowest responsible bidder. Section 4.12.090(D) provides that following an opening of bids for the purchase of such supplies or equipment, City staff shall submit a recommendation to the City Council for award. Section 4.12.090(F) provides that bids shall be awarded by the City Council, and a purchase order issued by the Purchasing Officer, to the lowest responsible bidder.

SECTION 5. The City Council desires to temporarily exempt, for a period of two (2) years, the purchase of motor vehicles in an amount of seventy-five thousand dollars (\$75,000) or more from the requirement that such purchase orders be approved by the City Council. This temporary exemption for motor vehicle purchases only applies to purchases that are 1) competitively bid

pursuant to the City's existing laws and policies and; 2) within the budget previously approved by the City Council.

SECTION 6. Accordingly, notwithstanding the provisions of Chapter 4.12 of the Roseville Municipal Code to the contrary, purchases of motor vehicles in the amount of seventy-five thousand dollars (\$75,000) or more may be awarded by the Purchasing Officer to the lowest responsible bidder without further City Council approval. This authority is expressly conditioned upon such purchases being within the previously allocated and approved budget of the Fleet Services Division of the Public Works Department. This Ordinance shall terminate on December 31, 2026.

SECTION 7. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

COUNCIL COMMUNICATION

CC #: 3655
File #: 0316-04

Title: 2024 Speed Limit Update - Roseville Municipal Code Amendment
Contact: Jana Cervantes 916-774-5498 jcervantes@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.30.

RECOMMENDATION TO COUNCIL

This is a request to set the speed limits on certain roads in the City of Roseville. Two options are available for Council's consideration:

1. Introduce for first reading, an ordinance amending section 11.28.010 of Chapter 11.28 of Title 11 of the Roseville Municipal Code regarding speed limits that would be radar enforceable, or
2. Adopt an amended speed limit ordinance with speed limits modified as desired. However, roadway segments with lower speed limits than those recommended may not be radar enforceable.

Staff recommends option 1, approval of the attached speed limit ordinance.

BACKGROUND

State law establishes the process for setting speed limits for roadways in California. The California Vehicle Code (CVC) and the California Manual on Uniform Traffic Control Devices (CaMUTCD) contain the guidelines and processes that must be followed in order to make speed limits radar enforceable. Certain roadways are assigned speed limits by default (called "prima facie" speed limits), such as 25 mph for residential streets and business districts, 15 mph in alleys, and 65 mph on all other roadways. Those do not require any kind of study as they are established by law. To justify a posted speed limit other than 65 mph that is radar enforceable, local jurisdictions are required to conduct and approve an Engineering and Traffic Survey (ETS). An ETS is based on two factors; the measured 85th percentile speed (the speed at or below which 85% of the traffic is traveling) and whether or not "conditions not readily apparent to motorists" are present.

The California Department of Transportation (Caltrans) has an established set of standards and procedures for conducting an ETS. These standards require that for a speed limit to be radar enforceable, the posted speed limit should be set at the 5 mph increment nearest the 85th percentile speed. The recommended speed limit can be lowered an additional 5 mph if

“conditions not readily apparent to motorists” are present. Conditions not readily apparent can be a variety of things such as an accident history, numerous driveways along the roadway, adjacent land uses, bike lanes, etc. The CVC requires that speed surveys must be conducted every seven to fourteen years, or when there is a major change to a roadway.

Staff recently completed 24 ETS's (See Table 1, attached). There are 11 new roadways surveyed; 12 surveys with no change recommended; and 1 survey with a proposed decrease. The proposed decrease is along Freedom Way due to a reduction of the measured 85th percentile speed.

A summary of the speed surveys is shown in Table 1 and a copy of the complete set of speed surveys is available in Public Works/Engineering or upon request for Council and/or the public's review. The CVC requires that posted speed limits be consistent with the results of the ETS to be radar enforceable. Public Works, Police, and the City Attorney are all in agreement that in order for the City to be in compliance with state law, posted speed limits need to be set using the state guidelines.

FISCAL IMPACT

The cost of completing speed limit surveys and changing the recommended speed limit signs is included in existing operating budgets.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA environment (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community

Goal E - Deliver exceptional city services

Description

Speed Limit Ordinance 10-24-2024

Table 1 - 2024 Speed Surveys

ORDINANCE NO.

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING
SECTION 11.28.010 OF CHAPTER 11.28 OF TITLE 11 OF THE ROSEVILLE
MUNICIPAL CODE REGARDING SPEED LIMITS

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 11.28.010 of Chapter 11.28 of Title 11 of the Roseville Municipal Code is hereby amended to read as follows:

11.28.10 Change in speed limits set by state law.

Pursuant to authority contained in Sections 22357 and 22358 of the Vehicle Code, the city council determines upon the basis of an engineering and traffic survey that the prima facie speed limits set forth in this section would facilitate the orderly movement of vehicular traffic and would be reasonable and safe, except when passing school grounds, and it is determined that a speed limit greater than those hereinafter set forth would be more than is reasonable or safe. It is declared that the prima facie speed limits hereinafter set forth are established according to law:

1. Alexandra Drive:
 - a. Between East Roseville Parkway and Secret Ravine Parkway, 35 mph;
2. All-America City Boulevard:
 - a. Between Los Vegas Avenue and Washington Boulevard, 25 mph;
3. Angus Road:
 - a. Between Fiddymment Road and Casa Sedona Drive, 35 mph;
4. Antelope Creek Drive:
 - a. Between Galleria Boulevard and Creekside Ridge Drive, 30 mph,
 - b. Between Creekside Ridge Drive and end, 30 mph;
5. Atkinson Street:
 - a. Between Denio Loop and Church Street, 40 mph,
 - b. Between Denio Loop and PFE, 45 mph;
6. Atlantic Street:
 - a. Between Yosemite Street and Interstate 80, 40 mph;

7. Auburn Boulevard:
 - a. Between Riverside and city limits, 35 mph;
8. Automall Drive: 30 mph;
9. Baseline Road:
 - a. Between Foothills Boulevard and Fiddymment Road, 45 mph;
 - b. Between Fiddymment Road and Westbrook Boulevard, 50 mph;
 - c. Between Westbrook Boulevard and Western City Limits, 50 mph;
10. Berry Street:
 - a. Between 156 Berry Street and Galleria Boulevard, 35 mph;
11. Blue Oaks Boulevard:
 - a. Between Fiddymment Road and Eastern City Limits, 45 mph,
 - b. Between Fiddymment Road and Hayden Parkway, ~~50~~ 45 mph;
 - c. ~~Fiddymment Road and Westbrook Boulevard, 45 mph;~~ Between Hayden Parkway and Western City Limits, 45 mph;
12. Bob Doyle Between Drive:
 - a. Between Kennerleigh Parkway and Hayden Parkway, 30 mph;
13. Brady Lane:
 - a. Between Vineyard Road and Baseline Road, 40 mph;
14. Brookstone Drive:
 - a. Between Westbrook Boulevard (N) and Westbrook Boulevard (S), 30 mph;
15. Casa Sedona Drive:
 - a. Between Angus Road and Crocker Ranch Road, 30 mph;
16. Central Park Drive:
 - a. Between Fairway Drive and Highland Park Drive, 25 mph;
17. Chase Drive:
 - a. Between Roseville Parkway and Heritage Drive, 30 mph;
18. Church Street:

Formatted: Font color: Custom Color(RGB(0,102,255))

Formatted: Font color: Custom Color(RGB(0,102,255))

Formatted: Font color: Custom Color(RGB(0,102,255))

COUNCIL COMMUNICATION

CC #: 3700

File #: 0324 & 0201-01

Title: Homeland Security Grant Program - Approval of New Capital Improvement Project, Grant Award and Budget Adjustment
Contact: Josh Marone 916-774-5400 jmarone@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.31.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council:

- 1) Approve the establishment of a new Capital Improvement Project, the 2022-0043 Homeland Security Grant sub-award from Placer County/FEMA;
- 2) Adopt a resolution for the acceptance of an award, contract number 2022-0043-71, from the 2022 Department of Homeland Security Grant Program as a sub-grantee through the Placer County Office of Emergency Services for \$40,000 and authorize the City Manager to execute any required documents for this award; and
- 3) Adopt an ordinance approving budget adjustments increasing appropriations for the grant award in the Grants Fund for the project.

BACKGROUND

Congress, through the Department of Homeland Security, periodically allocates funds for local security and preparedness needs. Sometimes the allocations are based on population and sometimes they are based on identified local risks. The funds are distributed to the states and the states distribute them to the counties, then the counties prioritize, administer, file claims, and distribute reimbursements for the grants. Placer County's Office of Emergency Services (PCOES) has awarded the City of Roseville as a sub-grantee from the 2022 Department of Homeland Security Grant Program \$40,000 in a grant award.

The Roseville Fire Department was awarded \$40,000 with sub award contract 2022-0043-0071 to purchase a \$20,000 mercury detector and \$20,000 for two training classes for the department's Type I Hazardous Materials Team.

FISCAL IMPACT

The total cost is estimated to be \$40,000 and will be reimbursed through an equivalent grant

award with no expected City share of the cost. Maintenance costs for the new equipment is expected to be included in the department's existing budget in the General Fund. There is no expected impact on the General Fund. The department will continue to seek grants to purchase this type of equipment as technology improves and the equipment reaches its end of life as well as provide additional training to keep and maintain skills for the service of the community.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Capital Improvement Project - the 2022-0043 Homeland Security Grant Subaward from Placer County/FEMA meets the above criteria and are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Goal C - Maintain a safe and healthy community

Respectfully Submitted,

Josh Marone, Battalion Chief

Rick Bartee, Fire Chief

Dominick Casey, City Manager

Ordinance 6903

RESOLUTION NO. 24-433

ACCEPTING A GRANT AWARD FROM THE UNITED STATES DEPARTMENT OF
HOMELAND SECURITY, AND AUTHORIZING THE CITY MANAGER TO EXECUTE
THE SUBAWARDEE GRANT AGREEMENT AND ANY REQUIRED DOCUMENTS
ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, the City of Roseville Fire Department was awarded \$40,000 in grant funds from the U.S. Department of Homeland Security, through the Placer County Office of Emergency Services; and

WHEREAS, a Subawardee Grant Agreement, by and between the Placer County Office of Emergency Services and the City of Roseville, has been reviewed by the City Council.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville that the City of Roseville accepts the grant award from the U.S. Department of Homeland Security through the Placer County Office of Emergency Services, and the City Manager is hereby authorized to execute the Subawardee Grant Agreement and any required documents.

BE IT FURTHER RESOLVED that as the grant recipient, the City of Roseville agrees to comply with all conditions and requirements related to the award.

**DEPARTMENT OF HOMELAND SECURITY
SUBAWARDEE GRANT AGREEMENT**

CONTRACT NO: 2022-0043-071
DEPARTMENT: Office of Emergency Services
SUBAWARDEE: City of Roseville
SUBAWARDEE UEI #: W49TKZLUCJ3

GRANT INFORMATION:

Fiscal Year (FY) 2022 Homeland Security Grant Program (HSGP) Subaward #2022-0043
Subaward Period: 09/01/2022 – 05/31/2025
Federal Grantor Agency – US Department of Homeland Security CFDA #97.067
Pass-through State Agency – California Office of Emergency Services
FIPS #061-00000, Subaward #2022-0043

This Agreement is entered into as of the date last signed below (“Effective Date”) between the County of Placer, a political subdivision of the State of California (hereinafter “County”) City of Roseville (hereinafter “SUBAWARDEE”, collectively “Parties”).

WHEREAS, County has been designated as the pass-through agent for the local administration of the State Homeland Security Grant Program (“SHSGP”) which consists of federally awarded funds from the Federal Emergency Management Agency (“FEMA”) through the California Governor’s Office of Emergency Services (“CalOES”); and

WHEREAS, SUBAWARDEE submitted an application to County for an award of a portion of the SHSGP that has been awarded to County; and

WHEREAS, County has approved SUBAWARDEE’s application for such grant funds conditioned on SUBAWARDEE’s approval and execution of this Agreement; and

WHEREAS, the purpose of this Agreement is to memorialize SUBAWARDEE’s legal obligations with respect to its use of the grant funds and its compliance with the terms and conditions of the SHSGP; and

WHEREAS, pursuant to Placer County Board of Supervisors Resolution No. 2022-128 (current HSGP GBR) dated June 21, 2022, which is attached hereto and incorporated herein as Exhibit C, the Assistant Director of the Placer County Office of Emergency Services (“PlacerOES”) has been authorized to execute this Agreement on behalf of County; and

WHEREAS, County and SUBAWARDEE desire to enter into this Agreement on the terms and conditions set forth herein.

NOW, THEREFORE, in consideration of the mutual promises hereinafter set forth, County and SUBAWARDEE agree as follows:

1. GRANT FUNDS & GRANT ACTIVITIES. SUBAWARDEE will utilize 2022 State Homeland Security Grant Program (SHSGP) grant funds (“Grant Funds”) only in the amount, type, and manner described in Exhibit A (“Scope of Grant Activities”). SUBAWARDEE will complete the tasks and/or activities in Exhibit A (“Grant Activities”) within the term of this Agreement.

2. TERM OF AGREEMENT. This Agreement commences on the last date of execution of this Agreement and shall terminate on December 31, 2024 (December of year prior to closeout date).

3. SHSGP OBLIGATIONS.

- A. Federal and State Requirements. The state and federal grant award requirements are provided in Exhibit B ("CalOES Standard Assurances"). SUBAWARDEE shall abide by all requirements therein, including:
 - i. The Department of Homeland Security Standard Terms and Conditions referenced therein.
 - ii. The requirement to provide proof in the form of a duly adopted resolution of the SUBAWARDEE's governing body supporting the application and the proposed Grant Activities and identifying the individual who is authorized to execute this Agreement, which shall be provided as Exhibit D to this Agreement.
 - iii. The requirement to adhere to government cost principles, uniform administrative requirements, and audit requirements provided in 2 CFR 200, as they may be updated from time to time by the federal Office of Management and Budget.
 - iv. The requirement to adhere to all applicable federal regulations; the FEMA Notice of Funding Opportunity ("NOFO"); the FEMA Preparedness Grants Manual; the California Supplement to the NOFO; and federal and state grant program guidelines.
 - v. The audit and access to records provisions, which require SUBAWARDEE to provide County, the Comptroller General of the United States, and, if appropriate, the state, with access to all records related to the Grant Funds.
- B. Procurement. SUBAWARDEE's systems for acquiring goods and services under this Agreement shall comply with applicable federal regulations. All contracts awarded by SUBAWARDEE related to this Agreement, including but not limited to those in amounts less than the simplified acquisition threshold, shall contain the provisions set forth in 2 CFR 200, as applicable.
- C. Use of Grant Funds for Fee or Profit Prohibited. The use of Grant Funds for the payment of any fee or profit under a sub-award, as defined in 2 CFR 200 subpart A–E, is not allowable. The term sub-award does not include the SUBAWARDEE's procurement of goods and services needed to carry out Grant Activities.
- D. Post-Award Requirements. SUBAWARDEE shall meet all closeout and continuing responsibilities, such as equipment tracking, monitoring, auditing, and records retention pursuant to the requirements in Exhibit B. SUBAWARDEE expressly agrees that use of the funds award is subject to single audit requirements pursuant to 2 CFR Part 200, Subpart F – Audit Requirements, Section 200.500.
- E. Notification of Adverse Developments. The SUBAWARDEE shall notify County in writing of any developments that have a significant adverse impact on Grant Activities, as soon as reasonably practicable. This notification shall include a statement of the adverse issues,

impact expected, action taken or contemplated, and any assistance needed to resolve the situation.

- F. Pre-award Costs. SUBAWARDEE may not incur pre-award costs prior to the effective date of this Agreement as determined by CalOES. If SUBAWARDEE chooses to incur pre-award costs, it is at SUBAWARDEE's sole risk and shall not impose any obligation on County.
- G. Unexpended Allocation. SUBAWARDEE is not authorized to carry forward any unexpended allocation of Grant Funds beyond the term of this Agreement. As soon as SUBAWARDEE is aware that Grant Funds will not be expended, SUBAWARDEE shall notify County in writing and return the unused allocation of Grant Funds to County.
- H. Ownership of Work Product. All technical data, evaluations, plans, specifications, reports, documents, or other work products developed by SUBAWARDEE hereunder shall be the property of the federal government, state, and County and shall be delivered to County by SUBAWARDEE upon completion of the Grant Activities. SUBAWARDEE may retain copies thereof for its files and internal use. Publication of the information directly derived from work performed or data obtained in connection with services rendered under this Agreement must first be approved in writing by County and state as applicable.
- I. Property. Title to all nonexpendable and expendable tangible personal property purchased by the SUBAWARDEE with Grant Funds shall be deemed to have vested in the SUBAWARDEE upon purchase, in accordance with the provisions of 2 CRF 200, without further obligation. Title to any federally owned property remains vested in the federal government. No real property may be acquired with Grant Funds.
- J. Reports. SUBAWARDEE shall submit the following reports and/or information electronically to County:
 - i. *Quarterly Status Report*. This report form provided by County, is due 15 days after quarter end, shall keep the County informed of SUBAWARDEE activity and progress toward accomplishment of the objectives of the Grant Activities.
 - ii. *Equipment Tracking*. SUBAWARDEE shall submit equipment information to County at least every 18 months, as required by 2 CFR 200. The equipment information must include a physical inventory report of all equipment that was purchased with the Grant Funds. SUBAWARDEE must report all equipment valued under \$5,000 to County, and County approval is required to remove such equipment from the equipment inventory report. Equipment that is lost, stolen, or destroyed needs to be reported to County and may need to be replaced by SUBAWARDEE at SUBAWARDEE's sole expense.

4. GRANT FUND PAYMENT.

- A. County shall process SUBAWARDEE's payment requests on a reimbursement basis. Grant Funds shall not be paid in advance. SUBAWARDEE shall submit payment requests quarterly, as provided below.
 - i. Quarter 1 (January–March): Payment request due April 15

- ii. Quarter 2 (April–June): Payment request July 15
- iii. Quarter 3 (July–September): Payment request October 15
- iv. Quarter 4 (October–December): Payment request January 15

With each payment request, SUBAWARDEE must provide supporting documentation reflecting actual costs incurred and associated Grant Activities performed and/or completed. Failure to meet the above deadlines and/or provide supporting documentation may result in payment delays.

- B. Each payment request must include a certification, signed by an official who is authorized to legally bind the SUBAWARDEE, which reads as follows:

“By signing this report, I certify to the best of my knowledge and belief that the report is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of the Federal award. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil, or administrative penalties for fraud, false statements, and false claims otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729–3730 and 3801–3812).”

- C. County will review each payment request from SUBAWARDEE and, if approved, submit the request to CalOES on behalf of SUBAWARDEE. CalOES may submit the request to FEMA for approval.
- D. SUBAWARDEE understands and acknowledges that County does not control either the process for approving payment requests submitted to CalOES or CalOES’s decision regarding the payment request. Responsibility for processing, approving, and making payment in connection with any payment request submitted by SUBAWARDEE lies exclusively with CalOES and County shall have no financial liability to SUBAWARDEE for CalOES’s failure to process, approve, or make payment in connection with any payment request.
- E. If the County becomes aware of any deficiencies in the payment request, County shall communicate the deficiencies to the SUBAWARDEE along with the corrective action necessary to allow County to submit the payment request to CalOES. SUBAWARDEE shall be responsible for correcting any deficiencies in the request.
- F. When County receives Grant Funds from CalOES, County will process payment of Grant Funds to SUBAWARDEE. Because of the multiple agencies involved in reviewing and approving these payment requests, payment processing may take up to twelve (12) months.

5. DISGORGEMENT. SUBAWARDEE understands and acknowledges that its failure to comply with the requirements of this Agreement, including but not limited to its failure to comply with the rules and regulations governing the use of Grant Funds, may result in an audit or monitoring of SUBAWARDEE’s use of the Grant Funds or SUBAWARDEE’s compliance with the rules and regulations governing its use of Grant Funds, or both, by FEMA or CalOES. SUBAWARDEE further understands and acknowledges that the result of any such audit may be a demand by FEMA, CalOES, and/or County that SUBAWARDEE repay (disgorge) some or all of the Grant Funds.

SUBAWARDEE shall indemnify, defend, and hold harmless the County, its Board of Supervisors, officers, directors, agents, and employees from and against any and all claims, demands, actions, losses, liabilities, damages, and costs, including reasonable attorneys' fees, arising out of or resulting from a demand from FEMA or CalOES, or both, for repayment of some or all of the Grant Funds as a result of SUBAWARDEE's failure to comply with any term or condition of this Agreement.

6. NOTICES. Any notice, request, demand, or other communication required or authorized under this Agreement shall be deemed to be properly given when:

- A. Delivered personally to the person below, as of the date of delivery; or
- B. Mailed to the physical address listed below by U.S. Mail or similar service, with postage prepaid and properly addressed, as of the date of postmark; or
- C. Emailed to the email address(es) below, as of the date a read receipt, an acknowledgement from the recipient, or other proof of delivery is received by the sender.

In the case of County, to:

Name, Title: David Atkinson, Assistant Director of Emergency Services
 Address: 2968 Richardson Dr.
 Auburn CA, 95603
 Telephone: 530-886-5300
 Email: grants@placer.ca.gov

In the case of SUBAWARDEE, to:

Name, Title: Dominick Casey, City Manager
 Address: 311 Vernon Street
 Roseville, CA 95678
 Telephone: 916-774-5362
 Email: CityManager@roseville.ca.us

7. TERMINATION AND ENFORCEMENT. This Agreement may be terminated by County if SUBAWARDEE materially fails to comply with the terms and conditions herein. Such termination shall be effective upon service of written notice of termination on SUBAWARDEE. As an alternative to termination, County may, in its sole and exclusive discretion, impose special conditions or take appropriate action as provided in 2 CFR 200 subpart D.

8. INDEMNIFICATION. SUBAWARDEE shall indemnify, defend, and hold harmless the County, its Board of Supervisors, officers, directors, agents, employees, and volunteers from and against any and all claims, demands, actions, losses, liabilities, damages, and costs, including reasonable attorneys' fees, arising out of or related to this Agreement. This obligation to indemnify will survive termination of this Agreement.

9. EXHIBITS; MERGER CLAUSE; AMENDMENTS. This Agreement, including all Exhibits and Attachments, incorporated herein by this reference, constitutes the sole Agreement between the Parties and correctly states the rights, duties, and obligations of each party as of this document's date. In the event that any term, condition, provision, requirement, or specification set forth in the body of this Agreement conflicts with or is inconsistent with any term, condition, provision,

requirement, or specification in any Exhibit and/or Attachment to this Agreement, the provisions of the body of the Agreement shall prevail. Any prior agreement, promises, negotiations, or representations between the parties not expressly stated in this document are not binding.

All subsequent modifications or amendments to this Agreement shall be in writing and signed by the parties.

10. SUCCESSORS AND ASSIGNS. This Agreement is to be binding on the successors of the parties hereto. The services called for herein are deemed unique and SUBAWARDEE shall not assign, transfer, or otherwise substitute its interest in this Agreement.

11. CONFLICT OF INTEREST. SUBAWARDEE certifies that it has no current business or financial relationship with any County employee or official, or other County contract provider that could create a conflict with this Agreement and will not enter into any such business or financial relationships during the period of this Agreement. SUBAWARDEE attests that its employees and the officers of its governing body shall avoid any actual or potential conflicts of interest, and that no officer or employee who exercises any functions or responsibilities in connection with this Agreement shall have any legally prohibited personal financial interest or benefit which either directly or indirectly arises out of this Agreement. SUBAWARDEE shall establish safeguards to prohibit employees or officers from using their positions for a purpose which could result in legally prohibited private gain or gives the appearance of being motivated for legally prohibited private gain for themselves or others, particularly those with whom they have family, business, or other ties. SUBAWARDEE certifies that no official or employee of the County, nor any business entity in which an official of the County has an interest, has been employed or retained to solicit or aid in the procuring of this Agreement. In addition, SUBAWARDEE agrees that no such person will be employed in the performance of this Agreement without immediately notifying the County.

12. VALIDITY OF ALL PARTS OF THE AGREEMENT. Should any part of this Agreement be declared by a final decision by a court or tribunal of competent jurisdiction to be unconstitutional, invalid or beyond the authority of either party to enter into or carry out, such decision shall not affect the validity of the remainder of this Agreement, which shall continue in full force and effect, provided that the remainder of this Agreement can be interpreted to give effect to the intentions of the parties.

13. GOVERNING STATE LAWS AND JURISDICTION. This Agreement is executed and intended to be performed in the State of California, and the laws of that State shall govern its interpretation and effect. Any legal proceedings on this agreement shall be brought under the jurisdiction of the Superior Court of the County of Placer, State of California. Each party waives any Federal court removal and/or original jurisdiction rights it may have.

14. WAIVERS IN PART. County's waiver of the performance of any covenant, condition, obligation, representation, warranty or promise in this Agreement shall not invalidate this Agreement or be deemed a waiver of any other covenant, condition, obligation, representation, warranty or promise. County's waiver of the time for performing any act or condition hereunder does not constitute a waiver of the act or condition itself.

15. INTERPRETATION. This Agreement shall be deemed to have been prepared equally by both of the parties, and the Agreement and its individual provisions shall not be construed or interpreted more favorably for one party on the basis that the other party prepared it.

16. DUPLICATE COUNTERPARTS; ELECTRONIC SIGNATURE. This Agreement may be executed in duplicate counterparts. Each counterpart shall be an original and both together shall constitute but one and the same document. This Agreement shall not be deemed executed unless and until at least one counterpart bears the signatures of all parties' designated signatories.

In addition, this Agreement and future documents relating to this Agreement may be digitally signed in accordance with California law. Any party to this Agreement may revoke such agreement to permit electronic signatures at any time in relation to all future documents by providing notice pursuant to this Agreement.

IN WITNESS WHEREOF, the parties hereto have caused their duly authorized representatives to execute this Agreement.

FY 2022 NPA: (U#4) Enhancing Community Preparedness and Resilience
Minimum NPA Requirement: 3% (\$13,955)
Current Allocation: \$40,000
Proposed Allocation: \$40,000

Current Approved Project Title & Project#	Proposed Project Title & Project #	Current Allocation	Proposed Allocation	Change	National Priority Core Capability	Explain how this project will support closing capability gaps or sustaining capabilities identified in the THIRA/SFR process	Explain how this proposed project will achieve objectives as identified in the SFR, including expected long-term impacts where applicable, and which core capability gap(s) does it help close and how	Provide a summary of the status of planning and design efforts accomplished to date for this project	Revised milestones to demonstrate the revised/new project activities have a clear project schedule that can be completed within the existing period of performance
# 7 Mass Spectrometer	Project #014 Gas Chromatograph Mass Spectrometer (GCMS) Level 2 Training (advanced training) for 6 members of Roseville's Type 1 Hazmat Team (train-the-trainer) (07CD-01-DPGC - Analyzer, Gas Chromatograph/Mass Spectrometer, Chemical, Portable)	\$40,000	\$10,300	-\$29,700	Threat and Hazard Identification	Provide advanced user training for 6 members of Roseville Fire Department's Hazmat team of the GCMS to develop SMEs and train-the-trainer for all hazmat members to operate this instrument in an advanced setting. The GCMS is used to identify WMD agents, Chemical agents, and narcotics, with a high degree of confidence. The GCMS is more accurate and has replaced a number of our presumptive tests for detection of chemical warfare agents and this training will ensure proper use, deployment, and training.	This advanced training will continue to develop capabilities for trace detection of WMD agents (including Novichock agents), Chemical agents, and narcotics which can be used as a WMD agent. Trace detection of WMD agents and Chemical warfare agents is a requirement of Firescope Typing. This training will maintain Roseville's Type 1 team status and maintaining personnel trained to this regional capability.	Received budgetary quotes for training, and training location has been identified.	Upon approval of modification and authorization to spend, Roseville Fire will go to city council to accept the award and request a budget adjustment. Training can be scheduled as soon as acceptance of award. Vendor can schedule training and should be able to perform within a month of acceptance.
# 7 Mass Spectrometer	Project # 015 Hazcat Operations Training Course		\$9,700	\$9,700	Threat and Hazard Identification	This training will provide advanced user training for 12 members of Roseville Fire's Hazmat Team to the Hazcat system. This is a field presumptive system of tests using "wet chemistry" for identification of unknown chemicals including Chemical warfare agents. This training will develop department SMEs, and is a "train-the-trainer" course.	This advanced training will ensure continued capability to identify unknown chemicals including WMD agents. This capability is a requirement of Firescope Typing. This training will maintain a cadre of trainers to ensure Roseville's Type 1 Hazmat Team is proficient at this technical capability and maintain this regional capability.	Received budgetary quotes for training, and training location has been identified.	Upon approval of modification and authorization to spend, Roseville Fire will go to city council to accept the award and request a budget adjustment. Training can be scheduled as soon as acceptance of award. Vendor can schedule training and should be able to perform within a month of acceptance.

# 7 Mass Spectrometer	Project #016 Jerome 405 Mercury Detector for Hazmat Response (07CD-01-MONO - Detector, Single Chemical Sensor)	\$20,000	\$20,000	Hazard Identification	Provide identification of mercury releases including mercury vapor. Mercury and mercury vapor can be intentionally released in a terrorist event leading to life threatening health hazards and environmental catastrophe. This instrument will allow for detection of mercury at or below EPA action levels and ATSDR standards for response, allowing for effective identification, response, and remediation post release. Our region currently does not have this response capability, and it will be added to our Type 1 Hazmat Team for response in our region and for mutual aid.	This mercury detector will fill a local and regional response capability deficiency by ensuring mercury detection (including vapor) is available on our Type 1 team.	Received budgetary quotes for purchase of instrument, including associated costs of ongoing maintenance and calibration. Roseville Fire is able to absorb costs of ongoing annual calibration and cost of consumable supplies to maintain and operate this instrument.	Upon approval of modification and authorization to spend, Roseville Fire will go to city council to accept the award and request a budget adjustment. Time is approximately 1 month. Upon acceptance of award, instrument can be ordered and delivered within 1 month of approval per vendor.
Total		\$40,000	\$40,000	\$0	\$0			

The undersigned certifies, to the best of his or her knowledge and belief that this National Priority Modification request is reasonable and necessary to successfully implement the National Priority Area objectives.

Title of Authorized Agent	Assistant Director of Emergency Services
Name Of Authorized Agent	David Atkinson, PE

[Signature]

*National Priority Modification Request Form is only used when making changes to National Priority Projects in which there is a change in project scope and/or a reduction in overall project budget. All other changes can be submitted via the normal Financial Management Forms Workbook (FMFW) Process.

Standard Assurances For Cal OES Federal Non-Disaster Grant Programs

As the duly authorized representative of the Applicant, I hereby certify that the Applicant has the legal authority to apply for federal assistance and the institutional, managerial, and financial capability (including funds sufficient to pay any non-federal share of project cost) to ensure proper planning, management, and completion of the project described in this application, within prescribed timelines.

The requirements outlined in these assurances apply to Applicant and any of its subrecipients.

I further acknowledge that the Applicant is responsible for reviewing and adhering to all requirements within the:

- (a) Applicable Federal Regulations (see below);
- (b) Federal Program Notice of Funding Opportunity (NOFO);
- (c) Federal Preparedness Grants Manual;
- (d) California Supplement to the NOFO; and
- (e) Federal and State Grant Program Guidelines.

Federal Regulations

Government cost principles, uniform administrative requirements, and audit requirements for federal grant programs are set forth in Title 2, Part 200 of the Code of Federal Regulations (C.F.R.). Updates are issued by the [Office of Management and Budget \(OMB\)](http://www.whitehouse.gov/omb/) and can be found at <http://www.whitehouse.gov/omb/>.

In the event Cal OES determines that changes are necessary to the subaward after a subaward has been made, including changes to period of performance or terms and conditions, Applicants will be notified of the changes in writing. Once notification has been made, any subsequent request for funds will indicate Applicant acceptance of the changes to the subaward.

State and federal grant award requirements are set forth below. The Applicant hereby agrees to comply with the following:

1. Proof of Authority

The Applicant will obtain proof of authority from the city council, governing board, or authorized body in support of this project. This written authorization must specify that the Applicant and the city council, governing board, or authorized body agree:

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

- (a) To provide all matching funds required for the grant project and that any cash match will be appropriated as required;
- (b) Any liability arising out of the performance of this agreement shall be the responsibility of the Applicant and the city council, governing board, or authorized body;
- (c) Grant funds shall not be used to supplant expenditures controlled by the city council, governing board, or authorized body;
- (d) The Applicant is authorized by the city council, governing board, or authorized body to apply for federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-federal share of project cost, if any) to ensure proper planning, management and completion of the project described in this application; and
- (e) The official executing this agreement is authorized by the Applicant.

This Proof of Authority must be maintained on file and readily available upon request.

2. Period of Performance

The period of performance is specified in the Award. The Applicant is only authorized to perform allowable activities approved under the award, within the period of performance.

3. Lobbying and Political Activities

As required by Section 1352, Title 31 of the United States Code (U.S.C.), for persons entering into a contract, grant, loan, or cooperative agreement from an agency or requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan, the Applicant certifies that:

- (a) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

- (b) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- (c) The Applicant shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

The Applicant will also comply with provisions of the Hatch Act (5 U.S.C. §§ 1501- 1508 and §§ 7324-7328) which limit the political activities of employees whose principle employment activities are funded in whole or in part with federal funds.

Finally, the Applicant agrees that federal funds will not be used, directly or indirectly, to support the enactment, repeal, modification or adoption of any law, regulation or policy without the express written approval from the California Governor's Office of Emergency Services (Cal OES) or the federal awarding agency.

4. Debarment and Suspension

As required by Executive Orders 12549 and 12689, and 2 C.F.R. § 200.214 and codified in 2 C.F.R. Part 180, Debarment and Suspension, the Applicant will provide protection against waste, fraud, and abuse by debarring or suspending those persons deemed irresponsible in their dealings with the federal government. The Applicant certifies that it and its subrecipients:

- (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency;
- (b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

- (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state, or local) with commission of any of the offenses enumerated in paragraph (4)(b) of this certification; and
- (d) Have not within a three-year period preceding this application had one or more public transaction (federal, state, or local) terminated for cause or default.

Where the Applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

5. Non-Discrimination and Equal Employment Opportunity

The Applicant will comply with all state and federal statutes relating to non-discrimination, including:

- (a) Title VI of the Civil Rights Act of 1964 (Public Law (P.L.) 88-352 and 42 U.S.C. § 2000d et. seq.) which prohibits discrimination on the basis of race, color, or national origin and requires that recipients of federal financial assistance take reasonable steps to provide meaningful access to persons with limited English proficiency (LEP) to their programs and services;
- (b) Title IX of the Education Amendments of 1972, (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex in any federally funded educational program or activity;
- (c) Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794), which prohibits discrimination against those with disabilities or access and functional needs;
- (d) Americans with Disabilities Act (ADA) of 1990 (42 U.S.C. § 12101 et seq.), which prohibits discrimination on the basis of disability and requires buildings and structures be accessible to those with disabilities and access and functional needs;
- (e) Age Discrimination Act of 1975, (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age;
- (f) Public Health Service Act of 1912 (42 U.S.C. §§ 290 dd—2), relating to confidentiality of patient records regarding substance abuse treatment;
- (g) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), relating to nondiscrimination in the sale, rental or financing of housing as implemented by the Department of Housing and Urban Development at 24 C.F.R. Part 100. The prohibition on disability discrimination includes the requirement that new multifamily housing with four or more dwelling units—i.e., the public and common use areas and individual apartment units (all units in buildings with elevators and ground-floor units in buildings without elevators)—

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

- be designed and constructed with certain accessible features (See 24 C.F.R. § 100.201);
- (h) Executive Order 11246, which prohibits federal contractors and federally assisted construction contractors and subcontractors, who do over \$10,000 in Government business in one year from discriminating in employment decisions on the basis of race, color, religion, sex, sexual orientation, gender identification or national origin;
 - (i) Executive Order 11375, which bans discrimination on the basis of race, color, religion, sex, sexual orientation, gender identification, or national origin in hiring and employment in both the United States federal workforce and on the part of government contractors;
 - (j) California Public Contract Code § 10295.3, which prohibits discrimination based on domestic partnerships and those in same sex marriages;
 - (k) Department of Homeland Security (DHS) policy to ensure the equal treatment of faith-based organizations, under which the Applicant must comply with equal treatment policies and requirements contained in 6 C.F.R. Part 19;
 - (l) The Applicant will comply with California's Fair Employment and Housing Act (FEHA) (California Government Code §§ 12940-12957), as applicable. FEHA prohibits harassment and discrimination in employment because of ancestry, familial status, race, color, religious creed (including religious dress and grooming practices), sex (which includes pregnancy, childbirth, breastfeeding and medical conditions related to pregnancy, childbirth or breastfeeding), gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, mental and physical disability, genetic information, medical condition, age, pregnancy, denial of medical and family care leave, or pregnancy disability leave, military and veteran status, and/or retaliation for protesting illegal discrimination related to one of these categories, or for reporting patient abuse in tax supported institutions;
 - (m) Any other nondiscrimination provisions in the specific statute(s) under which application for federal assistance is being made; and
 - (n) The requirements of any other nondiscrimination statute(s) that may apply to this application.

6. Drug-Free Workplace

As required by the Drug-Free Workplace Act of 1988 (41 U.S.C. § 701 et seq.), the Applicant certifies that it will maintain a drug-free workplace and a drug-free awareness program as outlined in the Act.

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

7. Environmental Standards

The Applicant will comply with state and federal environmental standards, including:

- (a) California Environmental Quality Act (CEQA) (California Public Resources Code §§ 21000-21177), to include coordination with the city or county planning agency;
- (b) CEQA Guidelines (California Code of Regulations, Title 14, Division 6, Chapter 3, §§ 15000-15387);
- (c) Federal Clean Water Act (CWA) (33 U.S.C. § 1251 et seq.), which establishes the basic structure for regulating discharges of pollutants into the waters of the United States and regulating quality standards for surface waters;
- (d) Federal Clean Air Act of 1955 (42 U.S.C. § 7401) which regulates air emissions from stationary and mobile sources;
- (e) Institution of environmental quality control measures under the National Environmental Policy Act (NEPA) of 1969 (P.L. 91-190); the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA; and Executive Order 12898 which focuses on the environmental and human health effects of federal actions on minority and low-income populations with the goal of achieving environmental protection for all communities;
- (f) Evaluation of flood hazards in floodplains in accordance with Executive Order 11988;
- (g) Executive Order 11514 which sets forth national environmental standards;
- (h) Executive Order 11738 instituted to assure that each federal agency empowered to enter into contracts for the procurement of goods, materials, or services and each federal agency empowered to extend federal assistance by way of grant, loan, or contract shall undertake such procurement and assistance activities in a manner that will result in effective enforcement of the Clean Air Act and the Federal Water Pollution Control Act Executive Order 11990 which requires preservation of wetlands;
- (i) The Safe Drinking Water Act of 1974, (P.L. 93-523);
- (j) The Endangered Species Act of 1973, (P.L. 93-205);
- (k) Assurance of project consistency with the approved state management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.);
- (l) Conformity of Federal Actions to State (Clear Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); and

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

(m) Wild and Scenic Rivers Act of 1968 (16 U.S.C. § 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

The Applicant shall not be: (1) in violation of any order or resolution promulgated by the State Air Resources Board or an air pollution district; 2) subject to a cease-and-desist order pursuant to section 13301 of the California Water Code for violation of waste discharge requirements or discharge prohibitions; or 3) determined to be in violation of federal law relating to air or water pollution.

8. Audits

For subrecipients expending \$750,000 or more in federal grant funds annually, the Applicant will perform the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and 2 C.F.R., Part 200, Subpart F Audit Requirements.

9. Cooperation and Access to Records

The Applicant must cooperate with any compliance reviews or investigations conducted by DHS. In accordance with 2 C.F.R. § 200.337, the Applicant will give the awarding agency, the Comptroller General of the United States and, if appropriate, the state, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award. The Applicant will require any subrecipients, contractors, successors, transferees and assignees to acknowledge and agree to comply with this provision.

10. Conflict of Interest

The Applicant will establish safeguards to prohibit the Applicant's employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

11. Financial Management

False Claims for Payment - The Applicant will comply with 31 U.S.C §§ 3729-3733 which provides that Applicant shall not submit a false claim for payment, reimbursement, or advance.

12. Reporting - Accountability

The Applicant agrees to comply with applicable provisions of the Federal Funding Accountability and Transparency Act (FFATA) (P.L. 109-282), including but not limited to (a) the reporting of subawards obligating \$30,000 or more in federal funds,

Standard Assurances For Cal OES Federal Non-Disaster Grant Programs

and (b) executive compensation data for first-tier subawards as set forth in 2 C.F.R. Part 170, Appendix A. The Applicant also agrees to comply with the requirements set forth in the government-wide financial assistance award term regarding the System for Award Management and Universal Identifier Requirements located at 2 C.F.R. Part 25, Appendix A.

13. Whistleblower Protections

The Applicant must comply with statutory requirements for whistleblower protections at 10 U.S.C. § 2409, 41 U.S.C. § 4712, and 10 U.S.C. § 2324, 41 U.S.C. § 4304 and § 4310.

14. Human Trafficking

The Applicant will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act of 2000, as amended (22 U.S.C. § 7104) which prohibits the Applicant or its subrecipients from: (1) engaging in trafficking in persons during the period of time that the award is in effect; (2) procuring a commercial sex act during the period of time that the award is in effect; or (3) using forced labor in the performance of the award or subawards under the award.

15. Labor Standards

The Applicant will comply with the following federal labor standards:

- (a) The Davis-Bacon Act (40 U.S.C. §§ 276a to 276a-7), as applicable, and the Copeland Act (40 U.S.C. § 3145 and 18 U.S.C. § 874) and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally-assisted construction contracts or subcontracts, and
- (b) The Federal Fair Labor Standards Act (29 U.S.C. § 201 et seq.) as they apply to employees of institutes of higher learning (IHE), hospitals and other non-profit organizations.

16. Worker's Compensation

The Applicant must comply with provisions which require every employer to be insured to protect workers who may be injured on the job at all times during the performance of the work of this Agreement, as per the workers compensation laws set forth in California Labor Code §§ 3700 et seq.

17. Property-Related

If applicable to the type of project funded by this federal award, the Applicant will:

- (a) Comply with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646)

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of federal participation in purchase;

- (b) Comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires federal award subrecipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more;
- (c) Assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. § 470), Executive Order 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. § 469a-1 et seq.); and
- (d) Comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. § 4831 and 24 CFR Part 35) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

18. Certifications Applicable Only to Federally-Funded Construction Projects

For all construction projects, the Applicant will:

- (a) Not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the federal awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with federal assistance funds to assure nondiscrimination during the useful life of the project;
- (b) Comply with the requirements of the awarding agency with regard to the drafting, review and approval of construction plans and specifications; and
- (c) Provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.

19. Use of Cellular Device While Driving is Prohibited

The Applicant is required to comply with California Vehicle Code sections 23123 and 23123.5. These laws prohibit driving motor vehicle while using an electronic wireless communications device to write, send, or read a text-based communication.

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

Drivers are also prohibited from the use of a wireless telephone without hands-free listening and talking, unless to make an emergency call to 911, law enforcement, or similar services.

20. California Public Records Act and Freedom of Information Act

The Applicant acknowledges that all information submitted in the course of applying for funding under this program, or provided in the course of an entity's grant management activities that are under Federal control, is subject to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the California Public Records Act, California Government Code §7920.000 et seq. The Applicant should consider these laws and consult its own State and local laws and regulations regarding the release of information when reporting sensitive matters in the grant application, needs assessment, and strategic planning process.

HOMELAND SECURITY GRANT PROGRAM (HSGP) – PROGRAM SPECIFIC ASSURANCES / CERTIFICATIONS

21. Acknowledgment of Federal Funding from DHS

The Applicant must acknowledge its use of federal funding when issuing statements, press releases, requests for proposals, bid invitations, and other documents describing projects or programs funded in whole or in part with federal funds.

22. Activities Conducted Abroad

The Applicant must ensure that project activities carried on outside the United States are coordinated as necessary with appropriate government authorities and that appropriate licenses, permits, or approvals are obtained.

23. Best Practices for Collection and Use of Personally Identifiable Information (PII)

DHS defines personally identifiable information (PII) as any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual. If the Applicant collects PII, the Applicant is required to have a publicly-available privacy policy that describes standards on the usage and maintenance of PII they collect. The Applicant may refer to the DHS Privacy Impact Assessments: Privacy Guidance and Privacy template as a useful resource.

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

24. Copyright

The Applicant must affix the applicable copyright notices of 17 U.S.C. §§ 401 or 402 and an acknowledgement of United States Government sponsorship (including the award number) to any work first produced under federal financial assistance awards.

25. Duplication of Benefits

Any cost allocable to a particular federal financial assistance award provided for in 2 C.F.R. Part 200, Subpart E may not be charged to other federal financial assistance awards to overcome fund deficiencies, to avoid restrictions imposed by federal statutes, regulations, or federal financial assistance award terms and conditions, or for other reasons. However, these prohibitions would not preclude the Applicant from shifting costs that are allowable under two or more awards in accordance with existing federal statutes, regulations, or the federal financial assistance award terms and conditions.

26. Energy Policy and Conservation Act

The Applicant must comply with the requirements of 42 U.S.C. § 6201 which contain policies relating to energy efficiency that are defined in the state energy conservation plan issued in compliance with this Act.

27. Federal Debt Status

The Applicant is required to be non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowances, and benefit overpayments. See OMB Circular A-129.

28. Fly America Act of 1974

The Applicant must comply with Preference for United States Flag Air Carriers: (air carriers holding certificates under 49 U.S.C. § 41102) for international air transportation of people and property to the extent that such service is available, in accordance with the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. § 40118) and the interpretative guidelines issued by the Comptroller General of the United States in the March 31, 1981, amendment to Comptroller General Decision B-138942.

29. Hotel and Motel Fire Safety Act of 1990

In accordance with Section 6 of the Hotel and Motel Fire Safety Act of 1990, the Applicant must ensure that all conference, meeting, convention, or training space funded in whole or in part with federal funds complies with the fire prevention and control guidelines of the Federal Fire Prevention and Control Act of 1974, as amended, 15 U.S.C. § 2225a.

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

30. Non-supplanting Requirement

If the Applicant receives federal financial assistance awards made under programs that prohibit supplanting by law, the Applicant must ensure that federal funds do not replace (supplant) funds that have been budgeted for the same purpose through non- federal sources.

31. Patents and Intellectual Property Rights

Unless otherwise provided by law, the Applicant is subject to the Bayh-Dole Act, Pub. L. No. 96-517, as amended, and codified in 35 U.S.C. § 200 et seq. The Applicant is subject to the specific requirements governing the development, reporting, and disposition of rights to inventions and patents resulting from financial assistance awards located at 37 C.F.R. Part 401 and the standard patent rights clause located at 37 C.F.R. § 401.14.

32. SAFECOM

If the Applicant receives federal financial assistance awards made under programs that provide emergency communication equipment and its related activities, the Applicant must comply with the SAFECOM Guidance for Emergency Communication Grants, including provisions on technical standards that ensure and enhance interoperable communications.

33. Terrorist Financing

The Applicant must comply with Executive Order 13224 and United States law that prohibit transactions with, and the provisions of resources and support to, individuals and organizations associated with terrorism. The Applicant is legally responsible for ensuring compliance with the Order and laws.

34. Reporting of Matters Related to Recipient Integrity and Performance

If the total value of the Applicant's currently active grants, cooperative agreements, and procurement contracts from all federal assistance offices exceeds \$10,000,000 for any period of time during the period of performance of this federal financial assistance award, the Applicant must comply with the requirements set forth in the government-wide Award Term and Condition for Recipient Integrity and Performance Matters located at 2 C.F.R. Part 200, Appendix XII, the full text of which is incorporated here by reference in the award terms and conditions.

Standard Assurances

For Cal OES Federal Non-Disaster Grant Programs

35. USA Patriot Act of 2001

The Applicant must comply with requirements of the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act (USA PATRIOT Act), which amends 18 U.S.C. §§ 175-175c.

36. Use of DHS Seal, Logo, and Flags

The Applicant must obtain permission from their DHS Financial Assistance Office, prior to using the DHS seal(s), logos, crests or reproductions of flags or likenesses of DHS agency officials, including use of the United States Coast Guard seal, logo, crests or reproductions of flags or likenesses of Coast Guard officials.

37. Performance Goals

In addition to the Biannual Strategy Implementation Report submission requirements outlined in the Preparedness Grants Manual, the Applicant must demonstrate how the grant-funded project addresses the core capability gap associated with each project and identified in the Threat and Hazard Identification and Risk Analysis or Stakeholder Preparedness Review or sustains existing capabilities, as applicable. The capability gap reduction or capability sustainment must be addressed in the Project Description of the BSIR for each project.

38. Applicability of DHS Standard Terms and Conditions to Tribes

The DHS Standard Terms and Conditions are a restatement of general requirements imposed upon the Applicant and flow down to any of its subrecipients as a matter of law, regulation, or executive order. If the requirement does not apply to Indian tribes or there is a federal law or regulation exempting its application to Indian tribes, then the acceptance by Tribes of, or acquiescence to, DHS Standard Terms and Conditions does not change or alter its inapplicability to an Indian tribe. The execution of grant documents is not intended to change, alter, amend, or impose additional liability or responsibility upon the Tribe where it does not already exist.

39. Required Use of American Iron, Steel, Manufactured Products, and Construction Materials

The Applicant must comply with the "Build America, Buy America" Act (BABAA), enacted as part of the Infrastructure Investment and Jobs Act and Executive Order 14005. Applicants receiving a federal award subject to BABAA requirements may not use federal financial assistance funds for infrastructure projects unless:

- (a) All iron and steel used in the project are produced in the United States – this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

Standard Assurances For Cal OES Federal Non-Disaster Grant Programs

- (b) All manufactured products used in the project are produced in the United States – this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
- (c) All construction materials are manufactured in the United States – this means that all manufacturing processes for the construction material occurred in the United States.

The “Buy America” preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. It does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a “Buy America” preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

Per section 70914(c) of BABAA, FEMA may waive the application of a “Buy America” preference under an infrastructure program in certain cases.

On July 1, 2022, OMB approved FEMA's General Applicability Public Interest Waiver of the BABAA requirements to be effective for a period of six months, through January 1, 2023. Applicants will not be required to follow the BABAA requirements for FEMA awards made, and any other funding FEMA obligates, during this waiver period. For any new awards FEMA makes after January 1, 2023, as well as new funding FEMA obligates to existing awards or through renewal awards where the new funding is obligated after January 1, 2023, Applicants will be required to follow the BABAA requirements unless another waiver is requested and approved.

40. Advancing Effective, Accountable Policing and Criminal Justice Practice to Enhance Public Trust and Public Safety

The Applicant must comply with the requirements of section 12(c) of Executive Order 14074. The Applicant is also encouraged to adopt and enforce policies consistent with Executive Order 14074 to support safe and effective policing.

Standard Assurances For Cal OES Federal Non-Disaster Grant Programs

IMPORTANT

The purpose of these assurances is to obtain federal and state financial assistance, including any and all federal and state grants, loans, reimbursement, contracts, etc. Applicant recognizes and agrees that state financial assistance will be extended based on the representations made in these assurances. These assurances are binding on Applicant, its successors, transferees, assignees, etc. as well as any of its subrecipients. Failure to comply with any of the above assurances may result in suspension, termination, or reduction of grant funds.

All appropriate documentation, as outlined above, must be maintained on file by the Applicant and available for Cal OES or public scrutiny upon request. Failure to comply with these requirements may result in suspension of payments under the grant or termination of the grant or both and the Applicant may be ineligible for award of any future grants if Cal OES determines that the Applicant: (1) has made false certification, or (2) violates the certification by failing to carry out the requirements as noted above.

All of the language contained within this document must be included in the award documents for all subawards at all tiers. Applicants are bound by DHS Standard Terms and Conditions 2023, Version 2, hereby incorporated by reference, which can be found at: <https://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions>.

The undersigned represents that he/she is authorized to enter into this agreement for and on behalf of the Applicant.

SUBJECT: NOTIFICATION OF SUBAWARD MODIFICATION APPROVAL

Fiscal Year (FY) 2022 Homeland Security Grant Program (HSGP) Subaward #2022-0043 (PROJECT MODIFICATION)

Subaward Period: 09/01/2022-05/31/2025

Dear Chief Bartee:

We are pleased to announce the approval of the requested modification to your FY 2022 HSGP subaward for the following project(s):

Project 014: Gas Chromatograph Mass Spectrometer (GCMS) Level 2 Training \$10,300

Project 015: Hazcat Operations Training Course \$9,700

Project 016: Jerome 405 Mercury Detector for Hazmat Response \$20,000

This subaward is subject to requirements in the attached agreement, including but not limited to the Federal Emergency Management Agency (FEMA) Notice of Funding Opportunity (NOFO), the California Supplement to the NOFO, the FEMA Preparedness Grants Manual, and the California Governor's Office of Emergency Services (CalOES) Standard Assurances for Federal Non-Disaster Grant Programs.

To accept this award, you are required to execute and return the enclosed agreement with all required attachments to the Placer County Office of Emergency Services at grants@placer.ca.gov within 30 days of the date of this notice. We can also facilitate electronic signature of the documents, upon request.

After we receive the document with your signatures, we will provide you with a fully executed copy. For further assistance, please contact Brandy Dunkel at bdunkel@placer.ca.gov or 530-308-3555.

Sincerely,

David Atkinson, PE
Assistant Director of Emergency Services
Placer County Office of Emergency Services

Justification for Budget Adjustment:

Fire Department Staff recommends that Council authorize the establishment of a new Capital Improvement Project - the 2022-0043 Homeland Security Grant Subaward from Placer County/FEMA (the "Project"), and adopt an ordinance to approve a budget adjustment appropriating \$40,000 in the Grants Fund to the project for the purchase of a mercury detector for hazmat response and two training classes for the Type I Hazardous Materials Team. Funding is provided by the Homeland Security Grant Program subaward 2022-0043-071 through the Placer County Office of Emergency Services. The Fire Department will receive full reimbursement for the purchase of \$40,000, therefore, this budget adjustment will not affect the General Fund.

COUNCIL COMMUNICATION

CC #: 3659

File #: 0800-02 & 0201-01

Title: Cirby Way Water Pipeline Repair Project - Capital Improvement Project Approval and Budget Adjustment

Contact: Janice Gainey 916-774-5535 jrgainey@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.32.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council:

1. Approve a new Capital Improvement Project, the Cirby Way Water Pipeline Repair Project; and
2. Adopt an ordinance to approve a budget adjustment of \$170,000 from available resources in the Water Rehabilitation Fund to fund design and staff time only for the project.

BACKGROUND

In December 2023, a pipeline failure located on a 24-inch pipeline that runs underneath Cirby Way resulted in a sinkhole that led to a traffic incident. The pipeline is over 50 years old and the affected section is in an infill road section located between Ingles Way and Cirby Woods Apartment Homes.

Water Utility field staff responded to the incident and was able to isolate the affected pipeline, construct a temporary bypass to maintain water service to the area, and repair the affected road sections.

In February 2024, a consultant was hired to conduct Ground Penetrating Radar (GPR) scan of the area where the sinkhole was formed to confirm that the isolation effort and road repair had been successful and that no additional sinkholes had formed.

Water Utility has identified the area where the leak is located and has gathered sufficient field data to proceed to the next phase. The size and length of pipeline currently isolated has decreased the reliability of the distribution system within the affected area. Therefore, expediency is recommended in addressing this deficiency. Additional challenges are described below:

- Depth of pipe – Over 20 feet at location of leak.
- Uncertain pipe material makeup – Historical documents show that the pipe material could be either ductile iron or reinforced concrete cylinder pipe.
- Location on a high vehicular traffic area – The leak is located on Cirby Way between Ingles

Way and Cirby Woods Apartment Homes.

- Location near sensitive residences – During exploratory investigations conducted by the City, residents expressed concern with noise.

Design for the repair is anticipated to be completed by early spring 2025, with construction starting by mid-summer and lasting to late fall.

FISCAL IMPACT

The recommended budget adjustment requests the establishment of a new project, the Cirby Way Pipeline Project, for an initial budget of \$170,000 to fund design and staff time only. It is anticipated that a competitive bid process will be used to award a construction contract and that the total project cost will be approximately \$1,000,000 and any additional funds will be requested at a later date. The project will be funded from available resources in the Water Rehabilitation Fund.

ENVIRONMENTAL REVIEW

The proposed project involves the repair of an existing facility. This activity is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section 15301). The Exemption has been prepared and no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Janice Gainey, Principal Engineer

Richard Plecker, Environmental Utilities Director

Auburn, CA 95603

From: City of Roseville
Development Services Dept.
311 Vernon Street
Roseville, CA 95678

Project Title: Cirby Way Water Pipeline Repair

Project Location: Cirby Way between Inglis Way and Cirby Woods Apartment Homes, Roseville, CA 95678.

Project Description: The Roseville Environmental Utilities (EU) Department proposes to replace approximately 400 feet of existing 24-inch water pipeline within Cirby Way located between Inglis Way and Cirby Woods Apartment Homes. In December 2023, a pipeline failure of the existing pipeline resulted in a sinkhole that led to a traffic incident. The Water Utility field staff responded to the incident and was able to isolate the affected pipeline, construct a temporary bypass to maintain water service to the area, and repair the affected road sections. The area of the leak was identified and now must be replaced to ensure that the system can continue to operate properly. The pipeline is over 50 years old, and will be replaced with another 24-inch pipeline. There will be no increase in size or capacity; the project will replace the pipeline in kind to repair the existing pipeline and ensure the system's reliability.

Public Agency Approving Project: Roseville City Council

Agency Carrying Out Project: Roseville Environmental Utilities Department

Reason why this Project is Exempt: This project qualifies for a Class 1 Exemption as described in Section 15301 of the California Environmental Quality Act (CEQA) guidelines which states:

"Class 1 consists of the...repair...of existing public facilities....involving negligible or no expansion of use beyond that previously existing.... examples include but are not limited to: (b) Existing facilities of both investor and publicly-owned utilities used to provide electric power, natural gas, sewerage, or other public utility services;"

The project involves replacement of an existing 24-inch water pipeline with another in-kind 24-inch pipeline to repair an area of leaking pipeline that failed and caused a sinkhole in 2023. The repairs do not result in expansion of use. No sensitive resources are present on the project site. Therefore the Class 1 Exemption is applicable to the proposed project.

COUNCIL COMMUNICATION

CC #: 3682

File #: 0323 & 0214 & 0201-01

Title:	Homeless Resource Council of the Sierras - Non-Capital Project Approval, Grant Award, and Budget Adjustment
Contact:	Mark Peinado 916-774-5021 mcpeinado@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.33.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council:

- 1) Approve the establishment of a new Non-Capital Project (Homeless Resource Council of the Sierras (HRCS) Grant);
- 2) Adopt a resolution accepting the HRCS Grant Award and authorize the City Manager to execute the required documents on behalf of the City; and
- 3) Adopt an ordinance to approve a budget adjustment appropriating \$19,000 in the Grants Fund to the Project for the funding of outreach services.

BACKGROUND

The Roseville Police Department has been awarded \$19,000 in grant funding from the HRCS, through the Housing and Homelessness Incentive Program, to support the Police Department's Social Services Unit with street outreach services. The Police Department plans to utilize HRCS grant funds to provide outreach and case management services to unsheltered individuals residing in Roseville, to include meeting the immediate needs of individuals by connecting them with emergency shelter, housing, or critical services, and providing them with urgent non-facility based care.

The HRCS is a 501(c)(3) non-profit organization and serves as the collaborative applicant and administrative entity for Placer County and Nevada County Continuums of Care. The HRCS is committed to the goal of preventing and ending homelessness in Nevada and Placer Counties. The HRCS has awarded the City of Roseville, Roseville Police Department, grant funding to assist individuals experiencing homelessness in Roseville.

FISCAL IMPACT

The recommended budget adjustment will establish and fund a new Non-Capital Project (Homeless Resource Council of the Sierras - HRCS Grant) in the Grants Fund for a total amount of \$19,000. This budget adjustment will have no net impact on the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Acceptance of a grant award and approval of a budget adjustment meets the above criteria and are not subject to CEQA. No additional environmental review is required.

GRANT AGREEMENT BETWEEN
HOMELESS RESOURCE COUNCIL OF THE SIERRAS
AND
 City of Roseville,
 Roseville Police Department
FOR
\$19,000.00

THIS AGREEMENT is entered this 10th day of June 2024, by and between the Homeless Resource Council of the Sierras ("HRCS") and City of Roseville, Roseville Police Department (herein called the "Grantee").

WHEREAS, the HRCS has applied for and received funds from Anthem, California Health Wellness, and Kaiser Permanente through the Homeless and Housing Incentive Program; and

WHEREAS, HRCS wishes to engage the Grantee to assist HRCS in utilizing such funds to assist people experiencing homelessness in Placer and Nevada Counties;

NOW, THEREFORE, it is agreed between the parties hereto that:

ARTICLE 1—PROJECT

SECTION 1: DEFINITIONS

The following terms are defined in accordance with Health and Safety Code section 50216, subdivisions (a) – (q):

(a) “Coordinated Entry System” means a centralized or coordinated process developed pursuant to Section 578.7 of Title 24 of the Code of Federal Regulations, as that section read on January 10, 2019, designed to coordinate homelessness program participant intake, assessment, and provision of referrals. In order to satisfy this subdivision, a centralized or coordinated assessment system shall cover the geographic area, be easily accessed by individuals and families seeking housing or services, be well advertised, and include a comprehensive and standardized assessment tool.

(c) “Homeless” has the same meaning as defined in Section 578.3 of Title 24 of the Code of Federal Regulations, as that section read on January 10, 2019.

(d) “Homeless Management Information System” means the information system designated by a Continuum of Care to comply with federal reporting requirements as defined in Section 578.3 of Title 24 of the Code of Federal Regulations. The term “Homeless Management Information System” also includes the use of a comparable database by a victim services provider or legal services provider that is permitted by the federal government under Part 576 of Title 24 of the Code of Federal Regulations.

(f) “Housing First” has the same meaning as in Section 8255 of the Welfare and Institutions Code, including all of the core components listed therein.

SECTION 2: SCOPE OF WORK

A. Activities

a) Street Outreach Services

1. General Statement:

Grantee will utilize HHIP funds for the following activities in Placer County:

Provide street outreach and case management services to unsheltered individuals residing in Placer County. This includes meeting the immediate needs of individuals by connecting them with emergency shelter, housing, or critical services, and providing them with urgent non-facility based care.

2. Program Delivery:

- Activity#1a Conduct at a minimum weekly street outreach to individuals experiencing unsheltered homelessness.
- Activity #1b Support Roseville Police Department's Social Services Unit: Project, Law Enforcement Social Services in serving individuals experiencing or at risk of unsheltered homelessness by offering active outreach, prevention, intervention and reintegration services.
- Activity #2 Coordinate support services with partner agencies, as appropriate
- Activity #3 Participate in the local Homeless Management Information System
- Activity #4 Participate in the local Coordinated Entry System
- Activity #5 Participate in monthly Continuum of Care Meetings
- Activity #6 Participate in the HRCS Data Evaluation Committee

B. Payment for Services

It is mutually agreed that HRCS shall pay Grantee no more than the following:

- **\$19,000.00 for Street Outreach Services**

See attached Exhibit B for project budget and eligible expenses. Any amendment to the project budget must be approved by HRCS. Grantee is contractually obligated to expend one hundred percent (100%) of HHIP funds by June 30, 2026. Grantee is solely responsible for adherence to the Agreement.

HRCS reserves the right to discontinue, modify or withhold payments to be made under this Agreement or to require a total or partial return of any funds, including any unexpended funds under the following conditions: if HRCS, in its sole discretion, determines that Grantee has not performed in accordance with this contract or has failed to comply with any term or condition of this Agreement; or if Grantee fails to comply with the specified grantee activities or deliverables outlined in this Agreement.

C. Performance Monitoring

HRCS will monitor the performance of the Grantee regarding goals and performance standards as stated above. Substandard performance as determined by HRCS will constitute noncompliance with this Agreement. If action to correct such substandard performance is not taken by the Grantee within a reasonable period of time after being notified by HRCS, suspension or termination procedures will be initiated.

SECTION 3: TERM OF AGREEMENT

The term of this Agreement is June 10, 2024 through June 30, 2026.

SECTION 4: PROGRAM REPORTING

1) Annual Reports

By December 1st, 2024, and annually on that date thereafter until all funds have been expended, the Grantee shall submit an HMIS Annual Performance Report (APR) and Expenditure Form with the timeframe of October 1 to September 30 of each reporting year. All reports and forms must be sent to coordinator@hrcscoc.org. Annual Reports will include a request for data on expenditures and people served with HHIP funding in addition to details on specific projects selected for the use of HHIP funding. If the Grantee fails to provide such documentation, HRCS may recapture any portion of the amount authorized by this Agreement with a 14-day written notification.

2) Reporting Requirements

1) Annual Report: The annual report shall contain detailed information:

(1) Data collection shall include, but not be limited to, information regarding individuals and families served, including demographic information, information regarding partnerships among entities or lack thereof, and participant and regional outcomes.

(2) The performance monitoring and accountability framework shall include clear metrics, which may include, but are not limited to, the following:

(1) The number of individual exits to permanent housing, as defined by the United States Department of Housing and Urban Development, from unsheltered environments and interim housing resulting from this funding.

(2) Racial demographics, as defined by the council in consultation with representatives of state and local agencies, service providers, the Legislature, and other stakeholders.

2) Expenditure Form: The expenditure report(s) shall contain data on expenditures of HHIP funding including but not limited to obligated funds, expended funds, and interest accrued.

3) HRCS may require additional supplemental reporting with written notice to the Grantee.

Grantee may, at their discretion, fully expend their HHIP allocation prior to the end date of the grant term and will not be required to submit quarterly fiscal reports after the quarter in which their allocation was fully expended.

SECTION 5: CONTINUUM OF CARE REQUIREMENTS

The Grantee is required to actively participate in the following:

- Continuum of Care meetings: Grantee will attend monthly Continuum of Care meetings and provide public reports at the request of HRCS or the Continuum of Care. Grantee is allowed no more than two annual absences from monthly Continuum of Care Meetings.
- Homeless Management Information System (HMIS): Grantee will have no less than one HMIS license within the agency and comply with all HMIS policies and procedures.
- Coordinated Entry System (CES): Grantee will ensure that programs funded under this grant are known by CES with a written standard for referrals that is submitted to HRCS and CES program administrator no less than 30 days from signing of the contract and annually thereafter.
- HRCS Data Evaluation Committee: Grantee will nominate a single representative to attend all Data Evaluation Committee meetings. Grantee is allowed no more than two annual absences.

SECTION 6: NOTICES

Notices required by this Agreement shall be in writing and delivered via mail (postage prepaid), commercial courier, personal delivery, fax or other electronic means. Any notice delivered or sent as aforesaid shall be effective on the date of delivery or sending. All notices and other written communications under this Agreement shall be addressed to the individuals in the capacities indicated below, unless otherwise modified by subsequent written notice.

ARTICLE 2—FINANCIAL MANAGEMENT AND GENERAL REQUIREMENTS

SECTION 1: PAYMENTS AND BUDGET

A. General Statement

HRCS shall provide funding to the Grantee its allowable costs for the services identified in this Agreement not to exceed the amounts delineated in the budget located in Exhibit B.

Allowable costs shall mean those necessary and proper costs identified in the Grantee's application and budget and approved by HRCS. Such disbursement shall constitute full and complete payment by the HRCS under this Agreement.

B. Budget & Disbursement

Any amendments to the budget must be approved in writing by HRCS. HRCS may require a more detailed budget breakdown than the one contained herein, and the Grantee shall provide such supplementary budget information in a timely fashion in the form and content prescribed by HRCS.

HHIP funding may only be expended on allowable costs set in this Agreement. In the event that HRCS determines that any funds were expended by the Grantee for unauthorized or ineligible purposes or the expenditures constitute disallowed costs in any other way, HRCS may order repayment of the same. The Grantee shall remit the disallowed amount to HRCS within thirty (30) days of written notice of the disallowance.

Grantee is contractually obligated to expend one hundred percent (100%) of HHIP funds by June 30, 2026. The Grantee agrees that upon expiration of this Agreement, the Grantee shall transfer to HRCS any HHIP funds on hand at the time of the expiration and any accounts receivable attributable to the use of HHIP funds.

C. Breach and Remedies

Breach of Agreement

Breach of this Agreement includes, but is not limited to, the following events:

- Grantee's failure to comply with the terms or conditions of this Agreement.
- Use of, or permitting the use of, HHIP funds provided under this Agreement for any ineligible activities.
- Any failure to comply with the deadlines set forth in this Agreement.

Remedies for Breach of Agreement

In addition to any other remedies that may be available to Agency in law or equity for breach of this Agreement, Agency may:

- Bar the Grantee from applying for future HHIP funds;
- Revoke any other existing HHIP award(s) to the Grantee;
- Require the return of any unexpended HHIP funds disbursed under this Agreement;
- Require repayment of HHIP funds disbursed and expended under this Agreement;
- Require the immediate return to Agency of all funds derived from the use of HHIP funds; Seek, in a court of competent jurisdiction, an order for specific performance of the defaulted obligation or participation in the technical assistance in accordance with HHIP requirements.

All remedies available to HRCS are cumulative and not exclusive.

HRCS may give written notice to the Grantee to cure the breach or violation within a period of not less than 15 days.

This Agreement may be terminated by HRCS immediately and without notice for cause or by HRCS without cause upon **thirty (30) days'** written notice of termination to Grantee. Upon termination, Grantee shall be entitled to compensation for Services performed up to the effective date of

termination, unless this Agreement is terminated for cause, in which case, HRCS may withhold compensation due Grantee in order to reimburse HRCS for any losses, damages or expenses caused by Grantee's default under this Agreement.

SECTION 2: DOCUMENTATION OF COSTS, FINANCIAL REPORTING, AND GENERAL CONDITIONS

The Grantee will be required to maintain books, records, documents, and other evidence directly related to performance of the work for a minimum of five (5) years in accordance with Generally Acceptable Accounting Principles (GAAP). Costs shall be supported by properly executed payrolls, time records, invoices, vouchers or other official documentation, as evidence of the nature and propriety of the charges.

All accounting documents pertaining in whole or in part to this Agreement shall be clearly identified and readily accessible, and upon reasonable notice, HRCS shall have the right to audit the records of the Grantee as they relate to the Agreement and the activities and services described herein.

The Grantee shall also:

- Comply with all applicable State and Federal laws, regulations, and requirement and all provisions of this Agreement.
- Comply with and obtain at its own expense, if necessary, all applicable Federal, State, City or Municipal standards for licensing, certifications and operation of facilities and programs, and accreditation and licensing of individuals, and any other standards or criteria as described in this Agreement to assure quality of services.
- Comply with Title VI of the Civil Rights Act of 1964 as amended, Title VIII of the Civil Rights Act of 1968 as amended, Section 104(b) and Section 109 of Title I of the Housing and Community Development Act of 1974 as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, Executive Order 11063, and Executive Order 11246 as amended by Executive Orders 11375, 11478, 12107 and 12086.
- Comply with the nondiscrimination in employment and contracting opportunities laws, regulations, and executive orders referenced in 24 CFR 570.607, as revised by Executive Order 13279. The nondiscrimination provisions in Section 109 of the Housing and Community Development Act of 1974 are still applicable, which stipulates that no person in the United States shall on the grounds of race, color, national origin or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part pursuant to this Agreement.
- Maintain an effective system of internal fiscal control and accountability for all HHIP funds and property acquired or improved with HHIP funds, and ensure the same are used solely for authorized purposes.
- Keep a continuing record of all disbursements by date, check number, amount, vendor, description of items purchased and line item from which the money was expended, as reflected in the Grantee's accounting records.
- Maintain payroll, financial, and expense reimbursement records for a period of five (5) years after receipt of final payment under this Agreement.

- Permit inspection and audit of its records with respect to all matters authorized by this Agreement by representatives of HRCS at any time during normal business hours and as often as necessary.
- Inform HRCS concerning any funds allocated to the Grantee, that the Grantee anticipates will not be expended during the term of this Agreement, and permit the reassignment of the same by HRCS to other Grantees.
- Provide budget and disbursement amendments as outlined in Article 2, Section 1B above.
- Repay HRCS any funds in its possession at the time of the termination of this Agreement that may be due to HRCS.
- Have processes in place (satisfaction surveys, Board representation, grievance procedures, etc.) which receive, document and utilize the input from low-income persons potentially benefiting or affected by the program or project covered under this Agreement.

SECTION 3: PROGRAM INCOME

Grantee shall report any income incurred as a result of this program.

SECTION 4: INELIGIBLE COSTS

HHIP funds shall not be used for costs associated with activities in violation of any law or for any activities not consistent with the intent of the Program and the eligible uses identified in this Agreement.

HRCS reserves the right to request additional clarifying information to determine the reasonableness and eligibility of all uses of the funds made available by this Agreement. If the Grantee use HHIP funds to pay for ineligible activities, the Grantee shall be required to reimburse these funds to HRCS.

An expenditure which is not authorized by this Agreement, or by written approval of HRCS, or which cannot be adequately documented, shall be disallowed and must be reimbursed to HRCS on behalf of CA-515: Placer County by the Grantee.

CA-515: Placer County, at its sole and absolute discretion, shall make the final determination regarding the allowability of HHIP fund expenditures.

Program funds shall not be used to supplant existing local funds for homeless housing, assistance, or prevention. Administrative costs are not an allowable expense for this grant program.

SECTION 5: GRANTEE RESPONSIBILITY

Grantee is responsible for the completion of the Project or full operation of the Program if only partial funding is provided through HHIP.

SECTION 6: SEVERABILITY

It is understood and agreed by the parties that if any part, term, or provision of this Agreement is held by the courts to be invalid, illegal or in conflict with any law, the remainder of the Agreement shall not be affected thereby and all other parts of this Agreement shall nevertheless be in full force and effect.

SECTION 7: DRUG-FREE WORKPLACE CERTIFICATION

Certification of Compliance: By signing this Agreement, Grantee, and its subcontractors, hereby certify, under penalty of perjury under the laws of the State of California, compliance with the requirements of the Drug-Free Workplace Act of 1990 (Government Code 8350 et seq.) and have or will provide a drug-free workplace by taking the following actions:

1. Publish a statement notifying employees and subcontractors that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees, contractors, or subcontractors for violations, as required by Government Code section f(8355(a)(1).
2. Establish a Drug-Free Awareness Program, as required by Government Code section 8355(a)(2) to inform employees, contractors, or subcontractors of the following:
 - a. The dangers of drug abuse in the workplace;
 - b. Subcontractor's policy of maintaining a drug-free workplace;
 - c. Any available counseling, rehabilitation, and employee assistance programs; and
 - d. Penalties that may be imposed upon employees, contractors, and subcontractors for drug abuse violations.
3. Provide, as required by Government Code 8355 (a)(3), that every employee and/or subcontractor who works under this Agreement:
 - a. Will receive a copy of Grantee's drug-free policy statement, and
 - b. Will agree to abide by terms of Grantee's condition of employment or subcontract.

SECTION 8: ENTIRE AGREEMENT

This Agreement constitutes the entire agreement between HRCS and the Grantee for the use of funds received under this Agreement and it supersedes all prior or contemporaneous communications and proposals, whether electronic, oral, or written between HRCS and the Grantee with respect to this Agreement.

SECTION 9: NO THIRD-PARTY BENEFICIARIES

Except as expressly provided otherwise, this Agreement is intended to be solely for the benefit of the parties and shall not otherwise be deemed to confer upon or give to any other person or third party any remedy, claim, cause or action or other right.

SECTION 10: ATTORNEYS FEES

If an action at law or in equity is necessary to enforce or interpret the terms of this Agreement, the prevailing party shall be entitled to reasonable attorneys' fees, costs and necessary disbursements in addition to any other reasonable relief to which he may be entitled. With respect to any suit, action or proceeding arising out of or related to this Agreement, or the documentation related hereto, the parties hereby submit to the jurisdiction and venue of the Superior or Municipal Court, whichever is applicable, in the County of Placer, State of California for any proceeding arising hereunder.

SECTION 11: GOVERNING LAW AND JURISDICTION

This Agreement shall be construed in accordance with the laws of the State of California. In the event of any dispute over the Agreement's terms and conditions, the exclusive venue and jurisdiction for any litigation arising there under shall be in the Superior Court of Placer County or Nevada County, California, and, if necessary for exclusive federal questions, the United States District Court for the Eastern District of California.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the date of the most recent signatory.

Justification for Budget Adjustment:

This budget adjustment will establish and fund a new Non-Capital Project (700069 - Homeless Resource Council of the Sierras - HRCS Grant) in the Grants Fund. The Roseville Police Department has been awarded \$19,000 in funding from the Homeless Resource Council of the Sierras, through the Housing and Homelessness Incentive Program to support the Roseville Police Department's Social Services Unit with Street Outreach Services. The Police Department will utilize grant funds to provide outreach and case management services to unsheltered individuals residing in Roseville, including meeting immediate needs by connecting them with emergency shelter, housing, or critical services, and providing them with urgent non-facility-based care.

COUNCIL COMMUNICATION

CC #: 3702
File #: 0600-01

Title: Staffing Changes
Contact: Macy Dippert 916-774-5215 mdippert@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.34.

RECOMMENDATION TO COUNCIL

As part of an ongoing assessment of the appropriate staffing structure to provide a high level of service to the community, staff recommends the following changes to the City's staffing allocation and salary schedules to meet business needs. Staff recommends that City Council take the following actions:

1. Adopt an ordinance to approve the Management A & B salary schedules (Appendix G) reflecting the addition of a Finance Director (1155A/1155B) and Organizational Performance Program Administrator (1156A/1156B) as well as the retitle of the Development Services Administrator to Development Services Business Systems Administrator (1280A/1280B) effective December 28, 2024; and
2. Motion to approve the attached citywide allocation schedule effective December 28, 2024.

BACKGROUND

As part of the Municipal Code, the Human Resources Department maintains the City's classification plan. Human Resources staff continually evaluate organizational structure and staffing levels necessary to provide high service levels to the community. The recommended changes include the addition of two (2) new classifications and three (3) new full-time positions, the retitle of one (1) classification, and the reclassification of two (2) full-time positions.

Recommendations:

The proposed classification changes are as follows:

Add

Grade Codes	Classification Name	Monthly Salary Range Minimum	Monthly Salary Range Maximum	Bargaining Unit

1155A/1155B	Finance Director	\$14,397	\$19,293	MGMT
1156A/1156B	Organizational Performance Program Administrator	\$8,683	\$11,635	MGMT

Position	Position Number	Department
Police Officer/Police Trainee	POL445430127	Police
Organizational Performance Program Administrator	PAC181156001	Public Affairs & Communications
Human Resources Analyst I/II	HRD283596005	Human Resources

Title Change

Grade Codes	From	To	Bargaining Unit
1280A/1280B	Development Services Administrator	Development Services Business Systems Administrator	MGMT

Reclassification

From	To	Position	Bargaining Unit
Assistant City Manager (CMO140325002)	Finance Director	FIN241155001	MGMT
Management Assistant II (FIN244457001)	Administrative Assistant	FIN240071001	Confidential

Changes by Department:

City Manager

The City Manager's Office requests to add a Finance Director classification and reclassify the vacant Assistant City Manager position to a new Finance Director position to manage and direct operations in the Finance Department. This position will be moved from the City Manager's Office to the Finance Department. With this change the Assistant City Manager/Chief Financial Officer position will be moved from the Finance Department to the City Manager's Office. The salary savings from the Assistant City Manager position will be used to fund the Finance Director. The Finance Director classification will be set approximately fifteen percent (15%) above the Assistant Finance Director classification.

Public Affairs & Communications

Staff recommends adding a new Organizational Performance Program Administrator classification and associated full-time position. This position will continue the Organizational, Culture, and

Leadership work as it's important to develop and maintain a highly engaged City team. A strong culture will continue to be what sets us apart in our ability to recruit and retain exceptional talent on the city team who make Roseville's quality of life the model for the region. This position will also focus on developing a performance measurement program to assess, monitor, and enhance the results and effectiveness of City services. The Organizational Performance Program Administrator classification will be set approximately fifteen percent (15%) below the Government Relations Administrator.

Development Services

Staff is recommending retitling the Development Services Administrator to Development Services Business Systems Administrator to better reflect the technology, duties and responsibilities of work assigned to the classification. There will be no change in salary for this classification.

Finance

Staff is recommending reclassifying a vacant regular full-time Management Assistant I/II position to an Administrative Assistant to provide administrative support to the new Finance Director position requested in this staff report.

Human Resources

Staff is recommending adding one (1) full-time Human Resources Analyst I/II position to the Human Resources Department to address increasing workload demands from the growing organization and classification work from succession planning. The position is needed to perform complex analytical work in support of department management, implement new processes to comply with new regulations, conduct policy reviews, plan and facilitate trainings to reduce employment practice risks, research and consult on more complex leave management issues, and provide staff assistance to engagement initiatives.

Police

Staff is recommending adding one (1) full-time Police Officer/Police Trainee position to the Crime Suppression Unit (CSU) to improve the quality of life in Roseville through proactive measures. Their investigations focus on illicit drugs, gangs, human trafficking, and high-risk offenders. The CSU has experienced a workload increase that is unsustainable with current staffing levels, therefore, staff is requesting to add an additional Officer position. On a parallel track, staff is working on a plan and budget adjustment to use a portion of the City's opioid settlement funds to reimburse the Police Department's budget for eligible staff costs in the Social Services Unit. That reimbursement will offset the cost of this new position for the foreseeable future, until the opioid settlement funding runs out in about ten years.

FISCAL IMPACT

The estimated total cost of the recommended position adjustments to the General Fund will be \$197,614 for the remainder of FY2024-25, all of which can be covered by the General Fund contingency, so no budget adjustment is required at this time.

Beyond this fiscal year, the recommended changes have an annual ongoing impact of \$462,332

to the General Fund. The following table provides a summary of costs for the General Fund.

Fund	Remainder of FY2024- 25	Ongoing
General Fund Total	\$197,614	\$462,332

Public Affairs & Communications

From	To	Current Salary & Benefits	Proposed Salary & Benefits	Annual Impact *	Impact for remaining FY 2024-25
	Organizational Performance Program Administrator	\$0	\$216,510	\$216,510	\$108,255

*This amount includes the estimated annual pension cost of \$14,145.08.

Finance

From	To	Current Salary & Benefits	Proposed Salary & Benefits	Annual Impact *	Impact for remaining FY 2024-25
Assistant City Manager	Finance Director	\$410,619	\$359,008	-\$51,611	-\$25,806
Management Assistant I/II	Administrative Assistant	\$135,050	\$128,624	-\$6,426	-\$3,213
			Total	-\$58,037	-\$29,018

*This amount includes the estimated annual pension savings of \$4,059.73.

Human Resources

From	To	Current Salary & Benefits	Proposed Salary & Benefits	Annual Impact *	Impact for remaining FY 2024- 25
1,000-hour temporary salary	Human Resources Analyst I/II	\$76,061	\$185,105	\$185,105	\$20,970

*This amount includes the estimated annual pension cost of \$12,948.26.

Police

From	To	Current Salary & Benefits	Proposed Salary & Benefits	Annual Impact *	Impact for remaining FY 2024-25
	Police Officer/Police Trainee	\$0	\$194,814	\$194,814	\$97,407

*This amount includes the estimated annual pension cost of \$26,761.72.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The proposed staffing changes meet the above criteria and are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Description

Ordinance 6904

2024-12-28 Management Salary Schedule A

2024-12-28 Management Salary Schedule B

2024-12-28 Position Allocation Schedule

ORDINANCE NO. 6904

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING
ORDINANCE NO. 6873, THE SALARY ORDINANCE FOR MANAGEMENT EMPLOYEES,
AS AMENDED BY APPENDIX “G” TO BE EFFECTIVE
DECEMBER 28, 2024, AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6873, the Salary Ordinance for Management Employees, is hereby amended as shown on Appendix “G” for salary schedules A & B attached hereto.

ADDITION OF CLASSIFICATION

<u>Classification No.</u>	<u>Position Title</u>	<u>Hourly Rate</u>
1155A/1155B	Finance Director	\$111.30
1156A/1156B	Organizational Performance Program Administrator	\$ 67.12

AMENDMENT OF CLASSIFICATION

<u>Classification No.</u>	<u>Position Title</u>	<u>Hourly Rate</u>
1280A/1280B	Development Services Business Systems Administrator	\$ 70.07

SECTION 2. Salary Plan Effective Date.

This Ordinance shall be effective December 28, 2024 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect December 28, 2024. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

COUNCIL COMMUNICATION

CC #: 3695
File #: 0600-01

Title: Labor Market Adjustments, General Wage Increases, Temporary Salary Schedule Updates with Minimum Wage Increases, and Side Letter Agreements with Roseville Police Officers' Association and Roseville Firefighters, Local 1592

Contact: Macy Dippert 916-774-5215 mdippert@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.35.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council take the following actions:

1. Adopt an ordinance to approve the International Union of Operating Engineers, Stationary Engineers, Local 39 (Local 39) A & B Salary schedules (Appendix E) reflecting the already approved 2.5% general wage increase effective January 11, 2025;
2. Adopt an ordinance to approve the Roseville Police Association (RPA) A & B Salary Schedules (Appendix C) reflecting the already approved 2.5% general wage increase effective January 11, 2025;
3. Adopt an ordinance to approve the Confidential A & B Salary Schedules (Appendix B) reflecting the already approved 2.5% general wage increases effective January 11, 2025;
4. Adopt an ordinance to approve the Management A & B Salary Schedules (Appendix H) reflecting the already approved 2.5% general wage increases effective January 11, 2025;
5. Adopt an ordinance to approve the City Council Appointed Position Salary Schedule (Appendix S) reflecting the already approved 2.5% general wage increases effective January 11, 2025;
6. Adopt an ordinance to approve the Roseville Police Officers' Association (RPOA) A & B Salary Schedules (Appendix D) reflecting labor market adjustments effective January 11, 2025;
7. Adopt an ordinance to approve the Roseville Firefighters, Local 1592 (RFF) A & B Salary Schedules (Appendix D) reflecting labor market adjustments effective January 11, 2025;
8. Adopt a resolution to approve the side letter agreement between the City of Roseville and Roseville Firefighters, Local 1592 regarding Survey Agencies and Longevity Pay on Holiday Buy-up;
9. Adopt a resolution to approve the side letter agreement between the City of Roseville and the Roseville Police Officers' Association related to Shift Differential and Service Term Pay on Holiday Buy-up; and
10. Adopt an ordinance to approve the attached Temporary salary schedule reflecting minimum wage adjustments (Appendix W) reflecting the addition of a Refuse Maintenance Assistant (1157), Adult/Senior Services Driver (1158), and Event Specialist (1159) class; and deletion of Event Specialist I (1014) and Event Specialist II (1015); and Event Specialist III (1016),

effective December 28, 2024.

BACKGROUND

As part of the Municipal Code, the Human Resources Department is charged with maintaining the City's classification and compensation plan. The City's goal has been to ensure it is fiscally responsible while remaining competitive in the marketplace on recruitment and retention among comparable cities.

General Wage Increases

The current Memorandums of Understanding (MOUs, or individually, MOU) with the Roseville Police Association (RPA), International Union of Operating Engineers, Stationary Engineers, Local 39 (Local 39), and the Management and Confidential unrepresented groups, which expire December 31, 2027, and the City Council Appointed Positions (CCAP) contracts, have provisions for a 2.5 percent general wage increase to be effective January 11, 2025.

Labor Market Adjustments

The current MOUs with the Roseville Police Officer's Association (RPOA) and Roseville Firefighters, Local 1592 (RFF), which expire on December 31, 2025, have provisions for a labor market study in July 2024. Based on these agreed upon terms, the City engaged an independent classification and compensation consultant to conduct a comprehensive total compensation study using comparator jurisdictions. The MOU provisions required the same salary, benefit elements, and methodology that was used in the July 2023 Total Compensation Study.

Staff met with the labor groups regarding the accuracy of the market total compensation data in the last two weeks of October 2024. The average percent increases for the bargaining groups are as follows: RPOA: 6.19% and RFF: 6.32%.

The salary schedule updates for RPOA include the following labor market adjustments:

Class Title	A Salary Schedule % Change	B Salary Schedule % Change
Police Officer	5.90%	5.90%
Police Sergeant	8.35%	8.35%

The salary schedule updates for RFF include the following labor market adjustments:

Class Title	A Salary Schedule % Change	B Salary Schedule % Change
Fire & Environmental Inspection Supervisor	5.83%	5.83%
Fire and Environmental Safety Inspector II	5.83%	5.83%
Fire and Environmental Safety Inspector I	5.83%	5.83%
Fire Captain	7.39%	7.39%
Fire Engineer	5.915%	5.915%

Firefighter Paramedic II	5.915%	5.915%
Firefighter Paramedic I	5.915%	5.915%
Firefighter EMT I	10.00%	10.00%

Side Letter Agreements

Staff requests that Council authorize the City Manager to execute two side letter agreements, and authorize him to manage and modify the terms thereof as needed for their duration to ensure the spirit and intent is effectuated, including making changes if informed of a need to do so by CalPERS for any reason, to remain compliant:

1. The side letter agreement between the City of Roseville and Roseville Firefighters, Local 1592 is recommended to capture an update to the agencies surveyed and compared for total compensation to remain competitive in the labor market, as our consultant advised that due to recent fiscal challenges with the South Placer Fire District that other agencies have dropped them from their markets. In addition, the side letter agreement addresses a recent issue identified by CalPERS and incorporates language needed to clearly capture the long-term pay practice of reporting longevity paid on holiday buy-up compensation as special compensation to CalPERS, as these employees are not able to take off on holidays as they fall; and
2. The side letter agreement between the City of Roseville and the Roseville Police Officers' Association includes an update to the shift differential provision to apply the shift differential to leave time taken by the employee. Employees on the graveyard and swing shifts have been receiving pay reductions when taking leave, so this update is needed to retain employees in these more difficult to fill shifts. In addition, the side letter agreement addresses a recent issue identified by CalPERS and incorporates language needed to clearly capture the long-term pay practice of reporting service term pay on holiday buy-up compensation as special compensation to CalPERS, as these employees are not able to take off on holidays as they fall.

Temporary Salary Schedule Updates and Minimum Wage Increases

Temporary employees are utilized by the City to assist in the delivery of services by filling seasonal, specialized or short-term service. With a new minimum wage rate going into effect January 1, 2025, staff has reviewed existing temporary classifications and the related salary schedules. A total of forty-three (43) temporary classifications are recommended to receive a rate increase. Staff is also recommending deleting three (3) temporary classifications and adding three (3) new temporary classifications to meet the City's business needs.

Staff recommends deleting the following temporary classifications:

Job Code	Job Title
1014	Event Specialist I
1015	Event Specialist II
1016	Event Specialist III

Staff recommends adding the following temporary classifications:

Job Code	Job Title
1157	Refuse Maintenance Assistant
1158	Adult/Senior Services Driver
1159	Event Specialist

California Labor Code requires the California Department of Finance to make an annual determination that economic conditions can support a statewide minimum wage increase and certify to the Governor and the Legislature that such conditions are met. The California Department of Finance has certified a minimum wage increase from \$16.00 per hour to \$16.50 per hour effective January 1, 2025. In preparation for this increase, the City needs to adjust the rate of pay for employees who make less than the new California minimum wage. While there were a small number of temporary classifications making less than \$16.50 an hour, a total of forty-three (43) classifications are recommended to receive a salary schedule increase. Staff took into consideration compaction issues, consistency amongst all temporary classifications and opportunities to enhance recruitment efforts.

Staff is recommending pay rate changes to the following temporary classifications in the temporary salary schedule:

Job Code	Job Title
1100	Aquatics Facilities Maintenance Worker
9503	Assistant Pool Manager I
1077	Assistant Pool Manager II
9505	Building Inspection Assistant
9507	Child Care Aide
9506	Child Care Program Assistant
1010	Child Care Program Leader
9508	Child Care Teacher
1230	College Intern
1137	Customer Service Specialist
9509	Engineering Aide
1020	Event Recreation Program Leader
9513	Interpretive Services Program Assistant
9514	Interpretive Services Program Leader
9515	Library Page
1074	Lifeguard
9518	Maintenance Assistant
1011	Parks & Facility Maintenance Worker- Commercial Driver
1012	Parks & Open Space Equipment Operator- Commercial Driver
9521	Parks and Facility Maintenance Worker
9523	Parks and Open Space Equipment Operator
9527	Pool Manager I
1078	Pool Manager II
9528	Preschool Teacher
6110	Recreation Aide
9532	Recreation Program Leader
9533	Recreation Specialist I
9534	Recreation Specialist II
9535	Recreation Specialist III

6252	Reserve Police Officer I
9536	School Crossing Guard
9538	Senior Child Care Teacher
1075	Senior Lifeguard I
1076	Senior Lifeguard II
9537	Senior School Crossing Guard
7005	Soccer Official
7207	Sports Official/Scorer I
7208	Sports Official/Scorer II
9552	Swim Instructor Aide
9553	Swim Instructor I
9554	Swim Instructor II
8941	Vocational Intern
9540	Water Conservation Helper

FISCAL IMPACT

The Local 39, RPA, Management and Confidential, and City Council Appointed Position general wage increases will cost \$1,321,000 for the remaining 12 pay periods of the fiscal year, which was included in the FY2024-25 budget, with the General Fund portion totaling \$677,000. The annual estimated ongoing cost of the general wage increases is approximately \$2.9 million citywide, with \$1.5 million attributed to the General Fund.

The total cost to the General Fund for the labor market increase for RPOA and RFF for the remainder of FY2024-25 is \$1,133,200. There are adequate resources available in the General Fund contingency to cover this increase for the remainder of FY2024-25. The ongoing annual cost of this labor market adjustment is estimated to cost the General Fund \$2.5 million per year.

Temporary pay rate increases due to the minimum wage change will be absorbed by available resources in the FY2024-25 budget. The fiscal impact is approximately \$5,600 to the Youth Development Fund and approximately \$38,000 to the General Fund.

The cost of the RPOA side letter adding shift differential pay is estimated to be \$27,000 annually to the General Fund, with \$13,500 estimated for the current fiscal year. The costs of the other provisions included in the side letters are captured in the costing above or are current pay practices already included in the budget.

Overall, the annual estimated ongoing cost of the general wage increases, labor market adjustments, temporary salary schedule updates, and RPOA shift pay update is approximately \$5.4 million citywide, with approximately \$4 million attributed to the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The proposed staffing and salary changes, side letter agreements,

and other items included with this item, meet the above criteria and is not subject to CEQA. No additional environmental review is required.

ORDINANCE NO. 6894

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING
ORDINANCE NO. 6841, THE SALARY ORDINANCE FOR EMPLOYEES REPRESENTED
BY THE INTERNATIONAL UNION OF OPERATING ENGINEERS, STATIONARY
ENGINEERS, LOCAL 39, AS AMENDED BY APPENDIX “E”
TO BE EFFECTIVE JANUARY 11, 2025, AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6841, the Salary Ordinance for employees represented by the International Union of Operating Engineers, Stationary Engineers, Local 39, is hereby amended as shown on Appendix “E” for salary schedules A & B attached hereto, reflecting a 2.5% general wage increase.

SECTION 2. Salary Schedule Effective Date.

This Ordinance shall be effective January 11, 2025 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect January 11, 2025. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20____, by the following vote on roll call:

ORDINANCE NO. 6895

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING ORDINANCE NO. 6798, THE SALARY ORDINANCE FOR NON-SWORN EMPLOYEES REPRESENTED BY THE ROSEVILLE POLICE ASSOCIATION, AS AMENDED BY APPENDIX "C" TO BE EFFECTIVE JANUARY 11, 2025 AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6798, the Salary Ordinance for non-sworn employees represented by the Roseville Police Association, is hereby amended as shown on Appendix "C" for salary schedules A & B attached hereto, to reflect a 2.5% general wage increase.

SECTION 2. Salary Schedule Effective Date.

This Ordinance shall be effective January 11, 2025 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect January 11, 2025. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20____, by the following vote on roll call:

AYES COUNCILMEMBERS:

ORDINANCE NO. 6896

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING
ORDINANCE NO. 6771, THE SALARY ORDINANCE FOR CONFIDENTIAL
EMPLOYEES, AS AMENDED BY APPENDIX "B" TO BE EFFECTIVE
JANUARY 11, 2025, AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6771, the Salary Ordinance for Confidential Employees, is hereby amended as shown on Appendix "B" for salary schedules A & B attached hereto, to reflect a 2.5% general wage increase.

SECTION 2. Salary Schedule Effective Date.

This Ordinance shall be effective January 11, 2025 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect January 11, 2025. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20____, by the following vote on roll call:

ORDINANCE NO. 6897

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING
ORDINANCE NO. 6873, THE SALARY ORDINANCE FOR MANAGEMENT EMPLOYEES,
AS AMENDED BY APPENDIX “H” TO BE EFFECTIVE
JANUARY 11, 2025, AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6873, the Salary Ordinance for Management Employees, is hereby amended as shown on Appendix “H” for salary schedules A & B attached hereto, to reflect a 2.5% general wage increase.

SECTION 2. Salary Plan Effective Date.

This Ordinance shall be effective January 11, 2025 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect January 11, 2025. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

RESOLUTION NO. 24-429

APPROVING A SIDE LETTER AGREEMENT TO THE MEMORANDUM OF
UNDERSTANDING FOR EMPLOYEES REPRESENTED BY ROSEVILLE FIREFIGHTERS,
LOCAL 1592, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT
ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Side Letter Agreement to the Memorandum of Understanding for
Employees Represented by Roseville Firefighters, Local 1592, related to Survey Agencies and
Longevity Pay on Holiday Buy-Up, has been reviewed by the City Council;

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that
said Side Letter Agreement to the Master Memorandum of Understanding is approved and that
the City Manager is authorized to execute it on behalf of the City of Roseville; and administer,
interpret, and apply its terms, intent, and spirit, and execute any other documents including
modifying its terms as necessary to effectuate the purposes hereof as determined necessary by
the City Manager, including, if, in the City Manager's discretion, its agreeable and necessary to
do so based on compliance direction provided by CalPERS concerning the topics addressed
therein.

PASSED AND ADOPTED by the City Council of the City of Roseville this _____ day
of _____, 20____, by the following vote on roll call:

SIDE LETTER AGREEMENT

BETWEEN THE

THE CITY OF ROSEVILLE

AND

ROSEVILLE FIREFIGHTERS, LOCAL 1592

Survey Agencies and Longevity Pay on Holiday Buy-up

The City of Roseville (hereinafter referred to as “City”) and the Roseville Firefighters, Local 1592 (hereinafter referred to as “RFF”) entered into a Memorandum of Understanding (“MOU”) with a term beginning on January 1, 2022, and terminating on December 31, 2025. The City and RFF are collectively referred to herein as the “Parties.”

Background and Overview

The intent of this Side Letter Agreement (“Agreement” or “SLA”) is to mutually address unique facts and time specific points of interest discussed during the review of the labor market data, pursuant to MOU, Chapter 2, Article 1, Labor Market Adjustments, provision, A.4. The Parties discussed recruitment and retention concerns. RFF shared concerns about South Placer Fire Protection District (“South Placer Fire”) being included in the list of survey agencies, as they are having financial issues, having closed two fire stations. The City has recently acquired two candidates from this agency and has not recently lost candidates to South Placer Fire. The City learned from the total compensation consultant that other clients had removed South Placer Fire from their market agencies. As such, to remain competitive in our labor market, the City believes that removing this agency from the list of comparable market agencies based on the reasons set forth herein, meets the spirit and intent of applying market data and in light of the specific facts discussed by the Parties.

Further, the City was recently notified by CalPERS that the RFF MOU does not clearly specify the conditions of payment of longevity pay on holiday buy up as Compensation Earnable pursuant to Government Code (GC) Section 20636 (Classic) or Pensionable Compensation pursuant to GC 7522.34 (PEPRA) and as Special Compensation as defined in the California Code of Regulation section 571 (Classic) and 571.1(PEPRA). Employees who are normally required to work on an approved holiday because they work in positions that require scheduled staffing without regard to holidays shall receive additional compensation, over and above the employees’ hourly rate of pay. Since these shift employees are not able to take holidays off, in accordance with MOU Chapter 3, Article II, Holidays/Scheduling Time-off, provision C., they may elect to receive straight salary for all shifts of earned and unused holiday credit within each calendar year. Based on the Longevity provision, effective February 25, 2012, the City has calculated and reported longevity pay on holiday buy-up of earned and unused holiday credit as special compensation for employee hired prior to January 1, 2017. Employees hired on or after January 1, 2017, are eligible for a lump sum service term bonus which is not reportable as

special compensation. The intent of this Side Letter Agreement is to capture the City's practice and does not result in any additional or reduced compensation for employees, nor any change to the reported compensation to CalPERS. The Parties agree to capture this unequivocal past practice in the holiday provision that holiday pay includes the base pay rate plus applicable longevity pay rate multiplied by the holiday hours and the holiday pay reported to CalPERS as special compensation will continue to be included by CalPERS in the calculation of their eligible retirement earnings, unless and until CalPERS determines otherwise. The parties acknowledge and agree by execution of this SLA, that notwithstanding their intent, the parties will abide by the direction or determination made by CalPERS, should that occur, on the calculation and reportability of compensation and hours relevant to the topics discussed herein. The SLA also incorporates herein by this reference the revisions to paragraph B and C from the Holiday/Scheduling Time off Side Letter, executed on February 16, 2023.

The specific provisions contained in this SLA are intended to supersede any previous agreements, whether oral or written, regarding the matters contained in this SLA.

The Parties have satisfied their obligations to meet and confer in good faith in accordance with the Meyers-Milias-Brown Act ("MMBA").

Except as provided here, all wages, hours, and other terms and conditions of employment presently in the City's MOU and SLAs with RFF remain in full force and effect.

This SLA will remain in effect unless it is modified through further negotiations in accordance with the MMBA.

The City and RFF mutually agree, after meeting and conferring in good faith, to the following:

1. To address recruitment and retention concerns, the Parties agree to amend Appendix "B" – Survey Agencies and remove South Placer Fire Protection District from the list of survey agencies for total compensation comparison (attached).
2. To clarify the long standing past practice of reporting special compensation to CalPERS, the Parties agree to modify specific language in the RFF MOU, Chapter 3, Leaves as follows, which also incorporates the agreed upon revisions to paragraph B and C from the Holiday/Scheduling Time off Side Letter, executed on February 16, 2023:

ARTICLE II. HOLIDAY/SCHEDULING TIME OFF

- A. The following holidays shall be observed by the City with respect to all employees, except shift employees. City offices shall be closed on these days except as otherwise provided herein:

January 1st (New Year's Day)

The third Monday in January (Martin Luther King's Birthday)

The third Monday in February (Washington's Birthday)

The last Monday in May (Memorial Day)

July 4th (Independence Day)

The first Monday in September (Labor Day)

November 11th (Veteran's Day)

The day in November appointed by the President of the United States as Thanksgiving Day

The day immediately following Thanksgiving Day

December 25th (Christmas)

Sixteen (16) hours (floating holiday) to be taken any time during the calendar year by employees who have completed at least six (6) months probationary service (pro-rated for part time permanent employees). The number of floating holiday hours to be credited to a new employee hired after January 1 shall be pro-rated based on the number of full months employed during that year. Employees unable to complete six (6) months of probationary service prior to December 31 shall not accrue or be eligible for any floating holidays that year. The employees and the employees' supervisors shall jointly determine a convenient date to take such leave.

- B. Fire Department Shift employees shall receive seven (7) full paid twenty-four (24) hour holiday shifts per year, in advance on January 1. Employees must use holiday time off in a ~~minimum of eight (8) hours of holiday with additional hours requested in one (1) hour full-shift increments up to twenty-four (24) hours.~~
- C. In lieu of holiday time off, Shift employees may elect to receive straight salary for all shifts of earned and unused holiday credit within each calendar year. All holiday time to be converted to pay by an employee shall be in ~~one-half~~ full shift increments. Effective February 25, 2012, holiday pay includes the base pay rate plus the hourly pay rate equivalent of longevity pay which is calculated on holiday hours at straight time (i.e., base pay rate plus applicable longevity pay rate multiplied by the number of applicable holiday hours to equal holiday pay). Holiday pay (base pay compensation and longevity pay compensation on holiday hours) will be reported to CalPERS as special compensation for employees hired before January 1, 2017.
- D. All holiday time off is subject to advance approval of the department head.
- E. Holiday hours which are not used by December 31 will be cashed out and paid at the employee's regular rate of pay.
- F. If an employee has taken more holidays in advance than have been earned at the time of separation from service, the City may deduct an equivalent amount of pay for the holidays taken in advance from the employee's final pay check.
- G. If an employee is on disability leave, jury leave, or military leave as provided in the Personnel Rules or this MOU, and the employee is thus unable to liquidate holiday hours, employees

will be allowed to carry over such hours to the next year until they return to work. Employees must submit a timely request upon their return to work so that the hours are liquidated within thirty (30) days of their return to work. If a request is not submitted or is submitted too late to be considered, the hours will be forfeited. If a request is submitted and denied by the department, the employee will be paid for the hours at the straight time rate.

H. SCHEDULING TIME OFF

1. The following policy and procedures shall continue to be followed by shift personnel when scheduling leave. Positions on the leave calendar are referred to as "slots." The first, second, third, fourth, fifth, sixth, and seventh slots on the leave calendar are reserved for vacation (VAC), holiday (HOL), and compensatory time off (CTO). All other forms of leave start at the eighth slot and work down (seventh, etc.) from there. If there is a vacancy, or open position (OPN) on the shift due to promotions, retirements, or separations from the department, that vacancy will not occupy a slot. The Battalion Chief must authorize exceptions for unusual, emergency, necessary, or infrequent circumstances.
2. Notwithstanding paragraph 1 above, the number of slots (positions) on the leave calendar will be determined by the following:
 - a. Number of shift personnel per day x 20% = total number of slots per day
 - b. Any resulting decimal portion will be adjusted to the next whole number
 - c. For example, 22 shift personnel per day x 20% = 4.4; will be adjusted to 5 slots per day.
3. Shift personnel will not have any available slots on the calendar for the following holidays (including vacation or holiday leave):
 - a. Thanksgiving Day
 - b. Christmas Eve (December 24)
 - c. Christmas Day (December 25)

Shift employees listed in Appendix "A" who are scheduled to work on holidays will have the opportunity to find a replacement worker for the three (3) "special days" (Thanksgiving, Christmas Eve, and Christmas). It is the responsibility of the scheduled worker to fill his/her absence on the "special days". The replacement worker will be allowed to voluntarily work for the scheduled employee on a rank-for-rank basis.

4. Employees who are scheduled to work will have the opportunity to find a replacement worker for short-term CTO, vacation or holiday leave defined as one continuous leave per employee per day with a minimum of two (2) hours and a maximum of seven and three quarters (7.75) hours. Such leave shall not disrupt training or other scheduled activities and shall be approved by the appropriate Company Officer. It is the responsibility of the scheduled worker to fill his/her absence on this type of short-term leave. The replacement worker will be allowed to voluntarily work for the scheduled employee on a rank for rank basis.

THESE ARE TENTATIVE TERMS SUBJECT TO THE APPROVAL OF THE CITY COUNCIL.

RESOLUTION NO. 24-430

APPROVING A SIDE LETTER TO THE MEMORANDUM OF UNDERSTANDING FOR
SWORN EMPLOYEES REPRESENTED BY THE ROSEVILLE POLICE OFFICERS'
ASSOCIATION, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON
BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a side letter to the Memorandum of Understanding for Sworn Employees Represented by the Roseville Police Officers' Association, related to shift differential and reported special compensation, has been reviewed by the City Council;

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said Side Letter Agreement to the Master Memorandum of Understanding is approved and that the City Manager is authorized to execute it on behalf of the City of Roseville; and administer, interpret, and apply its terms, intent, and spirit, and execute any other documents including modifying its terms as necessary to effectuate the purposes hereof as determined necessary by the City Manager, including, if, in the City Manager's discretion, its agreeable and necessary to do so based on compliance direction provided by CalPERS concerning the topics addressed therein.

PASSED AND ADOPTED by the City Council of the City of Roseville this _____ day of _____, 2024, by the following vote on roll call:

NOES COUNCIL MEMBER:

ABSENT COUNCIL MEMBER:

Mayor

ATTEST:

City Clerk

**SIDE LETTER AGREEMENT
BETWEEN THE
ROSEVILLE POLICE OFFICERS' ASSOCIATION
AND
THE CITY OF ROSEVILLE**

RELATED TO SHIFT DIFFERENTIAL AND REPORTED SPECIAL COMPENSATION

The City of Roseville (hereinafter referred to as "City") and the Roseville Police Officers' Association (hereinafter referred to as "RPOA") entered into a Memorandum of Understanding ("MOU") with a term beginning on February 12, 2022, and terminating on December 31, 2025. The City and RPOA are collectively referred to herein as the "Parties."

Background and Overview

Shift Differential

The Parties hereby agree to the terms of this Side Letter Agreement ("SLA"), entered into in October 2024, in response to an inquiry from RPOA related to Police Officers on the Swing and Graveyard shifts receiving less pay during the pay periods in which they took vacation or sick leave. The City practice for paying the Shift Differential has been to pay it on hours worked based on the specific language in the RPOA MOU Shift Differential provision. The parties agree to update the shift differential language to allow employees who are regularly assigned to either the swing or graveyard shift to receive the regular shift compensation when they take leave from that regularly assigned shift. The agreed upon updates in this side letter are effective the first full pay period in January 2025, when the system programming will be ready.

Holiday Buy-up Related Special Compensation

The City recently received information from CalPERS related to another employee group that put the City on notice that the current MOU language does not clearly state the longstanding pay practice of calculating the percentage based service term bonus compensation paid in the biweekly payroll on holiday buy up as Compensation Earnable pursuant to Government Code (GC) Section 20636 (Classic) or Pensionable Compensation pursuant to GC 7522.34 (PEPRA) and as Special Compensation as defined in the California Code of Regulation section 571 (Classic) and 571.1(PEPRA). Employees who are normally required to work on an approved holiday because they work in positions that require scheduled staffing without regard to holidays shall receive additional compensation, over and above the employees' hourly rate of pay. Since these shift employees are not able to take holidays off, in accordance with MOU Chapter 3, Leaves, Article I, Holidays, provision B, they may elect to receive straight salary for all shifts of earned and unused holiday credit within each calendar year. Based on the Service Term Bonus provision, for employees hired prior to January 1, 2016, the City has calculated and reported service term pay on holiday buy-up of earned and unused holiday credit as special compensation. Employees hired on or after January 1, 2016, are eligible for a lump sum service term bonus which is not reportable as special compensation per the CalPERS regulations. The intent of this Side Letter Agreement is to capture the City's practice and does not result in any additional or reduced compensation for employees, nor any change to the reported compensation to CalPERS. The Parties agree to capture this unequivocal past practice in the holiday provision that holiday pay includes the base pay rate plus applicable longevity pay rate multiplied by the holiday hours and the holiday pay reported to CalPERS as special compensation will continue to be included by CalPERS in the calculation of their eligible retirement earnings, unless and until CalPERS determines otherwise. The parties

acknowledge and agree by execution of this SLA, that notwithstanding their intent, the parties will abide by the direction or determination made by CalPERS, should that occur, on the calculation and reportability of compensation and hours relevant to the topics discussed herein. The SLA also incorporates herein by this reference the revisions to Article I and the content from the Holiday Leave Time Side Letter, executed on February 16, 2023.

Effective the first full pay period in January 2025, the parties agree to the following changes to the current RPOA MOU, Chapter 2, Article XVI, Graveyard Shift Differential:

ARTICLE XVI. GRAVEYARD SHIFT DIFFERENTIAL

The department employs a patrol shift schedule consisting of four work periods (dayshift, relief, swing shift, graveyard).

- a. Employees regularly assigned to work graveyard shift ~~(i.e. 5 or more contiguous hours)~~ shall receive a shift differential of 5% of base pay for all hours worked and all hours of leave used.
- b. Employees regularly assigned to work swing shift shall receive a shift differential of 2.5% of base pay for all hours worked and all hours of leave used., ~~and this excludes employees on the relief shift.~~
- c. Any other employee assigned to work a ~~the~~ full graveyard or full swing shift shall be eligible to receive the appropriate shift differential, but only for hours worked as a result of that shift.
- d. ~~This is not intended to be paid to employees who work partial hours in these shifts, however, leave time does not preclude shift pay.~~

And the parties also agree to the following redline changes to capture the current pay practice and reporting of special compensation in the current RPOA MOU, Chapter 3, Leaves, Article I, Holidays, which also incorporates the agreed upon revisions to this same Article I from the Holiday Leave Time Side Letter, executed on February 16, 2023:

ARTICLE I. HOLIDAYS

- A. Non-shift employees who are allowed to take holidays off shall receive holidays as provided below:
 1. The following holidays shall be observed by the City with respect to all employees, except shift employees. For purposes of this section, shift employees (otherwise known as "shift workers") are those employees who are not allowed to take holidays off as they fall.
 - a) January 1st (New Year's Day)
 - b) The third Monday in January (Martin Luther King's Birthday)
 - ~~b)c)~~ February 12th (Lincoln's Birthday)
 - ~~e)d)~~ The third Monday in February (Washington's Birthday)
 - ~~ed)~~ The last Monday in May (Memorial Day)
 - ~~fe)~~ July 4th (Independence Day)
 - ~~fg)~~ The first Monday in September (Labor Day)
 - h) November 11th (Veteran's Day)

- i) The day in November appointed by the President of the United States as Thanksgiving Day
- j) The day immediately following Thanksgiving Day
- k) December 24th (Christmas Eve)
- l) December 25th (Christmas)
- ~~l) Sixteen (16) hours floating holiday to be taken any time during the fiscal year by employees who have completed at least six (6) months probationary service (pro-rated for part-time regular employees). The number of floating holiday hours to be credited to a new employee hired after July 1st shall be pro-rated based on the number of full months employed during that year. Employees unable to complete six (6) months of probationary service prior to June 30th shall not accrue or be eligible for any floating holidays that year. The employees and the employees' supervisors shall jointly determine a convenient date.~~

2. If January 1st, February 12th, July 4th, November 11th, December 24th or December 25th falls on a Saturday, the preceding Friday shall be a holiday; if any such day falls on a Sunday, then the following Monday shall be a holiday. If a holiday occurs on the employee's first normal day off, the employee shall take the preceding day as the holiday; however, if the holiday occurs on the employee's second consecutive normal day off, the employee shall take the following day as the holiday. This policy shall be adhered to where practical and may be modified only by written consent to other conditions by the department head.

- B. Shift employees who are not allowed to take holidays off as they fall ~~(including detectives)~~ shall receive one hundred and ten (110) holiday hours to be credited in advance on January 1st of each year. For purposes of holidays, shift employees are those working 11 hours shifts, 10 hour shifts and 9/80 shifts. Employees may submit a request at any time after ~~January 1st~~ June 30th for a one-time lump sum in full shift increments of up to fifty-five (55) hours' holiday pay. ~~prior to taking~~ Any time off taken is at straight salary. ~~At any time after July 1, employees may submit a request for a one-time lump sum of up to fifty five (55) hours holiday pay prior to taking time off at straight salary.~~ All accrued and unused holiday hours up to 110 hours will be paid off at the end of the calendar year (December 31st). 110 holiday hours are represented as follows:

1. 3/11-4/11 hour shift – eleven (11) hours for ten (10) designated City holidays above.
2. 4/10 hour shift schedule – ten (10) hours for eleven (11) designated City holidays above.
3. 9/80 shift schedule (may be assigned to 4/10 or 3/11-4/11 shift in the summer) – nine (9) hours for each of the twelve (12) designated City holidays above, plus two (2) floating holiday hours. Any unused floating holiday leave hours will be cashed out as nonpersable.

For Shift employees hired prior to January 1, 2016, and not allowed to take holidays off as they fall, holiday pay includes the base pay rate plus the hourly pay rate equivalent of service term bonus pay which is calculated on holiday hours at straight time (i.e., base pay rate plus applicable service term bonus pay rate multiplied by the number of applicable holiday hours to equal holiday pay). Holiday pay (base pay compensation and service term bonus compensation on holiday hours) will be reported to CalPERS as special compensation for employees hired before January 1, 2016.

1. All holiday time off is subject to advance approval of the first level management supervisor and department head. Employees must request holiday time off at least seven (7) workdays prior to the requested holiday and in full shift increments.
2. Upon separation from service, if an employee has taken more holidays in advance than have been earned during the fiscal year, the City shall deduct an equivalent amount of pay for the holidays taken or paid in advance from the employee's final paycheck, or such amount shall otherwise be owed to the City by the employee.

Upon separation from service, if an employee has an accrued holiday leave balance, said employee shall be paid for all earned hours at their final rate of pay.

For purposes of holiday accrual under Section B.1 and B.2, holiday hours will be calculated based on the number of calendar days the employee worked in a calendar year.

~~C. The determination of whether an employee is categorized as able to take holidays (non-shift employees) or scheduled to work holidays (shift employees) for the purpose of holidays shall be based upon the employee's assignment as of January 1st of each year.~~

The specific provisions contained in this SLA are intended to supersede any previous agreements, whether oral or written, regarding the matters contained in this SLA.

The Parties have satisfied their obligations to meet and confer in good faith in accordance with the Meyers-Milias-Brown Act ("MMBA").

Except as provided here, all wages, hours, and other terms and conditions of employment presently in the City's MOU and SLAs with the RPOA remain in full force and effect.

THESE ARE TENTATIVE TERMS SUBJECT TO APPROVAL OF THE CITY COUNCIL.

CITY OF ROSEVILLE

ORDINANCE NO. 6901

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING
ORDINANCE NO. 6854, THE SALARY ORDINANCE FOR SEASONAL/TEMPORARY
EMPLOYEES, AS AMENDED BY APPENDIX “W” TO BE EFFECTIVE
DECEMBER 28, 2024, AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance No. 6854, the Salary Ordinance for Seasonal/Temporary Employees, is hereby amended as shown on Appendix “W” attached hereto to reflect a minimum wage increase for forty-three (43) classifications identified by Human Resources, as well as the addition and deletion of the classifications listed below.

ADDITION OF CLASSIFICATION

<u>Classification No.</u>	<u>Position Title</u>	<u>Hourly Rate</u>
1157	Refuse Maintenance Assistant	\$28.70
1158	Adult/Senior Services Driver	\$22.50
1159	Event Specialist	\$21.50

DELETION OF CLASSIFICATION

<u>Classification No.</u>	<u>Position Title</u>	<u>Hourly Rate</u>
1014	Event Specialist	\$19.00
1015	Event Specialist II	\$20.00
1016	Event Specialist III	\$21.00

SECTION 2. Salary Plan Effective Date.

This Ordinance shall be effective December 28, 2024, as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect December 28, 2024. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

Description

Ordinance 6906

ORDINANCE NO. 6906

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS

4.54.010, 4.54.020, 4.54.040 AND 4.54.050 OF THE ROSEVILLE MUNICIPAL CODE

REGARDING

ELECTRIC BACKBONE MITIGATION FEE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The sections of the Roseville Municipal Code listed above are hereby amended to read as shown on Attachment “A”.

SECTION 2. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 3. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

Title 4. Revenue and Finance

Chapter 4.54. ELECTRIC BACKBONE MITIGATION FEE

§ 4.54.010. Purpose.

The city council finds and declares that the purpose of this chapter is as follows:

- A. The general plan of the city requires that the city be provided, in a time frame related to its development, with an adequate level of electric system subtransmission infrastructure so as to maintain an efficient, reliable and safe distribution system.
- B. New development, and the expansion of existing development, within the city imposes a burden on the existing electric system subtransmission infrastructure, including without limitation the need for upgraded or additional 60kV substations and subtransmission lines, by adding additional electric load. Such burden may vary by the type of development.
- C. Analysis of the electric load currently created by the various types of development within the city and of the land use expected at build out of the city pursuant to the general plan makes it possible to estimate the amount of electric load generated by different types of development and to determine the electric system subtransmission infrastructure or facilities necessary to support those loads. It is therefore possible to construct a fee, based on anticipated electric load, which equitably spreads the burden of electric system subtransmission infrastructure or facilities to those who will create the need for them and utilize them. It is the intent of this chapter to create such a fee, spreading costs of electric system subtransmission infrastructure to those who create the need for such subtransmission infrastructure, without burdening rate-payers or generating any surplus to either the general or electric funds. It is the further purpose of this chapter to implement the general plan by assuring that adequate public facilities are financed and provided to serve the city.
- D. The fee established by this chapter has been calculated in the manner set forth in the EES Consulting Electric Backbone Mitigation Fee Analysis ("Fee Analysis")) so as to pay for those facilities listed in the capital improvement program.
- E. The fee established by this chapter is in addition to any other fees or charges required by law as, a condition of development or electric service, including without limitation by reason of enumeration, required payments in aid of construction for the cost of distribution facilities for or within a specific development, service connection fees or direct installation fees, or periodic payments for service pursuant to rates established in Chapter 14.24.
- F. The fee established by this chapter is to be collected for public improvements and facilities, and for which a proposed construction schedule has been adopted.
- G. That the failure to impose the conditions and regulations of this chapter relating to payment of the fee on building permits would jeopardize residents of the community in that it would permit construction to proceed without adequate infrastructure or means of financing said infrastructure.
- H. The requirement of this chapter to pay the fee is necessary to assure compliance with the applicable Zoning Ordinance and general plan requirements for the infrastructure funded by this chapter.
- I. That for a period of greater than 10 days prior to adoption of this chapter, data has been available to the public and to developers and their representatives indicating the cost or estimated cost of the entire infrastructure to be funded.

J. That the city council has considered the effect of the fee imposed by this chapter with respect to the housing needs of the city as a whole and of the region, particularly as required by the housing element of the general plan, and the city council finds that this chapter does not unduly adversely affect the city's ability to provide for such needs.

K. That the establishment of the fee is for the purpose of obtaining funds for capital projects, necessary to maintain service required by the general plan within existing service areas and existing portions of the city which are developed or for which land use has already been granted.

Title 4. Revenue and Finance

Chapter 4.54. ELECTRIC BACKBONE MITIGATION FEE

§ 4.54.020. Definitions.

The following words are defined for purposes of this chapter as follows:

"Building permit" means the permit issued or required by the city for the construction of any structure pursuant to and as defined by the building code.

"Capital improvement program" means that list of proposed electric system facilities, improvements, or infrastructure totaling \$37,607,000 referenced in the 2024 EES Fee Analysis.

"Department" means the electric utility department.

"Director" means the director of the department.

"Facilities" mean those electric system facilities or infrastructure shown and included on the capital improvement program.

"Fee" or "electric backbone mitigation fee" or "backbone fee" means the fee established by this Chapter **4.54**. The fee shall be collected prior to the approval of any building permit. The fee shall be used solely to finance the facilities. The fee as codified in this chapter has previously been imposed for the same purposes, pursuant to motion of the city council.

"Improvement plan" means a site plan of property proposed for development showing all required improvements that must be approved by the city prior to the issuance of a building permit for the property.

"Analysis" or "fee analysis" means the 2024 EES Fee Analysis. The Analysis is on file in the office of the city clerk.

Title 4. Revenue and Finance

Chapter 4.54. ELECTRIC BACKBONE MITIGATION FEE

§4.54.040. Payment of electric backbone mitigation fee.

Except as otherwise provided by this chapter, the fee imposed pursuant to this chapter shall be paid at the time of permit and prior to a request for any electrical inspection. Calculation of the fee shall be determined on a per unit basis in accordance with the billing units defined in the Fee Analysis and Section 4.54.050 of this chapter, the number of single-family units, multifamily units, and general service customers (all other commercial/office/industrial types of development) service panel rating of the development. Descriptions of land use categories and type of development in this chapter, except as otherwise noted, are utilized in the same manner as in the city general plan.

Title 4. Revenue and Finance

Chapter 4.54. ELECTRIC BACKBONE MITIGATION FEE

§ 4.54.050. Electric backbone mitigation fee.

The electric backbone mitigation fee shall be:

Type of Development	Amount of Fee
Apartments, condominiums, townhouses and mobile homes	\$429.35 per dwelling unit Other
residential units including single-family homes	\$592.20 per dwelling unit General
service (all other commercial/office/industrial)	\$98.70 per kVA

Title: Appointment of Youth Board Member and Youth Commissioners

Contact: Katrina Six 916-774-5267 kmsix@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.37.

RECOMMENDATION TO COUNCIL

Appoint Daniel Zeman as the Grants Advisory Commission Youth Commissioner to a term ending December 31, 2025.

Appoint Bianca Unidad as the Library Board Youth Member to a term ending December 31, 2025.

Appoint Olive Bailey as the Parks and Recreation Commission Youth Commissioner to a term ending December 31, 2025.

Appoint Tannishtha Mondal as the Transportation Commission Youth Commissioner to a term ending December 31, 2025.

BACKGROUND

The Municipal Code allows for the opportunity for high school students to serve a one-year term on the Grants Advisory Commission, Library Board, Parks and Recreation Commission, and Transportation Commission. The terms of Youth Commissioners are one year and expire every year on December 31.

Recruitment of Youth Commissioners was conducted by the City Clerk's Department in October. The opportunity to serve as a Youth Commissioner was advertised on the City website and with the Press Tribune. Counselors and administrators at the City's high schools were also notified of the City's recruitment efforts.

Review of the applications and interviews of the applicants were completed by the Boards and Commissions in November. Staff is now requesting City Council approve the recommended appointments.

FISCAL IMPACT

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The appointment of members to boards or commissions does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal B - Support community engagement and advocacy

Title: FY2023/24 Grants Advisory Commission Year End Summary Report

Contact: Tobi Thomas 916-746-1368 tthomas@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.38.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council accept, for informational purposes, the Citizens Benefit Fund (CBF), American Rescue Plan Act (ARPA) and Roseville Employees Annual Charitable Hearts (REACH) year-end summary report highlighting non-profit accomplishments for the grant funding cycle of FY2023-24.

BACKGROUND

The Grants Advisory Commission is sharing the annual year-end summary report that highlights the accomplishments of 27 non-profit organizations that received Citizens Benefit Fund (CBF) \$244,640; American Rescue Plan Act (ARPA) \$350,000; and Roseville Employee Annual Charitable Hearts (REACH) \$10,126 funding totaling \$604,766 for the FY2023-24 grant cycle for use between July 2023 and June 2024. The attached report provides a summary of each organization's goals and accomplishments. The report has been posted on the City's website to allow for transparency of our grant program, greater visibility of accomplishments, and to celebrate the non-profit successes.

FISCAL IMPACT

The annual Grants Advisory Commission summary report has no fiscal impact on the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. This informational report does not constitute a project and therefore, has no potential for a significant environmental effect, and is not subject to CEQA.

awarded grant funds from
July 2023 to June 2024.

ORGANIZATION	GRANT FUNDS USED	ACCOMPLISHMENTS AND SUCCESS MEASURES
 A Touch of Understanding®, Inc.	\$25,000	Accomplishments: Served 9,150 second through twelfth-grade students, throughout eight counties with our in-school disability awareness workshop. Approximately 15% of the students (1333 total) were Roseville residents. Workshop was presented at 15 schools in Roseville. A Touch Of Understanding staff and volunteers nearly reached pre-pandemic numbers of schools and students in part to the funding from this grant. Success Measures: After a workshop students, parents, and teachers are given a survey. Part of the survey includes open-ended questions that can be filled out and many of the comments speak to the impact of the program.
 assistance league® Greater Placer	\$25,000	Accomplishments: The Roseville Kids Shop Head to Toe program held four separate fall shopping events with 492 Roseville students. A spring shopping event was also added to accommodate students in need who did not shop in the fall. Additionally, eight Roseville schools with clothes closets were provided with essential clothing for emergency needs. The shoe program, "Feet Treat", which comprised a portion of Roseville Kids Shop Head to Toe program, provided shoes to another 168 school children from Title 1 schools in the City of Roseville. Success Measures: Success of this program was measured by the number of students served and the amount of funds expended directly on children in need of assistance. Also, through post-shopping surveys completed by parents and teachers.
	\$25,000	Accomplishments: The mural project achieved several key accomplishments, contributing to the cultural, economic, and social vibrancy of downtown Roseville. Such accomplishments were: creation of a landmark public artwork, community engagement and involvement, economic and cultural revitalization, successful management and execution, and lasting impact on the community. Success Measures: Success was measured through several methods, combining quantitative and qualitative tools to assess the impact and community engagement: community surveys, social media analytics, foot traffic data, artist, and stakeholder feedback. The project's success has set a strong foundation for continued demand for artistic and cultural endeavors within the community.

ORGANIZATION	GRANT FUNDS USED	ACCOMPLISHMENTS AND SUCCESS MEASURES
	\$50,600	Accomplishments: Provided Court Appointed Special Advocates (CASAs) to 135 Roseville foster children, Family Mentors to 29 Roseville parents who had a total of 79 children, and served 16 parents through the Parent Empowerment Group which serves parents who have just had their children detained by Child Welfare System. Of the 135 Roseville foster children served, 69 of the cases were closed. Of these 69 closed cases, 41 had reunification with their parents, 12 through adoption and 3 through guardianship. 19 Family Mentor cases were closed with 15 of these cases closed due to parents successfully parenting their children in stable and secure housing. Success Measures: Monthly reports submitted by volunteers. Information is entered into databases. We consider a foster child case successful when the child is placed in a safe, permanent home and the case is closed. Ideally, the placement is reunification - our top priority - followed by adoption, and lastly (and least desirably) through guardianship. In the Family Mentor program, we consider the case a success when it closes due to the parents attaining financial and emotional stability. When a Family Mentor case closes, we offer our Prosper Placer program as a next step.
	\$9,000	Accomplishments: The Alliance is a force multiplier, doing collective drives or searching for needs using a central database, which has made it more efficient and effective to meet the needs of thousands of vulnerable children, teens, and families in the Roseville area and beyond. Funding was applied to the customized online area needs database that helped run 3 community-wide donation drives and also helped cover the costs of onsite distribution center and off-site emergency supply closet. The donation drives collected 17,138 essential items like beds, diapers, car seats, school supplies, and household items that met the needs of 3,720 kids and families in 2023. This included furnishing 21 bedrooms/apartments for refugee/at-risk families or aging out foster youth, sending 571 kids back to school with brand new backpacks filled with supplies, providing 3,048 Christmas gifts to children in need and distributing over \$58,000 in gift cards and service vouchers. Success Measures: Success is measured by reports that run through the online needs database platform as well as careful donation/distribution tracking by Love in Action team members.
	\$10,000	Accomplishments: Roseville Reads was a “one book” community project at Roseville Public Library. This program deepens the appreciation of literature through reading, discussion, activities, and events related to “A Psalm for the Wild Built” by Becky Chambers, which was the chosen book. The funding helped to print copies of the book and marketing and program supplies. Success Measures: Success was measured by collecting data on program attendance at all of the events, keeping circulation statistics of our print books, eBooks and eAudio collections, and by collection program surveys at the end of each program to gauge participant satisfaction. 180 participants attended 14 programs in April and May 2024, and the book circulated 555 times during that same time period.
 Down Syndrome Achievement Centers educate. inspire. believe. Sacramento, CA	\$33,648	Accomplishments: Provided 195 hours of speech therapy to 15 participants, with two participants being from Roseville for the Fall 2023 Speech and Language program. Participants were able to demonstrate measurable improvement in the following areas: 1) Increase clarity of speech and; 2) Improve word order and message meaning through focused exercises; 3) Increase self-confidence through positive reinforcement and various forms of appropriate supportive methods, including: verbal, visual and tactile; and 4) Increase comprehension through the use of various visual models and tasks targeting functional level-appropriate speech targets. Success Measures: Project performance is measured by metrics created by a national committee of experts in program evaluation and education for people with Down syndrome. Instructors complete weekly progress trackers. Caregivers and participants are given pre- and post- surveys to assess progress. All participants’ families receive consultation and take-home materials on how to implement speech and language goals at home. The program is considered a success not only based on measured outcomes but mostly from parent report on increased self-confidence, increased communication attempts and improved communication success in a variety of contexts (home, school, restaurants, stores, etc.).

ORGANIZATION	GRANT FUNDS USED	ACCOMPLISHMENTS AND SUCCESS MEASURES
	\$24,000	Accomplishments: Provided 118 session hours to 18 Roseville residents ranging in ages from 8-65 years old. The program worked towards healing trauma, relational issues, grief, anxiety, boundaries, anger, sexual assault, marriage struggles for first responders and self-care. Success Measures: Each participant completes an intake questionnaire and when the program concludes, they complete the same questionnaire. The program was considered successful as the 8-week session for Equine-Assisted Psychotherapy (EAP) and Learning (EAL) Programs is considerably shorter than months and years of talk therapy to get to comparable results.
	\$2,500	Accomplishments: Provided program supplies, incentives, and healthy snacks to the after-school program at Brookside Crossing. Also provided age-appropriate books for the eight-week summer reading program, which helped to create a reading corner that fostered an environment conducive to promoting literacy. The funding also enabled us to provide youth with new backpacks filled with school supplies, preparing them for a successful school year. Success Measures: Metrics are tracked through a proprietary database which monitors the impact and growth of the participants in the after-school programs. For the summer reading program, participants are assessed using the San Diego Quick Assessment Tool at the beginning and end of summer to measure their reading levels and progress.
	\$75,000	Accomplishments: 762 individuals (254 families) living in Roseville receive counseling services (emphasis on serving children with Adverse Childhood Experiences), educational classes, and other necessary resource support services. More than half of the people served were under the age of 18. Success Measures: Tracked programmatic outcomes utilizing evidence-based pre/post measurement tools. 99% of the families we served by this grant in Roseville reported significant positive results.
 Placer County Law Enforcement Chaplaincy	\$45,000	Accomplishments: 4,540 law enforcement officers were served in both emergency and community (non-emergency) events. Of those 1,361 were in emergency events of which 424 were Roseville PD (31%). 9,324 citizens were served in all community and emergency events. 2,062 of those were in emergency call outs with 317 of the emergency call outs being Roseville citizens (15%). Success Measures: The majority of our accomplishments are the immeasurable impact we have in the lives of officers, their families, and the citizens we assist in a time of critical need. A database is used to track the number and types of calls.
	\$45,618	Accomplishments: Purchased fleet equipment that serves the neighbors of Roseville, the equipment allowed for a liftgate to be added on a truck which delivers food to our distribution sites and partner agency distribution sites. Roseville distribution sites account for 40,000 Roseville residents, which is an estimated 44% of all served in Placer Food Bank's three-county service areas. Success Measures: Number of individuals served, meals, distributions, weight of food and produce distributed, client stories, and other relevant program data is collected and analyzed on a monthly basis to monitor trends, respond to program needs and ensure the project's success.

ORGANIZATION	GRANT FUNDS USED	ACCOMPLISHMENTS AND SUCCESS MEASURES
 Placer Independent Resource Services	\$2,500	Accomplishments: Served six people with disabilities, with two being residents of Roseville. Provided a variety of assistive technology devices that enable each of them to be more independent and able to live at home rather than in a nursing facility, maintain relationships with family and friends, averting depression and isolation, reduce their dependence on caregivers and be more independent. Success Measures: Track the number of individuals served as well as survey them to see whether the devices provided are meeting their needs and helping them to be more independent.
	\$20,000	Accomplishments: 3-day event brought together 430 individuals, including 105 Roseville residents, which 61% were veterans. Services provided were dental work, medical exams, eye exams and eye glass fittings. Veterinarian care for over 27 companion animals was also provided. Approximately 1,200 meals were served, 100+ hot showers were taken, and 62 haircuts were given over three days. Success Measures: Demographics gathered at pre and onsite registration, numbers and demographics gathered at meal services, overnight stays, and by the California Care Force and anecdotal reports from the veterans.
	\$7,336	Accomplishments: Installed portions of sidewalk to connect the pedestrians in the community to the existing sidewalks which were installed 83 years ago by President Roosevelt's Work Progress America. Success Measures: Sidewalk completion.
	\$19,107	Accomplishments: Maintaining a safe place for kids to learn, play, create, eat, and socialize while at Roseville Community School. Success Measures: The success of the deck has been measured by the fact that all of our students, staff and community members can enjoy the tables and shaded area without worrying about hazards such as rotted boards, protruding nails, or uneven surfaces.
	\$25,000	Accomplishments: Program was considered successful as we served on average 33 low to very low-income families each day, providing them with a lunch, a snack and often the leftover lunch items (i.e. fruit, carrot snacks, etc.). The participants had an opportunity to gain new friendships with kids from other schools and other neighborhoods that they may not have otherwise been able to meet. We provided cooking classes each week, which taught the kids healthy eating and how to make healthy snacks on their own. Sami's Circuit also provided a day of fun exercise and games with music and lights to have a feel of a dance party, without making the kids feel like they were exercising. Success Measures: Surveyed the children at the end of the six-week summer camp.

ORGANIZATION	GRANT FUNDS USED	ACCOMPLISHMENTS AND SUCCESS MEASURES
	\$30,000	Accomplishments: Served 835 Placer County seniors ages 60 years of age or better. 138,108 meals served with 50% being Roseville residents which totals 49,413 meals. Success Measures: Number of individuals and meals served, client stories and other relevant data is collected and analyzed monthly to monitor trends, respond to program needs and ensure project success. Seniors First also administers client surveys to collect feedback on program impact and client satisfaction.
	\$24,800	Accomplishments: 1,284 unduplicated Sierra College students benefited from access to healthy food during the 2023-2024 school year through the Sierra College Basic Needs Center. Of that number, 118 were Roseville residents. Success Measures: Students verified by Financial Aid department and/or the Basic Needs Center. Reports are run at the end of the semester to determine the number of awards made and if any funds remained in the grant.
	\$2,968	Accomplishments: Five wishes were granted that helped seniors overcome a struggle they were facing that limited their mobility due to physical or financial needs. Two recipients received the wish of power lift chairs which gave them both the ability to get up and out of their chairs independently. One recipient received new tires for her car and is now driving her car legally. One received a mobility scooter. The last wish recipient had not been able to leave town for the last 10 years because of 3 major surgeries, health, and financial issues. She was given a chance to forget about doctor appointments and go enjoy a chance for respite, hope and joy with old friends. Success Measures: Feedback from the wish recipients by survey and cards received thanking the organization of their support.
	\$30,000	Accomplishments: Accommodated 13,245 household visits to the Food Distribution drive through program and provided the ingredients to prepare 381,985 meals. The food locker experienced a 32% increase in the number of clients using our program. The food distribution program experienced an increase in the number of new clients to the program of 27% during the fiscal year. 78% of the clients receiving services live in the City of Roseville. Success Measures: Annual survey regarding food security and month-to-month comparison of visitors and new clients to the food distribution program from the previous fiscal year.
	\$10,000	Accomplishments: Offered and provided former foster youth or girls, who are between the ages of 18–24-year-old and who are at risk of being homeless any type of therapy they could be interested in. It could be talk therapy, art therapy, EMDR, pet therapy, equine specific therapy, and holistic therapy. Success Measures: A system to track individual progress in areas such as educational attainment, employment, health and banking and savings.

ORGANIZATION	GRANT FUNDS USED	ACCOMPLISHMENTS AND SUCCESS MEASURES
 The Petal Connection	\$10,000	Accomplishments: TPC moved into a larger workspace, experienced a 20% increase in operations due to an additional 40 volunteers. This growth directly correlates with the expansion of our mission to spread joy and kindness. Additionally, the expansion of the “Grow a Row” program has significantly boosted our floral production. Success Measures: Success is measured by tracking all the floral gifts donated to hospice patients and seniors. While HIPAA laws prevent us from having an exact count of hospice patients served in Roseville, we estimate that over 4,800 of our floral recipients reside in the Roseville area. This represents approximately 30% of our total deliveries for the year, demonstrating our significant impact within the Roseville community.
 United Cerebral Palsy Association	\$4,900	Accomplishments: The Cinemark Movie Complex at the Roseville Galleria held its first private sensory screening of the movie “Despicable Me” to families and community members. Nearly 20 children, adults and families gathered at theater to be entertained with sound and lighting modifications so movie could be enjoyed by all. Also provided adaptive swim lessons to five families. Success Measures: Success was measured based on qualitative feedback from parents, quantitative survey responses from families, and demand for additional events in the future.
 Wayfinder FAMILY SERVICES	\$10,000	Accomplishments: Aided 10 Roseville kinship families to meet their emergency needs. Provided essential program services to 31 Roseville kinship families (92 children and caregivers), including support groups, respite resources, advocacy, information and referrals, workshops on guardianship, adoption assistance, family activities, play care and mentoring. The program also had a successful toy drive for the holidays, which provided toys to 38 families, which included 73 children. In addition, six families were sponsored by local organizations and received gifts directly. Success Measures: Wayfinder evaluates the impact and successes of the programs using Performance and Quality Improvement process. In PQI, Wayfinder uses results-based accountability, which focuses on outcomes that improve the well-being of clients and communities, rather than delivery of services. Reports are done quarterly and annually.
 wellness within CANCER SUPPORT SERVICES	\$25,389	Accomplishments: Roseville residents accounted for 656 attendees (41% of total attendees) across 408 facilitator-led programs offered. Ultimately, we want to improve lives; to empower people to reclaim quality and joy when they find their lives suddenly upended by a cancer diagnosis – either their own or that of a loved one. To do this, we respect the individual. We must offer a variety of programs and services – hence the reason why we offer so many programs. Success Measures: Pre/post program surveys as well as the continued growth of individuals continuing to show up, demonstrating the need for services.
 YOUTH FOR SACRAMENTO CHRIST®	\$12,400	Accomplishments: Constructed a beautiful fire pit at the Campus Life Barn, a youth center that provides social, recreational, and educational opportunities for Roseville youth. The fire pit has helped enhance the Barn’s welcoming atmosphere, encouraging even more youth to participate in its many benefits. Of the 50 Roseville students we currently serve through the Campus Life Barn, most struggle to some degree with various barriers to safety and success, including poor academic performance, low school attendance, drug use, suicidal tendencies, anxiety, and depression, and they don’t feel a sense of school connection. The fire pit and youth center, provide Roseville students with designated space to help give them a sense of community, belonging, and purpose. Success Measures: Students are surveyed before and after engagement with the Campus Life Barn and its programs.

Title: Local Agency Special Tax Bond Accountability Act Reports

Contact: Jeannine Thrash 916-774-5473 jthrash@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.39.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council accept the following informational reports prepared for the 2023-24 levy year to be filed with the City Clerk. No other action is required.

BACKGROUND

Senate Bill 165 (SB 165) enacted the Local Agency Special Tax and Bond Accountability Act (the "Act"). The Act requires that any local special tax/local bond measure subject to voter approval contain a statement indicating the specific purposes of the special tax, that the proceeds of the special tax be applied to those purposes, the creation of an account into which the proceeds shall be deposited, and an annual report containing specified information concerning the use of the proceeds. The Act only applies to bonds issued on or after January 1, 2001, in accordance with Sections 50075.1 and 53410 of the California Government Code. The filing of the attached SB 165 reports for FY2023-24 fulfills the requirements of Government Code Sections 50075.3 and 53411.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Local Agency Special Tax and Bond Accountability Act Reports meet the above criteria and are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Respectfully Submitted,

Jeannine Thrash, Management Analyst

Dennis Kauffman, Assistant City Manager/Chief Financial Officer

Dominick Casey, City Manager

Senate Bill 165 Annual Report
Fiscal Year 2023/24***

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Baseline at Sierra Vista CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$410,669
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$338,781

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On November 18, 2020, the City formed the District through the adoption of Resolution No. 20-452. The District is located in the southwestern part of the City and lies within the Sierra Vista Specific Plan. The District is planned primarily for single-family residential uses.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include transportation improvements, backbone drainage, water, sanitary sewer, utilities and solid waste improvements, development impact fees, open space and parks improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Imp. Area 1 Series 2021 Project Fund
Bond Proceeds Deposited	\$6,410,000
Prior Net Increase/(Decrease)	<u>(6,239,236)</u>
Project Fund Balance, June 30, 2023	\$170,764
FY 2023/24 Net Increase/(Decrease)	<u>(137,938)</u>

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District, annexation of an Improvement Area or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the Improvement Area during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation of the above entitled district (the “District”) and Improvement Area No. 1 (the “Improvement Area”) and the respective fiscal agent agreement(s) or bond indenture(s) of each series of bonds issued by the Improvement Area (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more Improvement Area fund and/or account. For reporting purposes under the Act, the annual

collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the Improvement Area’s Operating Fund for the 12 months ended June 30, 2024 (“Fiscal Year 2023/24”) are reported in the table below.

Description	Creekview CFD 1 Impr Area 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$1,324,383
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$1,209,617

C. THE PROJECT

The City formed the District and established the Improvement Area pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the “Project Fund”) and such funds are to be deposited into the Project Fund upon close of each series. The District and Improvement Area formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District, the Improvement Area and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT, IMPROVEMENT AREA AND AUTHORIZED FACILITIES

On November 6, 2019, the City formed the District and Improvement Area through the adoption of Resolution No. 19-456. The District is located in the Creekview Specific Plan in the northwest portion of the City. The District is planned primarily for single-family residential uses.

The District and Improvement Area were authorized to finance certain improvements and costs related to planned development within the Improvement Area (the “Facilities” or “Project”). The types of facilities authorized to be financed include transportation improvements, backbone drainage, water and sanitary sewer improvements, open space and park improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

The District and Improvement Area formation documents authorized the financing of the Project related to planned development therein. The qualified electors within the Improvement Area approved the levy of the annual special taxes in accordance with its Rate and Method of Apportionment of Special Tax. The City issued one or

more series of Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The Improvement Area's Special Tax is levied annually to pay the annual debt service due on the Bonds, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the proceeds of each Bond is also provided.

Description	Imp. Area 1 Series 2020 Project Fund	Imp. Area 1 Series 2021 Project Fund
Bond Proceeds Deposited	\$10,317,173	\$12,114,470

Total Operating Fund Expenditures	\$452,058

C. THE PROJECT

The City formed the District and established the Improvement Area pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the “Project Fund”) and such funds are to be deposited into the Project Fund upon close of each series. The District/Improvement Area formation/annexation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District, the Improvement Area and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT, IMPROVEMENT AREA AND AUTHORIZED FACILITIES

On November 6, 2019, the City formed the District through the adoption of Resolution No. 19-456. In July of 2022, the City annexed territory to the District which was designated as “Improvement Area No. 2”. The Improvement Area is located in the Creekview Specific Plan in the northwest portion of the City and is planned primarily for single-family residential uses.

The Improvement Area was authorized to finance certain improvements and costs related to planned development within the Improvement Area (the “Facilities” or “Project”). The types of facilities authorized to be financed include transportation improvements, backbone drainage, water and sanitary sewer improvements, open space and park improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

The District/Improvement Area formation/annexation documents authorized the financing of the Project related to planned development therein. The qualified electors within the Improvement Area approved the levy of the annual special taxes

in accordance with its Rate and Method of Apportionment of Special Tax. The City issued one or more series of Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The Improvement Area's Special Tax is levied annually to pay the annual debt service due on the Bonds, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the proceeds of each Bond is also provided.

Description	Imp. Area 2 Series 2023 Project Fund
Bond Proceeds Deposited	\$12,317,483
Prior Net Increase/(Decrease)	N/A
Project Fund Balance, June 30, 2023	N/A
FY 2023/24 Net Increase/(Decrease)	(12,284,672)
Project Fund Balance, June 30, 2024	\$32,811
Status of Project	Project is Ongoing

City of Roseville Crocker Ranch Community Facilities District No. 1 Senate Bill 165 Annual Report Fiscal Year 2023/24

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Crocker Ranch CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$1,458,415
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$1,462,776

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On February 6, 2002, the City formed the District through the adoption of Resolution No. 02-53. The District is located in the northwestern area of the City within a portion of the North Roseville Specific Plan area. The area is generally bounded by the Highway 65 Bypass to the east, Blue Oaks Boulevard to the south, Fiddymont Road to the west, and the Placer County/Roseville City Limit on the north. The District is planned primarily for single-family residential uses.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include transportation improvements, water and wastewater system improvements, drainage improvements, City capital improvements and incidental expenses related thereto of benefit to the District.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2002 Project Fund	Series 2003 Project Fund
Bond Proceeds Deposited	\$3,801,148	\$13,630,382
Prior Net Increase/(Decrease)	<u>(3,801,148)</u>	<u>(13,629,225)</u>

City of Roseville Diamond Creek Community Facilities District No. 1 Senate Bill 165 Annual Report Fiscal Year 2023/24

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Diamond Creek CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$437,471
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$428,601

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On April 4, 2007, the City formed the District by the adoption of Resolution No. 07-155. The District lies within the City's North Roseville Specific Plan area and identified as Specific Plan Parcel DC-31. The District is bounded by Diamond Creek Boulevard to the west, Blue Oaks Boulevard to the south and Parkside Way to the north. Upon formation, the District, consisted of 19.1 acres which had been approved for residential and non-residential uses.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway improvements, drainage, water and sanitary sewer improvements and park improvements related thereto of benefit to the District.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2007 Project Fund	Series 2019 Project Fund
Bond Proceeds Deposited	\$5,622,000	\$300,000

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On September 15, 2004, the City formed the District by the adoption of Resolution No. 04-431. The District is located in the northwestern area of the City within a portion of the West Roseville Specific Plan area. This area is generally west of Fiddymment Road and bounded by Phillip Road on the south. The Placer County/Roseville City Limit line is the northern boundary. A substantial portion of the District has been developed.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway, sewer, water, drainage, parks and open space improvements. The backbone infrastructure needed for development in the District has been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On August 18, 1999, the City formed the District by the adoption of Resolution No. 99-350. The District is generally bounded by the Blue Oaks Boulevard/Highway 65 interchange on the west, Stanford Ranch Road and the City limits on the east, the State Highway 65 bypass on the south and the city of Rocklin on the north.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, backbone drainage, water and sanitary sewer improvements, a school site and park improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$1,377,243

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On September 22, 2015, the City formed the District by the adoption of Resolution No. 15-443. The District is located in the City's North Industrial Planning Area along the City's northern boundary. The site is located in a primarily residential area, bound by Blue Oaks Boulevard to the north, the Hewlett Packard Campus to the east, Woodcreek Golf Club to the south, and Woodcreek Oaks Boulevard to the west.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, backbone drainage, water and sanitary sewer improvements, including sewer and water treatment facilities and park and open space improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Longmeadow Parkside CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$579,832
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$615,528

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On October 19, 2005, the City formed the District by the adoption of Resolution No. 05-538. The District consists of two non-contiguous single-family residential subdivisions identified as Longmeadow at Crocker Ranch ("Longmeadow") and Parkside Estates ("Parkside"). Longmeadow is situated along the north line of Blue Oaks Boulevard, east of Woodcreek Oaks Boulevard. Parkside Estates is located at the southeast quadrant of Junction Boulevard and Porter Drive, approximately 3 miles from the Longmeadow area. Both properties are located in the western portion of the City.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, drainage, water and sanitary sewer improvements and park improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2005 Project Fund	Series 2023 Project Fund

Status of Project	Project is Ongoing	

City of Roseville North Roseville Community Facilities District No. 1 Senate Bill 165 Annual Report Fiscal Year 2023/24

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	North Roseville CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$22,733
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$1,429,484

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On June 9, 1998, the City formed the District by the adoption of Resolution No. 98-184. The District is located west of State Highway 65 via Blue Oaks Boulevard. The Sunset Industrial Area (in unincorporated Placer County) and the North Industrial Planning Area of the City border the District on the north.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway, sewer, water and drainage facilities, acquire land for a school site, acquire a fire station site, and other public improvements, as well as incidental expenses related thereto of benefit to the District.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more

Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

City of Roseville Stone Point Community Facilities District No. 1 Senate Bill 165 Annual Report Fiscal Year 2023/24

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Stone Point CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$620,875
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$638,699

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On February 19, 2003, the City formed the District by the adoption of the Resolution of Formation. The District is located in the easterly portion of the City, within a portion of the City's Northeast Roseville Specific Plan area and approximately a half mile east of I-80. The District is generally bounded by North Sunrise Boulevard and Eureka Road to the west, Rocky Ridge Drive to the south, East Roseville Parkway to the east and Miner's Ravine to the north. The single family portion of the District has been built out; the remaining portion of the District is substantially developed.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, drainage, water and sanitary sewer improvements and park and open space improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Senate Bill 165 Annual Report

Fiscal Year 2023/24

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Stone Point CFD 5
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$373,541
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$376,567

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On August 16, 2006, the City formed the District by the adoption of Resolution No. 06-438. The District is located in the easterly portion of the City, within a portion of the City's Northeast Roseville Specific Plan area and approximately a half mile east of I-80. The District is generally bounded by North Sunrise Boulevard and Eureka Road to the west, Rocky Ridge Drive to the south, East Roseville Parkway to the east and Miner's Ravine to the north. The single family portion of the District has been built out; the remaining portion of the District is substantially developed.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District roadway improvements, drainage, water and sanitary sewer improvements and parkland acquisition.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

City of Roseville Stoneridge East Community Facilities District No. 1 Senate Bill 165 Annual Report Fiscal Year 2023/24

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Stoneridge East CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$1,210,597
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$1,208,490

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On June 20, 2001, the City formed the District by the adoption of Resolution No. 01-300. The District is located in the easterly portion of the City within a portion of the Stoneridge Specific Plan area, west of Sierra College Boulevard, north of Olympus Drive, east of Roseville Parkway, and south of the Roseville city limit. The District territory had been approved for approximately 1,512 residential units upon formation.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include transportation improvements, water and wastewater system improvements, drainage improvements, park improvements and other capital improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

City of Roseville Stoneridge West Community Facilities District No. 1 Senate Bill 165 Annual Report Fiscal Year 2023/24

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Stoneridge West CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$946,680
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$944,217

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On July 18, 2001, the City formed the District by the adoption of Resolution No. 01-362. The District is located in the easterly portion of the City within a portion of the Stoneridge Specific Plan area, west of Sierra College Boulevard, north of Olympus Drive, east of Roseville Parkway, and south of Secret Ravine Parkway. The District represents only a portion of the Stoneridge Specific Plan area.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway, sewer, water, drainage, park facilities and development fees related thereto of benefit to the District.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2001 Project Fund	Series 2007 Project Fund
Bond Proceeds Deposited	\$11,608,912	\$556,572
Prior Net Increase/(Decrease)	<u>(11,608,912)</u>	<u>(556,572)</u>

Senate Bill 165 Annual Report
Fiscal Year 2023/24***

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	SVSP Westpark Federico CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$1,401,637
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$1,355,020

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On June 5, 2019, the City formed the District through the adoption of Resolution No. 19-259. The District is located in the Sierra Vista Specific Plan, in the northwest portion of the City. The District is planned primarily for single-family residential uses.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include transportation improvements, backbone drainage, water and sanitary sewer improvements, open space and park improvements.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2019 Project Fund	Series 2021 Project Fund	Series 2022 Project Fund
Bond Proceeds Deposited	\$7,336,912	\$7,873,277	\$8,595,800
Prior Net Increase/(Decrease)	<u>(7,336,912)</u>	<u>(7,873,229)</u>	<u>(8,579,727)</u>

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	The Fountains CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$774,062
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$784,921

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On December 5, 2007, the City formed the District by the adoption of Resolution No. 07-635. The District is located in the north central portion of the City next to the Westfield Galleria mall and is bounded by Reserve Drive to the west, Roseville Parkway to the north and Galleria Blvd to the east. The District is a fully developed commercial site.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, drainage, water and sanitary sewer improvements and development impact fees. The financed improvements required to develop have been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	The Villages at Sierra Vista CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$2,150,516
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$2,318,780

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On May 2, 2018, the City formed the District through the adoption of Resolution No. 18-119. The District is located in the Sierra Vista Specific Plan, in the northwest portion of the City. The District is planned primarily for single-family residential uses.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include transportation improvements, backbone drainage, water and sanitary sewer improvements, open space, park improvements and development impact fees.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On April 16, 2014, the City formed the District by the adoption of Resolution No. 14-131. The District lies within the Sierra Vista Specific Plan and is located along the south side of Pleasant Grove Boulevard, immediately south and west of the Westpark master planned community and the West Roseville Specific Plan. The District is planned primarily for single-family residential uses.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of public facilities authorized to be financed by the District include roadway improvements, backbone drainage, water and sanitary sewer improvements, including sewer and water treatment facilities, park and open space improvements and development impact fees.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”).

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Westpark CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$7,309,807
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$5,648,744

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On September 15, 2004, the City formed the District by the adoption of Resolution No. 04-439. The District is located in the northwestern area of the City within a portion of the West Roseville Specific Plan area. The area is approximately 1-mile north of Baseline Road and generally bounded by Fiddymment Road to the east, the then City limit to the west, Pleasant Grove Boulevard to the southwest (and north and south of Pleasant Grove Boulevard in the southeast area of the District), with Phillip Road forming the northern boundary. The District is planned primarily for single-family residential uses.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, backbone drainage, water and sanitary sewer improvements and park improvements and development impact fees.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate

and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2005 Project Fund	Series 2006 Project Fund
Bond Proceeds Deposited	\$48,135,105	\$20,774,854

Senate Bill 165 Annual Report

Fiscal Year 2023/24

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval contain a statement indicating the specific purposes of bonds issued, requires that the proceeds of the bonds be applied to those purposes, requires the creation of an account into which the proceeds shall be deposited, and requires an annual report containing collection and expenditure information together with the status of the project.

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Woodcreek East CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$487,504
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$486,311

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On October 11, 2000, the City formed the District by the adoption of Resolution No. 00-489. The District is located in the northwestern portion of the City and is bounded by the Roseville City Limits to the north, Woodcreek Oaks Boulevard to the west and generally bounded by Blue Oaks Boulevard to the south and Foothills Boulevard to the east. The District comprises of 350 single family units and is fully built out.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District included roadway improvements, drainage, water and sanitary sewer improvements, sound attenuation and park improvements. The financed improvements required in order to develop the District have been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information, including the amount of bond proceeds deposited into each Project Fund and the beginning and ending balances of each. The net increase/(decrease) between the bond proceeds and the balances is also provided.

Description	Series 2000 Project Fund
Bond Proceeds Deposited	\$4,315,093
Prior Net Increase/(Decrease)	<u>(4,315,093)</u>
Project Fund Balance, June 30, 2023	\$0

Some of the requirements of the Act are fulfilled upon the formation of the Special Tax District or upon the issuance of bonds while others are satisfied through annual reports. This annual report intends to comply with Section 53411 of the California Government Code (“GC”) by providing the following:

- (a) The amount of funds collected and expended by the District during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the bonds.

A. STATED PURPOSES AND ACCOUNT RESTRICTIONS

The Act’s requirements of: i) a statement indicating the specific purposes of the bonds, ii) that the proceeds of the bonds be applied to those purposes and iii) the creation of an account into which the proceeds shall be deposited, were fulfilled through the formation documents of the above entitled district (the “District”) and the respective fiscal agent agreement or bond indenture of each series of bonds issued by the District (the “Bonds”)

B. OPERATING FUND – COLLECTIONS AND EXPENDITURES

Special Tax revenues are deposited and maintained in one or more District fund and/or accounts. For reporting purposes under the Act, the annual collection and expenditures of these funds are combined and reported below under a single fund (the “Operating Fund”).

Total collections and expenditures of the District's Operating Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are reported in the table below.

Description	Woodcreek West CFD 1
<u>FY 2023/24 REVENUES</u>	
Total Operating Fund Collections and Revenues	\$1,187,640
<u>FY 2023/24 EXPENDITURES</u>	
Total Operating Fund Expenditures	\$1,196,552

C. THE PROJECT

The City formed the District pursuant to the Mello-Roos Community Facilities Act of 1982 for the purpose of financing certain authorized facilities of the District. A separate construction or improvement account is created upon the issuance of each series of bonds for the above purpose (the "Project Fund") and such funds are to be deposited into the Project Fund upon close of each series. The District's formation documents define the facilities and costs authorized that may be funded from the Project Fund. A summary of the District and its authorized facilities are outlined below, together with the status towards its completion.

THE DISTRICT AND AUTHORIZED FACILITIES

On October 15, 1999, the City formed the District by the adoption of Resolution No. 99-384. The District is located in the northwestern portion of the City contiguous to the City's then western limit and is bounded by Pleasant Grove Boulevard to the North, Fiddymment Road to the west and Baseline Road to the south.

The District was authorized to finance certain improvements and costs related to planned development within the District (the "Facilities" or "Project"). The types of facilities authorized to be financed by the District include roadway improvements, drainage, water and sanitary sewer improvements and park improvements. The financed improvements required in order to develop the District have been completed.

PURPOSE OF THE BONDS AND SPECIAL TAXES

District's formation documents authorized the financing of the Project related to planned development within the District. The qualified electors within the District approved the levy of the annual special taxes in accordance with the District's Rate and Method of Apportionment of Special Tax. The City issued one or more Special Tax Bonds for the purpose of financing the Project and/or refunding the Bonds.

The District's Special Tax is levied annually to pay the annual debt service due on the Bonds issued by the District, ongoing administration costs and other authorized expenditures.

PROJECT FUND AND STATUS OF PROJECT

The following table provides the status of the Project and summary Project Fund information for District Bonds subject to the Act, including the amount of bond proceeds deposited into the Project Fund and its beginning and ending balances. The net increase/(decrease) between the bond proceeds and the balances is also provided.

City of Roseville Non-Bonded Community Facilities Districts Senate Bill 165 Annual Report Fiscal Year 2023/24

INTRODUCTION

Senate Bill 165 enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). The Act requires that certain local special tax measures subject to voter approval provide specified accountability measures. Although not all of the active non-bonded Mello Roos Districts (“Services Districts” or “Services CFDs”) formed by the City of Roseville (the “City”) are subject to the Act’s reporting requirements, information for each of the City’s Services CFDs is reported below.

Each Services District subject to the Act is required to state the specific purposes of the Special Tax, restrict the Special Tax revenues to be used only for those purposes, create an account into which the Special Tax revenues shall be deposited and prepare an annual report containing collection and expenditure information together with the status of the project.

Some of these requirements of the Act are fulfilled during the formation of each Services District while others are handled through annual reports. This annual report intends to comply with Section 50075.3 of the California Government Code by providing the following for each Services District:

- (a) The amount of funds collected and expended during the 12 months ended June 30, 2024.
- (b) The status of the project authorized to be funded by the Special Taxes.

A. STATED PURPOSE AND ACCOUNT RESTRICTIONS

The Act’s requirements of i) stating the specific purposes of the Special Tax revenues and ii) restricting the Special Tax revenues to the authorized purposes, were fulfilled through the formation documents of each Services CFD. Shortly thereafter, a Special Tax Fund was created for each district where the Special Tax revenues and other collections of each District are to be deposited and expenditures from each district’s Special Tax Fund are to be restricted to only the authorized services and costs of the respective Services District.

B. SPECIAL TAX FUND – COLLECTIONS AND EXPENDITURES

All revenues of the Services Districts are deposited into and maintained in one or more accounts within the Special Tax Fund of each respective Services District.

Total collections and expenditures through each Services District's Special Tax Fund for the 12 months ended June 30, 2024 ("Fiscal Year 2023/24") are listed below.

Non-Bonded Services CFD	Total Collections	Total Expenditures
Amoruso Ranch CFD 2, Public Services	\$38,477	\$12,009
CFD 3, Municipal Services	\$7,965,772	\$7,950,702
CFD 4 Infill, Services District	\$198,459	\$214,268
Creekview CFD 2, Public Services	\$271,685	\$149,950
Crocker Ranch CFD 2, Services District	\$421,481	\$327,150
Fiddymont Ranch CFD 2, Public Services	\$2,137,549	\$2,011,789
Highland Reserve North CFD 2, Services District	\$857,124	\$832,439
HP Campus Oaks CFD 2, Public Services	\$291,868	\$169,859
Longmeadow CFD 2, Services District	\$170,464	\$145,158
North Roseville CFD 2, Services District	\$577,820	\$504,227
Sierra Vista CFD 2, Public Services	\$961,061	\$430,615
Stone Point CFD 2, Services District	\$106,803	\$98,629
Stone Point CFD 4, Services District	\$103,572	\$80,556
Stoneridge CFD 1, Services District	\$846,605	\$785,891
Stoneridge Parcel 1 CFD 2, Services District	\$56,995	\$48,451
Westbrook CFD 2, Public Services	\$868,645	\$467,564
Westpark CFD 2, Public Services	\$1,902,110	\$1,647,560
Woodcreek East CFD 2, Services District	\$253,973	\$283,324
Woodcreek West CFD 2, Services District	\$594,798	\$611,211

Each year, the Special Tax fund of each maintenance district is analyzed to determine if any surplus funds exist. Surplus district funds, when available, are then applied against the budgeted annual costs of each such district, which would result in a reduction in the amount levied to the property owners than would have otherwise been charged.

C. STATUS OF PROJECTS

The status of the project of each Services District is ongoing.

The revenues generated by each District are to fund the authorized costs of each respective District. The Projects of each Services CFD are specific to each and may include costs to maintain and/or replace certain public improvements and/or municipal services and administration costs; therefore, the funding is expected to continue on an annual basis into perpetuity.

COUNCIL COMMUNICATION

CC #: 3662
File #: 0709-01

Title: HOUSING AUTHORITY/CITY COUNCIL - Quarterly Status Update 3rd Quarter 2024
Contact: Danielle O'Connell 916-774-5277 doconnell@roseville.ca.us
Suzi Cook-Turner 916-774-5414 smcook-turner@roseville.ca.us
Trisha Isom 916-746-1239 tisom@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.40.

RECOMMENDATION TO COUNCIL

The City Council, acting as the Roseville Housing Authority Board, is not required to take any action on this item. This quarterly report is for informational purposes only.

BACKGROUND

Pursuant to the bylaws of the Roseville Housing Authority (RHA), the City Council, acting as the governing board for the Housing Authority, holds its quarterly meeting the first Wednesday of March, June, September, and December, or as soon as possible thereafter. Staff has prepared the following status report regarding lease-up activity for the Housing Choice Voucher (HCV) Program. The HCV Program provides income-qualified households in Roseville and Rocklin with rental assistance using funding from the US Department of Housing and Urban Development (HUD). This assistance is utilized at rental units that meet program specific housing standards, are owned by a willing property owner, and are within Roseville or Rocklin city limits. This rental assistance ensures that the household can afford to live in safe and decent housing. During the third quarter of 2024 there were 676 vouchers utilized in Roseville, 139 vouchers being utilized in Rocklin, and 12 in other jurisdictions (approved transfers out of the area) for a total of 827 families receiving rental assistance through RHA.

RHA is authorized to provide 829 households with HCV rental assistance. RHA also has several special voucher programs including:

- 41 Emergency Housing Vouchers (EHV) providing rental assistance to individuals and families who are experiencing homelessness or at risk of experiencing homelessness;
- 75 vouchers allocated specifically for families on the waiting list with a head-of-household or partner that are non-elderly and disabled (NED vouchers);
- 43 Mainstream vouchers that assist households who have a non-elderly head of household or partner with a disability and are transitioning out of institutional or other segregated settings, are currently homeless, or at risk of becoming homeless; and

- 100 VASH Vouchers for veteran households that come via referral from the Department of Veterans Affairs (VA) and assist them with paperwork, searching for housing and staying housed.

During the third quarter of 2024, RHA staff attended an Eviction Prevention and Strategies training. The training covered strategies to help support tenants with mental health conditions, substance use disorders, or co-occurring disorders living in community-based low-income housing. Topics included upstream eviction prevention strategies, housing support services, landlord partnerships, rent payment tools, behavioral health strategies, legal tools, and service coordination. The toolkit also provided essential information to support stable tenancies and avoid the trauma of housing eviction.

In August 2024, HUD awarded RHA 20 Foster Youth to Independence (FYI) vouchers. FYI vouchers provide housing assistance to youth, 18 to 24 years of age, who left foster care, or will leave foster care within 90 days and are homeless or are at risk of becoming homeless. RHA has partnered with Placer County Health and Human Services and Children's System of Care to ensure that FYI voucher holders receive wraparound services including, but not limited to, basic life skills, money management, access to healthcare, education assistance and job training. Each FYI participant will have a Placer County caseworker and RHA housing technician they will engage with regularly to ensure their path to independence.

RHA continues to operate the very popular Landlord Incentive Program, implemented in April 2023. With limited rental inventory, this successful program has allowed RHA to house a record number of households and attract new owners to the program. RHA's HCV leasing success rate of 96% has impressed HUD's administration. Staff persists in looking for other ways to attract new and retain current property owners. A total of 59 new owners have signed up to participate in the HCV program and total of \$141,000 has been paid out in incentives to landlords.

Each housing authority is required to be at least 95% leased-up for its voucher allocation or utilizing at least 95% of its annual budget authority to remain in compliance with HUD's requirements. The lease-up rate for a calendar year cannot exceed 100% of its allocation of vouchers (per voucher type), and/or 100% expenditure of its annual budget allocation for the program. Agencies leasing up or expending 98% or more of its allocated vouchers and/or budget can reach high-performing status. RHA continues to meet HUD program requirements for high-performing status through 100% expenditure of its annual budget allocation. The attached table provides a monthly summary of RHA's voucher programs through the third quarter of 2024.

FISCAL IMPACT

This Housing Authority Quarterly Status Report does not create any additional cost to the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Roseville Housing Authority Quarterly Report meets the above

criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community

Goal D - Enhance economic vitality

Respectfully Submitted,

Danielle O'Connell, Housing Analyst

Melissa Anguiano, Economic Development Director

Dominick Casey, City Manager

Title: North Central Roseville Specific Plan Parcel 49 - Parcel 3 of Lot 9 Parcel Map

Contact: Jeff Hendrix 916-774-5463 jhendrix@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 7.41.

RECOMMENDATION TO COUNCIL

It is recommended that the City Council approve the parcel map on file with the City Clerk and accept, on behalf of the public, the public sewer easement offered thereon.

BACKGROUND

The Development Services - Engineering Division has reviewed the subject parcel map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

Consistent with CEQA Guidelines Section 15164, regarding previously adopted negative or mitigated negative declarations, an Addendum may be prepared if only minor technical changes or additions are necessary or none of the conditions requiring a subsequent Environmental Impact Report or negative declaration have occurred. Consistent with this section, an Addendum to the NCRSP PCL 49 Bayside Church/Topgolf Mitigated Negative Declaration (adopted February 26, 2015) has been prepared for the project. The Addendum did not identify any new significant environmental impacts; the project impacts are therefore within the scope of the previously adopted Mitigated Negative Declaration. As such, no additional CEQA action is required at this time.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth.

Respectfully Submitted,

Jeff Hendrix, Associate Engineer

Mike Isom, Development Services Director

BASIS OF BEARINGS

THE BASIS OF BEARINGS FOR THIS SURVEY IS IDENTICAL WITH THE SOUTHWESTERLY BOUNDARY OF PARCEL 3, AS SHOWN ON THE PARCEL MAP OF "NCRSP - PARCEL 49 - LOT 9", FILED IN BOOK 36 OF PARCEL MAPS, AT PAGE 11, PLACER COUNTY RECORDS, THE BEARING WHICH IS GIVEN AS N48°05'02"W BETWEEN FOUND MONUMENTS SHOWN HEREON.

NOTES

1. THIS SUBDIVISION CONTAINS 4.333 ACRES GROSS AND IS CREATING 2 COMMERCIAL PARCELS.
2. ALL CURVES SHOWN HEREON ARE DIMENSIONED WITH RADIUS, DELTA, ARC LENGTH AND CHORD BEARING & DISTANCE. ALL DISTANCES SHOWN ARE IN FEET AND DECIMALS THEREOF.
3. THE PROPERTY INCLUDED IN THIS SUBDIVISION IS SUBJECT TO THE AMENDED AND RESTATED DECLARATION OF COVENANTS, CONDITIONS, RESTRICTIONS AND EASEMENTS RECORDED AS DOC-2017-0011120, O.R.P.C. SAID DECLARATION SETS FORTH TERMS FOR THE MAINTENANCE OF COMMON AREA FACILITIES, AND GRANTS RECIPROCAL EASEMENTS FOR ACCESS, PARKING, DRAINAGE, SEWER, WATER AND UTILITIES.
4. THE PROPERTY INCLUDED IN THIS SUBDIVISION IS SUBJECT TO RESTRICTIVE COVENANTS RECORDED AS DOC-2017-0011131 AND DOC-2019-0054704, O.R.P.C.
5. THE PROPERTY INCLUDED IN THIS SUBDIVISION IS SUBJECT TO THE STORMWATER CONTROL MAINTENANCE AGREEMENT RECORDED AS DOC-2021-0090205, O.R.P.C.
6. THE PROPERTY OWNERS WITHIN THIS SUBDIVISION SHALL AGREE TO PARTICIPATE IN A TRANSPORTATION SYSTEMS MANAGEMENT (TSM) PLAN AND SHALL AGREE TO ENTER INTO A TRANSPORTATION MANAGEMENT AGREEMENT WITH THE CITY OF ROSEVILLE.

Title: Resolution - Terry Bradley
Contact: Blair Hutchison 916-774-5266 bmhutchison@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 7.42.

RECOMMENDATION TO COUNCIL

Commend Terry Bradley for her 18 years of outstanding service and dedication to the City of Roseville and the Finance Department, congratulate her for her accomplishments and wish her a long, healthy, and enjoyable retirement.

BACKGROUND

Not applicable.

FISCAL IMPACT

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Ceremonial documents meet the above criteria and are not subject to CEQA. No additional environmental review is required.

Description

Resolution - Terry Bradley

Resolution

WHEREAS, Terry Bradley began her distinguished service with the City of Roseville as an Administrative Clerk in the Environmental Utilities Department in 2006; and

WHEREAS, Terry was promoted to Administrative Assistant in the Finance Department in 2010 where she provided administrative support for the Finance Department; and

WHEREAS, Terry was recognized with a Pride of Roseville in 2018, for her outstanding work performance; and

WHEREAS, Terry was promoted to her current position as the Management Assistant to the Assistant City Manager/Chief Financial Officer in 2020, where her exceptional dedication and professionalism has contributed significantly to the City's operations and success over her tenure; and

WHEREAS, Terry played a vital role in preparing the City's budget documents that have been recognized with both state and national honors, which is a testament to her commitment to exceptionally high-level work; and

WHEREAS, Terry's steadfast commitment to organization and efficiency has been instrumental in ensuring that the Finance Department functions efficiently, setting a high standard of excellence that is an inspiration to employees across the City; and

WHEREAS, Terry's spirit and positive attitude, while maintaining focus on high quality work, has earned her the respect and admiration of everyone; and

WHEREAS, Terry's calm demeanor and empathetic nature have created a welcoming and supportive environment in the Finance Department, making her a trusted and reliable resource for colleagues, residents and all who have had the pleasure working with her; and

WHEREAS, Terry's bright and warm sense of humor has brought such a sense of joy and connection to the workplace, enhancing the morale and culture of the Finance Department; and

WHEREAS, Terry is now retiring after over 18 years of honorable service to the City of Roseville and will be greatly missed and remembered by her friends and co-workers.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, that **TERRY BRADLEY** be commended for her 18 years of outstanding service and dedication to the City of Roseville and the Finance Department, congratulated for her accomplishments and wished a long, healthy, and enjoyable retirement.

SIGNED and APPROVED this 18th day of December 2024.

Title: Renewables Procurement Standard Procurement Plan and Renewables Portfolio Standard Enforcement Program Update
Contact: Petra Wallace 916-774-5510 pwallace@roseville.ca.us

Meeting Date: 12/18/2024
Item #: 8.1.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution approving updates to the Renewable Portfolio Standard (RPS) Procurement Plan and the RPS Enforcement Program.

BACKGROUND

California's RPS program, established in 2002 and strengthened through Senate Bill 100, mandates increasing renewable procurement for electric utilities, targeting 60% by 2030 and 100% zero-carbon energy by 2045. These targets are assessed and enforced by the California Energy Commission (CEC) over a number of defined compliance periods. The compliance periods serve as important timeframes for electric utilities to report on and demonstrate compliance to the CEC on the status of their respective progress in meeting the state's RPS targets. As part of this overall RPS compliance framework, publicly owned utilities, such as Roseville Electric Utility, must also submit two key documents to the CEC:

- RPS Procurement Plan: This plan details the RPS regulatory rules and requirements, as well as the utility's strategy and general approach for achieving renewable energy procurement targets.
- RPS Enforcement Program: This plan outlines the utility's internal review and administrative processes for achieving compliance with RPS requirements.

Roseville has implemented and previously updated these documents, collectively the RPS Program, as necessary since 2013 with the implementation of the state's RPS regulations. The current and recommended updates to Roseville's RPS Program, notably as it relates to revisions to the *Cost Limitations for Expenditures* provisions of the Procurement Plan, are important in recognition of a number of factors in the electric market that are causing significant cost increases associated with renewable procurement. At this time, this is particularly relevant for the costs to meet RPS targets in Compliance Period 5 (2025-2027). Roseville has successfully met all prior RPS compliance obligations through Compliance Period 4 (2021-2024); however, Compliance Period 5 is presenting new challenges, including:

- Supply Constraints: CAISO interconnection delays are limiting access to long-term renewable

resources, increasing reliance on short-term, higher-cost regulatory transactions.

- Counterparty Resistance: Suppliers are reluctant to extend long-term contracts, and solicitations for Compliance Period 5 resources have yielded limited success.
- Elevated Prices: Market uncertainty, constrained supply, and high cost of borrowing have driven up costs, reducing affordable procurement options for Compliance Period 5.

While Roseville has secured renewable projects and is assessing other viable renewable projects for future compliance periods beyond Compliance Period 5, near-term uncertainties related to Compliance Period 5 remain due to market price volatility and supply limitations. These challenges highlight the importance of flexibility and strategic planning to meet renewable energy mandates, without placing undue financial burdens on our customers.

To address these challenges, Roseville is recommending updates to its RPS Procurement Plan, including most importantly a revised *Cost Limitation for Expenditures* provision to provide greater flexibility for renewable procurement. These updates ensure more predictable impacts on customer bills by capping annual rate increases associated with renewable procurement while maintaining compliance with state mandates.

Costs associated with renewable procurement, referred to as renewable energy credits (RECs), have increased significantly over the last four years. While it was common to see short-term RECs at approximately \$25, recent spot market transactions have seen prices over \$90. The recommended updates to the RPS Program will cap the costs Roseville will spend on acquiring RECs for Compliance Period 5 to those costs that are in the electric rates reflected in the City Municipal Code approved in June 2024. From 2028 forward, the annual REC cost increases would be limited to a growth rate of no more than 3% annually thereafter. This means that Roseville would implement the Cost Limitation for Expenditures provision as an alternative to meeting the RPS targets for Compliance Period 5. Although this is an established provision under the state's RPS regulations that is provided to electric utilities to protect customers, there are limited examples or precedents regarding the CEC's recognition of this approach as an alternative compliance mechanism.

By adopting these recommended updates, Roseville is utilizing established tools within the state's RPS regulations to proactively manage future renewable procurements costs. This approach allows us to protect customers from near-term elevated market costs for renewable procurement while operating within the RPS compliance framework.

FISCAL IMPACT

There is no immediate fiscal impact associated with adopting these updates. The proposed cost limitation provision will help mitigate future financial risks by capping rate increases due to renewable mandates.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that do not result in a direct or reasonably foreseeable indirect physical change in the environment or are otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Updates to Renewable Portfolio Standard (RPS) Procurement Plan and the RPS Enforcement Program are not considered a "project" under CEQA and

consequently do not require a CEQA action.

Renewables Portfolio Standard Enforcement Program

December 2024

Roseville Electric Utility
2090 Hilltop Circle
Roseville, California 95747-9704
Reliable Energy. Dependable Service.

1. The City of Roseville shall have a program for the enforcement of a Renewables Portfolio Standard (RPS) program, which shall include all of the provisions set forth herein and shall be known as the City's "RPS Enforcement Program";
2. The RPS Enforcement Program shall be effective January 1, 2012;
3. The City of Roseville shall provide notice regarding new or updated RPS Enforcement Program. The enforcement program must be adopted at a publicly noticed meeting offering all interested parties an opportunity to comment.
 - A. If the RPS Enforcement Program is modified or amended, no less than 10 calendar days notice shall be given to the public before any meeting is held to make a substantive change to the enforcement program;
4. Annually, the Director of City's Electric Utility shall cause to be reviewed, the City's RPS Procurement Plan to determine compliance with the RPS Enforcement Program;
5. Annual review of the RPS Procurement Plan shall include consideration of each of the following elements:
 - A. By December 31, 2021:
 - Ensure that the City is making reasonable progress toward meeting the December 31, 2024, compliance obligation of forty-four percent (44%) of retail sales with eligible renewable resources, consistent with the RPS Procurement Plan.
 - B. By December 31, 2022:
 - Ensure that the City is making reasonable progress toward meeting the December 31, 2024, compliance obligation of forty-four percent (44%) of retail sales with eligible renewable resources, consistent with the RPS Procurement Plan.
 - C. By December 31, 2023:
 - Ensure that the City is making reasonable progress toward meeting the December 31, 2024, compliance obligation of forty-four percent (44%) of retail sales with eligible renewable resources, consistent with the RPS Procurement Plan.
 - D. By December 31, 2024 (end of Compliance Period 4):
 - Verify that the City procured sufficient electricity products to meet the sum of thirty-five point seventy-five percent (35.75%) of its 2021, thirty-eight point five percent (38.5%) of its 2022, forty-one point twenty-five percent (41.25%) of its 2023, and forty-four percent (44%) of its 2024 retail sales with eligible renewable resources from the specified Content Categories for the compliance

period ending December 31, 2024, consistent with the RPS Procurement Plan;

- If targets are not met, the City shall direct Roseville Electric Utility to:
 - Review the applicability of applying Excess Procurement from a previous Compliance Period consistent with the provisions of the RPS Procurement Plan,
 - Ensure that any Delay of Timely Compliance was compliant with the provisions in the RPS Procurement Plan,
 - Ensure that any Portfolio Balance Requirement Reduction was compliant with the provisions in the RPS Procurement Plan,
 - Review applicability and appropriateness of excusing performance based on the Cost Limitations on Expenditures provisions of the RPS Procurement Plan.

E. By December 31, 2025:

- Ensure that the City is making reasonable progress toward meeting the December 31, 2027, compliance obligation of fifty-two percent (52%) of retail sales with eligible renewable resources, consistent with the RPS Procurement Plan.

F. By December 31, 2026:

- Ensure that the City is making reasonable progress toward meeting the December 31, 2027, compliance obligation of fifty-two percent (52%) of retail sales with eligible renewable resources, consistent with the RPS Procurement Plan.

G. By December 31, 2027 (end of Compliance Period 5):

- Verify that the City procured sufficient electricity products to meet the sum of forty-six percent (46%) of its 2025, fifty percent (50%) of its 2026, and fifty-two percent (52%) of its 2027 retail sales with eligible renewable resources from the specified Content Categories for the compliance period ending December 31, 2027, consistent with the RPS Procurement Plan;
- If targets are not met, the City shall direct Roseville Electric Utility to:
 - Review the applicability of applying Excess Procurement from a previous Compliance Period consistent with the provisions of the RPS Procurement Plan,
 - Ensure that any Delay of Timely Compliance was compliant with the provisions in the RPS Procurement Plan,
 - Ensure that any Portfolio Balance Requirement Reduction was compliant with the provisions in the RPS Procurement Plan,

- Review applicability and appropriateness of excusing performance based on the Cost Limitations on Expenditures provisions of the RPS Procurement Plan.
- H. By December 31, 2028:
 - Ensure that the City is making reasonable progress toward meeting the December 31, 2030, compliance obligation of sixty percent (60%) of retail sales with eligible renewable resources, consistent with the RPS Procurement Plan.
- I. By December 31, 2029:
 - Ensure that the City is making reasonable progress toward meeting the December 31, 2030, compliance obligation of sixty percent (60%) of retail sales with eligible renewable resources, consistent with the RPS Procurement Plan.
- J. By December 31, 2030 (end of Compliance Period 6):
 - Verify that the City procured sufficient electricity products to meet the sum of fifty-four point sixty-seven percent (54.67%) of its 2028, fifty-seven point thirty-three percent (57.33%) of its 2029, and sixty percent (60%) of its 2030 retail sales with eligible renewable resources from the specified Content Categories for the compliance period ending December 31, 2030, consistent with the RPS Procurement Plan;
 - If targets are not met, the City shall direct Roseville Electric Utility to:
 - Review the applicability of applying Excess Procurement from a previous Compliance Period consistent with the provisions of the RPS Procurement Plan,
 - Ensure that any Delay of Timely Compliance was compliant with the provisions in the RPS Procurement Plan,
 - Ensure that any Portfolio Balance Requirement Reduction was compliant with the provisions in the RPS Procurement Plan,
 - Review applicability and appropriateness of excusing performance based on the Cost Limitations on Expenditures provisions of the RPS Procurement Plan.
- O. By December 31, 2031 and annually thereafter:
 - Verify that the City met sixty percent (60%) of retail sales with eligible renewable resources from the specified Content Categories, consistent with the RPS Procurement Plan;
 - If targets are not met, the City shall direct Roseville Electric Utility to:

- Review the applicability of applying Excess Procurement from a previous Compliance Period consistent with the provisions of the RPS Procurement Plan,
 - Ensure that any Delay of Timely Compliance was compliant with the provisions in the RPS Procurement Plan,
 - Ensure that any Portfolio Balance Requirement Reduction was compliant with the provisions in the RPS Procurement Plan,
 - Review applicability and appropriateness of excusing performance based on the Cost Limitations on Expenditures provisions of the RPS Procurement Plan.
- 6. If it is determined that the City has failed to comply with the provisions of its RPS Procurement Plan, Roseville Electric Utility shall take steps to correct any untimely compliance, including:
 - A. Review the City's RPS Procurement Plan to determine what changes, if any, are necessary to ensure compliance in the next Compliance Period;
 - B. Report regularly to the City Council regarding the progress being made toward meeting the compliance obligation for the next Compliance Period;
 - C. Report to the City Council regarding the status of meeting subsequent compliance targets, and all steps being taken to ensure that the obligation is timely met.

Renewables Portfolio Standard Enforcement Program

~~October~~ December 2024~~2~~

1. Introduction

A Renewables Portfolio Standard (RPS) Procurement Plan is required by Senate Bill (SB) X1-2 (Simitan, Stats. 2011, 1st Ex. Session, Ch. 1), the “California Renewable Energy Resources Act” and must be approved by the Roseville City Council. This document describes the RPS Procurement Plan of the City of Roseville (alternatively referred to as Roseville Electric Utility), as required by the Public Utility Code section 399.30(a)(1) and (a)(2) and section 3205 of the California Energy Commission’s (CEC or Commission) regulations for *Enforcement Procedures for the Renewables Portfolio Standard for Local Publicly Owned Electric Utilities* (RPS Guidelines), effective on July 12, 2021.

2. Notifications

Pursuant to Public Utilities Code section 399.30(f) and section 3205 of the RPS Guidelines, City Council’s consideration of this RPS Procurement Plan will be posted using the standard City Council agenda posting process. Within 30 days of adoption by City Council, this RPS Procurement Plan will be sent to the CEC.

Pursuant to Public Utilities Code section 399.30(d) and section 3206 of the RPS Guidelines, this RPS Procurement Plan includes optional compliance measures.

3. Compliance Periods and Procurement Requirements

Public Utility Code section 399.30(b) and (c), section 399.15(b)(1) and (b)(2), and section 3204 of the RPS Guidelines mandate that state-defined renewable resources make up a specified percentage of each utility’s retail sales with a current goal of 60% by 2030.

- i. Compliance Period 4 is calendar years 2021 through 2024 and requires forty-four percent (44%) renewables by the end of the compliance period, applying the following formula:

$$\sum_{x=2021}^{2024} EP_x \geq .3575(RS_{2021}) + .385(RS_{2022}) + .4125(RS_{2023}) + .44(RS_{2024})$$

- ii. Compliance Period 5 is calendar years 2025 through 2027 and requires fifty-two percent (52%) renewables by the end of the compliance period, applying the following formula:

$$\sum_{x=2025}^{2027} EP_x \geq .46(RS_{2025}) + .5(RS_{2026}) + .52(RS_{2027})$$

- iii. Compliance Period 6 is calendar years 2028 through 2030 and requires sixty percent (60%) renewables by the end of the compliance period, applying the following formula:

$$\sum_{x=2028}^{2030} EP_x \geq .5467(RS_{2028}) + .5733(RS_{2029}) + .60(RS_{2030})$$

- iv. Beginning on and after January 1, 2031, compliance periods shall be three years in length starting on January 1 and ending on December 31, there is a requirement to maintain the 60% renewable standard, applying the following formula.
 $EP_{x1} + EP_{x2} + EP_{x3} \geq 0.6000 (RS_{x1}) + 0.6000 (RS_{x2}) + 0.6000 (RS_{x3})$

Roseville shall demonstrate reasonable progress toward meeting the compliance period targets in each compliance period's included years. The following table summarizes the annual "soft" targets, but compliance is determined over the entire compliance period using the formulas above.

Compliance Period 4				Compliance Period 5			Compliance Period 6			Annually
2021	2022	2023	2024	2025	2026	2027	2028	2029	2030	2031 and beyond

Table 1. Renewables Portfolio Standard requirements for renewable energy

4. Portfolio Content Categories, Portfolio Balance Requirements, Long Term Procurement Requirements, and Exemptions and Adjustments

A. Portfolio Content Categories

In addition to meeting the renewable energy procurement target, the renewable energy must meet Portfolio Content Category (PCC) requirements as defined in Public Utilities Code section 399.16(b) and section 3203 of the RPS Guidelines; however, as defined in the Public Utilities Code section 399.16(d) renewable energy procured prior to June 1, 2010, is termed "grandfathered" and does not have to meet the category requirements. There are four categories of renewable energy, as follows:

Portfolio Content Category 1

- i. PCC 1 electricity products must be procured bundled to be classified as PCC 1, and Roseville Electric Utility may not resell the underlying electricity from the electricity product back to the eligible renewable energy resource from which the electricity product was procured. The electricity products must be generated by an eligible renewable energy resource that is interconnected to a transmission network within the WECC service territory. For purposes of this section 4.A, the first point of interconnection to the WECC transmission grid is the substation or other facility where generation tie lines from the eligible renewable energy resource interconnect to the network transmission grid. PCC 1 electricity products must also meet one of the following criteria:
 - a. Electricity products must be generated by an eligible renewable energy resource that has its first point of interconnection within the metered boundaries of a California balancing authority area.
 - b. Electricity products must be generated by an eligible renewable energy resource that has its first point of interconnection to an electricity distribution system used to serve end users within the metered boundaries of a California balancing authority area. For purposes of this section 4.A, the first point of interconnection to an electricity distribution system is within the service area boundaries of a utility distribution company.
 - c. Electricity products from the eligible renewable energy resource with a first point of interconnection outside the metered boundaries of a California balancing authority must be scheduled into a California balancing authority without substituting electricity from another source. For purposes of this section 4.A, electricity generated by the eligible renewable energy resource must be scheduled into a California balancing authority on an hourly or subhourly basis, and the City of Roseville's City Council or other authority, as delegated by the City of Roseville's City Council, must have approved an agreement, before the electricity is generated, to schedule the electricity from the eligible renewable energy resource into the California balancing authority on an hourly or subhourly basis. If there is a difference between the amount of electricity generated within an hour and the amount of electricity scheduled into a California balancing authority within that same hour, only the lesser of the two amounts shall be classified as PCC 1.
 - d. Electricity products must be subject to an agreement between a California balancing authority and the balancing authority in which the eligible renewable energy resource is located, executed before the product is generated, to dynamically transfer electricity from the eligible renewable energy resource into the California balancing authority area. For purposes of this section 4.A, electricity generated by the eligible renewable energy

resource shall be scheduled into a California balancing authority area on an hourly or subhourly basis.

- ii. Electricity products originally qualifying in PCC 1 and resold must meet the following criteria to remain in PCC 1:
 - a. The original contract for procurement of the electricity products meets one of the criteria in section 4.A.i.a-d.
 - b. The resale contract transfers only electricity and RECs that have not yet been generated prior to the effective date of the resale contract.
 - c. The electricity and associated RECs must be transferred by the resale contract to the ultimate buyer, and the electricity must be transferred in real time.
 - d. For those electricity products that satisfy section 4.A.i.c, the original hourly or subhourly schedule is maintained, and the criteria of section 4.A.ii.a-c are met.
- iii. Electricity products originally qualifying in PCC 1 and resold that do not meet the criteria of section 4.A.ii.a-d shall not be counted in PCC 1.

Portfolio Content Category 2

- iv. PCC 2 electricity products must be generated by an eligible renewable energy resource that is interconnected to a transmission network within the WECC service territory, and the electricity must be matched with incremental electricity that is scheduled into a California balancing authority.
- v. Additionally, PCC2 products must be procured bundled and must meet all of the following criteria:
 - a. The first point of interconnection to the WECC transmission grid for both the eligible renewable energy resource and the resource providing the incremental electricity must be located outside the metered boundaries of a California balancing authority area.
 - b. The incremental electricity used to match the electricity from the eligible renewable energy resource must be incremental to Roseville Electric Utility. For purposes of this section 4.A, “incremental electricity” means electricity that is generated by a resource located outside the metered boundaries of a California balancing authority area and that is not in the portfolio of Roseville Electric Utility prior to the date the contract or ownership agreement for the electricity products from the eligible renewable energy resource, with which the incremental electricity is being matched, is executed by Roseville Electric Utility.
 - c. The contract or ownership agreement for the incremental electricity is executed by Roseville Electric Utility, at the same time or after the contract

- or ownership agreement for the electricity products from the eligible renewable energy resource is executed.
- d. The incremental electricity must be scheduled into the California balancing authority within the same calendar year as the electricity from the eligible renewable energy resource is generated.
- e. The electricity from the eligible renewable energy resource must be available to be procured by Roseville Electric Utility and may not be sold back to that resource.
- vi. Electricity products originally qualifying in PCC 2 and resold must meet the following criteria to remain in PCC 2:
 - a. The original contract for procurement of the electricity products meets the criteria of section 4.A.v.a-e.
 - b. The resale contract transfers only electricity and RECs that have not yet been generated prior to the effective date of the resale contract.
 - c. The resale contract transfers the original arrangement for incremental electricity, including the source and quantity for the incremental electricity.
 - d. The resale contract retains the scheduling of the incremental electricity into the California balancing authority as set out in the original transaction.
 - e. The transaction provides incremental electricity for the Publicly Owned Utility (POU) claiming the transaction for RPS compliance, Roseville Electric Utility.
 - f. The incremental electricity is scheduled into the California balancing authority.
- vii. Electricity products originally qualifying in PCC 2 and resold that do not meet the criteria above must be counted in PCC 3.

Portfolio Content Category 3

- viii. All unbundled renewable energy credits and other electricity products procured from eligible renewable energy resources located within the WECC transmission grid that do not meet the requirements of either PCC 1 or PCC 2 fall within PCC 3.

Portfolio Content Category 0

- ix. Grandfathered Resources (also referred to as PCC0) include any contract or ownership agreement originally executed prior to June 1, 2010, and the electricity product is associated with generation from an eligible renewable energy resource that met the Commission's RPS eligibility requirements that were in effect when the original procurement contract or ownership agreement was executed by Roseville Electric Utility.

- a. Except as provided in the following sections b and c, the electricity product shall count in full toward the RPS procurement requirements, subject to the following:
 - i. If the associated REC is retired within 36 months of the date the electricity product is generated, the electricity product will count toward the RPS procurement targets.
 - ii. The electricity product will not be classified within another portfolio content category and will not count toward the portfolio balance requirements in the following section B.
 - iii. Electricity products associated with contracts of less than 10 years will not be subtracted when calculating excess procurement in section 7.A.
- b. If contract amendments or modifications after June 1, 2010, increase nameplate capacity or expected quantities of annual generation, increase the term of the contract except as provided section c below, or substitute a different eligible renewable energy resource, only the MWhs or resources procured prior to June 1, 2010, shall count in full toward the RPS procurement targets. The remaining procurement must be classified into a portfolio content category and follow the portfolio balance requirements in accordance with the following section B.
- c. The term of such procurement contract may be extended if the initial term of the contract specified a procurement commitment of 15 years or more.

B. Portfolio Balance Requirements

In meeting the RPS procurement requirements identified in section 3 of this RPS Procurement Plan, Roseville shall also be subject to the portfolio balance requirements. Public Resources Code section 399.16(c)(1) and (c)(2) and section 3204 of the RPS Guidelines identify minimum procurement requirements for PCC1 and maximum procurement requirements for PCC3 in each compliance period. Renewable energy that is classified as “grandfathered” is not subject to these portfolio balance requirements. The following table summarizes the portfolio balance requirements for renewable energy that is not grandfathered.

Product Content Category	Compliance Period 1 2011 - 2013	Compliance Period 2 2014 - 2016	Compliance Period 3 2017 – 2020
PCC1 (Minimum)	50%	65%	75%
PCC2 (No Direct Restriction)	n/a	n/a	n/a
PCC3 (Maximum)	25%	15%	10%
The balance requirements starting in 2021 and thereafter are the same as for Compliance Period 3.			

Table 2. Renewables Portfolio Standard portfolio balance requirements

C. Long Term Contract Requirement

- i. In meeting the RPS procurement requirements identified in section 3 of this RPS Procurement Plan, Roseville shall also be subject to long-term contract requirements. Consistent with Public Resources Code section 399.13(b), Roseville Electric Utility may enter into a combination of long- and short-term contracts for electricity and associated renewable energy credits.
- ii. For the compliance period beginning January 1, 2021, and each compliance period thereafter, at least 65 percent of the electricity products applied toward the RPS procurement target shall be from long-term procurement. The numerical expression of this requirement is:

$$LTx = 0.65 (RPSx)$$

LTx = Electricity products applied toward the RPS procurement target for compliance period X that must meet the criteria of long-term procurement provided in section 3204 (d)(2)

RPSx = The RPS procurement target calculated in section 3204 (a) for compliance period X or, if less than the target, the sum of electricity products retired and any excess procurement pursuant to section 3206 (a)(1) or historic carryover pursuant to section 3206 (a)(5) that Roseville Electric Utility has applied to the target, subject to the Portfolio Content Category 3 limit for compliance period X

- a. If Roseville Electric Utility qualifies for a special exemption or adjustment in accordance with section 4.D of this plan (Exemptions and Adjustments), the 65 percent requirement will be assessed on the quantity of electricity products necessary to satisfy the RPS procurement target resulting from the exemption or adjustment.
- iii. Electricity products will be classified as long-term or short-term based on the contracts, ownership, or ownership agreements through which they are procured. For the purpose of this section 4.C, long-term procurement refers to procurement from long-term contracts, ownership, or ownership agreements, subject to the following:
 - a. A long-term contract is defined as Roseville Electric Utility's contract to procure a nonzero quantity of electricity products from an RPS-certified facility for a duration of at least 10 continuous years, consistent with section 4.C.ii.b and 4.C.ii.c.
 - b. A long-term contract includes the following contract structures:
 - i. A jointly negotiated contract to procure electricity products from one or more RPS-certified facilities, if the procurement duration for each facility is at least 10 continuous years and each POU procures

electricity products for at least 10 continuous years. For purposes of this subdivision, a jointly negotiated contract includes the following:

1. A joint contract executed by at least two POU's with the RPS-certified facility.
 2. A contract executed by a joint powers agency or third party supplier acting on behalf of at least two POU's with the RPS-certified facility, if all participating POU's are identified in the contract with the facility or in a correlated agreement with the joint powers agency or third party supplier.
 3. Separate contracts executed by two or more POU's with the same RPS-certified facility, where each of the separate contracts, as originally executed, expressly identifies the other POU(s) and specifies the ability of the identified POU's to adjust their relative share of the output of the RPS-certified facility to the other POU(s). If the separate contracts are amended to expressly identify the other POU and specify the ability of the POU's to adjust their relative share of the output of the RPS-certified facility, the contract shall be considered long-term only if each POU's procurement duration from the date of the contract amendment is at least 10 continuous years.
- ii. Roseville Electric Utility's contract or resale agreement with a joint powers agency or third-party supplier if both of the following are satisfied:
1. Roseville Electric Utility's contract or resale agreement with the joint powers agency or third-party supplier has a duration of at least 10 continuous years.
 2. The RPS-certified facility or facilities supplying the electricity products in the long-term contract are owned by the joint powers agency or third-party supplier or are subject to a long-term contract with a remaining duration of at least 10 continuous years, and Roseville Electric Utility, or the joint powers agency or third-party supplier or other party on Roseville Electric Utility's behalf, can submit documentation demonstrating this.
 3. Roseville Electric Utility's contract or resale agreement with a third-party supplier where, over the contract term, the electricity products provided can change from one bundled portfolio content category to a different bundled portfolio content category or from one bundled portfolio content category to multiple bundled portfolio content categories, or from multiple bundled portfolio content categories to fewer bundled portfolio content categories, as long as the contract satisfies all other applicable requirements of this section.
 4. Notwithstanding section 4.C.iii.b.ii.3, Roseville Electric Utility's ownership agreement or a contract between Roseville Electric

Utility and the Western Area Power Administration or the federal government as part of the federal Central Valley Project, including an extension or renewal of a contract between Roseville Electric Utility and the Western Area Power Administration or the federal government as part of the federal Central Valley Project that renews or extends the existing contract as contemplated under the administration of the contract in effect on January 1, 2015, or included in the Western Area Power Administration's Power Marketing Plan.

- c. Long-term contracts executed on or after July 1, 2020, shall additionally satisfy the requirements of section 4.C.iii.c.i-iii. Contracts executed prior to July 1, 2020, are not required to meet the requirements of section 4.C.iii.c.i-iii for the term of the contract in effect as of July 1, 2020. With the exception of extensions or renewals of contracts meeting the criteria of section 4.C.iii.b.ii.4, contracts executed prior to July 1, 2020, that are amended on or after July 1, 2020, where the amendment modifies the duration, quantity, pricing, or other provision that materially relates to the contract's classification as long-term, shall additionally satisfy all of the requirements of section 4.C.iii.c.i-iii.
 - i. Reasonably consistent contracted-for quantities. For purposes of this section 4.C.iii.c, Roseville Electric Utility's contract and any associated underlying contract(s) shall specify reasonably consistent procurement quantities over the term of the contract, as provided in section 4.C.iii.c.i.1-4:
 - 1. For a contract that specifies the contracted-for quantities on an annual basis, the contracted-for annual quantities vary no more than 33 percent above or below the average annual quantity for the entire contract term, except as provided in section 4.C.iii.c.i.4. If Roseville Electric Utility has contracted for a share of facility output, the variation shall be assessed based on differences in the contracted-for share.
 - 2. Notwithstanding section 4.C.iii.c.i.1, for a contract to procure only electricity products meeting the criteria of Portfolio Content Category 3, reasonably consistent procurement quantities means the average contracted-for procurement quantities vary by no more than 33 percent between any two adjacent compliance periods, except as provided in section 4.C.iii.c.i.4.
 - 3. For long-term contracts meeting the criteria of section 4.C.iii.b.i, the aggregate quantities in a jointly negotiated contract shall be the basis for assessing reasonably consistent contracted-for quantities.
 - 4. Notwithstanding section 4.C.iii.c.i.1-2, reasonably consistent contracted-for quantities include procurement quantities that vary by more than 33 percent or procurement quantities specified on a compliance period basis, if Roseville Electric

Utility demonstrates the contract represents a procurement commitment consistent with the purposes of the long-term procurement requirement. This demonstration shall be satisfied if Roseville Electric Utility shows that the contracted-for procurement quantities are associated with one of the following:

- a. At the time of contract execution, the eligible renewable energy resource is already committed to a different entity during the individual year(s) in which the variation exceeds 33 percent and Roseville Electric Utility's commitment supports the development of a new eligible renewable energy resource or the improvement of an existing eligible renewable energy resource.
 - b. At the time of contract execution, Roseville Electric Utility had identified a forecasted reduction in retail sales associated with the anticipated loss of specific customer accounts or local industry or Roseville Electric Utility had identified a forecasted increase in generation from other eligible renewable energy resources that will achieve commercial operation during the contract term.
 - c. The variation during the individual year(s) is associated with expected maintenance, repair, construction, or other modification of the eligible renewable energy resource.
 - d. The variation is associated with anticipated transmission constraints.
 - e. The variation is associated with Roseville Electric Utility taking over the share or purchases from another buyer for the same eligible renewable energy resource when that other buyer's contract term ends.
 - f. The variation is only associated with Roseville Electric Utility procuring increasing quantities or shares from the same eligible renewable energy resource over the term of the contract.
 - g. Roseville Electric Utility otherwise demonstrates that the variation supports the financing of the new eligible renewable energy resource or improvements of the existing eligible renewable energy resource, or is otherwise consistent with the purposes of the long-term procurement requirement.
5. Notwithstanding the requirements specified in section 4.C.iii.a-c, a contract that specifies a contracted-for quantity of zero during any year of the initial 10-year term of a long-term contract may still qualify as long-term if Roseville Electric

Utility demonstrates that the contract meets one of the conditions specified in section 4.C.iii.c.i.4 and the contract term includes at least 10 total years with nonzero contracted-for procurement quantities. Under such circumstances, the “first 10 continuous years of the contract term” in section 4.C.iii.c.ii and 4.C.iii.c.iii shall refer to the first 10 years of the contract with nonzero contracted-for procurement quantities.

- ii. No-cost, early termination. The contract does not include early termination provisions that allow the purchasing entity, Roseville Electric Utility, to unilaterally terminate the contract without cause and without incurring a penalty, fee or other form of liquidated damages under the contract during the first 10 continuous years of the contract term, except as specified in section 4.C.iii.c.ii.1-2.
 - 1. The early termination provisions prohibited by this section 4.C.iii.c.ii do not preclude the purchasing entity, Roseville Electric Utility, from terminating the contract because of, or including early termination provisions concerning, any the following:
 - a. The seller’s default or other nonperformance under the contract.
 - b. A force majeure event that prevents the seller from performing its obligations or complying with a condition of the contract. A force majeure event includes any act or occurrence that delays or prevents the seller from timely performing an obligation under the contract or complying with a conditions required under the contract if such act or event is beyond the reasonable control of and without fault or negligence of the seller.
 - c. Mutual agreement of the purchasing entity and seller.
 - d. A facility associated with the contract ceases to be an eligible renewable energy resource, ceases to comply with the Emissions Performance Standard pursuant to section 2903 (b) in the California Code of Regulations, ceases to provide environmental attributes, or ceases to provide resource adequacy attributes due to the occurrence of a change in law, and in any of these circumstances the seller is unable to remedy the loss of any of these attributes as such obligation is limited under the terms of the contract.
 - e. The Commission determines that a facility associated with the contract does not qualify as an eligible renewable energy resource for reasons other than a change in law.
 - f. A change in ownership of the seller.

- g. Facilitating a sale of the eligible renewable energy resource under the contract to the purchasing POU, Roseville Electric Utility.
- 2. This section 4.C.iii.c.ii does not prohibit early termination provisions where the purchasing POU, Roseville Electric Utility submits information to the Commission that demonstrates the contract, notwithstanding any early termination provisions, secures a procurement commitment of at least 10 continuous years for Roseville Electric Utility consistent with the purposes of the long-term procurement requirement, including supporting long-term planning and market stability, and investments in the development of new eligible renewable energy resources or improvements to existing eligible renewable energy resources.
- iii. Notwithstanding section 4.C.iii.c.i and 4.C.iii.c.ii, a long-term contract does not include a contract that contains no specified output share or quantities of procurement or minimum pricing terms, such that the express intent of the parties to the contract is to individually negotiate the price and quantity terms in any year within the first 10 continuous years of the contract term, and neither party has an obligation to procure or sell any quantity during any such individual year.
- d. A short-term contract is defined as a contract to procure electricity products for a duration of fewer than 10 continuous years or a contract that does not meet the criteria of section 4.C.iii.a-c.
- e. The duration of a contract shall be measured from the contract start date until the contract end date, except as specified in section 4.C.iii.e.i-iii. The duration shall be deemed continuous if the contract specifies nonzero procurement quantities on an annual or compliance period basis, or a combination of both, for the contract term, except as provided in section 4.C.iii.c.i.5. The contract start date may occur before, on, or after January 1, 2021.
 - i. If electricity products are procured under a long-term contract that has been amended to extend the end date of the contract, the electricity products procured under the amendment shall be classified as long-term, except as provided in section 4.C.iii.l.
 - ii. If electricity products are procured under a short-term contract that has been amended to extend the end date of the contract, the duration of the amended contract will be measured from the amendment execution date until the amendment end date. If the amended contract duration is at least 10 continuous years and the amended contract otherwise satisfies the requirements of a long-term contract, procurement from the amended contract shall be classified as long-term as of the month and year of the amendment execution date.
 - iii. If electricity products are procured under a long-term contract that has been amended or terminated early such that the contract

duration is no longer at least 10 continuous years, only the electricity products procured prior to the amendment execution date or termination notice may be classified as long-term.

- f. Procurement from an ownership agreement shall be classified as long-term, unless the agreement specifies that the ownership duration is for a period of less than 10 continuous years. Procurement from an ownership agreement that specifies the ownership duration is for a period of fewer than 10 continuous years shall be classified as short-term.
- g. Electricity products procured in excess of the quantity that Roseville Electric Utility is obligated to procure under a long-term contract shall be treated as a new agreement for the additional quantities, except where the additional quantities are from the same RPS-certified facility or facilities and where the potential for Roseville Electric Utility to procure the additional quantities is identified in the long-term contract, in which case the additional quantities shall be treated as part of the long-term contract. Additional quantities that are treated as part of the long-term contract pursuant to this section 4.C.iii.g shall not be used to adjust the annual average quantity of the contract for purposes of section 4.C.iii.c.i.
- h. Electricity products classified as Portfolio Content Category 2 under the requirements of section 4.A shall count toward the long-term procurement requirement of this section 4.C if the electricity products are procured under a long-term contract subject to section 4.C.i-iii or an ownership agreement subject to section 4.C.iii.f, even if the matching incremental electricity is not associated with a long-term contract or an ownership agreement.
- i. Notwithstanding the requirements for underlying contracts in section 4.C.iii.a-c, electricity products classified as Portfolio Content Category 3 under the requirements of section 4.A shall be classified as long-term, subject to the maximum limit for Portfolio Content Category 3 calculated in section 3, if Roseville Electric Utility procures them through a contract that has a duration of at least 10 continuous years and Roseville Electric Utility's own contract meets the requirements of section 4.C.iii.a-c, or Roseville Electric Utility procures the electricity products through its ownership or ownership agreement.
- j. Electricity products that meet the criteria of section 4.A.ix shall be classified as long-term without regard to the requirements of section 4.C.iii.a-g.
- k. Excess procurement that was accrued in accordance with the requirements of section 7.A.ii and applied to the RPS procurement target for a compliance period beginning on or after January 1, 2021, shall be classified as long-term without regard to the requirements of section 4.C.iii.a-g.
- l. For purposes of this section 4.C, amendments, assignments, or modifications of long-term contracts or ownership agreements other than as specified in section 4.C.iii.e will be treated as follows:
 - i. Amendments or modifications that increase the expected quantities or allocation of generation under the original contract or ownership agreement resulting from efficiency improvements or an expansion of the RPS-certified facility generating the procured electricity

products shall be treated as part of the original long-term contract or ownership agreement.

- ii. Amendments or modifications that result in an increase in expected quantities or allocation of generation due to contractual changes other than those provided in section 4.C.iii.l.i, shall be treated as new agreements for the increase in expected quantities or allocation of generation, unless the increase was specified in the original long-term contract or ownership agreement.
- iii. Amendments or modifications that substitute a different eligible renewable energy resource shall be treated as new agreements for procurement of generation associated with the substitute eligible renewable energy resource unless the following conditions are satisfied:
 - 1. The original long-term contract or ownership agreement specifies the ability to add or substitute eligible renewable energy resources.
 - 2. Any eligible renewable energy resources added to or substituted in the long-term contract or ownership agreement are owned by the seller or are subject to a long-term contract in its original term or an extension that has a remaining duration of at least 10 continuous years.
 - 3. Notwithstanding section 4.C.iii.l.iii.1-2, replacement energy procured from another RPS-certified facility, as allowed by the original long-term contract, shall be considered part of the original long-term contract if Roseville Electric Utility can submit information demonstrating that the need for replacement energy occurred because the RPS-certified facility specified in the original long-term contract did not perform as the contract required.
 - a. For purposes of this section 4.C.iii.l.iii.3, "replacement energy" means electricity products provided by a seller to Roseville Electric Utility pursuant to the terms of a long-term contract to offset the failure of an RPS-certified facility to provide the amount of electricity products otherwise guaranteed under the contract. Replacement energy does not include energy provided to offset a failure of the seller to provide the guaranteed electricity products due to the sale of the guaranteed electricity products to another entity.
- iv. Amendments, assignments, or modifications of a jointly negotiated long-term contract or joint ownership agreement that reallocate electricity products among the identified joint parties shall be treated as part of the original long-term contract or ownership agreement.
- v. Assignments of long-term contracts, whereby a retail seller or Roseville Electric Utility assigns the remaining portion of its procurement obligations under a long-term contract to a second

POU, shall be treated as a long-term contract, provided the assignment maintains the commitment to procure the same type and quantity electricity products from the RPS-certified facility and the duration of the assignment is at least 10 years.

D. Exemptions and Adjustments

Per section 3204(b)(11) of the RPS Guidelines, Roseville Electric Utility owns a qualifying (in other words, that satisfies the criteria of Public Utilities Code section 399.33(a)) gas-fired power plant, and may reduce the amount of eligible renewable energy resources that it procures for a compliance period beginning January 1, 2025, subject to the following:

- i. The qualifying gas-fired power plant must be operating at or below a 20 percent capacity factor on an annual average during the compliance period in order to reduce the RPS procurement target for the compliance period.
 - a. For purposes of this section 4.D, the capacity factor on an annual average during the compliance period is calculated as the total annual generation produced by the power plant divided by the total annual generation the power plant could have produced that year if it had operated at nameplate capacity for the entire year.

The numerical expression to determine the capacity factor on an annual average during the compliance period is:

$$((G_{X1} \div C_{X1}) + (G_{X2} \div C_{X2}) + (G_{X3} \div C_{X3}))/3$$

G_X = Quantity of generation from a gas-fired power plant for year X of the compliance period

C_X = Quantity of generation that the gas-fired power plant could have produced for year X if it had operated at nameplate capacity for the entire year

- ii. Additional procurement of eligible renewable energy resources or zero-carbon resources resulted in the power plant operating at, or below, a 20 percent capacity factor on an annual average during the compliance period.
- iii. Roseville Electric Utility has attempted to mitigate against the reduction of generation to below 20 percent of the qualifying gas-fired power plant's total capacity by attempting to sell the power plant or attempting to sell the generation from the power plant to the extent it is practicable and does not result in resource shuffling.¹
- iv. Roseville Electric Utility has procured eligible renewable energy resources equal to 45 percent of its retail sales by December 31, 2027, 50 percent by 2030, and 50 percent for each three-year multiyear compliance period

¹ "Resource Shuffling" is defined in Chapter 1 (commencing with Section 95800) of Division 3 of Title 17 of the California Code of Regulations.

thereafter, and reasonable progress in each of the intervening years of these compliance periods.

The numerical expression of this requirement for the compliance period beginning January 1, 2025, ending December 31, 2027, is:

$$(EP_{2025} + EP_{2026} + EP_{2027}) = 0.4167 (RS_{2025}) + 0.4333 (RS_{2026}) + 0.4500 (RS_{2027})$$

The numerical expression of this requirement for the compliance period beginning January 1, 2028, ending December 31, 2030, is:

$$(EP_{2028} + EP_{2029} + EP_{2030}) = 0.4667 (RS_{2028}) + 0.4833 (RS_{2029}) + 0.5000 (RS_{2030})$$

The numerical expression of this requirement for the three-year compliance period beginning January 1, 2031, and subsequent three-year compliance periods is:

$$(EP_{X1} + EP_{X2} + EP_{X3}) = 0.5000 (RS_{X1}) + 0.5000 (RS_{X2}) + 0.5000 (RS_{X3})$$

EP_X = Electricity products applied to the specified year X toward the RPS procurement target for the compliance period containing year X. This may include electricity products retired for and applied to year X, subject to the Portfolio Content Category 3 limit calculated in section 3204 (c) of the RPS Guidelines, and excess procurement pursuant to section 3206 (a)(1) and historic carryover pursuant to section 3206 (a)(5) that the City of Roseville has applied to year X.

RS_X = Retail sales made by the City of Roseville for the specified year X

- v. If Roseville Electric Utility satisfies the conditions of sections 4.D.i-iv, it may reduce its procurement target for the compliance period calculated in section 4.D.iv by the difference between the gas-fired power plant's actual generation for the compliance period and the amount of generation it could have produced if it had operated at a 20 percent capacity factor on an annual average during the compliance period.
- vi. The reduction of the procurement target will be calculated using the quantity of qualifying gas-fired generation as reported in accordance with section 3207 (m) of the RPS Guidelines.
- vii. This procurement requirement reduction shall be available only until December 31 of the calendar year during which the qualifying gas-fired power plant's original term of bonded indebtedness expires.
- viii. RPS procurement requirements deficits incurred by Roseville Electric Utility in any compliance period shall not be added to the RPS procurement requirements of Roseville Electric Utility in a future compliance period.

- ix. In addition to the applicable reporting requirements in section 3207 (a)-(d) of the RPS Guidelines, starting with the compliance period beginning January 1, 2025, if the City of Roseville reduces its procurement target pursuant to section 3204 (b)(11), it shall submit to the Commission, by the deadline for annual reports specified in section 3207 (c) for the final year of each compliance period, the following information:
 - a. The quantity, in MWh, of generation from a qualifying gas-fired power plant for each year of the compliance period.
 - b. Documentation demonstrating that the qualifying gas-fired power plant meets the criteria of Public Utilities Code section 399.33 (a). This documentation may include, but is not limited to: findings adopted by the City of Roseville's City Council, adopted City Council resolutions, proof of facility ownership, financial records, compliance filings, and/or wage schedules or other such documents for facility employees.
 - c. The nameplate capacity of the facility and the City of Roseville's calculation of the facility's capacity factor for each year of the compliance period based on the facility's annual generation for that year.
 - d. Documentation demonstrating the City of Roseville's efforts to sell the qualifying gas-fired power plant or gas-fired power plant generation to mitigate against the reduction of generation below a 20 percent capacity factor.
 - e. Documentation demonstrating that additional procurement of eligible renewable energy resources or zero-carbon generation resources resulted in the power plant operating at, or below, a 20 percent capacity factor on an average annual basis during the compliance period.
 - f. Any additional documentation requested by the Commission necessary to determine whether the City of Roseville meets the criteria specified in Public Utilities Code section 399.33 (a) and satisfied the requirements of section 3204 (b)(11) of the RPS Guidelines.

5. Plan for Roseville's RPS Requirement

A. Procurement/Retirement Strategy

The City of Roseville Electric Utility (Roseville Electric Utility, or Roseville) plans to pursue a procurement strategy that maximizes flexibility and allows for retirement and banking of excess renewable energy credits (REC). This strategy will allow Roseville Electric Utility to bank excess eligible RECs and apply them to future compliance periods.

Because RECs must be retired within three years of being created, the only way to "bank" an eligible REC for longer periods is to take advantage of the excess procurement optional compliance measure identified later in this document (section 7.A.).

B. Grandfathered and “Other” Resources not Subject to Portfolio Balance Requirements

Roseville Electric Utility entered into several contracts prior to June 1, 2010, which makes them PCC0 resources (“other”) that are not subject to the portfolio balance requirements. “Other” resources are defined as those from pre-June 1, 2010, contracts that meet the current RPS requirements, but did not meet the RPS “rules in place” at the time the contract was signed. The following list describes Roseville’s grandfathered resources and “other” resources not subject to the portfolio balance requirements.

- i. Roseville has a contract with the Western Area Power Administration (WAPA) for a share of the output of the Central Valley Project Base Resource, located in California. A portion of this project is small hydro which qualifies as renewable.
- ii. Roseville has a contract with Northern California Power Agency for 12% of the Calaveras hydro project, which includes the 6 MW New Spicer power plant located in California. The energy from the New Spicer plant qualifies as renewable.
- iii. Roseville has contracts with Northern California Power Agency for a combined total of 7.883% of the Geothermal projects output. The projects have a total capacity of 220 MW and are located in California. The energy from these projects qualify as renewable.

C. Portfolio Content Category Resources

In general, PCC1 renewable energy is the most expensive and PCC3 is the least expensive, with PCC2 prices falling in between PCC1 and PCC3 prices. To meet the RPS requirements in the most cost effective way and minimize costs to ratepayers, PCC3 energy should be maximized in order to minimize the amount of PCC1 needed, with the balance met by PCC2 energy.

In September 2012, Roseville entered into a contract with the City of Santa Clara to procure PCC1 energy and RECs.

In July 2013, Roseville entered into a contract with Lost Hills Solar, LLC and Blackwell Solar, LLC to procure PCC1 energy and RECs.

In September 2014, Roseville entered into a contract with Iberdrola Renewables, LLC, to procure PCC1, PCC2, and PCC3 energy and/or RECs.

In March 2015, Roseville entered into a contract with Powerex, Inc., to procure PCC1 energy and RECs.

In February 2021, Roseville extended the Base Resource contract with Western Area Power Administration to continue to procure PCC1 energy and RECs.

In December 2021, Roseville entered into a contract with South Feather Water and Power Agency via NCPA to procure PCC1 energy and RECs.

With the above contracts, Roseville has contracted for sufficient renewables to meet Roseville's RPS obligations through the year 2024 under the sixty percent (60%) by 2030 RPS standard.

6. Procurement Process

Pursuant to Public Utilities Code section 399.30(n), in all manners regarding compliance with the RPS, the City of Roseville shall retain exclusive control and discretion over both of the following:

- i. The mix of eligible renewable energy resources procured by the utility and those additional generation resources procured by the utility for purposes of ensuring resource adequacy and reliability.
- ii. The reasonable costs incurred by the utility for eligible renewable energy resources owned by the utility.

The Power Supply section regularly analyzes the City of Roseville's RPS procurement needs. Portfolio supply and demand are assessed. If needed, a solicitation for renewable energy is conducted. Generally, the best offers of each PCC and generator type are identified and short-listed. These offers are the first to be considered. Offers received outside the solicitation process are only considered if they are competitive with the most recent solicitation short-listed offers.

Offers are evaluated for:

- i. Direct and indirect costs, including but not limited to: contract price of energy and REC, plus transmission and integration costs
- ii. Risk, including but not limited to: cost risk, credit risk, deliverability risk, regulatory risk, and project viability
- iii. Portfolio fit (including, but not limited to, such factors as timing, quantity, and PCC type)

Offers are pursued and contracts are negotiated within the cost limitations for expenditures, set in section 7 of this RPS Procurement Plan.

Pursuant to Public Utilities Code section 399.21(a)(7) and section 3202 of the RPS Guidelines, all RECs will be retired within 36 months from the initial date of generation of the associated electricity.

7. Optional Compliance Measures

Specific optional compliance measures are allowed pursuant to Public Utilities Code section 399.30(d) and section 3206 of the RPS Guidelines. The City of Roseville adopts the following optional measures as part of this RPS Procurement Plan. The City of Roseville will submit the rules or rule revisions adopted under section 3206 of the RPS Guidelines to the Commission within 30 calendar days after adoption. The rules or rule revisions shall be submitted along with all reports, analyses, findings, and any other information upon which the City of Roseville relied in adopting the rule or rule revision.

A. Excess Procurement

Pursuant to Public Utilities Code section 399.30(d) and section 399.13(a)(4)(B) and section 3206(a)(1) of the RPS Guidelines, the City of Roseville shall be allowed to apply excess procurement in one compliance period to subsequent compliance periods as long as the following conditions are met:

- i. If the City of Roseville has applied sufficient electricity products to satisfy its RPS procurement requirements of the compliance period, without using other optional compliance measures (delay of timely compliance, cost limitations, portfolio balance requirement reduction);
- ii. Excess procurement accrual will be subject to the following limitations for the Compliance Periods beginning January 1, 2011, through December 31, 2020:
 - a. Electricity products that meet the criteria of section 3202 (a)(1) or section 3202 (a)(3), and are classified in Portfolio Content Category 3 may not be accrued as excess procurement.
 - b. Electricity products that meet the criteria of section 3202 (a)(1) and that exceed the maximum limit for Portfolio Content Category 3 for the compliance period, as specified in section 3204 (c), must be subtracted from the calculation of accrued excess procurement.
 - c. Electricity products procured under contracts of less than 10 years in duration in accordance with section 3206 (a)(1)(C)4. shall be subtracted from the calculation of accrued excess procurement, unless the electricity product meets the criteria in section 3202 (a)(2).
 - d. For purposes of calculating accrued excess procurement for the compliance periods beginning January 1, 2011, through December 31, 2020, if electricity products are procured under a contract that has been amended to extend the term, the duration of the amended contract will be calculated from the original contract execution date to the amended contract end date. If electricity products are procured under a contract of less than 10 years in duration that has been amended to extend the total term to at least 10 years in duration, then electricity products generated as

of the month and year in which the contract amendment occurs will be eligible to qualify as excess procurement.

- iii. Excess procurement accrual will be subject to the following limitations for the compliance periods beginning on or after January 1, 2021:
 - a. Electricity products that meet the criteria of section 3202 (a)(1) or section 3202 (a)(3), and are classified in Portfolio Content Category 2 or Portfolio Content Category 3, may not be accrued as excess procurement;
 - b. Electricity products that meet the criteria of section 3202 (a)(1) and that exceed the maximum limit for Portfolio Content Category 3 for the compliance period, as specified in section 3204 (c), must be subtracted from the calculation of accrued excess procurement.
- iv. Excess procurement may be accrued no earlier than January 1, 2011.
- v. Electricity products accrued as excess procurement may be applied toward any future compliance periods, except as specified below:
 - a. Electricity products accrued in accordance with section 3206 (a)(1)(C) that are classified in Portfolio Content Category 2 may not be applied toward the RPS procurement requirements of a compliance period beginning on or after January 1, 2028.
- vi. Excess procurement for each compliance period starting January 1, 2021 shall be calculated using the following formula as specified in the RPS Guidelines, section 3206(a)(1):

$$\text{Excess Procurement}_x = EP_x - (RPS_x - B_x) - (S3_x + STC_x)$$

EP_x = Electricity Products retired for the compliance period x

RPS_x = The RPS procurement target calculated in section 3204 (a) for compliance period X or, if greater than the target, the amount of electricity products applied toward the target. This may include electricity products retired for compliance period X , excess procurement accrued in a prior compliance period, or historic carryover pursuant to section 3206 (a)(5), that the City of Roseville has applied toward the target.

B_x = Any excess procurement accrued in a prior compliance period or historic carryover pursuant to section 3206 (a)(5) that the City of Roseville has applied toward the RPS procurement target calculated in section 3204 (a) for compliance period X

$S3_x$ = Any remaining retired electricity products that meet the criteria of section 3202 (a)(1) or section 3202 (a)(3), and the definition of Portfolio Content Category 3

STC_x = Any remaining retired electricity products that meet the criteria of section 3202 (a)(1) or section 3202 (a)(3), and are associated

with contracts less than 10 years in duration in accordance with section 3206 (a)(1)(C)4

B. Delay of Timely Compliance

Pursuant to Public Utilities Code section 399.30(d)(2)(A) and section 399.15(b)(5) and section 3206(a)(2) of the RPS Guidelines, the City of Roseville shall adopt rules allowing it to determine that conditions beyond the control of the City of Roseville exist to delay timely compliance with RPS procurement requirements, as defined in section 3204.

Roseville's adopted rules shall limit the determination to one or more of the causes for delay specified in section 3206 (a)(2)(A)1.-4. The City of Roseville's determination shall include information showing that it would have met its RPS procurement requirements but for the cause(s) of delay:

- i. There is inadequate transmission capacity to allow sufficient electricity to be delivered from eligible renewable energy resources, or proposed eligible renewable energy resource projects, to the extent applicable, using the current operational protocols of the balancing authority in which the City of Roseville operates. If the City of Roseville at the time of the determination owns transmission or has transmission rights, it shall include in its determination information showing how the inadequate transmission capacity delayed timely compliance and:
 - a. That the City of Roseville has undertaken all reasonable measures under its control and consistent with its obligations under local, state, and federal laws and regulations, to develop and construct new transmission lines or upgrades to existing lines intended to transmit electricity generated by eligible renewable energy resources in light of its expectation for cost recovery.
 - b. That the City of Roseville has taken all reasonable operational measures to maximize cost-effective purchases of electricity from eligible renewable energy resources in advance of transmission availability.
- ii. Permitting, interconnection, or other circumstances have delayed procured eligible renewable energy resource projects, or there is an insufficient supply of eligible renewable energy resources available to the City of Roseville. The City of Roseville will include in its determination information showing how the permitting, interconnection, or other circumstances caused delayed projects or insufficient supply and that the City of Roseville:
 - a. Prudently managed portfolio risks, including, but not limited to, holding solicitations for RPS-eligible resources with outreach to market participants and relying on a sufficient number of viable projects to achieve RPS procurement requirements.

- b. Sought to develop either its own eligible renewable energy resources, transmission to interconnect to eligible renewable energy resources, or energy storage used to integrate eligible renewable energy resources.
 - c. If the cause for delay or insufficient supply was foreseeable, procured an appropriate minimum margin of procurement above the level necessary to comply with the RPS to compensate for foreseeable delays or insufficient supply. The City of Roseville's determination shall identify the minimum margin of procurement that the City of Roseville deemed appropriate to compensate for foreseeable delays or insufficient supply.
 - d. Taken reasonable measures to procure cost-effective distributed generation and allowable unbundled RECs.
- iii. Unanticipated curtailment of eligible renewable energy resources, if the delay of timely compliance would not result in an increase in greenhouse gas emissions. The City of Roseville's determination shall include information showing that unanticipated curtailment of eligible renewable energy resources delayed timely compliance and did not result in an increase in greenhouse gas emissions.
- iv. Unanticipated increase in retail sales due to "transportation electrification," as defined in Public Utilities Code section 237.5. The City of Roseville's determination shall include information showing that it considered the following:
 - a. Whether transportation electrification significantly exceeded forecasts in the City of Roseville's service territory based on the best and most recently available information available to it. Transportation electrification forecasts may include, but are not limited to, information filed with the State Air Resources Board, the Commission, or another state agency, forecasts in the City of Roseville's integrated resource plan developed pursuant to Public Utilities Code section 9621, or other forecasts developed or approved by the City of Roseville.
 - b. Whether the City of Roseville has taken reasonable measures to procure sufficient resources to account for unanticipated increases in retail sales due to transportation electrification.

Pursuant to Public Utilities Code section 399.15(b)(9) and section 3204(e) of the RPS Guidelines, in no event shall a deficit associated with the compliance period be added to a future compliance period.

If the City of Roseville approves a delay in compliance for a particular compliance period, Roseville Electric shall provide a compliance plan within 3 months that identifies actions to ensure future procurement requirements.

C. Cost Limitations for Expenditures

- i. Pursuant to Section 3206(a)(3) of the POU RPS Enforcement Regulations and Public Utilities Code Sections 399.30(d) and 399.15(c), Roseville Electric Utility adopts the following rules for cost limitations on the procurement expenditures used to comply with its RPS procurement requirements to ensure that RPS compliance costs do not result in disproportionate rate impacts.
- ii. To comply with the cost limitation, Roseville Electric Utility shall not make any financial commitment to procure eligible renewable energy resources prior to evaluating the rate impacts of such procurement utilizing the effective rates adopted by the City Council and published in the City of Roseville Municipal Code, Title 14.
- iii. The cost limitation rules are set at a level that Roseville Electric Utility has determined will prevent disproportionate rate impacts.
 - a. In determining whether RPS procurement will exceed this cost limitation provision, Roseville Electric Utility shall assess the following:
 - i. The applicable total retail load and renewable energy costs.
 - ii. The City of Roseville Integrated Resource Plan (IRP), which provides a strategic framework to ensure RPS procurement aligns with long-term resource planning, cost-effectiveness, rate stability, and regulatory requirements.
 - iii. The then-current RPS procurement budget established by Roseville Electric Utility, reflects the planned acquisition of Renewable Energy Credits (RECs) or renewable resources necessary to meet RPS targets. This budget is based on projected REC shortages and compliance requirements, ensuring the utility meets state mandates while adhering to financial constraints.
 - iv. Procurement expenditures that approximate the expected cost of building, owning, and operating eligible renewable energy resources.
 - v. The potential that some planned resource additions may be delayed or canceled.
 - b. In calculating the cost limitation, Roseville Electric Utility shall:
 - i. Calculate a dollar per kilowatt hour (\$/kWh) expected cost based on the total budgeted RPS procurement costs and projected energy delivery costs, ensuring that procurement stays within financial constraints.
 - ii. For the period ending December 31, 2027, using the rates effective June 1, 2024, as adopted by the City Council and published in the

City of Roseville Municipal Code, Title 14, Roseville Electric Utility shall ensure that there are no further customer rate increases attributable to eligible renewable energy procurement. Beginning on January 1, 2028, and for the time period thereafter, Roseville Electric Utility shall ensure eligible renewable energy procurement costs per \$/kWh increases do not exceed 3% average compounded per year, or such other level as may be approved by the City Council.

- iv. When calculating procurement expenditures under this cost limitation rule, Roseville Electric Utility shall include:
 - a. The costs associated with eligible renewable energy, renewable attributes, firming and shaping, and/or storage, as needed for intermittent resources;
 - b. Any other costs attributable to meeting the RPS procurement mandate; and
 - c. The costs associated with the delivery of renewable energy.
- v. If the projected cost of meeting the renewables portfolio standard procurement requirements exceed the cost limitation threshold established herein, Roseville Electric Utility shall:
 - i. Review its RPS Procurement Plan to assess whether alternatives are available that would otherwise allow Electric Roseville Utility to meet its renewable energy procurement requirements, which will include evaluation of current procurement commitments, planned procurements, long-term commitments, and the availability of alternative resources in other portfolio content categories; and
 - ii. Seek to implement the other optional compliance measures, such as delaying timely compliance and/or portfolio balance requirement reduction.
 - iii. Elect to waive the cost limitation adopted in this section.
- vi. If the projected cost of meeting the renewable portfolio standard procurement requirements exceed the cost limitation provision established herein, and compliance is not attainable based on a review of the elements set forth in Section 7.C.v above, Roseville Electric Utility, in its sole discretion may refrain from entering into new contracts or constructing facilities beyond the quantity that can be procured within the limitation unless eligible renewable energy resources can be procured without resulting in any further customer rate increases for the procurement through December 31, 2027, or beginning on January 1, 2028, and continuing thereafter, Roseville Electric Utility shall ensure eligible \$/kWh

renewable energy procurement costs do not exceed 3% average compounded per year, or such other level as may be approved by the City Council.

D. Portfolio Balance Requirement Reduction

Pursuant to Public Utilities Code section 399.16(e) and section 3206(a)(4) of the RPS Guidelines, the City of Roseville shall adopt rules that allow for the reduction of the portfolio balance requirement for Portfolio Content Category 1 for a specific compliance period consistent with Public Utilities Code section 399.16 (e). In applying this provision, the City of Roseville will consider all of the following:

- i. The need to reduce the portfolio balance requirements for Portfolio Content Category 1 must have resulted because of conditions beyond the control of the City of Roseville as provided in the Delay of Timely Compliance section.
- ii. A reduction of the portfolio balance requirement for Portfolio Content Category 1 below 65 percent, will not be considered consistent with Public Utilities Code section 399.16 (e).
- iii. The City of Roseville, when reducing its portfolio balance requirements for Portfolio Content Category 1, will adopt these changes at a publicly noticed meeting, and will include this information in an updated renewable energy resources procurement plan submitted to the Commission. The notice to consider the portfolio balance requirement reduction and the procurement plan must include the following information:
 - a. The compliance period for which the reduction may be adopted.
 - b. The level to which the City of Roseville has reduced the requirement.
 - c. An explanation of how the needed reduction resulted from conditions beyond the control of the City of Roseville as provided in the Delay of Timely Compliance section.

E. Invoking Optional Measures

Roseville Electric Utility plans to invoke the Optional Compliance Measures as described in section 7 of this plan as needed.

8. Reporting

Pursuant to section 3207 of the RPS Guidelines, the City of Roseville shall submit annual and compliance period reports to the CEC as identified below.

A. Annual Reports

By July 1 of each year, the City of Roseville shall submit an annual report to the CEC that includes the information in sections i. through iv. below for the prior calendar year. The format for the annual report shall be specified by the Commission, but the information contained in the annual report may be combined with other existing reports

that contain the same information and are also supplied to the Commission. If the annual report refers to information provided to the Commission through existing reports, the annual report shall reference the information by identifying the name, submittal date, and page number of the existing report. The annual report shall include an attestation, signed by an authorized agent of the City of Roseville, affirming that the information provided in the report is true and correct. The following shall be included in the report:

- i. Identifying information, including: POU name, contact name, mailing address, phone number, and email address.
- ii. RPS annual progress information for the prior calendar year, including:
 - a. Amount of retail sales to end-use customers, in MWh, and projected retail sales for the current compliance period.
 - b. Amount of procured electricity products retired, in MWh, and total projected electricity products retired for the current compliance period.
 - c. Western Renewable Energy Generation Information System (WREGIS) compliance report for procurement claims in the prior calendar year. For any procurement claims not tracked through WREGIS as permitted by the RPS Guidelines, the City of Roseville shall report procurement claims using the process specified in the RPS Guidelines.
 - d. An initial, nonbinding classification of retired electricity products qualifying for each portfolio content category or qualifying to count in full in accordance with section 3202 (a)(2) of the RPS Guidelines.
 - e. An initial, nonbinding classification of retired electricity products qualifying as long-term or short-term in accordance with section 3204 (d) of the RPS Guidelines.
 - f. Information and supporting contract documentation for each of the eligible renewable energy resources with which the City of Roseville has executed contracts or ownership agreements during the prior year, including but not limited to the contracted amount of MWh or the contracted percentage of the resource's total output, if applicable; resource fuel type; the execution date of the procurement contract or ownership agreement; the contract or ownership agreement start date; the duration of the procurement contract or ownership agreement in accordance with section 3204 (d) of the RPS Guidelines; the anticipated portfolio content category classification(s) for the electricity products procured through the contract or ownership agreement; the anticipated long-term or short-term classification for the electricity products procured through the contract or ownership agreement; the seller's name, if the resource is not owned by the City of Roseville; a summary of the resource names and identification numbers; and for long-term contracts, information on how the contract meets the requirements of section 3204 (d) of the RPS Guidelines, including the

associated page numbers in the contract where the terms can be located, subject to the following subsections:

- (A) Upon request from Commission staff, if the City of Roseville has a long-term contract pursuant to section 3204 (d)(2)(B)2 of the RPS Guidelines, it shall submit documentation showing that the underlying contract(s) meet the requirements of section 3204 (d)(2)(A)-(C) of the RPS Guidelines. For contracts executed prior to July 1, 2020, this documentation may include excerpted contract information, an attestation by the third-party supplier regarding the underlying contract duration or ownership of the RPS-certified facility or facilities, or both.
 - (B) Documentation demonstrating a long-term contract meets the requirements of section 3204 (d)(2)(A)-(C) of the RPS Guidelines may be submitted directly to the Commission by the third-party supplier or another party on the City of Roseville's behalf. The documentation may include an attestation by the City of Roseville that the contract with the RPS-certified facility or facilities meets the requirements of section 3204 (d)(2)(A)-(C) of the RPS Guidelines. An attestation may be submitted only if the City of Roseville possesses records to support the accuracy of the information to which it attests and the City of Roseville agrees to make such records available to the Commission upon request in the event of an audit or investigation.
- g. Documentation demonstrating the portfolio content category classification and long-term or short-term classification claimed for all of the City of Roseville's procured electricity products during the prior year. This documentation may include contract information, if not previously submitted; interconnection agreements; NERC e-Tag data; scheduling agreements; and firming and shaping agreements.
 - h. A description of any modifications to contracts, ownership, or ownership agreements previously reviewed and evaluated by the Commission from which the City of Roseville intends to claim long-term procurement, including, but not limited to, changes to contract duration, procurement quantities, addition or substitution of resources or fuel, reallocation between parties of a jointly negotiated contract, and efficiency improvements or facility expansions that change procured generation. The City of Roseville's explanation shall include documentation supporting the modifications.
 - i. A description of any identified issues that occurred that have the potential to delay timely compliance with the RPS procurement requirements

defined in section 3204 of the RPS Guidelines, and planned actions to minimize the delay of timely compliance. Such issues may include, but are not limited to, inadequate transmission to allow for procurement to be delivered from eligible renewable energy resources, permitting, interconnection, or other circumstances that have delayed the procurement from eligible renewable energy resources, unanticipated curtailment of a contracted or owned eligible renewable energy resource, and higher-than-expected costs for the procurement or development of eligible renewable energy resources.

- j. A description of the energy consumption by the City of Roseville, including any electricity used by the City of Roseville for water pumping, or any other electricity procured by the City of Roseville for purposes other than supplying its retail sales. The description shall include the purpose of this consumption, the annual amount in MWh associated with the consumption or other end-use, and whether the consumption or other end-use was excluded from the City of Roseville's retail sales.
- iii. Actions taken by the City of Roseville in the prior calendar year and planned to be taken in the current calendar year demonstrating reasonable progress toward meeting its RPS procurement requirements. The information reported shall include:
 - a. Solicitations released to solicit bid for contracts to procure electricity products from eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.
 - b. Solicitations released to solicit bid for ownership agreements for eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.
 - c. Actions taken to develop eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements, including initiating environmental studies, completing environmental studies, acquiring interests in land for facility siting or transmission, filing applications for facility or transmission siting permits, and receiving approval for facility or transmission siting permits.
 - d. Interconnection requests filed for eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.
 - e. Interconnection agreements negotiated and executed for eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.
 - f. Transmission-related agreements negotiated and executed to transmit electricity products procured from eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.

- g. Other planning activities to procure electricity products from eligible renewable energy resources.
- iv. The City of Roseville shall include a description of all actions planned in the current calendar year to demonstrate progress towards achieving its RPS procurement requirements, as specified in the prior section.

B. Compliance Period Reports

At the end of each Compliance period, the City of Roseville shall submit to the CEC a compliance report that provides the following information for the applicable compliance period:

- i. The City of Roseville's RPS procurement target for the compliance period, in MWh.
- ii. The amount of draft verified procurement retired, in MWh, for the compliance period that the City of Roseville applies toward the RPS procurement requirements for the compliance period. The City of Roseville shall report the amount of draft verified procurement applied from each portfolio content category or meeting the criteria of section 3202 (a)(2) of the RPS Guidelines. For each portfolio content category, the City of Roseville shall additionally report the amount from each category that is classified as long-term or short-term.
- iii. The amount of excess procurement, in MWh, accrued in previous compliance periods, if any, and historic carryover, if any, that the City of Roseville is applying to the RPS procurement target for the compliance period. The City of Roseville shall report the amount of excess procurement applied from each portfolio content category or that meets the criteria of section 3202 (a)(2) of the RPS Guidelines or historic carryover. For each portfolio content category, the City of Roseville shall additionally report the amount that is classified as long-term or short-term.
- iv. The amount of excess procurement, in MWh, accrued for the compliance period, if any, that may be applied toward future compliance periods, as determined by applying the calculation in section 3206 (a)(1)(H) or section 3206 (a)(1)(I)6 of the RPS Guidelines, as applicable. The City of Roseville shall report the amount of accrued excess procurement from each portfolio content category or meeting the criteria of section 3202 (a)(2) of the RPS Guidelines. For each portfolio content category, the City of Roseville shall additionally report the amount that is classified as long-term or short-term.
- v. If a City of Roseville's compliance report indicates that the City of Roseville's RPS procurement requirements were not met, the City of Roseville shall submit copies of its renewable energy resource procurement plan(s) and enforcement program(s) in effect during the compliance period, if not previously submitted to the Commission, and provide documentation to justify the application of any

optional compliance measures adopted by the City of Roseville in accordance with section 3206 and 3207(d)(5) of the RPS Guidelines. The documentation shall include all reports, analyses, proposed findings, and any other information upon which the City of Roseville relied in applying the measure, as well as the amount of the shortfall each optional compliance measure is intended to satisfy.

[This page intentionally left blank]

1. Introduction

A Renewables Portfolio Standard (RPS) Procurement Plan is required by Senate Bill (SB) X1-2 (Simitian, Stats. 2011, 1st Ex. Session, Ch. 1), the “California Renewable Energy Resources Act” and must be approved by the Roseville City Council. This document describes the RPS Procurement Plan of the City of Roseville (alternatively referred to as ~~Roseville Electric~~Roseville Electric Utility), as required by the Public Utility Code section 399.30(a)(1) and (a)(2) and section 3205 of the California Energy Commission’s (CEC or Commission) regulations for *Enforcement Procedures for the Renewables Portfolio Standard for Local Publicly Owned Electric Utilities* (RPS Guidelines), ~~as enacted~~effective on July 12, 2021.

2. Notifications

Pursuant to Public Utilities Code section 399.30(f) and section 3205 of the RPS Guidelines, City Council’s consideration of this RPS Procurement Plan will be posted using the standard City Council agenda posting process. Within 30 days of adoption by City Council, this RPS Procurement Plan will be sent to the CEC.

Pursuant to Public Utilities Code section 399.30(d) and section 3206 of the RPS Guidelines, this RPS Procurement Plan includes optional compliance measures ~~for adoption by the City Council. Optional measures must be adopted at a publicly noticed meeting prior to the end of the compliance period in which they will be used. All optional measures adopted must be sent to the CEC within 30 days of adoption.~~

3. Compliance Periods and Procurement Requirements

Public Utility Code section 399.30(b) and (c), section 399.15(b)(1) and (b)(2), and section 3204 of the RPS Guidelines mandate that state-defined renewable resources make up a specified percentage of each utility’s retail sales with a current goal of 60% by 2030.

- i. Compliance Period 4 is calendar years 2021 through 2024 and requires forty-four percent (44%) renewables by the end of the compliance period, applying the following formula:

$$\sum_{x=2021}^{2024} EP_x \geq .3575(RS_{2021}) + .385(RS_{2022}) + .4125(RS_{2023}) + .44(RS_{2024})$$

- ii. Compliance Period 5 is calendar years 2025 through 2027 and requires fifty-two percent (52%) renewables by the end of the compliance period, applying the following formula:

$$\sum_{x=2025}^{2027} EP_x \geq .46(RS_{2025}) + .5(RS_{2026}) + .52(RS_{2027})$$

- iii. Compliance Period 6 is calendar years 2028 through 2030 and requires sixty percent (60%) renewables by the end of the compliance period, applying the following formula:

$$\sum_{x=2028}^{2030} EP_x \geq .5467(RS_{2028}) + .5733(RS_{2029}) + .60(RS_{2030})$$

- iv. Beginning on and after January 1, 2031, compliance periods shall be three years in length starting on January 1 and ending on December 31. Beginning in the compliance period starting in 2031, and subsequent compliance periods thereafter, there is a requirement to maintain the 60% renewable standard, applying the following formula. The length of these compliance periods are to be established by the CEC.

$$EP_{x1} + EP_{x2} + EP_{x3} \geq 0.6000 (RS_{x1}) + 0.6000 (RS_{x2}) + 0.6000 (RS_{x3})$$

Roseville shall demonstrate reasonable progress toward meeting the compliance period targets in each compliance period's included years. The following table summarizes the annual "soft" targets, but compliance is determined over the entire compliance period using the formulas above.

Compliance Period 4				Compliance Period 5			Compliance Period 6			Annually
2021	2022	2023	2024	2025	2026	2027	2028	2029	2030	2031 and beyond
35.75%	38.5%	41.25%	44%	46%	50%	52%	54.67%	57.33%	60%	60%

Table 1. Renewables Portfolio Standard requirements for renewable energy

4. Portfolio Content Categories, Portfolio Balance Requirements, Long Term Procurement Requirements, and Exemptions and Adjustments

A. Portfolio Content Categories

In addition to meeting the renewable energy procurement target, the renewable energy must meet pPortfolio Content Category (PCC) requirements as defined in Public

Utilities Code section 399.16(b) and section 3203 of the RPS Guidelines; however, as defined in the Public Utilities Code section 399.16(d) renewable energy procured prior to June 1, 2010, is termed “grandfathered” and does not have to meet the category requirements. There are four categories of renewable energy, as follows:

Portfolio Content Category 1

- i. ~~Portfolio Content Category PCC~~ 1 electricity products must be procured bundled to be classified as ~~Portfolio Content Category PCC~~ 1, and ~~Roseville Electric~~Roseville Electric Utility may not resell the underlying electricity from the electricity product back to the eligible renewable energy resource from which the electricity product was procured. The electricity products must be generated by an eligible renewable energy resource that is interconnected to a transmission network within the WECC service territory. For purposes of this section 4.A, the first point of interconnection to the WECC transmission grid is the substation or other facility where generation tie lines from the eligible renewable energy resource interconnect to the network transmission grid. ~~Portfolio Content Category PCC~~ 1 electricity products must also meet one of the following criteria:
 - a. Electricity products must be generated by an eligible renewable energy resource that has its first point of interconnection within the metered boundaries of a California balancing authority area.
 - b. Electricity products must be generated by an eligible renewable energy resource that has its first point of interconnection to an electricity distribution system used to serve end users within the metered boundaries of a California balancing authority area. For purposes of this section 4.A, the first point of interconnection to an electricity distribution system is within the service area boundaries of a utility distribution company.
 - c. Electricity products from the eligible renewable energy resource with a first point of interconnection outside the metered boundaries of a California balancing authority must be scheduled into a California balancing authority without substituting electricity from another source. For purposes of this section 4.A, electricity generated by the eligible renewable energy resource must be scheduled into a California balancing authority on an hourly or subhourly basis, and the City of Roseville’s City Council or other authority, as delegated by the City of Roseville’s City Council, must have approved an agreement, before the electricity is generated, to schedule the electricity from the eligible renewable energy resource into the California balancing authority on an hourly or subhourly basis. If there is a difference between the amount of electricity generated within an hour and the amount of electricity scheduled into a California balancing authority within that same

hour, only the lesser of the two amounts shall be classified as ~~Portfolio Content Category PCC 1~~.

- d. Electricity products must be subject to an agreement between a California balancing authority and the balancing authority in which the eligible renewable energy resource is located, executed before the product is generated, to dynamically transfer electricity from the eligible renewable energy resource into the California balancing authority area. For purposes of this section 4.A, electricity generated by the eligible renewable energy resource shall be scheduled into a California balancing authority area on an hourly or subhourly basis.
- ii. Electricity products originally qualifying in ~~Portfolio Content Category PCC 1~~ and resold must meet the following criteria to remain in ~~Portfolio Content Category PCC 1~~:
 - a. The original contract for procurement of the electricity products meets one of the criteria in section 4.A.i.a-d.
 - b. The resale contract transfers only electricity and RECs that have not yet been generated prior to the effective date of the resale contract.
 - c. The electricity and associated RECs must be transferred by the resale contract to the ultimate buyer, and the electricity must be transferred in real time.
 - d. For those electricity products that satisfy section 4.A.i.c, the original hourly or subhourly schedule is maintained, and the criteria of section 4.A.ii.a-c are met.
- iii. Electricity products originally qualifying in ~~Portfolio Content Category PCC 1~~ and resold that do not meet the criteria of section 4.A.ii.a-d shall not be counted in ~~Portfolio Content Category PCC 1~~.

Portfolio Content Category 2

- iv. ~~Portfolio Content Category PCC 2 (PCC2)~~ electricity products must be generated by an eligible renewable energy resource that is interconnected to a transmission network within the WECC service territory, and the electricity must be matched with incremental electricity that is scheduled into a California balancing authority.
- v. Additionally, PCC2 products must be procured bundled and must meet all of the following criteria:
 - a. The first point of interconnection to the WECC transmission grid for both the eligible renewable energy resource and the resource providing the incremental electricity must be located outside the metered boundaries of a California balancing authority area.

- b. The incremental electricity used to match the electricity from the eligible renewable energy resource must be incremental to ~~Roseville-Electric~~Roseville Electric Utility. For purposes of this section 4.A, “incremental electricity” means electricity that is generated by a resource located outside the metered boundaries of a California balancing authority area and that is not in the portfolio of ~~Roseville-Electric~~Roseville Electric Utility prior to the date the contract or ownership agreement for the electricity products from the eligible renewable energy resource, with which the incremental electricity is being matched, is executed by ~~Roseville-Electric~~Roseville Electric Utility.
 - c. The contract or ownership agreement for the incremental electricity is executed by ~~Roseville-Electric~~Roseville Electric Utility, at the same time or after the contract or ownership agreement for the electricity products from the eligible renewable energy resource is executed.
 - d. The incremental electricity must be scheduled into the California balancing authority within the same calendar year as the electricity from the eligible renewable energy resource is generated.
 - e. The electricity from the eligible renewable energy resource must be available to be procured by ~~Roseville-Electric~~Roseville Electric Utility and may not be sold back to that resource.
- vi. Electricity products originally qualifying in ~~Portfolio Content Category~~PCC 2 and resold must meet the following criteria to remain in ~~Portfolio Content Category~~PCC 2:
 - a. The original contract for procurement of the electricity products meets the criteria of section 4.A.v.a-e.
 - b. The resale contract transfers only electricity and RECs that have not yet been generated prior to the effective date of the resale contract.
 - c. The resale contract transfers the original arrangement for incremental electricity, including the source and quantity for the incremental electricity.
 - d. The resale contract retains the scheduling of the incremental electricity into the California balancing authority as set out in the original transaction.
 - e. The transaction provides incremental electricity for the Publicly Owned Utility (POU) claiming the transaction for RPS compliance, ~~Roseville-Electric~~Roseville Electric Utility.
 - f. The incremental electricity is scheduled into the California balancing authority.
- vii. Electricity products originally qualifying in ~~Portfolio Content Category~~PCC 2 and resold that do not meet the criteria above must be counted in ~~Portfolio Content Category~~PCC 3.

Portfolio Content Category 3

- viii. All unbundled renewable energy credits and other electricity products procured from eligible renewable energy resources located within the WECC transmission grid that do not meet the requirements of either ~~Portfolio Content Category PCC~~ 1 or ~~Portfolio Content Category PCC~~ 2 fall within ~~Portfolio Content Category PCC~~ 3.

Portfolio Content Category 0

- ix. Grandfathered Resources (also referred to as PCC0) include any contract or ownership agreement originally executed prior to June 1, 2010, and the electricity product is associated with generation from an eligible renewable energy resource that met the Commission's RPS eligibility requirements that were in effect when the original procurement contract or ownership agreement was executed by ~~Roseville Electric~~ Roseville Electric Utility.
 - a. Except as provided in the following sections b and c, the electricity product shall count in full toward the RPS procurement requirements, subject to the following:
 - i. If the associated REC is retired within 36 months of the date the electricity product is generated, the electricity product will count toward the RPS procurement targets.
 - ii. The electricity product will not be classified within another portfolio content category and will not count toward the portfolio balance requirements in the following section B.
 - iii. Electricity products associated with contracts of less than 10 years will not be subtracted when calculating excess procurement in section 7.A.
 - b. If contract amendments or modifications after June 1, 2010, increase nameplate capacity or expected quantities of annual generation, increase the term of the contract except as provided section c below, or substitute a different eligible renewable energy resource, only the MWhs or resources procured prior to June 1, 2010, shall count in full toward the RPS procurement targets. The remaining procurement must be classified into a portfolio content category and follow the portfolio balance requirements in accordance with the following section B.
 - c. The term of such procurement contract may be extended if the initial term of the contract specified a procurement commitment of 15 years or more.

B. Portfolio Balance Requirements

In meeting the RPS procurement requirements identified in section 3 of this RPS Procurement Plan, Roseville shall also be subject to the portfolio balance requirements.

Public Resources Code section 399.16(c)(1) and (c)(2) and section 3204 of the RPS Guidelines identify minimum procurement requirements for PCC1 and maximum procurement requirements for PCC3 in each compliance period. Renewable energy that is classified as “grandfathered” is not subject to these portfolio balance requirements. The following table summarizes the portfolio balance requirements for renewable energy that is not grandfathered.

Product Content Category	Compliance Period 1 2011 - 2013	Compliance Period 2 2014 - 2016	Compliance Period 3 2017 – 2020
PCC1 (Minimum)	50%	65%	75%
PCC2 (No Direct Restriction)	n/a	n/a	n/a
PCC3 (Maximum)	25%	15%	10%
The balance requirements starting in 2021 and thereafter are the same as for Compliance Period 3.			

Table 2. Renewables Portfolio Standard portfolio balance requirements

C. Long Term Contract Requirement

- i. In meeting the RPS procurement requirements identified in section 3 of this RPS Procurement Plan, Roseville shall also be subject to long-term contract requirements. Consistent with Public Resources Code section 399.13(b), ~~Roseville Electric~~Roseville Electric Utility may enter into a combination of long- and short-term contracts for electricity and associated renewable energy credits.
- ii. For the compliance period beginning January 1, 2021, and each compliance period thereafter, at least 65 percent of the electricity products applied toward the RPS procurement target shall be from long-term procurement. The numerical expression of this requirement is:

$$LTx = 0.65 (RPSx)$$

LTx = Electricity products applied toward the RPS procurement target for compliance period X that must meet the criteria of long-term procurement provided in section 3204 (d)(2)

RPSx = The RPS procurement target calculated in section 3204 (a) for compliance period X or, if less than the target, the sum of electricity products retired and any excess procurement pursuant to section 3206 (a)(1) or historic carryover pursuant to section 3206 (a)(5) that ~~Roseville Electric~~Roseville Electric Utility has applied to the target, subject to the Portfolio Content Category 3 limit for compliance period X

- a. If ~~Roseville Electric~~Roseville Electric Utility qualifies for a special exemption or adjustment in accordance with section 4.D of this plan (Exemptions and

Adjustments), the 65 percent requirement will be assessed on the quantity of electricity products necessary to satisfy the RPS procurement target resulting from the exemption or adjustment.

- iii. Electricity products will be classified as long-term or short-term based on the contracts, ownership, or ownership agreements through which they are procured. For the purpose of this section 4.C, long-term procurement refers to procurement from long-term contracts, ownership, or ownership agreements, subject to the following:
 - a. A long-term contract is defined as ~~Roseville Electric~~Roseville Electric Utility's contract to procure a nonzero quantity of electricity products from an RPS-certified facility for a duration of at least 10 continuous years, consistent with section 4.C.ii.b and 4.C.ii.c.
 - b. A long-term contract includes the following contract structures:
 - i. A jointly negotiated contract to procure electricity products from one or more RPS-certified facilities, if the procurement duration for each facility is at least 10 continuous years and each POU procures electricity products for at least 10 continuous years. For purposes of this subdivision, a jointly negotiated contract includes the following:
 - 1. A joint contract executed by at least two POUs with the RPS-certified facility.
 - 2. A contract executed by a joint powers agency or third party supplier acting on behalf of at least two POUs with the RPS-certified facility, if all participating POUs are identified in the contract with the facility or in a correlated agreement with the joint powers agency or third party supplier.
 - 3. Separate contracts executed by two or more POUs with the same RPS-certified facility, where each of the separate contracts, as originally executed, expressly identifies the other POU(s) and specifies the ability of the identified POUs to adjust their relative share of the output of the RPS-certified facility to the other POU(s). If the separate contracts are amended to expressly identify the other POU and specify the ability of the POUs to adjust their relative share of the output of the RPS-certified facility, the contract shall be considered long-term only if each POU's procurement duration from the date of the contract amendment is at least 10 continuous years.
 - ii. ~~Roseville Electric~~Roseville Electric Utility's contract or resale agreement with a joint powers agency or third-party supplier if both of the following are satisfied:
 - 1. ~~Roseville Electric~~Roseville Electric Utility's contract or resale agreement with the joint powers agency or third-party supplier has a duration of at least 10 continuous years.
 - 2. The RPS-certified facility or facilities supplying the electricity products in the long-term contract are owned by the joint

powers agency or third-party supplier or are subject to a long-term contract with a remaining duration of at least 10 continuous years, and ~~Roseville Electric~~Roseville Electric Utility, or the joint powers agency or third-party supplier or other party on ~~Roseville Electric~~Roseville Electric Utility's behalf, can submit documentation demonstrating this.

3. ~~Roseville Electric~~Roseville Electric Utility's contract or resale agreement with a third-party supplier where, over the contract term, the electricity products provided can change from one bundled portfolio content category to a different bundled portfolio content category or from one bundled portfolio content category to multiple bundled portfolio content categories, or from multiple bundled portfolio content categories to fewer bundled portfolio content categories, as long as the contract satisfies all other applicable requirements of this section.
 4. Notwithstanding section 4.C.iii.b.ii.3, ~~Roseville Electric~~Roseville Electric Utility's ownership agreement or a contract between ~~Roseville Electric~~Roseville Electric Utility and the Western Area Power Administration or the federal government as part of the federal Central Valley Project, including an extension or renewal of a contract between ~~Roseville Electric~~Roseville Electric Utility and the Western Area Power Administration or the federal government as part of the federal Central Valley Project that renews or extends the existing contract as contemplated under the administration of the contract in effect on January 1, 2015, or included in the Western Area Power Administration's Power Marketing Plan.
- c. Long-term contracts executed on or after July 1, 2020, shall additionally satisfy the requirements of section 4.C.iii.c.i-iii. Contracts executed prior to July 1, 2020, are not required to meet the requirements of section 4.C.iii.c.i-iii for the term of the contract in effect as of July 1, 2020. With the exception of extensions or renewals of contracts meeting the criteria of section 4.C.iii.b.ii.4, contracts executed prior to July 1, 2020, that are amended on or after July 1, 2020, where the amendment modifies the duration, quantity, pricing, or other provision that materially relates to the contract's classification as long-term, shall additionally satisfy all of the requirements of section 4.C.iii.c.i-iii.
- i. Reasonably consistent contracted-for quantities. For purposes of this section 4.C.iii.c, ~~Roseville Electric~~Roseville Electric Utility's contract and any associated underlying contract(s) shall specify reasonably consistent procurement quantities over the term of the contract, as provided in section 4.C.iii.c.i.1-4:
 1. For a contract that specifies the contracted-for quantities on an annual basis, the contracted-for annual quantities vary no more than 33 percent above or below the average annual

- quantity for the entire contract term, except as provided in section 4.C.iii.c.i.4. If ~~Roseville Electric~~Roseville Electric Utility has contracted for a share of facility output, the variation shall be assessed based on differences in the contracted-for share.
2. Notwithstanding section 4.C.iii.c.i.1, for a contract to procure only electricity products meeting the criteria of Portfolio Content Category 3, reasonably consistent procurement quantities means the average contracted-for procurement quantities vary by no more than 33 percent between any two adjacent compliance periods, except as provided in section 4.C.iii.c.i.4.
 3. For long-term contracts meeting the criteria of section 4.C.iii.b.i, the aggregate quantities in a jointly negotiated contract shall be the basis for assessing reasonably consistent contracted-for quantities.
 4. Notwithstanding section 4.C.iii.c.i.1-2, reasonably consistent contracted-for quantities include procurement quantities that vary by more than 33 percent or procurement quantities specified on a compliance period basis, if ~~Roseville Electric~~Roseville Electric Utility demonstrates the contract represents a procurement commitment consistent with the purposes of the long-term procurement requirement. This demonstration shall be satisfied if ~~Roseville Electric~~Roseville Electric Utility shows that the contracted-for procurement quantities are associated with one of the following:
 - a. At the time of contract execution, the eligible renewable energy resource is already committed to a different entity during the individual year(s) in which the variation exceeds 33 percent and ~~Roseville Electric~~Roseville Electric Utility's commitment supports the development of a new eligible renewable energy resource or the improvement of an existing eligible renewable energy resource.
 - b. At the time of contract execution, ~~Roseville Electric~~Roseville Electric Utility had identified a forecasted reduction in retail sales associated with the anticipated loss of specific customer accounts or local industry or ~~Roseville Electric~~Roseville Electric Utility had identified a forecasted increase in generation from other eligible renewable energy resources that will achieve commercial operation during the contract term.
 - c. The variation during the individual year(s) is associated with expected maintenance, repair, construction, or other modification of the eligible renewable energy resource.

- d. The variation is associated with anticipated transmission constraints.
 - e. The variation is associated with ~~Roseville-
Electric~~Roseville Electric Utility taking over the share or purchases from another buyer for the same eligible renewable energy resource when that other buyer's contract term ends.
 - f. The variation is only associated with ~~Roseville-
Electric~~Roseville Electric Utility procuring increasing quantities or shares from the same eligible renewable energy resource over the term of the contract.
 - g. ~~Roseville-
Electric~~Roseville Electric Utility otherwise demonstrates that the variation supports the financing of the new eligible renewable energy resource or improvements of the existing eligible renewable energy resource, or is otherwise consistent with the purposes of the long-term procurement requirement.
5. Notwithstanding the requirements specified in section 4.C.iii.a-c, a contract that specifies a contracted-for quantity of zero during any year of the initial 10-year term of a long-term contract may still qualify as long-term if ~~Roseville-
Electric~~Roseville Electric Utility demonstrates that the contract meets one of the conditions specified in section 4.C.iii.c.i.4 and the contract term includes at least 10 total years with nonzero contracted-for procurement quantities. Under such circumstances, the "first 10 continuous years of the contract term" in section 4.C.iii.c.ii and 4.C.iii.c.iii shall refer to the first 10 years of the contract with nonzero contracted-for procurement quantities.
- ii. No-cost, early termination. The contract does not include early termination provisions that allow the purchasing entity, ~~Roseville-
Electric~~Roseville Electric Utility, to unilaterally terminate the contract without cause and without incurring a penalty, fee or other form of liquidated damages under the contract during the first 10 continuous years of the contract term, except as specified in section 4.C.iii.c.ii.1-2.
 - 1. The early termination provisions prohibited by this section 4.C.iii.c.ii do not preclude the purchasing entity, ~~Roseville-
Electric~~Roseville Electric Utility, from terminating the contract because of, or including early termination provisions concerning, any the following:
 - a. The seller's default or other nonperformance under the contract.
 - b. A force majeure event that prevents the seller from performing its obligations or complying with a condition of the contract. A force majeure event includes any act

or occurrence that delays or prevents the seller from timely performing an obligation under the contract or complying with a conditions required under the contract if such act or event is beyond the reasonable control of and without fault or negligence of the seller.

- c. Mutual agreement of the purchasing entity and seller.
- d. A facility associated with the contract ceases to be an eligible renewable energy resource, ceases to comply with the Emissions Performance Standard pursuant to section 2903 (b) in the California Code of Regulations, ceases to provide environmental attributes, or ceases to provide resource adequacy attributes due to the occurrence of a change in law, and in any of these circumstances the seller is unable to remedy the loss of any of these attributes as such obligation is limited under the terms of the contract.
- e. The Commission determines that a facility associated with the contract does not qualify as an eligible renewable energy resource for reasons other than a change in law.
- f. A change in ownership of the seller.
- g. Facilitating a sale of the eligible renewable energy resource under the contract to the purchasing POU, ~~Roseville Electric~~ Roseville Electric Utility.

2. This section 4.C.iii.c.ii does not prohibit early termination provisions where the purchasing POU, ~~Roseville Electric~~ Roseville Electric Utility submits information to the Commission that demonstrates the contract, notwithstanding any early termination provisions, secures a procurement commitment of at least 10 continuous years for ~~Roseville Electric~~ Roseville Electric Utility consistent with the purposes of the long-term procurement requirement, including supporting long-term planning and market stability, and investments in the development of new eligible renewable energy resources or improvements to existing eligible renewable energy resources.

- iii. Notwithstanding section 4.C.iii.c.i and 4.C.iii.c.ii, a long-term contract does not include a contract that contains no specified output share or quantities of procurement or minimum pricing terms, such that the express intent of the parties to the contract is to individually negotiate the price and quantity terms in any year within the first 10 continuous years of the contract term, and neither party has an obligation to procure or sell any quantity during any such individual year.
- d. A short-term contract is defined as a contract to procure electricity products for a duration of fewer than 10 continuous years or a contract that does not meet the criteria of section 4.C.iii.a-c.

- e. The duration of a contract shall be measured from the contract start date until the contract end date, except as specified in section 4.C.iii.e.i-iii. The duration shall be deemed continuous if the contract specifies nonzero procurement quantities on an annual or compliance period basis, or a combination of both, for the contract term, except as provided in section 4.C.iii.c.i.5. The contract start date may occur before, on, or after January 1, 2021.
 - i. If electricity products are procured under a long-term contract that has been amended to extend the end date of the contract, the electricity products procured under the amendment shall be classified as long-term, except as provided in section 4.C.iii.l.
 - ii. If electricity products are procured under a short-term contract that has been amended to extend the end date of the contract, the duration of the amended contract will be measured from the amendment execution date until the amendment end date. If the amended contract duration is at least 10 continuous years and the amended contract otherwise satisfies the requirements of a long-term contract, procurement from the amended contract shall be classified as long-term as of the month and year of the amendment execution date.
 - iii. If electricity products are procured under a long-term contract that has been amended or terminated early such that the contract duration is no longer at least 10 continuous years, only the electricity products procured prior to the amendment execution date or termination notice may be classified as long-term.
- f. Procurement from an ownership agreement shall be classified as long-term, unless the agreement specifies that the ownership duration is for a period of less than 10 continuous years. Procurement from an ownership agreement that specifies the ownership duration is for a period of fewer than 10 continuous years shall be classified as short-term.
- g. Electricity products procured in excess of the quantity that ~~Roseville Electric~~Roseville Electric Utility is obligated to procure under a long-term contract shall be treated as a new agreement for the additional quantities, except where the additional quantities are from the same RPS-certified facility or facilities and where the potential for ~~Roseville Electric~~Roseville Electric Utility to procure the additional quantities is identified in the long-term contract, in which case the additional quantities shall be treated as part of the long-term contract. Additional quantities that are treated as part of the long-term contract pursuant to this section 4.C.iii.g shall not be used to adjust the annual average quantity of the contract for purposes of section 4.C.iii.c.i.
- h. Electricity products classified as Portfolio Content Category 2 under the requirements of section 4.A shall count toward the long-term procurement requirement of this section 4.C if the electricity products are procured under a long-term contract subject to section 4.C.i-iii or an ownership agreement

subject to section 4.C.iii.f, even if the matching incremental electricity is not associated with a long-term contract or an ownership agreement.

- i. Notwithstanding the requirements for underlying contracts in section 4.C.iii.a-c, electricity products classified as Portfolio Content Category 3 under the requirements of section 4.A shall be classified as long-term, subject to the maximum limit for Portfolio Content Category 3 calculated in section 3, if ~~Roseville Electric~~Roseville Electric Utility procures them through a contract that has a duration of at least 10 continuous years and ~~Roseville Electric~~Roseville Electric Utility's own contract meets the requirements of section 4.C.iii.a-c, or ~~Roseville Electric~~Roseville Electric Utility procures the electricity products through its ownership or ownership agreement.
- j. Electricity products that meet the criteria of section 4.A.ix shall be classified as long-term without regard to the requirements of section 4.C.iii.a-g.
- k. Excess procurement that was accrued in accordance with the requirements of section 7.A.ii and applied to the RPS procurement target for a compliance period beginning on or after January 1, 2021, shall be classified as long-term without regard to the requirements of section 4.C.iii.a-g.
- l. For purposes of this section 4.C, amendments, assignments, or modifications of long-term contracts or ownership agreements other than as specified in section 4.C.iii.e will be treated as follows:
 - i. Amendments or modifications that increase the expected quantities or allocation of generation under the original contract or ownership agreement resulting from efficiency improvements or an expansion of the RPS-certified facility generating the procured electricity products shall be treated as part of the original long-term contract or ownership agreement.
 - ii. Amendments or modifications that result in an increase in expected quantities or allocation of generation due to contractual changes other than those provided in section 4.C.iii.l.i, shall be treated as new agreements for the increase in expected quantities or allocation of generation, unless the increase was specified in the original long-term contract or ownership agreement.
 - iii. Amendments or modifications that substitute a different eligible renewable energy resource shall be treated as new agreements for procurement of generation associated with the substitute eligible renewable energy resource unless the following conditions are satisfied:
 - 1. The original long-term contract or ownership agreement specifies the ability to add or substitute eligible renewable energy resources.
 - 2. Any eligible renewable energy resources added to or substituted in the long-term contract or ownership agreement are owned by the seller or are subject to a long-term contract in its original term or an extension that has a remaining duration of at least 10 continuous years.

3. Notwithstanding section 4.C.iii.l.iii.1-2, replacement energy procured from another RPS-certified facility, as allowed by the original long-term contract, shall be considered part of the original long-term contract if ~~Roseville Electric~~Roseville Electric Utility can submit information demonstrating that the need for replacement energy occurred because the RPS-certified facility specified in the original long-term contract did not perform as the contract required.
 - a. For purposes of this section 4.C.iii.l.iii.3, "replacement energy" means electricity products provided by a seller to ~~Roseville Electric~~Roseville Electric Utility pursuant to the terms of a long-term contract to offset the failure of an RPS-certified facility to provide the amount of electricity products otherwise guaranteed under the contract. Replacement energy does not include energy provided to offset a failure of the seller to provide the guaranteed electricity products due to the sale of the guaranteed electricity products to another entity.
- iv. Amendments, assignments, or modifications of a jointly negotiated long-term contract or joint ownership agreement that reallocate electricity products among the identified joint parties shall be treated as part of the original long-term contract or ownership agreement.
- v. Assignments of long-term contracts, whereby a retail seller or ~~Roseville Electric~~Roseville Electric Utility assigns the remaining portion of its procurement obligations under a long-term contract to a second POU, shall be treated as a long-term contract, provided the assignment maintains the commitment to procure the same type and quantity electricity products from the RPS-certified facility and the duration of the assignment is at least 10 years.

D. Exemptions and Adjustments

Per section 3204(b)(11) of the RPS Guidelines, ~~Roseville Electric~~Roseville Electric Utility owns a qualifying (in other words, that satisfies the criteria of Public Utilities Code section 399.33(a)) gas-fired power plant, and may reduce the amount of eligible renewable energy resources that it procures for a compliance period beginning January 1, 2025, subject to the following:

- i. The qualifying gas-fired power plant must be operating at or below a 20 percent capacity factor on an annual average during the compliance period in order to reduce the RPS procurement target for the compliance period.
 - a. For purposes of this section 4.D, the capacity factor on an annual average during the compliance period is calculated as the total annual generation produced by the power plant divided by the total annual generation the power plant could have produced that year if it had operated at nameplate capacity for the entire year.

The numerical expression to determine the capacity factor on an annual average during the compliance period is:

$$((G_{X1} \div C_{X1}) + (G_{X2} \div C_{X2}) + (G_{X3} \div C_{X3}))/3$$

G_X = Quantity of generation from a gas-fired power plant for year X of the compliance period

C_X = Quantity of generation that the gas-fired power plant could have produced for year X if it had operated at nameplate capacity for the entire year

- ii. Additional procurement of eligible renewable energy resources or zero-carbon resources resulted in the power plant operating at, or below, a 20 percent capacity factor on an annual average during the compliance period.
- iii. ~~Roseville Electric~~ Roseville Electric Utility has attempted to mitigate against the reduction of generation to below 20 percent of the qualifying gas-fired power plant's total capacity by attempting to sell the power plant or attempting to sell the generation from the power plant to the extent it is practicable and does not result in resource shuffling.¹
- iv. ~~Roseville Electric~~ Roseville Electric Utility has procured eligible renewable energy resources equal to ~~at least~~ 45 percent of its retail sales by December 31, 2027, 50 percent by 2030, and 50 percent for each three-year multiyear compliance period thereafter, and reasonable progress in each of the intervening years of these compliance periods.

The numerical expression of this requirement for the compliance period beginning January 1, 2025, ending December 31, 2027, is:

$$(EP_{2025} + EP_{2026} + EP_{2027}) = 0.4167 (RS_{2025}) + 0.4333 (RS_{2026}) + 0.4500 (RS_{2027})$$

The numerical expression of this requirement for the compliance period beginning January 1, 2028, ending December 31, 2030, is:

$$(EP_{2028} + EP_{2029} + EP_{2030}) = 0.4667 (RS_{2028}) + 0.4833 (RS_{2029}) + 0.5000 (RS_{2030})$$

¹ ~~“Resource Shuffling” is defined in Chapter 1 (commencing with Section 95800) of Division 3 of Title 17 of the California Code of Regulations. means any plan, scheme, or artifice undertaken by a First Deliverer of Electricity to substitute electricity deliveries from sources with relatively lower emissions for electricity deliveries from sources with relatively higher emissions to reduce its emissions compliance obligation. Resource shuffling does not include substitution of electricity deliveries from sources with relatively lower emissions for electricity deliveries from sources with relatively higher emissions resources when the substitution occurs pursuant to the conditions listed in section 95852 (b) (2) (A) of the California Code of Regulations.~~

The numerical expression of this requirement for the three-year compliance period beginning January 1, 2031, and subsequent three-year compliance periods is:

$$(EP_{X1} + EP_{X2} + EP_{X3}) = 0.5000 (RS_{X1}) + 0.5000 (RS_{X2}) + 0.5000 (RS_{X3})$$

EP_X = Electricity products applied to the specified year X toward the RPS procurement target for the compliance period containing year X. This may include electricity products retired for and applied to year X, subject to the Portfolio Content Category 3 limit calculated in section 3204 (c) of the RPS Guidelines, and excess procurement pursuant to section 3206 (a)(1) and historic carryover pursuant to section 3206 (a)(5) that the City of Roseville has applied to year X.

RS_X = Retail sales made by the City of Roseville for the specified year X

- v. If ~~Roseville Electric~~Roseville Electric Utility satisfies the conditions of sections 4.D.i-iv, it may reduce its procurement target for the compliance period calculated in section 4.D.iv by the difference between the gas-fired power plant's actual generation for the compliance period and the amount of generation it could have produced if it had operated at a 20 percent capacity factor on an annual average during the compliance period.
- vi. The reduction of the procurement target will be calculated using the quantity of qualifying gas-fired generation as reported in accordance with section 3207 (m) of the RPS Guidelines.
- vii. This procurement requirement reduction shall be available only until December 31 of the calendar year during which the qualifying gas-fired power plant's original term of bonded indebtedness expires.
- viii. RPS procurement requirements deficits incurred by ~~Roseville Electric~~Roseville Electric Utility in any compliance period shall not be added to the RPS procurement requirements of ~~Roseville Electric~~Roseville Electric Utility in a future compliance period.
- ix. In addition to the applicable reporting requirements in section 3207 (a)-(d) of the RPS Guidelines, starting with the compliance period beginning January 1, 2025, if the City of Roseville reduces its procurement target pursuant to section 3204 (b)(11), it shall submit to the Commission, by the deadline for annual reports specified in section 3207 (c) for the final year of each compliance period, the following information:
 - a. The quantity, in MWh, of generation from a qualifying gas-fired power plant for each year of the compliance period.
 - b. Documentation demonstrating that the qualifying gas-fired power plant meets the criteria of Public Utilities Code section 399.33 (a). This documentation may include, but is not limited to: findings adopted by the City of Roseville's City Council, adopted ~~Ceity~~ Ceouncil resolutions, proof

- of facility ownership, financial records, compliance filings, and/or wage schedules or other such documents for facility employees.
- c. The nameplate capacity of the facility and the City of Roseville's calculation of the facility's capacity factor for each year of the compliance period based on the facility's annual generation for that year.
- d. Documentation demonstrating the City of Roseville's efforts to sell the qualifying gas-fired power plant or gas-fired power plant generation to mitigate against the reduction of generation below a 20 percent capacity factor.
- e. Documentation demonstrating that additional procurement of eligible renewable energy resources or zero-carbon generation resources resulted in the power plant operating at, or below, a 20 percent capacity factor on an average annual basis during the compliance period.
- f. Any additional documentation requested by the Commission necessary to determine whether the City of Roseville meets the criteria specified in Public Utilities Code section 399.33 (a) and satisfied the requirements of section 3204 (b)(11) of the RPS Guidelines.

5. Plan for Roseville's RPS Requirement

A. *Procurement/Retirement Strategy*

The City of ~~Roseville Electric~~Roseville Electric Utility Utility (~~Roseville Electric~~Roseville Electric Utility, or Roseville) plans to pursue a procurement strategy that maximizes flexibility and allows for retirement and banking of excess renewable energy credits (REC). This strategy will allow ~~Roseville Electric~~Roseville Electric Utility to bank excess eligible RECs and apply them to future compliance periods.

Because RECs must be retired within three years of being created, the only way to "bank" an eligible REC for longer periods is to take advantage of the excess procurement optional compliance measure identified later in this document (section 7.A.).

B. *Grandfathered and "Other" Resources not Subject to Portfolio Balance Requirements*

~~Roseville Electric~~Roseville Electric Utility entered into several contracts prior to June 1, 2010, which makes them PCC0 resources ("other") that are not subject to the portfolio balance requirements. "Other" resources are defined as those from pre-June 1, 2010, contracts that meet the current RPS requirements, but did not meet the RPS "rules in place" at the time the contract was signed. The following list describes Roseville's grandfathered resources and "other" resources not subject to the portfolio balance requirements.

- i. Roseville has a contract with the Western Area Power Administration (WAPA) for a share of the output of the Central Valley Project Base Resource, located in California. A portion of this project is small hydro which qualifies as renewable.
- ii. Roseville has a contract with Northern California Power Agency for 12% of the Calaveras hydro project, which includes the 6 MW New Spicer power plant located in California. The energy from the New Spicer plant qualifies as renewable.
- iii. Roseville has contracts with Northern California Power Agency for a combined total of 7.883% of the Geothermal projects output. The projects have a total capacity of 220 MW and are located in California. The energy from these projects qualify as renewable.

C. Portfolio Content Category Resources

In general, PCC1 renewable energy is the most expensive and PCC3 is the least expensive, with PCC2 prices falling in between PCC1 and PCC3 prices. To meet the RPS requirements in the most cost effective way and minimize costs to ratepayers, PCC3 energy should be maximized in order to minimize the amount of PCC1 needed, with the balance met by PCC2 energy.

In September 2012, Roseville entered into a contract with the City of Santa Clara to procure PCC1 energy and RECs.

In July 2013, Roseville entered into a contract with Lost Hills Solar, LLC and Blackwell Solar, LLC to procure PCC1 energy and RECs.

In September 2014, Roseville entered into a contract with Iberdrola Renewables, LLC, to procure PCC1, PCC2, and PCC3 energy and/or RECs.

In March 2015, Roseville entered into a contract with Powerex, Inc., to procure PCC1 energy and RECs.

In February 2021, Roseville extended the Base Resource contract with Western Area Power Administration to continue to procure PCC1 energy and RECs.

In December 2021, Roseville entered into a contract with South Feather Water and Power Agency via NCPA to procure PCC1 energy and RECs.

With the above contracts, Roseville has contracted for sufficient renewables to meet Roseville's RPS obligations through the year 2024 under the sixty percent (60%) by 2030 RPS standard.

6. Procurement Process

Pursuant to Public Utilities Code section 399.30(n), in all manners regarding compliance with the RPS, the City of Roseville shall retain exclusive control and discretion over both of the following:

- i. The mix of eligible renewable energy resources procured by the utility and those additional generation resources procured by the utility for purposes of ensuring resource adequacy and reliability.
- ii. The reasonable costs incurred by the utility for eligible renewable energy resources owned by the utility.

The Power Supply section regularly analyzes the City of Roseville's RPS procurement needs. Portfolio supply and demand are assessed. If needed, a solicitation for renewable energy is conducted. Generally, the best offers of each PCC and generator type are identified and short-listed. These offers are the first to be considered. Offers received outside the solicitation process are only considered if they are competitive with the most recent solicitation short-listed offers.

Offers are evaluated for:

- i. Direct and indirect costs, including but not limited to: contract price of energy and REC, plus transmission and integration costs
- ii. Risk, including but not limited to: cost risk, credit risk, deliverability risk, regulatory risk, and project viability
- iii. Portfolio fit (including, but not limited to, such factors as timing, quantity, and PCC type)

Offers are pursued and contracts are negotiated within the cost limitations for expenditures, set in section 7 of this RPS Procurement Plan.

Pursuant to Public Utilities Code section 399.21(a)(7) and section 3202 of the RPS Guidelines, all RECs will be retired within 36 months from the initial date of generation of the associated electricity.

7. Optional Compliance Measures

Specific optional compliance measures are allowed pursuant to Public Utilities Code section 399.30(d) and section 3206 of the RPS Guidelines. ~~Measures must be adopted by City Council prior to the end of the compliance period in which they will be used.~~ The City of Roseville ~~is adopting~~adopts the following optional measures as part of this RPS Procurement Plan. The City of Roseville will submit the rules or rule revisions adopted under section 3206 of the RPS Guidelines to the Commission within 30 calendar days

after adoption. The rules or rule revisions shall be submitted along with all reports, analyses, findings, and any other information upon which the City of Roseville relied in adopting the rule or rule revision.

A. *Excess Procurement*

Pursuant to Public Utilities Code section 399.30(d) and section 399.13(a)(4)(B) and section 3206(a)(1) of the RPS Guidelines, the City of Roseville shall be allowed to apply excess procurement in one compliance period to subsequent compliance periods as long as the following conditions are met:

- i. If the City of Roseville has applied sufficient electricity products to satisfy its RPS procurement requirements of the compliance period, without using other optional compliance measures (delay of timely compliance, cost limitations, portfolio balance requirement reduction);
- ii. Excess procurement accrual will be subject to the following limitations for the Compliance Periods beginning January 1, 2011, through December 31, 2020:
 - a. Electricity products that meet the criteria of section 3202 (a)(1) or section 3202 (a)(3), and are classified in Portfolio Content Category 3 may not be accrued as excess procurement.
 - b. Electricity products that meet the criteria of section 3202 (a)(1) and that exceed the maximum limit for Portfolio Content Category 3 for the compliance period, as specified in section 3204 (c), must be subtracted from the calculation of accrued excess procurement.
 - c. Electricity products procured under contracts of less than 10 years in duration in accordance with section 3206 (a)(1)(C)4. shall be subtracted from the calculation of accrued excess procurement, unless the electricity product meets the criteria in section 3202 (a)(2).
 - d. For purposes of calculating accrued excess procurement for the compliance periods beginning January 1, 2011, through December 31, 2020, if electricity products are procured under a contract that has been amended to extend the term, the duration of the amended contract will be calculated from the original contract execution date to the amended contract end date. If electricity products are procured under a contract of less than 10 years in duration that has been amended to extend the total term to at least 10 years in duration, then electricity products generated as of the month and year in which the contract amendment occurs will be eligible to qualify as excess procurement.
- iii. Excess procurement accrual will be subject to the following limitations for the compliance periods beginning on or after January 1, 2021:

- a. Electricity products that meet the criteria of section 3202 (a)(1) or section 3202 (a)(3), and are classified in Portfolio Content Category 2 or Portfolio Content Category 3, may not be accrued as excess procurement;
 - b. Electricity products that meet the criteria of section 3202 (a)(1) and that exceed the maximum limit for Portfolio Content Category 3 for the compliance period, as specified in section 3204 (c), must be subtracted from the calculation of accrued excess procurement.
- iv. Excess procurement may be accrued no earlier than January 1, 2011.
- v. Electricity products accrued as excess procurement may be applied toward any future compliance periods, except as specified below:
 - a. Electricity products accrued in accordance with section 3206 (a)(1)(C) that are classified in Portfolio Content Category 2 may not be applied toward the RPS procurement requirements of a compliance period beginning on or after January 1, 2028.
- vi. Excess procurement for each compliance period starting January 1, 2021 shall be calculated using the following formula as specified in the RPS Guidelines, section 3206(a)(1):

$$\text{Excess Procurement}_x = EP_x - (RPS_x - B_x) - (S3_x + STC_x)$$

EP_x = Electricity Products retired for the compliance period x

RPS_x = The RPS procurement target calculated in section 3204 (a) for compliance period X or, if greater than the target, the amount of electricity products applied toward the target. This may include electricity products retired for compliance period X, excess procurement accrued in a prior compliance period, or historic carryover pursuant to section 3206 (a)(5), that the City of Roseville has applied toward the target.

B_x = Any excess procurement accrued in a prior compliance period or historic carryover pursuant to section 3206 (a)(5) that the City of Roseville applied toward the RPS procurement target calculated in section 3204 (a) for compliance period X

S3_x = Any remaining retired electricity products that meet the criteria of section 3202 (a)(1) or section 3202 (a)(3), and the definition of Portfolio Content Category 3

STC_x = Any remaining retired electricity products that meet the criteria of section 3202 (a)(1) or section 3202 (a)(3), and are associated with contracts less than 10 years in duration in accordance with section 3206 (a)(1)(C)4

B. Delay of Timely Compliance

Pursuant to Public Utilities Code section 399.30(d)(2)(A) and section 399.15(b)(5) and section 3206(a)(2) of the RPS Guidelines, the City of Roseville shall adopt rules allowing it to determine that conditions beyond the control of the City of Roseville exist to delay timely compliance with RPS procurement requirements, as defined in section 3204.

Roseville's adopted rules shall limit the determination to one or more of the causes for delay specified in section 3206 (a)(2)(A)1.-4. The City of Roseville's determination shall include information showing that it would have met its RPS procurement requirements but for the cause(s) of delay:

- i. There is inadequate transmission capacity to allow sufficient electricity to be delivered from eligible renewable energy resources, or proposed eligible renewable energy resource projects, to the extent applicable, using the current operational protocols of the balancing authority in which the City of Roseville operates. If the City of Roseville at the time of the determination owns transmission or has transmission rights, it shall include in its determination information showing how the inadequate transmission capacity delayed timely compliance and:
 - a. That the City of Roseville has undertaken all reasonable measures under its control and consistent with its obligations under local, state, and federal laws and regulations, to develop and construct new transmission lines or upgrades to existing lines intended to transmit electricity generated by eligible renewable energy resources in light of its expectation for cost recovery.
 - b. That the City of Roseville has taken all reasonable operational measures to maximize cost-effective purchases of electricity from eligible renewable energy resources in advance of transmission availability.
- ii. Permitting, interconnection, or other circumstances have delayed procured eligible renewable energy resource projects, or there is an insufficient supply of eligible renewable energy resources available to the City of Roseville. The City of Roseville will include in its determination information showing how the permitting, interconnection, or other circumstances caused delayed projects or insufficient supply and that the City of Roseville:
 - a. Prudently managed portfolio risks, including, but not limited to, holding solicitations for RPS-eligible resources with outreach to market participants and relying on a sufficient number of viable projects to achieve RPS procurement requirements.
 - b. Sought to develop either its own eligible renewable energy resources, transmission to interconnect to eligible renewable energy resources, or energy storage used to integrate eligible renewable energy resources.
 - c. If the cause for delay or insufficient supply was foreseeable, procured an appropriate minimum margin of procurement above the level necessary to

comply with the RPS to compensate for foreseeable delays or insufficient supply. The City of Roseville's determination shall identify the minimum margin of procurement that the City of Roseville deemed appropriate to compensate for foreseeable delays or insufficient supply.

- d. Taken reasonable measures to procure cost-effective distributed generation and allowable unbundled RECs.
- iii. Unanticipated curtailment of eligible renewable energy resources, if the delay of timely compliance would not result in an increase in greenhouse gas emissions. The City of Roseville's determination shall include information showing that unanticipated curtailment of eligible renewable energy resources delayed timely compliance and did not result in an increase in greenhouse gas emissions.
- iv. Unanticipated increase in retail sales due to "transportation electrification," as defined in Public Utilities Code section 237.5. The City of Roseville's determination shall include information showing that it considered the following:
 - a. Whether transportation electrification significantly exceeded forecasts in the City of Roseville's service territory based on the best and most recently available information available to it. Transportation electrification forecasts may include, but are not limited to, information filed with the State Air Resources Board, the Commission, or another state agency, forecasts in the City of Roseville's integrated resource plan developed pursuant to Public Utilities Code section 9621, or other forecasts developed or approved by the City of Roseville.
 - b. Whether the City of Roseville has taken reasonable measures to procure sufficient resources to account for unanticipated increases in retail sales due to transportation electrification.

Pursuant to Public Utilities Code section 399.15(b)(9) and section 3204(e) of the RPS Guidelines, in no event shall a deficit associated with the compliance period be added to a future compliance period.

If the City of Roseville approves a delay in compliance for a particular compliance period, Roseville Electric shall provide a compliance plan within 3 months that identifies actions to ensure future procurement requirements.

C. Cost Limitations for Expenditures

- i. Pursuant to Section 3206(a)(3) of the POU RPS Enforcement Regulations and Public Utilities Code Sections 399.30(d) and 399.15(c), Roseville Electric Utility adopts the following rules for cost limitations on the procurement expenditures

used to comply with its RPS procurement requirements to ensure that RPS compliance costs do not result in disproportionate rate impacts.

- ii. To comply with the cost limitation, Roseville Electric Utility shall not make any financial commitment to procure eligible renewable energy resources prior to evaluating the rate impacts of such procurement utilizing the effective rates adopted by the City Council and published in the City of Roseville Municipal Code, Title 14.
- iii. The cost limitation rules are set at a level that Roseville Electric Utility has determined will prevent disproportionate rate impacts.
 - a. In determining whether RPS procurement will exceed this cost limitation provision, Roseville Electric Utility shall assess the following:
 - i. The applicable total retail load and renewable energy costs.
 - ii. The City of Roseville Integrated Resource Plan (IRP), which provides a strategic framework to ensure RPS procurement aligns with long-term resource planning, cost-effectiveness, rate stability, and regulatory requirements.
 - iii. The then-current RPS procurement budget established by Roseville Electric Utility, reflects the planned acquisition of Renewable Energy Credits (RECs) or renewable resources necessary to meet RPS targets. This budget is based on projected REC shortages and compliance requirements, ensuring the utility meets state mandates while adhering to financial constraints.
 - iv. Procurement expenditures that approximate the expected cost of building, owning, and operating eligible renewable energy resources.
 - v. The potential that some planned resource additions may be delayed or canceled.
 - b. In calculating the cost limitation, Roseville Electric Utility shall:
 - i. Calculate a dollar per kilowatt hour (\$/kWh) expected cost based on the total budgeted RPS procurement costs and projected energy delivery costs, ensuring that procurement stays within financial constraints.
 - ii. For the period ending December 31, 2027, using the rates effective June 1, 2024, as adopted by the City Council and published in the City of Roseville Municipal Code, Title 14, Roseville Electric Utility shall ensure that there are no further customer rate increases attributable to eligible renewable energy procurement. Beginning on January 1, 2028, and for the time period thereafter, Roseville Electric

Utility shall ensure eligible renewable energy procurement costs per \$/kWh increases do not exceed 3% average compounded per year, or such other level as may be approved by the City Council.

iv. When calculating procurement expenditures under this cost limitation rule, Roseville Electric Utility shall include:

- a. The costs associated with eligible renewable energy, renewable attributes, firming and shaping, and/or storage, as needed for intermittent resources;
- b. Any other costs attributable to meeting the RPS procurement mandate; and
- The costs associated with the delivery of renewable energy.
- c.

v. If the projected cost of meeting the renewables portfolio standard procurement requirements exceed the cost limitation threshold established herein, Roseville Electric Utility shall:

- i. Review its RPS Procurement Plan to assess whether alternatives are available that would otherwise allow Electric Roseville Utility to meet its renewable energy procurement requirements, which will include evaluation of current procurement commitments, planned procurements, long-term commitments, and the availability of alternative resources in other portfolio content categories; and
- ii. Seek to implement the other optional compliance measures, such as delaying timely compliance and/or portfolio balance requirement reduction.
- iii. Elect to waive the cost limitation adopted in this section.

vi. If the projected cost of meeting the renewable portfolio standard procurement requirements exceed the cost limitation provision established herein, and compliance is not attainable based on a review of the elements set forth in Section E7.C.v above, Roseville Electric Utility, in its sole discretion may refrain from entering into new contracts or constructing facilities beyond the quantity that can be procured within the limitation unless eligible renewable energy resources can be procured without resulting in any further customer rate increases for the procurement through December 31, 2027, or beginning on January 1, 2028, and continuing thereafter, Roseville Electric Utility shall ensure eligible \$/kWh renewable energy procurement costs do not exceed 3% average compounded per year, or such other level as may be approved by the City Council.~~December 31,~~

~~2027, or a 3% utility customer rate increase attributable to such eligible renewable energy procurement for the period beginning January 1, 2028.~~

- ~~i. Pursuant to Public Utilities Code section 399.30(d)(2)(B) and section 399.15(c) and section 3206(a)(3) of the RPS Guidelines, the City of Roseville shall adopt rules for cost limitations on the procurement expenditures used to comply with its RPS procurement requirements. The adopted cost limitation rules shall be set at a level that the City of Roseville has determined will prevent disproportionate rate impacts. When applying procurement expenditures under its adopted cost limitation rule, the City of Roseville shall apply only those types of procurement expenditures that are permitted under the adopted cost limitation rule. Adopted cost limitation rules shall include planned actions to be taken in the event the projected cost of meeting the RPS procurement requirements exceeds the cost limitation. Such actions may include, but are not limited to, refraining from entering into new contracts or constructing facilities for eligible renewable energy resources beyond the quantity that can be procured within the cost limitation.~~

D. Portfolio Balance Requirement Reduction

Pursuant to Public Utilities Code section 399.16(e) and section 3206(a)(4) of the RPS Guidelines, the City of Roseville shall adopt rules that allow for the reduction of the portfolio balance requirement for Portfolio Content Category 1 for a specific compliance period consistent with Public Utilities Code section 399.16 (e). In applying this provision, the City of Roseville will consider all of the following:

- i. The need to reduce the portfolio balance requirements for Portfolio Content Category 1 must have resulted because of conditions beyond the control of the City of Roseville as provided in the Delay of Timely Compliance section.
- ii. A reduction of the portfolio balance requirement for Portfolio Content Category 1 below 65 percent, will not be considered consistent with Public Utilities Code section 399.16 (e).
- iii. The City of Roseville, when reducing its portfolio balance requirements for Portfolio Content Category 1, will adopt these changes at a publicly noticed meeting, and will include this information in an updated renewable energy resources procurement plan submitted to the Commission. The notice to consider the portfolio balance requirement reduction and the procurement plan must include the following information:
 - a. The compliance period for which the reduction may be adopted.
 - b. The level to which the City of Roseville has reduced the requirement.
 - c. An explanation of how the needed reduction resulted from conditions beyond the control of the City of Roseville as provided in the Delay of Timely Compliance section.

E. Invoking Optional Measures

~~Roseville Electric~~Roseville Electric Utility plans to invoke the ~~Excess Procurement provision~~Optional Compliance Measures as described in section 7.A. of this plan, ~~and may invoke other optional measures~~ as needed.

8. Reporting

Pursuant to section 3207 of the RPS Guidelines, the City of Roseville shall submit annual and compliance period reports to the CEC as identified below.

A. Annual Reports

By July 1 of each year, the City of Roseville shall submit an annual report to the CEC that includes the information in sections i. through iv. below for the prior calendar year. The format for the annual report shall be specified by the Commission, but the information contained in the annual report may be combined with other existing reports that contain the same information and are also supplied to the Commission. If the annual report refers to information provided to the Commission through existing reports, the annual report shall reference the information by identifying the name, submittal date, and page number of the existing report. The annual report shall include an attestation, signed by an authorized agent of the City of Roseville, affirming that the information provided in the report is true and correct. The following shall be included in the report:

- i. Identifying information, including: POU name, contact name, mailing address, phone number, and email address.
- ii. RPS annual progress information for the prior calendar year, including:
 - a. Amount of retail sales to end-use customers, in MWh, and projected retail sales for the current compliance period.
 - b. Amount of procured electricity products retired, in MWh, and total projected electricity products retired for the current compliance period.
 - c. Western Renewable Energy Generation Information System (WREGIS) compliance report for procurement claims in the prior calendar year. For any procurement claims not tracked through WREGIS as permitted by the RPS Guidelines, the City of Roseville shall report procurement claims using the process specified in the RPS Guidelines.
 - d. An initial, nonbinding classification of retired electricity products qualifying for each portfolio content category or qualifying to count in full in accordance with section 3202 (a)(2) of the RPS Guidelines.
 - e. An initial, nonbinding classification of retired electricity products qualifying as long-term or short-term in accordance with section 3204 (d) of the RPS Guidelines.
 - f. Information and supporting contract documentation for each of the eligible renewable energy resources with which the City of Roseville has executed

contracts or ownership agreements during the prior year, including but not limited to the contracted amount of MWh or the contracted percentage of the resource's total output, if applicable; resource fuel type; the execution date of the procurement contract or ownership agreement; the contract or ownership agreement start date; the duration of the procurement contract or ownership agreement in accordance with section 3204 (d) of the RPS Guidelines; the anticipated portfolio content category classification(s) for the electricity products procured through the contract or ownership agreement; the anticipated long-term or short-term classification for the electricity products procured through the contract or ownership agreement; the seller's name, if the resource is not owned by the City of Roseville; a summary of the resource names and identification numbers; and for long-term contracts, information on how the contract meets the requirements of section 3204 (d) of the RPS Guidelines, including the associated page numbers in the contract where the terms can be located, subject to the following subsections:

- (A) Upon request from Commission staff, if the City of Roseville has a long-term contract pursuant to section 3204 (d)(2)(B)2 of the RPS Guidelines, it shall submit documentation showing that the underlying contract(s) meet the requirements of section 3204 (d)(2)(A)-(C) of the RPS Guidelines. For contracts executed prior to July 1, 2020, this documentation may include excerpted contract information, an attestation by the third-party supplier regarding the underlying contract duration or ownership of the RPS-certified facility or facilities, or both.
 - (B) Documentation demonstrating a long-term contract meets the requirements of section 3204 (d)(2)(A)-(C) of the RPS Guidelines may be submitted directly to the Commission by the third-party supplier or another party on the City of Roseville's behalf. The documentation may include an attestation by the City of Roseville that the contract with the RPS-certified facility or facilities meets the requirements of section 3204 (d)(2)(A)-(C) of the RPS Guidelines. An attestation may be submitted only if the City of Roseville possesses records to support the accuracy of the information to which it attests and the City of Roseville agrees to make such records available to the Commission upon request in the event of an audit or investigation.
- g. Documentation demonstrating the portfolio content category classification and long-term or short-term classification claimed for all of the City of Roseville's procured electricity products during the prior year. This

documentation may include contract information, if not previously submitted; interconnection agreements; NERC e-Tag data; scheduling agreements; and firming and shaping agreements.

- h. A description of any modifications to contracts, ownership, or ownership agreements previously reviewed and evaluated by the Commission from which the City of Roseville intends to claim long-term procurement, including, but not limited to, changes to contract duration, procurement quantities, addition or substitution of resources or fuel, reallocation between parties of a jointly negotiated contract, and efficiency improvements or facility expansions that change procured generation. The City of Roseville's explanation shall include documentation supporting the modifications.
 - i. A description of any identified issues that occurred that have the potential to delay timely compliance with the RPS procurement requirements defined in section 3204 of the RPS Guidelines, and planned actions to minimize the delay of timely compliance. Such issues may include, but are not limited to, inadequate transmission to allow for procurement to be delivered from eligible renewable energy resources, permitting, interconnection, or other circumstances that have delayed the procurement from eligible renewable energy resources, unanticipated curtailment of a contracted or owned eligible renewable energy resource, and higher-than-expected costs for the procurement or development of eligible renewable energy resources.
 - j. A description of the energy consumption by the City of Roseville, including any electricity used by the City of Roseville for water pumping, or any other electricity procured by the City of Roseville for purposes other than supplying its retail sales. The description shall include the purpose of this consumption, the annual amount in MWh associated with the consumption or other end-use, and whether the consumption or other end-use was excluded from the City of Roseville's retail sales.
- iii. Actions taken by the City of Roseville in the prior calendar year and planned to be taken in the current calendar year demonstrating reasonable progress toward meeting its RPS procurement requirements. The information reported shall include:
 - a. Solicitations released to solicit bid for contracts to procure electricity products from eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.
 - b. Solicitations released to solicit bid for ownership agreements for eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.

- c. Actions taken to develop eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements, including initiating environmental studies, completing environmental studies, acquiring interests in land for facility siting or transmission, filing applications for facility or transmission siting permits, and receiving approval for facility or transmission siting permits.
 - d. Interconnection requests filed for eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.
 - e. Interconnection agreements negotiated and executed for eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.
 - f. Transmission-related agreements negotiated and executed to transmit electricity products procured from eligible renewable energy resources to satisfy the City of Roseville's RPS procurement requirements.
 - g. Other planning activities to procure electricity products from eligible renewable energy resources.
- iv. The City of Roseville shall include a description of all actions planned in the current calendar year to demonstrate progress towards achieving its RPS procurement requirements, as specified in the prior section.

B. Compliance Period Reports

At the end of each Compliance period, the City of Roseville shall submit to the CEC a compliance report that provides the following information for the applicable compliance period:

- i. The City of Roseville's RPS procurement target for the compliance period, in MWh.
- ii. The amount of draft verified procurement retired, in MWh, for the compliance period that the City of Roseville applies toward the RPS procurement requirements for the compliance period. The City of Roseville shall report the amount of draft verified procurement applied from each portfolio content category or meeting the criteria of section 3202 (a)(2) of the RPS Guidelines. For each portfolio content category, the City of Roseville shall additionally report the amount from each category that is classified as long-term or short-term.
- iii. The amount of excess procurement, in MWh, accrued in previous compliance periods, if any, and historic carryover, if any, that the City of Roseville is applying to the RPS procurement target for the compliance period. The City of Roseville shall report the amount of excess procurement applied from each portfolio content category or that meets the criteria of section 3202 (a)(2) of the RPS Guidelines or historic carryover. For each portfolio content category, the City of

Roseville shall additionally report the amount that is classified as long-term or short-term.

- iv. The amount of excess procurement, in MWh, accrued for the compliance period, if any, that may be applied toward future compliance periods, as determined by applying the calculation in section 3206 (a)(1)(H) or section 3206 (a)(1)(I)6 of the RPS Guidelines, as applicable. The City of Roseville shall report the amount of accrued excess procurement from each portfolio content category or meeting the criteria of section 3202 (a)(2) of the RPS Guidelines. For each portfolio content category, the City of Roseville shall additionally report the amount that is classified as long-term or short-term.
- v. If a City of Roseville's compliance report indicates that the City of Roseville's RPS procurement requirements were not met, the City of Roseville shall submit copies of its renewable energy resource procurement plan(s) and enforcement program(s) in effect during the compliance period, if not previously submitted to the Commission, and provide documentation to justify the application of any optional compliance measures adopted by the City of Roseville in accordance with section 3206 and 3207(d)(5) of the RPS Guidelines. The documentation shall include all reports, analyses, proposed findings, and any other information upon which the City of Roseville relied in applying the measure, as well as the amount of the shortfall each optional compliance measure is intended to satisfy.

Title: Development Impact Fee Reports for Fiscal Year Ended June 30, 2024

Contact: Jeannine Thrash 916-774-5473 jthrash@roseville.ca.us
Dennis Kauffman 916-774-5313 dkauffman@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 8.2.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council accept the informational Development Impact Fee Reports prepared for the fiscal year that ended June 30, 2024.

BACKGROUND

California state legislation sets certain legal and procedural parameters for the charging of development impact fees ("DIF's"). This legislation was passed as AB1600 by the State Legislature and is now codified as California Government Code Sections (GC§) 66000 through 66008 ("Mitigation Fee Act"). GC§ 66006 (b) states the following requirements as pertains to the DIFs: For each separate account or fund established, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the following information for the fiscal year:

1. A brief description of the type of fee in the account or fund.
2. The amount of the fee.
3. The beginning and ending balance of the account or fund.
4. The amount of the fees collected and interest earned.
5. An identification of each public improvement on which fees were expended.
6. An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete.
7. A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and in the case of an interfund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan.
8. The amount of refunds made (as pursuant to GC § 66001(e)) due to sufficient funds being collected to complete financing on incomplete public improvements, and the amount of reallocation of funds made (as pursuant to GC § 66001(f)) due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.

The attached Development Impact Fee Reports are for informational purposes. They are also posted on the City's website.

FISCAL IMPACT

The report is for informational purposes only. There is no impact to the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Development Impact Fee Reports meet the above criteria and are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Respectfully Submitted,

Jeannine Thrash, Management Analyst

Dennis Kauffman, Assistant City Manager/Chief Financial Officer

Reporting Requirements for Development Impact Fees

In California, State legislation sets certain legal and procedural parameters for the charging of development impact fees ("DIFs"). This legislation was passed as AB1600 by the California Legislature and is now codified as California Government Code Sections (GC §) 66000 through 66008 ("Mitigation Fee Act"). This State law went into effect on January 1, 1989.

GC § 66006(b) states the following requirements as pertains to DIFs:

For each separate account or fund established, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the following information for the fiscal year:

- (A) A brief description of the type of fee in the account or fund.
- (B) The amount of the fee.
- (C) The beginning and ending balance of the account or fund.
- (D) The amount of the fees collected and interest earned.
- (E) An identification of each public improvement on which fees were expended and the amount of expenditures on each improvement including the total percentage of the cost of the public improvement that was funded with fees.
- (F) An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete.
- (G) A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an interfund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan.
- (H) The amount of refunds made (as pursuant to GC § 66001(e)) due to sufficient funds being collected to complete financing on incomplete public improvements, and the amount of reallocation of funds made (as pursuant to GC § 66001(f)) due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.

GC § 65865(e) also requires that in any development agreement entered into on or after January 1, 2004, the City shall comply with GC § 66006 with respect to any fee it receives or cost it recovers.

Description of Development Impact Fees

Drainage Fees

The Drainage Fee is established pursuant to Roseville Municipal Code Chapters 4.48 and 4.49. Drainage fees are required for all new construction that occurs within the Dry Creek Watershed mitigation zone or the Pleasant Grove/Curry Creek Watershed mitigation zones. These mitigation zones are further broken down into sub-zones or sub-areas for which fees vary.

New development, and the expansion of existing development, within the City imposes a burden on the creeks and drainage infrastructure within the Dry Creek watershed and the Pleasant Grove and Curry Creek watershed by adding additional impervious surface, thereby adding more runoff, and by changing discharge rates. Some of the worst burdens imposed by development are on properties located within the Dry Creek watershed and Pleasant Grove and Curry Creek watershed downstream from the City, where additional run-off poses a threat of severe flooding and is a danger to life and property.

The drainage fees have been calculated so as to pay for those facilities listed in the capital improvement program. The fee is to be collected for public improvements and facilities for which an account has been established and funds appropriated, and for which a proposed construction schedule has been adopted.

Public Facilities Fee

The Public Facilities Fee is established pursuant to Roseville Municipal Code Chapter 4.52. New development and the expansion of existing development within the City imposes burdens on existing public facilities and creates a need for additional public facilities. Such burdens may vary by the type of land use. The Public Facilities Fee is applied to new development and expansion of existing development to ensure adequate levels of public services and facilities are maintained. This fee spreads the costs of public facilities to development which creates the need for such public facilities, without generating any surplus to the general fund.

Sewer Connection Fees

Sewer connection fees are established pursuant to Roseville Municipal Code Chapter 14.16. Additional fees may be applicable to properties within sewer special benefit assessment areas.

- *Local Sewer Connection Fee* - The local sewer connection fee is charged for each sewer unit required within the Roseville City limits connected to the City-owned public sewer.

Water Connection Fee

Water connection fees are established pursuant to Roseville Municipal Code Chapter 14.08 and are applicable to all new water service connections within the City limits. This fee ensures the sharing of the costs associated with maintenance and expansion of the City's raw water supply, water treatment, storage, and distribution facilities by those who receive the benefits thereof.

Traffic Mitigation Fees

In 1988 the City of Roseville adopted a city-wide Traffic Mitigation Fee Program, requiring new development within the City to pay traffic impact fees. The fees collected through this program, in addition to other funding sources, allows the City to construct transportation improvements identified in its Capital Improvement Program (CIP). The fee program assesses fair-share costs to each jurisdiction based on their impact on the individual roadways from new development.

City / County Traffic Mitigation Fee - The City of Roseville and Placer County entered into a joint fee program for the purpose of funding improvements on Baseline Road and Walerga Road. The fee program assesses fair-share costs to other jurisdictions based on their impact on the individual improvements from new development. The fees associated with this fee program were originally collected by Roseville and Placer County. Fees collected by Roseville were remitted to Placer County quarterly to be held in one account. Effective July 2013, Fiddymont Road was removed from the program and individual agencies became responsible for holding the fees they *collect in two separate accounts, one with Roseville and one with Placer County.*

Downtown Specific Plan In-Lieu Parking Fee

This fee is established pursuant to Roseville Municipal Code Chapter 19.31. Within the designated Commercial Mixed Use, Old Town and Central Business districts, a parking requirement serving nonresidential uses and residential uses, where a minimum of one space per unit is provided on-site for the residential units, may be met by a cash in-lieu payment to the City prior to issuance of a building permit, or a certificate of occupancy if no building permit is required. The fee is dedicated for use to offset the cost of public off-street parking within the Downtown Specific Plan area in the form of garages or public parking lots.

Park Fees- (Although Park fees were adopted pre- AB1600, they are still being included in this report.)

Park fees are authorized pursuant to Roseville Municipal Code Chapters 4.37 and 4.38. There are two different types of park fees applicable to all residential projects. The City-wide Park Fee funds park and recreation facilities intended to serve the entire community, and the Neighborhood and Community Park Fees fund park and recreation facilities intended to serve neighborhood areas. Park fees may vary based on fees and credits that a parcel may be subject to. City-wide Park Credits are granted to all parcels within specific plan areas that have entered into a Development Agreement with the City. Certain parcels may be subject to additional City-wide credits. These additional credits are typically granted for park property dedication above City standards, or other park obligations that were paid for by the original land developers.

Electric Backbone Impact Fee

The Electric Backbone Impact Fee applies to all new customers served by the City's Electric Department and any customer requesting a special service or capacity increase. Fees are based upon a per lot/unit charge and collected upon issuance of the building permit fees. Fees are authorized pursuant to Roseville Municipal Code Chapter 4.54.

Solid Waste Impact Fee

The Solid Waste Impact Fee applies to all new single-family and duplex units. This fee is paid to the Solid Waste Division of the Environmental Utilities Department to set-up solid waste service. Typically, this fee is paid by the developer during the time of construction so that service will be available upon move-in by the homeowner. Fees are authorized pursuant to Roseville Municipal Code Chapter 9.12.

Development Agreement Fees Imposed Since 2004 (GC §65865(e))

- *Sierra Vista Specific Plan Mitigation Fee Program* –
 - *City Park Land Fee* - This fee provides funding for the SVSP land that is intended to be dedicated for a City park. This fee component does not cover neighborhood parks.
 - *Improvements Fee* - This fee is to provide funding for Sierra Vista landowners to be reimbursed for the design and completion of the SVSP improvements and to provide funding for open space and right-of-way dedications (e.g., school, fire station).
 - *Administration* - Establishment of the fee is for the purpose of equitably sharing the costs and burdens of administration of the SVSP Fee program throughout the specific plan with each landowner.
- *Watt Avenue and Vista Grande Boulevard Extension Traffic Mitigation Fee* – This fee provides fair share funding for extensions of Watt Avenue between the Regional University Specific Plan and future Placer Parkway and “Road B” west of the Sierra Vista Specific Plan boundary to Baseline Road. This fee remains in effect until a city-wide funding mechanism is adopted in cooperation with Placer County.
- *Water Meter Retrofit / Conservation Program* – This fee is established pursuant to Roseville Municipal Code Chapter 14.08 for the maintenance and testing of water meters and installation of Encoder Receiver Transmitter (ERT) devices.
- *Traffic Signal Coordination Fee* – This fee provides funding for the West Roseville Traffic Signal Interconnect project.
- *Bike Trail Fee* – This fee funds construction of Class 1 bike trails through new development areas.
- *City-Wide Park In-Lieu Fee* – This fee is paid as an alternative to dedication of City-wide park land, as specified in individual development agreements.
- *Fire Tax Equivalent Fee* – This fee applies to new growth areas and replaces the Fire Service Facilities Tax that expired in 2009. This fee provides funding for capital fire facilities and related equipment required to serve new growth areas.
- *Public Benefit Fee (AKA Community Benefit Fee)* – This fee applies to new residential growth areas and properties rezoned from non-residential to residential land uses. This fee ensures that new residential growth areas will benefit current and future residents of Roseville through investment in various public infrastructure projects and activities.
- *Air Quality Mitigation Fee (applies to West Roseville Specific Plan)* – This fee provides funding to the Placer County Air Pollution Control District to mitigate impacts to air quality resulting from new residential development.

- *Transit Shuttle Service Fee (applies to West Roseville Specific Plan)* – This fee provides funding for a shuttle service between the West Roseville Specific Plan area and the I80/Watt Avenue light rail station.
- *Downtown Benefit Fee* – Offsets the fiscal impacts associated with the unit increase within the West Roseville Specific Plan.
- *Westpark Drive off-site road fee* – Developer's fee will fund the construction cost of Westpark Drive north of the Pleasant Grove Wastewater Treatment Plant.
- *Blue Oaks Boulevard Off-Site Road Fee* – Developer's pro-rata share of the cost obligation dedicated to segments 3 and 4 of the Blue Oaks Boulevard off-site improvements.

Fund Balance Summary

Drainage Fee										
Pleasant Grove/Curry Creek Watershed Drainage Mitigation Fee										
Document Establishing Fee	Project	Fee Formula	Starting Balance	Fees Collected (Refunded)	Interest Earned	Interfund Transfer In/(Out)*	Expenditures	Ending Balance as of June 30, 2024	Sufficient Funds to Complete Project?	% of CIP Funded by Fee
Roseville Municipal Code Chapter 4.48		Ordinance No. 5933	\$15,901,773	1,211,138	484,477	-	(41,235)			
	Pleasant Grove Retention Basin						(20,539)		No	59
	Pleasant Grove Curry Creek Watershed Drainage Mitigation Fee Update						(90,036)		Yes- August 2023	Unknown at this time
	Pleasant Grove Stormwater Retention Facility						(82,373)		No	100
								\$17,363,205		

Drainage Project Descriptions

Pleasant Grove Retention Basin (Project # 400006) - Funding for this mandatory mitigation project will design and construct an approximately 2,500 acre-foot flood detention basin in the Al Johnson Wildlife Area/"Reason Farm Property" to mitigate various development projects. FY2022-23 funding was used to begin planning efforts for grant identification and development of an RFP for design. The project will be constructed when enough developer fees and grant funds have been collected to fund construction.

Pleasant Grove Curry Creek Watershed Drainage Mitigation Fee Update (Project# 500258) – This project provides funding for a Watershed Drainage Mitigation Fee Update in FY2022-23. The last Pleasant Grove Curry Creek Watershed Drainage Mitigation Fee Update was completed on July 1, 2018, and these updates are expected to occur approximately every five years.

Pleasant Grove Stormwater Retention Facility (Project# 500360) - Funding for this mandatory mitigation project will design and construct up to approximately 3,800 acre-foot flood detention basin in the Al Johnson Wildlife Area/"Reason Farms Property" to mitigate various development projects. It is possible that the basin will become a regional facility in collaboration with Placer County and multiple developers (Memorandum of Understanding pending). The project will be constructed when enough developer fees and grant funds have been collected to fund construction.

Dry Creek Watershed Drainage Mitigation Fee

*Transfers out: Transfer \$109,233 from Fund 3355 (Public Facilities) to Fund 2901 (RFA Debt Service) for 2015 316 Vernon Debt Service. Loan payment of \$33,346 for principal reduction of the loan to pay back the Fleet Replacement Fund (Fund 4005)-Loan purpose: Funding of design & construction for Oak Street Parking Garage. (Interest rate of 1.85% in FY24; matures 6/30/35); Loan payment of \$409,041 for principal reduction of the loan to pay back the Strategic Improvement Fund (Fund 1030)-Loan purpose: Funding of the 316 Vernon Building Project # 400055 (Interest rate of 1.85% in FY24; matures 6/30/27).										

Public Facilities Fee Project Descriptions

Oak Street Extension of the Miners Ravine Trail (Project# 400028) - Supplemental review, design, and construction of a Class -1 off-street trail parallel to Oak street from Lincoln Street to Royer Park at the Icehouse Bridge.

East Radio Site Relocation (Project# 400126) - The project requires acquisition and a 180-foot tower along with a shelter, generator and fuel tank to meet the City's short and long-term needs.

Police Department Expansion Project (Project# 500301) - The Police Department has outgrown the available building and parking space at 1051 Junction Blvd. The scope of services for Phases 1B and 3 include the design and development of construction documents for parking lot expansion as well as building tenant improvement.

Council Chambers Space Utilization and Feasibility Study (Project# 500314) - This project is needed to conduct a space utilization and feasibility study for the Council Chambers located at 311 Vernon Street; the study will consider the space needs for the next ten years.

Council Chambers Conference Room Design and Construction (Project# 500427) - This project provides funding to design and construct an additional conference room adjacent to the Council Chambers for Council use during closed sessions and staff use during City Council meetings.

Local Sewer Connection Fees										
Document Establishing Fee	Project	Fee Formula	Starting Balance	Fees Collected (Refunded)	Interest Earned	Interfund Transfer In/(Out)	Expenditures	Ending Balance as of June 30, 2024	Sufficient Funds to Complete Project?	% of CIP Funded by Fee
Roseville Municipal Code Chapter 14.16		Ordinance No. 6100	\$9,260,701	799,817	345,511		(6,505)			
	Wastewater Collections Warehouse						(8,545)		Yes- Started 2021	100
	Wastewater Collections Building Expansion						(60,207)		Yes- Started 2023	100
								\$10,330,772		

Local Sewer Connection Project Descriptions

Wastewater Collections Warehouse (Project# 500220) - This project provides funding to construct a new warehouse for the Wastewater Collections division.

Wastewater Collections Building Expansion (Project# 500419) - The current building is under sized for current Wastewater Collection staff and equipment. A study will be conducted to determine the most cost-effective method for expansion of building space to add a conference/training room, expand warehouse storage, and possibly add or relocate office space. Utility improvements will also be required for the added building space. Using the study the City will select final improvements and a preliminary design will be developed for a design build construction.

Water Connection Fees										
Document Establishing Fee	Project	Fee Formula	Starting Balance	Fees Collected (Refunded)	Interest Earned	Interfund Transfer In/(Out)*	Expenditures	Ending Balance as of June 30, 2024	Sufficient Funds to Complete Project?	% of CIP Funded by Fee

								\$58,912,927		
*Transfers in: \$58,350 from the Water Fund for Folsom Pump Station; \$385,000 for loan payment from Water Operations Fund-Loan purpose: Advanced Metering Project (Interest rate 5.00% (FY18-FY29); Loan matures 6/30/30). \$4,122,190 of the expenditures were debt related.										

Water Connection Fees Project Descriptions

West side tank/pump Stn Proj (Project# 400014) - Design and construct a six-million-gallon water storage tank, pump station, and chemical addition facility at the City's 5.1-acre site located in the West Roseville Specific Plan. The work will include site master planning to accommodate two six-million-gallon tanks and satellite facility for Water Distribution operations.

Regional Water Supply Reliability Study (Project# 400063) - The project funds the study conducted by the Regional Water Authority for regional water supply reliability, and it is inclusive of the development of a federally recognized regional water bank.

Advanced Metering Infrastructure Project (Project# 400099) - An Advanced Metering Infrastructure (AMI) system is required to offer better meter data to customers. AMI would introduce two-way communication for meters allowing remote reads and greater interaction between the utility and its customers. An AMI system also provides customers a detailed view of their water usage, enabling them to make changes to increase their water efficiency. Finally, an AMI system provides better system reliability by bringing enhanced demand management and capital efficiencies. This project progresses from a business case through a third-party implementation and finishes with the installed and operating AMI system.

Integrated Resources Plan (Project# 500018) - The goal of this planning is to develop a cohesive and implementable Integrated Resource Plan (IRP) for providing reliable and low-cost utility services to City's residents and businesses. The project also includes the development of a recommended water supply and resources portfolio to 2050.

Cooperative Potable Water Transmission Infrastructure (Project# 500147) - This project provides funding for planning, design, and construction of additional potable water conveyance infrastructure to support reliable water supply delivery to the City of Roseville customers. The project is anticipated to be a partnership effort between the City and the Placer County Water Agency (PCWA).

2024 Potable Water Master Plan (Project# 500148) - This project provides funding for a potable water systems evaluation to guide the Water Utility in terms of infrastructure planning and improvements implementation to both existing and future storage and distribution infrastructure to reliably support the City's potable water demand through buildout.

Aquifer Storage and Recovery Well –Design (Project# 500155) -This project designs and constructs a potable water well with aquifer storage and recovery facilities based on recommendations from the Groundwater Strategic Plan.

Aquifer Storage and Recovery Wells 9 Westbrook and 18 Solaire (Project# 500157) -This project provides funding for the construction of potable water wells with aquifer storage and recovery facilities based on recommendations from the Groundwater Strategic Plan.

Aquifer Storage and Recovery Wells 13 Campus Oaks and 19 Misty Wood (Project# 500315) - This project provides funding for the construction of potable water wells with aquifer storage and recovery facilities based on recommendations from the Groundwater Strategic Plan.

Traffic Mitigation Fee

Traffic Mitigation Fee Project Descriptions

Washington and Andora Widening (Project#400015) - This project provides funding for widening Washington Blvd from two lanes to four lanes from Sawtell to Diamond Oaks, including widening the Andora Underpass beneath the UPRR tracks. Phase one of the project is currently under construction.

City Traffic Model Update (Project# 400189) - This project funds the ongoing model, land use and project updates for the Citywide Traffic Model.

Downtown Pedestrian Safety CV Pilot (Project# 500051) - This project added ped-actuated flashing signs at uncontrolled crosswalks in downtown with CV technology to warn CV-equipped vehicles of the presence of a pedestrian.

Washington Blvd All American Roundabout (Project# 500070) – This project includes a new two-lane roundabout at the intersection of Washington Blvd and All America City Blvd.

Roseville Parkway Extension (Project# 500078) - This project will design and construct the portion of Roseville Parkway between Washington & Foothills, including the bridge over UPRR and Industrial.

Pleasant Grove Boulevard Widening Project (Project#500115) - This project provides funding to widen Pleasant Grove Boulevard from two lanes to three lanes in each direction into the center median, from Foothills Boulevard west to Woodcreek Oaks Boulevard. Construction is anticipated to extend through FY2024-25.

Westbrook Bl Payson Ave-Octave Ave Intersection imp and Pleasant Grove CM (Project# 500171) - This project constructed a new traffic signal at Westbrook and Octave/Payson, and the CMS on PG Blvd.

Traffic Signal Maintenance Shop Expansion (Project# 500226) - This project provides funding for the design and renovation at a vacant city-owned building space. This CIP will repurpose a vacant city-owned facility to accommodate the Public Works Department, Engineering Division, Traffic Signal Maintenance Section's current needs and future expected growth.

Traffic Signal and Roadway Improvements for Citywide Sports Complex (Project# 500317) - This project includes the installation of ultimate traffic signal and roadway improvements at the intersections of Blue Oaks Boulevard and Westbrook Boulevard, Blue Oaks Boulevard and Hayden Parkway, Westbrook Boulevard and Brookstone Drive (N), and Westbrook Boulevard and Brookstone Drive (S) to accommodate planned construction of the Roseville Soccer Complex project (400068) east of Westbrook Boulevard. The project will provide left turn lanes off Westbrook Boulevard onto the Roseville Soccer Complex and traffic signal improvements serving the property. The traffic study for the Roseville Soccer Complex project requires these improvements to be complete for the opening of the Soccer Complex.

City/ County Traffic Mitigation Fee

								\$13,207,959		

City/County Traffic Mitigation Fee Project Description

Riego Road-Baseline Road Improvements (Project# 500331) - Riego Road/Baseline Road needs to be widened and improved to support future planned and approved development and provide a reliable and safe east-west connection to meet anticipated traffic demands in the South Placer and South Sutter region. In conjunction with the Placer County Transportation Planning Agency (PCTPA), County of Placer, and the County of Sutter, the City of Roseville will mutually develop the analysis and related reports necessary to adopt a regional transportation funding and financing plan. Additionally, the multi-jurisdictional group will develop an implementation plan for the Riego Road/Baseline Road project. This project represents the City of Roseville's share of the total endeavor.

Downtown Specific Plan In-Lieu Parking Fee

Neighborhood and Community Park Fees Project Descriptions

Park Site 56 Gibson Park (Project# 400004) - This project provides funding to construct an initial phase of the 12.5-acre city-wide park focused on sports, including lighted basketball, tennis, and pickle ball courts.

NC 57 Neighborhood Park (Project# 400067) - This is a small neighborhood park site off of Antelope Creek Drive. A fenced off-leash dog park is being developed at this site. Improvements at the park site includes an existing bike trail.

Roseville Soccer Complex (Project# 400068) - This project provides funding for an eight to ten field complex for soccer and other rectangular sports. Other amenities include large picnic/pavilions, a universally accessible playground, a small corporation yard, restrooms, and parking.

Saugstad Park Renovations (Project# 400122) - This project provides funding for phase one of renovations to Saugstad Park. The overall improvements include the addition of a skate track, a fitness court, basketball and pickleball courts, Americans with Disabilities Act (ADA) improvements, and parking lot upgrades.

Riego Creek Park F-51 (Project# 500040) - This project provides funding for the construction of an 11.8-acre school site park. The project is currently in the public outreach phase, and amenities have not been determined. However, those being considered include baseball and softball fields, restrooms, a covered children's play area, and a large group picnic area.

W-50C Neighborhood Park (Project# 500042) - This project funds the design and construction of a 1.5-acre neighborhood park at Garland at Telluride. Amenities include a shaded picnic area, a children's play area, a half-court for basketball, bocce ball courts, a tricycle track, and walkways.

John Byouk Park - JM-50 (Project# 500100) - This project provides funding for the construction of a 7.73-acre school park site. The project is currently in the public outreach phase, and amenities have not been determined. However, those being considered include baseball and soccer fields, restrooms, a children's play area, and a large group picnic area.

W-50D Neighborhood Park (Project# 500101) - This project provides funding for the construction of a 1.2-acre neighborhood park site located in West Roseville, phase 4 of Garland at Campanella. The project is currently in the public outreach phase, and amenities have not been determined. However, those being considered include a children's play area and a picnic area.

Solaire Park – WB-50 (Project# 500102) - This project provides funding for the design and construction of a 9.6-acre school park in the Sierra Vista Specific Plan area. The park amenities include a ballfield, off-street parking, children's play area, shaded picnic and looped pathways. The construction is anticipated to begin in Spring/Summer 2022.

FD-51 Neighborhood Park (Project# 500185) – This project provides funding for design and construction of a neighborhood park in the Sierra Vista Specific Plan area. The park amenities will be determined during the design phase of the project.

Fiddymont Ranch Phase 4 Trail (Project# 500222) - Developer Taylor Homes constructed a Class I multi-use trail West Roseville Specific Plan. This project include a trail segment along Cumberland Drive from Bev Bos Park to Hayden Parkway and a trail segment along Chico Drive.

KT-52 School Park (Project# 500241) – This project provides funding for the design and construction of a 7.61-acre school park site. The project will begin in FY2022-23 with public outreach to determine appropriate park amenities. It is anticipated that the design may include formal game fields, restrooms, a children's play area, a shaded area for picnicking, and a looped path.

Sierra Vista Torrente Phase 1 CG-81 Trail (Project# 500316) – Developer Anthem United constructed a Class I multi-use trail in Open Space Parcel CG-81 in Sierra Vista Specific Plan.

Sierra Vista Solaire Phase 6 - Village 5 Bike Trail (Project# 500321) - Developer Pulte Homes constructed a Class I multi-use trail through Solaire Village in Sierra Vista Specific Plan.

C-63 Neighborhood Park (Project# 500351) - This project provides funding for a 2.5-acre neighborhood park. Typical features of a neighborhood park include a children's play area, a shaded picnic area, looped pathways, among other features.

City-wide Park Fee - (Although Park fees were adopted pre-AB1600, they are still being included in this report.)

*Transfer out: \$547,362 for loan principal payment to Fleet Replacement Fund 4005-Loan Purpose: The purpose of this loan is to provide funding for the Harry Crabb Park project. The Citywide Park Fund will repay the loan from moneys it receives from the Roseville Finance Authority (RFA) 2017A savings (Interest rate FY24: 1.85%); Loan matures 6/30/26.										

City-wide Park Fee Project Descriptions

Park Site 56 Gibson Park (Project# 400004) – This project provides funding to construct an initial phase of the 12.5-acre city-wide park focused on sports, including lighted basketball, tennis, and pickle ball courts.

WRSP Community Center (Project# 400019) - Design and construct phase I of this Citywide park. Phase I consists of 2 softball fields, 1 baseball field, parking lot and potentially a restroom.

Roseville Soccer Complex (Project# 400068) - Sports complex at Blue Oaks Blvd/Phillip Road/Hayden Parkway. The project is under construction and includes 10 lighted synthetic long fields, restrooms, storage facilities, a children's universally accessible playground, shaded picnic area(s), and pedestrian pathways.

Denio Family Park (Parcel F-54) (Project# 400118) - Design and construction of park, including a disc golf course, fenced off-leash dog park and support features such as off-street parking restrooms and shaded picnic areas.

Maidu Softball Restroom Upgrades (Project# 500203) - This project provides funding for Americans with Disabilities Act (ADA) improvements to the Maidu softball restrooms in order to bring the building up to code.

Fiddymment Homestead (Project# 500355) – This project provides funding to develop a visioning plan for the historic Fiddymment Homestead at Pistachio Regional Park as a first phase. The plan would include outdoor interpretive opportunities for the existing structures preserved onsite in addition to providing the Americans with Disabilities Act (ADA) accessibility for a walking interpretive tour. The second phase will be to construct approved improvements.

Public/Community Benefit Fee Project Description

Roseville Soccer Complex (Project# 400068) - This project provides funding for an eight to ten field complex for soccer and other rectangular sports. Other amenities include large picnic/pavilions, a universally accessible playground, a small corporation yard, restrooms, and parking.

East Radio Site Relocation (Project# 400126) - The City's current east radio site has many limitations including emergency power, coverage, capacity and a risky building lease status. These limitations increase the level of risk to provide clear and reliable communications in East Roseville. This CIP is designed to relocate the site to a location that will provide for sustainable high levels of communication services.

401 Oak Street Site Work (Project# 500215) - Asbestos remediation and demolition of existing building.

Baseline Traffic Signals (Project# 500299) - This project provides funding for the installation of traffic signals and related improvements along Baseline Road at Locust Road and Pleasant Grove. The existing stop signs along Baseline Road will not have sufficient capacity to manage the traffic expected with the incoming Baseline Marketplace project. The regional shopping destination is expected to draw shoppers from not only Roseville and Placer County, but Sacramento County to the South and Sutter County to the West. Therefore, it is in Roseville's best interest to invest in infrastructure improvements to accommodate the anticipated traffic demand and provide for the convenient access of our neighboring jurisdictions to Roseville's shopping destinations. This funding is a loan and will be reimbursed from the City/County fee program for Baseline Road improvements as funds become available. This project is an interim improvement to meet the needs of the region today while the City, Placer County, and Sutter County work through the funding plan, design, environmental approvals, and eventual construction of a future widened Baseline Road from Foothills Blvd. to Highway 99.

Westbrook Blvd - Segment 4 (Project# 500413) - This project completes the last segment of Westbrook Boulevard in the Sierra Vista Specific Plan. This segment is between Earl Rush Drive and Nicole Gee Drive. The SIF loaned the money to construct the developer's portion of the improvements. The developer will reimburse 100% of the SIF funds used.

Blue Oaks Blvd. and Westpark Off-Site Road Fee Project Description:

Traffic Signal and Roadway Improvements for Roseville Complex (Project# 500317) - This project includes the installation of ultimate traffic signal and roadway improvements at the intersections of Blue Oaks Boulevard and Westbrook Boulevard, Blue Oaks Boulevard and Hayden Parkway, Westbrook Boulevard and Brookstone Drive (N), and Westbrook Boulevard and Brookstone Drive (S) to accommodate planned construction of the Roseville Soccer Complex project (400068) east of Westbrook Boulevard. The project will provide left turn lanes off Westbrook Boulevard onto the Roseville Soccer Complex and traffic signal improvements serving the property. The traffic study for the Roseville Soccer Complex project requires these improvements to be complete for the opening of the Soccer Complex.

Attachment 1:
Fee Ordinances, Resolutions and
Development Agreements

Drainage Fees:

Pleasant Grove/Curry Creek Watershed Drainage Mitigation Fee

Ordinance No. 5933

Dry Creek Watershed Drainage Mitigation Fee

Ordinance No. 2617

ORDINANCE NO. 5933

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS
4.48.020, 4.48.050, 4.48.070 AND 4.48.140 OF CHAPTER 4.48 OF TITLE 4 OF THE
ROSEVILLE MUNICIPAL CODE REGARDING PLEASANT GROVE/CURRY CREEK
WATERSHED DRAINAGE MITIGATION FEE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 4.48.020 of Chapter 4.48 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.48.020 Definitions.

The following words are defined for purposes of this chapter as follows:

A. "Building permit" means the permit issued or required by the city for construction of any structure pursuant to and as defined by the building code.

B. "Capital improvement program" means that list of proposed drainage facilities, improvements, or infrastructure totaling \$23,576,744.69 (in 2017 dollars) included in the study.

C. "Department" means the department of development services.

D. "Director" means the director of the department.

E. "Facilities" means those public drainage facilities or infrastructure shown and included on the capital improvement program.

F. "Fee" or "drainage mitigation fee" means the fee established by this chapter. The fee shall be collected prior to the approval of any building permit. The fee shall be used solely to finance the facilities.

G. "Improvement plan" means a site plan of property proposed for development showing all required improvements that must be approved by the city prior to the issuance of a building permit for the property.

H. "Study" means the reports entitled "Pleasant Grove/Curry Creek Watershed Mitigation Fee Report Amended Hydrology Project Report for Fee Revisions" dated May 2017 by Civil Engineering Solutions, Inc. The study is on file in the offices of the director and the city clerk.

I. "Drainage mitigation fund" means that special interest-bearing fund established pursuant to Section 4.49.030.

SECTION 2. Section 4.48.050 of Chapter 4.48 of Title 4 of the Roseville Municipal Code is here amended to read as follows:

4.48.050 Watershed and soil boundaries.

The boundaries of the Pleasant Grove and Curry Creek watershed are established as shown on Exhibit PG-2 within the Study entitled "PGWMF Land Use Areas Contributing to Impact" dated March 2017 which is on file in the office of the city clerk and the director and is incorporated herein by this reference.

SECTION 3. Section 4.48.070 of Chapter 4.48 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.48.070 Drainage mitigation fee.

The fee within the Pleasant Grove and Curry Creek watersheds shall be:

Land Use Category	Fees
Low Density Residential (LDR): less than 7 units/acre	\$494.93/unit
Medium Density Residential (MDR): 7 to 12.9 units/acre	\$494.93/unit
High Density Residential (HDR): 13 units/acre or higher	\$408.23/unit
Neighborhood Commercial (NC)	\$6,423.12/acre
Community Commercial (CC)	\$6,423.12/acre
Regional Commercial (RC)	\$6,423.12/acre
Business Professional (BP)	\$6,423.12/acre
Light Industrial (LI)	\$6,423.12/acre
General Industrial (IND)	\$6,423.12/acre

SECTION 4. Section 4.48.140 of Chapter 4.48 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.48.140 Inflationary adjustments.

The Construction Cost Index (CCI) inflationary fee adjustment shall become effective July 1, 2013. The fee established by this chapter shall be adjusted annually July 1st beginning on July 1, 2018 by a percentage equal to the adjustment rate for the prior year for construction costs as determined by the director in the preceding June. The director's determination shall be based upon averaging the Construction Cost Index (CCI) for 20 cities and for San Francisco, as published in the Engineering News Record publication for the preceding 12 months ending in May. The resultant fee shall be rounded to the nearest dollar figure.

SECTION 5. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 6. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 7th day of February, 2018, by the following vote on roll call:

AYES	COUNCILMEMBERS:	Gore, Alvord, Herman, Allard, Rohan
NOES	COUNCILMEMBERS:	None
ABSENT	COUNCILMEMBERS:	None

City Clerk

ORDINANCE NO. 2617

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
ADDING CHAPTER 4.49 TO TITLE 4 OF THE ROSEVILLE
MUNICIPAL CODE, RELATING TO THE DRY CREEK
WATERSHED DRAINAGE MITIGATION FEE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1: Chapter 4.49 is hereby added to Title 4 of the Roseville Municipal Code to read as follows:

CHAPTER 4.49

DRY CREEK WATERSHED DRAINAGE MITIGATION FEE

4.49.010 Purpose.

The City Council finds and declares that the purpose of this chapter is as follows:

A. The General Plan of the City requires that the city be provided, in a time frame related to its development, with an adequate level of drainage infrastructure so as to not adversely impact other areas.

B. New development, and the expansion of existing development, within the City imposes a burden on the creeks and drainage infrastructure within the Dry Creek watershed by adding additional impervious surface, thereby adding more runoff and changing discharge rates. This creates a need for new drainage infrastructure and improvements. Such burdens may vary by the type of land use and location within the City. Some of the worst impacts imposed by development are on properties located within the Dry Creek watershed downstream from the City, where additional runoff poses a threat to severe flooding and is a danger to life and property.

C. Analysis of the land use expected at buildout of the City pursuant to the General Plan and Specific Plans make it possible to estimate the amount of additional runoff generated by different types of land use, to analyze the drainage infrastructure or facilities necessary to mitigate that runoff, and to determine which land uses will require which portions of such infrastructure. It is therefore possible to charge a fee, based on land use and location, which equitably shares the burden of providing drainage infrastructure or facilities within the Dry Creek watershed among those who will create the need for them. It is the intent of this chapter to create such a fee without generating any surplus to the general fund. It is the further purpose of the chapter to implement the General Plan and Specific Plans by assuring that adequate public facilities are financed and provided to serve the City.

D. The Fee established by this chapter has been calculated in the manner set forth in the Study so as to pay for those Facilities listed in the Capital Improvement Program.

E. The Fee established by this chapter is in addition to any other fees or charges required by law as a condition of development.

F. The Fee established by this chapter is to be collected for public improvements and facilities for which an account has been established and funds appropriated, and for which a proposed construction schedule has been adopted.

G. That the failure to impose conditions and regulations of this chapter relating to payment of the Fee on building permits would jeopardize both residents of the community and those outside the community within the Dry Creek watershed, in that it would permit construction to proceed without adequate drainage infrastructure or means of financing said infrastructure.

H. The requirement of this chapter to pay the Fee is necessary in order to assure compliance with the applicable Zoning Ordinance, Specific Plans, and General Plan requirements for the infrastructure funded by this chapter.

I. That for a period of greater than 10 days prior to adoption of this chapter, data has been available to the public and to developers and their representatives indicating the cost or estimated cost of all the infrastructure to be funded, the revenue sources anticipated, and the means of sharing these costs.

J. That the City Council has considered the effect of the Fee imposed by this chapter with respect to the housing needs of the City as a whole and of the region, particularly as required by the Housing Element of the General Plan, and the City Council finds that this chapter does not unduly adversely affect the City's ability to provide such needs.

K. That the establishment of the Fee is for the purpose of obtaining funds for capital projects, necessary to maintain service required by the General Plan within existing service areas and existing portions of the City which are developed or for which land use has already been granted.

4.49.020 Definitions.

The following words are defined for purposes of this chapter as follows:

A. "Building Permit" means the permit issued or required by the City for construction of any structure pursuant to and as defined by the Building Code.

B. "Capital Improvement Program" means that list of proposed drainage facilities, improvements, or infrastructure totaling \$5,248,700 (in 1991 dollars, Roseville projects only) included in the Study.

C. "Department" means the Department of Public Works.

D. "Director" means the Director of the Department.

E. "Facilities" means those public drainage facilities or infrastructure shown and included on the Capital Improvement Program.

F. "Fee" or "Drainage Mitigation Fee" means the Fee established by this chapter. The Fee shall be collected prior to the approval of any building permit. The Fee shall be used solely to finance the Facilities.

G. "Improvement Plan" means a site plan of property proposed for development showing all required improvements that must be approved by the City prior to the issuance of a Building Permit for the property.

H. "Study" means both the report entitled "Dry Creek Watershed Flood Control Plan" dated April 1992 by James M. Montgomery Consulting Engineers, and the report of the Director entitled "Adoption of Interim Dry Creek Watershed Flood Control Plan and Drainage Mitigation Fee" dated June 4, 1992, taken together. The Study is on file in the Offices of the Director and the City Clerk.

I. "Dry Creek Drainage Mitigation Fund" means that special interest-bearing fund established pursuant to Section 4.49.030.

4.49.030 Establishment and Administration of Dry Creek Drainage Mitigation Fund.

The Finance Director is hereby directed to establish a special interest-bearing fund entitled the Dry Creek Drainage Mitigation Fund. All Fees collected pursuant to this chapter shall be deposited in the Dry Creek Drainage Mitigation Fund and expended solely to finance the Facilities.

4.49.040 Payment of Drainage Mitigation Fee.

Except as otherwise provided by this chapter, the Fee imposed pursuant to this chapter shall be paid at or prior to the issuance of any Building Permit within the Dry Creek Watershed. Calculation of the Fee shall be determined in accordance with the Study and this chapter depending upon where within the City development occurs, the type of development, and the extent of development.

4.49.045 Payment of Drainage Mitigation Fee Where Building Permits are not Issued by the City.

Where Building Permits are issued by an individual or agency other than the City, the Fee imposed pursuant to this chapter shall be paid at or prior to a request for electric, water, or sewer service, whichever is first. The fee shall be calculated in the same manner as any other Fee imposed pursuant to this chapter.

4.49.050 Watershed and Subarea Boundaries.

The boundaries of the Dry Creek Watershed and its subareas are hereby established as shown on that certain map entitled Dry Creek Watershed Subarea Map which is on file in the Office of the City Clerk and the Director and is incorporated herein by reference.

4.49.060 [Reserved]

4.49.070 Drainage Mitigation fee -- Main Stem.

The Fee in that portion of the Dry Creek Watershed which is in the Main Stem subarea shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Commercial, Industrial, or other	\$1,125.00/acre
High-density Residential (More than 4.0 units per acre)	\$94.00/unit
Low-density Residential (4.0 or less units per acre)	\$148.00/unit

4.49.080 Drainage Mitigation fee -- Antelope Creek.

The Fee in that portion of the Dry Creek Watershed which is in the Antelope Creek subarea shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Commercial, Industrial, or other	\$1,350.00/acre
High-density Residential (More than 4.0 units per acre)	\$113.00/unit
Low-density Residential (4.0 or less units per acre)	\$274.00/unit

4.49.090 Drainage Mitigation fee -- Miner's Ravine.

The Fee in that portion of the Dry Creek Watershed which is in the Miner's Ravine subarea shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Commercial, Industrial, or other	\$1,699.00/acre
High-density Residential (More than 4.0 units per acre)	\$142.00/unit
Low-density Residential (4.0 or less units per acre)	\$508.00/unit

4.49.100 Drainage Mitigation fee -- Strap Ravine.

The Fee in that portion of the Dry Creek Watershed which is in the Strap Ravine subarea shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Commercial, Industrial, or other	\$1,277.00/acre
High-density Residential (More than 4.0 units per acre)	\$106.00/unit
Low-density Residential (4.0 or less units per acre)	\$215.00/unit

4.49.110 Drainage Mitigation fee -- Linda Creek North.

The Fee in that portion of the Dry Creek Watershed which is in the Linda Creek North subarea shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Commercial, Industrial, or other	\$1,215.00/acre
High-density Residential (More than 4.0 units per acre)	N/A
Low-density Residential (4.0 or less units per acre)	\$163.00/unit

4.49.120 Drainage Mitigation fee -- Linda Creek South.

The Fee in that portion of the Dry Creek Watershed which is in the Linda Creek South subarea shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Commercial, Industrial, or other	\$1,371.00/acre
High-density Residential (More than 4.0 units per acre)	\$114.00/unit
Low-density Residential (4.0 or less units per acre)	\$194.00/unit

4.49.130 Drainage Mitigation fee -- Secret Ravine.

The Fee in that portion of the Dry Creek Watershed which is in the Secret Ravine subarea shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Commercial, Industrial, or other	\$1,427.00/acre
High-density Residential (More than 4.0 units per acre)	\$119.00/unit
Low-density Residential (4.0 or less units per acre)	\$311.00/unit

4.49.140 Reserved.

4.49.150 Existing Development.

No Fee pursuant to this chapter shall be charged for already existing development or for projects which rebuild or remodel without increasing the impervious area, except as provided in this section.

Where any development or project expands or remodels, it shall be charged the appropriate Fee as provided by Sections 4.49.050 through 4.49.140; provided, however, that the Fee shall be calculated only as to that portion of the development or project which is expanded or remodeled.

4.49.160 Fee Adjustments.

A. A developer of any project subject to the Fee established by this chapter may apply to the Director for a reduction or adjustment to the Fee based on the absence of any reasonable relationship or nexus between the impacts of the project and either the amount of the Fee or the Facilities to be financed by the Fee. The application shall be made in writing and filed with the Director not later than twenty (20) calendar days after notification of the amount of the Fee. The application shall state in detail the factual basis for the claim of reduction or adjustment and the amount of the proposed reduction or adjustment. The Director shall consider the application and render his decision in writing not later than forty-five (45) calendar days after the filing of the Fee adjustment request. Any person aggrieved by the decision of the Director may, within twenty (20) calendar days thereafter, appeal the decision in writing to the City Council by filing an appeal with the City Clerk. The City Council shall consider such appeals within forty-five (45) calendar days after filing. The decision of the City Council shall be final. No Building Permit shall be considered final or complete for purposes of the Permit Streamlining Act (Government Code Section 65920, et seq.), or any other purpose, until a final decision pursuant to this section has been made.

B. Notwithstanding the provisions of Subsection A, a project proponent or applicant may pay the Fee "under protest" and receive a Building Permit. Provided, however, that the application for reduction or adjustment shall thereafter be filed within ten (10) calendar days or any objection shall be deemed waived. If a reduction or adjustment is received after payment pursuant to this subsection is made, a refund to the applicant shall be made of that amount by which the Fee is reduced or adjusted.

C. The project proponent or applicant applying for a reduction or adjustment shall have the burden of proof, by a preponderance of the evidence, that a reasonable relationship or nexus is lacking between the Fee, or the Facilities to be financed by the Fee, and the particular project.

D. In the event of any reduction or adjustment in the Fee granted pursuant to this section, any later change in the use, zoning, or land use designation for the property involved shall subject the then owner to payment of the then applicable Fee for new uses, zoning, or land use designation, whether or not a Building Permit is required.

4.49.170 Inflationary Adjustments.

The Fee established by this chapter shall automatically be adjusted on January 1 of each calendar year by a percentage equal to the inflation rate for the prior year for construction costs as determined by the Director on December 1 of each calendar year. The Director's determination shall be based on the

Engineering News Record, Construction Cost Index for the calendar year as of December 1.

Further the Director shall, during the first meeting in February of every odd-numbered year beginning in 1993, report to the City Council as to the inflation of land costs in the area where the Facilities are intended to be constructed. The council shall at that time adjust the Fee for such inflation.

4.49.180 Adoption in Compliance.

When monies in the Dry Creek Drainage Mitigation Fund are disbursed for use, the Fees shall be used to finance the Facilities. To the extent sufficient Fees are available, all Facilities financed by the Fees shall be constructed or acquired in accordance with the priorities established in the Capital Improvement Program.

4.49.190 Chapter is Severable.

If any provision of this chapter or the application thereof to any person or circumstance held invalid, such invalidity shall not affect the other provisions of this chapter which can be given effect without the invalid provision or its application, and to this end the provisions of this chapter are severable.

SECTION 2. This ordinance shall be effective at the expiration of sixty (60) days from the date of adoption.

SECTION 3. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 1st day of July, 1992, by the following vote on roll call:

Ordinance No. 6290

ORDINANCE NO. 6290

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS 4.52.050, 4.52.060, 4.52.070, 4.52.080 and 4.52.090, OF CHAPTER 4.52 OF TITLE 4 OF THE ROSEVILLE MUNICIPAL CODE REGARDING PUBLIC FACILITIES FEES

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 4.52.050 of Chapter 4.52 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.52.050 Public facilities fee—Residential.

Effective January 4, 2021, the fee for residential development shall be:
Low density residential (LDR) shall be \$3,528.00 per dwelling unit;
Medium density residential (MDR) shall be \$3,266.00 per dwelling unit;
Single-family age-restricted shall be \$2,352.00 per dwelling unit.

SECTION 2. Section 4.52.060 of Chapter 4.52 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.52.060 Public facilities fee—Commercial and unspecified development.

Effective January 4, 2021, the fee for commercial or unspecified development shall be \$0.66 per square foot of structure.

SECTION 3. Section 4.52.070 of Chapter 4.52 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.52.070 Public facilities fee—Industrial.

Effective January 4, 2021, the fee for light industrial development shall be \$0.44 per square foot of structure and for general industrial the fee shall be \$0.27 per square foot of structure.

SECTION 4. Section 4.52.080 of Chapter 4.52 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.52.080 Public facilities fee—Business/professional.

Effective January 4, 2021, the fee for business/professional and central business district development shall be \$0.89 per square foot of structure.

SECTION 5. Section 4.52.090 of Chapter 4.52 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.52.090 Public facilities fee—Multifamily-HDR and HDR-age restricted.

Effective January 4, 2021, the fee for multifamily development shall be \$2,352.00 per dwelling unit. Effective January 4, 2021, the fee for multifamily age restricted development shall be \$1,959.00 per dwelling unit.

SECTION 6. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 7. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

ORDINANCE NO. 6100

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION 9.12.100 OF CHAPTER 9.12 OF TITLE 9, AMENDING SECTIONS 14.08.025, 14.08.090, 14.08.091, AND 14.08.100 OF CHAPTER 14.08 OF TITLE 14, DELETING SECTION 14.08.091 OF CHAPTER 14.08 OF TITLE 14, AND AMENDING SECTIONS 14.16.060, 14.16.080, 14.16.200 AND 14.16.201 OF CHAPTER 4.16 OF TITLE 14 OF THE ROSEVILLE MUNICIPAL CODE REGARDING GARBAGE, WATER AND WASTEWATER RATES AND SERVICES

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 9.12.100 of Chapter 9.12 of Title 9 of the Roseville Municipal Code is hereby amended to read as follows:

9.12.100 Charges for collection.

A. Residential.

1. Each and every householder or tenant occupying any dwelling, house, or residence, shall pay to the city, or its authorized agent, a fixed minimum charge as set forth in this section as a refuse fee. Such fixed minimum is based upon service of one call per week, irrespective of whether there is any refuse to remove from any premises.

2. Ninety-Gallon Automated Container Service. For each premises assigned city-owned 90-gallon containers (one for household garbage and one for yard clippings and green waste) and serviced by automated collection, all garbage, and green waste for collection must be contained within the 90-gallon container(s) with the lid closed and must fall freely from container when dumped. Each such premises shall be provided weekly collection for trash; green waste will be collected every other week.

3. Refuse service may be discontinued upon request for a period of no less than two months when a dwelling, house, or residence will be unoccupied. The minimum time of discontinuing service will be two months. A service charge equal to two months' refuse charge will be charged to the utility user for the removal and redelivery of the assigned automated container when service has been temporarily discontinued. This service charge will be paid at the time service is discontinued. Upon occupancy of a dwelling, house or residence, the utility user must contact the city to restart service and will be charged an associated restart fee. If the occupant of a dwelling, house, or residence does not contact the city to restart service, the city may bill back to the discontinuance of service all monthly charges.

4. For collection of additional containers beyond those covered by the fixed minimum charges established in this chapter, the collection charge shall be that identified in this section.

5. An additional or special pickup may be requested beyond the minimum service required by this chapter. Each such additional or special pickup shall be subject to a fixed fee.

6. Rates for Residential Collection. Effective July 5, 2019, and July 1, 2020, the residential rates on billings shall be as follows:

Residential Refuse Service	Effective 7/5/2019	Effective 7/1/2020
Fixed refuse monthly charge (one trash container and one green waste container as identified in Section 9.12.100(A)(2))	\$25.57	\$26.85
Additional empty of a 60- or 90-gallon refuse container	\$16.72	\$17.55
Each additional green waste container	\$9.28	\$9.75
Each additional 90-gallon refuse container	\$17.48	\$18.36
Additional empty of a green waste container	\$12.29	\$12.90
Refuse 60- or 90-gallon replacement charge	\$74.69	\$78.42
Fixed fee for the return of a confiscated green waste container due to contamination	\$119.41	\$125.38
Temporary removal of a residential service	\$51.12	\$53.68
Move in box pick-up	\$90.39	\$94.91
Temporary dumpster delivery and removal and per yard charge (6 yards only)	\$125.30	\$131.56

Residential Special Services	Effective 7/5/2019	Effective 7/1/2020
Restart Service (per occurrence)	\$25.00	\$26.25
Green/Waste Contamination Fee (per occurrence)	\$25.00	\$26.25
Overloaded Cart (per occurrence)	\$10.00	\$10.50
Return Trip Charge Same day (per occurrence)	\$10.00	\$10.50
Return Trip Charge Off day (per occurrence)	\$25.00	\$26.25
Cart Exchange (in excess of 1x/12 months)	\$25.00	\$26.25

B. Commercial.

1. A landlord, property owner, or property manager or management company of each and every store, shop, apartment, house, rooming house, factory or other nonresidential use that has a commercial dumpster shall pay to the city, or its authorized agent, a fixed minimum charge as set forth by the city council as a refuse fee. Such fixed minimum is based upon service of one call per week, irrespective of whether there is any refuse to remove from any premises.

A landlord, property owner, property manager or management company with multiple tenants who must share a commercial dumpster shall be responsible for the refuse utility bill of the tenants.

2. Commercial Dumpster, Roll-On, and Additional Services. The environmental utilities director may approve the placing of garbage or rubbish in containers other than 30-gallon cans or 90-gallon automated cans (such as dumpsters or roll-on containers) as provided in Section 9.12.060. The fixed fee and additional service charges are established by subsections (A)(6) and (B)(7). In such cases, the environmental utilities director shall cause a study of the service to be made, and charges will be established based on the cost of performing the service. Such charge shall include all costs to the city, including, but not limited to, labor, equipment operation, maintenance and depreciation, administrative overhead, recycling, landfill closure and landfill operation costs. Standard commercial charges for basic hand-pickup dumpsters and roll-on containers may be established by the environmental utilities director subject to the approval of the city council.

An additional or special pick up may be requested beyond the minimum service required by this chapter. Each such additional or special pick up shall be subject to a fixed fee.

Temporary commercial services must be charged to a City of Roseville customer utility account. A "garbage only" account may be requested for temporary services. See Chapter 14.04 Utility Customer Billing, Accounting and Collections for information about establishing a new account.

Timeframe for temporary customer service. Temporary dumpsters for commercial use must be serviced weekly and removed within a 90 day period. It is the customer's responsibility to schedule services. If a temporary dumpster is not emptied within seven consecutive days of its delivery or last collection, the account shall be assessed a weekly rental fee per Section 9.12.100(B7): Rates for Commercial Collection.

3. Commercial customers that fall into the following categories are required by state law to subscribe to organics recycling services.

a. On and after April 1, 2016, a business that generates eight cubic yards or more of organic waste per week shall arrange for recycling services specifically for organic waste.

b. On and after January 1, 2017, a business that generates four cubic yards or more of organic waste per week shall arrange for recycling services specifically for organic waste.

c. On and after January 1, 2019, a business that generates four cubic yards or more of commercial solid waste, as defined in Section 42649.1, per week, shall arrange for recycling services specifically for organic waste.

4. On or after January 1, 2020, if the department determines that statewide disposal of organic waste has not been reduced to 50 percent of the level of disposal during 2014, a business that generates two cubic yards or more per week of commercial solid waste shall arrange for the organic waste recycling services specified in subsection (B)(3), unless the department determines that this requirement will not result in significant additional reductions of organics disposal.

5. Multifamily dwellings will not be required to recycle food waste, but will need to provide proof to the city that other organics such as green waste are being recycled or diverted from the landfill in an appropriate manner. The city can also provide green waste services, if necessary.

The city will be the primary collector of all organic waste materials, unless a business had services in place before September 28, 2014, the date AB 1826 was approved. Any business with a collection contract before this date can continue with providers until the contract expires. Once the contract expires the business will default to city service.

6. An additional or special pickup may be requested beyond the minimum service required by this chapter. Each such additional or special pickup shall be subject to a fixed fee.

7. Rates for Commercial Collection. Effective July 5, 2019, and July 1, 2020, the commercial rates on billings shall be as follows:

Frontloader and Rearloader Commercial Services*	Effective 7/5/2019	Effective 7/1/2020
Frontloader and rearloader commercial dumpster and sidewalk can per yard charge *Plus premium for rearloader services (more detail below)	\$10.49	\$11.01
Frontloader and rearloader compactor per yard charge	\$18.90	\$19.85
Frontloader cardboard dumpster and compactor per yard charge	\$13.93	\$14.63

Commercial Special Services	Effective 7/5/2019	Effective 7/1/2020
Rear Loader Service Premium (this will be an additional charge equivalent to an associated percentage of the monthly base rate)	25%	25%
Recyclable Material Contamination Fee (per occurrence)	\$25.00	\$26.25
Green/Waste Contamination Fee (per occurrence)	\$25.00	\$26.25
Overloaded Container (per occurrence)	\$25.00	\$26.25
Lock Service – Admin Set up (per occurrence)	\$15.00	\$15.75
Lock Service – Lock Cost (per occurrence)	\$15.00	\$15.75
Lock Service – Per Month	\$10.00	\$10.50
Push/Pull Charges (per container month)	\$15.00	\$15.75
Extra Pickup Charge (of monthly rate per pickup + return trip charge)	25%	25%
Exchange Cart (per cart)	\$25.00	\$26.25
Exchange Bin (per occurrence)	\$75.00	\$78.75
Return Trip Charge Same day (per occurrence)	\$10.00	\$10.50
Return Trip Charge Off day (per occurrence)	\$25.00	\$26.25

Additional Commercial Service Rates	Effective 7/5/2019	Effective 7/1/2020
Roll-Off Return Charge (per occurrence)	\$30.00	\$31.50
Relocation Charge/Trip Charge(per event – includes roll-off return charge)	\$50.00	\$52.50

Roll-Off Commercial Open Top and Compactor Services*	Effective 7/5/2019	Effective 7/1/2020
Minimum charge per haul (base rate) without tonnage* All sizes	\$312.43	\$328.05
Roll-off 100% recycling bin	\$171.08	\$179.63

* Tonnage charges (tipping fees) vary by material type, and are determined by the Western Placer Waste Management Authority. With city department head approval, some entities may pay tonnage charges directly to Western Placer Waste Management Authority.

Temporary Frontloader, Rearloader and Roll-Off Charges*	Effective 7/5/2019	Effective 7/1/2020
Frontloader and rearloader temporary dumpster delivery and removal charge	\$62.38	\$65.50
Frontloader and rearloader temporary dumpster per yard charge (plus trip fee for extra pickups)	\$10.49	\$11.01
Frontloader and rearloader temporary dumpster rental fee per week	\$59.38	\$62.35
Roll-off temporary dumpster minimum charge per haul (base rate)	\$312.43	\$328.05
Tonnage (per ton charge)*		
Roll-off temporary dumpster rental fee per week	\$107.82	\$113.22
Roll-Off temporary 100% recycling bin	\$171.08	\$179.63

* Tonnage charges (tipping fees) vary by material type, and are determined by the Western Placer Waste Management Authority.

Additional Commercial Service Rates*	Effective 7/5/2019	Effective 7/1/2020
Standby service charge per occurrence (in 15 minute increments)	\$60.00	\$63.00
Solid Waste Minimum Charge	\$28.68	\$30.11
Emergency after hours call out service charge per occurrence	\$161.46	\$169.53
Fixed monthly minimum commercial charge	\$28.68	\$30.11
60- or 90-gallon automated container monthly charge	\$25.57	\$26.85
Commercial bin assistance charge per occurrence	\$45.17	\$47.43
Fixed fee for additional pick-up of a city owned 60- or 90-gallon automated container	\$16.72	\$17.55
Compactor cleaning	Minimum 2.5 hours labor cost	
Compactor lock replacement	0.5 hours of labor cost plus \$8.00 lock replacement	

* The amounts billed to commercial customers will vary with the types of service and the number of pickups in a billing period.

** Green waste containers available only in limited areas.

A. **Shared Compactor Rates.** Shared compactor rates are applicable to the City of Roseville downtown specific plan area. Exact rates are determined on a site-specific basis based on the following criteria:

	Cost per 1,000 square feet of building area or per dwelling unit	Cost per 1,000 square feet of building area or per dwelling unit	
	Effective 7/5/2019	Effective 7/1/2020	
Below are the square footage rates for shared compactors. If a customer's site-specific charge does not exceed the fixed minimum charge, they will be subject to the monthly fixed minimum charge.			

Monthly Minimum (Fixed)	\$28.68	\$30.11	
Tier 1: Cost per 1,000 square feet of building area or per dwelling unit	\$5.99	\$6.28	Tier 1 includes business types that are determined low use by the environmental utilities director. Typical examples of low use are retail and office establishments and small apartment units.
Tier 2: Cost per 1,000 square feet of building area	\$24.16	\$25.37	Tier 2 includes business types that are determined medium use by the environmental utilities director. Typical examples of medium use are relatively smaller establishments such as bars and grills, coffee shops and delis; selling or serving food but not considered a full-service restaurant.
Tier 3: Cost per 1,000 square feet of building area	\$51.04	\$53.59	Tier 3 includes business types that are determined high use by the environmental utilities director. A typical example of high use is full-service restaurants, restaurant/bakeries, and similar establishments. Full-service restaurants are defined as primarily dine-in establishments with established menus, and a minimum of two meals per day (e.g., lunch and dinner).

B. Shared Compactor Organic Tiers. Organics tiers are applicable to some shared compactor units depending on compactor tier and usage type. Exact rates are determined on a site-specific basis based on the following criteria:

Commercial Shared Compactor Organic Tiers	Effective 7/5/2019	Effective 7/1/2020
Tier 1	\$0.00	\$0.00
Tier 2	\$81.93	\$86.03
Tier 3	\$163.81	\$172.00

C. Rates for Commercial Organic Waste Collection. Effective July 5, 2019 and July 1, 2020, the commercial organic waste collection rates on billings shall be as follows:

Organic Waste Collection Rates	Minimum Monthly Charge (Effective 7/5/2019)	Minimum Monthly Charge (Effective 7/1/2020)
0-2 yards	\$81.93	\$86.03
0-4 yards	\$163.81	\$172.00
5 yards	\$204.77	\$215.01
6 yards	\$245.69	\$257.97
7 yards	\$286.77	\$301.10
8 yards	\$327.62	\$344.00
9 yards	\$368.53	\$386.96
10 yards	\$409.49	\$429.96
11 yards	\$450.57	\$473.09
12 yards	\$491.37	\$515.94
Extra pickup for one yard bin or cart equivalent	\$61.45	\$64.52
Extra pickup for two yard bin or cart equivalent	\$81.93	\$86.03

SECTION 2. Section 14.08.025 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.08.025 Water connection fees.

A. In order that appropriate provision be made for sharing the costs of the maintenance and expansion of the raw water supply, water treatment, storage, and distribution facilities of the city by those who receive the benefits thereof, there are established connection fees to such facilities, which fees shall be imposed in addition to the service connection costs charged pursuant to Section 14.08.020. Such additional water connection fees include a "standard connection fee" and an "irrigation connection fee." The fees shall be set so that they are equal to, but not greater than, the cost of service.

B. The water connection fees shall be based upon the applicable “dwelling unit equivalent” (“DUE”) and density assignment. The fee for one DUE shall be \$9,363.00 (per LDR unit), \$5,618.00 (per MDR unit), \$3,636.00 (per HDR unit) and \$9,363.00 (per Non Residential unit) on July 1, 2018.

C. The connection fee amount set forth above shall be adjusted annually on July 1st of each year by three percent or by a percentage equal to the inflation rate for the prior year for construction costs as determined by the environmental utilities director in the preceding June, whichever is greater. The director’s determination of the percentage equal to the inflation rate for the prior year for construction costs shall be based upon the Engineering News Record, Construction Cost Index for the prior 12 months ending in May. The environmental utilities director shall report the amount of the adjustment in percentage terms and the dollar amount due per DUE to the city council annually at the first regular meeting of the council following the adjustment of the fee.

D. Except as otherwise provided, all water connection fees established by this chapter shall be payable upon issuance of a building permit. Connection fees will be determined using the amount in effect on the date of building permit issuance.

SECTION 3. Section 14.08.090 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.08.090 Service charges for metered service.

There shall be due and payable the following monthly charges, upon submission of the bill by the city to the owner of the property supplied with service, for all treated water measured by meters for residential, commercial, industrial and manufacturing or other purposes:

A. Monthly Quantity Rates. Effective July 5, 2019 and July 1, 2020, the monthly quantity rates on billings shall be as follows:

	Effective 7/5/2019	Effective 7/1/2020
Potable water usage (per 100 cubic feet)	\$1.30	\$1.34
Recycled water usage (per 100 cubic feet)	\$0.65	\$0.67

*

B. Monthly Service Charges. Effective July 5, 2019 and July 1, 2020, the monthly service charges on billings shall be as follows:

Meter Size (inches)	Peak Flow Rate (gallons per minute)	Effective 7/5/2019	Effective 7/1/2020
Up to 3/4	30	\$27.26	\$28.08
1	50	\$42.07	\$43.34
1-1/2	100	\$79.09	\$81.47
2	160	\$123.51	\$127.22
3	350	\$264.20	\$272.13
4	630	\$471.52	\$485.67
6	1300	\$967.61	\$996.64
8	2800	\$2,078.26	\$2,140.61
10	4200	\$3,114.89	\$3,208.31

C. The total amount due and payable shall be the sum of the monthly service charge plus the quantity rate. The monthly service charge is due and payable regardless of whether water has been consumed. The service charge shall be the greater of the charge based on the meter size or flow rate, with the following exceptions:

1. No service charge shall be made for fire service that has backflow prevention with detector check devices approved by the environmental utilities director.
2. No service charge shall be made for recycled water utility back-up systems that are required for reliability only and have backflow prevention and metering approved by the environmental utilities director. This exclusion does not extend to systems that are regularly required as part of normal operation. The recycled water operation shall be responsible for water volumetric charges for these services and any costs associated with meter maintenance.

D. For purposes of charging for treated water measured by meters:

1. A residential account is defined as a single metered water service which serves three or less dwelling units.

2. A nonresidential account is defined as a single metered water service which serves more than three dwelling units, or serves commercial, industrial, manufacturing, irrigation or other nonresidential land uses.

E. For single-family residential services that require automatic fire protection systems pursuant to Section 16.16.120, the increased meter size will not be assessed an additional charge associated with the fire protection system requirement. Service charges shall be based on the required service size as determined by the Uniform Plumbing Code without consideration for any fire protection system required by Section 16.16.120.

SECTION 4. Section 14.08.091 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby deleted in its entirety:

14.08.091 Service charge outside city water service area.

SECTION 5. Section 14.08.100 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.08.100 Flat water rates.

The following service charges shall apply to flat rate consumers that the environmental utilities director determines are not cost effective to assign metered rates. The environmental utilities director shall conduct a water use study for consumers whom he or she determines may not be reasonably metered, and the director shall assign such consumers to an appropriate service rate level as set forth in this section. Water service rates for flat rate residential consumers shall be due and payable on a monthly basis according to the appropriate grouping set out in this section.

Effective July 5, 2019, and July 1, 2020, the flat rates on billings shall be as follows:

Nonmetered or Flat Service Charges	Effective 7/5/2019	Effective 7/1/2020
Single-family lots under 4,900 square feet; each mobile home unit not within a park maintaining its own distribution system and service; each dwelling unit of duplexes, triplexes, fourplexes, unmetered apartments and other multiple living units; other detached living units; and offices and stores with less than peak use of 250 gallons per day	\$37.38	\$38.51
Single-family lots 4,901 to 8,900 square feet	\$42.13	\$43.40
Single-family lots 8,901 to 12,000 square feet	\$45.79	\$47.17
Single-family lots 12,001 to 15,000 square feet	\$49.36	\$50.85
Single-family lots existing before July 1, 1977, which are in excess of 15,000 square feet	\$54.36	\$58.16
Mobile home parks, per living unit	34.47	35.51
All those single-family lots over 15,000 square feet, created on or after July 1, 1977, shall be metered pursuant to Section 14.08.105		

SECTION 6. Section 14.16.060 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.16.060 Local sewer connection fee.

- A. A local sewer connection fee shall be charged in accordance with Section 14.16.010 for each connection to the city-owned public sewer.
- B. The local sewer connection fee shall be \$363.00 per sewer unit.
- C. The Construction Cost Index (CCI) inflationary fee adjustment shall become effective July 1, 2013. The fee established by this chapter shall be adjusted annually July 1st beginning on July 1, 2013 by a percentage equal to the adjustment rate for the prior year for construction costs as determined by the director in the preceding June. The director's determination shall be based upon averaging the Construction Cost Index (CCI) for 20 cities and for San Francisco, as published in the Engineering News Record publication for the preceding 12 months ending in May. The resultant fee shall be rounded to the nearest dollar figure.

SECTION 7. Section 14.16.080 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.16.080 Regional sewer connection fee.

A. A regional sewer connection fee shall be charged in accordance with Section 14.16.010 for each sewer unit connected to the city-owned public sewer.

B. The regional sewer connection fee shall be \$7,854.00.

C. The fee established by this chapter shall be adjusted annually on July 1st by a percentage equal to the adjustment rate for the prior year for construction costs as determined by the director in the preceding June. The director's determination shall be based upon averaging the Construction Cost Index (CCI) for 20 cities and for San Francisco, as published in the Engineering News Record publication for the preceding 12 months ending in May. The resultant fee shall be rounded to the nearest dollar figure.

SECTION 8. Section 14.16.200 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.16.200 Monthly unit sewer service charge established.

Except as otherwise provided in this chapter, a monthly unit sewer service charge shall be paid by each user connected to the city-owned public sewer. The monthly unit sewer service charge on billings shall be:

A. The monthly sewer charge shall be \$40.55 per sewer unit, effective on billings as of July 5, 2019, and \$42.18 per sewer unit, effective on billings as of July 1, 2020.

B. The monthly sewer service charges for those located outside of the city limits shall be 10 percent higher than the monthly sewer charges for those located inside city limits.

SECTION 9. Section 14.16.201 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.16.201 Sacramento Regional County Sanitation District monthly unit sewer service charge established.

Except as otherwise provided in this chapter, a monthly unit sewer service charge shall be paid by each user connected to the Sacramento Regional County District's sewer system and located within Roseville city limits. Effective July 5, 2019, the monthly sewer charge shall be \$40.55 per sewer unit. Effective July 1, 2020, the monthly sewer charge shall be \$42.18.

SECTION 10. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption or on July 5, 2019, whichever occurs later.

SECTION 11. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance

to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this 15th day of May, 2019, by the following vote on roll call:

Traffic Mitigation Fee Ordinance

6289

City/County Traffic Mitigation Fee

Ordinance No. 5203

ORDINANCE NO. 6289

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS
4.44.020 AND 4.44.050 OF CHAPTER 4.44 OF TITLE 4 OF THE ROSEVILLE
MUNICIPAL CODE REGARDING TRAFFIC MITIGATION FEES

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 4.44.020 of Chapter 4.44 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.44.20 Definitions.

The following words are defined for purposes of this chapter as follows:

- A. "Building permit" means the permit issued or required by the city for the construction of any structure pursuant to and as defined by the building code.
- B. "Capital improvement program" means that list of traffic and circulation facilities, improvements, or infrastructure for year 2035 consistent with that identified in the general plan and listed in the Fehr and Peers Technical Appendix, dated July 2020, included as Appendix D of the "City of Roseville 2035 General Plan Update Final Environmental Impact Report", adopted by the Roseville City Council on August 5, 2020. Said capital improvement program is on file in the office of the director and the city clerk.
- C. "Department" means the department of development services.
- D. "Director" means the director of the department.
- E. "Dwelling unit equivalents" or "D.U.E.s" mean the number of single-family dwellings to which a particular type of development or use is equivalent in terms of expected or estimated p.m. peak hour traffic impact.
- F. "Dwelling unit equivalent rates or D.U.E. rates" mean multiplication factors used to convert a particular type of development or use to dwelling unit equivalents. D.U.E. rates shall be expressed as the number of D.U.E.s per unit of a particular use.
- G. "Facilities" mean those public traffic and circulation facilities, improvements or infrastructure shown and included on the capital improvement program.
- H. "Improvement plan" means a site plan of property proposed for development showing all required improvements that must be approved by the city prior to the issuance of a building permit for the property.
- I. "Fee" or "traffic mitigation fee" means the fee established by this chapter. The fee shall be collected prior to the approval and issuance of any building permit, or as provided otherwise in this chapter. The fee shall be used solely to finance the capital improvement program.
- J. "Traffic mitigation fund" means that special interest-bearing fund established pursuant to Section 4.44.030.
- K. "Study" means that certain document entitled "Transportation System Capital Improvement Program Traffic Mitigation Fee Update," dated September, 2020. The study is on file in the offices of the director and city clerk.
- L. "Infill area" means that portion of the city not within the Amoruso Ranch, Creekview, West Roseville, Sierra Vista, North Roseville Phase 3, North Roseville 2 North, or North Roseville 2 South specific plan areas, nor within the North Industrial Area.

SECTION 2. Section 4.44.050 of Chapter 4.44 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.44.050 Traffic mitigation fee per dwelling unit equivalent by area.

The traffic mitigation fee for the various areas within the city, as defined in the general plan, shall be:

Area	Amount of Fee (per D.U.E.)
Southeast Roseville Specific Plan Area (Infill)	\$5,776.00
Northeast Roseville Specific Plan Area (Infill)	\$5,776.00
North Central Roseville Specific Plan Area (Infill)	\$5,776.00
Northwest Roseville Specific Plan Area (Infill)	\$5,776.00
North Industrial Plan Area	\$7,719.00
Infill Areas	\$5,776.00
Del Webb Specific Plan Area (Infill)	\$5,776.00
Highland Reserve North Specific Plan Area (Infill)	\$5,776.00
North Roseville Specific Plan Phase 1 (Infill)	\$5,776.00
North Roseville Specific Plan Phase 2 North	\$1,145.00
North Roseville Specific Plan Phase 2 South (Woodcreek West)	\$1,145.00
North Roseville Specific Plan Phase 3	\$1,145.00
Stoneridge East Specific Plan Area (Infill)	\$5,776.00
Stoneridge West Specific Plan Area (Infill)	\$5,776.00
Redevelopment Area (Infill)	\$5,776.00
West Roseville Specific Plan—Fiddymont Ranch	\$5,314.00
West Roseville Specific Plan—Westpark	\$2,595.00
Sierra Vista Specific Plan (includes Westbrook)	\$4,931.00
Creekview Specific Plan	\$7,411.00
Amoruso Ranch Specific Plan	\$5,226.00

SECTION 3. This ordinance shall become effective on January 4, 2021.

SECTION 4. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 4th day of November, 2020, by the following vote on roll call:

AYES COUNCILMEMBERS: Bernasconi, Alvord, Roccucci, Houdesheldt, Allard

NOES COUNCILMEMBERS: None

ABSENT COUNCILMEMBERS: None

A stylized, handwritten signature in dark ink, consisting of several loops and a long, sweeping underline.

ORDINANCE NO. 5203

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING
SECTIONS 4.45.020, 4.45.030 AND 4.45.050 OF CHAPTER 4.45 OF TITLE 4 OF THE
ROSEVILLE MUNICIPAL CODE REGARDING TRAFFIC MITIGATION FEE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Sections 4.45.020, 4.45.030 and 4.45.050 of Chapter 4.45 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.45.020 Definitions.

The following words are defined for purposes of this chapter as follows:

- A. "Building permit" means the permit issued or required by the city for the construction of any structure pursuant to and as defined by the building code.
- B. "Covered improvements" means those traffic and circulation facilities, improvements, or infrastructure listed in that document entitled "2013 City/County Traffic Impact Fee Program Update" prepared by Fehr & Peers Transportation Consultants and dated March 15, 2013. Said covered improvements list is on file in the office of the director and the city clerk.
- C. "Department" means the department of development services.
- D. "Director" means the director of the department.
- E. "Dwelling Unit Equivalents" or "D.U.E.'s" means the number of single family dwellings to which a particular type of development or use is equivalent in terms of expected or estimated p.m. peak hour traffic impact.
- F. "Dwelling unit equivalent rates or D.U.E. rates" means multiplication factors used to convert a particular type of development or use to dwelling unit equivalents. D.U.E. rates shall be expressed as the number of D.U.E.'s per unit of a particular use.
- G. "Facilities" means those public traffic and circulation facilities, improvements or infrastructure shown and included on the covered improvements list.
- H. "Improvement plan" means a site plan of property proposed for development showing all required improvements that must be approved by the city prior to the issuance of a building permit for the property.
- I. "Fee" or "traffic mitigation fee" means the fee established by this Chapter 4.45. The fee shall be collected prior to the approval and issuance of any building permit, or as provided otherwise in this chapter. The fee shall be used solely to finance the covered improvements.
- J. "Traffic mitigation fund" means that special interest-bearing fund established pursuant to Section 4.45.030.

K. "Study" means that certain document entitled "2013 City/County Traffic Impact Fee Program Update," dated March 15, 2013. The study is on file in the offices of the director and city clerk.

L. "Infill area" means that portion of the city not within the Northeast, North Central, Northwest, Highland Reserve North, North Roseville, Stoneridge, Southeast, West Roseville, Del Webb, Creekview, or Sierra Vista specific plan areas, nor within the North Industrial Area.

4.45.030 Establishment and administration of traffic mitigation fund.

The finance director is directed to establish a special interest-bearing fund entitled the Baseline/Walerga traffic mitigation fund. All fees collected pursuant to this chapter shall be deposited in the Baseline/Walerga traffic mitigation fund and expended solely to finance the facilities.

4.45.050 Traffic mitigation fee per dwelling unit equivalent by area.

The net traffic mitigation fee for the various areas within the city, as defined in the general plan, shall be:

Area	Amount of Fee (per D.U.E.)
Southeast Roseville Specific Plan Area	\$57.00
Northeast Roseville Specific Plan Area	\$57.00
North Central Roseville Specific Plan Area	\$343.00
Northwest Roseville Specific Plan Area	\$343.00
North Industrial Plan Area	\$343.00
Infill Areas	\$57.00
Del Webb Specific Plan Area	\$343.00
Highland Reserve North Specific Plan Area	\$343.00

North Roseville Specific Plan Area	\$343.00
Stoneridge Specific Plan Area	\$57.00
West Roseville Specific Plan Area	\$770.00
Sierra Vista Specific Plan Area	\$1,350.00
Creekview Specific Plan Area	\$616.00

SECTION 2. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 3. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 19th day of June, 2013, by the following vote on roll call:

Downtown Specific Plan In-Lieu Parking Fee

Resolution No. 09-124

Ordinance No. 5428

Downtown Code 3.0-Regulatory Incentives

RESOLUTION NO. 09-124

ADOPTING A PARKING IN LIEU FEE
FOR THE DOWNTOWN SPECIFIC PLAN

WHEREAS, as part of the Downtown Specific Plan, the City desires to implement a parking in lieu fee; and

WHEREAS, the initial parking in lieu fee will be \$8,000 per parking space and will be automatically adjusted on July 1st of each calendar year by a percentage equal to the inflation rate for the prior year for construction costs as determined by the Planning and Redevelopment Director in the preceding June; and

WHEREAS, the Director's determination shall be based upon the Engineering News Record, Construction Cost Index for the prior 12 months ending in June;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville that the parking in lieu fee and the annual adjustment based on the Construction Cost Index is hereby approved.

PASSED AND ADOPTED by the Council of the City of Roseville this 1st day of April, 2009 by the following vote on roll call:

AYES COUNCILMEMBERS: Allard, Gray, Garcia, Roccucci, Garbolino

ORDINANCE NO. 4728

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE ADDING SECTION 17.04.235 OF CHAPTER 17.04; DELETING SECTION 17.04.490 OF CHAPTER 17.04; AND AMENDING SECTIONS 17.06.180 AND 17.06.310 OF CHAPTER 17.06 OF TITLE 17; AND AMENDING SECTIONS 19.08.030, 19.08.080 AND 19.08.090 OF CHAPTER 19.08; 19.10.045 OF CHAPTER 19.10; 19.12.010, 19.12.020 AND 19.12.030 OF CHAPTER 19.12; 19.18.030 OF CHAPTER 19.18; 19.49.030 OF CHAPTER 19.49; 19.74.010 OF CHAPTER 19.74; AND ADDING CHAPTER 19.31 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ZONING

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 17.04.235 of Chapter 17.04 of Title 17 of the Roseville Municipal Code is hereby added to read as follows:

17.04.235 Downtown specific plan area.

"Downtown specific plan area" means a 176 acre area encompassing historic old town, Vernon Street, and Royer and Saugstad Parks. This area is further defined in the Downtown Specific Plan.

SECTION 2. Section 17.04.490 of Chapter 17.04 of Title 17 of the Roseville Municipal Code is hereby deleted in its entirety.

SECTION 3. Sections 17.06.180 and 17.06.310 of Chapter 17.06 of Title 17 of the Roseville Municipal Code are hereby amended to read as follows:

17.06.180 Projecting signs in the Riverside Gateway Specific Plan area.

- A. Number. In addition to other signs permitted by this Title, establishments located in the Riverside Gateway Specific Plan area, in a building immediately adjacent to the public sidewalk, will be permitted one (1) projecting sign.
- B. Location.
 - 1. A projecting sign may extend over the sidewalk a maximum of six (6) feet, subject to an encroachment permit whenever the sidewalk is open to the public or part of the public right of way;
 - 2. A projecting sign may not extend onto or over the street;
 - 3. A projecting sign shall have a minimum vertical clearance of eight (8) feet from the sidewalk to the bottom of the sign;
 - 4. A projecting sign may not extend above the roof line; and
 - 5. The sign shall be located on the Riverside Avenue side even if the building entrance is located on a side street.
- C. Area. The area of a projecting sign shall be included in calculating the permitted area for wall signs.

- D. Encroachment Permit. A permanent encroachment permit which includes insurance certificates and/or bonds pursuant to Roseville Municipal Code Chapter 13.28 shall be required for all signs projecting over the public right-of-way.

Article 3. Downtown Specific Plan Area.

17.06.310 Downtown Specific Plan Signs.

Uses located in the Downtown Specific Plan area are permitted signage that is consistent with, and enhances the historic character of that area. The Downtown Code, adopted in Chapter 19.31 of the Roseville Municipal Code, sets forth the criteria, design guidelines and standards for signs located in the Downtown Specific Plan area.

SECTION 4. Sections 19.08.030(C), 19.08.080(D), (H), (I), (J), (K) and (L), and 19.08.090(E), (L), (O) and (V) of Chapter 19.08 Title 19 of the Roseville Municipal Code are hereby amended to read as follows:

Section 19.08.030(C) - Listing of Use Classifications

C. Residential Use Types

Caretaker/Employee Housing
Community Care Facility, Small
Community Care Facility, Large
Dwelling
 Multi-Family
 Single Family
 Two-Family
Efficiency Units
Family Day Care Homes, Small
Family Day Care Homes, Large
Live/Work
Mobile Home Park
Rooming and Boarding Houses
Second Dwelling Unit
Single Room Occupant

Section 19.08.080(D), (H), (I), (J), (K) and (L) - Residential Use Types

- D. Efficiency units, includes a room or group of internally connected rooms that have independent sleeping, cooking, eating and sanitation facilities, which constitutes an independent housekeeping unit, occupied by or intended for one household on a long-term basis.
- H. Live/Work, includes units that are occupied by business operators who live in the same structure that contains commercial activity. The units function primarily as a workspace with incidental residential accommodations.
- I. **Mobile Home Park**, includes any site that is planned and improved to accommodate two or more mobile homes used for residential purposes, or on which two or more mobile home lots are rented, leased, or held out for rent or lease, or were formerly held out for rent or lease and later converted to a subdivision, cooperative,

condominium, or other form of resident ownership, to accommodate mobile homes used for residential purposes. (Also see Chapter 19.48.)

- J. **Rooming and Boarding Houses**, includes the renting of individual bedrooms within a dwelling by a property owner or other manager in residence to three or more people, whether or not meals are provided; or a single-family dwelling occupied by six (6) or more unrelated people, living together as a single housekeeping unit; by prearrangement for definite periods, with compensation.
- K. **Second Dwelling Unit**, a dwelling unit, attached or detached, with permanent provisions for independent living, sleeping, eating, cooking and sanitation within the unit and includes a separate entrance from the primary unit. (Also see Chapter 19.60.)
- L. **Single Room Occupant**, lodging establishments providing a room(s) which does not include a kitchen or bathroom. These establishments include a communal bathroom and may have a communal kitchen and/or living area. This is not a temporary or transitional housing type and is typically found on the second story above a retail use.

Section 19.08.090(E), (L), (O), (V) - Commercial Use Types

- E. **Bars and Drinking Places**, includes establishments within a building where alcoholic beverages are sold for on-site consumption, that are not part of a restaurant. Includes bars, taverns, pubs, brew pubs, wine bars and similar establishments where any food service is subordinate to the sale of alcoholic beverages. Dance floors are not permitted.
- L. **Eating and Drinking Establishments**, includes establishments primarily engaged in the sale of prepared food and beverages for on-premise consumption, but excludes those uses classified under the "Bars and Drinking Places" and "Nightclubs." Music, live or recorded, may be allowed provided that any such music and floor space for dancing is accessory and incidental to the sale of prepared food and beverages (i.e. jukeboxes, open microphone, mariachi, etc.). Fixed seating or chairs are provided for the seating of each patron or customer at all times. Eating and Drinking Establishment use types include:
 - 1. **Fast Food with Drive Through**, includes establishments primarily engaged in the preparation and retail sale of food and beverages at a walk up counter and at a drive through window, and may include seating.
 - 2. **Convenience**, includes establishments primarily engaged in the preparation and retail sale of food and beverages, at a walk up counter and which does not include a drive through or provide for ordering at the tables, if any. Typical uses include pizza parlors, ice cream parlors, and sandwich shops.
 - 3. **Full Service**, includes establishments primarily engaged in the preparation and retail sale of food and beverages, where food is ordered and served at a table, and which may include sales of alcoholic beverages as an accessory or secondary service. Typical uses include full service restaurants.
- O. **Lodging Services**, includes establishments primarily engaged in the provision of commercial lodging on a less than monthly basis to the general public. Lodging Services includes incidental food, drink, and other sales and services intended for the convenience of guests. Typical uses include hotels, motels, and bed-and-breakfasts.
- V. **Offices, Professional**, includes professional or government offices including:
 - Accounting, auditing and bookkeeping services;
 - Advertising agencies;
 - Architectural, engineering, interior design, and surveying services;
 - Attorneys;

- Call and telemarketing centers;
- Computer software designers;
- Court reporting services;
- Data processing and computer services;
- Detective agencies and similar services;
- Secretarial and word processing services;
- Government offices including agency and administrative office facilities;
- Insurance agencies;
- Management, public relations and consulting services;
- Real estate agencies; and
- Writers, photographers and artists offices outside the home.

SECTION 5: Section 19.10.045(A) of Chapter 19.10 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

Section 19.10.045(A) - Design Review Required for Compact Residential Development

- A. Applicability.** Design review shall be required for Compact Residential Development projects that qualify under either of the following:
1. Attached or detached single-family housing units on property with a General Plan land use designation of Medium Density Residential or higher (seven dwelling units per acre or higher, as depicted on the General Plan Land Use Map) (except for properties within the Downtown Specific Plan area), or
 2. Residential projects of any density on a parcel or parcels zoned Small Lot Residential (RS) where modifications to the RS Supplemental Design Standards are requested.

SECTION 6: Section 19.12.010(I), 19.12.020 and 19.12.030(B) of Chapter 19.12 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

Section 19.12.010(I) - Purpose

- I. Old Town Historic (HD) District.** The Old Town Historic district is intended to be applied to the original commercial core of Roseville to acknowledge its historic and architectural significance. The HD zoning district is intended to ensure that new land uses and development within the district further the rehabilitation, revitalization, and preservation of the architectural, aesthetic, historic and economic health of the district. Each parcel within the Historic District shall be subject to the specific Historic District design guidelines contained within the Downtown Code which has been adopted in Chapter 19.31 of the Roseville Municipal Code..

Section 19.12.020 - Permitted Use Types

Primary uses are permitted in commercial zones subject to the requirements of this Title as designated below:

- A. Principally permitted use, designated as "P";
- B. Conditionally permitted use, designated as "CUP"; and
- C. Administratively permitted use, designated as "A".

Permitted uses within the CBD and HD zones are contained within the Downtown Code.

Historic District (HD)	50'

SECTION 7: Section 19.18.030(D) of Chapter 19.18 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

Section 19.18.030(D) - Special Area (SA) District

- D. **Designation on the Zoning Map.** A SA, Special Area district shall be established with approval of a Zoning Ordinance Amendment as specified in Chapter 19.86, and shall be designated on the Zoning Map with the underlying zone district by the symbol "/SA," followed by the ordinance number. The ordinance number shall refer to the ordinance which adopted the SA district. If a SA is within a Specific Plan, no ordinance number need be specified provided however, a reference to that Specific Plan is identified as follows: -SE (Southeast Roseville Specific Plan); -NE (Northeast Roseville Specific Plan); -NW (Northwest Roseville Specific Plan); -NC (North Central Roseville Specific

Plan); -DW (Del Webb Specific Plan), -NR (North Roseville Specific Plan), -HR (Highland Reserve Specific Plan), -SR (Stoneridge Specific Plan), -WR (West Roseville Specific Plan), RG (Riverside Gateway), and DT (Downtown Specific Plan).

SECTION 8: Section 19.49.030 of Chapter 19.49 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

Section 19.49.030 - General Standards

The following requirement applies to nightclubs where permitted within any zone district (except for nightclubs located within the Downtown Specific Plan area):

- A. Nightclubs are prohibited to be located within 500 feet of a residential zone district as measured from the residential zone district boundary to the structure where the nightclub use is proposed.

SECTION 9: Section 19.74.010(C) of Chapter 19.74 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

Section 19.74.010(C)(2)(a) - Permit Requirements

C. 2. Approving Authority:

a. Administrative Process.

- I. The Planning Director may approve, conditionally approve or deny a Minor Design Review Permit provided the improvement complies with the following:
 - 1) There has been no previous Design Review Permit for the building/site;
 - 2) The improvement is limited to facade improvements;
 - 3) The improvement consists of a color change;
 - 4) The improvement consists of a modification to or the introduction of a new exterior building material; or
 - 5) The project is within the Downtown Specific Plan area and is consistent with the design guidelines and regulations outlined within the Downtown Code.
- II. The Planning Director may approve, conditionally approve or deny a Minor Design Review Permit pursuant to the Administrative Permit procedures, except those identified as required by this Title, to be reviewed by the Design Committee or Planning Commission. Design Review Permits approved by the Planning Director shall be in substantial conformance with adopted Specific Plan.

If in the opinion of the Planning Director, a project is not in substantial conformance with applicable, adopted design guidelines, prior conditions of approval, or if the Planning Director determines that, because of location, size or design that the public hearing should not be waived, the Planning Director shall refer the project for public hearing by the Design

Committee or the Planning Commission. The Director shall determine whether the project is to be heard by the Design Committee or the Planning Commission.

The Planning Director may approve:

- 1) Design Review Permit extensions and modifications, including changes in project phasing.
- 2) Design Review Permits for projects within a master or specific plan area where the applicable plan provides for an administrative process.
- 3) Within specific plan areas, subsequent Design Review Permits following Design Committee approval of the first Design Review Permit as provided for in Sub Section b. 2) of this Section.
- 4) Within infill areas, subsequent Design Review Permits following Planning Commission approval of the first Design Review permit as provided in Sub Section c2) of this Section.

SECTION 10: Chapter 19.32 heading is hereby amended to read as follows:

CHAPTER 19.32 – LOCATION AND AMORTIZATION OF ADULT ORIENTED BUSINESSES

- 19.32.010 – Purpose
- 19.32.020 – Definitions
- 19.32.030 – Minimum Proximity Requirements
- 19.32.040 – Amortization of Nonconforming Adult-Oriented Business Uses
- 19.32.050 – Extension of Time for Termination of Nonconforming Use

SECTION 11: Chapter 19.31 of Title 19 of the Roseville Municipal Code is hereby added to read as follows:

**Chapter 19.31
DOWNTOWN SPECIFIC PLAN DOWNTOWN CODE**

Sections:

- 19.31.010 Purpose.
- 19.31.020 Definition.
- 19.31.030 Downtown Code - Adopted.
- 19.31.040 Conflicts.
- 19.31.050 Violations.
- 19.31.010 Purpose.

The purpose of the Downtown Specific Plan Downtown Code is to direct public and private development consistent with the community vision for the Downtown Specific Plan area. Redevelopment within the older areas of the City of Roseville presents unique development challenges. The Downtown Specific Plan Downtown Code is therefore a comprehensive document for the Downtown Specific Plan area that provides detailed performance criteria and development standards that are intended to facilitate development while recognizing the area's

unique character. Key elements addressed in the Downtown Specific Plan Downtown Code include:

- A. Permitted and conditionally permitted uses for various zone districts.
- B. Prescriptive development standards including setbacks, height requirements, parking standards, and floor area ratios.
- C. Development guidelines addressing buffers and adjacency issues, landscaping, entry monumentation, and public realm improvements.
- D. Entitlement processes that vary from applications throughout the remainder of the City of Roseville.
- E. Downtown sign regulations.
- F. Details that define the character of the Downtown Specific Plan area.
- G. Downtown Specific Plan area incentives.
- H. Parcel specific considerations.

The Downtown Specific Plan Downtown Code is consistent with the City of Roseville's goals, policies and applicable regulations and is intended to be the primary resource for development review within the Downtown Specific Plan area.

19.31.020 Definition.

"Downtown Specific Plan area" means a 176 acre area encompassing historic old town, Vernon Street, and Royer and Saugstad Parks. This area is further defined in the Downtown Specific Plan.

19.31.030 Downtown Code - Adopted.

The Downtown Specific Plan Downtown Code, as amended by the City Council from time to time, is hereby adopted and is incorporated into this Chapter by reference as though it were fully set forth herein. A copy of the Downtown Specific Plan Downtown Code is available for use and examination by the public in the City of Roseville's Planning Department and the City Clerk's Office, and can be found on the City of Roseville's web site.

19.31.040 Conflicts.

In the event of any conflict between the provisions of the Downtown Specific Plan Downtown Code and the provisions of the Roseville Municipal Code, the provisions of the Downtown Specific Plan Downtown Code shall prevail. However, with regard to topics that the Downtown Specific Plan Downtown Code does not address, the provisions of the Roseville Municipal Code shall prevail.

19.31.050 Violations.

A violation of the requirements of the Downtown Specific Plan Downtown Code is punishable as an infraction.

SECTION 12. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 13. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 15th day of April, 2009, by the following vote on roll call:

AYES COUNCILMEMBERS: Allard, Gray, Garcia, Roccucci

NOES COUNCILMEMBERS: None

ABSENT COUNCILMEMBERS: Garbolino

3.5 Fee Incentives

3.5.1 Park Dedication Strategy

Based on the number of new residential units within the Plan Area, the park dedication acreage is approximately 29 acres. An important goal of the Specific Plan is to encourage the development of residential units to promote activity and potential consumers on a constant basis. Based on this desire, the plan exempts future residential units from having to dedicate land or pay an in-lieu fee.

Assuming that land values are approximately \$20 per square foot, on average, exempting residential projects from park dedication would amount to a savings of approximately \$19,800 per residential unit. Based on 1,020 new dwelling units, this is a savings benefit of nearly \$20 million in park land acquisition and dedication costs.

Park fees will still be collected in order to fund park improvements, but these fees will be specifically allocated to improvements in the Downtown. Approximately \$1,949,220 in new city-wide park fees, and \$1,042,440 in neighborhood park fees will be generated and specifically allocated to Downtown park improvements.

3.5.2 Parking In lieu Fee

To create a "Park-Once" philosophy within the Downtown, the **Downtown Code** establishes a parking in lieu fee program. With the adoption of the **Downtown Code**, the City Council has approved a parking in lieu fee that allows non-residential uses to meet their parking demand through the public realm parking provided within the Plan Area.

The initial fee shall be determined by the City Council and updated once yearly, based on the construction cost to the City and adjustments to the Construction Cost Index. Future yearly updates will be set by the Director. The fee is intended to be an incentive and will not necessarily recoup the cost of developing parking within the Downtown. The fee is to be paid to satisfy parking requirements in-lieu of providing any or all spaces on-site and shall be further discounted according to Table 3.5.1.

Parking In lieu Fee

Table 3.5.1

Required Parking Spaces	Fee for Parking Space
First Stall	10% of the in-lieu fee
Second Stall	25% of the in-lieu fee
Third Stall	50% of the in-lieu fee
Fourth Stall	75% of the in-lieu fee
Fifth Stall and beyond	100% of the in-lieu fee

3.6 Regulatory Incentives

Other provisions associated with the payment of the parking in-lieu fee program include:

- 1) Prior to issuance of a building permit, the developer shall enter into a parking in-lieu fee agreement to be reviewed and approved by the Director.
- 2) Before approving payment of a fee for in-lieu of providing off-street parking, the Director shall find:
 - a. That there is adequate capacity within the existing or planned public parking resources to accommodate the requested parking in-lieu off-site, and
 - b. The project benefiting from this approval is furthering the goals and policies of the Downtown Specific Plan and the General Plan relative to uses, revitalization, pedestrian amenities and design.
- 3) Funds collected by the city from in-lieu payment shall be deposited in a special fund and used only by the City to acquire and/or develop on-street or off-street parking and related facilities which are determined to alleviate the need for parking spaces in the Specific Plan Area.
- 4) Such parking will be available to the public and shall be developed per the provisions of the Downtown Specific Plan.
- 5) Funds paid to the City for in-lieu of parking shall not be refundable, except as otherwise provided by State law.
- 6) All in-lieu of parking fees shall be paid prior to the issuance of certificate of occupancy. In the case of multi-tenant buildings, the fees shall be calculated based on, and paid prior to, the issuance of certificate of occupancy for each individual tenant space.

3.6 Process Incentives

3.6.1 Review Process

Chapter 9 of the Specific Plan establishes the various approval processes that are being established in order to streamline the development process. As part of the fiscal analysis associated with the Visioning for Downtown, reducing the timeframes associated with processing projects was a key strategy identified to implement a successful revitalization effort. The following outlines the various modifications to the City's current review process that are meant to streamline the development process.

Park Fees:

Neighborhood and Community Park Fees

Ordinances No. 2178, 2969 and 3033

Citywide Park Fee

Ordinance No. 2424

ORDINANCE NO. 2178

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
ADDING CHAPTER 4.37 TO TITLE 4 OF THE ROSEVILLE
MUNICIPAL CODE, RELATING TO THE NEIGHBORHOOD AND COMMUNITY
PARK FEE
(URGENCY ORDINANCE)

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1: Chapter 4.37 is hereby added to Title 4 of the
Roseville Municipal Code to read as follows:

CHAPTER 4.37

NEIGHBORHOOD AND COMMUNITY PARK FEE

4.37.010 Purpose.

The City Council finds and declares that the purpose of this chapter is as follows:

A. The General Plan of the City requires that the City be provided, in a time frame related to its development, with an adequate level of neighborhood and community park and recreation facilities so as to maintain 4 acres of developed neighborhood and community parks per 1,000 population.

B. New development, and the expansion of existing development, within the City imposes a burden on the existing park and recreation facilities by adding additional population and by creating a need for new neighborhood and community parks and recreation facilities. The cost of such facilities may vary by the location of the new development within the City.

C. Analysis of the land use expected at buildout of the City pursuant to the General Plan makes it possible to estimate the number of dwelling units to be generated, and the population generated by those dwelling units. It is also possible to determine which dwelling units will utilize which portions of such park and recreation infrastructure. It is therefore possible to construct a fee, based on dwelling unit generation, which equitably spreads the burden of neighborhood and community park and recreation facilities to those who will create the need for them and utilize them. It is the intent of this chapter to create such a fee, spreading costs of neighborhood and community park and recreation facilities to those who create the need for such facilities, without generating any surplus to the general fund. It is the further purpose of this chapter to implement the General Plan by assuring that adequate neighborhood and community park and recreation facilities are financed and provided to serve the City.

D. The Fee established by this chapter has been calculated in the manner set forth in the Study so as to pay for those Facilities listed in the Capital Improvement Program.

E. The Fee established by this chapter is in addition to any other fees or charges, or taxes, required by law as a condition of development, including, but not limited to, the Residential Construction Tax levied by Chapter 4.36 or any

[December 21, 1988 Revision]

CITY OF ROSEVILLE
BY _____

subsequent fee established for City-wide park and recreation facilities.

F. The Fee established by this chapter is to be collected for public improvements and facilities for which an account has been established and funds appropriated, and for which a proposed construction schedule has been adopted.

G. That the failure to impose the conditions and regulations of this chapter relating to payment of the Fee on building permits would jeopardize residents of the community, in that it would permit construction to proceed without adequate infrastructure or means of financing said infrastructure.

H. The requirement of this chapter to pay the Fee is necessary in order to assure compliance with the applicable Zoning Ordinance and General Plan requirements for the infrastructure funded by this chapter.

I. That for a period of greater than 10 days prior to adoption of this chapter, data has been available to the public and to developers and their representatives indicating the cost or estimated cost of all the infrastructure to be funded, the revenue sources anticipated and the means of spreading these costs.

J. That the City Council has considered the effect of the Fee imposed by this chapter with respect to the housing needs of the City as a whole and of the region, particularly as required by the Housing Element of the General Plan, and the City Council finds that this chapter does not unduly adversely affect the City's ability to provide for such needs.

K. That the establishment of the Fee is for the purpose of obtaining funds for capital projects, necessary to maintain service required by the General Plan within existing service areas and existing portions of the City which are developed or for which land use has already been granted.

16.37.020 Definitions.

The following words are defined for purposes of this chapter as follows:

A. "Building Permit" means the permit issued or required by the City for the construction of any dwelling unit pursuant to and as defined by the Building Code.

B. "Capital Improvement Program" means that list of proposed neighborhood and community park and recreation facilities, improvements, or infrastructure totaling \$8,434,276 (in 1988 dollars) prepared by the Department and attached to the Study as Exhibit "A".

C. "Department" means the Department of Parks and Recreation.

D. "Director" means the Director of the Department.

E. "Facilities" means those public neighborhood and community park and recreation facilities, land, improvements, or infrastructure shown and included on the Capital Improvement Program.

F. "Fee" or "Neighborhood and Community Park Fee" means the Fee established by this Chapter 4.37. The Fee shall be collected prior to the approval of any Building Permit. The Fee shall be used solely to finance the Facilities.

G. "Neighborhood and Community Park Funds" means those special interest-bearing funds established pursuant to Section 4.37.030.

H. "Study" means the study entitled "Proposed Park Fees for Specific Plan Areas" dated December 14, 1988 by the Director. The Study is on file in the Offices of the Director and the City Clerk. The Study includes a discussion of the Fee in the Infill and North Industrial Areas.

I. "Infill Area" means that portion of the City not within the Northeast, Northcentral, Northwest, or Southeast Roseville Specific Plan Areas, nor within the North Industrial Area.

J. "Dwelling Unit" means a building or part of a building designed for occupancy as a residence by one family.

K. "Single Family Dwelling" means a building designed for occupancy as a residence by one family, including without limitation, mobile homes.

L. "Multiple Family Dwelling" means a building designed for occupancy as a residence by two or more families, living independently of each other. Provided, that multiple family dwelling also includes forms of congregate living, including, without limitation, senior citizen homes, retirement homes, or boarding homes.

4.37.030 Establishment and Administration of Neighborhood and Community Park Funds.

The Finance Director is hereby directed to establish special interest-bearing funds entitled the Neighborhood and Community Park Funds. One such fund shall be established for each Specific Plan Area. In addition, one such fund shall be established for both the North Industrial Area and the Infill Area. All Fees collected pursuant to this chapter shall be deposited in the Neighborhood and Community Park Fund for the area from which it was collected and shall be expended solely to finance the Facilities planned for that area.

4.37.040 Payment of Neighborhood and Community Park Fee.

Except as otherwise provided by this chapter, the Fee imposed pursuant to this chapter shall be paid at or prior to the issuance of any Building Permit for a dwelling unit. Calculation of the Fee shall be determined in accordance with the Study and this chapter depending upon the location of the City in which development occurs, the type of development, and the extent of development.

4.37.050 Neighborhood and Community Park Fee -- Southeast Roseville Specific Plan Area.

The Fee in the Southeast Roseville Specific Plan Area shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Residential, Single Family Dwelling	\$265.00 per dwelling unit
Residential, Multiple Family Dwelling	\$198.00 per dwelling unit

4.37.060 Neighborhood and Community Park Fee -- Northeast Roseville Specific Plan Area.

The Fee in the Northeast Roseville Specific Plan Area shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Residential, Single Family Dwelling	\$293.00 per dwelling unit
Residential, Multiple Family Dwelling	\$216.00 per dwelling unit

4.37.070 Neighborhood and Community Park Fee -- Northcentral Roseville Specific Plan Area. [reserved]

4.37.080 Neighborhood and Community Park Fee -- Northwest Roseville Specific Plan Area.

The Fee in the Northwest Roseville Specific Plan Area shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Residential, Single Family Dwelling	\$124.00 per dwelling unit
Residential, Multiple Family Dwelling	\$104.00 per dwelling unit

4.37.090 [Reserved]

4.37.100 Neighborhood and Community Park Fee -- North Industrial and Infill Areas.

The Fee in the North Industrial and Infill Areas shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Residential, Single Family Dwelling	\$240.00 per dwelling unit
Residential, Multiple Family Dwelling	\$165.00 per dwelling unit

4.37.110 [Reserved]

4.37.120 Existing Development.

No Fee shall be charged for already existing development or for projects which rebuild or remodel without increasing the number of dwelling units.

4.37.130 Fee Adjustments.

A. A developer of any project subject to the Fee established by this chapter may apply to the Director for a reduction or adjustment to the Fee based upon the absence of any reasonable relationship or nexus between the impacts of the project and either the amount of the Fee or the Facilities to be financed by the Fee. The application shall be made in writing and filed with the Director not later than twenty (20) calendar days after notification of the amount of the Fee. The application shall state in detail the factual basis for the claim of reduction or adjustment and the amount of the proposed reduction or adjustment. The Director shall consider the application and render his decision in writing not later than

forty-five (45) calendar days after the filing of the Fee adjustment request. Any person aggrieved by the decision of the Director may, within twenty (20) calendar days thereafter, appeal the decision in writing to the City Council by filing an appeal with the City Clerk. The City Council shall consider such appeals within forty-five (45) calendar days after filing. The decision of the City Council shall be final. No Building Permit shall be issued for the project until the final decision pursuant to this section has been made. No application for a project shall be considered final or complete for purposes of the Permit Streamlining Act (Government Code Section 65920, et seq.), or any other purpose, until a final decision pursuant to this section has been made.

B. Notwithstanding the provisions of Subsection A, a project proponent or applicant may pay the Fee "under protest" and receive a Building Permit. Provided, however, that the application for reduction or adjustment shall thereafter be filed within ten (10) calendar days or any objection shall be deemed waived. If a reduction or adjustment is received after payment pursuant to this subsection is made, a refund to the applicant shall be made of that amount by which the Fee is reduced or adjusted.

C. The project proponent or applicant applying for a reduction or adjustment shall have the burden of proof, by a preponderance of the evidence, that a reasonable relationship or nexus is lacking between the Fee, or the Facilities to be financed by the Fee, and the particular project.

D. In the event of any reduction or adjustment in the Fee granted pursuant to this section, any later change in the use, zoning, or land use designation for the property involved shall subject the then owner to payment of the then applicable Fee for such new uses, zoning, or land use designation, whether or not a Building Permit is required.

4.37.140 Inflationary Adjustments.

The Fee established by this chapter shall automatically be adjusted on January 1 of each calendar year by a percentage equal to the inflation rate for the prior year for construction costs as determined by the Director on December 1 of each calendar year. The Director's determination shall be based upon the Engineering News Record, Construction Cost Index for the calendar year as of December 1.

4.37.150 Adoption in Compliance with Capital Improvement Plan.

When the monies in the Neighborhood and Community Park Funds are disbursed for use, the Fees shall be used to finance the Facilities. To the extent sufficient Fees are available, all Facilities financed by the Fees shall be constructed or acquired in accordance with the priorities established in the Capital Improvement Program.

4.37.160 Chapter is Severable.

If any provision of this chapter or the application thereof to any person or circumstances held invalid, such invalidity shall not affect the other provisions of this chapter which can be given effect without the invalid provisions or its application, and to this end the provisions of this chapter are severable.

SECTION 2. Ordinance is Severable.

If any provision of this ordinance or the application thereof to any person or circumstances held invalid, such invalidity shall not affect the other provisions of this ordinance which can be given effect without the invalid provisions or its application, and to this end the provisions of this ordinance are severable.

SECTION 3. City-wide Park Fee. The City Council hereby declares its intention to adopt a fee to recover the costs of providing city-wide park and recreation facilities required by the General Plan. No building permit for a dwelling unit shall be issued unless the applicant shall agree, in writing, to be subject to such a City-wide Park Fee up to the amount of \$735.00 if it is adopted within one hundred and twenty (120) days of the effective date of this ordinance.

SECTION 4. Urgency Ordinance. This ordinance is declared to be an urgency measure, immediately necessary for the public peace, health and safety. It shall take effect immediately upon its adoption. A statement of urgency is as follows:

The extraordinarily rapid pace of development within the City necessitates immediate imposition of fees to fund the infrastructure to serve that development. Delay in adoption or the effective date of this ordinance would result in hundreds of building permits being issued without those permits bearing their fair share of costs.

SECTION 5. Posting. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations within the City and she shall immediately after such posting enter in the Ordinance Book, under the record of the ordinance, a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 4th day of January, 1989, by the following vote on roll call:

AYES COUNCILMEMBERS: Tom Chambliss, Phil Ozenick, John M. Byouk,
Mel Hamel, Bill Santucci

ORDINANCE NO. 2424

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
AMENDING SECTIONS 4.38.020 AND 4.38.050 OF CHAPTER 4.38
OF TITLE 4 OF THE ROSEVILLE MUNICIPAL CODE, RELATING
TO CITY-WIDE PARK FEES

THE CITY OF ROSEVILLE ORDAINS:

Section 1: Sections 4.38.020 and 4.38.050 of Chapter 4.38
of Title 4 of the Roseville Municipal Code are hereby amended to
read as follows:

4.38.020 Definitions.

The following words are defined for purposes of this chapter
as follows:

A. "Building Permit" means the permit issued or required by
the City for the construction of any Dwelling Unit pursuant to
and as defined by the Building Code.

B. "Capital Improvement Program" means that list of
proposed City-wide park and recreation facilities, improvements,
or infrastructure totaling \$35,660,062 (in 1991 dollars) prepared
by the Department and attached to the Study as Exhibit "A".

C. "Department" means the Department of Parks and
Recreation.

D. "Director" means the Director of the Department.

E. "Facilities" means those city-wide park and recreation
facilities, land, improvements, or infrastructure shown and
included on the Capital Improvement Program.

F. "Fee" or "City-Wide Park Fee" means the Fee established
by this Chapter 4.38. The Fee shall be collected prior to the
approval of any Building Permit. The Fee shall be used solely to
finance the Facilities.

G. "City-Wide Park Fund" means the special interest-bearing
fund established pursuant to Section 4.38.030.

H. "Study" means both the study entitled "Proposed City-
wide Park Fees" dated March 3, 1989 and the study entitled
"Increase of the City-Wide Park Fee" dated March 14, 1991 by the
Director. The Study is on file in the Offices of the Director
and the City Clerk.

I. "Dwelling Unit" means a building or part of a building
designed for occupancy as a residence by one family.

J. "Single Family Dwelling" means a building designed for
occupancy as a residence by one family, including without
limitation, mobile homes.

K. "Multiple Family Dwelling" means a building designed for
occupancy as a residence by two or more families, living
independently of each other. Provided, that multiple family
dwelling also includes forms of congregate living, including,
without limitation, senior citizen homes, retirement homes, or
boarding homes.

L. "Credit" means a reduction in the Fee representing the pro-rata share of City-wide park lands already dedicated during approval or development of a development agreement for a specific plan.

4.38.050 Amount of City-Wide Park Fee.

The Fee shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u>
Residential, Single Family Dwelling	\$1,195.50 per Dwelling Unit
Residential, Multiple Family Dwelling	\$1,195.50 per Dwelling Unit

SECTION 2. This ordinance shall be effective at the expiration of sixty (60) days from the date of adoption.

SECTION 3. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 15th day of May, 1991, by the following vote on roll call:

AYES COUNCILMEMBERS: Bill Santucci, Harry Crabb, Jr., John Byouk,
Mel Hamel, Pauline Roccucci

CODE, RELATING TO SOUTHEAST, NORTHEAST AND NORTHCENTRAL
ROSEVILLE SPECIFIC PLAN AREAS AND NORTH INDUSTRIAL AND INFILL AREAS
NEIGHBORHOOD AND COMMUNITY PARK FEES AND RESIDENTIAL
CONSTRUCTION TAX

THE CITY COUNCIL OF THE CITY OF ROSEVILLE DOES ORDAIN AS FOLLOWS:

SECTION 1: Sections 4.37.050, 4.37.060, 4.37.070 and 4.37.100 of Chapter 4.37 of Title 4 of the Roseville Municipal Code are hereby amended to read as follows:

4.37.050 Southeast Roseville Specific Plan Area.

The fee in the Southeast Roseville Specific Plan Area shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u> <u>(per dwelling unit)</u>
Residential, single-family dwelling	\$1,017.00
Residential, multiple-family dwelling	\$ 704.00

4.37.060 Northeast Roseville Specific Plan Area.

The fee in the Northeast Roseville Specific Plan Area shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u> <u>(per dwelling unit)</u>
Residential, single-family dwelling	\$725.00
Residential, multiple-family dwelling	\$483.00

4.37.070 Northcentral Roseville Specific Plan Area.

Land Use Category

<u>Amount of Fee</u> <u>(per dwelling unit)</u>
--

Residential, single-family dwelling	\$894.00
Residential, multiple-family dwelling	\$574.00

The NCRSP Neighborhood Park Fees set forth above reflect the park fees which remain to be paid after reductions have been made in the fees to reflect appropriate credits for those portions of the fees which have been prepaid by NCRSP landowners in accordance with their development agreements with the City. The total NCRSP Neighborhood Park Fees for single-family dwellings and multiple-family dwellings, including those portions which have been prepaid, are \$1,185 and \$769, respectively.

4.37.100 North Industrial and Infill Areas.

The fee in the North Industrial and Infill Areas shall be:

<u>Land Use Category</u>	<u>Amount of Fee</u> <u>(per dwelling unit)</u>
Residential, single-family dwelling	\$672.00
Residential, multiple-family dwelling	\$432.00

**Electric Backbone Impact
Fee Ordinance No. 6097**

ORDINANCE NO. 6097

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS 4.54.020 AND 4.54.050 OF CHAPTER 4.54 OF TITLE 4 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ELECTRIC BACKBONE MITIGATION FEE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 4.54.020 of Chapter 4.54 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.54.020 Definitions.

The following words are defined for purposes of this chapter as follows:

- A. “Building permit” means the permit issued or required by the city for the construction of any structure pursuant to and as defined by the building code.
- B. “Capital improvement program” means that list of proposed electric system facilities, improvements, or infrastructure totaling \$28,650,000 referenced in the 2019 UFS Study.
- C. “Department” means the electric utility department.
- D. “Director” means the director of the department.
- E. “Facilities” mean those electric system facilities or infrastructure shown and included on the capital improvement program.
- F. “Improvement plan” means a site plan of property proposed for development showing all required improvements that must be approved by the city prior to the issuance of a building permit for the property.
- G. “Fee” or “electric backbone mitigation fee” or “backbone fee” means the fee established by this Chapter 4.54. The fee shall be collected prior to the approval of any building permit. The fee shall be used solely to finance the facilities. The fee as codified in this chapter has previously been imposed for the same purposes, pursuant to motion of the city council.
- H. “Study” or “System Study” means the 2019 UFS Consultant Study. The Study is on file in the office of the city clerk.

SECTION 2. Section 4.54.050 of Chapter 4.54 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

4.54.050 Electric backbone mitigation fee.

The electric backbone mitigation fee shall be:

Type of Development	Amount of Fee
Apartments, condominiums, townhouses and mobile homes	\$360.95 per dwelling unit
Other residential units including single-family homes	\$496.31 per dwelling unit
General service (all other commercial/office/industrial)	\$90.24 per kVA

SECTION 3. This ordinance shall be effective at the expiration of sixty (60) days from the date of adoption.

SECTION 4. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this 15th day of May, 2019, by the following vote on roll call:

9.12.010 Definitions.

A. "Act" means the California Integrated Waste Management Act of 1989 (sometimes referred to as "AB 939"), including but not limited to, the Jobs and Recycling Act of 2011 (AB 341), SB 1016 (Chapter 343, Statutes of 2008), the Mandatory Commercial Organics Recycling Act of 2014 (AB 1826), and the Short-Lived Climate Pollutants Bill of 2016 (SB 1383), Public Resources Code § 40000 and following as it may be amended, and as implemented by the regulations of CalRecycle.

B. "California Code of Regulations" or "CCR" means the State of California Code of Regulations.

C. "Collection" means the operation of gathering together within the City and transporting to the point of disposal or processing of any Garbage, Recyclables, and Organic Waste.

D. "Commercial Business" or "Commercial" means a firm, partnership, proprietorship, joint-stock company, corporation, or association, whether for-profit or nonprofit, strip mall, industrial facility, or a multifamily residential dwelling, or as otherwise defined in 14 CCR Section 18982(a)(6). A Multi-Family Residential Dwelling that consists of fewer than five (5) units is not a Commercial Business for purposes of implementing this ordinance.

E. "Commercial Edible Food Generator" includes a Tier One or a Tier Two Commercial Edible Food Generator as defined in Sections 9.12.010(X) and 9.12.010(Y) of this Chapter.

F. "Container" means any bin, box, or cart used for the purpose of holding Garbage, Recyclables or Organic Waste for Collection.

G. "Representative" means an entity that the City contracts with or otherwise arranges to carry out any responsibilities of this Chapter, as authorized by 14 CCR Section 18981.2. A Representative may be a government agency, a private entity, or a combination of those entities.

H. "Edible Food" means food intended for human consumption, or as otherwise defined in 14 CCR Section 18982(a)(18). "Edible Food" is not Solid Waste if it is recovered and not discarded. Nothing in this Ordinance or in 14 CCR, Division 7, Chapter 12 requires or authorizes the recovery of Edible Food that does not meet the food safety requirements of the California Retail Food Code.

I. "Food Recovery" means actions to collect and distribute Edible Food that otherwise would be disposed.

J. "Food Recovery Organization" means an entity that engages in the collection or receipt of Edible Food from Commercial Edible Food Generators and distributes that Edible Food to the public for Food Recovery either directly or through other entities or as otherwise defined in 14 CCR Section 18982(a)(25), including, but not limited to:

1. A food bank as defined in Section 113783 of the Health and Safety Code;
2. A nonprofit charitable organization as defined in Section 113841 of the Health and Safety Code; and
3. A nonprofit charitable temporary food facility as defined in Section 113842 of the Health and Safety Code.

K. "Garbage" means all putrescible and nonputrescible solid, semisolid, and liquid wastes generated or accumulated through the normal activities of a premises. Garbage does not include Recyclables or Organic Waste that is Source Separated and set out for the purposes of Collection and recycling.

L. "Multi-Family Residential Dwelling" or "Multi-Family" means of, from, or pertaining to residential premises with five (5) or more dwelling units. Multi-Family premises do not include hotels, motels, or other transient occupancy facilities, which are considered Commercial Businesses.

M. "Organic Waste" means Solid Waste containing material originated from living organisms and their metabolic waste products, including but not limited to food waste, green waste, organic

textiles and carpets, lumber, wood, paper products, printing and writing paper, manure, biosolids, digestate, and sludges or as otherwise defined in the Act. Biosolids and digestate are as defined by the Act.

N. "Organic Waste Generator" means a person or entity that is responsible for the initial creation of Organic Waste, or as otherwise defined in 14 CCR Section 18982(a)(48).

O. "Person" means any institution, public or private corporation, governmental unit or jurisdiction, individual, company, firm, association, partnership or other entity.

P. "Prohibited Container Contaminants" means (1) discarded materials placed in the designated Organic Waste Container that are not identified as acceptable Source Separated Organic Waste for the City's designated Organic Waste Container; (2) discarded materials placed in the Garbage Container that are identified as acceptable Source Separated Organic Waste, which are to be separately collected in City's designated Organic Waste Container; and, (3) Excluded Waste, as described herein, placed in any container.

Q. "Recyclables" shall mean those materials that are separated from Solid Waste prior to disposal to be recycled consistent with the requirements of the Act. The City may adopt a schedule of materials suitable for recycling, as determined by resolution of the City Council, or as set forth in a collection agreement, which may be revised periodically.

R. "Residential Householder" shall mean any Person or Persons holding or occupying a residential premises in the City, whether or not the owner of the residential premises.

S. "Residential Owner" shall mean the owner of any residential premises within the City.

T. "Self-Hauler" means a Person, who hauls Solid Waste, Organic Waste or Recyclables pursuant to the conditions set forth in section 9.12.20 of this Chapter. Self-Hauler also includes a Person who back-hauls waste, or as otherwise defined in 14 CCR Section 18982(a)(66). Back-haul means generating and transporting Organic Waste to a destination owned and operated by the generator using the generator's own employees and equipment, or as otherwise defined in 14 CCR Section 18982(a)(66)(A).

U. "Single-Family" means of, from, or pertaining to any residential premises with fewer than five (5) units.

V. "Solid Waste" has the same meaning as defined in State Public Resources Code Section 40191, which defines Solid Waste as all putrescible and nonputrescible solid, semisolid, and liquid wastes, including Garbage, trash, refuse, paper, rubbish, ashes, industrial wastes, demolition and construction wastes, abandoned vehicles and parts thereof, discarded home and industrial appliances, dewatered, treated, or chemically fixed sewage sludge which is not hazardous waste, manure, vegetable or animal solid and semi-solid wastes, and other discarded solid and semisolid wastes, with the exception that Solid Waste does not include hazardous waste, as defined in the State Public Resources Code Section 40141, radioactive waste regulated pursuant to the State Radiation Control Law, or medical waste regulated pursuant to the State Medical Waste Management Act.

W. "Source Separated" means materials, including commingled Recyclables, that have been separated or kept separate from the Solid Waste stream, at the point of generation, for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or

reconstituted products, which meet the quality standards necessary to be used in the marketplace, or as otherwise defined in 14 CCR Section 17402.5(b)(4). For the purposes of this Chapter, Source Separated shall include separation of materials by the generator, property owner, property owner's employee, property manager, or property manager's employee into different Containers for the purpose of Collection such that Source Separated materials are separated from Waste/Mixed Waste or other Solid Waste for the purposes of Collection and processing.

X. "Tier One Commercial Edible Food Generator" means a Commercial Edible Food Generator as defined by 14 CCR Section 18982(a)(73) as amended, and includes the following:

1. Supermarket.
2. Grocery Store with a total facility size equal to or greater than 10,000 sq. ft.
3. Food Service Provider.
4. Food Distributor.
5. Wholesale Food Vendor.

Y. "Tier Two Commercial Edible Food Generator" means a Commercial Edible Food Generator as defined by 14 CCR Section 18982(a)(74) as amended and includes the following:

1. Restaurant with 250 or more seats, or a total facility size equal to or greater than 5,000 sq. ft.
2. Hotel with an on-site food facility and 200 or more rooms.
3. Health facility with an on-site food facility and 100 or more beds.

4. Large venue as defined in 14 CCR Section 18982(a)(39).

5. Large event, as defined in 14 CCR Section 18982(a)(38).

6. A State agency with a cafeteria with 250 or more seats or total cafeteria facility size equal to or greater than 5,000 sq. ft.

9.12.020 Private collection prohibited—Exception.

A. The City, its duly authorized agents, servants or employees, shall have the exclusive right to gather and collect Garbage within the City and it is unlawful for any person, except as otherwise provided in this chapter, to collect or gather Garbage within the City. The City Council, however, is empowered to grant permission to any person to collect or gather Garbage.

This prohibition shall not, however, apply to Self-Haulers as provided below:

1. The collection, transportation and disposal of construction and demolition debris by a contractor, handyman, repair person or other similar service provider as an incidental part of the services provided to its customers rather than as a hauling service; provided, that, such Solid Waste is not collected or transported by a third party hired for the primary purpose of collecting and transporting said materials, and further provided that such services comply with any ordinances, policies and regulations of City relating to the collection of such materials.

2. The collection, transportation and disposal of yard waste, green waste and related Solid Waste by a gardener or landscaper as an incidental part of the gardening or landscaping services provided to its customers, rather than as a hauling service; provided, that, such Solid Waste is not collected or transported by a third party hired for the primary purpose of collecting and transporting said materials.

3. Any person or entity collecting “Recyclables,” as that term is defined in Section 9.12.010(Q), sold or donated to it by the person or entity that generated such Recyclables (the “generator”); provided, however, to the extent permitted by law, if the generator is required to pay monetary or nonmonetary consideration for the collection, transportation, transfer or processing of Recyclables, the fact that the generator receives a reduction or discount in price (or in other terms of the consideration the generator is required to pay) shall not be considered a sale or donation, and provided that such services comply with any ordinance, policies and regulations of the City relating to the collection of such materials.

9.12.030 Organic Waste Generator Requirements.

A. Single-Family Organic Waste Generators shall comply with the following requirements:

1. Subscribe to and maintain Organic Waste Collection services for all Organic Waste. The City shall have the right to review the number and size of a generator’s Containers to evaluate adequacy of capacity provided for each type of Collection service for proper separation of materials and containment of materials. Single-Family Organic Waste Generators shall adjust service level for its Collection services as requested by the City. Generators may additionally manage their Organic Waste by preventing or reducing their Organic Waste, managing Organic Waste on site, and/or using a community composting site pursuant to 14 CCR Section 18984.9(c).

2. Participate in the City’s Organic Waste collection service(s) by placing Source Separated Organic Waste in the Container identified and designated for Source Separated Organic Waste and placing all other materials in the Container identified and designated for such materials.

3. Place Containers as follows:

a. Residences Having Street Frontage Only. Containers must be placed for collection at curbside in front of residence. The wheels of the Container will be placed in the gutter with the handle facing the residence. Containers will be at least six feet from any obstruction such as automobiles, trailers, motor homes, fences, lampposts, portable basketball hoops, mailboxes, or other automated containers. Containers are not to block pedestrian access.

b. Residences with Alley Access. Containers must be placed for collection on private property adjacent to the alley property line, with direct access from the alley. The base of the Container will be placed on a stable, level surface with the handle facing the residence. Containers will be at least six feet from any obstructions such as automobiles, trailers, motor homes, fences, portable basketball hoops, lampposts, mailboxes, or other automated containers.

c. All Containers must be at curbside no later than the time as directed by the environmental utilities director or his or her designee.

B. Generators that are Commercial Businesses, excluding Multi-Family Residential Dwellings shall comply with the following requirements:

1. Subscribe to and maintain Organic Waste Collection services for all Organic Waste. The City shall have the right to review the number and size of a generator's Containers to evaluate adequacy of capacity provided for each type of Collection service for proper separation of materials and containment of materials. Single-Family Organic Waste Generators shall adjust service level for its Collection services as requested by the City. Generators may additionally manage their Organic Waste by preventing or reducing their Organic Waste, managing Organic

Waste on site, and/or using a community composting site pursuant to 14 CCR Section 18984.9(c).

2. Participate in the City's Organic Waste collection service(s) by placing Source Separated Organic Waste in the Container identified and designated for Source Separated Organic Waste and placing all other materials in the Container identified and designated for such materials.

3. Supply and allow access to adequate number, size and location of collection Containers with labels or colors sufficient for employees, contractors, tenants, and customers, in compliance with the City's Collection service requirements.

4. Excluding Multi-Family Residential Dwellings, Commercial Businesses shall provide Containers for the Collection of Source Separated Organic Waste and Garbage in all indoor and outdoor areas where disposal Containers are provided for customers, for materials generated by that business. Furthermore, the Commercial Businesses shall place Containers in such place as shall be convenient to the City for removal of Organic Waste and Garbage. Storage of other equipment or material will not be allowed.

5. Excluding Multi-Family Residential Dwellings, Containers provided by Commercial Businesses shall have either:

a. A body or lid that conforms with the Container colors provided through the Collection service provided by the City, with either lids conforming to the color requirements or bodies conforming to the color requirements or both lids and bodies conforming to color requirements. A Commercial Business is not required to replace functional Containers, including Containers purchased prior to January 1, 2022, that do not comply with the requirements of the

subsection prior to the end of the useful life of those Containers, or prior to January 1, 2036, whichever comes first.

b. Container labels that include language or graphic images, or both, indicating the primary material accepted and the primary materials prohibited in that Container, or Containers with imprinted text or graphic images that indicate the primary materials accepted and primary materials prohibited in the Container.

C. Generators that are Commercial Businesses, excluding Multi-Family Residential Dwellings shall:

1. To the extent practical through education, training, inspection, and/or other measures, prohibit employees from placing materials in a Container not designated for those materials per the City's Collection service.

2. Periodically inspect all Containers for contamination and inform employees if Containers are contaminated and of the requirements to keep Prohibited Container Contaminants out of those Containers pursuant to the Act.

3. Annually provide information to employees, contractors, tenants, and customers about Organic Waste proper sorting and recovery requirements.

4. Nothing in this section prohibits a generator subject to these provisions from preventing or reducing waste generation or managing Organic Waste on site.

5. Commercial Businesses that are Tier One or Tier Two Commercial Edible Food Generators shall comply with Food Recovery requirements, pursuant to Section 9.12.110 of this Chapter.

9.12.040 Waivers.

- A. The City, in its sole discretion, may issue waivers to qualifying Commercial Businesses for physical space limitations, and/or de minimis volume waivers for Commercial Generators.
- B. Commercial Businesses requesting a physical space waiver shall:
 - 1. Submit an application form specifying the type(s) of Collection services for which they are requesting a compliance waiver.
 - 2. Provide documentation that the premises lacks adequate space for the required Containers including documentation from the contractor, licensed architect, or licensed engineer.
 - 3. Provide written verification to the City that it is still eligible for physical space waiver every five years, if the City has approved application for a physical space waiver.
- C. Commercial Businesses requesting a de minimis waiver shall:
 - 1. Submit an application specifying the Collection services that they are requesting a waiver from.
 - 2. Provide documentation that either:
 - a. The Commercial Business' total Solid Waste Collection service is two cubic yards or more per week and Organic Waste subject to Collection in the designated Containers comprises less than 20 gallons per week per applicable Container of the business' total waste; or
 - b. The Commercial Business' total Solid Waste Collection service is less than two cubic yards per week and Organic Waste subject to Collection in the designated Containers

comprises less than 10 gallons per week per applicable Container of the business' total waste.

- c. For the purposes of subsections (a) and (b) above, total Solid Waste shall be the sum of the weekly Garbage Collection Container volume, Recyclables Collection Container volume and Organic Waste Collection Container volume, measured in cubic yards.
3. Notify the City if circumstances change such that Commercial Business's Organic Waste exceeds the threshold required for waiver, in which case the waiver will be rescinded.
4. Provide written verification of eligibility for de minimis waiver every 5 years, if the City has approved a de minimis waiver.

9.12.050 Removal by owner or tenant.

Nothing contained in this chapter shall be construed as prohibiting the owner or tenant of any premises in the City from destroying or carrying away any Garbage in order to reduce the amount to be taken away by the City, or its duly authorized agents or employees, but not by means of any person who shall in any way receive the benefits of the use of any such Garbage for feed for poultry, hogs or other livestock, unless such person shall receive permission from the City council to carry away such garbage. Nothing contained in this section shall be construed as relieving any person from paying the regular garbage fees established for the City.

9.12.060 Removal weekly by City.

All Garbage accumulated at or on any premises within the City shall be removed by the City at regular intervals of once a week within the City limits, or more often at the request of any tenant, occupant or lessee, and delivered to the "authorized solid waste management facility."

9.12.070 Container requirements.

The environmental utilities director or his or her designee shall determine the size and specifications of all Containers used for the purposes of Collection under this Chapter.

9.12.080 Collection from certain floors prohibited.

The City shall not provide Collection for the purposes of this Chapter from above the first floor of any premises, nor from the basement of any premises.

9.12.090 Charges for Collection.

A. Residential.

1. Each and every householder or tenant occupying any dwelling, house, or residence, shall pay to the City, or its authorized agent, a fixed minimum charge as set forth in this section as a refuse rate. Such fixed minimum is based upon service of one call per week, irrespective of whether there is any refuse to remove from any premises.

2. Automated Container Service. Each premises shall be assigned City-owned Containers. Containers will be serviced by automated Collection. All Garbage and Source Separated Organic Waste for Collection must be contained within the Container(s) designated for such materials with the lid closed and must fall freely from Container when dumped. Each such premises shall be provided Collection regularly, as determined by the environmental utilities director or his or her designee.

3. For collection of additional containers beyond those covered by the fixed minimum rates established in this chapter, the collection charge shall be that identified in this section.

4. An additional or “extra” pickup may be requested beyond the minimum service required by this chapter. Each such additional or extra pickup shall be subject to a fixed fee. Return service for Containers placed out late may be requested. Each “out late” pickup shall be subject to a fixed fee.

5. Rates for Residential Collection. Effective July 1, 2021, and July 1, 2022, the residential rates on billings shall be as follows:

Residential Refuse Service	Effective 7/1/2021	Effective 7/1/2022
Fixed refuse monthly charge (one trash container and one green waste container as identified in Section 9.12.100(A)(2))	\$31.06	\$36.05
Each additional mixed waste Container	\$21.24	\$24.65
Each additional Source Separated Organic Waste container	\$11.28	\$13.10
Additional pickup of a mixed waste Container (also “out late” fee)	\$20.30	\$23.56
Additional pickup of a Source Separated Organic Waste Container (also “out late” fee)	\$14.92	\$17.32
Fixed fee for the return of a confiscated Source Separated Organic Waste Container due to contamination	\$145.00	\$168.27
Move in box pick-up	\$109.77	\$127.39
Temporary dumpster delivery and removal (6 yards only)	\$152.19	\$176.65
Source Separated Organic Waste contamination fee (applied to account after third notification)	\$30.36	\$35.24
Residential return trip fee (applied when service is requested but container is inaccessible)	\$30.36	\$35.24
Container exchange (customer requested in excess of 1x/12 months)	\$30.36	\$35.24

Residential Refuse Service	Effective 7/1/2021	Effective 7/1/2022
Container exchange (due to misuse—melted or damaged beyond reuse)	\$90.70	\$105.26

B. Commercial.

1. A landlord, property owner, property manager or management company of a Commercial Business that has a commercial dumpster shall pay to the City, or its authorized agent, a fixed charge as set forth by the city council as a refuse rate. Monthly charges will be applied to a single account per service. Such rates and fees are based upon a minimum service of one call per week, irrespective of whether there is any refuse to remove from any premises.

A landlord, property owner, property manager or management company with multiple tenants who must share a commercial dumpster shall be responsible for the refuse utility bill of the tenants.

2. Commercial Frontloader, Rearloader, Roll-Off, and Automated Container Services are provided by the City.

An additional or extra pick up may be requested beyond the minimum service required by this chapter. Each such additional or extra pick up shall be subject to a fixed fee.

Temporary Commercial Collection must be charged to a City of Roseville customer utility account. A “Garbage only” account may be requested for temporary services. See Chapter 14.04 "Utility Customer Billing, Accounting and Collections" for information about establishing a new account.

Timeframe for Temporary Customer Service. Temporary dumpsters for Commercial Business use must be serviced weekly and removed within a 90-day period. It is the customer's responsibility to schedule services. If a temporary dumpster is not emptied within seven consecutive days of its delivery or last Collection, the account shall be assessed a weekly rental fee per subsection (B)(7), Rates for Commercial Collection.

3. Multi-Family Residential Dwellings will need to provide proof to the City that Source Separated Organic Waste such as green waste are being recycled or diverted from the landfill in an appropriate manner, as determined by the environmental utilities director or his or her designee. The City can also provide green waste services, if necessary.

The City will collect all Source Separated Organic Waste, unless a Commercial Business had Collection services in place before September 28, 2014, the date AB 1826 was approved. Any Commercial Business with a collection contract in effect before this date can continue with providers until the contract expires. Once the contract expires the Commercial Business will default to City Collection service as provided for in this chapter.

4. An additional or special pickup may be requested beyond the minimum service required by this chapter. Each such additional or special pickup shall be subject to a fixed fee.

5. Rates for Commercial Collection. Effective July 1, 2021, and July 1, 2022, the commercial rates on billings shall be as follows:

Frontloader and Rearloader Commercial Services*	Effective 7/1/2021	Effective 7/1/2022
Waste service minimum monthly charge	\$34.83	\$40.42
Automated container commercial service (per Container, where available; Organic Waste service not available)	\$31.06	\$36.05

Frontloader and Rearloader Commercial Services*	Effective 7/1/2021	Effective 7/1/2022
Streetscape and LLD containers*	\$8.20	\$9.52
Hand pickup service* (up to three 30-gallon cans or six bags per week, where available)	\$34.83	\$40.42
Frontloader and rearloader* trash dumpster per yard charge	\$12.74	\$14.79
Frontloader and rearloader* trash compactor per yard charge	\$22.96	\$26.65
Frontloader cardboard dumpster and compactor per yard charge	\$3.91	\$4.54
Commercial bin assistance (per occurrence)	\$54.86	\$63.67
Recyclable material contamination fee (applied after third notification)	\$30.36	\$35.24
Lock delivery or replacement (per occurrence)	\$18.22	\$21.15
Lock service – (per Container, per month)	\$12.15	\$14.10
Push/pull charges (per Container, per month)	\$18.22	\$21.15
Extra pickup charge (percentage of monthly base rate plus return trip charge)	25%	25%
Exchange bin (for dirty bin in excess of 1x per 12 months)	\$91.08	\$105.70
Commercial return trip fee (applied when service is requested but Container is inaccessible; also used to calculate commercial extra pickups)	\$30.36	\$35.24
Emergency after-hours service fee (per service)	\$196.06	\$227.53
Commercial standby fee (per 15 minutes when asked by onsite customer to wait)	\$72.86	\$84.56

* A premium of 25% will be added to all rearloader services.

Roll-Off Commercial Open Top and Compactor Services	Effective 7/1/2021	Effective 7/1/2022
Minimum charge per haul (base rate) without tonnage* (all sizes and material)	\$379.39	\$440.28

Pleasant Grove Wastewater Treatment Plant sludge-hauling fee (per bin)	\$267.12	\$309.99
Roll-off tonnage fees (tipping fees)	Pass-through rates apply*	
Compactor cleaning service (hauling charges also apply)	\$512.68	\$594.96
Return trip fee (scheduled bin not ready for haul, customer requests return later on same day – per occurrence)	\$36.43	\$42.28
Roll-off relocation fee (no haul – per occurrence)	\$60.72	\$70.47

* Tonnage charges (tipping fees) vary by material type, and are determined by the Western Placer Waste Management Authority. With City department head approval, some entities may pay tonnage charges directly to Western Placer Waste Management Authority.

Temporary Frontloader and Roll-Off Fees	Effective 7/1/2021	Effective 7/1/2022
Frontloader and rearloader temporary dumpster delivery and removal fee	\$75.75	\$87.91
Frontloader and rearloader temporary dumpster per yard fee (plus trip fee for extra pickups)	\$12.74	\$14.79
Frontloader and rearloader temporary dumpster rental fee per week	\$72.11	\$83.69
Roll-off temporary dumpster hauling fee*	\$379.39	\$440.28
Roll-off temporary dumpster rental fee per week	\$130.94	\$151.96

* Tonnage charges (tipping fees) vary by material type, and are determined by the Western Placer Waste Management Authority. With City department head approval, some entities may pay tonnage charges directly to Western Placer Waste Management Authority.

C. Shared Compactor Rates. Shared compactor rates are applicable to the City of Roseville downtown specific plan area. Exact rates are determined on a site-specific basis based on the following criteria:

	Cost per 1,000 square feet of building area or per dwelling unit Effective 7/1/2021	Cost per 1,000 square feet of building area or per dwelling unit Effective 7/1/2022	
Below are the square footage rates for shared compactors. If a customer's site-specific charge does not exceed the fixed minimum charge, they will be subject to the monthly fixed minimum charge.			
Monthly Minimum (Fixed)	\$34.83	\$40.42	
Tier 1: Cost per 1,000 square feet of building area or per dwelling unit	\$7.28	\$8.45	Tier 1 includes business types that are determined low use by the environmental utilities director. Typical examples of low use are retail and office establishments and small apartment units.
Tier 2: Cost per 1,000 square feet of building area	\$29.34	\$34.05	Tier 2 includes business types that are determined medium use by the environmental utilities director. Typical examples of medium use are relatively smaller establishments such as bars and grills, coffee shops and delis; selling or serving food but not considered a full-service restaurant.
Tier 3: Cost per 1,000 square feet of building area	\$61.98	\$71.93	Tier 3 includes business types that are determined high use by the environmental utilities director. A typical example of high use is full-service restaurants, restaurant/bakeries, and similar establishments. Full-service restaurants are defined as primarily dine-in establishments with established menus, and a minimum of two meals per day (e.g., lunch and dinner).

D. Shared Compactor Organic Tiers. Organics tiers are applicable to some shared compactor units depending on compactor tier and usage type. Exact rates are determined on a site-specific basis based on the following criteria:

Commercial Shared Compactor Organic Tiers	Effective 7/1/2021	Effective 7/1/2022
Tier 1	\$0.00	\$0.00
Tier 2	\$99.50	\$115.47
Tier 3	\$198.92	\$230.85

E. Rates for Commercial Organic Waste Collection. Effective July 1, 2021 and July 1, 2022, the Commercial Organic Waste Collection rates on billings shall be as follows:

Organic Waste Collection Rates	Minimum Monthly Charge (Effective 7/1/2021)	Minimum Monthly Charge (Effective 7/1/2022)
0-2 yards	\$99.50	\$115.47
0-4 yards	\$198.92	\$230.85
5 yards	\$248.66	\$288.57
6 yards	\$298.34	\$346.22
7 yards	\$348.22	\$404.10
8 yards	\$397.83	\$461.68
9 yards	\$447.52	\$519.34
10 yards	\$497.24	\$577.04
11 yards	\$547.12	\$634.92
12 yards	\$596.68	\$692.44

Additional empty of organics container	\$74.62	\$86.60
Empty of contaminated organics container	\$99.50	\$115.47

9.12.100 Solid waste impact fee.

A. Solid Waste Impact Fee Established. Each Single Family Waste Generator and Commercial Waste Generator serviced by City-owned Containers Collection pursuant to this chapter shall pay a solid waste impact fee upon issuance of a building permit as described below. The fee is based on a "Study" (Solid Waste Impact Fee Model), which is attached to the council communication, dated February 15, 2006, entitled "Solid Waste Impact Fee." Containers shall be delivered upon issuance of a certificate of occupancy for the unit/development by the chief building inspector.

1. Noncommercial.

a. Single-family residential dwelling unit: \$410.00 per unit;

b. Multifamily residential dwelling unit: \$139.00 per unit.

2. Commercial/industrial development: \$0.34 per square foot.

B. Ownership. The City shall retain ownership of the Containers. Persons owning or renting property served by such Containers are responsible for the security of the Containers. In the event of fire, theft, or other disappearance of Container from the property a replacement Container will be obtained from the City upon payment of the fee established in subsection A of this section. Persons owning or renting property served by such Containers shall, upon vacating the premises, leave the primary Container for the next occupant in a secure location upon the

premises. Persons who have ordered an extra Container shall, upon vacating the premises, call the City to have the extra container removed. Persons owning or renting property served by such Containers are responsible for the appearance and cleanliness of the Container.

C. Replacement Containers. A replacement Container may be obtained upon payment of the fee established in subsection A of this section. Replacement of a Container no longer usable due to normal wear shall not be subject to a replacement fee.

9.12.110 Requirements for Commercial Edible Food Generators and Food Recovery Organizations.

A. Tier One Commercial Edible Food Generators must comply with the requirements of this Chapter 9.12 commencing January 1, 2022, and Tier Two Commercial Edible Food Generators must comply commencing January 1, 2024.

B. Large venue or large event operators not providing food services, but allowing for food to be provided by others, shall require food facilities operating at the large venue or large event to comply with the requirements of this Chapter, commencing January 1, 2024.

C. Commercial Edible Food Generators shall comply with the following requirements:

1. Arrange to recover the maximum amount of Edible Food that would otherwise be disposed.
2. Contract with or enter into a written agreement with Food Recovery Organizations or Food Recovery services for: (i) the collection of Edible Food for Food Recovery; or (ii) acceptance of the Edible Food that the Commercial Edible Food Generator self-hauls to the Food Recovery Organization for Food Recovery.

3. Shall not intentionally spoil Edible Food that is capable of being recovered by a Food Recovery Organization or a Food Recovery Service.
4. Allow the environmental utilities director or his or her designee to access the premises and review records to ensure compliance with this section as permitted by 14 CCR Section 18991.4.
5. Keep records that include the following information, or as otherwise specified in 14 CCR Section 18991.4, and as may be amended:
 - a. A list of each Food Recovery service or organization that collects or receives its Edible Food pursuant to a contract or written agreement established under 14 CCR Section 18991.3(b).
 - b. A copy of all contracts or written agreements established under 14 CCR Section 18991.3(b).
 - c. A record of the following information for each of those Food Recovery services or Food Recovery Organizations:
 - i. The name, address and contact information of the Food Recovery service or Food Recovery Organization.
 - ii. The types of food that will be collected by the Food Recovery service or Food Recovery Organization.
 - iii. The established frequency that food will be collected.

iv. The quantity of food, measured in pounds recovered per month, collected by a Food Recovery service or Food Recovery Organization for Food Recovery.

D. Commercial Edible Food Generators shall submit an annual report, within thirty (30) days upon request by the City, that includes the information required by subsection (C) above to the environmental utilities director or his or her designee commencing on January 1, 2022 for Tier One Commercial Edible Food Generators and commencing January 1, 2024 for the Tier Two Commercial Edible Food Generators. The environmental utilities director or his or her designee is authorized to increase the reporting frequency to require semi-annual or quarterly reporting for some or all of the information listed above.

E. Food Recovery Organizations collecting or receiving Edible Food directly from Commercial Edible Food Generators, via a contract or written agreement established under 14 CCR Section 18991.3(b), shall maintain the following records, or as otherwise specified by 14 CCR Section 18991.5(a)(2):

1. The name, address, and contact information for each Commercial Edible Food Generator from which the organization receives Edible Food.
2. The quantity in pounds of Edible Food received from each Commercial Edible Food Generator per month.

F. Nothing in this ordinance or in 14 CCR, Division 7, Chapter 12 requires or authorizes the recovery of Edible Food that does not meet the food safety requirements of the California Retail Food Code.

G. Nothing in this ordinance shall be construed to limit or conflict with the protections provided by the California Good Samaritan Food Donation Act of 2017, the Federal Good Samaritan Act, or share table and school food donation guidance pursuant to Senate Bill 557 of 2017.

9.12.120 Accumulations of Solid Waste, Organic Waste, or Garbage Prohibited.

It is unlawful for any person to permit Solid Waste, Organic Waste, or Garbage to accumulate upon the premises owned or occupied by such person.

9.12.130 Container Collection.

A. Each Container subject to this Chapter shall be placed on the curb or parkway or in the alley for Collection, not earlier than the evening preceding and not later than 7:00 a.m. on the day of regular collection. Those Containers shall be removed from the curbs, parkways or alleys within 12 hours after the refuse has been collected therefrom.

B. The Collection services provided under this Chapter is rendered to all properties within the limits of the City, and no service shall be rendered outside the corporate limits of the City.

9.12.140 Collector's responsibility.

No City employees shall remove or dispose of, for such employee's individual use or benefit, any of the contents of any vessel, tank or receptacle used for the Collection, removal or disposal of Solid Waste, Organic Waste, or Garbage.

9.12.150 Disposing of Excluded Waste prohibited.

No person shall place any wearing apparel, bedding or other refuse from homes or other places where highly infectious or contagious diseases have prevailed or any explosive substance, poison, hazardous chemical, offal, or fecal matter in any receptacle or bundle offered for

collection by the City collector. Hazardous medical waste, including, but not limited to sharps, shall be handled by a licensed medical waste hauler and shall not be disposed of in materials offered for collection by the City. All items and substances identified in this section shall be collectively referred to and incorporated herein as "Excluded Waste."

9.12.160 Exclusive use of Containers.

A. It is unlawful for any person to dump or place any material into, or to utilize, any Containers provided under this Chapter without consent of the owner or lessee of the Container whenever a notice has been placed on the Container advising of the existence of this section.

B. It is also unlawful for any person, without the consent of the owner or lessee of the Container, to enter into said Container, whether or not a notice has been placed on such Container, for the purpose of salvaging items therein or for the purpose of utilizing the Container to rest or sleep therein.

9.12.170 Enforcement.

A. In addition to those penalties and procedures provided for in this Chapter, a violation of any provision of this Chapter may be enforced by the issuance of an administrative citation as set forth in Chapter 2.50 of this code.

B. Violations of this Chapter shall be prosecuted as infractions, and penalties imposed for such violations shall not be less than the minimum penalty amounts prescribed under 14 CCR Section 18997.2, as may be amended from time to time.

SECTION 2. Chapter 9.17 of Title 9 of the Roseville Municipal Code is hereby amended to read as follows:

Chapter 9.17

REFUSE HAULING AND RECYCLING

9.17.000 Short title.

This chapter shall be referred to as the City of Roseville Refuse Hauling and Recycling Ordinance.

9.17.010 Findings.

The ~~city~~City Council finds and declares that:

A. The City of Roseville (~~city~~City) currently operates a refuse collection service which provides periodic refuse collection and solid waste disposal from all residences and businesses within the ~~city~~City.

B. Lower rates and greater local control result when periodic refuse collection is a municipal function. It is in the best interest of the citizens of the ~~city~~City that periodic refuse collection remains a municipal service, and that no franchises be granted for such services.

C. Historically, the ~~city~~City has not provided for collection of construction related refuse on an irregular or special basis. Debris from construction, renovation and demolition of buildings (hereinafter "C&D waste" as defined in Section 9.17.020) represents a large portion of the volume of waste being generated in the ~~city~~City, and much of C&D waste is suitable for

recycling and reuse. Allowing private collection of such refuse would not adversely affect the [cityCity](#)'s regular, periodic refuse collection enterprise.

D. Under California law, as embodied in the California Integrated Waste Management Act (California Public Resources Code Section 40000 et seq.), the [cityCity](#) is required to prepare, adopt and implement waste source reduction and recycling elements to reach landfill diversion goals, and is required to make substantial reductions in the volume of waste materials going to landfills, under the threat of penalties. State law further provides that the [cityCity](#) may recover its costs associated with implementing such waste diversion programs.

E. Persons collecting or hauling refuse for the sole purpose of recycling such refuse provide an important service to residents of the [cityCity](#) by assisting the [cityCity](#) in diverting solid waste from the Western Regional Landfill.

F. Requiring disposal of refuse at the Western Placer Waste Management Authority Materials Recovery Facility (MRF) located in Placer County, which is owned, operated and maintained by the Western Placer Waste Management Authority, a regional governmental joint powers authority of which the [cityCity](#) is a constituent member, ensures the proper allocation of waste volumes and recycle credits to the [cityCity](#) for all waste generated in the [cityCity](#) and disposed of at the MRF.

G. In order for the [cityCity](#) to obtain credit under state law for such diversion, reports from recyclers are necessary to document the quantity of refuse which is being recycled.

9.17.020 Definitions.

For purposes of this chapter the following definitions apply:

“Building division” means the building division of the department of development services of the City of Roseville. The building division issues certificates of occupancy and permits for commercial and residential construction, renovation and/or demolition.

“Bulky waste” means household furniture, tree and brush limbs larger than two inches in diameter, tree stumps and intact dead trees.

“C&D waste” means discarded materials generally not considered water soluble, and nonhazardous in nature, including, but not limited to, steel, glass, brick, concrete, asphalt material, pipe, gypsum, wallboard, wood and lumber from the construction, renovation, demolition or destruction of a structure as part of a construction, renovation, demolition or landscaping project, and including rocks, soils, tree remains, green waste and bulky waste that normally results from land clearing, landscaping and development operations for a construction, renovation and/or demolition covered project located in the City of Roseville.

“City” means the City of Roseville, a municipal corporation.

“Construction, renovation and/or demolition” means all building, landscaping, remodeling, addition, removal, demolition or destruction of any facility or structure located in the ~~city~~[City](#), or any portion thereof, including, but not limited to, any tenant improvements to an existing facility or structure and including the use or disposal of designated recyclable and reusable materials.

“Construction, renovation and/or demolition waste recycling plan” means a written plan, on a form prescribed by the director of environmental utilities or representative, and submitted by a covered project applicant for the purpose of compliance with this chapter, including [the](#)

requirement to divert a goal to achieve a minimum of sixty-five 50 percent (65%) by weight
diversion requirement.

“Covered project” means and includes any project located in the ~~city~~City which consists of one or more of the following:

1. Demolition of a building or structure;
2. Demolition of a portion of a building or structure where a demolition permit is required;
3. Construction, addition, renovation or alteration of a single residential, commercial, industrial, or institutional building or structure of greater than 2,000 square feet;
4. Construction of a single residential, commercial, industrial, or institutional building or structure of less than 2,000 square feet if more than one such building is being constructed as part of the same development project. Examples include, but are not limited to, single-family homes built within a subdivision and multiple structures built on a single parcel of land.

“Department” means the environmental utilities department of the City of Roseville, unless otherwise specified.

“Designated recyclable and reusable materials” mean:

1. Masonry building materials generally used in construction, including, but not limited to, asphalt, concrete, rock, stone and brick;

2. Wood materials including any and all dimensional lumber, fencing or construction wood that is not chemically treated, creosoted, CCA pressure treated, contaminated or painted;

3. Vegetative materials including trees, tree parts, shrubs, stumps, logs, brush or any other type of plants that are cleared from a site for construction, renovation and/or demolition or other use;

4. Metals including all metal scrap such as, but not limited to, pipes, siding, window frames, door frames and fences;

5. Roofing materials including wood shingles, as well as asphalt, stone and slate based roofing material;

6. Salvageable materials includes all salvageable materials and structures including, but not limited to wallboard, doors, windows, fixtures, toilets, sinks, bath tubs and appliances.

“Director” means the director of environmental utilities, or authorized representative.

“Divert” or “diversion” means the setting aside of refuse for the purpose of recycling. Divert and diversion, for the purposes of this chapter, is achieved only when refuse is taken to the Western Placer Waste Management Authority Materials Recovery Facility identified and defined herein, and the quantities are attributed to the [cityCity](#) service area.

“Franchisee” means a person or entity holding a nonexclusive franchise hauler permit issued pursuant to this chapter.

“Garbage” means and includes, but is not specifically limited to, the following: all putrescible animal and vegetable wastes resulting from the handling, preparation, cooking and

consumption of food, or resulting from decay or storage of meat, fish, fowl, fruit, or vegetables. It also includes all household and kitchen waste, paper, rags, cans and bottles.

“Green waste” means all tree and plant trimmings, grass cuttings, plants, weeds, leaves, branches, and other similar materials other than bulky waste or garbage.

“Hazardous waste” means any waste that is defined as hazardous waste under Section 40141 of the California Public Resources Code, as amended from time to time.

“Monthly waste generation/disposal and diversion report” means the form approved by the department, as amended from time to time, for the monthly reporting of refuse hauled, disposed and/or diverted in accordance with the provisions of this chapter.

“Person” means any individual, firm, company, corporation or other organization acting as principal, agent or officer, servant or employee, for him or herself or any other individual, firm, company, corporation or other organization.

“Recyclable material” means material which has been retrieved or diverted from disposal or transformation for the purpose of recycling, composting or salvage.

This definition shall include, but not be limited to, corrugated cardboard, newspaper, phone books, junk mail, magazines, ferrous metals, nonferrous metals, recyclable glass (including redemption glass), mixed metals, nonrecyclable glass, aluminum (including redemption aluminum), and No. 1 (Polyethylene terephthalate – PET) and No. 2 (High density polyethylene – HDPE) plastics.

“Recycler” means a person who provides collection or removal of ~~recyclable material~~Recyclables from a customer’s site and/or who accepts ~~recyclable material~~Recyclables from the public for the sole purpose of recycling 100 percent of the refuse collected or removed.

“Refuse” means garbage, rubbish, C&D waste or all of these.

“Refuse hauler” means a person who provides the hauling of refuse from a site, for disposal and recycling, where the refuse hauler provides a container, drop box, garbage can or other receptacle for use by the customer which is either retrieved or emptied by the refuse hauler, or where the refuse hauler collects or removes refuse from a designated location on the customer’s site. Where the refuse is hauled solely for recycling rather than disposal, such person shall not be considered a refuse hauler.

“Rubbish” means and includes all waste (other than garbage, green waste, bulky waste, and C&D waste), including, without limiting the generality of, the following: paper, cardboard, bedding, rubber tires, rags, sawdust, sweepings, plaster, brick, window glass, cement, crockery, shells, metals, metal products, ashes, and all non-organic accumulations from garden and/or yard areas, not including C&D waste.

“Source separated” means material separated at the point of generation from mixed solid waste that contains less than:

1. Ten percent of total weight in contaminating solid waste that is not a recyclable commodity, such as paper, glass, metal or wood; and
 2. Thirty percent of total weight in contaminating solid waste that is not an inert;
- and

3. Shall include no more than one percent of total weight in putrescible solid waste as part of the contaminating solid waste.

For purposes of this definition of “source-separated” material, “inert” means solid waste and recyclables that are source-separated and do not contain hazardous waste (as defined in 22 CCR Section 66261.3 et seq., and as may be amended from time to time), or soluble pollutants at concentrations in excess of applicable water quality objectives, none of which solid waste, recyclables or soluble pollutants contain putrescible wastes, including concrete (that may have steel reinforcing bar embedded in the concrete), fully cured asphalt, glass, plastics, fiberglass, asphalt or fiberglass roofing shingles, brick, slag, ceramics, plaster, clay and clay products and any other materials determined by CalRecycle to constitute inerts; further including all materials determined by the State Water Resources Control Board to constitute inerts, such as treated industrial wastes, dewatered bentonite-based and drilling mud; but excluding gravel, rock, soil, sand and similar materials as they exist in their natural state, whether processed or not, that have never been used in connection with any structure, development, grading or other human purpose.

“Western Placer Waste Management Authority Materials Recovery Facility (MRF)” means the materials recovery facility located at 3195 Athens Avenue, Lincoln, California, which is owned, operated and maintained by the Western Placer Waste Management Authority, a regional governmental joint powers authority of which the [cityCity](#) is a constituent member.

9.17.030 Franchise required—Franchise application fee.

It is unlawful for any person to operate as a refuse hauler, including a refuse hauler of C&D waste from covered projects referenced in Section 9.17.050, without first obtaining a franchise from the [cityCity](#) in accordance with this chapter. The franchise, if granted, shall be

nonexclusive. Consistent with the provisions of this chapter, an application for a nonexclusive refuse hauling franchise shall be filed with the director. The application fee shall be in the amount as established by resolution adopted by the ~~city~~City Council, as amended from time to time. Notwithstanding the provisions of this section, a person who operates solely as a recycler shall not be required to obtain a franchise for refuse hauling.

9.17.040 Franchise term and franchise fee.

A franchise for refuse hauling shall be for a term of two years. In addition to a franchise application fee, each franchise shall be required to pay a franchise fee of six dollars and eighty-eight cents to the ~~city~~City for every ton of refuse collected and disposed of within the ~~city~~City. The franchise fee set forth in this section may be amended from time to time by resolution of the ~~city~~City council. The franchise fee shall be assessed based on the monthly reports required in Section 9.17.060, and shall be paid monthly by the franchisee upon submission of the required report.

A franchise may be renewed for one or more additional periods aggregating not more than two years,

upon the recommendation of the director. Any person holding a franchise for refuse hauling shall obtain, provide and continuously maintain a ~~city~~City business license, and shall obtain, provide and continuously maintain insurance pursuant to ~~city~~City insurance requirements as set forth in Section 9.17.090.

If franchise fees are not paid by the franchisee at the times required by this section, then in addition to the franchise fees, the franchisee shall pay a late payment charge in an amount

equal to two percent of the franchise fee that is due, plus interest equal to one and one-half percent per month of the entire balance due until paid in full.

9.17.050 ~~Hauling and recycling of C&D waste from covered projects~~ Diversion requirements.

A. A covered project shall divert from disposal not less than ~~50~~ sixty-five percent (65%) by weight of the C&D waste generated from the covered project. All C&D waste shall be disposed of at the MRF.

B. A covered project shall divert one hundred percent (100%) of rock, soil, tree remains, tree, and other vegetative matter debris shall be diverted from disposal to landfills through recycling, composting, reuse and/or other diversion programs.

9.17.060 Plan required prior to issuance of building or demolition permit.

A.B. No grading, building or demolition permit shall be issued by the building division for a covered project until the department has approved a Construction, Renovation and/or Demolition Waste Recycling Plan (the "Plan") for the covered project. The Plan shall be submitted to the department for approval, in a format prescribed by the director, as a component of the construction, building, renovation or demolition process. The plan shall contain a reasonably accurate estimate of the tonnage or other specified units of C&D waste expected to be generated by the covered project and shall identify the refuse haulers and/or recyclers to be used for the disposal of C&D waste.

B.C. During the term of the covered project, the project applicant shall recycle or divert the required percentage of C&D waste, in accordance with the approved ~~construction,~~

~~renovation and/or demolition waste recycling plan~~Plan and any procedures established by the director, and shall keep complete and accurate records thereof, including the weight of the C&D waste diverted.

CD. Failure to comply with the requirements of this section, including, but not limited to, the requirements of the ~~construction, renovation and/or demolition waste recycling plan~~approved Plan and/or the obligation to keep complete and accurate records, may be grounds for issuance of a “stop work” order in addition to other remedies provided in this chapter and under state law.

9.17.070 Compliance with diversion requirements.

AE. Within 30 days following the completion of the demolition phase of a covered project, and within 30 days following the completion of the construction phase of a covered project, the project applicant shall, as a condition precedent to final inspection and to issuance of any certificate of occupancy or final approval, submit a recycling report to the department, to demonstrate completion of compliance with the requirements of this section.

B. The report provided pursuant to this section shall show the types and tons or other amount of materials recycled, supported by written documentation of the records of measurement from the MRF. Receipts and weight tags will be used to verify that which is reported. The building division will not issue a certificate of occupancy unless the director or his or her designee first determines that the ~~construction, renovation and/or demolition waste recycling plan has been fulfilled~~covered project complied with the Plan.

9.17.080~~060~~ Reports required.

A. On a monthly basis, a person holding a refuse hauling franchise shall complete a monthly waste generation/disposal and diversion report, and submit that report to the department before the 15th day of each month setting forth the total tons of refuse hauled from the ~~city~~City and the total tons of refuse disposed at the MRF all during the preceding month. The report shall show the types and tons or other amount of materials recycled, supported by written documentation of the records of measurement from the MRF. Receipts and weight tags will be used to verify that which is reported.

B. Unless otherwise specified, all reports required by this section shall be in a format determined by the director or his or her designee.

C. If the monthly report required under subsection A is not filed by the due date, the report shall be deemed delinquent, and the franchisee shall pay to the ~~city~~City a delinquent report charge in the amount of \$50.00. If the report remains delinquent for more than 30 days, the franchisee shall pay to the ~~city~~City a delinquent report charge in the amount of \$100.00. Such delinquent report charge shall be in addition to any franchise fees or other charges payable by the franchisee for the same period of time.

9.17.~~090070~~ Regulations.

The director shall provide regulations as to the size, construction, and numbering of roll-on or other disposal boxes used by franchisees and may establish other regulations relating to refuse hauling services. Refuse haulers, including a refuse hauler of C&D waste from covered projects referenced in Section 9.17.050, shall be required to obtain an encroachment permit pursuant to Chapter 13.28 prior to placing any disposal box or other material within the public right-of-way.

9.17.100~~090~~ Rates.

Rates for refuse collection services provided by nonexclusive franchisees shall not be regulated by the ~~city~~City.

9.17.110~~090~~ License, bonds and insurance.

In addition to a valid ~~city~~City business license, every person operating as a refuse hauler within the ~~city~~City shall maintain public liability insurance in the amount of \$1,000,000.00 per occurrence, \$2,000,000.00 aggregate; and automobile liability insurance in the amount of \$500,000.00 per occurrence and \$1,000,000.00 aggregate.

Failure to continuously maintain any of the foregoing is unlawful and grounds for revocation of the franchise.

9.17.120~~100~~ Periodic refuse collection prohibited.

It is unlawful for any person, whether or not holding a franchise as a refuse hauler, to provide refuse disposal services on a regular or periodic basis. Franchises shall be issued only for temporary refuse hauling prior to issuance of an occupancy permit or for the collection of C&D waste. Regular ongoing or periodic refuse collection shall be provided by the ~~city~~City.

9.17.130~~110~~ Proper disposal of refuse and recyclables required.

All refuse collected, removed and/or disposed of by a person holding a nonexclusive refuse hauling franchise or a recycler of C&D waste from a covered project must be delivered to the MRF.

All refuse collected, removed and/or disposed of by a person holding a nonexclusive refuse hauling franchise, a recycler of C&D waste from a covered project or any other recycler

must be handled so that none of the refuse and/or recyclables drops, falls or spills upon the ground or in any way constitutes a nuisance.

9.17.140-145 Nonexclusive franchisee-provided solid waste containers.

A. General. Containers used for storage of solid waste must be designed and constructed to be watertight and prevent the leakage of liquids. All containers shall be painted and must prominently display the current name and telephone number of the franchisee, refuse hauler or recycler. Containers that do not display the current name and telephone number of the franchisee, refuse hauler or recycler will be considered an abandoned container pursuant to

Section ~~9.17.146~~ 9.17.150.

B. Cleaning, Painting and Maintenance. Franchisee, refuse hauler or recycler shall make reasonable efforts to replace, clean or repaint all containers as needed so as to present a clean appearance.

9.17.146-150 Abandoned containers.

A. For the purposes of this section, a refuse or ~~recyclable material~~ recyclables container shall be considered "abandoned" or an "abandoned container" under any of the following circumstances:

1. Upon the nonexclusive franchisee's failure to remove the container within the time period specified by the director upon termination or revocation of the nonexclusive franchise pursuant to Section 9.17.160(C).

2. Upon the nonexclusive franchisee's failure to remove the container within 30 days after the expiration of the nonexclusive franchise granted to the franchisee.

3. Upon the nonexclusive franchisee's failure to dispose of the contents of the container within five days after the director issues a written notice to franchisee to dispose of the contents of the container.

4. If the containers, including trash compactors, are located on ~~city~~City property and do not prominently display the current name and phone number of the nonexclusive franchisee, refuse hauler or recycler as required under Section ~~9.17.7-115~~140.

B. If the franchisee, refuse hauler or recycler abandons any container used to provide nonperiodic commercial debris collection services, the ~~city~~City may remove the container and/or dispose of the contents of the container.

C. If the ~~city~~City removes a container abandoned by franchisee, refuse hauler or recycler and/or disposes of the contents of any container abandoned by franchisee, refuse hauler or recycler, the ~~city~~City may charge franchisee, refuse hauler or recycler for all ~~city~~City costs incurred in such removal and disposal. Franchisee, refuse hauler or recycler shall reimburse the ~~city~~City for such costs within 10 days after issuance of the ~~city~~City's invoice for such costs.

D. If a container is abandoned in accordance with this section, the ~~city~~City may do any of the following:

1. Use ~~city~~City resources to move the abandoned container(s) to the ~~city~~City's Corporation Yard, located at 2005 Hilltop Circle in Roseville, California.

2. Notify the franchisee, refuse hauler or recycler by certified letter that the container is being stored at the ~~city~~City's Corporation Yard.

3. Require that any and all costs associated with the relocation of the abandoned container(s) be borne by the franchisee, refuse hauler or recycler and paid in full to the ~~city~~City prior to the ~~city~~City's return of said containers.

4. Dispose of the abandoned containers as necessary if within 90 days after the ~~city~~City takes possession of the abandoned container, the franchisee, refuse hauler or recycler does not reclaim the container and/or pay all relocation costs in full to the ~~city~~City.

9.17.1620 Franchise revocation—Liability.

A. Violation of state or county laws, this chapter or other provisions of the Roseville Municipal Code relating to garbage, rubbish, refuse hauling and recycling, collection, the franchise ordinance granting the individual franchise, or the regulations promulgated by the director pursuant to this chapter, shall be grounds for revocation of the franchise.

B. In the event the nonexclusive franchise is revoked:

1. Franchisee shall have no right or authority to engage in solid waste collection, transportation or disposal operations in the ~~city~~City.

2. Franchisee shall remain liable to the ~~city~~City for any and all franchise fees that would otherwise be payable by franchisee, for any and all late payment charges and interest assessed pursuant to Section 9.17.040 of this chapter and for any and all delinquent report charges assessed pursuant to Section 9.17.0680 of this chapter.

3. Franchisee shall have a continuing obligation to submit to the ~~city~~City all reports required by Section 9.17.0680 of this chapter which relate to solid waste activities performed by franchisee up to and including the date of termination.

C. In the event the nonexclusive franchise is terminated or revoked by the director, franchisee shall remove all of franchisee's solid waste containers from all of franchisee's collection service locations and shall properly dispose of all solid waste in such containers. Any solid waste containers belonging to franchisee and not removed within 10 days of the revocation of the franchise shall be considered an abandoned container pursuant to Section 9.17.14650.

9.17.125-170 Franchise revocation—Appeal.

A. Any person aggrieved by or dissatisfied with any decision or determination of the director relating to the revocation of a franchise may appeal such action first to the ~~city~~City Manager and then, if applicable, to the ~~city~~City Council by filing a written appeal with the appropriate fee within 10 days from the date of action by the director or the committee's/commission's action. If the 10th day falls upon a weekend or holiday, the appeal period shall be extended to the end of the next business day. All appeals shall be filed with the ~~city~~City Clerk's office. The decision of the ~~city~~City Council on an appeal is final.

B. The failure to file and prosecute all appeals available pursuant to the provisions provided herein shall be deemed a failure to exhaust administrative ~~remedies, and~~remedies and shall act as a complete bar to any legal proceeding challenging the subject decision or determination.

9.17.130180 Permit compliance.

Compliance with this chapter may be listed as a condition of approval of any project.

9.17.190140 Transfer or assignment of franchise prohibited.

A person holding a nonexclusive refuse hauling franchise shall not sell, lease, transfer, assign or otherwise dispose of, either in whole or in part, whether by forced sale, merger, consolidation, reorganization or otherwise, a refuse hauling franchise issued pursuant to this chapter without first obtaining the prior written consent of the director. Any such consent shall be subject to terms and conditions as may be prescribed by the director. This restriction includes the transfer of ownership of the franchise, or a majority of ownership or control of the franchise or a conveyance of a majority of the franchise's stock to a new controlling interest. A franchise shall become void upon the abandonment of the business as determined by the director.

9.17.~~150~~200 Recycling encouraged.

Nothing in this chapter shall limit the right of an individual to donate, sell or otherwise dispose of recyclables, provided that such disposal is in accordance with the provisions of this chapter.

9.17.~~160~~210 Violations.

A. Violation of any provision of this chapter or the regulations adopted pursuant to this chapter is unlawful, and may be charged as a misdemeanor or infraction in the discretion of the ~~city~~City Attorney.

B. Violation of any provisions of this chapter or the regulations adopted pursuant to this chapter is declared to be a public nuisance, which may be abated by appropriate civil action.

C. The remedies provided in this chapter are cumulative and are in addition to any other remedies provided by law.

9.17.220~~170~~ Severability.

If any provision, clause, sentence or paragraph of the ordinance codified in this chapter or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the ordinance codified in this chapter which can be given effect without the invalid provision or application, and to this end the provisions of the ordinance codified in this chapter are severable. The ~~city~~City Council hereby declares that it would have adopted the ordinance codified in this chapter irrespective of the invalidity of any particular portion thereof.

SECTION 3. This ordinance shall be effective June 1, 2022 as an urgency measure.

SECTION 4. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect June 1, 2022. A statement of urgency is as follows:

It is necessary to amend Chapters 9.12 and 9.17 of Title 9 of the Roseville Municipal Code pursuant to this urgency ordinance to conform with the requirements of Senate Bill 1383 – Short-lived Climate Pollutants and CalRecycle’s Organics Regulations (CCR Title 14 Division 7, Chapter 12), to secure \$193,659 in CalRecycle grant funding under the SB 1383 Local Assistance Grant Program, and for the orderly and necessary continuance of operations of the City.

SECTION 5. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 1st day of June, 2022, by the following vote on roll call:

Water Meter Retrofit/Conservation Program

Ordinance No. 4001

ORDINANCE NO. 4001

ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE ADDING SECTION 14.04.100 OF CHAPTER 14.04, AND CHAPTER 14.07, AMENDING SECTIONS 14.08.020, 14.08.090, 14.08.091, 14.08.105, 14.08.106, 14.08.125, AND 14.08.126 OF CHAPTER 14.08, AND SECTION 14.16.100 OF CHAPTER 14.16 AND DELETING SECTION 14.08.110 OF CHAPTER 14.08 OF TITLE 14 RELATING TO WATER AND WASTEWATER ISSUES AND THE WATER METER RETROFIT PROGRAM

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 14.04.100 of Chapter 14.04 of Title 14 of the Roseville Municipal Code is hereby added to read as follows:

Section 14.04.100 Billing for metered water services on multi-family parcels

As part of the meter retrofit program, billing for water services will be as follows:

- A. Multiple dwelling units on a single assessor parcel operating off of a single water service line.
 - 1. For a water service feeding three or less dwelling units, a monthly service charge based on the meter size will be established for each connection and residential metered water rates will be used to bill commodity charges.
 - 2. For a water service feeding more than three dwelling units, a monthly service charge based on meter size will be established and non-residential metered water rates will be used to bill commodity charges.
- B. Multiple water services serving a single dwelling unit, or multiple parcels maintained as a single residence.
 - 1. A monthly service charge based on the meter size will be established for each connection.
 - 2. Residential metered water rates will be used to bill commodity charges.
- C. Multiple units on multiple assessor parcels operating off of a single water service line.
 - 1. In the event a water service line serves two or more dwelling units on two or more parcels, the billing charges will be determined by the Environmental Utilities Director.
- D. Multiple privately owned units operating off of a common water system (such as, but not limited to, condominiums).
 - 1. Each owner unit will receive a flat-rate water bill. The flat rate will be calculated based on the amount due for the prior year's usage for the entire complex (not limited to a building or unit within the complex). The Environmental Utilities Director has the authority to calculate the rate each June using the prior twelve months of usage ending in April. The amount will be calculated as follows:
 - i. A monthly service charge based on the meter size for each connection.
 - ii. Non-residential water rates will be used to calculate commodity charges.

- iii. The monthly amount billed to each unit will be the total amount due for all meters and backflow maintenance and repair for the complex for the prior year, divided by the total number of units, divided by 12 months.
 - iv. If an owner (or owners) is/are delinquent, the unpaid balance will be collected through the use of all available legal means.
 - v. The water rates used will be the rates in effect on June 1st.
 - 2. The usage used to calculate the flat rate will include all usage to the complex including landscape irrigation, pools and common areas.
 - 3. The City will not adjust the rate to accommodate differences in dwelling size or occupancy.
 - 4. Each property owner, whether the dwelling is occupied or vacant, is required to maintain water service.
- E. Mobile home parks with a private on-site water system and metered as part of the retrofit program.
- 1. Each dwelling owner will receive a flat-rate water bill. The flat rate will be calculated based on the amount due for the park for the prior year's usage. The Environmental Utilities Director will calculate the rate each June using the prior twelve months of usage ending in April. The amount will be calculated as follows:
 - i. A monthly service charge based on the meter size for each connection.
 - ii. Non-residential water rates will be used to calculate commodity charges.
 - iii. The monthly amount billed to each unit will be the total amount due for all meters and backflow maintenance and repair for the park for the prior year, divided by the total number of mobile home pads, divided by 12 months.
 - iv. If a bill recipient is delinquent, the unpaid balance will be collected through the use of all available legal means.
 - v. The water rates used will be the rates in effect on June 1st.
 - 2. The usage used to calculate the flat rate will include all usage to the park including landscape irrigation, pools and common areas.
 - 3. The City will not adjust the rate to accommodate differences in dwelling size or occupancy.
 - 4. The dwelling owner, if the dwelling is vacant, is required to maintain water service. If the mobile home pad is not leased, the bill will be the responsibility of the owner of the mobile home park.
- F. Apartment complexes with a private on-site water system.
- 1. A monthly service charge based on the meter size will be established for each connection.
 - 2. Non-residential metered water rates will be used to bill commodity charges.
 - 3. The City will not provide individual water bills or allocate bills to individual occupants/users.

SECTION 2. Chapter 14.07 of Title 14 of the Roseville Municipal Code is hereby added to read as follows:

Chapter 14.07 Water Meter Retrofit Program

Section 14.07.010 Definitions

For the purposes of this chapter, the following are defined as:

- A. "Director" means the Environmental Utilities Director of the City.
- B. "Single-family parcel" means a single dwelling unit with one water service line and only one service connection point on a single assessor's parcel.
- C. "Multi-family parcel" means more than one dwelling unit operating off of one or more shared water service lines on a single assessor's parcel. (Excludes apartments, condominiums, and mobile home parks).
- D. "Apartment complex" means a complex where multiple dwelling units are located on a single parcel and dwelling units are not owned individually.
- E. "Condominium complex" means a complex where dwelling units are individually owned.
- F. "Private water system" means a water system where the service lines and related equipment are owned and maintained by the property owner.
- G. "Public water system" means a water system where the service lines and related equipment are owned and maintained by the City.
- H. "Master meter" means a meter that services more than one dwelling unit on a private water system.
- I. "Sub-metering" means breaking a master meter into components based on individual on-site meters.

Section 14.07.020 General meter retrofit installation provisions

- A. Installation of a water meter will be made at the separation of the public and private system within the public easement.
- B. City will install meter sized to meet anticipated demands based on owner direction.
- C. Meter installation work will be completed by the City of Roseville.
- D. The owner of the real property served by the City shall be charged with, and personally responsible for, all associated costs related to the installation of a water meter, or meters, on owned property and for any subsequent water meter surcharge.
- E. Each parcel shall have at least one metered service connection regardless of the number of dwelling units served.
- F. If owner chooses to abandon a water service line the City will disconnect it from the City's system.
- G. Sub-meters will not be utilized for billing by the City.

Section 14.07.030 Multi-family parcel meter installations

- A. Multiple units on a single assessor parcel operating off of a single water service line.
 - 1. A single meter will be installed on the existing water service line within the right of way (at existing curb stop).
 - 2. If requested by owner, the City can install additional meters at the property line within the public utility easement. Owner will be responsible for additional meter

installations. Full payment of meter installation cost is due upon installation. A ten-year repayment plan may be authorized by the Director, as provided in 14.07.050.

3. If multiple water services exist, the owner may combine the services to a single water service. The owner is responsible for combining the services and abandoning on site services where no meter will be installed.
4. If multiple surcharges are currently being billed, but fewer meter installations are actually installed, a refund (up to a maximum of 12 months) will be made for surcharges paid over and above the number of actual installations made.

B. Multiple water services serving a single dwelling unit, or multiple parcels owned by a single owner and maintained as a single residence.

1. Connections at each parcel will be verified by City.
2. The owner shall identify which connection(s) a meter will be installed on.
3. If multiple water services exist, the owner may combine the services to a single water service. The owner is responsible for combining the on-site services and abandoning on site services where no meter will be installed.
4. If multiple connections exist, the installation will be evaluated for cross connection control. Meter setters with dual check assemblies may be required, requiring the owner to install a thermal expansion relief to the system.
5. If property owner requests additional services, full payment of meter installation costs for these additional services is due upon installation. An alternate payment plan may be authorized by the Finance Director.

C. Multiple units on multiple assessor parcels operating off of a single water service line.

1. A single meter will be installed on the existing service line and additional meters, one for each parcel, will be installed at the property line within the public utility easement.
2. The property owner will be required to connect additional service lines and make whatever separation is required on site (including obtaining the proper building permit).
3. If separation is not completed, the owner of the property served through the adjacent parcel will be required to separate the on-site services upon any improvements to the property that would result in a water/sewer tenant improvement or upon sale of the property.
4. A ten-year repayment plan may be authorized by the Director, as provided in 14.07.050.

D. Multiple privately owned units operating off of a common (either public or private) water system (such as, but not limited to, condominiums).

1. One or more master meters will be installed at the separation between the public and private systems but within the existing public utilities easement.
2. Multiple points of connection will require multiple meter installations.
3. Cross connection surveys will be completed by City to determine the degree of hazard involved. Appropriate backflow prevention shall be installed by City with the meter improvements. This may require the owner to install a pressure relief feature on the water system.
4. A surcharge will be calculated based on the actual cost of metering and cross connection control. The total cost will be amortized over 10 years using the 5-

year average City pooled investment interest rate. The annual amount due will be divided on a per unit basis and billed to each unit owner monthly.

- E. Mobile home parks with a private on-site water system.
 - 1. One or more master meters will be installed at the separation between the public and private systems but within the existing public utilities easement.
 - 2. Multiple points of connection will require multiple meter installations.
 - 3. Cross connection surveys will be completed by City to determine the degree of hazard involved. Appropriate backflow prevention shall be installed by City with meter improvements. This may require the owner to install a pressure relief feature on the water system.
 - 4. Mobile home park owner is responsible for the cost of meter installation and system modification, if required.
 - 5. Payment terms for meter installation services will be arranged between the owner and the Finance Director.
- F. Apartment complexes with a private on-site water system.
 - 1. One or more master meters will be installed at the separation between the public and private systems but within the existing public utilities easement.
 - 2. Multiple points of connection will require multiple meter installations.
 - 3. Cross connection surveys will be completed by City to determine the degree of hazard involved. Appropriate backflow prevention shall be installed by City with meter improvements. This may require the owner to install a pressure relief feature on the water system.
 - 4. Mobile home park owner is responsible for the cost of meter installation and system modification, if required.
 - 5. Payment terms for meter installation services will be arranged between the owner and the Finance Director.

Section 14.07.050 Meter Retrofit Program.

- A. Surcharges for the meter retrofit program shall be imposed on each single-family and multi-family parcel based on the number of meters installed.
- B. The water meter surcharge and related water bill is the responsibility of the property owner.
- C. In order to account for the cost of retrofitting meters throughout the community, pursuant to federal mandate, the following rates are hereby imposed:
 - 1. Already metered: \$0.00/mo.
 - 2. Meter-ready: \$1.58/mo.
 - 3. Full meter retrofit: \$7.20/mo.
 - 4. Nonresidential customers: \$0.00/mo./DUE.
 - 5. Under certain circumstances, the surcharge will be based on actual cost of meter installation as identified within this chapter.
- D. For the purposes of this section "meter-ready" shall mean those services which have been made meter-ready by installation of a meter box and meter setter per city standards. Services made meter-ready by the city shall be charged according to the full meter retrofit rate.

E. For purposes of this section, "non-residential customers" shall be defined as commercial, industrial, manufacturing, or other non-residential land uses including residential complexes. Actual costs associated with meter installation will be due from these "non-residential customers" upon meter installation.

Section 14.07.060 Low-income meter retrofit surcharge reduction.

A. Effective July 1, 2001, any household with total income no greater than that specified by the U.S. Department of Housing and Urban Development as "very low income" may apply for a fifty percent reduction in the water meter retrofit surcharge as charged under the provisions of Section 14.08.106. Applications for a reduced surcharge shall be on forms supplied by the City. All information required to be given on such forms shall be supplied by the applicant on behalf of the household under penalty of perjury.

B. A reduced surcharge shall be granted a qualifying household which files applications with the Finance Director. A change of address terminates the reduction provided in this section, but a new application at a new address may be made and the reduced surcharge rate shall be allowed, if the requirements set out in this section are satisfied.

C. For the purposes of this section, a "qualifying household" is defined as any household which owns and currently resides at the address for which application is made, with a verifiable gross household income no greater than that specified by the U.S. Department of Housing and Urban Development as "Very Low Income" for Placer County.

D. The reduced surcharge will apply to future utility bills for the premises occupied by the applicant at the time of application. The reduction will not be applied retroactively.

E. The reduction provided in this section may be allowed in addition to the senior citizen rate reduction provided under Section 14.08.120.

Section 14.07.070 Prepayment of meter retrofit surcharge.

A. Effective with the inclusion of the meter retrofit surcharge on the monthly utility bill as provided in Section 14.08.106, the remaining meter retrofit surcharge due may be paid in full. The prepayment will be in accordance with a schedule discounting the monthly surcharge using a five and five tenths percent (5.5%) discount rate.

B. The prepayment will apply to the balance of the surcharge assigned to a premises. A change of address will not result in a credit for prior prepayment. If a surcharge has been assigned to the new premises, it will not be affected by a prepayment on a prior premises.

C. Prepayments may not be required as a result of sale or exchange of a residence.

D. Prepayments will be made to the utility billing office of the finance department.

SECTION 3: Sections 14.08.020, 14.08.090, 14.08.091, 14.08.105, 14.08.106, 14.08.110, 14.08.125 and 14.08.126 of Chapter 14.08 of Title 14 of the Roseville Municipal Code are hereby amended to read as follows:

Section 14.08.020 Service connections-Application-Costs.

A. The water division shall install service connections and lay service pipes up to the coterminous of the public easement or interest in land and the property of the applicant, except in

the case of improvements installed pursuant to the subdivision regulations, all of which improvements shall be the sole responsibility of the developer. Ordinarily, such service pipes shall terminate within two feet in back of a sidewalk. Where there is no sidewalk, the location of the terminal of the service pipes shall be determined by the Environmental Utilities Director based upon where a sidewalk would ordinarily be located. The responsibility of the city with respect to maintenance of such service connections and service pipes shall not extend, in any case, beyond the terminal of the service pipes or located of the water meter if one is installed.

B. The size of such service connections and pipes shall be determined by the applicant by reference to the Uniform Plumbing Code. The Environmental Utilities Director is not responsible for verifying the calculations and is not responsible for any pressure problems related to improperly sized services.

C. Prior to the installation of such service connections and pipes, the applicant shall pay to the city the estimated costs of installation.

D. The cost of installation shall be established by the Environmental Utilities Director or his designee, based upon the estimated costs of labor, materials, equipment costs and rentals, and administrative costs. Upon the completion of an installation and approving inspection of any connection, the director or his designee shall refund any amounts collected with the application which exceed the actual costs.

Section 14.08.090 Service charges for metered service

There shall be due and payable the following monthly charges, upon submission of the bill by the City to the owner of the property supplied with service, for all treated water measured by meters for residential, commercial, industrial and manufacturing or other purposes:

A. Monthly Quantity Rates.

		Inside City	Outside City
1.	Residential Accounts		
	First 1,200 cu. ft.	0.22 per 100 cu. ft.	.35 per 100 cu. ft.
	Next 3,800 cu. ft.	0.44 per 100 cu. ft.	.71 per 100 cu. ft.
	Over 5,000 cu. ft.	0.66 per 100 cu. ft.	1.05 per 100 cu. ft.
2.	Non-residential Accounts		
	All water use	0.44 per 100 cu. ft.	.71 per 100 cu. ft.

B. Monthly Service Charges.

Meter Size (Inches)	Peak Flow Rate (gallons per minute)	Inside City	Outside City
5/8	20	\$ 10.35	\$ 16.60
3/4	30	10.35	16.60
1	50	16.70	26.70
1-1/2	100	32.20	51.50
2	160	50.85	81.40
3	350	94.55	151.30
4	600	157.40	251.80
6	1250	312.30	499.70
8	1800	500.20	800.30
10	2900	718.60	1149.70
12	4300	1342.00	2147.20

C. The total amount due and payable shall be the sum of the monthly service charge plus the quantity rate. The monthly service charge is due and payable regardless of whether water has been consumed. The service charge shall be the greater of the charge based on the meter size or flow rate. No service charge shall be made for fire service that has backflow prevention with detector check devices approved by the Environmental Utilities Director.

- D. For purposes of charging for treated water measured by meters:
1. A residential account is defined as a single metered water service which serves three or less dwelling units.
 2. A nonresidential account is defined as a single metered water service which serves more than three dwelling units, or serves commercial, industrial, manufacturing, irrigation or other nonresidential land uses.

Section 14.08.091 Service charge outside city limits.

Charges for water service delivered outside the corporate limits of the city will be at a rate 60% higher than the customers residing within City of Roseville City limits.

Section 14.08.105 Installation of water meters-New Construction

- A. New Construction. A water meter shall be required for all residential dwelling units for which a building permit was issued after January 1, 1992.
- B. Installation and Location.

1. All water meters and metering equipment will be supplied and installed by the City upon the service premises at a location approved by the Environmental Utilities Director.
 2. The following charges for water meter installation shall be made:
 - a. A seventy-five dollar (\$75.00) labor charge for installation shall be paid by the applicant for service prior to installation. The labor charge shall be increased by the Finance Director as labor costs increase, as reflected in the adoption of the City's salary ordinances.
 - b. A meter supply charge shall be paid by the applicant for service prior to installation. The meter supply charge shall be equal to the per meter amount of the most recent water meter bid awarded by the City.
 - c. In addition to the direct meter supply charge, additional charges any apply for meter appurtenances as required by the Environmental Utilities Director. This includes, but is not limited to, features required to make meter ready for remote reading.
 - d. A seventy-five dollar (\$75.00) water quantity charge per unit for water use during construction of residential units shall be paid by the applicant prior to meter installation. The water quantity charge shall be increased by the Environmental Utilities Director to reflect increases in water supply rates.
 3. All water meters shall be safely accessible to authorized employees of the City at all times for inspection, testing and reading.
 4. The City may require a customer to relocate a metering installation, at customer's expense, if any existing water meter location becomes inaccessible or for other operational needs.
 5. Property owners of condominium and apartment complexes are liable for costs to install meters on their property upon receipt of bill for such services.
- C. Rights of Access.
1. The City shall have the right of access to the customer's premises, at all reasonable hours for any purpose related to the furnishing of water service including, but not limited to meter reading, testing, inspection, construction, maintenance and repair of meter.
 2. Service may be refused or disconnected if permanent safe accessibility is not provided by the customer.
 3. Upon termination of service, the City shall have the right of access to the service premises to remove the water meter.
- D. Customer Responsibilities.
- It shall be the duty of each customer upon whose premises the city has installed a water meter to ensure that such meters are not damaged, destroyed or interfered with and, in the case of any defect in any such meter, to notify the city. The customer is also responsible for keeping the meter box clear and accessible for reading and maintenance by keeping landscape and other improvements from covering or encroaching over the meter box.
- E. Metered Water Rate.
- New services installed after January 1, 2002 will be placed on a metered water rate.

SECTION 4. Section 14.08.110 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby deleted.

SECTION 5. Sections 14.16.100.2 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

Section 14.16.100.2 Low strength-low quantity commercial or industrial users.

A. For commercial or industrial users described in subsection A of Section 14.16.100.1, sewer units are as follows:

1. Special low-density use, one per five employees or fraction:
 - a. Parking garages,
 - b. Warehouses,
 - c. Storage facilities;
2. Low-density users, one-sixth per one thousand square feet:
 - a. Churches (without kitchen, meeting hall),
 - b. Low-usage retail stores:
 - Hardware stores
 - Appliance stores
 - Furniture stores
3. Medium-density users, one-third per one thousand square feet:
 - a. Theaters,
 - b. Offices,
 - c. Auditoriums, halls, lodges,
 - d. Retail stores,
 - e. Schools (without cafeterias or gymnasiums),
 - f. Banks, financial offices,
 - g. Bowling/entertainment centers (without kitchen);
4. High-density users, two-thirds per one thousand square feet:
 - a. Barber/beauty shops (with lavatories),
 - b. Bars,
 - c. Medical/dental offices,
 - d. Schools (with cafeterias or gymnasiums),
 - e. Service stations,
 - f. Sports/fitness centers;
5. Special commercial users:
 - a. Carwashes (per automatic washing stall), eight units,
 - b. Carwashes (per self-service stall), two units,
 - c. Laundromats, two-thirds per washer,
 - d. Markets (without disposal), two-thirds per one thousand square feet,
 - e. Markets (with disposal), two per one thousand square feet,
 - f. Restaurants, bakeries, cafes, two per one thousand square feet,
 - g. Mortuaries two per one thousand square feet,
 - h. Hospitals, one-half per licensed bed,
 - i. Resthome/convalescent hospital, one-third per licensed bed;
6. Other commercial or industrial users, based on study by the Environmental Utilities Director.

B. General Regulations:

1. Not less than one connection per building.
2. Special provisions can be made within each category where, in the judgment of the city Environmental Utilities Director, application of ordinance produces inequities or irregularities requiring revision.
3. Prescribed connection charges apply only to the particular uses listed; where multiple uses, within the meaning of the connection charge ordinance, are contained in the same structure, the city Environmental Utilities Director, at his discretion, will allocate the respective square footage or employment dedicated to each use, and will determine a composite collection charge composed of the respective collection charges for each such use.
4. Classification of shell buildings having no use when connecting to the sewage system shall be determined based on the judgment of the city Environmental Utilities Director based on building permit data, applicable zoning, and plans of the developer. Subsequent modifications to such buildings may result in reclassification and the assessment of additional incremental charges. No refunding of previously paid connection charges will be made where modifications are made to any structure which place it in a classification with a lower connection charge rates.

SECTION 6. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 7. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 5th day of November, 2003, by the following vote on roll call:

ORDINANCE NO. 4932

**ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
ADDING CHAPTER 4.47 TO TITLE 4 OF THE ROSEVILLE MUNICIPAL CODE
RELATING TO THE SIERRA VISTA SPECIFIC PLAN MITIGATION FEE**

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Chapter 4.47 of Title 4 of the Roseville Municipal Code is hereby added to read as follows:

Chapter 4.47

Sierra Vista Specific Plan Mitigation Fee

4.47.010	Purpose.
4.47.020	Definitions.
4.47.030	Establishment and Administration of SVSP Mitigation Fund.
4.47.040	Payment of SVSP Mitigation Fee.
4.47.050	Sierra Vista Plan Area and Owner Subarea Boundaries.
4.47.060	Residential Land Uses
4.47.070	SVSP Fee—CG Barbaccia Trust.
4.47.080	SVSP Fee—MILLC (Connely).
4.47.090	SVSP Fee—DF Properties.
4.47.100	SVSP Fee—Westpark Federico/MILLC.
4.47.110	SVSP Fee—MILLC (Bagley).
4.47.120	SVSP Fee—MILLC (Computer).
4.47.130	SVSP Fee—MILLC (Wealth).
4.47.140	SVSP Fee—Baseline P&R LLC.
4.47.150	SVSP Fee—Baybrook LP.
4.47.160	(Reserved.)
4.47.170	Existing development.
4.47.180	Fee challenges.
4.47.190	Annual Fee adjustments.
4.47.200	Adoption in compliance.
4.47.210	Chapter is severable.

Section 4.47.010 Purpose.

The City Council finds and declares that the purpose of this chapter is as follows:

- A. The General Plan of the City requires that new development within the City be provided, in a time frame related to its development, with an adequate level of public infrastructure so as to maintain adequate levels of public services and not adversely impact other areas.

- B. Development within newly approved specific plan areas of the City creates a need for additional public improvements to serve such specific plans. Such burdens may vary by the type of land use. Such burdens should be shared equitably between the areas of a specific plan approved for development.
- C. Analysis of the approved land uses within the Sierra Vista Specific Plan ("SVSP" or "Specific Plan") makes it possible to estimate the burden or need for various public improvements generated by different types of land uses. Analysis of the land use expected at buildout within the SVSP pursuant to the SVSP and the General Plan makes it possible to estimate the type and amount of public improvements and dedicated City park land necessary to support that additional land use. It is therefore possible to construct a fee, imposed on new development within the SVSP (excluding the portion thereof designated as Urban Reserve, for which no land use entitlements have been approved), which equitably spreads the burden of public improvements and park land dedication to development within the SVSP which creates the need for them. It is the intent of this chapter to create such a fee, spreading costs of public improvements and City Park Land dedication equitably to development within the SVSP which creates the need for such required public improvements and park land dedication, without generating any surplus to the general fund.
- D. The Fee established by this chapter has been calculated in the manner set forth in the Study, as hereinafter defined, so as to pay for those required public improvements and City park land dedication listed and identified in the Study and equitably allocate the costs and burdens thereof throughout the areas approved for development within the SVSP (excluding the portion thereof designated as Urban Reserve).
- E. The Fee established by this chapter is in addition to any other fees or charges required by law as a condition of development.
- F. The Fee established by this chapter is to be collected for public improvements, City park land dedication, and administration of the Fee, for which an account, with separate sub-accounts, has been established.
- G. That the failure to impose the conditions and regulations of this chapter relating to payment of the Fee on building permits (or small-lot final maps for single-family development, when applicable) would jeopardize the purpose of this Fee to equitably spread the costs and burdens of providing the required public improvements and City park land dedication throughout the Specific Plan, which will promote development of the Specific Plan as planned to the benefit of the future residents of the Specific Plan.
- H. The requirement of this chapter to pay the Fee for new development within the SVSP is necessary in order to assure compliance with the applicable zoning ordinance and general plan requirements for the public improvements and dedicated City park land funded by this chapter.

- I. That for a period of greater than 10 days prior to adoption of this chapter, data has been available to the public and to developers and their representatives indicating the cost or estimated cost of all the required public improvements and dedicated City park land to be funded, the revenue sources anticipated, and the means of spreading these costs.
- J. That the City Council has considered the effect of the Fee imposed by this chapter with respect to the housing needs of the City as a whole and of the region, particularly as required by the housing element of the General Plan, and the City Council finds that this chapter does not unduly adversely affect the City's ability to provide for such needs.
- K. That the establishment of the Fee is for the purpose of equitably sharing the costs and burdens of development throughout the Specific Plan, thereby promoting the financing of the capital projects necessary to provide and maintain the facilities required by the SVSP and the General Plan to serve the portion of the SVSP for which land use has been granted by the City.

Section 4.47.020 Definitions.

The following words are defined for purposes of this chapter as follows:

- A. "Administration" means the administration of this Fee by the City and/or its consultants in accordance with the Study and this chapter.
- B. "Administrator" means the administrator employed or retained by the City of Roseville for organizing, monitoring and administering this Fee.
- C. "Building permit" means the permit issued or required by the city for the construction of any structure pursuant to and as defined by the building code.
- D. "City Park Land" means the approximately 40-acre property within the Specific Plan to be dedicated to the City for a community park.
- E. "Fee" or "SVSP Fee" means the fee established by this Chapter 4.47. The Fee shall be collected prior to the approval of any building permit, or, if any Fee Reimbursements are then outstanding, prior to the approval of any Small-Lot Final Map for any single family residential development. The Fee shall be used solely to finance the Improvements and the City Park Land.
- F. "Fee Credit and Reimbursement Agreement" means an agreement between an SVSP developer and the City to provide Fee credits and/or Fee Reimbursements, to be funded solely by the Fee, in exchange for the construction of Improvements by the developer.
- G. "Fee Reimbursement" means a reimbursement to be paid to a developer from the Fee for financing the construction of Improvements pursuant to a Fee Credit and Reimbursement Agreement.

- H. "Improvements" means those public improvements or infrastructure shown and included in the Study, including ancillary appurtenances.
- I. "Public Facilities" means buildings or other improvements owned or to be owned by the City of Roseville, Placer County, school district, or other public entity or utility.
- J. "SVSP Mitigation Fund" means that special interest-bearing fund, including the sub-accounts thereof dedicated to fund the costs of Administration, City Park Land, and Improvement, established pursuant to Section 4.47.030.
- K. "Small-Lot Final Map" means a final subdivision map recorded in accordance with the Subdivision Map Act that creates lots upon which Building permits may be issued for the construction of single-family homes.
- L. "Study" means the "Sierra Vista Specific Plan Fee Program Nexus Study" prepared by Economic and Planning Systems, Inc., and dated March 2011, as may be updated from time to time by the City to support adjustments to the Fee. The Study and any fee update(s) are and shall be maintained on file in the office of the city clerk.

Section 4.47.030 Establishment and Administration of SVSP Mitigation Funds.

The finance director is directed to establish a special interest-bearing fund entitled the SVSP Mitigation Fund and to establish three (3) separate sub-accounts thereof to fund the costs of Administration, Improvements and City Park Land. All Fees collected pursuant to this chapter shall be deposited in the appropriate sub-accounts of the SVSP Mitigation Fund and expended solely to finance Administration, Improvements and City Park Land, as applicable.

Section 4.47.040 Payment of SVSP Mitigation Fee.

Except as otherwise provided by this chapter, the Fee imposed pursuant to this chapter shall be paid at or prior to the issuance of any building permit within the SVSP. If a Fee Reimbursement is then outstanding pursuant to a Fee Credit and Reimbursement Agreement when an owner seeks to record a Small-Lot Final Map for single-family development, the Fee imposed pursuant to this chapter shall be paid at or prior to the recordation of such Small-Lot Final Map, in accordance with the Study.

Calculation of the Fee shall be determined in accordance with the Study and this chapter depending upon where within the SVSP such development occurs, the type of development, and the extent of development. Descriptions of land use categories in this chapter, except as otherwise noted in the Study or the SVSP, are utilized in the same manner as in the General Plan. Portions of the Specific Plan planned for Public Facilities and for church use are exempt from the Fee.

Section 4.47.050 Sierra Vista Plan Area and Owner Subarea Boundaries.

The boundaries of the Sierra Vista Plan Area, excluding the portion thereof designated as Urban Reserve, and the Owner Subareas thereof responsible for payment of the Fee, are established as shown on that certain map entitled "Sierra Vista Specific Plan Owner Subarea Map," which is on file in the office of the city clerk and the Administrator and is incorporated herein by reference.

Section 4.47.060 Residential Land Uses

Consistent with the designations in the Specific Plan for the different types of residential uses within the Specific Plan, the abbreviations applied to the residential uses in the Fee Tables below mean the following: LDR: 0.5 to 6.9 units/acre; MDR: 7.0 to 12.9 units/acre; HDR: 13.0 or more units/acre; and MU: residential units within mixed use developments.

Section 4.47.070 SVSP Mitigation Fee — CG Barbaccia Trust.

The Fee in that portion of the SVSP which is in the CG Barbaccia Trust Owner Subarea shall be:

Land Use	Residential				Nonresidential		
	LDR	MDR	HDR	MU [1]	CC [1]	BP [1]	MU [1]
Net Fee Rates	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>
City Park Land Fee	\$933	\$797	\$661	\$661	\$0.00	\$0.00	\$0.00
Infrastructure Fee	\$14,963	\$13,242	\$8,262	\$7,763	\$15.17	\$16.02	\$15.17
Administration Fee (Gross) @ 2%	\$276	\$243	\$150	\$155	\$0.30	\$0.32	\$0.30
Total SVSP Fee	\$16,172	\$14,282	\$8,073	\$8,579	\$15.47	\$16.34	\$15.47

Fee_CGB

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.

Section 4.47.080 SVSP Mitigation Fee — MILLC (Connely).

The Fee in that portion of the SVSP which is in the MILLC (Connely) Owner Subarea shall be:

Land Use	Residential				Nonresidential		
	LDR	MDR	HDR [1]	MU [1]	CC	BP [1]	MU [1]
Net Fee Rates	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>
City Park Land Fee	\$933	\$797	\$661	\$661	\$0.00	\$0.00	\$0.00
Infrastructure Fee	\$11,003	\$9,672	\$7,480	\$7,763	\$12.82	\$16.02	\$15.17
Administration Fee (Gross) @ 2%	\$276	\$243	\$150	\$155	\$0.30	\$0.32	\$0.30
Total SVSP Fee	\$12,212	\$10,712	\$8,291	\$8,579	\$13.12	\$16.34	\$15.47

Fee_ML

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.

Section 4.47.090 SVSP Mitigation Fee — DF Properties.

The Fee in that portion of the SVSP which is in the DF Properties Owner Subarea shall be:

Land Use	Residential				Nonresidential		
	LDR	MDR	HDR [1]	MU [1]	CC	BP [1]	MU [1]
Net Fee Rates	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>
City Park Land Fee	\$933	\$797	\$661	\$661	\$0.00	\$0.00	\$0.00
Infrastructure Fee	\$14,876	\$13,214	\$7,480	\$7,763	\$16.60	\$16.02	\$15.17
Administration Fee (Gross) @ 2%	\$276	\$243	\$150	\$155	\$0.30	\$0.32	\$0.30
Total SVSP Fee	\$16,085	\$14,254	\$8,291	\$8,579	\$16.90	\$16.34	\$15.47

Fee_DF

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.

Section 4.47.100 SVSP Mitigation Fee — Westpark Federico/MILLC.

The Fee in that portion of the SVSP which is in the Westpark Federico/MILLC Owner Subarea shall be:

Land Use	Residential				Nonresidential		
	LDR	MDR	HDR	MU	CC	BP [1]	MU
Net Fee Rates	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>
City Park Land Fee	\$933	\$797	\$661	\$661	\$0.00	\$0.00	\$0.00
Infrastructure Fee	\$11,988	\$10,442	\$6,310	\$6,593	\$13.10	\$16.02	\$13.10
Administration Fee (Gross) @ 2%	\$276	\$243	\$150	\$155	\$0.30	\$0.32	\$0.30
Total SVSP Fee	\$13,197	\$11,482	\$7,121	\$7,409	\$13.40	\$16.34	\$13.40

Fee_FED

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.

Section 4.47.110 SVSP Mitigation Fee — MILLC (Bagley).

The Fee in that portion of the SVSP which is in the MILLC (Bagley) Owner Subarea shall be:

Land Use	Residential				Nonresidential		
	LDR	MDR	HDR [1]	MU	CC [1]	BP [1]	MU
Net Fee Rates	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>
City Park Land Fee	\$933	\$797	\$661	\$661	\$0.00	\$0.00	\$0.00
Infrastructure Fee	\$14,941	\$13,128	\$7,480	\$8,586	\$15.17	\$16.02	\$15.91
Administration Fee (Gross) @ 2%	\$276	\$243	\$150	\$155	\$0.30	\$0.32	\$0.30
Total SVSP Fee	\$16,150	\$14,168	\$8,291	\$9,402	\$15.47	\$16.34	\$16.21

Fee_BAG

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.

Section 4.47.120 SVSP Mitigation Fee — MILLC (Computer).

The Fee in that portion of the SVSP which is in the MILLC (Computer) Owner Subarea shall be:

Land Use	Residential				Nonresidential		
	LDR	MDR [1]	HDR [1]	MU [1]	CC [1]	BP [1]	MU [1]
Net Fee Rates	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>
City Park Land Fee	\$933	\$797	\$661	\$661	\$0.00	\$0.00	\$0.00
Infrastructure Fee	\$14,562	\$12,146	\$7,990	\$7,763	\$15.17	\$16.89	\$15.17
Administration Fee (Gross) @ 2%	\$276	\$243	\$150	\$155	\$0.30	\$0.32	\$0.30
Total SVSP Fee	\$15,771	\$13,186	\$8,801	\$8,579	\$15.47	\$17.21	\$15.47

fee_COMP

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.

Section 4.47.130 SVSP Mitigation Fee — MILLC (Wealth).

The Fee in that portion of the SVSP which is in the MILLC (Wealth) Owner Subarea shall be:

Land Use	Residential				Nonresidential		
	LDR	MDR [1]	HDR [1]	MU [1]	CC [1]	BP [1]	MU [1]
Net Fee Rates	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per unit</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>	<i>per sq. ft.</i>
City Park Land Fee	\$933	\$797	\$661	\$661	\$0.00	\$0.00	\$0.00
Infrastructure Fee	\$13,847	\$12,379	\$7,480	\$7,763	\$15.17	\$16.02	\$15.17
Administration Fee (Gross) @ 2%	\$276	\$243	\$150	\$155	\$0.30	\$0.32	\$0.30

"Fee_BAY"

[1] Equals unadjusted gross Infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.

Section 4.47.160 (Reserved.)**Section 4.47.170 Existing development.**

No Fee pursuant to this chapter shall be charged for already existing development or for projects which rebuild or remodel without increasing the number of residential units and/or square footage of non-residential development, except as provided in this section. Where any development or project expands or remodels, it shall be charged the appropriate Fee as provided by Sections 4.47.070 through 4.47.150; provided, however, that the Fee shall be calculated only as to that portion of the development or project which is expanded or remodeled.

Section 4.47.180 Fee challenges.

- A. In their development agreements with the City for the development of the SVSP, the owners requested that the City adopt and administer this Fee to be applied to all projects within the SVSP. When this Fee is adopted, and as and when the Fee is updated, any owner within the SVSP may apply to the Administrator for a reduction or adjustment to the Fee as applied to its Owner Subarea based on the absence of any reasonable relationship or nexus between the impacts of the owner's project and the amount of the Fee or based on any alleged errors in the calculation of the Fee consistent with the Study. The application shall be made in writing and filed with the Administrator not later than 20 calendar days after adoption of the Fee or any update or annual adjustment of the Fee by the City. The application shall state in detail the factual basis for the claim of reduction or adjustment and the amount of the proposed reduction or adjustment. The Administrator shall consider the application and render his decision in writing not later than 45 calendar days after the filing of the fee adjustment request. Any person aggrieved by the decision of the Administrator may, within 20 calendar days thereafter, appeal the decision in writing to the City Council by filing an appeal with the city clerk. The City

Council shall consider such appeals within 45 calendar days after filing. The decision of the City Council shall be final. No building permit shall be considered final or complete for purposes of the Permit Streamlining Act (Government Code Section 65920, et seq.), or any other purpose, until a final decision pursuant to this section has been made.

- B. Notwithstanding the provisions of subsection A, a project proponent or applicant with an application timely pending pursuant to subsection A may pay the Fee "under protest" and receive a building permit or approval to record a Small-Lot Final Map. If a reduction or adjustment is approved after payment pursuant to this subsection is made, a refund to the applicant shall be made of that amount by which the fee is reduced or adjusted.
- C. The project proponent or applicant applying for a reduction or adjustment shall have the burden of proof, by a preponderance of the evidence, that a reasonable relationship or nexus is lacking between the Fee and the project, or that the calculation of the Fee is incorrect and inconsistent with the Study and this chapter.
- D. In the event of any reduction or adjustment in the Fee granted pursuant to this section, any later change in the use, zoning, or land use designation for the property involved shall subject the then owner to payment of the then applicable fee for new uses, zoning, or land use designation, whether or not a building permit is required.

Section 4.47.190 Annual Fee adjustments.

The Fee established by this chapter shall be adjusted annually on July 1st in accordance with the provisions of the Study. Such adjustments may include percentage changes based on general changes in construction costs over the prior year and/or based on actual cost experiences and/or revised cost estimates for the Improvements, as determined by the Administrator. The Administrator's determination of general changes in annual construction costs may be based upon averaging the Construction Cost Index (CCI) for 20 cities and for San Francisco, as published in the Engineering News Record publication for the preceding 12 months ending in May. Adjustments to the portion of the Fee for the City Park Land (and for adjustments based on dedications of land for the Improvements) shall be based on re-appraisals and/or updated appraisals of land values. The resultant Fee shall be rounded to the nearest dollar figure.

Section 4.47.200 Adoption in compliance.

When monies in the SVSP Mitigation Fund are disbursed for use, the Fees shall be used to finance the acquisition of the City Park Land, the construction of the Improvements and the administration of the Fee Program. To the extent sufficient Fees are available, all Improvements financed by the Fees shall be constructed or acquired in accordance with the priorities established in the Study and any Fee Credit and Reimbursement Agreements.

Section 4.47.210 Chapter is severable.

If any provision of this chapter or the application thereof to any person or circumstance held invalid, such invalidity shall not affect the other provisions of this chapter which can be given effect without the invalid provision or its application, and to this end the provisions of this chapter are severable.

SECTION 2. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 3. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this 20th day of April, 2011, by the following vote on roll call:

AYES:	COUNCILMEMBERS:	Allard, Herman, Garcia, Rohan, Roccucci
NOES:	COUNCILMEMBERS:	None
ABSENT:	COUNCILMEMBERS	None

Attachment 1	8

Reporting Requirements for Development Impact Fees

In California, State legislation sets certain legal and procedural parameters for the charging of development impact fees (“DIFs”). This legislation was passed as AB1600 by the California Legislature and is now codified as California Government Code Sections (GC §) 66000 through 66008 (“Mitigation Fee Act”). This State law went into effect on January 1, 1989.

GC § 66006(b) states the following requirements as pertains to DIFs:

For each separate account or fund established, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the following information for the fiscal year:

- (A) A brief description of the type of fee in the account or fund.
- (B) The amount of the fee.
- (C) The beginning and ending balance of the account or fund.
- (D) The amount of the fees collected and interest earned.
- (E) An identification of each public improvement on which fees were expended and the amount of expenditures on each improvement including the total percentage of the cost of the public improvement that was funded with fees.
- (F) An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete.
- (G) A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an interfund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan.
- (H) The amount of refunds made (as pursuant to GC § 66001(e)) due to sufficient funds being collected to complete financing on incomplete public improvements, and the amount of reallocation of funds made (as pursuant to GC § 66001(f)) due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.

GC § 65865(e) also requires that any development agreement entered into on or after January 1, 2004, the City shall comply with GC § 66006 with respect to any fee it receives or cost it recovers.

Description of Development Impact Fees

Sewer Connection Fees

Sewer connection fees are established pursuant to Municipal Code Chapter 14.16. Two sewer connection fees are collected when development occurs – a regional sewer connection fee and a local sewer connection fee. The local sewer connection fee is reported in the City of Roseville's Annual Development Impact Fee Report. Additional fees may be applicable to properties within sewer special benefit assessment areas.

- *Regional Sewer Connection Fees* - The regional sewer connection fee is charged for each sewer unit required within the Regional Treatment Plan Service Area connected to the city-owned public sewer. The service area includes the City of Roseville and portions of Placer County and South Placer Municipal Utility District.

Traffic Mitigation Fees

In 1988, the City of Roseville adopted a citywide Traffic Mitigation Fee Program, requiring new development within the City to pay traffic impact fees. The fees collected through this program, in addition to other funding sources, allows the City to construct transportation improvements identified in its Capital Improvement Program (CIP). The fee program assesses fair-share costs to other jurisdictions based on their impact on the individual roadways from new development.

This fee applies to all new development in the City. The developers in Specific Plan Areas have built, or will construct, more than the minimum amount of improvements from their funds and will receive a credit for those improvements. Additional fees collected by the City on behalf of regional fee programs:

- *Highway 65 Joint Powers Authority Fee Program* – The cities of Roseville and Rocklin, along with Placer County, formed a joint powers authority for the purpose of funding four interchanges on Highway 65. The interchanges include Stanford Ranch Road/Galleria Boulevard, Pleasant Grove Boulevard, Blue Oaks Boulevard and Sunset Boulevard. The fee program assesses fair-share costs to each jurisdiction based on their impact on the individual improvements from new development. City of Roseville serves as staff to the JPA and administers the fee program.

Regional Sewer Connection Project Fee Project Descriptions

Pleasant Grove UV (Project# 500165) - Due to changes in water quality and regulations, the current Pleasant Grove UV disinfection system is undersized for the projected rated capacity needed after the completion of the Pleasant Grove Expansion Project. This project expands the UV system capacity.

PGWWTP-Energy Recovery (Project# 500166) - Upon completion of the Pleasant Grove Expansion Project, the Pleasant Grove Wastewater Treatment Plant will produce bio-methane from the newly constructed digesters. Absent the Energy Recovery Project, the bio-methane would be burned in a flare, which is not environmentally sound. Once complete, bio-methane produced from the wastewater treatment plant will be conditioned for use in clean air refuse vehicles.

PGWWTP - Expansion 2020 (Project# 500167) - Expand wastewater treatment plant capacity. This project will add primary clarifiers, anaerobic digesters, and solids thickening equipment to the existing PGWWTP treatment process. This will increase the plant's treatment capacity from 9.5 to 12 million gallons per day and is expected to provide sufficient capacity to accommodate growth within the South Placer Wastewater Authority service area through 2035.

Dry Creek and Pleasant Grove WWTP Capacity Evaluation (Project# 500199) - This project is a field study to confirm the computer model capacity predictions contained in the WW System Evaluation project.

Regional Pump Station 26 and Force Main Capacity Improvement (Project# 500200) - This project will Increase available capacity in the Old Auburn Boulevard trunk sewer and associated lift stations.

PGWWTP Maintenance Admin and Shop Building - SPWA (Project# 500306) - This project funds the design and construction of a new maintenance Building at the Pleasant Grove Wastewater Treatment Plant.

Dry Creek WWTP Capacity Expansion - SPWA (Project# 500420) - This Project will increase treatment capacity of the Dry Creek Wastewater Treatment Plant (DCWWTP) by replacing blowers, adding a new aeration control system, adding mixers in the aeration basins, improving clarifier inlet and baffling, adding a new motor control center and associated electrical improvements to power the new equipment, modifying the existing effluent cooling system, and other associated improvements.

PGWWTP Electrical Capacity Expansion Project - SPWA (Project#500421) - This project will add electrical capacity to the Pleasant Grove Wastewater Treatment Plant (PGWWTP). The project includes adding electrical capacity to adequately serve existing, new and planned future loads, building an electrical building to house the new equipment, and adding generator capacity to allow for continued operation during emergencies and power outages to maintain required treatment compliance.

Residential Equivalent Dwelling Unit Evaluation - SPWA (Project# 500422) - Evaluate projected wastewater flows between different residential uses such as age restricted and multi-family developments to determine if a different Equivalent Dwelling Unit (EDU) calculation for these residential uses is warranted in regard to sewer connection fee calculations.

Corridors Trunk Sewer Capacity Improvements Project - SPWA (Project# 500432) - To meet projected build out demands, this project will divert flow from the Cirby Truck Sewer B by making modifications to Pump Station 25 and extending the existing force main. In addition, this project will upsize an existing 15-inch pipe along Coloma Way and reconnect it to the Cirby Truck Sewer.

DCWWTP Operations and Laboratory Building Construction Project - SPWA (Project# 500433) - Per the 2017 DCWWTP Condition Assessment performed on the existing Operations Building, this project is to re-build and expand the Operations and Laboratory Building, update the surrounding site and utilities, and demolish the existing Operations Building.

Inflation Reduction Act Support Project - SPWA (Project# 500434) - Determine if the PGWWTP Expansion and Energy Recovery Projects are eligible for the Inflation Reduction Act of 2022 and if so , pursue and file for the federal tax credits.

Traffic Mitigation Fees										
Highway 65 Joint Powers Authority Fee Program										
Document Establishing Fee	Project	Fee Formula	Starting Balance	Fees Collected (Refunded)	Interest Earned	Interfund Transfer In/(Out)	Expenditures	Ending Balance as of June 30, 2024	Sufficient Funds to Complete Project?	% of CIP Funded by Fee
Resolution No. 90-312	Highway 65- Galleria/ Stanford	Joint Powers Agreement Oct, 15, 1990; Amended Aug. 18, 1992	(\$5,473,118)	966,018	7,689	-	(6,924)	(\$4,506,335)	No	100

The Highway 65 Joint Powers Authority Board approved a plan for funding the construction of various Highway 65 Interchange Projects that included the commitment of funds from the Authority along with funds from the Cities of Roseville and Rocklin and the County of Placer. The participants remitted funds to the Authority in advance of the construction. In addition, the City of Roseville constructed projects using City of Roseville funds. The projects were dedicated to the Authority through a reimbursement agreement. Pursuant to the agreement, the cities and the County will be reimbursed through future traffic mitigation fees collected by the Authority.

Traffic Mitigation Fee Project Descriptions

Highway 65-Galleria/Stanford (Project# 400060) –The proposed project would modify the SR 65 NB ramps at the Galleria Boulevard/Stanford Ranch Road interchange as well as reconfigure the lanes along Galleria Boulevard/Stanford Ranch Road. The project would construct the following:

- Dual left turn lanes onto the NB SR 65 slip on-ramp.
- Protected median left turn pockets at the NB and SB ramp intersections, eliminating the inside trap lanes.
- Right turn pocket for the SB approach along Stanford Ranch Road to the NB slip on-ramp.
- Widened NB SR 65 to NB Stanford Ranch Road slip off-ramp from one to two lanes at the ramp terminus. Off-ramp will include a signalized intersection at Stanford Ranch Road.
- Widened NB slip on-ramp to two metered general purpose lanes plus an HOV preferential lane.
- Modified terminus of the NB loop off-ramp to reduce speeds and enhance safety for all modes utilizing the facility.

Regional Sewer Connection Fees

Ordinance No. 6100

ORDINANCE NO. 6100

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION 9.12.100 OF CHAPTER 9.12 OF TITLE 9, AMENDING SECTIONS 14.08.025, 14.08.090, 14.08.091, AND 14.08.100 OF CHAPTER 14.08 OF TITLE 14, DELETING SECTION 14.08.091 OF CHAPTER 14.08 OF TITLE 14, AND AMENDING SECTIONS 14.16.060, 14.16.080, 14.16.200 AND 14.16.201 OF CHAPTER 4.16 OF TITLE 14 OF THE ROSEVILLE MUNICIPAL CODE REGARDING GARBAGE, WATER AND WASTEWATER RATES AND SERVICES

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 9.12.100 of Chapter 9.12 of Title 9 of the Roseville Municipal Code is hereby amended to read as follows:

9.12.100 Charges for collection.

A. Residential.

1. Each and every householder or tenant occupying any dwelling, house, or residence, shall pay to the city, or its authorized agent, a fixed minimum charge as set forth in this section as a refuse fee. Such fixed minimum is based upon service of one call per week, irrespective of whether there is any refuse to remove from any premises.

2. Ninety-Gallon Automated Container Service. For each premises assigned city-owned 90-gallon containers (one for household garbage and one for yard clippings and green waste) and serviced by automated collection, all garbage, and green waste for collection must be contained within the 90-gallon container(s) with the lid closed and must fall freely from container when dumped. Each such premises shall be provided weekly collection for trash; green waste will be collected every other week.

3. Refuse service may be discontinued upon request for a period of no less than two months when a dwelling, house, or residence will be unoccupied. The minimum time of discontinuing service will be two months. A service charge equal to two months' refuse charge will be charged to the utility user for the removal and redelivery of the assigned automated container when service has been temporarily discontinued. This service charge will be paid at the time service is discontinued. Upon occupancy of a dwelling, house or residence, the utility user must contact the city to restart service and will be charged an associated restart fee. If the occupant of a dwelling, house, or residence does not contact the city to restart service, the city may bill back to the discontinuance of service all monthly charges.

4. For collection of additional containers beyond those covered by the fixed minimum charges established in this chapter, the collection charge shall be that identified in this section.

5. An additional or special pickup may be requested beyond the minimum service required by this chapter. Each such additional or special pickup shall be subject to a fixed fee.

6. Rates for Residential Collection. Effective July 5, 2019, and July 1, 2020, the residential rates on billings shall be as follows:

Residential Refuse Service	Effective 7/5/2019	Effective 7/1/2020
Fixed refuse monthly charge (one trash container and one green waste container as identified in Section 9.12.100(A)(2))	\$25.57	\$26.85
Additional empty of a 60- or 90-gallon refuse container	\$16.72	\$17.55
Each additional green waste container	\$9.28	\$9.75
Each additional 90-gallon refuse container	\$17.48	\$18.36
Additional empty of a green waste container	\$12.29	\$12.90
Refuse 60- or 90-gallon replacement charge	\$74.69	\$78.42
Fixed fee for the return of a confiscated green waste container due to contamination	\$119.41	\$125.38
Temporary removal of a residential service	\$51.12	\$53.68
Move in box pick-up	\$90.39	\$94.91
Temporary dumpster delivery and removal and per yard charge (6 yards only)	\$125.30	\$131.56

Residential Special Services	Effective 7/5/2019	Effective 7/1/2020
Restart Service (per occurrence)	\$25.00	\$26.25
Green/Waste Contamination Fee (per occurrence)	\$25.00	\$26.25
Overloaded Cart (per occurrence)	\$10.00	\$10.50
Return Trip Charge Same day (per occurrence)	\$10.00	\$10.50
Return Trip Charge Off day (per occurrence)	\$25.00	\$26.25
Cart Exchange (in excess of 1x/12 months)	\$25.00	\$26.25

B. Commercial.

1. A landlord, property owner, or property manager or management company of each and every store, shop, apartment, house, rooming house, factory or other nonresidential use that has a commercial dumpster shall pay to the city, or its authorized agent, a fixed minimum charge as set forth by the city council as a refuse fee. Such fixed minimum is based upon service of one call per week, irrespective of whether there is any refuse to remove from any premises.

A landlord, property owner, property manager or management company with multiple tenants who must share a commercial dumpster shall be responsible for the refuse utility bill of the tenants.

2. Commercial Dumpster, Roll-On, and Additional Services. The environmental utilities director may approve the placing of garbage or rubbish in containers other than 30-gallon cans or 90-gallon automated cans (such as dumpsters or roll-on containers) as provided in Section 9.12.060. The fixed fee and additional service charges are established by subsections (A)(6) and (B)(7). In such cases, the environmental utilities director shall cause a study of the service to be made, and charges will be established based on the cost of performing the service. Such charge shall include all costs to the city, including, but not limited to, labor, equipment operation, maintenance and depreciation, administrative overhead, recycling, landfill closure and landfill operation costs. Standard commercial charges for basic hand-pickup dumpsters and roll-on containers may be established by the environmental utilities director subject to the approval of the city council.

An additional or special pick up may be requested beyond the minimum service required by this chapter. Each such additional or special pick up shall be subject to a fixed fee.

Temporary commercial services must be charged to a City of Roseville customer utility account. A "garbage only" account may be requested for temporary services. See Chapter 14.04 Utility Customer Billing, Accounting and Collections for information about establishing a new account.

Timeframe for temporary customer service. Temporary dumpsters for commercial use must be serviced weekly and removed within a 90 day period. It is the customer's responsibility to schedule services. If a temporary dumpster is not emptied within seven consecutive days of its delivery or last collection, the account shall be assessed a weekly rental fee per Section 9.12.100(B7): Rates for Commercial Collection.

3. Commercial customers that fall into the following categories are required by state law to subscribe to organics recycling services.

a. On and after April 1, 2016, a business that generates eight cubic yards or more of organic waste per week shall arrange for recycling services specifically for organic waste.

b. On and after January 1, 2017, a business that generates four cubic yards or more of organic waste per week shall arrange for recycling services specifically for organic waste.

c. On and after January 1, 2019, a business that generates four cubic yards or more of commercial solid waste, as defined in Section 42649.1, per week, shall arrange for recycling services specifically for organic waste.

4. On or after January 1, 2020, if the department determines that statewide disposal of organic waste has not been reduced to 50 percent of the level of disposal during 2014, a business that generates two cubic yards or more per week of commercial solid waste shall arrange for the organic waste recycling services specified in subsection (B)(3), unless the department determines that this requirement will not result in significant additional reductions of organics disposal.

5. Multifamily dwellings will not be required to recycle food waste, but will need to provide proof to the city that other organics such as green waste are being recycled or diverted from the landfill in an appropriate manner. The city can also provide green waste services, if necessary.

The city will be the primary collector of all organic waste materials, unless a business had services in place before September 28, 2014, the date AB 1826 was approved. Any business with a collection contract before this date can continue with providers until the contract expires. Once the contract expires the business will default to city service.

6. An additional or special pickup may be requested beyond the minimum service required by this chapter. Each such additional or special pickup shall be subject to a fixed fee.

7. Rates for Commercial Collection. Effective July 5, 2019, and July 1, 2020, the commercial rates on billings shall be as follows:

Frontloader and Rearloader Commercial Services*	Effective 7/5/2019	Effective 7/1/2020
Frontloader and rearloader commercial dumpster and sidewalk can per yard charge *Plus premium for rearloader services (more detail below)	\$10.49	\$11.01
Frontloader and rearloader compactor per yard charge	\$18.90	\$19.85
Frontloader cardboard dumpster and compactor per yard charge	\$13.93	\$14.63

Commercial Special Services	Effective 7/5/2019	Effective 7/1/2020
Rear Loader Service Premium (this will be an additional charge equivalent to an associated percentage of the monthly base rate)	25%	25%
Recyclable Material Contamination Fee (per occurrence)	\$25.00	\$26.25
Green/Waste Contamination Fee (per occurrence)	\$25.00	\$26.25
Overloaded Container (per occurrence)	\$25.00	\$26.25
Lock Service – Admin Set up (per occurrence)	\$15.00	\$15.75
Lock Service – Lock Cost (per occurrence)	\$15.00	\$15.75
Lock Service – Per Month	\$10.00	\$10.50
Push/Pull Charges (per container month)	\$15.00	\$15.75
Extra Pickup Charge (of monthly rate per pickup + return trip charge)	25%	25%
Exchange Cart (per cart)	\$25.00	\$26.25
Exchange Bin (per occurrence)	\$75.00	\$78.75
Return Trip Charge Same day (per occurrence)	\$10.00	\$10.50
Return Trip Charge Off day (per occurrence)	\$25.00	\$26.25

Additional Commercial Service Rates	Effective 7/5/2019	Effective 7/1/2020
Roll-Off Return Charge (per occurrence)	\$30.00	\$31.50
Relocation Charge/Trip Charge(per event – includes roll-off return charge)	\$50.00	\$52.50

Roll-Off Commercial Open Top and Compactor Services*	Effective 7/5/2019	Effective 7/1/2020
Minimum charge per haul (base rate) without tonnage* All sizes	\$312.43	\$328.05
Roll-off 100% recycling bin	\$171.08	\$179.63

* Tonnage charges (tipping fees) vary by material type, and are determined by the Western Placer Waste Management Authority. With city department head approval, some entities may pay tonnage charges directly to Western Placer Waste Management Authority.

Temporary Frontloader, Rearloader and Roll-Off Charges*	Effective 7/5/2019	Effective 7/1/2020
Frontloader and rearloader temporary dumpster delivery and removal charge	\$62.38	\$65.50
Frontloader and rearloader temporary dumpster per yard charge (plus trip fee for extra pickups)	\$10.49	\$11.01
Frontloader and rearloader temporary dumpster rental fee per week	\$59.38	\$62.35
Roll-off temporary dumpster minimum charge per haul (base rate)	\$312.43	\$328.05
Tonnage (per ton charge)*		
Roll-off temporary dumpster rental fee per week	\$107.82	\$113.22
Roll-Off temporary 100% recycling bin	\$171.08	\$179.63

* Tonnage charges (tipping fees) vary by material type, and are determined by the Western Placer Waste Management Authority.

Additional Commercial Service Rates*	Effective 7/5/2019	Effective 7/1/2020
Standby service charge per occurrence (in 15 minute increments)	\$60.00	\$63.00
Solid Waste Minimum Charge	\$28.68	\$30.11
Emergency after hours call out service charge per occurrence	\$161.46	\$169.53
Fixed monthly minimum commercial charge	\$28.68	\$30.11
60- or 90-gallon automated container monthly charge	\$25.57	\$26.85
Commercial bin assistance charge per occurrence	\$45.17	\$47.43
Fixed fee for additional pick-up of a city owned 60- or 90-gallon automated container	\$16.72	\$17.55
Compactor cleaning	Minimum 2.5 hours labor cost	
Compactor lock replacement	0.5 hours of labor cost plus \$8.00 lock replacement	

* The amounts billed to commercial customers will vary with the types of service and the number of pickups in a billing period.

** Green waste containers available only in limited areas.

A. Shared Compactor Rates. Shared compactor rates are applicable to the City of Roseville downtown specific plan area. Exact rates are determined on a site-specific basis based on the following criteria:

	Cost per 1,000 square feet of building area or per dwelling unit	Cost per 1,000 square feet of building area or per dwelling unit	
	Effective 7/5/2019	Effective 7/1/2020	
Below are the square footage rates for shared compactors. If a customer's site-specific charge does not exceed the fixed minimum charge, they will be subject to the monthly fixed minimum charge.			

Monthly Minimum (Fixed)	\$28.68	\$30.11	
Tier 1: Cost per 1,000 square feet of building area or per dwelling unit	\$5.99	\$6.28	Tier 1 includes business types that are determined low use by the environmental utilities director. Typical examples of low use are retail and office establishments and small apartment units.
Tier 2: Cost per 1,000 square feet of building area	\$24.16	\$25.37	Tier 2 includes business types that are determined medium use by the environmental utilities director. Typical examples of medium use are relatively smaller establishments such as bars and grills, coffee shops and delis; selling or serving food but not considered a full-service restaurant.
Tier 3: Cost per 1,000 square feet of building area	\$51.04	\$53.59	Tier 3 includes business types that are determined high use by the environmental utilities director. A typical example of high use is full-service restaurants, restaurant/bakeries, and similar establishments. Full-service restaurants are defined as primarily dine-in establishments with established menus, and a minimum of two meals per day (e.g., lunch and dinner).

B. Shared Compactor Organic Tiers. Organics tiers are applicable to some shared compactor units depending on compactor tier and usage type. Exact rates are determined on a site-specific basis based on the following criteria:

Commercial Shared Compactor Organic Tiers	Effective 7/5/2019	Effective 7/1/2020
Tier 1	\$0.00	\$0.00
Tier 2	\$81.93	\$86.03
Tier 3	\$163.81	\$172.00

C. Rates for Commercial Organic Waste Collection. Effective July 5, 2019 and July 1, 2020, the commercial organic waste collection rates on billings shall be as follows:

Organic Waste Collection Rates	Minimum Monthly Charge (Effective 7/5/2019)	Minimum Monthly Charge (Effective 7/1/2020)
0-2 yards	\$81.93	\$86.03
0-4 yards	\$163.81	\$172.00
5 yards	\$204.77	\$215.01
6 yards	\$245.69	\$257.97
7 yards	\$286.77	\$301.10
8 yards	\$327.62	\$344.00
9 yards	\$368.53	\$386.96
10 yards	\$409.49	\$429.96
11 yards	\$450.57	\$473.09
12 yards	\$491.37	\$515.94
Extra pickup for one yard bin or cart equivalent	\$61.45	\$64.52
Extra pickup for two yard bin or cart equivalent	\$81.93	\$86.03

SECTION 2. Section 14.08.025 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.08.025 Water connection fees.

A. In order that appropriate provision be made for sharing the costs of the maintenance and expansion of the raw water supply, water treatment, storage, and distribution facilities of the city by those who receive the benefits thereof, there are established connection fees to such facilities, which fees shall be imposed in addition to the service connection costs charged pursuant to Section 14.08.020. Such additional water connection fees include a “standard connection fee” and an “irrigation connection fee.” The fees shall be set so that they are equal to, but not greater than, the cost of service.

B. The water connection fees shall be based upon the applicable “dwelling unit equivalent” (“DUE”) and density assignment. The fee for one DUE shall be \$9,363.00 (per LDR unit), \$5,618.00 (per MDR unit), \$3,636.00 (per HDR unit) and \$9,363.00 (per Non Residential unit) on July 1, 2018.

C. The connection fee amount set forth above shall be adjusted annually on July 1st of each year by three percent or by a percentage equal to the inflation rate for the prior year for construction costs as determined by the environmental utilities director in the preceding June, whichever is greater. The director’s determination of the percentage equal to the inflation rate for the prior year for construction costs shall be based upon the Engineering News Record, Construction Cost Index for the prior 12 months ending in May. The environmental utilities director shall report the amount of the adjustment in percentage terms and the dollar amount due per DUE to the city council annually at the first regular meeting of the council following the adjustment of the fee.

D. Except as otherwise provided, all water connection fees established by this chapter shall be payable upon issuance of a building permit. Connection fees will be determined using the amount in effect on the date of building permit issuance.

SECTION 3. Section 14.08.090 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.08.090 Service charges for metered service.

There shall be due and payable the following monthly charges, upon submission of the bill by the city to the owner of the property supplied with service, for all treated water measured by meters for residential, commercial, industrial and manufacturing or other purposes:

A. Monthly Quantity Rates. Effective July 5, 2019 and July 1, 2020, the monthly quantity rates on billings shall be as follows:

	Effective 7/5/2019	Effective 7/1/2020
Potable water usage (per 100 cubic feet)	\$1.30	\$1.34
Recycled water usage (per 100 cubic feet)	\$0.65	\$0.67

*

B. Monthly Service Charges. Effective July 5, 2019 and July 1, 2020, the monthly service charges on billings shall be as follows:

Meter Size (inches)	Peak Flow Rate (gallons per minute)	Effective 7/5/2019	Effective 7/1/2020
Up to 3/4	30	\$27.26	\$28.08
1	50	\$42.07	\$43.34
1-1/2	100	\$79.09	\$81.47
2	160	\$123.51	\$127.22
3	350	\$264.20	\$272.13
4	630	\$471.52	\$485.67
6	1300	\$967.61	\$996.64
8	2800	\$2,078.26	\$2,140.61
10	4200	\$3,114.89	\$3,208.31

C. The total amount due and payable shall be the sum of the monthly service charge plus the quantity rate. The monthly service charge is due and payable regardless of whether water has been consumed. The service charge shall be the greater of the charge based on the meter size or flow rate, with the following exceptions:

1. No service charge shall be made for fire service that has backflow prevention with detector check devices approved by the environmental utilities director.

2. No service charge shall be made for recycled water utility back-up systems that are required for reliability only and have backflow prevention and metering approved by the environmental utilities director. This exclusion does not extend to systems that are regularly required as part of normal operation. The recycled water operation shall be responsible for water volumetric charges for these services and any costs associated with meter maintenance.

D. For purposes of charging for treated water measured by meters:

1. A residential account is defined as a single metered water service which serves three or less dwelling units.

2. A nonresidential account is defined as a single metered water service which serves more than three dwelling units, or serves commercial, industrial, manufacturing, irrigation or other nonresidential land uses.

E. For single-family residential services that require automatic fire protection systems pursuant to Section 16.16.120, the increased meter size will not be assessed an additional charge associated with the fire protection system requirement. Service charges shall be based on the required service size as determined by the Uniform Plumbing Code without consideration for any fire protection system required by Section 16.16.120.

SECTION 4. Section 14.08.091 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby deleted in its entirety:

14.08.091 Service charge outside city water service area.

SECTION 5. Section 14.08.100 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.08.100 Flat water rates.

The following service charges shall apply to flat rate consumers that the environmental utilities director determines are not cost effective to assign metered rates. The environmental utilities director shall conduct a water use study for consumers whom he or she determines may not be reasonably metered, and the director shall assign such consumers to an appropriate service rate level as set forth in this section. Water service rates for flat rate residential consumers shall be due and payable on a monthly basis according to the appropriate grouping set out in this section.

Effective July 5, 2019, and July 1, 2020, the flat rates on billings shall be as follows:

Nonmetered or Flat Service Charges	Effective 7/5/2019	Effective 7/1/2020
Single-family lots under 4,900 square feet; each mobile home unit not within a park maintaining its own distribution system and service; each dwelling unit of duplexes, triplexes, fourplexes, unmetered apartments and other multiple living units; other detached living units; and offices and stores with less than peak use of 250 gallons per day	\$37.38	\$38.51
Single-family lots 4,901 to 8,900 square feet	\$42.13	\$43.40
Single-family lots 8,901 to 12,000 square feet	\$45.79	\$47.17
Single-family lots 12,001 to 15,000 square feet	\$49.36	\$50.85
Single-family lots existing before July 1, 1977, which are in excess of 15,000 square feet	\$54.36	\$58.16
Mobile home parks, per living unit	34.47	35.51
All those single-family lots over 15,000 square feet, created on or after July 1, 1977, shall be metered pursuant to Section 14.08.105		

SECTION 6. Section 14.16.060 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.16.060 Local sewer connection fee.

- A. A local sewer connection fee shall be charged in accordance with Section 14.16.010 for each connection to the city-owned public sewer.
- B. The local sewer connection fee shall be \$363.00 per sewer unit.
- C. The Construction Cost Index (CCI) inflationary fee adjustment shall become effective July 1, 2013. The fee established by this chapter shall be adjusted annually July 1st beginning on July 1, 2013 by a percentage equal to the adjustment rate for the prior year for construction costs as determined by the director in the preceding June. The director's determination shall be based upon averaging the Construction Cost Index (CCI) for 20 cities and for San Francisco, as published in the Engineering News Record publication for the preceding 12 months ending in May. The resultant fee shall be rounded to the nearest dollar figure.

SECTION 7. Section 14.16.080 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.16.080 Regional sewer connection fee.

A. A regional sewer connection fee shall be charged in accordance with Section 14.16.010 for each sewer unit connected to the city-owned public sewer.

B. The regional sewer connection fee shall be \$7,854.00.

C. The fee established by this chapter shall be adjusted annually on July 1st by a percentage equal to the adjustment rate for the prior year for construction costs as determined by the director in the preceding June. The director's determination shall be based upon averaging the Construction Cost Index (CCI) for 20 cities and for San Francisco, as published in the Engineering News Record publication for the preceding 12 months ending in May. The resultant fee shall be rounded to the nearest dollar figure.

SECTION 8. Section 14.16.200 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.16.200 Monthly unit sewer service charge established.

Except as otherwise provided in this chapter, a monthly unit sewer service charge shall be paid by each user connected to the city-owned public sewer. The monthly unit sewer service charge on billings shall be:

A. The monthly sewer charge shall be \$40.55 per sewer unit, effective on billings as of July 5, 2019, and \$42.18 per sewer unit, effective on billings as of July 1, 2020.

B. The monthly sewer service charges for those located outside of the city limits shall be 10 percent higher than the monthly sewer charges for those located inside city limits.

SECTION 9. Section 14.16.201 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.16.201 Sacramento Regional County Sanitation District monthly unit sewer service charge established.

Except as otherwise provided in this chapter, a monthly unit sewer service charge shall be paid by each user connected to the Sacramento Regional County District's sewer system and located within Roseville city limits. Effective July 5, 2019, the monthly sewer charge shall be \$40.55 per sewer unit. Effective July 1, 2020, the monthly sewer charge shall be \$42.18.

SECTION 10. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption or on July 5, 2019, whichever occurs later.

SECTION 11. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance

to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this 15th day of May, 2019, by the following vote on roll call:

Joint Powers Agreement

October 15, 1990

As Amended August 18, 1992

9169

JOINT POWERS AGREEMENT FOR THE FINANCING AND
CONSTRUCTION OF INTERCHANGES ON STATE HIGHWAY 65
CITY OF ROCKLIN CITY OF ROSEVILLE
COUNTY OF PLACER

This Agreement is entered into as of October 15, 1990 by and between the County of Placer, a political subdivision of the State ("County"), and the City of Rocklin and the City of Roseville, municipal corporations organized and existing under the laws of the State of California ("Cities").

RECITALS

1. The County and Cities have the common powers to acquire real property and, with the consent and cooperation of the California State Department of Transportation, to finance and construct freeway interchanges.

2. The County and Cities have determined that the public interest will be served by the joint exercise of these powers through this Agreement and the creation of a joint powers authority to plan for, finance, and construct four interchanges on State Highway 65 to serve their respective jurisdictions and spheres of influence.

AGREEMENT

3. Authority and Purpose.

This Agreement is made pursuant to Chapter 5 of Division 7 of the Title 1 of the California Government Code (commencing with section 6500) (the "Law") relative to the joint exercise of powers common to the County and Cities. The purpose of this Agreement is to provide for the planning, financing, and construction of four interchanges to State Highway 65 located in the jurisdictions of the County and Cities through the creation of a joint powers authority. The four interchanges and their approximate location are shown on Exhibit A attached to this Agreement and incorporated herein.

4. Creation of Authority and Jurisdiction.

There is hereby created the "Bizz Johnson" Highway Interchange Joint Powers Authority ("Authority") a public entity separate from the County and Cities, whose

FILED

NOV 5 1991

CITY OF ROSEVILLE
BY ma

jurisdiction is as shown and described in Exhibit B, attached hereto and by this reference incorporated herein.

5. Term and Termination.

This Agreement shall be effective as of that date first stated above. It shall remain in effect until the purpose stated in paragraph 3 is fully accomplished and all bonds or other instruments of indebtedness issued by the Authority, if any, have been paid, or until terminated by the unanimous agreement of the respective governing bodies of the County and Cities in accordance with the law.

6. Powers

The Authority shall have all powers necessary or reasonably convenient to carry out the purpose stated in paragraph 3, including but not limited to the following:

A. Administration:

- 1) to secure administrative office space and furnishings;
- 2) to contract for or employ administrative, technical, and support staff;
- 3) to acquire, operate, maintain, and dispose of materials, supplies, equipment and insurance of all types to effect or facilitate achievement of the Authority's purpose;
- 4) all powers incidental to the foregoing.

B. Interchange Construction:

- 1) To develop a plan or formula for determining the timing and sequence of construction of the four interchanges;
- 2) to contract for or employ staff to conduct studies and surveys; to prepare reports; to prepare plans, specifications, and other bid documents; to administer construction contracts; and to coordinate the construction projects with all affected governmental agencies;
- 3) to lease, acquire or dispose of real property by negotiation, dedication, or eminent domain;

4) to lease, acquire, operate, maintain and dispose of materials, supplies, and equipment of all types to effect the construction of the four interchanges;

5) to construct or cause to be constructed the four interchanges and all related or appurtenant structures;

6) all powers incidental to the foregoing.

C. Financing:

1) to accept, hold, invest (pursuant to section 6509.5 of the Law), manage, and expend monies for administrative purposes and for construction of the interchanges;

2) to levy fees and taxes, enter into lease-purchase agreements, and to issue bonds and incur other forms of indebtedness as provided in sections 6547.1, 6547.5, and 6547.6 of the Law to fund the construction of the interchanges and all related costs, including all administrative costs;

3) to form a special assessment district under the Improvement Act of 1911, the Municipal Improvement Act of 1913, the Improvement Bond Act of 1915, or any other authority that exists now or in the future;

4) to form a special tax district under the Mello-Ross Community Facilities District Act or any other authority that may exists now or in the future;

5) to negotiate and enter into reimbursement agreements when monies to construct one or more interchanges are advanced;

6) to develop and adopt an interchange construction financing plan that may include a mechanism for borrowing funds collected for one interchange to fund another;

7) all powers incidental to the foregoing.

7. Duties.

The Authority shall have the duty to do the following within the times specified or, if no time is specified, within a reasonable time:

A. to retain legal counsel for all Authority business, including litigation;

B. to secure liability and errors and omission insurance;

C. to develop and adopt, within 12 months of the date of this Agreement, a plan or formula for determining the timing and sequence of construction of the four interchanges, and an interchange construction financing plan. The plan or formula for determining the timing and sequence of construction shall provide that the Harding Boulevard interchange shall be the first to be constructed. The construction financing plan shall acknowledge the payment of any fees transferred to the Authority under paragraph 8.D.6) and any reimbursement obligations relating thereto, and shall incorporate the relevant terms and conditions of any agreement entered into by the County or either member City with a landowner under which funds were advanced for the construction of one or more of the four interchanges, or a waiver of protest rights was made.

8. Administration.

A. Governing Board -- Membership. The Authority shall be administered by a board of directors ("Board") consisting of three directors and three alternates. One director and one alternate shall be current members of the County's Board of Supervisors; one director and one alternate shall be current members of the Rocklin City Council; and one director and one alternate shall be current members of the Roseville City Council. Each director and each alternate shall be appointed by the Board of Supervisors or the City Council of which he or she is a member and shall serve at the pleasure of the appointing body. Alternates shall serve as directors in the absence of the director representing the same jurisdiction as the alternate.

B. Meetings.

1) Regular Meetings. The Board shall by resolution establish the number of regular

meetings to be held each year and the date, hour, and location at which such regular meetings shall be held; provided, however, that the resolution shall provide for at least one (1) regular meeting quarterly.

2) Special Meetings. Special meetings of the Board may be called in accordance with the provisions of section 54956 of the California Government Code.

3) Conduct of Meetings. All meetings of the Board shall be held in accordance with Chapter 9 of Part 1 of Division 2 of Title 5 of the California Government Code (commencing with 54950) (California Open Meeting Law).

4) Minutes. The Secretary of the Authority shall cause minutes of all meetings of the Board to be kept and shall, as soon as possible after each meeting, cause a copy of the minutes to be forwarded to each member of the Board and to the County and Cities.

5) Quorum. Two (2) directors of the Board shall constitute a quorum for the transaction of business, except that less than a quorum may adjourn from time to time. Except as provided in paragraph 9, actions of the Board shall require the affirmative vote of a majority of the entire Board.

C. Procedures.

1) The Board shall elect a Chair from among its membership to preside at meetings and shall select a Secretary who may, but need not, be a member of the Board.

2) The Board may adopt by resolution rules of procedure not inconsistent with the provisions of this Agreement to govern the conduct of its meetings.

3) Members of the Board of Directors shall comply with Title 9 of the California Government Code (commencing with 81000) (Political Reform Act of 1974).

D. Fiscal Matters.

1) Treasurer and Auditor.

a) Except as provided in b) below, the treasurer and auditor of County are designated the treasurer and auditor of the Authority with the powers, duties, and responsibilities specified in section 6505 and 6505.5 of the Law.

b) In lieu of the designations in a), above, the Board may appoint one or more of its employees to either or both of the positions of treasurer or auditor as provided in section 6505.6 of the Law. Such appointment shall supersede the designation made in a), above. The persons or persons appointed by the Board under this paragraph shall have the powers, duties and responsibilities specified in sections 6505 and 6505.5 of the Law.

2) Custodian of Property. The treasurer and auditor of the Authority shall be the public officers who have charge of, handle, and have access to the Authority's property and shall file with the Authority an official bond in the amount fixed by the County and Cities.

3) Accounts and Reports. The Board shall establish and maintain such funds and accounts as may be required by good accounting practice. The books and records of the Authority shall be open to inspection at all reasonable times to the County and Cities and their respective representatives. The Authority, within 120 days after the close of each fiscal year, shall give a complete written report of all financial activities for such fiscal year to the County and Cities. The accounts shall be prepared and maintained by the treasurer and auditor of the Authority. The written reports shall be prepared by an independent certified public accountant employed by the Authority.

4) Budgets. The Board shall adopt a budget no later than 90 days after the effective date of this Agreement and no later than June 30 of each year thereafter.

5) Contributions. Within 90 days of the effective date of this Agreement the County and Cities shall contribute to the Authority start-up funds in the amounts determined by the Board. The Board may request additional amounts to be contributed in the future from the County and the Cities which amounts shall be allocated proportionately among the County and Cities based on the traffic trip ends contained in the report entitled "Final Report Interagency Plan for the Financing of Highway 65 Interchange Improvements" dated July 1, 1988 and prepared by Ralph Andersen & Associates or based on another allocation method adopted by the Board. The Board may provide for the reimbursement of all funds contributed by the County and Cities under this Agreement from funds collected for the interchange construction projects.

6) Assignment and Transfer of Funds. Within 90 days of the effective date of this Agreement, the County and each member City shall assign or otherwise transfer to the Authority its rights and obligations relating to the financing and construction of one or more of the four interchanges in connection with the payment of any fee or under any agreement with a landowner under which funds were advanced for the construction of one or more of the four interchanges or a waiver of protest rights was made. The County and each member City shall, concurrent with the assignment or other method of transfer, transfer to the Authority any funds received from a landowner.

9. Voting.

Notwithstanding paragraph 8.B.5), the following actions require three votes of the Board, with each director or alternate voting in accordance with the direction given by his or her appointing body:

- A. To acquire real property by eminent domain;
- B. To levy a tax;
- C. To order formation of an assessment or special tax district;
- D. To authorize the sale of bonds;
- E. To award contracts in excess of \$1,000,000.00;

F. To approve the annual budget.

G. To make a financial commitment with a term of more than one year;

H. To establish limits of liability and errors and omissions insurance;

I. To adopt or amend the plan or formula for determining the timing and sequence of construction of the four interchanges, or to approve construction that is at variance with the approved plan or formula;

J. To determine the amount of the initial contributions of start-up funds, and to adopt or to amend the method of allocating contribution obligations under paragraph 8.D.5).

10. Exercise of Powers.

The powers and duties described in this Agreement shall be exercised and carried out subject only to such restrictions upon the manner of exercising such powers or carrying out such duties as are imposed upon the City of Roseville in the exercise of similar powers or in carrying out similar duties as provided in section 6509 of the law.

11. Debts and Liabilities.

The debts, liabilities and obligations of the Authority shall not constitute a debt, liability or responsibility of the County or the Cities, either jointly or individually.

12. Liberal Construction.

The provisions of the Agreement, and in particular the provisions of paragraphs 6, 7 and 8, shall be liberally construed as necessary or reasonably convenient to achieve the purposes of the Authority.

13. Disposition of Property.

Prior to termination under paragraph 5 the Authority shall dispose of all of its property in a manner determined by the Authority to be most beneficial to the parties hereto. The proceeds of such disposal and any other surplus money shall be distributed to the parties in the same proportion as their original contribution.

14. Severability.

Should any part, term, or provisions of this Agreement be decided by the courts to be illegal or in conflict with any law of the State of California, or otherwise be rendered unenforceable or ineffectual, the validity of the remaining portions or provisions shall not be affected thereby.

15. Successor and Assignment.

This agreement shall be binding upon and shall inure to the benefit of the successors of the parties. No party may assign any right or obligation hereunder without the consent of the others.

16. Amendments.

This Agreement may be amended only by the unanimous agreement of the County and Cities.

The parties have executed and attested this Agreement as of the date first above written.

Along State Highway 65.

FIRST AMENDMENT TO JOINT POWERS AGREEMENT
FOR THE FINANCING AND CONSTRUCTION OF
INTERCHANGES ON STATE HIGHWAY 65
 CITY OF ROCKLIN CITY OF ROSEVILLE
 COUNTY OF PLACER

This First Amendment to the Joint Powers Agreement for the Financing and Construction of Interchanges on State Highway 65 ("Joint Powers Agreement"), dated October 15, 1990, by and between the County of Placer, a political subdivision of the State ("County"), and the City of Rocklin and the City of Roseville, municipal corporations organized and existing under the laws in the State of California ("Cities"), is entered into as of August 18, 1992.

RECITALS

WHEREAS, County and Cities desire to amend the Joint Powers Agreement; and

WHEREAS, County and Cities have determined that the jurisdiction of the Joint Powers Authority should be larger than initially agreed by the County and Cities, the County and Cities desire to revise and amend the area of jurisdiction, to include all of the city limits of Roseville, and Rocklin and parts of Placer County shown and described on Exhibit B, to the original Joint Powers Agreement for the financing and construction of interchanges on State Highway 65.

WITNESSETH: NOW, THEREFORE, County and Cities do mutually agree as follows;

Section 1: Exhibit B to the Joint Powers Agreement for the Financing and Construction of Interchanges on State Highway 65, dated October 15, 1990, is hereby deleted in its entirety and substituted with a new Exhibit B, which is attached hereto and, by this reference, incorporated herein.

Section 2: All remaining provisions of the Joint Powers Agreement shall remain the same and in full force and effect.

IN WITNESSETH WHEREOF, the parties have entered into this agreement as of the date and year above provided.

COUNCIL COMMUNICATION

CC #: 3677

File #: 0300 & 0201-01

Title: America Rescue Plan Act - Budget Adjustment
Contact: Scott Pettingell 916-746-1306 spettingell@roseville.ca.us

Meeting Date: 12/18/2024

Item #: 8.3.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt an ordinance to approve adjustments to the fiscal year 2024-25 budget: 1) reducing American Rescue Plan Act (ARPA) funding allocated to projects by \$5,419,997; 2) offsetting \$5,419,997 in Police and Fire Department General Fund expenditures with an equivalent amount of ARPA funds; 3) re-establishing project budgets totaling \$5,360,924 in the General Fund, which includes the realignment of \$300,000 from the Weber Park Renovations project to the Campus Oaks Park project to address anticipated project overages; and 4) increasing the General Fund contingency budget by \$59,073 to address potential project overruns.

BACKGROUND

The City of Roseville received \$17.6 million in America Rescue Plan Act (ARPA) funds and, as of November 26, 2024, the City has \$5,419,997 in ARPA funding remaining unspent. The ARPA regulations require that all funds be obligated by December 31, 2024, and expended by December 31, 2026. Given the impending obligation deadline, the City will be unable to obligate all of the funds in time although all of the funding has been appropriated by the City Council to projects.

To address this, staff recommends reallocating the remaining unspent ARPA funds to cover eligible public safety personnel costs, specifically costs within the Police and Fire departments. This strategy aligns with ARPA guidelines, which permit the use of funds for government services (including public safety personnel costs) up to the amount of revenue lost due to the pandemic. While some of the remaining funding is obligated, this approach provides the City additional flexibility to fully utilize the ARPA funds if some of the obligated funds are not spent, e.g., if a project comes in under budget. It also allows for further flexibility in the unlikely event that any ARPA funds remain unspent after 2026.

By reallocating these funds, the City can free up General Fund resources to fully backfill the balances of all ARPA-funded projects, except for the Business Continuity Plan project. This project is anticipated to be completed under budget, resulting in a savings of \$59,073. Staff recommends transferring the savings from that project to the General Fund Contingency to

address potential overruns in other projects. The recommended budget adjustment also proposes transferring \$300,000 from the Weber Park Renovations project to the Campus Oaks Park project. This adjustment is recommended because Weber Park Renovation costs are projected to come in under budget, while Campus Oaks Park costs are exceeding the original budget due to the inclusion of a bike component, that was part of the master plan for this park.

FISCAL IMPACT

The recommended budget adjustment will not negatively impact the General Fund or ARPA funds, and will ensure that the City complies with applicable ARPA guidelines while providing extended time to obligate and expend the funds. It will not affect the budgets previously allocated for the projects or public safety funding. Surplus funding from the Business Continuity Plan project in the amount of \$59,073 will be added to the General Fund contingency and be available to address potential project overruns.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of the recommended adjustments to the FY2024-25 budget meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

ORDINANCE NO. 6892

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2024-25
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2024-25, is hereby amended as listed on the attached budget adjustment for the America Rescue Plan Act.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this
_____ day of _____, 2024, by the following vote on roll call:

Justification for Budget Adjustment:

The American Rescue Plan Act (ARPA) regulations require that all funds be obligated by December 31, 2024 and expended by December 31, 2026. As of December 2, 2024, the City has a remaining balance of \$5,419,997 in ARPA funds allocated across five projects. Given the impending obligation deadline, the City will be unable to obligate all of the funds in time. To address this, staff recommends reallocating the remaining ARPA funds in these projects to cover eligible public safety personnel costs within the Police and Fire departments. This strategy aligns with ARPA guidelines, which permit the use of funds for government services up to the amount of revenue lost due to the pandemic. While some of the funding is already obligated, this approach provides the City additional flexibility to fully utilize the ARPA funds if some of the obligated funds are not spent. It also allows for further flexibility in the unlikely event that any ARPA funds remain unspent after 2026. By reallocating these funds, the City can free up General Fund resources to fully backfill the balances of the ARPA-funded projects, except for the Business Continuity and Disaster Recovery Plan project. This project is anticipated to be completed under budget, resulting in a savings of \$59,073. Staff recommends transferring these funds to the General Fund Contingency to address potential overruns in other projects. The recommended budget adjustment also proposes transferring \$300,000 from the Weber Park Renovations project to the Campus Oaks Park project. This adjustment is recommended because Weber Park Renovation costs are projected to come in under budget, while Campus Oaks Park costs are exceeding the original budget due to the inclusion of a bike component, that was part of the master plan for this park.

Meeting Date: 12/18/2024
Item #: 9.1.

RECOMMENDATION TO COUNCIL

Recommend that the City Council:

Appoint five (5) individuals to the Board of Appeals to terms expiring December 31, 2028 from the applications received from: Jason Douglas, Brandi Kohlhorst, Robert Powell, Howard Rudd, Charles Sandoval, Louise Santiago, Andrea Seminer, and Sandeep Upamaka.

Appoint two (2) individuals to the Library Board to terms expiring December 31, 2026 from the applications received from: Jennifer Krupp, Nora Parella, Kayla Scott, and Vicki Whitlock.

Appoint four (4) individuals to the Parks & Recreation Commission to terms expiring December 31, 2026 from the applications received from: Nick Alexander, Charles Aquino, Khosrow Azad, Jason Blessinger, Matthew Click, Sandra Pollack-Cushing, Kevin Hernandez, Venu Mallesara, Nora Parella, Stephen Stromberg, Laxmi Rao, and Sandeep Upamaka.

Appoint three (3) individuals to the Personnel Board to terms expiring December 31, 2028 from the applications received from: Robert Brittany, Jason Douglas, Prabhakar Maramreddy, and Howard Rudd.

Appoint three (3) individuals to the Senior Commission to terms expiring December 31, 2026 from the applications received from: Kat Janisch, Marsha Keller, Brandi Kohlhorst, Laxmi Rao, and Hannah Wagner.

Appoint two (2) individuals to the Transportation Commission to terms expiring December 31, 2028 from the applications received from Keenan Finney, Jason Probst, Anthony Sabathia, and Stephen Stromberg.

BACKGROUND

Appointments to the Board of Appeals, Library Board, Parks & Recreation Commission,

Personnel Board, Senior Commission, and Transportation Commission are due to be made as part of the bi-annual recruitment process. Recruitment for all vacancies occurred in October 2024, video interviews of the applicants were conducted by the City Clerk Department, and the City Attorney's Office reviewed the Statements of Economic Interest (Form 700) for potential conflicts of interest. The applications, video interviews, and confidential attorney review are compiled and provided to the City Council for consideration.

FISCAL IMPACT

There is no fiscal impact.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The appointment of members to boards or commissions meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal B - Support community engagement and advocacy

Respectfully Submitted,

Katrina Six, City Clerk Technician

Carmen Avalos, City Clerk
