INTRODUCTION

OBJECTIVES

The objective of this Water Conservation Plan (Plan) is to define the amount of water to be conserved by the design for the new Kaiser Permanente Riverside-Cirby Medical Office Building project (Project) as submitted for the Major Project Permit (MPP) review.

The Plan will:

- Describe the City of Roseville water requirements
- Identify and describe strategies that the project will use to reduce water consumption
- Develop an estimated water consumption for the project based on water conservation strategies planned for the project
- Compare property water use against City of Roseville requirements

PROJECT BACKGROUND

Kaiser Permanente Riverside-Cirby Medical Office Building is located at the southeast corner of Riverside Avenue and Cirby Way in Roseville, CA. Kaiser purchased the 14.5 acre parcel in the mid-1970s. The site remained 14.5 acres until 2009, at which time the city acquired 0.14 acres; current property area is 14.36 acres. The campus consists of a cluster of 4 one-story medical office buildings, 1 two-story medical office building and a one-story communications building surrounded by surface parking, internal roadways, and landscaped area. The buildings were constructed between 1979 and 1985. The current campus is underutilized from a building density perspective, and the wood constructed buildings are nearing the end of their useful life.

Figure 1. Project Location. The existing Kaiser Medical Office Building is located at the Southeast corner of Riverside Avenue and Cirby Way in Roseville, CA. Image credit: Google Earth

PROPOSED PROJECT

The proposed project is comprised of two buildings. The 16,000 SF single-story pavilion building would house the pharmacy, laboratory and conference space. The ground floor of the 194,000SF five-story medical office building would include retail and public functions such as a café, health education, and optical sales center, as well as Physical Therapy/Rehab and comprehensive diagnostic imaging. The clinic floors, levels 2-5, in the medical office building would hold medical offices and are projected to

include eight adult primary care clinics, specialty clinics for OB/GYN, Dermatology and Allergy, injection clinic, and comprehensive eye services including Ophthalmology, and Optometry. This new medical office building would double the capacity of the existing clinic to facilitate better member access.

Kaiser Permanente values environmental sustainability and has requirements in place to achieve a minimum of 30% domestic water savings reduction from EPACT 1992, and LEED Gold certification under the LEED NC v2009 rating system. The project is currently on track to meet both requirements.

CITY OF ROSEVILLE WATER REQUIREMENTS

Kaiser Permanente and HOK, the Architect of Record, met with Dave Samuelson of the City of Roseville Environmental Utilities Department on July 18, 2016 to review the City's requests, which are summarized here.

The City of Roseville (City) has identified a targeted floor area ratio (FAR) for the site of no more than 30%, which is associated with a specific allotment of water: 2,598 gallons per day per acre. The gross square footage for the Project currently exceeds the 30% FAR target. A higher FAR is allowable if the project is able to submit a water conservation plan demonstrating that the project does not use more than 2,598 gallons per day per acre.

Following the July 18, 2016 phone call, HOK and its consultants executed detailed calculations to estimate the property's water usage. These results are outlined in this report.

The City has additional water conservation requirements, including landscape irrigation. These are referenced in this report, particularly as they impact total estimated water use, but are fully documented elsewhere.

ESTIMATED WATER USE

HOK has developed an estimated water consumption for the proposed project area. There are two primary types of water use: irrigation and domestic water. Both water end uses are fed by municipal potable water as no reclaimed water system is currently available in this region. These estimated water demands are based on anticipated building and site usage and reflect a conservative approach to building occupancy, shown in Table 2. Estimated water usage does not account for potential system losses.

WATER CONSERVATION MEASURES

Both the building systems and the landscape and irrigation design incorporate water conservation measures. These fall into the following categories:

1. Low-water plant selection. The majority of the planted area – approximately 151,530 square feet – is classified as low water use. The remainder of the planted area – approximately 4,020 square feet – is classified as medium water use. For example, the project includes low water use plantings such as *Carex buchanaii*, *Lavandula angustifolia*, *Lupinus arboreus*, *Mimulus aurantiacus*, and *Salvia leucantha*, which all use relatively little water as compared with standard turf or other high-water use plantings.

2. High-efficiency irrigation systems. Planted areas are served primarily by a drip irrigation system with irrigation efficiency ratings of 0.81 as well as some spray head systems with irrigation efficiency ratings of 0.75. Irrigation controllers will have water moisture sensors and a “smart mode” that has the capacity to adjust the duration, frequency, and soak time by several factors. Weather Data combined with geographical location, sprinkler type, plant type, soil type, and a fine tuning option, enables the controller to make precise watering decisions.

High efficiency irrigation systems paired with low-water plant selection combined enable the landscape design Estimated Total Water Use (ETWU) to fall below the City’s Maximum Allowed Water Allowance (MAWA) based on the Water Efficient Landscape Worksheet.¹

3. Water-efficient plumbing equipment. The project will include low-water plumbing equipment with flush and flow rates significantly below the national standard set by the US Department of Energy’s Energy Policy Act (EPACT) 1992. EPACT 1992 represents the typical flush and flow rates of existing buildings constructed after 1992. Table 1 lists the project’s plumbing fixtures with their flush or flow rate as compared with the EPACT 1992 flush or flow rate. California Plumbing Code also requires reduced flush and flow rates for plumbing fixtures.

¹ “Water Efficient Landscape Worksheet”, City of Roseville, California Development Services – Planning Division

**Table 1. Plumbing Fixture Flush and Flow Rates**

Fixture type (unit of measure*)	EPACT 1992 flush/flow rate	MOB flush/flow rate	Percent Savings
Water closet (gpm)	1.6	1.28	20%
Urinal (gpf)	1	0.125	88%
Lavatory faucet (gpc)	0.25	0.1	60%
Break room faucet (gpm)	2.5	1.5	40%
Shower (gpm)	2.5	1.28	49%
Exam room sink (gpm)	0.25	0.1	60%
Janitor sink (gpm)	N/A	2.5	N/A
Utility sink (gpm)	N/A	2.5	N/A

* Units of measure: gpm = gallons per minute; gpf = gallons per flush; gpc = gallons per cycle (for metered faucets)

4. Water-efficient or water-free medical equipment. Medical equipment can utilize very high volumes of potable water. Imaging equipment historically required large volumes of water for film processing; these systems have largely been replaced by digital equipment. In addition, the Project does not include the following high water use equipment types: sterilizers, central vacuum system, once through water-cooled equipment.

5. Water-free cooling equipment. The California Energy Code requires a high level of energy efficiency. The standard “baseline” system for buildings over 150,000 square feet includes a water cooled chiller system for cooling loads. Although water cooled chillers are relatively energy efficient, they use large volumes of water. The design team has replaced this system with an alternative approach that still achieves the required energy efficiency for both California Energy Code and the LEED Rating System, but saves on the order of magnitude of 400,000 gallons of water per year as compared with a water cooled chiller system.

WATER USAGE CALCULATIONS

Irrigation water usage is calculated based on methods required by the City’s “Water Efficient Landscape Worksheet”. {Reference Appendix A.} Irrigation water use is estimated to be 1,942,825 gallons per year (5,323 gallons per day).

Very little makeup water is required for the HVAC systems – estimated to be less than one gallon per day in total – and therefore does not impact these calculations.

Domestic water usage is calculated based on methods defined by the LEED for New Construction v2009 Rating System (LEED) and the associated LEED Reference Guide. LEED calculations specify standardized assumptions for the number of times individuals use different types of plumbing fixtures over the course of the day. These numbers vary based on whether or not the building occupant is staff, a visitor (typically patients and their guests) or “retail” visitors. Retail users include those individuals who are only coming for a brief visit, e.g. to the pharmacy or lab, and are not also visiting another function within the building. Because retail visitors spend less time at the facility than other visitors, it is assumed that they use the restroom less often during the course of their visit.

Kaiser provided detailed occupancy numbers for staff, visitors, and retail visitors. Staff numbers are provided as Full Time Equivalents (FTEs). For the purposes of these calculations, it is assumed that this is the total number of staff in the building each day. This is a conservative estimate, as fewer staff will be present on some days and/or some staff will not spend the full day in the building. Occupancy numbers for visitors and transient visitors are estimates based on anticipated building usage, broken down by

different functions. When estimates are required, relatively conservative (high) occupancy numbers are used. {Reference Table 2. Estimated Building Occupancy.} Most building functions are planned to be used 6 days per week, though some are less frequent. For the purposes of these calculations, all spaces are considered to be in use every day.

Table 2. Estimated Building Occupancy

Occupant Type	Average # per day
Staff (Full Time Equivalents)	426
Visitors (Patients + Guests)	8622
Retail Visitors	430

Each building occupant is anticipated to use plumbing fixtures for personal needs, such as restrooms and drinking fountains. The US Green Building Council provides estimated daily plumbing fixture use numbers for each different type of building occupant, as shown in Table 3.

Table 3. Plumbing Fixture Usage for Personal Use²

Fixture type	Uses per Day per Occupant Type		
	Staff (FTE)	Visitor	Retail Visitor
Water Closet (1)	3	0.5	0.2
Water Closet (2)	1	0.1	0.1
Urinal (2)	2	0.4	0.1
Lavatory Faucet	3	0.5	0.2
Shower	0.1	0	0
Kitchen Sink	1	0	0
Drinking Fountain (3)	12 oz	4 oz	2 oz

Notes:

(1) Usage for women and men who are using restrooms without urinals

(2) Usage for men using restrooms with urinals

(3) Drinking fountain estimates are an approximated total average volume per day and are not sourced from the LEED Reference Guide

The following equation is used to determine total water use for flow fixtures that are primarily for personal use, such as lavatories, break room sinks, and showers:

$$\begin{aligned}
 & (\text{Flow Rate} * \text{Duration of Flow per Use} * \text{Staff Uses per Person per Day} * \# \text{ of Staff per Day}) + \\
 & (\text{Flow Rate} * \text{Duration of Flow per Use} * \text{Visitor Uses per Person per Day} * \# \text{ of Visitors per Day}) + \\
 & (\text{Flow Rate} * \text{Duration of Flow per Use} * \text{Retail Uses per Person per Day} * \# \text{ of Retail Visits per Day}) = \\
 & \text{Total Water Use per Day for a Flow Fixture}
 \end{aligned}$$

For example, this the following equation is used for Lavatories. Lavatories are the only flow fixture that all building occupants use; visitors and retail visitors do not use showers or break room sinks.

$$\begin{aligned}
 & (0.5 \text{ gpm} * 0.2 \text{ minutes} * 3 \text{ staff uses/day} * 426 \text{ FTE}) + \\
 & (0.5 \text{ gpm} * 0.2 \text{ minutes} * 0.5 \text{ staff uses/day} * 8622 \text{ visitors}) + \\
 & (0.5 \text{ gpm} * 0.2 \text{ minutes} * 0.2 \text{ staff uses/day} * 430 \text{ retail visitors}) = \\
 & 1012 \text{ gallons per day}
 \end{aligned}$$

² LEED Reference Guide for Green Building Design and Construction, 2009 Edition

The following equation is used to determine total water use for flush fixtures that are primarily for personal use, such as toilets and urinals:

$$\begin{aligned} & (\text{Flush Rate} * \text{Staff Uses per Person per Day} * \text{Number of Staff per Day}) + \\ & (\text{Flush Rate} * \text{Visitor Uses per Person per Day} * \text{Number of Visitors per Day}) + \\ & (\text{Flush Rate} * \text{Retail Visitor Uses per Person per Day} * \text{Number of Retail Visitors per Day}) = \\ & \text{Total Water Use per Day for a Flush Fixture} \end{aligned}$$

The use of urinals can have a significant impact on water efficiency. Urinals require 0.125 gallons per flush, while water closets require 1.28 gallons per flush. The Project restrooms provide urinals in the large public restrooms that are centralized on each floor, which allow for additional savings beyond a typical unisex restroom. Some men are anticipated to use restrooms with urinals while some are not; see Notes 1 and 2 in Table 3 above. Table 4 describes the estimated percentages and numbers of men who use restrooms with urinals as compared with those who use restrooms with only water closets. The percentages are based on estimated use patterns and locations within the building that the occupants have access to. For example, it is anticipated that all male pharmacy visitors (retail visitors) use public restrooms with urinals because there are no unisex restrooms open to the public in the building that holds the pharmacy.

Table 4. Use of Restrooms With and Without Urinals

Occupant Type	Total Number of Men	% of Men Using Urinal Restrooms	# of Men Using Urinal Restrooms	# of Men Using WC-Only Restrooms
Staff	213	10%	21	192
Visitors	4311	30%	1,293	3,018
Retail Visitors	215	80%	172	43

In addition to personal use of plumbing fixtures, it is estimated that exam room sinks are used once per patient visit; each janitor sink is used once per day for 2 minutes; each utility or clinical sink is used five times per day for 15 seconds; and the café sinks are used 80 times per day for 15 seconds.

The following equation is used for exam room sinks:

$$\begin{aligned} & \text{Exam Room Sink Faucet Flow Rate} * \text{Duration of Flow per Use} * \text{Number of Exam Rooms} * \\ & \text{Patient Visits per Exam Room per Day} = \\ & \text{Total Water Use per Day for Exam Room Sinks} \end{aligned}$$

$$0.5 \text{ gpm} * 0.2 \text{ minutes} * 294 \text{ exam rooms} * 22 \text{ visits/day} = 647 \text{ gallons/day}$$

The following equation is used for janitor sinks:

$$\begin{aligned} & \text{Janitor Faucet Flow Rate} * \text{Duration of Use} * \text{Number of Uses per Day} * \text{Number of Janitor Sinks} = \\ & \text{Total Water Use per Day for Janitor Sinks} \end{aligned}$$

$$2.5 \text{ gpm} * 2 \text{ minutes} * 1 \text{ use} * 11 \text{ sinks} = 55 \text{ gallons/day}$$

The following equation is used for utility sinks:

$$\begin{aligned} & \text{Utility Sink Faucet Flow Rate} * \text{Duration of Use} * \text{Number of Uses per Day} * \text{Number of Utility Sinks} = \\ & \text{Total Water Use per Day for Utility Sinks} \end{aligned}$$

$$2.5 \text{ gpm} * 0.25 \text{ minutes} * 5 \text{ uses} * 93 \text{ sinks} = 291 \text{ gallons/day}$$

The following equation is used for the café sink:

Café Sink Faucet Flow Rate * Duration of Use * Number of Uses per Day * Number of Café Sinks =
Total Water Use per Day for the Café Sink

$$2.5 \text{ gpm} * 0.25 \text{ minutes} * 80 \text{ uses} * 3 \text{ sinks} = 150 \text{ gallons/day}$$

Table 5 lists the total domestic water use per day for each plumbing fixture type, based on the number of building occupants, the number of plumbing fixtures, the frequency of plumbing fixture usage, and the flush and flow rates.

Table 5. Total Domestic Water Use per Day

Fixture Type	Gallons/Day
Water Closets	12,893
Urinals	72
Lavatories	1,012
Showers	204
Exam Room Sinks	647
Break Room Sinks	639
Café Sink	150
Janitor Sinks	55
Utility Sinks	291
Drinking Fountain	316
Total	16,278

The combination of domestic water use and irrigation water use totals 21,601 gallons per day, as shown in Table 6. Based on the site area of 14.36 acres, the Project uses 1,504 gallons per acre per day.

$$\text{Water Use per Day (gallons)} / \text{Project Acreage} = \text{Water Use per Day (gallons per acre per day)}$$

$$21,601 \text{ gallons/day} / 14.36 \text{ acres} = 1,504 \text{ gallons/acre/day}$$

Table 6. Total Daily Water Use

Irrigation Water Use (Gallons)	5,323
Domestic Water Use (Gallons)	16,278
Total Daily Water Use (Gallons)	21,601
Total Daily Water Use (Gallons per Acre per Day)	1,504

SUMMARY

Five water conservation measures are in place in the Kaiser Permanente Riverside-Cirby Medical Office Building project. These include low water use plant selection; high efficiency irrigation systems; water-efficient plumbing equipment; water-efficient or water-free medical equipment; and water-free HVAC equipment. The Project is estimated to use 1,504 gallons per acre per day, which represents a savings of 42% below the City requirement of 2,598 gallons per acre per day. This estimated water use represents the total of irrigation water and domestic water. The irrigation water was calculated based on the City's requirements. The domestic water was calculated based on detailed estimates of daily building usage. Based on this analysis, the Project's water use will fall within the City's water allotment.

APPENDIX A WATER EFFICIENT LANDSCAPE ORDINANCE - LANDSCAPE WORKSHEET

WATER USE CALCULATIONS

Maximum Applied Water Allowance (MAWA)

Formula: MAWA = (Eto)(.62)/[(.45 x LA)+(1-0.45) x SLA]									
Reference Annual Eto (in./year) = 52.2									
MAWA = 52.2 X 0.62 X [(0.45 X LA) + ((1-0.45) X SLA)]									
MAWA = 52.2 X 0.62 X 69.996 + 0									
MAWA = 2,267,135 Gallons

Ms. Lauren Hocker
City of Roseville
311 Vernon Street
Roseville, CA 95678

Kaiser Riverside Cirby Medical Office Building

Dear Ms. Lauren Hocker:

Thank you for including the California Department of Transportation (Caltrans) in the environmental/application review process for the project referenced above. The mission of Caltrans is to provide a safe, sustainable, integrated and efficient transportation system to enhance California's economy and livability. The Local Development-Intergovernmental Review (LD-IGR) Program reviews land use projects and plans through the lenses of our mission and state planning priorities of infill, conservation, and travel-efficient development. To ensure a safe and efficient transportation system, we encourage early consultation and coordination with local jurisdictions and project proponents on all development projects that utilize the multimodal transportation network.

The project proposes to demolish six existing 1-2 story buildings consisting of 90,290 sqft, and construct two new-multi story buildings that would consist of a combined 207,700 sqft of office space on the existing approximately 14 acre Kaiser campus in Roseville at 1001 Riverside Avenue, adjacent to Interstate 80 (I-80). The following comments are based on the Draft Environmental Impact Report received.

Vehicle Miles Travelled (VMT)

In response to the provisions of Senate Bill 743, we encourage the integration of transportation and land use in a way that reduces VMT and Greenhouse Gas (GHG) emissions by facilitating the provision of more proximate goods and services to shorten trip lengths, as well as achieve a high level of non-motorized travel and transit use. As such, we encourage the evaluation of the potential of Transportation Demand Management (TDM) strategies and Intelligent Transportation System (ITS) applications in order to better manage the transportation network, as well as transit service and bicycle or pedestrian connectivity improvements. The Department also seeks to reduce serious injuries and fatalities, as well as provide equitable mobility options for people who

*"Provide a safe, sustainable, integrated, and efficient transportation
system to enhance California's economy and livability"*

are economically, socially, or physically disadvantaged. Therefore, we encourage the evaluation of the project site for access problems, VMT, and service needs that may need to be addressed.

Traffic Operations

Fehr and Peers traffic consultants conducted a traffic study to determine if the project would result in significant impacts to State and local facilities within the vicinity of the project.

- 1) Regarding State facilities, mainline I-80 from Riverside Avenue to Antelope Road was analyzed, as per Caltrans' request, as well as the Riverside Ave./I-80 WB ramps and the Riverside Ave./I-80 EB ramps/Orlando Ave. intersections. The study resulted in no significant impacts to the above mentioned State facilities due to the Kaiser project during peak hours for existing plus project conditions.
- 2) For cumulative plus project conditions, the WB right turn movement will result in a 700' queue, while the queue storage for that movement is 325'. The project proponent should be conditioned to pay fair share contribution toward necessary future improvements to this off-ramp.
- 3) As per the traffic study, the project will not result in impacts to existing and planned transit, bicycle and pedestrian facilities.

Hydraulics

The redevelopment of this site may increase impervious surface area through the construction of roads, driveways, parking lots, buildings, etc. with a corresponding increase in surface water runoff. This project may decrease surface water detention, retention and infiltration. No net increase to 100-year storm event peak discharge may be realized within the State's highway right of way and/or Caltrans drainage facilities as a result of the project. Any cumulative impacts to Caltrans drainage facilities arising from effects of development on surface water runoff discharge from the 100-year storm event should be minimized through project drainage mitigation measures.

Increases in peak runoff discharge for the 100-year storm event to the State's highway right of way and to Caltrans' highway drainage facilities must be reduced to at or below the preconstruction levels. The cumulative effects on drainage due to development within the region should be considered in the overall development plan of this area.

All grading and/or drainage improvements must maintain or improve existing drainage pathways and may not result in adverse hydrologic or hydraulic conditions within the State's highway right of way or to Caltrans drainage facilities. The developer must maintain or improve existing

Ms. Lauren Hocker, City of Roseville
April 13, 2017
Page 3

drainage patterns and/or facilities affected by the proposed project to the satisfaction of the State and Caltrans. This may be accomplished through the implementation of storm water management Best Management Practices (i.e., detention/retention ponds or basins, sub-surface galleries, on-site storage and/or infiltration ditches, etc.). Once installed, the property owner must properly maintain these systems. The proponent/developer may be held liable for future damages due to impacts for which adequate mitigation was not undertaken or sustained.

Runoff from the proposed project that will enter the State's highway right of way and/or Caltrans drainage facilities must meet all regional water quality control board water quality standards prior to entering the State's highway right of way or Caltrans drainage facilities. Appropriate storm water quality Best Management Practices may be applied to ensure that runoff from the site meets these standards (i.e., is free of oils, greases, metals, sands, sediment, etc.). Once installed, the property owner must properly maintain these systems in perpetuity.

Please provide our office with copies of any further actions regarding this project. We would appreciate the opportunity to review and comment on any changes related to this development.

If you have any question regarding these comments or require additional information, please contact David Smith, Intergovernmental Review Coordinator for Placer County, by phone (530) 634-7799 or via email to david.j.smith@dot.ca.gov.

Sincerely,

KEVIN YOUNT, Branch Chief
Office of Transportation Planning
Regional Planning Branch—North

CEQA FINDINGS OF FACT

and

**STATEMENT OF OVERRIDING
CONSIDERATIONS**

**OF THE CITY COUNCIL OF
THE CITY OF ROSEVILLE**

for the

**KAISER RIVERSIDE AND CIRBY MEDICAL OFFICE
BUILDING**

June 21, 2017

1. INTRODUCTION

The Environmental Impact Report (EIR) prepared for the Kaiser Riverside and Cirby Medical Office Building (Project) addresses the potential environmental effects associated with constructing and operating the Project. These findings have been prepared to comply with requirements of the California Environmental Quality Act (CEQA) (Pub. Resources Code, §21000 et seq.) and the CEQA Guidelines (Cal. Code Regs., tit. 14, §15000 et seq.). These findings refer to the Notice of Preparation (NOP) or Final EIR (FEIR) where the material appears in either of those documents. Otherwise, references are to the Draft EIR (DEIR).

CEQA generally requires that a lead agency must take reasonable efforts to mitigate or avoid significant environmental impacts when approving a project. In order to effectively evaluate any potentially significant environmental impacts of a proposed project, an EIR must be prepared. The EIR is an informational document that serves to inform the agency decision-making body and the public in general of any potentially significant environmental impacts. The preparation of an EIR also serves as a medium for identifying possible methods of minimizing any significant effects and assessing and describing a reasonable range of potentially feasible alternatives to the project.

The EIR for this Project was prepared by the City of Roseville (City) as the “lead agency” in accordance with CEQA and has been prepared to identify and assess the anticipated effects of the Project. The City, as the lead agency, has the principal responsibility for approval of the Project.

II. TERMINOLOGY OF FINDINGS

CEQA and the CEQA Guidelines require that, for each significant environmental effect identified in an EIR for a proposed project, the approving agency decision-making body must issue a written finding reaching one or more of the three allowable conclusions:

1. Changes or alterations which avoid or mitigate the significant environmental effects as identified in the EIR have been required or incorporated into the project;
2. Such changes or alterations are within the responsibility and jurisdiction of another public agency and not the agency making the finding, and such changes have been adopted by such other agency or can and should be adopted by such other agency; or
3. Specific economic, legal, social, technological, or other considerations, including consideration for the provision of employment opportunities for highly trained workers, make infeasible the mitigation measures or project alternatives identified in the DEIR.

(Pub. Resources Code, § 21081, subds. (a)(1)–(a)(3); see also CEQA Guidelines, §15091, subds. (a)(1)–(a)(3).)

For purposes of these findings, the terms listed below will have the following definitions:

- “Mitigation measures” shall constitute the “changes or alterations” discussed above.
- “Avoid” refers to the effectiveness of one or more mitigation measures to reduce an otherwise significant effect to a less than significant level.
- “Feasible,” pursuant to the CEQA Guidelines, means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, legal, social, and technological factors.

III. DEFINITIONS AND ACRONYMS

Unless otherwise stated herein, these findings use the same definitions and acronyms set forth in the EIR.

IV. PROJECT DESCRIPTION

A. PROJECT OVERVIEW

Kaiser Permanente proposes to replace the existing medical office complex on the site and construct an approximately 194,000-square-foot, five-story medical office building, along with a one-story, 21-foot-tall, 16,000-square-foot pavilion building and related site improvements, including an approximately 11-foot tall, 82,630-square-foot parking deck with 255 parking spaces, surface parking lot with 803 spaces, site/building lighting, and landscaping.

B. THE PROJECT

The Project has been designed to be consistent with the City’s Community Design Guidelines (City of Roseville 2008) and to ensure compatibility with the surrounding development. Of the two proposed medical buildings, the single-story pavilion building would house pharmacy, laboratory, and conference space. The five-story medical office building would include retail and public functions including a café, health education, and optical center, as well as physical therapy/rehab and comprehensive diagnostic imaging on the ground floor. The clinic floors in the medical office building (floors 2 through 5) would include eight adult primary care clinics, specialty clinics for obstetrics and gynecology, dermatology and allergy, injection clinic, and comprehensive eye services including ophthalmology and optometry. This new medical office building would result in double the capacity of the existing clinics, to facilitate better member access.

Building Design

The exterior of the five-story medical office building would consist of a mix of metal panels, light-weight concrete panels, glass curtainwall, glazed storefronts and concrete masonry units. The highest point of the medical office building would be approximately 80 feet. The one-story pavilion building would use the same exterior materials as the medical office building for design cohesiveness. The highest point of the pavilion building would be approximately 20 feet, with limited additional height for a screened mechanical enclosure at the roof level. These two buildings have been situated in a way that allows a single entry canopy feature to tie the two buildings together.

Exterior colors for the five-story medical office building and one-story pavilion building would include a sandy beige color for the concrete panels with varying degrees of exposed gray aggregate. The insulated metal panel colors would be silver and weathered zinc arranged in a pattern that provides a contrast to the beige concrete panels. The majority of the north, east and west elevations consist of pewter colored mullions, clear vision glass and light-gray colored spandrel glass. The base of the building is designed to have chocolate brown concrete masonry units with a shiplap profile for added visual interest.

The two-level concrete parking deck at the southwest corner of the project site would take advantage of the existing topography between the medical office building and adjacent freeway, allowing the top level of the deck to be at grade and the lower level to be partially underground. The total height above ground would be 10-feet, 10-inches tall. Exposed concrete facades of the parking deck would be gray-colored with a green screen mesh attached to the exposed surfaces for climbing vines.

Lighting and Landscaping

To provide for the safety and security of staff and the public, the Project includes overhead parking lot and roadway pole lights, low-level lighting on bollards to illuminate landscaped areas and sidewalks, and building-mounted lighting at entrances.

Light fixtures use premium-efficiency LED light sources. Area lighting will automatically turn off during the day, and motion-activated controls are provided to dim the lighting at night when there is no activity. Lighting is designed to meet the City's Community Design Guidelines and minimize light trespass, reduce sky-glow to increase night sky access, and improve nighttime visibility through glare reduction.

Landscaping would use native plants and be drought resistant where feasible, and complies with the City's Water Efficient Landscape Ordinance.

Sustainability Features

The Project has been designed to meet Kaiser Permanente's sustainability requirements, which include achieving LEED New Construction 2009 Gold certification and specific energy efficiency thresholds. The Energy Performance Requirement includes a minimum of 25% energy savings compared against ASHRAE 90.1 2007 Baseline. The Project must also comply with the California Energy Code, Title 24.

C. PROJECT SITE

The approximately 14-acre project site is located to the southeast of the intersection of Riverside Avenue and Cirby Way in the City of Roseville. Interstate 80 (I-80) borders the south and east sides of the site. Currently the project site is developed with six buildings that comprise the Kaiser Permanente medical office complex located at 1001 Riverside Avenue, along with 613 surface parking spaces and landscaping. The existing medical office complex includes four one-story medical office buildings, one two-story medical office building, and a one-story communications building for a total of 90,209 square feet. The project site is identified as assessor's parcel number 472-260-026-000.

D. EXISTING LAND USE DESIGNATIONS AND ZONING

The Roseville General Plan 2035 designates the project site for Community Commercial (CC). The CC designation applies to sites with acreages ranging from 5 to 25 acres and with square footage ranging from 50,000 to 250,000 square feet. Floor area ratios for this designation range from 20% to 40%. The project site is zoned Business Professional (BP), which permits professional offices and General Medical services.

E. ADJACENT USES

Surrounding uses adjacent to the site include a mix of retail uses, apartments, and public storage to the north and west. Interstate-80 borders the site on the south and east.

F. PROJECT OBJECTIVES

The following project objectives were developed for the Project.

- Develop a replacement outpatient medical office building that includes a café, health education, optical center, physical therapy/rehab, comprehensive diagnostic imaging, eight adult primary care clinics, specialty clinics for obstetrics and gynecology, dermatology and allergy, injection clinic, and comprehensive eye services including ophthalmology and optometry on an underutilized property with multiple end-of-life

structures to accommodate existing and growing demand for medical care in the Roseville community.

- Provide high-quality healthcare to serve up to 9,000 Kaiser Permanente members (and their family or care-givers) per day in a medical facility for those needing medical assistance in Roseville and surrounding communities.
- Provide convenient access and reduce vehicle trips for Kaiser Permanente members to obtain routine, rapid-transaction medical services (e.g., pharmacy and laboratory) and provide onsite conference facilities for classes, training and other events.
- Achieve Leadership in Energy and Environmental Design (LEED) Gold Certification as well as implement Kaiser's existing sustainable building strategies.
- Provide uninterrupted services to Kaiser Permanente members throughout the construction period by staging project construction in phases.
- Provide new employment opportunities for over 200 new employees at the Riverside-Cirby medical office buildings and temporary construction jobs through redevelopment.

G. PROJECT CONSTRUCTION

Construction Timeline

Construction is anticipated to take approximately 3 years to complete and would occur in multiple phases. Phasing is required in order for the existing medical office buildings to remain open with sufficient parking capacity and public access during construction. For the entire duration of project construction, valet parking will be provided to patients and visitors, and staff will be shuttled to the site from off-site parking locations.

H. REQUIRED DISCRETIONARY ACTIONS

The City of Roseville is the lead agency for the Project. As required by Section 15124(d)(1)(B) of the CEQA Guidelines, the EIR must contain a list of permits and other approvals required to implement the Project. The project requires the following approvals:

- Certification of the EIR, adoption of the Mitigation Monitoring and Reporting Plan (MMRP), and adoption of these Findings of Fact and Statement of Overriding Considerations;
- Major Project Permit – Stage 1 (Preliminary Development Plan);
- Major Project Permit – Stage 2 (Architecture and Landscape Review);
- Tree Permit to remove a protected native oak tree; and

- General Plan Amendment for minor, text-only changes to the Circulation Element.¹ The project is requesting to amend Table III-3 and III-3A in the General Plan to add the new traffic signal at the Cirby Way/Cirby Hills Drive/Kaiser North Driveway. The project also includes amendments to the Setting section of the Level of Service portion of the General Plan Circulation Element to reflect the new intersection.

These discretionary actions are within the province of the City Council.

V. ENVIRONMENTAL REVIEW PROCESS

In accordance with CEQA, the City released a Notice of Preparation (NOP) on June 7, 2016 for a 30-day review that closed on July 6, 2016. The purpose of the NOP was to provide notification that an EIR for the Project was being prepared and to solicit guidance on the scope and content of the document. The Draft EIR was circulated for public review and comment for a period of 45 days from March 9, 2017 through April 24, 2017. This period satisfied the requirement for the public review period as set forth in Public Resources Code Section 21091(a) and CEQA Guidelines Section 15105.

A list of public agencies and individuals commenting on the DEIR is included in Chapter 3 in the FEIR. A total of three comment letters were received.

On June 9, 2017, the City published the FEIR for the Project. The FEIR includes comments received on the DEIR and responses to issues raised in the comments. No revisions to the text of the DEIR were required. The FEIR and the DEIR constitute the EIR for the Project.

VI. RECORD OF PROCEEDINGS

For the purposes of CEQA, and the findings herein set forth, the administrative record for the Project consists of those items listed in Public Resources Code Section 21167.6, subdivision (e). The record of proceedings for the City's decision on the Project consists of the following documents, at a minimum:

- The NOP and all other public notices issued by the City in conjunction with the Project;
- The DEIR for the Project and all documents relied upon or incorporated by reference;
- All comments submitted by agencies or members of the public during the 45-day comment period on the DEIR;

¹ The project includes a new traffic signal on Cirby Way, which will operate worse than the City's standard of Level of Service C. General Plan Circulation Element Level of Service Policy 1 requires the City Council approve all intersections operating below this level, and the Circulation Element includes tables and text listing all such intersections. Thus, the project requires amending the Circulation Element to include this new intersection.

- The FEIR for the Project, including comments received on the DEIR; the City's responses to those comments; technical appendices; and all documents relied upon or incorporated by reference;
- The mitigation monitoring and reporting program (MMRP) for the Project;
- All findings and resolutions adopted by the City in connection with the Project, and all documents cited or referred to therein;
- The Planning Commission staff report;
- Minutes and/or transcripts of the Planning Commission public hearing held on April 27, 2017;
- The City Council staff report;
- Minutes and/or transcripts of the City Council public hearing held on June 21, 2017;
- All other reports, studies, memoranda, maps, staff reports, or other planning documents relating to the Project prepared by the City or consultants to the City with respect to the City's compliance with the requirements of CEQA and with respect to the City's action on the Project;
- All resolutions or findings adopted by the City regarding the Project, and all staff reports, analyses, and summaries related to the adoption of those resolutions or findings;
- The City's General Plan and all updates and related environmental analyses;
- Relevant sections of the City's Zoning Code;
- Any documents expressly cited in these findings, in addition to those cited above; and
- Any other materials required for the record of proceedings by Public Resources Code Section 21167.6, subdivision (e).

Pursuant to Guidelines Section 15091(e), the administrative record of these proceedings is located at, and may be obtained from, the City's Development Services Department at 311 Vernon Street, Roseville, CA 95678. The custodian of these documents and other materials is the City Clerk.

The City Council has relied on all of the documents listed above in reaching its decisions on the Project even if not every document was formally presented to the City Council or City Staff as part of the City files generated in connection with the Project. Without exception, any documents set forth above not found in the Project files fall into one of two categories. Many of them reflect prior planning or legislative decisions with which the City Council was aware in approving the Project. (See *City of Santa Cruz v. Local Agency Formation Commission* (1978) 76 Cal.App.3d 381, 391-392; *Dominey v. Department of Personnel Administration* (1988) 205 Cal.App.3d 729,

738, fn. 6.) Other documents influenced the expert advice provided to City Staff or consultants, who then provided advice to the City Council as the final decision-making body.

For that reason, such documents form part of the underlying factual basis for the City Council's decisions relating to approval of the Project. (See Pub. Resources Code, § 21167.6, subd. (e)(10); *Browning-Ferris Industries v. City Council of City of San Jose* (1986) 181 Cal.App.3d 852, 866; *Stanislaus Audubon Society, Inc. v. County of Stanislaus* (1995) 33 Cal.App.4th 144, 153, 155.)

VII. FINDINGS REQUIRED UNDER CEQA

Public Resources Code Section 21002 provides that “public agencies should not approve projects as proposed if there are feasible alternatives or feasible mitigation measures available which would substantially lessen the significant environmental effects of such projects[.]” The same statute provides that the procedures required by CEQA “are intended to assist public agencies in systematically identifying both the significant effects of projects and the feasible alternatives or feasible mitigation measures which will avoid or substantially lessen such significant effects.” Section 21002 goes on to provide that “in the event [that] specific economic, social, or other conditions make infeasible such project alternatives or such mitigation measures, individual projects may be approved in spite of one or more significant effects thereof.”

The mandate and principles announced in Public Resources Code Section 21002 are implemented, in part, through the requirement that agencies must adopt findings before approving projects for which EIRs are required. For each significant environmental effect identified in an EIR for a project, the approving agency must issue a written finding reaching one or more of three permissible conclusions. As noted earlier, the first such finding is that changes or alterations have been required in, or incorporated into, the project which avoid or substantially lessen the significant environmental effect as identified in the FEIR. The second permissible finding is that such changes or alterations are within the responsibility and jurisdiction of another public agency and not the agency making the finding, and such changes have been adopted by such other agency or can and should be adopted by such other agency. The third potential conclusion is that specific economic, legal, social, technological, or other considerations, including provision of employment opportunities for highly trained workers, make infeasible the mitigation measures or project alternatives identified in the FEIR. (CEQA Guidelines, §15091.) Public Resources Code Section 21061.1 defines “feasible” to mean “capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, legal, and technological factors.” CEQA Guidelines section 15364 adds another factor: “legal” considerations. (See also *Citizens of Goleta Valley v. Bd. of Supervisors* (1990) 52 Cal.3d 553, 565 (“*Goleta II*”).)

The concept of “feasibility” also encompasses the question of whether a particular alternative or mitigation measure promotes the underlying goals and objectives of a project. (*City of Del Mar*

v. *City of San Diego* (1982) 133 Cal.App.3d 410, 417 (*City of Del Mar*); (*Sierra Club v. County of Napa* (2004) 121 Cal.App.4th 1490, 1506-1509 [court upholds CEQA findings rejecting alternatives in reliance on applicant's project objectives]; see also *California Native Plant Society v. City of Santa Cruz* (2009) 177 Cal.App.4th 957, 1001 (*CNPS*) ["an alternative 'may be found infeasible on the ground it is inconsistent with the project objectives as long as the finding is supported by substantial evidence in the record'"] (quoting Kostka & Zischke, *Practice Under the Cal. Environmental Quality Act* [Cont.Ed.Bar 2d ed. 2009] (*Kostka*), § 17.309, p. 825); *In re Bay-Delta Programmatic Environmental Impact Report Coordinated Proceedings* (2008) 43 Cal.4th 1143, 1165, 1166 (*Bay-Delta*) ["[i]n the CALFED program, feasibility is strongly linked to achievement of each of the primary program objectives"; "a lead agency may structure its EIR alternative analysis around a reasonable definition of underlying purpose and need not study alternatives that cannot achieve that basic goal"].) Moreover, "'feasibility' under CEQA encompasses 'desirability' to the extent that desirability is based on a reasonable balancing of the relevant economic, environmental, social, legal, and technological factors." (*City of Del Mar, supra*, 133 Cal.App.3d at p. 417; see also *CNPS, supra*, 177 Cal.App.4th at p. 1001 ["an alternative that 'is impractical or undesirable from a policy standpoint' may be rejected as infeasible"] [quoting *Kostka, supra*, § 17.29, p. 824]; *San Diego Citizenry Group v. County of San Diego* (2013) 219 Cal.App.4th 1, 17.)

For purposes of these findings (including Table A as described below), the term "avoid" refers to the effectiveness of one or more mitigation measures to reduce an otherwise significant effect to a less-than-significant level. Although CEQA Guidelines Section 15091 requires only that approving agencies specify that a particular significant effect is "avoid[ed] or substantially lessen[ed]," these findings, for purposes of clarity, in each case will specify whether or not the effect in question has been "avoided" (i.e., reduced to a less-than-significant level).

CEQA requires that the lead agency adopt mitigation measures or alternatives, where feasible, to substantially lessen or avoid significant environmental impacts that would otherwise occur. Project modification or alternatives are not required, however, where such changes are infeasible or where the responsibility for modifying the project lies with some other agency. (CEQA Guidelines, §15091, subd. (a), (b).)

The California Supreme Court has stated, "[t]he wisdom of approving . . . any development project, a delicate task which requires a balancing of interests, is necessarily left to the sound discretion of the local officials and their constituents who are responsible for such decisions. The law as we interpret and apply it simply requires that those decisions be informed, and therefore balanced." (*Goleta II, supra*, 52 Cal.3d at p. 576.)

The EIR for the Project identified one cumulative traffic impact as significant and unavoidable resulting from the Project, and thus a Statement of Overriding Considerations was prepared.

VIII. LEGAL EFFECT OF FINDINGS

These findings constitute the City's best efforts to set forth the evidentiary and policy bases for its decision to approve the Project in a manner consistent with the requirements of CEQA. To the extent that these findings conclude that various mitigation measures outlined in the FEIR are feasible and have not been modified, superseded or withdrawn, the City hereby binds itself to implement these measures. These findings, in other words, are not merely informational, but rather constitute a binding set of obligations that will come into effect when the City adopts a resolution approving the Project.

IX. MITIGATION MONITORING AND REPORTING PROGRAM

A Mitigation Monitoring and Reporting Program (MMRP) has been prepared for the Project, and is being approved by the City Council by the same Resolution that has adopted these findings. The City will use the MMRP to track compliance with Project mitigation measures. The MMRP will remain available for public review during the compliance period. The Final MMRP is found in Chapter 4 of the FEIR and is approved in conjunction with certification of the EIR and adoption of these Findings of Fact.

X. SIGNIFICANT EFFECTS AND MITIGATION MEASURES

Table of Impacts, Mitigation Measures and CEQA Findings

The City Council's findings with respect to the Project's significant effects and mitigation measures are set forth in the table attached to these findings ("Table A"). The findings set forth in the table are hereby incorporated by reference and the Council adopts all of the mitigation measures identified therein. This table does not attempt to describe the full analysis of each environmental impact contained in the EIR. Instead, the table provides a summary description of each impact, describes the applicable mitigation measures identified in the Draft or Final EIR and adopted by the City Council, and states the City Council's findings on the significance of each impact after imposition of the adopted mitigation measures. A full explanation of these environmental findings and conclusions can be found in the Draft and Final EIRs, and these findings hereby incorporate by reference the discussion and analysis in those documents supporting the EIR's determinations regarding mitigation measures and the Project's impacts and mitigation measures designed to address those impacts. In making these findings, the City Council ratifies, adopts, and incorporates into these findings the analysis and explanation in the Draft and Final EIRs, and ratifies, adopts, and incorporates in these findings the determinations and conclusions of the Draft and Final EIRs relating to environmental impacts and mitigation measures, except to the extent any such determinations and conclusions are specifically and expressly modified by these findings.

XIII. MITIGATION MEASURES PROPOSED BY COMMENTERS

Some commenters suggested additional conditions of approval, mitigation measures, or modifications to the measures recommended in the DEIR. In considering specific recommendations from commenters, the City has been cognizant of its legal obligation under CEQA to substantially lessen or avoid significant environmental effects to the extent feasible. The City recognizes, moreover, that comments frequently offer thoughtful suggestions regarding how a commenter believes that a particular mitigation measure can be modified, or perhaps changed significantly, in order to more effectively, in the commenter's eyes, reduce the severity of environmental effects. The City is also cognizant, however, that the mitigation measures recommended in the EIR represent the professional judgment and long experience of the City's expert staff and environmental consultants. The City therefore believes that these recommendations should not be lightly altered. Thus, in considering commenters' suggested changes or additions to the mitigation measures as set forth in the Draft and Final EIR, the City, in determining whether to accept such suggestions, either in whole or in part, has considered the following factors, among others: (i) whether the suggestion relates to an environmental impact that can already be mitigated to less than significant levels by proposed mitigation measures in the DEIR; (ii) whether the proposed language represents a clear improvement, from an environmental standpoint, over the draft language that a commenter seeks to replace; (iii) whether the proposed language is sufficiently clear as to be easily understood by those who will implement the mitigation as finally adopted; (iv) whether the language might be too inflexible to allow for pragmatic implementation; (v) whether the suggestions are feasible from an economic, technical, legal, or other standpoint; and (vi) whether the proposed language is consistent with the Project objectives.

As is often evident from the specific responses given to specific suggestions, City staff and consultants spent time carefully considering and weighing proposed or requested mitigation language. In some instances, the City revised mitigation measures in accordance with the comments. In other instances, the City developed alternative language addressing the same issue that was of concern to a commenter. In no instance, however, did the City fail to take seriously a suggestion made by a commenter or fail to appreciate the sincere effort that went into the formulation of suggestions.

With respect to mitigation measures, project conditions or alternatives proposed by commenters, the City has made no changes as they appeared originally in the DEIR.

XIV. FINDINGS REGARDING RECIRCULATION OF THE DRAFT EIR

The City Council adopts the following findings with respect to whether to recirculate the DEIR. Under Section 15088.5 of the CEQA Guidelines, recirculation of an EIR is required when "significant new information" is added to the EIR after public notice is given of the availability of the DEIR for public review but prior to certification of the FEIR. The term "information" can

include changes in the project or environmental setting, as well as additional data or other information. New information added to an EIR is not “significant” unless the EIR is changed in a way that deprives the public of a meaningful opportunity to comment upon a substantial adverse environmental effect of the project or a feasible way to mitigate or avoid such an effect (including a feasible project alternative) that the project’s proponents have declined to implement. “Significant new information” requiring recirculation includes, for example, a disclosure showing that:

- (1) A new significant environmental impact would result from the project or from a new mitigation measure proposed to be implemented.
- (2) A substantial increase in the severity of an environmental impact would result unless mitigation measures are adopted that reduce the impact to a level of insignificance.
- (3) A feasible project alternative or mitigation measure considerably different from others previously analyzed would clearly lessen the significant environmental impacts of the project, but the project’s proponents decline to adopt it.
- (4) The Draft EIR was so fundamentally and basically inadequate and conclusory in nature that meaningful public review and comment were precluded.

(CEQA Guidelines, §15088.5.)

Recirculation is not required where the new information added to the EIR merely clarifies or amplifies or makes insignificant modifications in an adequate EIR. The above standard is “not intend[ed] to promote endless rounds of revision and recirculation of EIRs.” (*Laurel Heights Improvement Assn. v. Regents of the University of California* (1993) 6 Cal. 4th 1112, 1132.) “Recirculation was intended to be an exception, rather than the general rule.” (*Ibid.*)

The City Council recognizes that the FEIR contains responses to comments received and the MMRP, but contains no other additions, clarifications, modifications, or other changes to the DEIR. As noted above, some comments on the DEIR either expressly or impliedly sought changes to proposed mitigation measures identified in the DEIR as well as additional mitigation measures. As explained in the FEIR, the suggestions were not found to be appropriate and feasible and were not adopted in the FEIR.

The information contained within the FEIR involves no “significant new information” triggering recirculation because the information did not result in any new significant environmental effects or any substantial increase in the severity of any previously identified significant effects, and did not otherwise trigger recirculation. Under such circumstances, the City finds that recirculation of the EIR is not required.

XV. PROJECT ALTERNATIVES

A. BASIS FOR ALTERNATIVES

As explained earlier, CEQA requires that the lead agency adopt mitigation measures or alternatives, where feasible, to substantially lessen or avoid significant environmental impacts that would otherwise occur. Project modification or alternatives are not required, however, where significant environmental impacts will not occur. As is evident from the text of the EIR and the attached table describing the disposition of the significant effects of the Project, most significant effects of the Project have been avoided (that is, rendered less than significant) by the adoption of feasible mitigation measures. There is only one impact that remains significant and unavoidable.

Under CEQA, project alternatives are developed in order to give agency decision-makers options for reducing or eliminating significant environmental effects of proposed projects while still meeting most, if not all, of the basic project objectives. “Alternatives and mitigation measures have the same function – diminishing or avoiding adverse environmental effects.” (*Laurel Heights Improvement Association v. Regents of the University of California* (1988) 47 Cal.3d 376, 403.) The City Council sets forth below its reasons for concluding that all such alternatives are infeasible within the meaning of CEQA.

B. ALTERNATIVES CONSIDERED AND DISMISSED FROM FURTHER CONSIDERATION

As noted previously, the purpose of an alternatives analysis is to develop alternatives to a proposed project that substantially lessen at least one of the significant environmental effects identified as a result of the project, while still meeting most, if not all, of the basic project objectives. Project alternatives that would reduce the size of development on the site or change the mix of uses that would lessen the severity of impacts identified under the Project are addressed in the EIR and summarized below.

There are no other parcels of undeveloped land of similar size in the City that could accommodate development of the Project that have been graded or previously developed, are designated and zoned for commercial uses, do not contain any sensitive biological resources, provide adequate site accessibility, and could be acquired by the applicant. Therefore, an off-site or alternate project location was dismissed from further evaluation because a suitable site was not identified within the City that would fulfill most of the project objectives, would eliminate environmental effects, and/or would be potentially feasible.

Moreover, as discussed in *Citizens of Goleta Valley v. Board of Supervisors* (1990) 52 Cal.3d 553 (*Goleta II*), where a project is consistent with an approved general plan, the EIR for the project generally need not analyze off-site alternatives. The EIR “is not ordinarily an occasion

for the reconsideration or overhaul of fundamental land-use policy.” (*Goleta II, supra*, 52 Cal.3d at p. 573.) In approving a general plan, the local agency has already identified and analyzed suitable alternative sites for particular types of development and has selected a feasible land use plan. “Informed and enlightened regional planning does not demand a project EIR dedicated to defining alternative sites without regard to feasibility. Such ad hoc reconsideration of basic planning policy is not only unnecessary, but would be in contravention of the legislative goal of long-term, comprehensive planning.” (*Goleta II, supra*, 52 Cal.3d at pp. 572-573.) The Project is consistent with the City’s General Plan. For these reasons and others mentioned above, the EIR was not required to analyze an offsite alternative.

C. ALTERNATIVES CONSIDERED IN THE EIR

The Project alternatives identified in the DEIR address the significant impacts (before mitigation) identified for the Project, including traffic impacts during Project operation. Thus, some of the alternatives developed for the Project contemplate a smaller Project to address these impacts. In many instances, the impacts are virtually identical to those of the Project.

The alternatives analyzed in the DEIR are briefly described below.

- Alternative 1: No Project/No Build Alternative
- Alternative 2: Reduced Footprint Alternative
- Alternative 3: Larger Parking Deck Alternative
- Alternative 4: Smaller Medical Office Alternative

ALTERNATIVE 1: NO PROJECT/NO DEVELOPMENT

Description

CEQA requires the evaluation of the comparative impacts of the “No Project” alternative (CEQA Guidelines, §15126.6(e)(1)). The No Project alternative “shall discuss the existing conditions at the time the NOP is published, or if no NOP is published, at the time environmental analysis is commenced, as well as what would be reasonably expected to occur in the foreseeable future if the project were not approved, based on current plans and consistent with available infrastructure and community services.” (CEQA Guidelines, §15126.6(e)(2).) “The purpose of describing and analyzing a no project alternative is to allow decision makers to compare the impacts of approving the proposed project with the impacts of not approving the proposed project.” (CEQA Guidelines, §15126.6(e)(1).)

The No Project/No Development Alternative assumes the Project would not be built and the existing Kaiser medical office complex would remain.

Comparative Analysis of Environmental Effects

The No Project/No Development Alternative would produce no changes on the project site, because the site would remain in its current condition, effectively eliminating those project impacts discussed in this Draft EIR. There would be no air emissions associated with project construction and no potential disturbance to any nesting birds in trees on or adjacent to the project site. There would be no potential to unearth any unknown subsurface cultural or historic resources and there would be no increase in the number of vehicles accessing the site and on area roadways and intersections. There would be no operational impacts on the surrounding roadway network and there would be no increase in demand for water supply, wastewater treatment and solid waste disposal.

Relationship to Project Objectives

The No Project/No Development Alternative would not achieve any of the project objectives because it would not develop the site with additional medical office uses, would not provide employee opportunities, and would not provide sustainably designed buildings.

Feasibility of the No Project/No Development Alternative

The City Council rejects the alternative set forth and evaluated in the EIR because the City finds that there is substantial evidence, including evidence of economic, legal, social, technological, and other considerations described under CEQA Guidelines Section 15091(a)(3), that make this alternative infeasible. In making this determination, the City Council is aware that CEQA defines “feasibility” to mean “capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, legal, and technological factors.”

ALTERNATIVE 2: REDUCED FOOTPRINT

Description

Under the Reduced Footprint Alternative the 16,000 square foot pavilion building is eliminated along with approximately 106 surface parking spaces. The other components of the Project would remain the same under this alternative. Eliminating the pavilion building and 106 surface parking spaces would eliminate the onsite pharmacy, laboratory, and conference space, create a reduction in the amount of impervious surface area, reduce the number of trees to be removed, and would allow more landscaped areas on the site.

Comparative Analysis of Environmental Effects

Impacts under the Reduced Footprint Alternative would be similar to those of the Project, but overall less intense because it would generate a decrease in vehicle trips compared to the

proposed project due to eliminating the pharmacy, laboratory and conference space in the pavilion building. Impacts associated with construction and site disturbance (i.e., air emissions, biological resources, and cultural resources) would essentially be the same as the proposed project because the existing medical office buildings would still be removed to accommodate the new medical office building and parking deck and the required offsite improvements to Cirby Way and the extension of utilities would still be required. It is assumed the medical office building would be located in a similar location on the site as the proposed project with vehicular access provided from Cirby Way and Riverside Avenue, the same as the project. Surface parking is assumed to be provided around the buildings in the same configuration as the project. But because there would be a reduction in the need for 106 parking spaces it would allow slightly more undeveloped acreage to remain on the project site.

Relationship to Project Objectives

Under this alternative, not all of the project objectives would be met. Due to the elimination of the pavilion building there would not be a pharmacy, laboratory or conference space available to Kaiser members. Therefore, the third objective would not be met. In addition, there would be fewer jobs available and it would be less convenient for Kaiser members to get prescriptions and lab results; therefore, this alternative also does not meet the last project objective.

Feasibility of the Reduced Footprint Alternative

The City Council rejects the alternative set forth and evaluated in the EIR because the City finds that there is substantial evidence, including evidence of economic, legal, social, technological, and other considerations described under CEQA Guidelines Section 15091(a)(3), that make this alternative infeasible. In making this determination, the City Council is aware that CEQA defines “feasibility” to mean “capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, legal, and technological factors.”

ALTERNATIVE 3: LARGER PARKING DECK

Description

Under Alternative 3, two levels would be added to the parking deck adding approximately 254 parking spaces thereby reducing surface parking by 254 spaces. The pavilion building and the medical office building would still be developed under this alternative and would not change from the Project. The reduction in surface parking spaces would reduce the amount of impervious surface area, would reduce the number of trees to be removed, and would allow more landscaped areas on the site.

Comparative Analysis of Environmental Effects

Impacts under the Larger Parking Deck Alternative associated with site clearing, grading, building demolition and general construction activities would essentially be the same as the Project. Impacts associated with biological resources, and cultural resources would not change and Mitigation Measures BIO-1 and CUL-1 identified in the Initial Study would still be required. The number of vehicle trips would remain the same and Mitigation Measure 4.3-1 would still be required. The primary difference between this alternative and the proposed project is that there would be area that would be available for development as a small park with tables and benches for both employees and members to enjoy.

Relationship to Project Objectives

Under this alternative all of the project objectives would be met because the primary project elements are not changing. The medical office building would still be developed and high-quality healthcare would still be provided to serve Kaiser Permanente members. There would be no disruption to medical services during project construction and all buildings would be designed to meet LEED gold standards and employment opportunities would be provided.

Feasibility of Larger Parking Deck Alternative

The City Council rejects the alternative set forth and evaluated in the EIR because the City finds that there is substantial evidence, including evidence of economic, legal, social, technological, and other considerations described under CEQA Guidelines Section 15091(a)(3), that make this alternative infeasible. In making this determination, the City Council is aware that CEQA defines “feasibility” to mean “capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, legal, and technological factors.”

ALTERNATIVE 4: SMALLER MEDICAL OFFICE BUILDING

Description

Under the Smaller Medical Office Building alternative, the size of the medical office building is reduced by approximately 38,800 square feet which would reduce the building to four stories in height and would reduce parking by approximately 258 spaces. The pavilion building and parking deck would still be developed under this alternative. The 258 parking spaces would be removed from the surface parking reducing the amount of impervious surface area, reducing the number of trees to be removed, and allowing more landscaped areas on the site.

Comparative Analysis of Environmental Effects

Under the Smaller Medical Office Building Alternative impacts associated with site clearing, grading and construction activities would essentially be the same as the Project because the general project footprint would stay the same. As discussed in the Initial Study, impacts associated with biological resources and cultural resources would occur due to construction activities and Mitigation Measures BIO-1 and CUL-1 would still be required. Overall, the number of vehicle trips would decrease slightly due to the reduction in the availability of medical services; however, Mitigation Measure 4.3-1 would still be required. The primary difference between this alternative and the Project is that there would be a smaller medical office building and a reduction in the amount of surface parking.

Relationship to Project Objectives

This alternative would generally meet all the project objectives, but because there would be a reduction in the number of medical offices it would not meet all the amenities and services provided in the first objective and would meet the second and last objective, but to a lesser degree than the Project because there would be a reduction in the number of health care providers and construction workers.

Feasibility of Smaller Medical Office Building Alternative

The City Council rejects the alternative set forth and evaluated in the EIR because the City finds that there is substantial evidence, including evidence of economic, legal, social, technological, and other considerations described under CEQA Guidelines Section 15091(a)(3), that make this alternative infeasible. In making this determination, the City Council is aware that CEQA defines “feasibility” to mean “capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, legal, and technological factors.”

XVI. STATEMENT OF OVERRIDING CONSIDERATIONS

In determining whether to approve a project, CEQA requires all public agencies to balance the benefits of a project against its unavoidable environmental impacts. The City Council approves the Proposed Project despite the significant unavoidable adverse impacts identified in the EIR. The EIR consists of two text volumes and associated appendices: the DEIR and the DEIR technical appendices, and the FEIR text.

The FEIR identifies and discusses unavoidable significant effects that would occur as a result of implementing the Project, in addition to addressing comments received on the DEIR. With

implementation of the MMRP adopted by the City to mitigate or avoid significant impacts on the environment, many of the environmental impacts of the Project can be reduced to a less-than-significant level. The FEIR determined that the project is expected to result in one significant and unavoidable cumulative impact as noted in Table A and discussed below.

4.1. Significant and Unavoidable Impacts of the Proposed Project

The EIR identifies the following significant and unavoidable impacts for the Proposed Project in the following resource areas as identified in Section 3.4:

- Transportation and Circulation (Impact 4.3-6)

4.2. Benefits of the Project

Pursuant to PRC Section 21081 and Section 15093 of the State CEQA Guidelines, the City Council of the City of Roseville adopts and makes the following statement of overriding considerations regarding the remaining significant unavoidable impact of the Project, as discussed above, and the anticipated economic, social, and other benefits of the Project.

The City Council finds and determines that (1) the majority of the significant impacts of the Project will be reduced to acceptable levels by implementation of the mitigation measures recommended in these findings; (2) the City Council's approval of the Project as proposed will result in one significant adverse environmental effect that cannot be avoided or reduced to a less-than-significant level even with the incorporation of all feasible mitigation measures into the project; and (3) there are no other feasible mitigation measures or feasible project alternatives that will further mitigate, avoid, or reduce to a less-than-significant level the remaining significant environmental impact.

In light of the environmental, social, economic, and other considerations identified in the findings above, and the considerations set forth below related to this project, this City Council chooses to approve the Project because, in its view, the economic, social, technological, and other benefits resulting from the project substantially outweigh the project's significant and unavoidable adverse environmental effects.

The following statements identify the reasons why, in the City Council's judgment, the benefits of the Project outweigh the significant and unavoidable impact. The substantial evidence supporting the enumerated benefits of the Project can be found in the preceding findings, which are herein incorporated by reference; in the Project itself; and in the record of proceedings as defined above. The overriding consideration set forth below constitutes a separate and independent ground for finding that the benefits of the Project outweigh its significant adverse environmental effect and is an overriding consideration warranting approval.

4.2.1. General Plan Policies and Goals

The Project will further the City's goals and policies for infill commercial land use, as set forth in its General Plan, by providing a new medical office facility in an area designated for commercial and infill uses in the City's plan to meet the future needs of the City and the region, while ensuring compatibility with planned land uses.

Specifically, the Project includes construction of 210,000 square feet of medical office space (DEIR, p. 2-8). Providing infill development promotes General Plan Land Use Element Community Form- Downtown Neighborhoods Policy 5, and Community Form – Jobs/Housing and Economic Development Policies 1, 6 and 7.

The Project would expand medical office opportunities within the City by redeveloping approximately 14 acres of an existing medical office complex. Redeveloping this site for a higher density project contributes to a variety of benefits associated with the Project and would promote General Plan Air Quality and Climate Change Element Policy 10, Land Use Element – Community Form Policies – Relationship to Transit, Pedestrian, Air Quality Policy 5, Circulation Element Policies 1 and 2.

4.2.2. Jobs/Housing and Economic Development

The Project would add more commercial land uses to the City. The Project includes adding over 115,000 square feet in new medical office uses on a site that already provides medical offices (DEIR, p. 2-8). The development of a new medical office building is anticipated to increase employment within the project site. Based on its approximately 210,000 square feet of medical office uses, the Project is anticipated to generate approximately 202 new full time jobs, which added to the existing 224 full time positions would provide a total of 426 full time employees. In addition to creating long-term employment opportunities through the medical office building, project construction would create hundreds of construction-related jobs.

The development of a new medical office building within the City is crucial to achieving a well-balanced ratio of jobs and housing identified in Land Use Element, Community Form – Jobs/Housing and Economic Development Policy 1. Given the proximity of employment opportunities and commercial services to residential areas, the Project plays a role in achieving the desirable goals set forth in the policy. Overall the Project is anticipated to add over 200 new full time positions. Over time, this could mean a potential reduction in vehicle miles traveled which improves air quality and reduces GHG generation. A pedestrian linkage would be constructed within the project site to directly connect to the existing bus stop on the south side of Cirby Way directly east of Riverside Avenue. And, as part of the new signalized intersection on Cirby Way at the Kaiser North Driveway, a crosswalk would be constructed to enable protected

crossings between the bus stop located on the north side of Cirby Way directly east of the driveway and the project site.

4.2.3. Public Revenues

The Project is fiscally positive. It would increase tax revenues to the City through increased property values and other job-generating uses, and the overall enhancement of the City's economic base. The Applicant would contribute its fair share toward the cost of transportation improvements outside of the project site (i.e., road improvements along Cirby Way).

4.3. Conclusion

Having reduced many of the effects of the Project by adopting all feasible mitigation measures, and balancing the benefits of the Project against the project's significant and unavoidable adverse environmental impact, the City Council hereby determines that the specific overriding social, environmental, and economic benefits of the Project set forth above outweigh the potential unavoidable adverse effects of the project on the environment. The City Council finds that the overriding considerations set forth above constitutes a separate and independent basis for finding that the benefits of the Project outweigh the unavoidable adverse environmental effect, and warrants approval of the Project.

Table A Impact Statements, Mitigation Measures, Findings of Fact			
Impacts	Mitigation Measure(s)	Significance After Mitigation	Findings of Fact
4.1 Air Quality and Greenhouse Gas Emissions			
4.1-1: The project could violate the City of Roseville's significance thresholds for air quality.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.1-2: The project could result in a cumulatively considerable net increase in criteria pollutants.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.1-3: The project could generate a Substantial Contribution to GHG Emissions that Conflicts with an Applicable Plan or Policy.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2 Public Utilities			
4.2-1: Availability of water supplies to meet project demand in wet/dry years.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-2: Construct or expand water treatment, conveyance, and/or storage facilities to accommodate the project.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-3: Deplete groundwater supplies or interfere with groundwater recharge.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-4: Construction or expansion of wastewater collection facilities.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)

Table A
Impact Statements, Mitigation Measures, Findings of Fact

Impacts	Mitigation Measure(s)	Significance After Mitigation	Findings of Fact
4.2-5: Capacity of the DCWWTP to serve the proposed project.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-6: Exceed the wastewater treatment requirements of the Regional Water Quality Control Board.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-7: Capacity for solid waste disposal at the MRF or WRSL.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-8: Compliance with applicable federal, state, and local statutes and regulations related to solid waste.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-9: Result in wasteful consumption of energy.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-10: Cumulative increase in demand for water supply and treatment capacity.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-11: Cumulative increase in demand for wastewater treatment and plant capacity.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.2-12: Cumulative increase in disposal of solid waste in the WRSL.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)

Table A Impact Statements, Mitigation Measures, Findings of Fact			
Impacts	Mitigation Measure(s)	Significance After Mitigation	Findings of Fact
4.3 Transportation and Circulation			
4.3-1: Change in LOS at signalized intersections in the City of Roseville.	4.3-1 The project applicant shall install a southbound right-turn overlap arrow at the Cirby Way/Vernon Street intersection.	LTS	Finding: Compliance with Mitigation Measure 4.3-1, which has been required or incorporated into the project, will reduce this impact to a less-than-significant level by ensuring a southbound right-ten overlap arrow is installed at the Cirby Way/Vernon Street intersection. The City Council hereby directs that this mitigation measure be adopted. The City Council, therefore, finds that changes or alterations have been required in, or incorporated into, the project that avoid the potentially significant environmental effect as identified in the EIR. Explanation/Facts in Support of Finding: Construction of the proposed project could result in a decrease in the level of service (LOS) at this intersection. Significant impacts associated with the change in LOS would be reduced to a less-than-significant level by enabling the southbound right-turn movement to operate simultaneously with the eastbound left-turn which would restore operations to the existing LOS D condition during the PM peak hour. (Draft EIR, p. 4.3-57)
4.3-2: Add traffic to Caltrans freeway ramps.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.3-3: Impacts to bicycle facilities or network.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)

Table A Impact Statements, Mitigation Measures, Findings of Fact			
Impacts	Mitigation Measure(s)	Significance After Mitigation	Findings of Fact
4.3-4: Impacts to pedestrian access.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.3-5: Increased demand for transit.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.3-6: Decrease in LOS at City Intersections under 2035 Conditions.	None available	SU	Finding: No mitigation measures are available to reduce this impact to a less-than-significant level. The City Council, therefore, finds that there are no feasible changes or alterations that could be incorporated into the project to avoid the significant environmental effect as identified in the EIR. Explanation/Facts in Support of Finding: Specific economic, legal, social, technological, other considerations, including provision of employment opportunities for highly trained workers, make infeasible the mitigation measures or project alternatives identified in the FEIR.
4.3-7: Add traffic to Caltrans freeway ramps under 2035 conditions.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
4.4 Visual and Aesthetic Resources			
4.4-1: Substantially degrade the existing character of the project site.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)

Table A Impact Statements, Mitigation Measures, Findings of Fact			
Impacts	Mitigation Measure(s)	Significance After Mitigation	Findings of Fact
4.4-2: Introduction of new sources of light and glare.	None required	LTS	Under CEQA, no mitigation measures are required for impacts that are less than significant. (Pub. Resources Code, §21002; CEQA Guidelines, §§15126.4, subd. (a)(3), 15091.)
Initial Study			
Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service.	BIO-1: To avoid take of any active raptor nest or disturbance of other protected native birds, to the extent feasible site disturbance shall be avoided from March 1 through August 31, which coincides with the typical nesting season for most common bird species in the region. If construction work is required to be scheduled during the typical nesting season (March through August), a qualified biologist shall conduct a preconstruction survey of the work area to determine if any native birds, including raptors, are nesting in or in the immediate vicinity of the vegetation to be removed. The preconstruction survey shall be conducted within 15 days prior to the start of work from March through May (since there is a higher potential for birds to initiate nesting during this period), and within 30 days prior to the start of work from June through August. If active nests are found in the work area, the biologist shall determine an appropriately-sized buffer around the nest based on the nesting species and its sensitivity to disturbance in which no work shall be allowed until the young have successfully fledged. The size of the nest buffer shall be determined by City staff based on the input from the biologist (using information provided in existing regulations and in guidance documents, e.g. CDFW Handbook for Swainson's Hawks), and, if necessary, after consultation with the CDFW.	LTS	Finding: Compliance with Mitigation Measure BIO-1, which has been required or incorporated into the project, will reduce this impact to a less-than-significant level, by ensuring nesting bird surveys will be completed prior to construction. The City Council hereby directs that this mitigation measure be adopted. The City Council, therefore, finds that changes or alterations have been required in, or incorporated into, the project that avoid the potentially significant environmental effect as identified in the EIR. Explanation/Facts in Support of Finding: Construction of the proposed project could result in a short-term disruption to nesting birds due to construction noise and activity. Significant impacts associated with the potential disturbance to nesting birds would be reduced to a less-than-significant level by ensuring a buffer would be provided in the event nesting birds are present. (Initial Study, pp. 15-16)

Table A
Impact Statements, Mitigation Measures, Findings of Fact

Impacts	Mitigation Measure(s)	Significance After Mitigation	Findings of Fact
Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5 or disturb any human remains, including those interred outside of formal cemeteries.	CUL-1: A minimum of seven days prior to beginning earthwork or other soil disturbance activities, the applicant shall notify the City of the proposed earthwork start-date, in order to provide the City with time to contact the United Auburn Indian Community (UAIC). A UAIC tribal representative shall be invited to inspect the project site, including any soil piles, trenches, or other disturbed areas, within the first five days of ground breaking activity. During this inspection, a site meeting of construction personnel shall also be held in order to afford the tribal representative the opportunity to provide cultural resources awareness information. If any cultural resources, such as structural features, unusual amounts of bone or shell, artifacts, human remains, or architectural remains are encountered during this initial inspection or during any subsequent construction activities, work shall be suspended within 100 feet of the find, and the project applicant shall immediately notify the City of Roseville Development Services Director. The project applicant shall coordinate any necessary investigation of the site with a qualified archaeologist approved by the City, and as part of the site investigation and resource assessment the archeologist shall consult with the UAIC and provide proper management recommendations should potential impacts to the resources be found by the City to be significant. A written report detailing the site assessment, coordination activities, and management recommendations shall be provided to the City by the qualified archaeologist. Possible management recommendations for historical or unique archaeological resources could include resource avoidance or, where avoidance is infeasible in light of project design or layout or is unnecessary to avoid significant effects, preservation in place or other measures. The contractor shall implement any measures deemed by City staff to be necessary and feasible to avoid or minimize significant effects to the cultural resources.	LTS	Finding: Compliance with Mitigation Measure CUL-1, which has been required or incorporated into the project, will reduce this impact to a less-than-significant level by allowing a UAIC tribal representative to inspect the site during the first week of ground disturbance activities. If any resources are unearthed during construction all work will be suspended within 100 feet of the find and appropriate agencies contacted. The City Council hereby directs that this mitigation measure be adopted. The City Council, therefore, finds that changes or alterations have been required in, or incorporated into, the project that avoid the potentially significant environmental effect as identified in the EIR. Explanation/Facts in Support of Finding: Construction of the proposed project could result in the discovery of unknown subsurface resources. Significant impacts associated with the potential disturbance of unknown archeological resources would be reduced to a less-than-significant level by ensuring a UAIC tribal monitor is present and the proper agencies are contacted in the event something is discovered. (Initial Study, pp. 18-19)

1 SITE PLAN - PHASE 2 PLANTING
1" = 30'-0"

Kaiser Riverside Cirby Medical Office Building Construction Parking Plan

The current site consists of 613 parking spaces shared by both staff and visitors. There are currently 224 full-time employees serving the existing medical office buildings. The available parking on site and number of total spaces will fluctuate with each phase of the project. For the duration of construction, Kaiser will remediate the parking shortfall by providing valet parking for patients and visitors. All 224 staff will no longer park on site and will be shuttled to work from off-site parking locations. Kaiser is currently negotiating with local businesses to lease parking spaces.

The chart below shows the estimated duration of each construction phase as well as the estimated on-site parking available for contractors and visitors. In a 2012 traffic study report by Fehr & Peers, the existing parking was 80% occupied during peak hours. Assuming the current parking demand has since increased, a parking lot that is 95% occupied would translate to a parking demand of 594 spaces (224 staff and 370 visitor). With staff parking off-site for the duration of construction, there will only be a visitor parking demand of 370 spaces. Available on-site visitor parking during all phases meets or exceeds the 95% demand capacity.

	Baseline	Phase 1	Phase 2	Phase 3	Phase 4	Phase 5	Phase 6	Phase 7	Final Site
Duration		3 months	5 months	9 months	9 months	3 months	5 months	3 months	
Staff Spaces (On-Site)	224	0	0	0	0	0	0	0	426
Staff Spaces (Off-Site)	0	224	224	224	224	224	224	224	0
Visitor Spaces	389	417	378	370	370	465	616	763	632
Construction	0	55	125	255	255	88	25	25	0
Total Parking On-Site	613	472	503	625	625	553	641	788	632
Peak Total Parking Demand @ 95% capacity	594	On-site visitor parking available during all phases is more than peak demand capacity.							
Peak Visitor Parking Demand @ 95% capacity	370

RESOLUTION NO. 17-273

AMENDING THE GENERAL PLAN TO CHANGE THE TEXT OF THE CIRCULATION
ELEMENT TO REFLECT A NEW SIGNALIZED INTERSECTION IN
THE CITY OF ROSEVILLE RELATED TO THE
KAISER RIVERSIDE AND CIRBY MEDICAL OFFICE BUILDING PROJECT

WHEREAS, the Kaiser Foundation Health Plan (“Applicant”) has submitted a proposal to construct a 16,000 square-foot, one-story pavilion building; a 194,000 square-foot, five-story medical office building; a parking deck; and associated parking lot and landscaping that will replace the existing one and two-story Kaiser Permanente medical office building complex; and

WHEREAS, a new signalized intersection will be constructed at Cirby Way, Cirby Hills Drive, and the Kaiser campus driveway; and

WHEREAS, a Traffic Impact Study was prepared for the project, which determined the intersection would operate at Level of Service E in the am peak hour, while the City’s standard is Level of Service C; and

WHEREAS, the General Plan Circulation Element specifies that the City Council may, following a public hearing, make findings to allow exceptions to this standard; and

WHEREAS, the General Plan Circulation Element contains a list of intersections the City Council has approved for an exception, which must be revised to include the Project intersection; and

WHEREAS, the Planning Commission held public hearings on the proposed General Plan text amendments on April 27, 2017; and

WHEREAS, on June 21, 2017, the City Council held a public hearing at which time the proposed amendments were considered; and

WHEREAS, on June 21, 2017, the City Council certified that the Final Environmental Impact Report for the Kaiser Riverside and Cirby Medical Office Building Project (State Clearinghouse No. 2016062020), consisting of the consisting of the Draft EIR, Final EIR, and Mitigation Monitoring and Reporting Program and all documents incorporated therein (“Final EIR”), was completed in compliance with the California Environmental Quality Act, Public Resources Code Section 21000 *et seq.*; adopted and incorporated into the Kaiser Riverside and Cirby Medical Office Building Project (“Project”) all of the mitigation measures within the responsibility and jurisdiction of the City of Roseville that are identified in the Findings; and adopted the Mitigation Monitoring Program for the Project for all of the mitigation measures within the responsibility and jurisdiction of the City of Roseville; and

WHEREAS, the City Council has independently considered the significant environmental effects of the Project as shown in the certified Final EIR; and

WHEREAS, the City Council finds the improvements which would be necessary to achieve a Level of Service C at the intersection involve roadway widening, and that this improvement is unacceptable, not feasible, extraordinary, and undesirable; and

WHEREAS, the City Council has determined that with this additional signal, a minimum of 70% of the City's intersections would continue to operate at Level of Service C or better.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville as follows:

1. The City Council hereby amends the text of the General Plan Circulation Element as shown in Exhibit T, on file with the City Clerk and incorporated herein by reference;

2. The Development Services Director is hereby directed to retain said General Plan Amendment on permanent public display in the Planning Division of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this _____, 2017, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

City Clerk

NOTE: Changes are shown in strikethrough for deletions and red text for additions, with one exception: the the addition of an intersection in Table III-3 and III-3A renumbered all subsequent intersections, but this renumbering is not shown in strikethrough/red.

LEVEL OF SERVICE

A. SETTING

While a primary goal of the City's Circulation Element is to promote alternative forms of transportation, the City recognizes that automobiles are and will continue to be the primary transportation mode for the City's residents and employees. To that end, the City must strive to provide adequate roadway capacity so that its system of roadways operates free of excessive traffic congestion and delay. Since peak hour congestion is a substantial source of air pollution, avoiding excessive congestion is an important aspect of the City's efforts to reduce transportation emissions that contribute to climate change.

In addition to the automobile, pedestrian travel is also considered to be an important mode of transportation. In response to the increasing desire to enhance the role of pedestrians in neighborhood design, the City recognizes that certain neighborhoods should be made more amenable to walking. Implementation of various pedestrian enhancements would improve neighborhood walkability.

Roadway Circulation System

The operational performance of the City's roadway system is expressed using "levels of service" that generally describe traffic operations as perceived by the motorist. There are six levels of service (LOS) ranging from "A" through "F," with LOS "A" representing the best range of operating conditions (high speeds and low delay) and LOS "F" representing the worst (low speeds and high delay).

The specific terms in which each level of service is defined vary with the type of facility involved. Thus a freeway's level of service is generally defined by density (vehicles per mile per lane) and average travel speed, while an intersection's level of service is generally defined by the average vehicle delay. The capacity and operations of Roseville's major roadway system of arterial and collector streets is principally determined by the capacity of its signalized intersections, as well as the basic width of its roadway segments and the amount of access control on each segment. The level of service on the roadway networks would, therefore, be

defined primarily by intersection delay and the average travel speed on roadway segments. Level of service definitions at signalized intersections are described in Table III-2.

In Roseville, levels of service are measured during both the morning and afternoon weekday peak periods. Table III-3 identifies the existing 2015 levels of service at ~~164~~ 165 signalized intersections in the City. Currently, there are 3 intersections in the City that operate below LOS "C" during an average weekday A.M. peak hour (generally between 7:30 A.M. and 8:30 A.M.) and 30 during the P.M. peak hour (generally between 4:45 P.M. and 5:45 P.M.).

During the A.M. peak, these are:

- Blue Oaks at Foothills – LOS D
- Cirby at Sunrise – LOS D
- Douglas at Sierra College - LOS D

During the P.M. peak these are:

- Baseline at Fiddymont - LOS D
- Blue Oaks at Woodcreek Oaks – LOS D
- Cirby at Sunrise – LOS E
- Cirby at Foothills - LOS D
- Cirby at Riverside – LOS E
- Douglas at Eureka – LOS D
- Douglas at Rocky Ridge – LOS E
- Douglas at Sierra Gardens – LOS D
- Douglas at Sunrise – LOS E
- Douglas at E. Roseville Pkwy – LOS D
- Douglas at Harding – LOS D
- Douglas at Sierra College – LOS D
- Eureka at N. Sunrise – LOS D
- Foothills at Baseline/Main – LOS D
- Foothills at Pleasant Grove – LOS D
- Galleria at Roseville Pkwy – LOS D
- Lead Hill at N. Sunrise – LOS D
- Fairway at Pleasant Grove – LOS D
- Highland Pointe at Pleasant Grove – LOS D
- Washington at Pleasant Grove - LOS D
- Roseville Pkwy at Creekside Ridge – LOS D
- Roseville Pkwy at N. Sunrise – LOS D
- Roseville Pkwy at Reserve - LOS D
- Five Star at Stanford Ranch – LOS D

CONDITIONS OF APPROVAL FOR MAJOR PROJECT STAGE I AND 2

1. This major project permit approval shall be effectuated within a period of two (2) years from **June 21, 2017** and if not effectuated shall expire on **June 21, 2019**. Prior to said expiration date, the applicant may apply for an extension of time, provided this approval is does not extend the expiration beyond **June 21, 2020**. (Planning)
2. The project is approved as shown in Exhibits A – S and as conditioned or modified below. (Planning)
3. The project shall comply with all required environmental mitigation identified in the Kaiser Riverside-Cirby Medical Office Building Project Environmental Impact Report. (Planning)
4. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. (Engineering, Environmental Utilities, Electric, Finance)
5. The design and construction of all improvements shall conform to the Design and Construction Standards of the City of Roseville, or as modified by these conditions of approval, or as directed by the City Engineer. (Engineering)
6. The applicant shall not commence with any on-site improvements or improvements within the right-of-way until such time as grading and/or improvement plans are approved and grading and/or encroachment permits are issued by the Development Services Department – Engineering Division. (Engineering)
7. The approval of this project does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)
8. The property shall be addressed as 1001 Riverside Avenue. The Medical Office Building shall be addressed as 1011 Riverside Avenue. The Pavilion Building shall be addressed as 1021 Riverside Avenue. The Parking Deck shall be addressed as 1031 Riverside Avenue. All projects with multi-tenants or buildings must submit a plot plan with building footprint(s) to the Development Services/Business Services Division – Addressing for building/suite addressing. (Business Services)

PRIOR TO ISSUANCE OF BUILDING PERMITS:

9. Parking stalls shall meet, or exceed, the following minimum standards:
 - a. All parking stalls shall be double-striped. Parking stalls adjacent to sidewalks, landscaped areas or light fixtures, and all Accessible stalls shall about a 6" raised curb or concrete bumper. (Planning)
 - b. Standard -- 9 feet x 18 feet; Compact--9 feet x 16 feet; Accessible--14 feet x 18 feet (a 9 foot wide parking area plus a 5 foot wide loading area) and a minimum of one (1) parking space shall be Accessible van accessible--17 feet x 18 feet (9 foot wide parking area plus an 8 foot wide loading area). (Planning)
 - c. An 'exterior routes of travel' site accessibility plan incorporating slope, cross-slope, width, pedestrian ramps, curb ramps, handrails, signage, detectable warnings or speed limit signs or equivalent means shall comprise part of the site improvement plans submitted to City for review, prior to building plan check approvals. This site accessibility plan shall also include:
 - i) Accessible parking stalls shall be dispersed and located closest to accessible entrances. The total number of accessible parking spaces shall be established by Table 11B-208.2 of the CBC.
 - ii) Accessible Parking spaces and crosswalks shall be signed, marked and maintained as required by Chapter 11B of the CBC.
 - iii) Accessible parking and exterior route of travel shall comply with CBC, Chapter 11B. (Building)

10. Signs and/or striping shall be provided on-site as required by the Planning Department to control on-site traffic movements. Parking lot striping and signage shall be maintained in a visible and legible manner. (Planning)
11. The plans submitted to the Building Department for permits shall indicate all approved revisions/alterations as approved by the Commission including all conditions of approval. (Planning)
12. The project Landscape Plans shall comply with the following:
 - a. The Landscape Plan shall indicate the location of, and be designed to avoid conflicts with, all pole-mounted light fixtures and utility equipment including (but not limited to) electric transformers, switchgear, and overhead lines, backflow preventers, fire department connections, and public water, sewer, and storm drain facilities. (Planning, Fire, EUD, Electric, Public Works)
 - b. The tree plantings in the parking lot shall be designed to provide a minimum of 50% shade coverage after 15 years. (Planning)
 - c. At a minimum, landscaped areas not covered with live material shall be covered with a rock, (3") bark (no shredded bark) or (3") mulch covering. (Planning)
 - d. The landscape plan shall comply with the City of Roseville Water Efficient Landscape ordinance. (Planning)
 - f. All landscaping in areas containing electrical service equipment shall conform with the Electric Department's Landscape Requirements and Work Clearances as outlined in Section 10.00 of the Departments "Specification for Commercial Construction." (Electric)
13. Any roof-mounted equipment and satellite dishes proposed shall be shown on the building plans. The equipment shall be fully screened from public streets and the surrounding properties. (Planning)
14. At the time of building permit application and plan submittal, the project applicant shall submit a proposed plan which shows the suite addressing plan for individual tenant spaces within the building. The Chief Building Official, or the designate, shall approve said plan prior to building permit approval. (Building)
15. For restaurants or other food services: The developer shall obtain all required approvals and permits from the Placer County Health Department. (Building)
16. For restaurants or other food services. The developer shall obtain all required approvals and permits from the Placer County Health Department and the City of Roseville Industrial Waste Division. (Building, Environmental Utilities)
17. Maintenance of copy of building plans: Health and Safety Code section 19850 requires the building department of every city or county to maintain an official copy of the building plans for the life of the building. As such, each individual building shall be submitted as a separate submittal package. Building plan review, permit issuance and archiving is based on each individual building address.
18. For all work to be performed off-site, permission to enter and construct shall be obtained from the property owner, in the form of a notarized right-of-entry. Said notarized right-of-entry shall be provided to Engineering prior to approval of any plans. (Engineering)
19. The Improvement Plans shall include a complete set of Landscape Plans. The Landscape Plans shall be approved with the Improvement Plans. (Planning, Engineering, Fire, Environmental Utilities, Electric)
20. A note shall be added to the grading plans that states:

*"Prior to the commencement of grading operations, the contractor shall identify the site where the **excess/borrow** earthen material shall be imported/deposited. If the **borrow/deposit** site is within the City of Roseville, the contractor shall produce a report issued by a geotechnical engineer to verify that the exported*

materials are suitable for the intended fill, and shall show proof of all approved grading plans. Haul routes to be used shall be specified.” (Engineering)

21. The applicant shall dedicate a separate maintenance easement to the City of Roseville for the bus stop located at the corner of Cirby Way and Riverside Avenue (shelter number 69). The easement documents, for public maintenance of the bus shelter, shall be drafted for approval and acceptance by the City of Roseville and recorded at the County Recorder's office. (Alternative Transportation, Engineering)
22. The applicant shall dedicate all necessary rights-of-way or Public Utility Easement for the widening of any streets or transfer of public utilities across and over any portion of the property as required with this entitlement. A separate document shall be drafted for approval and acceptance by the City of Roseville, and recorded at the County Recorder's Office. (Engineering)
23. The proposed driveway on Riverside Avenue shall be constructed as a standard 30 ft. wide A-7 driveway. (Engineering)
24. The proposed egress only driveway on Cirby Way shall be 15 ft. in width and approximately 260 ft. east of Riverside Avenue. The driveway shall be constructed with a radius to direct vehicles into the flow of traffic and restrict ingress movements. The appropriate signage shall be approved by the City to indicate this is a right turn egress driveway only, along with way finding signage directing vehicles to use Orlando Ave. to access I-80. (Engineering)
25. The intersection of Cirby Way/Cirby Hills/Kaiser North Driveway shall be improved with a traffic signal. All costs associated with the proposed signal shall be the responsibility of the developer. The following items shall be addressed with the construction of this signalized intersection:
 - a. Developer shall work with City Engineers to ensure proposed signal is coordinated with the other signals along the Cirby Way corridor.
 - b. The ingress/egress for the Kaiser North Driveway shall consist of one 15 ft. wide ingress lane and three 11 ft. wide egress lanes. The egress lanes shall be one left turn lane, one shared right/through lane and one right turn lane.
 - c. The left turn egress lane shall be timed such that 15 seconds is given to this phase of the signal during weekday p.m. peak hours. This timing is to meter out the left turns and encourage vehicles to use the dual rights being provided.
 - d. The throat depth for the Cirby Way/Cirby Hills/Kaiser North Driveway shall be a minimum of 250 ft. in length.
 - e. On-site and off-site way finding signs shall be placed directing traffic egressing the Kaiser North Driveway to proceed eastbound to Orland Avenue to I-80. (Engineering)
26. The existing westbound left turn pocket on Cirby Way at the Cirby Hills/Kaiser North Driveway shall be increased from 175 ft. to 250 ft. (Engineering)
27. A 190 ft. deceleration lane with 90 ft. taper shall be constructed on Cirby Way to access the Kaiser North Driveway. (Engineering)
28. Signage shall be provided on-site and within the public right of way indicating no u-turns are allowed from the existing eastbound left turn lane on Cirby Way at the Cirby Hills/Kaiser North Driveway. (Engineering)
29. The first internal intersection south of the North Kaiser Driveway shall have east/west stop control. (Engineering)
30. Provide stop control on the eastbound, westbound and southbound approaches at the main drive aisle (north of the medical offices) that intersects with the drop off area (westerly section). (Engineering)

31. A Construction Traffic Management Plan (TMP) shall be developed and approved by the City to clearly demonstrate how traffic will be handled during the various proposed phases of the project. The TMP shall be consistent with the recommendation made in the Transportation Impact Study prepared for the project by Fehr & Peers. (Engineering).
32. Cirby Way shall be reconstructed to provide adequate sight distance as shown on the approved Cirby Way plan and profile sheets approved with this project. The sight distance shall be designed for a 45 mph design speed and a 2 ft. high object height. With the reconstruction of Cirby Way a new standard bus turnout, 120 ft. in length with 60 ft. tapers, shall be constructed. (Engineering)
33. All storm drainage, including roof drains, shall be collected on site and treated with Best Management Practices (BMP's) per the City's Stormwater Quality Design Manual. All storm water shall be routed to the nearest existing storm drain system or natural drainage facility. The grading/improvement plans for the site shall be accompanied with a shed map that defines that area tributary to this site and all drainage facilities shall be designed to accommodate the tributary flow. The storm drain system and proposed BMP's shall be privately owned and maintained by the property owner. Prior to the issuance of any permits, the owner shall provide a plan for the maintenance of the proposed BMP's and enter into a maintenance agreement with the City to ensure the BMP's are properly maintained. (Engineering)
34. Prior to the issuance of any permits, the property owner shall prepare and submit a Storm Water Pollution Prevention Plan (SWPPP) to the City, as defined by the Regional Water Quality Control Board. Upon approval, the SWPPP will be returned to the property owner during the pre-construction meeting. (Engineering)
35. The developer shall be responsible for any necessary relocation of signal interconnect cables that may require re-location as a result of the construction of roadwork, turn lanes and/or driveways. (Engineering)
36. To ensure that the design for any necessary widening, construction, or modifications of Public Streets does not conflict with existing dry utilities generally located behind the curb and gutter, and prior to the approval of design drawings for those frontage improvements, the project proponent shall have the existing dry utilities pot holed for verification of location and depth. (Engineering)
37. Sight distances for all driveways shall be clearly shown on the improvement plans to verify that minimum standards are achieved. It will be the responsibility of the project proponent to provide appropriate landscaping and improvement plans, and to relocate and/or modify existing facilities as needed to meet these design objectives. (Engineering)
38. The applicant shall remove and reconstruct any existing damaged curb, gutter, and sidewalk along the property frontage. During plan check of the improvement plans and/or during inspection, Public Works will designate the exact areas to be reconstructed. Any existing public facilities damaged during the course of construction shall be repaired by the property owner and at the property owner's expense, to the satisfaction of the City. (Engineering)
39. Prior to the approval of the improvement plans, it will be the project proponent's responsibility to pay the standard City Trench Cut Recovery Fee for any cuts within the City streets that are required for the installation of underground utilities. (Engineering)
40. Prior to the issuance of building permits, the property owner shall pay into the following fee programs: Citywide Drainage Fee, Citywide Traffic Mitigation Fee (TMF), Highway 65 Joint Partners Association (JPA), South Placer Regional Transportation Authority (SPRTA), and City/County Fee. (Engineering)
41. The Kaiser Permanente Health Plan shall update the existing Transportation Systems Management (TSM) Plan for Kaiser Riverside and Cirby Medical Office Building to be reviewed and approved by the Transportation Commission. (Public Works)
42. Prior to the issuance of a grading permit or approval of Improvement Plans, the grading plans shall clearly identify all existing water, sewer and recycled water utilities within the boundaries of the project (including

adjoining public right of way). Existing utilities shall be identified in plan-view and in profile view where grading activities will modify existing site elevations over top of or within 15 feet of the utility. Any utilities that could potentially be impacted by the project shall be clearly identified along with the proposed protection measures. The developer shall be responsible for taking measures and incurring costs associated with protecting the existing water, sewer and recycled water utilities to the satisfaction of the Environmental Utilities Director. (Environmental Utilities)

43. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)
44. Water and sewer infrastructure shall be designed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards and shall include:
 - a. Utilities or permanent structures shall not be located within the area which would be disturbed by an open trench needed to expose sewer trunk mains deeper than 12' unless approved by Environmental Utilities in these conditions. The area needed to construct the trench is a sloped cone above the sewer main. The cone shall have 1:1 side slopes.
 - b. Water, sewer and recycled mains shall not exceed a depth of 12' below finished grade, unless authorized in these conditions of approval.
 - c. All sewer manholes shall have all-weather 10-ton vehicle access unless authorized by these conditions of approval. (Environmental Utilities)
45. Private sewer shall be built to City of Roseville standards and shall maintain 5' clear of other utilities. (Environmental Utilities)
46. No trees are allowed to be over the city appurtenances. (Environmental Utilities)
47. Water transmission main in Cirby is to maintain 4' minimum cover. If less than 4' minimum cover occurs over transmission main then the water main is to be lowered at the developers cost. (Environmental Utilities)
48. Trash enclosures, recycling areas, and enclosure approaches shall be designed to current Refuse Division specifications, the materials and colors shall match the building, and the location of such facilities shall be reviewed and approved by the Refuse Division, Planning and the Fire Department. The enclosure must have inside dimensions of 12 feet wide and 9 feet deep and be built to the specifications of the Solid Waste Department's Enclosure Description. (Refuse, Planning, Fire)
49. Access to trash enclosures shall have an inside turning radius of 25 feet and an outside turning radius of 45 feet must be maintained to allow the refuse truck access to and from the enclosure. Enclosures must have a clear approach of 65 feet in front of the enclosure to allow servicing bins. (Refuse)
50. A trash enclosure and recycling enclosure is required for each building and each tenant, otherwise, the building owner is responsible for the trash service. (Refuse)
51. The design and installation of all fire protection equipment shall conform to the California Fire Code and the amendments adopted by the City of Roseville, along with all standards and policies implemented by the Roseville Fire Department. (Fire)
52. The applicable codes and standards adopted by the City shall be enforced at the time construction plans have been submitted to the City for permitting (Fire)
53. The fire flow required, at a 50% reduction due to the buildings being sprinklered, will be based on the largest single structure in accordance with the California Fire Code at the time detail plans are submitted to the City of Roseville for review. The maximum fire flow will not exceed 4,000 gpm based on the Appendix III-AA of the California Fire Code. (Fire)
54. The fire department access road shall meet the City's requirements for width and turning radii of 30 and 50 as noted on the fire department standards for access. This shall be enforced at the time plan are submitted for review, Additional information can be found on the City's web site www.roseville.ca.us or contact Patrick

Chew, Senior Fire Inspector, at 916-774-5823 or pchew@roseville.ca.us with the Fire Prevention Division for information. (Fire)

55. Automatic fire extinguishing system risers, fire alarm system panels and digital alarm communicator system panels shall be located within an approved fire control room and shall be accessible from an adjacent fire apparatus roadway. Said fire control room shall be a minimum size of 100 square feet in size and shall be openable from the exterior via an approved door opening, provided a fire pump will be required. (Fire)
56. Elevators shall be designed to accommodate first responders and their apparatuses such as gurneys. (Fire)
57. The phasing of this project shall not limit the fire department requirements for access and circulation throughout the project as a result of continuous construction in accordance with the California Fire Code, 2016 with the City of Roseville's Amendments. A separate phasing plan (and permit issued by the Building Department) shall be reviewed and approved by this department. (Fire)
58. Use, increase of hazardous materials or storage, liquids, gases and/or chemicals shall meet the requirements of the Chapter 6.95 of the Health and Safety Code, the Roseville Fire Department and the National Fire Codes. Submit a complete plan set and the Hazardous Materials Business Plan, including names and amount of any hazardous materials that will be stored or used, to the Fire and Life Safety Division for review and approval. A permit application shall also be provided at the time of submittal. Contact Steve Anderson of our Hazardous Materials Division within the Fire Department at (916) 774-5821 to initiate the process. Satisfaction of storage and use shall be determined prior to requesting occupancy. (Fire)
59. Adequate radio coverage shall be provided within all buildings for public safety agencies, as required by Roseville Municipal Code and the California Fire Code. A field test shall be provided by a person in possession of a current FCC License, or a current technician certification issued by the Associated Public-Safety Communications Officials International (APCO), or the National Association of Business and Educational Radio (NABER). The building owner shall retain all test records on the inspected premises and a copy shall be submitted to the Fire Department officials in accordance with Section 510 of the California Fire Code.
Adequate radio coverage shall include all of the following:
 - a. A minimum signal strength of 95 dBm available in 90% of the area of each floor of the building when transmitted from the closest City of Roseville Radio Communication site.
 - b. A minimum signal strength of 95 dBm received at the closest City of Roseville Communication site when transmitted from 90% of the area of each floor of the building.
 - c. The frequency range that must be supported shall be 821–824 MHz and 866–869 MHz.
 - d. A 100% reliability factor. (Fire, Police)
60. The Electric Department requires the submittal of the following information in order to complete the final electric design for the project:
 - a. one (1) set of improvement plans
 - b. load calculations
 - c. electrical panel one-line drawings
61. All existing electric facilities shall be shown on the improvement plans, particularly on the grading and utility plans.
62. All on-site external lighting shall be installed and directed to have no off-site glare. Lighting within the parking areas and pedestrian walkways shall provide a maintained minimum of one (1) foot candle, and 0.5 foot candle of light, respectively. All exterior light fixtures shall be vandal resistant. (Planning, Police)
63. The parking lot shall have properly posted signs that state the use of the parking area is for the exclusive use of employees and customers of this project. (See California Vehicle Code Sections 22507.8, 22511.5,

22511.8, 22658(a), and the City of Roseville Municipal Code Section 11.20.110). The location of the signs shall be shown on the approved site plan. (Planning, Police)

64. It is the developer's responsibility to notify PG&E of any work required on PG&E facilities. (PG&E)

DURING CONSTRUCTION & PRIOR TO ISSUANCE OF OCCUPANCY PERMITS:

65. Any backflow preventers visible from the street shall be painted green to blend in with the surrounding landscaping. The backflow preventers shall be screened with landscaping and shall comply with the following criteria:

- a. There shall be a minimum clearance of four feet (4'), on all sides, from the backflow preventer to the landscaping.
- b. For maintenance purposes, the landscaping shall only be installed on three sides and the plant material shall not have thorns.
- c. The control valves and the water meter shall be physically unobstructed.
- d. The backflow preventer shall be covered with a green cover that will provide insulation. (Planning, Environmental Utilities)

66. The following easements shall be provided by separate instrument and shown on the site plan, unless otherwise provided for in these conditions:

- a. Water, sewer, and reclaimed water easements.
- b. Additional internal easements will be required to cover primary electrical facilities to the project when the final electrical design is completed. (Electric)

67. Easement widths shall comply with the City's Improvement Standards and Construction Standards. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville". All legal descriptions shall be prepared by a licensed land Surveyor. All existing public utility, electric, water, sewer and reclaimed water easements shall be maintained unless otherwise authorized by these conditions of approval. (Public Works, Environmental Utilities, Electric)

68. Inspection of the potable water supply system on new commercial/ industrial/ office projects shall be as follows:

- a. The Environmental Utilities Inspector will inspect all potable water supply up to the downstream side of the backflow preventer.
- b. The property owner/applicant shall be responsible for that portion of the water supply system from the backflow preventer to the building. The builder/contractor shall engage a qualified inspector to approve the installation of this portion of the water supply. The Building Division will require from the builder/contractor, a written document certifying that this portion of the potable water supply has been installed per improvement plans and in accordance with the Uniform Plumbing Code. This certificate of compliance shall be submitted to the Building Division before a temporary occupancy or a building final is approved.
- c. The building inspectors will exclusively inspect all potable water supply systems for the building from the shutoff valve at the building and downstream within the building. (Building, Environmental Utilities)

69. All improvements being constructed in accordance with the approved grading and improvement plans shall be accepted as complete by the City. (Engineering)

70. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUE's) located along public roadways. (Engineering)

71. The Kaiser Permanente Health Plan shall update the existing Transportation Systems Management (TSM) Agreement for Kaiser Riverside and Cirby Medical Office Building to be reviewed and approved by the City Manager. (Alternative Transportation)
72. Water, sewer and reclaimed water shall be constructed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards. (Environmental Utilities)
73. All water backflow devices shall be tested and approved by the Environmental Utilities Department. (Environmental Utilities)
74. **Restaurants or other Food Service Establishment (FSE).** The applicant shall design for installation and/or install an exterior grease interceptor if the proposed business could potentially discharge substances containing fats, oils and grease (FOG) into the sewer system. The grease interceptor shall be adequate to separate and remove FOG contained in the wastewater from FSE's prior to discharge to the public sewer. (Environmental Utilities)
75. In the event an exterior grease interceptor cannot be installed due to space limitation, the developer shall install a grease trap, per City Standards, that will mechanically separate the FOG contained in the wastewater from the FSE prior to discharge to the public sewer. (Environmental Utilities)
76. Pursuant to the Municipal Code, the applicant shall apply for and obtain a FOG waste discharge permit (FOG WDP) from the Environmental Utilities Industrial Waste Division prior to occupancy or prior to discharging waste to the public sewer. The applicant shall submit information required by the Environmental Utilities Department for evaluation, including but not limited to: site plans, floor plans, mechanical and plumbing plans, and details to show all sewers, FOG control device, grease interceptor or other pretreatment equipment and appurtenances by size, location and elevation. Additional information related to the applicant's business operations and potential discharge may be requested to properly evaluate the FOG WDP application. (Environmental Utilities)
77. All Electric Department facilities, including streetlights where applicable, shall be designed and built to the "City of Roseville Specifications for Commercial Construction." (Electric)
78. The City of Roseville Electric Department has electrical construction charges which are to be paid by the developer and which are explained in the City of Roseville "Specification for Commercial Construction." These charges will be determined upon completion of the final electrical design. (Electric)
79. Any relocation, rearrangement, or change of existing electric facilities due to this development shall be at the developer's expense. (Electric)
80. Any facilities proposed for placement within public/electric utility easements shall be subject to review and approval by the Electric Department before any work commences in these areas. This includes, but is not limited to, landscaping, lighting, paving, signs, trees, walls, and structures of any type. (Electric)
81. All electric metering shall be directly outside accessible. This can be accomplished in any of the following ways:
 - a. Locate the metered service panel on the outside of the building.
 - b. Locate the metered service panel in a service room with a door that opens directly to the outside. The developer will be required to provide a key to the door for placement in a lock box to be installed on the outside of the door. Any doors leading from the service room to other areas of the building shall be secured to prohibit unauthorized entry. (Electric)
82. One 3/4" conduit with a 2-pair phone line shall be installed from the buildings telephone service panel to the meter section of the customer's electrical switchgear or panel. (Electric)
83. It is the responsibility of the developer to insure that all existing electric facilities remain free and clear of any obstruction during construction and when the project is complete. (Electric)

84. No grading shall be permitted within five feet (5') of the 60kV poles along Cirby Way without approval from Roseville Electric. (Electric)
85. The grading along Cirby Way may require the developer pay for relocation of the 60kV pole, as determined by Roseville Electric. The determination of relocation will be based on the amount of grading and if the cut is significant enough that the resulting grade reduces the burial depth to an unsafe level based on Roseville Electric's specifications. (Electric)
86. The grade modification to Cirby Way will require relocation of the existing electric conduits, conductors and potentially the transformer serving the Security Public Storage, Streetlights and signals at the intersection of Cirby Way and Riverside Ave. Temporary facilities may need to be constructed to reduce outage time for critical services. (Electric)
87. The modification of the intersection at Cirby Way and Cirby Hills Drive will require the removal of the streetlight on the south east corner of the intersection. (Electric)
88. The exit only driveway on the south side of Cirby Way will require the relocation of the streetlight at this location. (Electric)
89. The proposed private site lighting within the PUE on the south side of Cirby Way will need to be modified to ensure it does not negatively impact the relocation of the roadway lighting. (Electric)
90. There is a portion to the east of the main building that appears to be a utility yard with some boxes drawn and no labels identifying these structures. If the intent is to utilize this location for the utility transformer and customer owned switchgear, than the details should be submitted to the electric department for review to ensure that there is proper working clearances and that the arrangement complies with the utilities specification for commercial construction. (Electric)
91. No demolition of electric facilities should be shown on these plans without coordinating these modifications with the Roseville Electric Improvement Plans. (Electric)
92. All electric facilities on this site shall be protected during construction. (Electric)

OTHER CONDITIONS OF APPROVAL:

93. Signs shown on the elevations are not approved as part of the Major Project Permit. A Sign Permit is required for all project signs. (Planning)
94. Following the installation of the landscaping, all landscape material shall be maintained in a healthy and weed free condition; dead plant material shall be replaced immediately. All trees shall be maintained and pruned in accordance with the accepted practices of the International Society of Arboriculture (ISA). (Planning)
95. The City reserves the right to restrict vehicle turning movements within the public right-of-way in the future if deemed necessary by the City Engineer. As such, the City will monitor vehicular movements from the proposed egress only driveway on Cirby Way. If at any time the City deems vehicles egressing from this driveway are not following the way finding signs to Orlando Ave, not abiding by the No U-Turn signage for eastbound Cirby Way left turns at the Cirby Hills traffic signal and are causing traffic delays by excessive queuing in the eastbound left turn pocket at the Cirby Hills traffic signal, the City shall require that the egress only driveway be blocked with a gate and used for emergency vehicle access only. (Engineering)
96. The required width of fire apparatus access roads shall not be obstructed in any manner, including the parking of vehicles. Minimum required widths and vertical clearances established by the Fire Code shall be maintained at all times during construction. Closure of accesses for fire apparatus by gates, barricades and other devices shall be prohibited unless approved by the Fire Chief. (Fire)

97. Temporary aboveground storage tanks may be used at construction sites for diesel fuel only and shall not exceed 1,000 gallon capacity. Tanks shall comply with all provisions found within the Fire Code. A Fire Department Permit shall be obtained prior to tank installation. The permit shall expire after 90 days from the date of issuance, unless extended by the Fire Chief. (Fire)
98. If site survey or earth moving work results in the discovery of hazardous materials in containers or what appears to be hazardous wastes released into the ground, the contractor or person responsible for the building permit must notify the Roseville Fire Department immediately. A representative from the Fire Department will make a determination as to whether the incident is reportable or not and if site remediation is required. (Fire)
99. The location and design of the gas service shall be determined by PG&E. The design of the gas service for this project shall not begin until PG&E has received a full set of City approved improvement plans for the project. (PG&E)
100. The project is subject to the noise standards established in the City's Noise Ordinance. In accordance with the City's Noise Ordinance project construction is exempt between the hours of seven a.m. and seven p.m. Monday through Friday, and between the hours of eight a.m. and eight p.m. Saturday and Sunday. Provided, however, that all construction equipment shall be fitted with factory installed muffling devices and that all construction equipment shall be maintained in good working order. (Building)
101. The developer (or designated consultant) shall certify that the building foundation location has been placed according to all approved setback requirements shown on the approved site plan. The developer shall prepare a written statement confirming building placement and provide an original copy to the City Building Department Field Inspector at the time of or prior to the foundation inspection. (Building)
102. Prior to Certificate of Occupancy, the applicant may apply for a Temporary Occupancy (TO) of the building. If a TO is desired, the applicant must submit a written request to the Building Division a minimum of thirty (30) days prior to the expected temporary occupancy date and shall include a schedule for occupancy and a description of the purpose for the Temporary Occupancy. (Building)
103. Concurrent with submittal for plan check and prior to a request for final building inspection, the applicant may request City approval of an occupancy phasing plan to allow individual or multiple building occupancies. This request shall be made in writing to the Building Division and shall include 10 copies of the following:
 - a. A description of measures that will be undertaken to minimize conflict between residents/ building occupants and construction traffic (e.g. fencing, etc.);
 - b. A phasing plan showing the proposed buildings, internal roads and access routes, landscaping, trash enclosure locations, and any other improvements planned for each phase; and
 - c. Estimated time frame for each phase and a specific date for the first phase. (Planning, Building)

CONDITIONS OF APPROVAL FOR TREE PERMIT

TREE PERMIT CONDITIONS AND COMPLIANCE VERIFICATION/INSPECTION CHECKLIST

CONDITION	COMPLIANCE VERIFIED/ INSPECTED	COMMENTS
PRIOR TO ISSUANCE OF ANY PERMITS OR ANY CONSTRUCTION ON-SITE		
1. All recommendations contained in the Arborist Report (Exhibit D) shall be incorporated as part of these conditions except as modified herein. (Planning)		

2. Tree 679 (as listed in Exhibit D) is approved for removal with this tree permit. All other protected native oak trees shall remain in place. Trees to be removed shall be clearly marked in the field and inspected by Planning Staff prior to removal. Removal of the trees shall be performed by or under the supervision of a certified arborist. (Planning)		
3. The developer shall be responsible for the replacement of the total number of inches proposed for removal prior to any tree removal. The total number of inches for this project is seven. Mitigation must be provided prior to tree removal unless otherwise approved in the tree replacement plan or in these conditions. (Planning)		
4. No activity shall be permitted within the protected zone of any native oak tree beyond those identified by this report. (Planning)		
5. A \$10,000 cash deposit or bond (or other means of security provided to the satisfaction of the Planning Division) shall be posted to ensure the preservation of all remaining trees during construction. The cash deposit or bond shall be posted in a form approved by the City Attorney. Each occurrence of a violation on any condition regarding tree preservation shall result in forfeiture of all or a portion of the cash deposit or bond. (Planning)		
6. A violation of any of the conditions of this Tree Permit is a violation of the Roseville Municipal Code, the Zoning Ordinance (Chapter 19.74) and the Tree Preservation Ordinance (Chapter 19.66). Penalties for violation of any of the conditions of approval may include forfeiture of the bond, suspension or revocation of the permit, payment of restitution, and criminal penalties. (Planning)		
7. A fencing plan shall be shown on the approved site plan and/or improvement plans demonstrating the Protected Zone for the affected trees. A maximum of three feet beyond the edge of the walls, driveway, or walkways will be allowed for construction activity and shall be shown on the fencing plan. The fencing plan shall be reviewed and approved by the Planning Division prior to the placement of the protective fencing. (Planning)		
8. The applicant shall install a minimum of a five-foot high chain link fence (or acceptable alternative) at the outermost edge of the Protected Zone of the oak tree. The fencing for encroachments shall be installed at the limit of construction activity. The applicant shall install signs at two equidistant locations on the temporary fence that are clearly visible from the front of the lot and where construction activity will occur. The size of each sign shall be a minimum of two feet (2') by two feet (2') and must contain the following language: "WARNING THIS FENCE SHALL NOT BE REMOVED OR RELOCATED WITHOUT WRITTEN AUTHORIZATION FROM THE PLANNING DIVISION". (Planning)		
9. Once the fencing is installed, the applicant shall schedule an appointment with the Planning Division to inspect and approve the temporary fencing before beginning any construction. (Planning)		
10. The applicant shall arrange with the arborist to perform, and certify in writing, the completion of deadwooding, fertilization, and all other work recommended for completion prior to the approval of improvement plans. Pruning shall be done by an Arborist or under the direct supervision of a Certified Arborist, in conformance with International Society of Arboriculture (I.S.A.) standards. Any watering and deep root fertilization which the arborist deems necessary to protect the health of the trees as noted in the arborist report or as otherwise required by the arborist shall be completed by the applicant. (Planning)		

11. A utility trenching pathway plan shall be submitted depicting all of the following systems: storm drains, sewers, water mains, and underground utilities. The trenching pathway plan shall show the proposed locations of all lateral lines. (Planning)		
12. A Site Planning Meeting shall be held with the applicant, the applicant's primary contractor, the Planning Division and the Engineering Division to review this permit, the approved grading or improvement plans, and the tree fencing prior to any grading on-site. The Developer shall call the Planning Division and Engineering Division two weeks prior to the start of grading work to schedule the meeting and fencing inspection. (Planning)		
DURING CONSTRUCTION		
13. The following information must be located on-site during construction activities: Arborist Report; Approved site plan/improvement plans including fencing plan; and, Conditions of approval for the Tree Permit. All construction must follow the approved plans for this tree permit without exception. (Planning)		
14. All preservation devices (aeration systems, oak tree wells, drains, special paving, etc.) shall be designed and installed as required by these conditions and the arborist's recommendations, and shall be shown on the improvement plans or grading plans. (Planning)		
15. If any native ground surface fabric within the Protected Zone must be removed for any reason, it shall be replaced within forty-eight (48) hours. (Planning)		
16. Storage or parking of materials, equipment and vehicles is not permitted within the protected zone of any oak tree. Vehicles and other heavy equipment shall not be operated within the Protected Zone of any oak tree. (Planning)		
17. Where recommended by the arborist, portions of the foundation shall be hand dug under the direct supervision of the project arborist. The certified arborist shall immediately treat any severed or damaged roots. Minor roots less than one (1) inch in diameter may be cut, but damaged roots shall be traced back and cleanly cut behind any split, cracked or damaged area. Major roots over one (1) inch in diameter may not be cut without approval of an arborist and any arborist recommendations shall be implemented. (Planning)		
18. The temporary fencing shall remain in place throughout the entire construction period and shall not be removed without obtaining written authorization from the Planning Division. In no event shall the fencing be removed before the written authorization is received from the Planning Division. (Planning)		
PRIOR TO ISSUANCE OF AN OCCUPANCY PERMIT		
19. Within 5 days of the completion of construction, a Certification Letter from a certified arborist shall be submitted to and approved by the Planning Division. The certification letter shall attest to all of the work (regulated activity) that was conducted in the protected zone of the tree, either being in conformance with this permit or of the required mitigation still needing to be performed. (Planning)		
20. A copy of this completed Tree Permit Compliance Verification/Inspection form shall be submitted to the Planning Division. (Planning)		
21. The approval of this Tree Permit shall expire on the same date as the Major Project Permit Stage 2. (Planning)		

CONDITIONS OF APPROVAL FOR GENERAL PLAN AMENDMENT
--

1. The project is approved as shown in Exhibit T. (Planning)

COUNCIL COMMUNICATION

File #: 0300

Title:	Municipal Code Amendment - Repeal of Public Dance Ordinance and Entertainment Ordinance Amendment
Contact:	Dee Dee Gunther 916-774-5015 ddgunther@roseville.ca.us

Meeting Date: 6/21/2017

Item #: 10.3.

RECOMMENDATION TO COUNCIL

Open the public hearing, receive comments from the public, close the public hearing, and by motion adopt for first reading an ordinance to repeal Chapter 9.40 of Title 9 of the Roseville Municipal Code regarding public dance permits, and amend Chapter 9.45 of Title 9 of the Roseville Municipal Code regarding entertainment permits.

BACKGROUND

The Roseville Municipal Code authorizes the police department to issue permits to bars, nightclubs, and restaurants that serve alcohol and offer dancing, shows and other entertainment. The purpose is to protect public safety by ensuring the businesses have good safety and security measures in place to minimize public drunkenness, excessive noise, fights and other disorderly conduct.

Currently the Municipal Code has two different ordinances that regulate such businesses, depending on where they're located. Certain businesses located in the Downtown Specific Plan, which includes Historic Old Roseville and Vernon Street, are required by Chapter 9.45 of the Municipal Code to obtain "entertainment permits" if they serve alcohol late at night (past 11:00 p.m.), and/or offer dancing, live music, shows, or similar entertainment.

The same kind of establishments anywhere outside the Downtown Specific Plan are governed by a different ordinance, Chapter 9.40, regulating "public dances." If businesses have floor space for dancing and offer dancing to live or recorded music, either year-round or for a special event, then they're required to obtain a public dance permit. Both ordinances have similar requirements designed to protect public safety and minimize disorderly conduct, and they both give the police department the ability to conduct a limited criminal background check on the applicants, review and approve security plans, place reasonable conditions on operations, and suspend permits for serious or repeated violations.

The new ordinance proposed by staff will eliminate public dance permits and institute a single entertainment permit for all qualified businesses throughout the city. We have seen a decrease in

calls for service in the Historic Old Roseville and Vernon Street areas since the entertainment permit went into place five years ago in those areas, but have since seen an increase in the areas not subject to the entertainment permit. These increased problems include disorderly conduct such as fights, excessive noise, and most seriously a shooting at a Roseville nightclub on July 1, 2016 resulting in more than a hundred rounds being fired around the business and surrounding parking lots from numerous rifles and handguns, some rounds striking surrounding residences and businesses.

Successful application of the proposed entertainment ordinance could have prevented the problems we are seeing. The various incidents have caused staff to reevaluate the impact of the entertainment ordinance and the limitations of the dance permit, and led to staff's proposal for this single city-wide entertainment ordinance. This also creates an even playing field for all businesses in the community so that no bad actor is given an advantage over a law abiding business.

Major changes to the entertainment ordinance include:

- It expands the definition of "disorderly conduct" that the permit holder is expected to prevent or curtail to include drug trafficking, lewd conduct, disturbing the peace, and other conduct that violates the Roseville Municipal Code. This new definition brings our ordinance in line with State law.
- It repeals the public dance ordinance and makes the entertainment ordinance applicable citywide, rather than just in the Downtown Specific Plan Area.
- Understanding that restaurants who serve alcohol for on-site consumption past 11:00 p.m. would need to obtain the permit, staff changed the qualifying alcohol service time from 11:00 p.m. to midnight in order to exclude almost all restaurants from needing to obtain an entertainment permit.
- It adds the definition of "premises," where the permit-holder is expected to exercise reasonable control and discourage disorderly conduct, to include the entire parcel where the entertainment venue is located. This will include any structures, outdoor seating areas and parking lots that are part of the parcel owned, leased, occupied or under the control of the permit holder.

Stakeholder outreach

With the help of the Roseville Area Chamber of Commerce, staff contacted over thirty restaurants, bars and other entertainment venues potentially affected by the new ordinance. Staff believes that with the new entertainment permit ordinance only three or four restaurants would be required to obtain an entertainment permit based on the activities they offer or their current hours of alcoholic beverage service. Staff met with these businesses who expressed no concern over obtaining the permit. Though only three or four restaurants are expected to be impacted by the entertainment ordinance, staff notified the other businesses because they could be affected in the future if they expand their hours of alcoholic beverage service. Staff attended six public meetings, including five Roseville Area Chamber of Commerce led outreach meetings in order to accommodate various schedules for the business owners. A total of six businesses attended these meetings. The business representatives were generally supportive, and none indicated opposition to the new ordinance.

The following table summarizes the noteworthy differences between the two existing ordinances and the proposed new consolidated ordinance.

	Public Dance Ordinance (to be repealed)	Entertainment Ordinance (existing)	Proposed new Entertainment Ordinance
Geographic area	Anywhere in City <u>except</u> the Downtown Specific Plan	Downtown Specific Plan (Historic Old Roseville & Vernon	Citywide

		St.)	
Defining activities	Public dance open to public with floor space for dancing, or a private dance with 20 or more attendees	Performances, shows and similar entertainment, dancing, and/or serving alcohol after 11 p.m.	Performances, shows and similar entertainment, dancing, and/or serving alcohol after midnight
Exempted events and organizations	City of Roseville, religious, school and charitable, dramatic or literary organizations	Entertainment sponsored by the City of Roseville, Placer County, boards of education or other political subdivisions of the state; non-profit youth organizations (with certain conditions); business improvement districts; private clubs; private events such as weddings; theme parks, parades, theaters, political fundraisers; free ambient or “background” music; entertainment provided for gatherings of 49 or fewer people	Same as existing entertainment ordinance
Definition of “disorderly conduct”	Off-premise consumption of alcohol, being drunk in public, obstructing the street or sidewalk, littering, fighting & other public nuisances and violations of law	Same as public dance ordinance, plus loud speaking or shouting	Same as existing entertainment ordinance plus any other violations of the Municipal Code, drug trafficking, lewd conduct and disturbing the peace.
Areas where the permit holder is responsible for security measures designed to prevent and minimize disorderly conduct	Establishment and 50’ surrounding area	Establishment and 20’ surrounding area	“Premises” (to encompass whole parcel, including structures, outdoor seating and parking lots) and 20’ surrounding area
Length of permit & permit fee, excluding fingerprinting costs	One year, \$100	Two years, \$200	Two years, \$200
Suspension	Sets forth grounds for	Sets forth grounds for	Same as existing

procedures	suspension and appeals process, including hearing with chief of police, then city manager	suspension and appeals process, using the standard City appeals process with City's Board of Appeals, then Superior Court	entertainment ordinance, but also allows chief of police to modify a permit through a negotiated settlement with permittee and the concurrence of the City Attorney
------------	---	---	---

FISCAL IMPACT

Permits under the new ordinance will have the same annual cost as the current public dance and entertainment permits. Public dance permits currently cost \$100 for a one-year permit.

Entertainment permits cost \$200 for a two-year permit. Under the proposed ordinance, permits will continue to cost \$200 for a two-year permit, but the change will result in a small increase in revenue for the City, as new establishments will be required to obtain permits.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable to this ordinance.

ENVIRONMENTAL REVIEW

This modification of an entertainment ordinance is not considered a "project" as defined by the California Environmental Quality Act (CEQA) (CEQA Guidelines §15378). Consequently no CEQA action is required.

Respectfully Submitted,

Doug Blake, Police Lieutenant

Daniel Hahn, Police Chief

Rob Jensen, City Manager

Description

Proposed Ordinance

ORDINANCE NO. ____

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE REPEALING CHAPTER
9.40 OF TITLE 9 OF THE ROSEVILLE MUNICIPAL CODE REGARDING PUBLIC DANCE
PERMITS AND AMENDING CHAPTER 9.45 OF TITLE 9 OF THE ROSEVILLE
MUNICIPAL CODE REGARDING ENTERTAINMENT ESTABLISHMENTS

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Chapter 9.40 of Title 9 of the Roseville Municipal Code is hereby repealed
in its entirety.

SECTION 2. Section 9.45.020 of Chapter 9.45 of Title 9 of the Roseville Municipal
Code is hereby amended as follows:

9.45.020 Definitions.

The following definitions shall apply for purposes of this chapter:

“ABC license” means the license issued by the California Department of Alcoholic
Beverage Control.

“Admission charge” means any charge for the right or privilege to enter any place of
entertainment including a minimum service charge, an event charge, a cover charge, a charge for
the use of seats and tables, or any other similar charge. It also includes the purchase or
presentation of a ticket, token or equivalent directly or indirectly required as a condition for

entrance. It does not include tips, gratuities, voluntary donations, or suggested donations for employees or for any person providing entertainment.

“Chief of police” includes the chief of police of the City of Roseville and his or her designee.

“City manager” includes the city manager of the City of Roseville and his or her designee.

“City attorney” includes the city attorney of the City of Roseville and his or her designee.

“Dance” and “dancing” mean movement of the human body, accompanied by music or rhythm.

“Disorderly conduct” means any of the following: consumption of alcoholic beverages on public property, public drunkenness, obstructing the free passage of pedestrians over public sidewalks, the obstruction of free passage of vehicles within the public right-of-way, littering, fighting, loud speaking or shouting, drug trafficking, lewd conduct, disturbance of the peace, conduct that violates any provision of the Roseville Municipal Code, including but not limited to Chapters 9.24, 10.30, 10.34, 10.37, or 10.38, and such other conduct that constitutes a public nuisance or a violation of law.

~~“Downtown Specific Plan Area” means the Downtown Specific Plan Area as defined in Roseville Municipal Code Section 19.31.020 and as depicted in the Downtown Land Use Plan for the Downtown Specific Plan of the City of Roseville.~~

“Entertainment” or “entertainment establishment” means any single event, a series of events, or an ongoing activity or business, occurring alone or as part of another business, to

which the public is invited or allowed to watch, listen, or participate or that is conducted for the purposes of holding the attention of, gaining the attention of or diverting or amusing guests or patrons, including, but not limited to:

A. Presentations by single or multiple performers, such as hypnotists, mimes, comedians; musical song or dance acts, plays, concerts, any type of contest; sporting events, exhibitions, carnival, rodeo or circus acts, demonstrations of talent; shows, reviews and any other such activity which may be attended by members of the public.

B. Dancing to live or recorded music.

C. Serving alcohol after 12~~+~~⁺:00 ~~a~~^p.m. (This provision does not include sales of original, sealed containers for off-premises consumption pursuant to an exclusively off-sale alcoholic beverage license.)

D. The presentation of recorded music played on equipment which is operated by an agent or contractor of the establishment, commonly known as a “DJ” or “disc jockey.” Entertainment does not include ambient music provided through the use of a radio, stereo, juke box, music recording machine or other similar device.

“Entertainment permit” means any special permit issued by the city under this chapter related to the operation of a public dance, entertainment establishment, or amusement premises.

“Permittee” means a person, persons, or business entity that has been issued a permit as provided in this chapter.

“Person” means an individual(s), firm, association, partnership, corporation, company, governmental entity or organization or legal entity of any kind, and the legal representatives, agents, trustees, receivers, assigns, agents, servants, and employees of any such person.

“Premises” means any parcel(s) of property owned, leased, occupied, or under the control of a person where entertainment occurs, including but not limited to any structures, outdoor seating, or parking lots.

“Reasonable efforts” means the provision of an adequate number of licensed security personnel, the adoption and posting of operating policies that are consistent with the requirements of this code and the permit and the adherence to those policies, the documented training of employees in the carrying out of the establishment operating policies, notifying the police of apparent criminal activity, and the taking of all additional measures, consistent with sound business judgment, necessary to accomplish the required result.

“Responsible person” means the permittee, owner, proprietor, promoter, manager, assistant manager or other person present and exercising control over the operation of an entertainment establishment, whether or not that person is a named permittee.

“Special event” means entertainment conducted on private property where all of the following circumstances exist:

- A. The premises or location where the entertainment is to be conducted is not the subject of an existing entertainment permit issued pursuant to this chapter;
- B. The person sponsoring or offering the entertainment is not in the business of regularly offering entertainment to the public;

C. Entertainment will only be offered for a limited period of time, not to exceed five days; and

D. The entertainment is not a recurring or regularly scheduled event or celebration.

“Theater” means any commercial establishment where regular sporting events, concerts, motion picture screenings or theatrical performances are given, usually with a stage, and usually with ascending row seating or some arrangement of permanent seating.

SECTION 3. Section 9.45.030 of Chapter 9.45 of Title 9 of the Roseville Municipal Code is hereby amended as follows:

9.45.030 Entertainment permit required—Compliance with other laws.

A. Unless exempt pursuant to Section 9.45.040, it is unlawful for any person or premises, located in within the ~~Downtown Specific Plan Area~~ City of Roseville, to provide or permit any entertainment that is open to the public without an entertainment permit issued pursuant to this chapter.

B. Neither the obtaining of an entertainment permit nor compliance with the operating standards provided in this chapter shall obviate the need for, or excuse any noncompliance with, the zoning code, building code, fire code or any other or additional permit requirement or standard made applicable to the entertainment or entertainment establishment under any other provision of this code or state or federal law.

SECTION 4. Section 9.45.040 of Chapter 9.45 of Title 9 of the Roseville Municipal Code is hereby amended as follows:

9.45.040 Exemption from the permit requirement.

The following types of entertainment and events are exempt from the permit required by this chapter. This exemption does not relieve any entertainment establishment from complying with all other applicable laws, including, but not limited to, regulations related to noise levels and nuisances.

A. Entertainment sponsored by any agency of the City of Roseville, the county of Placer, the various boards of education, or by any other political subdivision of the state of California.

B. Entertainment sponsored by any school or nonprofit public benefit organization, such as Girl Scouts, Boy Scouts, Little League or Boys and Girls Club, whose primary objective is the sponsoring and control of youth activities and child welfare. If the event is a dance, the following requirements must be met:

1. No person 18 years of age or older may be admitted as a guest, unless such person is a bona fide student at, or member of, the sponsoring agency or organization;
2. No alcoholic beverages may be served, consumed or permitted on the premises;
3. Chaperones from the sponsoring agency are present on the premises at the rate of two adults, who are at least 25 years of age or older, for every 100 guests; and

4. The event must finish by 12:00 a.m. and the premises and the adjoining parking lots must be promptly vacated by all the guests.

C. Entertainment lawfully conducted at any city park, building or recreational facility.

D. Entertainment lawfully conducted entirely upon property owned or controlled by a governmental entity.

E. Entertainment sponsored by a city authorized business improvement district or area when:

1. The business improvement district or area is created pursuant to and is abiding by state law, and in compliance with agreements between the business improvement district or area and the city;

2. The event is for the purpose of improving the area encompassed by the business improvement district or area; and

3. The business improvement district or area is the responsible person for the event.

F. Entertainment limited to the use of a radio, music recording machine, juke box, television, video games, video programs, or recorded music by an establishment that does not permit dancing.

G. Entertainment provided for members and their guests at a private club having an established membership when admission is not open to the public. For purposes of this section, private club means a corporation or association operated solely for objects of national, social, fraternal, patriotic, political, or athletic nature, in which membership is by application and

regular dues are charged, and the advantages of which club belong to members, and the operation of which is not primarily for monetary gain.

H. Entertainment provided [solely](#) for invited guests at a private event such as a wedding reception, banquet, or celebration where there is no admission charge.

I. Entertainment conducted in connection with a regularly established theme park.

J. Parades; however, a special events permit is required per Chapter 9.36.

K. Street performers such as musicians, singers or mimes.

L. Entertainment conducted or sponsored by any religious organization, bona fide club, organization, society or association that is exempt from taxation pursuant to Internal Revenue Code Section 501(c)(3), when all proceeds, if any, arising from such entertainment are used exclusively for the benevolent purposes of such religious organization, club, society or association.

M. Performances by the students at educational institutions as defined by the Education Code where such performances are part of an educational or instructional curriculum or program.

N. Theaters.

O. Motion picture theaters not providing live entertainment.

P. Dance lessons, theatrical and performing arts lessons and student recitals, provided that no alcoholic beverages are served on the premises.

Q. Book readings, book signings, poetry recitations, and any other similar entertainment consisting of the spoken word, including plays.

R. Fundraisers for a political or charitable cause, provided that 100 percent of the proceeds are used for the purposes of the political or charitable cause.

S. Entertainment consisting of ambient or incidental music provided for guests or patrons by musicians such as a piano player, harpist, strolling violinist, mariachi band, guitarist or band. If there is an admission charge or other charge required to observe or attend such entertainment, the music will not be considered ambient or incidental.

T. Any establishment, venue or assemblage of 49 persons or less, as described in the maximum occupancy load.

U. Entertainment conducted in any hotel or motel having in excess of 100 rentable rooms or suites.

V. Entertainment lawfully conducted at any of the following regulated businesses:

1. Adult-oriented businesses, regulated under Chapter 9.11; or
2. Bingo, regulated under Chapter 10.62.

W. The normal and customary fitness services provided by an athletic club or fitness center.

SECTION 5. Section 9.45.070 of Chapter 9.45 of Title 9 of the Roseville Municipal Code is hereby amended as follows:

9.45.070 Disturbing the peace—Disorderly conduct.

Each responsible person shall make reasonable efforts to prevent the admittance of any person whose conduct is described as “disorderly conduct” under this Chapter, including but not limited to such conduct as described in Penal Code Section 415 (fighting, loud noise, offensive words in public places) or 647 (disorderly conduct) at the premises or on any parking lot or similar facility used by the establishment. Each responsible person shall make reasonable efforts to remove any persons exhibiting such conduct from the establishment and the vicinity.

SECTION 6. Section 9.45.110 of Chapter 9.45 of Title 9 of the Roseville Municipal Code is hereby amended as follows:

9.45.110 Disorderly conduct within 20 feet of premises prohibited.

Each responsible person shall make reasonable efforts to control the conduct of patrons so as to prevent or minimize disorderly or unlawful conduct within the ~~establishment~~premises and within 20 feet of the ~~establishment~~premises.

SECTION 7. Section 9.45.120 of Chapter 9.45 of Title 9 of the Roseville Municipal Code is hereby amended as follows:

9.45.120 Orderly dispersal required.

Each responsible person shall use reasonable efforts to cause the orderly dispersal of individuals from the vicinity of the ~~establishment~~ premises at closing time, and shall not allow them to congregate within 20 feet of the ~~establishment~~ premises ~~in a disorderly fashion~~ so as to result in disorderly conduct.

SECTION 8. Section 9.45.140 of Chapter 9.45 of Title 9 of the Roseville Municipal Code is hereby amended as follows:

9.45.140 Chief of police authority where there is immediate threat to public safety.

A. The chief of police may require a permittee or responsible person to close down operations and disperse all persons for the remainder of its daily operation whenever disorderly conduct by ~~disorderly~~ patrons reaches a magnitude that presents an immediate and ongoing threat to the public safety or well-being of the patrons and general public in the vicinity.

B. Circumstances constituting an immediate threat to the public safety include, but are not limited to, the following:

1. There is an immediate ongoing and likely to continue threat of bodily harm or injury to a person or persons.

2. There is a clear and present danger of riot, disorder or unlawful interference with traffic upon the public streets.

3. When the occupancy rules are being violated.

C. It is unlawful for any person to fail to comply with any directive issued by the chief of police under authority of subsection A.

SECTION 9. Section 9.45.160 of Chapter 9.45 of Title 9 of the Roseville Municipal Code is hereby amended as follows:

9.45.160 Application for permit—Posting premises.

A. All applications for permits shall be filed with the chief of police on such forms as he or she may prescribe, and shall contain all of the following:

1. The name and permanent address of the applicant and all other persons having a financial interest in the operation of the entertainment, business or premises where the entertainment is to be located.

2. A description of the proposed entertainment, including the maximum number of persons who are expected to be present within the ~~entertainment establishment~~premises at any one time.

3. The proposed opening date and hours of operation of the entertainment establishment.

4. For special or limited duration events, the date or dates, hours and location of the proposed entertainment.

5. The proposed security arrangements for the control of patrons.
 6. The name or names of the person or persons having management or supervision authority over the proposed entertainment, or any business or premises wherein the entertainment is proposed to be located.
 7. Whether the applicant or any other responsible person(s) have been convicted of a misdemeanor or felony offense within the past five years, the nature of such offense(s), and the sentence(s) imposed therefor.
 8. Written consent for the proposed entertainment on the premises from the owner of the property on which the entertainment is to be conducted.
 9. Such other information as the chief of police shall deem necessary for the proper processing and review of the application.
- B. The applicant and all responsible persons shall submit to fingerprinting by the chief of police.
- C. Upon receipt of a complete application, the chief of police shall provide to the applicant a notice of application for entertainment permit. The applicant shall post the notice on the exterior of the premises for which the permit is sought within 24 hours after receiving the notice and for no less than 14 calendar days, or in the case of an application for an entertainment permit for a special event for a period no less than 48 hours, in a location that allows interested members of the public to read the notice.
- D. Except as provided below, the chief of police shall either approve or deny the entertainment permit within 60 calendar days of receipt of the complete application. The chief of

police may extend the time for consideration of the application by not more than 20 calendar days.

E. The chief of police shall either approve or deny the entertainment permit for a special event within five calendar days of receipt of the complete application. The chief of police may extend the time for consideration of the application by not more than five calendar days.

SECTION 10. Section 9.45.230 of Chapter 9.45 of Title 9 of the Roseville Municipal Code is hereby amended as follows:

9.45.230 Effect of revocation.

In the event an application for a permit is revoked by the chief of police, no application for a permit to conduct the proposed activity at the same location shall be considered by the chief of police for a period of one year from the date of revocation, unless sufficient proof of ~~legitimate~~ adequate change of ownership has been presented to the chief of police.

SECTION 11. Section 9.45.240 of Chapter 9.45 of Title 9 of the Roseville Municipal Code is hereby amended as follows:

9.45.240 Suspension, modification or revocation of permit.

1. After notice to the permittee and an opportunity for a hearing as provided in this section, the chief of police may suspend, modify or revoke any permit issued pursuant to the provisions of this chapter for any of the following reasons:

A. The entertainment has been conducted in a manner contrary to the findings for the issuance of a permit set forth in Section 9.45.190(B);

B. The permittee has failed to comply with one or more conditions of the permit;

C. The entertainment has created sound levels that violate the city code;

D. The permittee or his or her employees, agents, or representatives have violated or are violating federal, state or local laws, rules or regulations in connection with the entertainment;

E. The entertainment has been conducted in an illegal or disorderly manner or has been conducted in such a manner as to constitute an unreasonable burden on the reasonable use and enjoyment of neighboring properties;

F. The applicant has knowingly made a false statement of material fact or has knowingly omitted a material fact in the application;

G. The entertainment has created or is creating a nuisance;

H. The permittee or any other responsible person has violated any provision of this chapter; or

I. The modification has been requested by the permittee and the chief of police finds the modification is consistent with the provisions of this code and will not constitute a nuisance or an unreasonable burden upon city resources or the surrounding neighborhood.

2. The chief of police with the concurrence of the City Attorney may modify a permit, which is in violation of the above, by way of a negotiated settlement with the permittee.

SECTION 12. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 13. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

RECOMMENDATION TO COUNCIL

It is requested that the City Council adopt the following resolutions (attached):

1. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for the Historic District Landscape and Lighting District (LLD), Fiscal Year 2017/2018.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Historic District Landscaping and Lighting District, for Fiscal Year 2017/2018.

2. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for the Infill Area Landscaping and Lighting District, Fiscal Year 2017/2018.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Infill Area Landscaping and Lighting District, for Fiscal Year 2017/2018.

3. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for Johnson Ranch Landscaping and Lighting District, Fiscal Year 2017/2018.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Johnson Ranch Landscaping and Lighting District, for Fiscal Year 2017/2018.

4. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for North Central Specific Plan Landscaping and Lighting District, Fiscal Year 2017/2018.

Resolution of the City Council of the City of Roseville, California, Ordering the Levy and Collection of Assessments within the North Central Specific Plan Landscaping and Lighting

District, Fiscal Year 2017/2018.

5. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for Northwest Roseville Specific Plan Landscaping and Lighting District, Fiscal Year 2017/2018.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Northwest Roseville Specific Plan Landscaping and Lighting District, for Fiscal Year 2017/2018.

6. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for Olympus Pointe Landscaping and Lighting District, Fiscal Year 2017/2018.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Olympus Pointe Landscaping and Lighting District, for Fiscal Year 2017/2018.

7. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for the Riverside Avenue Landscaping and Lighting District, Fiscal Year 2017/2018.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Riverside Avenue Landscaping and Lighting District, for Fiscal Year 2017/2018.

8. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for the Vernon Street Landscaping and Lighting District, Fiscal Year 2017/2018.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Vernon Street Landscaping and Lighting District, for Fiscal Year 2017/2018.

BACKGROUND

The City of Roseville currently has eight active Landscape and Lighting Districts. These districts were formed within the City of Roseville to levy and collect assessments for maintenance of public improvements pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code (the Act), and Article XIID of the California Constitution.

The Historic District Landscaping and Lighting District was formed in 2006 to levy and collect assessments for the maintenance, and operation of improvements benefiting parcels within the District. The cost of maintaining the streetscape improvements is spread equally to the subject properties, based on their percentage of the total front footage of all affected parcels. The District is located in the Historic Old Town area in Downtown Roseville.

The Infill Area Landscaping and Lighting District was formed in 1995 to levy and collect assessments for the maintenance of certain public improvements that benefit parcels within the

District. The District is located in the Infill Plan area.

The Johnson Ranch Landscaping and Lighting District was formed in 1989 to levy and collect assessments for the maintenance of certain public landscape, open space, floodway and stream courses located within the Southeast Roseville Specific Plan area.

The North Central Specific Plan Landscaping and Lighting District was formed in 1990 to levy and collect assessments for the maintenance of certain public improvements within the North Central Roseville Specific Plan area. In 2004, the property owners in the district approved, through a mailed ballot, an assessment increase and the addition of an annual escalation factor. This enables the City to keep up with increased costs associated with maintaining the landscaping at proper levels.

The Northwest Roseville Specific Plan Landscaping and Lighting District was formed in 1989 to levy and collect assessments for maintenance of certain public landscape medians and corridors, vernal pool preserves, bike trails, and park improvements. In 2004, the Dunmore Junction subdivision was annexed into the LLD as Zone A and the Legacy subdivision was annexed into Zone B. In 2006, the property owners voted against an assessment increase as well as the addition of an annual escalation factor.

The Olympus Pointe Landscaping and Lighting District was formed in 1989 to levy and collect assessments for the maintenance of certain public improvements within the Northeast Roseville Specific Plan Area. In 2005, the property owners in the district approved through a mailed ballot, an assessment increase and an annual escalation factor. This enables the City to keep up with increased costs associated with maintaining the landscaping at proper levels.

The Riverside Avenue Landscaping and Lighting District was formed in 2007 to levy and collect assessments for the maintenance, and operation of improvements benefiting parcels within the District. The cost of maintaining the streetscape improvements is spread equally to the subject properties, based on their percentage of the total front footage of all affected parcels.

The Vernon Street Landscape and Lighting District was formed in 2001 to levy and collect assessments for maintenance of improvements installed by the Vernon Streetscape. The cost of maintaining the streetscape improvements is spread equally to the subject properties on their percentage of the total front footage of all affected parcels.

Assessment Statistics:

<i>District</i>	<i>FY 2017-18 Levy</i>	<i>Maximum Annual Tax</i>	<i>Levied Parcels</i>	<i>% Change from 2015-16</i>	<i>Prior year</i>
					<i>FY 2016-17 Levy</i>
<i>Historic District LLD</i>	<i>\$40,807.30</i>	<i>\$40,807.30</i>	<i>56</i>	<i>3% Increase</i>	<i>\$39,618.74</i>

<i>Vernon Street LLD</i>	<i>\$36,084.94</i>	<i>\$36,085.00</i>	<i>62</i>	<i>3% Increase</i>	<i>\$34,853.83</i>
<i>Totals</i>	<i>\$1,527,156.73</i>	<i>\$1,711,090.10</i>	<i>10,999</i>		<i>\$1,505,905.46</i>

** Infill district increase due to each zone being close to or at max tax*

FISCAL IMPACT

All charges are needed to fully fund landscape services in each LLD.

ECONOMIC DEVELOPMENT / JOBS CREATED

Approving the resolutions will have an impact on local economic development and/or job creation. The City's landscaping contracts funded by the LLD assessments support approximately 24,000 production hours of work from hired contractors.

ENVIRONMENTAL REVIEW

Levying assessments for the landscape and lighting districts is considered statutorily exempt from CEQA (State CEQA Guidelines Section 15273). The project involves levying and collecting assessments for maintenance of public improvements pursuant to the Landscape and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code, and Article XIID of the California Constitution. Therefore, no further CEQA action is required.

Respectfully Submitted,

Vanessa Lieberman, Financial Analyst

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

WHEREAS, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Historic District Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

WHEREAS, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

WHEREAS, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 That the above recitals are all true and correct.

Section 2 That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

Section 3 That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

RESOLUTION NO. 17-255

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

WHEREAS, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Historic District Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

WHEREAS, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2017 and ending June 30, 2018, to pay for the maintenance and services of all improvements and facilities related thereto.

WHEREAS, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

Section 2 Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

Section 3 The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

Section 4 The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: the improvements within the District include: maintenance, servicing, administration and operation of landscape, lighting and streetscape improvements, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report describes all new improvements or substantial changes in existing improvements.

Section 5 The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

Section 6 The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Historic District Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

Section 7 The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018.

Section 8 The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

E.	REHABILITATION RESERVE CAPITAL IMPROVEMENT PLAN	18
	<u>APPENDIX A – DISTRICT BOUNDARY MAP</u>	<u>A</u>
	<u>APPENDIX B — 2017/18 ASSESSMENT ROLL</u>	<u>B</u>

I. OVERVIEW

A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the Historic District Landscaping and Lighting District (“District”). The District was formed on April 5, 2006 and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (“1972 Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2017 through June 30, 2018. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution order the improvements to be made and confirm the levy and collection of assessments herein pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District for Fiscal Year (“FY”) 2017/18. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

B. COMPLIANCE WITH THE CURRENT LEGISLATION

The City Council, pursuant to the provisions of the “Landscaping and Lighting Act of 1972”, being Division 15, Part 2 of the Streets and Highways Code of the State of California, beginning with Section 22500 (the “1972 Act”); Article XIID of the Constitution of the State of California (“Article XIID”); and the Proposition 218 Omnibus Implementation Act, beginning with Government Code Section 53750 (the “Implementation Act”) (the 1972 Act, Article XIID and the Implementation Act are referred to collectively as the “Assessment Law”) initiated proceedings for the formation of the District on February 15, 2006 and to levy and collect annual assessments against lots and parcels within the District for FY 06/07. On April 5, 2006, pursuant to Assessment Law, the City conducted a Public Hearing and

tabulated the returned ballots. The City determined that a majority protest did not exist and approved the District's maximum assessment rate and annual inflationary adjustment factor.

Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act and Assessment Law.

C. DESCRIPTION OF DISTRICT BOUNDARIES

The proposed territory within the District consists of all lots, parcels and subdivisions of land as shown on the Boundary Map titled "Boundary Map of Historic District Landscaping and Lighting District" as referenced in Appendix A-1 of this Report.

The District is located within the City's Historic Old Town, west of Highway 80, south of Pleasant Street, north and east of Washington Boulevard, and north and west of the Union Pacific Railroad. The District consists of mostly commercial parcels in a concentrated area of the Downtown primarily fronting the following streets: Church Street northeast of Washington Boulevard, Main Street between Washington Boulevard and Lincoln Street, Pacific Street and Lincoln Street where the improvements end approximately one block south of Pleasant Street.

D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE

The District, through the levy of special assessments, provides funding for ongoing maintenance, operation and servicing of landscaping and lighting improvements located within the public rights-of-ways and dedicated easements located within the District. These improvements may include, but are not limited to, all materials, equipment, utilities, labor, and appurtenant facilities related to the ongoing maintenance of the improvements.

Maintenance services will be provided by City personnel and/or private contractors. The proposed improvements to be maintained and services are generally described as follows:

Landscaping Improvements

The landscaping improvements have been designed to enhance the area within the District and may include, but are not limited to ground cover, shrubs and plants, trees, irrigation and drainage systems, trash receptacles, ornamental lighting, masonry walls or other fencing, hardscape improvements, monuments and landmarks, recreational facilities and associated appurtenants located within the street rights-of-way and public areas within the District. Specifically, the proposed landscape improvement areas for this District are:

- Parkway landscaping and hardscape improvements within the public right of ways of the streets within the district including, but not limited to, Lincoln Street, Main Street, Church Street, Pacific Street and the northeast side of Washington Boulevard estimated at 14,450 square feet of landscaping;
- Various amenities associated with the landscape improvements and public areas within the District, including, but not limited to, trash receptacles, street furniture, bike racks, entry signs, sidewalks, fencing, and retaining walls.

Specifically not included as District improvements are those improvements located on private property, improvements and facilities that are outside the boundaries of the District and/or are funded by other sources available to the City, including those portions of the median and parkway landscaping on Washington Boulevard (southwest side of the street) that are outside the District boundaries.

Public Lighting Improvements

The lighting improvements may include, but are not limited to, the cost of providing, maintaining and servicing of lighting fixtures, poles, meters, conduits, electrical cable, and associated appurtenant facilities associated with:

- Lighting facilities within the landscaped areas and public areas including safety lights, security lights or ornamental lights installed as part of the District improvements; and
- Public street light improvements located on the streets within the District.

Specifically excluded from the assessment are the street light energy costs. These costs will continue to be paid for by the City from other revenue sources.

Detailed maps of the locations and descriptions of the specific improvements to be maintained by the District are on file in the Office of Public Works and by reference are made part of this Report.

Description of Maintenance and Services

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of landscaping and street lighting improvements facilities and appurtenant facilities, including repair, removal or replacement of all or part of any of the landscaping and street lighting improvements, or appurtenant facilities; providing for the life, growth, health and beauty of landscaping improvements including cultivation, irrigation, trimming, mowing, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste; and the cleaning sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Servicing means the furnishing of water and electricity for the irrigation of the landscape improvements or appurtenant facilities and the furnishing of electric current or energy for the operation of the landscaping improvements or appurtenant facilities. The street lighting improvements shall be maintained to provide adequate illumination; however, the City will be paying the actual energy costs to provide illumination.

II. METHOD OF APPORTIONMENT

A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

The formula used for calculating assessments in the District therefore reflects the composition of the parcels, and the Improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

B. BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public

improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The costs of the proposed improvements have been identified and allocated to properties within the District based on special benefit. The improvements to be provided by this District and for which properties will be assessed have been identified as an essential component and local amenity that provides a direct reflection and extension of the properties within the District which the property owners and residents have expressed a high level of support.

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the landscape and lighting improvements within the District, and the assessment obligation for each parcel reflects that parcel’s proportional special benefits as compared to other properties that receive special benefits.

To identify and determine the proportional special benefit to each parcel within the District, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District. The various public improvements and the associated costs have been identified as either “general benefit” (not assessed) or “special benefit”.

The City initiated and conducted property owner protest ballot proceedings in accordance with Article XIIID. Each of the proposed Improvements, the associated costs and assessments were identified and allocated based on special benefit pursuant to the provisions of Article XIIID and 1972 Act. Additionally, the Improvements and the annual costs of ensuring the maintenance and operation of the Improvements are of direct and special benefit to the properties.

The City annually levies and collects special benefit assessments in order to maintain and service the District Improvements. The District provides for specific Improvements and services that include the maintenance and operation of landscaping and lighting Improvements and associated appurtenances located within the District’s public rights-of-way and dedicated easements. The annual

assessment is based on the historical and estimated costs to maintain the Improvements that provide a benefit to properties within these Districts. The Improvements within the District and the costs of those Improvements are identified and budgeted separately, including all expenditures, deficits, surpluses, revenues, and reserves.

All Improvements within the District and the properties associated with those Improvements were reviewed for benefit prior to the formation of the District. Because the Improvements affront the benefited parcels, it has been determined that there is no measurable general benefit to properties outside the District or to the public at large. In making this determination it should be noted that similar improvements within California are typically maintained by individual property owners, through some type of association or a special district as allowed by State Law since the on-going maintenance of these improvements are a special benefit to the properties associated with those improvements.

The method of apportionment (method of assessment) for the District is based on the premise that each of the assessed parcels within the District receives special benefit from the Improvements maintained and financed by District assessments. The presence of these Improvements and the close proximity of the Improvements to the properties within the District enhance the desirability and security of properties within the District.

The landscape Improvements provided by the District may include landscaped parkways, perimeters, entryways, local medians, slopes, internal amenities and appurtenant facilities. Street lighting Improvements may include all energy costs and necessary maintenance to the facilities related thereto. The annual assessments outlined in this Report are proposed to cover the estimated costs to provide all necessary service, operation, administration, and maintenance required to keep these Improvements in a healthy, vigorous, and satisfactory condition. The special benefits associated with the local landscaping Improvements are specifically:

The special benefits associated with all landscaping Improvements are specifically:

- Enhanced desirability of properties through association with the Improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate landscaping.
- Environmental enhancement through improved dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained Improvements associated with the properties.

- Enhanced quality of life through well-maintained landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The special benefits of street lighting are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on streets and roads within the Districts.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.
- Reduced vandalism and other criminal acts and damage to Improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.
- Increased promotion of business during nighttime hours in the case of commercial properties.

All of the preceding special benefits contribute to a specific enhancement and desirability of each of the assessed parcels within the District.

C. DESCRIPTION OF THE METHOD OF APPORTIONMENT

To establish the special benefit to the individual parcels within the District a formula that spreads the costs of the maintenance based on the special benefit must be established. The improvements have been reviewed and the following formula has been established to apportion the maintenance costs based on benefit.

For purposes of the Assessment Methodology, the terms hereinafter set forth have been the following meanings:

Acreage means the land area of an Assessor's Parcel as shown on an Assessor's Parcel map-, or if the land area is not shown on an Assessor's parcel map, the land area shown on the applicable final map, parcel map, condominium plan, record of survey or other recorded document creating and describing such area of land.

Multi-Family Residential means a residence for which building permits have been issued for more than attached residential units for rental purposes.

Single-Family Residential Unit means a single residential home. This land use includes detached or attached for sale units intended for single-family occupancy.

Commercial means property being used or zoned for either commercial or industrial use.

Three components were used in the methodology to determine each parcels assessment; 1) Front footage of parcels along the proposed street improvements; 2) acreage of benefiting parcels; and 3) Current land use of parcels. Based on these three components the assessments were determined as follows:

First, the parcels Front Footage was determined based on Assessor's Parcel maps or other sources. Only Front footage on streets that will be improved was used. For parcels with Front Footage on more than one side (corner lots), the total Front Footage was divided by two to provide an average Front Footage. It was determined that twenty percent (20%) of the total budget was reasonably attributed to Front Footage; therefore twenty percent (20%) of the budget was spread to Front Footage.

Second, each parcel's Acreage was calculated based on Assessors Parcels map. It was determined that eighty percent (80%) of the budget was reasonably attributed to Acreage; therefore eighty (80%) of the budget was spread on Acreage. In the event that common area parcels are created subsequent to the formation of the District, the acreage of any such common area parcels shall be apportioned to the remaining assessable parcels of the subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

Third, the current land use of the parcel was determined using the County's secured roll. Parcel's currently used as a Single Family Residence or Multi-Family Residences were determined to receive twenty-five (25%) of the benefit in relation to commercial parcels. Additionally, it was determined that single Family Residential Parcels benefit equally from the improvements, therefore the total assessment calculated based on the formula was averaged between the five Single Family Residential parcels to determine a Single Family Residential rate per Unit.

The base year maximum assessment rates approved to be levied in FY 2006/07 are provided in the table below.

Base Year Maximum Assessment Rates (FY 2006/07)			
Land Use	Front Footage	Acreage Rate	Flat Rate
Commercial	\$1.99 per Front Foot	\$2,582.41 per Acre	N/A
Multi-Family Residential	\$0.50 per Front Foot	\$645.60 per Acre	N/A
Single-Family Residential	N/A	N/A	\$132.00 per Unit

The following formula is used to calculate each parcel's assessment (proportional benefit) for those parcels that are not Single-Family Residential parcels.

Front Footage Rate x Parcel's Adjusted Front Footage = Parcel Front Footage Levy

Acreage Rate x Parcel's Adjusted Acreage = Parcel Acreage Levy

Proposed Levy per Parcel = Parcel Front Footage Levy + Parcel Acreage Levy

The Assessment Range Formula shall be applied to all future assessments within the District beginning in fiscal year 2007/08. Generally, if the proposed annual assessment for the current fiscal year is less than or equal to the calculated Maximum Assessment, then the Assessment is equal to the initial Assessment (approved by property owners within the District) adjusted annually by three percent (3%).

Beginning in the second fiscal year (Fiscal Year 2007/08) and each fiscal year thereafter, the Maximum Assessment would be recalculated and a new Maximum Assessment established within the District.

The Maximum Assessment is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. Any proposed annual assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment will increase each year, the actual assessment may remain unchanged. The Maximum Assessment adjustment is designed to establish a reasonable limit on assessments. The Maximum Assessment calculated each year does not require or facilitate an increase to the annual assessment and neither does it restrict assessments to the adjustment maximum amount. If the budget and assessment for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment, the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment, then the assessment is considered an increased assessment and would be subject to balloting.

D. ANNUAL INFLATIONARY ADJUSTMENT

If the proposed assessment rates increase over the prior fiscal year's maximum assessment rates by a percentage no greater than the 3%, then the proposed assessment rates are not considered an increase.

III. DISTRICT BUDGET

A. 2017/18 BUDGET

DESCRIPTION	AMOUNTS
<u>DIRECT COSTS</u>	
Contract Maintenance - Landscaping	\$10,878.00
Repair & Maintenance - Landscaping	7,200.00
Repair & Maintenance - Lighting	3,200.00
Repair and Maintenance - Streetscape and Signage	1,000.00
Utilities	9,900.00
Rehab Reserve Project Expenditures	<u>10,000.00</u>
Total Direct Costs	\$42,178.00
<u>ADMINISTRATION COSTS</u>	
City Administration	\$1,585.00
Contract Administration - Park's Dept	2,200.00
County Auditor Fees	408.07
Consulting & Professional Services	3,098.00
Consultant Incidental Expenses	60.00
Public Hearing Publishing Costs	775.00
ERP Project Costs	<u>2,904.00</u>
Total Administrative Costs	\$11,030.07
Total Direct and Administration Costs	\$53,208.07
<u>BUDGET ADJUSTMENTS</u>	
Replenishment/(Use) of Operating Reserve	(\$2,400.77)
Contribution for /(Use of) Rehab Reserve	(10,000.00)
Rounding Adjustment	
Total Adjustments	(\$12,400.77)
BALANCE TO LEVY	\$40,807.30

B. 2017/18 ASSESSMENT RATES

DESCRIPTION	AMOUNTS
<u>FY 2017/18 APPLIED ASSESSMENT RATES</u>	
Number of Assessable Parcels	56
Total Front Footage - Commercial	2,859.87
Total Front Footage - MFR	140.00
Total Assessable Acreage - Commercial	8.8087
Total Assessable Acreage - MFR	0.4821
Total Single Family Residences	5
Applied Assessment Rate per Front Foot - Commercial	\$2.7546
Applied Assessment Rate per Front Foot - MFR	\$0.6921
Applied Assessment Rate per Acre - Commercial	\$3,574.6594
Applied Assessment Rate per Acre - MFR	\$893.6614
Applied Assessment Rate per SF Residence	\$182.7189
Maximum Assessment Rate per Front Foot - Commercial	\$2.7546
Maximum Assessment Rate per Front Foot - MFR	\$0.6921
Maximum Assessment Rate per Acre - Commercial	\$3,574.6594
Maximum Assessment Rate per Acre - MFR	\$893.6614
Maximum Assessment Rate per SF Residence	\$182.7189
Potential Maximum Assessment	\$40,807.30

C. 2017/18 FUND BALANCE INFORMATION

DESCRIPTION	AMOUNTS
<u>OPERATING RESERVE</u>	
Beginning Operating Reserve Balance 7-1-2017 (est.)	\$42,916.20
add: Replenish from FY 17/18 Levy	
less: Use for FY 17/18 Expenses	(2,400.77)
Transfer from/(to) the Rehab Reserve	(13,911.39)
Ending Operating Reserve Balance 6-30-2018 (est.)	\$26,604.04
<u>REHABILITATION RESERVE</u>	
Beginning Rehab Reserve Balance 7-1-2017 (est.)	\$67,669.12
add: Collect from FY 17/18 Levy	
less: Use for FY 17/18 Rehab Projects	(10,000.00)
Transfer from/(to) the Operating Reserve	13,911.39
Ending Rehab Reserve Balance 6-30-2018 (est.)	\$71,580.51

D. DESCRIPTION OF BUDGET TERMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

BUDGET:

DIRECT COSTS

Contract Maintenance - Landscaping - Includes all regularly scheduled contract labor, required to properly maintain and ensure the satisfactory condition of all landscaping, irrigation and drainage systems and appurtenant facilities.

Repair and Maintenance - Landscaping - This item includes landscape improvement repair and maintenance costs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. Planned replacements or upgrades that provide a direct benefit to the District during the Current Fiscal Year may also be included. Costs could include the renovation of improvements such as irrigation systems.

Repair and Maintenance - Lighting - This item includes lighting improvement repair and maintenance costs. This may include repair of damaged amenities due to vandalism, storms, etc. Planned replacements or upgrades that provide a direct benefit to the District during the Current Fiscal Year may also be included.

Repair and Maintenance - Streetscape and Signage - This item includes repair and maintenance costs of streetscape and sign improvements. Streetscape improvements include street furniture, sidewalks, curbs, gutters, parking stripes, brick pavers, benches, bike racks, and trash receptacles. This may include repair of damaged amenities due to vandalism, storms, etc. May

include planned replacements or upgrades not listed below that provide a direct benefit to the District.

Utilities - The furnishing of water and electricity required for the operation and maintenance of the improvements.

Rehab Reserve Project Expenditures – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

City Administration – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

Contract Administration – Park's Dept – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

County Auditor Fees - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

Consulting and Professional Services – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

Public Hearing Publishing Costs –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

Total Direct and Administration Costs – The total expected costs of the District.

BUDGET ADJUSTMENTS

Replenishment/(Use) of Operating Reserve – A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Contribution for /(Use of) Rehab Reserve — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

ASSESSMENT RATES:

APPLIED ASSESSMENT RATE

Number of Assessable Parcels - The total number of parcels that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

Total Assessable Front Footage – the total number of Front Feet within the District, adjusted for corner parcels, Multi-Family Residential and Single-Family Residential Parcels will be assessed as calculated in accordance with the methodology set out in Section C of this Report.

Total Assessable Acreage – the total Acreage within the District, adjusted for Multi-Family Residential and Single-Family Residential Parcels that will be assessed as calculated in accordance with the methodology set out in Section C of this Report.

Total Single-Family Residential Parcels – the total number of parcels currently being used as Single-Family Residences.

Applied Assessment Rates – The applied assessment rates for each of the District's land use types.

Maximum Assessment Rates per Front Foot – The maximum dollar amount that can be assessed per Adjusted Front Foot for the District's land use type for the current fiscal year.

Maximum Assessment Rates per Acre – The maximum dollar amount that can be assessed per Adjusted Acreage Foot for the District's land use type for the current fiscal year.

Maximum Assessment Rate per SF Residential Unit – The maximum dollar amount that can be assessed per Single Family Unit within the District for the current fiscal year.

Potential Maximum Assessment – The total amount that is expected to be assessed against all parcels within the District for the Current Fiscal Year.

FUND BALANCE INFORMATION:

OPERATING RESERVE

Beginning Operating Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenish from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Rehab Reserve — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2018. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

REHABILITATION RESERVE

Beginning Rehab Reserve Balance 7-1-2017 (est.) — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Collect from FY 17/18 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Rehab Projects – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Rehab Reserve Balance 6-30-2018 (est.) - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2018. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report.

E. REHABILITATION RESERVE CAPITAL IMPROVEMENT PLAN

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five year Capital Improvement Plan for the rehabilitation, restoration and /or replacement of District improvements and other allowable costs is shown below.

Future funding of District improvements is estimated as follows: repair and/or replacement of streetscape and hardscape: \$25,000 in FY 2018/19 and \$2,500 in FY 2019/20; replacement, repair, renovation and/or refurbishment of plants, landscaping and related materials: \$10,000 in each of FYs 2017/18, 2020/21 and 2021/22; \$5,000 in each of FYs 2018/19 and 2019/20; replacement and/or repair of lighting fixtures: \$10,000 in each of FYs 2018/19 and 2019/20; and, replacement, repair and/or refurbishment of irrigation meter: \$10,000 in FY 2018/19.

From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and / or operation of the improvements.

APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the 1972 Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a summary of the District's Boundaries is presented herein.

FILED IN THE OFFICE OF THE CITY CLERK THIS _____ DAY OF _____, 2006.
I HEREBY CERTIFY THAT THIS MAP SHOWING THE BOUNDARIES OF HISTORIC LANDSCAPING AND LIGHTING DISTRICT, CITY OF ROSEVILLE, COUNTY OF PLACER, STATE OF CALIFORNIA, WAS APPROVED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE AT A REGULAR MEETING THEREOF, HELD ON THE _____ DAY OF _____, 2006, BY ITS RESOLUTION NO. _____.

CITY CLERK
CITY OF ROSEVILLE

APPENDIX B — 2017/18 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2017/18. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

RESOLUTION NO. 17-256

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

WHEREAS, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Infill Area Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

WHEREAS, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

WHEREAS, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 That the above recitals are all true and correct.

Section 2 That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

Section 3 That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

RESOLUTION NO. 17-256

RESOLUTION NO. 17-257

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

WHEREAS, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Infill Area Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and,

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and,

WHEREAS, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, to pay for the maintenance and services of all improvements and facilities related thereto; and,

WHEREAS, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR THE INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

Section 2 Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;

- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2017 and ending June 30, 2018 is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated special benefits to be received by each parcel from the improvements and services.

Section 3 The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

Section 4 The maintenance, operation and servicing of the improvements and appurtenant facilities shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: maintenance, servicing, administration and operation of the landscape corridors adjacent to property within the Pheasant Run, Cirby Oaks II and Reuter Ranch subdivisions, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report describes all new improvements or substantial changes in existing improvements.

Section 5 The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

Section 6 The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Infill Area Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

Section 7 The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018.

Section 8 The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

RESOLUTION NO. 17-257

PASSED, APPROVED, AND ADOPTED THIS _____ day of _____, 2017.

Mayor
City of Roseville

City Clerk
City of Roseville

ENGINEER'S REPORT AFFIDAVIT

Establishment of Annual Rates and Charges for the:

Infill Area

Landscaping and Lighting District

City of Roseville

Placer County, State of California

This Report describes the District and any relevant zones therein, including the improvements, budgets, parcels and assessments to be levied for Fiscal Year 2017/18 as they existed at the time of the passage of the Resolution of Intention. Reference is hereby made to the Placer County Assessor's maps for a detailed description of the lines and dimensions of parcels within the District. The undersigned respectfully submits the enclosed Report as directed by the City Council.

Dated this 28 day of APRIL, 2017

I. OVERVIEW

A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the City’s existing Infill Area Landscaping and Lighting District (“District”). The District was formed and is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2017 through June 30, 2018. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The District consists of three (3) zones of benefit, Zones A, B and C (individually the “Zone” and collectively the “Zones”). The improvements that benefit properties within each Zone and the costs to maintain and service those improvements are identified and budgeted separately by Zone. The total cost of landscape maintenance within a Zone is equitably spread among only the benefiting parcels.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments pursuant to the Act. The assessment rates and method of apportionment described in this Report, as approved or modified by the City Council, defines the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year (“FY”) 2017/18. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rates approved by the City Council.

B. COMPLIANCE WITH CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIIC and XIIID (“Articles XIIIC and XIIID”) and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the “Implementation Act”). Articles XIIIC and XIIID and the Implementation Act collectively are hereinafter referred to as “Proposition 218”.

Pursuant to the California Constitution Article XIIID Section 5, certain existing assessments are exempt from the substantive and procedural requirements of Article XIIID Section 4 and property owner balloting for the assessments is not required until such time that the assessments are increased. Specifically, the City determined that all improvements and the annual assessments originally established for the District were part of the conditions of property development and approved by the original property owner (developer). As such, pursuant to Article XIIID Section 5(b), all the property owners approved the existing District assessments at the time the assessments were created (originally imposed pursuant to a 100% landowner petition). Therefore, the pre-existing assessment amounts (the maximum assessment rates of Zones A, B, & C identified in this Report) are exempt from the procedural requirements Article XIIID Section 4, provided the assessments are not increased above these previously approved maximum assessment rates.

The District and all Zones therein have been formed pursuant to the Act. Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer’s Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act.

C. DESCRIPTION OF DISTRICT BOUNDARIES

The three Zones within the District are comprised of three non-contiguous residential subdivisions, namely Pheasant Run, Cirby Oaks II and Reuter Ranch, are located in the southern portion of the City and are within the boundaries of the City’s “Infill Planning Area”. A general depiction of the boundaries of each Zone can be found in Appendix A of this Report.

D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.

- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

E. DESCRIPTION OF IMPROVEMENTS AND BENEFITS

This District, by special benefit assessments, provides funding for the maintenance and operation of certain landscaping improvements located within the public right-of-way's and dedicated easements:

The District provides all services necessary to maintain the landscaped corridors adjacent to the privately-owned parcels comprising the three subdivisions. Improvements include shrubs, trees and other landscaping vegetation, as well as irrigation controllers, automatic valves and irrigation systems. Services provided include all necessary services, operations, and maintenance required in keeping the improvements in a healthy, vigorous condition and in proper working order.

The District encompasses three subdivisions, each of which is located in a separate Zone. The Zones have specific improvements and costs associated with those improvements that benefit the parcels within each respective Zone. The total cost of landscape maintenance within a Zone is equitably spread among only the benefiting parcels within the Zone and only parcels that receive a special benefit from the improvements are assessed.

The specific locations of the improvements within each Zone of the District are described as follows:

Zone A – Pheasant Run

Maintenance of 6,880 square feet of landscaping and related improvements within the Pheasant Run subdivision.

Zone B – Cirby Oaks

Maintenance of 7,447 square feet of landscaping and related improvements within the Cirby Oaks II subdivision.

Zone C – Reuter Ranch

Maintenance of 24,700 square feet of landscaping and related improvements within the Reuter Ranch subdivision. A larger amount of landscaping benefits the properties within Reuter Ranch and typically results in a larger per parcel assessment for these properties as compared to Zones A and B.

II. METHOD OF APPORTIONMENT

A. RATE AND METHOD OF APPORTIONMENT

Pursuant to the Act, the costs of each Zone of the District must be spread to each parcel based upon a benefit formula. Each assessable parcel in the District receives a direct and special benefit from the improvements in the Zone. This direct and special benefit was determined to be equal for all dwelling units within each Zone; costs for each Zone shall be calculated separately within each respective Zone. Each single-family residence is equal to one dwelling unit (unit) and the formula used to arrive at each parcel's annual assessment is described below. Public parcels lying within the landscape corridors are considered to receive no benefit from the improvements and are therefore not assessed.

Costs associated with each Zone are to be charged only to assessable parcels within the respective Zone as follows:

$$\frac{\text{Balance to Levy in Zone}}{\text{Total Units in Zone}} = \text{Assessment Per Unit in Zone}$$

The Maximum Annual Assessment Rates are not to exceed \$193.32 per unit for Zone A and \$200.00 per unit for Zones B and C.

III. DISTRICT BUDGET

A. 2017/18 BUDGET

DESCRIPTION	ZONE A (Pheasant Run)	ZONE B (Cirby Oaks II)	ZONE C (Reuter Ranch)	TOTAL
<u>DIRECT COSTS</u>				
Contract Maintenance - Landscaping	\$1,760.00	\$1,130.00	\$600.00	\$3,490.00
Repair & Maintenance - Landscaping	1,500.00	3,000.00	3,800.00	8,300.00
Utilities	1,680.00	1,320.00	2,200.00	5,200.00
Rehab Reserve Project Expenditures	0.00	0.00	0.00	0.00
Total Direct Costs	\$4,940.00	\$5,450.00	\$6,600.00	\$16,990.00

D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

BUDGET:

DIRECT COSTS

Contract Maintenance - Landscaping - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping corridors, street medians, entryways, irrigation and related drainage systems as well as maintenance of appurtenant facilities (the "improvements").

Utilities - The furnishing of water and electricity required for the operation and maintenance of the improvements.

Repair & Maintenance – Landscaping - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. If zero, this line item may not be shown in the budget.

Rehab Reserve Project Expenditures – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the

future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

City Administration – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

Contract Administration – Park's Dept – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

County Auditor Fees - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

Consulting and Professional Services – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

Public Hearing Publishing Costs –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

Total Direct and Administration Costs – The total expected costs of the District.

BUDGET ADJUSTMENTS

Replenishment/(Use) of Operating Reserve – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

Contribution for / (Use of) Rehab Reserve — A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a "Use of" of the Rehabilitation

Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

ASSESSMENT RATES:

APPLIED ASSESSMENT RATES

Number of Assessable Units - The total number of residential units that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public right-of-way's or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

Applied Assessment Rate per Unit - The per unit assessment rates to be applied to the non-exempt parcels within the District for the current fiscal year.

Maximum Assessment Rate per Unit - The per unit maximum assessment rates for current fiscal year.

Potential Maximum Assessment Per Zone – The total amount that can be assessed against all parcels within each Zone for the current fiscal year based upon the expected number of units to be assessed.

FUND BALANCE INFORMATION:

OPERATING RESERVE

Beginning Operating Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenish from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Rehab Reserve — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2018. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All

Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

REHABILITATION RESERVE

Beginning Rehab Reserve Balance 7-1-2017 (est.) — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Collect from FY 17/18 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Rehab Projects – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Rehab Reserve Balance 6-30-2018 (est.) - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2018. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report.

E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five-year Capital Improvement Plan for the rehabilitation, restoration and /or replacement of District improvements and other allowable costs is shown below for each Zone with a projected ending Rehabilitation Reserve balance.

Zone A – Projections of the Zone's future capital improvement expenditures are as follows: Repair and/or refurbish sound wall improvements: \$5,000 in each of FYs 2018/19 and 2020/21; and replace, repair, renovate and/or refurbish plants, landscaping and related materials: \$1,700, \$5,000, \$1,500 and \$5,000 in FYs 2018/19, 2019/20, 2020/21 and 2021/22, respectively.

Zone B – Projections of the Zone's future capital improvement expenditures are as follows: Repair and/or refurbish sound wall improvements: \$6,700, \$3,000, \$5,000 and \$2,000 in FYs 2018/19, 2019/20, 2020/21 and 2021/22, respectively; and replace, repair, renovate and/or refurbish plants, landscaping and related materials: \$5,000 in FY 2019/20, \$3,000 in FY 2020/21 and \$5,000 in FY 2021/22.

Zone C – Projections of the Zone's future capital improvement expenditures are as follows: Repair and/or refurbish sound wall improvements: \$10,000 in FY 2018/19 and \$6,300 in FY 2020/21; replace, repair, renovate and/or refurbish plants, landscaping and related materials: \$10,000 in each of FYs 2019/20 and 2021/22.

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements.

APPENDIX A – DISTRICT BOUNDARY MAP

The Assessment Diagrams for the District have previously been submitted to the City Clerk in the format required under the Act and are, by reference, made part of this Report. The boundary maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District and Zone Boundaries are presented herein.

APPENDIX B — 2017/18 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways, including public greenbelts and parkways; utility rights-of-ways; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2017/18. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

RESOLUTION NO. 17-258

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

WHEREAS, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Johnson Ranch Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

WHEREAS, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

WHEREAS, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 That the above recitals are all true and correct.

Section 2 That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

Section 3 That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

RESOLUTION NO. 17-259

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

WHEREAS, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Johnson Ranch Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

WHEREAS, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, to pay for the maintenance and services of all improvements and facilities related thereto.

WHEREAS, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

Section 2 Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District.
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

Section 3 The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

Section 4 The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as certain landscaping and open space areas, including floodway and stream course areas within the open space and all appurtenant facilities related thereto within the District. The Report describes the specific location of the improvement areas within the district.

Section 5 The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

Section 6 The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Johnson Ranch Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with any other expenses as described in Section 4.

Section 7 The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018.

Section 8 The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

I. OVERVIEW

A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements in the southeast section of the City of Roseville, known as Johnson Ranch Landscaping and Lighting District (“District”). The District was formed and is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2017 through June 30, 2018. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The District consists of five (5) zones of benefit, Zones A, B, C, D and E (individually the “Zone” and collectively the “Zones”). The improvements that benefit properties within each Zone and the costs to maintain and service those improvements are identified and budgeted separately by Zone. The total cost of landscape maintenance within a Zone is equitably spread among only the benefiting parcels.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year (“FY”) 2017/18. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rates approved by the City Council.

B. COMPLIANCE WITH CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIC and XIID (“Articles XIIC and XIID”) and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the “Implementation Act”). Articles XIIC and XIID and the Implementation Act collectively are hereinafter referred to as “Proposition 218”.

Pursuant to the California Constitution Article XIID, Section 5, certain existing assessments are exempt from the substantive and procedural requirements of Article XIID Section 4 and property owner balloting for the assessments is not required until such time that the assessments are increased. Specifically, the City determined that all improvements and the annual assessments originally established for the District were part of the conditions of property development and approved by the original property owner (developer). As such, pursuant to Article XIID Section 5(b), all the property owners approved the existing District assessments at the time the assessments were created (originally imposed pursuant to a 100% landowner petition). Therefore, the pre-existing assessment amounts (the maximum assessment rates of Zones A, B, C & D identified in this Report) are exempt from the procedural requirements of Article XIID Section 4, provided the assessments are not increased above these previously approved maximum assessment rates.

In Fiscal Year 1999/00, the City initiated and conducted property owner protest ballot proceedings in accordance with Article XIID for Zone E in order to increase the assessment to cover additional costs for services. The proposed assessment increase presented to property owners included an annual inflationary factor of 3%. In Fiscal Year 1999/00 the maximum assessment rate was \$623.10 per acre. At the conclusion of the Public Hearing, all property owner ballots returned were tabulated and the City determine that a majority protest did not exist. The City Council then approved the increased assessment and the inflationary factor for maintaining the improvements within the District.

The District and all Zones therein have been formed pursuant to the Act. Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act.

C. DISTRICT BOUNDARIES

The District lies within a portion of the Southeast Roseville Specific Plan, which is located in the southeast section of the City of Roseville. The District is generally located east of I-80 on the south side of Douglas Boulevard. See Appendix A for a rendering of the District boundary map.

D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;

- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

E. DESCRIPTION OF THE IMPROVEMENTS AND BENEFITS

Zones A, B and C

Zones A, B and C of the District, by special benefit assessments, provide annual funding for the continual maintenance of certain landscaping, open space areas; including floodway and stream course areas as well as any the maintenance of any bike trails. The specific locations of the floodways, stream courses and areas adjacent thereto to be maintained are described below:

- Parcel 70 - Floodway that feeds Cirby Creek and is located between Douglas Boulevard and Eureka Road. (7.76 acres) - Zone C
- Parcel 71 - Strap Ravine floodway between Douglas Boulevard and East Roseville Parkway. (3.38 acres) - Zone A
- Parcel 72 - Floodway between Roseville Parkway east to commercial development. (8.98 acres) - Zone C
- Parcel 73 - Recreational floodway in Strap Ravine between East Roseville Parkway and Sierra College Boulevard. (16.11 acres) - Zone A
- Parcels 74 & 75 - Recreational floodway that eventually feeds Linda Creek, beginning at Sierra College Boulevard then east to the Roseville City limits. (6.2 acres and 10.8 acres, respectively) - Zone B

Zone D

Zone D of the District, by special benefit assessments, provides annual funding for the costs of mitigation monitoring and costs to maintain landscaped open space areas within certain wetland / riparian area(s) to comply with a Section 404 Permit. The issuance of this Section 404 permit was a condition of the development of the Johnson Ranch East Project, which represents the parcels comprising Zone D.

Zone E

Zone E of the District, by special benefit assessments, provides annual funding for the maintenance of certain landscaping, bike trails and open space areas that include floodway and stream course areas and the costs of mitigation monitoring to comply with both a Section 404 Permit (Federal) and a 1603 Permit (State). The issuance of these permits was a condition of the development of Parcel 9. The specific locations of the floodway and stream courses to be maintained are described as:

- Parcel 76 - Streambed and floodway area located at Cirby Creek from the southwest side of Eureka Boulevard to the end of the Coker Development. (2.79 acres)

II. METHOD OF APPORTIONMENT

A. DESCRIPTION OF METHOD OF APPORTIONMENT

Pursuant to the Act, the costs of the District must be spread to each parcel based upon a benefit formula. Each assessable parcel in the District receives a direct and special benefit from the improvements in the District. The formula used to arrive at each parcel's annual levy amount in each zone is as follows:

Zones A and B

Thirty percent (30%) of the total budgeted costs of Zones A & B are to be levied to floodway Parcel 82 (APN 458-020-001). The remaining Seventy percent (70%) of costs are then allocated equally on a per acre basis to all assessable parcels within these Zones. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

Zones C, D and E

The budgeted costs of Zones C, D and E are to be allocated equally on a per acre basis to all assessable parcels within each respective Zone. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

B. INFLATIONARY ADJUSTMENT FACTOR

For Zone E only, if the proposed assessment rate increases over the prior fiscal year's maximum assessment rate by a percentage no greater than the 3%, then the proposed assessment rate is not considered an increase.

C. PROPOSITION 218 BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments regarding Zone E, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the improvements within the District, and the assessment obligation for each parcel reflects that parcel’s proportional special benefits as compared to other properties that receive special benefits.

III. DISTRICT BUDGET

A. 2017/18 BUDGET

DESCRIPTION	ZONE A ⁽¹⁾	ZONE B ⁽¹⁾	ZONE C	ZONE D	ZONE E	TOTAL
<u>DIRECT COSTS</u>						
Contract Maintenance - Open Space	\$12,500.00	\$8,000.00	\$4,500.00	\$213.00	\$5,683.00	\$30,896.00
Utilities	450.00					450.00
Maintenance - Bike Trails	n/a	3,000.00	2,500.00	n/a	1,136.00	6,636.00

D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

BUDGET:

DIRECT COSTS

Contract Maintenance - Open Space – Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition of all open space landscaping, irrigation, drainage systems, lighting, floodplain improvements and appurtenant facilities (the “improvements”).

Mitigation Monitoring – Costs associated with monitoring certain impacts to riparian areas in or near the District under the terms of a Section 404 or 1603 permit. If zero, this line item will not be shown in the budget.

Utilities - The furnishing of water and electricity required for the operation and maintenance of the improvements. If zero, this line item will not be shown in the budget.

Maintenance - Bike Trails - Costs associated with the resurfacing of the Bike trail. If zero, this line item will not be shown in the budget.

Water Hyacinth Eradication – Costs associated with the eradication of the Water Hyacinth plant in the creek beds. If zero, this line item will not be shown in the budget.

Rehab Reserve Project Expenditures – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year’s assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

City Administration – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

Contract Administration – Park's Dept – Estimated costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

Contract Administration – Open Space – Estimated costs of City staff to coordinate and oversee the maintenance contracts and non-contract maintenance of the open space areas of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items.

County Auditor Fees - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

Consulting and Professional Services – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

Public Hearing Publishing Costs –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

Total Direct and Administration Costs – The total expected costs of the District.

BUDGET ADJUSTMENTS

Replenishment/(Use) of Operating Reserve – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

Contribution for / (Use of) Rehab Reserve — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with applicable adjustments related to the Reserve Fund replenishments or reductions and/or Capital Improvement Fund activity.

Parcel 82 Levy Recap – A recap of the cost breakdown between certain parcels. Thirty percent (30%) of the total budgeted costs of Zones A & B are to be levied to floodway Parcel 82 (APN 458-020-001). 70% of costs are to be assessed to the remaining parcels.

ASSESSMENT RATES:

APPLIED ASSESSMENT RATES

Number of Assessable Parcels - The total number of parcels within each Unit that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District that currently do not benefit from the improvements due possibly to development restrictions.

Total Assessable Acres – Non-Parcel 82 Properties - The total number of acres within the Zones A and B that are to be assessed on an acreage basis for the current fiscal year; this acreage excludes Parcel 82.

Applied Assessment Rates - The assessment rates to be applied to the non-exempt parcels within the District for the current fiscal year.

Maximum Assessment Rates - The maximum assessment rates for current fiscal year.

Maximum Potential Assessment – The total amount that is expected to be assessed against all parcels within the District for the Current Fiscal Year.

FUND BALANCE INFORMATION:

OPERATING RESERVE

Beginning Operating Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenish from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Rehab Reserve — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2018. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

REHABILITATION RESERVE

Beginning Rehab Reserve Balance 7-1-2017 (est.) — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Collect from FY 17/18 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Rehab Projects – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Rehab Reserve Balance 6-30-2018 (est.) - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2018. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve or related activity, the Rehabilitation Reserve information may not be presented in the Report.

E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five-year Capital Improvement Plan for the rehabilitation, restoration and /or replacement of District improvements and other allowable costs is shown below for each Zone with a projected ending Rehabilitation Reserve balance.

Zone B - General Open Space/creek rehabilitation: \$1,600 in FY 2018/19.

Zone D - General Open Space/creek rehabilitation: \$100 in FY 2018/19.

Zone E - General Open Space/creek rehabilitation: \$1,100 in FY 2018/19.

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the District or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements.

APPENDIX A – DISTRICT BOUNDARY MAP

The Assessment Diagrams for the District have previously been submitted to the Clerk of the City in the format required under the Act and are, by reference, made part of this Report. The boundary maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a one-page rendering of the District's Boundaries is presented herein.

APPENDIX B — 2017/18 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways, including public greenbelts and parkways; utility rights-of-ways; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2017/18. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

RESOLUTION NO. 17-260

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

WHEREAS, the City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: North Central Roseville Specific Plan Landscaping and Lighting District (hereafter referred to as the "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act"); and,

WHEREAS, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

WHEREAS, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report; and,

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 That the above recitals are all true and correct.

Section 2 That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

Section 3 That the City Clerk shall certify to the passage and adoption of this Resolution and the minutes of this meeting shall so reflect the presentation of and final approval of the Report.

RESOLUTION NO. 17-261

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

WHEREAS, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer's Annual Levy Report (hereinafter referred to as the "Report") that describes the assessments against parcels of land within the North Central Roseville Specific Plan Landscaping and Lighting District (hereinafter referred to as the "District") for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the "Act") to pay for the maintenance and services of all improvements and facilities related thereto; and,

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and,

WHEREAS, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, to pay for the maintenance and services of all improvements and facilities related thereto; and,

WHEREAS, the City Council and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIII C and XIII D of the California State Constitution.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 Following notice duly given, the City Council has held a full and fair Public Hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

Section 2 Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District; and,

- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2017 and ending June 30, 2018 is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated special benefits to be received by each parcel from the improvements and services.

Section 3 The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

Section 4 The maintenance, operation and servicing of the improvements and appurtenant facilities shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: the maintenance and operation of and the furnishing of services, materials or improvements for certain landscaped areas including open space areas, parkways, slopes and medians and other public improvements within the street right of way areas, including, but not limited to trees, shrubs, turf and other ornamental vegetation, drainage and irrigation systems, and other appurtenant facilities. The Engineer's Annual Levy Report, as ordered by previous Resolution, provides a full and complete description of all improvements and any or all substantial changes to the improvements within the District.

Section 5 The County Auditor of the County of Placer shall enter on the County Assessment Roll opposite each eligible parcel of land the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

Section 6 The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the North Central Roseville Specific Plan Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the landscaping, lighting and appurtenant facilities, together with other expenses as described in Section 4.

Section 7 The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2017 and ending June 30, 2018.

Section 8 The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

ENGINEER'S REPORT AFFIDAVIT

Establishment of Annual Rates and Charges for the:

North Central Roseville Specific Plan Landscaping and Lighting District

City of Roseville
Placer County, State of California

This Report describes the District and any relevant zones therein, including the improvements, budgets, parcels and assessments to be levied for Fiscal Year 2017/18 as they existed at the time of the passage of the Resolution of Intention. Reference is hereby made to the Placer County Assessor's maps for a detailed description of the lines and dimensions of parcels within the District. The undersigned respectfully submits the enclosed Report as directed by the City Council.

Dated this 28 day of APRIL, 2017

Willdan Financial Services
Assessment Engineer
On Behalf of the City of Roseville

I. OVERVIEW

A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the existing North Central Roseville Specific Plan Landscaping and Lighting District (“District”) within the City. The District was formed in 1990. The District was formed and is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “Act”).

This Engineer’s Annual Levy Report for Fiscal Year 2017/18 (“Report”) describes the District, any annexations, changes to the District, and the proposed assessments for the period of July 1, 2017 through June 30, 2018. The maintenance, operation and servicing of the improvements associated with specific areas of the City that provide a special benefit to the properties in that area are identified as Zones. The costs of the improvements and services are identified and budgeted separately for each Zone and each parcel within a Zone is assessed proportionately for only those improvements and services that are a direct and special benefit to the properties within the Zone. The budgets and assessments are based on the estimated cost (considering historical costs) to maintain the District improvements that provide a direct and special benefit to properties within the District.

The District consists of four landscaping benefit Zones:

- District Wide Benefit Zone
- Local Benefit Zone
- Zone F
- Zone G

In 2003, the City initiated and conducted property owner protest ballot proceedings, in accordance with the Act and Proposition 218, for the territory now known as Zones F & G. After the results of the ballots were tabulated, the City determined that a majority protest did not exist. The City then approved the annexation of Zones F and G, the maximum assessment rates and annual inflationary adjustment factor.

In 2004, the City initiated and conducted property owner protest ballot proceedings, in accordance with the Act and Proposition 218, to reengineer Zones A, B, C, D & E and approve the maximum assessment rates and annual inflationary adjustment factor. After the results of the ballots were tabulated, the City determined that a majority protest did not exist. The City then approved the

Engineer's Annual Levy Report for FY 2004/05, which reconstituted the reengineered zones into the respective District Wide Benefit Zone or Local Benefit Zone.

Zones A, B, C, D and E were reengineered in order to more accurately identify the Zones and areas of special benefit within this portion of the District. These zones were combined into two new Zones based primarily on level of service, similarity of improvement types, and the proximity to improvements.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number ("APN") by the Placer County Assessor's Office. The Placer County Auditor/Controller uses Assessor's Parcel Numbers and specific Tax Code Accounts, to identify on the County's tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year ("FY") 2017/18. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rates approved by the City Council.

B. COMPLIANCE WITH CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIIC and XIID ("Articles XIIIC and XIID") and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the "Implementation Act"). Articles XIIIC and XIID and the Implementation Act collectively are hereinafter referred to as "Proposition 218".

In compliance with the provisions of Proposition 218, property owner ballot proceedings have been conducted for all Zones within the District; such proceedings approved and confirmed the Maximum Assessments and the Inflationary Adjustment Factor as described in this Report.

The District and all Zones therein have been formed pursuant to the Act. Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls.

C. DESCRIPTION OF DISTRICT BOUNDARIES

The District is located north of downtown Roseville between Interstate 80 and Washington Boulevard and generally encompasses the area within the North Central Roseville Specific Plan ("NCRSP") and two small residential developments in close proximity to the NCRSP near the corner of Diamond Oaks Road and Washington Boulevard. See Appendix A for District boundary map.

District Wide Zone This Zone includes all assessable property within the District with the exception of Zone F and Zone G.

Local Benefit Zone This Zone includes all single family residential property within the District with the exception of Zone F and Zone G.

Zone F This Zone, which comprises the Diamond Oaks Unit No. 10 development, was created on January 8, 2003 through Resolution 03-2 and was first levied in FY 2003/04. Zone F was comprised of Assessor Parcel Number ("APN") 015-020-040 prior to being subdivided into 39 residential lots.

Zone G This Zone, which comprises the Diamond Oaks Unit No. 14 development, was created on May 28, 2003 through Resolution 03-220 and was first levied in FY 2003/04. Zone G was comprised of APNs 017-041-034 & 015-020-006 prior to being subdivided into 76 residential lots and 1 non-residential parcel.

D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.

- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE

The District provides and ensures the continued maintenance, servicing, administration and operation of various landscaping and lighting improvements, and associated appurtenances that benefit parcels within the District. Services provided include all necessary service, operations, administration and maintenance required to keep the improvements in a healthy, vigorous, and satisfactory condition.

Specific improvements include all ground cover, turf, shrubs, trees, gardens, play areas and play equipment, picnic areas, bike paths, pedestrian trails, walls and fences, park maintenance facilities, irrigation and drainage systems, graffiti removal, and associated appurtenances. Improvements in each Zone include:

District Wide Zone This Zone provides for the maintenance of landscaping, fences, sound walls and other improvements within the arterial parkway right of ways, also described as scenic corridors, including but not limited to Roseville Parkway, Pleasant Grove Boulevard, Harding Boulevard and the east side of Washington Boulevard, pedestrian and bike pathways.

Local Benefit Zone This Zone provides for the maintenance of landscaping and other improvements within the local street right of ways. This Zone is primarily a combination of the old Zone C and Zone D, which provided similar maintenance.

Zone F Maintenance of parkway and perimeter landscaping and block wall adjacent to the development on the west side of Diamond Oaks Road; Parkway and perimeter landscaping, bike trails, block wall and wood fence adjacent to the development on the east side of Washington Boulevard; Open Space designated as Lot

“B”, and; Landscaping within Lot “C”, “E” and “F” within the Diamond Oaks Unit No. 10 project.

Zone G

Maintenance of parkway and perimeter landscaping, bike path and masonry sound wall adjacent to the development on the south side of Pleasant Grove Boulevard; maintenance of parkway and perimeter landscaping, bike path and masonry sound wall adjacent to the development on the west side of Washington Boulevard from Pleasant Grove Boulevard to Emerald Oak Road; maintenance of the masonry sound wall on the western perimeter of the development; installation and maintenance of perimeter landscaping on the west side of the development located on Open Space Parcel C between Emerald Oak Road and the masonry sound wall adjacent to the railroad right of way; and maintenance of Open Space, cobble swale (Lot “B”) and post and cable fencing for Lots “A”, “B”, and “C” within the Diamond Oaks Unit No. 14 project.

All assessable parcels identified as being within each Zone, share in both the cost and the benefits of the improvements. The costs associated with the improvements are equitably spread among all benefiting parcels within each Zone. Only parcels that receive direct and special benefit from the improvements are assessed, and each parcel is assessed in proportion to the estimated benefit received. The funds collected are to be dispersed and used for only the services and operation provided each Zone of the District.

II. METHOD OF APPORTIONMENT

A. GENERAL

The Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping and appurtenant facilities. The Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

The formula used for calculating assessments in each Zone of the District therefore reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

B. SPECIAL BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment

will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The City has initiated and conducted property owner protest ballot proceedings in accordance with the Act and Proposition 218 for all Zones within the District. Each of the proposed improvements; the associated costs and assessments have been carefully reviewed, identified and allocated based on special benefit pursuant to the provisions of Article XIID and the Act. All improvements associated with the Zones have been identified as necessary, required and/or desired for the orderly development of the properties to their full potential. As such, these improvements would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of those properties. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each assessed parcel within these Zones receives special benefit from the improvements. The desirability and security of properties is enhanced by well-maintained landscaping in close proximity to those properties.

The special benefits associated with all landscaping improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.

- Increased sense of pride in ownership of property within the Zones resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green belts and landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the Zones through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

All of the preceding special benefits allow the property to be developed for the enjoyment of the property owners and contribute to a specific enhancement and desirability of each of the assessed parcels within the Zones.

The improvements are for the special benefit, enhancement and use of properties within the Zones. Although the improvements include public easements, rights-of-way, streets and other amenities available or visible to the public at large, the construction and installation of these improvements are only necessary for the development of properties within the Zones and are not required nor necessarily desired by any properties or developments outside the Zone's boundaries. Therefore, any public access or use of the improvements by others is incidental and there is no measurable general benefit to properties outside the Zones or to the public at large. In making this determination, it should be noted that all parkway and perimeter landscaping within the City is both funded and maintained by a special district, individual property owners or through some type of association.

C. DESCRIPTION OF THE METHOD OF APPORTIONMENT

Pursuant to the Act, the costs of each Zone may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels within the Zone in proportion to the estimated special benefits to be received by each such parcel from the improvements. The special benefit formula used for each Zone should reflect the composition of the parcels, and the improvements and services provided, to fairly proportion the Zone's costs based on estimated special benefit to each parcel within the Zone. All assessable parcels within each Zone shall receive a direct special benefit from the services and improvements provided by the Zone.

Considering the composition of the parcels within the Zone, each parcel is assigned an Equivalent Dwelling Unit ("EDU"), which reflects each parcel's estimated special benefit from the improvements as compared to other parcels within the Zone. Because all assessable parcels within each Zone are

considered to benefit from the Zone improvements on an EDU basis, the amounts to levy to each Zone is then spread to each assessable parcel within the Zone on an EDU method as shown in the table below. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

The following formulas are used to calculate the assessment for each parcel:

ASSIGNED EDU	PROPERTY CLASS
1.0 per unit	Single-Family Residential Parcels
0.6 per unit	Multi-Family Residential Parcels
7.0 per acre	Non-Residential Parcels

For each Zone, the Applied Assessment Rate per Equivalent Dwelling Unit for each parcel in the Zone is the result of dividing the total Balance to Levy for each Zone, by the sum of the Zone EDU's for the fiscal year. This Applied Assessment Rate is multiplied by each parcel's individual EDU to determine the parcel's levy amount. The assessment cannot be greater than the current maximum assessment rate, as adjusted for the inflation factor.

$$\text{Total Balance to Levy} / \text{Total EDU} = \text{Rate per EDU}$$

$$\text{Parcel EDU} \times \text{Rate per EDU} = \text{Parcel Levy Amount}$$

D. INFLATIONARY ADJUSTMENT FACTOR

Any new or increase in assessments require certain noticing and meeting requirements by law. Prior to the passage of Proposition 218, legislative changes in the Brown Act defined a new or increased assessment to exclude certain conditions. These conditions included any assessment that does not exceed an assessment formula or range of assessments previously adopted by the agency or approved by the voters in the area where the assessment is imposed. This definition and conditions were later confirmed through Senate Bill 919 (the implementing legislation for Proposition 218).

The purpose of establishing an assessment range formula is to provide for reasonable increases and inflationary adjustment to annual assessments without requiring costly noticing and mailing procedures, which could add to the District costs and assessments. As part of the District formation, balloting of property owners is required, pursuant to Proposition 218. The property owner ballots included an Assessment to be approved, as well as the approval of an assessment range formula.

The assessment range formula shall be applied to all future assessments within the District. Generally, if the proposed annual assessment (levy per unit or rate) for the current fiscal year is less than or equals to the “Maximum Assessment” (or “Adjusted Maximum Assessment”), then the proposed annual assessment is not considered an increased assessment. The Maximum Assessment is equal to the initial Assessment approved by property owners adjusted annually by the following criteria:

1. Beginning in the second fiscal year and each fiscal year thereafter, the Maximum Assessment will be calculated.
2. The new Adjusted Maximum Assessment for the year represents the prior year’s approved Maximum Assessment increased by three percent (3.0%).

The Maximum Assessment is adjusted annually and is calculated independent of the District’s annual budget and proposed annual assessment. Any proposed annual assessment less than or equal to this Maximum Assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

The approved base year maximum assessment rates and annual inflationary adjustment factors for all Zones are shown in the table below:

Zone	Year of Approved Maximum Rate and Annual Inflation (Base Year)	Maximum Assessment Rate per EDU (Base Year)	Annual Inflationary Adjustment Factor
District-Wide Benefit Zone	FY 2004/05	\$40.82	3.00%
Local Benefit Zone	FY 2004/05	43.92	3.00%
Zone F	FY 2003/04	481.35	3.00%
Zone G	FY 2003/04	264.22	3.00%

III. DISTRICT BUDGET

D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

BUDGET:

DIRECT COSTS

Contract Maintenance - Landscaping - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation and related drainage systems, as well as maintenance of appurtenant facilities (the "improvements").

Repair & Maintenance - Landscaping/Parks - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. If zero, this line item may not be shown in the budget.

Utilities - The furnishing of water and electricity required for the operation and maintenance of the improvements.

Maintenance – Bike Trails – Costs to perform the necessary maintenance of the bike trails within the District. If zero, this line item may not be shown in the budget.

Maintenance – Open Space – Costs to perform the necessary maintenance of the open space areas within the District. If zero, this line item may not be shown in the budget.

Rehab Reserve Project Expenditures – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

City Administration – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

Contract Administration – Park's Dept – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

County Auditor Fees - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

Consulting and Professional Services – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

Public Hearing Publishing Costs –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

Total Direct and Administration Costs – The total expected costs of the District.

BUDGET ADJUSTMENTS

Replenishment/(Use) of Operating Reserve – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in

the budget. Further information regarding the function of the Operating Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Contribution for / (Use of) Rehab Reserve — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected in the District through assessments for the current fiscal year. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

ASSESSMENT RATES:

APPLIED ASSESSMENT RATES

Total Assessable Single Family Units - The total number of assessable single family units within the District for the current fiscal year. Since each single family residential parcel is in both the District-Wide Benefit Zone and the Local Benefit Zone, the single-family EDUs are only added once to arrive at the "Total Equivalent Dwelling Units"

Total Assessable Multi-Family Units - The total number of assessable multi-family units within the District for the current fiscal year.

Total Assessable Non-Residential Acres - The total assessable non-residential acres within the District for the current fiscal year.

Total Equivalent Dwelling Units (“EDUs”) - Total assessable EDUs within the District for the current fiscal year.

Applied Assessment Rates per EDU - The assessment rates per EDU to be applied to the non-exempt parcels within the applicable Zone for the current fiscal year.

Maximum Assessment Rates per EDU - The maximum assessment rates per EDU to for the parcels of within the applicable Zone for the current fiscal year.

Potential Maximum Assessment Per Zone – The total amount that can be assessed against all parcels within each Zone for the current fiscal year based upon the expected number of parcels to be assessed.

FUND BALANCE INFORMATION:

OPERATING RESERVE

Beginning Operating Reserve Balance 7-1-2017 - The District's anticipated beginning balance of cash and receivables net of any unpaid prior year obligations. These beginning balances shall be used to fund the District's expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenish from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Rehab Reserve — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2018. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed

the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

REHABILITATION RESERVE

Beginning Rehab Reserve Balance 7-1-2017 — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Collect from FY 17/18 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Rehab Projects — The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Rehab Reserve Balance 6-30-2018 — The projected balance of funds in the Rehabilitation Reserve as of June 30, 2018. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment. Should the District have no Rehabilitation Reserve or related activity, the Rehabilitation Reserve information may not be presented in the Report.

E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five-year Capital Improvement Plan for the rehabilitation, restoration and /or replacement of District improvements and other allowable costs is shown below for each Zone with a projected ending Rehabilitation Reserve balance.

District Wide Zone - Projections of the Zone's future capital improvement expenditures are as follows: Replace, repair, renovate and/or refurbish plants, landscaping, irrigation and related materials: \$10,000, \$20,000, \$25,000, \$20,000 and \$25,000 in FYs 2017/18, 2018/19, 2019/20, 2020/21 and 2021/22, respectively; repair, replace and/or refurbish sound wall improvements: \$5,600 in FY 2018/19.

Local Benefit Zone - Projections of the Zone's future capital improvement expenditures are as follows: Replace, repair, renovate and/or refurbish plants, landscaping, irrigation and related materials: \$10,000, \$10,000, \$6,000, \$15,000 and \$15,000 in FYs 2017/18, 2018/19, 2019/20, 2020/21 and 2021/22, respectively; repair, replace and/or refurbish sound wall improvements: \$10,000 in each of FYs 2018/19 and 2019/20.

Zone F – Projections of the Zone's future capital improvement expenditures are as follows: Repair, replace and/or refurbish fencing improvements: \$5,000 in FY 2017/18; replace, repair, renovate and/or refurbish plants, landscaping, irrigation and related materials: \$5,600 in FY 2018/19 and \$3,000 in each of FYs 2019/20, 2020/21 and 2021/22, and replace irrigation controller: \$9,000 in FY 2017/18.

Zone G – Projections of the Zone's future capital improvement expenditures are as follows: Replace, repair, renovate and/or refurbish plants, landscaping, irrigation and related materials: \$10,000, \$8,500, \$5,000 and \$10,000 in FYs 2018/19, 2019/20, 2020/21 and 2021/22, respectively, and replace irrigation controller: \$14,000 in FY 2017/18.

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements.

APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District's Boundaries is presented herein.

APPENDIX B — 2017/18 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

Due to the size of the Assessment Roll, a listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways, including public greenbelts and parkways; utility rights-of-ways; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2017/18. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

RESOLUTION NO. 17-262

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

WHEREAS, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Levy Report (hereafter referred to as the "Report") for said district known and designated as: Northwest Roseville Specific Plan Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

WHEREAS, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

WHEREAS, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 That the above recitals are all true and correct.

Section 2 That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

Section 3 That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

RESOLUTION NO. 17-263

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

WHEREAS, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Northwest Roseville Specific Plan Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

WHEREAS, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, to pay for the maintenance and services of all improvements and facilities related thereto.

WHEREAS, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

Section 2 Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

Section 3 The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

Section 4 The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: turf, ground cover, shrubs and trees, irrigation systems, drainage systems, natural areas, open space areas, public pedestrian paths, entry monuments, fencing, lighting systems, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Levy Report describes all new improvements or substantial changes in existing improvements.

Section 5 The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

Section 6 The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Northwest Roseville Specific Plan Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

Section 7 The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018.

Section 8 The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

ENGINEER'S REPORT AFFIDAVIT

Establishment of Annual Rates and Charges for the:

Northwest Roseville Specific Plan Landscaping and Lighting District

City of Roseville
Placer County, State of California

This Report describes the District and any relevant zones therein, including the improvements, budgets, parcels and assessments to be levied for Fiscal Year 2017/18 as they existed at the time of the passage of the Resolution of Intention. Reference is hereby made to the Placer County Assessor's maps for a detailed description of the lines and dimensions of parcels within the District. The undersigned respectfully submits the enclosed Report as directed by the City Council.

I. OVERVIEW

A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to provide and maintain the improvements within the Northwest Roseville Specific Plan Area, known as Northwest Roseville Specific Plan Landscaping and Lighting District (“District”) within the City. The District was formed and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (the “1972 Act” or the “Act”).

This Engineer’s Levy Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2017 through June 30, 2018. The assessments are based on the historical and estimated costs to maintain the improvements that provide a direct and special benefit to properties within the District. The District consists of two (2) benefit zones (“Zones”). The improvements that benefit properties within each Zone and the costs of those improvements are identified and budgeted separately. Each parcel is assessed proportionately for the estimated costs of the parcel’s respective Zone.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number by the Placer County Assessor’s Office. The Placer County Auditor/Controller (“County Auditor/Controller”) uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following consideration of public comments at a public hearing, and a final review of the Report, the City Council may order amendments to the Report or confirm the Report as submitted. After final approval of the Report, and confirmation of the assessments, the assessment information will be submitted to the County Auditor/Controller. The County Auditor/Controller will include the assessments on the property tax roll for fiscal year 2017/18.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

B. COMPLIANCE WITH CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the 1972 Act and are in compliance with the provisions of the *California Constitution Article XIID* (Proposition 218). Pursuant to the *California Constitution Article XIID* (“*Article XIID*”) *Section 5*, certain existing assessments are exempt from the substantive and procedural requirements of *Article XIID Section 4* and property owner balloting for the assessments is not required until such time that the assessments are increased. Specifically, the City determined that all improvements and the annual assessments established for the original District were part of the conditions of property development and approved by the original property owner (developer). As such, pursuant to *Article XIID Section 5(b)*, the property owners approved these existing District assessments at the time the assessments were created (originally imposed pursuant to a 100% landowner petition). Therefore, the pre-existing assessment amounts (the maximum assessment rates of the original Zones A and B identified in this Report) are exempt from the procedural requirements *Article XIID Section 4*.

The District and all Zones therein have been formed pursuant to the 1972 Act. Pursuant to the 1972 Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments and to review the Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the 1972 Act.

In November 2004, the City initiated and conducted property owner protest ballot proceedings, in accordance with the 1972 Act and Article XIID, to annex into Zone A, and approve the maximum assessment rates. At the conclusion of the Public Hearing, the City determined that a majority protest did not exist. The City then approved the Engineer’s Report, through the adoption of Resolution No. 04-507, which annexed the Dunmore Junction territory to Zone A. Dunmore Junction was first assessed by the District in FY 2005/06.

In April 2005, the City initiated and conducted property owner protest ballot proceedings, in accordance with the 1972 Act and Article XIID, to annex into Zones B, and approve the maximum assessment rates. At the conclusion of the Public Hearing, the City determined that a majority protest did not exist. The City then approved the Engineer’s Report, through the adoption of Resolution No. 05-165, which annexed the Legacy subdivision territory to Zone B. The Legacy subdivision was first assessed by the District in FY 2005/06.

C. DESCRIPTION OF DISTRICT BOUNDARIES

The Northwest Roseville Specific Plan Landscaping and Lighting District lies west of the existing urban area of the City of Roseville. The District is generally bounded by Baseline Road to the north, Fiddymont Road to the west and Washington Boulevard to the east. The City annexed in Dunmore Junction, which is generally located on the east side of Porter Drive, south of Junction Boulevard and north of Lawton Avenue. The City also annexed in Legacy Subdivision, which is generally located on the northwest corner of Washington Boulevard and Junction Boulevard. For general reference purposes, renderings of the District's Boundaries are presented in Appendix A of the Report.

D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;

- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

E. DESCRIPTION OF IMPROVEMENTS AND SERVICES

Zone A

Zone A of the District, by special benefit assessments, is to provide funding for the maintenance of the following improvements: landscaped street medians and landscaped corridors adjacent to property within the District including but not limited to, plantings, sound walls, and project identification signs; the maintenance of the vernal pool preserves identified in the Northwest Roseville Specific Plan; the installation and maintenance of bike trails within the Northwest Roseville Specific Plan Area; and the installation of park improvements and/or the payment of debt service related to the installation of bike trails and/or park improvements within the Northwest Roseville Specific Plan Area.

Zone B

Zone B of the District, by special benefit assessments, is to provide funding for the following:

- The maintenance of the landscaped street buffers or medians, certain natural areas within the subdivision and landscape corridors adjacent to the property within the Zone (including, but not limited to, planting, screen walls, project identification signs, and drainage and wetlands areas within the property).
- The perpetual maintenance of the landscape strips adjacent to the Sierra Crossing subdivision contiguous to Foothills Boulevard and Booth Road, including but not limited to maintenance of the planting, screen walls, and project identification signs.
- The maintenance of the natural border adjoining and contiguous to the westerly border of Sierra Crossing.
- The maintenance of the wetland preserve area.
- The on-going maintenance of the landscape strips adjacent to the Legacy subdivision contiguous to Junction Boulevard, Washington Boulevard and Sawtell Road, including but not limited to maintenance of the planting, screen walls, and project identification signs.
- The maintenance of natural border adjoining and contiguous to the westerly border of the Legacy subdivision.

II. METHOD OF APPORTIONMENT

A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

The formula used for calculating assessments reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

B. DESCRIPTION OF METHOD OF APPORTIONMENT

Pursuant to the Act, the costs of the District may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels in proportion to the estimated special benefits to be received by each such parcel from the improvements. The special benefit formula used for any special benefit assessment should reflect the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated special benefit to each parcel. All assessable parcels in the District receive a direct special benefit from the services and improvements provided by the District.

Each parcel within this District has been assigned an Equivalent Benefit Unit (EBU), which reflects each parcel's estimated special benefit from the improvements as compared to other parcels within each Zone of the District. The levy amount is spread evenly to each assessable parcel in the District, on a per benefit unit (per parcel) method.

The Levy per Equivalent Benefit Unit (Rate) applied to each parcel is the result of dividing the total Balance to Levy, by the sum of the District's EBUs, for the fiscal year. This Rate is multiplied by each parcel's individual EBU to determine the parcel's levy amount.

The following formulas are used to calculate the assessment for each parcel:

Zone A

Total number of lots based on final filed maps, divided into the total annual estimated costs of Zone A.

Zone B

Total number of lots based on final filed maps, divided into the total annual estimated costs of Zone B.

C. PROPOSITION 218 BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments regarding the Dunmore Junction subdivision Legacy subdivision annexations to the District, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

Each of the proposed improvements, the associated costs and assessments have been carefully reviewed, identified and allocated based on special benefit pursuant to the provisions of the Constitution and 1972 Act. All improvements associated with this District have been identified as necessary, required and/or desired for the orderly development of the properties within the District to their full potential, consistent with the proposed development plans and applicable portions of the City General Plan and the Northwest Roseville Specific Plan. As such, the improvements for which each property shall be assessed would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of those properties. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each assessed parcel within the District receives benefit from the improvements. Well-maintained landscaping and recreational facilities in close proximity to those properties enhances the desirability of those properties.

The special benefits associated with the landscape improvements and associated appurtenants are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green belts, landscaped areas and recreational facilities.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

All of the preceding special benefits allow the property to be developed for the enjoyment of the property owners and contribute to a specific enhancement and desirability of each of the assessed parcels within the District.

The improvements are for the special benefit, enhancement and use of properties within the District and the Northwest Roseville Specific Plan Area. Although the improvements include public easements, rights-of-way and other amenities available or visible to the public at large, it has been determined that the additional improvements installed in connection with this development and those installed as part of the overall Northwest Roseville Specific Plan, are only necessary for the development of properties within the specific plan area and were not required nor necessarily desired by any properties or developments outside the Northwest Roseville Specific Plan Area. Therefore, this District being part of that plan, receives similar and proportional special benefits from both the improvements installed in connection with developing properties in this District as well as existing and future shared amenities within the District. Any public access or use of the improvements by others is incidental and there is no measurable general benefit to properties outside the specific plan area or to the public at large.

III. DISTRICT BUDGET

A. 2017/18 BUDGET

DESCRIPTION	Zone A ⁽¹⁾	Zone B ⁽²⁾	TOTAL
<u>DIRECT COSTS</u>			
Contract Maintenance - Landscaping	\$182,710.00	\$11,820.00	\$194,530.00

D. DESCRIPTION OF BUDGET ITEMS

BUDGET:

DIRECT COSTS

Contract Maintenance - Landscaping - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping corridors, street medians, entryways, irrigation and related drainage systems as well as maintenance of appurtenant facilities (the "improvements").

Repair & Maintenance – Landscaping / Parks - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. If zero, this line item may not be shown in the budget.

Utilities - The furnishing of water and electricity required for the operation and maintenance of the improvements.

Stormwater Management / Drainage - This line item includes costs to properly maintain certain drainage and / or wetlands areas within the District. If zero, this line item may not be shown in the budget.

Rehab Reserve Project Expenditures – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

City Administration – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

Contract Administration – Park's Dept – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

County Auditor Fees - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

Consulting and Professional Services – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

Public Hearing Publishing Costs –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

Total Direct and Administration Costs – The total expected costs of the District.

BUDGET ADJUSTMENTS

Replenishment/(Use) of Operating Reserve – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

Contribution for /(Use of) Rehab Reserve — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

ASSESSMENT RATES:

Number of Assessable Units - The total number of assessable units within the District for the Current Fiscal Year.

Applied Assessment Rates per Unit - The assessment rates to be applied to each parcel within the District for the current fiscal year.

Maximum Assessment Rates per Unit - The maximum assessment rates for the current fiscal year.

Potential Maximum Assessment Per Zone – The total amount that can be assessed against all parcels within each Zone for the current fiscal year based upon the expected number of units to be assessed.

FUND BALANCE INFORMATION:

OPERATING RESERVE

Beginning Operating Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenish from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Rehab Reserve — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2018. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating

Reserve balances and shall be shown separately in the Report.

REHABILITATION RESERVE

Beginning Rehab Reserve Balance 7-1-2017 (est.) — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Collect from FY 17/18 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Rehab Projects – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Rehab Reserve Balance 6-30-2018 (est.) - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2018. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report.

E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five-year Capital Improvement Plan for the rehabilitation, restoration and /or replacement of District improvements and other allowable costs is shown below for each Zone with a projected ending Rehabilitation Reserve balance.

Zone A - Projections of the Zone's future capital improvement expenditures are: repair, replacement and/or refurbishment of fencing improvements \$15,000, \$80,000, \$50,000, \$20,000 and \$18,000 in FYs 2017/18, 2018/19, 2019/20, 2020/21 and 2021/22, respectively; replacement, repair, renovation and/or refurbishment of plants, landscape & related materials: \$35,000, \$35,000, \$25,000 and \$25,000 in FYs 2018/19, 2019/20, 2020/21 and 2021/22, respectively; and, grid tree pruning, removal and replacement of declining trees \$15,000 in FY 2017/18 and \$25,000 in each of FYs 2018/19, 2019/20, 2020/21 and 2021/22.

Zone B – The Zone's projected reserves are not sufficient to fund costs beyond fiscal year 2017/18.

From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and / or operation of the improvements.

APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map of the District and Zones have previously been submitted to the Clerk of the City in the format required under the Act and are, by reference, hereby made part of this Report. The boundary maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District's Boundaries is represented herein.

APPENDIX B — 2017/18 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

Due to the size of the Assessment Roll, a listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2017/18. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

RESOLUTION NO. 17-264

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

WHEREAS, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Levy Report (hereafter referred to as the "Report") for said district known and designated as: Olympus Pointe Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"); and,

WHEREAS, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

WHEREAS, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 That the above recitals are all true and correct.

Section 2 That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

Section 3 That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

RESOLUTION NO. 17-265

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

WHEREAS, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Olympus Pointe Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and,

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and,

WHEREAS, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, to pay for the maintenance and services of all improvements and facilities related thereto; and,

WHEREAS, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

Section 2 Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;

- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2017 and ending June 30, 2018 is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated special benefits to be received by each parcel from the improvements and services.

Section 3 The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

Section 4 The maintenance, operation and servicing of the improvements and appurtenant facilities shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: project identification signs and surrounding landscape and hardscape, special street materials, sculpture and sculpture park, special lighting for the project identification signs, sculpture and sculpture park, landscape street medians, special street signs, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report, as ordered by previous Resolution, provides a full and complete description of all improvements and any or all substantial changes to the improvements within the District.

Section 5 The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

Section 6 The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Olympus Pointe Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with any other expenses described in Section 4.

Section 7 The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018.

Section 8 The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

ENGINEER'S REPORT AFFIDAVIT

Establishment of Annual Rates and Charges for the:

Olympus Pointe Landscaping and Lighting District

City of Roseville
Placer County, State of California

This Report describes the District and any relevant zones therein, including the improvements, budgets, parcels and assessments to be levied for Fiscal Year 2017/18 as they existed at the time of the passage of the Resolution of Intention. Reference is hereby made to the Placer County Assessor's maps for a detailed description of the lines and dimensions of parcels within the District. The undersigned respectfully submits the enclosed Report as directed by the City Council.

Dated this 20 day of APRIL, 2017

Willdan Financial Services
Assessment Engineer
On Behalf of the City of Roseville

I. OVERVIEW

A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the certain public improvements within the Olympus Pointe Landscaping and Lighting District (“District”) within the City. The District, which was formed in 1989, is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “Act”).

The Engineer’s Report (“Report”) describes the District boundaries, any new annexations, improvements maintained by the District and the proposed assessments for the period of July 1, 2017 through June 30, 2018.

The District consists of two (2) benefit Zones (“Zones”). The improvements that benefit properties within each Zone and the costs associated with those improvements are identified and budgeted separately. Each parcel within a Zone is assessed proportionately for only those improvements and services that are a direct and special benefit to the properties within the respective Zone. The assessments are based on the historical and estimated cost to maintain the improvements that provide a direct and special benefit to properties within the District.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments herein pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year (“FY”) 2017/18. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

B. COMPLIANCE WITH CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIC and XIID (“Article XIIC” and “Article XIID”) and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the “Implementation Act”). Articles XIIC and XIID and the Implementation Act collectively are hereinafter referred to as “Proposition 218”.

The District’s Maximum Assessment Rates for all Zones and the Inflationary Adjustment Factor were previously approved and confirmed through property owner ballot proceedings and as such, comply with the provisions of Proposition 218.

Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer’s Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls.

C. CLARIFICATION OF ZONE DESIGNATIONS

In order to increase consistency with the City’s other districts and to facilitate presentation within the Engineer’s Report, the names of both Zones were redesignated, commencing with FY 2007/2008, as follows:

- The “Non-Residential/Multi-Family Residential Zone” was redesignated to “Zone A”. ⁽¹⁾
- The “Residential Zone” was redesignated to “Zone D”. ⁽²⁾

(1) Prior to FY 2005/2006, this territory was known as “Zone A”. In FY 2005/2006, Zone A was redesignated to the “Non-Residential/Multi-Family Residential Zone”.

(2) Prior to FY 2005/2006, this territory was known as “Zones B & C”. In FY 2005/2006, Zones B & C were combined and redesignated to the “Residential Zone”.

D. GENERAL DESCRIPTION OF DISTRICT

The Olympus Pointe Landscaping and Lighting District is located in the City of Roseville at the southerly edge of Placer County, northeast of the intersection of Interstate 80 and Douglas Boulevard. The site is generally bounded by Interstate 80 on the west, East Roseville Parkway and Olympus Drive to the north, Douglas Boulevard to the south and Sierra College Boulevard to the east. See Appendix A for a rendering of the District boundary map.

The District consists of two zones as described below. These zones were established by the City through a District reengineering commencing with the FY 2005/2006 levy. Additional information regarding the reengineering is provided in Section III of the Report.

Zone A

Zone A includes land zoned for non-residential and multi-family residential uses. The Zone comprises the majority of the District and is primarily west and south of East Roseville Parkway, east of Interstate 80 north of Douglas Boulevard. This Zone contains 581.78 acres of assessable land that was originally designated as “Zone A”. The area was then redesignated as the “Non-Residential/Multi-Family Zone” commencing with the FY 2005/06 and then redesignated back to “Zone A” commencing with the FY 2007/08 levy.

Zone D

Zone D includes two single-family residential developments on the eastern side of the District. The Zone is bisected by Olympus Drive and Sierra College Boulevard on the District’s eastern boundary and includes 468 developed single-family residences. Originally, each residential development was designated as separate zone (Zones B and C). The area was redesignated as the “Residential Zone” commencing with the FY 2005/2006 levy and then redesignated to the “Zone D” commencing with the FY 2007/2008 levy.

E. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.

- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

F. DESCRIPTION AND LOCATION OF IMPROVEMENTS

This District, through the levy special assessments, provides funding for the maintenance and operation of the following improvements located within the public rights-of-way and dedicated easements: project identification signs, including surrounding landscape and hardscape; special street materials; sculptures and sculpture park; special street signs; special lighting for the project identification signs and special illuminated street signs; and landscaped street medians (the “Improvements”). The specific locations of the improvements within the district are described as follows:

1. Zone A

a. Landscaped Median Islands:

- Eureka Road from Douglas Boulevard to Taylor Road Connector
- Sunrise Avenue from southern boundary of NERSP to East Roseville Parkway
- East Roseville Parkway from Douglas Boulevard to Rocky Ridge Drive
- Douglas Boulevard from eastern boundary of NERSP to Rocky Ridge Drive

b. Project identification signs (granite entryways) and special paving materials:

- Eureka Road at Douglas Boulevard
- East Roseville Parkway at Douglas Boulevard
- Eureka Road at Taylor Road

c. Sculpture and Sculpture Park:

- Aris Demetrio's original sculpture located on Parcel 14
- Sculpture park (0.85 acres located on Parcel 14)

d. Special street signs:

- Eureka Road at Sunrise Avenue, Rocky Ridge Drive, Lead Hill Drive and Douglas Boulevard
- Lead Hill Drive at Rocky Ridge Drive
- Sunrise Avenue at Auto Mall entrance
- East Roseville Parkway at Taylor Road, Lead Hill Drive, Olympus Drive and Douglas Boulevard
- Olympus Drive at Sierra College Boulevard

2. Zone D

a. Landscaped Frontage:

- Southern side of Olympus Drive from East Roseville Parkway to Sierra College Boulevard, excluding any landscaping not within or adjacent to the Zone
- Northern side of Olympus Drive from the Zone boundary (the former Zone C boundary), which is 175 feet southwest of Corniche Lane, to Sierra College Boulevard, western side of Sierra College Boulevard from Olympus Drive to the Zone boundary (the former Zone C boundary), which is approximately 600 feet.

b. Project identification signs and special paving materials:

- Sierra College Boulevard at Olympus Drive

G. DESCRIPTION OF MAINTENANCE AND SERVICES

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of the Improvements and appurtenant facilities, including repair, removal or replacement of all or part of any of Improvements or appurtenant facilities; providing for the life, growth, health and beauty of the Improvements including cultivation, irrigation, trimming, mowing, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste.

Servicing means the furnishing of water and electricity for the Improvements including any decorative lighting and the furnishing of electric current or energy, gas or other illuminating agent for the special street signs.

II. METHOD OF APPORTIONMENT

A. GENERAL

The Act permits the establishment of assessment districts by public agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of street lights, traffic signals and landscaping facilities. Streets and Highways Code Section 22573 requires that maintenance assessments be levied according to benefit rather than the assessed value.

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

In addition, Article XIID and the Implementation Act require that a parcel’s assessment may not exceed the reasonable cost for the proportional special benefit conferred to that parcel. Article XIID and the Implementation Act further provide that only special benefits are assessable and the City must separate the general benefits from the special benefits. They also require that publicly owned properties, which specifically benefit from the improvements, be assessed.

B. BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

The City initiated and conducted a property owner protest ballot proceedings in accordance with Article XIID and the Implementation Act for both the Non-Residential/Multi-Family Zone (Zone A) and the Residential Zone (Zone D). Each Zone's Improvements, the associated costs and assessments had been reviewed, identified and allocated based on special benefit pursuant to the provisions of the Constitution and Act.

All Improvements associated with these Zones have been identified as necessary, required and/or desired for the orderly development of the properties to their full potential. As such, these Improvements would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these Improvements would be the financial obligation of those properties. Therefore, the Improvements and the annual costs of ensuring the maintenance and operation of the Improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each of the assessed parcels within these Zones receives special benefit from the Improvements maintained and financed by the assessments. Specifically, the assessments associated with the Zones are for the maintenance of the Improvements installed as part of the original development of the parcels within the Zones. The desirability and security of properties within each Zone is enhanced by the close proximity of these amenities to those properties.

The annual assessments outlined in this Report are proposed to cover the estimated costs to provide all necessary service, operation, administration, and maintenance required to keep the Zone Improvements in a healthy, vigorous, and satisfactory condition.

The special benefits associated with these improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties within the Zones providing a positive representation of the area.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.

- Environmental enhancement through improved erosion resistance, and dust and debris control.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels within the Zones by moderating temperatures, providing oxygenation and attenuating noise.

All of the preceding special benefits allowed the property to be developed for the enjoyment of the property owners and contribute to an ongoing specific enhancement and desirability of each of the assessed parcels within the Zones.

The improvements are for the special benefit, enhancement and use of properties within the Zones. Although the improvements include public easements, rights-of-way, streets and other amenities available or visible to the public at large, the construction and installation of these Improvements were only necessary for the development of properties within the Zones and were not required nor necessarily desired by any properties or developments outside the Zone's boundaries. Therefore, any public access or use of the Improvements by others is incidental and there is no measurable general benefit to properties outside the Zones or to the public at large. In making this determination, it should be noted that all parkway and perimeter landscaping within the City is both funded and maintained by a special district, individual property owners or through some type of association.

C. ASSESSMENT METHODOLOGY

To establish the special benefit to the individual lots and parcels within the District an Equivalent Benefit Unit ("EBU") system is used. The EBU method of apportioning benefit is typically seen as the most appropriate and equitable assessment methodology for districts formed under the Act, as the benefit to each parcel from the Improvements are apportioned as a function of land use type, size and development. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

EBU Application Table

Land Use	EBU per Unit/Acre
Single Family Residential	1.00 per Unit
Multi-Family Residential	1.00 per Acre
Non-Residential	1.00 per Acre
Exempt	0.00 per Acre

1. Definitions and Formulas Related to the Product Type EBU Method

Single-Family Residential — This land use is defined as a fully subdivided residential parcel that is part of a final tract map.

Multi-Family Residential — This land use is defined as a residential parcel anticipated to have or has more than one residential unit.

Non-Residential — Parcels that are not considered Single Family Residential, Multi-Family Residential or Exempt.

Exempt Parcels — This land use identifies properties that are not assessed and are assigned 0.0 EBU per acre. This land use classification may include, but is not limited, to lots or parcels identified as public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas, greenbelts, parkways, park properties and other publicly owned properties that are part of the District Improvements. These types of parcels are considered to receive little or no benefit from the Improvements and are therefore exempted from assessment.

2. Zone Benefit Formula

The benefit formula applied to parcels within each Zone is based on the preceding Equivalent Benefit Unit (EBU) Application Table. Each parcel's EBU correlates the parcel's special benefit received as compared to all other parcels benefiting from the Improvements.

The following formula is used to calculate the EBU for each parcel (proportional benefit).

$$\text{Parcel Type EBU} \times \text{Units/Acres} = \text{Parcel EBU}$$

The total number of Equivalent Benefit Units (EBUs) is the sum of all individual EBUs applied to parcels within each Zone that receive a special benefit from the Improvements. An assessment amount per EBU (Assessment Rate) for each Zone is established by taking the total costs associated with the Zone's Improvements and dividing that amount by the total number of EBUs within each Zone of all parcels benefiting from those Improvements. This Rate is then applied back to each individual parcel based on their assigned EBUs to determine the parcel's proportionate special benefit and assessment obligation from those Improvements.

$$\text{Zone Budget} / \text{Total EBU} = \text{Assessment per EBU}$$

$$\text{Assessment per EBU} \times \text{Parcel EBU} = \text{Maximum Parcel Assessment Amount}$$

D. ASSESSMENT RANGE FORMULA

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to annual assessments rather than initiating protest ballot proceedings to approve small increases in annual costs. This District provides for an annual adjustment to the Maximum Assessment Rate in an amount equal to three percent (3%).

The Maximum Assessment Rate is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. Any proposed annual assessment rate (less than or equal to this Maximum Assessment Rate) is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment Rate will increase each year, the actual assessment rate may go up and down as compared to the previous year(s). The Maximum Assessment Rate adjustment is designed to allow for the adjustment of the annual assessment for inflation in order to maintain the original purchasing power of the District budget. The Maximum Assessment Rate calculated each year does not require or facilitate an increase to the annual assessment and neither does it restrict assessments to the adjusted maximum amount. If the budget and assessment for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment Rate, then the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment Rate, then the assessment is considered an increased assessment and would be subject to Proposition 218 balloting requirements.

E. BASE MAXIMUM ASSESSMENT RATES

The base assessment rates and the annual inflationary adjustment to each Zone are listed in the table below:

Zone	Base Year	Base Year Maximum Assessment Rate per EBU	Annual Inflationary Adjustment Commencing with FY 2006/07
Zone A	FY 2005/06	\$296.65	3.00%
Zone D	FY 2005/06	99.76	3.00%

III. DISTRICT BUDGET

A. 2017/18 BUDGET

DESCRIPTION	ZONE A	ZONE D	TOTAL
<u>DIRECT COSTS</u>			
Contract Maintenance - Landscaping	\$54,920.00	\$27,590.00	\$82,510.00
Contract Maintenance - Parks	2,670.00	n/a	2,670.00
Repair & Maintenance - Landscaping/Parks	30,000.00	11,000.00	41,000.00
Utilities	30,910.00	13,000.00	43,910.00
Maintenance - Parks City Staff	6,600.00	0.00	6,600.00
Rehab Reserve Project Expenditures - Walls & Medians	<u>130,000.00</u>	<u>5,000.00</u>	<u>135,000.00</u>
Total Direct Costs	\$255,100.00	\$56,590.00	\$311,690.00
<u>ADMINISTRATION COSTS</u>	88.42%	11.58%	
City Administration	\$7,261.76	\$951.24	\$8,213.00
Contract Administration - Park's Dept	13,000.00	3,000.00	16,000.00
County Auditor Fees	1,541.00	666.56	2,207.56
Consulting & Professional Services	2,984.00	363.00	3,347.00
Consultant Incidental Expenses	67.00	23.00	90.00
Public Hearing Publishing Costs	782.00	58.00	840.00
ERP Project Costs	<u>2,062.00</u>	<u>842.00</u>	<u>2,904.00</u>
Total Administrative Costs	\$27,697.76	\$5,903.80	\$33,601.56
Total Direct and Administration Costs	\$282,797.76	\$62,493.80	\$345,291.56
<u>BUDGET ADJUSTMENTS</u>			
Replenishment/(Use) of Operating Reserve		\$9,071.67	
Contribution for /(Use of) Rehab Reserve	(130,000.00)	(5,000.00)	(135,000.00)
Rounding Adjustment		(4.68)	(4.68)
Total Adjustments	(\$128,000.00)	\$4,066.99	(\$123,933.01)
BALANCE TO LEVY	\$154,797.76	\$66,560.79	\$221,358.55

B. 2017/18 ASSESSMENT RATES

DESCRIPTION	ZONE A	ZONE D	TOTAL
<u>FY 2017/18 APPLIED ASSESSMENT RATES</u>			
Total Assessable Acreage	539.1302	0.00	
Total Assessable Units	<u>186</u>	<u>468</u>	
Total Equivalent Benefit Units (EBUs)	725.1302	468	1,193.1302
Assessment Rates per Equivalent Benefit Unit (EBU)			
Applied Assessment Rates per EBU	\$213.4758	\$142.2200	
Maximum Assessment Rates per EBU	\$422.9520	\$142.2339	
Potential Maximum Assessment Per Zone	\$306,695	\$66,565	\$373,261

C. 2017/18 FUND BALANCE INFORMATION

DESCRIPTION	ZONE A	ZONE D	TOTAL
<u>OPERATING RESERVE</u>			
Beginning Operating Reserve Balance 7-1-2017 (est.)	\$64,350.25	\$31,604.01	\$95,954.26
add: Replenish from FY 17/18 Levy	2,000.00	9,071.67	11,071.67
less: Use for FY 17/18 Expenses			0.00
Transfer from/(to) the Rehab Reserve	75,048.63	(9,428.78)	65,619.85
Ending Operating Reserve Balance 6-30-2018 (est.)	\$141,398.88	\$31,246.90	\$172,645.78

Beginning Rehab Reserve Balance 7-1-2017 (est.)	\$237,531.38	\$37,775.23	\$275,306.61
add: Collect from FY 17/18 Levy			0.00
less: Use for FY 17/18 Rehab Projects	(130,000.00)	(5,000.00)	(135,000.00)
Transfer from/(to) the Operating Reserve	(75,048.63)	9,428.78	(65,619.85)
Ending Rehab Reserve Balance 6-30-2018 (est.)	\$32,482.75	\$42,204.01	\$74,686.76

D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

BUDGET:

DIRECT COSTS

Contract Maintenance - Landscaping – Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation and related drainage systems, as well as maintenance of appurtenant facilities (the “improvements”). Cost to maintain improvements within the District’s entryway areas are not included in this amount.

Contract Maintenance – Entryways – Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of entryway improvements, as well as maintenance of appurtenant facilities (the “improvements”).

Utilities - The furnishing of water and electricity required for the operation and maintenance of the improvements.

Rehab Reserve Project Expenditures – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The

Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

City Administration – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

Contract Administration – Park's Dept – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

County Auditor Fees - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

Consulting and Professional Services – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

Public Hearing Publishing Costs –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

Total Direct and Administration Costs – The total expected costs of the District.

BUDGET ADJUSTMENTS

Replenishment/(Use) of Operating Reserve – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

Contribution for / (Use of) Rehab Reserve — A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve

allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

ASSESSMENT RATES:

APPLIED ASSESSMENT RATES

Total Assessable Acreage - The total acreage within each zone expected to be assessed in the current fiscal year.

Total Assessable Units - The total number of assessable single family units within each zone expected to be assessed in the current fiscal year.

Total Equivalent Benefit Units (“EBUs”) - Total assessable EBUs within the District for the current fiscal year. Each assessable parcel is assigned EBUs as follows:

Land Use	EBU per Unit/Acre
Single Family Residential	1.00 per Unit
Multi-Family Residential	1.00 per Acre
Non-Residential	1.00 per Acre
Exempt	0.00 per Acre

Applied Assessment Rate per Equivalent Benefit Unit (EBU) - The assessment rate per EBU to be applied to the applicable Zone for the current fiscal year.

Maximum Assessment Rate per Equivalent Benefit Unit (EBU) - The maximum assessment rate per EBU that can be applied to the applicable Zone for the current fiscal year.

Potential Maximum Assessment Per Zone – The total amount that can be assessed to all parcels within each Zone for the current fiscal year based upon the expected number of assessable units and acres.

FUND BALANCE INFORMATION:

OPERATING RESERVE

Beginning Operating Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenish from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Rehab Reserve — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2018. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

REHABILITATION RESERVE

Beginning Rehab Reserve Balance 7-1-2017 (est.) — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Collect from FY 17/18 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Rehab Projects – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Rehab Reserve Balance 6-30-2018 (est.) - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2018. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve or related activity, the Rehabilitation Reserve information may not be presented in the Report.

E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five-year Capital Improvement Plan for the rehabilitation, restoration and /or replacement of District improvements and other allowable costs is shown below for each Zone with a projected ending Rehabilitation Reserve balance.

Zone A - Rehabilitation, renovation and/or replacement costs of median improvements are projected to be \$35,000 in FY 2017/18; rehabilitation, renovation and/or replacement costs of project entryway improvements are projected to be \$35,000 in FY 2017/18; replacement, renovation, repair and/or refurbishment of plants, landscape & related materials are projected to be \$5,000 in FY 2017/18, \$12,000 in FY 2018/19 and \$7,000 in each of FYs 2019/20, 2020/21 and 2021/22 and replacement of irrigation controller \$30,000 in FY 2017/18.

Zone D - Rehabilitation, renovation and/or replacement costs of project entryway improvements are projected to be \$10,000 in each FYs 2018/19 and 2020/21. Replacement, repair, renovation and/or refurbishment of plants, landscape & related materials are projected to be \$5,000, \$3,500, \$10,000, \$3,500 and \$5,500 in FYs 2017/18, 2018/19, 2019/20, 2020/21 and 2021/22, respectively.

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements.

APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District's Boundaries is presented herein.

APPENDIX B — 2017/18 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways, including public greenbelts and parkways; utility rights-of-ways; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2017/18. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

RESOLUTION NO. 17-266

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

WHEREAS, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Riverside Avenue Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

WHEREAS, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

WHEREAS, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 That the above recitals are all true and correct.

Section 2 That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

Section 3 That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

RESOLUTION NO. 17-267

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

WHEREAS, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Riverside Avenue Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

WHEREAS, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2017 and ending June 30, 2018, to pay for the maintenance and services of all improvements and facilities related thereto.

WHEREAS, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

Section 2 Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

Section 3 The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

Section 4 The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: the improvements within the District include: maintenance, servicing, administration and operation of landscape, lighting and streetscape improvements, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report describes all new improvements or substantial changes in existing improvements.

Section 5 The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

Section 6 The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Riverside Avenue Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

Section 7 The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018.

Section 8 The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

I. OVERVIEW

A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the Riverside Avenue Landscaping and Lighting District (“District”). The District was formed in January of 2007 and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (“1972 Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2017 through June 30, 2018. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made and confirm the levy and collection of assessments herein pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District for Fiscal Year (“FY”) 2017/18. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

B. COMPLIANCE WITH CURRENT LEGISLATION

The City Council, pursuant to the provisions of the “Landscaping and Lighting Act of 1972”, being Division 15, Part 2 of the Streets and Highways Code of the State of California, beginning with Section 22500 (the “1972 Act”); Article XIID of the Constitution of the State of California (“Article XIID”); and the Proposition 218 Omnibus Implementation Act, beginning with Government Code Section 53750 (the “Implementation Act”) (the 1972 Act, Article XIID and the Implementation Act are referred to collectively as the “Assessment Law”) initiated proceedings for the formation of the District on November 15, 2006 and to levy and collect annual assessments against lots and parcels within the District for FY 2007/08. On January 17, 2007, pursuant to Assessment Law, the City conducted a Public Hearing and tabulated the returned ballots. The City determined that a majority protest did not exist and approved the District’s maximum assessment rate and annual inflationary adjustment factor.

Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer’s Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act and Assessment Law.

C. DESCRIPTION OF DISTRICT BOUNDARIES

The proposed territory within the District consists of all lots, parcels and subdivisions of land as shown on the Boundary Map titled “Boundary Map of Riverside Avenue Landscaping and Lighting District” contained within this report in Appendix A-1.

The District is bounded by Douglas Boulevard to the north, Darling Way to the south and includes parcels that front Riverside Avenue. It is centrally located between Interstate 80 and Downtown Roseville, and is east of the Union Pacific Railroad.

The District currently has a mix of different types of land uses including automotive related retail and car lots, community/neighborhood retail, offices, services, and residential units.

D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.

- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.

- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE

The District, through the levy of special assessments, is to provide funding for ongoing maintenance, operation and servicing of landscaping and lighting improvements located within the public rights-of-ways and dedicated easements located within the District. These improvements may include, but are not limited to, all materials, equipment, utilities, labor, and appurtenant facilities related to the ongoing maintenance of the improvements. The improvements to be maintained and services are generally described as follows:

Landscaping Improvements

The general landscaping improvements in the District are to be consistent with the improvements on Vernon Street located north of the District, which intersects Riverside Avenue. As a gateway to downtown Roseville, Riverside Avenue's compatibility with Vernon Street links the downtown area and Riverside Gateway area together.

The landscaping improvements have been designed to enhance the area within the District and may include, but are not limited to ground cover, shrubs and plants, trees, irrigation and drainage systems, ornamental lighting, masonry walls or other fencing, hardscape improvements, monuments and landmarks, mid-block bulbs, bulb-outs, and associated appurtenants located within the street rights-of-way and public areas within the District. Specifically, the proposed landscape improvement areas for this District are:

- Landscaping and hardscape improvements within the public rights-of-way of the streets within the District including, but not limited to, Riverside Avenue including the corners of Riverside Avenue and Second Street, Third Street, Fourth Street, Fifth Street, Sixth Street, Darling Way, Fern Street, Cherry Street, and Bonita Street.
- Decorative banners along Riverside Avenue.
- Transit facilities including bus stop seating and decorative shelters.
- Roundabout improvements including plantings, paving, and landmark feature located at the intersection of Vernon St., Douglas Blvd., and Riverside Ave.
- A Gateway feature located at the intersection of Darling Way and Riverside Avenue.

- Various amenities associated with the landscape improvements and public areas within the District, including, but not limited to, trash receptacles, street furniture, bike racks, entry signs, sidewalks, fencing, and retaining walls.

Specifically not included as District improvements are those improvements located on private property, improvements and facilities that are outside the boundaries of the District and/or area funded by other sources available to the City.

Public Lighting Improvements

The lighting improvements may include, but are not limited to, the cost of providing, maintaining and servicing of lighting fixtures, poles, meters, conduits, electrical cable, and associated appurtenant facilities associated with:

- Lighting facilities within the landscaped areas and public areas including safety lights, security lights or ornamental lights installed as part of the District improvements; and
- Public street light improvements located on the streets within the District. Specifically excluded from the assessment are the street light energy costs. These costs are to be paid for by the City from other revenue sources.

Detailed maps and descriptions of the location and extent of the specific improvements to be maintained by the District are on file in the Office of Public Works and by reference are made part of this Report.

Description of Maintenance and Services

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of landscaping and street lighting improvements facilities and appurtenant facilities, including repair, removal or replacement of all or part of any of the landscaping and street lighting improvements, or appurtenant facilities; providing for the life, growth, health and beauty of landscaping improvements including cultivation, irrigation, trimming, mowing, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste; and the cleaning sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Servicing means the furnishing of water and electricity for the irrigation of the landscape improvements or appurtenant facilities and the furnishing of electric current or energy for the operation of the landscaping improvements or appurtenant facilities. The street lighting improvements shall be maintained to provide adequate illumination; however, the City will be paying the actual energy costs of the street lights.

II. METHOD OF APPORTIONMENT

A. GENERAL

The Implementation Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of landscaping improvements, street lights and traffic signals.

Streets and Highways Code Section 22573 requires that maintenance assessments be levied according to benefit rather than the assessed value.

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

In addition, Article XIID and the Implementation Act require that a parcel's assessment may not exceed the reasonable cost for the proportional special benefit conferred to that parcel. Article XIID and the Implementation Act further provides that only special benefits are assessable and the City must separate the general benefits from the special benefits. They also require that publicly owned properties that specifically benefit from the improvements be assessed.

B. SPECIAL BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The costs of the proposed improvements have been identified and allocated to properties within the District based on special benefit. The improvements to be provided by this District and for which properties will be assessed have been identified as an essential component and local amenity that provides a direct reflection and extension of the properties within the District which the property owners and residents have expressed a high level of support.

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the landscape and lighting improvements within the District, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive special benefits.

To identify and determine the proportional special benefit to each parcel within the District, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District. The various public improvements and the associated costs have been identified as either “general benefit” (not assessed) or “special benefit”.

Proper maintenance and operation of parkway landscaping and streetlights provides special benefit to adjacent properties by providing community character, security, safety and vitality. In addition, these improvements will enhance the ability of property owners to attract and maintain customers as well as increase the viability of commercial development.

Landscaping Special Benefit

Landscaping and appurtenant facilities, if well maintained, provide beautification, shade and enhancement of the desirability of the surroundings, and therefore increase property value. Specifically they provide a sense of ownership and a common theme in the community providing aesthetic appeal and increased desirability of properties.

Landscaping provides special benefit to those developments that are directly adjacent to the public streets.

Landscaping General Benefit

The Improvements were installed to directly benefit the property owners in the District to enhance business and development opportunities. Therefore, it has been determined that there are no general benefits associated with the landscaping improvements.

Lighting Special Benefit

The operation, maintenance and servicing of lighting along local streets and arterial streets of a development provide the following special benefits:

- Improved security of lots and parcels along the perimeter of the development;
- Improved nighttime visibility for the local access of emergency vehicles; and
- Improved safety and traffic circulation to and from parcels.

Street Lights General Benefit

Similar to the landscaping improvements described above, the Improvements were installed to directly benefit the property owners in the District to enhance business and development opportunities. Therefore, it has been determined that there are no general benefits associated with lighting improvements.

C. ASSESSMENT METHODOLOGY

To establish the special benefit to the individual parcels within the District, a formula that spreads the costs of the maintenance based on the special benefit must be established. The improvements have been reviewed and a formula has been established to apportion the maintenance costs based on benefit.

The method of assessment is based on the front footage of each parcel located within the District. The parcel's Front Footage was determined based on Assessor Parcel maps or other sources. Only Front Footage on Riverside Avenue was used.

Based on the above formula, the FY 2007/08 maximum assessment rate approved on January 17, 2007 through a property owner balloting (the “Initial Assessment Rate” or the “Base Year Maximum Assessment Rate”) is \$6.45 per each foot of frontage.

The following formulas were used to first calculate the District’s Initial Assessment Rate and then each parcel’s FY 2007/2008 assessment (proportional benefit):

Step 1:

$$\text{Balance to Levy} \div \text{Total Front Footage} = \text{Maximum Front Footage Rate}$$

Step 2:

$$\text{Parcel Front Footage} \times \text{Maximum Front Footage Rate} = \text{Maximum Assessment}$$

The Total Front Footage was the sum of all the Front Feet within the District. The Initial Assessment Rate per Front Foot was established by taking the total cost of improvements (Balance to Levy) and dividing that amount by the Total Front Footage within the District. The Initial Assessment Rate per Front Foot, which is also the FY 2007/2008 Maximum Front Footage Rate, is then applied back to each individual parcel’s Front Footage to determine the parcel’s proportionate special benefit and assessment obligation (The FY 2007/2008 Maximum Assessment).

D. ASSESSMENT RANGE FORMULA

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to annual assessment rates without requiring the District to go through the requirements of Proposition 218 in order to get a small increase in assessments. This District provides for an annual adjustment to the Maximum Assessment Rate of the lesser of the percentage change in the Local Consumer Price Index of the San Francisco-Oakland-San Jose Area for All Urban Consumers (the “CPI”) or three percent (3%) (the “Escalation Percentage”). The CPI in this adjustment shall be determined through CPI data from the Bureau of Labor Statistics from December to December, beginning with the period from December 2006 to December 2007.

The Assessment Range Formula shall be applied to all future assessments within the District beginning in fiscal year 2008/2009. Generally, if the proposed annual assessment rate for the current fiscal year is less than or equal to the calculated Maximum Assessment Rate, then the proposed annual assessment is not considered an increased assessment. The Maximum Assessment Rate is equal to the FY 2007/08 Maximum Assessment Rate, which was approved on January 17, 2007 through a property owner balloting (the “Initial Assessment Rate” or “Base Year Assessment Rate”), and adjusted annually by the Escalation Percentage.

Beginning in the second fiscal year (Fiscal Year 2008/2009) and each fiscal year thereafter, the Maximum Assessment Rate would be recalculated and a new Maximum Assessment Rate established within the District.

The Maximum Assessment Rate is adjusted annually and is calculated independent of the District’s annual budget and proposed annual assessment. Any proposed annual assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment Rate will increase each year, the actual assessment rate may remain unchanged. The Maximum Assessment Rate adjustment is designed to establish a reasonable limit on assessments. The Maximum Assessment Rate calculated each year does not require or facilitate an increase to the annual assessment rate and neither does it restrict assessments to the adjusted maximum amount. If the budget and assessment for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment Rate, then the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment, then the assessment is considered an increased assessment and would be subject to balloting.

III. DISTRICT BUDGET

A. 2017/18 BUDGET

DESCRIPTION	AMOUNTS
<u>DIRECT COSTS</u>	
Contract Maintenance - Landscaping	\$4,900.00
Repair & Maintenance - Landscaping	6,500.00
Repair & Maintenance - Lighting	1,000.00
Repair and Maintenance - Streetscape and Signage	2,000.00
Utilities	8,400.00
Rehab Reserve Expenditures - Signage	<u>95,000.00</u>
Total Direct Costs	\$117,800.00
<u>ADMINISTRATION COSTS</u>	
City Administration	\$1,538.00
Contract Administration - Park's Dept	1,738.00
County Auditor Fees	395.98
Consulting & Professional Services	3,017.00
Consultant Incidental Expenses	60.00
Public Hearing Publishing Costs	795.00
ERP Project Costs	<u>2,904.00</u>
Total Administrative Costs	\$10,447.98
Total Direct and Administration Costs	\$128,247.98
<u>BUDGET ADJUSTMENTS</u>	
Replenishment/(Use) of Operating Reserve	\$6,349.83
Contribution for /(Use of) Rehab Reserve	(95,000.00)
Rounding Adjustment	
Total Adjustments	(\$88,650.17)
BALANCE TO LEVY	\$39,597.81

B. 2017/18 ASSESSMENT RATES

DESCRIPTION	AMOUNTS
<u>FY 2017/18 ASSESSMENT RATES</u>	
Number of Assessable Parcels	75
Total Assessable Front Footage	4,865.76
Assessment Rates	
Applied Assessment Rate per each Foot of Frontage	8.138052
Maximum Assessment Rate per each Foot of Frontage	8.138053
Potential Maximum Assessment	\$39,598

C. 2017/18 FUND BALANCE INFORMATION

DESCRIPTION	AMOUNTS
OPERATING RESERVE	
Beginning Operating Reserve Balance 7-1-2017 (est.)	\$14,868.94
add: Replenish from FY 17/18 Levy	6,349.83
less: Use for FY 17/18 Expenses	
Transfer from/(to) the Rehab Reserve	13,735.34
Ending Operating Reserve Balance 6-30-2018 (est.)	\$34,954.11
REHABILITATION RESERVE	
Beginning Rehab Reserve Balance 7-1-2017 (est.)	\$108,735.34
add: Collect from FY 17/18 Levy	
less: Use for FY 17/18 Rehab Projects	(95,000.00)
Transfer from/(to) the Operating Reserve	(13,735.34)
Ending Rehab Reserve Balance 6-30-2018 (est.)	\$0.00

D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

BUDGET:

DIRECT COSTS

Contract Maintenance - Landscaping - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation and related drainage systems, as well as maintenance of appurtenant facilities (the "improvements").

Repair & Maintenance - Landscaping - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

Repair & Maintenance - Lighting - This line item includes bulb replacement and repairs that are generally unforeseen. This may include repair of damaged amenities due to vandalism, storms, etc.

Repair & Maintenance - Streetscape/Signage - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

Utilities - The furnishing of water and electricity required for the operation and maintenance of the improvements.

Rehab Reserve Project Expenditures – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

City Administration – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

Contract Administration – Park's Dept – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

County Auditor Fees - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

Consulting and Professional Services – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

Public Hearing Publishing Costs –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

Total Direct and Administration Costs – The total expected costs of the District.

BUDGET ADJUSTMENTS

Replenishment/(Use) of Operating Reserve – A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Contribution for /(Use of) Rehab Reserve — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

ASSESSMENT RATES:

APPLIED ASSESSMENT RATE

Number of Assessable Parcels - The total number of parcels that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

Total Assessable Front Footage - The total amount of assessable Front Footage within the District in accordance with the Method of Assessment Section of this Report.

Applied Assessment Rate - The assessment rate to be applied to the front footage of each non-exempt parcel within the District for the current fiscal year.

Maximum Assessment Rate - The Maximum Assessment Rate per front foot for the current fiscal year.

Potential Maximum Assessment – The total amount that can be assessed against all non-exempt District parcels for the current fiscal year based upon the expected assessable front footage within the District.

FUND BALANCE INFORMATION:

OPERATING RESERVE

Beginning Operating Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenish from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Rehab Reserve — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2018. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

REHABILITATION RESERVE

Beginning Rehab Reserve Balance 7-1-2017 (est.) — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Collect from FY 17/18 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Rehab Projects – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Rehab Reserve Balance 6-30-2018 (est.) - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2018. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report

E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five year Capital Improvement Plan for the rehabilitation, restoration and /or replacement of District improvements and other allowable costs is shown below.

For FY 2017/18 costs are projected to be: replacement, renovation, repair and/or refurbishment of plants, landscape & related materials: \$40,000; replacement of public street lights, lighting fixtures, poles/meters, safety, security and/or ornamental lights \$20,000 and replacement of entry signs and decorative banners and hardware: \$10,000. The District's projected reserves are not sufficient to fund costs beyond fiscal year 2017/18.

From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and / or operation of the improvements.

APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a summary of the District's Boundaries is presented herein.

APPENDIX B — 2017/18 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2017/18. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

RESOLUTION NO. 17-268

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

WHEREAS, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Vernon Street Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

WHEREAS, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

WHEREAS, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 That the above recitals are all true and correct.

Section 2 That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

Section 3 That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

RESOLUTION NO. 17-269

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

WHEREAS, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Vernon Street Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

WHEREAS, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, to pay for the maintenance and services of all improvements and facilities related thereto.

WHEREAS, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:

Section 1 Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

Section 2 Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

Section 3 The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

Section 4 The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: the improvements within the District include: maintenance, servicing, administration and operation of landscape, lighting and streetscape improvements, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report describes all new improvements or substantial changes in existing improvements.

Section 5 The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

Section 6 The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Vernon Street Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

Section 7 The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2017, and ending June 30, 2018.

Section 8 The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to *Chapter 4, Article 1, Section 22641* of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

I. OVERVIEW

A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the Vernon Street Landscaping and Lighting District (“District”). The District was formed in January of 2001 and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (“1972 Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2017 through June 30, 2018. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made and confirm the levy and collection of assessments herein pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District for Fiscal Year (“FY”) 2017/18. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

B. COMPLIANCE WITH THE CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the 1972 Act and are in compliance with the provisions of the California Constitution Article XIID (Proposition 218).

The District has been formed pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code. Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act.

Prior to FY 2001/02, the City initiated (Resolution 00-523) and conducted property owner protest ballot proceedings (Resolution 01-22) in accordance with Article XIID of the California Constitution ("Article XIID") for the parcels within the District. An annual rate escalator was also included in the ballot that allows for an annual inflationary increase equal to the percentage change in the Consumer Price Index of the San Francisco-Oakland-San Jose Area as of January of each succeeding year (the "Escalation Percentage"). At the conclusion of the Public Hearing held on January 17, 2001, all property owner ballots returned were tabulated to determine if majority protest existed. The result of the protest proceeding was an approval of the assessment rate and the annual inflationary increase for maintaining the improvements within the District.

Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls.

C. DESCRIPTION OF DISTRICT BOUNDARIES

The District is located in downtown Roseville and includes all parcels that front along Vernon Street between Folsom Road and the Riverside/Douglas Boulevard. See Appendix A for District boundary map.

D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.

- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.

- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE

The District ensures the continued maintenance, servicing, administration and operation of various landscape, lighting and streetscape improvements and associated appurtenances that are required to keep the improvements in a healthy, vigorous, and satisfactory condition. The assessable parcels receive benefit from the above improvements within the District.

Specific improvements include installation, maintenance and servicing of public facilities, including, but not limited to street trees, sidewalks, curbs, gutters, parking stripes, turf, brick pavers, planters, gateways, benches, bike racks, signage, trash receptacles, and lighting throughout the boundaries of the District (the “Improvements”).

As applied herein, “installation” means the construction of public Improvements, including, but not limited to, land preparation, such as grading, leveling, cutting and filling, sod, landscaping, irrigation systems, sidewalks and drainage, lights, equipment, turf, brick pavers, planters, gateways, benches, bike racks and signage.

“Maintenance” means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of any Improvement, including repair, removal or replacement of all or any part of any Improvement; providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury; the removal of trimmings, rubbish, debris, and other solid waste, and the cleaning, sandblasting, and painting of Improvements to remove or cover graffiti.

“Servicing” means the furnishing of electric current, or energy, gas or other illuminating agent for any public lighting facilities or for the lighting or operation of any other Improvements; or water for the irrigation of any landscaping, the operation of any fountains, or the maintenance of any other Improvements.

Plans and specification for the Improvements to be maintained are on file in the office of the Economic and Community Services Director at 311 Vernon Street, Roseville, CA 95678.

All assessable parcels identified as being within the District share in both the cost and the benefits of the improvements. The costs associated with the Improvements are equitably spread among all benefiting parcels within the District. Only parcels that receive direct benefit from the Improvements are assessed, and each parcel is assessed in proportion to the estimated benefit received. The funds collected are dispersed and used for only the services and operation provided to the District.

II. METHOD OF APPORTIONMENT

A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

The formula used for calculating assessments in the District therefore reflects the composition of the parcels, and the Improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

B. BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The costs of the proposed improvements have been identified and allocated to properties within the District based on special benefit. The improvements to be provided by this District and for which properties will be assessed have been identified as an essential component and local amenity that provides a direct reflection and extension of the properties within the District which the property owners and residents have expressed a high level of support.

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the landscape and lighting improvements within the District, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive special benefits.

To identify and determine the proportional special benefit to each parcel within the District, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District. The various public improvements and the associated costs have been identified as either “general benefit” (not assessed) or “special benefit”. The City initiated and conducted property owner protest ballot proceedings in accordance with Article XIID. Each of the proposed Improvements, the associated costs and assessments were identified and allocated based on special benefit pursuant to the provisions of Article XIID and 1972 Act. Additionally, the Improvements and

the annual costs of ensuring the maintenance and operation of the Improvements are of direct and special benefit to the properties.

The City annually levies and collects special benefit assessments in order to maintain and service the District Improvements. The District provides for specific Improvements and services that include the maintenance and operation of landscaping and lighting Improvements and associated appurtenances located within the District's public rights-of-way and dedicated easements. The annual assessment is based on the historical and estimated cost to maintain the Improvements that provide a benefit to properties within these Districts. The Improvements within the District and the costs of those Improvements are identified and budgeted separately, including all expenditures, deficits, surpluses, revenues, and reserves.

All Improvements within the District and the properties associated with those Improvements were reviewed for benefit prior to the formation of the District. Because the Improvements affront the benefited parcels, it has been determined that there is no measurable general benefit to properties outside the District or to the public at large. In making this determination it should be noted that similar improvements within California are typically maintained by individual property owners, through some type of association or a special district as allowed by State Law since the on-going maintenance of these improvements are a special benefit to the properties associated with those improvements.

The method of apportionment (method of assessment) for the District is based on the premise that each of the assessed parcels within the District receives special benefit from the Improvements maintained and financed by District assessments. The presence of these Improvements and the close proximity of the Improvements to the properties within the District enhance the desirability and security of properties within the District.

The landscape Improvements provided by the District may include landscaped parkways, perimeters, entryways, local medians, slopes, internal amenities and appurtenant facilities. Street lighting Improvements may include all energy costs and necessary maintenance to the facilities related thereto. The annual assessments outlined in this Report are proposed to cover the estimated costs to provide all necessary service, operation, administration, and maintenance required to keep these Improvements in a healthy, vigorous, and satisfactory condition. The special benefits associated with the local landscaping Improvements are specifically:

The special benefits associated with all landscaping Improvements are specifically:

- Enhanced desirability of properties through association with the Improvements.

- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate landscaping.
- Environmental enhancement through improved dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained Improvements associated with the properties.
- Enhanced quality of life through well-maintained landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The special benefits of street lighting are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on streets and roads within the Districts.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.
- Reduced vandalism and other criminal acts and damage to Improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.
- Increased promotion of business during nighttime hours in the case of commercial properties.

All of the preceding special benefits contribute to a specific enhancement and desirability of each of the assessed parcels within the District.

C. DESCRIPTION OF THE METHOD OF APPORTIONMENT

Pursuant to the 1972 Act, the costs of the District may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels within the District in proportion to the estimated special benefits to be received by each such parcel from the Improvements. The special benefit formula used should reflect the composition of the parcels, the Improvements and services provided to fairly proportion the costs based on

estimated special benefit to each parcel within the District. All assessable parcels within the District shall receive a direct special benefit from the services and Improvements provided by the District.

Article XIID of the California Constitution specifies that only special benefits are assessable and that the City must separate the general benefits from the special benefits conferred on any parcel. Since the District is a downtown business area and the Improvements that affront each District parcel primarily attract and retain an increased customer base, these benefits enhance the District parcels and there is no measurable benefit to the public at large. Therefore, 100% of the Improvements are considered special benefit to the District parcels. The cost of maintaining the Improvements is therefore identified as special benefit and has been allocated to the special assessments.

It was determined that a uniform assessment rate per foot of frontage upon Vernon Street would fairly distribute the net amount to be assessed due to the following reasons:

1. The assessments are based upon a specific property owner's special benefit received from the Improvements.
2. The special benefits should be directly related to the extent at which a property fronts the improvements, relative to other properties in the District.

The base assessment rate for the District was \$4.59 per linear foot in FY 2001/02 and was determined using the formula below.

$$\text{Assessment Rate Per Foot} = \frac{\text{Balance to Levy}}{\text{Total Feet of Frontage}}$$

The annual assessment amount for each parcel was then determined using the formula below:

$$\text{Parcel Front Footage} \times \text{Rate per Linear Foot} = \text{Parcel Assessment Amount}$$

D. ANNUAL INFLATIONARY ADJUSTMENT

Commencing with FY 2002/03, the maximum assessment rate shall increase by the percentage change in the Consumer Price Index of the San Francisco-Oakland-San Jose Area ("CPI") as of January of each succeeding year (the "Escalation Percentage"). Since the Department of Labor, Bureau of Labor Statistics does not publish a CPI for January; the CPI for preceding month shall be used since this is the CPI *available* in the month of January. The District's starting CPI Index of 184.1, December of 2000, is hereby established as the base CPI (the "Base Year CPI Index").

If the proposed assessment increases over the prior fiscal year by a percentage no greater than the Escalation Percentage as defined above, then the proposed assessment is not considered an increase. This assessment range formula shall be applied to all future assessments within the District. Generally, if the proposed annual assessment rate for the Current Fiscal Year is less than or equal to the calculated maximum assessment rate, then the proposed annual assessment is not considered an increased assessment.

E. APPEALS AND INTERPRETATION

Any property owner, who believes that the assessment levied on the subject property is in error as a result of incorrect information being used to apply the foregoing method of assessment, may file a written appeal with the Finance Director of the City of Roseville or his or her designee. Any such appeal is limited to correction of an assessment during the then Current Fiscal Year. Upon the filing of any such appeal, the Director of Housing and Redevelopment or his or her designee will promptly review the appeal and any information provided by the property owner. If the Director of Housing and Redevelopment or his or her designee finds that the assessment should be modified, the appropriate changes shall be made to the assessment roll. However, if any such changes are approved after the County of Placer's deadline for adjustments to the tax roll, the Director of Housing and Redevelopment or his or her designee is authorized to approve a refund of the reduction amount to the property owner. Any dispute over the decision of the Director of Housing and Redevelopment or his or her designee, shall be referred to the City Council of the City of Roseville and the decision of the City Council of the City of Roseville shall be final.

F. DETERMINATION OF FRONT FOOTAGE

The front footage of each assessable parcel is subject to revision and/or correction using measurements of front footage found on the then current Placer County Assessor's Parcel Maps or through direct measurement by City personnel. Any such correction that increases a Parcel Assessment shall not be considered an increased assessment subject to the procedural provisions of Article XIID.

III. DISTRICT BUDGET

A. FY 2017/18 BUDGET

DESCRIPTION	AMOUNTS
<u>DIRECT COSTS</u>	
Contract Maintenance - Landscaping	\$4,830.00
Repair & Maintenance - Landscaping	8,400.00
Repair & Maintenance - Lighting	2,500.00
Repair and Maintenance - Streetscape and Signage	2,000.00
Utilities	8,800.00
Rehab Reserve Project Expenditures	<u>24,000.00</u>
Total Direct Costs	\$50,530.00
<u>ADMINISTRATION COSTS</u>	
City Administration	\$1,395.00
Contract Administration - Park's Dept	2,434.00
County Auditor Fees	360.85
Consulting & Professional Services	3,053.00
Consultant Incidental Expenses	60.00
Public Hearing Publishing Costs	775.00
ERP Project Costs	<u>2,904.00</u>
Total Administrative Costs	\$10,981.85
Total Direct and Administration Costs	\$61,511.85
<u>BUDGET ADJUSTMENTS</u>	
Replenishment/(Use) of Operating Reserve	(\$1,426.91)
Contribution for /(Use of) Rehab Reserve	(24,000.00)
Rounding Adjustment	
Total Adjustments	(\$25,426.91)
BALANCE TO LEVY	\$36,084.94

B. FY 2017/18 ASSESSMENT RATES

DESCRIPTION	AMOUNTS
<u>FY 2017/18 ASSESSMENT RATES</u>	
Number of Assessable Parcels	62
Total Assessable Front Footage	5,370.76
Assessment Rates	
Applied Assessment Rates per each Foot of Frontage	\$6.7188
Maximum Assessment Rates per each Foot of Frontage	\$6.7188
Potential Maximum Assessment	\$36,085

C. FY 2017/18 FUND BALANCE INFORMATION

DESCRIPTION	AMOUNTS
<u>OPERATING RESERVE</u>	
Beginning Operating Reserve Balance 7-1-2017 (est.)	50,856.11
add: Replenish from FY 17/18 Levy	
less: Use for FY 17/18 Expenses	(1,426.91)
Transfer from/(to) the Rehab Reserve	(18,673.28)
Ending Operating Reserve Balance 6-30-2018 (est.)	\$30,755.92
<u>REHABILITATION RESERVE</u>	
Beginning Rehab Reserve Balance 7-1-2017 (est.)	30,171.00
add: Collect from FY 17/18 Levy	
less: Use for FY 17/18 Rehab Projects	(24,000.00)
Transfer from/(to) the Operating Reserve	18,673.28
Ending Rehab Reserve Balance 6-30-2018 (est.)	\$24,844.28

D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

BUDGET:

DIRECT COSTS

Contract Maintenance - Landscaping - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping corridors, street medians, entryways, irrigation and related drainage systems as well as maintenance of appurtenant facilities (the "improvements").

Repair & Maintenance – Landscaping - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. If zero, this line item may not be shown in the budget.

Repair & Maintenance – Lighting - This line item includes bulb replacement and repairs that are generally unforeseen. This may include repair of damaged amenities due to vandalism, storms, etc.

Repair & Maintenance - Streetscape/Signage - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

Utilities - The furnishing of water and electricity required for the operation and maintenance of the improvements.

Rehab Reserve Project Expenditures – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

City Administration – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

Contract Administration – Park's Dept – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

County Auditor Fees - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

Consulting and Professional Services – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's Report.

Public Hearing Publishing Costs – Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

Total Direct and Administration Costs – The total expected costs of the District.

BUDGET ADJUSTMENTS

Replenishment/(Use) of Operating Reserve – A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Contribution for /(Use of) Rehab Reserve — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

ASSESSMENT RATES:

APPLIED ASSESSMENT RATE

Number of Assessable Parcels - The total number of parcels that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

Total Assessable Front Footage - The total linear footage of that portion of each assessable parcel's boundary that is contiguous with Vernon Street.

Applied Assessment Rate per Front Foot - This amount represents the rate being applied to the front footage of each parcel for the Current Fiscal Year.

Maximum Assessment Rate per Front Foot - This amount represents the maximum rate that can be being applied to the front footage of each parcel for the Current Fiscal Year.

Maximum Potential Assessment – The total amount that is expected to be assessed against all parcels within the District for the Current Fiscal Year.

FUND BALANCE INFORMATION:

OPERATING RESERVE

Beginning Operating Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenish from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Rehab Reserve — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2018. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

REHABILITATION RESERVE

Beginning Rehab Reserve Balance 7-1-2017 (est.) — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Collect from FY 17/18 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Rehab Projects – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Rehab Reserve Balance 6-30-2018 (est.) - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2018. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment. Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report.

E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five year Capital Improvement Plan for the rehabilitation, restoration and /or replacement of District improvements and other allowable costs is shown below.

Future District funding is estimated as follows:. Repair, replace and/or refurbish Irrigation Meter: \$10,000 in FY 2018/19. Replace, repair, renovate and/or refurbish plants, landscaping & related materials: \$3,000, \$5,000 and \$3,000 in FYs 2019/20, 2020/21 and 2021/22, respectively; replace, repair, and/or refurbish Light Standard(s): \$20,000 in FY 2017/18 and replace and/or repair electrical outlets: \$4,000 in FY 2017/18.

From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and / or operation of the improvements.

APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the 1972 Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a summary of the District's Boundaries is presented herein.

Assessment diagram

APPENDIX B — 2017/18 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2017/18. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.
