AMENDED
CITY COUNCIL AGENDA
6:00 p.m.
Council Chambers
311 Vernon Street
Roseville, CA
www.roseville.ca.us

THE CITY OF ROSEVILLE WELCOMES YOUR PARTICIPATION

If an agenda item is open to public comment, such public comment shall be addressed to the chair of the meeting.

Public Comment - Speakers have three minutes under Public Comment to speak on issues that are not listed on the agenda and are within the City's jurisdiction. The Brown Act does not permit any action or discussion on items not listed on the agenda.

Consent Calendar - If applicable, the Consent Calendar consists of routine items that may be approved by one motion. Any person can remove an item from the Consent Calendar to be discussed separately.

Agenda Items - Speakers have five minutes to address items that are listed on the agenda.

Levine Act Provisions - The Levine Act requires a Party (or its agent (s)) to a Proceeding before the City of Roseville that involves any action or consideration to their contract, license, permit, or other entitlement for use, to disclose any campaign contribution made to City elected or appointed officers (including Councilmembers, Planning Commissioners, and members of other City boards and commissions) totaling more than \$250 within the 12 months before the City decision.

Americans with Disabilities Act - Notify the City Clerk or Secretary at least 72 hours in advance if special assistance is required to participate in a meeting including the need of auxiliary aids or services.

Audio/Visual Presentations - If making a presentation regarding an agenda item, audio/visual materials must be submitted to the City Clerk or Secretary at least 72 hours in advance.

Security procedures are in place to attend Roseville City Council meetings. All attendees must successfully pass through a security metal detector. Any person with a prohibited item will not be allowed entry. Prohibited items include, but are not limited to: firearms (even with valid CCW),

knives, pepper spray/mace, explosives of any kind/ any weapons and/or dangerous devices of any kind, illegal drugs and alcohol.

Roseville City Clerk 311 Vernon Street, Roseville, CA 916-774-5200 TDD 916-774-5220

BEGINNING OF CONSENT CALENDAR

Bids / Purchases / Services

6.1. Landscape Bark and Playground Engineered Wood Fiber - Contract Purchase Agreement Amendment

Memo from Parks, Recreation & Libraries Manager Brian Castelluccio and Parks, Recreation & Libraries Director Jill Geller recommending the City Council adopt RESOLUTION NO. 24-390 APPROVING AN AMENDMENT #1 TO CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND APPLIED LANDSCAPE MATERIALS, INC. DBA NORCAL WHOLESALE BARK AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3003856). Staff requests Council approval to amend the contract purchase agreement with Applied Landscapes Materials, Inc. dba Norcal Wholesale Bark for the purchase and installation of bark mulch and engineered playground wood fiber. The total cost of the service is not to exceed \$850,000. Funding is included in the FY2024-25 Parks, Recreation & Libraries; Community Facilities Districts; and Lighting and Landscaping Districts budgets.

Resolutions

6.3. California Integrated Transit Project - User Agreement

Memo from Assistant Transportation Planner Zachary Presley and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 24-395 APPROVING A USER AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND KUBA, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve the Kuba user agreement for Roseville Transit's hardware procurement for the California Integrated Transit Project. This project will provide a consistent and contactless fare payment option across all transit agencies in the Sacramento/Placer area. Capital costs for this project have been assessed at \$123,649.89 and will be funded using Transit and Intercity Rail Capital Program funding that was secured in a grant submitted by the Sacramento Area Council of Governments. The initial three years of operating costs for this project have been assessed at \$59,535 and are being funded with Local Transportation Funds. There is no impact to the General Fund.

6.4. California-Oregon Transmission Project - Entitlement Transfer

Memo from Assistant Electric Utility Director William Forsythe and Electric Utility Director Dan Beans recommending the City Council adopt RESOLUTION NO. 24-396 APPROVING ACQUISITION AGREEMENTS FOR AN ENTITLEMENT TO CAPACITY ON THE CALIFORNIA-OREGON TRANSMISSION PROJECT AND ASSIGNMENT TO THE TRANSMISSION AGENCY OF NORTHERN CALIFORNIA, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THEM ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests approval of three agreements between the City and certain owners of entitlements on the California-Oregon Transmission Project (COTP). The result of executing these three agreements will be the City of Roseville will acquire an additional 1MW of transmission rights on the COTP and will assign this right to be managed with Roseville's existing 29MW right to the Transmission Agency of Northern California. The cost of acquiring an additional 1MW of transmission rights on the COTP is a one-time cost of \$150,000, which is included in the current FY2024-25 Electric Fund budget.

6.5. Western Area Power Administration – Network Integrated Transmission Service Amendment

Memo from Electric Resource Planner Brian Schinstock and Electric Utility

Director Dan Beans recommending the City Council adopt RESOLUTION NO. 24-394 APPROVING AMENDMENT 2 TO WESTERN AREA POWER ADMINISTRATION CONTRACT 14-SNR-01857, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approval to execute the second amendment to the Network Integrated Transmission Service with Western Area Power Administration which allows Roseville to import electricity into our service territory. This amendment updates Roseville's network behind the meter generation resources to reflect the recently acquired RPEAK units. There is no fiscal impact associated with this amendment.

6.6. Crimson Ridge Park Upgrade Project - Notice of Completion

Memo from Park Development Project Manager Kelly Appier and Parks, Recreation & Libraries Director Jill Geller recommending the City Council adopt RESOLUTION NO. 24-386 ACCEPTING THE PUBLIC WORK KNOWN AS CRIMSON RIDGE PARK UPGRADE PROJECT, APPROVING THE "NOTICE OF COMPLETION", AND AUTHORIZING THE PARKS, RECREATION AND LIBRARIES DIRECTOR TO EXECUTE SAID NOTICE ON BEHALF OF THE CITY OF ROSEVILLE. The Parks, Recreation & Libraries Department has made a final inspection of the Crimson Ridge Park Upgrade Project and has found that all contract work has been completed in accordance with the improvement plans and specifications. In accordance with City specifications, the contractor shall guarantee the installation of these improvements for a period of twelve (12) months from the date of this Notice of Completion. Funding of \$450,000 was allocated from the FY2022-23 General Fund year-end budget surplus. Maintenance costs are provided through the HP Campus Oaks Community Facilities District No. 2 (Public Services).

6.7. 2023 Power Source Disclosure Reports and 2023 Power Content Labels

Memo from Assistant Electric Analyst Matt Helgeson and Electric Utility Director Dan Beans recommending the City Council adopt RESOLUTION NO. 24-385 APPROVING THE 2023 ANNUAL POWER SOURCE DISCLOSURE REPORTS AND THE 2023 POWER CONTENT LABELS, AND ATTESTING TO THE VERACITY OF THE ANNUAL REPORTS. Staff requests Council approval of the 2023 Power Source Disclosure Reports and 2023 Power Content Labels are state mandated reports detailing Roseville Electric Utility's 2023 energy supply. There is no fiscal impact with the approval of the 2023 Power Source Disclosure Reports and 2023 Power Content Labels.

6.8. Pleasant Grove Pump Station Variable Frequency Drive Upgrade and Valve Automation Project - Notice of Completion

Memo from Assistant Engineer William Montz and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 24-387 ACCEPTING THE PUBLIC WORK KNOWN AS THE PLEASANT GROVE PUMP STATION VARIABLE FREQUENCY DRIVE UPGRADE AND VALVE AUTOMATION PROJECT, APPROVING THE "NOTICE OF COMPLETION", AND AUTHORIZING THE ENVIRONMENTAL UTILITIES DIRECTOR TO EXECUTE SAID NOTICE ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approval of the Notice of Completion for the Pleasant Grove Pump Station Variable Frequency Drive Upgrade and Valve Automation Project. The total cost of the construction contract including all change orders was \$573,334. The project was funded by the Water Rehabilitation Fund.

6.9. Northwest Roseville Specific Plan Parcel 27 - Workout and Settlement Agreement Amendment

Memo from Assistant City Attorney Joe Speaker and Development Services Director Mike Isom recommending the City Council adopt RESOLUTION NO. 24-397 AUTHORIZING THE EIGHTH AMENDMENT TO THE WORKOUT AND SETTLEMENT AGREEMENT REGARDING DELINQUENT SPECIAL TAXES AND SPECIAL ASSESSMENTS LEVIED UPON NWRSP PARCEL 27. Staff requests Council approval of the Eighth Amendment to the Workout and Settlement Agreement with CC Drive, LLC, regarding delinquent special taxes and special assessments levied upon Northwest Roseville Specific Plan Parcel 27. The original agreement was designed to cure the tax defaulted status of this parcel, which is located in the Northwest Roseville Community Facilities District No. 1. The purpose of the proposed eighth amendment is to provide the landowner with additional time to make a lump sum payment of back taxes owed on the property by extending the payment due date from December 10, 2024 to December 10, 2026. The agreement will delay payment of back taxes for Parcel 27A but will not negatively impact bond payments nor increase special taxes for other properties located within the same district. This agenda item has no General Fund impact.

Ordinances (for introduction and adoption - appropriation/urgency measures)

6.10. Community Development Block Grant Fund - Budget Adjustment

Memo from Housing Analyst Kristine Faelz and Economic Development

Director Melissa Anguiano recommending the City Council adopt ORDINANCE NO. 6886 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2024-25 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approval of a budget adjustment for the FY2024-25 Community Development Block Grant Fund to increase expenditures by \$195,480 and revenues by \$63,237 for awarded grant funding, unexpended entitlement funding, and estimated program income. This budget adjustment uses Community Development Block Grant funds and will not impact the City's General Fund.

6.11. Fiscal Year 2024-25 Budget Adjustments

Memo from Budget Manager Nancy Rothlisberger and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council adopt ORDINANCE NO. 6888 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2024-25 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff recommends Council approve budget adjustments to the FY2024-25 budget as follows: (1) increase the expenditure budget in the Citizens Benefit Fund by \$10,000 for REACH funds disbursed in July 2024, (2) correct a grant allocation by decreasing the state grants revenue budget in the Housing Successor Low/Mod Fund for the Permanent Local Housing Allocation Grant project, (3) transfer \$592,868 from the Affordable Housing in Lieu and Program Equity Fund to the Housing Trust Fund to facilitate the closure of the Affordable Housing in Lieu and Program Equity Fund, (4) increase the property tax revenue budget in the Successor Agency to the Former RDA Fund and use the revenue to make additional payments on outstanding loan obligations, and (5) align the budget with the revised funding plan for the Baseline Traffic Signals project and adjust the loan transfer to account for project costs in FY2023-24. The recommended budget adjustments have no fiscal impact on the General Fund.

6.13. Traffic Model Update - Professional Service Agreement and Budget Adjustment

Memo from Management Analyst Stacie Marchetti and Development Services Director Mike Isom recommending the City Council adopt RESOLUTION NO. 24-388 APPROVING A PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND FEHR & PEERS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt ORDINANCE NO. 6887 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2024-25 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approval of a Professional Services Agreement with Fehr & Peers for a comprehensive Traffic Model Update. The total cost of the service is \$495,000. The cost of this service is entirely funded by Traffic Mitigation Funds. Additionally, staff requests approval of a budget adjustment to allocate additional resources in the amount of \$250,000 to the existing City Traffic Model Update capital improvement project.

7. RESOLUTIONS

7.1. Creekview Community Facilities District No. 1 - Improvement Area No. 2 - Series 2024 Bond Issuance

Memo from Management Analyst Jeannine Thrash and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council adopt RESOLUTION NO. 24-391 A RESOLUTION AUTHORIZING THE ISSUANCE OF SPECIAL TAX BONDS FOR AND ON BEHALF OF IMPROVEMENT AREA NO. 2 OF THE CITY OF ROSEVILLE CREEKVIEW COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES), APPROVING AND DIRECTING THE EXECUTION OF A SUPPLEMENTAL AGREEMENT TO FISCAL AGENT AGREEMENT AND A BOND PURCHASE AGREEMENT, APPROVING THE FORM OF PRELIMINARY OFFICIAL STATEMENT, APPROVING SALE OF SUCH BONDS, AND APPROVING OTHER RELATED DOCUMENTS AND ACTIONS. Staff requests Council approval of certain items based on the developer's request to issue Series 2024 Bonds in order to (i) construct and/or acquire certain authorized public facilities, (ii) provide for a deposit to a debt service reserve account for the 2024 Bonds, and (iii) pay capitalized interest on the 2024 Bonds. This is the second series of bonds to be issued for Improvement Area No. 2. The Series 2024 Bond proceeds are not to exceed \$17,000,000. The Community Facilities District (CFD) will generate special taxes that will be paid by the property owners sufficient to pay the costs of the debt service, CFD administration, and any authorized pay-as-you-go facilities, as well as provide funding in the future for maintenance/replacement of constructed facilities. The issuance of these bonds will not impact the City's General Fund.

8. SPECIAL REQUESTS/REPORTS/PRESENTATION

8.1. Priority Legislation Signed or Vetoed by the Governor for 2024

Memo from Government Relations Administrator Mark Wolinski and Deputy City Manager Megan Scheid with an overview on priority bills that the Governor has signed or vetoed and that the Government Relations Team has tracked and advocated on during the legislative session. The bills focus primarily on priority

legislation that has implications for the following City departments or divisions: Police, Fire, Building, Housing, Planning, City Clerk, City Attorney, Public Works, Electric and Environmental Utilities. The costs of these activities are contained within the City's current budget.

CC #: 3634

File #: 0114

9. PUBLIC HEARING

NOTICE TO THE PUBLIC

City Council, when considering the matter scheduled for hearing, will take the following actions:

1. Open the Public Hearing
2. Presentation by Staff
3. Presentation by applicant or Appellant
4. Accept Public Testimony
5. Appellant or Applicant Rebuttal Period
6. Close the Public Hearing
7. City Council Comments and Questions
8. City Council Action

In the future, if you wish to challenge in court any of the matters on this agenda for which a public hearing is to be conducted, you may be limited to raising only those issues, which you, or someone else raised orally at the Public Hearing or in written correspondence received by the City on or before the hearing.

Public Hearings listed for continuance will be continued as noted and posting of this agenda serves as notice of continuation.

9.1. Tax and Equity Fiscal Responsibility Act Hearing - Crawford Project

Memo from Management Analyst Jeannine Thrash and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council adopt RESOLUTION NO. 24-392 APPROVING A PLAN OF FINANCE INCLUDING THE ISSUANCE OF REVENUE BONDS BY THE CALIFORNIA MUNICIPAL FINANCE AUTHORITY IN AN AGGREGATE OUTSTANDING PRINCIPAL AMOUNT NOT TO EXCEED \$75,000,000 TO FINANCE AND REFINANCE A QUALIFIED RESIDENTIAL RENTAL PROJECT FOR THE BENEFIT OF ROSEVILLE HARVEY 715, L.P., A CALIFORNIA LIMITED PARTNERSHIP (OR AN AFFILIATE), AND CERTAIN OTHER MATTERS RELATING THERETO. Staff requests that Council conducts a public hearing and adopts a resolution approving the issuance of the Bonds by the California Municipal Finance Authority ("CMFA") for the benefit of Roseville Harvey 715, L.P., a California limited partnership (the "Borrower"), or an affiliate, who has requested that the CMFA adopt a plan of financing providing for the issuance of multifamily housing revenue notes or bonds (the "Bonds") in one or more series at no time to exceed \$75,000,000 in outstanding aggregate principal amount, to finance the acquisition, construction, improvement and equipping of a 265-unit qualified residential rental

project, The Crawford, located at 1130 Harvey Way, Roseville. The Board of Directors of the California Foundation for Stronger Communities, a California non-profit public benefit corporation (the "Foundation"), acts as the Board of Directors for the CMFA. Through its conduit debt issuance activities, the CMFA shares a portion of the issuance fees it receives with its member communities and donates a portion of these issuance fees to the Foundation for the support of local charities. With respect to Roseville, it is expected that 25% of the issuance fee, or approximately \$20,700, will be granted by the CMFA to the General Fund of the City. Such grant may be used for any lawful purpose of the City.

9.2. Electric Backbone Mitigation Fee - Roseville Municipal Code Amendment

Memo from Electric Utility Financial Administrator Joanna Cucchi and Electric Utility Director Dan Beans recommending the City Council introduce for first reading an ORDINANCE AMENDING SECTIONS 4.54.010, 4.54.020, 4.54.040 AND 4.54.050 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ELECTRIC BACKBONE MITIGATION FEE. Staff requests Council approve amendments to the Roseville Municipal Code to adjust the Electric Backbone Mitigation Fee, as outlined in the nexus study. The proposed fee adjustments will result in approximately \$600,000 in additional revenue (\$82 increase for single-family unit and \$58 increase per multi-family unit) in connection and impact fees over the next 5 years. The proposed change aligns the revenues collected from developers with the costs of operating the utility to maintain financial strength and stability, consistent with City Council priorities.

File #: 0800-03

CONTACT: Joanna Cucchi 916-746-1609 jcucchi@roseville.ca.us

9.3. Downtown Specific Plan, Old Town Pizza - Economic Development Incentive Agreement

Memo from Economic Development Manager Wayne Wiley and Economic Development Director Melissa Anguiano recommending the City Council adopt RESOLUTION NO. 24-393 APPROVING A CITY OF ROSEVILLE ECONOMIC DEVELOPMENT INCENTIVE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND OLD TOWN ROSEVILLE PIZZA, LLC WHOLESALE CORPORATION, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve an Economic Development Incentive Agreement with Old Town Roseville Properties, LLC to offset remediation costs associated with the development of an Old Town Pizza restaurant at a previously City-owned site at 324 Vernon Street. A budget adjustment was approved in October of 2019 allocating \$275,000 from the Strategic Improvement Fund to the Vernon Street Sale Preparation capital improvement project to cover due diligence items and remediation costs associated with the sale of the property to Lennox Hill Interiors, LLC. To date,

there is a remaining balance of \$240,000 and the proposed \$100,000 incentive will come from the existing CIP. There will be no impact to the City's General Fund.

Title: Landscape Bark and Playground Engineered Wood Fiber - Contract Purchase Agreement Amendment
Contact: Brian Castelluccio 916-746-1755 bcastelluccio@roseville.ca.us

Meeting Date: 11/20/2024
Item #: 6.1.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute Amendment #1 to the Contract Purchase Agreement with Applied Landscapes Materials, Inc. dba Norcal Wholesale Bark for the purchase and installation of landscape bark mulch and engineered playground wood fiber materials. Additionally staff requests authority for the City Manager to execute the remaining renewal year without further City Council approval, provided that the applicable budget is approved by the City Council.

BACKGROUND

The City's Parks Division currently manages over 80 facilities with playgrounds and over 300 acres of landscaping. Engineered wood fiber is a primary safety component within playgrounds. Sustaining acceptable levels of this materials is required to provide a safe and enjoyable experience. Landscape bark mulch is used within landscape areas in our parks and streetscapes. Bark mulch assists in retaining soil moisture, decreasing water use, reducing weeds and enhancing community aesthetics.

Two years remain on the existing contract, based on the Request for Proposals (RFP-13-098) issued in April of 2021. In the FY2024-25 budget, Parks, Recreation, & Libraries was approved to implement a 4-year cycle for mulch bark replenishment in General Fund parks and streetscapes at an expense of \$250,000 annually. The Community Facilities Districts (CFD) and Landscaping and Lighting Districts (LLD) budgets also fund bark mulch replacement following this cycle. Implementation of this regular replenishment cycle results in an increase in the not-to-exceed contract amount to \$850,000 in FY2024-25 and \$900,000 in FY2025-26.

FISCAL IMPACT

The cost of the FY2024-25 year of the contract is not to exceed \$850,000. This funding is included in the Parks, Recreation & Libraries budget (\$400,000), and the Community Facilities Districts (CFD) and Lighting and Landscape Districts (LLD) budgets (\$450,000). The estimated

not-to-exceed cost for FY2025-26 is \$900,000.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of Amendment #1 to Contract Purchase Agreement for the installation of mulch bark and playground fiber meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community
Goal E - Deliver exceptional city services
Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Brian Castelluccio, Parks, Recreation & Libraries Manager

Jill Geller, Parks, Recreation & Libraries Director

Dominick Casey, City Manager

AMENDMENT #1
Contract purchase agreement 3003856, which was executed 7/1/2024, is hereby modified as follows:

The agreement amount is modified from \$450,000.00 to \$850,000.00. The purpose of this modification is to allow for additional purchase and installation of landscape bark and playground fiber materials.

All other provisions of the Agreement shall remain unchanged and in full force and effect.

Contact Patrick Daly in the Parks Department at (916) 774-5764 or email pdaly@roseville.ca.us for questions regarding this contract.

*The total amount listed is an approximation only. The City does not guarantee whatsoever the actual value of this contract.

COUNCIL COMMUNICATION

CC #: 3647
File #: 0203-09

Title: Five Star Intertie Improvement Project - Approval of Plans and Specifications and Authorization to Call for Bids
Contact: William "Bill" Montz 916-774-5545 wlmontz@roseville.ca.us

Meeting Date: 11/20/2024
Item #: 6.2.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council:

1. Approve the construction plans and specifications for the Five Star Intertie Improvement Project (Project); and
2. Authorize staff to advertise the Project and accept bids from Contractors.

BACKGROUND

As part of the PCWA-Roseville Conveyance Project with Placer County Water Agency (Agency), necessary improvements were identified at the Five Star Intertie between City and Agency water distribution systems.

Constructed in 1995, the Five Star Intertie is a manually operated intertie between the City and the Agency located at the intersection of Five Star Boulevard and Stanford Ranch Road.

To increase water supply resiliency and improve operational functionality, the City and Agency desire to energize and automate the Intertie, which includes the replacement of the flow measurement instrument for automation compatibility. With improvements complete, the Intertie shall be capable of remote monitoring and operation via the Agency's Supervisory Control and Data Acquisition (SCADA) system and remote monitoring through the City's SCADA system. The communication link between the Intertie and the City's SCADA system is desired to be through a fiber pathway, whereas the communication link between the Intertie and Agency's SCADA system is desired to be via cellular wireless technology.

To energize the Intertie, a new transformer shall be designed, obtained, and installed (provided by Roseville Electric) as well as a metered pedestal to meter power to the Intertie. In addition, a power distribution panelboard is required to provide power from the transformer to the Intertie. Two Programmable Logic Controller panels are required to communicate the signals from the Intertie to the City and Agency SCADA systems.

FISCAL IMPACT

The total cost for the construction project is estimated to be \$800,000. Funding is provided by the Water Construction Fund, which is funded by water connection fees paid for by developers.

ENVIRONMENTAL REVIEW

This project qualifies for a Class 1 Exemption as described in Section 15301 of the California Environmental Quality Act (CEQA) guidelines. The project involves modification of existing facilities to increase water distribution system operational flexibility. The improvements do not result in expansion of use. No sensitive resources are present on the project site. Therefore, the Class 1 Exemption is applicable to the proposed project.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F – Invest in well-planned infrastructure and growth.

Respectfully Submitted,

William Montz, Assistant Engineer

Richard Plecker, Environmental Utilities Director

Dominick Casey, City Manager

CITY OF ROSEVILLE
DEPARTMENT OF ENVIRONMENTAL UTILITIES
FIVE STAR INTERTIE IMPROVEMENT PROJECT

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN THAT sealed Proposals will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until December 19, 2024 at 3:00 p.m. Late Proposals will be rejected. No exceptions.

The Proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville at 3:05 p.m. on December 19, 2024 at the Office of the City Clerk located at 311 Vernon Street, Roseville California for the following project: Five Star Intertie Improvement Project.

An optional pre-bid meeting will be held at 2005 Hilltop Circle Roseville, CA 95747 at 10am on Thursday, December 5, 2024.

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained on-line from the City of Roseville's website at www.roseville.ca.us/business/procurement_services/bids_rfps or directly at www.publicpurchase.com. All communications relative to this project shall be conducted through Public Purchase.

Bids shall be submitted on the City's Proposal Forms included in the Project Manual, plainly endorsed with the Bidder's name together with signed acknowledgement of any and all addenda. Proposal Forms shall be securely sealed in a suitable envelope marked with the name and address of the Bidder, and marked in capital letters on the front and back of the envelope as follows:

RFQ # 08-117
Five Star Intertie Improvement Project

(Name of Bidder)
(Address of Bidder)

Whether mailed or personally delivered, all bids shall be addressed to the City of Roseville, Office of the City Clerk, 311 Vernon Street, Roseville, California, 95678.

Each bid must be accompanied by a Bid Guaranty in the form of a Certificate of Deposit, Certified or Cashier's Check, Bidder's Bond or Irrevocable Standby Letter of Credit in an amount equal to at least ten percent (10%) of the Bidder's Grand Total Price. The Bid Guaranty will be retained by the City and applied to any and all damages sustained by the City in the event that the successful Bidder fails or refuses to enter into the Contract awarded to it and to furnish all required bonds and Certificates of Insurance. The City intends to award the Contract to the lowest responsible Bidder based on the Grand Total Bid Price for all components of the Project. To the extent allowed by law, the City reserves the right to reject any and all bids and/or to waive any irregularities or informalities in any bid or in the bidding procedure. The City specifically reserves the right to not award the Contract after the opening of bids.

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the City Clerk. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid by the submission deadline. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for

submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and the City is under no obligation to return bids.

Bids will be examined and reported to the City Council within sixty (60) business days after the bid opening. Except as permitted by applicable law, no Bidder may withdraw its bid for a period of sixty (60) business days after the date of bid opening. Each Bidder will be notified of any award of the Contract by the City.

The City will affirmatively ensure non-discrimination on the basis of one or more of the following: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, age, sexual orientation, or military and veteran status in the award and administration of contracts that it awards.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the City withholding retention of payments during the Project.

The Contractor shall possess any license classification required by the laws of the California for the performance of the work specified in the Contract Documents. Said license shall be maintained during the Contract period. Failure to possess the specified license shall render the bid nonresponsive and will act as a bar to the award of the Contract to any Bidder not possessing such a license at the time of bid submittal. The Contractor shall provide certification of the license, its number and the expiration date on the proposal form.

The work is to be done in Placer County. Pursuant to California Labor Code Section 1773, the City has ascertained the General Prevailing Rate of Wages in the County in which the work is to be done to be as determined by the Director of Industrial Relations of the State of California. The Contractor is hereby made aware that information regarding prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following

website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>. The Contractor is required to post a copy of the applicable wage rates at the job site. Attention is directed to Section 5 “Legal Relations and Responsibility” of the General Conditions.

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5 or exempt from registration requirements pursuant to Labor Code Section 1725.5(f). It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform work pursuant to Labor Code Section 1725.5 at the time the contract is awarded or is exempt from registration requirements pursuant to Labor Code Section 1725.5(f). The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

Vehicles with a GVWR greater than 8,500 lbs. and light – duty package delivery vehicles operated in California may be subject to the California Air Resources Board Advanced Clean Fleets regulations. Such vehicles may therefore be subject to requirements to reduce emissions and air pollutants. For more information, please visit the CARB Advanced Clean Fleets webpage at <https://ww2.arb.ca.gov/our-work/programs/advanced-clean-fleets>. In addition, certain off-road diesel vehicles may be subject to the CARB In-Use Off-Road Diesel-Fueled Fleets Regulation. For more information, please visit the CARB In-Use Off-Road Diesel-Fueled Fleets Regulation

webpage at <https://ww2.arb.ca.gov/our-work/programs/use-road-diesel-fueledfleets-regulation>.

All questions prior to the deadline for bid submissions must be submitted via the Public Purchase website at <https://www.publicpurchase.com>. The deadline for submissions of questions and clarifications regarding the Contract Documents is ten (10) calendar days before the deadline for bid submissions. Only Addenda issued by the City are binding.

City Clerk, City of Roseville

INSTRUCTIONS TO BIDDERS

SECTION 1. GENERAL

1-1.01 **GENERAL.** These Instructions to Bidders form a part of the Contract Documents. Capitalized terms are defined in the General Conditions Section 1.

1-1.02 **EXAMINATION OF PLANS, CONTRACT DOCUMENTS AND SITE OF THE WORK.** The Bidder shall examine carefully the site of the Work and all the Contract Documents, including these Instructions to Bidders, and shall inform itself of the conditions relating to the execution of the Work. Failure to do so will not relieve the successful Bidder of its obligation to enter into an Agreement and complete the Work in strict accordance with the Contract Documents. Conditions relating to the execution of the Work include the requirements of federal, state, and local laws, statutes and ordinances relative to the execution of Work, including, but not limited to, applicable regulations concerning prevailing wage rates, non-discrimination in the employment of labor, protection of the public, employee health and safety, and environmental protection.

The submission of a bid shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and scope of Work to be performed, the quantities of materials to be furnished, and as to the requirements of all the Contract Documents.

1-1.03 **EXISTING INFORMATION.** Where the Department has made investigations of site conditions, including subsurface conditions in areas where Work is to be performed under the Contract, such investigations are made only for the purpose of study and design. City does not represent that such conditions as found in these investigations or inferences or conclusions drawn as a result of these investigations will represent actual site

conditions and hereby disclaims any liability as a result of Contractor's or Bidder's reliance on such investigations. City will presume that all Bidders have conducted their own site investigations and reviewed all available supplemental materials. Where such investigations have been made, Bidders or Contractors may, upon written request, inspect the records of the Department as to such investigations subject to the conditions set forth in these Instructions to Bidders. Such inspection of records, if they exist, have been uploaded to the Public Purchase website for this RFP as "supplemental materials". The supplemental materials are not a part of the Contract Documents and are shown solely for the convenience of the Bidder or Contractor. The City assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the investigations made, the records thereof, or of the interpretations set forth therein or made by the City in its use thereof. The City makes no warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records are representative of those existing throughout such areas, or any part thereof, or that unforeseen developments may not occur, or that materials other than, or in proportions different from those indicated, may not be encountered.

No information derived from such inspection of records of investigations or compilation thereof made by the City, the Department or from the Engineer, or his or her assistants, will in any way relieve the Bidder or Contractor from properly examining the site and making such additional investigations as it may elect, or from properly fulfilling the terms of the Contract.

SECTION 2: BID REQUIREMENTS

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder standard Proposal Forms (included in this document under section PROP), which, when filled out and executed may be submitted as the bid. Proposals shall include all pages in the Project Manual with page numbers marked “PROP” plus the Addendum acknowledgment form (front sheet) from all Addenda received by the Bidder. Proposals shall be removed from the Project Manual. The full Project Manual shall not be submitted with the proposal. Bids not presented on forms so furnished will be disregarded.

The Proposal and one (1) copy thereof shall be submitted as directed in the “Notice to Contractors” under sealed cover plainly marked as a Proposal, and identifying the project to which the Proposal relates and the date of the bid opening therefor. Proposals which are not properly marked may be disregarded.

All blank spaces in the Proposal must be completed, as required, in ink. All price information shall be shown, clearly legible, in figures where required.

The Bidder shall sign the Proposal in the blank space provided therefor. If the Bidder is the sole owner, the Proposal shall be signed by the owner. If the Bidder is a corporation, the legal name of the corporation and its State of incorporation shall be set forth and the Proposal shall be signed by at least two officers authorized to sign contracts on behalf of the corporation. If the Bidder is a partnership, the true name of the firm shall be set forth, the names and addresses of all partners shall be given and the Proposal shall be signed by a partner in the firm authorized to sign contracts on behalf of the partnership. If the Bidder is a joint venture, the Proposal shall be signed on behalf of each participating company by officers or other individuals who have the full and proper authorization to do so. If the Proposal is signed by an agent of the

Bidder other than an officer of a corporation or a member of a partnership, a notarized Power of Attorney must be on file with the City prior to opening of bids or must be submitted with the Proposal. If requested by the City, the Bidder shall promptly submit evidence satisfactory to the City of the authority of the person signing the Proposal.

2-1.02 **SUBMISSION OF BIDS.** Bids must be submitted at the prescribed time and location specified in the Notice to Contractors. Any submission received after the prescribed time shall be rejected, regardless of whether or not bids are opened exactly at the prescribed time.

Any unauthorized conditions or qualifications entered on, or changes made to, the Proposal may render it invalid and may cause its rejection.

No telegraphic, telephonic, or facsimile or other electronically transmitted bids will be considered.

2-1.03 **REQUIRED LISTING OF PROPOSED SUBCONTRACTORS.** Each Proposal shall list the name, address and Contractor license number of each Subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (0.5%) of its total bid, in accordance with Section 4100 to 4114, inclusive, of the Public Contract Code for the State of California. The Bidder shall list the Subcontractor's license number and the portion of the Work that will be done by each Subcontractor. If the Bidder fails to specify a Subcontractor for any portion of the Work, the Bidder agrees to perform that portion of the Work itself and represents that it is qualified to perform that portion of the Work itself. The Bidder's attention is invited to other provisions of the Public Contract Code related to the imposition of penalties for a failure to observe its provisions by using unauthorized Subcontractors or by making unauthorized substitutions.

2-1.04 **CONTRACTOR’S LICENSING LAWS.** Attention is directed to the provisions of Business and Professions Code Chapter 9 of Division 3 concerning the licensing of Contractors.

All Bidders at the time of bid submittal shall be licensed as Contractors in accordance with the laws of this State. Any Bidder or Contractor not so licensed is subject to the penalties imposed by such laws. The form of Contractor's license required is stated in the Notice to Contractors, provided that the City makes no representation as to whether the State may require other or additional licenses. It is the Bidder's and Contractor's responsibility to obtain the correct Contractor's licenses. Bidders shall be skilled and regularly engaged in the general class or type of Work called for under this Contract.

All Bidders and Contractors, including Subcontractors, shall have a current City business license before undertaking any Work.

2-1.05 **NONCOLLUSION DECLARATION.** By submitting a bid, the Bidder represents and warrants that such bid is genuine and not a sham or collusive or made in the interest or on the behalf of any person therein named, and that the Bidder has not, directly or indirectly, included or solicited any other Bidder to put in a sham bid, or any other person, firm, or corporation to refrain from bidding, and that the Bidder has not in any manner sought collusion to secure the Bidder an advantage over any other Bidder.

Bidders shall submit a properly completed and executed “Noncollusion Declaration” in the form required by Public Contract Code Section 7106 and provided with the Proposal (PROP-11).

2-1.06 **DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any

employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local project because of a violation of law or a safety regulation.

2-1.07 **PROPOSAL GUARANTY.** All bids shall be accompanied by one of the following forms of Bidder's security: Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City of Roseville, or any other form of security deemed acceptable by the City Attorney. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid will not be considered unless one of the form of Bidder's security is enclosed with it.

A Bidder's bond shall conform to the City's bond form in the Proposal and shall be properly filled out and executed.

2-1.08 **SCHEDULE OF BID PRICES.** Bidders are directed to submit unit and lump sum prices for all Work set forth in the Contract Documents on the Proposal Form entitled "Schedule of Bid Prices."

Unit prices and lump sum prices, as indicated, must be entered in the appropriate spaces provided in the Schedule of Bid Prices. If applicable, unit prices shall be multiplied by the quantities shown, and the total shall be inserted in the Amount column. In the event of any error or discrepancy between the unit price and the calculated amount, the unit prices shall govern. The City may correct any mathematical errors apparent on the face of the bid.

The amounts shown in the Amount column must be added together in arriving at the Grand Total Bid Price.

Amounts for Allowance bid items must be entered in the exact amount in the Amount column.

The prices included within the Schedule of Bid Prices shall include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and all other costs necessary to perform the Work in accordance with the Contract Documents.

The Grand Total Bid Price shall be indicated in the Summary table form included with the Schedule of Bid Prices. The Grand Total Bid Price shall be the sum of the amounts bid for each of the designated portions of the Work, as more specifically described on the Schedule of Bid Prices form itself.

Full compensation for complying with the Contract Documents, including requirements of the Standard Specifications, the General Conditions, Supplemental Conditions, and all warranties, shall be considered included in the bid items and no additional compensation shall be allowed therefor.

Full compensation for completion of all work as shown on the plans, as specified in the Specifications, and as directed by the City, shall be considered included in the bid items and no additional compensation shall be allowed.

Bidders are strongly discouraged from submitting unbalanced bids. As used herein, the term “unbalanced bid” is defined as any bid that does not include a reasonable proportionate allocation of indirect costs and profit of each bid item indicated in the Schedule of Bid Prices. The City reserves the right to reject any unbalanced bid if the City determines that there is a reasonable doubt that an acceptance of the bid will not result in the lowest ultimate cost to the City with regard to the work or a disproportionate distribution of contract funds.

The City reserves the right to delete any bid item in its entirety and/or significantly reduce the quantity of Work under a bid item. The City makes no representation that any Work

under a bid item will be performed during the course of the Project or that the Work will be performed at the quantities included in the Schedule of Bid Prices. As provided in the General Conditions, for any deleted Work, Contractor shall not be entitled to payment of the indirect costs and profit included for said bid item. All bid items shall be considered distinct and severable from the remaining bid items, and each Bidder acts at its peril if its bid is unbalanced.

The City shall compare bids on the basis of the Grand Total Bid Price, which includes the base bid and any alternates designated on the Schedule of Bid Prices. Alternates may or may not be awarded, or may be awarded in any combination, at the City's discretion.

2-1.09 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the Notice to Contractors for the opening of bids, provided that a request in writing, executed by the Bidder or its duly authorized representative, for the withdrawal of such bid is filed with the City Clerk. Facsimile and electronic mail requests are not acceptable. The withdrawal of a bid shall not prejudice the right of a Bidder to file a new bid. The withdrawal of any bid after the time fixed in the Notice to Contractors for the opening of bids will not be permitted.

2-1.10 **ADDENDUM.** Proposals shall include all costs and account for all Addenda issued prior to opening of bids. The Bidder is responsible for verifying that all issued Addenda have been received. An Addendum acknowledgment form for each Addendum shall be included as part of the Proposal submittal.

2-1.11 **PUBLIC OPENING OF PROPOSALS.** Proposals will be publicly opened and read at the time and place indicated in the Notice to Contractors. Bidders or their authorized agents are invited to be present.

2-1.12 **TRENCHING AND EXCAVATION WORK.** In accordance with the

provisions of California Labor Code Section 6707, if the Work involves construction of a pipeline, sewer, sewage disposal system, boring or jacking pits, or similar trenches or open excavations, which are five feet (5') or deeper, each bid submitted shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to all applicable safety orders.

SECTION 3: EVALUATION OF BIDS

3-1.01 **BID EVALUATION PROCESS.** Bids will be evaluated to determine the apparent low Bidder. The apparent low Bidder will be determined on the basis of the Grand Total Bid Price, as shown in the Schedule of Bid Prices. If additive or deductive alternates are used in the Schedule of Bid Prices, the apparent low Bidder will be the Bidder with the lowest total of the bid prices for base contract items plus the alternates designated by the City as those that will be used for determining the lowest bid price. However, the City reserves the right to (1) not award any alternates or (2) award any combination of alternates.

In case of discrepancy between the total of the base contract items and any specified alternates and the stated Grand Total Bid Price, the total of the base contract items plus specified alternates shall prevail. Any mathematical errors that appear on the face of the bid will be corrected by the City and the City will use the mathematically corrected addition. For example, if the mathematical total of Bidder's base contract items plus specified alternates equals \$1,000,000, but the Bidder has written \$1,250,000 as the Grand Total Bid Price, the City will consider \$1,000,000 to be the Bidder's Grand Total Bid Price for purposes of comparison to other Bidders and actual bid award. The City reserves its rights to reject or accept bids based on discrepancies between the stated Grand Total Bid Price and the actual mathematical total of the

base contract bid items, plus specified alternates.

3-1.02 **REJECTION OF IRREGULAR PROPOSALS.** Proposals may be rejected in the City's sole discretion if they show any alterations of form, additions not called for, conditional bids, incomplete bids, erasures, or irregularities of any kind. However, the City reserves the right to waive any minor irregularities and informalities in any bid or in the bid procedure for any reason.

3-1.03 **COMPETITIVE BIDDING.** If more than one proposal is offered by any individual, firm, partnership, corporation, association, or any combination thereof, under the same or different names, all such proposals may be rejected. A party who has quoted prices on materials or Work to a Bidder is not thereby disqualified from quoting prices to other Bidders, or from submitting a bid directly for the materials or Work.

All Bidders are put on notice that any collusive agreement to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the City Charter, State Contract Act and the Business and Professions Code and may render void any Contract let under such circumstances.

3-1.04 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in its bid, the Bidder shall give the Department written notice within five (5) Days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid

rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

SECTION 4: AWARD AND EXECUTION OF CONTRACT

4-1.01 **AWARD OF CONTRACT.** The City reserves the right to reject any and all proposals and to award (or not award) any combination of bid items at its option. Any such award will be to the lowest responsible Bidder whose proposal complies with the requirements prescribed for the bid items awarded. Such award, if made, will be made within sixty (60) business days after the opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred four (104) business days after the opening of the proposals. The above time periods within which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

4-1.02 **RETURN OF BIDDER'S SECURITIES.** Within ten (10) Days after the award of the Contract, the City Clerk will return all Bidders' securities, other than Bidders' bonds, accompanying the proposals that are not to be further considered in making the award. Retained Bidders' securities will be held until the Contract has been fully executed, after which all Bidders' securities, except Bidders' bonds and any Bidders' securities that have been forfeited,

will be returned.

4-1.03 **CONTRACT BONDS.** The successful Bidder shall furnish two (2) bonds in the form contained in the section entitled Insurance Broker Information Packet and Bonds. One (1) bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the Work under the Contract, and the other bond shall guarantee the faithful performance of the Contract.

Each of the two (2) bonds shall be in a sum equal to one hundred percent (100%) of the Contract Price. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly. Sureties on each of said bonds shall be satisfactory to the City.

All alterations, extensions of time, extra and additional Work, and other changes authorized by the Standard Specifications, the General Conditions, the Supplemental Conditions or any part of the Contract may be made without securing the consent of the surety or sureties on the Contract bonds.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

4-1.04 **INSURANCE.** At the time of the execution of the Contract, the Contractor shall, at its own expense, procure, and at all times during the prosecution of the Work maintain in full force and effect Worker's Compensation Insurance, and Liability Insurance as specified in the General Conditions. The Contractor shall provide a Certificate of Insurance in the form contained in the section entitled Insurance Broker Information Packet.

4-1.05 **EXECUTION OF CONTRACT.** The Contract shall be signed by the successful Bidder and returned, together with all the required Contract bonds and insurance

certificates, within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City.

If the Bidder is an individual, the Contract shall be executed personally by the Bidder. If the Bidder is a partnership, it is desirable that the Contract be executed by all of the partners, but it may be executed by one of them. If the Bidder is a corporation, it must be executed by two officers of the corporation consisting of (1) the chairman of the board, president or vice president; and (2) the secretary, assistant secretary, chief financial officer, treasurer or assistant treasurer, or by a person authorized by the corporation to execute written contracts on its behalf, and the corporate seal affixed thereto. In the alternative, a person other than an officer may sign the Contract, provided evidence satisfactory to the City is provided indicating the individual's authority to bind the corporation. If the corporate seal is not affixed to the Contract, or if it is executed by a person other than officers, or only by one officer, there must be attached to the Contract a certified copy of a resolution of the corporation authorizing such officer or person to execute written contracts for and on behalf of the corporation. If the Bidder is a joint venture, the Contract must be executed on behalf of each participating firm by officers or other individuals who have the full and proper authorization to do so.

4-1.06 **FAILURE TO EXECUTE CONTRACT.** Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds and insurance as provided within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City, shall be just cause for annulment of the award and forfeiture of the Bidder's security. The successful Bidder may file with the City Clerk a written notice, signed by the Bidder or Bidder's authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to

Bidder. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds within the time prescribed.

SECTION 5: BID PROTEST PROCEDURES

5-1.01 **POLICY/PROCEDURES.** It is the policy of the City to consider fully and adjudicate promptly protests filed by prospective Bidders relating to the City's bidding procedure or award of the Contract. Protests shall be filed and processed in accordance with Section 4.12.150 of the Roseville Municipal Code. A Bidder's failure to follow the bid protest procedures may result in rejection of the protest by the City.

Contractor's License No. _____

License Expiration Date _____

License Classification Type _____

DIR Registration No. _____

Type of business organization: _____

*If a Corporation, incorporated under the laws of the State of: _____

City of Roseville Business License No. _____

The undersigned Bidder herewith submits this Proposal and binds itself on award by the City of Roseville under this bid to execute a Contract in accordance with its bid and the Contract Documents.

The Notice to Contractors, Instructions to Bidders, Form of Agreement, Specifications, General Conditions, Supplemental Conditions, Contract Drawings, and Addenda, if any, are made part of this bid and all provisions thereof are hereby accepted, and all representations and warranties are required thereby are hereby affirmed.

The work to be done is described in the Bidding Documents entitled Five Star Intertie Improvement Project, City of Roseville, California. This offer shall be irrevocable for a period of sixty (60) Days after the date on which bids are opened.

The undersigned Bidder understands that any clarification made to the above or any new and different conditions or information submitted on or with its Proposal, other than that requested, may render the bid non-responsive.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that the Bidder has carefully examined the location of the proposed Work, the attached Form of Agreement, and the plans, Specifications, and other Contract Documents; and agrees if this Proposal is accepted, that it will contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the Contract Documents, in the manner and time therein prescribed, and according to the requirements of the Director, as therein set forth, and that the Bidder will take in full payment therefore prices indicated in the Schedule of Bid Items, including all work modified by addendum numbers _____. (IF NONE, STATE NONE).

Bids are required for all Bid Items. The amount of the Bid for comparison purposes will

be the total of all items awarded.

The Bidder shall set forth for each item of work, in clearly legible figures, an item (“unit”) price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

The prices included within the Schedule of Bid Items include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and for all other costs necessary to perform the Work in accordance with the Contract Documents.

Accompanying this Proposal is _____.

(Notice: Insert the words “Cash \$_____,” “Cashier's Check,” “Certified Check,” or “Bidder's Bond,” as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

BIDDER'S BOND

City Council of the City of Roseville

KNOW ALL MEN BY THESE PRESENTS:

That we _____
_____, as PRINCIPAL, and

a, _____ and duly authorized to transact business
under the laws of the State of California, as SURETY, are held and firmly bound unto the City of
Roseville in the penal sum of _____ dollars
(\$ _____), being at least TEN PERCENT (10%) OF THE TOTAL AMOUNT OF
THE BID of the Principal above named, submitted by said Principal to the City of Roseville,
acting by and through the Public Works Director, for the work described below, for the payment
of which sum in lawful money of the United States, well and truly to be made, to the Director of
the Department to which said Bid was submitted, we bind ourselves, our heirs, executors,
administrators and successors, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH,

That whereas the Principal has submitted the above-mentioned Bid to the City Council of
the City of Roseville, as aforesaid, for certain construction specifically described as follows, for
which Bids are to be opened at the Office of the City Clerk located at 311 Vernon Street,
Roseville, California, on _____, 20__ FOR

(Copy here the exact title of work as it appears on the Proposal.)

NOW, THEREFORE, IF THE AFORESAID PRINCIPAL is awarded the Contract and, within the time and manner required under the Contract Documents, after the prescribed forms are presented for signature, enters into a written Contract, in the prescribed form, in accordance with the Bid, and files all insurance and two (2) Bonds with the Department, one (1) to guarantee Faithful Performance and the other to guarantee Payment for Labor and Materials, as required by law, then this obligation shall be null and void; otherwise, it shall be and remain in full force and effect.

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this ____ day of _____, 20__.

NONCOLLUSION DECLARATION

TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other Bidder. All statements contained in the bid are true. The Bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

(Signature of Declarant)

DISQUALIFICATION QUESTIONNAIRE

The Bidder shall complete, under the penalty of perjury, the following questionnaire:

Has the Bidder, any officer of the Bidder, or any employee of the Bidder who has proprietary interest in the Bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

END OF PROPOSAL

AGREEMENT

THIS AGREEMENT, is made and entered into this ____ day of _____,
20____, by and between the City of Roseville, a municipal corporation, (“CITY”), and
_____, a _____,
 (“CONTRACTOR”); and

W I T N E S S E T H:

WHEREAS, the City Council of the CITY, at a meeting held on the ____ day of
_____, 20____, approved plans and specifications for the

_____ and directed the City Clerk to advertise for sealed proposals for doing said work and providing
that bids be submitted on the ____ day of _____, 20____; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published
in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid
with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is
hereby referred to and by this reference made a part hereof as fully as if set forth at length herein;
and

WHEREAS, all bids received pursuant to said notice were opened and examined and
publicly declared at the time specified in said advertisement for bids and at a meeting of the City
Council held on the ____ day of _____, 20____, the Council found and
declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a

contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the _____

in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR _____ dollars (\$_____) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including general conditions, supplemental conditions, special provisions and construction details);

d. Bonds and insurance required by the Insurance Broker Information Packet section of this document; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of \$1,500.00 per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within 181 Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE

CONTRACTOR

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISSION PERTAINING TO STRUCTURAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20____, and CONTRACTOR has caused this Agreement to be duly executed.

INSURANCE BROKER INFORMATION PACKET

Five Star Intertie Improvement Project

TABLE OF CONTENTS for INSURANCE BROKER INFORMATION PACKET

	<u>Page</u>
Notice to Contractor	INS 1
Notice to Insurance Broker	INS 2
Insurance Requirements	INS 3
Public Works Faithful Performance Bond	INS 10
Public Works Payment Bond	INS 15

NOTICE TO CONTRACTOR

For your convenience, this package contains the Requirements for Insurance and Bonds for this project, including the necessary City forms. You are required to return these forms in addition to the executed Contract within fifteen (15) calendar days after the award of the Bid, unless otherwise directed by City in writing. (See the Instructions to Bidders.)

Please insert the dollar amount of your accepted Bid into the blank on page INS-1 and present this entire package to your insurance broker if you are awarded the Bid.

NOTICE TO INSURANCE BROKER

Your client has been awarded a bid by the City Council of the City of Roseville to perform a public works project known as the Five Star Intertie Improvement Project.

The Contract Amount is \$_____

The Contract Conditions for this project require your client (“the Contractor”) to return certain evidence of insurance and bonds to the City Attorney of the City within fifteen (15) days after the Bid award, unless otherwise directed by the City in writing, or else the Bid award may be terminated and awarded to another company.

This package contains the information you will need as an insurance broker to provide the appropriate insurance and bonds to the City. The insurance coverages the Contractor needs are specified in the section entitled “Insurance Requirements.” Please note that, in addition to the insurance certificate itself, copies of several endorsements must be actually furnished.

Please refer to the Supplemental Conditions for modifications of the General Conditions, if any, and the requirements of this insurance packet.

Please use the standard City of Roseville Bond Forms provided in this package.

The Bonds required must each be in the penal amount of: \$_____.

Bonds must be sent to the following staff person:

William Montz
2005 Hilltop Circle
Roseville, CA 95747

Insurance documents must be provided using one of the following methods:

- a. By email to roseville@ebix.com and riskmanagement@roseville.ca.us
- b. By fax to (770) 335-5727 and (916) 774-5461

After using one of these methods, please **DO NOT** send the insurance certificate(s) by mail.

- c. Or mail the documents to

City of Roseville
Insurance Compliance
P.O. Box 100085-R1
Duluth, GA 30096

When forwarding the documents, please refer to the project name so that the documents can be matched with the Contract for which they are submitted.

Thank you.

INSURANCE REQUIREMENTS

The following sections are quoted from the General Conditions:

5-1.23 **INSURANCE COVERAGE.**

A. **Evidence of Maintenance Required.** The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. **Qualifying Insurers.** With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. **Insurance Required.**

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an “occurrence” basis, including products and completed operations with limits of no less than Two Million Dollars (\$2,000,000) per occurrence for bodily injury,

personal injury and property damage for projects under One Million Dollars (\$1,000,000) and limits of no less than Five Million Dollars (\$5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars (\$1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars (\$1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars (\$1,000,000) shall cover all Contractors staff while performing any work incidental to the performance of this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars (\$1,000,000) per occurrence or claim and Two Million Dollars (\$2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its

Subcontractors provided any design or engineering services in connection with the Project.

5. Builder's Risk/Course of Construction Insurance Is Required by Risk

Management: The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of Builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. Pollution Coverage: Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the

abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars (\$2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a “claims made” or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an “occurrence” basis.

5-1.24 **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be

declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a

combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars (\$500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

**J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY
PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF
NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.**

Bond No. _____
Premium \$ _____

PUBLIC WORKS
FAITHFUL PERFORMANCE BOND

(Project: _____)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____
as contractor ("PRINCIPAL") for the public work described as _____
_____ (the "WORK"). The
contract ("AGREEMENT"), for the public work described above, and all of its terms and
conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the
AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____
_____, a _____, admitted
and duly authorized to transact business under the laws of the State of California, as
SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and
assigns in the sum of _____
dollars (\$ _____) (which amount is not less than 100% of the

AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to Surety being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in this paragraph to the contrary notwithstanding, the obligation of the SURETY shall

continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.
2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship

and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

PUBLIC WORKS
LABOR AND MATERIALS PAYMENT BOND

(Project: _____)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____
as contractor ("PRINCIPAL"), for the public work described as _____
_____ (the "WORK"). The
contract ("AGREEMENT"), for the public work described above, and all of its terms and
conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the
AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____
_____, a _____, admitted
and duly authorized to transact business under the laws of the State of California, as
SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and
assigns in the sum of _____
dollars (\$ _____) (which amount is not less than 100% of the
AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which

payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California, or any amounts required to be deducted, withheld and paid over to the Employment Development Department from the wages of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall

operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the ____ day of _____, 20__.

SECTION 1

DEFINITIONS AND TERMS

1-1.01 **GENERAL.** When the following abbreviations and terms or pronouns in place of them appear in the Contract Documents, the intent and meaning shall be interpreted as provided in this Section 1.

1-1.02 **ACCEPTANCE.** Formal Acceptance by resolution by the Roseville City Council of the Contract when completed in all respects in accordance with the Contract Documents and any modifications previously approved.

1-1.03 **ADDENDUM.** Written interpretation or revision to any of the Contract Documents issued by the City before the bid opening.

1-1.04 **AS-BUILT DOCUMENTS, AS-BUILT DRAWINGS AND RECORD DOCUMENTS.** As-Built Documents, As-Built Drawings and Record Documents are all contract documents modified to reflect changes during the construction phase. Specifically, As-Built Documents/Drawings are a revised set of drawings submitted by the Contractor upon Final Completion of a project. They reflect changes made in the Specifications and Working Drawings during the construction process, and show the exact dimensions, geometry, and location of all elements of the work completed under the Contract. Record Documents, on the other hand, are compiled by the Engineer or Architect based on the As-Built Documents/Drawings submitted by the Contractor. They reflect the Engineer or Architect's concurring review of what changes were denoted, why they were made and where they occurred and create a record set of drawings.

1-1.05 **ASSESSMENT.** A cost imposed on the Contractor for non-compliance

with certain contractual requirements.

1-1.06 **BENEFICIAL OCCUPANCY.** The taking possession of a portion of the Work by the City for its use and/or occupancy on other than a temporary or emergency basis.

1-1.07 **BID GUARANTY.** The cashier's, certified check, irrevocable standby letter of credit, deposit of securities, or Bidder's Bond, accompanying the bid submitted by the Bidder, as a guaranty that the Bidder will enter into an agreement with the City for the performance of the Work, if the Agreement is awarded to Bidder, and the Bidder will submit the required Contract Bonds and Certificate of Insurance. Also referred to as the Bidder's Security.

1-1.08 **BIDDER.** Individual, firm, partnership, limited liability company, corporation, joint venture, or any combination thereof, submitting a Proposal for the Work, acting directly, or through a duly authorized representative.

1-1.09 **BIDDING DOCUMENTS.** Includes the Notice to Bidders, Bidding Requirements, Contract Conditions, Drawings, and Addenda.

1-1.10 **CHANGE ORDER.** Any written order to the Contractor directing an addition, deletion, or modification of the Work, or an adjustment in the Contract Price or Contract Time provided in the Contract Documents and issued after the Agreement has been signed.

1-1.11 **CITY.** The City of Roseville.

1-1.12 **CITY ATTORNEY.** The City Attorney of the City.

1-1.13 **CITY CLERK.** The City Clerk of the City.

1-1.14 **CLAIM.** A separate demand by Contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following: (a) a time extension, including, without limitation, for relief for damages or penalties for delay assessed by

the City; (b) payment by the City of money or damages arising from work done by, or on behalf of, Contractor pursuant to the Contract Documents and payment for which is not otherwise expressly provided or to which Contractor is not otherwise entitled; and (c) payment of an amount that is disputed by the City.

1-1.15 **CONSTRUCTION SCHEDULE.** A list or graphic display of construction activities required for completing the Work, in a format required by the Contract Documents. The duration, start and finish date, and sequence of significant activities, critical path, float and milestones must be indicated in the Construction Schedule.

1-1.16 **CONTRACT OR AGREEMENT.** The written agreement relating to the Work to be performed, the labor, materials, and equipment to be furnished, and the payment to be made therefor. The Agreement/Contract is part of and incorporates all of the Contract Documents.

1-1.17 **CONTRACT CONDITIONS.** Includes the General Conditions, Supplemental Conditions, and Specifications.

1-1.18 **CONTRACT DOCUMENTS.** Includes those documents that form the basis of the Contract, including but not limited to, Bidding Documents, the Bid or Proposal, Contract Bonds, the Contract, all required insurance certificates or endorsements, all bonds, all required certifications or statements, Change Orders, any Contract Amendment, any City Standard which is incorporated by reference and these City of Roseville General Conditions for Buildings and Grounds.

1-1.19 **CONTRACT DRAWINGS.** The official drawings including plans, elevations, sections, detail drawings, diagrams, plated, General Notes, information and schedules thereon, or exact reproductions thereof, showing the location, character, dimension, and details

of the Work. The Contract Drawings include any drawings or plates bound within the Supplemental Conditions.

1-1.20 **CONTRACT PRICE.** The total compensation to be paid to the Contractor in accordance with the terms of the Agreement.

1-1.21 **CONTRACT TIME.** The number of Days, or portion thereof, allowed for completion of the Work, including all authorized time extensions. The effective date for commencement of the Work specified in the Notice to Proceed shall define the beginning of the Contract Time.

1-1.22 **CONTRACTOR.** Individual, firm, partnership, limited liability company, corporation, joint venture, or any combination thereof, who has entered into the Agreement with City.

1-1.23 **DAY OR DAYS.** Unless otherwise designated, Day or Days as used in the Contract Documents will be understood to mean calendar Day or Days.

1-1.24 **DEPARTMENT.** The Department for Contract Administration, as identified in the Supplemental Conditions.

1-1.25 **DIRECT COSTS.** Those cost items (including labor, materials, equipment and any subcontractor's work) that are used in the actual performance of, and are specifically and uniquely attributable to the Work or changed Work. Direct Costs do not include Overhead. Direct Costs only include the following:

A. Payroll costs for employees in the direct employ of Contractor in the performance of the Work under schedules of job classifications agreed upon by City and Contractor. Payroll costs for employees not employed full time on the Work shall be apportioned on the basis of their time spent on the Work. Payroll costs shall include salaries and

wages plus the cost of fringe benefits which shall include social security contributions, unemployment, excise and payroll taxes, workers' compensation, health and retirement benefits, sick leave, vacation and holiday pay applicable thereto. Such employees may include superintendents and foremen at the site. The expenses of performing work after regular working hours, on Saturday, Sunday or legal holidays shall be included in the above only to the extent authorized by City in writing.

B. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and suppliers' field services required in connection therewith. All trade discounts, rebates and refunds and all returns from sale of surplus materials and equipment shall accrue to City, and Contractor shall make provisions so that they may be obtained.

C. Payments made by Contractor to the subcontractors for work performed by subcontractors. If required by City, Contractor shall obtain competitive bids from subcontractors acceptable to Contractor and shall deliver such bids to City who will then determine which bids will be accepted. If a subcontract provides that the subcontractor is to be paid on the basis of cost of the work plus a fee, the subcontractor's cost of the work shall be determined in the same manner as Contractor's cost of the work. All subcontracts shall be subject to the other provisions of the Contract Documents insofar as applicable.

D. Costs of special consultants (including engineers, architects, testing laboratories, surveyors, and accountants) employed for services specifically, and only, related to the Work.

E. Supplemental costs including the following:

1. The proportion of necessary transportation, travel and subsistence

expenses of Contractor's employees incurred in discharge of duties connected with the Work.

2. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office and temporary facilities at the site and hand tools not owned by the workers, which are consumed in the performance of the Work, and cost, less market value of such items used but not consumed which remain the property of Contractor.

3. Rentals of all construction equipment and machinery and the parts thereof whether rented from Contractor or others in accordance with rental agreements approved by City, and the costs of transportation, loading, unloading, installation, dismantling and removal thereof, all in accordance with terms of said rental agreements. The rental of any such equipment, machinery or parts shall cease when the use thereof is no longer necessary for the Work.

4. Sales, consumer, use or similar taxes related to the Work, and for which Contractor is liable, imposed by laws and regulations.

5. The cost of utilities (including the meter and all associated installation costs), fuel and sanitary facilities at the site.

6. Cost of premiums for additional bonds and insurance required because of changes in the Work.

1-1-26 **DIRECTOR.** Director of the Department for Contract Administration or his or her designee.

1-1.27 **EMERGENCY.** Any sudden generally unforeseen occurrence (such as a fire, flood, storm, earthquake, civil disorder, or other natural and/or man-made disaster) that has the potential to adversely affect the safety of life, the Work, and/or adjacent property; to interrupt contracts essential to the performance of the Work; and/or to cause catastrophic failure of City

equipment and/or facilities.

1-1.28 **ENGINEER OR ARCHITECT.** Professional Engineer or Architect designated for a particular project responsible for signing and sealing the permit drawings, interpretation of the drawings where ambiguities exist, review of requests for information, design Change requests and Shop Drawings, resolution of errors and omissions, and finalization of Record Documents.

1-1.29 **FINAL COMPLETION.** When the project has been completed according to the terms and conditions set forth in the Contract Documents. Final Completion is not the same as Acceptance.

1-1.30 **FORCE ACCOUNT.** Payment by force account shall mean payment on the basis of the Contractor's time and materials.

1-1.31 **GENERAL NOTES.** The written instructions, provisions, conditions or other requirements appearing on the Contract Drawings and so identified thereon, which pertain to the performance of the Work.

1-1.32 **INSTALLATION, INSTALL.** Completely assembling, erecting, and/or connecting materials, parts, components, supplies, and related equipment specified or required for the completion of the Work.

1-1.33 **LABORATORY.** Established professional laboratories authorized by the City to test materials and Work involved in the Contract.

1-1.34 **LEGAL HOLIDAYS.** Those days designated as Federal holidays or declared by the City, or otherwise specified in the Contract Documents.

1-1.35 **LIQUIDATED DAMAGES.** The amount prescribed in the Contract Documents to be paid to the City or to be deducted from any payments due or to become due the

Contractor for each day's delay in completing the whole or any specified portion of the Work beyond the time allowed in the Supplemental Conditions.

1-1.36 **NOTICE OF COMPLETION.** A legal notice filed by the City with the Placer County Recorder's Office stating that construction has been completed and accepted by the City.

1-1.37 **NOTICE TO PROCEED.** A written notice given by the City to the Contractor fixing the date on which the Contract Time will commence to run.

1-1.38 **NOTICE OF TERMINATION.** Written notice from the City to the Contractor and/or its Surety terminating the Agreement, or a portion thereof, either for convenience of the City or for default due to the Contractor's failure to perform its contractual obligations.

1-1.39 **OVERHEAD.** Business or administrative expenses (including but not limited to office expenses, administrative staff, rent, insurance, utilities) not chargeable to a particular part of the Work. The term "Overhead" shall include all of the following:

A. Payroll costs and other compensation of Contractor's officers, executives, principals (of partnerships and sole proprietorships), general managers, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expeditors, timekeepers, clerks, and other personnel employed by Contractor whether at the Work Site or in Contractor's principal or a branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications, all of which are to be considered administrative costs covered by the Contractor's fee.

B. Expenses of Contractor's principal and branch offices other than Contractor's office at the site.

C. Any part of Contractor's capital expenses, including interest on Contractor's capital employed for the Work and charges against Contractor for delinquent payments.

D. Cost of premiums for all bonds and for all insurance whether or not Contractor is required by the Contract Documents to purchase and maintain the same, except as provided in section 1-1.25.

E. Other overhead or general expense costs of any kind.

1-1.40 **PREMISES.** Shall mean the area within construction easements, easements, rights of entry and City owned property which surrounds the Work Site, limited by the property lines thereof. In some cases Premises may coincide with the Work Site.

1-1.41 **PROFESSIONAL ENGINEER.** An engineer licensed by the Board of Registration for Professional Engineers, State of California.

1-1.42 **PROJECT MANUAL.** A book containing all Contract Documents.

1-1.43 **PROPOSAL FORMS.** The approved forms upon which the City requires that each Bidder submit its bid with regard to the Agreement.

1-1.44 **REQUEST FOR INFORMATION (RFI).** A document issued by the Contractor requesting information concerning the Contract Documents.

1-1.45 **SAFETY.** Includes the practice of identifying potential hazards, assessing their risk, taking corrective action where possible, including and providing control measures such as engineering design, written procedures, and the personal protective equipment for workers in order to eliminate or reduce the risk for exposure in the workplace.

1-1.46 **SCHEDULE OF VALUES.** The breakdown of the Contract Price that will serve as the basis for Contractor's Applications of Payment. Any lump sum bid item

included within the Contract Price will be apportioned among values relating to specific components of the Work covered by said lump sum.

1-1.47 **SHOP DRAWINGS.** Drawings, plans, diagrams, schedules, and other data specifically prepared and submitted to the City by the Contractor, showing in detail: (a) the proposed fabrication and assembly of a special component of the Work; and (b) the Installation (form, fit and attachment details) of a special component of the Work. Shop Drawings shall be deemed to include Working Drawings, Product Data, literature, and applicable performance and test data.

1-1.48 **SPECIFICATIONS.** The technical Specifications for the Work prepared by the Director or an Engineer or Architect describing in detail the nature of the Work, its components, any performance standards, and how the Work is to be constructed.

1-1.49 **SUBCONTRACTOR.** Any individual, firm, partnership, limited liability company, corporation, joint venture, or combination thereof, other than employees of the Contractor, engaged by the Contractor to furnish services, labor, equipment and materials for a portion of the Work.

1-1.50 **SUBMITTALS.** Those documents required to be submitted by the Contractor for review by the City in accordance with the Contract Documents.

1-1.51 **SUPPLEMENTAL CONDITIONS.** The Supplemental Conditions are specific clauses modifying or supplementing these General Conditions.

1-1.52 **SUPPLIER.** Any individual, firm, partnership, limited liability company, corporation, joint venture, or combination thereof, other than employees of the Contractor, that supplies a tangible product as a portion of the Work, with services usually limited to delivery and/or required testing, and with manufacturing, fabrication, or production facilities located off

the Work Site.

1-1.53 **WORK.** The furnishing of all labor, and the furnishing and Installing of all materials, articles, supplies and equipment as specified, designated, or required by the Contract Documents.

1-1.54 **WORK SITE.** All or portion of the Premises that the Work is limited to as shown on the Contract Drawings or designated by the Director. Public streets are not included unless Work is being done within the street right-of-way.

1-1.55 **WORKING DRAWINGS.** Original drawings prepared by the Contractor and/or its Subcontractors or Suppliers, of any tier, illustrating Work required for construction that will not become an integral part of the completed Work. This includes, but is not limited to, drawings for temporary structures such as decking, bulkheads, excavation supports, utility support, groundwater control, forming, falsework, access roads, staging areas, staging plans, and diversion plans. A Working Drawing is one type of a Shop Drawing.

SECTION 2

CONTROL AND SCOPE OF THE WORK

2-1.01 **AUTHORITY OF DIRECTOR.** The Contract shall be performed in a manner satisfactory to the Director who shall decide all questions which may arise as to the quality or acceptability of materials furnished and Work performed and as to the manner of performance and rate of progress of the Work; all questions which may arise as to the interpretation of the Contract Documents; all questions as to the acceptable fulfillment of the Contract on the part of the Contractor; and all questions as to compensation. The Director shall have authority to enforce and make effective such decisions and orders in the event the Contractor fails to promptly carry out the same.

2-1.02 **INTENT OF CONTRACT DOCUMENTS.** The Contract Documents are complementary, and what is called for by one shall be as binding as if called for by all. The intent of the Contract Documents is to describe the details for the construction and completion of the Work. Where the Contract Documents describe portions of the Work in general terms, but not in complete detail, it is understood that only the best general practice shall be followed and that only materials and workmanship of the best quality are to be used. Any Work, materials, or equipment that are customarily provided, or that are reasonably inferable from the Contract Documents as being required to produce the intended result, shall be supplied, whether or not specifically called for. When words, which have a well-known technical or trade meaning are used to describe work, materials, or equipment, such words shall be interpreted in accordance with that meaning. Unless otherwise specified, the Contractor shall furnish all labor, materials, tools, equipment, and incidentals, and do all the Work involved in executing the Contract in a

satisfactory and workmanlike manner.

Reference to standard specifications, manuals or codes of any technical society, organization or association, or to the laws or regulations of any governmental authority, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, laws, or regulations in effect on the first published date of the Notice to Contractors, except as may be otherwise specifically stated. However, no provision of any referenced standard specification, manual or code (whether or not specifically incorporated by reference in the Contract Documents) shall be effective to change the duties and responsibilities of City or Contractor, or any of their consultants, agents, or employees from those set forth in the Contract Documents, nor shall it be effective to assign to City, or City's designated representative, any duty or authority to supervise or direct the furnishing or performance of the Work or any duty or authority to undertake responsibility contrary to other provisions of the Contract Documents.

The Contract Documents are divided into parts, divisions, sections and articles for convenience, organization and reference. Generally, there has been no attempt to divide the Specifications sections into work performed by the various building trades, work by separate Subcontractors, or work required for separate facilities in the project.

2-1.03 **EXAMINATION AND VERIFICATION OF CONTRACT**

DOCUMENTS. The Contractor shall thoroughly examine and become familiar with all of the various parts of the Contract Documents and shall determine the nature and location of the Work, the general and local conditions (including applicable laws) and all other matters which can in any way affect the cost, progress or performance of the Work under this Agreement. Failure to make an examination necessary for this determination shall not release the Contractor from the obligations of the Agreement. No oral agreement or conversation with any officer, or employee

of the City, or with the City's designated representative either before or after the execution of the Agreement, shall affect or modify any of the terms or obligations contained in the Contract Documents.

2-1.04 **CONTRACT DRAWINGS.** The Contract Drawings consist of general drawings and show such plans, elevations, sections, details and schedules as are necessary to give a graphic and pictorial description of the contemplated construction. All authorized alterations affecting the requirements and information given on the Contract Drawings shall be in writing.

2-1.05 **COORDINATION AND INTERPRETATION OF CONTRACT DOCUMENTS.** All Contract Documents are essential parts of the Contract, and a requirement occurring in one is as binding as though occurring in all. They are intended to be complementary, and to describe and provide for a complete Work.

In the event of inconsistencies between requirements contained in different components of the Contract Documents, the precedence of the Contract Documents shall be as follows to resolve conflicts:

1. Change Orders
2. The Contract (including Addenda)
3. The Supplemental Conditions
4. Specifications
5. Contract Drawings
6. The General Conditions

Should it appear that the Work to be done or any of the matters relative thereto are not sufficiently detailed or explained in the Contract Documents, the Contractor shall submit a

Request for Information (“RFI”) to the Director for such further explanations as may be necessary and shall conform to the written explanation given as if part of the Contract Documents. The decisions of the Director shall be final.

Contractor shall anticipate that it will be necessary to prepare and submit RFIs regarding the Contract Documents. The City will respond to each RFI by no later than fourteen (14) Days after receipt of the RFI, unless the RFI is of significant complexity. Furthermore, in the event that there are numerous RFIs pending, Contractor shall cooperate with the City in establishing a priority for responding to the RFIs, and potentially some RFIs may be responded to beyond the fourteen (14) Day period.

Each RFI prepared by Contractor shall be full and complete. Contractor shall prepare RFIs so as to not cause any delay to the progress of the Work and to not cause any impact to Contractor’s labor productivity in the field. Contractor shall not assert any Claims for delay or interference against the City if Contractor fails to timely submit any RFI to the City, after consideration of the response period allowed for by the City.

The response to an RFI shall not, by itself, constitute a writing that authorizes Contractor to perform any Work that causes an adjustment to either the Contract Price or the Contract Time. If Contractor believes that any response to any RFI should constitute a compensable change, Contractor shall provide a Notice of Potential Claim as provided in Section 7-1.03, below. Contractor’s failure to provide the required written notice shall constitute a waiver of the Contractor’s right to seek a compensable change based on the RFI response.

The Contractor shall examine all Contract Documents; shall verify all figures in the Contract Documents before laying out the Work; shall promptly notify the City of all errors, inconsistencies, and/or omissions that it discovers; and, in instances where such non-

conformities are discovered, shall obtain specific instructions in writing from the City before proceeding with the Work. Contractor's performance of any Work affected by such non-conformities prior to the City's decision shall be at the Contractor's risk. Any Work that is customarily provided or that is reasonably inferable shall not relieve the Contractor from performing such work at no additional expense and/or delay, and such Work shall be performed as if fully set forth in the Contract Documents.

2-1.06 **INDEPENDENT CONTRACTOR STATUS.** The Contractor shall independently perform all Work required by the Contract Documents and shall not be considered as an agent or employee of the City, nor shall the Contractor's Subcontractors or employees be considered as subagents of the City.

The Contractor and Contractor's Subcontractors shall be licensed in accordance with the laws of the State of California and as more particularly described in the bidding documents or elsewhere in the Contract Documents.

2-1.07 **ORDER OF WORK.** When required by the Contract Documents, the Contractor shall follow the sequence of operations set forth therein. Full compensation for conforming to such requirements will be considered as included in the prices paid for the various Contract items of work, and no additional compensation will be allowed therefor.

2-1.08 **SUBMITTALS.** It shall be the Contractor's responsibility to timely submit, so as to cause no delay in the Work, all Shop Drawings, descriptive data, manuals, instructions, affidavits, samples for the various trades as required by the Supplemental Conditions and Specifications, and offers of alternatives, if any. Such Submittals shall be checked and coordinated by the Contractor with the Work of other trades involved before they are submitted to the Director for examination.

The Contractor shall deliver at least one (1) electronic copy of the Submittals to the Director, and one (1) hard copy if requested. Work requiring the submittal of working drawings, descriptive data or samples shall not begin prior to approval of said Submittal by the Director.

The time allowed for review of each Submittal will be as indicated in the Supplemental Conditions. Review time will start upon receipt of the Submittal by the Director and will end upon the Director's mailing of the Submittals to the Contractor. Defective, incomplete or partial Submittals will be returned to the Contractor unreviewed.

Submittals shall be made by a letter of transmittal that shall contain a list of all matter submitted and identification of all variations from the Contract Documents contained in the Submittal. The letter and all items accompanying the same shall be fully identified as to project name and location, Contractor's name, district, county, and Contract number, with ample cross-references to the Contract Documents, to facilitate identification of items and their location in the Work.

All Shop Drawings and supporting data, catalogs, schedules, shall be submitted as the instruments of the Contractor, who shall be responsible for their accuracy and completeness. These Submittals may be prepared by the Contractor, Subcontractors, or Suppliers, but the Contractor shall ascertain that Submittals meet all of the requirements of the Contract Documents, while conforming to structural, space, and access conditions at the point of Installation. The Contractor shall check all Submittals before submitting them to the Director.

2-1.08A **SHOP DRAWINGS.** The Contractor shall submit an electronic copy (searchable PDF) of all Shop Drawings required by the Supplemental Conditions or Specifications, and one (1) hard copy, if requested by the Director. Shop Drawings shall also be provided separately in AutoCAD format using the latest version of AutoCAD. An electronic

copy will be returned to the Contractor either approved for use, as demonstrated by a stamp, or returned for correction and resubmittal. Materials, colors and/or samples will not be returned to the Contractor. Shop Drawings include any drawing, which requires execution by a draftsman as distinguished from printed matter. The size of Shop Drawings shall not exceed twenty-four inches (24”) by thirty-six inches (36”).

2-1.08B **DESCRIPTIVE DATA.** The Contractor shall submit an electronic copy (searchable PDF) of each set of manufacturer's brochures or other data required by the Supplemental Conditions or Specifications, and one (1) hard copy, if requested by the Director. The City will examine such Submittals and return either an electronic copy or a hard copy approved for use or returned for correction and resubmittal.

2-1.08C **SAMPLES.** The Contractor shall submit samples of articles, materials or equipment as required by the Supplemental Conditions or Specifications. The Work shall be in accordance with the approved samples. Samples shall be removed from City property when directed or may be incorporated in the Work if approved by the Director. Samples not removed by the Contractor will become the property of the City or, at the City's option, will be removed or disposed of by the City at the Contractor's expense.

2-1.08D **MANUALS, INSTRUCTIONS AND AFFIDAVIT.**

A. **Manuals and Instructions.** Where operation and maintenance manuals are required by the Supplemental Conditions, the Contractor shall submit two (2) sets of manuals, suitably bound, along with two (2) electronic copies in an approved format, to the Director within forty-five (45) Days after favorable review of the equipment or facilities. If operation and maintenance manuals are approved to be provided in PDF format, text shall be provided in searchable PDF format, making proper use of PDF for headings and heading levels,

paragraphs, tables, and lists. Submitted operation and maintenance manuals shall be a collected, organized, and indexed set of bookmarked PDF documents comprising each operation and maintenance manual that corresponds to a hardcopy binder. All manuals shall be marked to indicate the specific equipment furnished for this project and shall include at a minimum:

1. Equipment summary form
2. Cover/Title page
3. Table of contents
4. Operating procedures including start-up, shutdown, normal operation, all operating modes, emergency shutdown, and safety precautions
5. Lubrication instructions (if required)
6. Preventative maintenance procedures
7. Troubleshooting and corrective maintenance procedures
8. Reinstallation instructions
9. Overhaul instructions (if applicable)
10. Parts identification list with exploded view and associated cross references
11. Recommended spare parts list
12. Operator safety requirements
13. Electrical and control system wiring drawings, including panel wiring control (ladder) diagrams, logic diagrams, loop diagrams, and interconnection diagrams
14. Panel layout and assembly drawings

15. Mechanical drawings
16. Printouts of all software programs and configuration files
17. Factory and field test procedures and results

Operation and maintenance manuals for complex equipment shall also include:

18. Alternate specified operating modes
19. Emergency shutdown instructions
20. Normal shutdown instructions
21. Long term shutdown instructions

Operation and maintenance manuals for systems comprised of separate pieces of equipment shall include a system explanation of items 4, 7, 18, 19, 20, and 21 as well as the instructions for the separate pieces of equipment.

B. Affidavits. Where required in the Supplemental Conditions or Specifications, manufacturers of equipment shall provide field service as a part of this project. Equipment shall not be considered ready for full time operation until after the authorized factory-trained and qualified manufacturer's representative for the specific equipment has checked and adjusted the equipment and certified by written affidavit that the equipment has been properly Installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. Acceptable affidavits shall be submitted prior to completion of the Work. Affidavits shall contain the following specific wording:

“The (Name of Equipment) has been properly installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. The installation has been inspected and has been found to be in conformance with our (the manufacturer's) standards and requirements.”

No amplification, dilution, or modification of this specific wording will be permitted.

2-1.08E **ALTERNATIVES.** For convenience in designation in the Contract Documents, certain materials, articles, or equipment may be designated by a brand or a trade name or the name of the manufacturer together with catalog designation or other identifying information, hereinafter referred to generically as “designated by brand name.” Except in those instances where the product is designated to match others in use in a particular improvement, either completed or in the course of completion, an alternative material, article, or equipment which is of equal quality and of the required characteristics for the purpose intended may be proposed for use provided the Contractor complies with the following requirements:

A. The Contractor shall submit its proposal for an alternative in writing. Such request shall be made in ample time to permit review and approval without delaying the Work. The Contractor shall not be entitled to an adjustment of the Contract Time or an increase in the Contract Price based on any Contractor-proposed substitution.

B. No such proposal will be considered unless accompanied by complete information and descriptive data, necessary to determine the equality of the offered materials. The Contractor shall satisfy the Director as to the comparative quality, suitability, or performance of the offered material, articles, or equipment. In the event that the Director rejects the use of such alternative materials, articles, or equipment, then one of the particular products designated by brand name shall be furnished.

C. The burden of proof as to the quality and suitability of alternatives shall be upon the Contractor and it shall furnish all information necessary as required by the Director. The Director shall be the sole judge as to the quality and suitability of alternative articles or materials and such decisions shall be final. Where use of an alternative material

involves redesign of, or changes to, other parts of the Work, the cost and time required to effect such redesign or changes will be considered in evaluating the suitability of the alternative material. Cost of redesign by the City will be borne by the Contractor.

D. Whenever classification, rating or other certification by a body such as Underwriters Laboratories (UL) or the National Electrical Manufacturers Association (NEMA) is a part of the specification for any material, Contractor's request for use of alternative articles or materials shall be accompanied by reports from the listed or equivalent independent testing Laboratory indicating compliance with the Contract Documents. The cost of all testing required to prove equality of the material proposed shall be borne by the Contractor. Approval of an alternative shall be only for the characteristics or use named in such approval, and shall not be used to change or modify any requirement of the Contract Documents.

E. At its election, the City reserves the right to consider any Contractor proposed substitution as a Cost Reduction Proposal under Section 3-1.07 of these General Conditions in the event that there is a significant savings resulting from the substitution.

The Director will examine, with reasonable promptness, such Submittals, and return of Submittals to the Contractor shall not relieve the Contractor from responsibility for deviations and alternatives from the Contract Documents, nor shall it relieve the Contractor from responsibility for errors in the Submittals. A failure by the Contractor to identify in its letter of transmittal material deviations from the Contract Documents shall void the Submittal and any action taken thereon by the Director. When specifically requested by the Director, the Contractor shall resubmit such Shop Drawings, descriptive data and samples as may be required.

If any mechanical, electrical, structural, or other changes are required for the proper Installation and fit of alternative materials, articles, or equipment, or because of deviations from

the Contract, such changes shall not be made without the approval of the Director and shall be made without additional cost to the City.

2-1.09 **DISPOSAL OF MATERIAL OUTSIDE THE WORK SITE.** Unless otherwise stated elsewhere in the Contract Documents, the Contractor shall, at its own cost and expense, make its own arrangements for disposing of materials outside the Work Site.

Except when material is to be disposed of at a landfill or recycling center, when any material is to be disposed of outside the Work Site, the Contractor shall first obtain written permission from the City to dispose of the material at the intended location. The City's approval will be contingent upon the Contractor obtaining a written permit from the property owner on whose property the disposal is to be made. Prior to the disposal of any material at the intended location, the Contractor shall submit such permit or a certified copy thereof to the City, together with a written release from the property owner absolving the City from any and all responsibility related to the disposal of material on said property.

Disposal of Hazardous Materials must be done in accordance with all laws and regulations. Copies of all required regulatory documentation including copies of final manifests shall be supplied to the City.

2-1.10 **ACCESS TO THE WORK.** The Contractor shall satisfy itself that the jurisdictions through which its operations and haul routes pass will permit such operations with respect to the type of vehicle, laden weights, frequency and dimensions of loads, hours of operation and required traffic control. All necessary permits, licenses or bonds shall be obtained and paid for by the Contractor.

2-1.11 **TEMPORARY UTILITIES.** The Contractor shall make its own arrangements with utility companies for any temporary services it may require in performance of

the Work and shall pay all costs of these services directly to these utility organizations.

2-1.12 **UTILITY FACILITIES.** The Contractor shall protect from damage those utility facilities that are to remain in place, be Installed, relocated or otherwise arranged.

The Contractor's attention is directed to the possible existence of facilities not shown, and of facilities in a location different from that, which is indicated. The Contractor shall take steps to ascertain the exact location of all facilities prior to doing any Work, which may damage such facilities or interfere with their service. Where the location of a facility is indicated or inferred from the presence of visible facilities such as buildings, meters, and junction boxes, the Contractor shall make such excavations and explorations as are necessary to ascertain the correct location. Unless provided for elsewhere in the Contract Documents, the cost of such excavations and explorations will be considered as a part of the cost of other items of Work and no additional payment will be made. Such excavations and exploratory Work shall not entitle the Contractor to an extension of time.

If the Contractor discovers underground facilities not indicated or inferred from the Contract Documents, the Contractor shall immediately give the Director written notification of the existence of those facilities. The Contractor shall determine the exact location of the underground facilities and the cost of the work will be paid for in accordance with the Contract Documents. The underground facilities shall be protected from damage as directed by the Director and the cost of that work will be paid for as extra work. The Contractor shall, if directed by the Director, repair any damage, which may occur to the underground facilities. The cost of that repair work, not due to the failure of the Contractor to exercise reasonable care, will be paid for as extra work. Damage due to the Contractor's failure to exercise reasonable care shall be repaired at the Contractor's cost and expense.

Where it is determined by the City that the rearrangement of an underground facility, the existence of which is not shown on the Contract Drawings, is essential in order to accommodate the Work, the City will provide for the rearrangement of such facility by other forces or, when so ordered by Change Order, such rearrangement shall be performed by the Contractor and will be paid for as provided under a Change Order.

The Contractor shall be responsible for the maintenance of all utility facilities placed by the Contractor in temporary locations, and all utilities within the construction area not required to be relocated but which are required to be shored or supported during the construction period. The cost of such maintenance shall be borne by the Contractor, and no other compensation shall be due the Contractor for this Work.

The cost of providing and maintaining all necessary or required temporary structures, of making any necessary repairs, replacements, or similar operations, or furnishing indemnity or other bonds, if required, and all costs required by this Section shall be paid by the Contractor and shall be included in the prices bid in the schedule for other items of work.

2-1.13 **PRESERVATION AND CLEANING.** The Contractor shall clean up the Work at frequent intervals and at other times when directed by the Director. While finish Work is being accomplished, floors, Work areas and finished areas shall be kept clean, free of dust, construction debris and trash. Upon completion of the Work, the Contractor shall remove from the Premises its construction equipment and any waste materials not previously disposed of, leaving the Premises thoroughly clean and ready for final inspection.

2-1.14 **LIMITATIONS ON WORK SITE AND PREMISES.** The Contractor shall limit its construction operations to the Work Site unless otherwise shown on the Contract Drawings or specified. The Contractor shall perform no operation of any nature over or on the

Premises except such operations as are authorized by the Contract Documents or as authorized by the Director.

2-1.15 **DUST CONTROL.** During the performance of all Work under this Contract, the Contractor shall assume all responsibility for dust control and shall furnish all labor, equipment, and means required to carry out proper and efficient measures wherever and whenever dust control is necessary to prevent the operations from producing dust damage and nuisance to persons and property. Any claims resulting from dust damage or nuisance shall be borne solely by the Contractor. The Contractor shall comply with all applicable Air Quality Act requirements.

2-1.16 **SANITATION.** The Contractor shall provide sanitary facilities for all persons working on the Work.

2-1.17 **NIGHT WORK AND NORMAL WORKING HOURS.** Normal working hours at the construction site shall be between the hours of 7:00 a.m. and 7:00 p.m. Monday through Friday. Legal holidays are excluded. Certain utility connections and street operations are anticipated to require night Work by the Contractor during low usage periods. The Contractor may also be required to prosecute the Work at night if, at any time, the Director shall deem it necessary for the progress of the Work, or if emergencies arise. The Contractor shall promptly comply with any such requirements made in writing by the Director. The Contractor will also be permitted to Work at night if Contractor satisfies the Director of the need therefor, in order to maintain the required progress or protect the Work from the elements. Certain activities are required to be performed at night for nominal progress of the Work and/or are specified to be performed at night by other portions of the Supplemental Conditions. When required, ordered, or permitted to Work at night, the Contractor shall provide sufficient and

satisfactory lighting and other facilities therefor. The Contractor shall receive no extra payment for night Work, if specified or if required to be performed during the normal progress of the Work, but compensation shall be considered as having been included in the price stipulated for the Work.

If Contractor performs work during weekends, holidays or any non-normal work hours, Contractor shall pay for required City Inspectors.

2-1.18 **LINES AND GRADES.** Unless otherwise provided in the Supplemental Conditions, the Contractor shall lay out all Work, including structures and pipelines, and shall be responsible for any errors resulting therefrom. In all questions arising as to proper location of lines and grades, the Director's decision will be final.

As part of the bid price for the construction of the improvements, the Contractor shall provide and be responsible for the layout of all Work on this project. The Contractor shall provide all necessary surveys, field staking, and positioning for the construction of all components at the proper alignment, elevations, grades, and positions, as indicated on the Contract Drawings and as required for the proper operation and function. The Contractor shall stake its Work area limits. Contractor shall perform all construction staking using a land surveyor licensed in the State of California. Contractor shall provide a staking plan prior to commencement of Work for the City's review and maintain monuments, stakes, and marks, and shall update the plan as necessary. Director, or Director's designated representative, may verify the field condition. Errors or inconsistencies in the Contract Documents discovered by the Contractor shall be reported to the Director within twenty-four (24) hours and prior to constructive forms or related improvements. Any work Installed with this requirement shall be subject to removal and replacement at the Contractor's expense.

The Contractor's lay-out shall be based on existing structures, property lines, survey control, and bench marks established by the City. All structures and pipeline connections shall be Installed based on actual elevation of existing structures to which connections are made.

The Contractor shall supply such labor as required, at no extra charge, to aid and assist the Director in checking location and grades of the Work as set by the Contractor if the Director desires to perform this checking. This shall include moving materials and equipment located between monuments and the construction Work.

2-1.19 **ARCHEOLOGICAL DISCOVERIES.** Upon discovery of prehistoric or historic artifacts, or other indicators or examples of cultural resources discovered during the course of site preparation, grading, excavation, construction or other development activities, all operations within fifty feet (50') of the find shall cease until such time as the City provides the services of a qualified archeologist to evaluate the finds and recommend appropriate action.

Prehistoric materials can include flaked stone tools (e.g., projectile points, knives and choppers) or tool making debris of obsidian, chert, quartzite and other materials, culturally darkened soil (i.e., midden, which often contains heat affected rock, ash and charcoal, shellfish remains, and cultural materials), and stone milling equipment such as mortars, pestles and hand stones. Historic material may include wood, stone, concrete or adobe footings, walls and other structural remains; debris filled wells or privies; and deposits of wood, metal, glass, ceramics and other refuse.

2-1.20 **PRESERVATION OF MONUMENTS.** Any monuments or bench marks disturbed by construction operations shall be repaired per the City's standard and promptly re-established by a registered land surveyor or civil engineer. A plat for each monument shall be furnished to the Director after the plat has been recorded with the Placer

County Recorder's Office at no additional cost to the City. The recorded plat shall serve as a record of the re-establishment of said existing survey points.

2-1.21 **CONFORMITY WITH CONTRACT DOCUMENTS.** Work and materials shall conform to the lines, grades, cross sections, dimensions and material requirements, including tolerances, required by the Contract Documents. Although measurement, sampling and testing may be considered evidence as to such conformity, the City shall be the sole judge as to whether the Work or materials deviate from the Contract Documents. At its option, the City may elect to accept deviations from the Contract Documents with appropriate backcharge Assessments against the Contractor, and, if such an election is made, the City will provide written notice to the Contractor of such acceptance.

2-1.22 **FINAL CLEANUP.** Prior to final Acceptance of the Work, the Contractor shall thoroughly clean the Premises, remove all temporary structures built by or for the Contractor, and remove all equipment and surplus construction material and debris from the area. The entire project, before Acceptance by the City, shall be left in a neat and clean condition. All Work areas and temporary construction areas shall be returned to essentially the same conditions existing before the commencing of project construction.

2-1.23 **AS-BUILT DOCUMENTS AND DRAWINGS.** The Contractor shall maintain one set of the full size prints furnished by the City and mark thereon in color any deviations from plan dimensions, elevations, or orientations. Also, the Contractor shall locate on said prints, all underground facilities, such as piping, conduits and tanks by accurate field measurement from structure walls, corners, etc. The Contractor shall submit the prints and an electronic CD (searchable PDF or source file format such as AutoCAD) in good condition to the Director upon completion of the job as a condition of Acceptance of the project. Marked prints

shall be updated at least once each week and shall be available to the Director for review as to currency prior to developing partial payment estimates. After the completion of testing, but prior to Acceptance, the Contractor shall submit As-Built electrical drawings in color and an electronic CD showing all components and their wiring, and as specified in the Supplemental Conditions.

2-1.24 **SUPERINTENDENCE.** The Contractor shall supervise and direct the Work, which shall be performed in accordance with the requirements of the Contract Documents. The Contractor shall be solely responsible for implementation of all construction means, methods, techniques, sequences, and procedures and for coordination of all portions of the Work under the Agreement. The Contractor shall be solely responsible for the safety of its employees, Subcontractors of any tier, Suppliers, visitors to the Contractor, and other third parties associated with the Contractor.

The Contractor shall designate in writing before starting Work, an authorized representative who shall have the authority to represent and act for the Contractor.

When the Contractor is comprised of two (2) or more persons, firms, partnerships, or corporations functioning on a joint venture basis, said Contractor shall designate in writing before starting Work, the name of one authorized representative who shall have the authority to represent and act for the Contractor. Instances of misconduct, contract non-compliance, unsatisfactory performance, or incompetence by these personnel shall be grounds for the City to direct Contractor to dismiss them from the Project. Contractor shall immediately comply with the City's request for dismissal, at no cost to the City, and shall designate a replacement, which shall be subject to approval by the City.

Said authorized representative shall be present at the site of the Work at all times while Work is actually in progress on the Contract. When Work is not in progress and during periods

when Work is suspended, arrangements acceptable to the Director shall be made for any Emergency Work that may be required.

Whenever the Contractor or its authorized representative is not present on any particular part of the Work where it may be desired to give direction, orders will be given by the Director, which shall be received and obeyed by the superintendent or foremen who may have charge of the particular Work in reference to which the orders are given.

Any order given by the Director, not otherwise required by the Supplemental Conditions to be in writing, will on request of the Contractor, be given or confirmed by the Director in writing.

2-1.25 **CHARACTER OF WORKER.** If any Subcontractor or person employed by the Contractor shall appear to the Director to be incompetent or to act in a disorderly or improper manner, he or she shall be removed immediately on the requisition of the Director, and such person shall not again be employed on the Work.

2-1.26 **INSPECTION.** The Contractor shall at all times permit the Director to inspect the Work or any part thereof. The Contractor shall maintain proper facilities and provide safe access for such inspection by the Director to all parts of the Work, and to the shops where the Work is in preparation. Work shall not be covered up until authorized by the Director and the Contractor shall be solely responsible for notifying the Director where and when such Work is in readiness for inspection and testing. Should any such Work be covered without authorization, it shall, if so ordered, be uncovered at the Contractor's expense.

Unless otherwise designated as normal working hours, whenever the Contractor intends to perform Work on Saturday, Sunday, or a Legal Holiday, the Contractor shall give notice to the Director of such intention forty-eight (48) hours prior to performing such Work, or such longer

period as may be specified so that the Director may make necessary arrangements.

The observation and/or approval of the workmanship or materials by the City shall not relieve the Contractor of any obligations to fulfill the requirements of the Contract Documents. Workmanship and materials not meeting such requirements shall be corrected and unsuitable Work or material may be rejected, notwithstanding that such Work or materials have been previously observed and/or approved by the City, or payment therefor has been included in a progress estimate.

The City may order re-examination of questioned Work at any time before final Acceptance. If so ordered, the Contractor shall uncover the Work. If such work is found to be in accordance with the Contract Documents, the City will pay for the cost of uncovering, removing, recovering and replacing the parts removed; but if such Work so exposed or examined is not in accordance with the Contract Documents, the uncovering, removal, recovering and replacement shall be at the Contractor's expense. Work that has been covered prior to observation by the City does not qualify as re-examined work; the City may order such work uncovered for observation without payment of any costs.

2-1.27 **REMOVAL OF REJECTED AND UNAUTHORIZED WORK.** All Work which has been rejected shall be remedied, or removed and replaced by the Contractor in a manner acceptable to the Director and no compensation will be allowed the Contractor for such removal, replacement, or remedial Work.

Any Work done beyond the lines shown on the Contract Drawings or established by the Director, or any Work done without written authority will be considered as unauthorized Work and will not be paid for. Upon order of the Director, unauthorized Work shall be remedied, removed, or replaced at the Contractor's expense.

Upon failure of the Contractor to comply promptly with any order of the Director made under this section, the Director may cause rejected or unauthorized Work to be remedied, removed, or replaced, and the costs thereof will be deducted from any moneys due or to become due the Contractor.

SECTION 3

CHANGES IN THE WORK

3-1.01 **CHANGES.** The Director, without invalidating this Agreement and without notice to Contractor's surety, may order changes in the Work, consisting of additions or deletions, or other revisions. The Contract Price and the Contract Time shall be adjusted accordingly. All such changes in the Work, including in the Contract Price and the Contract Time, shall be authorized only by Contract Change Order, signed by the Director.

If Contractor claims that performance of any work entitles it to additional compensation or to an extension of time for performance of the Work, Contractor shall provide written notice to the City of any such claim prior to undertaking such work. Contractor shall provide written notice of any anticipated impacts to the Contract Price or Contract Time within three (3) Days of discovering such impact, by submitting a Notice of Potential Claim described in Section 7-1.03 below, or notice of delay as described in Section 6-1.09 below. If the Director refuses to issue a Change Order for such work, Contractor shall perform that work if directed or obligated to do so and shall submit a complete and specific Claim for additional compensation and/or extension of time for performance within fifteen (15) Days after such work is performed, as described in Section 7-1.03 below. Failure to provide written notice of claims prior to undertaking such work, failure to provide a timely Notice of Potential Claim, or failure to submit timely a complete and specific Claim for additional compensation and/or extension of the time for performance, shall be deemed a waiver and abandonment of any such Claim. No Claim, dispute or controversy shall interfere with the progress or performance of the Work and the Contractor shall proceed with the Work as directed by the Director. Failure to so proceed shall amount to a

default under this Agreement.

3-1.02 **PROPOSED CHANGE ORDERS.** The Contractor will be notified in writing of a proposed Change Order describing the intended change. Within fifteen (15) Days after receipt of a written request, the Contractor shall submit its proposed price to be added or deducted from the Contract Price due to the change and its estimate of the extent of the adjustment in the Contract Time, if any. The Contractor's proposed price to be added to or deducted from the Contract Price shall be supported by a detailed estimate of cost prepared by the Contractor, vendor or Supplier. The Contractor's proposed price submittal shall be accompanied by a statement of the time necessary for the changed Work, together with a description of how this time will be incorporated into the current Construction Schedule. The Contractor shall upon request by the Director permit inspection of its original Contract estimate, subcontract agreements or purchase orders relating to the change.

If agreement is reached on the adjustment in compensation as provided in Section 3-1.05, "Contract Price Adjustment," of these General Conditions, the Contractor shall proceed with the Work as changed at the agreed price.

If the Contractor and the Director fail to agree as to the adjustment in compensation for the performance of the changed Work, the Contractor, upon written order from the Director, shall proceed immediately with the changed Work and the Contract Price shall be adjusted in accordance with Section 3-1.06, "Force Account Payment," of these General Conditions.

If the Contractor fails to submit its cost estimate within such fifteen (15) Day period, the Contractor shall commence the Work as changed immediately upon receipt of written order of the Director, and the Contract Price will be adjusted in accordance with the Director's cost estimate for the changed Work.

3-1.03

EMERGENCY AND INDETERMINATE TYPE CHANGE

ORDERS. Changes in the Work made necessary by an Emergency, as determined by the Director, or changes of a kind where the extent of the Work cannot be determined until completed, may be authorized by the Director in writing. The Change Order shall state that it is issued pursuant to this Section 3-1.03. Upon receipt of an authorized Change Order or other written order of the Director, the Contractor shall proceed with the ordered Work and the Director will maintain a daily job record containing a detailed summary of all labor, materials and equipment required for the changed Work.

Within fifteen (15) Days after receiving a written request, the Contractor shall submit a detailed estimate of cost for the change and any requested change in Contract Time in the same manner as required for proposed Change Orders in Section 3-1.02 of these General Conditions.

3-1.04

EXECUTED CHANGE ORDER.

A Contract Change Order signed by both the Director and the Contractor is an “executed Contract Change Order.” By signing the Contract Change Order, the Contractor agrees that the specified compensation constitutes full compensation for the changed Work, including payment for interruption, disruption, acceleration, extended Overhead, delay or any other “impact” claim or “ripple effect” claim. The Contractor specifically understands and agrees that its execution of the Contract Change Order shall constitute a waiver of any right for the Contractor to claim any additional compensation with respect to the subject matter of the Contract Change Order.

3-1.05

CONTRACT PRICE ADJUSTMENT.

If a Contract Change Order provides for an adjustment to the Contract Price, the amount of such adjustment shall be determined by one of the following methods, or a combination thereof, as determined by the City and in its sole discretion:

A. Lump sum. The Contractor and the City may agree on a lump sum amount for the Change Order. At the City's request, the Contractor will provide pricing for the work. Maximum markups for Contract Change Orders paid for using lump sum pricing shall be paid for in the same manner and in the same amounts as markups for Force Account work, as described in Section 3-1.06 below.

B. Unit Prices. The unit prices set forth in the Contractor's Schedule of Bid Prices will be utilized where they are applicable and acceptable to the City. The Contractor's unit prices shall remain firm and shall not be subject to adjustment unless and until the actual quantity of work is increased or decreased by Contract Change Order in an amount greater than twenty-five percent (25%) from the estimated quantity indicated for such item. No markups will be given for Contract Change Orders paid for using unit prices.

Unit prices for new items included in the Contract Change Order but not included in the original bid shall be as mutually agreed upon or, in the absence of agreement, as determined by the City in the same manner as if the work were to be paid for on a Force Account basis, as described in Section 3-1.06 below.

C. Force Account. Where the City and the Contractor are unable to agree on lump sum pricing and if the City does not elect to utilize the unit prices in Contractor's bid, or such unit prices are not applicable, the changed work will be performed and tracked by the Contractor as Force Account work, as described in Section 3-1.06 below. The City will pay for such work, including markups, properly attributable to the change in accordance with those Force Account provisions.

D. Eliminated Items. The City reserves the right to delete any bid item of Work in its entirety. The City makes no representation that any work under a bid item of Work

will be performed, and all work may be subject to a Contract Change Order that deletes such work. Bid items are distinct and severable from the other bid items, and the Contractor shall not be entitled to any anticipated profit, unabsorbed Overhead, or other indirect expense attributable to the deleted item, except as provided immediately below with regard to Force Account mark-ups on the direct and verifiable costs incurred prior to the City's order that deletes the work.

Should any bid item of Work be eliminated in its entirety and not accounted for as described immediately above and, in the absence of an executed Contract Change Order covering such elimination, payment will be made to the Contractor for actual direct and verifiable costs incurred in connection with such eliminated bid item if incurred prior to the date of notification in writing by the City of such elimination. If acceptable material is ordered by the Contractor for the eliminated item prior to the date of notification of such elimination by the City, and if orders for such material cannot be canceled, it will be paid for at the actual direct and verifiable cost to the Contractor. Actual direct costs shall include documented vendor shipping fees, Supplier restocking fees, if applicable, and Contractor handling costs directly related to the eliminated item(s). In such case, the material paid for shall become the property of the City and the actual cost of any further handling will be paid for by the City. If the material is returnable to the vendor and if the City so directs, the material shall be returned and the Contractor will be paid for the actual direct cost of charges made by the vendor for returning the material. The actual direct cost of handling returned materials will also be paid for by the City. The actual direct and verifiable costs to be paid by the City as provided herein will be computed in the same manner as if the work were to be paid for on a Force Account basis, including the application of Force Account mark-ups to said costs.

3-1.06 **FORCE ACCOUNT PAYMENT.** When Work performed pursuant to a

Change Order is to be paid for on a Force Account basis, the Contractor's labor, materials and equipment used in the performance of such Work shall be subject to the approval of the City, and the compensation will be determined as set forth below in this section.

3-1.06A **LABOR.** The Contractor will be paid an amount based on the actual cost for the workers (including foremen when authorized by the Director) used in the actual and direct performance of the Work. All labor costs associated with Overhead, whether field or home office, are specifically excluded herein, as those labor costs are covered by the below mark-ups. The cost of labor, whether the employer is the Contractor, Subcontractor or other forces, shall include employer payments; assessment of benefits required by lawful labor union collective bargaining agreements; compensation insurance payments; contributions made to the State pursuant to the Unemployment Insurance Code; and for taxes paid to the Federal Government pursuant to the Social Security Act of August 14, 1935, as amended. No labor cost will be recognized at a rate in excess of the wages prevailing in the locality at the time the Work is performed, nor will the use of a labor classification, which would increase the cost, be permitted unless the Contractor establishes to the complete satisfaction of the Director the necessity for payment at a higher rate.

3-1.06B **MATERIALS.** Only materials furnished by the Contractor and necessarily used in the performance of the Work will be paid for. Such cost of materials may include the costs of procurement, transportation and delivery if necessarily incurred. If a cash or trade discount by the actual supplier is available to the Contractor, it shall be credited to the City. If materials are procured by the purchaser by any method which is not a direct purchase from and a direct billing by the actual supplier to such purchaser, the cost of such materials shall be deemed to be the price paid to the actual supplier plus the actual costs, if any, incurred in the

handling of such materials. If the materials are obtained from a supply or source owned wholly or in part by the purchaser, the cost of such materials shall not exceed the price paid by the purchaser for similar materials furnished from said source on Bid items or the current wholesale price for such materials delivered to the job site, less any discounts as provided herein, whichever is lower. If, in the opinion of the Director, the cost of materials is excessive, or if the Contractor fails to furnish satisfactory evidence of the cost to it from the actual supplier within sixty (60) Days after the date of delivery of the materials or within fifteen (15) Days after Acceptance of the Agreement, whichever occurs first, the cost of the materials shall be deemed to be the lowest current wholesale price at which similar materials are available in the quantities required, less any discounts provided herein. The Department reserves the right to furnish such materials required by the Change Order as it deems advisable, and the Contractor shall have no claim for cost or markups on material furnished by the Department.

3-1.06C **EQUIPMENT.** The Contractor will be paid an amount based on the actual cost for the use of equipment directly required and approved by the Director in the performance of the changed Work. No payment will be made for time while equipment is inoperative due to breakdowns or on Days when no Work is performed. In addition, the rental time shall include the time required to move the equipment to the Work from the nearest available source of such equipment, and to return it to the source. If such equipment is not moved by its own power, then loading and transportation costs will be paid. Moving time, loading and transportation costs will only be paid if the equipment is used exclusively on the changed Work during the time between move in and move out. Individual pieces of equipment having a replacement value of One Thousand Dollars (\$1000) or less shall be considered to be tools or small equipment, and no payment will be made therefore. For equipment owned,

furnished, or rented by the Contractor, no cost therefore shall be recognized in excess of the equipment rental rates published by Caltrans at the following website address:

<http://www.dot.ca.gov/hq/construc/equipmnt.html>. Equipment located at a Work Site and utilized on non-Force Account work shall not be eligible for standby payment, and shall be charged on a Force Account basis only when solely performing pre-approved Force Account work tasks.

3-1.06D **MARKUPS.** When a Change Order increases the cost of the Work, the Contractor may add the following maximum markups to its actual costs of labor, materials, or equipment rental:

15 percent for labor;

10 percent for materials; and

5 percent for equipment rental.

The above markups include full compensation, covering the costs of all supervision, bonds, profit, Overhead, and other general expenses not specifically designated as a direct cost in Sections 3-1.06A through 3-1.06C above. The total payment (i.e., direct cost plus applicable markups) shall be deemed to be the actual cost of such work and shall constitute full compensation therefor. The Contractor specifically understands and agrees that such payment shall include any Contractor costs for interruption, disruption, and acceleration, extended Overhead, Change Order management, delay or other “impact” claim or “ripple effect” claim.

When work paid for on a Force Account basis is performed by forces other than the Contractor’s own forces, the maximum allowable mark-ups for the Subcontractors’ costs shall be fifteen percent (15%) for the cost of labor, ten percent (10%) for the cost of materials, and five percent (5%) for the cost of rented equipment. In these situations where the work is being performed by Subcontractors, the Contractor will only be entitled to an additional five percent

(5%) mark-up and will not be entitled to receive the additional mark-ups specified in this section.

When a Change Order decreases the cost of the Work, the reduction in cost shall include a five percent (5%) markup on the estimated cost for furnishing the labor, materials and equipment, which would have been used on such Work, had the Change Order not been issued.

When a Change Order involves both added Work and deleted Work, the markup or markups to be used shall be as follows:

The actual costs of labor, materials, and equipment rental for added and deleted Work shall be calculated separately without adding markups. If the difference between the calculated costs for labor results in an increased cost, a markup of fifteen percent (15%) shall be applied to the increased cost. If the difference between the calculated costs of materials or equipment rental results in an increased cost, a markup of ten percent (10%) and five percent (5%) respectively, shall be applied to the increased costs of materials or equipment rental, as the case may be. If the difference between the calculated costs for labor, materials or equipment rental results in a decreased cost, a markup of five percent (5%) shall be applied to the decreased costs of labor, materials or equipment rental, as the case may be.

Contractor shall not add mark-ups on work performed and billed by City staff nor add mark-ups to successive iterations of proposed Change Order cost proposals returned to Contractor by the City due to incomplete or inaccurate information being originally submitted by the Contractor. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly.

3-1.06E **RECORDS.** The Contractor shall maintain its records in such a manner as to provide a clear distinction between the direct costs of extra work paid for on a Force Account basis and the costs of other operations.

From the above records, the Contractor shall furnish the City completed daily extra work reports, on forms acceptable to the City, for each Day's extra work to be paid for on a Force Account basis. The daily extra work reports shall itemize the materials used, and shall cover the direct cost of labor and the charges for equipment rental, whether furnished by the Contractor, Subcontractor, or other forces. The daily extra work reports shall provide names and identifications and classifications of workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment, and hours operated. Daily extra work and Force Account reports (actual or claimed) shall be signed by both the City's and the Contractor's representatives within twenty-four (24) hours of the performance of the work.

Valid copies of vendor's invoices shall substantiate material charges. Such invoices shall be submitted with the daily extra work reports, or if not available, they shall be submitted with subsequent daily extra work reports. Should said vendor's invoices not be submitted within sixty (60) Days after the date of delivery of the material or within fifteen (15) Days after the Acceptance of the Agreement, whichever occurs first, the City reserves the right to establish the cost of such materials at the lowest current wholesale prices at which said materials were available in the quantities, less any discounts.

The City will compare its records with the completed daily extra work reports furnished by the Contractor and make any necessary adjustments. When these daily extra work reports are agreed upon and signed by both parties, said reports shall become the basis of payment for the work performed, but shall not preclude subsequent adjustment based on a later audit by the City.

The Contractor's cost records pertaining to Work paid for on a Force Account basis shall be open to inspection or audit by representatives of the City during the life of the Agreement and for a period of not less than three (3) years after the date of Agreement completion and the

Contractor shall retain such records for that period. Where payment for materials or labor is based on the cost thereof to forces other than the Contractor, the Contractor shall make every reasonable effort to insure that the cost records of such other forces will be open to inspection and audit by representatives of the City on the same terms and conditions as the cost records of the Contractor. If an audit is to be commenced more than sixty (60) Days after the date of Acceptance of the Agreement, the Contractor will be given fifteen (15) Days' notice of the time when such audit is to begin.

3-1.07 **COST REDUCTION PROPOSALS.** The City encourages the Contractor to submit Cost Reduction Proposals whenever the Contractor identifies areas and/or instances in which there can be savings to the Work. Contractor may submit to the City, in writing, proposals for modifying the plans, Specifications or other requirements of the Agreement for the sole purpose of reducing the total cost of construction, including the time for completion of the Work. The City may consider such Cost Reduction Proposals and, if accepted, the Agreement will be equitably adjusted. The City has no obligation to consider or accept Cost Reduction Proposals.

SECTION 4

CONTROL OF MATERIALS

4-1.01 **MATERIALS.** The Contractor shall furnish all materials required to complete the Work, except materials that are designated in the Supplemental Conditions to be furnished by the City and materials furnished by the City in accordance with Section 3, “Changes in the Work,” of these General Conditions.

Unless otherwise specified in the Supplemental Conditions, materials furnished by the Contractor for incorporation into the Work shall be new. When the quality or kind of materials, articles, or equipment is not particularly indicated, then the quality or kind thereof shall be similar to those that are indicated.

Articles or materials to be incorporated in the Work shall be stored in such a manner as to insure the preservation of their quality and fitness for the Work, and to facilitate inspection.

All materials which do not conform to the requirements of the Contract Documents as determined by the Director, will be rejected whether in place or not. Rejected material shall be removed immediately from the site of the Work, unless otherwise permitted by the Director. No rejected material, the defects of which have been subsequently corrected, shall be used in the Work, unless approval in writing has been given by the Director. Upon failure of the Contractor to comply promptly with any order of the Director made under these provisions, the Director shall have the authority to cause the removal and replacement of rejected material and to deduct the cost thereof from any moneys due or to become due the Contractor.

Manufacturer's warranties, guaranties, instruction sheets and parts lists, which are furnished with certain materials incorporated in the Work, shall be delivered to the Director

before Acceptance of the Contract.

Unless otherwise designated in the Supplemental Conditions or Specifications, materials furnished by the City will be delivered to the job site. Materials furnished by the City that are designated in the Supplemental Conditions as available at locations other than the job site shall be hauled to the site of the Work by the Contractor at its expense, including any necessary loading and unloading that may be involved.

The Contractor will be held responsible for all materials furnished to it, and shall pay all demurrage and storage charges. City-furnished materials lost or damaged from any cause whatsoever shall be replaced by the Contractor. The Contractor will be liable to the Department for the cost of replacing City-furnished material and such costs may be deducted from any moneys due or to become due the Contractor.

4-1.02 **PRODUCT AND REFERENCE STANDARDS.** When descriptive catalog designations, including manufacturer's name, product brand name, or model number are referred to in the Contract Documents, such designations shall be considered as being those found in industry publications in effect on the day the Notice to Contractors for the Work is dated, except as may be otherwise stated.

When standards or test designations of the Federal Government, trade societies, or trade associations are referred to in the Contract Documents by specific date of issue, these shall be considered as part of the Contract. When such references do not bear a date of issue, the edition in effect on the day the Notice to Contractors for the Work is dated shall be considered as part of the Contract.

4-1.03 **SAMPLING AND TESTING OF MATERIALS.** Unless otherwise specified, all tests shall be performed in accordance with the methods used by the State

Department of Transportation (Caltrans) and shall be made by the Director or his or her designated representative.

The State Department of Transportation has developed test methods for testing the quality of materials and Work. These test methods are identified by a California Test followed by the serial number. Copies of individual tests are available at the State Department of Transportation Laboratory, Sacramento, California, and will be furnished to interested persons upon request.

Whenever a reference is made in the Supplemental Conditions to a California Test by number, it shall mean the California test in effect on the day the Notice to Contractors for the Work is dated.

Whenever the Supplemental Conditions provide an option between two (2) or more test methods, the Director will determine the test method to be used.

Whenever a Supplemental Condition, manual, or test designation provides for test reports (such as certified mill test reports) from the manufacturer, copies of such reports, identified as to the lot of material, shall be furnished to the Director. The manufacturer's test reports shall supplement the inspection, sampling and testing provisions of this Section 4-1.03 and shall not constitute a waiver of the City's right to inspect. When material which cannot be identified with specific test reports is proposed for use, the Director may at his or her discretion, select random samples from the lot for testing. Testing specimens from the random samples, including those required for retest, shall be prepared in accordance with the referenced Supplemental Conditions and furnished by the Contractor at its expense. The number of such samples and test specimens shall be entirely at the discretion of the Director.

When requested by the Director, the Contractor shall furnish, without charge, samples of

all material entering into the Work, and no material shall be used prior to approval by the Director, except as provided in Section 4-1.04, "Certificates of Compliance," of these General Conditions.

A. Inspection and Access for Testing. The Contractor shall provide safe access for the Director and his or her inspectors to adequately inspect the quality of Work and conformance with the General and Supplemental Conditions. The Contractor shall provide adequate lighting, ventilation, ladders and other protective facilities as may be necessary for the safe performance of inspections.

The Contractor shall submit samples or specimens of such materials to be furnished or used in the Work as the Director may require. The Contractor shall furnish the Director all necessary labor and facilities for such things as excavation in the compacted fill to depths required to take samples.

Inspections, tests, or favorable review by the Director or others shall not relieve the Contractor from its obligations to perform the Work in accordance with the requirements of the Contract Documents.

Work covered without the favorable review or consent of the Director shall, if required by the Director, be uncovered for examination at the Contractor's expense.

If the Engineer, Architect, or Director considers it necessary or advisable that covered Work be inspected or tested by others, the Contractor, at the Director's request, will uncover, expose or otherwise make available for observation, inspection or testing as the Director may require, that portion of the Work in question, furnishing all necessary labor, materials, tools, and equipment. If it is found that such Work is defective, the Contractor will bear all the expenses of such uncovering, exposure, observation, inspection and testing and of

satisfactory reconstruction. If, however, such Work is not found to be defective and the Work was not covered without favorable review of the Director, the Contractor will be allowed an increase in the Contract Price or an extension of the Contract Time, or both, to cover its costs directly attributable to such uncovering, exposure, observation, inspection, testing, and reconstruction and an appropriate Change Order shall be issued.

Whenever the Contractor varies the period during which Work is carried on each Day, the Contractor shall give due notice to the Director so that proper inspection may be provided. Any Work done in the absence of the Director may be subject to rejection. Proper facilities for safe access for inspection to all parts of the Work shall at all times be maintained for the necessary use of the Director and other agents of the City. Authorized representatives and agents of the Director shall be permitted access to inspect all Work and materials wherever it is required for preparation of progress reports, and the Contractor shall provide proper facilities for such access and inspection.

It is the Contractor's responsibility to supervise the Work and complete the project in accordance with the Contract Documents. In the course of managing that effort, the Contractor shall generate its own punch lists as deemed necessary. The Director may prepare punch lists for the Director's own use in communicating with the Contractor; however, the Director shall be under no obligation to prepare punch lists for the Contractor. In general, the Director will prepare punch lists only after the Contractor has given the Director written notice that the subject Work is completed and tested in accordance with the Contract Documents and is ready for operation and/or use and/or occupancy. Failure of the Director to include an item in a punch list shall not relieve the Contractor of its duty to satisfactorily complete all Work required by the Contract Documents.

Upon Final Completion of the construction Work and request by the Contractor, the Director will conduct a final inspection as a basis for recommending to the City that the Work be accepted.

B. Field and Materials Testing. Where the Supplemental Conditions require Work to be specially field tested or approved, it shall be tested only in the presence of the Director after timely notice of its readiness for inspection and test, and the Work after testing shall be covered up only upon the consent thereto of the Director.

The results of any tests made are for the information of the Director. Regardless of any test results, the Contractor is solely responsible for the quality of workmanship and materials and for compliance with the requirements of the Contract Drawings and Supplemental Conditions.

Except as specifically required under the Supplemental Conditions, all tests by the Director of materials furnished by the Contractor will be done in accordance with commonly recognized standards of national organizations. The Contractor shall furnish such samples of all materials as required by the Director without charge. No material shall be used unless it has been favorably reviewed by the Director.

Where such inspection and testing are to be conducted by an independent Laboratory or agency, the sample or samples of materials to be tested shall be selected by such Laboratory or agency, or the Director, and not by the Contractor.

C. Costs of Testing.

1. Initial Services: The City shall furnish and pay for all initial testing services required by the Contract Documents. When initial tests indicate non-compliance with the Contract Documents, the cost of initial tests associated with that non-compliance will be

deducted by the City from the balance owed the Contractor. The Contractor shall furnish samples of materials for testing as may be required by the Director. Such samples shall be furnished without cost to the City.

2. Retesting: When initial tests indicate non-compliance with the Contract Documents, all subsequent retesting occasioned by the non-compliance shall be performed by the same testing Laboratory and the cost thereof will be deducted by the City from the balance owed the Contractor. Contractor shall be billed for each additional test.

3. Contractor Convenience Testing: Inspection or testing performed exclusively for the Contractor's convenience shall be the sole responsibility of the Contractor.

4. Additional Tests and Inspections: When in the opinion of the Director additional tests or inspections are required because of the manner in which the Contractor executes its Work, such tests and inspections shall be paid for by the City, but will be deducted from the Contract Price. Examples of such tests and inspections are tests of materials substituted for previously accepted materials or substituted for specified materials, retests made necessary by failure of material to comply with the requirements of the Specifications, load tests made necessary because of portions of the structure not fully meeting Specifications or plan requirements, etc.

4-1.04 **CERTIFICATES OF COMPLIANCE.** A Certificate of Compliance shall be furnished prior to the use of any materials for which the Supplemental Conditions require that such a Certificate be furnished. In addition, the Director may permit the use of certain materials or assemblies prior to sampling and testing if accompanied by a Certificate of Compliance. The Certificate shall be signed by the manufacturer of the material or the manufacturer of assembled materials and shall state that the materials involved comply in all

respects with the requirements of the Supplemental Conditions. A Certificate of Compliance shall be furnished with each lot of such materials delivered to the Work and the lot so certified shall be clearly identified in the Certificate.

All materials used on the basis of a Certificate of Compliance may be sampled and tested at any time. The fact that material is used on the basis of a Certificate of Compliance shall not relieve the Contractor of responsibility for incorporating material in the Work which conforms to the requirements of the Contract Documents and any such material not conforming to such requirements will be subject to rejection whether in place or not.

The Department reserves the right to refuse to permit the use of material on the basis of a Certificate of Compliance.

The form of the Certificate of Compliance and its disposition shall be as directed by the Director.

SECTION 5

LEGAL RELATIONS AND RESPONSIBILITY

5-1.01 **LAWS TO BE OBSERVED.** The Contractor shall keep informed of and observe, and comply with and cause all of its agents and employees to observe and comply with, all prevailing Federal and State laws, and rules and regulations made pursuant to said Federal and State laws, and county and municipal ordinances, and regulations, which in any way affect the conduct of the Contract. If any conflict arises between provisions of the Contract and any such law above referred to, the Contractor shall notify the Director at once in writing. To the fullest extent allowed by law, the Contractor shall defend, indemnify, and save and hold harmless the City or any of its officers, agents, employees, and volunteers against any claim or liability arising from or based on the violation of any such law, rule, or regulation, whether by itself or its agents or employees.

5-1.02 **HOURS OF LABOR.** Eight (8) hours labor constitutes a legal Day's work. The Contractor or Subcontractor shall, as a penalty to City, forfeit Twenty-five Dollars (\$25) for each worker employed in the execution of the contract by the respective Contractor or Subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one (1) calendar day and forty (40) hours in any one (1) calendar week in violation of the provisions of the Labor Code, and in particular, Section 1810 to Section 1815, thereof, inclusive, except that Work performed by employees of Contractors in excess of eight (8) hours per day, and forty (40) hours during any one (1) week, shall be permitted upon public work upon compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half (1-1/2) times the basic rate of pay, as provided in said

Section 1815. In addition, Contractor and/or its Subcontractors may be required to pay double the basic rate of pay for all hours worked in excess of twelve (12) hours in any workday and under other circumstances. (See California Code of Regulations, Title 8, Sections 16100(c)(6) and (16200(a)(3)(F) and applicable Department of Industrial Relations prevailing wage determinations.)

5-1.03 **NONDISCRIMINATION.**

A. Attention is directed to Labor Code Section 1735, which reads as follows:

“A contractor shall not discriminate in the employment of persons upon public works on any basis listed in subdivision (a) of Section 12940 of the Government Code, as those bases are defined in Sections 12926 and 12926.1 of the Government Code, except as otherwise provided in Section 12940 of the Government Code. Every Contractor for public works who violates this section is subject to all the penalties imposed for a violation of this chapter.”

B. During the performance of this Contract, Contractor and its Subcontractors shall not unlawfully discriminate against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. The Contractor and Subcontractors shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination. The Contractor and Subcontractors shall comply with the provisions of the California Fair Employment and Housing Act (Government Code §12900, et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, §7285.0 et seq.) and other applicable State and Federal regulations and City

policies pertaining to nondiscrimination and affirmative action which are incorporated into this Agreement by reference and made a part hereof as if set forth in full. The Contractor and its Subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement.

C. Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform Work under the agreement.

5-1.04 **PREVAILING WAGE.** The Contractor and any Subcontractor shall comply with Labor Code Sections 1770 et seq. In accordance with said Section 1775 the Contractor and any Subcontractor under the Contractor shall, as a penalty, forfeit to the state or City not more than \$200 for each calendar day or portion thereof, for each worker paid less than the prevailing rate as determined by the Director of Industrial Relations for the work or craft in which such worker is employed for under the Contract by the Contractor or by any Subcontractor under the Contractor.

The amount of the penalty shall be determined by the Labor Commissioner based on consideration of both of the following: (a) whether the failure to pay the correct rate of per diem wages was a good-faith mistake and, if so, whether the error was promptly and voluntarily corrected when brought to the attention of the Contractor or Subcontractor; and (b) whether the Contractor or Subcontractor has a prior record of failing to meet its prevailing wage obligations.

The penalty may not be less than forty dollars (\$40) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, unless the failure of the Contractor or Subcontractor to pay the correct rate of per diem wages was a good faith mistake and, if so, the error was promptly and voluntarily corrected when brought to the attention of the Contractor or Subcontractor.

The penalty may not be less than eighty dollars (\$80) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, if the Contractor or Subcontractor has been assessed penalties within the previous three (3) years for failing to meet its prevailing wage obligations on a separate contract, unless those penalties were subsequently withdrawn or overturned.

The penalty may not be less than one hundred twenty dollars (\$120) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, if the Labor Commissioner determines that the violation was willful, as defined in subdivision (c) of Section 1777.1 of the Labor Code.

If the amount due under this section is collected from the Contractor or Subcontractor, any outstanding wage claim under Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code against the Contractor or Subcontractor shall be satisfied before applying that amount to the penalty imposed on that Contractor or Subcontractor pursuant to this section.

The determination of the Labor Commissioner as to the amount of the penalty shall be reviewable only for an abuse of discretion.

In addition to said penalty, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by the Contractor or Subcontractor.

If a worker employed by a Subcontractor on a public works project is not paid the general prevailing per diem wages by the Subcontractor, the Contractor is not liable for any penalties described above unless the Contractor had knowledge of that failure of the Subcontractor to pay

the specified prevailing rate of wages to those workers or unless the Contractor fails to comply with all of the following requirements:

1. The contract executed between the Contractor and the Subcontractor for the performance of work on the public works project shall include a copy of the provisions of Sections 1771, 1776, 177.5, 1813, and 1815 of the Labor Code.
2. The Contractor shall monitor the payment of the specified general prevailing rate of per diem wages by the Subcontractor to the employees, by periodic review of the certified payroll records of the Subcontractor.
3. Upon become aware of the Subcontractor's failure to pay its workers the specified prevailing rate of wages, the Contractor shall diligently take corrective action to halt or rectify the failure, including, but not limited to, retaining sufficient funds due the Subcontractor for work performed on the public works project.
4. Prior to making final payment to the Subcontractor for work performed on the public works project, the Contractor shall obtain an affidavit signed under penalty of perjury from the Subcontractor that the Subcontractor has paid the specified general prevailing rate of per diem wages to its employees on the public works project and any amount due pursuant to 1813 of the Labor Code.

Pursuant to Section 1775 of the Labor Code, the Division of Labor Standards Enforcement shall notify the Contractor on a public works project within fifteen (15) Days of the receipt by the Division of Labor Standards Enforcement of a complaint of the failure of a Subcontractor on that public works project to pay workers the general prevailing rate per diem wages.

Pursuant to the provisions of California Labor Code Section 1773, the City has obtained

the general prevailing rate of wages applicable to the categories of workers the City anticipates will be utilized for this project for straight time, overtime, Saturday, Sunday, and holiday Work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned or, if no collective bargaining applies, those holidays identified in Government Code Section 6700. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>, which is incorporated herein as a part of this Contract.

Pursuant to Labor Code Section 1773.2, the general prevailing wage rates set forth above, which forms a part of this Contract, shall be posted by the Contractor at a prominent place at the site of the Work.

Pursuant to Labor Code Section 1773.6 and California Code of Regulations Section 16204, Title 8, changes in general prevailing wage determinations shall apply to the project only if issued by the Director of Industrial Relations prior to the City's bid issuance date.

The City will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the prevailing wage rate set forth in the Contract. The possibility of wage increases is one of the elements to be considered by the Contractor in determining its Bid, and will not under any circumstances be considered as the basis of a claim against the City or Contract.

When both California and Federal prevailing wage rates apply, the Contractor and any Subcontractors shall pay their workers the higher of the two rates. The Contractor and any Subcontractors shall insert this clause in any lower tier contract.

5-1.05 **REGISTRATION REQUIRED AS QUALIFICATION TO BID.**

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a Contractor or Subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contractor for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5.

5-1.06 **PAYROLL RECORDS.** The Contractor's attention is directed to the following provisions of Labor Code Section 1776. The Contractor shall be responsible for the compliance with these provisions by its Subcontractors.

A. The Contractor and each Subcontractor shall keep accurate and current payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by it in connection with the public work. Each payroll record shall contain or be verified by a written declaration that is made under penalty of perjury, stating both of the following:

1. The information contained in the payroll record is true and correct.
2. The employer has complied with the requirements of Section 1771, 1811, and 1815 for any work performed by his or her employees on the public works project.

B. The payroll records enumerated under subdivision (A) shall be available for inspection at all reasonable hours at the principal office of the Contractor on the following

basis:

1. A certified copy of an employee's payroll record shall be made available for inspection or furnished to such employee or his or her authorized representative on request.

2. A certified copy of all payroll records enumerated in subdivision (A) shall be made available for inspection or furnished upon request to a representative of the City, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations. The City reserves the right to withhold any progress payments to the Contractor in the event of noncompliance with the subsection.

3. A certified copy of all payroll records enumerated in subdivision (A) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the City, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. The public shall not be given access to such records at the principal office of the Contractor.

C. The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the Division.

D. Each Contractor shall file a certified copy of the records enumerated in subdivision (A) with the entity that requested the records within ten (10) Days after receipt of a written request.

E. Any copy of the records made available for inspection as copies and furnished upon request to the public or any public agency by the City, the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement shall be marked or

obliterated to prevent disclosure of an individual's name, address and social security number. The name and address of the Contractor awarded the Contract or Subcontractor performing the Contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) shall be marked or obliterated only to prevent the disclosure of an individual's name and social security number. A joint labor-management committee may maintain an action in a court of competent jurisdiction against an employer who fails to comply with Section 1774. The court may award restitution to an employee for unpaid wages and may award the joint labor-management committee reasonable attorneys' fees and costs incurred in maintaining the action. An action under this subdivision may not be based on the employer's misclassification of the craft of a worker on its certified payroll records. Nothing in this subdivision limits any other available remedies for a violation of this section.

F. The Contractor shall inform the City of the location of the records enumerated under subdivision (A), including the street address, city and county, and shall, within five (5) business days, provide a notice of a change of location and address.

G. The Contractor shall have ten (10) Days in which to comply subsequent to receipt of written notice requesting the records enumerated in subdivision (A). In the event that the Contractor or Subcontractor fails to comply within the ten (10) Day period, the Contractor shall, as a penalty to the State or City, forfeit twenty-five (\$25) Dollars for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from any progress payment or final payment then due. A contractor

is not subject to a penalty assessment pursuant to this section due to the failure of a Subcontractor to comply with this section.

5-1.07 **SAFETY REQUIREMENTS.** It is the intent of the parties that the City is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted construction practices and State law, the Contractor shall have the authority and be solely and completely responsible for conditions on the Work Site, including safety of all persons and property during performance of the Work. Moreover, the Contractor shall be the controlling employer and has the authority and responsibility to enforce Work Site safety. The Contractor shall be responsible for conducting daily safety inspections and assuring all hazards and violations are abated. The Contractor is responsible for assuring that all Subcontractors adhere to the minimum Cal/OSHA safety requirements and that each Subcontractor has an effective Cal/OSHA IIPP (Illness and Injury Prevention Program) in place that specifically addresses all potential exposures, such as, but not limited to, fall protection, confined space, and trenching/shoring. These requirements shall apply continuously and not be limited to normal working hours. The Contractor shall be responsible for any delay costs or damages in the event the progress of Work is slowed or stopped due to a safety violation.

The Contractor shall designate a safety officer and have in place a health and safety plan in accordance with the laws of State of California and conduct safety meetings and document them in accordance with the law. The Contractor shall have the safety record available for inspection during working hours and shall submit job site safety meeting reports with each Application for Payment.

Prior to Contractor commencing construction project work on City property, Contractor

shall make available copies of its Health and Safety Plan (HASP) that meets or exceeds applicable Cal/OSHA regulations. The Contractor's HASP shall also meet or exceed the requirements of any applicable City-wide or departmental specific Injury and Illness Prevention Programs (IIPP) and other HASP programs, procedures, and plans. Potentially applicable HASP programs, procedures, and plans include, but are not limited to, the following:

1. Bloodborne Pathogens Exposure Control Plan;
2. Confined Space Entry Procedure;
3. Electrical Safety Program (Lockout/Tagout);
4. Emergency Action Plans (Site Specific);
5. Fire Prevention Plans (Site Specific);
6. Hazardous Waste Operations Emergency Response Plan (or Equivalent);
7. Hazard Communication Program (SDS's and Right-to-Know training);
8. Heat Illness & Prevention Plan;
9. Hearing Conservation Program;
10. Hot Work/Welding Procedure;
11. Job Hazard Analyses/Standard Operating Procedures;
12. Traffic Control & Flagging;
13. Excavation/Dig Safe Procedure;
14. Fall Protection Plan;
15. Personal Protective Equipment Plan;
16. Respirable Crystalline Silica Exposure Control Plan;
17. Respirator Program;
18. Soils Management Plan (for contaminated soils); and

19. Transite (Asbestos) Pipe Work Procedure.

Additionally, Contractor shall be responsible for complying with all City-wide and departmental specific safety requirements as identified in the Supplemental Conditions or presented at a pre-construction meeting.

Contractor shall inform City in advance of the quantity of chemical(s) to be used for the project and the total quantity of chemical(s) that will be brought onto City property. In addition, Contractor shall provide City with one copy of the Safety Data Sheet (SDS) for each chemical expected to be used to complete the project and for each chemical brought to the Work Site, regardless of whether such chemicals are ultimately used for the project.

The services of the Director in conducting construction review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's Work methods, equipment, bracing or scaffolding, or safety measures, in, on, or near the construction site. If a City employee observes a safety violation, the City employee will report the violation to the Contractor who is then responsible for assuring the violation is abated.

The Contractor is hereby informed that Work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous Work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property. Special care shall be exercised relative to Work underground.

All Work and materials shall be in strict accordance with all applicable State, City, County, and Federal Rules, Regulations, and Codes, and attention is drawn to the requirements of Cal/OSHA. The Contractor shall be solely responsible for compliance with all City, County and State blasting requirements and for any damages caused by its operations.

To ensure compliance with California Labor Code Section 6705, the Contractor shall submit to the City, at least five (5) Days in advance of excavation of any trench five feet (5') or more in depth, Working Drawings to the Director showing the design of shoring, bracing, sloping and other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such Working Drawings vary from the shoring system standards established by the Cal/OSHA Construction Safety Orders of the Division of Industrial Safety, the plan shall be prepared and signed by a registered civil or structural engineer in the State of California. This in no way relieves the Contractor from the requirement of maintaining safety in all operations performed by the Contractor or the Contractor's Subcontractors and nothing in this section shall be deemed to allow the use of a shoring, sloping or protective system less effective than that required by the Cal/OSHA Construction Safety Orders of the Division of Industrial Safety Contractor's Working Drawings shall be subject to approval insofar as the details affect the character of the finished Work and for compliance with design requirements applicable to the construction when specified or called for, but details of the design will be left to Contractor who shall be responsible for the successful construction of the Work. The City shall approve Working Drawings before any Work involving such drawings is performed. Approval and/or acceptance by the City or its designated agent only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions or criteria, completeness of submissions, applicability to areas of intended use, nor implementation of the plans, which are solely the responsibility of the Contractor and its registered engineer.

The Contractor shall perform its Work as not to expose personnel to, or to discharge into the atmosphere from any source whatever, smoke, dust, asbestos, toxic chemicals or other air

contaminants in violation of the laws, rules, and regulations of the governmental entities having jurisdiction and shall bear full and exclusive responsibility for any release of hazardous or non-hazardous chemicals or substances during the course of the Work. The Contractor shall immediately report any such release to the City. The Contractor shall be solely responsible for all claims and expenses associated with the response to, removal and remediation of the release, including, without limitation, payment of any fines or penalties levied against the City by any agency as a result of such release and shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees, and volunteers from any claims arising from such release. For purposes of this section only, the term “claims” shall include:

1. All notices, orders, directives, administrative or judicial proceedings, fines, penalties, fees, or charges imposed by any governmental agency with jurisdiction; and
2. Any claim, cause of action, or administrative or judicial proceeding brought against the City, its officers, agents, employees, and volunteers for any loss, cost (including reasonable attorneys’ fees), damage or liability, sustained or suffered by any person or entity, including the City.

If the performance of the Work creates any hazardous wastes, those wastes shall be properly disposed of according to federal, state, and local laws, at the expense of the Contractor. The Contractor shall dispose of the wastes under its own EPA Generator Number. In no event shall the City be identified as the generator. The Contractor shall notify the City of any such hazardous wastes and the City reserves the right to a copy of the results of any tests conducted on the wastes, and, at its cost, to perform additional tests or examine those wastes, prior to disposition. The Contractor shall defend, indemnify, and save and hold harmless the City, its

officers, agents, employees, and volunteers from any claims arising from the disposal of the hazardous wastes, regardless of the absence of negligence or other malfeasance by the Contractor. Disposal of all Hazardous Materials must be done in accordance with all laws and regulations. Copies of required regulatory documentation including copies of final manifests shall be supplied to the City.

Contractors or Subcontractors removing one hundred or more square feet (100') of asbestos must be "Certified" in accordance with State law. All Work involving exposure to asbestos and all other hazardous materials shall be performed with protection of personnel in compliance with all applicable regulations and safety requirements including, but not limited to, California Code of Regulations Section 1529, Title 8.

Nothing in these General Conditions is to be construed to permit Work not conforming to governing codes. When Contract Documents differ from governing codes, the Contractor shall furnish and Install the higher standards called for without extra charge.

5-1.08 **SUBSURFACE EXCAVATIONS, NOTIFICATION.** The Contractor shall contact the regional notification center, "Underground Service Alert," and schedule its Work to allow ample time for the center to notify its members and, if necessary, for any member to field locate and mark its facilities. Without limiting the foregoing, the Contractor's attention is directed to Government Code Sections 4216 to 4216.9, and in particular Section 4216.2.

5-1.09 **PUBLIC SAFETY.** The Contractor shall assume all responsibility for public safety during the performance of its Work, and all costs arising therefrom shall be included in the Contract Price. Whenever the Contractor's operations create a condition hazardous to traffic or to the public, it shall furnish, erect and maintain, at its expense, such fences, barricades, lights, signs, and other devices and take such other protective measures as are

necessary to prevent accidents or damage or injury to the public. The Contractor shall establish the pedestrian detours with comparable lighting to the original pedestrian areas. The Contractor shall arrange for such flaggers as are necessary to give adequate warning to traffic or to the public of any dangerous conditions affecting traffic. For Work in a public right-of-way, the Contractor shall comply with the rules and regulations of the State, County, or local agency that owns the right-of-way.

The Contractor shall promptly and fully comply with and carry out, and shall without separate charge therefor to the City, all safety and first aid requirements prescribed by all applicable Federal, State, and local laws and regulations, rules, and orders. The Work shall be done in a safe manner; and the Contractor shall safeguard the safety and health of its employees, Subcontractors, and the people of local communities. The Contractor shall also be reasonable for ensuring that its Subcontractors comply with the provisions of this section.

Upon the failure of the Contractor to comply with any of the requirements of this section, the City shall have the authority, but not the duty, to stop the Work until such failure is remedied. The Contractor shall not be entitled to an adjustment of the Contract Time or an increase in the Contract Price due to any such suspensions.

When required by the Contract Documents, the Contractor shall construct, maintain, and remove detours for use of public traffic, without additional cost to the City, unless separate payment is specified in the Special Provisions.

The failure or refusal of the Contractor to construct and maintain detours at the proper time shall be sufficient cause for closing down the work until such detours are in satisfactory condition for use by public traffic.

Due care shall be exercised to avoid injury to existing improvements or facilities, utility

facilities, adjacent property and trees, shrubs, and other plants that are not to be removed.

Trees, shrubs and other plants that are not to be removed, and pole lines, fences, signs, survey markers and monuments, buildings and structures, conduits, pipe lines, sewer and waterlines, highway facilities, and any other improvements or facilities, under or above ground, that are within or adjacent to the work limit line shall be protected from injury or damage, and the Contractor shall provide and Install suitable safeguards to protect such objects from injury or damage. If such objects are injured or damaged by reason of the Contractor's operations, they shall be replaced or restored at the Contractor's expense. The facilities shall be replaced or restored to a condition as good as when the Contractor entered upon the Work Site, or as good as required by the Contract Documents if any such objects are part of the Work. The City may make or cause to be made such temporary repairs as are necessary to restore to service any damaged facility. The cost of such repairs shall be borne by the Contractor, and the costs may be deducted from any monies due or to become due to the Contractor under the Agreement.

The fact that any underground facilities is not shown on the Contract Drawings shall not relieve the Contractor of its responsibility pursuant to "Utility Facilities" in Section 2-1.12 elsewhere in the Contract Documents. It shall be the Contractor's responsibility, pursuant thereto, to ascertain the location of such underground improvements or facilities, which may be subject to damage by reason of its operations.

Full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the Work involved in protecting or repairing property as specified in this section, shall be considered as included in the prices paid for the various Contract items of work and no additional compensation will be allowed therefor.

5-1.10 **EMERGENCIES.** In an Emergency affecting the safety of life, the

Work, or adjoining property, the Contractor, without special instructions or authorization from the City, shall act at its discretion to prevent such threatened loss or injury. In such an Emergency, the Contractor may perform such additional work as is reasonably required. Any compensation claimed by the Contractor on account of Work performed to an Emergency shall be determined in accordance with the provisions relating to Force Account payment contained elsewhere in the Contract Documents.

5-1.11 **APPRENTICES.** Attention is directed to Labor Code Sections 1777.5, 1777.6 and 1777.7 and Title 8, California Code of Regulations Section 200 et seq. In accordance with Section 1777.5, the Contractor shall secure the necessary certificates and shall contribute to the apprenticeship fund or funds, as provided therein. The Contractor shall require each Subcontractor who will perform work or labor or render service to the Contractor in or about the construction of the work to fully comply with Sections 1777.5 and 1777.6 of the Labor Code. To insure compliance and complete understanding of the law regarding apprentices, and specifically the required ratio thereunder, each Contractor or Subcontractor should, where some questions exist, contact the Division of Apprenticeship Standards, , or one of its branch offices prior to commencement of Work on the public works Contract. Responsibility for compliance with this section lies with the prime Contractor.

It is State and City policy to encourage the employment and training of apprentices on public works Contracts as may be permitted under local apprenticeship standards.

5-1.12 **FAIR LABOR STANDARDS ACT.** Attention is invited to the fact that the City has been advised by the Wage and Hour Division, U.S. Department of Labor, that Contractors engaged in construction Work are required to meet the provisions of the Fair Labor Standards Act of 1958 and as amended (52 Stat. 1060).

5-1.13 **WORKERS' COMPENSATION.** Pursuant to the requirements of Labor Code Section 1860, the Contractor will be required to secure the payment of workers' compensation to its employees in accordance with the provisions of Labor Code Section 3700.

Prior to the commencement of Work, the Contractor shall sign and file with the Director a certification in the following form:

“I am aware of the provisions of Labor Code Section 3700 which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the Work of this Contract.”

5-1.14 **AIR POLLUTION CONTROL AND ASBESTOS.** The Contractor shall comply with all air pollution control rules, regulations, ordinances and statutes which apply to any Work performed pursuant to the Contract, including any air pollution control rules, regulations, ordinances and statutes, specified in Government Code Section 11017.

In the absence of any applicable air pollution control rules, regulations, ordinances or statutes governing solvents, all solvents, including but not limited to the solvent portions of paints, thinners, curing compounds, and liquid asphalt used on the project shall comply with the applicable material requirements of the applicable Air Quality Management District. All containers of solvent, paint, thinner, curing compound, or liquid asphalt shall be labeled to indicate that the contents fully comply with said requirements.

Unless otherwise provided in the Supplemental Conditions, material to be disposed of shall not be burned, either inside or outside the Premises.

The Contractor shall also comply with all rules, regulations, statutes and ordinances

regarding asbestos removal and disposal, including but not limited to, 42 U.S.C. Sections 7401, 7412 and 7601, 40 C.F.R. Part 61, Subpart M, and California Code of Regulations Section 1529, Title 8.

If the Contractor discovers that a building to be demolished or renovated contains asbestos containing material, the Contractor shall immediately cease Work and notify the City.

5-1.15 **USE OF PESTICIDES.** The Contractor shall comply with all local, state and federal rules and regulations of the Department of Food and Agriculture, the Department of Health, the Department of Industrial Relations and all other agencies which govern the use of pesticides required in the performance of the Work.

Pesticides shall include but shall not be limited to herbicides, insecticides, fungicides, rodenticides, germicides, nematocides, bactericides, inhibitors, fumigants, defoliants, desiccants, soil sterilants, and repellents.

Any substance or mixture of substances intended for preventing, repelling, mitigating, or destroying weed, insects, diseases, rodents, or nematodes and any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant shall be considered as pesticide.

5-1.16 **SOUND AND LIGHT CONTROL REQUIREMENTS.** The Contractor shall comply with all local sound control, light control, and noise level rules, regulations and ordinances which apply to any Work performed pursuant to the Contract. Work shall not begin before 7 a.m. nor occur after 7 p.m., unless otherwise permitted by the City.

Each internal combustion engine, used for any purpose on the Work or related to the Work, shall be equipped with a muffler, in good working order, of a type recommended by the manufacturer. No internal combustion engine shall be operated on the project without said

muffler.

5-1.17 **WEIGHT LIMITATIONS.** Unless expressly permitted elsewhere in the Contract Documents, the Contractor shall not operate construction equipment or vehicles of any kind which, laden or unladen, exceed the maximum weight limits set forth in Division 15 of the Vehicle Code over completed or existing base, surfacing, pavement or structures.

5-1.18 **ENVIRONMENTAL CLEARANCES; MITIGATION MONITORING PROGRAMS; AND REGULATORY AGENCY PERMIT REQUIREMENTS.** The Department will obtain all environmental clearances and other authorizations necessary for this project as set forth in the Contract Documents. The Contractor shall comply with the provisions, including giving notices during construction when required, of said authorizations. In the event the obtaining of said authorizations delays completion of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions will be granted.

Contractor shall comply with: (1) all mitigation identified in the mitigation monitoring program (attached to and adopted as a component of the mitigated negative declaration or Environmental Impact Report) to mitigate impacts to protected natural resources; and (2) all related permit requirements issued by the regulatory agencies authorizing the project. Contractor shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees, and volunteers from any fines, claims, suits, actions or regulatory sanctions of every name, kind and description brought forth, or on account of, damage to protected natural resources from or arising out of Contractor's negligence or willful misconduct in the performance of this Agreement.

5-1.19 **PERMITS AND LICENSES.** The Contractor acknowledges and agrees that, prior to the submission of its bid for the Work, it fully familiarized itself with the

requirements of all applicable federal, state, county and municipal laws, codes, rules, and regulations, as well as the conditions of any required licenses and permits.

The Contractor shall procure all permits and licenses, including any applicable building permits (except those procured or to be procured by the City which are listed elsewhere in the Contract Documents), in coordination with the Director, pay all charges and fees, and give all notices necessary and incident to the due and lawful prosecution of the Work. Contractor shall be responsible for applying, paying all fees, and coordination for obtaining all permits for completion of the Work. All permits and licenses shall be obtained in sufficient time to prevent delays to the Work. Contractor will apply to the City for reimbursement for such permits costs. Accordingly, Contractor should not include the anticipated costs for permits in its bid, as the necessary permit costs will be reimbursed by the City.

The California Environmental Quality Act (Public Resources Code, Section 21000 to 21177) may be applicable to permits, licenses and other authorizations which the Contractor must obtain from State or local agencies in connection with performing the Work. The Contractor shall comply with the provisions of that Act in obtaining such permits, licenses and other authorizations, and all permits, licenses and other authorizations shall be obtained in sufficient time to prevent delays to the Work.

The Contractor shall maintain the applicable Contractor's license as identified in the Notice to Contractors and City business license for the duration of the Work.

5-1.20 **WATER POLLUTION.** The Contractor shall comply with all water pollution control rules, regulations, ordinances and statutes which apply to any Work performed pursuant to the Contract, including any water pollution control rules, regulations, and statutes, specified by the most current State of California NPDES General Permit for Stormwater

Discharges Associated with Construction Activity.

The Contractor shall take all necessary precaution to protect streams, vernal pools, ponds, reservoirs, and lakes from pollution with fuels, oils, bitumen, calcium chloride, and other harmful materials as consistent with the law. Also, the Contractor shall conduct and schedule operations so as to avoid discharging pollutants, such as but not limited to: sediment and silt to the storm drain system. The storm drain system consists of all facilities that are designed to convey stormwater to the Waters of the State as defined in the California Water Code. The storm drain system includes, but is not limited to, all streets, gutters, drain inlets, roadside ditches, streams, vernal pools, ponds, and lakes. Care shall be exercised to preserve roadside vegetation beyond the limits of construction.

5-1.21 **PROTECTION AND USE OF PROPERTY.** The Contractor shall be responsible for and provide and maintain all proper temporary walkways, covered walkways, barriers, roads, guards, railings, lights, warning signs, and take precaution at all times to avoid injury or damage to any person or any property, and upon completion of the Work, or at other times as directed, restore Premises and adjacent property to a proper condition. In the event of such injury or damage, Contractor shall report such injury and damage to City within forty-eight (48) hours of occurrence.

The Contractor shall protect adjoining property and nearby buildings, including City buildings, City roads, and public streets or roads, from dust, dirt, debris, or the nuisance arising out of the Contractor's operations or storage practices, and, if ordered by the Director, the Contractor shall provide and Install suitable safeguards, approved by the Director, to protect such objects from damage. If such objects are damaged by reason of the Contractor's operations, they shall be replaced or restored at the Contractor's expense.

If the Contractor damages any buildings, roads, utilities, or other property which belong to the City, or any Department or agency thereof, then the Director, at his or her option, may retain from the money due under the Contract an amount sufficient to insure repair of the damage.

The Director may make or cause to be made such temporary repairs as are necessary to restore to service any such damaged facility. The cost of such repairs shall be borne by the Contractor and may be deducted from any moneys due or to become due the Contractor under the Contract.

5-1.22 **RESPONSIBILITY FOR DAMAGE AND INDEMNIFICATION.**

The City of Roseville, its officers, agents, employees, and volunteers, including but not limited to the Director and his or her designee, shall not be answerable or accountable in any manner: for any loss or damage that may happen to the Work or any part thereof; for any loss or damage to any of the materials or other things used or employed in performing the Work; for injury to or death of any person, either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, its workers, or anyone employed by the Contractor or the Contractor's Subcontractors.

The Contractor shall be responsible for any liability imposed by law and for injuries to, or death of, any person including, but not limited to, workers and the public, or damage to property resulting from defects or obstructions, or from any cause whatsoever during the progress of the Work or at any time before its completion and final Acceptance.

To the fullest extent allowed by law, the Contractor shall defend (through counsel acceptable to the City), indemnify, and save and hold harmless the City, and its respective officers, agents, Subcontractors, employees, and volunteers, and the successors and assigns of

any of them, (hereinafter referred to as “Indemnitees”) from and against all claims, demands, liability, suits, actions, costs or expenses for any and all loss or damage, including but not limited to, personal injury, property damage, or economic loss, arising out of or resulting from allegations of (1) Contractor’s use of the City’s property or any activities or Work performed hereunder by the Contractor; (2) the Contractor’s performance of the Work under the Agreement; or (3) the Contractor’s breach of any provision of the Agreement. The duty of the Contractor to indemnify and save harmless includes the duties to defend as set forth in Civil Code Section 2778. The only exception to these provisions is that the Contractor’s obligations under this section will not apply to the extent that the claims, demands, liability, suits, actions, costs or expenses are caused by Indemnitees’ active negligence, willful misconduct, criminal acts, or for defects in design furnished by the Indemnitees, misconduct, criminal acts, or for defects in design furnished by the Indemnitees.

The Contractor waives any and all rights to any type of express or implied indemnity against the City, its officers, agents, employees, or volunteers.

The Contractor’s responsibility for such defense and indemnity obligations shall survive the termination or completion of this Contract for the full period of time allowed by law. The defense and indemnity obligations of this Contract are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Contract. The parties intend that the defense and indemnity obligations in this Contract shall be broadly construed.

Any person, firm or corporation that Contractor authorizes to Work on the City’s property including Subcontractors, shall be deemed to be an agent of the Contractor for purposes herein, shall be subject to all the applicable terms herein, and shall be within the scope of the Contractor’s indemnity obligation described herein.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the Department may be retained by the City until disposition has been made of such suits or claims for damages.

The retention of money due the Contractor shall be subject to the following:

A. The City will give the Contractor thirty (30) Days' notice of its intention to retain funds from any partial payment which may become due to the Contractor prior to Acceptance of the Contract. Retention of funds from any payment made after Acceptance of the Contract may be made without such prior notice to the Contractor.

B. No retention of additional amounts out of partial payments will be made if the amount to be retained does not exceed the amount being withheld from partial payments pursuant to Section 7-1.07, "Progress Payments," of these General Conditions.

C. If the City has retained funds and it is subsequently determined that the City is not entitled to be indemnified and saved harmless by the Contractor in connection with matter for which such retention was made, the Department shall be liable for interest on the amount retained at the legal rate of interest for the period of such retention.

5-1.23 **INSURANCE COVERAGE.**

A. **Evidence of Maintenance Required.** The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall

provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. Commercial General Liability (CGL): Insurance Services Office Form CG 00 01 covering CGL on an “occurrence” basis, including products and completed operations with limits of no less than Two Million Dollars (\$2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars (\$1,000,000) and limits of no less than Five Million Dollars (\$5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars (\$1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers’ compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL

Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. Automobile Liability: Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9

(non-owned), with limits of no less than One Million Dollars (\$1,000,000) per accident for bodily injury and property damage.

3. Workers' Compensation: In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars (\$1,000,000) shall cover all Contractors staff while performing any work incidental to the performance of this Agreement.

4. Professional Liability: Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars (\$1,000,000) per occurrence or claim and Two Million Dollars (\$2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. Builder's Risk/Course of Construction Insurance (If Required by Risk Management): The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards

including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. Pollution Coverage: Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars (\$2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. Higher Coverage Limits: If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. Claims Made Coverage: Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

5-1.24 **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor’s work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these

same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars (\$500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured

retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

5-1.25 **THIRD PARTY BENEFICIARY.** No provisions in the Contract Documents shall in any way inure to the benefit any third party (including the public at large or any member thereof) so as to constitute such person a third party beneficiary of the Contract, or of any term or condition or other provision of the Contract or otherwise give rise to any cause of action in any person not a party to the Agreement, except as expressly provided elsewhere in the Contract Documents.

5-1.26 **COORDINATION AND ACCESS.** The Contractor acknowledges that the City may award, or has already awarded, other construction contracts for additional work or may perform additional work with its own forces and that such work may affect the Work under this Agreement. Additionally, the Contractor acknowledges that the State and other public and private agencies may be granted a right-of-entry by the City for the purpose of constructing

facilities within and adjacent to the Work Site. It is the obligation of the Contractor to coordinate its Work with the work of others working within or adjacent to the City's property.

During performance of its Work, the Contractor shall not have exclusive access to or use of the work areas. The City may also require that certain facilities and areas be used concurrently by the Contractor and by other contractors working in the area. When two (2) or more contractors are employed on related or adjacent City work, each shall conduct its operations in such a manner as not to cause any unnecessary delay or hindrance to the other. Each contractor shall be responsible to the other for all damage to any work, to persons or property caused to the other by its operations, and for loss caused the other due to any unnecessary delays or failure to finish the work within the time specified for completion.

If any party of the Contractor's Work depends on the work of any other contractor and/or the City for proper execution and/or results, the Contractor shall promptly notify the City of any discrepancies and/or defects in said other work that would render its work unsuitable for proper execution and/or results prior to proceeding with the Contractor's own Work. If it becomes necessary, the City will resolve coordination and access problems.

The Contractor and its representative in charge of the Work shall familiarize themselves with the City's property and Work Site, and adjacent surroundings in the vicinity of said Work, and any private or public operations on adjoining properties.

5-1.27 **OCCUPANCY BY THE DEPARTMENT PRIOR TO**

ACCEPTANCE. The City may at any time notify the Contractor in writing that it intends to take Beneficial Occupancy of any portion of the Work even though the Work may not be substantially complete. Unless the reason for the City's taking Beneficial Occupancy is that the Contractor has not completed the Work (or portions thereof) in accordance with the Contract

Time, the City's Beneficial Occupancy shall relieve the Contractor from its responsibility for maintenance, loss or damage to that portion of the Work for which the City has taken Beneficial Occupancy other than that resulting from the Contractor's act or omission, negligence, willful misconduct or breach of warranty.

Should the Work (or portion thereof) not be completed in accordance with the Construction Schedule within the Contract Time (as adjusted under the terms of the Contract Documents), the City shall have the right, but not the obligation, to take Beneficial Occupancy of the Work. In such event, the Contractor shall not be entitled to any additional compensation on account of said occupancy by the City, nor shall the Contractor be relieved of any of its responsibilities under the Contract Documents, including, without limitation, Contractor's obligation to complete the Work in accordance with the Construction Schedule.

Beneficial Occupancy shall not be deemed an Acceptance by the City either of the Work or of any portion thereof, nor will it relieve the Contractor of full responsibility for correcting defective Work or materials found at any time before the formal written Acceptance of the entire Contract by the Director or during the full warranty period after such Acceptance, as provided in Section 7-1.12, "Warranty," of these General Conditions.

The City's Beneficial Occupancy shall not relieve the Contractor of its responsibility to maintain all insurance and bonds required under the Contract Documents until the entire project is accepted by the City.

5-1.28 **RIGHT TO OPERATE UNSATISFACTORY FACILITIES AND EQUIPMENT.** If, after Installation, the operation or use of the facilities or equipment to be furnished under this Contract proves to be unsatisfactory to the Director, the City shall have the right to operate and use such facilities or equipment until they can, without damage to the City,

be taken out of service for correction or replacement. Such period of use of the defective facilities or equipment, pending correction or replacement, shall in no way decrease the warranty period required for the acceptable corrected or replaced facilities or equipment.

5-1.29 **CONTRACTOR'S RESPONSIBILITY FOR THE WORK.** Except as otherwise provided herein, the Contractor shall have the charge and care of the Work and shall bear the risk of injury or damage to any part of the Work by the action of the elements or from any other cause whether arising from the execution or from the nonexecution of the Work until the Acceptance of the Contract by the Director. The Contractor shall rebuild, repair, restore, and make good all injuries or damages to any portion of the Work occasioned by any cause before its completion and Acceptance, and shall bear the expense thereof. In case of suspension of Work from any cause whatever, the Contractor shall be responsible for the Work and it shall also be responsible for all materials, and shall properly store them if necessary, and shall provide suitable drainage and erect temporary structures where necessary.

The Contractor will be relieved of responsibility for any injury or damage to the Work caused by the following:

- A. An earthquake in excess of a magnitude of 3.5 on the Richter Scale or a tidal wave, when the effect of such has been proclaimed a disaster or state of emergency by the Governor of the State of California or by the President of the United States, or was of such magnitude at the site of the Work as to have been sufficient to have caused a proclamation of disaster or state of emergency, had it occurred in a populated area.
- B. Occupancy and use by the Department or the public prior to the completion of the entire project.
- C. Acts of the Federal Government or the public enemy.

5-1.30 **RESPONSIBILITY FOR UTILITIES.** The Contractor shall be responsible at its own cost for any and all Work, expense or special precautions caused or required by the existence or proximity of utilities encountered in performing the Work, including without limitation, repair of any or all damage and all hand or exploratory excavation required. The Contractor is cautioned that such utilities may include communication cables or electrical cables which may be high voltage, and when working or excavating in the vicinity of such cables, or the ducts enclosing such cables, the Contractor shall undertake at its own cost any special precautions required. Suitable warning signs, barricades, and safety devices shall be erected as necessary or required.

However, if during the course of the Work the Contractor encounters utility Installations which are not shown or indicated in the Contract Documents or which are found in a location substantially different from that shown, and such utilities are not reasonably apparent from visual examination, then the Contractor shall promptly notify the Director in writing. Where necessary for the Work of the Contract, the Director shall issue a written order to the Contractor to make such adjustments, rearrangement, repair, removal, alteration, or special handling of such utility, including repair of the damaged utility. The Contractor shall perform the Work described in such written order, and compensation therefor will be made in accordance with Section 3 of these General Conditions relating to changes in the Work. Except for the items of cost specified in said Section 3, the Contractor shall receive no compensation for any other cost, damage, delay, interference, or hindrance to him or her due to the presence of such utility. If the Contractor fails to give the notice specified above and thereafter acts without instructions for the Director, then the Contractor shall be liable for any or subsequent to discovery thereof, and the Contractor shall repair and make good such damage at its own cost.

The precise location of underground facilities can only be determined by careful probing or hand digging in compliance with Article 6 of the Cal/OSHA Construction Safety Orders which states in part:

“Prior to opening an excavation, effort shall be made to determine whether underground installations, i.e., sewer, water, fuel, electric lines, etc., will be encountered, and if so, where such underground installations are located. When the excavation approaches the approximate location of such an installation, the exact location shall be determined by careful probing or hand digging, and, when it is uncovered, adequate protection shall be provided for the existing installation.”

The location of known existing utilities and pipelines are shown on the Contract Drawings in their approximate locations. Some of the locations include multiple conduits. The Contractor shall exercise care in avoiding damage to those facilities which are to remain in service subsequent to the construction of the particular new facility involved and the Contractor will be held responsible for any repairs if damaged. The Contractor shall also exercise care in maintaining those pipes and facilities required for continuing operation of the existing facilities until such time as they can be abandoned. There is no guarantee that all utilities or obstructions are shown on the Contract Drawings or that the locations indicated are accurate.

The Contractor shall exercise extreme caution in working in the area adjacent to the existing pipelines and utility services. It is essential that all the existing facilities be maintained in service. Construction of the connections between the existing facilities and the new facilities shall be at times and during periods acceptable to the City. The Contractor shall advise the Director in writing of its proposed Construction Schedule for these connections at least forty-eight (48) hours in advance.

The Contractor shall uncover all piping and conduits, to a point one foot (1') below the pipe, where crossings, interferences, or connections are shown on the Contract Drawings, prior to trenching or excavating for any pipe or structures, to determine actual elevations. New pipelines shall be laid to such grade as to clear all existing facilities which are to remain in service. If the Contractor does not expose all required utilities, it shall not be entitled to additional compensation for Work necessary to avoid interferences nor for repair to damaged utilities. Excavations around underground electrical ducts and conduits shall be performed using extreme caution to prevent injury or damage to workers and to the electrical ducts or conduits.

5-1.31 **PROPERTY RIGHTS IN MATERIALS.** Nothing in the Contract shall be construed as vesting in the Contractor any right of property in the materials used after they have been attached or affixed to the Work or soil or after partial payment has been made as provided in Section 7-1.07, "Progress Payments," of these General Conditions for material delivered on the ground or stored subject to or under the control of the City and unused. All such material shall become the property of the City upon being so attached or affixed or upon payment for materials delivered on the ground or stored subject to or under the control of the City and unused, as provided in said Section 7-1.07.

5-1.32 **COURT ORDERED DELAY.** If, pursuant to court order, the Department temporarily suspends performance of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions will be granted.

5-1.33 **NO PERSONAL LIABILITY.** Neither the Director, nor any other officer or authorized employee of the City, shall be personally responsible for any liability arising under or by virtue of the Contract.

5-1.34 **RIGHTS IN LAND AND IMPROVEMENTS.** The Contractor shall make no arrangements with any person or entity to permit occupancy or use of any land, structure or building within the limits of the Work, for any purpose whatsoever, either with or without compensation, in conflict with any agreement between the City and any third party owner, former owner, or tenant of such land, structure or buildings. The Contractor shall not occupy City-owned property outside the limit of the Work shown on the Contract Drawings unless it obtains prior approval.

5-1.35 **ANTITRUST CLAIMS.** The Contractor's attention is directed to the following provision of Public Contract Code Section 7103.5(b), which is applicable to the Contractor and its Subcontractors:

“ In entering into a public works contract or a subcontract to supply goods, services, or materials pursuant to a public works contract, the contractor or subcontractor offers and agrees to assign to the awarding body all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 [commencing with Section 16700] of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the contractor, without further acknowledgement by the parties.”

5-1.36 **RIGHTS TO DRAWINGS, TECHNICAL DATA PATENTS.** Shop

Drawings and Working Drawings submitted to the City by the Contractor, Subcontractor or any lower tier Subcontractor pursuant to the Agreement, are the property of the City and the City may use, and disclose in any manner and for any purpose, Shop Drawings and Working Drawings delivered under the Contract.

Technical Data including manuals or instructional materials, computer or microprocessor software which are delivered or submitted to the City by the Contractor, Subcontractor, or any lower tier Subcontract pursuant to the Contract are the property of the City, and the City may use or disclose same in any manner and for any purpose.

The Contractor shall assume all costs arising from the use of patented materials, equipment, devices, or processes used on or incorporated in the Work, and shall defend, indemnify and save and hold harmless the City, and its duly authorized representatives, from all suits at law, or in equity, and actions of every nature for, or on account of the use of any patented materials, equipment, devices or processes. In case some materials, equipment, devices or processes are held to constitute an infringement and their use enjoined, the Contractor, at its expense, shall:

1. Secure for the City the right to continue using said materials, equipment, devices or processes by suspension of the injunction or by procuring a license or licenses; or
2. Replace such materials, equipment, devices, processes; or
3. Modify them so that they become non-infringing or remove the enjoined materials, equipment, devices or processes and refund the sums paid therefor without prejudice to any other rights of the City.

5-1.37 **PAYMENT OF TAXES.** Contractor shall pay all taxes and duties applicable to and assessable against any Work, equipment, materials, services, processes, and

operations incidental to or involved in the Agreement, including but not limited to, retail sales and use, transportation, export, import, business, and special taxes. The Contractor is responsible for ascertaining and acquainting itself with such taxes and making all necessary arrangements to pay them. The Contractor will maintain records that are auditable records, and these records shall be subject to the City's review to verify that Contractor's tax payments are current at all times.

The Contract Price paid for the Work shall include full compensation for all taxes which the Contractor is required to pay, whether imposed by Federal, State or local government, including, without being limited to, Federal excise tax. No tax exemption certificate nor any document designed to exempt the Contractor from payment of any tax will be furnished to the Contractor by the Department, as to any tax on labor, services, materials, transportation, or any other items furnished pursuant to the Contract.

The Contractor shall withhold and pay any and all sales and use taxes, withholding taxes, whether Federal, State, or local, Social Security taxes, State Unemployment Insurance charges and all other taxes which are now or hereafter may be required to be paid or withheld under any laws.

5-1.38 **GRATUITIES AND CONFLICT OF INTEREST.** The Contractor shall not offer or provide gratuities in the form of gifts, entertainment, loans, meals, rewards, and/or services to representatives of the City, including but not limited to, officers, employees, agents, Engineering Service Consultants, Consulting Engineers and Architects, Inspectors and/or Testing Agencies retained by the City. If it is found that the Contractor has violated this provision, the Contract may be subject to termination for default as defined elsewhere in these General Conditions.

During the term of the Contract and until the final payment has been made to the Contractor, the Contractor shall not employ or compensate in any manner whatsoever, the City's officers, employees and authorized representatives, agents, and any Engineering Service Consultants, Consulting Engineers and Architects, Inspectors, and/or Testing Agencies retained by the City. Any exception to the employment or compensation to any of the above named parties must be made in writing by the City. If the Contractor offers or provides employment or compensation to those named above during the term of the Contract, the Contract may be subject to termination for default.

5-1.39 **COOPERATION.** Should construction be under way by City forces or other forces or by other Contractors within or adjacent to the limits of the Work or should Work of any other nature be under way by such forces within or adjacent to said limits, the Contractor shall cooperate with all such forces to the end that any delay, interference or hindrance to their Work will be avoided. The right is reserved to perform other or additional Work at or near the site at any time, by the use of such forces.

5-1.40 **DIGGING TRENCHES OR OTHER EXCAVATIONS.** In the event any work involves digging trenches or other excavations that extend deeper than four feet (4') below the surface, City and Contractor shall comply with the following:

A. The Contractor shall promptly, and before the following conditions are disturbed, notify City in writing of any:

1. Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

2. Subsurface or latent physical conditions at the site differing from those made available to Contractor for inspection as provided in the project proposal.

3. Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in Work of the character provided for in the Contract.

B. The City shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the Work shall issue a Change Order under the procedures described in the Contract.

C. In the event that a dispute arises between the City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the Work, the Contractor shall not be excused from any scheduled completion date provided for by the Contract, but shall proceed with all work to be performed under the Contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties. However, no claim of the Contractor under this clause shall be allowed unless the Contractor has given the notice required by this Section. No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this Contract.

5-1.41 **CONTRACTOR REGISTRATION.** No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Contract, the Contractor and its subcontractors shall have a continuing legal obligation to maintain current

registration with the Department of Industrial Relations. The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

5-1.42 **CITY OF ROSEVILLE ENCROACHMENT PERMITS AND RIGHTS-OF-WAY.** The Contractor need not obtain a separate encroachment permit from the City prior to construction within street rights-of-way or other City rights-of-way. Execution of the Contract by the City shall be deemed an encroachment permit for work required by the Contract within rights-of-way. All work shall conform to the rules and regulations of encroachment permits and shall be subject to the inspection and approval of the Director and City Engineer.

To the extent indicated in the Contract Drawings, the City will provide the rights-of-way over private lands or the site to enable the Contractor to perform its work. The Contractor shall be solely responsible for securing any additional rights-of-way desired by the Contractor. The City will not be a party to nor assume any liability for any separate agreements reached between the Contractor and any third parties with respect to these additional rights-of-way. The Contractor shall procure evidence that agreements are in place with said third parties before the Contractor uses those areas covered by the agreements. Any damage to such private lands caused by the Contractor's operations shall be the sole responsibility of the Contractor.

5-1.43 **CALIFORNIA AIR RESOURCES BOARD REGULATIONS.** The Contractor shall comply with any applicable regulations of the California Air Resources Board ("CARB") set forth below.

A. In-Use Off-Road Diesel-Fueled Fleets. If the Contractor will use vehicles subject to Cal. Code Regs., tit. 13, §§ 2449 et seq. for the project, it shall submit a valid Certificate of

Reported Compliance to the City as provided in § 2449(n).

B. Advanced Clean Fleets. Pursuant to Cal. Code Regs., tit. 13, § 2013(i)(1), the Contractor shall submit to the City either a signed statement stating that it is not subject to the High Priority and Federal Fleets regulation of title 13, CCR section 2015 through 2015.6, or a document evidencing that it is listed on the CARB Advanced Clean Fleets webpage as a compliant fleet.

SECTION 6

PROSECUTION AND PROGRESS

6-1.01 **SUBLETTING AND SUBCONTRACTING.** The Contractor shall be responsible for all Work performed under the Contract. The Contractor shall give its personal attention to the fulfillment of the Contract and shall keep the Work under its control. Nothing in the Contract Documents shall create any contractual relationship between the City and any Subcontractor. The Contractor is fully responsible to the City for the acts and omissions of its Subcontractors of any tier. When any Subcontractor fails to prosecute a portion of the Work in a manner satisfactory to the Director, that Subcontractor shall not again be employed on the Work. Although the sections of the Contract may be arranged according to various trades, or general grouping of the Work, the Contractor is not obligated to sublet the Work in such manner. The Director will not arbitrate disputes among Subcontractors or between Contractor and one or more Subcontractors concerning responsibility for performing any part of the Work.

The on-site production of materials produced by other than the Contractor's own forces shall be considered as subcontracted. The erection, establishment or reopening of on-site plants for production of materials and the operation thereof in the production of materials for use on the Work shall conform to the requirements relating to labor set forth in the Contract Documents.

The Contractor shall also be responsible for coordinating the Work performed by Subcontractors and Suppliers.

The Contractor shall not substitute any person as Subcontractor in place of a Subcontractor listed on its bid proposal without the written approval of the Director. Substitutions must be in accordance with the provisions of the "Subletting and Subcontracting

Fair Practices Act” beginning with Public Contract Code Section 4100. Violations of this Act by the Contractor may subject it to penalties which may include cancellation of Contract, Assessment of ten percent (10%) of the Subcontractor's bid, and disciplinary action by the Contractors State License Board.

The Contractor shall pay any Subcontractors approved by the City for work that has been satisfactorily performed no later than seven (7) Days from the date of Contractor’s receipt of progress payments by the City. Within seven (7) Days after receipt from the City of funds attributable to work performed by a Subcontractor, Contractor shall release any retainage payments withheld to the Subcontractor. In the event Contractor does not make progress payments or release retention to Subcontractors in accordance with the time period specified herein, Contractor may be subject to prompt payment penalties per statute.

6-1.02 **ASSIGNMENT.** The performance of this Contract may not be assigned, except upon the written consent of the City Council of the City of Roseville. Consent will not be given to any proposed assignment which would relieve the original Contractor or its surety of their responsibilities under the Contract nor will the City consent to any assignment of a part of the Work under the Contract.

The Contractor may assign moneys due or to become due to it under the Contract and such assignment will be recognized by the City, if given proper notice thereof, to the extent permitted by law, but any assignment of moneys shall be subject to all proper set-offs in favor of the City and to all deductions provided for in the Contract and particularly all money withheld, whether assigned or not, shall be subject to being used by the City for the completion of the Work in the event that the Contractor should be in default therein.

6-1.03 **BEGINNING OF WORK.** After the execution of the Contract by both

parties, the City will issue the Notice to Proceed upon its determination that it is appropriate for the Contract Time to commence.

The Contractor shall begin Work within fifteen (15) Days after receiving the Notice to Proceed from the Director, subject to the requirements stated elsewhere in the Contract Documents regarding, among other things, the submittal of Baseline Schedule, and shall diligently prosecute the same to completion within the time limit provided in the Supplemental Conditions. Contractor shall also achieve any and all Contract milestones as described elsewhere in the Contract Documents.

The Contractor shall notify the Director, in writing, of its intent to begin Work at least seventy-two (72) hours before Work is begun. The notice shall be delivered to the Director and shall specify the date the Contractor intends to start. If the project has more than one (1) location of Work, a separate notice shall be given for each location.

The Contractor is not authorized to perform any Work until it has received a Notice to Proceed from the City. Should the Contractor begin Work in advance of receiving notice that the Contract has been approved as above provided, any Work performed by it in advance of the said date of approval shall be considered as having been done by the Contractor at its own risk and as a volunteer unless said Contract is so approved thereafter.

6-1.04 **PROGRESS SCHEDULE.**

A. **Preliminary Progress Schedule.** The Contractor shall submit to the Director, within twenty (20) Days after date of the Notice to Proceed, a Preliminary Progress Schedule covering the Contractor's activities over the first three (3) months of operation in detail and the remainder of the project in summary. The Preliminary Progress Schedule shall schedule the project within the Contract Time for completion of the Work, and shall be subject to

favorable review by the Director.

B. CPM Schedule. The Contractor shall submit an acceptable Critical Path Method (CPM) Schedule to the Director within thirty (30) Days after the receipt of the Notice to Proceed. Subsequent revisions to said schedule shall be submitted as set forth hereinafter. The requirement for the CPM schedule is included to allow for adequate planning and execution of the Work, to determine the critical nature of delays, and to assist the Director in appraising the reasonableness of the proposed schedule and evaluating progress of the Work. The CPM schedule submitted under this Section shall utilize a CPM format, either the precedence or arrow diagramming method. The definitions of CPM terms and functions shall be as provided in the Associated General Contractors of America book *CPM in Construction, A Manual for General Contractors*, or a favorably reviewed alternative publication or reference. No progress payment will be made prior to submission and acceptance of the CPM Schedule.

1. The CPM schedule system shall consist of diagrams and accompanying mathematical analyses. The diagrams shall show elements of the project in detail and an entire project summary. Diagrams shall show the order and interdependence of activities and sequence in which the Work is to be accomplished as planned by the Contractor. The basic concept of a network analysis diagram shall be followed to show how the start of a given activity is dependent on the completion of preceding activities and its completion restricts the start of following activities. Detailed network activities shall include, in addition to construction activities, the submittal and favorable review of samples of material and Shop Drawings, the procurement of critical materials and equipment, fabrication of special material and equipment, and their Installation and testing. All activities of the City and the Director that affect progress and required Contract dates for completion of all or parts of the Work shall be shown. The

selection and number of activities shall be subject to favorable review by the Director. Summary networks shall be time scaled. Durations shall be in Days and shall not exceed fifteen (15) Days, except for submittal and delivery items. Where the duration of continuous Work exceeds fifteen (15) Days, Work items in the Construction Schedule shall be subdivided by location, approximate stationing or other sub-element of the Work.

The graphic network diagram shall include for each activity, the description, activity number, the estimated duration in Days, and all activity relationship lines. The network diagram shall be drawn for the early start of activities. All significant Submittals shall be scheduled along with manual Submittals and training on all large or critical pieces of equipment. If the precedence technique is utilized, the schedule project shall include a calendar in Work Days, a network report sorted by early start and a logic table report sorted by preceding Work item. If the arrow technique is utilized, the schedule report shall include a calendar in Work Days, a network report sorted by early start, a network report sorted by I-J numbers, and a network sorted by slack time and I-J numbers.

2. The critical path shall be shown on all reports and on the graphic network diagram. The activities which constitute the critical path shall be identified.

3. The mathematical analysis of the network diagram shall include a tabulation of each activity. The following information shall be furnished as a minimum for each activity:

- (a) preceding and following event numbers
- (b) activity description and number
- (c) estimated duration of activities
- (d) earliest start date (by calendar date)

- (e) earliest finish date (by calendar date)
- (f) actual start date (by calendar date)
- (g) actual finish date (by calendar date)
- (h) latest start date (by calendar date)
- (i) latest finish date (by calendar date)
- (j) slack or float
- (k) percentage of activity completed

4. The program shall be capable of accepting revised completion dates as modified by approved time adjustments and recomputations of all tabulation dates and float accordingly.

5. Submission and review of the system shall be as follows:

(a) The complete network analysis system, consisting of the detailed network mathematical analysis and network diagrams, shall be submitted within thirty (30) Days after receipt of the Notice to Proceed.

(b) The Contractor shall participate in a review and evaluation of the proposed network diagrams and analysis by the Director. Any revisions necessary as a result of this review shall be resubmitted for review by the Director within ten (10) Days. When completed, the favorably reviewed schedule shall then be the schedule to be used by the Contractor for planning, organizing and directing the Work and for reporting progress. If the Contractor thereafter desires to make significant changes in its method of operating and scheduling, the Contractor shall notify the Director in writing stating the reasons for the change.

(c) The Contractor shall submit at monthly intervals a report of the actual construction progress. Each monthly report shall cover a period of approximately thirty

(30) Days ending around the 20th of each month. The monthly reports shall be submitted within ten (10) Days of the end of the reporting period.

(1) If the project is proceeding on schedule, the monthly update report may consist of a marked-up copy of the graphical network diagram. This submittal shall clearly indicate the status of any minor shifts in sequence or schedule and the estimated completion date or percent complete of all activities currently in progress. The Contract completion date shall also be indicated. The Contractor shall submit a narrative report relating to status of construction, the schedule, and factors which may affect the remainder of the schedule. The report shall show the activities or portions of activities completed during the reporting period. The report shall state the percentage of the Work actually completed and scheduled as of the report date and the progress along the critical path in terms of Days ahead or behind the allowable dates.

(2) If, in the opinion of the Director, the project is behind schedule, the monthly report shall include a revised network diagram and/or mathematical analysis showing the Contractor's proposed revised schedule. An analysis of the effect that the delay has on progress along other paths shall also be included in the report. The Contractor shall also submit a narrative report with each updated analysis which shall include but not to be limited to a description of current and anticipated problem areas, delaying factors and their impact, and an explanation of corrective actions taken or proposed.

(3) Periodic report shall be submitted in sufficient copies to cover Contractor needs plus five (5) copies and an available electronic copy to be retained by the Director.

6. To the extent that the favorably reviewed initial Construction Schedule, or revisions thereto, indicate anything not jointly agreed upon, it shall be deemed to be not favorably reviewed by the Director. Any omission of Work from the detailed schedule, otherwise required for Contract compliance, will not excuse the Contractor from completing such Work within any applicable completion date. The CPM schedule shall be generated by computer methods.

C. Schedule Review. Once each month, on a date mutually agreed upon, but no later than seven (7) business days after the monthly schedule progress report date, a Work Site meeting will be held to review the Construction Schedule and job progress. The Contractor shall also attend weekly meetings scheduled by the Director to review the progress of the Work in the preceding week and in the subsequent week, coordinate the Work with public agencies or other Contractors as required, and allow the Director to plan his or her activities for testing, inspection, etc.

D. Schedule Revisions. The conditions under which the Director will require revisions of the Construction Schedule include the following:

1. When delay in completion of any Work item or sequence of Work items results in an estimated extension of project completion by either twenty (20) business days or by ten percent (10%) of the remaining duration of time to complete the Contract, whichever is less.

2. When delays in Submittals or deliveries make replanning or rescheduling of the Work necessary.

3. When the schedule does not represent actual prosecution and progress of the Work.

4. When any change to the sequence of activities, the completion date for major portions of the Work, or when changes occur which affect the critical path.

5. When Contract Amendments or a Change Order necessitates schedule revision, the Contractor shall submit a schedule analysis of all Change Order Work with its proposal.

E. Cash Flow Projection. A cash flow projection shall be submitted with the Construction Schedule. This cash flow projection shall be revised and resubmitted when revisions of the Construction Schedule will result in changes to the projected cash flow.

F. Schedules showing project completion dates earlier than specified in the Supplemental Conditions will be rejected unless justification can be provided for early completion.

6-1.05 **SCHEDULE OF VALUES.** Prior to preparation of the first estimate for a progress payment, the Contractor shall submit for favorable review by the Director a detailed Schedule of Values or cost breakdown of the Work under each bid item awarded. The breakdown will then become the basis for partial payment determination. Elements of Work shall be grouped by structure, pipeline, system, etc. Within each grouping, Work should be itemized by readily measurable quantities of Work complete in place. For example, concrete should be in units of cubic yards including form Work and reinforcing steel. Move-on costs, bond and insurance costs, and Overhead costs shall not be considered an item of cost for this purpose but shall be prorated over items of Work. In the event the Schedule of Values is not favorable reviewed by the Director, another Schedule of Values shall be submitted that is mutually acceptable to the Contractor and the Director.

6-1.06 **CITY'S RIGHT TO STOP WORK.** The Director shall have the

authority to order the Contractor, in writing, to suspend the Work wholly or in part, for such period as the Director may deem necessary due to the failure on the part of the Contractor to correct Work that is not in accordance with the requirements of the Contract Documents or if Contractor persistently fails to carry out Work in accordance with the Contract Documents.

The Contractor shall immediately comply with the written order of the Director to suspend the Work wholly or in part. The suspended Work shall be resumed when conditions are favorable and methods are corrected, as ordered or approved in writing by the Director.

Any stoppage of work under this section shall be at the Contractor's sole expense, and the Contractor shall have no claim against the City based on the Contractor's failure to perform the Work in accordance with the Contract Documents.

In addition to the City's right to stop Work, the City may order the Contractor to submit to the City at no additional cost to the City, additional information concerning Contractor's planned Work if the Contractor fails to promptly correct Work that is not in accordance with the requirements of the Contract Documents or persistently fails to carry out Work in accordance with the Contract Documents. The additional information ordered by the City may include, but is not limited to, preparation of Submittals or Working Drawings not otherwise required to be submitted under the Contract Documents.

In the event the City discovers that the Contractor has created an unsafe condition the City may arrange for other work forces to remedy the condition. Such remedial work shall be at the sole discretion of the City. If this action is required, the City may unilaterally terminate Work under the Contract, and will pay only for the quantities of Work actually performed, less the cost of the City's remedial Work. In the event that Work is not halted, the Contractor must take immediate steps to correct the situation. There will be no extra payment for Work required

to correct unsafe conditions.

The right of the City to suspend the Work shall not give rise to a duty on the part of the City to exercise this right for the benefit of the Contractor or any other person or entity. This right shall be in addition to and not in restriction or derogation of the City's other rights under the Contract Documents.

In the event of a suspension of Work under any of the conditions set forth in this Section 6-1.06, such suspension of Work shall not relieve the Contractor of its legal responsibilities as set forth in these General Conditions.

6-1.07 **TIME OF COMPLETION.** The Contractor shall complete the entire Work, including Installation, repairs, startup, troubleshooting, painting, and touchup, training, submittal or record drawings, and manuals, cleanup, demobilization, and all other Work within the number of Days set forth in the Supplemental Conditions. The time for completion includes an allowance for working time lost due to normal inclement weather.

Extensions of time may be allowed for unusual inclement weather under the provisions hereinafter described. Unusual inclement weather is weather which adversely affects "controlling" operations or the critical path of construction and which meets one of the following criteria:

A. For the particular calendar month in question, the number of individual Days with rainfall exceeding 0.10 inches exceeds the average number of such Days for that month over the immediately preceding five (5) years of record by at least three (3) Days.

B. For the particular calendar month in question, the total cumulative rainfall for that month exceeds the average cumulative rainfall for that month over the immediately preceding five (5) years of record by at least two inches (2").

Rainfall shall be measured at a publicly operated, maintained, and reported station in reasonable proximity to the construction site. A claim for delay shall indicate the period of rainfall which is claimed as “unusual,” the specific dates during which the unusual rainfall and subsequent wet soil conditions prevented Work, and the specific critical path tasks adversely affected by such unusual weather. A claim for delay due to unusual inclement weather shall be filed within ten (10) Days of the apparent end of the unusual inclement rainfall period, whether or not the monthly totals are available at that time. The burden of proof that weather meets the criteria for unusual weather shall be solely the responsibility of the Contractor.

It is the responsibility of the Contractor to order materials required for the Work properly and promptly on a Notice to Proceed. If evidence presented demonstrates that, in spite of the Contractor's efforts, government-established priorities controls delay material deliveries, suitable extension of time will be made.

If performance of extra Work ordered by the City or failure of the City to provide the necessary site for Installation affects construction tasks which are “controlling” or which are on the “critical path” of the Construction Schedule, suitable extensions of time will be made.

The Contractor shall not be entitled to a time extension for delays in activities on non-critical paths of the favorably reviewed schedule unless the duration of the excusable delay exceeds the total float of the activities being delayed. If the duration of an excusable delay does exceed the total float of the activities affected by the delay, the Contractor shall be entitled to an extension equal to the difference.

C. Determination that a day is a non-working day by reason of inclement weather or conditions resulting immediately therefrom, shall be made by the Director.

6-1.08 **LIQUIDATED DAMAGES.** It is agreed by the parties to the Contract

that in case all the Work called for under the Contract in all parts and requirements is not completed within the number of Days as set forth in the Supplemental Conditions, damage will be sustained by the City and that it is and will be impracticable and extremely difficult to ascertain and determine the actual damage which the City will sustain in the event of and by reason of such delay; and it is therefore agreed that the Contractor will pay to the City, the monetary amount indicated in the Supplemental Conditions in dollars (U.S.) per day for each and every calendar day of delay in completing the Work in excess of the number of Days prescribed and the number of additional calendar days, if any, authorized by Contract Change Order; and the Contractor agrees to pay said Liquidated Damages herein provided for, and further agrees that the City may deduct the amount thereof from any moneys due or that may become due the Contractor under the Contract.

It is further agreed that in case the Work is not finished and completed in all parts and requirements within the number of Days specified, the City shall have the right to increase the number of Days or not, as it may deem best to serve the interest of the City, and if it decides to increase the said number of Days, it shall further have the right to charge to the Contractor, its heirs, assigns or sureties and to deduct from the final payment for the Work all of any part, as it may deem proper, of the actual cost of engineering, inspection, superintendence, and other Overhead expenses which are directly chargeable to the Contract, and which accrue during the period of such extension, except that cost of preparation of final statement shall not be included in such charges.

6-1.09 **DELAYS AND EXTENSIONS TO THE WORK.** The Contractor must complete all Work within the time specified in the Agreement. The Contractor will be granted an extension of time and will not be assessed with liquidated damages or the cost of engineering

and inspection for any delay in substantially completing the Work (or parts thereof) beyond the time set forth in the Agreement, provided that such delay was caused by unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include acts of public enemy, fire, floods, abnormal weather (as described below), earthquakes, epidemics, quarantine restrictions, strikes, labor disputes and freight embargoes, fire, changes made pursuant to the provisions of “Changes in the Work” under Section 3 of these General Conditions or acts or neglect of the City not contemplated by the Contract Documents. In all cases, any extension of time is conditioned on the following:

1. That the cause is not due to the fault or negligence of the Contractor, and the Contractor has taken reasonable precautions to prevent and minimize the effects thereof; and
2. That the Contractor notifies the Director in writing within three (3) Days from the beginning of such delay specifying the nature of the delay and the measures that have been or will be taken to prevent or minimize the delay. Failure to submit written notice within this time period shall constitute an absolute waiver of any claim for a time extension.

No extension of time will be granted for a delay caused by a shortage of materials, unless the Contractor furnishes to the City documentary proof that it has diligently made every effort to obtain such materials from all known sources within reasonable reach of the work and further proof, as acceptable to the Director, that the inability to obtain such materials when originally planned did in fact cause a delay in Final Completion of the entire Work which could not be compensated for by revising the sequence of the Contractor’s operations. Only the physical shortage of material will be considered as a cause for extension of time, and no consideration

will be given to any claim that material could not be obtained at a reasonable, practical or economical cost or price, unless it is shown to the satisfaction of the City that such material could have been obtained only at exorbitant prices entirely out of line with current rates, taking into account the quantities involved and the usual practices in obtaining such quantities.

No extension of time will be granted for a delay caused by Contractor's staff turnovers, understaffing or insufficient quantity of qualified staff able to perform the necessary work.

The term "shortage of materials," as used in this section, shall apply only to materials, articles, parts or equipment which are standard items and shall not apply to materials, parts, articles or equipment which are processed, made, constructed, fabricated or manufactured to meet the specific requirements of the Contract Documents.

No extensions of time will be granted for delays that have no measureable impact on the completion of the Work (or parts thereof) under the Contract Documents. When extensions of time are granted, they will be limited to the period equivalent to the actual number of Days lost on the critical path or controlling operations of the Construction Schedule, taking into account the extent to which that delay could be decreased by reasonable mitigation measures by the Contractor. All requests for extensions of time must be supported with a critical path analysis showing the critical path and impacts to it. Contractor's failure to submit this analysis will be sufficient cause for denial of any request for a time extension.

Within a reasonable period of time after the Contractor submits the notice and information required by this section, the City will determine whether an extension of time is justified and, if so, the number of days for the extension.

Abnormal weather may be a valid basis for a time extension under the Agreement.

"Abnormal Weather" occurs when the number of days of rain above 0.5 inches in a 24 hour

period exceeds the average for such rainfall in a particular month as determined by the National Weather Service. The Contractor will only be entitled to, at most, a time extension for the number of days of rain exceeding the average for that month in the locale where the Work is to be performed. If delays are caused by the Contractor or those for whom the Contractor is responsible, the Contractor will only be entitled to, at most, a time extension for the number of rain days exceeding the average for the month when the Work should have been performed.

In addition, before a time extension may be granted for abnormal weather, the Contractor must establish that the rain either significantly impacted at least sixty percent (60%) of the planned work of the controlling operations for a particular day or prohibited at least five (5) hours of work on the controlling operations planned for that day. Contractor shall employ reasonably methods to mitigate the impact of abnormal weather (i.e., dewatering, protection of site, etc.) The occurrence of rain during non-work hours or having minimal impact to work on the controlling operation shall not constitute a day of abnormal weather.

In the event that the project experiences favorable weather for a particular month (e.g., the number of actual rain days in a month less than that indicated above for allowable rain days per months), the additional float resulting from such favorable weather shall accrue to the project.

Any Contractor claim for damages or additional compensation based on delay shall be limited to only those circumstances where the Contractor has fulfilled each of the following three (3) requirements:

1. Contractor has established its entitlement to a time extension pursuant to the provisions described above regarding delay and extensions to the Work.
2. The delay was caused solely by the City's issuance of changes made pursuant to the

provisions of “Changes in the Work” under Section 3 of these General Conditions or by acts or neglect of the City.

3. The delay was unreasonable under the circumstances and not within the contemplation of the parties.

It is expressly understood and agreed that delays caused by the City will be non-compensable when there are concurrent delays caused by the Contractor. Also, the Contractor shall have no entitlement to additional compensation for any delay where there have been concurrent delays caused by non-compensable delays, including, but not limited to, fire, floods, earthquakes, epidemics, quarantine restrictions, strikes, labor disputes, and freight embargoes.

Contractor’s damages and/or additional compensation for delays will consist solely of the extended costs of maintaining the Contractor’s Work Site presence. The Contractor will not be entitled to any extended home office overhead.

Compensation for idle time of equipment will be determined in the same manner as determinations are made for equipment used in the performance of extra work paid for on a Force Account basis with the following exceptions:

1. The time for which compensation will be paid will be the actual normal working hours during which such delay conditions exists, but in no case will exceed eight (8) hours in any one day.
2. The days for which compensation will be paid will be each calendar day of the work week (defined elsewhere in the Contract Documents) and Legal Holidays, during the existence of such delay, except that when rental of the equipment is paid for under the provisions in Section 3-1.06C, “Force Account Payment – Equipment,” of these General Conditions, no payment will be made for delays in accordance with the

provisions of this section.

Actual loss shall be understood to include no items of expense other than idle time of personnel, cost of extra moving of equipment, and cost of longer hauls. Compensation for idle time of equipment will be determined as provided in this section and compensation for idle time of personnel will be determined pursuant to Section 3-1.06A, “Force Account Payment – Labor,” of these General Conditions. No markup will be added in either case for Overhead and profit. The cost of extra moving of equipment and the cost of longer hauls will be paid for as extra work as provided pursuant to “Changes to the Work” elsewhere in the Contract Documents.

6-1.10 **TERMINATION.**

6-1.10A **TERMINATION OF AGREEMENT – CONVENIENCE OF CITY.** The Department reserves the right to terminate the Contract at any time and for any reason if the Director determines that to do so would be in the best interest of the City. Any termination which is not based on the circumstances set forth in Section 6.1-10B below shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of Work under the Contract is terminated, and the date upon which such termination becomes effective.

Upon the Contractor’s receipt of a written Notice of Termination for convenience, the Contractor shall cease Work as to those portions of the project so terminated and shall undertake the steps outlined in Section 6-1.10B below.

1. Acceptance of the Contract as hereinafter specified shall not relieve the Contractor of responsibility for damage to materials except as follows:
 - a. The Contractor's responsibility for damage to materials for which partial payment has been made as provided in Section 7-1.07, “Progress

Payments,” of these General Conditions and for materials furnished by the City for use in the Work and unused shall terminate when the Director certifies that such materials have been stored in the manner and at the locations he or she has directed.

- b. The Contractor's responsibility for damage to materials purchased by the City subsequent to the issuance of the notice that the Contract is to be terminated shall terminate when title and delivery of such materials has been taken by the City.
- c. When the Director determines that the Contractor has completed the Work under the Contract directed to be completed prior to termination and such other Work as may have been ordered to secure the project for termination, the Contractor will recommend that the City formally accept the Work, and immediately upon and after such Acceptance by the City, the Contractor will not be required to perform any further Work thereon and shall be relieved of its contractual responsibilities for injury to persons or damage to property which occurs after the formal Acceptance of the project by the City.

2. The total compensation to be paid to the Contractor shall be determined by the Director on the basis of the following:

- a. The reasonable cost to the Contractor, without profit, for all Work performed under the Contract, including mobilization, demobilization and Work done to secure the project for termination. Reasonable cost will include a reasonable allowance for project Overhead and general

administrative Overhead not to exceed a total of seven percent (7%) of Direct Costs of such Work.

- b. A reasonable allowance for profit on the cost of the Work performed as determined under subsection (a), provided the Contractor establishes to the satisfaction of the Director that it is reasonably probable that it would have made a profit had the Contract be completed and provided further, that the profit allowed shall in no event exceed four percent (4%) of said cost.
- c. The reasonable cost to the Contractor of handling material returned to the vendor, delivered to the Department or otherwise disposed of as directed by the Director.
- d. A reasonable allowance for the Contractor's administrative costs in determining the amount payable due to termination of the Contract.

All records of the Contractor and the Contractor's Subcontractors, necessary to determine compensation in accordance with this Section, shall be open to inspection or audit by representatives of the Department at all times after issuance of the notice that the Contract is to be terminated and for a period of three (3) years, and such records shall be retained for that period.

After Acceptance of the Work by the Director, the Director may make payments on the basis of interim estimates pending issuance of the Final Statement, when in his or her opinion the amount thus paid, together with all amounts previously paid or allowed, will not result in total compensation in excess of that to which the Contractor will be entitled. All payments, including payment upon the Final Statement, shall be subject to deduction for prior payments and amounts, if any, to be kept or retained under the provisions of the Contract.

In the event that the City terminates this Contract under Section 6-1.10B below and it is determined for any reason that there was not sufficient cause to do so, the City's termination automatically will convert to a termination for convenience under this section and the terms and conditions outlined in this section automatically will be applied to effectuate the Contract termination. Thus, damages to which a Contractor may be entitled as a result of an improper default termination will be limited to the amounts provided for in this section.

The provisions of this section shall be included in all subcontracts.

6-1.10B **TERMINATION OF AGREEMENT - FOR CAUSE.** An

“Event of Default” as referred to in this section shall occur if the Contractor:

1. Fails to maintain progress of the Work in accordance with the requirements of the Contract Documents; or
2. Fails to prosecute the Work or any of its components in accordance with the Contract Documents; or
3. Persistently or repeatedly fails or refuses to supply sufficient properly skilled workers or proper material to permit the performance of the Work in accordance with the Contract Documents; or
4. Fails to make prompt payment to Subcontractors or Suppliers in accordance with the respective agreements between the Contractor and the Subcontractor and Contractor and Supplier; or
5. Fails to comply with applicable laws, ordinances or rules, regulations or orders of a public authority having jurisdiction over the Work; or
6. Abandons, assigns or sublets the Contract without approval of the City; or
7. Becomes bankrupt or is subject to appointment of a receiver on behalf of the

Contractor; or

8. Otherwise is guilty of a substantial breach of a provision of the Contract Documents.

Upon the City's reasonable belief that there has been an Event of Default by the Contractor, the City may elect to give the Contractor written notice thereof. The Contractor thereafter shall cure the default as soon as possible and in no event after ten (10) Days from the Contractor's receipt of the City's written notice.

If the Contractor does not timely cure its default, the City may, without waiver of any of its other rights and remedies, elect to terminate the Contract, or portion thereof.

Upon the City's election to terminate the Contract, or portion thereof, the City shall have the right to complete the Work, or portion involved, by whatever means and methods it deems expedient, including the hiring of others on such terms as the City deems advisable. The City shall have the right to take possession of the Contractor's materials, plant, tools, equipment and property of any kind provided by or on behalf of the Contractor for the purpose of the Work, or a portion of them, without being responsible to the Contractor for wear and tear. The Contractor shall have no rights in such property during its use by the City. The City shall not be required to obtain the lowest prices for completing the Work or a portion of it but shall make such expenditures as, in the City's sole judgment, best accomplish such completion.

The expense of completing such Work or portion thereof, together with a reasonable charge for engineering, managerial and administrative services, as certified by the City, shall be charged to the Contractor, and the expense so charged shall be deducted by the City out of such monies as may be due or may at any time thereafter become due to the Contractor. In case such expense is more than the sum which otherwise would have been payable to the Contractor under the Agreement, then the Contractor or its surety or sureties shall promptly pay the amount of

such excess so due. When the City terminates the Contract under this section, the Contractor shall not be entitled to receive any further payments until the Work is completed and there has been a final settlement of costs of completing the Work covered by such notice of default.

The City will issue to the Contractor a written notice specifying that the Contract, or portion thereof, is terminated. Upon receipt of said written notice and, except as otherwise directed in writing by the City, the Contractor shall:

1. Stop all Work under the Contract; or if partial termination, stop Work relating to the terminated portion of the Agreement;
2. Perform Work the City deems necessary to secure the Work Site for termination including measures to leave the Work Site in a safe condition;
3. Remove equipment from the site of Work, as specified by the City;
4. Take such action as is reasonably necessary to protect materials from damage;
5. Notify all Subcontractors and Suppliers that the Contract or portion thereof is being terminated and that their contracts or orders are not to be further performed unless otherwise authorized in writing by the City;
6. Provide the City with an inventory list of all materials previously produced, purchased or ordered from Suppliers for use in the Work and not yet used in the Work, including its storage location, and such other information as the City may request;
7. Dispose of materials not used in the Work as directed by the Director. It shall be the Contractor's responsibility to provide the City (a) with good title to all materials purchased by the City hereunder, including materials for which partial payment has been made by the City and (b) with bills of sale or other documents of title for such

materials;

8. Subject to the prior written approval of the City, settle all outstanding liabilities and all claims arising out of Subcontractors or orders for materials terminated hereunder. To the extent directed by the City, the Contractor shall assign to the City all rights, title and interests of the Contractor under subcontracts or orders for materials terminated hereunder. The City shall be at liberty to negotiate with and engage any Subcontractors who had contracted with the Contractor for the Work;
9. Furnish the City with the documentation required to be furnished by the Contractor under the provisions of the Contract Documents, including, on projects as to which Federal funds are involved, all documentation required under the Federal requirements included in the Agreement; and
10. Take such other actions as the City may direct.

If only a portion of the Work has been terminated, the Contractor shall perform the remainder of the Work in conformity with the Contract Documents and in such a manner as not to interfere with the City or others in their performance and completion of the portion of the Work which was terminated.

The City may recover from the Contractor the amount of any loss or damage, including consequential damages, suffered or incurred as a result of the Contractor's default.

SECTION 7

ACCEPTANCE AND PAYMENT

7-1.01 **ACCEPTANCE.** When the Contractor believes that the entire Work is fully and finally completed, including the satisfactory completion of inspections, tests, and documentation specified in the Contract Documents and completion of all punch list and clean-up items, the Contractor shall submit to the City a written request for final Acceptance within fifteen (15) Days thereafter, specifying that the Work is fully and finally completed and the date on which it was completed. Within thirty (30) Days after receipt of the request for final Acceptance, the City will inspect the Work and will either:

1. Reject the request for final Acceptance, specifying the defective and/or uncompleted portions of the Work; or
2. Notify the Contractor that the Work will be accepted by Resolution of the City Council of the City of Roseville, and a Notice of Completion will be caused to be recorded by the City Clerk; or
3. Notify the Contractor that the Work has been accepted by the City but no Notice of Completion will be recorded.

If the City rejects the request for final Acceptance, the Contractor shall promptly remedy the defective and/or uncompleted portions of the Work. Thereafter, the Contractor shall again submit a written request for final Acceptance of the Work, specifying a new date based on the date the defective and/or uncompleted portions of the Work were corrected. Thereafter, the foregoing procedure shall apply successively until the City has verified that the Work is fully and finally completed and accepted the Work by Resolution of the City Council or by written

notification from the Director. Immediately upon such Acceptance, the Contractor shall be relieved of the duty of maintaining the Work as a whole.

All warranties commence upon final Acceptance of the Work. The City's final Acceptance of the Work shall not be construed as an acceptance by the City of any latent defects discovered with regard to the Contractor's work. Furthermore, Contractor's obligations under Section 5-1.22 "Responsibility for Damage and Indemnification" shall still remain applicable after the City's grant of final Acceptance of the Work.

Prior to final Acceptance, the Contractor shall submit to the City the Record Documents and Operation and Maintenance Manuals as specified in the Contract Documents.

7-1.02 **SCOPE OF PAYMENT.** The Contractor shall accept the compensation provided in the Contract as full payment for furnishing all labor, materials, tools, equipment, and incidentals necessary to the completed Work and for performing all Work contemplated and embraced under the Contract; also for loss or damage arising from the nature of the Work, or from the action of the elements, or from any unforeseen difficulties which may be encountered during the prosecution of the Work until the Acceptance by the Director and for all risks of every description connected with the prosecution of the Work, also for all expenses incurred in consequence of the suspension or discontinuance of the Work as provided in the Contract; and for completing the Work according to the Contract. Neither the payment of any estimate nor of any retained percentage shall relieve the Contractor of any obligation to make good any defective Work or material.

No compensation will be made in any case for loss of anticipated profits.

7-1.03 **NOTICE OF POTENTIAL CLAIM.** The Contractor shall not be entitled to the payment of any additional compensation for any act or failure to act by the City,

including failure or refusal to issue a Change Order, or for the happening of any event, thing, occurrence or other cause unless the Contractor has given the City due written Notice of Potential Claim as hereinafter specified, provided, however, that compliance with this Section 7-1.03 shall not be a prerequisite as to matters within the scope of the notice provisions in Section 6-1.07, "Time of Completion," or the notice provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions, nor to any claim which is based on differences in measurement or errors of computation as to correct quantities.

The written Notice of Potential Claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. The said Notice as above required must have been given to the Director prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Director, or in all other cases within seven (7) Days after the happening of the event, thing, occurrence or other cause giving rise to the potential claim.

If the Notice of Potential Claim does not include complete information about the claim or the parties do not execute a Contract Change Order in connection with the Notice of Potential Claim, Contractor shall submit complete information about its claim for additional compensation and/or extension of time for performance within fifteen (15) Days after such work is performed. Failure to provide written notice of claim prior to undertaking such work or failure to timely submit a complete and specific information about the claim for additional compensation and/or extension of the time for performance shall be deemed a waiver and abandonment of such claim.

If there is a dispute over any claim, the Contractor shall continue to Work during the dispute resolution process in a diligent and timely manner as directed by the City, and shall be

governed by all applicable provision of the Agreement.

The Contractor shall maintain cost records of all Work that is the basis of any dispute. On a daily basis, Contractor shall submit to City completed daily forms, the format of which will be acceptable to the City, with respect to the Contractor's costs of performing the disputed work. These daily forms shall itemize all of Contractor's costs in performing the disputed work, including, but not limited to, all costs relating to materials, labor and equipment with respect to the disputed work. These daily forms shall provide names or identification and classification of affected workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment and hours operated. Said daily work forms shall be duly signed and verified by the Contractor or its authorized representative. The City's receipt of the Contractors' daily forms shall not constitute an approval of the Contractor's claim. Contractor's failure to submit the daily forms on a daily basis shall constitute a waiver of the Contractor's right to claim any additional compensation for the disputed work.

Each Contractor claim shall include full and complete information concerning the Claim. Contractor shall provide a clear, concise recital of the basis, upon which the claim is asserted, including a designation of the provisions of the Contract Documents upon which the claim is based. Contractor shall also include a statement as to the amount of time and/or compensation sought pursuant to the claim; if Contractor's claim arises from an ongoing occurrence, Contractor shall so state in its claim, including a description of the specific Work activities affected by the claim. All costs, expenses or damages and extensions of time claimed shall be described in reasonable detail under the circumstances together with complete supporting documentation.

The City will review any timely Notice of Potential Claim and supporting information

submitted by Contractor. In conducting this review, the City shall have the right to require the Contractor to submit such additional or supporting documents, data and other information as the City may require.

If an agreement can be reached which resolves the Contractor's claim, the parties will execute a Contract Change Order to document the resolution of the claim. If the parties cannot reach agreement with respect to the Contractor's claim, the Contractor shall still be obligated to comply with the claim identification provisions identified in these General Conditions, including but not limited to Section 7-1.04.

It is the intention of this Section 7-1.03 that differences between the parties arising under and by virtue of the Contract be brought to the attention of the Director at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that it shall have no right to additional compensation for any Claim that may be based on any such act, failure to act, event, thing or occurrence for which no timely written Notice of Potential Claim as herein required was filed.

7-1.04 **CLAIMS.** Contractor must submit all Claims, for which it has previously submitted a Notice of Potential Claim, prior to Acceptance of the Work. Each such Claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the Claim.

Upon receipt of a Claim, the City shall conduct a reasonable review of the Claim and, within a period not to exceed forty-five (45) Days, or such further time as mutually agreed upon or necessary pursuant to Public Contract Code Section 9204, the City shall provide the Contractor a written statement identifying what portion of the Claim is disputed and what portion is undisputed. If the City does not respond to a Claim from the Contractor within the time

specified herein, such Claim shall be deemed rejected in its entirety.

Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) Days after the City issues its written statement.

If the Contractor disputes the City's written response, or if the City does not respond within the time specified herein, the Contractor may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the City shall schedule a meet and confer conference within thirty (30) Days for settlement of the dispute.

Within ten (10) business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the Claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) Days after the City issues its written statement. Any disputed portion of the Claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and the Contractor shall mutually agree to a mediator within ten (10) business days after the disputed portion of the Claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the Claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the Claim remaining in dispute shall be resolved in accordance with Section 7-1.05 below.

7-1.05 **DISPUTE RESOLUTION PROCEDURE.** All Claims not resolved

pursuant to Section 7-1.04, shall be resolved pursuant to Public Contract Code Section 10240, et seq.

7-1.06 **STOP PAYMENT NOTICES.** The City, by and through the Department or other appropriate office or officers, may at its option and at any time retain out of any amounts due the Contractor, sums sufficient to cover claims, filed pursuant to Civil Code Section 9350, et seq., including an amount to provide for the reasonable cost of any litigation thereunder.

7-1.07 **PROGRESS PAYMENTS.** Within fifteen (15) Days after the effective date in the Notice to Proceed, but in any event prior to Contractor's first Application for Payment, the Contractor shall submit to the City a detailed Schedule of Values.

Upon its approval, the Schedule of Values will form a basis for determining the compensation payable to the Contractor based on its actual progress of Work with respect to each Lump Sum bid item. The City, prior to any progress payment being made, must approve the Schedule of Values.

At the Director's discretion the approved Schedule of Values may be used as the basis for calculating the adjustment in compensation for a lump sum bid item due to changes ordered by the Director. When an ordered change increases or decreases the quantities shown in an approved Schedule of Values, at the Director's discretion, the adjustment in compensation may be determined in the same manner specified for increases and decreases in the quantity of a bid item of work in accordance with Section 3-1.05(B), "Contract Price Adjustment," of these General Conditions.

The Contractor once in each month shall submit an Application for Payment, for approval by the Director. Contractor's Applications shall be based on the Schedule of Values submitted to the City. These applications shall be supported by: (1) documentation requested by the City to

substantiate the payment request; (2) statutory releases from Contractor and all Subcontractors and suppliers pursuant to Civil Code Sections 8132 and 8138; and (3) certified payroll records for the period for which payment is requested. Specifically, the Contractor will submit conditional waivers upon progress payment executed by all contractors and suppliers that will be receiving sums sought in the instant payment request and also submit unconditional waivers upon progress payment executed by all contractors and suppliers that have been paid to the date of the payment request. The Contractor shall certify that the Work for which payment is requested has been accomplished. When requested by the City, the Contractor shall submit receipts, invoices and other documentation that the City requires to be furnished for purpose of evaluating the application.

The City will pay the Contractor within thirty (30) Days after its receipt of an undisputed and properly submitted Application for Payment, after deducting all previous payments, retention, and other sums as described in the Contract Documents. Within seven (7) Days of its receipt of the Contractor's Application for Payment, the City will determine whether it complies with the provisions of the Contract Documents. As appropriate, the City will return the application to the Contractor accompanied by a document prepared by the City setting forth the reasons for the rejection. Thereafter, the Contractor shall correct and resubmit the Application for Payment. Progress payments may be withheld for Work that is not performed in accordance with the Contract Documents.

The City may deduct the following from each progress payment:

1. An amount equal to one hundred and twenty-five percent (125%) of the amount claimed under any stop payment notice or other lien filed against the Contractor, which includes an amount to provide for the reasonable cost of any litigation

thereunder.

2. Any Liquidated Damages or Assessments that have accrued as of the date of the Application for Payment.
3. Any sums expended by the City in performing any of the Contractor's obligations under the Agreement that the Contractor has failed to perform.
4. Any other sums that the City is entitled to recover from the Contractor under the terms of the Contract including damages to the City's property.
5. The failure of the City to deduct any of the above identified sums from a progress payment shall not constitute a waiver of the City's right to such sums.

No such estimate or payment shall be construed to be an acceptance of any defective Work or improper materials.

Under no circumstances will the City make payment to unlicensed Contractors. As a condition of payment, the Contractor is required to maintain the applicable Contractor's license as identified in the Notice to Contractors for the duration of the Work.

7-1.08 **PAYMENT FOR MATERIALS AND EQUIPMENT ON HAND.**

Partial payments may be made to the extent of seventy-five percent (75%) of the cost of materials and equipment plus delivery to be incorporated in the Work, provided that such materials and equipment meet the requirements of the Contract Documents and are delivered to acceptable sites on the plant site or at other sites in the vicinity that are acceptable to the City and only with the prior written approval by the City. Such delivered costs of stored or stockpiled materials and equipment may be included in the next progress payment after the following conditions are met:

- A. Equipment and materials will only be eligible if given conditional or final

Acceptance by the Director and are in apparent compliance with favorably reviewed Submittals.

B. Only equipment or materials which have received favorable review of Shop Drawings will qualify.

C. The material or equipment has been stored or stockpiled adequately protected against damage in a manner acceptable to the Director at an approved site.

D. The Contractor has furnished the Director with acceptable evidence of the quantity and the quality of such stored or stockpiled materials or equipment with identification of where they will be incorporated into the project with Specification reference.

E. The Contractor has furnished the Director with satisfactory evidence that the material or equipment and transportation costs have been paid.

F. The Contractor has furnished the City legal title (free of liens or encumbrances of any kind) and lien releases to the material or equipment so stored or stockpiled.

G. The Contractor has furnished the City evidence that the material or equipment so stored or stockpiled is insured against loss by damage to or disappearance of such materials at any time prior to use in the Work.

It is understood and agreed that the transfer of title and the City payment for such stored or stockpiled materials or equipment shall in no way relieve the Contractor of its responsibility for furnishing and placing such materials or equipment in accordance with the requirements of the Contract Documents.

In no case will the amount of progress payments for materials or equipment on hand exceed the Contract Price for such materials or equipment or the Contract Price for the Contract item in which the material is intended to be used.

No partial payment will be made for stored or stockpiled living or perishable plant

materials.

The Contractor shall bear all costs associated with the progress payment of stored or stockpiled materials or equipment in accordance with the provisions of this Section.

7-1.09 **RETENTION ON PROGRESS PAYMENTS.** From each progress payment estimate, five percent (5%) will be deducted and held in retention by the City. The remainder, less any deductions described in Section 7-1.07, “Progress Payments,” of these General Conditions, will be paid to the Contractor as progress payments.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit Securities in lieu of retention payments by the City. Upon the Contractor’s request, the City will make payment of funds withheld from progress payments, pursuant to the requirements of California Public Contract Code Section 22300, if the Contractor deposits in escrow with the City or with a bank acceptable to the City, securities eligible for investment under California Government Code Section 16430, bank or savings and loan certificates of deposit, interest bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by the Contractor and the City, upon the following conditions:

1. The Contractor shall bear the expenses of the City and the escrow agent in connection with the escrow deposit made.
2. Securities or certificates of deposit to be placed in escrow shall be of a value at least equivalent to the amounts of retention to be paid to the

Contractor pursuant to this section.

3. Contractor shall enter into an escrow agreement satisfactory to the City, which agreement shall be substantially similar to the form provided in

California Public Contract Code section 22300.

4. The Contractor shall obtain the written consent of the surety to such agreement.

7-1.10 **FINAL PAYMENT.** Final payment will be made only after Contractor has achieved Final Completion of the Work pursuant to the provisions of Section 7-1.01, “Acceptance,” of these General Conditions. Before final payment can be made, the Contractor shall have furnished the City with the following:

1. All Record Documents, catalogues, instruction sheets and information as required by the Contract Documents.
2. Conditional Waivers and Releases Upon Final Payment executed by Contractor and all Subcontractors and Suppliers, as provided by Civil Code Section 8136. Unconditional Waivers and Releases Upon Final Payment, as provided in Civil Code Section 8138, executed by Contractor and all Subcontractors and Suppliers, must be provided for all Subcontractors and Suppliers that have been paid in full.

Within thirty (30) Days of the date of the City’s Acceptance of the Work, the Contractor shall prepare and submit a Final Invoice, showing the proposed total amount due the Contractor, segregated by Bid item quantities, Change Order Work, and other basis for payments; deductions made or to be made for prior payment; and amounts previously retained. Prior invoices and payments shall be subject to correction in the proposed Invoice for Final Payment. Payments to the Contractor will be made only for actual quantities of the Contract items of work constructed in accordance with the Contract Documents.

The City will review the Contractor’s proposed Final Invoice and necessary changes or corrections will be forwarded to the Contractor. Within ten (10) Days thereafter, the Contractor

shall submit a revised proposed Final Invoice incorporating changes or corrections made by the City together with any new claims resulting therefrom. Upon approval by the City, the corrected proposed Final Invoice will become the approval Final Invoice.

If agreements are reached on all questions regarding the Final Invoice, the City will pay the entire sum found due on the approved application. However, the City will withhold sums sufficient to pay all unsettled claims for which stop payment notices have been filed pursuant to Section 9350, et seq. of the California Civil Code, together with the reasonable cost of any litigation thereunder.

Final payment will be made within thirty (30) Days after receipt of an approved Final Invoice and other required Submittals referenced above or within sixty (60) Days after Acceptance of the work by the City, whichever is later, provided, however, that if an approved Final Invoice has not been submitted within sixty (60) Days after Acceptance of the Work by the City, the City may elect to make payment of sums not in dispute without prejudice to the right of either the City or the Contractor in connection with such disputed sums. Notwithstanding the foregoing, if a Notice of Completion is recorded, final payment shall not be made prior to the expiration of the thirty-five (35) calendar day lien period. The start of this lien period is the date the Placer County Recorder's Office records the Notice of Completion.

The City may withhold from the Final Payment an amount not to exceed one hundred fifty percent (150%) of any amount in dispute between the City and the Contractor.

The making of Final Payment shall not operate to release the Contractor or its sureties from obligations arising under the Contract, the Contract bonds and warranties as herein provided. Specifically, the making of final payment shall not constitute a waiver and release of claims by the City arising from:

1. Unsettled or future liens;
2. Failure of the Work to comply with the requirements of the Contract Documents;
3. The terms of any warranties required by or contained in the Contract Documents;
4. The right to any insurance proceeds or the right to make any insurance or bond claims;
5. Any claims with respect to Contractor's obligations of indemnity with respect to claims asserted by third parties; or
6. Any latent deficiencies with the Work or Contractor's fraud.

7-1.11 **CLERICAL ERRORS.** Notwithstanding the provisions of Section 7-1.10, "Final Payment," of these General Conditions, for a period of three (3) years after Acceptance of the Work, all estimates and payments made pursuant to said Section 7-1.10, are subject to correction for clerical errors in the calculations involved in the determination of quantities and payments. The Contractor and the City agree to pay to the other any sum due under the provisions of this Section 7-1.11, provided, however, if the total sum to be paid is less than \$100, no such payment shall be made.

7-1.12 **WARRANTY.** Notwithstanding inspections and Acceptance by the City of Work furnished under the Contract Documents, the Contractor hereby unconditionally guarantees that all materials and equipment furnished will be of good quality and new, that the Work will be free from defects in workmanship and materials and that the Work will conform to the requirements of the Contract Documents. Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective.

This warranty by the Contractor is in addition to any warranties or guarantees required elsewhere in the Contract Documents. This warranty shall be in effect notwithstanding any disclaimers, or limiting or conditional terms contained in such separate warranties furnished by manufacturers or suppliers.

The Contractor hereby agrees to repair or replace any and all Work, together with any other adjacent Work which may be displaced in so doing, that may prove to be not in accordance with the requirements of the Contract or that may be defective in its workmanship or material during the greater of a period of one (1) year after Acceptance of the Work by the City or the period specified in the Special Conditions, without any expense whatsoever to the City, ordinary wear and tear and unusual abuse or neglect excepted.

The Contractor further agrees, that within ten (10) Days after being notified in writing by the Department of any Work not in accordance with the requirements of the Contract Documents or of any defects in the Work, the Contractor will commence and prosecute with due diligence all Work necessary to fulfill the terms of this warranty, and to complete such Work within a reasonable period of time. In the event Contractor fails to comply, it does hereby authorize the Department to proceed to have such Work done at the Contractor's expense and the Contractor will honor and pay the cost and charges therefore upon demand. The Department shall be entitled to all costs and expenses, including reasonable attorneys' fees, necessarily incurred upon the Contractor's refusal to honor and pay the above costs and charges.

All warranties set forth in the Contract Documents shall be deemed cumulative and not alternative or exclusive. Nothing contained in this section shall be construed to establish a period of limitation with respect to any other obligation, which Contractor has under the Contract Documents or under any separate warranty or guaranty required thereby. The establishment of a

specific warranty period relates only to the specific obligation of Contractor to correct defective Work, and it has no relationship to the time within which its obligation to comply with the Contract Documents or applicable provision of law may be sought to be enforced, nor to the time within which proceedings may be commenced to establish Contractor's liability with respect to its obligations other than specifically to correct the Work. Without limiting the foregoing, it is understood and agreed that Contractor shall remain responsible for latent defects with its work, regardless of the expiration of any warranty period set forth in the Contract Documents.

7-1.13 **WARRANTY OF TITLE.** No material, supplies, or equipment for the Work under this Contract shall be purchased subject to any chattel mortgage, security agreement, or under a conditional sale or other agreement by which an interest therein or any part thereof is retained by the seller or supplier. The Contractor warrants good title to all material, supplies, and equipment Installed or incorporated in the Work and agrees upon completion of all Work to deliver the Premises, together with all improvements and appurtenances constructed or placed thereon by it, to the City free from any claim, liens, security interest, or charges, and further agrees that neither the Contractor nor any person, firm, or corporation furnishing any materials or labor for any Work covered by this Contract shall have any right to a lien upon the Premises or any improvement or appurtenances thereon. Provided, that this shall not preclude the Contractor from Installing metering devices and other equipment of utility companies, the title of which is commonly retained by the utility company. In the event of the Installation of any such metering device or equipment, the Contractor shall advise the City as to the legal owner thereof. Nothing contained in this paragraph, however, shall defeat or impair the right of such persons furnishing materials or labor under any bond given by the Contractor for their protection or any rights under any law permitting such persons to look to funds due the Contractor in the hands of the City.

The provisions of this paragraph shall be inserted in all subcontracts and material Contracts, and notice of its provisions shall be given to all persons furnishing materials for the Work when no formal Contract is entered into for such materials.

[END OF GENERAL CONDITIONS]

TEXT OF AB 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of \$375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt

of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution

process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 9204 is added to the Public Contract Code, to read:

9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for

delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) "Public entity" shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the

Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) "Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) "Subcontractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made

within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity's written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but

not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the

claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SECTION 2.

The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SECTION 3.

If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

Above documents are available at: www.roseville.ca.us

2. Numbering in these Supplemental Conditions conforms to that in the General Conditions. The existence of a section in these Supplemental Conditions means that the corresponding section in the General Conditions is modified in some respect. Unless otherwise specified, the modified General Condition is deleted entirely and the provisions of these Supplemental Conditions are substituted.

SECTION 1. DEFINITIONS AND TERMS

1-1.24 **DEPARTMENT.** Section 1-1.24 of the General Conditions is amended to include the following:

The Department for Contract Administration is the Environmental Utilities Department of the City of Roseville.

SECTION 2. CONTROL AND SCOPE OF THE WORK

2-1.08 **SUBMITTALS.** Section 2-1.08 of the General Conditions is amended to include the following:

The time allowed for review of each submittal is (10) ten Days after receipt of the submittal by the Director.

SECTION 3. CHANGES IN THE WORK

There are no amendments to the General Conditions.

SECTION 4. CONTROL OF MATERIALS

There are no amendments to the General Conditions.

SECTION 5. LEGAL RELATIONS AND RESPONSIBILITY

5-1.14 **AIR POLLUTION CONTROL AND ASBESTOS.** Section 5-1.14 of the General Conditions is amended to include the following:

To the best of the City's knowledge, asbestos is not present in the vicinity of the Project. Additional information shall be made available to Contractor upon request.

SECTION 6. PROSECUTION AND PROGRESS

6-1.04 **PROGRESS SCHEDULE.** Section 6-1.04F of the General Conditions is amended to include the following:

Progress schedules showing project completion dates more than 30 Days earlier than specified in Section 6-1.07 shall be rejected.

6-1.07 **TIME OF COMPLETION.** Section 6-1.07 of the General Conditions is amended to include the following:

The Contractor shall begin Work within 21 business days after receiving a Notice to Proceed and shall diligently prosecute the Work to completion. The Work shall be completed within 181 business days of the Notice to Proceed.

If landscaping plants require an establishment period, that period will be 60 calendar days. Start of the establishment should be as outlined in the Specifications.

6-1.08 **LIQUIDATED DAMAGES.** Section 6-1.08 of the General Conditions is amended to include the following:

The amount of Liquidated Damages is the sum of \$1,500.00 per Day.

SECTION 7: ACCEPTANCE AND PAYMENT

Section 7-1.02 of the General Conditions is amended to include the following:

Unless special payment is specifically provided in the Measurement and Payment Section, all incidental work and expense in connection with the Completion of Work Under the Contract will be considered a subsidiary obligation of the Contractor and all such costs shall be included in the appropriate items in the Schedule of Bid Items in connection with which costs are incurred.

SPECIAL PROVISIONS

Table of Contents for Special Provisions

Section 1: Governor's Executive Order N-6-22 (EO)

SP
1

SECTION 2. GOVERNOR NEWSOM EXECUTIVE ORDER N-6-22 (EO)

April, 2022

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at <https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf>.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (<https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions>). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at \$5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

Client	CITY OF ROSEVILLE
Project	FIVE STAR INTERTIE IMPROVEMENT PROJECT
Project No.	11231367
Date	JULY 2024
Scale	AS SHOWN

Title	PRV VAULT AND FLOW METER DEMOLITION PLAN
Sheet No.	MD-101
Size	ANSI D
Sheet	4 OF 17

GENERAL NOTES

1. EXISTING EQUIPMENT BACKGROUND, LAYOUT, SECTIONS AND ELEVATIONS ARE BASED ON SITE OBSERVATIONS AND DRAWINGS PROVIDED BY THE CITY OF ROSEVILLE / PLACER COUNTY WATER AGENCY: IMPROVEMENT PLANS FOR PRICE CLUB OFF-SITE IMPROVEMENTS, PREPARED BY KIER & WRIGHT (1995).
2. CONTRACTOR SHALL COORDINATE WITH THE CITY OF ROSEVILLE AND PCWA REGARDING THE SHUTDOWN OF EXISTING FIVE STAR INTERTIE SYSTEM TO REMOVE PORTIONS IDENTIFIED ON PLAN.
3. CONTRACTOR TO PROTECT EXISTING FACILITIES / EQUIPMENT TO REMAIN IN PLACE.
4. CONTRACTOR SHALL FIELD VERIFY EXISTING FIELD CONDITIONS PRIOR TO START OF WORK AND NOTIFY THE ENGINEER OF ANY DISCREPANCIES.

- [illegible]

1. INSTALL (N) 10" PRV CLA-VAL MODEL 131-01
2. (E) PRV VAULT
3. IF NEEDED FOR INSTALLATION OF THE PRV, CONTRACTOR MAY REMOVE (E) PRESSURE GAUGES
4. INSTALL (N) 10" MAGNETIC FLOW METER
5. (E) LADDER
6. (N) 10" FCA
7. (E) PRESSURE GAUGE
8. (N) 1-1/2" PVC SCH 80 DISCHARGE PIPE
9. (E) BYPASS
10. (E) 10" STRAINER

NOTES:

- UNDER VALVES, METERS, OR OTHER SPECIAL APPURTENANCES A FABRICATED SUPPORT PIECE MAY BE UTILIZED AS ACCEPTABLE TO ENGINEER.
- WHERE SHOWN UNDER PIPE OR VALVE FLANGE, PROVIDE FLANGE CRADLE SUPPORT BY MATERIAL RESOURCES OR ENGINEER APPROVED EQUAL.
- HOT DIP GALVANIZE AFTER FABRICATION AND TOUCH-UP WITH COLD GALVANIZING COMPOUND AFTER INSTALLATION.
- PROVIDE STAINLESS STEEL UNITS AS INDICATED BY NOTE ON SPECIFIC DRAWING.
- SIZE OF SUPPORT COMPONENTS AND THEIR CONNECTIONS SHOWN FOR PIPE, DUCT, HVAC, AND EQUIPMENT ANCHORAGE SYSTEM ARE MINIMUM REQUIREMENTS (INCLUDING ANCHOR BOLT SIZE, SPACING, AND EMBEDMENT LENGTH). CONTRACTOR SHALL DESIGN ALL SUPPORT COMPONENTS AND THEIR CONNECTIONS PER SPECIFICATIONS AND INCREASE SIZES AS REQUIRED BY DESIGN CALCULATIONS.
- WHEN PIPE SUPPORTS ARE NOT PLASTIC COATED, SHIELDED OR LINED, ALL PVC, COPPER, AND STAINLESS STEEL PIPING SHALL BE WRAPPED AT SUPPORT POINTS WITH 70 MILS TEFLON OR PVC TAPE.

MAGNETIC DOOR SWITCH GENERAL NOTES:

- SUPPLY MAGNETIC DOOR SWITCHES AND MOUNTING HARDWARE FOR ALL MAN-DOORS.
- ALL JUNCTION BOXES CONTAINING INTRUSION SYSTEM WIRING SHALL UTILIZE TAMPER-RESISTANT PIN AND HEX SCREWS. PROVIDE TWO TOOLS TO OWNER TO OPERATE THESE SCREWS.
- MAGNETIC SWITCHES FOR DOORS SHALL BE MAGNETIC CONTACT w/ARMORED CABLE RATED AT NEMA 4/4X. MAGNETIC MAN DOOR SENSORS ARE TO BE "SENTROL 2505A-1 MAGNETIC CONTACT w/ ARMORED CABLE" OR EQUAL.
- SUBMIT SHOP DRAWINGS FOR ALL COMPONENTS PROVIDED PER THIS DRAWING.
- EACH DOOR SWITCH SHALL BE DEDICATED CONDUIT RUN TO STATION PLC CONTROL PANEL.
- PROVIDE TWO UNINSTALLED SPARE MAGNETIC CONTACTS AND SENSORS.

SECTION 01 20 00
MEASUREMENT AND PAYMENT

PART 1 - GENERAL

Measurements of the completed work shall be in accordance with, and by instruments and devices calibrated to United States Standard Measures and the units of measurement for payment, and the limits thereof, shall be made as shown on the Plans, Specifications, General Requirements, and Supplementary Conditions.

1.1 UNITS OF MEASUREMENT

Measurements shall be in accordance with U.S. Standard Measures. A pound is an avoirdupois pound. A ton is 2,000 pounds avoirdupois. The unit of liquid measure is the U.S. gallon.

1.2 CERTIFIED WEIGHTS

When payment is to be made on the basis of weight, the weighing shall be done on certified platform scales, or when approved by the Construction Manager, on a completely automated weighing and recording system. The Contractor shall furnish the Construction Manager with duplicate licensed weighmaster's certificates showing the actual net weights. The Owner will accept the certificates as evidence of the weights delivered.

1.3 METHODS OF MEASUREMENT

Materials and items of work which are to be paid for on the basis of measurement shall be measured in accordance with the method stipulated in the particular sections involved or the description of Bid Items found in 2.2 of this Section. In determining quantities, all measurements shall be made in a horizontal plane unless otherwise specified.

Material not used from a transporting vehicle shall be determined by the Construction Manager and deducted from the certified tag.

When material is to be measured and paid for on a volume basis and it would be impractical to determine the volume, or when requested by the Contractor in writing and approved by the Construction Manager in writing, the material will be weighed and converted to volume measurement for payment purposes. Factors for conversion from weight measurement to volume measurement will be determined by the Construction Manager and shall be agreed to by the Contractor before such method of measurement of pay quantities will be adopted.

Full compensation for all expense involved in conforming to the above requirements for measuring and weighing materials shall be considered as included in the unit prices paid for the materials being measured or weighed and no additional allowances will be made therefore.

Quantities of material **wasted** or disposed of in a manner not called for under the Contract; or rejected loads of material, including material rejected after it has been placed by reason of failure of the Contractor to conform to the provisions of the Contract; or material not unloaded from the transporting vehicle; or material placed outside the lines indicated on the plans or given by the Construction Manager; or material remaining on hand after completion of the Contract, will not be paid for and such quantities will be deducted from the final total quantities. No compensation will be allowed for hauling rejected material.

PART 2 - DESCRIPTION OF BID ITEMS

2.1 SUMMARY

The Bid Amounts for each Bid Item will be used for comparative bid analysis. The Bid amounts will also form the basis of monthly progress payments. Each Lump Sum bid amount will undergo further breakdown as described later in this section. Unit prices for any unit price bid items will be the basis for monthly progress payment determinations and for any changes related to that Work item. Bid items are not intended to be exclusive descriptions of work categories and the Contractor shall determine and include in its pricing all materials, labor, and equipment necessary to complete each Bid Item (work phase) as shown and specified.

2.2 DESCRIPTION OF BID ITEMS

BID ITEM NO. 1 MOBILIZATION/DEMOBILIZATION - Lump Sum

- A. The lump sum bid for mobilization shall not exceed three percent (3%) of the total bid price. Mobilization shall include: the obtaining of insurance and bonds; moving onto the site of all equipment; submittal and approval of initial project schedule; obtaining and paying for all permits by other agencies as applicable; furnishing temporary construction utilities (temporary power, toilets, water, fences, etc.); installing construction signs; temporary buildings and field office trailer(s); and other construction all as required for the proper performance and completion of the work.
- B. The lump sum bid for demobilization shall not exceed two percent (2%) of the total bid price. Demobilization shall include site cleaning and restoration of surfaces within the job site, post-construction meeting, removal of all temporary facilities and equipment from the work area, disconnection of the temporary construction utilities and turnover of project to the Owner.
- C. In the event the Contractor writes in a Mobilization/Demobilization price greater than five percent (5%) on the Bid Schedule found in the Contract Document, the Owner will pay any excess with the final Progress Payment.
- D. Contractor may apply for payment of mobilization on a percent complete basis as the items covered in the Mobilization are being completed.
- E. Contractor may apply for payment of demobilization after the overall project substantial completion is achieved and the project begins to demobilize.
- F. The lump sum price shall be full compensation for the preparation and installation or submittal of these materials, and for all labor, equipment, tools and incidentals to complete this item.

BID ITEM NO. 2 TRAFFIC CONTROL – Lump Sum

- A. Measurement for payment for this bid item will be based upon, but not limited to, all work required for Traffic Control as otherwise required in these Contract Documents, permits, construction area signs, lighted message boards as required, installation and maintaining all measures throughout the project limits, inclusive of staging areas, and advance of the project limits to temporarily control, detour, or stage traffic during construction and all other related work per the Contract Documents.
- B. Payment for temporary traffic control will be made at the lump sum (LS) price, which price shall constitute full compensation for the completion of all such work as required per the Contract Documents.
- C. The lump sum price shall be full compensation for the preparation and installation or submittal of these materials, and for all labor, equipment, tools and incidentals to complete this item.

BID ITEM NO. 3 Mechanical - Pressure Reducing Valve (PRV) Vault – Lump Sum

- A. The lump sum amount shall include all labor, equipment, appliances and materials require to remove the existing PRV and educator; furnish, install, test, and disinfect the new 10” PRV, pressure transmitters, new sump pump and associated discharge valves and piping, pipe supports, wall penetration, curb penetration, backfill, compaction, excavation, plug for the existing educator hole, grout fill for existing sump, and all associated piping and appurtenances per the Contract Documents.
- B. The lump sum price shall be full compensation for the preparation and installation or submittal of these materials, and for all labor, equipment, tools and incidentals to complete this item.

BID ITEM NO. 4 Mechanical - Flow Meter Vault and Isolation Valve – Lump Sum

- A. The lump sum amount shall include all labor, equipment, appliances and materials require to remove the existing propeller flow meter and furnish, install and disinfect the new 10” magnetic flow meter, new 10” butterfly valve, pipe supports, traffic rated valve box and cover, anode and test station, and all associated piping and appurtenances.
- B. The lump sum price shall be full compensation for the preparation and installation or submittal of these materials, and for all labor, equipment, tools and incidentals to complete this item.

BID ITEM NO. 5 Electrical - Lump Sum

- A. The lump sum amount shall include all labor, equipment, appliances, and material required to furnish conduit, wiring, grounding, transformer pad, equipment pad, metering and distribution panel, bollards, vault penetration, sidewalk restoration, in accordance with project plans and specifications.

- B. The lump sum price shall be full compensation for the preparation and installation or submittal of these materials, and for all labor, equipment, tools and incidentals to complete this item.

BID ITEM NO. 6 Communication-City of Roseville - Lump Sum

- A. The lump sum amount shall include all labor, equipment, appliances, and material required to furnish, install, and test communication system, including fiber-optic conduit, fiber-optic cabling and splicing, trenching, compaction, backfill, copper ethernet cable, NEMA 4X enclosure, new PLC cabinets, magnetic door switch, pullbox, integration and testing, and pavement restoration.
- B. The lump sum price shall be full compensation for the preparation and installation or submittal of these materials, and for all labor, equipment, tools and incidentals to complete this item.

BID ITEM NO. 7 Communication PCWA - Lump Sum

- A. The lump sum amount shall include all labor, equipment, appliances, and material required to furnish, install, and test communication system, including copper ethernet cable, conduit, wiring, radios, NEMA 4X enclosure, magnetic door switch, new PLC cabinet, cellular antenna and mounting, and integration and testing.
- B. The lump sum price shall be full compensation for the preparation and installation or submittal of these materials, and for all labor, equipment, tools and incidentals to complete this item.

PART 3 - NOT USED

PART 4 - CONTRACTOR'S COST BREAKDOWN

For work to be performed for a lump sum amount, the Contractor shall submit a cost breakdown to the Construction Manager prior to the first payment and within ten (10) days after Notice to Proceed. The cost breakdown, as agreed upon by the Contractor and the Construction Manager, shall be used for preparing future estimates for partial payments to the Contractor, and shall list the major items of work with a price fairly apportioned to each item. If there is not a separate Bid Item for MOBILIZATION/DEMobilIZATION, then mobilization, demobilization, overhead, bond, insurance, other general costs and profit shall be prorated to each item so that the total of the prices for all items equal the lump sum price. At the discretion of the Construction Manager, mobilization, bond and insurance costs may be provided for separately if accompanied by invoices to verify actual expenses.

The cost breakdown shall be generally in the same format as the Contract specifications divisions and subdivisions, with major items of work listed individually. The cost breakdown shall be by

structure, civil, landscaping, or other logical division of work. The cost breakdown for structural, mechanical, and electrical work shall include separate items for identifiable portions of the structures. The cost breakdown shall include separate allowances for any testing and startup work required. Measurable approximate quantities of work performed by the Contractor or its subcontractors shall be provided. For quantities that are the sum of several individual quantities, backup summaries shall be provided which list the individual descriptions and quantities. These summaries will then be used to determine the quantities of work in place in subsequent progress payment requests.

The above is a statement of the intent of the Contract Documents to provide a high level of detail, acceptable to the Construction Manager, to allow a fair and reasonable estimate to be made of the value of work installed. The detail of the cost breakdown must be sufficient to provide timely processing of the monthly progress payment request.

The cost breakdown will be subject to the approval of the Construction Manager, and upon request, the Contractor shall substantiate the price for any or all items and provide additional level of detail, including quantities of work. The cost breakdown shall be sufficiently detailed to permit its use by the Construction Manager as one of the bases for evaluating requests for payments. The Construction Manager shall be the sole judge of the adequacy of the cost breakdown.

The cost breakdown shall be solely used to determine progress payments. The cost breakdown shall not be considered in determining payment or credit for additional or deleted work.

*****END OF SECTION*****

(THIS PAGE LEFT BLANK INTENTIONALLY)

02 40 00
DEMOLITION

PART 1 GENERAL

1.1 GENERAL

- A. The Contractor shall furnish all tools, equipment, materials, and supplies, and shall perform all labor as required for the demolition, abandonment, removal/disposal, salvage, or relocation of utilities and equipment as indicated on the Drawings and as specified herein.
- B. The work of this Section shall include, but shall not be limited to the following items:
 - 1. Demolition of existing pressure relief valve, flow meter, and eductor assembly.
 - 2. Removal, disposal and/or salvage of piping and valves.

1.2 DEMOLITION/ABANDONMENT COORDINATION

- A. The Contractor shall carefully coordinate the extent of the Work in areas where existing utilities shall be reconnected to new facilities and where existing facilities shall remain operational.
- B. While Work is being performed, the Contractor shall provide adequate access for routine operation and maintenance. The Contractor shall erect and maintain fences, warning signs, barricades, and other devices as required for the protection of the Contractor's employees and others around the structures. The Contractor shall remove all such protection when the demolition/abandonment operations are completed, or as work progresses, or when directed by the Owner.
- C. The Contractor shall coordinate all Work with the Owner.

1.3 SUBMITTALS

- A. Demolition procedure submittal shall be submitted to the Engineer for acceptance at least 14 days prior to start of demolition. The procedures shall provide for safe conduct of the Work, careful removal and disposition of materials and equipment, protection of property which are to remain undisturbed, coordination with existing facilities to remain in service, and timely disconnection of utility services. The procedures shall include a detailed description of the methods and equipment to be used for each operation, and the sequence of operation.

1.4 PERMITS

- A. None.

1.5 REPAIR OF DAMAGE

- A. Any damage to existing utilities, screening equipment, electrical equipment, structural elements, other existing facilities to remain, as caused by the Contractor's operations shall be repaired at the Contractor's expense.
- B. Damaged items shall be repaired or replaced with new materials as required to restore damaged items or surfaces to a condition equal to and matching that existing prior to damage or start of work of this contract.

1.6 PROTECTION OF EXISTING FACILITIES

- A. Before beginning any cutting, demolition or abandonment work, the Contractor shall carefully inspect the existing facilities to determine the extent of the Work. The Contractor shall take all necessary precautions to prevent damage to existing facilities which are to remain in place and in operation. The Contractor shall be responsible for any damages to existing facilities, which are caused by the operations of the Contractor. Damages to such facilities shall be repaired or replaced to existing condition at no additional cost to the District. The Contractor shall carefully coordinate the work of this Section with all other work and shall provide bracing and supports, as required. The Contractor shall insure that structural elements are not overloaded and shall be responsible for increasing structural supports or adding new supports as may be required as a result of any cutting, removal, or demolition work performed under any part of this Contract. The Contractor shall remove all temporary protection when the work is complete or when so authorized by the Engineer.
- B. The Contractor shall carefully consider all bearing loads and capacities for placement of equipment and material.

PART 2 – PRODUCTS (NOT USED)

PART 3 - EXECUTION

3.1 DEMOLITION OF FACILITIES

- A. Demolition shall be accomplished in accordance with applicable codes and regulations. Blasting shall not be permitted.
- B. Disposal of all materials shall be performed in compliance with all applicable local, state and federal codes, regulations, and requirements. Structures to be abandoned shall be cleaned prior to abandonment.
- C. The Drawings used in this Contract to indicate demolition and removal are based on the best available information from the District. Prior to the submittal of bids, the Contractor shall conduct a comprehensive survey of the facilities to verify the scope of Work, the extent of utilities, and the physical sequencing constraints.

- D. Contractor shall use water during demolition work to control dust.
- E. Existing equipment, piping, valves, electrical gear, instrumentation, utilities, and related appurtenances such as anchors, supports, and hardware shown or required to be demolished as part of the Work shall be removed and disposed of by the Contractor unless otherwise indicated. Items to be removed shall be disposed of offsite by the Contractor as part of the Work.

CAST-IN-PLACE CONCRETE

PART 1 - GENERAL

1.1 SUMMARY

- A. Section includes cast-in-place concrete, including formwork, reinforcement, concrete materials, mixture design, placement procedures, and finishes.

1.2 ACTION SUBMITTALS

- A. Product Data: For each type of product.
- B. Design Mixtures: For each concrete mixture.
- C. Steel Reinforcement Shop Drawings: Placing Drawings that detail fabrication, bending, and placement.

1.3 INFORMATIONAL SUBMITTALS

- A. Material certificates.
- B. Material test reports.

1.4 QUALITY ASSURANCE

- A. Concrete suppliers shall be certified by the State of California Department of Transportation (Caltrans), and shall certify that all concrete furnished to the project conforms to these specifications and to the Caltrans Standard Specifications. In addition, the supplier shall furnish records of 7- and 28-day cure concrete cylinder tests for the proposed mix.
- B. Testing Agency Qualifications: An independent agency, qualified according to ASTM C 1077 and ASTM E 329 for testing indicated.

1.5 PRECONSTRUCTION TESTING

- A. Preconstruction Testing Service: Engage a qualified testing agency to perform preconstruction testing on concrete mixtures.

PART 2 - PRODUCTS

2.1 CONCRETE, GENERAL

- A. ACI Publications: Comply with the following unless modified by requirements in the Contract Documents:

1. ACI 301.
2. ACI 117.

2.2 FORM-FACING MATERIALS

- A. Smooth-Formed Finished Concrete: Form-facing panels that provide continuous, true, and smooth concrete surfaces. Furnish in largest practicable sizes to minimize number of joints.
- B. Rough-Formed Finished Concrete: APA-grade stamped Class 1 plywood. Provide lumber dressed on at least two edges and one side for tight fit.

2.3 STEEL REINFORCEMENT

- A. Reinforcing Bars: ASTM A 615/A 615M, Grade 40 minimum, deformed.
- B. Bar Supports: Bolsters, chairs, spacers, and other devices for spacing, supporting, and fastening reinforcing bars and welded-wire reinforcement in place. Manufacture bar supports from steel wire, plastic, or precast concrete according to CRSI's "Manual of Standard Practice." Wire shall be 18 ga. or heavier, black annealed.

2.4 CONCRETE MATERIALS

- A. Cementitious Materials:
 1. Portland Cement: ASTM C 150/C 150M, Type I/II.
 2. Fly Ash: ASTM C 618, Class F or C.
 3. Slag Cement: ASTM C 989/C 989M, Grade 100 or 120.
 4. Blended Hydraulic Cement: ASTM C 595/C 595M.
- B. Normal-Weight Aggregates: ASTM C 33/C 33M, graded.
 1. Maximum Coarse-Aggregate Size: 3/4 inch nominal.
 2. Fine Aggregate: Free of materials with deleterious reactivity to alkali in cement.
- C. Air-Entraining Admixture: ASTM C 260/C 260M.
- D. Chemical Admixtures: Certified by manufacturer to be compatible with other admixtures and that do not contribute water-soluble chloride ions exceeding those permitted in hardened concrete. Do not use calcium chloride or admixtures containing calcium chloride.
 1. Water-Reducing Admixture: ASTM C 494/C 494M, Type A.
 2. Retarding Admixture: ASTM C 494/C 494M, Type B.
 3. Water-Reducing and Retarding Admixture: ASTM C 494/C 494M, Type D.
 4. High-Range, Water-Reducing Admixture: ASTM C 494/C 494M, Type F.
 5. High-Range, Water-Reducing and Retarding Admixture: ASTM C 494/C 494M, Type G.
 6. Plasticizing and Retarding Admixture: ASTM C 1017/C 1017M, Type II.
- E. Water: ASTM C 94/C 94M.

2.5 CURING MATERIALS

- A. Evaporation Retarder: Waterborne, monomolecular film forming, manufactured for application to fresh concrete.
- B. Absorptive Cover: AASHTO M 182, Class 2, burlap cloth made from jute or kenaf, weighing approximately 9 oz./sq. yd. when dry.
- C. Moisture-Retaining Cover: ASTM C 171, waterproof paper, polyethylene film or -polyethylene coated burlap.
- D. Water: Potable.

2.6 CONCRETE MIXTURES, GENERAL

- A. Prepare design mixtures for each type and strength of concrete, proportioned on the basis of laboratory trial mixture or field test data, or both, according to ACI 301.
- B. Cementitious Materials: Use fly ash, pozzolan, slag cement, and silica fume as needed to reduce the total amount of portland cement, which would otherwise be used, by not less than 40 percent.
- C. Admixtures: Use admixtures according to manufacturer's written instructions.
 - 1. Use water-reducing admixture in concrete, as required, for placement and workability.
 - 2. Use water-reducing and -retarding admixture when required by high temperatures, low humidity, or other adverse placement conditions.
 - 3. Use water-reducing admixture in pumped concrete, concrete for heavy-use industrial slabs and parking structure slabs, concrete required to be watertight, and concrete with a w/c ratio below 0.50.

2.7 CONCRETE MIXTURES FOR BUILDING ELEMENTS

- A. Normal-Weight Concrete:
 - 1. Minimum Compressive Strength: 4000 psi at 28 days.
 - 2. Maximum W/C Ratio: 1:2 by weight.
 - 3. Slump Limit: 4 inches, plus or minus 1 inch.
 - 4. Air Content: 6 percent, plus or minus 1.5 percent at point of delivery for 3/4-inch nominal maximum aggregate size.

2.8 FABRICATING REINFORCEMENT

- A. Fabricate steel reinforcement according to CRSI's "Manual of Standard Practice."

2.9 CONCRETE MIXING

- A. Ready-Mixed Concrete: Measure, batch, mix, and deliver concrete according to ASTM C 94, and furnish batch ticket information.

1. When air temperature is between 85 and 90 deg F, reduce mixing and delivery time from 1-1/2 hours to 75 minutes; when air temperature is above 90 deg F, reduce mixing and delivery time to 60 minutes.

PART 3 - EXECUTION

3.1 FORMWORK INSTALLATION

- A. Design, erect, shore, brace, and maintain formwork, according to ACI 301, to support vertical, lateral, static, and dynamic loads, and construction loads that might be applied, until structure can support such loads.
- B. Construct formwork so concrete members and structures are of size, shape, alignment, elevation, and position indicated, within tolerance limits of ACI 117.
- C. Chamfer 3/4" exterior corners and edges of permanently exposed concrete.

3.2 EMBEDDED ITEM INSTALLATION

- A. Place and secure anchorage devices and other embedded items required for adjoining work that is attached to or supported by cast-in-place concrete. Use setting drawings, templates, diagrams, instructions, and directions furnished with items to be embedded.

3.3 STEEL REINFORCEMENT INSTALLATION

- A. General: Comply with CRSI's "Manual of Standard Practice" for fabricating, placing, and supporting reinforcement.
 1. Do not cut or puncture vapor retarder. Repair damage and reseal vapor retarder before placing concrete.

3.4 JOINTS

- A. General: Construct joints true to line with faces perpendicular to surface plane of concrete.
- B. Construction Joints: Install so strength and appearance of concrete are not impaired, at locations indicated or as approved by Architect.

3.5 CONCRETE PLACEMENT

- A. The Owner shall be notified a minimum of 24 hours prior to concrete placement.
- B. No more than one hour between loading concrete at the batch plant and placing the concrete is permissible.
- C. The surface finish shall be as shown on the Plans, as approved by the Owner and conforms to Caltrans Standard Specifications. A one-inch chamfer shall be used on all

vertical and horizontal finished edges unless otherwise shown, except slabs on grade which shall receive a 0.75-inch rounded corner on all horizontal corners.

- D. Before placing concrete, verify that installation of formwork, reinforcement, and embedded items is complete and that required inspections are completed.
- E. Deposit concrete continuously in one layer or in horizontal layers of such thickness that no new concrete is placed on concrete that has hardened enough to cause seams or planes of weakness. If a section cannot be placed continuously, provide construction joints as indicated. Deposit concrete to avoid segregation.
 - 1. Consolidate placed concrete with mechanical vibrating equipment according to ACI 301.

3.6 FINISHING FORMED SURFACES

- A. Rough-Formed Finish: As-cast concrete texture imparted by form-facing material with tie holes and defects repaired and patched. Remove fins and other projections that exceed specified limits on formed-surface irregularities.
 - 1. Apply to concrete surfaces not exposed to public view.
- B. Smooth-Formed Finish: As-cast concrete texture imparted by form-facing material, arranged in an orderly and symmetrical manner with a minimum of seams. Repair and patch tie holes and defects. Remove fins and other projections that exceed specified limits on formed-surface irregularities.
 - 1. Apply to concrete surfaces exposed to view.

3.7 CONCRETE PROTECTING AND CURING

- A. General: Protect freshly placed concrete from premature drying and excessive cold or hot temperatures. Comply with ACI 306.1 for cold-weather protection and ACI 305.1 for hot-weather protection during curing.
- B. Evaporation Retarder: Apply evaporation retarder to unformed concrete surfaces if hot, dry, or windy conditions cause moisture loss approaching 0.2 lb/sq. ft. x h before and during finishing operations. Apply according to manufacturer's written instructions after placing, screeding, and bull floating or darbying concrete, but before float finishing.
- C. Formed Surfaces: Cure formed concrete surfaces, including underside of beams, supported slabs, and other similar surfaces. If forms remain during curing period, moist cure after loosening forms. If removing forms before end of curing period, continue curing for remainder of curing period.
- D. Cure concrete according to ACI 308.1, by one or a combination of the following methods:
 - 1. Moisture Curing: Keep surfaces continuously moist for not less than seven days.
 - 2. Moisture-Retaining-Cover Curing: Cover concrete surfaces with moisture-retaining cover for curing concrete, placed in widest practicable width, with sides and ends lapped at least 12 inches, and sealed by waterproof tape or adhesive.

- Cure for not less than seven days. Immediately repair any holes or tears during curing period, using cover material and waterproof tape.
3. Curing Compound: Apply uniformly in continuous operation by power spray or roller according to manufacturer's written instructions. Application rate shall be 200 square feet per gallon. Recoat areas subjected to heavy rainfall within three hours after initial application. Maintain continuity of coating and repair damage during curing period.
 - a. Removal: After curing period has elapsed, remove curing compound without damaging concrete surfaces by method recommended by curing compound manufacturer.
 4. Curing and Sealing Compound: Apply uniformly to floors and slabs indicated in a continuous operation by power spray or roller according to manufacturer's written instructions. Recoat areas subjected to heavy rainfall within three hours after initial application. Repeat process 24 hours later and apply a second coat. Maintain continuity of coating and repair damage during curing period.

3.8 CONCRETE SURFACE REPAIRS

- A. Protect all concrete work against injury and defacement during subsequent construction operations, until acceptance by the Owner.
- B. All projecting fins, bolts, wire, nails, etc. not necessary for the work shall be removed or cut back one inch inside the finished surface and patched in an inconspicuous manner. Metal form ties extending from the face of permanently exposed concrete shall be cut off at least 1 inch deep in the concrete immediately after removal of the forms. Fill holes with a 1:3 cement and sand mortar of the same color as the adjoining concrete. Mix and place the mortar as dry as possible and finish flush with the adjacent surface.
- C. If pre-cast snap-tie fillers are used, they shall be firmly epoxied and the final surface of plugs shall be smooth with the wall surface.
- D. All defects in concrete work shall be corrected. Chip voids to a depth of at least 1 inch, with the edges perpendicular to the surface and parallel to form markings. Voids, surface irregularities, or honeycombing shall be filled by patching or rubbing as approved by the Owner and shall be done at the Contractor's expense. Concrete surfaces so repaired shall duplicate the appearance of the un-patched work.

3.9 FIELD QUALITY CONTROL

- A. Concrete Compression Strength Tests
 1. Concrete materials and operations will be tested by the Owner and inspected as work progresses. One complete test shall consist of making three (3) test cylinders in accordance with ASTM C31, storing the cylinders for 24 hours at the pour site, delivering the cylinders to the testing laboratory, testing one cylinder at 7 days of cure, one cylinder at 28 days in accordance with ASTM C39, and the third cylinder at a date determined by the Owner if the 28-day strength is below the required concrete strength. Should tests show insufficient concrete strength,

Contractor shall remove and dispose of all concrete from the same mix batch off-site at no cost to the Owner. Costs of concrete replacement, subsequent retesting or re-inspection and other appurtenant items directly related to this work shall be borne by the Contractor.

2. The Owner shall select the testing lab to be used. The Contractor shall give the selected lab sufficient notice of construction operations and schedule to allow the lab to schedule the required tests and inspection.

B. Concrete Slump Tests

1. Each concrete pour shall be tested for slump per ASTM C143 at the beginning of the pour, at the time the sample cylinders are filled, and whenever the consistency of the concrete appears to vary.

3.10 FIELD CONDITIONS

A. Cold-Weather Placement: Comply with ACI 306.1.

1. Do not use calcium chloride, salt, or other materials containing antifreeze agents or chemical accelerators unless otherwise specified and approved in mixture designs.

B. Hot-Weather Placement: Comply with ACI 301 and ACI 305.1.

1. Cool ingredients before mixing to maintain concrete temperature at time of placement below 90°F. Mixing water may be chilled, or chopped ice may be used to control temperature provided water equivalent of ice is calculated into total amount of mixing water. Ice when introduced into the mixer shall be in such form that it will be completely melted and dispersed throughout the mix at the completion of the mixing time. The temperature of concrete delivered at the time and location of placement shall not exceed 90°F under any conditions. The temperature of concrete delivered at the time and location of placement, except for concrete deposited in wall or column forms, shall not exceed the following temperatures under the following ambient conditions:

Relative Humidity Less Than %	Ambient Temperature Greater than °F	Maximum Concrete Temperature °F
80	90	90
70	90	90
60	90	90
50	90	85
40	90	80
30	80	75
20	75	70

2. Forms and reinforcing steel shall be cooled by fog spraying evaporation or covering with water-soaked burlap immediately prior to placing concrete. Forms shall be free of standing water when concrete is placed.

3. Concrete shall be placed in shallower layers than under normal conditions if necessary to assure coverage of the previous layer while it will respond readily to vibration.
4. Fog spray shall be used after finishing and before the specified curing is commenced to avoid surface plastic-shrinkage cracking. Forms shall be kept covered and continuously moist. Once forms are loosened and during form removal concrete surfaces shall be protected from drying and shall be kept continuously wet by fog spraying or other approved means until the specified curing is commenced.

GROUT

PART 1 GENERAL

1.1 GENERAL

- A. Use non-Shrink grout unless another type is specifically referenced or as shown on the Drawings.

1.2 SUBMITTALS

- A. Product data and installation instructions.
- B. Certificates of Compliance.

PART 2 - PRODUCTS

2.1 PREPACKAGED GROUTS

- A. Non-Shrink Grout:
 - 1. Non-shrink grout shall be a prepackaged, inorganic, non-gas-liberating, non-metallic, cement-based grout requiring only the addition of water. Manufacturer's instructions shall be printed on each bag or other container in which the materials are packaged. The specific formulation for each class of non-shrink grout specified herein shall be that recommended by the manufacturer for the particular application.
 - 2. Class A non-shrink grouts shall have a minimum 28-day compressive strength of 5000 psi; shall have no shrinkage (zero percent) and a maximum 4.0 percent expansion in the plastic state when tested in accordance with ASTM C 827; and shall have no shrinkage (zero percent) and a maximum of 0.2-percent expansion in the hardened state when tested in accordance with CRD C 621, Corps of Engineers Specification for Non-shrink Grout.
 - 3. Class B non-shrink grouts shall have a minimum 28-day compressive strength of 5000 psi and shall meet the requirements of CRD C 621.
 - 4. Application:
 - a. Class A non-shrink grout shall be used for the repair of all holes and defects in concrete members which are water bearing or in contact with soil or other fill material, grouting under all equipment base plates, and at all locations where grout is specified; except, for those applications for Class B non-shrink grout and epoxy grout specified herein. Class A non-shrink grout may be used in place of Class B non-shrink grout for all applications.

- b. Class B non-shrink grout shall be used for the repair of all holes and defects in concrete members which are not water-bearing and not in contact with soil or other fill material.
- B. Epoxy Grout:
 - 1. Epoxy grout shall be a pourable, non-shrink, 100-percent solids system. The epoxy grout system shall have 3 components: resin, hardener, and specially blended aggregate, all premeasured and prepackaged. The resin component shall not contain any non-reactive diluents. Resins containing butyl glycidyl ether (BGE) or other highly volatile and hazardous reactive diluents are not acceptable. Variation of component ratios is not permitted unless specifically recommended by the manufacturer. Manufacturer's instructions shall be printed on each container in which the materials are packaged.
 - 2. The chemical formulation of the epoxy grout shall be that recommended by the manufacturer for the particular application.
 - 3. The mixed epoxy grout system shall have a minimum working life of 45 minutes at 75 degrees F.
 - 4. The epoxy grout shall develop a compressive strength of 5000 psi in 24 hours and 10,000 psi in 7 days when tested in accordance with ASTM C 579, Method B. There shall be no shrinkage (zero percent) and a maximum 4.0 percent expansion when tested in accordance with ASTM C 827.
 - 5. Application: Use epoxy grout to embed all anchor bolts and reinforcing steel required to be set in grout, and for all other specified applications.

2.2 CEMENT GROUT

- A. Cement Grout: Cement grout shall be composed of one part cement, 3 parts sand, and the minimum amount of water necessary to obtain the desired consistency. Where needed to match the color of adjacent concrete, white portland cement shall be blended with regular cement as needed. The minimum compressive strength at 28 days shall be 4000 psi.
- B. Cement shall be as specified in Section 03 31 00 Cast-in-Place Concrete.

2.3 FLOWABLE CEMENT GROUT

- A. Flowable Cement Grout: Minimum penetration resistance of 10 psi in 24 hours when tested in accordance with ASTM C403 and a 28-day unconfined compressive strength of 45-165 psi.
- B. Application:
 - 1. Void spaces between the earth and the casing pipe.
 - 2. Interstitial space between the casing pipe and carrier pipe.

2.4 CONSISTENCY

- A. The consistency of grouts shall be that necessary to completely fill the space to be grouted for the particular application. Dry pack consistency is such that the grout is plastic and moldable but will not flow. Where "dry pack" is specified, it shall mean a grout of that consistency; the type of grout to be used shall be as specified herein for the particular application.

2.5 MEASUREMENT OF INGREDIENTS

- A. Measurements for cement grout shall be made accurately by volume using appropriate containers. Shovel measurement will not be allowed.
- B. Prepackaged grouts shall have ingredients measured by means recommended by the manufacturer.

PART 3 - EXECUTION

3.1 GENERAL

- A. All surface preparation, curing, and protection of cement grout shall be as specified in Section 03 31 00, Cast-in-Place Concrete. The finish of the grout surface shall match that of the adjacent concrete.
- B. The manufacturer of Class A non-shrink grout and epoxy grout shall provide on-site technical assistance upon request.
- C. All mixing, surface preparation, handling, placing, consolidation and other means of execution for prepackaged grouts shall be done according to the printed instructions and recommendations of the manufacturer.

3.2 CONSOLIDATION

- A. Grout shall be placed in such a manner, for the consistency necessary for each application, so as to assure that the space to be grouted is completely filled.

METAL FABRICATIONS

PART 1 GENERAL

1.1 WORK INCLUDED

- A. Miscellaneous metalwork includes the following:
1. Pipe supports
 2. Nuts, bolts

1.2 CODES

- A. The work of this Section shall comply with the current edition of the California Building Code.

1.3 REFERENCES

- A. Except as otherwise indicated, the current editions of the following apply to the work of this Section:
1. Federal Specifications:
 - QQ-F-461 C (1) Floor Plate, Steel, Rolled
 - MIL-6-18015 (Ships) Aluminum Planks, (6063-T6)
 2. Commercial Standards:
 - AISC MO11 Manual of Steel Constructions
 - ASTM A36 Specification for Structural Steel
 - ASTM A48 Specification for Gray Iron Castings
 - ASTM A53 Specification for Pipe, Steel, Black and Hot-Dipped, Zinc-Coated Welded and Seamless
 - ASTM A123 Specification for Zinc (Hot-Dip Galvanized) Coatings on Iron and Steel Products
 - ASTM A125 Specification for Steel Springs, Helical, Heat Treated
 - ASTM A153 Specification for Zinc Coating (Hot-Dip) on Iron and Steel Hardware
 - ASTM A283 Specification for Low and Intermediate Tensile Strength Carbon Steel Plates, Shapes and Bars
 - ASTM A307 Specification for Carbon Steel Bolts and Studs, 60,000 psi Tensile
 - ASTM A320 Specification for Alloy-Steel Bolting Materials for Low-Temperature Service
 - ASTM A489 Carbon Steel Eyebolts
 - ASTM A569 Specification for Steel, Carbon, (0.15 Maximum Percent) Hot Rolled, Sheet and Strip, Commercial Quality
 - ASTM A575 Specification for Steel Bars, Carbon, Merchant Quality, M-Grades
 - ASTM B98 Specification for Copper-Silicon Alloy Rod, Bar, and shapes

ASTM B210	Specification for Aluminum and Aluminum-Alloy Drawn Seamless Tubes
ASTM B221	Specification for Aluminum and Aluminum-Alloy extruded Bars, Rods, Wire, Shapes and Tubes
ASTM B438	Specification for Sintered Bronze Bearings (Oil impregnated)
ANSI/AWS D1.1	Structural Welding Code – Steel NFPA 101 Life Safety Code
NFPA 101	Life Safety Code

1.4 SUBMITTALS

- A. The following shall be submitted:
 1. Shop drawings of miscellaneous metalwork including pipe supports, nuts, bolts.

PART 2 PRODUCTS

2.1 MATERIALS

- A. Except as otherwise indicated, products fabricated of structural steel shapes, plates and bars shall comply with the requirements of ASTM A 36 or ASTM A283.

2.2 FABRICATION

- A. Corrosion Protection:
 1. Miscellaneous steel metalwork shall be hot-dip galvanized after fabrication except as otherwise indicated.
- B. Welding:
 1. Welding shall be by the metal-arc method or gas-shielded arc method as described in the American Welding Society's "Welding Handbook" and supplemented by other standards of the AWS. Qualification of welders shall be in accordance with the AWS Standards.
 2. In assembly and during welding, the component parts shall be adequately clamped, supported and restrained to minimize distortion and for control of dimensions. Weld reinforcement shall comply with the AWS Code.
 3. Upon completion of welding, weld splatter, flux, slag, and burrs left by attachments shall be removed. Welds shall be repaired to produce a workmanlike appearance, with uniform weld contours and dimensions. Sharp corners of material that is to be painted or coated shall be ground to a minimum of 1/32-inch on the flat.
- C. Galvanizing:

1. Where galvanizing is indicated, structural steel plates, shapes, bars and fabricated assemblies shall be thoroughly cleaned of rust and scale and shall be galvanized in accordance with the requirements of ASTM A 123.2.
2. Any galvanized part that becomes warped during the galvanizing operation shall be straightened.
3. Bolts, anchor bolts, nuts and similar threaded fasteners, after being properly cleaned, shall be galvanized in accordance with the requirements of ASTM A 153.

2.3 BOLTS

- A. Bolt Requirements: Bolts shall comply with the following:
 1. The nuts shall be capable of developing the full strength of the bolts.
 - a. Threads shall be Coarse Thread Series conforming to the requirements of the American Standard for Screw Threads.
 - b. Flange bolts and nuts shall conform to a minimum ASTM #A307. Bolts less than $\frac{3}{4}$ inches in diameter shall be a minimum Grade B (heavy hex), cadmium plated or zinc-coated steel. Bolts $\frac{3}{4}$ inches and larger in diameter shall be a minimum Grade A (standard hex).
 - c. Tee Bolt-Steel bolts are to be $\frac{3}{4}$ inch high strength, low alloy steel with a heavy nut, conforming to AWWA Standard C-111-90.
 2. The length of all bolts shall be such that after joints are made up, each bolt shall extend through the entire nut, coated with anti-seize lubricant, and shall extend at least 3 threads beyond the nut when tightened to the proper torque.
- B. Buried, Corrosive or Submerged Bolts
 1. Unless otherwise indicated, bolts, anchor bolts, nuts and washers, which are buried, submerged, or below the top of the wall inside any hydraulic structure or as indicated on the Drawings shall be of Type 316 stainless steel.
- C. Unless otherwise indicated, eyebolts shall conform to ASTM A 489.

PART 3 EXECUTION

3.1 GENERAL

- A. Fabrication and Erection: Except as otherwise indicated, the fabrication and erection of structural steel shall conform to the requirements of the American Institute of Steel Construction "Manual of Steel Construction."
- B. General:
 1. Fieldwork, including cutting and threading, shall not be permitted on galvanized items without touch-up coating on the cut surfaces..
 2. Dissimilar metals shall be protected from galvanic corrosion by means of pressure tapes, coatings or isolators.
 3. Drilling of bolts or enlargement of holes to correct misalignment will not be allowed.

4. Holes shall be punched 1/16-inch larger than the nominal size of the bolts, unless otherwise indicated. Whenever needed, because of the thickness of the metal, holes shall be subpunched and reamed or shall be drilled.
5. Fabrication including cutting, drilling, punching, threading and tapping required for miscellaneous metal or adjacent work shall be performed prior to hot-dip galvanizing.

END OF SECTION

09 90 00
COATINGS

PART 1 GENERAL

1.1 WORK INCLUDED

- A. This Section covers coating for process mechanical items such as piping, mechanical equipment, and metal stairs/railings.
- B. Coat or paint all piping and equipment which are part of this Contract, except:
 - 1. Metal completely embedded in concrete (except aluminum).
 - 2. Piping buried in ground or encased in concrete.
 - 3. Galvanized materials.
 - 4. Chain link fence and galvanized fence gates.
 - 5. Rubber.
 - 6. Buried Plastic pipe, including: polyvinyl chloride, polyethylene, and polypropylene piping, except as noted.
 - 7. Stainless steel.
 - 8. Bronze, brass.
 - 9. Nameplates and grease fittings.
 - 10. Factory finished electrical panels.
 - 11. Factory fusion epoxy coated items (except for field touchup).
 - 12. Zinc coated steel.
 - 13. Concrete, except as defined herein, as specified elsewhere, or as shown on the Drawings.
- C. Definitions:
 - 1. The term "paint," as used hereinafter includes enamels, paints, sealers, fillers, emulsions, and other coatings whether used as prime, intermediate, or finish coats.

1.2 QUALITY ASSURANCE

- A. Qualifications of painters: Use only qualified journeyman painters for the mixing and application of paint on exposed surfaces. In the acceptance or rejection of installed painting, no allowance will be made for lack of skill on the part of painters.

SSPWC 210-2.3.3 - Chemical resistance testing published in the Standard Specifications for Public Works Construction, 1997 edition (otherwise known as "The Greenbook").

In addition to complying with all pertinent codes and regulations, comply with "Standard (Type I)" as defined by the Painting and Decorating Contractors of America in their "Modern Guide to Paint Specifications, latest edition.

Paints in a particular coating system shall be the products of a single manufacturer.

1.4 SUBMITTALS

- A. Prior to ordering material, submit a complete schedule of materials to be used. Include manufacturer's brand name, product name, and designation number for each coat of each system to be used.
- B. Prior to commencing work, submit a detailed list of all surfaces and equipment items upon which the Contractor intends to apply protective coatings.
- C. Provide the following information on each paint product:
 - 1. Abrasion resistance, ASTM D5060, 1 kg load at 1000 cycles, CS-17 wheel
 - 2. Impact resistance, ASTM D2794, direct and reverse
 - 3. Moisture vapor transmission, ASTM F1249
 - 4. Adhesion, ASTM D4541
- D. If materials other than those listed are submitted, submit additional information to fully define the proposed substitution. The Owner may further require the Contractor to furnish additional test results from an independent paint laboratory comparing the proposed substitution with one of the named products, at no additional cost to the Owner. For substituted materials, provide a list of references, including contact person and phone number, where proposed substitute paint system has been used in similar exposures. Provide a minimum of five references (no duplicate owners or agencies).
- E. Provide Material Safety Data Sheets (MSDSs) for all products.
- F. Manufacturer's Certification: That products furnished meet applicable Air Quality Management District regulations as to allowable volatile organic compound (VOC) content for the place of application and use intended.

- G. Submit a full range of the manufacturer's standard and let down finish colors for review and selection by the Owner. After final colors have been selected, submit two 8-1/2 x 11-inch samples on cardboard of each color indexed as to manufacturer and color designation. Color chips 3/4-inch x 1-1/2-inch may be used for pipe color codes.
- H. Manufacturers' recommendations: In each case where material proposed is not the material specified or specifically described as an acceptable alternate in this Section of these Specifications, submit for the Owner's review the current recommended coating system and method of application published by the manufacturer of the proposed material.

1.5 ENVIRONMENTAL REGULATORY REQUIREMENTS:

- A. All work, material, procedures, and practices under this Section shall conform with requirements of the local Air Resources Board or Air Quality Management District having jurisdiction. Prime or finish coat painting done in locations other than the project site shall be in accordance with air quality regulations in effect at the place the coating is applied. Products specified herein are, to the best of the Design Engineer's knowledge, in compliance with the applicable volatile organic compounds (VOC) 1 levels allowable at the date these Specifications were issued for bid.
- B. The Air Resources Board or Air Quality Management District having jurisdiction may prohibit the sale or application of paints and enamels containing more than the stipulated percentages of volatile organic solvents manufactured after a stated date. Provide material meeting applicable regulations effective at the date of manufacture, or if not available, provide top of the line materials developed as replacements for specified materials and meeting applicable regulations as to VOC solvents content.
- C. If the Contractor applies coatings that have been modified or thinned other than as recommended by manufacturer, he will be responsible for any fines, costs, remedies or legal actions that may result.

1.6 PRODUCT HANDLING

- A. Delivery:
 - 1. Deliver all paint materials to the job site in their original unopened containers with all labels intact and legible at time of use. The label shall indicate the designated name, color, date of manufacture, and name of manufacturer.
- B. Protection:
 - 1. Store only the approved materials at the job site, and store only in a suitable and designated area restricted to the storage of paint materials and

related equipment. The area shall be heated or cooled as required to maintain temperatures within the range recommended by the paint manufacturer.

2. Paint materials shall be kept sealed when not in use.
3. Use all means necessary to protect paint materials before, during, and after application and to protect the installed work and materials of all other trades.

C. Replacements:

1. In the event of damage, immediately make all repairs and replacements necessary to the approval of the Owner at no additional cost to the Owner.

1.7 LOCATION WHERE PAINTING IS PERFORMED

A. General:

1. Field painting shall be limited to pipe coating and general touch-up. The Contractor shall provide at his expense all shelter, heating, cooling, humidity control, and safety measures necessary to perform the work in accordance with these Specifications. The Contractor should consider prevailing weather conditions at the job site when scheduling painting.

B. Surfaces not requiring painting:

1. Nonferrous and corrosion-resistant ferrous alloys such as copper, bronze, monel, aluminum, chromium plate, weathering steel, and stainless steel, except where (1) required for electrical insulation between dissimilar metals, (2) aluminum is in contact with concrete or masonry, (3) color coding of equipment and piping is required, and (4) as noted in these specifications or the Drawings.
2. Items specified to be galvanized after fabrication unless specifically required elsewhere in these Specifications. Manufactured items and materials that are "factory" galvanized shall be prepared and painted as specified hereinafter for the exposure condition of the item and for architectural purposes unless otherwise approved by the Owner.

PART 2 PRODUCTS

2.1 PAINT MATERIALS

A. Manufacturer:

1. Paint materials are identified by proprietary name to indicate the type and quality of material desired. Materials of other manufacturers may be substituted subject to the written approval of the Owner.
2. All materials of a paint system, including primer and finish coats, shall be produced by the same paint manufacturer unless otherwise approved by the Owner and the affected paint manufacturers. Thinners, cleaners, driers,

and other additives shall be as recommended by the paint manufacturer of the particular coating as per the Coating Preparation and Application Sheet (CPAS).

B. Compatibility:

1. All paint materials and equipment shall be compatible in use. Finish coats shall be compatible with prime coats and prime coats shall be compatible with the surface to be coated. All tools and equipment shall be compatible with the coating to be applied.
2. Thinners, when used, shall be only those thinners recommended for that purpose by the manufacturer of the material to be thinned.

2.2 COLORS

A. General:

1. Colors shall be selected by the Owner.
2. Colors shall be formulated with colorants free of lead, lead compounds.
3. Provide color chart prior to formulating paints

- B. Provide a color coded layout of all piping and appurtenances indicating colors to be painted prior to painting for approval.

2.3 PAINT SYSTEMS

Paint Manufacturers. The paint manufacturers of the paint products listed herein are identified as follows:

(A) Ameron
(R) Rust-Oleum Industrial Choice
(T) Tnemec
(SW) Sherwin Williams

System 2: General Ferrous Interior, not Exposed to Atmosphere

1st Coat – bare metal	High Solids Epoxy	(A) Amerlock 400 (T) Series 135
Finish Coat(s)	High Solids Epoxy	(A) Amerlock 400 (T) Series 135
Total DFT = 12 mils		

System 3: Prefinished Machinery Coating (Other than prime coat)

One Coat	Aliphatic Polyurethane	(A) Amershield (T) Series 74
DFT = 2 mils		

System 4: Galvanized Steel and Non-Ferrous Metals

1st Coat(s)	High Solids Epoxy	(A) Amerlock 400 (T) Series 135
2nd Coat	High Solids Epoxy	(A) Amerlock 400

DFT = 18 mils
Finish Coat – exterior surfaces Acrylic Copolymer
5215300
DFT = 3 mils

(T) Series 69
(R) DTM Acrylic

Color: Alumi-Non

PART 3 EXECUTION

3.1 SURFACE CONDITIONS

- A. Inspection:
 - 1. Prior to all work of this Section, carefully inspect the installed work of all other trades and verify that all such work is complete to the point where this installation may properly commence.
 - 2. Verify that paint finishes may be applied in strict accordance with all pertinent codes and regulations and the requirements of these Specifications.
- B. Discrepancies:
 - 1. In the event of discrepancy, immediately notify the Owner.
 - 2. Do not proceed with painting in areas of discrepancy until all such discrepancies have been fully resolved.

3.2 PREPARATION OF SURFACES, GENERAL

- A. All painting work shall be performed in strict accordance with the CPAS manufacturer's instructions and these Specifications. The Contractor must have the completed CPAS forms before any surface preparation or coating application work is started.
- B. Protection:
 - 1. Prior to all surface preparation and painting operations, completely mask, remove, or otherwise adequately protect any items in contact with painted surfaces but not scheduled to receive paint.
 - 2. Provide sufficient protection to prevent paint materials from falling on any adjacent surfaces.
 - 3. Provide for containment of possible spills when painting over water.
- C. Cleaning:
 - 1. Before applying paint or other surface treatment, thoroughly clean all surfaces involved.
 - 2. Schedule all cleaning and painting so that dust and other contaminants from the cleaning process will not fall on wet, newly painted surfaces.

3.3 PIPE AND EQUIPMENT IDENTIFICATION

- A. Identify all piping and equipment exposed to the atmosphere, both interior and exterior, and including pipe located in concrete pipe trenches, using markers that meet the ANSI A13.1-2015 Standard.
- B. Primary identification: marker shall have pipe content labeled and direction arrow per A13.1-2015 Standard.
1. Potable Water
 2. Drain
 3. Odor
 4. FOG
 5. Overflow
- C. Size: markers shall meet the following size criteria per ANSI A13.1-2015 Standard:

<u>Fits pipe outer diameter</u>	<u>Length of Color Field</u>	<u>Letter Height</u>
<3/4"	Note 1	Note 1
3/4" to 1-1/4"	8"	1/2"
1-1/2" to 2"	8"	3/4"
2-1/2" to 6"	12"	1-1/4"
8" to 10"	24"	2-1/2"
Over 10"	32"	3-1/2"

1. Label pipe with permanent legible tag.

- D. Colors per ANSI A13.1-2015 Standard:

<u>Classification</u>	<u>Color Scheme</u>
Fire quenching fluids	White on Red
Toxic & corrosive fluids	Black on Orange
Flammable & oxidizing fluids	Black on Yellow
Combustible fluids	White on Brown
Potable, cooling, boiler feed, & other water	White on Green
Compressed Air	White on Blue

- E. Pipe marker placement per ANSI A13.1-2015 Standard:
1. Adjacent to all valves and flanges
 2. Adjacent to all changes of direction
 3. On both sides of wall or floor penetrations
 4. At every 25' to 50' intervals on straight runs

3.4 PREPARATION OF METAL SURFACES

- A. General:

1. All workmanship for metal surface preparation shall be in strict conformance with the applicable following Steel Structures Painting Council (SSPC) Specifications and additions.

Solvent Cleaning	SP 1
Hand Tool Cleaning	SP 2
Power Tool Cleaning (Wire Brush)	SP 3
White Metal Blast Cleaning	SP 5
Commercial Blast Cleaning	SP 6
Brush-Off Blast Cleaning	SP 7
Pickling	SP 8
Near-White Blast Cleaning	SP 10
Wheelabrator	

2. Wherever the words "solvent cleaning," "hand tool cleaning," "wire brushing," or "blast cleaning," or similar words of equal intent are used in these Specifications or in paint manufacturers' specifications, they shall be understood to refer to the applicable SSPC Specifications listed above.
3. Hand tool clean areas that cannot be cleaned by power tool cleaning.

B. Preblast cleaning requirements:

1. All oil, grease, welding fluxes, and other surface contaminants shall be removed prior to blast cleaning.
2. All sharp edges shall be rounded or chamfered and all burrs, jagged edges, and surface defects shall be ground smooth.
3. Welds and adjacent areas shall be prepared such that there is (1) no undercutting or reverse ridges on the weld bead, (2) no weld spatter on or adjacent to the weld or any other area to be painted, and (3) no sharp peaks or ridges along the weld bead. All embedded pieces of electrode or wire shall be ground flush with the adjacent surface of the weld bead.

C. Blast cleaning requirements:

1. The type of equipment and speed of travel shall be such that the specified degree of cleanliness is obtained. The type and size of abrasive shall be selected to produce a surface profile that meets the coating manufacturer's recommendations for the particular primer to be used. Only dry blast cleaning methods will be permitted. The abrasive shall not be reused unless otherwise approved by the Owner.
2. Abrasive blast cleaning shall not be performed whenever the relative humidity exceeds 85 percent, nor whenever the surface temperature is within 5 degrees F above the dew point of the ambient air.
3. The Contractor shall comply with the applicable State and local air pollution control regulations for blast cleaning.

D. Post-blast cleaning and other cleaning requirements:

1. All surfaces shall be cleaned of all dust and residual particles of the cleaning operations by air blast cleaning or other approved method prior to

- painting. Enclosed areas and other areas where dust settling is a problem shall be vacuum cleaned and wiped with a tack cloth.
2. Surfaces shall be painted within 8 hours after the start of the cleaning operations or sooner if required to preclude surface rusting. Surfaces that have started to rust before they are painted shall be reblasted.

3.5 PREPARATION OF EXISTING COATED AND FIELD REPAIRED SURFACES

- A. Existing coated surfaces to be repainted shall be detergent washed and fresh water rinsed. Loose, abraded, or damaged coatings shall be cleaned to substrate by hand or power tool, SP 2 or SP 3. Surrounding intact coating shall be feathered. One spot coat of the specified primer shall be applied to bare areas overlapping the prepared existing coating. Two full finish coats of the specified material shall be applied overall.
- B. The exact nature of the existing coatings is not known in all cases; and, while it is assumed that they have oxidized sufficiently to prevent lifting or peeling when overcoated with the paints specified, the compatibility shall be checked by application to a small area prior to starting the painting. If lifting or other problems occur, request disposition from the Owner.

3.6 INTERCOAT SURFACE PREPARATION

- A. Previously primed or painted surfaces shall be prepared using a method approved by the paint manufacturer in order to remove all loose and partially embedded overspray and dust particles. All dust and loosened intercoat contaminants shall be air-blown cleaned or vacuumed to provide a clean, dust-free substrate.

3.7 SOLVENT CLEANING

- A. Solvent cleaning shall consist of removal of foreign matter such as oil, grease, soil, drawing and cutting compounds, and any other surface contaminants by the use of solvents, emulsions, cleaning compounds, steam cleaning, or similar materials and methods which involve a solvent or cleaning action. This method conforms with Steel Structures Painting Council SP 1.

3.8 PAINT APPLICATION

- A. General:
 1. All paints and coatings shall be applied in strict accordance with the "Coating Preparation and Application Sheet" (CPAS) and the paint manufacturer's recommendations. The applied coatings shall contain no runs, bridges, shiners, laps, or other imperfections. It is the intent that the coating system shall be free of pinholes and holidays and uniform in texture and color.
- B. Drying:

1. Allow sufficient drying time between coats.
 2. Modify the period as recommended by the material manufacturer to suit adverse weather conditions.
- C. Environmental conditions:
1. Comply with the manufacturer's recommendations as to environmental conditions under which the coating systems may be applied.
 2. Do not apply paint in areas where dust is being generated.
- D. Defects:
1. Sand and dust between coats to remove all defects visible to the unaided eye from a distance of five feet.
- E. Color of undercoats:
1. Slightly vary the color of succeeding coats.
- F. Multiple component coatings:
1. Multiple component coatings shall be prepared using all of the contents of the container for each component as packaged by the paint manufacturer. No partial batches will be permitted. Multiple component coatings that have been mixed shall not be used beyond their pot life. The paint applicator should purchase small quantity kits for touch-up painting and other small areas requiring painting. Only the components specified and furnished by the paint manufacturer shall be mixed. No intermixing of additional components for reasons of color or otherwise, even within the same generic type of coating, will be permitted unless written approval is obtained from the paint manufacturer.
 2. Porous surfaces:
 3. Porous surfaces such as concrete, masonry, stucco, etc., shall have the prime coat thinned to provide maximum penetration and adhesion. Type and amount of thinning shall be determined by the paint manufacturer and is dependent upon the surface density and type of coating.
 4. Porous surfaces specified to receive a water base coating shall be damp, but free of running water, just prior to application of the coating.
- G. Damaged coatings:
1. Damaged coatings, pinholes, and holidays shall have the edges feathered and repaired in accordance with the CPAS and the recommendations of the paint manufacturer.
 2. All finish coats, including touch-up and damage-repair coats shall be applied in a manner which will present a uniform texture and color-matched appearance.
- H. Safety:
1. Painting shall be performed in strict accordance with the safety recommendations of the National Association of Corrosion Engineers

contained in the publication, "Manual for Painter Safety." Unsafe conditions shall be cause for rejection of the work.

3.9 INSPECTION

A. General:

1. The preparation of surfaces and applications of coatings and related materials as required to complete the Work will be subject to inspection by the Owner at all times during performance of the Work.
2. The Contractor shall give the Owner a minimum of 3 days advance notice of the start of any surface preparation work or coating application work. All such work shall be performed only in the presence of the Owner, unless the Owner has granted prior approval to perform such work in his absence. Work which has been performed in the absence of the Owner without his prior approval, or work which is not performed in strict compliance with the procedures set forth in these Specifications, will be subject to rejection.
3. Items of metalwork which have shop-applied coatings shall not be shipped until the coatings have been inspected by the Owner and the items have been released for shipment, unless otherwise approved by the Owner.
4. Inspection by the Owner, or the waiver of inspection of any particular portion of the work, shall not be construed to relieve the Contractor of his responsibility to perform the work in accordance with these Specifications.

B. Surface preparation:

1. Surface preparation will be inspected for compliance with the "Coating Preparation and Application Sheet" (CPAS) and these Specifications. All surfaces shall be subject to inspection prior to the start of the surface preparation.
2. Blast cleaned surfaces of mild steel shall be cleaned to the final finish displayed in the Pictorial Surface Preparation Standards for Painting Steel Structures, SSPC- VIS- 1- 67T. The Contractor and the Owner shall use the visual standards as a guide in determining the minimum degree of surface preparation required.
3. Surfaces of castings and of metals other than mild steel shall be cleaned to the degree of contaminant removal specified in the applicable SSPC surface preparation. A rational method for evaluating the degree of cleanliness of the particular surface shall be determined by the Owner.
4. The surface profile shall be measured for conformance with a Keane-Tator surface comparitor.

C. Number of coats:

1. Only inspected and approved coats of paint will be considered in determining the number of coats applied.

3.10 DRY MIL THICKNESS

- A. General:
 - 1. Apply all coatings to the dry mil thickness indicated in the "Paint Schedule."
- B. Measurement:
 - 1. After repaired and recoated areas have dried sufficiently, final tests will be conducted by the Owner. Coating thickness specified in mils will be measured with a magnetic type dry-film thickness gauge such as Mikrotest, supplied by Nordsen Pacific, Buena Park, California. Discontinuities and voids in the coatings (except zinc primer and galvanizing) will be determined with an electrical holiday detector, spark type, or other means recommended by the manufacturer for coating type and thickness.

3.11 CLEANING UP

- A. General:
 - 1. During progress of the Work, do not allow the accumulation of empty containers or other excess items except in areas specifically set aside for that purpose.
 - 2. Prevent accidental spilling of paint materials and, in event of such spill, immediately remove all spilled material and the waste or other equipment used to clean up the spill, and wash the surfaces to their original undamaged condition, all at no additional cost to the Owner.
 - 3. All cloths and cotton waste that might constitute a fire hazard shall be placed in closed metal containers or destroyed at the end of each day.
- B. Prior to final inspection:
 - 1. Upon completion of this portion of the Work, visually inspect all surfaces and remove all paint and traces of paint from surfaces not scheduled to be painted.

3.12 PAINT SCHEDULE

- A. Below is a list of the various paint systems included in this Section. The systems are categorized according to exposure or surface. Some systems include alternative types of coatings which will perform satisfactorily for the particular exposure.
- B. Provide coatings in accordance with the following exposure schedule:

Exposure	Surface Preparation	Paint System	Note (see below)
Prefinished machinery coating	Hand Tool Cleaning	5	3
Exposed galvanized steel, copper and other non-ferrous metals	Solvent clean, lightly Hand Sand	6	4
Factory finish coated items not requiring field painting	Touchup	-	5

C. Notes to Application Schedule:

1. These surfaces include, but are not limited to: general miscellaneous ferrous metal; machinery; pumps; blowers; compressors; supports; valve handwheels and stands; valve bodies; above ground piping systems; pipes; valves and fittings in vaults; structural steel; steel elements; except where other systems in this schedule are more specifically applicable.
2. Apply this system to both ferrous metal and galvanized metal submerged in or suspended over water. These surfaces include but are not limited to machinery parts, piping, valves, brackets and supports, and miscellaneous supports, braces and pump columns. Do not blast clean galvanized surfaces; instead provide one prime coat of 40 passivator prior to finish painting. Coat inaccessible surfaces prior to erection.
3. All piping, valves, pumps, drives, machinery, and equipment that have factory finish coats that will be exposed to atmosphere. This system provides for repair of above named items and color uniformity with rest of field coat items.
4. Exposed galvanized steel items except those specifically excluded, exposed copper pipe and other non-ferrous metal items.
5. All panels and equipment with factory finishes identified elsewhere as not requiring field paint, damaged during shipping, storage, or installation: touch-up in the field in a manner compatible with the factory coating with respect to paint type, color, and texture. Touch-up fusion epoxy-coated items only with material provided by the fusion epoxy fabricator. If more than 5% of the surface requires touchup, return the items to the fabricator for recoating.

END OF SECTION

26 05 00
COMMON WORK RESULTS FOR ELECTRICAL

PART 1 GENERAL

1.1 SCOPE OF WORK

- A. Provide labor, materials, equipment, transportation and perform operations necessary or incidental to the proper execution and completion of the electrical work, whether specifically mentioned or not, and as directly indicated or reasonably implied by the Drawings and Specifications.

1.2 WORK SPECIFIED IN THESE DIVISIONS:

- A. Section 26 05 19: Low Voltage Conductors and Cables
- B. Section 26 05 26: Grounding and Bonding for Electrical Systems
- C. Section 26 05 33: Raceway and Boxes for Electrical Systems
- D. Section 26 05 53: Identification for Electrical Systems
- E. Section 26 27 26: Wiring Devices

1.3 WORK SPECIFIED IN OTHER DIVISIONS:

- A. Section 40 61 00: Instrumentation
- B. Section 40 63 43: Programmable Logic Process Controllers

1.4 WORK NOT INCLUDED

- A. In any case, cooperate with the other trades who may or may not be party to this Contract for the purpose of coordinating the electrical requirements and installation of equipment, materials, and furnishings provided by those other trades, including the Owner.

1.5 CODES AND STANDARDS

- A. Provide equipment and materials which conform to, and perform the installation thereof in accordance with the following codes and industry standards. The applicable version of each shall be that in effect as of the date of the Contract:
 - 1. The National Fire Protection Association (NFPA 70).
 - 2. American National Standards Institute (ANSI).
 - 3. Florida State Fire Marshal (FSFM).
 - 4. Underwriters' Laboratories (UL).

5. National Electrical Manufacturers' Association (NEMA).
 6. Institute of Electrical and Electronics Engineers (IEEE).
 7. National Electrical Safety Code (NESC).
 8. Electrical Safety Orders.
 9. Other applicable local codes and ordinances.
- B. Where the authority-having-jurisdiction makes an interpretation or decision, as is their prerogative in accordance with the Code, such direction shall be considered a part of these Contract Documents as if contained herein. With respect to completing the intent of the Contract Documents, comply with any and all requirements of the authority-having-jurisdiction and utility company field inspectors, at no additional cost.
- C. The above referenced codes and standards are considered to be absolute minimum requirements. The Drawings and Specifications shall take precedence over the above referenced codes and standards where materials or workmanship of higher quality or larger size is indicated. Nothing in these Drawings or Specifications shall be construed to allow work not conforming to the applicable codes and standards.

1.6 REVIEW OF CONTRACT DOCUMENTS

- A. Examine all relevant Contract Documents including Drawings, Specifications, and Shop Drawings in order to become acquainted with the Work of other installers whose activities will adjoin or be affected by the Electrical Work.

1.7 PERMITS, LICENSES, AND FEES

- A. Procure and pay for all permits, licenses and fees that are required to carry out and complete the Electrical Work.
- B. Pay for building department or utility company imposed inspection fees.
- C. Pay utility company charges for normal or after hours shutdowns, service calls, repairs, and cable locating that are directly related to the installation of the Electrical Work.

1.8 SITE VERIFICATION OF INFORMATION

- A. Visit the project site prior to submitting a bid and verify the condition, location and dimensions of buildings, equipment, and facilities. Become acquainted with conditions under which the Work is to be performed and which may affect the cost thereof.
- B. Verify at the project site, the accuracy of information shown on the Drawings regarding existing equipment, materials, and facilities. This includes but is not limited to: size, type, rating, quality, age, and serviceability. No allowance will be

made on behalf of the Contractor for extra expenses resulting from the failure to discover conditions affecting the Work.

1.9 WORKING SPACE

- A. Maintain adequate work space around, and access to, electrical and mechanical equipment in strict accordance with the applicable Codes. Verify during the course of construction that sufficient space will be available for the installation equipment, fixtures, etc.

1.10 MATERIALS AND SUBSTITUTIONS

- A. Materials shall be new, high quality, free from defects, of standard make, and of the brand or grade as shown on the Drawings or specified herein. Specific trade names are used in the Drawings and Specifications in order to establish the standard grade and characteristics of said items. This does not imply the right upon the part of the Contractor to use other materials or methods without the approval of the Owner.
- B. Electrical materials and equipment shall bear the label of, or be listed by, the Underwriters' Laboratories (UL) wherever standards have been established and label service is regularly furnished by that agency. Comply with the installation and application requirements of UL as documented in their published directories.
- C. Unless specifically noted, equipment and systems shall be the product of a manufacturer who has been in the manufacture of, and has nationally distributed catalogs covering the ratings and specifications of, said equipment or systems, for a period of not less than five (5) years.
- D. Maintain uniformity throughout the Project by making use of only one make or brand of material for each material used.
- E. Substitutions of materials or methods will only be allowed if such items are approved in writing by the Owner as equal in quality and utility to the specified items. Submit a list of proposed substitutions within thirty (30) days of the award of the Contract. Include on the list the original manufacturer's name and model number, the proposed manufacturer's name and model number, catalog cut sheets, ratings, sizes, performance curves, shop drawings, and other data as may be required to demonstrate equality to the specified item.
- F. The approval of a substitution does not authorize any deviation from the utility, size, function, or durability of the specified item unless specifically pointed out and requested in the proposed substitution list, and said deviation is approved in writing by the Owner. Responsibility of the Contractor for dimensional considerations or space conflicts is not relieved by the approval of a substitution.

- G. If requested by the Owner, submit samples of materials and equipment for approval prior to installation.

1.11 ELECTRICAL SUBMITTALS

- A. See the Design-Assist Agreement for conditions of submittal approval and general requirements for submission of shop drawings.
- B. Submit a minimum of five copies (or more as required by the Design-Assist Agreement) of electrical shop drawings and manufacturer's cut sheets for equipment and materials as noted in each Division 26 specification section. Bind the submittals as complete volumes according to classification of equipment such as power, lighting, fire alarm, etc. When possible, make all electrical submittals at the same time.
- C. Submit shop drawings and supporting data as instruments of the Contractor. Stamp each item in the submittal documents with the Contractor's stamp, thereby stating that the equipment meets all requirements and conditions of the Drawings and Specifications. In particular, certify that the items shown on the shop drawings conform to the dimensional, environmental, and space restrictions as pertains to all work under this Contract and the work of other parties in conjunction with this Project.
- D. Provide a blank space on the title page of each submittal classification for the Owner's or Engineer's approval stamp and comment field. The minimum size of such space shall be eight inches wide by five inches high.

1.12 DRAWINGS AND SPECIFICATIONS

- A. The data and information contained on the Drawings is as accurate as was reasonably possible at the time they were produced, but absolute accuracy is not guaranteed. Exact locations, distances, elevations, etc., will be dictated by the actual building and the conditions at the site.
- B. The layout of electrical equipment, wiring, and accessories is shown in a diagrammatic fashion (not pictorially) in order to achieve clarity and legibility. Although the size and location of electrical equipment is drawn to scale wherever possible, refer to all data in the Contract Documents and field verify this information as the project progresses. Examine architectural, structural, mechanical, and other drawings to determine the exact location of conduits, outlets, fixtures, and equipment and to note any conditions which may affect the electrical work.
- C. The Drawings and Specifications may be superseded by later detail drawings and specifications prepared by the Owner. Conform to such detail drawings, specifications, addenda, change orders, other reasonable changes as if they are

contained herein. See the Design-Assist Agreement for change order cost considerations.

- D. Because the Electrical Drawings may be distorted for clarity of representation, it may be necessary to field verify the exact location of electrical outlets, lights, switches, etc. in order to conform to the architectural elements. The Owner reserves the right to make minor changes to the locations of equipment, devices, and wiring shown on the Drawings, at no additional cost, providing the changes are ordered before the rough-in of conduit, boxes, or related items is completed, and no extra material are required.
- E. Determine the appropriate location of lighting fixtures, outlets, wall-mounted devices, etc. by studying the reflected ceiling plans, sections, layout plans and interior elevations. Report conflicting conditions to the Owner before commencing construction.
- F. Conduit quantities, sizes, termination points, and wiring are depicted on the Electrical Drawings. However, not all conduit bends or routing details are necessarily shown. Route conduit so as to conform to the structural conditions, avoid obstructing other trades, maintain space restrictions and keep circulation areas and access openings clear.
- G. Thoroughly examine the Contract Documents prior to submitting a bid in order to determine electrical requirements which are not necessarily indicated on the Electrical Drawings. Include sufficient allowance in the bid sum to cover the costs of these other requirements.
- H. Should the Contractor perceive that the Drawings and Specifications do not sufficiently define the intent of electrical work, contact the Engineer for clarification or additional information. The absence of such contact will be considered as evidence of understanding, on the part of the Contractor, of the intended Electrical Work and the required installation thereof.

1.13 WORKMANSHIP

- A. Constantly supervise the work personally or through an authorized and competent representative. Keep the same foreman or supervisor on the project from commencement through completion.
- B. Perform the Electrical work using the highest caliber craftsman available. Workmanship shall be first class and of the best quality available to insure a long and trouble free service life. Allow only experienced and competent workmen on the job.

1.14 COOPERATION AND COORDINATION

- A. Consult with the other installers and trades in coordinating the Work so as to avoid conflicts, omissions and delays. Cooperate with other contractors, third parties, and the Owner in order to expedite the project and provide for the proper execution of the building as a whole. Work performed without regard to other trades or the overall project scheme, may necessarily be required to be moved at the Contractor's expense.

1.15 MANUFACTURER'S DIRECTIONS

- A. Adhere to the manufacturer's directions regarding the proper installation and configuration of electrical equipment where those directions cover points not included in these Drawings and Specifications.

1.16 PROTECTION AND STORAGE

- A. Deliver electrical materials to the site new, and in unbroken packages. Provide for the temporary storage of such materials, equipment, and construction tools in accordance with the Design-Assist Agreement. Protect electrical equipment and materials during transit, storage and handling to prevent damage, soiling and deterioration.
- B. During shipping storage and handling protect electrical materials from damage of any type including dust, water, over-spray, and temperature. Avoid damage during construction to the work and materials of other trades as well as the electrical work and material. Repair or replace, at the Contractor's expense, defective or damaged items such that the entire Work is completed in a condition satisfactory to the Owner.

1.17 EXCAVATION, CUTTING, PATCHING, AND REPAIR

- A. Perform excavation and backfill required for the installation of electrical sub-structures. Restore grounds, walkways, roadways, curbs, walls, and other existing underground facilities to their original condition.
- B. Cut, core-drill, and demolish existing walls, floors, ceilings and other building surfaces as required for the installation of Electrical Work. Obtain the approval of the Owner prior to performing any operation which may affect any structural elements of the building.
- C. Patch and repair wood, plaster, tile, or concrete surfaces which have been damaged by the installation of the Electrical Work so that the finished surface matches the surrounding conditions.

1.18 FLASHING, WATERPROOFING AND SEALING

- A. In general, install in an approved watertight manner, Electrical Work which pierces exterior walls or waterproofing membranes. Flash and counter-flash roof and wall penetrations in a manner described in other applicable sections of this Specification and as approved by the Owner.
- B. Fit conduits passing through finished walls with steel escutcheon plates of brass, chrome, or painted finish as directed by the Owner. Grout penetrations of floor slabs, concrete or masonry walls with an approved grout or silicone elastomeric caulk.

1.19 CLEANING, ADJUSTING, AND TOUCH-UP

- A. Remove on a daily basis electrical debris, scraps, packaging material and other rubbish. Dispose of such items off-site in an approved manner and debris. Maintain the site free from physical hazards at all times in accordance with OSHA regulations. See the Design-Assist Agreement for additional requirements.
- B. After installation, completely clean electrical equipment, fixtures, and materials of excess paint, over-spray, plaster, cement, insulating products, and other foreign matter. Leave the Electrical Work in a clean, finished, dry, level, like new condition.
- C. Touch-up paint scratches and scuffs on electrical equipment and lighting fixtures with paint recommended by the manufacturer and matching the original item finish.
- D. Make setting, adjustments, and programming in accordance with the manufactures' operating and installation instructions. Settings and program variables will be issued by the Owner prior to commissioning of the electrical system.

1.20 AS-BUILT DRAWINGS

- A. Throughout the project, maintain accurate and current record documents. Show on the record drawings deviations from the Electrical Drawings, locations of underground conduits and pull-boxes, and concealed equipment which is not readily apparent. Dimension the record drawings using permanent, readily identified benchmarks such as column or wall lines.
- B. At the completion of the project, present one clearly legible set of the record drawings to the Owner.

1.21 INSPECTIONS AND TESTING

- A. Arrange for the inspection of the Work at various stages of completion by the Authority Having Jurisdiction, utility company representatives, and the Owner. Comply with all directions and remedial measures issued thereby. Any objections

to these orders on the part of the Contractor must be presented to the Owner in writing within forty eight (48) hours of the inspection report.

- B. Coordinate the installation of the Work so that observation of all rough-in, concealed, or underground Work can take place by the Owner. Provide a minimum of seventy two (72) hours notice to the Owner prior to covering up the work. Uncover Work that has not been properly observed and make repairs to restore the Work and adjoining surfaces to their proper condition at no additional cost.
- C. Perform tests of the electrical system during the course of the project and at project completion to ensure safe and proper function in accordance with the Contract Documents, manufacturers' recommendations, and applicable codes. Provide complete documentation of all test results to the Owner prior to project completion. Testing shall include, but not necessarily be limited to, the following:
 - 1. Test for short circuits, open circuits, neutral leakage, and improper grounds on feeders and branch circuits. Perform this test with mains in disconnect from feeders, branch circuits closed, fixtures and devices permanently connected, lamps removed from sockets and wall switches closed.
 - 2. Provide insulation resistance tests of all phase and neutral circuit conductors using a 500 Volt Megger for circuits of 240 Volt rating and below, and a 1000 Volt Megger for circuits of 277 volts and above. Minimum acceptable insulation resistance is one (1) megohm.
 - 3. Perform a ground resistance test of each main grounding electrode system, ground rod, and supplemental grounding electrode. Utilize a calibrated, direct reading, earth ground test set and make the tests using the "Three-terminal, Fall-of-Potential" method. The maximum allowable earth ground resistance is 25 ohms.
 - 4. Test for proper phase-to-phase and phase-to-neutral operating voltage on the main service and on each separately derived system. Perform this test at full load and at no load. With all circuits at full operating conditions, test the phase and neutral load currents using a clamp-on ammeter.
 - 5. Tests as required by other sections of these Specifications.
 - 6. Tests as prescribed by individual equipment manufacturers whether or not described in these Specifications.
- D. At project completion, demonstrate to the Owner that the entire installation is complete, in proper operation condition and that the Contract has been properly and fully executed. Activate all circuits, lights, devices, and controls under full load and normal operating conditions. Identify faulty items and immediately replace or repair defective equipment, workmanship, and materials to like new condition and retest in the presence of the Owner.
- E. At the completion of the Project, demonstrate to the Owner that the entire electrical system is free from short circuits and improper grounds, or upon request of the Owner anytime, make necessary tests under the observation of the Owner

which will ensure that electrical equipment, materials and installation methods are as specified.

1.22 GUARANTEE

- A. In accordance with Design-Assist Agreement requirements.

1.23 WARRANTIES, CERTIFICATES, AND OPERATING MANUALS

- A. Properly fill out and deliver to the Owner, all warranties, guarantees, certificates, etc. for equipment and materials that are furnished and installed under this Section of the Work. The effective date on each item shall be the date of acceptance of the work by the Owner.
- B. Deliver to the Owner, a minimum of two (2) copies of the manufacturers' operating and maintenance manuals for major items of equipment.

SECTION 26 05 19
LOW VOLTAGE CONDUCTORS AND CABLES

PART 1 GENERAL

1.1 SUMMARY

- A. Wire and cable, This section covers all labor, material, tools, equipment and services required to install power conductors, control cables, wiring connectors and connections.

1.2 RELATED SECTIONS

- A. Section 26 05 00: Common Work Results for Electrical
- B. Section 26 05 26: Grounding and Bonding for Electrical Systems
- C. Section 26 05 33: Raceways and Boxes for Electrical Systems
- D. Section 26 05 53: Identification for Electrical Systems

1.3 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

- A. ASTM B 3 Soft or Annealed Copper Wire
- B. ASTM B 496 Compact Round Concentric-Lay-Stranded Copper
Conductors
- C. ASTM B 8 Concentric-Lay-Stranded Copper Conductors, Hard,
Medium-Hard, or
- D. Soft
- E. ANSI C 2 National Electrical Safety Code – latest edition
- F. IEEE 242 Recommended Practice for Protection and Coordination of
Industrial and
- G. Commercial Power Systems.
- H. IEEE 399 Recommend Practice for Industrial and Commercial Power
System
- I. Analysis.
- J. NECA Standard of Installation.
- K. NEMA WC-26 Wire and Cable Packaging
- L. NETA ATS National Electrical Testing Association Acceptance Testing
- M. Specifications for Electrical Power Distribution Equipment and Systems.
- N. NFPA 70 National Electrical Code – latest edition.

- O. UL 83 Thermoplastic-Insulated Wires and Cables.
- P. UL 486A Wire Connectors and Soldering Lugs for Use with Copper Conductors.
- Q. UL 510 Polyvinyl Chloride, Polyethylene and Rubber Insulating Tapes.

1.4 SYSTEM DESCRIPTION

- A. The applications for cable, wire and connectors required, but not limited to, are as follows:
 - 1. Power distribution circuitry.
 - 2. Lighting circuitry.
 - 3. Appliance and equipment circuitry.
 - 4. Wiring for motors of mechanical equipment
 - 5. Wiring from the motor(s) of mechanical equipment to the disconnect switches or junction boxes, including wiring for pushbuttons, pilot lights, interlocks and similar devices as directed, shown, or specified.
 - 6. Wiring from the motors of mechanical equipment to motor starters, including other auxiliary wiring as may be required, directed, or shown.
 - 7. Line voltage wiring as required by other Divisions 2 thru 15, and interlocking to motor starters.
 - 8. Control wiring for motors, mechanical equipment, relays and switches, and similar mechanical-electrical devices.
 - 9. Line voltage wiring to thermostats, alarm systems and other miscellaneous equipment.

1.5 PROJECT CONDITIONS

- A. All conductor sizes are based on copper.
- B. Wire and cable routing shown on Drawings is diagrammatic unless dimensioned.
- C. The contractor shall be responsible for any and all raceways and raceway/cable supports in accordance with all other sections of these specifications.

1.6 REGULATORY REQUIREMENTS

- A. Furnish products listed and classified by Underwriters Laboratories, Inc. (UL), Electrical Testing Laboratories, Inc. (ETL), or other recognized, acceptable testing and listing agencies as suitable for the purpose specified and shown.

1.7 CONTRACTOR SUBMITTALS

- A. Product Data:
 - 1. Submit manufacturer's catalog cuts and technical data for building wire and cables.

2. Field Test Report:
3. Measure overall insulation resistance to ground. Provide certified test report for Engineer's Review.

1.8 CLOSEOUT SUBMITTALS

- A. Provide project record documents showing actual locations of components and circuits.
- B. Submit final certified test reports of all insulation resistance tests.

1.9 QUALIFICATIONS

- A. Manufacturer shall be a Company specializing in manufacturing products specified in this section with a minimum of five (5) years experience.

1.10 DELIVERY, STORAGE, AND HANDLING

- A. Deliver, store, protect, and handle products on site in accordance with Division 1 requirements.
- B. Accept cable and accessories on site in manufacturer's packaging. Inspect for damage.
- C. Store and protect cable and accessories from the environment in accordance with manufacturer's published instructions. Provide adequate heating and ventilation to prevent condensation.
- D. Damaged items shall be replaced at no additional cost to COUNTY.

1.11 COORDINATION

- A. Where wire and cable destination is indicated and routing is not shown, determine exact routing and lengths required.
- B. Wire and cable routing indicated is approximate unless dimensioned. Include wire and cable lengths within 10 feet of length shown.

PART 2 PRODUCTS

2.1 BUILDING WIRE AND CABLE

- A. Building wire and cable shall be UL83 compliant, insulated, single conductor, copper, solid or stranded, rated for 600-volts AC. The insulation shall be thermoplastic material rated for 90 degrees Celsius dry locations, 75 or 90 degrees Celsius wet locations, THW, THHN/THWN, THHN/THWN-2, RHW or XHHW, per ANSI/NFPA 70.
- B. For Interior Dry Location: Use only building wire, THHN/THWN or THHN/THWN-2 insulation rated 90 degree Celsius, in raceway.
- C. For Exterior Wet or Dry Locations: Use only XHHW insulation rated for 90 degree Celsius, in raceway.
- D. For Underground Dry or Wet Locations: Use only XHHW insulation rated 90 degree Celsius, in raceway.
- E. For connections to electrical equipment, coordinate wire type with equipment manufacturer.
- F. Manufacturer: Aetna, General Cable, Okonite Company, Southwire

2.2 INSTRUMENTATION CABLE

- A. Single Pair (600 Volt No.16 AWG Twisted, shielded pair instrumentation Cable, Type TC):
 - 1. General: Single pair instrumentation cable designed for noise rejection for process control, computer, or data log application. Suitable for installation in cable tray, conduit, data approved raceways. Minimum cable temperature rating shall be 90°C dry locations, 75°C wet locations
 - 2. Individual Conductors: Soft annealed copper, Class B, 7-strand concentric per ASTM B8, 22 AWG, 7-strand copper tinned drain wire.
 - 3. Insulation and Jacket: Each conductor PVC / Nylon insulation. Pair conductors pigmented black and white. Jacket flame-retardant and sunlight and oil resistant PVC with 45 mils nominal thickness. Shield aluminum/Polyester overlapped to provide 100 percent coverage.
 - 4. Dimension: 0.345 inch nominal OD.
 - 5. Manufacturer: Alpha Wire Corporation, Belden, General Cable, the Okonite Company, Lake Cable
- B. Single Triad (600 Volt No.16 Twisted, Shielded Triad Instrumentation Cable, Type TC):
 - 1. General: Single triad instrumentation cable designed for noise rejection for process control, computer, or data log application. Suitable for installation

- in cable tray, conduit or other approved raceways. Minimum cable temperature rating shall be 90°C dry locations, 75°C wet locations.
2. Conductors: Soft annealed copper, Class B, 7-strand concentric per ASTM B8, 22 AWG, 7-strand copper tinned drain wire.
 3. Insulation and Jacket: Each conductor, PVC/Nylon insulation. Triad conductors pigmented black, red, and white. Jacket flame-retardant and sunlight and oil retardant PVC with 45 mils nominal thickness. Shield aluminum/Polyester, overlapped to provide 100 percent coverage
 4. Dimensions: 0.360-inch nominal OD5.
 5. Manufacturers: Alpha Wire Corporation, Belden, General Cable, the Okonite Company, Lake Cable
- C. Multi-conductors, Multi-pairs, or Multi-triads not acceptable, unless used for cable tray application. Cable runs that are partially or totally run in cable tray shall be of multi-conductor type for wire sizes that are required in the NEC.

2.3 EQUIPMENT GROUNDING CONDUCTORS:

- A. Provide stranded copper conductors, as indicated or as required by NEC, for equipment grounding. All grounding conductor shall be stranded copper.
- B. Provide conductors with green Type THHN insulation with minimum thickness of 1/32-inch.

2.4 WIRING CONNECTORS

- A. Split Bolt Connectors:
FCI Burndy Corp.
Cooper Crouse Hinds.
O.Z./Gedney Co.
Thomas & Betts Co.
3-M Co.
- B. Solderless Pressure Connectors:
FCI Burndy Corp.
Ideal Industries Co.
Thomas & Betts Co.
3-M Co.
- C. Spring Wire Connectors:
Ideal Industries Co.
3-M Co.
- D. Compression Connectors:

FCI Burndy Corp.
Thomas & Betts Co.
3-M Co.

2.5 WIRE COLOR CODE

- A. Color-code all conductors:
1. Wire sizes No. 10 AWG and smaller shall have integral color-coded insulation.
 2. Wire sizes No. 8 AWG and larger may have black insulation but shall be identified by color-coded electrical tape at all junction, splice, pull, or termination points.
 3. Color tape shall be applied to at least 3 inches of the conductor at the termination ends and in junction or pull boxes or where readily accessible.
 4. Conductors for all systems shall not change color at splice points.
 5. Where there are two or more neutrals in one conduit, each shall be individually identified with the proper circuit.
 6. For No. 4 AWG and larger ground conductors, identify with green tape at both ends and all visible points, included in all junction boxes.
- B. Each phase wire shall be uniquely color-coded as indicated below for the City of Roseville panel:

ELECTRICAL WIRE	COLOR
3-PHASE 480 VOLTS SYSTEM CONDUCTORS	PHASE A - BROWN PHASE B - ORANGE PHASE C - YELLOW
SINGLE-PHASE CONDUCTORS FOR 208/240 VAC CIRCUITS	PHASE A - BLACK PHASE B - RED PHASE C - BLUE (Note 1; Note 2)
NEUTRAL CONDUCTOR	120 VAC - WHITE 277 VAC - GRAY
INSULATED EQUIPMENT GROUNDING CONDUCTOR	GREEN
GENERAL PURPOSE AC CONTROL CONDUCTORS	VIOLET
Note 1: Identify 15 kilovolt class cables with 3 stripes of colored tape using the phase colors listed above.	
Note 2: Identify 5 kilovolt class cable with 2 stripes of color tape using the phase colors listed above.	

Instrumentation Wire Color Coding	
24 VDC WIRE	COLOR
(+) 24 VDC	RED
(-) 24 VDC	GRAY
ANALOG SIGNAL	POS. = BLACK NEG = CLEAR
DISCRETE EVENTS & LOW VOLTAGE CONTROL	POS. = RED
	NEG. = GRAY
GROUND	GREEN
120 VAC WIRE	COLOR
POWER (L1)	BLACK
NEUTRAL (L2)	WHITE
CONTROL	VIOLET
GROUND	GREEN

- C. Each phase wire shall be uniquely color-coded as indicated below for the PCWA panel and equipment:

DESCRIPTION	PHASE/CODE LETTER	FIELD WIRE	INTERNAL PANEL WIRE
480 V, 3 PHASE	A	BROWN	BROWN
	B	ORANGE	ORANGE
	C	YELLOW	YELLOW
240 V or 208 V, 3P	A	BLACK	BLACK
	B	RED (ORANGE high leg)	RED
	C	BLUE	BLUE
240 / 120 V, 1 P	L1	BLACK	BLACK
	L2	RED	RED
AC CONTROL	C	VIOLET	RED
DC CONTROL	C	DARK BLUE	LIGHT BLUE
DC Common (+)	C	DARK BLUE	GREY
FOREIGN VOLTAGE	C	Per Field Wire Requirement	YELLOW
NEUTRAL	N	WHITE	WHITE
GROUND	G	GREEN	GREEN
Multi-Conductor Signal Cable	SC	Individual conductors shall be Unique Color Coded	Individual conductors shall be Unique Color Coded
SHIELDED PAIR	S (+)	WHITE/CLEAR	WHITE/CLEAR
	S (-)	BLACK	BLACK

PART 3 EXECUTION

3.1 EXAMINATION

- A. Verify that interior of building has been protected from weather.
- B. Verify that mechanical work likely to damage wire and cable has been completed.
- C. Verify that raceway installation is complete and supported as required by the specifications.

3.2 PREPARATION

- A. Test raceway with a mandrel and thoroughly swab out to remove foreign material before pulling cables.
- B. For conduits sizes less than 3 inches, draw a stiff bristle brush through until conduit is clear of particles of earth, sand and gravel.
- C. For conduits sizes 3 inches and larger, draw a flexible testing mandrel approximately 12 inches long with a diameter less than the inside diameter of the conduit through the conduit. Then draw a stiff bristle brush through until conduit is clear of particles of earth, sand and gravel.

3.3 INSTALLATION

- A. General:
 - 1. Install wire and cable in accordance with manufacturer's instructions and NECA "Standard of Installation".
 - 2. Route wire and cable as required to meet project conditions.
 - 3. Identify and color code wire and cable. Identify each conductor with its circuit number or other designation indicated.
 - 4. Protect exposed cable from damage.
 - 5. Pull all conductors into raceway at same time.
 - 6. Use suitable wire pulling lubricant for building wire No. 4 AWG and larger. Lubricant shall not be deleterious to the cable sheath, jacket or outer covering.
 - 7. Do not exceed cable manufacturer's recommended pulling tension limits when installing wire or cable.
 - 8. Support cables above accessible ceiling using standard support methods to support cables from structure. Do not rest cable on ceiling panels.
 - 9. Neatly train and lace wiring inside boxes, equipment, and panelboards
- B. Cable and Wire Size:
 - 1. Conductor sizes are based on copper unless specifically indicated as aluminum or "AL".
 - 2. Use conductor no smaller than No. 12 AWG for power and lighting circuits.
 - 3. Use conductor no smaller than No. 14 AWG for control circuits.
 - 4. Use No. 10 AWG conductors for 20 ampere, 120-volt branch circuits longer than 75 feet.
 - 5. Use No. 10 AWG conductors for 20 ampere, 277-volt branch circuits longer than 200 feet.
 - 6. Use stranded conductor for all feeders, branch and control circuits.
- C. Cable Identification

1. Identify all wires and cables as specified in other Sections of these Specifications.
- D. Special Techniques - Wiring Connections:
1. Clean conductor surfaces before installing lugs and connectors. Where an anti-oxidation lubricant is used, apply liberally, coating all exposed conductor surfaces.
 2. Use suitable cable fittings and connectors.
 3. Make splices, taps, and terminations to carry full ampacity of conductors with no perceptible temperature rise.
 4. Use split bolt connectors for copper conductor splices and taps, No. 8 AWG and larger.
 5. Use solderless pressure connectors with insulating covers for copper conductor splices and taps, No. 8 AWG and smaller.
 6. Tape un-insulated conductors and connector with two layers of half-lapped rubber insulating compound tape and two layers of half-lapped, 7-mil electrical tape, Scotch 33+, or equal.
 7. Use insulated spring wire connectors with plastic caps for copper conductor splices and taps, No. 10 AWG and smaller.
 8. Stranded conductors for control circuits shall have fork or ring terminals crimped on for all device terminations. Bare stranded conductors shall not be placed directly under the screws.

3.4 FIELD QUALITY CONTROL

- A. Field inspection and test shall be performed under provisions of NETA ATS section 7.3 (2) - Low Voltage Cables, 600-Volt Maximum as follows.

Visual and Mechanical Inspection:

1. Compare cable data with drawings and specifications.
2. Inspect exposed sections of cable for physical damage and correct connection in accordance with single-line diagram.
3. Inspect all bolted electrical connections for high resistance using one of the following methods:
4. Use of low-resistance ohm-meter in accordance with NETA section 7.3.2.2 (Electrical Tests).
5. Verify tightness of accessible bolted electrical connections by calibrated torque-wrench method in accordance with manufacturer's published data from NETA ATS Table 10.12.
6. Inspect compression-applied connectors for correct cable match and indentation.
7. Verify cable color coding with applicable specifications and National Electrical Code.

Electrical Tests:

1. Perform insulation-resistance test on each conductor with respect to ground and adjacent conductors. Applied potential shall be 500 volts dc for 300 volt rated cable and 1000 volts dc for 600 volt rated cable. Test duration shall be one minute.
2. Perform resistance measurements through all bolted connections with low-resistance ohmmeter, if applicable, in accordance with Section 7.3.2.1 (Visual and Mechanical Inspection).
3. Perform continuity test to insure correct cable connection.
4. Correct malfunctions and/or deficiencies immediately as detected at no additional cost to the District, including additional verification testing.
5. Subsequent to final wire and cable terminations, energize all circuitry and demonstrate functional adequacy in accordance with system requirements.

Test Values:

1. Compare bolted connection resistance to values of similar connections.
2. Bolt-torque levels should be in accordance with NETA ATS Table 10.12 unless otherwise specified by the manufacturer.
3. Micro-ohm or milli-volt drop values shall not exceed the high levels of the normal range as indicated in the manufacturer's published data. If manufacturer's data is not available, investigate any values which deviate from similar connections by more than 50 percent of the lowest value.
4. Minimum insulation-resistance values should not be less than 50 meg-ohms.
5. Investigate deviations between adjacent phases.

END OF SECTION

GROUNDING AND BONDING FOR ELECTRICAL SYSTEMS

PART 1 GENERAL

1.1 RELATED DOCUMENTS

- A. Drawings and general provisions of the Contract, including General and Supplementary Conditions and Division 01 Specification Sections, apply to this Section.

1.2 SUMMARY

- A. Section includes: Grounding and bonding for electrical systems.
- B. Section includes: Grounding systems and equipment, plus the following special applications:
 - 1. Underground distribution grounding.
 - 2. Ground bonding common with lightning protection system.

1.3 ACTION SUBMITTALS

- A. Product Data: For each type of product indicated.

1.4 INFORMATIONAL SUBMITTALS

- A. Informational Submittals: Plans showing dimensioned as-built locations of grounding features specified in "Field Quality Control" Article, including the following:
 - 1. Test wells.
 - 2. Ground rods.
 - 3. Ground rings.
 - 4. Grounding arrangements and connections for separately derived systems.
- B. Qualification Data: For qualified testing agency and testing agency's field supervisor.
- C. Field quality-control reports.

1.5 CLOSEOUT SUBMITTALS

- A. Operation and Maintenance Data: For grounding to include in emergency, operation, and maintenance manuals. In addition to items specified in "Operation

and Maintenance Data," include instructions for periodic testing and inspection of grounding features at test wells and ground rings based on NFPA 70B

1. Tests shall determine if ground-resistance or impedance values remain within specified maximums, and instructions shall recommend corrective action if values do not.
2. Include recommended testing intervals.

1.6 QUALITY ASSURANCE

- A. Testing Agency Qualifications: Member company of NETA or an NRTL.
 1. Testing Agency's Field Supervisor: Currently certified by NETA to supervise on-site testing.
- B. Electrical Components, Devices, and Accessories: Listed and labeled as defined in NFPA 70, by a qualified testing agency, and marked for intended location and application.
- C. Comply with UL 467 for grounding and bonding materials and equipment.

PART 2 PRODUCTS

2.1 CONDUCTORS

- A. Insulated Conductors: Copper or tinned-copper wire or cable insulated for 600 V unless otherwise required by applicable Code or authorities having jurisdiction.
- B. Bare Copper Conductors:
 1. Solid Conductors: ASTM B 3.
 2. Stranded Conductors: ASTM B 8.
 3. Tinned Conductors: ASTM B 33.
 4. Bonding Cable: 28 kcmil, 14 strands of No. 17 AWG conductor, 1/4 inch (6 mm) in diameter.
 5. Bonding Conductor: No. 4 or No. 6 AWG, stranded conductor.
 6. Bonding Jumper: Copper tape, braided conductors terminated with copper ferrules; 1-5/8 inches (41 mm) wide and 1/16 inch (1.6 mm) thick.
 7. Tinned Bonding Jumper: Tinned-copper tape, braided conductors terminated with copper ferrules; 1-5/8 inches (41 mm) wide and 1/16 inch (1.6 mm) thick.
- C. Bare Grounding Conductor and Conductor Protector for Wood Poles:
 1. No. 4 AWG minimum, soft-drawn copper.
 2. Conductor Protector: Half-round PVC or wood molding; if wood, use pressure-treated fir, cypress, or cedar.

- D. Grounding Bus: Predrilled rectangular bars of annealed copper, 1/4 by 4 inches (6.3 by 100 mm) in cross section, with 9/32-inch (7.14-mm) holes spaced 1-1/8 inches (28 mm) apart. Stand-off insulators for mounting shall comply with UL 891 for use in switchboards, 600 V. Lexan or PVC, impulse tested at 5000 V.

2.2 CONNECTORS

- A. Listed and labeled by an NRTL acceptable to authorities having jurisdiction for applications in which used and for specific types, sizes, and combinations of conductors and other items connected.
- B. Bolted Connectors for Conductors and Pipes: Copper or copper alloy, pressure type with at least two bolts.
 - 1. Pipe Connectors: Clamp type, sized for pipe.
- C. Welded Connectors: Exothermic-welding kits of types recommended by kit manufacturer for materials being joined and installation conditions.
- D. Bus-bar Connectors: Mechanical type, cast silicon bronze, solderless exothermic-type wire terminals, and long-barrel, two-bolt connection to ground bus bar.

2.3 GROUNDING ELECTRODES

- A. Ground Rods: Copper-clad, round type; 3/4 inch by 10 feet (19 mm by 3 m) in diameter.

PART 3 EXECUTION

3.1 APPLICATIONS

- B. Conductors: Install solid conductor for No. 8 AWG and smaller, and stranded conductors for No. 6 AWG and larger unless otherwise indicated.
- C. Underground Grounding Conductors: Install bare tinned-copper conductor, No. 2/0AWG minimum.
 - 1. Bury at least 24 inches (600 mm) below grade.
 - 2. Duct-Bank Grounding Conductor: Bury 12 inches (300 mm) above duct bank when indicated as part of duct-bank installation.
- D. Conductor Terminations and Connections:
 - 1. Pipe and Equipment Grounding Conductor Terminations: Bolted connectors.
 - 2. Underground Connections: Welded connectors except at test wells and as otherwise indicated.
 - 3. Connections to Ground Rods at Test Wells: Bolted connectors.

- 4. Connections to Structural Steel: Welded connectors.
- E. Comply with IEEE C2 grounding requirements.

3.2 EQUIPMENT GROUNDING

- A. Install insulated equipment grounding conductors with all feeders and branch circuits.
- B. Install insulated equipment grounding conductors with the following items, in addition to those required by NFPA 70:
 - 1. Feeders and branch circuits.
 - 2. Lighting circuits.
 - 3. Receptacle circuits.
 - 4. Three-phase motor and appliance branch circuits.
 - 5. Armored and metal-clad cable runs.
 - 6. Busway Supply Circuits: Install insulated equipment grounding conductor from grounding bus in the switchgear, switchboard, or distribution panel to equipment grounding bar terminal on busway.
- C. Metal Poles Supporting Outdoor Lighting Fixtures: Install grounding electrode and a separate insulated equipment grounding conductor in addition to grounding conductor installed with branch-circuit conductors.

3.3 INSTALLATION

- A. Grounding Conductors: Route along shortest and straightest paths possible unless otherwise indicated or required by Code. Avoid obstructing access or placing conductors where they may be subjected to strain, impact, or damage.
- B. Ground Bonding Common with Lightning Protection System: Comply with NFPA 780 and UL 96 when interconnecting with lightning protection system. Bond electrical power system ground directly to lightning protection system grounding conductor at closest point to electrical service grounding electrode. Use bonding conductor sized same as system grounding electrode conductor, and install in conduit.
 - 1. Test Wells: Ground rod driven through drilled hole in bottom of handhole. Handholes are specified in Division 26 Section "Boxes and Raceways for Electrical Systems," and shall be at least 12 inches (300 mm) deep, with cover.
 - 2. Test Wells: Install at least one test well for each service unless otherwise indicated. Install at the ground rod electrically closest to service entrance. Set top of test well flush with finished grade or floor.
- C. Bonding Straps and Jumpers: Install in locations accessible for inspection and maintenance except where routed through short lengths of conduit.

1. Bonding to Structure: Bond straps directly to basic structure, taking care not to penetrate any adjacent parts.
 2. Use exothermic-welded connectors for outdoor locations; if a disconnect-type connection is required, use a bolted clamp.
- D. Grounding and Bonding for Piping:
1. Metal Water Service Pipe: Install insulated copper grounding conductors, in conduit, from building's main service equipment, or grounding bus, to main metal water service entrances to building. Connect grounding conductors to main metal water service pipes; use a bolted clamp connector or bolt a lug-type connector to a pipe flange by using one of the lug bolts of the flange. Where a dielectric main water fitting is installed, connect grounding conductor on street side of fitting. Bond metal grounding conductor conduit or sleeve to conductor at each end.
 2. Water Meter Piping: Use braided-type bonding jumpers to electrically bypass water meters. Connect to pipe with a bolted connector.
 3. Bond each aboveground portion of gas piping system downstream from equipment shutoff valve.
- E. Ground Ring: Install a grounding conductor, electrically connected to each building structure ground rod and to each steel column extending around the perimeter of building
1. Install tinned-copper conductor not less than No. 2/0 AWG for ground ring and for taps to building steel.
 2. Bury ground ring not less than 24 inches (600 mm) from building's foundation.
- F. Ufer Ground (Concrete-Encased Grounding Electrode): Fabricate according to NFPA 70; use a minimum of 20 feet (6m) of bare copper conductor not smaller than No.4 AWG.
1. If concrete foundation is less than 20 feet (6 m) long, coil excess conductor within base of foundation.
 2. Bond grounding conductor to reinforcing steel in at least four locations and to anchor bolts. Extend grounding conductor below grade and connect to building's grounding grid or to grounding electrode external to concrete.
- G. Labeling
1. Comply with requirements in Division 26 Section "Identification for Electrical Systems" Article for instruction signs. The label or its text shall be green.
 2. Install labels at the telecommunications bonding conductor and at the grounding electrode conductor where exposed.
 - a. Label Text: "If this connector or cable is loose or if it must be removed for any reason, notify the facility manager."

3.4 FIELD QUALITY CONTROL

- A. Testing Agency: Owner will engage a qualified testing agency to perform tests and inspections.
- B. Manufacturer's Field Service: Engage a factory-authorized service representative to inspect, test, and adjust components, assemblies, and equipment installations, including connections.
- C. Perform tests and inspections.
 - 1. Manufacturer's Field Service: Engage a factory-authorized service representative to inspect components, assemblies, and equipment installations, including connections, and to assist in testing.
- D. Tests and Inspections:
 - 1. After installing grounding system but before permanent electrical circuits have been energized, test for compliance with requirements.
 - 2. Inspect physical and mechanical condition. Verify tightness of accessible, bolted, electrical connections with a calibrated torque wrench according to manufacturer's written instructions.
 - 3. Test completed grounding system at each location where a maximum ground-resistance level is specified, at service disconnect enclosure grounding terminal at ground test wells. Make tests at ground rods before any conductors are connected.
 - 4. Measure ground resistance no fewer than two full days after last trace of precipitation and without soil being moistened by any means other than natural drainage or seepage and without chemical treatment or other artificial means of reducing natural ground resistance.
 - 5. Perform tests by fall-of-potential method according to IEEE 81.
 - 6. Prepare dimensioned Drawings locating each test well, ground rod and ground-rod assembly, and other grounding electrodes. Identify each by letter in alphabetical order, and key to the record of tests and observations. Include the number of rods driven and their depth at each location, and include observations of weather and other phenomena that may affect test results. Describe measures taken to improve test results.
- E. Grounding system will be considered defective if it does not pass tests and inspections.
- F. Prepare test and inspection reports.
- G. Report measured ground resistances that exceed the following values:
 - 1. Power and Lighting Equipment or System with Capacity of 500 kVA and Less: 25 ohms.
- H. Excessive Ground Resistance: If resistance to ground exceeds specified values, notify Owner promptly and include recommendations to reduce ground resistance.

HANGERS AND SUPPORTS FOR ELECTRICAL SYSTEMS

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

- A. Drawings and general provisions of the Contract, including Design-Assist Agreement, apply to this Section.

1.2 SUMMARY

- A. This Section includes the following:
 - 1. Hangers and supports for electrical equipment and systems.
 - 2. Construction requirements for concrete bases.

1.3 DEFINITIONS

- A. EMT: Electrical metallic tubing.
- B. RMC: Rigid metal conduit.

1.4 PERFORMANCE REQUIREMENTS

- A. Delegated Design: Design supports for multiple raceways, including comprehensive engineering analysis by a qualified professional engineer, using performance requirements and design criteria indicated.
- B. Design supports for multiple raceways capable of supporting combined weight of supported systems and its contents.
- C. Design equipment supports capable of supporting combined operating weight of supported equipment and connected systems and components.
- D. Rated Strength: Adequate in tension, shear, and pullout force to resist maximum loads calculated or imposed for this Project, with a minimum structural safety factor of five times the applied force.

1.5 ACTION SUBMITTALS

- A. Product Data: For the following:
 - 1. Steel slotted support systems.
 - 2. Nonmetallic slotted support systems.

- B. Shop Drawings: Signed and sealed by a qualified professional engineer. Show fabrication and installation details and include calculations for the following:
 - 1. Trapeze hangers. Include Product Data for components.
 - 2. Steel slotted channel systems. Include Product Data for components.
 - 3. Nonmetallic slotted channel systems. Include Product Data for components.
 - 4. Equipment supports.

1.6 INFORMATIONAL SUBMITTALS

- A. Welding certificates.

1.7 QUALITY ASSURANCE

- A. Welding: Qualify procedures and personnel according to AWS D1.1/D1.1M, "Structural Welding Code - Steel."
- B. Comply with NFPA 70.

1.8 COORDINATION

- A. Coordinate size and location of concrete bases. Cast anchor-bolt inserts into bases. Concrete, reinforcement, and formwork requirements are specified in Division 03.

PART 2 - PRODUCTS

2.1 SUPPORT, ANCHORAGE, AND ATTACHMENT COMPONENTS

- A. Steel Slotted Support Systems: Comply with MFMA-4, factory-fabricated components for field assembly.
 - 1. Manufacturers: Subject to compliance with requirements, provide products by one of the following:
 - a. Allied Tube & Conduit.
 - b. Cooper B-Line, Inc.; a division of Cooper Industries.
 - c. ERICO International Corporation.
 - d. GS Metals Corp.
 - e. Thomas & Betts Corporation.
 - f. Unistrut; Tyco International, Ltd.
 - g. Wesanco, Inc.
 - h. Or approved equal.
 - i. Metallic Coatings: Hot-dip galvanized after fabrication and applied according to MFMA-4.

2. Nonmetallic Coatings: Manufacturer's standard PVC, polyurethane, or polyester coating applied according to MFMA-4.
 3. Painted Coatings: Manufacturer's standard painted coating applied according to MFMA-4.
 4. Channel Dimensions: Selected for applicable load criteria.
 5. Raceway and Cable Supports: As described in NECA 1 and NECA 101.
- B. Conduit and Cable Support Devices: Steel and malleable-iron hangers, clamps, and associated fittings, designed for types and sizes of raceway or cable to be supported.
- C. Support for Conductors in Vertical Conduit: Factory-fabricated assembly consisting of threaded body and insulating wedging plug or plugs for non-armored electrical conductors or cables in riser conduits. Plugs shall have number, size, and shape of conductor gripping pieces as required to suit individual conductors or cables supported. Body shall be malleable iron.
- D. Structural Steel for Fabricated Supports and Restraints: ASTM A 36/A 36M, steel plates, shapes, and bars; black and galvanized.
- E. Mounting, Anchoring, and Attachment Components: Items for fastening electrical items or their supports to building surfaces include the following:
1. Powder-Actuated Fasteners: Threaded-steel stud, for use in hardened portland cement concrete, steel, or wood, with tension, shear, and pullout capacities appropriate for supported loads and building materials where used.
 - a. Manufacturers: Subject to compliance with requirements, provide products by one of the following:
 - 1) Hilti Inc.
 - 2) ITW Ramset/Red Head; a division of Illinois Tool Works, Inc.
 - 3) MKT Fastening, LLC.
 - 4) Simpson Strong-Tie Co., Inc.; Masterset Fastening Systems Unit.
 - 5) Or approved equal.
 2. Mechanical-Expansion Anchors: Insert-wedge-type, or stainless steel, for use in hardened portland cement concrete with tension, shear, and pullout capacities appropriate for supported loads and building materials in which used.
 - a. Manufacturers: Subject to compliance with requirements, provide products by one of the following:
 - 1) Cooper B-Line, Inc.; a division of Cooper Industries.
 - 2) Empire Tool and Manufacturing Co., Inc.
 - 3) Hilti Inc.
 - 4) ITW Ramset/Red Head; a division of Illinois Tool Works, Inc.
 - 5) MKT Fastening, LLC.

- 6) Or approved equal
3. Concrete Inserts: Steel or malleable-iron, slotted support system units similar to MSS Type 18; complying with MFMA-4 or MSS SP-58.
4. Clamps for Attachment to Steel Structural Elements: MSS SP-58, type suitable for attached structural element.
5. Through Bolts: Structural type, hex head, and high strength. Comply with ASTM A 325.
6. Toggle Bolts: All-steel springhead type.
7. Hanger Rods: Threaded steel.

2.2 FABRICATED METAL EQUIPMENT SUPPORT ASSEMBLIES

- A. Description: Welded or bolted, structural-steel shapes, shop or field fabricated to fit dimensions of supported equipment.
- B. Materials: Comply with requirements in Division 05 Section "Metal Fabrications" for steel shapes and plates.

PART 3 - EXECUTION

3.1 APPLICATION

- A. Comply with NECA 1 and NECA 101 for application of hangers and supports for electrical equipment and systems except if requirements in this Section are stricter.
- B. Multiple Raceways or Cables: Install trapeze-type supports fabricated with steel slotted support system, sized so capacity can be increased by at least 25 percent in future without exceeding specified design load limits.
 1. Secure raceways and cables to these supports with two-bolt conduit clamps

3.2 SUPPORT INSTALLATION

- A. Comply with NECA 1 and NECA 101 for installation requirements except as specified in this Article.
- B. Raceway Support Methods: In addition to methods described in NECA 1, EMT, IMC, and RMC may be supported by openings through structure members, as permitted in NFPA 70.
- C. Strength of Support Assemblies: Where not indicated, select sizes of components so strength will be adequate to carry present and future static loads within

specified loading limits. Minimum static design load used for strength determination shall be weight of supported components plus 200 lb (90 kg).

- D. Mounting and Anchorage of Surface-Mounted Equipment and Components: Anchor and fasten electrical items and their supports to building structural elements by the following methods unless otherwise indicated by code:
 - 1. To Wood: Fasten with lag screws or through bolts.
 - 2. To New Concrete: Bolt to concrete inserts.
 - 3. To Masonry: Approved toggle-type bolts on hollow masonry units and expansion anchor fasteners on solid masonry units.
 - 4. Instead of expansion anchors, powder-actuated driven threaded studs provided with lock washers and nuts may be used in existing standard-weight concrete 4 inches (100 mm) thick or greater. Do not use for anchorage to lightweight-aggregate concrete or for slabs less than 4 inches (100 mm) thick.
 - 5. To Steel: Welded threaded studs complying with AWS D1.1/D1.1M, with lock washers and nuts
 - 6. To Light Steel: Sheet metal screws.
 - 7. Items Mounted on Hollow Walls and Nonstructural Building Surfaces: Mount cabinets, panelboards, disconnect switches, control enclosures, pull and junction boxes, transformers, and other devices on slotted-channel racks attached to substrate by means that meet seismic-restraint strength and anchorage requirements.
- E. Drill holes for expansion anchors in concrete at locations and to depths that avoid reinforcing bars.

3.3 INSTALLATION OF FABRICATED METAL SUPPORTS

- A. Comply with installation requirements in Division 05 Section "Metal Fabrications" for site-fabricated metal supports.
- B. Cut, fit, and place miscellaneous metal supports accurately in location, alignment, and elevation to support and anchor electrical materials and equipment.
- C. Field Welding: Comply with AWS D1.1/D1.1M.

3.4 CONCRETE BASES

- A. Construct concrete bases of dimensions indicated but not less than 4 inches (100 mm) larger in both directions than supported unit, and so anchors will be a minimum of 10 bolt diameters from edge of the base.
- B. Use 3000-psi (20.7-MPa) , 28-day compressive-strength concrete. Concrete materials, reinforcement, and placement requirements are specified in Division 03 Section "Cast-in-Place Concrete"

- C. Anchor equipment to concrete base.
 - 1. Place and secure anchorage devices. Use supported equipment manufacturer's setting drawings, templates, diagrams, instructions, and directions furnished with items to be embedded.
 - 2. Install anchor bolts to elevations required for proper attachment to supported equipment.
 - 3. Install anchor bolts according to anchor-bolt manufacturer's written instructions.

3.5 PAINTING

- A. Touchup: Clean field welds and abraded areas of shop paint. Paint exposed areas immediately after erecting hangers and supports. Use same materials as used for shop painting. Comply with SSPC-PA 1 requirements for touching up field-painted surfaces.
 - 1. Apply paint by brush or spray to provide minimum dry film thickness of 2.0 mils (0.05 mm).
- B. Touchup: Comply with requirements in Division 09 Section for cleaning and touchup painting of field welds, bolted connections, and abraded areas of shop paint on miscellaneous metal.
- C. Galvanized Surfaces: Clean welds, bolted connections, and abraded areas and apply galvanizing-repair paint to comply with ASTM A 780.

END OF SECTION

26 05 33
RACEWAYS AND BOXES FOR ELECTRICAL SYSTEMS

PART 1 GENERAL

1.1 RELATED DOCUMENTS

- A. Drawings and general provisions of the Contract, including Design-Assist Agreement, apply to this Section.

1.2 SUMMARY

- A. Section Includes:
 - 1. Metal conduits, tubing, and fittings.
 - 2. Nonmetal conduits, tubing, and fittings.
 - 3. Metal wireways and auxiliary gutters.
 - 4. Nonmetal wireways and auxiliary gutters.
 - 5. Surface raceways.
 - 6. Boxes, enclosures, and cabinets.
 - 7. Handholes and boxes for exterior underground cabling.

1.3 DEFINITIONS

- A. ARC: Aluminum rigid conduit.
- B. GRC: Galvanized rigid steel conduit.
- C. IMC: Intermediate metal conduit.

1.4 ACTION SUBMITTALS

- A. Product Data: For surface raceways, wireways and fittings, floor boxes, hinged-cover enclosures, and cabinets.
 - 1. Shop Drawings: For custom enclosures and cabinets. Include plans, elevations, sections, and attachment details.

PART 2 PRODUCTS

2.1 METAL CONDUITS, TUBING, AND FITTINGS

- A. Manufacturers: Subject to compliance with requirements, provide products by one of the following:
 - 1. AFC Cable Systems, Inc.
 - 2. Allied Tube & Conduit; a Tyco International Ltd. Co.
 - 3. Anamet Electrical, Inc.
 - 4. Electri-Flex Company.
 - 5. O-Z/Gedney; a brand of EGS Electrical Group.
 - 6. Picoma Industries, a subsidiary of Mueller Water Products, Inc.
 - 7. Republic Conduit.
 - 8. Robroy Industries.
 - 9. Southwire Company.
 - 10. Thomas & Betts Corporation.
 - 11. Western Tube and Conduit Corporation.
 - 12. Wheatland Tube Company; a division of John Maneely Company.
- B. Listing and Labeling: Metal conduits, tubing, and fittings shall be listed and labeled as defined in NFPA 70, by a qualified testing agency, and marked for intended location and application.
- C. GRC: Comply with ANSI C80.1 and UL 6.
- D. ARC: Comply with ANSI C80.5 and UL 6A.
- E. PVC-Coated Steel Conduit: PVC-coated rigid steel conduit
 - 1. Comply with NEMA RN 1.
 - 2. Coating Thickness: 0.040 inch (1 mm), minimum.
- F. FMC: Comply with UL 1; zinc-coated steel or aluminum.
- G. LFMC: Flexible steel conduit with PVC jacket and complying with UL 360.
- H. Fittings for Metal Conduit: Comply with NEMA FB 1 and UL 514B.
 - 1. Conduit Fittings for Hazardous (Classified) Locations: Comply with UL 886 and NFPA 70.
 - 2. Expansion Fittings: PVC or steel to match conduit type, complying with UL 651, rated for environmental conditions where installed, and including flexible external bonding jumper.
 - 3. Coating for Fittings for PVC-Coated Conduit: Minimum thickness of 0.040 inch (1 mm), with overlapping sleeves protecting threaded joints.
- I. Joint Compound for IMC, GRC, or ARC: Approved, as defined in NFPA 70, by authorities having jurisdiction for use in conduit assemblies, and compounded for

use to lubricate and protect threaded conduit joints from corrosion and to enhance their conductivity.

2.2 NONMETALLIC CONDUITS, TUBING, AND FITTINGS

- A. Manufacturers: Subject to compliance with requirements, provide products by one of the following:
 - 1. AFC Cable Systems, Inc.
 - 2. Anamet Electrical, Inc.
 - 3. Aruco Corporation.
 - 4. CANTEX Inc.
 - 5. CertainTeed Corp.
 - 6. Condux International, Inc.
 - 7. Electri-Flex Company.
 - 8. Kraloy.
 - 9. Lamson & Sessions; Carlon Electrical Products.
 - 10. Niedax-Kleinhuis USA, Inc.
 - 11. RACO; a Hubbell company.
 - 12. Thomas & Betts Corporation.
- B. Listing and Labeling: Nonmetallic conduits, tubing, and fittings shall be listed and labeled as defined in NFPA 70, by a qualified testing agency, and marked for intended location and application.
- C. ENT: Comply with NEMA TC 13 and UL 1653.
- D. RNC: Type EPC-40-PVC, complying with NEMA TC 2 and UL 651 unless otherwise indicated.
- E. LFNC: Comply with UL 1660.
- F. Rigid HDPE: Comply with UL 651A.
- G. Continuous HDPE: Comply with UL 651B.
- H. Coilable HDPE: Preassembled with conductors or cables, and complying with ASTM D 3485.
- I. RTRC: Comply with UL 1684A and NEMA TC 14.
- J. Fittings for ENT and RNC: Comply with NEMA TC 3; match to conduit or tubing type and material.
- K. Fittings for LFNC: Comply with UL 514B.

- L. Solvent cements and adhesive primers shall have a VOC content of 510 and 550 g/L or less, respectively, when calculated according to 40 CFR 59, Subpart D (EPA Method 24).
- M. Solvent cements and adhesive primers shall comply with the testing and product requirements of the California Department of Health Services' "Standard Practice for the Testing of Volatile Organic Emissions from Various Sources Using Small-Scale Environmental Chambers."

2.3 BOXES, ENCLOSURES, AND CABINETS

- A. Manufacturers: Subject to compliance with requirements, provide products by one of the following:
 - 1. Adalet.
 - 2. Cooper Technologies Company; Cooper Crouse-Hinds.
 - 3. EGS/Appleton Electric.
 - 4. Erickson Electrical Equipment Company.
 - 5. FSR Inc.
 - 6. Hoffman; a Pentair company.
 - 7. Hubbell Incorporated; Killark Division.
 - 8. Kraloy.
 - 9. Milbank Manufacturing Co.
 - 10. Mono-Systems, Inc.
 - 11. O-Z/Gedney; a brand of EGS Electrical Group.
 - 12. RACO; a Hubbell Company.
 - 13. Robroy Industries.
 - 14. Spring City Electrical Manufacturing Company.
 - 15. Stahlin Non-Metallic Enclosures; a division of Robroy Industries.
 - 16. Thomas & Betts Corporation.
 - 17. Wiremold/Legrand.
- B. General Requirements for Boxes, Enclosures, and Cabinets: Boxes, enclosures, and cabinets installed in wet locations shall be listed for use in wet locations.
- C. Sheet Metal Outlet and Device Boxes: Comply with NEMA OS 1 and UL 514A.
- D. Cast-Metal Outlet and Device Boxes: Comply with NEMA FB 1, ferrous alloy, Type FD, with gasketed cover.
- E. Nonmetallic Outlet and Device Boxes: Comply with NEMA OS 2 and UL 514C.
- F. Luminaire Outlet Boxes: Nonadjustable, designed for attachment of luminaire weighing 50 lb (23 kg). Outlet boxes designed for attachment of luminaires weighing more than 50 lb (23 kg) shall be listed and marked for the maximum allowable weight.

- G. Paddle Fan Outlet Boxes: Nonadjustable, designed for attachment of paddle fan weighing 70 lb (32 kg).
 - 1. Listing and Labeling: Paddle fan outlet boxes shall be listed and labeled as defined in NFPA 70, by a qualified testing agency, and marked for intended location and application.
- H. Small Sheet Metal Pull and Junction Boxes: NEMA OS 1.
- I. Cast-Metal Access, Pull, and Junction Boxes: Comply with NEMA FB 1 and UL 1773, cast aluminum or galvanized, cast iron with gasketed cover.
- J. Box extensions used to accommodate new building finishes shall be of same material as recessed box.
- K. Device Box Dimensions: 4 inches square by 2-1/8 inches deep (100 mm square by 60 mm deep)
- L. Gangable boxes: are prohibited.
- M. Hinged-Cover Enclosures: Comply with UL 50 and NEMA 250, Type 3R with continuous-hinge cover with flush latch unless otherwise indicated.
 - 1. Metal Enclosures: Steel, finished inside and out with manufacturer's standard enamel.
 - 2. Nonmetallic Enclosures: Fiberglass.
 - 3. Interior Panels: Steel; all sides finished with manufacturer's standard enamel.

2.4 HANDHOLES AND BOXES FOR EXTERIOR UNDERGROUND WIRING

- A. General Requirements for Handholes and Boxes:
 - 1. Boxes and handholes for use in underground systems shall be designed and identified as defined in NFPA 70, for intended location and application.
 - 2. Boxes installed in wet areas shall be listed and labeled as defined in NFPA 70, by a qualified testing agency, and marked for intended location and application.
- B. Polymer-Concrete Handholes and Boxes with Polymer-Concrete Cover: Molded of sand and aggregate, bound together with polymer resin, and reinforced with steel, fiberglass, or a combination of the two.
 - 1. Basis-of-Design Product: Subject to compliance with requirements, provide Oldcastle or comparable product by one of the following:
 - a. Armorcast Products Company.
 - b. Carson Industries LLC.
 - c. CDR Systems Corporation; Hubbell Power Systems.
 - d. NewBasis.

- e. Synertech Moulded Products; a division of Oldcastle Precast, Inc.
 2. Standard: Comply with SCTE 77.
 3. Configuration: Designed for flush burial with open bottom unless otherwise indicated.
 4. Cover: Weatherproof, secured by tamper-resistant locking devices and having structural load rating consistent with enclosure and handhole location.
 5. Cover Finish: Nonskid finish shall have a minimum coefficient of friction of 0.50.
 6. Cover Legend: Molded lettering, "ELECTRIC."
 7. Conduit Entrance Provisions: Conduit-terminating fittings shall mate with entering ducts for secure, fixed installation in enclosure wall.
 8. Handholes 12 Inches Wide by 24 Inches Long (300 mm Wide by 600 mm Long) and Larger: Have inserts for cable racks and pulling-in irons installed before concrete is poured.
 9. Source quality control for underground enclosures.
- C. Handhole and Pull-Box Prototype Test: Test prototypes of handholes and boxes for compliance with SCTE 77. Strength tests shall be for specified tier ratings of products supplied.
1. Tests of materials shall be performed by an independent testing agency.
 2. Strength tests of complete boxes and covers shall be by either an independent testing agency or manufacturer. A qualified registered professional engineer shall certify tests by manufacturer.
 3. Testing machine pressure gages shall have current calibration certification complying with ISO 9000 and ISO 10012 and traceable to NIST standards.

PART 3 EXECUTION

3.1 RACEWAY APPLICATION

- A. Outdoors: Apply raceway products as specified below unless otherwise indicated:
1. Exposed Conduit: PVC-Coated GRC.
 2. Concealed Conduit, Aboveground: GRC.
 3. Underground Conduit: RNC, Type EPC-40-PVC, concrete encased under trafficable areas.
 4. Connection to Vibrating Equipment (Including Transformers and Hydraulic, Pneumatic, Electric Solenoid, or Motor-Driven Equipment): LFMC.
 5. Boxes and Enclosures, Aboveground: NEMA 250, Type 3R.
- B. Indoors: Apply raceway products as specified below unless otherwise indicated:
1. Exposed: GRC.

2. Concealed in Ceilings and Interior Walls and Partitions: RNC, Type EPC-40-PVC.
 3. Connection to Vibrating Equipment (Including Transformers and Hydraulic, Pneumatic, Electric Solenoid, or Motor-Driven Equipment): FMC, except use LFMC in damp or wet locations.
 4. Damp or Wet Locations: PVC-Coated GRC.
 5. Boxes and Enclosures: NEMA 250, Type 1, except use NEMA 250, Type 4 stainless steel in damp or wet locations.
- C. Minimum Raceway Size: 1/2-inch (16-mm) trade size.
- D. Raceway Fittings: Compatible with raceways and suitable for use and location.
1. Rigid and Intermediate Steel Conduit: Use threaded rigid steel conduit fittings unless otherwise indicated. Comply with NEMA FB 2.10.
 2. PVC Externally Coated, Rigid Steel Conduits: Use only fittings listed for use with this type of conduit. Patch and seal all joints, nicks, and scrapes in PVC coating after installing conduits and fittings. Use sealant recommended by fitting manufacturer and apply in thickness and number of coats recommended by manufacturer.
 3. Flexible Conduit: Use only fittings listed for use with flexible conduit. Comply with NEMA FB 2.20.
- E. Install nonferrous conduit or tubing for circuits operating above 60 Hz. Where aluminum raceways are installed for such circuits and pass through concrete, install in nonmetallic sleeve.
- F. Do not install aluminum conduits, boxes, or fittings in contact with concrete or earth.
- G. Install surface raceways only where indicated on Drawings.
- H. Do not install nonmetallic conduit where ambient temperature exceeds 120 deg F (49 deg C).

3.2 INSTALLATION

- A. Comply with NECA 1 and NECA 101 for installation requirements except where requirements on Drawings or in this article are stricter. Comply with NECA 102 for aluminum conduits. Comply with NFPA 70 limitations for types of raceways allowed in specific occupancies and number of floors.
- B. Complete raceway installation before starting conductor installation.
- C. Comply with requirements in Division 26 Section "Hangers and Supports for Electrical Systems" for hangers and supports.

- D. Arrange stub-ups so curved portions of bends are not visible above finished slab.
- E. Install no more than the equivalent of three 90-degree bends in any conduit run except for control wiring conduits, for which fewer bends are allowed. Support within 12 inches (300 mm) of changes in direction.
- F. Conceal conduit and EMT within finished walls, ceilings, and floors unless otherwise indicated. Install conduits parallel or perpendicular to building lines.
- G. A. Support conduit within 12 inches (300 mm) of enclosures to which attached.
- H. Raceways Embedded in Slabs:
 - 1. Run conduit larger than 1-inch (27-mm) trade size, parallel or at right angles to main reinforcement. Where at right angles to reinforcement, place conduit close to slab support. Secure raceways to reinforcement at maximum 10-foot (3-m) intervals.
 - 2. Arrange raceways to cross building expansion joints at right angles with expansion fittings.
 - 3. Arrange raceways to keep a minimum of 2 inches (50 mm) of concrete cover in all directions.
 - 4. Do not embed threadless fittings in concrete unless specifically approved by Architect for each specific location.
 - 5. Threaded Conduit Joints, Exposed to Wet, Damp, Corrosive, or Outdoor Conditions: Apply listed compound to threads of raceway and fittings before making up joints. Follow compound manufacturer's written instructions.
- I. Coat field-cut threads on PVC-coated raceway with a corrosion-preventing conductive compound prior to assembly.
- J. Raceway Terminations at Locations Subject to Moisture or Vibration: Use insulating bushings to protect conductors including conductors smaller than No. 4 AWG.
- K. Terminate threaded conduits into threaded hubs or with locknuts on inside and outside of boxes or cabinets. Install bushings on conduits up to 1-1/4-inch (35mm) trade size and insulated throat metal bushings on 1-1/2-inch (41-mm) trade size and larger conduits terminated with locknuts. Install insulated throat metal grounding bushings on service conduits.
- L. Install raceways square to the enclosure and terminate at enclosures with locknuts. Install locknuts hand tight plus 1/4 turn more.
- M. Do not rely on locknuts to penetrate nonconductive coatings on enclosures. Remove coatings in the locknut area prior to assembling conduit to enclosure to assure a continuous ground path.

- N. Cut conduit perpendicular to the length. For conduits 2-inch (53-mm) trade size and larger, use roll cutter or a guide to make cut straight and perpendicular to the length.
- O. Install pull wires in empty raceways. Use polypropylene or monofilament plastic line with not less than 200-lb (90-kg) tensile strength. Leave at least 12 inches (300 mm) of slack at each end of pull wire. Cap underground raceways designated as spare above grade alongside raceways in use.
- P. Retain "Surface Raceways" Paragraph below if applicable.
1. Install raceway sealing fittings at accessible locations according to NFPA 70 and fill them with listed sealing compound. For concealed raceways, install each fitting in a flush steel box with a blank cover plate having a finish similar to that of adjacent plates or surfaces. Install raceway sealing fittings according to NFPA 70.
- Q. Install devices to seal raceway interiors at accessible locations. Locate seals so no fittings or boxes are between the seal and the following changes of environments. Seal the interior of all raceways at the following points:
1. Where conduits pass from warm to cold locations, such as boundaries of refrigerated spaces.
 2. Where an underground service raceway enters a building or structure.
 3. Where otherwise required by NFPA 70.
- R. Comply with manufacturer's written instructions for solvent welding RNC and fittings.
- S. Expansion-Joint Fittings:
1. Install in each run of aboveground RNC that is located where environmental temperature change may exceed 30 deg F (17 deg C) and that has straight-run length that exceeds 25 feet (7.6 m). Install in each run of aboveground RMC conduit that is located where environmental temperature change may exceed 100 deg F (55 deg C) and that has straight-run length that exceeds 100 feet (30 m).
 2. Install type and quantity of fittings that accommodate temperature change listed for each of the following locations:
 - a. Outdoor Locations Not Exposed to Direct Sunlight: 125 deg F (70 deg C) temperature change.
 - b. Outdoor Locations Exposed to Direct Sunlight: 155 deg F (86 deg C) temperature change.
 - c. Indoor Spaces Connected with Outdoors without Physical Separation: 125 deg F (70 deg C) temperature change.
 3. Install fitting(s) that provide expansion and contraction for at least 0.00041 inch per foot of length of straight run per deg F (0.06 mm per meter of length of straight run per deg C) of temperature change for PVC conduits. Install fitting(s) that provide expansion and contraction for at

- least 0.000078 inch per foot of length of straight run per deg F (0.0115 mm per meter of length of straight run per deg C) of temperature change for metal conduits.
4. Install expansion fittings at all locations where conduits cross building or structure expansion joints.
 5. Install each expansion-joint fitting with position, mounting, and piston setting selected according to manufacturer's written instructions for conditions at specific location at time of installation. Install conduit supports to allow for expansion movement.
- T. Flexible Conduit Connections: Comply with NEMA RV 3. Use a maximum of 72 inches (1830 mm) of flexible conduit for recessed and semirecessed luminaires, equipment subject to vibration, noise transmission, or movement; and for transformers and motors.
1. Use LFMC in damp or wet locations subject to severe physical damage.
 2. Use LFMC or LFNC in damp or wet locations not subject to severe physical damage.
- U. Mount boxes at heights indicated on Drawings. If mounting heights of boxes are not individually indicated, give priority to ADA requirements. Install boxes with height measured to center of box unless otherwise indicated.
- V. Recessed Boxes in Masonry Walls: Saw-cut opening for box in center of cell of masonry block, and install box flush with surface of wall. Prepare block surfaces to provide a flat surface for a raintight connection between box and cover plate or supported equipment and box.
- W. Horizontally separate boxes mounted on opposite sides of walls so they are not in the same vertical channel.
- X. Locate boxes so that cover or plate will not span different building finishes.
- Y. Support boxes of three gangs or more from more than one side by spanning two framing members or mounting on brackets specifically designed for the purpose.
- Z. Fasten junction and pull boxes to or support from building structure. Do not support boxes by conduits.
- AA. Set metal floor boxes level and flush with finished floor surface.
- BB. Set nonmetallic floor boxes level. Trim after installation to fit flush with finished floor surface.

3.3 INSTALLATION OF UNDERGROUND CONDUIT

- A. Direct-Buried Conduit:

1. Excavate trench bottom to provide firm and uniform support for conduit. Prepare trench bottom as specified in Division 31 Section "Earthwork" for pipe less than 6 inches (150 mm) in nominal diameter.
2. Install backfill as specified in Division 31 Section "Earthwork."
3. After installing conduit, backfill and compact. Start at tie-in point, and work toward end of conduit run, leaving conduit at end of run free to move with expansion and contraction as temperature changes during this process. Firmly hand tamp backfill around conduit to provide maximum supporting strength. After placing controlled backfill to within 12 inches (300 mm) of finished grade, make final conduit connection at end of run and complete backfilling with normal compaction as specified in Division 31 Section "Earthwork."
4. Install manufactured duct elbows for stub-ups at poles and equipment and at building entrances through floor unless otherwise indicated. Encase elbows for stub-up ducts throughout length of elbow.
5. Install manufactured rigid steel conduit elbows for stub-ups at poles and equipment and at building entrances through floor.
 - a. Couple steel conduits to ducts with adapters designed for this purpose, and encase coupling with 3 inches (75 mm) of concrete for a minimum of 12 inches (300 mm) on each side of the coupling.
 - b. For stub-ups at equipment mounted on outdoor concrete bases and where conduits penetrate building foundations, extend steel conduit horizontally a minimum of 60 inches (1500 mm) from edge of foundation or equipment base. Install insulated grounding bushings on terminations at equipment.
6. Warning Planks: Bury warning planks approximately 12 inches (300 mm) above direct-buried conduits but a minimum of 6 inches (150 mm) below grade. Align planks along centerline of conduit.
7. Underground Warning Tape: Comply with requirements in Division 26 Section "Identification for Electrical Systems."

3.4 INSTALLATION OF UNDERGROUND HANDHOLES AND BOXES

- A. Install handholes and boxes level and plumb and with orientation and depth coordinated with connecting conduits to minimize bends and deflections required for proper entrances.
- B. Unless otherwise indicated, support units on a level bed of crushed stone or gravel, graded from 1/2-inch (12.5-mm) sieve to No. 4 (4.75-mm) sieve and compacted to same density as adjacent undisturbed earth.
- C. Elevation: In paved areas, set so cover surface will be flush with finished grade. Set covers of other enclosures 1 inch (25 mm) above finished grade.
- D. Install removable hardware, including pulling eyes, cable stanchions, cable arms, and insulators, as required for installation and support of cables and conductors

and as indicated. Select arm lengths to be long enough to provide spare space for future cables but short enough to preserve adequate working clearances in enclosure.

- E. Field-cut openings for conduits according to enclosure manufacturer's written instructions. Cut wall of enclosure with a tool designed for material to be cut. Size holes for terminating fittings to be used, and seal around penetrations after fittings are installed.

3.5 SLEEVE AND SLEEVE-SEAL INSTALLATION FOR ELECTRICAL PENETRATIONS

- A. Install sleeves and sleeve seals at penetrations of exterior floor and wall assemblies.

3.6 PROTECTION

- A. Protect coatings, finishes, and cabinets from damage and deterioration.
 - 1. Repair damage to galvanized finishes with zinc-rich paint recommended by manufacturer.
 - 2. Repair damage to PVC coatings or paint finishes with matching touchup coating recommended by manufacturer.

END OF SECTION

UNDERGROUND DUCTS AND RACEWAYS FOR ELECTRICAL SYSTEMS**PART 1 GENERAL****1.1 SUMMARY**

- A. This Section includes the following:
 - 1. Ducts in concrete-encased duct banks.
 - 2. Hand-holes and hand-hole accessories.
 - 3. Manholes and manhole accessories.
- B. Related Sections include the following:
 - 1. Section 26 05 26 - Grounding and Bonding for Electrical Systems for grounding electrodes and testing of grounds.

1.2 SUBMITTALS

- A. Product Data: For the following:
 - 1. Manhole and hand hole hardware.
 - 2. Conduit and ducts, including elbows, bell ends, bends, fittings, and solvent cement.
 - 3. Duct-bank materials, including spacers and miscellaneous components.
 - 4. Warning tape.
- B. Shop Drawings: Show fabrication and installation details for underground ducts and utility structures and include the following:
 - 1. For precast manholes and hand holes, Shop Drawings shall be signed and sealed by a qualified professional engineer, and shall show the following:
 - a. Construction of individual segments.
 - b. Joint details.
 - c. Design calculations.
- C. Product Certificates: For concrete and steel used in underground precast manholes, according to ASTM C 858.
- D. Product Test Reports: Indicate compliance of manholes with ASTM C 857 and ASTM C 858, based on factory inspection.

1.3 DELIVERY, STORAGE, AND HANDLING

- A. Store precast concrete units at Project site as recommended by manufacturer to prevent physical damage. Arrange so identification markings are visible.
- B. Lift and support precast concrete units only at designated lifting or supporting points.

1.4 COORDINATION

- A. Coordinate layout and installation of ducts, manholes, and handholes with final arrangement of other utilities and site grading, as determined in the field.
- B. Coordinate elevations of ducts and duct-bank entrances into manholes and handholes with final profiles of conduits as determined by coordination with other utilities and underground obstructions. Revise locations and elevations from those indicated as required to suit field conditions and to ensure duct runs drain to manholes and handholes, and as approved by the Owner's Representative.

PART 2 PRODUCTS

2.1 PRODUCTS AND MANUFACTURERS

- A. Manufacturers: Subject to compliance with requirements, provide products by one of the following:
 - 1. Underground Precast Concrete Utility Structures:
 - a. Carder Concrete Products.
 - b. Christy Concrete Products, Inc.
 - c. Elmhurst-Chicago Stone Co.
 - d. Jensen Precast.
 - e. Utility Vault Co.
 - f. Wausau Concrete Co.
 - g. Or equal.
 - 2. Frames and Covers:
 - a. Alhambra Foundry
 - b. Campbell Foundry Co.
 - c. East Jordan Iron Works, Inc.
 - d. McKinley Iron Works, Inc.
 - e. Neenah Foundry Co.
 - f. Or equal.
 - 3. Nonmetallic Ducts and Accessories:
 - a. Arnco Corp.
 - b. Beck Manufacturing Inc.
 - c. Cantex, Inc.
 - d. Certainteed Corp.; Pipe & Plastics Group.
 - e. ElecSys, Inc.
 - f. Electri-Flex Co.
 - g. Lamson & Sessions; Carlon Electrical Products.
 - h. Manhattan/CDT/Cole-Flex.
 - i. Spiraduct/AFC Cable Systems, Inc.
 - j. Or equal.

2.2 CONDUIT

- A. Conduit and fittings are specified in Division 26 Section "Raceways and Boxes for Electrical Systems."

2.3 DUCTS

- A. Rigid Nonmetallic Conduit: NEMA TC 2, Type EPC-40-PVC, UL 651, with matching fittings complying with NEMA TC 3 and UL 514B.

2.4 HAND HOLES

- A. Precast Handholes: Reinforced concrete, with steel frame and access door assembly as the top of hand hole. Pulling-in irons and other built-in items shall be installed before pouring concrete. Cover shall have nonskid finish and legend. Unit, when buried, shall be designed to support AASHTO H10 loading for sidewalk and landscaped areas and HS20 for roadways, parking lots and loading docks.
- B. Cover Legend:
 - 1. "HIGH VOLTAGE"
 - 2. "ELECTRIC"
 - 3. "COMMUNICATION"
 - 4. "FIRE ALARM"
 - 5. "CATV"
 - 6. Other distinct systems as applicable.

2.5 PRECAST MANHOLES

- A. Precast Units: ASTM 478, with interlocking mating sections, complete with accessories, hardware, and features as indicated. Include concrete knockout panels for conduit entrance and sleeve for ground rod.
- B. Structural Design Loading: ASTM C 857, Class A-16 (AASHTO HS20).

2.6 ACCESSORIES

- A. Duct Spacers: Rigid PVC interlocking spacers.
- B. Manhole Frames and Covers: Per manufacturer recommendation and engineer approval.
- C. Grounding Materials: Comply with Division 26 Section "Grounding and Bonding for Electrical Systems."
- D. Warning Tape: Underground-line warning tape specified in Division 26 Section "Identification for Electrical Systems."

2.7 CONSTRUCTION MATERIALS

- A. Seal manhole section joints with sealing compound recommended by the manhole manufacturer.
- B. Concrete: Use 3000-psi- minimum, or Slurry

PART 3 EXECUTION

3.1 APPLICATION

- A. Underground Ducts for Electrical Cables Higher than 600 V: Type EPC-40-PVC, concrete-encased duct bank.
- B. Underground Ducts for Telephone Utility Service: Type EPC-40-PVC, direct-buried duct bank, except use Type EPC-80-PVC when crossing roads.
- C. Underground Ducts for Communication Circuits: Type EPC-40-PVC, direct-buried duct bank, except use Type EPC-80-PVC when crossing roads.

3.2 CONDUIT AND DUCT INSTALLATION

- A. Exercise care in excavating, trenching, and working near existing utilities. Locate any existing buried utilities before excavating.
- B. Duct banks shall be installed so that the top of the concrete encasement shall be no less than 30 inches below grade or pavement for primary 12K power.
- C. Use solvent-cement joints in ducts and fittings and make watertight according to manufacturer's written instructions. Stagger couplings so those of adjacent ducts do not lie in the same plane.
- D. Concrete-Encased, Nonmetallic Ducts: Support ducts on duct spacers, spaced as recommended by manufacturer and coordinated with duct size, duct spacing, and outdoor temperature. Install as follows:
 - 1. Separator Installation: Space separators close enough to prevent sagging and deforming of ducts and secure separators to earth and to ducts to prevent floating during concreting.
 - 2. Reinforcement: Reinforce duct banks where they cross disturbed earth and where indicated.
- E. Warning Tape: Bury warning tape approximately 12 inches above all concrete-encased duct banks. Align tape parallel to and within 3 inches of the centerline of duct bank.

- F. Sealing: Provide temporary closure at terminations of ducts that have cables pulled. Seal spare ducts at terminations. Use sealing compound and plugs to withstand at least 15-psig hydrostatic pressure.
- G. Pulling Cord: Install 100-lbf- test nylon cord in ducts, including spares.

3.3 MANHOLE AND HANDHOLE INSTALLATION

- A. Drainage: Install drains in bottom of units where indicated. Coordinate with drainage provisions indicated. Sumps shall be knocked out at time of installation.
- B. Hardware: Install removable hardware, including pulling eyes, cable stanchions, cable arms, and insulators, as required for installation and support of cables and conductors and as indicated.
- C. Field-Installed Bolting Anchors: Do not drill deeper than 3-7/8 inches for anchor bolts installed in the field. Use a minimum of two anchors for each cable stanchion.
- D. Precast Concrete Manhole Installation: comply with ASTM C 891.
 - 1. Install units level and plumb and with orientation and depth coordinated with connecting ducts to minimize bends and deflections required for proper entrances.
 - 2. Unless otherwise indicated, support units on a level bed of crushed stone or gravel,

3.4 FIELD QUALITY CONTROL

- A. Testing: Demonstrate capability and compliance with requirements on completion of installation of underground ducts and utility structures.
- B. Grounding: Test manhole grounding to ensure electrical continuity of grounding and bonding connections. Measure and report ground resistance as specified in Division 26 Section "Grounding and Bonding for Electrical Systems."
- C. Duct Integrity: Pull aluminum or wood test mandrel through duct to prove joint integrity and test for out-of-round duct. Provide mandrel equal to 80 percent fill of the duct. If obstructions are indicated, remove obstructions and retest.
- D. Correct installations if possible and retest to demonstrate compliance. Remove and replace defective products and retest.

3.5 CLEANING

- A. Pull leather-washer-type duct cleaner, with graduated washer sizes, through full length of ducts. Follow with rubber duct swab for final cleaning and to assist in spreading lubricant throughout ducts.

- B. Clean internal surfaces of manholes, including sump. Remove foreign material.

END OF SECTION

SECTION 26 05 53
IDENTIFICATION FOR ELECTRICAL SYSTEMS

PART 1 GENERAL

1.1 RELATED DOCUMENTS

- A. Drawings and general provisions of the Contract, including Design-Assist Agreement, apply to this Section.

1.2 SUMMARY

- A. Section Includes:
 - 1. Identification for raceways.
 - 2. Identification of power and control cables.
 - 3. Identification for conductors.
 - 4. Underground-line warning tape.
 - 5. Warning labels and signs.
 - 6. Instruction signs.
 - 7. Equipment identification labels.
 - 8. Miscellaneous identification products.

1.3 ACTION SUBMITTALS

- A. Product Data: For each electrical identification product indicated.
- B. Samples: For each type of label and sign to illustrate size, colors, lettering style, mounting provisions, and graphic features of identification products.
- C. Identification Schedule: An index of nomenclature of electrical equipment and system components used in identification signs and labels.

1.4 QUALITY ASSURANCE

- A. Comply with ANSI A13.1 and IEEE C2.
- B. Comply with NFPA 70.
- C. Comply with 29 CFR 1910.144 and 29 CFR 1910.145.
- D. Comply with ANSI Z535.4 for safety signs and labels.
- E. Adhesive-attached labeling materials, including label stocks, laminating adhesives, and inks used by label printers, shall comply with UL 969.

1.5 COORDINATION

- A. Coordinate identification names, abbreviations, colors, and other features with requirements in other Sections requiring identification applications, Drawings, Shop Drawings, manufacturer's wiring diagrams, and the Operation and Maintenance Manual; and with those required by codes, standards, and 29 CFR 1910.145. Use consistent designations throughout Project.
- B. Coordinate installation of identifying devices with completion of covering and painting of surfaces where devices are to be applied.
- C. Coordinate installation of identifying devices with location of access panels and doors.
- D. Install identifying devices before installing acoustical ceilings and similar concealment.

PART 2 PRODUCTS

2.1 POWER RACEWAY IDENTIFICATION MATERIALS

- A. Comply with ANSI A13.1 for minimum size of letters for legend and for minimum length of color field for each raceway size.
- B. Colors for Raceways Carrying Circuits at 600 V or Less:
 - 1. Black letters on an orange field.
 - 2. Legend: Indicate voltage and system or service type.
 - 3. Self-Adhesive Vinyl Labels for Raceways Carrying Circuits at 600 V or Less: Preprinted, flexible label laminated with a clear, weather- and chemical-resistant coating and matching wraparound adhesive tape for securing ends of legend label.
- C. Snap-Around Labels for Raceways Carrying Circuits at 600 V or Less: Slit, pretensioned, flexible, preprinted, color-coded acrylic sleeve, with diameter sized to suit diameter of raceway or cable it identifies and to stay in place by gripping action.
- D. Snap-Around, Color-Coding Bands for Raceways Carrying Circuits at 600 V or Less: Slit, pretensioned, flexible, solid-colored acrylic sleeve, 2 inches (50 mm) long, with diameter sized to suit diameter of raceway or cable it identifies and to stay in place by gripping action.
- E. Metal Tags: Brass or aluminum, 2 by 2 by 0.05 inch (50 by 50 by 1.3 mm), with stamped legend, punched for use with self-locking cable tie fastener.

- F. Write-On Tags: Polyester tag, 0.015 inch (0.38 mm) thick, with corrosion-resistant grommet and cable tie for attachment to conductor or cable.
 - 1. Marker for Tags: Permanent, waterproof, black ink marker recommended by tag manufacturer.
 - 2. Marker for Tags: Machine-printed, permanent, waterproof, black ink marker recommended by printer manufacturer.

2.2 ARMORED AND METAL-CLAD CABLE IDENTIFICATION MATERIALS

- A. Comply with ANSI A13.1 for minimum size of letters for legend and for minimum length of color field for each raceway and cable size.
- B. Colors for Raceways Carrying Circuits at 600 V and Less:
 - 1. Black letters on an orange field.
 - 2. Legend: Indicate voltage and system or service type.
 - 3. Self-Adhesive Vinyl Labels: Preprinted, flexible label laminated with a clear, weather- and chemical-resistant coating and matching wraparound adhesive tape for securing ends of legend label.
- C. Self-Adhesive Vinyl Tape: Colored, heavy duty, waterproof, fade resistant; 2 inches (50 mm) wide; compounded for outdoor use.

2.3 POWER AND CONTROL CABLE IDENTIFICATION MATERIALS

- A. Comply with ANSI A13.1 for minimum size of letters for legend and for minimum length of color field for each raceway and cable size.
- B. Self-Adhesive Vinyl Labels: Preprinted, flexible label laminated with a clear, weather- and chemical-resistant coating and matching wraparound adhesive tape for securing ends of legend label.
- C. Metal Tags: Brass or aluminum, 2 by 2 by 0.05 inch (50 by 50 by 1.3 mm), with stamped legend, punched for use with self-locking cable tie fastener.
- D. Write-On Tags: Polyester tag, 0.015 inch (0.38 mm) thick, with corrosion-resistant grommet and cable tie for attachment to conductor or cable.
 - 1. Marker for Tags: Permanent, waterproof, black ink marker recommended by tag manufacturer.
 - 2. Marker for Tags: Machine-printed, permanent, waterproof, black ink marker recommended by printer manufacturer.
- E. Snap-Around Labels: Slit, pretensioned, flexible, preprinted, color-coded acrylic sleeve, with diameter sized to suit diameter of raceway or cable it identifies and to stay in place by gripping action.

- F. Snap-Around, Color-Coding Bands: Slit, pretensioned, flexible, solid-colored acrylic sleeve, 2 inches (50 mm) long, with diameter sized to suit diameter of raceway or cable it identifies and to stay in place by gripping action.

2.4 CONDUCTOR IDENTIFICATION MATERIALS

- A. Color-Coding Conductor Tape: Colored, self-adhesive vinyl tape not less than 3 mils (0.08 mm) thick by 1 to 2 inches (25 to 50 mm) wide.
- B. Self-Adhesive Vinyl Labels: Preprinted, flexible label laminated with a clear, weather- and chemical-resistant coating and matching wraparound adhesive tape for securing ends of legend label.
- C. Snap-Around Labels: Slit, pretensioned, flexible, preprinted, color-coded acrylic sleeve, with diameter sized to suit diameter of raceway or cable it identifies and to stay in place by gripping action.
- D. Snap-Around, Color-Coding Bands: Slit, pretensioned, flexible, solid-colored acrylic sleeve, 2 inches (50 mm) long, with diameter sized to suit diameter of raceway or cable it identifies and to stay in place by gripping action.
- E. Marker Tapes: Vinyl or vinyl-cloth, self-adhesive wraparound type, with circuit identification legend machine printed by thermal transfer or equivalent process.
- F. Write-On Tags: Polyester tag, 0.015 inch (0.38 mm) thick, with corrosion-resistant grommet and cable tie for attachment to conductor or cable.
 - 1. Marker for Tags: Permanent, waterproof, black ink marker recommended by tag manufacturer.
 - 2. Marker for Tags: Machine-printed, permanent, waterproof, black ink marker recommended by printer manufacturer.

2.5 FLOOR MARKING TAPE

- A. 2-inch- (50-mm-) wide, 5-mil (0.125-mm) pressure-sensitive vinyl tape, with black and white stripes and clear vinyl overlay.

2.6 UNDERGROUND-LINE WARNING TAPE

- A. Tape:
 - 1. Recommended by manufacturer for the method of installation and suitable to identify and locate underground electrical and communications utility lines.
 - 2. Printing on tape shall be permanent and shall not be damaged by burial operations.

3. Tape material and ink shall be chemically inert, and not subject to degrading when exposed to acids, alkalis, and other destructive substances commonly found in soils.
- B. Color and Printing:
1. Comply with ANSI Z535.1 through ANSI Z535.5.
 2. Inscriptions for Red-Colored Tapes: Electric Line, High Voltage.
 3. Inscriptions for Orange-Colored Tapes: Telephone cable, CATV cable, communications cable, optical fiber cable.
- C. Tag: Type I:
1. Pigmented polyolefin, bright-colored, continuous-printed on one side with the inscription of the utility, compounded for direct-burial service.
 2. Thickness: 4 mils (0.1 mm).
 3. Weight: 18.5 lb/1000 sq. ft. (9.0 kg/100 sq. m).
 4. 3-Inch (75-mm) Tensile According to ASTM D 882: 30 lbf (133.4 N), and 2500 psi (17.2 MPa).
- D. Tag: Type II:
1. Multilayer laminate consisting of high-density polyethylene scrim coated with pigmented polyolefin, bright-colored, continuous-printed on one side with the inscription of the utility, compounded for direct-burial service.
 2. Thickness: 12 mils (0.3 mm).
 3. Weight: 36.1 lb/1000 sq. ft. (17.6 kg/100 sq. m).
 4. 3-Inch (75-mm) Tensile According to ASTM D 882: 400 lbf (1780 N), and 11,500 psi (79.2 MPa).
- E. Tag: Type ID
1. Detectable three-layer laminate, consisting of a printed pigmented polyolefin film, a solid aluminum-foil core, and a clear protective film that allows inspection of the continuity of the conductive core, bright-colored, continuous-printed on one side with the inscription of the utility, compounded for direct-burial service.
 2. Overall Thickness: 5 mils (0.125 mm).
 3. Foil Core Thickness: 0.35 mil (0.00889 mm).
 4. Weight: 28 lb/1000 sq. ft. (13.7 kg/100 sq. m).
 5. 3-Inch (75-mm) Tensile According to ASTM D 882: 70 lbf (311.3 N), and 4600 psi (31.7 MPa).
- F. Tag: Type IID
1. Reinforced, detectable three-layer laminate, consisting of a printed pigmented woven scrim, a solid aluminum-foil core, and a clear protective film that allows inspection of the continuity of the conductive core, bright-colored, [continuous-printed on one side with the inscription of the utility,] compounded for direct-burial service.
 2. Overall Thickness: 8 mils (0.2 mm).
 3. Foil Core Thickness: 0.35 mil (0.00889 mm).

4. Weight: 34 lb/1000 sq. ft. (16.6 kg/100 sq. m).
5. 3-Inch (75-mm) Tensile According to ASTM D 882: 300 lbf (1334 N), and 12,500 psi (86.1 MPa).

2.7 WARNING LABELS AND SIGNS

- A. Comply with NFPA 70 and 29 CFR 1910.145.
- B. Self-Adhesive Warning Labels: Factory-printed, multicolor, pressure-sensitive adhesive labels, configured for display on front cover, door, or other access to equipment unless otherwise indicated.
- C. Baked-Enamel Warning Signs:
 1. Preprinted aluminum signs, punched or drilled for fasteners, with colors, legend, and size required for application.
 2. 1/4-inch (6.4-mm) grommets in corners for mounting.
 3. Nominal size, 7 by 10 inches (180 by 250 mm).
- D. Metal-Backed, Butyrate Warning Signs:
 1. Weather-resistant, nonfading, preprinted, cellulose-acetate butyrate signs with 0.0396-inch (1-mm) galvanized-steel backing; and with colors, legend, and size required for application.
 2. 1/4-inch (6.4-mm) grommets in corners for mounting.
 3. Nominal size, 10 by 14 inches (250 by 360 mm).
- E. Warning label and sign shall include, but are not limited to, the following legends:
 1. Multiple Power Source Warning: "DANGER - ELECTRICAL SHOCK HAZARD - EQUIPMENT HAS MULTIPLE POWER SOURCES."
 2. Workspace Clearance Warning: "WARNING - OSHA REGULATION - AREA IN FRONT OF ELECTRICAL EQUIPMENT MUST BE KEPT CLEAR FOR 36 INCHES (915 MM)."

2.8 INSTRUCTION SIGNS

- A. Engraved, laminated acrylic or melamine plastic, minimum 1/16 inch (1.6 mm) thick for signs up to 20 sq. inches (129 sq. cm) and 1/8 inch (3.2 mm) thick for larger sizes.
 1. Engraved legend with black letters on white face .
 2. Punched or drilled for mechanical fasteners.
 3. Framed with mitered acrylic molding and arranged for attachment at applicable equipment.
- B. Adhesive Film Label: Machine printed, in black, by thermal transfer or equivalent process. Minimum letter height shall be 3/8 inch (10 mm).

- C. Adhesive Film Label with Clear Protective Overlay: Machine printed, in black, by thermal transfer or equivalent process. Minimum letter height shall be 3/8 inch (10 mm). Overlay shall provide a weatherproof and UV-resistant seal for label.

2.9 EQUIPMENT IDENTIFICATION LABELS

- A. Adhesive Film Label: Machine printed, in black, by thermal transfer or equivalent process. Minimum letter height shall be 3/8 inch (10 mm).
- B. Adhesive Film Label with Clear Protective Overlay: Machine printed, in black, by thermal transfer or equivalent process. Minimum letter height shall be 3/8 inch (10 mm). Overlay shall provide a weatherproof and UV-resistant seal for label.
- C. Self-Adhesive, Engraved, Laminated Acrylic or Melamine Label: Adhesive backed, with white letters on a dark-gray background. Minimum letter height shall be 3/8 inch (10 mm).
- D. Engraved, Laminated Acrylic or Melamine Label: Punched or drilled for screw mounting. White letters on a dark-gray background. Minimum letter height shall be 3/8 inch (10 mm).
- E. Stenciled Legend: In nonfading, waterproof, black ink or paint. Minimum letter height shall be 1 inch (25 mm) .

2.10 CABLE TIES

- A. General-Purpose Cable Ties: Fungus inert, self-extinguishing, one piece, self-locking, Type 6/6 nylon.
 - 1. Minimum Width: 3/16 inch (5 mm).
 - 2. Tensile Strength at 73 deg F (23 deg C), According to ASTM D 638: 12,000 psi (82.7 MPa).
 - 3. Temperature Range: Minus 40 to plus 185 deg F (Minus 40 to plus 85 deg C).
 - 4. Color: Black except where used for color-coding.
- B. UV-Stabilized Cable Ties: Fungus inert, designed for continuous exposure to exterior sunlight, self-extinguishing, one piece, self-locking, Type 6/6 nylon.
 - 1. Minimum Width: 3/16 inch (5 mm).
 - 2. Tensile Strength at 73 deg F (23 deg C), According to ASTM D 638: 12,000 psi (82.7 MPa).
 - 3. Temperature Range: Minus 40 to plus 185 deg F (Minus 40 to plus 85 deg C).
 - 4. Color: Black.
- C. Plenum-Rated Cable Ties: Self-extinguishing, UV stabilized, one piece, self-locking.

1. Minimum Width: 3/16 inch (5 mm).
2. Tensile Strength at 73 deg F (23 deg C), According to ASTM D 638: 7000 psi (48.2 MPa).
3. UL 94 Flame Rating: 94V-0.
4. Temperature Range: Minus 50 to plus 284 deg F (Minus 46 to plus 140 deg C).
5. Color: Black.

2.11 MISCELLANEOUS IDENTIFICATION PRODUCTS

- A. Paint: Comply with requirements in Division 09 painting Sections for paint materials and application requirements. Select paint system applicable for surface material and location (exterior or interior).
- B. Fasteners for Labels and Signs: Self-tapping, stainless-steel screws or stainless-steel machine screws with nuts and flat and lock washers.

PART 3 EXECUTION

3.1 INSTALLATION

- A. Verify identity of each item before installing identification products.
- B. Location: Install identification materials and devices at locations for most convenient viewing without interference with operation and maintenance of equipment.
- C. Apply identification devices to surfaces that require finish after completing finish work.
- D. Self-Adhesive Identification Products: Clean surfaces before application, using materials and methods recommended by manufacturer of identification device.
- E. Attach signs and plastic labels that are not self-adhesive type with mechanical fasteners appropriate to the location and substrate.
- F. System Identification Color-Coding Bands for Raceways and Cables: Each color-coding band shall completely encircle cable or conduit. Place adjacent bands of two-color markings in contact, side by side. Locate bands at changes in direction, at penetrations of walls and floors, at 50-foot (15-m) maximum intervals in straight runs, and at 25-foot (7.6-m) maximum intervals in congested areas.
- G. Aluminum Wraparound Marker Labels and Metal Tags: Secure tight to surface of conductor or cable at a location with high visibility and accessibility.
- H. Cable Ties: For attaching tags. Use general-purpose type, except as listed below:

1. Outdoors: UV-stabilized nylon.
 2. In Spaces Handling Environmental Air: Plenum rated.
- I. Underground-Line Warning Tape: During backfilling of trenches install continuous underground-line warning tape directly above line at 6 to 8 inches (150 to 200 mm) below finished grade. Use multiple tapes where width of multiple lines installed in a common trench or concrete envelope exceeds 16 inches (400 mm) overall.
- J. Painted Identification: Comply with requirements in Division 09 painting Sections for surface preparation and paint application.

3.2 IDENTIFICATION SCHEDULE

- A. Accessible Raceways and Metal-Clad Cables, 600 V or Less, for Service, Feeder, and Branch Circuits More Than 30 A, and 120 V to ground: Identify with self-adhesive vinyl tape applied in bands. Install labels at 30-foot (10-m) maximum intervals.
- B. Power-Circuit Conductor Identification, 600 V or Less: For conductors in vaults, pull and junction boxes, manholes, and handholes, use color-coding conductor tape to identify the phase.
1. Color-Coding for Phase and Voltage Level Identification, 600 V or Less: Use colors listed below for ungrounded feeder and branch-circuit conductors.
 2. Color shall be factory applied or field applied for sizes larger than No. 8 AWG, if authorities having jurisdiction permit.
 3. Colors for 208/120-V Circuits:
 - a. Phase A: Black.
 - b. Phase B: Red.
 - c. Phase C: Blue.
 4. Colors for 480/277-V Circuits:
 - a. Phase A: Brown.
 - b. Phase B: Orange.
 - c. Phase C: Yellow.
 - d. Field-Applied, Color-Coding Conductor Tape: Apply in half-lapped turns for a minimum distance of 6 inches (150 mm) from terminal points and in boxes where splices or taps are made. Apply last two turns of tape with no tension to prevent possible unwinding. Locate bands to avoid obscuring factory cable markings.
- C. Install instructional sign including the color-code for grounded and ungrounded conductors using adhesive-film-type labels.
- D. Conductors to Be Extended in the Future: Attach write-on tags to conductors and list source.

- E. Auxiliary Electrical Systems Conductor Identification: Identify field-installed alarm, control, and signal connections.
 - 1. Identify conductors, cables, and terminals in enclosures and at junctions, terminals, and pull points. Identify by system and circuit designation.
 - 2. Use system of marker tape designations that is uniform and consistent with system used by manufacturer for factory-installed connections.
 - 3. Coordinate identification with Project Drawings, manufacturer's wiring diagrams, and the Operation and Maintenance Manual.
- F. Locations of Underground Lines: Identify with underground-line warning tape for power, lighting, communication, and control wiring and optical fiber cable.
 - 1. Limit use of underground-line warning tape to direct-buried cables.
 - 2. Install underground-line warning tape for both direct-buried cables and cables in raceway.
- G. Workspace Indication: Install floor marking tape to show working clearances in the direction of access to live parts. Workspace shall be as required by NFPA 70 and 29 CFR 1926.403 unless otherwise indicated. Do not install at flush-mounted panelboards and similar equipment in finished spaces.
- H. Warning Labels for Indoor Cabinets, Boxes, and Enclosures for Power and Lighting: Metal-backed, butyrate warning signs.
 - 1. Comply with 29 CFR 1910.145.
 - 2. Identify system voltage with black letters on an orange background.
 - 3. Apply to exterior of door, cover, or other access.
 - 4. For equipment with multiple power or control sources, apply to door or cover of equipment including, but not limited to, the following:
 - a. Power transfer switches.
 - b. Controls with external control power connections.
- I. Operating Instruction Signs: Install instruction signs to facilitate proper operation and maintenance of electrical systems and items to which they connect. Install instruction signs with approved legend where instructions are needed for system or equipment operation.
- J. Emergency Operating Instruction Signs: Install instruction signs with white legend on a red background with minimum 3/8-inch- (10-mm-) high letters for emergency instructions at equipment used for power transfer
- K. Equipment Identification Labels: On each unit of equipment, install unique designation label that is consistent with wiring diagrams, schedules, and the Operation and Maintenance Manual. Apply labels to disconnect switches and protection equipment, central or master units, control panels, control stations, terminal cabinets, and racks of each system. Systems include power, lighting, control, communication, signal, monitoring, and alarm systems unless equipment is provided with its own identification.
 - 1. Labeling Instructions:

- a. Indoor Equipment: [Engraved, laminated acrylic or melamine label. Unless otherwise indicated, provide a single line of text with 1/2-inch- (13-mm-) high letters on 1-1/2-inch- (38-mm-) high label; where two lines of text are required, use labels 2 inches (50 mm) high.
 - b. Outdoor Equipment: Engraved, laminated acrylic or melamine label
 - c. Elevated Components: Increase sizes of labels and letters to those appropriate for viewing from the floor.
 - d. Unless provided with self-adhesive means of attachment, fasten labels with appropriate mechanical fasteners that do not change the NEMA or NRTL rating of the enclosure.
2. Equipment to Be Labeled:
- a. Enclosures and electrical cabinets.
 - b. Access doors and panels for concealed electrical items.
 - c. Enclosed switches.
 - d. Enclosed circuit breakers.
 - e. Enclosed controllers.
 - f. Push-button stations.
 - g. Power transfer equipment.
 - h. Contactors.
 - i. Remote-controlled switches, dimmer modules, and control devices.
 - j. Battery-inverter units.
 - k. Battery racks.
 - l. Power-generating units.
 - m. Monitoring and control equipment.
 - n. UPS equipment.

COMMISSIONING OF ELECTRICAL SYSTEMS

PART 1 GENERAL

1.1 WORK INCLUDED

- A. Testing, commissioning and startup of electrical system wiring, equipment and grounding.
- B. In general inspection, testing and startup is described in the relevant sections of the specifications.
- C. Field tests of low voltage conductors and cables are described in Section 26 05 19.
- D. Field tests of grounding and bonding for electrical systems are described in Section 26 05 26.
- E. Field quality control for wiring devices are described in Sections 26 27 26.

1.2 RELATED WORK

- A. Section 26 05 10: Common Work Results for Electrical
- B. Section 26 05 19: Low-Voltage Electrical Power Conductors and Cables
- C. Section 26 05 26: Grounding and Bonding for Electrical Systems

1.3 QUALITY ASSURANCE

- A. Use adequate numbers of skilled workmen trained and experienced in necessary trades and crafts and completely familiar with specified requirements and methods for proper performance of Work of this section.
- B. Testing of installed equipment shall result in acceptable test results. Equipment for which acceptable test data has not been submitted, or has been submitted but rejected, shall be deemed as not meeting Contract Requirements.
- C. Repair or replace items not passing tests.

1.4 REFERENCES

- A. NETA ATS 1995 Acceptance Testing Specifications for Electric Power Distribution Equipment and Systems
- B. NFPA 70 National Electric Code (NEC)

1.5 SUBMITTALS

A. Furnish the following submittals.

SUBMITTAL	DESCRIPTION
Pre-Test Submittals	Submit at least 7 days before testing
	Submit test personnel qualifications (resumes)
	Submit equipment testing schedule
	Equipment Manufacturer's instructions for testing manufactured products
	Submit test data forms
Post-Test Submittals	Submit summary of testing for Work including date and time of all tests
	Submit description of equipment tested
	Submit description of tests and test procedures
	Submit test results
	Submit conclusions and recommendations
	Submit completed test forms in appendix, including witness's signatures.
	Submit list of test equipment in appendix including calibration documents
	Submit tabulated data for each piece of equipment tested, including circuit number, equipment or motor name and tag number (where applicable), nameplate full-ampere rating, motor service factor, motor ambient temperature rating, overload relay rating, measured full load current, and measured discharge pressures (where applicable)
Deviations from Contract Documents	Note or indicate wiring deviations from Contract Documents on Project Record Documents.

1.6 UNIT PRICES

A. Payment for Work in this section shall be included as part of lump-sum or unit-price bid amount for which such Work is appurtenant.

PART 2 PRODUCTS

2.1 ACCEPTABLE TESTING FIRMS

A. Retain qualified engineering appraisal and testing firm to perform inspections, tests, and evaluation to determine equipment designated herein is installed and adjusted for successful energization and operation.

- B. Testing firm shall meet Federal OSHA criteria for accrediting testing laboratories, Title 29, Part 1910.7, and have a work history and qualifications acceptable to City.
- C. Appraisal and testing firm shall have at least 2 years experience in appraising and testing equipment of nature to be tested.
- D. Managing or supervising representatives of appraisal and testing firm shall have extensive knowledge of products involved and at least 2 years hands-on experience conducting appraisals and tests. Conduct all testing under supervision of managing or supervising representatives.
- E. Testing technicians shall be trained and experienced in type of testing to be performed.
- F. Testing firm shall use comprehensive report forms to document engineering appraisal and test results on all equipment and products tested. Upon testing completion, managing or supervising engineering representative shall sign forms prior to inclusion in final report.
- G. Obtain written acceptance from City of testing firm prior to beginning testing. Testing service or personnel may be accepted or rejected based on, but not limited to testing equipment intended to be used, qualifications of firm, completeness of testing forms, and experience and reputation of personnel.
- H. Acceptable manufacturers of testing equipment include the following:

ITEM	MANUFACTURER	MANUFACTURER LOCATION
3-Point Fall-of-Potential Ground Testing Equipment	Associated Research, Inc.	Lake Forest, IL
	Biddle-Megger	Chandler, AZ
	Accepted equal	

PART 3 EXECUTION

3.1 PREPARATION

- A. Notify City's Representative at least 3 days before tests to allow City to witness testing.
- B. Examine areas and conditions under which work of this section will be performed. Correct conditions detrimental to timely and proper completion of Work.

3.2 TESTING

- A. The following testing standards shall be followed:
 1. NETA (National Electrical Testing Association) standards
 2. Manufacturer's installation and warranty requirements
 3. Applicable OSHA and Cal OSHA regulations
 4. NFPA 70 National Electric Code (NEC)
 5. Other applicable ANSI, ASTM, and NEMA standards.
- B. Refer variances between above documents and Contract Documents to City's Representative.
- C. Perform tests to assure electrical equipment will safely operate within industry and Manufacturer's published tolerances and warranty requirements.
- D. Record test result data to be used as baseline for future tests.
- E. Report any items failing to pass tests promptly to City's Representative.
- F. Coordinate work to expedite project schedule.

3.3 FIELD QUALITY CONTROL

- A. Field testing shall include the following, in addition to any other requirements specified in other sections of the specification:

ITEM	TEST FOR	TEST STANDARD (ASTM OR OTHER TEST STANDARD)	FREQUENCY	FIRST TEST PAID FOR BY	RETESTS PAID FOR BY
Electrical Work	Installation Examination	Verify Work is free from improper grounds, short circuits and overloads.	1 inspection	Contractor	Contractor
		Verify correctness of wiring by visual comparison of conductor connections with connection diagrams.		Contractor	Contractor
		Make individual circuit continuity		Contractor	Contractor

ITEM	TEST FOR	TEST STANDARD (ASTM OR OTHER TEST STANDARD)	FREQUENCY	FIRST TEST PAID FOR BY	RETESTS PAID FOR BY
		checks using electrical circuit testers.			
	3-Point Fall-of-Potential Ground Test	Use accepted test equipment and test per Manufacturer's instructions	1 test each ground	Contractor	Contractor
	Circuit Insulation Resistance	Insulation resistance between conductors and between each conductor and ground shall be at least 25 megohms.	1 test each circuit before energizing	Contractor	Contractor
	Project Equipment Testing	Test the following electrical equipment items • MCC. • Molded Case Circuit Breakers. • Motors. • VFDs • Grounding Electrode Systems and Equipment Grounding System • 3-Phase Power Transformers.	1 test each piece of project electrical equipment, including 600 volt electrical distribution equipment, motor control centers, and grounding	Contractor	Contractor
	Motor Operating Test – Insulation	• Perform routine insulation resistance,		Contractor	Contractor

ITEM	TEST FOR	TEST STANDARD (ASTM OR OTHER TEST STANDARD)	FREQUENCY	FIRST TEST PAID FOR BY	RETESTS PAID FOR BY
	Resistance, Continuity, Rotation	continuity and rotation tests for all distribution and utilization equipment including all motors ½ hp and larger before and in addition to tests performed by test laboratory. Supply suitable and stable source of test power to test laboratory at each test site. Test laboratory shall specify requirements. Notify test laboratory when equipment becomes available for acceptance tests. Perform all testing in presence of COUNTY's Representative. Test laboratory shall be responsible for implementing			

ITEM	TEST FOR	TEST STANDARD (ASTM OR OTHER TEST STANDARD)	FREQUENCY	FIRST TEST PAID FOR BY	RETESTS PAID FOR BY
		all final settings and adjustments on protective devices and tap changes. Test laboratory shall record all test results and upon completion, assemble and certify final test report			
	Motor Operating Test - Current	Record current in each phase of each motor ½-hp and larger and include in O&M manual. Repair or replace motor or motor-driven equipment if current exceeds motor nameplate FLC value.	Each phase of each motor	Contractor	Contractor
	Power Comp Voltage Test	When installation is complete and facility is in operation, check voltage at point of termination of Electric Utility supply to project. Check voltage amplitude and balance between phases for		Contractor	Contractor

ITEM	TEST FOR	TEST STANDARD (ASTM OR OTHER TEST STANDARD)	FREQUENCY	FIRST TEST PAID FOR BY	RETESTS PAID FOR BY
		loaded and unloaded conditions. If unbalance as defined my NEMA exceeds 1%, or if voltage varies throughout day and from loaded to unloaded conditions my more than +5% nominal, make written request to Electrical Utility to either correct condition or provide written statement voltage variations and/or unbalance are within their normal standards.			
	Field Performance	Demonstrate compliance to Contract Documents and Manufacturers' printed Literature	1 test	Contractor	Contractor

END OF SECTION

26 24 16 PANELBOARDS

PART 1 GENERAL

1.1 SUMMARY

- A. Section Includes:
 - 1. Single meter pedestal with panelboard.
- B. Related Requirements:
 - 1. Section 26 05 26 - Grounding and Bonding for Electrical Systems.
 - 2. Section 26 05 53 - Identification for Electrical Systems.

1.2 REFERENCES

- A. Reference Standards:
 - 1. Institute of Electrical and Electronics Engineers:
 - a. IEEE C62.41 - Recommended Practice on Surge Voltages in Low-Voltage AC Power Circuits.
 - 2. Department of Defense Test Method Standard:
 - a. Mil Std. 220A - Method of Insertion Loss Measurement.
 - 3. National Electrical Manufacturers Association:
 - a. NEMA FU 1 - Low Voltage Cartridge Fuses.
 - b. NEMA ICS 2 - Industrial Control and Systems: Controllers, Contactors, and Overload Relays, Rated Not More Than 2000 Volts AC or 750 Volts DC.
 - c. NEMA ICS 5 - Industrial Control and Systems: Control Circuit and Pilot Devices.
 - d. NEMA KS 1 - Enclosed and Miscellaneous Distribution Equipment Switches(600 Volts Maximum).
 - e. NEMA PB 1 - Panelboards.
 - f. NEMA PB 1.1 - General Instructions for Proper Installation, Operation, and Maintenance of Panelboards Rated 600 Volts or Less.
 - 4. International Electrical Testing Association:
 - a. NETA ATS - Acceptance Testing Specifications for Electrical Power Distribution Equipment and Systems.
 - 5. National Fire Protection Association:
 - a. NFPA 70 - National Electrical Code.
 - 6. Underwriters Laboratories Inc.:
 - a. UL 50 - Cabinets and Boxes.
 - b. UL 67 - Safety for Panelboards.
 - c. UL 489 - Molded-Case Circuit Breakers, Molded-Case Switches, and Circuit-Breaker Enclosures.
 - d. UL 1283 - Electromagnetic Interference Filters.

- e. UL 1449 - Transient voltage Surge Suppressors.
- f. UL 1699 - Arc-Fault Circuit Interrupters.

1.3 SUBMITTALS

- A. Design-Assist Agreement Section 2.15.
- B. Product Data: Submit catalog data showing specified features of standard products.
- C. Shop Drawings: Indicate outline and support point dimensions, voltage, main bus ampacity, integrated short circuit ampere rating, circuit breaker and fusible switch arrangement and sizes.
- D. Source Quality Control Submittals: Indicate results of factory tests and inspections.
- E. Field Quality Control Submittals: Indicate results of CONTRACTOR furnished tests and inspections.

1.4 CLOSEOUT SUBMITTALS

- A. See Design-Assist Agreement.
- B. Project Record Documents: Record actual locations of panelboards and record actual circuiting arrangements, per Section 2.16 of the Design-Assist Agreement.
- C. Operation and Maintenance Data: Submit spare parts listing, source and current prices of replacement parts and supplies, and recommended maintenance procedures and intervals.

1.5 MAINTENANCE MATERIAL SUBMITTALS

- A. Design-Assist Agreement: Requirements for spare parts and maintenance materials.
- B. Extra Stock Materials: Furnish two sets of each panelboard key. Panelboards keyed alike to OWNER's current keying system.

1.6 QUALIFICATIONS

- A. Manufacturer: Company specializing in manufacturing products specified in this Section with minimum 3 years experience.

PART 2 PRODUCTS

2.1 SINGLE METER PEDESTAL WITH PANELBOARD

- A. Description: 27-000 Single Meter TESCOFLEX Pedestal or equal.
- B. Materials: Refer to shop drawings.
- C. Enclosures: Refer to shop drawings.

PART 3 PART 3 EXECUTION

3.1 DEMOLITION

- A. Disconnect abandoned panelboards and load centers.
- B. Maintain access to existing panelboard and load centers remaining active and requiring access. Modify installation or provide access panel.

3.2 INSTALLATION

- A. Install panelboards according to NEMA PB 1.1.
- B. Install panelboards plumb.
- C. Install recessed panelboards flush with wall finishes.
- D. Height: 6 feet to top of panelboard; install panelboards taller than 6 feet with bottom no more than 4 inches above floor.
- E. Install filler plates for unused spaces in panelboards.
- F. Provide typed circuit directory for each branch circuit panelboard. Revise directory to reflect circuiting changes to balance phase loads. Identify each circuit as to its clear, evident, and specific purpose of use.
- G. Install engraved plastic nameplates according to Section 26 05 53.
- H. Install spare conduits out of each recessed panelboard to accessible location above ceiling.
 - 1. Minimum Spare Conduits: Two empty 1 inch. Identify each as SPARE.
- I. Ground and bond panelboard enclosure according to Section 26 05 26. Connect equipment ground bars of panels according to NFPA 70.

3.3 REPAIR

- A. Repair existing panelboards to remain or to be reinstalled.

3.4 FIELD QUALITY CONTROL

- A. Inspect and test according to NETA ATS, except Section 4.

- B. Perform circuit breaker inspections and tests listed in NETA ATS, Section 7.6.
- C. Perform switch inspections and tests listed in NETA ATS, Section 7.5.
- D. Perform controller inspections and tests listed in NETA ATS, Section 7.16.1.

3.5 ADJUSTING

- A. Measure steady state load currents at each panelboard feeder; rearrange circuits in panelboard to balance phase loads to within 20 percent of each other. Maintain proper phasing for multi-wire branch circuits.

3.6 CLEANING

- A. Clean existing panelboards to remain or to be reinstalled.

END OF SECTION

26 27 26
WIRING DEVICES

PART 1 GENERAL

1.1 RELATED DOCUMENTS

- A. Drawings and general provisions of the Contract, including Design-Assist Agreement, apply to this Section.

1.2 SUMMARY

- A. Section Includes:
 - 1. Receptacles, receptacles with integral GFCI, and associated device plates.
 - 2. Weather-resistant receptacles.
 - 3. Wall-switch Communications outlets.

1.3 DEFINITIONS

- A. EMI: Electromagnetic interference.
- B. GFCI: Ground-fault circuit interrupter.
- C. Pigtail: Short lead used to connect a device to a branch-circuit conductor.
- D. TVSS: Transient voltage surge suppressor.
- E. UTP: Unshielded twisted pair.

1.4 ACTION SUBMITTALS

- A. Product Data: For each type of product.
- B. Shop Drawings: List of legends and description of materials and process used for premarking wall plates.

1.5 INFORMATIONAL SUBMITTALS

- A. Field quality-control reports.

1.6 CLOSEOUT SUBMITTALS

- A. Operation and Maintenance Data: For wiring devices to include in all manufacturers' packing-label warnings and instruction manuals that include labeling conditions.

PART 2 PRODUCTS

2.1 MANUFACTURERS

- A. Manufacturers' Names: Shortened versions (shown in parentheses) of the following manufacturers' names are used in other Part 2 articles:
 - 1. Cooper Wiring Devices; Division of Cooper Industries, Inc. (Cooper).
 - 2. Hubbell Incorporated; Wiring Device-Kellems (Hubbell).
 - 3. Leviton Mfg. Company Inc. (Leviton).
 - 4. Pass & Seymour/Legrand (Pass & Seymour).
- B. Source Limitations: Obtain each type of wiring device and associated wall plate from single source from single manufacturer.

2.2 GENERAL WIRING-DEVICE REQUIREMENTS

- A. Wiring Devices, Components, and Accessories: Listed and labeled as defined in NFPA 70, by a qualified testing agency, and marked for intended location and application.
- B. Comply with NFPA 70.
- C. Devices that are manufactured for use with modular plug-in connectors may be substituted under the following conditions:
- D. Connectors shall comply with UL 2459 and shall be made with stranding building wire.
- E. Devices shall comply with the requirements in this Section.

2.3 STRAIGHT-BLADE RECEPTACLES

- A. Convenience Receptacles, 125 V, 20 A: Comply with NEMA WD 1, NEMA WD 6 Configuration 5-20R, UL 498, and FS W-C-596.
- B. Products: Subject to compliance with requirements, provide one of the following:
 - 1. Cooper; 5351 (single), CR5362 (duplex).
 - 2. Hubbell; HBL5351 (single), HBL5352 (duplex).
 - 3. Leviton; 5891 (single), 5352 (duplex).

4. Pass & Seymour; 5361 (single), 5362 (duplex).

2.4 GFCI RECEPTACLES

- A. General Description:
 1. Straight blade, non-feed-through type.
 2. Comply with NEMA WD 1, NEMA WD 6, UL 498, UL 943 Class A, and FS W-C-596.
 3. Include indicator light that shows when the GFCI has malfunctioned and no longer provides proper GFCI protection.
- B. Duplex GFCI Convenience Receptacles, 125 V, 20 A:
 1. Products: Subject to compliance with requirements, provide one of the following:
 2. Cooper; VGF20.
 3. Hubbell; GFR5352L.
 4. Pass & Seymour; 2095.
 5. Leviton; 7590.
- C. Weather-Resistant and Tamper-Resistant Convenience Receptacles, 125 V, 15 A: Comply with NEMA WD 1, NEMA WD 6 Configuration 5-20R, and UL 498.
 1. Products: Subject to compliance with requirements, provide one of the following:
 2. Cooper; TWR270.
 3. Hubbell; RR155WRTR.
 4. Leviton; TWR15.
 5. Pass & Seymour; 3232TRWR.
 6. Description: Labeled to comply with NFPA 70, "Receptacles, Cord Connectors, and Attachment Plugs (Caps)" Article, "Tamper-Resistant Receptacles in Dwelling Units" Section, when installed in wet and damp locations.

2.5 HAZARDOUS (CLASSIFIED) LOCATION RECEPTACLES

- A. Wiring Devices for Hazardous (Classified) Locations: Comply with NEMA FB 11 and UL 1010.
 1. Manufacturers: Subject to compliance with requirements, provide products by one of the following:
 2. Cooper Crouse-Hinds.
 3. EGS/Appleton Electric.
 4. Killark; Division of Hubbell Inc.

2.6 WALL PLATES

- A. Single and combination types shall match corresponding wiring devices.

1. Plate-Securing Screws: Metal with head color to match plate finish.
 2. Material: Smooth, high-impact thermoplastic.
 3. Material for Damp Locations: Smooth, high-impact thermoplastic with spring-loaded lift cover, and listed and labeled for use in wet and damp locations.
- B. Wet-Location, Weatherproof Cover Plates: NEMA 250, complying with Type 3R, weather-resistant thermoplastic with lockable cover.

2.7 FINISHES

- A. Device Color: White, unless otherwise indicated or required by NFPA 70 or device listing.
- B. Wall Plate Color: For plastic covers, match device color.

PART 3 EXECUTION

3.1 INSTALLATION

- A. Comply with NECA 1, including mounting heights listed in that standard, unless otherwise indicated.
- B. Coordination with Other Trades:
1. Protect installed devices and their boxes. Do not place wall finish materials over device boxes and do not cut holes for boxes with routers that are guided by riding against outside of boxes.
 2. Keep outlet boxes free of plaster, drywall joint compound, mortar, cement, concrete, dust, paint, and other material that may contaminate the raceway system, conductors, and cables.
 3. Install device boxes in brick or block walls so that the cover plate does not cross a joint unless the joint is troweled flush with the face of the wall.
 4. Install wiring devices after all wall preparation, including painting, is complete.
- C. Conductors:
1. Do not strip insulation from conductors until right before they are spliced or terminated on devices.
 2. Strip insulation evenly around the conductor using tools designed for the purpose. Avoid scoring or nicking of solid wire or cutting strands from stranded wire.
 3. The length of free conductors at outlets for devices shall meet provisions of NFPA 70, Article 300, without pigtails.
- D. Device Installation:

1. Replace devices that have been in temporary use during construction and that were installed before building finishing operations were complete.
 2. Keep each wiring device in its package or otherwise protected until it is time to connect conductors.
 3. Do not remove surface protection, such as plastic film and smudge covers, until the last possible moment.
 4. Connect devices to branch circuits using pigtails that are not less than 6 inches (152 mm) in length.
 5. When there is a choice, use side wiring with binding-head screw terminals. Wrap solid conductor tightly clockwise, two-thirds to three-fourths of the way around terminal screw.
 6. Use a torque screwdriver when a torque is recommended or required by manufacturer.
 7. When conductors larger than No. 12 AWG are installed on 15- or 20-A circuits, splice No. 12 AWG pigtails for device connections.
 8. Tighten unused terminal screws on the device.
 9. When mounting into metal boxes, remove the fiber or plastic washers used to hold device-mounting screws in yokes, allowing metal-to-metal contact.
- E. Device Plates: Do not use oversized or extra-deep plates. Repair wall finishes and remount outlet boxes when standard device plates do not fit flush or do not cover rough wall opening.
- F. Arrangement of Devices: Unless otherwise indicated, mount flush, with long dimension vertical and with grounding terminal of receptacles on top. Group adjacent switches under single, multigang wall plates.

3.2 GFCI RECEPTACLES

- A. Install non-feed-through-type GFCI receptacles where protection of downstream receptacles is not required.

3.3 IDENTIFICATION

- A. Comply with Division 26 Section "Identification for Electrical Systems."
- B. Identify each receptacle with panelboard identification and circuit number. Use hot, stamped, or engraved machine printing with black-filled lettering on face of plate, and durable wire markers or tags inside outlet boxes.

3.4 FIELD QUALITY CONTROL

- A. Perform the following tests and inspections:
1. Test Instruments: Use instruments that comply with UL 1436.

2. Test Instrument for Convenience Receptacles: Digital wiring analyzer with digital readout or illuminated digital-display indicators of measurement.
- B. Tests for Convenience Receptacles:
1. Line Voltage: Acceptable range is 105 to 132 V.
 2. Percent Voltage Drop under 15-A Load: A value of 6 percent or higher is unacceptable.
 3. Ground Impedance: Values of up to 2 ohms are acceptable.
 4. GFCI Trip: Test for tripping values specified in UL 1436 and UL 943.
 5. Using the test plug, verify that the device and its outlet box are securely mounted.
 6. Tests shall be diagnostic, indicating damaged conductors, high resistance at the circuit breaker, poor connections, inadequate fault current path, defective devices, or similar problems. Correct circuit conditions, remove malfunctioning units and replace with new ones, and retest as specified above.
- C. Wiring device will be considered defective if it does not pass tests and inspections.
- D. Prepare test and inspection reports.

END OF SECTION

31 23 33
EARTHWORK

PART 1 - GENERAL

1.1 DESCRIPTION

- A. Earthwork shall consist of performing all operations necessary for excavation, subgrade preparation and grading where applicable.

1.2 REFERENCE SPECIFICATIONS, CODES, AND STANDARDS

- A. Codes: All Work shall comply with all codes, as referenced herein.
- B. Commercial Standards:
 - 1. ASTM D 422 Method for Particle-Size Analysis of Soils.
 - 2. ASTM D 1556 Test Method for Density and Unit Weight of Soil in Place by the Sand-Cone Method.
 - 3. ASTM D 1557 Test Methods for Moisture-Density Relations of Soils and Soil-Aggregate Mixtures Using 10-lb (4.54-kg) Rammer and 18-in (457-mm) Drop.
 - 4. ASTM D 2487 Classification of Soils for Engineering Purposes.
 - 5. ASTM D 2922 Test Methods for Density of Soil and Soil-Aggregate in Place by Nuclear Methods (Shallow Depth).
 - 6. ASTM D 4829 Standard Test Method for Expansion Index of Soils

1.3 CONTRACTOR SUBMITTALS

- A. Compaction test results, laboratory test results.
- B. Submit copies of grading permits, and permits for disposal of material, if required.

1.4 QUALITY ASSURANCE

- A. General: All soils testing will be done by a testing laboratory of the Owner's choice. The Contractor shall provide the Engineer at least 24 hours' notice in advance of required tests.
- B. Where soil material is required to be compacted to a percentage of maximum density, the maximum density at optimum moisture content will be determined in accordance with ASTM D 1557. In-place, field-density tests will be performed in accordance with ASTM D 1556, ASTM D 2922, or by such other means acceptable to the Engineer.

- C. Prior to the general placement of any materials and during such placement, the Engineer will select areas within the limits of any work for testing the degree of compaction obtained. The Contractor shall cooperate fully in obtaining the information desired. The frequency of testing shall be as determined and completed by the Engineer. Testing shall be in accordance with the ASTM references listed above.
- D. In case the tests of the fill or backfill show noncompliance with the required density, the Contractor shall accomplish such remedy as may be required to ensure compliance. Subsequent testing to show compliance shall be by a testing laboratory selected by the Owner and shall be at the Contractor's expense.
- E. Particle size analysis of soils and aggregates will be performed using ASTM D 422.
- F. Unified Soil Classification System: References in these specifications to soil classification types and standards are set forth in ASTM D 2487. The Contractor shall be bound by all applicable provisions of said ASTM D 2487 in the interpretation of soil classifications.
- G. Determination of the Expansion Index of the soils shall be in accordance with ASTM D 4829.

1.5 JOB CONDITIONS

- A. Protection:
 - 1. Protect adjacent structures and surrounding areas from damage during excavation, filling, and backfilling.
 - 2. Do not remove trees from outside excavation or fill areas unless authorized by the Engineer; protect from permanent damage by construction activities.
 - 3. Protect Work from erosion or other similar types of damage until the Project has been completed.
- B. Weather:
 - 1. Do not backfill or construct fills or embankments during freezing weather or during periods of heavy rainfall when soil moisture conditions will not permit achieving required compaction.
 - 2. Do not use frozen materials, snow, or ice in any backfill, fill area or embankment.
 - 3. Do not backfill or construct fill or embankments on frozen surfaces.

PART 2 PRODUCTS

2.1 SUITABLE MATERIAL

- A. Use of onsite materials is acceptable as long as the material does not contain deleterious matter, particles greater than 3 inches in maximum dimension, and is not highly plastic.
- B. The upper 5 feet of on-site soils are suitable as reuse as fill. If imported fill is required, the material shall consist of soil and rock mixtures that:
 - 1. Are free of organic material
 - 2. Have a Liquid Limit less than 40 and a Plasticity Index of less than 20
 - 3. Have at least 60 percent material retained on the #200 sieve
 - 4. Have a maximum particle size of 6 inches.
- C. Import Material: In general, any unsuitable material that requires removal shall be replaced with Class 2 Aggregate as specified below. If import material is required for site grading operations it shall be granular, low to non-expansive material. The Engineer shall approve any import material prior to use. Any imported fill material needs to be tested to determine its suitability for use as fill material.
- D. The following types of backfill materials are designated and defined as follows:
 - 1. Sand: Well graded clean sand with 100% of particles passing the No. 4 sieve and no more than 5% finer than the No. 200 sieve. Material shall have a Sand Equivalent of 30.
 - 2. Class 2 Aggregate Base: The aggregate base shall conform to the provisions of Section 26 (Class 2 Aggregate) of the Caltrans Specifications for 3/4-inch maximum grading.
 - 3. Minor Concrete: The minor concrete shall conform to the provisions in Section 90-2 "Minor Concrete", of the Caltrans Standard Specifications. Cementitious material content must be a least 505 lb. /cu yd.
 - 4. Filter Fabric: Non-woven geotextile fabric meeting the minimum requirements per the table below:

Minimum Properties	Test Method	Values
Mechanical		
Unit Weight (oz./yd ²)	ASTM D-5199	12
Thickness (mils)	ASTM D-1777	110
Grab Tensile Strength (lbs.)	ASTM D-4632	300
Grab Elongation (%)	ASTM D-4632	50
Puncture Strength (lbs.)	ASTM D-4833	175
Burst Strength (psi)	ASTM D-3786	580
Hydraulic		
Permeability (cm/s)	ASTM D-4991	0.1
AOS (vs. Std. Sieve)	ASTM D-4751	100

2.2 UNSUITABLE MATERIAL

- A. Unsuitable Material: Unsuitable soils for use as fill material shall include soils which, when classified under ASTM D 2487, fall in the classifications of Pt, OH, CH, MH, or OL. In addition, any soil that cannot be compacted sufficiently to achieve the percentage of maximum density specified for the intended use shall be classified as unsuitable material.
- B. Saturated native materials which are over optimum moisture content shall not be considered "unsuitable" simply because they are too wet for proper compaction. The Contractor shall, at its cost, prepare these materials in accordance with this specification. Alternatively, the Contractor may remove the native materials and provide imported backfill material, at no additional cost to the Owner.
- C. The Development Services Construction Inspector may determine whether excess material is unsuitable for backfill.

2.3 PIPE BEDDING AND PIPE ZONE

- A. Material:
 1. Sump Pump Discharge Pipe: Sand or native material with a sand equivalent of 30. Depth per plans. Any trench soil or moisture condition that prevents the bedding and haunching material from forming a firm and stable base requires the use of ¾-inch crushed rock for bedding and haunching and foundation as approved by the Owner.
 2. Fiber Conduit: Minor concrete.
- B. Pipe bedding shall conform to Detail S101.
- C. Bedding shall provide uniform and continuous support along the barrel of the pipe. The minimum depth of bedding material shall be provided under the bell. Blocking of the pipe is not permitted.

- D. Loose material shall be removed from the trench bottom and replace with imported material.
- E. Where rocky, unyielding, or unsuitable foundation material is encountered, the subgrade shall be excavated a minimum of 12 inches below the pipe and the trench width shall be increased a minimum of 12 inches. The over-excavation shall be replaced with imported material.
- F. Where the trench bottom is soft, yielding or unstable, the trench bottom shall be over-excavated. ¾" crushed rock shall be placed in the trench to provide a stable foundation per the Contract Drawings. The rock is in addition to the required pipe bedding used in the pipe zone.
- G. Bell holes shall be excavated per manufacturer's recommendations. The minimum depth of bedding material shall be provided under the bell. Care shall be taken to ensure that the bell hole is no larger than necessary to accomplish proper joint assembly.

2.4 TRENCH ZONE / FINAL BACKFILL

- A. Sump Pump Discharge Pipe in Unpaved areas: Native soil.
- B. Fiber Conduit: Minor concrete.

2.5 STRUCTURAL FILL UNDER AND AROUND PADS, VAULTS AND STRUCTURES

- A. At least six-inches of ¾ inch Class 2 Aggregate Base meeting the requirements of Section 26 of the Caltrans Standard Specifications.

PART 3 EXECUTION

3.1 GENERAL EXCAVATION

- A. All trenching within City Streets shall conform to the City's Trench Cut Ordinance Numbers 3524 and 3602. These ordinances represent a comprehensive pavement protection program incorporating a trench cut cost recovery fee. The trench cut fee provides funds to repair the actual accelerated street damage caused by trenching and is an incentive to promote better trench cut coordination among utility companies
- B. Trenching in existing roadways shall be limited to the length of pipe that can be laid that day. No open trenches shall be left overnight. Exposed trenches shall be plated and backfilled as approved by the Development Services Construction Inspector and the Public Works Department.

- C. Excavation shall be made to such widths as will give safe room for construction of structures and utilities including bracing, supporting, pumping, and draining. The bottom of the excavations shall be rendered firm and dry.
- D. Pipeline excavation shall be open-cut trenches, unless otherwise specified on the approved improvement plans. All excavations shall adhere to all applicable Federal and State safety requirements. All work shall be conducted in such a manner as to prevent damage to new and existing facilities or adjoining property.
- E. Wherever the trench bottom is unstable, the area shall be excavated and an adequate amount $\frac{3}{4}$ inch crushed rock shall be compacted in place to provide a stable base for the pipe. Pipe bedding material, per approved plans, will be placed on top of stabilized trench bottom.

3.2 TRENCHING WIDTH

- A. The trench width shall conform with the Contract Drawings.
- B. If for any reason, the trench is more than 8 inches greater than the minimum width, the Contractor shall provide, at his own expense, stronger pipe or corrected bedding conditions as approved by the Owner to meet the load requirements of the changed conditions at the Contractor's expense. Trenches shall meet OSHA requirements.

3.3 DISPOSAL OF EXCESS EXCAVATED MATERIAL

- A. Materials which are removed from the worksite to accommodate the installation of new facilities shall become the property of the Contractor and shall be disposed of at a legal dumpsite.
- B. Excess material and materials determined unsuitable for backfill by the Development Services Construction Inspector shall be removed from the project site.

3.4 PREPARATION OF GRADE

- A. Loose materials shall be removed from all cut surfaces. Exposed soils shall be scarified to a minimum depth of 6 inches and moistened or dried to the moisture content noted on Section 3.7 below. Material shall be re-compacted to 90 percent compaction noted below based on ASTM D 1557 prior to placing any required backfill or base course.
- B. The bottom of all excavations shall be rendered firm and dry.
- C. Stabilize soft, loose areas, saturated or unstable trench or manhole by over-excavating to 12-inches below the design bottom and placing $\frac{3}{4}$ -inch crushed rock completely wrapped in non-woven geotextile fabric. At pipeline joints, overlap geotextile by at least 12-inches.

3.5 SURFACE PREPARATION

- A. Clear all brush, over-sized debris, loose soils, and organic material from areas to be graded.
- B. Any excavated areas (i.e., excavations for utility removal) should be restored with properly moisture conditioned and compacted fill.
- C. Any loose soil or rock at subgrade will need to be excavated to expose firm natural soils or bedrock
- D. Debris, rocks larger than six inches and vegetation are not suitable for structural fill and should be removed from the site
- E. Vegetation strippings may be used in landscape areas
- F. Subgrade preparation shall consist of scarifying to a depth of about eight inches, moisture conditioning to above optimum, and compacting the finished subgrade to at least 90% relative compaction (ASTM D1557) under the tank and a minimum of 95% relative compaction where under new asphalt pavements and/or the receiving pad.
- G. Relative compaction, maximum dry density, and optimum moisture content of fill materials should be determined in accordance with ASTM Test Method D 1557, "Moisture-Density Relations of Soils and Soil-Aggregate Mixtures Using a 10-lb. Rammer and 18-in. Drop."
- H. If soft, wet, or otherwise unsuitable materials are encountered at the subgrade elevation during construction, we will provide supplemental recommendations/field directives to address the specific condition.

3.6 FILL PLACEMENT- GENERAL

- A. Backfill shall not be dropped directly upon any structure or pipe. Backfill shall not be placed around nor upon any structure until the concrete has attained sufficient strength to withstand the loads imposed.
- B. Fill shall not be placed until after all water is removed from the excavation.
- C. Equipment shall be a size and type satisfactory to the on-site geotechnical engineer or Owner's Construction Inspector. Impact-type pavement breakers or compactors (hydro-hammers) shall not be used within 5 feet of the top of any type pipe. Material for mechanically compacted backfill shall be placed in horizontal lifts which, prior to compaction, shall not exceed the depths specified below for the type of equipment employed. Actual maximum lift depth will vary with soil conditions and compaction equipment.

3.7 PLACING AND SPREADING OF FILL MATERIALS

- A. Fill materials and excavated materials to construct berms shall be placed and spread evenly in layers. The fill layers shall be evenly spread so that each layer shall not exceed 8 inches in uncompacted thickness.
- B. During spreading, each layer shall be thoroughly mixed as necessary to promote uniformity of material in each layer.
- C. Where the backfill material moisture content is below the optimum moisture content, water shall be added before or during spreading until the proper moisture content for compaction is achieved.
- D. Where the backfill material moisture content is too high to permit the specified degree of compaction, the material shall be bladed, aerated, or dried and/or mixed with suitable material with lower moisture content until the moisture content is satisfactory.

3.8 COMPACTION OF FILL MATERIALS

- A. Each layer of fill material shall be mechanically compacted to the specified percentage of maximum density. Equipment that is consistently capable of achieving the required degree of compaction shall be used, and each layer shall be compacted over its entire area while the material is at the required moisture content.
- B. Flooding, ponding, or jetting shall not be used.
- C. Compaction Requirements: The following compaction requirements shall be in accordance with ASTM D 1557.
 - 1. On-site soils shall be moisture conditioned to within 2% of the optimum moisture content, placed in thin lifts and compacted to a minimum of 90% relative compaction.
 - 2. Pipe Bedding / Haunching / Initial Backfill: 90% minimum compaction. Bedding shall be compacted to a minimum 6-inch thickness below bells, couplings, and joints before placing the pipe.
 - 3. The bedding shall be compacted and leveled to give a uniform surface for laying the pipe. Haunching shall be forced under the pipe and made firm and stable before any material is placed above the springline of the pipe. Backfill shall be compacted as specified with no damage to the pipe or appurtenances. The initial backfill shall be placed immediately after the pipe joints have been completed and inspected. The initial backfill shall be carefully placed without disturbing and/or damaging the pipe and/or joints, and shall be brought up evenly on both sides of the pipe. The initial backfill shall be manually compacted to a relative compaction of 90 percent using care to not damage the pipe or joints. "Manually compacted" does not exclude careful use of hand-controlled, power-operated

equipment such as air tampers, vibrating tampers, or other hand controlled tools.

4. Final Backfill: 90% minimum compaction.
 5. Any structural fill placed under pads, tanks, vaults or catch basins shall be compacted to at least 95% relative compaction.
 6. Class 2 AB shall be compacted to at least 95% relative compaction.
 7. Fill placed in horizontal loose lifts shall not exceed 8-inches.
- D. No placement or compacting shall be done when either the previously placed or the new materials are too wet from rain or excess application of water to obtain the compaction specified. At such time, work shall be suspended until the previously placed and/or new materials have dried sufficiently to permit proper compacting.

THIS PAGE INTENTIONALLY LEFT BLANK

33 01 10
DISINFECTION OF PIPING

PART 1 GENERAL

1.1 DESCRIPTION

This section describes requirements for disinfection by chlorination of potable and recycled water mains, services, pipe appurtenances and connections.

1.2 REFERENCED STANDARDS

The publications listed below form part of this specification to the extent referenced and are referred to in the text by the basic designation only. Reference shall be made to the latest edition of said standards unless otherwise called for.

AWWA B300 - Standard for Hypochlorites

AWWA C651 - Disinfecting Water Mains

1.3 RELATED WORK SPECIFIED ELSEWHERE

AWWA Standard Methods for the Examination of Water

Section 33 05 10 - General Piping System

Section 33 05 15 - Pressure Piping Systems Testing

Section 33 05 19 - Ductile Iron Pipe Fittings

1.4 SERVICE APPLICATION

- A. All water mains, interties, and appurtenances taken out of service for inspection, repairs, or other activity that might lead to contamination shall be disinfected before they are returned to service.
- B. All new water mains and interties and temporary pipelines shall be disinfected prior to connection to the Owner's existing system.
- C. All components incorporated into a connection to the Owner's existing system shall be disinfected prior to installation.

1.5 SUBMITTALS

A written disinfection and dechlorination plan, including all methods and equipment to be used, shall be signed by the person responsible for performing the work and shall be submitted to the Engineer for approval prior to starting disinfection operations.

1.6 DELIVERY, STORAGE AND HANDLING

Chlorination and dechlorination shall be performed by competent individuals knowledgeable and experienced in the operation of the necessary application and safety equipment in accordance with applicable Federal, State and Local laws and regulations. The transport, storage and handling of these materials shall be performed in accordance

with Code of Federal Regulations (CFR) 1910.120 Hazardous Waste Operations and Emergency Response, CFR 49.172 Hazardous Materials Regulations, and the General Industry Safety Orders of the California Code of Regulations, Title 8, Section 5194.

1.7 CONCURRENT DISINFECTION AND HYDROSTATIC TESTING

The specified disinfection of the pipelines may *not* be performed concurrently with the hydrostatic testing in accordance with Section 33 05 15.

1.8 CONNECTION TO EXISTING MAINS

Prior to connection to existing mains, disinfection and bacteriological testing shall be performed in accordance with this specification, and hydrostatic testing shall be performed per Section 33 05 15. Owner authorization for connection to the existing system shall be given only on the basis of acceptable hydrostatic, disinfection and bacteriological test results.

PART 2 MATERIALS

All materials must be certified to meet NSF/ANSI 61 Standards.

2.1 SODIUM HYPOCHLORITE (LIQUID)

Sodium hypochlorite is available in liquid form in glass or plastic containers, ranging in size from 0.95 L (1 Qt.) to 18.93 L (5 Gal). The solution contains approximately 10% to 15% available chlorine.

PART 3 EXECUTION

3.1 GENERAL

- A. After successful completion of the hydrostatic test, the Contractor shall coordinate with the Owner to chlorinate all treated water main per AWWA C651-14 by completely filling the main and appurtenances with water having a 50-100 parts per million (ppm) available chlorine from sodium hypochlorite.
- B. The disinfection method shall be the continuous-feed method. The chlorinated water shall be retained in the main for at least 24 hours. At the end of the 24-hour period, the treated water in all portions of the main and appurtenances shall have a residual of not less than 25 parts per million (ppm). If the samples do not pass tests, iterate the disinfection process until a test passes.
- C. Care shall be taken to prevent the strong chlorine solution from flowing back into the line supplying the water. A reduced pressure backflow preventer or an air gap must be used for this purpose.
- D. After chlorination, the pipeline shall be flushed with treated water per AWWA C651-14. The water in the pipeline shall remain a minimum of 48 hours, after which the Owner shall collect bacteriological samples. These will be tested for coliform by an independent laboratory. The number and location of samples shall be determined by the Owner and shall be randomly chosen from fire hydrants and services. The improvements shall pass if all coliform tests show the most probable

number (mpn) is less than 2.2. Failed tests will necessitate additional disinfection as above.

- E. The Contractor shall make the necessary piping connections and furnish and install all necessary equipment required for the flushing operations. Velocities in the flushed pipe must be 2.5 feet per second or greater.
- F. A reducing agent shall be applied to the water to completely neutralize the chlorine residual prior to discharge of the water. The Contractor shall provide for safe and legal disposal of water from such flushings. The Contractor shall remove all temporary flushing facilities.
- G. All costs for chlorination and flushing shall be paid by the Contractor, at no additional expense to the Owner.

END OF SECTION

THIS PAGE INTENTIONALLY LEFT BLANK

33 05 15
PRESSURE PIPING SYSTEMS TESTING

PART 1 GENERAL

1.1 THE REQUIREMENT

- A. The Contractor shall provide all materials, equipment, and labor necessary to perform and complete all pipeline pressure hydrostatic testing for all pressure piping systems, as specified herein.
- B. The Contractor shall be responsible for conveying test water from the source to the point of usage and also for proper disposal, as required, of water used in the testing operations. All costs associated with supply and disposal of test water shall be at the Contractor's expense.

1.2 CONTRACTOR SUBMITTALS

- A. A testing schedule, including proposed plans for conveyance, control and disposal of test water shall be submitted in writing to the Engineer for review a minimum of 72 hours before testing is to start.

PART 2 PRODUCTS

2.1 MATERIAL REQUIREMENTS

- A. The Contractor shall provide all labor, equipment, and materials required for filling and testing the pipelines.

PART 3 EXECUTION

3.1 HYDROSTATIC TESTING

- A. Prior to pressure testing, pipelines shall be cleaned of all debris, construction materials, dirt, and any other materials not suitable for inclusion in the completed pipeline. Cleaning shall conclude with water flushing, performed so that the velocity of flushing water is at least 2.5 feet per second in the pipeline to be tested.
- B. Contractor shall test all pipelines either in sections or as a unit. No section of the pipeline shall be tested until all field-placed concrete, thrust blocks, and mortar have aged at least 14 days.

- C. Backfill shall meet and pass all compaction requirements, all underground utilities shall be installed, and subgrade shall be completed prior to hydrostatic testing.
- D. The Inspector shall be notified forty eight (48) hours prior to testing and must approve any water placement in any portion of the pipeline.
- E. The test shall be made by closing valves when available, or by placing temporary bulkheads in the pipe and filling the line slowly with water and evacuating all air. Do not test against closed valves connected to a potable water system. After the pipeline or section thereof has been filled, it shall be allowed to stand with a pressure of 2-20 psi for at least 24 hours to allow the concrete or mortar lining, if applicable, to absorb water and allow the escape of air from any air pockets. During this period, bulkheads, valves, and connections shall be examined for leaks. If leaks are found, corrective measures satisfactory to Owner shall be taken.
- F. The pipeline shall be filled with water and all air evacuated. For raw and treated water lines, the test pressure shall be 150 psi or 150 percent of static pressure, whichever is greatest. Maintain the test pressure for at least 2 hours. The test pressure shall be measured at the lowest point of the pipeline section being tested. The amount of water introduced into the pipeline to maintain the test pressure shall be measured volumetrically using a calibrated test reservoir. Accurate means shall be provided for measuring the quantity of water required to maintain full pressure on the line for the test period.
- G. Leakage shall be considered as the total amount of water pumped into the pipeline during the test period. The allowable leakage is zero. The allowable leakage for buried piping having threaded, brazed, or welded joints (including solvent welded) shall be zero gallons. Exposed pipe, and pipe with welded, flanged, or coupled joints shall have no leakage.
- H. Contractor will be solely responsible for the proper disposal of all water used in the flushing and testing process. Disposal of all water shall be in accordance with appropriate regulatory agency requirements.
- I. All flushing and testing operations shall be performed in the presence of the Inspector.

3.2 CONSTRUCTION WATER

- A. Contractors are prohibited from operating gate valves or fire hydrants not designated for use by the Owner. Acquisition of water through appropriation at un-metered fire hydrants or other facilities is a violation of State Law.

END OF SECTION

33 05 19
DUCTILE IRON PIPE AND FITTINGS

PART 1 GENERAL

1.1 DESCRIPTION

- A. The Contractor shall provide all materials, equipment, and labor necessary to furnish and install all ductile iron pipe and fittings, and all appurtenant work, complete and operable, including all connections, as shown on the Drawings and as specified herein.

1.2 SUBMITTALS

- A. Submittals shall be in accordance with Section 2.15 of the Contract Agreement.
- B. Certifications properly executed by the manufacturer shall be submitted to the Engineer showing compliance to the requirements of the Specifications. Test data on tests performed shall be provided as requested by the Engineer.
- C. Product Data: Provide product data for all materials and equipment proposed to be furnished and installed under this portion of the work, giving manufacturer's name, catalog number, and catalog cuts for each item where applicable.
- D. Shop Drawings: Provide complete pipe layout of each piece and fitting, showing proposed sequence of construction.
- E. Test Reports: Contractor shall submit written results of all testing required in this section to the Engineer.
- F. Manufacturer's Instructions: Contractor shall provide manufacturer's installation instructions for all pipe materials.

1.3 QUALITY ASSURANCE

- A. Standards: The materials and work performed in this Section shall conform to the applicable standards of:
 - 1. The American National Standards Institute (ANSI)
 - 2. The American Society for Testing and Materials (ASTM)
 - 3. American Welding Society (AWS)
 - 4. American Water Works Association Inc. (AWWA)
 - 5. Uniform Plumbing Code (UPC)
- B. Qualification of manufacturers

1. The material shall be the product of a supplier regularly engaged in the manufacturing of pipe and plumbing products.
2. All materials shall be new and of current manufacture and shall be guaranteed against defects or workmanship in accordance with the General Conditions.

PART 2 PRODUCTS

2.1 GENERAL

- A. All materials shall conform to sizes, capacity, quality and quantities as shown on the drawings or described in these Specifications. Materials shall be from new stock, delivered in good condition. No damaged stock shall be used.
- B. Where no method of tests for materials is specified, the latest applicable test specified by ASTM shall be followed.
- C. After delivery to the site, all materials shall be carefully unloaded, protected against breakage, rusting, and accumulation of foreign matter, disintegration and injury. The Contractor shall be responsible for all lost or damaged material supplied and work done under this contract.

2.2 DUCTILE IRON PIPE AND FITTINGS

- A. Ductile iron pipe shall be designed in accordance with ANSI Specification A21.50-81 (AWWA C151-17). Pipelines shall be minimum Pressure Class 150. Pipe 4" diameter thickness shall be Class 51 or better. Pipe 6" through 20" diameter shall be thickness class 50 or better.
- B. Ductile iron pipe shall be lined with cement mortar in accordance with the requirement of the "American National Standard for Cement Mortar Lining for Cast Iron and Ductile Iron Pipe and Fitting for Water" (ANSI A21.4 / AWWA C104), rated for NSF61, except that lining thickness shall be not less than 3/16" for pipe smaller than twenty four (24) inches in diameter and 14" for pipe twenty four (24) inches in diameter and larger.
- C. Ductile iron pipe shall be installed in accordance with the "American National Standard for Installation of Gray and Ductile Cast Iron Water Mains and Appurtenances" (ANSI/AWWA C600). Buried pipe shall be polyethylene encased in accordance with the "American National Standard for Polyethylene Encasement for Gray and Ductile Cast-Iron Piping for Water and other Liquids" (ANSI A21.5/AWWA C105).
- D. All pipe and fittings shall be cement lined with Type V cement mortar lining, sulfate and acid resistant cement, per AWWA C104. Ductile iron or fabricated steel fittings shall conform to AWWA C110, C111, C115 and C153. Steel fittings shall be fusion

bonded and epoxy-lined and coated. Special fittings may be manufactured from steel pipe in accordance with AWWA C200. Liners shall be rated for NSF61.

- E. Joints shall be push-on-type, mechanical, or flanged joints as shown on the Drawings.
- F. Flanges shall be cast-on flanges conforming to ANSI/ AWWA A21.10/C110 or thread-on ductile iron conforming to AWWA A21.15/C115. Bolt circle and bolt holes shall match those of ANSI B16.1, Class 125 flanges and ANSI B16.5, Class 150 flanges. Where specified, flanges shall be cast-on or threaded-on flanges conforming to ANSI B16.1, Class 250.
- G. Mechanical Joint - Mechanical joint pipe shall be restrained by use of locking rings with lugs that secure the ring to the pipe. Locking rings and lugs shall be fusion-bonded, epoxy-coated, and wrapped in polyethylene as part of the pipe. Mechanical flanged and mechanical joints fitting bolt threads and nuts shall be coated with an approved bituminous material.
- H. Gasket material for flanged joints shall be 1/8-inch thick, cloth-inserted rubber, one piece, full faced with holes to pass bolts. Gasket material shall be free from corrosive alkali or acid ingredients and suitable for use in sewage lines. Asbestos gaskets shall not be permitted. Gaskets with integral teeth used to restrain DIP such as “Field Loc” gaskets are not allowed.
- I. The exterior surface of ductile iron pipe and fittings shall have a factory-applied protective coating.
- J. Manufacturers:
 - 1. American
 - 2. Electrosteel USA
 - 3. McWane Ductile
 - 4. U.S. Pipe

2.3 BOLTS FOR DUCTILE IRON

- A. Bolts and nuts shall be 316 stainless steel, ASTM A 193, Grade 138M hex head with ASTM A 194, Grade 8M hex nuts. Plastic washers and sleeves for dielectric joints shall be provided.

2.4 POLYETHYLENE ENCASEMENT

- A. All buried ductile iron pipe, ductile iron fittings and all buried services shall be polyethylene encased per AWWA C105/A21.5-10 or latest version.

2.5 DIELECTRIC FITTINGS AND COATINGS FOR PROTECTED VALVES AND PIPES

- A. Brass, galvanized steel, copper and stainless steel shall be kept electrically isolated ductile iron and low alloy steel. Eliminate points of direct metallic contact through the use of insulating bushings, PVC Sch. 80 nipples, insulating couplings, or other approved insulating system. Also isolate nonferrous pipe from steel supports and pipe straps by means of insulating sleeves or dielectric tape.
- B. Insulating flanged joints shall be provided between DIP and Steel pipe. Insulating flanged sets shall have laminated phenolic gaskets and shall be provided with laminated phenolic sleeves and washers.

PART 3 PLAIN PHENOLIC FLANGE KITS SHALL HAVE 1/16" BACK-UP GASKETS ON EACH SIDE OF THE PHENOLIC GASKET TO AID IN SEALING. ACCEPTABLE MANUFACTURERS ARE CALPICO, TYPE E.EXECUTION

3.1 GENERAL

- A. All laying, jointing, testing for defects and for leakage shall be performed in the presence of the Engineer, and shall be subject to its approval before acceptance. All material found during the progress to have defects will be rejected and the Contractor shall promptly remove such defective materials from the site of the Work.

3.2 PIPE LAYING

- A. The pipe shall be installed in conformance with the requirements specified herein and as shown on the Drawings. The pipe sections shall be closely jointed to form a smooth flow line. Immediately before placing each section of pipe in final position for connecting joints, the bedding for the pipe shall be checked for firmness and uniformity of surface.
- B. Proper implements, tools and facilities as recommended by the pipe manufacturer's printed instructions shall be provided and used by the Contractor for safe and efficient execution of the work. All pipe, fittings and accessories shall be carefully lowered into the trench by means of derrick, ropes, or other suitable equipment in such a manner as to prevent damage to pipe and fittings. Under no circumstances shall pipe or accessories be dropped or dumped into the trench.
- C. Cutting and machining of the pipe shall be accomplished in accordance with the pipe manufacturer's standard procedures for this operation. Pipe shall not be cut with a cold chisel, standard iron pipe cutter, nor any other method that may fracture the pipe or will produce ragged, uneven edges.

- D. The pipe and accessories shall be inspected for defects prior to lowering into the trench. Any defective, damaged or unsound pipe shall be repaired or replaced. All foreign matter or dirt shall be removed from the interior of the pipe before lowering into position in the trench. Pipe shall be kept clean during and after laying. All openings in the pipe line shall be closed with water tight expandable type sewer plugs at the end of each day's operation or whenever the pipe openings are left unattended. The use of burlap, wood or other similar temporary plugs will not be permitted.
- E. Adequate protection and maintenance of all underground and surface utility structures, drains, sewers, and other obstructions encountered in the progress of the work shall be furnished by the Contractor at its own expense.
- F. DIP shall be polyethylene-encased in accordance with the Construction Standards and the standard for "Polyethylene Encasement for Ductile-Iron Piping for Water and Other Liquids" (ANSI/AWWA C-105/A21.5).

3.3 PIPE HANDLING

- A. Handling of all pipe shall be done with care to insure that the pipe is not damaged in any manner during storage, transit, loading, unloading and installation.
- B. Pipe shall be inspected both prior to and after installation in the trench and all defective lengths shall be rejected and immediately removed from the working area.

3.4 FIELD JOINTING

- A. Each pipe flanged joint shall be installed in conformance with the manufacturer's printed recommendations.
- B. Prior to connecting flanged pipe, the faces of the flanges shall be thoroughly cleaned of all oil, grease, and foreign material. The rubber gaskets shall be checked for proper fit and thoroughly cleaned. Care shall be taken to assure proper seating of the flanged gasket. Bolts shall be tightened so that the pressure on the gasket is uniform. Torque-limiting wrenches shall be used to insure uniform bearing insofar as possible. If joints leak when the hydrostatic test is applied, the gaskets shall be removed and reset and bolts re-tightened.
- C. When pipe laying is not in progress, the open ends of the pipe shall be closed to prevent trench water from entering pipe. No pipe shall be laid when, in the opinion of the Engineer, the trench conditions or weather are unsuitable for such work.
- D. Install pipe joints per AWWA C111.

3.5 FITTINGS

- A. All fittings shall be installed utilizing standard installation procedures. Fittings shall be lowered into trench by acceptable means without damage to the fittings. Fittings shall be carefully connected to pipe or other facility, and joint shall be checked to insure a sound and proper joint.
- B. Contractor shall not weld pipe or fitting onto valves.

3.6 TOLERANCES

- A. Horizontal Line Tolerance: 2 inches.
- B. Vertical Grade Tolerance: 1 inch. Any deviation with respect to design line and grade shall be recorded at least once per foot and the records shall be submitted to the Engineer as requested. If the alignment is off line or grade, the necessary corrections shall be made to return to the plan alignment at a rate of not more than 1 inch per 25 feet. All corrective work, including new design, if required, shall be performed by the Contractor at no additional cost to the District and is subject to the approval of the Engineer.

3.7 REPAIRS

- A. Only new pipe free from defects shall be installed.
- B. Broken or leaking sections of pipe must be replaced. Repair clamps will not be approved.

3.8 CLEANING

- A. Care shall be taken to keep the pipe clean at all times during the installation. Prior to testing the pipe shall be flushed so that the velocities of 5 feet per second are obtained sufficient to clean the entire length of pipe.
- B. If the Contractor digs out any sections subsequent to this where debris could enter the line, the line shall be again flushed through the section that was disturbed.

END OF SECTION

33 11 00
PIPING GENERAL

PART 1 - GENERAL

1.1 QUALITY ASSURANCE

- A. Qualification of manufacturers:
 - 1. The material shall be the product of a supplier regularly engaged in the manufacturing of pipe and plumbing products.
 - 2. All materials shall be new and of current manufacture and shall be guaranteed against defects or workmanship.

1.2 SUBMITTALS

- A. Material list: Provide product data for all materials and equipment proposed to be furnished and installed under this portion of the work, giving manufacturer's name, catalog number, and catalog cuts for each item where applicable.

PART 2 - PRODUCTS

2.1 GENERAL

- A. These Specifications are intended to be standard specifications and they may therefore contain specifications for materials not required for this project or allowed on any or various parts of it. Certain materials, which are applicable for only one portion or a small portion, may be shown on the plans and not particularly specified herein.
- B. All materials shall conform to sizes, capacity, quality and quantities as shown on the drawings or described in these Specifications. Materials shall be from new stock, delivered in good condition. No damage to stock shall be used.
- C. Where no method of tests for materials is specified, the latest applicable test specified by ASTM shall be followed.
- D. After delivery to the site, all materials shall be carefully unloaded, protected against breakage, rusting, accumulation of foreign matter, disintegration and injury. The Contractor shall be responsible for all lost or damaged material supplied and work done under this contract.
- E. Protective Coating. Except where otherwise specified, ferrous surfaces, exclusive of stainless steel surfaces, shall have a 100% solids epoxy coating. Where sleeves are installed through walls, sleeve shall have a coating and mastic tape applied.

2.2 PVC PIPE

- A. Pipe and fittings shall be Schedule 80 pipe.
- B. All joints to be solvent weld. Use heavy duty PVC cement and primer.

2.3 DUCTILE IRON PIPE (DIP)

- A. As specified in Section 33 05 19 and the provisions of this Section.

2.4 UNDERGROUND TRACER WIRE

- A. Tracer wire per drawings.

PART 3 - EXECUTION

3.1 SURFACE CONDITIONS

- A. Inspection:
 - 1. Prior to all work of this Section, carefully inspect the installed work of all other trades and verify that all such work is complete to the point where this installation may properly commence.
 - 2. Verify that all pipe may be installed in accordance with all pertinent codes and regulations, the original design, and the referenced standards.
- B. Discrepancies:
 - 1. In the event of discrepancy, immediately notify the Engineer.
 - 2. Do not proceed with installation in areas of discrepancy until all such discrepancies have been fully resolved.

3.2 HANDLING

- A. The Contractor shall provide and use proper implements, tools and facilities for the safe and proper handling and protection of the pipe, all as recommended by the manufacturer. Pipe shall be handled in such a manner as to avoid damage to the pipe material or any coating and especially to the ends.
- B. When damaged pipe cannot be repaired to the satisfaction of the Owner, it shall be removed from the job.
- C. Pipe shall be stored in a safe location, protected from the elements where damage therefrom could result.
- D. The pipe shall be carefully lowered in the trench to prevent damage. Under no circumstances shall pipe be dropped or dumped into trenches. Remove foreign matter and dirt from the inside of the pipe and keep it clean during and after laying.

- E. The Contractor shall take care to keep from damaging the pipe by heavy loads and unnecessary compactive effort especially for shallow lifts. All damaged pipe shall be replaced. Normally, repairs will not be acceptable.

3.3 INSTALLATION

- A. General: Install all pipes in strict accordance with plans, profiles, details, typical sections and with manufacturers' recommendations as approved by the Engineer.
- B. Polyvinyl Chloride (PVC) Pressure Pipe Installation - PVC shall be installed in accordance with the AWWA Manual M23 and the manufacturer's recommendations, except as otherwise provided herein:
 - 1. PVC Pipe shall have been manufactured within the 18 month period prior to installation.
 - 2. Pipe and gaskets shall be kept clean and protected against sunlight and heat damage.
 - 3. Pipe showing signs of physical damage or excessive ultraviolet exposure will be rejected and shall be immediately removed from the job site.
 - 4. The pipe shall be installed with the manufacturing label showing on the top.
 - 5. The reference mark or stab line on the spigot end must be flush with the bell end and visible for inspection.
 - 6. Minimum length of pipe for installation shall be 5 feet.
- C. All buried cast iron, ductile cast iron and mill-type steel pipe shall be encased in a 5-mil polyethylene wrap. All buried fittings and appurtenances shall be double encased in an 8-mil polyethylene wrap. Polyethylene wrap shall be manufactured and installed in conformance with ANSI A21.5.
- D. Pressure pipe: Pressure pipe shall be laid in accordance with plans and profiles and typical sections. Before new pipe is placed the subgrade material shall be graded so that pipe will rest firmly on undisturbed granular material for its full length.
- E. All adjustments to line and grade shall be made by scraping away or filling in the bedding under the body of the pipe, and in no case by wedging or blocking. Pipe shall be laid on an unyielding foundation true to line and grade with uniform bearing under the full length of the pipe with slight hand excavation at the coupling to allow for its thickness.
- F. Where soft, wet or spongy conditions are encountered in the trench at pipe subgrade, the subgrade shall be over-excavated and stabilized by placing imported drain rock and geotextile fabric as specified in Section 31 23 33, Earthwork.
- G. All pipe, especially the ends, shall be carefully cleaned before the pipe is joined. Whenever work ceases for any reason, the end of the pipe shall be closed with a watertight fitting, plug or cover. The interior of the pipe shall be kept free from

dirt, foreign material or debris as the work progresses and the pipe shall be cleaned after completion.

- H. All pipe shall be laid and maintained to the required line and grade. Contractor shall set up a grade device parallel to the trench and the cut carefully measured to the pipe. If a laser device is used, it shall be checked periodically and verified for accuracy by measurement from engineered cut stakes.
- I. Special care shall be taken to maintain grade, especially on flatter sections of 1% or less. Alignment shall be uniform and true and subject to approval by the Engineer. No dead flat or reverse grades will be allowed.
- J. Where specific items are not covered within this Specification, reference shall be made to manufacturer's suggested specifications and installation guides.

3.4 PROTECTION, BARRICADES, ETC.

- A. Pipe strung out along the trench or stored where it can be damaged or where injury may result to the public or employees shall have special precautions taken to prevent damage from occurring. Pipe shall not be spread along trenches for extended periods prior to its actual use. Pipe shall be stored in a safe location out of the traveled way and properly barricaded with suitable lights provided to prevent vehicular damage.
- B. Where pipe is stored off of a right-of-way, the Contractor shall be required to obtain a letter of consent from the affected property owner prior to storage in such locations. Such letters shall be obtained and given to the Engineer prior to use of private property.

3.5 LAYING, BEDDING

- A. All buried pipe shall be laid on a prepared bed as hereinbefore specified. After laying, additional bedding material shall be added to a depth of 3-inches or about the mid-point of the pipe depending upon diameter, after which it shall be tamped with a suitable tool to secure uniform full-length bedding up to the mid-point of the pipe. Additional bedding material shall then be placed to the depth shown in the standard details of the Plans and compacted by mechanical methods to the specified relative compaction.
- B. Take necessary precautions to prevent uplift and floating of the pipe prior to backfilling.
- C. Spigot end of pipe shall be laid in direction of normal flow.
- D. Water in trenches shall be removed by pumping and not allowed to flow through the pipe.

- E. Pipe shall be placed and joined in accordance with manufacturer's and/or Owner's directions as specified.
- F. Each section of pipe shall be thoroughly cleaned before it is installed.
- G. The pipe shall be cut to provide closure pieces of correct lengths to permit the proper location of the pipe sections, or to locate valves, fittings, and appurtenant structures where specified on Plans.
- H. Temporary, water-tight plugs shall be provided for closure of the open ends of the pipelines each time pipe-laying activity stops and at the end of each working day to prevent the entry of dirt and/or other contaminants.

3.6 CUTTING PIPE

- A. General: Cut pipe for inserting valves, fittings, closure pieces, and as otherwise required, in a neat and workmanlike manner without damaging the pipe or lining and so as to leave a smooth end at right angles to the axis of the pipe.
- B. Dressing cut ends:
 - 1. Dress cut ends of pipe in accordance with the type of joint to be made.
 - 2. Dress cut ends of mechanical joint pipe to remove sharp edges or projections which may damage the rubber gasket.
 - 3. Dress cut ends of push-on joint pipe by beveling, as recommended by the coupling or adapter manufacturer.

3.7 APPURTENANCES

- A. General: See plans for location of valves and appurtenances to be installed as a portion of the pipe. The Contractor should note that generally, valves that are clustered are flanged by hub with the entire cluster properly bolted together. Valves and other appurtenances having hub ends shall be connected to the pipe by means of rubber rings of the same type used to join the pipe.
- B. Joining Push-on Joint Pipe: Join pipe with push-on type joints in accordance with the manufacturer's recommendations as approved by the Engineer. Provide all special tools and devices, such as special jacks, chokers and similar items required for the installation. Lubricant for the pipe gaskets shall be furnished by the pipe manufacturer, and no substitutes will be permitted.
- C. Joining Flanged Joint Pipe: Prior to connecting flanged pipe, the faces of the flanges shall be thoroughly cleaned of all oil, grease and foreign material. The rubber gaskets shall be checked for proper fit and thoroughly cleaned. Care shall be taken to assure proper seating of the flanged gasket. Bolts shall be tightened so that the pressure on the gasket is uniform. Torque-limiting wrenches shall be used to insure uniform bearing insofar as possible. If joints leak when the hydrostatic test is applied, the gaskets shall be removed and reset and bolts re-tightened.

3.8 REPAIRS

- A. Only new pipe free from defects shall be installed. Portions of broken pipe or short lengths may be used providing they are properly cut back and used as stubs, or short lengths required at structures for flexible joints.
- B. Broken or leaking sections of pipe must be replaced. Repair clamps will not be approved.

3.9 SYSTEM SHUTDOWNS

- A. When deemed necessary by the Owner, shutdowns of existing in-service pipeline and other distribution facilities shall be made by the Owner as necessary to complete pipeline connections. A shutdown shall be for as short a period as possible and shall be scheduled by the Owner. The amount of lead time necessary for shutdown and connection to existing mains varies with each job and must be planned accordingly. In no case shall a shutdown and/or connection be scheduled with less than 11 days' notice to the Owner. Make no connections to existing pipes prior to passing pressure and disinfection tests. Interference with the operation of the Owner's distribution system shall be kept at a minimum. While an existing pipeline is shut down, the connection work shall be performed without interruption, continuing after regular working hours until completed, if necessary unless otherwise directed by the Owner. In some cases, shutdowns must occur at times other than normal working hours and/or days.
- B. In all cases, shutdowns shall be made in conformance with the requirements of the Owner, AWWA C651-14 and local, state, and federal authorities. The Owner shall operate all valves in making a shutdown, restoring pressure to the existing main, and initiating pressure to a new installation. The Contractor is required to obtain all necessary discharge permits. The Contractor shall make the necessary piping connections, furnish and install all necessary equipment required for the high velocity flushing operations. The Contractor shall provide for safe and legal disposal of water from such flushing's. The contractor shall remove all temporary flushing facilities. All costs for the permits, chlorination, and flushing shall be paid by the contractor.
- C. The Owner shall be notified at least 11 working days prior to any connection operations. Contractor is required to submit a shutdown, testing, and discharge plan to the Owner that illustrates their means and methods of complying with this section. The plan shall be submitted at the time of notification.

3.10 CLEANING

- A. Care shall be taken to keep the pipe clean at all times during the installation. Prior to testing the pipe shall be flushed so that the velocities of 5 feet per second are obtained sufficient to clean the entire length of pipe.

- B. If the Contractor digs out any sections subsequent to this where debris could enter the line, the line shall be again flushed through the section that was disturbed.

3.11 TESTING AND FINAL CLEANING

- A. Testing and final cleaning of all pipe shall conform to the requirements of Section 33 05 15 Pressure Piping Systems Testing and Section 33 01 10, Disinfection of Piping.

END OF SECTION

THIS PAGE INTENTIONALLY LEFT BLANK

33 14 19
VALVES AND APPURTENANCES

PART 1 - GENERAL

1.1 DESCRIPTION

- A. This Section includes the supply and installation of the following valves and appurtenances:
 - 1. Pressuring Reducing Valve
 - 2. Butterfly Valve
 - 3. Check Valve
 - 4. Ball Valve
 - 5. Flange Coupling Adapters
 - 6. Sump Pump
 - 7. Control Switch

1.2 SUBMITTALS

- A. Shop Drawings
 - 1. Product data sheets for make and model.
 - 2. Complete catalog information, descriptive literature, specifications, and identification of materials of construction.
- B. Quality Control Submittals
 - 1. Manufacturer's Instructions:
 - a. Installation and testing of products specified.
 - b. Pipeline tapping and service saddle installation.
 - 2. Operation and maintenance manual.

1.3 DESIGN REQUIREMENTS AND OPERATING CONDITIONS

- A. Valve working pressure: Minimum 150 psi unless otherwise specified or shown
- B. Product Handling:
 - 1. Use all means necessary to protect the materials of this section before, during, and after installation and to protect the installed work and materials of all other trades.
 - 2. The Contractor shall provide and use proper implements, tools and facilities for the safe and proper handling and protection of the material.
 - 3. In the event of damage, immediately make all repairs and replacements necessary to the approval of the Engineer, and at no additional cost to the Owner.

4. When damaged material cannot be repaired to the satisfaction of the Engineer, it shall be removed from the job.
5. Material shall be stored in a safe location, protected from the elements where damage could result.

1.4 QUALITY ASSURANCE

- A. The material shall be the product of a supplier regularly engaged in the manufacturing of pipe and plumbing products.
- B. For the actual assembly, installation, and testing of the work of this section, use only thoroughly trained and experienced personnel who are completely familiar with the requirements for this work and with the installation recommendations of the manufacturers of the specified items.

PART 2 - PRODUCTS

2.1 GENERAL

- A. Valve assemblies and appurtenances shall have a rated working and test pressure equal to or greater than the operating and test pressure of the pipe.
- B. The CONTRACTOR shall furnish all valves, valve-operating units, stem extensions, and other accessories. All valves of the same style or type shall be furnished by a single manufacturer. All valves shall have the name of the maker and the working water pressure for which they are designed cast in raised letters upon some appropriate part of the body. All valves shall be new and of current manufacture. All shut-off valves, 6-inch and larger, shall have operators with position indicators if located above ground. Where buried, these valves shall be provided with valve boxes and covers containing valve stem extensions as required. Buried valves shall not have position indicators. Valves mounted higher than 5-foot 0-inches above working level shall be provided with chain operators.
- C. Wherever stainless steel is specified in this Section, it shall be AISI Type 316, unless otherwise specified.
- D. Protective Coating. Except where otherwise specified, ferrous surfaces, exclusive of stainless steel surfaces, in the water passages of all valves 4-inch and larger, as well as the exterior surfaces of all valves, shall be have a 100% solids epoxy lining and coating. Flange faces of valves shall not be coated. The valve manufacturer shall certify in writing that such coating has been applied and tested in the manufacturing plant prior to shipment, in accordance with these Specifications.
- E. Manual Valve Operators. Each manually operated valve shall be provided with a 2" square actuating nut, handwheel or lever operator. Manual valve operators

shall be designed for not less than 125 percent of the operating torque required for the service. Handwheels shall be sized to require an operating force of not more than 40 pounds, and shall have arrows cast thereon to indicate the direction of rotation for opening the valve. Valves shall open counterclockwise.

F. Valve Labeling.

1. Except when such requirement is waived by the Owner in writing, provide an identification label on all valves exclusive of hose bibbs. The label shall be 1/16-inch stainless steel, minimum 2 inches by 4 inches in size, and shall be permanently attached to the valve or on the wall adjacent to the valve as directed by the Owner.

G. Bolts, Gaskets, Glands, Nuts

1. Bolts, gaskets, glands, nuts, and miscellaneous accessories required to install all valves are to be furnished.
2. Bolts shall be as specified in Section 05 50 00 Metal Fabrications. Bolts for flanged connections shall be galvanized steel with American Standard regular unfinished square or hex heads. Where dissimilar metals are being bolted, stainless steel bolts shall be used. Underground bolts shall be Type 316 stainless steel, unless specifically noted to the otherwise
3. Nuts shall be galvanized steel with American Standard regular hexagonal dimensions.
4. Gaskets for flanged connections shall be suitable for the pressure, temperature, and chemical characteristics of the fluid handled. The gasket materials shall also be suitable for the pipe system physical characteristics and materials. Gaskets shall extend from the inside diameter of the flange to at least the inside edge of the bolt holes or they may extend beyond the bolt circle.
5. Jointing materials for mechanical joints shall conform to ANSI A21.11.

H. Where no method of tests for materials is specified, the latest test specified by ASTM shall be followed.

2.2 PRESSURE REDUCING VALVE

A. Manufacturers:

1. Cla-Val, model 131-01 PRV
 - a. Contractor to confirm model number with the manufacturer prior to ordering and fabrication, based on the requirements herein and approval by the Engineer.

B. Service: Treated water

C. Valve design:

1. Hydraulically operated
2. Signal diaphragm actuated

3. Globe pattern
4. NSF/ANSI 61 standard certified
5. End connection: flanged per ASME/ANSI B16.42, Class 150 (250 psi max)
6. Upstream and downstream pressure transmitter included and meeting the requirements of Section 40 73 00.
7. Upstream and downstream pressure gauges included and ranging from 0 to 100 psi.
8. During a power outage, valve will remain open in the last position.
9. Main Valve Body
 - a) Valve shall contain a resilient, synthetic rubber disc with a rectangular cross section contained on three and one half sides by a disc retainer and forming a tight seal against a single removable seat insert.
 - b) The diaphragm assembly containing a non-magnetic stainless steel stem.
 - c) The valve seat shall be a solid, one-piece design.
10. The main valve seat and stem bearing in the valve cover shall be removable.
11. Pilot Control System: The pilot control shall be through two direct acting two-way solenoid pilot valves controlled by an external power source. The pilot control system shall include strainers and solenoid manual by-pass valves. The pilot control system shall utilize copper control tubing and brass fittings. The solenoid pilot valves either add or relieve line pressure from the cover chamber of the main valve, causing it to open or close as directed by the electronic controller. Solenoids shall have NEMA IV enclosures.
12. Valve features shall include the following
 - a. Two hydraulic controls: electronic pressure relief CRL pilot and electronic pressure reducing CRD-34 pilot
 - b. CK2 Isolation Valve
 - c. CV Flow Control (Closing)
 - d. X117D Series Position Transmitter
 - e. Two (2) X141 Pressure Gauges
 - f. CV Flow Control (Opening)
 - g. Two (2) X141 PT-Pressure Transmitters
 - h. Differential Pressure Transmitter

D. Materials:

1. Body and cover: ductile iron-ASTM A536
2. Main Valve Trim: stainless steel
3. Stem, nut and spring: stainless steel
4. Seal disc: Buna-N Rubber
5. Diaphragm: Nylon Reinforced Buna-N Rubber
6. Pilot: bronze
7. Tubes and fittings: stainless steel

- 8. End detail: ductile iron ANSI B16.42 Class 150
- E. Fusion bond epoxy lined (12 mils minimum) and coated (8 mils minimum).

2.3 BUTTERFLY VALVE

- A. Size: As indicated on the plans
- B. Manufacturers:
 - 1. Pratt, model 2FII, MKII, HP-250 & Groundhog
 - 2. Crispin, K-Flow 500 Series
 - 3. Clow, Series 4500
 - 4. M&H, AWWA Butterfly Valves
 - 5. Mueller, Lineseal III, Lineseal XP
- C. Service: Treated water
- D. Valve Design:
 - 1. Bonded Seat
 - 2. Flanged
 - 3. Rated for 150 psi
 - 4. Offset disc design, not diaphragm
- E. Materials
 - 1. Body: Ductile Iron ASTM A536 Grade 65-45-12
 - 2. Disc: Ductile iron or stainless steel
 - 3. Tangential Pin: 316 Stainless Steel, ASTM A276, Type 316
 - 4. Seat: NBR or EPDM
 - 5. Shaft: 316 Stainless Steel, ASTM A276, Type 316
 - 6. O-Ring: EPDM
 - 7. Screw: stainless steel
- F. Certified to ANSI/NSF 61

2.4 CHECK VALVE

- A. Check valves 1-1/2" and smaller shall be PVC ball check valves with Viton seals.
- B. Manufacturer:
 - 1. Asahi/American True Union Ball Check Valve
 - 2. Hayward Safe Block True Union
 - 3. or equal.
- C. Service: Treated water

2.5 BALL VALVES

- A. Ball Valves
 - 1. Schedule 80 PVC, union type end connections and stubs ends for joining by socket welding.
 - 2. Normal impact
 - 3. Teflon seat ring
 - 4. Pressure rating of 150 PSI.

2.6 BRASS AND BRONZE COMPONENTS

- A. Brass and bronze components of valves and appurtenances that have surfaces in contact with the water shall be alloys containing less than 16 percent zinc and 2 percent aluminum.
- B. Approved alloys are ASTM B61, B62, B98 (alloy A, B, or D), B139 (alloy A), B143 (alloy 1-B), B164, B194, B292 (alloy A), and B127.
- C. Stainless steel alloy 18-8 may be substituted for bronze at the option of the manufacturer and with the approval of the Owner

2.7 ELECTROLYSIS CONTROL

- A. Furnish and install magnesium anodes for all buried valves per Contract drawings.
- B. Tracer wires shall not be welded or attached any ferrous metal fittings or appurtenances.
- C. Magnesium anodes shall be manufactured by Calpico Inc. or approved equal.

2.8 MISCELLANEOUS COMPONENTS

- A. Flange Coupling Adapters: Couplings shall be ductile iron or fabricated steel construction fusion bonded epoxy coated. Flanged coupling adapters shall be restrained type Romac Industries or equal.
- B. Sump Pump: Pump shall be submersible and actuated with a vertical float switch integral to the unit, with a non-clogging vortex impeller, able to pass 1/2-inch diameter solids. Rated for 1/2HP, 115V AC, 60 Hz. Body material shall be cast iron. Flow rate shall be 45 gpm at 15' TDH. Check valve on the suction line shall be included. Manufacturer: Zoeller M98 or equal.
- C. Control Switch: Mechanically activated control switch to send an alarm to the PLC for rising water levels in the pressure reducing valve vault. Switch shall not be sensitive to rotation. Switch shall have a high level where the switch turns on

(closes) when the switch tips slightly above horizontal signaling a high level, and turns off (opens) when the switch drops slightly below horizontal. Switch shall have a low level where the switch turns on (closes) when the switch tips slightly below horizontal signaling a low level, and turns off (opens) when the switch tips slightly above horizontal. Manufactured by SJE Rhombus, model Signalmaster Control Switch or equal.

PART 3 - EXECUTION

3.1 INSTALLATION

A. Valves:

1. All valves, operating units, stem extensions, valve boxes, and accessories shall be installed in strict accordance with the manufacturer's printed instructions and as shown and specified. Valves shall be firmly supported to avoid undue stresses on the pipe.
2. Before installation, carefully clean valves of all foreign material, adjust stuffing boxes, and inspect valves in open and closed positions. Unless otherwise indicated, install valves with the stem vertical. Mount horizontal valves in such a manner that adequate clearance is provided for operation. All valves shall be installed to provide easy access for operation, removal, and maintenance and to avoid conflicts between valve operators and structural members, handrails, piping, etc.
3. Prior to installing flanged valves, the flange faces shall be thoroughly cleaned. After cleaning, insert the gasket and tighten the nuts progressively and uniformly. If flanges leak under pressure, loosen the nuts, reseal or replace the gasket, re-tighten the nuts, and retest the joint. Joints must be watertight at test pressures before acceptance.
4. Thoroughly clean threads of screwed joints by wire brushing, swabbing, or other approved method. Apply approved joint compound to threads prior to making joint. Joints shall be watertight at test pressures before acceptance.
5. Orient valve in vault with easy access to operator.
6. Replace valves that drip or do not function properly.
7. Magnesium anode shall be driven completely into native soil at 45 degree.
8. Contractor shall confirm clearance between proposed anode location and other utilities in close proximity prior to driving anode.
9. Buried valves shall be double encased in an 8-mil polyethylene wrap. Polyethylene wrap shall be manufactured and installed in conformance with ANSI A21.5.

3.2 TESTING AND INSPECTION

- A. Test that valves open and close smoothly with operating pressure on one side and atmospheric pressure on the other in both directions for two-way valve and applications.
- B. Hydrostatic Testing: Test valves and related materials in accordance with Section 33 05 15 Piping Systems Testing, at the same time that the adjacent pipeline is tested. Joints shall show no visible leakage under test. Repair joints that show signs of leakage prior to final acceptance. Protect control systems or operators that might be damaged by the pipeline test, repair damage caused by testing.
- C. Anode Testing: After backfilling, but prior to paving, test installation to confirm anodes are properly connected. If test indicates a disconnected anode, correct the installation and retest.

END OF SECTION

40 61 00
INSTRUMENTATION

PART 1 GENERAL

1.1 SECTION INCLUDES

- A. This section includes the general work description and requirements for instrumentation provided by this contract.

1.2 GENERAL REQUIREMENTS

- A. It is a requirement of this specification that all Division 40 specifications be provided by a single supplier. This supplier shall have total responsibility for the entire system performance and compatibility of this section, as well as all other Division 40 specifications.

1.3 RELATED SECTIONS

The specifications sections listed below are an integral part of this equipment specification and the Contractor shall be responsible for providing these sections to the equipment suppliers:

- A. Section 2.15 Shop Drawings, Product Data, Samples and Other Submittals of the Design-Assist Construction Agreement
- B. All Division 40 specifications.

1.4 REFERENCES

- A. NEMA ICS 1 - General Standards for Industrial Control and Systems.
- B. NEMA ICS 3 - Industrial Systems.
- C. NEMA ICS 6 - Enclosures for Industrial Controls and Systems.
- D. NFPA 70 - National Electrical Code (NEC).
- E. NFPA 79 – NEC (Labeling).
- F. ISA - Standards 5.1 and 5.4.
- G. IEC 1131-3 – Programming Standards.

1.5 SHOP DRAWINGS

- A. All Division 40 specifications shall be submitted in one shop drawing. Requirements of individual specification sections shall be contained within a single

section in the shop drawing submittal. Indicate individual specification sections with a protruding tab. Submit material in the format and order as described in paragraph 1.05.B.3.

B. Shop Drawing Submittal Format

1. Shop drawings shall be submitted electronically via PDF.
2. Provide title page in the PDF. Title page shall include job name, GHD job number, Contractor(s) job number(s), date, "Division 40 Shop Drawing", Contractor and supplier(s) names, addresses, contact persons, and contact numbers.
3. Contents shall be organized accordingly.
 - a. Table of Contents – List of each section. Provide protruding tabs labeled with the pertinent heading for each section listed in the Table of Contents.
 - b. For each Division 40 specification section, provide the following within the respective sections:
 - 1) Table of Conformance.
 - 2) Training itinerary.
 - 3) Bill of Materials (BOM) for installed equipment, BOM for spare parts, and BOM for extra materials. Each BOM shall be grouped and identified separately.
 - 4) Equipment information satisfying specifications. Provide protruding tabs for each piece of equipment. Label each tab with the equipment manufacturer.
 - c. AutoCAD Drawings – Include title block, border, page numbers, and supplier job number. USB flash drive containing all Division 40 AutoCAD 2019, or higher, *.dwg files. Sheet/drawing titles shall utilize three lines in the title block and are subject to approval, and instructed change, by the Engineer.
4. AutoCAD drawings shall be 11-inch by 17-inch.
5. Shop drawings not containing the appropriate performance affidavit(s), date dependency affidavit(s), or format will be returned without further review.

C. Shop Drawing Submittal Contents - The following requirements pertain to all of Division 40 specifications. Refer to individual Division 40 specifications for further requirements.

1. Include a complete Table of Conformance to each paragraph, or part, of Part II in the respective specification. Use a Microsoft Word 2019 table format with four columns labeled as "Specification Section", "Equipment Manufacturer", "Equipment Model", "Compliant (Y/N). If No, specify". As a minimum, identify equipment compliance in the "Compliant (Y/N). If No, specify" column for each article (i.e., 2.02), letter heading (i.e., A, B, C), and each number heading (i.e., 1, 2, 3). For exceptions or deviations, include a narrative description as to how the deviation or exception can benefit the system over that which is specified.
2. Training Itinerary – Detailed itinerary for the training to be provided in

Microsoft Word 2019 table format. Itemize the day of training (“Day 1,” “Day 2,” or “Hour 1,” “Hour 2,” etc.) and the lessons to be taught during that period. Further discuss the equipment to be used during training and the proposed location of training for that day. Account for all days of specified training. Provide one training itinerary sheet for each training period. At the top of each sheet provide a header description of the training session and duration of training to be provided.

3. Detailed Bill of Materials in Microsoft Word 2019 table format, or Excel 2019, identifying component name, manufacturer, model number, and quantity supplied. Typical Bills of Materials are not acceptable.
4. Descriptive lists of spare parts and extra materials provided in the same tabular format as the Bill of Materials. Lists shall be exclusive to the spare parts and extra materials requested by the specification section, hence separate from the Bill of Materials for installed equipment. Lists shall be intuitive and specifically created for this project.
5. For individual equipment, submit information satisfying every item discussed in Part II of that specification section. Additionally, submit on all supporting accessories including, but not limited to, terminal blocks, surge and lightning suppression, UPSs, fuses, and cabling.
6. Proposed nameplate wording. Scaled illustrations for each nameplate provided.
7. Manufacturer’s literature and Web site printouts are independent of the above requests for information and, hence do not satisfy the above shop drawing requirements. All catalog cuts, Web site printouts, manufacturer’s specifications, and drawings shall be clearly marked to allow identification of the specific products used. Cross-out all options and functions not supplied with the equipment.
8. Electrical power requirements, connection requirements, interconnecting cabling, and environmental limitations/restrictions.
9. Dimensions and weights of the equipment with the specified options.

1.6 OPERATION AND MAINTENANCE DATA

- A. The following requirements pertain to all of Division 40 specifications and are intended to complement the requirements of Section 33 – Utilities as well as individual Division 40 specifications.
- B. Provide complete sets of hard-covered three-ring bound loose leaf Operation and Maintenance (O&M) Manuals. In addition to “as-built” system drawings, the manuals shall include internal wiring diagrams and operating and maintenance literature for all components provided under Division 40. Binders shall not be larger than 3 inches.
- C. Utilize a Table of Contents listing major headings (blue tabs) and sub-major headings (white tabs). Provide protruding tabs labeled with the pertinent heading for each item listed in the Table of Contents. Tab labels shall be permanently fixed to semi-rigid section dividers. Otherwise, utilize the same format as specified for

shop drawing submittals.

- D. Submitted literature shall be in sufficient detail to facilitate the operation, removal, installation, programming and configuration, adjustment, calibration, testing, and maintenance of each component and/or instrument. Indicate application conditions and limitations of use stipulated by the product testing agency. Include instructions for storage, handling, protection, examination, preparation, installation, and starting of product.
- E. In a separate binder, include the configuration settings for each instrument provided in Division 40. Provide a Table of Contents with protruding tabs for each instrument. Label each protruding tab with the equipment name and equipment designation. Indicate the value of all configuration parameters and setpoints, including those that are not utilized in the equipment's field configuration.
- F. Contractor shall review all submitted literature and cross out all options, functions, warranties, etc. not part of the supplied equipment.
- G. All information contained within the hard copy of the O&M manual shall also be submitted in electronic form on USB flash drive. Including, but not limited to, manufacturer information, drawings, and letters.

1.7 PROJECT RECORD DOCUMENTS

- A. The following requirements pertain to all of Division 40 specifications and are intended to complement the requirements of Section 33 – Utilities, as well as individual Division 40 specifications.
- B. Submit under provisions of Sections 26 05 00 Common Work Results for Electrical.
- C. Record actual locations of controller cabinets and input and output devices connected to system. Include interconnection wiring and cabling information, and terminal block layouts in controller cabinets.

1.8 DELIVERY, STORAGE, AND HANDLING

- A. Deliver, store, protect and handle products to site under provisions per design assist construction agreement; and 26 05 00 Common Work Results for Electrical.
- B. Accept products on site in factory containers unless system is completely integrated into a pre-manufactured panel that has been factory tested. Inspect for damage.
- C. Store products in clean, dry area; maintain temperature to NEMA ICS 1 requirements.

1.9 COORDINATION

- A. Refer to Contract Drawings for designations and verify with Owner.

- B. Coordinate demonstration to Owner with the Engineer and the Owner.

1.10 TRAINING

- A. Contractor shall video-record all training sessions. Provide a video recording of each training session on a single USB flash drive. Provide two duplicate USB flash drives for each training session and distribute one copy to the Owner and one to the Engineer. Provide computer-generated adhesive labels on each USB flash drive. Label each USB flash drive with the training session description, date training occurred, attendees, trainer, contact information, the equipment covered during the training session, and the project title.
- B. Engineer will review their copy for video quality including, but not limited to, picture quality, use of camera angles, and sound recording quality. Video must be clearly audible. If the Engineer deems the video or audio quality as poor, the Contractor shall conduct the training session again (with original attendees present) and re-record the session at no additional cost to the Owner.
- C. Provide a USB flash drive case to hold all training tapes provided for Division 40 specifications.

PART 2 PRODUCTS

2.1 ACCESSORIES

- A. Nameplates
 - 1. Laminated plastic nameplates shall be provided for each instrument in Division 40.
 - 2. Nameplates shall have 5/16-inch high capital, white letters on black background machine engraved. Hang nameplates from process-mounted instruments via metallic chains. Nameplates shall be hung within 12 inches of the equipment.
 - 3. Final wording on nameplate shall be submitted during the shop drawing phase and approved by the Engineer.
 - 4. Nameplates shall be uniformly mounted and of identical form-factor for all equipment that nameplates are provided. Once a nameplate format has been selected, the format shall be utilized for all equipment throughout, thereby excluding providing original equipment manufacturer (OEM) nameplates.
 - 5. Where wire labeling is not conducive to nameplate tagging as specified above, such as in MCC compartments or inside the programmable logic controller (PLC) enclosure, provide wire labeling on computer printed, adhesive tape, and wraparound wiring. Printing that is capable of being rubbed off the wire label is not acceptable.
 - 6. Text on nameplates shall be as follows.
 - a. First Line – Equipment name. Equipment name shall as listed on the Contract Drawings and PLC input/output (I/O) lists.
 - b. Second Line – Equipment designation. Designation shall be in

accordance with ISA Standards 5.1 and 5.4 as listed in the PLC I/O lists and on the Contract Drawings.

- c. Third Line – Wiring destination. Indicate the destination of the wiring (i.e., PLC-1, PLC-2, MCC-PI, etc.).

B. Lightning and Surge Protection (TVSS)

1. Provide lightning and surge protection on the power supply of each instrument provided under Division 40.
2. Provide lightning and surge protection on all analog input and output signal circuits that pass out of doors or are terminated to metallic piping that passes out of doors.
3. TVSS devices mounted on the analog output signal wiring of field-mounted transmitters shall be conduit-mounted utilizing a common chamber, three element, gas tube and clamp incoming transients to a level acceptable to the transmitter it is protecting. Manufacturer shall be Bourns, Model 1669-01, or equal.
4. TVSS devices protecting analog circuits entering the PLC enclosure shall be din-rail mounted with removable terminal blocks on each side of the device with no interruption of the incoming signal by unplugging the TVSS device. Device shall possess the capability of discharging 1000 Amps evaluated on an 8x20-microsecond waveform. Device shall have an LED to indicate the unit is functioning properly. TVSS device shall be manufactured by M-System Co, Model MDP-24-1, or equal.

C. Wiring/Conduit/Mounting

1. The Contractor shall provide all power wiring and conduit to each instrument specified in Division 40.
2. The Contractor shall provide all signal wiring and conduit from the PLC to new and existing equipment as specified in the I/O list of Section 40 60 43, PLC, and the Contract Documents.
3. The Contractor shall provide all other wiring integral to supplied equipment to achieve the specified system performance as discussed individual Division 40 sections.
4. The Contractor shall mount all equipment specified in Division 40 in locations discussed/shown in the Contract Documents.

PART 3 EXECUTION

3.1 EQUIPMENT MOUNTING

- A. All mounted equipment shall have sufficient clearance from other provided or existing obstructions (including walls, pipes, conduit, or other instruments) to facilitate removal, adjustment, inspection, and calibration of the installed device. Any device that is mounted without sufficient clearance to perform these functions with standard, manufacturer recommended tools shall be removed and remounted at no additional cost to the Owner.

- B. Rotate equipment heads as directed by the Engineer in the punch list for final completion.

END OF SECTION

THIS PAGE INTENTIONALLY LEFT BLANK

40 61 21
CONTROL SYSTEMS INTEGRATOR

PART 1 GENERAL

1.1 SUMMARY

- A. This section specifies the requirements of the Control Systems Integrator (CSI). The Contractor is required to subcontract a CSI with qualifications and a scope of work as specified herein.
- B. PCWA will self-perform all Control Systems Integration from PCWA's PLC. This means the control logic and screen development and SCADA implementation will be done by PCWA and will need to be coordinated with the Contractor's CSI and electrician.

1.2 SCOPE OF WORK

- A. The CSI shall provide testing and startup services to assist the Contractor with commissioning of the process control system and related instrumentation.
- B. Termination and labeling of conductors as specified herein
- C. Division 40 - Complete responsibility for the provision of all Division 40 requirements, including equipment and services, as specified in the respective specification.
- D. Modify control panels, termination and marshaling panels, customized instrumentation mounting brackets, outdoor instrumentation housing enclosures.
- E. Existing Conditions - Modify existing control circuits and control panels as required by the Contract Documents.
- F. Supply quantities of CSI field technician personnel as specified herein for the duration necessary for system installation, startup and commissioning of the new systems and upgrades of existing systems.
- G. Provide manufacturer's services for installation, configuration and testing of equipment where specified. Manufacturer's representatives who are not under direct employment of the equipment manufacturer are permitted only where specified in the Contract Documents.
- H. Take ownership of all equipment being furnished through the CSI. Coordinate efforts associated with manufacturer's technicians and representatives for services required during installation, configuration, calibration, startup and troubleshooting of equipment. Coordination shall occur in a timely fashion as to not delay the project schedule.

- I. Fabrication, configuration, testing, startup and implementation of the Process Control System (PCS), control panels, instrumentation and electrical equipment as specified herein and required to construct a highly available, efficient, reliable, and operable system.

Conduct and coordinate CSI coordination meetings and attend progress meetings as specified herein.

1.3 CONTROL SYSTEMS INTEGRATOR QUALIFICATIONS

- A. The CSI shall be regularly engaged in the business of instrumentation and controls and shall be responsible for the supply, coordination, and installation of the equipment as specified herein.
- B. The CSI shall demonstrate the requisite resources of in-house staff, facilities and finances to complete the project in the schedule specified. These resources shall include personnel who are direct payroll employees of the CSI to engineer, design, implement, fabricate, stage, and test the entire integrated hardware and software system at the CSI's facilities. In-house personnel shall include all disciplines associated with system manufacture, fabrication, and integration to include but not be limited to engineering, drafting, analog and digital control systems and wiring design, construction, wiring, labeling, software configuration, test/demonstration programming, project management, quality control, field engineering and training.
- C. The CSI shall assign a specific person to be the CSI Project Manager for this project. The Project Manager shall be a direct employee of the CSI, shall be assigned to this specific project, and shall be skilled and experienced in project management of the type of work described herein. The Project Manager shall be assigned for the period of the Contract. Should it become necessary to replace the CSI project manager, the Contractor shall submit to the Engineer the credentials of the person assigned as a replacement.
- D. The CSI shall maintain a UL 508 listed fabrication shop located at the CSI facility for the assembly of the various control panels, cabinets, consoles, instrument racks, enclosures, and wiring required for this project. This shop shall be available for inspection by the Engineer to observe quality control and workmanship. The CSI facilities shall include hardware and software owned by the CSI for development and support of any system software, testing, and demonstration equipment to be utilized on the project.

1.4 DEFINITIONS

- A. Process Control System (PCS) - Network of one or more PLCs, PLC HMIs, and/or computers. Synonymous with Supervisory Control and Data Acquisition (SCADA) system.
- B. Contract Documents - Comprised of both the Contract Drawings and Contract

Specifications.

- C. Fieldbus Networks - Reference to a family of industrial network protocols. Fieldbus networks may include Foundation Fieldbus, Profibus, Profinet, Ethernet IP, Modbus TCP, Modbus Serial, Modbus 485, DH+, DeviceNet, ControlNet, and others.
- D. Resident Project Representative (RPR) - On-site team that enforces the Contract Documents and witnesses most demonstrations. May, or may not, be the design Engineer.
- E. Contractor - Where used herein, refers to the Prime, or General, Contractor. The contractor to which this CSI is subcontracted.

1.5 CSI COORDINATION AND MEETING REQUIREMENTS

- A. The CSI shall collaborate with the Contractor in scheduling of all work.
- B. Schedule testing and demonstrations in writing with the Engineer and Owner at least two weeks in advance of the proposed date(s).
- C. The CSI shall perform the detailed integration and coordination of the control systems and instrumentation equipment furnished in accordance with this specification. Work shall be performed by the CSI's own staff and related equipment manufacturer's engineers where applicable, including submittal drawings, operations and maintenance manuals, record drawings, equipment testing, operational demonstrations, and other applicable documentation.
- D. Coordination with Process Mechanical Equipment Manufacturers
 - 1. Coordinate with process mechanical equipment manufacturer's in order to obtain control system requirements and special control components. The CSI shall review and coordinate with the equipment manufacturer's submittals.
 - 2. The Engineer and RPR are not required to supply information to the CSI that is available from within this project's contract, including supplier information, when the CSI is capable of obtaining such information directly.
- E. The CSI shall take detailed meeting minutes (i.e., record of meeting discussions) for all meetings attended by the CSI. Meeting minutes shall:
 - 1. Identify all topics of discussion and all pertinent details of each topic.
 - 2. Identify the party that is speaking for each topic and each statement that is recorded.
 - 3. Categorize statements as ideas or agreed-upon actions.
 - 4. Record meeting date(s) and time(s), as well as attendees of the meeting.
- F. Required Meetings
 - 1. Initial Coordination Meeting
 - a. Schedule, coordinate, and host an initial coordination meeting with

the Contractor, Owner, and Engineer to review the scope and schedule of the project. The meeting shall be attended by the CSI Project Manager and all other parties involved in the integration of the control system. CSI shall come equipped with the approved Detailed Work Plan.

2. CSI Progress Meetings
 - a. Schedule, coordinate, and host CSI-specific progress meetings during the course of the project to coordinate integration requirements with the equipment manufacturers and Contractors, and upon key project milestones. The CSI shall hold a minimum of 2 progress meetings at the project site. The progress meetings shall be held at an agreeable time for the Owner, Contractor, and Engineer. Additional meetings shall take place as required to coordinate the work.
 - b. Develop the meeting agenda and distribute to the attendees a minimum of three days prior to the meeting for review. Update agenda with reviewer's comments and come prepared to address attendee's questions. Provide copies of all handouts for all attendees.
 - c. Equipment Modifications Field Meetings - Schedule, coordinate, and host on-site meetings with the Contractor, Owner, and Engineer as required to overview modifications to existing equipment and systems. The meeting shall be attended by the CSI Project Manager and all other parties involved in the integration of the control system.

1.6 QUALITY ASSURANCE

- A. References - Materials and installation shall be in accordance with the latest revisions of the following codes, standards and specifications, except where more stringent requirements have been specified in the Contract Documents:
 1. ANSI - American National Standards Institute
 2. ASME - The American Society of Mechanical Engineers
 3. ASTM - The American Society for Testing Materials
 4. NEMA - National Electric Manufacturers Association
 5. UL - Underwriters Laboratories, Inc.
 6. ISA - Instrument Society of America
 7. IEEE - Institute of Electrical and Electronic Engineers
 8. NEC - National Electrical Code
- B. Quality Control
 1. All components shall be new and of the most current and proven design. All components shall be approved for the intended application and shall be installed and wired in accordance with the manufacturer's requirements.
 2. All new electrical equipment and control panels, and their components and materials shall be UL listed and labeled as a completed assembly.

1.7 SUBMITTALS

- A. Submittals shall be submitted in accordance with the individual Division 40 specification requirements.
- B. Submittals shall include the following:
 - 1. Detailed Work Plan - Submit within 15 days of the Notice to Proceed. Submittals sent to the Engineer from the CSI before the detailed work plan is approved will be returned "Not Reviewed." In scheduling review time for the work plan, allocate time for three resubmittals before approval.
 - 2. Shop Drawings, Operations and Maintenance, and Project Record Documents - In scheduling review time for individual shop drawings, allocate time for a minimum of two resubmittals.
 - 3. Equipment Inventory, Calibration, and Validation Workbook
 - 4. Factory Acceptance Test plan, schedule, and forms.
 - 5. Field Testing, Demonstration, Validation - Shall be approved by the Engineer before any field tests are performed.
 - 6. Training syllabus.

1.8 DETAILED WORK PLAN

- A. Submit an overall work plan that details tasks to be performed on this project in sufficient detail to demonstrate a complete understanding of the CSI's scope of work, interdependency of tasks and milestones, sequence of construction, and realistic duration of tasks.
- B. Contents shall address and include:
 - 1. Schedule - Electronically generated schedule that identifies all tasks required of the CSI, including individual entries for overall project milestones, each shop drawing, submittal dates for each submittal required above, specified meetings, fabrication periods for individual PLCs, testing periods for individual PLCs, programming services for individual PLCs, installation and network testing of networks, modifications to existing components and systems, installation acceptance, final acceptance, and training periods for equipment. Refer to Section 2.16 Tests and Inspections of the Design-Assist Construction Agreement and individual Division 40 sections for required installation acceptance, final acceptance, and training days required.
 - 2. Communications Plan - Provide an organizational chart for the CSI, including email, office phone, office fax, and mobile phone numbers for all project participants. Submit a communications plan that allows communication directly between the Engineer and one contact within the CSI's organization. Include written authorization from the CSI's Prime Contractor that also establishes the terms of Engineer-to-CSI correspondence.
 - 3. Risks - Identify any risks to delivering the scope of work on time and on budget. Identify any long lead time equipment items. Present recommended solutions to mitigate identified risks.
 - 4. Outages - Provide a detailed plan that identifies all outages that will be

required during construction to complete the project. The plan shall identify the following:

- a. Sequence of outages.
 - b. Equipment, PLC, or system that will be affected by each outage.
 - c. Duration of each outage.
 - d. Proposed date(s) for each outage.
 - e. List of specific tasks to be completed during the outage.
 - f. Means by which equipment can be controlled if a PLC is removed.
 - g. If the outage requires a process shutdown.
5. CSI initial coordination meeting agenda.
 6. CSI progress meeting agenda template.

1.9 SHOP DRAWINGS, OPERATIONS AND MAINTENANCE, AND RECORD DOCUMENTS

A. Shop Drawings

1. Equipment shall only be ordered after shop drawings have been reviewed and approved by the Engineer. Equipment procured without Engineer approval may need to be uninstalled, returned, exchanged, and/or replaced at the Contractor's cost. Equipment ordered that does not address all the Engineer's shop drawing comments are subject to complete replacement, rather than refurbishment or modification, if modification of the supplied unit impacts aesthetics, intended functionality, schedule, or cost at the Engineer and Owner's option.
2. If deviations to the Contract Documents are proposed, the CSI shall submit a detailed description and explanation for each proposed deviation to the Contract Documents.

B. Shop drawing, operations and maintenance, and project record document requirements of Section 2.15 Shop Drawings, Product Data, Samples and Other Submittals of the Design-Assist Construction Agreement are intended to complement submittal requirements of individual specification sections.

C. Record Drawings

1. Submit complete and accurate record drawings reflecting all changes and modifications made during installation and testing of the equipment and systems.
2. Record drawings shall be submitted on reproducible full size prints, with the required number of sets of prints. Once the record drawings are reviewed by the Engineer, the CSI shall incorporate the Engineer's comments, submit required number of sets, and shall submit two copies of the electronic files for each record drawing shall be submitted on compact disks. Files shall be formatted in AutoCAD (.dwg) format. A list of drawing files with corresponding drawing titles shall be provided with the disks. Record drawings shall be provided after conditional acceptance of the facility is approved and shall include all field changes and design modifications made during construction.

1.10 EQUIPMENT INVENTORY, CONFIGURATION, AND VALIDATION WORKBOOK GENERAL

- A. CSI shall populate and maintain an Equipment Inventory, Calibration, and Validation Workbook. This is a single workbook with multiple worksheets. An electronic copy of this Microsoft Excel 2019 workbook is available from the Engineer to the successful bidder.
- B. Update the entire workbook biweekly and remit updated copies electronically to the Engineer upon request, which may be as frequent as weekly.
- C. Testing and validation results shall be updated electronically in the field using the CSI's laptop computer.
- D. Entries on the sample sheet are for illustrative purposes only and do not indicate approved configurations or acceptable equipment.
- E. Workbook Contents
 - 1. Instrumentation Calibration Worksheet - Contains calibration and configuration information, including, but not limited to, the equipment designation, equipment description, instrument details, analog output configuration, failsafe configuration, relay output configuration, and technician details. Columns include: Equipment Designation, Equipment Description, Technology, Instrument Details (Manufacturer, Model Line, and Model Number), Analog Output Characteristics, Process Value At Minimum Span, Process Value At Maximum Span, Units Of Measure, Failsafe Mode (Hold Last Good Value, Drive Signal Above 20 mA, Drive Signal Below 4 mA, Failsafe Not Available), Relay Outputs (Purpose and Function), Technician Who Performed Work (Company and Name). The Contractor shall include a five-point calibration check (0, 25, 50, 75, and 100 percent of spanned value). The instrumentation calibration work book shall include all HART parameters (where HART is available for the instrument).
 - 2. Fieldbus Network Configuration Worksheet - Worksheet identifies key configuration information for all networked devices. Columns include: Equipment Designation, Equipment Description, Equipment Type, Instrument Details (Manufacturer, Model Line, and Model Number), Communication (Protocol; Network Address, ID, or Node; Parameters), Failsafe Mode (Hold Last Good Value, Run or Open, Stop or Close, Other), Technician Who Performed Work (Company and Name).
 - 3. Testing & Validation Worksheet - One worksheet per PLC. Utilizes as-bid PLC I/O list in conjunction with additional 40 columns that correlate to the requirements of three phases of I/O testing by the CSI: Factory Acceptance Testing, Intermediate Point-to-Point Testing, and Final Point-to-Point Testing. A testing work sheet shall include:
 - a. Name of the signal to be tested.
 - b. PLC where the signal resides (cabinet, rack, slot and point number).

- c. PLC tag name.
- d. Alarm assertion states (high, high-high low, low-low).
- e. Confirmation of interlock actions associated with each alarm assertion state.
- f. Confirmation of interlock actions associated with loss of communications.
- g. Confirmation of interlock actions associated with loss of PLC processor.
- h. Confirmation of interlock actions associated with loss of field device.
- i. Confirmation of interlock actions associated with loss of PLC I/O card.
- j. Confirmation of interlock actions associated with loss of power (AC or DC).
- k. Confirmation that items are to be visible on HMI and change state.
- l. Confirmation that items are to be visible on trending (where applicable).

1.11 FACTORY ACCEPTANCE TEST (FAT) SCHEDULE, PLANS AND FORMS

- A. The CSI shall obtain electronic copies of the Equipment Inventory, Configuration, and Validation Workbook from the Engineer and modify electronically to customize testing templates for this project.
- B. Submit a testing schedule for Factory Acceptance Tests of panels and associated PLC equipment test programs. The schedule shall list the location of panel fabrication, the location that the test will be conducted at, and the date the test will be conducted. Schedule shall be submitted a minimum of four weeks prior to conducting actual testing. Where revisions to the dates contained in the schedule become necessary, the CSI shall submit revised dates a minimum of seven calendar days prior to conducting actual tests in order to allow the Owner time to plan for witnessing the test. All factory acceptance tests shall be subject to observation by the Owner or designated representative. Shop testing shall be as specified herein.
- C. The CSI shall submit a factory acceptance test plan for each control panel indicating all tests and demonstrations to be performed. Factory acceptance test plans shall include line items for verifying all components and wiring in the control panel are appropriately functional, inclusive of all control, instrumentation, network and power devices, cabling and wiring. Devices requiring interaction with field devices may be marked as "field test" and shall be tested during point-to-point testing witnessed by the Engineer.
- D. A factory acceptance test report shall be submitted for each panel furnished by the CSI. Test report shall include date and time of test, personnel conducting test, personnel witnessing test, name of panel and fabricator, location of test, test equipment utilized, and a detailed description of the actual tests performed. Reports shall include a list of items that failed the testing, what caused the failure and what

remedy is to be done. CSI shall also note any additional conditions of the shop test that may be agreed to prior to or during the shop test of any given control panel.

- E. All shop testing involving networks shall utilize network addresses provided by the Engineer. Network addresses may be supplied by the Engineer two weeks prior to scheduled testing.
- F. The CSI shall develop and provide test programs for the PLC as required to demonstrate functionality of the system hardware components and communications through the system networks. The CSI shall configure, startup, and commission all network managed switches, fiber optic modules, network gateways, and other nodes on the PCS network.
- G. If the functional testing conducted at the factory does not meet the previously agreed-to requirements, the Contractor shall absorb all costs for materials, labor and schedule delays required to conduct a re-test of the components or software.

1.12 FIELD TESTING, DEMONSTRATION, AND VALIDATION

- A. The CSI shall submit a testing and demonstration plan for the equipment and instrumentation that is furnished and/or modified by the CSI. The plan shall consist of two main components: (1) testing; and (2) demonstration. Both testing and demonstration shall include individual field devices, individual pieces of equipment, and systems.
- B. Testing and demonstration of the components, equipment and systems shall include details of staff to be used, testing equipment to be used, listing of equipment and systems to be tested, and a detailed description for testing. Testing shall include final testing of calibrated ranges and actuation settings of instrumentation and field devices, testing of panel mounted controls and control stations, and testing of interlocks, status indication and alarms between panels and systems.
- C. The demonstration plan shall be similar to the testing plan in that the same tests shall be performed by the CSI as were performed during testing, for the purposes of demonstrating the operation of the individual pieces of equipment, instrumentation and systems. It shall also serve the purposes of completing a final checkout of the systems. For the purposes of preparing the plan, the CSI shall assume that a minimum of six persons employed by the Owner will be witnessing the tests. The Contractor shall notify the Owner in writing a minimum of seven calendar days prior to performing demonstration of operation of the equipment and systems.
- D. Requirements for testing and demonstration of operation of equipment described herein shall incorporate the requirements for testing and demonstration as specified in the individual Division 40 specification sections.
- E. Plan shall include CSI's participation in the unit process and plant-wide testing

described in Section 2.16 Tests and Inspections of the Design-Assist Construction Agreement.

1.13 TRAINING SYLLABUS

- A. The CSI shall submit a training syllabus for training the Owner's personnel in the use, function and operation of the panels and control systems. Syllabus shall include equipment to be covered by the training, description of the training to be provided, training aids and materials to be provided, duration of each training evolution, and proposed schedule for training. Training syllabus shall incorporate the training requirements outlined in the individual Division 40 specification sections.

PART 2 PRODUCTS

Not used.

PART 3 EXECUTION

3.1 GENERAL

- A. Furnish equipment, materials and appurtenances in accordance with the requirements of technical specifications listed in Divisions 26 and 40.
- B. Coordinate with equipment manufacturers as required to obtain information, submittals, materials and equipment from manufacturers, and shall provide information, submittals, materials and equipment to equipment manufacturers as required to execute the work in accordance with the Contract Documents.
- C. Source Quality Control
 - 1. The CSI shall conduct shop acceptance tests for control panels and systems prior to shipment. The factory acceptance test shall demonstrate that the equipment performs in accordance with the Contract Documents.
 - 2. Each control panel furnished by the CSI shall be assembled and wired so that it functions as a complete system for the factory acceptance test. Inputs to the control panels from field instruments and devices may be simulated during the test. Control panels shall be fully assembled with all devices functional prior to Engineer arriving for shop testing. The Engineer reserves the right to postpone factory acceptance testing if it is deemed that the control panels are not ready to be tested.
 - 3. The FAT shall demonstrate the proper operation of the configuration and control logic of devices described or indicated on the Contract Drawings and specifications.
- D. Incidental Discovery of Existing Issues
 - 1. Upon incidental discovery of an existing issue, notify the Owner immediately in writing.
 - 2. Existing issues may include, but are not limited to the following:

- a. Code violations.
- b. Defective equipment.
- c. Compromised equipment.
- d. Disabled interlocks.

3.2 FIELD TERMINATIONS AND LABELING

- A. Terminations - CSI shall terminate signal wiring to instrumentation, equipment, and field-side of control panel termination strips.
 - 1. Electrical Contractor shall pull conductors and cables to termination points with sufficient excess cable to enable the CSI to label, organize, and terminate each conductor.
 - 2. Terminations shall be limited to signal wiring, 24 VDC and 120 VAC power and control circuits, such as analog signals, discrete signals, fieldbus networks, and control logic, but shall not include 3 phase power or power higher than 120 VAC. Scope of terminations include all equipment.
- B. Wire Labeling - Provide labeling of individual conductors terminated by the CSI.
 - 1. Labels shall utilize a common format, appearance, and be installed with consistent and repeatable workmanship.
 - 2. Materials - Labels shall be comprised of a machine-printed polyester or polyvinyl film and utilize black text on a white background. Each label shall be a single adhesive film or shrink wrap tube. Combining multiple labels to comprise a single wire label is not acceptable.
 - 3. Method - Label conductors within 1 inch of each termination. Utilize the same, unique wire designation for the entire continuous segment of wire. All wire designations shall be a derivative of the equipment's designation to which it is connected.
 - 4. Timeliness - Wires must be labeled prior to termination and equipment may not be commissioned without permanent wire labels in-place. Wire labeling shall be a prerequisite of equipment startup.
- C. Nameplates - Provide nameplates for all Division 40 and Division 26 equipment in accordance with nameplate requirements in Section 40 70 00, Instrumentation.

3.3 POINT-TO-POINT FIELD TESTING

- A. Definitions
 - 1. Equipment to be Tested - May include a PLC enclosure, control panel, or other device that requires point-to-point testing. It is the assembled panel that requires testing.
 - 2. PLC I/O Lists - Tables located at the end of Section 40 63 43, Programmable Logic Controllers, that identify all the signals communicated to each plant PLC.
 - 3. DMM - Digital Multi Meter. Device cable of sensing current in milliamp with a resolution of at least 0.01 mA; sensing continuity; sensing resistance with a resolution of 1 Ohm; and able to source 4 to 20 mA analog signals at

- a minimum of 0, 25, 50, 75, and 100 percent spans.
4. Signal - Includes a PLC input and output, a hardwired circuit between two field-mounted devices or internal to a control panel, and a network signal like those available over Ethernet and fieldbus protocols.

B. Intermediate Point-To-Point Testing

C. Purpose

1. To identify wires terminated on incorrect terminals, loose wires, wires with insufficient exposed metal or too much exposed metal, improper wiring practices, interference or noise.
2. To prove polarity of analog signals are correct; 4-20 mA circuits are grounded on one end only; circuits are appropriately powered as 24 VDC loop powered, 24 VDC 3-wire, or 120 VAC powered.
3. To resolve all wiring and equipment issues to ensure that final point-to-point testing proceeds quickly and without interruption so as to conserve the time required by the party witnessing final point-to-point testing.
4. To assess percent complete on Contactor payment applications.
5. To assess readiness of the system for commissioning by the programmer.

D. Scope of Testing

1. All signals specified in the I/O lists.
2. All signals added during the shop drawing and/or construction phases.
3. All fieldbus and Ethernet networks.
4. Prerequisites to commencing intermediate point-to-point testing:
 - a. Equipment to be tested shall be installed in its final location.
 - b. Equipment to be tested shall be powered by its permanent and final source of power.
 - c. Field wiring shall be pulled from the field devices to the equipment to be tested and shall be encased in the appropriate conduits.
 - d. Field wiring shall be labeled in the field, as well as inside the equipment to be tested.
 - e. Field devices are installed, commissioned as specified, powered, and all terminations have been completed.
 - f. All pending field orders associated with the equipment and workmanship of the systems to be tested shall be resolved.
 - g. All checklists shall be prepopulated by the CSI and their completed form submitted to the Engineer for review and approval.
5. Testing Documentation
 - a. The CSI shall populate the Testing & Validation worksheet of the EQ Inventory, Configuration, and Validation workbook with all signals to be tested.
 - b. Update the workbook to identify any testing methods that are not pertinent to the signal as N/A (i.e., Not Applicable).
 - c. Complete all testing of each signal and identify the person(s) performing the test.
6. Each signal shall be verified by the CSI to ensure that the interconnecting

wiring is complete and correct, and connected to the proper terminals at the points of termination.

7. Removal of a wire from a termination point within a previously tested circuit nullifies any previous testing of the circuit and necessitates retesting of the circuit following the complete point-to-point testing requirements in its entirety.
8. Method of Testing - In general, each signal shall be tested.
 - a. Discrete Inputs - Manipulate the field element to evoke the signal excitation (change of state) indicative of the wired signal. Signals may jumpered only where it is impossible to evoke signal excitation without damaging or disassembling the field device in a manner not approved by the device manufacturer. For example, equipment shall be started/stopped, floats shall be manipulated, hand switches shall be manipulated, alarm outputs shall be forced at the instrument using self-test features, actuators shall be controlled open and closed using control integral to the actuator, etc. Verify signal excitation in PLC program and on visually PLC discrete input module LEDs.
 - b. Discrete Outputs - Force an output from the PLC program and verify the field device responds as intended. Removal of wires anywhere in the circuit to insert a DMM to verify signal excitation is not an acceptable means of testing for any discrete output. For example, from the PLC program equipment shall be started/stopped, actuators shall be opened/closed, pilot lights shall be illuminated, etc.
 - c. Analog Inputs - For process instrumentation, such as levels, flow meters, pressure, and analytical instrumentation (chlorine residual, pH, etc.), remove one wire of the analog circuit at the field device and use a DMM to source the 0, 25, 50, 75, and 100 percent spans indicative of the connected field device. For valve actuators and VFDs, use controls integral to the field device to evoke the 0, 25, 50, 75, and 100 percent spans for the device. In all cases where the process instrument affords such functionality, use the field device's internal signal simulations to evoke the 0, 25, 50, 75, and 100 percent spans. Verify signal values in the PLC program. Verify signals read positive process values, i.e., verify polarity of signal wires are correct.
 - d. Analog Outputs - Force an analog output from the PLC program and verify the field device responds as intended. VFDs and chemical feed pumps shall run at the commanded speed, valve actuators and positioners shall modulate to the commanded position, etc. Test at 0, 25, 50, 75, and 100 percent spans.
 - e. Fieldbus Network - Configure all node addresses, field device settings, and fieldbus module settings as appropriate to achieve maximum bandwidth without communication errors. Configure the PLC program to communicate to all nodes and demonstrate monitoring and remote-manual control functionality. For process instrumentation and analytical instrumentation, such as gas

detection networks, demonstrate monitoring and control of the signals listed on the I/O lists.

- f. Ethernet Network - Configure all IP addresses and field device settings, including how the device responds to a loss of signal/communications/ network and loss of power. Configure the PLC program to communicate to all Ethernet devices and demonstrate monitoring and remote-manual control functionality.
9. Engineer does not need to witness intermediate point-to-point testing. Upon completion of test, the Contractor shall provide the Engineer with written certification that the test has been completed, and all I/O wiring has been verified as being correct. A copy of the completed checklist shall be submitted to the Engineer for review and approval prior to scheduling final point-to-point testing.
10. Signals that do not function as specified shall be examined and corrected prior to completion of intermediate point-to-point testing.
11. Intermediate point-to-point testing shall not be considered complete until each signal has been successfully tested and items above are satisfied.
12. Schedule - Upon Engineer's acceptance that the intermediate point-to-point testing has been completed as specified, the CSI shall coordinate with the Owner and Engineer to schedule the Final Point-To-Point Testing. Scheduling of the final point-to-point testing will not be approved prior to the Engineer's acceptance that the Intermediate point-to-point testing has been completed as specified. Allocate a minimum of 14 calendar days between Engineer's acceptance of the intermediate point-to-point testing documentation and the proposed start date of the final point-to-point testing period.

E. Final Point-To-Point Testing

1. Purpose
 - a. To verify all signals, instruments, and equipment are functional and completely ready to be commissioned by the programmer.
 - b. It is expected there are no issues during this testing and that the final point-to-point testing proceeds quickly without interruption.
 - c. To assess percent complete on Contactor payment applications.
 - d. To document when the testing was performed and by whom the testing was performed and witnessed.
 - e. Successful demonstration thereof shall be a prerequisite for substantial completion for any single system.

F. Scope of Testing

1. All signals specified in the I/O lists.
2. All signals added during the shop drawing and/or construction phases.
3. All fieldbus and Ethernet networks.
4. All signals tested during intermediate point-to-point testing.
5. Prerequisites to Commencing Final Point-To-Point Testing
 - a. Intermediate point-to-point testing has been successfully complete, documented, and documentation reviewed and approved by the

- Engineer.
- b. All checklists shall be prepopulated by the CSI and their completed form submitted to the Engineer for review and approval.
- c. Testing dates and planned sequence of testing has been submitted to Engineer for review, approval, and scheduling.
- d. Appropriate equipment vendors, CSI staff, and operations staff are advised and properly coordinated to signals to be demonstrated.
- 6. Testing Documentation
 - a. The CSI shall populate the Testing & Validation worksheet of the EQ Inventory, Configuration, and Validation workbook with all signals to be tested.
 - b. Update the workbook to identify any testing methods that are not pertinent to the signal as N/A (i.e., Not Applicable).
 - c. Perform testing of each individual signal in the presence of an Engineer's representative, unless the Engineer has waived all or a portion of this requirement in writing.
 - d. Complete all testing of each signal and identify the person(s) performing the test. Obtain the signature of the Engineer's authorized witness for each signal tested.
- 7. CSI shall expend all necessary labor required to demonstrate all signals.
- 8. Removal of a wire from a termination point within a previously tested circuit nullifies any previous testing of the circuit and necessitates retesting of the circuit following the complete point-to-point testing requirements in its entirety.
- 9. Method of Testing - to be performed as required by the intermediate point-to-point method of testing.
- 10. Final point-to-point testing shall not be considered complete until each signal has been successfully tested and items above are satisfied.

3.4 PCS PLC TEST PROGRAMS

- A. Develop and provide test programs for the PLCs, and network devices internal to the PLC enclosure, as required to demonstrate functionality of the system hardware components and communications through the system networks.
- B. Test programs shall provide for the following tests:
 - 1. Factory Acceptance Testing of PLC Cabinets
 - a. Demonstrate system-wide communications between PLCs, fiber optics, switches, and other network components.
 - b. Validate control panel wiring from each field wiring terminal block through the I/O modules and PLC.
 - 2. Field Testing of PCS
 - a. Demonstrate plant-wide communications between PLCs, fiberoptic network, switches, and other network components extending between each PLC cabinets and component on the PCS network.
 - b. Validate field wiring to the PCS control panel from each field device (source) through the I/O modules, PLC, OIT. This shall be included

for both the intermediate point-to-point wiring verification and final point-to-point wiring and transmission verification testing phases.

FIELD QUALITY CONTROL

C. Installation

1. The CSI shall provide on-site supervision and advice to the installing contractor to ensure the equipment is installed in accordance with the specifications and the manufacturer's requirements.
2. Control Wiring - Contractor shall include time to install/replace/provide additional control and interlock components and wiring for each starter/VFD assembly or control panel as directed by the Engineer in the field. Modifications shall be performed as required to provide electrical interlocks and interface wiring to obtain a complete and operating control system.
3. CSI shall have two field technicians made available during the testing of equipment to assist with performing wiring and control modifications as required to interface with other field mounted equipment and control panels as directed by the Engineer.

D. Inspections and Field Calibrations

1. Any and all testing equipment required for this project shall be owned by the CSI so as to be immediately available for this project.
2. The use of specific equipment manufacturer's startup, calibration, and troubleshooting personnel to assist the CSI shall be provided.
3. Calibrate instrumentation and place each system into operation. The commissioning of each system shall include the overall calibration and tuning of all control loops and sequences to provide stable control of the process. The validity of all process inputs and outputs for each system shall be checked and corrected during the system commissioning. Final adjustment and calibration shall be performed for all equipment prior to initiation of final testing.

E. System Testing

1. Testing of each panel and/or system shall be scheduled, performed in an orderly sequence, and conducted in the presence of, and to the satisfaction of the Engineer. Testing shall be conducted for each component and system in accordance with the CSI's submitted plan that has been reviewed by the Engineer.
2. Testing shall include the operation of all hardware, software, process control logic and custom control features. (Testing of process control logic shall only be required for panels and components which have been configured and programmed by the CSI.)
3. Testing requirements described herein shall be performed as specified in the following sections:
 - a. Section 40 60 00, Instrumentation.
 - b. Section 40 60 43, Programmable Logic Controller.

4. The following field tests and demonstrations shall be performed for each of the panels:
 - a. Intermediate point-to-point wiring verification.
 - b. Final point-to-point wiring and transmission verification.
 - c. Network communications testing and verification.
 - d. Section 2.16 Tests and Inspections of the Design-Assist Construction Agreement

F. Field Testing Requirements

1. Demonstrate the control features of each panel and associated field mounted instrumentation and control equipment, to verify that each panel performs the required control functions and logic as shown on the Contract Drawings or as specified. Control features shall include relay energization, initiation of alarm conditions, resets, interlocks, set point activation, and other functions of the control panels.
2. Equipment shall be field demonstrated to operate satisfactorily in the presence of the Owner, and shall be conducted in accordance with the CSI's testing and demonstration plan that has been reviewed by the Engineer. Field demonstrations shall be performed after successful installation, calibration and testing of each control panel.
3. In addition to demonstrating the operation of standard control features, special control panel functions shall be demonstrated as specified for each panel as specified below.
4. The Contractor shall provide the necessary test equipment, process media, materials, supplies, and qualified test personnel to perform the field demonstrations as specified herein.
5. Field instrumentation control signals that are required to demonstrate the operation of associated control panels may be simulated upon approval of the Engineer.
6. In the event of failure of the field demonstration, the Contractor shall perform the necessary corrections and re-demonstrate, at his own cost and expense, the equipment as directed by the Engineer.
7. Demonstration requirements described herein shall be performed as specified in the following specification sections:
 - a. Section 40 60 00, Instrumentation.
 - b. Section 40 60 43, Programmable Logic Controller.
 - c. Section 2.16 Tests and Inspections of the Design-Assist Construction Agreement
8. Sequence of Testing and Demonstration - The CSI shall perform testing and demonstration in the following sequence:
9. Instrumentation Calibration and Testing - Specified with the respective Division 40 section.
10. Instrumentation Demonstration - Specified with the respective Division 40 section.
11. Wireless I/O testing and verification.
12. Network communications testing and verification.

13. Intermediate Point-to-Point I/O Wiring Verification - Specified in Section 40 94 43, PLC.
 14. Final Point-to-Point I/O Wiring and Transmission Verification - Specified in Section 40 94 43, PLC.
 15. Section 2.16 Tests and Inspections of the Design-Assist Construction Agreement
- G. The CSI shall provide competent personnel to participate in the field testing as scheduled required below.
- H. The CSI shall provide competent personnel to participate in the testing and startup of the facility as scheduled below and as specified in Section 2.16 Tests and Inspections of the Design-Assist Construction Agreement
- I. The CSI shall provide competent personnel to participate in the I/O testing as scheduled below.
- J. The CSI shall provide competent personnel to participate in startup and validation. This effort includes, but is not limited to, addressing how instrumentation was setup, terminations made, and identifying and investigating possible issues with wiring and equipment.
1. The CSI shall respond immediately upon notification of an urgent matter, which may result in destruction or damage of a building, piece of equipment, or property.
 2. The CSI shall respond within 24 hours to all other matters.

Description	Number of CSI Field Technicians Required
Factory Acceptance Testing	1
Equipment Installation	2
Instrumentation Calibration and Testing	1
Instrumentation Demonstration	1
Network Communications Testing and Verification	1

Final Point-to-Point Testing	1
Programming Phase Services	1

END OF SECTION

40 63 43
PROGRAMMABLE LOGIC CONTROLLERS (PLC)

PART 1 GENERAL

1.1 GENERAL

- A. This specification is procuring two different PLCs. In some cases, there are unique requirements for the individual panels. Where not stated, the requirements are common to both panels. The Contractor shall furnish and install the following PLC enclosures, complete with all necessary accessories and PLC programming software, wired to accommodate all inputs and outputs listed in the input/output (I/O) lists, ready to communicate via the specified medium(s), and ready to be programmed under Section 40 61 21, Control Systems Integrator. In short, this section includes:
1. Programmable logic controllers.
 2. PLC power equipment and accessories.
 3. Uninterruptible power supplies (UPS).
 4. Ethernet Switches
 5. CAT6 Cabling
 6. Surge suppression.
 7. DC power supplies.
 8. PLC enclosures.
 9. PLC communication architecture.
 10. PLC I/O lists.

1.2 GENERAL REQUIREMENTS

- A. It is a requirement of this specification that all Division 40 specifications be provided by a single supplier. This supplier shall have total responsibility for the entire system performance and compatibility of this section, as well as all other Division 40 specifications.
- B. For ease of identification, symbols for the various components of the metering system to be furnished and installed are given in Table 40 63 43-1.

TABLE 40 63 43-1

SCHEDULE OF TYPE I PROGRAMMABLE LOGIC CONTROLLERS

PLC Nameplate Designation	Nameplate Designation	Location
City of Roseville PLC	PLCFSV02	Northwest corner of the intersection of Five Star Boulevard and Stanford Ranch Road

TABLE 40 63 43-2

SCHEDULE OF TYPE II PROGRAMMABLE LOGIC CONTROLLERS

PLC Nameplate Designation	Nameplate Designation	Location
Placer County Water Agency PLC	PLCFSV01	Northwest corner of the intersection of Five Star Boulevard and Stanford Ranch Road

1.3 RELATED SECTIONS

The specifications sections listed below are an integral part of this equipment specification and the Contractor shall be responsible for providing these sections to the equipment suppliers:

- A. Design-Assist Construction Agreement – 2.15 Shop Drawings, Product Data, and other Submittals
- B. Design-Assist Construction Agreement – 2.6 Labor and Materials
- C. Section 26 05 00 - Common Work Results for Electrical
- D. Section 26 05 29 - Hangers and Supports for Electrical Systems
- E. All Division 40 specifications.

1.4 REFERENCES

- A. NEMA ICS 1 - General Standards for Industrial Control and Systems.
- B. NEMA ICS 3 - Industrial Systems.
- C. NEMA ICS 6 - Enclosures for Industrial Controls and Systems.
- D. NFPA 70 - National Electrical Code.
- E. NFPA 79 - Labeling.

- F. International Society of Automation (ISA) - Standards 5.1 and 5.4.
- G. Industry Electric Code (IEC) – Article 1131.3, Programming Standards.
- H. [Federal Communication Commission (FCC), Part 15.247.]
- I. Underwriters Laboratories (UL) 508.

1.5 DEFINITIONS

- A. System Supplier – The party responsible for all of Division 40 specifications.
- B. UPS – Uninterruptible power supply.
- C. HMI – Human-Machine Interface. Also referred to as Industrial PC or Man-Machine Interface (MMI), is used to facilitate monitoring and/or control between an operator and the process. It contains a Windows-based operator interface which allows the HMI to run any Windows-based programs (i.e., GE iFIX).
- D. SCADA Node – A computer with an operating system (OS) that facilitates user interaction with supervisory software as well as other software programs that enable the user to manipulate data and generate reports. SCADA nodes are integral to the PLC network.
- E. Client Node – The same as a SCADA node in every way except that client nodes do not have the supervisory software program databases stored on their local hard drives. Client nodes poll SCADA nodes for data and do not function when the SCADA nodes are down.
- F. Operator Interface Terminal (OIT) - Used to facilitate monitoring and/or control between an operator and the process but is only designed to run software of the same manufacture as the OIT. It is not capable of running Windows-based programs or other manufacturer software-based packages because it uses a specific proprietary manufacturer operating system.
- G. I/O Lists – Table 40 63 43 -3, -4

1.6 SUBMITTALS

- A. Shop Drawings – Submit under Design-Assist Construction Agreement – 2.15 Shop Drawings, Product Data, and other Submittals. The following submittal requirements are to complement the requirements and format set forth in Section 40 61 00, Instrumentation. The following submittal material shall be submitted for the Engineer’s review and approval prior to fabrication of any PLC enclosures. PLCs fabricated prior to the approval of these shop drawings are subject to alteration to conform with the approved shop drawings by the supplier at the supplier’s cost.
 - 1. Submit samples for approval by the Engineer. The Engineer will retain

samples. Submit samples as follows:

- a. A 1-foot sample of a single 16-gage wire as used to wire discrete I/O within the PLC panel. Wire shall be labeled with the following text on the label:
 - b. Line 1: "YA-101 to PLCFSV01"
 - c. Line 2: "123456789"
 - d. A 1-foot sample of a single 18-gage T.S.P. as used to wire analog I/O within the PLC panel. Wire shall be labeled with the following text on the label:
 - e. Line 1: "FI-104 to PLCFSV01"
 - f. Line 2: "12345678"
 - g. A 1-foot sample of a single 18-gage T.S.P. as used to wire analog I/O inside the PLC panel. Wire shall utilize the heat shrink sheath proposed at each termination of such cable.
 - h. One terminal block with labeling in-place.
 - i. One machine engraved nameplate used for labeling the PLC enclosure and subpanel devices with text as follows:
 - j. Line 1: "City of Roseville"
 - k. Line 2: "Five Star Intertie"
 - l. Line 3: "PLCFSV02"
 - m. Submit a 1-foot sample of the proposed Category 6 Ethernet cabling as used between patch panels. Sample shall display labeling technique. Only one sample needs to be submitted in the Engineer's copy of the shop drawings, not one for every shop drawing copy. Sample will be retained by the Engineer.
2. Using AutoCAD 2016, or higher, provide these drawings for each PLC in the following order. Label all components with manufacturer and complete model numbers on the drawings. Typical drawings are not acceptable.
 3. Scaled enclosure layout drawings in 11-inch by 17-inch format, detailing locations of all components on the subpanel, door, and all other enclosure faces. Label each view as "Enclosure Door", "Enclosure Subpanel", "Enclosure Side", etc. Drawing shall display layout of completed assemblies, including, but not limited to, PLC backplane, PLC I/O modules, empty slots, radios, UPS, Ethernet switches, auto dialers, terminal blocks, installed spare equipment, power supplies, power line isolators, surge suppression, grounding lugs, wireway, disconnect switches, fuses, control relays, acceptable regions for conduit penetrations of both AC and DC wiring separately, and external power. Illustrate handles, hasps, hinges, and dimensions of exterior-mounted devices. Identify equipment manufacturer and model numbers by placing a number next to the piece of equipment on the drawing and cross-referencing with the Bill of Materials. In addition to the Bill of Materials cross-reference labeling, label PLC I/O modules on the drawing with the manufacturers complete model numbers.
 - a. Elementary diagram drawings in 11-inch by 17-inch format, detailing all enclosure electrical components including, but not limited to, power line isolators, surge suppression, UPS, power

supplies, fuses, duplex receptacles, indicating lights, ethernet switches, and control relays. Diagrams shall include terminal point designations, line reference numbers, and wire numbers. All wires shall maintain the same wire number for the entire contiguous segment of wire. Diagrams shall illustrate all network cabling and DC and AC electrical distribution. Drawing shall illustrate all available instrument terminations, both used and unused, and be labeled with the manufacturer's terminal point label as will be found on the installed instrument. Provide a legend on this sheet for all symbols and general notes used on this sheet and on the PLC I/O module detail drawings.

- b. Scaled PLC I/O module detail drawings, in 11-inch by 17-inch format, for each card installed in the PLC backplane. Detail the wiring of all terminations on the PLC I/O module including, wiring of all I/O points and power. Illustrate all termination points for each signal including termination points for terminal blocks, relays, etc. Identify each wires color and wire number. Utilize NFPA 79 standards to illustrate termination points: to an MCC, to a device terminal, to a control panel terminal, to fused blocks, to surge suppressor blocks, etc. Label each point on PLC I/O modules with the PLCs physical address. Utilize NFPA 79 standards for illustration of wiring: internal to the PLC enclosure, outside the PLC panel, and integral to a device. Progression of I/O modules detail drawings shall be in the order of the orientation of the I/O modules in the PLC backplane (e.g., Slots 1 and 2 on sheet 7, Slots 3 and 4 on sheet 8, etc.). Not more than two card details shall be shown on any one drawing. Each I/O module shall be labeled with the installed rack and slot number. Illustrate installed spare I/O modules, but it is not necessary to detail slot filler cards. Each drawing title shall have the following format:
 - c. Line 1: PLC Name (e.g., "Blower Building, PLC-3")
 - d. Line 2: Module Type (e.g., "Discrete Inputs", "Combo Module: AI, AO, DI, DO", etc.)
 - e. Line 3: Installed Rack and Slot (e.g., "Rack 1, Slots 3 and 4")
 - 1) Label all PLC I/O module termination points and I/O point description as shown on the PLC I/O lists. For I/O list points that lack certain information, create descriptions that are in accordance with ISA Standard 5.1. Each point description shall utilize the following format:
 - f. Line 1: Equipment Description (e.g., "RWP-1", "NaOCl Pump No.1", "Clearwell Level Transmitter", etc.)
 - g. Line 2: Signal Description (e.g., "Run Indication", "Flow Indication", etc.)
 - h. Line 3: Signal Functional Designation (e.g., "YI-XXXX", "FI-XXXX", where "XXXX" is the instrument loop number.)

- i. Include one AutoCAD drawing of the SCADA system network architecture. Detail all Ethernet switches, fiberoptic cabling, Category 6 cabling, SCADA nodes, printers, modems, radios, antennas, PC Ethernet cards, PLC CPUs, and all other details required to illustrate to the Engineer that the Contractor is proposing a communication network that meets the requirements of the completed system as specified in the Division 40 specifications and on the Contract Drawings. Illustrate location of the detailed equipment in the appropriate buildings and rooms. Label all communication cabling and connector types. Illustrate all communication ports of the equipment as they will be found in the field, including spare and unused ports. Illustrate all DIP-switch and jumper settings.
 - j. Provide two copies of all the above specified AutoCAD *.dwg files on CD-ROM. Drawing files must be capable of being used by others and saved to the disk in *.dwg format.
 - 4. Submit manufacturer information on all software.
 - a. Submit calculations to substantiate sizing of each UPS. For each UPS, itemize all equipment drawing from the UPS and compare the respective current and power draws to the manufacturer's rating of current draw for the specified amount of time.
 - b. Unless the manufacturer is specifically named in these specifications, the following must be provided along with the manufacturer information for the proposed "or equals". Provide the following information for a minimum of 20 references for the Engineer to verify 7 of these installations: name and address of the client and location of installation, if different; name of the person in direct responsible charge; consulting design engineer; system programmer; details of the equipment; installation date; startup date; and full performance details. It is the sole responsibility of the Contractor to provide this information. Include all travel costs for Engineer to visit two of the referenced installations.
- B. Operation and Maintenance Manual – Submit under provisions of Design-Assist Construction Agreement – 2.15 Shop Drawings, Product Data, and other Submittals. The following submittal requirements are to complement the requirements and format set forth in Section 40 61 00, Instrumentation.
 - 1. Maintenance, troubleshooting, and replacement of PLC cards, racks, CPU, EEPROM, and all associated equipment.
 - 2. All "as built" AutoCAD *.dwg files on CD ROM and 11-inch by 17-inch printed hardcopies.
 - 3. Warranties – Provide the warranties for the PLC, cards, programming software, operator interface, and all other PLC enclosure equipment in a section entitled "Warranties." Equipment covered, dates of expiration, contacts and procedures to exercise each warranty, and limitations of warranty shall be explicitly noted. All warranty papers shall be completely filled out by the Contractor with all necessary serial and model numbers.

4. One manufacturer-supplied programming manual for the supplied PLC(s).
 5. Include operating instructions for each model Ethernet switch in electronic PDF format on DVD or a USB drive and supply one printed hardcopy. Document shall provide details on how to configure the switch through the web interface, including IP addresses assignment, steps required to assign a ring master, managing passwords, configuring Virtual Local Area Networks (VLANs), and shall also define the Ethernet switch's default configurations, including default username and password to access the web interface.
- C. Project Record Documents – Submit under provisions of Design-Assist Construction Agreement – 2.15 Shop Drawings, Product Data, and other Submittals. The following submittal requirements are to complement the requirements and format set forth in Section 40 61 00, Instrumentation.
1. Revise AutoCAD drawings of individual I/O cards to reflect all scaling. Coordinate with the PLC programmer for each points scaling.
 2. Updated AutoCAD drawings to indicate any changes made during installation or startup of the equipment provided under this section.
 3. Updated Bill of Materials reflecting any changes in manufacturers, models, or quantities.
 4. Updated Bill of Materials for spare parts supplied.
 5. Revise PLC wiring diagrams submitted within the Operation and Maintenance Manual utilizing AutoCAD 201X, or higher, and furnish hard copies within the respective control panels. Provide a USB flash drive to the Owner with approved drawings both in AutoCAD and PDF file formats

1.7 QUALIFICATIONS

- A. PLC Manufacturer - Company specializing in manufacturing the products specified in this section with minimum 10 years' documented experience, and with authorized service facilities within 250 miles of the project site. Field technicians dispatch sites (i.e., home residences, etc.) do not satiate this distance requirement.
- B. System Supplier – Company specializing in the fabrication of control panels incorporating PLCs.
1. System supplier shall have a minimum of five years of experience fabricating industrial and municipal control panels, with a minimum of three projects of equal or greater size as this project.
 2. Submit names and telephone numbers for a minimum of three similarly sized projects. Names and telephone numbers shall be for the project end users and design engineers.
 3. System supplier shall employ in excess of 25 personnel, including no less than 15 technical staff to include engineers, programmers, and field technicians. Engineer may request documentation to substantiate this requirement.
 4. Minimum of one professional engineer in the direct employ of the system supplier.

1.8 DELIVERY, STORAGE, AND HANDLING

- A. Contractor is responsible for all costs associated with shipping.
- B. Contractor is responsible for preparing the assembled PLCs and associated equipment for shipping and shipping them to the project site.
- C. Deliver, store, protect and handle products to site under provisions of Design-Assist Construction Agreement – 2.15 Shop Drawings, Product Data, and other Submittals, Construction Agreement – 2.6 Labor and Materials and Section 26 05 00 - Common Work Results for Electrical
 - 1. Shipping to all locations for all equipment provided under this section shall utilize accelerometer or 3-axis dye packets to indicate whether acceleration or deceleration of three times the force of gravity (3G) has been exceeded. If acceleration/deceleration has been exceeded, Contractor shall pay for disassembly, damage repair, and reassembly of the shipped units. If any damage is apparent from inspection at time of delivery, Contractor is responsible for all costs involved in disassembly, damage repair, reassembly, and additional shipping back to the manufacturer's facility if deemed necessary by Engineer. Accelerometers shall be dye packet devices and shall not be reusable or resettable.
- D. Accept products on site in factory containers unless system is completely integrated into a pre-manufactured panel that has been factory tested. Inspect for damage.
- E. Store products in clean, dry area; maintain temperature to NEMA ICS 1 requirements.
- F. Contractor shall provide risk/hazard insurance for property of Owner/Engineer/Contractor for all equipment provided under this section.
 - 1. Insurance shall be in accordance with Supplementary Conditions, Article 5.
- G. Submit proof of insurance prior to shipping PLCs. Shop Testing - Systems integrator shall perform shop testing of all PLC panels in the system integrator's facility prior to shipment of any PLC panels to the job site. Testing shall include:
 - 1. System integrator shall create and install a basic program in the PLC CPU to monitor the status of all physical PLC I/O.
 - 2. Utilize one copy of the Engineer-approved PLC shop drawing I/O module wiring diagrams as a checklist and simulate I/O states on the field instrument connect side of the PLC enclosure terminal strip. To test discrete points, physically make contact closures for all discrete signals. To test analog inputs, utilize a signal generator to drive a three 4-20 mA input signal, 4mA, 12 mA, and 20 mA. To test analog outputs, write three analog outputs in the basic PLC program and verify the signal using a digital multimeter, using 4 mA, 12 mA, and 20 mA as write values.
 - 3. Document testing by marking up each point on the shop drawing. Supply

the marked-up shop drawing to the Engineer for approval before panel shipment.

1.9 MAINTENANCE SERVICE

- A. Furnish manufacturer's, or designated authorized representative's, service and maintenance for PLCs a minimum of two years from date of Substantial Completion.
- B. Provide Owner with a toll-free phone number for technical information and assistance on the PLC and system programming or reimburse Owner for calls made due to system maintenance, debug, tuning, etc. requirement during the two-year warranty period.
- C. PLC Equipment Replacement During Construction – Contractor shall replace PLC components when directed to do so by the programmer. Contractor shall provide all costs necessary to return components that are suspect of damage to the manufacturer for testing and are responsible for returning repaired modules and reinstalling in place of the temporary replacement module. When available, temporary replacement modules may be taken from uninstalled spare inventory. When the required temporary replacement modules are not available in the uninstalled spare inventory, Contractor shall obtain the necessary temporary replacement module(s) within 48 hours of directive by the programmer.

1.10 COORDINATION

- A. Coordinate the compatibility of the power supplies and PLC cards with the new instrumentation, existing systems, and equipment. Coordination shall include, but not be limited to:
 - 1. Power supplies provide powered equipment with adequate voltage and amperage according to the connecting equipment manufacturer's recommendations.
- B. Refer to Contract Drawings for designations and verify with Owner.
- C. Coordinate PLC panel shop testing demonstration with the Owner and Engineer. Request for demonstration date shall be in writing no less than two weeks in advance of the proposed date.

1.11 EXTRA MATERIALS

- A. One licensed hardcopy of each Windows-based on-line and off-line programming software (development), on DVD, used by the system integrator for programming the PLCs contained within this contract. If an incorrect copy is supplied, the CSI is responsible for providing a complete licensed copy on a single manufacturer-issued DVD. Software downloads are not acceptable. PLC programming software provided to the Owner shall be the latest version at the time of system Substantial Completion. Software shall be IEC 1131-3 compliant and include both ladder

logic and Function Block Diagram editors. One-year technical support contract with the software manufacturer. Software shall be supplied to the Engineer with the first revision of the PLC shop drawings.

- B. Cable, software drivers, network cards, and other devices as required by PLC manufacturer to communicate from the PCI slots of each computer with the communication ports of PLCs provided by the system integrator.
- C. Cable, software drivers, and other devices as required by setpoint station manufacturer to communicate from the serial port of a PC-compatible computer with the programming ports of setpoint stations provided by the system integrator of this project.

1.12 SPARE PARTS

- A. Provide the following uninstalled spare parts that are identical to and interchangeable with the original parts. Spare parts shall be furnished in clearly identified containers, protected in accordance with the manufacturer's requirements.
 - 1. One (1) spare CPU for each CPU type.
 - 2. One (1) spare PLC power supply of each type used.
 - 3. One (1) EEPROM/SD Card with final, debugged program stored on it for each PLC.
 - 4. One (1) of each type of discrete input module.
 - 5. One (1) of each type of discrete output module.
 - 6. One (1) of each type of analog input module.
 - 7. One (1) of each type of analog output module.
 - 8. One (1) spare 24 VDC power supply of each type used.
 - 9. Twenty-Five (25) terminal blocks.
 - 10. One (1) Transient Voltage Surge Suppression (TVSS) device as used to protect the incoming power to the PLC panel.
 - 11. Two (2) of each type of surge suppression device as used to protect incoming analog signals.
 - 12. Two (2) of each type of surge suppression device as used to protect incoming discrete signals.
 - 13. Ten (10) spare fuses of each type used for each control panel. Each control panel shall receive 10 spare fuses for each type used. Provide fuses in labeled containers and mount in each control panel.
 - 14. One (1) spare antenna TVSS.
 - 15. One (1) spare radio for each type provided.
 - 16. One (1) spare DIN-rail mounted Ethernet switch for each model provided.

PART 2 PRODUCTS

2.1 PLC MANUFACTURERS

- A. For PLCs listed in Table 40 63 43-1, provide the following type PLCs:
 - 1. Modicon, Model M340

- B. For PLCs listed in Table 40 63 43-2, provide the following type PLCs:
1. Allen-Bradley, Model: CompactLogix 5069-L306ER with 5069 I/O preferred.

2.2 PROGRAMMABLE LOGIC CONTROLLER (PLC)

- A. General Description
1. Programmable controller manufactured to NEMA ICS 3 with component circuit boards manufactured to NEMA ICS 2.
 2. Rack-mounted design. Modular.
 3. Provide all terminal blocks, wiring arms.
 4. Ability to program through an IBM compatible computer.
 5. Provide all power supplies, cabling, surge protection, input/output (I/O) racks, extensions, and ladder logic program to accommodate required I/O and system control as specified in previous sections.
 6. Programmable with software by the same manufacturer in strict accordance with IEC 1131-3 standards.
- B. Configuration
1. Processor Unit - Include processor, power supply, EEPROM memory, input/output modules, and special modules required to communicate with other PLCs and other equipment designated to communicate digitally with the PLCs.
 2. PLC Module Capacity (for PLCs listed in Table 17100-1)
 - a. Backplanes or I/O racks shall have a minimum of 10 slots and the capability to support any I/O configuration utilizing all slots.
 - b. Provide a minimum of two spare slots.
 - c. Provide covers for empty slots.
- C. Table 40 63 43-1 PLC CPUs
1. Memory Size - Minimum 16K of logic memory.
 2. Processing Speed – Final program scan time shall not exceed 5 milliseconds in any one PLC. In PLCs where the scan time exceeds this requirement, the CPU shall be replaced with a larger CPU at no additional cost to the Owner.
 3. Reserve Memory – Final program shall not exceed 65 percent of the available CPU program capacity. In PLCs where the program occupies more than this amount, the CPU shall be replaced with a larger CPU at no additional cost to the Owner.
 4. CPU microprocessor shall be by Intel, AMD, or Motorola.
 5. Each CPU shall be able to address a minimum of 2,048 I/O points. Provide quantities of CPUs as recommended by the manufacturer for the quantities of I/O points for each PLC provided.
 6. CPU shall have a minimum of one communication port for 10Base T Ethernet and one serial communication ports for programming and interface with setpoint stations. Minimum speed of the serial communication ports shall be 19,200 BPS. Ethernet port shall provide 10 MBS data transfer to the network, hence intermediary communication adapters that reduce this

data transfer rate are not acceptable.

D. Table 40 63 43-2 PLC CPUs

1. Memory Size - Minimum 8K of logic memory, 512K RAM, minimum.
2. Processing Speed – Final program scan time shall not exceed 5 milliseconds in any one PLC. In PLCs where the scan time exceeds this requirement, the CPU shall be replaced with a larger CPU at no additional cost to the Owner.
3. Reserve Memory – Final program shall not exceed 65 percent of the available CPU program capacity. In PLCs where the program occupies more than this amount, the CPU shall be replaced with a larger CPU at no additional cost to the Owner.
4. CPU microprocessor shall be by Intel, AMD, or Motorola.
5. Each CPU shall be able to address a minimum of 2048 I/O points. Provide quantities of CPUs as recommended by the manufacturer for the quantities of I/O points for each PLC provided.
6. CPU shall have a minimum of one communication port for EthernetIP and one serial communication ports for programming and interface with setpoint stations. Minimum speed of the serial communication ports shall be 19,200 BPS.
7. Provide communication adapter modules as necessary to communicate with cellular modems, HMIs, and other equipment as necessary to achieve specified system architecture.
8. Provide Time of Day (TOD) clock option adapters.

E. Input/Output Units

1. PLC
 - a. All I/O modules for PLCs shall be of the same form-factor as the PLC CPU and shall plug into the PLC backplane (rack).
 - b. Use discrete I/O modules with a minimum of 8 and a maximum of 16 points each, 24VDC or 120VAC as required by I/O lists. Discrete outputs shall be isolated. All discrete input modules shall have the same number of points. All discrete output modules shall have the same number of points.
 - c. Use analog I/O cards with a maximum of 8 channels per card. Use voltage, current, or other analog arrangements as required by I/O lists. Analog I/O shall have minimum 12-bit resolution. All analog inputs and outputs shall be isolated. All analog modules shall have the same number of points.
 - d. Combination I/O modules are not acceptable.
2. Installed Spare I/O - Provide the following installed spare I/O above the quantities listed in the I/O list:
 - a. Provide a minimum of four discrete inputs at each PLC.
 - b. Provide a minimum of four discrete outputs at each PLC.
 - c. Provide a minimum of two analog inputs at each PLC.
 - d. Provide a minimum of two analog outputs at each PLC.
 - e. Wire all installed spare points to terminal strips. These terminal blocks do not count toward installed spare terminal blocks.

- f. Discrete outputs shall be isolated using an interposing relay. Provide relays for used and installed spare discrete outputs.
 - g. In PLC enclosures where signal isolators are used to isolate analog inputs or analog outputs, provide signal isolators for each installed spare analog I/O point.
 - 3. Refer to I/O list for I/O points for each PLC enclosure.
 - a. All I/O shall be wired to terminal strips. Where relays, intrinsically safe barriers and/or surge protection for I/O are required, wiring shall be from the I/O module to the relay, barrier, or surge protector to the terminal strip.
 - b. Provide intrinsically safe barriers for I/O originating in hazardous areas as indicated on the Contract Drawings. Installation and separation of wiring shall be in full accordance with the latest revision of the National Electrical Code (NEC).
 - c. Provide surge protection in accordance with Section 40 61 00, Instrumentation. Surge protection shall be located on a separate DIN-rail from the terminal strips.
 - d. Provide loop and external power supplies for all field devices that require such power.
 - e. Provide 120 VAC power for all 120 VAC discrete outputs.
 - f. Provide 24 VDC power for all discrete inputs.

2.3 FIREWALL/ETHERNET SWITCHES (DIN-RAIL MOUNTED)

- A. PLC's found in Table 40 63 43-1 shall utilize the following Ethernet Switches:
 - 1. General
 - a. Provide DIN-rail mounted Fast Firewall/Ethernet switches for mounting in PLC enclosures as identified on the SCADA Architecture diagram.
 - b. Provide quantities of switches in each location shown in the SCADA Architecture diagram as necessary to achieve the total quantity of fiber and copper Ethernet ports required. Provide the quantities of fiber and copper ports illustrated on the SCADA Architecture Diagram, with the following minimum: maintain 100-percent spare ports in each enclosure with a minimum of two (2) unused ports in each Ethernet switch and/or expansion module.
 - c. For compatibility with existing Fiber network, no or equals will be accepted. For PLCs listed in Table 17100-1, provide the following type Firewall/Ethernet Switch:
 - 1) Manufacturers shall be:
 - a) Palo Alto, PA-220r
 - d. Specifications
 - 1) Software Layer 3 Enhanced with Internet Group Multicast Protocol (IGMP) snooping enabled.
 - 2) Light source optimized to function with 50 micron/125 micron (core/cladding diameter) fiber optic cabling with duplex SC connectors.

- e. Fiber optic link budget (loss) no greater than 8.0 dB at 1300-nanometers over 0 to 5,000 meters.
 - 1) DIN-rail mounted, fanless design.
 - 2) Manufacturer-rated for industrial use, including temperatures of 0 to 60 degrees C, humidity 10 to 95 percent non-condensing, and an Mean Time Between Failures (MTBE) manufacturer rating greater than 40 years.
 - 3) IEC 60068-2-27 conformity for shock. Capable of withstanding 18 shocks at 15 g of 11 ms in duration.
 - 4) IEC 60068-2-6 conformity for vibration.
 - 5) EN 61000-4 conformity for immunity to electro-magnetic interference (EMI).
 - 6) Support 256 virtual Local Area Networks (VLANs).
 - 7) Device throughput shall be 10/100/1000 GB.
 - 8) Removable terminal blocks with screw compression.
 - 9) Capable of being powered from redundant/dual DC power supply sources.
 - 10) LEDs for Link and Activity per port. Failure LED for switch.
 - 11) Capable of supporting a self-healing, fiber optic ring structure with a reconfiguration time less than 0.3 seconds.
 - 12) Device configuration and monitoring shall be achieved through a web-browser interface via the Ethernet TCP/IP protocol. The device shall include an embedded web server to access configuration and status pages. Ethernet switches that utilize separate configuration software packages are not acceptable.
 - 13) One Form C relay output contact, user-configurable to indicate start-up failure, a broken ring segment, or other warning events.

B. PLC's found in Table 40 63 43-2 shall utilize the following Ethernet Switches:

1. General

- a. Provide DIN-rail mounted Fast Ethernet switches for mounting in PLC enclosures as identified on the SCADA Architecture diagram.
- b. Provide quantities of switches in each location shown in the SCADA Architecture diagram as necessary to achieve the total quantity of fiber and copper Ethernet ports required. Provide the quantities of fiber and copper ports illustrated on the SCADA Architecture Diagram, with the following minimum: maintain 100-percent spare ports in each enclosure with a minimum of two (2) unused ports in each Ethernet switch and/or expansion module.
- c. Specifications
 - 1) Software Layer 2 Enhanced with Internet Group Multicast Protocol (IGMP) snooping enabled.
 - 2) Light source optimized to function with 50 micron/125 micron (core/cladding diameter) fiber optic cabling with duplex SC connectors.

- 3) Fiber optic link budget (loss) no greater than 8.0 dB at 1300-nanometers over 0 to 5,000 meters.
 - 4) DIN-rail mounted, fanless design.
 - 5) Manufacturer-rated for industrial use, including temperatures of 0 to 60 degrees C, humidity 10 to 95 percent non-condensing, and a Mean Time Between Failures (MTBE) manufacturer rating greater than 40 years.
 - 6) IEC 60068-2-27 conformity for shock. Capable of withstanding 18 shocks at 15 g of 11 ms in duration.
 - 7) IEC 60068-2-6 conformity for vibration.
 - 8) EN 61000-4 conformity for immunity to electro-magnetic interference (EMI).
 - 9) Support 256 virtual Local Area Networks (VLANs).
 - 10) Device throughput shall be 10/100/1000 GB.
 - 11) Removable terminal blocks with screw compression.
 - 12) Capable of being powered from redundant/dual DC power supply sources.
 - 13) LEDs for Link and Activity per port. Failure LED for switch.
 - 14) Capable of supporting a self-healing, fiber optic ring structure with a reconfiguration time less than 0.3 seconds.
 - 15) Device configuration and monitoring shall be achieved through a web-browser interface via the Ethernet TCP/IP protocol. The device shall include an embedded web server to access configuration and status pages. Ethernet switches that utilize separate configuration software packages are not acceptable.
 - 16) One Form C relay output contact, user-configurable to indicate start-up failure, a broken ring segment, or other warning events.
- d. Manufacturers shall be:
 - 1) Allen-Bradley, Stratix 8000 Series.
 - 2) Cisco, IE-4000 Series.
 - 3) N-Tron equipment is not acceptable.
 - e. PCWA requires Stratix only.
 - f. Completely compatible and optimized by the CSI for use with the supplied PLC CPU's and other networked equipment.

C. Warranties – Lifetime limited warranty on all Firewall/Ethernet switches

2.4 RADIO EQUIPMENT

- A. Provide DIN-rail mounted cellular radios for mounting in PLC enclosures as identified on the SCADA Architecture diagram.
- B. Provide quantities of cellular radios in each location shown in the SCADA Architecture diagram.

- C. Manufacturer – GE MDS Orbit ECR Cellular Modem
- D. Cellular radio shall be installed and configured by the contractor. After the procurement of the cellular radio, contractor shall program the radio's configuration for a 4G cellular network and inclusion of the PCWA existing cellular network. Coordinate IP addressing and network information with Owner/Engineer. If the system provided is to be used for spread spectrum radio. Incorporate the following wording.

2.5 ANTENNAS

- A. General Description – Provide antennas, and associated appurtenances, at each location as shown on the Contract Drawings. The PCWA PLC shall communicate via a cellular radio sending and receiving signals with the assistance of an antenna.
- B. System supplier shall provide an antenna for each PLC as required to achieve the overall communications requirements of the system (refer to PLC communication system quality requirements). Antennas shall be puck style antenna and mounted such that a strong signal strength is achieved. Mounted antennas shall be of all aluminum construction and rated to withstand at least 100 MPH winds with 0.5-inch radial ice.
- C. Antennas shall be attached to existing structures, such as control panels, buildings, and client owned poles unless existing structures or poles are not available, in which case the Contractor shall provide poles to mount antennas. Particular attention shall be given to the correct installation of the antennas to give adequate protection from nearby lightning strikes.
- D. System supplier shall provide all mounting masts, or poles, as required to support the antennas at the elevations (not to exceed 20 feet from the top of structure unless justified to the Engineer) and orientations required. Masts and poles shall be suitable for outdoor environmental conditions, provide adequate support and protection for transmission lines and be provided complete with all necessary mounting accessories.
- E. Provide TVSS at the input of the antenna cabling to the PLC.

2.6 CATEGORY 6 ETHERNET CABLING

- A. Furnish and install Ethernet cabling in conduit to connect networked PLCs, computers, industrial workstations, and wall-mounted Ethernet jacks to the networked Ethernet switches as shown in the Contract Drawings and in accordance with the project documents.
- B. Specifications
 - 1. Four-pair, 24 AWG cable. 100 percent overall foil shield bonded to jacket inner wall. Braided drain wire.

2. PVC jacket sequentially marked at 2-foot intervals.
3. Bonded pairs.
4. Color coded as follows: White with blue stripe, blue, white with orange stripe, orange, white with green stripe, green, white with brown strip, brown. White conductors must be striped.
5. Allowable pulling tension of 45 lbs.
6. Broadcasting quality of 270 Mbps, minimum.
7. In accordance with the TIA/EIA 568-B.2 Category 6 standard.
8. RJ-45 compatible.
9. Input impedance of 100 +15 ohms up to 100 MHz.
10. Documented and certified performance up to 300 MHz.
11. Sunlight and oil-resistant PVC jacket. Color Blue.
12. Manufactured by Belden, DataTuff, or equal.

2.7 ETHERNET ACCESSORIES

- A. Provide all necessary cabling including, but not limited to, switch uplink cabling, patch cords, network modem Category 6 Ethernet cabling, and power cords in lengths as necessary to locate equipment as specified and directed by the Engineer.

2.8 STRATEGIC WIRING OF I/O

- A. Wiring of I/O shall be planned such that the failure of any single PLC I/O module minimally affects an overall process. The following guidelines shall be adhered to:
 1. Control outputs for multiple pumps of similar purpose shall be distributed across separate PLC output modules.
 2. Where redundant monitoring is designed, such as redundant level transmitters, the signals shall be located on separate I/O modules.
 3. For system components that are distributed across multiple modules, the wiring location on the PLC I/O module shall be consistent for that signal across each of the I/O modules over which similar equipment is distributed. To illustrate, if Pump 1's run indication is wired to Input 1 on module 5, then Pump 2 and Pump 3's run indication shall also be wired to Input 1 on their respective input modules.
 4. It is understood that the above strategic I/O wiring requirements will result in the use of additional modules with installed spares that are not necessarily in contiguous ranges.
 5. Relocate I/O points as directed by the Engineer through the shop drawing reviews.

2.9 ENCLOSURE

- A. All PLC enclosures shall be appropriately sized to accommodate all I/O modules, power supplies, communication equipment, etc. as specified within this section and as necessary to perform the required functions.

- B. Free-standing, NEMA 4X enclosures.
- C. Reserve space within the enclosure for the future provision of two, 10-slot racks.
- D. Control Panel Shelf: PLC cabinet enclosures shall be provided with retractable shelf for temporary use of laptop programming terminals on the inside of the panel door.
- E. A large print pocket shall be provided on interior face of the enclosure door(s). Where this cannot be accommodated due to windows and other control devices mounted on the door, the print pockets shall be mounted on the interior side of the control panels.
- F. Enclosure doors shall be equipped with intrusion switches and 2-hour intrusion bypass spring timers. Intrusion switches shall be wired to discrete inputs at the respective PLC for intrusion monitoring.
- G. PLC enclosures shall not utilize auto-locking doors.
- H. PLC enclosures and associated components shall be in full accordance with Section 40 96 20 - Control Panels.
- I. Maximum footprint for PLC enclosures shall be 36 inches wide by 60 inches tall by 16 inches deep or as otherwise shown on the Contract Drawings.
- J. PLCs shall be mounted 42 inches to 60 inches above finished floor within the enclosure.
- K. Refer to Electrical Contract Drawings for locations and space available for PLCs.
- L. Each enclosure shall have two ground busses, one for instrumentation cable shields and enclosure grounding and one for signal grounding.
- M. Provide grounding lugs for connection to the external grounding system.
- N. Provide a Ground Fault Circuit Interruptor (GFCI), 15-amp duplex receptacle in each PLC enclosure. To be used as a service outlet with both outlets available.
- O. Provide pad-lockable three-point latching, gasketed, keyed locking handles. All PLC enclosures shall utilize the same cylinder lock and keys. Provide two keys per enclosure.
- P. Provide an LED light package in each enclosure. LED light shall utilize a manual light switch and terminal block. Light shall not energize automatically when door is opened. Light shall be Hoffman, Model LEDA1S35, or equal. Provide one centered light within each door opening, i.e., one door requires one light, two doors require two lights, etc.
- Q. Provide DIN-rail mounted utility boxes in each enclosure to store all supplied uninstalled spare fuses and LEDs. Box shall be ITC/bordcase Model 799-103,

Weidmuller Model 7914760001, or equal.

- R. Provide breather and drain vents located and mounted within each enclosure in accordance with manufacturer's recommendations. Utilize Stahlin Model BV4XKIT breather vent and model DV4XKIT drain vent.
- S. Terminal Blocks
 - 1. Terminal blocks shall be DIN-rail mounted compression-screw type.
 - 2. Label via machine printed zack strips as supplied by the terminal block manufacturer. Zack strips shall be plastic labels specifically designed for the supplied terminal block. Zack strips shall be capable of being separated to label stand-alone terminal block, if necessary.
 - 3. Screwless terminal blocks are not acceptable.
 - 4. Provide installed spare terminal blocks to accommodate wiring of PLC I/O modules provided in empty slots. Of the remaining empty slots, estimate half will be 8-point analog cards and half will be 16-point discrete cards. Mount installed spare terminal blocks in a contiguous strip next to the utilized discrete input, output, analog input, or output strips.
 - 5. For discrete I/O, utilize single tier terminal blocks (Phoenix Contact, Model UK 5N, or equal). For analog I/O, utilize double tier terminal blocks with grounding foot (Phoenix Contact, Model SLKK 5, or equal).
- T. Fuse Blocks
 - 1. Provide individual fuses for each PLC module.
 - 2. Fuse blocks shall utilize slow or fast blow glass fuses as appropriate for the protected device.
 - 3. Fuse block shall have an LED that illuminates when the fuse has blown.
 - 4. Label via machine printed zack strips as supplied by the fuse block manufacturer. Zack strips shall be plastic labels specifically designed for the supplied fuse block. Zack strips shall be capable of being separated to label stand-alone fuse block, if necessary.
 - 5. Provide installed spare fuse blocks to accommodate wiring of additional PLC I/O modules. Estimate as is done for terminal blocks.
 - 6. Fuse block manufacturer shall be Phoenix Contact, model UK5-HESI, or equal.
- U. Relays
 - 1. Provide relays for all discrete outputs.
 - 2. Characteristics - Plug-in, spade terminal style with pilot light and retainer clip. All relays shall be DPDT rated 10A, minimum. DIN-rail mount relays.
 - 3. Manufacturer shall be Square D, Type KU, or equal.
- V. Wireway
 - 1. Provide covers for all wireway.
 - 2. For all stand-alone enclosures, provide 3-inch width wireway, minimum.
 - 3. Size width and depth based on 50 percent of area fill. Check the applicable codes to verify fill.

- W. Enclosure Nameplates – Provide the following machine engraved nameplates permanently affixed to the front door of each PLC enclosure:
1. Short Circuit Current Rating (SCCR) – Calculate and display SCCR per UL508A Supplement SB. Contractor shall establish the SCCR of individual, relevant power circuit components; apply current limiting components to modify the SCCR in a portion of a circuit in the panel; and determine the overall SCCR of the panel. Submit itemized SCCR calculations with PLC shop drawings. On the nameplate, identify:
 - a. The panel builder company name and address.
 - b. Main supply voltage, phase, and frequency.
 - c. Electrical power full load current, largest motor FLA, and SCCR.
 - d. Enclosure type rating.
 - e. The lighting panel name (i.e., LP-1) and circuit breaker position (i.e., CB-15).
 2. Enclosure Nameplate – Nameplate as required by Table 40 63 43-1.
- X. Install pertinent final I/O lists, elementary diagrams, and PLC card wiring diagrams in the enclosure of each PLC provided under this Contract. Drawings shall be laminated and bound via a plastic zip strip through a metallic grommet in the upper left-hand corner of each drawing.

2.10 PLC HIGH-SPEED PEER-TO-PEER COMMUNICATION SYSTEMS (PLC NETWORK)

- A. General
1. Communication shall be through TCP/IP and Ethernet.
 2. Minimum data communication speed shall be 10 Megabits per second (mbps).
 3. PLC network topology shall be as shown on the Contract Drawings.
- B. Fiberoptic PLC Network
1. PLC network shall consist of, but not be limited to, the following materials and equipment, which shall be compatible with the PLCs provided by the SCADA system supplier:
 - a. Ethernet switches.
 - b. Fiberoptic cabling.
 - c. Fiberoptic cable connectors.
 - d. Category 6 cable and associated appurtenances.
 2. Fiberoptic Cable – Refer to Section 40 66 33, Fiber Optic Communication Systems.

2.11 PLC ACCESSORIES

- A. 24 VDC Power Supply
1. Provide a sufficient quantity of 24 VDC power supplies as necessary to power PLC equipment and instrumentation connected to the PLC.
 2. Power supplies shall be manufactured by PULS, Phoenix Contact, Allen-

Bradley, or equal. Power supplies shall meet, or exceed, the following requirements.

- a. UL 508 listed, CE approved.
 - b. DIN-rail mounted.
 - c. Removable, pluggable connections for input and output power.
 - d. Local output status indication light.
 - e. Overload Protection - Current limited to a preset value.
 - f. 89 percent efficient.
 - g. Output Voltage - 24 VDC +5 percent adjustable.
 - h. Temperature Range - -20 to 50 degrees C.
 - i. Mean lifetime of 500,000 hours.
 - j. Two-year warranty.
 - k. Ripple and Noise - 24 mV RMS, 200-mV peak to peak.
 - l. Accept input voltages of both 120 VAC and 240 VAC.
 - m. Fully enclosed, touch-safe.
 - n. Integral LEDs indicating DC Power ON.
3. Power supplies shall be supplied in redundant pairs, with each pair provided with a redundancy module of the same manufacturer as the power supplies and specifically designed for use as a redundancy module for the furnished power supplies. Redundancy module shall accept two independent inputs and provide one power source output. Redundancy module shall automatically decouple the standby power supply to remove the load from the standby power supply when the primary power supply is operational and functioning properly. Redundancy module shall provide dry contact outputs indicating the health of each power supply. The redundancy module shall have integral LEDs indicating the status of each power supply. Transition of power between the primary and standby power supply shall not affect continuity of power to any of the supplied loads.

B. I/O Signal Surge Suppressors

1. Provide I/O surge suppression for all discrete and analog signals terminating or originating out of doors or in other buildings and as specified in Section 40 61 00, Instrumentation.
2. PLC TVSS – Metal Oxide Varistor (MOV)- based surge suppression with an active tracking filter.
 - a. Provide one power protection device for each PLC enclosure.
 - b. Manufacturer – Emerson Network Power, Model Islatrol IE; or equal.
 - c. Minimum of 160 Joules protection between line-neutral, line-ground, and neutral-ground for a total of 480 Joules protection.
 - d. Response Time – Less than 1 nanosecond (in Normal mode).
 - e. 40kOhm surge capability on a 8x20 microsecond waveform.
 - f. UL1449 listed for safety and performance.
 - g. Manufactured by an ISO 9001 company.
 - h. Load side sine wave tracking circuitry.
 - i. Arrays of MOVs shall be located directly on the load side terminals and line side terminals to minimize response time.

- j. Enclosure – Sand packed or epoxy filled.

2.12 UNINTERRUPTIBLE POWER SUPPLY (UPS)

A. Characteristics

1. Provide one Online Double Conversion UPS for each PLC. Line Interactive, Offline-Standby, Double Conversion On Demand, and Ferro-resonant technologies are not acceptable.
2. Minimum Watt Capacity - See paragraph 2.11.C below.
3. Minimum Volt-ampere Capacity - See paragraph 2.11.C below.
4. Four 120 volt, 5-15R, output receptacles, minimum.
5. Alarms - Battery backup operation, low run time remaining, and overload.
6. Automatic current and over-voltage output protection.
7. Operating Input Voltage - 99 VAC - 138 VAC.
8. No interruption (no transfer time for normal power to battery backup) of power to the PLC system.
9. Efficiency - 95 percent.
10. Brownout protection for input voltages of 88 VAC without the use of the batteries.
11. Lightning and Surge Protection - ANSI/IEEE C62.41 Categories A and B with 0.3 to 0.7 percent.
12. Radio Frequency Noise Isolation - 38 dB common mode, 47 dB normal mode.
13. Power Reserve Time at Full Power Draw - One hour, minimum. See paragraph 2.11.C below for power draw requirements. SCADA system supplier shall submit calculations to substantiate sizing.
14. Manufacturer – APC Smart-UPS Online SKU-SMT1500C

- B. PLC power supply shall be backed up by the UPS. The required capacity of the UPS shall be determined by the load requirements of the PLC and its peripherals. As a minimum, the UPS shall maintain power to the entire panel, all communication devices and modules, all relays, all loop power supplies, all indicators, the PLC, and all PLC I/O that is powered from the panel, setpoint station, but not the heating/cooling system for the panel.

- C. It is preferred that the UPS be located in the same enclosure as the PLC, unless panel size or cooling requirements make it impractical. In that case, it shall be located on a wall shelf located above the PLC enclosure. Shelf shall be provided by the Contractor.

2.13 ENCLOSURE SUN SHIELDS

- A. General – Enclosure sun shield plates shall be fabricated by the contractor using 316 SS and installed on standoffs on the top, south side, and west side of each PLC enclosure. Fabricated plate width and height shall span the entire length of the top and/or side of the enclosure to fully protect the enclosure.

- B. Sun shield color shall be coordinated with and approved by the owner. Submit the color to be used as part of the shop drawing submittal.

2.14 INTERNAL TEMPERATURE SENSOR

- A. Characteristics
 - 1. Provide one wall mount temperature sensor for each PLC enclosure. Provide all mounting, power supplies and cable needed to connect the sensor to an analog input card on the PLC.
 - 2. The temperature range shall be 0 to 135 degrees F.
 - 3. The output shall be 4-20 mA.
 - 4. The input power shall be 24 Vdc.
- B. Manufacturer – OMEGA EWS-TX or equal.

PART 3 EXECUTION

3.1 EXAMINATION

- A. Verify that surfaces are ready to receive work.
- B. Verify field measurements are as shown on Drawings.
- C. Verify that required utilities are available, in proper location, and ready for use.
- D. Beginning of installation means installer accepts conditions.
- E. Verify grounding of system.

3.2 PANEL FABRICATION

- A. Install in accordance with manufacturer's instructions.
- B. Wire Labeling
 - 1. All wiring shall be labeled within 1.0-inch of stripped sheathing.
 - 2. Wire label text shall be visible in its installed location without manual manipulation.
 - 3. Wire shall carry the same wire number for an entire contiguous segment.
 - 4. Wires shall be labeled via machine-generated print on polyester or polyvinyl film.
 - 5. In the event that labels begin to fall off or text begins to smudge, or otherwise begin to become illegible, within one year of panel delivery to the site, the Contractor shall remove all labels within the panel with new labels at the Contractor's own expense. In this case, the Engineer must approve replacement labels.
- C. Device Labeling - All subpanel-mounted devices shall be labeled.
 - 1. Devices that do not require external power (24 VDC or 120 VAC) shall be

labeled via machine-generated print on polyester or polyvinyl film. Print shall not be capable of being washed off, smudged, or erased. Labeled components include, but are not limited to, individual terminal blocks, control relays, individual fuses, individual I/O surge suppressors, and grounding bars.

2. Devices that require 24 VDC external power or 120 VAC shall be labeled via machine engraved plastic nameplates utilizing white text on black background. Nameplates shall be secured to the subpanel via permanent adhesives. Labeled components include, but are not limited to, disconnect switches, TVSS, power supplies, PLC backplanes, circuit breakers, DIN-rail strips, radios, Ethernet switches, UPSs, and convenience receptacles.
3. Exemptions – Individual PLC I/O modules only.

D. Supplier-Fabricated Cabling – All cabling fabricated by the panel fabricator

3.3 SHOP TESTING

- A. To verify that all PLCs are ready for system programming, the system’s integrator shall perform the following shop testing prior to shipment to the site:
 1. Perform a test configuration on all PLC modules to verify that all PLC CPUs communicate with the associated I/O modules, including inter-rack communication.
 2. Install the UPS, and power supplies, simulate all device outputs to the PLC, and verify that the signals are read properly at the PLC. As part of the testing of the UPS, fully charge the UPS battery and disconnect line power from the UPS and verify that:
 - a. “Power Loss” is sensed by the PLC when line power is disconnected.
 - b. Verify that when the UPS battery low that “Low UPS Battery” is sensed by the UPS.
 - c. Record the time it takes for the UPS battery to completely drain from full charge once line power is disconnected from the PLC panel.
 3. Point test all PLC I/O to verify that all I/O modules are correctly wired to the terminal strips and that the PLC I/O modules function properly. Testing shall be performed between terminal points on the I/O module to the terminal strip the electrician will terminate field wiring to.
 4. Leave all configuration programs in the PLC CPU.
 5. Perform testing to verify that the Ethernet communication between the PLCs is in accordance with the manufacturer’s requirements.
- B. After all testing has been successfully completed, contact the Engineer to schedule an in-shop inspection by the Engineer. Contractor shall have the personnel that performed the testing present to perform random verification of the tests performed by the integrator.
- C. Submit a written report to the Engineer prior to scheduling Engineer’s in-shop inspection.

- D. The Contractor shall furnish all instruments and a qualified engineer to properly perform all tests required.
- E. FAT shall not be approved and authorized for shipment from the fabricator's facility until PLC wiring diagrams are updated to reflect "As Fabricated" conditions and marked "As Built."

3.4 INSTALLATION

- A. These services only apply to PLC's found in Table 17100-2. City of Roseville will provide the configuration and startup serves of the Palo Alto PA-220r in the City of Roseville PLC Panel.
- B. Install in accordance with manufacturer's instructions.
- C. PCWA will provide the configuration and startup services of the PCWA's PLC, Network Switch, and Radio.
- D. All electrical work performed in fabrication and installation of PLC systems shall be in full accordance with the requirements of the Division 16 Electrical Specifications.
- E. Contractor is responsible for aligning all antennas and testing communication strength in the field.
- F. Assemble and configure all switches and locate equipment within the plant in locations as shown on the Contract Documents and as directed by the Engineer.
- G. Terminate Category 6 cabling in accordance with TIA/EIA-568-B pin/pair assignments for 100-Ohm balanced twisted pair cabling (T568B), as follows:
 - 1. Pin 1 - White with Orange Stripe.
 - 2. Pin 2 - Orange Solid.
 - 3. Pin 3 - White with Green Stripe.
 - 4. Pin 4 - Blue Solid.
 - 5. Pin 5 - White with Blue Stripe.
 - 6. Pin 6 - Green Solid.
 - 7. Pin 7 - White with Brown Stripe.
 - 8. Pin 8 - Brown Solid.
- H. Ethernet Switch Configuration - Include on-site time for a factory-trained, manufacturer's representative to configure Ethernet switches listed in Table 40 63 43-4 as follows. Configuration of the Palo Alto Firewall/Ethernet Switch shall be done by the City of Roseville.
 - 1. Program IP addresses into each switch using IP addresses supplied by the Owner/Engineer.
 - 2. Configure parameters appropriate for an industrial control network including, but not limited to, enabling IGMP snooping and QoS.
 - 3. Configure Ethernet switches to function in a self-healing, redundant ring

architecture.

4. Advise Engineer of parameters available for the Ethernet switch's integral relay output contact and program as selected by the Engineer.
 5. Assist in troubleshooting network issues at the request of the Engineer.
 6. Configure managed Ethernet switches - Coordinate configuration of managed switch properties with the Engineer via shop drawings. Schedule a meeting with the Engineer prior to in-field switch configuration to review switch configuration parameters and discuss intended managed switch function. Switch configuration shall occur before any Ethernet devices are put into service. Perform site visits for switch configuration to meet the sequence of construction. Switch configuration may include: routing, development of up to three Virtual Local Area Networks (VLANs), configuration of IP addresses, traffic management, rules, and setup of switch management software of multiple computers. Contractor shall take the lead on researching, collecting, and presenting all available configuration options.
-
- I. Install cables in the raceway systems. Inspect raceways prior to pulling in cables. Rod and swab out conduits and ducts prior to installing cables. Notify the Engineer of any conditions, which would prevent installation of the specified cables, in writing before proceeding with the installation.
 - J. Provide adequate put-up lengths on cable reels to make termination-to-termination runs without splices. Spliced cables are not acceptable.
 - K. Support cables in riser conduits at intervals as required by NEC and cable manufacturer.
 - L. Installation tools and materials shall be approved by the cable manufacturer.
 - M. Reroute and reorganize network cabinet cable routing and equipment layout as requested by the Engineer in the field.

3.5 IDENTIFICATION

- A. Label each termination point on each end of the Category 6 cable with machine-printed, Mylar permanent-adhesive stickers. For example, each cable shall be labeled as "PLC-3/Port 6," "PLC-3A/Port 2," "Superintendent's Office Jack 1/Port 3," etc.
- B. Tag each cable in junction boxes.
- C. Check cables and wires for proper identification numbering and color-coding.

3.6 CHECKOUT AND TESTING

- A. Upon receipt of Category 6 reels, perform pre-installation ("on the reel") measurements to verify attenuation, length and continuity. Record the results of

all measurements and submit to the engineer. Cables that fail continuity or that have higher than specified attenuation shall be subject to rejection and shall be replaced at no additional cost to the Owner.

- B. Make the following tests after cable installation:
1. Upon completion of the cable installation, perform 100 percent bi-directional end-to-end loss testing of cable runs between each port and switch.
 2. The calculated and measured values of the end to end shall be in accordance with Category 6 standards. In the event that any differences are in excess, implement troubleshooting techniques and methods to provide agreement. If the discrepancies cannot be reconciled, the cable installation shall be removed, replaced, and retested at no additional cost to the Owner.

SECTION 40 64 00

PLC CONTROL STRATEGY

PART 1 - GENERAL

1.01 SECTION INCLUDES

- A. Control summaries for the following system components:

Five Star Intertie

- B. This section is for reference only, there are no requirements for the Contractor.

1.02 FIVE STAR INTERTIE

- A. Description

The Five Star Intertie (FSI) provides treated water from PCWA to the City of Roseville. The FSI is programmed to maintain PRV Downstream Pressure. The Pressure Reducing Valve (PRV) at FSI will modulate open or closed to provide a given water pressure. The PCWA PLC will be used to control the PRV and provide status and alarms for the Agency Staff. The City of Roseville's PLC will only provide status and alarms.

The FSI consists of the following valves:

- 1) PRV6010 –10" Valve

The estimated maximum flow would be about 2500 to 3000 GPM.

A minimum flow rate of 35 gpm must be met in order to open PRV6010. PRV6010 should not be operated below these flow rates.

- B. PRV Operation

Normal Operation

Under normal operation the PRV6010 will modulate open or close to maintain the operator settable desired pressure.

An operator will have a settable deadband set around the desired pressure setpoint. When the Downstream Pressure (PIT6030) is within the deadband the valve will not open or close. If pressure increases or decreases the valve will open or close (PRV6010) accordingly to achieve the desired Downstream Pressure (PIT6030).

Loss of Communications

- 1) Loss of communications to FSI will result in a call out alarm and PRV6010 will continue to locally operate to the last known value.

Manual Operation

- 2) The PRV6010 can also be run in manual mode by selection PRV6010_MANUAL. To run in manual mode, system operators via SCADA would:
 - a) Open the inlet valve PRV6010.
 - b) Set the position of the valve PRV6010 to an open percentage in order to achieve the desired pressure.

C. Devices, Alarms, and Interlocks

Valve PRV6010

- 1) Set Emergency closure speed to close valve in 90 seconds from full flow to closed.

Pressure Indicating Transmitter PI6020

- 2) Indicates the line pressure upstream of Valve PRV6010

Valve ZI6010

- 3) Indicates the valve position of Valve PRV6010.

Pressure Indicating Transmitter PI6030

- 4) Indicates the line pressure downstream of Valve PRV6010

Flow Meter FE6040

- 5) Measure flow from PCWA to City of Roseville. Alarms at flows lower than 35 GPM.

Limit Switch ZSH6050

- 6) Indicates whether vault hatch is open or closed.

Float Limit Switch LSH6080

- 7) Indicates high water level in PRV Vault.

Float Switch ZSH6060

- 8) Indicates high water level in Flow Meter Vault.

Sump Pump YI6090

- 9) Indicates running status of PMP1.

Five Star Intertie Improvement Project P&ID Record Drawings (I-102)

E. Devices, Alarms, and Interlocks

Five Star Intertie Improvement Project P&ID Record Drawings (I-102)

F. Recording

The following data will be recorded for use by operations.

- 1) Flow rate to the raw water pipeline (gpm)
- 2) Total volume to the raw water pipeline (gpm)
- 3) Sump pump run time.

END OF SECTION

SECTION 40 66 33
FIBER OPTIC COMMUNICATION SYSTEMS

PART 1 GENERAL

1.1. DESCRIPTION OF WORK

- A. Furnish and install fiber optic cables and appurtenances necessary for the plant's networks to communicate as specified in the Division 40 specifications and as shown on the SCADA architecture sheets of the Contract Drawings.
- B. Equipment and labor specified in this specification section shall be supplied and installed by a single manufacturer that has sole responsibility for the function of the fiber optic system and its final performance.

1.2. RELATED SECTIONS

- A. Section 33 – Utilities
- B. Section 26 - Electrical
- C. All Division 40 specifications

1.3. REFERENCE STANDARDS

- A. National Fire Protection Association (NFPA) - NFPA 70 National Electrical Code (NEC) Article 70.
- B. Underwriters Laboratories, Inc. (UL)
 - 1. UL 1581 VW-1; Vertical Tray Cable Flame Test.
 - 2. UL 1666 Riser Cable.
- C. IEEE Standard 383-1974 Flame Retardancy.
- D. ANSI/NECA/BICSI 568-2001, Standard for Installing Commercial Building Telecommunications Cabling.
- E. ANSI/TIA/EIA-569-A for maximum length of conduit and bends between pull points and pull box sizing.
- F. ISO/IEC 11801 - Type OM3 fiber
- G. IEC 60793-2-10 - Type A1a.2 fiber

1.4. DEFINITIONS

- A. Attenuation - The decrease in magnitude of transmission signal strength between points, expressed as the ratio of output to input.

- B. Bandwidth - A range of frequencies, specifically the difference between the upper and lower limits of the range, expressed in Hz.
- C. Loss - Attenuation of the optical signal, measured in dB.
- D. Numerical Aperture - the light-gathering ability of a fiber. The maximum angle to the fiber axis at which light will be accepted and propagated through the fiber.
- E. Plenum - A designated area used for transport of environmental air as part of the air distribution system. Because it is part of the air distribution system, cables installed in this space require a higher fire rating (i.e., plenum rated).
- F. Bend Radius - Maximum radius that a cable can be bent to avoid physical or electrical damage or cause adverse transmission performance.
- G. OTDR - Optical Time Domain Reflectometer.
- H. Cable Support System - A combination of conduits, cable trays, support hooks, tie wraps, and/or any other hardware pieces used in a cabling installation to support cables.
- I. Terminate/Termination - Termination of fiber includes provision of connectors on individual fibers, also referred to as "tipped." Termination of fiber optic cables includes provision of a breakout kit and installation of connectors on individual fibers.
- J. SCADA Architecture Diagram - Contract drawing illustrating the project's network architecture. Identifies relative routing between fiber consumers. Actual routing and lengths shall be determined using ductbank schedules and through coordination with the General Contractor.
- K. Channel - Two fibers are required for one channel of communication, which is comprised of a transmit and receive fiber.

1.5. SUBMITTALS

- A. Shop Drawings - Submit per Design Assist Construction Agreement section 2.15. The following submittal requirements are to complement the requirements and format set forth in Section 40 61 00, Instrumentation.
 - 1. Cable pulling plan that specifies the sequence of work tasks, materials and equipment used, and a schedule for the work. AutoCAD 2016 or later drawings illustrating all runs of fiber, patch panels, network cabinets, transition from jacked cable to individual fibers, Ethernet switches, and PLCs.
 - 2. Proposed test equipment to be used including OTDR and power meter, including make and model number. Detail the exact procedure that will be utilized to test cable reels once they are delivered to the site. Separately detail the procedure that will be utilized to test installed cables.

3. Link Loss Budget Analysis - Calculated point-to-point (transmit point to receive point) optical power loss of each optical fiber using proposed installed cable lengths. Include all losses through LC connectors and patch panels. Submit calculated values including sketches graphically showing the proposed cable route, distances, itemized losses, and locations of terminations. After testing installed network, these calculated values shall be compared with end-to-end measured values.
 4. Submit a 1-foot sample of the proposed fiber optic equipment to be provided as follows: fiber optic cable with breakout kit, tipped, and a single fiber adapter panel with type *LC connectors. Sample shall display labeling technique. Only one sample need be submitted in the Engineer's copy of the shop drawings, not one for every shop drawing copy. Sample may be tested, and will be retained, by the Engineer.
- B. Project Record Documents - The following submittal requirements are to complement the requirements and format set forth in Section 40 61 00, Instrumentation.
1. Comparison of as-installed (tested) losses to calculated losses. Include cable end-to-end and node-to-node (transmit to receive) test data.

1.6. COORDINATION

- A. Take the lead on coordinating switch and fiber operation and installation requirements with other suppliers of Ethernet-based equipment that will be utilizing fiber throughout this project. Utilize the SCADA architecture diagram to identify fiber consumers. Coordinate with the General Contractor to obtain contact information for these fiber consumers.
- B. Coordinate spacing of spools in fiber optic patch panel with fiber optic cable and fiber optic patch cord manufacturer recommendations for installed bending radii.
- C. Coordinate with electrician for mounting locations for fiber optic patch panels.
- D. Coordinate space mounting requirements to minimize fiber optic jumper cable lengths. Locate fiber patch panel to maintain shortest possible fiber optic jumper cable lengths. Limit distance of separation to 15-feet of jumper cable length.

1.7. SPARES

- A. Provide one preterminated/tipped and tested spare fiber optic jumper cable for each installed fiber optic jumper cable. Provide a rigid case to accommodate all uninstalled spare fiber optic jumpers.
- B. Provide one fiber adapter panel (FAP) with type LC connectors for each type used.

PART 2 PRODUCTS

2.1. FIBER OPTIC CABLE

- A. Manufacturer
 - 1. Corning, Model Altos
- B. General
 - 1. Provide single-mode optical glass fiber cores compatible with LED-based transmission systems and the Ethernet switches supplied under Sections 40 63 43, Programmable Logic Controller, suitable for both Fiber Optic Inter-Repeater Link and Fiber Distributed Data Interface networks.
 - 2. All-plastic fiber-core construction is not acceptable.
 - 3. Provide in continuous (without termination) lengths as required to connect Ethernet devices in locations shown on the Contract Drawings.
- C. Fiber Optic Cable
 - 1. Heavy duty, tight-buffered or gel-filled construction with additional strength members, PVC inner jacket, and oil, water, and chemical resistant, UV stabilized, flame retardant, polyethylene outer jacket, designed for indoor/outdoor application and direct burial.
 - 2. Cable Specifications
 - a. Fiber Size - 50 micron/125 micron (core/cladding diameter).
 - b. Fiber Count – Six fibers (minimum).
 - c. Maximum Short-Term Tensile Load - 300 lb.
 - d. Maximum Long-Term Tensile Load - 180 lbs.
 - e. Crush Resistance - 80 pounds per square inch.
 - f. Operating Temperature - -40 to +50 degrees C.
 - g. Fibers shall have the following optical properties:
 - 1) Maximum attenuation at 850 nm wavelength - 2.5 dB/km.
 - 2) Maximum attenuation at 1300 nm wavelength - 0.8 dB/km.
 - 3) Minimum bandwidth at 850 nm wavelength - 1500 MHz/km.
 - 4) Minimum bandwidth at 1300 nm wavelength - 500 MHz/km.
 - 5) Numerical aperture - 0.250 ± 0.015 .

2.2. FIBER TIPS/FIBER CONNECTORS

- A. Small Form-Factor Pluggable (SFP) Fiberoptic Module Transceivers
 - 1. Provide quantities of fiberoptic SFP modules as required to facilitate the fiberoptic architecture illustrated in the SCADA Architecture Diagram on the Contract Drawings.
 - 2. SFP Specializations
 - 3. Utilize LC connections.
 - 4. In the supplied architecture, with the supplied fiberoptic cabling, Ethernet switches, and SFP's, the system shall support a bandwidth of 1.0GB up to 550 meters.
 - 5. Wavelength – 850 nm.

6. Core Size/Cladding Size – 50/125 microns.
 7. Model Bandwidth – 500 MHz/km. Supported Distance at Maximum Rated Bandwidth 550 meters (1,804 feet).
 8. Connector Loss (typical) - 1 dB.
 9. Durability (mating cycles) - 1000 (minimum).
 10. Repeatability - Less than 0.2 dB.
 11. Operating Temperature - -40 to +80 degrees C.
 12. For compatibility with existing Fiber network, no or equals will be accepted. For equipment listed in Table 40 63 43-1, provide the following SFP Fiberoptic Module Transceiver:
 - a. Palo Alto, Model PAN-SFP-LX
- B. All fibers, including unused fibers, shall be terminated/tipped. Provide flexible vinyl protectors for terminal connectors to prevent damage to terminal connector ends.

2.3. FIBER PATCH PANELS

- A. Provide fiber optic patch panels in quantities as required by the SCADA architecture diagram. For compatibility with the existing fiber network, no or equals will be accepted.
- B. Manufacturers shall be:
1. Dispace, Model SNAP-12LC-SM
 2. Corning, Model SPH-01P
- C. Characteristics
1. Wall-mounted, all metal construction enclosure in color Black.
 2. Separate doors for service side and user side compartments with keyed locks.
 3. Supply fiber optic cable routing kit, including grommets, cable ties, spools, strain relief bracket and ID/caution labels.
 4. RoHS compliant.
 5. Spools must be spaced to accommodate fiber optic cable and fiber optic patch cord minimum installed bending radii.
- D. Provide FAPs by the same manufacturer as the fiber patch panel and of model designed specifically for the supplied patch panel.
1. FAPs shall screw into place, compression fittings are not acceptable.
 2. Each FAP shall have a sufficient quantity of connectors to accommodate the quantity of cables shown on the SCADA architecture diagram.
- E. Coordinate space mounting requirements to minimize fiber optic jumper cable lengths. Locate fiber patch panel to maintain shortest possible fiber optic jumper cable lengths. Limit distance of separation to 15 feet of jumper cable length.

- F. Provide preterminated and tested duplex fiber optic jumper cables for each fiber in the fiber optic cable. Jumpers shall be of sufficient length to interconnect the patch panel to the Ethernet switch or fiber optic media.

2.4. FIBER OPTIC JUMPER CABLES

- A. Provide fiber optic jumper cables in accordance with the following requirements:
 - 1. A single jumper cable shall be comprised of two fibers suitable for transmit and receive with LC connectors at both ends. Fiber sheaths shall be bonded the entire length of the jumper cable.
 - 2. Provide one jumper cable for each pair of fibers in the fiber optic cable. For both used and unused channels. These quantities do not count as uninstalled spares.
 - 3. 50 micron/125 micron (core/cladding diameter) fiber.
 - 4. Suitable for use with the supplied fiber optic cable.
 - 5. Lengths as required to interconnect fiber optic patch panels to the fiber switches shown on the SCADA architecture diagram.
 - 6. Provide rubber boots for each spare fiber's connector protecting the exposed glass fiber light emitting tip from damage.

2.5. ETHERNET SWITCHES

- A. Refer to Section 40 63 43, Programmable Logic Controllers (PLC)

2.6. ACCESSORIES

- A. Provide breakout kits on fiber optic cable prior to fiber terminations. Kits shall be secured to the jacketed cable and separate and support each fiber as it exits the jacketed cable. Provide protective sheathing for individual fibers after the breakout kit. Additional protective sheathing shall provide adequate rigidity to prevent bending the individual fibers beyond their minimum bending radius. Individual fibers shall not be visible before or after the breakout kit.
- B. Each fiber exiting the breakout kit shall be insulated in a protective rubber sheath. Bare fibers are not acceptable anywhere within the fiber network.

PART 3 EXECUTION

3.1. GENERAL

- A. Install cable and connectors as indicated on the Contract Drawings and as specified in this section.
 - 1. Install connectors on all fibers in each cable.
- B. Provide all material, equipment, and labor to install the fiber optic cables as indicated and as specified.
- C. Perform work in accordance with the National Electrical Code, terminal connector manufacturer, and cable manufacturer requirements.
- D. Perform work in accordance with the cable manufacturer recommendations and pertinent sections of ANSI/NECA/BICSI 568-2001. ANSI/NECA/BICSI 568-2001 shall be referred to in defining work performed in a "neat and workmanlike" manner. Conformance to all pertinent sections of ANSI/NECA/BICSI 568-2001 is required, the following are highlights from ANSI/NECA/BICSI 568-2001 that will be inspected:
 - 1. Cable support system planning, documentation, and sequence of installation.
 - 2. Minimum separation distances from possible sources of EMI.
 - 3. Section 4, Pulling Cable.

3.2. INSTALLATION

- A. Install cables in the conduit. Inspect conduit prior to pulling in cables. Rod and swab out conduits and ducts prior to installing cables. Notify the Engineer of any conditions, which would prevent installation of the specified cables, in writing before proceeding with the installation.
- B. Fiber to be fusion spliced in the City of Roseville's existing Coyote splice enclosure that is located in the sidewalk pull box, as indicated in the Contract Drawings. Only 1 pair of fibers is to be spliced into the existing City splice box. Remaining spare fibers shall be tipped and safely coiled for future use.
- C. Adhere to ANSI/TIA/EIA-569-A for maximum length of conduit and bends between pull points and pull box sizing. No one conduit segment shall be more than 100 feet in length with no more than two 90-degree bends allowed in one segment.
- D. Install armor jacketed multi-fiber cables in underground ducts. Armor jacketed multi-fiber cables may also be used in conduit systems provided inside buildings and structures.
- E. Premise cables may also be installed in the conduit systems provided inside buildings and structures.

- F. Lubricate cables during installation. Do not exceed cable manufacturer's specifications for tensile strength and bending radius.
- G. Label cables and reels prior to pulling cable into place.
- H. Provide breakout kits, termination and patch panels, pigtails, and jumpers as required to install a complete network as indicated. Termination panels shall be wall or rack mounted. Do not mount termination panels in manholes or outside of buildings or structures.
- I. Provide adequate put-up lengths on cable reels to make termination-to-termination runs without splices. Spliced cables are not acceptable.
- J. Support cables in riser conduits at intervals as required by NEC and cable manufacturer.
- K. Installation tools and materials shall be approved by the cable manufacturer.

3.3. IDENTIFICATION

- A. Cables - Label cable in accordance with ANSI/TIA/EIA-606, which details specific label format for identification of where cable originates and terminates.
- B. Individual Fibers - Label each termination point on each end of the fiber including spares. Each fiber shall be labeled as "PLC 1/Fiber 1," "PLC-1/Fiber 2," "PLC-1/Fiber 3," "PLC 1/Spare 1," etc.
- C. Tag each cable in junction boxes, patch panels, manholes, and anywhere else fiber optic cabling may be accessed further than 10 feet from termination.

3.4. CHECKOUT AND TESTING

- A. Upon receipt of fiber optic cable reels at the site, perform pre-installation ("on the reel") OTDR measurements on each strand of optical fiber to verify attenuation, length and continuity. The optical fiber shall be tested using a multimode OTDR at 850-nm wavelength. Record the results of all measurements and submit to the Engineer within one week after cable delivery to the site. Cable reels that fail continuity or that have higher than specified attenuation (greater than 3 dB) shall be subject to rejection and shall be replaced at no additional cost to the Owner.
- B. Make the following tests after cable installation:
 - 1. Visually inspect terminations for out-of-round condition and surface defects such as micro-chips and cracks using a 200x inspection microscope.
 - 2. Upon completion of the cable installation, including all connectors, perform 100 percent bi-directional end-to-end loss testing on each optical fiber. The multimode fiber shall be tested using Light Emitting Diode

(LED) sources (insertion loss test set and power meter) operating at 850 nm wavelength.

3. The calculated and measured values of the end to end shall vary by no more than +0.75 dB. End-to-end losses shall not exceed 3 dB. In the event that any differences are in excess, implement troubleshooting techniques and methods to provide agreement. If the discrepancies cannot be reconciled, the cable installation shall be removed, replaced, and retested at no additional cost to the Owner.
- C. Verify proper identification numbering and color coding on cables and fibers.
- D. Install, test, and service equipment as necessary to accommodate the sequence of construction.
- E. Perform an additional four visits of on-site testing of fiber with OTDR test equipment at the request of the Engineer to assist in the troubleshooting of network issues as necessary to eliminate the fiber as the source of potential network issues.

3.5. CERTIFICATION OF TESTING

- A. Unless waived in writing by the Engineer, all tests shall be made in the presence of a duly authorized representative of the Owner. When the presence of such representative is so waived, certified results of the tests made and the results thereof shall be furnished by the Contractor.
- B. All tests shall be performed in the presence of the Owner. Written notice of all tests shall be given to the Engineer and Owner at least two weeks in advance.

40 71 13
FLOW METERS (MAGNETIC TYPE)

PART 1 GENERAL

1.1. SECTION INCLUDES

- A. The Contractor shall furnish and install, ready to operate, the magnetic-type flow metering equipment, complete with flow transmitters and all necessary accessories, in compliance with the following specifications and as shown on the Contract Drawings.

1.2. GENERAL REQUIREMENTS

- A. It is a requirement of this specification that the elements of the system be provided by a single supplier. This supplier shall have total responsibility for the equipment and services specified in this section, as well as all other Division 40 specifications.
- B. For ease of identification, designations for the various components of the metering systems to be furnished and installed are given in the following table.

TABLE 40 71 13-1

SCHEDULE OF MAGNETIC FLOW METERING EQUIPMENT

Nameplate Designation	Flow Transmitter/ Element Flow Designation	Size	Liner Material	Flow Range (gpm)
Intertie Flow	FIT/FE-101	10-inch	Ebonite or PTFE	245-5161

1.3. RELATED SECTIONS

The specifications sections listed below are an integral part of this equipment specification and the Contractor shall be responsible for providing these sections to the equipment suppliers:

- A. Section 09 90 00 Paintings and Coatings
- B. Section 26 05 00 Common Work Results for Electrical
- C. All Division 40 specifications

All electrical equipment and wiring shall be in full compliance with Division 26, Electrical Specifications.

1.4. REFERENCES

- A. NEMA ICS 1 - General Standards for Industrial Control and Systems.
- B. NEMA ICS 3 - Industrial Systems.
- C. NEMA ICS 6 - Enclosures for Industrial Controls and Systems.
- D. NFPA 70 - National Electrical Code.
- E. ISO 9001
- F. National Institute of Science and Technology (NIST) - Calibration method.

1.5. SUBMITTALS

- A. Shop Drawings - Submit per Design Assist Construction Agreement section 2.15
 - 1. Refer to Section 40 61 00, Instrumentation, for shop drawing format and content.
 - 2. Refer to Section 40 61 00, Instrumentation, for operation and maintenance manual format and content.
 - 3. NIST calibration certificates for each flow meter.
 - 4. Baseline Smart Meter Verification (SMV) parameters.
 - 5. Refer to Section 40 61 00, Instrumentation, for project record documents format and content.

1.6. DELIVERY, STORAGE, AND HANDLING

- A. Deliver, store, protect, and handle products to site under provisions of 26 05 00 Common Work Results for Electrical
- B. Accept products on site in factory containers unless system is completely integrated into a pre-manufactured panel that has been factory tested. Inspect for damage.
- C. Store products in clean, dry area; maintain temperature to NEMA ICS 1 requirements.

1.7. DEFINITIONS

- A. Smart Meter Verification (SMV) – Term used herein to define a feature of the supplied transmitters that automatically validates flow tube electronics are within specification to the manufactured specifications, thereby validating the flow monitoring system (flow tube plus flow transmitter) are properly calibrated.

1.8. MANUFACTURER QUALIFICATIONS

- A. Transmitter and flow tube shall be manufactured by, and at, an ISO 9001 company/facility.

1.9. WARRANTY

- A. Provide a two-year warranty for flow meters covering the entire unit including the electronics and the flow tube.

1.10. COORDINATION

- A. Contractor is responsible to verify with the supplier that the appropriate ratings and options are provided for each application, taking into account area classification, flow, passing media, temperature, and vacuum limitations. Any such deviation from that which is specified shall be brought to the engineers' attention during shop drawing submittals.

PART 2 PRODUCTS

2.1. MANUFACTURERS

- A. The flow metering equipment manufacturer and model shall be the following or equal:
 - 1. Where Ebonite or Teflon liners are required by Table 40 71 13-1:
 - a. Siemens 5100W flow tube
 - Siemens MAG 5000 flow transmitter

2.2. EQUIPMENT DESIGN

- A. Flow Elements
 - 1. Flow elements shall be magnetic flow tubes, low frequency electromagnetic induction type and shall produce a 4-20 mA output linear to liquid flow rate.
 - 2. The flow tubes shall have ANSI Class 150 flanged ends. Wafer-style flow tubes are not acceptable.
 - 3. The flow tube housing shall be carbon steel ASTM A 105.
 - 4. Flow tubes shall be lined as required by Table 40 71 13-1.
 - 5. Electrodes shall be conical-shaped (bullet nose) and shall be Hastelloy C. Substantiate compatibility with media monitored in the shop drawing submittal.
 - 6. The flow tube housing shall be splash-proof and weather-resistant. It shall be capable of accidental submergence in up to 30 feet of water for up to 48 hours without damage to the electronics or interruption of the flow measurement.
 - 7. Empty Pipe Detection - Flow tube shall measure the conductivity between the electrodes to monitor for an empty pipe condition. Upon detection of an empty pipe condition, the flow transmitter shall indicate the pipe is empty on the main transmitter display and drive the flow signal to zero.
 - 8. Flow tubes shall be NSF approved for installation in drinking water applications.

- B. Flow Transmitters - The electronics portion of the magnetic flow meters shall include both a magnet driver to power the magnet coils and a signal converter.
1. Flow transmitter shall be installed in the PCWA PLC enclosure (PLCFSV01).
 2. Terminal strips for electrical connections shall be supplied. Housing shall not need to be opened to make adjustments.
 3. Transmitter (Converter) Electronic Characteristics
 - a. The electronics shall be of the solid state, feedback type and utilize integrated circuitry.
 - b. The input span of the signal converter shall be continuously adjustable between 0 to 1 and 0 to 31 fps and the range adjustment shall be direct reading.
 - c. Complete zero stability shall be an inherent characteristic of the meter system to eliminate the need to zero adjust the system with a full pipe at zero flow.
 - d. The converter shall not be affected by quadrature noise nor shall it require zero adjustment or special tools for startup.
 - e. Input and output signals shall be fully isolated.
 - f. The converter output shall be 4 to 20 mAdc into 800 ohms.
 - g. The electronics shall be designed for operation on 120 VAC ± 10 percent, 60 Hz ± 5 percent.
 - h. The converter shall also include:
 - 1) Integral zero return based upon a user-adjustable percentage of flow meter span. Setpoint shall be adjustable 0 to 10 percent.
 - 2) Direct adjustment of scaling factor in engineering units.
 - 3) Integral calibration self-test feature to verify proper operation at the electronics.
 - 4) Local direct reading indicator calibrated in gallons per minute or million gallons per day as directed by the Engineer. Flow totalizer with manual reset.
 - i. Each meter shall be hydraulically calibrated to the specified flow range in a NIST-certified facility.
 - j. Smart Meter Verification (SMV) – Each meter shall be equipped with an integral software feature that continuously validates the flow monitoring system (flowtube plus flow transmitter) are holding calibration. The utility shall run automatically without the need for manual initiation and shall provide simple “Pass/Fail” indication on the flow transmitter’s integral display. The display shall display quantitative values that are presented alongside the baseline values recorded when the instrument originally went online. Refer to testing requirements herein.
- C. Performance Requirements
1. The equipment furnished shall measure, indicate, and transmit flow rates to within ± 0.5 percent of actual flow from a flow velocity of 1.0 to 31 fps. Refer to Table 17400-1 for flow ranges for each meter.

2. Accuracy shall not be affected by changes in percent solids or changes in fluid density, temperature, or viscosity. Accuracy shall not be affected by the presence of air bubbles to a greater extent than the fluid volume represented by such air bubbles.
3. Maximum power consumption for each flow element shall be 15 watts.
4. Equipment design specifications shall be considered as an integral part of the performance requirements.

2.3. ACCESSORIES

- A. Nameplates - Refer to Section 40 61 00, Instrumentation. Wording of nameplate shall be as specified in Table 40 71 13-1.
- B. Mounting Hardware - Provide stainless steel mounting hardware as necessary to mount equipment in locations as described in the Contract Documents.
- C. Cabling - Provide power, and signal, cable and conduit to locate transmitters in locations listed in Table 40 71 13-1 and the Contract Documents according to Section 40 61 00, Instrumentation.
- D. Lightning and Surge Protection - Provide lightning and surge protection for the equipment listed in Table 40 71 13-1 in accordance with Section 40 61 00, Instrumentation.
- E. Flow tubes shall be provided with grounding rings on each flange. Grounding electrodes or straps are not an acceptable alternative. Materials of construction shall Type 316L stainless steel, Hastelloy C or Zirconium as chemically compatible with the measured media.
- F. Spool Pieces - Provide one spool piece for each flow tube provided.
- G. Portable secondary calibrator for checking calibration of the magnetic flow meters shall be provided. The unit shall have an adjustable setting to simulate signal output for a given flow velocity from 0 to 99.99 ft/sec. This unit is not required for flow meters with calibration checking integral to the transmitters.

PART 3 EXECUTION

3.1. INSTALLATION

- A. Install all equipment furnished under this section in compliance with division 33 - Utilities

3.2. SERVICES OF MANUFACTURER'S REPRESENTATIVE

- A. Installation - Include 1/2 day of a manufacturer-approved field technician's time to verify proper mounting of equipment.

- B. Final Acceptance - Include 1/2 day of a manufacturer-approved field technician's time to test equipment to demonstrate that:
1. Flow metering systems have been properly installed, properly calibrated, and are functioning as specified.
 2. Grounding rings are installed, grounded to the flow tube, and the flow tube grounded to the building's grounding grid or a proper ground in the termination control panel where the flow rate signal is wired. Grounding to the pipe is not acceptable.
 3. Flow metering systems indicate the correct flow rate for three different rates of flow in the appropriate discharge line.
 4. Integral zero return is configured to eliminate erroneous readings.
 5. Calibrated span of the flow meter's 4-20 mA output is visible manufacturer's nameplate of the flow tube.
 6. Configuration and setpoints are not lost upon power loss. This shall be tested by disconnecting the transmitter from power for 30 minutes.
 7. Flow Totalizer Pulse – Configure the transmitter to generate a pulse every unit of gallons. Unit of gallons shall be configured such that a pulse is not generated any more frequently than every 2 seconds under maximum flow conditions.
- C. Smart Meter Verification (SMV) – Include a return visit for a manufacturer-approved field technician's time to utilize each flowmeter's integral SMV utility to identify, record, and set the baseline metrics utilized by the SMV utility. Identification of the baseline parameters utilized by the SMV utility shall be performed after Final Acceptance and after the instrument has been operating under normal flow conditions for a minimum of 1 week. Baseline parameters shall be recorded with the flowmeter full of its anticipated media with no flow at the time the baseline parameters are recorded. Submit a field report containing the baseline parameters and include in the Operations & Maintenance Manual for the magnetic flowmeters.
- D. Submit a written report to the Engineer and the system integrator with the results of field testing. In the report, include span and range for the 4-20 mA output signal.
- E. Training - Provide 1/2 day of instruction for four persons to be conducted at the project site with a manufacturer's representative. Notify the Engineer and Owner in writing a minimum of two weeks in advance. Training shall include calibration, troubleshooting, and maintenance.

3.3. CERTIFICATION OF TESTING

- A. Unless waived in writing by the Engineer, all tests shall be made in the presence of a duly authorized representative of the Owner. When the presence of such representative is so waived, certified results of the tests made and the results thereof shall be furnished by the Contractor.

- B. All tests shall be performed in the presence of the Owner. Written notice of all tests shall be given the Owner at least two weeks in advance.

40 73 00
PRESSURE TRANSMITTERS

PART 1 GENERAL

1.1 SECTION INCLUDES

- A. The Contractor shall furnish and install, ready to operate, the following pressure measurement equipment, complete with all necessary accessories, to output analog signals as indicated herein in compliance with the following specifications and as shown on the Contract Drawings.

1.2 GENERAL REQUIREMENTS

- A. It is a requirement of this specification that the elements of the system be provided by a single supplier. This supplier shall have total responsibility for the equipment and services specified in this section, as well as all other Division 40 specifications.
- B. For ease of identification, designations for the various components of the metering systems to be furnished and installed are given in Table 40 73 00-1.

TABLE 40 73 00-1

SCHEDULE OF GAUGE PRESSURE MEASURING EQUIPMENT

Service Nameplate Designation	Equipment Designation	Operating Range	Line Size	Location
PRV Upstream Pressure	PIT-6020	0-100 psi	1"	Five Star Intertie PRV
PRV Downstream Pressure	PIT-6030	0-100 psi	1"	Five Star Intertie PRV

1.3 RELATED SECTIONS

- C. Division 33 Utilities
- D. Section 09 90 00 Paintings and Coatings
- E. All Division 40 specifications

All electrical equipment and wiring shall be in full compliance with Division 26, Electrical Specifications.

1.4 REFERENCES

- A. NEMA ICS 1 - General Standards for Industrial Control and Systems.

- B. NEMA ICS 3 - Industrial Systems.
- C. NEMA ICS 6 - Enclosures for Industrial Controls and Systems.
- D. NFPA 70 - National Electrical Code.

1.5 SUBMITTALS

- A. Shop Drawings – Submit per Design Assist Construction Agreement section 2.15
 - 1. Training Itinerary - Indicate the sessions (i.e., Day One, Day Two, etc.), the lessons for the respective sessions, and the equipment to be used during training.
- B. Operation and Maintenance Manual
 - 1. Refer to Section 40 61 00, Instrumentation, for operation and maintenance manual format and content.
- C. Project Record Documents
 - 1. Refer to Section 40 61 00, Instrumentation, for project record documents format and content.

1.6 DELIVERY, STORAGE, AND HANDLING

- A. Deliver, store, protect and handle products to site under provisions of 26 05 00 Common Work Results for Electrical.
- B. Accept products on site in factory containers unless system is completely integrated into a pre-manufactured panel that has been factory tested. Inspect for damage.
- C. Store products in clean, dry area; maintain temperature to NEMA ICS 1 requirements.

1.7 WARRANTY

- A. Provide a one-year warranty for pressure transmitters covering the entire unit including the electronics and diaphragm.

1.8 COORDINATION

- A. Coordinate mounting locations with the General Contractor.
- B. Coordinate with plant operators after transmitters are brought on-line to verify that the transmitters are reading values consistent with normal operation.

1.9 SPARE PARTS

- A. One spare gage pressure transmitter for each different range gage pressure transmitter provided.

PART 2 PRODUCTS

2.1 MANUFACTURERS

- A. All gauge pressure transmitters on this project shall be by the same manufacturer. Where specifications deviate from the suggested manufacturer disregard the manufacturer and adhere to the specifications. Manufacturer and series shall be the following:
 - 1. CLA-VAL Model X141-PT
 - 2. Approved Equal

2.2 GAGE PRESSURE TRANSMITTERS

- A. General Description
 - 1. Transmitters shall be gage transmitters as indicated on Table 40 73 00-1. Ranges shall be as required by Table 40 73 00-1.
 - 2. Electrical Connection shall be 2 wire 4-20Ma,
 - 3. Transmitter Supply Voltage 8-30 VDC
 - 4. Enclosure housing = IP-67.
 - 5. Process connection 1/4" NPT Male Threaded.
 - 6. The transmitter shall be rated to 290 psig static pressure.
 - 7. Transmitters shall be 24 VDC, loop-powered.
 - 8. All hardware connecting the pressure transmitter to the process shall be 316 stainless steel, including taps, fittings, valves, and piping.
 - 9. Translate gage pressure into a 4-20 mA current linear output.
 - 10. Transmitter shall be per IEC 61298-2.
- B. Performance Requirements
 - 1. Accuracy - ± 0.5 percent of calibrated span for 4-20 mA outputs.
 - 2. Pressure Overload = 2XMax Scale
 - 3. Operating Temperature – -40 degrees to 80 degrees C.
 - 4. Fluid Temperature – -40 degrees to 80 degrees C.

2.3 ACCESSORIES

- A. Nameplates – Refer to Section 40 61 00, Instrumentation. The wording of the nameplate shall be as specified in Table 40 73 00-1.
- B. Mounting Hardware – Provide stainless steel mounting hardware as necessary to mount equipment in locations as described in the Contract Documents.
- C. Cabling – Provide manufacturer supplied 33 feet (10 M) cable for power, and signal, and conduit to locate transmitters in locations listed in Table 40 73 00-1 and the Contract Documents according to Section 40 61 00, Instrumentation.
- D. Lightning and Surge Protection – Provide lightning and surge protection for the

equipment listed in Table 40 73 00-1 in accordance with Section 40 61 00, Instrumentation.

- E. Block and Bleed Valves – All gage pressure transmitters shall have 316 stainless steel block and bleed valves that shall serve to isolate the transmitter from the process for servicing.

PART 3 EXECUTION

3.1 EXAMINATION

- A. Verify that surfaces are ready to receive work.
- B. Verify field measurements are as shown on Drawings.
- C. Verify that required utilities are available, in proper location, and ready for use.
- D. Verify grounding of system.
- E. Verify that impulse lines are clean and free from debris.
- F. Verify that that block and bleed valves and three-valve manifolds do not leak when transmitters are removed.
- G. Beginning of installation means installer accepts conditions.

3.2 INSTALLATION

- A. Install in accordance with manufacturer's requirements.
- B. All electrical work performed in fabrication and installation of the transmitters shall be in full accordance with the requirements of the Division 26 specifications.
- C. Mount all equipment provided herein in accordance with Section 40 61 00, Instrumentation.

3.3 FIELD QUALITY CONTROL

- A. Perform operational testing on control systems to verify proper operation and field wiring connections.

3.4 MANUFACTURER'S OR SYSTEM INTEGRATOR'S FIELD SERVICES

- A. Final Acceptance – Include 1/2 day for a manufacturer-authorized service representative to test equipment to demonstrate that:

1. The transmitter and block and bleed valve have been properly installed, properly calibrated, and is functioning as specified.
- B. Installation – Include 1/2 day for a manufacturer-authorized service representative to verify proper mounting of the equipment, including mounting technique, mounting surface, and functional location.
- C. Training – Provide two, 1/4-day sessions of instruction to be conducted at the project site with a manufacturer’s representative. Notify the Engineer and Owner in writing a minimum of two weeks in advance. Training shall include calibration, troubleshooting, and maintenance. Duration of training is actual on-site training time with the operators, travel and other time shall be separate from this training requirement. Training shall cover:
 1. Use of the calibration kit via a live demonstration using the supplied calibration kit and an uninstalled, spare pressure transmitter.
 2. Pressure transmitter setup, recalibration, replacement, troubleshooting, error codes, and use of the block and bleed valve.

3.5 CERTIFICATION OF TESTING

- A. Unless waived in writing by the Engineer, all tests shall be made in the presence of a duly authorized representative of the Owner. When the presence of such a representative is so waived, certified results of the tests made and the results thereof shall be furnished by the Contractor.
- B. All tests shall be performed in the presence of the Owner. Written notice of all tests shall be given the Owner at least two weeks in advance.

END OF SECTION

40 96 20
CONTROL PANELS

PART 1 GENERAL

1.1 SUMMARY

- A. Work Included: This Section covers control panels shown on the Electrical or Instrumentation Drawings, or as specified in either Division 26 or 40, and sets minimum standards for all packaged unit panels.

1.2 RELATED SECTIONS

The specifications sections listed below are an integral part of this equipment specification and the Contractor shall be responsible for providing these sections to the equipment suppliers:

- A. Design-Assist Construction Agreement – 2.15 Shop Drawings, Product Data, and other Submittals
- B. Design-Assist Construction Agreement – 2.6 Labor and Materials
- C. Section 26 05 00 - Common Work Results for Electrical
- D. Section 40 63 43 – Programmable Logic Controllers

1.3 REFERENCE STANDARDS

- A. National Electrical Manufacturers Association (NEMA) Publications:
 - 1. ICS 1 General Standards for Industrial Controls and Systems
 - 2. ICS 2 Standards for Industrial Control Devices, Controllers and Assemblies
 - 3. ICS 4 Terminal Blocks for Industrial Control Equipment and Systems
 - 4. ICS 6 Enclosures for Industrial Controls and Systems
- B. Underwriters Laboratories (UL) Publication:
 - 1. 508 Industrial Control Equipment

1.4 SUBMITTALS

- A. The Control System Hardware Submittal shall be furnished in accordance with the City of Roseville specification.
- B. Technical Manuals: Provide technical manuals.

1.5 CERTIFICATION

- A. UL Label:
 - 1. Each control panel and terminal cabinet shall bear the UL label except as

noted in the following paragraph. The UL label shall apply to the enclosure, the specific equipment supplied with the enclosure, and the installation and wiring of the equipment within and on the enclosure. If required for UL labeling, provide ground fault interrupters, isolation transformers, fuses, and any other necessary equipment, even though such equipment is not indicated on the Drawings. The fabricator shall be an approved UL listed manufacturer.

2. Control panel enclosures containing instruments mounted through the enclosure walls or door shall meet all requirements for UL labeling as above, but no UL label is required. This exception applies only if UL Recognized instruments for the intended purpose are not made.

1.6 PRODUCT DELIVERY AND HANDLING

- A. Ship assembled control panels in proper packages for shipping/handling and field installation.

PART 2 PRODUCTS

2.1 GENERAL

- A. The control panels and associated control and instrumentation equipment shall be furnished as a coordinated assembly requiring only field connections of the power and control circuits for a complete and operating installation as specified and shown on the Contract Drawings. Provide an individual compartment within the overall assembly for each of the following:
 1. Electrical metering and distribution (Panel-1)
 2. PLCFSV01
 3. PLCFSV02
- B. The panels shall be free-standing, dead-front, NEMA 4X, with pad-lockable 3-point latch.
- C. Provide enclosure sun shield plates, fabricated 316 SS and installed on standoffs on the top, south side, and west side of each PLC enclosure. Fabricated plate width and height shall span the entire length of the top and/or side of the enclosure to fully protect the enclosure.
- D. Sun shield color shall be coordinated with and approved by the owner. Submit the color to be used as part of the shop drawing submittal.
- E. Control Panel Shelf: PLC cabinet enclosures shall be provided with retractable shelf for temporary use of laptop programming terminals on the inside of the panel door.
- F. A large print pocket shall be provided on interior face of the enclosure door(s). Where this cannot be accommodated due to windows and other control devices

mounted on the door, the print pockets shall be mounted on the interior side of the control panels.

- G. The control panel controls shall be 120 VAC. Control conductors shall be provided in accordance with the indicated requirements.
- H. Safety Requirements: The electrical supply in each PLC compartment shall be arranged to be disconnected by a local 15 amp thermal magnetic circuit breaker. Each control panel shall be provided with identified terminal strips for the connection of all external conductors. The Contractor shall provide sufficient terminal blocks to connect 25 percent additional conductors for future use.
- I. Discrete outputs from the control panel shall be provided by electrically isolated contacts rated for 5 amps at 120 VAC. Analog inputs and outputs shall be isolated 4-20 mA signals with power supply.
- J. Control panels shall be thoroughly cleaned and sand blasted per Steel Structures Painting Council Specification SSPC-SP-6 (Commercial Blast) after which surfaces shall receive a prime coat Amercoat 185 or approved equal, 3-mils DFT, for a total thickness of the prime plus finish system of 6 mils. The finished color of the outside surfaces shall be selected by the Engineer, unless otherwise indicated. Interior of the control panel, back-panel, and side-panels shall have a white finish coat.

2.2 CONTROL PANEL MATERIALS

- A. Outdoor control panels shall be stainless steel.
- B. The following requirements apply to the front and rear face of the panel, both sides and the edges of all flanges, and the periphery of all holes or cut-outs.
 - 1. All high spots, butts, and rough spots shall be ground smooth.
 - 2. The surfaces shall be sanded or sandblasted to a smooth, clean bright finish.
 - 3. All traces of oil shall be removed with a solvent.
 - 4. The first coat of primer shall be applied immediately.
- C. Structural shapes and strap steel shall comply with ASTM A 283 – Low and Intermediate Tensile Strength Carbon Steel Plates, Grade C.
 - 1. Bolting Material: Commercial quality carbon steel bolts, nuts, and washers shall be ½-inch diameter with UNC threads. Carriage bolts shall be used for attaching end plates. All other bolts shall be hex end machine bolts. All nuts shall be hot pressed hex, American Standard, heavy. Standard wrought washers shall be used for foundation bolts and attachments to building structures. All other bolted joints shall have SAE standard lock washers.
- D. Panels shall be of sufficient size to adequately enclose all instruments designated

as “panel-mounted” plus ample interior clearance to allow for installation, general servicing, and maintenance of the instruments. Elevations and horizontal spacing shall be subject to Engineer’s approval.

2.3 CONTROL PANEL ELECTRICAL REQUIREMENTS

- A. Wiring Duct: Wiring duct shall be manufactured of Noryl and shall be of the restricted slot design, white in color, Panduit or approved equal. Size shall be based on actual wiring requirements. All duct shall be precisely cut for a precision fit. All covers shall be readily accessible. All analog signals shall be run in separate ducts from digital signals and power.
- B. Cable Ties: Cable ties shall be self-locking with stainless steel locking tables as manufactured by Thomas & Betts. Adhesive backed type mounting bases shall not be used.
- C. Terminal Blocks: Terminal blocks shall be din rail mounted, 20A, and 300V. All terminals shall be complete with marking tags. Terminals shall be Phoenix Contact, Model SLKK 5, or equal.
- D. Fuse Terminal Blocks: Fuse terminal blocks shall be the same profile, but different color as the feed through terminal blocks, and shall have blown fuse light indicator. Fuse terminal blocks shall be Phoenix Contact, model UK5-HESI, or equal.
- E. Disconnect Terminal Blocks: Disconnect terminal blocks shall be of knife disconnect type. The blocks shall have a universal foot for mounting on DIN rail and a width of the feed through block. Disconnect terminal blocks shall be Phoenix Contact Type UK 5-MTK-P/P, or equal.
- F. Wiring Methods: Wiring methods and materials for all panels shall be in accordance with the N.E.C. requirements for General Purpose (no open wiring) unless otherwise indicated.
- G. Signal and Control Circuit Wiring:
 - 1. Wire type and sizes: Conductor shall be flexible stranded copper machine tool wire, UL listed Type MTW, and shall be rated 600-volts. Wires for instrument control circuits and alarm input circuits shall be No. 14 AWG. All other wires, including shielded cables, shall be No. 16 AWG minimum.
 - 2. Wire Insulation Colors: Conductors supplying 120 VAC power on the line side of a disconnecting switch shall have a black insulation for the ungrounded conductor. Neutral circuit conductors shall have white insulation. Equipment ground conductors shall have green insulation. Insulation for ungrounded 120 VAC control circuit conductors shall be red. All wires energized by a voltage source external to the control panels shall have yellow insulation. Insulation for all DC conductors shall be

- blue.
3. Signal Cable – Non Computer Use:
 - a. Signal wire shall be twisted pair or triads in conduit or troughs. Cable shall be constructed of No. 18 AWG copper signal wires with THWN or THHN insulation.
 - b. Color code for instrument signal wiring shall be as follows for 24 VDC wire:
(+) 24 VDC = RED
(-) 24 VDC = GRAY
Analog signal:
POS = BLACK
NEG = CLEAR
Discrete events & low voltage control:
POS = RED or BLUE
NEG = GRAY
Ground = GREEN
 - c. Color code for instrument signal wiring shall be as follows for 120 VAC wire:
Power (L1) = BLACK
Neutral (L2) = WHITE
Control = VIOLET
Ground = GREEN
 - d. A copper drain wire shall be provided for the bundle with a wrap of aluminum polyester shield. The overall bundle jacket shall be PVC.
 4. Industrial Ethernet Cable:
 - a. Shielded (STP) Ethernet Cable shall be used to connect PLC interfaces and radios to the Industrial Ethernet Switches.
 5. Wire Marking: Wire numbers shall be marked using white numbered wire markers made from plastic-coated cloth, Brady Type B-500 or approved equal, or shall be heat-shrink plastic.
 6. Flexible conduit is not acceptable except when specifically approved by the Engineer in writing.
 7. Conduit fittings shall be Crouse-Hinds cast fittings or approved equal.
 8. Panels shall be provided with two separate ground bars, one for power ground and one for signal ground. Provide the ground bars with tapped holes to accommodate ground connections from various devices in the panel. Provide insulator kit for signal ground bar. Connect all signal shield grounds within the panel to the signal ground bar. Suggested ground bar and insulator kit: Square D Part #PK12GT and #PKGTAB.
 9. For case grounding, panel shall be provided with a ¼-inch by 1-inch copper ground bus complete with solderless connector for one No. 4 AWG bare stranded copper cable. The copper cable shall be provided by the Contractor and be connected to a system ground loop.

H. Panel Lights and Receptacles: Panels shall be internally lighted by LED lights,

provided with guards and a toggle switch located convenient to each access door. One duplex GFI type receptacle shall be provided in each panel section. The lights and receptacles shall be wired to outgoing terminal blocks for dedicated 120 volt, 60 Hertz, single-phase supply.

- I. Power Supply Wiring:
 - 1. Unless otherwise indicated, all instruments and motor controls shall operate on 115 volt, 60 Hz circuits.
 - 2. When instruments do not come equipped with integral fuses, provide fuses as required for the protection of individual instruments against fault currents. Fuses shall be mounted on the back of the panel in a fuse holder, and each fuse shall be identified by a service name tag. Fuses shall be manufactured by Bussmann Manufacturing Division, Type KAW TRON or approved equal.
- J. 24 VDC Power Supply: Panels shall be equipped with a linear 24 volt D.C. power supply for driving current loops and other D.C. powered equipment. It shall be solidly mounted, labeled and located in plain view oriented for ease of maintenance. Unit shall be sized based on 200% of load requirements of equipment actually furnished. 24 VDC power supply shall be PULS, Phoenix Contact, Allen-Bradley, or equal.
- K. DIN Rail Mount Circuit Breakers: Circuit breakers shall be 115 VAC, single pole as manufactured by Allen Bradley, Series 1492-CB1, or approved equal.
- L. Relay Sockets: Sockets for control relays shall be rated 5 amperes. Terminal screws shall be on the "Pressure Screw" type. Sockets shall be mounted via DIN rail and related hardware. Sockets shall be as manufactured by Square D, Type KU, or equal.
- M. Control Relay: Magnetically held relays shall have one spare contact. Control relays shall have contacts rated for 10-ampere inductive load, 125 volts, with coil voltage, number of poles, and pole arrangement as indicated on the plans. Relays shall be of the indicating type. Provide Square D, Type KU, or equal.
- N. Push Buttons, and Indicating Lights:
 - 1. Type: Heavy duty, oil tight.
 - 2. NEMA 12 rated to match panel in which mounted.
 - 3. Push Button Contacts:
 - a. Provide one normally open and one normally closed contact.
 - b. Type: Double break, silver contacts with moveable contact blade providing scrubbing action.
 - c. Rating: Compatible with AC or DC current with devices simultaneously operated by the switch contacts but not less than 10 Amps resistive at 120 VAC/VDC continuous.
 - 4. Indicating Lights:
 - a. Type: 120 VAC.

- b. Lamps: High visibility LED type, long life (20,000 hours minimum).
 - c. Indicating lights shall be push-to-test.
- O. Uninterruptible Power Supplies: APC Smart-UPS Online SKU-SMT1500C.

2.4 SPARE PARTS

- A. The Contractor shall furnish to the Engineer all necessary spare parts of components required to maintain the system. Prior to final acceptance of work, the Contractor shall provide a spare parts listing of all necessary spare parts and quantities for review by OMUC's Representative. The spare parts shall include, but not be limited to, the following minimum requirements:

Description	Quantity
24 VDC Power Supply	1
Control Relay	2

- B. The Contractor shall deliver all required spare parts upon final acceptance of the work. The spare parts shall not be used as replacement parts during the guarantee period.

PART 3 EXECUTION

3.1 INSTALLATION

- A. Installation, testing, calibration, validation, startup and instruction shall be in accordance with Section 26 05 00 Common Work Results for Electrical.
- B. Install each control panel level and plumb, and secure by the favorably reviewed seismic mounting method. Doors shall swing freely and close tightly.
- C. Provide a concrete pad for each field-mounted, freestanding control panel per Contract Drawings.
- D. Carefully repair any damage to the structure, components, or finish to the satisfaction of the Engineer. Clean all nameplates.
- E. Exercise care at all times after installation of control panels to keep out foreign matter, dust, dirt, debris, or moisture. Use protective sheet metal covers, canvas, heat lamps, etc., as needed to ensure equipment protection.
- F. For all metal panels mounted on concrete walls or floors, install 1/8-inch shims, and paint the back sides and bottom of the panels with Mobil Hi-Build Bituminous Coating 35-J-10; Koppers Bitumastic Super Tank Solution; or approved equal. Film thickness shall be 10-mils minimum.

END OF SECTION

Notice of Exemption

To: Placer County Clerk
Recorder's Office
2954 Richardson Drive
Auburn, CA 95603

From: City of Roseville
Development Services Dept.
311 Vernon Street
Roseville, CA 95678

Project Title: Five Star Intertie Improvements Project

Project Location: The Intertie improvements would be constructed within an existing intertie station, and within public right of way, located at the northwest corner of Five Star Boulevard and Stanford Ranch Road at 6710 Stanford Ranch Road in the City of Roseville, Placer County, CA (APN: 017-123-043-000).

Project Description: The Roseville Environmental Utilities Department proposes construction of improvements as follows: The Five Star Intertie is a manually operated intertie between the City and the Placer County Water Agency (PCWA). To improve operational functionality, this project would entail installation of equipment to automate and provide remote capabilities via cellular wireless technology for monitoring and operation of the intertie via a Supervisory Control and Data Acquisition (SCADA) system. Since the location does not have power service, a new transformer is required, which will be tied into the existing junction box. The project will also include replacement of any flow measurement instruments for automation compatibility. The project does not include any new long-term water supply; it only allows for more efficient distribution of existing surface and ground water supplies.

Public Agency Approving Project: Roseville City Council

Agency Carrying Out Project: Roseville Environmental Utilities Department

Reason why this Project is Exempt: This project qualifies for a Class 1 Exemption as described in Section 15301 of the California Environmental Quality Act (CEQA) guidelines which states:

"Class 1 consists of minor alteration of existing public facilities....involving negligible or no expansion of use beyond that previously existing.... examples include but are not limited to: (b) Existing facilities of both investor and publicly-owned utilities used to provide electric power, natural gas, sewerage, or other public utility services;"

The project involves modification of existing facilities to increase water distribution system operational flexibility. The improvements do not result in expansion of use. No sensitive resources are present on the project site. Therefore the Class 1 Exemption is applicable to the proposed project.

Lead Agency Contact Person: William Montz, Roseville Environmental Utilities Department, 2005 Hilltop Circle, Roseville, CA 95747 (916) 774-5545.

COUNCIL COMMUNICATION

CC #: 3649

File #: 0721

Title: California Integrated Transit Project - User Agreement
Contact: Zach Presley 916-774-5365 zpresley@roseville.ca.us

Meeting Date: 11/20/2024

Item #: 6.3.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution approving the Kuba User Agreement for Roseville Transit's hardware procurement for the California Integrated Transit Project (Cal-ITP) and authorize the City Manager to execute the agreement.

BACKGROUND

Roseville is participating in a regional transit project led by the Sacramento Area Council of Governments (SACOG). The project is a part of the California Integrated Travel Project (Cal-ITP) which will provide a consistent and contactless fare payment option across all transit agencies in the Sacramento/Placer area.

On September 18, 2024, the City Council approved the funding mechanism for the contactless payment project. That item set up a subrecipient agreement in which SACOG would fund/reimburse Roseville for all capital costs for this project. This user agreement with Kuba establishes the scope of work and payment provisions for all hardware being procured with this project.

FISCAL IMPACT

Capital costs for this project have been assessed at \$123,649.89 and will be funded using Transit and Intercity Rail Capital Program (TIRCP) funding that was secured in a grant submitted by SACOG.

The initial three years of operating costs for this project have been assessed at \$59,535 and are being funded with Local Transportation Funds (LTF). There is no impact to the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of this user agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Goal F - Invest in well-planned infrastructure and growth

USER AGREEMENT

1. This User Agreement is entered into between **City of Roseville** “Contracting Agency” and **Kuba, Inc.** “Contractor”. This User Agreement expressly incorporates the California Master Service Agreement (MSA) No. [5-21-70-28-02] which is incorporated herein. This User Agreement contract form serves as an appropriate equivalent to the STD 213 as required by the MSA.

Contracting Agency: City of Roseville

Contractor Name: Kuba, Inc.

2. The Term of this Agreement is:

Start Date: 08/17/2024

Through End Date: 02/28/2027

3. The maximum amount of this Agreement is:

See Exhibit B for pricing.

4. **Exhibits.** The parties agree to comply with the terms and conditions of the following exhibits, which are by this reference made a part of this agreement.

Exhibits	Title	Pages
Exhibit A	Scope of Works	4
Exhibit B	Payment Provisions	3

User Agreement Scope of Work

1. Incorporate MSA by Reference

MSA 5-21-70-28-02 and its amendments are hereby incorporated by reference as if attached hereto.

2. Project Background

Seven transit operators in the region will lead the project with support from the Sacramento Area Council of Governments (SACOG). In 2022, the region was awarded funds from the Transit and Intercity Rail Capital Program, \$2.18 million of which was allocated to collaboratively deploy contactless payment technology across the region's agencies.

The seven transit providers that operate in the SACOG region, and are part of this award, include El Dorado Transit, Placer County Transit, Roseville Transit, Sacramento Regional Transit District (SacRT), South County Transit/Link (SCT), Yolo County Transportation, and Yuba-Sutter Transit. A brief description of each transit provider follows:

- **El Dorado Transit** was established in 1975 and has since expanded to provide public Dial-a-Ride service and four fixed-route lines for the western slope communities of the county. The operator also provides two commuter routes connecting the county with Folsom and Sacramento. Additionally, the operator jointly provides a fixed-route line with Capitol Corridor and Amtrak connecting Sacramento, El Dorado County and South Lake Tahoe. In 2018, the operator made \$1.5 million from passenger fares and supported over 376,000 trips.

- **Placer County Transit** operates one local and five intercity fixed routes services throughout the county. Their service also includes a commuter route connecting the county as far out as Colfax to Sacramento. The fixed-route services are supplemented by a public Dial-a-Ride service

- **Roseville Transit** serves the most populous city in Placer County, providing 10 local fixed-routes, six morning commuter routes to Sacramento, and seven evening commuter routes back to Roseville. These services also include Dial-a-Ride and paratransit.

- **Sacramento Regional Transit District (SacRT)** was established in 1973 and is the largest operator in the area, offering 80 fixed-route local and commuter bus routes throughout Sacramento and neighboring communities within the 418 square-mile service area. Further, the operator provides paratransit, Dial-a-Ride, and SmaRT Ride Microtransit services. SacRT co-operates the Causeway Connection with Yolo County Transportation, joining Davis and East Sacramento.

- **South County Transit/Link (SCT)** operates two inter-city fixed-routes – one in the Delta communities of the southernmost parts of Sacramento County and one Highway 99 inter-city fixed route from Lodi to Elk Grove. A commuter route is also offered, stretching from Galt to Sacramento. Within Galt, SCT also offers Dial-a-Ride services.

- **Yolo County Transportation** services disparate but populous cities in addition to more rural communities within the county. The operator offers 27 fixed-route local and intercity routes. Of these, four routes offer cross-county connectivity between Yolo and Sacramento in addition to the jointly operated Causeway Connection. Both microtransit and paratransit are offered in the county.

- **Yuba-Sutter Transit** operates six local fixed-routes, two commuter routes on SR 70 and SR 99 corridors to Sacramento, and three rural routes with deviations within $\frac{3}{4}$ miles of a rural route with an advanced reservation. Dial-a-Ride service is available across Marysville, Yuba City, Olivehurst, and Linda.

3. Transit Provider Objectives

The core objective of the project is to reinforce regional collaboration by creating a seamless payment experience across and within agencies to expand ridership. Introducing contactless payments to the existing portfolio of fare media provides riders with the convenience to pay with the credit/debit card in their pocket. Further, the region's agencies aim to increase the on-time performance and efficiency of their transit systems through speedier boarding with riders no longer needing to search for exact change.

While the scope of work submitted to vendors aims for a regional collaboration, sections of this scope of work hereafter pertain to Roseville Transit only.

4. Fare Structure and Business Rules

Yolo County Transportation District will implement the following fare policies:

- Base fares vary by mode/route but are all flat fares
 - Fixed-route services cost \$1.50 if local or \$3.50 if commuter (and non-resident)
 - Dial-a-ride costs \$3.75
 - Paratransit costs \$2.50
- Fare caps are requested at this time
 - Daily caps for local and commuter services, respectively
 - Monthly capping for local and commuter services, respectively
- Local transfers are not requested at this time
- Inter-agency transfers (e.g., Placer, SacRT, etc.) are requested when available

Existing discounts (seniors, disability, etc.) will continue to be offered on the legacy systems. When such capability is available to offer those discounts on the contactless payment system, Roseville Transit may request that the Category B provider integrate with the resulting Eligibility Verification system to do so.

5. On-board Technologies

Roseville Transit currently accepts cash, Roseville Transit passes, Placer County Transit passes, SacRT passes, and Connect Card taps. The fleet consists of 13 single-door Gillig buses, 15 two-door Gillig, eight ARBOC single-door cutaway buses, three Champion single-door cutaway buses.

Onboard technologies include SacRT GTFS-rt while GMV Syncromatics provides arrival times. The vendor will confirm compatibility with available technologies and connectivity networks to support the open loop system or propose solutions when needed.

6. Scope of Work for Category A (PADs)

Roseville Transit requests a single validator at the front of each vehicle. We expect the vendor to complete installation for the fleet.

PAD Unit Type	PAD Units Needed
Front door units	49
Spare units	5

6.1 Determining whether any changes are needed to default service level agreements (SLAs) in the User Agreement

Roseville Transit accepts the default SLAs in the Master Service Agreement.

6.2 Determining internal responsibilities for the project

Please reach out to Rich Frost to coordinate all details regarding this project.

Zach Presley

zpresley@roseville.ca.us

EXHIBIT B – PAYMENT AND BUDGET PROVISIONS

1. RATES

The not-to-exceed pricing for MSA products and services to be provided to Transit Agencies are listed in Exhibit B.1 - Rate Sheet. All prices and fees shall be fixed for the entire MSA term including any optional extension periods unless the State approves a price adjustment in accordance with Section 6, Rate Adjustments.

A. Payment Acceptance Devices - Category A

For Category A Products and Services, rates are determined for **Roseville Transit** are as follows:

		TOTAL CAPEX				\$123,649.89
		TOTAL OPEX				\$59,535.00
		GRAND TOTAL				\$183,184.89
Description	Unit of measure	Rate	Qty	Months	Total	
Stand Alone Devices - ABT 3000	Unit	\$972.61	54		\$52,520.94	
ABT3000 Barcode Reader	Unit	\$195.00	54		\$10,530.00	
Mounting Pole	Unit	\$105.33	0		\$0.00	
Installation Front Door	Unit	\$562.50	49		\$27,562.50	
Implementation Service	Once-off	\$10,000.00	1		\$10,000.00	
Integration with Transit Processor	Once-off	Waived	0		\$0.00	
Emv Level 3 Certification	Once-off	Waived	0		\$0.00	
Custom Solution Development Work	per hour	\$137.50	50		\$6,875.00	
T-clamps, Plates, Onsite Survey	Once-off	\$10,635.00	1		\$10,635.00	
Tax Estimate	Once-off	\$73,685.94	1	7.50%	\$5,526.45	
CAPEX Estimate					\$123,649.89	
OPEX (3-Year Total)	Lump Sum	\$59,535.00	1	36	\$59,535.00	
Total CAPEX + OPEX					\$183,184.89	

2. TRANSIT PROCESSING SERVICES RATE DETERMINATION AND PUBLICATION (Category B Only) – (Not Applicable)**3. TRAVEL**

Transit Agencies may allow additional travel reimbursement as permitted, which must be itemized separately on the invoice. The Contractor must have prior approval by the Transit Agency for any additional travel reimbursement.

4. INVOICES**A. Submission of Invoices**

- 1) The Contractor shall submit itemized invoices to the Transit Agency contact person at the address contained in the Transit Agency's User Agreement. The information is mandatory information to be provided for all invoices:
 - a) DGS MSA Number
 - b) Transit Agency Contract Number
 - c) Transit Agency Order Number
 - d) Transit Agency Billing Code
 - e) Transit Agency Name
 - f) Transit Agency Address
 - g) Description of services ordered
 - h) Pricing information, specified by Tier or Breakpoint where applicable
- 2) The Transit Agency contact person will verify and approve, or disapprove, the invoiced items. If the Transit Agency does not approve the invoiced items, the invoice will be disputed and returned to the Contractor for correction.

5. PAYMENT

Payment for services performed under this Contract will be made upon satisfactory completion of services rendered. The Contractor shall invoice Transit Agencies in arrears upon successful completion of services. Invoices for services are not due and payable, and do not constitute an obligation of the Transit Agency, until the month following the month for which charges are accrued.

Payment shall be made within 45 days in accordance with, and within the time specified in Government Code Chapter 4.5, commencing with Section 927 unless agreed otherwise in the User Agreement.

The payment terms for the Capital Expenditures portion of the products and services delivered under this Contract will be paid in the percentage amounts noted below:

- 40% on notice to proceed.
- 40% on delivery.
- 20% on acceptance.

6. RATE ADJUSTMENTS

Contractor may request Consumer Price Index (CPI) rate increases for services should the State decide to execute the options to extend. Rate increases may be requested no more than once annually and may only be requested following the initial five (5) year term of the Agreement. Rate increases shall be capped at three percent (3%) for a given year and may only be requested when the CPI for the "Public Transportation" goods and services category, as published by the U.S. Department of Labor, Bureau of Labor Statistics has increased one percent (1%) or greater for the previous calendar year. The website, subject to change without amendment to this Agreement, can be found at the [CPI Index](https://www.bts.gov/components-consumer-price-index-transportation) (<https://www.bts.gov/components-consumer-price-index-transportation>).

The Contractor shall submit a written request to the DGS Contract Administrator, provide a copy of the index and other supporting documentation necessary to support the adjustment. Rates will be fixed for twelve (12) months following an approved price adjustment. Adjustments shall not be retroactive.

File #: 0800-03

Title: California-Oregon Transmission Project - Entitlement Transfer
Contact: William Forsythe 916-774-5619 wforsythe@roseville.ca.us

Meeting Date: 11/20/2024
Item #: 6.4.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute the Transmission Capacity Acquisition Agreement between San Juan Water District, Carmichael Water District, Turlock Irrigation District, and the City of Roseville; the Assignment and Assumption Agreement between San Juan Water District, Carmichael Water District, Turlock Irrigation District, and the City of Roseville; and the Form of Instrument of Assignment and Transfer between Turlock Irrigation District, the City of Roseville, and the Transmission Agency of Northern California.

BACKGROUND

The California-Oregon Transmission Project (COTP) consists of 340 miles of 500-kilovolt alternating current (AC) transmission line between Southern Oregon and Central California. The COTP has a capacity of 1,600 megawatts, enough to provide power to more than one million homes at any given time. One of the COTP's benefits is to provide California access to energy supplies in the Pacific Northwest. Roseville has a 29MW entitlement to the COTP.

The Transmission Agency of Northern California (TANC) is a joint powers agency established by a group of California publicly-owned utilities in 1984, of which Roseville is a member along with 14 other publicly owned utilities. TANC's initial purpose was to plan, design and construct the COTP. The COTP was completed and energized in 1993.

Today, TANC's primary purpose is to provide electric transmission to Roseville and its other member utilities through transmission line ownership or contract arrangements. As the project manager for the COTP, TANC is responsible for its day-to-day operation and maintenance, compliance, and any potential upgrades to the line.

Original entitlements to the COTP are held by Carmichael Water District and San Juan Water District. Both of these water agencies are seeking to dispose of their 1MW each entitlements, and Roseville and Turlock Irrigation District are seeking to acquire them. Roseville as part of this action will increase its COTP entitlement to a total of 30MW. Additionally, Roseville is seeking to

assign this additional 1MW to TANC for management of Roseville's entire COTP entitlement.

FISCAL IMPACT

The cost of acquiring an additional 1MW of transmission rights on the California-Oregon Transmission Project is a one-time cost of \$150,000, which is included in the current FY2024-25 Electric Fund budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of these agreements meets the above criteria and are not subject to CEQA. No additional environmental review is required.

Exhibit B

TRANSMISSION CAPACITY ACQUISITION AGREEMENT

AMONG

**THE SAN JUAN WATER DISTRICT AND THE CARMICHAEL WATER
DISTRICT**

AND

THE TURLOCK IRRIGATION DISTRICT AND THE CITY OF ROSEVILLE

This Transmission Capacity Acquisition Agreement (“Agreement”), dated [REDACTED] 2024, is entered into by and among the San Juan Water District (“SAN JUAN”), and the Carmichael Water District (“CARMICHAEL”) collectively referred to each individually as a “SELLER” and collectively as “SELLERS” in this Agreement and the Turlock Irrigation District (“TURLOCK”), and the City of Roseville, California (“ROSEVILLE”), collectively referred to each individually as a “BUYER” and collectively as “BUYERS” in this Agreement, SAN JUAN, CARMICHAEL, TURLOCK and ROSEVILLE shall be referred to individually as a “Party” and collectively as the “Parties.”

RECITALS

- L. SAN JUAN is a community services district formed under Section 61000 et seq., Title 6, Division 3 of the California Government Code Water Code.
- M. CARMICHAEL is an irrigation district organized under the laws of the State of California (California Water Code §§ 20500-29978).
- N. SAN JUAN is a participant in the California Oregon Transmission Project (“COTP”) with a 0.0625 share and are provided in whole megawatts as 1.0000 megawatt of entitlement of the COTP.
- O. CARMICHAEL is a participant in the COTP with a 0.0625% share and are provided in whole megawatts as 1.0000 megawatt of entitlement of the COTP.
- P. TURLOCK is an irrigation district organized under the laws of the State of California (California Water Code §§ 20500-29978) and a vertically integrated electric utility engaged in the business of generation, transmission and distribution of electric power to customers in and around the City of Turlock, California.
- Q. ROSEVILLE operates a municipal electric utility engaged in the business of generation, transmission, and distribution of electric power to customers in its service territory located in and around the City of Roseville, California.
- R. The SELLERS desire to sell each of their entire interests in the COTP, which combined are 0.1250% and are provided in whole megawatts as 2 megawatts of COTP entitlement, and BUYERS desire to purchase the same, with the BUYERS evenly splitting the SELLERS’ combined total COTP capacity such that TURLOCK shall purchase 0.0625% and ROSEVILLE purchase 0.0625% and are provided in whole megawatts as 1 megawatt each of COTP entitlement .
- S. SAN JUAN and CARMICHAEL are parties to the COTP Interim Participation Agreement (“IPA”), which governs their rights to sell their shares of and assign their rights to the COTP transmission capacity.
- T. SAN JUAN and CARMICHAEL desire to assign their rights and obligations under the IPA to TURLOCK AND ROSEVILLE, and TURLOCK AND ROSEVILLE desire to assume SAN JUAN’s and CARMICHAEL’s rights and obligations under the IPA.

NOW THEREFORE, in consideration of the premises described in the recitals, and in consideration of the terms, covenants, and conditions that are set out below, the Parties have entered into this Agreement.

SECTION 1. SCOPE OF AGREEMENT

- 1.1 Scope of Agreement: Under this Agreement the SELLERS will convey to BUYERS the unencumbered-clear title to all of SELLERS' rights, title, and interest in the COTP ("Ownership Rights") as provided in the COTP IPA, which is incorporated herein by reference, which ownership percentage is 0.1250% and are provided in whole megawatts as 2 megawatts of COTP entitlement. BUYERS will purchase and evenly split the SELLERS' combined total COTP capacity, with TURLOCK purchasing 0.0625% and ROSEVILLE purchasing 0.0625% and are provided in whole megawatts as 1 megawatt each of COTP entitlement .
- 1.2 Selling Price: SELLERS agree to sell their Ownership Rights for [REDACTED] dollars (\$ [REDACTED].00) ("Sale Amount") and BUYERS agree to pay the Sale Amount, with each BUYER paying 50% of the Sale Amount.
- 1.3 Timing: SELLERS and BUYERS agree that the sale will be consummated on or before 12 PM Pacific Prevailing Time [Month] 1, 2024 ("Closing Date").

SECTION 2. OBLIGATIONS OF BUYER and SELLER

- 2.1 Obligation(s) of BUYERS: BUYERS agree to pay the Sale Amount into an escrow account on or before [Month] 1, 2024 (30 days before Closing Date). This escrow shall be subject to the terms and conditions of the Escrow Agreement to be agreed upon by the Parties, to enable SELLERS to represent that, on or before the Closing Date, they have sufficient funds to retire outstanding Bond obligations for the COTP shares being sold to BUYERS.
 - 2.1.1 BUYERS agree to each pay their pro rata share (25%) of all reasonable costs incurred to establish the escrow account for the payment set forth in Section 2.1 of this Agreement.
- 2.2 Obligation(s) of SELLERS: SELLERS agree to complete all escrow requirements on or before the Closing Date, in order to permit the timely conveyance of title from SELLERS to BUYERS per the escrow instructions contained within the Escrow Agreement.
 - 2.2.1 SELLERS will remove any encumbrances prior to the closing of escrow.
 - 2.2.2 SELLERS agree to each pay their pro rata share (25%) of all reasonable costs incurred to establish the escrow account for the payment set forth in Section 2.1 of this Agreement.

SECTION 3. REPRESENTATIONS and WARRANTIES

3.1 Representations and Warranties by BUYERS:

- 3.1.1 Each BUYER represents that it has sufficient funds available to purchase the Ownership Rights at the Sale Amount.
- 3.1.2 Each BUYER represents that it has the legal authority to complete the purchase per the stated terms and conditions.

3.2 Representations and Warranties by SELLERS:

- 3.2.1 Each SELLER will provide an opinion letter that represents that the Ownership Rights are free of any encumbrances.
- 3.2.2 Each SELLER represents that it is permitted to make the sale per the terms and conditions of the COTP IPA and will comply with Section 19.1 of the IPA prior to the assignment date.
- 3.2.3 Each SELLER represents that it has the legal authority to complete the sale per the stated terms and conditions.

SECTION 4. DEFAULTS and REMEDIES

4.1 Events of Default. An “Event of Default” shall mean with respect to a Party (“Defaulting Party”):

- 4.1.1 The failure of any Party to perform all of its respective obligations under Section 2.
- 4.1.2 The disclosure that one or more Representations in Section 3 is/are not valid.

4.2 Remedies. The Non-defaulting Party shall have the unilateral right to terminate the Agreement upon 5 days’ notice to the Defaulting Party. The Non-defaulting Party shall also have the unilateral right to seek enforcement of the terms and conditions of the Agreement as permitted by law.

SECTION 5. GENERAL PROVISIONS

5.1 Notice. Any notice to be given or any document to be delivered by either Party to the other hereunder may be delivered in person or may be deposited in the United States mail, postage prepaid, or sent by overnight courier with receipt confirmation, or by facsimile, if such document is not a notice of default hereunder, with a confirming copy to be delivered by first-class mail, and addressed to the persons specified below:

San Juan Water District

- 5.2 Assignment. No Party may assign this Agreement without the express written consent of the other Parties.
- 5.3 Severability. If any provision of this Agreement becomes invalid or unenforceable by decision of a court of competent jurisdiction, or state or federal statute, the remainder of this Agreement, which can be given effect without the invalid provision, shall continue in full force and shall not be impaired or invalidated.
- 5.4 Applicable Law. In the event of disputes arising hereunder, the Parties hereto agree to submit to the jurisdiction of any court of competent jurisdiction within the County of Stanislaus, California and shall comply with all requirements necessary to give such court jurisdiction, and that all matters arising hereunder shall be determined in accordance with the law and practice of such court and that this Agreement shall be governed, construed and interpreted solely by and under the laws of the State of California without regard to conflict of laws provisions.

- 5.5 No Waiver. The waiver by a Party of a breach or a default of any provision of this Agreement by another Party shall not be construed as a waiver of any succeeding breach of the same or any other provision, nor shall any delay or omission on the part of any Party to exercise or avail itself of any right, power or privilege that it has, or may have hereunder, operate as a waiver of any right, power or privilege by such Party.
- 5.6 Ambiguities Not to Be Construed Against Drafter. Captions and headings contained in this Agreement have been included for ease of reference and convenience and shall not be considered in interpreting or construing this Agreement. This Agreement has been produced by negotiation of the Parties and the rule of construction as against the interest of the drafter shall not apply.
- 5.7 Entire Agreement. This Agreement, including the Exhibit(s), constitutes the entire understanding between the Parties as to the subject matter hereof and may not be modified except by mutual written agreement.
- 5.8 Third Party Beneficiaries. This Agreement shall not be construed to create rights for, grant remedies to, or delegate any duty, obligation, or undertaking established herein to any third party as a beneficiary of this Agreement. Furthermore, this Agreement shall not be construed as placing any BUYER in privity of contract with any SELLER existing or future customers.
- 5.9 Defense and Indemnity. SELLERS shall defend, indemnify and hold harmless BUYERS, their elected officials, officers, employees, agents and volunteers, and each and every one of them, from and against all actions, damages, costs, liability, claims, losses and expenses of every type and description brought or advanced by any customer of SELLERS to which any or all of them may be subjected by reason of, or resulting from, directly or indirectly, the Parties' intent to execute, execution and/or performance of this Agreement by the Parties. The foregoing shall include, but not be limited to, any attorneys' fees reasonably incurred by BUYERS.
- 5.10 Conditions Precedent/Subsequent.
- 5.10.1 The Parties intend this Agreement and the Western Base Resource Allocation Assignments ("the Assignments") to be a part of a package in which SELLERS' COTP shares are purchased by BUYERS, and SELLERS' Western's Base Resource Allocations are assigned to BUYERS.
- 5.10.2 No Party shall be bound to perform any obligations of this Agreement until this Agreement is executed by the Parties and the Assignments have been completed. Failure to complete the Assignment shall relieve the parties from all obligation to perform under this Agreement.

5.10.3 The Parties shall be relieved of all obligations under this Agreement if the COTP Manager refuses or otherwise fails to assign SELLERS' interest in the COTP to BUYERS pursuant to the COTP IPA.

5.11 Counterparts. This Agreement may be executed in counterparts (including electronically), each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be duly executed on behalf of each by and through their authorized representatives as of the date hereinabove written.

Exhibit A

**ASSIGNMENT AND ASSUMPTION AGREEMENT
AMONG**

**THE SAN JUAN WATER DISTRICT AND THE CARMICHAEL WATER
DISTRICT**

AND

THE TURLOCK IRRIGATION DISTRICT AND THE CITY OF ROSEVILLE

ASSIGNMENT AND ASSUMPTION AGREEMENT

THIS ASSIGNMENT AND ASSUMPTION AGREEMENT (the “Agreement”) is entered into as of the ____ day of ____, 2024 (the “Effective Date”), by and among the San Juan Water District (“SAN JUAN”) and the Carmichael Water District (“CARMICHAEL”), collectively referred to as “Assignors”, and the Turlock Irrigation District (“TURLOCK”) and the City of Roseville, California (“ROSEVILLE”), collectively referred to as “Assignees”, each sometimes referred to individually as a “Party” and collectively as the “Parties.”

RECITALS

- A. SAN JUAN is a community services district formed under Section 61000 et seq., Title 6, Division 3 of the California Government Code Water Code.
- B. CARMICHAEL is an irrigation district organized under the laws of the State of California (California Water Code §§ 20500-29978).
- C. SAN JUAN is a participant in the California Oregon Transmission Project (“COTP”) with a 0.0625% share and are provided in whole megawatts as 1.0000 megawatt of entitlement to the COTP.
- D. CARMICHAEL is a participant in the COTP with a 0.0625% share and are provided in whole megawatts as 1.000 megawatt of entitlement to the COTP.
- E. TURLOCK is an irrigation district organized under the laws of the State of California (California Water Code §§ 20500-29978) and a vertically integrated electric utility engaged in the business of generation, transmission and distribution of electric power to customers in and around the City of Turlock, California.
- F. ROSEVILLE operates a municipal electric utility engaged in the business of generation, transmission, and distribution of electric power to customers in its service territory located in and around the City of Roseville, California.
- G. SAN JUAN and CARMICHAEL are parties to the COTP Interim Participation Agreement (“IPA”), effective as amended in April 2008, which governs their rights to sell their shares of and assign their rights to the COTP transmission capacity.
- H. The Western Area Power Administration (“Western”); CARMICHAEL; SAN JUAN; Pacific Gas and Electric Company (“PG&E”); the City of Redding, a municipal corporation; and the Transmission Agency of Northern California (“TANC”), a California Joint Powers Agency, jointly own and operate the COTP (collectively, “active COTP Participants”).

- I. On [REDACTED], 2024, Assignors and Assignees entered into a Transmission Capacity Acquisition Agreement Among San Juan and Carmichael and Turlock and Roseville ("TCAA"), under which Assignors agreed to sell to Assignees their entire rights, title, and interest in the COTP, which combined are 0.1250% and are provided in whole megawatts as 2 megawatts of entitlement to the COTP, with the Assignees evenly splitting the Assignors' combined total COTP capacity such that Turlock purchased 0.0625% and Roseville purchased 0.0625% and are provided in whole megawatts as 1 megawatt each of COTP entitlement, in each case upon the terms set forth in this Agreement or in the TCAA.
- J. Assignors desire to assign and transfer to Assignees, and Assignees desire to assume and accept all of Assignors' rights, title, and interest in, and all of Assignors' associated duties, liabilities, and obligations under or pursuant to, the IPA; the California-Oregon Transmission Project Operation and Maintenance Agreement, effective as amended in April 2008 ("POMA"); the Owners Coordinated Operation Agreement among Pacific Gas and Electric Company and PacifiCorp and the Transmission Agency of Northern California, and Western Area Power Administration, effective as amended in July 2015 ("OCA"); and the California-Oregon Intertie Path Operating Agreement among Pacific Gas and Electric Company, PacifiCorp, the Transmission Agency of Northern California, Western Area Power Administration, and California Independent System Operator Corporation, effective as amended in January 2021 ("COI-POA") ("Assigned Assets and Assumed Liabilities"), in each case upon the terms set forth in this Agreement and the TCAA.
- K. Capitalized terms used, and not otherwise defined, herein have the meanings set forth in the TCAA or the COTP IPA.

NOW, THEREFORE, in consideration of the mutual promises and covenants herein contained and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. **Assignment.** Subject to the terms set forth herein and effective as of the Effective Date, and subject further in all respects to the TCAA, Assignors hereby grant, assign, transfer, and convey to Assignees all of Assignors' rights, title, and interest in, to and under, the Assigned Assets and Assumed Liabilities.
2. **Assumption.** Subject to the terms set forth herein and effective as of the Effective Date, and subject further in all respects to the TCAA, Assignees hereby assume and accept the Assigned Assets and Assumed Liabilities from Assignors and agree to undertake and perform all of Assignors' liabilities and obligations in, to and under the Assumed Liabilities, whether arising before or after the Effective Date.
3. **Completed Assignment.** Assignors acknowledge that they have received consideration for this assignment and assumption and, accordingly, that this is a present, irrevocable and fully executed assignment, and that the rights and title of Assignors in the Assigned

Assets and Assumed Liabilities are in no way subject to defeasance or forfeiture by reason of any alleged failure of consideration.

4. **Assignment of Contracts.** Assignors shall use reasonable efforts to obtain all required consents to the transactions contemplated by this Agreement and the TCAA from the other parties to any contract, agreement or instrument that is an Assigned Asset or Assumed Liability or that governs the terms and conditions of an Assigned Asset or Assumed Liability.
5. **Non-Interference.** Each Party agrees that the assignment and assumption of the Assigned Assets and Assumed Liabilities hereunder is irrevocable and that no Party shall take any action or make any other assignment or direction which would prejudice the other Parties' rights hereunder, and that such action or assignment shall be void.
6. **Release.**
 - a. Despite anything to the contrary in the Assigned Assets and Assumed Liabilities, each and all of the active COTP Participants release and forever discharge Assignors, as well as their elective and appointive boards, elective officials, commissions, shareholders, directors, managers, members, officers, employees, agents, representatives, successors, and permitted assigns from all further obligations arising under the Assigned Assets and Assumed Liabilities, and from all manner of actions, causes of action, suits, debts, damages, expenses, claims, and demands whatsoever that each and all of the active COTP Participants have or may have against any of the foregoing persons, arising out of or in any way connected to performance under the Assigned Assets and Assumed Liabilities on and after the Closing Date. For avoidance of doubt, nothing herein affects any rights, liabilities, or obligations of each and all of the active COTP Participants or Assignees arising before the Closing Date, or the Assignors' responsibility within the COTP Interest Retained Rights and Liabilities, above.
 - b. Despite anything to the contrary in the Assigned Assets and Assumed Liabilities, Assignors release and forever discharge each and all of the active COTP Participants, as well as their elective and appointive boards, elective officials, commissions, shareholders, directors, managers, members, officers, employees, agents, representatives, successors, and permitted assigns from all further obligations arising under the Assigned Assets and Assumed Liabilities, and from all manner of actions, causes of action, suits, debts, damages, expenses, claims, and demands whatsoever that Assignors have or may have against any of the foregoing persons, arising out of or in any way connected to performance under the Assigned Assets and Assumed Liabilities on and after the Closing Date. For avoidance of doubt, nothing herein affects any rights, liabilities, or obligations of each and all of the active COTP Participants or Assignees arising before the Closing Date.
7. **Substitution.** Each and all of the active COTP Participants recognize Assignees as Assignors' successors-in-interest in and to the Assigned Assets and Assumed

Liabilities. Assignees by this Agreement become entitled to all rights, title, and interest of Assignors in and to the Assigned Assets and Assumed Liabilities as of and after the Closing Date. Each and all of the active COTP Participants and Assignees shall be bound by the terms of the Assigned Assets and Assumed Liabilities in every way as if Assignees are named in the Assigned Assets and Assumed Liabilities in place of Assignors.

- 8. **Successors and Assigns.** This Agreement is binding upon, inures to the benefit of, and is enforceable by the Parties hereto and their respective successors and assigns.
- 7. **Further Assurances.** Each Party agrees that it will promptly execute and deliver all such further instruments and documents and take all further action as the other party hereto may reasonably request in order to effectuate more fully the purposes of this Agreement.
- 8. **Counterparts.** This Agreement may be executed in counterparts (including electronically), each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument.
- 9. **Governing Law.** This Agreement shall be governed by and construed in accordance with the internal laws of the State of California.

IN WITNESS WHEREOF, this Assignment and Assumption Agreement has been duly executed and delivered as of the date first written above.

Exhibit A
FORM OF
INSTRUMENT OF ASSIGNMENT AND TRANSFER

This INSTRUMENT OF ASSIGNMENT AND TRANSFER (this “Assignment”), is made as of [_____] (the “Closing Date”), by and between the Turlock Irrigation District (“Turlock”) and the City of Roseville, California (“Roseville”) (collectively, “Assignors”), and the Transmission Agency of Northern California, a California Joint Powers Agency (“Assignee”).

RECITALS

- A. The Western Area Power Administration (“Western”); Pacific Gas and Electric Company (“PG&E”); Turlock, Roseville, the City of Redding, a municipal corporation; and the Transmission Agency of Northern California, a California Joint Powers Agency jointly own and operate the California-Oregon Transmission Project (“COTP”) (collectively, “active COTP Participants”); and
- B. Assignors hold the rights and obligations as well as an ownership and interest in, and entitlement to transfer capability on, the COTP, under the California-Oregon Transmission Project Interim Participation Agreement effective as amended in April 2008 (“IPA”); and
- C. Assignors desire to assign to Assignee all of their rights and delegate to Assignee all of their obligations under the IPA; the California-Oregon Transmission Project Operation and Maintenance Agreement, effective as amended in April 2008 (“POMA”); the Owners Coordinated Operation Agreement among Pacific Gas and Electric Company and PacifiCorp and the Transmission Agency of Northern California, and Western Area Power Administration, effective as amended in July 2015 (“OCA”); and the California-Oregon Intertie Path Operating Agreement among Pacific Gas and Electric Company, PacifiCorp, the Transmission Agency of Northern California, Western Area Power Administration, and California Independent System Operator Corporation, effective as amended in January 2021 (“COI-POA”) (collectively the “Assigned Contracts”); and
- D. Assignee desires to accept such assignment or rights and delegation of obligations under the Assigned Contracts; and
- E. Each and all of the active COTP Participants desire to release Assignors from their obligations under the Assigned Contracts and substitute Assignee in Assignors’ place under the Assigned Contracts;
- F. Capitalized terms used herein and not otherwise defined shall have the meaning set forth in the IPA;

NOW, THEREFORE, in consideration of the premises and mutual covenants contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto, intending to be legally bound, do hereby covenant and agree as follows:

1. Assignment and Assumption.

- a. Assignment. Assignors hereby irrevocably assign, grant, convey, and transfer to Assignee all of their rights, title and interest in, to and under, and all of their duties, liabilities and obligations under or pursuant to, the Assigned Contracts on the Closing Date, except for any rights or liabilities under the Assigned Contracts resulting from Assignors' performance or failure to perform its obligations under the Assigned Contracts prior to the Closing Date, which rights and liabilities are retained by and remain the responsibility of Assignors (the "COTP Interest Retained Rights and Liabilities").
- b. Assumption. Assignee hereby unconditionally accepts such assignment and assumes all of Assignors' rights, title and interest in, to and under, and all of Assignors' duties, liabilities and obligations under or pursuant to, the Assigned Contracts, and agrees to pay, perform, and discharge, as and when due, all of the obligations of Assignors under the Assigned Contracts accruing on and after the Closing Date, except for the COTP Interest Retained Rights and Liabilities.

2. Non-Interference. Each of Assignors and Assignee agrees that the assignment and assumption of the assigned rights and responsibilities hereunder is irrevocable and that neither party shall take any action or make any other assignment or direction which could prejudice the other's rights hereunder, and that any such action or assignment shall be void.

3. Release.

- a. Despite anything to the contrary in the Assigned Contracts, each and all of the active COTP Participants release and forever discharge Assignors, as well as their elective and appointive boards, elective officials, commissions, shareholders, directors, managers, members, officers, employees, agents, representatives, successors, and permitted assigns from all further obligations arising under the Assigned Contracts, and from all manner of actions, causes of action, suits, debts, damages, expenses, claims, and demands whatsoever that each and all of the active COTP Participants have or may have against any of the foregoing persons, arising out of or in any way connected to performance under the Assigned Contracts on and after the Closing Date. For avoidance of doubt, nothing herein affects any rights, liabilities, or obligations of each and all of the active COTP Participants or Assignee arising before the Closing Date, or the Assignors' responsibility

within the COTP Interest Retained Rights and Liabilities, above.

- b. Despite anything to the contrary in the Assigned Contracts, Assignors release and forever discharge each and all of the active COTP Participants, as well as their elective and appointive boards, elective officials, commissions, shareholders, directors, managers, members, officers, employees, agents, representatives, successors, and permitted assigns from all further obligations arising under the Assigned Contracts, and from all manner of actions, causes of action, suits, debts, damages, expenses, claims, and demands whatsoever that Assignors have or may have against any of the foregoing persons, arising out of or in any way connected to performance under the Assigned Contracts on and after the Closing Date. For avoidance of doubt, nothing herein affects any rights, liabilities, or obligations of each and all of the active COTP Participants or Assignee arising before the Closing Date.
- 4. **Substitution.** Each and all of the active COTP Participants recognize Assignee as Assignors' successor-in-interest in and to the Assigned Contracts. Assignee by this Agreement becomes entitled to all rights, title, and interest of Assignors in and to the Assigned Contracts as of and after the Closing Date. Each and all of the active COTP Participants and Assignee shall be bound by the terms of the Assigned Contracts in every way as if Assignee is named in the Assigned Contracts in place of Assignors.
- 5. **Representations and Warranties.** Each party hereto represents and warrants as follows:
 - a. It is duly organized, validly existing, and in good standing under the laws of the State of California;
 - b. It has the full right, power, and authority to enter into this Agreement and to perform its obligations hereunder.
 - c. It has taken all necessary corporate action to authorize the execution of this Agreement by its representative whose signature is set forth at the end hereof.
 - d. Its execution, delivery, and performance of this Agreement will not violate, conflict with, require consent under, or result in any breach or default under the provisions of any contract or agreement to which it is a party.
 - e. When executed and delivered, this Agreement will constitute the legal, valid, and binding obligation, enforceable against each party hereto in accordance with its terms.

6. Indemnification.

- a. Indemnification. Subject to the terms and conditions set forth in Section 6.b, Assignee and Assignors (as "Indemnifying Party") shall indemnify, hold harmless, and defend each other and their respective elective and appointive boards, elective officials, commissions, shareholders, directors, managers, members, officers, employees, agents, representatives, successors, and permitted assigns ([collectively,] "Indemnified Party") against any and all losses, damages, liabilities, deficiencies, claims, actions, judgments, settlements, interest, awards, penalties, fines, costs, or expenses of whatever kind, including reasonable attorney fees, that are incurred by Indemnified Party (collectively, "Losses"), arising out of or resulting from any third-party claim, action, cause of action, demand, lawsuit, arbitration, inquiry, audit, notice of violation, proceeding, litigation, citation, summons, subpoena, or investigation of any nature, civil, criminal, administrative, regulatory, or other, whether at law, in equity, or otherwise ("Claim") or any direct Claim against Indemnifying Party alleging:
 - i. A breach or non-fulfillment of any representation, warranty, or covenant under this Agreement by Indemnifying Party or its representatives;
 - ii. Any negligent or more culpable act or omission of Indemnifying Party or any of its representatives (including any reckless or willful misconduct) in connection with the performance of its obligations under this Agreement;
 - iii. Any bodily injury, death of any person, or damage to real or tangible personal property caused by the negligent or more culpable acts or omissions of Indemnifying Party or its representatives (including any reckless or willful misconduct); or
 - iv. Any failure by Indemnifying Party to materially comply with any applicable federal, state, or local laws, regulations, or codes in the performance of its obligations under this Agreement.
- b. Exceptions and Limitations on Indemnification. Despite anything to the contrary in this Agreement, Indemnifying Party is not obligated to indemnify or defend Indemnified Party against any Claim if such Claim or the corresponding Losses arise out of or result from, in whole or in part, Indemnified Party's:
 - i. Gross negligence or more culpable act or omission (including recklessness or willful misconduct); or
 - ii. Bad faith, failure to comply with any of its obligations set forth in this Agreement.
- c. Sole Remedy. THIS SECTION SETS FORTH THE ENTIRE LIABILITY AND OBLIGATION OF THE INDEMNIFYING PARTY AND THE SOLE AND EXCLUSIVE REMEDY FOR THE INDEMNIFIED PARTY

FOR ANY LOSSES COVERED UNDER SECTION 6.

7. **Effectiveness.** This Assignment shall become effective as of the Closing Date.
8. **Further Assurances.** Each of the Parties will, from time to time and at all times hereafter, upon every reasonable request to do so by another Party hereto, at its sole cost and expense, promptly make, do, execute and deliver, or cause to be made, done, executed and delivered, all such further acts, deeds, assurances and things as may be legally required or reasonably necessary in order to further implement and carry out the intent and purposes of this Agreement.
9. **Notices.** Any notice, demand, or request required or authorized by this Assignment to be given by one party to another party shall be delivered in accordance with Section 32 of the IPA and to the following addresses:

10. **Successors and Assigns.** The provisions of this Assignment are binding upon, and will inure to the benefit of, the successors and assigns of Assignor and Assignee, respectively.
11. **Interpretation.** For purposes of this Agreement: (a) the words "include," "includes," and "including" are deemed to be followed by the words "without limitation"; (b) the word "or" is not exclusive; and (c) the words "herein," "hereof," "hereby," "hereto," and "hereunder" refer to this Agreement as a whole. Unless the context otherwise requires, references in this Agreement: (x) to sections, schedules, and exhibits mean the sections of, and schedules and exhibits attached to, this Agreement; (y) to an agreement, instrument, or other document means such agreement, instrument, or other document as amended, supplemented, and modified from time to time to the extent permitted by the provisions thereof; and (z) to a statute means such statute as amended from time to time and includes any successor legislation thereto and any regulations promulgated thereunder. The parties drafted this Agreement without regard to any presumption or rule requiring construction or interpretation against the party drafting an instrument or causing any instrument to be drafted. The schedules and exhibits referred to herein are an integral part of this Agreement to the same extent as if they were set forth verbatim herein.
12. **Headings.** The headings in this Agreement are for reference only and do not affect the interpretation of this Agreement.
13. **Severability.** If any term or provision of this Agreement is invalid, illegal, or unenforceable in any jurisdiction, such invalidity, illegality, or unenforceability does not affect any other term or provision of this Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction. On such determination that any term or other provision is invalid, illegal, or unenforceable, the parties to this Agreement shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in a mutually acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the greatest extent possible.

14. **Entire Agreement.** This Agreement, together with all related clauses and documents that are incorporated by reference herein, is the sole and entire agreement of the parties to this Agreement regarding the subject matter contained herein and therein, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, regarding such subject matter.
15. **Amendment and Modification.** No amendment to (or rescission, termination, or discharge of) this Agreement is effective unless it is in writing, identified as an amendment to (or rescission, termination, or discharge of) this Agreement and signed by an authorized representative of each party to this Agreement.
16. **Waiver.**
 - a. No waiver under this Agreement is effective unless it is in writing, identified as a waiver to this Agreement, and signed by an authorized representative of the party waiving its right.
 - b. Any waiver authorized on one occasion is effective only in that instance and only for the purpose stated, and does not operate as a waiver on any future occasion.
 - c. None of the following is a waiver or estoppel of any right, remedy, power, privilege, or condition arising from this Agreement:
 - i. any failure or delay in exercising any right, remedy, power, or privilege or in enforcing any condition under this Agreement; or
 - ii. any act, omission, or course of dealing between the parties.
17. **Cumulative Remedies.** All rights and remedies provided in this Agreement are cumulative and not exclusive, and the exercise by either party of any right or remedy does not preclude the exercise of any other rights or remedies that may now or subsequently be available at law, in equity, by statute, in any other agreement between the parties, or otherwise. Despite the previous sentence, the parties intend that Indemnified Party's rights under Section 6 are its exclusive remedies for the events specified therein.
18. **Equitable Remedies.** Each of Assignor and Assignee acknowledges that a breach or threatened breach by it of any of its obligations under this Agreement would give rise to irreparable harm to the other party for which monetary damages would not be an adequate remedy and hereby agrees that if a breach or a threatened breach occurs, the other party shall, in addition to any and all other rights and remedies that may be available to it arising from such breach, be entitled to seek equitable relief, including a temporary restraining order, an injunction, specific performance, and any other relief that may be available from a court of competent jurisdiction (without any requirement to post bond).

19. **No Third-Party Beneficiaries.** This Agreement benefits solely the parties to this Agreement and their respective successors and permitted assigns and nothing in this Agreement, express or implied, confers on any other person any legal or equitable right, benefit, or remedy of any nature whatsoever under or by reason of this Agreement. Despite the previous sentence, the parties hereby designate the third parties included in the Section 6 definition of Indemnified Party as third-party beneficiaries of Section 6.
20. **Choice of Law.** This Agreement and all related documents and all matters arising out of or relating to this Agreement, whether sounding in contract, tort, or statute are governed by, and construed in accordance with, the laws of the State of California, United States of America, without giving effect to the conflict of laws provisions thereof to the extent such principles or rules would require or permit the application of the laws of any jurisdiction other than those of the State of California.
21. **Choice of Forum.** Each party irrevocably and unconditionally agrees that it will not commence any action, litigation, or proceeding of any kind whatsoever against the other party in any way arising from or relating to this Agreement and all contemplated transactions, including, but not limited to, contract, equity, tort, fraud, and statutory claims, in any forum other than the US District Court for the Eastern District of California or the courts of the State of California sitting in the County of Shasta, and any appellate court from any thereof. Each party irrevocably and unconditionally submits to the exclusive jurisdiction of such courts and agrees to bring any such action, litigation, or proceeding only in the US District Court for the Eastern District of California or the courts of the State of California sitting in the County of Shasta. Each party agrees that a final judgment in any such action, litigation, or proceeding is conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law.
22. **Counterparts.** This Agreement may be executed in counterparts (including electronically), each of which is deemed an original, but all of which together are deemed to be one and the same agreement.
23. **Titles.** The captions and headings in this Agreement are inserted to facilitate reference and shall have no bearing upon the interpretation of any of the terms and provisions of this Agreement.

Exhibit A

FORM OF
INSTRUMENT OF ASSIGNMENT AND TRANSFER

This INSTRUMENT OF ASSIGNMENT AND TRANSFER (this "Assignment"), is made as of [_____] (the "Closing Date"), by and between the City of Redding, a municipal corporation and a General Law City duly organized and existing under and by virtue of the Constitution and laws of the State of California ("Assignor"), and the Transmission Agency of Northern California, a California Joint Powers Agency ("Assignee").

RECITALS

- A. The Western Area Power Administration ("Western"); Turlock Irrigation District, the City of Roseville, Pacific Gas and Electric Company ("PG&E"); the City of Redding, a municipal corporation; and the Transmission Agency of Northern California, a California Joint Powers Agency, jointly own and operate the California-Oregon Transmission Project ("COTP") (collectively, "active COTP Participants"); and
- B. PacifiCorp owns a portion of the Pacific AC Intertie, with which the COTP operates in parallel, and the California Independent System Operator Corporation ("CAISO") is the path operator for the California-Oregon Intertie; and
- C. Assignor holds the rights and obligations as well as an ownership and interest in, and entitlement to transfer capability on, the COTP, under the California-Oregon Transmission Project Interim Participation Agreement effective as amended in April 2008 ("IPA"); and
- D. Assignor desires to assign to Assignee all of its rights and delegate to Assignee all of its obligations under the IPA; the California-Oregon Transmission Project Operation and Maintenance Agreement, effective as amended in April 2008 ("POMA"); the Owners Coordinated Operation Agreement among Pacific Gas and Electric Company and PacifiCorp and the Transmission Agency of Northern California, and Western Area Power Administration, effective as amended in July 2015 ("OCA"); and the California-Oregon Intertie Path Operating Agreement among Pacific Gas and Electric Company, PacifiCorp, the Transmission Agency of Northern California, Western Area Power Administration, and California Independent System Operator Corporation, effective as amended in January 2021 ("COI-POA") (collectively the "Assigned Contracts"); and
- E. Assignee desires to accept such assignment or rights and delegation of obligations under the Assigned Contracts; and

- F. Each and all of the active COTP Participants, PacifiCorp, and CAISO desire to release Assignor from its obligations under the Assigned Contracts and substitute Assignee in Assignor's place under the Assigned Contracts;
- G. Capitalized terms used herein and not otherwise defined shall have the meaning set forth in the IPA;

NOW, THEREFORE, in consideration of the premises and mutual covenants contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto, intending to be legally bound, do hereby covenant and agree as follows:

1. Assignment and Assumption.

- a. Assignment. Assignor hereby irrevocably assigns, grants, conveys, and transfers to Assignee all of its right, title and interest in, to and under, and all of its duties, liabilities and obligations under or pursuant to, the Assigned Contracts on the Closing Date, except for any rights or liabilities under the Assigned Contracts resulting from Assignor's performance or failure to perform its obligations under the Assigned Contracts prior to the Closing Date, which rights and liabilities are retained by and remain the responsibility of Assignor (the "COTP Interest Retained Rights and Liabilities").
- b. Assumption. Assignee hereby unconditionally accepts such assignment and assumes all of Assignor's rights, title and interest in, to and under, and all of Assignor's duties, liabilities and obligations under or pursuant to, the Assigned Contracts, and agrees to pay, perform, and discharge, as and when due, all of the obligations of Assignor under the Assigned Contracts accruing on and after the Closing Date, except for the COTP Interest Retained Rights and Liabilities.

2. Non-Interference. Each of Assignor and Assignee agrees that the assignment and assumption of the assigned rights and responsibilities hereunder is irrevocable and that neither party shall take any action or make any other assignment or direction which could prejudice the other's rights hereunder, and that any such action or assignment shall be void.

3. Release.

- a. Despite anything to the contrary in the Assigned Contracts, each and all of the active COTP Participants, PacifiCorp, and CAISO release and forever discharge Assignor, as well as its elective and appointive boards, elective officials, commissions, shareholders, directors, managers, members, officers, employees, agents, representatives, successors, and permitted assigns from all further obligations arising under the Assigned Contracts, and from all manner of actions, causes of action, suits, debts, damages, expenses, claims,

and demands whatsoever that each and all of the active COTP Participants, PacifiCorp, and CAISO have or may have against any of the foregoing persons, arising out of or in any way connected to performance under the Assigned Contracts on and after the Closing Date. For avoidance of doubt, nothing herein affects any rights, liabilities, or obligations of each and all of the active COTP Participants, PacifiCorp, CAISO, or Assignee arising before the Closing Date, or the Assignor's responsibility within the COTP Interest Retained Rights and Liabilities, above.

- b. Despite anything to the contrary in the Assigned Contracts, Assignor releases and forever discharges each and all of the active COTP Participants, PacifiCorp, and CAISO, as well as their elective and appointive boards, elective officials, commissions, shareholders, directors, managers, members, officers, employees, agents, representatives, successors, and permitted assigns from all further obligations arising under the Assigned Contracts, and from all manner of actions, causes of action, suits, debts, damages, expenses, claims, and demands whatsoever that Assignor has or may have against any of the foregoing persons, arising out of or in any way connected to performance under the Assigned Contracts on and after the Closing Date. For avoidance of doubt, nothing herein affects any rights, liabilities, or obligations of each and all of the active COTP Participants, PacifiCorp, CAISO, or Assignee arising before the Closing Date.

- 4. **Substitution.** Each and all of the active COTP Participants, PacifiCorp, and CAISO recognize Assignee as Assignor's successor-in-interest in and to the Assigned Contracts. Assignee by this Agreement becomes entitled to all rights, title, and interest of Assignor in and to the Assigned Contracts as of and after the Closing Date. Each and all of the active COTP Participants, PacifiCorp, CAISO, and Assignee shall be bound by the terms of the Assigned Contracts in every way as if Assignee is named in the Assigned Contracts in place of Assignor.

- 5. **Representations and Warranties.** Each party hereto represents and warrants as follows:

- a. It is duly organized, validly existing, and in good standing under the laws of the State of California;
- b. It has the full right, power, and authority to enter into this Agreement and to perform its obligations hereunder.
- c. It has taken all necessary corporate action to authorize the execution of this Agreement by its representative whose signature is set forth at the end hereof.
- d. Its execution, delivery, and performance of this Agreement will not violate, conflict with, require consent under, or result in any breach or default under

the provisions of any contract or agreement to which it is a party.

- e. When executed and delivered, this Agreement will constitute the legal, valid, and binding obligation, enforceable against each party hereto in accordance with its terms.

6. Indemnification.

- a. Indemnification. Subject to the terms and conditions set forth in Section 6.(b) Assignee and Assignor (as “Indemnifying Party”) shall indemnify, hold harmless, and defend each other and their respective elective and appointive boards, elective officials, commissions, shareholders, directors, managers, members, officers, employees, agents, representatives, successors, and permitted assigns (collectively, “Indemnified Party”) against any and all losses, damages, liabilities, deficiencies, claims, actions, judgments, settlements, interest, awards, penalties, fines, costs, or expenses of whatever kind, including reasonable attorney fees, that are incurred by Indemnified Party (collectively, “Losses”), arising out of or resulting from any third-party claim, action, cause of action, demand, lawsuit, arbitration, inquiry, audit, notice of violation, proceeding, litigation, citation, summons, subpoena, or investigation of any nature, civil, criminal, administrative, regulatory, or other, whether at law, in equity, or otherwise (“Claim”) or any direct Claim against Indemnifying Party alleging:
 - i. A breach or non-fulfillment of any representation, warranty, or covenant under this Agreement by Indemnifying Party or its representatives;
 - ii. Any negligent or more culpable act or omission of Indemnifying Party or any of its representatives (including any reckless or willful misconduct) in connection with the performance of its obligations under this Agreement;
 - iii. Any bodily injury, death of any person, or damage to real or tangible personal property caused by the negligent or more culpable acts or omissions of Indemnifying Party or its representatives (including any reckless or willful misconduct); or
 - iv. Any failure by Indemnifying Party to materially comply with any applicable federal, state, or local laws, regulations, or codes in the performance of its obligations under this Agreement.
- b. Exceptions and Limitations on Indemnification. Despite anything to the contrary in this Agreement, Indemnifying Party is not obligated to indemnify or defend Indemnified Party against any Claim if such Claim or the corresponding Losses arise out of or result from, in whole or in part, Indemnified Party’s:
 - i. Gross negligence or more culpable act or omission (including recklessness or willful misconduct); or

- ii. Bad faith, failure to comply with any of its obligations set forth in this Agreement.
 - c. **Sole Remedy.** THIS SECTION SETS FORTH THE ENTIRE LIABILITY AND OBLIGATION OF THE INDEMNIFYING PARTY AND THE SOLE AND EXCLUSIVE REMEDY FOR THE INDEMNIFIED PARTY FOR ANY LOSSES COVERED UNDER SECTION 6.
7. **Effectiveness.** This Assignment shall become effective as of the Closing Date.
8. **Further Assurances.** Each of the Parties will, from time to time and at all times hereafter, upon every reasonable request to do so by another Party hereto, at its sole cost and expense, promptly make, do, execute and deliver, or cause to be made, done, executed and delivered, all such further acts, deeds, assurances and things as may be legally required or reasonably necessary in order to further implement and carry out the intent and purposes of this Agreement.
9. **Notices.** Any notice, demand, or request required or authorized by this Assignment to be given by one party to another party shall be delivered in accordance with Section 32 of the IPA and to the following addresses:

10. **Successors and Assigns.** The provisions of this Assignment are binding upon, and will inure to the benefit of, the successors and assigns of Assignor and Assignee, respectively.
11. **Interpretation.** For purposes of this Agreement: (a) the words “include,” “includes,” and “including” are deemed to be followed by the words “without limitation”; (b) the word “or” is not exclusive; and (c) the words “herein,” “hereof,” “hereby,” “hereto,” and “hereunder” refer to this Agreement as a whole. Unless the context otherwise requires, references in this Agreement: (x) to sections, schedules, and exhibits mean the sections of, and schedules and exhibits attached to, this Agreement; (y) to an agreement, instrument, or other document means such agreement, instrument, or other document as amended, supplemented, and modified from time to time to the extent permitted by the provisions thereof; and

(z) to a statute means such statute as amended from time to time and includes any successor legislation thereto and any regulations promulgated thereunder. The parties drafted this Agreement without regard to any presumption or rule requiring construction or interpretation against the party drafting an instrument or causing any instrument to be drafted.

12. **Headings.** The headings in this Agreement are for reference only and do not affect the interpretation of this Agreement.
13. **Severability.** If any term or provision of this Agreement is invalid, illegal, or unenforceable in any jurisdiction, such invalidity, illegality, or unenforceability does not affect any other term or provision of this Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction. On such determination that any term or other provision is invalid, illegal, or unenforceable, the parties to this Agreement shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in a mutually acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the greatest extent possible.
14. **Entire Agreement.** This Agreement, together with all related clauses and documents that are incorporated by reference herein, is the sole and entire agreement of the parties to this Agreement regarding the subject matter contained herein and therein, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, regarding such subject matter. The foregoing Recitals are hereby incorporated by this reference and made part of this Agreement.
15. **Amendment and Modification.** No amendment to (or rescission, termination, or discharge of) this Agreement is effective unless it is in writing, identified as an amendment to (or rescission, termination, or discharge of) this Agreement and signed by an authorized representative of each party to this Agreement.
16. **Waiver.**
 - a. No waiver under this Agreement is effective unless it is in writing, identified as a waiver to this Agreement, and signed by an authorized representative of the party waiving its right.
 - b. Any waiver authorized on one occasion is effective only in that instance and only for the purpose stated, and does not operate as a waiver on any future occasion.
 - c. None of the following is a waiver or estoppel of any right, remedy, power, privilege, or condition arising from this Agreement:
 - i. any failure or delay in exercising any right, remedy, power, or privilege

- or in enforcing any condition under this Agreement; or
- ii. any act, omission, or course of dealing between the parties.

17. **Cumulative Remedies.** All rights and remedies provided in this Agreement are cumulative and not exclusive, and the exercise by either party of any right or remedy does not preclude the exercise of any other rights or remedies that may now or subsequently be available at law, in equity, by statute, in any other agreement between the parties, or otherwise. Despite the previous sentence, the parties intend that Indemnified Party's rights under 6 are its exclusive remedies for the events specified therein.
18. **Equitable Remedies.** Each of Assignor and Assignee acknowledges that a breach or threatened breach by it of any of its obligations under this Agreement would give rise to irreparable harm to the other party for which monetary damages would not be an adequate remedy and hereby agrees that if a breach or a threatened breach occurs, the other party shall, in addition to any and all other rights and remedies that may be available to it arising from such breach, be entitled to seek equitable relief, including a temporary restraining order, an injunction, specific performance, and any other relief that may be available from a court of competent jurisdiction (without any requirement to post bond).
19. **No Third-Party Beneficiaries.** This Agreement benefits solely the parties to this Agreement and their respective successors and permitted assigns and nothing in this Agreement, express or implied, confers on any other person any legal or equitable right, benefit, or remedy of any nature whatsoever under or by reason of this Agreement. Despite the previous sentence, the parties hereby designate the third parties included in the Section 6 definition of Indemnified Party as third-party beneficiaries having the right to enforce Section 6.
20. **Choice of Law.** This Agreement and all related documents and all matters arising out of or relating to this Agreement, whether sounding in contract, tort, or statute are governed by, and construed in accordance with, the laws of the State of California, United States of America, without giving effect to the conflict of laws provisions thereof to the extent such principles or rules would require or permit the application of the laws of any jurisdiction other than those of the State of California.
21. **Choice of Forum.** Each party irrevocably and unconditionally agrees that it will not commence any action, litigation, or proceeding of any kind whatsoever against the other party in any way arising from or relating to this Agreement and all contemplated transactions, including, but not limited to, contract, equity, tort, fraud, and statutory claims, in any forum other than the US District Court for the Eastern District of California or the courts of the State of California sitting in the County of Shasta, and any appellate court from any thereof. Each party irrevocably and unconditionally submits to the exclusive jurisdiction of such courts and agrees to bring any such action, litigation, or proceeding only in the US District Court for the Eastern District of California or the courts of the State of California sitting in the

County of Shasta. Each party agrees that a final judgment in any such action, litigation, or proceeding is conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law.

22. **Counterparts.** This Agreement may be executed in counterparts (including electronically), each of which is deemed an original, but all of which together are deemed to be one and the same agreement.

[Remainder of Page Left Intentionally Blank]

COUNCIL COMMUNICATION

CC #: 3648
File #: 0800-03

Title:	Western Area Power Administration – Network Integrated Transmission Service Amendment
Contact:	Brian Schinstock 916-746-1658 bschinstock@roseville.ca.us

Meeting Date: 11/20/2024
Item #: 6.5.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute Amendment 2 to the Network Integrated Transmission Service (NITS) agreement with the Western Area Power Administration (WAPA).

BACKGROUND

WAPA is a federal agency that owns and operates several hundred miles of transmission facilities in Northern California. Roseville's electric distribution system is connected to the WAPA transmission system, and Roseville contracts with WAPA through the NITS agreement for high voltage transmission service in order to import and export capacity and energy over WAPA's system at Roseville's two receiving substations.

The NITS agreement lists Roseville's network behind the meter generating resources, and Amendment 2 reflects the increased capacity at the Roseville Energy Park (REP) to accommodate the newly acquired RPEAK units. All other terms and conditions remain the same.

FISCAL IMPACT

There is no fiscal impact associated with Amendment 2.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of Amendment 2 to the WAPA NITS service agreement meets the above criteria and is not subject to CEQA. No additional environment review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Respectfully Submitted,

Brian Schinstock, Electric Resource Planner

Daniel Beans, Electric Utility Director

Dominick Casey, City Manager

Resolution 24-394

14-SNR-01857 Amendment 2

RESOLUTION NO. 24-394

APPROVING AMENDMENT 2 TO WESTERN AREA POWER ADMINISTRATION
CONTRACT 14-SNR-01857, AND AUTHORIZING THE CITY MANAGER TO EXECUTE
IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, Western Area Power Administration (WAPA) is a federal agency that owns and operates hundred of miles of transmission facilities in Northern California; and

WHEREAS, Roseville's electric distribution system is connected to the WAPA transmission system, and Roseville contracts with WAPA through the Network Integration Transmission Service (NITS) agreement for high voltage transmission service in order to import and export capacity and energy over WAPA's system at Roseville's two receiving substations; and

WHEREAS, the NITS agreement lists Roseville's network behind the meter generating resources, and Amendment 2 reflects the increased capacity at the Roseville Energy Park (REP) to accommodate the newly acquired RPEAK units; and

WHEREAS, Amendment 2 to the Service Agreement for Network Integration Transmission Service, has been reviewed by City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said Amendment 2 to the Service Agreement for Network Integration Transmission Service for Contract 14-SNR-01857 is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

**Amendment 2 to the
Service Agreement for Network Integration
Transmission Service
(Specifications for Network Integration Transmission Service)**

- 1.0 Western Area Power Administration (Transmission Provider or WAPA) and City of Roseville (Transmission Customer) are parties to Service Agreement 14-SNR-01857 (Service Agreement). Under the Service Agreement, the Transmission Provider will provide Network Integration Transmission Service over the Transmission Provider's Transmission System to deliver capacity and energy from the Transmission Customer's designated Network Resources to the Transmission Customer's designated Network Load. The Transmission Provider will also provide non-firm transmission service from non-designated Network Resources under the terms of this Service Agreement.
- 2.0 The Transmission Customer will take ownership of two TM2500 natural gas generator units at the Roseville Energy Park (REP) effective November 2024, to serve load and run when needed. The estimated capacity for the units is 30 megawatts (MW) each.
- 3.0 Therefore, under this Amendment 2 (Amendment) to the Service Agreement, the Parties agree to update the Transmission Customer's Estimated Generation (MW) for REP in Section 4.0 under the Specifications for Network Integration Transmission Service with the following:

4.0 Behind the Meter Generation:

Designated Behind the Meter Generation	Estimated Generation (MW)	Point of Delivery	Meter Number	Voltage (kV)
Roseville Power Plant #2	50	Roseville	59-100-72 59-100-73	230
Roseville Energy Park	230	Fiddymont	59-105-97 59-105-99 59-106-01 59-106-03	230

- 4.0 Execution by Counterparts: This Amendment may be executed in any number of counterparts and, upon execution and delivery by each Party, the executed and delivered counterparts together shall have the same force and effect as an original instrument as if all Parties had signed the same instrument. Any signature page of this Amendment may be detached by any counterpart of this Amendment without impairing the legal effect of any signatures thereon, and may be attached to another counterpart of this Amendment identical in form hereto, by having attached to it one or more signature pages.
- 5.0 Electronic Signatures: The Parties agree that this Amendment may be executed by handwritten signature or digitally signed using DocuSign or Adobe Sign. An electronic or digital signature is the same as a handwritten signature and shall be considered valid and acceptable.

IN WITNESS WHEREOF, the parties have caused this Amendment to the Service Agreement 14-SNR-01857 to be executed by their respective authorized officials.

COUNCIL COMMUNICATION

CC #: 3636
File #: 0704-01

Title: Crimson Ridge Park Upgrade Project - Notice of Completion
Contact: Kelly Appier 916-774-5927 ksappier@roseville.ca.us

Meeting Date: 11/20/2024
Item #: 6.6.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council accept the Crimson Ridge Park Upgrade Project as complete and adopt a resolution authorizing the Parks, Recreation & Libraries Director to execute the attached Notice of Completion.

BACKGROUND

The Crimson Ridge Park Improvement Project is a 2.3-acre neighborhood park located at Crimson Ridge Way and Campus Parkway in the Campus Oaks Area. Park upgrades include a second picnic area with tables, a shade structure over the current picnic area, more pathways including a park bench, new turf areas, new planting areas and expansion of the irrigation system to support the added turf areas.

FISCAL IMPACT

Funding of \$450,000 was allocated from the FY2022-23 General Fund year-end budget surplus. Maintenance costs are provided through the HP Campus Oaks Community Facilities District No. 2 (Public Services).

ENVIRONMENTAL REVIEW

Development of the Campus Oaks Parcel 62 park site (CO-62) was previously evaluated in the 4th Addendum to the Hewlett Packard Master Plan EIR (SCH No.95112022 and amended by City Council on May 20, 2020, Resolution No. 20-168), and identified in the associated Third Amended Hewlett-Packard Campus Oaks Master Plan. Construction of the CO-62 park is found to be within the scope of the project covered by the 4th Addendum to the Hewlett Packard Master Plan EIR. As discussed in the Master Plan EIR, the EIR provides environmental analyses of community infrastructure and facilities, including parks, pedestrian bridges, and bike trails, to the extent applicable. Because the project is consistent with the Third Amended Hewlett-Packard

Campus Oaks Master Plan, no new effects would be expected to occur and all applicable mitigation measures from the Hewlett Packard Master Plan EIR will be implemented during the design and construction of the CO-62 park site. Because the proposed project meets the requirements identified in Section 15183 of the State CEQA Guidelines, no additional CEQA review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal B – Support community engagement and advocacy

Goal C – Maintain a safe and healthy community

Goal E – Deliver exceptional city services

Goal F – Invest in well-planned infrastructure and growth

Respectfully Submitted,

Kelly Appier, Park Development Project Manager

Jill Geller, Parks, Recreation, and Libraries Director

Dominick Casey, City Manager

Title: 2023 Power Source Disclosure Reports and 2023 Power Content Labels
Contact: Matthew Helgeson 916-774-5654 mjhelgeson@roseville.ca.us

Meeting Date: 11/20/2024
Item #: 6.7.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve the 2023 Power Source Disclosure Reports and 2023 Power Content Labels.

BACKGROUND

Senate Bill (SB) 1305, approved in 1997, directs all California retail suppliers of electricity to disclose to consumers the sources of energy used to provide the electric service in an accurate, reliable, and simple to understand manner. The SB 1305 Report is referred to as the Power Source Disclosure (PSD) Report. The data contained in the PSD Reports are subsequently used to prepare the annual Power Content Labels (PCLs), which are mailed to the electric utility's customers and posted on Roseville Electric's website.

The regulations require a publicly owned electric utility's governing board to attest to the veracity of the annual PSD Report and PCLs. This action approves the 2023 PSD Report and PCL reports, serving as the attestation to the veracity of these submissions. This attestation is required the later of October 1 of each year, or in a reasonable time following the California Energy Commission providing updated reporting requirements.

FISCAL IMPACT

There is no fiscal impact associated with the approval of the 2023 Power Source Disclosure Reports and 2023 Power Content Labels.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The 2023 PSD Reports and PCLs meet the above criteria and are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community.

Title: Pleasant Grove Pump Station Variable Frequency Drive Upgrade and Valve Automation Project - Notice of Completion
Contact: William Montz 916-774-5545 wlmontz@roseville.ca.us

Meeting Date: 11/20/2024
Item #: 6.8.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council accept the Pleasant Grove Pump Station Variable Frequency Drive (VFD) Upgrade and Valve Automation Project as complete and authorize the Director of Environmental Utilities to execute the Notice of Completion.

BACKGROUND

The Project was created to provide the City with improved operational flexibility, efficiency, and the capacity to manage and respond to emergency and/or drought conditions. The addition of variable frequency drives to the pump station provides operators more flexibility to adjust pressures in the water distribution system, which results in more optimal use and stability to the existing infrastructure. In addition to the VFD upgrades, the valve automation now allows City staff to operate the pump station remotely, leading to faster response times in an emergency and improved use of staff resources.

After a competitive bid process, City Council awarded a Construction Agreement to BWD Construction, Inc. dba BWD General Engineering Contractors on September 20, 2023.

The City's Environmental Utilities Department completed final inspection of the project and found the work to be completed in accordance with the improvement plans and specifications, punch list items are complete, and is ready for acceptance.

FISCAL IMPACT

The Project was funded from the Water Rehabilitation Fund. The construction contract was awarded to BWD Construction Inc. in the amount of \$543,600. City Council also approved an allowance to pay contract change orders of up to 10% of the value of the contract (\$54,360) for a total approved amount of \$597,960. There were two (2) negotiated change orders during construction in the amount of \$29,734. Final contract value with BWD Construction Inc. is \$573,334.

ENVIRONMENTAL REVIEW

The project involved the maintenance and minor alterations of existing public structures, facilities, and mechanical equipment, and replacement of existing utility systems and/or facilities involving negligible or no expansion of capacity. The activity was categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines §15301) and a Class 2 Exemption (State CEQA Guidelines §15302), and a Notice of Exemption was prepared in April 2023. No additional environmental review is required.

Title: Northwest Roseville Specific Plan Parcel 27 - Workout and Settlement Agreement Amendment

Contact: Mike Isom 916-774-5256 misom@roseville.ca.us

Meeting Date: 11/20/2024

Item #: 6.9.

RECOMMENDATION TO COUNCIL

Staff requests that the City Council adopt a resolution to approve an amendment to the "Workout Agreement" with CC Drive, L.L.C. ("Landowner") and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

The 15+ acre real property that is the subject of the Workout Agreement is NWRSP Parcel No. 27. The parcel is located on McAnally Drive between Woodcreek Oaks Boulevard and Country Club Drive. The development potential of the property is substantially constrained by overhead high-tension electric lines and by the existence of wetlands created by Kaseberg Creek. Despite these development constraints, the entire 15+ acres of Parcel 27 was assessed special taxes (of approximately \$98,500 per year) when CFD No. 1 was formed.

In the mid-1990's the City foreclosed on the property because of the defaults which by then (with the addition of penalties and interest) totaled nearly \$535,000. The foreclosure resulted in a court judgment ordering the property to a tax sale. Landowner acquired the property with the intent of curing the 16-year special tax/assessment default by way of a Workout Agreement with the City.

The agreement split Parcel 27 into two pieces -- an undevelopable 12.6+ acre public use piece (Parcel 27B) and a developable 2.4+ acre private use piece (Parcel 27A). Under the terms of the Workout Agreement, the undevelopable 12.6 acre "B" piece will become a public open space preserve.

In addition, the Workout Agreement reallocated NWR CFD #1 assessment payments so that Parcel 27B would no longer be subject to special taxes/assessments (because it will be publicly owned) and Parcel 27A would be taxed/assessed based on the resulting net acreage of approximately 2.4 acres. The public benefits accruing to the City from full implementation of the Workout Agreement, as amended, would include:

- Restores the developable portion of the property (Parcel 27A) to the tax rolls and enables it

to be put to productive use;

- Cures one of the District's longest standing and most significant special-tax/assessment defaults;
- Generates roughly \$370,000 in special tax/assessment payments to the City;
- Creates a permanent 12+ acre park preserve (Parcel 27B) which will fill in a missing link in the open space/bike trail corridor that extends almost without interruption across the entire NWRSP;
- Creates a maintenance fund to finance the perpetual maintenance of the park preserve;
- Corrects a flawed assumption with respect to the property's development potential and underlying valuation, resulting in a more equitable allocation of special tax/assessment load that is better aligned with sound apportionment principles; and
- Allows the planning objectives of the NWRSP to be carried out as intended by removing an unreasonable special tax/assessment burden that had stood as an impediment to efforts to put the developable portion of the property to productive use.

Since acquiring the property, the Landowner has invested significant time, effort and resources in the design and implementation of the Workout Agreement program. To date, the Landowner's efforts have resulted in:

- Adoption of the Workout Agreement;
- Payment of the first installment of back taxes/assessments in the amount of \$50,500 (which was used to construct the bike trail across the park preserve acreage);
- Consultation with the adjacent neighborhoods to find a use for the developable portion of the property that would fit within and be compatible with the residential character of the surrounding development;
- Approval of a design review permit for a senior assisted living facility that is consistent with the property's commercial zoning and acceptable to the surrounding community; and
- A contractual agreement to sell the private use portion of the property to a respected developer/owner/operator of senior assisted living facilities – Sunrise Senior Living

The sale of the property to Sunrise was (a) to close upon issuance of a building permit to commence construction of the facility in accordance with the design review permit, and (b) to fully fund the payment of all back taxes/assessments owed pursuant to the Workout Agreement "due on sale" provision.

When the previous economic recession that began in earnest in 2008 resulted in a decision by Sunrise to terminate the purchase contract prior to closing, Landowner undertook a concerted effort to find another high-quality assisted living provider to purchase the property. To date, these efforts have proven unsuccessful, in part because, in the years following the 2008 recession, assisted living providers have become much less willing to assume the risk of developing the facilities they operate. For this reason, the Landowner also explored the possibility of partnering with a developer/investor to build an assisted living facility on the Parcel 27 site which would then be sold or leased to an experienced assisted living provider.

In addition, the COVID-19 pandemic proved to be a force majeure event that not only had a tragic effect on health and cost millions of lives but also had a particularly devastating impact on senior assisted living facilities as well as a severe adverse impact on the US economy. These changes in circumstance and adverse economic impacts have made Landowner's more recent efforts to implement the workout and settlement program even more challenging and have led Landowner to conclude:

- That a commercial land use involving the development of a senior assisted living facility on the Parcel 27A property, although singularly well suited to the residential character of the surrounding neighborhoods, is not a viable option given the site constraints and economic factors impacting choice of use; and
- That consideration should be given to an alternative use of the Parcel 27A property for residential development that (a) will be better able to accommodate the site constraints and (b) will more closely conform to the domestic character of the surrounding neighborhoods.

To this end, Landowner is readying for submission a tentative subdivision map application to subdivide Parcel 27A into roughly 14 single-family home lots.

To assist in the design of the tentative map lotting program and to inform the City's review and processing of Landowner's Subdivision Map Application, Landowner has engaged an environmental consulting firm to undertake a site investigation and aquatic resources analysis for the purpose of (a) updating the boundaries of the wetland features as shown on the aquatic resources delineation that was previously prepared for the site and (b) determining if the identified aquatic resources are jurisdictional wetlands or include special status species that would trigger state or federal permitting requirements.

The environmental consulting firm commenced the field work involved in this investigation in May of 2024 and expects to complete its analysis before the end of the year. Landowner will use the information generated by this investigation and analysis to further refine the Parcel 27A tentative map proposal and to inform the entitlement process following formal submittal of the Subdivision Map Application early next year.

In recognition both of the extenuating economic circumstances that have frustrated Landowner's diligent efforts to implement the Workout Agreement program and of the public benefits accruing from full implementation of the Workout Agreement, the City has previously approved amendments to the Workout Agreement extending the due date for the lump sum payment of back special taxes/assessments to December 10, 2024. In the period since the payment due date was last extended, the residual impacts of the COVID-19 pandemic and the persistence of problematic economic conditions in combination with development constraints posed by the size and features of the Parcel 27A site have continued to frustrate Landowner's repeated attempts to find an assisted living provider willing to take on the challenges of developing the property.

As noted above, rather than continue to pursue an aspirational commercial land use that has proved illusory, Landowner has decided to seek entitlements to rezone Parcel 27A for a low density single-family residential land use and is in the process of (a) finalizing a proposal to subdivide Parcel 27A into roughly 14 single-family home lots and (b) completing the baseline environmental analysis required to proceed with submission of a Subdivision Map Application.

THE EIGHTH AMENDMENT TO THE WORKOUT AGREEMENT

To accommodate the additional time that will be required to re-entitle Parcel 27A for single-family residential use and to enable the significant commitment of resources required by the entitlement process, Landowner has proposed this Eighth Amendment to the Workout and Settlement Agreement for the sole purpose of extending the date by which the lump sum payment of back taxes/assessments owed must be made from December 10, 2024 to December 10, 2026.

Staff recommends the Eighth Amendment be given favorable consideration in light of the following factors:

- Landowner's long-term commitment to curing the tax defaulted status of the 15-acre Parcel 27 Property through crafting and implementation of a Workout Agreement with the City that creates (a) a 12.6-acre parcel dedicated to public ownership and use as an open space preserve and (b) a 2.4-acre parcel that is retained for private ownership and use;
- Landowner's investment to date of significant time and resources in a good faith, diligent effort (a) to identify the highest and best feasible land use for the developable portion of the Parcel 27 site, (b) to secure the entitlements required to develop the identified use, and (c) to convey the Parcel 27A property to a qualified owner for development and use as entitled;
- The site constraints, changes in economic circumstances and market conditions, and force majeure events that have made full implementation of the Workout Agreement a particularly challenging proposition;
- Landowner's decision, given the apparent infeasibility of developing an assisted living facility on the Parcel 27A property, to pursue a low density single-family residential land use that is in keeping with the domestic character of the surrounding neighborhoods rather than an alternative commercial land use that is likely to generate community opposition;
- The public benefits accruing to the City from full implementation of the Workout Agreement as further described above;
- The reasonable expectation that Landowner will be able to return the Property to productive use and complete full implementation of the Workout Agreement within the December 10, 2026 timeframe contemplated by the Eighth Amendment; and
- The fact that the additional time requested by Landowner to pay the special taxes/assessments owed will not negatively impact the City's fiscal position or adversely affect the public benefits otherwise afforded by the Workout Agreement.

FISCAL IMPACT

The amended Workout and Settlement Agreement will delay payment of CFD taxes for Parcel 27A but will not negatively impact payment of NWR CFD bond payments, nor will it increase special taxes for other properties within the NWR CFD. This agenda item has no General Fund impact.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Amendment to the Workout and Settlement Agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Eighth Amendment Agreement

CITY COUNCIL OF THE CITY OF ROSEVILLE

RESOLUTION NO. 24-397

RESOLUTION AUTHORIZING THE EIGHTH AMENDMENT TO
THE WORKOUT AND SETTLEMENT AGREEMENT
REGARDING DELINQUENT SPECIAL TAXES AND
SPECIAL ASSESSMENTS LEVIED UPON
NWRSP PARCEL 27

WHEREAS, certain real property commonly referred to as Northwest Roseville Specific Plan (“NWRSP”) Parcel 27 (the “Property”) lies within the established geographical boundaries of the City’s Foothills Boulevard Assessment District (the “Foothills AD”), the Foothills Boulevard Extension Assessment District (the “Foothills Extension AD”), and the Northwest Roseville Community Facilities District No. 1 (the “CFD No. 1”) (hereinafter, collectively the “Districts”); and

WHEREAS, the Foothills AD and Foothills Extension AD debt and special assessments and the CFD No. 1 debt and special taxes were originally apportioned to Parcel 27 based on the assumption that Parcel 27’s 15.09 acres were all developable. This assumption has proven to be incorrect in that a 12.63-acre portion of Parcel 27 is encumbered by a power line corridor and wetland resources associated with the Kaseberg Creek watershed, leaving only an approximately 2.46-acre portion of Parcel 27 that can be developed; and

WHEREAS, as a result of this flawed assumption with respect to the developability of NWRSP Parcel 27, the previous owners stopped paying the secured property taxes (including special taxes and assessments totaling approximately \$98,500 per year) in 1991; and

WHEREAS, in 1997 the City foreclosed on the Property because of the defaults and a court judgment was issued ordering the Property to a tax sale; and

WHEREAS, the current Landowner acquired the property with the intent of resolving the special tax and assessment delinquencies through a workout and settlement agreement with the City, implementation of which would correct the flawed assumption with respect to the developability of Parcel 27 by:

- (i) dividing Parcel 27 into two parcels – an undevelopable 12.63-acre public use parcel (Parcel 27B) and a developable 2.46-acre private use parcel (Parcel 27A);
- (ii) dedicating to the City a fee interest in the 12.63-acre undevelopable portion of Parcel 27 for public use as an open space park preserve, with Landowner retaining a fee interest in the 2.46-acre developable portion of the Property;
- (iii) reapportioning the Parcel 27 CFD No. 1 special taxes pro rata based on acreage between the 12.63-acre portion of the Property being dedicated to the City for public use and the 2.46-acre portion of the Property being retained by Landowner for private use;
- (iv) exempting the new 12.63-acre public use open space park preserve from payment of that portion of the CFD No. 1 special tax allocated to it;

(v) making provision for payment by Landowner of the back special taxes/assessments apportioned to the 2.46-acre developable private use portion of the Property; and

WHEREAS, on March 28, 2007 the City Council of the City of Roseville adopted Resolution No. 07-146 approving the Workout and Settlement Agreement Regarding Delinquent Special Taxes and Special Assessments Levied upon NWRSP Parcel 27 (the “Agreement” or “Workout and Settlement Agreement”) which, when fully implemented, not only will resolve the outstanding delinquencies of taxes, special taxes and assessments levied upon Parcel 27 but also will have significant additional public benefits which will include the following:

- (i) enables the 2.46-acre developable portion of the Property (Parcel 27A) to be put to productive use;
- (ii) restores the developable portion of the Property to the tax rolls;
- (iii) cures one of the Districts’ longest standing and most significant special-tax/assessment defaults;
- (iv) generates approximately \$370,000 in special tax/assessment payments to City;
- (v) creates a permanent 12+ acre park preserve (Parcel 27B);
- (vi) creates a maintenance fund to finance the perpetual maintenance of the park preserve;
- (vii) corrects a flawed assumption with respect to the property’s development potential and underlying valuation, resulting in a more equitable allocation of special tax/assessment load that is better aligned with sound apportionment principles; and
- (viii) allows the planning objectives of the NWRSP to be carried out as intended by removing an unreasonable special tax/assessment burden that stood as an impediment to efforts to put the developable portion of the Property to productive use; and

WHEREAS, the original Agreement included an installment payment plan for bringing the back special taxes/assessments apportioned to the developable portion of Parcel 27 current through payment of five equal installments of \$50,500; and

WHEREAS, since acquiring the Property, Landowner has invested extraordinary time, effort and resources in the design and implementation of the workout and settlement program. To date, this program has resulted in:

- (i) adoption of the Workout and Settlement Agreement;

(ii) payment of the first installment of back special taxes/assessments due in the amount of \$50,500;

(iii) dedication and acceptance of the bike trail easement along the northern boundary of the Property;

(iv) construction of the bike trail;

(vi) consultation with the surrounding community regarding an acceptable land use for the developable portion of the Property that would be consistent with the “Commercial” land use designation for which provision is made in the NWRSP and zoning and that would, at the same time, be compatible with and complement the residential character of the neighboring land uses;

(vii) collaboration with a respected and highly qualified assisted living provider: (a) to design a senior assisted living facility that would address the challenges and capture the opportunities presented by the Parcel 27A site; (b) to secure City approval of a Design Review Permit for the project; (c) to purchase the Parcel 27A site; and (d) to build, own, and operate the approved project; and

WHEREAS, when, in the wake of the 2008 recession that followed the collapse of the housing and credit markets, the assisted living provider that was working with Landowner walked away from the project, Landowner undertook a concerted effort to find a new developer with the qualifications and resources to pursue the “assisted living” land use strategy that had been approved by the City; and

WHEREAS, to date, however, Landowner’s ongoing efforts to promote use of the Parcel 27A property for an assisted living facility have been frustrated by a combination of factors including, in particular:

(i) site constraints imposed by the size, configuration, and other limiting features of the Property’s developable area; and

(ii) economic constraints imposed by the residual impacts of the COVID-19 pandemic on the senior assisted living sector and on the way in which new assisted living facilities are designed, built, owned, and operated; and

WHEREAS, these challenges have raised questions regarding the feasibility of developing an assisted living facility on Parcel 27A and have led Landowner to consider an alternative non-commercial land use for the property that is more in line with the residential character of the surrounding neighborhoods; and

WHEREAS, to this end, Landowner is readying an application to change the Specific Plan land use designation from “Commercial” to “Low-Density Residential,” to rezone Parcel 27A for a low-density residential land use, and to subdivide the property into single-family home lots (the “Subdivision Map Application”); and

WHEREAS, to assist in the design of the tentative map lotting program and to inform the City’s review and processing of the Subdivision Map Application, Landowner has engaged an environmental consulting firm to undertake a site investigation and aquatic resources analysis for the purpose of:

(i) updating the boundaries of the wetland features as shown on the aquatic resources delineation that was previously prepared for the site; and

(ii) determining if the identified aquatic resources are jurisdictional wetlands or include special status species that would trigger State or Federal permitting requirements.

The environmental consulting firm commenced the fieldwork involved in this investigation in May and expects to complete its analysis before the end of the year; and

WHEREAS, Landowner intends to use the information generated by the environmental investigation and analysis to further refine the Parcel 27A tentative map proposal and to inform the entitlement process following formal submittal of the Subdivision Map Application early next year; and

WHEREAS, review of Landowner's Subdivision Map Application will likely require a processing timeframe of between 8 and 16 months, depending upon whether the approval process involves regulatory oversight and permitting by State or Federal agencies; and

WHEREAS, in recognition both of the site constraints that make development of the 2.46-acre Parcel 27A a particularly challenging proposition and of the extenuating economic circumstances that have frustrated Landowner's diligent efforts to promote development of a senior assisted living facility on the Parcel 27A property, the City Council has previously approved the First through the Seventh Amendments to the Workout and Settlement Agreement, allowing Landowner to pay off the back special taxes/assessments owed in a single lump sum payment (the "Lump Sum Payment") and cumulatively extending the date by which the Lump Sum Payment becomes due and payable to December 10, 2024 (or upon sale of the Property, whichever occurs first; and.

WHEREAS, given the additional commitment of time and resources required in order to process the Subdivision Map Application, Landowner has requested a further amendment to the Agreement (the "Eighth Amendment to the Workout and Settlement Agreement Regarding Delinquent Special Taxes and Special Assessments Levied upon NWRSP Parcel 27" or the "Eighth Amendment") that would allow the outstanding Parcel 27 special taxes/assessments to be paid by Landowner in a single lump sum payment due and payable on or before December 10, 2026 or upon sale of the Property, whichever occurs first; and

WHEREAS, City desires to enter into this Eighth Amendment in order to provide Landowner with additional time in which to pay the Parcel 27 special taxes/assessments owed in a single Lump Sum Payment in recognition of the following factors:

(i) the time, effort and resources previously invested by Landowner in implementation of the Workout and Settlement Agreement;

(ii) the public benefits to the City that have already accrued and will continue to accrue as a result of implementation of the Workout and Settlement Agreement, as further described above;

(iii) the extraordinary challenges involved in implementing the terms and conditions of the Workout and Settlement Agreement given the site constraints and residual impacts of the COVID-19 pandemic;

(iv) the reasonable expectation that Landowner will be able to return the Property to productive use and complete full implementation of the Workout and Settlement Agreement within the December 10, 2026 timeframe contemplated by the Eighth Amendment; and

(v) the fact that the additional time requested by Landowner to pay the special taxes/assessments owed will not negatively impact the City's fiscal position or adversely affect the public benefits otherwise afforded by the Workout and Settlement Agreement, as referenced above.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, AS FOLLOWS:

Section 1. Findings. The City Council of the City hereby specifically finds and determines it is desirable and furthers the public purpose of the City to amend the Workout and Settlement Agreement previously adopted for the purpose of resolving outstanding delinquencies of taxes, special taxes, and special assessments of Parcel 27 and that this Eighth Amendment will have the following public benefits:

(i) will allow Landowner to complete implementation of the Agreement which, in turn, will result in the realization by the City of public benefits enumerated in Resolution No. 07-146 as previously approved by Council on March 28, 2007 and as set forth above in the recitals; and

(ii) will address changed circumstances which were not reasonably foreseeable at the time the Agreement was entered into by Landowner and the City and which, if left unaddressed, not only threaten to thwart implementation of the Agreement by Landowner thereby denying City the full measure of public benefits referenced above, but also will frustrate an extraordinary investment of time and resources by Landowner in a good faith diligent effort to return the Property to productive use, an effort the City has a vested interest in encouraging.

Section 2. Form of Agreement. The Eighth Amendment proposed to be executed and entered into by and between the City and the Landowner, in substantially the form presented at this meeting and on file with the City Clerk of the City, is hereby approved, and the City Manager or the Chief Financial Officer of the City are hereby authorized and directed, for and in the name and on behalf of the City, to execute and deliver to the Landowner the Eighth Amendment in substantially said form, with such changes therein as the officer executing such document may require or approve, such approval to be conclusively evidenced by the execution and delivery thereof.

Section 3. Other Actions. The officers of the City are hereby authorized and directed, jointly and severally, to do any and all things and to execute and deliver any and all documents which they may deem necessary or desirable in order to consummate the transactions authorized hereby and otherwise to carry out, give effect to and comply with the terms and intent of this Resolution and the Eighth Amendment; and all such actions heretofore taken by such officers are hereby ratified, confirmed and approved.

PASSED AND ADOPTED by the City Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

EIGHTH AMENDMENT TO WORKOUT AND SETTLEMENT AGREEMENT

**EIGHTH AMENDMENT TO WORKOUT AND SETTLEMENT AGREEMENT
REGARDING DELINQUENT SPECIAL TAXES AND SPECIAL ASSESSMENTS
LEVIED UPON NWRSP PARCEL 27**

This Eighth Amendment to the Workout and Settlement Agreement Regarding Delinquent Special Taxes and Special Assessments Levied Upon NWRSP Parcel 27 (the "Eighth Amendment" or "Amendment") is entered into on the date set forth below by and between the City of Roseville, a municipal corporation (the "City") and CC Drive, L.L.C., a California limited liability company (the "Landowner") (collectively, the "Parties").

RECITALS

A. The real property (the "Property" or "Parcel 27") that is the subject of both the Workout and Settlement Agreement Regarding Delinquent Special Taxes and Special Assessments Levied Upon NWRSP Parcel 27 (the "Workout and Settlement Agreement"; also referenced herein as the "Workout Agreement" or simply as the "Agreement") and this Eighth Amendment is described in Exhibit "A," attached hereto and incorporated herein by reference, and is commonly referred to as Northwest Roseville Specific Plan ("NWRSP") Parcel 27.

B. Landowner is the owner of the Property.

C. The Property is located within the established geographical boundaries of the City's Foothills Boulevard Assessment District (the "Foothills AD"), the Foothills Boulevard Extension Assessment District (the "Foothills Extension AD") and the Northwest Roseville Community Facilities District No. 1 (the "CFD No. 1") (collectively, the "Districts").

D. The CFD No. 1 debt and special taxes as well as the Foothills AD and Foothills Extension AD debt and special assessments were originally apportioned to Parcel 27 based on the assumption that the Property's 15.09 acres were all developable. This assumption was incorrect. A 12.63-acre portion of the Property consists principally of the Kaseberg Creek Watershed Corridor and related wetland features. At the time the Districts were formed, neither the extent of these natural resource values nor the extent to which these values would constrain development was fully understood or taken into account. This flawed assumption with respect to the developability of Parcel 27 led to an allocation of bond debt and special tax/assessment load that the value of the 2.46-acre portion of the Property that is developable could neither justify nor reasonably be expected to carry.

E. As a result, the previous owners of the Property stopped paying the secured property taxes (including the special taxes and assessments totaling approximately \$98,500 per year) in 1991.

F. In 1997 the City foreclosed on the Property because of the defaults which by then (with the addition of penalties and interest) totaled nearly \$535,000. The foreclosure resulted in a court judgment ordering the property to a tax sale.

G. Landowner acquired the Property with the intent of curing the 16-year special tax/assessment default by way of a workout and settlement agreement with the City.

H. On March 28, 2007, the Roseville City Council adopted Resolution No. 07-146 approving the Workout and Settlement Agreement which, when fully implemented, will resolve the outstanding delinquencies with respect to the special taxes and assessments levied upon Parcel 27. Since that time, the Workout and Settlement Agreement has been amended a total of seven times over the years to extend and facilitate the obligations secured thereunder.

I. Implementation of the Workout Agreement will also correct the flawed assumption with respect to the developability of Parcel 27 by:

- (i) dividing Parcel 27 into two parcels -- an undevelopable 12.63-acre public use parcel (Parcel 27B) and a developable 2.46-acre private use parcel (Parcel 27A).

- (ii) dedicating to the City a fee interest in the 12.63-acre undevelopable portion of Parcel 27 for public use as an open space park preserve, with Landowner retaining a fee interest in the 2.46-acre developable portion of Parcel 27 for private use;

- (iii) reapportioning the Parcel 27 CFD No. 1 special taxes pro rata based on acreage between the 12.63-acre portion of the Property being transferred to the City for public use and the 2.46-acre portion of the Property being retained by Landowner for private use;

- (iv) exempting the new 12.63-acre public use open space park preserve from payment of that portion of the CFD No. 1 special tax allocated to it; and

- (v) making provision for payment by Landowner of the back special taxes/assessments apportioned to the developable private use portion of the Property (Parcel 27A).

J. The public benefits accruing to the City from full implementation of the Workout Agreement, as amended, will include:

- (i) Enables the 2.46-acre developable portion of the Property (Parcel 27A) to be put to productive use;

- (ii) Restores the developable portion of the Property to the tax rolls;

- (iii) Cures one of the Districts' longest standing and most significant special-tax/assessment defaults;

- (iv) Generates approximately \$370,000 in special tax/assessment payments to the City;

- (v) Creates a permanent 12+ acre park preserve (Parcel 27B);
- (vi) Creates a maintenance fund to finance the perpetual maintenance of the park preserve;
- (vii) Corrects a flawed assumption with respect to the property's development potential and underlying valuation, resulting in a more equitable allocation of special tax/assessment load that is better aligned with sound apportionment principles; and
- (viii) Allows the planning objectives of the NWRSP to be carried out as intended by removing an unreasonable special tax/assessment burden that stood as an impediment to efforts to put the developable portion of the property to productive use.

K. Following City approval of the Workout Agreement, Landowner undertook a concerted effort to determine the highest and best feasible use for the 2.46-acre developable portion of Parcel 27. This effort included consultation with the adjacent community to find a use for the developable portion of the Property that not only would fit within the Property's "Commercial" Specific Plan land use designation and zoning but also would be compatible with and complement the residential character of the surrounding neighborhoods.

L. Landowner's community outreach indicated there was significant community support for development of a senior assisted living facility and led Landowner to enlist Sunrise Senior Living ("Sunrise") -- a respected developer/owner/operator of senior assisted living projects -- in the design of a facility for the Parcel 27A site (the "Sunrise Project").

M. A Design Review Permit was unanimously approved for the Sunrise Project and Sunrise was preparing to commence construction when the 2008 recession resulting from the collapse of the housing and credit markets took hold in earnest. As this economic downturn persisted, it had a dramatic adverse impact on senior assisted living providers in general and on the economics of the design/build/own/operate model of which Sunrise was a leading practitioner.

N. When post-2008 economic factors made it infeasible for Sunrise to construct/own/operate the approved project, Landowner undertook a concerted effort to find another high-quality assisted living provider to do so. To date, this effort has proven unsuccessful, in part because, in the years following the 2008 recession, assisted living providers have become much less willing to assume the risk of developing the facilities they operate. For this reason, Landowner also explored, again without success, the possibility of partnering with a developer/investor to build an assisted living facility on the Parcel 27 site which would then be sold or leased to an experienced assisted living provider.

O. In addition, the advent of the COVID-19 pandemic in 2020 proved to be a force majeure event that not only had a tragic effect on health and cost millions of lives but also had a particularly devastating impact on senior assisted living facilities as well as a severe adverse impact on the US economy.

P. The residual effects of the pandemic and the resulting changes in economic circumstances have continued to frustrate Landowner's more recent efforts to promote the development of a senior assisted living facility at the Parcel 27A site and have led Landowner to conclude:

(i) that such a commercial land use, although particularly well suited to the residential character of the surrounding neighborhoods, is not a viable option given the constraints of the site and the evolving market forces that govern project economics; and

(ii) that consideration needs to be given to an alternative non-commercial land use for the Parcel 27A property that is of like kind with the adjacent single-family residential land uses and that can better accommodate the challenges of the site and the economic factors in play.

Q. To this end, Landowner is readying for submission a tentative subdivision map application to subdivide Parcel 27A into single-family home lots (the "Subdivision Map Application").

R. To assist in the design of the tentative map lotting program and to inform the City's review and processing of the Subdivision Map Application, Landowner has engaged an environmental consulting firm to undertake a site investigation and aquatic resources analysis for the purpose of:

(i) updating the boundaries of the wetland features as shown on the aquatic resources delineation that was previously prepared for the site; and

(ii) determining if the identified aquatic resources are jurisdictional wetlands or include special status species that would trigger State or Federal permitting requirements.

S. The environmental consulting firm commenced the field work involved in this investigation in May of 2024 and expects to complete its analysis before the end of the year.

T. Landowner will use the information generated by the investigation and analysis to further refine the Parcel 27A tentative map proposal and to inform the entitlement process following formal submittal of the Subdivision Map Application early next year.

U. In recognition both of the site constraints that make development of the 2.46-acre Parcel 27A a particularly challenging proposition and of the extenuating economic circumstances that have frustrated Landowner's diligent efforts to promote development of a senior assisted living facility on the Parcel 27A property, the Parties previously amended the Workout Agreement to extend the due date for payment of back special taxes/assessments to December 10, 2024.

V. By this Amendment, the Parties desire to further extend the due date for payment of back special taxes/assessments to December 10, 2026 in acknowledgement of:

- (i) the commitment of time, effort, and resources that Landowner has invested to date in implementation of the Workout and Settlement Agreement;
- (ii) the additional commitment of time, effort, and resources that will be required to process the Subdivision Map Application proposed by Landowner as an alternative to the senior assisted living facility that has proven to be an infeasible land use aspiration;
- (iii) the public benefits that have accrued to date as a result of Landowner's efforts to implement the Workout Agreement;
- (iv) the additional public benefits that will accrue to City from full implementation of the Workout Agreement;
- (v) the reasonable expectation that Landowner will be able to return the Property to productive use and complete full implementation of the Workout Agreement within the December 10, 2026 timeframe contemplated by the Eighth Amendment; and
- (vi) the fact that the additional time requested by Landowner to pay the special taxes/assessments owed will not negatively impact the City's fiscal position or adversely affect the public benefits otherwise afforded by the Workout Agreement.

NOW THEREFORE, City and Landowner, in accordance with the above recitals and the covenants set forth herein, agree to the following amendments to the Workout and Settlement Agreement.

1. The first paragraph of the prior Section 14 of the Workout and Settlement Agreement, page 10 of 14, as amended 12/22 by the Seventh Amendment, is superseded and is further amended by substitution herewith and Section 14 as set forth below is substituted therefore, without change to the second paragraph of Section 14:

14. Payment of Past Special Taxes/Assessments Apportioned to Parcel 27A. Landowner shall pay:

- (i) the Foothills AD and Foothills Extension AD special assessments and the CFD No. 1 special taxes for FY 1991/92 - FY 2006/07 as apportioned to Parcel 27A in accordance with Sections 9, 10, and 11 above (\$237,901),
- (ii) the accrued fees and costs associated therewith (\$14,597), and

(iii) the CFD No. 1 special taxes for FY 2007/08-FY 2019/20, together with any penalties and interest charges associated therewith.

Such aggregate amount owed in special taxes/assessments, fees, costs, penalties, and interest, as adjusted to reflect the initial installment payment of \$50,500 already made by Landowner in December 2007, shall be paid in a single lump sum payment to be made on or before December 10, 2026 (the "Lump Sum Payment").

2. All provisions of the Workout and Settlement Agreement not otherwise inconsistent with this Eighth Amendment are and shall remain in full force and effect. Such provisions are herewith reapproved, readopted, and otherwise ratified as if fully set forth herein.

IN WITNESS WHEREOF, the City of Roseville has authorized the execution of this Eighth Amendment to the Workout and Settlement Agreement in duplicate by its City Manager under the authority of Resolution No. 24-_____ approved and adopted by the Council of the City of Roseville on the _____ day of _____, 2024 and Landowner has caused this Agreement to be executed by its Managing Member.

COUNCIL COMMUNICATION

CC #: 3635

File #: 0709-03 & 0201-01

Title: Community Development Block Grant Fund - Budget Adjustment

Contact: Kristine Faelz 916-774-5451 kpfaelz@roseville.ca.us
Claudia Carreno 916-774-5476 ccarreno@roseville.ca.us

Meeting Date: 11/20/2024

Item #: 6.10.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt an ordinance approving a budget adjustment to increase revenues and expenditures in the Community Development Block Grant (CDBG) Fund for awarded grant funding, unexpended entitlement funding, and estimated program income.

BACKGROUND

The City became a CDBG entitlement jurisdiction in 1986. These annual grants fund affordable housing, public facilities and improvements, planning, program administration, and public service activities. The annual grant funding is allocated from the federal department of Housing and Urban Development (HUD), and the amount awarded to each program is subject to the federal budgeting process.

In June of 2024, City Council adopted the FY2024-25 estimated CDBG budget. HUD notified the City of its FY2024-25 entitlement award of \$707,089 after the budget was adopted and approved. Staff then finalized and submitted the annual spending plan to HUD for approval. Following HUD's approval, Housing Division staff is requesting this budget adjustment to align the CDBG budget with the 2024-25 Action Plan.

On March 27, 2020 the Coronavirus Aid, Relief and Economic Security Act (CARES Act) was enacted to provide emergency assistance and health care response for individuals, families, and businesses affected by the COVID-19 pandemic. In 2020, the City was awarded a total of \$1,213,133 in the special allocation of CARES Act CDBG funds. Since then, \$1,191,825 has been spent on various activities to prevent, prepare for, or respond to the coronavirus. The balance of the funds, in the amount of \$21,308, is anticipated to be expended in FY2024-25.

On May 1, 2024, Council approved the Annual Action Plan for FY2024-25. The plan included funding for seven public services projects; an affordable housing acquisition project; owner-occupied housing rehabilitation projects; and administrative expenses. Once the budget adjustment is approved, the total available CDBG funds will be \$1,659,695 which will be

comprised of \$707,089 from the FY2024-25 grant award, unexpended funds of \$881,298 from FY2020-23, \$21,308 in CARES Act funding, and an estimated \$50,000 in program income available to grant in FY2024-25.

FISCAL IMPACT

The recommended budget adjustment will align the budget with the 2024-25 CDBG grant and add unspent availability from prior years. The expenditures in the attached budget adjustment total \$195,480 and will be added to the amended budget of \$1,169,607 for a total of \$1,365,087. The revenues in the attached budget adjustment total \$63,237 and will be added to the amended budget of \$1,301,850 for a total of \$1,365,087. CDBG Funds are awarded through an annual entitlement grant from the federal Housing and Urban Development Department. This budget adjustment has no impact to the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community

Respectfully Submitted,

ORDINANCE NO. 6886

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2024-25
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2024-25, is hereby amended as listed on the attached budget adjustment for the Community Development Block Grant Fund.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

FUND BALANCE TOTAL				(132,243)	

Justification for Budget Adjustment:

Staff recommends a budget adjustment to align the Community Development Block Grant (CDBG) Fund budget with the CDBG Action Plan approved by the City Council in May 2024. This budget adjustment adjusts expenditures in the CDBG Fund by \$195,480 for public services, OOR projects, affordable housing acquisition, and administrative expenses to adhere to the approved Action Plan. This budget adjustment will increase the existing CDBG Fund expense budget of \$1,169,607 to \$1,365,087. This budget adjustment will also adjust revenue in the CDBG Fund by \$63,237 and will increase the existing revenue budget of \$1,301,850 to \$1,365,087. The decrease in the CDBG fund balance accounts for the revenue budget being greater than expenditures at budget adoption.

Title: Fiscal Year 2024-25 Budget Adjustments

Contact: N. Rothlisberger 916-774-5314 nrothlisberger@roseville.ca.us

Meeting Date: 11/20/2024

Item #: 6.11.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt an ordinance to approve adjustments to the fiscal year 2024-25 budget.

BACKGROUND

Staff recommends the following adjustments to the FY2024-25 budget:

1. **REACH Funds** – This will increase the expenditure budget in the Citizens Benefit Fund by \$10,000 for Roseville Employees Annual Charitable Hearts (REACH) funds disbursed by the Grants Advisory Commission on July 25, 2024, to A Touch of Understanding (a non-profit group) for its In-School Disability Awareness Workshop. The adopted FY2024-25 budget did not include spending authority for REACH funds.
2. **Permanent Local Housing Allocation (PLHA) Grant** – This will decrease the state grants revenue budget in the Housing Successor Low/Mod Fund for the Permanent Local Housing Allocation (PLHA) Grant. The grant revenue budget for this grant was inadvertently overstated by \$500,000 in the project. This budget adjustment corrects the overstated revenue and will decrease the fund balance in the Housing Successor Low/Mod Fund.
3. **Close the Affordable Housing in Lieu and Program Equity Fund** – This will facilitate the closure of the Affordable Housing in Lieu and Program Equity Fund, which was established to receive funding from developer in-lieu fees and payoffs from affordable purchase loans subsidized by developers. In October 2004, the City of Roseville established the Housing Trust Fund as a permanent source of financing for the City's affordable housing. In 2020, it was decided that the Housing Trust Fund would receive all future affordable purchase loan payoff repayments and developer in-lieu fees previously deposited into the Affordable Housing in Lieu and Program Equity Fund; therefore, this fund has no ongoing revenue or expenditures. Staff recommends a transfer of \$592,868 from the Affordable Housing in Lieu and Program Equity Fund to the Housing Trust Fund to facilitate the closure of the Affordable Housing in Lieu and Program Equity Fund.
4. **Successor Agency to the Former Roseville Redevelopment Agency (RDA) Fund** – This will increase the Successor Agency Fund's property tax revenue budget by \$2,204,460 (to \$5,860,086) for the agency's amended Recognized Obligation Payment Schedule (ROPS) 24-25B, approved by the Placer County Consolidated Oversight Board on

September 11, 2024. This revenue will be used to make additional payments on two outstanding loan obligations to City funds: \$1,763,568 to the Strategic Improvement Fund and \$440,892 to the Housing Successor Low Mod Fund.

5. Baseline Traffic Signals Project Funding Revision – The Baseline Traffic Signals project was initially funded with \$2 million from the Strategic Improvement Fund (SIF), with the expectation of repayment from the City County Mitigation Fund. In the FY2023-24 budget, the funding plan was revised to budget the project in the City County Mitigation Fund instead, with an interfund loan established between the SIF and the City County Mitigation Fund. At that time, the project budget was also increased by \$1.6 million, bringing the total to \$3.6 million. The revised funding plan intends for the SIF to be reimbursed as revenue is received in the City County Mitigation Fund. During budget development, it was anticipated that \$161,492 would be spent directly from the SIF before the funding plan change took effect. However, the City ultimately spent \$230,542 from the SIF, which is \$69,050 more than expected prior to the funding plan revision in FY2023-24. To align the budget with the revised funding plan, staff recommends increasing the SIF budget by \$69,050 and reducing the City County Mitigation Fund by the same amount. Additionally, the FY2023-24 budget included a loan transfer for the full project cost of \$3.6 million. Staff recommends reducing this amount by \$230,542 to account for the amount already spent from the SIF before the funding plan change took effect. Ultimately, the City County Mitigation Fund will pay back the full \$3.6 million as part of the interfund loan arrangement.

FISCAL IMPACT

The recommended adjustments to the FY2024-25 budget will result in the changes in the table below. For fund balance reductions, adequate resources are available in each fund.

Budget adjustment	Fund	Expense budget adjustment	Revenue budget adjustment	Available resources adjustment
1. REACH Funds	Citizens Benefit Fund	\$10,000	-	(\$10,000)
2. Permanent Local Housing Allocation (PLHA) Grant	Housing Successor Low Mod Fund	-	(\$500,000)	(\$500,000)
3. Close the Affordable Housing in Lieu and Program Equity Fund	Affordable Housing in Lieu and Program Equity Fund	\$592,868	-	(\$592,868)
	Housing Trust Fund	-	\$592,868	\$592,868
4. Successor Agency to the Former RDA Fund	Successor Agency to the Former RDA Fund	\$2,204,460	\$2,204,460	-
	Strategic Improvement Fund	-	\$1,763,568	\$1,763,568
	Housing Successor Low Mod Fund	-	\$440,892	\$440,892
5. Baseline Traffic Signals Project Funding Revision	Strategic Improvement Fund	(\$161,492)	-	\$161,492
	City County Mitigation	(\$69,050)	(\$230,542)	(\$161,492)

	Fund			
--	------	--	--	--

The recommended budget adjustments have no fiscal impact on the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of the recommended adjustments to the FY2024-25 budget meets the above criteria and is not subject to CEQA. No additional environmental review is required.

	3601	00000	000000		
FUND BALANCE TOTAL				(500,000)	

Justification for Budget Adjustment:

Staff recommends this budget adjustment to decrease the State Grants revenue budget in the Housing Successor Low/Mod Fund for the Permanent Local Housing Allocation (PLHA) Grant (Project 700031). The previously established budget in FY24 and FY23 incorrectly allocated State Grant revenue of \$500,000 to the project. This budget adjustment corrects this allocation to reduce revenue and decrease fund balance.

	3601	00000	000000		
	3601	00000	000000		
FUND BALANCE TOTAL				-	

Justification for Budget Adjustment:

The Baseline Traffic Signals project was originally funded with \$2 million from the Strategic Improvement Fund (SIF). In the FY2023-24 budget, the funding plan was revised to use the City County Mitigation Fund instead, with an interfund loan established between the SIF and the City County Mitigation Fund. At that time, the project budget was also increased by \$1.6 million, bringing the total to \$3.6 million. The revised funding plan intends for the SIF to be reimbursed as revenue is received into the City County Mitigation Fund. During budget development, it was anticipated that \$161,492 would be spent directly from the SIF before the funding plan change took effect. However, the City ultimately spent \$230,542 from the SIF, which is \$69,050 more than expected prior to the funding plan revision in FY2023-24. To align the budget with the revised funding plan, staff recommends increasing the SIF budget by \$69,050 and reducing the City County Mitigation Fund by the same amount. Additionally, the FY2023-24 budget included a loan transfer for the full project cost of \$3.6 million. Staff recommends reducing this amount by \$230,542 to account for the amount already spent from the SIF before the funding plan change took effect. The City County Mitigation Fund will still pay back the full \$3.6 million as part of the interfund loan arrangement.

COUNCIL COMMUNICATION

CC #: 3633

File #: 0800-03 & 0201-01

Title: Electric RPEAK CTs Upgrade - Budget Adjustment
Contact: Chris Porter 916-774-5615 cporter@roseville.ca.us

Meeting Date: 11/20/2024

Item #: 6.12.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt an ordinance to approve a budget adjustment to increase the Electric RPEAK CTs Upgrade capital improvement project budget in the amount of \$1,200,000 and, at the same time, reduce the Electric RPEAK Phase 2 Upgrade capital improvement project budget by an equivalent \$1,200,000.

BACKGROUND

In December 2023, the California Energy Commission (CEC) issued a Grant Funding Opportunity for the Distributed Electricity Backup Assets (DEBA) Program. Roseville submitted an application for this grant in February 2024 for the installation of gas compression and evaporative cooling as an efficiency upgrade to increase the output on the two State Power Augmentation Power Site combustion turbine generators, referred to as the RPEAK CTs that were installed by the California Department of Water Resources (DWR) at the Roseville Energy Park (REP) in September 2021, as part of an emergency declaration for grid support issued by the Governor. The temporary installation of these units was to be through the end of 2023, but Roseville and DWR reached an agreement at the end of 2023 to keep the state-owned units sited at REP. As part of this agreement, ownership of the units would transfer to Roseville under two different scenarios. The scenario that would transfer ownership the soonest required that Roseville apply for the DEBA grant and receive a grant award from the CEC. Roseville chose this path due to the significant value owning and operating these units provides to our customers. In August 2024, the CEC officially approved the DEBA grant award to Roseville.

Roseville issued a Request for Proposals No. 07-101 for the design and construction of the gas compression system and solicited quotations for a sole source purchase order from General Electric (as the manufacturer of the RPEAK units) for evaporative cooling. These costs came in significantly higher than expected. A \$1,200,000 budget adjustment is being requested to provide the necessary funding to complete this project. This budget adjustment will be funded by reducing the Electric RPEAK Phase 2 Upgrade project by an equivalent amount. Due to changes in priority and staffing constraints, the Electric RPEAK Phase 2 Upgrade project will be deferred to future years.

FISCAL IMPACT

There is no net fiscal impact, since approving a \$1,200,000 budget adjustment to the Electric RPEAK CTs Upgrade project is offset by an equivalent \$1,200,000 decrease in the Electric RPEAK Phase 2 Upgrade project budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

	3601	00000	000000		
	3601	00000	000000		
FUND BALANCE TOTAL				-	

Justification for Budget Adjustment:

As part of the process to accelerate ownership of the State Power Augmentation Project (SPAP, also known as RPEAK) combustion turbine (CT) generators sited by the California Department of Water Resources at the Roseville Energy Park, City Council approved the creation of a project for the installation of gas compression and evaporative coolers to increase the efficiency of these generators. This project (CIP 700061) was created in advance of applying for the California Energy Commission's Distributed Electricity Backup Assets (DEBA) program, a required step to accelerate Roseville's ownership of the SPAP units. This project was also created in advance of obtaining quotes for major equipment (evaporative coolers) and issuance of a Request for Proposals for the design and installation of gas compressors. Once quotes were obtained and competitive bids were received, costs came in much higher than anticipated. As such, we request to reduce the older RPEAK Phase 2 project by \$1.2M and increase the newer RPEAK CTs Upgrade project associated with the DEBA program by \$1.2M. Major work under the RPEAK Phase 2 project will be postponed until FY27 at the earliest due to resource constraints and necessary funding approval will be sought as part of Electric's annual capital improvement project budget.

COUNCIL COMMUNICATION

CC #: 3638

File #: 0800-06 & 0201-01

Title: Traffic Model Update - Professional Service Agreement and Budget Adjustment

Contact: Stacie Marchetti 916-774-5278 smarchetti2@roseville.ca.us

Meeting Date: 11/20/2024

Item #: 6.13.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution approving a Professional Services Agreement with Fehr & Peers and authorizing the City Manager to execute it on behalf of the City of Roseville. Staff further recommends City Council adopt an ordinance to approve a budget adjustment in the amount of \$250,000 to allocate additional funds to the existing City Traffic Model Update capital improvement project for a comprehensive update of the Citywide Travel Demand Model and associated traffic mitigation fees.

BACKGROUND

The City last completed a comprehensive update to the Traffic Demand Model in FY2019-20, conducted by Fehr & Peers. Given recent changes, including significant new land developments, the impacts of the COVID-19 pandemic on travel patterns, adjustments to Roseville public schools' schedules, and new state requirements, an updated model is now warranted. Specifically, SB743 requires cities to incorporate Vehicle Miles Traveled (VMT) as a key metric in travel demand models, and AB 602 mandates the consideration of residential building sizes when assessing impact fees on new development.

This update will expand beyond the scope of annual Traffic Model maintenance, necessitating additional resources. Staff, therefore, seek approval for a new Professional Services Agreement with Fehr & Peers to conduct the model update, along with a budget adjustment to cover the increased consulting and staff costs. Funding is available from the Traffic Mitigation Fund.

FISCAL IMPACT

The not-to-exceed amount for the recommended agreement with Fehr & Peers is \$495,000. An existing capital improvement project covers ongoing maintenance for the Citywide Traffic Model Update; however, an additional \$250,000 for consulting services and staff labor is required to complete this comprehensive update. The funding source for this update is the Traffic Mitigation Fund, which is funded by traffic impact fees paid by new development.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Description

Resolution 24-388

Fehr and Peers Traffic Model Update Professional Service Agreement

Ordinance 6887

RESOLUTION NO. 24-388

APPROVING A PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND FEHR & PEERS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Professional Services Agreement for a comprehensive Traffic Model Update, by and between the City of Roseville and Fehr & Peers, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said professional services agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2024, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

PROFESSIONAL SERVICES AGREEMENT

Project: Updates to Travel Demand Model, City-Wide Level of Service
and Vehicle Miles Traveled and to the Traffic Mitigation Fee Program

THIS AGREEMENT is made and entered into this ____ day of _____, 20____,
by and between the City of Roseville, a municipal corporation (“CITY”), and Fehr & Peers, a
California corporation (“CONSULTANT”); and

W I T N E S S E T H:

WHEREAS, CITY desires professional services consisting of updating Travel Demand
Model, City-Wide Level of Service/Vehicle Miles Travelled and the Traffic Mitigation Fee
Program; and

WHEREAS, CONSULTANT has prepared a proposal dated July 17, 2024, which
describes the scope of work to be performed by CONSULTANT, the budget for the work, and
the schedule for performance of the work; and

WHEREAS, CONSULTANT is qualified and experienced to provide such professional
services.

NOW, THEREFORE, the parties agree as follows:

1. Services. CONSULTANT shall perform, at the direction of CITY, the scope of
services as described in EXHIBIT “A,” attached hereto and incorporated herein by this
reference.

2. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the budget estimate as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Total compensation shall not exceed four hundred ninety-five thousand dollars (\$495,000).

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

3. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

4. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be

primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor,

regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

5. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of

this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

6. Time is of the Essence. Time is of the essence of this Agreement.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars (\$200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages

applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

9. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

10. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications.

CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

11. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

12. The Levine Act Disclosure. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to CITY elected or appointed officers totaling more than \$250 within the twelve (12) months prior to the CITY decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by CONSULTANT and/or its agent(s), CONSULTANT is responsible for compliance, including for its disclosure obligations, if any, as further described at:

https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

13. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

14. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent

contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

15. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the

Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

16. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

17. Copyright, Ownership and Use of Materials. All tangible material (“Material”) created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

18. Termination of Agreement. The City may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days

advance written notice. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any Material, notwithstanding any termination or any dispute regarding the amount to be paid.

19. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

22. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE

311 Vernon Street
Roseville, CA 95678

CONSULTANT

John Gard
Principal, TE, RSP
1013 Galleria Boulevard, Suite 255
Roseville, CA 95678

Either party may amend its address for notice by giving notice to the other party in writing.

23. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and CONSULTANT has caused this Agreement to be executed.

EXHIBIT “A”

EXHIBIT A

Project Understanding

The City of Roseville Travel Demand Model was last updated by Fehr & Peers in 2019/2020 as part of the City's General Plan update. An update to the model is now warranted for a number of reasons including:

- Significant amounts of new land development have occurred in the western part of Roseville, putting greater strains on many of the city's key east-west arterials. It is imperative that the updated model be calibrated to accurately represent these conditions.
- The travel effects of the COVID-19 pandemic have changed travel behavior, requiring the need for an updated model to reflect these changes in behaviors.
- Start/end times for public schools in Roseville have changed since 2019/2020. In many communities, the PM peak hour (i.e., 60 minutes with greatest travel) now occurs within the 3-4 PM window, corresponding to high school release times of 3:30 PM.
- Travel demand model must now accurately estimate Vehicle Miles Traveled (VMT) as a key transportation metric. As such, model development typically includes validation to VMT.

Assembly Bill (AB) 602, which is now law in California, requires agencies to consider residential building sizes when assessing impact fees on new development. This new law requires application of new analytical approaches for assessing residential traffic fees within the City's TMF program.

EXHIBIT B

Key Staff and Firm Qualifications

Key Staff

This assignment will be led by the following Fehr & Peers staff:

- **Project Manager – John Gard, Principal, TE, RSP₁**
John has been employed continuously with Fehr & Peers since 1995, working out of the Roseville office. He has completed dozens of land use, infrastructure, and general planning studies within the City over his 29-year career.

The following key staff will support this effort:

- **Travel Demand Model Lead – Yoyo Zeng or Adrita Islam**
- **Traffic Operations Lead – David Manciatì**

Yoyo and Adrita are among the firm's top travel demand model specialists. Their resumes in Exhibit D illustrate the array of different model development work they have completed. David has worked on a number of projects in the City of Roseville over his near decade of work experience. He is a highly skilled traffic operations analyst with extensive experience in Synchro and SimTraffic.

The above staff will be supported by an array of junior/mid-level staff with specific staff selected based on the type of task. Between our Roseville and Sacramento offices, we have over 30 transportation professionals.

Firm Qualifications

As a national firm with offices throughout the US, Fehr & Peers has very strong travel demand model qualifications. But what is critical here is that our local staff also have these modeling skills, because understanding the local context is critical in model development. Following is a list of city-wide modeling efforts undertaken with the last five years by John & Adrita, and John & Yoyo:

- City of Lodi Travel Demand Model Update – John & Adrita
- City of Yuba City Travel Demand Model Update – John & Adrita
- City of Vacaville General Plan Update (VMT) – John & Adrita
- Yuba County Travel Demand Model Update – John & Yoyo
- City of Jackson General Plan Update (VMT) – John & Yoyo

In addition to the above, John oversaw the 2019 Roseville model update work with other Fehr & Peers staff no longer working with the firm. John has also been involved in the development of various fee programs including ones for Citrus Heights, Yuba City, and Rocklin.

EXHIBIT C

Scope of Work

Task 1 – Project Initiation and Management (Phase 1)

Fehr & Peers will facilitate a project kick-off meeting that will include a recap of the study objectives, traffic data collection details, and data needed from the City of Roseville.

Fehr & Peers will send invoices to the City of Roseville on a monthly basis along with a progress report detailing work completed that month, budget status, and any outstanding items.

Task 2 – Data Collection (Phase 1)

The following types of data collection are needed for this effort:

1. Traffic volume data collected/purchased from local count vendors
2. Traffic volume data from City's ITS traffic count database
3. Dataset purchased from Replica (see below)
4. Big data purchased from Streetlight, Inc.
5. Land use data provided by City of Roseville staff
6. Traffic signal timing plans provided by City of Roseville staff

Regarding items #1 and #2, Fehr & Peers has observed that the City's ITS traffic count database does not always produce reliable traffic data (when compared against actual counts on the same day/location). Thus, a combination of resources is recommended.

Regarding items #3 and #4, Replica¹ is a company that has produced a nationwide activity based model that is being used by numerous jurisdictions to inform their transportation planning practices. The model produces outputs such as mode split, VMT, trip origin/destination, average trip length, and ADT just like trip-based models. It is a relatively inexpensive source of information that can help improve the base year model development work in Task 4. However, since Replica data itself are estimates of travel versus actual travel, it is best to pair this data source with data from Streetlight, Inc. which uses connected vehicle data to quantify travel behavior.

Regarding items #5 and #6, it will be valuable if City of Roseville Community Development Department staff can provide a list of land developments that have been built since 2019. This will be complemented by aerial imagery reviews, and field visits conducted by Fehr & Peers. But the initial dataset is still important as a starting point. Similarly, it is necessary to obtain traffic signal timing plans at all signalized intersections in the City for use in Task 3.

¹ [Replica: Data to Drive Decisions about the Built Environment \(replicahq.com\)](https://replicahq.com)

Fehr & Peers will hire a count vendor to collect the following traffic counts in August/September 2024:

- New AM (7-9) and PM (3-6) peak period traffic counts at 137 existing intersections in the City of Roseville.²
- New average daily (2-day) traffic volume counts at 100 roadway segments throughout the City.
- Multi-day hose tube traffic volume counts at eight locations.

The above count methodology reflects the very low likelihood that an intersection that is currently projected to operate at LOS A or B conditions will dramatically experience a nearly a doubling in delay, causing conditions to worsen to an unacceptable LOS D or worse condition.

The number of segments to be counted represents a 10% increase over the number of segments studied for the previous model update. This is reasonable given the increase in streets built since 2019.

The multi-day hose tube counts will be used for model trip generation rate calibration. One or more driveway counts will be collected for each site to capture all the trips traveled in and out from the site. The recommended site locations are listed in Task 4.

Task 3 – Existing Conditions Analysis (Phase 1)

Fehr & Peers will analyze the existing AM and PM peak hour level of service (LOS) at all 137 intersections counted as part of Task 2. This will be conducted using a combination of Synchro (deterministic) and Simtraffic (microsimulation) models that apply the methodologies from the latest edition of the *Highway Capacity Manual* (TRB, 2021).

The most recent citywide traffic operations modeling was performed by Fehr & Peers in 2020 as part of the Housing Element update. Synchro was used entirely for AM peak hour analysis while both Synchro and SimTraffic were applied to PM peak hour analysis. This was purposefully chosen in light of generally more traffic and worse operating conditions during the PM peak hour. We propose to apply this same methodology as part of this task. However, we will review the locations analyzed during the PM peak hour using Synchro versus SimTraffic and modify them if appropriate. Per City standards, a 1.0 peak hour factor (PHF) will be applied to represent hourly conditions.

Deliverables:

- Table showing average delay/LOS at all existing signalized intersections.³
- The following exhibits will be developed:
 - Existing signalized intersection locations (using same numbering system as current)

² Of the ultimately planned 224 signalized intersections in the City (excluding those in the pedestrian overlay districts), 137 would operate at LOS C or worse either today or in 2035 (according to current 2035 model). These intersections are targeted for counting given the importance of properly analyzing the Citywide signalized LOS policy in the City's General Plan.

³ For existing signalized intersections not counted due to a known LOS B or better condition, a "LOS A or B" result will be shown in the table, but no delay value will be shown. Similarly, those intersections will be included in figures, but without peak hour volumes.

- Existing AM and PM peak hour traffic volumes and lane configurations at existing signalized intersections.
- Roadway functional classification exhibit (showing class and number of lanes)
- Existing Average Daily Traffic (ADT) at segments counted in Task 2.

Task 4 – Develop Updated (Fall 2024) Base Year Travel Demand Model (Phase 1)

This task consists of development of an updated base year travel demand model that is validated to Fall 2024 conditions. Fehr & Peers will utilize the same model software (Cube), script, traffic analysis zone (TAZ) structure, and other parameters. However, a number of other adjustments will be made.

The 2024 Regional Transportation Plan Guidelines for Metropolitan Planning organizations, (CTC, 2024) lists model update development guidelines that establish benchmarks for CEQA legal adequacy for travel forecasting validation. These benchmarks include basic validation requirements to ensure that the forecasting model is sensitive and accurate for model applications. It is important that this validation be performed as it demonstrates to other responsible agencies (e.g., Caltrans, etc.) that the model is suitable for various applications.

The base year model will be calibrated to a level of validation for average daily, AM peak hour, and PM peak hour conditions that, to the extent possible, meets or exceeds the suggested validation targets published in the *2024 RTP Guidelines*. The validation compares the model's estimate of link-level daily and peak hour traffic against the measured existing volumes. To accomplish the validation, a number of analysis steps are required, as described below:

Land Use-Related

- *Step 1: Update base year model to represent Fall 2024 land uses (by TAZ) throughout Roseville.* To complete this step, we will obtain a list of land development projects that have been constructed since 2019 and add those uses to the 2019 land use dataset. We will also perform reviews of aerial imagery and perform field visits to confirm constructed and occupied uses. We will compare the total residential land use in the City against the most recent American Community Survey (ACS) estimate to confirm the reasonableness of the land use totals. We will also translate the non-residential uses into employees and compare those totals with LEHD estimated total employment for the City.
- *Step 2: Update base year model to represent Fall 2024 land uses in areas of Rocklin, Lincoln and unincorporated Placer County that could influence travel within the City of Roseville.* This will be accomplished by reviewing/copying land use information from other models (e.g., SPRTA updated model, Rocklin model, Placer County model, etc.). Field visits will not be performed.

Roadway Network-Related

- *Step 3: Update base year model's roadway network to match Fall 2024 built and open streets.* This will be accomplished by reviewing aerial imagery, and performing field visits if necessary. As travel in the City is affected by state highway improvements, any changes in the status of constructed facilities along I-80 will also be added to the model.

- *Step 4: Review base year model's roadway network to confirm any turning movement restrictions and accuracy of model predictions of free-flow travel during peak periods.* This will be accomplished by reviewing Google maps, which identify free-flow and congested streets.

Model Functionality-Related

- *Step 5: Update base year model's trip generation rates to reflect measured trip generating levels for key land uses such as residential and office.* This will be accomplished by the following:
 - *Trip generation surveys (using multi-day hose tubes) will be performed at the following locations:*
 1. The Preserve at Creekside and Pearl Court Apartments located on Antelope Creek Drive
 2. Canterbury Down Apartments on Micro Court (off Junction Boulevard)
 3. Single-Family Residential accessed from Garden Park Drive and Mountain Park Drive (located near Roseville Parkway and Washington Blvd).
 4. Single-Family Residential accessed from Corin Way, Summerland Way, and Bellanca Way (located off Hayden Parkway).
 5. Single-Family Residential accessed from Orvietto Drive and La Croix Drive (located near Roseville Parkway and Olympus Drive).
 6. Single-Family Residential Deer Valley Residential (located off Roseville Parkway)
 7. Single-Family Residential accessed from Anacapa Drive and Manhattan Drive (located near Roseville Parkway and Trestle Road).
 8. Highland Pointe Drive Office Buildings accessed from Highland Pointe Drive (to be complemented by peak period staff observations at driveway across from Highland Ridge Drive).

This data will be supplemented by trip generation studies performed by Fehr & Peers within the last two years at the Amazon Warehouse / McKesson / Restaurant Depot Industrial on Foothills Boulevard and at the Lava Ridge Court Office Complex off Eureka Road.

The average trip generation rates per dwelling unit (for single family and multi family units) will be calculated for each residential site counted. Differences in trip generation rates between days and differences between sites in different geographic areas will be reviewed to determine whether any adjustments in daily, AM peak hour, and PM peak hour trip rates should be considered for residential uses.

The City's model applies a daily trip rate of 17.7 trips per thousand square feet (ksf) for office uses. This is well above the ITE Trip Generation Manual rate of about 11 trips per ksf. And the ITE rate itself does not consider the effects of COVID-19 on work from home conditions. Fehr & Peers will utilize the measured Highland Pointe Drive Office Buildings and Lava Ridge office complex trip rates along with data collected in Fall 2023 at a variety of other office complex across California (conducted as part of

internal R&D efforts) to develop a recommended set of daily, AM peak hour, and PM peak hour trip rates for office uses.

The City's model applies a daily trip rate of 35 trips per thousand square feet (ksf) for retail uses. This is generally inline with ITE *Trip Generation Manual* rates. Unless warranted by major discrepancies in trip productions (from residential) and attractions (from retail and office), no adjustments will be made to retail trip rates.

Trip generation rates for elementary, middle, and high schools will be updated to match the most recent ITE *Trip Generation Manual* rates. However, special consideration will be given to school start/end times because it has been observed that adjacent to some schools, the peak hour of travel occurs from 3:30 to 4:30 PM, as a result of school letting out right at the beginning of the PM peak period.

Trip rate adjustments may also be made to other land uses such as industrial, high tech industrial, research & development, and parks.

Travel data from Replica for City land uses will be used to check the reasonableness of the chosen model trip rates.

- *Step 6: Review and update, if warranted, the following that affect travel forecasts: Trip purpose splits (on a daily basis and during peak hours)*
- *Introducing model flexibility whereby a percent 'work from home' function is added to the model to test/model the effects of more or less remote work by city residents*
- *Friction factor curves that influence pairings of trip productions and attractions*
- *Replacement of outdated (circa 2005) SACMET regional congested speed seed (and related) matrices with more updated versions from SACSIM 2019. This is particularly important given the role this matrix plays in initiating the iterative traffic assignment process.*
- *Percentage of home-based work trips that remain internal to the City versus have workplaces in other jurisdictions*
- *Diurnal factor that allocates daily trips to AM and PM peak hour*

This will be accomplished through a variety of sources including (but not limited to): Replica data, Streetlight Data, Census data, by reviewing/copying land use information from other models (e.g., SPRTA updated model, Rocklin and Placer County model, etc.)

When adjusting trip rates along with other variables listed in Step 6, it is common to conduct multiple runs of the model to understand whether overall forecasted traffic volumes on the network are greater than or less than existing volumes. These checks will help shape refinements to the selected trip generation rates and other variables. As the trip rates themselves are also used as inputs into the City's TMF, it is imperative that they be carefully chosen and reviewed for equity/fairness as they will affect the relative fees in different specific plan areas. Additionally, the per unit/ksf fees assessed will directly affect total revenue generated, which should be comparable to the nexus study. If needed, multiple fee calculation scenarios will be performed to test different fee structures and approaches.

- Step 7: Model Calibration and Validation
 - *Model outputs from each step will be carefully reviewed and compared to the various data sources mentioned in Step 6, including trip rates, trip purpose splits, average trip length by trip purposes, and model-wide VMT.*
 - *Roadway volumes will be compared to the counts collected in Task 2 using recommended statistical thresholds recommended in CTC 2024 Guidelines.*

Once the model is deemed suitable for use, a series of dynamic validation tests will be performed to evaluate the model's response to changes in roadway capacity and land use inputs. This is a recommended extra step based on the CTC 2024 Guidelines that helps demonstrate that the model reacts in the right direction and magnitude to a change in the street system or added land uses.

Deliverables:

- Base Year Model Development/Validation Report including tables showing updated trip generation rates for all land uses as well as appendices showing TAZ map, and land use inputs.

Task 5 – Develop Cumulative Travel Demand Model (Phase 2)

Fehr & Peers will develop a future year/cumulative travel demand model using the base year model as the starting point. It is assumed that one set of land use changes will be made to the City's current 2035 land use dataset to represent changes in approved/entitled projects, new development proposals, etc. As the base year model is 2024 and it is customary to plan for a 20-year horizon, a 2045 horizon year is recommended for use. The land use adjustments will also require cumulative development assumptions in adjacent communities considering large projects such as Placer One/Placer Ranch, Placer Vineyards, Whitney Ranch, and Regional University. As a starting point for growth in those areas, we will consult the South Placer / South Sutter regional nexus study, which has a 2040 horizon.

Fehr & Peers will work with City staff to determine whether any changes in the future year roadway network assumptions should be made. Notably, results of the upcoming November ballot initiative to fund additional improvements at the I-80/SR 65 interchange will be known by the time this task is undertaken. The pass/fail result of that ballot measure will influence whether Phase 2 – 4 interchange improvements should be assumed.

Fehr & Peers will use the difference method forecasting approach to develop a set of cumulative (2045) average daily traffic (ADT) forecasts for the 100 existing roadway segments analyzed in Task 2. The ADT will also be reported for an additional 25 new street segments that do not exist today, but are constructed in the future year model. Fehr & Peers will compare the cumulative (2045) ADT forecasts against the cumulative forecasts from the Roseville Housing Element traffic analysis we performed in 2021.

Contingency #1 provides additional staff time to revisit roadway network (based on ADT estimates derived) and land use assumptions (such as including/excluding Roseville Industrial Park and Roseville Commons) assumptions. A supplemental model run consisting of increased street capacity could be

needed if the updated forecasts show higher than expected growth, thus implying that consistency with the City's 70% LOS C signalized intersection policy could be in jeopardy.

Deliverables:

- Technical Memorandum containing ADT figures, TAZ map (including versions both without and with aerial imagery), and land use inputs.
- Updated City of Roseville travel demand model (electronic files)

Task 6 – Cumulative (2045) Traffic Operations Analysis (Phase 2)

Fehr & Peers will analyze the AM and PM peak hour traffic operations at all 224 existing and planned signalized intersections in the City. As noted previously, those intersections previously forecast to operate at LOS B or better will not be quantitatively analyzed⁴; instead, as LOS B or better grade will be provided. This will be conducted using the same combination of Synchro (deterministic) and Simtraffic (microsimulation) models that were used for existing conditions.

Deliverables:

- Table showing average delay/LOS at all existing and planned signalized intersections.
- The following exhibits will be developed:
 - Existing and planned signalized intersection locations
 - Existing and planned signalized intersections – Fully Built Out versus Remaining Future Improvements
 - Cumulative (2045) AM and PM peak hour traffic volumes and lane configurations at existing and planned signalized intersections.
 - Ultimate number of lanes for major arterial roadways.
 - Remaining future roadway and street widening improvements

Task 7 – Vehicle Miles Traveled (VMT) (Phase 2)

City of Roseville Design Standards (2023) contains a section found at: [SECTION 2 \(civildive.com\)](https://www.civildive.com/section-2/) regarding use of VMT for traffic impact studies. VMT values are derived from the city's travel demand model. Because the base year and future year models are being updated, the VMT estimates must also be updated.

As shown in the *City of Roseville Design Standards* (2023), the City has employed VMT per capita and VMT per service population metrics to represent citywide average VMT. Subsequent to the preparation of these averages (which are then used to compare a proposed project's VMT per capita or service population pursuant to SB 743), it has been found that the VMT per service population metric treats

⁴ Fehr & Peers will inspect the SimTraffic model networks to ensure that any locations assumed to operate at LOS B or better are in fact operating in this range based on the new model and forecasts. Fehr & Peers has assumed that up to 10 additional intersections will be analyzed should review of the simtraffic model or ADT values suggest an LOS C or worse condition could exist.

non-residential projects unfairly. Further, the methodology itself is difficult to explain and prone to calculation errors. For these reasons, Fehr & Peers proposes the following steps to update the VMT values:

- *Step 1: Meet with City of Roseville staff to discuss the benefits and drawbacks for how to calculate VMT by individual land use type or per capita.*
- *Step 2: Proceed with the preferred analytical approach, calculating VMT values for both the base year and cumulative year models. Also develop color-coded screening maps (by individual land use type) showing the VMT metrics relative to the city-wide average. These maps will identify low VMT generating zones, which can be screened out from further analysis pursuant to SB 743 and the OPR's Technical Advisory.*

Fehr & Peers will perform a "boundary method" VMT estimate which consists of summing up all VMT generated on city streets (contained within the model) regardless of whether the trip is made by a Roseville or non-Roseville resident or employee. This will be performed under both base year and future year model conditions. This same exercise will be repeated, but with VMT generated on City streets further classified as being Internal-Internal (I-I), Internal-External (I-E), External-Internal (E-I), or External-External (E-E). In this context, internal implies that the trip has an origin or destination within the City of Roseville, and external means the opposite. These metrics will help quantify how much traffic on city streets is associated with city land uses and how this will change under cumulative conditions. Data from Replica or Streetlight will be used to validate the II VMT percentages.

Fehr & Peers will also be available to help edit the *City of Roseville Design Standards* (2023) section related to use of VMT for traffic impact studies.

Deliverables:

- Technical Memorandum describing rationale for selecting preferred VMT calculation methodology, presenting citywide average VMT values for existing and cumulative year conditions including screening maps.
- Technical Memorandum describing results of Boundary Method VMT calculations.
- Track changes version of *City of Roseville Design Standards* (2023) section related to use of VMT for traffic impact studies.

Task 8 – Traffic Mitigation Fee (TMF) Program Update (Phase 2)

This task consists of a comprehensive update to the City's TMF program based on the updated base year and cumulative year models. As is discussed below, this will necessarily be an incremental approach with multiple check-ins with City staff regarding methodologies, likely effects on fees, etc.

This task will begin with calculations showing the amount of new development between the base and future year model for each of 17 defined fee districts in the City. The next step is to update the detailed Dwelling Unit Equivalence (DUE) factors table (found at: [Citywide Traffic Mitigation Fee \(TMF\) Program - City of Roseville](#)). This table uses a combination of trip generation rates, pass-by percentages, and trip lengths from a variety of sources to estimate and calculate the DUE per unit. Check-in #1 with City staff will be a focused discussion of which inputs should be maintained versus updated (based on analyses

performed in advance by Fehr & Peers to understand how they may affect overall fee levels). Fehr & Peers will also consider the degree to which modified data inputs or approaches applied in the TMF update may be perceived as inconsistent with other fees programs that Roseville land uses are responsible for paying (e.g., SPRTA). Travel data from Replica will be obtained for the 17 fee districts to confirm the reasonableness of the model travel estimates for each zone.

The list of roadways and intersection improvements to be included in the TMF will be provided by the City of Roseville along with the cost of those improvements.

As the City's fee program assigns different costs per DUE and land use type to each fee district, a series of model runs consisting of select link runs will be necessary to quantify the extent to which specific fee districts contribute trips to various improvement projects. It will also be necessary to consider whether any planned improvements in the program should be considered 'existing deficiencies' whose costs are therefore not covered by fees imposed on new development. Check-in #2 with City staff will be a discussion on this general topic.

The roadway fee calculations will incorporate AB 602, which requires fee programs in California to consider residential building size when assessing impact fees. To do this, information from the US Census, American Housing Survey, and NCHRP 716 will be utilized, applying a methodology similar to what has been applied for the SPRTA fee program (but customized to the City of Roseville). City staff may also need to provide information, if available, pertaining to the range of single-family dwelling unit sizes in the City. Check-in #3 with City staff will be a discussion on how best to implement this law given data specific to Roseville.

Contingency #2 provides additional staff time to update the fee calculations (requiring new model runs, and various spreadsheet calculations) by either adding or subtracting the Roseville Industrial Park and Roseville Commons projects.

Fehr & Peers understand that the City of Roseville, after having spoken with other agencies and a local law firm, has been advised that public noticing is not required for annual Construction Cost Increase (CCI) adjustments. Fehr & Peers staff will speak with our peers in the Bay Area and Southern California to confirm if agencies in which we work in those markets are under the same impression.

Deliverables:

- AB 1600 Nexus Report including required language pursuant to this law. Report will include various figures, tables, and spreadsheet outputs.

Task 9 – Meetings (Phase 2)

Fehr & Peers will be available to attend up to 12 meetings (mostly virtual one-hour check-ins, but occasionally in person if warranted). These may include public hearings to present study findings.

EXHIBIT “B”

EXHIBIT D

Cost Estimate

Fehr & Peers can complete Tasks 1 – 9 for a not-to-exceed cost of \$465,000. Below are the estimated hours required by each task. Contingencies #1 and #2 would cost an additional \$30,000 for a total project cost of \$495,000.

Fee Estimate Calculation

Task	Staff Person Labor (hours & billing rates)							Total	
	Principal \$385	Senior Associate \$300	Senior Engineer \$215	Senior Planner \$215	Engineer/ Planner(s) \$155	GIS \$145	Proj. Coordinator \$180		
	\$385/hr.	\$300/hr.	\$215/hr.	\$215/hr.	\$155/hr.	\$145/hr.	\$180/hr.	Hours	Cost
1: Project Initiation and Management (Ph 1)	8	0	0	0	0	0	16	24	\$5,960

ORDINANCE NO. 6887

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2024-25
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2024-25, is hereby amended as listed on the attached budget adjustment for the Traffic Model Update project.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this
_____ day of _____, 2024, by the following vote on roll call:

	3601	00000	000000		
FUND BALANCE TOTAL				(250,000)	

Justification for Budget Adjustment:

Additional funds are needed to perform a comprehensive update of the Citywide Traffic Model (project #400189). The last update was completed in FY2020 and is warranted again due to significant new land development, the travel effects of the COVID-19 pandemic, changes to start/end times for Roseville public schools, the SB 743 requirement for an estimate of vehicle miles traveled (VMT) as a key transportation metric in travel demand models, and the AB 602 requirement that agencies consider residential building size when assessing impact fees on new development. This update will have a larger scope than the annual maintenance of the Traffic Model Update and therefore requires additional resources. This adjustment requests an additional \$200,000 for consulting services and \$50,000 for staff labor. Resources are available in the Traffic Mitigation Fund.

Description

Ordinance 6889

Exhibit B

Ordinance 6890

ORDINANCE NO. 6889

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
AMENDING ZONING ORDINANCE NO. 5428 OF THE CITY OF ROSEVILLE
CHANGING THE ZONING OF CERTAIN REAL PROPERTY LOCATED
WITHIN THE CITY OF ROSEVILLE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The Council of the City of Roseville has reviewed the findings of the Planning Commission recommending approval of the rezone specified herein, and makes the following findings pursuant to Section 19.86.050 of the Zoning Ordinance:

1. The rezone is in conformance with the public interest, health, safety, or welfare of the City; and
2. The rezone is consistent with the objectives, policies, programs, and land use designations of the City of Roseville General Plan

SECTION 2. Section 19.06.020 of the Zoning Ordinance of the City of Roseville, Ordinance No. 5428, is amended to change the zoning of that portion of certain real property within the City of Roseville known as Parcel WB-42B of the Sierra Vista Specific Plan, as shown and so designated in Exhibit "B", which is attached hereto and incorporated herein by reference, is hereby rezoned from Community Commercial (CC) to Small Lot Residential/Development Standards (RS/DS).

SECTION 3. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 4. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this _____ day of _____, 20____, by the following vote on roll

ORDINANCE NO. 6890

ADOPTING A FIFTH AMENDMENT OF THE DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND WESTPARK S.V. 400, LLC, RELATIVE TO THE SIERRA VISTA SPECIFIC PLAN AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. In accordance with Chapter 19.84 of Title 19 of the Roseville Municipal Code (the Zoning Ordinance) of the City of Roseville, the City Council has received the recommendation of the Planning Commission that the City of Roseville enter into a Fifth Amendment of the Development Agreement by and between the City of Roseville and Westpark S.V. 400, LLC, pertaining to property located within the Sierra Vista Specific Plan area.

SECTION 2. Prior to considering the proposed Fifth Amendment to Development Agreement, the City Council considered the 13th Addendum to the Sierra Vista Specific Plan Environmental Impact Report (EIR) (SCH #2008032115, certified May 5, 2010), pursuant to the California Environmental Quality Act, California Public Resources Code Section 21000 et seq.

SECTION 3. The Council of the City of Roseville has reviewed the findings of the Planning Commission recommending approval of the Fifth Amendment to Development Agreement, and makes the following findings:

1. The Fifth Amendment to the Development Agreement is consistent with the objectives, policies, programs and land use designations of the City of Roseville General Plan and the Sierra Vista Specific Plan;
2. The Fifth Amendment to the Development Agreement is consistent with the City of Roseville Zoning Ordinance;
3. The Fifth Amendment to the Development Agreement is in conformance with the public health, safety and welfare;
4. The Fifth Amendment to the Development Agreement will not adversely affect the orderly development of the property or the preservation of property values; and
5. The provisions of the Fifth Amendment to the Development Agreement will provide sufficient benefit to the City to justify entering into said Amendment.

SECTION 4. The Fifth Amendment to Development Agreement by and between the City of Roseville and Westpark S.V. 400, LLC, a copy of which is on file in the City Clerk's Department and incorporated herein by reference, is hereby approved and the City Manager is authorized to execute it on behalf of the City of Roseville.

SECTION 5. The City Clerk is directed to record the executed Development Agreement Amendment within ten (10) days of the execution of the agreement by the City Manager with the County Recorder's Office of the County of Placer.

SECTION 6. This ordinance shall be effective at the expiration of thirty (30) days from the date of its adoption.

SECTION 7. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____ 2024, by the following vote on roll call:

Title: 2023 Development Agreement Review
Contact: Stacie Marchetti 916-774-5278 smarchetti2@roseville.ca.us

Meeting Date: 11/20/2024
Item #: 6.15.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council find that the parties to the City's seventeen active development agreements have made a good faith effort to comply with the terms and conditions of their respective development agreements during the 2023 review period.

BACKGROUND

California Government Code § 65865.1 and Roseville Zoning Ordinance § 19.84.080 require an annual review of all active development agreements. The purpose of the annual review is to identify the terms, conditions, and obligations of the development agreements and to ensure responsible parties are in compliance with applicable obligations.

The development agreement review document includes a summary matrix for each development agreement, which identifies both completed and outstanding obligations, trigger mechanism/timing details, the department assigned to respective obligations, the task assigned to each department, and the status of respective obligations. For consistency, the City reviews all specific plan and master plan development agreements concurrently rather than the anniversary adoption date of individual agreements.

Evaluation

This consolidated review covers currently active development agreements between the City of Roseville and remaining landowners within seventeen sub-areas that have been entitled for urban development, including five individual Specific Plans and one Master Plan in the North Industrial Plan Area. The seventeen development agreements and landowners include the following:

Amoruso Specific Plan (148.7 acres)

1. Brookfield Sunset, LLC and Amoruso Family Living Trust

Amoruso Specific Plan (525.7 acres)

2. Brookfield Sunset, LLC and Amoruso Family Living Trust

Creekview Specific Plan

3. Granite Bay Development II, LLC, Phillips Road 160 Investors Limited Partnership, Phillip Road Land, LLC, J & KD Enterprises, LLC, Soule Investments, LLC, Bennett West Roseville, LLC, Decou West Roseville, LLC, Blue Oaks – Roseville , LP, and Chuang-Hsiung and Yueh-Jing Chuang

Northeast Roseville Specific Plan

4. Kaiser Hospital

North Industrial Plan Area - Hewlett-Packard Roseville Campus Master Plan

5. Hewlett Packard Company, BBC Roseville Oaks, LLC and Quality Investment Properties, California Bank & Trust, and R10 Roseville LLC

Sierra Vista Specific Plan

6. Barbaccia – Cyril G. Barbaccia Irrevocable Trust

7. Baseline P&R – Baseline P&R, LLC, Sierra Vista Communities, and KV Sierra Vista

8. Baybrook – Baybrook Limited Partnership and KV Sierra Vista

9. DF Properties – DF Properties, Inc. and SV 218, LLC.

10. Mourier Investments, LLC

11. Mourier & Bagley – Mourier Investments, LLC, Bagley & Associates, L.P., and John Mourier Construction, Inc

12. Mourier & Computer - Mourier Investments, LLC, Computer Deductions, Inc., and John Mourier Construction, LLC

13. Mourier & Wealth – Mourier Investments, LLC, Wealth Properties, Inc., and John Mourier Construction, Inc.

14. Westbrook - Westpark SV 400, LLC and Pine Island Apartments, LLC

15. Westpark Federico - Westpark Federico, LLC, Mourier Investments, LLC and Federico-Tyler Family Limited Partnership

West Roseville Specific Plan

16. Fiddymment - Fiddymment Land Venture, LLC, ATC Realty One, LLC, Fiddymment 116 Lots, LLC, Roseville Schools, LLC, Jen

California 15, LLC, Taylor Morrison of California, LLC, and West Roseville Development Company, Inc.

17. Westpark - 1600 Placer Investors

The attached development agreement review document identifies all obligations required by each development agreement, and provides a summary of the completed and yet-to-be-completed obligations by respective landowners through December 31, 2023.

As part of the annual review, the City Council is charged with finding each landowner in or out of compliance with the terms and conditions of the executed development agreements during the reporting cycle. If a landowner is found to be in compliance, the current review is concluded. However, if a landowner is found not in compliance, the Council may order the landowner to cure the deficiency within sixty (60) days. Failure to do so may result in the Council modifying or terminating the agreement with the landowner. For the 2023 reporting period, staff has determined that all landowners have satisfied all applicable terms and conditions, and no deficiencies are required to be cured.

The next annual reporting cycle began on January 1, 2024, and will conclude on December 31,

2024.

FISCAL IMPACT

Preparation of the development agreement review ensures financial and other obligations associated with development are satisfactory fulfilled to avoid detrimental impacts to the General Fund. Approval of the 2023 Development Agreement review will have no impact on the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b) (3)). The development agreement review does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal D - Enhance economic vitality

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Stacie Marchetti, Management Analyst

Mike Isom, Development Services Director

Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix

Section	2.7.6
Title	Preserve Area Operation and Management Plan Fee
Obligation	Landowner shall pay to City a onetime fee of \$20,000.00. Payment due upon effectuation of the 404 permit and initiation of the establishment monitoring phase management as outlined in City's Open Space Preserve Overarching Management Plan.
Department	City Manager and Parks
Status	Complete
Section	3.5.2
Title	Arterial Roadways
Obligation	Landowner shall grant easements and dedicate all IODs for all arterial roadways as set forth in Sections 3.2 and 33.1 above. Arterial roadways wholly within and adjacent to the Project are Westbrook Boulevard and Roads B and D east of Westbrook Boulevard.
Department	Engineering Division
Status	Complete
Section	3.5.12
Title	Transit Master Plan Funding
Obligation	Landowner shall pay, as its fair share on a City-Wide basis for the update of the City's Long range Transit Master Plan, Short Range Transit Plan Update and Bicycle Master Plan Update, the amounts of \$4166, \$4998 and \$4166, respectively, prior to the recordation of any Large Lot Final Map on the Property.
Department	Engineering Division and Alternative Transportation Division
Status	Complete
Section	3.7.1
Title	Placer County Water Agency Supply Amendment #1 – Ord. #6205 - Deleted
Obligation	City is negotiating with the Placer County Water Agency (PCWA) to acquire an additional treated surface water supply from PCWA via a wholesale water agreement, inclusive of 1,067-acre feet per year ("AFY") to serve the Project. Water obtained from PCWA by City through the wholesale agreement would be delivered to the City through PCWA's Tinker Road Pump Station and Reservoir located in the Sunset Industrial Area of unincorporated Placer County: (the "Tinker Road Facility"), and then transported through the City's water infrastructure to the Project site. In the interim period before the PCWA infrastructure is in place to provide water to the Project, the Project will be supplied using existing City supplies and water treatment capacity.
Department	Environmental Utilities
Status	Deleted Obligation
Section	3.8.1
Title	Water Study
Obligation	Landowner has prepared a Water Study for its on-site water facilities and prepared a general design of the water system as shown on Exhibit "N" that identifies the size and location of waterlines, storage facilities, and pump stations. The timing of construction of such facilities is set forth in the infrastructure Phasing "Exhibit "BB".
Department	Environmental Utilities
Status	Complete
Section	3.9.3
Title	Recycled Water Engineering Report

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

Obligation	Landowner shall prepare a Title 22 Recycled Water Engineering Report for submittal to and review by the State Regional Water Quality. Control Board and State Department of Public Health I documenting the use of recycled water in the Project. Prior to submittal to the State Water Quality Control -Board, Landowner shall obtain approval of the City's Environmental Utilities Director. Recycled water shall not be provided for use within the Project until the Title 22 Recycled Water Engineering Report has received all required State approvals.
Department	Environmental Utilities
Status	Complete
Section	3.12.2.2
Title	Maintenance District Financing
Obligation	Pursuant to Section 3.19 below, Landowner shall support the formation of the Community Facilities District - Public Services ("Services CFD") District defined therein. Among other things, the Services CFD shall be authorized to levy special taxes or assessments on the Property and to provide maintenance of the neighborhood parks, streetscapes, and paseos.
Department	Finance Department
Status	Formed – Obligation Complete
Section	3.14.9
Title	Orthophotography of Plan Area and GIS Support
Obligation	Landowner agrees to pay its fair share of the cost of orthophotography of the Plan Area. The total cost for the Plan Area is \$351.54. The above payment shall be due within ten (10) days after the first Large Lot Final Map approval for the Property.
Department	Engineering Division
Status	Complete
Section	3.19.2
Title	Public Services
Obligation	The Public Services CFD shall provide the funds required for the performance of maintenance, monitoring and reporting obligations and may include, but not limited to, the following: 3.19.2.1 Autumn leaf cleanup for collector and local streets; 3.19.2.2 Maintain neighborhood parks; 3.19.2.3 Maintain Paseos and Sidewalks along collector streets and primary residential streets, medians, and landscape corridors and all masonry walls; 3.19.2.4 Maintain bikeways, signs and benches 3.19.2.5 Maintain City and neighborhood entry features within the property, public right of way and ancillary landscaping; 3.19.2.6 Conduct the environmental mitigation monitoring; 3.19.2.7 Conduct all monitoring, reporting and adaptive management for open space preserve areas; 3.19.2.8 Maintain all water quality structural controls, storm management facilities within RoW's and open spaces; 3.19.2.9 Maintain flood control and drainage facilities including storm water channels, storm water pump stations, detention basins and created wetlands; 3.19.2.10 Maintain open space including general mtc, signage and city owned fenced mtc, and trash and debris collection; 3.19.2.11 Maintain fire breaks within open space areas; 3.19.2.12 Maintain replacement reserve fund for repair and replacement of entry features, signage, lighting, and other special features including park features and structures; 3.19.2.13 Maintain bus shelters, bus stops, the park and ride lot and bus signs; 3.19.2.14 Maintain the NAPOTS area referenced in section 3.3.1
Department	Alternative Transportation; Parks

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix

Status	Obligation complete, District formed Ongoing levy will cover maintenance costs.
Section	3.20.1.1
Title	Consent, Waiver and Special Benefit
Obligation	No residential building permit, excluding permits for model homes, shall be issued until a Community Facilities District - Municipal Services (Municipal Services CFD) has been formed or annexed to the City's existing Municipal Services CFD. Landowner consents to and shall cooperate in such formation or other such financing mechanism for services purposes and consent herewith to the levy of such special taxes as are necessary to fund the maintenance obligations described in Section 3.20.2. Formation of the Municipal Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53311, et seq.
Department	Finance Department and Building Division
Status	Obligation complete. Annexed into District.
Section	3.20.2
Title	Municipal Services
Obligation	The Municipal Services CFD shall provide the funds required to offset the Project's impact on City general fund resources available to pay for municipal services citywide, including the Project. The funds shall be utilized for general fund purposes.
Department	Finance Department
Status	Obligation complete, Annexed into District and will be levied as parcels develop.
Section	3.21
Title	Encroachment Permits, Landscape Maintenance Easements
Obligation	Landowner and City agree to grant encroachment permit(s) or maintenance easements for all Services CFD' s to Landowner or City oi their agents, employees, successors, assigns, agents and employees, for the purpose of entry into the landscape easement and setback areas or City property (including streets and rights-of-way) to perform the maintenance obligations described herein.
Department	Finance Department/ Engineering Division
Status	Services CFD has been formed by Finance.

Development Agreement Obligations <u>Not Complete</u> as of December 2023	
Section	2.2
Title	Vested Entitlements Amendment #1 – Ord. #6205 Amendment #2 – Ord. #6483
Obligation	Subject to the provisions and conditions of this Agreement, City agrees that City is granting, and grants herewith, a fully vest entitlement and right to develop the Property in accordance with the terms a conditions of the Entitlements, including, but not limited to, allocation residential units to residentially designated parcels in the Specific Plan, minimum lot sizes, street locations and configurations in any approved tentative subdivision maps, and allocation of building square footage to commercially designated parcels in the Specific Plan. City acknowledges that the Entitlements include the following Specific Plan land use designations and approximate gross acreages for all land uses for the property as shown in the Specific Plan Land Plan in Exhibit “E”, attached herto and summarized below: Low Density Residential – 1,099 units of 219.1 acres

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

Section	3.1
Title	Development, Connection and Mitigation Fees
Obligation	Except otherwise provided in Section 2.5 of this Agreement, any and all required payments of development, connection or mitigation fees by Landowner shall be made at the time and in the amount specified by applicable City Ordinances.
Department	All Departments
Status	All fees will be collected at time of processing permits and/or development.
Section	3.2
Title	Public Improvements to be Dedicated, Constructed or Financed by Landowner
Obligation	In conjunction with each phased Final Map, or as otherwise required by this Agreement, Landowner agree to dedicate, construct or acquire the improvements or facilities and to perform the obligations set forth in this Section 3, at its expense.
Department	Engineering Division
Status	Ongoing obligation
Section	3.3
Title	Project Phasing
Obligation	Landowner shall develop and construct the infrastructure necessary to serve the Project in Phases 1 through 3 substantially consistent with the Phasing Plan set forth in Exhibit "G" attached hereto. Infrastructure may be constructed in sub-phases as approved at the discretion of the City, in consultation with all affected City Departments. (See DA for specified sub-phased requirements.)
Department	Engineering Division
Status	Ongoing obligation
Section	3.4
Title	Public Utilities Within Rights-of-Way
Obligation	All public utilities shall be located within the rights-of-way to be granted by Landowner to City for the arterials, collectors and other local streets within the Property or within the easements granted by Landowner to City for such purposes.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.5
Title	Road Improvements
Obligation	Landowner, at its expense, shall provide the road improvements set forth in this agreement, the Specific Plan, the Phasing Plan, as may be modified as provided in Section 3.3, the Infrastructure Phasing and Reimbursement Schedule set forth in Exhibit "BB", and as shown in Exhibit "H".
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.1
Title	Landowner's Obligations
Obligation	Landowner obligation for residential and collector roadway improvements shall consist of the construction of curb, gutter, sidewalk, utilities, streetlights, appropriate striping, all necessary drainage improvements including storm water management requirements, fiber optic cable, conduit as set forth in Exhibit "T" and pavement

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix

	section. Except as provided below in : Section 3.5.2, Landowner's frontage obligation for arterial roadways shall consist of curb, gutter, sidewalk, one-half of the median landscaping and median curbing, grading of 112 of the full road section, drainage facilities including storm water management requirements, utilities, street lights, signal interconnect conduits, fiber optic cable conduit as set forth in Exhibit "T", and eighteen feet (18') of asphalt pavement adjacent to the property, including aggregate base and sub-base, striping, and any additional pavement widening at intersections and_ driveways to accommodate turn lanes and bus turnouts as may be required by the City Engineer (collectively "Frontage Improvements").
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.3
Title	West Sunset Boulevard
Obligation	Landowner shall have the obligation to construct improvements to West Sunset Boulevard in unincorporated Placer County immediately-north of the Annexation Area'(the "West Sunset Improvements" to a Rural Secondary Roadway standard pursuant to Placer County standards in effect as of the Effective date of the Agreement. The West Sunset Improvements shall be constructed as initial improvements and ultimate improvements, as set forth in Exhibits H-3-A, -B, and -C" hereto: Initially, the West Sunset Improvements shall consist of an all-weather fire access road (emergency vehicle access only) along the future alignment of Westbrook Boulevard from West Sunset Boulevard south to where initial Westbrook Boulevard improvements in the Project have been constructed, including a gate and fencing to restrict public access to the satisfaction of the City Engineer.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.4.1
Title	Timing of Dedication and Security for Road Improvements
Obligation	Rights-of-way for the arterial roadways and the NAPOTS Area shall be dedicated as an IOD to the-City as set forth in Section; 3.2 and 3.3.1, and 'with the recordation of the first Large Lot Map. All other dedications of roadways to the City, shall be made with subsequent final small lot subdivision maps and City acceptance of completed improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.4.2
Title	Timing of Dedication and Security for Road Improvements
Obligation	Prior to the recordation of a small lot residential subdivision map for the Property, Landowner shall provide adequate assurances to City, either in the form of subdivision improvement bonds, issuance and sale of bonds by the CFD or other manner acceptable to the City, that adequate funds are available to finance the completion of all improvements to arterial roadways and the single collector street in the Project to serve the portion of the Property which is the subject of the small lot residential subdivision map; provided, however, Landowner shall not be required to post security for the portion of the work associated with Road CIP improvements.
Department	Engineering Division
Status	Ongoing obligation

	excess of that required to serve the development of the Property (excluding any operational adjustments by City).
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.7
Title	Wastewater Service Area Boundary
Obligation	Landowner shall be responsible for pro rata share, based on acreage (148.7 acres out of 674.4 acres in the ARSP), of all costs associated with obtaining approval from the South Placer Wastewater Authority (SPWA) for expansion of the existing wastewater service area boundary to include the Plan Area.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.2
Title	Financing of Water Supply Amendment #1 – Ord. #6205
Obligation	To provide the needed surface water supply to serve the Project, and subject to the direction of and at the time City so directs, Landowner is required to participate in the funding of certain PCWA off-site water facilities. Such facilities consist of the future PCWA Ophir Water Treatment Plant ("Ophir WTP"), associated PCWA transmission facilities necessary to wheel treated water to the Tinker Road Facility, and improvements to the PCWA Tinker Road Facility. Landowner shall have no obligation to install or pay for the installation of any off-site water storage, treatment, or transmission facilities (other than those which may be required by other sections of this Agreement) except through the payment of water connection fees levied and collected by the City at the time of development pursuant to the then existing City ordinances and this Agreement.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.3
Title	Groundwater Well Amendment #1 – Ord. #6205 Amendment #2 – Ord. #6483
Obligation	Landowner shall dedicate to City Parcel AR-55 for one (1) groundwater well at the approximate location shown on Exhibit "L". Landowner shall construct frontage improvements for Parcel AR-55, including water, recycled water, wastewater, storm drainage, electric and communication conduit. As shown in Exhibit "L", the well site shall be constructed adjacent to the 24" waterline to be constructed in Road B, and be connected to that 24" water line with a 16" water line. Landowner shall install a test well in a location mutually agreed upon by Landowner and City to determine if the well location utilized meets desired capacity and water quality. If the desired capacity and water quality are confirmed in the test well, Landowner shall be responsible for drilling and completing the production well (but not above ground well improvements such as pumping and treatment facilities) as further described below. City shall be responsible for the construction and costs of above ground production well (topside) improvements such as pumping and treatment facilities. 3.7.3.1 Parcel Dedication. Landowner shall dedicate to City Parcel AR-58 for City facilities, including a groundwater well, at the approximate location shown on Exhibit

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

	"L". Landowner shall construct frontage improvements for Parcel AR-58, including water, recycled water, wastewater, storm drainage, electric and communication fiber conduit. <u>3.7.3.2 Well Construction Requirements.</u> As shown in Exhibits "L" and "N", the water facilities site shall be constructed adjacent to the 24" water line be constructed in Road B, and be connected to that 24" water line with a 16" water line within Road A, or other pipe sizes as may be approved by City's Environmental Utility Director pursuant to updated water studies. Landowner shall install a test well in a location mutually agreed upon by Landowner and City to determine if the well location utilized meets desired capacity and water quality. If the desired capacity and water quality are confirmed by the test well, Landowner shall be responsible for drilling and completing the production well (but not above ground well improvements such as pumping and treatment facilities) as further described below (the "Well Construction Requirements"). City shall be responsible for the construction and costs of above ground production well (topside) improvements such as pumping and treatment facilities. It is the intent of this section (and the Parties) that the groundwater well location identified within the Project shall be capable of achieving a yield of approximately 1,800 gallons per minute, be designed for Aquifer Storage and Recovery, and the groundwater water is of such quality that only disinfection will be required to meet California Drinking Water Quality Standards. Should the City determine the available capacity or water quality does not achieve these objectives, Landowner shall, at its own cost, work with the City to relocate the well site within the Project to an alternative site mutually agreed to by City and Landowner until these objectives are satisfied. Landowner shall contact the City Environmental Utilities Department prior to design and construction of the production well. The production well shall be in operation at the time of occupancy of the 1,250th residential unit in the Project. Landowner shall receive approval from the City of the well design and drilling method prior to commencement of this work. In addition, notwithstanding the foregoing, the well shall be drilled prior to the time of occupancy of any residential units within 500 feet of the well site. Landowner shall include noise curtains for the well if at the time of construction of the well homes are occupied between 500 feet and 1,000 feet of the well. If City determines that the production well is required prior to the occupancy of the 1,250th residential unit in the Project, City has the right to construct the test well and the production well. Landowner shall reimburse City for the actual cost of the below ground improvements for the test well and production well, as set forth above, including annual CCI adjustments of such costs, upon occupancy of the 1,250th residential unit in the Project. If City constructs the test well and production well prior to the occupancy of the 1,250th residential unit in the Project, Landowner agrees to construct an all-weather access roadway within either the Road A or Road B RoW and all associated infrastructure necessary to serve Parcel AR-58 as specified in this Section 3.7.3 within one (1) year of notification from City if Road B has not otherwise already been constructed by Landowner. Notwithstanding the foregoing, if the City adopts a revised water connection fee which encompasses the costs of the Well Construction Requirements, Landowner shall be relieved of the Well Construction Requirements set forth in this Section 3.7.3.2. Landowner shall, prior to the issuance of the first building permit in the Project phase where an existing well is located, destroy the well or wells in that particular Project phase from among the two existing agriculture irrigation wells and one domestic well in the Project Area. Landowner shall obtain from City a Well Permit and follow the

Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix

	California Well Standards for the destruction of the wells on the Property. All construction plans shall be designed pursuant to City's then current Standards and mutually agreed to by Landowner and the Environmental Utilities Director, and subject to City plan review, construction inspection and final approval. Landowner shall pay the then current plan check, mapping and inspection costs as incurred by City for review, mapping, and inspection of the destruction of the wells.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.4
Title	Water Conservation Measure
Obligation	Landowner and its successors shall implement a Water Conservation Plan included as Exhibit "M" to this Agreement. The Water Conservation Plan shall include compliance with the City's then current Water Efficient Landscape Ordinance and outline all water conservation measures being implemented within the Project and measures to ensure water conservation objectives are achieved in perpetuity and shall be approved, at the discretion of the Environmental Utilities Director prior to issuance of the first building permit.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.5
Title	Periodic Confirmation of Water Conservation Goal Amendment #1 – Ord. #6205
Obligation	The City has determined, and the Landowner agrees, that the available water supply, as documented in the Water Supply Assessment for the Project, is sufficient to serve all phases of the Project. This determination was the conclusion of a review of the various technical studies completed in connection with the environmental review of the Project. 3.7.5 Water Conservation Goal. The City has determined, and the Landowner agrees, that the available water supply, as documented in the Water Supply Assessment for the Project, is sufficient to serve all phases of the Project. This determination was the conclusion of a review of the various technical studies completed in connection with the environmental review of the Project. The demand for water at build-out of the Project was determined by reference to the City's current information on water usage by the various land uses included and permitted within the City and the proposed land uses within the Project and by reference to the Landowner's Water Conservation Plan which includes a reduction in water use by approximately 15% over current (i.e., Effective Date of this Agreement) use characteristics. The sources for water evaluated for the Project are the same types of sources currently used throughout the City; namely, surface water contracts with federal and local agencies and the use of groundwater. City and Landowner are satisfied, based upon detailed technical analysis, that the demand and source assumptions relied upon to assure water for the Project are valid. However, the Parties have agreed to the following procedure to assure the continued validity of the underlying assumptions and the continued availability of sufficient water to service all phases of the Project. With the implementation of the City's Advanced Metering Infrastructure ("AMI") system, the City will have the ability to monitor potable water consumption on a near real-time basis. If the City determines that water consumption exceeds what was anticipated, and will negatively affect the City's ability to provide water for the Project, then the

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix

	Parties shall meet and in good faith attempt to implement whatever measures are needed to assure the water supply will meet the Project's demands. In the event that the City adopts a City-Wide requirement for a reduction in water use by more than the approximately 15% over current potable water usage as set forth herein, and the then built portion of the Project has met its approximately 15% objective set forth in this Section 3.7.5, the residential units for which building permits have not yet been issued shall be required to implement such measures necessary to achieve such City-Wide requirement, above the approximately 15% objective set forth in this Section 3.7.5. Development and implementation of such measures shall be at Landowner's cost. The foregoing notwithstanding, should City achieve its adopted City-Wide water conservation goals, the Project shall not under any circumstances be deemed out of compliance with its Water Conservation Plan water conservation objective as set forth herein.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.8.2
Title	Water Facilities
Obligation	Landowner shall construct on-site water system facilities as shown on Exhibit "N". In the event that the CSP has not constructed water lines necessary to serve the Project, and it can be demonstrated through the City hydraulic model that the water lines within the CSP are needed to supply water to the Project consistent with City standards, Landowner shall construct the necessary water lines and obtain reimbursement from the CSP in accordance with Section 4.2.2 herein.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.8.3
Title	Water Facilities for Reimbursement
Obligation	There are water facilities to be constructed in the CSP for which Landowner has a construction obligation only if City determines the facilities are required to serve the Project and if Landowner is not obligated to construct, or CSP landowners or other third parties have constructed the facilities, Landowner is obligated to pay its pro-rata share of the costs of such water facilities, as provided in this Section 3.8.3.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.8.4
Title	Water System Sequencing
Obligation	Water system facilities shall be constructed as provided in the Phasing Plan concurrently with, the construction of the road improvements described in Section 35 of this Agreement, and as generally shown on Exhibit "N". Extensions into the neighborhoods will be completed with development of each neighborhood. Waterline extensions shall be sequenced to assure looped systems in all developing area, except as otherwise approved by the Environmental Utilities Director.

Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

Title	Non Exclusive Public Utility Easement
Obligation	Where the-recycled water facilities are not located within road. Rights of-way, as and when such facilities are installed, Landowner shall grant and City shall accept a non-exclusive public utility easement for the ownership and maintenance of such facilities; together with access thereto for maintenance purposes only. Easement widths shall be- granted in accordance with the City's then current Improvement Standards.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.9.2.
Title	Recycled Water Facilities for Reimbursement Amendment #1 – Ord. #6205 Amendment #2 – Ord. #6483
Obligation	Subject to the provisions of Section 4.2 of this Agreement, Landowner shall be entitled to reimbursement from third parties outside the Project whose property is benefited by Landowner's construction of recycled water facilities required by City in which there exists capacity in excess of that required to serve the development of the Property (Excluding any operational adjustments by the. City). Such reimbursement shall be pro rata, based on the respective capacity requirements of the Property and other property benefited by the construction. Specific recycled water facilities subject to reimbursement pursuant to this Section 3.9.2 and Section 4.2 of this Agreement are shown in Exhibits "Q-1" and "Q-2" and listed in Exhibit "BB". For properties outside of the Specific Plan, Landowner shall submit documentation to the City to justify the requested reimbursement. The timing for the payment of any such reimbursement shall be upon the earlier of the formation of a CFD and issuance of bonds for such CFD serving development by such third party. Landowner shall likewise be required to contribute its pro-rata share of the cost of expansion of the WRSP recycled water tank and pump station located north of the Pleasant Grove Wastewater Treatment Plant that is required to serve the WRSP, as set forth in Section 3.27 and 3.28 of this Agreement, and as set forth in Exhibits "Q-1" and "Q-2". Landowner's pro-rata share of the cost expansion of the WRSP recycled water tank and pump station referenced herein, estimated at \$2.287 million, shall be paid through the CFD for the Project, with payment from the CFD not required until after the 1,250th building permit is issued in the Project. If City institutes a recycled water connection fee, or such fee is embedded into City's revised water connection fee (which encompasses the estimated \$2.287 million for expansion of the WRSP recycled water tank and pump station described in the preceding paragraph), prior to the issuance of any building permits in the Project, Landowner shall not be responsible for the payment of the estimated \$2.287 million pro-rata share of the cost of the expansion of the WRSP recycled water tank and pump station except through the payment of the City recycled water connection fee, or City's revised water connection fee if a recycled water connection fee is embedded into City's revised water connection fee, or any special benefit fees as may be applicable to the Project to fund the expansion of the WRSP recycled water tank and pump station.

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

Title	Recycled Water Use Disclosure to Buyers
Obligation	Landowner shall disclose to all buyers that recycled water shall be used for irrigation of parks and landscape corridors, medians, paseos adjacent to collector streets and other landscape areas, including all multifamily and non-residential landscaping uses. Such disclosure shall be included in the CC&Rs for all residential buyers and other recorded notice instrument for a non-residential buyers.
Department	Landowner
Status	Developer's responsibility
Section	3.9.5
Title	Terms and Conditions for Recycled Water Operations, Use, and Service
Obligation	All private commercial recycled water customers within the Project shall sign a Terms and Conditions for Recycled Water Operations, Use and Service prior to service meter installation and recycled water being introduced to the site per requirements of the City's Municipal Code at the time of connection.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.10
Title	Drainage Facilities
Obligation	Landowner shall be responsible for the design and construction of all storm drain facilities required to serve the Property in conformance with the Project drainage Master Plan (including open space transition areas), the then approved City Improvement Standards, City Storm Water Management program, the MS4 Permit as issued and modified by the State and Regional Water Quality Control Board, the approved Placer County Storm Water Management Manual, the 404 Permit issued by the Army Corps, and any agency required Establishment Phase Operation and Management Plan and/or City's Preserve Area Overarching Management Plan (whichever Management-Plan is in force at the time). Appropriate aspects of the Low. Impact Development design, hydro modification, and the Flood Control Plan as specified in the Drainage Master Plan and in the Specific Plan.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.10.1
Title	Other Agency Approval
Obligation	Prior-to issuance of any building permit or grading permit, Landowner shall obtain, at its expense; all permits and agreements as required by other agencies having jurisdiction over drainage, water quality or wetlands issues including, but not limited to, the Regional Water Quality Control Board ("RWQCB"), the Army Corps and the California Department of Fish and Game.
Department	Landowner
Status	Landowner to obtain all permits and agreements prior to development.
Section	3.10.2
Title	Storm Drains
Obligation	Landowner shall construct storm drain mains and laterals in accordance with the Drainage Master Plan and Phasing Plan and with the City's then current Improvement Standards and shall provide laterals to serve 'all parcels on the Property, including, but not limited to, park sites. Storm drain laterals shall be constructed to the property line concurrently with the construction of connecting open channels or storm drain mains.

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

	Storm drainage system designs shall include applicable Best Management Practices with the goal of preventing or reducing pollutants from entering receiving waters in accordance with the City's Storm Water Management Program and the then current MS4 permit requirements. Should grading alter the natural drainage patterns and it becomes necessary to redirect drainages across lands dedicated to the City, the Landowner shall be responsible for: the installation of above-ground constructed swales. Where constructed swales cross open space, the constructed swales shall be designed and installed in accordance with City's Open Space Preserve Overarching Management Plan to control and direct runoff to receiving waters as appropriate. Landowner shall be responsible for annual (or more frequent if needed) maintenance of said constructed swales until such time that the City develops the property, or City accepts the open space dedication.
Department	Engineering Division
Status	Ongoing Obligation
Section	3.10.3
Title	Grant of Floodplain
Obligation	Prior to or concurrent with approval of any final map containing areas-within the 100-year floodplain as shown in Exhibit "S", Landowner shall grant an IOD to the City, or to a conservancy or other non-profit entity acceptable to the City, such areas within the Open Space Preserve Areas as shown in Exhibit "Y" and the land use plan for Property, set forth in Exhibit "E".
Department	Engineering Division
Status	Ongoing obligation
Section	3.10.4
Title	Drainage Easements
Obligation	Where permanent drainage facilities to be owned and maintained by City are to be constructed by Landowner and are not located within road rights-of-way, as and when Landowner installs such drainage improvements, Landowner shall grant and City shall accept a non-exclusive public utility easement or temporary easement for, the ownership and maintenance of such lines, together with access thereto for maintenance purposes only. The City shall not be required to accept or maintain any temporary drainage improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.10.5
Title	Drainage Improvements and Work Upon City Owned Property
Obligation	The drainage channels shall be generally designed as earthen structures with side slope stabilization and longitudinal slopes that will provide positive storm water flow and minimize standing water. Maintenance vehicle access across the channel in the adjacent open space will generally be located as shown in the Open Space Transition Plan. Access roads, access ramps, fencing and landscaping shall be constructed per City standards. Where access roads cross the channel, such access roads shall be constructed to allow small tractor loader (such as a Bobcat) to pass under the access road. The channel bottom shall support the wheel loading of maintenance equipment without compromising the integrity and/ or flow line of the channel. The channels and storm water pumps for Road "G" shall be maintained by City with funds from the CFD for Public Services. City may program the use of maintenance access roads for pedestrian use.

Title	Electric
Obligation	Landowner shall provide electric utility improvements as provided in this Section, the Phasing Plan and as shown in Appendix "B" of the Dry Utility Plan for the Project.
Department	Electric
Status	Currently not in development
Section	3.11.1
Title	On-Site Electric Facilities
Obligation	For purposes of this section, "on-site" means within the Property. Concurrently with the construction of the adjacent roadways and as specified in Section 3.3, Landowner agrees to construct, or finance the construction of, on-site 12kV electric distribution facilities as directed by the Electric Utility Director. Landowner shall construct or finance construction of on-site 12kV electric distribution facilities in accordance with final on-site electric distribution designs for the Project as directed by the Electric Utility Director in accordance with applicable City Electric Utility Department Specifications.
Department	Electric
Status	Currently not in development
Section	3.11.2
Title	Off-Site Electric Facilities
Obligation	For purposes of this section, "off-site" means outside of the Project. Concurrently with the construction of any phase of the Project, Landowner agrees to construct or finance

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix

	the construction of off- site 12kV electric distribution facilities as directed by the Electric Utility Director: Landowner shall construct or finance construction of off-site 12kV electric distribution facilities in accordance with final off-site electric distribution designs for the Project as directed by the Electric Utility Director in accordance with applicable City Electric Utility Department Specifications.
Department	Electric
Status	Currently not in development
Section	3.11.3
Title	CSP Electric Substation Amendment #1 – Ord. #6205
Obligation	Pursuant to the development agreement in the CSP, CSP landowners are required to dedicate to City, grade and provide access to a parcel in the CSP (designated Parcel C-81 in the Specific Plan) for an electric substation to serve the CSP (the "Substation Site"). Under the development agreement between CSP landowners and City, such Substation Site must be provided to City prior to issuance of the 500th residential building permit, or combination of building permits, in the CSP. Pursuant to the development agreement in the CSP, CSP landowners are required to dedicate to City, grade and provide access to a parcel in the CSP (designated Parcel C-81 in the Specific Plan) for an electric substation to serve the CSP (the "Substation Site"). Under the development agreement between CSP landowners and City, such Substation Site must be provided to City prior to issuance of the 923rd residential building permit, or combination of building permits, in the CSP. Should the Substation Site not have been dedicated to City, graded with access provided at the time that Landowner wishes to proceed with development of the Project, Landowner shall have the right to cause such dedication, grading and provision of access to the Substation Site for City to construct the electric substation that will serve both the CSP and the Project. Where the CSP Developer has not provided the Substation Site and associated improvements required in the CSP development agreement, then, provided that Landowner provides an access road, power line, temporary easements, and Substation Site as defined in the CSP development agreement prior to the issuance of the 500th residential building permit in the ARSP, the City shall not restrict the issuance of any additional building permits in the ARSP beyond the 500 residential building permits noted herein on the basis of insufficient electrical service capacity for the balance of the Project. Should there be a delay by the CSP Developer or Landowner, as provided herein, in dedicating the Substation Site and associated improvements as required in the CSP development agreement, such delay shall result in the delay in the availability of power to the ARSP until such time as the Substation Site is fully operational with the ability to serve the remainder of the ARSP. Landowner acknowledges that, in the absence of any available capacity utilizing temporary lines that could serve the Project on an interim basis, the CSP electric substation must be in operation and 12kV circuits extended to the Project for electric service to be provided to the Plan Area, subject to the provisions set forth above. In addition to the Substation Site, Landowner shall install an all-weather access road along the south side of Pleasant Grove Creek from the southeast corner of the CSP to the Westbrook Boulevard bridge crossing over Pleasant Grove Creek sufficient to allow the construction and maintenance of the 60kV overhead power line required to feed the CSP electric substation.

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

Title	60kV Disclosure Amendment #1 – Ord. #6205
Obligation	Landowner shall include a notice in the project CC&R's and its sales documentation advising property owners adjacent to the existing 60 kV easement areas shown on Exhibit "U" and the future 60kV easement line on the east side of Westbrook Boulevard and the southern Project boundary along Road A that the City may utilize the public utility easements-to construct, 60kV overhead electric. Exhibit "U" to the Agreement is hereby deleted, and the 60kV electric line serving the Substation Site referenced in Section 3.11.3 above is shown in Exhibit "CC" to the CSP development agreement.
Department	Electric
Status	Currently not in development
Section	3.11.5
Title	Streetlights
Obligation	Concurrent with the construction of the adjacent roadways, Landowner agrees to construct, or finance construction of, streetlights within the Property, as directed by the Electric Utility Director. Except as may otherwise be permitted by the Electric Utility Director, no street shall be accepted by the City unless and until streetlights have been installed in accordance with the Specific Plan and applicable requirements of the Electric Department Streetlights shall meet Roseville Electric's specifications for residential and/ or, commercial construction in effect at the time the construction improvement plans are approved-and issued by the City.
Department	Electric
Status	Currently not in development
Section	3.11.6
Title	Electric Efficiency and Demand Reduction
Obligation	In order to mitigate demand for energy supplies and comply with state mandated energy efficiency goals, the following: energy efficiency and load management requirements are hereby established: 1. All-residential dwelling units will install residential air conditioning units with the following sets of parameters, as a minimum standard: a. A Seasonal Energy Efficiency Rating ("SEER") of 2 points above the minimum, as defined by the State of California in the current Title 24 of the Code of California Regulations, up to a total maximum of 18 points including the 2 point premium, an Energy Efficiency Ratio ("EER") of 12.5 or greater. The SEER rating of 2 points above the minimum, as defined by the current Title 24, up to a maximum of 18 points, and an EER rating of 12.5 or greater will be specified on building plans and Title 24 compliance certificates-at the time building-permits are requested. If Title 24 of the Code of California Regulations in effect at-the time of request for building permits requires higher SEER or EER ratings, residential units in the ,Plan Area shall comply with such State requirements. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be utilized in the overall energy compliance: calculations required for issuance of a building permit for any residential unit. Any variances must be approved by the Electric Department's Retail Energy Services Department. 2. All commercial air conditioning units 5 tons or less (<65,000 btu/h) shall meet the current Consortium for Energy Efficiency (CCEE"). Tied specifications. The SEER/EER ratings will-be specified on building plans and Title 24 compliance

Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

	certificates at the time building permits are requested. The SEER and EER ratings will be verified with appropriate documentation. 3. Every garage of each Low Density Residential and Medium Density, Residential unit must be considered "electric vehicle ready" which includes, but is not limited to, a 3/4" conduit raceway to a spare electric box in the-garage that is sized for a future 40-amp, 220-volt outlet. A 40-amp, 220-volt breaker space shall be made available at the residential unit's electrical panel.
Department	Building Division
Status	Ongoing obligation
Section	3.12
Title	Parks, Open Space, and Bike Trails
Obligation	Landowner shall dedicate to City a total of 22.1 acres of active park land and 134.8 acres of open space lands, and 10.7 acres of paseos, pay fees for construction of park improvements, trail improvements, construct park frontage improvements as set forth in this Section and the Phasing Plan and as shown in Exhibit "V", and install communication conduit to each park site per City standards.
Department	Parks and Alternative Transportation Department
Status	Ongoing obligation
Section	3.12.1
Title	Park and Open Space Dedications
Obligation	Landowner shall dedicate to City a total of 22.14 acres of active neighborhood parkland, and 134.8 acres of open space. The following seven park parcels, and twenty-eight open space parcels shall be dedicated to City as described below and shown in Exhibit "V".
Department	Parks Department
Status	Ongoing obligation
Section	3.12.2
Title	Financing for Parks
Obligation	The construction of improvements to parks within the Property shall be financed from the payment by Landowner of the City-Wide and neighborhood park fees and in lieu park fees established for the Property in the Project's Parks, Bike Trails and Paseos Financing Plan ("Parks Financing Plan," Exhibit "W").
Department	Parks Department
Status	Ongoing obligation
Section	3.12.2.1
Title	Financing for Neighborhood Parks
Obligation	The construction of the neighborhood park sites within the Property shall be financed from payment by Landowner of the park fees.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.3
Title	Neighborhood Park Fee Amendment #1 – Ord. #6205
Obligation	In accordance with the park financing plan for the Property, Landowner shall pay a neighborhood park fee (the "Neighborhood Park Fee"), upon the issuance of each residential building permit within the Project, to fund neighborhood park construction.

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

	Such Neighborhood Park Fee shall be \$2,900 per Low Density Residential unit, \$2,478 per Medium Density Residential unit, and \$2,055 per High Density Residential unit (but excluding carriage units, which shall not pay neighborhood park fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI (Construction Cost Index). All such Neighborhood Park Fees shall be deposited into the applicable neighborhood park fee fund. In accordance with the park financing plan for the Property, Landowner shall pay a neighborhood park fee (the "Neighborhood Park Fee"), upon the issuance of each residential building permit within the Project, to fund neighborhood park construction. Such Neighborhood Park Fee shall be \$2,917 per Low Density Residential unit, \$2,492 per Medium Density Residential unit, and \$2,067 per High Density Residential unit (but excluding carriage units, which shall not pay neighborhood park fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI (Construction Cost Index). All such Neighborhood Park Fees shall be deposited into the applicable neighborhood park fee fund.
Department	Parks Department and Building Division
Status	Ongoing obligation
Section	3.12.3.1
Title	Neighborhood Park Frontage Improvements
Obligation	When installing road improvements adjacent to neighborhood park sites, Landowner shall construct the frontage improvements (excluding landscaping); which include curb gutter, and stub utilities for the park site, subject to direction from City on the location of such utility, stubs. At the time Landowner install infrastructure frontage improvements for the neighborhood parks, Landowner may construct the sidewalks, as specified in the Specific Plan and upon mutual consent of the City and Landowner.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.4
Title	City Wide Park Fee Amendment #1 – Ord. #6205
Obligation	Upon issuance of each residential building permit within the Project, Landowner shall pay a City Wide park fee (the "City-Wide Park Fee") to fund the construction of City-Wide park facilities in the City. The City Wide Park Fee, as described in Section 3.12.5 below, shall be \$1,670 per Low Density Residential unit, \$1,426 per Medium Density Residential unit, and \$1,183 per High Density Residential unit (but excluding carriage units, which shall not pay City Wide Park Fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI. Upon issuance of each residential building permit within the Project, Landowner shall pay a City-Wide park fee (the "City-Wide Park Fee") to fund the construction of City-Wide park facilities in the City. The City-Wide Park Fee, as described in Section 3.12.5 below, shall be \$1,680 per Low Density Residential unit, \$1,435 per Medium Density Residential unit, and \$1,190 per High Density Residential unit (but excluding carriage units, which shall not pay City-Wide Park Fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI.

Section	3.12.5
Title	City-Wide Park In-Lieu Fee Amendment #1 – Ord. #6205
Obligation	In accordance with the park financing plan for the Property, Landowner shall pay a citywide park in-lieu fee for the land dedication component of the Project's City-Wide Park obligation (the "City-Wide Park In-Lieu Fee"), upon the issuance of each residential building permit within the Project, to fund improvements to the City-Wide park in the WRSP or other city-wide parks within the City. Such City-Wide Park In-Lieu Fee shall be \$1,215 per Low Density Residential unit, \$1,038 per Medium Density Residential unit, and \$861 per High Density Residential unit (but excluding carriage units, which shall not pay City-Wide Park In-Lieu fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI. In accordance with the park financing plan for the Property, Landowner shall pay a city-wide park in-lieu fee for the land dedication component of the Project's City-Wide Park obligation (the "City-Wide Park In-Lieu Fee"), upon issuance of each residential building permit within the Project, to fund improvements to the City-wide park in the WRSP or other city-wide parks within the City. Such City-Wide Park In-Lieu Fee shall be \$1,222 per Low Density Residential unit, \$1,044 per Medium Density Residential unit, and \$866 per High Density Residential unit (but excluding carriage units, which shall not pay City-Wide Park In-Lieu fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.6
Title	Paseo Facilities
Obligation	Paseo facilities within the Project are located on modified primary residential streets with street side paseos in the ARSP, consistent with the Specified Plan and Design Guidelines, and include a 10-foot wide Class 1A bikeway.
Department	Parks and Alternative Transportation Department
Status	Ongoing obligation
Section	3.12.7
Title	Bike Trail Construction
Obligation	The ARSP's Class 1 bike trails are only located either adjacent to drainage ways, an open space-fronting roadway, or along a P/QP parcel in the Specific Plan Landowner shall design, secure necessary permits, and construct certain Class-1 bike trail improvements within the property as shown on Exhibit "X" (the "Bikeway Master Plan") and as further described below: As more fully set forth in Exhibit "BB" hereto, the ARSP's Class I bike trails shall be constructed in the following segments unless otherwise faintly agreed to by City and Landowner.
Department	Alternative Transportation
Status	Currently not in development
Section	3.12.8
Title	Entire Park Land Obligation
Obligation	The City agrees that the provisions of the Specific Plan and the commitments contained herein satisfy Landowner's General Plan park obligations for the dedication and improvement of neighborhood and Citywide parks and 'open space related to development of the Property.

Section	3.12.9
Title	Open Space Preserve Areas
Obligation	Landowner shall obtain from the Army Corps, a 404 Permit to fill wetland resources in conjunction with development of the Property. It is anticipated that the 404 Permit will include a condition that requires the preservation of certain environmental habitat.
Department	Parks Department
Status	Currently not in development
Section	3.12.9.1
Title	Conveyance of Open Space Preserve Area
Obligation	Upon the satisfaction by Landowner of all conditions of the 404 Permit, and completion of any corresponding monitoring and reporting that may be required by the 404 Permit during the Establishment Monitoring phase and subject to the formation of the Perpetual Monitoring Phase Public Services CFD as described in Sections 2.7.3, 2.7.4 and 3.19 of this Agreement, and following completion of all Preserve improvements, including, but not limited to, utility crossings, outfalls, bike trail grading, flood control facilities, open space perimeter fencing as may be required by the 404 Permit, maintenance access ramps, and water quality features, Landowner shall convey to the City, in accordance with the City's Open Space Preserve Overarching Management Plan, and City shall accept, in fee, the property comprising the Open Space Preserve Area shown in Exhibit "Y".
Department	Parks Department
Status	Currently not in development
Section	3.12.9.2
Title	Open Space Frontage Improvements
Obligation	When installing road improvements adjacent to the open space, Landowner shall construct the frontage improvements. Frontage improvements shall include sidewalks, split rail fencing and landscaping/ irrigation.
Department	Parks Department
Status	Currently not in development
Section	3.13
Title	School Fee Agreements
Obligation	Landowner has entered or will enter into separate written agreements with the Roseville City School District and the Roseville Joint Union High School District (collectively "the Districts"), to mitigate the impacts of development of the Property on said Districts. Such agreements outline the timing and delivery of school sites and the timing and obligation for school construction. With the execution thereof, City agrees that City shall process and approve any subdivision maps or other such entitlements for the Property and issue any building permits for development thereof consistent with the Entitlements.
Department	School Districts
Status	Landowner responsible to enter into a written agreement with school districts.
Section	3.14.1
Title	Fire Tax Equivalent Fee
Obligation	The Fire Service Construction Tax set forth in Chapter 4.46 of the Roseville Municipal

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso

	Code is no longer in effect. Landowner or its respective successors shall pay a fee equal in amount to the discontinued Fire Service Construction Tax at issuance of building permit. Landowner hereby consents to and waives any objection to the imposition of such substitute fee.
Department	Fire Department
Status	Ongoing obligation
Section	3.14.2
Title	Placer County Capital Facilities Fee
Obligation	In consideration of the annexation of the Property to City, Landowner shall pay the Placer County Capital Facilities Fee adopted by the City, in the amount then being assessed by the City; provided, however, if such impact fee is not effective or is for any reason suspended by the City, then Landowner shall pay such fee in the amount previously and most recently assessed by the City. Such fee shall be paid upon the issuance of each building permit within the Property.
Department	Building Division
Status	Ongoing obligation
Section	3.14.2.1
Title	City Public Facilities Fee
Obligation	Upon the issuance of each residential building permit within the Project, Landowner shall pay the City Public Facilities Fee (Roseville Municipal Code Chapter 4.52).
Department	Building Division
Status	Currently not in development
Section	3.14.3
Title	Public Benefit Fee
Obligation	As partial consideration for this Agreement, to offset a portion of the impact of the Project and the associated tax sharing agreement with Placer County, and to ensure that the Project will benefit current and future residents of Roseville, Landowner, upon the issuance of each residential building permit within the Project, shall pay a Public Benefit Fee for each residential unit in the Project. The Public Benefit Fee for each low density and medium density residential unit shall be \$1,280. The Public Benefit Fee for each high density residential unit shall be \$845.
Department	Building Division
Status	Ongoing obligation
Section	3.14.4
Title	Liens, Encumbrances, Covenants, Conditions and Restrictions
Obligation	Except as approved by City or provided for by this Agreement, all property to be conveyed in fee to City pursuant to this Agreement shall be free of any liens, financial encumbrances; special taxes, hazardous materials or assessments. Landowner shall, for each such conveyance, provide to City, at Landowner's expense, a current preliminary title report and preliminary site assessment for hazardous waste in a form approved by the City Attorney. Any policy of title insurance required by City shall be at City's expense.
Department	City Attorney
Status	Evaluation done at time of conveyance. Ongoing obligation.
Section	3.14.5
Title	Signage for Future Public Facilities

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix

Obligation	Landowner shall provide and install signage at the following public facility sites to alert residents of future facilities: fire station site (AR-54), well site (AR-55), two sewer lift station sites (AR-56 and AR-57), park sites (AR-60, AR-61, AR-62, AR-63, AR-64, AR-66, AR-67), solid waste recycling site (AR-55), bike trails where they will abut residential property, the NAPOTS Area (where it abuts residential land uses), and the school site (AR-50), per City specifications and applicable sign permits.
Department	Fire Department, Environmental Utilities, Parks Department and Alternative Transportation
Status	Ongoing obligation
Section	3.14.6
Title	Library Facilities
Obligation	Landowner agrees to participate and pay its fair share of the capital cost of library services in the event that the City should amend its current City-Wide Public Facilities fee to include library facilities or adopts any other equitable financing mechanism for the provision of library facilities.
Department	Parks and Libraries Department
Status	Currently not in development
Section	3.14.7
Title	Construction Waste
Obligation	Landowner shall require construction contractors and subcontractors to reduce construction waste by recycling a minimum of 50% of construction materials or that all construction debris be delivered to the Placer County Western Regional Materials Recovery Facility where recyclable material will be removed: Landowner shall require that contractors and subcontractors submit to the City Environmental Utilities Department annual records of waste diversion and disposal in order to verify compliance with this requirement.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.14.8
Title	Weed Abatement on P /OP Parcels
Obligation	Prior to dedication of any P / QP parcel to City, Landowner shall maintain such P / QP parcel to meet City's weed abatement standards and to keep such parcel free from property transformation, either whole or in part, into a wetland or other legally protected area.
Department	Parks Department
Status	Currently not in development
Section	3.14.10
Title	Solid Waste Recycling Site (AR-55)
Obligation	Landowner shall be responsible to grade Parcel AR-55, and provide Parcel AR-55 to City without environmental or other constraints as provided in this Agreement. At Landowner's expense, all site grading shall be completed prior to the dedication of the solid waste recycling site to City consistent with City's Grading Ordinance. Where retaining walls are required, the retaining wall shall be a split-faced keystone style wall or comparable quality and design, to be installed by Landowner. This work shall be completed with the construction of the roadway fronting Parcel AR-55.
Department	Environmental Utilities
Status	Ongoing obligation

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso

Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

Section	3.15
Title	EIR Mitigation Measures
Obligation	Notwithstanding any other provision in this Agreement to the contrary, as and when Landowner elects to develop the Property, Landowner shall be bound by, and shall perform, all mitigation measures contained in the EIR related to such development which are adopted by City and are identified in the mitigation monitoring plan or the EIR as being responsibility of Landowner, and shall be subject to any fees which may be enacted by City to implement any mitigation measures contained in the EIR.
Department	Planning Division
Status	In process
Section	3.16
Title	Waiver
Obligation	In consideration of the benefits received pursuant to this Agreement, Landowner, on behalf of itself and its respective heirs, successors in interests and assigns, waives any and all causes of action which it might have under the ordinances of the City of Roseville or the laws of the State of California or the United States with regard to any otherwise uncompensated or under-compensated conveyance or dedication of land or easements over the Property or improvements that are specifically provided for in this Agreement that are required in conjunction with changes to this Agreement or the Specific Plan that are requested by Landowner, or that are logically implied by this. Agreement. This waiver shall not apply to any conveyances or dedications of land or easements that are not specifically contained in this Agreement and are subsequently desired by the City.
Department	Landowner
Status	Acknowledges waiver for development
Section	3.17.1
Title	Formation Amendment #1 – Ord. #6205
Obligation	Landowner and City may form a Community Facilities District or Districts for the purpose of financing the construction and/or acquisition of public infrastructure and facilities within the Property ("Project CFD(s)"). If requested by Landowner, City and Landowner, shall use their best efforts to cause to be formed the Project CFD(s) for the purpose of financing the acquisition or construction of some or all of the improvements and facilities eligible for CFD financing (the "CFD Eligible. Improvements") within and associated with the Project, including those improvements which will mitigate impacts of the Project upon areas inside and outside of the Project, and will be owned, operated and maintained by the City or another public agency. 3.17.1.1 Nothing in this section shall be construed to require Landowner to form a CFD nor, if formed, to preclude the payment by an owner of any of the Parcels to be included within the CFD a cash amount equivalent to its proportionate share of costs for the CFD Improvements, or any portion thereof, prior to the issuance of bonds. 3.17.1.2 If Landowner desires to pursue a Community Facilities District, City and Landowner agree that, with the consent of Landowner and to the extent permitted by law, City and Landowner shall use their best efforts to cause bonds to be issued and in amounts sufficient to affect the purposes of this section. City and Landowner further agree that,

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix**

	with the consent of Landowner or their successor(s) in interest, and to the extent permitted by law, the City agrees to the following: • Maximum annual taxes for residential units shall not exceed 2.00% of the assessed valuation. • Special tax to be levied for as long as needed to service the principal and interest on bond debt, and pay any additional authorized facilities not reimbursed with bond proceeds in the funding. • City shall not unreasonably deny the max annual tax escalating 2% per year. • Include development impact fees for public improvements. • City shall consider a reasonable interest component for any authorized facilities reimbursed with pay as you go provided for in the funding, construction and acquisition agreement. • Landowner may utilize the statewide community infrastructure program for eligible impact fees. • Landowner may utilize a phased bond sale(s). • Landowner may utilize private placement of bonds. • If CFD's are formed, allowance for the transfer of the assigned special tax from one large lot parcel to another (with certain criteria listed in 3.17.1.2.j). 3.17.1.2 Landowner may utilize the Statewide Community Infrastructure Program (SCIP) program and/or the Bond Opportunities for Land Development (BOLD) program for any eligible impact fees. 3.17.1.3 Concurrent with any formation of a CFD, Landowner and City shall enter into a shortfall agreement as defined in the Funding, Construction, and Acquisition Agreement, in form and substance acceptable to City, whereby Landowner shall covenant to finance its fair share of the costs of the CFD Eligible Improvements, to the extent that the bonds issued by the CFD do not provide sufficient funding for the completion of such Improvements, subject to reimbursement/ acquisition by pay-as-you-go proceeds, to the extent available.
Department	Finance Department
Status	Parts of this area are formed, and the others are part of the future annexation area, just need to be annexed in when ready if needed.
Section	3.17.2
Title	Effect of CFD Financing on Credits and Reimbursements
Obligation	Wherever the terms of this Agreement provide for (a) credits or (b) reimbursements to Landowner for construction of certain improvements, and such improvements are financed by the CFD, development fees otherwise applicable to such improvements shall be adjusted as necessary to reflect construction with CFD funds. Credits or reimbursements owed to Landowner shall not be affected or reduced because improvements for which credits or reimbursements are due were financed with CFD special taxes or bond proceeds.
Department	Finance Department
Status	Currently not in development.
Section	3.18
Title	Completion of Improvements
Obligation	City generally requires that all improvements necessary to service new development be completed prior to issuance of building permits (except model home permits as may be provided by the City's. Subdivision Ordinance). However, the parties hereto

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (525.7 Acres) Development Agreement Implementation Matrix

	acknowledge that some of the CFD Eligible Improvements associated with the development of the Property may not need to be completed to adequately service portions of the Property as such development occurs. Therefore, as and when portions of the Property are developed, all CFD Eligible Improvements required to service such portion of the Property in accordance with the Entitlements (e.g., pursuant to specific tentative map conditions or other land use approvals) shall be completed prior to issuance of any building permits within such portion of the Property (except permits for model homes, which may be issued sooner in accordance with the City's Subdivision Ordinance). Provided however, the Public Works Director may approve the issuance of building permits prior to completion of all such CFO Eligible Improvements if the improvements necessary to provide adequate service to the portion of the Property being developed are substantially complete to the satisfaction of the Public Works Director.
Department	Engineering Division
Status	Currently not in development.
Section	3.19.1.1
Title	Consent, Waiver and Special Benefit
Obligation	No residential building permit, excluding permits for model homes, or certificate of occupancy for non-residential uses, shall be issued until a Community Services District Public Services has been formed to include the Property ("Public Services CFD"). Landowner consents to and shall cooperate in such formation or other such financing mechanism for maintenance purposes and consent herewith to the levy of such special taxes as are necessary to fund the maintenance obligations described in Section 3.19.2. Formation of the Public Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53111, et seq. The Public Services CFD will fund maintenance of street frontage and median landscaping, open space and neighborhood parks.
Department	Finance Department
Status	Obligation ongoing
Section	3.19.3
Title	Public Parcel Exclusion
Obligation	Landowner expressly agrees that Parcels conveyed or to be conveyed to the City, Roseville City School District or Roseville Joint Union High School District shall be excluded from any assessment imposed by the Public Services CFD.
Department	Finance Department
Status	Currently not in development
Section	3.20.3
Title	Public Parcel Exclusion
Obligation	Landowner expressly agrees that Parcels conveyed or to be conveyed to the City, Roseville City School District or Roseville Joint Union High School District shall be excluded from any assessment, imposed by the Services CFD.
Department	Finance Department
Status	Currently not in development.
Section	3.22
Title	Grading Permit
Obligation	Prior to the onset of any construction activities, the Landowner shall apply for and obtain a grading permit from the City. All plans shall meet or exceed the intent of the then approved City Standards, the State Water Quality Control Board SWP3

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005

	requirements, and the State General Construction Permit. It is the Landowners responsibility to meet all criteria of any outside agency for grading adjacent to or within the Open Spaces.
Department	Engineering Division
Status	Currently not in development.
Section	3.22.1
Title	Contour Grading Plan
Obligation	Landowner shall submit a contour grading plan (the "Preliminary Contour Grading Plan") for City review a11d acceptance for the overall Project concurrently wi.th the application for the first residential small lot tentative subdivision map in the Project. The Preliminary Contour Grading Plan shall serve as an information tool to demonstrate how the overall earth work for the Project will balance and coincide with future improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.23
Title	Fire Station Site
Obligation	City and Landowner acknowledge that City is responsible for funding, construction, and operation of fire facilities necessary to serve the ARSP. Landowner shall dedicate to City a 3.02 acre site (AR-54) for use as a, fire station (the "Fire Station Site") at the location shown in the ARSP and as shown in Exhibit "E" attached hereto. The net buildable area (i.e., an area of land which may be fully and completely utilized for structures and other improvements) shall be no less than 3.0 acres.
Department	Finance and Fire Department
Status	Ongoing obligation
Section	3.24
Title	Disclosures to Subsequent Purchasers
Obligation	This Agreement shall constitute notice to all successors to Landowner hereunder, and to all subsequent purchasers of any lots and/ or residential units within the Property, of the following matters: Refer to DA for requirements (page 69)
Department	Landowners
Status	Developer's responsibility
Section	3.25
Title	General Signage
Obligation	A) Utility Sites (see Section 3.14.5): Landowner shall install signage at all future utility sites (including, but not limited to; the well, sewer lift stations, pumping stations, aquifer storage and recovery facilities, and public facility sites describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The Environmental Utilities Director, City Engineer, and Electric Director, as appropriate, must review and approve sign layouts prior to installation/ construction of any utility sites. The City Manager or his/her designee must review and approve sign layouts prior to installation/ construction of any public facilities. B) Affordable Housing: Landowner shall install signage at future affordable rental housing sites (excluding carriage units) describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The City Manager or his/her designee must review and approve sign layouts prior to installation by Landowner.

Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix**

Development Agreement Obligations <u>Complete</u> as of December 2023	
Section	2.7.1
Title	404 Permit
Obligation	Landowner to obtain from the Army of Corps 404 permit
Department	Engineering Division
Status	Permit issued July 16, 2020
Section	2.7.2.2
Title	Preserve Area Establishment and Perpetual Monitoring Phase
Obligation	Landowner requires preservation/creation/restoration of wetland resources within Preserve areas in accordance to the 404 permit. Monitoring phase in accordance with criteria in the 404 permit and City's open space preserve Overarching management plan.
Department	City Manager
Status	404 Permit issued July 16, 2020.
Section	2.7.5
Title	Facilities Included in 404 Permit
Obligation	1. Mtc access ramps from Westbrook Bl to Preserve area north and south of University Creek 2. Mtc access crossing of University Creek capable of accommodating a 30,000 pd vehicle as part of offsite drainage improvements located West of PCL AR-92 on the AL Johnson Wildlife area to access the SW open space south of the University Creek within the property. 3. Opportunities for passive recreation in the offsite preserve properties for wildlife viewing and a bike trail linking W sunset BL and the Al Johnson Wildlife Area
Department	DS Engineering / Environmental Coordinator
Status	404 Permit issued. Obligation complete.
Section	3.5.2
Title	Arterial Roadways
Obligation	Landowner shall grant easements and dedicate all IODs for all arterial roadways as set forth in Sections 3.2 and 33.1 above. Arterial roadways wholly within and adjacent to the Project are Westbrook Boulevard and Roads B and D east of Westbrook Boulevard.
Department	Engineering Division
Status	Obligation Complete
Section	3.5.12
Title	Transit Master Plan Funding
Obligation	Landowner shall pay, as its fair share on a City-Wide basis for the update of the City's Long ranch Transit Master Plan, Short Range Transit Plan Update and Bicycle Master Plan Update, the amounts of \$4166, \$4998 and \$4166, respectively, prior to the recordation of any Large Lot Final Map on the Property.
Department	Engineering Division and Alternative Transportation Division
Status	Obligation complete
Section	3.7.1
Title	Placer County Water Agency Supply Amendment #1 – Ord. #6205 – Deleted
Obligation	City is negotiating\with the Placer County Water Agency (PCWA) to acquire an additional treated surface water supply from PCWA via a wholesale water agreement, inclusive of 1,067-acre feet per year ("AFY") to serve the Project. Water obtained from PCWA by City through the wholesale agreement would be delivered to the City through PCWA's Tinker Road Pump Station and Reservoir located in the

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005

	Sunset Industrial Area of unincorporated Placer County:(the ".Tinker Road Facility'), and then transported through the City's water infrastructure to the Project site. In the interim period before the PCWA infrastructure is in place to provide water to the Project, the Project will be supplied using existing City supplies and water treatment capacity.
Department	Environmental Utilities
Status	Deleted Obligation
Section	2.7.6
Title	Preserve Area Operation and Management Plan Fee
Obligation	Landowner shall pay to City a onetime fee of \$20,000.00. Payment due upon effectuation of the 404 permit and initiation of the establishment monitoring phase management as outlined in City's Open Space Preserve Overarching Management Plan.
Department	Parks
Status	Obligation Complete
Section	3.8.1
Title	Water Study
Obligation	Landowner has prepared a Water Study for its on-site water facilities and prepared a general design of the water system as shown on Exhibit "N" that identifies the size and location of waterlines, storage facilities, and pump stations. The timing of construction of such facilities is set forth in the infrastructure Phasing "Exhibit "BB".
Department	Environmental Utilities
Status	Obligation Complete
Section	3.9.3
Title	Recycled Water Engineering Report
Obligation	Landowner shall prepare a Title 22 Recycled Water Engineering Report for submittal to and review by the State Regional Water Quality. Control Board and State Department of Public Health I documenting the use of recycled water in the Project. Prior to submittal to the State Water Quality Control -Board, Landowner shall obtain approval of the City's Environmental Utilities Director. Recycled water shall not be provided for use within the Project until the Title 22 Recycled Water Engineering Report has received all required State approvals.
Department	Environmental Utilities
Status	Obligation Complete
Section	3.12.2.2
Title	Maintenance District Financing
Obligation	Pursuant to Section 3.19 below, Landowner shall support the formation of the Community Facilities District - Public Services ("Services CFD") District defined therein. Among other things, the Services CFD shall be authorized to levy special taxes or assessments on the Property and to provide maintenance of the neighborhood parks, streetscapes, and paseos.
Department	Finance Department
Status	Formed – Obligation Complete
Section	3.14.9
Title	Orthophotography of Plan Area and GIS Support

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix

Obligation	Landowner agrees to pay its fair share of the cost of orthophotography of the Plan Area. The total cost for the Plan Area is \$351.54. The above payment shall be due within ten (10) days after the first Large Lot Final Map approval for the Property.
Department	Engineering Division
Status	Obligation Complete

Development Agreement Obligations <u>Not Complete</u> as of December 2023	
Section	2.2
Title	Vested Entitlements Amendment #1 – Ord. #6205 Amendment #2 – Ord. #6484
Obligation	Subject to the provisions and conditions of this Agreement, City agrees that City is granting, and grants herewith, a fully vest entitlement and right to develop the Property in accordance with the terms a conditions of the Entitlements, including, but not limited to, allocation residential units to residentially designated parcels in the Specific Plan, minimum lot sizes, street locations and configurations in any approved tentative subdivision maps, and allocation of building square footage to commercially designated parcels in the Specific Plan. City acknowledges that the Entitlements include the following Specific Plan land use designations and approximate gross acreages for all land uses for the property as shown in the Specific Plan Land Plan in Exhibit “E”, attached herto and summarized below: Low Density Residential – 1,099 units on 219.1 acres Medium Density Residential – 695 units on 69.3 acres High Density Residential - 873 units on 37.9 acres Community Commercial - 23.7 acres Community Commercial/Village District – 159 units on 27.2 acres Park – 22.2 acres Open Space – 144.6 acres Open Space (Paseos) – 11.0 acres School – 9.6 acres Public/ Quasi Public – 7.5 acres Right of Way – 51.7 acres NAPOTS (Placer Parkway) 50.6 acres Total: 674.4 acres Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the Effective Date of this Agreement. Landowner's vested right to proceed with the development of the Property shall be subject to subsequent approvals, provided that any conditions, terms, restrictions and requirements for such subsequent approvals shall not prevent development of the Property for the uses set forth in the Entitlements, and as more fully set forth in Section 2.4.1 below.
Department	Planning Division
Status	Currently not in development
Section	2.6
Title	Affordable Housing
Obligation	Landowner shall provide 283 units affordable to very low and low-income households

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005

	only) along the future alignment of Westbrook Boulevard from West Sunset Boulevard south to where initial WestbrookBoulevard improvements in the Project have been constructed, including a gate and fencing to restrict public access to the satisfaction of the City Engineer.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.4.1
Title	Timing of Dedication and Security for Road Improvements
Obligation	Rights-of-way for the arterial roadways and the NAPOTS Area shall be dedicated as an IOD to the-City as set forth in Section; 3.2 and 3.3.1, and 'with the recordation of the first Large Lot Map. All other dedications of roadways to the City, shall be made with subsequent final small lot subdivision maps and City acceptance of completed improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.4.2
Title	Timing of Dedication and Security for Road Improvements
Obligation	Prior to the recordation of a small lot residential subdivision map for the Property, Landowner shall provide adequate assurances to City, either in the form of subdivision improvement bonds, issuance and sale of bonds by the CFD or other manner acceptable to the City, that adequate funds are available to finance the completion of all improvements to arterial roadways and the single collector street in the Project to serve the portion of the Property which is the subject of the small lot residential subdivision map; provided, however, Landowner shall not be required to post security for the portion of the work associated with Road CIP improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.5
Title	Road Improvement Standards
Obligation	All improvements to be installed by Landowner shall comply with the City's development standards for public streets in effect as of the date of improvement plan approval unless modifications are otherwise mutually agreed to by Landowner and the City Engineer.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.6
Title	Landscape Setbacks
Obligation	For the roadways within and/or adjacent to the Property, Landowner shall establish the applicable landscape setbacks provided therefore by the Specific Plan and/or Design Guidelines.
Department	Planning Division
Status	Ongoing obligation
Section	3.5.6.1
Title	Separated Sidewalks
Obligation	Landowner shall ensure that if a residential property is improved with separated sidewalks, the residential property shall be subject to recorded CC&R's containing a

	requirement that the owner of a residential unit immediately adjacent to a separated sidewalk is responsible for the maintenance of all landscaping (consistent with the City's Water Efficient Landscape Ordinance) within the landscape planter, including, street tress (to be trimmed per City standards) located between the separated sidewalk and curb, except where a Homeowners Association maintains the landscaping within the landscape planter.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.7
Title	Traffic Signals
Obligation	Landowner shall be responsible for the costs of construction of traffic signals as shown on Exhibit "I" and described in the Phasing Plan in Exhibit "I", for which City shall make progress payments to landowner for the cost of construction of such traffic signals from the City's TMF Set-Aside Fund, as defined in Section 3.5.2 above.
Department	Public Works Division
Status	Ongoing obligation
Section	3.5.8
Title	Update of City Fee
Obligation	Landowner acknowledges that as a result of approval of the Project, the City will need to update the Capital Improvement Program and Traffic Mitigation Fee to include the Project. Landowner and City shall use their best efforts to cause such update to be completed within twelve (12) months of the Effective date hereof.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.9
Title	Highway 65 Joint Powers Authority
Obligation	Landowner agrees that the Property shall be subject to and shall pay the Highway 65 Joint Powers Authority Fee (Highway 65 JPA Fee). City shall initiate and complete the actions necessary to amend the Highway 65 JPA Fee to include the Property and Landowner hereby consents to and waives any objection to such inclusion.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.10
Title	South Placer Regional Traffic Fee
Obligation	Landowner agrees that the Property shall be subject to and pay the South Placer Regional Traffic ("SPRTA") Fee as established by the Placer County Transportation and Planning Agency ("PCTPA") and adopted by the City. City shall initiate and complete the actions necessary to amend the SPRTA Fee to include the Property and Landowner hereby consents to such inclusion.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.11
Title	Tier II Traffic Fee
Obligation	The SPRTA Tier II Fees are administered by the Placer County Transportation Planning Agency ("PCTPA"). Landowner acknowledges and agrees to pay the tier II Traffic Fee, collected to pay for construction of the Placer Parkway and improvements to the I-80/SR65 interchange.

Department	Engineering Division
Status	Ongoing obligation
Section	3.5.13
Title	City-County Fee
Obligation	Landowner acknowledges that City and Placer County have adopted a funding mechanism (the "City-County Traffic Mitigation Fee") for improving certain roads in the City and County, including Baseline road and Walegra Road.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.14
Title	Santucci Boulevard and Vista Grande Boulevard Extension and Traffic Mitigation Fee
Obligation	If and when the city and County of Placer develop fee programs to mitigate regional traffic concerns, Landowner consents to and agrees that any then-undeveloped portion of the Property, for which no building permit has been issued, shall participate to the extent of its fair share in a City-Wide funding mechanism.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.15
Title	Placer County Traffic Mitigation Fee
Obligation	Landowner agrees to pay to City a fee of \$215 per DUE (the "Placer County Road Impact Fee") to provide fair share circulation system for roadways in the adopted County Capital Improvement Program at the date of approval of this Agreement that are north of Interstate 80, west of Highway 65, and outside of County approved specific plan areas (but excluding Santucci Boulevard, the extension of Vista Grande Boulevard, the extension of vista Grande boulevard as provided in Section 3.5.14 above, and the West Sunset Boulevard / Fiddymont Road intersection. The Placer County Road Impact Fee shall be adjusted annually after the completion of annexation proceedings for the Specific Plan by the percentage of change in the CCI.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.16
Title	Fee Credits/Reimbursement for Construction of CIP Improvements
Obligation	Landowner shall be entitled to credits against the City traffic mitigation fees for the cost of constructing roadway- improvements that are included in City's roadway capital improvement program ("Roadway CIP") and identified in this Agreement, as more fully set forth in Sections 3.5.1 and 3.5.2 above and Section 4.2
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.17
Title	Transportation Systems Management
Obligation	Landowner shall comply with the City's Transportation Systems Management Ordinance
Department	Alternative Transportation
Status	Ongoing obligation
Section	3.5.18

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso

Title	Alternative Transportation Marketing
Obligation	Landowner shall provide educational and marketing materials for alternative modes of transportation (e.g. Roseville Transit, Services Guide, Bikeways Map and carpool/ vanpool information) to each, new homeowner and the first resident of each attached housing unit.
Department	Alternative Transportation Division
Status	Developer's responsibility to provide materials.
Section	3.5.19
Title	Park and Ride Lot
Obligation	Twenty-five (25) park and ride spaces shall be provided on Parcel AR-53, as shown in Exhibit "H".
Department	Alternative Transportation Division
Status	Currently not in development
Section	3.6
Title	Sewer Facilities
Obligation	Landowner shall construct on-site sewer facilities as described in this Section, the Phasing Plan, and as shown in Exhibits "J-1" and "J-2", attached hereto. In the event that the WRSP and/ or CSP has: not constructed sewer facilities necessary to serve the Property, Landowner shall construct the necessary off-site sewer facilities and obtain reimbursement from the WRSP and/ or CSP in accordance with Section 4.2.f herein.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.1
Title	Lift Station Sites
Obligation	Landowner shall, at its expense design and construct two sewer lift stations (Parcels AR-56 and AR-57). Landowner shall be responsible for installation of all frontage improvements to Parcels AR-56 and AR-57, including storm drainage, water, wastewater, electric and communication fiber 'conduit per City standards.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.2
Title	Master Wastewater Plan
Obligation	Landowner shall construct wastewater conveyance facilities to connect the Project to the Pleasant Grove Wastewater Treatment Plant {"Treatment Plant"}. Construction of such facilities shall be consistent with Exhibits "J-1" and "J-2".
Department	Environmental Utilities
Status	Ongoing Obligation
Section	3.6.3
Title	Improvement Standards
Obligation	All 'Sanitary sewer facilities shall be designed and constructed pursuant to City's then current Improvement Standards and shall be subject to City plan review, construction inspection and final approval. Landowner shall pay then current plan check, mapping and inspection costs as incurred by City for review, mapping and inspection of such improvements.
Department	Environmental Utilities

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso

Status	Ongoing Obligation
Section	3.6.4
Title	Access to Manholes
Obligation	Manholes shall be located so that they are accessible by City sewer maintenance vehicles unless otherwise approved by the Environmental Utilities Director. All manholes shall be made watertight during construction. Landowner shall maintain access for City sewer maintenance vehicles to access all selected manholes in the Project, as determined by the Environmental Utilities Director. Where feasible, maintenance roads shall be combined with bikeways.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.5
Title	Public Utility Easements
Obligation	Where wastewater improvements to be constructed by Landowner are not located. Within road rights-of-way, as and when Landowner installs such wastewater improvements, Landowner shall grant and City shall accept a non-exclusive public utility easement for the ownership and maintenance of such lines, together with access for maintenance purposes.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.6
Title	Wastewater Facilities for Reimbursement
Obligation	Subject to the-provisions of Section 4.2 of this Agreement, Landowner shall be entitled to reimbursement from third parties whose property is benefited by Landowner's construction of .wastewater facilities required by City in which there-exists capacity in excess of that required to serve the development of the Property (excluding any operational adjustments by City).
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.7
Title	Wastewater Service Area Boundary
Obligation	Landowner shall be responsible for pro rata share, based on acreage (148.7 acres out of 674.4 acres in the ARSP), of all costs associated with obtaining approval from the South Placer Wastewater Authority (SPWA) for expansion of the existing wastewater service area boundary to include the Plan Area.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.2
Title	Financing of Water Supply Amendment #1 – Ord. #6205
Obligation	To provide the needed surface water supply to serve the Project, and subject to the direction of and at the time City so directs, Landowner is required to participate in the funding of certain PCWA off-site water facilities. Such facilities consist of the future PCWA Ophir Water Treatment Plant ("Ophir WTP"), associated PCWA transmission facilities necessary to wheel treated water to the Tinker Road Facility, and improvements to the PCWA Tinker Road Facility.

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix**

	Landowner shall have no obligation to install or pay for the installation of any off-site water storage, treatment, or transmission facilities (other than those which may be required by other sections of this Agreement) except through the payment of water connection fees levied and collected by the City at the time of development pursuant to the then existing City ordinances and this Agreement.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.3
Title	Groundwater Well Amendment #1 – Ord. #6205 Amendment #2 – Ord. #6484
Obligation	Landowner shall dedicate to City Parcel AR-55 for one (1) groundwater well at the approximate location shown on Exhibit "L" Landowner shall construct frontage improvements for Parcel AR-55, including water, recycled water, wastewater, storm drainage, electric and communication conduit. As shown in Exhibit "L", the well site shall be constructed adjacent to the 24" waterline to be constructed in Road B, and be connected to that 24" water line with a 16" water line. Landowner shall install a test well in a location mutually agreed upon by Landowner and City to determine if the well location utilized meets desired capacity and water quality. If the desired capacity and water quality are confirmed in the test well, Landowner shall be responsible for drilling and completing the production well (but not above ground well improvements such as pumping and treatment facilities) as further described below. City shall be responsible for the construction and costs of above ground production well (topside) improvements such as pumping and treatment facilities. 3.7.3.1 Parcel Dedication. Landowner shall dedicate to City Parcel AR-58 for City Facilities, including a groundwater well, at the approximate location shown on Exhibit "L". Landowner shall construct frontage improvements for Parcel AR-58, including water, recycled water, wastewater, storm drainage, electric and communication fiber conduit. 3.7.3.2 <u>Well Construction Requirements</u>. As shown in Exhibits "L" and "N", the water facilities site shall be constructed adjacent to the 24" water line be constructed in Road B, and be connected to that 24" water line with a 16" water line within Road A, or other pipe sizes as may be approved by City's Environmental Utilities Director pursuant to updated water studies. Landowner shall install a test well in a location mutually agreed upon by Landowner and City to determine if the well location utilized meets desired capacity and water quality. If the desired capacity and water quality are confirmed by the test well, Landowner shall be responsible for drilling and completing the production well (but not above ground well improvements such as pumping and treatment facilities) as further described below (the "Water Construction Requirements"). City shall be responsible for the construction and costs of above ground production well (topside) improvements such as pumping and treatment facilities. It is the intent of this section (and the Parties) that the groundwater well location identified within the Project shall be capable of achieving a yield of approximately 1,800 gallons per minute, be designed for Aquifer Storage and Recovery, and the groundwater water is of such quality that only disinfection will be required to meet California Drinking Water Quality Standards. Should the City determine the available capacity or water quality does not achieve these objectives, Landowner shall, at its own cost, work with the City to relocate the well site within the

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix

	Project to an alternative site mutually agreed to by City and Landowner until these objectives are satisfied. Landowner shall contact the City Environmental Utilities Department prior to design and construction of the production well. The production well shall be in operation at the time of occupancy of the 1,250th residential unit in the Project. Landowner shall receive approval from the City of the well design and drilling method prior to commencement of this work. In addition, notwithstanding the foregoing, the well shall be drilled prior to the time of occupancy of any residential units within 500 feet of the well site. Landowner shall include noise curtains for the well if at the time of construction of the well homes are occupied between 500 feet and 1,000 feet of the well. If City determines that the production well is required prior to the occupancy of the 1,250th residential unit in the Project, City has the right to construct the test well and the production well. Landowner shall reimburse City for the actual cost of the below ground improvements for the test well and production well, as set forth above, including annual CCI adjustments of such costs, upon occupancy of the 1,250th residential unit in the Project. If City constructs the test well and production well prior to the occupancy of the 1,250th residential unit in the Project, Landowner agrees to construct an all-weather access roadway within either the Road A or Road B RoW and all associated infrastructure necessary to serve Parcel AR-58 as specified in this Section 3.7.3 within one (1) year of notification from City if Road B has not otherwise already been constructed by Landowner. Notwithstanding the foregoing, if the City adopts a revised water connection fee which encompasses the costs of the Well Construction Requirements, Landowner shall be relieved of the Well Construction Requirements set forth in this Section 3.7.3.2. Landowner shall, prior to the issuance of the first building permit in the Project phase where an existing well is located, destroy the well or wells in that particular Project phase from among the two existing agriculture irrigation wells and one domestic well in the Project Area. Landowner shall obtain from City a Well Permit and follow the California Well Standards for the destruction of the wells on the Property. All construction plans shall be designed pursuant to City's then current Standards and mutually agreed to by Landowner and the Environmental Utilities Director, and subject to City plan review, construction inspection and final approval. Landowner shall pay the then current plan check, mapping and inspection costs as incurred by City for review, mapping, and inspection of the destruction of the wells.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.4
Title	Water Conservation Measure
Obligation	Landowner and its successors shall implement a Water Conservation Plan included as Exhibit "M" to this Agreement. The Water Conservation Plan shall include compliance with the City's then current Water Efficient Landscape Ordinance and outline all water conservation measures being implemented within the Project and measures to ensure water conservation objectives are achieved in perpetuity and shall be approved, at the discretion of the Environmental Utilities Director prior to issuance of the first building permit.

Status	Ongoing obligation
Section	3.7.5
Title	Periodic Confirmation of Water Conservation Goal Amendment #1 – Ord. #6205
Obligation	The City has determined, and the Landowner agrees, that the available water supply, as documented in the Water Supply Assessment for the Project, is sufficient to serve all phases of the Project. This determination was the conclusion of a review of the various technical studies completed in connection with the environmental review of the Project. 3.7.5 <u>Water Conservation Goal</u>. The City has determined, and the Landowner agrees, that the available water supply, as documented in the Water Supply Assessment for the Project, is sufficient to serve all phases of the Project. This determination was the conclusion of a review of the various technical studies completed in connection with the environmental review of the Project. The demand for water at build-out of the Project was determined by reference to the City's current information on water usage by the various land uses included and permitted within the City and the proposed land uses within the Project and by reference to the Landowner's Water Conservation Plan which includes a reduction in water use by approximately 15% over current (i.e., Effective Date of this Agreement) use characteristics. The sources for water evaluated for the Project are the same types of sources currently used throughout the City; namely, surface water contracts with federal and local agencies and the use of groundwater. City and Landowner are satisfied, based upon detailed technical analysis, that the demand and source assumptions relied upon to assure water for the Project are valid. However, the Parties have agreed to the following procedure to assure the continued validity of the underlying assumptions and the continued availability of sufficient water to service all phases of the Project. With the implementation of the City's Advanced Metering Infrastructure ("AMI") system, the City will have the ability to monitor potable water consumption on a near real-time basis. If the City determines that water consumption exceeds what was anticipated, and will negatively affect the City's ability to provide water for the Project, then the Parties shall meet and in good faith attempt to implement whatever measures are needed to assure the water supply will meet the Project's demands. In the event that the City adopts a City-Wide requirement for a reduction in water use by more than the approximately 15% over current potable water usage as set forth herein, and the then built portion of the Project has met its approximately 15% objective set forth in this Section 3.7.5, the residential units for which building permits have not yet been issued shall be required to implement such measures necessary to achieve such City-Wide requirement, above the approximately 15% objective set forth in this Section 3.7.5. Development and implementation of such measures shall be at Landowner's cost. The foregoing notwithstanding, should City achieve its adopted City-Wide water conservation goals, the Project shall not under any circumstances be deemed out of compliance with its Water Conservation Plan water conservation objective as set forth herein.
Department	Environmental Utilities
Status	Ongoing Obligation
Section	3.8.2
Title	Water Facilities
Obligation	Landowner shall construct on-site water system facilities as shown on Exhibit "N". In the event that the CSP has not constructed water lines necessary to serve the

	include such disclosure in the C&Rs for the Property. The disclosure shall describe the location of groundwater, wells and water storage facilities.
Department	Landowner
Status	Developer's responsibility
Section	3.8.8
Title	Water Service Area Boundary Modification Amendment #2 – Ord. #6484
Obligation	Landowner shall reimburse City for all costs associated with modifying City's service area boundary to include the Project with the U.S. Bureau of Reclamation. There shall be no delay or refusal to issue building permits in the Project by City while City is modifying the service area boundary to include the Project.
Department	Environmental Utilities
Status	Ongoing Obligation
Section	3.9
Title	Recycled Water Facilities
Obligation	Landowner shall construct recycled water system facilities as provided in this Section, the Phasing Plan, and as shown in Exhibit "P", attached hereto and made a part hereof...Recycled water shall be used for irrigation of parks and landscape setbacks/medians, paseos adjacent to collector streets and other landscape areas including all multi-family and non-residential landscaping uses. Landowner shall construct and dedicate upon completion thereof, a recycled water line system as generally shown in Exhibit "P". In the event that the CSP has not constructed recycled water facilities necessary to serve the Project, Landowner shall construct the necessary offsite recycled facilities and obtain reimbursement from the CSP in accordance with Section 4.2.2 herein.
Department	Environmental Utilities
Status	Ongoing Obligation
Section	3.9.1
Title	Non Exclusive Public Utility Easement
Obligation	Where the-recycled water facilities are not located within road. Rights of-way, as and when such facilities are installed, Landowner shall grant and City shall accept a non-exclusive public utility easement for the ownership and maintenance of such facilities; together with access thereto for maintenance purposes only. Easement widths shall be- granted in accordance with the City's then current Improvement Standards.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.9.2.
Title	Recycled Water Facilities for Reimbursement Amendment #1 – Ord. #6205 Amendment #2 – Ord. #6484
Obligation	Subject to the provisions of Section 4.2 of this Agreement, Landowner shall be entitled to reimbursement from third parties outside the Project whose property is benefited by Landowner's construction of recycled water facilities required by City in which there exists capacity in excess of that required to serve the development of the Property (Excluding any operational adjustments by the. City). Such reimbursement shall be pro rata, based on the respective capacity requirements of the Property and other property benefited by the construction. Specific recycled water facilities subject to reimbursement pursuant to this Section 3.9.2 and Section 4.2 of this Agreement are

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005

	shown in Exhibits "Q-1" and "Q-2" and listed in Exhibit "BB". For properties outside of the Specific Plan, Landowner shall submit documentation to the City to justify the requested reimbursement. The timing for the payment of any such reimbursements shall be upon the earlier of the formation of a CFD and issuance of bonds for such CFD serving development by such third parties or recordation of the first large lot subdivision map serving the development by such third party. Landowner shall likewise be required to contribute its pro-rata share of the cost of expansion of the WRSP recycled water tank and pump station located north of the Pleasant Grove Wastewater Treatment Plant that is required to serve the WRSP, as set forth in Section 3.27 and 3.28 of this Agreement, and as set forth in Exhibits "Q-1" and "Q-2". Landowner's pro-rata share of the cost of expansion of the WRSP recycled water tank and pump station referenced herein, estimated at \$2.287 million, shall be paid through CFD for the Project, with payment from the CFD not required until after the 1,250th building permit is issued in the Project. If City institutes a recycled water connection fee, or such fee is embedded into City's revised water connection fee (which encompasses the estimated \$2.287 million for expansion of the WRSP recycled water tank and pump station described in the preceding paragraph), prior to the issuance of any building permits in the Project, Landowner shall not be responsible for the payment of the estimated \$2.287 million pro-rata share of the cost of the expansion of the WRSP recycled water tank and pump station except through the payment of the City recycled water connection fee, or City's revised water connection fee if a recycled water connection fee is embedded into City's revised water connection fee, or any special benefit fees as may be applicable to the Project to fund the expansion of the WRSP recycled water tank and pump station.
Department	Environmental Utilities
Status	Ongoing Obligation
Section	3.9.4
Title	Recycled Water Use Disclosure to Buyers
Obligation	Landowner shall disclose to all buyers that recycled water shall be used for irrigation of parks and landscape corridors, medians, paseos adjacent to collector streets and other landscape areas, including all multifamily and non-residential landscaping uses. Such disclosure shall be included in the CC&Rs for all residential buyers and other recorded notice instrument for a non-residential buyers.
Department	Landowner
Status	Ongoing obligation
Section	3.9.5
Title	Terms and Conditions for Recycled Water Operations, Use, and Service
Obligation	All private commercial recycled water customers within the Project shall sign a Terms and Conditions for Recycled Water Operations, Use and Service prior to service meter installation and recycled water being introduced to the site per requirements of the City's Municipal Code at the time of connection.

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix**

Title	Drainage Facilities
Obligation	Landowner shall be responsible for the design and construction of all storm drain facilities required to serve the Property in conformance with the Project drainage Master Plan (including open space transition areas), the then approved City Improvement Standards, City Storm Water Management program, the MS4 Permit as issued and modified by the State and Regional Water Quality Control Board, the approved Placer County Storm Water Management Manual, the 404 Permit issued by the Army Corps, and any agency required Establishment Phase Operation and Management Plan and/or City's Preserve Area Overarching Management Plan (whichever Management-Plan is in force at the time). Appropriate aspects of the Low Impact Development design, hydro modification, and the Flood Control Plan as specified in the Drainage Master Plan and in the Specific Plan.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.10.1
Title	Other Agency Approval
Obligation	Prior-to issuance of any building permit or grading permit, Landowner shall obtain, at its expense; all permits and agreements as required by other agencies having jurisdiction over drainage, water quality or wetlands issues including, but not limited to, the Regional Water Quality Control Board ("RWQCB"), the Army Corps and the California Department of Fish and Game.
Department	Landowner
Status	Landowner to obtain all permits and agreements prior to development.
Section	3.10.2
Title	Storm Drains
Obligation	Landowner shall construct storm drain mains and laterals in accordance with the Drainage Master Plan and Phasing Plan and with the City's then current Improvement Standards and shall provide laterals to serve 'all parcels on the Property, including, but not limited to, park sites. Storm drain laterals shall be constructed to the property line concurrently with the construction of connecting open channels or storm drain mains. Storm drainage system designs shall include applicable Best Management Practices with the goal of preventing or reducing pollutants from entering receiving waters in accordance with the City's Storm Water Management Program and the then current MS4 permit requirements. Should grading alter the natural drainage patterns and it becomes necessary to redirect drainages across lands dedicated to the City, the Landowner shall be responsible for: the .installation of above-ground constructed swales. Where constructed swales cross open space, the constructed swales shall be designed and installed in accordance with City's Open Space Preserve Overarching Management Plan to control and direct runoff to receiving waters as appropriate. Landowner shall be responsible for annual (or more frequent if needed) maintenance of said constructed swales until such time that the City develops the property, or City accepts the open space dedication.
Department	Engineering Division
Status	Ongoing Obligation
Section	3.10.3
Title	Grant of Floodplain
Obligation	Prior to or concurrent with approval of any final map containing areas-within the 100-year floodplain as shown in Exhibit "S", Landowner shall grant an IOD to the City, or to a conservancy or other non-profit entity acceptable to the City, such areas within

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix

	the Open Space Preserve Areas as shown in Exhibit "Y" and the land use plan for Property, set forth in Exhibit "E".
Department	Engineering Division
Status	Ongoing obligation
Section	3.10.4
Title	Drainage Easements
Obligation	Where permanent drainage facilities to be owned and maintained by City are to be constructed by Landowner and are not located within road rights-of-way, as and when Landowner installs such drainage improvements, Landowner shall grant and City shall accept a non-exclusive public utility easement or temporary easement for, the ownership and maintenance of such lines, together with access thereto for maintenance purposes only. The City shall not be required to accept or maintain any temporary drainage improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.10.5
Title	Drainage Improvements and Work Upon City Owned Property
Obligation	The drainage channels shall be generally designed as earthen structures with side slope stabilization and longitudinal slopes that will provide positive storm water flow and minimize standing water. Maintenance vehicle access across the channel in the adjacent open space will generally be located as shown in the Open Space Transition Plan. Access roads, access ramps, fencing and landscaping shall be constructed per City standards. Where access roads cross the channel, such access roads shall be constructed to allow small tractor loader (such as a Bobcat) to pass under the access road: The channel bottom shall support the wheel loading of maintenance equipment without compromising the integrity and/ or flow line of the channel. The channels and storm water pumps for Road "G" shall be maintained by City with funds from the CFD for Public Services. City may program the use of maintenance access roads for pedestrian use.
Department	Engineering Division
Status	Ongoing obligation
Section	3.10.6
Title	Off-Site Monitoring
Obligation	City acknowledges that the existing drainage channel on City's Al Johnson Wildlife Area property is currently subject to overtopping and erosion during storm events. Landowner acknowledges and takes responsibility for erosion impacts to such City owned property that are attributable to an increase in flow onto the Al Johnson Wildlife Area property. With the design of the channel, Landowner shall produce a report and initial investigation to determine the stability of University Creek across City property.
Department	Engineering
Status	Ongoing obligation
Section	3.10.7
Title	Annexation Into Regional Flood Control Program
Obligation	City administers a Regional Flood Control Program within the Pleasant Grove/Curry Creek watershed and collects drainage fees for the future mitigation of volumetric impacts to downstream properties. Landowner acknowledges that as a result of approval of the Project; City shall need to update the Regional Flood Control

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix

	Program and the Drainage Mitigation Fee in order to annex the Plan Area into the Regional Flood Control Program benefit area. Landowner and City shall use their best efforts to cause such update to be completed within twelve (12) months of the Effective Date of the Agreement. Until such update has been completed and approved by City, Landowner agrees to pay the then current Drainage Mitigation Fee. When a new Drainage Mitigation Fee is adopted, Landowner shall pay the new Drainage Mitigation Fee for all DUEs for which building permits have not yet been issued.
Department	Engineering Division
Status	Ongoing obligation
Section	3.11
Title	Electric
Obligation	Landowner shall provide electric utility improvements as provided in this Section, the Phasing Plan and as shown in Appendix "B" of the Dry Utility Plan for the Project.
Department	Electric
Status	Currently not in development
Section	3.11.1
Title	On-Site Electric Facilities
Obligation	For purposes of this section, "on-site" means within the Property. Concurrently with the construction of the adjacent roadways and as specified in Section 3.3, Landowner agrees to construct, or finance the construction of, on-site 12kV electric distribution facilities as directed by the Electric Utility Director. Landowner shall construct or finance construction of on-site 12kV electric distribution facilities in accordance with final on-site electric distribution designs for the Project as directed by the Electric Utility Director in accordance with applicable City Electric Utility Department Specifications.
Department	Electric
Status	Currently not in development
Section	3.11.2
Title	Off-Site Electric Facilities
Obligation	For purposes of this section, "off-site" means outside of the Project. Concurrently with the construction of any phase of the Project, Landowner agrees to construct or finance the construction of off-site 12kV electric distribution facilities as directed by the Electric Utility Director. Landowner shall construct or finance construction of off-site 12kV electric distribution facilities in accordance with final off-site electric distribution designs for the Project as directed by the Electric Utility Director in accordance with applicable City Electric Utility Department Specifications.
Department	Electric
Status	Currently not in development
Section	3.11.3
Title	CSP Electric Substation Amendment #1 – Ord. #6205
Obligation	Pursuant to the development agreement in the CSP, CSP landowners are required to dedicate to City, grade and provide access to a parcel in the CSP (designated Parcel C-81 in the Specific Plan) for an electric substation to serve the CSP (the "Substation Site"). Under the development agreement between CSP landowners and City, such Substation Site must be provided to City prior to issuance of the 500th residential building permit, or combination of building permits, in the CSP.

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix**

	Pursuant to the development agreement in the CSP, CSP landowners are required to dedicate to City, grade and provide access to a parcel in the CSP (designated Parcel C-81 in the Specific Plan) for an electric substation to serve the CSP (the "Substation Site"). Under the development agreement between CSP landowners and City, such Substation Site must be provided to City prior to issuance of the 923rd residential building permit, or combination of building permits, in the CSP. Should the Substation Site not have been dedicated to City, graded with access provided at the time that Landowner wishes to proceed with development of the Project, Landowner shall have the right to cause such dedication, grading and provision of access to the Substation Site for City to construct the electric substation that will serve both the CSP and the Project. Where the CSP Developer has not provided the Substation Site and associated improvements required in the CSP development agreement, then, provided that Landowner provides an access road, power line, temporary easements, and Substation Site as defined in the CSP development agreement prior to the issuance of the 500th residential building permit in the ARSP, the City shall not restrict the issuance of any additional building permits in the ARSP beyond the 500 residential building permits noted herein on the basis of insufficient electrical service capacity for the balance of the Project. Should there be a delay by the CSP Developer or Landowner, as provided herein, in dedicating the Substation Site and associated improvements as required in the CSP development agreement, such delay shall result in the delay in the availability of power to the ARSP until such time as the Substation Site is fully operational with the ability to serve the remainder of the ARSP. Landowner acknowledges that, in the absence of any available capacity utilizing temporary lines that could serve the Project on an interim basis, the CSP electric substation must be in operation and 12kV circuits extended to the Project for electric service to be provided to the Plan Area, subject to the provisions set forth above. In addition to the Substation Site, Landowner shall install an all-weather access road along the south side of Pleasant Grove Creek from the southeast corner of the CSP to the Westbrook Boulevard bridge crossing over Pleasant Grove Creek sufficient to allow the construction and maintenance of the 60kV overhead power line required to feed the CSP electric substation.
Department	Electric
Status	Currently not in development
Section	3.11.4
Title	60kV Disclosure Amendment #1 – Ord. #6205
Obligation	Landowner shall include a notice in the project CC&R's and its sales documentation advising property owners adjacent to the existing 60 kV easement areas shown on Exhibit "U" and the future 60kV easement line on the east side of Westbrook Boulevard and the southern Project boundary along Road A that the City may utilize the public utility easements to construct, 60kV overhead electric. Exhibit "U" to the Agreement is hereby deleted, and the 60kV electric line serving the Substation Site referenced in Section 3.11.3 above is shown in Exhibit "CC" to the CSP development agreement.
Department	Electric
Status	Currently not in development
Section	3.11.5
Title	Streetlights
Obligation	Concurrent with the construction of the adjacent roadways, Landowner agrees to

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix

	construct, or finance construction of, streetlights within the Property, as directed by the Electric Utility Director. Except as may otherwise be permitted by the Electric Utility Director, no street shall be accepted by the City unless and until streetlights have been installed in accordance with the Specific Plan and applicable requirements of the Electric Department Streetlights shall meet Roseville Electric's specifications for residential and/ or, commercial construction in effect at the time the construction improvement plans are approved-and issued by the City.
Department	Electric
Status	Currently not in development
Section	3.11.6
Title	Electric Efficiency and Demand Reduction
Obligation	In order to mitigate demand for energy supplies and comply with state mandated energy efficiency goals, the following: energy efficiency and load management requirements are hereby established: 1. All-residential dwelling units will install residential air conditioning units with the following sets of parameters, as a minimum standard: a. A Seasonal Energy Efficiency Rating ("SEER") of 2 points above the minimum, as defined by the State of California in the current Title 24 of the Code of California Regulations, up to a total maximum of 18 points including the 2 point premium, an Energy Efficiency Ratio ("EER") of 12.5 or greater. The SEER rating of 2 points above the minimum, as defined by the current Title 24, up to a maximum of 18 points, and an EER rating of 12.5 or greater will be specified on building plans and Title 24 compliance certificates-at the time building-permits are requested. If Title 24 of the Code of California Regulations in effect at-the time of request for building permits requires higher SEER or EER ratings, residential units in the ,Plan Area shall comply with such State requirements. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be utilized in the overall energy compliance: calculations required for issuance of a building permit for any residential unit. Any variances must be approved by the Electric Department's Retail Energy Services Department. 2. All commercial air conditioning units 5 tons or less (<65,000 btu/h) shall meet the current Consortium for Energy Efficiency (CCEE"). Tied specifications. The SEER/EER ratings will-be specified on building plans and Title 24 compliance certificates at the time building permits are requested. The SEER and EER ratings will be verified with appropriate documentation. 3. Every garage of each Low Density Residential and Medium Density, Residential unit must be considered "electric vehicle ready" which includes, but is not limited to, a 3/4" conduit raceway to a spare electric box in the-garage that is sized for a future 40-amp, 220-volt outlet. A 40-amp, 220-volt breaker space shall be made available at the residential unit's electrical panel.
Department	Electric
Status	Currently not in development
Section	3.12
Title	Parks, Open Space, and Bike Trails
Obligation	Landowner shall dedicate to City a total of 22.1 acres of active park land and 134.8 acres of open space lands, and 10.7 acres of paseos, pay fees for construction of park improvements, trail improvements, construct park frontage improvements as set forth in this Section and the Phasing Plan and as shown in Exhibit "V", and install communication conduit to each park site per City standards.

Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix**

Section	3.12.3.1
Title	Neighborhood Park Frontage Improvements
Obligation	When installing road improvements adjacent to neighborhood park sites, Landowner shall construct the frontage improvements (excluding landscaping); which include curb gutter, and stub utilities for the park site, subject to direction from City on the location of such utility, stubs. At the time Landowner install infrastructure frontage improvements for the neighborhood parks, Landowner may construct the sidewalks, as specified in the Specific Plan and upon mutual consent of the City and Landowner.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.4
Title	City Wide Park Fee Amendment #1 – Ord. #6205
Obligation	Upon issuance of each residential building permit within the Project, Landowner shall pay a City Wide park fee (the "City-Wide Park Fee") to fund the construction of City Wide park facilities in the City. The City Wide Park Fee, as described in Section 3.12.5 below, shall be \$1,670 per Low Density Residential unit, \$1,426 per Medium Density Residential unit, and \$1,183 per High Density Residential unit (but excluding carriage units, which shall not pay City Wide Park Fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI. Upon issuance of each residential building permit within the Project, Landowner shall pay a City-Wide park fee (the "City-Wide Park Fee") to fund the construction of City-Wide park facilities in the City. The City-Wide Park Fee, as described in Section 3.12.5 below, shall be \$1,680 per Low Density Residential unit, \$1,435 per Medium Density Residential unit, and \$1,190 per High Density Residential unit (but excluding carriage units, which shall not pay City-Wide Park Fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI.
Department	Parks Department
Status	Ongoing obligation
Section	
Title	City-Wide Park In-Lieu Fee Amendment #1 – Ord. #6205
Obligation	In accordance with the park financing plan for the Property, Landowner shall pay a citywide park in-lieu fee for the land dedication component of the Project's City-Wide Park obligation (the "City Wide Park In-Lieu Fee"), upon the issuance of each residential building permit within the Project, to fund improvements to the City-Wide park in the WRSP or other city-wide parks within the City. Such City-Wide Park In-Lieu Fee shall be \$1,215 per Low Density Residential unit, \$1,038 per Medium Density Residential unit, and \$861 per High Density Residential unit (but excluding carriage units, which shall not pay City-Wide Park In-Lieu fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI. In accordance with the park financing plan for the Property, Landowner shall pay a city-wide park in-lieu fee for the land dedication component of the Project's City-Wide Park obligation (the "City-Wide Park In-Lieu Fee"), upon issuance of each residential building permit within the Project, to fund improvements to the City-wide park in the WRSP or other city-wide parks within the City. Such City-Wide Park In-Lieu Fee shall be \$1,222 per Low Density Residential unit, \$1,044 per Medium Density Residential unit, and \$866 per High Density Residential unit (but excluding carriage units, which shall not

	pay City-Wide Park In-Lieu fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.6
Title	Paseo Facilities
Obligation	Paseo facilities within the Project are located on modified primary residential streets with street side paseos in the ARSP, consistent with the Specified Plan and Design Guidelines, and include a 10-foot wide Class 1A bikeway.
Department	Parks and Alternative Transportation Department
Status	Ongoing obligation
Section	3.12.7
Title	Bike Trail Construction
Obligation	The ARSP's Class 1 bike trails are only located either adjacent to drainage ways, an open space-fronting roadway, or along a P/QP parcel in the Specific Plan. Landowner shall design, secure necessary permits, and construct certain Class-1 bike trail improvements within the property as shown on Exhibit "X" (the "Bikeway Master Plan") and as further described below: As more fully set forth in Exhibit "BB" hereto, the ARSP's Class I bike trails shall be constructed in the following segments unless otherwise jointly agreed to by City and Landowner.
Department	Alternative Transportation
Status	Currently not in development
Section	3.12.8
Title	Entire Park Land Obligation
Obligation	The City agrees that the provisions of the Specific Plan and the commitments contained herein satisfy Landowner's General Plan park obligations for the dedication and improvement of neighborhood and Citywide parks and 'open space related to development of the Property.
Department	Parks Department
Status	Currently not in development
Section	3.12.9
Title	Open Space Preserve Areas
Obligation	Landowner shall obtain from the Army Corps, a 404 Permit to fill wetland resources in conjunction with development of the Property. It is anticipated that the 404 Permit will include a condition that requires the preservation of certain environmental habitat.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.9.1
Title	Conveyance of Open Space Preserve Area
Obligation	Upon the satisfaction by Landowner of all conditions of the 404 Permit, and completion of any corresponding monitoring and reporting that may be required by the 404 Permit during the Establishment Monitoring phase and subject to the formation of the Perpetual Monitoring Phase Public Services CFD as described in Sections 2.7.3, 2.7.4 and 3.19 of this Agreement, and following completion of all Preserve improvements, including, but not limited to, utility crossings, outfalls, bike trail grading, flood control facilities, open space perimeter fencing as may be required

Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix

	by the 404 Permit, maintenance access ramps, and water quality features, Landowner shall convey to the City, in accordance with the City's Open Space Preserve Overarching Management Plan, and City shall accept, in fee, the property comprising the Open Space Preserve Area shown in Exhibit "Y".
Department	Parks Department
Status	Ongoing obligation
Section	3.12.9.2
Title	Open Space Frontage Improvements
Obligation	When installing road improvements adjacent to the open space, Landowner shall construct the frontage improvements. Frontage improvements shall include sidewalks, split rail fencing and landscaping/ irrigation.
Department	Parks Department
Status	Ongoing obligation
Section	3.13
Title	School Fee Agreements
Obligation	Landowner has entered or will enter into separate written agreements with the Roseville City School District and the Roseville Joint Union High School District (collectively "the Districts"), to mitigate the impacts of development of the Property on said Districts. Such agreements outline the timing and delivery of school sites and the timing and obligation for school construction. With the execution thereof, City agrees that City shall process and approve any subdivision maps or other such entitlements for the Property and issue any building permits for development thereof consistent with the Entitlements.
Department	School Districts
Status	Landowner responsible to enter into a written agreement with school districts.
Section	3.14.1
Title	Fire Tax Equivalent Fee
Obligation	The Fire Service Construction Tax set forth in Chapter 4.46 of the Roseville Municipal Code is no longer in effect. Landowner or its respective successors shall pay a fee equal in amount to the discontinued Fire Service Construction Tax at issuance of building permit. Landowner hereby consents to and waives any objection to the imposition of such substitute fee.
Department	Fire Department
Status	Ongoing Obligation
Section	3.14.2
Title	Placer County Capital Facilities Fee
Obligation	In consideration of the annexation of the Property to City, Landowner shall pay the Placer County Capital Facilities Fee adopted by the City, in the amount then being assessed by the City; provided, however, if such impact fee is not effective or is for any reason suspended by the City, then Landowner shall pay such fee in the amount previously and most recently assessed by the City. Such fee shall be paid upon the issuance of each building permit within the Property.
Department	Building Division
Status	Ongoing Obligation
Section	3.14.2.1
Title	City Public Facilities Fee
Obligation	Upon the issuance of each residential building permit within the Project, Landowner

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix**

	shall pay the City Public Facilities Fee (Roseville Municipal Code Chapter 4.52).
Department	Building Division
Status	Ongoing Obligation
Section	3.14.3
Title	Public Benefit Fee
Obligation	As partial consideration for this Agreement, to offset a portion of the impact of the Project and the associated tax sharing agreement with Placer County, and to ensure that the Project will benefit current and future residents of Roseville, Landowner, upon the issuance of each residential building permit within the Project, shall pay a Public Benefit Fee for each residential unit in the Project. The Public Benefit Fee for each low density and medium density residential unit shall be \$1,280. The Public Benefit Fee for each high density residential unit shall be \$845.
Department	Building Division
Status	Ongoing Obligation
Section	3.14.4
Title	Liens, Encumbrances, Covenants, Conditions and Restrictions
Obligation	Except as approved by City or provided for by this Agreement, all property to be conveyed in fee to City pursuant to this Agreement shall be free of any liens, financial encumbrances; special taxes, hazardous materials or assessments. Landowner shall, for each such conveyance, provide to City, at Landowner's expense, a current preliminary title report and preliminary site assessment for hazardous waste in a form approved by the City Attorney. Any policy of title insurance required by City shall be at City's expense.
Department	City Attorney
Status	Evaluation done at time of conveyance. Ongoing obligation.
Section	3.14.5
Title	Signage for Future Public Facilities
Obligation	Landowner shall provide and install signage at the following public facility sites to alert residents of future facilities: fire station site (AR-54), well site (AR-55), two sewer lift station sites (AR-56 and AR-57), park sites (AR-60, AR-61, AR-62, AR-63, AR-64, AR-66, AR-67), solid waste recycling site (AR-55), bike trails where they will abut residential property, the NAPOTS Area (where it abuts residential land uses), and the school site (AR-50), per City specifications and applicable sign permits.
Department	Fire Department, Environmental Utilities, Parks Department and Alternative Transportation
Status	Ongoing obligation
Section	3.14.6
Title	Library Facilities
Obligation	Landowner agrees to participate and pay its fair share of the capital cost of library services in the event that the City should amend its current City-Wide Public Facilities fee to include library facilities or adopts any other equitable financing mechanism for the provision of library facilities.
Department	Parks and Libraries Department
Status	Currently not in development
Section	3.14.7
Title	Construction Waste

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix**

Obligation	Landowner shall require construction contractors and subcontractors to reduce construction waste by recycling a minimum of 50% of construction materials or that all construction debris be delivered to the Placer County Western Regional Materials Recovery Facility where recyclable material will be removed: Landowner shall require that contractors and subcontractors submit to the City Environmental Utilities Department annual records of waste diversion and disposal in order to verify compliance with this requirement.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.14.8
Title	Weed Abatement on P /QP Parcels
Obligation	Prior to dedication of any P / QP parcel to City, Landowner shall maintain such P / QP parcel to meet City's weed abatement standards and to keep such parcel free from property transformation, either whole or in part, into a wetland or other legally protected area.
Department	Parks Department
Status	Currently not in development
Section	3.14.10
Title	Solid Waste Recycling Site (AR-55)
Obligation	Landowner shall be responsible to grade Parcel AR-55, and provide Parcel AR-55 to City without environmental or other constraints as provided in this Agreement. At Landowner's expense, all site grading shall be completed prior to the dedication of the solid waste recycling site to City consistent with City's Grading Ordinance. Where retaining walls are required, the retaining wall shall be a split-faced keystone style wall or comparable quality and design, to be installed by Landowner. This work shall be completed with the construction of the roadway fronting Parcel AR-55.
Department	Environmental Utilities
Status	Currently not in development
Section	3.15
Title	EIR Mitigation Measures
Obligation	Notwithstanding any other provision in this Agreement to the contrary, as and when Landowner elects to develop the Property, Landowner shall be bound by, and shall perform, all mitigation measures contained in the EIR related to such development which are adopted by City and are identified in the mitigation monitoring plan or the EIR as being responsibility of Landowner, and shall be subject to any fees which may be enacted by City to implement any mitigation measures contained in the EIR.
Department	Planning Division
Status	In process
Section	3.16
Title	Waiver
Obligation	In consideration of the benefits received pursuant to this Agreement, Landowner, on behalf of itself and its respective heirs, successors in interests and assigns, waives any and all causes of action which it might have under the ordinances of the City of Roseville or the laws of the State of California or the United States with regard to any otherwise uncompensated or under-compensated conveyance or dedication of land or easements over the Property or improvements that are specifically provided for in this Agreement that are required in conjunction with changes to this Agreement or the Specific Plan that are requested by Landowner, or that are logically implied by

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix**

	this agreement. This waiver shall not apply to any conveyances or dedications of land or easements that are not specifically contained in this Agreement and are subsequently desired by the City.
Department	Landowner
Status	Acknowledges waiver for development
Section	3.17.1
Title	Formation Amendment #1 – Ord. #6205
Obligation	Landowner and City may form a Community Facilities District or Districts for the purpose of financing the construction and/or acquisition of public infrastructure and facilities within the Property ("Project CFD(s)"). If requested by Landowner, City and Landowner, shall use their best efforts to cause to be formed the Project CFD(s) for the purpose of financing the acquisition or construction of some or all of the improvements and facilities eligible for CFD financing (the "CFD Eligible Improvements") within and associated with the Project, including those improvements which will mitigate impacts of the Project upon areas inside and outside of the Project, and will be owned, operated and maintained by the City or another public agency. 3.17.1.1 Nothing in this section shall be construed to require Landowner to form a CFD nor, if formed, to preclude the payment by an owner of any of the Parcels to be included within the CFD a cash amount equivalent to its proportionate share of costs for the CFD Improvements, or any portion thereof, prior to the issuance of bonds. 3.17.1.2 If Landowner desires to pursue a Community Facilities District, City and Landowner agree that, with the consent of Landowner and to the extent permitted by law, City and Landowner shall use their best efforts to cause bonds to be issued and in amounts sufficient to affect the purposes of this section. City and Landowner further agree that, with the consent of Landowner or their successor(s) in interest, and to the extent permitted by law, the City agrees to the following: • Maximum annual taxes for residential units shall not exceed 2.00% of the assessed valuation. • Special tax to be levied for as long as needed to service the principal and interest on bond debt, and pay any additional authorized facilities not reimbursed with bond proceeds in the funding. • City shall not unreasonably deny the max annual tax escalating 2% per year. • Include development impact fees for public improvements. • City shall consider a reasonable interest component for any authorized facilities reimbursed with pay as you go provided for in the funding, construction and acquisition agreement. • Landowner may utilize the statewide community infrastructure program for eligible impact fees. • Landowner may utilize a phased bond sale(s). • Landowner may utilize private placement of bonds. • If CFD's are formed, allowance for the transfer of the assigned special tax from one large lot parcel to another (with certain criteria listed in 3.17.1.2.j). 3.17.1.2 Landowner may utilize the Statewide Community Infrastructure Program (SCIP) program and/or the Bond Opportunities for Land Development (BOLD) program for any eligible impact fees.

**Brookfield Sunset, LLC and Jennifer M. Amoruso, Successor Trustee of the Amoruso
Family Living Trust Dated March 14, 2005
Amoruso Specific Plan (148.7 Acres) Development Agreement Implementation Matrix**

	3.17.1.3 Concurrent with any formation of a CFD, Landowner and City shall enter into a shortfall agreement as defined in the Funding, Construction, and Acquisition Agreement, in form and substance acceptable to City, whereby Landowner shall covenant to finance its fair share of the costs of the CFD Eligible Improvements, to the extent that the bonds issued by the CFD do not provide sufficient funding for the completion of such Improvements, subject to reimbursement/ acquisition by pay-as-you-go proceeds, to the extent available.
Department	Finance Department
Status	This is part of the future annexation area for Amoruso Ranch CFD 1, but not annexed in yet.
Section	3.17.2
Title	Effect of CFD Financing on Credits and Reimbursements
Obligation	Wherever the terms of this Agreement provide for (a) credits or (b) reimbursements to Landowner for construction of certain improvements, and such improvements are financed by the CFD, development fees otherwise applicable to such improvements shall be adjusted as necessary to reflect construction with CFD funds. Credits or reimbursements owed to Landowner shall not be affected or reduced because improvements for which credits or reimbursements are due were financed with CFD special taxes or bond proceeds.
Department	Finance Department
Status	Currently not in development.
Section	3.18
Title	Completion of Improvements
Obligation	City generally requires that all improvements necessary to service new development be completed prior to issuance of building permits (except model home permits as may be provided by the City's Subdivision Ordinance). However, the parties hereto acknowledge that some of the CFD Eligible Improvements associated with the development of the Property may not need to be completed to adequately service portions of the Property as such development occurs. Therefore, as and when portions of the Property are developed, all CFD Eligible Improvements required to service such portion of the Property in accordance with the Entitlements (e.g., pursuant to specific tentative map conditions or other land use approvals) shall be completed prior to issuance of any building permits within such portion of the Property (except permits for model homes, which may be issued sooner in accordance with the City's Subdivision Ordinance). Provided however, the Public Works Director may approve the issuance of building permits prior to completion of all such CFD Eligible Improvements if the improvements necessary to provide adequate service to the portion of the Property being developed are substantially complete to the satisfaction of the Public Works Director.
Department	Engineering Division
Status	Currently not in development.
Section	3.19.1.1
Title	Consent, Waiver and Special Benefit
Obligation	No residential building permit, excluding permits for model homes, or certificate of occupancy for non-residential uses, shall be issued until a Community Services District Public Services has been formed to include the Property ("Public Services CFD"). Landowner consents to and shall cooperate in such formation or other such financing mechanism for maintenance purposes and consent herewith to the levy of

	such special taxes as are necessary to fund the maintenance obligations described in Section 3.19.2. Formation of the Public Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53111, et seq. The Public Services CFD will fund maintenance of street frontage and median landscaping, open space and neighborhood parks.
Department	Building Division and Finance Department
Status	This services district has been formed
Section	3.19.2
Title	Public Services
Obligation	The Public Services CFD shall provide the funds required for the performance of maintenance, monitoring and reporting obligations and may include, but not limited to, the following: 3.19.2.1 Autumn leaf cleanup for collector and local streets; 3.19.2.2 Maintain neighborhood parks; 3.19.2.3 Maintain Paseos and Sidewalks along collector streets and primary residential streets, medians, and landscape corridors and all masonry walls; 3.19.2.4 Maintain bikeways, signs and benches 3.19.2.5 Maintain City and neighborhood entry features within the property, public right of way and ancillary landscaping; 3.19.2.6 Conduct the environmental mitigation monitoring; 3.19.2.7 Conduct all monitoring, reporting and adaptive management for open space preserve areas; 3.19.2.8 Maintain all water quality structural controls, storm management facilities within RoW's and open spaces; 3.19.2.9 Maintain flood control and drainage facilities including storm water channels, storm water pump stations, detention basins and created wetlands; 3.19.2.10 Maintain open space including general mtc, signage and city owned fenced mtc, and trash and debris collection; 3.19.2.11 Maintain fire breaks within open space areas; 3.19.2.12 Maintain replacement reserve fund for repair and replacement of entry features, signage, lighting, and other special features including park features and structures; 3.19.2.13 Maintain bus shelters, bus stops, the park and ride lot and bus signs; 3.19.2.14 Maintain the NAPOTS area referenced in section 3.3.1
Department	Alternative Transportation; Parks
Status	District formed. Ongoing obligation to be collected with the levy of the parcels.
Section	3.19.3
Title	Public Parcel Exclusion
Obligation	Landowner expressly agrees that Parcels conveyed or to be conveyed to the City, Roseville City School District or Roseville Joint Union High School District shall be excluded from any assessment imposed by the Public Services CFD.
Department	Finance Department
Status	Currently not in development.
Section	3.20.1.1
Title	Consent, Waiver and Special Benefit
Obligation	No residential building permit, excluding permits for model homes, shall be issued until a Community Facilities District - Municipal Services (Municipal Services CFD) has been formed or annexed to the City's existing Municipal Services CFD. Landowner consents to and shall cooperate in such formation or other such financing mechanism for services purposes and consent herewith to the levy of such special

	taxes as are necessary to fund the maintenance obligations described in Section 3.20.2. Formation of the Municipal Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53311, et seq.
Department	Finance Department and Building Division
	Obligation complete, Annexed into CFD.
Section	3.20.2
Title	Municipal Services
Obligation	The Municipal Services CFD shall provide the funds required to offset the Project's impact on City general fund resources available to pay for municipal services citywide, including the Project. The funds shall be utilized for general fund purposes.
Department	Finance Department
Status	Obligation complete, Annexed into CFD and will be levied as parcels develop.
Section	3.20.3
Title	Public Parcel Exclusion
Obligation	Landowner expressly agrees that Parcels conveyed or to be conveyed to the City, Roseville City School District or Roseville Joint Union High School District shall be excluded from any assessment, imposed by the Services CFD.
Department	Finance Department
Status	Currently not in development.
Section	3.21
Title	Encroachment Permits, Landscape Maintenance Easements
Obligation	Landowner and City agree to grant encroachment permit(s) or maintenance easements for all Services CFD' s to Landowner or City oi their agents, employees, successors, assigns, agents and employees, for the purpose of entry into the landscape easement and setback areas or City property (including streets and rights-of-way) to perform the maintenance obligations described herein.
Department	Finance Department
Status	Currently not in development.
Section	3.22
Title	Grading Permit
Obligation	Prior to the onset of any construction activities, the Landowner shall apply for and obtain a grading permit from the City. All plans shall meet or exceed the intent of the then approved City Standards, the State Water Quality Control Board SWP3 requirements, and the State General Construction Permit. It is the Landowners responsibility to meet all criteria of any outside agency for grading adjacent to or within the Open Spaces.
Department	Engineering Division
Status	Currently not in development.
Section	3.22.1
Title	Contour Grading Plan
Obligation	Landowner shall submit a contour grading plan (the "Preliminary Contour Grading Plan") for City review and acceptance for the overall Project concurrently with the application for the first residential small lot tentative subdivision map in the Project. The Preliminary Contour Grading Plan shall serve as an information tool to

	demonstrate how the overall earth work for the Project will balance and coincide with future improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.23
Title	Fire Station Site
Obligation	City and Landowner acknowledge that City is responsible for funding, construction, and operation of fire facilities necessary to serve the ARSP. Landowner shall dedicate to City a 3.02 acre site (AR54) for use as a, fire station (the "Fire Station Site") at the location shown in the ARSP and as shown in Exhibit "E" attached hereto. The net buildable area (i.e., an area of land which may be fully and completely utilized for structures and other improvements) shall be no less than 3.0 acres.
Department	Finance and Fire Department
Status	Ongoing Obligation
Section	3.24
Title	Disclosures to Subsequent Purchasers
Obligation	This Agreement shall constitute notice to all successors to Landowner hereunder, and to all subsequent purchasers of any lots and/ or residential units within the Property, of the following matters: Refer to DA for requirements (page 69).
Department	Landowners
Status	Developer's responsibility.
Section	3.25
Title	General Signage
Obligation	A) Utility Sites (see Section 3.14.5): Landowner shall install signage at all future utility sites (including, but not limited to; the well, sewer lift stations, pumping stations, aquifer storage and recovery facilities, and public facility sites describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The Environmental Utilities Director, City Engineer, and Electric Director, as appropriate, must review and approve sign layouts prior to installation/ construction of any utility sites. The City Manager or his/her designee must review and approve sign layouts prior to installation/ construction of any public facilities. B) Affordable Housing: Landowner shall install signage at future affordable rental housing sites (excluding carriage units) describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The City Manager or his/her designee must review and approve sign layouts prior to installation by Landowner.
Department	Landowner and appropriate departments
Status	Currently not in development. No electric sites in ARSP.
Section	3.26
Title	Masonry Walls
Obligation	Landowner agrees to construct masonry walls, a minimum of 6-feet high, between the future Placer Parkway right-of-way (the NAPOTS Area) where Low Density Residential land uses about the future Placer Parkway right-of-way, and prior to the occupancy of such residential land uses.
Department	Engineering Division and Landowner
Status	Currently not in development.

**Creekview Specific Plan
Development Agreement Implementation Matrix**

Development Agreement Obligations <u>Complete</u> as of December 2023	
Section	2.7.1
Title	404 Permit
Obligation	Developer to obtain from the US Army Corps of Engineers a Clean Water Act section 404 permit. Developer to pursue and obtain issuance of the 404 permit and any amendment, modification or supplement in order to implement the project. This includes mitigation for the segment of Westbrook Blvd between PCL C-51 and C-52 and any required offsite improvements for proposed Pleasant Grove Creek bypass channel improvement located within AJWA and the Blue Oaks Blvd bridge over Coyote Creek. Developer intends to phase mitigation required by the approved 404 permit to coincide with phase of development, no later than the recordation of the first small lot map north of Holt Pkwy/Benchmark Drive, secure mitigation for segment of Westbrook Blvd. between PCL C-51 and C52.
Department	Engineering / Environmental Coordinator
Status	Obligation Complete - 404 permit - January 25, 2016.
Section	2.9
Title	Real property interest acquisition – eminent domain
Obligation	As easement in favor of the Wagner parcel provides a route which the Wagner parcel is entitled to construct and gain access to Phillip Road. Development of the CSP will result in an alternative point of access for the Wagner Parcel to the public road system and the extension of Blue Oaks Bl. Construction of this alternative point of access is necessary for the construction of certain public improvements as required pursuant to this agreement. If developer is unable to acquire easement, City shall negotiate for the acquisition and extinguishment of the easement, using City's approved appraisal of fair market value, and if necessary use its power of eminent domain. Developer to pay all costs associated with acquisition and condemnation proceedings. Developer shall be required for any proposed settlement by City greater than 5% over the approved appraisal of fair market value.
Department	Engineering and Planning Divisions
Status	Obligation Complete
Section	3.5.13
Title	Transit Master Plan Funding
Obligation	Developer shall pay a portion for the update of the City's Long Range Transit Master Plan, Short Range Transit Plan Update, and Bicycle Master Plan Update, the amounts of \$7,000, \$6,000, and \$7,000 respectively, prior to the recordation of the first Large Lot Final Map. Total amount \$20,000.00 prior to the recordation of the first large lot final map
Department	Alternative Transportation and Engineering Division
Status	Obligation Complete - (Alt Trans)
Section	3.6.6
Title	Wastewater Service Area Boundary
Obligation	Developer shall be responsible for all costs associated with obtaining approval from the South Placer Wastewater Authority ("SPWA") for expansion of the existing wastewater service area boundary to include the Plan Area. No building permits will be issued in the Project until Developer has received notice that the SPWA service area boundary has been expanded to include the Project.
Department	Environmental Utilities
Status	Obligation Complete –Service boundary was expanded to include CSP on Jan. 7,

Creekview Specific Plan Development Agreement Implementation Matrix

	2019.
Section	3.8.1
Title	Water Study
Obligation	Developer prepared a water study for its on-site water facilities and prepared a general design of the water system that identifies the size and location of water lines. Timing of facility construction is set in the infrastructure schedule.
Department	Environmental Utilities
Status	Obligation Complete
Section	3.13
Title	School Fee Agreements
Obligation	Landowner and Developer have entered or will enter into separate written agreements with the Roseville City School District, and the Roseville Joint Union High School District prior to any subdivision map approval or issuance of any building permit , to mitigate the impacts of development of the Property on said Districts. Such agreements outline the timing and delivery of school sites and the timing and obligation for school construction. With the execution thereof, City agrees that so long as Landowner and Developer are not in default of said agreements, City shall process and approve any subdivision maps or other such entitlements for the Property and issue any building permits for development thereof consistent with the Entitlements. Landowner and Developer agree that a default under any of these school agreements shall also constitute a default under this Agreement.
Department	Building Division
Status	Obligation Complete – Agreements with RCSD Nov. 7, 2019 and RJUHS July 25, 2019
Section	3.14.10
Title	Orthophotography of Plan Area and GIS Support
Obligation	Developer agrees to pay its fair share of cost of orthophotography of the Plan Area The total cost for the Plan Area is \$1,261.00. The above payment shall be due within ten (10) days after the first Large Lot Final Map approval for the CSP.
Department	IT Department and Engineering Division
Status	Obligation Complete
Section	3.3.1
Title	Recordation of Large Lot Maps
Obligation	One large lot tentative map (LLM) shall be prepared for the entire Plan area, which will identify the phases as shown on Exhibit G. All future right of ways for arterial and collector roadways including landscaped corridors adjacent to low and medium density residential properties, open spaces, and future public lands for the electrical sub-station, well site, sewer lift station, solid waste recycling site and parks shall be identified. These lands shall be dedicated to the city of each large lot final map as an IOD. 1st recordation of the large lot final map, developer shall dedicate to City separate IOD's for future right of ways to include all landscape corridors adjacent to low density residential and medium density residential parcels, an access and construction easement the width of the ultimate road right of way plus 25' or to the back of the landscape corridor along the full length of Westbrook bl. and Blue Oaks bl. IOD's shall remain in force until such time as all Developer obligation or public improvements and preserve area establishment phase monitoring is complete.
Department	Engineering Division

Creekview Specific Plan Development Agreement Implementation Matrix

Status	Obligation Complete
Section	3.5.4.1
Title	Timing of Dedication and Construction of Road Improvements
Obligation	Right of ways for the arterial and collector roadways shall be dedicated as IOD's to the City with the recordation of the large lot map for each phase. All other dedications of roadways to the City shall be made with subsequent final small lot subdivision maps and City acceptance of completed improvements.
Department	Public Works Engineering
Status	Obligation Complete
Section	3.9.3
Title	Recycled Water Engineering Report
Obligation	Developer shall prepare a Title 22 Recycled Water Engineering Report for submittal to and review by the State Regional Water Quality Control Board and State Department of Public Health documenting the use of recycled water in the CSP. Prior to submittal to the State Water Quality Control Board, Developer shall obtain approval of the City's Environmental Utilities Director. Recycled water shall not be provided for use within the project until the Title 22 Recycled Water Engineering Report has received all required State approvals.
Department	Environmental Utilities
Status	Obligation Complete
Section	3.12.2.2
Title	Maintenance District Financing
Obligation	Pursuant to Section 3.19 below, Developer shall support the formation of the Community Facilities District -Public Services District ("Services CFD") defined therein. Among other things, the Services CFD shall be authorized to levy special taxes or assessments on the Property and to provide maintenance of the parks, streetscapes and paseos.
Department	Parks Department
Status	Formed – Obligation complete
Section	3.17.1.3
Title	Community Facility District Formation – Project Infrastructure
Obligation	Concurrent with any formation of a CFD, Developer and City shall enter into a shortfall agreement as defined in the Funding, Construction, and Acquisition Agreement, in form and substance acceptable to City, whereby Developer shall covenant to finance its fair share of the costs of the CFD Eligible Improvements, to the extent that the bonds issued by the CFD do not provide sufficient funding for the completion of such Improvements, subject to reimbursement/acquisition by pay-as-you-go proceeds, to the extent available.
Department	Finance Department
Status	Obligation Complete
Section	3.19
Title	Community Facilities District – Public Services
Obligation	3.19.1-CFD Formation. 3.19.1.1-Consent, Waiver, and Special Benefit No residential building permit, excluding permits for model homes, or certificate of occupancy for non-residential uses, shall be issued until a Community Facilities District - Public Services has been formed to include the Property ("Public Services CFD"). Developer consents to and shall cooperate in such formation or other such financing mechanism for maintenance purposes and consent herewith to the levy of such special taxes as are necessary to fund the maintenance obligations described in Section 3.19.2.

Creekview Specific Plan Development Agreement Implementation Matrix

	Formation of the Public Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53311, et seq. The Public Services CFD will fund maintenance of landscaping, open space and neighborhood parks in accordance with the requirements established by the financing plan. The rate and method for the Public Services CFD shall reflect differential tax rates between low density residential, medium density residential, high density residential, and non-residential land uses.
Department	Finance and Building Division
Status	Obligation Complete. District Formed
Section	3.20
Title	Community Facilities District – Municipal Services
Obligation	3.20.1 - CFD Formation – Municipal Services 3.20.1.1 – Consent, Waiver and Special Benefit No residential building permit, excluding permits for model homes, shall be issued until a Community Facilities District –Municipal Services ("Municipal Services CFD") has been formed or annexed to the City's existing Municipal Services CFD. Developer consents to and shall cooperate in such formation or other such financing mechanism for services purposes and consent herewith to the levy of such special taxes as are necessary to fund the maintenance obligations described in Section 3.20.2. Formation of the Municipal Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53311, et seq. The initial amount of the maximum special tax shall be in accordance with the Municipal Services District Rate, Method, and Apportionment ("RMA"), and adjusted annually for inflation. The initial amount of the maximum special tax (for the 2010/11City fiscal year, and as subsequently adjusted annually) shall be \$356 for LDR units,\$208 for MDR units, \$104 for HDR units, \$833 per acre for commercial/business professional land uses, and \$969 per acre for commercial land uses. City shall initiate the necessary steps to revise the RMA in the City's existing Municipal Services CFD to conform to the above-referenced initial amounts of maximum special taxes.

Title	Affordable Housing Amendment #2 – Ord. #6394
Obligation	Consistent with the goals and policies contained in City's General Plan and the Specific Plan, and subject to the provisions by Developer of affordable housing elsewhere within the Specific Plan as described below and the other terms of this Agreement, Developer shall develop or cause ten percent (10%) of the total residential units which are actually constructed within the Property to be developed as affordable housing. In accordance with the terms of this Section and subject to adjustment based on actual development, Developer shall provide 201 units affordable to very low and low-income households. The breakdown of percentage of the total number of affordable units to the different income levels shall be 50% for very low and 50% for low-income households. Any adjustment based on actual development shall be subject to the approval of the City Manager or his/her designee. The term "very low income" means households earning 50% or less of median income and "low income" means households earning 50% to 80% of median income, as published annually by the U.S. Department of Housing and Urban Development ("HUD"). Income eligibility and asset verification and calculation guidelines shall be determined in accordance with the HUD Handbook 4350.3 Chapter 5. Qualifying rents for affordable rental residential units may be calculated at the upper range of the specified income levels, if no City subsidy is provided or other restrictions are placed on the properties due to the type of financing secured by the ultimate developer of the parcel. Unless a City subsidy is provided, as set forth in Section 2.6.2.4 below, or other restrictions are placed on the parcel due to the type of financing secured by the ultimate developer of the parcel, qualifying rents for affordable rental residential units shall be based on the upper limit of specified income levels. However, subject to the requirements of Section 2.6.2.4 below, based on the amount and types of subsidies necessary to develop affordable housing, the qualifying rents may be calculated based on a mid-range or the lower end of the income ranges cited herein. Locations of affordable housing sites are shown in the Specific Plan and Exhibit "F"/

Department	Housing Department
Status	Ongoing obligation
Section	2.6.2.3
Title	Transfer/Satisfaction of Obligation Amendment #1 – Ord. #6151
Obligation	At the request of Landowner and Developer, the affordable rental housing obligation (or any portion thereof), including any excess affordable rental units committed to by Developer above its allocated affordable rental housing obligation hereunder, may be transferred, with the consent of the City Manager or his/her designee, from one parcel to another parcel within the Specific Plan, subject to the approval of the owner(s) of both the transferring and receiving parcels. No such transfer shall require an amendment to this Agreement, but City and Developer and the owner(s) of the affected parcels shall execute an instrument memorializing such transfer of obligation that shall be recorded against the affected parcels, with reference to this Agreement.
Department	Planning and Housing
Status	Ongoing obligation
Section	2.6.2.5
Title	Community Facilities Districts
Obligation	City will maintain a list of low and very low income affordable rental units pursuant to the affordable housing agreement, on or about May 1 of each calendar year, if and when a Community Facilities District is formed encompassing the property, set the applicable tax for the middle income affordable purchase units within each parcel.
Department	Housing and Finance
Status	Currently not in development
Section	2.6.3
Title	Not a Limitation Amendment #2 – Ord. #6394
Obligation	Nothing in the foregoing Section 2.6.2 shall be construed to limit Developer from offering units for rental to households of very low or low incomes in excess of the number of units specified."
Department	Housing
Status	Ongoing obligation
Section	2.6.4
Title	In-Lieu Fee – Affordable Housing Amendment #2 – Ord. #6394
Obligation	In the event City adopts a fee to be paid in lieu of constructing rental housing affordable to low or very low-income households, Developer shall be eligible to pay such in lieu fee rather than construct affordable housing units on the Property."
Department	Housing
Status	Ongoing obligation
Section	2.7.1.1
Title	Violations
Obligation	Developer responsible for any violations occurring from the 404 permitting process until acceptance by City. City shall be responsible for the normal operation and maintenance of dedicated areas.
Department	Engineering Division
Status	Ongoing obligation
Section	2.7.3
Title	Maintenance by Developer during the establishment monitoring phase
Obligation	Developer solely responsible for satisfying all mitigation, monitoring, reporting and maintenance required for the on-site preserve area; including, development of any 404 permits required establishment monitoring phase.

Creekview Specific Plan Development Agreement Implementation Matrix

	Funds collected by the public services CFD or other financing mechanism for the purpose of maintenance of preserve areas will be made available to developer for ongoing maintenance, monitoring and reporting until such times as City assumes the obligation for perpetual monitoring for the preserve areas.
Department	Engineering Division/ Environmental Coordinator
Status	Ongoing obligation
Section	2.7.4
Title	Maintenance by City during the perpetual monitoring phase
Obligation	A PAR analysis shall be prepared and approved by the City to determine the amount of funding required to manage preserve areas during the perpetual monitoring phase. Public services CFD will provide annual funding.
Department	Finance and Engineering / Environmental Coordinator
Status	Ongoing obligation
Section	2.7.5
Title	Facilities included in 404 permit(s)
Obligation	Developer to ensure that the approval of the 404 permit includes development of the access ways, bike paths, fuel modification areas, water quality structures and drainage and flood control facilities, bridges (foot, bike, road), culverts, and ancillary improvements described in the specific plan and DA.
Department	Planning, Engineering / Environmental Coordinator
Status	Ongoing Obligation (Engineering)
Section	2.7.6
Title	Preserve Area operation and management plans
Obligation	Establish monitoring period as determined by the Army Corps, City will assume preserve management responsibilities for the perpetual monitoring phase consistent with the approved open space preserve overarching plan. Upon first large lot final map, developer pays \$20,000 onetime fee , in exchange for monitoring and reporting. Payment due upon preserve area dedication/initiation of the perpetual monitoring phase.
Department	Parks / Environmental Coordinator
Status	Ongoing obligation - \$20,000 due
Section	2.8
Title	Obligation to developer Amendment #1 – Ord #6151
Obligation	By entering into this Agreement, Developer shall not be obligated to develop all or any portion of the property, except for: 1. Support and to pay costs incurred by the City in conjunction with the annexation of the property. 2. Dedicate temporary and permanent rights of way and public utility easements. 3. Indemnification obligations under article 6. 4. Obligation to pay costs incurred by the City in conjunction with processing sub-phases under section 3.3. 5. Any other obligation imposed on developer prior to development set forth in this agreement. Deemed actions of development of the property include any discretionary or non-discretionary permit, entitlement with the exception of the large lot tentative map.
Department	Planning and Engineering Division
Status	Ongoing obligation
Section	3.1
Title	Development, Connection and Mitigation Fees

Creekview Specific Plan Development Agreement Implementation Matrix

Obligation	Required payments of development, connection or mitigation fees by developer shall be made at the time and amount specified by City ordinances.
Department	All development departments
Status	Ongoing obligation - Pay at time of applied applications or issuance.
Section	3.2
Title	Public improvements to be dedicated, constructed or financed by developer Amendment #1 – Ord. #6151
Obligation	In conjunction with each phased Final Map, or as otherwise required by this Agreement, Developer agrees to dedicate, construct or acquire the improvements or facilities and to perform the obligations set forth in this Section 3, at its expense, subject only to reimbursements or credits specified in this Agreement. Prior to dedication of sites to City, Developer shall obtain and fulfill the terms of any state and federal permits needed for anticipated development (e.g., CoE 404 Permit(s), CDFG 1600 Streambed Alteration Agreements, RWQCB General Construction Permit as needed) and complete said development if said development is a Developer responsibility under this Agreement. At the time of City acceptance of any land dedications, the land shall be free and clear of environmental or other constraints or encumbrances (the "Encumbrances") inconsistent with the intended use of the Property (e.g., all wetlands shall be filled in accordance with applicable 404 Permits), unless expressly waived by the City. In the event, however, that the land dedication by Developer is triggered by the proposed construction by a third party of a public improvement (including the electric substation site (parcel C-81 identified in Section 3.11.3) identified in this Agreement, such third party shall assume the obligation to assure that, at the time of City acceptance, the land dedicated is free and clear of all Encumbrances, unless expressly waived by the City. Developer agrees to cooperate with such third parties to use its best commercially reasonable efforts under the circumstances to remove all Encumbrances, subject to lender or mortgagee consent, as may be required. Such cooperation by Developer shall be at the sole cost to the third party requesting removal of the Encumbrances prior to dedication. Title shall be conveyed to City in fee simple and without restriction or limitation on use(s), unless approved otherwise by the City Attorney. Signage shall be installed in accordance with Section 3.24. With respect to the wetland obligation referenced in Section 2.7.1 above, the third party shall assume the obligation to remove such wetland environmental constraint on the Property to be dedicated to the City triggered by the third party's construction of the public improvement(s).
Department	Planning and Engineering Division
Status	Ongoing obligation
Section	3.3
Title	Project phasing Amendment #1 – Ord. #6151
Obligation	It is anticipated that there will be a single master developer of the CSP. Developer, or its successor(s) in interest, as master developer of the CSP, shall develop and construct the infrastructure necessary to serve the Project in Phases A through F substantially consistent with the Phasing Plan set forth in Exhibit "G" attached hereto. Grading and infrastructure may be constructed in sub-phases as approved at the discretion of the City, in consultation with all affected City departments. City and Developer intend for the CSP to be mass graded in the multiple phases, with substantial volumes of earthen material moved from north of to south of

Creekview Specific Plan Development Agreement Implementation Matrix

	Pleasant Grove Creek. Such mass grading is necessary to balance the material within the CSP and to avoid import or export of fill material (see Section 3.22). In the event that the conceptual phases as shown in Exhibit "G" are proposed, or are modified or altered, or that smaller "sub-phases" are proposed within the identified Phases A thru F, the following criteria will be used to establish the conditions and requirements for that portion of work: • The progression of sub-phase development shall provide the necessary facilities to support the land uses within the proposed sub-phase of development. • The phase size shall be as mutually agreed upon by Developer and City, subject to the criteria set forth in this Section 3.3. • Developer will provide detailed information (maps, analysis, written detail of improvements, etc.), to the satisfaction of City, to support the proposed sub-phase improvements for each utility/public service within the phase. • Prior to the approval of development of any parcel, the cumulative effect of that increment of development shall be evaluated to determine its impact on existing systems. This may require, as determined by City, that special studies be conducted to demonstrate how the sub-phase is in substantial conformance with infrastructure master plans prepared for the Specific Plan. The sub-phase shall demonstrate to the City's satisfaction that the following performance criteria are met: • Sanitary Sewer - One point of connection to sewer outfall is required, which may include a sanitary sewer lift station or interim lift station. • Recycled Water- One point of connection required. A looped system is not required. Potable water may be utilized on an interim basis until and including the issuance of the 923rd building permit within the CSP or such later time as the Environmental Utilities Director makes a determination that potable water service can no longer be allowed. At that point in time, the system shall be switched over to recycled water by eliminating each potable water charging station and connecting to the West Roseville Specific Plan recycled water system, as described in Section 3.9 herein (Recycled Water Facilities). At the time that a water charging station is abandoned, a fire hydrant shall be installed to separate the potable water and recycled water systems. Three temporary potable water charging station connections to the recycled water system shall be allowed among phases A-F. The connection of the recycled water pipe to the potable water pipe shall consist of one gate valve and one backflow prevention device between the connections. The charging stations may be relocated within a phase or to another phase and multiple sub-phases can share a single
--	---

Creekview Specific Plan Development Agreement Implementation Matrix

	station. Recycled water pipe lines shall be constructed concurrent with roadway construction and paving within a phase or sub-phase. Additional temporary potable water charging station connections to the recycled water system may be utilized subject to the approval of the Environmental Utilities Director. • Potable Water -Two independent points of connection required. • Roadway- Two points of access required (one may be a temporary EVA) and reasonable traffic circulation. • Grading - A substantial earthwork effort is required for the CSP and to provide adequate freeboard protection from the 100-year flood elevations of both Pleasant Grove and University Creeks. Bulk earth movement and mass grading of the site is required to establish final grades. Sub-phasing plans will be required to demonstrate, through a detailed mass grading plan, that all sites (whether cut or fill) will be able to be constructed over time with an effort to minimize use of retaining walls. Haul roads, stock pile sites and adequate drainage facilities shall be identified on the grading plans. • Storm Water Detention-Any sub-phase shall demonstrate that adequate storm water detention is provided. Additional studies will determine when the in-stream detention facility identified in the master drainage plan will be required. • Pleasant Grove Creek Bypass Channel - Prior to development of any sub-phase within either Phases A or C, as shown on Exhibit "G", the bypass channel shall be constructed. • Stormwater Management - Any sub-phase shall demonstrate that adequate storm water management is provided. • Electric - Any sub-phase shall be consistent with Section 3.11.3 of this Agreement. Developer acknowledges that modifications to the Phasing Plan as shown in Exhibit "G" shall require additional City review. Special studies including but not limited to, water/recycled water/sewer/storm water systems, grading, traffic, fire response, electric supply, and other environmental review may be required. Developer will be responsible for all costs associated with the preparation of special studies, and for the associated costs of time and materials of City Staff for the review and processing of the requested deviation as deemed necessary by City.
Department	All development departments
Status	Phasing has been reviewed for Tentative Subdivision Maps and is ongoing
Section	3.4
Title	Public Utilities within right of way
Obligation	All public utilities shall be located within the right of ways to be granted by developer to City for the arterials, collectors and other local streets within the property.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5
Title	Road Improvements

Creekview Specific Plan Development Agreement Implementation Matrix

Obligation	Developer responsible for road improvements set forth in this agreement, the phasing plan provided in 3.3
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.1
Title	Developer's Obligations
Obligation	Developers obligation for residential and collector roadway improvements shall consist of the construction of curb, gutter, sidewalk, utilities, streetlights, striping, all necessary drainage improvement and pavement section.
Department	Engineering and Public Works Division
Status	Ongoing obligation
Section	3.5.2
Title	Arterial Roadways Amendment #1 – Ord. #6151
Obligation	Developer shall grant easements and dedicate all IOD's for all arterial roadways. The improvements required for each arterial are described in the phasing plans. City shall establish a traffic mitigation fee set-aside fund dedicated to CIP improvements within the plan area that are in excess of required frontage improvements by withholding 60% of TMF or City TMF fund revenues paid by Developer. Payments to Developer for CIP improvements shall be on a first completed, first paid basis and shall be distributed from the TMF set aside fund as improvements are constructed and invoiced pursuant to the funding, construction and acquisition agreement and shall be in no particular order of priority with the exception of Blue Oaks bl CIP improvements. Within 30 days of city acceptance of improvement plans, City and Developer shall enter into a funding, construction and acquisition agreement to provide for periodic progress payments to Developer, based upon invoices for actual work constructed, for stages of the arterial roadways improvements that have been signed off by City inspectors. <u>Developer Specific Construction obligations:</u> Blue Oaks Bl - planned 6 lane arterial. Developer shall construct the northerly half of Blue Oaks bl from the western boundary of the urban reserve parcel to the western boundary. City shall pay Developer out of the TMF set aside fund for the cost of the additional 2 inside lanes, if funds are insufficient, City will make payment to the extent funds are available, then provide up to 60% credit against the TMF applied to building permits for all dwelling unit equivalents up to the amount of the payments due to Developer. <i>Developer may exchange their responsibility to construct their portion of the median curbing and landscaping improvements for the construction of an equivalent portion of the CIP reimbursable pavement.</i> Westbrook Bl – Developer obligated to construct both outside frontage improvements and additional necessary transition lanes to Pleasant Grove Creek crossing, as well as the CIP reimbursable adjacent inside lane on each side of Westbrook bl from Blue Oaks bl to the southern boundary of PCL C-51 and C-52. The improvements shall include the construction of three lanes of the Pleasant Grove Creek crossing and the necessary transitions from the 6 lane arterial to the three lane crossing. Landscaping shall be installed in those areas of the remaining median outside of the transition lanes which are not eligible for reimbursement. The funding, construction and acquisition shall identify the cost difference between Developer's obligation to landscaping and median curbing and the internal CIP travel

Creekview Specific Plan Development Agreement Implementation Matrix

	lanes as the reimbursable credits. City shall pay Developer out of the TMF set aside fund for the cost of the additional 2 inside lanes, if funds are insufficient, City will make payment to the extent funds are available, then provide up to 60% credit against the TMF applied to building permits for all dwelling unit equivalents up to the amount of the payments due to Developer. <i>The CIP reimbursable adjacent inside lanes and median landscaping for Westbrook Boulevard from Blue Oaks Boulevard to the Pleasant Grove Creek crossing may be deferred, at the discretion of the City Engineer, until the first building permit is issued in Phase C, as shown in Exhibit G.</i> <u>Westbrook BL between PCL C-51 and C-52</u> – Developer shall be responsible for the cost of frontage improvements, including landscaping and post and cable fencing. Westbrook though open space shall be constructed by City or third party at such time that extension of Westbrook BL north of plan area is required to provide adequate circulation. Improvements by third party, city shall reimburse third parties with funds from the City's CIP. Developer agrees to reduce reimbursement owed by benefitted third party by the actual costs of the frontage improvements. In addition, Developer shall allocate the cost of its frontage improvements as a credit against the reimbursement obligation of third parties to Developer for Developer's construction and oversizing of improvements. If Developer's cost obligation exceeds the reimbursement obligation of third parties to Developer, Developer shall be obligated to pay the difference to the City. That amount owed to the City by Developer shall be made part of the TMF to be collected for all remaining units.
Department	Engineering Division and Public Works
Status	Ongoing obligation
Section	3.5.3
Title	Collector Streets Amendment # 2 – Ord. #6394
Obligation	Provide access to the property, Developer shall construct curb, gutter, pavement, streetlights, utilities, and ancillary improvements related. Collector roadways in the Specific Plan are Holt Parkway, Benchmark Drive and Lower Bank Drive.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.3.1
Title	Bus Transfer Station Amendment #1 – Ord. #6151
Obligation	The design and location of the bus transfer station on the west side of parcel C-70 and east side of parcel C-24 shall be determined with the Design Review Permit or the Major Projects Permits for those parcels (or another Major Project Permit for the parcels). The bus transfer station shall include bus turnouts, shelters and bike lockers to accommodate the bus transfer requirements as determined by the City at time of approve of any project permit for PCL C-70. Developer shall maintain the bus transfer station with reimbursement from the Public Services CFD.
Department	Alternative Transportation
Status	Ongoing obligation - no permits submitted yet for parcel C-70 and C-24

Title	Timing of Dedication and Construction of Road Improvements

Creekview Specific Plan Development Agreement Implementation Matrix

Obligation	Prior to the recordation of a small lot residential subdivision map, Developer shall provide adequate assurances to City either in the form of subdivision improvement bonds, issuance and sale of bonds by the CFD or other manner acceptable to the City that adequate funds are available to finance the completion of all improvements to arterial roadways, and collector streets to serve the portion of the property which is the subject of the small lot residential subdivision map. Developer shall not be required to post security for the portion of the work associated with road CIP improvements.
Department	Public Works and Engineering
Status	Ongoing obligation
Section	3.5.5
Title	Road Improvement Standards
Obligation	All improvements to be installed by Developer shall comply with the City's development standards for public streets in effect as of the date of improvement plan approval unless modifications are otherwise mutually agreed to by Developer and the Public Works Director. The rights-of-way required for such road improvements shall be as set forth in the Specific Plan, or, if not shown in the Specific Plan, then as set forth in the City's Improvement Standards.
Department	Public Works and Engineering
Status	Ongoing obligation
Section	3.5.6
Title	Landscape Setbacks
Obligation	For the roadways within and/or adjacent to the Property, Developer shall establish the applicable landscape setbacks provided therefor by the Specific Plan and/or Design Guidelines. Such setbacks shall be measured generally from back of curb, except bus turnouts, auxiliary lanes, turn flares, decal lanes, and tapers may encroach into the landscape setback to the extent permitted by the Specific Plan Design Guidelines. Such landscape setbacks shall be limited to landscaping, streetlights, utilities, sidewalks, walls and related uses, and shall be included in the road rights-of-way, adjacent to single family residential parcels. Such setbacks shall not be included within rights-of-way adjacent to multi-family residential and nonresidential uses as set forth in the Specific Plan.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.6.1
Title	Separated Sidewalks
Obligation	Developer shall ensure that if a residential property is improved with separated sidewalks, the residential property shall be subject to recorded CC&Rs containing a requirement that the owner of a residential unit immediately adjacent to a separated sidewalk is responsible for the maintenance of all landscaping within the landscape planter, including, street trees located between the separated sidewalk and curb, except where a Homeowners Association maintains the landscaping within the landscape planter.
Department	Planning and Engineering Division
Status	Ongoing obligation
Section	3.5.7
Title	Traffic Signals
Obligation	Developer responsible for the costs of construction traffic signals and described in the phasing plan through the payment of the traffic mitigation fees. Construction of the traffic signals, as may be required by the City at time of roadway construction, City shall make progress payments to Developer for the cost of construction of traffic signals from the City's TMF set-aside fund as defined in section 3.5.2. At minimum, at time of the roadways intersection construction, developer shall install underground conduit, loops, and poles for the signals. City shall install mast arms,

Creekview Specific Plan Development Agreement Implementation Matrix

	signals and signal controllers. If TMF set aside fund revenues are not available to fully pay developer for any improvements, city shall provide 60% credits to Developer against the TMF applied to building permits, however, once sufficient City revenues are available to fully pay developer, City shall pay Developer less the amount of any credits previously extended against the TMF applied to DUE's. Temporary signals installed with phase improvements on Blue Oaks BI or Westbrook BI in locations other than ultimate locations shall be the responsibility of developer and will not be eligible for credits toward City's TMF. In the case of temporary traffic signals, operational for a minimum of 10 years, the associated costs for the relocation and the costs for the construction of the ultimate signal shall be reimbursed to developer from the TMF set aside fund.
Department	Public Works department, Engineering and Building Division
Status	Ongoing obligation
Section	3.5.8
Title	Paseo Facilities
Obligation	Typical Developer obligations for collector road frontage improvements include a 25-foot wide landscape setback and a 5-foot wide pedestrian path on each side of the collector roadway. Within the Project; Developer shall construct paseos consistent with the Specific Plan and Design Guidelines. At the time of adjacent development, Developer shall construct the adjacent landscape/paseo corridor and 10-foot wide Class IA sidewalk. Depending on the phased development requirements, and to maintain the integrity' of the pedestrian connectivity within the Plan Area, temporary non-reimbursable and non-creditable 5-foot wide AC pedestrian path may be required by the City. The costs of paseos shall be financed by Developer.
Department	Parks Department
Status	Ongoing obligation
Section	3.5.9
Title	Update of City Fee Amendment #1 – Ord. #6151
Obligation	Developer agrees that the Property shall be subject to and shall pay the City Traffic Mitigation Fee ("TMF"). To the extent that the Traffic Mitigation Fee adopted for the CSP is higher than that charged in the West Roseville Specific Plan Area, Developer shall pay the difference as a surcharge to future TMF obligations on a per-DUE basis for the remaining DUEs within the CSP. To the extent that the TMF adopted for the CSP is lower than that charged in the West Roseville Specific Plan Area, Developer shall receive a credit against future TMF payments until such time as the amount of the overpayment is exhausted.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.10
Title	Highway 65 Joint Powers Authority
Obligation	Property shall be subject to and shall pay the Highway 65 Joint Powers Authority Fee. Developer shall pay the fee applicable to the West Roseville Specific Plan area (Interim HWY 65 JPA Fee) in the amounts and at the times specified by the Hwy 65 JPA fee program. If the Developer pays the interim Hwy 65 JPA fee and the interim HWY 65 JPA fee exceeds the Hwy 65 JPA fee as amended, then the excess amount collected shall be applied as a credit towards HWY 65 JPA fees on a per DUE basis for the remaining DUE's within the specific plan. If the interim HWY 65 JPA is less than the

Creekview Specific Plan Development Agreement Implementation Matrix

	amended HWY 65 JPA fee, the total amount of the shortfall shall be added as a surcharge to such future HWY 65 JPA fee on a per DUE basis.
Department	Engineering and Building Division
Status	Ongoing obligation
Section	3.5.11
Title	South Placer Regional Traffic Fee
Obligation	Property shall be subject to and pay the South Placer Regional Traffic (SPRTA) fee as established by the Placer County Transportation and Planning Agency (PCTPA) and adopted by the City. Developer agrees that until such time the SPRTA fee is amended to include the property, the fee applicable to the WRSP shall apply to the property and developer shall pay such fees (interim SPRTA fee) in the amounts and at the times specified by the SPRTA fee program. If developer pays the interim SPRTA fee and the interim SPRTA fee exceeds as amended, then the excess amount collected shall be applied as a credit towards SPRTA fees on a per DUE basis for the remaining DUE's. If the interim SPRTA fee is less than the amended SPRTA fee, the total amount of the shortfall shall be added as a surcharges to SPRTA fees on a per DUE basis.
Department	Engineering and Building Division
Status	Ongoing obligation
Section	3.5.12
Title	Tier II Traffic Fee
Obligation	The SPRTA Tier II Fees are administered by the Placer County Transportation Planning Agency ("PCTPA"). Developer acknowledges and agrees to pay the Tier II Traffic Fee, collected to pay for construction of the Placer Parkway and improvements to the I-80/SR65 interchange. The Tier II Traffic Fee program participants include the jurisdictions of Placer County, and the Cities of Roseville, Rocklin, and Lincoln. The current Tier II Traffic Fee is \$5,600 per DUE and will be allocated to the various land uses using a methodology approved by the SPRTA Board. The Tier II Fees shall be adjusted for inflation annually based on the Construction Cost Index ("CCI") shown in the Engineering and News Record in May of each year and based on the average of the 20 cities average and SF average.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.14
Title	City-County Fee
Obligation	Developer acknowledges that City and Placer County have adopted a funding mechanism (the "City-County Traffic Mitigation Fee") for improving certain roads in the vicinity of the CSP, including Baseline Road and Walerga Road. Developer agrees that the Property shall be subject to and pay the City-County Traffic Mitigation Fee.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.15
Title	Watt Avenue and Vista Grande Boulevard Extension Traffic Mitigation Fee
Obligation	If and when the City and Placer County develop fee programs to mitigate regional traffic concerns, Developer consents to and agrees that any then-undeveloped portion of the Property, for which no building perm.it has been issued, shall participate, to the extent of its fair share, in a city-wide funding mechanism. Such regional roadway extensions and improvements shall consist only of Watt Avenue between the Regional University Specific Plan and future Placer Parkway and Road B west of the Sierra Vista Specific Plan boundary to Baseline Road. Developer waives the right to protest the adoption of the fee. Nothing stated in this Subsection

Creekview Specific Plan Development Agreement Implementation Matrix

	3.5.15, however, shall prohibit Developer from commenting on or proposing alternatives to the methodology or appropriate spread of such a regional roadway fee.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.16
Title	Placer County Traffic Mitigation Fee
Obligation	Developer agrees to pay to City a fee of \$130 per DUE (the "Placer County Traffic Mitigation Fee") to provide fair share funding to Placer County as full mitigation of impacts on the Placer County roadway circulation system for roadways in the adopted County Capital Improvement Program at the date of approval of this Agreement that are north of Interstate 80, west of Highway 65, and outside of County approved specific plan areas (excluding Watt Avenue (Santucci Boulevard) and the extension of Vista Grande Boulevard as provided in Section 3.5.15 above). Once established, the Placer County Road Impact Fee shall be adjusted annually after the completion of annexation proceedings for the Specific Plan by the percentage of change in the CCI.
Department	Building and Engineering Division
Status	Ongoing obligation
Section	3.5.17
Title	Fee Credits/Reimbursed for Construction CIP Improvements
Obligation	Developer shall be entitled to credits against the City traffic mitigation fees for the cost of constructing roadway improvements that are included in City's roadway capital improvement program ("Roadway CIP") and identified in this Agreement, as more fully set forth in Sections 3.5.1 and 3.5.2 above and Section 4.2 below.
Department	Public Works and Engineering
Status	Ongoing obligation
Section	3.5.18
Title	Transportation Systems Management
Obligation	Developer to comply with the City's Transportation Systems Management Ordinance.
Department	Alternative Transportation
Status	Ongoing obligation
Section	3.5.19
Title	Alternative Transportation Marketing
Obligation	Developer to provide education and marketing materials for alternative modes of transportation to each new homeowner and the first resident of each attached housing unit.
Department	Alternative Transportation
Status	Ongoing obligation
Section	3.5.20
Title	Access to Adjacent Properties
Obligation	Developer to maintain accesses to adjacent Wagner property and Harris Property or another acceptable configuration that provides similar access. This includes routing over and across newly constructed roadways as part of the CSP. Physical all weather accesses shall be maintained during continuously during construction.
Department	Engineering
Status	Ongoing obligation
Section	3.6
Title	Sewer Facilities
Obligation	Developer shall construct on-site sewer facilities as described in this Section, the Phasing Plan, and as shown in Exhibit "N" or alternate design shown in Exhibit "O". In the event that the WRSP has not constructed sewer facilities necessary to serve

Creekview Specific Plan Development Agreement Implementation Matrix

	the CSP, Developer shall construct the necessary off-site sewer facilities (namely off-site sewer outfall lines in Westbrook Boulevard and in the unnamed access road north of parcel W-60 in the WRSP and the Pleasant Grove Wastewater Treatment Plant) and obtain reimbursement from the WRSP in accordance with Section 3.25. Developer shall be solely responsible for obtaining easements and rights-of-way located within the Specific Plan that are required for construction of such improvements. City shall provide Developer with any rights-of-entry needed to connect these improvements to the City's existing sewer system. Except for the improvements expressly described herein and as shown on Exhibit "N" or alternate design shown in Exhibit "O", Developer shall have no obligations to install or pay for the installation of any off site treatment facilities, except through the payment of sewer connection fees (local, regional and special benefit) levied and collected by the City at the time of development pursuant to City ordinances.
Department	Environmental Utilities and Engineering Division
Status	Ongoing obligation
Section	3.6.1
Title	Master Wastewater Plan
Obligation	Developer shall construct wastewater conveyance facilities to connect the project to Pleasant Grove Wastewater Treatment Plant. Facilities shall be installed concurrent with the construction of corresponding road improvements.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.2
Title	Improvement Standards
Obligation	All sanitary sewer improvements shall be designed and constructed to City's then current improvement standards. Subject to City's plan review, construction inspection and final approval. Developer shall pay current plan check, mapping and inspection costs.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.3
Title	Access to Manholes
Obligation	All manholes shall be located and accessible by City sewer maintenance vehicles. All manholes made watertight during construction. Where feasible, maintenance roads shall be combined with bikeways.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.4
Title	Public Utility Easements
Obligation	Wastewater improvements to be constructed by Developer are not located within road rights-of-way, as and when Developer installs such wastewater improvements, Developer shall grant and City shall accept a non-exclusive public utility easement for the ownership and maintenance of such lines, together with access thereto for maintenance purposes. Easement widths shall be granted in accordance with the City's Improvement Standards.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.5
Title	Wastewater Facilities for Reimbursement
Obligation	Subject to the provisions of Section 3.25 and 4.2 of this Agreement, Developer shall be entitled to reimbursement from third parties within and outside the Urban Reserve

Creekview Specific Plan Development Agreement Implementation Matrix

	whose property is benefited by Developer's construction of wastewater facilities required by City in which there exists capacity in excess of that required to serve the development of the Property (excluding any operational adjustments by City). Such reimbursement shall be pro rata, based on proportionate share of total flow as determined by the City (hereinafter "Flow in Pipe(s)") attributed to the Property and other property benefited by such construction. Specific wastewater facilities subject to reimbursement pursuant to this Section 3.6.5, Section 3.25 and Section 4.2 of this Agreement are shown in Exhibits "P" and "Q" and listed in Exhibit "KK". For properties outside of the Urban Reserve, Developer shall submit documentation to the City to justify the requested reimbursement.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.1
Title	Financing of Water Supply
Obligation	Developer has no obligation to install or pay for the installation of any off-site water storage, treatment or transmission facilities (other than transmission lines in Blue Oaks Blvd and West Park Dr.) Except through the payment of water connection fees. Fees Collected at time of development
Department	Environmental Utilities and Building
Status	Ongoing obligation
Section	3.7.2
Title	Groundwater Well Amendment #1 – Ord. #6151
Obligation	If applicable, Developer shall dedicate to City parcel C-84 for one (1) groundwater well at the approximate location shown on Exhibit "R". The City shall be responsible for the construction of a monitoring well for determining water production and quality and the topside improvements. Developer shall be responsible for drilling and completing the production well (but not above ground well improvements such as pumping and treatment facilities) as further described below ("Well Construction Requirements"). To facilitate the drilling of the monitoring well, Developer will provide City and its contractor's access to and within the well site to enable City to install the monitoring well to confirm desired capacity and water quality. It is the intent of this Section 3.7.2 (and the Parties) that the groundwater well location identified within the CSP be capable of achieving a yield of approximately 1,800 gallons per minute and the groundwater is of such quality that only disinfection will be required to meet California Drinking Water Quality Standards. Should the City determine the available capacity or water quality does not achieve these objectives, Developer shall, at its own cost, work with the City to relocate the well site within the CSP until these objectives are satisfied. The Developer shall contact the City Environmental Utilities Department prior to construction of the production well to obtain approval of the well design and drilling method prior to commencement of this work. The well shall be drilled prior to occupancy of any residential units within 500 feet of the well site. Developer shall include noise curtains for the well if, at the time of well construction, homes are occupied within 1000 feet of the well. Notwithstanding the foregoing, if the City adopts a revised water connection fee which encompasses the costs of the Well Construction Requirements, the Developer

Creekview Specific Plan Development Agreement Implementation Matrix

	shall be relieved of the Well Construction Requirements set forth in this Section 3.7.2.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.3
Title	Water Conservation Measures
Obligation	Developer and its successors shall implement a Water Conservation Plan. The Water Conservation Plan shall include compliance with the City's Water Efficient Landscape Ordinance and outline all water conservation measures being implemented within the CSP and measures to ensure water conservation objectives are achieved in perpetuity subject to approval of the Environmental Utilities Director prior to issuance of the first building permit. Such water conservation measures shall include, but are not limited to, Smart Timers, re-circulating hot water systems, and turf limitations, and shall be disclosed to each purchaser of real property within the Property. Modifications to the Water Conservation Plan as approved by the Environmental Utilities Director shall not require an amendment to this Agreement.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.7.4
Title	Water Conservation Goal Amendment #1 – Ord. #6151
Obligation	The City has determined that the available water supply is sufficient to serve all phases of the Project. This determination was the conclusion of a review of the demand and source issues created by the projected build-out of the Project based upon the various technical studies completed in connection with the environmental review of the Project. The demand for water at build-out of the Project was determined by reference to the City's current information on water usage by the various land uses included and permitted within the City and the proposed land uses within the Project and by reference to the Creekview Specific Plan Water Conservation Plan as shown in Exhibit "S", which includes a reduction in water use by 18.3% over business-as-usual factors. The sources for water evaluated for the Project are the same types of sources currently used throughout the City; namely, surface water contracts with federal and local agencies and the use of groundwater. City and Developer are satisfied, based upon detailed technical analysis, that the demand and source assumptions relied upon to assure water for the Project are valid.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.8.2
Title	Water Facilities
Obligation	Developer shall construct on-site water system facilities. In the event that the WRSP has not constructed water lines (namely water lines within Blue Oaks Boulevard and West Park Drive) necessary to serve the CSP, and it can be demonstrated through the City hydraulic model that the water lines within the WRSP are needed to supply water to the CSP consistent with City standards, Developer shall construct the necessary water lines and obtain reimbursement from the WRSP. All such facilities to be constructed by Developer, including mains, shall be designed and constructed pursuant to City's then current Improvement Standards, unless modifications are otherwise mutually agreed to by Developer and the Environmental Utilities Director, subject to City plan review, construction inspection and final approval. Developer shall pay then current plan check, mapping and inspection costs incurred

Creekview Specific Plan Development Agreement Implementation Matrix

	by City for review, mapping and inspection of such improvements. Developer will not be responsible for the construction of potable water reservoirs, water storage tanks, topside well improvements, water treatment facilities and pump stations except through the payment of city water connection fees and special benefit fees.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.8.3
Title	Water Facilities for Reimbursement
Obligation	Developer shall be entitled to reimbursement from third parties within and outside the Urban Reserve whose property is benefited by Developer's construction of water facilities required by City in which there exists capacity in excess of that required to serve the development of the Property. Such reimbursement shall be pro rata, based on Flow in Pipe(s) attributed to the Property and other property benefited by the construction. Specific water facilities subject to reimbursement pursuant to this Section 3.8.3, Section 3.25, Section 3.26 and Section 4.2 of this Agreement. For properties outside of the Urban Reserve, Developer shall submit documentation to the City to justify the requested reimbursement.
Department	Environmental Utilities
Status	Currently not in development
Section	3.8.4
Title	Water System Sequencing
Obligation	Water system facilities shall be constructed as provided in the phasing plan, concurrently with the construction of the road improvements. Extensions into the neighborhoods will be completed with their respective development. Water line extensions shall be sequenced to assure looped systems in all developing areas.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.8.5
Title	Public Utility Easements
Obligation	Where the water improvements to be constructed by Developer are not located within road rights-of-way, as and when Developer installs such water facilities, Developer shall grant and City shall accept a non-exclusive public utility easement the width of which shall be in accordance with City's then current Improvement Standards, for the ownership and maintenance of such lines, together with access thereto for maintenance purposes.
Department	Environmental Utilities and Engineering Division
Status	Ongoing obligation
Section	3.8.6
Title	Water Softeners
Obligation	Developer and its successors shall not provide water stub outs for the installation of water softeners.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.8.7
Title	Disclosure to Buyers
Obligation	Developer shall disclose to all residential and nonresidential buyers that the Property will be served by-both surface water and groundwater supplies and that variations in the appearance, taste and color of water may be noticed from time to time and include such disclosure in the CC&Rs for the Property. The disclosure shall describe the location of the groundwater well.

Creekview Specific Plan Development Agreement Implementation Matrix

	As further disclosure Developer shall install signage at future water facility sites describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The Environmental Utilities Director must review and approve sign layouts prior to installation.
Department	Environmental Utilities and Attorney's Office
Status	Attorney: Evaluation of disclosures done at time of submittal of CC&Rs. Ongoing obligation.
Section	3.9
Title	Recycled Water Facilities Amendment #1 – Ord. #6151
Obligation	Developer shall construct recycled water system facilities. Recycled water shall be used for irrigation of parks and landscape setbacks, medians, paseos adjacent to collector streets and other landscape areas including all multi-family and non-residential landscaping uses. Developer shall construct and dedicate upon completion thereof, a recycled water distribution system. In the event that the WRSP has not constructed recycled water facilities (namely recycled water lines in Blue Oaks Boulevard and West Park Drive) necessary to serve the CSP, Developer shall construct the necessary off-site recycled facilities and obtain reimbursement from the WRSP. City shall construct a recycled water tank(s), pump station expansion and appurtenant - recycled water facilities on City property in the West Roseville Specific Plan as required for the Project. City shall be responsible to dismantle and eliminate each potable water charging station (three total) as set forth in Section 3.3, and make the appropriate connections to the West Roseville Specific Plan recycled water system as part of the construction of the recycled water tank(s) and pump station expansion on City property in the West Roseville Specific Plan. Upon completion of construction of said recycled water tanks and pump station expansion, should Developer desire to continue utilizing interim potable water supply as set forth in Section 3.3, the responsibility to dismantle and eliminate each potable water charging station shall be transferred from City to Developer. The dismantling and elimination of each potable water charging station shall occur at the time interim use of potable water supply is terminated and the use of recycled water begins pursuant to Section 3.3. City costs, estimated at \$1.64 million, associated with the recycled water tank(s), pump station expansion, elimination of the potable water charging stations and connections to the West Roseville Specific Plan recycled water system, and appurtenant recycled water facilities (hereinafter, the "Recycled Water Facilities"), which include, but are not limited to, permitting, design, construction, design support during construction phase, construction management, inspection, and City's administrative and labor costs, shall be paid through the CFD as outlined in the Financing Plan for the Project. Payment from the CFD will not be required until after the 923rd building permit as outlined in Section 3.3 herein. As an alternative to payment from the CFD, the City may adopt a revised water connection fee which encompasses the estimated \$1.64 million in costs for the Recycled Water Facilities described in this paragraph. All recycled water system facilities including storage tank(s), pump station, transmission, distribution and public and private irrigation systems shall be designed and constructed pursuant to City's then current Improvement Standards, unless modifications are otherwise mutually agreed to by Developer and the Environmental

Creekview Specific Plan Development Agreement Implementation Matrix

	Utilities Director, and shall be subject to City plan review, construction, inspection and final approval and payment of all applicable fees for plan review, mapping and inspection of such improvements.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.9.1
Title	Non-Exclusive Public Utility Easement
Obligation	Where the recycled water facilities are not located within road rights-of-way, as and when such facilities are installed, Developer shall grant and City shall accept a non-exclusive public utility easement for the ownership and maintenance of such facilities, together with access thereto for maintenance purposes only. Easement widths shall be granted in accordance with the City's then current Improvement Standards.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.9.2
Title	Recycled Water Facilities for Reimbursement
Obligation	Developer shall be entitled to reimbursement from third parties within the Urban Reserve and outside the CSP whose property is benefited by Developer's construction of recycled water facilities required by City in which there exists capacity in excess of that required to serve the development of the Property (excluding any operational adjustments by the City). Such reimbursement shall be pro rata, based on Flow in Pipe(s) attributed to the Property and other property benefited by the construction. Specific recycled water facilities subject to reimbursement pursuant to this Section 3.9.2, Section 3.25 and Section 4.2 of this Agreement are shown in Exhibit "X" and listed in Exhibits "Y" and "KK". For properties outside of the Urban Reserve, Developer shall submit documentation to the City to justify the requested reimbursement.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.9.4
Title	Recycled Water Use Disclosure to Buyers
Obligation	Developer shall disclose to all buyers that recycled water shall be used for irrigation of parks and landscape corridors, medians, paseos adjacent to collector streets and other landscape areas, including all multi-family and non-residential landscaping uses. Such disclosure shall be included in the CC&Rs for all residential buyers and other recorded notice instrument for all non-residential buyers.
Department	Environmental Utilities and City Attorney
Status	Attorney: Evaluation of disclosures done at time of submittal of CC&Rs. Currently not a development obligation.
Section	3.9.5
Title	Terms and Conditions for Recycled Water Operations, Use and Service
Obligation	All private commercial recycled water customers within the CSP Plan Area shall sign a Terms and Conditions for Recycled Water Operations, Use and Service prior to service meter installation and recycled water being introduced to the site per requirements of the City's Municipal Code at the time of connection.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.10
Title	Drainage Facilities
Obligation	Developer shall be responsible for the design and construction of all storm drain facilities required to serve the Property in conformance with the CSP

Creekview Specific Plan Development Agreement Implementation Matrix

	Drainage and Storm Water Master Plan, the then approved City Improvement Standards, City Storm Water Management Program, the MS4 Permit as issued and modified by the State and Regional Water Quality Control Board, the approved Placer County Storm Water Management Manual, the 404 Permit(s) issued by the Army Corps, and any agency required Establishment Phase Operation and Management Plan and/or City's Preserve Area Overarching Management Plan (whichever Management Plan is in force at the time). All appropriate aspects of the Low Impact Development Plan ("LID") and the Flood Control Plan as specified in the Master Drainage Plan and in the Specific Plan will be the responsibility of each increment of development at the time of development. In general, drainage facilities shall be constructed concurrent with roadway and grading improvements, and shall include permanent outfall structures and open space storm water treatment devices within the Specific Plan boundaries. All drain outfalls shall be extended beyond the future bike trails and provide access for future maintenance. Temporary drainage facilities may be required for grading operations and shall conform to all applicable requirements. Prior to approval of any improvement plans for the construction of storm drain facilities within a drainage shed, a master drainage plan shall be prepared and approved by the City Engineer for the entire shed area tributary to any sub-area approved by the City Engineer and shall include a rough grading plan of that shed. The Master Drainage Plan for individual sheds shall include pipe sizes, grades, flows, depths of pipe, and cover over and on top of the pipe. Developer shall have no obligation to install or pay for the installation of offsite drainage facilities, except through the payment of drainage fees levied and collected by the City at the time of development pursuant to city ordinances and/or as referenced in Section 3.10.5 of this Agreement.
Department	Environmental Utilities and Engineering Division
Status	Ongoing obligation
Section	3.10.1
Title	Other Agency Approval
Obligation	Prior to issuance of any building permit or grading permit, Developer shall obtain, at its expense, all permits and agreements as required by other agencies having jurisdiction over drainage, water quality or wetlands issues including, but not limited to, the Regional Water Quality Control Board ("RWQCB"), the U.S. Army Corps of Engineers and the California Department of Fish and Game. Developer shall prepare and implement a Storm Water Pollution and Prevention Plan ("SWP3"), and shall construct and maintain Best Management Practices ("BMPs") as required by law, the SWP3 and as approved by the City, concurrently with construction of any improvements. Developer shall obtain a permit from the RWQCB for the General Construction Storm Water Permit Compliance Program, as required by law, prior to the start of any construction, including grading on the Property.
Department	Engineering and Building Division
Status	Ongoing obligation
Section	3.10.2
Title	Storm Drains
Obligation	Developer shall construct storm drain mains and laterals in accordance with the Master Drainage Plan for each tributary shed and Phasing Plan and in accordance with the City's then current Improvement Standards and shall provide laterals to

Creekview Specific Plan Development Agreement Implementation Matrix

	serve all parcels on the Property, including, but not limited to, park sites. Storm drain laterals shall be constructed to the property line concurrently with the construction of connecting open channels or storm drain mains. Storm drainage system designs shall include applicable Best Management Practices with the goal of preventing or reducing pollutants from entering receiving waters in accordance with the City's Storm Water Management Program. Should grading alter the natural drainage patterns and it becomes necessary to redirect drainages across lands dedicated to the City, the Developer shall be responsible for the installation of above-ground drainage ditches to control and direct runoff to receiving waters as appropriate. Developer shall be responsible for annual (or more frequent if needed) maintenance of said drainage ditches until such time as the City develops the property.
Department	Environmental Utilities and Engineering Division
Status	Ongoing obligation
Section	3.10.3
Title	Grant of Floodplains
Obligation	Prior to or concurrent with approval of any final map containing areas within the 100-year floodplain, Developer shall grant an IOD to the City, or to a conservancy or other non-profit entity acceptable to the City, such areas within the Open Space Preserve Areas.
Department	Engineering Division
Status	Ongoing obligation
Section	3.10.4
Title	Drainage Easements
Obligation	Where permanent drainage facilities to be owned and maintained by City are to be constructed by Developer and are not located within road rights-of-way, as and when Developer installs such drainage improvements, Developer shall grant and City shall accept a non-exclusive public utility easement or temporary easement for the ownership and maintenance of such lines, together with access thereto for maintenance purposes only. The City shall not be required to accept or maintain any temporary drainage improvements. Easement widths for completed permanent drainage facilities shall be granted in accordance with the City's then current Improvement Standards. When those permanent drainage facilities not located within road rights-of-way and are to be placed on property owned by someone other than the Developer, the Developer shall secure all necessary rights of entry and third party easements. Developer shall not withhold the grant for right-of-entry to construct any off site drainage improvements and/or the dedication of easement to the City for permanent and temporary structures. All drainage outfall structures for storm drain flows leaving the Plan Area shall be built as either temporary or permanent structures wholly on properties in the Plan Area. The City will offer no power of eminent domain for such drainage outfall structures.
Department	Engineering Division
Status	Ongoing obligation
Section	3.10.5
Title	Pleasant Grove Creek Bypass Channel Improvements Amendment #1 – Ord. #6151
Obligation	Developer shall construct Pleasant Grove Creek bypass channel improvements. Prior to development of Phases A or C as shown on the Phasing Plan the bypass channel shall be constructed.

Creekview Specific Plan Development Agreement Implementation Matrix

	Bypass channel improvements constructed on the City's Al Johnson Wildlife Area ("AJWA") property shall be consistent with the City's plans for a regional storm water detention facility. Developer shall construct the bypass channel improvements located within the CSP at its expense. City shall, at the time of its construction, to the extent funds are available in the Pleasant Grove Creek Drainage Fee Fund, fund the cost to construct bypass channel improvements. If sufficient funds are not available, Developer shall be entitled to credits against the City's Pleasant Grove Creek Drainage fees for the cost of constructing bypass channel improvements located within the AJWA property. Bypass channel improvements include grading and placement of soil, construction of berms, channel, low flow channel, weirs, inlet structure and outlet structure. Material excavated within the CSP shall remain within the CSP and material excavated within the AJWA property for construction of the improvements shall be placed as engineered fill on the Property as shown in Exhibit "BB". Prior to the construction of the bypass channel improvements, detailed engineering drawings shall be submitted for review and approval by City. All aspects of the bypass channel as referred to in the Creekview Drainage and Stormwater Master Plan (December 13, 2010) pertaining to velocities, erosion control, sediment transport, sediment deposition, contouring, storm water detention, restoration, and storm water management shall be addressed. Plans shall additionally include grading and placement of soil, construction of berms, low flow channel, weirs, inlet and outlet structures, maintenance protocols, and operational protocols associated with the future operations of the regional detention facility located on the AJWA property. The bypass channel design shall include a grading plan for the placement of excess earthen material on the southwest portion of the AJWA property and shall provide positive drainage to Pleasant Grove Creek. Regulatory permitting and/or review shall be the responsibility of the Developer and coordinated with City efforts. Until such time as the obligations of the 404 Permit(s) and monitoring periods are complete, the Developer shall be responsible for operations and funding for maintenance of bypass channel improvements and to provide and conduct any remedial improvements that may be required.
Department	Engineering Division
Status	Ongoing obligation
Section	3.11.1
Title	On-site Electric Facilities
Obligation	"On-site" means within the Plan Area. Concurrently with the construction of the adjacent roadways and as specified in Section 3.3, Developer agrees to construct, or finance the construction of, on-site 12kv electric distribution facilities as directed by the Electric Utility Director. Developer shall construct or finance construction of on-site 12kV electric distribution facilities in accordance with final on-site electric distribution designs for the Specific Plan as directed by the Electric Utility Director in accordance with applicable City Electric Utility Department Specifications. Design of any final electric utility improvements (off-site, on-site, in-tract), including streetlights, shall commence prior to receipt of approval of improvement plans for the applicable Specific Plan roadways. Any costs of re-design of electric improvements due to adopted improvement plans shall be borne by Developer.

Creekview Specific Plan Development Agreement Implementation Matrix

Department	Electric Department
Status	Ongoing obligation
Section	3.11.2
Title	Off-Site Electric Facilities
Obligation	If the electric infrastructure is not installed to the boundary of the Plan Area prior to the start of construction of the first phase of the Specific Plan, Developer agrees to construct, or finance the construction of, off-site 12kV electric distribution facilities as directed by the Electric Utility Director. Developer shall construct or finance construction of off-site 12kV electric distribution facilities in accordance with final off-site electric distribution designs for the Specific Plan as directed by the Electric Utility Director in accordance with applicable City Electric Utility Department Specifications. Design of any final electric utility improvements (off-site, on-site, in- tract) including streetlights, shall commence prior to receipt of approval of improvement plans for the applicable Specific Plan roadways. Any costs of re-design of electric improvements due to adopted improvement plans shall be borne by Developer.
Department	Electric Department
Status	Ongoing obligation
Section	3.11.3
Title	Electric Substation Amendment #1 – Ord. #6151
Obligation	The Developer shall, prior to the issuance of the 923rd residential building permit or any combination of building permits within the CSP as set forth below, dedicate to City a 0.90 buildable acre site (parcel C-81) net of easements, wetlands, riparian corridors and required setbacks for use as an electrical substation, as shown on Exhibit "CC". The substation site shall not be encumbered by any easements or any other use constraints, except as approved by the Electric Utility Director. At Developer's expense, the substation shall be dedicated in fee, free and clear of all wetlands. Developer shall, as set forth below, and at Developer's expense, provide the substation site graded and compacted to within six inches (6") of final grade as approved by the Electric Utility Director and consistent with the City's grading ordinance, and where retaining walls are required, provide the retaining wall with split face key stone style or comparable quality/ design to be installed by Developer. The Developer shall provide an access road capable of transporting a 200,000 pound distribution transformer and associated transportation trailer. The road shall be designed to meet the truck and trailer minimum turning radii, shall be the width of twelve feet (12') plus two foot (2') aggregate base shoulders on each side of the road and shall have a structural section consisting of lime treated sub grade with 2" asphalt concrete over 4" aggregate base. The final design of the access road shall be reviewed and approved by the Public Works Director after consultation with the Electric Department's engineering group before it is constructed. In addition to the temporary access road, Developer shall complete the finished grading of the power line corridor as shown on Exhibit "CC". This grading will facilitate the installation of the final alignment of the 60KV overhead line that will serve the future substation in the CSP. The power line corridor will be graded to within 6" of final grade and will include a minimum of 6" aggregate base to serve as a temporary access road to the pole line installation. Any easements, access and dedications required to facilitate the installation of this pole line will also

Creekview Specific Plan Development Agreement Implementation Matrix

	be provided by Developer. Developer shall grant a temporary easement for the temporary electric access road and dedicate the substation within the CSP as set forth below. Provided that Developer provides an access road, power line corridor, temporary easements and substation site as defined above prior to the issuance of the 924th residential building permit, the City shall not restrict the issuance of any additional building permits on the basis of insufficient electrical service capacity for the balance of the Project. Should the Developer fail to provide the required sites and access by the 924th permit, Developer will only be allowed up to 923 permits, or DUE equivalents or any combination of building permits within the CSP that the City determines, in its sole discretion, is the equivalent to building permits for 923 single family residential detached units. Delays by Developer in dedicating the substation site and power line corridor will result in delays in the availability of power until such time as the substation is fully operational with the ability to serve the remainder of the CSP. City shall construct the electric substation and all other tenant improvements on parcel C-81 at the time when needed to serve the development of the Plan Area provided the site is dedicated to City in sufficient time to allow for a reasonable time for City to construct the electric substation and that City has sufficient funds to construct the electric substation.
Department	Electric Department
Status	Ongoing obligation
Section	3.11.4
Title	60kV Disclosure
Obligation	Developer shall include a notice in the project CC&Rs and its sales documentation advising property owners adjacent to the 60 kV easement areas or adjacent to the final location of the 60kV easement that the City may utilize the public utility easements to construct 60kV overhead electric lines.
Department	Electric Department and City Attorney
Status	Attorney: Evaluation of disclosures done at time of submittal of CC&Rs. Ongoing obligation.
Section	3.11.5
Title	Streetlights
Obligation	Concurrent with the construction of the adjacent roadways, Developer agrees to construct, or finance construction of, streetlights within the Property. No street shall be accepted by the City, unless and until streetlights have been installed in accordance with the Specific Plan and applicable requirements of the Electric Department. Streetlights shall meet Roseville Electric's specifications for residential and/or commercial construction in effect at the time the construction improvement plans are approved and issued by the City.
Department	Electric Department
Status	Ongoing obligation
Section	3.11.6
Title	Electric Efficiency and Demand Reduction
Obligation	In order to mitigate demand for energy supplies and comply with state mandated energy efficiency goals, the following energy efficiency and load management requirements:

Creekview Specific Plan Development Agreement Implementation Matrix

	1. All residential dwelling units will install residential air conditioning units with the following sets of parameters as a minimum standard: a. A Seasonal Energy Efficiency Rating ("SEER") of 2 points above the minimum, as defined by the State of California in the current Title 24 of the Code of California Regulations, up to a total maximum of 16 points including the 2 point premium, an Energy Efficiency Ratio ("EER") of 12 or greater, and a thermal expansion valve ("TXV"). The SEER rating of 2 points above the minimum, as defined by the current Title 24, up to a maximum of 16 points, and an EER rating of 12 or greater along with a TXV will be specified on building plans and Title 24 compliance certificates at the time building permits are requested. If Title 24 of the Code of California Regulations in effect at the time of request for building permits requires higher SEER or EER ratings, residential units in the Plan Area shall comply with such State requirements. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be utilized in the overall energy compliance calculations 2. A direct load control device will be installed on all new residential dwelling units to the extent and subject to availability of program funds at the time of final map approval. The device will cycle the air conditioner compressor on/off during summer high peak load hours and operate under the control of Roseville Electric. Roseville Electric will install and maintain the devices at no cost to the builder/homeowner and/or Developer. Roseville Electric shall install the device in a manner that does not delay Developer's construction or sale of the residence. Customers will be automatically enrolled in the load control program and will remain in the program or must actively opt out. Developer shall disclose to all residential buyers the following: (1) their property has been installed with a Roseville Electric owned air conditioner cycling demand switch; (2) the home buyer is automatically enrolled in the program; (3) Developer will provide the home buyer with an opportunity to opt out of the program at the time of close of escrow and that this information will be provided to the Roseville Electric Utility Director designee. Disclosures to subsequent purchasers regarding direct load control devices are required consistent with Section 3.23(15) of this Agreement. All commercial air conditioning units 5 tons or less (<65,000 btu/h) shall meet the current Consortium for Energy Efficiency ("CEE") Tier I specifications. The SEER/EER ratings will be specified on building plans and Title 24 compliance certificates at the time building permits are requested. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be utilized in the overall energy compliance calculations required for issuance of any building permit for any commercial building in the Plan Area. Any variances, with the exception of Tier 2 compliance, must be approved by the Electric Utility Director or designee.

Status	Ongoing obligation
Section	3.12
Title	Parks, Open Space, and Bike Trails Amendment #1 – Ord. #6151 Amendment #2 – Ord. #6394

Creekview Specific Plan Development Agreement Implementation Matrix

Obligation	Developer shall dedicate to City a total of 15.7 acres of active park land and 136.7 acres of open space lands, pay fees for construction of city-wide park, park improvements, paseo improvements, road improvements, open space frontage improvements, and trail improvements and construct park frontage improvements as set forth in this Section and the Phasing Plan and as shown in Exhibit "DD".
Department	Parks Department
Status	Ongoing obligation
Section	3.12.1
Title	Park and Open Space Dedications Amendment #1 – Ord #6151 Amendment #2 – Ord. #6394
Obligation	Developer shall dedicate to City a total of 15.7 acres of active neighborhood parkland and 136.7 acres of open space. The following four park parcels, and five open space parcels shall be dedicated to City as described below and shown in Exhibit "DD": 1. A 6.8-acre, more or less, portion of the Property for the purposes of a public park, shown as parcel C-60; 2. A 4.8-acre, more or less, portion of the Property for the purpose of a public park, shown as parcel C-61; 3. A 1.5-acre, more or less, portion of the Property for the purpose of a public park, shown as parcel C-62; 4. A 2.5-acre, more or less, portion of the Property for the purpose of a public park, shown as parcel C-63; 5. A 36.6-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), preservation of wetland habitat and open space, and open space linkages, shown as parcel C-50; 6. A 35.6-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), preservation of wetland habitat and open space, and open space linkages, shown as parcel C-51; 7. A 14.8-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), preservation of wetland habitat and open space, and open space linkages, shown as parcel C-52; 8. A 25.1-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), wetland habitat and open space, and open space linkages, shown as parcel C-53; and 9. A 24.6-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), wetland habitat and open space, and open space linkages shown as parcel C-54.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.2
Title	Financing for Parks
Obligation	The construction of improvements to parks within the property shall be financed from the payment by developer of the city-wide and neighborhood park fees established for the specific plan in the parks and bike trails financing plan.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.2.1
Title	Financing for Neighborhood Parks
Obligation	The construction of the neighborhood park sites within the property shall be financed from payment by developer of park fees.

Creekview Specific Plan Development Agreement Implementation Matrix

	City agrees that the total amount to be financed by Developer pursuant to this Section 3.12.2.1 for the design, construction and inspection of such neighborhood park improvements shall not exceed the amounts as set forth in the Parks Financing Plan, with amounts distributed among the park sites on the Property, and which amount is adjusted by the percentage change, annually on July 1, utilizing the Engineering News Record, Construction Cost Index for the United States 20-city average.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.3
Title	Neighborhood Park Fee
Obligation	In accordance with the Parks Financing Plan for the Property, Developer shall pay a neighborhood park fee, upon the issuance of each residential building permit, to fund neighborhood park construction. Such neighborhood park fee shall be \$2,623 per Low Density Residential unit, \$2,241 per Medium Density Residential Unit, and \$1,859 per High Density Residential unit, subject to annual adjustment, on July 1, based on the percentage change in the CCI. All such Neighborhood Park Fees shall be deposited into the applicable neighborhood park fee fund. The Neighborhood Park Fee, as calculated herein, is figured on 100% of the total dwelling units proposed to be entitled in the Plan Area for construction of Neighborhood Parks within the CSP. City may conduct an annual re-assessment of Park fees for the Property subject to this Agreement and adjust the fee upward if underutilization of entitled dwelling units for the Property subject to this Agreement exceeds five percent (5%). In the event of a rezoning of any parcel(s) in the Property that creates a park funding shortfall, City shall require supplemental Neighborhood and City-Wide Park and Bike Trail Fees to fund such shortfall from the rezoned parcel(s). At the end of each development phase, City shall review development progress of Neighborhood Parks to determine if development is on target as it relates to collection of park fees by phase or sub-phase. City shall review the development phase with overall neighborhood park development and any impacts, particularly if subsequent phases will need to utilize funding previously collected for development. Developer may request a refund of the pro-rata share of any remainder funds once the last neighborhood park in the CSP is complete. If there are any remainder fees, City shall, within ninety (90) days of filing a notice of completion of the last neighborhood park for the CSP, refund to Developer a pro-rata share of any remainder fees.
Department	Parks Department and Building Division
Status	Currently not in development /ongoing obligation
Section	3.12.3.1
Title	Neighborhood Park Frontage Improvements
Obligation	When installing road improvements adjacent to neighborhood park sites, Developer shall construct the frontage improvements (excluding landscaping), which include curb, gutter, and stub utilities for the park site, subject to direction from City on the location of such utility stubs. The cost of this work has been accounted for in the Neighborhood Park Fee as determined in the Parks Financing Plan. Developer shall be entitled to reimbursement from the Neighborhood Park Fee as set forth below.

Creekview Specific Plan Development Agreement Implementation Matrix

	At the time Developer installs infrastructure frontage improvements for the neighborhood parks, Developer may construct the sidewalks, as specified in the Specific Plan and upon mutual consent of the City and Developer. The construction cost of such sidewalks shall be entitled to reimbursements from City's Neighborhood Park Fee revenues. Developer shall be entitled to a reimbursement for the sidewalk cost provided City has sufficient funds to reimburse Developer for such sidewalk improvements at the time that Developer would construct such improvements. If City does not have sufficient funds to reimburse Developer within sixty-(60) days of completion of such sidewalk improvements, City shall construct the sidewalk improvements as part of the adjacent park improvements and release Developer from any obligation to construct such sidewalk improvements. Reimbursement shall be based on actual costs of constructing the sidewalk and as approved by the City prior to construction. For all other park frontage improvements excluding sidewalks and landscaping, Developer shall be entitled to credit against the Neighborhood Park Fee as accounted for and reflected in the Neighborhood Park Fee as indicated in the Parks Financing Plan park estimates. All frontage improvements, including sidewalks, shall be constructed consistent with City standards.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.4
Title	Citywide Park and Bike Trail Fee Amendment #1 - Ord. #6151
Obligation	Developer shall pay the City-Wide Park and Bike Trail Fee at time of building permit. The City-Wide Park and Bike Trail Fee shall fund the construction of city-wide park facilities within the WRSP of the City and Class I bike trail construction within the Property. The City-Wide Park and Bike Trail Fee, inclusive of a City-Wide Park In-Lieu fee amount described in Section 3.12.5 below, shall be \$3,200 per Low Density Residential Unit, Medium Density Residential unit, and High Density Residential unit subject to annual adjustment on July 1, based on the percentage change in the CCI. Of the \$3,200 City-Wide Park and Bike Trail Fee, \$900 per residential unit is assigned to bike trail construction. At the request of the City and provided that sufficient funds will be available, upon completion of construction, Developer shall construct, consistent with City standards, segments of bike trails and/or pedestrian bridge abutments as provided by Section 3.12.6. The City can designate the use of the funds collected to construct any segment of the bike trail (including bridges) within the Plan Area that it deems appropriate. Developer shall be entitled to reimbursement by City from the City-Wide Park and Bike Trail Fee, for the actual cost of constructing the bike trail segments, but not to exceed the costs specified in the Parks and Bike Trails Financing Plan. In the event that all bike trail segments have been constructed and funds are available from the collection of City-Wide Park and Bike Trail Fees, remaining monies shall be applied to construction of bike trail Segment 4 and/or easterly pedestrian/bicycle crossing.
Department	Parks Department, Alternative Transportation and Building Division
Status	Ongoing obligation
Section	3.12.5
Title	Citywide Park In-Lieu Fee

Creekview Specific Plan Development Agreement Implementation Matrix

Obligation	3. The City-Wide Park and Bike Trail Fee set forth in Section 3.12.4 above includes a City-Wide Park In-Lieu Fee component to satisfy Developers' pro-rate share of the Plan Area's City-Wide parkland dedication requirement of 15.3 acres.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.6
Title	Class 1 Bike Trail Construction
Obligation	Construct bike trails only if City has sufficient funds to reimburse Developer upon completion of construction, Developer shall design, secure necessary permits and construct certain Class 1 bike trail improvements, including the two pedestrian/bicycle crossings within the Property. Should sufficient funds not be available to reimburse Developer, City shall be responsible for designing, permitting and constructing bike trails and pedestrian/bicycle crossings. Bike trails shall be constructed to City standards as and when Developer develops certain parcels within the Property. The sections of bike trail to be installed upon development of such parcels. Developer shall be responsible for constructing abutments for the westerly pedestrian/bicycle crossing including permitting and resource mitigation. The construction of the abutment will be reimbursable from the City Wide Park and Bike Trail Fee and shall be reimbursed to the constructing party over time, as funds are made available. City shall fund and construct segment 4 of the bike trail improvements and the easterly pedestrian/bicycle crossing abutments and associated bike trail. City shall seek funding for segment 4 of bike trail improvements separate from the City-Wide Park and Bike Trail Fee. Developer is obligated for preliminary design, necessary permits, resource mitigation, and rough grading of bike trails within the open space at the time that mass grading adjacent to the open space occurs, including Segment 4. No reimbursement for this effort will be provided. The rough grading of the bike trails in the open space shall ensure that sufficient width and adequate grades are constructed to accommodate the future construction of the bike trails at a later date. Upon completion of the bike trail improvements, Developer shall receive reimbursement from City as provided in Section 3.12.4 and this Section 3.12.6. If a bike trail is completed prior to City's acceptance of open space within which the bike trail is located, City shall be responsible for bike trail maintenance. City shall enter into an agreement with Developer memorializing such obligations and indemnifying Developer for the public's use of the bike trail prior to the City's acceptance of the open space, which will include the recordation of a temporary maintenance and pedestrian access easement that includes the bike trail on and across Developer's Property. Upon completion of the bike trail and City's acceptance of open space within which the bike trail is located, City shall continue to be responsible for bike trail maintenance.

Obligation	The City agrees that the provisions of the Specific Plan and the commitments contained herein satisfy Developer's General Plan park

Creekview Specific Plan Development Agreement Implementation Matrix

	obligations for the dedication and improvement of neighborhood and city-wide parks and open space related to development of the Property.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.8
Title	Open Space Preserve Areas Amendment #1 – Ord. #6151 Amendment #2 – Ord.#6394
Obligation	Developer shall obtain from the Army Corps 404 Permit(s) to fill wetland resources in conjunction with development of the Property and the Plan, a condition that requires the preservation of certain environmental habitat. The areas in which such habitat will be preserved are known as Open Space Preserve Areas, as shown on Exhibit "HH" and consist of the following five parcels: 1. A 36.6-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), preservation of wetland habitat and open space, and open space linkages, shown as parcel C-50; 2. A 35.6-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), preservation of wetland habitat and open space, and open space linkages, shown as parcel C-51; 3. A 14.8-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), preservation of wetland habitat and open space, and open space linkages, shown as parcel C-52; 4. A 25.1-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), wetland habitat and open space, and open space linkages, shown as parcel C-53; and 5. A 24.6-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), wetland habitat and open space, and open space linkages, shown as parcel C-54."
Department	Parks Department, Environmental Coordinator
Status	Ongoing obligation
Section	3.12.8.1
Title	Conveyance of Open Space Preserve Areas
Obligation	Upon the satisfaction by Developer of all conditions of the 404 Permit(s), and completion of any corresponding monitoring and reporting that may be required by the 404 Permit(s) during the Establishment Monitoring phase and subject to the formation of the Perpetual Monitoring phase Maintenance CFD as described in Section 3.19 of this Agreement, and following completion of all Preserve improvements, including, but not limited to, utility crossings, bridges, bike trails, outfalls, and water quality features, Developer shall convey to the City and City shall accept, in fee, the property comprising the Open Space Preserve Areas.
Department	Parks Department, Environmental Coordinator
Status	Ongoing obligation
Section	3.12.8.2
Title	Open Space Frontage Improvements
Obligation	When installing road improvements adjacent to the open space, Developer shall construct the frontage improvements. Frontage improvements shall include sidewalks, split rail fencing and landscaping. The cost of the work shall be the responsibility of the Developer as part of roadway infrastructure improvements required prior to open space dedication.

Creekview Specific Plan Development Agreement Implementation Matrix

Department	Parks Department
Status	Ongoing obligation
Section	3.14.1
Title	Fire Tax Equivalent Fee
Obligation	The Fire Service Construction Tax set forth in Chapter 4.46 of the Roseville Municipal Code is no longer in effect. Developer or its respective successors shall pay a fee equal in amount to the discontinued Fire Service Construction Tax at issuance of building permit. Developer hereby consents to and waives any objection to the imposition of such substitute fee.
Department	Fire Department and Building Division
Status	Ongoing obligation
Section	3.14.2
Title	Placer County Capital Facilities Fee
Obligation	In consideration of the annexation of the Property to City, Developer shall pay the Placer County Capital Facilities Fee adopted by the City, in the amount then being assessed by the City; provided, however, if such impact fee is not effective or is for any reason suspended by the City, then Developer shall pay such fee in the amount previously and most recently assessed by the City. Such fee shall be paid upon the issuance of each building permit within the Property.
Department	Building Division
Status	Ongoing Obligation
Section	3.14.2.1
Title	City Public Facilities Fee Amendment #1 – Ord #6151
Obligation	Pursuant to Section 3.17.1.2 (i) below, Developer shall pay the City Public Facilities Fee (Roseville Municipal Code Chapter 4.52). Unless otherwise deferred pursuant to Section 3.17.1.2 (i) below, Developer shall pay the City Public Facilities Fee at time of building permit. The City Public Facilities Fee shall be subject to annual adjustment, on July 1, based on the percentage change in the CCI, but only if the City Public Facilities Fee is paid out of bond proceeds pursuant to Section 3.17.1.2 (i) below. Developer shall pay the City Public Facilities Fee (Roseville Municipal Code Chapter 4.52) at time of building permit.
Department	Building Division
Status	Ongoing Obligation
Section	3.14.3
Title	Public Benefit Fee Amendment #1 – Ord. #6151
Obligation	As partial consideration for this Agreement, to offset a portion of the impact of the Project and the associated tax sharing agreement with Placer County, and to ensure that the Project will benefit current and future residents of Roseville, Developer shall pay a Public Benefit Fee for each residential unit in the Project. The Public Benefit Fee for each low density and medium density residential unit shall be \$ 1,280. The Public Benefit Fee for each high density residential unit shall be \$845. Developer shall pay the Public Benefit Fee at time of building permit.
Department	Building Division
Status	Ongoing Obligation
Section	3.14.4
Title	Lines, Encumbrances, Covenants, Conditions and Restrictions
Obligation	Except as approved by City or provided for by this Agreement, all property to be conveyed in fee to City pursuant to this Agreement shall be free of any liens, financial encumbrances, special taxes, CC&Rs, hazardous materials or assessments. Developer shall, for each such conveyance, provide to City, at

Creekview Specific Plan Development Agreement Implementation Matrix

	Developer's expense, a current preliminary title report and preliminary site assessment for hazardous materials in a form approved by the City Attorney. Any policy of title insurance required by City shall be at City's expense.
Department	City Attorney
Status	Evaluation done at time of conveyance. Ongoing obligation.
Section	3.14.5
Title	Signage for Future Public Facilities
Obligation	Developer shall provide and install signage at the following public facility sites to alert residents of future facilities: electric substation (C-81), sewer lift station site (C-82), solid waste recycling site (C-83), well site (C-84), park sites (C- 60, C-61, C-62, C-63), bike trails where they will abut residential property, and school site (C-80), per City specifications and applicable sign permits.
Department	Planning Division
Status	Ongoing obligation
Section	3.14.6
Title	Library Facilities
Obligation	Developer agrees to participate and pay its fair share of the capital cost of library services in the event that the City should amend its current City-wide Public Facilities fee to include library facilities or adopts any other equitable financing mechanism for the provision of library facilities.
Department	Library Department
Status	Currently not in development
Section	3.14.7
Title	Solid Waste Recycling Site (C-83)
Obligation	Developer is responsible to grade parcel C-83, and provide said site without environmental or other constraints. At Developer's expense, all site grading shall be completed prior to the dedication of the site consistent with City's Grading Ordinance, and where retaining walls are required, the retaining wall shall be a split-faced key stone style wall or comparable quality/design to be installed by the Developer. This work shall be completed with the construction of the roadway fronting this parcel.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.14.8
Title	Construction Waste
Obligation	Developer shall require construction contractors and subcontractors to reduce construction waste by recycling a minimum of 50% of construction waste materials or require all construction debris be delivered to the Placer County Western Regional Materials Recovery Facility where recyclable material will be removed. Developer shall require that contractors and subcontractors submit to the City Environmental Utilities Department annual records of waste diversion and disposal in order to verify compliance with this requirement.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.14.9
Title	Weed Abatement on P/QP Parcels
Obligation	Prior to dedication of any P/QP parcel to City, Developer shall maintain such P/QP parcel to meet City's weed abatement standards.
Department	Parks Department
Status	Currently not in development
Section	3.14.11
Title	Fence Removal Amendment #1 – Ord. #6151

Creekview Specific Plan Development Agreement Implementation Matrix

Obligation	Prior to the first building permit issued in the Project north of Pleasant Grove Creek, Developer shall remove existing cattle grazing fences on the Property, with the possible exception of the cattle and goat grazing fencing in the open space parcels (Parcels C-50 to C-54), should a cattle grazing plan be approved by the City. Cattle and goat grazing fencing shall not interfere with bike trail amenities.
Department	Parks Department
Status	Currently not in development
Section	3.15
Title	EIR Mitigation Measures
Obligation	Notwithstanding any other provision in this Agreement to the contrary, as and when Developer elects to develop the Property, Developer shall be bound by, and shall perform, all mitigation measures contained in the EIR related to such development which are adopted by City and identified in the mitigation monitoring plan or the EIR as a responsibility of Developer, and shall be subject to any fees which may be enacted by City to implement any mitigation measures contained in the EIR.
Department	Planning Division
Status	Ongoing obligation
Section	3.17.1
Title	Community Facilities District Formation – Project Infrastructure
Obligation	Developer and City may form a Community Facilities District (CFD) or Districts for the purpose of financing the construction and/or acquisition of public infrastructure and facilities within the CSP. If requested by Developer, City and Developer shall use their best efforts to cause to be formed the Project CFD(s) for the purpose of financing the acquisition or construction of some or all of the improvements and facilities eligible for CFD financing within and associated with the Creekview Specific Plan, including those improvements which will mitigate impacts of the Creekview Specific Plan upon areas inside and outside of the Creekview Specific Plan, and will be owned, operated and maintained by the City or another public agency. The CFD Eligible Improvements are those improvements including, but not limited to arterials, collectors, roadways serving bus transfer facilities, and unloaded primary residential roads; traffic signals; right-of-way acquisitions; bridges/culverts, water, sewer, recycled water, and drainage improvements and appurtenances; landscape and landscape irrigation and drainage facilities; environmental mitigation and remediation; bicycle and pedestrian facilities; parks, paseos, schools, electrical substations, park and ride facilities, bus facilities, recycle center, police protection, fire protection, modification to and or undergrounding of existing improvements; wetlands; electrical and dry utility improvements; transit improvements; masonry walls; development impact fees; design, engineering, surveying, construction management, and security for CFD Eligible Improvements; and other improvements as which are defined as authorized improvements under the Project CFD(s) selected by the City or any ordinance under the City. Formation of the Project CFD(s) shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53311, et seq. Developer shall be allocated a share of infrastructure costs and assessed special taxes as specified in a tax formula agreed to by City and Developer in accordance with the financing plan for the CSP. The rights and obligations under this Section 3.17 shall survive the termination or expiration of this Agreement.
Department	Finance Department
Status	Currently not in development
Section	3.17.1.1
Title	Community Facilities District Formation – Project Infrastructure

Creekview Specific Plan Development Agreement Implementation Matrix

Obligation	Nothing in this section shall be construed to require Developer to form a CFD nor, if formed, to preclude the payment by an owner of any of the parcels to be included within the CFD a cash amount equivalent to its proportionate share of costs for the CFD improvements, or any portion thereof, prior to the issuance of bonds.
Department	Finance Department
Status	District formed with some future annexation area left to be annexed in.
Section	3.17.1.2
Title	Community Facilities District Formation – Project Infrastructure Amendment #1 – Ord #6151
Obligation	If Developer desires to form a CFD, City and Developer agree that, with the consent of Landowner and Developer, and to the extent permitted by law, City and Developer shall use their best efforts to cause bonds to be issued in amounts sufficient to effectuate the purposes of this section. City and Developer further agree that, with the consent of Landowner and Developer, or their successor(s) in interest, and to the extent permitted by law, the City agrees to the following: (a) Maximum Annual Taxes for residential units, when aggregated with all other existing or expected taxes and assessments (excluding HOA's), shall not exceed 2.00% of the assessed valuation, net of the homeowner's exemption (2% Test). (b) The Special Tax shall be levied for as long as needed to service the principal and interest on bond debt, and to pay for any additional authorized facilities not reimbursed with bond proceeds as defined in the Funding, Construction, and Acquisition agreement. However, the Special Tax shall be levied for a period that allows for at least two non-overlapping bond sales to cover deferred fees as set forth in (i) below. The Special Tax levied may exceed 50 years. (c) City shall not unreasonably deny the Maximum Annual Tax escalating at 2% per year. (d) Authorized facilities shall include, among other items, development impact fees for public improvements. (e) Annual Costs shall provide that special taxes not used for debt service and City administration be paid to Developer, for any authorized facilities not reimbursed with bond proceeds (pay-as-you-go funds). City shall consider a reasonable interest component for any authorized facilities reimbursed with pay-as-you-go provided for in the Funding, Construction and Acquisition Agreement defined below. (f) Developer may utilize the Statewide Community Infrastructure Program ("SCIP") or the Bond Opportunities for Land Development ("BOLD") program for any eligible impact fees. (g) Developer may utilize a phased bond sale or sales. (h) Developer may utilize private placement of bonds. (i) Bond proceeds from bond sales commencing in the year 31 timeframe shall, subject to SPRTA agreeing to the deferral of the SPRTA Tier II Traffic Fee, include an amount no greater than fifty percent (50%) of the SPRTA Tier II Traffic Fee, adjusted as the SPRTA Tier II Traffic Fee may be subsequently adjusted, that would normally be paid at time of building permits for low, medium and high density residential dwelling units. The SPRTA Tier II Traffic Fee deferral is subject to SPRTA review and approval and may be revised or discontinued by SPRTA if

Creekview Specific Plan Development Agreement Implementation Matrix

	deemed appropriate as specified in the Tier II Development Fee Program and amendments. Notwithstanding any provision in this Agreement to the contrary, any amount exceeding fifty percent (50%) of the SPRTA Tier II Traffic Fee, adjusted as the SPRTA Tier II Traffic Fee may be subsequently adjusted (or exceeding such actual lesser amount for MDR or HDR units determined by City), per residential unit shall be due and payable to City upon issuance of a building permit commencing with the first applicable building permit for the Project. Notwithstanding any other provision in this Agreement to the contrary, the SPRTA Tier II Traffic Fee required by City for non-residential development shall be collected upon issuance of building permit commencing with the first applicable building permit. (j) If a Project CFD(s) is formed, then, where adjustments (increases or reductions) in the number of allocated residential units or non-residential acreage involve transfer of residential units or non-residential acreage from one Large Lot parcel to another Large Lot parcel in the Project, City may, in its sole discretion, allow for the transfer of assigned special tax from one Large Lot parcel to another, but only if (i) all such proposed special tax adjustments are agreed to in writing by the affected Large Lot parcel owners and City's Chief Financial Officer, and (ii) there is no reduction in the CFD maximum special tax revenue as a result of the transfer between Large Lot parcels. Should such a transfer of special taxes from Large Lot parcel to another Large Lot parcel result in an amendment to attachments 1 or 2 of the notice of special tax lien for the CFD(s), the Large Lot parcel owner requesting the transfer of special taxes shall bear the cost to affect the transfer in the CFD documents, and that property owner shall prepare the required amendments to the notice of special tax lien, including amendments to attachments 1 and 2 thereto. Should the Project CFD(s) including the Property not be formed at the time that any particular building permit is issued within a large lot map parcel on the Property, or any property owner in the CSP desires to pay such fees as provided in this Section 3.17.1.2 (i) rather than defer payment to such future CFD bond proceeds, the fees set forth in this Section 3.17.1.2 (i) for such building permit(s) shall not be eligible to be paid by such CFD bond proceeds but, notwithstanding any provision in this Agreement to the contrary, shall be paid at the time of issuance of such building permit(s). Upon formation of the Project CFD(s) including the Property, the fees set forth in this Section 3.17.1.2 (i) for unbuilt residential units shall be paid from proceeds of such bond sales commencing in the year 31timeframe, unless a CSP property owner desires to pay such fees at the time of issuance of building permit(s).
Department	Finance Department
	District formed with some future annexation area left to be annexed in.
Section	3.17.2
Title	Effect of CFD Financing on Credits and Reimbursements
Obligation	Wherever the terms of this Agreement provide for (a) credits or (b) reimbursements to Developer for construction of certain improvements, and such improvements are financed by the CFD, development fees otherwise applicable to such improvements shall be adjusted as necessary to reflect construction with CFD funds. Credits or reimbursements owed to Developer shall not be affected or reduced solely because

Creekview Specific Plan Development Agreement Implementation Matrix

	improvements for which credits or reimbursements are due were financed with CFD special taxes or bond proceeds.
Department	Finance Department
Status	Reimbursements pending with future bond issuances.
Section	3.18
Title	Completion of Improvements
Obligation	City generally requires that all improvements necessary to serve new development be completed prior to issuance of building permits (except model home permits as may be provided by the City's Subdivision Ordinance). However, the parties hereto acknowledge that some of the CFD Eligible Improvements associated with the development of the Property may not need to be completed to adequately serve portions of the Property as such development occurs. Therefore, as and when portions of the Property are developed, all CFD Eligible Improvements required to serve such portion of the Property in accordance with the Entitlements (e.g., pursuant to specific tentative map conditions or other land use approvals) shall be completed prior to issuance of any building permits within such portion of the Property (except permits for model homes, which may be issued sooner in accordance with the City's Subdivision Ordinance). Provided, however, the Public Works Director may approve the issuance of building permits prior to completion of all such CFD Eligible Improvements if the improvements necessary to provide adequate service to the portion of the Property being developed are substantially complete to the satisfaction of the Public Works Director. All wet utilities to be installed by Developer will be subject to the review and approval of the City Environmental Utilities Department. In connection therewith, Developer shall be responsible for coordinating the alignment of all such planned and future utilities within the applicable rights-of-way to the satisfaction of the City Environmental Utilities Director.
Department	Public Works, Finance and Environmental Utilities
Status	Ongoing obligation
Section	3.19.1.2
Title	CFD – Public Services – Zones of Benefits
Obligation	The Public Services CFD may be divided as necessary into zones of benefit and between which the amount of assessment may vary.
Department	Finance Department
Status	Future annexation area still to be annexed into District.
Section	3.19.2
Title	CFD – Public Services
Obligation	3.19.2 Public Services. The Public Services CFD shall provide the funds required for the performance of maintenance, monitoring and reporting obligations and may include, but not limited to, the following: 3.19.2.1 Autumn leaf cleanup for collector and local streets; 3.19.2.2 Maintain neighborhood parks; 3.19.2.3 Maintain paseos along collector streets, medians and landscape corridors and all masonry walls along roadways within the Project; 3.19.2.4 Maintain bikeways and their appurtenances (drainage limited to culverts or outfall pipes from adjacent subdivisions or roads, signs, benches, and striping); 3.19.2.5 Maintain City and neighborhood entry features within the Property, public rights-of-way and ancillary landscaping;

Creekview Specific Plan Development Agreement Implementation Matrix

	3.19.2.6 Conduct the environmental mitigation monitoring, and the annual review thereof, as required by the Mitigation Monitoring Plan related to the EIR; 3.19.2.7 Conduct all monitoring, reporting and adaptive management for Open Space Preserve areas consistent with the 404 Permit and O&M Plans (including any tasks required by any required Establishment Monitoring phase O&M Plan and during Perpetual Monitoring per the City's soon to be completed Open Space Preserve Overarching Management Plan); 3.19.2.8 Maintain all water quality structural controls, storm management facilities (and programs) within rights-of-way and Open Space, including drainage swales constructed between storm drain outfalls and receiving waters; 3.19.2.9 Maintain flood control facilities including detention basins, created wetlands, creek ways, beaver management and on and off-site Pleasant Grove Creek bypass channel improvements; 3.19.2.10 Maintain open space areas including general maintenance, signage and city-owned fence maintenance, and trash and debris collection; 3.19.2.11 Maintain fire breaks within open space areas; 3.19.2.12 Maintain a Replacement Reserve Fund for repair and replacement of entry features, signage, lighting, park amenities, masonry walls and other special features including structures, etc. included in the areas to be maintained through the Maintenance CFD, as indicated in the Design Guidelines; and 3.19.2.13 Maintain the bus transfer station, bus shelters, bus stops, and bus signs.
Department	Finance Department
Status	District formed—Ongoing maintenance obligation funded by District's levy.
Section	3.19.3
Title	CFD – Public Parcel Exclusion
Obligation	Developer expressly agrees that parcels conveyed or to be conveyed to the City, Roseville City School District, or Roseville Joint Union High School District shall be excluded from any assessment imposed by the Public Services CFD.
Department	Finance Department
Status	Currently not in development
Section	3.20.2
Title	CFD Municipal Services
Obligation	The Municipal Services CFD shall provide the funds required to offset the CSP's impact on City general fund resources available to pay for municipal services citywide, including the CSP. The funds shall be utilized for general fund purposes.
Department	Finance Department
Status	District annexed, will be levied as parcels develop.
Section	3.20.3
Title	Public Parcel Exclusion
Obligation	Developer expressly agrees that parcels conveyed or to be conveyed to the City, Roseville City School District, or Roseville Joint Union High School District shall be excluded from any assessment, imposed by the Municipal Services CFD.
Department	Finance Department
Status	Currently not in development
Section	3.21

Creekview Specific Plan Development Agreement Implementation Matrix

Title	Encroachment Permits, Landscape Maintenance Easements
Obligation	Developer and City agree to grant encroachment permit(s) or maintenance easements for all Services CFDs to Developer or City or their agents, employees, successors, assigns, agents and employees, for the purpose of entry into the landscape easement and setback, open space and preserve areas or city property (including streets and rights-of-way) to perform the maintenance obligations described herein. Access Improvements shall be provided as necessary and as a part of the street infrastructure provided by Developer to ensure vehicular access to open space parcels.
Department	Engineering and Parks Department
Status	Currently not in development
Section	3.22
Title	Grading Permit
Obligation	Prior to the initiation of any construction activities, the Developer shall apply for and obtain a grading permit from the City. All plans shall meet or exceed the intent of the then approved City Standards, the State Water Quality Control Board SWP3 requirements, and the State General Construction Permit It is the Developers' responsibility to meet all requirements of all agencies having jurisdiction regarding grading adjacent of or within Open Space. Developer intends to mass grade the Property to accommodate land uses. Grading operations will require movement of earthen material from the northern to southern portion of the Property to accommodate the phasing of the CSP and construction of the Pleasant Grove Creek bypass channel Improvements. Where practical, and at the Direction of the City Engineer, a balanced mass grading plan shall be prepared for all that land within a disturbed water shed. Bulk material shall be moved upon commencement of construction to ensure that future development sites balance, and, except as provided below, reduce the amount of future on-street transportation of bulk material on newly paved and existing City roads. The fee referenced below shall not apply to hauling of earthen material crossing in a perpendicular manner; or parallel, to newly paved or existing City roads. In the event that bulk material is transported on or over newly paved and/or existing City roads (but not across in a perpendicular manner or parallel to such City roads), a premium of \$0.10 fee per yard of material shall be assessed at the issuance of the grading permit to compensate the City for deterioration of the road caused by the excessive loads, provided, however, that the Public Works Director shall have the discretion to waive such fee in recognition of particular circumstances, including environmental constraints, faced when transporting earthen materials. With regard to any and all P/QP parcel dedications to City and at Developer's expense, all site grading shall be completed prior to the dedication of the site consistent with City's Grading Ordinance, and where retaining walls are required, the retaining wall shall be a split faced key stone style wall or comparable quality/design to be installed by the Developer.
Department	Public Works Department and Engineering Division
Status	Ongoing Obligation
Section	3.23
Title	Disclosures to Subsequent Purchasers
Obligation	This Agreement shall constitute notice to all successors to Developer hereunder, and to all subsequent purchasers of any lots and/or residential units within the Property, of the following matters: 1. Designation of Blue Oaks Boulevard and Westbrook Boulevard as truck routes. 2. The existence of a Development Agreement on the Property. However, this

Creekview Specific Plan Development Agreement Implementation Matrix

	notice shall not extend to the purchaser of a completed individual single family residential unit. 3. The Project will be served by surface water supplies and by groundwater supplies. 4. Recycled water will be used to irrigate parks and landscape setbacks, medians, paseos and other landscape areas including all multi-family and non-residential landscaping uses. 5. Requirement to implement water conservation measures per the project Water Conservation Plan (Exhibit "S"), which may include such measures as Smart Timers. 6. Public utility easements may be used to construct 60kV overhead power lines on the east side of Westbrook Boulevard, on the north side of Blue Oaks Boulevard and through the open space corridor (C-52, C-54, C-40, C-60, C-6, and C-81). 7. Requirement for fifty percent (50%) reduction in construction waste stream. 8. Location of elementary schools and parks within one mile. 9. Parcels adjacent to Open Space may have a public bike trail and appurtenances adjacent to said parcels. 10. Location of P/QP sites: electric substation (C-81), sewer lift station (C-82), solid waste recycling center (C-83), groundwater well site (C-84). 11. Owners of residential units adjacent to separated sidewalks shall be responsible to maintain the area between curb and sidewalks. 12. Masonry walls, including walls adjacent to landscape corridors and other public facilities, are owned by the City, which is responsible for their maintenance, repair and replacement. 13. Aircraft overflights and associated noise. 14. Proximity to and operations of Roseville Energy Park, Pleasant Grove Wastewater Treatment Plant and the Western Regional Sanitary Landfill and the potential for occasional odors associated with operations of these facilities. 15. Demand cycle control units operated by Roseville Electric on residential air conditioner units. 16. Solar envelope impact: Developer shall disclose to all residential and nonresidential buyers that certain properties, especially those adjacent to major arterials and collector streets where City-maintained landscaping is installed, may produce a negative impact on the buyer's ability to install solar panels or structures or the efficiency or effectiveness of such solar panels or structures; and further that this is primarily due to the trees within the street landscapes including medium to large shade trees, which may cast shade, or produce leaf litter or other natural effects on the adjacent or nearby property. 17. Proximity to agricultural land uses. 18. Livestock grazing may occur within the open space preserve areas. 19. Every residential unit is equipped with a recirculating hot water system, or similar
--	---

Creekview Specific Plan Development Agreement Implementation Matrix

	technology to provide instantaneous hot water at each hot water faucet. If Developer records any Property CC&Rs, such CC&Rs shall include the foregoing disclosures and the foregoing disclosures shall not be omitted or deleted from the CC&Rs without the City Attorney's prior written approval.
Department	City Attorney and Landowner
Status	Attorney: Evaluation of disclosures done at time of submittal of CC&Rs. Ongoing obligation.
Section	3.24
Title	General Signage
Obligation	A. Utility Sites (see Section 3.14.5): Developer shall install signage at all future utility sites (including, but not limited to, the well site, sewer lift station, solid waste recycling site, and electrical sub-stations) describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The Environmental Utilities Director, Public Works Director, and Electric Director, as appropriate, must review and approve sign layouts prior to installation/ construction of any utility sites. The City Manager or his/her designee must review and approve sign layouts prior to installation/construction of any public facilities. B. Affordable Housing: Developer shall install signage at future affordable rental housing sites describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The City Manager or his/her designee must review and approve sign layouts prior to installation by developer.
Department	Environmental Utilities, Public Works, Electric, Planning and Housing
Status	Ongoing obligation
Section	3.25
Title	Reimbursements to/from WRSP for Oversized Improvements
Obligation	A. Developer acknowledges that the West Roseville Specific Plan ("WRSP") developer(s) have incurred costs and have constructed or will construct improvements oversized to benefit certain third parties, including Developer. Such oversized improvements may include sewer, water and recycled water and are those set forth in Exhibits "II" and "00" to the WRSP development agreements ("WRSP Reimbursable Costs"). Developer further acknowledges that City is obligated to use its best efforts in requiring reimbursements, pursuant to the WRSP development agreements, from benefiting third parties. Reimbursements due from CSP to the WRSP developer(s) are set forth in Exhibit "If" to this Agreement. CSP's share of costs based on Flow in Pipe(s), shall be reimbursable to WRSP developer(s) pursuant to this Section 3.25. That share of costs shall be fixed as a percentage based on the number of DUEs ("EDUs," in Exhibit "JJ") allocated to Developer's large lot parcel at the time of CSP approval and set forth in Exhibit "JJ" to this Agreement. The percentage shall be calculated using the allocated DUEs for each large lot parcel as provided in Exhibit "JJ" as the numerator, and the total number of DUEs in the CSP, including the Urban Reserve parcel, as the denominator. Any reimbursement payment required pursuant to this Section 3.25 shall be due and payable to the WRSP developers, unless otherwise stated herein, upon the earlier of the formation of and issuance of bonds for a CFD serving that large lot parcel, or recordation of the first final small lot residential subdivision map, or issuance of the first building permit for a high density residential ("HOR") or non-residential project, on that large lot parcel.

Creekview Specific Plan Development Agreement Implementation Matrix

	Once Developer has made its reimbursement payment(s) in full pursuant to this Section 3.25, Developer shall have no further reimbursement obligation to the WRSP developer(s) for that large lot parcel. Reimbursements shall be paid directly to WRSP developers and not the City unless: (1) the reimbursement is owed to a CFD, in which case, the reimbursement would pass through the City to the applicable CFD; or (2) the improvements have not yet been constructed, or constructed but the City has not accepted, as outlined in subsection (3) below. Developer shall provide documentation to City that the reimbursements as specified in this Section 3.25 have been paid. Developer's obligation to reimburse the WRSP developer(s) pursuant to this Section 3.25 is conditioned upon the City obtaining sufficient documentation from WRSP developers supporting the costs subject to reimbursement by Developer. In the case of improvements constructed, the WRSP developer(s) shall provide City with copies of invoices for the actual cost of constructing such improvements. If such invoices are not available, documentation of payment from the WRSP CFD for WRSP improvements shall then be used. Actual cost of construction includes those items as set forth in Section 4.2.3. B. In the case of costs incurred by WRSP developer(s) for planning and Environmental analysis, the WRSP developer(s) shall provide City with copies of invoices for such costs incurred and a breakdown of Developer's pro rata share and the basis upon which such share has been calculated. Developer's total reimbursement obligation shall be based on gross acreage. Reimbursements shall be paid on a pro rata fair share basis for each large lot parcel as outlined in Section 3.25A above. C. Should Developer construct the improvements noted below in lieu of the WRSP developer(s), Developer shall receive reimbursement from benefitting third party(ies), inclusive of the WRSP developer(s), in the same manner that reimbursement is provided to the WRSP developer(s). 1. on Exhibit "P"); 18-inch sewer trunk line in Westbrook Boulevard (Segment B3, UR9) (shown); 2. 24-inch recycled water pipeline in Blue Oaks Boulevard (Segment B3,UR4) (shown on Exhibit "X"); and 3. 24-inch recycled water pipeline in Westpark Drive (Segment B4, UR5) (shown on Exhibit "X"). A minimum of one year prior to constructing any of the three improvements listed above, Developer shall give notice to City that it intends to construct the improvements. City shall notify property owners outside the Property (who, in City's reasonable determination, may be interested in developing their property with connections to the improvements) that they may be able to achieve efficiencies in the future development of their property as follows. Developer agrees to increase the capacity of ("upsized") the improvements to accommodate such additional property development, provided that not later than six (6) months prior to the intended date designated by Developer for construction of the improvements, both of the following have occurred: 1. Such other property owners (or City, at City's option) have paid to Developer, in full, the difference between Developer's actual (or estimated, to the extent that actual costs are not then available) costs for the upsized improvement and Developer's
--	--

Creekview Specific Plan Development Agreement Implementation Matrix

	estimated costs for the above described improvement required pursuant to this Agreement. 2. Such other property owners (or City, at City's option) have entered into a written agreement with Developer for direct payment to Developer of an amount equal to percentage of capacity within the pipe attributable to the other party, less the amount advanced in payment of incremental hard and soft costs for upsizing. Any such agreement shall provide for payment in full as a condition of the other party's connection to the utility system that includes the above improvements, and shall be provided on a large lot basis as described in Section 3.25A. For purposes of the foregoing, hard and soft costs shall be as defined in Section 4.2.3. D. No final small lot residential subdivision map, any building permit for high density residential or non-residential uses, nor any certificates of occupancy regardless of use type, shall be withheld or delayed by City in the CSP due to any delay in submission of requests for reimbursement,. And documentation justifying such reimbursement, by the WRSP developers to City. E. All P/QP parcels to be dedicated to City or to another public agency, e.g., school districts, shall not be subject to reimbursement obligations to the WRSP developers. F. All reimbursements for improvements to the WRSP shall be subject to annual adjustment for CCI from the date that the WRSP Developer incurred the reimbursable cost to the date of reimbursement.
Department	Environmental Utilities and Finance Department
Status	Ongoing Obligation
Section	3.26
Title	Reimbursements to/from Third Parties for Advanced Construction
Obligation	In the event that Developer or third parties advance construction of roadways or other infrastructure (excluding oversized wet utilities) otherwise required of or by the other, Developer shall provide reimbursement to third parties or shall receive reimbursement from third parties for their share of the actual costs of that construction as set forth in Section 4.2.3. Reimbursement to/from third parties shall be paid in full at the time when construction of the improvement would have otherwise been required had the improvement not been advanced. Reimbursement shall be adjusted annually by the CCI from the date the reimbursable costs were incurred to the date of reimbursement.
Department	Finance Department
Status	Currently not in development
Section	5.2
Title	Annual Review
Obligation	City shall, at least every twelve (12) months, per Roseville Municipal Code Chapter 19.84, as such period may be amended, during the term of this Agreement, review the extent of good faith substantial compliance by Developer with the terms of this Agreement. Such periodic review shall be limited in scope to compliance with the terms of this Agreement pursuant to Section 65865.l of the Government Code and the monitoring of mitigation in accordance with Section 21081.6 of the Public Resources Code of the State of California. Notice of such review shall include the statement that any review of obligations of Developer as set forth in this Agreement may result in termination of this Agreement. A finding by City

**Creekview Specific Plan
Development Agreement Implementation Matrix**

	of good faith compliance by Developer with the terms of the Agreement shall be conclusive with respect to the performance of Developer during the period preceding the review. Developer shall be responsible for the cost reasonably and directly incurred by the City to conduct such review, the payment of which shall be due within thirty (30) days after conclusion of the review and receipt from the City of the bill for such costs. Upon not less than thirty (30) days written notice by the City, Developer shall provide such information as may be reasonably requested and deemed to be required by the City in order to ascertain compliance with this Agreement. In the same manner prescribed in Section 10, the City shall deposit in the mail to Landowner and Developer a copy of all staff reports and related exhibits concerning contract performance and, to the extent practical, at least ten (10) calendar days prior to any such periodic review. Developer shall be permitted an opportunity to be heard orally or in writing regarding its performance under this Agreement before the City Council or, if the matter is referred to the Planning Commission, before the Planning Commission. If City takes no action within thirty (30) days following the hearing required under Roseville Municipal Code Section 19.84.080, or any successor thereof or amendment thereto, Developer shall be deemed to have complied in good faith with the provisions of the Agreement.
Department	Development Services
Status	Annually reviewed.

DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

Development Agreement Obligations <u>Complete</u> as of December 2024	
Section	1.3
Title	Term Amendment #2 – Ord. #5548
Obligation	Hewlett Packard Company and BBC Roseville Oaks, LLC: The City and the amending landowners hereby agree to extend the term of the Development Agreement to and through December 31, 2045, unless the Development Agreement is terminated, modified or extended by circumstances set forth in the Development Agreement, as amended, or by mutual consent of the parties hereto.
Department	City Attorney
Status	This is not an obligation, but a contractual term. This can be removed from the list of obligations.
Section	2.4.2
Title	Option to Participate in CFD Amendment #2 – Ord. #5548 Amendment #4 – Ord. #5534
Obligation	Hewlett Packard Company and BBC Roseville Oaks, LLC: Nothing in the foregoing shall restrict a Landowner, each in its sole discretion and without affecting or requiring participation by any other Landowner, from electing to include its Parcel within any community facilities district, assessment district or other such financing district to finance the construction of public improvements and/or the payment of fees for public improvements to support the development of such Landowner's Parcel. BBC Roseville Oaks, LLC: This Agreement includes specific construction funding and reimbursement obligations of Landowner and specific rights or obligations, as the case may be, to participate in a community facilities district(s) or a similar financing district to fund the acquisition and construction of specific facilities and the maintenance of certain improvements. Landowner's obligation with respect to the participation of the Property in any funding mechanisms to support the construction of any other public facilities and improvements or the provision of public services in relation to development of the Property shall be to pay City fees related to the construction and provision of such public facilities authorized by ordinance to be collected by City as of the date that City executes this Agreement as such fees may be adjusted from time to time in accordance with applicable law, or such other fees as may be duly adopted in the future by City from time to time in accordance with applicable law provided, however except as otherwise specifically provided in this agreement, landowner's obligation to pay future City fees is limited to those fees adopted on a city-wide basis or which apply uniformly to all properties within the City of Roseville which are zoned consistent with the Property's zoning as set forth in the Entitlements. Or which apply uniformly to all properties which are similarly situated, whether by geographic location, drainage sheds or other distinguishing circumstances.
Department	Finance Department
Status	Obligation complete. CFD formed.
Section	2.5.2
Title	Multi Family Affordable Rental Units Amendment #4 – Ord. #5534 Amendment #5 – Ord. #5734

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

Obligation

BBC Roseville Oaks, LLC:
Amendment #5

2.5.2 Multi Family Affordable Rental Units. Landowner agrees that eighty-seven (87) affordable rental units will be reserved within Parcels 22 and 23 of the Campus Oaks Property for rental to very low income households as follows:

Affordable Parcel	Total Units In Parcel	Total Affordable Unit Allocation	Very Low Income Rental Units
CO-22	205	45	45
CO-23	190	42	42

i. Rental Agreement Required. Prior to issuance of a building permit for either Affordable Parcel, the parties shall enter into City's then current form Affordable Rental Housing Agreement (or other applicable City-approved form) for such residential **rental** units affordable to very low income households, which shall identify the obligation to produce and deliver the applicable number of rental units affordable to very low-income households to be provided by such Affordable Parcel. The term of the Agreement shall require the affordable units to be rented only to qualified affordable households for a period of fifty-five (55) years, commencing on the date of issuance of a certificate of occupancy for each affordable unit. To accommodate potential changes in income during tenancy that may cause an initially qualified affordable household to no longer satisfy its qualification requirements, Landowner will include in its affordable rental agreements the option for a previously qualified tenant to remain in the unit notwithstanding such changes to its qualified income; provided, however, if such income increases above the limit that would enable Landowner to continue to include such unit within its planned tax-credit program (which is currently anticipated to occur at a limit of 70% of median income), then Landowner will have the right to increase the rent for such affordable tenant to then market rates. Where rents for an affordable unit are increased to market rate due to such changes in a qualified tenant's income, Landowner shall be obligated to make the next available comparable rental unit available for rent to another qualified very-low income household, all in accordance with the terms of the Affordable Rental Housing Agreement. Specific requirements of the agreement will be determined by the Economic Development Director or his/her designee. Prior to entering into any Affordable Rental Housing Agreement, Landowner shall provide to City an accounting of the status of the middle income purchase units required by section 2.5.1.

ii. Content. The Affordable Housing Rental Agreements shall, for each such Affordable Parcel, set forth, among other things, the distribution of the affordable rental units within the Parcel, and include specific requirements for marketing of affordable units, inclusion or modifications of amenities, exterior materials and finishes, alternate means of satisfying the affordable housing obligation, and good faith efforts requirements.

iii. No City Subsidy. Notwithstanding anything to the contrary in the Development Agreement regarding the City providing affordable housing funds for affordable developments if and to the extent such funds become available, in consideration of Landowner's intent to finance this affordable housing through participation in a federal tax-credit program, Landowner acknowledges that City shall not have any obligation to provide any City funds to subsidize the provision of this very-low income

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	affordable housing, even if such affordable housing funding subsequently becomes available to the City. In connection herewith, Landowner hereby waives any claims, suits, or actions against City on account of or arising from the Costa-Hawkins Rental Housing Act, California Civil Code Sections 1954.50 et seq. iv. <u>Credit for Excess Affordable Units.</u> City acknowledges that if the total number of units developed within the Campus Oaks Property does not exceed its planned number of 948 units, development of these eighty-seven (87) affordable rental units within Parcels 22 and 23 will generate eleven (11) more very-low affordable units (the "Extra Very-Low Affordable Units") than required for the Campus Oaks development to satisfy its minimum low and very-low affordable housing requirement. Subject to compliance with the terms of the Affordable Housing Rental Agreement for the provision of these affordable units within Parcels 22 and 23, the developer of such units (the "Affordable Housing Developer") shall have the right to request, subject to the reasonable approval of the City, to apply such Extra Very-Low Affordable Units as a credit against any affordable housing obligation that may arise from or otherwise be required in connection with any other residential development that the Affordable Housing Developer may seek to develop within the City of Roseville. Provided, however, that if the Affordable Housing Developer has not transferred the Extra Very-Low Affordable Units by obtaining building permits for these units by August 17, 2021, the Affordable Housing Developer shall forfeit all rights to these credits and the credits shall be transferred to the Roseville Housing Authority to be used in its sole discretion.
Department	Housing Department
Status	ARHA recorded for CO-23 in June 2017 – partial obligation complete. Ongoing obligation for ARHA for CO-22 prior to building permits. Obligation complete – both affordable agreements have been recorded for CO-22 and 23
Section	3.3
Title	Electric Amendment #3 – Ord. #5533 Amendment #4 – Ord. #5534
Obligation	Hewlett Packard Company: <u>3.3 Electric.</u> LANDOWNER shall provide electric utility improvements as provided in this section. BBC Roseville Oaks, LLC: Amendment #4 <u>3.3.1 Installation of Underground Electrical Service.</u> As electrical service becomes necessary to be extended along Blue Oaks Boulevard to service the Campus Oaks Property, Landowner shall, at its sole cost, install any such electrical service underground within the public utility easement to be granted to City along Blue Oaks Boulevard pursuant to Section 3.3.2. Landowner acknowledges that, pursuant to Section 3.8.1.A below, Landowner will be obligated to underground the existing 12kv electric line from Foothills Boulevard to Woodcreek Oaks Boulevard in connection with its installation of required Blue Oaks frontage improvements. For any required electrical services other than the 12kv line, Landowner shall only be obligated to install the portion of such underground electrical services along the frontage of the Campus Oaks Property adjacent to Blue Oaks Boulevard from its intersection with New Meadow Drive to its intersection with Woodcreek Oaks Boulevard, as shown in the cross-section in Exhibit C-1.
Department	Electric Department

Status	Obligation complete
Section	3.3.4
Title	Streetlights Amendment #3 – Ord. #5533
Obligation	Hewlett Packard Company: Concurrently with the construction of any portion of Blue Oaks Boulevard or Woodcreek Oaks Boulevard. LANDOWNER agrees to construct streetlights there in accordance with the Master Plan and the then current requirements of the Electric Department for public streetlights. In the event LANDOWNER does not install streetlights to CITY standard at the time it constructs the on-site public electrical circuits pursuant to Section 3.3.3, LANDOWNER shall do so prior to offering any such roadway to CITY for a public road. Hewlett Packard Company: Amendment #3 Concurrently with the construction or reconstruction of any portion of HP Way, Landowner agrees to construct streetlights therein in accordance with the Master Plan and the then current requirements of the Electric Department for public streetlights.
Department	Electric Department
Status	Obligation complete
Section	3.3.5
Title	Temporary Transmission Line
Obligation	Hewlett Packard Company: LANDOWNER will not oppose the installation by CITY, at CITY's sole cost, expense and discretion, a temporary 12kv electrical transmission line, on wooden poles, within CITY's existing public utility easement along Blue Oaks Boulevard from Foothills Boulevard, to the extent such line is needed to serve development of properties within CITY located to the west of the Property. Portions of such line shall be undergrounded by LANDOWNER pursuant to Section 3.3.1 above.
Department	Electric Department
Status	Obligation complete
Section	3.3.6
Title	Reservation of Substation Site
Obligation	Hewlett Packard Company: LANDOWNER hereby offers to dedicate to CITY an electrical substation site the area within the Property described therefor on Exhibit "D" attached hereto (the "Substation Site") together with a twenty-five foot (25') easement for public utility and access purposes extending north to the nearest then existent public utility easement. LANDOWNER offers to dedicate to CITY, without compensation, the Substation Site, in fee, free and clear of any monetary encumbrances, except for taxes and assessments not then delinquent. The use of such Substation Site shall be limited for the purpose substation, and appurtenant uses. The term of this dedication shall commence upon the effective date of this Agreement and shall terminate on the expiration of this Agreement or upon written notice from CITY that it will not need the Substation Site for electrical substation purposes, whichever occurs first.
Department	Electric Department
Status	Obligation complete - Dedicated at another site
Section	3.4.2
Title	Other Agency Approval
Obligation	Hewlett Packard Company:

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Prior to approval of the Master Drainage Impact Study or issuance of any building or grading permit, LANDOWNER shall obtain, at LANDOWNER's expense, all permits and agreements as required by other agencies having jurisdiction over drainage, water quality or wetlands issues including, but not limited to, the Regional Water Quality Control Board, and the U.S. Army Corps of Engineers. Prior to the issuance of any building permit or grading permit, LANDOWNER shall also obtain, at LANDOWNER's expense, any necessary permits and agreements from the California Department of Fish & Game. LANDOWNER shall prepare and implement a Storm Water Pollution Prevention and Monitoring Plan (SWP3), and shall construct and maintain Best Management Practices (BMPs) in accordance with the SWP3 as approved by the Regional Water Quality Control Board (RWQCB) concurrently with the construction of any improvements. LANDOWNER shall obtain a permit from the RWQCB for the General Construction Storm Water Permit Compliance Program prior to the start of any construction, including grading. LANDOWNER shall maintain all improvements and BMP's required by the SWP3.
Department	Engineering Division
Status	The Engineering Dept. reviewed the R21 building - all necessary permits from the RWQCB, ACOE, and DF&G were received and a SQP3 was reviewed and approved. Other areas - ongoing
Section	3.4.5
Title	Conservation Easements
Obligation	Hewlett Packard Company: LANDOWNER shall, prior to approval of a building permit for any portion of the Property whose surface water drainage will rely on drainage into either the Southern Detention Basin, the Northern Detention Basin or the Temporary Basin, grant to CITY a conservation, habitat preservation, and flow easement over the applicable Basin and, when requested by CITY, over the area of the one hundred (100) year floodplain for the South Branch of Pleasant Grove Creek. With respect to the easement for the Temporary Basin, such easement shall be temporary and shall automatically terminate upon the grant by LANDOWNER to CITY of the conservation, habitat preservation and flow easement for the Northern Detention Basin. Upon the grant by LANDOWNER of such easement for the Northern Detention Basin, CITY shall quitclaim its rights under the temporary easement over and for the Temporary Basin. Each easement shall include those adjacent areas required to provide emergency CITY access to the applicable Basin and floodplain area. Each easement shall restrict the use of the burdened property to those open space uses which (with the exception of permitted on-site flood water detention) will not restrict the flow of flood waters.
Department	Engineering Division
Status	Obligation Complete - HP has initiated the process of the dedication of conservation, habitat preservation and flow easements over the temporary basin and will grant them as soon as the documents are complete. Conservation Easement approved. A total of 44.6 acres of OS/Preserve was granted to the City on July 25, 2008 (Doc. # 2008-0060395).
Section	3.5.2.D
Title	Reservation of Well Sites
Obligation	Hewlett Packard Company: Landowner hereby offers to dedicate to CITY a groundwater well site the area within the Property described therefor on Exhibit "D" attached hereto (the "Well Site") together with a twenty-five foot (25') easement for public utility and access purposes extending north to the nearest then existent public utility easement. LANDOWNER offers to dedicate to CITY, without compensation, the Well Site, in fee, free and clear

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	of any monetary encumbrances, except for truces and assessments not then delinquent. The use of such Well Site shall be limited for the purpose of constructing and maintaining a groundwater well for potable water and appurtenant uses. The term of this dedication shall commence upon the effective date of this Agreement and shall terminate on the expiration of this Agreement or upon written notice from CITY that it will not need the Well Site for potable water purposes, whichever occurs first.
Department	Environmental Utilities Department
Status	Obligation complete - On May 25, 2003 the city of Roseville requested the dedication of the groundwater well site on the Woodcreek Oaks side of the property. In addition to the well site dedication the Environmental Utilities Department would like a 25' PUE easement on the adjacent parcel for access. Well site dedication expected to occur Fall 2003. Dedicated with the Campus Oaks large lot map.
Section	3.5.4
Title	Confirmation of Water Supply Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: The City has determined, even without Landowner's planned utilization of Recycled Water and implementation of the Water Conservation Plan, that the water demand for the Project is less than the demand originally associated with the previously approved land uses for the Campus Oaks Property and, therefore, the available water supply, as originally set-aside to serve development of the Campus Oaks Property, is sufficient to serve all of the Project. This determination was the conclusion of a review of the demand and source issues originally planned for the Property, and as modified by the projected build-out of the Project, based upon the various technical studies completed in connection with the environmental review of the Project. The demand for water at build-out of the Project was determined by reference to the City's current information on water usage by the various land uses included and permitted within the City and the proposed land uses within the Project and by reference to the Campus Oaks Master Water Conservation Plan (June 18, 2015) as shown in Exhibit M. The sources for water evaluated for the Project are the same types of sources currently used throughout the City; namely, surface water contracts with federal and local agencies, and, in drought or emergency situations, the use of groundwater. City and Landowner are satisfied, based upon detailed technical analysis, that the demand and source assumptions relied upon to assure water for the Project are valid and are adequately served by the water demands and sources originally planned for development of the Property.
Department	Environmental Utilities Department
Status	Obligation complete.
Section	3.8.3
Title	Subdivision Amendment #3 – Ord. #5533 Deleted Section 3.8.1 through 3.8.4
Obligation	Hewlett Packard Company: As a condition of approval of a subdivision or parcel map for a portion of the Property which abuts either Blue Oaks Boulevard or Woodcreek Oaks Boulevard, CITY may require construction of improvements to the abutting portion(s) of said roadway(s) prior to the time set forth in Sections 3.8.1 or 3.8.2 as allowed by the Subdivision Map Act and the City of Roseville Subdivision Ordinance, as amended from time-to-time.
Department	Engineering Division
Status	Deleted obligation
Section	3.8.4
Title	Foothills Boulevard Landscaping

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Amendment #3 – Ord. #5533 Deleted Section 3.8.1 through 3.8.4 Amendment #4 – Ord. #5534 Deleted Section 3.8.4 and 3.8.5
Obligation	Hewlett Packard Company: Within three (3) months of the effective date of this Agreement, LANDOWNER shall prepare and submit to CITY a landscaping plan for the installation of landscaping along the balance of the Property adjacent to Foothills Boulevard that is not now landscaped. Such plan shall include a phasing plan for the timing of such installation from the existing landscaping to the intersection of Foothills and Blue Oaks Boulevards. LANDOWNER shall commence the installation of such landscaping and diligently proceed therewith, all in accordance with the terms and provisions of the landscaping plan, including the phasing plan provided therefor, once said plan is approved by CITY.
Department	Engineering Division
Status	Deleted obligation
Section	3.8.5
Title	Security Gates Amendment #3 – Ord. #5533 Amendment #4 – Ord. #5534 Deleted Section 3.8.4 and 3.8.5
Obligation	Hewlett Packard Company: LANDOWNER shall have the discretion to install security gates at the entrances to the Property from Foothills, Blue Oaks and/or Woodcreek Oaks Boulevards. With respect thereto, LANDOWNER shall design the security gates to allow adequate stacking from the edge of the right of way from the applicable Boulevard as approved by CITY and to provide at a minimum for a turn around for a semi-trailer truck, which turn around may be located inside the security gate. Upon request of CITY, LANDOWNER shall prepare and submit a stacking analysis for approval by CITY for each proposed new security-gated entrance. 3.8.5 No Security Gates Within HP Way Right of Way. In consideration of this Agreement and the intent that the City accept HP Way and utility improvements to be installed therein as a public road and utilities, Landowner shall not have the right to install or maintain any security gates along the portion of HP Way dedicated or to be dedicated to the City. Notwithstanding the foregoing, Landowner shall have the right to install security gates at any entrance to the HP Property adjoining HP Way or along Local Road E (as long as such road is privately owned and maintained by Landowner), subject to compliance with City standards for access and stacking. Landowner shall also have the right, at its discretion, to install signage along HP Way (including within the HP Way right of way along the HP Property outside of the improved roadway portion thereof), provided that the signage complies with the City's then-existing signage requirements and sign ordinance.
Department	Engineering Division
Status	Deleted obligation
Section	3.8.6
Title	Traffic Signals
Obligation	Hewlett Packard Company: LANDOWNER shall not be obligated to construct or reimburse the cost of the traffic signals to be constructed at the intersections of Woodcreek Oaks and Blue Oaks Boulevards and of Blue Oaks Boulevard and Foothills Boulevards, except through its payment of traffic fees or to the extent LANDOWNER is required to bear the expenses of widening Blue Oaks Boulevard, Woodcreek Oaks Boulevard or Foothills Boulevard and said widening includes the obligation to move or redesign the traffic

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	signals. Also, in consideration of the traffic signal improvements at the intersection of Foothills Boulevard and. Roseville Parkway previously installed by LANDOWNER pursuant to the Agreement to Install Improvements between CITY and LANDOWNER dated January 8, 1992, LANDOWNER shall not be obligated to share in the cost of any additional traffic signal improvements to be constructed at such intersection by CITY or the adjoining landowner. As and when LANDOWNER connects a Collector with Foothills, Blue Oaks or Woodcreek Oaks Boulevards, or connects Arterial A with Woodcreek Oaks Boulevard, LANDOWNER shall be responsible for either installing the traffic signal required by CITY for such intersection or to reimburse half the actual hard cost thereof consisting of the identifiable and commercially reasonable costs of design, engineering and construction, if previously installed by others. LANDOWNER shall be entitled to reimbursement for one-half of the similar actual hard costs of each such traffic signal installed by LANDOWNER from the opposite landowner at such time that any roadway improvements opposite the applicable improved intersection are completed and open to public or private use. LANDOWNER shall reimburse the opposite landowner for one-half of the actual hard cost, consisting of the identifiable and commercially reasonable costs of design, engineering and construction for the traffic signal to be installed at LANDOWNER's southerly access to Foothills Boulevard within thirty (30) days after completion of said traffic signal and acceptance by CITY.
Department	Public Works Department
Status	Obligation complete - Traffic signals have been constructed and are operational at Woodcreek Oaks/Blue Oaks Blvds. and Blue Oaks/Foothills Blvds. HP's financial obligation for signal is satisfied through the payment of TMF collected upon issuance of BP. The Signal at Blue Oaks/Foothills Boulevards has been satisfied through TMF fees collected for development of the R21 building.
Section	3.8.8.A
Title	Dedications and Construction Licenses for HP Way Amendment #2 – Ord. #5548
Obligation	Hewlett Packard Company and BBC Roseville Oaks, LLC: Within ninety (90) days of the approval of this Second Amendment, Hewlett-Packard hereby agrees to provide the following: i. To the City, an irrevocable offer to dedicate (IOD) the right-of- way, in fee, and public utility easements for the portions of HP Way located within Parcel 1, consistent with the alignment therefor as provided in the Master Plan. Also, as directed by the City, to the extent required for the City to maintain any existing private roadway drainage improvements serving HP Way that are not replaced by public drainage improvements therein, Hewlett-Packard will grant to the City a right to enter Parcel 1 in a form reasonably acceptable to the City to perform any maintenance thereof, at Hewlett-Packard's cost, if and to the extent not otherwise performed by Hewlett-Packard; and ii. To Campus Oaks, a temporary construction license to allow Campus Oaks to construct, if and when required by development of Parcel 4, the portion of HP Way located within the dedicated right-of-way therefor within Parcel 1, in the form attached hereto as Exhibit H. The foregoing temporary construction license shall each automatically terminate upon completion of construction of all improvements that may be constructed

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	pursuant thereto or upon City acceptance of all the improvements that may be constructed pursuant thereto.
Department	Engineering Division
Status	Obligation complete.
Section	3.9
Title	Option to Purchase Property in Southwest Corner
Obligation	Hewlett Packard Company: LANDOWNER hereby grants to CITY an option to purchase five and three-tenths (5.3) acres of property contained within the southwestern corner of the Property and located southwest of Pleasant Grove Creek, as such five and three-tenths (5.3) acres are more particularly described in Exhibit "H" hereto. The term of the option shall be five years from the effective date of the Agreement, with a five year option to extend the option, and may be exercised at any time by CITY upon written notice to LANDOWNER. The purchase price shall be the fair market value of the property as of the time of exercise by CITY. Any such notice shall include a statement of the proposed purchase price for such property, based on an appraisal obtained by CITY. LANDOWNER may elect to sell the property at such price or may elect to obtain its own appraisal thereof, to be obtained within 60 days of such notice from CITY. If two appraisals are obtained and are within 10% of each other, the purchase price shall be equal to the average thereof; if not, a third appraisal shall be obtained (with the appraiser either selected by the parties or, if the parties are unable to agree, then by the appraisers), which shall be completed within 45 days of such selection. If three appraisals are obtained, the appraisal that deviates the most from the middle appraisal shall be discarded and the average of the other two shall be used as the purchase price. CITY shall close escrow for the purchase of such property within sixty (60) days of the agreement or determination of the purchase price. The parties shall open an escrow with a title company mutually acceptable thereto and CITY shall bear all costs in closing such escrow, including all transfer taxes, escrow fees and title insurance, if any. If CITY fails to timely exercise the option or close escrow after exercise, then this option shall automatically terminate and CITY shall execute a quitclaim or other such document evidencing the termination of this option. This option shall not be assignable by CITY without the prior written consent of LANDOWNER, which may be withheld in its sole discretion.
Department	City Attorney and Economic Development Department
Status	Obligation complete - On January 14, 2001 the City extended their option to purchase the 5.3-acre site for five years (August 1, 2006). On April 18, 2001 the city requested the option to purchase the 5.3 acre site. The close date for the City to purchase this Parcel was September 26, 2001.
Section	3.10
Title	Liens, Encumbrances, Covenants, Conditions and Restrictions
Obligation	Hewlett Packard Company: Except as approved by CITY or provided for by this Agreement, all property to be conveyed to CITY pursuant to this Agreement (whether in fee or as an easement) shall be free of any liens, encumbrances, toxic materials, wetlands, special taxes or assessments, except other easements then of record. LANDOWNER shall, for each such conveyance, provide to CITY at LANDOWNER's expense a current preliminary title report and preliminary site assessment for hazardous waste in a form approved by the City Attorney. Any policy of title insurance required by CITY shall be at CITY's expense.
Department	City Attorney
Status	City will require PSA's prior to conveyance of any properties. Evaluation regarding encumbrances done at time of conveyance. Landowner completed this obligation for the Option property.
Section	3.11

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

Title	No Security During Construction
Obligation	Hewlett Packard Company: LANDOWNER shall not be required to provide any security for any improvements to be constructed on the Property during any phases of construction, except for payment, performance and maintenance bonds that may be required in connection with the construction of improvements within the public rights-of-way for Woodcreek Oaks, Blue Oaks and Foothills Boulevards or in conjunction with a Subdivision Improvement Agreement for subdivision of any portion of the property. All construction material storage areas shall be fenced and secured as approved by the police chief.
Department	Police Department
Status	Obligation complete.
Section	3.14
Title	Landscape and Lighting District
Obligation	Hewlett Packard Company: <u>3.14.1 Formation.</u> <u>3.14.1.A Consent and Waiver.</u> LANDOWNER consents to and shall cooperate in forming a Landscape and Lighting District, or including the Property within a special zone of an existing landscape and lighting district, pursuant to the provisions of Section 22500, et. seq., of the Streets and Highways Code of the State of California (herein the "LLD") and consents herewith to the levy of such assessments as are necessary to pay the Property's fair share of the cost to maintain the median landscaping. LANDOWNER shall be solely responsible for maintaining its landscaping from the back of the curb from said rights-of-way and, therefore, no assessment shall be levied by the LLD for such costs, unless and until LANDOWNER elects to relinquish such responsibility and conveys an easement to CITY for any such landscape areas, and CITY accepts said easement and assumes the responsibility to maintain the landscaping. Nothing in this section shall be construed as an agreement to any specific allocation of assessment, burden or benefit to a particular parcel or parcels or to constitute a waiver of the right of LANDOWNER to protest an allocation of a particular assessment burden or benefit. <u>3.14.2 Obligation of District.</u> The Landscape and Lighting District, or zone therein, formed pursuant to Section 3.16.1 in which LANDOWNER agrees to participate shall maintain the landscape medians within the portions of Foothills Boulevard and Blue Oaks Boulevard adjacent to the Property, and the landscape median within the portion of Woodcreek Oaks Boulevard located between Arterial A and Blue Oaks Boulevard.
Department	Finance Department
Status	Obligation complete - Will not be forming a Landscape and Lighting District –
Section	3.22
Title	Community Facilities District – Public Facilities (Project Infrastructure) Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 <u>3.22.1 Formation.</u> Landowner and City shall form a Community Facilities District for the purpose of financing the construction and/or acquisition of public infrastructure and facilities within the Campus Oaks Property (an "Infrastructure CFD"). City and Landowner shall use their best efforts to cause to be formed the Infrastructure CFD for the purpose of financing the acquisition or construction of some or all of the improvements and facilities and payment of capital facility fees eligible for CFD financing (the "CFD Eligible Improvements") within and associated with the Project, including those improvements and impact fees which will mitigate impacts of the

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Project upon areas inside and outside of the Project, and will be owned, operated and maintained by the City or another public agency. A list of CFD Eligible Improvements is attached hereto as Exhibit N. More specifically, the CFD Eligible Improvements are those improvements including, but not limited to roadway and frontage improvements for HP Way, Blue Oaks Boulevard, Woodcreek Oaks Boulevard, New Meadow Drive, Painted Desert Drive and Crimson Ridge Way; traffic signals; right of way acquisitions; water, sewer, recycled water, and drainage improvements and appurtenances; landscape and landscape irrigation and drainage facilities; environmental mitigation and remediation; bicycle and pedestrian facilities; parks and paseos within the Campus Oaks Property and the HP2/CO64 Park; electrical and dry utility improvements; transit improvements; masonry walls; development impact fees; design, engineering, surveying, construction management, and security for CFD Eligible Improvements; and other improvements and/or impact fees as which are defined as authorized improvements under the Infrastructure CFD selected by the City or any ordinance under the City. Formation of the Infrastructure CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53311, et seq. Landowner shall be allocated and assessed special taxes as specified in a tax formula agreed to by City and Landowner, in accordance with the financing plan for the Project. The rights and obligations under this Section 3.22 shall survive the termination or expiration of this Agreement. <u>i. Terms of CFD.</u> City and Landowner agree that, to the extent permitted by law, City and Landowner shall use their best efforts to cause bonds to be issued and in amounts sufficient to affect the purposes of this section. City and Landowner further agree that, to the extent permitted by law, the City agrees to the following: (a) Maximum Annual Taxes for residential units, when aggregated with all other existing or expected taxes and assessments (excluding homeowners association assessments), shall not exceed 2.00% of the assessed valuation, net of the homeowner's exemption (2% Test). (b) The Special Tax shall be levied for as long as needed to service the principal and interest on bond debt to fund the acquisition or authorized facilities, and to pay for any additional authorized facilities not reimbursed with bond proceeds as defined in the Funding, Construction, and Acquisition Agreement during the first ten (10) years of the Special Tax levy. (c) City shall not unreasonably deny the Maximum Annual Tax escalating at 2% per year. (d) Authorized facilities shall include, among other items, development impact fees for public improvements. (e) Annual Costs shall provide that special taxes not used for debt service and City administration be paid to Landowner during the first ten (10) years of the Infrastructure CFD for the costs and/or acquisition of any authorized facilities not reimbursed with bond proceeds (pay-as-you-go). City shall reasonably consider a reasonable interest component for any authorized facilities reimbursed with pay-as-you-go provided for in the Funding, Construction and Acquisition Agreement defined below. (f) Landowner may utilize the Statewide Community Infrastructure Program ("SCIP") for any eligible impact fees.
--	--

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	(g) Landowner may utilize a phased bond sale or sales. “(h) Landowner may utilize private placement of bonds. <u>ii. Acquisition Agreement.</u> Concurrent with formation of the Infrastructure CFD, Landowner and City shall enter into a shortfall agreement as defined in the Funding, Construction, and Acquisition Agreement, in form and substance acceptable to City, whereby Landowner shall covenant to finance the costs of the CFD Eligible Improvements, to the extent that the bonds issued by the Infrastructure CFD do not provide sufficient funding for the completion of such Improvements, subject to reimbursement/acquisition by pay-as-you-go proceeds to the extent available. <u>iii. Alternative Financing.</u> Nothing herein shall be construed to limit Landowner's option to install the public improvements through the use of traditional assessment districts or private financing.
Department	Finance Department
Status	Obligation Complete - District formed
Section	3.23
Title	Community Facilities District – Public Services (Services CFD) Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 <u>3.23.1 Formation of Campus Oaks Public Services CFD.</u> No residential building permit, excluding permits for model homes, or certificate of occupancy for non-residential uses, shall be issued until a Community Services District - Public Services has been formed to include the Campus Oaks Property ("Public Services CFD"). Landowner consents to and shall cooperate in such formation or other such financing mechanism for maintenance purposes and consent herewith to the levy of such special taxes as are necessary to fund the maintenance obligations described in Section 3.23.1(i) below. Formation of the Public Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53311, et seq. The Public Services CFD will fund maintenance of landscaping, paseos and open space (parcels CO81 and CO82), neighborhood parks within the Campus Oaks Property, and the neighborhood park components of the HP2/CO64 Park. The rate and method for the Public Services CFD shall reflect differential tax rates between low density residential, medium density residential, high density residential, and non-residential land uses. <u>i. Public Services.</u> The Public Services CFD shall provide the funds required for the performance of maintenance obligations consisting of the following: (a) Autumn leaf cleanup for collector and local streets; (b) Maintain neighborhood parks within the Campus Oaks Property and the neighborhood park improvement components to be installed within the HP2/CO64 Park and accepted by the City; (c) Maintain paseos, and medians, and landscape corridors, including masonry walls installed therein along arterial roadways where they are adjacent to low and medium density residential land uses within the Campus Oaks Property, and medians within HP Way, and median landscaping within Woodcreek Oaks Boulevard and Blue Oaks Boulevard adjacent to and fronting the Campus Oaks Property;

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	(d) Maintain bikeways and trails and their appurtenances (drainage [limited to culverts or outfall pipes from adjacent subdivisions or roads], signs, benches, striping and ancillary landscaping) within and adjacent to the Campus Oaks Property; (e) Maintain City and neighborhood entry features within the Campus Oaks Property, public rights-of-way and ancillary landscaping; (f) Conduct any necessary environmental mitigation monitoring, and the annual review thereof, as and to the extent required by the Mitigation Monitoring Plan related to the EIR and Addendum, and annual Development Agreement review and implementation; (g) Inspect, monitor, and maintain all water quality structural controls, storm management facilities (and programs) within rights-of-way and open space; (h) Maintain open space parcels CO81 and CO82, including general maintenance, signage and City-owned fence maintenance, and trash and debris collection; (i) Conduct all monitoring, reporting and adaptive management for and maintenance of the open space preserve area previously dedicated to and accepted by the City consistent with the 404 Permit and O&M Plan (the "Preserve Maintenance Costs"), as more particularly described in that certain Agreement to Fund Maintenance Costs between the City and Hewlett-Packard Company, dated June 18, 2008, and recorded against the Campus Oaks Property as Document No. 2008-0053391 (the "Maintenance Funding Agreement"). Such Preserve Maintenance Costs shall be financed by this Public Services CFD if and only if Community Facilities District 4 (Annexation 4) previously formed by the City to finance such costs is terminated, discontinued or otherwise unable to fund such Preserve Maintenance Costs. By authorizing these Preserve Maintenance Costs for financing under this Public Services CFD and thereby providing additional assurance to the City that these Preserve Maintenance Costs will be funded in perpetuity, the City acknowledges that, upon formation of this Public Services CFD, the requirement to provide such additional assurances under the Maintenance Funding Agreement shall be deemed fully satisfied and City shall cooperate in any additional documentation required to remove the Maintenance Funding Agreement from the Campus Oaks Property as a document of public record; (i) Maintain fire breaks within open space areas; and (j) Maintain a Replacement Reserve Fund for repair and replacement of entry features, signage, lighting, landscaping and irrigation retrofits in paseos, medians and landscape corridors, and other special features including structures, park features/amenities, etc. included in the areas to be maintained through the Public Services CFD, as indicated in the Design Guidelines. <u>3.23.2 Public Parcel Exclusion.</u> Landowner expressly agrees that Parcels conveyed or to be conveyed to the City shall be excluded from any assessment imposed by the Public Services CFD.

DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	<u>3.24.1 Formation/Annexation; Consent, Waiver and Special Benefit.</u> No residential building permit, excluding permits for model homes, shall be issued until a Community Facilities District – Municipal Services (“Municipal Services CFD”) has been formed or the Campus Oaks Property has been annexed to the City’s existing Municipal Services CFD. Landowner consents to and shall cooperate in such formation or other such financing mechanism for services purposes and consent herewith to the levy of such special taxes as are necessary to fund the maintenance obligations described in Section 3.24.2. Formation of or annexation to the Municipal Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53311, et seq. The initial amount of the maximum special tax shall be in accordance with the Municipal Services District Rate, Method, and Apportionment (“RMA”), and adjusted annually for inflation. The initial amount of the maximum special tax (for the 2015/16 City fiscal year, and as subsequently adjusted annually) shall be \$156 for LDR units, \$91 for MDR units, \$46 for HDR units, \$366 per acre for business professional/tech/business park land uses, and \$425 per acre for commercial land uses. City shall initiate the necessary steps to revise the RMA in the City’s existing Municipal Services CFD to conform to the above-referenced initial amounts of maximum special taxes. <u>3.24.2 Municipal Services.</u> The Municipal Services CFD shall provide the funds required to offset the Project’s impact on City general fund resources available to pay for municipal services citywide, including the Project. The funds shall be utilized for general fund purposes.
Department	Finance Department
Status	Obligation complete - Annexed into CFD 3
Section	3.25
Title	Fire Station Site Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Landowner shall reserve for transfer to the City an approximately 2.15 acre site (Parcel CO-75), for use as a fire station at the location shown in the Campus Oaks Master Plan and as shown in Exhibit J attached hereto. The net buildable area (i.e., an area of land, which may be fully and completely utilized for structures and other improvements) shall be no less than 2.15 acres. Site frontage improvements and site preparation as described below are to be completed by Landowner prior to City acceptance of Landowner’s conveyance of the site and funded from the Infrastructure CFD bond proceeds. At Landowner’s expense, site grading, frontage improvements including roadways, curb and gutter, sidewalks and utility services (including water, sewer, gas, electric, voice/data communication, fire systems and other such utility services) shall be completed prior to transfer of the site to the City consistent with the City’s Grading Ordinance. If retaining walls are required, the retaining wall shall be a split faced. Prior to recordation of the first small lot residential subdivision map or issuance of first building permit, Landowner shall also fund from the Infrastructure CFD the City’s cost, not to exceed \$10,000, a propagation study to determine if a public safety radio tower will be needed on the site when the station is in operation.

Obligation	Hewlett Packard Company: Subject to the provisions and conditions of this Agreement, CITY agrees that CITY is granting, and grants herewith, a fully vested entitlement and right to develop the Property in accordance with the terms and conditions of this Agreement and the Entitlements. CITY acknowledges that the Entitlements include the following land uses for the Property: General Commercial: 28.5 acres Light Industrial: 425.8 acres Light Industrial: 451.8 acres Open Space: 45.9 acres Total: 952 acres

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of this Agreement, or as they may provide from time-to-time by amendment of the Master Plan. LANDOWNER's vested right to proceed with the development of the Property shall be subject to subsequent approvals and the Intensity Thresholds as defined and as provided for in the Master Plan, provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of the Property for the uses and to the density or intensity of development or rate of timing of development set forth in this Agreement so long as the limitations set forth in the Intensity Thresholds have not been reached and further provided LANDOWNER is not in default under this Agreement.

**Hewlett Packard Company and BBC Roseville Oaks, LLC:
Amendment #2**

Subject to the provisions and conditions of this Agreement, ,City agrees that City is granting and grants herewith, a fully vested entitlement and right to develop Parcels 1 and 4 in accordance with the terms and conditions of this Agreement and the Entitlements. City acknowledges that the Entitlements include the following land uses for Parcels 1 and 4:

Light Industrial: 331.08 acres

As depicted in revised Exhibit B that is attached hereto and replaces the prior "Revised Exhibit B" for the Development Agreement as to Parcels 1 and 4. Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of this Agreement, or as they may provide from time-to-time by amendment of the Master Plan as provided for herein. Each Landowner's vested right to proceed with development of its respective Parcel shall be subject to subsequent approvals and the Intensity Thresholds as defined and as provided for in the Master Plan for such Parcel, provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of such Parcel for the uses and density and intensity of development or rate of timing of development set forth in this Agreement so long as the limitations set forth in the Intensity Thresholds have not been reached for such Parcel and further provided that such Landowner is not in default under this Agreement.

For purposes of this Second Amendment and development of Parcels 1 and 4 pursuant to the Master Plan and all other entitlements that exist at the time this Agreement is executed, the City and Amending Landowners hereby agree that the Intensity Thresholds for uses described for Parcels 1 and 4 in the Master Plan are allocated to such Parcels as follows:

Property	Acreage	Gross Sq. Ft. <i>(Light Industrial)</i>	Average FAR	Water <i>(Max Daily Demand)</i>	Sewer <i>(Max Daily Flow)</i>	Electric <i>(Peak Annual Demand)¹</i>	Traffic <i>(PM Peak Hour Trips)</i>
HP/PCL 1	140.70	1,670,000	0.27	.65 mgd	.45 mgd	11.24 MW	1,904.5
Campus Oaks/PCL 4	189.88	1,047,000	0.13	.41 mgd	.28 mgd	7.05 MW	1,193.5
Remaining Property	116.44	1,500,000	0.30	.58 mgd	.40 mgd	10.10 MW	1,709
Totals	447.02	4,217,000	.22	1.64 mgd	1.13 mgd	28.39 MW	4,807

1. Electric Demand is based on gross square foot allocations. Actual demand may increase with infrastructure improvements.

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

	As a result of these allocations of Intensity Thresholds to Parcels 1 and 4, the City acknowledges and agrees that the development rights allocated to and vested for such Parcels pursuant to this Section 2.2, as well as the remaining Intensity Thresholds allocated and preserved hereby to the Remaining Property as set forth above, shall not be affected or reduced by any action taken by the City. The City reserves the right to review each subsequent entitlement application for development of each Parcel to ensure that the thresholds are not exceeded in the future without appropriate mitigation by the owner of such Parcel and to ensure that the proposed development meets all other applicable design guidelines. So long as the development of a Parcel is consistent with the vested development rights allocated thereto under this Development Agreement, the obligations associated with that development shall be limited to the payment of all fees associated with such development, the installation of roadway and utility improvements described in the terms of this Development Agreement and the Master Plan, and the payment of any reimbursements for improvements installed by other Amending Landowners as provided herein. Hewlett Packard Company: Amendment #3 Section 2.2 of the Development Agreement is hereby revised in its entirety to read as follows. As noted in Recital 4 above, in support of the coordinated development of the Campus Oaks Property with the HP Property, Landowner acknowledges and agrees that the changes below include a reduction in developable square footage and corresponding traffic and utility capacities previously allocated and reserved for development within the HP Property from 1,670,000 sq. ft. to 1,200,000 sq. ft., which reduction in development capacities is being re-allocated to and included within the development of the Campus Oaks Property: Subject to the provisions and conditions of this Agreement, City agrees that City is granting, and grants herewith, a fully vested entitlement and right to develop the HP Property in accordance with the terms and conditions of this Agreement and the Entitlements. City acknowledges that the Entitlements include the following land uses (with approximate acreages) for the HP Property: Light Industrial 129.2 acres Parks 8.7 acres Roads 2.8 acres Total: 140.7 acres All as set forth in Exhibit B. Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of the Development Agreement, or as they may provide from time-to-time by amendment of the Master Plan. Landowner's vested right to proceed with the development of the HP Property shall be subject to subsequent approvals and the Intensity Thresholds as defined and as provided for in the Master Plan, provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of the HP Property for the uses and to the density or intensity of development or rate of timing of development set forth in this Agreement so long as the limitations set forth in the Intensity Thresholds have not been reached and further provided Landowner is not in default under this Agreement. For purposes of this Third Amendment and development of the HP Property pursuant to the Master Plan, the Intensity Thresholds for Light Industrial uses described for the HP Property in the Master Plan are as follows:
--	--

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

Property	Gross Sq. Ft.	Water (Max Daily Demand)	Sewer (Max Daily Flow)	Electric (Peak Annual Demand)	Traffic (PM Peak Hour Trips)
HP Property	1,200,000	0.72 mgd	0.32 mgd	8.08 MW	1,368
Landowner and City acknowledge that, as more particularly described in the Master Plan and as analyzed in the Addendum, nothing in this Agreement or the Entitlements vested hereby for the HP Property affects or reduces the vested development rights of the other properties within the Master Plan Area. Landowner acknowledges and agrees that the uses described in the Master Plan for the other properties within the Master Plan Area are compatible with the vested uses planned for development of the HP Property. BBC Roseville Oaks, LLC: Amendment #4 Revised Section 2.2 (Vested Entitlements) Section 2.2 of the Development Agreement is hereby revised in its entirety to read as follows. As noted in Recital 4 above and the Third Amendment, in support of the coordinated development of the Campus Oaks Property with the HP Property; Landowner acknowledges the changes below are supported, in part, by Hewlett-Packard's agreement in the Third Amendment to reduce the developable square footage and corresponding traffic and utility capacities previously allocated and reserved for development within the HP Property from 1,670,000 sq. ft. to 1,200,000 sq. ft. , which reduction in development capacities is being reallocated to and included within the development of the Campus Oaks Property: Subject to the provisions and conditions of this Agreement, City agrees that City is granting, and grants herewith, a fully vested entitlement and right to develop the Campus Oaks Property in accordance with the terms and conditions of this Agreement and the Entitlements. City acknowledges that the Entitlements include the following land uses (with approximate acreages) for the Campus Oaks Property: Low/Med Density Residential—82.4 acres High Density Residential—22.0 acres Commercial/Retail—19.3 acres Light Industrial (Tech Park/Business Park)—32.8 acres Business Professional—5.5 acres Parks—10.7 acres Paseos—2.3 acres Open Space—1.6 acres Fire Station and Well Sties (P/QP)—2.5 acres Roads—10.7 acres Total: 189.8 acres All as set forth in Exhibit 8. Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of the Development Agreement, or as they may provide from time to time by amendment of the Master Plan. Landowner's vested right to proceed with the development of the Campus Oaks Property shall be subject to subsequent approvals as defined and as provided for in the Master Plan, provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of the Campus Oaks property for the uses and to the density or intensity of development or rate of timing of development set forth in this . Agreement so long as any limitations set forth in the					

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

Master Plan applicable to the Campus Oaks Property have not been reached and further provided Landowner is not in default under this Agreement. For purposes of development of Parcels CO-51 and CO-52 of the Campus Oaks Property pursuant to the Master Plan, the Intensity Thresholds for the planned Light Industrial (Tech Park/Business Park) uses described for Parcels CO-51 and CO-52 of the Campus Oaks Property in the Master Plan are as follows:					
Property	Gross Sq. Ft.	Water (Max-Daily Demand)	Sewer (Max-Daily Flow)	Electric (Peak Annual Demand)	Traffic (PM Peak Hour Trips)
CO PCL 51 and 52	300,000	0.17 mgd	0.06 mgd	2.02 MW	291

~~Landowner and City acknowledge that, as more particularly described in the Master Plan and as analyzed in the Addendum, nothing in this Agreement or the Entitlements, vested hereby for the Campus Oaks Property affects or reduces the vested development rights of the other properties within the Master Plan Area. Landowner acknowledges and agrees that the uses described in the Master Plan for the other properties within the Master Plan Area are compatible with the vested uses planned for development of the Campus Oaks Property.~~

~~Landowner acknowledges that it shall have no right to seek to amend the zoning of the portion of the Campus Oaks Property identified on Exhibit B as Parcels CO-51 and CO-52 from Light Industrial (Tech/Business Park) use for a period of twenty (20) years from the Effective Date of this Fourth Amendment.~~

**BBC Roseville Oaks, LLC:
Amendment #5**

Low/Med Density Residential – 77.1 acres/491 units
High Density Residential – 21.9 acres/457 units
Commercial/Retail – 19.3 acres/170,000 sq ft
Light Industrial (Tech Park/Business Park) – 32.8 acres/300,000 sq ft
Business Professional – 10.5 acres/60,000 sq ft
Parks – 10.7 acres
Paseos – 3.2 acres
Open Space – 1.6 acres
Fire Station and Well Sties (P/QP) – 2.5 acres
Roads – 10.7 acres

Total: 189.8 acres

Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of the Development Agreement, or as they may provide from time-to-time by amendment of the Master Plan, Landowner's vested right to proceed with the development of the Campus Oaks Property shall be subject to subsequent approvals as defined and as provided for in the Master Plan, .provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of the Campus Oaks Property for: the uses and to the density or intensity of development or rate of timing of development set forth in this Agreement so long as any limitations set forth in the Master Plan applicable to the Campus Oaks Property have not been reached and further provided Landowner is not in default under this Agreement.

"For purposes of development of Parcels CO-51 and CO-52 of the Campus Oaks Property pursuant to the Master Plan, the Intensity Thresholds for the planned Light industrial (Tech Park/Business Park) uses described for Parcels CO-51 and CO-52 of the Campus Oaks Property are the Master Plan are as follows:

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

Property	Gross Sq. Ft.	Water (Max Daily Demand)	Sewer (Max Daily Flow)	Electric (Peak Annual Demand)	Traffic (PM Peak Hour Trips)
CO PCL 51 and 52	300,000	0.17 mgd	0.06 mgd	2.02 MW	291

Landowner and City acknowledge that, as more particularly described in the Master Plan and as analyzed in the First and Second Addenda, nothing in this Agreement or the Entitlements vested hereby for the Campus Oaks Property affects or reduces the vested development rights of the other properties within the Master Plan Area. Landowner acknowledges and agrees that the uses described in the Master Plan for the other properties within the Master Plan Area are compatible with the vested uses planned for development of the Campus Oaks Property.

Landowner acknowledges that it shall have no right to seek to amend the zoning of the portion of the Campus Oaks Property identified on Exhibit B as Parcels CO-51 and CO52 from Light Industrial (Tech/Business Park) use for a period of twenty (20) years from the Effective Date of the Fourth Amendment.

**Quality Investment Properties:
Amendment #6**

Subject to the provisions and conditions of this Agreement, CITY agrees that CITY is granting and grants herewith, a fully vested entitlement and right to develop Parcel 3 in accordance with the terms and conditions of this Agreement and the Entitlements. CITY acknowledges that the Entitlements include the following land uses for Parcel 3:

Light Industrial: 59.2 acres

Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of this Agreement, or as they may provide from time-to-time by amendment of the Master Plan by LANDOWNER as provided for herein. LANDOWNER' s vested right to proceed with development of Parcel 3 shall be subject to the Intensity Thresholds defined in this section below. Such vested rights are also subject to subsequent approvals as defined and as provided for in the Master Plan, provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of Parcel 3 for the uses and density and intensity of development or rate of timing of development set forth in this Agreement so long as the limitations set forth in the Intensity Thresholds have not been reached for Parcel 3 as described below and further provided that LANDOWNER is not in default under this Agreement.

For purposes of this Sixth Amendment and development of Parcel 3 pursuant to the Master Plan and all other entitlements that exist at the time this Agreement is executed, the CITY and LANDOWNER hereby agree that the Intensity Thresholds for uses described for Parcel 3 in the Master Plan are allocated to Parcel 3 as follows:

Property	Acreage	Gross Sq. Ft.	Average AFR	Water (Max Daily Demand)	Sewer (Max Daily Flow)	Electric (Peak Annual Demand) ¹	Traffic (PM Peak Hour Trips)
QIP/PCL3	59.2	900,000	0.35	0.35 mgd	0.24 mgd	6.06 MW	1,025

I. Electric Demand is based on gross square foot allocations. Actual demand may increase with infrastructure improvements.

As a result of these allocations of Intensity Thresholds to Parcel 3, the CITY acknowledges and agrees that the development rights allocated to and vested for

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

	such Parcel pursuant to this Section 2.2, shall not be affected or reduced by any action taken by the CITY. The CITY reserves the right to review each subsequent entitlement application for development of Parcel 3 to ensure that the thresholds are not exceeded in the future without appropriate mitigation by the owner of such Parcel and to ensure that the proposed development meets all other applicable design guidelines. So long as the development of the Parcel is consistent with the vested development rights allocated thereto under this Development Agreement, the obligations associated with that development shall be limited to the payment of all fees associated with such development and the installation of roadway and utility improvements described in the terms of this Development Agreement and the Master Plan. BBC Roseville Oaks, LLC: Amendment #7 Subject to the provisions and conditions of this Agreement, City agrees that City is granting, and grants herewith, a fully vested entitlement and right to develop the Campus Oaks Property in accordance with the terms and conditions of this Agreement and the Entitlements. City acknowledges that the Entitlements include the following land uses (with approximate acreages) for the Campus Oaks Property highlighted in bold and underline below: <table> <tr> <td>Low/Med Density</td><td>77.1 acres/491 units</td></tr> <tr> <td>Residential High Density Residential</td><td>21.9 acres/457 units</td></tr> <tr> <td><u>Commercial/Retail</u></td><td><u>29.8 acres/240,000</u></td></tr> <tr> <td><u>sf</u></td><td></td></tr> <tr> <td>Light Industrial (Tech Park/Business Park)</td><td>32.8 acres/300,000 sf</td></tr> <tr> <td>Parks</td><td>10.7 acres</td></tr> <tr> <td>Paseos</td><td>3.2 acres</td></tr> <tr> <td>Open Space</td><td>1.6 acres</td></tr> <tr> <td>Fire Station and Well Site (P/QP)</td><td>2.5 acres</td></tr> <tr> <td>Roads</td><td>10.7 acres</td></tr> <tr> <td>TOTAL</td><td>190.3 acres</td></tr> </table> All as set forth in Exhibit B. Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of the Development Agreement, or as they may provide from time-to-time by amendment of the Master Plan. Landowner's vested right to proceed with the development of the Campus Oaks Property shall be subject to subsequent approvals as defined and as provided for in the Master Plan, provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of the Campus Oaks Property for the uses and to the density or intensity of development or rate of timing of development set forth in this Agreement so long as any limitations set forth in the Master Plan applicable to the Campus Oaks Property have not been reached and further provided Landowner is not in default under this Agreement." <u>"2.2.1 Consistency with General and Master Plans: Parcel HP-3 Landscape Buffer.</u> Landowner acknowledges that, as required and shown by the Master Plan, to maintain adequate buffering of light industrial uses from adjacent residential development consistent with the General Plan, although Parcel HP-3 is currently improved with private recreational use, should light industrial development be approved for Parcel HP-3, such development will maintain a 50-foot landscape buffer within Parcel HP-3 adjacent to residential uses within the Campus Oaks Property. landscape setback buffer will be established in accordance with the design guidelines to be approved for the Master Plan and as part of the design review process for any future light industrial use to be developed within Parcel HP-3.

Parcel 2 – R10 Foothill, LLC (Cokeva)

2.2 Vested Entitlements. Subject to the provisions and conditions of this Agreement, CITY agrees that CITY is granting and grants herewith, a fully vested entitlement and right to develop Parcel 2 in accordance with the terms and conditions of this Agreement and the Entitlements. CITY acknowledges that the Entitlements include the following land uses for Parcel 2:

Light Industrial: 57.3 acres

as depicted in Exhibit B. Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of this Agreement, or as they may provide from time-to-time by amendment of the Master Plan by LANDOWNER as provided for herein. LANDOWNER's vested right to proceed with development of Parcel 2 shall be subject to the Intensity Thresholds defined in this section below. Such vested rights are also subject to subsequent approvals as defined and as provided for in the Master Plan, provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of Parcel 2 for the uses and density and intensity of development or rate of timing of development set forth in this Agreement so long as the limitations set forth in the Intensity Thresholds have not been reached for Parcel 2 as described below and further provided that LANDOWNER is not in default under this Agreement.

For purposes of this Eighth Amendment and development of Parcel 2 pursuant to the Master Plan and all other entitlements that exist at the time this Agreement is executed, the CITY and LANDOWNER hereby agree that the Intensity Thresholds for uses described for Parcel 2 in the Master Plan are allocated to Parcel 2 as follows:

Property	Acreage	Gross Sq. Ft.	Average FAR	Water	Sewer	Electric	Traffic
R10/PCL2	57.3 Light Industrial	600,000	.24	.23 mgd	.16 mgd	4.04 MW	684

I. Electric Demand is based on gross square foot allocations. Actual demand may increase with infrastructure improvements.

As a result of these allocations of Intensity Thresholds to Parcel 2, the CITY acknowledges and agrees that the development rights allocated to and vested for such Parcel pursuant to this Section 2.2, shall not be affected or reduced by any action taken by the CITY. The CITY reserves the right to review each subsequent entitlement application for development of Parcel 2 to ensure that the thresholds are not exceeded in the future without appropriate mitigation by the owner of such Parcel and to ensure that the proposed development meets all other applicable design guidelines. So long as the development of the Parcel is consistent with the vested development rights allocated thereto under this Development Agreement, the obligations associated with that development shall be limited to the payment of all fees associated with such development and the installation of roadway and utility improvements described in the terms of this Development Agreement and the Master Plan.

BBC Roseville Oaks, LLC
Amendment #9

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

Subject to the provisions and conditions of this Agreement, City agrees that City is granting, and grants herewith, a fully vested entitlement and right to develop the Campus Oaks South Property in accordance with the terms and conditions of this Agreement and the Entitlements. City acknowledges that the Entitlements include the following land uses (with approximate acreages) for the Campus Oaks South Property:

Low/Med Density Residential	66.83 Acres/451 Units
Parks	12.40 Acres
Backbone Roads	0.00
Total	79.23 Acres

all as set forth in **Exhibit B**. Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of the Development Agreement, or as they may provide from time-to-time by amendment of the Master Plan. Landowner's vested right to proceed with the development of the Campus Oaks South Property shall be subject to subsequent approvals as defined and as provided for in the Master Plan, provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of the Campus Oaks South Property for the uses and to the density or intensity of development or rate of timing of development set forth in this Agreement so long as any limitations set forth in the Master Plan applicable to the Campus Oaks South Property have not been reached and further provided Landowner is not in default under this Agreement.

Pine Island Apartments, LLC: Amendment #10

The land use acreage allocation set forth in Section 2.2 of the Development Agreement, as applied to the Parcel CO-52 Property, is hereby revised to read as follows:

- 1.2 Vested Entitlements. Subject to the provisions and conditions of this Agreement, City agrees that City is granting, and grants herewith, a fully vested entitlement and right to develop the Campus Oaks Property in accordance with the terms and conditions of this Agreement and the Entitlements. City acknowledges that the Entitlements include the following land uses (with approximate acreages) for the Campus Oaks Property:

Low/Med Density Residential	78.65 acres/552 units
High Density Residential	35.49 acres/681 units*
Commercial/Retail	29.68 acres/240,000 sq. ft.
Light Industrial (Tech Park/Business Park)	15.20 acres/150,000 sq. ft.
Parks	11.12 acres
Paseos	3.67 acres
Open Space	1.70 acres
Fire Station/Well Site (P/QP)	2.47 acres
Roads	10.7 acres
Total	188.68 acres

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

	*City required obligation to develop 50 percent of the 285 units allocated to Parcel CO-52 for low-income households (for a total obligation of 143 low-income units) due to the change in land use designation and zoning for Parcel CO-52 to HDR and R3 is being transferred to Sierra Vista Specific Plan Parcels WB-30 and WB-32. All as set forth in Exhibit B. Such uses shall be developed in accordance with the Entitlements, as such Entitlements provide on the effective date of the Development Agreement, or as they may provide from time-to-time by amendment of the Master Plan. Landowner's vested right to proceed with the development of Parcel CO-52 Property shall be subject to subsequent approvals as defined and as provided for in the Master Plan, provided that any conditions, terms, restrictions, and requirements for such subsequent approvals shall not prevent development of the Parcel CO-52 Property for the uses and to the density and intensity of development or rate of timing of development set forth in this Agreement so long as any limitations set forth in the Master Plan applicable to the Parcel CO-52 Property have not been reached and further provided Landowner is not in default under this Agreement. “For purposes of development of Parcels CO-51 and CO-52 of the Campus Oaks Property pursuant to the Master Plan, the intensity Thresholds for the planned High Density Residential uses for Parcel CO-52 and the Light Industrial (Tech/Business Park) uses described for Parcel CO-52 of the Campus Oaks Property in the Master Plan are as follows: <table><tr><th><u>Property</u></th><th><u>Gross Sq. Ft. or HDR units</u></th><th><u>Water</u> (Max Daily Demand)</th><th><u>Sewer</u> (Max Daily Flow)</th><th><u>Electric</u> (Peak Annual Demand)</th><th><u>Traffic</u> (PM Peak Hour Trips)</th></tr><tr><td>CO Parcel 51</td><td>150,000</td><td>0.079 mgd</td><td>0.026 mgd</td><td>0.93 MW</td><td>145</td></tr><tr><td>CO Parcel 52</td><td>285 Units</td><td>0.101 mgd</td><td>0.074 mgd</td><td>1.00 MW</td><td>165</td></tr><tr><td>CO Parcel 51 & 52</td><td>150,000/285 Units</td><td>0.180 mgd</td><td>0.100 mgd</td><td>1.93 MW</td><td>310</td></tr></table> Landowner and City acknowledge that, as more particularly described in the Master Plan and as analyzed in the Addendum, nothing in this Agreement or the Entitlements vested hereby for the Campus Oaks Property affects or reduces the vested development rights of the other properties within the Master Plan Area. Landowner acknowledges and agrees that the uses described in the Master Plan for the other properties within the Master Plan Area are compatible with the vested uses planned for development of the Campus Oaks Property. Landowner acknowledges that it shall have no right to seek to amend the zoning of the portion of the Campus Oaks Property identified on Exhibit B as Parcel CO-51 from Light Industrial (Tech/Business Park) use for a period of twenty (20) years from the Effective Date of this Fourth Amendment.	<u>Property</u>	<u>Gross Sq. Title	Affordable Housing Amendment #4 – Ord. #5534																								

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Amendment #5 – Ord. #5734							
Obligation	BBC Roseville Oaks, LLC: Amendment #5 Consistent with the goals and policies contained in City's Amended General Plan and the Master Plan, and subject to the terms of this Agreement, Landowner shall develop or cause at least ten percent (10%) of the total residential units which are actually constructed within the Campus Oaks Property to be developed as affordable housing. In accordance with the terms of this Section and subject to adjustment based on actual development, Landowner shall provide 95 units affordable to very low and middle-income households. However, Landowner intends to provide 106 affordable units and the City recognizes that this commitment is anticipated to provide eleven (11) more affordable units than required by the 10% affordable requirement. The breakdown of percentage of the total number of affordable units to the different income levels shall be 80% of the required 10% for very low income rental and 20% of the required 10% for middle income purchase. Any adjustment based on actual development shall be subject to the written approval of the City Manager or his/her designee. The term "very low income" means households earning 50% or less of median income, and "middle income" means households earning 80% to 100% of median income, as published annually by the U.S. Department of Housing & Urban Development ("HUD"). Income eligibility and asset verification and calculation guidelines shall be determined in accordance with the HUD Handbook 4350.3 Chapter 5 (or comparable guidelines, if discontinued). For each of the household income ranges specified herein, household income at the upper limit of the specified ranges shall be used in determining qualifying sales prices for affordable purchase residential units. Qualifying rents for affordable rental residential units shall be calculated at the upper range of the specified income levels if no other restrictions are placed on the properties due to the type of financing secured by the ultimate developer of the Affordable Parcels (defined below). The parcels of the Campus Oaks Property within which the affordable housing will be provided are shown in the Master Plan and Exhibit B-1 attached hereto (the "Affordable Parcels"). The Affordable Parcels will also be identified on the final recorded Large Lot Subdivision Map for the Campus Oaks Property. Such locations may be modified pursuant to Section 2.5.3 of this Agreement.

CO-4	46	14						

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

	i. <u>Required Agreements.</u> Prior to the approval of the final small lot residential subdivision map containing lots for affordable purchase units within Parcel C0-5,, the parties shall enter into City's then current form Affordable Purchase Housing Agreement (or other applicable City-approved form) for such residential purchase units affordable to middle-income households, which shall identify the obligation to produce and deliver nineteen (19) residential units affordable to middle-income purchasers. Specific requirements of the agreement will be determined by the Economic Development Director or his/her designee. ii. <u>Content.</u> The Affordable Purchase Housing Agreement shall, for each such residential lot subdivision, set forth, among other things, the distribution of the affordable housing units within the subdivision, and include specific requirements for marketing of affordable purchase units, inclusion or modifications of amenities, exterior materials and finishes, alternate means of satisfying the affordable housing obligation, and good faith efforts requirements. iii. <u>No City Subsidies.</u> Landowner agrees to provide all of the middle-income affordable purchase units without any subsidy from the City.
Department	Housing Department & Engineering Division
Status	Need Affordable Purchase agreement prior to approval of small lot subdivision map. Agreement in progress as of 5/5/2020 for 14 affordable purchase units.
Section	2.5.3
Title	Inclusion of Affordable Obligation on Large Lot Map Amendment #4 – Ord. #5534 Amendment #5 – Ord. #5734
Obligation	BBC Roseville Oaks, LLC: Amendment #5 Landowner shall provide notice on the large lot subdivision map identifying the affordable parcels by large lot and Master Plan lot number and shall state the affordable obligation by type (i.e., middle, low or very low) and number of lots or units. The notice shall be designed to provide that, upon recordation of an Affordable Purchase Housing Agreement or Affordable Rental Housing Agreement, as applicable, upon such parcel or the affordable lots thereof, the notice on the large lot map shall be deemed replaced by such' recorded Agreement and no longer separately effective or binding as an encumbrance on the parcel, or lots thereof not encumbered by such recorded Agreement, and shall no longer be listed as an exception to title. The City shall cooperate with any such removal of the effect of such notice from unaffected lots upon recordation of such Affordable Agreements.
Department	Housing Department and Engineering Division
Status	Obligation ongoing
Section	2.5.4
Title	Transfer of Obligation within Campus Oaks Property Amendment #4 – Ord. #5534 Amendment #5 – Ord. #5734
Obligation	BBC Roseville Oaks, LLC: Amendment #5 Any proposed transfer of an affordable rental housing obligation (or any portion thereof) to another parcel within the Campus Oaks Property shall require an amendment to this Development Agreement and the Master Plan. Any such transfer shall also require the owner of the parcel receiving such affordable obligation to include a notice on its map or parcel that is designed, to the extent practicable, to disclose such affordable obligation as an exception to title on Schedule B of any preliminary title reports thereafter prepared for the receiving parcel.

Section	2.5.5
Title	Community Facilities Districts Amendment #4 – Ord. #5534 Amendment #5 – Ord. #5734
Obligation	BBC Roseville Oaks, LLC: Amendment #5 The City Manager or his/her designee shall maintain a list of middle and very low-income affordable purchase and rental units for each Parcel which is subject to an Affordable Housing Agreement (or applicable City-approved form) and, on or about May 1 of each calendar year, shall send a copy of such Affordable Housing Agreement(s) to the City Finance Director. To assist with the affordability of the very low income affordable units, Landowner and City acknowledge that, with respect to the Infrastructure CFD, the rate and method of apportionment of special tax therefor establishes a reduced annual special tax allocable to such affordable units.
Department	Finance and Housing Department
Status	Finance to be provided each levy year from Housing –Ongoing obligation.
Section	2.5.6
Title	In Lieu Fee – Affordable Housing Amendment #4 – Ord. #5534 Amendment #5 – Ord. #5734
Obligation	BBC Roseville Oaks, LLC: Amendment #5 In the event City adopts a fee to be paid in lieu of constructing either rental or purchase housing affordable to: middle, low or very low income households, Landowner may be eligible to pay such in lieu fee rather than construct affordable housing units on the Campus Oaks, Property, subject to the approval of the City Manager or designee.
Department	Housing Department
Status	Ongoing obligation.
Section	3.1
Title	Development, Connection and Mitigation Fees
Obligation	Hewlett Packard Company: Except as otherwise provided in this Agreement, any and all required payments of development, connection or mitigation fees by LANDOWNER shall be made at the time and in the amount specified by applicable CITY ordinances in effect as of the date of this Agreement, as such fees may be adjusted or adopted in accordance with the provisions of Section 2.4.2 above.
Department	All Development Projects
Status	Ongoing obligation
Section	3.2
Title	Parks Amendment #3 – Ord. #5533 Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Parks, Open Space, and Bike Trails. A total of 18.2 acres of active park land (9.5 acres of which will be dedicated by Landowner and 8.7 of which will be dedicated by Hewlett-Packard pursuant to the Third Amendment), 2.19 net acres of paseo and 1.7 additional acres of open space (to be combined and consolidated with the 44.65 acre existing open space Preserve previously granted to the City by Landowner's predecessor-in-interest, Hewlett-Packard, pursuant to the terms of the Development Agreement) will be dedicated to the City in connection with the development of this Project. Landowner will also pay fees for construction of park and trail improvements, and construct park frontage,

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	paseo and park improvements as set forth in this Section. To facilitate the coordinated development of the Campus Oaks Property with the HP Property, Landowner acknowledges that, pursuant to the Third Amendment, Hewlett-Packard will be offering to dedicate Parcel HP-2 to the City to be credited against the Campus Oaks' park land dedication requirement and to facilitate Landowner's installation of the neighborhood and city-wide park improvements planned for Parcels HP-2 and CO-64 (the "HP2/CO64 Park") as described in and consistent with the Master Plan. As provided in the Third Amendment, the City will not accept Parcel HP-2 until the HP2/CO64 Park improvements are completed by Campus Oaks as provided herein and accepted by the City, and Hewlett-Packard will continue to own Parcel HP-2 and be responsible for all maintenance obligations related thereto until the Park improvements are completed. In consideration of the benefits to be derived by the Campus Oaks Property from this coordinated development with the HP Property, including without limitation, the park dedication and improvement credits that will be allocable to the Campus Oaks Property associated with the dedication and development of the HP2/CO64 Park, Landowner agrees that the Campus Oaks Property shall be solely responsible for all the costs to design and construct the park improvements to be installed within the HP2/CO64 Park in accordance with the terms hereof. The park plans contained in the Master Plan are conceptual only. Further refinements and a final design for the HP2/CO64 Park shall be reviewed and approved by the Parks & Recreation Commission and City Council separate from the City's approval of the HP Campus Oaks Master Plan Amendment. Landowner shall not construct any private single access gates or private access from single homeowner's property onto public spaces, such as parks, preserves, open space and paseos. Additionally, Landowner shall place the foregoing restriction as applicable to homeowners in the CC&R's for any single family residential subdivision.
Department	Parks Department
Status	Ongoing obligation
Section	3.2.1
Title	Park and Open Space Dedications Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Landowner shall dedicate to the City the following three (3) park parcels, two (2) paseo parcels and two (2) additional open space parcels as described below and shown in Exhibit B and Exhibit K: A. A 5.04 net acre, more or less, portion of the Campus Oaks Property for the purposes of a public park, shown as Parcel CO-61; B. A 2.62 acre, more or less, portion of the Campus Oaks Property for the purpose of a public park, shown as Parcel CO-62; C. A 1.84 net acre, more or less, portion of the Campus Oaks Property for the purpose of a public park, shown as Parcel CO-64; D. A 0.84 net acre, more or less, portion of the Campus Oaks Property for the purposes of paseo, shown as Parcel CO-63; E. A 1.35 acre, more or less, portion of the Campus Oaks Property for the purposes of paseo, shown as Parcel CO-65; F. A 0.84 acre, more or less, portion of the Campus Oaks Property for the purpose of public open space, shown as Parcel CO-81; and

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	G. A 0.86 acre, more or less, portion of the Campus Oaks Property for the purpose of public open space, shown as Parcel CO-82. City acknowledges that, in addition to the foregoing dedications, the prior dedication by Hewlett-Packard of the 44.65 acres of open space shall be credited against the open space dedication requirements for the Campus Oaks Property. Furthermore, Hewlett-Packard's agreement to dedicate approximately 8.7 acres of the HP Property for the HP2/CO64 Park adjacent to the Campus Oaks Property (as more particularly described in the Third Amendment and Master Plan and designated as Parcel HP-2 of the HP Property), in combination with Landowner's dedication of Parcel CO-64, shall be credited as collectively providing 2.16 acres of neighborhood park and 8.38 acres of City-wide park against the park land dedication requirements for the Campus Oaks Property, based on the mix of amenities to be provided thereby. Landowner shall dedicate the foregoing park lands, paseos and open space parcels within the Campus Oaks Property on the face of the Large Lot Final Map as an Irrevocable Offer to Dedicate (IOD) of such park lands, paseos and open space parcels within the Property provided that the Large Lot Final Map creating a separate parcel for the subject sites has been recorded. Landowners acknowledges that the City shall not be obligated to accept the IOD for Parcels HP-2 and CO-64 prior to Landowner's completion of the turn-key park improvements required hereunder. City shall accept the dedication of each of the other park lands and paseo parcels at the time when all infrastructure improvements (e.g., curb and gutter, roadway, utilities, utility stubs, etc.) required to serve the dedicated lands are completed by Landowner and either (i) City is prepared to improve and maintain the site or (ii) the improvement thereof has been completed by Landowner pursuant to a park development agreement between the City and Landowner. City shall accept the dedication of the open space parcels after formation of the Public Services CFD described herein that includes funding for the maintenance by the City of such open space parcels. Maintenance of these properties remains a Landowner obligation until accepted by City. In the event the Landowner uses any of the above mentioned Parcels for temporary construction activity or staging (e.g., construction equipment parking, dirt/debris stockpiling, etc.), Landowner shall, prior to acceptance by City, restore the site to a like condition to what existed prior to such temporary construction or staging activity.

Status	Ongoing obligation
Section	3.2.2
Title	Construction of Park Improvements Amendment #4 – Ord. #5534 Amendment #5 – Ord. #5734 Amendment #9 – Ord. #6233
Obligation	BBC Roseville Oaks, LLC: Landowner shall construct all park improvements for the HP2/CO64 Park to be located on Parcel CO-64 and Parcel HP-2 in accordance with the terms of this Agreement and in accordance with public project regulations and requirements. Paseo improvements to be located on Parcels CO-63 and CO-65 shall be constructed as and when required by the conditions of the subsequently approved tentative small lot residential map that includes such Parcels. Prior to Landowner's construction of the park improvements for the HP2/CO64 Park, the parties shall enter into a separate park development agreement for the construction thereof and appropriate credits

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	against and reimbursement from the applicable neighborhood and City-wide park fees to be generated or provided by such construction. The construction of paseos will not be eligible to receive park fee credits or reimbursement. BBC Roseville Oaks, LLC: Amendment #5 BBC Roseville Oaks, LLC Amendment #9 3.2.2.A The HP2/CO64 Park shall be improved in conjunction with Landowner's development of the portion of the Campus Oaks Property outlined as Phase B and Phase C on Exhibit B ("Phases B and C"). In particular, the HP2/CO64 Park shall be improved in conjunction with development of Parcels C0-2, C0-3, C0-4, C0-6, C0-7, C0-11, C0-12, C0-13 and C0-16, as shown on Exhibit B (the "Phase Band C Parcels"). <u>3.2.2.B</u> The park facilities for the HP2/CO64 Park shall be constructed and improved pursuant to a separate park development agreement and according to a park master plan for the HP2/CO64 Park to be prepared by Landowner and approved by the City. These park facilities shall be designed in accordance with the design standards for such facilities and improvements described in the City's Park construction standards. Landowner and the City shall use good faith efforts to provide copies of the draft master plan to Hewlett- Packard for review and input by Hewlett-Packard's Site Council, provided final approval thereof shall be made by the City. The improvement plan for this park site shall include detailed construction plans, specifications and drawings for the site to be approved by the City. Landowner shall be responsible for all costs associated with the approval of the plan, including the costs of preparing the required final master plan, construction plans and drawings. <u>3.2.2.C</u> The estimated cost for the design and installation of the park improvements for the HP2/CO64 Park are set forth in the Park Financing Plan and have been used to establish the neighborhood and city-wide park fees for the Property. The improvements to be required by the City for this park site shall consider and accommodate such cost estimates. The cost estimate shall be adjusted by the City, from the Effective Date of this Agreement to the date of commencement of the construction of the improvements, based on the percentage change in the Engineering News Record, Construction Cost Index for the United States, 20-city average (or comparable replacement index; hereafter, the "ENR Construction Cost Index"). Landowner shall bid the work using a City list of pre-qualified park contractors for the park. If the bid amount for the work, together with all design and other park improvement costs then incurred by Landowner, exceeds the then adjusted cost estimate by more than eight percent (8%), then the City shall either (i) agree to defer the installation of certain improvements within the park site to reduce the cost of the work to be installed by Landowner to 108% of such adjusted cost estimate or (ii) agree to pay its share of the cost of the improvements in excess of 108% of such adjusted cost estimate, as such costs are incurred by Landowner. BBC Roseville Oaks, LLC Amendment #9 3.2.2.D Since the Master Plan graphic is merely conceptual, Landowner shall submit a final and approved master plan to the City for improvement of the HP2/CO64 Park prior to the issuance of the building permit for the 207th residential unit within the Phase B and C Parcels and shall commence construction of the park improvements for the HP2/CO64 Park in accordance with the approved park improvement plans
--	--

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	prior to the issuance of the building permit for the 282nd residential unit within the Phase B and C Parcels. Thereafter, Landowner shall diligently proceed with such construction and use its best efforts, subject to the provisions of Section 5.3 below, to complete the construction of its improvements to the HP2/CO64 Park within one hundred fifty (150) business days of the date of commencement of such improvement, not including the establishment period as defined in the City's park construction standards. Landowner acknowledges that development of each Phase B and C Parcels will be dependent on compliance with the foregoing schedule. Accordingly, if the design and construction schedule for the HP2/CO64 Park is not satisfied, the City MAY DENY BUILDING PERMITS WITHIN ANY PHASE B OR PHASE C PARCEL, whether or not the ownership thereof is under a single owner or multiple owners. City acknowledges and agrees that any failure to comply with such schedule shall not affect the rights of Landowner to proceed with the construction of units for which building permits have been issued by City within Phases B and C and shall not limit the rights of Landowner to develop within any other Phase of the Campus Oaks Property. BBC Roseville Oaks, LLC, as Landowner, further acknowledges and agrees that, notwithstanding anything else to the contrary in this Agreement or in any assignment of this Agreement, with respect to the obligations under this Section 3.2.2, BBC Roseville Oaks, LLC shall be responsible for the design and construction of the park improvements for the HP2/CO64 Park as and when required hereunder and shall remain responsible therefor notwithstanding any subsequent sale or transfer of any Phase B or Phase C Parcel and notwithstanding any assumption of such obligations by any successor in interest to BBC Roseville Oaks, LLC, unless the City expressly agrees, in writing, to release BBC Roseville Oaks, LLC, from any of such design or construction obligations under this Section 3.2.2. To assist City in monitoring compliance with the applicable park design and construction schedule, as and when Landowner applies for building permits within a Phase B or Phase C Parcel, Landowner shall give written notice to the Parks Department, indicating the number of units involved in the permit request and the total number of building permits which have then been issued for the Phase B and C Parcels, as well as the status of the design and/or construction of the HP2/CO64 Park. <u>3.2.2.E</u> Park improvements constructed by Landowner for the HP2/CO64 Park shall include all utilities and all landscaping and irrigation necessary to serve the park improvements to be located therein. <u>3.2.2.F</u> Upon satisfactory completion of such park improvements for the HP2/CO64 Park by Landowner, City shall accept the dedication of the HP2/CO64 Park and assume the ownership and maintenance thereof.

Section	3.2.3
Title	Financing and Improvement Agreements for Parks Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: The construction of improvements to parks within the Campus Oaks Property, and also the construction of the HP2/CO64 Park improvements adjacent to the Campus Oaks Property within Parcel HP-2 of the HP Property, shall be financed through neighborhood and City-Wide park fees established for the Campus Oaks Property by this Agreement. The plan to finance the construction and operation of such park improvements is generally set forth in Exhibit L attached hereto (the "Parks Financing

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Plan”). i. <u>Financing for Neighborhood Parks.</u> The construction budget for each parcel shall be as allocated in the Park Finance Plan, and which amount is adjusted by the percentage change, annually on July 1, utilizing the Engineering News Record, Construction Cost Index for the United States 20-city average, averaged with the San Francisco Construction Cost Index (the “CCI”). ii. <u>Financing of Paseos.</u> No funding is included in the Park Financing Plan for the development of the paseos. Financing for the maintenance of the paseos shall be provided through the Public Services CFD described in Section 3.23 below. iii. <u>Maintenance District Financing.</u> Pursuant to Section 3.23 below, Landowner shall support the formation of the Public Services CFD defined therein. Among other things, the Public Services CFD shall be authorized to levy special taxes on the Campus Oaks Property to provide maintenance of the neighborhood parks, streetscapes, paseos and open space parcels within the Campus Oaks Property and the neighborhood park components within the HP2/CO64 Park. Maintenance of the city-wide park components to be installed within the HP2/CO64 Park shall be the responsibility of the City from and after City acceptance of the fully developed park.
Department	Parks Department
Status	Ongoing obligation
Section	3.2.4
Title	Neighborhood Park Fee Amendment #4 – Ord. #5534 Amendment #5 – Ord. #5734
Obligation	BBC Roseville Oaks, LLC: Amendment #5 In accordance with the Park Financing Plan for the Campus Oaks Property, subject to any applicable fee credits, Landowner shall pay a neighborhood park fee (the “Neighborhood Park Fee”), upon the issuance of each residential building permit within the Project, to fund construction of the neighborhood park improvements described above. As more particularly shown on Table A-3 of the Park Financing Plan, such neighborhood park fee shall be \$3,804 per Low Density; Medium Density and High Density Residential Units, and \$2,511 per High Density Apartment Residential unit (but excluding the 87 Affordable High Density Apartment Residential Units set forth in Section 2.5.2 and carriage units, which shall not pay neighborhood park fees), subject to annual adjustment on July 1, based on the percentage change in the CCI. All such Neighborhood Park Fees shall be deposited into the neighborhood park fee fund to finance the development of the parks within the Campus Oaks Property and the HP2/C064 Park. The Neighborhood Park Fee, as calculated herein, was initially figured on 100% of the total dwelling units entitled for the Campus Oaks Property being developed and paying the Neighborhood Park Fee based upon 242 LDR, 310 MDR and 396 HDR dwelling units. Upon Landowner's application for an amendment to the Development Agreement, and if the distribution of dwelling unit types changes, Landowner shall, in consultation with the City, conduct a review and reassessment of the Park Master Plan and corresponding Neighborhood Park Fee for the Campus Oaks Property subject to this Agreement. As a result of such review and reassessment, and if deemed appropriate by the City, City may adjust the fee upward or downward based on the change in mix of units planned for the Campus Oaks Property and any change in the planned level of neighborhood park facilities deemed necessary to serve the residents within the Campus Oaks Property. Thereafter, City may conduct an annual re-assessment of the Neighborhood Park Fee for the Campus Oaks Property subject to this Agreement and adjust the fee upward if

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	underutilization of entitled dwelling units for the Campus Oaks Property subject to this Agreement exceeds ten percent (10%). In the event of a rezoning of any parcel(s) in the Campus Oaks Property that creates a park funding shortfall, if not otherwise mitigated by the development to the City's satisfaction, City shall require supplemental neighborhood in-lieu fees to fund such shortfall from the rezoned parcel(s). At the completion of all residential and neighborhood park development, if there are any remainder fees, City shall, within thirty (30) days of filing a notice of completion of the last neighborhood park for the Campus Oaks Property, refund to Landowner such remainder fees. i. <u>Neighborhood Park Frontage Improvements.</u> When installing road improvements adjacent to neighborhood park sites, Landowner shall construct the frontage improvements, which shall include curb, gutter, and stub utilities for the park site, subject to direction from City on the location of such utility stubs, but shall not be required to include sidewalk or landscaping. The cost of this work is not included in the Neighborhood Park Fee and accordingly Landowner shall not be entitled to any reimbursement from the Neighborhood Park Fee for such frontage improvements. City acknowledges that the cost of sidewalks within the park sites is included in the Neighborhood Park Fee. At the time Landowner installs infrastructure frontage improvements for the neighborhood parks, Landowner may construct the sidewalks, as specified in the Master Plan and upon mutual consent of the City and Landowner. Landowner shall be entitled to a reimbursement for the sidewalk costs installed by Landowner, provided City has sufficient funds to reimburse Landowner for such sidewalk improvements at the time that Landowner would construct such improvements. If City does not have or expect to have sufficient funds to reimburse Landowner within sixty (60) days prior to commencement of completion of the applicable frontage improvements, the sidewalk improvements shall be deferred to be included as part of the adjacent park improvements and Landowner shall be released from any obligation to construct such sidewalk improvements in connection with the adjacent frontage improvements. Reimbursement shall be based on actual costs of constructing the sidewalk and as approved by the City prior to construction. All frontage improvements, including any sidewalks, shall be constructed consistent with City standards.

Title	Bike Trail Construction Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC:

North Industrial Specific Plan – Hewlett Packard Master Plan DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX

	Landowner shall design, secure necessary permits and construct certain Class 1 bike trail improvements within the Campus Oaks Property as shown on Exhibit I (the "Bikeway Master Plan") and described in the Master Plan. Bike trails shall be constructed to City standards as and when Landowner develops the Parcels within the Campus Oaks Property adjacent to such bike trails. The sections of bike trail to be installed upon development of such parcels are generally shown on Exhibit I. The entire length of bike trail along Parcel CO-3 shall be graded at the time that the parcel develops, with the installation of the bike trail improvements per Exhibit I. If a bike trail is completed prior to City's acceptance of open space within which the bike trail is located, City shall be responsible for bike trail maintenance. City shall enter into an agreement with the Landowner memorializing such obligations and indemnifying Landowner for the public's use of the bike trail prior to the City's acceptance of the open space, which will include the recordation of a temporary maintenance and pedestrian access easement on and across the bike trail. Upon completion of the bike trail and City's acceptance of the open space within which the bike trail is located, City shall continue to be responsible for bike trail maintenance. The project shall fund an amount of \$318,000 for the design and construction of the off-site bike trial construction as shown on Exhibit I and generally shown as "Future by Others." This money will be included as part of the "Community Facilities District – Public Facilities (Project Infrastructure)" bond sale proceeds and will be paid directly to and retained by the City for such bike trail improvements.

Section	3.3.7
Title	Retail Power Purchase Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Electric Efficiency and Demand Reduction. In order to mitigate demand for energy supplies and comply with state mandated energy efficiency goals, the following energy efficiency and load management requirements are hereby established: i. All residential dwelling units will install residential air conditioning units with, as a minimum standard, a Seasonal Energy Efficiency Rating ("SEER") of 2 points above the minimum, as defined by the State of California in the current Title 24 of the Code of California Regulations, up to a total maximum of 16 points including the 2 point premium, an Energy Efficiency Ratio ("EER") of 12 or greater, and a thermal expansion valve ("TXV"). The SEER rating of 2 points above the minimum, as defined by the current Title 24, up to a maximum of 16 points, and an EER rating of 12.5 or greater along with a TXV will be specified on building plans and Title 24 compliance certificates at the time building permits are requested. If Title 24 of the Code of California Regulations in effect at the time of request for building permits requires higher SEER or EER ratings, residential units in the Plan Area shall comply with such

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	State requirements. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be utilized in the overall energy compliance calculations required for issuance of a building permit for any residential unit. Any variances must be approved by the Electric Utility Director or designee. ii. All commercial air conditioning units 5 tons or less (<65,000 btu/h) shall meet the current Consortium for Energy Efficiency (“CEE”) Tier I specifications. The SEER/EER ratings will be specified on building plans and Title 24 compliance certificates at the time building permits are requested. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be utilized in the overall energy compliance calculations required for issuance of any building permit for any commercial building in the Plan Area. Any variances, with the exception of Tier 2 compliance, must be approved by the Electric Utility Director or designee.

Section	3.4
Title	Drainage Improvements Amendment #1 – Ord. #3665 Amendment #4 – Ord. #5534
Obligation	Hewlett Packard Company: <u>3.4 Drainage Improvements.</u> LANDOWNER shall provide on-site drainage improvements as provided in this section. BBC Roseville Oaks, LLC: Amendment #4 Landowner has prepared an updated drainage impact study for the Campus Oaks Property that evaluates the size and location of all necessary on- site drainage facilities required to treat and convey all storm water from the Campus Oaks Property to current City Standards. The updated drainage impact study includes a full description of Low Impact Development (LID) and Hydro-modification per the requirements of the City’s State-issued NPDES permit. Full capture of trash will be required as and to the extent required by applicable City and state standards and the City’s State-issued NPDES permit, for all storm water leaving priority land uses as defined within the permit. Subsequent drainage analysis will accompany the approval of future entitlement requests and shall be used as the basis of construction drawings.

Status	Ongoing obligation
Section	3.4.4
Title	Detention Basins Amendment #1 – Ord. #3665 Amendment #2 – Ord. #5548 Amendment #6 – Ord. #5829
Obligation	Hewlett Packard Company: Hewlett Packard Company and BBC Roseville Oaks, LLC: <i>Amendment #2 – delete all reference to Northern Detention Basin and Undeveloped Northern Watershed</i> Quality Investment Properties: Amendment #6 – delete all reference to Northern Detention Basin and the Undeveloped Northern Watershed. 3.4.4 Detention Basins. LANDOWNER intends to serve the surface water drainage requirements for the development of the Property with the two drainage detention basins proposed for the Property, as generally shown on Exhibit "E" hereto and marked thereon as the "Northern Detention Basin" and the "Southern Detention Basin" (collectively, the "Drainage Basins"). The Northern Detention Basin is designed to serve the drainage needs for development within the area identified on Exhibit "E" as the "Undeveloped Northern Watershed" and the Southern Detention Basin is designed to serve the drainage needs for development within the area shown on Exhibit "E" as the "Undeveloped Southern Watershed." LANDOWNER also intends to serve the drainage needs for the initial development of the Undeveloped Northern Watershed with a temporary detention basin, located in the north portion of the property between Collector B and Collector C as shown on Exhibit "E" (the "Temporary Basin"), which will be designed to store a minimum of five (5) acre feet of water. The design and location of the Drainage Basins and the Temporary Basin shall be subject to CITY review and approval as part of the drainage impact studies. Upon the issuance of a building permit for the construction of any structure or buildings within the Undeveloped Southern Watershed, LANDOWNER shall commence construction of the Southern Detention Basin and complete construction in a timely manner. Provided, however, LANDOWNER shall not be obligated to construct the Southern Detention Basin in order to construct road improvements or utilities within the Undeveloped Southern Watershed or in connection with the construction by CITY of either the well site or the electrical substation that may be located therein. Upon the issuance of a building permit for the construction of any structure or building within the Undeveloped Northern Watershed, LANDOWNER shall commence construction of either the Temporary Basin or the Northern Detention Basin, as required hereby and complete construction in a timely manner. LANDOWNER may develop the Undeveloped Northern Watershed relying on the Temporary Basin until such time as the Temporary Basin is no longer adequate to serve the drainage needs of the Undeveloped Northern Watershed, based upon the studies provided as required by section 3.4.1. At which time, LANDOWNER shall construct the Northern Detention Basin. When the Northern Detention Basin is constructed, any requirement to maintain the Temporary Basin for detention purposes shall terminate and the

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Temporary Basin shall be filled/graded to a condition acceptable to the City Engineer. LANDOWNER shall be solely responsible for all maintenance to the Northern and Southern Detention Basins and the Temporary Basin, as and when such Basins are developed for detention purposes as well as the area of the one hundred (100) year floodplain for the South Branch of Pleasant Creek. Prior to construction of any of the Basins, LANDOWNER shall execute an agreement with CITY which specifies LANDOWNER's maintenance responsibilities for the Basins. CITY shall have the right of access to the Basins without prior notice for emergency purposes as determined by the City Engineer. Upon request of CITY, LANDOWNER shall cooperate with reasonable inspections of the Basins and of the maintenance thereof by LANDOWNER, provided LANDOWNER may require a representative thereof to attend and monitor any such inspection by CITY.
Department	Engineering and Building Division
Status	Ongoing obligation
Section	3.4.6
Title	Flood Water Conservation Easement Amendment #3 – Ord. #5533
Obligation	Hewlett Packard Company: Prior to additional building plan approval for new facility construction in excess of 20,000 square feet upon HP property, Landowner shall dedicate to the City a Flood Water Conservation Easement for that extent of the 100-year floodplain for the unnamed tributary to the South Branch of Pleasant Grove Creek that runs along the southern end of the site (referred to as the "HP Tributary") affecting Lot 26 (HP-1) and Lot 27 (HP-3). The Landowner shall continue to be responsible for the maintenance of the floodplain with rights to the City to access and perform maintenance if needed at any time in the future. Prior to issuance of the building permit for such new facility; Landowner shall enter into a drainage maintenance agreement with the City to confirm Landowner's continued obligation to maintain such floodplain and to assign to the City a right of access necessary for the City to perform any and all required maintenance thereof, at Landowner's cost, in the event Landowner fails to adequately maintain such floodplain improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5
Title	Water Systems Improvements
Obligation	Hewlett Packard Company: <u>3.5 Water System Improvements.</u> LANDOWNER shall provide improvements to the potable water system as provided in this section. <u>3.5.1 Finance of Water Supply.</u> LANDOWNER shall have no obligation to install or pay for the installation of any off-site water storage, treatment or transmission facilities, except for the payment of water connection fees levied and collected by CITY at the time of development pursuant to the existing CITY ordinances; provided however, CITY shall not be precluded from imposing on future development of the Property a pro rata "fair share" special benefit area water connection fee which is specifically developed and adopted to pay for those improvements which are associated with the oversizing of the water transport system which benefits the Property and other properties in the Roseville North Industrial Area and the Northwest Roseville Specific Plan and which were constructed, or are still to be constructed, and which were financed as part of the North Central Roseville Specific Plan infrastructure improvements; provided, however, in calculating any such fee to be paid by LANDOWNER, CITY shall consider in its formulation of the fee: 1) the previous financial contributions by LANDOWNER towards the construction of the existing water infrastructure serving properties in the

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	North Industrial Area and the Northwest Roseville Specific Plan, and; 2) the statements or representations made by CITY associated with previous land use approvals for the Property as to the then-existing and projected water line capacity which would be, or would become available to serve the Property.

Status	Ongoing obligation
Section	3.5.2
Title	On-Site Water Lines Amendment #3 – Ord. #5533 – deleted section Amendment #4 – Ord. #5334
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Landowner shall construct all on-site water lines, including those major on-site transmission mains shown on Exhibit E, as and when required for development within the Campus Oaks Property, as determined by the City based on the timing and scope of development of the Campus Oaks Property from time to time proposed by Landowner. All such improvements shall be constructed pursuant to City's Improvement Standards and shall be subject to City plan review, construction inspection and final approval. Landowner shall pay then current plan check and inspection costs as incurred by City for review and inspection of any such improvements. Sizing of pipes shall be as set forth on said Exhibit E, subject to any revisions thereto as deemed necessary by the City to serve development of the Campus Oaks Property based on any water master plan updates required by the City in connection with Landowner's development. Notwithstanding any other provision of this Agreement, unless fire flows are maintained and a non-loop system is approved by the Environmental Utilities Director, all areas of the Campus Oaks Property shall at all times be supplied by a loop system. Landowner shall install backflow devices to City's then current specifications at each point where a private on-site water line joins the City-owned water supply system.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.5.2.A
Title	Phasing of On-Site Lines Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 The water phasing plan shall consist of the development and extension of an on-site looped water system as shown on Exhibit E, as and when required by the City to be installed by Landowner based on the portion(s) of the Campus Oaks Property then proposed for development by Landowner. All development will be served by the City of Roseville's existing 24" water line. At a minimum, as and when Landowner proposes to install any roadways within the Campus Oaks Property within which the water lines shown on Exhibit E will be located, Landowner shall be obligated to install the water lines located within such road rights of way. In particular, and without limitation thereof, in consideration of Landowner's commitment to construct all of HP Way within the Campus Oaks Property prior to recordation of the first small-lot subdivision map or issuance of the first building permit within the Campus Oaks Property, Landowner shall be obligated to install the water lines proposed to be located within HP Way concurrently with its construction thereof. Except as provided above based on any water master plan updates required by the City, City shall have no right to require any changes, modifications or increases in the on-site water line system set forth in Exhibit E, provided Landowner may request changes thereto, subject to the reasonable review and approval of the Environmental Utilities Director.

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.5.2.B
Title	Review of Plans for Adjacent 24" Water Lines Amendment #4 – Ord. #5534
Obligation	Hewlett Packard Company: CITY shall provide LANDOWNER with the right to review the plans to be prepared by others for the construction of the 24" line within Blue Oaks Boulevard and within Woodcreek Oaks Boulevard. LANDOWNER shall have the right, upon such review, to request that certain "T" joints be sized and installed at the following points along such lines to serve development within the Property the intersection of Blue Oaks Boulevard with Collector B or Collector C and the intersection of Woodcreek Oaks Boulevard with Arterial A or Collector A. LANDOWNER shall be responsible for the payment of the actual hard cost of including such "T" joints as part of the construction of such lines, consisting of the identifiable and commercially reasonable costs of design, engineering and construction actually incurred for such work. In the event any such water line is being constructed by a third party, CITY shall coordinate and assist LANDOWNER with arranging for inclusion of the "T" joints in the work by the third party; provided, however, the terms of payment of the hard costs as defined above shall be a matter to be determined by the parties on a commercially reasonable basis. BBC Roseville Oaks, LLC: Amendment #4 Landowner shall offer to dedicate to City a public utility easement for the ownership and maintenance of all water lines to be installed within the Campus Oaks Property, and City shall accept such lines, subject to improvement of the water lines to the then current City standard. In the event Landowner subdivides any portion of the Campus Oaks Property, all lots or parcels created by such subdivision shall be required to be served with water service from a City-owned water line located within an accepted public utility easement and shall install backflow devices and meters as required by City. Until City accepts any such public utility easement(s), Landowner shall be responsible for maintenance of all on-site water lines and facilities and backflow devices.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.5.2.C
Title	Public Utility Easements Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Landowner hereby offers to dedicate to City a groundwater well site in the area within the Campus Oaks Property referred to as Parcel CO- 76 and generally shown on Exhibit F attached hereto (the "Well Site"). As shown thereon, the Well Site is adjacent to and shall have access to the 16" water line to be installed within Painted Desert Drive. The Landowner shall be responsible for the construction of a monitoring well for determining water production and quality. The Landowner shall contact the City prior to construction of the monitoring well to receive approval from the City Environmental Utilities Director on the associated construction and sampling plans. The monitoring well shall be commenced prior to the issuance of the first building permit. The production well casing will be designed for Aquifer Storage and Recover (ASR) purposes. Financing for the costs of the production well are included in the City Water Department's CIP program and as such the City shall be responsible for

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	constructing the production well and the above ground improvements such as pumping, treatment and well building facilities. It is the intent of this Section 3.5.2.C (and the Parties) that the groundwater well location identified within the Campus Oak Master Plan be capable of achieving a yield of approximately 1,800 gallons per minute and the groundwater is of such quality that only disinfection will be required to meet California Drinking Water Quality Standards. Should the City determine the available capacity or water quality does not achieve these objectives, Landowner shall, at its own cost, work with the City to relocate the site within the Campus Oaks Master Plan until these objectives are satisfied. If no satisfactory site can be identified within the Campus Oaks Master Plan, and upon approval from the City Environmental Utilities Director, an off-site location may be identified and the monitoring well drilled at the alternative site at Landowners expense. All conditions set forth in this Section 3.5.2.C shall remain in force. Landowner shall offer to dedicate to City, without compensation and upon recordation of the Large Lot Map, the Well Site identified as Parcel CO-76. Landowner shall be responsible for installing all frontage improvements to Parcel CO-76, including storm drainage, water, wastewater, electric and fiber. The storm drain shall be sized with sufficient capacity to enable flows up to 1,800 gallons per minute to facilitate flushing the water well. The use of such Well Site shall be limited for the purpose of constructing and maintaining an ASR groundwater well for potable water storage recovery and appurtenant uses. The term of this dedication shall commence upon the Effective Date of this Agreement and shall terminate on the expiration of this Agreement or upon written notice from City that it will not need the Well Site for potable water purposes, whichever occurs first.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.5.3
Title	Water Conservation Measures Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Landowner and its successors shall implement a Water Conservation Plan included as Exhibit M to this Agreement. The Water Conservation Plan shall include compliance with the City's then current Water Efficient Landscape Ordinance and outline all water conservation measures being implemented within the Campus Oaks Property and measures to ensure water conservation objectives are achieved in perpetuity subject to approval of the Environmental Utilities Director prior to issuance of the first building permit. Such water conservation measures shall include, but are not limited to, Weather Based Smart Irrigation Controllers, re-circulating hot water systems, and turf limitations, and shall be disclosed to each purchaser of real property within the Campus Oaks Property. Modifications to the Water Conservation Plan as approved by the Environmental Utilities Director shall not require an amendment to this Agreement.

Obligation	Quality Investment Properties: Amendment #6 "3.8.1. <u>Blue Oaks Boulevard</u>. Blue Oaks Boulevard frontage improvements for Parcel 3 will be completed pursuant to the Settlement Agreement between CITY, BBC Roseville Oaks and LANDOWNER. Accordingly, Landowner shall only be responsible for the finished grading of the landscaped corridor adjacent to Blue Oaks Boulevard, the construction of an eight foot wide (8') separated sidewalk for Blue Oaks Boulevard · frontage from its intersection with Foothills Boulevard to its intersection with New Meadow Drive, as shown in cross-section in Exhibit C-1, construction of a bus turnout, shelter pad and bus shelter on Blue Oaks Boulevard east of New Meadow Drive, and the completed landscaping and landscape irrigation within the fifty-foot wide (50') landscape set back adjacent to Blue Oaks Boulevard. With the approval of future development plans for Parcel 3, LANDOWNER will be responsible for the installation of all standard improvements associated with access to and from public roads, as determined by CITY. When LANDOWNER constructs an intersection with Blue Oaks Boulevard or receives a building permit for a building located within three hundred feet (300') or .less of the southerly boundary of the right of way for Blue Oaks Boulevard, LANDOWNER shall construct the sidewalk improvements from Foothills Boulevard to the western property boundary and the bus turnout, shelter pad and bus shelter. CITY may, at its sole discretion, allow for the construction of the sidewalk and landscaping

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	to be phased. All improvements to be installed by LANDOWNER shall comply with CITY's then current standards. The bus turnout, shelter and related improvements shall conform to CITY's then current standards. LANDOWNER and CITY may enter into a deferred improvement or other agreement based on a construction cost of ten thousand dollars (\$10,000) per shelter for future construction of the bus shelter (#282) on Blue Oaks Boulevard east of New Meadow Drive. A separate easement shall be dedicated to CITY for the bus shelter pad. The easement shall be drafted for approval and acceptance by CITY and recorded at the Office of the Placer County Recorder." BBC Roseville Oaks, LLC: Amendment #4 3.8.1. A (Completed) Landowner shall construct the frontage improvements along Blue Oaks Boulevard consisting of curb, gutter and remaining asphalt to connect to the existing Blue Oaks Boulevard roadway improvements, streetlights, and electric trench to underground the existing 12kv electric line from its intersection with Foothills Boulevard to its intersection with Woodcreek Oaks Boulevard, as shown in cross-section in Exhibit C-1. Unless otherwise constructed in part by the owner of Parcel 3 in connection with its development of Parcel 3 prior to development of the Campus Oaks Property, Landowner shall commence construction of the foregoing improvements along Blue Oaks Boulevard between Foothills Boulevard and Woodcreek Oaks Boulevard within twelve (12) months of the first sale of bonds by the Infrastructure CFD (which will include the amount then estimated by the City to construct such improvements), subject to the City's good faith processing of the improvement plans for Blue Oaks Boulevard pursuant to this Agreement. Improvements to Blue Oaks Boulevard shall be completed within three (3) years from the earlier of the following: (1) sale of bonds by the first Infrastructure CFD acquisition; (2) if Landowner receives a building permit for a building located within three hundred feet (300') or less of the southerly right of way for Blue Oaks Boulevard; or (3) any roadway connection is made to Blue Oaks Boulevard, whichever occurs first. Provided, however, Landowner shall not be obligated to install any portion of the frontage improvements along Parcel 3 if and to the extent the installation thereof requires the cooperation of the owner thereof to provide construction access and right of way dedication to facilitate such construction and such necessary access and right of way dedication is not provided by such owner. Sidewalk improvements shall not be required to be installed along Blue Oaks Boulevard within the Campus Oaks Property except in connection with the issuance of a building permit for a building within Campus Oaks Property within 300' or less of the Blue Oaks Boulevard right of way, in which case such sidewalk improvements shall be installed by the applicant for such building permit. All improvements to be installed by Landowner shall comply with City's then current standards for public streets. Auxiliary lanes, deceleration lanes and bus turnouts can encroach into the public utility easement (PUE)/landscape setback easement (LSE). BBC Roseville Oaks, LLC: Amendment #4 3.8.1.B In addition to and in conjunction with the improvements to Blue Oaks Boulevard required in subsection 3.8.1.A herein, Landowner shall construct the southerly one- half (1/2) of the landscape median in Blue Oaks Boulevard between Foothills Boulevard and Woodcreek Oaks Boulevard, as shown in Exhibit C-1. In the

Section	3.8.2
Title	Woodcreek Oak Boulevard Amendment #3 – Ord. #5533 Deleted Section 3.8.1 through 3.8.4 Amendment #4 – Ord. #5534 Revised Section 3.8.2.E & 3.8.2.F
Obligation	BBC Roseville Oaks, LLC: Amendment #4 3.8.2.E In addition to and in conjunction with the improvements to Woodcreek Oaks Boulevard, Landowner shall construct the easterly one-half (1/2) of the landscape median in Woodcreek Oaks Boulevard between Blue Oaks Boulevard and the southerly edge of the property as shown in Exhibit C-1. In the event that the City has sufficient funds to pay for the costs of the western one-half (½) of the landscaping, and at the City's request at the time of construction, Landowner shall construct the entire landscaped median with funding from the City for the western one-half (½) of the landscaping, which funding shall be paid by the City concurrently with Landowner's payment of its share of the costs to the contractor for such work. BBC Roseville Oaks, LLC: Amendment #4 3.8.2.F (Completed) <i>Prior to the issuance of the first building permit within the Campus Oaks Property, Landowner shall pay to the City the amount of \$128,488.49 per the reimbursement agreement by and between the City and the then developer of the Longmeadow Subdivision made on July 1, 2009, and approved by the City Council as Ord. 09-276. The reimbursement provides payment for public improvements along the frontage of Woodcreek Oaks Boulevard that were in excess of the capacity necessary to serve the Longmeadow Subdivision and which would have otherwise been the obligation of the Campus Oaks project." Inflationary adjustments to the amount due will begin to accrue following the approval of this Fourth Amendment based on the Engineering New Record Construction Cost Index for the United States 20 City average, averaged with the Construction Cost Index for San Francisco (CCI) until such time as the payment is made in full.</i>
Department	Engineering Division
Status	3.8.2.E – Ongoing Obligation 3.8.2.F – Obligation complete July, 2017
Section	3.8.7
Title	Intersections
Obligation	Hewlett Packard Company: As, if and when LANDOWNER constructs an intersection of Collector A, B or C, or Arterial A with Foothills Boulevard, Blue Oaks Boulevard or Woodcreek Oaks Boulevard, or a driveway thereto, LANDOWNER shall install such improvements for such intersection or driveway, from the adjacent lane of pavement of the Boulevard into the Property to the connection with such internal roadway or in the median, as CITY may require in accordance with CITY's then current improvement standards.
Department	Engineering Division
Status	Ongoing obligation
Section	3.8.8
Title	Timing of and Standards for Internal Roadways Amendment #4 - Ord. #5534
Obligation	Hewlett Packard Company: Subject to compliance with all other provisions of this Agreement, LANDOWNER shall have complete discretion to construct its on-site, internal roadway improvements to the extent desired thereby to provide access to the parcel(s) within

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	the Property then being developed by LANDOWNER, subject only to the review and approval of the Director of Public Works/City Engineer as to the need for any secondary emergency access to such development; provided however, in the event CITY reasonably anticipates in conjunction with the issuance of a new building permit that any intersection of a roadway from the property with a CITY roadway might operate at a level-of-service which would be lower than the minimum level required by the General Plan, or that safety/operational problems may be likely to occur at any such intersection, CITY may require LANDOWNER to complete a study to analyze traffic impacts from the new development upon CITY's then existing roadway system. If CITY then determines that any intersection of a roadway from the Property with a CITY roadway would operate at a level-of-service which would be lower than the minimum level required by the General Plan, or that safety/operational problems would be likely to occur at any such intersection, LANDOWNER agrees to institute, within twelve (12) months of such determination, any mitigation measures acceptable to the Director of Public Works/City Engineer which would restore the intersection to a level-of-service which complies with the General Plan or alleviate the public safety/operational problem. Such mitigation measures may include, but are not necessarily limited to, construction of additional capacity improvements at the affected intersections or the construction of new access to the Property. Except to the extent expressly required by this Agreement, LANDOWNER shall not be obligated to comply with CITY standards for the construction of public streets with regard to road improvements to be constructed within the Property. LANDOWNER acknowledges and agrees that, in the event LANDOWNER desires at a future date to dedicate to CITY for use as a public road any such internal roadway not constructed to the then current CITY standard, CITY may require that LANDOWNER shall improve any such road to the then current CITY improvement standards prior to acceptance by CITY. BBC Roseville Oaks, LLC: Amendment #4 Subject to compliance with all other provisions of this Agreement, Landowner shall construct its on-site, internal roadway improvements to then applicable City Standards as and when required by the City to serve the portion(s) of the Campus Oaks Property then proposed for development by Landowner. The timing and extent of such internal road improvements required to serve development of the Campus Oaks Property, including providing any necessary secondary emergency access therefor, may be further conditioned and described by the City in connection with the City's processing and approval of subsequent approvals for the Project, including tentative subdivision maps related thereto.
Department	Engineering Division
Status	Ongoing obligation
Section	3.8.9
Title	Satisfaction of Prior Deferred Improvement Agreements
Obligation	Hewlett Packard Company: CITY acknowledges and agrees hereby that this Agreement shall fully and completely supersede and satisfy all obligations of LANDOWNER under: (1) that certain Deferred Improvement Agreement by and between LANDOWNER and CITY dated September 13, 1989, for improvements to Blue Oaks Boulevard and recorded on September 20, 1989 in Book 3716 at Pages 616 through 624, Official Records, Placer County Recorder and (2) that certain Deferred Improvement Agreements by and between LANDOWNER and CITY dated September 13, 1989, for improvements to Blue Oaks Boulevard and recorded on September 20, 1989 in Book 3716 at Pages 625 through 632, Official Records, Placer County Recorder. Upon recordation of this Agreement, said Deferred Improvement Agreements shall become null and void and

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	any Letters of Credit posted therewith shall be released and returned to LANDOWNER.
Department	Engineering Division
Status	Ongoing obligation
Section	3.8.10
Title	Landscape Setback
Obligation	Hewlett Packard Company: LANDOWNER shall establish a thirty-five foot (35') landscape setback to the east of the right of way of Woodcreek Oaks Boulevard, a fifty foot (50') landscape setback to the south of the right of way of Blue Oaks Boulevard and a fifty foot (50') landscape setback to the west of the right of way of Foothills Boulevard, for landscaping, street lighting, sidewalk, and related uses.
Department	Engineering Division
Status	The landscape setbacks along Woodcreek Oaks Boulevard and Blue Oaks Boulevard were established in the Hewlett-Packard Roseville Campus Master Plan and again in the Campus Oaks Plan. The detailed landscaping improvement plans will be submitted as development occurs on the west and north sides of Campus Oaks as adjacent parcel develop. Frontage landscaping along Foothills Boulevard is complete. Ongoing obligation.
Section	3.8.11
Title	HP Way Amendment #3 – Ord. #5533 Amendment #4 – Ord. #5534
Obligation	Hewlett Packard Company: Pursuant to the Second Amendment, Landowner has or will grant to the City an irrevocable offer to dedicate (100), in fee, the right-of-way for HP Way within the HP Property as shown on Exhibit C with the recordation of the Large Lot Final Map or by separate document in form acceptable to the City. Notwithstanding Landowner's dedication of HP right-of-way to the City, the provisions of Section 3.8.8 regarding internal roadway standards remain in effect and Landowner shall not be obligated to comply with City standards with respect to any on-site construction thereof by Landowner in connection with the development of the HP Property. Landowner acknowledges that BBC Roseville Oaks will be obligated under the Fourth Amendment to construct all of HP Way to then current City standards and Landowner will cooperate therewith, at no cost or expense to Landowner. Upon completion of construction of HP Way by BBC Roseville Oaks, and City acceptance of the improvements, the City shall accept the roadway right-of-way dedication for HP Way. BBC Roseville Oaks, LLC: Amendment #4 <i>(Completed) Immediate Construction of HP Way. Within ninety (90) days of approval of this Fourth Amendment, Landowner shall offer to the City an irrevocable offer of dedication (IOD) for the public rights of way for road and utility improvements within the Campus Oaks Property for HP Way, as shown on Exhibit C.</i> <i>Prior to issuance of the first (1st) permit for any grading, development or construction of any improvements or buildings within the Campus Oaks Property, other than a grading permit for roadway construction within the HP Way right of way, Landowner shall have obtained or caused to be dedicated an IOD to the City for all required rights of way and utility easements for the full road improvements of HP Way from Foothills Boulevard to Parcel 4. All improvements to be installed within HP Way shall comply with City's then current standards for public streets.</i>

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Prior to the issuance of the 700th residential building permit, Landowner shall be responsible to design and commence construction of the necessary improvements to the HP Way/Foothills Boulevard intersection to include a third south bound through lane on Foothills Boulevard. The modifications shall include all utility relocations, landscape modifications, the installation of a westbound turn lane on Foothills Boulevard, RoW acquisitions, and all signal modifications as may be required. These intersection improvement costs shall be the full responsibility of the Landowner.
Department	Engineering Division
Status	Ongoing obligation – Amendment #4 Partial Completion
Section	3.8.11.A
Title	Maintenance of HP Way Private Drainage Amendment #3 – Ord. #5533
Obligation	Hewlett Packard Company: Landowner acknowledges that it is not practicable to modify the existing storm water drainage facilities presently draining HP Way and that the future drainage of the publicly dedicated HP Way right of way will continue to be accommodated through an existing private storm drain traversing across Landowner property, currently maintained by Landowner and the owner of Parcel 2. As provided by the Second Amendment, Landowner shall remain obligated to maintain the private storm drain improvements, including any reconstruction or replacement thereof, as and to the extent required to continue to accommodate the storm drainage requirements for such portion of HP Way. Prior to acceptance of HP Way as a public roadway, and as part of the Large Lot Map conditions , City will require that Landowner either into a drainage maintenance agreement with the City to confirm Landowner's continued obligation to maintain such private drainage system and to assign to the City a right of access necessary for the City to perform any and all required maintenance thereof, at Landowner's cost, in the event Landowner fails to adequately maintain such private drainage improvements. Nothing herein shall affect the rights and obligations between Landowner and the owner of Parcel 2 to cooperate with and share in the maintenance of such roadway storm drainage improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.8.12
Title	Local Road W Amendment #3 – Ord. #5533 Amendment #4 – Ord. #5534
Obligation	Hewlett Packard Company: Landowner may elect to maintain its existing perimeter roadway identified as Local Road E on Exhibit C from Foothills Boulevard located along the western and southern boundaries of the HP Property as a private roadway or may elect, at any time, to offer to dedicate to the City the right of way therefor for acceptance and operation as a public street. If Landowner elects or has elected to dedicate Local Road E or any portion thereof to the City, Landowner shall reconstruct the portion of such roadway to conform to the City's then current standards for public roadways prior to City's acceptance. BBC Roseville Oaks, LLC: Amendment #4 3.8.12 Other Roadways. As and when Landowner seeks to obtain grading or building permits for development of the Campus Oaks Property, Landowner shall construct the applicable portions of Painted Desert Drive, New Meadow Drive and/or Crimson Ridge Way located therein required to serve such development of the Campus Oaks

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Property, as reflected by the phasing map attached hereto as Exhibit B. All improvements to be installed within said roadways shall comply with City's then current standards for public streets.
Department	Engineering Division
Status	Ongoing obligation
Section	3.12
Title	Project EIR Mitigation Measures
Obligation	Hewlett Packard Company: LANDOWNER shall be bound by, and shall perform, all mitigation measures contained in the Project EIR which are adopted by CITY and which are identified in the mitigation monitoring plan as being a responsibility of LANDOWNER.
Department	Planning Division and Development and Operations Department
Status	Projects are being conditioned to comply with the EIR mitigation measures. HP created a 46-acre preserve area in the southwest portion of the site which is currently being monitored. Future mitigation plans should be submitted electronic format so that they can be entered into the City's Mitigation database. Ongoing obligation
Section	3.15
Title	Light Rail Funding Amendment #3 – Ord. #5533 – Deleted Section (HP) Amendment #4 – Ord. #5534 – Deleted Section (Campus Oaks)
Obligation	Hewlett Packard Company: LANDOWNER consents to and agrees that the Project shall participate in its fair share of a city-wide funding mechanism for the extension and operation costs of light rail into the City of Roseville.
Department	Alternative Transportation
Status	Ongoing obligation for R-10 Foothill & Quality Investment Properties. Obligation no longer applies to HP or Campus Oaks parcels - no fee ordinance has been adopted to fund light rail improvements.
Section	3.16
Title	Bike Trails
Obligation	Hewlett Packard Company: Upon written demand of CITY but no sooner than five (5) years from the date of this Agreement, Landowner shall grant and convey to CITY a fee simple interest in an area along the southern boundary of the Property for a Class 1 Bike Trail generally described in Exhibit "I" hereto (the "Bike Trail") with an exact legal description to be determined by mutual agreement, reserving therefrom such easement and other property interests which allow LANDOWNER to retain exclusive access to the Bike Trail from the Property as the LANDOWNER may require, as mutually agreed from time-to-time, for security purposes; provided, however, the Bike Trail shall be made generally available to the public on a regular basis during the daylight hours. CITY shall bear all costs for design, engineering and construction of the Bike Trail, which shall also include relocation of LANDOWNER's existing fence, and the existing footpath and bridge across Pleasant Grove Creek. Prior to making the grant and conveyance required hereby, LANDOWNER shall be provided with and shall approve the improvement plans for the bike Trail and aforementioned relocation, which approval shall not be unreasonably withheld. The improvement plans shall include, at a minimum, security gates located at the westernmost and easternmost points of the Bike Trail. Nothing herein shall be deemed to preclude LANDOWNER from constructing other fencing as it desires between the southernmost boundary of the Property and the northernmost boundary of the Bike Trail at its own cost.

Status	Ongoing obligation
Section	3.17
Title	Use of Recycled Water Amendment #1 – Ord. #3665 Amendment #3 – Ord. #5533 Amendment #4 – Ord. #5534
Obligation	Hewlett Packard Company: Landowner shall actively pursue the use of recycled water for the purpose of landscape irrigation for all new projects proposed within the property. The requirement to actively pursue the use of recycled water shall not itself obligate Landowner to use recycled water for such purposes. Landowner in its sole discretion shall determine whether the use of recycled water constitutes a sound business decision given all economic factors Landowner must consider in making said decision. In the event Landowner decides to use recycled water, City and Landowner agree that Landowner shall use recycled water for irrigation, and Landowner agrees to pay for the costs of connecting to and extending City recycled water lines as required to irrigate landscaping for new projects. All other recycled water uses as may be desired by Landowner shall be reviewed and approved by the Environmental Utilities Director. <u>3.17.1</u> Should Landowner decide to use recycled water: <u>3.17.1.A</u> City of Roseville shall be responsible for preparation and approval of a recycled water engineering report on behalf of Landowner for submission to appropriate state agencies. Landowner shall cooperate with City to provide information necessary to prepare said report. Information shall consist of plans for use of recycled water, or other pertinent data developed by Landowner that will provide the information for said report. Landowner shall provide timely and complete information to allow the City to efficiently prepare said report. <u>3.17.1.B</u> In connection with the use of recycled water, Landowner shall also be responsible for obtaining any and all ancillary necessary permits prior to actual use of recycled water and for the payment of all City fees and charges related thereto. <u>3.17.1.C</u> Provided a foregoing requirements are satisfied, City shall make recycled water available to Landowner at current charges specified in the Roseville Municipal Code. <u>3.17.2 Improvement Standards.</u> All recycled water improvements shall be designed and constructed pursuant to the City's then current Improvement Standards and shall be subject to City plan review, construction inspection and final approval. Landowner shall pay then current plan check and inspection costs as incurred by City for review and inspection of such improvements. BBC Roseville Oaks, LLC: Amendment #4 <u>3.17 Recycled Water System Improvements.</u> Landowner shall use recycled water for the purpose of landscape irrigation for all parks and landscape setbacks, medians, paseos and other landscape areas including all multi-family and non-residential landscaping uses within the Campus Oaks Property. City and Landowner agree that Landowner shall use recycled water for irrigation, and Landowner agrees to pay for the costs of connecting to and extending City recycled water lines as required to irrigate landscaping for new projects.

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	3.17.1 To facilitate Landowner's use of recycled water: 3.17.1.A Landowner shall prepare a Title 22 Recycled Water Engineering Report for submittal to and review by the State Regional Water Quality Control Board and State Department of Public Health documenting the use of recycled water in the Campus Oaks Property. Prior to submittal to the State Water Quality Control Board, Landowner shall obtain approval of the City's Environmental Utilities Director. Recycled water shall not be provided for use within the project until the Title 22 Recycled Water Engineering Report has received all required State approvals. 3.17.1.B In connection with the use of recycled water, Landowner shall be responsible for obtaining any and all ancillary necessary permits prior to actual use of recycled water and for the payment of any and all City fees and charges related thereto. 3.17.1.C Landowner shall, at its sole cost and expense, install the recycled water lines within the planned road rights of way as generally shown in Exhibit H attached hereto. Such installation shall include recycled water stubs to serve the median landscaping to be installed by Landowner within Blue Oaks and Woodcreek Oaks Boulevards. Any and all recycled water lines shall be constructed pursuant to City's then current Improvement Standards to permit acceptance thereof by the City upon completion thereof and shall be subject to City plan review, construction inspection and final approval. 3.17.1.D Landowner shall be required to add additional pumping capacity and ancillary equipment necessary to meet the increase peak demands of the project as identified in the Landowners Recycled Water System Master Plan. Landowner shall reimburse the City for the required upgrades to the pumping capacity at the North Zone and Dry Creek Wastewater Treatment Plant for actual costs of upgrades up to, but not exceeding \$300,000. 3.17.1.E Provided the foregoing requirements are satisfied, City shall make recycled water available to Landowner at user charges specified in the Roseville Municipal Code (RMC). 3.17.2 Improvement Standards. All recycled water improvements shall be designed and constructed pursuant to the City's then current Improvement Standards and shall be subject to City plan review, construction inspection and final approval. Landowner shall pay then current plan check and inspection costs as incurred by City for review and inspection of such improvements.

Status	Ongoing obligation

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

Section	3.18
Title	Reimbursement by Landowner Amendment #2 – Ord. #5548
Obligation	Hewlett Packard Company and BBC Roseville Oaks, LLC: Except as otherwise provided herein, each Amending Landowner shall be solely responsible for the costs of all improvements located within the Parcel owned thereby; in particular, and without limitation thereof, Campus Oaks acknowledges that it shall be solely responsible for the costs of all road, improvements located within Parcel 4. Campus Oaks acknowledges that it shall be solely responsible and shall not be entitled to any reimbursement from any other Landowner for the cost of any improvements to HP Way that may be installed by Campus Oaks in connection with any development of Parcel 4. Hewlett-Packard acknowledges that it will remain obligated to maintain the portion of the existing private storm drainage improvements currently serving the existing roadway within the HP Way right of way to the extent such private drainage improvements are not replaced by public drainage improvements as part of the HP Way improvements. The costs of any shared sewer, storm drainage or other utility improvements that are designed and/or sized and/or used to benefit and serve more than one Landowner's Parcel (the owners of which shall be referred to as the "Benefitting Landowners") shall be shared between the Benefitting Landowners based on pro rata engineered estimated flows at build-out of the benefitted properties (not actual flows), as calculated by, and or approved by the City Engineer, allocable to the Benefitting Landowners' Parcels, or portion(s) thereof, to be served thereby. Reimbursable costs shall include costs associated with design, engineering, construction management, staking, plan check and inspection fees, and construction, all of which shall be reviewed and approved by the City. Reimbursement from a Benefitting Landowner to a constructing Landowner for its share of improvement costs allocable to the Benefitting Landowner's Parcel shall be made to the constructing Landowner, with written confirmation of such payment delivered to the City, at such time as the Benefitting Landowner, as applicable, would have otherwise been required to construct the applicable sewer, storm drainage or other utility improvements or would otherwise be necessary to support development of its applicable Parcel as required by this Agreement and directed by the City. With respect to such reimbursements, the constructing Landowner shall be entitled to receive interest on the amount to be reimbursed (the "base amount") at the time when the reimbursement is to be paid. Interest shall be the lesser of the following, as calculated by the City Engineer: (i) The difference between the estimated cost to construct the reimbursable improvements at the time of reimbursement (as estimated by the City Engineer) and the base amount; and (ii) The base amount adjusted by the inflation-rate for construction costs based upon the Engineering News Record, Construction Cost Index (CCI) for the United States, 20 City Average, averaged with the San Francisco CCI. Should such index no longer exist, the City Engineer shall choose a similar index which in his/her opinion fairly estimates the inflation factor applicable to construction.

Status	Ongoing obligation
Section	3.19
Title	Phases of Development Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC:

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Amendment #4 The Phases of Development of the Campus Oaks Property identified on the Map of the Project attached as Exhibit B are intended to illustrate the road and related utility improvements anticipated by Landowner to be installed in connection with the development of the portions of the Campus Oaks Property within such Phases. Except as otherwise provided herein with respect to Landowner's commitment to commence construction of HP Way roadway and ancillary utilities prior to the issuance of any building permits within the Campus Oaks Property, this Phasing map shall not be deemed to imply that Landowner is obligated to develop the Campus Oaks Property in any particular order or sequence or is required to complete development within any Phase prior to commencement of development within any other Phase of the Campus Oaks Property. Landowner acknowledges that modifications to the Phasing Plan as shown in Exhibit B shall require additional City Review. Landowner shall be responsible for all costs associated with the preparation of any required special studies and for the associated cost of time and materials of City Staff for the review and processing of the requested information as deemed necessary by City.
Department	Engineering Division
Status	Ongoing obligation
Section	3.20.1
Title	Fire Tax Equivalent Fee Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 The Fire Service Construction Tax set forth in Chapter 4.46 of the Roseville Municipal Code is no longer in effect. Landowner or its respective successors shall pay a fee equal in amount to the discontinued Fire Service Construction Tax at issuance of building permit. Landowner hereby consents to and waives any objection to the imposition of such substitute fee.
Department	Fire Department and Building Division
Status	Ongoing obligation
Section	3.20.2
Title	Public Benefit Fee Amendment #4 – Ord. #5534 Amendment #5 – Ord. #5734
Obligation	BBC Roseville Oaks, LLC: Amendment #5 Except as otherwise provided below regarding the exemption from this fee for the affordable housing development planned for Parcels 22 and 23, as partial consideration for this Agreement, to offset a portion of the impact of this Project and the associated conversion from an industrial land use into a residential land use, and to ensure that the Project will benefit the current and future residents of Roseville, Landowner shall pay a Public Benefit Fee at the time of obtaining each residential building permit within the balance of the Project. The Public Benefit Fee for each low density and medium density residential unit shall be \$1,910. The Public Benefit Fee for each high density residential unit shall be \$1,240. Notwithstanding anything to the contrary above in this Section 3.20.2, the City agrees that development of Parcels 22 and 23 in accordance with the terms of this Agreement, including the affordable housing provisions of Section 2.5.2 above, shall be exempt from the payment of this Public Benefit Fee.
Department	Building Division

DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

Title	Signage for Future Public Facilities Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Landowner shall provide, install and maintain signage at the following public facility sites to alert residents of future facilities: park sites (parcels CO-61, CO-62, and CO-64), fire station (parcel CO-75), and bike trails where they will abut residential property, per City specifications and applicable sign permits.
Department	Planning Division
Status	Ongoing obligation
Section	3.20.5
Title	Signage for Future Tech/Business Park Development Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Prior to development of Parcel CO-52, Landowner shall provide, install and maintain signage at Parcel CO-52 to alert residents of future development of tech/business park uses planned for Parcel CO-52 facing the residential parcels across HP Way pursuant to the applicable sign permit therefor.
Department	Planning Division
Status	Ongoing obligation
Section	3.20.6
Title	Construction Waste Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Landowner shall comply with construction waste requirements set forth in the CA Green Building Code and The City's Construction & Demolition Recycling Ordinance, Chapter 9.17.000. All construction debris shall be delivered to the Placer County Western Regional Materials Recovery Facility. Landowner shall require that contractors and subcontractors submit to the City Environmental Utilities Department records of waste diversion and disposal in order to verify compliance with this requirement.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.20.7
Title	Weed Abatement on P/QP Parcels Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Prior to acceptance by the City of any P/QP parcel, Landowner shall maintain such P/QP parcel to meet City's weed abatement standards.
Department	Parks Department
Status	Ongoing obligation
Section	3.21
Title	School Fee Agreements Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Landowner has entered or will enter into separate written agreements with the Roseville City School District and the Roseville Joint Union High School District

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	(collectively, the "Districts"), prior to any subdivision map approval or issuance of any building permit, to mitigate the impacts of development of the Campus Oaks Property on said Districts. Such agreements outline the timing and amount of development impact fees payable by development of the Campus Oaks Property to mitigate such impacts. With the execution thereof, City agrees that so long as Landowner is not in default of said agreements, City shall process and approve any subdivision maps or other such entitlements for the Campus Oaks Property and issue any building permits for development thereof consistent with the Entitlements. Landowner agrees that a default under any of these school agreements shall also constitute a default under this Agreement.
Department	Planning Division
Status	Ongoing Obligation
Section	3.26
Title	Disclosures to Subsequent Purchasers Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 This Agreement shall constitute notice to all successors to Landowner hereunder, and to all subsequent purchasers of any lots and/or residential units within the Campus Oaks Property, of the following matters: 1. Designation of Blue Oaks Boulevard as a truck route. 2. The existence of this Development Agreement on the Campus Oaks Property. However, this notice shall not extend to the purchaser of a completed individual single family residential unit. 3. The Project will be served by surface water supplies and by groundwater supplies. 4. Recycled water will be used to irrigate parks and landscape setbacks, medians, paseos and other landscape areas including all multi-family and non-residential landscaping uses. 5. Requirement to implement water conservation measures per the project Water Conservation Plan attached hereto as Exhibit M, which may include such measures as Smart Timers. 6. Proximity of PG&E utility easement for high-pressure natural gas line along the eastern boundary of the Campus Oaks Property. 7. Requirement for fifty percent (50%) reduction in construction waste stream. 8. Location of schools and parks within one mile. 9. Parcels adjacent to Open Space may have a public bike trail and appurtenances adjacent to said parcels. 10. Location of well site. 11. Owners of residential units adjacent to separated sidewalks shall be responsible to maintain area between curb and sidewalks. 12. Masonry walls, within the City right-of-way will be owned by the City, which is responsible for their maintenance, repair and replacement.

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	13. Solar envelope impact: Landowner shall disclose to all residential and nonresidential buyers that certain properties, specifically those adjacent to major arterials and collector streets where City-maintained landscaping is installed, may impact the buyer's opportunity to install solar panels or structures or the efficiency or effectiveness of such solar panels or structures. And that this is primarily due to the trees within the street landscapes as being generally medium to large shade trees, which may cast shade, leaf litter, or other natural affects onto the adjacent property. 14. Designation of Blue Oaks Boulevard, Woodcreek Oaks Boulevard, HP Way, Painted Desert Drive and Crimson Ridge Way as potential fixed-route transit routes, including a map of the planned transit stops and park and ride within the Campus Oaks Property. If Landowner records any Property CC&Rs, such CC&Rs shall include the foregoing disclosures and the foregoing disclosures shall not be omitted or deleted from the CC&Rs without the City Attorney's prior written approval.
Department	City Attorney
Status	Evaluation of disclosures done at time of submittal of CC&Rs. Ongoing obligation.
Section	3.27
Title	Transportation Systems Management Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 Landowner and its successors shall comply with the City's Transportation Systems Management Ordinance.
Department	Alternative transportation division
Status	Ongoing obligation - to be conditioned on DRP entitlement.
Section	3.28
Title	Park and Ride Lot Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 A twenty (20) space park and ride lot shall, as shown on Exhibit C, be constructed by Landowner at its expense on Parcel CO-41 when said parcel is developed. Maintenance of the improvements shall be the responsibility of the Landowner. Park and ride lots shall allow for parking daily between the hours of 5:00 am and 10:00 pm.
Department	Alternative Transportation Department
Status	Ongoing obligation - conditioned on DRP entitlement.
Section	3.29
Title	Alternative Transportation Modes Marketing Amendment #4 – Ord. #5534
Obligation	BBC Roseville Oaks, LLC: Amendment #4 The Landowner shall provide to each new resident educational and marketing materials for alternative modes of transportation. To implement this requirement, the Landowner will periodically contact the Alternative Transportation Division to obtain current City prepared and produced information.
Department	Alternative Transportation Division
Status	Ongoing obligation

Obligation	BBC Roseville Oaks, LLC:

**North Industrial Specific Plan – Hewlett Packard Master Plan
DEVELOPMENT AGREEMENT IMPLEMENTATION MATRIX**

	Amendment #4 Landowner shall pay their fair share on a City-wide basis of the Long Range Master Transit Plan (LRMTP), the Short Range Transit Plan, and Bicycle Master Plan. The fair share payment for each shall be paid to the City prior to recordation of the large lot final map. Total City-wide fair share costs for all plans shall not exceed \$3,500.”
Department	Alternative Transportation Department and Building Division
Status	Ongoing obligation – fee not paid with Large Lot Map (Alt Trans)
Section	5.2
Title	Annual Review
Obligation	CITY shall, at least every twelve (12) months during the term of this Agreement, review the extent of good faith substantial compliance by LANDOWNER with the terms of this Agreement. Such periodic review shall be limited in scope to compliance with the terms of this Agreement pursuant to Section 65865.1 of the Government Code and the monitoring of mitigation in accordance with Section 21081.6 of the Public Ordinance Code of the State of California. Nothing in this Section 5.2 with respect to the concurrent review of compliance under this Agreement shall be deemed to create a duty or responsibility of CITY or LANDOWNER or define an event of default that but for such concurrent review would not have been so created or defined. Notice of such annual review shall include the statement that any review of obligations of LANDOWNER as set forth in this Agreement may result in amendment or termination of this Agreement. A finding by CITY of good faith compliance by LANDOWNER with the terms of the Agreement shall be conclusive with respect to the performance of LANDOWNER during the period preceding the review. Upon not less than thirty (30) days written notice by the Development Services Director of CITY, LANDOWNER shall provide such information as may be reasonably requested and deemed to be required by the Planning Director in order to ascertain compliance with this Agreement. The costs incurred by CITY for the annual review conducted by CITY pursuant to this Section 5.2 shall be borne by LANDOWNER. In the same manner prescribed in Section 11, CITY shall deposit in the mail to LANDOWNER a copy of all staff reports and related exhibits concerning contract performance and, to the extent practical, at least ten (10) calendar days prior to any such periodic review. LANDOWNER shall be permitted an opportunity to be heard orally or in writing regarding its performance under this Agreement before the City Council or if the matter is referred to the Planning Commission before said Commission. If CITY takes no action within thirty (30) days following the hearing required under Roseville Municipal Code Section 19.94.080, or any successor or amendment thereto, LANDOWNER shall be deemed to have complied in good faith with the provisions of the Agreement.
Department	Development Services

Section	2.6.2.4
Title	Community Facility Districts
Obligation	The City Manager or his/her designee shall maintain a list of low and very low-income affordable rental units for each Parcel which is subject to a Regulatory Agreement (or applicable City-approved form) and , on or about May 1 of each calendar year, shall send a copy of such Regulatory Agreement(s) to the City Finance Director. In reliance thereon, the Finance Director shall, to the extent allowed by law, if and when a Community Facilities District is formed encompassing the Property, set the applicable special tax for such Parcel at a level described in the rate and method for said Community Facilities District.
Department	Finance
Status	Obligation Complete
Section	2.7.2.1
Title	404 Permits for Backbone Infrastructure and Public Improvements
Obligation	These "Backbone Infrastructure" improvements include, but are not limited to, arterial and collector roadways, underground utility extensions for water, sewer, recycled water, and storm drains, electric facilities, wetland creation, flood control facilities, storm water treatment devices, bikeways, sewer lift station, site work (defined as rough grading and utilities stubbed to the site) for the water tank site, the electric substation site, the fire station, and the recycle center, open space crossings, and temporary construction activity disturbances, and include those certain segments of Backbone Infrastructure located off- site of the Plan Area, including the Urban Reserve area of the Annexation Area, and immediately south of and adjacent to Baseline Road, and the intersections of Baseline Road and Watt Avenue/Santucci Boulevard and Baseline Road and Fiddymment Road. In order to facilitate the orderly development of the Plan Area per the Phasing Plan and to allow Participating Owners the right to enter and construct on lands identified within the Backbone Infrastructure. All those lands identified within the Backbone Infrastructure and located on a Participating Owner'(s) property shall be dedicated as a single or group of lots on each final large lot map.
Department	Engineering Division/ Environmental Coordinator
Status	Obligation Complete
Section	2.7.6
Title	Preserve Area Operation and Management Plans
Obligation	Following successful completion of the Establishment Monitoring period as determined by the Army Corps, the City will assume Preserve Management responsibilities for the Perpetual Monitoring phase consistent with the City's soon to be approved Open Space Preserve Overarching Management Plan. Participating Owners (including Landowner) shall collectively pay the City a \$20,000 onetime fee , apportioned to Participating Owners on a pro-rata basis based on acreage, in exchange for appending to the City's Open Space Preserve Overarching Management Plan for Preserve area Perpetual Monitoring and reporting. Payment shall be made upon issuance by the Army Corps of the first 404 Permit applicable to the Project.
Department	Engineering Division, Open Space Division and Environmental Coordinator
Status	Obligation Complete. Paid 2/12/2019
Section	3.3.1
Title	Recordation of Large Lot Maps
Obligation	One Large Lot Tentative Map shall be prepared for the entire Plan Area. The Large Lot Tentative Map shall depict areas that match the boundaries of the properties owned by each Participating Owner. Each of the Participating Owners can record a

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	separate large lot final map on its respective property. Any one of such nine (9) Large Lot Final Maps can record independent of the others. Security shall only be required for recordation of small lot tentative subdivision maps. All future rights-of-ways for arterial and collector roadways including landscaped corridors adjacent to low and median density residential properties, open spaces, and future public lands for the electrical sub-station, fire station, water tanks, well sites and parks shall be identified. These lands shall be dedicated to the City on the face of each Large Lot Final Map as an Irrevocable Offer to Dedicate (IOD). Upon the recordation of any Large Lot Final Map, the City shall accept all IOD's subject to improvement. The IOD's shall remain in force until such time as all Landowner obligations for public improvements and/ or Preserve Area Establishment Phase monitoring is complete. Upon issuance of a Certificate of Completion for the completed improvements within the IOD's, and following the acceptance of those improvements by the City Council, the City shall accept the dedications of ROW, Open Spaces, and Public Utility and Access easements. The City is not obligated to accept land dedications for future P/QP, Park, or other public improvements until the frontage improvements to such land dedications are completed. Maintenance of these properties remains a Landowner obligation until accepted by City.
Department	Engineering Division
Status	Obligation Complete
Section	3.4
Title	Public Utilities within Right of Way
Obligation	All public utilities shall be located within the rights-of-way to be granted by Landowner to City for the arterials, collectors and other local streets within the Property or within public easements granted by Landowner to City for such purposes. Upon approval of any final large lot subdivision map (or any phase of it), or demand of the City based upon service needs, whichever occurs first, Landowner agrees to grant an IOD to City for the rights-of-way, for any arterials, collectors, or public easements that include the area within which such public utilities will be located. If such utilities need to be installed prior to the construction of the applicable street(s), Landowner shall grant a temporary public utility easement which shall merge with the rights-of-way upon completion of the applicable street improvements. The width of the rights-of-way, including the area for the applicable roadways, utilities and power line corridors shall be as shown in the Specific Plan. Nothing in this Agreement shall be construed to limit or restrict the right of the City to require the dedication of an easement for utility, bus shelter, or power line corridor purposes related to development of any parcel when such requirement would be otherwise consistent with the reasonable exercise of the police powers of the City and is reasonably related to a requirement to serve the parcel or parcels adjacent to the easement.
Department	Environmental Utilities
Status	Obligation Complete
Section	3.5.8
Title	Update of City Fee
Obligation	Landowner acknowledges that as a result of approval of the Specific Plan, the City will need to update the Capital Improvement Program and Traffic Mitigation Fee to include the Specific Plan. Landowner and City shall use their best efforts to cause such update to be completed within twelve (12) months of the date hereof. Until such update has been completed and approved by the City, Landowner agrees to pay the fee rate then currently charged to the West Roseville Specific Plan Area. To the extent that the Traffic Mitigation Fee adopted for the SVSP is higher than that charged in the West Roseville Specific Plan Area, Landowner shall pay the

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	difference as a surcharge to future Traffic Mitigation Fee obligations on a per-DUE basis for the remaining DUE's within the SVSP. To the extent that the Traffic Mitigation Fee adopted for the SVSP is lower than that charged in the West Roseville Specific Plan Area, Landowner shall receive a credit against future Traffic Mitigation Fee payments until such time as the amount of the overpayment is exhausted.
Department	Engineering

Section	3.8.1
Title	Water Study
Obligation	Landowner has prepared a Water Study for its on- site water facilities and prepared a general design of the water system that identifies the size and location of waterlines, storage facilities, and pump stations. The timing of construction of such facilities is set forth in the Infrastructure Phasing.
Department	Environmental Utilities Department
Status	Obligation Complete
Section	3.8.8
Title	Coordination with PCWA
Obligation	Placer County Water Agency ("PCWA") has expressed interest in coordinating with the City and Landowner the future construction by PCWA or others of water facilities (including, but not limited to, a large diameter water line) within the Baseline Road and Santucci Boulevard right-of- way. In order to facilitate such cooperation with PCWA, Landowner shall, prior to the commencement of improvement plan design to Baseline Road or Santucci Boulevard, provide a construction schedule for the improvements to PCWA. Thereafter, to the extent that such coordination can be accomplished without cost and/ or delay to Landowner in the development of the Project, Landowner and City shall cooperate with PCWA in the construction of such water conveyance facilities.
Department	Environmental Utilities Department
Status	PCWA did not choose to participate in Baseline and Santucci water design. Obligation Complete
Section	3.9.3
Title	Recycled Water Engineering Report
Obligation	Jointly with Participating Owners, Landowner shall prepare a Title 22 Recycled Water Engineering Report for submittal to and review by the State Regional Water Quality Control Board and State Department of Public Health documenting the use of recycled water in the SVSP. Prior to submittal to the State Water Quality Control Board, Landowner shall obtain approval of the City's Environmental Utilities Director. Recycled water shall not be provided for use within the Project until the Title 22 Recycled Water Engineering Report has received all required State approvals.
Department	Environmental Utilities Department
Status	Obligation Complete
Section	3.10.3
Title	Grant of Floodplain
Obligation	Prior to or concurrent with approval of any final map containing areas within the 100-year floodplain, Landowner shall grant an IOD to the City, or to a conservancy or other non-profit entity acceptable to the City, such areas within the Open Space Preserve Areas and the Specific Plan.
Department	Engineering Division
Status	Obligation Complete
Section	3.11.3
Title	Electric Substation

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

Obligation	Landowner shall, prior to issuance of the 500th residential building permit or any combination of building permits within the SVSP as set forth below, dedicate to City a 0.86 buildable acre site net of easements, wetlands, riparian corridors and required setbacks for use as an electric substation at the location set forth in the Specific Plan. Landowner, prior to the issuance of the 500th residential building permit or any combination of building permits within the SVSP as set forth below, and at Landowner's expense, the substation site shall be graded and compacted to within 6" of final grade as approved by Electric Utility Director and consistent with the City's Grading Ordinance, and where retaining walls are required, the retaining wall shall be a split faced key stone style wall or comparable quality design to be installed by Landowner. The Landowner shall provide an access road capable of transporting a 200,000 pound distribution transformer and associated transportation trailer. The road shall be designed to meet the truck and trailer minimum turning radius, shall have a width of twelve feet (12') plus two foot (2') aggregate base shoulders on each side of the road, and shall have a structural section consisting of lime treated sub-grade with 2" asphalt concrete over 4" aggregate base. The final design of the access road shall be reviewed and approved by the Public Works Director after consultation with the Electric Department's Engineering Group before it is constructed. City shall construct the electric substation and all other tenant improvements on this site, at the time when needed to serve development of the Property; provided that the site is dedicated to City in sufficient time to allow for a reasonable time for City to construct the electric substation and that City has sufficient funds to construct the electric substation. The Landowner shall grant a temporary easement for the temporary electric substation access road and dedicate the substation site prior to the issuance of the 500th residential building permit or any combination of building permits within the SVSP that the City determines, in its sole discretion, has absorbed existing electrical system capacity. Additional building permits will not be issued by City unless and until the electric substation site has been dedicated and the temporary easement for the temporary access road has been granted to City. The temporary easement Shall, among other matters, specify when the easement shall be terminated.
Department	Electric Department and Building Division
Status	Obligation Complete
Section	3.11.7
Title	Impact of Proposed State Initiative
Obligation	An initiative entitled "New Two Thirds Requirement for Local Public Utility Providers" has qualified for the statewide ballot, should such initiative be approved by voters, Roseville Electric might not be the electricity provider for the SVSP. Should another electric utility provide electric service to the SVSP instead of Roseville Electric, the provisions of this Section 3.11, including, but not limited to, any requirement for dedication of a substation site, shall be inapplicable to the SVSP, provided, however, that in such event of another electric utility providing electric service to the SVSP, City shall not be responsible for the costs of electricity for street lights and traffic signals in the Plan Area.
Department	Electric Department
Status	Obligation Complete
Section	3.12.2.2
Title	Maintenance District Financing
Obligation	Pursuant to Section 3.19 below, Landowner shall support the formation of the Community Facilities District - Public Services District defined therein. Among other things, the Services CFD shall be authorized to levy special taxes or assessments on the Property and to provide maintenance of the parks.

Department	Parks and Finance
Status	Obligation Complete
Section	3.13
Title	School Fee Agreement
Obligation	Landowner has entered or will enter into separate written agreements with the Roseville City School District, Center Joint Unified School District, and the Roseville Joint Union High School District (collectively "the Districts"), prior to any subdivision map approval or issuance of any building permit, to mitigate the impacts of development of the Property on said Districts. Such agreements outline the timing and delivery of school sites and the timing and obligation for school construction. With the execution thereof, City agrees that so long as Landowner is not in default of said agreements, City shall process and approve any subdivision maps or other such entitlements for the Property and issue any building permits for development thereof consistent with the Entitlements. Landowner agrees that a default under any of these school agreements shall also constitute a default under this Agreement.
Department	Engineering and Building Division, and School Districts
Status	Obligation Complete
Section	3.17.1
Title	Community Facilities District – Public Facilities (Project Infrastructure) Formation
Obligation	Landowner, by itself or in conjunction with Participating Owners, and City may form a Community Facilities District or Districts for the purpose of financing the construction and/ or acquisition of public infrastructure and facilities within the SVSP ("Project CFD(s)"). If requested by Landowner, by itself or in conjunction with Participating Owners, City and Landowner, (and, if applicable, Participating Owners) shall use their best efforts to cause to be formed the Project CFD(s) for the purpose of financing the acquisition or construction of some or all of the improvements and facilities eligible for CFD financing (the "CFD Eligible Improvements") within and associated with the Sierra Vista Specific Plan, including those improvements which will mitigate impacts of the Sierra Vista Specific Plan upon areas inside and outside of the Sierra Vista Specific Plan, and will be owned, operated and maintained by the City or another public agency. More specifically, the CFD Eligible Improvements are those improvements including, but not limited to arterials, collectors, roadways serving bus transfer facilities, and unloaded primary residential roads; traffic signals; right of way acquisitions; bridges/ culverts, water, sewer, recycled water, and drainage improvements and appurtenances; landscape and landscape irrigation and drainage facilities; environmental mitigation and remediation; bicycle and pedestrian facilities; parks, paseos, schools, electrical substations, park and ride facilities, bus facilities, recycle center, police protection, fire protection, modification to and or undergrounding of existing improvements; wetlands; electrical and dry utility improvements; transit improvements; masonry walls; development impact fees; design, engineering, surveying, construction management, and security for CFD Eligible Improvements; and other improvements as which are defined as authorized improvements under the Project CFD(s) selected by the City or any ordinance under the City. Formation of the Project CFD(s) shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53311, et seq. Landowner shall be allocated a share of infrastructure costs and assessed special taxes as specified in a tax formula agreed to by City, Landowner, and, if applicable, Participating Owners, in accordance with the financing plan for the SVSP, provided, however, that City agrees that, to the extent permitted by law, City shall allow for

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	separate improvement areas in the Project CFD boundary and/ or separate CFDs such that default by another Participating Owner of its CFD obligations does not place non-defaulting Participating Owners, including Landowner, in default. The rights and obligations under this Section 3.17 shall survive the termination or expiration of this Agreement.
Department	Finance Department
Status	District is formed – Obligation Complete
Section	3.17.1.1
Title	Community Facilities District – Public Facilities (Project Infrastructure) Formation
Obligation	Nothing in this section shall be construed to require Landowner to form a CFD nor, if formed, to preclude the payment by an owner of any of the Parcels to be included within the CFD a cash amount equivalent to its proportionate share of costs for the CFD Improvements, or any portion thereof, prior to the issuance of bonds.
Department	Finance Department
Status	District is formed – Obligation Complete
Section	3.17.1.2
Title	Community Facilities District – Public Facilities (Project Infrastructure) Formation
Obligation	If Landowner, by itself or in conjunction with Participating Owners, desires to pursue a Community Facilities District, City and Landowner (and Participating Owners, if applicable), agree that, with the consent of Landowner (and Participating Owners, if applicable), and to the extent permitted by law, City and Landowner (and Participating Owners, if applicable), shall use their best efforts to cause bonds to be issued and in amounts sufficient to affect the purposes of this section. City and Landowner (and Participating Owners, if applicable), further agree that, with the consent of Landowner (and Participating Owners, if applicable), or their successor(s) in interest, and to the extent permitted by law, the City agrees to the following: (a) Maximum Annual Taxes for residential units, when aggregated with all other existing or expected taxes and assessments (excluding homeowners association assessments}, shall not exceed 2.00% of the assessed valuation, net of the homeowner's exemption (2% Test). (b) The Special Tax shall be levied for as long as needed to service the principal and interest on bond debt, and to pay for any additional authorized facilities not reimbursed with bond proceeds as defined in the Funding, Construction, and Acquisition Agreement. However, the Special Tax shall be levied for a period that allows for at least two non- overlapping bond sales to cover deferred fees as set forth in (i) below. The Special Tax levied may exceed 50 years. (c) City shall not unreasonably deny the Maximum Annual Tax escalating at 2% per year. (d) Authorized facilities shall include, among other items, development impact fees for public improvements. (e) Annual Costs shall provide that special taxes not used for debt service and City administration be paid to Participating Owners, including Landowner, for any authorized facilities not reimbursed with bond proceeds (pay-as-you-go). City shall reasonably consider a reasonable interest component for any authorized facilities reimbursed with pay-as-you-go provided for in the Funding, Construction and Acquisition Agreement defined below. (f) Landowner and Participating Owners, if applicable, may utilize the Statewide Community Infrastructure Program ("SCIP") program for any eligible impact fees.

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	(g) Landowner, and Participating Owners, if applicable, may utilize a phased bond sale or sales. (h) Landowner, and Participating Owners, if applicable, may utilize private placement of bonds. (i) Bonds proceeds from bond sales commencing in the year 31 timeframe shall include an amount no greater than \$5,600 per residential unit, adjusted as the SPRTA Tier II Traffic Fee may be subsequently adjusted, consisting of a portion or all of the following fees set forth in this Agreement or otherwise provided in the Roseville Municipal Code that would normally be paid at the time of issuance of building permits for low, medium or high density residential dwelling units: (1) City-Wide Park Fee (Section 3.12.4) (2) City Public Facilities Fee (Roseville Municipal Code Chapter 4.52); (3) Public Benefit Fee (Section 3.14.3). City reserves the discretion to determine which portions (amount) of each of the fees described in above subsections (1), (2), and (3) may be deferred to the bond sale. Notwithstanding any provision in this Agreement to the contrary, any amount exceeding \$5,600, adjusted as the SPRTA Tier II Traffic Fee may be subsequently adjusted (or exceeding such actual lesser amount for MDR or HDR units determined by City), per residential unit shall be due and payable to City upon issuance of a building permit commencing with the first applicable building permit for the SVSP. Notwithstanding any other provision in this Agreement to the contrary, if any of the fees described in above subsections (1), (2), and (3) are required by City for non-residential development then such fees shall be collected upon issuance of building permit commencing with the first applicable building permit. Should SPRTA approve any portion or all of the Tier II Traffic Fee being likewise deferred to payment from bond sale proceeds commencing in the year 31 timeframe, then such amount per residential unit deferred for the Tier II Traffic Fee shall reduce dollar-for-dollar the above- referenced per residential unit fees otherwise deferred to future bond sale proceeds as provided for in this Section 3.17.1.2 (i). If SPRTA Tier II traffic fees cannot be so deferred to payment from bond sale proceeds commencing in the year 31 timeframe, City shall within the rate and method for Project CFD(s) provided for in Section 3.17 accommodate total additional pay-as-you-go revenue up to \$500 per residential unit for City-Wide park improvements from the pay-as-you-go financing over a period starting in year 10 of the Project CFD(s), up to \$100 per residential unit per year for 5 years, provided, however, that City constructs City-Wide park improvements in either the SVSP or WRSP within twenty-four (24) months of commencement of collection of such additional pay-as-you-go revenues. In the event that City does collect such additional pay-as-you-go revenues, and proceeds forward to construct such improvements, the City Public Facilities Fee referenced herein to be deferred to payment from bond sale proceeds commencing in the year 31 timeframe shall be reduced by \$500 per unit to account for the additional pay-as-you-go revenues required by City. Each Participating Owner shall only be responsible for its pro-rata share of special taxes as set forth in the rate and method for the Project CFD(s). Should the Project CFD(s) including the Property not be formed at the time that any

Status	District is Formed – Obligation Complete
Section	3.20.1.1
Title	Community Facilities District – Municipal Services Formation – Consent, Waiver and Special Benefit
Obligation	No residential building permit, excluding permits for model homes, shall be issued until a Community Facilities District -Municipal Services (Municipal Services CFD) has been formed or annexed to the City's existing Municipal Services CFD. Landowner consents to and shall cooperate in such formation or other such financing mechanism for services purposes and consent herewith to the levy of such special taxes as are necessary to fund the maintenance obligations described in Section 3.20.2. Formation of the Municipal Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53111, et seq. The initial amount of the maximum special tax shall be in accordance with the Municipal Services District Rate, Method, and Apportionment ("RMA"), and adjusted annually for inflation. The initial amount of the maximum special tax (for the 2009/10 City fiscal year, and as subsequently adjusted annually) shall be \$342 for LDR units, \$200 for MDR units,\$100 for HDR units, \$801 per acre for business professional land uses, and \$932 per acre for commercial land uses. City shall initiate the necessary steps to revise the RMA in the City's existing Municipal Services CFD to conform to the above-referenced initial amounts of maximum special taxes.

Development Agreement Implementation Matrix**

	Participating Owners the ability to develop their private holdings, each individual Participating Owner will be responsible for making application to the Army Corps for their individual landowner 404 Permit(s). The administration of, amendments to, any mitigation requirements of, and all modifications or supplements thereto, of the Individual Landowner 404 Permit(s), if required, will be the responsibility of the individual Participating Owner. Such Individual Landowner 404 Permit(s) shall be approved, with conditions satisfactory to the City, if such conditions or 404 Permit(s) will impact any public uses or improvements to be conveyed pursuant to this Agreement, prior to commencement of construction of any improvements.
Department	Engineering Division/ Environmental Coordinator
Status	Ongoing obligation
Section	2.7.2.3
Title	Preserve Area Establishment and Perpetual Monitoring Phases
Obligation	Required preservation and/or creation or restoration of wetland resources within preserve area. City and Landowner shall cooperate with one another in the formation of financing mechanism to fund the costs of monitoring and maintaining the preserve area in two separate phases. First phase (establishment monitoring phase): occurs during the time the the preserve property remains under ownership of participating owners and adjacent build out is occurring in accordance with the specific plan and 404 permits. Wetlands would be monitored for success in accordance with criteria identified in the 404 Permit(s) and all other identified Preserve improvements would be constructed, including, but not limited to, perimeter fencing, outfalls, drainage swales, bridges, utility lines, and bike trails. The duration of the Establishment Monitoring Phase will be specified in the 404 Permit(s) and will depend in part on the ability of mitigation wetlands to meet success criteria identified in the 404 Permit(s). City and Landowner acknowledge and agree that City will take ownership of the Preserve and any Preserve referenced in this Agreement after the Establishment Monitoring Phase has demonstrated that all created habitat has met the required success criteria and all required Preserve improvements and/ or facilities have been completed to the satisfaction of the City and applicable Federal permitting agencies. Landowner shall use its commercially reasonable best efforts to obtain written verification from the Army Corps that success criteria for the on-site Preserve Area Establishment Monitoring Phase have been met. In lieu of obtaining written approval for the Army Corps, the Establishment Monitoring Phase can be deemed complete upon receipt of a letter from Landowner to the Army Corps with a copy provided to City on the same date notifying the Army Corps that the Establishment Monitoring Phase of the particular Preserve(s) is complete. Any such letter shall indicate that the Army Corps' concurrence with the Landowner's determination will be assumed unless the Army Corps responds to the contrary within thirty (30) days. If the Army Corps does not respond within thirty (30) days the Establishment Monitoring Phase will be considered complete. Preserve ownership and perpetual management responsibilities can then be transferred to the City in accordance with the process identified in the City of Roseville Open Space Preserve Overarching Management Plan. The second phase, or Perpetual Monitoring Phase, would begin immediately following the Establishment Monitoring Phase. At the outset of the Perpetual Monitoring Phase, on-site Preserve areas would be dedicated to and accepted by the City and then managed by City in accordance with the City's Open Space Preserve Overarching Management Plan and any Perpetual Monitoring Phase or special management conditions identified in the 404 Permits.
Department	Engineering Division, Open Space Division and Environmental Coordinator

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

Status	Ongoing obligation
Section	2.7.3
Title	Maintenance by Landowner During the Establishment Monitoring Phase
Obligation	Participating Owners, including Landowner, shall be solely responsible for satisfying all mitigation, monitoring, reporting, and maintenance required for on-site Preserve Areas, including, but not limited to, development of any 404 Permit(s) required Establishment Monitoring Phase Operations and Management ("O&M") Plan, or any extended Establishment Monitoring Phase, as determined by the Army Corps, for the Preserve Area. Participating Owners, including Landowner, acknowledge responsibility for obtaining 404 permit coverage for all open space uses specified in the Specific Plan and this Agreement. Funds collected by the Public Services CFD or other financing mechanism for the purpose of maintenance of Preserve Area(s) on a particular Participating Owner's property located within the Plan Area will be made available to that particular Participating Owner for on-going maintenance, monitoring, and reporting for that particular Preserve Area or Areas up to and until such time as City assumes the obligation for Perpetual Monitoring for that particular Preserve Area or Areas.
Department	Engineering Division, Open Space Division
Status	Ongoing obligation
Section	2.7.4
Title	Maintenance by City During the Perpetual Monitoring Phase
Obligation	A PAR Analysis shall be prepared and approved by the City to determine the amount of funding required to manage Preserve Areas during the Perpetual Monitoring Phase. The annual funding needs would be generated via establishment of a Public Services CFD. Following successful completion of the Establishment Monitoring Phase and transfer of applicable Preserve areas to the City, the City, at the expense of the Public Services CFD, shall have sole responsibility to manage the Preserve Area(s) according to the City's Open Space Preserve Overarching Management Plan and any Perpetual Monitoring Phase or special management conditions identified in the applicable 404 Permit(s).
Department	Planning Division, Open Space Division and Finance Department
Status	Ongoing obligation
Section	2.7.5
Title	Facilities Included in 404 Permits
Obligation	Landowner shall use its best efforts to ensure that the approval of its applicable 404 Permit(s) includes development of the bike paths, fuel modification areas, water quality structures and drainage and flood control facilities, bridges (foot, bike, and road), culverts, and ancillary improvements described in the Specific Plan and this Agreement. To the extent feasible, these improvements should be located within the outer 50 feet of any Preserve Area(s).
Department	Engineering Division/ Environmental Coordinator
Status	Ongoing obligation
Section	3.1
Title	Development, Connection and Mitigation Fees
Obligation	Any and all required payments of development, connection or mitigation fees by

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	Landowner shall be made at the time and in the amount specified by then applicable City ordinances. Wherever this Agreement obligates Landowner to design, construct or install any improvements, the cost thereof may be provided by Landowner, or by traditional assessment district, CPD or other such financing mechanism, subject to and in accordance with the provisions thereof and with City approval.
Department	All Development Departments
Status	Landowner to pay all required payments of development, connection or mitigation fees at the time and in the amount specified by the City.
Section	3.2
Title	Public Improvements to be Dedicated, Constructed or Financed by Landowner
Obligation	Landowner agrees to dedicate, construct or acquire the improvements or facilities and to perform the obligations set forth in this Section 3, at its expense, subject only to reimbursements or credits specified in this Agreement. Prior to dedication of sites to City, Landowner shall obtain and fulfill the terms of any state and federal permits needed for anticipated development (e.g., 404 Permit and CDFG 1600 Streambed Alteration Agreements, as needed) and complete said development if said development is a Landowner responsibility under this Agreement. All land dedications shall be free of environmental or other constraints or other encumbrances net inconsistent with the intended use of the Property (e.g., all wetlands shall be filled in accordance with applicable 404 Permits), unless expressly waived by the City. Title shall be conveyed to City in fee simple and without restriction or limitation on use(s), unless approved otherwise by the City Attorney. Signage shall be installed in accordance with Section 3.25.
Department	City Attorney
Status	Attorney: Evaluation done at time of conveyance. Ongoing obligation.
Section	3.2.1
Title	Landowners obligations for backbone Infrastructure
Obligation	The Backbone Infrastructure as defined in Section 2.7.2.1 above includes improvements that are required to provide access and public utilities to any part of the plan area in accordance with Section 3.3. The construction obligation of each phase or sub-phase of development may require construction of certain portions of Backbone Infrastructure, on the property of other Participating Landowner(s). This will require access for the purpose of construction. To assure that the Participating Landowners have confidence that they can access, construct, and offer to the City public improvements required of the phase or sub-phase of development, Landowner hereby agrees to provide all Participating Landowners, temporary construction and access easements to those Backbone Lands on which Backbone Infrastructure is to be constructed as described below. Easements for all Backbone Lands will be granted to all the Participating Landowners in a format acceptable to the City for purposes of access and construction of public improvements, and to the City as an irrevocable offer of dedication (IOD) for purposes of access and public utilities. These easements and IODs will be recorded at the County Recorder's Office and shall be for the benefit of each Participating Owner. The easement width for Backbone Lands shall be to the width of the road right of way plus 25' or, the back of the landscape corridor, whichever is less. All easements and IODs described above shall be recorded before the recordation of any Large Lot Final Map, but no later than 180 days after annexation of the Specific Plan area to City. A survey map exhibit of the easements will accompany the descriptions and plats and shall be recorded as a supplemental exhibit(s).

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	Backbone Lands will be dedicated to the City as set forth above. Upon the satisfactory completion of the public improvements, and in the case of flood control improvements within the open space areas, the successful completion of the Establishment Period success criteria, the City will accept the dedication. Where the City approves a tentative map or development project that allows for the construction of utility lines absent the completion of roadways overlaying such infrastructure, the City shall accept that portion of the IOD, as described above, for the public utility easements acceptance of the utility lines, but prior to completion of upon roadways overlaying such infrastructure. As the Participating Landowners construct the Backbone Infrastructure associated within their phase or sub-phase of development they will: A) Assume full responsibility to manage the affairs of that portion of the Backbone Infrastructure and the execution of the Backbone Infrastructure 404 Permit(s) (as herein defined). B) Mitigate the impacts of all wetland fills for applicable segment(s) of Backbone Infrastructure identified in the Backbone Infrastructure 404 permit(s). C) Prior to acceptance of all or any part of the Preserve Area by the City, the Participating Landowner(s) shall, through funds from the Public Services CFD as provided in Section 2.7.3, be solely responsible for Preserve Area maintenance and monitoring as further described in Section 2.7.4.
Department	Engineering Division
Status	Ongoing obligation
Section	3.3
Title	Project Phasing
Obligation	Landowner shall develop and construct the infrastructure necessary to serve the Project in Phases A through D substantially consistent with the Phasing Plan. Infrastructure may be constructed in sub-phases as approved at the discretion of the City, in consultation with all affected City departments. The following criteria will be used to establish the conditions and requirements for that portion of work: • The progression of sub-phase development shall provide the necessary facilities to support the land uses within the proposed sub-phase of development. • The phase size shall be as mutually agreed upon by Landowner and City, subject to the criteria set forth in this Section 3.3. • Provide detailed information (maps, analysis, written detail of improvements, etc.), to the satisfaction of City, to support the proposed sub-phase improvements for each utility / public service within the phase. • Prior to the approval of development of any parcel, the cumulative effect of that increment of development shall be evaluated to determine its impact on existing systems. This may require, as determined by City, that special studies be conducted to demonstrate how the sub-phase is in substantial conformance with infrastructure master plans prepared for the Specific Plan. The sub-phase shall demonstrate to the City's satisfaction that the following performance criteria are met:

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	• Sanitary Sewer -One point of connection required, which may include a sanitary sewer lift station or interim lift station. • Recycled Water -One point of connection required. A looped system is not required. Potable water may be utilized on an interim basis until such time as the Environmental Utilities Director makes a determination that potable water service can no longer be allowed. At that point in time the system shall be switched over to recycled water by eliminating each potable water charging station and connecting to the West Roseville Specific Plan recycled system, as described in Section 3.9 herein (Recycled Water Facilities). At the time that a water charging station is abandoned, a fire hydrant shall be installed to separate the potable water and recycled water systems. Five temporary potable water charging station connections to the recycled water system shall be allowed among the 4 phases A-D, with two temporary potable water charging station connections anticipated for Phase A. The connection of the recycled water pipe to the potable water pipe shall consist of one gate valve and one backflow prevention device between the connections. The charging stations may be relocated within a phase or to another phase and multiple sub-phases can share a single station. Recycled water pipe lines shall be constructed concurrent with roadways construction and paving within a phase or sub-phase. Additional temporary potable water charging station connections to the recycled water system may be utilized subject to the approval of the Environmental Utilities Director. • Potable Water -Two independent points of connection required. • Roadway -Two points of access required (one may be a temporary EVA) and reasonable traffic circulation. Landowner acknowledges that modifications to the Phasing Plan shall require additional City review. Special studies including but not limited to, water, recycled water, sewer, storm water systems, traffic, fire response, electric supply, and other environmental review may be required. The Landowner and/ or Participating Owners will be responsible for all costs associated with the preparation of special studies, and for the associated costs, of time and materials of City Staff for the review and processing of the requested deviation as deemed necessary by City.
Department	Environmental Utilities Department and Engineering Division
Status	Ongoing obligation
Section	3.5
Title	Road Improvements
Obligation	Landowner, at its expense, shall provide the road improvements in this Agreement, the Phasing Plan, as may be modified as provided in Section 3.3, the Infrastructure Phasing and Reimbursement. 3.5.1 Landowner's Obligation: Landowner obligation for residential and collector roadway improvements shall consist of the construction of curb, gutter, sidewalk, utilities, streetlights and pavement section. Landowner obligation for arterial roadways shall consist of curb, gutter, sidewalk, one-half of the median landscaping and median curbing, grading of 1/2 of the full road section, drainage facilities, utilities, street lights, signal interconnect conduits, and eighteen feet (18') of asphalt pavement adjacent to the property, including aggregate base and sub-base, and any additional pavement widening at intersections to accommodate turn lanes and bus turnouts as may be required by the City Engineer. Auxiliary lanes, turn flares, accel/ decel lines, tapers, transition lanes and bus turnouts

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	shall be constructed in, and encroach into, the public utility easement/ landscape easement corridors per the Specific Plan.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.2
Title	Arterial Roadways
Obligation	Landowner shall grant easements and dedicate all IODs for all arterial roadways. Arterial roadways wholly within and adjacent to the Specific Plan are Santucci Boulevard, Vista Grande Boulevard, Westbrook Boulevard, Fiddymment Road and Baseline Road. City and Landowner acknowledge that the locations of these roadways are schematic in nature and may be revised during the design of the improvement plans based on the final design for such arterials and the final small lot subdivision for the Property. The number of lanes and width of pavement shall be as required within the Specific Plan. Arterial roadway improvements in excess of required Landowner's Frontage Improvements constructed by Landowner shall be subject to a funding, construction and acquisition agreement (the "Funding, Construction and Acquisition Agreement") between Landowner and City. City shall establish a traffic mitigation fee set-aside fund dedicated to CIP improvements within the Plan Area that are in excess of required Frontage Improvements by withholding 52.5% (the "TMF Set-Aside Fund") of City traffic mitigation fee ("TMF" or "City TMF Fund") revenues paid by Landowner and other Participating Owners within the Plan Area, of which 5% will be allocated for Westbrook Boulevard Improvements through the Urban Reserve. Payments to Landowner for CIP improvements shall be on a first completed, first paid basis and shall be distributed from the TMF Set-Aside Fund as improvements are constructed and invoiced pursuant to the Funding, Construction and Acquisition Agreement, and shall be in no particular order of priority with the exception of Vista Grande Boulevard CIP improvements. Where Vista Grande Boulevard CIP Improvements are constructed, the costs of such improvements shall be constructed and paid for by the City TMF Fund and not from the TMF Set-Aside Fund, with payment to occur as such Vista Grande Boulevard CIP improvements are constructed and invoiced. Within thirty (30) days of City acceptance of improvement plans, City and Landowner shall enter into a Funding, Construction and Acquisition Agreement to provide for periodic progress payments to Landowner, based upon invoices for actual work constructed, for stages of the arterial roadway improvements described in this Section 3.5.2 that have been signed off by City inspectors. Landowner's specific construction obligations for the above referenced arterial roadways, where applicable to Landowner, are as follows: (a) Vista Grande Boulevard. Landowner shall construct the Frontage Improvements, if Landowner owns both sides of the Frontage. In the event Landowner owns only one side of the Frontage, Landowner shall be responsible to insure construction of the opposite Frontage Improvements as a condition of opening the roadway for public use. In this case, Landowner shall not be obligated to construct its one-half of the median landscaping and median curb in exchange for constructing the opposite Frontage Improvements. City shall pay the constructing Landowner the difference between the cost of the eighteen feet (18') of pavement, grading of half of the full road section, curb and gutter and the cost of one-half median landscaping and one median curb. Prior to the recordation of the first small lot residential final map on the portion of its

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	property abutting Vista Grande Boulevard, the non-constructing Participating Owner shall reimburse the City for the cost difference of that Participating Owner's eighteen feet (18') of pavement, grading of half of the full road section, curb and gutter, and the cost of one-half median landscaping and one median curb, and that non-constructing Participating Owner shall construct both halves of the median landscaping and both median curbs. City shall reimburse Landowner for such cost difference relative to Frontage Improvements on another Landowner's Property for Vista Grande Boulevard out of the TMF Set-Aside Fund, but if insufficient funds are available to reimburse Landowner, City shall make payments to the extent funds are available, then provide 50% credits against the TMF applied to building permits on Landowner's Property, for all Dwelling Unit Equivalents ("DUEs") on Landowner's Property, up to the amount of the payments due to Landowner, provided, however, that once sufficient City revenues are available to fully pay for such improvements, City shall pay Landowner such amount, less the amount of any payments made and credits previously extended to Landowner against the TMF applied to DUEs on Landowner's Property. City may elect for Landowner to construct the additional two inside lanes of Vista Grande Boulevard, but only if City has sufficient funds in the City TMF Fund of the City's Road CIP to make progress payments to Landowner for the costs of construction of said inside lanes as set forth in the Funding, Construction and Acquisition Agreement. If such TMF Fund revenues are not available to so pay Landowner, City shall be obligated to construct said inside lanes through the City's CIP. (b) Fiddymment Road. Landowner shall construct the Frontage Improvements, as defined in Section 3.5.1, for the west side of Fiddymment Road. City has a CIP project to construct the 2 south bound lanes and the median curbs through the City's CIP in advance of the development of the Plan Area, including design, environmental permitting, and mitigation requirements related thereto. The CIP construction will also include the Landowner's obligation for 5-feet of pavement width, one median curb, utility stubs, and left turn pockets into the Plan Area. At the time when the adjacent Participating Owner proceeds to develop its property, on specific parcels east of Upland Drive referenced below, that will trigger Fiddymment Road Frontage Improvements, that Participating Owner shall complete its Frontage Improvements on the west side of Fiddymment Road and complete the landscaping of the median. That Participating Owner will be responsible to reimburse the City for the cost of its obligation set forth above in this Section 3.5.2 (b), less the cost of the eastern one-half of the median landscaping. In the event that Landowner's cost of the eastern one-half of median landscaping exceeds the City's cost of the portion of Landowner's Frontage Improvements obligation set forth above, City shall pay Landowner for such cost difference out of the City TMF Fund. Fiddymment Road Frontage Improvements may be constructed in two phases. Each phase of such Fiddymment Road Frontage Improvements shall be triggered upon on-site development of the specific parcels (excluding open space parcels) east of Upland Drive (excluding construction of Upland Drive itself), with the northern segment of Fiddymment Road Frontage Improvements triggered when parcels east of Upland Drive and north of open space Parcel JM-85 develop, and the southern segment of Fiddymment Road Frontage Improvements triggered when parcels east of Upland Drive and south of open space Parcel JM-85 develop. (c) Westbrook Boulevard; Santucci Boulevard. Landowner shall construct both outside Frontage Improvements, as well as the adjacent inside lane on each side of Westbrook Boulevard and for Santucci Boulevard, respectively, if Landowner owns both sides of the Frontage. In the event Landowner owns only one side of the
--	--

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	Frontage, Landowner shall be responsible to insure construction of the opposite Frontage Improvements, including the adjacent inside lane. In this case, Landowner shall not be obligated to construct one-half of the median landscaping and median curb in exchange for constructing the Frontage Improvements, including curb and gutter, on both sides of Westbrook Boulevard, and of Santucci Boulevard. City shall reimburse Landowner the difference between the cost of the eighteen feet (18') of pavement, grading and curb and gutter and the cost of one-half median landscaping and one median curb. For both Westbrook Boulevard and Santucci Boulevard, prior to the recordation of the first small lot residential final map on the portion of its property abutting either Westbrook Boulevard or Santucci Boulevard, the non-constructing Participating Owner shall reimburse the City for the cost difference of that Participating Owner's eighteen feet (18') of pavement, grading of half of the full road section, curb and gutter and the cost of one-half median landscaping and one median curb, and that non-constructing Participating Owner shall construct both halves of the median landscaping and both median curbs. City shall pay Landowner out of the TMF Set-Aside Fund for the cost of the additional two inside lanes and such Frontage Improvements constructed on another participating Owner's property pursuant to the terms of the Funding, Construction and Acquisition Agreement, but if insufficient funds are available for such payment, City shall make payment to the extent funds are available, then provide 50% credits against the TMF applied to building permits on Landowner's Property, for all DUEs on Landowner's Property, up to the amount of the payments due to Landowner, provided, however, that once sufficient TMF Set-Aside Fund revenues are available to pay for such improvements, City shall pay Landowner such amount, less the amount of any payments and credits previously extended to Landowner against the IMF applied to DUEs on Landowner's Property. When warranted with Phase D or as may be required by City, provided the 5% of TMF Set Aside Fund revenues allocated to Westbrook Boulevard are available to pay Landowner, Landowner(s) shall construct Westbrook Boulevard through the Urban Reserve, which shall consist of the interior two CIP lanes on each side of the center median, grading of the 100 foot right of way, and 56 feet of pavement. City payment to Landowner for the construction referenced herein shall be paid from the 5% of TMF Set-Aside Fund revenues allocated to Westbrook Boulevard. Landowner(s) shall not be required to construct frontage improvements along Westbrook Boulevard through the Urban Reserve; Landowner shall not be required to construct any median landscaping and improvements, sidewalk or adjacent landscape corridors for any portion of Westbrook Boulevard through the Urban Reserve portion of the Plan Area. (d) Baseline Road. Landowner shall be obligated to construct its Frontage improvements. Commercial properties shall also be required to construct one auxiliary lane improvement along their frontage. Landowner shall further be obligated to construct or overlay four additional lanes, comprised of a combination of new pavement and overlay of existing pavement on Baseline Road, to create a total of two westbound lanes, two eastbound lanes, and a two-way center turn lane. City shall make progress payments to Landowner for all work beyond Landowner's Frontage Improvements for Baseline Road from the City-County traffic mitigation fee on a first completed, first paid basis. If revenues are insufficient to make such payment, City shall provide 100% credits against the City-County Traffic Mitigation Fee applied to building permits on Landowner's Property, for all DUEs on Landowner's Property, up to the amount of payments due Landowner, provided, however, that once sufficient City-County Traffic Mitigation Fee revenues are available to pay Landowner, City shall
--	---

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	make additional progress payments to Landowner, less the amount of any credits extended to Landowner against the City-County Traffic Mitigation Fee applied to DUEs on landowner's Property, on a first completed, first paid basis. Baseline Road may be constructed in eight phases in accordance with Exhibit "H", provided, however, that such phased construction shall not leave any one segment gap between constructed segments of Baseline Road. For all the above-referenced Baseline Road Frontage Improvements where Landowner is required to construct Frontage Improvements on another landowner's property, when such benefiting landowner proceeds to develop its property, said benefiting landowner shall fully reimburse the City-County Traffic Mitigation Fee program at the time of recordation of any small lot final map on its property, or issuance of building permit in the case of non-residential uses, for the cost of its Frontage Improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.3
Title	Collector Streets
Obligation	To provide access to the Property, Landowner shall construct curb, gutter, pavement, streetlights, utilities, and ancillary improvements related thereto as shown in the Entitlements for those roadways identified as collector streets located within the Property. Collector roadways in the Specific Plan area are Upland Drive, Market Street, and Federico Drive. The parties acknowledge that the locations of these roadways are schematic in nature and may be revised during the design of the improvement plans therefore, i.e., based on the final design for such collectors and the final lot subdivisions for the Property. Landowner shall not be entitled to any reimbursement or credits toward the City's traffic mitigation fee for any costs associated with the design and/ or construction of collector roadways. Parking lanes will be installed with the construction of the collector roadways adjacent to Parcels PR-6 and PQP-10. Sidewalk and diagonal parking along Market Street adjacent to the CMU sites will be the responsibility of Landowner at the time of development of those sites. Prior to the development of those sites, a temporary AC dike will be installed with the backbone roadway construction.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.3.1
Title	Bus Transfer Station
Obligation	The design and location of the bus transfer station on Parcel DF-40 shall be determined with the subsequent Major Project Permit for that parcel. The bus transfer station will include bus turnouts and shelters and bike lockers to accommodate the bus transfer center requirements as determined by the City at the time of approval of any Major Project Permit including Parcel DF-40. Landowner shall maintain the bus transfer station with reimbursement from the Public Services CFD. The access road for the bus transfer station on Parcel DF-40 shall be a public street designed and constructed to City standards from Market Street to the intersection with Baseline Road. The LLM prepared for the entire Plan Area shall include a roadway easement and necessary public utility easements/landscape easements (PUE/LSE) from Parcel CG-82 to connect Parcel DF-40 to Market Street.
Department	Alternative Transportation, Planning and Engineering Division
Status	Preliminary design approved; bus transfer station has not been constructed yet (Alt

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	Trans) – Ongoing obligation.
Section	3.5.4
Title	Timing of Dedication and Construction of Road Improvements
Obligation	<u>3.5.4.1</u> Rights-of-way for the arterial and collector roadways shown as Backbone Lands shall be dedicated as an IOD to the City, and with the recordation of the Large Lot Map. All other dedications of roadways to the City shall be made with subsequent final small lot subdivision maps and City acceptance of completed improvements. <u>3.5.4.2</u> Prior to the recordation of a small lot residential subdivision map for the Property, Landowner shall provide adequate assurances to City, either in the form of subdivision improvement bonds, issuance and sale of bonds by the CFO or other manner acceptable to the City, that adequate funds are available to finance the completion of all improvements to Arterial Roadways, and Collector Streets to serve the portion of the Property which is the subject of the small lot residential subdivision map; provided, however, Landowner shall not be required to post security for the portion of the work associated with Road CIP improvements.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.5
Title	Road Improvement Standards
Obligation	All improvements to be installed by Landowner shall comply with the City's development standards for public streets in effect as of the date of improvement plan approval unless modifications are otherwise mutually agreed to by Landowner and the Public Works Director. The rights-of-way required for such road improvements shall be as set forth in the Specific Plan, or, if not shown in the Specific Plan, then as set forth in the City's Improvement Standards.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.6
Title	Landscape Setbacks
Obligation	For the roadways within and/ or adjacent to the Property, Landowner shall establish the applicable landscape setbacks provided therefore by the Specific Plan and/ or Design Guidelines. Such setbacks shall be measured generally from back of curb, except bus turnouts, auxiliary lanes, turn flares, accel/ decel lanes, and tapers may encroach into the landscape setback to the extent permitted by the Specific Plan Design Guidelines. Such landscape setbacks shall be limited to landscaping, streetlights, utilities, sidewalks, walls and related uses, and shall be included in the road rights-of-way, adjacent to single family residential parcels. Such setbacks shall not be included within rights-of-way adjacent to nonresidential uses as set forth in the Specific Plan.
Department	Planning and Engineering Division
Status	Ongoing obligation
Section	3.5.6.1
Title	Separated Sidewalks
Obligation	Landowner shall ensure that if a residential property is improved with separated sidewalks, the residential property shall be subject to recorded CC&R's containing a requirement that the owner of a residential unit immediately adjacent to a separated sidewalk is responsible for the maintenance of all landscaping within the landscape planter, including, street trees located between the separated sidewalk and curb, except where a Homeowners Association maintains the landscaping within the

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	landscape planter.
Department	City Attorney, Engineering Division
Status	Attorney: Evaluation of inclusion of condition done at time of submittal of CC&R's. Ongoing obligation.
Section	3.5.7
Title	Traffic Signals
Obligation	Landowner shall be responsible for the costs of construction of traffic signals and described in the Phasing Plan through the payment of the TMF. Landowner shall construct the traffic signals, signals at the intersections of arterial roads and arterial roads, for which City shall make progress payments to Landowner for the cost of construction of such traffic signals from the City's TMF Set-Aside Fund, except as provided below in the case of temporary traffic signals on Baseline Road, and the specific limitations therein. For the traffic signals other than signals at the intersections of arterial roads and arterial roads, Landowner, at the request of City, shall install underground conduit, loops, and poles for those signals, subject to the progress payment and credit provisions. For those such signals, City shall install mast arms, signals and signal controllers. If TMF Set-Aside Fund revenues are not available to fully pay Landowner for any traffic signal improvements constructed by Landowner, City shall provide 50% credits to Landowner against the TMF applied to building permits on Landowner's Property, up to the amount of the reimbursement then un-reimbursed by City to Landowner, provided, however, then once sufficient City revenues are available to fully pay Landowner, City shall so pay Landowner, less the amount of any credits previously extended to Landowner against the TMF applied to DUEs on Landowner's Property. Landowner shall be entitled to credits toward the appropriate City, or shared City/County traffic mitigation fee for the design and construction of public traffic signals and/ or signals warranted by City that are constructed in their ultimate location. Landowner shall not be entitled to any reimbursements or traffic mitigation fee credits for any portion of a traffic signal that serves a private driveway, unless the driveway is the fourth leg of a warranted three legged signal that serves public rights-of-way on three legs, at which time the public legs would be available for credits toward the City's traffic mitigation fee. Temporary traffic signals installed with phased improvements on Baseline Road in locations other than ultimate locations (Plan obligation of Baseline Road to construct 4 lanes with appropriate left turn lanes) shall be the responsibility of the constructing Landowner and will not be eligible for credits toward the City's and/or City-County Traffic Mitigation Fee, except as provided below. For the intersections of Fiddymont Road / Baseline Road, Santucci Boulevard /Watt Avenue/Baseline Road, Westbrook Boulevard / Baseline Road and Market Street/Baseline Road, the cost of improvements shall be subject to progress payments from the City and/ or City-County Traffic Mitigation Fee. In the case of temporary traffic signals on Baseline Road, if at the time of the construction of the ultimate improvements, the temporary signal was operational for a minimum of ten (10) years, the associated costs for the relocation and the costs for the construction of the ultimate signal shall be reimbursed to Landowner from the City-County Traffic Mitigation Fee and/ or TMF Set-Aside Fund.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.9
Title	Highway 65 Joint Powers Authority
Obligation	Landowner agrees that the Property shall be subject to and shall pay the Highway 65 Joint Powers Authority Fee ("Highway 65 JPA Fee"). City shall initiate and complete the actions necessary to amend the Highway 65 JPA Fee to include the Property and

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	Landowner hereby consents to and waives any objection to such inclusion. Landowner agrees that until such time as the Highway 65 JPA Fee is amended to include the Property, Landowner shall pay the fee applicable to the West Roseville Specific Plan Area in the amounts and at the times specified by the Highway 65 JPA Fee program. If Landowner pays the Interim Highway 65 JPA Fee and the Interim Highway 65 JPA Fee exceeds the Highway 65 JPA Fee as amended, then the excess amount collected shall be applied as a credit towards Highway 65 JPA Fees on a per DUE basis for the remaining DUE's within the Specific Plan. If the Interim Highway 65 JPA Fee is less than the amended Highway 65 JPA Fee, the total amount of the shortfall shall be added as a surcharge to such future Highway 65 JPA Fee on a per DUE basis.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.10
Title	South Placer Regional Traffic Fee
Obligation	Landowner agrees that the Property shall be subject to and pay the South Placer Regional Traffic ("SPRTA") Fee as established by the Placer County Transportation and Planning Agency ("PCTPA") and adopted by the City. City shall initiate and complete the actions necessary to amend the SPRTA Fee to include the Property and Landowner hereby consents to such inclusion. Landowner agrees that until such time as the SPRTA Fee is amended to include the Property, the fee applicable to the West Roseville Specific Plan Area shall apply to the Property and Landowner shall pay such fees ("Interim SPRTA Fee") in the amounts and at the times specified by the SPRTA Fee program. If Landowner pays the Interim SPRTA Fee and the Interim SPRTA Fee exceeds the SPRTA Fee as amended, then the excess amount collected shall be applied as a credit towards SPRTA Fees on a per DUE basis for the remaining DUE's within the Property. If the Interim SPRTA Fee is less than the amended SPRTA Fee, the total amount of the shortfall shall be added as a surcharge to such future SPRTA Fees on a per DUE basis.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.11
Title	Tier II Traffic Fee
Obligation	The SPRTA Tier II Fees are administered by the Placer County Transportation Planning Agency ("PCTPA"). Landowner acknowledges and agrees to pay the Tier II Traffic Fee, collected to pay for construction of the Placer Parkway and improvements to the I-80/SR65 interchange. The Tier II Traffic Fee program participants include the jurisdictions of Placer County, and the Cities of Roseville, Rocklin, and Lincoln. The current Tier II Traffic Fee is \$5,600 per DUE and will be allocated to the various land uses using a methodology approved by the SPRTA Board. The Tier II Fees shall be adjusted for inflation annually based on the Construction Cost Index ("CCI") shown in the Engineering and News Record in May of each year and based on the average of the 20 Cities average and San Francisco average.
Department	Engineering Division
Status	Ongoing obligation

	basis, for the update of the City's Long Range Transit Master Plan, Short Range Transit Plan Update, and Bicycle Master Plan Update, the amounts of \$12,500, \$15,000, and \$12,500, respectively, prior to the recordation of any Large Lot Final Map , apportioned to participating owners on a pro-rate basis based on acreage.
Department	Engineering Division and Alternative Transportation
Status	Ongoing obligation - \$40,000 payment due
Section	3.5.13
Title	City-County Fee
Obligation	3.5.13 City-County Fee. Landowner acknowledges that City and Placer County have adopted a funding mechanism for improving certain roads in the vicinity of the SVSP, including Baseline Road and Walegra Road. Landowner agrees that the Property shall be subject to and pay the City- County Traffic Mitigation Fee.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.14
Title	Watt Avenue and Vista Grande Boulevard Extension and Traffic Mitigation Fee
Obligation	If and when the City and County of Placer develop fee programs to mitigate regional traffic concerns, Landowner consents to and agrees that any then- undeveloped portion of the Property, for which no building permit has been issued, shall participate to the extent of its fair share in a City-Wide funding mechanism. Such regional roadway extensions and improvements shall consist only of Santucci Boulevard between the Regional University Specific Plan and the future Placer Parkway and Vista Grande Boulevard west of the Project boundary to Baseline Road. At the time of the adoption, Participating Owners or any of them do not waive their right to protest the amount of the fee. A Plan Alignment for Santucci Boulevard indicates the future roadway alignment within the Urban Reserve land use designation. The portion of Santucci Boulevard will be constructed as part of the Regional University Specific Plan, or as conditioned for frontage improvements with future entitlements of the Urban Reserve land area. Other than the fair share costs for regional improvements as determined by the City's Capital Improvement Program and collected with Traffic Mitigation Fees, the SVSP will have no additional obligations for the construction of Santucci Boulevard through the Urban Reserve land area.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.15
Title	Placer County Traffic Mitigation Fee
Obligation	Landowner agrees to pay to City a fee of \$327 per DUE to provide fair share funding to Placer County as full mitigation of impacts on the Placer County roadway circulation system for roadways in the adopted County Capital Improvement Program at the date of approval of this Agreement that are north of Interstate 80, west of Highway 65, and outside of County approved specific plan areas (but excluding Santucci Boulevard and the extension of Vista Grande Boulevard). Once established, the Placer County Road Impact Fee shall be adjusted annually after the completion of annexation proceedings for the Specific Plan by the percentage of change in the CCI.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.16
Title	Fee Credit/Reimbursement for Construction of CIP Improvements

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

Obligation	Landowner shall be entitled to credits against the City traffic mitigation fees for the cost of constructing roadway improvements that are included in City's roadway capital improvement program and identified in this Agreement, as more fully set forth in Sections 3.5.1 and 3.5.2 above and Section 4.2 below.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.17
Title	Fiddymment Road/Baseline Road Intersection
Obligation	Improvements to the Baseline Road/Fiddymment Road intersection provide a benefit to the Specific Plan, properties currently in the City, and to properties in incorporated Placer County. These Baseline/Fiddymment Intersection Improvements are currently in the City Road CIP and the City-County Traffic Mitigation Fee program. Responsibility for funding of the Baseline/Fiddymment Intersection Improvements are a shared obligation between Landowner (for frontage improvements), the City (through the City TMF Fund), and the City and County together through the City-County Traffic Mitigation Fee. Baseline/Fiddymment Intersection Improvements are comprised of City CIP improvements, Tier IA improvements, and subsequent improvements (the "Baseline/Fiddymment Sierra Vista Ultimate Intersection Improvements"). The City CIP Intersection Improvements are a City project whereby the City shall construct the following improvements beyond the existing improvements at the intersection: one additional southbound through lane and one additional northbound through (i.e., receiving) lane, resulting in a total of three (3) northbound lanes and, in the southbound direction, a left turn lane, right turn lane, and two (2) through lanes. As part of the City CIP Intersection Improvements, City shall also relocate the intersection's northwest signal to its ultimate location. Prior to the issuance of the first certificate of occupancy in the Plan Area, Landowner shall construct the following Baseline/ Fiddymment Tier IA Improvements subsequent to the construction of the City CIP Intersection Improvements, which Baseline/Fiddymment Tier IA Improvements shall consist of one additional eastbound and westbound left turn lane on Baseline Road, resulting in the following configuration for each leg of the intersection: East Leg: Two westbound through lanes Double left turn lane onto Walerga Road (southbound) One right turn lane onto Fiddymment Road (northbound) West Leg: One eastbound through lane One shared through (eastbound) and right turn lane onto Walerga Road (southbound) Double left turn lane onto Fiddymment Road (northbound) North Leg: Two southbound through lanes One left turn onto Baseline Road (eastbound) One right turn onto Baseline Road (westbound) South Leg: Two northbound through lanes One left turn onto Baseline Road (westbound) One right turn onto Baseline Road (eastbound) All Legs: Include appropriate receiving lanes and tapers back to existing roadway per City standards.

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	City shall make progress payments to Landowner for the cost of Baseline/ Fiddymment Tier IA Improvements beyond Landowner' s Frontage Improvements, including the cost of design of such Baseline/ Fiddymment Tier IA Improvements, out of either the City-County Traffic Mitigation Fee or the City TMF Fund, or both, on a first completed, first paid basis. The Baseline/Fiddymment Sierra Vista Ultimate Intersection Improvements are the obligation for Frontage Improvements of the Participating Owner whose property abuts the Baseline/Fiddymment intersection subsequent to the construction of the Baseline/Fiddymment Tier IA Improvements. These Sierra Vista Ultimate Intersection Improvements shall consist of the Frontage Improvements on Fiddymment Road and Baseline Road, and the Baseline/Fiddymment intersection, including the auxiliary lane at the Baseline/Fiddymment intersection on Baseline Road. These Sierra Vista Ultimate Intersection Improvements shall result in the following configuration for each leg of the intersection: East Leg: No change from Tier IA West Leg: No change from Tier IA North Leg: Widen to accommodate right turn lane to Baseline Road (westbound) at ultimate location with owner frontage South Leg: No change from Tier IA All Legs: Include appropriate receiving lanes and tapers back to existing roadway per City standards. For the Baseline/Fiddymment Tier IA Improvements, where Landowner constructs Frontage Improvements on an adjacent Participating Owner's frontage, City shall pay Landowner for such frontage improvements on an adjacent Participating Owner's frontage out of the City TMF Fund or City-County Traffic Mitigation Fee, or both, provided, however, that when the non-constructing Participating Owner proceeds to develop its property, that Participating Owner shall reimburse the City, or the City- County Traffic Mitigation Fee program, or both, as applicable, for the cost of its frontage constructed by Landowner.
Department	Engineering Division
Status	Ongoing obligation
Section	3.5.18
Title	Baseline Road/Watt Avenue/Santucci Boulevard Intersection
Obligation	Improvements to the Baseline Road/Watt Avenue/Santucci Boulevard Intersection provide a benefit to the Specific Plan, properties currently in the City, and to properties in unincorporated Placer County. These Baseline/Watt/Santucci Intersection Improvements are currently in the City Road CIP and the City-County Traffic Mitigation Fee program. Responsibility for funding of the Baseline/Watt /Santucci Intersection Improvements are a shared obligation between Landowner (for frontage improvements), the City Road CIP, and the City through the City-County Traffic Mitigation Fee. Baseline/Watt/Santucci Intersection Improvements are comprised of Tier IB Improvements and subsequent improvements. At the issuance of the 1000th residential building permit in the Plan Area, Landowner shall begin the design of the Tier IB Improvements. At the issuance of the 1500th residential building permit, City shall construct the following Baseline/Watt /Santucci Tier IB

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	Improvements which shall consist of one additional thru lane in the eastbound direction, one additional right-turn lane in the northbound direction and one additional left-turn lane in the westbound direction, resulting in the following configuration for each leg of the intersection: East Leg: One westbound thru lane Double left-turn lane onto Watt Avenue (southbound) West Leg: Two eastbound thru lanes One right-turn lane onto Watt Avenue (southbound) North Leg: N I A South Leg: One left-turn onto Baseline Road (westbound) Two right-turns onto Baseline Road (eastbound) All Legs: Include appropriate receiving lanes and tapers back to existing roadway per City standards. City shall make progress payments to Landowner for the design costs of Baseline/Watt/Santucci Tier IB Improvements, out of the City-County Traffic Mitigation Fee. The Baseline/Watt/Santucci Sierra Vista Project Intersection Improvements are the obligation for Frontage Improvements of the Participating Owner whose property abuts the Baseline/Watt/Santucci intersection subsequent to the construction of the Baseline/Watt /Santucci Tier IB Improvements. These Sierra Vista Project Intersection Improvements shall consist of the Frontage Improvements on Santucci Boulevard and Baseline Road, and shall include the following: • Add two left-turn lanes in the eastbound direction • Add two thru lanes and remove one right-turn lane in the northbound direction • Add one thru lane and one right-turn lane in the westbound direction • Add two thru lanes, two left-turn lanes, and one right-turn lane in the southbound direction These Sierra Vista Project Intersection Improvements shall result in the following configuration for each leg of the intersection: East Leg: Two westbound thru lanes Double left-turn onto Watt Avenue (southbound) One right-turn lane onto Santucci Boulevard (northbound) West Leg: Two eastbound thru lanes Double left-turn (northbound) One right-turn lane onto Watt Avenue (southbound) North Leg: Two southbound thru lanes Double left-turn onto Baseline Road (eastbound) One right-turn lane onto Baseline Road (westbound) South Leg: Two northbound thru lanes One left-turn onto Baseline Road (westbound)

Development Agreement Implementation Matrix**

	One right-turn lane onto Baseline Road (eastbound) All Legs: Include appropriate receiving lanes and tapers back to existing roadway per City standards.
Department	Building and Engineering Division
Status	Ongoing obligation
Section	3.5.19
Title	Transportation Systems Management
Obligation	Landowner shall comply with the City's Transportation Systems Management Ordinance.
Department	Alternative Transportation
Status	Ongoing obligation
Section	3.5.20
Title	Alternative Transportation Marketing
Obligation	Landowner shall provide educational and marketing materials for alternative modes of transportation (e.g. Roseville Transit Services Guide, Bikeways Map and carpool/vanpool information) to each new homeowner and the first resident of each attached housing unit.
Department	Alternative Transportation
Status	Ongoing obligation
Section	3.6
Title	Sewer Facilities
Obligation	Landowner shall construct on-site sewer facilities. In the event that the WRSP has not constructed sewer facilities necessary to serve the SVSP, Landowner shall construct the necessary off-site sewer facilities and obtain reimbursement from the WRSP. Landowner shall be solely responsible for obtaining easements and rights-of-way located within the Specific Plan that are required for construction of such improvements. City shall provide Landowner with any rights-of-entry needed to connect these improvements to the City's existing sewer system. Except for the improvements expressly described herein, Landowner shall have no obligations to install or pay for the installation of any off site treatment facilities, except through the payment of sewer connection fees (local, regional and special benefit) levied and collected by the City at the time of development pursuant to City ordinances.
Department	Environmental Utilities
Status	Ongoing obligation
Section	3.6.1
Title	Master Wastewater Plan
Obligation	Landowner shall construct wastewater conveyance facilities to connect the Project to the Pleasant Grove Wastewater Treatment Plant.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.6.2
Title	Improvement Standards
Obligation	All sanitary sewer improvements shall be designed and constructed pursuant to City's then current Improvement Standards and shall be subject to City plan review, construction inspection and final approval. Landowner shall pay then current plan

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	check, mapping and inspection costs as incurred by City for review, mapping and inspection of such improvements.
Department	Environmental Utilities Department
Status	Improvement plans are being conditioned – Ongoing obligation
Section	3.6.3
Title	Access to Manholes
Obligation	All manholes shall be located so that they are accessible by City sewer maintenance vehicles unless otherwise approved by the Environmental Utilities Director. All manholes shall be made watertight during construction. Landowner shall maintain access for City sewer maintenance vehicles to access all selected manholes in the Specific Plan, as determined by the Environmental Utilities Director. Where feasible, maintenance roads shall be combined with bikeways.
Department	Environmental Utilities Department
Status	Improvement plans are being conditioned – Ongoing obligation
Section	3.6.4
Title	Public Utility Easements
Obligation	Where wastewater improvements to be constructed by Landowner are not located within road rights-of-way, as and when Landowner installs such wastewater improvements, Landowner shall grant and City shall accept a non-exclusive public utility easement for the ownership and maintenance of such lines, together with access thereto for maintenance purposes. Easement widths shall be granted in accordance with the City's Improvement Standards.
Department	Environmental Utilities Department
Status	Improvement plans are being conditioned – Ongoing obligation
Section	3.6.5
Title	Wastewater Facilities Reimbursement
Obligation	Landowner shall be entitled to reimbursement from third parties within and outside the Urban Reserve whose property is benefited by Landowner's construction of wastewater facilities required by City in which there exists capacity in excess of that required to serve the development of the Property (excluding any operational adjustments by City). Such reimbursement shall be pro rata, based on the respective capacity requirements of the Property and other property benefited by such construction. Specific wastewater facilities subject to reimbursement pursuant to this Section 3.6.5 and Section 4.2 of this Agreement. For properties outside of the Urban Reserve, Landowner shall submit documentation to the City to justify the requested reimbursement. The timing for the payment of any such reimbursement by such third party/benefiting landowner to Landowner shall be upon the earlier the formation of a CFD and issuance of bonds for such CFD serving development by such third parties or, recordation of the first large lot subdivision map serving the development by such third party.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.6.6
Title	Wastewater Service Area Boundary
Obligation	Landowner shall be responsible for all costs associated with obtaining approval from the South Placer Wastewater Authority (SPWA) for expansion of the existing wastewater service area boundary to include the Plan Area. No building permits will be issued in the Project until Landowner has received notice the SPWA service area boundary has been expanded to include the Project.

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.7.1
Title	Financing of Water Supply
Obligation	Landowner shall have no obligation to install or pay for the installation of any off-site water storage, treatment or transmission (other than transmission lines in Baseline Road and Westbrook Boulevard} facilities, except through the payment of water connection fees levied and collected by the City at the time of development pursuant to the existing City ordinances and this Agreement.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.7.2
Title	Groundwater Wells
Obligation	If applicable, Landowner shall dedicate to City Parcels JM-60 and FD-63 for two (2) groundwater wells at the approximate locations. The City shall be responsible for the construction of monitoring wells for determining water production and quality and the topside improvements. Landowner shall be responsible for drilling and completing the production wells (but not above ground well improvements such as pumping and treatment facilities) as further described below. To facilitate the drilling of the monitoring wells Landowner will provide City and its contractor's access to and within the location of the well site to enable City to install monitoring wells to confirm desired capacity and water quality. It is the intent of this section (and the Parties} that the groundwater well locations identified within the SVSP shall be capable of achieving a yield of approximately 1,800 gallons per minute and the groundwater water is of such quality that only disinfection will be required to meet California Drinking Water Quality Standards. Should the City determine the available capacity or water quality does not achieve these objectives, Landowners shall, at its own cost, work with the City to relocate well sites within the SVSP until these objectives are satisfied. The Landowner shall contact the City Environmental Utilities Department prior to construction of the production wells. Landowner shall receive approval from the City of the well design and drilling method prior to commencement of this work. Wells shall be drilled at the time of occupancy of any residential units within 500 feet of the well site. Landowner shall include noise curtains for a particular well if at the time of construction of the well homes are occupied between 500 feet and 1000 feet of the well.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.7.3
Title	Water Conservation Measures
Obligation	Landowner and its successors shall implement a Water Conservation Plan. The Water Conservation Plan shall include compliance with the City's Water Efficient Landscape Ordinance and outline all water conservation measures being implemented within the SVSP and measures to ensure water conservation objectives are achieved in perpetuity and shall be approved, at the discretion of, the Environmental Utilities Director prior to issuance of the first building permit. Such water conservation measures shall include, but are not limited to, Smart Timers, re-circulating hot water systems, and turf limitations, and shall be disclosed to each purchaser of real property within the Property. Modifications to the Water Conservation Plan as approved by the Environmental Utilities Director shall not require an amendment to this Agreement.

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.7.4
Title	Periodic Confirmation of Water Conservation Goal
Obligation	The City has determined, and the Landowner agrees, that the available water supply is sufficient to serve all phases of the Project. This determination was the conclusion of a review of the demand and source issues created by the projected build-out of the Project which was based upon the various technical studies completed in connection with the environmental review of the Project. The demand for water at build-out of the Project was determined by reference to the City's current information on water usage by the various land uses included and permitted within the City and the proposed land uses within the Project and by reference to the Landowner's Sierra Vista Specific Plan Water Conservation Plan which includes a reduction in water use by 17% over current use characteristics. The sources for water evaluated for the Project are the same types of source currently used throughout the City; namely, surface water contracts with federal and local agencies and in drought or emergency situations the use of groundwater. City and Developer are satisfied, based upon detailed technical analysis, that the demand and source assumptions relied upon to assure water from the Project are valid. However, the Parties have agreed to the following procedure to assure the continued validity of the underlying assumptions and the continued availability of sufficient water to service all phases of the SVSP Project. Upon construction of the dwelling units in the Plan Area that cumulatively utilize 25% of the projected potable water usage at buildout of the SVSP, and then every three years thereafter during the term of this Agreement, at the same time as the annual review provided for in Section 5.2 of this Agreement, the Parties shall review the underlying assumptions regarding water demands, the achievement of project water conservation goals and sources of water for the Project, all as set forth in the EIR. Water conserved by Landowner pursuant to measures implemented under Section 3.7.3 of this Agreement shall be factored into the review provided hereunder to the benefit of Landowner. If the City determines that the actual demand and sources differ materially from the assumptions in the EIR and that the difference(s) will negatively affect the City's ability to provide water for the Project, then the Parties shall meet and in good faith attempt to implement whatever measures are needed to assure the water supply will meet the Project's demands, provided, however, that should City adopt City-Wide a requirement for a reduction in water use by more than the 17% over current potable water usage as set forth herein, and the then built portion of the SVSP has met its 17% objective set forth in this Section 3.7.4, the residential units for which building permits have not yet been issued shall be required to implement such measures necessary to achieve such City-wide requirement, above the 17% objective set forth in this Section 3.7.4. Development and implementation of such measures shall be at Landowner's cost. The foregoing notwithstanding, should City achieve its adopted City-wide water conservation goals, the SVSP Area shall not under any circumstances be deemed out of compliance with its Water Conservation Plan water conservation objective as set forth herein.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.8.2
Title	Water Facilities
Obligation	Landowner shall construct on-site water system facilities. In the event that the WRSP has not constructed water lines necessary to serve the SVSP, and it can be

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	demonstrated through the City hydraulic model that the water lines within the WRSP are needed to supply water to the SVSP consistent with City standards, Landowner shall construct the necessary water lines and obtain reimbursement from the WRSP. All such facilities to be constructed by Landowner, including mains, shall be designed and constructed pursuant to City's then current Improvement Standards, unless modifications are otherwise mutually agreed to by Landowner and the Environmental Utilities Director, and subject to City plan review, construction inspection and final approval. Landowner shall pay then current plan check, mapping and inspection costs as incurred by City for review, mapping and inspection of such improvements. Landowner will not be responsible for the construction of potable water reservoirs, water storage tanks, topside well improvements, water treatment facilities and pump stations except through the payment of City water connection fees and special benefit fees as may be applicable or otherwise described herein. Landowner shall, at its expense, grade the Water Tank Site consistent with City's Grading Ordinance and construct retaining walls as necessary to achieve a site that is level, fully usable, and without environmental or other constraints. Retaining walls shall be a split faced key stone style wall or comparable quality design to be installed by Landowner. Landowner shall additionally install all underground utilities stubbed to the Water Tank site, including, but not limited to, provision of electrical capacity sufficient to operate either a groundwater well or water tank and pump station. Timing of construction shall be in accordance with the Phasing Plan.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.8.3
Title	Water Facilities Reimbursement
Obligation	Landowner shall be entitled to reimbursement from third parties within the Urban Reserve or Placer County whose property is benefited by Landowner's construction of water facilities required by City in which there exists capacity in excess of that required to serve the development of the Property. This includes construction of the 24-inch water line in Baseline Road between Fiddymment Road and Westbrook Boulevard. Such reimbursement shall be pro rata, based on the respective capacity requirements of the Property and other property benefited by the construction. Specific water facilities subject to reimbursement pursuant to this Section 3.8.3 and Section 4.2 of this Agreement sets forth reimbursements for infrastructure between Landowners and parties within the Urban Reserve assuming no other third parties benefit from shown infrastructure. Reimbursement for certain water lines between Landowner and other third parties (namely, the Placer Vineyards Specific Plan ("PVSP"), and the Regional University Specific Plan ("RUSP") located within Placer County) should such other third parties connect or construct identified infrastructure. With respect to the 24" waterline to be installed in Baseline Road and other roads between the eastern edge of the Plan Area at Fiddymment Road to Santucci Boulevard (the "Baseline Road 24" Water Line"), the Sierra Vista Specific Plan, the Urban Reserve properties, the PVSP and the RUSP will all benefit from the Baseline Road 24" Water Line. The Baseline Road 24" Water Line is divided into two segments, namely, from Fiddymment Road to Westbrook Boulevard ("Segment A"), and in Westbrook Boulevard from Baseline Road to Vista Grande Boulevard, in Vista Grande Boulevard from Westbrook Boulevard into "unnamed Street 3", in "unnamed Street 3" to Parcel FD-63, then across Parcel FD-63 and Parcel FD-40 to Santucci Boulevard. ("Segment B").

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	If the SVSP proceeds with development prior to development occurring within either the PVSP, RUSP, or the Urban Reserve, then Participating Owners, including Landowner, will construct the Baseline Road 24" Water Line, which may be built in segments provided that reimbursement to Participating Owners for costs of construction for such segments shall reflect the percentage shares. In the event Participating Owners construct the Baseline Road 24" Water Line, City shall withhold approval of any improvement plans submitted by property owners outside of the Plan Area or Annexation Area, i.e., the PVSP or the RUSP, proposing to connect to the Baseline Road 24" Water Line unless City receives written certification from participating owners that satisfactory reimbursement has been received from PCWA on behalf of the PVSP or RUSP, as the case may be. Upon City receiving such written certification pertaining to the PVSP or RUSP, as the case may be, the percentage shares of the SVSP and Urban Reserve shall be modified accordingly, which modification shall not require an amendment to this Agreement. If the Urban Reserve proceeds with development prior to the SVSP, then the Urban Reserve will be required to construct all or a portion of the Baseline Road 24" Waterline, and the Participating Owners, including Landowner, shall contribute the SVSP share of the costs for infrastructure. If the PVSP or RUSP proceed with development prior to the SVSP, then the PVSP or RUSP, as required in their respective development agreements, will be required to construct all or a portion of the Baseline Road 24" Water Line, and the Participating Owners, including Landowner, shall contribute the SVSP share of the costs for Segment A and/ or for Segment B of the costs of the Baseline Road 24" Water Line as agreed to between PCWA and Participating Owners. The timing for the payment of any such reimbursement shall be upon the earlier of the formation of a CFD and issuance of bonds for such CFD serving development by such third parties or recordation of the first large lot subdivision map serving the development by such third party.
Department	Environmental Utilities Department and Engineering Division
Status	Ongoing obligation
Section	3.8.4
Title	Water System Sequencing
Obligation	Water system facilities shall be constructed as provided in the Phasing Plan concurrently with the construction of the road improvements described in Section 3.5 of this Agreement. Extensions into the neighborhoods will be completed with development of each neighborhood. Water line extensions shall be sequenced to assure looped systems in all developing areas, except as otherwise approved by the Environmental Utilities Director.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.8.5
Title	Public Utility Easements
Obligation	Where the water improvements to be constructed by Landowner are not located within road rights-of-way, as and when Landowner installs such water facilities, Landowner shall grant and City shall accept a non-exclusive public utility easement the width of which shall be in accordance with City's then current Improvement Standards, for the

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	ownership and maintenance of such lines, together with access thereto for maintenance purposes only.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.8.6
Title	Water Softeners
Obligation	As part of its development of the Project, landowners and its successors shall not provide water stub outs for the installation of water softeners.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.8.7
Title	Disclosure to Buyers
Obligation	Landowner shall disclose to all residential and nonresidential buyers that the Property will be served by both surface water and groundwater supplies and that variations in the appearance, taste and color of water may be noticed from time to time and include such disclosure in the CC&Rs for the Property. The disclosure shall describe the location of groundwater wells and water storage facilities. As further disclosure Landowner shall install signage at future water facility sites describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The Environmental Utilities Director must review and approve sign layouts prior to installation. (See Section 3.25)
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.9
Title	Recycled Water Facilities
Obligation	Landowner shall construct recycled water system facilities as provided in this section and the Phasing Plan. Recycled water shall be used for irrigation of parks and landscape setbacks, medians, paseos adjacent to collector streets and other landscape areas including all multi-family and non-residential landscaping uses. Landowner shall construct and dedicate upon completion thereof, a recycled water line system. In the event that the WRSP has not constructed recycled water facilities necessary to serve the SVSP, Landowner shall construct the necessary off-site recycled facilities and obtain reimbursement from the WRSP. City shall construct a recycled water tank(s), pump station expansion and appurtenant recycled water facilities on City property in the West Roseville Specific Plan as required for the Project. City shall be responsible to dismantle and eliminate each potable water charging station (5 total) as set forth in Section 3.3, and make the appropriate connections to the West Roseville Specific Plan recycled water system as part of the construction project of the recycled water tank(s) and pump station expansion on City property in the West Roseville Specific Plan. City costs, estimated at \$5.3 million, associated with the recycled water tank(s), pump station expansion, elimination of the potable water charging stations and connections to the West Roseville Specific Plan recycled water system, and appurtenant recycled water facilities, which include, but are not limited to, permitting, design, construction, design support during construction phase, construction management, inspection, and City's administrative and labor costs, shall be paid through a combination of methods, as follows:

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	(i) The City shall, as part of maximum special taxes in the Project CFD(s), as defined in Section 3.17.1 of the Agreement, include in such levy of maximum special taxes on all DUEs in the Specific Plan, comprised of 6,650 residential units and 2,095,236 square feet of non-residential building square footage, an amount of \$30/sewer equivalent dwelling unit ("sewer EDU")/year starting at the time a water meter is installed for the particular land use or as classified as a developed parcel in the rate and method for the Project CFD(s); (ii) The City shall levy up to maximum special taxes in the Project CFD(s), as defined in Section 3.17.1, necessary to generate what is estimated at \$2.4 million (in year 2010 dollars), adjusted annually by the CCI, for a portion of the Recycled Water Facilities to be financed pursuant to this Section 3.9. Such maximum special taxes shall be levied at issuance of building permits in the case of residential land uses, and at certificate of occupancy for non-residential land uses, on a pro-rata basis for a Landowner's proportionate share of its obligation under this Section 3.9, with sewer EDUs on all properties in the SVSP as the denominator, and the sewer EDUs in a large lot parcel as the numerator, and shall remain in place until Landowner's proportionate share of the \$2.4 million in pay-as-you-go special tax revenue for such Recycled Water Facilities set forth in this Section 3.9, as may be adjusted by the CCI, is fully paid. (iii) City shall impose a charge for recycled water of \$20/sewer EDU month (based on meter size) over the standard City charge for irrigation service (including the use of potable water on an interim basis) as such standard recycled water charge may from time to time be adjusted by City, charged to future recycled water billing accounts in the Plan Area for landscape setbacks for high density residential and non-residential land uses, until such time as \$2.9 million for the Recycled Water Facilities, beyond the \$2.4 million of maximum special taxes collected, is fully funded; and (iv) If the costs of the Recycled Water Facilities fall below or rise above the \$5.3 million estimated cost, City shall adjust accordingly the amounts financed as set forth in this Section 3.9. All recycled water system facilities including storage tank(s), pump station, transmission, distribution and public and private irrigation systems shall be designed and constructed pursuant to City's then current Improvement Standards, unless modifications are otherwise mutually agreed to by Landowner and the Environmental Utilities Director, and shall be subject to City plan review, construction, inspection and final approval and payment of all applicable fees for plan review, mapping and inspection of such improvements.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.9.1
Title	Non-Exclusive Public Utility Easement
Obligation	Where the recycled water facilities are not located within road rights-of-way, as and when such facilities are installed, Landowner shall grant and City shall accept a non-exclusive public utility easement for the ownership and maintenance of such facilities, together with access thereto for maintenance purposes only. Easement widths shall be granted in accordance with the City's then current Improvement Standards.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.9.2
Title	Recycled Water Facilities for Reimbursement

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

Obligation	Subject to the provisions of Section 4.2 of this Agreement, Landowner shall be entitled to reimbursement from third parties within and outside the Urban Reserve whose property is benefited by Landowner's construction of recycled water facilities required by City in which there exists capacity in excess of that required to serve the development of the Property (excluding any operational adjustments by the City). Such reimbursement shall be pro rata, based on the respective capacity requirements of the Property and other property benefited by the construction. Specific recycled water facilities subject to reimbursement pursuant to this Section 3.9.2 and Section 4.2 of this Agreement. For properties outside of the Urban Reserve, Landowner shall submit documentation to the City to justify the requested reimbursement. The timing for the payment of any such reimbursement shall be upon the earlier of the formation of a CFD and issuance of bonds for such CPD serving development by such third parties or recordation of the first large lot subdivision map serving the development by such third party.
Department	Environmental Utilities Department and Engineering Division
Status	Ongoing obligation
Section	3.9.4
Title	Recycled Water use Disclosure to Buyers
Obligation	Landowner shall disclose to all buyers that recycled water shall be used for irrigation of parks and landscape corridors, medians, paseos adjacent to collector streets and other landscape areas, including all multifamily and non-residential landscaping uses. Such disclosure shall be included in the CC&Rs for all residential buyers and other recorded notice instrument for all non-residential buyers.
Department	Environmental Utilities Department and City Attorney
Status	Attorney: Evaluation of disclosures done at time of submittal of CC&R's. Ongoing obligation.
Section	3.9.5
Title	Terms and Conditions for Recycled Water Operations, Use and Service
Obligation	All private commercial recycled water customers within the SVSP Plan Area shall sign a Terms and Conditions for Recycled Water Operations, Use and Service prior to service meter installation and recycled water being introduced to the site per requirements of the City's Municipal Code at the time of connection.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.10
Title	Drainage Facilities
Obligation	Landowner shall be responsible for the design and construction of all storm drain facilities required to serve the Property in conformance with the SVSP Drainage and Storm water Master Plan, the then approved City Improvement Standards, City Storm water Management Program, the MS4 Permit as issued and modified by the State and Regional Water Quality Control Board, the approved Placer County Storm Water Management Manual, the 404 Permit issued by the Army Corps, and any agency required Establishment Phase operation and Management Plan and/ or City's Preserve Area Overarching Management Plan (whichever Management Plan is in force at the time). All appropriate aspects of the Low Impact Development Plan and the Flood Control Plan as specified in the Master Drainage Plan and in the Specific Plan will be the responsibility of each increment of development at the time of development. In general, drainage facilities shall be constructed concurrent with roadway improvements, and

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	shall include permanent outfall structures and open space storm water treatment devices within the Specific Plan boundaries. Prior to approval of any improvement plans for the construction of storm drain facilities within a drainage shed, a master drainage plan shall be prepared and approved by the City Engineer for the entire shed area or sub-area approved by the City Engineer and shall include a rough grading plan of that shed. The Master Drainage Plan for individual sheds shall include pipe sizes, grades, flows, depths of pipe, and cover over and on top of the pipe. Landowner shall provide drainage improvements as provided in this Section and the Phasing Plan. Landowner shall have no obligation to install or pay for the installation of offsite drainage facilities, except through the payment of drainage fees levied and collected by the City at the time of development pursuant to City ordinances.
Department	Engineering Division
Status	Ongoing obligation
Section	3.10.1
Title	Other Agency Approval
Obligation	Prior to issuance of any building permit or grading permit, Landowner shall obtain, at its expense, all permits and agreements as required by other agencies having jurisdiction over drainage, water quality or wetlands issues including, but not limited to, the Regional Water Quality Control Board ("RWQCB"), the Army Corps and the California Department of Fish and Game. Landowner shall prepare and implement a Storm Water Pollution and Prevention Plan (SWP3), and shall construct and maintain Best Management Practices (BMPs) as required by law, the SWP3 and as approved by the City, concurrently with construction of any improvements. Landowner shall obtain a permit from the RWQCB for the General Construction Storm Water Permit Compliance Program, as required by law, prior to the start of any construction, including grading on the Property.
Department	Engineering and Building Division
Status	Ongoing obligation
Section	3.10.2
Title	Storm Drains
Obligation	Landowner shall construct storm drain mains and laterals in accordance with the Master Drainage Plan and Phasing Plan and with the City's then current Improvement Standards and shall provide laterals to serve all parcels on the Property, including, but not limited to, park sites. Storm drain laterals shall be constructed to the property line concurrently with the construction of connecting open channels or storm drain mains. Storm drainage system designs shall include applicable Best Management Practices with the goal of preventing or reducing pollutants from entering receiving waters in accordance with the City's Storm water Management Program. Should grading alter the natural drainage patterns and it becomes necessary to redirect drainages across lands dedicated to the City, the Landowner shall be responsible for the installation of above ground drainage ditches to control and direct runoff to receiving waters as appropriate. Landowner shall be responsible for annual (or more frequent if needed) maintenance of said drainage ditches until such time that the City develops the property.
Department	Engineering Division
Status	Ongoing obligation
Section	3.10.4
Title	Drainage Easements
Obligation	Where permanent drainage facilities to be owned and maintained by City are to be constructed by Landowner and are not located within road rights-of-way, as and when Landowner installs such drainage improvements, Landowner shall grant and City shall

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	accept a non-exclusive public utility easement or temporary easement for the ownership and maintenance of such lines, together with access thereto for maintenance purposes only.
Department	Engineering Division
Status	Ongoing obligation
Section	3.11
Title	Electric
Obligation	Landowner shall provide electric utility improvements as provided in this Section and the Phasing Plan.
Department	Electric Department
Status	Ongoing obligation
Section	3.11.1
Title	On-Site Electric Facilities
Obligation	Concurrently with the construction of the adjacent roadways and as specified in Section 3.3, Landowner agrees to construct, or finance the construction of, on- site 12kv electric distribution facilities as directed by the Electric Utility Director.
Department	Electric Department
Status	Ongoing obligation
Section	3.11.2
Title	Off-Site Electric Facilities
Obligation	Concurrently with the construction of any phase of the Plan Area, Landowner agrees to construct, or finance the construction of off- site 12kv electric distribution facilities as directed by the Electric Utility Director. Landowner shall construct or finance construction of off-site 12kV electric distribution facilities in accordance with final off-site electric distribution designs for the Specific Plan as directed by the Electric Utility Director in accordance with applicable City Electric Utility Department Specifications. Landowner shall construct or finance the construction of the extension of the necessary 12kV circuits across Fiddymment Road and any rework necessary to the existing 12kV circuits on the eastern side of Fiddymment Road to serve the development of such phase.
Department	Electric Department
Status	Ongoing obligation
Section	3.11.4
Title	230kV and 60kV Disclosure
Obligation	Landowner shall include a notice in the project CC&R's and its sales documentation advising property owners adjacent to the 230kV and/ or 60 kV easement areas shown on Exhibit "AA" that the City may utilize the public utility easements to construct 60kV overhead electric lines.
Department	Electric Department and City Attorney
Status	Attorney: Evaluation of disclosures done at time of submittal of CC&R's. Ongoing obligation.
Section	3.11.5
Title	Streetlights
Obligation	Concurrent with the construction of the adjacent roadways, Landowner agrees to construct, or finance construction of, streetlights within the Property, as directed by the

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	Electric Utility Director. Except as may otherwise be permitted by the Electric Utility Director, no street shall be accepted by the City unless and until streetlights have been installed in accordance with the Specific Plan and applicable requirements of the Electric Department. Streetlights shall meet Roseville Electric's specifications for residential and/ or commercial construction in effect at the time the construction improvement plans are approved and issued by the City.
Department	Electric Department
Status	Ongoing obligation
Section	3.11.6
Title	Electric Efficiency and Demand Reduction
Obligation	In order to mitigate demand for energy supplies and comply with state mandated energy efficiency goals, the following energy efficiency and load management requirements are hereby established: 1. All residential dwelling units will install residential air conditioning units with the following sets of parameters, as a minimum standard: a. A Seasonal Energy Efficiency Rating ("SEER") of 2 points above the minimum, as defined by the State of California in the current Title 24 of the Code of California regulations, up to a total maximum of 16 points including the 2 point premium, an Energy Efficiency Ratio ("EER") of 12 or greater, and a thermal expansion valve "TXV". The SEER rating of 2 points above the minimum, as defined by the current Title 24, up to a maximum of 16 points, and an EER rating of 12 or greater along with a TXV will be specified on building plans and Title 24 compliance certificates at the time building permits are requested. If Title 24 of the Code of California Regulations in effect at the time of request for building permits requires higher SEER or EER ratings, residential units in the Plan Area shall comply with such State requirements. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be utilized in the overall energy compliance calculations required for issuance of a building permit for any residential unit. Any variances must be approved by the Electric Department's Retail Energy Services Department. 2. A direct load control device will be installed on all new residential dwelling units to the extent and subject to availability of program funds at the time of final map approval. The device will cycle the air conditioner compressor on/off during summer high peak load hours and operate under the control of Roseville Electric. Roseville Electric will install and maintain the devices at no cost to the builder /homeowner and/or Landowner. Roseville Electric shall install the device in a manner that does not delay Landowner's construction or sale of the residence. Customers will be automatically enrolled in the load control program and must actively opt out. Additionally, Landowner shall disclose to all residential buyers the following: (1) their property has been installed with a Roseville Electric owned air conditioner cycling demand switch; (2) the home buyer is automatically enrolled in the program; (3) Landowner will provide the home buyer with an opportunity to opt out of the program at the time of close of escrow and that this information will be provided to the Roseville Electric Retail Services New Construction Program Manager. Note the disclosure stated in Section 3.24(21) as to the direct load control device. 3. All commercial air conditioning units 5 tons or less (<65,000 btu/ h) shall meet the current Consortium for Energy Efficiency ("CEE") Tier I specifications. The SEER/EER ratings will be specified on building plans and Title 24 compliance certificates at the time building permits are requested. The SEER and EER ratings will be verified with appropriate documentation. These requirements shall be utilized in the overall energy compliance calculations required for issuance of any building permit for any

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	commercial building in the Plan Area. Any variances, with the exception of Tier 2 compliance, must be approved by the Electric Department's Retail Energy Services Department.
Department	Electric Department
Status	Ongoing obligation
Section	3.12
Title	Parks, Open Space and Bike Trails
Obligation	Landowner shall dedicate to City a total of 7.6 acres of active park land and 10.23 acres of open space lands, pay fees for construction of park improvements, paseo improvements, road improvements, open space frontage improvements, and trail improvements and construct park frontage improvements as set forth in this Section and the Phasing Plan. Landowner shall not construct any private single access gates or private access from single homeowner's property onto public spaces, such as parks, preserves, and paseos. Additionally, Landowner shall place the foregoing restriction as applicable to homeowners in the CC&R's for any single family residential subdivision.
Department	Parks Department and Alternative Transportation
Status	Ongoing obligation (AT), not constructed yet
Section	3.12.1
Title	Park and Open Space Dedications
Obligation	Landowner shall dedicate to City a total of 7.6 acres of active neighborhood parkland, 0.53 acres open space paseo and 9.7 acres of open space. The following park parcel, open space paseo parcel, and three open space parcels shall be dedicated to City as described below: 1. A 7.6-acre, more or less, portion of the Property for the purposes of a public park, shown as Parcel CG-50; 2. A 0.53-acre, more or less, portion of the Property for the purpose of an open space paseo, shown as Parcel CG-70; 3. A 1.9-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), and preservation of wetland habitat and open space, shown as Parcel CG-80; 4. A 6.8-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), and preservation of wetland habitat and open space, shown as Parcel CG-81;and 5. A 1.0-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), and preservation of wetland habitat and open space, shown as Parcel CG-82. Landowner shall dedicate any park lands, open space paseos and open space Parcels within the Property provided that the applicable final Large Lot Subdivision Map creating a separate parcel for the subject site has been recorded. City shall accept such dedication of any park lands, open space paseos and open space Parcels at the time when all infrastructure improvements (e.g., curb and gutter, roadway, utilities, utility stubs, etc.) adjacent to the parcels ,i.e., frontage along the parcel, are substantially complete. In the event the Landowner uses any of the above mentioned parcels for temporary construction activity or staging (e.g., detention basins, rock crushing operations, dirt/ debris stockpiling, etc.), the Landowner shall, prior to

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	acceptance by City, restore the site to a like condition to what existed prior to such temporary construction or staging activity.
Department	Parks Department
Status	Not constructed yet – Ongoing obligation
Section	3.12.2
Title	Financing for Parks
Obligation	The construction of improvements to parks within the Property shall be financed from the payment by Landowner of the City-Wide and neighborhood park fees established for the Specific Plan in the Parks, Bike Trails and Paseos Financing Plan.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.2.1
Title	Financing for Neighborhood Parks
Obligation	The construction of the neighborhood park sites within the Property shall be financed from payment by Landowner of the park fees. The City agrees that the total amount to be financed by Landowner pursuant to this Section 3.12.2.1 for the design, construction and inspection of such neighborhood park improvements shall not exceed the amounts as set forth in the Parks Financing Plan, with amounts distributed among the park sites on the Property, and which amount is adjusted by the percentage change, annually on July 1, utilizing the Engineering News Record, Construction Cost Index for the United States 20-city average.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.3
Title	Neighborhood Park Fee
Obligation	In accordance with the park financing plan for the Property, Landowner shall pay a neighborhood park fee upon the issuance of each residential building permit within the Project, to fund neighborhood park construction. Such neighborhood park fee shall be \$2,898 per Low Density Residential unit, \$2,476 per Medium Density Residential Unit, and \$2,053 per High Density Residential unit and per Mixed Use Residential unit (but excluding carriage units, which shall not pay neighborhood park fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI (Construction Cost Index). All such Neighborhood Park Fees shall be deposited into the applicable neighborhood park fee fund. The Neighborhood Park Fee, as calculated herein, is figured on 100% of the total dwelling units proposed to be entitled in the Plan Area for construction of Neighborhood Parks within the SVSP. City may conduct an annual re-assessment of Park fees for the Property subject to this Agreement and adjust the fee upward if underutilization of entitled dwelling units for the Property subject to this Agreement exceeds 10%. In the event of a rezoning of any parcel(s) in the Property that creates a park funding shortfall, City shall require supplemental neighborhood and City-Wide park fees to fund such shortfall from the rezoned parcel(s). At the end of the development phase, City shall review development progress of Neighborhood Parks to determine if development is on target as it relates to collection of park fees by phase or sub-phase. City shall review the development phase with overall neighborhood park development and any impacts, particularly if subsequent phases will need to utilize funding previously collected for development. At the

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	completion of all residential and neighborhood park development, according to the park financing plan for the SVSP, if there are any remainder fees, City shall, within thirty (30) days of filing a notice of completion of the last neighborhood park for the SVSP, refund to Landowner a pro-rata share of any remainder fees.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.3.1
Title	Neighborhood Park Frontage Improvements
Obligation	When installing road improvements adjacent to neighborhood park sites, Landowner shall construct the frontage improvements (excluding landscaping), which include curb, gutter, and stub utilities for the park site, subject to direction from City on the location of such utility stubs. The cost of this work has been accounted for in the Neighborhood Park Fee as determined in the Parks Financing Plan. Landowner shall be entitled to reimbursement from the Neighborhood Park Fee as set forth below. At the time Landowner installs infrastructure frontage improvements for the neighborhood parks, Landowner may construct the sidewalks, as specified in the Specific Plan and upon mutual consent of the City and Landowner. The construction cost of such sidewalks shall be entitled to reimbursements from City's Neighborhood Park Fee revenues. Landowner shall be entitled to a reimbursement for the sidewalks cost provided City has sufficient funds to reimburse Landowner for such sidewalk improvements at the time that Landowner would construct such improvements. If City does not have sufficient funds to reimburse Landowner within sixty (60) days of completion of such sidewalk improvements, City shall construct the sidewalk improvements as part of the adjacent park improvements and release Landowner from any obligation to construct such sidewalk improvements. Reimbursement shall be based on actual costs of constructing the sidewalk and as approved by the City prior to construction. For all other park frontage improvements excluding sidewalks and landscaping, Landowner shall be entitled to credit against the Neighborhood Park Fee as accounted for and reflected in the Neighborhood Park fee as indicated in the Parks Financing Plan park estimates. All frontage improvements, including sidewalks, shall be constructed consistent with City standards.
Department	Parks Department and Engineering Division
Status	Not constructed yet – ongoing obligation
Section	3.12.4
Title	City-Wide Park Fee
Obligation	The City-Wide Park Fee shall be paid by Landowner through bond proceeds from future Community Facilities District bond sale(s) rather than paid at building permit. The City-Wide Park Fee shall fund the construction of City-Wide park facilities within the Property. As funded by future bond proceeds, the City-Wide Park Fee, inclusive of a City-Wide Park In-Lieu fee amount described in Section 3.12.5 below, shall be \$1,768 per Low Density Residential unit, \$1,511 per Medium Density Residential unit, and \$1,253 per High Density Residential unit and per Mixed Use Residential unit (but excluding carriage units, which shall not pay City-Wide Park Fees), subject to annual adjustment, on July 1, based on the percentage change in the CCI. Subject to the requirements of Section 3.2, Parcel KT-50 shall be offered for dedication to the City in fee at the time of recordation of the Large Lot Map. City-Wide park fees paid by Landowner through CFD bond proceeds shall be applied to the construction of improvements to SVSP Parcel KT-50. The City-Wide Park Fee revenues to be generated by the Specific Plan will fund approximately 70% of the estimated costs to develop Parcel KT-50 with City-Wide park improvements. City shall pursue other funding sources to fund fully the construction of facilities on the City-Wide park on

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	Parcel KT-SO. Nothing in this Section 3.12.4 shall preclude the City from conveying any portion or all of Parcel KT-SO to help fund City-Wide park needs.
Department	Parks and Finance Department
Status	No District formed yet-to be paid from future bond proceeds. Ongoing obligation
Section	3.12.4.1
Title	City-Wide Park Frontage Improvements
Obligation	Frontage improvements for City-Wide parks shall be included in the fee established by the City for City-Wide parks. The cost of this work has been accounted for in the Parks Financing Plan City-Wide Park Fee.
Department	Parks Department
Status	Not constructed yet – Ongoing obligation
Section	3.12.5
Title	City-Wide Park In-Lieu Fee
Obligation	The City-Wide Park Fee set forth in Section 3.12.4 above includes a City-Wide Park In-Lieu fee component to satisfy Landowner's pro-rata share of the Plan Area's remaining City-Wide parkland dedication requirement of 10.8 acres after dedication of the 39.9 acre SVSP Parcel KT-SO.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.6
Title	Paseo Facilities
Obligation	Paseo facilities within the Plan Area are located on one side and adjacent to the collector roadways consistent with the Specific Plan and Design Guidelines and include a 10-foot wide Class 1A bikeway within a 60-foot wide landscaped / paseo corridor. Typical Landowner obligations for collector road frontage improvements include a 25-foot wide landscape setback and a 5-foot wide pedestrian path. At the time of adjacent development, Landowner shall construct the entire 60-foot wide landscape/paseo corridor and 10-foot wide Class 1A bikeway. Improvements shall extend into and through any adjacent open spaces. Depending on the phased development requirements, and to maintain the integrity of the pedestrian connectivity within the Plan Area, off-site sections of temporary non-reimbursable and non-creditable 5-foot wide AC pedestrian path may be required by the City. The costs of paseos shall be financed by Participating Owners, including Landowner, through payment of the Specific Plan Infrastructure Fee described in Section 4.2.8 below.
Department	Parks Department
Status	Not constructed yet – Ongoing obligation
Section	3.12.7
Title	Bike Trail Fee
Obligation	Upon the issuance of each residential building permit within the Project, Landowner shall pay a bike trail fee to fund Class 1 bike trail construction within the Property. Such bike trail fee shall be \$636 per Low Density Residential unit, \$544 per Medium Density Residential unit, and \$451 per High Density Residential unit and per Mixed Use Residential unit (but excluding carriage units, which shall not pay bike trail fees), subject to annual adjustment, on July 1, based on the percentage change in the CCL.

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	The bike trail fee, as set forth herein, is calculated based on 100% of the total dwelling units entitled in the Plan Area for construction of the bike trails within the SVSP. City may conduct an annual re-assessment of bike trail fees for the Property subject to this Agreement and adjust the fee upward if underutilization of entitled dwelling units for the Property subject to this Agreement exceeds 10%. At the request of the City and provided that sufficient funds are available, Landowner shall construct, consistent with City standards, segments of bike trails as provided by Section 3.12.8. Landowner shall be entitled to reimbursement by City from the bike trail fee, for the actual cost of constructing the bike trail segments, but not to exceed the costs specified in the Parks, Financing Plan, as more fully set forth in Section 4.2 below.
Department	Parks Department and Alternative Transportation
Status	Ongoing obligation
Section	3.12.8
Title	Bike Trail Construction
Obligation	Subject to the provisions of Section 3.12.7 regarding Landowner's obligation to construct bike trails only if City has sufficient funds to reimburse Landowner upon completion of construction, Landowner shall design, secure necessary permits and construct certain Class 1 bike trail improvements within the Property as shown on Exhibit "DD" (the "Bikeway Master Plan") and described in the Parks, Bike Trails and Paseos Financing Plan. Should sufficient funds not be available to so reimburse Landowner, City shall be responsible for designing, permitting and constructing bike trails provided in this Section 3.12.8. Bike trails shall be constructed to City standards as and when Landowner develops certain Parcels within the Property. The sections of bike trail to be installed upon development of such parcels. Upon the development of any small lot residential subdivision adjacent to open space where the bike trail is adjacent to that small lot residential subdivision, or at any time wherein there is an obligation of a small lot residential subdivision to construct within open space for the purposes of storm water detention or the creation of wetlands where the bike trail will cross open space, the constructing Landowner will be responsible for the preliminary design, securing necessary permits, and rough grading of the bike trail as a condition of the small lot residential subdivision map. Landowner's obligation for preliminary design, necessary permits and rough grading of any bike trail within open space provided for hereunder shall be subject to reimbursement to Landowner by City up to the amount identified in the Parks Financing Plan. If insufficient funds are available to reimburse Landowner, Landowner shall receive credit against its bike trail fee for the costs of such preliminary design, permitting and rough grading. Upon completion of the bike trail improvements, Landowner shall receive reimbursement from City as provided in Section 3.12.7 and this Section 3.12.8. If a bike trail is completed prior to City's acceptance of open space within which the bike trail is located, City shall be responsible for bike trail maintenance. City shall enter into an agreement with the Landowner memorializing such obligations and indemnifying Landowner for the public's use of the bike trail prior to the City's acceptance of the open space, which will include the recordation of a temporary maintenance and pedestrian access easement on and across the bike trail. Upon completion of the bike trail and City's acceptance of open space within which the bike trail is located, City shall continue to be responsible for bike trail maintenance.

Development Agreement Implementation Matrix**

Department	Alternative Transportation
Status	Ongoing obligation
Section	3.12.9
Title	Entire Park Land Obligation
Obligation	The City agrees that the provisions of the Specific Plan and the commitments contained herein satisfy Landowner's General Plan park obligations for the dedication and improvement of neighborhood and City- Wide parks and open space related to development of the Property.
Department	Parks Department
Status	Ongoing obligation
Section	3.12.10
Title	Open Space Preserve Areas
Obligation	Landowner, in conjunction with Participating Owners, shall obtain from the Army Corps a 404 Permit to fill wetland resources in conjunction with development of the Property and the Plan, a condition that requires the preservation of certain environmental habitat. The areas in which such habitat will be preserved are known as Open Space Preserve Areas and consist of the following three parcels: 1. A 1.9-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fire breaks), and preservation of wetland habitat and open space, shown as Parcel CG-80; 2. A 6.8-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fuel breaks), and preservation of wetland habitat and open space, shown as Parcel CG-81; and 3. A 1.0-acre, more or less, portion of the Property for the purposes of drainage, flood control, bike trails, fuel modification (i.e., fuel breaks), and preservation of wetland habitat and open space, shown as Parcel CG-82
Department	Engineering Division and Parks Department
Status	Ongoing obligation
Section	3.12.10.1
Title	Conveyance of Open Space Preserve Areas
Obligation	Upon the satisfaction by Landowner and Participating Owners of all conditions of the 404 Permit, and completion of any corresponding monitoring and reporting that may be required by the 404 Permit during the Establishment Monitoring phase and subject to the formation of the Perpetual Monitoring phase Maintenance CFD as described in Section 3.19 of this Agreement, and following completion of all Preserve improvements, including, but not limited to, utility crossings, bridges, bike trails, outfalls, and water quality features, Landowner shall convey to the City and City shall accept, in fee, the property comprising the Open Space Preserve Areas.
Department	Engineering Division and Open Space Division
Status	Ongoing obligation
Section	3.12.10.2
Title	Open Space Frontage Improvements
Obligation	When installing road improvements adjacent to the open space, Landowner shall construct the frontage improvements. Frontage improvements shall include sidewalks, split rail fencing and landscaping. The cost of this work and amounts of credits and reimbursements has been allocated for in the Parks Financing Plan allocated on a fair share basis.

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

Department	Engineering Division and Parks Department
Status	– Ongoing obligation
Section	3.13.1
Title	Preservation of School District Boundaries
Obligation	City and Landowner acknowledge that the Center Unified School District, the Roseville Joint Union High School District and the Roseville City School District have established school district boundaries within the SVSP. City and Landowner also acknowledge that the aforementioned school districts base their financial planning and assumptions on, among other things, their current boundaries. Accordingly, City and Landowner will not initiate any school boundary changes unless and until the boards of trustees of all three school districts support any such boundary change(s) by adopted resolution. Moreover, City and Landowner agree that they shall not initiate or execute any petition in support of any boundary change between the respective school districts, unless and until the boards of trustees of all three school districts support any boundary change(s) by adopted resolution.
Department	Planning Division
Status	Ongoing obligation
Section	3.14.1
Title	Fire Tax
Obligation	Landowner or its respective successors shall pay the Fire Service Construction Tax at issuance of building permit , as set forth in Chapter 4.46 of the Roseville Municipal Code. In the event that the Fire Service Construction Tax is not extended beyond its sunset date of December 31, 2009 or is otherwise discontinued, Landowner or its successors shall continue, through Project buildout, to pay a fee, at issuance of building permit equal in amount to the non-extended or discontinued Fire Service Construction Tax. Landowner hereby consents to and waives any objection to the imposition of such substitute fee.
Department	Fire Department and Building Division
Status	Ongoing obligation
Section	3.14.2
Title	Placer County Capital Facilities Fee
Obligation	Inconsideration of the annexation of the Property to City, Landowner shall pay the Placer County Capital Facilities Fee adopted by the City, in the amount then being assessed by the City; provided, however, if such impact fee is not effective or is for any reason suspended by the City, then Landowner shall pay such fee in the amount previously and most recently assessed by the City. Such fee shall be paid upon the issuance of each building permit within the Property.
Department	Building Division
Status	Ongoing obligation
Section	3.14.2.1
Title	City Public Facilities Fee
Obligation	Pursuant to Section 3.17.1.2 (i) below, the City Public Facilities Fee (Roseville Municipal Code Chapter 4.52) shall be paid by Landowner through bond proceeds from future Community Facilities District bond sale(s) rather than paid at building permit.
Department	Finance Department
Status	To be collected with future bond proceeds. Ongoing obligation.
Section	3.14.3
Title	Public Benefit Fee

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

Obligation	As partial consideration for this Agreement, to offset a portion of the impact of the Project and the associated tax sharing agreement with Placer County, and to ensure that the Project will benefit current and future residents of Roseville, Landowner shall pay a Public Benefit Fee for each residential unit in the Project. The Public Benefit Fee for each low density and medium density residential unit shall be \$ 1,280. The Public Benefit Fee for each high density residential unit shall be \$ 845. Pursuant to Section 3.17.1.2 (i) below, the Public Benefit Fee set forth in this Section 3.14.3 shall be paid by Landowner through bond proceeds from future Community Facilities District bond sale(s) rather than paid at building permit. The Public Benefit Fee shall be subject to annual adjustment, on July 1, based on the percentage change in the CCI, but only if the Public Benefit Fee is paid out of bond proceeds pursuant to Section 3.17.1.2 (i) below.
Department	Building Division and Finance Department
Status	Ongoing obligation
Section	3.14.4
Title	Liens, Encumbrances, Covenants, Conditions and Restrictions
Obligation	Except as approved by City or provided for by this Agreement, all property to be conveyed in fee to City pursuant to this Agreement shall be free of any liens, financial encumbrances, special taxes, hazardous materials or assessments. Landowner shall, for each such conveyance, provide to City, at Landowner's expense, a current preliminary title report and preliminary site assessment for hazardous waste in a form approved by the City Attorney. Any policy of title insurance required by City shall be at City's expense.
Department	City Attorney
Status	Evaluation done at time of conveyance. Ongoing obligation.
Section	3.14.5
Title	Signage for Future Public Facilities
Obligation	Landowner and Participating Owners shall provide and install signage at the following public facility sites to alert residents of future facilities: solid waste recycling site (FD-62), water storage facility and well site (FD-63), well site (JM-60), sewer lift station site (KT-60), park sites (JM-50, JM- 51,JM-52, FD-50, FD-51, FD-52, FD-53, KT-50, KT-51,KT-52, DF-50, C0-50, CG-50), bike trails where they will abut residential property, and school sites (JM-61, FD-65, KT-61), per City specifications and applicable sign permits.
Department	Planning Department
Status	Need to complete as construction occurs – Ongoing obligation
Section	3.14.6
Title	Library Facilities
Obligation	Landowner agrees to participate and pay its fair share of the capital cost of library services in the event that the City should amend its current City-Wide Public Facilities fee to include library facilities or adopts any other equitable financing mechanism for the provision of library facilities.
Department	Library Department
Status	Ongoing obligation
Section	3.14.7
Title	Solid Waste Recycling Site (FD-62)
Obligation	Landowner is responsible to grade Parcel FD-62, and provide said site without environmental or other constraints. At Landowner's expense, all site grading shall be completed prior to the dedication of the site consistent with City's Grading Ordinance,

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	and where retaining walls are required, the retaining wall shall be a split faced key stone style wall or comparable quality design to be installed by the Landowner. This work shall be completed with the construction of the roadway fronting this parcel.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.14.8
Title	Construction Waste
Obligation	Landowner shall require construction contractors and subcontractors to reduce construction waste by recycling a minimum of 50% of construction materials or that all construction debris be delivered to the Placer County Western Regional Materials Recovery Facility where recyclable material will be removed. Landowner shall require that contractors and subcontractors submit to the City Environmental Utilities Department annual records of waste diversion and disposal in order to verify compliance with this requirement.
Department	Environmental Utilities Department
Status	Ongoing obligation
Section	3.14.9
Title	Weed Abatement on P/OP Parcels
Obligation	Prior to dedication of any P/QP parcel to City, Landowner shall maintain such P/QP parcel to meet City's weed abatement standards and to keep such parcel free from property transformation, either whole or in part, into a wetland or other legally protected area.
Department	Parks Department
Status	Ongoing obligation
Section	3.14.10
Title	Orthophotography of Plan Area and GIS Support
Obligation	Landowner agrees to participate with the Participating Owners and pay its fair share of cost of orthophotography of the Plan Area. The total cost for the Plan Area is \$5,992.00 . The above payment shall be due within ten (10) days after the first Large Lot Final Map approval for the SVSP.
Department	IT Department and Engineering Division
Status	Obligation Outstanding - \$461.38 due
Section	3.15
Title	EIR Mitigation Measures
Obligation	Notwithstanding any other provision in this Agreement to the contrary, as and when Landowner elects to develop the Property, Landowner shall be bound by, and shall perform, all mitigation measures contained in the EIR related to such development which are adopted by City and are identified in the mitigation monitoring plan or the EIR as being a responsibility of Landowner, and shall be subject to any fees which may be enacted by City to implement any mitigation measures contained in the EIR.
Department	Planning Division
Status	Ongoing obligation
Section	3.17.2
Title	Effect of CFD Financing on Credits and Reimbursements
Obligation	Wherever the terms of this Agreement provide for (a) credits or (b) reimbursements to Landowner for construction of certain improvements, and such improvements are financed by the CFD, development fees otherwise applicable to such improvements shall be adjusted as necessary to reflect construction with CFD funds. Credits or

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	reimbursements owed to Landowner shall not be affected or reduced because improvements for which credits or reimbursements are due were financed with CFD special taxes or bond proceeds.
Department	Finance Department
Status	Ongoing obligation
Section	3.18
Title	Completion of Improvements
Obligation	City generally requires that all improvements necessary to service new development be completed prior to issuance of building permits (except model home permits as may be provided by the City's Subdivision Ordinance). However, the parties hereto acknowledge that some of the CFD Eligible Improvements associated with the development of the Property may not need to be completed to adequately service portions of the Property as such development occurs. Therefore, as and when portions of the Property are developed, all CFD Eligible Improvements required to service such portion of the Property in accordance with the Entitlements (e.g., pursuant to specific tentative map conditions or other land use approvals) shall be completed prior to issuance of any building permits within such portion of the Property (except permits for model homes, which may be issued sooner in accordance with the City's Subdivision Ordinance). Provided, however, the Public Works Director may approve the issuance of building permits prior to completion of all such CFD Eligible Improvements if the improvements necessary to provide adequate service to the portion of the Property being developed are substantially complete to the satisfaction of the Public Works Director. All wet utilities to be installed by Landowner will be subject to the review and approval of the City Environmental Utilities Department. In connection therewith, Landowner shall be responsible for coordinating the alignment of all such planned and future utilities within the applicable rights-of-way to the satisfaction of the City Environmental Utilities Director.
Department	Environmental Utilities Department and Public Works Department
Status	Ongoing obligation
Section	3.19.1.1
Title	Community Facilities District – Public Services (Services CFD) Formation – Consent Waiver and Special Benefit
Obligation	No residential building permit, excluding permits for model homes, or certificate of occupancy for non-residential uses, shall be issued until a Community Services District - Public Services has been formed to include the Property. Landowner consents to and shall cooperate in such formation or other such financing mechanism for maintenance purposes and consent herewith to the levy of such special taxes as are necessary to fund the maintenance obligations described in Section 3.19.2. Formation of the Public Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53111, et seq. The Public Services CFD will fund maintenance of landscaping, open space and neighborhood parks in accordance with the requirements established by the financing plan. The rate and method for the Public Services CFD shall reflect differential tax rates between low density residential, medium density residential, high density residential, and non- residential land uses.
Department	Finance Department
Status	Annexed into Sierra Vista CFD 2, Annex 5
Section	3.19.1.2
Title	Zones of Benefit
Obligation	The Services CFD may be divided as necessary into zones of benefit and between

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	which the amount of assessment may vary.
Department	Finance Department
Status	Annexed into CFD -Ongoing obligation to be levied annually
Section	3.19.2
Title	Public Services
Obligation	The Public Services CFD shall provide the funds required for the performance of maintenance, monitoring and reporting obligations and may include, but not limited to, the following: 3.19.2.1 Autumn leaf cleanup for collector and local streets; 3.19.2.2 Maintain neighborhood parks; 3.19.2.3 Maintain paseos along collector streets, medians and landscape corridors and all masonry walls along roadways within the Project; 3.19.2.4 Maintain bikeways and their appurtenances (drainage [limited to culverts or outfall pipes from adjacent subdivisions or roads], signs, benches, and striping); 3.19.2.5 Maintain City and neighborhood entry features within the Property, public rights-of-way and ancillary landscaping; 3.19.2.6 Conduct the environmental mitigation monitoring, and the annual review thereof, as required by the Mitigation Monitoring Plan related to the EIR; 3.19.2.7 Conduct all monitoring, reporting and adaptive management for Open Space Preserve areas consistent with the 404 Permit and O&M Plans (including any tasks required by any required Establishment Monitoring phase O&M Plan and during Perpetual Monitoring per the City's soon to be completed Open Space Preserve Overarching Management Plan); 3.19.2.8 Maintain all water quality structural controls, storm management facilities (and programs) within RoW's and Open Space, including drainage swales constructed between storm drain outfalls and receiving waters; 3.19.2.9 Maintain flood control facilities including detention basins and created wetlands; 3.19.2.10 Maintain open space areas including general maintenance, signage and City-owned fence maintenance, and trash and debris collection; 3.19.2.11 Maintain fire breaks within open space areas; 3.19.2.12 Maintain a Replacement: Reserve Fund for repair and replacement of entry features, signage, lighting, and other special features including structures, etc. included in the areas to be maintained through the Maintenance CFD, as indicated in the Design Guidelines; and 3.19.2.13 Maintain the bus transfer station, bus shelters, bus stops and bus signs.

Title	Public Parcel Exclusion
Obligation	Landowner expressly agrees that Parcels conveyed or to be conveyed to the City, Roseville City School District, Center Unified School District or Roseville Joint Union High School District shall be excluded from any assessment imposed by the Public Services CFD.
Department	Finance Department
Status	Ongoing obligation
Section	3.20.2
Title	Municipal Services
Obligation	The Municipal Services CFD shall provide the funds required to offset the SVSP's impact on City general fund resources available to pay for municipal services citywide, including the SVSP. The funds shall be utilized for general fund purposes.
Department	Finance Department
Status	Ongoing obligation-developed parcels will be levied
Section	3.20.3
Title	Public Parcel Exclusion
Obligation	Landowner expressly agrees that Parcels conveyed or to be conveyed to the City, Roseville City School District, Center Unified School District or Roseville Joint Union High School District shall be excluded from any assessment, imposed by the Services CFD.
Department	Finance Department
Status	Ongoing obligation
Section	3.21
Title	Encroachment Permits, Landscape Maintenance Easements
Obligation	Landowner and City agree to grant encroachment permit(s) or maintenance easements for all Services CFD's to Landowner or City or their agents, employees, successors, assigns, agents and employees, for the purpose of entry into the landscape easement and setback areas or City property (including streets and rights-of-way) to perform the maintenance obligations described herein.
Department	Finance Department
Status	Ongoing obligation
Section	3.22
Title	Grading Permit
Obligation	Prior to the onset of any construction activities, the Landowner shall apply for and obtain a grading permit from the City. All plans shall meet or exceed the intent of the then approved City Standards. It is the Landowners responsibility to meet all criteria of any outside agency for Grading adjacent to or within the Open Spaces. Mass grading and the bulk movement of earthen material is encouraged. Where practical, and at the Direction of the City Engineer, a balanced mass grading plan shall be prepared for all that land within a disturbed water shed. Bulk material shall be moved on the onset of construction to ensure that future development sites balance, and, except as provided below, reduce the amount of future on-street transportation of bulk material on newly paved and existing City roads. The fee referenced below shall not apply to hauling of earthen material crossing in a perpendicular manner, or parallel, to newly paved or existing City roads. In the event that bulk material is transported on or over newly paved and/ or existing City roads (but not across in a perpendicular manner or parallel to such City roads), a premium of \$0.10 fee per yard of material shall be assessed at the issuance of the grading permit to

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	compensate the City for deterioration of the road caused by the excessive loads, provided, however, that the Public Works Director shall have the discretion to waive such fee in recognition of particular circumstances, including environmental constraints, faced when hauling bulk movement of earthen material. With regard to any and all P/QP parcel dedications to City and at Landowner's expense, all site grading shall be completed prior to the dedication of the site consistent with City's Grading Ordinance, and where retaining walls are required, the retaining wall shall be a split faced key stone style wall or comparable quality design to be installed by the Landowner.
Department	Engineering Division
Status	Ongoing obligation
Section	3.23
Title	Fire Station Site
Obligation	City and Landowner acknowledge that City is responsible for funding, construction, and operation of fire facilities necessary to serve the SVSP. Landowner shall dedicate to City a 3.17 acre site (FD-64) for use as a fire station at the location shown in the SVSP. The net buildable area (i.e., an area of land, which may be fully and completely utilized for structures and other improvements) shall be no less than 2.8 acres. Except as stated below, the timing of such dedication shall be subsequent to acceptance by City of all necessary infrastructure and utilities improvements to serve the fire station site and completion of the grading requirements stated below or at such later time as determined by City. At the time of approval of a small lot residential tentative subdivision map, or, a design review permit or major project permit in the case of high density residential land uses or non-residential land uses, for property within the cross-hatched area, such development, whether as a phase or sub-phase, must comply with, among other things, the sub-phase criteria in Section 3.3. Additionally, City may request that Landowner construct all infrastructure and utility improvements to the above-mentioned fire station site to accommodate construction of the fire station and to dedicate such site to City prior to issuance of a building permit for such development. Moreover, City shall expend best efforts to construct and operate the fire station within twenty-four (24) months of dedication of the fire station site to City. Upon dedication of the fire station site to City as provided for in this Section 3.23, there shall be no further restriction on or requirements of City approvals or permits anywhere within the Plan Area, including the cross-hatched area, related to the provision of fire facilities in the Plan Area. At Landowner's expense, site grading shall be completed prior to dedication of the fire station site and consistent with the City's Grading Ordinance, and where retaining walls are required, the retaining wall shall be a split faced key stone style wall or comparable quality design to be installed by Landowner.
Department	Engineering Division and Fire Department
Status	Ongoing Obligation
Section	3.24
Title	Disclosures to Subsequent Purchasers
Obligation	This Agreement shall constitute notice to all successors to Landowner hereunder, and to all subsequent purchasers of any lots and/ or residential units within the Property, of the following matters: 1. Designation of Fiddymment Road, Westbrook Boulevard and Baseline Road as truck routes.

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	2. The existence of a Development Agreement on the Property. However, this notice shall not extend to the purchaser of a completed individual single family residential unit. 3. The Project will be served by surface water supplies and by groundwater supplies. 4. Recycled water will be used to irrigate parks and landscape setbacks, medians, paseos and other landscape areas including all multi-family and non-residential landscaping uses. 5. Requirement to implement water conservation measures per the project Water Conservation Plan (Exhibit "R"), which may include such measures as Smart Timers. 6. Public utility easements may be used to construct 60kV overhead power lines on the west side of Fiddymment Road, on the east side of Westbrook Boulevard and south side of Pleasant Grove Boulevard. 7. 230kV and 60kV overhead power line easement on (Parcel Numbers). 8. Exclusive utility easement may be used for high-pressure natural gas line through the area to serve the Roseville Energy Park. 9. Requirement for fifty percent (50%) reduction in construction waste stream. 10. Location of schools and parks within one mile. 11. Parcels adjacent to Open Space may have a public bike trail and appurtenances adjacent to said parcels. 12. Location of well sites and water storage facilities. 13. Location of sewer lift station and wastewater treatment plant. 14. Owners of residential units adjacent to separated sidewalks shall be responsible to maintain area between curb and sidewalks. 15. Location of recycled water tank site and pump station facilities. 16. Location of solid waste recycling center. 17. Location of future high-pressure natural gas line in Fiddymment Road and Baseline Road. 18. Masonry walls, including walls adjacent to landscape corridors and other public facilities, are owned by the City, which is responsible for their maintenance, repair and replacement. 19. Aircraft over flights and associated noise. 20. Demand cycle control units operated by Roseville Electric on residential air conditioner units. 21. Solar envelope impact: Landowner shall disclose to all residential and nonresidential buyers that certain properties, specifically those adjacent to major arterials and collector streets where City- maintained landscaping is installed, may impact the buyer's opportunity to install solar panels or structures or the efficiency or
--	---

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	effectiveness of such solar panels or structures. And that this is primarily due to the trees within the street landscapes as being generally medium to large shade trees, which may cast shade, leaf litter, or other natural affects onto the adjacent property. 22. [For properties in the Center USD portion of the Specific Plan] The Property is located in the Center Unified School District. Should CC&Rs not be recorded against the Property as provided for herein, a separate notice of the Property's location in the Center Unified School District will be recorded against the Property by Landowner, including a separate recorded notice to the purchaser of all completed individual single family residential units located within the Property, notifying all such subsequent purchasers that their properties are located within the Center Unified School District. If Landowner records any Property CC&Rs, such CC&Rs shall include the foregoing disclosures and the foregoing disclosures shall not be omitted or deleted from the CC&Rs without the City Attorney's prior written approval, with the exception of disclosure 22, which may not be omitted or deleted from CC&Rs.
Department	City Attorney
Status	Evaluation of disclosures done at time of submittal of CC&R's. Ongoing obligation.
Section	3.25
Title	General Signage
Obligation	A) Utility Sites (see Section 3.14.5): Landowner shall install signage at all future utility sites (including, but not limited to, wells, water tanks, recycled water tanks, pumping stations, aquifer storage and recovery facilities, and electrical sub- stations)and public facility sites (including, but not limited to, fire stations) describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The Environmental Utilities Director, Public Works Director, and Electric Director, as appropriate, must review and approve sign layouts prior to installation/ construction of any utility sites. The City Manager or his/her designee must review and approve sign layouts prior to installation/ construction of any public facilities. B) Affordable Housing: Landowner shall install signage at future affordable rental housing sites (excluding carriage units) describing the facilities to be constructed on the subject site. Signs shall be provided per City specifications. The City Manager or his/ her designee must review and approve sign layouts prior to installation by Landowner.
Department	Planning Division / Electric
Status	Ongoing obligation
Section	3.26
Title	Reimbursement to West Roseville Specific Plan
Obligation	A. Landowner acknowledges that the West Roseville Specific Plan ("WRSP") developer(s) have constructed and/or will construct improvements to the WRSP development agreements, which have been and/ or will be oversized for the benefit of third parties such as Landowner. Landowner further acknowledges that City is obligated to use its best efforts in requiring reimbursement to WRSP from benefiting third parties. Such oversized improvements as specified in the WRSP development agreements may include sewer, water, recycled water, and roadways. As set forth in this Section 3.26, Landowner shall pay its pro-rata share based on the number of DUEs assigned at the date of Specific Plan approval, to Landowner's Property in a large lot parcel in which a final small lot subdivision map in the case of low density and medium density residential units, or design review permits or major project permits, as the case may be, for high density residential or non-residential projects, respectively, is approved, as the numerator, and the total number of the DUEs in the Plan Area, the WRSP, as has been or may be

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	amended from time to time, and the DUEs assumed in the EIR for the Urban Reserve properties in the Annexation Area, as the denominator. When DUEs are assigned to the Urban Reserve properties in the Annexation Area as part of any City approval for land use entitlements on such Urban Reserve properties, the DUEs for the Urban Reserve properties will be adjusted and allocated to the denominator for determining the updated pro-rata shares of the SVSP, including Landowner's Property. Such payment for the DUEs in a large lot parcel in which a final small lot residential subdivision map or building permit (for high density residential or non-residential uses), is approved, as the case may be, shall be due and payable on the earlier of the formation of a CFD and issuance of bonds for such CFD serving that large lot parcel in Landowner's Property, or recordation of the first final small lot residential subdivision map, in the case of low density and medium density residential projects, or issuance of the first building permit for high density residential or non-residential projects, in such large lot parcel. Landowner's pro-rata reimbursement to WRSP (as defined in this Section 3.26) shall be required until such time Landowner's pro-rata reimbursement owed to WRSP has been fully satisfied or Landowner's Property has been fully built out. Once Landowner has made payments for reimbursement to the WRSP as set forth in this Section 3.26 for infrastructure and environmental and planning costs, respectively, for a large lot parcel, Landowner shall have no further reimbursement obligation to the WRSP for that large lot parcel. Reimbursements for WRSP improvements that have been constructed shall be paid as set forth in Section 3.26.D, subject to confirmation and approval by City of costs for work completed by the WRSP, according to the following hierarchy in determining costs for WRSP improvements for which the WRSP seeks reimbursement: (1) Invoices for construction of WRSP improvements submitted by the WRSP to City; or, (2) if such invoices are not available, documentation of payment from the WRSP CFD for WRSP improvements; or, (3) If such documentation of payment from the WRSP CFD is not available, the cost estimates for WRSP improvements as set forth in Exhibits "II" and "00" to the WRSP development agreements and Exhibit "GG" to this Agreement. Prior to City approval, Landowner shall have the right to review such requests for reimbursement from the WRSP, including all such documentation. B. Landowner acknowledges that WRSP developer(s) have paid for the costs of certain planning and environmental efforts that may have incidentally benefited Landowner. Such efforts are comprised of the following: the Municipal Services Review associated with the sphere of influence expansion and the portion of the costs of the WRSP EIR allocated to the sphere of influence expansion approved as part of the WRSP. Subject to confirmation and approval by City and review by Landowner of invoices for planning and environmental review costs sought to be reimbursed by the WRSP, Landowner shall pay its pro-rata share based on the acreage owned by the benefited large lot parcel as the numerator compared to the total acreage within the WRSP and the Remainder Area, as defined in the WRSP, including the Annexation Area defined herein, as the denominator. Such payment shall be due and payable on the earlier of the formation of a CFD and issuance of bonds for such CFD serving Landowner's Property or recordation of the first final small lot subdivision map in the case of low density and medium residential projects, or issuance of the first building permit for high density residential or non-residential projects. Reimbursements shall be paid directly to the WRSP developers.
--	---

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	C. So as to not delay implementation of the Specific Plan, no final small lot residential subdivision map, any building permit for high density residential or non-residential uses, nor any certificates or occupancy regardless of use type, shall be withheld or delayed by City in the Plan Area due to any delay in submission of requests for reimbursement, and documentation justifying such reimbursement, by the WRSP to City. D. At the time that Landowner seeks recordation of a final small lot residential subdivision map, or issuance of a building permit for high density residential or non-residential uses, on any portion of a large lot parcel on Landowner's Property, WRSP developers may not yet have submitted invoices for the costs of WRSP improvements completed and accepted by City (hereinafter, "completed WRSP Improvements") for which reimbursement from the SVSP is sought by the WRSP, or provided documentation supporting payment for such by the WRSP CFD, as set forth in Section 3.26.A, and, as set forth in Section 3.26.E, certain WRSP improvements for which reimbursement is sought may not have been constructed. Landowner shall, at the time of recordation of a final small lot residential subdivision map or issuance of a building permit for a high density residential or non-residential use, pay to City Landowner's pro-rata share of costs of such completed WRSP improvements (both invoiced or documented as set forth in Section 3.26.A and yet to be invoiced or documented as set forth in this Section 3.26.D) and the yet to be constructed WRSP improvements for the DUEs allocated to such large lot parcel, as defined in Section 3.26.A (and as set forth in Exhibit "HH"), based on the actual costs or cost estimates of such infrastructure, as the case may be, set forth in Exhibits "II" and "00" to the WRSP development agreements and Exhibit "GG" to this Agreement, and as described in this Section 3.26.D. City shall pay to the WRSP developers 100% of such reimbursements from the amounts paid by Participating Owners, including Landowners, until such time as the actual costs of completed WRSP improvements, as provided for in Section 3.26.A, have been paid in full, with reimbursed funds paid by Participating Owners, including Landowner, over and above the cost of completed WRSP Improvements, placed into an escrow account, as set forth (or as may be modified, as the case may be) in Section 3.26. E. E. At the time that Landowner seeks recordation of final small lot residential subdivision map, or issuance of a building permit for high density residential or non-residential uses, on any portion of a large lot parcel on Landowner's Property, some WRSP improvements for which reimbursement is provided for in Exhibits "II" and "00" to the WRSP development agreements and Exhibit "GG" to this Agreement may not have been constructed. In such case, Landowner shall, at the time of recordation of a final small lot residential subdivision map or issuance of a building permit for a high density residential or non-residential use, pay to City Landowner's pro-rata share of costs of such yet-to-be constructed WRSP improvements for the DUEs allocated to such large lot parcel, as defined in Section 3.26.A. City shall deposit such funds into an escrow account. Such estimated reimbursement funds shall be paid either to (1) the WRSP developer constructing such improvements, based on costs, as set forth in Section 3.26A or, (2) to Landowner or any other Participating Owner should such SVSP landowner(s) construct such improvements. F. All P/QP parcels to be dedicated to City or to another public agency, e.g., school districts, shall not be subject to reimbursement to the WRSP. All reimbursements for improvements to the WRSP shall be subject to annual adjustment for CCI from the date that the WRSP Developer incurred the reimbursable cost to the date of reimbursement.

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

Department	Engineering and Building Division
Status	Ongoing obligation
Section	3.27
Title	Third Party Construction of Santucci Boulevard
Obligation	In the event that a third party elects to construct portions of Santucci Boulevard within the Plan Area earlier than required within the approved Phasing Plan, City shall require such constructing third party to construct in accordance with City standards and the Specific Plan the outside CIP lane on both sides of centerline which would be adjacent to the frontage lane requirement of Participating Owners, subject to reimbursement from the TMF Set- Aside Fund as described in Section 3.5.2 above, for the cost of such two outside CIP lanes, provided, however, that City shall reimburse such constructing third party no earlier than when City would have reimbursed any Participating Owner constructing such same outside CIP lanes of Santucci Boulevard under the terms of this Agreement. Participating Owners may construct their frontage improvements for the portions of Santucci Boulevard within the Plan Area in segments. If Participating Owners so construct their frontage improvements for Santucci Boulevard in segments, then the constructing third party of the two outside CIP lanes provided for in this Section 3.27 shall be reimbursed from the TMF Set-Aside Fund by segment.
Department	Engineering Division
Status	Ongoing obligation
Section	4.2.7
Title	Specific Plan Fee
Obligation	To provide Landowner and Participating Owners with the reimbursement for reimbursable planning and environmental costs required under Section 4.2.4 above, City shall require benefiting property owners to pay to City a Specific Plan Fee. The benefiting property owners of the planning and environmental costs required under Section 4.2.4 above includes the owners of those lands within the Specific Plan designation of Urban Reserve. The pro-rata share of the future reimbursement will be determined within ninety (90) days of the date of the Agreement to the satisfaction and sole discretion of City. The fee shall be collected at the time said benefiting property owner files an application with City for any land use entitlements on its property. Within ten (10) days of receipt of said Specific Plan Fee from such benefiting property owner, City shall pay the Specific Plan Fees so received to the Participating Owners of the Plan Area, including Landowner, in proportion to the gross acreage owned by Landowner and by each such Participating Owner divided by the complete gross acreage in the Specific Plan. Said reimbursement of Specific Plan Fees is personal to Landowner and to each Participating Owner and does not run to successors and assigns, unless any such Participating Owner indicates otherwise in writing to City that such Specific Plan Fee revenues have been assigned to a successor in interest.
Department	Planning Division
Status	This is related to the Chan parcel UR-92. Fees would be collected when this parcel develops. Ongoing obligation
Section	4.2.8
Title	Specific Plan Infrastructure Fee
Obligation	To provide for an equitable funding mechanism for various public improvements and public land dedications within the SVSP, City and Landowner, together with other Participating Owners, agree to take all steps reasonably necessary to implement a SVSP Infrastructure Fee which incorporates the terms and conditions. Landowner and the Participating Owners shall bear City's costs to adopt such ordinances and

**Sierra Vista Specific Plan - Cyril G. Barbaccia Irrevocable Trust Dated December 15, 1976
Development Agreement Implementation Matrix**

	procedures as may be required to implement the Infrastructure Fee. City agrees to take such actions, including any compliance with the Mitigation Fee Act (Government Code Section 66000, et seq), that may be required to implement the Infrastructure Fee. Any modification of City ordinance(s) required to implement the Infrastructure Fee shall not require an amendment to this Agreement.
Department	Engineering Division
Status	Ongoing obligation
Section	5.2
Title	Annual Review
Obligation	City shall, at least every twelve (12) months, per Roseville Municipal Code Chapter 19.84, as such period may be amended, during the term of this Agreement, review the extent of good faith substantial compliance by Landowner with the terms of this Agreement. Such periodic review shall be limited in scope to compliance with the terms of this Agreement pursuant to Section 65865.1 of the Government Code and the monitoring of mitigation in accordance with Section 210816 of the Public Resources Code of the State of California. Notice of such review shall include the statement that any review of obligations of Landowner as set forth in this Agreement may result in termination of this Agreement. A finding by City of good faith compliance by Landowner with the terms of the Agreement shall be conclusive with respect to the performance of Landowner during the period preceding the review. Landowner shall be responsible for the cost reasonably and directly incurred by the City to conduct such review, the payment of which shall be due within thirty (30) days after conclusion of the review and receipt from the City of the bill for such costs. Upon not less than thirty (30) days written notice by the City, Landowner shall provide such information as may be reasonably requested and deemed to be required by the City in order to ascertain compliance with this Agreement. In the same manner prescribed in Section 10, the City shall deposit in the mail to Landowner a copy of all staff reports and related exhibits concerning contract performance and, to the extent practical, at least ten (10) calendar days prior to any such periodic review. Landowner shall be permitted an opportunity to be heard orally or in writing regarding its performance under this Agreement before the City Council or, if the matter is referred to the Planning Commission, before the Planning Commission. If City takes no action within thirty (30) days following the hearing required under Roseville Municipal Code Section 19.94.080, or any successor thereof or amendment thereto, Landowner shall be deemed to have complied in good faith with the provisions of the Agreement.

Development Agreement Implementation Matrix**

Development Agreement Obligations <u>Complete</u> as of December 2023	
Section	2.7.2.1
Title	404 Permits for Backbone Infrastructure and Public Improvements
Obligation	These "Backbone Infrastructure" improvements include, but are not limited to, arterial and collector roadways, underground utility extensions for water, sewer, recycled water, and storm drains, electric facilities, wetland creation, flood control facilities, storm water treatment devices, bikeways, sewer lift station, site work (defined as rough grading and utilities stubbed to the site) for the water tank site, the electric substation site, the fire station, and the recycle center, open space crossings, and temporary construction activity disturbances, and include those certain segments of Backbone Infrastructure located off- site of the Plan Area, including the Urban Reserve area of the Annexation Area, and immediately south of and adjacent to Baseline Road, and the intersections of Baseline Road and Watt Avenue/Santucci Boulevard and Baseline Road and Fiddymment Road. In order to facilitate the orderly development of the Plan Area per the Phasing Plan and to allow Participating Owners the right to enter and construct on lands identified within the Backbone Infrastructure. All those lands identified within the Backbone Infrastructure and located on a Participating Owner'(s) property shall be dedicated as a single or group of lots on each final large lot map.
Department	Engineering Division/ Environmental Coordinator
Status	Obligation Complete
Section	2.7.6
Title	Preserve Area Operation and Management Plans
Obligation	Following successful completion of the Establishment Monitoring period as determined by the Army Corps, the City will assume Preserve Management responsibilities for the Perpetual Monitoring phase consistent with the City's soon to be approved Open Space Preserve Overarching Management Plan. Participating Owners (including Landowner) shall collectively pay the City a \$20,000 onetime fee, apportioned to Participating Owners on a pro-rata basis based on acreage, in exchange for appending to the City's Open Space Preserve Overarching Management Plan for Preserve area Perpetual Monitoring and reporting. Payment shall be made upon issuance by the Army Corps of the first 404 Permit applicable to the Project.
Department	Engineering Division, Open Space Division and Environmental Coordinator
Status	Payment completed - \$5,880
Section	3.3.1
Title	Recordation of Large Lot Maps
Obligations	One Large Lot Tentative Map shall be prepared for the entire Plan Area. The Large Lot Tentative Map shall depict areas that match the boundaries of the properties owned by each Participating Owner. Each of the Participating Owners can record a separate large lot final map on its respective property. Any one of such nine (9) Large Lot Final Maps can record independent of the others. Security shall only be required for recordation of small lot tentative subdivision maps. All future rights-of- ways for arterial and collector roadways including landscaped corridors adjacent to low and median density residential properties, open spaces, and future public lands for the electrical sub-station, fire station, water tanks, well sites and parks shall be identified. These

**Sierra Vista Specific Plan - Baseline P&R, LLC
Development Agreement Implementation Matrix**

	lands shall be dedicated to the City on the face of each Large Lot Final Map as an Irrevocable Offer to Dedicate (IOD). Upon the recordation of any Large Lot Final Map, the City shall accept all IOD's subject to improvement. The IOD's shall remain in force until such time as all Landowner obligations for public improvements and/ or Preserve Area Establishment Phase monitoring is complete. Upon issuance of a Certificate of Completion for the completed improvements within the IOD's, and following the acceptance of those improvements by the City Council, the City shall accept the dedications of ROW, Open Spaces, and Public Utility and Access easements. The City is not obligated to accept land dedications for future P/QP, Park, or other public improvements until the frontage improvements to such land dedications are completed. Maintenance of these properties remains a Landowner obligation until accepted by City.
Department	Engineering Division
Status	Obligation Complete
Section	3.8.1
Title	Water Study
Obligation	Landowner has prepared a Water Study for its on- site water facilities and prepared a general design of the water system that identifies the size and location of waterlines, storage facilities, and pump stations. The timing of construction of such facilities is set forth in the Infrastructure Phasing.
Department	Environmental Utilities Department
Status	Obligation Complete
Section	3.8.8
Title	Coordination with PCWA
Obligation	Placer County Water Agency ("PCWA") has expressed interest in coordinating with the City and Landowner the future construction by PCWA or others of water facilities (including, but not limited to, a large diameter water line) within the Baseline Road and Santucci Boulevard right-of- way. In order to facilitate such cooperation with PCWA, Landowner shall, prior to the commencement of improvement plan design to Baseline Road or Santucci Boulevard, provide a construction schedule for the improvements to PCWA. Thereafter, to the extent that such coordination can be accomplished without cost and/ or delay to Landowner in the development of the Project, Landowner and City shall cooperate with PCWA in the construction of such water conveyance facilities.
Department	Environmental Utilities
Status	Obligation Complete - PCWA chose not to participate in Baseline and Santucci design
Section	3.9.3
Title	Recycled Water Engineering Report
Obligation	Jointly with Participating Owners, Landowner shall prepare a Title 22 Recycled Water Engineering Report for submittal to and review by the State Regional Water Quality Control Board and State Department of Public Health documenting the use of recycled water in the SVSP. Prior to submittal to the State Water Quality Control Board, Landowner shall obtain approval of the City's Environmental Utilities Director. Recycled water shall not be provided for use within the Project until the Title 22 Recycled Water Engineering Report has received all required State approvals.
Department	Environmental Utilities Department
Status	Obligation Complete
Section	3.10.3
Title	Grant of Floodplain
Obligation	Prior to or concurrent with approval of any final map containing areas within the 100-year floodplain, Landowner shall grant an IOD to the City, or to a conservancy or other non-profit entity acceptable to the City, such areas within the Open Space Preserve

**Sierra Vista Specific Plan - Baseline P&R, LLC
Development Agreement Implementation Matrix**

	Areas and the Specific Plan.
Department	Engineering Division
Status	Obligation Complete
Section	3.11.3
Title	Electric Substation
Obligation	Landowner shall, prior to issuance of the 500th residential building permit or any combination of building permits within the SVSP as set forth below, dedicate to City a 0.86 buildable acre site net of easements, wetlands, riparian corridors and required setbacks for use as an electric substation at the location set forth in the Specific Plan. Landowner, prior to the issuance of the 500th residential building permit or any combination of building permits within the SVSP as set forth below, and at Landowner's expense, the substation site shall be graded and compacted to within 6" of final grade as approved by Electric Utility Director and consistent with the City's Grading Ordinance, and where retaining walls are required, the retaining wall shall be a split faced key stone style wall or comparable quality design to be installed by Landowner. The Landowner shall provide an access road capable of transporting a 200,000 pound distribution transformer and associated transportation trailer. The road shall be designed to meet the truck and trailer minimum turning radius, shall have a width of twelve feet (12') plus two foot (2') aggregate base shoulders on each side of the road, and shall have a structural section consisting of lime treated sub-grade with 2" asphalt concrete over 4" aggregate base. The final design of the access road shall be reviewed and approved by the Public Works Director after consultation with the Electric Department's Engineering Group before it is constructed. City shall construct the electric substation and all other tenant improvements on this site, at the time when needed to serve development of the Property; provided that the site is dedicated to City in sufficient time to allow for a reasonable time for City to construct the electric substation and that City has sufficient funds to construct the electric substation. The Landowner shall grant a temporary easement for the temporary electric substation access road and dedicate the substation site prior to the issuance of the 500th residential building permit or any combination of building permits within the SVSP that the City determines, in its sole discretion, has absorbed existing electrical system capacity. Additional building permits will not be issued by City unless and until the electric substation site has been dedicated and the temporary easement for the temporary access road has been granted to City. The temporary easement Shall, among other matters, specify when the easement shall be terminated.
Department	Electric Department and Building Division
Status	Obligation Complete
Section	3.11.7
Title	Impact of Proposed State Initiative
Obligation	An initiative entitled "New Two Thirds Requirement for Local Public Utility Providers" has qualified for the statewide ballot, should such initiative be approved by voters, Roseville Electric might not be the electricity provider for the SVSP. Should another electric utility provide electric service to the SVSP instead of Roseville Electric, the provisions of this Section 3.11, including, but not limited to, any requirement for dedication of a substation site, shall be inapplicable to the SVSP, provided, however, that in such event of another electric utility providing electric service to the SVSP, City shall not be responsible for the costs of electricity for street lights and traffic signals in the Plan Area.
Department	Electric Department
Status	Obligation Complete
Section	3.20.11

**Sierra Vista Specific Plan - Baseline P&R, LLC
Development Agreement Implementation Matrix**

Title	Community Facilities District – Municipal Services Formation – Consent, Waiver and Special Benefit
Obligation	No residential building permit, excluding permits for model homes, shall be issued until a Community Facilities District -Municipal Services (Municipal Services CFD) has been formed or annexed to the City's existing Municipal Services CFD. Landowner consents to and shall cooperate in such formation or other such financing mechanism for services purposes and consent herewith to the levy of such special taxes as are necessary to fund the maintenance obligations described in Section 3.20.2. Formation of the Municipal Services CFD shall be pursuant to and consistent with the requirements of this Agreement and Government Code Section 53111, et seq. The initial amount of the maximum special tax shall be in accordance with the Municipal Services District Rate, Method, and Apportionment ("RMA"), and adjusted annually for inflation. The initial amount of the maximum special tax (for the 2009/10 City fiscal year, and as subsequently adjusted annually) shall be \$342 for LDR units, \$200 for MDR units, \$100 for HDR units, \$801 per acre for business professional land uses, and \$932 per acre for commercial land uses. City shall initiate the necessary steps to revise the RMA in the City's existing Municipal Services CFD to conform to the above-referenced initial amounts of maximum special taxes.
Department	Finance Department
Status	Obligation Complete. Annexed into CFD 3
Development Agreement Obligations <u>Not Complete</u> as of December 2023	
Section	2.1
Title	Permitted Uses
Obligation	The permitted uses of the Property, the density and intensity of use, the maximum height and size of proposed buildings, provisions for reservation or dedication of land for public purposes, and location of public improvements, and other terms and conditions of development applicable to the Property shall be those set forth in the Entitlements.
Department	Planning Division
Status	Ongoing Obligation
Section	2.2
Title	Vested Entitlements Amendment # 1 – Ord. #6486
Obligation	Low Density Residential: 620 units on 120.5 net acres Medium Density Residential: 536 units on 59.7 net acres High Density Residential: 150 units on 7.5 net acres Community Commercial: 64.0 net acres Community Commercial/Commercial Mixed use: 136 units on 18.3 net acres Community Commercial/Business Professional: 12.2 net acres Park: 11.8 net acres Open Space: 22.2 net acres Schools: 12.0 net acres Right of Way: 47.2 net acres Low Density Residential: 620 units on 120.5 net acres Medium Density Residential: 536 units on 59.7 net acres High Density Residential: 171 units on 7.5 net acres Community Commercial: 64.0 net acres Community Commercial/Commercial Mixed use: 209 units on 24.42 net acres Community Commercial/Business Professional: 12.2 net acres

Section	2.6		
Title	Affordable Housing		
Obligation	Landowner shall develop or cause ten percent of the total residential units which are actually constructed to be developed as affordable housing. Landowner shall provide 155 units affordable to very low, low to middle income households. 40% for very low income households 40% for low income households 20% for middle income households		
Department	Housing Department		
Status	Ongoing Obligation		
Section	2.6.1		
Title	Affordable Purchase Residential Units		
Obligation	Landowner agrees that 31 units will be reserved as detached and/or single family residential units affordable to middle income purchasers as follows:		
	Parcel	Total Units in Parcel	Middle Income Purchase Units
	KT-20	202	31
Department	Housing Department		
Status	Obligation Removed with Amendment # 2 – Ord. #6465		
Section	2.6.1.1		
Title	Required Agreements		
Obligation	Prior to the approval of each final small lot residential subdivision map containing lots for affordable purchase units, the parties shall enter into an Affordable Housing Agreement for such residential purchase units affordable to middle income households.		
Department	Housing Department		
Status	Ongoing Obligation - Not developed yet		
Section	2.6.1.2		
Title	Content		
Obligation	The Affordable Housing Agreement shall, for each such residential lot subdivision, the distribution of the affordable housing units within the subdivision and includes specific requirements for marketing of affordable purchase units, inclusion or modification of amenities, exterior materials and finishes, alternate means of satisfying the affordable housing obligation.		
Department	Housing Department		
Status	Ongoing Obligation - Not developed yet		
Section	2.6.1.5		
Title	In Lieu-Fee Affordable Housing		
Obligation	In the event City adopts a fee to be paid in lieu of constructing either rental or purchase housing affordable to middle, low or very low income households, landowner shall be eligible to pay such in lieu fee rather than construct affordable housing units.		
Department	Housing Department		
Status	Ongoing Obligation		
Section	2.6.1.6		
Title	Community Facilities Districts		
Obligation	City shall maintain a list of middle income affordable units that are conveyed pursuant to an Affordable Housing Agreement, on or about May 1 of each calendar year, shall send a copy of such agreement to the City's Finance Director. The Finance Director, once the CFD is formed encompassing the property, set the applicable tax for the

	middle-income affordable purchase units within each such parcel at a level described in the rate and method for said CFD.				
Department	Finance Department				
Status	District Formed– Ongoing Obligation				
Section	2.6.2.1				
Title	Multi Family Affordable Rental Units – Affordable Obligation Amendment # 2 – Ord. #6465				
Obligation	Landowner agrees that 124 affordable rental units will be reserved within the property, including 62 units for rental to very low income households and 62 units for rental to low income households as follows:				
	Parcel	Total Units in Parcel	Total Affordable Unit Allocation	Very Low Income Rental Units	Low Income Rental Units
	KT-30	150	124	62	62
	Landowner agrees that 155 affordable rental units will be reserved within the property, including 77 units for rental to very low income households and 78 units for rental to low income households as follows:				
	Parcel	Total Units in Parcel	Total Affordable Unit Allocation	Very Low Income Rental Units	Low Income Rental Units
	KT-30	171	155	77	78
Department	Housing Department				
Status	Ongoing Obligation - Not developed yet				
Section	2.6.2.4				
Title	Community Facilities Districts				
Obligation	The City Manager or his/her designee shall maintain a list of low and very low-income affordable rental units for each Parcel which is subject to a Regulatory Agreement (or applicable City-approved form) and , on or about May 1 of each calendar year, shall send a copy of such Regulatory Agreement(s) to the City Finance Director. In reliance thereon, the Finance Director shall, to the extent allowed by law, if and when a Community Facilities District is formed encompassing the Property, set the applicable special tax for such Parcel at a level described in the rate and method for said Community Facilities District.				
Department	Finance Department				
Status	District Formed – Ongoing Obligation				
Section	2.7.1				
Title	404 Permit				
Obligation	Landowner has obtained verification from the US Army Corps of Engineers of the presence of vernal pools and of wetland swales/channels on the property. Landowner shall obtain the 404 permit to fill specific wetland resources in conjunction with development of the property. The 404 permit shall be approved with conditions satisfactory to the City prior to commencement of construction of any improvements to the property.				
Department	Engineering Division / Environmental Coordinator				
Status	Ongoing Obligation				
Section	2.7.2				
Title	404 Permitting Obligations				
Obligation	404 permits will be processed in generally two categories: 404 permits for backbone infrastructure, including off-site public improvements and individual landowner 404 permits.				
Department	Engineering Division/ Environmental Coordinator				
Status	Ongoing Obligation				

**Sierra Vista Specific Plan - Baseline P&R, LLC
Development Agreement Implementation Matrix**

Section	2.7.2.2
Title	404 Permits for Individual Landowner
Obligation	Separate 404 permits will be obtained for the purpose of fill to specific wetland resources in the Plan Area in conjunction with the development of individual large lots. The development of large lots includes, but is not limited to, the construction of roadways, underground utilities, storm water treatment devices, bikeways, landscaping, and temporary construction activity disturbances. In order to facilitate the orderly development of the Plan Area, and to allow individual Participating Owners the ability to develop their private holdings, each individual Participating Owner will be responsible for making application to the Army Corps for their individual landowner 404 Permit(s). The administration of, amendments to, any mitigation requirements of, and all modifications or supplements thereto, of the Individual Landowner 404 Permit(s), if required, will be the responsibility of the individual Participating Owner. Such Individual Landowner 404 Permit(s) shall be approved, with conditions satisfactory to the City, if such conditions or 404 Permit(s) will impact any public uses or improvements to be conveyed pursuant to this Agreement, prior to commencement of construction of any improvements.
Department	Engineering Division/ Environmental Coordinator
Status	Ongoing Obligation
Section	2.7.2.3
Title	Preserve Area Establishment and Perpetual Monitoring Phases
Obligation	Required preservation and/or creation or restoration of wetland resources within preserve area. City and Landowner shall cooperate with one another in the formation of financing mechanism to fund the costs of monitoring and maintaining the preserve area in two separate phases. First phase (establishment monitoring phase): occurs during the time the the preserve property remains under ownership of participating owners and adjacent build out is occurring in accordance with the specific plan and 404 permits. Wetlands would be monitored for success in accordance with criteria identified in the 404 Permit(s) and all other identified Preserve improvements would be constructed, including, but not limited to, perimeter fencing, outfalls, drainage swales, bridges, utility lines, and bike trails. The duration of the Establishment Monitoring Phase will be specified in the 404 Permit(s) and will depend in part on the ability of mitigation wetlands to meet success criteria identified in the 404 Permit(s). City and Landowner acknowledge and agree that City will take ownership of the Preserve and any Preserve referenced in this Agreement after the Establishment Monitoring Phase has demonstrated that all created habitat has met the required success criteria and all required Preserve improvements and/ or facilities have been completed to the satisfaction of the City and applicable Federal permitting agencies. Landowner shall use its commercially reasonable best efforts to obtain written verification from the Army Corps that success criteria for the on-site Preserve Area Establishment Monitoring Phase have been met. In lieu of obtaining written approval for the Army Corps, the Establishment Monitoring Phase can be deemed complete upon receipt of a letter from Landowner to the Army Corps with a copy provided to City on the same date notifying the Army Corps that the Establishment Monitoring Phase of the particular Preserve(s) is complete. Any such letter shall indicate that the Army Corps' concurrence with the Landowner's determination will be assumed unless the Army Corps responds to the contrary within thirty (30) days. If the Army Corps does not respond within thirty (30) days the Establishment Monitoring Phase will be considered complete. Preserve ownership and perpetual management responsibilities can then be transferred to the City in accordance with the process identified in the City of Roseville

**Sierra Vista Specific Plan - Baseline P&R, LLC
Development Agreement Implementation Matrix**

	Open Space Preserve Overarching Management Plan. The second phase, or Perpetual Monitoring Phase, would begin immediately following the Establishment Monitoring Phase. At the outset of the Perpetual Monitoring Phase, on-site Preserve areas would be dedicated to and accepted by the City and then managed by City in accordance with the City's Open Space Preserve Overarching Management Plan and any Perpetual Monitoring Phase or special management conditions identified in the 404 Permits.
Department	Engineering Division, Open Space Division and Environmental Coordinator
Status	Ongoing Obligation
Section	2.7.3
Title	Maintenance by Landowner During the Establishment Monitoring Phase
Obligation	Participating Owners, including Landowner, shall be solely responsible for satisfying all mitigation, monitoring, reporting, and maintenance required for on-site Preserve Areas, including, but not limited to, development of any 404 Permit(s) required Establishment Monitoring Phase Operations and Management ("O&M") Plan, or any extended Establishment Monitoring Phase, as determined by the Army Corps, for the Preserve Area. Participating Owners, including Landowner, acknowledge responsibility for obtaining 404 permit coverage for all open space uses specified in the Specific Plan and this Agreement. Funds collected by the Public Services CFD or other financing mechanism for the purpose of maintenance of Preserve Area(s) on a particular Participating Owner's property located within the Plan Area will be made available to that particular Participating Owner for on-going maintenance, monitoring, and reporting for that particular Preserve Area or Areas up to and until such time as City assumes the obligation for Perpetual Monitoring for that particular Preserve Area or Areas.
Department	Engineering Division and Finance Department
Status	District Formed– Ongoing obligation
Section	2.7.4
Title	Maintenance by City During the Perpetual Monitoring Phase
Obligation	A PAR Analysis shall be prepared and approved by the City to determine the amount of funding required to manage Preserve Areas during the Perpetual Monitoring Phase. The annual funding needs would be generated via establishment of a Public Services CFD. Following successful completion of the Establishment Monitoring Phase and transfer of applicable Preserve areas to the City, the City, at the expense of the Public Services CFD, shall have sole responsibility to manage the Preserve Area(s) according to the City's Open Space Preserve Overarching Management Plan and any Perpetual Monitoring Phase or special management conditions identified in the applicable 404 Permit(s).
Department	Planning Division, Open Space Division and Finance Department
Status	District Formed– Ongoing obligation
Section	2.7.5
Title	Facilities Included in 404 Permits
Obligation	Landowner shall use its best efforts to ensure that the approval of its applicable 404 Permit(s) includes development of the bike paths, fuel modification areas, water quality structures and drainage and flood control facilities, bridges (foot, bike, and road), culverts, and ancillary improvements described in the Specific Plan and this Agreement. To the extent feasible, these improvements should be located within the outer 50 feet of any Preserve Area(s).

**Sierra Vista Specific Plan - Baseline P&R, LLC
Development Agreement Implementation Matrix**

Department	Engineering Division/ Environmental Coordinator
Status	Ongoing Obligation
Section	2.9.1
Title	Affordable Housing Contribution
Obligation	Landowner shall pay to the City a contribution of \$1.50 per habitable square foot for the habitable portions of the independent living units ("AH Contribution"). The AH Contribution shall be paid to the City at building permit issuance for the independent living units in each building(s). No AH Contribution shall be due for the assisted living/memory care units, skilled nursing rooms, amenity food service, or administrative areas. The proceeds from the AH Contribution collected pursuant to this Section 2.9.1 shall be deposited in the City's affordable housing trust fund and used solely to subsidize the production of new regulated affordable housing."
Department	Housing Department
Status	Ongoing Obligation
Section	3.1
Title	Development, Connection and Mitigation Fees
Obligation	Any and all required payments of development, connection or mitigation fees by Landowner shall be made at the time and in the amount specified by then applicable City ordinances. Wherever this Agreement obligates Landowner to design, construct or install any improvements, the cost thereof may be provided by Landowner, or by traditional assessment district, CPD or other such financing mechanism, subject to and in accordance with the provisions thereof and with City approval.
Department	All Development Departments
Status	Ongoing Obligation
Section	3.2
Title	Public Improvements to be Dedicated, Constructed or Financed by Landowner
Obligation	Landowner agrees to dedicate, construct or acquire the improvements or facilities and to perform the obligations set forth in this Section 3, at its expense, subject only to reimbursements or credits specified in this Agreement. Prior to dedication of sites to City, Landowner shall obtain and fulfill the terms of any state and federal permits needed for anticipated development (e.g., 404 Permit and CDFG 1600 Streambed Alteration Agreements, as needed) and complete said development if said development is a Landowner responsibility under this Agreement. All land dedications shall be free of environmental or other constraints or other encumbrances not inconsistent with the intended use of the Property (e.g., all wetlands shall be filled in accordance with applicable 404 Permits), unless expressly waived by the City. Title shall be conveyed to City in fee simple and without restriction or limitation on use(s), unless approved otherwise by the City Attorney. Signage shall be installed in accordance with Section 3.25.
Department	City Attorney
Status	Attorney: Evaluation done at time of conveyance. Ongoing obligation.
Section	3.2.1
Title	Landowners obligations for backbone Infrastructure
Obligation	The Backbone Infrastructure as defined in Section 2.7.2.1 above includes improvements that are required to provide access and public utilities to any part of the plan area in accordance with Section 3.3. The construction obligation of each phase or sub-phase of development may require construction of certain portions of Backbone Infrastructure, on the property of other Participating Landowner(s). This will require access for the purpose of construction.

Sierra Vista Specific Plan - Baseline P&R, LLC Development Agreement Implementation Matrix

	To assure that the Participating Landowners have confidence that they can access, construct, and offer to the City public improvements required of the phase or sub-phase of development, Landowner hereby agrees to provide all Participating Landowners, temporary construction and access easements to those Backbone Lands on which Backbone Infrastructure is to be constructed as described below. Easements for all Backbone Lands will be granted to all the Participating Landowners in a format acceptable to the City for purposes of access and construction of public improvements, and to the City as an irrevocable offer of dedication (IOD) for purposes of access and public utilities. These easements and IODs will be recorded at the County Recorder's Office and shall be for the benefit of each Participating Owner. The easement width for Backbone Lands shall be to the width of the road right of way plus 25' or, the back of the landscape corridor, whichever is less. All easements and IODs described above shall be recorded before the recordation of any Large Lot Final Map, but no later than 180 days after annexation of the Specific Plan area to City. A survey map exhibit of the easements will accompany the descriptions and plats and shall be recorded as a supplemental exhibit(s). Backbone Lands will be dedicated to the City as set forth above. Upon the satisfactory completion of the public improvements, and in the case of flood control improvements within the open space areas, the successful completion of the Establishment Period success criteria, the City will accept the dedication. Where the City approves a tentative map or development project that allows for the construction of utility lines absent the completion of roadways overlaying such infrastructure, the City shall accept that portion of the IOD, as described above, for the public utility easements acceptance of the utility lines, but prior to completion of upon roadways overlaying such infrastructure. As the Participating Landowners construct the Backbone Infrastructure associated within their phase or sub-phase of development they will: A) Assume full responsibility to manage the affairs of that portion of the Backbone Infrastructure and the execution of the Backbone Infrastructure 404 Permit(s) (as herein defined). B) Mitigate the impacts of all wetland fills for applicable segment(s) of Backbone Infrastructure identified in the Backbone Infrastructure 404 permit(s). C) Prior to acceptance of all or any part of the Preserve Area by the City, the Participating Landowner(s) shall, through funds from the Public Services CFD as provided in Section 2.7.3, be solely responsible for Preserve Area maintenance and monitoring as further described in Section 2.7.4.
Department	Engineering Division
Status	Ongoing Obligation
Section	3.3
Title	Project Phasing
Obligation	Landowner shall develop and construct the infrastructure necessary to serve the Project in Phases A through D substantially consistent with the Phasing Plan. Infrastructure may be constructed in sub-phases as approved at the discretion of the City, in consultation with all affected City departments. The following criteria will be used to establish the conditions and requirements for that portion of work: • The progression of sub-phase development shall provide the necessary facilities to

Sierra Vista Specific Plan - Baseline P&R, LLC Development Agreement Implementation Matrix

	support the land uses within the proposed sub-phase of development. • The phase size shall be as mutually agreed upon by Landowner and City, subject to the criteria set forth in this Section 3.3. • Provide detailed information (maps, analysis, written detail of improvements, etc.), to the satisfaction of City, to support the proposed sub-phase improvements for each utility / public service within the phase. • Prior to the approval of development of any parcel, the cumulative effect of that increment of development shall be evaluated to determine its impact on existing systems. This may require, as determined by City, that special studies be conducted to demonstrate how the sub-phase is in substantial conformance with infrastructure master plans prepared for the Specific Plan. The sub-phase shall demonstrate to the City's satisfaction that the following performance criteria are met: • Sanitary Sewer -One point of connection required, which may include a sanitary sewer lift station or interim lift station. • Recycled Water -One point of connection required. A looped system is not required. Potable water may be utilized on an interim basis until such time as the Environmental Utilities Director makes a determination that potable water service can no longer be allowed. At that point in time the system shall be switched over to recycled water by eliminating each potable water charging station and connecting to the West Roseville Specific Plan recycled system, as described in Section 3.9 herein (Recycled Water Facilities). At the time that a water charging station is abandoned, a fire hydrant shall be installed to separate the potable water and recycled water systems. Five temporary potable water charging station connections to the recycled water system shall be allowed among the 4 phases A-D, with two temporary potable water charging station connections anticipated for Phase A. The connection of the recycled water pipe to the potable water pipe shall consist of one gate valve and one backflow prevention device between the connections. The charging stations may be relocated within a phase or to another phase and multiple sub-phases can share a single station. Recycled water pipe lines shall be constructed concurrent with roadways construction and paving within a phase or sub-phase. Additional temporary potable water charging station connections to the recycled water system may be utilized subject to the approval of the Environmental Utilities Director. • Potable Water -Two independent points of connection required. • Roadway -Two points of access required (one may be a temporary EVA) and reasonable traffic circulation. Landowner acknowledges that modifications to the Phasing Plan shall require additional City review. Special studies including but not limited to, water, recycled water, sewer, storm water systems, traffic, fire response, electric supply, and other environmental review may be required. The Landowner and/ or Participating Owners will be responsible for all costs associated with the preparation of special studies, and for the associated costs, of time and materials of City Staff for the review and processing of the requested deviation as deemed necessary by City.
Department	Environmental Utilities Department and Engineering Division
Status	Ongoing Obligation
Section	3.4

**Sierra Vista Specific Plan - Baseline P&R, LLC
Development Agreement Implementation Matrix**

Title	Public Utilities within Right of Way
Obligation	All public utilities shall be located within the rights-of-way to be granted by Landowner to City for the arterials, collectors and other local streets within the Property or within public easements granted by Landowner to City for such purposes. Upon approval of any final large lot subdivision map (or any phase of it), or demand of the City based upon service needs, whichever occurs first, Landowner agrees to grant an IOD to City for the rights-of-way, for any arterials, collectors, or public easements that include the area within which such public utilities will be located. If such utilities need to be installed prior to the construction of the applicable street(s), Landowner shall grant a temporary public utility easement which shall merge with the rights-of-way upon completion of the applicable street improvements. The width of the rights-of-way, including the area for the applicable roadways, utilities and power line corridors shall be as shown in the Specific Plan. Nothing in this Agreement shall be construed to limit or restrict the right of the City to require the dedication of an easement for utility, bus shelter, or power line corridor purposes related to development of any parcel when such requirement would be otherwise consistent with the reasonable exercise of the police powers of the City and is reasonably related to a requirement to serve the parcel or parcels adjacent to the easement.
Department	Environmental Utilities
Status	Improvement plans are being conditioned – Ongoing obligation
Section	3.11.8
Title	Electric Service for ESL Project
