

AGENDA
June 21, 2017

**CITY COUNCIL MEETING
FINANCE AUTHORITY MEETING
HOUSING AUTHORITY MEETING**

7:00 p.m.

City Council Chambers
311 Vernon Street
Roseville, California

1. CALL TO ORDER

2. ROLL CALL

Vice Mayor: Bonnie Gore
Councilmember: Scott Alvord
Councilmember: Tim Herman
Councilmember: John Allard
Mayor: Susan Rohan

3. PLEDGE OF ALLEGIANCE

4. MEETING PROCEDURES

NOTICE TO THE PUBLIC

All Items on the agenda will be open for the public comment before final action is taken. Speakers are requested to restrict comments to the item as it appears on the agenda and stay within a five (5) - minute time limit. The Mayor has the discretion of limiting the total discussion time for an item.

5. PRESENTATIONS

5.1. Presentation to Sean Bigley

Presentation to Public Affairs & Communications Administrator Sean Bigley for his five years of service on the California Product Stewardship Council.

CONTACT: Richard Plecker 916-746-1704 rplecker@roseville.ca.us

6. PUBLIC COMMENTS

NOTICE TO THE PUBLIC

Persons may address the City Council on items not on this agenda. Please complete a "Speaker Information Card" and present it to the City Clerk prior to the start of the meeting. Speakers shall restrict their comments to issues that are within the subject jurisdiction of the City Council and limit their comments to three (3) minutes per person. The total time allocated for Public Comment is 25 minutes. The Brown Act, with certain exceptions, does not permit the City Council to discuss or take action on issues that are not listed on the agenda.

7. CONSENT CALENDAR

NOTICE TO THE PUBLIC

All matters listed under Consent Calendar are considered to be routine and all will be passed by one motion. There will be no discussion of these items unless members of the City Council or the public request specific items be removed from the Consent Calendar for separate discussion. Any member of the public may address the City Council on items on the Consent Calendar. Public comments on any item or items on the Consent Calendar are limited to five (5) minutes per speaker

BEGINNING OF CONSENT CALENDAR

Bids / Purchases / Services

7.1. Tires (RFQ 01-3134) - Reject All Bids

Memo from Buyer Tiffany Valdez and Central Services Director Paul Diefenbach recommending Council adopt RESOLUTION NO. 17-250 REJECTING ALL BIDS FOR TIRES. Staff recommends that all bids received for RFQ 01-3134 for tires be rejected. The bids received for this RFQ were deemed non-responsive because they did not meet the bid specifications. Fleet Services staff will re-issue a new bid at a later date. The Vehicle Maintenance Department has a recurring demand for a variety of tires to maintain the City's vehicle fleet. There is no fiscal impact at this time, since there will be no contract award.

7.2. Sunrise Avenue Pipe Repair Project - Approval of Plans and Specifications and Authorization to Call for Bids

Memo from Senior Engineer Jose Lopez and Environmental Utilities Director Richard Plecker recommending Council approve the plans and specifications and authorize staff to advertise for bids for a project to remove and replace 155 linear feet of an existing 24-inch water pipe on Sunrise Avenue to correct a leak. The cost of construction is estimated at \$351,000.00. Funding is provided by the Water Rehabilitation Fund.

CONTACT: Jose Lopez 916-774-5688 jlopez@roseville.ca.us

7.3. Pavement Management Consulting - Service Agreement

Memo from Street Maintenance Superintendent Jerry Dankbar and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 17-271 APPROVING A SOLE SOURCE SERVICE AGREEMENT BETWEEN CITY OF ROSEVILLE AND STANTEC CONSULTING SERVICES INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (S1708241). This agreement for pavement management services includes project initiation and set up, data collection, data processing, rating and quality assurance/quality control (QA/QC), uploading into RoadMatrix and analysis and reporting. The total cost of the service is \$91,076.70. It is funded with Gas Tax funds and Street Maintenance Operations Budget funds.

CONTACT: Jerry Dankbar 916-774-5791 jdankbar@roseville.ca.us

7.4. Vehicle Batteries (RFQ 01-3133) - Purchase Order

Memo from Buyer Tiffany Valdez and Central Services Director Paul Diefenbach recommending Council adopt RESOLUTION NO. 17-251 APPROVING A PURCHASE ORDER BETWEEN THE CITY OF ROSEVILLE AND RIEBES AUTO PARTS as the lowest responsive bidder to RFQ 01-3133 for the purchase of miscellaneous vehicle batteries on an as-needed basis. The Fleet Services Division has a recurring demand for automotive and equipment batteries used to maintain the City's vehicle fleet. The estimated spend for FY2017-18 is \$50,000.00 or up to department budgeted amounts. Funding is included in the Fleet Division's FY2017-18 Automotive Services budget. Staff requests authorization to renew the bid contract without further Council approval.

CC #: 8548

File #: 0203-02

CONTACT: Tiffany Valdez 916-774-5708 tvaldez@roseville.ca.us

7.5. Vehicle Purchases and Budget Adjustment

Memo from Fleet Manager Brian Craighead and Central Services Director Paul Diefenbach recommending Council authorize a purchase order to Folsom Chevrolet for three Chevrolet Tahoe police pursuit vehicles utilizing RFQ 01-3135; and authorize a purchase order to Preferred Truck and Equipment for one rear loading refuse collection vehicle utilizing National Joint Powers Alliance (NJPA) contract 081716-ATC for the AutoCar cab and chassis and NJPA contract 112014-THC for the Heil Body; and adopt ORDINANCE NO. 5845 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. The total cost of three Chevrolet Tahoe

police pursuit vehicles is \$125,193.25. The total cost of one rear loading refuse collection vehicle is \$261,322.30. Funding for these vehicles is included in the FY2016-17 Auto Replacement budget. A budget adjustment of \$9,350.00 from the Auto Replacement budget will pay for the remaining purchase price of the rear loading refuse collection vehicle.

7.7. Lathe Machine (RFQ 01-3136) - Purchase Order

Memo from Buyer Babette Owens and Central Services Director Paul Diefenbach recommending Council award a purchase order to Airgas USA, LLC for the purchase of a lathe machine. This tool is used to repair and fabricate parts essential to the reliable operation of the Roseville Energy Park. The cost for the lathe machine is \$21,790.15 plus tax of \$1,579.79 for a total of \$23,369.94. Funding is included in the Electric Department FY2016-17 budget.

CC #: 8535

CONTACT: Babette Owens 916-774-5704 bowens@roseville.ca.us

7.8. Flooring Services - Service Agreement Amendment

Memo from Facilities Manager Dan Allen and Central Services Director Paul Diefenbach recommending Council adopt RESOLUTION NO. 17-274 APPROVING SERVICE AGREEMENT AMENDMENT NO. 1 BETWEEN CITY OF ROSEVILLE AND SIMAS FLOORING & DESIGN COMPANY, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (S1504163). This is a request of Council to approve a service agreement amendment for flooring services as additional money is needed to complete projects at the Civic Center and Fire Station #2 between now and the end of the current contract period on October

15, 2017. The amendment will increase the total cost of the three-year service agreement from \$420,000.00 to \$480,000.00. Funding is included in the proposed FY2017-18 Building Maintenance and Facilities Rehabilitation budget.

CC #: 8556

CONTACT: Dan Allen 916-774-5771 dallen@roseville.ca.us

7.9. Water Filters and Membranes (RFQ 01-3131) - Purchase Order

Memo from Buyer Babette Owens and Central Services Director Paul Diefenbach recommending Council adopt RESOLUTION NO. 17-243 APPROVING A PURCHASE ORDER BETWEEN THE CITY OF ROSEVILLE AND WESTERN INDUSTRIAL, INC. for water filters and membrane elements for the Roseville Energy Park. The estimated annual cost for FY2017-18 is \$30,000.00 and the initial purchase order will be effective July 1, 2017. Funding is included in the Roseville Electric Division FY2017-18 budget. Staff requests authorization to renew without further Council approval.

CC #: 8538

File #: 0203-07

CONTACT: Babette Owens 916-774-5704 bowens@roseville.ca.us

7.10. Compliance Assistance - Service Agreement Amendment

Memo from Electric Compliance Analyst Jamie Johnson and Electric Utility Director Michelle Bertolino recommending Council adopt RESOLUTION NO. 17-246 APPROVING AMENDMENT NO. 2 TO SERVICE AGREEMENT BETWEEN CITY OF ROSEVILLE AND NAVIGANT CONSULTING, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (S1403212). This is an amendment to a Service Agreement with Navigant Consulting, Inc. for North American Electric Reliability Corporation and Western Electricity Coordinating Council Reliability Compliance Assistance. The total cost for this amendment is \$15,000.00. The total cost of this agreement is modified from a not to exceed of \$56,000.00 to \$71,000.00. Funds will be available in the Electric Department Compliance budget for FY2017-18, contingent upon approval of the budget.

CC #: 8542

File #: 0800-03

CONTACT: Jamie Johnson 916-746-1687 jjohnson@roseville.ca.us

7.11. Telephone System Improvements - Service Agreements

Memo from Information Technology Program Manager Matt Donaldson and Chief Information Officer Hong Sae recommending Council adopt RESOLUTION NO. 17-279 APPROVING SERVICE AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND CONVERGEONE, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (S1705227); and adopt RESOLUTION NO. 17-280 APPROVING SERVICE AGREEMENT

BETWEEN THE CITY OF ROSEVILLE AND CONVERGEONE, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (S1705228). Staff is requesting approval of two service agreements with ConvergeOne for Citywide phone system hardware, software, and services. The total cost for this agreement for FY2016-2017 will not exceed \$140,000.00. \$115,000.00 in funding will come from the Citywide Phone System Upgrade – Phase-II Capital Improvement Project. The remaining \$25,000.00 in funding will come from the 316 Vernon Building CIP Project.

7.13. Radio Antenna System for 316 Vernon Street Building - Service Agreement

Memo from Information Technology Program Manager Matt Donaldson and Chief Information Officer Hong Sae recommending Council adopt RESOLUTION NO. 17-275 APPROVING A SERVICE AGREEMENT BETWEEN CITY OF ROSEVILLE AND NRCI TELECOM, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (S1705225). This is a service agreement with NRCI to install a radio antenna system at the 316 Vernon building. The total cost of this agreement will be no more than \$35,000.00. Funding is included in the 316 Vernon Building Construction fund.

CC #: 8558

File #: 0203-05

CONTACT: Matt Donaldson 916-774-5405 mdonaldson@roseville.ca.us

7.14. Computers and Technology Equipment - Purchase Orders

Memo from Information Technology Divisional Manager Mike Sinor and Chief Information Officer Hong Sae recommending Council authorize the purchase of computers, servers, network software and hardware and other technology equipment from CDW Technologies, LLC using National IPA and National Joint Powers Association (NJPA) competitively bid contracts for laptops, tablets, rugged devices, printers, software, network equipment and accessories. The estimated total for FY2017-18 is \$575,000.00, not to exceed budgeted amounts. The estimated total for FY2018-19 is also \$575,000.00, pending budget approval. Staff would like to utilize both piggyback contracts to obtain

the cost-effective pricing available for the City. Each contract has expiration dates for pricing and staff recommends utilizing the National IPA contract through July 1, 2018, and utilizing the NJPA contract through July 1, 2019, pending Council approval of the budget.

7.16. Foothill American Dream - Reimbursement Agreement

Memo from Associate Engineer Matt Todd and Development Services Director Kevin Payne recommending Council adopt RESOLUTION NO. 17-252 APPROVING A CITY/DEVELOPER REIMBURSEMENT AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND JOHN MOURIER CONSTRUCTION, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. This reimbursement agreement between the City and John Mourier Construction, Inc. is for the construction of public improvements beyond the scope of this project. This item will have no impact to the City's General Fund. The reimbursement of \$357,417.64 is funded through the City's Traffic Mitigation Fund and specifically from the Developer Reimbursement account.

CONTACT: Petra Wallace 916-774-5510 pwallace@roseville.ca.us

7.20. Fire VHF Communications - Service Agreement Amendment

Memo from Battalion Chief Chris Baker and Fire Chief Rick Bartee recommending Council adopt RESOLUTION NO. 17-253 APPROVING AMENDMENT NO. 1 TO SERVICE AGREEMENT BETWEEN CITY OF ROSEVILLE AND SILKE COMMUNICATIONS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF

ROSEVILLE. Staff is requesting Council approve a \$150,000.00 service agreement amendment with Silke Communications for services related to repair, modification, integration and specialized equipment required for the completion of the public safety interoperable radio system. The Fire Department requests the existing vendor be granted approval to continue the work under sole-source approval as all components must be installed by one vendor to maintain warranty status, and the vendor must also be a factory-certified dealer. Funding is included in the proposed Fire Department FY2017-18 and proposed FY2018-19 budgets.

7.21. 2017 Parks Construction Standards Update

Memo from Park Planning and Development Superintendent Tara Gee and Parks, Recreation & Libraries Director Dion Louthan recommending Council adopt RESOLUTION NO. 17-245 ADOPTING THE 2017 PARKS CONSTRUCTION STANDARDS. The Parks Construction Standards is a guiding document that outlines design and construction standards applied to parks (neighborhood and city-wide), and streetscapes. This document is updated every two years in order to ensure new codes, regulations and requirements are updated and to provide clarity in areas that may cause misinterpretations. A complete copy of the 2017 Parks Construction Standards is available for review in the City Clerk's Office. There is no General Fund impact.

7.23. Maya Bowhunters Archery Club - Lease Agreement

Memo from Refuse and Stormwater Manager Devin Whittington and Environmental Utilities Director Richard Plecker recommending Council adopt RESOLUTION NO. 17-247 APPROVING A LEASE AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND MAYA BOWHUNTERS OF ROSEVILLE, INC. AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff recommends Council approve a five-year lease agreement with the Maya Bowhunters Archery Club that would allow Maya Bowhunters to continue use of City property located at the closed City of Roseville Sanitary Landfill site for club functions as it has done since 1980. The Maya Bowhunters will pay the City \$2,171.58 on an annual basis with an annual inflationary adjustment of two percent for each subsequent year.

CC #: 8544

File #: 1006-01

CONTACT: Devin Whittington 916-774-5783 dwhittington@roseville.ca.us

7.24. Bond Trustee Services - Professional Services Agreement Amendment

Memo from Controller Jacquelyn Flickinger and Chief Financial Officer Jay Panzica recommending Council adopt RESOLUTION NO. 17-278 APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND THE BANK OF NEW YORK MELLON TRUST COMPANY, N.A., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. This amendment will extend the agreement between the City and the Bank of New York Mellon to provide bond trustee services from July 1, 2017 to June 30, 2018. The contract for the second year will not exceed \$75,000.00. The annual fee of approximately \$1,800.00 per series is paid by each outstanding bond series.

CC #: 8560

File #: 0201

CONTACT: Jacquelyn Flickinger 916-774-5516 jflickinger@roseville.ca.us

7.25. Transit System Services Agreements Extension

Memo from Alternative Transportation Analyst Eileen Bruggeman and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 17-276 APPROVING A SEVENTH AMENDMENT TO AGREEMENT FOR CITY OF ROSEVILLE TRANSIT SYSTEM MANAGEMENT AND OPERATIONS SERVICES BETWEEN THE CITY OF ROSEVILLE AND MV TRANSPORTATION, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 17-277 APPROVING A THIRD AMENDMENT TO AGREEMENT FOR OPERATION OF THE SOUTH PLACER TRANSIT INFORMATION CALL CENTER BETWEEN THE CITY OF ROSEVILLE AND MV TRANSPORTATION, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff recommends Council approve the Seventh Amendment to the Transit Management and Operations Services Agreement

and the Third Amendment to the South Placer Transit Information Center Agreement with MV Transportation. The Amendments will extend the term of the agreements up to a maximum 3-months beyond the current June 30, 2017 expiration date. The Seventh Amendment to the Transit Management and Operations Services Agreement will increase the maximum obligation of the Agreement by an amount not to exceed \$900,000.00. The Third Amendment to the Agreement for Operations of the South Placer Transit Information Center will increase the maximum obligation by an amount not to exceed \$76,255.29. The proposed extensions will allow staff time to finalize the recommendation for a new long term transit and call center contract, which would be provided to the City Council prior to the final September 30, 2017 contract end date.

7.26. Finance Authority - Stone Point Community Facilities District No. 1 and No. 5 - Special Tax Refunding Bonds, Series 2017B

Memo from Financial Analyst Vanessa Lieberman and Chief Financial Officer Jay Panzica recommending Council adopt RESOLUTION NO. 17-270 AUTHORIZING THE ISSUANCE AND SALE OF SPECIAL TAX REFUNDING BONDS FOR COMMUNITY FACILITIES DISTRICTS AND APPROVING AND AUTHORIZING RELATED DOCUMENTS AND ACTIONS; and adopt FINANCE AUTHORITY OF THE CITY OF ROSEVILLE RESOLUTION NO. 4-17 AUTHORIZING THE ISSUANCE AND SALE OF ITS SPECIAL TAX REVENUE REFUNDING BONDS AND APPROVING RELATED AGREEMENTS AND ACTIONS. Staff recommends Council authorize the issuance of refunding special tax bonds and the related documents and agreements to complete the bond sale and include the Refunding Bonds for Stone Point Facilities District No. 1 (SP CFD No. 1) and Stone Point Community Facilities District No. 5 (SP CFD No. 5). There will be no fiscal impact to the City as all bond issuance costs will be paid from bond proceeds. Property owners will experience a reduction in annual special tax assessments.

Ordinances (for introduction and adoption - appropriation/urgency measures)

7.27. Utility Billing Operations - Budget Adjustment

Memo from Billing Services Manager Andrea Blomquist and Chief Financial Officer Jay Panzica recommending Council adopt ORDINANCE NO. 5841 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2016-17 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. The City is in process of deploying a new Utility Billing Customer Information System (CIS). As a part of this project,

there is a need to move a small portion of our Utility Billing Operations labor budget directly to the CIS project. The team completing the work on the CIS project is from the Utility Billing Operations group, and has been consistently working on the new CIS system. Staff is requesting a transfer of \$260,000.00 from operations to the CIS Focus CIPs.

8. RESOLUTIONS

8.1. Roseville Grants Advisory Commission - FY2017-18 Funding Recommendations

Memo from Economic Development Manager Laura Matteoli and Economic Development Director Chris Robles recommending Council adopt RESOLUTION NO. 17-281 APPROVING REVISIONS TO THE CITIZENS BENEFIT FUND POLICY MANUAL; and approve the Roseville Grants Advisory Commission's recommendation to fund 49 grants in the amount of \$407,500.00 (\$400,000.00 from the Citizens Benefit Fund and \$7,500.00 from the REACH Fund) and include the \$400,000.00 in the FY2017-18 City of Roseville budget. The administration of the grants program has a nominal cost associated with staff resources. Estimated annual cost of administration is approximately \$30,000.00 annually.

9. ORDINANCES

9.1. City of Roseville FY2017-18 Budget

Memo from Budget Manager Kathy Cullen and Chief Financial Officer Jay Panzica recommending Council adopt ORDINANCE NO. 5842 OF THE COUNCIL OF THE CITY OF ROSEVILLE ADOPTING THE ANNUAL BUDGET FOR THE FISCAL YEAR 2017-2018, ADOPTING BUDGET CONTROL POLICIES, ADOPTING AN APPROPRIATIONS LIMIT, ADOPTING THE BUDGET FOR THE SUCCESSOR AGENCY OF THE ROSEVILLE REDEVELOPMENT AGENCY, AND ESTABLISHING THE SEALED BID REQUIREMENT, TO BE EFFECTIVE IMMEDIATELY AS AN URGENCY MEASURE. The proposed Citywide FY2017-18 budget is \$507.1 million. The proposed FY2017-18 budget for the General Fund is \$146.61 million, which includes operating expenditures and transfers out (\$137.03 million) as well as capital projects, debt, and non-recurring expenditures and transfers out (\$9.58 million). Operating and non-operating revenues and transfers in total \$146.61 million led by increases in sales and property taxes. The net result is a balanced General Fund where revenue is equal to expenses without the use of one-time funds in FY2017-18.

9.2. Housing Authority - FY2017-18 Annual Budget

Memo from Financial Analyst Melissa Hagan and Economic Development Director Chris Robles recommending the City Council, acting as the Housing

Authority Board of Directors, adopt HOUSING AUTHORITY OF THE CITY OF ROSEVILLE RESOLUTION NO. 4-17 APPROVING THE ANNUAL BUDGET FOR FISCAL YEAR 2017-2018. This item is requesting approval of the FY 2017-18 annual budget for the Roseville Housing Authority.

9.3. Woodcreek Oaks Boulevard Widening Project - Award of Contract and Budget Adjustment

Memo from Assistant Engineer Stefanie Kemen and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 17-249 APPROVING AN AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND BAY CITIES PAVING AND GRADING, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt ORDINANCE NO. 5840 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2016-17 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff is requesting Council award the Woodcreek Oaks Boulevard Widening Project to low bidder, Bay Cities Paving and Grading, Inc. in the amount of \$6,837,558.75 with authorization to exceed the award amount by 10% (\$683,755.88) as a construction change order contingency. The project will complete the widening of the segment of Woodcreek Oaks Boulevard between Crimson Ridge Way and 600' north of Pleasant Grove Boulevard, adding one lane in each direction using the space available in the extra wide median, and constructing the other half of the bridge over the south branch of Pleasant Grove Creek. A budget adjustment is necessary in the amount of \$7,576,146.00 to increase the total project construction budget to \$8,987,979.00 which covers construction and project management costs. The engineer's estimate for this project is \$6,880,000.00. The project is funded by \$8,494,989 of Traffic Mitigation Fees, \$426,182.00 of Gas Tax Funds, \$51,700.00 of Local Transportation Funds, and \$15,200.00 of Landscape/Parks Repair/Maintenance Funds. No General Funds will be used for this project.

10. PUBLIC HEARING

NOTICE TO THE PUBLIC

City Council, when considering the matter scheduled for hearing, will take the following actions:

1. Open the Public Hearing
2. Presentation by Staff
3. Presentation by applicant or Appellant
4. Accept Public Testimony
5. Appellant or Applicant Rebuttal Period
6. Close the Public Hearing
7. City Council Comments and Questions
8. City Council Action

In the future, if you wish to challenge in court any of the matters on this agenda for which a public hearing is to be conducted, you may be limited to raising only those issues, which you, or someone else raised orally at the Public Hearing or in written correspondence received by the City or before the hearing

Public Hearings listed for continuance will be continued as noted and posting of this agenda serves as notice of continuation.

10.1. Tax and Equity Fiscal Responsibility Act Hearing for Conduit Financing for John Adams Academies, Inc.

Public Hearing continued to July 19, 2017.

10.2. Kaiser Riverside and Cirby Medical Office Building Expansion

Memo from Associate Planner Lauren Hocker and Development Services Director Kevin Payne recommending Council adopt RESOLUTION NO. 17-272 CERTIFYING A FINAL ENVIRONMENTAL IMPACT REPORT RELATING TO THE KAISER RIVERSIDE AND CIRBY MEDICAL OFFICE BUILDING PROJECT, ADOPTING FINDINGS OF FACT AND STATEMENT OF OVERRIDING CONSIDERATIONS, ADOPTING MITIGATION MEASURES, AND ADOPTING A MITIGATION MONITORING PROGRAM; and adopt RESOLUTION NO. 17-273 AMENDING THE GENERAL PLAN TO CHANGE THE TEXT OF THE CIRCULATION ELEMENT TO REFLECT A NEW SIGNALIZED INTERSECTION IN THE CITY OF ROSEVILLE RELATED TO THE KAISER RIVERSIDE AND CIRBY MEDICAL OFFICE BUILDING

PROJECT. This request includes approval of a Major Project Permit Stage 1 and Major Project Permit Stage 2 to allow construction of a 16,000 square-foot, one-story pavilion building; a 194,000 square-foot, five-story medical office building; a parking deck, and an associated parking lot and landscaping that will replace the existing one- and two-story Kaiser Permanente medical office building complex. A Tree Permit is requested to allow the removal of one oak tree. Offsite improvements associated with the project include the addition of a traffic signal at the Cirby Way and Cirby Hills Drive intersection. This signal requires a text-only General Plan Amendment. This project is funded by the applicant and will not have a negative impact on the City's General Fund.

10.3. Municipal Code Amendment - Repeal of Public Dance Ordinance and Entertainment Ordinance Amendment

Memo from Police Lieutenant Doug Blake and Police Chief Daniel Hahn recommending Council introduce for first reading ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE REPEALING CHAPTER 9.40 OF TITLE 9 OF THE ROSEVILLE MUNICIPAL CODE REGARDING PUBLIC DANCE PERMITS AND AMENDING CHAPTER 9.45 OF TITLE 9 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ENTERTAINMENT ESTABLISHMENTS. Currently the Municipal Code has two similar ordinances that regulate hospitality/entertainment businesses, depending on whether they're located within the Downtown Specific Plan area or the rest of the City. Staff proposes repealing the public dance ordinance, which currently regulates certain entertainment businesses outside the downtown area, and modifying the entertainment ordinance, which currently regulates only businesses located inside the Downtown Specific Plan area. Staff proposes a single, improved entertainment ordinance that will be applied Citywide.

Proposed permit fees will be charged at the same annual cost as the two existing ordinances.

10.4. 2017-2018 Landscape and Lighting Districts Assessments – Public Hearing

Memo from Financial Analyst Vanessa Lieberman and Chief Financial Officer Jay Panzica recommending Council adopt RESOLUTION NO. 17-254 RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-255 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-256 OF THE CITY COUNCIL

OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-257 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-258 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-259 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-260 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-261 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-262 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-263 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-264 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-265 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-266 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-267 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-268 OF THE CITY COUNCIL

OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2017/2018; and adopt RESOLUTION NO. 17-269 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2017/2018. The City currently has eight active Landscape and Lighting Districts (LLD). These districts were formed within the City to levy and collect assessments for maintenance of public improvements. All charges are needed to fully fund landscape services in each LLD. There is no negative impact to the City's General Fund.

Title: Tires (RFQ 01-3134) - Reject All Bids
Contact: Tiffany Valdez 916-774-5708 tvaldez@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.1.

RECOMMENDATION TO COUNCIL

Recommend that all bids received for RFQ 01-3134 for tires be rejected. The bids received for this RFQ were deemed non-responsive because they did not meet the bid specifications.

BACKGROUND

The Vehicle Maintenance Department has a recurring demand for a variety of tires to maintain the City's vehicle fleet. Bidders were asked to quote a representative sampling of the tires that Fleet Services typically orders on a regular basis, and the bid required bidders to provide their percentage discount off of the manufacturer's list price for any items not listed on the pricing worksheet to allow the City to add new tires to the list or replace discontinued ones. The specifications stated that if a vendor did not provide their percentage discount off of list for those items not specifically listed on the spreadsheet, then those vendors would be deemed non-responsive. Brannon Tire and Goodyear Tire left this area of their bid blank. The bid also specified that the contract award was based on the combined discounted unit price total of the tires referenced on the bid pricing worksheet and to submit a substituted item worksheet if bidding an alternate product with a corresponding product specification sheet. Morgan Tire indicated No Bid on two tires and Northstate Tire Company did not provide the alternate specification worksheets. Fleet Services staff will re-issue a new bid at a later date.

A formal bid was issued with the following vendor responses:

<u>Vendor</u>	<u>Discounted Unit Price Total</u>
Brannon Tire Stockton, CA	\$5,628.75
Morgan Tire Sacramento, CA	\$5,787.37
Goodyear Commercial Tire	\$252,063.29

Akron, OH

Northstate Tire Company \$284,332.32
Sacramento, CA

FISCAL IMPACT

There is no fiscal impact at this time, since there will be no contract award.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The purchase of tires does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Tiffany Valdez, Buyer

Title: Sunrise Avenue Pipe Repair Project - Approval of Plans and Specifications and Authorization to Call for Bids

Contact: Jose Lopez 916-774-5688 jlopez@roseville.ca.us

Meeting Date: 6/21/2017

Item #: 7.2.

RECOMMENDATION TO COUNCIL

Staff recommends that City Council approve the Sunrise Avenue Pipe Repair Project plans and specifications and authorize approval to advertise for construction bids.

BACKGROUND

The City operates a proactive utility system rehabilitation and replacement program. This project will repair a section of pipeline and allow for condition assessment of the 24-inch transmission main on Sunrise Avenue. This transmission main is part of the City's primary potable water conveyance system and was constructed in 1970. A leak was identified on a segment of this pipeline located just south of Coloma Way. Various attempts have been made to pinpoint the leak by conducting a leak detection survey and by excavating an existing air relief service run. All conclusions lead to the leak originating from a point along the first 155 feet of pipe just south of Coloma Way. Consequently, the 155 foot segment of pipe will be removed and replaced. The leak indicates this water line should be more thoroughly assessed for rehabilitation and/or replacement.

With this project, the source of the leak will be identified and corrected with the proposed pipe replacement. Second and most importantly, excavation and removal of the pipe will provide an opportunity for staff to examine the pipeline in detail and to determine the condition of the 24-inch transmission pipeline network. The results of the conditions review will allow staff to develop a focused maintenance, rehabilitation and/or replacement plans.

A competitive bid process will be utilized to select a contractor for this project. The estimated project duration is 2 months. The project is estimated to cost \$351,000.00. Complete project plans and specifications are available for review in the City Clerk's Office.

FISCAL IMPACT

This project is estimated to cost \$351,000.00. Funding is provided by the Water Rehabilitation Fund.

ECONOMIC DEVELOPMENT / JOBS CREATED

According to the SRRI Stimulus Calculation Tool, the project could generate a short-term economic benefit of 1.5 jobs and an additional \$99,000.00 of output through indirect and induced activities.

ENVIRONMENTAL REVIEW

The proposed project involves the replacement of existing structures or facilities. This activity is categorically exempt from CEQA as a Class 2 Exemption (State CEQA Guidelines Section 15302). The Exemption has been prepared and no further CEQA action is required.

Respectfully Submitted,

Jose Lopez, Senior Engineer

Richard Plecker, Environmental Utilities Director

Rob Jensen, City Manager

CITY OF ROSEVILLE
DEPARTMENT OF ENVIRONMENTAL UTILITIES

Name of Project: SUNRISE AVENUE PIPE REPAIR PROJECT

NOTICE TO CONTRACTORS

Sealed Proposals will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until 3:00 pm - July 18, 2017. Late proposals will be rejected. No exceptions.

The Proposals will be publicly opened and read by the City Clerk of the City of Roseville at 3:05 p.m. on July 18, 2017 at the Office of the City Clerk at 311 Vernon Street, Roseville, California for the Sunrise Avenue Pipe Repair Project

A pre-bid meeting will be held at City of Roseville Corp Yard located at 2005 Hilltop Circle, Roseville CA 95747 on July 11, 2017 at 2:00pm.

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, can ~~only~~ be obtained at City of Roseville Corporation Yard, 2005 Hilltop Circle, Roseville CA 95747 for a non-refundable fee of \$ 25.00 per set. If requested, Project Manuals will be mailed for a non-refundable fee of \$ 35.00. Please make checks payable to the City of Roseville. All communications relative to this project shall be directed to Jose C. Lopez, Senior Engineer at jlopez@roseville.ca.us. Documents may also be reviewed at http://www.roseville.ca.us/business/bids_rfqs_rfqs_and_rfis.asp.

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the City Clerk. The request shall be executed by the bidder or his or her duly authorized

representative. The withdrawal of a bid does not prejudice the right of the bidder to file a new bid by the submission deadline. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville.

The City of Roseville hereby notifies all Bidders that:

1. The City will affirmatively ensure that, in any Contract entered into pursuant to this Notice to Contractors, minority business enterprises will be afforded full opportunity to submit bids and will not be discriminated against on the grounds of sex, race, color, or national origin in consideration for an award.
2. The Contractor may elect to receive one hundred percent (100%) of payments due under the Contract Documents from time to time, without retention of any portion of the payment by the City, by depositing securities of equivalent value with the City in accordance with the provisions General Conditions Section 7-1.07. Such securities, if deposited by the Contractor, shall be valued by the City, whose decision on valuation of the securities shall be final. Securities eligible for investment under this provision shall be limited to those listed in California Government Code Section 16430.
3. The City has determined that the Contractor shall possess a valid Class A,
General Engineering Contractor's license at the time that the bid is submitted and the Contract is awarded. Said license shall be maintained during the Contract period. Failure to possess the specified license shall render the bid nonresponsive and will act as a bar to the award of the Contract to any Bidder not possessing such a license at the time of

award. The Contractor shall provide certification of the license, its number and the expiration date on the proposal form.

4. The Work is to be done in Placer County. Pursuant to California Labor Code Section 1770, the City has ascertained the General Prevailing Rate of Wages in the County in which the Work is to be done to be as determined by the Director of Industrial Relations of the State of California. CONTRACTOR is hereby made aware that information regarding prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>. The Contractor is required to post a copy of the applicable wage rates at the job site. Attention is directed to Section 5 "Legal Relations and Responsibility" of the General Conditions.

5. Contractor Registration: No contractor or subcontractor may be listed on a bid proposal for or work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. The Contractor shall provide proof of current registration with the Department of Industrial Relations for both itself and all listed subcontractors with the bid proposal. The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

City Clerk, City of Roseville

INSTRUCTIONS TO BIDDERS

SECTION 1: PROPOSAL REQUIREMENTS AND CONDITIONS

1-1.01 **GENERAL.** The Bidder shall carefully examine the Instructions to Bidders and all Contract Documents, and shall satisfy himself or herself as to the conditions with which he must comply prior to bid and to the conditions affecting the award of the Contract.

These Instructions to Bidders form a part of the Contract Documents. Capitalized terms are defined in General Conditions Section 1.

1-1.02 **CONTRACTOR'S LICENSING LAWS.** Attention is directed to the provisions of Business and Professions Code Chapter 9 of Division 3 concerning the licensing of Contractors.

All Bidders at the time of bid submittal shall be licensed as Contractors in accordance with the laws of this State. Any Bidder or Contractor not so licensed is subject to the penalties imposed by such laws. The form of Contractor's license required is stated in the Notice to Contractors, provided that the City makes no representation as to whether the State may require other or additional licenses. It is the Bidder's and Contractor's responsibility to obtain the correct Contractor's licenses. Bidders shall be skilled and regularly engaged in the general class or type of Work called for under this Contract.

All Bidders and Contractors, including subcontractors, shall have a current City business license before undertaking any Work.

1-1.03 **EXAMINATION OF PLANS, CONTRACT DOCUMENTS AND SITE OF THE WORK.** The Bidder shall examine carefully the site of the Work and all the

Contract Documents, including these Instructions to Bidders. The submission of a bid shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and scope of Work to be performed, the quantities of materials to be furnished, and as to the requirements of all the Contract Documents.

Prior soils investigation or other previous site investigation reports are available for inspection at _____ - not available - _____.

Where the Department has made investigations of site conditions, including subsurface conditions in areas where Work is to be performed under the Contract, such investigations are made only for the purpose of study and design. City does not represent that such conditions as found in these investigations or inferences or conclusions drawn as a result of these investigations will represent actual site conditions and hereby disclaims any liability as a result of contractor's or bidder's reliance on such investigations. City will presume that all bidders have conducted their own site investigations, including investigations of subsurface conditions. Where such investigations have been made, Bidders or Contractors may, upon written request, inspect the records of the Department as to such investigations subject to the conditions set forth in these Instructions to Bidders. Such inspection of records may be made only at the location noted above. The records of such investigations are not a part of the Contract and are shown solely for the convenience of the Bidder or Contractor. The City assumes no responsibility whatsoever in respect to the sufficiency or accuracy of the investigations made, the records thereof, or of the interpretations set forth therein or made by the City in its use thereof. The City makes no warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records are representative of those existing throughout such areas, or any part

thereof, or that unforeseen developments may not occur, or that materials other than, or in proportions different from those indicated, may not be encountered.

No information derived from such inspection of records of investigations or compilation thereof made by the City, the Department or from the Engineer, or his or her assistants, will in any way relieve the Bidder or Contractor from any risk or from properly fulfilling the terms of the Contract.

1-1.04 **PROPOSAL FORMS.** The Department will furnish to each Bidder a standard proposal form, which, when filled out and executed may be submitted as the bid. Proposals shall include all pages in the Project Manual with page numbers marked "PROP" plus the Addendum acknowledgment form (front sheet) from all addenda received by the Bidder. Proposals shall be removed from the Project Manual. The full Project Manual shall not be submitted with the proposal. Bids not presented on forms so furnished will be disregarded.

The proposal and two copies thereof shall be submitted as directed in the "Notice to Contractors" under sealed cover plainly marked as a proposal, and identifying the project to which the proposal relates and the date of the bid opening therefor. Proposals which are not properly marked may be disregarded.

1-1.05 **REQUIRED LISTING OF PROPOSED SUBCONTRACTORS.** Each proposal shall list the name, address and Contractor license number of each subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (0.5%) of his total bid, in accordance with the Subletting and Subcontracting Fair Practices Act (Public Contract Code Part 1, Chapter 4). The Bidder's attention is invited to other provisions of said Act related to the imposition of penalties for a failure to observe its provisions by using unauthorized subcontractors or by making unauthorized substitutions.

1-1.06 **NONCOLLUSION DECLARATION.** Bidders shall submit a properly completed and executed "Noncollusion Declaration" conforming to the City's form "Noncollusion Declaration." (PROP – 16)

1-1.07 **DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local project because of a violation of law or a safety regulation.

1-1.08 **PROPOSAL GUARANTY.** All bids shall be accompanied by one of the following forms of Bidder's security: Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted surety insurer, made payable to the City of Roseville, or any other form of security deemed acceptable by the City Attorney. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid will not be considered unless one of the form of Bidder's security is enclosed with it.

A Bidder's bond shall conform to the City's bond form in the Proposal and shall be properly filled out and executed.

1-1.09 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the Notice to Contractors for the opening of bids, provided that a request in writing, executed by the Bidder or his duly authorized representative, for the withdrawal of such bid is filed with the City Clerk. A telegraphic or facsimile request is not acceptable. The withdrawal of a bid shall not prejudice the right of a Bidder to file a new bid. The withdrawal of any bid after the time fixed in the Notice to Contractors for the opening of bids will not be permitted.

1-1.10 **ADDENDUM.** Proposals shall include all costs and account for all addenda issued prior to opening of bids. The Bidder is responsible for verifying that he has received all issued addenda. An Addendum acknowledgment form for each Addendum shall be included as part of the Proposal submittal.

1-1.11 **PUBLIC OPENING OF PROPOSALS.** Proposals will be publicly opened and read at the time and place indicated in the Notice to Contractors. Bidders or their authorized agents are invited to be present.

1-1.12 **REJECTION OF IRREGULAR PROPOSALS.** Proposals may be rejected in the City's sole discretion if they show any alterations of form, additions not called for, conditional bids, incomplete bids, erasures, or irregularities of any kind. However, the City reserves the right to waive any minor irregularities and informalities in any bid or in the bidding for any reason.

When proposals are signed by an agent, other than the officer or officers of a corporation authorized to sign Contracts on its behalf, or are signed by an agent other than a partner of a partnership, or are signed by an agent for an individual, a power of attorney must be on file with the Department prior to opening bids or shall be submitted with the proposal; otherwise the proposal will be rejected as irregular and unauthorized. Determination as to the validity of a power of attorney shall be in the City's sole discretion.

1-1.13 **COMPETITIVE BIDDING.** If more than one proposal is offered by any individual, firm, partnership, corporation, association, or any combination thereof, under the same or different names, all such proposals may be rejected. A party who has quoted prices on materials or Work to a Bidder is not thereby disqualified from quoting prices to other Bidders, or from submitting a bid directly for the materials or Work.

All Bidders are put on notice that any collusive agreement to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the City Charter, State Contract Act and the Business and Professions Code and may render void any Contract let under such circumstances.

1-1.14 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in his or her bid, the Bidder shall give the Department written notice within five (5) calendar Days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a basis for relief. The burden of proving the occurrence of a mistake entitling a bidder to relief from its bid rests entirely on the bidder. Relief from bids shall be in the City's sole discretion.

1-1.15 **CONTRACTOR REGISTRATION.** No contractor or subcontractor may be listed on a bid proposal for or work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. The Contractor shall provide proof of current registration with the Department of Industrial Relations for both itself and all listed subcontractors with the bid proposal. The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

SECTION 2: AWARD AND EXECUTION OF CONTRACT

2-1.01 **AWARD OF CONTRACT.** The City reserves the right to reject any and all proposals and to award (or not award) any combination of bid items at its option. Any such award will be to the lowest responsible Bidder whose proposal complies with the requirements prescribed for the bid items awarded. Such award, if made, will be made within sixty (60) calendar Days after the opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, the City may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) calendar Days after the opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred four (104) calendar Days after the opening of the proposals. The above time periods within which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

2-1.02 **RETURN OF BIDDER'S SECURITIES.** Within ten (10) calendar Days after the award of the Contract, the City Clerk will return all Bidders' securities, other than Bidders' bonds, accompanying the proposals that are not to be further considered in making the award. Retained Bidders' securities will be held until the Contract has been fully executed, after which all Bidders' securities, except Bidders' bonds and any Bidders' securities that have been forfeited, will be returned.

2-1.03 **CONTRACT BONDS.** The successful Bidder shall furnish two (2) bonds in the form contained in the section entitled Insurance Broker Information Packet and

Bonds. One (1) bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the Work under the Contract, and the other bond shall guarantee the faithful performance of the Contract.

Each of the two (2) bonds shall be in a sum equal to one hundred percent (100%) of the Contract price. If the Contract price increases by the issuance of Change Orders, the Contractor shall within ten (10) calendar Days provide a commensurate increase in the penal amounts of the bonds required. Sureties on each of said bonds shall be satisfactory to the City.

All alterations, extensions of time, extra and additional Work, and other changes authorized by the General Conditions, the Supplemental Conditions or any part of the Contract may be made without securing the consent of the surety or sureties on the Contract bonds.

Furthermore, the successful bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

2-1.04 **INSURANCE.** At the time of the execution of the Contract, the Contractor shall, at his or her own expense, procure, and at all times during the prosecution of the Work maintain in full force and effect Worker's Compensation Insurance, and Liability Insurance as specified in the General Conditions. The Contractor shall provide a Certificate of Insurance in the form contained in the section entitled Insurance Broker Information Packet.

2-1.05 **EXECUTION OF CONTRACT.** The Contract shall be signed by the successful Bidder and returned, together with all the required Contract bonds and insurance certificates, within fifteen (15) calendar Days after the Contract has been awarded.

2-1.06 **FAILURE TO EXECUTE CONTRACT.** Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds and insurance as provided within fifteen (15)

calendar Days after the Contract has been awarded, shall be cause for forfeiture of the Bidder's security. The successful Bidder may file with the City Clerk a written notice, signed by the Bidder or Bidder's authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to Bidder. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds within the time prescribed.

PROPOSAL TO THE DEPARTMENT OF ENVIRONMENTAL UTILITIES

Project: SUNRISE AVENUE PIPE REPAIR PROJECT

Name of Bidder _____ Business Phone _____

Business Address _____

Place of Residence _____

The Work to be done and referred to herein is in the City of Roseville, Placer County, State of California, and is to be constructed in accordance with the Contract Documents and the Prevailing Wage Rates of the Department.

The Work to be done is described in the Bidding Documents entitled _____
SUNRISE AVENUE PIPE REPAIR PROJECT, City of Roseville, California.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that Bidder has carefully examined the location of the proposed Work and the Contract Documents; and proposes, and agrees if this Proposal is accepted, that he or she will Contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the Work and furnish all the materials specified in the Contract, in the manner and time therein prescribed, and according to the requirements of the Engineer, as therein set forth, and that he or she will take in full payment therefore prices indicated in the Schedule of Bid Items, including all Work modified by Addendum numbers _____ (IF NONE, STATE NONE).

Bids are required for all Bid Items. THE AMOUNT OF THE BID FOR COMPARISON PURPOSES WILL BE THE TOTAL OF ALL ITEMS AWARDED.

The Bidder shall set forth for each item of Work, in clearly legible figures, an item price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

In case of discrepancy between the price written in words and the price written in figures for the item, the price written in words shall prevail, provided, however, if the price written in figures is ambiguous, unintelligible or uncertain for any cause, then the amount written in words for the item shall prevail. In case of discrepancy between the unit price and the extension price, the unit price shall prevail. "Extension" shall mean the product of each unit price multiplied by the quantity. In the case where the unit price prevails, the total shall be corrected to reflect the actual extension.

If this Proposal shall be accepted and the undersigned shall fail to Contract, to provide evidence of insurance or to give the two (2) payment and faithful performance bonds required, with Surety satisfactory to the City all within fifteen (15) calendar Days after the Bidder has received notice from the Department that the Contract has been awarded, the City Council may, at its option, determine that the Bidder has abandoned the Contract, and thereupon this Proposal and the Acceptance thereof shall be null and void and the forfeiture of such bid security accompanying this Proposal shall operate and the same shall be the property of the City of Roseville.

Accompanying this Proposal is _____

(Notice: Insert the words "Cash \$ _____," "Cashier's Check," "Certified Check," or "Bidder's Bond," as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

The names of all persons interested in the foregoing Proposal as Principals, are as follows: _____

The names of all persons directly involved in this project include:

Project Superintendent _____

Project Manager _____

The Director has the sole authority to approve or reject the above individuals or project team and to require their replacement prior to bid award.

In accordance with the provisions of California Labor Code Section 6707, whenever the State, a County, City and County, or City issues a call for bids for the construction of a pipeline, sewer, sewage disposal system, boring or jacking pits, or similar trenches or open excavations, which are five (5') feet or deeper, such call shall specify that each bid submitted in response thereto shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to applicable safety orders.

As required under the provisions of California Public Contract Code Section 4104 et seq., any person making a bid or offer to perform the Work, shall in his or her bid or offer, set forth:

(a)(1) The name, location of the place of business and Contractor license number of each subcontractor who will perform Work or labor or render service to the prime Contractor in or about the construction of the Work, or improvement, or a subcontractor licensed by the State of California who, under subcontract to the prime Contractor, specially fabricates and installs a

portion of the Work or improvement according to detailed Drawings contained in the Contract Documents, in an amount in excess of one-half of one percent (0.5%) of the prime Contractor's total bid or, in the case of bids or offers for the construction of streets or highways, including bridges, in excess of one-half of 1 percent of the prime contractor's total bid or ten thousand dollars (\$10,000), whichever is greater; (2)(A) Subject to subparagraph (B), any information requested by the officer, department, board, or commission concerning any subcontractor who the prime contractor is required to list under this subdivision, other than the subcontractor's name and location of business, may be submitted by the prime contractor up to 24 hours after the deadline established by the officer, department, board, or commission for receipt of bids by prime contractors. (B) A state or local agency may implement subparagraph (A) at its option. (b) The portion of the Work that will be done by each such subcontractor under this act. The prime Contractor shall list only one subcontractor for each such portion as defined by the prime Contractor in his or her Bid.

The Contractor shall perform, with the Contractor's own organization and with workers under the Contractor's immediate supervision, work of a value not less than ten percent (10%) of the value of all work embraced in the contract except when certain items may be exempted by the Supplemental Provisions from said ten percent (10%) requirement.

In accordance with California Public Contract Code Section 4104 and following, each proposal shall have listed on the form provided with the proposal, the name, location of the place of business, and portion (type) of work of each California licensed subcontractor who will perform work or labor, or render service to the General Contractor in or about the construction of the work or improvement, or a licensed subcontractor who, under subcontract to the General Contractor, specially fabricates and installs a portion of the work or improvement according to

detailed drawings contained in the plans and specifications, in an amount in excess of one-half of one percent (0.5%) of the General Contractor's total bid, or in the case of bids or offers for the construction of streets or highways, including bridges, in excess of one-half of one percent (0.5%) of the prime contractor's total bid or ten thousand dollars (\$10,000), whichever is greater.

The Contractor shall list only one subcontractor for each portion of work in the bid. If a contractor fails to specify a subcontractor for any portion of the work to be performed under this contract in excess of one-half of one percent (0.5%) of the total bid, or for the construction of streets or highways including bridges, in excess of one-half of one percent (0.5%) or ten thousand dollars (\$10,000), whichever is greater, the Contractor shall perform that portion of the contract.

A listed subcontractor shall perform with the subcontractor's own organization and with workers under the subcontractor's immediate supervision, work of a value of not less than seventy-five percent (75%) of the value of each item of work for which the subcontractor is listed.

[LIST OF SUBCONTRACTORS FOLLOWS ON NEXT PAGE.

THE REMAINDER OF THIS PAGE IS BLANK.]

DESIGNATION OF SUBCONTRACTORS

In accordance with the Public Contract Code, Part 1, Chapter 4, Subletting and Subcontracting, bidders must list the name, business address and Contractor license number of each subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the work or improvement, or who will specially fabricate and install a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of one percent (0.5%) of the prime contractor's total bid, or in the case of bids or offers for the construction of streets and highways, including bridges, in excess of one-half of one percent (0.5%) of the prime contractor's total bid or ten thousand dollars (\$10,000) whichever is greater. In addition, the Contractor shall also provide proof of current registration with the Department of Industrial Relations for all listed subcontractors with the bid proposal.

The apparent low bidder must submit a listing of license numbers for all subcontractors within ten days of bid opening.

PORTION/ TYPE OF WORK	% OF CONTRACT	SUB- CONTRACTOR'S NAME	CONTRACTOR LICENSE NO.	BUSINESS ADDRESS (CITY, STATE)

IMPORTANT NOTICE: If Bidder, or other interested person is a corporation, state legal name of corporation, also names of the president, secretary, treasurer, and manager thereof; if a co-partnership, state true name of firm, also names of all individual co-partners composing the firm; if Bidder or other interested person is an individual, state first and last names in full.

Licensed in accordance with State law providing for the registration of Contractors, Class _____
and License No. _____ Expiration Date _____

SIGN HERE: _____

(Signature of Bidder)

NOTE: If Bidder is a corporation, the legal name of the corporation shall be set forth above together with the signature and title of the officer or officers authorized to sign Contracts on behalf of the corporation; if Bidder is a co-partnership, the name of the firm shall be set forth above together with the signature of the partner or partners authorized to sign Contracts in behalf of the co-partnership; and if Bidder is an individual, his or her signature shall be placed above. If signature is by an agent other than an officer of a corporation or a member of a partnership, a Power of Attorney must be on file with the Department prior to opening bids or submitted with the bid; otherwise, the bid will be disregarded as irregular and unauthorized.

TOTAL BID AMOUNT \$ _____

TOTAL BID (WRITTEN IN WORDS): _____

Each Unit Price includes an amount considered by BIDDER to be adequate to cover BIDDER'S overhead and profit for each separately identified item. BIDDER acknowledges that quantities are not guaranteed and final payment will be based on actual quantities used.

NONCOLLUSION DECLARATION TO BE EXECUTED BY
BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____
[date], at _____ [city], _____ [state].

(Signature of Declarant)

END OF PROPOSAL

A G R E E M E N T

THIS AGREEMENT, is made and entered into this _____ day of _____,
20_____, by and between the City of Roseville, a municipal corporation, ("CITY"), and
_____, a _____,
("CONTRACTOR"); and

W I T N E S S E T H:

WHEREAS, the City Council of the City of Roseville, at a meeting held on the ____ day
of _____, 20_____, approved plans and specifications consisting of the General
Conditions for Buildings and Grounds and Special Conditions for the _____

SUNRISE AVENUE PIPE REPAIR PROJECT

and directed the City Clerk to advertise for sealed proposals for doing said work and providing
that bids be submitted on the _____ day of _____, 20____; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published
in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid
with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is
hereby referred to and by this reference made a part hereof as fully as if set forth at length herein;
and

WHEREAS, all bids received pursuant to said notice were opened and examined and
publicly declared at the time specified in said advertisement for bids and at a meeting of the City

Council held on the ____ day of _____, 20____, the City Council found and declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in accordance with the aforementioned specifications.

NOW, THEREFORE, the parties hereto as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, equipment and insurance required for the SUNRISE AVENUE PIPE REPAIR PROJECT

in accordance with the Contract Documents (the "Work").

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Department for Contract Administration as defined in the Contract Documents.

2. PAYMENT. CITY shall pay CONTRACTOR _____ dollars (\$_____) for the Work.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of all of the documents described in section 1-1.12 of the General Conditions.

All Contract Documents are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the work within the time specified, CONTRACTOR agrees that CITY will suffer damages.

Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of \$ 1,000 per day as liquidated damages, in the event of such delay.

5. TIME OF ESSENCE. Time is of the essence of this Agreement.

6. ATTORNEY'S FEES, VENUE, GOVERNING LAW. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

7. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

8. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

9. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

10. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

11. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____ day of _____, 20____, and CONTRACTOR has caused this Agreement to be duly executed.

INSURANCE BROKER INFORMATION PACKET

Project: SUNRISE AVENUE PIPE REPAIR PROJECT

NOTICE TO CONTRACTOR:

For your convenience, this package contains the Requirements for Insurance and Bonds for this project, including the necessary City forms. You are required to return these forms in addition to the executed Contract within fifteen (15) calendar days after the award of the Bid. (See the Instructions to Bidders.)

Please insert the dollar amount of your accepted Bid into the blank on page INS-1 and present this entire package to your insurance broker if you are awarded the Bid.

TABLE OF CONTENTS

Notice to Insurance Broker	INS-1
Insurance Requirements	INS-2
Public Works Faithful Performance Bond	INS-8
Public Works Payment Bond	INS-10

NOTICE TO INSURANCE BROKER

Your client has been awarded a bid by the City Council of the City of Roseville to perform a public works project known as SUNRISE AVENUE PIPE REPAIR PROJECT. The Contract

Conditions for that project require your client ("the Contractor") to return certain evidence of insurance and bonds to the City Attorney of the City within fifteen (15) Days after the Bid award, or else the Bid award may be terminated and awarded to another company.

This package contains the information you will need as an insurance broker to provide the appropriate insurance and bonds to the City. The insurance coverages the Contractor needs are specified in the section entitled "Insurance Requirements." Please note that, in addition to the insurance certificate itself, copies of several endorsements must be actually furnished for review.

Please refer to Supplementary Conditions for modifications of the General Conditions and the requirements of this insurance packet.

Please use the standard City of Roseville Bond Forms provided in this package.

The Bonds required must each be in the penal amount of: \$ _____.

Documents should be forwarded to or questions addressed to:

Office of the City Attorney
City of Roseville
311 Vernon Street
Roseville, CA 95678
(916) 774-5325

When forwarding the documents, please refer to the project name so that the documents can be matched with the Contract for which they are submitted.

Thank you.

INSURANCE REQUIREMENTS

The following sections are quoted from the General Conditions of the project:

5-1.19 INSURANCE COVERAGE.

A. Evidence of Maintenance Required. The CONTRACTOR shall, at all times, maintain in full force and effect at a minimum the insurance required by this section; and the CONTRACTOR shall not allow any subcontractor to commence Work until similar insurance required of the subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. CONTRACTOR shall provide ten (10) Days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required. Commercial General Liability, automobile liability, and worker's compensation insurance shall be maintained as follows:

1.	Commercial General Liability	\$2,000,000 each occurrence
	Minor Construction Project	\$4,000,000 aggregate
	(Projects under \$1,000,000)	Personal Injury:
		\$2,000,000 each occurrence
		\$4,000,000 aggregate
	Commercial General Liability for	\$5,000,000 each occurrence
	Major Construction Projects	\$10,000,000 aggregate

(Projects over \$1,000,000)

Personal Injury:
\$5,000,000 each occurrence
\$10,000,000 aggregate

The Commercial General Liability policy shall include coverage or endorsements for:

- a. Completed operations.
- b. Losses related to independent contractors, products and equipment.
- c. Explosion, collapse and underground hazards.

The Commercial General Liability Insurance shall include the following, copies of which shall be provided:

- a. Inclusion of the City of Roseville, and its officers, agents, employees and volunteer, as additional insured (except for workers' compensation as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the Insurance Services Office ("ISO") CG 20 38 04 13 or an equivalent, blanket endorsement or section of the policy. Endorsements must include coverage for on-going and completed operations. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.
- b. Cross liability and severability of interest clauses providing that the insurance applies separately to each insured except with respect to the limits of liability.
- c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.
- d. Such insurance shall specifically cover the contractual liability of the CONTRACTOR.
- e. Any available insurance proceeds in excess of the specified minimum

insurance coverage requirements and limits shall be available to the additional insureds.

Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The CONTRACTOR shall furnish a certificate for the period covered.

SPECIAL NOTICE - CLAIMS MADE COVERAGE:

Liability insurance coverage may not be written on a "claims made" basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

2. Comprehensive Automobile Liability for bodily injury (including death) and property damage which provides total limits of not less than One Million Dollars (\$1,000,000) combined single limits per accident, applicable to all owned, non-owned, and hired vehicles.

3. Statutory Workers' Compensation and Employer's Liability Insurance, including a waiver of subrogation endorsement and a Broad Form "All-States" Endorsement for all employees engaged in services or operations under the Contract. The employer's liability insurance shall provide limits of not less than One Million Dollars (\$1,000,000) per occurrence. Both the worker's compensation and employer's liability policies shall contain the Insurer's waiver of subrogation in favor of the City, its officers, agents, employees, and volunteers.

4. Builder's Risk/Course of Construction Insurance:

The Contractor shall be responsible for all loss, damage or destruction whatsoever to the Work called for by this Contract until the approval of a Notice of Completion. The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the Work performed under this Contract (the value is presumed to be the

Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the Work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

5-1.19A **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Contract Conditions as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in the Contract Conditions may be fulfilled by self-insurance on the part of the Contractor. However,

this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be declared on the certificate of insurance and approved by CITY in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor’s work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City’s indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify

the additional insured would be invalid under California Insurance Code Section 11580.04. In addition, the insurance policy may not contain language which prohibits additional insureds or other insurers from satisfying the self-insured retention or deductible.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

**F. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY
PROGRESS PAYMENT TO THE CONTRACTOR IN THE EVENT OF
NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.**

**PUBLIC WORKS
FAITHFUL PERFORMANCE BOND**

(Project: Well Destruction Project)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____, a _____, as contractor ("PRINCIPAL") for the public work described as Well Destruction Project (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY in the sum of _____ dollars (\$ _____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, his or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, on his or its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents and employees, as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the work. During that time, if the PRINCIPAL, his or its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the work, then the obligation shall remain in full force and effect. However, anything

in this paragraph to the contrary notwithstanding, the obligation of the SURETY shall continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the ____ day of _____, 20__.

**PUBLIC WORKS
LABOR AND MATERIALS PAYMENT BOND**

(Project: Well Destruction Project)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____, a _____, as contractor ("PRINCIPAL"), for the public work described as Well Destruction Project (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____ a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY, ("SURETY") are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars (\$ _____) (which amount is not less than 100% of the contract price) and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns, jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, his or its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in § 3181 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorney's fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of § 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall

operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the _____ day of _____, 20__.

SECTION 1

DEFINITIONS AND TERMS

1-1.01 **GENERAL.** The following abbreviations and terms or pronouns in place of them appear in the Contract Documents, the intent and meaning shall be interpreted as provided in this Section 1.

1-1.02 **ACCEPTANCE.** Formal Acceptance by resolution by the Roseville City Council of the Contract when completed in all respects in accordance with the Contract Documents and any modifications previously approved.

1-1.03 **ADDENDUM.** Document or written communication issued by the Department during the bidding period which modifies, supersedes, or supplements the Contract Documents.

1-1.04 **BIDDER.** Individual, firm, copartnership, association, or any combination thereof, submitting a Proposal for the Work, acting directly, or through a duly authorized representative.

1-1.05 **BIDDING DOCUMENTS.** Includes the Notice to Bidders, Bidding Requirements, Contract Conditions, Drawings and Addenda.

1-1.06 **CHANGE ORDER.** Any additions, deletions, or modifications of the Work to be done after the Agreement has been signed.

1-1.07 **CITY.** The City of Roseville.

1-1.08 **CITY ATTORNEY.** The City Attorney of the City.

1-1.09 **CITY CLERK.** The City Clerk of the City.

1-1.10 **CONTRACT.** Agreement relating to the Work to be performed, the labor, materials, and equipment to be furnished, and the payment to be made therefor. The Contract incorporates all of the Contract Documents.

1-1.11 **CONTRACT CONDITIONS.** Include the General Conditions, Supplemental Conditions, and Specifications.

1-1.12 **CONTRACT DOCUMENTS.** Include the Bidding Documents, the Bid or Proposal, Contract Bonds, the Contract, all required insurance certificates or endorsements, all required certifications or statements, Change Orders, any Contract Amendment, any City Standard which is incorporated by reference and these City of Roseville General Conditions for Buildings and Grounds.

1-1.13 **CONTRACTOR.** Individual, firm, co partnership, corporation, association, or any combination thereof, who has entered into the Contract with City.

1-1.14 **DAY OR DAYS.** Unless otherwise designated, Day or Days as used in the Contract Documents will be understood to mean calendar Day or Days.

1-1.15 **DEPARTMENT.** The Department for Contract Administration, as identified in the Supplemental Conditions.

1-1.16 **DIRECT COSTS.** Those cost items (including labor, materials, equipment and any subcontractor's work) that are used in the actual performance of, and are specifically and uniquely attributable to the Work or changed Work. Direct Costs do not include Overhead. Direct Costs include but are not limited to:

A. Payroll costs for employees in the direct employ of Contractor in the performance of the Work under schedules of job classifications agreed upon by City and Contractor. Payroll costs for employees not employed full time on the Work shall be

apportioned on the basis of their time spent on the Work. Payroll costs shall include salaries and wages plus the cost of fringe benefits which shall include social security contributions, unemployment, excise and payroll taxes, workers' compensation, health and retirement benefits, sick leave, vacation and holiday pay applicable thereto. Such employees may include superintendents and foremen at the site. The expenses of performing work after regular working hours, on Saturday, Sunday or legal holidays shall be included in the above only to the extent authorized by City in writing.

B. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and suppliers' field services required in connection therewith. All trade discounts, rebates and refunds and all returns from sale of surplus materials and equipment shall accrue to City, and Contractor shall make provisions so that they may be obtained.

C. Payments made by Contractor to the subcontractors for work performed by subcontractors. If required by City, Contractor shall obtain competitive bids from subcontractors acceptable to Contractor and shall deliver such bids to City who will then determine which bids will be accepted. If a subcontract provides that the subcontractor is to be paid on the basis of cost of the work plus a fee, the subcontractor's cost of the work shall be determined in the same manner as Contractor's cost of the work. All subcontracts shall be subject to the other provisions of the Contract Documents insofar as applicable.

D. Costs of special consultants (including engineers, architects, testing laboratories, surveyors, and accountants) employed for services specifically, and only, related to the Work.

E. Supplemental costs including the following:

1. The proportion of necessary transportation, travel and subsistence expenses of Contractor's employees incurred in discharge of duties connected with the Work.

2. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office and temporary facilities at the site and hand tools not owned by the workers, which are consumed in the performance of the Work, and cost, less market value of such items used but not consumed which remain the property of Contractor.

3. Rentals of all construction equipment and machinery and the parts thereof whether rented from Contractor or others in accordance with rental agreements approved by City, and the costs of transportation, loading, unloading, installation, dismantling and removal thereof, all in accordance with terms of said rental agreements. The rental of any such equipment, machinery or parts shall cease when the use thereof is no longer necessary for the Work.

4. Sales, consumer, use or similar taxes related to the Work, and for which Contractor is liable, imposed by laws and regulations.

5. The cost of utilities (including the meter), fuel and sanitary facilities at the site.

6. Cost of premiums for additional bonds and insurance required because of changes in the Work.

1-1-17 **DIRECTOR.** Director of the Department for Contract Administration or his or her designee.

1-1.18 **DRAWINGS.** The official Drawings including plans, elevations, sections, detail Drawings, diagrams, plated, General Notes, information and schedules thereon, or exact reproductions thereof, showing the location, character, dimension, and details of the

Work. The Drawings include any Drawings or plates bound within the Supplemental Conditions.

1-1.19 **GENERAL NOTES.** The written instructions, provisions, conditions or other requirements appearing on the Drawings and so identified thereon, which pertain to the performance of the Work.

1-1.20 **LABORATORY.** Established professional laboratories authorized by the City to test materials and Work involved in the Contract.

1-1.21 **LIQUIDATED DAMAGES.** The amount prescribed in the Supplemental Conditions to be paid to the City or to be deducted from any payments due or to become due the Contractor for each day's delay in completing the whole or any specified portion of the Work beyond the time allowed in the Supplemental Conditions.

1-1.22 **OVERHEAD.** Business or administrative expenses (including but not limited to office expenses, administrative staff, rent, insurance, utilities) not chargeable to a particular part of the Work. The term "overhead" shall include any of the following:

A. Payroll costs and other compensation of Contractor's officers, executives, principals (of partnerships and sole proprietorships), general managers, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expeditors, timekeepers, clerks and other personnel employed by Contractor whether at the site or in Contractor's principal or a branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications referred to in section 1-1.17, all of which are to be considered administrative costs covered by the Contractor's fee.

B. Expenses of Contractor's principal and branch offices other than Contractor's office at the site.

C. Any part of Contractor's capital expenses, including interest on Contractor's capital employed for the Work and charges against Contractor for delinquent payments.

D. Cost of premiums for all bonds and for all insurance whether or not Contractor is required by the Contract Documents to purchase and maintain the same, except as provided in section 1-1.16.

E. Other overhead or general expense costs of any kind.

1-1.23 **OWNER.** City of Roseville.

1-1.24 **PROJECT MANUAL.** A book containing all Contract Documents.

1-1.25 **PREMISES.** Shall mean the area within construction easements, easements, rights of entry and City owned property which surrounds the Work Site, limited by the property lines thereof. In some cases Premises may coincide with the Work Site.

1-1.26 **ENGINEER OR ARCHITECT.** Private Engineer or Architect as a person, firm or corporation retained by the City of Roseville for this Work or portions thereof.

1-1.27 **SPECIFICATIONS.** The technical Specifications for the Work prepared by the Director or an Engineer or Architect describing in detail the nature of the Work, its components, any performance standards, and how the Work is to be constructed.

1-1.28 **SUPPLEMENTAL CONDITIONS.** The Supplemental Conditions are specific clauses modifying or supplementing these General Conditions.

1-1.29 **WORK.** The furnishing of all labor, and the furnishing and installing of all materials, articles, supplies and equipment as specified, designated, or required by the Contract Documents.

1-1.30 **WORK SITE.** All or portion of the Premises that the Work is limited to as shown on the Drawings or designated by the Director. Public streets are not included unless Work is being done within the street right-of-way.

SECTION 2

CONTROL AND SCOPE OF THE WORK

2-1.01 **AUTHORITY OF DIRECTOR.** The Contract shall be performed in a manner satisfactory to the Director who shall decide all questions which may arise as to the quality or acceptability of materials furnished and Work performed and as to the manner of performance and rate of progress of the Work; all questions which may arise as to the interpretation of the Contract Documents; all questions as to the acceptable fulfillment of the Contract on the part of the Contractor; and all questions as to compensation. The Director shall have authority to enforce and make effective such decisions and orders which the Contractor fails to carry out promptly.

2-1.02 **INTENT OF CONTRACT DOCUMENTS.** The intent of the Contract Documents is to prescribe the details for the construction and completion of the Work. Where the Contract Documents describe portions of the Work in general terms, but not in complete detail, it is understood that only the best general practice is to prevail and that only materials and workmanship of the first quality are to be used. Unless otherwise specified, the Contractor shall furnish all labor, materials, tools, equipment, and incidentals, and do all the Work involved in executing the Contract in a satisfactory and workmanlike manner.

2-1.03 **COORDINATION AND INTERPRETATION OF CONTRACT DOCUMENTS.** All Contract Documents are essential parts of the Contract, and a requirement occurring in one is as binding as though occurring in all. They are intended to be complementary, and to describe and provide for a complete Work.

The Supplemental Conditions shall govern over the General Conditions and the Drawings. In the event of any discrepancy, between any Drawing and the figures written thereon, the figures shall be taken as correct. Detail Drawings shall prevail over general Drawings and General Notes shall prevail over Drawings. The Specifications shall prevail over the Drawings. The Contract Conditions shall prevail over the Bidding Documents. The Contract shall prevail over the Contract Conditions.

Should it appear that the Work to be done or any of the matters relative thereto are not sufficiently detailed or explained in the Contract Documents, the Contractor shall apply to the Director for such further explanations as may be necessary and shall conform to them as part of the Contract. In the event of any doubt or question arising respecting the true meaning of the Contract Documents, reference shall be made to the Director. The decisions of the Director shall be final.

2-1.04 **SUBMITTALS.** It shall be the Contractor's responsibility to timely submit, so as to cause no delay in the Work, all shop Drawings, descriptive data, manuals, instructions, affidavits, samples for the various trades as required by the Supplemental and Technical Conditions, and offers of alternatives, if any. Such submittals shall be checked and coordinated by the Contractor with the Work of other trades involved before they are submitted to the Director for examination.

The Contractor shall deliver at least seven (7) copies of the Submittals to the Director. Work requiring the submittal of working Drawings, descriptive data or samples shall not begin prior to approval of said submittal by the Director.

The time allowed for review of each submittal will be as indicated in the Supplemental Conditions. Review time will start upon receipt of the submittal by the Director and will end

upon the Director's mailing of the submittals to the Contractor. Defective, incomplete or partial submittals will be returned to the Contractor unreviewed.

Submittals shall be made by a letter of transmittal that shall contain a list of all matter submitted and identification of all variations from the Contract Documents contained in the submittal. The letter and all items accompanying the same shall be fully identified as to project name and location, Contractor's name, district, county, and Contract number, with ample cross-references to the Contract Documents, to facilitate identification of items and their location in the Work.

All shop Drawings and supporting data, catalogs, schedules, shall be submitted as the instruments of the Contractor, who shall be responsible for their accuracy and completeness. These submittals may be prepared by the Contractor, subcontractors, or suppliers, but the Contractor shall ascertain that submittals meet all of the requirements of the Contract Documents, while conforming to structural, space, and access conditions at the point of installation. The Contractor shall check all submittals before submitting them to the Director.

2-1.04A **SHOP DRAWINGS.** The Contractor shall submit at least seven (7) copies of all shop Drawings required by the Supplemental Conditions or Specifications. Two (2) copies will be returned to the Contractor either approved for use or returned for correction and resubmittal. Shop Drawings include any drawing, which requires execution by a draftsman as distinguished from printed matter. The size of shop Drawings shall not exceed twenty-four (24") inches by thirty-six (36") inches.

2-1.04B **DESCRIPTIVE DATA.** The Contractor shall submit seven (7) copies of each set of manufacturer's brochures or other data required by the Supplemental Conditions or

Specifications. The City will examine such submittals and return two (2) copies either approved for use or returned for correction and resubmittal.

2-1.04C **SAMPLES.** The Contractor shall submit samples of articles, materials or equipment as required by the Supplemental Conditions or Specifications. The Work shall be in accordance with the approved samples. Samples shall be removed from City property when directed or may be incorporated in the Work if approved by the Director. Samples not removed by the Contractor will become the property of the City or, at the City's option, will be removed or disposed of by the City at the Contractor's expense.

2-1.04D **MANUALS, INSTRUCTIONS AND AFFIDAVIT.**

A. **Manuals and Instructions.** Where operation and maintenance manuals are required by the Supplemental Conditions, the Contractor shall submit three (3) sets of manuals, suitably bound, along with three (3) electronic copies in an approved format, to the Director within forty-five (45) Days after favorable review of the equipment or facilities. All manuals shall be marked to indicate the specific equipment furnished for this project and shall include:

1. Start-up instructions
2. Normal operation instructions
3. Trouble shooting instructions
4. Lubrication instructions
5. Maintenance and reinstallation instructions
6. Parts identification
7. List of spare parts recommended to have on hand
8. Operator safety

In addition, all operation and maintenance manuals for electrical equipment shall include:

9. Equipment ratings
10. Calibration curves and rating tables if appropriate

Operation and maintenance manuals for complex equipment shall also include:

11. Alternate specified operating modes
12. Emergency shutdown instructions
13. Normal shutdown instructions
14. Long term shutdown instructions

Operation and maintenance manuals for systems comprised of separate pieces of equipment shall include a system explanation of items 1, 2, 3, 11, 12, 13 and 14 as well as the instructions for the separate pieces of equipment.

B. Affidavits. Where required in the Supplemental Conditions or Specifications, manufacturers of equipment shall provide field service as a part of this project. Equipment shall not be considered ready for full time operation until after the authorized factory-trained and qualified manufacturer's representative for the specific equipment has checked and adjusted the equipment and certified by written affidavit that the equipment has been properly installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. Acceptable affidavits shall be submitted prior to completion of the Work. Affidavits shall contain the following specific wording:

“The (Name of Equipment) has been properly installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. The installation has been inspected and has been found to be in conformance with our (the manufacturer's) standards and requirements.”

No amplification, dilution, or modification of this specific wording will be permitted.

2-1.04E **ALTERNATIVES.** For convenience in designation in the Contract

Documents, certain materials, articles, or equipment may be designated by a brand or a trade name or the name of the manufacturer together with catalog designation or other identifying information, hereinafter referred to generically as “designated by brand name.” An alternative material, article, or equipment which is of equal quality and of the required characteristics for the purpose intended may be proposed for use provided the Contractor complies with the following requirements:

A. The Contractor shall submit his proposal for an alternative in writing.

Such request shall be made in ample time to permit approval without delaying the Work.

B. No such proposal will be considered unless accompanied by complete information and descriptive data, necessary to determine the equality of the offered materials. The Contractor shall satisfy the Director as to the comparative quality, suitability, or performance of the offered material, articles, or equipment. In the event that the Director rejects the use of such alternative materials, articles, or equipment, then one of the particular products designated by brand name shall be furnished.

The Director will examine, with reasonable promptness, such submittals, and return of submittals to the Contractor shall not relieve the Contractor from responsibility for deviations and alternatives from the Contract Documents, nor shall it relieve the Contractor from responsibility for errors in the submittals. A failure by the Contractor to identify in his or her letter of transmittal, material deviations from the Contract Documents shall void the submittal and any action taken thereon by the Director. When specifically requested by the Director, the Contractor shall resubmit such shop Drawings, descriptive data and samples as may be required.

If any mechanical, electrical, structural, or other changes are required for the proper installation and fit of alternative materials, articles, or equipment, or because of deviations from the Contract, such changes shall not be made without the approval of the Director and shall be made without additional cost to the City.

2-1.05 **PRESERVATION AND CLEANING.** The Contractor shall clean up the Work at frequent intervals and at other times when directed by the Director. While finish Work is being accomplished, floors, Work areas and finished areas shall be kept clean, free of dust, construction debris and trash. Upon completion of the Work, the Contractor shall remove from the Premises his construction equipment and any waste materials not previously disposed of, leaving the Premises thoroughly clean and ready for final inspection.

2-1.06 **LIMITATIONS ON WORK SITE AND PREMISES.** The Contractor shall limit his construction operations to the Work Site unless otherwise shown on the Drawings or specified. The Contractor shall perform no operation of any nature over or on the Premises except such operations as are authorized by the Contract Documents or as authorized by the Director.

2-1.07 **DUST CONTROL.** During the performance of all Work under this Contract, the Contractor shall assume all responsibility for dust control and shall furnish all labor, equipment, and means required to carry out proper and efficient measures wherever and whenever dust control is necessary to prevent the operations from producing dust damage and nuisance to persons and property. Any claims resulting from dust damage or nuisance shall be borne solely by the Contractor. The Contractor shall comply with all applicable Air Quality Act requirements.

2-1.08 **SANITATION.** The Contractor shall provide sanitary facilities for all persons working on the Work.

2-1.09 **NIGHT WORK AND NORMAL WORKING HOURS.** Normal working hours at the construction site shall be between the hours of 7:00 a.m. and 7:00 p.m. Monday through Friday. Legal holidays are excluded. Certain utility connections and street operations are anticipated to require night Work by the Contractor during low usage periods. The Contractor may also be required to prosecute the Work at night if, at any time, the Director shall deem it necessary for the progress of the Work, or if emergencies arise. The Contractor shall promptly comply with any such requirements made in writing by the Director. The Contractor will also be permitted to Work at night if he or she shall satisfy the Director of the need therefor, in order to maintain the required progress or protect the Work from the elements. Certain activities are required to be performed at night for nominal progress of the Work and/or are specified to be performed at night by other portions of the Supplemental Conditions. When required, ordered, or permitted to Work at night, the Contractor shall provide sufficient and satisfactory lighting and other facilities therefor. The Contractor shall receive no extra payment for night Work, if specified or if required to be performed during the normal progress of the Work, but compensation shall be considered as having been included in the price stipulated for the Work.

If Contractor performs work during weekends, holidays or any non-normal work hours, Contractor shall pay for required City Inspectors.

2-1.10 **LINES AND GRADES.** Unless otherwise provided in the Supplemental Conditions, the Contractor shall lay out all Work, including structures and pipelines, and shall be

responsible for any errors resulting therefrom. In all questions arising as to proper location of lines and grades, the Director's decision will be final.

As part of the bid price for the construction of the improvements, the Contractor shall provide and be responsible for the layout of all Work on this project. The Contractor shall provide all necessary surveys, field staking, and positioning for the construction of all components at the proper alignment, elevations, grades, and positions, as indicated on the Drawings and as required for the proper operation and function. The Contractor shall stake his Work area limits.

The Contractor's lay-out shall be based on existing structures, property lines, survey control, and bench marks established by the City. All structures and pipeline connections shall be installed based on actual elevation of existing structures to which connections are made.

The Contractor shall supply such labor as required, at no extra charge, to aid and assist the Director in checking location and grades of the Work as set by the Contractor if the Director desires to perform this checking. This shall include moving materials and equipment located between monuments and the construction Work.

2-1.11 **PRESERVATION OF MONUMENTS.** Any monuments or bench marks disturbed by construction operations shall be repaired per the City's standard and promptly re-established by a registered land surveyor or civil engineer. A plat for each monument shall be furnished to the Director after the plat has been recorded with the County Recorder's Office at no additional cost to the City. The recorded plat shall serve as a record of the re-establishment of said existing survey points.

2-1.12 **FINAL CLEANUP.** Prior to final Acceptance of the Work, the Contractor shall thoroughly clean the Premises, remove all temporary structures built by or for

the Contractor, and remove all equipment and surplus construction material and debris from the area. The entire project, before Acceptance by the City, shall be left in a neat and clean condition. All Work areas and temporary construction areas shall be returned to essentially the same conditions existing before the commencing of project construction.

2-1.13 **AS-BUILT PLANS.** The Contractor shall maintain one set of the full size prints furnished by the City and mark thereon any deviations from plan dimensions, elevations, or orientations. Also, the Contractor shall locate on said prints, all underground facilities, such as piping, conduits and tanks by accurate field measurement from structure walls, corners, etc. The Contractor shall submit the prints and an electronic CD in good condition to the Director upon completion of the job as a condition of Acceptance of the project. Marked prints shall be updated at least once each week and shall be available to the Director for review as to currency prior to developing partial payment estimates. After the completion of testing, but prior to Acceptance, the Contractor shall submit as built electrical Drawings and an electronic CD showing all components and their wiring, and as specified in the Supplemental Conditions.

2-1.14 **SUPERINTENDENCE.** The Contractor shall designate in writing before starting Work, an authorized representative who shall have the authority to represent and act for the Contractor.

When the Contractor is comprised of two (2) or more persons, firms, partnerships, or corporations functioning on a joint venture basis, said Contractor shall designate in writing before starting Work, the name of one authorized representative who shall have the authority to represent and act for the Contractor.

Said authorized representative shall be present at the site of the Work at all times while Work is actually in progress on the Contract. When Work is not in progress and during periods

when Work is suspended, arrangements acceptable to the Director shall be made for any emergency Work that may be required.

Whenever the Contractor or his or her authorized representative is not present on any particular part of the Work where it may be desired to give direction, orders will be given by the Director, which shall be received and obeyed by the superintendent or foremen who may have charge of the particular Work in reference to which the orders are given.

Any order given by the Director, not otherwise required by the Supplemental Conditions to be in writing, will on request of the Contractor, be given or confirmed by the Director in writing.

2-1.15 **CHARACTER OF WORKER.** If any subcontractor or person employed by the Contractor shall appear to the Director to be incompetent or to act in a disorderly or improper manner, he or she shall be removed immediately on the requisition of the Director, and such person shall not again be employed on the Work.

2-1.16 **INSPECTION.** The Contractor shall at all times permit the Director to inspect the Work of any part thereof. The Contractor shall maintain proper facilities and provide safe access for such inspection by the Director to all parts of the Work, and to the shops where the Work is in preparation. Work shall not be covered up until authorized by the Director and the Contractor shall be solely responsible for notifying the Director where and when such Work is in readiness for inspection and testing. Should any such Work be covered without authorization, it shall, if so ordered, be uncovered at the Contractor's expense.

Whenever the Contractor intends to perform Work on Saturday, Sunday, or a legal holiday, he or she shall give notice to the Director of such intention forty-eight (48) hours prior

to performing such Work, or such longer period as may be specified so that the Director may make necessary arrangements.

2-1.17 **REMOVAL OF REJECTED AND UNAUTHORIZED WORK.** All

Work which has been rejected shall be remedied, or removed and replaced by the Contractor in a manner acceptable to the Director and no compensation will be allowed the Contractor for such removal, replacement, or remedial Work.

Any Work done beyond the lines shown on the Drawings or established by the Director, or any Work done without written authority will be considered as unauthorized Work and will not be paid for. Upon order of the Director, unauthorized Work shall be remedied, removed, or replaced at the Contractor's expense.

Upon failure of the Contractor to comply promptly with any order of the Director made under this section, the Director may cause rejected or unauthorized Work to be remedied, removed, or replaced, and the costs thereof will be deducted from any moneys due or to become due the Contractor.

SECTION 3

CHANGES IN THE WORK

3-1.01 **CHANGES.** The Department reserves the right to order changes in the Contract at any time prior to the Acceptance of the Work by the Director, and the Contractor shall comply with such order. Department also reserves the right to use its own forces or to contract with others to accomplish changes in the Work at its discretion. Changes or deviations from the Contract shall not be made without authority in writing from the Director, and any change to the Work without the Director's written approval will be considered unauthorized Work and will not be paid for.

On the basis set forth in this Section 3, the Contract Lump Sum Price shall be adjusted for any ordered change, which results in a change in the cost of the Work.

When ordered by the Director, the Contractor shall halt Work in the area affected by a proposed change. Whenever it appears to the Contractor that a change is necessary, the Contractor shall immediately notify the Director of the reasons for such change; however, Work in the area affected shall not be discontinued unless ordered by the Director.

For any approved change in the Work, the Contractor shall be entitled to an adjustment in time equal to the number of Days which completion of the entire Work is delayed due to the changed Work. The Contractor's cost estimate for the changed Work shall state the amount of extra time, if any, that he or she considers should be allowed for making the requested change. Failure to request additional time when submitting such estimate shall constitute a waiver of the right to later claim any adjustment in time based upon changed Work. Disagreement as to time adjustments shall not affect Contract price adjustments, nor shall it be cause for not proceeding

with the changed Work when ordered by the Director. The Contractor shall have the right, however, to further pursue a time adjustment in the event an agreement is not reached. The Contractor shall not be entitled to a time extension or adjustment for any Change Order or delays in activities not on the critical path unless the delay or change exceeds the total float of the activities being delayed or changed.

3-1.02 **ORDINARY CHANGE ORDERS.** The Contractor will be notified in writing of a proposed Change Order describing the intended change. Within fifteen (15) Days after receipt of a written request, the Contractor shall submit his proposed price to be added or deducted from the Contract price due to the change. The Contractor's proposed price to be added to or deducted from the Contract price shall be supported by a detailed estimate of cost prepared by the Contractor, vendor or supplier. The Contractor's proposed price submittal shall be accompanied by a statement of the time necessary for the changed Work, together with a description of how this time will be incorporated into the current Construction Schedule. The Contractor shall upon request by the Director permit inspection of his original Contract estimate, subcontract agreements or purchase orders relating to the change.

If agreement is reached on the adjustment in compensation as provided in Section 3-1.04, "Agreed Cost for Change Orders," of these General Conditions, the Contractor shall proceed with the Work as changed at the agreed price.

If the Contractor and the Director fail to agree as to the adjustment in compensation for the performance of the changed Work, the Contractor, upon written order from the Director, shall proceed immediately with the changed Work and the Contract price shall be adjusted in accordance with Section 3-1.05, "Failure to Agree to the Cost of Change Orders," of these General Conditions.

If the Contractor fails to submit his cost estimate within such fifteen (15) day period, the Contractor shall commence the Work as changed immediately upon receipt of written order of the Director, and the Contract price will be adjusted in accordance with the Director's cost estimate for the changed Work, unless the Contractor, within fifteen (15) Days following completion of changed Work, presents proof to the satisfaction of the Director that the Director's estimate of cost was in error.

3-1.03 **EMERGENCY AND INDETERMINATE TYPE CHANGE**

ORDERS. Changes in the Work made necessary by an emergency, as determined by the Director, or changes of a kind where the extent of the Work cannot be determined until completed, may be authorized by the Director in writing. The Change Order shall state that it is issued pursuant to this Section 3-1.03. Upon receipt of an authorized Change Order or other written order of the Director, the Contractor shall proceed with the ordered Work and the Director will maintain a daily job record containing a detailed summary of all labor, materials and equipment required for the changed Work.

Within fifteen (15) Days after receiving a written request, the Contractor shall submit a detailed estimate of cost for the change and any requested change in Contract time in the same manner as required for ordinary Change Orders in Section 3-1.02 of these General Conditions.

3-1.04 **AGREED COST FOR CHANGE ORDERS.** If the Director and the Contractor agree as to the adjustment in compensation for the performance of changed Work on the basis of the Contractor's proposed cost estimate of the Work, the Contract price will be adjusted accordingly. The agreement shall be in writing and executed by both parties.

3-1.05 **FAILURE TO AGREE TO THE COST OF CHANGE ORDERS.**
When a proposed Change Order decreases the cost of the Work and the Director and the

Contractor fail to agree upon the decreased cost thereof, the Director's estimated decrease in cost shall be deducted from the Contract price. The Contractor will be allowed fifteen (15) Days after receipt of a Contract Change Order approved by the Director, in which to file a written protest setting forth in what respects he or she differs from the Director's estimate of decreased cost, otherwise the decision of the Director to deduct the estimate of decreased cost shall be deemed to have been accepted by the Contractor as correct.

In the event the Director and the Contractor fail to agree on the cost of a Change Order which increases the cost of the Work, the Director will maintain a daily job record containing a detailed summary of all labor, materials and equipment required by the ordered change. At the end of each day's Work, the Contractor shall review the Director's daily job record comparing with his own records, and after agreement is reached, the daily job record shall be signed by both the Director and the Contractor and shall become the basis for payment for the changed Work. Upon completion of the Work under the Change Order, the Contractor shall submit an invoice listing only those items of labor, materials and equipment that were agreed to by both the Director and the Contractor to be in addition to the requirements of the Contract, together with allowable markups.

When there is a failure to agree as to cost, no payment for the changed Work will be made to the Contractor until all Work called for in the Change Order has been completed, except that progress payments may be made on those portions of the changed Work which the Contractor and the Director agree as to cost.

3-1.06 **ALLOWABLE COSTS FOR CHANGE ORDERS.** The only costs which will be allowed because of changed Work and the manner in which Such costs shall be computed are set forth in Sections 3-1.06(A) through 3-1.06(E) of these General Conditions.

Where the term "actual cost" is used in the aforesaid sections, it shall be deemed to mean "estimated cost" where the adjustment in compensation is of a necessity based upon estimated costs.

3-1.06(A) **LABOR.** The Contractor will be paid an amount based on the actual cost for labor and supervision directly required for the performance of the changed Work, including payments, assessment of benefits required by lawful labor union collective bargaining agreements; compensation insurance payments; contributions made to the State pursuant to the Unemployment Insurance Code, and for taxes paid to the Federal Government pursuant to the Social Security Act of August 14, 1935, as amended. No labor cost will be recognized at a rate in excess of the wages prevailing in the locality at the time the Work is performed, nor will the use of a labor classification, which would increase the cost, be permitted unless the Contractor establishes to the complete satisfaction of the Director the necessity for payment at a higher rate.

3-1.06(B) **MATERIALS.** The Contractor will be paid an amount based on the actual cost of the materials directly required for the performance of the changed Work. Such cost of materials may include the costs of procurement, transportation and delivery if necessarily incurred. If a cash or trade discount by the actual supplier is available to the Contractor, it shall be credited to the City. If the materials are obtained from a supply or source owned wholly or in part by the Contractor, payment therefor will not exceed the current wholesale price for such materials. If, in the opinion of the Director, the cost of materials is excessive, or if the Contractor fails to furnish satisfactory evidence of the cost to him or her from the actual supplier, the cost of the materials shall be deemed to be the lowest current wholesale price at which similar materials are available in the quantities required. The Department reserves the right to

furnish such materials required by the Change Order as it deems advisable, and the Contractor shall have no claim for cost or markups on material furnished by the Department.

3-1.06(C) **EQUIPMENT.** The Contractor will be paid an amount based on the actual cost for the use of equipment directly required and approved by the Director in the performance of the changed Work. No payment will be made for time while equipment is inoperative due to breakdowns or on Days when no Work is performed. In addition, the rental time shall include the time required to move the equipment to the Work from the nearest available source of such equipment, and to return it to the source. If such equipment is not moved by its own power, then loading and transportation costs will be paid. Moving time, loading and transportation costs will only be paid if the equipment is used exclusively on the changed Work during the time between move in and move out. Individual pieces of equipment having a replacement value of One Hundred Dollars (\$100) or less shall be considered to be tools or small equipment, and no payment will be made therefore. For equipment owned, furnished, or rented by the Contractor, no cost therefore shall be recognized in excess of the rental rates established by distributors or equipment rental agencies in the locality where the Work is performed.

3-1.06(D) **MARKUPS.** When a Change Order increases the cost of the Work, the Contractor may add the following maximum markups to its actual costs of labor, materials, or equipment rental:

16 1/2 percent for labor;

16 1/2 percent for materials; and

16 1/2 percent for equipment rental.

The above markups include full compensation for bonds, profit and Overhead and shall not include work done by a subcontractor. When a Change Order decreases the cost of the Work, the reduction in cost shall include a five percent (5%) markup on the estimated cost for furnishing the labor, materials and equipment, which would have been used on such Work, had the Change Order not been issued.

When a Change Order involves both added Work and deleted Work, the markup or markups to be used shall be as follows:

The actual costs of labor, materials, and equipment rental for added and deleted Work shall be calculated separately without adding markups. If the difference between the calculated costs for labor results in an increased cost, a markup of sixteen and one-half percent (16.5%) shall be applied to the increased cost. If the difference between the calculated costs of materials or equipment rental results in an increased cost, a markup of sixteen and one-half percent (16.5%) shall be applied to the increased costs of materials or equipment rental, as the case may be. If the difference between the calculated costs for labor, materials or equipment rental results in a decreased cost, a markup of five percent (5%) shall be applied to the decreased costs of labor, materials or equipment rental, as the case may be.

Contractor shall not add mark-ups on work performed and billed by City staff.

3-1.06(E) **GENERAL LIMITATIONS.** In no event shall any actual cost for added Work be recognized in excess of market values prevailing at the time of the change, unless the Contractor can establish to the satisfaction of the Director that he or she investigated all possible means of obtaining such Work at prevailing market values and that the excess cost could not be avoided. The Director shall determine the necessity for incurring the costs enumerated above, and as to whether they are directly at the option of the Director. When a Change Order deletes

Work from the Contract, the computation of the cost thereof shall be the values that prevailed at the time bids for the Work were opened.

When Change Order Work is performed by a subcontractor, Contractor's compensation shall be based on all Direct Costs as listed in the subcontractor's portion of the proposal and an amount determined by the Director not to exceed fifteen percent (15%) to Contractor as Overhead and profit.

It is understood and agreed by the City and the Contractor that the Contractor will incur Overhead costs for temporary facilities, superintendence, home office Overhead, and similar cost items, and that the costs of such Overhead for the full Contract period through the specified completion date are included in the Contractor's lump sum bid amounts included in his accepted Proposal. No additional compensation will be made to the Contractor for claims of increased Overhead costs occurring within the originally specified construction Contract period plus any time extensions granted by Change Order.

3-1.07 If the Contract price increases by the issuance of Change Orders, the Contractor shall within ten (10) calendar Days provide a commensurate increase in the penal amounts of the bonds required.

SECTION 4
CONTROL OF MATERIALS

4-1.01 **MATERIALS.** The Contractor shall furnish all materials required to complete the Work, except materials that are designated in the Supplemental Conditions to be furnished by the City and materials furnished by the City in accordance with Section 3, "Changes in the Work," of these General Conditions.

Unless otherwise specified in the Supplemental Conditions, materials furnished by the Contractor for incorporation into the Work shall be new. When the quality or kind of materials, articles, or equipment is not particularly indicated, then the quality or kind thereof shall be similar to those that are indicated.

Articles or materials to be incorporated in the Work shall be stored in such a manner as to insure the preservation of their quality and fitness for the Work, and to facilitate inspection.

All materials which do not conform to the requirements of the Contract Documents as determined by the Director, will be rejected whether in place or not. Rejected material shall be removed immediately from the site of the Work, unless otherwise permitted by the Director. No rejected material, the defects of which have been subsequently corrected, shall be used in the Work, unless approval in writing has been given by the Director. Upon failure of the Contractor to comply promptly with any order of the Director made under these provisions, the Director shall have the authority to cause the removal and replacement of rejected material and to deduct the cost thereof from any moneys due or to become due the Contractor.

Manufacturer's warranties, guaranties, instruction sheets and parts lists, which are furnished with certain materials incorporated in the Work, shall be delivered to the Director before Acceptance of the Contract.

Unless otherwise designated in the Supplemental Conditions or Specifications, materials furnished by the City will be delivered to the job site. Materials furnished by the City that are designated in the Supplemental Conditions as available at locations other than the job site shall be hauled to the site of the Work by the Contractor at his expense, including any necessary loading and unloading that may be involved.

The Contractor will be held responsible for all materials furnished to him or her, and shall pay all demurrage and storage charges. City-furnished materials lost or damaged from any cause whatsoever shall be replaced by the Contractor. The Contractor will be liable to the Department for the cost of replacing City-furnished material and such costs may be deducted from any moneys due or to become due the Contractor.

4-1.02 **PRODUCT AND REFERENCE STANDARDS.** When descriptive catalog designations, including manufacturer's name, product brand name, or model number are referred to in the Contract Documents, such designations shall be considered as being those found in industry publications in effect on the day the Notice to Contractors for the Work is dated.

When standards or test designations of the Federal Government, trade societies, or trade associations are referred to in the Contract Documents by specific date of issue, these shall be considered a part of the Contract. When such references do not bear a date of issue, the edition in effect on the day the Notice to Contractors for the Work is dated shall be considered as part of the Contract.

4-1.03 **SAMPLING AND TESTING OF MATERIALS.** Unless otherwise

specified, all tests shall be performed in accordance with the methods used by the State Department of Transportation (Caltrans) and shall be made by the Director or his or her designated representative.

The State Department of Transportation has developed test methods for testing the quality of materials and Work. These test methods are identified by California Test followed by the serial number. Copies of individual tests are available at the State Department of Transportation Laboratory, Sacramento, California, and will be furnished to interested persons upon request.

Whenever a reference is made in the Supplemental Conditions to a California Test by number, it shall mean the California test in effect on the day the Notice to Contractors for the Work is dated.

Whenever the Supplemental Conditions provide an option between two (2) or more test methods, the Director will determine the test method to be used.

Whenever a Supplemental Condition, manual, or test designation provides for test reports (such as certified mill test reports) from the manufacturer, copies of such reports, identified as to the lot of material, shall be furnished to the Director. The manufacturer's test reports shall supplement the inspection, sampling and testing provisions of the Section 4-1.03 and shall not constitute a waiver of the City's right to inspect. When material which cannot be identified with specific test reports is proposed for use, the Director may at his or her discretion, select random samples from the lot for testing. Testing specimens from the random samples, including those required for retest, shall be prepared in accordance with the referenced Supplemental Conditions

and furnished by the Contractor at his or her expense. The number of such samples and test specimens shall be entirely at the discretion of the Director.

When requested by the Director, the Contractor shall furnish, without charge, samples of all material entering into the Work, and no material shall be used prior to approval by the Director, except as provided in Section 4-1.04, "Certificates of Compliance," of these General Conditions.

A. Inspection and Access for Testing: The Contractor shall provide safe access for the Director and his or her inspectors to adequately inspect the quality of Work and the conformance with the Supplemental Conditions. The Contractor shall provide adequate lighting, ventilation, ladders and other protective facilities as may be necessary for the safe performance of inspections.

The Contractor shall submit samples or specimens of such materials to be furnished or used in the Work as the Director may require. The Contractor shall furnish the Director all necessary labor and facilities for such things as excavation in the compacted fill to depths required to take samples.

Inspections, tests, or favorable review by the Director or others shall not relieve the Contractor from his or her obligations to perform the Work in accordance with the requirements of the Contract Documents.

Work covered without the favorable review or consent of the Director shall, if required by the Director, be uncovered for examination at the Contractor's expense.

If the engineer considers it necessary or advisable that covered Work be inspected or tested by others, the Contractor, at the Director's request, will uncover, expose or otherwise make available for observation, inspection or testing as the Director may require, that portion of

the Work in question, furnishing all necessary labor, materials, tools, and equipment. If it is found that such Work is defective, the Contractor will bear all the expenses of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction. If, however, such Work is not found to be defective and the Work was not covered without favorable review of the Director, the Contractor will be allowed an increase in the Contract price or an extension of the Contract time, or both, to cover his or her costs directly attributable to such uncovering, exposure, observation, inspection, testing, and reconstruction and an appropriate Change Order shall be issued.

Whenever the Contractor varies the period during which Work is carried on each day, he or she shall give due notice to the Director so that proper inspection may be provided. Any Work done in the absence of the Director may be subject to rejection. Proper facilities for safe access for inspection to all parts of the Work shall at all times be maintained for the necessary use of the Director and other agents of the City. Authorized representatives and agents of the Director shall be permitted access to inspect all Work and materials wherever it is required for preparation of progress reports, and the Contractor shall provide proper facilities for such access and inspection.

It is the Contractor's responsibility to supervise the Work and complete the project in accordance with the Contract Documents. In the course of managing that effort, the Contractor shall generate his or her own punch lists as deemed necessary. The Director may prepare punch lists for the Director's own use in communicating with the Contractor; however, the Director shall be under no obligation to prepare punch lists for the Contractor. In general, the Director will prepare punch lists only after the Contractor has given the Director written notice that the subject Work is completed and tested in accordance with the Contract Documents and is

ready for operation and/or use and/or occupancy. Failure of the Director to include an item in a punch list shall not relieve the Contractor of his duty to satisfactorily complete all Work required by the Contract Documents.

Upon final completion of the construction Work and request by the Contractor, the Director will conduct a final inspection as a basis for recommending to the City that the Work be accepted.

B. Field and Materials Testing. Where the Supplemental Conditions require Work to be specially field tested or approved, it shall be tested only in the presence of the Director after timely notice of its readiness for inspection and test, and the Work after testing shall be covered up only upon the consent thereto of the Director.

The results of any tests made are for the information of the Director. Regardless of any test results, the Contractor is solely responsible for the quality of workmanship and materials and for compliance with the requirements of the Drawings and Supplemental Conditions.

Except as specifically required under detailed materials Supplemental Conditions for shop testing and inspection, all tests of materials furnished by the Contractor where tests will be made by the Director will be done in accordance with commonly recognized standards of national organizations. The Contractor shall furnish such samples of all materials as required by the Director without charge. No material shall be used unless it has been favorably reviewed by the Director.

Where such inspection and testing are to be conducted by an independent Laboratory or agency, the sample or samples of materials to be tested shall be selected by such Laboratory or agency, or the Director, and not by the Contractor.

C. Costs of Testing.

1. Initial Services: The City shall furnish and pay for all initial testing services required by the Contract Documents. When initial tests indicate non-compliance with the Contract Documents, the cost of initial tests associated with that non-compliance will be deducted by the City from the balance owed the Contractor. The Contractor shall furnish samples of materials for testing as may be required by the Director. Such samples shall be furnished without cost to the City.

2. Retesting: When initial tests indicate non-compliance with the Contract Documents, all subsequent retesting occasioned by the non-compliance shall be performed by the same testing Laboratory and the cost thereof will be deducted by the City from the balance owed the Contractor.

Contractor shall be billed for each additional test.

3. Contractor Convenience Testing: Inspection or testing performed exclusively for the Contractor's convenience shall be the sole responsibility of the Contractor.

4. When in the opinion of the Director additional tests or inspections are required because of the manner in which the Contractor executes his Work, such tests and inspections shall be paid for by the City, but will be deducted from the Contract price. Examples of such tests and inspections are tests of materials substituted for previously accepted materials or substituted for specified materials, retests made necessary by failure of material to comply with the requirements of the Specifications, load tests made necessary because of portions of the structure not fully meeting Specifications or plan requirements, etc.

4-1.04 **CERTIFICATES OF COMPLIANCE.** A Certificate of Compliance shall be furnished prior to the use of any materials for which the Supplemental Conditions

require that such a Certificate be furnished. In addition, the Director may permit the use of certain materials or assemblies prior to sampling and testing if accompanied by a Certificate of Compliance. The Certificate shall be signed by the manufacturer of the material or the manufacturer of assembled materials and shall state that the materials involved comply in all respects with the requirements of the Supplemental Conditions. A Certificate of Compliance shall be furnished with each lot of such materials delivered to the Work and the lot so certified shall be clearly identified in the Certificate.

All materials used on the basis of a Certificate of Compliance may be sampled and tested at any time. The fact that material is used on the basis of a Certificate of Compliance shall not relieve the Contractor of responsibility for incorporating material in the Work which conforms to the requirements of the Contract Documents and any such material not conforming to such requirements will be subject to rejection whether in place or not.

The Department reserves the right to refuse to permit the use of material on the basis of a Certificate of Compliance.

The form of the Certificate of Compliance and its disposition shall be as directed by the Director.

SECTION 5

LEGAL RELATIONS AND RESPONSIBILITY

5-1.01 **LAWS TO BE OBSERVED.** The Contractor shall keep informed of and observe, and comply with and cause all of his or her agents and employees to observe and comply with, all prevailing Federal and State laws, and rules and regulations made pursuant to said Federal and State laws, and county and municipal ordinances, and regulations, which in any way affect the conduct of the Contract. If any conflict arises between provisions of the Contract and any such law above referred to, the Contractor shall notify the Director at once in writing. The Contractor shall protect and indemnify the City or any of its officers, agents and servants against any claim or liability arising from or based on the violation of any such law, rule, or regulation, whether by him or herself or his or her agents or employees.

5-1.02 **HOURS OF LABOR.** Eight (8) hours labor constitutes a legal day's work. The Contractor or subcontractor shall, as a penalty to City, forfeit Twenty-five (\$25) Dollars for each worker employed in the execution of the contract by the respective Contractor or subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one (1) calendar day and forty (40) hours in any one (1) calendar week in violation of the provisions of the Labor Code, and in particular, Section 1810 to Section 1815, thereof, inclusive, except that Work performed by employees of Contractors in excess of eight (8) hours per day, and forty (40) hours during any one (1) week, shall be permitted upon public work upon compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half (1-1/2) times the basic rate of pay, as provided in said Section 1815.

5-1.03 **NONDISCRIMINATION.**

A. Attention is directed to Labor Code Section 1735, which reads as follows:

"A contractor shall not discriminate in the employment of persons upon public works on any basis listed in subdivision (a) of Section 12940 of the Government Code, as those bases are defined in Sections 12926 and 12926.1 of the Government Code, except as otherwise provided in Section 12940 of the Government Code. Every Contractor for public works who violates this section is subject to all the penalties imposed for a violation of this chapter."

B. During the performance of this Contract, Contractor and its subcontractors shall not unlawfully discriminate against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, medical disability, medical condition, marital status, age, sex or sexual orientation. The Contractor and subcontractors shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination. The Contractor and subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Government Code §12900, et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, §7285.0 et seq.) and other applicable State and Federal regulations pertaining to nondiscrimination and affirmative action which are incorporated into this Agreement by reference and made a part hereof as if set forth in full. The Contractor and its subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement.

C. Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform Work under the agreement.

5-1.04 **PREVAILING WAGE.** The Contractor shall comply with Labor Code

Sections 1770 et seq. In accordance with said Section 1775 the Contractor shall forfeit as a penalty to the City Fifty Dollars (\$50) for each calendar day or portion thereof, for each worker paid less than the prevailing rates for such Work or craft in which such worker is employed for any public work done under the Contract by the Contractor or by any subcontractor under the Contractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated Prevailing Wage Rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated Prevailing Wage shall be paid to each worker by the Contractor or subcontractor.

Pursuant to the provisions of California Labor Code Sections 1773, the Department has identified the source, stated below, of the General Prevailing Rate of Wages applicable to the Work to be done, for straight time, overtime, and holiday Work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address:

<http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>, which is a part of this Contract.

Pursuant to Labor Code Section 1773.2, General Prevailing Wage Rates set forth above, which forms a part of this Contract, shall be posted by the Contractor at a prominent place at the site of the Work.

Prevailing Wage Rates to be posted at the job site will be furnished by the Department.

The City will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the Prevailing Wage Rate set forth in

the Contract. The possibility of wage increases is one of the elements to be considered by the Contractor in determining his or her Bid, and will not under any circumstances be considered as the basis of a claim against the City or Contract.

5-1.05 **TRAVEL AND SUBSISTENCE PAYMENTS:** [Reserved]

5-1.06 **PAYROLL RECORDS.** The Contractor's attention is directed to the following provisions of Labor Code Section 1776. The Contractor shall be responsible for the compliance with these provisions by his or her subcontractors.

A. Each Contractor and subcontractor shall keep accurate and current payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work.

B. The payroll records enumerated under subdivision A shall be certified and shall be available for inspection at all reasonable hours at the principal office of the Contractor on the following basis:

(1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to such employee or his or her authorized representative on request.

(2) A certified copy of all payroll records enumerated in subdivision A shall be made available for inspection or furnished upon request to a representative of the City, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations. The City reserves the right to withhold any progress payments to the Contractor in the event of noncompliance with the subsection.

(3) A certified copy of all payroll records enumerated in subdivision A shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the City, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. The public shall not be given access to such records at the principal office of the Contractor.

C. The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the Division.

D. Each Contractor shall file a certified copy of the records enumerated in subdivision (a) with the entity that requested the records within ten (10) Days after receipt of a written request.

E. Any copy of the records made available for inspection as copies and furnished upon request to the public or any public agency by the City, the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement shall be marked or obliterated to prevent disclosure of an individual's name, address and social security number. The name and address of the Contractor awarded the Contract or subcontractor performing the Contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor- management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) shall be marked or obliterated only to prevent the disclosure of an individual's name and social security number. A joint labor management committee may maintain an action in a court of competent jurisdiction against an employer who fails to comply with Section 1774. The court may award restitution to an employee for unpaid wages and may award the joint labor

management committee reasonable attorney's fee and costs incurred in maintaining the action. An action under this subdivision may not be based on the employer's misclassification of the craft of a worker on its certified payroll records. Nothing in this subdivision limits any other available remedies for a violation of this chapter.

F. The Contractor shall inform the City of the location of the records enumerated under subdivision (a), including the street address, city and county, and shall, within five (5) working days, provide a notice of a change of location and address.

G. The Contractor shall have ten (10) Days in which to comply subsequent to receipt of written notice requesting the records enumerated in subdivision (a). In the event that the Contractor or subcontractor fails to comply with the ten (10) day period, the Contractor shall, as a penalty to the State or City, forfeit twenty-five (\$25) Dollars for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from progress payment or final payment then due. A contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.

5-1.07 **SAFETY.** It is the intent of the parties that the City is not an exposing, creating, controlling, or correcting employer under California Labor Code section 6400. In accordance with generally accepted construction practices and State law, the Contractor shall have the authority and be solely and completely responsible for conditions on the job site, including safety of all persons and property during performance of the Work. Moreover, the Contractor shall be the controlling employer and has the authority and responsibility to enforce worksite safety. The Contractor shall be responsible for conducting daily safety inspections and

assuring all hazards and violations are abated. The Contractor is responsible for assuring that all subcontractors adhere to the minimum CAL/OSHA safety requirements and that each subcontractor has an effective CAL/OSHA IIP (Illness and Injury Protection Program) in place that specifically addresses all potential exposures, such as, but not limited to, fall protection, confined space, and trenching/shoring. These requirements shall apply continuously and not be limited to normal working hours. The Contractor shall be responsible for any delay costs or damages in the event the progress of Work is slowed or stopped due to a safety violation.

Contractor shall inform CITY in advance of the quantity of chemical(s) to be used for the project and the total quantity of chemical(s) that will be brought onto City property. In addition, Contractor shall provide CITY with one copy of the Material Safety Data Sheet (MSDS) for each chemical expected to be used to complete the project.

The services of the Director in conducting construction review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's Work methods, equipment, bracing or scaffolding, or safety measures, in, on, or near the construction site. If a City employee observes a safety violation, the City employee will report the violation to the Contractor who is then responsible for assuring the violation is abated.

The Contractor is hereby informed that Work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous Work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property. Special care shall be exercised relative to Work underground.

All Work and materials shall be in strict accordance with all applicable State, City, County, and Federal Rules, Regulations, and Codes, and attention is drawn to the requirements

of CAL/OSHA. The Contractor shall be solely responsible for compliance with all City, County and State blasting requirements and for any damages caused by his or her operations.

In accordance with State Labor Code Section 6705, the Contractor shall submit to the City specific plans to show details of provisions for worker protection from caving ground. This in no way relieves the Contractor from the requirement of maintaining safety in all operations performed by the Contractor or the Contractor's subcontractors. The detailed Plan showing design of shoring, bracing, sloping or other provisions shall be prepared by a registered civil or structural engineer in the State of California as required. Acceptance by the City or its designated agent only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions or criteria, completeness of submissions, applicability to areas of intended use, nor implementation of the Plans, which are solely the responsibility of the Contractor and his or her registered engineer.

Notwithstanding any classifications relative to the Tunnel Safety Orders, Work within confined spaces on this project is subject to the definitions and applicable provisions of California Code of Regulations Section 8400 et seq., Title 8.

The Contractor shall so perform its Work as not to expose personnel to, or to discharge into the atmosphere from any source whatever, smoke, dust, asbestos, toxic chemicals or other air contaminants in violation of the laws, rules, and regulations of the governmental entities having jurisdiction. Contractors or subcontractors removing one hundred (100') or more square feet of asbestos must be "Certified" in accordance with State law. All Work involving exposure to asbestos and all other hazardous materials shall be performed with protection of personnel in compliance with all applicable regulations and safety requirements.

Nothing in these General Conditions is to be construed to permit Work not conforming to governing codes. When Contract Documents differ from governing codes, the Contractor shall furnish and install the higher standards called for without extra charge. All equipment furnished shall be grounded and provided with guards and protection as required by safety codes. Where vapor tight or explosion proof electrical installation is required by code, this shall be provided. In accordance with the provisions of Labor Code Section 6707, the Contractor shall provide adequate sheeting, shoring and bracing for employee protection, as provided in his proposal as separate Bid Items.

5-1.08 **APPRENTICES.** Attention is directed to Labor Code Sections 1777.5, 1777.6 and 1777.7 and Title 8, California Code of Regulations Section 200 et seq. To insure compliance and complete understanding of the law regarding apprentices, and specifically the required ratio thereunder, each Contractor or subcontractor should, where some questions exist, contact the Division of Apprenticeship Standards, 455 Golden Gate Avenue, San Francisco, California, or one of its branch offices prior to commencement of Work on the public works Contract. Responsibility for compliance with this section lies with the prime Contractor.

It is State and City policy to encourage the employment and training of apprentices on public works Contracts as may be permitted under local apprenticeship standards.

5-1.09 **FAIR LABOR STANDARDS ACT.** Attention is invited to the fact that the City has been advised by the Wage and Hour Division, U.S. Department of Labor, that Contractors engaged in construction Work are required to meet the provisions of the Fair Labor Standards Act of 1958 and as amended (52 Stat. 1060).

5-1.10 **WORKERS' COMPENSATION.** Pursuant to the requirements of Labor Code Section 1860, the Contractor will be required to secure the payment of workers' compensation to his employees in accordance with the provisions of Labor Code Section 3700.

Prior to the commencement of Work, the Contractor shall sign and file with the Director a certification in the following form:

"I am aware of the provisions of Labor Code Section 3700 which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the Work of this Contract."

5-1.11 **AIR POLLUTION CONTROL AND ASBESTOS.** The Contractor shall comply with all air pollution control rules, regulations, ordinances and statutes which apply to any Work performed pursuant to the Contract, including any air pollution control rules, regulations, ordinances and statutes, specified in Government Code Section 11017.

In the absence of any applicable air pollution control rules, regulations, ordinances or statutes governing solvents, all solvents, including but not limited to the solvent portions of paints, thinners, curing compounds, and liquid asphalt used on the project shall comply with the applicable material requirements of the applicable Air Quality Management District. All containers of solvent, paint, thinner, curing compound or liquid asphalt shall be labeled to indicate that the contents fully comply with said requirements.

Unless otherwise provided in the Supplemental Conditions, material to be disposed of shall not be burned, either inside or outside the Premises.

The Contractor shall comply with all rules, regulations, statutes and ordinances regarding asbestos removal and disposal, including but not limited to, 42 U.S.C. Sections 7401, 7412 and 7601 and 40 C.F.R. Part 61, Subpart M.

If the Contractor discovers that a building to be demolished or renovated contains asbestos containing material, the Contractor shall immediately cease Work and notify the City.

5-1.12 **USE OF PESTICIDES.** The Contractor shall comply with all rules and regulations of the Department of Food and Agriculture, the Department of Health, the Department of Industrial Relations and all other agencies which govern the use of pesticides required in the performance of the Work on the Contract.

Pesticides shall include but shall not be limited to herbicides, insecticides, fungicides, rodenticides, germicides, nematocides, bactericides, inhibitors, fumigants, defoliants, desiccants, soil sterilants, and repellents.

Any substance or mixture of substances intended for preventing, repelling, mitigating, or destroying weed, insects, diseases, rodents, or nematodes and any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant shall be considered as pesticide.

5-1.13 **SOUND CONTROL REQUIREMENTS.** The Contractor shall comply with all local sound control and noise level rules, regulations and ordinances which apply to any Work performed pursuant to the Contract. Work shall not begin before 7 a.m. nor occur after 7 p.m.

Each internal combustion engine, used for any purpose on the Work or related to the Work, shall be equipped with a muffler of a type recommended by the manufacturer. No internal combustion engine shall be operated on the project without said muffler.

5-1.14

ENVIRONMENTAL CLEARANCES; MITIGATION

MONITORING PROGRAMS; AND REGULATORY AGENCY PERMIT

REQUIREMENTS. The Department will obtain all environmental clearances and other authorizations necessary for this project as set forth in the Contract Documents. The Contractor shall comply with the provisions, including giving notices during construction when required, of said authorizations. In the event the obtaining of said authorizations delays completion of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions will be granted.

Contractor shall comply with: 1) all mitigation identified in the mitigation monitoring program (attached to and adopted as a component of the mitigated negative declaration or Environmental Impact Report) to mitigate impacts to protected natural resources; and 2) all related permit requirements issued by the regulatory agencies authorizing the project. Contractor shall defend, indemnify, and save and hold harmless the CITY, its officers, agents, and employees from any fines, claims, suits, actions or regulatory sanctions of every name, kind and description brought forth, or on account of, damage to protected natural resources from or arising out of Contractor's negligence or willful misconduct in the performance of this Agreement.

5-1.15

PERMITS AND LICENSES.

The Contractor shall procure all permits and licenses in coordination with the Director and give all notices necessary and incident to the due and lawful prosecution of the Work. All permits and licenses shall be obtained in sufficient time to prevent delays to the Work. All fees and connection charges specifically related to the Work shall be paid by City. The Contractor shall obtain and maintain a City business license.

5-1.16

WATER POLLUTION.

The Contractor shall comply with all water pollution control rules, regulations, ordinances and statutes which apply to any Work performed

pursuant to the Contract, including any water pollution control rules, regulations, and statutes, specified by the most current State of California NPDES General Permit for Stormwater Discharges Associated with Construction Activity.

The Contractor shall take all necessary precaution to protect streams, vernal pools, ponds, and lakes from pollution with fuels, oils, bitumen, and other harmful materials as consistent with the law. Also, the Contractor shall conduct and schedule operations so as to avoid discharging pollutants, such as but not limited to: sediment and silt to the storm drain system. The storm drain system consists of all facilities that are designed to convey stormwater to the Waters of the State as defined in the California Water Code. The storm drain system includes, but is not limited to, all streets, gutters, drain inlets, roadside ditches, streams, vernal pools, ponds, and lakes.

5-1.17 **PROTECTION AND USE OF PROPERTY.** The Contractor shall be responsible for and provide and maintain all proper temporary walks, roads, guards, railings, lights, warning signs, and take precaution at all times to avoid injury or damage to any person or any property, and upon completion of the Work, or at other times as directed, restore Premises and adjacent property to a proper condition. In the event of such injury or damage, Contractor shall report such injury and damage to City within 48 hours of occurrence.

The Contractor shall protect adjoining property and nearby buildings, including City buildings, City roads, and public streets or roads, from dust, dirt, debris, or the nuisance arising out of the Contractor's operations or storage practices, and, if ordered by the Director, the Contractor shall provide and install suitable safeguards, approved by the Director, to protect such objects from damage. If such objects are damaged by reason of the Contractor's operations, they shall be replaced or restored at the Contractor's expense.

If the Contractor damages any buildings, roads or other property which belong to the City, or any Department or agency thereof, then the Director, at his or her option, may retain from the money due under the Contract an amount sufficient to insure repair of the damage.

The Director may make or cause to be made such temporary repairs as are necessary to restore to service any such damaged facility. The cost of such repairs shall be borne by the Contractor and may be deducted from any moneys due or to become due the Contractor under the Contract.

5-1.18 **RESPONSIBILITY FOR DAMAGE.** The City of Roseville, its officers, agents, employees, and volunteers, including but not limited to the Director and the City Director, shall not be answerable or accountable in any manner: for any loss or damage that may happen to the Work or any part thereof; for any loss or damage to any of the materials or other things used or employed in performing the Work; for injury to or death of any person, either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, his or her workers, or anyone employed by the Contractor or the Contractor's subcontractors.

The Contractor shall be responsible for any liability imposed by law and for injuries to, or death of, any person including, but not limited to, workers and the public, or damage to property resulting from defects or obstructions, or from any cause whatsoever during the progress of the Work or at any time before its completion and final Acceptance.

To the fullest extent allowed by law, the Contractor shall defend (through counsel acceptable to the City), indemnify, and save harmless the City of Roseville, and its officers, Directors, agents, subcontractors, employees, and volunteers from all claims, suits or actions of every name, kind and description, brought forth, or on account of, injuries to or death of any

person including, but not limited to, workers and the public, or damage to property resulting from the performance of the Contract, except as otherwise provided by statute. The duty of the Contractor to indemnify and save harmless includes the duties to defend as set forth in Civil Code Section 2778.

The Contractor waives any and all rights to any type of express or implied indemnity against the City, its officers, agents, employees, or volunteers.

It is the intent of the parties that the Contractor will defend, indemnify, and hold harmless the City of Roseville, and its officers, agents, employees, and volunteers from any and all claims, suits or actions as set forth above regardless of the existence or degree of fault or negligence whether active or passive, primary or secondary on the part of the City, the Contractor, the subcontractor or employee of any of these, except that such duty does not apply where the injury or damage is due to the sole or active negligence of the City.

The Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Contract for the full period of time allowed by law. The defense and indemnity obligations of this Contract are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Contract. The parties intend that the defense and indemnity obligations in this Contract shall be broadly construed.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the Department may be retained by the City until disposition has been made of such suits or claims for damages.

The retention of money due the Contractor shall be subject to the following:

A. The City will give the Contractor thirty (30) Days notice of its intention to retain funds from any partial payment which may become due to the Contractor prior to

Acceptance of the Contract. Retention of funds from any payment made after Acceptance of the Contract may be made without such prior notice to the Contractor.

B. No retention of additional amounts out of partial payments will be made if the amount to be retained does not exceed the amount being withheld from partial payments pursuant to Section 7-1.05, "Partial Payments," of these General Conditions.

C. If the City has retained funds and it is subsequently determined that the City is not entitled to be indemnified and saved harmless by the Contractor in connection with matter for which such retention was made, the Department shall be liable for interest on the amount retained at the legal rate of interest for the period of such retention.

5-1.19 **INSURANCE COVERAGE.**

A. **Evidence of Maintenance Required.** The Contractor shall, at all times, maintain in full force and effect the insurance required by this section; and the Contractor shall not allow any subcontractor to commence Work until similar insurance required of the subcontractor has been obtained and filed. A Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. The Certificate shall provide that at least ten (10) Days prior written notice of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. **Qualifying Insurers.** With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies licensed to do business in the State of California and who hold a current policy holders alphabetic and financial

size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required. Commercial General Liability, automobile liability, and workers' compensation insurance shall be maintained as follows:

- | | | |
|----|---|--|
| 1. | Commercial General Liability for
Minor Construction Projects
(Projects under \$1,000,000) | \$2,000,000 each occurrence
\$4,000,000 aggregate
Personal Injury:
\$2,000,000 each occurrence
\$4,000,000 aggregate |
| | Commercial General Liability for
Major Construction Projects
(Projects over \$1,000,000) | \$5,000,000 each occurrence
\$10,000,000 aggregate
Personal Injury:
\$5,000,000 each occurrence
\$10,000,000 aggregate |

The Commercial General Liability policy shall include coverage or endorsements for:

- a. Completed operations.
- b. Losses related to independent contractors, products and equipment.
- c. Explosion, collapse and underground hazards.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

- a. Inclusion of the City of Roseville, and its officers, agents, employees and volunteers, as additional insured (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the Insurance Services Office ("ISO") CG 20 38 04 13 or an equivalent, blanket endorsement or section of the policy. Endorsements must include coverage for on-going and completed operations. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. Cross liability and severability of interest clauses providing that the insurance applies separately to each insured except with respect to the limits of liability.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the CONTRACTOR.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The CONTRACTOR shall furnish a certificate for the period covered.

SPECIAL NOTICE - CLAIMS MADE COVERAGE:

Liability insurance coverage may not be written on a "claims made" basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

2. Comprehensive Automobile Liability for bodily injury (including death) and property damage which provides total limits of not less than One Million Dollars (\$1,000,000) combined single limits per accident, applicable to all owned, non-owned, and hired vehicles.

3. Statutory Workers' Compensation and Employer's Liability Insurance,

including a waiver of subrogation endorsement and a Broad Form "All-States" Endorsement; for all employees engaged in services or operations under the Contract. The employer's liability insurance shall provide limits of not less than One Million Dollars (\$1,000,000) per occurrence. Both the workers' compensation and employer's liability policies shall contain the Insurer's waiver of subrogation in favor of the City, its officers, agents, employees, and volunteers.

4. Builder's Risk/Course of Construction Insurance: The Contractor shall be

responsible for all loss, damage or destruction whatsoever to the Work called for by this Contract until the approval of a Notice of Completion. The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the Work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the Work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a

magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

5-1.19(A) **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Contract Conditions as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in the Contract Conditions may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by CITY in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right..

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this

Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

5-1.20 **THIRD PARTY BENEFICIARY.** Nothing in the Contract is intended to make the public or any member thereof a third party beneficiary hereunder, nor is any term

and condition or other provision of the Contract intended to establish a standard of care owed to the public or any member thereof.

5-1.21 **OCCUPANCY BY THE DEPARTMENT PRIOR TO**

ACCEPTANCE. The Department reserves the right to occupy all or any part of the project prior to completion of the entire Contract, upon written order therefor. In such event, the Contractor will be relieved of responsibility for any injury or damage to such part as results from such occupancy and use by the Department. If the Contractor carries insurance against damage to such Premises or against liability to third persons covering the Premises so used and occupied by the Department, and of such occupancy results in increased premiums for such insurance, the Department will pay to the Contractor the added cost for such insurance during the period of occupancy.

Such occupancy does not constitute Acceptance by the Director either of the complete Work or of any portion thereof, nor will it relieve the Contractor of full responsibility for correcting defective Work or materials found at any time before the formal written Acceptance of the entire Contract by the Director or during the full guarantee period after such Acceptance, as provided in Section 7-1.09, "Guarantee," of these General Conditions.

5-1.22 **RIGHT TO OPERATE UNSATISFACTORY EQUIPMENT.** If, after installation, the operation or use of the facilities or equipment to be furnished under this Contract proves to be unsatisfactory to the Director, the City shall have the right to operate and use such facilities until they can, without damage to the City, be taken out of service for correction or replacement. Such period of use of the defective facilities, pending correction or replacement, shall in no way decrease the guarantee period required for the acceptable corrected or replaced items of materials or equipment.

5-1.23

CONTRACTOR'S RESPONSIBILITY FOR THE WORK. Except as

otherwise provided herein, the Contractor shall have the charge and care of the Work and shall bear the risk of injury or damage to any part of the Work by the action of the elements or from any other cause whether arising from the execution or from the nonexecution of the Work until the Acceptance of the Contract by the Director. The Contractor shall rebuild, repair, restore, and make good all injuries or damages to any portion of the Work occasioned by any cause before its completion and Acceptance, and shall bear the expense thereof. In case of suspension of Work from any cause whatever, the Contractor shall be responsible for the Work and he shall also be responsible for all materials, and shall properly store them if necessary, and shall provide suitable drainage and erect temporary structures where necessary.

The Contractor will be relieved of responsibility for any injury or damage to the Work caused by the following:

A. An earthquake in excess of a magnitude of 3.5 on the Richter Scale or a tidal wave, when the effect of such has been proclaimed a disaster or state of emergency by the Governor of the State of California or by the President of the United States, or was of such magnitude at the site of the Work as to have been sufficient to have caused a proclamation of disaster or state of emergency, had it occurred in a populated area.

B. Occupancy and use by the Department or the public prior to the completion of the entire project.

C. Acts of the Federal Government or the public enemy.

5-1.24

RESPONSIBILITY FOR UTILITIES. The Contractor shall be

responsible at his or her own cost for any and all Work, expense or special precautions caused or required by the existence or proximity of utilities encountered in performing the Work, including

without limitation, repair of any or all damage and all hand or exploratory excavation required. The Contractor is cautioned that such utilities may include communication cables or electrical cables which may be high voltage, and when working or excavating in the vicinity of such cables, or the ducts enclosing such cables, the Contractor shall observe at his or her own cost any special precautions required. Suitable warning signs, barricades, and safety devices shall be erected as necessary or required.

However, if during the course of the Work the Contractor encounters utility installations which are not shown or indicated in the Contract Documents or which are found in a location substantially different from that shown, and such utilities are not reasonably apparent from visual examination, then the Contractor shall promptly notify the Director in writing. Where necessary for the Work of the Contract, the Director shall issue a written order to the Contractor to make such adjustments, rearrangement, repair, removal, alteration, or special handling of such utility, including repair of the damaged utility. The Contractor shall perform the Work described in such written order, and compensation therefor will be made in accordance with Section 3 of these General Conditions relating to changes in the Work. Except for the items of cost specified in said Section 3, the Contractor shall receive no compensation for any other cost, damage delay, interference, or hindrance to him or her due to the presence of such utility. If the Contractor fails to give the notice specified above and thereafter acts without instructions for the Director, then he or she shall be liable for any or subsequent to discovery thereof, and he or she shall repair and make good such damage at his or her own cost.

The precise location of underground facilities can only be determined by careful probing or hand digging in compliance with Article 6 of the OSHA Construction Safety Orders which states in part:

"Prior to opening an excavation, effort shall be made to determine whether underground installations, i.e., sewer, water, fuel, electric lines, etc., will be encountered, and if so, where such underground installations are located. When the excavation approaches the approximate location of such an installation, the exact location shall be determined by careful probing or hand digging, and, when it is uncovered, adequate protection shall be provided for the existing installation."

The location of known existing utilities and pipelines are shown on the Drawings in their approximate locations. Some of the locations include multiple conduits. The Contractor shall exercise care in avoiding damage to those facilities which are to remain in service subsequent to the construction of the particular new facility involved and he or she will be held responsible for their repair if damaged. The Contractor shall also exercise care in maintaining those pipes and facilities required for continuing operation of the existing facilities until such time as they can be abandoned. There is no guarantee that all utilities or obstructions are shown or that the locations indicated are accurate.

The Contractor shall exercise extreme caution in working in the area adjacent to the existing pipelines and utility services. It is essential that all the existing facilities be maintained in service. Construction of the connections between the existing facilities and the new facilities shall be at times and during periods acceptable to the City. The Contractor shall advise the Director in writing of his proposed construction schedule for these connections at least forty-eight (48) hours in advance.

The Contractor shall uncover all piping and conduits, to a point one foot (1') below the pipe, where crossings, interferences, or connections are shown on the Drawings, prior to trenching or excavating for any pipe or structures, to determine actual elevations. New pipelines

shall be laid to such grade as to clear all existing facilities which are to remain in service. If the Contractor does not expose all required utilities, he shall not be entitled to additional compensation for Work necessary to avoid interferences nor for repair to damaged utilities. Excavations around underground electrical ducts and conduits shall be performed using extreme caution to prevent injury or damage to workers and to the electrical ducts or conduits.

5-1.25 **PROPERTY RIGHTS IN MATERIALS.** Nothing in the Contract shall be construed as vesting in the Contractor any right of property in the materials used after they have been attached or affixed to the Work or soil or after partial payment has been made as provided in Section 7-1.05, "Partial Payment," of these General Conditions for material delivered on the ground or stored subject to or under the control of the City and unused. All such material shall become the property of the City upon being so attached or affixed or upon payment for materials delivered on the ground or stored subject to or under the control of the City and unused, as provided in said Section 7-1.05.

5-1.26 **COURT ORDERED DELAY.** If, pursuant to court order, the Department temporarily suspends performance of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions will be granted.

5-1.27 **NO PERSONAL LIABILITY.** Neither the Director, nor any other officer or authorized employee of the City shall be personally responsible for any liability arising under the Contract.

5-1.28 **PATENTS.** The Contractor shall assume all costs arising from the use of patented materials, equipment, devices, or processes used on or incorporated in the Work, and agrees to indemnify and save harmless the City, and its duly authorized representatives, from all

suits at law, or in equity, and actions of every nature for, or on account of the use of any patented materials, equipment, devices or processes.

5-1.29 **PAYMENT OF TAXES.** The Contract price paid for the Work shall include full compensation for all taxes which the Contractor is required to pay, whether imposed by Federal, State or local government, including, without being limited to, Federal excise tax. No tax exemption certificate nor any document designed to exempt the Contractor from payment of any tax will be furnished to the Contractor by the Department, as to any tax on labor, services, materials, transportation, or any other items furnished pursuant to the Contract.

5-1.30 **COOPERATION.** Should construction be under way by City forces or other forces or by other Contractors within or adjacent to the limits of the Work or should Work of any other nature be under way by such forces within or adjacent to said limits, the Contractor shall cooperate with all such forces to the end that any delay, interference or hindrance to their Work will be avoided. The right is reserved to perform other or additional Work at or near the site at any time, by the use of such forces.

5-1.31 **DIGGING TRENCHES OR OTHER EXCAVATIONS.** In the event any work involves digging trenches or other excavations that extend deeper than four feet below the surface City and Contractor shall comply with the following:

A. The Contractor shall promptly, and before the following conditions are disturbed, notify City in writing of any:

1. Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

2. Subsurface or latent physical conditions at the site differing from those made available to Contractor for inspection as provided in the project proposal.

3. Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in Work of the character provided for in the contract.

B. The City shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the Work shall issue a Change Order under the procedures described in the contract.

C. In the event that a dispute arises between the City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the Work, the Contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

5-1.32 **CONTRACTOR REGISTRATION.** No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Contract, the Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

SECTION 6

PROSECUTION AND PROGRESS

6-1.01 **SUBLETTING AND SUBCONTRACTING.** The Contractor shall be responsible for all Work performed under the Contract. All persons engaged in the Work will be considered as employees of the Contractor. The Contractor shall give his or her personal attention to the fulfillment of the Contract and shall keep the Work under his or her control. When any subcontractor fails to prosecute a portion of the Work in a manner satisfactory to the Director, that subcontractor shall not again be employed on the Work. Although the sections of the Contract may be arranged according to various trades, or general grouping of the Work, the Contractor is not obligated to sublet the Work in such manner. The Director will not arbitrate disputes among subcontractors or between Contractor and one or more subcontractors concerning responsibility for performing any part of the Work.

The Contractor shall not substitute any person as subcontractor in place of a subcontractor listed on his bid proposal without the written approval of the Director. Substitutions must be in accordance with the provisions of the "Subletting and Subcontracting Fair Practices Act" beginning with Public Contract Code Section 4100. Violations of this Act by the Contractor may subject him or her to penalties which may include cancellation of Contract, assessment of ten percent (10%) of the subcontractor's bid, and disciplinary action by the State Contractors' License Board.

6-1.02 **ASSIGNMENT.** The performance of this Contract may not be assigned, except upon the written consent of the City Council of the City of Roseville. Consent will not be given to any proposed assignment which would relieve the original Contractor or his surety of

their responsibilities under the Contract nor will the Director consent to any assignment of a part of the Work under the Contract.

The Contractor may assign moneys due or to become due to him or her under the Contract and such assignment will be recognized by the Department, if given proper notice thereof, to the extent permitted by law, but any assignment of moneys shall be subject to all proper set-offs in favor of the Department and to all deductions provided for in the Contract and particularly all money withheld, whether assigned or not, shall be subject to being used by the Department for the completion of the Work in the event that the Contractor should be in default therein.

6-1.03 **BEGINNING OF WORK.** The Contractor shall begin Work within fifteen (15) Days after receiving Notice to Proceed from the Director and shall diligently prosecute the same to completion within the time limit provided in the Supplemental Conditions.

The Contractor shall notify the Director, in writing, of his or her intent to begin Work at least seventy-two (72) hours before Work is begun. The notice shall be delivered to the Director and shall specify the date the Contractor intends to start. If the project has more than one location of Work, a separate notice shall be given for each location.

Should the Contractor begin Work in advance of receiving notice that the Contract has been approved as above provided, any Work performed by him or her in advance of the said date of approval shall be considered as having been done by the Contractor at his or her own risk and as a volunteer unless said Contract is so approved.

6-1.04 **PROGRESS SCHEDULE.**

A. **Preliminary Progress Schedule:** The Contractor shall submit to the Director, within twenty (20) Days after date of the Notice to Proceed, a Preliminary Progress

Schedule covering the Contractor's activities over the first three (3) months of operation in detail and the remainder of the project in summary. The Preliminary Progress Schedule shall schedule the project within the calendar Days set forth above for completion of the Work, and shall be subject to favorable review by the Director.

B. CPM Schedule: The Contractor shall submit an acceptable Critical Path Method (CPM) Schedule to the Director within thirty (30) Days after the receipt of the Notice to Proceed. Subsequent revisions to said schedule shall be submitted as set forth hereinafter. The requirement for the CPM schedule is included to allow for adequate planning and execution of the Work, to determine the critical nature of delays, and to assist the Director in appraising the reasonableness of the proposed schedule and evaluating progress of the Work. The CPM schedule submitted under this Section shall utilize a critical path method (CPM) format, either the precedence or arrow diagramming method. The definitions of CPM terms and functions shall be as provided in the Associated General Contractors of America book "CPM in Construction, A Manual for General Contractors," or a favorably reviewed alternative publication or reference. No progress payment will be made prior to submission and Acceptance of the CPM Schedule.

1. The CPM schedule system shall consist of diagrams and accompanying mathematical analyses. The diagrams shall show elements of the project in detail and an entire project summary. Diagrams shall show the order and interdependence of activities and sequence in which the Work is to be accomplished as planned by the Contractor. The basic concept of a network analysis diagram shall be followed to show how the start of a given activity is dependent on the completion of preceding activities and its completion restricts the start of following activities. Detailed network activities shall include, in addition to construction

activities, the submittal and favorable review of samples of material and shop Drawings, the procurement of critical materials and equipment, fabrication of special material and equipment, and their installation and testing. All activities of the City and the Director that affect progress and required Contract dates for completion of all or parts of the Work shall be shown. The selection and number of activities shall be subject to favorable review by the Director. Summary networks shall be time scaled. Durations shall be in Days and shall not exceed fifteen (15) Days, except for submittal and delivery items. Where the duration of continuous Work exceeds fifteen (15) Days, Work items in the construction schedule shall be subdivided by location, approximate stationing or other sub-element of the Work.

The graphic network diagram shall include for each activity, the description, activity number, the estimated duration in Days, and all activity relationship lines. The network diagram shall be drawn for the early start of activities. All significant submittals shall be scheduled along with manual submittals and training on all large or critical pieces of equipment. If the precedence technique is utilized, the schedule project shall include a calendar in Work Days, a network report sorted by early start and a logic table report sorted by preceding Work item. If the arrow technique is utilized, the schedule report shall include a calendar in Work Days, a network report sorted by early start, a network report sorted by I-J numbers, and a network sorted by slack time and I-J numbers.

2. The critical path shall be shown on all reports and on the graphic network diagram. The activities which constitute the critical path shall be identified.

3. The mathematical analysis of the network diagram shall include a tabulation of each activity. The following information shall be furnished as a minimum for each activity:

- (a) preceding and following event numbers
- (b) activity description and number
- (c) estimated duration of activities
- (d) earliest start date (by calendar date)
- (e) earliest finish date (by calendar date)
- (f) actual start date (by calendar date)
- (g) actual finish date (by calendar date)
- (h) latest start date (by calendar date)
- (i) latest finish date (by calendar date)
- (j) slack or float
- (k) percentage of activity completed

4. The program shall be capable of accepting revised completion dates as modified by approved time adjustments and recomputations of all tabulation dates and float accordingly.

5. Submission and review of the system shall be as follows:

(a) The complete network analysis system, consisting of the detailed network mathematical analysis and network diagrams, shall be submitted within thirty (30) calendar Days after receipt of Notice to Proceed.

(b) The Contractor shall participate in a review and evaluation of the proposed network diagrams and analysis by the Director. Any revisions necessary as a result of this review shall be resubmitted for review by the Director within ten (10) calendar Days. When completed, the favorably reviewed schedule shall then be the schedule to be used by the Contractor for planning, organizing

and directing the Work and for reporting progress. If the Contractor thereafter desires to make significant changes in his or her method of operating and scheduling, he or she shall notify the Director in writing stating the reasons for the change.

(c) The Contractor shall submit at monthly intervals a report of the actual construction progress. Each monthly report shall cover a period of approximately thirty (30) Days ending around the 20th of each month. The monthly reports shall be submitted within ten (10) calendar Days of the end of the reporting period.

(1) If the project is proceeding on schedule, the monthly update report may consist of a marked-up copy of the graphical network diagram. This submittal shall clearly indicate the status of any minor shifts in sequence or schedule and the estimated completion date or percent complete of all activities currently in progress. The Contract completion date shall also be indicated. The Contractor shall submit a narrative report relating to status of construction, the schedule, and factors which may affect the remainder of the schedule. The report shall show the activities or portions of activities completed during the reporting period. The report shall state the percentage of the Work actually completed and scheduled as of the report date and the progress along the critical path in terms of Days ahead or behind the allowable dates.

(2) If, in the opinion of the Director, the project is behind schedule, the monthly report shall include a revised network

diagram and/or mathematical analysis showing the Contractor's proposed revised schedule. An analysis of the effect that the delay has on progress along other paths shall also be included in the report. The Contractor shall also submit a narrative report with each updated analysis which shall include but not be limited to a description of current and anticipated problem areas, delaying factors and their impact, and an explanation of corrective actions taken or proposed.

(3) Periodic report shall be submitted in sufficient copies to cover Contractor needs plus five (5) copies and an available electronic copy to be retained by the Director.

6. To the extent that the favorably reviewed initial Construction Schedule, or revisions thereto, indicate anything not jointly agreed upon, it shall be deemed to be not favorably reviewed by the Director. Any omission of Work from the detailed schedule, otherwise required for Contract compliance, will not excuse the Contractor from completing such Work within any applicable completion date. The CPM schedule shall be generated by computer methods.

C. Schedule Review: Once each month, on a date mutually agreed upon, but no later than seven (7) working Days after the monthly schedule progress report date, a jobsite meeting will be held to review the Construction Schedule and job progress. The Contractor shall also attend weekly meetings scheduled by the Director to review the progress of the Work in the preceding week and in the subsequent week, coordinate the Work with public agencies or other Contractors as required, and allow the Director to plan his activities for testing, inspection, etc.

D. Schedule Revisions: The conditions under which the Director will require revisions of the Construction Schedule include the following:

1. When delay in completion of any Work item or sequence of Work items results in an estimated extension of project completion by either twenty (20) working Days or by ten percent (10%) of the remaining duration of time to complete the Contract, whichever is less.

2. When delays in submittals or deliveries make replanning or rescheduling of the Work necessary.

3. When the schedule does not represent actual prosecution and progress of the Work.

4. When any change to the sequence of activities, the completion date for major portions of the Work, or when changes occur which affect the critical path.

5. When Contract Amendments or a Change Order necessitates schedule revision, the Contractor shall submit a schedule analysis of all Change Order Work with his or her proposal.

E. Cash Flow Projection: A cash flow projection shall be submitted with the Construction Schedule. This cash flow projection shall be revised and resubmitted when revisions of the Construction Schedule will result in changes to the projected cash flow.

F. Schedules showing project completion dates earlier than specified in the Supplemental Conditions will be rejected unless justification can be provided for early completion.

6-1.05 **SCHEDULE OF VALUES.** Prior to preparation of the first estimate for a progress payment, the Contractor shall submit for favorable review by the Director a detailed

Schedule of Values or cost breakdown of the Work under each bid item awarded. The breakdown will then become the basis for partial payment determination. Elements of Work shall be grouped by structure, pipeline, system, etc. Within each grouping, Work should be itemized by readily measurable quantities of Work complete in place. For example, concrete should be in units of cubic yards including form Work and reinforcing steel. Move-on costs, bond and insurance costs, and Overhead costs shall not be considered an item of cost for this purpose but shall be prorated over items of Work. In the event the Schedule of Values is not favorable reviewed by the Director, another Schedule of Values shall be submitted that is mutually acceptable to the Contractor and the Director.

6-1.06 **TEMPORARY SUSPENSION OF WORK.** The Director shall have the authority to suspend the Work wholly or in part, for such period as he or she may deem necessary, due to unsuitable weather, or to such other conditions as are considered unfavorable for the suitable prosecution of the Work, or for such time as he or she may deem necessary due to the failure on the part of the Contractor to carry out orders given, or to perform any provision of the Contract.

The Contractor shall immediately comply with the written order of the Director to suspend the Work wholly or in part. The suspended Work shall be resumed when conditions are favorable and methods are corrected, as ordered or approved in writing by the Director.

If a suspension of Work is ordered by the Director, due to normal inclement weather, or due to the failure on the part of the Contractor to carry out orders given, or to perform any provision of the Contract, the Days on which the suspension order is in effect shall not entitle the Contractor to an extension of time.

If any delay to the current controlling operation or operations is caused the Contractor by specific order of the Director to stop Work due to any reason other than those described in the preceding paragraph, and such suspension of Work is without the fault or negligence of the Contractor, such delay, if it affects construction tasks which are considered to be "controlling" on the construction schedule, will entitle the Contractor to an equivalent extension of time, except as otherwise provided in the paragraphs herein covering "Termination of Contract." Application for extension of time shall be presented in writing to the Director within fifteen (15) Days of start of delay and shall be accompanied by the formal consent of the Sureties, but an extension of time, whether with or without such consent, shall not release the Sureties from their obligation which shall remain in full force until the discharge of the Contract. The decision of the Director with regard to such requests shall be final.

In the event of a suspension of Work under any of the conditions set forth in this Section 6-1.06, such suspension of Work shall not relieve the Contractor of his or her legal responsibilities as set forth in these General Conditions.

6-1.07 **TIME OF COMPLETION.** The Contractor shall complete the entire Work, including installation, repairs, startup, troubleshooting, painting, and touchup, training, submittal or record Drawings, and manuals, cleanup, demolization, and all other Work within the number of calendar Days set forth in the Supplemental Conditions. The time for completion includes an allowance for working time lost due to normal inclement weather.

Extensions of time may be allowed for unusual inclement weather under the provisions hereinafter described. Unusual inclement weather is weather which adversely affects "controlling" operations or the critical path of construction and which meets one of the following criteria:

A. For the particular calendar month in question, the number of individual Days with rainfall exceeding 0.10 inches exceeds the average number of such Days for that month over the immediately preceding five (5) years of record by at least three (3) Days.

B. For the particular calendar month in question, the total cumulative rainfall for that month exceeds the average cumulative rainfall for that month over the immediately preceding five (5) years of record by at least two (2") inches.

Rainfall shall be measured at a publicly operated, maintained, and reported station in reasonable proximity to the construction site. A claim for delay shall indicate the period of rainfall which is claimed as "unusual," the specific dates during which the unusual rainfall and subsequent wet soil conditions prevented Work, and the specific critical path tasks adversely affected by such unusual weather. A claim for delay due to unusual inclement weather shall be filed within ten (10) Days of the apparent end of the unusual inclement rainfall period, whether or not the monthly totals are available at that time. The burden of proof that weather meets the criteria for unusual weather shall be solely the responsibility of the Contractor.

It is the responsibility of the Contractor to order materials required for the Work properly and promptly on Notice to Proceed. If evidence presented demonstrates that, in spite of the Contractor's efforts, government-established priorities controls delay material deliveries, suitable extension of time will be made.

If performance of extra Work ordered by the City or failure of the City to provide the necessary site for installation affects construction tasks which are "controlling" or which are on the "critical path" of the construction schedule, suitable extensions of time will be made.

The Contractor shall not be entitled to a time extension for delays in activities on non-critical paths of the favorably reviewed schedule unless the duration of the excusable delay

exceeds the total float of the activities being delayed. If the duration of an excusable delay does exceed the total float of the activities affected by the delay, the Contractor shall be entitled to an extension equal to the difference.

C. Determination that a day is a non-working day by reason of inclement weather or conditions resulting immediately therefrom, shall be made by the Director or their designee.

6-1.08 **LIQUIDATED DAMAGES.** It is agreed by the parties to the Contract that in case all the Work called for under the Contract in all parts and requirements is not finished or completed within the number of calendar Days as set forth in the Supplemental Conditions, damage will be sustained by the City and that it is and will be impracticable and extremely difficult to ascertain and determine the actual damage which the City will sustain in the event of and by reason of such delay; and it is therefore agreed that the Contractor will pay to the City, the monetary amount indicated in the Supplemental Conditions in dollars (U.S.) per day for each and every calendar day of delay in finishing the Work in excess of the number of Days prescribed; and the Contractor agrees to pay said Liquidated Damages herein provided for, and further agrees that the Department may deduct the amount thereof from any moneys due or that may become due the Contractor under the Contract.

It is further agreed that in case the Work is not finished and completed in all parts and requirements within the number of Days specified, the Director shall have the right to increase the number of Days or not, as he or she may deem best to serve the interest of the City, and if he or she decides to increase the said number of Days, he or she shall further have the right to charge to the Contractor, his or her heirs, assigns or sureties and to deduct from the final payment for the Work all of any part, as he or she may deem proper, of the actual cost of

engineering, inspection, superintendence, and other Overhead expenses which are directly chargeable to the Contract, and which accrue during the period of such extension, except that cost of preparation of final statement shall not be included in such charges.

The Contractor will be granted an extension of time and will not be assessed with Liquidated Damages or the cost of engineering and inspection for any portion of the delay in completion of the Work beyond the time named in the Supplemental Conditions for the completion of the Work caused by acts of God or of the public enemy, fire, floods, tidal waves, earthquakes, epidemics, quarantine restrictions, strikes, labor disputes, shortage of materials, freight embargoes, and unusual inclement weather as described in Section 6-1.07; provided, that the Contractor shall notify the Director in writing of the causes of delay within fifteen (15) Days from the beginning of any such delay. The Director shall ascertain the facts and the extent of the delay, and his or her findings thereon shall be final and conclusive.

No extension of time will be granted for a delay caused by a shortage of materials unless the Contractor furnishes to the Director documentary proof that he or she has diligently made every effort to obtain such materials from all known sources within reasonable reach of the Work and further proof in the form of supplementary progress schedules, as required in Section 6-1.04, "Progress Schedule" of these General Conditions that the inability to obtain such materials when originally planned, did in fact cause a delay in final completion of the operations. Only the physical shortage of material will be considered under these provisions as a cause for extension of time.

If the Contractor is delayed in completion of the Work by reason of changes made under Section 3, "Changes in the Work," of these General Conditions or by any act of the Director or of the Department, not contemplated by the Contract, an extension of time commensurate with the

delay in completion of the Work thus caused will be granted and the Contractor shall be relieved from any claim for Liquidated Damages, or engineering and inspection charges or other penalties for the period covered by such extension of time; provided that the Contractor shall notify the Director in writing of the causes of delay within fifteen (15) Days from the beginning of any such delay. The Director shall ascertain the facts and the extent of the delay.

It is the intention of the above provisions that the Contractor shall not be relieved of liability for Liquidated Damages or engineering and inspection charges for any period of delay in completion of the Work other than that expressly provided for in this Section 6-1.08. Progress payments made after the completion date shall not be construed as a waiver of Liquidated Damages.

6-1.09 **CLAIMS FOR EXTRA COMPENSATION FOR DELAYS.** It is understood and agreed by the City and the Contractor that the Contractor will incur Overhead costs for temporary facilities, superintendence, home office Overhead, and similar cost items, and that the costs of such Overhead for the full Contract period through the specified completion date are included in the Contractor's lump sum bid amounts included in his accepted Proposal. No additional compensation will be made to the Contractor for claims of increased Overhead costs occurring within the originally specified construction Contract period plus any time extensions granted by Change Order.

6-1.10 **TERMINATION.**

6-1.10A **TERMINATION OF CONTRACT – “CONVENIENCE OF CITY.”**

The Department reserves the right to terminate the Contract at any time if the Director determines that to do so would be in the best interest of the City.

Termination of the Contract and the total compensation payable to the Contractor in the event of termination shall be governed by the following:

1. The Director will issue the Contractor a written notice signed by the Director, specifying that the Contract is to be terminated. Upon receipt of said written notice and, except as otherwise directed in writing by the Director, the Contractor shall:

- (a) Stop all Work under the Contract except that specifically directed to be completed prior to Acceptance.
- (b) Perform Work the Director deems necessary to secure the project for termination.
- (c) Remove equipment from the site of the Work.
- (d) Take such action as is necessary to protect materials from damage.
- (e) Notify all subcontractors and suppliers that the Contract is being terminated and that their Contracts or orders are not to be further performed unless otherwise authorized in writing by the Director.
- (f) Provide the Director with an inventory list of all material previously produced, purchased or ordered from suppliers for use in the Work and not yet used in the Work, including its storage location, and such other information as the Director may request.
- (g) Dispose of material not yet used in the Work as directed by the Director. It shall be the Contractor's responsibility to provide the City with good title to all materials purchased by the City hereunder, including material for which partial payment has been made as provided in Section 7-1.05, "Partial Payments,"

of these General Conditions and with bills of sale or other documents of title for such materials.

(h) Subject to the prior written approval of the Director, settle all outstanding liabilities and all claims arising out of subcontracts or orders for material terminated hereunder. To the extent directed by the Director, the Contractor shall assign to the Department all the right, title and interest of the Contractor under subcontracts or orders for materials terminated hereunder.

(i) Furnish the Director with the documentation required to be furnished by the Contractor under the provisions of the Contract including, on projects as to which Federal funds are involved, all documentation required under the Federal requirements included in the Contract.

(j) Take such other actions as the Director may direct.

2. Acceptance of the Contract as hereinafter specified shall not relieve the Contractor of responsibility for damage to materials except as follows:

The Contractor's responsibility for damage to materials for which partial payment has been made as provided in Section 7-1.05, "Partial Payments," of these General Conditions and for materials furnished by the City for use in the Work and unused shall terminate when the Director certifies that such materials have been stored in the manner and at the locations he or she has directed.

The Contractor's responsibility for damage to materials purchased by the City subsequent to the issuance of the notice that the Contract is to

be terminated shall terminate when title and delivery of such materials has been taken by the City.

When the Director determines that the Contractor has completed the Work under the Contract directed to be completed prior to termination and such other Work as may have been ordered to secure the project for termination, he or she will recommend that the Director formally accept the Contract, and immediately upon and after such Acceptance by the Director, the Contractor will not be required to perform any further Work thereon and shall be relieved of his or her Contractual responsibilities for injury to persons or damage to property which occurs after the formal Acceptance of the project by the Director.

3. The total compensation to be paid to the Contractor shall be determined by the Director on the basis of the following:

(a) The reasonable cost to the Contractor, without profit, for all Work performed under the Contract, including mobilization, demobilization and Work done to secure the project for termination. Reasonable cost will include a reasonable allowance for project Overhead and general administrative Overhead not to exceed a total of seven percent (7%) of Direct Costs of such Work.

(b) A reasonable allowance for profit on the cost of the Work performed as determined under Subsection (a), provided the Contractor establishes to the satisfaction of the Director that it is reasonably probable that he or she would have made a profit had the Contract be completed and

provided further, that the profit allowed shall in no event exceed four percent (4%) of said cost.

(c) The reasonable cost to the Contractor of handling material returned to the vendor, delivered to the Department or otherwise disposed of as directed by the Director.

(d) A reasonable allowance for the Contractor's administrative costs in determining the amount payable due to termination of the Contract.

All records of the Contractor and the Contractor's subcontractors, necessary to determine compensation in accordance with this Section shall be open to inspection or audit by representatives of the Department at all times after issuance of the notice that the Contract is to be terminated and for a period of three (3) years, and such records shall be retained for that period.

After Acceptance of the Work by the Director, the Director may make payments on the basis of interim estimates pending issuance of the Final Statement, when in his or her opinion the amount thus paid, together with all amounts previously paid or allowed, will not result in total compensation in excess of that to which the Contractor will be entitled. All payments, including payment upon the Final Statement, shall be subject to deduction for prior payments and amounts, if any, to be kept or retained under the provisions of the Contract.

The provisions of this Section shall be included in all subcontracts.

CONTRACTOR." Failure to supply an adequate working force, or material of proper quality, or in any other respect to prosecute the Work with the diligence and force specified by the Contract, is grounds for termination of the Contractor's control over the Work and for taking over the Work by the City. Contractor shall take such action as is reasonably necessary to protect materials from damage and safely secure the site, as directed by City.

SECTION 7

ACCEPTANCE AND PAYMENT

7-1.01 **ACCEPTANCE.** The Contract will be accepted by Resolution of the City Council of the City of Roseville, and a Notice of Completion will be caused to be recorded by the City Clerk, when the whole shall have been completed in all respects in accordance with the provisions of the Contract Documents to the full satisfaction of the Department.

7-1.02 **SCOPE OF PAYMENT.** The Contractor shall accept the compensation provided in the Contract as full payment for furnishing all labor, materials, tools, equipment, and incidentals necessary to the completed Work and for performing all Work contemplated and embraced under the Contract; also for loss or damage arising from the nature of the Work, or from the action of the elements, or from any unforeseen difficulties which may be encountered during the prosecution of the Work until the Acceptance by the Director and for all risks of every description connected with the prosecution of the Work, also for all expenses incurred in consequence of the suspension or discontinuance of the Work as provided in the Contract; and for completing the Work according to the Contract. Neither the payment of any estimate nor of any retained percentage shall relieve the Contractor of any obligation to make good any defective Work or material.

No compensation will be made in any case for loss of anticipated profits.

7-1.03 **NOTICE OF POTENTIAL CLAIM.** The Contractor shall not be entitled to the payment of any additional compensation for any act or failure to act by the Director, including failure or refusal to issue a Change Order, or for the happening of any event, thing, occurrence or other cause unless he or she shall have given the Director due written Notice

of Potential Claim as hereinafter specified, provided, however, that compliance with this Section 7-1.03 shall not be a prerequisite as to matters within the scope of the protest provisions in Section 3, "Changes in the Work," or Section 6-1.07, "Time of Completion," or the notice provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions.

The written Notice of Potential Claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. The said Notice as above required must have been given to the Director prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Director, or in all other cases within fifteen (15) Days after the happening of the event, thing, occurrence or other cause giving rise to the potential claim.

It is the intention of this Section 7-1.03 that differences between the parties arising under and by virtue of the Contract be brought to the attention of the Director at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that he or she shall have no right to additional compensation for any claim that may be based on any such act, failure to act, event, thing or occurrence for which no written Notice of Potential Claim as herein required was filed.

The claims process specified in this Section 7-1.03 does not supplant the requirement to present a statutory claim as required by the Government Claims Act, Cal. Gov't Code § 905, prior to the filing of an action.

7-1.04 **STOP PAYMENT NOTICES.** The City, by and through the Department or other appropriate office or officers, may at its option and at any time retain out of any amounts

due the Contractor, sums sufficient to cover claims, filed pursuant to Civil Code Section 9350 et seq..

7-1.05 **PARTIAL PAYMENTS.** The Contractor, once in each month shall prepare a request for partial payments, for approval by the Director. The estimate shall include the total amount of Work done and acceptable materials, provided such acceptable materials meet the conditions set forth in Section 7-1.06.

The Department shall retain five percent (5%) of such estimated value of the Work done and five percent (5%) of the value of materials so estimated to have been furnished, delivered and unused or furnished and stored as described in Section 7-1.06, as partial security for the fulfillment of the Contract by the Contractor.

The Department shall pay monthly to the Contractor, while carrying on the Work, the balance not retained, as aforesaid, after deducting therefrom all previous payments and all sums to be kept or retained under the provisions of the Contract. No such estimate or payment shall be required to be made when, in the judgment of the Director, the Work is not proceeding in accordance with the provisions of the Contract, or when in his or her judgment the total value of the Work done since the last estimate amounts to less than Three Hundred (\$300) Dollars.

No such estimate or payment shall be construed to be an Acceptance of any defective Work or improper materials.

Attention is directed to the express prohibition against payment to unlicensed Contractors, the provisions of which are set forth in Section 1-1.02, "Competency of Bidders," of the Instruction to Bidders.

7-1.06 **PAYMENT FOR MATERIALS AND EQUIPMENT ON HAND.**
Partial payments may be made to the extent of seventy-five percent (75%) of the delivered cost

of materials and equipment to be incorporated in the Work, provided that such materials meet the requirements of the Contract Documents and are delivered to acceptable sites on the plant site or at other sites in the vicinity that are acceptable to the City. Such delivered costs of stored or stockpiled materials may be included in the next partial payment after the following conditions are met:

A. Equipment and materials will only be eligible if given conditional or final Acceptance by the Director and are in apparent compliance with favorably reviewed shop Drawings.

B. Only equipment or materials which have received favorable review of shop Drawings will qualify.

C. The material or equipment has been stored or stockpiled adequately protected against damage in a manner acceptable to the Director at an approved site.

D. The Contractor has furnished the Director with acceptable evidence of the quantity and the quality of such stored or stockpiled materials or equipment with identification of where they will be incorporated in project with Specification reference.

E. The Contractor has furnished the Director with satisfactory evidence that the material and transportation costs have been paid.

F. The Contractor has furnished the City legal title (free of liens or encumbrances of any kind) and lien releases to the material or equipment so stored or stockpiled.

G. The Contractor has furnished the City evidence that the material or equipment so stored or stockpiled is insured against loss by damage to or disappearance of such materials at any time prior to use in the Work.

It is understood and agreed that the transfer of title and the City payment for such stored or stockpiled materials shall in no way relieve the Contractor of his or her responsibility for furnishing and placing such materials in accordance with the requirements of the Contract Documents.

In no case will the amount of partial payments for materials on hand exceed the Contract price for such materials or the Contract price for the Contract item in which the material is intended to be used.

No partial payment will be made for stored or stockpiled living or perishable plant materials.

The Contractor shall bear all costs associated with the partial payment of stored or stockpiled materials or equipment in accordance with the provisions of this Section.

7-1.07 **PAYMENT OF WITHHELD FUNDS.** Except as otherwise prohibited by law, the Contractor may elect to receive all payments due under the Contract pursuant to 7-1.05 of General Conditions without any retention. If the Contractor so elects, he or she and a City approved escrow company shall execute a City form retention agreement in a form approved by the City Attorney and meeting all requirements imposed by the City Attorney (copies of which are available in the Office of the City Attorney) by which the Contractor shall deposit with the escrow company securities with a value equivalent to the retention which would otherwise be withheld by the City. Said security and agreement shall be as provided in California Public Contracts Code Section 22300, and shall be approved by the City both as to sufficiency and form.

7-1.08 **FINAL PAYMENT AND CLAIMS.** Final payment will be made within fifteen (15) working Days following the expiration of the thirty-five (35) calendar day lien

period. The start of this period is the date the County Recorder files the Notice of Completion. Notwithstanding the foregoing, the retention monies described in section 7-1.05, exclusive of stop payment notice withholds, shall be released in accordance with law.

7-1.09 **CLERICAL ERRORS.** Notwithstanding the provisions of Section 7-1.08, "Final Payment and Claims," of these General Conditions, for a period of three (3) years after Acceptance of the Work, all estimates and payments made pursuant to said Section 7-1.08, are subject to correction for clerical errors in the calculations involved in the determination of quantities and payments. The Contractor and the City agree to pay to the other any sum due under the provisions of this Section 7-1.09, provided, however, if the total sum to be paid is less than \$100, no such payment shall be made.

7-1.10 **GUARANTEE.** The Contractor hereby unconditionally guarantees that the Work will be done in accordance with the requirements of the Contract, and further guarantees the Work of the Contract to be and remain free of defects in workmanship and materials for a period of one (1) year from the date of Acceptance of the Contract, unless a longer guarantee period is required by the Supplemental Conditions.

The Contractor hereby agrees to repair or replace any and all Work, together with any other adjacent Work which may be displaced in so doing, that may prove to be not in accordance with the requirements of the Contract or that may be defective in its workmanship or material within the guarantee period specified, without any expense whatsoever to the City, ordinary wear and tear and unusual abuse or neglect excepted.

The Contractor further agrees, that within ten (10) calendar Days after being notified in writing by the Department of any Work not in accordance with the requirements of the Contract or of any defects in the Work, the Contractor will commence and prosecute with due diligence

all Work necessary to fulfill the terms of this guarantee, and to complete such Work within a reasonable period of time. In the event Contractor fails to comply, he or she does hereby authorize the Department to proceed to have such Work done at the Contractor's expense and the Contractor will honor and pay the cost and charges therefore upon demand. The Department shall be entitled to all costs and expenses, including reasonable attorney's fees, necessarily incurred upon the Contractor's refusal to honor and pay the above costs and charges.

Nothing in this section shall be construed to limit, relieve or release the Contractor's, subcontractor's and equipment supplier's liability to the City for damages sustained as the result of latent defects in the equipment furnished caused by the negligence of the supplier's agents, employees or subcontractors. Stated in another manner, the warranty contained in this section shall not amount to nor shall it be deemed to be a waiver by the City of any rights or remedies (or time limits in which to enforce such rights or remedies) it may have against the supplier of the equipment to be furnished under the Contract Conditions for defective workmanship or defective materials or against the Contractor under the laws of this State pertaining to acts of negligence.

7-1.11 **WARRANTY OF TITLE.** No material, supplies, or equipment for the Work under this Contract shall be purchased subject to any chattel mortgage, security agreement, or under a conditional sale or other agreement by which an interest therein or any part thereof is retained by the seller or supplier. The Contractor warrants good title to all material, supplies, and equipment installed or incorporated in the Work and agrees upon completion of all Work to deliver the Premises, together with all improvements and appurtenances constructed or placed thereon by him or her, to the City free from any claim, liens, security interest, or charges, and further agrees that neither the Contractor nor any person, firm, or corporation furnishing any

materials or labor for any Work covered by this Contract shall have any right to a lien upon the Premises or any improvement or appurtenances thereon. Provided, that this shall not preclude the Contractor from installing metering devices and other equipment of utility companies, the title of which is commonly retained by the utility company. In the event of the installation of any such metering device or equipment, the Contractor shall advise the City as to the legal owner thereof. Nothing contained in this Paragraph, however, shall defeat or impair the right of such persons furnishing materials or labor under any bond given by the Contractor for their protection or any rights under any law permitting such persons to look to funds due the Contractor in the hands of the City. The provisions of this Paragraph shall be inserted in all subcontracts and material Contracts, and notice of its provisions shall be given to all persons furnishing materials for the Work when no formal Contract is entered into for such materials.

[END OF GENERAL CONDITIONS]

SUPPLEMENTAL CONDITIONS

Project: SUNRISE AVENUE PIPE REPAIR PROJECT

Scope of Supplemental Conditions

1. The Work shall be performed in accordance with the General Conditions and Department Standards, except as the General Conditions may be modified by the following additional City Standards, incorporated herein by this reference, if so indicated.

	COMMUNITY DESIGN GUIDELINES 311 Vernon Street, Roseville, CA 95678 or http://www.roseville.ca.us/gov/development_services/planning/general_plan_n_development_guidelines.asp
	ELECTRIC SPECIFICATIONS 2090 Hilltop Circle, Roseville, CA 95747
	PARKS CONSTRUCTION STANDARDS 311 Vernon Street, Roseville, CA 95678 or http://www.roseville.ca.us/parks/parks_n_facilities/planning_our_parks/default.asp
X	DESIGN AND CONSTRUCTION STANDARDS 311 Vernon Street, Roseville, CA 95678 or http://www.roseville.ca.us/gov/development_services/engineering_land_development/design_construction_standards.asp
X	OTHER: CALTRANS STANDARD SPECIFICATIONS

Above documents are available at: referenced above.

2. Numbering in these Supplemental Conditions conforms to that in the General Conditions. The existence of a section in these Supplemental Conditions means that the corresponding section in the General Conditions is modified in some respect. Unless otherwise specified, the modified General Condition is deleted entirely and the provisions of these Supplemental Conditions are substituted.

SECTION 1. DEFINITIONS AND TERMS

1-1.16 Department: Section 1-1.16 of the General Conditions is amended to include the following:

The Department for Contract Administration is the
Environmental Utilities Department of the City of Roseville.

1-1.26 Engineer or Architect: Section 1-1.26 of the General Conditions is amended to the following:

Engineer. The Environmental Utilities Director or the duly authorized
Representative.

SECTION 2. CONTROL AND SCOPE OF WORK

2-1.04 Submittals: Section 2-1.04 of the General Conditions is amended to include the following:

The time allowed for review of each submittal is 14 Days after receipt of the submittal by the Director.

2-1.09 Night Work and Normal Working Hours: Section 2-1.09 of the General Conditions is amended to the following:

Normal working hours at the construction site shall be at night between the hours of 8:00 p.m. and 5:00 a.m. Monday through Friday. Legal holidays are excluded. Certain utility connections and street operations are anticipated to require night Work or weekend work by the Contractor during low usage periods. The Contractor may also be required to prosecute the Work at night or weekends if, at any time, the Director shall deem it necessary for the progress of the Work, or if emergencies arise. Certain activities are required to be performed at night or weekends for nominal progress of the Work. The Contractor shall provide sufficient and satisfactory lighting and other facilities therefor. The Contractor shall receive no extra payment for night or weekend Work, but compensation shall be considered as having been included in the price stipulated for the Work.

SECTION 3. CHANGES IN THE WORK

3-1.01 Changes: Section 3-1.01 of the General Conditions is deleted in its entirety and replaced with the following:

The Department reserves the right to order changes in the Contract at any time prior to the Acceptance of the Work by the Director, and the Contractor shall comply with such order. Department also reserves the right to use its own forces or to contract with others to accomplish changes in the Work at its discretion. Changes or deviations from the Contract shall not be made without authority in writing from the Director, and any changes to the Work without Director's written approval will be considered unauthorized Work and will not be paid for.

The Department reserves the right to make such alterations, deviations, additions to or deletions from the plans and specifications, including the right to increase or decrease the quantity of any item or portion of the work or to delete any item or portion of the work, as may be deemed by the Engineer to be necessary or advisable and to require such extra work as may be determined by the Engineer to be required for the proper completion or construction of the whole work contemplated.

Those changes will be set forth in a contract change order which will specify, in addition to the work to be done in connection with the change made, adjustment of contract time, if any, and the basis of compensation for that work. A contract change order will not become effective until approved by the Engineer.

Upon receipt of an approved contract change order, the Contractor shall proceed with the ordered work. If ordered in writing by the Engineer, the Contractor shall proceed with the work so ordered prior to actual receipt of an approved contract change order. In those cases, the

Engineer will, as soon as practicable, issue an approved contract change order for the ordered work.

When ordered by the Director, the Contractor shall halt Work in the area affected by a proposed change. Whenever it appears to the Contractor that a change is necessary, the Contractor shall immediately notify the Director of the reasons for such change; however, Work in the area affected shall not be discontinued unless ordered by the Director.

For any approved change in the Work, the Contractor shall be entitled to an adjustment in time equal to the number of Days which completion of the entire Work is delayed due to the changed Work. The Contractor's cost estimate for the changed Work shall state the amount of extra time, if any, that he or she considers should be allowed for making the requested change. Failure to request additional time when submitting such estimate shall constitute a waiver of the right to later claim any adjustment in time based upon changed Work. Disagreement as to time adjustments shall not affect Contract price adjustments, nor shall it be cause for not preceding with the changed work when ordered by the Director. The Contractor shall have the right, however, to further pursue a time adjustment in the event an agreement is not reached. The Contractor shall not be entitled to a time extension or adjustment for any Change Order or delays in activities not on the critical path unless the delay or change exceeds the total float of the activities being delayed or changed.

Changes in unit quantities consistent with the Measurement and Payment Section will not be considered a change in the work or Change Order.

SECTION 4. CONTROL OF MATERIALS

There are no amendments to the General Conditions.

SECTION 5. LEGAL RELATIONS AND RESPONSIBILITY

5-1.11 Air Pollution Control and Asbestos. Section 5-1.11 of the

General Conditions is amended to include the following:

To the best of the City's knowledge, asbestos IS NOT present and shall be mitigated as described in the Specifications.

SECTION 6. PROSECUTION AND PROGRESS

6-1.04 Progress Schedule: Section 6-1.04F of the General Conditions is amended to include the following:

Progress schedules showing project completion dates more than 30 Days earlier than specified in Section 6-1.07 shall be rejected.

6-1.07 Time of Completion: Section 6-1.07 of the General Conditions is amended to include the following:

The Contractor shall begin Work within 14 Days after receiving a notice to proceed and shall diligently prosecute the Work to completion. The Work shall be completed within 60 Days of the notice to proceed.

6-1.08 Liquidated Damages: Section 6-1.08 of the General Conditions is amended to include the following:

The amount of Liquidated Damages is the sum of \$ 1,000 per day.

SECTION 7: ACCEPTANCE AND PAYMENT

There are no amendments to the General Conditions.

TEXT OF AB 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of \$375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1.

Section 9204 is added to the Public Contract Code, to read:

9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) "Public entity" shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) "Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) "Subcontractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity's written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot

agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SECTION 2.

The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SECTION 3.

If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

SECTION 01010

SUMMARY OF WORK AND CONTRACT CONSIDERATIONS

1.01 WORK COVERED BY CONTRACT DOCUMENTS

- A. In general, and without limiting the Contractor's obligation to perform all work called for by the Contract Documents, the project includes:
- a. Night work between 8:00pm and 5:00am.
 - b. Removal of an existing 24" AWWA C-303 steel pipe and installing approximately 155 linear feet of 16-inch ductile iron water main by open cut.
 - c. Reinstalling an existing air release service connection.
 - d. Remove and reinstall traffic signal loops.
 - e. Reconstruct approximately 2,500 square feet of asphalt pavement.

Work to include fabrication, testing, delivery, placement, backfill, cleaning, pressure testing, and disinfection of pipeline. Appurtenances to include blowoff assembly, gate valves and other miscellaneous fittings. Work to include restoration of sidewalks, curbs and gutters, landscape areas, Hot Mix Asphalt placement and resurfacing for work in existing roadways.

- B. The Contractor shall install all the new work as indicated on the Drawings and the Contract Documents.
- C. Contractor's Layout: The Contractor shall provide, at their own expense, all material, equipment, labor, surveys and all other instruments as is required in laying out the work and for proper installation and completion of the work.
- D. Work for the project is to be performed in the City of Roseville.
- E. The Contract Documents shall constitute the Sunrise Avenue Pipe Repair Project plans, the Technical Specifications, the General Conditions, the Supplemental Conditions, and all referenced documents including but not limited to the following:
- a. City of Roseville Design and Construction Standards and Amendments
 - b. State of California Department of Transportation (CALTRANS) Standard Specifications and Amendments to the Standard Specifications.

1.02 PROVISIONS FOR FUTURE WORK

- A. The Contractor and their subcontractor(s) shall provide any and all information required by the City for any future work which involves connecting to the new water mains and water service pipelines installed.

SECTION 01010

SUMMARY OF WORK AND CONTRACT CONSIDERATIONS

1.01 WORK COVERED BY CONTRACT DOCUMENTS

- A. In general, and without limiting the Contractor's obligation to perform all work called for by the Contract Documents, the project includes:
- a. Night work between 8:00pm and 5:00am.
 - b. Removal of an existing 24" AWWA C-303 steel pipe and installing approximately 155 linear feet of 16-inch ductile iron water main by open cut.
 - c. Reinstalling an existing air release service connection.
 - d. Remove and reinstall traffic signal loops.
 - e. Reconstruct approximately 2,500 square feet of asphalt pavement.

Work to include fabrication, testing, delivery, placement, backfill, cleaning, pressure testing, and disinfection of pipeline. Appurtenances to include blowoff assembly, gate valves and other miscellaneous fittings. Work to include restoration of sidewalks, curbs and gutters, landscape areas, Hot Mix Asphalt placement and resurfacing for work in existing roadways.

- B. The Contractor shall install all the new work as indicated on the Drawings and the Contract Documents.
- C. Contractor's Layout: The Contractor shall provide, at their own expense, all material, equipment, labor, surveys and all other instruments as is required in laying out the work and for proper installation and completion of the work.
- D. Work for the project is to be performed in the City of Roseville.
- E. The Contract Documents shall constitute the Sunrise Avenue Pipe Repair Project plans, the Technical Specifications, the General Conditions, the Supplemental Conditions, and all referenced documents including but not limited to the following:
- a. City of Roseville Design and Construction Standards and Amendments
 - b. State of California Department of Transportation (CALTRANS) Standard Specifications and Amendments to the Standard Specifications.

1.02 PROVISIONS FOR FUTURE WORK

- A. The Contractor and their subcontractor(s) shall provide any and all information required by the City for any future work which involves connecting to the new water mains and water service pipelines installed.

1.03 WORK SEQUENCE

A. Any adjustment or alteration to the sequence provided here shall be communicated to the Engineer in writing (for Engineer approval), prior to Contractor commencing with the work. The work described is not intended to limit or alter the Contractor's obligation to perform all the work called for by the Contract Documents:

a. Work Sequence

- i. Install traffic control devices.
- ii. Pothole to determine the actual location and elevation of all utilities (including locations that are not shown on the drawings). Refer to Section 02202 (sub-section 3.02) for complete requirements.
- iii. Locate and uncover all existing utilities including services and laterals to a point 1 foot below the utility.
- iv. Contractor shall submit a report of potholing activity (prior to commencing trenching) identifying each underground utility and its depth and station to the Engineer.
- v. Temporary Water Service Pipeline Network Installation (if required).
- vi. Remove traffic signal loops.
- vii. Decommission 24 inch water Line and air release service (Coordinate with City Staff)
- viii. Dewater, excavate, and remove the 24 inch water Line and air release service.
- ix. Install 16 inch pipe and accessories.
- x. Pressure test and disinfect new pipelines.
- xi. Connect the new 16 inch water main to the existing system.
- xii. Complete concrete work.
- xiii. Prepare street surface for signal loops and hot mix asphalt.
- xiv. Place temporary street striping and markings.
- xv. Place permanent pavement delineation.

1.04 CONTRACTOR'S USE OF SITE AND OWNERS CONTINUED OPERATIONS

A. The Contractor shall confine use of the site for work and storage to the limits shown on the contract drawings (where applicable) or to limits negotiated by the Contractor with property owners (where necessary) and approved by the City. The Contractor's use of adjacent lands and roads for access to move onto and off of the site and for daily access of workers, material and equipment shall be arranged and scheduled to minimize interference with the City's continued operations and the routine activity of Business Owners and Residents.

B. The Contractor shall be responsible for maintaining safe emergency exiting for the Owner's and Contractor's personnel in all areas affected by the Contractor's work.

1.05 SHUTDOWN OF EXISTING UTILITIES, SERVICES OR OPERATIONS

A. Obtain the Engineer's approval a minimum of 7 days prior to the shutdown of any utility, service or operation of any existing facility. Give required notice and make appropriate arrangements with utility owners and other affected parties prior to shutdown of any utility service. **Base bids on work performed at night between 8:00pm and 5:00am.**

- B. Schedule utility service or operations shutdowns for periods of minimum use and at the City's convenience. Have all required material, equipment and workers on site prior to beginning any work involving a possible shutdown. Perform work as required to reduce shutdown time to the minimum.
- C. Customer Notifications – Always notify customer of work in their area (with door flyers) a minimum of 5 days before work. Flyer shall include:
 - i. Date for work xx to xx
 - ii. Type of work
 - iii. Any accommodations made
 - iv. Contractor phone number

1.06 SCHEDULE OF VALUES

- A. Specific provisions are described in Section 6 of the General Conditions.
- B. Contractor's Schedule of Values shall have at a minimum the following level of detail: a separate line item for each technical specification section, for site mobilization, for construction scheduling, for bonds and insurance, for final cleanup and for final deliverables. Subdivide final deliverables into: Record Drawings; Operation and Maintenance Manuals with Parts Lists; and Special Guarantees. Include the appropriate specification section and paragraph number for each line item. Subdivide major trades or portions of the work into multiple line items that relate to observable milestones or work sequences.

1.07 CONTRACT MODIFICATIONS

- A. Methods of modifying the Contract Documents are covered in the General Conditions and in Section 3 of the Supplemental Conditions.
- B. The following documents may be used by the Engineer:
 - 1. Request for Quotation: Issued by the Engineer, a Request for Quotation is used to describe a proposed change and request a cost quotation from the Contractor but does not authorize a change in the Work or in the Contract Time or Price.
 - 2. Clarifications: Issued by the Engineer, a Clarification is used to order or document minor changes in the work consistent with the intent of the Contract Documents and NOT involving a change in price or time. Information issued on a Clarification shall NOT authorize a change in Contract Price or Contract Time and shall not be considered a Constructive Change Order. If the Contractor considers that a Clarification would cause a change in Contract Price or Time, the Contractor shall notify the Engineer in writing per the requirements outlined in the General Conditions.
 - 3. The Contractor agrees that they shall not consider any order, instruction, clarification, suggestion or any other communication either written or oral, given

intentionally or unintentionally by the Engineer, the City or any other person as authorization or direction to do any work that would cause a change in Contract Time or Price unless it is a formal Change Order signed by the Engineer.

1.08 REGULATORY REQUIREMENTS

- A. Refer to General Conditions Section 5.
- B. General Conditions Section 5 covers the Contractor's responsibility to comply with laws and codes applicable to Means and Methods for performing the Work.
- C. General Conditions cover the Contractor's responsibility to report code deficiencies in the design to the Engineer prior to proceeding with the Work.
- D. In cases where the Contract Documents are more restrictive than applicable codes, the Contractor shall comply with the Contract Documents.

1.09 REFERENCE STANDARDS

- A. When these specifications state that Work or tests shall conform to specific provisions in a referenced standard, specification, code, recommendation or manual published by an association, organization, society or agency the referenced provisions shall be considered a part of these specifications as fully as if included in total. When these specifications or applicable codes contain higher or more restrictive requirements than those contained in reference standards these specifications or applicable codes shall govern.
- B. The latest edition of a referenced standard published at the time of submission of bids shall apply unless a specific date for the referenced standard is cited in these specifications.
- C. Provisions in referenced standards, specifications, manuals or codes shall not change the duties and responsibilities between any of the parties involved in this work from those described in the General Conditions. Provisions in referenced standards with regard to measurement and payment shall not apply to this Work unless specifically cited.

1.10 SPECIFICATION LANGUAGE AND STYLE

- A. Many parts of the Specifications as well as notes on the Drawings are written in the active voice and are addressed to the Contractor.
 - 1. When words or phrases requiring an action or performance of a task are used, it means that the Contractor shall provide the action or perform the task. For example: provide, perform, install, furnish, erect, connect, test, operate, adjust or similar words mean that the Contractor shall perform the action or task referred to.
 - 2. When words or phrases requiring selection, acceptance, approval, review, direction, designation or similar actions are referred to, it means that such actions are the City's or the Engineer's prerogative and that the Contractor must obtain such action before proceeding.

- B. Requirements in the Specifications and Drawings apply to all work of a similar type, kind or class even though the word "all" or "typical" may not be stated.

1.11 DEFINITIONS

- A. The following terms, when used in the Contract Documents, shall have the meanings listed:

ACCEPTABLE	"acceptable to the Engineer"
PERFORM	"perform all operations required to complete the work referred to in accordance with the intent of the Contract Documents"
PROVIDE	"furnish and install the work referred to including proper anchorage, connection to required utilities or other work, testing, adjustment and startup ready to put in service and perform the intended function"
REQUIRED	"required by the Contract Documents or required to complete the Work and produce the intended results"
SATISFACTORY	"acceptable to the Engineer"
SHOWN	"as indicated on the Drawings"
SITE	"geographical location of the Project and land within the work area shown on the contract drawings and within which the Work will be installed or built"
SPECIFIED	"as written in the Contract Documents including the Specifications and the Drawings"
SUBMIT	"submit to the Engineer"

Where reference is made to a Specification or Standard by one of the above-mentioned or other associations, it is understood that the Specification or Standard in effect at the time of the bid opening shall apply.

1.13 WORK SITE

- A. The Contractor shall confine operations within the limits of existing street rights-of-way or easements.
- B. In the event the Contractor finds it necessary to encroach onto adjoining private property, the contractor shall make all necessary arrangements with the owner of the property for such encroachment. A copy of any written agreements entered into between Contractor and the property owner concerning encroachment onto private property shall be submitted to the Engineer prior to beginning any work on the property described in the agreement. Submission of any such agreement to the Engineer shall in no way imply that the Engineer is part of the agreement or approves of the agreement but is only submitted for purposes of record keeping.

END OF SECTION

SECTION 01025

MEASUREMENT AND PAYMENT

PART 1 - GENERAL

1.01 GENERAL

- A. All estimated quantities stipulated in the Bid Form or other Contract Documents are approximate and are to be used only (a) as a basis for estimating the probable cost of the Work and (b) for the purpose of comparing the bids submitted for the Work. The actual amounts of work completed and materials furnished under unit price items may differ from the estimated quantities. The basis of payment for work and materials will be the actual amount of work completed and materials furnished. Contractor agrees to make no claim for damages, anticipated profits, or otherwise on account of any difference between the amounts of work actually completed and materials actually furnished and the estimated amounts therefore as long as the difference is within 25% (+ or -) of the stated quantities on the Bid Form.
- B. Contractor shall take all measurements, if any, and compute all payment quantities (including, for lump sum items, all extensions and arithmetic calculations based on the accepted cost breakdown). The City will verify and approve measurements and quantities.
- C. Additional Payment requirements are contained in Section 7, Acceptance and Payment, of the General Conditions.

1.02 UNITS OF MEASUREMENT

- A. Measurements shall be in accordance with United States Standard Measures.

1.03 UNIT PRICED ITEMS

- A. Materials and items of work which are to be paid for on the basis of measurement will be measured in accordance with the method stipulated in the particular sections involved. In determining quantities, all measurements shall be made in a horizontal plane unless otherwise specified. Measurement of the completed work shall be in accordance with, and by instruments and devices calibrated to United States Standard Measures, and the units of measurement for payment, and the limit thereof, shall be made as shown on the Plans, Specifications, General Conditions, and Supplementary Conditions and the Referenced City of Roseville Standards and Specifications.

1.04 LUMP SUM ITEMS

- A. The quantities of work performed under lump sum bid items will not be measured except to evaluate percent complete for each lump sum bid item as determined by the City to be necessary for the purpose of determining reasonable progress payments. Such measurement, as is determined to be

necessary, shall be performed by the Contractor and verified by the City, in accordance with Paragraph 1.03 of this Section, UNIT PRICED ITEMS.

PART 2 – DESCRIPTION OF BID ITEMS

2.01 GENERAL

- A. The Bid Amounts for each Bid Item will be used for comparative bid analysis. The Bid Amounts will also form the basis of progress payments. Each Lump Sum Bid Amount will undergo further breakdown as described later in this section. Bid Items are not intended to be exclusive descriptions of work categories and the Contractor shall determine and include in its pricing all materials, labor, and equipment necessary to complete each Bid Item (work phase) as shown and specified.

2.02 BID ITEMS

1. Mobilization, Demobilization, Bonds & Insurance – (Lump Sum) Shall include but not be limited to, CONTRACTOR'S participation in the assessment of preconstruction conditions and post construction damage assessment of the entire job site including project work described in the bid schedule to include preconstruction photographs; project signs; move in of equipment, tools, supplies, materials, and manpower to the job site; providing and furnishing Contractor's field office, power (including lighting for night work), telephone, water and sanitary facilities; erecting, maintaining, removing and transporting of the construction project information signs, flow barriers and fencing around storage and staging areas; dust control; daily clean up of job site; record drawings and As Built Plans (submitted as a Final Deliverable to the City – refer to Section 01700 for complete requirements) move out; repairs and restoration (to their pre-project forms and/or state) of all structures, equipment, buildings and all other items in the jobsite that are damaged or altered as a result of the installation of all the work described in the Contract Documents, and final cleanup of job site after the project is completed and accepted by the City. The lump sum amount bid shall be divided 65 percent for mobilization and 35 percent for demobilization, and shall be paid after the City has conducted inspections and approved all repairs and clean up and upon City's review and acceptance of the Record Drawings and As-Built Plans which shall be updated to show all the work conducted as part of this Contract and submitted per the requirements and format specified in Section 01700.
2. Traffic Control and Public Safety – (Lump Sum) Including, but not limited to, traffic and pedestrian safety within the project limits for all project work identified in Contract Drawings including, traffic control plans (submitted to Public Works for review and approval); installation, maintenance and removal of temporary traffic control facilities including, but not limited to: cones, K-rails, fencing, barricades, trench plating, temporary backfilling and paving, striping, signals, signs, flagmen, high level warning devices, flashing arrow signs and other temporary traffic control and public safety complete in place, as is required for the execution and completion of this Work for the entire

project as shown in the Contract Documents for installation of all pipe and facilities replacement and restoration. The lump sum amount will be paid proportionally to the work done within each payment cycle.

3. Site Preparation and Clearing & Grubbing – (Lump Sum) Including, but not limited to installation of appropriate Environmental Protection measures as specified in Section 01140, removal of debris, signs, shrubbery, fencing, concrete, striping and pavement vegetation, asphalt, loop detectors, unsuitable materials from construction operations, pavement markers; and the preservation and/or resetting of all survey monuments, and the protection of trees and shrubbery and other facilities not designated for removal or relocation; silt control; and the disposal of all debris, concrete and other materials not designated for resetting, replacement, restoration or protection, complete as specified in Contract Documents. Clearing and grubbing shall conform to the provisions of the Site Preparation Specification. Contractor will be paid on a percentage of work completed, and then multiplied by the lump sum bid.
4. Potholing – (Lump sum) Including, but not limited to, furnishing all the equipment, labor, and materials for determining the actual location and elevation of all utilities including where crossings, interferences, or connections to the new pipelines are shown on the Drawings, and/or have been marked by the utility companies or indicated by surface signs. All areas where Contractor plans to trench for new pipe installation and all other new improvements, must be potholed prior to trenching. Prior to the preparation of piping shop drawings, or the excavating for any new pipelines or structures, the Contractor shall locate and uncover these existing utilities including services and laterals to a point 1 foot below the utility. Submit a report (prior to commencing trenching for new pipe line installation and all other new improvements) identifying each underground utility and its depth and station to the Engineer. The lump sum amount will be paid upon receipt, review, and approval of the report. Amounts will be paid proportionally to the work done along each street, within each payment cycle.
5. 24-inch Existing Pipe Joint Removal (Each) Including, but not limited to, furnishing all the equipment, labor, and materials to remove two joint sections of the existing 24-inch C-303 Steel pipe without damage and loaded onto a City of Roseville flatbed truck. The full amount of the unit payment will be made for each joint removal.
6. 16-inch Ductile Iron Pipeline (Fully Restrained) Installation - (Unit Price per Linear Foot) Removal and installation of approximately 155 feet of fully restrained 16-inch ductile iron pipe (per City Standards). The work includes, but is not limited to excavation, trench shoring, temporary trench plating, temporary paving, protection of all existing facilities, support of utilities, dewatering, backfilling, inclusive of all construction conforming to applicable safety orders, including any necessary subsurface investigations, labor, tools, equipment, power, and fuel for doing all required work. Removal and disposal of excess trench excavation and initial backfill, furnishing and installing of pipe, fittings and restrained joints complete in place required to provide a fully operable system, monitoring for movement of trench walls, , testing complete

in place, all temporary safety fencing, surface restoration cleanup. Contractor will be paid on the measured length of pipeline completely installed and operable.

7. 16-inch Ductile Iron Mechanical Joint Sleeve (Fully Restrained) Installation - (Unit Price for each) Installation of fully restrained 16-inch ductile iron mechanical joint sleeve (per City Standards), protection of all existing facilities, support of utilities, trenching/excavation (shoring and bracing if required) and backfilling, inclusive of all construction conforming to applicable safety orders, including any necessary subsurface investigations, labor, tools, equipment, power, and fuel for doing all required work. Removal and disposal of excess trench excavation and initial backfill, monitoring for movement of trench walls, pipe field closures, all temporary safety fencing, surface restoration cleanup, including pavement as required per the Contract documents. Contractor will be paid per each location completely installed and operable.
8. 16-inch Butterfly Valve (Lump Sum) Including, but not limited to, furnishing all the equipment, labor, and materials to install a 16-inch butterfly valve per City Standards. The full amount of the unit payment will be made for each butterfly valve.
9. 72-inch Manhole/Vault for 16-inch Butterfly Valve (Lump Sum) Including, but not limited to, furnishing all the equipment, labor, and materials to install a 72-inch valve manhole/vault for a 16-inch butterfly valve per City Standards. The full amount of the unit payment will be made for each manhole/vault.
10. 16-inch Insulating Joint (Unit Price for each) Including, but not limited to, furnishing all the equipment, labor, and materials to install a 16-inch Insulating Joint per City Standards. The full amount of the unit payment will be made for each insulating joint.
11. 16-inch Insulating Joint Test Station (Unit Price for each) Including, but not limited to, furnishing all the equipment, labor, and materials to install a 16-inch Insulating Joint Test Station per City Standards. The full amount of the unit payment will be made for each test station.
12. 2-inch Air Release Valve – (Lump Sum) One 2-inch air release valve assembly with B-40 utility boxes as indicated in the Contract Documents, including but not limited to, excavation, furnishing and installing of the valves and utility boxes, tapping pipe and installing tapping saddle, providing fittings and piping from the 16-inch water pipe to the air release valve as shown in Contract Documents; all necessary curb stops, pipe supports and all other appurtenances and fittings, that are required to provide a fully operable system. The full amount of the unit payment will be made on the complete installation of the assembly.
13. 2-inch Temporary Blowoff (Unit Price for each) Including, but not limited to, furnishing all the equipment, labor, and materials to install a 2-inch Temporary Blowoff Assemblies per Detail W-14-A and W-14-B, including but not limited to, furnishing and installing of the temporary blowoff assemblies

and all other appurtenances and fittings, that are required to provide a fully operable blowoff system for pressure and disinfection testing. The full amount of the unit payment will be made on the complete installation of each assembly.

14. Pressure Testing (Lump Sum) Work for this item shall include, but not be limited to, all labor, tools, materials including water needed for testing, and equipment necessary to perform the water main testing per the City of Roseville Design and Construction Standards. Contractor will be paid based on the successful results of the pressure test.
15. Disinfection (Lump Sum) Work for this item shall include, but not be limited to, all labor, tools, and materials including water needed for disinfection per the City of Roseville Design and Construction Standards, and final flushing of the pipe segment installed. Contractor will be paid based on the successful completion of the pipe disinfection, and final flushing.

Restoration

16. Hot Mix Asphalt Placement (Unit Price per Square Foot) Pavement removal and restoration shall be per the Contract Documents and per all the requirements specified in the City of Roseville Design & Construction standards. Contractor will be paid per requirements of these specifications and on the square footage of pavement cut, removed and completely restored.
17. Sidewalk and Concrete Restoration (Unit Price per Square Foot) Sidewalk and Concrete Restoration shall be per Contract Documents (refer to the City of Roseville Design and Construction Standards for additional requirements). Contractor will be paid on the square footage of sidewalk and concrete ("flat" work) completely restored.
18. Curb and Gutter Restoration (Unit Price per Linear Foot) Curb and Gutter Restoration shall be per Contract Documents (refer to the City of Roseville Design and Construction Standards for additional requirements). Contractor shall be paid on the linear foot of curb and gutter completely restored.
19. Traffic Signal Loop Restoration (Lump Sum) Traffic Signal Loop Restoration shall be per Contract Documents (refer to the City of Roseville Design and Construction Standards for additional requirements). Contractor shall be paid for the complete restoration and operation of the signal loop.
20. Road Striping/Markings/Delineation (Lump Sum) Road Striping, Markings, and Delineation restoration shall be per Contract Documents (refer to the City of Roseville Design and Construction Standards for additional requirements). Contractor shall be paid for the complete restoration of Road Striping, Markings, and Delineation.
21. Existing 36 Inch Butterfly Valve Manhole Frame and Cover Replacement and Grade Adjustment (Lump Sum) Replace existing 36 inch manhole frame and

cover and adjust to grade per the plans. Contractor shall be paid for the replacement and finished installation.

END OF SECTION

SECTION 01040

COORDINATION AND PROJECT REQUIREMENTS

1.01 PROJECT COORDINATION

- A. Coordinate scheduling, submittals and work of various Sections of the Specifications and subcontractors to assure efficient and orderly sequence of interdependent construction.

1.02 CUTTING, FITTING, AND PATCHING

- A. Provide cutting, fitting, or patching required to complete the Work and to make all of its parts fit together properly. Include cutting, fitting, and patching required to:
 - 1. Fit the several parts together and to integrate with other work.
 - 2. Uncover work to install or correct ill-timed work.
 - 3. Provide openings in elements of work for penetrations of mechanical and electrical work.
 - 4. Remove and replace defective and non-conforming work.
 - 5. Remove samples of installed work for testing.
- B. Request guidance from the Engineer prior to beginning cutting or altering construction which affects:
 - 1. Structural integrity of any element.
 - 2. Functional performance of any element.
 - 3. Integrity of weather-exposed or moisture-resistant elements.
 - 4. Efficiency, maintenance, or safety of elements.
 - 5. Visual qualities of sight-exposed elements.
 - 6. Work by Owner or separate contractor.
- C. Execute cutting and patching using workers that specialize in and are skilled in installing the type of work being cut or patched.
- D. Perform work in accordance with the Contract Documents or in the absence of specific requirements comply with best trade practice for the work involved.
 - 1. Execute work by methods that will avoid damage to other work.
 - 2. Provide proper support and substrates to receive patching and finishing materials.
 - 3. Cut concrete materials using masonry saw or core drill. Locate all reinforcing steel, conduits and pipes with electronic detecting devices prior to cutting or core drilling existing concrete.
 - 4. Replace or patch work with new materials that meet the requirements of these specifications or if not specified, match materials and finishes of existing or adjacent work.
 - 5. Refinish surfaces to match adjacent finishes. For continuous surfaces, refinish to nearest intersection; for an assembly, refinish entire unit.
 - 6. Report any hazardous or unsatisfactory conditions to the Engineer.

1.03 ALTERATION PROJECT PROCEDURES

- A. Plan, schedule and perform alteration work as required to minimize impacting the Owner's continued operations. See Section 01010 paragraph titled "Contractor's Use of Site and Owner's Continued Operations."
- B. The adjacent existing water pipelines must remain in operation during construction. Schedule utility interruptions, piping connections, and interruption of existing pipelines as required to permit continued compliance with regulatory requirements and to meet Owner's flow requirements.
- C. Perform cutting, fitting and patching in accordance with provisions in other paragraphs of this Section.
- D. Provide new construction in accordance with the technical specifications or if not specified provide new construction matching adjacent or similar existing work in material and finish.

1.04 CONNECTIONS TO UNDERGROUND UTILITIES, CONDUITS, OR PROCESS PIPING

- A. Obtain best available current information on location, identification and marking of existing utilities, piping and conduits and other underground facilities before beginning any excavation. In areas where utilities that participate in Underground Service Alert may occur, call 800-642-2444 in Northern California for information at least 48 hours in advance of beginning work. Give Engineer 24 hours notice before beginning work.
- B. The location of existing utilities and facilities known to the Design Engineer are shown in their approximate location based on information available at the time of preparing the Drawings. The actual location, size, type and number of utilities and underground facilities may differ from that shown. Additionally utilities or underground facilities may be present that are not shown. See General Conditions Section 5, paragraph 5-1.24, for the Contractor's responsibilities.
- C. Use extreme care when excavating or working in areas that may contain existing utilities, process piping, conduits or other underground facilities. Use careful potholing, hand digging and probing to determine the exact location of underground installation. Some locations contain multiple pipes or conduits.
- D. Where connections to existing utilities or other underground facilities are required or where new piping or conduits may cross or interfere with existing utilities or underground facilities, carefully excavate and uncover existing installations to a point 1 foot below the pipe or conduit to determine the actual elevation and alignment. Call the Engineer's attention to existing conditions that may require a clarification or change.
- E. Shutdown of existing utilities, services or operations shall be done in accordance with Section 01010.

1.05 FIELD ENGINEERING AND LAYOUT

- A. Where applicable, the Contractor shall retain the services of a Land Surveyor to perform field work to provide construction staking along the pipeline alignment at a minimum of 25-foot intervals and at all changes in grade and horizontal alignment. The centerline of the pipeline with appropriate offsets and elevations will be provided at 25-foot intervals.
- B. The Contractor will be required to provide the services of a Land Surveyor to re-establish any points disturbed by construction operations or others. Where applicable, the Contractor will be responsible for construction staking for each section of pipeline.
- C. If required, the Engineer will provide two (2) survey control points.

1.06 PRECONSTRUCTION MEETINGS

- A. Prior to beginning the Work, the Contractor and its key personnel and Subcontractors including the Contractor's Superintendent, Project Manager, and Field Engineer shall attend a meeting with the Owner and the Engineer to discuss the following:
 - 1. Name, Authority, and Responsibilities of Parties Involved
 - 2. Project Procedures:
 - a. Progress meetings
 - b. Correspondence
 - c. Notification
 - d. Submittal of Product Data, Shop Drawing Samples, and Proposed Equivalents
 - e. Requests for Clarifications
 - f. Clarifications
 - g. Requests for Quotation
 - h. Work Directive Change
 - i. Change Orders
 - j. Engineer's "Items of Concern List"
 - 3. Temporary Schedule and Contractor's Construction Schedule
 - 4. Temporary Facilities and Control
 - 5. Testing During Construction
 - 6. Contractors Coordination
 - 7. Maintenance of Record Drawings
 - 8. Early Beneficial or Partial Occupancy
 - 9. Final Testing, Startup, and Balancing
 - 10. Punch Lists and Project Closeout Procedures
 - 11. Final Deliverables including Record Drawings, Operation and Maintenance Manuals, and Special Guarantees.

1.07 PROGRESS MEETINGS

- A. The Engineer will conduct weekly progress meetings with Contractor at the Corporation Yard, located at 2005 Hilltop Circle, Roseville, CA. Attendance is required for Contractor's project manager, superintendent and affected

Subcontractors and suppliers. The Engineer will prepare, maintain and distribute the agenda and dated record of: (1) actions required and taken and (2) decisions needed and made.

B. Agenda:

1. Review critical items/action list.
2. Review work progress. Compare actual progress with planned progress shown on Contractors rolling three-week schedule. Discuss Corrective action required. Compare actual and projected progress with Contractor's Construction Schedule, propose methods to correct deficiencies.
3. Review status of Submittals; review delivery dates and date of need for critical items.
4. Review coordination problems.
5. Schedule needed testing and critical inspections.
6. Review critical requirements for each trade or major piece of equipment prior to beginning work or installation.
7. Discuss Contractor Quality Control.
8. Discuss open items on Engineers "Items of Concern List."
9. Discuss impact of proposed changes on progress Schedule.
10. Other business.

1.08 PERFORMANCE SPECIFICATIONS AND CONTRACTOR DESIGNED WORK

- A. Work under this Contract may be specified by a combination of descriptive, performance, reference standard and proprietary specifications. In the event of conflict between any of the various specification methods used to specify a single item the order of precedence shall be the order in which the methods are listed in the preceding sentence. The terms used to describe types of Specifications are taken from the Construction Specification Institute (CSI) Handbook of Practice and from the CalTrans Standard Specifications where mentioned.
- B. Where Specifications are used to define the characteristics of Contractor designed systems, items or components, the Contractor shall be fully responsible to design, engineer, manufacture, and install the systems, items and components to meet the specified functional requirements, performance requirements, quality standards, durability standards and conditions of use as well as all applicable codes, regulations and referenced trade or industry standards. The Contractor shall perform such design by employing engineers licensed in the State in which the Work is being constructed. The Contractor's design submittals shall include calculations and assumptions on which the design is based and shall be stamped and signed by appropriately licensed engineers.
- C. In accordance with the General Conditions, the Owner and the Engineer shall have the right to rely on the expertise and professional competence of the Contractor's design. Favorable review of the Contractor's design submittal shall not relieve the Contractor from full responsibility for the adequacy of the Contractor design.

1.09 MATERIAL AND EQUIPMENT

A. General:

1. Verify that products delivered meet requirements of Contract Documents and the requirements for Favorably Reviewed submittals.

B. Compatibility of Equipment and Material:

1. Similar items, equipment, devices or products furnished under a single specification section shall all be made by the same maker and have interchangeable parts.
2. In addition, but only if so stated in each affected Specification Section, similar items furnished under two or more Specification Sections shall be made by the same maker and have interchangeable parts.
3. All similar materials or products that are interrelated or used together in an assembly shall be compatible with each other.

C. Transportation and Handling:

1. Transport and handle products in accordance with manufacturer's instructions.
2. Promptly inspect shipments to assure that products comply with requirements, quantities are correct, and products are undamaged.
3. Provide equipment and personnel to handle products by methods to prevent soiling, disfigurement, or damage.

D. Storage and Protection:

1. Store and protect products in accordance with manufacturer's instructions. Seals and labels shall be intact and legible.
2. Provide facilities, equipment and personnel to store products by methods to prevent soiling, disfigurement, or damage.
3. Arrange storage of products to permit access for inspection. Periodically inspect to assure products are undamaged and are maintained under specified conditions.
4. Provide offsite storage and protection including insurance coverage when site does not permit onsite storage or protection.
5. No storage on private property is allowable without written authorization from property owner.

E. Installation Standards and Manufacturers' Recommendations:

1. Install all products and materials in strict compliance with the most restrictive of the following:
 - a. The manufacturer's or provider's written instructions or recommendations. Follow step by step installation procedures.
 - b. Recommendations of referenced trade associations or standards.
 - c. These specifications and drawings.
2. Where conflicts exist present alternatives with advantages and disadvantages to Engineer for decision.

F. If reference standards or manufacturer's instructions contain provisions that would alter or are at variance with relationships between the parties to the Contract set

forth in the Contract Documents, the provisions in the Contract Documents shall take precedence.

1.10 SAFETY

- A. In accordance with generally accepted construction practice, applicable law, the General Conditions, and CalTrans Standard Specifications. The Contractor shall be solely and exclusively responsible for:
 - 1. Construction means and methods.
 - 2. Safety of employees engaged in the work while on and off the site.
 - 3. Safety of the Owner, the Engineer, the Design Engineer, and others who may visit or be affected by the work.
 - 4. Safety of the work itself including material and equipment to be incorporated therein.
 - 5. Safety of other property at the site or adjacent thereto.
 - 6. Safety programs, equipment and protective devices required to assure the safety of persons and property for whom/which the Contractor is responsible.
 - 7. Traffic and Pedestrian Safety.
- B. The duties of the Engineer in conducting review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's work methods, equipment, bracing, scaffolding or safety measures in, on, or near the construction site. See General Conditions, Section 5, paragraph 5-1.27, the Engineer shall not be personally responsible for any liability arising under the Contract .
- C. The Contractor is hereby informed that work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous work areas as to potential dangers and shall provide such necessary safety equipment and instructions as required to prevent injury to personnel and damage to property, and to comply with all applicable laws and regulations including State OSHA, Federal OSHA, and other regulations referenced in these Contract Documents.
- D. The Contractor shall, at all times, maintain the job in a condition that is safe for the Owner, the Engineer and their Consultants to make site visits and to conduct construction reviews. If the Owner or the Engineer cannot allow personnel to visit the job because it is not safe, the Contractor is not providing required safe access to the Work as required by General Conditions, Section 2, paragraph 2-1.16.
- E. The Contractor shall prepare a Safety Plan meeting the requirements of applicable regulations. As a minimum, the Contractors Safety Plan shall set forth definite procedures for informing workers about safety, for instructing workers in safe practices, for assuring that workers are using appropriate safety equipment and safe work practices and for reporting accidents.

1.11 EXCAVATION AND TRENCHING; WORK WITHIN CONFINED SPACES

- A. Submit specific plans to the Engineer/Owner showing details of provisions for worker protection from caving ground in accordance with Section 6705 of the California State Labor Code. The detailed plans shall show the design of shoring,

bracing, sloping banks or other provisions and shall be prepared by a Civil or Structural Engineer licensed in the State in which the Work is performed and retained by the Contractor. The Engineer's/Owner's acceptance of the detailed plans submitted is only an acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions, criteria, completeness, applicability to areas of intended use, or implementation of the plans, which are solely the responsibility of the Contractor and his Registered Engineer.

- B. Work Within Confined Spaces: Work within confined spaces is subject to applicable laws, regulations and safety orders including applicable California Tunnel Safety Orders.
- C. The foregoing provisions do NOT reduce the requirement for the Contractor to maintain safety in ALL operations performed by the Contractor or its Subcontractors.

1.12 CONTRACTOR'S QUALITY CONTROL

- A. The Contractor shall be fully responsible for inspecting the work of its suppliers and Subcontractors to assure that the work when completed will comply with the standards for materials and workmanship required by the Contract Documents.
- B. Inspections, periodic observations and testing performed by the Owner/Engineer are for the Owner's benefit and information only and shall not be construed as partial or incremental acceptance of the work and shall not be deemed to establish any duty on the part of the Owner/Engineer to the Contractor, its subcontractors or suppliers.
- C. The Contractor shall:
 - 1. Monitor quality control over suppliers, manufacturer, products, services, site conditions, and workmanship, to produce work of specified quality.
 - 2. Comply fully with manufacturer's installation instructions, including performing each step in sequence as recommended by the manufacturer.
 - 3. Request clarification from Engineer before proceeding with work when manufacturers' instructions or reference standards conflict with Contract Documents.
 - 4. Comply with specified standards as a minimum quality for the work except when more stringent tolerances, codes, or specified requirements indicate higher standards or more precise workmanship.
 - 5. Perform work by persons specializing in the specific trade and class of work required and qualified to produce workmanship of specified quality.
 - 6. Secure products in place with positive anchorage devices designed and sized to withstand seismic, static and dynamic loading, vibration, and physical distortion or disfigurement.
- D. If reference standards or manufacturers' instructions contain provisions that would alter or are at variance with relationships between the parties to the Contract set forth in the Contract Documents, the provisions in the Contract Documents shall take precedence.

- E. The Contractor shall provide assistance required by the Engineer to adequately inspect the Work including ladders, scaffolding, lighting, ventilation and other aids to facilitate access and provide a safe working environment.

1.13 TESTING LABORATORY SERVICES AND CERTIFIED LABORATORY REPORTS

- A. Provide testing service in accordance with General Conditions and specific requirements contained in each technical specification section. Submit Certified Laboratory Reports required by technical specification sections.

END OF SECTION

SECTION 01140

ENVIRONMENTAL PROTECTION

1.01 SCOPE

- A. During the progress of the work, keep the work areas occupied by the Contractor in a neat and clean condition and protect the environment both onsite and offsite, throughout and upon completion of the construction project.

1.02 SUBMITTALS

- A. Develop an Environmental Protection Plan in detail and submit to the Engineer in the Product Review category within twenty (20) days from the date of the Notice to Proceed. Distribute the favorably reviewed plan to all employees and to all subcontractors and their employees. The Environmental Protection Plan shall include, but not be limited to, the following items:
 - 1. Copies of required permits.
 - 2. Proposed disposal sites.
 - 3. Copies of any agreements with public or private landowners regarding equipment, materials storage, borrow sites, fill sites, or disposal sites. Any such agreement made by the Contractor shall be invalid if its execution causes violation of local or regional grading or land use regulations.

1.03 MITIGATION OF CONSTRUCTION IMPACTS

- A. Requirements: All operations shall comply with all federal, state and local regulations pertaining to water, air, solid waste and noise pollution.
- B. Definitions of Contaminants:
 - 1. Sediment: Soil and other debris that have been eroded and transported by runoff water.
 - 2. Solid Waste: Rubbish, debris, garbage and other discarded solid materials resulting from construction activities, including a variety of combustible and non-combustible wastes, such as ashes, waste materials that result from construction or maintenance and repair work, leaves and tree trimmings.
 - 3. Chemical Waste: Includes petroleum products, bituminous materials, salts, acids, alkalis, herbicides, pesticides, disinfectants, organic chemicals and inorganic wastes. Some of the above may be classified as "hazardous."
 - 4. Sanitary Wastes:
 - a. Sewage: That which is considered as domestic sanitary sewage.
 - b. Garbage: Refuse and scraps resulting from preparation, cooking, dispensing and consumption of food.
 - 5. Hazardous Materials: As defined by applicable laws and regulations. Undisclosed hazardous material contamination, if encountered will constitute a changed site condition. In the event that occurs, Contractor to coordinate with Owner.

C. Protection of Natural Resources:

1. General: It is intended that the natural resources within the project boundaries and outside the limits of permanent work performed under this Contract be preserved in their existing condition or be restored to an equivalent or improved condition upon completion of the work. Confine construction activities to areas defined by the public roads, easements, and work area limits shown on the Drawings. Return construction areas to their pre-construction elevations except where surface elevations are otherwise noted to be changed. Maintain natural drainage patterns. Conduct construction activities to avoid ponding stagnant water conducive to mosquito breeding.
2. Land Resources: Do not remove, cut, deface, injure or destroy trees or shrubs outside the work area limits. Do not remove, deface, injure or destroy trees within the work area without permission from the Engineer.
 - a. Temporary Construction: Obliterate all signs of temporary construction facilities such as haul roads, work areas, structures, foundations of temporary structures, stockpiles of excess or waste materials, or any other vestiges of construction as directed by the Engineer. Level all temporary roads, parking areas and any other areas that have become compacted or shaped. Any unpaved areas where vehicles are operated shall receive a suitable surface treatment or shall be periodically wetted down to prevent construction operations from producing dust damage and nuisance to persons and property, at no additional cost to the Owner. Keep haul roads clear at all times of any object which creates an unsafe condition. Promptly remove any contaminants or construction material dropped from construction vehicles. Do not drop mud and debris from construction equipment on public streets. Sweep clean turning areas and pavement entrances as necessary. Ensure no tracking occurs on City streets.
3. Water Resources: Investigate and comply with all applicable federal, state and local regulations concerning the discharge (directly or indirectly) of pollutants to the underground and waters of the United States. Perform all work under this Contract in such a manner that any adverse environmental impacts are reduced to a level that is acceptable to the Engineer and regulatory agencies.
 - a. Oily Substances: At all times, special measures shall be taken to prevent oily or other hazardous substances from entering the ground, drainage areas or local bodies of water in such quantities as to affect normal use, aesthetics or produce a measurable impact upon the area. Any soil or water which is contaminated with oily substances due to the Contractor's operations shall be disposed of in accordance with applicable regulations.
 - b. Chlorinated Water: Take special measures to prevent chlorinated water from entering the ground or surface waters. De-chlorinate chlorinated water prior to discharge.
4. Cultural Resources: The project does not pass through any known archaeological sites. However, it is conceivable that unrecorded archaeological sites could be discovered during the construction. In the event that artifacts, human remains, or other cultural resources are discovered during excavations at locations of the Work, the Contractor shall protect the discovered items, notify the Engineer, and comply with applicable law.
5. Dust Control, Air Pollution and Odor Control: Employ measures to prevent the creation of dust, air pollution and odors.
 - a. Unpaved areas where vehicles are operated shall be periodically wetted down or given an equivalent form of treatment, to eliminate dust formation.

- b. Store all volatile liquids, including fuels or solvents in closed containers and provide secondary containment as needed.
- c. No open burning of debris, lumber or other scrap will be permitted.
- d. Properly maintain equipment to reduce gaseous pollutant emissions.
- 6. Construction Storage Areas: It is the responsibility of the Contractor to secure a storage area for Contractor use. Storage of construction equipment and materials shall be limited to the designated Contractor's storage area.
 - a. Oil wastes (from equipment, etc.) shall not be allowed to flow onto the ground or into surface waters. Containers shall be required at the construction site for the disposal of materials such as paint, paint thinner, solvents, motor oil, fuels, concrete wash water, resins and other environmentally deleterious substances. No dumping of surplus concrete or grout on the site will be permitted.
- 7. Sanitation: During the construction period, provide adequate and conveniently located chemical sanitation facilities, properly screened, for use of construction crews. Facilities shall be placed behind sidewalks and at least fifty (50) feet from any drainage ditch, drain inlet, or water way. Facilities shall be regularly maintained.
- 8. Fire Prevention: Take steps to prevent fires including, but not limited to the following:
 - a. Provide spark arrestors on all internal combustion engines.
 - b. Store and handle flammable liquids in accordance with the Flammable and Combustible Liquids Code, NFPA 30.
 - c. Provide fire extinguishers at hazardous locations or operations, such as welding.
- 9. Erosion and Sediment Transport Control:
 - a. Keep disturbed areas to the minimum necessary for construction.
 - b. Keep runoff away from disturbed areas during construction.
 - c. Trap sediment before it leaves the site, using such techniques as check dams, sediment ponds, or siltation fences.
 - d. Confine earthwork operations to dry periods, whenever possible. If earthwork needs to be scheduled for a wet period, ensure that erosion and sediment transport control measures are ready for implementation prior to the onset of the storm.
 - e. Stabilize disturbed areas as quickly as possible.
Contractor shall note that waterways under the jurisdiction of governmental agencies other than the City of Roseville may be subject to additional erosion and sediment control measures or criteria and it is the responsibility of the Contractor to obtain and adhere to these additional requirements.
- 10. Inlet Filters:
 - a. Drain inlet filters may be employed. Horizontal mesh filters attached to the top of or below the drain inlet grate shall not be allowed. Only high flow volume, bag type filters or others as approved by the City of Roseville, Construction Inspector shall be used.

1.04 DISPOSAL OPERATIONS

- A. Solid Waste Management:
 - 1. Supply solid waste transfer containers. Daily remove all debris such as spent air filters, oil cartridges, cans, bottles, combustibles and litter. Take care to

- prevent trash and papers from blowing onto adjacent property. Encourage personnel to use refuse containers. Convey contents to a sanitary landfill.
2. Washing of concrete containers without Contractor having a washout facility or system in place will not be permitted. Concrete on bare soil is prohibited. Remove any excess concrete to the sanitary landfill.
- B. Chemical Waste and Hazardous Materials Management: Furnish containers for storage of spent chemicals used during construction operations. Provide secondary containment. Dispose of chemicals and hazardous materials in accordance with applicable regulations.
- C. Garbage: Store garbage in covered containers, pick up daily and dispose of in a sanitary landfill.
- D. Dispose of vegetation, weeds, rubble, and other materials removed by the clearing, stripping and grubbing operations off site at a suitable disposal site in accordance with applicable regulations.
- E. Excavated Materials:
1. Native soil complying with the requirements of Section 02202, Earthwork, may be used for backfill, fill and embankments as allowed by that section.
 2. Spoil Material:
 - a. Remove all material which is excavated in excess of that required for backfill, and such excavated material which is unsuitable for backfill, from the site and dispose of off site in accordance with applicable regulations. No additional compensation will be paid to the Contractor for such disposal. Include all such costs in the lump sum prices bid for the project. Remove rubbish and materials unsuitable for backfill immediately following excavation. Remove material in excess of that required for backfill immediately following backfill operations.
 - b. Rubbish shall consist of all materials not classified as suitable materials or rubble and shall include shrubbery, trees, timber, trash and garbage.

1.05 RESPONSIBLE PARTY

- A. The Contractor shall comply with all environmental pollution control rules, regulations, ordinances and statutes which apply to any work performed pursuant to the Contract (Refer to General Conditions Section 5 for additional requirements). In the event of any violations, Contractor shall be fully responsible for all fines, citations, penalties and all other judgments that shall be imposed.

END OF SECTION

SECTION 01300

SUBMITTALS

1.01 SUBMITTAL PROCEDURES

- A. Accompany each submittal with a letter of transmittal containing the following information:
 - 1. Contractor's name and the name of Subcontractor or supplier who prepared the submittal.
 - 2. The project name and identifying number.
 - 3. Description of the submittal and reference to the Contract requirement or technical specification section and paragraph number being addressed.
- B. Submit the number and type of copies for each submittal and follow the procedures described below or in other paragraphs in this Section. Submit 7 copies of submittals not covered in this Section 01300.
 - 1. Designation of Superintendent: Submit 3 copies for information. Include name, address, home telephone number and a brief resume.
 - 2. List of Subcontractors and Major Suppliers: Submit 3 copies for information. Include address, telephone number and name of responsible party.
 - 3. Schedule of Values: Submit 4 copies. One copy will be returned. See General Conditions.
 - 4. Manufacturers' Affidavits. Submit 3 copies for items specified in the Technical Specifications.
 - 5. Environmental Protection Plan. Submit 7 copies. Two copies will be returned.

1.02 SCHEDULE OF SUBMITTALS

- A. Submit 7 copies. Two copies will be returned.
- B. See General Conditions. Within 15 days after the Notice to Proceed, submit a Schedule of Submittals showing the date by which each submittal required for Product Review or Product Information will be made. Identify the items that will be included in each submittal (see paragraph 1.05 of this Section) by listing the item or group of items and the Specification Section and paragraph number under which they are specified. Indicate whether the submittal is required for Product Review of Proposed Equivalents, Shop Drawings, Product Data or Samples or required for Product Information only.

1.03 PLAN OF OPERATIONS

- A. Submit 3 copies.
- B. Before beginning on work, submit a plan showing Contractor's intended use of the site. Show location of access points. Show location for Contractor's field office, if any, and parking. Show location of Contractor's and Subcontractor's work areas and storage areas.

1.04 CONSTRUCTION SCHEDULE

- A. Submit 4 copies for review. No copy will be returned. See General Conditions.
- B. The Contractor's Construction Schedule shall be in the form of a computer generated network analyses diagram and supporting mathematical analysis using the Critical Path Method (CPM) under concepts and methods outlined in the Associated General Contractor's publication, "The Use of CPM's Construction - A Manual for General Contractors and the Construction Industry."
 - 1. Draw network diagram to scale using actual calendar dates. Show work subdivided into identifiable activities within each trade such that no activity has a duration longer than five (5) working days. Show order and interdependencies of each activity.
 - 2. Use actual calendar dates to show planned and actual performance and show:
 - a. Preceding and following event numbers.
 - b. Activity description.
 - c. Estimated duration of activity.
 - d. Earliest start date.
 - e. Earliest finish date.
 - f. Actual start date.
 - g. Actual finish date.
 - h. Latest start date.
 - i. Latest finish date.
 - j. Total and free float.
 - k. Monetary value of activity, keyed to Schedule of Values.
 - l. Percentage of activity completed.
 - m. Dates for making submittals of Proposed Equivalents, Product Data and Shop Drawings.
- C. If the Construction Schedule does not reflect the CPM format requirements, the specified work, or the Contract Time, it will be returned to the Contractor for modification.
- D. Revise the Construction Schedule and resubmit within seven (7) days following any monthly meeting to review Contractor's Application for Payment when Contractor's work is fifteen (15) days or more behind schedule.
- E. Accelerated Work if Required to Meet Schedule: See General Conditions. Give Engineer 3 days prior notice of construction that will take place outside of normal work hours or work days. Compensate Owner for extra inspection cost caused by Accelerated Work required to meet Schedule.
- F. Give Engineer 3 days prior notice of normal work days on which construction will not take place or of scheduled construction that will not take place. Compensate Owner for extra inspection cost resulting from failure to give notice.

1.05 SHOP DRAWING, PRODUCT DATA AND SAMPLES SUBMITTED FOR PRODUCT REVIEW

- A. This paragraph covers submittal of Shop Drawings, Product Data and Samples required for the Engineer's review referred to as Product Review submittals in the Technical Specifications. Submittals required for information only are referred to as

Product Information submittals in the Technical Specifications and are covered in paragraph 1.07 of this Section. See General Conditions Section 2, paragraph 1.04.

B. Number and type of submittals:

1. Shop Drawings: Submit 7 clear, sharp high contrast copies two of which will be marked, stamped and returned to the Contractor. If the Contractor submits an electrostatic reproducible copy this copy will represent the single copy returned to the Contractor. The Contractor shall make and distribute the required number of additional copies to its superintendent, subcontractors and suppliers.
2. Product Data: Submit 7 clear copies. Two copies will be marked, stamped and returned. The Contractor shall make and distribute the required number of additional copies to its superintendent, subcontractors and suppliers.
3. Samples: Submit 4 labeled samples or four sets of samples of manufacturers full range of colors and finishes. Comply with requirements in Technical Specification Sections. One sample will be returned to Contractor.

C. The Contractor shall make all Product Review submittals early enough to allow adequate time for the Engineer's review, for manufacture and for delivery at the construction site without causing delay to the Work. Submittals shall be made early enough to allow for unforeseen delays such as:

1. Failure to obtain Favorable Review because of inadequate or incomplete submittal or because the item submitted does not meet the requirements of the Contract Documents.
2. Delays in manufacture.
3. Delays in delivery.

D. Content of Submittals:

1. Each submittal shall include all of the items and material required for a complete assembly, system or Specification Section.
2. Submittals shall contain all of the physical, technical and performance data required by the specifications or necessary to demonstrate conclusively that the items comply with the requirements of the Contract Documents.
3. Include information on characteristics of electrical or utility service required and verification that requirements have been coordinated with services provided by the Work and by other interconnected elements of the Work.
4. Provide verification that the physical characteristics of items submitted, including size, configuration, clearances, mounting points, utility connection points and service access points, are suitable for the space provided and are compatible with other interrelated items that are existing or have or will be submitted.
5. Label each Product Data Submittal, Shop Drawing and Sample with the information required in paragraph 1.01A of this Section. Highlight or mark every page of every copy of all Product Data submittals to show the specific items being submitted and all options included or choices offered.
6. Additional requirements for Product Review submittals are contained in the Technical Specification sections.
7. Designation of work as "NIC" or "by others," shown on Shop Drawings, shall mean that the work will be the responsibility of the Contractor rather than the subcontractor or supplier who has prepared the Shop Drawings.

E. Compatibility of Equipment and Material:

1. Verify that items contained in the same or in different submittals meet the requirements in the paragraph titled "Material and Equipment in Section 01040 especially the subparagraphs titled "Compatibility of Material and Equipment."
- F. Requirements for the Contractor's review and stamping of submittals prepared by the Contractor or by Subcontractors or suppliers prior to submitting them to the Engineer are covered in General Conditions, Section 2, paragraph 2-1.04.
- G. Submittals that contain deviations from the requirements of the Contract Documents shall be accompanied by a separate letter explaining the deviations. See General Conditions, Section 2, paragraph 2-1.04E. The Contractor's letter shall:
1. Cite the specific Contract requirement including the Specification Section and paragraph number for which approval of a deviation is sought.
 2. Describe the proposed alternate material, item or construction and explain its advantages and/or disadvantages to the Owner.
 3. State the reduction in Contract Price if any that is offered to the Owner.
- H. Engineer's Review Procedure and Meaning
1. The Engineer will stamp and mark each Product Review submittal prior to returning it to the Contractor. The stamp will indicate whether or not the review was favorable and what action is required of the Contractor. Review categories "No Exceptions Taken" and "Make Corrections Noted" both indicate Favorable Review.
 2. The Engineer's Favorable Review is contingent on the Contractor's warranties required by General Conditions and is subject to all of the limitations and conditions in General Conditions. Favorable Review is also contingent on:
 - a. The compatibility of items included in a submittal with other related or interdependent items included in previous or future submittals.
 - b. Future submittal of items related to or required to be part of this submittal that were not included with this submittal.
 3. Favorable Review of a submittal does not constitute approval or deletion of items required as part of the submittal but not included with the submittal. Favorable Review of items included in the submittal does not constitute deletion of specified features, options or accessories that were not included in the submittal.
 4. The action required by the Contractor for each category of review is as follows:
 - a. **NO EXCEPTIONS TAKEN / "APPROVED AS SUBMITTED"**. NO RESUBMITTAL REQUIRED.
 - b. **MAKE CORRECTIONS NOTED / "APPROVED WITH CHANGES"**:
 - (1) **NO RESUBMITTAL REQUIRED**. The Contractor shall make corrections noted prior to manufacture.
 - (2) **PARTIAL RESUBMITTALS REQUIRED**. The Contractor shall submit related accessory or optional items as noted which are required but were not included with the submittal and/or shall resubmit unsatisfactory portions or attributes of items as noted. The Contractor may proceed to manufacture those portions of the submittal that will be unaffected by required resubmittals.
 - c. **AMEND AND RESUBMIT / "REVISE & RESUBMIT"**. The Contractor shall amend and resubmit the submittal as noted or required to comply with the Contract Documents.

- d. **REJECTED - RESUBMIT.** The item submitted does not comply with the Contract Documents in a major way. Resubmit items that comply with the requirements of the Contract Documents.
- 5. The letter of transmittal accompanying the returned Product Review submittal may contain numbered notes. Marking a corresponding number on a Shop Drawing or Product Data submittal shall have the same affect as applying the entire note to the submittal.
- I. Re-submittals that contain changes that were not requested by the Engineer on the previous submittal shall be accompanied by a letter explaining the change. See General Conditions.
- J. Favorable Review Required Prior to Proceeding.
 - 1. Do not proceed with manufacture, fabrication, delivery or installation of items prior to obtaining the Engineers Favorable Review of Product Review submittals. See General Conditions.
- K. Intent and Limitation on Engineer's Review
 - 1. The Contractor has primary responsibility for submitting and providing work that complies with the requirements of the Contract Documents. That responsibility cannot be delegated in whole or in part to subcontractors or suppliers. Neither the Engineer's Favorable Review nor the Engineer's failure to notice or comment on deficiencies in the Contractor's submittals shall relieve the Contractor from the duty to provide work which complies with the requirements of the Contract Documents.

1.06 PROPOSED EQUIVALENTS

- A. Comply with the submittal requirements for Shop Drawings, Product Data, and Samples submitted for Product Review in another paragraph of this Section.
- B. See General Conditions Section 2, paragraph 2-1.04E.
- C. Time of Submittal:
 - 1. General Conditions requires submittal of Proposed Equivalents within ample time, ample time shall be considered within 20 days of the Notice to Proceed. The Engineer may agree to a later submittal date if requested in writing within 20 days of the Notice to Proceed. The request shall identify the item, give the Specification reference, and proposed manufacturer and model number of the item that will be submitted and the proposed submittal date.
 - 2. The Engineer's agreement to a later submittal date shall be in writing and shall not be construed as Favorable Review or acceptance of the manufacturer or item proposed.
- D. Content of submittals shall be the same as that required for Product Data, Shop Drawings and Samples submitted for Product Review in another paragraph of this Section. In addition, the Engineer may request that the Contractor provide information on several recent similar installations of the item to verify its suitability. The information shall include the project name and location, the Owner's name, address, telephone number and name of a knowledgeable person to contact for information on performance of the product.

- E. When the Contractor has listed specific maker's products on the Designation of Equipment or Material Manufacturers submitted with its Bid no changes will be permitted without submittal of acceptable evidence justifying the change and the Engineer's written approval.
- F. If a non-equivalent substitute is submitted for review, it shall be accompanied by a proposed reduction in Contract Price which shall include the increased cost of Engineering service required to evaluate the proposed substitute (which shall be paid to the Owner whether or not the substitute is accepted) plus the greater of
 - 1) the difference in price between the first specified item and the item submitted and
 - 2) the difference in value to the Owner between the two items.

1.07 PRODUCT INFORMATION SUBMITTALS

- A. Submit three copies. No copies will be returned. See General Conditions.
- B. Product Information submittals are required for the Owner's permanent records and will be used for future maintenance, repair, modification or replacement work. Product Information submittals will be examined only to verify that the required submittals have been made; they will NOT be reviewed for compliance with the Contract Documents.
- C. Make Product Information submittals prior to delivering material, products or items for which Product Information submittals are required.
- D. The Contractor has the sole and exclusive responsibility for furnishing products and work that meets the requirements of the Contract Documents.
- E. The Engineer reserves the right to comment on any submittal and to reject any product or work delivered, installed or otherwise at any time that the Engineer become aware that it is defective or does not meet the requirements of the Contract Document. See General Conditions.

1.08 MANUFACTURER'S CERTIFICATES

- A. Submit three copies.
- B. When specified in Technical Specification section, submit manufacturers' certificate to Engineer for review. Indicate material or product conforms to or exceeds specified requirements. Submit supporting reference data, affidavits, and certifications as appropriate. Certificates may be recent or previous test results on material or Product, but must be acceptable to the Engineer.

END OF SECTION

SECTION 01500

CONSTRUCTION FACILITIES AND TEMPORARY CONTROLS

1.01 TEMPORARY UTILITIES

- A. Sanitary Facilities: Provide and maintain self-contained portable sanitary facilities for the Contractor's, subcontractor's, Engineer's, and Owner's use. Facilities shall comply with applicable regulations and shall be serviced, cleaned and disinfected frequently.
- B. Temporary Water and Power Service: Provide all temporary utility service required for the project. Pay all utility service connection and use charges.
- C. The Contractor shall be responsible for providing and maintaining the necessary material storage places, watchmen, etc.

1.02 BARRICADES, FENCES AND ENCLOSURES

- A. See General Conditions Section 5 and Section 01040.
- B. Barricades: Provide temporary guard rails, ladders, stairs, guards, and barricades to protect persons in accordance with applicable regulations, including California Code of Regulations Title 8 and Cal/OSHA.
- C. Fences:
 - 1. If it is necessary for the Contractor to remove some of the fences for installation of new work, the Contractor shall provide equivalent temporary protection and security. Replace fencing removed by the Contractor with new fencing of equivalent quality prior to completion.

1.03 PROTECTION OF INSTALLED WORK

- A. Provide heavy planking to protect curbs, gutters, culverts, paving and similar surfaces from damage by heavy equipment or vehicles.

1.04 SECURITY

- A. Provide security and facilities to protect the Work, and existing facilities from unauthorized entry, vandalism, or theft.

1.05 ACCESS ROADS AND PARKING AREAS

- A. Access Roads: Construct and maintain temporary access roads to serve the construction area.

1.06 TRAFFIC REGULATION

- A. Conduct operations so as to offer the least possible obstruction and inconvenience to public traffic. Do not overload or damage paved or improved surfaces, sidewalks, curbs or gutters.
- B. Provide temporary barricades, lights, flag persons and other means to safely control pedestrian and vehicular traffic entering and leaving the project site and on the project site.
- C. Contractor shall prepare and submit a Traffic Control Plan in accordance with CalTrans Standard Specifications Section 12 to the City's Public Works Engineering Department for review and acceptance. Contractor shall not commence any work until the Traffic Control Plan has been reviewed and approved by Public Works. Contractor shall obtain an encroachment permit at least three (3) days prior to commencement of work.

1.07 PROJECT SIGN

Does not apply.

END OF SECTION

SECTION 01505

MOBILIZATION

1.01 GENERAL

- A. Mobilization shall include the obtaining of all permits; moving onto the site of all plant and equipment; furnishing and erecting plants, temporary buildings, and other construction facilities; and implementing security requirements; all as required for the proper performance and completion of the WORK. Mobilization shall include the following principal items:
1. Moving on to the site of all CONTRACTOR's equipment required for installing the work.
 2. Installing temporary construction power, wiring, and lighting facilities.
 3. Establishing fire protection system.
 4. Developing construction water supply.
 5. Providing on-site sanitary facilities and potable water facilities.
 6. Arranging for CONTRACTOR's work/staging area and storage yard.
 7. Obtaining all required permits.
 8. Having all OSHA required notices and establishment of safety programs.
 9. Having the CONTRACTOR's superintendent at the job site full time.
 10. Submitting initial submittals.
 11. Delineating working limits identified in the plans.
 12. Obtaining additional easements for mobilization, staging, and operations.

END OF SECTION

SECTION 01700

CONTRACT CLOSEOUT

1.01 FINAL CLEANUP

- A. Prior to Final Inspection clean the entire construction area and all other areas affected by the performance of work under this Contract. Perform cleaning using personnel specializing in and skilled in cleaning and maintenance work. Perform repair work using personnel skilled in executing the type of work being repaired. Perform all work to the highest trade standards applicable to that type of work.
1. Remove all temporary construction, signs, tools, equipment, excess material and debris.
 2. Remove all lumps, splatters, spots and stains caused by paint, adhesive, asphalt, concrete, mortar, sealant or other foreign material from exposed or finished surfaces. Remove all temporary labels.
 3. Repair, patch or replace new or existing work including pavement, sidewalks, curbs, gutters, catch basins, gratings, manholes, covers, landscaping, plant materials and other items that have been damaged, broken, cracked or chipped as a result of performing this Work.
 4. Sweep clean and wash down all exterior pavements. Remove all hazardous material and material that may cause sediment in drainage systems prior to washdown. Remove all grease and oil stains on pavement caused by Contractor's equipment.

1.02 CONTRACTOR'S ACTION LIST OF ITEMS TO BE CORRECTED AND/OR COMPLETED

- A. During construction, the Contractor shall maintain an action list of items to be corrected and/or completed. The Contractor shall regularly add items and update the list as information becomes available or as requested by the Engineer. The Contractor shall deliver a current copy of the list to the Engineer at each progress meeting.

1.03 SEMIFINAL INSPECTION/SUBSTANTIAL COMPLETION

- A. See General Conditions. When the Contractor considers the Work nearly complete, the Contractor shall review the Contract Documents, inspect the Work, and use the Contractor's action list to prepare a Contractor's Punch List of all deficient or uncompleted items. The Contractor shall complete or correct items on the Punch List. When the Work is Substantially Complete in accordance with the General Conditions, the Contractor shall notify the Engineer in writing that the Contractor has reviewed the Contract Documents, inspected the Work and believes that the Work is Substantially Complete and ready for Semifinal Inspection.
- B. On receipt of the Contractor's Punch List and notice that the work is ready for Semifinal Inspection, the Engineer will inspect the Work. The Engineer may add additional items to the Contractor's Punch List, may find that the work is not ready for inspection, is ready for inspection but not Substantially Complete or that the Work is Substantially Complete. When the Engineer finds the Work is Substantially

Complete, the Engineer (or the Inspector) will prepare a Final Punch List and a notice of Substantial Completion which will state the date of Substantial Completion and the time agreed to by the Owner and the Contractor (not to exceed 30 days) in which the Work shall be fully complete and ready for Final Inspection.

1.04 FINAL INSPECTION, FINAL COMPLETION AND FINAL PAYMENT

- A. See General Conditions Section 7. When the Contractor has completed or corrected all the items on the Engineer's Final Punch List, the Contractor shall give the Engineer written notice that the Work is ready for Final Inspection. When the Engineer finds the Work acceptable and fully complete in accordance with the Contract Documents, and upon receipt of a final Application for Payment and all final submittals, the Engineer will recommend that the Owner issue a Notice of Final Completion, make Final Payment and Accept the Work stating that to the best of the Engineer's knowledge, information and belief, and on the basis of the Engineer's observations and inspection, the Work has been fully completed in accordance with the terms and conditions of the Contract Documents.
- B. Final Submittals include:
 - 1. Operation and Maintenance Manuals and Parts Lists
 - 2. Record Drawings
 - 3. Extra Materials
 - 4. Special Guarantees
 - 5. Insurance Certificate showing required continuation of coverage beyond Final Payment. See General Conditions Section 5, paragraph 5-1.19.
 - 6. Release of Liens. See General Conditions Section 7, paragraph 5-1.04.
 - 7. Waiver of Claims by Contractor. See General Conditions Section 7-1.11.
 - 8. And any other submittals required by the Contract Documents and not previously received.
- C. The Owner will record the Notice of Final Completion at the County Recorders Office.
- D. The Owner will make Final Payment to the Contractor per Section 7 of the General Conditions.

1.05 RECORD DRAWINGS

- A. The Contractor shall maintain on the jobsite, a complete set of Contract Documents and a complete file of all addenda, contract modifications and favorably reviewed submittals. The Contractor shall prepare a set of Record Drawings concurrently with the construction of the Work and in accordance with General Conditions Section 2, paragraph 2-1.13 and the following:
 - 1. Show the invert elevation of all water piping (installed by open cut trenching) and the top of pipe, top of conduit or top of protective concrete encasement for other utilities. Elevations shall be related to a permanent visible elevation bench mark set at the site by the Contractor.
 - 2. Show the horizontal location of underground utilities measured from permanent visible physical features such as face of building, face of tank, or centerline of manhole.

3. Comply with detailed requirements in technical specification sections describing the type of information required on Record Drawings. The Contractor's copy of Contract Documents, Contract modifications and Record Drawings shall be available to the Engineer for weekly verification that the records are being currently updated.
- B. On completion, the Contractor shall employ professional drafters to transfer all information recorded on Record Drawings during construction and shall develop as-built plans for all the pipe and all facilities installed as part of this Contract. The as-built plans shall be provided in two formats as described below:
 1. Two full size 24" x 36" bound hard copies and
 2. Electronic pdf format via a CD or other similar recordable deviceBoth formats shall be obtained at Contractor's expense.
- C. Submit Record Drawings and As-Built Plans (in both formats described above) and obtain acceptance prior to completion and final payment.

1.06 EXTRA MATERIALS

- A. Deliver specified extra materials and parts to Owner. Itemize all items on a transmittal letter in duplicate and obtain signature of receiving party. Submit copies of signed transmittals for all specified extra materials and parts prior to completion.

1.07 SPECIAL GUARANTEES

- A. Section 7, paragraph 7-1.10 of the General Conditions covers the Contractor's responsibility to remedy defects due to faulty workmanship and materials which appear within one year from the date of Substantial Completion.
- B. Guarantees for more than one year when called for in various sections of the Specifications shall be in the form of a special guarantee written on the letterhead of the Contractor, Subcontractor, or Supplier doing the work and/or supplying the item to be guaranteed, and countersigned by the Contractor as follows.
- C. Special Guarantee:

We hereby guarantee that the _____ which we have provided in the _____, Project, was done in accordance with the Drawings and Specifications, and that the work, as installed, will fulfill the requirements of the guarantee included in Specification Section _____. We agree to repair or replace any or all of our work, together with any other adjacent work which may be damaged or displaced by so doing, that may prove to be defective in workmanship or material (with the exception of defects due to ordinary wear and tear, and unusual abuse or neglect) within a period of _____ years from the date of acceptance of the above-named facility, without any expense whatsoever to the Owner. In the event of our failure to comply with the above-mentioned conditions within the period set forth in Section 7 of the General Conditions after being notified in writing by the Owner, we, collectively or separately, do hereby authorize the Owner to proceed to have said defects repaired and made good at our expense, and we will honor and pay the costs and charges

therefor upon demand. We understand that the provisions of General Conditions apply to this Special Guarantee.

Signed _____
(Subcontractor or Supplier)

Company _____

Address _____

Telephone Number _____

Countersigned _____
(Contractor)

- D. Submit two original signed copies of each required Special Guarantee prior to completion.

1.08 TWELVE-MONTH INSPECTION

- A. Thirty (30) days prior to the expiration of the one-year guarantee period described in General Conditions Article 12, the Contractor shall tour the project with the Engineer and/or the Owner to prepare a list of corrective work required under the 12-month guarantee. The Contractor shall correct all items found to be defective within 20 days of receipt of the list of items to be corrected.

END OF SECTION

SECTION 02202

EARTHWORK

PART 1 - GENERAL

1.01 SECTION INCLUDES

- A. General: The Contractor shall perform all excavation, shoring, dewatering, backfilling, compaction and grading necessary or required for the construction of the work as covered by these Specifications and indicated on the Drawings. The excavation shall include, without classification, the removal and disposal of all materials of whatever nature encountered, including water and all other obstructions that would interfere with the proper construction and completion of the required work.
- B. Site Access: Access to the site will be over public roads. The Contractor shall exercise care in the use of such roads and shall repair at his own expense any damage thereto caused by his operations. Such repair shall be to the satisfaction of the City or agency having jurisdiction over the road. The Contractor shall take whatever means are necessary to prevent tracking of mud onto existing roads and shall keep roads free of debris.
- C. Traffic Regulation: Provide such flagmen, patrols, pilot cars, drivers, lighted barricades, flares, lights, warning signs, and safety devices as may be required for control of traffic adjacent to all areas of work. A minimum of one lane of traffic shall be kept open at all times on public roads. Road closure requires advanced notice and a Traffic Control Plan, see Section 01500.
- D. Barriers: Barriers shall be placed at each end of all excavations and at such places along excavations as may be necessary to warn all pedestrian and vehicular traffic of such excavations. For excavations that shall be left overnight, steel road plates, shall be placed over such excavations to keep them completely covered until Contractor is ready to resume work, or until excavation is entirely restored. Lights shall also be placed along excavations from sunset each day to sunrise of the next day until such excavation is entirely restored.
- E. Access: Free access must be maintained to all fire hydrants, water valves and meters, and private driveways.
- F. Open Trench Limitations: The Engineer shall have the authority to limit the amount of trench to be opened or left open at any one time. In public roads, excavation and pipe laying shall be coordinated to the end that a minimum of interference with public traffic will result.
- G. Demolition of Pavement: Where trenching or excavation occurs in paved areas, the pavement shall be sawcut and broken ahead of the trenching or excavation operation. The extent of paving removed shall be limited to the minimum necessary for the excavation.

- H. Dust Control: Take proper and efficient steps to control dust.
- I. Permits: Refer to General Conditions, Section 5, Paragraph 1.15.
- J. Storage of Materials: Excavated materials unsuitable for backfill shall not be stored on existing streets, and shall be disposed of immediately. Neatly place excavated materials far enough from the excavation to prevent stability problems. Keep the materials shaped so as to cause the least possible interference with drainage or the normal use of adjacent properties, structures or roadways.
- K. Temporary Pavement: Place temporary pavement or first lift of permanent pavement on trenches in existing streets within 24 hours after the trench has been backfilled. Maintain temporary pavement until permanent pavement is to be placed. At the request of the Engineer (for some locations), road plates shall be placed in lieu of temporary pavement until the Contractor has reconnected the newly installed water mains to the existing system, after which permanent pavement shall be placed.

1.02 SUBMITTALS

- A. Submit the following under the Product Information category.
 - 1. Sheeting and Shoring Plan: Refer to Section 01040.
 - 2. Potholing Report as described in Paragraph 3.02 and Section 02202.
 - 3. Samples and Test Results: Furnish, without additional cost to the City, such quantities of import materials as may be required by the Engineer for test purposes. The Contractor shall cooperate with the Engineer and furnish necessary facilities for sampling and testing of all materials and workmanship. Submit test results for import materials.

1.03 QUALITY ASSURANCE

- A. Source Quality Control: Contractor shall test import materials proposed for use to demonstrate that the materials conform to the specified requirements. Tests shall be performed by an independent testing laboratory and shall be at Contractors cost.
- B. Field Quality Control:
 - 1. The City will:
 - a. Review and test materials proposed for use.
 - b. Inspect foundations, site grading and borrow operations.
 - c. Inspect placement and compaction of fill.
 - d. Test soils during placement of fill.
 - 2. Contractor shall excavate holes for in-place soil sampling. Contractor shall be responsible for costs of additional inspection and re-testing resulting from non-compliance.
- C. Testing Methods:
 - 1. Durability Index: Manual of Test, State of California, Department of Transportation.
 - 2. Specific Gravity: ASTM D854.
 - 3. Laboratory Compaction: ASTM D1557, Method A or C.
 - 4. In-Place Density: ASTM D1556 or ASTM D2922.

5. Particle Size Analysis of Soils: ASTM D422.
6. Plastic Limit and Plasticity Index: ASTM D4318.
7. Soil Classification: ASTM D2487.
8. In-Place Moisture Content: ASTM D3017.

D. Definition:

1. Relative Compaction: In-place dry density divided by the maximum dry density laboratory compaction express as a percentage.

1.04 EXPLOSIVES

- A. The use of explosives will not be permitted on this project, unless specifically authorized, in writing, by the Engineer.

PART 2 - PRODUCTS

2.01 MATERIALS

- A. Material for backfilled trenches shall contain no organic material and no rocks or soil lumps exceeding 3-inches in diameter.
- B. Crushed Stone shall be well-graded $\frac{3}{4}$ to $\frac{1}{4}$ in. crushed stone, having a minimum of one fractured face, or other angular, non-consolidating bedding material not subject to migration. Crushed stone shall be fully encapsulated in geotextile fabric. Use pea gravel for Ductile Iron Pipe.
- C. Bedding shall be pea gravel as specified in the City of Roseville Standards. Native soil shall not be used for bedding.
- D. Initial Backfill shall be approved native material or imported material, 10% passing No.8 sieve, 100% passing $\frac{1}{2}$ -inch sieve, 90% relative compaction.
- E. Intermediate backfill shall consist of approved native material or imported material, 100% passing $\frac{3}{4}$ -inch sieve, minimum sand equivalent of 50, compacted to 90% relative compaction to within 30-inches of the road surface except as noted below.
- F. Where pipes are laid in unpaved areas, intermediate backfill shall consist of approved native material, compacted to 90% relative compaction to within 6-inches of the ground surface.
- G. The subbase layer for paving, a two-foot layer to 6-inches below road surface, shall be of two sack concrete slurry in accordance with Caltrans Standard Specification 19-3.062.
- H. Trench backfill shall conform to City of Roseville construction detail TB-3. If native soil excavated from trenches is determined to be unsuitable, structural fill shall be gravel, sandy gravel, or gravelly sand. Material shall have a plasticity index of less than 15 and shall conform to the following gradation limits:

<u>Sieve Size</u>	<u>Percent Finer By Weight</u>
-------------------	--------------------------------

4-in	100
No. 4	20 to 70
No. 40	5 to 35
No. 200	0 to 7

- I. Sand for concrete, grout, and masonry shall conform to ASTM C33 for fine aggregate.
- J. Slurry shall be used on a case-by-case basis in other conditions. Slurry shall be in accordance with Caltrans Standard Specification 19-3.062.
- K. Filter fabric shall be Mirafi, Type 140N, Propex Geotex 451, or equal and shall conform to the following requirements:
 - 1. Minimum grab strength of 120 lbs per ASTM D4632.
 - 2. Apparent opening size (AOS) to be equal to or greater than the U.S. Standard Sieve No. 70 (0.212 mm) per ASTM D4751.
 - 3. Minimum water flow rate of 120 gpm/ft² per ASTM D4491.
 - 4. Minimum puncture strength of 65 lbs per ASTM D4833.

PART 3 - EXECUTION

3.01 CONTROL OF WATER

- A. All excavations shall be kept free from water and all construction shall be in the dry.
 - 1. It should be presumed that the presence of groundwater will require dewatering operations. The Contractor shall furnish, install, maintain, and operate all necessary pumping and other equipment for dewatering all excavations.
 - 2. Dispose of water in such a manner as to cause no injury or nuisance to public or private property, or be a menace to public health.
 - 3. Continue dewatering during backfilling operations such that the groundwater is at least 1 foot below the level of the compaction effort at all times. No compaction of saturated materials will be allowed.
 - 4. Dewatering devices must be adequately filtered to prevent the removal of fines from the soil.
 - 5. The Contractor shall be responsible for any damage to the foundations or any other parts of existing structures or of the new work caused by failure of any part of the Contractor's protective works. After temporary protective works are no longer needed for dewatering purposes, they shall be removed by the Contractor.
 - 6. Prevent disposal of sediments from the soils to adjacent lands or waterways by employing whatever methods are necessary, including settling basins.
- B. The Contractor shall be responsible for furnishing temporary drainage facilities to convey and dispose of surface water falling on or passing over the site.

3.02 EXISTING UTILITIES

- A. General: The Contractor shall exercise care in avoiding damage to all utilities as he will be held responsible for their repair if damaged. There is no guarantee that all utilities or obstructions are shown on the drawings, or that locations indicated are accurate. Utilities are piping, conduits, wire, cable, duct banks, manholes and the like, located in some portions of the project site, in the vicinity of probable work areas.
- B. Check on Locations (Potholing):
1. Contact all affected utility owners and request them to locate their respective utilities prior to the start of "potholing" procedures. The utility owner shall be given 7 days written notice prior to commencing potholing. If a utility owner is not equipped to locate its utility, the Contractor shall locate it.
 2. Clearly paint the location of all affected utility underground pipes, conduits and other underground utilities on the pavement or identify the location with suitable markers if not on pavement. In addition to the location of metallic pipes and conduits, non-metallic pipe, ducts, manholes, duct banks and conduits shall also be similarly located using surface indicators and detection tape, if present and shall then be similarly marked.
 3. After the utility survey is completed, commence "potholing" to determine the actual location and elevation of all utilities including where crossings, interferences, or connections to the new pipelines are shown on the Drawings, and/or have been marked by the utility companies or indicated by surface signs. All areas where Contractor plans to trench must be potholed prior to trenching. Prior to the preparation of piping shop drawings, or the excavating for any new pipelines or structures, the Contractor shall locate and uncover these existing utilities including services and laterals to a point 1 foot below the utility. Submit a report (prior to commencing trenching) identifying each underground utility and its depth and station to the Engineer
 4. Excavations around underground electrical ducts and conduits shall be performed using extreme caution to prevent injury to workmen or damage to electrical ducts or conduits. Similar precautions shall be exercised around gas lines, telephone and television cables and all other underground utilities.
 5. Backfill after completing potholing. In existing streets, pave with 1 inch of cutback.
- C. Interferences:
1. If interferences occur at locations other than shown on the Drawings, the Contractor shall notify the Engineer, and provide a recommendation for installing the new water mains, to clear such interferences. This recommendation shall be submitted for the Engineers review and approval. Refer also to Schedule of Bid Items, Item Description "Misc. Utility Conflict Resolution".
- D. Shutdowns: Planned utility service shutdowns shall be accomplished during period of minimum use. In some cases this may require night or weekend work. Such work shall be at no additional cost to the City. Program work to allow service to be restored in the minimum possible time, and shall cooperate with the utility companies in reducing shutdowns of utility systems to a minimum.

1. Disconnections: No utility shall be disconnected without prior written approval from the utility owner. When it is necessary to disconnect a utility, the Contractor shall give the utility owner not less than 72 hours notice when requesting written approval. The Contractor is required to also notify all water customers that shall be impacted by the shutdown, 48 hours prior to the shutdown. The Contractor shall program his work so that service will be restored in the minimum possible time.
- E. Existing gas, water, sewer and telephone laterals are not specifically shown on the Drawings but may exist along the pipeline routes. Protect all service laterals from damage due to construction operations. If any laterals are damaged, notify the Engineer and the affected utility immediately. The cost of repair shall be borne by the Contractor.

3.03 TRENCH EXCAVATION

- A. Excavation for pipe shall be in open cut. The trench shall be as wide as necessary for sheeting and bracing (if required) and the proper performance of the work. The sides of the trenches shall be vertical. The Contractor's specific method for excavation and dimensions (length, width, depth) of trench shall be submitted to the Engineer for favorable review prior to its use. The requirements of this paragraph shall apply to all other areas where Contractor shall excavate.
- B. Take care not to over excavate. Accurately grade the bottom of the trenches to provide uniform bearing and support for each section of the pipe at every point along its entire length. Remove stones as necessary to avoid point bearing.
- C. Backfill and compact over excavations to 90% relative compaction with bedding material. There shall be no additional payment to the Contractor for over excavations not directed by the Engineer.
- D. When required, provide ladders for access to the trench by construction and inspection personnel.

3.04 EXCAVATION FOR STRUCTURES

- A. All dimensions for excavation shall be determined by the Contractor (All trench dimensions shown on the plans are only approximate). Trench locations are also proposed. Contractor shall verify and determine trench locations. Excavate to such width as may be required for proper working methods and the protection of the work. Submit for Engineer review, the plan and profile for all trenches Contractor will excavate.
- B. Where unsatisfactory material is encountered below grade, it shall be removed and replaced with selected material as directed by the Engineer and compacted. Payment for removal and replacement of such unsatisfactory material directed by the Engineer shall be made in accordance with the provisions of the General Conditions

3.05 BACKFILL AND COMPACTION

- A. Bedding Materials – Place bedding material under and around pipe per City of Roseville Domestic Water Standard W-1, Section 81-6 and 81-9 and City of Roseville Design and Construction Standard Detail TB 3 of Section 31.
- B. Backfill material shall not be placed over the pipe until after it has been inspected by the assigned City of Roseville Inspector.
- C. The area above the “Bedding Zone” shall be backfilled per the City of Roseville, Domestic Water Standards W-1 and City of Roseville Design and Construction Standard Detail TB3 of Section 31.
- D. It shall be incumbent upon the Contractor to protect the pipe from damage during the construction period. It shall be the Contractors responsibility to repair broken or damaged pipe at no extra cost to the City. Tamping of backfill over the pipe shall be done with tampers, vibratory rollers and other machines that will not injure or disturb the pipe. Carefully place backfill around and over the pipe and do not allow the material to fall directly onto the pipe.
- E. Do not allow construction or highway traffic over the pipe trench until the trench backfill has been raised to the same level as the existing adjacent grade.
- F. Add water to the backfill material or dry the material as necessary to obtain the optimum moisture content. If the Engineer determines that the nature of the ground in which the trench lies precludes compaction of the backfill to the specified density, the backfill shall be compacted to the maximum practicable density. Employ such means as may be necessary to secure a uniform moisture content throughout the material of each layer being compacted. After the material has been moisture conditioned, compact it with compaction equipment approved by the Engineer to achieve specified compaction. The Contractor shall be responsible for obtaining the densities that meet industry standards and standards specified in these Contract Documents. In the event that the Contractor fails, through negligence or otherwise, to compact to the specified density, or to backfill and compact to surface grade, thus permitting saturation of the backfill material from rains or from any other source, the faulty material shall be removed and replaced with approved material which shall be compacted to the specified density at optimum moisture content, and no additional payment will be made for doing such work or for the removal and replacement.
- G. Compaction by flooding, ponding or jetting will not be permitted.
- H. Compact backfill for trench backfill to 90% relative compaction.
- I. Contractor shall be responsible for all Geotechnical Engineering testing, supervision and inspections.

3.06 SUPPORT OF EXCAVATIONS

- A. Adequately support excavation for trenches and structures to meet all applicable requirements in the current rules, orders and regulations. Where applicable,

excavation shall be adequately shored, braced and sheeted so that the earth will not slide or settle and so that all existing structures and all new pipe and structures will be fully protected from damage. All excavations that shall not be restored at the end of the Contractor's work day and that shall not be restored overnight shall be shored and covered with steel road plates until sunrise when the Contractor resumes work. Keep vehicles, equipment and materials far enough from the excavation to prevent instability.

- B. Take all necessary measures to protect excavations and adjacent improvements from running, caving, boiling, settling, or sliding soil resulting from the high groundwater table and the nature of the soil excavated. Attention is directed to Section 832 of the Civil Code of the State of California relating to lateral and subjacent supports, and wherever structures or improvements adjacent to the excavation may be damaged by such excavation, the Contractor shall comply with this law.
- C. Where applicable, the support for excavation shall remain in place until the pipeline or structure has been completed. During the backfilling of the pipeline or structure, the shoring, sheeting and bracing shall be carefully removed so that there shall be no voids created and no caving, lateral movement or flowing of the subsoils.

3.07 FINISH GRADING

- A. Except where shown otherwise in the Drawings, restore the finish grade to the original contours and to the original drainage patterns. Grade surfaces to drain away from structures. The finished surfaces shall be smooth and compacted.

3.08 DISPOSAL OF EXCAVATED MATERIAL

- A. Dispose of unsuitable material or excavated material in excess of that needed for backfill offsite in accordance with the requirements of Section 01140, Environmental Protection Procedures.

END OF SECTION

SECTION 02318

TRENCHING

PART 1 GENERAL

1.01 SUMMARY

- A. Section Includes: Trench excavation, fine grading, pipe bedding, backfilling, and compaction for the following:
 - 1. Pipe.
 - 2. Manholes, valves, or other accessories.
 - 3. Potable water pipe appurtenances.
- B. Related Sections:
 - 1. Section 02722 - Aggregate Base Course.

1.02 REFERENCES

- C. American Society for Testing and Materials (ASTM):
 - 1. C 131 - Test method for resistance to degradation of small size coarse aggregate by abrasion and impact in the Los Angeles machine.
 - 2. C 136 - Sieve analysis of fine and coarse aggregate.
 - 3. D 1556 - Test Method for Density of Soil in Place by the Sand-Cone Method.
 - 4. D1557 - Moisture Density Relations of Soils and Soil - Aggregate Mixtures Using 10lb (4.54-kg) Rammer and 18-inch (457-mm) drop.
 - 5. D 2922 - Test Methods for Density of Soil and Soil-Aggregate in Place by Nuclear Methods (Shallow Depth).
 - 6. D 4318 - Test Method for Liquid Limit, Plastic Limit, and Plasticity Index of Soils.

1.03 SUBMITTALS

- D. Products Data: For all proposed bedding and backfill materials.
 - 1. Material source.
 - 2. Gradation.
 - 3. Testing data.

PART 2 PRODUCTS

2.01 MATERIALS

- A. General:
 - 1. For material and procedural requirements refer to the City of Roseville Construction Standards Section 31.
- B. Aggregate Base Course: As specified in Section 02722.

PART 3 EXECUTION

3.01 INSTALLATION

A. Trench Excavation:

1. General Requirements:

- a. If, because of soil conditions, safety requirements or other reasons, trench width at top of pipe is increased beyond width specified in this Section, upgrade laying conditions or install stronger pipe designed in conformance with Specifications for increased trench width, without additional cost.
- b. Pipe:
 - 1) Prepare trench and install pipe per City of Roseville Design and Construction Standards Section 81 and Detail W-1.
- c. For Valves, and Other Accessories:
 - 1) Provide excavations sufficient to leave at least 12 inches clear between their outer surfaces and embankment or shoring which may be used to hold banks and protect them.
- d. At Road Crossings or Existing Driveways:
 - 1) Make provision for trench crossings at these points, either by means of backfills, or other methods. Use of other methods shall be approved by the Engineer or City of Roseville Inspector prior to use.

B. Trench Backfill:

1. Place and compact backfill in accordance with City of Roseville, Domestic Water Standard W-1, detail TB-3 of Section 31 and Section 81-6.

C. Compacting Native Material:

1. Assure that native material, when used, is capable of being compacted to degree specified. Contractor is required to provide certified Geotechnical Engineering services to ensure that all requirements for compaction are met.
2. If native material cannot be compacted to density as specified, remove and dispose of material whether it has been placed in trench as backfill or not, and utilize other backfill material from another source acceptable to the ENGINEER.

3.02 FIELD QUALITY CONTROL

A. Tests: All testing shall conform to City of Roseville Standards.

1. Confirmation Tests:

a. Contractor's Responsibilities:

- 1) Accomplish specified compaction of trench backfill.
- 2) Control operations by confirmation tests to verify and confirm that compaction work complies, and is complying at all times, with requirements specified in this Section concerning compaction, control, and testing.
- 3) Tests shall be performed by a City of Roseville consultant geotechnical engineer.

b. Frequency of Confirmation Testing:

- 1) Perform testing not less than as follows:
 - a) For Trenches: At each test location include tests for each type or class of backfill from bedding to finish grade.

- b) Crossing Paved Roads: two locations along each crossing.
- 2. Compliance Tests:
 - a. Frequency of Testing: Periodic compliance tests will be made by the City of Roseville Inspector to verify that compaction is meeting requirements previously specified. The frequency shall be determined by the City.
 - b. For Tests in Water Settled Backfill: Remove overburden above level at which the City of Roseville Inspector shall determine is required to conduct the test. Backfill and re-compact excavation after testing is completed.
 - c. If Compaction fails to meet specified requirements: Perform remedial work as specified by the geotechnical engineer and/or as follows:
 - 1) Remove and replace backfill at proper density.
 - 2) Bring density up to specified level by other means acceptable to the City.
 - d. Retesting:
 - 1) Contractor's Confirmation Tests During Performance of Remedial Work:
 - a) Performance: Perform tests in manner acceptable to the City.
 - b) Frequency: Shall match the frequency specified for initial confirmation tests.
- 3. Water Testing Pipe:
 - 1) After Bedding the Pipe, CONTRACTOR shall backfill to surface, before water-testing pipe. If pipe does not pass test, uncover pipe, locate leaks, repair, and retest, repeating until pipe section under test passes. This work shall be conducted at Contractor's own cost.

3.02 SCHEDULES

- A. Bedding Materials:
 - 1. See City of Roseville Construction Standards Section 81 for requirements and Domestic Water Standard W-1.

END OF SECTION

SECTION 02660

WATER PIPELINE AND ACCESSORIES

PART 1 - GENERAL

1.01 SECTION INCLUDES

- A. Requirements specified in Division 1 form a part of this Section.
- B. Work Included in this Section: Furnish and install all piping, including fittings, valves, and accessories as shown on the Drawings, described in the Specifications and as required to completely interconnect all piping for a complete and operable systems.

1.02 SUBMITTALS

A. Miscellaneous Submittals:

- 1. Submit data to show that the following items conform to the Specification requirements:
 - a. Manufacturers data sheets for the Pipe, fittings, and accessories to be installed for this project. Data sheets submitted should be for products to be used for the installation of the work described in these Contract Documents. (Product Review Submittal)
 - b. Joint and pipe fitting wall construction details which include size and thickness of pipe (Product Review Submittal).
 - c. Fitting and joint fabrication details (Product Review submittal).
 - d. Flexible couplings.
 - e. Restrained joints.
 - f. Valves - Provide certification by valve manufacturer that epoxy coating is holiday free.
 - g. Air release valves.
- 3. Submit certified test reports as required herein and by the referenced standard specifications.
- 4. Disinfection schedule and procedures including:
 - a. "Normal" disinfection procedure.
 - b. Emergency disinfection procedure for mains and services which must be returned to service immediately.
 - c. Disinfection schedule including number and type of services and length of disruption of service.
 - d. Disinfecting agent(s).
 - e. Method of disposal of chlorinated water.

B. Affidavits: Submit affidavits from the manufacturer of the following valves:

- 1. Valves
- 2. Air release valves
- 3. Corporation Stops

4. Curb Stops

- C. The preceding submittals shall be in the Product Information Category except where noted.

1.03 QUALITY ASSURANCE

- A. All materials and equipment furnished under this Section shall: (1) be of a manufacturer who has been regularly engaged in the design and manufacture of the materials and equipment for at least 5 years; and (2) be demonstrated to the satisfaction of the Engineer that the quality is equal to the materials and equipment made by those manufacturers specifically named herein, if an alternate product manufacturer is proposed.
- B. Factory Quality Control: The Contractor shall test all products as required herein and by the reference specifications.
- C. Field Quality Control.
 - 1. The City's Inspector will:
 - a. Inspect fully restrained joints if it is deemed necessary.
 - b. Monitor the leakage testing to be performed by the contractor.
 - c. Perform Holiday testing on interior surfaces of valves, couplings and any exposed steel areas throughout the pipe.
 - 2. The City will:
 - a. Perform bacteriological analysis for pipelines to be disinfected.
 - b. Provide geotechnical services as required.
 - 3. The Contractor shall:
 - a. Perform leakage tests.
 - b. Be responsible for completing disinfection in accordance with City Standards.
 - c. Be responsible for the costs of additional inspection and retesting by the City resulting from non-compliance.

1.04 POTHOLING (CHECK ON LOCATIONS)

- A. Do not prepare any shop drawings for, or make final order for, or design any pipe materials for any particular section of pipeline until all utilities in that section of pipeline have been exposed, as specified in paragraph 3.02 of Section 02202 and until such time as no interferences are found between said existing utilities and the proposed pipeline alignment. If interferences are found in any particular section of pipeline, do not prepare any shop drawings for, or make final order for, or design any pipe materials for that particular section of pipeline until the pipeline alignment has been modified by the Contractor.

1.05 APPURTENANCES

- A. Provide all necessary assembly bolts, washers and nuts, supports, gaskets, flanges, and all other appurtenant items shown on the Drawings, specified or required for the proper installation and operation of the piping, and devices included in or on the piping, equipment, and piping accessories.

1.06 CONSTRUCTION PROCEDURE

- A. Construction under this Contract involves removal of the existing 24 inch water main and replacement with a 16 inch water main and air release service.
- B. Connections and utilities changes must be programmed to provide the least possible interruptions of service. Prior to any shutdown all materials, fittings, supports, equipment and tools shall be on the site and all necessary labor scheduled prior to starting any connection work. The Contractor shall notify the City in writing at least 7 days in advance of any required shutdowns so that affected customers may be notified. In general, shutdowns shall not exceed four hours in duration unless specifically authorized or indicated in the suggested construction sequence. All temporary piping shall be disinfected in accordance with the Field Testing and Disinfection section in PART 3 of this specification Section 02660, before being put into service.
- C. All work under this Contract shall be conducted in a manner which will minimize shutdowns, open roadways, or traffic obstructions caused by the construction. Shutdowns causing damage to adjacent public and private property shall not be permitted, and any damage resulting shall be the sole responsibility of the Contractor.
- D. Planned utility service shutdowns shall be accomplished during periods of minimum use. In some cases this will require night or weekend work, which shall be at no additional cost to the City. The Contractor shall program work so that service will be restored in the minimum possible time. The Contractor shall cooperate with the City in reducing shutdowns of the utility system to a minimum. No utility interruption will be permitted without the prior approval of the City.

PART 2 - PRODUCTS

2.01 GENERAL

- A. All material and installation methods shall conform to City of Roseville Construction Standards Section 81 and Domestic Water details.
- B. All materials delivered to the job site shall be new, free from defects, and marked to identify the material, class, and other appropriate data such as thickness for piping.
- C. Acceptance of materials shall be subject to strength and quality testing in addition to inspection of the completed product. Acceptance of installed piping systems shall be based on inspection and leakage and bacteriological tests as specified hereinafter.
- D. All

PART 3 - EXECUTION

3.01 PIPING INSTALLATION

A. General Handling and Placing:

1. Exercise great care to prevent injury to or scoring of the pipe lining and coating, as applicable, during handling, transportation or storage. Pipe shall not be stored on rough ground and rolling of the pipe on the coating will not be permitted. Repair any damaged pipe sections, specials, or fittings or replace at the direction of the City of Roseville Inspector.
2. Inspect each pipe fitting, valve and accessory carefully before installation. Inspect the interior and exterior protective coatings and patch all damaged areas in the field or replaced at the direction of the City of Roseville Inspector.
3. Place or erect all piping to accurate line and grade and backfill, support, hang, or brace against movement as specified or shown on the Drawings, or as required for proper installation. Remove all dirt and foreign matter from the pipe interior prior to installation and thoroughly clean all joints before joining.
4. Use reducing fittings where any change in pipe size occurs. Bushings shall not be used, unless specifically noted on the Drawings. Use eccentric reducing fittings wherever necessary to provide free drainage of lines.
5. Connections between ferrous and non-ferrous piping and accessories shall be made using a dielectric coupling, union, or flange.
6. For Copper Tubing
 - i. Bends shall be made in a manner that does not crimp or flatten the tubing.
 - ii. Service saddles shall be a minimum of 12 inches from the end of the main and 24-inches to any other service saddle or pipe joint.
 - iii. Service lines shall be encased in 8-mil minimum thickness poly tubing and backfilled with sand.
 - iv. Service saddles shall be installed with zinc caps on all bolts. Manufacturers include Mars or approved equal.

B. General Buried Piping Installation:

1. Trenching, bedding, and backfill for buried piping shall be as shown on the Drawings and as specified in Section 02202.
2. Buried piping shall have at least 3 feet of cover for open cut installation.
3. Provide each pipe with a firm, uniform bearing for its full length in the trench except at field joints. Do not lay pipe in water or when trench conditions or weather are unsuitable for such work.
4. Protect buried piping against thrust by use of restrained pipe joints, or thrust blocks. Securely brace all exposed free pipe ends.
5. Ductile Iron Pipe Encasement: Provide a polyethylene encasement in accordance with ANSI/AWWA C105/A21.5.

C. Water Main Installation:

1. The Contractor is advised that precautions taken to keep the pipeline clean during construction will facilitate achieving the disinfection requirements of this project with a minimum of effort and expense. Compliance with these

suggested minimum procedures will not relieve the Contractor of the disinfection requirements.

2. Prior to installation, thoroughly clean the interior of each length of pipe and each fitting or valve and inspect to ensure that no foreign material remains. Cover both ends with plastic and do not uncover them until just prior to completing the joint.
3. Whenever pipe laying is discontinued for short periods, or whenever work is stopped at the end of the day, close the open ends of the pipe with watertight plugs or bulkheads.
4. Provide adequate trench pumping to ensure against groundwater contacting the inside of the pipeline at any time. Do not lower any pipe or fitting into a trench where groundwater is present and may enter the pipe. When necessary, pump the water from trenches and keep the trench dry until the joints have been completed and the open ends of the pipe have been closed with a watertight plug. Do not remove the plug until the trench has again been pumped dry.
5. Keep new pipe sections clean and dry.
6. When making the connection between a new pipeline and an existing pipeline, or when repairing a damaged pipe, take the following extra precautions:
 - a. Clean the exterior of the existing pipeline of all dirt and debris, and spray or swab with a standard 5.25% or stronger chlorine solution (as specified) in the immediate vicinity of the work. Clean equipment and materials, including new pipe and fittings, to be used in making these connections of all dirt and debris and disinfect them. Allow at least 30 minutes contact time for disinfection before the chlorine solution is diluted or rinsed off. Provide sufficient trench pumps to prevent flooding of the trench.
 - b. When an old line is opened, either by accident or by design, the excavation may be wet or badly contaminated from groundwater. Apply liberal quantities of standard chlorine solution or tablets to the open trench areas to lessen the danger from such pollution. Tablets are recommended because they dissolve slowly and continue to release hypochlorite as water is pumped from the excavation. Scatter liberally around and locate the tablets so that flow entering the work site will contact the disinfecting agent. Trench application should be done very carefully to avoid contact by skin and clothing with chlorine solution. Minimally, safety dictates wearing safety goggles and rain gear over standard work clothing.
 - c. When excavating a leaking or broken pipeline, "valve-off" the system gradually to less than water tightness. This is to prevent causing areas of zero pressure which would allow entry of foreign material. A flow should be maintained which is slightly less than trench pump capability. Once the break is exposed and cleaned to disallow site contamination, the valving can then be made water tight.

D. Installation Specifics

- a. Buried pipe shall be installed in accordance with AWWA standards.
- b. Wrap buried pipe with 10 mil polyethylene film in accordance with AWWA C105. Continuously seal seams and overlaps with tape. Seal circumferential overlaps with two turns of tape, half lapped. Gather excess polyethylene on top of pipe so as not to block backfill material from getting

under bottom of pipe. Use caution so as not to rip or cut the polyethylene film. Seal any rips or cuts in the film with tape.

- c. Flanged Joints: Flanged joints shall be made up tight with care being taken to avoid undue strain in the flanges, fittings, and other accessories. Bolt holes shall be aligned for each flanged joint. Bolts shall be full size for bolt holes; use of undersize bolts to make up for misalignment of bolt holes or for any other purpose will not be permitted. Adjoining flange faces shall not be out of parallel to such a degree that the flanged joint cannot be made watertight without over-straining the flange. Replace any flanged pipe or fitting whose dimensions do not allow the making of a proper flanged joint as specified herein by one of proper dimensions. Clean flanges prior to making joints.
- d. Restrained Joints: Install in accordance with manufacturer's instructions. Pull slack out of joint after makeup.

3.02 INSTALLATION OF VALVES AND ACCESSORIES

- A. Use reducing fittings where any change in pipe size occurs between valves or accessories and the attached pipeline. Bushings shall not be used, unless specifically noted on the Drawings. Use eccentric reducing fittings wherever necessary to provide free drainage of lines. Inspect each piece of pipe and each fitting carefully to see that there is no defective workmanship on pipe, or obstructions in pipes and fittings.

3.03 CLEANING

- A. Prior to testing, the inside of each completed pipeline shall be thoroughly cleaned of all dirt, loose scale, sand and other foreign material. Cleaning shall be by sweeping, flushing with water internal cleaning device or "pig" or blowing with compressed air, as appropriate for the size and type of pipe. Flushing shall achieve a velocity of at least 3 feet per second. The Contractor shall install temporary strainers, temporarily disconnect equipment or take other appropriate measures to protect equipment while cleaning piping. Cleaning shall be completed after any repairs.

3.04 FIELD TESTING AND DISINFECTION

- A. General: Pressure testing, chlorine disinfection and water quality testing shall be performed per Section 81-13 of the latest City of Roseville Construction Standards.

END OF SECTION

SECTION 02722

AGGREGATE BASE, SUBBASE AND CONCRETE

PART 1 GENERAL

1.01 SUMMARY

- A. Section Includes: Aggregate Base, Subbase and Concrete.
- B. Related Sections:
 - 1. Section 02202 - Earthwork.

1.02 REFERENCES: The work to be installed for this Contract shall conform to the latest editions of:

- A. City of Roseville, Design and Construction Standards, Section 71.
- B. State of California Department of Transportation:
 - 1. CALTRANS - Standard Specifications and Amendments to the Standard Specifications

1.03 SUBMITTALS

- A. Product Data: (Design Mix)
 - 1. Source, gradation, and testing data for aggregate base, subbase and concrete course.
- B. Quality Control:
 - 1. Test Reports: Reports for tests required by Sections of CALTRANS Standard Specifications.
 - 2. Certificates of Compliance: Certificates as required by Sections of CALTRANS Standard Specifications.

1.04 DELIVERY, STORAGE, AND HANDLING

- A. Storage and Protection: Protect from segregation and excessive moisture during delivery, storage, and handling.

PART 2 PRODUCTS

2.01 MATERIALS

- A. Aggregate Base, Subbase and Concrete Course:
 - 1. Refer to the City of Roseville, Design and Construction Standards, Section 71 for all requirements.

PART 3 EXECUTION

3.01 EXAMINATION

- A. Verification of Conditions: Examine conditions upon which the work specified in this Section depends for defects that may influence installation and performance.
- B. Do not proceed with installation until unsatisfactory conditions have been corrected.

3.02 PREPARATION

- A. Shall meet all requirements of the City of Roseville, Design and Construction Standards, Section 71 and the CALTRANS Standard Specification.

3.03 INSTALLATION

- A. Furnish, spread, and compact aggregate base and subbase per the requirements of the City of Roseville Design and Construction Standards, Section 71.
- B. Furnish and install the concrete per Section 71 requirements.

3.04 FIELD QUALITY CONTROL

- A. Tests: Perform field tests as required by sections of the City of Roseville Construction Standards, Section 71 and the CALTRANS Standard Specifications.

END OF SECTION

SECTION 02762
PAVEMENT MARKINGS

PART 1 GENERAL

1.01 SUMMARY

- A. Section Includes: Pavement marking requirements for striping text and graphics.

1.02 REFERENCES: The work for this contract shall conform to the latest editions of:

- A. City of Roseville, Design and Construction Standards Sections 84 and 85.
- B. State of California Department of Transportation:
 - 1. CALTRANS – Standard Specifications and Amendments to the Standard Specifications

1.03 SUBMITTALS

- A. Product Data.
- B. Manufacturer's Instructions.

1.04 QUALITY ASSURANCE

- A. Applicator Qualifications: Minimum 5 years experience of applying traffic markings with satisfactory performance record.
- B. Regulatory Requirements: Comply with applicable requirements of governmental agencies having jurisdiction, including airborne emissions and industrial waste disposal requirements.

PART 2 ADDITIONAL REQUIREMENTS

The Contractor shall conform to these additional requirements from the Standard Specifications and the related amendments:

SECTION 84. TRAFFIC STRIPES AND PAVEMENT MARKINGS

84-1.01 TRAFFIC STRIPES AND PAVEMENT MARKINGS

In addition to Section 71 of the Roseville Design and Construction Standards and Section 84 of the Standard Specifications, the following applies:

Should the Contractor be unable to place Traffic Stripe and Pavement Markings due to unsuitable weather conditions, the Engineer can temporarily suspend work as allowed in Section 8-1.05 of the Standard Specifications. Should the work be suspended for greater than 14 days, Temporary Pavement Stripe and Markings should be placed in lieu of Thermoplastic Traffic Stripe and Pavement Markings. Placement of Temporary Stripe and Pavement Markings shall be considered Extra Work as allowed in Section 4-1.03D of the Standard Specifications, or as

directed by the Engineer.

84-2.01 THERMOPLASTIC TRAFFIC STRIPE AND PAVEMENT MARKING

Thermoplastic traffic stripes (traffic lines) and pavement markings shall be applied in conformance with the provisions in Section 84, "Traffic Stripes and Pavement Markings," of the Standard Specifications and the Contract Documents.

Thermoplastic material shall be free of lead and chromium, and shall conform to the requirements in State Specification PTH-02ALKYD.

Retroreflectivity of the thermoplastic traffic stripes and pavement markings shall conform to the requirements in ASTM Designation: D 6359-99. White thermoplastic traffic stripes and pavement markings shall have a minimum initial retroreflectivity of $250 \text{ mcd}\cdot\text{m}^{-2}\cdot\text{lx}^{-1}$. Yellow thermoplastic traffic stripes and pavement markings shall have a minimum initial retroreflectivity of $150 \text{ mcd}\cdot\text{m}^{-2}\cdot\text{lx}^{-1}$.

Where striping joins existing striping, as shown on the plans, the Contractor shall begin and end the transition from the existing striping pattern into or from the new striping pattern a sufficient distance to ensure continuity of the striping pattern.

Thermoplastic traffic stripes shall be applied at the minimum thickness and application rate as specified below. The minimum application rate is based on a solid stripe of 4 inches in width.

Minimum Stripe Thickness inch	Minimum Application Rate inch
0.079-inch	0.27-lb/ft
0.098-inch	0.34-lb/ft

Thermoplastic traffic stripes and pavement markings shall be free of runs, bubbles, craters, drag marks, stretch marks, and debris.

At the option of the Contractor, permanent traffic striping and pavement marking tape conforming to the provisions in "Prequalified and Tested Signing and Delineation Materials" of these special provisions may be placed instead of the thermoplastic traffic stripes and pavement markings specified herein. Permanent tape, if used, shall be installed in conformance with the manufacturer's specifications.

If permanent tape is placed instead of thermoplastic traffic stripes and pavement markings, the tape will be measured and paid for by the linear foot as thermoplastic traffic stripe and by the square foot as thermoplastic pavement marking.

Thermoplastic Traffic Stripe and Pavement Markings shall be measured and paid for as outlined in Sections 84-2.05 "Measurement" and 84-2.06 "Payment" of the Standard Specifications.

SECTION 85. PAVEMENT MARKERS

85-1.01 PAVEMENT MARKERS

Pavement markers shall be placed in conformance with the provisions in Section 85, "Pavement Markers," of the Standard Specifications, the City of Roseville Design and Construction Standards, and the Contract Documents.

The Contractor shall furnish the Engineer certificates of compliance for the pavement markers in conformance with the provisions in Section 6-1.07, "Certificates of Compliance," of the Standard Specifications.

Retroreflective pavement markers shall be marked as abrasion resistant on the body of the markers.

The contract unit price paid for Pavement Markers shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals for doing all work involved in placing Pavement Markers complete in place as shown on the plans, as specified in the Standard Specifications and the Contract Documents, and as directed by the Engineer.

PART 3 EXECUTION

3.01 PREPARATION and APPLICATION

- A. Refer to City of Roseville, Design and Construction Standards Sections 84 and 85 for additional requirements.

END OF SECTION

SECTION 02900
LANDSCAPING

PART 1 - GENERAL

1.01 General Requirements

- A. The requirements set forth in the General Conditions shall be in addition to the standards provided herein.
- B. The requirements set forth in the Supplemental Conditions shall be in addition to the standards provided herein.
- C. All work shall be in conformance with the City of Roseville Parks Construction Standards.

1.02 Description

- A. Furnish all labor, materials and equipment for the complete restoration of landscape items, including all trees, shrubs, groundcovers and turf destroyed as a result of the Contractors activities; maintenance for the establishment of new plant materials; and all necessary appurtenances for proper planting, noted or implied, as indicated in the Contract Documents specified herein.

1.03 Related Work

- A. Section 02202: Earthwork

1.04 Quality Assurance

- A. Provide an experienced foreman who shall directly supervise the work force during all work to be performed under this contract. The foreman shall be present during the time when work is to be performed.
- B. Plant material shall conform to current "American Standards for Nursery Stock" and the State of California Grading Code of Nursery Stock, No. 1 grade. Use only nursery-grown stock.
- C. All plant material shall be certified free of plant diseases and infestations from the County Agricultural Commissioner as required by law. Each shipment of plant material shall be required to have clearance certificates.
- D. Prior to planting, a soils fertility test/analysis shall be conducted by an accepted and qualified testing laboratory. Test results shall contain existing nutrient levels, soil texture, cation exchange capacity, soluble salts, pH levels, infiltration rates and recommended soil amendments/fertilizers to ensure proper growth of the specified plantings.

1.05 Submittals

- A. Submittals for specified items are not required, however, submittals are required for any proposed substitutions or deviations from the Plans or Specifications. Additionally, submittals are required for the specific items listed below. The Contractor shall submit a materials summary sheet indicating which items will be installed as specified and which items are proposed for substitutions. The Contractor shall submit proof of order within ten (10) working days of the Notice to Proceed, indicating all specified materials have been ordered, noting "as specified" or "substitution proposed". Submittals are required on the following items:
1. Bark mulch material,
 2. Certificates of compliance for turf sod, soil amendments and fertilizers.

1.06 Product Delivery, Handling and Storage

- A. All materials shall be delivered bearing nursery label with botanical, common names, including cultivars.
- B. Carefully handle plant material to ensure that limbs are not broken during the planting or storage of the material.
- C. Store plant material in a covered area on-site, protected from inclement or hot weather on-site. Keep root balls moist by frequent watering (during hot weather) of all accepted stock until such time as planting occurs.

1.07 Inspection of Plant Material

- A. Notify the Engineer a minimum of 48 hours prior to date of delivery. All plant material is subject to inspection at the time of delivery. A sample number of plants will be inspected for the following items:

If the sample....	then the plant shall be...
is healthy, shapely and well rooted,	accepted.
bears a strong central leader	accepted.
is wilted, wind-blown or sunburned,	rejected.
is root-bound, restricted or deformed,	rejected.
does not bear a strong central leader or has been severely pruned back,	rejected.

- B. Based on the sample inspection, the Engineer or Public Works Inspector reserves the right to reject any or all of the plant material delivered. All rejected plant material shall be immediately disposed of off -site.

PART 2 - PRODUCTS

2.01 Plants

- A. It shall be the Contractor's responsibility to replace in kind, all plants destroyed as a result of the Contractor's activities.

2.02 Turf Sod

- A. Sod must be accepted by the Engineer prior to ordering.
- B. Standard turf sod to be utilized is a 90% Rye, 10% Bluegrass blend.

2.03 Fertilizer

- A. Pre-plant fertilizer for sod shall be by Live Earth Products, Bio Basic, 0-5-0, or 8-2-4 fertilizer or approved equal.

2.04 Mulch

- A. Regular "Walk-on" fir bark as manufactured by Redi-Gro Corporation, Sacramento, CA (916) 381-6063 or accepted equal.

2.05 Topsoil

- A. Imported topsoil shall be natural, friable, well draining, free from admixture of subsoil and foreign objects larger than one inch (1") in diameter, free from toxins or any other harmful substance which may deter healthy plant growth.

2.06 Pre-Emergent

- A. Clean, and non-staining. Consult with a pesticide specialist.

2.07 Tree Stakes and Ties

- A. Two (2) inch diameter by eight (8) feet long minimum, lodge pole pine or douglas fir (pressure or non-pressure treated).
- B. Ties to be rubber strap, 24-inch minimum length, V.I.T. cinch-tie or accepted equal.

2.08 Irrigation System

Replace in kind any portions of the Irrigation System that are destroyed as a result of the Contractor's Activities. Refer to the most current version of the City of Roseville Parks Construction Standards.

PART 3 - EXECUTION

3.01 Site Preparations

- A. Notify the Engineer or Public Works Inspector immediately of any existing conditions which are unacceptable for the commencement of landscaping restoration work.

3.02 Coordination of Work

- A. Coordinate all work with other trades.
- B. Irrigation system: Prior to restoring trees, shrubs, sod and other landscaping, restore all portions of the Irrigation System that are destroyed as a result of the Contractor's activities. Irrigation Systems installation shall meet all requirements of the City of Roseville Parks Construction Standards.

3.03 Preparation of Planting Areas

- A. Place topsoil in all areas to receive planting or turf to a minimum depth of twelve inches (12").
- B. Rip topsoil surface in two directions to a minimum depth of twelve inches (12").
- C. Spread soil amendment and fertilizer in all planted areas as follows:
 - 1. Pre-plant fertilizer for sod shall be Bio Basic, 0-5-0 @ 100 pounds per 1,000 square feet, or 8-2-4 fertilizer @ 15 pounds per 1,000 square feet.
- D. Rototill amendments into soil until native soil and amendments are consistently blended.
- E. Remove all rock and debris which are greater than ½ inch in areas to be turfed and one inch (1") in areas to be planted.
- F. All planted and turf areas to be smooth and uniform in grade.

3.04 Plant Restoration

A. Tree and Shrub Restoration

- 1. Remove only those plants which will be planted the same day. Place such plants in the proposed locations for review and accepted by the City prior to actual planting. Notify the Engineer a minimum of 48 hours prior to day of planting.
- 2. Dig plant basins as shown in the Parks Construction Standards. Scarify the sides and bottom of pit. Fill pit with water and allow the water to completely drain from the pit prior to actual planting.

3. For pits that retain water, bore a four-inch (4") diameter hole at the bottom of the pit to a depth which penetrates the underlying hard pan. Fill the boring with $\frac{3}{4}$ inch drain rock. Repeat test to ensure proper drainage.
4. Plants shall be removed from their containers only at the time of placement within the plant pit. Scarify the root ball on the sides and bottom to allow for root penetration within the basin. Add native backfill and amendments as shown in the Parks Construction Standards and as recommended by the soils testing laboratory.
5. Carefully place plant into the plant pit without damaging the root ball. Water the backfill until saturated.
6. Construct berm and place tree stakes and mulch per the Parks Construction Standards. Basins and mulch are not required for trees.

B. Groundcover Restoration

1. Replace in kind, all ground cover destroyed as a result of the Contractor's activities. All ground cover restoration shall be per the City of Roseville Parks Construction Standards.

3.05 Turf Restoration

Sod

- A. Remove all "humps" and depressions prior to sodding.
- B. Keep all sod rolls shaded and moist prior to installation.
- C. Do not store sod rolls more than one (1) day. Sod shall be laid upon delivery.
- D. Unroll sod one at a time for immediate installation.
- E. Provide tight seam between rolls of sod (less than 1/8" gaps).
- F. Stagger rows so that the ends of sod rolls are stepped.

3.06 Mulch

- A. Prior to placing mulch, apply weed control in all planting areas, per manufacturer's specifications.
- B. Apply only in areas where Contractor's activities destroyed existing work.

3.07 Watering

- A. Upon completion of each planting or turf area, apply water to ensure proper health and growth.

- B. Adjust the watering schedule to apply increased watering times when weather is 90 degrees Fahrenheit or more. Apply supplemental hand watering, if necessary.

3.08 Clean-up

- A. Upon completion of planting operations, collect and remove from site all empty plant containers, debris, rubbish and other trash.
- B. Sweep clean and wash all hardscape areas.
- C. Maintain the entire site in a clean condition to the satisfaction of the City.

3.09 Pre-Final Review

- A. The following items shall be complete prior to requesting a Pre-Final review. Partial acceptances will not be granted. All landscaping shall be installed. This shall include, but not limited to:
 - 1. Trees and Shrubs.
 - 2. Groundcover.
 - 3. Sod.
 - 4. Mulch.
- B. Notify the Engineer of the request for a Pre-Final review a minimum of one week prior to the requested date.
- C. A punch list shall be formulated at the Pre-Final review.

3.10 Establishment Period

- A. Once sod has been completely installed Contractor shall notify the Engineer in writing of such and the date of installation. Establishment period to be 30 calendar days.
- B. All areas within the project site shall be protected against damage including vandalism, erosion, trespass, rodents and other acts. Immediately repair all damaged areas.
- C. All walkways and paved areas shall be kept clean and all debris within planting and turf areas shall be immediately removed.
- D. The irrigation system shall be checked (after installation as required per this specification) to ensure proper operations. Make all necessary adjustments (in consultation with City Parks and Recreation staff), including watering schedule to ensure proper and healthy plant growth.
- E. Immediately replace all dead plants or sod once notified by the City; even if the project has been accepted by the City (but the occurrence of dead plants or sod is still within the warranty period).

- F. Edge all turf areas as required.
- G. Re-install sod in all bare areas within the turf as soon as evident.
- H. As necessary, raise all trees and shrubs which have sunk within the plant pit beyond the levels indicated in the Parks Construction Standards.
- I. Keep all areas free of weeds.

3.11 Final Review

- A. Notify the Engineer of the request for final review a minimum of one-week prior to date of review.
- B. All corrective work identified in the punch list shall have been complete.
- C. The site shall be prepared for review, by ensuring that
 - 1. all spray heads have been properly adjusted,
 - 2. dead plants have been replaced,
 - 3. Walkways and paved areas have been swept and washed, and
 - 4. all nursery stakes have been removed.
- D. Failure to complete any one or all of the above items may constitute non-performance of the final review and will require re-scheduling. In this case, the cost of re-planting any dead plants shall be at no additional cost to the City.

PART 4 - GUARANTEE

4.01 General

- A. Contractor shall provide a written guarantee covering all materials and plants furnished to be free of all defects or disease and that all plants are in a healthy and thriving condition at the completion of the contract. Deciduous plant material shall be warranted beyond the time of contract completion until such time as growth becomes evident.
- B. All plants shall be warranted for a period of one (1) year, commencing on the date of final acceptance and after successful completion of the establishment period. Warrantee responsibilities shall be per the requirements of the General Conditions.

END OF SECTION

SECTION 02952

PAVEMENT RESTORATION AND REHABILITATION

PART 1 GENERAL

1.01 SUMMARY

- A. Section Includes:
 - 1. Resurfacing roads and paved surfaces in which surface is removed or damaged by installation of new work.
- B. Related Sections:
 - 1. Section 02722 - Aggregate Base and Subbase.
 - 2. Section 03300 - Cast-in-place Concrete.

1.02 REFERENCES: The work for this Contract shall conform to the latest editions of:

- A. City of Roseville Design and Construction Standards
- B. State of California Department of Transportation:
 - 1. CALTRANS – Standard Specifications and Amendments to the Standard Specifications

1.03 SUBMITTALS

- A. Submit in accordance with Sections 01300 and 00039 (CalTrans Section 39).

1.04 DESCRIPTION

Description

This work includes producing and placing hot mix asphalt (HMA) Type A using the Method process.

Comply with Section 39, "Hot Mix Asphalt," of the Standard Specifications and Amendments to the Standard Specifications.

MEASUREMENT AND PAYMENT

The contract unit price paid per square foot of Hot Mix Asphalt (Type A) shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for doing all the work involved in placing Hot Mix Asphalt (Type A), including placing and compacting material for AC digouts per the Contract Documents as specified in the Standard Specifications, and as directed by the ENGINEER.

PART 2 ADDITIONAL REQUIREMENTS

- A. Pavement removed shall be replaced at 6 inches or existing depth (whichever is greater).

- B. All trench patching shall be installed per City of Roseville Design and Construction Detail TB-3 of Section 31.

END OF SECTION

SECTION 03300
CONCRETE RESTORATION

PART 1 GENERAL

1.01 SUMMARY

- A. Section Includes: Restoration of concrete curbs, sidewalks, and pedestrian ramps (where applicable) which are damaged by installation of new work.

1.02 REFERENCES: The work to be installed for this Contract shall conform to the latest editions of:

- A. City of Roseville Design and Construction Standards and Details
- B. State of California Department of Transportation:
 - 1. CALTRANS – Standard Specifications and Amendments to the Standard Specifications.

1.03 SUBMITTALS

- A. Submit in accordance with Section 01300
- B. Product Data:
 - 1. Concrete materials certifications
 - 2. Concrete mix design, including test results
 - 3. Concrete placement method and sequence
 - 4. Reinforcing steel shop drawings
 - 5. Concrete curing method.

1.04 QUALITY ASSURANCE

- A. Standard & Concrete Tests: CALTRANS

1.05 DELIVERY, STORAGE AND HANDLING

- A. General: Provide storage and handling of all materials so that upon delivery they are undeteriorated and ready for use.

PART 2 ADDITIONAL REQUIREMENTS

The Contractor shall conform to these additional requirements from the Standard Specifications and the related amendments:

SECTION 73. CONCRETE CURBS AND SIDEWALKS

73-1.01 MISCELLANEOUS CONCRETE CONSTRUCTION

Minor Concrete (Sidewalk), Minor Concrete (Curb & Gutter), Minor Concrete (Pedestrian Ramps), and Minor Concrete (Driveway) shall conform to the provisions in Section 73, "Concrete

Curbs and Sidewalks," of the Standard Specifications and these Technical Provisions.

All newly placed concrete shall be cured with a clear concrete curing compound (State Specification 8030-71D-06).

Minor Concrete (Curb & Gutter) and Minor Concrete (Sidewalk) restoration shall be constructed to conform to the City of Roseville Standard Plan ST-17.

Minor Concrete (Driveway) restoration shall be constructed to conform to City of Roseville Standard Plan ST-22.

Aggregate base placed below the minor concrete items listed shall be paid for as Class 2 Aggregate Base.

The contract price paid per linear foot for Minor Concrete (Curb & Gutter) and Minor Concrete (Driveway) shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals for doing all work involved in the Minor Concrete items listed above, complete in place, including the placement of rebar, as specified in the Standard Specifications and Amendments to the Standard Specifications, the Contract Documents, and as directed by the Engineer.

The contract price paid per square foot for Sidewalk and Concrete Restoration shall include all labor, materials, tools, equipment, and incidentals and for doing all work involved in Minor Concrete (Sidewalk) complete in place, as specified in the Standard Specifications and Amendments to the Standard Specifications, the Contract Documents, and as directed by the Engineer.

73-3.09 Existing Ramps

The existing ramps that are damaged by the Contractor as a result of this work shall be restored by the Contractor at his/her cost. Damaged existing ramps that do not have truncated domes shall be retrofitted to the Design and Construction Standard ST-35, section 71-4 C.2., and 71-5 for dome placement. The dome shall be placed on the curb ramps that do not have the truncated domes.

The existing curb ramps lips that do not meet current ADA standards shall be retrofitted to meet the Design and Construction Standard ST-26, ST-27 section 71-4, and 71-7. The curb ramp lips shall be retrofitted on existing curb ramps that have a lip that is 1/8 inch or greater as shown on the plans.

The Contractor shall be responsible for protecting the existing sidewalks, curbs, and gutters and should damage occur to adjacent concrete sections due to the Contractor's operations, the Contractor shall remove that damaged section and replace at his/her cost.

PART 3 EXECUTION

3.01 CONSTRUCTION

- B. Shall conform to the following requirements:
 - 1. City of Roseville Design and Construction Standards and Details
 - 2. CALTRANS Requirements

END OF SECTION

SECTION 00012

CONSTRUCTION AREA TRAFFIC CONTROL DEVICES

Work shall be performed at night between the hours of 8:00pm and 5:00am.

The work described in these Special Provisions shall be performed in conformance with the latest editions of the City of Roseville Standard Construction Specifications, City of Roseville Design and Construction Standards, 2006 State of California Standard Specifications, Amendments to the 2006 Standard Specifications, Standard Special Provisions and Standard Plans, except insofar as these Special Provisions may modify them.

Numbering in these Special Provisions conforms to that in the State Standard Specifications. The existence of a Section in these Special Provisions means that the corresponding Section in the State Standard Specifications is modified in some respect. Unless otherwise specified, the modified State Standard Specification Provisions are deleted entirely, and the provisions of these Special Provisions are substituted.

The construction materials, payments, etc., for items of work shown in the proposal and on the plans, but not specifically mentioned in these Special Provisions are referred to the Standard Construction Specifications and State Standard Specifications for conformance.

12-1.01A TRAFFIC MAINTENANCE

Attention is directed to Sections 7-1.08, "Public Convenience," 7-1.09, "Public Safety," and 12, "Construction Area Traffic Control Devices," of the State Standard Specifications and to the Section entitled "Public Safety" elsewhere in these Special Provisions, and these Special Provisions. Nothing in these Special Provisions shall be construed as relieving the Contractor from the responsibilities specified in Section 7-1.09.

The minimum size specified for Type II flashing arrow signs in the table following the second paragraph of Section 12-3.03, "Flashing Arrow Signs," of the State Standard Specifications is amended to read "36 inches by 72 inches".

In the Standard Plans, Note 10 on Standard Plan T10, Note 9 on Standard Plan T10A, Note 5 on Standard Plan T11, Note 6 on Standard Plan T12, Note 5 on Standard Plan T13, and Note 4 on Standard Plan T14 are revised to read:

All traffic cones used for night work or remaining in the roadway overnight shall have reflective cone sleeves as specified in the specifications.

Section 12-3.10, "Traffic Cones," of the State Standard Specifications is amended to read:

During the hours of darkness traffic cones shall be affixed with reflective cone sleeves. The reflective sheeting of sleeves on the traffic cones shall be visible at 1,000 feet at night under illumination of legal high beam headlights, by persons with vision of or corrected to 20/20.

Reflective cone sleeves shall conform to the following:

1. Removable flexible reflective cone sleeves shall be fabricated from the reflective sheeting specified in the Special Provisions, have a minimum height of 13 inches and shall be placed a maximum of 3 inches from the top of the cone. The sleeves shall not be in place during daylight hours.

2. Permanently affixed semitransparent reflective cone sleeves shall be fabricated from the semitransparent reflective sheeting specified in the Special Provisions, have a minimum height of 13 inches, and shall be placed a maximum of 3 inches from the top of the cone. Traffic cones with semitransparent reflective cone sleeves may be used during daylight hours.

3. Permanently affixed double band reflective cone sleeves shall have 2 white reflective bands. The top band shall be 6 inches in height, placed a maximum of 4 inches from the top of the cone. The lower band shall be 4 inches in height, placed 2 inches below the bottom of the top band. Traffic cones with double band reflective cone sleeves may be used during daylight hours.

The type of reflective cone sleeve used shall be at the option of the Contractor. Only one type of reflective cone sleeve shall be used on the project.

The C16 and C17 designations of the signs shown on the detail "Entrance Ramp without Turning Pockets" of Standard Plan T14 are amended to designate the signs as R16 and R17, respectively.

The Contractor shall be responsible for informing the public of the traffic conditions existing within the construction area at all times by placement of appropriate warning and advisory signs. The Contractor shall provide and maintain all traffic control and safety items. The Contractor assumes sole and complete responsibility for job and site conditions during the course of construction, including safety of all persons and property. This requirement shall apply continuously 24 hours/day and shall not be limited to normal working hours.

Full compensation for complying with the above requirements shall be considered as included in the contract price paid for Traffic Control and Maintenance and no additional compensation will be allowed.

12-1.02 TRAFFIC CONTROL PLAN

At the pre-construction meeting, the Contractor shall submit a traffic control plan showing traffic control measures and/or, if approved, detours for vehicles and pedestrians affected by the construction work. A maximum of five (5) working days will be required to review and provide the Contractor with comments on the plan. The Contractor shall revise the plan per the City's comments until the plan is accepted by the Engineer. The Contractor will not be allowed to begin work until the Engineer has accepted the traffic control plan.

The Traffic Control Plan shall cover all stages of work and include (but not limited to) the following information and detail: (1) Street closures and detours; (2) construction, warning, detour and restriction signs, including "No Parking", "Loose Gravel", "Construction Area Speed limit Signs," and "Bump Ahead" signs; (3) temporary striping and pavement markers; (4) barricades; (5) flashing arrow signs; (6) lighted message boards; (7) portable delineators; (8) traffic cones; (9) lights, flares, flaggers, and spacings.

A copy of the accepted Traffic Control Plan must be kept at the job site at all times, including Subcontractors.

Temporary lane closures will be allowed only during approved working hours. Contractor shall provide at least one lane in each direction on all existing streets throughout the construction project unless otherwise approved in writing by the Engineer.

When work is performed within an intersection, the Contractor shall place the traffic signal in red flash. The Contractor shall submit a Red Flash Request form at least 48 hours in advance of placing a traffic signal on flashing red. The City shall provide written approval prior to signal reprogramming. The Red Flash Request Form is included in Appendix C. If no work is being performed with an intersection, the Contractor shall place the traffic signal into normal operations. Flaggers are required to control traffic at intersections placed in red flash.

The Contractor shall cooperate with and notify the local police and fire department, ambulance services, post office, refuse collectors, Roseville Transit, Dry Creek School District, Roseville City School District, Eureka School District, Roseville Joint Union High School District, Roseville Transit, and residents of proposed construction operations and traffic control operations a minimum of five working days before work is to begin in each work area. If changes are made to the traffic control plan, Contractor shall re-notify at least two working days before work is to begin. In addition, the Contractor shall make available a 24-hour telephone number in case of emergencies and/or problems.

The Contractor will be responsible for notifying residents and businesses of the proposed construction. Notifications shall be distributed to residents and businesses within a 100 feet radius of the job limits, including residents and businesses located on streets adjacent to the construction.

Notifications shall be tucked neatly in doorjambs, handles, or partially under mats. Notifications shall not be glued, stapled, tacked, or otherwise attached to property. The Contractor shall take care to stay on designated walkways during delivery of notifications, and be polite to citizens encountered.

The Contractor shall be responsible for placing "Construction Speed Limit" signs on both sides of the affected street one (1) hour prior to the Street being opened to traffic. The speed limit for the "Construction Speed Limit" signs cannot be less than 10 mph below the posted speed. At the pre-construction meeting, Contractor shall submit to the Engineer a sample "Construction Speed Limit" sign for acceptance. Signs shall be placed a maximum of 500 feet apart, on both sides of the affected street.

Emergency access to driveways, intersections, and residential streets shall be maintained at all times. If vehicles are parked in the working area, the Contractor shall not attempt to move the vehicle. The Contractor shall notify the Engineer immediately, and the Engineer shall make proper arrangements to remove the vehicle.

Lane and street closure shall not be allowed without proper advance warning devices, signing and flag persons in conformance with the State Standard Specifications and these Special Provisions. At the completion of each working day, all lanes of traffic shall be open to the public. Street closure shall not be allowed on schedule refuse collections days.

No separate payment will be made for any item of Traffic Control and Maintenance set forth in the State Standard Specifications to be paid for as extra work. Full compensation for all Traffic Control and Maintenance shall be included in this bid item.

The provisions in this section will not relieve the Contractor from his/her responsibility to provide such additional devices or take such measures as may be necessary to comply with the provisions in Section 7-1.09, "Public Safety," of the State Standard Specifications.

Full compensation for complying with the above requirements shall be considered as included in the contract price paid for Traffic Control and Maintenance and no additional compensation will be allowed.

12-1.03 TRAFFIC CONTROL

Traffic Control shall include all labor, tools, equipment and materials required to provide, maintain, and remove all signage, flagmen, temporary barricades, and appurtenances to provide traffic control within the project limits as set forth in the State Standard Specifications, these Special Provisions, and as directed by the Engineer.

A specialty construction zone traffic control Contractor, shall be responsible for setting up and removing all traffic control. A specialty Contractor includes a Contractor whose operations are concerned with preparing or removing roadway construction zones, lane closures, flagging, or traffic diversions on roadways, utilizing portable devices, such as cones, delineators, barricades, sign stands, flashing beacons, flashing arrow trailers, and changeable message signs, on roadways including, but not limited to, public streets, highways, or any public conveyance.

The Contractor shall have on their payroll a person responsible for all traffic control required for this project. The person shall be on site at all times whenever traffic control is in effect. Contractor shall identify this person at the pre-construction meeting.

Should the Contractor decide to subcontract the traffic control portion of this project, the subContractor shall be available as previously described. In addition, the Contractor shall also appoint a person to oversee the traffic control operations. The Contractor's appointee shall be available and responsible to implement the necessary traffic control plan according to the accepted traffic control plan and the latest edition of the California Manual on Uniform Traffic Control Devices (MUTCD).

Any vehicle used to place, maintain, or remove components of a traffic control system on multilane highways at night shall be equipped with a Type II flashing arrow sign which shall be in operation at all times while the vehicle is being used for placing, maintaining, or removing said components. The sign shall be controllable by the operator of the vehicle while the vehicle is in motion.

During the working hours, the Contractor may, with the Engineer's approval, close one of the traffic lanes in each direction of existing four lane road, to perform the required work. Lane closure shall not be allowed without proper advance warning devices and signing, and flag person control in conformance with the State Standard Specifications, and these Special Provisions. The Engineer shall be the sole judge of the spacing, length, and sequence of the lane closure areas. At the completion of each working day, all existing lanes of traffic shall be maintained open to traffic and temporary traffic markers shall be placed (if necessary). Provisions must be made for

the uninterrupted passage of emergency vehicles through the project limits at all times, regardless of controlled traffic conditions existing at the time.

If any component in the traffic control system is displaced, or ceases to operate or function as specified, from any cause, during the progress of the work, the Contractor shall immediately repair said component to its original condition or replace said component and shall restore the component to its original location.

The Contractor shall be responsible for making access available at any time during the workday to emergency vehicles such as fire/rescue units, ambulances, and police cars.

Full compensation for complying with the above requirements shall be considered as included in the contract lump sum price paid for Traffic Control and Maintenance and no additional compensation will be allowed therefor.

12-3.12 PORTABLE CHANGEABLE MESSAGE SIGN

In addition to Section 12-3.12 of the State Standard Specifications, portable changeable message sign shall be furnished, placed, operated and maintained for the duration of the project in conformance with the provisions in Section 12, "Construction Area Traffic Control Devices," of the State Standard Specifications and these Special Provisions.

Portable changeable message signs shall be placed at least 10 working days prior to the start of any work and shall remain in place until all work (including striping) is complete. Changeable messages signs shall state the street the work is taking place, the dates, and the time of work. Changeable messages signs shall be turned off after the completion of the project and shall be turned on five (5) working days prior to striping placement.

The contract unit price paid per each Portable Changeable Message Signs shall include full compensation for furnishing all labor, materials, tools, equipment, maintenance, removal, and incidentals, and for doing all work involved in placing and maintaining Changeable Message Signs, complete in place, as shown on the plans, as specified in the State Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

12-4.01 MEASUREMENT AND PAYMENT

Section 12-4.01 of the State Standard Specifications has been amended to read as follows:

Notwithstanding any provisions of the State Standard Specifications and Special Provisions to contrary, the contract lump sum price for "Traffic Control and Maintenance" will constitute full compensation for furnishing, installing, and removing traffic control devices, including signs, covers, lights, flares, cones, barricades, flagmen, and other items necessary for the safety, sole convenience, and direction of public traffic through and around the work area, as specified in the State Standard Specifications, these Special Provisions, and as directed by the Engineer.

The provisions in this section will not relieve the Contractor from his responsibility to provide such additional devices or take such measures as may be necessary to comply with the provisions in Section 7-1.09, "Public Safety," of the State Standard Specifications.

Full compensation for conforming to all requirements specified in this section shall be considered as included in the contract lump sum price paid for "Traffic Control and Maintenance" and no additional compensation will be allowed.

END OF SECTION

SECTION 00015

SECTION 15: EXISTING FACILITIES

15-1.01A PROTECTION OF ROADWAY FACILITIES

It shall be the responsibility of the Contractor to protect existing roadway facilities (including but not limited to culverts, manholes, monuments, railings, signs, traffic signal detectors, and other roadway appurtenances).

Facilities damaged or disturbed shall be reset, repaired, or replaced, as directed by the Engineer, at the Contractor's expense.

In the event that a sign is knocked down or street maintenance type work is required in the City of Roseville, the Contractor shall immediately call Street Maintenance at (916) 774-5790 or (916) 847-1611 during non-business hours so a repair crew can be dispatched. If traffic signal detector facilities, signal or lighting facilities are cut or damaged during construction, Traffic Signal Maintenance shall be immediately contacted at (916) 746-1300 or at (916) 774-5117 during non-business hours. Traffic signal detector loops shall be replaced within 24 hours; Traffic signal wiring shall be repaired immediately.

The surfaces of all roadway facilities within the limits of work (i.e. manhole covers, water valve covers, monument lids, etc.) shall be protected. All material used to protect the facilities shall be removed and disposed of properly after construction. After the paving work, the surfaces of all roadway facilities shall have a clean surface.

The Contractor shall carefully reference all facilities located in the work area and shall paint the locations of the facilities on the surface immediately after resurfacing.

Nothing herein shall be construed as relieving the Contractor of his/her responsibility for final cleanup of the site as provided in the Section 4-1.02, "Final Cleaning Up" of the State Standard Specifications.

The Contractor shall be responsible for limiting the "tracking" of material off of the project site. The Contractor may, at the discretion of the Engineer, be required to sweep or clean the street/sidewalk to remove the material. The Contractor shall submit to the Engineer the proposed haul route to each jobsite two working days prior to starting work.

Full compensation for complying with the requirements of "Protection of Roadway Facilities" shall be considered as included in the prices paid for various contract items of work involved, and no additional compensation will be allowed therefore.

15-1.02 PRESERVATION OF PROPERTY

In addition to Section 15-1.02 of the State Standard Specifications, where possible, all existing utilities are to remain in service during construction. The Contractor shall be required to work around existing utility poles that will remain in the curb or sidewalk. Minor changes in alignment of slopes shall be made to avoid direct conflict that will interfere with the intended purpose of the facility.

Prior to construction, the Contractor shall mark the location of all covers with temporary pavement markers and submit to the Engineer an inventory of all manhole covers, miscellaneous covers and lids located within the streets to be repaired. Construction operations shall not commence until the Contractors and Engineer's inventory list agree. The Contractor shall be responsible for properly removing and disposing the temporary pavement markers.

Full compensation for conforming to the requirements of this Section shall be considered as included in the prices paid for the various contract items of work involved and no additional compensation will be allowed therefore.

15-1.02A PRESERVATION OF LANDSCAPING AND IRRIGATION

All existing landscaping and irrigation within the project area is to remain in place and in service during construction. If landscaping or irrigation is damaged due to the contractors work the contractor shall be responsible to repair the area to pre job conditions or better.

Full compensation for conforming to the requirements of this Section shall be considered as included in the prices paid for the various contract items of work involved and no additional compensation will be allowed therefore.

15-1.03 UNDERGROUND FACILITIES

The Contractor shall notify Underground Service Alert (USA) at (800) 642-2444 at least 72 hours in advance of beginning work on the project. The Contractor is cautioned that there are underground and overhead utility facilities within the work area including telephone, electrical, cable television, gas, water and sanitary sewer transmission facilities, and storm drainage collection facilities.

The Contractor shall visit the site of the proposed work and determine the quantity and location of the manholes, valve covers and utility appurtenances to be encountered in the proposed work area and his/her bid accordingly. Damage to such utilities resulting from the Contractor's operations to complete the project shall be repaired at the Contractor's expense.

Where possible conflicts exist, the Contractor shall verify the grade and location of existing underground utilities by careful hand digging prior to beginning work. In the event the Contractor discovers existing utilities within the limits of the excavation, the Contractor shall immediately notify the Engineer and the affected utility owner by the most reasonable expeditious method and later confirm in writing. All required relocation of existing facilities that interfere with the work shall be made by the owning agencies.

Full compensation for conforming to the requirements of this section shall be considered as included in the prices paid for various contract items of work, and no additional compensation will be allowed therefor.

15-2.05 RECONSTRUCTION

In addition to Section 15-2.05 of the State Standard Specifications, all frames, grates, or covers of existing manholes, valve boxes, or other existing facilities shall be adjusted to grade, no later than five (5) working days after the streets have been paved. The floors of all manholes shall be covered in a manner approved by the Engineer to prevent debris from entering the system during adjustment. Manhole bottoms shall be cleansed of all debris after adjustments are made. Should the Contractor damage existing facilities when adjusting them to grade, the cost to replace and reinstall the new facility shall be borne by the Contractor.

Existing utilities may conflict with the construction of the proposed replacement sections. The Contractor shall be required to coordinate the removal and relocation of the utility facility by the utility company. It shall be the Contractor's sole responsibility to effect the coordination and it shall be deemed, upon submission of a proposal, that the Contractor has reviewed field conditions and coordinated the removal and relocation of utility facilities with utility companies as required. The Contractor may be required to alter the work schedule and assignment of forces to prevent conflict with the utilities. No additional compensation may be claimed because of delays due to utility relocation. The Contractor will not be assessed liquidated damages, and additional work days will be granted when a delay is caused by the failure of the owner of the utility facility to provide for removal or relocation of existing utility facilities.

Full compensation for conforming to all requirements specified in this section shall be considered as included in the prices paid for various contract items of work, and no additional compensation will be allowed therefore.

15-2.01H REMOVE TRAFFIC STRIPE AND PAVEMENT MARKING

This work includes removing existing traffic stripe and pavement markings as shown on the plans.

Submit a lead compliance plan under Section 7-1.07, "Lead Compliance Plan," of the Standard Specifications.

Waste residue from removal of thermoplastic and painted traffic stripe and pavement marking is a non-hazardous waste residue and contains lead in average concentrations less than 1000 mg/kg total lead and 5 mg/L soluble lead. This waste residue does not contain heavy metals in concentrations that exceed thresholds established by the Health and Safety Code and 22 CA Code of Regs and is not regulated under the Federal Resource Conservation and Recovery Act (RCRA), 42 USC § 6901 et seq.

Full compensation for conforming to all requirements specified in this section shall be considered as included in the prices paid for various contract items of work, and no additional compensation will be allowed therefore.

15-2.02E COLD PLANE ASPHALT CONCRETE PAVEMENT (DIGOUTS)

GENERAL

This work may include cold planing existing asphalt concrete pavement.

Existing asphalt concrete surfacing shown on the plans to be removed shall be removed to a depth of 3- inches or 4-inches below the existing roadway grade as shown on the plans. Digout locations shown on the plans are approximate. Exact location of digouts shall be marked by the Contractor three (3) working days prior to the start of paving for review and approval by the City. The existing base material shall be processed to 95% compaction as specified in Section 19 of the Standard Specifications, the resulting holes and depressions shall be backfilled with hot mix asphalt (HMA).

During excavation, if unsuitable material is encountered, the Contractor shall notify the Engineer for concurrence that the material is unsuitable. If the Engineer does not approve that the material is unsuitable prior to any additional excavation and backfill at this location, the Contractor will be responsible for the cost of excavation and backfill. Full compensation for unsuitable material will be paid for as Unsuitable Material as specified elsewhere in these Special Provisions.

The Contractor shall schedule the digout repairs in a manner so as to minimize lane closures, and disruption to traffic. Prior to excavation, the Contractor shall review the proposed digout repair schedule with the Engineer and obtain his/her approval.

SEQUENCING AND SCHEDULING

Schedule cold planing activities so that not more than 3 days elapses between the time the pavement is cold planed and the HMA is placed.

MATERIALS

HMA for temporary tapers must be of the same quality as the HMA used elsewhere on the project or comply with "Minor Hot Mix Asphalt" of the State Special Provisions.

CONSTRUCTION

General

Perform planing of asphalt concrete pavement without the use of a heating device to soften the pavement.

COLD PLANING EQUIPMENT

Cold planing machine must be:

1. Equipped with a cutter head width that matches the planing width. If the only available cutter head width is wider than the cold plane area shown, submit to the Engineer a request for using a wider cutter head. Do not cold plane until the Engineer approves the Contractor's request.
2. Equipped with automatic controls to control the longitudinal grade and transverse slope of the cutter head and:
 - 2.1. If a ski device is used, it must be at least 30 feet long, rigid, and 1 piece unit. The entire length must be used in activating the sensor.
 - 2.2. If referencing from existing pavement, the cold planing machine must be controlled by a self-contained grade reference system. The system must be used at or near the centerline of the roadway. On the adjacent pass with the cold planing machine, a joint matching shoe may be used.
3. Equipped to effectively control dust generated by the planing operation.
4. Operated so that no fumes or smoke is produced.

Replace broken, missing, or worn machine teeth.

GRADE CONTROL AND SURFACE SMOOTHNESS

Furnish, install, and maintain grade and transverse slope references.

The depth, length, width, and shape of the cut must be as shown or as ordered. The final cut must result in a neat and uniform surface. Do not damage remaining surface.

Existing asphalt surfacing and base material shown on the plans to be removed shall be removed to the top limits of the existing base material. The existing base material remaining shall be re-compacted to the specifications set forth in section 26-1.05 "Compacting" of the Standard Specifications. Resulting holes and depressions shall be backfilled with Asphalt Concrete to the lines and grades shown on the plans and per these Special Provisions.

The completed surface of the planed asphalt concrete pavement must not vary more

than 0.02 foot when measured with a 12-foot straightedge parallel with the centerline. The transverse slope of the planed surface must not vary more than 0.03 foot from the straightedge when placed at right angles to the centerline.

A drop-off of more than 0.15 foot is not allowed between adjacent lanes open to public traffic.

TEMPORARY HMA TAPERS

If a drop-off between the existing pavement and the planed area at transverse joints cannot be avoided before opening to traffic, construct a temporary HMA taper. HMA for temporary taper must be:

1. Placed to the level of the existing pavement and tapered on a slope of 30:1 (Horizontal: Vertical) or flatter to the level of the planed area.
2. Compacted by any method that will produce a smooth riding surface.
3. Completely removed before placing the permanent surfacing. The removed material must be disposed of outside the highway right of way in conformance with the provisions in Section 7-1.13, "Disposal of Material Outside the Highway Right of Way," of the Standard Specifications.

DISPOSAL OF PLANED MATERIAL

Remove cold planed material concurrent with planing activities, within 50 feet of the planer or as ordered.

MEASUREMENT AND PAYMENT

Full compensation for conforming to all requirements specified in this section shall be considered as included in the prices paid for various contract items of work, and no additional compensation will be allowed therefore.

15-2.05A ADJUST FACILITIES TO GRADE

In addition to the requirements of Section 15-2.05 of the State Standard Specifications, the Contractor shall adjust all City owned facilities finished grade. The location of city owned facilities to be adjusted to grade are show on the Plans and outlined with the text "raise". Handholes in the pavement for traffic signal detector loops do not need to be marked or adjusted to grade. All non-City owned facilities shall be raised by the owner of the utility. The Contractor shall be responsible for coordinating all work with owners of non-City owned utilities.

Extreme care shall be taken to prevent spilling asphalt concrete from entering the drainage or sanitary sewer system. The Contractor shall temporarily cover all drop inlets prior to the placement of asphalt concrete. The Engineer may require the Contractor to immediately remove manhole covers and drop inlet grates for inspection and cleaning.

The Contractor must provide traffic control for all phases of adjusting Manholes and Utility Boxes in accordance with Section 12, "Traffic Control and Maintenance".

A. Raising Manhole Heads

1. City owned manhole heads shall be brought to the new grade by raising the head with concrete. However, the space between the top of the excavated manhole and the bottom of the casting to be set can be eliminated by installing no more than one grade ring per manhole.

A grade ring shall be used only if the manhole cover surface can be maintained parallel to the street surface, and the ring is secure in all aspects as determined by the Engineer.

2. Excavations to raise manhole heads to the new pavement grade shall be such that there is a minimum of one-foot (1') clear circumference of the excavated pavement. The minimum depth of the annular region formed shall be three inches (3") below the finish grade of the casting flange.
3. Castings shall be thoroughly cleaned of all loose or cracked concrete prior to reinstallation. The excavated area and casting shall be wet down thoroughly prior to receiving mortar or concrete. The mortar and concrete used shall be hand placed or shovel sliced to prevent voids between the existing head and casting.
4. The finished grade of the manhole head and asphalt concrete shall be checked with a straight edge spanning the diameter of the asphalt cut around the manhole head. The horizontal elevation difference between the manhole head and the new asphalt shall not exceed one-fourth inch (1/4") in any direction.
5. Manhole heads shall be completely raised the same day that the pavement patch is made to permit full use of traffic at the end of that day. Manhole heads set in concrete may be barricaded where approved by the Engineer.

B. Raising Water Valve Boxes and Sewer Boxes

1. Raising water valve and sewer boxes to the grade of the new pavement surface shall include furnishing and placing new boxes, standpipe risers, and liners as required.
2. The Contractor shall ensure that the box covers are not covered with asphalt emulsions and/or coatings during paving operations. Standpipes, shall be clean and free of paving materials and debris.
3. The water valve operating nut shall be left fully exposed after all paving operations have been completed.

4. Existing boxes may be reused if the valve box covers and framers are not damaged, deficient, or broken. Water valve boxes shall be replaced with new G-5 Christy boxes and lids. Sewer boxes shall be replaced with matching boxes or as determined by the Engineer. Boxes damaged by the Contractor shall be replaced at the Contractor's expense.
5. All standpipes shall extend a minimum of two inches (2") into the raised water valve boxes.
6. The finished grade of the boxes and asphalt concrete shall be checked with a straight edge spanning the diameter of the asphalt cut around the box. The horizontal elevation difference between the box and the new asphalt shall not exceed one fourth inches (1/4") in any direction.
7. Boxes shall be completely raised the same day that the pavement patch is made to permit full use of traffic at the end of that day. If unable to completely raise a water valve box by the end of that day, as a temporary measure, the Contractor shall place asphalt cut-back in the depression to match adjacent surfaces. Barricades shall not be used over-night.

C. Raising Other Facilities

1. All other City owned facilities shall be brought to the new grade. Other City owned facilities include but are not limited to electric vaults, air release valve boxes, blow off boxes, and cathodic protection facilities.
2. Excavations to raise all other City owned facilities to the new pavement grade shall be such that there is a minimum of one-foot (1') clear circumference of the excavated pavement.
3. Castings shall be thoroughly cleaned of all loose or cracked concrete prior to reinstallation. The excavated area and casting shall be wet down thoroughly prior to receiving mortar or concrete. The mortar and concrete used shall be hand placed or shovel sliced to prevent voids between the existing facility and casting.
4. The finished grade of the facility and asphalt concrete shall be checked with a straight edge spanning the diameter of the asphalt cut around the facility. The horizontal elevation difference between the facility and the new asphalt shall not exceed one-fourth inch (1/4") in any direction.
5. Facilities shall be completely raised the same day that the pavement patch is made to permit full use of traffic at the end of that day.

It is the Contractor's responsibility to identify utility covers and its components that were clearly damaged prior to the start of work. Upon showing proof of such unsalvageable components, the Engineer shall make arrangements to supply the Contractor the

necessary replacement materials. Utilities damaged by the Contractor shall be replaced at the Contractor's expense.

Full compensation for conforming to the requirements of this section shall be considered as included in the prices paid for various contract items of work, and no additional compensation will be allowed therefor.

END OF SECTION

SECTION 00016

SECTION 16: CLEARING AND GRUBBING

16-1.01 DESCRIPTION

In addition to Section 16-1.01 of the State Standard Specifications, this work shall include saw cutting, removal and disposal of asphalt concrete pavement, concrete curb, irrigation pipes and sod located within the project area. The Contractor shall clear and grub trees, grass, vegetation and other debris as required where excavation and/or placement of fill are required. The Contractor shall confine demolition and clear and grub activities within the areas shown on the Project Plans, and shall ensure that no damage to neighboring structures or facilities occurs.

16-1.01A PRE- PAVING PREPARATION

The Contractor shall be responsible for removing all pavement striping, markers, and vegetation from the roadway.

The Contractor shall remove and dispose of all pavement markers prior to resurfacing the roadway.

All thermoplastic and painted limit lines, crosswalks and legends applied to the road surface shall be scarified. Scarification shall be performed using a grinder and shall be performed such that 80% of the underlying pavement is exposed.

Prior to resurfacing the roadway, the Contractor shall clean and sweep the roadway surface, to the satisfaction of the Engineer.

16-1.04 REMOVAL AND DISPOSAL OF MATERIALS

In addition to Section 16-1.04 of the State Standard Specifications, the Contractor may be required to remove and dispose of materials and construction debris including concrete, asphalt, asphalt speed humps, damaged vehicle loop detectors, tree roots, aggregate base, vegetation and unsuitable materials from the construction areas to a landfill site approved by the Engineer. The disposal of such materials shall conform to all local ordinances and regulations of the City of Roseville and the County of Placer relating to land grading, flood plains, drainage facilities and disposal of surplus materials. All other costs, charges and fees associated with such disposal shall be borne by the Contractor. Surplus materials are not to be confused with salvaged material, which shall remain the property of the City.

The Contractor shall remove and dispose of from the right-of-way or easement area all objectionable materials such as weeds, grass, roots, stumps, trash, broken concrete, excess material and other debris.

The Contractor shall be responsible for maintaining all existing drainage facilities and to reestablish the drainage ditches and facilities to their original location and condition as soon as possible after completion of the work in the area, to the complete satisfaction of the Engineer, except when such realignment or modification of the existing facilities is set forth on the plans and in other items of work.

Preservation and protection of survey monuments and markers encountered along the line of the work shall conform to the following: The Contractor shall notify the Engineer of monuments encountered and shall not remove or damage said monuments. If the monument is damaged, through the negligence or carelessness on the part of the Contractor, notification is not made as provided above or markers are removed which are not in direct conflict with the construction, the Contractor shall be responsible for the cost of referencing, resurvey, and replacement of the monument or marker. Replacement of Survey monuments and boxes shall be as set forth under Section 81 "Survey Monuments" of the Standard Specifications.

All materials removed as provided herein shall become the property of the Contractor and shall be disposed of off the City right-of-way or easement, unless otherwise set forth on the plans or in these Special Provisions. Existing public or private improvements which are designated on the plans or in these Special Provisions to be salvaged shall be carefully removed and stockpiled in the right-of-way or easement for later removal by City forces or the adjacent property owner, as specified.

During construction, provision shall be made to prevent siltation of the downstream drainage system, either from winter runoff or from any dry season flow passing through the construction site. Such provisions may include silt basins, silt fences or other physical means. If the Contractor's methods fail to prevent siltation or he/she fails to provide a protection against siltation, he/she shall clean the downstream drainage system to the satisfaction of the Engineer, and he shall be responsible for any damage which might result.

Full compensation for conforming to the requirements of this section shall be considered as included in the prices paid for various contract items of work, and no additional compensation will be allowed therefor.

END OF SECTION

SECTION 00017

SECTION 17: WATERING

17-1.01 WATER SUPPLY

In addition to the requirements of Section 17-1.01 of the State Standard Specifications, water for dust control and other operations of this contract may be furnished from available fire hydrants. The Contractor shall apply with the City of Roseville Environmental Utilities Division for a "no fee" Hydrant Permit. The Environmental Utilities Department may put restrictions on the amount of water that can be taken from nearby hydrants. The Contractor shall call the Environmental Utilities Department at (916) 774-5750 for more information.

Full compensation for conforming to the requirements of this section shall be included in the contract prices for various items of work and no additional compensation will be allowed therefor.

END OF SECTION

SECTION 00019

SECTION 19: EARTHWORK

19-1.01 DESCRIPTION

In addition to the requirements of Section 19-1.01 of the State Standard Specifications, the following shall apply:

The Contractor shall perform all excavation required for the complete project, to the lines and grades as shown on the Project Plans, as described in these Special Provisions, and as directed by the Engineer.

19-2.00 ROADWAY EXCAVATION

In addition to the requirements of Section 19-2 of the State Standard Specifications, the following shall also apply:

Excavated material not reused shall be disposed of in accordance with the provisions of Section 7-1.13, "Disposal of Material Outside the Highway Right of Way" and 16-1.04 "Removal and disposal of Materials", of the State Standard Specifications.

The Contractor shall do all excavation of whatever substance is encountered to the lines and grades shown on the plans. All material suitable for use as backfill shall be piled in an orderly manner a sufficient distance from the side of the excavation to avoid overloading and to prevent sliding into the excavation. The Contractor shall do such grading as is necessary to prevent surface water from entering the excavation.

Excavations adjacent to the existing roadway shall be closed at the end of each day's work. At the option of the Contractor, steel cover plates may be used at the end of each workday to cover excavations not backfilled adjacent to the roadway.

Excess excavated material suitable for use elsewhere in the construction may be reused therein. All surplus or unsuitable material shall become the property of the Contractor and shall be removed from the job site to a predetermined disposal site at the Contractor's expense.

The Contractor shall remove and dispose of all water entering excavations. Disposal of water shall be done in a manner to prevent damage or nuisance to adjacent properties.

Existing asphalt concrete pavement that is to remain intact shall be saw cut in a neat, straight, parallel line. All pavement damaged during the work shall be cut out in a rectangular pattern and removed and paved.

The maximum lift of backfill material shall depend upon the type of backfill material, relative compaction required, and proposed compaction method to be used, but in no case shall the loose lift thickness of any material exceed 8 inches.

HAZARDOUS MATERIAL DISPOSITION:

During the course of trenching, grading, grinding, or other excavation, should potentially hazardous materials or other questionable materials be encountered, the City's Resident Engineer shall be contacted immediately. The Contractor shall mark the site. The City will respond within 24 hours to investigate the site and render an opinion on the questionable materials regarding future action at the site. The intent is to minimize schedule delays to the construction.

The City will be responsible for delineating any required exclusions zones, removing and containerizing questionable material, as well as monitoring the work site for compliance with applicable health and safety compliance.

Removed material will be contained in drums, or drop boxes, depending on the volume, and temporarily staged within the fenced area behind the existing building located at the west side of the parking lot. The staging duration will only be long enough to obtain analytical laboratory results and confirm disposition instructions on the material. For each discovery, it is anticipated the material will be staged for less than 30 days.

19-2.02 UNSUITABLE MATERIAL

In addition to the requirements of Section 19-2.02 of the State Standard Specifications, the following shall also apply:

Should unsuitable material be encountered which, in the opinion of the Engineer, cannot be stabilized, the Contractor shall remove the unsuitable material to the dimensions and limits directed by the Engineer. The Contractor shall use extra care in excavating unsuitable materials so as not to aggravate the conditions. If, in the opinion of the Engineer, the Contractor's methods and equipment are increasing the amount of unsuitable materials to be excavated, the Engineer will require the Contractor to take necessary steps to correct the situation. Should the problem continue, the Contractor shall pay all costs beginning from the time correction steps were last implemented.

When unsuitable material is removed and disposed of, the resulting space shall be filled with material suitable for the planned use. The pay quantity for backfill shall be the same as that computed for unsuitable material excavation as specified herein. Unsuitable materials shall be removed from the job site and not incorporated into embankments.

The contract unit price paid per cubic yard for Unsuitable Material shall include full compensation for furnishing all labor, materials, tools, equipment, excavation, backfill, aggregate base, compaction, removal and incidentals, and for doing all work involved in constructing Unsuitable Material, complete in place, as shown on the plans, as

specified in the State Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor

Full compensation for conforming to the requirements of this section shall be included in the contract prices for various items of work and no additional compensation will be allowed therefor.

END OF SECTION

SECTION 00039

39 ASPHALT CONCRETE

39-1 GENERAL

39-1.01 GENERAL

In addition to the requirement outlined in Section 39 of these special provisions, the Contractor is responsible for any amendments made to the 2015 Standards Specification's as they pertain to Section 39 only.

39-2 HOT MIX ASPHALT

39-2.01 GENERAL

39-2.01A General

39-2.01A(1) Summary

Section 39-2.01 includes general specifications for producing and placing hot mix asphalt.

HMA includes one or more of the following types:

1. Type A HMA
2. Rubberized Hot Mix Asphalt (RHMA-G)
3. Open Graded Friction Course Production (OGFC)
4. Bonded Wearing Course (BWC)
5. Minor HMA

If the use of a WMA technology is allowed or required by a special provision, the WMA technology to be used must be on the Authorized Material List for approved technologies.

Wherever reference is made to the following test methods, the year of publication for these test methods is as shown in the following table:

Test method	Year of publication
AASHTO M 17	2011 (2015)
AASHTO M 323	2013
AASHTO R 30	2002 (2015)
AASHTO R 35	2014
AASHTO T 27	2014
AASHTO T 49	2014
AASHTO T 59	2013
AASHTO T 96	2002 (2010)
AASHTO T 164	2014

39-2.01A(2) Definitions

binder replacement: Binder from RAP expressed as a percent of the total binder in the mix.

coarse aggregate: Aggregate retained on a no. 4 sieve.

fine aggregate: Aggregate passing a no. 4 sieve.

leveling course: Thin layer of HMA used to correct minor variations in the longitudinal and transverse profile of the pavement before placement of other pavement layers.

miscellaneous areas: Areas outside the traveled way and shoulders such as:

1. Median areas not including inside shoulders
2. Island areas
3. Sidewalks
4. Gutters
5. Ditches
6. Overside drains
7. Aprons at ends of drainage structures

processed RAP: RAP that has been fractionated.

supplemental fine aggregate: Mineral filler consisting of rock dust, slag dust, hydraulic cement, or any combination of these and complying with AASHTO M 17.

39-2.01A(3) Submittals

39-2.01A(3)(a) General

Reserved

39-2.01A(3)(b) Job Mix Formula

39-2.01A(3)(b)(i) General

Except for the HMA to be used in dikes, the contractor shall submit proposed JMF for each type of HMA to be used. The JMF must be submitted on the Contractor Job Mix Formula Proposal form along with:

1. Mix design documentation on Contractor Hot Mix Asphalt Design Data form dated within 12 months of submittal
2. JMF verification on a Caltrans Hot Mix Asphalt Verification form, if applicable
3. JMF renewal on a Caltrans Job Mix Formula Renewal form, if applicable
4. SDS for:
 - 4.1. Asphalt binder
 - 4.2. Supplemental fine aggregate except fines from dust collectors
 - 4.3. Antistrip additives

The Contractor's Hot Mix Asphalt Design Data form must show documentation on aggregate quality.

If the Contractor cannot submit a Caltrans-verified JMF on a Caltrans Hot Mix Asphalt Verification form dated within 12 months before HMA production, the Engineer verifies the JMF.

Submit a new JMF if the Contractor changes any of the following:

1. Target asphalt binder percentage greater than ± 0.2 percent
2. Asphalt binder supplier
3. Combined aggregate gradation
4. Aggregate sources
5. Liquid antistriper producer or dosage
6. Average binder content in a new processed RAP stockpile by more than ± 2.00 percent from the average RAP binder content reported on page 4 of the Contractors Hot Mix Asphalt Design Data form
7. Average maximum specific gravity in a new processed RAP stockpile by more than ± 0.060 from the average maximum specific gravity value reported on page 4 of the Contractors Hot Mix Asphalt Design Data form
8. Any material in the JMF

Allow the Engineer 5 business days from a complete JMF submittal for document review of the aggregate qualities, mix design, and JMF. The Engineer notifies the Contractor if the proposed JMF submittal is accepted.

If the Contractor's JMF fails verification testing, submit an adjusted JMF based on the Contractor's testing. The adjusted JMF must include a new Contractor Job Mix Formula Proposal form, Contractor Hot Mix Asphalt Design Data form, and the results of the failed verification testing.

The Contractor may submit an adjusted aggregate gradation TV on a Contractor's Job Mix Formula Proposal form before verification testing. Aggregate gradation TV must be within the TV limits specified.

39-2.01A(3)(b)(ii) Job Mix Formula Renewal

The Contractor may request a JMF renewal by submitting:

1. Proposed JMF on a Contractor Job Mix Formula Proposal form
2. Previously verified JMF documented on a Caltrans Hot Mix Asphalt Verification form dated within 12 months
3. Mix design documentation on a Contractor Hot Mix Asphalt Design Data form used for the previously verified JMF

39-2.01A(3)(b)(iii) Job Mix Formula Modification

For an authorized JMF, submit a modified JMF if the Contractor the Contractor change any of the following:

1. Asphalt binder supplier
2. Liquid antistriper producer
3. Liquid antistriper dosage

The Contractor the Contractor may change any of the above items only once during the Contract.

Submit the Contractors modified JMF request at least 15 days before production. Each modified JMF submittal must include:

1. Proposed modified JMF on Contractor Job Mix Formula Proposal form, marked *Modified*.
2. Mix design records on Contractor Hot Mix Asphalt Design Data form for the authorized JMF to be modified.
3. JMF verification on Hot Mix Asphalt Verification form for the authorized JMF to be modified.
4. Test results for the modified JMF in compliance with the mix design specifications. Perform tests at the mix design OBC as shown on the Contractor Asphalt Mix Design Data form.

With an accepted modified JMF submittal, the Engineer verifies each modified JMF within 10 days of receiving all verification samples.

39-2.01A(3)(c) Quality Control Plan

With the Contractors proposed JMF submittal, submit a QC plan for HMA. The QC plan must describe the organization and procedures for:

1. Controlling HMA quality characteristics
2. Taking samples, including sampling locations
3. Establishing, implementing, and maintaining QC
4. Determining when corrective actions are needed
5. Implementing corrective actions
6. Using methods and materials for backfilling core locations

The QC plan must address the elements affecting HMA quality, including:

1. Aggregates
2. Asphalt binder
3. Additives
4. Production
5. Paving

Allow 5 business days for review of the QC plan.

If the Contractor changes QC procedures, personnel, or sample testing locations, submit a QC plan supplement before implementing the proposed change. Allow 5 business days for review of the QC plan supplement.

39-2.01A(3)(d) Test Results

For mix design, JMF verification, production start-up, and each 10,000 tons, submit AASHTO T 283 and AASHTO T 324 (Modified) test results to the Engineer and electronically to:

Moisture Tests@dot.ca.gov and the Engineer

Submit all QC test results, except AASHTO T 283 and AASHTO T 324 (Modified), within 3 business days of a request. Submit AASHTO T 283 QC tests within 15 days of sampling.

For tests performed under AASHTO T 324 (Modified), submit test data and 1 tested sample set within 5 business days of sampling.

If coarse and fine durability index tests are required, submit test results within 2 business days of testing.

If a tapered notched wedge is used, submit compaction test result values within 24 hours of testing.

39-2.01A(3)(e) Reserved

39-2.01A(3)(f) Liquid Antistrip Treatment

If liquid antistrip treatment is used, submit the following with the Contractors proposed JMF submittal:

1. One 1 pt sample
2. Infrared analysis, including copy of absorption spectra
3. Certified copy of test results
4. Certificate of compliance for each liquid antistrip shipment. On each certificate of compliance, include:
 - 4.1. The Contractors signature and printed name
 - 4.2. Shipment number
 - 4.3. Material type
 - 4.4. Material specific gravity
 - 4.5. Refinery
 - 4.6. Consignee
 - 4.7. Destination
 - 4.8. Quantity
 - 4.9. Contact or purchase order number
 - 4.10. Shipment date
5. Proposed proportions for the liquid antistrip

For each delivery of liquid antistrip to the HMA production plant, submit a 1 pt sample to METS. Submit shipping documents. Label each liquid antistrip sampling container with:

1. Liquid antistrip type
2. Application rate
3. Sample date
4. Contract number

At the end of each day's production shift, submit production data in electronic and printed media. Present data on electronic media in a tab delimited format. Use line feed carriage return with 1 separate record per line for each production data set. Allow enough fields for the specified data. Include data titles at least once per report. For each HMA mixing plant type, submit the following information in the order specified:

1. For batch plant mixing:

- 1.1. Production date
- 1.2. Time of batch completion
- 1.3. Mix size and type
- 1.4. Each ingredient's weight
- 1.5. Asphalt binder content as a percentage of the total weight of mix
- 1.6. Liquid antistrip content as a percentage of the asphalt binder weight

2. For continuous mixing plant:

- 2.1. Production date
- 2.2. Data capture time
- 2.3. Mix size and type
- 2.4. Flow rate of wet aggregate collected directly from the aggregate weigh belt
- 2.5. Aggregate moisture content as a percentage of the dry aggregate weight
- 2.6. Flow rate of asphalt binder collected from the asphalt binder meter
- 2.7. Flow rate of liquid antistrip collected from the liquid antistrip meter
- 2.8. Asphalt binder content as a percentage of the total weight of mix calculated from:
 - 2.8.1. Aggregate weigh belt output
 - 2.8.2. Aggregate moisture input
 - 2.8.3. Asphalt binder meter output
- 2.9. Liquid antistrip content as a percentage of the asphalt binder weight calculated from:
 - 2.9.1. Asphalt binder meter output
 - 2.9.2. Liquid antistrip meter output

39-2.01A(3)(g) Lime Treatment

Lime Treatment is not permitted.

39-2.01A(3)(h) Warm Mix Asphalt Technology

Warm Mix Asphalt WMA is not permitted on this project.

39-2.01A(4) Quality Assurance

39-2.01A(4)(a) General

AASHTO T 324 (Modified) is AASHTO T 324 with the following parameters:

1. Target air voids must equal 7.0 ± 1.0 percent
2. Specimen height must be 60 ± 1 mm
3. Number of test specimens must be 4 to run 2 tests
4. Do not average the 2 test results
5. Test specimen must be a 150 mm gyratory compacted specimen
6. Test temperature must be set at:
 - 6.1. 113 ± 2 degrees F for PG 58
 - 6.2. 122 ± 2 degrees F for PG 64
 - 6.3. 131 ± 2 degrees F for PG 70 and above
7. Measurements for impression must be taken at every 100 passes along the total length of the sample
8. Inflection point is the number of wheel passes at the intersection of the creep slope and the stripping slope at maximum rut depth
9. Testing shut off must be set at 25,000 passes
10. Submersion time for samples must not exceed 4 hours

Take samples under California Test 125.

If a WMA technology is used, a technical representative for the WMA technology must attend the preconstruction meeting.

39-2.01A(4)(b) Job Mix Formula Verification

The Engineer verifies the JMF from samples taken from HMA produced by the plant to be used. The production set point at the plant must be within ± 0.2 from the asphalt binder percentage TV shown in the Contractors Job Mix Formula Proposal form. Notify the Engineer at least 2 business days prior to sampling materials. Samples may be taken from a different project including a non-City project if the Contractor makes arrangements for the Engineer to be present during sampling. The sample shall take place no greater than 45 Miles from the City of Rossville's Civic Center.

In the Engineer's presence and from the same production run, take samples of:

1. Aggregates. Coarse, fine, and supplemental fine aggregates must be taken from the combined cold-feed belt or the hot bins. Samples must be at least 120 lb for each coarse aggregate, 80 lb for each fine aggregate, and 10 lb for each type of supplemental fine aggregate. For hot-bin samples, Caltrans combines these aggregate samples to verify the TV submitted on a Contractor Job Mix Formula Proposal form.
2. Asphalt binder. Take at least two 1 qt samples. Each sample must be in a cylindrical-shaped can with an open top and friction lid. If the asphalt binder is modified or rubberized, the asphalt binder must be sampled with the components blended in the proportions to be used.
3. RAP. Samples must be at least 50 lb from each fractionated stockpile used or 100 lb from the belt.

4. Plant-produced HMA. The HMA samples must be at least 250 lb.

For aggregate, RAP, and HMA, split the samples into at least 4 parts and label their containers. Three parts are for the Caltrans verification testing and 1 part is for the Contractors testing.

After acceptance of the JMF submittal, the Engineer verifies each proposed JMF within 20 days of receiving all verification samples.

For JMF verification, the Engineer tests the following for compliance with the specifications:

1. Aggregate quality
2. Aggregate gradation
3. Voids in mineral aggregate on laboratory-produced HMA
4. HMA quality characteristics for Caltrans acceptance

To verify the HMA for air voids, voids in mineral aggregate, and dust proportion, the Engineer uses an average of 3 briquettes. The Engineer tests plant-produced material. If the Engineer verifies the JMF, the Engineer furnishes the Contractor a Hot Mix Asphalt Verification form.

If the Engineer's test results on plant-produced samples do not show compliance with the specifications, the Engineer notifies the Contractor. The Contractor shall adjust the JMF based on the Contractors testing unless the Engineer authorizes reverification without adjustments. JMF adjustments may include a change in:

1. Asphalt binder content TV up to ± 0.20 percent from the OBC value submitted on the Contractor Hot Mix Asphalt Design Data form
2. Aggregate gradation TV within the TV limits specified in the aggregate gradation table

The Contractor may adjust the JMF only once due to a failed verification test.

If Contractor cannot submit a Caltrans or City of Roseville -verified JMF on Form CEM-3513 dated within 12 months before HMA production for each HMA type and aggregate

size specified, the Engineer verifies up to 1 proposed JMF submittals including a JMF adjusted after verification failure. If the Contractor submit more than 1 JMFs for each type of HMA and aggregate size, the Engineer deducts \$3,500 from payments for each verification exceeding this limit. This deduction does not apply to verifications initiated by the Engineer or if a JMF expires while HMA production is stopped longer than 30 days.

A verified JMF is valid for 12 months.

39-2.01A(4)(c) Job Mix Formula Authorization

The Contractor may start HMA production if:

1. Engineer's review of the JMF shows compliance with the specifications
2. City has verified the JMF within 12 months before HMA production
3. Engineer authorizes the verified JMF

39-2.01A(4)(d) Job Mix Formula Renewal

For a JMF renewal and upon request, in the Engineer's presence and from the same production run, take samples of:

1. Aggregates. Coarse, fine, and supplemental fine aggregates must be taken from the combined cold-feed belt or the hot bins. Samples must be at least 120 lb for each coarse aggregate, 80 lb for each fine aggregate, and 10 lb for each type of supplemental fines. For hot-bin samples, the Caltrans combines these aggregate samples to verify the TV submitted on a Contractor Job Mix Formula Proposal form.
2. Asphalt binder. Take at least two 1 qt samples. Each sample must be in a cylindrical-shaped can with an open top and friction lid. If the asphalt binder is modified or rubberized, the asphalt binder must be sampled with the components blended in the proportions to be used.
3. RAP. Samples must be at least 50 lb from each fractionated stockpile.
4. Plant-produced HMA. The HMA samples must be at least 250 lb.

Notify the Engineer at least 2 business days before sampling materials. For aggregate, RAP, and HMA, split samples into at least 4 parts. Submit 3 parts and use 1 part for the Contractors testing.

Allow the Engineer 5 business days from a complete JMF reverification submittal for document review of the aggregate qualities, mix design, and JMF.

The most recent aggregate quality test results within the past 12 months may be used for verification of JMF renewal or upon request, the Engineer may perform aggregate quality tests for verification of JMF renewal.

The Engineer verifies the JMF for renewal under section 39-2.01A(4)(b) except:

1. Engineer keeps the samples until the Contractor provide test results for the Contractors part on a Contractor Job Mix Formula Renewal form.
2. City tests samples of materials obtained from the HMA production unit after the Contractor submit test results that comply with the mix design specifications.
3. After completion of the JMF verification renewal document review, the Engineer verifies each proposed JMF within 20 days of receiving the verification renewal samples and the complete Contractor Job Mix Formula Renewal form.
4. The Contractor shall not adjust the JMF due to a failed verification.
5. For each HMA type and aggregate gradation specified, the Engineer verifies at no cost to the Contractor 1 proposed JMF renewal within a 12-month period.

If the Engineer verifies the JMF renewal, the Engineer furnishes the Contractor a Hot Mix Asphalt Verification form. The Hot Mix Asphalt Verification form is valid for 12 months.

39-2.01A(4)(e) Job Mix Formula Modification

The Engineer verifies the modified JMF after the modified JMF HMA is placed and verification samples are taken within the first 750 tons. The Engineer tests verification samples for compliance with:

1. Hamburg wheel track mix design specifications
2. Air void content
3. Voids in mineral aggregate on plant-produced HMA mix design specifications
4. Dust proportion mix design specifications

The Engineer may test for moisture susceptibility for compliance with the mix design specifications.

If the modified JMF is verified, the Engineer revises the Contractors Hot Mix Asphalt Verification form to include the new asphalt binder source, new liquid antistriper producer, or new liquid antistriper dosage. The Contractors revised form will have the same expiration date as the original form.

If a modified JMF is not verified, stop production and any HMA placed using the modified JMF is rejected.

The Engineer deducts \$2,000 from payments for each JMF modification.

39-2.01A(4)(f) Certifications

39-2.01A(4)(f)(i) General

Laboratories testing aggregate and HMA qualities used to prepare the mix design and JMF must be qualified under AASHTO Materials Reference Laboratory program and the Caltran's Independent Assurance Program.

39-2.01A(4)(f)(ii) Hot Mix Asphalt Plants

Before production, the HMA plant must have a current qualification under the Caltran's Material Plant Quality Program.

39-2.01A(4)(f)(iii)–39-2.01A(4)(f)(v) Reserved

39-2.01A(4)(g) Reserved

39-2.01A(4)(h) Quality Control

39-2.01A(4)(h)(i) General

QC test results must comply with the specifications for Caltrans acceptance.

Prepare 3 briquettes for air voids content and voids in mineral aggregate determination. Report the average of 3 tests.

Except for smoothness, if 2 consecutive QC test results or any 3 QC test results for 1 day's production do not comply with the materials specifications:

1. Stop HMA production
2. Notify the Engineer
3. Take corrective action
4. Demonstrate compliance with the specifications before resuming production and placement

For QC tests performed under AASHTO T 27, results are considered 1 QC test regardless of number of sieves out of compliance.

Do not resume production and placement until the Engineer authorizes the Contractors corrective action proposal.

39-2.01A(4)(h)(ii) Reserved

39-2.01A(4)(h)(iii) Aggregates

39-2.01A(4)(h)(iii)(A) General

Reserved

39-2.01A(4)(h)(iv) Liquid Antistrip Treatment

For continuous mixing or batch-plant mixing, sample asphalt binder before adding liquid antistrip. For continuous mixing, sample the combined asphalt binder and liquid antistrip after the static mixer.

39-2.01A(4)(h)(v) Production Start-up Evaluation

The Contractor and the Engineer evaluate HMA production and placement at production start-up.

Within the first 750 tons produced on the 1st day of HMA production, in the Engineer's presence, and from the same production run, take samples of:

1. Aggregates
2. Asphalt binder
3. RAP
4. HMA

Sample aggregates from the combined cold-feed belt or hot bin. Take RAP samples from the RAP system.

For aggregates, RAP, and HMA, split the samples into at least 4 parts and label their containers. Submit 3 parts and keep 1 part.

The Contractor and the Engineer must test the samples and report test results, except for AASHTO T 324 (Modified) and AASHTO T 283 test results, within 5 business days of sampling. For AASHTO T 324 (Modified) and AASHTO T 283 test results, report test results within 15 days of sampling. If the Contractor proceed before receipt of the test results, the Engineer may consider the HMA placed to be represented by these test results.

Take two 4- or 6-inch diameter density core for each 250 tons or portion thereof of HMA placed. For each density core, the Engineer reports the bulk specific gravity determined under AASHTO T 275, Method A, in addition to the percent of theoretical maximum density.

39-2.01A(4)(h)(vi) Hot Mix Asphalt Density

During HMA placement determine HMA density using a nuclear gauge. On the 1st day of production, develop a correlation factor between cores and nuclear gauge under California Test 375.

Test for in-place density using cores and a nuclear gauge. Test at random locations the Contractor select and include the test results in the Contractors QC production tests reports.

39-2.01A(4)(h)(vii) Tapered Notched Wedge

Perform QC testing on the completed tapered notched wedge joint as follows:

1. Perform density tests using a calibrated nuclear gauge at a rate of 1 test for every 750-foot section along the joint. Select random locations for testing within each 750-foot section.
2. Perform density tests at the centerline of the joint, 6 inches from the upper vertical notch, after the adjacent lane is placed and before opening the pavement to traffic.
3. Determine theoretical maximum density.
4. Determine percent compaction of the longitudinal joint as the ratio of the daily average density to the maximum density test results.

Determine percent compaction values each day the tapered notched wedge joint is completed. If the percent compaction of 1 day's production is less than 91 percent, that day's notched wedge joint is rejected. Discontinue placement of the tapered notched wedge and notify the Engineer of the changes the Contractor will make to the Contractor's construction process to comply with the specifications.

39-2.01A(4)(h)(viii) Density Cores

Except for HMA pavement placed using method compaction, take 4- or 6-inch diameter density cores at least once every 5 business days. Take 2 density cores for every 250 tons of HMA from random locations the Engineer selects. Take density cores in the Engineer's presence, and backfill and compact holes with authorized material. Before submitting a density cores, mark it with the density core's location and place it in a protective container.

If a density core is damaged, replace it with a density core taken within 1 foot longitudinally from the original density core location. Relocate any density core located within 1 foot of a rumble strip to 1 foot transversely away from the rumble strip.

For a tapered notched wedge joint, take 4- or 6-inch diameter density cores 6 inches from the upper vertical notch of the completed longitudinal joint for every 3,000 feet at locations selected by the Engineer. Take cores after the adjacent lane is placed and before opening the pavement to traffic. Take cores in the presence of the Engineer, and backfill and compact holes with authorized material. Before submitting a density core, mark it with the core's location, and place it in a protective container.

39-2.01A(4)(h)(ix) Pavement Smoothness

For HMA pavement within 3 feet from and parallel to the construction joint formed between curbs, gutters, or existing pavement, test pavement smoothness using a 12-foot straightedge.

39-2.01A(4)(h)(x) Reserved

39-2.01A(4)(i) City Acceptance

39-2.01A(4)(i)(i) General

The Engineer takes HMA samples for AASHTO T 283 and AASHTO T 324 (Modified) from any of the following locations:

1. Plant
2. Truck
3. Windrow

The Engineer takes HMA samples for all other tests from any of the following locations:

1. Plant
2. Truck
3. Windrow
4. Mat behind the paver

To obtain workability of the HMA sample for splitting, the Engineer reheats each sample of HMA mixture not more than 2 cycles. Each reheat cycle is performed by placing the loose mixture in a mechanical forced-draft oven for 2 hours or less after the sample reaches 140 degrees F.

The Engineer conditions each at-the-plant sample of HMA mixture in compliance with sections 7.1.2, 7.1.3, and 7.1.4 of AASHTO R 30.

The Engineer splits samples and provides the Contractor with a part if the Contractor request this.

No single test result may represent more than 750 tons or one day's production, whichever is less, except AASHTO T 283 and AASHTO T 324 (Modified).

Except for smoothness, if 2 consecutive City acceptance test results or any 3 City acceptance test results for 1 day's production do not comply with the specifications:

1. Stop HMA production
2. Take corrective action
3. Demonstrate compliance with the specifications before resuming production and placement

For City acceptance tests performed under AASHTO T 27, results are considered 1 City acceptance test regardless of the number of sieves out of compliance.

The Engineer accepts HMA based on:

1. Authorized JMF
2. Authorized QC plan
3. Asphalt binder compliance
4. Asphalt emulsion compliance
5. Visual inspection
6. Pavement smoothness

39-2.01A(4)(i)(ii) In-Place Density

The Engineer tests the density cores the Contractor takes from each 250 tons of HMA. The Engineer determines the percent of theoretical maximum density for each density core by determining the density core's density and dividing by the theoretical maximum density.

Density cores must be taken from the final layer, cored through the entire pavement thickness shown. Where OGFC is required, take the density cores before placing OGFC.

If the percent of theoretical maximum density does not comply with the specifications, the Engineer may accept the HMA and take a payment deduction as shown in the following table:

Reduced Payment Factors for Percent of Maximum Theoretical Density			
HMA percent of maximum theoretical density	Reduced payment factor	HMA percent of maximum theoretical density	Reduced payment factor
91.0	0.0000	97.0	0.0000
90.9	0.0125	97.1	0.0125
90.8	0.0250	97.2	0.0250
90.7	0.0375	97.3	0.0375
90.6	0.0500	97.4	0.0500
90.5	0.0625	97.5	0.0625
90.4	0.0750	97.6	0.0750
90.3	0.0875	97.7	0.0875
90.2	0.1000	97.8	0.1000
90.1	0.1125	97.9	0.1125
90.0	0.1250	98.0	0.1250
89.9	0.1375	98.1	0.1375
89.8	0.1500	98.2	0.1500
89.7	0.1625	98.3	0.1625
89.6	0.1750	98.4	0.1750
89.5	0.1875	98.5	0.1875
89.4	0.2000	98.6	0.2000
89.3	0.2125	98.7	0.2125

<89.0	Remove and replace	>99.0	Remove and replace

For acceptance of a completed tapered notched wedge joint, the Engineer determines density from cores the Contractor take every 3,000 feet.

39-2.01A(4)(i)(iii) Pavement Smoothness

For areas that require pavement smoothness determined using an inertial profiler, the pavement surface must:

1. Have no areas of localized roughness with an International Roughness Index greater than 160 in/mi
2. Comply with the Mean Roughness Index requirements shown in the following table for a 0.1 mile section:

HMA Pavement Smoothness Acceptance Criteria	
HMA thickness	Mean Roughness Index requirement
> 0.20 foot	60 in/mi or less
≤ 0.20 foot	75 in/mi or less
Note: These requirements do not apply to the OGFC surface. Smoothness requirements for OGFC are specified in section 39-2.04A(4)(c)(iii).	

The final surface of HMA must comply with the Mean Roughness Index requirements before placing OGFC. Correct pavement to the Mean Roughness Index specifications. Areas of localized roughness greater than 160 in/mi must be corrected regardless of the Mean Roughness Index values of a 0.1-mile section.

39-2.01A(4)(i)(iv) Dispute Resolution

The Contractor and the Engineer must work together to avoid potential conflicts and to resolve disputes regarding test result discrepancies. Notify the Engineer within 5 business days of receiving a test result if the Contractor dispute the test result.

If the Contractor or the Engineer dispute the other's test results, submit the Contractors test results and copies of paperwork including worksheets used to determine the disputed test results. An independent third party performs referee testing. Before the third party participates in a dispute resolution, it must be qualified under AASHTO Materials Reference Laboratory program, and the Caltrans's Independent Assurance Program. The independent third party must have no prior direct involvement with this Contract. By mutual agreement, the independent third party is chosen from:

1. Caltrans laboratory in a district or region not in the district or region the project is located
2. Transportation Laboratory
3. Laboratory not currently employed by the Contractor or the Contractors HMA producer

If the City's portion of the split QC samples or acceptance samples are not available, the independent third party uses any available material representing the disputed HMA for evaluation.

For a dispute involving JMF verification, the independent third party performs referee testing as specified in the 5th paragraph of section 39-2.01A(4)(b).

If the independent third party determines the City's test results are valid, the Engineer deducts the independent third party's testing costs from payments. If the independent third party determines the Contractors test results are valid, the City pays the independent third party's testing costs.

39-2.01B MATERIALS

39-2.01B(1) General

Reserved

39-2.01B(2) Mix Design

39-2.01B(2)(a) General

The HMA mix design must comply with AASHTO R 35 except:

1. Notes 3, 6, and 10 do not apply
2. AASHTO M 323 does not apply on combinations of aggregate gradation and asphalt binder contents to determine the OBC and HMA mixture qualities

The Contractor Hot Mix Asphalt Design Data form must show documentation on aggregate quality.

39-2.01B(2)(b) Hot Mix Asphalt Treatments

If the test results for AASHTO T 283 or AASHTO T 324 (Modified) for untreated plant-produced HMA are less than the minimum requirements for HMA mix design, determine the plasticity index of the aggregate blend under California Test 204.

Do not use an aggregate blend with a plasticity index greater than 10.

39-2.01B(3) Asphalt Binder

Asphalt binder must comply with section 92.

For a leveling course, the grade of asphalt binder for the HMA must be PG 64-10 or PG 64-16.

39-2.01B(4) Aggregates

39-2.01B(4)(a) General

Aggregates must be clean and free from deleterious substances.

The aggregate for HMA Type A must comply with the ¾-inch grading.

The aggregate for HMA Type A must comply with the ½ inch grading.

The aggregates for a leveling course must comply with the gradation specifications for Type A HMA in section 39-2.02B.

39-2.01B(4)(b) Aggregate Gradations

Aggregate gradation must be determined before the addition of asphalt binder and must include supplemental fine aggregates. Test for aggregate gradation under AASHTO T 27. Do not wash the coarse aggregate. Wash the fine aggregate only. Use a

mechanical sieve shaker. Aggregate shaking time must not exceed 10 minutes for each coarse and fine aggregate portion.

Choose a TV within the TV limits shown in the tables titled "Aggregate Gradations." Gradations are based on nominal maximum aggregate size.

39-2.01B(5) Liquid Antistrip Treatment

Liquid antistrip must be from 0.25 to 1.0 percent by weight of asphalt binder. Do not use liquid antistrip as a substitute for asphalt binder.

Liquid antistrip total amine value must be 325 minimum when tested under ASTM D2074.

Use only 1 liquid antistrip type or brand at a time. Do not mix liquid antistrip types or brands.

Store and mix liquid antistrip under the manufacturer's instructions.

39-2.01B(6)–39-2.01B(7) Reserved

39-2.01B(8) Hot Mix Asphalt Production

39-2.01B(8)(a) General

Do not start HMA production before verification and authorization of JMF.

The HMA plant must have a current qualification under the Department's Material Plant Quality Program.

Weighing and metering devices used for the production of HMA modified with additives must comply with the Caltran's *MPQP*. If a loss-in-weight meter is used for dry HMA additive, the meter must have an automatic and integral material delivery control system for the refill cycle.

Calibrate the loss-in-weight meter by:

1. Including at least 1 complete system refill cycle during each calibration test run
2. Operating the device in a normal run mode for 10 minutes immediately before starting the calibration process
3. Isolating the scale system within the loss-in-weight feeder from surrounding vibration
4. Checking the scale system within the loss-in-weight feeder for accuracy before and after the calibration process and daily during mix production
5. Using a minimum 15 minute or minimum 250 lb test run size for a dry ingredient delivery rate of less than 1 ton per hour.

6. Complying with the limits of Table B, "Conveyor Scale Testing Extremes," in Caltrans's *MPQP*

Proportion aggregate by hot or cold-feed control.

Aggregate temperature must not be more than 375 degrees F when mixed with the asphalt binder.

Asphalt binder temperature must be from 275 to 375 degrees F when mixed with aggregate.

Mix HMA ingredients into a homogeneous mixture of coated aggregates.

The temperature of HMA with or without RAP must not be more than 325 degrees F. For HMA produced using WMA technology, the temperature of HMA must from 240 to 325 degrees F.

If method compaction is used, HMA must be produced at a temperature from 305 to 325 degrees F.

If the Contractor stop production for longer than 30 days, a production start-up evaluation is required.

39-2.01B(8)(b) Liquid Antistrip

If 3 consecutive sets of recorded production data show that the actual delivered liquid antistrip weight is more than ± 1 percent of the authorized mix design liquid antistrip weight, stop production and take corrective action.

If a set of recorded production data shows that the actual delivered liquid antistrip weight is more than ± 2 percent of the authorized mix design liquid antistrip weight, stop production. If the liquid antistrip weight exceeds 1.2 percent of the asphalt binder weight, do not use the HMA represented by that data.

The continuous mixing plant controller proportioning the HMA must produce a production data log. The log must consist of a series of data sets captured at 10-minute intervals throughout daily production. The data must be a production activity register and not a summation. The material represented by the data is the quantity produced 5 minutes before and 5 minutes after the capture time. For the duration of the Contract, the collected data must be stored by the plant controller or a computer's memory at the plant.

The Engineer orders proportioning activities stopped for any of the following reasons:

1. The Contractor fail to submit data
2. The Contractor submit incomplete, untimely, or incorrectly formatted data
3. The Contractor fail to take corrective actions
4. The Contractor take late or unsuccessful corrective actions

5. The Contractor fail to stop production when proportioning tolerances are exceeded
6. The Contractor use malfunctioning or failed proportioning devices

If the Contractor stop production, notify the Engineer of any corrective actions taken before resuming.

39-2.01B(10) Tack Coat

Tack coat must comply with the specifications for asphaltic emulsion or asphalt binder. Choose the type and grade of emulsion or binder.

39-2.01B(11) Miscellaneous Areas and Dikes

For miscellaneous areas and dikes:

1. Choose either the 3/8-inch or 1/2-inch aggregate gradation for Type A HMA.
2. Minimum asphalt binder content must be 6.40 percent for 3/8-inch aggregate and 5.70 percent for 1/2-inch aggregate. The Contractor may reduce the minimum asphalt binder content if authorized.
3. Choose asphalt binder Grade PG 64-10, PG 64-16 or PG 70-10.

For HMA used in miscellaneous areas and dikes, sections 39-2.01A(3), 39-2.01A(4), 39-2.01B(2), 39-2.01B(4)(c), and 39-2.01B(5)–(10) do not apply.

39-2.01B(11A) MEASUREMENT AND PAYMENT

See section 39-2.02D1 Measurement and section 39-2.02D2 Payment of these special provisions.

39-2.01C CONSTRUCTION

39-2.01C(1) General

Do not place HMA on wet pavement or frozen surface.

The Contractor may deposit HMA in a windrow and load it in the paver if:

1. Paver is equipped with a hopper that automatically feeds the screed
2. Loading equipment can pick up the windrowed material and deposit it in the paver hopper without damaging base material
3. Activities for depositing, pickup, loading, and paving are continuous
4. HMA temperature in the windrow does not fall below 260 degrees F

HMA placed in a windrow on the roadway surface must not extend more than 250 feet in front of the loading equipment or material transfer vehicle.

The Contractor may place HMA in 1 or more layers on areas less than 5 feet wide and outside the traveled way, including shoulders. The Contractor may use mechanical

equipment other than a paver for these areas. The equipment must produce uniform smoothness and texture.

HMA handled, spread, or windrowed must not stain the finished surface of any improvement, including pavement.

Do not use petroleum products such as kerosene or diesel fuel to release HMA from trucks, spreaders, or compactors.

HMA must be free of:

1. Segregation
2. Coarse or fine aggregate pockets
3. Hardened lumps

Complete finish rolling activities before the pavement surface temperature is:

1. Below 150 degrees F for HMA with unmodified binder
2. Below 140 degrees F for HMA with modified binder
3. Below 130 degrees F for HMA with WMA technology

39-2.01C(2) Spreading and Compacting Equipment

39-2.01C(2)(a) General

Paving equipment for spreading must be:

1. Self-propelled
2. Mechanical
3. Equipped with a screed or strike-off assembly that can distribute HMA the full width of a traffic lane
4. Equipped with a full-width compacting device
5. Equipped with automatic screed controls and sensing devices that control the thickness, longitudinal grade, and transverse screed slope

Install and maintain grade and slope references.

The screed must be heated and produce a uniform HMA surface texture without tearing, shoving, or gouging.

The paver must not leave marks such as ridges and indentations unless the Contractor can eliminate them by rolling.

Rollers must be equipped with a system that prevents HMA from sticking to the wheels. The Contractor may use a parting agent that does not damage the HMA or impede the bonding of layers.

In areas inaccessible to spreading and compacting equipment:

1. Spread the HMA by any means to obtain the specified lines, grades, and cross sections
2. Use a pneumatic tamper, plate compactor, or equivalent to achieve thorough compaction

39-2.01C(2)(b) Material Transfer Vehicle

If a material transfer vehicle is specified, the material transfer vehicle must have sufficient capacity to prevent stopping the paver and must be capable of:

1. Either receiving HMA directly from trucks or using a windrow pickup head to load it from a windrow deposited on the roadway surface
2. Remixing the HMA with augers before transferring into the paver's receiving hopper or feed system
3. Transferring HMA directly into the paver's receiving hopper or feed system

39-2.01C(2)(c) Method Compaction Equipment

For method compaction, each paver spreading HMA must be followed by 3 rollers:

1. One vibratory roller specifically designed to compact HMA. The roller must be capable of at least 2,500 vibrations per minute and must be equipped with amplitude and frequency controls. The roller's gross static weight must be at least 7.5 tons.
2. One oscillating-type pneumatic-tired roller at least 4 feet wide. Pneumatic tires must be of equal size, diameter, type, and ply. The tires must be inflated to 60 psi minimum and maintained so that the air pressure does not vary more than 5 psi.
3. One steel-tired, 2-axle tandem roller. The roller's gross static weight must be at least 7.5 tons.

Each roller must have a separate operator. Rollers must be self-propelled and reversible.

39-2.01C(2)(d)–39-2.01C(2)(f) Reserved

39-2.01C(3) Surface Preparation

39-2.01C(3)(a) General

Before placing HMA, remove loose paving particles, dirt, and other extraneous material by any means including flushing and sweeping.

39-2.01C(3)(b) Subgrade

Prepare subgrade to receive HMA under the sections for the material involved. Subgrade must be free of loose and extraneous material.

39-2.01C(3)(c) Reserved

39-2.01C(3)(e) Prepaving Grinding

Section 39-2.01C(3)(e) applies to existing asphalt concrete surfaces:

1. That will not be cold planned or milled

2. That will receive an HMA overlay less than or equal to 0.20 foot exclusive of OGFC
3. If a bid item for prepaving grinding day is shown on the Bid Item List

After performing prepaving inertial profiling, correct areas of localized roughness greater than 180 in/mi.

Notify the Engineer of those areas of localized roughness that cannot be corrected by prepaving grinding according to the ProVAL smoothness assurance analysis grinding report. The Engineer responds to the Contractors notification within 5 business days.

For those areas of localized roughness that cannot be corrected by grinding, the Engineer may order the Contractor to either (1) not correct the areas of localized roughness or (2) correct areas of localized roughness by a different method and take profiles of the corrected areas with an inertial profiler. Corrective work performed by a different method, taking profiles of the corrected areas, the associated traffic control is change order work.

If ordered not to correct areas of localized roughness, the smoothness specifications do not apply to the final pavement surface placed in those areas.

After correcting areas of localized roughness, take profiles of the corrected area and submit profile data as specified in section 39-2.01A(3)(m)(iv).

Dispose of grinding residue.

Pave within 7 days of correcting areas.

The final pavement surface must comply with section 39-2.01A(4)(i)(iii).

If the Engineer determines more time is required for prepaving grinding than the Contract allows for and if prepaving grinding is a controlling activity, the Engineer makes a time adjustment.

39-2.01C(3)(f) Tack Coat

Apply a tack coat:

1. To existing pavement including planed surfaces
2. Between HMA layers
3. To vertical surfaces of:
 - 3.1. Curbs
 - 3.2. Gutters
 - 3.3. Construction joints

Equipment for the application of tack coat must comply with section 37-1.03B.

Before placing HMA, apply a tack coat in 1 application at the minimum residual rate shown in the following table for the condition of the underlying surface:

Tack Coat Application Rates for HMA			
HMA over:	Minimum residual rates (gal/sq yd)		
	CSS1/CSS1h, SS1/SS1h and QS1h/CQS1h asphaltic emulsion	CRS1/CRS2, RS1/RS2 and QS1/CQS1 asphaltic emulsion	Asphalt binder and PMRS2/PMCRS2 and PMRS2h/PMCRS 2h asphaltic emulsion
New HMA (between layers)	0.02	0.03	0.02
Concrete pavement and existing asphalt concrete surfacing	0.03	0.04	0.03
Planed pavement	0.05	0.06	0.04

If a stress absorbing membrane interlayer as specified in section 37-2.06 is applied, the tack coat application rates for new HMA apply.

Notify the Engineer if the Contractor dilute asphaltic emulsion with water. The weight ratio of added water to asphaltic emulsion must not exceed 1 to 1.

Measure added water either by weight or volume under section 9-1.02 or use water meters from water districts, cities, or counties. If the Contractor measure water by volume, apply a conversion factor to determine the correct weight.

With each dilution, submit:

1. Weight ratio of water to bituminous material in the original asphaltic emulsion
2. Weight of asphaltic emulsion before diluting
3. Weight of added water
4. Final dilution weight ratio of water to asphaltic emulsion

Apply a tack coat to vertical surfaces with a residual rate that will thoroughly coat the vertical face without running off.

If authorized, the Contractor may:

1. Change tack coat rates
2. Omit tack coat between layers of new HMA during the same work shift if:

- 2.1. No dust, dirt, or extraneous material is present
- 2.2. Surface is at least 140 degrees F

Immediately in advance of placing HMA, apply additional tack coat to damaged areas or where loose or extraneous material is removed.

Close areas receiving tack coat to traffic. Do not allow the tracking of tack coat onto pavement surfaces beyond the job site.

If the Contractor use an asphalt binder for tack coat, the asphalt binder temperature must be from 285 to 350 degrees F when applied.

39-2.01C(4) Longitudinal Joints

39-2.01C(4)(a) General

Longitudinal joints in the top layer must match lane lines. Alternate the longitudinal joint offsets in the lower layers at least 0.5 foot from each side of the lane line. Other longitudinal joint placement patterns are allowed if authorized.

A vertical longitudinal joint of more than 0.15 foot is not allowed at any time between adjacent lanes open to traffic.

For an HMA thickness of 0.15 foot or less, the distance between the ends of the adjacent surfaced lanes at the end of each day's work must not be greater than can be completed in the following day of normal paving.

For an HMA thickness greater than 0.15 foot, the Contractor must place HMA on adjacent traveled way lanes or shoulder such that at the end of each work shift the distance between the ends of HMA layers on adjacent lanes is from 5 to 10 feet. Place additional HMA along the transverse edge at each lane's end and along the exposed longitudinal edges between adjacent lanes. Hand rake and compact the additional HMA to form temporary conforms. The Contractor may place kraft paper or other authorized release agent under the conform tapers to facilitate the taper removal when paving activities resume.

If placing HMA against the edge of existing pavement, saw cut or grind the pavement straight and vertical along the joint and remove extraneous material.

39-2.01C(4)(b) Tapered Notched Wedge

For divided highways with an HMA lift thickness greater than 0.15 foot, the Contractor may construct a 1-foot wide tapered notched wedge joint as a longitudinal joint between adjacent lanes open to traffic. A vertical notch of 0.75 inch maximum must be placed at the top and bottom of the tapered wedge.

The tapered notched wedge must keep its shape while exposed to traffic. Pave the adjacent lane within 1 day.

Construct the tapered portion of the tapered notched wedge with an authorized strike-off device. The strike-off device must provide a uniform slope and must not restrict the main screed of the paver.

The Contractor may use a device attached to the screed to construct longitudinal joints that will form a tapered notched wedge in a single pass. The tapered notched wedge must be compacted to a minimum of 91 percent compaction.

39-2.01C(5) Pavement Edge Treatments

Construct edge treatment on the HMA pavement as shown.

Where a tapered edge is required, use the same type of HMA used for the adjacent lane or shoulder.

The edge of roadway where the tapered edge is to be placed must have a solid base, free of debris such as loose material, grass, weeds, or mud. Grade the areas to receive the tapered edge as required.

The tapered edge must be placed monolithic with the adjacent lane or shoulder and must be shaped and compacted with a device attached to the paver.

The device must be capable of shaping and compacting HMA to the required cross section as shown. Compaction must be accomplished by constraining the HMA to reduce the cross sectional area by 10 to 15 percent. The device must produce a uniform surface texture without tearing, shoving, or gouging and must not leave marks such as ridges and indentations. The device must be capable of transitioning to cross roads, driveways, and obstructions.

For the tapered edge, the angle of the slope must not deviate by more than ± 5 degrees from the angle shown. Measure the angle from the plane of the adjacent finished pavement surface.

If paving is done in multiple lifts, the tapered edge must be placed with each lift. Short sections of hand work are allowed to construct tapered edge transitions.

39-2.01C(6) Widening Existing Pavement

If widening existing pavement, construct new pavement structure to match the elevation of the existing pavement's edge before placing HMA over the existing pavement.

39-2.01C(7) Shoulders, Medians, and Other Road Connections

Until the adjoining through lane's top layer has been paved, do not pave the top layer of:

1. Shoulders
2. Tapers
3. Transitions
4. Road connections

5. Driveways
6. Curve widenings
7. Chain control lanes
8. Turnouts
9. Turn pockets

If the number of lanes changes, pave each through lane's top layer before paving a tapering lane's top layer. Simultaneous to paving a through lane's top layer, the Contractor may pave an adjoining area's top layer, including shoulders. Do not operate spreading equipment on any area's top layer until completing final compaction.

If shoulders or median borders are shown, pave shoulders and median borders adjacent to the lane before opening a lane to traffic.

If shoulder conform tapers are shown, place conform tapers concurrently with the adjacent lane's paving.

If a driveway or a road connection is shown, place additional HMA along the pavement's edge to conform to road connections and driveways. Hand rake, if necessary, and compact the additional HMA to form a smooth conform taper.

39-2.01C(8) Leveling

Fill and level irregularities and ruts with HMA before spreading HMA over the base, existing surfaces, or bridge decks. The Contractor may use mechanical equipment other than a paver for these areas. The equipment must produce uniform smoothness and texture. HMA used to change an existing surface's cross slope or profile is not paid for as hot mix asphalt (leveling).

39-2.01C(9) Miscellaneous Areas and Dikes

Prepare the area to receive HMA for miscellaneous areas and dikes, including excavation and backfill as needed.

Spread the HMA in miscellaneous areas in 1 layer and compact to the specified lines and grades.

In median areas adjacent to slotted median drains, each layer of HMA must not exceed 0.20 foot maximum compacted thickness.

The finished surface must be:

1. Textured uniformly
2. Compacted firmly
3. Without depressions, humps, and irregularities

39-2.01C(10)–39-2.01C(14) Reserved

39-2.01C(15) Compaction

39-2.01C(15)(a) General

Rolling must leave the completed surface compacted and smooth without tearing, cracking, or shoving.

If a vibratory roller is used as a finish roller, turn the vibrator off.

Do not open new HMA pavement to traffic until its mid depth temperature is below 160 degrees F.

If the surface to be paved is both in sunlight and shade, pavement surface temperatures are taken in the shade.

39-2.01C(15)(b) Method Compaction

Use method compaction for any of the following conditions:

1. HMA pavement thickness shown is less than 0.15 foot
2. HMA placed with curb ramp construction
3. Leveling courses
4. Areas the Engineer determines conventional compaction and compaction measurement methods are impeded

HMA compaction coverage is the number of passes needed to cover the paving width. A pass is 1 roller's movement parallel to the paving in either direction. Overlapping passes are part of the coverage being made and are not a subsequent coverage. Do not start a coverage until completing the prior coverage.

Method compaction must consist of performing:

1. Breakdown compaction of each layer with 3 coverages using a vibratory roller. The speed of the vibratory roller in miles per hour must not exceed the vibrations per minute divided by 1,000. If the HMA layer thickness is less than 0.08 foot, turn the vibrator off.
2. Intermediate compaction of each layer of HMA with 3 coverages using a pneumatic-tired roller at a speed not to exceed 5 mph.
3. Finish compaction of HMA with 1 coverage using a steel-tired roller.

Start rolling at the lower edge and progress toward the highest part.

The Engineer may order fewer coverages if the layer thickness of HMA is less than 0.15 foot.

39-2.01C(15)(c)–39-2.01C(15)(e) Reserved

39-2.01C(16) Smoothness Corrections

If the pavement surface does not comply with section 39-2.01A(4)(i)(iii), grind the pavement to within specified tolerances, remove and replace the pavement, or place an overlay of HMA. Do not start corrective work until the Contractors method is authorized.

Do not use equipment with carbide cutting teeth to grind the pavement unless authorized.

Smoothness corrections must leave at least 75 percent of the specified HMA thickness. If ordered, core the pavement at the locations selected by the Engineer. Coring, including traffic control, is change order work. Remove and replace deficient pavement areas where the overlay thickness is less than 75 percent of the thickness specified.

Corrected HMA pavement areas must be uniform rectangles with edges:

1. Parallel to the nearest HMA pavement edge or lane line
2. Perpendicular to the pavement centerline

On ground areas not to be overlaid with OGFC, apply a fog seal coat under section 37.

Where corrections are made within areas requiring testing with inertial profiler, reprofile the entire lane length with the inertial profiler.

Where corrections are made within areas requiring testing with a 12-foot straightedge, retest the corrected area with the straightedge.

39-2.01C(17) Data Cores

Section 39-2.01C(17) applies if a bid item for data core is shown on the Bid Item List. Take data cores of the completed HMA pavement, underlying base, and subbase material. Notify the Engineer 3 business days before coring.

Protect data cores and surrounding pavement from damage.

Take 4-inch or 6-inch diameter data cores:

1. At the beginning, end, and every 1/2 mile within the paving limits of each route on the project
2. After all paving is complete
3. From the center of the specified lane

On a 2-lane roadway, take data cores from either lane. On a 4-lane roadway, take data cores from the outermost lane in each direction. On a roadway with more than 4 lanes, take data cores from the innermost lane and the outermost lane in each direction.

Each core must include the stabilized materials encountered. The Contractor may choose not to recover unstabilized material but the Contractor must identify the material. Unstabilized material includes any of the following:

1. Granular material
2. Crumbled or cracked stabilized material
3. Sandy or clayey soil

Where data core samples are taken, backfill and compact the holes with an authorized material.

After data core summary and photograph submittal, dispose of cores.

The payment quantity for HMA of the type shown on the Bid Item List is measured based on the combined mixture weight. If recorded batch weights are printed automatically, the bid item for HMA is measured by using the printed batch weights, provided:

1. Total aggregate and supplemental fine aggregate weight per batch is printed. If supplemental fine aggregate is weighed cumulatively with the aggregate, the total aggregate batch weight must include the supplemental fine aggregate weight.
2. Total virgin asphalt binder weight per batch is printed.
3. Each truckload's zero tolerance weight is printed before weighing the first batch and after weighing the last batch.
4. Time, date, mix number, load number and truck identification is correlated with a load slip.
5. Copy of the recorded batch weights is certified by a licensed weigh master and submitted.

The Engineer does not adjust the unit price for an increase or decrease in the prepping grinding day quantity.

39-2.02 TYPE A HOT MIX ASPHALT

39-2.02A GENERAL

39-2.02A(1) Summary

Section 39-2.02 includes specifications for producing and placing Type A hot mix asphalt.

Sand equivalent ^{b, c}	AASHTO T 176	
Moisture content ^d	AASHTO T 255	
Crushed particles	AASHTO T 335	1 per 10,000 tons or 2 per project whichever is greater
Los Angeles Rattler	AASHTO T 96	
Flat and elongated particles	ASTM D4791	
Fine aggregate angularity	AASHTO T 304 Method A	

^aIf RAP is used, test the combined aggregate gradation under California Test 384.
^bReported value must be the average of 3 tests from a single sample.
^cUse of a sand reading indicator is required as shown in AASHTO T 176, Figure 1. Sections 4.7, "Manual Shaker," 7.1.2, "Alternate Method No. 2," and 8.4.3, "Hand Method," do not apply. Prepare the stock solution as specified in section 4.8.1, "Stock solution with formaldehyde," except omit the addition of formaldehyde.
^dTest at continuous mixing plants only. If RAP is used, test the RAP moisture content at continuous mixing plant and batch mixing plant.

39-2.02A(4)(b)(iii) Reclaimed Asphalt Pavement

Sample and test processed RAP at a minimum frequency of 1 sample per 1,000 tons with a minimum of 6 samples per fractionated stockpile. If the fractionated stockpile has not been augmented, the 3 RAP samples taken and tested for mix design can be part of this minimum sample requirement. If a processed RAP stockpile is augmented,

sample and test processed RAP quality characteristics at a minimum frequency of 1 sample per 500 tons of augmented RAP.

The combined RAP sample when tested under AASHTO T 164 must be within ± 2.00 percent of the average asphalt binder content reported on page 4 of the Contractors Hot Mix Asphalt Design Data form. If a new processed RAP stockpile is required, the average binder content of the new processed RAP stockpile must be within ± 2.00 percent of the average binder reported on page 4 of the Contractors Contractor Hot Mix Asphalt Design Data form.

The combined RAP sample when tested under AASHTO T 209 must be within ± 0.06 of the average maximum specific gravity reported on page 4 of the Contractors Contractor Hot Mix Asphalt Design Data form.

During Type A HMA production, sample RAP twice daily and perform QC testing for:

1. Aggregate gradation at least once a day under California Test 384
2. Moisture content at least twice a day

39-2.02A(4)(b)(iv)–39-2.02A(4)(b)(viii) Reserved

39-2.02A(4)(b)(ix) Type A Hot Mix Asphalt Production

Test the quality characteristics of Type A HMA under the test methods and frequencies shown in the following table:

Type A HMA Production Testing Frequencies		
Quality characteristic	Test method	Minimum testing frequency
Asphalt binder content	AASHTO T 308, Method A	1 per 750 tons and any remaining part
HMA moisture content	AASHTO T 329	1 per 2,500 tons but not less than 1 per paving day
Air voids content	AASHTO T 269	1 per 4,000 tons or 2 every 5 paving days, whichever is greater
Voids in mineral aggregate	SP-2 Asphalt Mixture Volumetrics	1 per 10,000 tons or 2 per project whichever is greater
Dust proportion	SP-2 Asphalt Mixture Volumetrics	
Density of core	California Test 375	2 per paving day
Nuclear gauge density	California Test 375	3 per 250 tons or 3 per paving day, whichever is greater
Hamburg wheel track	AASHTO T 324 (Modified)	1 per 10,000 tons or 1 per project, whichever is greater
Moisture susceptibility	AASHTO T 283	

39-2.02A(4)(c)–39-2.02A(4)(d) Reserved**39-2.02A(4)(e) Caltrans Acceptance**

The Caltrans accepts Type A HMA based on compliance with:

1. Aggregate quality requirements shown in the following table:

Aggregate Quality		
Quality characteristic	Test method	Requirement
Aggregate gradation ^a	AASHTO T 27	JMF ± Tolerance
Percent of crushed particles	AASHTO T 335	95
Coarse aggregate (min, %)		
One-fractured face		
Two-fractured faces		90
Fine aggregate (min, %)	AASHTO T 335	70
(Passing No. 4 sieve		
and retained on No. 8 sieve.)		
One-fractured face		
Los Angeles Rattler (max, %)	AASHTO T 96	12
Loss at 100 Rev.		
Loss at 500 Rev.		40
Sand equivalent (min.) ^{b, c}	AASHTO T 176	47
Flat and elongated particles (max, % by weight at 5:1)	ASTM D4791	10
Fine aggregate angularity (min, %) ^d	AASHTO T 304, Method A	45
^a The Engineer determines combined aggregate gradations containing RAP under California Test 384. ^b Reported value must be the average of 3 tests from a single sample. ^c Use of a sand reading indicator is required as shown in AASHTO T 176, Figure 1. Sections 4.7, "Manual Shaker," 7.1.2, "Alternate Method No. 2," and 8.4.3, "Hand Method," do not apply. Prepare the stock solution as specified in section 4.8.1, "Stock solution with formaldehyde," except omit the addition of formaldehyde. ^d The Engineer waives this specification if HMA contains 10 percent or less of nonmanufactured sand by weight of total aggregate. Manufactured sand is fine aggregate produced by crushing rock or gravel.		

2. If RAP is used, RAP quality requirements shown in the following table:

Reclaimed Asphalt Pavement Quality		
Quality characteristic	Test method	Requirement
Binder content (% within the average value reported)	AASHTO T 164	±2.00
Specific gravity (within the average value reported)	AASHTO T 209	±0.06

3. In place Type A HMA quality requirements shown in the following table:

Type A HMA Acceptance In Place		
Quality characteristic	Test method	Requirement
Asphalt binder content (%)	AASHTO T 308 Method A	JMF -0.30, +0.50
HMA moisture content (max, %)	AASHTO T 329	1.00
Air voids content at N _{design} (%) ^{a, b}	AASHTO T 269	4.0 ± 1.5 (5.0 ± 1.5 for 1-inch aggregate)
Voids in mineral aggregate on laboratory-produced HMA (min, %) ^d Gradation: No. 4 3/8-inch 1/2-inch 3/4-inch 1-inch with NMA = 1-inch with NMA = 3/4-inch	SP-2 Asphalt Mixture Volumetrics	16.5–19.5 15.5–18.5 14.5–17.5 13.5–16.5 13.5–16.5 14.5–17.5
Voids in mineral aggregate on plant-produced HMA (min, %) ^a Gradation: No. 4 3/8-inch 1/2-inch 3/4-inch 1-inch with NMA = 1-inch with NMA = 3/4-inch	SP-2 Asphalt Mixture Volumetrics ^c	15.5–18.5 14.5–17.5 13.5–16.5 12.5–15.5 12.5–15.5 13.5–16.5
Dust proportion	SP-2 Asphalt Mixture Volumetrics	0.6–1.3 ^g
Density of core (% of max theoretical density) ^{e, f}	California Test 375	91.0–97.0
Hamburg wheel track (min number of passes at 0.5-inch rut depth) Binder grade: PG 58 PG 64 PG 70 PG 76 or higher	AASHTO T 324 (Modified)	10,000 15,000 20,000 25,000
Hamburg wheel track (min number of passes at inflection point) Binder grade: PG 58 PG 64	AASHTO T 324 (Modified)	10,000 10,000

PG 70		12,500
PG 76 or higher		15,000
Moisture susceptibility (min, psi, dry strength)	AASHTO T 283	100
Moisture susceptibility (min, psi, wet strength)	AASHTO T 283	70
^a Prepare 3 briquettes. Report the average of 3 tests. ^b The Engineer determines the bulk specific gravity of each lab-compacted briquette under AASHTO T 275, Method A, and theoretical maximum specific gravity under AASHTO T 209, Method A. ^c Determine bulk specific gravity under AASHTO T 275, Method A. ^d The Engineer determines the laboratory-prepared Type A HMA value for only mix design verification. ^e The Engineer determines percent of theoretical maximum density under California Test 375 except the Engineer uses: 1. AASHTO T 275 to determine in-place density of each density core 2. AASHTO T 209, Method A to determine theoretical maximum density instead of calculating test maximum density ^f The Engineer determines theoretical maximum density under AASHTO T 209, Method A, at the frequency specified in California Test 375, part 5, section D.		

39-2.02B MATERIALS

39-2.02B(1) General

Reserved

39-2.02B(2) Type A Hot Mix Asphalt Mix Design

The mix design for Type A HMA must comply with the requirements shown in the following table:

Type A HMA Mix Design Requirements

Quality characteristic	Test method	Requirement
Air voids content (%)	AASHTO T 269 ^a	N _{initial} > 8.0 N _{design} = 4.0 (N _{design} = 5.0 for 1-inch aggregate) N _{max} > 2.0
Gyrations compaction (no. of gyrations)	AASHTO T 312	N _{initial} = 8 N _{design} = 85.0 N _{max} = 130
Voids in mineral aggregate (min, %) ^b Gradation: No. 4 3/8-inch 1/2-inch 3/4-inch 1-inch with NMAS = 1-inch with NMAS = 3/4-inch	SP-2 Asphalt Mixture Volumetrics	16.5–19.5 15.5–18.5 14.5–17.5 13.5–16.5 13.5–16.5 14.5–17.5
Dust proportion	SP-2 Asphalt Mixture Volumetrics	0.6–1.3
Hamburg wheel track (min number of passes at 0.5-inch rut depth) Binder grade: PG 58 PG 64 PG 70 PG 76 or higher	AASHTO T 324 (Modified) ^c	10,000 15,000 20,000 25,000
Hamburg wheel track (min number of passes at the inflection point) Binder grade: PG 58 PG 64 PG 70 PG 76 or higher	AASHTO T 324 (Modified) ^c	10,000 10,000 12,500 15,000
Moisture susceptibility, dry strength (min, psi)	AASHTO T 283 ^c	100
Moisture susceptibility, wet strength (min, psi)	AASHTO T 283 ^{c, d}	70

^aCalculate the air voids content of each specimen using AASHTO T 275, Method A, to determine bulk specific gravity. Use AASHTO T 209, Method A, to determine theoretical maximum specific gravity. Use a digital manometer and pycnometer when performing AASHTO T 209.

^bMeasure bulk specific gravity using AASHTO T 275, Method A.

^cTest plant-produced Type A HMA.

^dFreeze thaw required.

For Type A HMA mixtures using RAP, the maximum allowed binder replacement is 25.0 percent in the upper 0.2 foot exclusive of OGFC and 40.0 percent below. The binder replacement is calculated as a percentage of the approved JMF target asphalt binder content.

For Type A HMA with a binder replacement percent less than or equal to 25 percent of the Contractors specified OBC, the Contractor may request that the performance graded asphalt binder grade with upper and lower temperature classifications be reduced by 6 degrees C from the specified grade.

For Type A HMA with a binder replacement greater than 25 percent of the Contractors specified OBC and less than or equal to 40 percent of OBC, the Contractor must use a performance graded asphalt binder grade with upper and lower temperature classifications reduced by 6 degrees C from the specified grade.

39-2.02B(3) Asphalt Binder

The grade of asphalt binder for Type A HMA must be 70-10.

39-2.02B(4) Aggregates

39-2.02B(4)(a) General

The aggregates must comply with the requirements shown in the following table:

Aggregate Quality		
Quality characteristic	Test method	Requirement
Percent of crushed particles: Coarse aggregate (min, %) One-fractured face Two-fractured faces Fine aggregate (min, %) (Passing No. 4 sieve and retained on No. 8 sieve.) One-fractured face	AASHTO T 335	95 90
		70
Los Angeles Rattler (max, %) Loss at 100 Rev. Loss at 500 Rev.	AASHTO T 96	12 40
Sand equivalent (min) ^a	AASHTO T 176	47
Flat and elongated particles (max, % by weight at 5:1)	ASTM D4791	10
Fine aggregate angularity (min, %) ^b	AASHTO T 304, Method A	45
^a The reported value must be the average of 3 tests from a single sample. Use of a sand reading indicator is required as shown in AASHTO T 176, Figure 1. Sections 4.7, "Manual Shaker," 7.1.2, "Alternate Method No. 2," and 8.4.3, "Hand Method," do not apply. Prepare the stock solution as specified in section 4.8.1, "Stock solution with formaldehyde," except omit the addition of formaldehyde. ^b The Engineer waives this specification if the Type A HMA contains 10 percent or less of non-manufactured sand by weight of total aggregate, except if the Contractors JMF fails verification. Manufactured sand is fine aggregate produced by crushing rock or gravel.		

39-2.02B(4)(b) Aggregate Gradations

The aggregate gradations for Type A HMA must comply with the requirements shown in the following table:

Aggregate Gradation Requirements	
Type A HMA pavement thickness shown	Gradation
0.10 foot	3/8 inch
Greater than 0.12 to less than 0.20 foot	1/2 inch
0.15 to less than 0.20 foot	3/4 inch
0.25 foot or greater	3/4 inch or 1 inch

Aggregate gradation must be within the TV limits for the specified sieve size shown in the following tables:

**Aggregate Gradations for Type A HMA
(Percentage Passing)**

1 inch

Sieve size	Target value limit	Allowable tolerance
1"	100	--
3/4"	88–93	TV ± 5

39-2.02B(5) Reclaimed Asphalt Pavement

The Contractor may substitute RAP for part of the virgin aggregate in a quantity up to 25 percent of the aggregate blend.

Provide enough space at the Contractors plant for complying with all RAP handling requirements. Provide a clean, graded base, well drained area for stockpiles.

If RAP is from multiple sources, blend the RAP thoroughly and completely before fractionating.

For RAP substitution greater than 15 percent of the aggregate blend, fractionate RAP stockpiles into 2 sizes, a coarse fraction RAP retained on 3/8-inch sieve and a fine fraction RAP passing 3/8-inch sieve. For RAP substitution of 15 percent of the aggregate blend or less, fractionation is not required.

The RAP fractionation must comply with the requirements shown in the following table:

RAP Stockpile Fractionation Gradation Requirements

Size	Test method	Requirement
Coarse (% passing the 1-inch sieve)	California Test 202 ^a	100
Fine (% passing the 3/8-inch sieve)	California Test 202 ^a	98–100
^a Maximum mechanical shaking time is 10 minutes.		

The Contractor may use the coarse fractionated stockpile, the fine fractionated stockpile, or a combination of the coarse and fine fractionated stockpiles.

Isolate the processed RAP stockpiles from other materials. Store processed RAP in conical or longitudinal stockpiles. Processed RAP must not be agglomerated or be allowed to congeal in large stockpiles.

39-2.02B(6)–39-2.02B(10) Reserved

39-2.02B(11) Type A Hot Mix Asphalt Production

If RAP is used, the asphalt plant must automatically adjust the virgin asphalt binder to account for RAP percentage and RAP binder.

During production, the Contractor may adjust hot- or cold-feed proportion controls for virgin aggregate and RAP. RAP must be within ± 3 of RAP percentage described in the Contractors Contractor Job Mix Formula Proposal form without exceeding 25 percent.

39-2.02C CONSTRUCTION

Where the pavement thickness shown is greater than 0.25 foot, the Contractor shall place Type A HMA in multiple lifts not less than 0.15 foot each. If placing Type A HMA in multiple lifts:

1. Aggregate gradation must comply with the requirements shown in the following table:

Aggregate Gradation Requirements	
Type A HMA lift thickness	Gradation
0.12 to less than 0.20 foot	1/2 inch
0.15 foot to less than 0.20 foot	3/4 inch
0.25 foot or greater	3/4 inch or 1 inch

2. Apply a tack coat before placing a subsequent lift
3. The Engineer evaluates each HMA lift individually for compliance

Spread Type A HMA at the ambient air and surface temperatures shown in the following table:

Minimum Ambient Air and Surface Temperatures				
Lift thickness (feet)	Ambient air (°F)		Surface (°F)	
	Unmodified asphalt binder	Modified asphalt binder	Unmodified asphalt binder	Modified asphalt binder
<0.15	55	50	60	55
≥0.15	45	45	50	50

For method compaction, the maximum lift thickness must be 0.25 foot.

For Type A HMA placed under method compaction, if the asphalt binder is:

1. Unmodified, complete:
 - 1.1. 1st coverage of breakdown compaction before the surface temperature drops below 250 degrees F
 - 1.2. Breakdown and intermediate compaction before the surface temperature drops below 190 degrees F
 - 1.3. Finish compaction before the surface temperature drops below 150 degrees F
2. Modified, complete:
 - 2.1. 1st coverage of breakdown compaction before the surface temperature drops below 240 degrees F
 - 2.2. Breakdown and intermediate compaction before the surface temperature drops below 180 degrees F

- 2.3. Finish compaction before the surface temperature drops below 140 degrees F

The Contractor may cool Type A HMA with water when rolling activities are complete if authorized.

39-2.02D2 PAYMENT

The contract unit price paid per ton for Hot Mix Asphalt (3/4", Type A) shall include full compensation for furnishing all labor, materials, tools, cores, testing, 1 job mix formula, equipment, and incidentals and for doing all the work involved in placing Hot Mix Asphalt (3/4", Type A), including placing, fog seal, leveling, and compacting material for AC digouts and other asphalt areas, as shown on the plans, as specified in the Standard Specifications, and as directed by the Engineer

The contract unit price paid per ton for Hot Mix Asphalt (1/2", Type A) shall be paid for in the "Hot Mix Asphalt (1/2", Type A)" and shall include full compensation for furnishing all labor, materials, fog seal, tools, cores, testing, 1 Job Mix Formula, equipment, and incidentals and for doing all the work involved in placing HMA (1/2", Type A), including, cores, placing, leveling, and compacting material for AC digouts and other asphalt areas, as shown on the plans, as specified in the Standard Specifications, and as directed by the Engineer.

Full compensation for conforming to the requirements for placing hot mix asphalt dike of this section shall be considered as included in the prices paid for various contract items of work, and no additional compensation will be allowed therefor.

39-2.07 MINOR HOT MIX ASPHALT

39-2.07A GENERAL

39-2.07A(1) Summary

Section 39-2.07 includes specifications for producing and placing minor hot mix asphalt. Minor HMA must comply with section 39-2.02 except as specified in this section 39-2.07.

The inertial profiler requirements in section 36-3 do not apply.

39-2.07A(2) Definitions

Reserved

39-2.07A(3) Submittals

The QC plan and test results in sections 39-2.01A(3)(c) and 39-2.01A(3)(d) do not apply.

39-2.07A(4) Quality Assurance

39-2.07A(4)(a) General

The JMF renewal requirements in section 39-2.01A(4)(d) do not apply.

Test pavement smoothness with a 12 foot straightedge.

39-2.07A(4)(b) Quality Control

Testing for compliance with the following quality characteristics is not required:

1. Flat and elongated particles
2. Fine aggregate angularity
3. Hamburg wheel track
4. Moisture susceptibility

39-2.07A(4)(c) City Acceptance

The City accepts minor HMA under section 39-2.02A(4)(e) except for compliance with requirements for the following quality characteristics:

1. Flat and elongated particles
2. Fine aggregate angularity
3. Hamburg wheel track
4. Moisture susceptibility

39-2.07B MATERIALS

39-2.07B(1) General

Reserved

39-2.07B(2) Minor Hot Mix Asphalt Mix Design

The Hamburg wheel track and moisture susceptibility requirements do not apply to the mix design for minor HMA.

39-2.07B(3) Asphalt Binder

The grade of asphalt binder for minor HMA must be PG-64-10 or PG-64-16.

39-2.07B(4) Liquid Antistrip Treatment

Treat minor HMA with liquid antistrip unless the Contractor submit AASHTO T 283 and AASHTO T 324 (Modified) test results showing compliance with section 39-2.02B and dated within 12 months of the submittal.

39-2.07C CONSTRUCTION

Not Used

39-2.08–39-2.10 RESERVED

Full compensation for conforming to the requirements of this section shall be included in the contract prices for various items of work and no additional compensation will be allowed therefor.

END OF SECTION

SECTION 00073

SECTION 73 CONCRETE CURBS AND SIDEWALKS

73 1.01 MISCELLANEOUS CONCRETE CONSTRUCTION

Portland Cement Concrete curbs, gutters, sidewalks, curb ramps, concrete medians, concrete islands, bus pads, bus turnouts, valley gutters and driveways shall conform to the provisions in Section 73, "Concrete Curbs and Sidewalks," of the State Standard Specifications and these special provisions.

All concrete shall be Class A, six sack mix unless otherwise specified. For all driveway locations, where early opening to traffic is required, concrete shall be rapid setting concrete.

All newly placed concrete shall be cured with a clear concrete curing compound (State Specification 8030-71D-06).

PCC (Curb & Gutter) and PCC (Sidewalk) shall be constructed as shown on the plans and shall conform to the City of Roseville Standard Plan ST-17.

PCC (Driveway) shall be constructed as shown on the plans and conforming to City of Roseville Standard Plan ST-22.

(Pedestrian ramps shall conform to the City of Roseville Standard Plans ST-26 and ST-27 and shall meet all requirements outline in the City of Roseville ADA transition plan.

All PCC miscellaneous stamped concrete shall be stamped concrete as indicated on the plans. Stamped concrete where shown on the plans to be constructed shall conform to the City of Roseville Standard Plans ST-37.

Pedestrian ramp detectable warning surface shall consist of raised truncated domes constructed or installed on curb ramps. Detectable warning surface shall be a prefabricated surface installed on the curb ramp, in accordance with the approved materials within the City of Roseville.

The contract unit price paid per linear foot for PCC Curb & Gutter, of the types shown on the plans and indicated in the bid items list, shall include full compensation for all labor, materials, tools, saw cutting, concrete, removal of existing curb and gutter, aggregate base, and placement, complying with ADA requirements, placing concrete, compaction, raising existing facilities to grade, as shown on the plans incidentals and equipment required to complete these items of the work, as shown on the plans, as specified in the State Standard Specifications and these special provisions and as directed by the Engineer.

The contract price paid for PCC Sidewalk shall be included in the unit price paid for each "Remove and Replace Curb Ramp" as shown on the plans and indicated in the bid items list, shall include full compensation for all labor, materials, tools, aggregate base, saw cutting, concrete, removal of existing sidewalk, hauling, and placement, complying with ADA requirements, placing concrete, compaction, raising existing facilities to grade, as shown on the plans incidentals and equipment required to complete these items of the work, as shown on the plans, as specified in the State Standard Specifications and these special provisions and as directed by the Engineer.

The contract unit price paid for PCC Curb Ramp shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals for doing all work involved in constructing the curb ramp complete in place including material, detectable warning dome, subbase removal and placement of aggregate base, excavation, hauling, removal of existing curb ramp, curb, curb and gutter, and sidewalk, and disposal, saw cutting, aggregate base and placement, complying with ADA requirements, placing concrete, compaction, raising existing facilities to grade as shown on the plans, incidentals, and equipment as specified in the Standard Specifications and these special provisions, and as directed by the Engineer.

Full compensation for conforming to the requirements of this section shall be included in the contract prices for various items of work and no additional compensation will be allowed therefor.

END OF SECTION

SECTION 00084

SECTION 84: TRAFFIC STRIPES AND PAVEMENT MARKINGS

84-1.01 DESCRIPTION

In addition to the requirements specified in this section, traffic stripes and pavement markings shall be installed per provisions in Section 84 of the most current City of Roseville Construction Standards.

Contractor shall remove all existing striping and pavement markers within the project limits.

Traffic stripes and pavement markings shall be replaced at all locations where existing traffic stripes and pavement markings are obliterated or covered as a result of asphalt resurfacing operations.

Unless otherwise noted on the plans, the Contractor shall replace all pavement delineation on the same alignment and location.

84-2 THERMOPLASTIC TRAFFIC STRIPES AND PAVEMENT MARKINGS

84-2.01 DESCRIPTION

This work shall consist of furnishing and applying thermoplastic traffic stripes and pavement markings, including glass beads.

Thermoplastic material shall be applied only when the pavement surface temperature is above 60 °F.

84-2.05 MEASUREMENT

Thermoplastic traffic stripes will be measured by the square foot along the line of the traffic stripes, without deductions for gaps in broken traffic stripes. Thermoplastic pavement markings will be measured by the lump sum for the actual area covered. Thermoplastic pavement markings lumps sum, Pavement Markers and Markings as shown on the plans and the Thermoplastic Traffic Striping, Pavement Markers and Markings on the remainder of the project as shown on the plans.

84-2.06 PAYMENT

The contract price paid for Thermoplastic Traffic Stripes and Thermoplastic Pavement Markings shall be included in the contract lump sum price paid for "Thermoplastic Pavement Striping and Markings and Pavement Markers" and "Removal of Existing Pavement Striping", and shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in applying thermoplastic traffic stripes and pavement markings, complete in place, including removing existing traffic striping or markings, installing temporary pavement delineation, establishing alignment for stripes, and layout work, as shown on the plans, and as specified in these Special Provisions, and as directed by the Engineer.

END OF SECTION

SECTION 00085

SECTION 85. PAVEMENT MARKERS

85-1.01 DESCRIPTION

In addition to the requirements specified in this section, pavement markers shall be installed per provisions in Section 85 of the most current City of Roseville Construction Standards.

Pavement markers shall be applied at all locations where existing pavement markers are obliterated or covered as a result of construction operations.

85-1.04 NON-REFLECTIVE PAVEMENT MARKERS

All non-reflective pavement markers shall be ceramic.

85-1.04A RETROREFLECTIVE MARKERS

All retroreflective markers used on two and three lane arterials shall be two way retroreflective markers

85-1.06 PLACEMENT

At locations where bike lane striping is parallel striping used to channelize traffic, acceleration lanes, right turn deceleration lanes and bus turnouts, both strips shall be detail 38. Reflective pavement markers shall be placed along both stripes.

85-1.08 MEASUREMENT

The quantity of reflective and non-reflective pavement markers will be measured as units determined from actual count in place and paid for with lump sum. Pavement marker will be lump sum Pavement Markers and Markings as shown on the plans and the Thermoplastic Traffic Striping, Pavement Markers and Markings on the remainder of the project as shown on the plans.

85-1.09 PAYMENT

The contract price paid for Pavement Markers shall be included in the contract lump sum price paid for "Thermoplastic Pavement Striping and Markings and Pavement Markers" and "Removal of Existing Pavement Striping", and shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing and placing pavement markers, complete in place, including removing existing pavement markers, establishing alignment for pavement markers, installing temporary pavement delineation and providing the

necessary adhesives, as shown on the plans and as specified in these Special Provisions and as directed by the Engineer.

END OF SECTION

SECTION 00086

SECTION 86. SIGNALS, LIGHTING AND ELECTRICAL SYSTEMS

86-1.01 DESCRIPTION

Electrical work shall consist of furnishing and installing, modifying or removing all elements of the electrical system described on the plans, unless noted to be done by others, and as described in these Special Provisions. Electrical work to be completed shall be constructed in conformance with the City of Roseville Electric Specifications for Commercial Construction, the most current City of Roseville Design and Construction Standards, and the provisions in Section 86, "Signals, Lighting and Electrical Systems," of The 2010 State Standard Specifications.

In addition to the requirements specified in this section, vehicle loop detectors shall be installed per the most current addition of City of Roseville Design and Construction Standards. The new loops shall be placed between lifts of the new HMA sections; cutting into the final lift of the new HMA is not permitted.

Vehicle loop detectors shall be installed at all locations where existing vehicle loop detectors are obliterated or damaged as a result of dig outs and hot mix asphalt paving operations.

86-1.01A PREFABRICATED AND PERFORMANCE LOOP

GENERAL

For the loops replaced in the digout locations prefabricated/ preformed loops will be acceptable and shall be installed per the most current addition of City of Roseville Design and Construction Standards and as outlined in these special provisions.

MATERIAL

- Wire insulation (wire jacket thickness [inner/outer] of 0.360" O.D.± 0.100"), cable jackets shall be formulated from Cross-linked Polyethylene (XLPE) and will withstand temperatures up to 426° Fahrenheit and shall withstand a hot asphalt overlay. The low profile loop cable and lead-in cable are to resist the effects of reflective cracking that can occur in asphalt. All splice connections shall be soldered and sealed in a splice enclosure constructed of high impact glass impregnated plastic. The preformed loops isolative quality shall be tested as follows:
- Perform loop shall be soaked in a salt water solution for three days

- After 3 days in salt water solution, the resistance between the conductors and the salt 0.360" O.D. water shall be greater than 999 MΩ.

INSTALLATION

1. Minimum grind depth shall be $\geq .25'$ (3")
2. Preformed loop assembly shall be designed to withstand being overlaid by hot asphalt.
3. Preformed loop assembly shall be configured to a 6' X 6'.
4. Preformed loop assembly shall have a low profile design with no material thickness exceeding .375".
5. For protection of the preformed loop, prior to the asphalt overlay, a .2" cover of asphalt mix shall be placed over the loop and home run.
6. Preformed loop shall be un-spliced, except at the pull box in which it will be spliced to the DLC.
7. Preformed loop shall be routed through the detector hand-hole to the splicing pull box. The entry point shall be made by a means as to not disturb the concrete structure integrity surrounding the detector hand-hole.

Existing detector hand-holes which will not be positioned w/respect to the "finished" lane control striping shall be removed and repositioned, prior to the grinding process. A City of Roseville Engineer shall locate the new location/s. Finish grade for the top of the new detector hole shall be at the lower limits of the asphalt grind.

Removed detector hand-holes shall be back filled with concrete.

8. All abandoned loop wire home runs in the detector hand-hole conduit run back to the splicing pull box shall be removed.
9. All preformed loop assemblies shall be tested, with a meggar, before and after the asphalt overlay process. Both continuity and resistance to ground (≥ 100 meg) should be documented with a City of Roseville inspector present.
10. A splice enclosure maybe incorporated if the following construction standards are equaled or exceeded:
 - a) The splice enclosure shall be constructed of glass filled, high impact Valox. The enclosure shall have a minimum wall thickness of 0.270 inches.
 - b) The enclosure shall have a minimum wall thickness of 0.270 inches.

- c) The loop/lead-in wires shall be soldered and sealed.
- d) The splices shall be placed in the enclosure, filled with a water block gel and sealed.
- e) Height of the splice enclosure shall not exceed the (Note 4) standard.

11. Preformed loop testing procedure by the manufacture shall be:

- a) The complete preformed loop assembly (except one foot of the lead-in) is placed in a tank of mineral enriched water and soaked for three days. The preformed loop must measure greater than 999 megohms @ 500 VDC between the copper conductor and the water.

86-1.03 COST BREAK DOWN

Vehicle loop detectors (Type A, Type D, and Bike Lane Loops) will be paid for in the contract price paid for each.

86-2.06 PULL BOXES

Pull boxes shall conform to the provisions in Section 86, "Pull Boxes" of the City of Roseville Design and Construction Standards and the State Standard Specifications, and these special provisions.

Pull boxes for circuits for the traffic signal interconnect shall be marked "SIGNAL INTERCONNECT."

PAYMENT

Full compensation for furnishing and installing pull boxes, markers and applying green identification strips shall be considered as included in the contract lump sum price paid for "Signal Conduit" and shall include furnishing all labor, materials, tools, equipment, and incidentals, and for doing all work involved in furnishing and installing pull boxes, complete in place, including pull tape and pull boxes as shown on the plans, as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

END OF SECTION

COUNCIL COMMUNICATION

CC #: 8554

File #: 0900-04-01

Title: Pavement Management Consulting - Service Agreement

Contact: Jerry Dankbar 916-774-5791 jdankbar@roseville.ca.us

Meeting Date: 6/21/2017

Item #: 7.3.

RECOMMENDATION TO COUNCIL

Staff recommends that City Council approve the service agreement for pavement management evaluation services with Stantec Consulting Services Inc to provide the 2017 street condition assessment and RoadMatrix software updates.

BACKGROUND

The Street Maintenance Division has been using Stantec RoadMatrix software for over 17 years to track the Pavement Quality Index (PQI) rating of city streets. Every three years the streets need to be evaluated for condition and smoothness of the pavement and the data is loaded into the software. The data is used to assist in planning our future resurfacing with the available funding with the goal to place the right treatment on the right street at the right time so as to maximize the life of our street pavements in the most cost effective manner. The scope of this agreement includes: project initiation and set up, street survey and analysis, data collection and processing, rating and quality assurance / quality control (QA/QC), uploading into Road Matrix and analysis and reporting.

Staff is recommending this sole source agreement with Stantec due to their in-depth knowledge of the Road Matrix software, and Stantec's accuracy of data collection. The City is saving staff time and money by not having to spend extra hours performing quality control inspections to ensure accuracy of the data. The unit costs for collecting the data and entering it into the software are the same as a past contract that went through the bidding process with the City of Sacramento.

FISCAL IMPACT

The total cost of the service is \$91,076.70 (\$84,920 plus tax). It is funded with Gas Tax funds and Street Maintenance Operations Budget funds.

ECONOMIC DEVELOPMENT / JOBS CREATED

Using the Federal guideline of one job created for every \$92,000 in government spending, this service contract will generate one job.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The Pavement Management Services Agreement with Stantec Consulting Services project does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Jerry Dankbar, Street Maintenance Superintendent

Rhon Herndon, Public Works Director

Rob Jensen, City Manager

Resolution No. 17-271

Service Agreement

RESOLUTION NO. 17-271

APPROVING A SOLE SOURCE SERVICE AGREEMENT BETWEEN CITY OF ROSEVILLE AND STANTEC CONSULTING SERVICES INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a sole source service agreement (Service Agreement No. S1708241) between City of Roseville and Stantec Consulting Services Inc., has been prepared and reviewed by the Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said service agreement is approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20__, by the following vote on roll call:

CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Consultant shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Consultant's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Consultant's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Consultant is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Consultant either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Consultant is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Consultant has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to.
- 10a. Unless otherwise specified, the Consultant shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Consultant shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Consultant shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of Consultant. The additional insured coverage under the Consultant's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Consultant shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subconsultants. Consultant agrees to include in its contracts with all subconsultants the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subconsultant's work. Furthermore, Consultant shall require its subconsultants to agree to be bound to Consultant and City in the same manner and to the same extent as Consultant is bound to City under this Agreement. Additionally, Consultant shall obligate its subconsultants to comply with these same provisions with respect to any tertiary subconsultant, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subconsultant or tertiary subconsultant upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Consultant hereby agrees to waive subrogation which any insurer of Consultant may acquire from Consultant by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Consultant, its employees, agents and subconsultants.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Consultant of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Consultant shall comply with all federal, state and local laws and ordinances as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement.
12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.

13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor" and "Consultant" are used interchangeably.
18. If the project referenced on this service agreement is a Public Works project, then the following shall apply. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

City reserves the right to withhold any payments to Consultant in the event of noncompliance with insurance requirements or if required by law.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

Attention: Jerry Dankbar - Street Maintenance Superintendent
Public Works – Street Maintenance
City of Roseville
2005 Hilltop Circle
Roseville, CA 95747

Dear Mr. Dankbar,

Reference: Proposal for 2017 Street Condition Assessment and RoadMatrix Update

Stantec Consulting Services Inc. is pleased to provide this proposal to perform the 2017 street condition assessment and RoadMatrix updates.

The following tasks will be completed as part of this project:

- Task 1:** Project Initiation and Setup
- Task 2:** Data Collection
- Task 3:** Data Processing, Rating, and QA/QC
- Task 4:** Upload into RoadMatrix and Analysis
- Task 5:** Reporting

Work Plan

The work plan is presented in the tasks below.

TASK 1.0: PROJECT INITIATION AND SETUP

Task 1.A: Project Initiation Meeting and Setup

Prior to data collection, a meeting will be held with City staff, to clarify project management and specific task responsibilities. The project initiation meeting will address the following:

- Project Scope, management, and work program will be finalized. Lines of communication and reporting between the City and Stantec will be established. Specific tasks will be defined and assigned, and responsibilities of all parties detailed.
- Database Maintenance and Sectional Attribute Data Input Requirements - Database maintenance includes reviewing functional classes, rehabilitation strategies, and costs to reflect the specific needs of the City. This information is updated to incorporate any required changes. Other updated attribute information that has changed since the City's last update will be discussed and a suitable format for both the City and Stantec will be confirmed for upload to RoadMatrix.

May 2, 2017
Jerry Dankbar - Street Maintenance Superintendent
Page 2 of 7

Reference: Proposal for 2017 Street Condition Assessment and RoadMatrix Update

Task 1.B: Equipment Mobilization

This task involves mobilizing the field equipment including the following:

- RT3000 data collection unit and field staff to perform the on-site roughness and surface distress survey.

TASK 2.0: DATA COLLECTION

Data collection will include approximately 615 survey miles of paved roads across the City. Following project initiation, and during acceptable field conditions, the data collection activities indicated below will be completed on existing and approved new sections as per the PMS specifications.

Stantec's Data Collection Methodology and Technology

Stantec's data collection technique has been refined over years of testing and field trials. We use the latest technology in the on-board systems and the process has proven to be repeatable and reliable. Our Road Tester 3000 (RT3000) unit simultaneously collects pavement condition, GPS, and digital image data streams and will be used to collect surface condition data, roughness, rutting, and imagery.

The RT3000 data collection vehicle uses sub-systems for the collection of roughness data, right-of-way imagery, GPS, as well as the INO Laser Road Imaging System. The major components within the vehicle are summarized in the following table, and are discussed in more detail, in the following sections.

The data collection vehicle we propose for this assignment uses sub-systems for the collection of roughness data, right-of-way imagery, GPS, as well as the INO Laser Road Imaging System. The major components within the vehicle are summarized in the following table, and are discussed in more detail, in the following sections.

System	Data Component
Laser Road Imaging System (LRIS)	• Pavement Surface Distress • Pavement JPEG Images
Roadway Profiler	• Profile Data (IRI/Rut)
DMI and GPS	• Geo-referenced JPEGs • Linear Referencing
Digital Imaging Video	• Right-of-way JPEGs

The RT3000 survey is completed in a single pass, in the outer-most lane on 2-lane bi-directional or one-way streets. Roads that are divided or are four or more lanes are surveyed in both directions.

May 2, 2017

Jerry Dankbar - Street Maintenance Superintendent

Page 3 of 7

Reference: Proposal for 2017 Street Condition Assessment and RoadMatrix Update

Laser Road Imaging System (LRIS)

The LRIS system includes two high-resolution LineScan cameras and laser illuminators configured to image up to 14 ft. transverse road sections, with 1 mm resolution, at posted speeds. The system was designed to increase the contrast and visibility of both small longitudinal and lateral pavement cracks.

The LRIS system uses high-speed/high-resolution LineScan cameras in conjunction with high-power laser line projectors. The LineScan system yields images with four times the information than previous configurations. It uses a narrow spectrum (non-visible) infrared lighting system, resulting in greater contrast for superior visibility of cracks even in full sunlight. Conventional systems use a broad spectrum strobe lighting system.

Data images returned for processing are passed through our crack and distress identification software. Additional non-cracking distresses are entered by the field crew, as they drive the roads. The combination of these two technologies provides the most complete evaluation of the pavement surface and distresses, and does not impact the traveling public as the RT3000 travels at posted speeds.

Pavement condition is evaluated based on type, severity, and extent of pavement defects or distresses. Each surface distress is evaluated on the basis of two components:

- **Severity** is defined as '*How bad is the defect?*' and is expressed in terms of the width or degree of wear associated with a specific pavement condition. An example of a severity measurement is the average width of a crack.
- **Extent** or '*How much is there?*' is expressed in terms of the quantity of the surface that a particular defect/distress covers. Examples of measures used for extent include the number and length of transverse cracks, length of longitudinal cracking, or the pavement area affected by an alligator or pattern cracking.

May 2, 2017
Jerry Dankbar - Street Maintenance Superintendent
Page 4 of 7

Reference: Proposal for 2017 Street Condition Assessment and RoadMatrix Update

The surface distress listed in the Table below will be collected as part of this assignment.

Flexible Pavements	
• Alligator Cracking • Block/Map Cracking • Longitudinal Cracking • Transverse Cracking • Wheel Track Rutting • Progressive Edge Cracking • Patching	• Rippling and Shoving • Raveling and Streaking • Flushing and Bleeding • Distortion • Excessive Crown • Potholes (Count Only)

Roadway Profiler

The RT3000 simultaneously collects pavement data, including surface condition, roughness and rutting, GPS, and digital image data streams.

Longitudinal Profile (Roughness)

The longitudinal profile is collected to calculate the International Roughness Index (IRI) on both wheel paths, using an ASTM E950 certified Class I profiler. The IRI data is collected continuously and summarized at 30-metre intervals, for all categories of roads. The collection of longitudinal profile or roughness data is fully automated. The specialized profile measurement system, mounted on the front bumper of the RT3000 survey vehicle, uses two sensing devices:

1. **Five laser height sensors** that measure the distance between the vehicle and the pavement surface, while the vehicle is traveling at up to posted speed.
2. **Two accelerometers** that measure the vertical acceleration of the vehicle as it bounces in response to the pavement surface profile.

These two measurements are combined during post-processing, to eliminate the effects of vertical vehicle motion, and thereby define the vertical profile of the pavement surface.

The RT3000 also has a **distance measurement instrument (DMI)** to provide a reference measurement of the vehicle as it travels. This measurement provides stationing references for the profile data. The data is also geo-referenced, using on-board GPS, which is integrated with all of the on-board data logging devices.

Roughness data is computed from the above data and expressed in terms of the standard International Roughness Index (IRI) in units of inches/mile. IRI measurements obtained from the RT3000 system have been

May 2, 2017
Jerry Dankbar - Street Maintenance Superintendent
Page 5 of 7

Reference: Proposal for 2017 Street Condition Assessment and RoadMatrix Update

correlated with those obtained from other valid profilometers, as well as IRI-calculated values from rod and level, and dipstick surveys.

Transverse Profile / Rutting Data Collection

Rutting data is collected simultaneously with surface distress and roughness data. The RT3000 measures transverse profile and rut depths, using five high-precision, laser-based, height-measuring sensors. The two lasers on either end of the rut bar are angled, to provide the complete transverse profile across the traveled lane. From five laser measurements, the average rut depths will be computed for each wheel path for upload to RoadMatrix. Calculations of rut depth simulate the straight edge method and are made in accordance with ASTM E 1703E/1703M-95 "Standard Test Method for Measuring Rut Depth of Pavement Surface Using a Straightedge".

TASK 3.0: DATA PROCESSING, RATING, AND QA/QC

Pavement surface condition and roughness data will be collected using the techniques outlined above. This task includes the conversion of the raw survey data to a deliverable format for upload to the RoadMatrix database. This process includes running all data through specialized processing software, splitting out data and assigning it to appropriate RoadMatrix pavement segments, performing quality control tests, verifying dataset completeness, and assembling the data for upload to the City's RoadMatrix database.

TASK 4: UPLOAD INTO ROADMATRIX AND ANALYSIS

This task includes the upload of the rated and quality checked survey data into the City's RoadMatrix software. Also, any new attribute data discussed and agreed on at the project initiation meeting (updated traffic volumes, layer info, etc.), will be loaded into the RoadMatrix, at no additional cost, providing it is supplied to Stantec, in an agreed upon format.

The uploaded data will be analyzed to calculate the present status and network needs. Network needs, i.e. % deficient sections, will be determined based on the predefined PQI Trigger values currently in RoadMatrix.

TASK 5: REPORTING

This task includes providing the City with a summary and detailed pavement condition reports. The following items will be delivered:

- A high level Executive Summary.
- Description of data collection procedures;
- A PQI report that compares previous condition results with the new (2017) results for various subsets;
- Mileage difference report comparing the surveyed length with the RoadMatrix reported length;
- List of streets not tested with explanation.

May 2, 2017

Jerry Dankbar - Street Maintenance Superintendent

Page 6 of 7

Reference: Proposal for 2017 Street Condition Assessment and RoadMatrix Update

Project Schedule

The project schedule assumes all the tasks are to be completed this year. The RT3000 will be ready to collect data in September. The Final Report would be completed by Thursday November 30, 2017, assuming a notice to proceed is received no later than Friday May 5, 2017. In addition, a copy of the 2017 work history and any parametric updates should be received from the City prior to Friday October 6, 2017.

Proposed Fees

Task	Task Description	Quantity	Unit Rate	Task Total
1	Project Initiation and Setup	1 EA	Lump Sum	\$9,000
2	Data Collection (Surface Distress and Roughness)	615 Miles	\$83.00/Survey-Mile	\$51,045
3	Data Processing, Rating, and QA/QC	615 Miles	\$25.00/Survey Mile	\$15,375
4	Upload into RoadMatrix and Analysis	1 EA	Lump Sum	\$5,000
5	Reporting Summary and Detailed Pavement Condition Reports (Draft – PDF and Final – PDF)	1 EA	Lump Sum	\$4,500
Total (Lump Sum)				\$84,920

The above noted fees will remain valid for a period of 90 days from the date of this letter, and do not include any applicable taxes. In the instance that any total task units (i.e. survey-miles) increases or decreases from the estimated totals, the associated costs for affected tasks will be adjusted accordingly, at the proposed unit rates.

Please note that should we be selected for this assignment, we will be able to conclude a mutually satisfactory contract with the City.

COUNCIL COMMUNICATION

CC #: 8548
File #: 0203-02

Title: Vehicle Batteries (RFQ 01-3133) - Purchase Order
Contact: Tiffany Valdez 916-774-5708 tvaldez@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.4.

RECOMMENDATION TO COUNCIL

Recommend Council authorize a purchase order to Riebes Auto Parts as the lowest responsive bidder to RFQ 01-3133 for the purchase of miscellaneous vehicle batteries on an as-needed basis. The estimated total spend for FY2017-18 is \$50,000.00 or up to department budgeted amounts.

The bid allowed for four optional renewal years at one-year intervals. Staff requests authorization to continue utilizing the remaining optional renewal years of the bid contract without further Council approvals until the contract expires or until City staff determines that continuing with the same vendor is not in the City's best interest.

BACKGROUND

The Fleet Services Division has a recurring demand for automotive and equipment batteries used to maintain the City's vehicle fleet. Bidders were asked to quote a representative sampling of the batteries that Fleet Services typically orders on a regular basis, and the bid required bidders to provide their percentage discount off of the manufacturer's list price for any items not listed on the pricing worksheet to allow the City to add new batteries to the list or replace discontinued ones.

The initial contract is from the date of contract award through 6-30-18. The contract is awarded based on the lowest total discounted unit cost of the batteries. The batteries will be ordered on an as-needed basis throughout the year. The total estimated spend is based on historical data and knowledge of future requirements.

A formal bid was issued with the following vendor responses:

<u>Vendor</u>	<u>Discounted Unit Price Total</u>
Riebes Auto Parts Citrus Heights, CA	\$26,657.78

Battery Systems Garden Grove, CA	\$1,390.09
Factory Motor Parts, FVP North Highlands, CA	\$1,478.00
O'Reilly Auto Parts Springfield, MO	\$1,521.88
Battery Bill, Inc. Sacramento, CA	\$1,524.03
America's Best Battery Hayward, CA	\$1,600.50
Factory Motor Parts, AC Delco North Highlands, CA	\$1,668.69
Romaine Electric Newcastle, CA	\$1,782.00
Batteries Plus Roseville, CA	\$1,979.15

After reviewing the bid, it was determined that Riebes Auto Parts made a typographical error and wrote the extended total in lieu of the discounted unit price total of \$1337.70.

FISCAL IMPACT

The estimated total value of the award is \$50,000.00. Funding is included in the Fleet Division's FY2017-18 Automotive Services Budget. Projected spending for the optional renewal years is as follows: FY2018-19, \$55,000.00; FY2019-20, \$60,500.00; FY20-21, \$66,550.00; FY21-22 73,205.00. Spending for future renewals will be contingent upon Council approval of budgets.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b) (3). The purchase of batteries does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Tiffany Valdez, Buyer

Paul Diefenbach, Central Services Director

Title: Vehicle Purchases and Budget Adjustment

Contact: Brian Craighead 916-774-5731 bcraighead@roseville.ca.us

Meeting Date: 6/21/2017

Item #: 7.5.

RECOMMENDATION TO COUNCIL

RFQ 01-3135

Staff recommends City Council authorize a purchase order to Folsom Chevrolet for three Chevrolet Tahoe police pursuit vehicles utilizing RFQ 01-3135 to replace 05-049, 05-504 and one fleet addition approved in the FY2016-17 Auto Replacement Budget. The total cost of three Chevrolet Tahoe police pursuit vehicles including sales tax is \$125,193.25.

NJPA Contract

Staff recommends City Council authorize a purchase order to Preferred Truck and Equipment for one rear loading refuse collection vehicle utilizing National Joint Powers Alliance (NJPA) contract 081716-ATC for the AutoCar cab and chassis and 112014-THC for the Heil body to replace 10-384 approved in the FY2016-17 Auto Replacement Budget. The total cost of one rear loading refuse collection vehicle including sales tax is \$261,322.30. Recommend Council adopt an ordinance amending the budget by \$9,350.00 for the remaining purchase price of the rear loading refuse collection vehicle.

BACKGROUND

RFQ 01-3135

The Police Department is purchasing three Chevrolet Tahoe police pursuit vehicles to replace vehicles 05-049, 05-504 and one fleet addition. The fleet addition will be assigned to the park patrol officer who will be responsible for patrolling all city parks and greenbelt areas on a daily basis. The officer will also respond to calls for service, emergencies and community events throughout the City. The two remaining Tahoe's will be assigned to patrol lieutenants. Patrol lieutenants will use these vehicles to supervise patrol sergeants, officers and community service officers during field operations and to respond to calls for service, emergencies and community events.

A formal bid was issued with the following vendor response:

<u>Vendor</u>	<u>Unit Price (base vehicle price with all options)</u>
Winner Chevrolet	\$43,168.79

Elk Grove, CA

**Folsom Chevrolet
Folsom, CA**

\$42,468.25

NJPA Contract

The Environmental Utilities Solid Waste Division is purchasing one rear loading refuse collection vehicle with a Heil body as a replacement for 10-384. The rear loading refuse collection vehicle is necessary to service the City's commercial customers for solid waste collection up to five days per week.

A budget adjustment will cover the cost of a double cart tipper kit and an upgraded suspension. The double cart tipper kit will enable the rear loader to operate as a backup for the organics recycling program. The air ride suspension will prevent a porpoise style driving experience when an empty rear loader truck drives through the City.

The City is piggybacking competitively bid contracts from NJPA for the purchase of a refuse collection vehicle. NJPA creates national cooperative contract purchasing opportunities and solutions on behalf of its members which include all government, education, and non-profit agencies nationwide. The City of Roseville is a member of NJPA.

Vehicle replacements are based on the Fleet Scoring System which considers factors such as age, miles, reliability, prior maintenance and repair costs, and current condition. Below are the vehicle replacement scores.

Vehicle ID	Replacement Score	Vehicle Condition
05-049	29	Meets City replacement criteria
05-054	27	Meets City replacement criteria
10-384	23	Meets City replacement criteria

FISCAL IMPACT

RFQ 01-3135

The total cost of three Chevrolet Tahoe police pursuit vehicles including sales tax is \$125,193.25. Funding is included in the FY2016-17 Auto Replacement Budget.

NJPA Contract

The total cost of one rear loading refuse collection vehicle including sales tax is \$261,322.30. Funding of \$252,000.00 is included in the FY2016-17 Auto Replacement Budget and a budget adjustment from the FL-460 Auto Replacement Fund to the Auto Replacement Budget in the amount of \$9,350.00 is included to pay for the remaining purchase price of the vehicle.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not Applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Title: Utility Trench Patching (RFQ 01-3083) - Service Agreement Renewal
Contact: Tiffany Valdez 916-774-5708 tvaldez@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.6.

RECOMMENDATION TO COUNCIL

Recommend Council approve a service agreement renewal with Central Valley Engineering and Asphalt for utility trench patching services and adopt a resolution authorizing the City Manager to execute it. The estimated total annual cost in FY2017-18 is \$215,000.00.

A bid was issued in April of 2016 for utility trench patching services and allowed for optional renewal years with this being the second of four optional years. Staff requests authorization to continue renewing the contract without further Council approvals until the contract expires, or until City staff determines that continuing with the same vendor is not in the City's best interest, including authorization for the City Manager to sign service agreement renewals pending Council approval of budgets for that year.

BACKGROUND

The Environmental Utilities Water and Wastewater Divisions have ongoing requirements for trench patching services on an as-needed basis. The trench patching services are utilized to backfill ditches created for the repair and maintenance of underground water and sewer lines.

FISCAL IMPACT

The total estimated annual spend is \$215,000.00. Funding is included in the Environmental Utilities Water Distribution and Wastewater Collection FY2017-18 budgets. Spending for future renewals will be contingent upon Council approval of budgets. Projected spending for the optional renewal years is as follows: FY2018-19, \$227,900.00; FY2019-20, \$241,574.00; FY2019-20, \$256,068.44; FY2020-21, \$271,432.54.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The proposed project involves the repair and maintenance of an existing facility. This activity is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section 15301). The Exemption has been prepared and no further CEQA action is required.

Title: Lathe Machine (RFQ 01-3136) - Purchase Order
Contact: Babette Owens 916-774-5704 bowens@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.7.

RECOMMENDATION TO COUNCIL

Recommend Council authorize a purchase order to Airgas USA, LLC, as the lowest responsive bidder for a lathe machine in response to RFQ 01-3136. The cost for the lathe machine is \$21,790.15 plus tax of \$1,579.79 for a total of \$23,369.94.

BACKGROUND

The Roseville Energy Park (REP) utilizes both gas and steam turbines. The lathe is an essential tool to complete maintenance work at the REP. It can be used for fabricating items which would take weeks to receive if they were ordered. The lathe can also be used to refurbish parts onsite thereby saving money that would have to be paid to a machine shop for the task.

A formal bid was issued with the following vendor responses:

<u>Bidder</u>	<u>(1) Lathe Machine</u>
JC Enterprises Bakersfield, CA	\$31,786.00
Harris Ind. Gases Citrus Heights, CA	\$23,500.00
Ideal Saw Works Fresno, CA	\$24,415.83
Airgas USA, LLC Roseville, CA	\$21,790.15
Technology International, Inc. Lake Mary, FL	\$23,380.00

FISCAL IMPACT

The cost for the lathe machine is \$21,790.15 plus tax of \$1,579.79 for a total of \$23,369.94. Funding is included in the Electric Department's FY2016-17 budget.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The purchase of a lathe machine does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Title: Flooring Services - Service Agreement Amendment
Contact: Dan Allen 916-774-5771 dallen@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.8.

RECOMMENDATION TO COUNCIL

Staff recommends Council authorize amendment 1 to service agreement S1504163 with Simas Flooring & Design Company for flooring services on an as needed basis increasing the total cost of the three year service agreement from \$420,000.00 to \$480,000.00. This is the third year of the five year agreement with two optional one year renewals. Additionally, adopt a resolution authorizing the City Manager to sign the amendment. Funding is included in the proposed FY2017-18 Building Maintenance and Facility Rehabilitation budget.

BACKGROUND

In 2014 staff solicited proposals for flooring service, repair and replacement. In October of 2014, Council approved the award of a service agreement to Simas Flooring & Design Company for scheduled as-needed repairs and replacements for three years with two one-year renewal options.

Additional money is needed with amendment 1 to the current agreement to complete projects at the Civic Center and Fire Station #2 between now and the end of the current contract period on October 15, 2017.

FISCAL IMPACT

The service agreement amendment increases the current agreement by \$60,000.00 and funding for the amendment is included in the proposed FY2017-18 Building Maintenance and Facility Rehabilitation budget.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The proposed amendment and renewal of service agreements S1504163 with Simas Flooring & Design Company for Flooring services does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Title: Water Filters and Membranes (RFQ 01-3131) - Purchase Order
Contact: Babette Owens 916-774-5704 bowens@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.9.

RECOMMENDATION TO COUNCIL

Recommend Council authorize a purchase order to Western Industrial, Inc. as the lowest responsive bidder to RFQ 01-3131 for water filters and membrane elements to be purchased on an as needed basis, and adopt a resolution authorizing the City Manager to execute it. The estimated annual cost is \$30,000.00, or not to exceed annual department budgeted amounts.

The bid allowed for a total of five years including the initial contract year plus four optional renewal years. Staff requests authorization to continue renewing the contract without further Council approvals until the contract expires, or until City staff determines that continuing with the same vendor is not in the City's best interest pending Council approval of budgets for that year.

BACKGROUND

The Roseville Energy Park uses Recycled Water from the Pleasant Grove Wastewater Treatment Plant to make ultra-pure Demineralized Water for the Heat Recovery Steam Generator to power the Steam Turbine. An integral part of the filtering process are the 22 membranes in the Ultra Filtration Unit (UF) that filter and remove submicron particles that would otherwise plug downstream equipment. This filtering station is fitted with DOW Filmtec SPF 2860 or SFD 2860 membranes. Normal lifespan of these membranes is two to three years.

A formal bid was issued with the following vendor responses:

<u>Bidder</u>	<u>Grand Total</u> <u>Cost Per Unit Price</u>

San Jose, CA

FISCAL IMPACT

The estimated annual cost for these water filters and membrane elements is \$30,000.00 and the initial purchase order will be effective July 1, 2017. Funding is included in the Roseville Electric Department FY2017-18 budget. Projected spending for the optional renewal years is as follows: FY2018-19, \$30,000.00; FY2019-20, \$30,000.00; FY2019-20, \$30,000.00; FY2020-21, \$30,000.00. Spending for future renewals will be contingent upon Council approval of budgets.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not Applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The purchase of water filters and membranes does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Resolution No. 17-243

RESOLUTION NO. 17-243

APPROVING A PURCHASE ORDER BETWEEN THE CITY OF ROSEVILLE
AND WESTERN INDUSTRIAL, INC.

WHEREAS, a purchase order for water filters and membrane elements, between the City of Roseville and Western Industrial, Inc., has been reviewed by the Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said purchase order is approved and the City Manager or his designee is additionally authorized to execute four optional one-year renewals of the purchase order provided that the applicable budget is approved by the City Council or until City staff determines that continuing with the same vendor is not in the City's best interest.

COUNCIL COMMUNICATION

CC #: 8542
File #: 0800-03

Title: Compliance Assistance - Service Agreement Amendment
Contact: Jamie Johnson 916-746-1687 jjohnson@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.10.

RECOMMENDATION TO COUNCIL

Staff recommends that City Council authorize an amendment to an existing Service Agreement with Navigant Consulting, Inc. (Navigant) for assistance to Roseville Electric for compliance with North American Electric Reliability Corporation (NERC) and Western Electricity Coordinating Council (WECC) Reliability Standards. The total cost to Roseville Electric of this amendment is \$15,000.00. The total cost of this agreement is modified from a not to exceed of \$56,000.00 to \$71,000.00. Funds will be available in the Electric Department Compliance budget for FY 2017-18, contingent upon approval of the budget.

BACKGROUND

Roseville Electric must comply with mandatory NERC and WECC Reliability Standards and is subject to a WECC compliance audit of Reliability Standards every six years. The Reliability Standards are intended to protect grid reliability. In addition to undergoing a compliance audit every six years, Roseville Electric is also required to submit an annual Self-Certification to WECC regarding its compliance with the applicable Reliability Standards. There are approximately 30 Reliability Standards applicable to Roseville Electric that require implementation of various programs, policies, and development of documentation to satisfy compliance requirements with the Reliability Standards.

Roseville Electric has established an Internal Compliance Program and a culture of compliance that includes continuous review of Reliability Standards and a proactive approach. This recommended amendment to the existing SA will allow Navigant to continue to provide timely assistance in preparing compliance documentation and continuous support in maintaining compliance.

As a result of their past work and understanding of Roseville Electric's existing infrastructure and operations, Navigant is uniquely qualified to continue assisting with this assignment. Navigant's knowledge of Roseville Electric will allow them to continue to support Roseville Electric on compliance matters in a timely and cost-effective manner.

FISCAL IMPACT

The total cost to Roseville Electric of this amendment is \$15,000.00. The total cost of this agreement is modified from a not to exceed of \$56,000.00 to \$71,000.00. Funds are available in the Electric Department Compliance budget for FY 2017-18.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

This Service Agreement is not considered a "project" as defined by the California Environmental Quality Act (CEQA) (CEQA Guidelines §15378). Consequently no CEQA action is required.

Respectfully Submitted,

Jamie Johnson, Electric Compliance Analyst

Michelle Bertolino, Electric Utility Director

Title: Telephone System Improvements - Service Agreements
Contact: Matt Donaldson 916-774-5405 mdonaldson@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.11.

RECOMMENDATION TO COUNCIL

Recommend City Council approve two service agreements with ConvergeOne for Citywide phone system hardware, software, and installation and configuration assistance services, and adopt two resolutions authorizing the City Manager to execute them. The total cost of these two agreements will be no more than \$140,000. \$115,000 in funding will come from the Citywide Phone System Upgrade – Phase-II CIP. The remaining \$25,000 in funding will come from the 316-Vernon Building CIP Project.

BACKGROUND

At the beginning of 2016, most of the components in the City's Avaya telecommunications system were aged. The FY2015/16 budget provided funds to upgrade software and to increase the number of licenses in critical areas. Now, in FY2016/17, the hardware for the system needs to be upgraded and additional software licenses need to be purchased to complete the upgrade of the City's telecommunications system.

In addition, with the sale of the City's building at 401 Oak St. to University Development Corporation, all of the City's technological infrastructure will need to be moved to other locations. This includes phone system components currently installed in 401-Oak St. that provide telecommunication services to Citywide staff in that building, in the Civic Center, and in the Main Library. New equipment will be needed to provide those services in new locations.

This service agreement piggybacks NASPO contract #AR603.

FISCAL IMPACT

The total cost for this agreement for FY2016/17 will not exceed \$140,000. \$115,000 in funding will come from the Citywide Phone System Upgrade – Phase-II CIP. The remaining \$25,000 in funding will come from the 316-Vernon Building CIP Project.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Review Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines 15061 (b)(3)).

Attached is a copy of a service agreement for your review and acceptance. Please review the company name, address, and contact information and notify me via email if any corrections need to be made. I will update the agreement prior to you signing the document.

Sign the agreement using the below signature guidelines. Alterations or modifications to the agreement are not allowed. Mail **two signed original** copies of the agreement to the address noted below. Faxes, photocopies, and electronic transmittals will not be accepted. Upon receipt of all necessary documents, the City will sign the agreements and return a fully executed original copy to you. Receipt of the signed copy will be your notice to proceed with the work in accordance with the terms and conditions of the service agreement. Work must not begin until the contract has been fully executed.

The following guidelines must be followed for the signature block on the Service Agreement:

Sole proprietorship	-	By owner
Partnership	-	Any general partner
Corporation	-	Two options: (1) A signature from the President and the corporate seal; or (2) One signature from the Chairman of the Board, President, or any Vice President AND one signature from the Secretary, any Assistant Secretary, Chief Financial Officer, Treasurer, or any Assistant Treasurer of the corporation

*General Manager, Office Manager and/or Sales Manager are **not** Corporate officer titles. The service agreement will be rejected if not signed in accordance with these guidelines.

Insurance requirements:

The City's insurance requirements are referenced on Attachment A in this service agreement packet. The service agreement will not be considered active or valid until the necessary insurance documents have been received by Roseville's insurance compliance contractor, EBIX. Please contact EBIX customer service at (951) 652-4239 or roseville@ebix.com for any insurance related questions.

Rob Jensen, City Manager
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Consultant agrees to indemnify, including the cost to defend City, and its officers, agents, employees and volunteers from any and all claims, demands, costs or liability that arise out of, or pertain to, or relate to the negligence, recklessness, or willful misconduct of Consultant and its agents in the performance of services under this contract, but this indemnity does not apply to liability for damages for death or bodily injury to persons, injury to property, or other loss, arising from the sole negligence, willful misconduct or defects in design by City or the agents, servants, or independent contractors who are directly responsible to City, or arising from the active negligence of City. Consultant's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Consultant is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Consultant either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Consultant is given a thirty (30) day notice. Upon termination, City will pay Consultant for any services provided as of the date of termination and any reasonable fees Consultant is responsible to pay to its vendors prior to the date of termination.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Consultant has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Consultant shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Consultant shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Consultant shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of Consultant. The additional insured coverage under the Consultant's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall

- be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is less.
- 10d. Cancellation/Modification. Consultant shall provide thirty (30) days written notice to City prior to cancellation of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subconsultants. Consultant is liable for any acts or omissions of its sub-consultants if Consultant uses the services of sub-consultants to perform services under this Agreement.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Consultant hereby agrees to waive subrogation which any insurer of Consultant may acquire from Consultant by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Consultant, its employees, agents and sub consultants.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Consultant of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Consultant shall comply with all federal, state, local laws, ordinances and policies as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement.
12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor" and "Consultant" are used interchangeably.
- 18a. Consultant agrees that any and all information furnished by City shall be deemed proprietary and confidential. All such information, to the extent previously, presently or subsequently disclosed to Consultant is the property of City and such property shall be deemed and treated as "Confidential Information" of City. Consultant acknowledges that such Confidential Information may contain information provided and/or generated by third-parties. Consultant agrees that such Confidential Information shall not be disclosed to any third party without written permission from City, except as required by law. Consultant shall not use the Confidential Information except to perform Consultant's services as directed by City.
- 18b. To the extent not prohibited by law, City agrees that any and all proprietary information furnished by Consultant shall be deemed proprietary and confidential. All such information, to the extent previously, presently or subsequently disclosed to City is the property of Consultant and such property shall be deemed and treated as "Confidential Information" of Consultant. City agrees that such Confidential Information shall not be disclosed to any third party without written permission from Consultant, except as required by law. Nothing herein shall prevent disclosure of information by City that is required by law, including but not limited to those disclosures required under the California Public Records Act.
19. All facilities, devices, networks and services used to store, deliver, process, backup or purge Confidential Information will employ administrative, physical, technical, and procedural safeguards and best practices at a level sufficient to secure Confidential Information from unauthorized access, destruction, use, modification, or disclosure. Such measures will be no less protective than those used to secure Consultant's own information of a similar type, and in no event less than reasonable in view of the type and nature of the information involved. It is the City's expectation that Consultant, at its own expense, shall perform annual audits for any data centers that house Confidential Information, using an independent third-party audit that meets industry standards applicable to the services under this Agreement, and provide the audit report or certification upon request to City.
- 20a. Consultant will retain Confidential Information until deleted by City or City-authorized third party or for 7 years from the date of disclosure, whichever is sooner.
21. Upon termination or expiration of this Agreement, Consultant will ensure that all Confidential Information is securely transferred to City within thirty (30) calendar days. Consultant will ensure that any transfer of Confidential Information is accomplished by methods that are compatible with the relevant City systems, and that City will have access to all Confidential Information during any such transfer. Consultant shall securely dispose of all Confidential Information when requested by City and Consultant will provide written notification to City once all Confidential Information has been securely disposed of.
22. Consultant shall report to City any data compromise or unauthorized access to Confidential Information within twenty four (24) hours after Consultant discovers such data compromise or unauthorized access. Consultant will take commercially reasonable measures to address any such data compromise or unauthorized access in a timely manner. Except as otherwise required by law, Consultant will not provide notice to end users or other entities of any such data compromise or unauthorized access without written permission from City. Consultant will promptly reimburse City in full for all fees and costs incurred by City in any investigation, remediation or litigation resulting from any such data compromise or unauthorized

- access, including identity protection and restoration services for each person, who in the City's sole discretion, could be impacted by identity theft.
23. Consultant may not advertise that City is a client, list City as a reference or otherwise use City's name, logos, trademarks, or service marks without prior written permission from City.
 24. Consultant acknowledges that services rendered under this agreement (including but not limited to service levels and operational levels) shall be performed in accordance with industry standards.
 25. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
 26. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
 27. Exhibit A shall be incorporated into this Agreement for the Avaya Support Advantage "(SA") Preferred Support.

City reserves the right to withhold any payments to Consultant in the event of noncompliance with insurance requirements or if required by law.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239

Appendix A: Definitions	20
-------------------------------	----

1. Introduction

This Service Description describes the Avaya Support Advantage Essential Co-Delivery and Preferred Co-Delivery Support services for eligible Supported Products and supersedes all prior descriptions or contract supplements relating to such support. When a translated version of this document conflicts with the English version, the English version will take precedence. This document is an attachment to the Partner's Commercial Agreement with Avaya, and shall serve as the Service Description with respect to such support offering. In the event of a conflict between this Service Description and the Partner's Commercial Agreement with Avaya, the terms and conditions of the Partner's Commercial Agreement will control.

The services under this document will be provided by Avaya to the Partner purchasing support coverage for its End Customers (or resellers, as applicable). The Partner will be responsible for ensuring that the End Customer's responsibilities are performed under this document and securing (either directly or through resellers, as applicable) all necessary approvals, consents and performance from the End Customer.

The Co-Delivery Support offer is available to Partners who meet the specific eligibility requirements listed in this document and in other applicable Avaya policies. Through the Co-Delivery Support offer, Partners provide Tier I and II support from their own authorized Support Operations Center initially handling and attempting to resolve End Customer calls before forwarding a service request to Avaya.

Partner Co-Delivery Eligibility Requirements

The Partner must comply with the Co-Delivery requirements as documented in the Avaya Connect Program Requirements at: <http://www.avaya.com/AvayaConnect> (or any successor site designated by Avaya).

2. Support Advantage Coverage Options

Two coverage options are included within this Service Description for Avaya software and hardware products ("Supported Products"):

- Essential Co-Delivery Support
- Preferred Co-Delivery Support

The coverage option, Supported Products, and name of the End Customer will be included on the applicable order or associated quote sheet. The Avaya support obligations are expressly conditional upon the Supported Products:

- Being properly installed per Avaya product specification
- Not being subject to unusual mechanical stress or unusual electrical or environmental conditions
- Not being subject to misuse, accident or disasters including, without limitation, fire, flood, water, wind, lightning, or other acts of God.

3. Essential Co-Delivery Support Coverage

Essential Co-Delivery Support coverage provides reactive remote support for eligible Supported Products and is the **minimum coverage required, where available**, to receive Avaya support on those eligible Supported Products.

Essential Co-Delivery Support is not offered as an option for any Supported Products with a Major Release launching on or after August 10, 2015.

A. Remote Software and Hardware Support

The Partner has 24x7 around-the-clock access to an Avaya Service Center via the website (<http://support.avaya.com>) or telephone to request software and (where applicable) hardware support. Only Partner contacts with ACS/ACSS accreditation are eligible to request support and Avaya will verify the

identity and credentials of the Partner contacts requesting support. Avaya's remote support, including all electronic and telephone communications, is provided in the English language.

For all Supported Products under Essential Co-Delivery Support, Avaya will use commercially reasonable efforts to commence support on the Partner's request for remote support according to the following table.

	Outage*	Severe Business Impact*	Business Impact & Non-Service Impact*
Requests submitted via website	Within one (1) hour	Within two (2) hours	Within Standard Business Hours
Requests submitted via telephone	Within one (1) hour	Within two (2) hours	Next Business Day

* Severity levels are defined in Appendix A

B. Web Services

The Partner has access to web-based services available at <http://support.avaya.com>. Detailed instructions for access and use of each web service are posted on the support website. Avaya may require that only Avaya-authorized Partner contacts are eligible to access the support website and may also limit the number of authorized contacts.

Avaya E-Notifications – Register and receive proactive notifications via email anytime new and modified product documentation and downloads are posted on the support website. These announcements include Product Correction Notices, Security Advisories, End of Sale Notices, Services Support Notices, and User Guides.

Avaya Support Forums – View, post and reply to web-based conversation threads to discuss Supported Products (<http://support.avaya.com/forums>).

Case Status Alerts – Register for proactive email or text message alerts on the status of an Avaya service request.

Diagnostics - Scripting technologies used by Avaya Service and Engineering teams to End Customers. These scripts are based on actual break/fix Service Request data to enhance resolution and trouble isolation steps. Each script can runs diagnostic steps against the product quickly, providing simple green, yellow, and red indicators of potential trouble areas along with failure logs where a fault was found.

HealthCheck – Optimize reliability and performance for the Supported Product by using an on-demand tool to generate a HealthCheck report and review the current configuration parameters.

Knowledge Base – The Partner's authorized users may access Avaya's on-line knowledge base and use advanced search engines to find: documentation organized by Supported Product including all available user guides for product administration and programming, installation, configuration, Upgrades, and migrations, and general support; software and firmware download instructions; alarm code definitions with instructions on how to clear the associated alarms; problem descriptions with instructions for prescribed resolution; and answers for frequently and previously asked questions.

My Reports – View and create reports for service requests and entitlements across all of the End Customer's Sold To numbers.

Software Compatibility Audit (ASCA) – Create a report providing the software and firmware versions installed on all Communication Manager upgradeable devices as well as the latest versions available for those same devices.

Parts Replacement – Parts can be ordered via a web request when coverage includes Parts.

Service Request creation – Create a web request for support and receive enhanced response.

C. Minor Software and Firmware Updates and Service Packs

The Partner has access to Product Correction Updates ("Update") issued by Avaya. An Update can be a Product Correction Notice (PCN), minor software or firmware update or service pack. Avaya will notify the Partner via <http://support.avaya.com> of any Avaya-recommended Updates.

Updates will be issued as End Customer, remote or technician installable and with a classification of 1, 2, or 3 (defined in Appendix A) depending on the product, level of severity and complexity.

	Class 1	Class 2	Class 3
End Customer installable Update	Partner installs	Partner installs	Partner installs
Remote installable Update	Avaya installs	Avaya installs	Partner installs
Technician installable Update	Partner installs, or Avaya installs during coverage hours when Support Advantage Onsite Support is purchased	Partner installs, or Avaya installs during coverage hours when Support Advantage Onsite Support is purchased	Partner installs, or Avaya installs during Standard Business Hours when Support Advantage Onsite Support is purchased

- The Partner must register for Avaya E-Notifications in order to receive Updates.
- At the Partner's request, Avaya will remotely perform the installation of an End Customer installable Update, subject to the Partner's express approval of time and material charges using Avaya's then current Maintenance Per Incident rates. Maintenance Per Incident charges also apply to any End Customer installable Update required to complete an open Avaya service request.
- Certain Avaya remote-installable Updates may require the insertion of End Customer provided media in a local drive at the End Customer's location, and that activity will be the Partner's responsibility.
- System backups are the Partner's responsibility and Avaya's installation of an Update does not include any system backup.
- In most circumstances, updating to the latest Minor Release and/or Update version of a product will be required before application of any additional Updates to address a problem.
- An installation charge may apply for Upgrades to the next Major Release.
- Co-Delivery Support does not include software or hardware upgrades. If the Update requires a software or hardware upgrade, Avaya will provide the Partner with a separate cost estimate prior to performing any such upgrade.

D. Maintenance Software Permissions (MSPs) and DADMIN Logins

Maintenance Software Permissions (MSPs) and DADMIN logins are applicable only to all Avaya Aura® Communication Manager (CM) Releases, including earlier versions such as DEFINITY®, G3V4 – R7 and G3V3.

MSPs provide the technological ability to execute certain on demand maintenance commands to a customer that is logged into an Avaya PBX system using a username and password reserved for customers (called a "Customer Login"). In this way, MSPs provide support services capabilities used to respond to some alarms and to aid in identifying and resolving problems with a system.

Customers may have access to MSPs, at no charge. One way to request MSPs is through Avaya's MSP Activation page (<https://support.avaya.com/MSPActivation>).

For all Avaya PBXs sold before May 2008, including CM 4 and earlier releases, both the customer that purchased the PBX and any agent acting on its behalf – including an unauthorized maintenance provider ("UMP") or independent service provider ("ISP") – may use MSPs at no charge.

Customers that purchased Avaya PBXs since May 2008, including CM 5.0 and later releases, also have access to MSPs at no charge, but such customers might breach their contracts with Avaya by allowing an UMP or ISP (or any other agent that is not authorized by Avaya) to use the on demand maintenance commands enabled by MSPs.

The DADMIN login was developed for and is licensed only to Avaya's authorized channel partners, subject to customer approval and Avaya authorization. The DADMIN login provides the partner with support services capabilities. DADMIN logins may be used only by authorized partners in accordance with the applicable Avaya license terms. DADMIN logins are not transferable or assignable, and they are not to be provided to customers or any unauthorized third parties.

Three other levels of Avaya Logins also exist – CRAFT, INADS and INIT – but these logins are reserved for the exclusive use of Avaya associates. UMPs do not have a license or permission from Avaya to use CRAFT, INADS, INIT or DADMIN logins.

For additional information about MSPs or DADMIN logins, please refer to Avaya's Intellectual Property Policy for Customers and Partners.

E. Support Limitations for Essential Support

- For Supported Products that are not configured in accordance with Avaya documentation, including published guidelines for technical compatibility and connectivity to non-Avaya products, Avaya has the right to restrict its diagnostic and/or corrective procedures to those problems that originate entirely within such Supported Products and do not arise out of, or in connection with, non-documented configurations and/or the Supported Products' interoperation with any other products.
- Support is limited to unaltered versions of the Supported Products and to problems that are reproducible in that version of the Supported Product when operating in a standard operating environment ("Standard Operating Environment").
 - A Standard Operating Environment is one where the covered applications, databases, and operating systems have been tested, certified, and documented by Avaya.
 - If the Supported Product is not being run in a Standard Operating Environment, then Avaya may be delayed in starting work on the service request and additional charges may apply.
 - In the event that support is requested for a Supported Product that is not being run in a Standard Operating Environment and Avaya requests that it be put in a Standard Operating Environment in order to reproduce and diagnose the problem, Avaya will not be responsible for the delays caused by such reconfiguration and the Partner may be responsible for performing such reconfiguration. In the event that the Partner is unable to reconfigure the needed Avaya product and Avaya is requested to perform that work, additional charges may apply.
- In the event that no trouble is found after putting the altered Supported Product into a Standard Operating Environment, the Partner may be charged time and material charges using Avaya's then current Maintenance Per Incident rates for Avaya's efforts to troubleshoot the problem.
- Corrections to certain problems may only be available through a more current release of software or through a documentation update.
- Trouble isolation and fault management associated with the installation of Updates will be limited to correcting faults for a Standard Operating Environment.
- Support does not cover customized system features, applications or reports created by the End Customer, Partner, Avaya Professional Services or other third parties. Any bug fixing or system re-configuration(s) that Avaya must perform to clear a trouble resulting from the End Customer or Partner's configuration changes are not included in the scope of this Service Description. If Avaya determines that a problem is due to the End Customer's, Partner's, or a third party's application, or configuration changes, then resolution and diagnostic fees may be charged at Avaya's then current Maintenance Per Incident rates.
- Avaya will not be held responsible for any loss due to the use of its products in a nonstandard operating environment.

F. Products Excluded from the Essential Co-Delivery Support Coverage Option

Some Supported Products have not been designated by Avaya as eligible for Essential Co-Delivery Support. These products require Preferred Co-Delivery Support. Avaya reserves the right to add or remove eligible Supported Products at its sole discretion.

Currently products which are not eligible for Essential Co-Delivery Support are:

- a. All Major Releases of products launching on or after August 10, 2015
- b. Communications as a Service (CaaS) solutions, such as UCaaS (Unified Communications as a Service) and CCaaS (Contact Center as a Service)
- c. Fabric Networking solutions

4. Preferred Co-Delivery Support Coverage

If the Partner purchases Preferred Co-Delivery Support, coverage includes all of the services included in Essential Co-Delivery Support in addition to the Preferred Co-Delivery Support services described in this section.

Preferred Co-Delivery Support coverage provides proactive remote support for all eligible Supported Products that offer this capability.

A. Proactive Remote Software and Hardware Support

- For all Supported Products under Preferred Co-Delivery Support, Avaya will use commercially reasonable efforts to commence support on the Partner's request for remote support submitted to an Avaya Service Center via telephone or website according to the following table.

	Outage*	Severe Business Impact*	Business Impact & Non-Service Impact*
Requests submitted via website	Within fifteen (15) minutes	Within fifteen (15) minutes	Within Standard Business Hours
Requests submitted via telephone	Within one (1) hour	Within two (2) hours	Next Business Day

* Severity levels are defined in Appendix A

- Avaya will provide 24x7 around-the-clock monitoring by Avaya EXPERT SystemsSM Diagnostic Tools where applicable, to detect system-generated alarms on Supported Products that contain EXPERT Systems technology.
 - EXPERT SystemsSM will diagnose and attempt to resolve system-generated alarms.
 - Subject to the Partner's registration for Avaya case status alerts, Avaya will automatically forward all **unresolved alarms** to the Partner for troubleshooting and diagnostics.
- The Partner may use the Manage Alarms tool to block the creation of product alarm cases for a Sold To location and (optionally) for a specific product where available.

B. Off-Board Alarm Notification

- On Supported Products that are enabled for EXPERT SystemsSM technology, Avaya will proactively monitor and detect through EXPERT SystemsSM all DS1 and SIP Trunk off-board alarms associated with network facilities and the TCP/IP links associated with Avaya Supported Products that have Avaya/DCIU capabilities.
- Subject to the Partner's registration for Avaya case status alerts, Avaya will send electronic notification of off-board alarms to the Partner.

C. Secure Access Link (SAL) Policy Server

As an entitlement of Preferred Co-Delivery Support, the Partner can provide to the End Customer access to the Secure Access Link (SAL) Policy Server application, a component of Avaya Diagnostic Server. Support tools such as SAL and Avaya Diagnostic Server are available on a licensed basis; license terms may be found at <https://downloads.avaya.com/css/P8/documents/100172830>.

- The End Customer can install a SAL Policy Server that works with the SAL Gateway and may be used to determine and authorize when and how Avaya will remotely access Supported Products in the End Customer's network.
- The SAL Policy Server provides the End Customer with a centralized application for the definition, administration, and inclusion of all secure remote access policies that will govern the remote access sessions initiated by Avaya engineers and automated tools through the SAL Gateway.
- The End Customer-defined policies are automatically downloaded by the SAL Gateways.
- The SAL Gateways receive and forward alarms and poll Supported Products for remote access connection requests.
- The End Customer may access and download the SAL Policy Server software and installation guide at <https://plds.avaya.com>. Select Downloads and search for "Secure Access Link".

D. Avaya Diagnostic Server

As an entitlement of Preferred Co-Delivery support, the Partner and the End Customer has access to the Avaya Diagnostic Server on a license basis.

- Software that bundles the SAL Gateway application with additional diagnostic capabilities for IP telephony troubleshooting and network monitoring.
- The Avaya Diagnostic Server reduces onsite dispatches and End Customer engagement requirements by giving Avaya and Partner support engineers the ability to emulate sitting next to the End Customer in order to better understand the problem, avoid false troubleshooting leads, and reproduce the issue down to the individual steps described.
- Existing End Customers with SAL and Preferred Co-Delivery support can download, license, and install the server software at no charge.
- The End Customer may access and download the software and installation guide at <https://plds.avaya.com>. Select Downloads and search for "Diagnostic Server".

5. Upgrade Advantage

Upgrade Advantage is available when Support Advantage Essential or Preferred Co-Delivery Support coverage is in effect. **Upgrade Advantage is priced and billed separately from Support Advantage.**

- When the End Customer purchases Upgrade Advantage, it enables them to upgrade their Avaya provided software to the latest Major Release if and when available.
- Upgrade Advantage is only available on Avaya's then most current Major Release, and is not available on prior Major Releases. End Customers recasting from a Software Support + Upgrade to a Support Advantage agreement that did not upgrade during the agreement term are eligible for Upgrade Advantage. End Customers may also retain their Upgrade Advantage coverage, at then current terms and conditions, when renewing a current Support Advantage + Upgrade Advantage agreement.
- As a part of Upgrade Advantage, the End Customer may register at <http://support.avaya.com> to receive notices when new Major Releases of Avaya-provided software become commercially available.
- During the term of the Upgrade Advantage subscription, the End Customer:
 - Must maintain active Essential or Preferred Co-Delivery Support coverage, as applicable based on product release.
 - Will have access to the features and functions of each new Major Release at no additional charge beyond the subscription fee.
 - Will receive instructions on how to download each new Major Release, where applicable.
- All associated upgrades of Major Releases must be scheduled and implemented during the coverage term of the Upgrade Advantage subscription.

- Avaya will not require the End Customer to upgrade their software unless Avaya has advised the Partner that corrections to certain problems may only be available through a more current release of software.
- Billing for the Upgrade Advantage option to the Partner will occur even if the End Customer fails to exercise its right to upgrade before the end of the Upgrade Advantage coverage term.

A. Products Requiring Upgrade Advantage Attach

Upgrade Advantage is required to be purchased on all Major Releases of products launching on or after August 10, 2015, when Upgrade Advantage is available.

Upgrade Advantage is required to be purchased on the following products regardless of Major Release date:

- Communications as a Service (CaaS) solutions, such as UCaaS (Unified Communications as a Service) and CCaaS (Contact Center as a Service).
- Applications supporting the Fabric Networking solutions. Upgrade Advantage is not required, nor applicable, to any hardware within the Fabric Networking solution, as the operating system is an inherent part of the solution.
- Customer Service Editions (CSE).
- Workforce Optimization (WFO).

B. Exclusions from Upgrade Advantage

The Upgrade Advantage option only applies when upgrading a covered software product from one Major Release to a subsequent Major Release. It does not include:

- Design support, installation, professional services or other service charges.
- Any provisioning of the software.
- Any and all equipment costs.
- Upgrading of components located in an End Customer "crash kit" or maintenance spared equipment.
- Hardware changes required to comply with minimum vintage requirements.
- Project Management costs.
- Upgrades to any and all adjunct software applications.
- New feature functionality or capacity requirements associated with additional software licensing.
- Migration of software application to a new or different hardware platform.

6. Exclusions from Essential and Preferred Co-Delivery Support

A. Out of Scope Services Supported With Maintenance Per Incident Time and Material (T/M)

Avaya provides "Maintenance Per Incident T/M" support for out of scope maintenance related activities not included in an Avaya Maintenance Contract. Support is only available to Avaya End Customers and Partner End Customers who have support coverage on the product requiring support. Services provided not directly attributable to a fault in Supported Products that end up being a result of an out of scope activity defined below are billable per the current hourly rate structure. Billable time starts from the time the End Customer calls or a web ticket is picked up, to the time the case is closed, for support provided for items that would fall outside of what maintenance or warranty would entitle.

Examples of support that would fall outside of maintenance coverage that would be provided under Maintenance Per Incident Time and Material (T/M) would be as follows:

- Programming, administration or configuration changes
- Third party integration or applications
- Acts of nature

- End Customer network outages and/or service providers issues
- Avaya installation of End Customer or partner installable patches
- Support that ends up being related to a product not under warranty or maintenance coverage
- Parts or onsite support for Remote Only or Remote + Parts contracts
- Products that are improperly certified by a party other than Avaya

B. Additional Exclusions

The following exclusions apply to Essential and Preferred Co-Delivery Support coverage:

- Supported Products that have not been designated by Avaya as eligible for Co-Delivery Support. Avaya reserves the right to add or remove eligible Supported Products at its sole discretion.
- Support for any service request reported directly by the End Customer.
- If the Partner's requirements necessitate an on-site technician, Avaya will dispatch a field technician to the End Customer's site (where geographically available), subject to the Partner's express approval of time and material charges using Avaya's then current Maintenance Per Incident rates, where available and appropriate. For Communications as a Service (CaaS) offers, Avaya Authorized Partners purchasing a Partner Hosted - Customer Experience Management Solution via the Support Advantage Co-Delivery offer and not selecting Parts or Onsite at Point of Sale will be accountable for all maintenance parts replacement support. Avaya will have no parts and/or on-site support liability to the partner or End Customer for the Hosted cloud solution
- Any customized system features, configuration changes or reports.
- The capture of off-board alarms for trunk interfaces (Excluded from Essential Co-Delivery Support, but not excluded from Preferred Co-Delivery Support).
- Interfacing directly with the Partner's or End Customer's network carrier or service provider.
- Support for the Secure Access Link (SAL) Policy Server software beyond general usability questions.
- Implementation, installation, and customization services may be required and may be provided by Avaya at an additional cost and are outside the scope of coverage provided in this document.
- The provision or installation of hardware upgrades or reprogramming to add additional capabilities or functionality to the Supported Products.
- Customization of, or labor to install, a software application on the hardware.
- Media or hardware replacement for damages or malfunctions caused by: (1) actions of non-Avaya personnel or the attachment of products not supported by Avaya; (2) failure to follow manufacturer's installation, operation, or maintenance instructions; (3) failure of products not serviced under this Service Description; (4) abuse, misuse, or negligent acts of non-Avaya personnel; (5) repair to products if the End Customer, Partner, End Customer-authorized or Partner-authorized party modified the product in any manner, shall not be covered.
- Services and all troubleshooting support not directly attributable to a fault in Supported Products (including faults in the Partner or End Customer's own network or the public network).
- Services that cannot be provided due to the Partner's failure to fulfill the Partner responsibilities detailed in the Partner Responsibilities section of this Service Description.
- Services that cannot be provided due to the Partner's or the End Customer's failure to fulfill the End Customer responsibilities detailed in the Responsibility Matrix section of this Service Description.

7. Responsibility Matrix

The following table outlines the roles and responsibilities of the involved parties.

A. Implementation

Responsibility	End Customer	Partner	Avaya
Ensure the power and grounding of Avaya products meet the product specifications		X	
Provide the proper environment for the Supported Products, including electrical and telecommunications connections as specified by Avaya.		X	
Follow all of the Avaya installation, operation, and maintenance instructions.		X	
Ensure registration of Avaya Supported Products is completed as defined by Avaya's most recent registration process and accurately maintained after system changes.		X	
Provide Avaya with remote system access via an Avaya-approved connectivity method as provided in this Service Description.		X	
Use the "Avaya Products Security Handbook" available at http://support.avaya.com along with the individual product documentation to secure remote access capabilities.	X	X	
Install, maintain and manage the Secure Access Policy Server including administration of access policies if the End Customer opts to use Secure Access Policy Server (Preferred Co-Delivery Support only).	X		
Maintain accreditations and authorizations as defined in this Service Description.		X	

B. Post-Implementation Support

Service requests from non-accredited personnel may result in delayed support and will be billed time and material charges using Avaya's then current Maintenance Per Incident Rates.

Responsibility	End Customer	Partner	Avaya
Define internal procedures to maintain control of the original software media including creation of backup copies.		X	
Maintain a procedure external to the software program(s) and host computer for backup and reconstruction of lost or altered files, data or program to the extent the End Customer deems necessary.		X	
Notify Avaya of any moves of Supported Products covered by this Service Description.		X	
Access and use web-based services available at http://support.avaya.com prior to submitting a service request to Avaya		X	
Utilize Support Web site tools such as Create Service Request, Check Case Status, Request Parts Replacement, Administer End Customer Site Contacts, Download Software, and Check upgrade Entitlements		X	
Contact Avaya for entitled support.		X ¹	
Maintain accreditations and authorizations as defined in this Service Description.		X	
Operate and maintain a Support Operations Center to receive service requests from the End Customer during business hours and out of hours.		X	
Utilize the co-delivery password provided by the Partner's Avaya channel account manager for only those Supported Products for which the Partner is co-delivery authorized when configuring the order in Avaya Solution Designer.		X	
Monitor alarms generated by Supported Products and carry out instructions available at http://support.avaya.com to resolve those alarms (Essential Support only). If the Partner requests support from Avaya but has made no attempt to resolve the alarm or if another fault has resulted from an unresolved alarm, the Partner may be charged time and material charges using Avaya's then current Maintenance per Incident rates.		X	
Authorize Avaya to utilize the Partner's or End Customer's global network to deliver alarms to the Avaya Service Center, if necessary (Preferred Co-Delivery Support only).	X		

Responsibility	End Customer	Partner	Avaya
Provide the Avaya Service Center with the following information when reporting a trouble: Avaya-provided End Customer Sold To Number, End Customer contact information, Description and urgency of the problem, as well as system passwords and equipment access control features required for Avaya to provide remote support.		X	
Upon receipt of an Avaya service request, perform troubleshooting and diagnostics via remote connection to isolate software and hardware-related problems and determine whether a Supported Product is working in accordance with Avaya's standard and published documentation, including all associated application and configuration notes.			X
Onsite troubleshooting as required.		X	
Upon receipt of an Avaya service request, isolation and resolution of all reproducible problems or anomalies resulting when Avaya installation or configuration instructions were used, as long as the configuration errors are specific to unaltered Avaya software product.			X
Upon receipt of an Avaya service request, identification and resolution of any inconsistencies or errors in Avaya product documentation.			X
Request advance replacement of parts only for the eligible Supported Products.		X	
Unless onsite parts replacement coverage by Avaya was purchased: Replace defective part. Return faulty parts to Avaya according to the guidelines in the Parts Coverage section of this Service Description.		X	
For onsite parts replacement coverage, provide Avaya with onsite access to the Supported Products during Coverage Hours. 'Access' includes physical access as well as network access to Supported Products. Additional charges may apply if an Avaya field technician is scheduled to service equipment and the technician must wait after arriving onsite for equipment to become available for servicing.	X	X	
Schedule availability of authorized staff that will have the authority to make decisions on Partner's behalf concerning the maintenance and service support of systems. The authorized staff is responsible to: • Approve any associated maintenance per incident charges • Provide and approve all purchase orders for maintenance per incident invoices; • Permit Avaya to conduct an equipment certification, serviceability, and inventory check if required by Avaya prior to service assumption.		X	

Responsibility	End Customer	Partner	Avaya
Determine and schedule Major Release Upgrades including authorizing End Customer contacts eligible to download the software (Upgrade Advantage only).	X		
Maintain the system at a current support release (N). Or one Major Release prior (N -1).	X	X	
Maintain Avaya products at the most current Service Pack ("SP") and Firmware ("FW") update level	X	X	
Ensure registration of Avaya Supported Products is updated as defined by Avaya's most recent registration process, including the removal of deactivated equipment		X	
Notify the Partner of any software/hardware upgrades, updates to, or additions of any new software and/or applications to the existing systems, if such upgrades and software/applications were purchased from a vendor other than Avaya.	X		
Notify Avaya of any software/hardware upgrades, updates to, or additions of any new software and/or applications to the existing systems, if such upgrades and software/applications were purchased from a vendor other than Avaya.		X	
Perform network audits on their network to ensure it is within Quality of Service specifications (e.g. packet loss, jitter, packet latency, etc.) to maintain voice and data services, especially after making any changes to their network.		X	
Advise Avaya of all changes that affect the Partner's or End Customer's network configurations and operations of Supported Products which may include IP addresses, subnet assignments, topology, server configuration or changes to firewalls that impact Avaya's ability to monitor or remotely access the Supported Products.		X	
Register for case status alerts to receive notification of unresolved EXPERT Systems SM alarms and off-board alarms (Preferred Co-Delivery Support only).		X	

¹For Co-Delivery contracts:

- Any service request submitted directly to Avaya by the End Customer will be referred to the Partner. If the End Customer continues to bypass the Partner's Support Operations Center and request support from Avaya, the Partner will be billed time and material charges using Avaya's then current Maintenance Per Incident rates to perform this referral.
- The Partner's ACS/ACSS accredited resource may contact the Avaya Backbone (Tier III) organization only after their efforts have been completed to troubleshoot, diagnose, and isolate software and hardware related problems per the above Responsibilities matrix, and when the results of that effort are documented in the Avaya Partner Case Diagnostic Template.
- Service requests will only be accepted by Avaya when submitted by the credentialed ACS/ACSS for that particular Supported Product. Where ACS/ACSS-level accreditation is not applicable to the relevant Supported Product for which support is being requested, an "Install and Maintain" Product Authorization is required.
- Service requests from non-accredited Partner personnel may result in delayed support and will be billed time and material charges using Avaya's then current Maintenance Per Incident rates.

8. General

A. Partner Eligibility

The Partner agrees to adhere to all Avaya policies, including, without limitation, Avaya Connect, applicable to the Co-Delivery Support offer published on the Avaya Partner portal.

If the Partner does not meet the requirements set out in this Service Description, or does not obtain or maintain the necessary eligibility requirements, one or more of the following may apply (at Avaya's sole discretion):

- Cancellation of the co-delivery order and requirement to reissue support under the Essential Support or Preferred Support offers (and at such applicable rate);
- Avaya billing the then current applicable re-initiation fee;
- Avaya refusing to accept any subsequent orders for co-delivery support.

B. Audit Rights

Avaya may audit the Partner's co-delivery cases and the resources used in performing their obligations under this Co-Delivery Support offer. It is the responsibility of the Partner to ensure their associates are aware of and understand the Partner's responsibilities and obligations established within this Service Description.

C. Billing and Contract Start Date

Support will commence and be chargeable as follows:

- Support will commence on the first day of the second month following Supported Products Order Closure (Point of Sale).
- Support for upgrades of existing products already under SA support coverage, including licenses, will commence on the first day of the second month following the closure of the upgrade order.
- Support for increases in the quantity of existing products already under SA support coverage (ex. Adding 10 more user licenses) will commence on the first day of the month following the closure of the new order.

D. True Up

Avaya may perform true ups to determine if additional Software Licenses have been added to Supported Products and bill for the additional licenses.

For CaaS solutions, Avaya will utilize the CaaS solution capabilities (ex. Avaya Contact Center Control Manager (ACCCM)) to perform monthly peak usage true ups (one month in arrears) to identify Software Licenses in use. This information will be used for monthly Avaya invoicing. Minimal invoicing thresholds apply per the CaaS offers.

E. Renewal of Coverage

Support Advantage coverage for Supported Products will automatically renew at the end of the initial term of coverage and any renewal term under Avaya's then current Service Description applicable to Supported Products, unless either party provides written notice of its intent not to renew such coverage at least 30 days prior to the renewal date. If the Customer is an Avaya authorized reseller or distributor, renewals will not be automatic unless auto-renewal is available from Avaya. Auto-renewal for authorized resellers and distributors is not available in all regions. Support Advantage 1-year and multi-year support agreements will renew at then-current rates and for a similar term length as the expiring agreement. Where auto-renew is available, multi-year support agreements will automatically renew as a 3-year or 5-year support agreement, as applicable.

Upgrade Advantage 1-year software upgrade subscription agreement renewal rates for the first renewal period (the second year of Upgrade Advantage coverage) will not be more than 5% ("COLA adjustment") higher than the rate for the initial year of coverage for the same Supported Products.

Upgrade Advantage multi-year software upgrade subscription agreements will renew at then-current rates.

F. Re-initiation of Lapsed Coverage

A re-initiation fee will apply to reinstate support when coverage has lapsed. The applicable re-initiation fee will be invoiced and payable with the first billing of the new coverage. For details on the fees, refer to the [Support Re-initiation Policy](#).

Note:

- 1) The re-initiation fee is subject to change at any time.
- 2) Re-initiation fees are not discountable.
- 3) Time and Materials (T&M) support is not available if a support contract has lapsed.
- 4) Support and upgrade entitlements are not available the day after the expiration date of the support contract.

G. Certification

Supported Products that are newly purchased, used or have not been continuously covered by Avaya support are all eligible for coverage; however, certification of the Supported Products may be required. Certification ensures that Supported Products are properly installed and in good working order.

Certification of Supported Products may be required when:

- 1) Supported Products classified by Avaya as "not End Customer- nstallable" were installed by a party other than Avaya, an authorized Partner or a manufacturer or manufacturer-authorized service provider (for non-Avaya products).
- 2) Avaya support coverage on Supported Products has lapsed for more than ninety (90) days or was never initiated.

Certification is not included in this Service Description and will be charged at Avaya's then current Maintenance Per Incident rates if Supported Products are not added under Support Advantage coverage within 45 days of certification completion. Avaya does not guarantee Supported Products subject to certification will be certified. If Supported Products are found to be ineligible for certification, the End Customer is responsible for corrections required to make Supported Products eligible. A list of Support Advantage Supported Products is located at http://support.avaya.com/support_advantage.

H. Coverage Required for Software on a Single Application or Application Bundle

All licenses for a single application on a single server must have the same level of coverage (i.e., Essential Co-Delivery Support or Preferred Co-Delivery Support). If the Partner is found to have varying levels of coverage on the licenses for a single application or for a single server, licenses covered at a lower level of coverage will be brought up to the higher level of coverage and Avaya shall bill the Partner for the incremental charge, calculated to be co-terminus with existing coverage.

I. Coverage Required for Avaya Integrated Solutions

All Avaya solutions that are integrated with other Avaya solutions (e.g., Communication Manager integrated with Avaya Call Center) can be covered by different levels of Support Advantage coverage but must have the same delivery option (either all Avaya Delivery or all Co-Delivery). All integrated solutions must be covered by at least Essential Co-Delivery Support. If the Partner is found to have fragmented coverage whereby one solution is not covered by at least Essential Co-Delivery Support, the Partner will be notified of the coverage requirements. In the event that coverage is not initiated on the uncovered solution(s) within ninety (90) days of such notification, support on the covered solution will be treated as though canceled by the Partner as per the "Termination of Support" provisions set forth below and the cancellation fees set forth below will apply. A list of integrated solutions is located at http://support.avaya.com/support_advantage.

J. Coverage Required for Avaya Independent Products or Applications at Same Site

All Avaya Supported Products at a single location that are not integrated with each other can be covered by different levels of Support Advantage coverage (e.g., Communications Manager with

Essential Co-Delivery Support and Modular Messaging with Preferred Co-Delivery Support) and with different delivery options.

K. Coverage on Lifetime Warranty Products

When Support Advantage is purchased on a product which already includes a lifetime warranty, the terms of this service agreement supersede the warranty terms during the duration of the support agreement. Upon expiration of the support agreement, the terms of the lifetime warranty will govern. It is recommended that End Customers choose to cover their whole network with Support Advantage for fabric allowing them seamless access to tech support and choice of parts and onsite options.

L. Dedicated Access

As an entitlement to the End Customer's product purchase, Avaya will provide the Secure Access Link (SAL) Gateway in order to provide remote, secure access to the End Customer's systems for support. The Partner/End Customer should have the SAL Gateway installed no later than the delivery date of the Avaya-installed systems/devices or prior to the commencement of support in all other situations, so that Avaya can perform the services as described. The IP address must be provided to Avaya by the Partner as soon as it is available. The Policy set by the End Customer must allow outbound connection from the End Customer's location back to the Avaya Service Center in order for Avaya to provide remote support on a 24x7 basis or there may be degradation to the service and support the End Customer receives from Avaya. The Avaya support obligations under this document are contingent on the provision of remote access.

If an Avaya-approved standard remote connectivity method is not approved and implemented by the End Customer, Avaya is excused from any liability and contractual performance standards when using non-standard connectivity methods. If using non-standard connectivity methods, Avaya may not be able to provide support and Avaya may charge time and material charges using Avaya's then current Per Incident Maintenance rates if there is additional cost to Avaya in providing support to the End Customer.

M. Termination of Support

The Partner may terminate Services at any time during the current Term upon at least 30 days written notice and shall be subject to payment of: (i) Support Advantage charges up to and including the date of termination, and (ii) cancellation fees. Cancellation fees shall be equal to the Support Advantage charges that would otherwise be payable for the affected Support Advantage coverage for the remainder of the year of the Term in effect as of the effective date of the termination. The parties agree that the cancellation fees are liquidated damages comprising a reasonable estimate of Avaya's damages in the event of the Partner's early termination and are not a penalty. Unless already paid, the cancellation fees shall be immediately due and payable upon cancellation.

Cancellation fees will be calculated as follows for a 1 year agreement:

- Cancel in Year 1: Full amount of 1st year annual fees to be paid in full

Cancellation fees will be calculated as follows for a 3 year agreement:

- Cancel in Year 1: Full amount of 1st annual fees to be paid in full
- Cancel in Year 2: Full amount of 1st, 2nd year annual fees to be paid in full
- Cancel in Year 3: Full amount of 1st, 2nd and 3rd year annual fees to be paid in full.

Cancellation fees will be calculated as follows for a 5 year agreement:

- Cancel in Year 1: Full amount of 1st year fees to be paid in full
- Cancel in Year 2: Full amount of 1st and 2nd year annual fees to be paid in full
- Cancel in Year 3: Full amount of 1st, 2nd and 3rd year annual fees to be paid in full.
- Cancel in Year 4: Full amount of 1st, 2nd, 3rd and 4th year annual fees to be paid in full
- Cancel in Year 5: Full amount of 1st, 2nd, 3rd, 4th and 5th year annual fees to be paid in full

A recast from Preferred Support to Essential Support will result in cancellation fees on the Preferred Support agreement.

When a Partner recasts the existing SSI or Utility support coverage to Support Advantage and they have prepaid for their existing support coverage, then Avaya will credit any prepaid amounts.

All refunds for prepayments on contracts that are terminated other than due to Avaya's breach will be provided as a credit.

N. Extended Services Support

Periodically, Avaya or a third party manufacturer may declare "end of life," "end of service," "end of support," "end of manufacturer support", "manufacture discontinued" or similar designation ("End of Support") for certain Supported Products. When this designation occurs, the subsequent support period is referred to as "Extended Services Support". Refer to the Avaya Product Lifecycle Policy for further details: <http://support.avaya.com/css/P8/documents/100081098>

The Partner or End Customer may access Avaya's user support website (<http://support.avaya.com>, or such successor site as designated by Avaya) for End of Support notifications, and to register an e-mail address to receive e-mail notifications of the same, when published by Avaya. For Products subject to End of Support, Avaya will continue to provide the support described in this Service Description, except for the End of Support exceptions listed herein.

Avaya will make commercially reasonable efforts to provide the same level of support described in this document, with the following exceptions:

- Product Engineering support and new maintenance updates, such as Product Correction Notices (PCNs), "bug fixes" and interoperability/usability solutions, are no longer provided.
- Certain faults or functionality issues may not be resolvable or reproducible without upgrading the system to a version currently supported by the manufacturer. The Customer will be responsible for the costs associated with any upgrades.
- Access to and availability of support expertise on some Products may decline over time
- The Customer may experience delays in response or repair intervals.
- Avaya will endeavor to reserve its spare parts inventory to support Extended Services Support customers. However, since replacement parts may no longer be manufactured, some Products may become increasingly scarce over time. This scarcity may affect response and repair times, and certain Products may require replacement with more current substitute Products, whether new or refurbished.
- It may be necessary to purchase an upgrade to resolve a trouble if replacement parts or substitute Products are not available, or if the substitute Product is incompatible with a customer's current Product. The risk of this situation will depend on the Product's type and age. Avaya will endeavor to highlight upcoming shortages via ongoing "Services Support Notices" posted at support.avaya.com.
- The extended services support period may vary based on product availability, demand and other business factors, at Avaya's discretion.

Extended Services Support is provided only to the Avaya Partner purchasing support services (i.e., Support Advantage) for the affected Supported Products

A list of products that are currently supported is available from Avaya at http://support.avaya.com/Support_Advantage.

Appendix A: Definitions

Avaya Backbone (Tier III): Avaya remote engineering resources who receive escalations from the Partner's Support Operations Center and troubleshoot complex issues for software and (where applicable) hardware Supported Products.

Avaya Certified Specialist (ACS): The Avaya training, and subsequent certification, the Partner undertakes to maintain individual Supported Products. The Partner's associates who have ACS accreditation are authorized to escalate troubles to the Avaya Backbone (Tier III) if they can't resolve the trouble at the Partner's Support Operations Center.

Avaya Certified Solution Specialist (ACSS): The Avaya training, and subsequent certification, the Partner undertakes to maintain solutions for Supported Products. The Partner's associates who have ACSS accreditation are authorized to escalate troubles to the Avaya Backbone (Tier III) if they can't resolve the trouble at the Partner's Support Operations Center.

Business Severity Categories:

Outage Service Request: A real-time service or product outage in a production system that could require drastic measures to restore (such as a system restart), severely downgrades service capacity, or results in a loss of service for a significant number of end users. This situation severely impacts productivity or creates a significant financial impact or presents a risk for loss of human life. NOTE: requires End Customer to commit to 24x7 dedicated resource until restoration/workaround.

Severe Business Impact Service Request: Severe degradation of production system or service performance for which there is no active workaround and problem severely impacts service quality or the control or the operational effectiveness of the product affects a significant number of users and creates significant productivity or financial impact. This situation materially obstructs the firm's ability to deliver goods or services. Also includes automated product alarms which meet the Severe Business Impact criteria as noted above. NOTE: requires End Customer to commit to a 24x7 resource (if so entitled, or 8x5 if not) until restoration/workaround.

Business Impact Service Request: Significant degradation to the system's operation, maintenance or administration: requires attention needed to mitigate a material or potential effect on system performance, the End Customers or on the business. Also includes automated product alarms which meet the Business Impact criteria as noted above.

Non-Service Impact Service Request: A question or problem that does not immediately impair the functioning of the product or system and which does not materially affect service to End Customers. If related to a problem, the problem has a tolerable workaround. Includes consultation, records corrections and administrative issues.

Class 1 Product Correction Notice: A major system failure due to product non-conformance with high probability of potential loss of system use or functionality and/or loss of End Customer information.

Class 2 Product Correction Notice: A moderate system failure with moderate probability of loss of system use or functionality and/or loss of End Customer information.

Class 3 Product Correction Notice: A minor system failure with low probability of potential loss of system use or functionality and/or loss of End Customer information.

Commercial Agreement: Means, as the context requires, a Reseller Agreement, a Value Added Reseller Agreement, a Distributor Agreement, a Systems Integrator or Service Provider Agreement.

Communications as a Service (CaaS): Cloud Enablement offers such as UCaaS (Unified Communications as a Service) and CCaaS (Contact Center as a Service)

End Customer: Means the end customer purchasing support services directly from the Partner (or the Partner purchasing service for its own internal use) for the Supported Products.

Feature Pack: A downloadable, quick and easy to install, software deliverable containing one or more features that may be enabled individually and/or optionally licensed. May also contain maintenance correction. Feature Packs are typically designated as a change in the digit to the right of the second decimal point (e.g., n.y.[z]).

Federated Model: The Partner's Concentrator Server reports back to the Avaya Service Center.

Implement and Maintain Product Authorization (IMPA): The Avaya training, and subsequent certification, the Partner undertakes to implement and maintain products for which they are certified to install and maintain. The Partner's associates who are IMPA certified are authorized to escalate troubles to the Avaya Backbone (Tier III) if the troubles can't be resolved at the Partner's Support Operations Center. Some products also require the Partner's associates to be trained as Avaya Certified Specialists (ACS).

Maintenance Per Incident: Time and material (T&M) support available for out-of-scope or break-fix related activity not included in this Service Description. Support may be remote and/or onsite based on the product being supported and the time of day.

Major Release: A major change to the software that introduces new optional features and functionality. Major Releases are typically designated as a change in the digit(s) to the left of the first decimal point (e.g., [n].y.z).

Minor Release: A change to the software that introduces a limited amount of new optional features and functionality and/or extension of existing features. Minor Releases are typically designated as a change in the digit to the right of the first decimal point (e.g., n.[y].z).

Order Closure: When an order is booked and closed within Avaya's billing system of record (SAP).

Partner: Means, as the context requires, an authorized Avaya reseller, value added reseller, distributor, service provider or systems integrator partner.

Partner Case Diagnostic Template: The Avaya-defined template that is used by the Partner to document troubleshooting and diagnostic results obtained by the Partner's ACS/ACSS accredited resource. The completed template is submitted by the Partner to Avaya when a service request is submitted for Avaya Backbone (Tier III) support.

Service Description: The Service Description may also be referred to as a Service Agreement Supplement (SAS), Service Description Document (SDD), Statement of Work (SoW), or Channel Service Agreement.

Software Update: Changes in the software that typically provide maintenance correction only. An Update is typically designated as a change in the digit to the right of the second decimal point (e.g., n.y.[z]), representing a re-release of the corrected software version, or an issue(s)-specific correction provided in the form of a patch, super patch, service pack, bug fix, etc.

Standard Business Hours: Monday through Friday (or any other local period of five (5) consecutive working days according to local custom) between the hours of 8:00 a.m. and 5:00 p.m. in the time zone where the Supported Products are located, excluding Avaya observed holidays (a list is available upon request).

Standard Operating Environment: The covered applications, databases and operating systems have been tested and certified by Avaya.

Support Operations Center: Provides Tier I and Tier II support, including the original receipt of a trouble call, the assessment and triage of that call, as well as the first attempt at resolving the trouble. For the Partner Co-Delivery Support offer, the Partner performs this task.

Supported Products: The software and hardware products manufactured by Avaya and included on a service order form. Support for products manufactured by independent third parties (OEM products) may be included as Supported Products under a separate Service Description. These products are often serviced by third parties and the levels of service coverage and response intervals are designated by the third party performing the service. The service levels and response times contained in this document will not apply to these third party products.

Tier I: The Partner's call receipt function that receives incoming calls from End Customers and creates Partner trouble tickets.

Tier II: The Partner's technical resource who troubleshoots issues of simple and moderate complexity for software and (where applicable) hardware Supported Products.

Update: A Product Correction Notice (PCN), minor software or firmware update or service pack.

Upgrade: A Major Release of software.

RESOLUTION NO. 17-280

APPROVING SERVICE AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND
CONVERGEONE, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT
ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a service agreement (Service Agreement No. S1705228) between City of Roseville and ConvergeOne, Inc., to provide service and equipment for a citywide phone system upgrade, has been reviewed by the City Council; and

Rob Jensen, City Manager
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Consultant agrees to indemnify, including the cost to defend City, and its officers, agents, employees and volunteers from any and all claims, demands, costs or liability that arise out of, or pertain to, or relate to the negligence, recklessness, or willful misconduct of Consultant and its agents in the performance of services under this contract, but this indemnity does not apply to liability for damages for death or bodily injury to persons, injury to property, or other loss, arising from the sole negligence, willful misconduct or defects in design by City or the agents, servants, or independent contractors who are directly responsible to City, or arising from the active negligence of City. Consultant's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Consultant is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Consultant either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Consultant is given a thirty (30) day notice. Upon termination, City will pay Consultant for any services provided as of the date of termination and any reasonable fees Consultant is responsible to pay to its vendors prior to the date of termination.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Consultant has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Consultant shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Consultant shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Consultant shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of Consultant. The additional insured coverage under the Consultant's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall

be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is less.

- 10d. Cancellation/Modification. Consultant shall provide thirty (30) days written notice to City prior to cancellation of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subconsultants. Consultant is liable for any acts or omissions of its sub-consultants if Consultant uses the services of sub-consultants to perform services under this Agreement.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Consultant hereby agrees to waive subrogation which any insurer of Consultant may acquire from Consultant by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Consultant, its employees, agents and sub consultants.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Consultant of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
- 11. Consultant shall comply with all federal, state, local laws, ordinances and policies as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement.
- 12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
- 13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
- 14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
- 15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor" and "Consultant" are used interchangeably.
- 18a. Consultant agrees that any and all information furnished by City shall be deemed proprietary and confidential. All such information, to the extent previously, presently or subsequently disclosed to Consultant is the property of City and such property shall be deemed and treated as "Confidential Information" of City. Consultant acknowledges that such Confidential Information may contain information provided and/or generated by third-parties. Consultant agrees that such Confidential Information shall not be disclosed to any third party without written permission from City, except as required by law. Consultant shall not use the Confidential Information except to perform Consultant's services as directed by City.
- 18b. To the extent not prohibited by law, City agrees that any and all proprietary information furnished by Consultant shall be deemed proprietary and confidential. All such information, to the extent previously, presently or subsequently disclosed to City is the property of Consultant and such property shall be deemed and treated as "Confidential Information" of Consultant. City agrees that such Confidential Information shall not be disclosed to any third party without written permission from Consultant, except as required by law. Nothing herein shall prevent disclosure of information by City that is required by law, including but not limited to those disclosures required under the California Public Records Act.
19. All facilities, devices, networks and services used to store, deliver, process, backup or purge Confidential Information will employ administrative, physical, technical, and procedural safeguards and best practices at a level sufficient to secure Confidential Information from unauthorized access, destruction, use, modification, or disclosure. Such measures will be no less protective than those used to secure Consultant's own information of a similar type, and in no event less than reasonable in view of the type and nature of the information involved. It is the City's expectation that Consultant, at its own expense, shall perform annual audits for any data centers that house Confidential Information, using an independent third-party audit that meets industry standards applicable to the services under this Agreement, and provide the audit report or certification upon request to City.
- 20a. Consultant will retain Confidential Information until deleted by City or City-authorized third party or for 7 years from the date of disclosure, whichever is sooner.
21. Upon termination or expiration of this Agreement, Consultant will ensure that all Confidential Information is securely transferred to City within thirty (30) calendar days. Consultant will ensure that any transfer of Confidential Information is accomplished by methods that are compatible with the relevant City systems, and that City will have access to all Confidential Information during any such transfer. Consultant shall securely dispose of all Confidential Information when requested by City and Consultant will provide written notification to City once all Confidential Information has been securely disposed of.
22. Consultant shall report to City any data compromise or unauthorized access to Confidential Information within twenty four (24) hours after Consultant discovers such data compromise or unauthorized access. Consultant will take commercially reasonable measures to address any such data compromise or unauthorized access in a timely manner. Except as otherwise required by law, Consultant will not provide notice to end users or other entities of any such data compromise or unauthorized access without written permission from City. Consultant will promptly reimburse City in full for all fees and costs incurred by City in any investigation, remediation or litigation resulting from any such data compromise or unauthorized

access, including identity protection and restoration services for each person, who in the City's sole discretion, could be impacted by identity theft.

23. Consultant may not advertise that City is a client, list City as a reference or otherwise use City's name, logos, trademarks, or service marks without prior written permission from City.
24. Consultant acknowledges that services rendered under this agreement (including but not limited to service levels and operational levels) shall be performed in accordance with industry standards.
25. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
26. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
27. Exhibit A shall be incorporated into this Agreement for the Avaya Support Advantage "(SA") Preferred Support.

City reserves the right to withhold any payments to Consultant in the event of noncompliance with insurance requirements or if required by law.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

Appendix A: Definitions	20
-------------------------------	----

1. Introduction

This Service Description describes the Avaya Support Advantage Essential Co-Delivery and Preferred Co-Delivery Support services for eligible Supported Products and supersedes all prior descriptions or contract supplements relating to such support. When a translated version of this document conflicts with the English version, the English version will take precedence. This document is an attachment to the Partner's Commercial Agreement with Avaya, and shall serve as the Service Description with respect to such support offering. In the event of a conflict between this Service Description and the Partner's Commercial Agreement with Avaya, the terms and conditions of the Partner's Commercial Agreement will control.

The services under this document will be provided by Avaya to the Partner purchasing support coverage for its End Customers (or resellers, as applicable). The Partner will be responsible for ensuring that the End Customer's responsibilities are performed under this document and securing (either directly or through resellers, as applicable) all necessary approvals, consents and performance from the End Customer.

The Co-Delivery Support offer is available to Partners who meet the specific eligibility requirements listed in this document and in other applicable Avaya policies. Through the Co-Delivery Support offer, Partners provide Tier I and II support from their own authorized Support Operations Center initially handling and attempting to resolve End Customer calls before forwarding a service request to Avaya.

Partner Co-Delivery Eligibility Requirements

The Partner must comply with the Co-Delivery requirements as documented in the Avaya Connect Program Requirements at: <http://www.avaya.com/AvayaConnect> (or any successor site designated by Avaya).

2. Support Advantage Coverage Options

Two coverage options are included within this Service Description for Avaya software and hardware products ("Supported Products"):

- Essential Co-Delivery Support
- Preferred Co-Delivery Support

The coverage option, Supported Products, and name of the End Customer will be included on the applicable order or associated quote sheet. The Avaya support obligations are expressly conditional upon the Supported Products:

- Being properly installed per Avaya product specification
- Not being subject to unusual mechanical stress or unusual electrical or environmental conditions
- Not being subject to misuse, accident or disasters including, without limitation, fire, flood, water, wind, lightning, or other acts of God.

3. Essential Co-Delivery Support Coverage

Essential Co-Delivery Support coverage provides reactive remote support for eligible Supported Products and is the **minimum coverage required, where available**, to receive Avaya support on those eligible Supported Products.

Essential Co-Delivery Support is not offered as an option for any Supported Products with a Major Release launching on or after August 10, 2015.

A. Remote Software and Hardware Support

The Partner has 24x7 around-the-clock access to an Avaya Service Center via the website (<http://support.avaya.com>) or telephone to request software and (where applicable) hardware support. Only Partner contacts with ACS/ACSS accreditation are eligible to request support and Avaya will verify the

identity and credentials of the Partner contacts requesting support. Avaya's remote support, including all electronic and telephone communications, is provided in the English language.

For all Supported Products under Essential Co-Delivery Support, Avaya will use commercially reasonable efforts to commence support on the Partner's request for remote support according to the following table.

	Outage*	Severe Business Impact*	Business Impact & Non-Service Impact*
Requests submitted via website	Within one (1) hour	Within two (2) hours	Within Standard Business Hours
Requests submitted via telephone	Within one (1) hour	Within two (2) hours	Next Business Day

* Severity levels are defined in Appendix A

B. Web Services

The Partner has access to web-based services available at <http://support.avaya.com>. Detailed instructions for access and use of each web service are posted on the support website. Avaya may require that only Avaya-authorized Partner contacts are eligible to access the support website and may also limit the number of authorized contacts.

Avaya E-Notifications – Register and receive proactive notifications via email anytime new and modified product documentation and downloads are posted on the support website. These announcements include Product Correction Notices, Security Advisories, End of Sale Notices, Services Support Notices, and User Guides.

Avaya Support Forums – View, post and reply to web-based conversation threads to discuss Supported Products (<http://support.avaya.com/forums>).

Case Status Alerts – Register for proactive email or text message alerts on the status of an Avaya service request.

Diagnostics - Scripting technologies used by Avaya Service and Engineering teams to End Customers. These scripts are based on actual break/fix Service Request data to enhance resolution and trouble isolation steps. Each script can run diagnostic steps against the product quickly, providing simple green, yellow, and red indicators of potential trouble areas along with failure logs where a fault was found.

HealthCheck – Optimize reliability and performance for the Supported Product by using an on-demand tool to generate a HealthCheck report and review the current configuration parameters.

Knowledge Base – The Partner's authorized users may access Avaya's on-line knowledge base and use advanced search engines to find: documentation organized by Supported Product including all available user guides for product administration and programming, installation, configuration, Upgrades, and migrations, and general support; software and firmware download instructions; alarm code definitions with instructions on how to clear the associated alarms; problem descriptions with instructions for prescribed resolution; and answers for frequently and previously asked questions.

My Reports – View and create reports for service requests and entitlements across all of the End Customer's Sold To numbers.

Software Compatibility Audit (ASCA) – Create a report providing the software and firmware versions installed on all Communication Manager upgradeable devices as well as the latest versions available for those same devices.

Parts Replacement – Parts can be ordered via a web request when coverage includes Parts.

Service Request creation – Create a web request for support and receive enhanced response.

C. Minor Software and Firmware Updates and Service Packs

The Partner has access to Product Correction Updates ("Update") issued by Avaya. An Update can be a Product Correction Notice (PCN), minor software or firmware update or service pack. Avaya will notify the Partner via <http://support.avaya.com> of any Avaya-recommended Updates.

Updates will be issued as End Customer, remote or technician installable and with a classification of 1, 2, or 3 (defined in Appendix A) depending on the product, level of severity and complexity.

	Class 1	Class 2	Class 3
End Customer installable Update	Partner installs	Partner installs	Partner installs
Remote installable Update	Avaya installs	Avaya installs	Partner installs
Technician installable Update	Partner installs, or Avaya installs during coverage hours when Support Advantage Onsite Support is purchased	Partner installs, or Avaya installs during coverage hours when Support Advantage Onsite Support is purchased	Partner installs, or Avaya installs during Standard Business Hours when Support Advantage Onsite Support is purchased

- The Partner must register for Avaya E-Notifications in order to receive Updates.
- At the Partner's request, Avaya will remotely perform the installation of an End Customer installable Update, subject to the Partner's express approval of time and material charges using Avaya's then current Maintenance Per Incident rates. Maintenance Per Incident charges also apply to any End Customer installable Update required to complete an open Avaya service request.
- Certain Avaya remote-installable Updates may require the insertion of End Customer provided media in a local drive at the End Customer's location, and that activity will be the Partner's responsibility.
- System backups are the Partner's responsibility and Avaya's installation of an Update does not include any system backup.
- In most circumstances, updating to the latest Minor Release and/or Update version of a product will be required before application of any additional Updates to address a problem.
- An installation charge may apply for Upgrades to the next Major Release.
- Co-Delivery Support does not include software or hardware upgrades. If the Update requires a software or hardware upgrade, Avaya will provide the Partner with a separate cost estimate prior to performing any such upgrade.

D. Maintenance Software Permissions (MSPs) and DADMIN Logins

Maintenance Software Permissions (MSPs) and DADMIN logins are applicable only to all Avaya Aura® Communication Manager (CM) Releases, including earlier versions such as DEFINITY®, G3V4 – R7 and G3V3.

MSPs provide the technological ability to execute certain on demand maintenance commands to a customer that is logged into an Avaya PBX system using a username and password reserved for customers (called a "Customer Login"). In this way, MSPs provide support services capabilities used to respond to some alarms and to aid in identifying and resolving problems with a system.

Customers may have access to MSPs, at no charge. One way to request MSPs is through Avaya's MSP Activation page (<https://support.avaya.com/MSPActivation>).

For all Avaya PBXs sold before May 2008, including CM 4 and earlier releases, both the customer that purchased the PBX and any agent acting on its behalf – including an unauthorized maintenance provider ("UMP") or independent service provider ("ISP") – may use MSPs at no charge.

Customers that purchased Avaya PBXs since May 2008, including CM 5.0 and later releases, also have access to MSPs at no charge, but such customers might breach their contracts with Avaya by allowing an UMP or ISP (or any other agent that is not authorized by Avaya) to use the on demand maintenance commands enabled by MSPs.

The DADMIN login was developed for and is licensed only to Avaya's authorized channel partners, subject to customer approval and Avaya authorization. The DADMIN login provides the partner with support services capabilities. DADMIN logins may be used only by authorized partners in accordance with the applicable Avaya license terms. DADMIN logins are not transferable or assignable, and they are not to be provided to customers or any unauthorized third parties.

Three other levels of Avaya Logins also exist – CRAFT, INADS and INIT – but these logins are reserved for the exclusive use of Avaya associates. UMPs do not have a license or permission from Avaya to use CRAFT, INADS, INIT or DADMIN logins.

For additional information about MSPs or DADMIN logins, please refer to Avaya's Intellectual Property Policy for Customers and Partners.

E. Support Limitations for Essential Support

- For Supported Products that are not configured in accordance with Avaya documentation, including published guidelines for technical compatibility and connectivity to non-Avaya products, Avaya has the right to restrict its diagnostic and/or corrective procedures to those problems that originate entirely within such Supported Products and do not arise out of, or in connection with, non-documented configurations and/or the Supported Products' interoperability with any other products.
- Support is limited to unaltered versions of the Supported Products and to problems that are reproducible in that version of the Supported Product when operating in a standard operating environment ("Standard Operating Environment").
 - A Standard Operating Environment is one where the covered applications, databases, and operating systems have been tested, certified, and documented by Avaya.
 - If the Supported Product is not being run in a Standard Operating Environment, then Avaya may be delayed in starting work on the service request and additional charges may apply.
 - In the event that support is requested for a Supported Product that is not being run in a Standard Operating Environment and Avaya requests that it be put in a Standard Operating Environment in order to reproduce and diagnose the problem, Avaya will not be responsible for the delays caused by such reconfiguration and the Partner may be responsible for performing such reconfiguration. In the event that the Partner is unable to reconfigure the needed Avaya product and Avaya is requested to perform that work, additional charges may apply.
- In the event that no trouble is found after putting the altered Supported Product into a Standard Operating Environment, the Partner may be charged time and material charges using Avaya's then current Maintenance Per Incident rates for Avaya's efforts to troubleshoot the problem.
- Corrections to certain problems may only be available through a more current release of software or through a documentation update.
- Trouble isolation and fault management associated with the installation of Updates will be limited to correcting faults for a Standard Operating Environment.
- Support does not cover customized system features, applications or reports created by the End Customer, Partner, Avaya Professional Services or other third parties. Any bug fixing or system re-configuration(s) that Avaya must perform to clear a trouble resulting from the End Customer or Partner's configuration changes are not included in the scope of this Service Description. If Avaya determines that a problem is due to the End Customer's, Partner's, or a third party's application, or configuration changes, then resolution and diagnostic fees may be charged at Avaya's then current Maintenance Per Incident rates.
- Avaya will not be held responsible for any loss due to the use of its products in a nonstandard operating environment.

F. Products Excluded from the Essential Co-Delivery Support Coverage Option

Some Supported Products have not been designated by Avaya as eligible for Essential Co-Delivery Support. These products require Preferred Co-Delivery Support. Avaya reserves the right to add or remove eligible Supported Products at its sole discretion.

Currently products which are not eligible for Essential Co-Delivery Support are:

- a. All Major Releases of products launching on or after August 10, 2015
- b. Communications as a Service (CaaS) solutions, such as UCaaS (Unified Communications as a Service) and CCaaS (Contact Center as a Service)
- c. Fabric Networking solutions

4. Preferred Co-Delivery Support Coverage

If the Partner purchases Preferred Co-Delivery Support, coverage includes all of the services included in Essential Co-Delivery Support in addition to the Preferred Co-Delivery Support services described in this section.

Preferred Co-Delivery Support coverage provides proactive remote support for all eligible Supported Products that offer this capability.

A. Proactive Remote Software and Hardware Support

- For all Supported Products under Preferred Co-Delivery Support, Avaya will use commercially reasonable efforts to commence support on the Partner's request for remote support submitted to an Avaya Service Center via telephone or website according to the following table.

	Outage*	Severe Business Impact*	Business Impact & Non-Service Impact*
Requests submitted via website	Within fifteen (15) minutes	Within fifteen (15) minutes	Within Standard Business Hours
Requests submitted via telephone	Within one (1) hour	Within two (2) hours	Next Business Day

* Severity levels are defined in Appendix A

- Avaya will provide 24x7 around-the-clock monitoring by Avaya EXPERT SystemsSM Diagnostic Tools where applicable, to detect system-generated alarms on Supported Products that contain EXPERT Systems technology.
 - EXPERT SystemsSM will diagnose and attempt to resolve system-generated alarms.
 - Subject to the Partner's registration for Avaya case status alerts, Avaya will automatically forward all **unresolved alarms** to the Partner for troubleshooting and diagnostics.
- The Partner may use the Manage Alarms tool to block the creation of product alarm cases for a Sold To location and (optionally) for a specific product where available.

B. Off-Board Alarm Notification

- On Supported Products that are enabled for EXPERT SystemsSM technology, Avaya will proactively monitor and detect through EXPERT SystemsSM all DS1 and SIP Trunk off-board alarms associated with network facilities and the TCP/IP links associated with Avaya Supported Products that have Avaya/DCIU capabilities.
- Subject to the Partner's registration for Avaya case status alerts, Avaya will send electronic notification of off-board alarms to the Partner.

C. Secure Access Link (SAL) Policy Server

As an entitlement of Preferred Co-Delivery Support, the Partner can provide to the End Customer access to the Secure Access Link (SAL) Policy Server application, a component of Avaya Diagnostic Server. Support tools such as SAL and Avaya Diagnostic Server are available on a licensed basis; license terms may be found at <https://downloads.avaya.com/css/P8/documents/100172830>.

- The End Customer can install a SAL Policy Server that works with the SAL Gateway and may be used to determine and authorize when and how Avaya will remotely access Supported Products in the End Customer's network.
- The SAL Policy Server provides the End Customer with a centralized application for the definition, administration, and inclusion of all secure remote access policies that will govern the remote access sessions initiated by Avaya engineers and automated tools through the SAL Gateway.
- The End Customer-defined policies are automatically downloaded by the SAL Gateways.
- The SAL Gateways receive and forward alarms and poll Supported Products for remote access connection requests.
- The End Customer may access and download the SAL Policy Server software and installation guide at <https://plds.avaya.com>. Select Downloads and search for "Secure Access Link".

D. Avaya Diagnostic Server

As an entitlement of Preferred Co-Delivery support, the Partner and the End Customer has access to the Avaya Diagnostic Server on a license basis.

- Software that bundles the SAL Gateway application with additional diagnostic capabilities for IP telephony troubleshooting and network monitoring.
- The Avaya Diagnostic Server reduces onsite dispatches and End Customer engagement requirements by giving Avaya and Partner support engineers the ability to emulate sitting next to the End Customer in order to better understand the problem, avoid false troubleshooting leads, and reproduce the issue down to the individual steps described.
- Existing End Customers with SAL and Preferred Co-Delivery support can download, license, and install the server software at no charge.
- The End Customer may access and download the software and installation guide at <https://plds.avaya.com>. Select Downloads and search for "Diagnostic Server".

5. Upgrade Advantage

Upgrade Advantage is available when Support Advantage Essential or Preferred Co-Delivery Support coverage is in effect. **Upgrade Advantage is priced and billed separately from Support Advantage.**

- When the End Customer purchases Upgrade Advantage, it enables them to upgrade their Avaya provided software to the latest Major Release if and when available.
- Upgrade Advantage is only available on Avaya's then most current Major Release, and is not available on prior Major Releases. End Customers recasting from a Software Support + Upgrade to a Support Advantage agreement that did not upgrade during the agreement term are eligible for Upgrade Advantage. End Customers may also retain their Upgrade Advantage coverage, at then current terms and conditions, when renewing a current Support Advantage + Upgrade Advantage agreement.
- As a part of Upgrade Advantage, the End Customer may register at <http://support.avaya.com> to receive notices when new Major Releases of Avaya-provided software become commercially available.
- During the term of the Upgrade Advantage subscription, the End Customer:
 - Must maintain active Essential or Preferred Co-Delivery Support coverage, as applicable based on product release.
 - Will have access to the features and functions of each new Major Release at no additional charge beyond the subscription fee.
 - Will receive instructions on how to download each new Major Release, where applicable.
- All associated upgrades of Major Releases must be scheduled and implemented during the coverage term of the Upgrade Advantage subscription.

- Avaya will not require the End Customer to upgrade their software unless Avaya has advised the Partner that corrections to certain problems may only be available through a more current release of software.
- Billing for the Upgrade Advantage option to the Partner will occur even if the End Customer fails to exercise its right to upgrade before the end of the Upgrade Advantage coverage term.

A. Products Requiring Upgrade Advantage Attach

Upgrade Advantage is required to be purchased on all Major Releases of products launching on or after August 10, 2015, when Upgrade Advantage is available.

Upgrade Advantage is required to be purchased on the following products regardless of Major Release date:

- Communications as a Service (CaaS) solutions, such as UCaaS (Unified Communications as a Service) and CCaaS (Contact Center as a Service).
- Applications supporting the Fabric Networking solutions. Upgrade Advantage is not required, nor applicable, to any hardware within the Fabric Networking solution, as the operating system is an inherent part of the solution.
- Customer Service Editions (CSE).
- Workforce Optimization (WFO).

B. Exclusions from Upgrade Advantage

The Upgrade Advantage option only applies when upgrading a covered software product from one Major Release to a subsequent Major Release. It does not include:

- Design support, installation, professional services or other service charges.
- Any provisioning of the software.
- Any and all equipment costs.
- Upgrading of components located in an End Customer "crash kit" or maintenance spared equipment.
- Hardware changes required to comply with minimum vintage requirements.
- Project Management costs.
- Upgrades to any and all adjunct software applications.
- New feature functionality or capacity requirements associated with additional software licensing.
- Migration of software application to a new or different hardware platform.

6. Exclusions from Essential and Preferred Co-Delivery Support

A. Out of Scope Services Supported With Maintenance Per Incident Time and Material (T/M)

Avaya provides "Maintenance Per Incident T/M" support for out of scope maintenance related activities not included in an Avaya Maintenance Contract. Support is only available to Avaya End Customers and Partner End Customers who have support coverage on the product requiring support. Services provided not directly attributable to a fault in Supported Products that end up being a result of an out of scope activity defined below are billable per the current hourly rate structure. Billable time starts from the time the End Customer calls or a web ticket is picked up, to the time the case is closed, for support provided for items that would fall outside of what maintenance or warranty would entitle.

Examples of support that would fall outside of maintenance coverage that would be provided under Maintenance Per Incident Time and Material (T/M) would be as follows:

- Programming, administration or configuration changes
- Third party integration or applications
- Acts of nature

- End Customer network outages and/or service providers issues
- Avaya installation of End Customer or partner installable patches
- Support that ends up being related to a product not under warranty or maintenance coverage
- Parts or onsite support for Remote Only or Remote + Parts contracts
- Products that are improperly certified by a party other than Avaya

B. Additional Exclusions

The following exclusions apply to Essential and Preferred Co-Delivery Support coverage:

- Supported Products that have not been designated by Avaya as eligible for Co-Delivery Support. Avaya reserves the right to add or remove eligible Supported Products at its sole discretion.
- Support for any service request reported directly by the End Customer.
- If the Partner's requirements necessitate an on-site technician, Avaya will dispatch a field technician to the End Customer's site (where geographically available), subject to the Partner's express approval of time and material charges using Avaya's then current Maintenance Per Incident rates, where available and appropriate. For Communications as a Service (CaaS) offers, Avaya Authorized Partners purchasing a Partner Hosted - Customer Experience Management Solution via the Support Advantage Co-Delivery offer and not selecting Parts or Onsite at Point of Sale will be accountable for all maintenance parts replacement support. Avaya will have no parts and/or on-site support liability to the partner or End Customer for the Hosted cloud solution
- Any customized system features, configuration changes or reports.
- The capture of off-board alarms for trunk interfaces (Excluded from Essential Co-Delivery Support, but not excluded from Preferred Co-Delivery Support).
- Interfacing directly with the Partner's or End Customer's network carrier or service provider.
- Support for the Secure Access Link (SAL) Policy Server software beyond general usability questions.
- Implementation, installation, and customization services may be required and may be provided by Avaya at an additional cost and are outside the scope of coverage provided in this document.
- The provision or installation of hardware upgrades or reprogramming to add additional capabilities or functionality to the Supported Products.
- Customization of, or labor to install, a software application on the hardware.
- Media or hardware replacement for damages or malfunctions caused by: (1) actions of non-Avaya personnel or the attachment of products not supported by Avaya; (2) failure to follow manufacturer's installation, operation, or maintenance instructions; (3) failure of products not serviced under this Service Description; (4) abuse, misuse, or negligent acts of non-Avaya personnel; (5) repair to products if the End Customer, Partner, End Customer-authorized or Partner-authorized party modified the product in any manner, shall not be covered.
- Services and all troubleshooting support not directly attributable to a fault in Supported Products (including faults in the Partner or End Customer's own network or the public network).
- Services that cannot be provided due to the Partner's failure to fulfill the Partner responsibilities detailed in the Partner Responsibilities section of this Service Description.
- Services that cannot be provided due to the Partner's or the End Customer's failure to fulfill the End Customer responsibilities detailed in the Responsibility Matrix section of this Service Description.

7. Responsibility Matrix

The following table outlines the roles and responsibilities of the involved parties.

A. Implementation

Responsibility	End Customer	Partner	Avaya
Ensure the power and grounding of Avaya products meet the product specifications		X	
Provide the proper environment for the Supported Products, including electrical and telecommunications connections as specified by Avaya.		X	
Follow all of the Avaya installation, operation, and maintenance instructions.		X	
Ensure registration of Avaya Supported Products is completed as defined by Avaya's most recent registration process and accurately maintained after system changes.		X	
Provide Avaya with remote system access via an Avaya-approved connectivity method as provided in this Service Description.		X	
Use the "Avaya Products Security Handbook" available at http://support.avaya.com along with the individual product documentation to secure remote access capabilities.	X	X	
Install, maintain and manage the Secure Access Policy Server including administration of access policies if the End Customer opts to use Secure Access Policy Server (Preferred Co-Delivery Support only).	X		
Maintain accreditations and authorizations as defined in this Service Description.		X	

**B. Post-Implementation Support**

Service requests from non-accredited personnel may result in delayed support and will be billed time and material charges using Avaya's then current Maintenance Per Incident Rates.

Responsibility	End Customer	Partner	Avaya
Define internal procedures to maintain control of the original software media including creation of backup copies.		X	
Maintain a procedure external to the software program(s) and host computer for backup and reconstruction of lost or altered files, data or program to the extent the End Customer deems necessary.		X	
Notify Avaya of any moves of Supported Products covered by this Service Description.		X	
Access and use web-based services available at http://support.avaya.com prior to submitting a service request to Avaya		X	
Utilize Support Web site tools such as Create Service Request, Check Case Status, Request Parts Replacement, Administer End Customer Site Contacts, Download Software, and Check upgrade Entitlements		X	
Contact Avaya for entitled support.		X ¹	
Maintain accreditations and authorizations as defined in this Service Description.		X	
Operate and maintain a Support Operations Center to receive service requests from the End Customer during business hours and out of hours.		X	
Utilize the co-delivery password provided by the Partner's Avaya channel account manager for only those Supported Products for which the Partner is co-delivery authorized when configuring the order in Avaya Solution Designer.		X	
Monitor alarms generated by Supported Products and carry out instructions available at http://support.avaya.com to resolve those alarms (Essential Support only). If the Partner requests support from Avaya but has made no attempt to resolve the alarm or if another fault has resulted from an unresolved alarm, the Partner may be charged time and material charges using Avaya's then current Maintenance per Incident rates.		X	
Authorize Avaya to utilize the Partner's or End Customer's global network to deliver alarms to the Avaya Service Center, if necessary (Preferred Co-Delivery Support only).	X		

Responsibility	End Customer	Partner	Avaya
Provide the Avaya Service Center with the following information when reporting a trouble: Avaya-provided End Customer Sold To Number, End Customer contact information, Description and urgency of the problem, as well as system passwords and equipment access control features required for Avaya to provide remote support.		X	
Upon receipt of an Avaya service request, perform troubleshooting and diagnostics via remote connection to isolate software and hardware-related problems and determine whether a Supported Product is working in accordance with Avaya's standard and published documentation, including all associated application and configuration notes.			X
Onsite troubleshooting as required.		X	
Upon receipt of an Avaya service request, isolation and resolution of all reproducible problems or anomalies resulting when Avaya installation or configuration instructions were used, as long as the configuration errors are specific to unaltered Avaya software product.			X
Upon receipt of an Avaya service request, identification and resolution of any inconsistencies or errors in Avaya product documentation.			X
Request advance replacement of parts only for the eligible Supported Products.		X	
Unless onsite parts replacement coverage by Avaya was purchased: Replace defective part. Return faulty parts to Avaya according to the guidelines in the Parts Coverage section of this Service Description.		X	
For onsite parts replacement coverage, provide Avaya with onsite access to the Supported Products during Coverage Hours. 'Access' includes physical access as well as network access to Supported Products. Additional charges may apply if an Avaya field technician is scheduled to service equipment and the technician must wait after arriving onsite for equipment to become available for servicing.	X	X	
Schedule availability of authorized staff that will have the authority to make decisions on Partner's behalf concerning the maintenance and service support of systems. The authorized staff is responsible to: • Approve any associated maintenance per incident charges • Provide and approve all purchase orders for maintenance per incident invoices; • Permit Avaya to conduct an equipment certification, serviceability, and inventory check if required by Avaya prior to service assumption.		X	

Responsibility	End Customer	Partner	Avaya
Determine and schedule Major Release Upgrades including authorizing End Customer contacts eligible to download the software (Upgrade Advantage only).	X		
Maintain the system at a current support release (N). Or one Major Release prior (N -1).	X	X	
Maintain Avaya products at the most current Service Pack ("SP") and Firmware ("FW") update level	X	X	
Ensure registration of Avaya Supported Products is updated as defined by Avaya's most recent registration process, including the removal of deactivated equipment		X	
Notify the Partner of any software/hardware upgrades, updates to, or additions of any new software and/or applications to the existing systems, if such upgrades and software/applications were purchased from a vendor other than Avaya.	X		
Notify Avaya of any software/hardware upgrades, updates to, or additions of any new software and/or applications to the existing systems, if such upgrades and software/applications were purchased from a vendor other than Avaya.		X	
Perform network audits on their network to ensure it is within Quality of Service specifications (e.g. packet loss, jitter, packet latency, etc.) to maintain voice and data services, especially after making any changes to their network.		X	
Advise Avaya of all changes that affect the Partner's or End Customer's network configurations and operations of Supported Products which may include IP addresses, subnet assignments, topology, server configuration or changes to firewalls that impact Avaya's ability to monitor or remotely access the Supported Products.		X	
Register for case status alerts to receive notification of unresolved EXPERT Systems SM alarms and off-board alarms (Preferred Co-Delivery Support only).		X	

¹For Co-Delivery contracts:

- Any service request submitted directly to Avaya by the End Customer will be referred to the Partner. If the End Customer continues to bypass the Partner's Support Operations Center and request support from Avaya, the Partner will be billed time and material charges using Avaya's then current Maintenance Per Incident rates to perform this referral.
- The Partner's ACS/ACSS accredited resource may contact the Avaya Backbone (Tier III) organization only after their efforts have been completed to troubleshoot, diagnose, and isolate software and hardware related problems per the above Responsibilities matrix, and when the results of that effort are documented in the Avaya Partner Case Diagnostic Template.
- Service requests will only be accepted by Avaya when submitted by the credentialed ACS/ACSS for that particular Supported Product. Where ACS/ACSS-level accreditation is not applicable to the relevant Supported Product for which support is being requested, an "Install and Maintain" Product Authorization is required.
- Service requests from non-accredited Partner personnel may result in delayed support and will be billed time and material charges using Avaya's then current Maintenance Per Incident rates.

8. General

A. Partner Eligibility

The Partner agrees to adhere to all Avaya policies, including, without limitation, Avaya Connect, applicable to the Co-Delivery Support offer published on the Avaya Partner portal.

If the Partner does not meet the requirements set out in this Service Description, or does not obtain or maintain the necessary eligibility requirements, one or more of the following may apply (at Avaya's sole discretion):

- Cancellation of the co-delivery order and requirement to reissue support under the Essential Support or Preferred Support offers (and at such applicable rate);
- Avaya billing the then current applicable re-initiation fee;
- Avaya refusing to accept any subsequent orders for co-delivery support.

B. Audit Rights

Avaya may audit the Partner's co-delivery cases and the resources used in performing their obligations under this Co-Delivery Support offer. It is the responsibility of the Partner to ensure their associates are aware of and understand the Partner's responsibilities and obligations established within this Service Description.

C. Billing and Contract Start Date

Support will commence and be chargeable as follows:

- Support will commence on the first day of the second month following Supported Products Order Closure (Point of Sale).
- Support for upgrades of existing products already under SA support coverage, including licenses, will commence on the first day of the second month following the closure of the upgrade order.
- Support for increases in the quantity of existing products already under SA support coverage (ex. Adding 10 more user licenses) will commence on the first day of the month following the closure of the new order.

D. True Up

Avaya may perform true ups to determine if additional Software Licenses have been added to Supported Products and bill for the additional licenses.

For CaaS solutions, Avaya will utilize the CaaS solution capabilities (ex. Avaya Contact Center Control Manager (ACCCM)) to perform monthly peak usage true ups (one month in arrears) to identify Software Licenses in use. This information will be used for monthly Avaya invoicing. Minimal invoicing thresholds apply per the CaaS offers.

E. Renewal of Coverage

Support Advantage coverage for Supported Products will automatically renew at the end of the initial term of coverage and any renewal term under Avaya's then current Service Description applicable to Supported Products, unless either party provides written notice of its intent not to renew such coverage at least 30 days prior to the renewal date. If the Customer is an Avaya authorized reseller or distributor, renewals will not be automatic unless auto-renewal is available from Avaya. Auto-renewal for authorized resellers and distributors is not available in all regions. Support Advantage 1-year and multi-year support agreements will renew at then-current rates and for a similar term length as the expiring agreement. Where auto-renew is available, multi-year support agreements will automatically renew as a 3-year or 5-year support agreement, as applicable.

Upgrade Advantage 1-year software upgrade subscription agreement renewal rates for the first renewal period (the second year of Upgrade Advantage coverage) will not be more than 5% ("COLA adjustment") higher than the rate for the initial year of coverage for the same Supported Products.

Upgrade Advantage multi-year software upgrade subscription agreements will renew at then-current rates.

F. Re-initiation of Lapsed Coverage

A re-initiation fee will apply to reinstate support when coverage has lapsed. The applicable re-initiation fee will be invoiced and payable with the first billing of the new coverage. For details on the fees, refer to the [Support Re-initiation Policy](#).

Note:

- 1) The re-initiation fee is subject to change at any time.
- 2) Re-initiation fees are not discountable.
- 3) Time and Materials (T&M) support is not available if a support contract has lapsed.
- 4) Support and upgrade entitlements are not available the day after the expiration date of the support contract.

G. Certification

Supported Products that are newly purchased, used or have not been continuously covered by Avaya support are all eligible for coverage; however, certification of the Supported Products may be required. Certification ensures that Supported Products are properly installed and in good working order.

Certification of Supported Products may be required when:

- 1) Supported Products classified by Avaya as "not End Customer- nstallable" were installed by a party other than Avaya, an authorized Partner or a manufacturer or manufacturer-authorized service provider (for non-Avaya products).
- 2) Avaya support coverage on Supported Products has lapsed for more than ninety (90) days or was never initiated.

Certification is not included in this Service Description and will be charged at Avaya's then current Maintenance Per Incident rates if Supported Products are not added under Support Advantage coverage within 45 days of certification completion. Avaya does not guarantee Supported Products subject to certification will be certified. If Supported Products are found to be ineligible for certification, the End Customer is responsible for corrections required to make Supported Products eligible. A list of Support Advantage Supported Products is located at http://support.avaya.com/support_advantage.

H. Coverage Required for Software on a Single Application or Application Bundle

All licenses for a single application on a single server must have the same level of coverage (i.e., Essential Co-Delivery Support or Preferred Co-Delivery Support). If the Partner is found to have varying levels of coverage on the licenses for a single application or for a single server, licenses covered at a lower level of coverage will be brought up to the higher level of coverage and Avaya shall bill the Partner for the incremental charge, calculated to be co-terminus with existing coverage.

I. Coverage Required for Avaya Integrated Solutions

All Avaya solutions that are integrated with other Avaya solutions (e.g., Communication Manager integrated with Avaya Call Center) can be covered by different levels of Support Advantage coverage but must have the same delivery option (either all Avaya Delivery or all Co-Delivery). All integrated solutions must be covered by at least Essential Co-Delivery Support. If the Partner is found to have fragmented coverage whereby one solution is not covered by at least Essential Co-Delivery Support, the Partner will be notified of the coverage requirements. In the event that coverage is not initiated on the uncovered solution(s) within ninety (90) days of such notification, support on the covered solution will be treated as though canceled by the Partner as per the "Termination of Support" provisions set forth below and the cancellation fees set forth below will apply. A list of integrated solutions is located at http://support.avaya.com/support_advantage.

J. Coverage Required for Avaya Independent Products or Applications at Same Site

All Avaya Supported Products at a single location that are not integrated with each other can be covered by different levels of Support Advantage coverage (e.g., Communications Manager with

Essential Co-Delivery Support and Modular Messaging with Preferred Co-Delivery Support) and with different delivery options.

K. Coverage on Lifetime Warranty Products

When Support Advantage is purchased on a product which already includes a lifetime warranty, the terms of this service agreement supersede the warranty terms during the duration of the support agreement. Upon expiration of the support agreement, the terms of the lifetime warranty will govern. It is recommended that End Customers choose to cover their whole network with Support Advantage for fabric allowing them seamless access to tech support and choice of parts and onsite options.

L. Dedicated Access

As an entitlement to the End Customer's product purchase, Avaya will provide the Secure Access Link (SAL) Gateway in order to provide remote, secure access to the End Customer's systems for support. The Partner/End Customer should have the SAL Gateway installed no later than the delivery date of the Avaya-installed systems/devices or prior to the commencement of support in all other situations, so that Avaya can perform the services as described. The IP address must be provided to Avaya by the Partner as soon as it is available. The Policy set by the End Customer must allow outbound connection from the End Customer's location back to the Avaya Service Center in order for Avaya to provide remote support on a 24x7 basis or there may be degradation to the service and support the End Customer receives from Avaya. The Avaya support obligations under this document are contingent on the provision of remote access.

If an Avaya-approved standard remote connectivity method is not approved and implemented by the End Customer, Avaya is excused from any liability and contractual performance standards when using non-standard connectivity methods. If using non-standard connectivity methods, Avaya may not be able to provide support and Avaya may charge time and material charges using Avaya's then current Per Incident Maintenance rates if there is additional cost to Avaya in providing support to the End Customer.

M. Termination of Support

The Partner may terminate Services at any time during the current Term upon at least 30 days written notice and shall be subject to payment of: (i) Support Advantage charges up to and including the date of termination, and (ii) cancellation fees. Cancellation fees shall be equal to the Support Advantage charges that would otherwise be payable for the affected Support Advantage coverage for the remainder of the year of the Term in effect as of the effective date of the termination. The parties agree that the cancellation fees are liquidated damages comprising a reasonable estimate of Avaya's damages in the event of the Partner's early termination and are not a penalty. Unless already paid, the cancellation fees shall be immediately due and payable upon cancellation.

Cancellation fees will be calculated as follows for a 1 year agreement:

- Cancel in Year 1: Full amount of 1st year annual fees to be paid in full

Cancellation fees will be calculated as follows for a 3 year agreement:

- Cancel in Year 1: Full amount of 1st annual fees to be paid in full
- Cancel in Year 2: Full amount of 1st , 2nd year annual fees to be paid in full
- Cancel in Year 3: Full amount of 1st, 2nd and 3rd year annual fees to be paid in full.

Cancellation fees will be calculated as follows for a 5 year agreement:

- Cancel in Year 1: Full amount of 1st year fees to be paid in full
- Cancel in Year 2: Full amount of 1st and 2nd year annual fees to be paid in full
- Cancel in Year 3: Full amount of 1st, 2nd and 3rd year annual fees to be paid in full.
- Cancel in Year 4: Full amount of 1st, 2nd, 3rd and 4th year annual fees to be paid in full
- Cancel in Year 5: Full amount of 1st, 2nd, 3rd, 4th and 5th year annual fees to be paid in full

A recast from Preferred Support to Essential Support will result in cancellation fees on the Preferred Support agreement.

When a Partner recasts the existing SSI or Utility support coverage to Support Advantage and they have prepaid for their existing support coverage, then Avaya will credit any prepaid amounts.

All refunds for prepayments on contracts that are terminated other than due to Avaya's breach will be provided as a credit.

N. Extended Services Support

Periodically, Avaya or a third party manufacturer may declare "end of life," "end of service," "end of support," "end of manufacturer support", "manufacture discontinued" or similar designation ("End of Support") for certain Supported Products. When this designation occurs, the subsequent support period is referred to as "Extended Services Support". Refer to the Avaya Product Lifecycle Policy for further details: <http://support.avaya.com/css/P8/documents/100081098>

The Partner or End Customer may access Avaya's user support website (<http://support.avaya.com>, or such successor site as designated by Avaya) for End of Support notifications, and to register an e-mail address to receive e-mail notifications of the same, when published by Avaya. For Products subject to End of Support, Avaya will continue to provide the support described in this Service Description, except for the End of Support exceptions listed herein.

Avaya will make commercially reasonable efforts to provide the same level of support described in this document, with the following exceptions:

- Product Engineering support and new maintenance updates, such as Product Correction Notices (PCNs), "bug fixes" and interoperability/usability solutions, are no longer provided.
- Certain faults or functionality issues may not be resolvable or reproducible without upgrading the system to a version currently supported by the manufacturer. The Customer will be responsible for the costs associated with any upgrades.
- Access to and availability of support expertise on some Products may decline over time
- The Customer may experience delays in response or repair intervals.
- Avaya will endeavor to reserve its spare parts inventory to support Extended Services Support customers. However, since replacement parts may no longer be manufactured, some Products may become increasingly scarce over time. This scarcity may affect response and repair times, and certain Products may require replacement with more current substitute Products, whether new or refurbished.
- It may be necessary to purchase an upgrade to resolve a trouble if replacement parts or substitute Products are not available, or if the substitute Product is incompatible with a customer's current Product. The risk of this situation will depend on the Product's type and age. Avaya will endeavor to highlight upcoming shortages via ongoing "Services Support Notices" posted at support.avaya.com.
- The extended services support period may vary based on product availability, demand and other business factors, at Avaya's discretion.

Extended Services Support is provided only to the Avaya Partner purchasing support services (i.e., Support Advantage) for the affected Supported Products

A list of products that are currently supported is available from Avaya at http://support.avaya.com/Support_Advantage.

Appendix A: Definitions

Avaya Backbone (Tier III): Avaya remote engineering resources who receive escalations from the Partner's Support Operations Center and troubleshoot complex issues for software and (where applicable) hardware Supported Products.

Avaya Certified Specialist (ACS): The Avaya training, and subsequent certification, the Partner undertakes to maintain individual Supported Products. The Partner's associates who have ACS accreditation are authorized to escalate troubles to the Avaya Backbone (Tier III) if they can't resolve the trouble at the Partner's Support Operations Center.

Avaya Certified Solution Specialist (ACSS): The Avaya training, and subsequent certification, the Partner undertakes to maintain solutions for Supported Products. The Partner's associates who have ACSS accreditation are authorized to escalate troubles to the Avaya Backbone (Tier III) if they can't resolve the trouble at the Partner's Support Operations Center.

Business Severity Categories:

Outage Service Request: A real-time service or product outage in a production system that could require drastic measures to restore (such as a system restart), severely downgrades service capacity, or results in a loss of service for a significant number of end users. This situation severely impacts productivity or creates a significant financial impact or presents a risk for loss of human life. NOTE: requires End Customer to commit to 24x7 dedicated resource until restoration/workaround.

Severe Business Impact Service Request: Severe degradation of production system or service performance for which there is no active workaround and problem severely impacts service quality or the control or the operational effectiveness of the product affects a significant number of users and creates significant productivity or financial impact. This situation materially obstructs the firm's ability to deliver goods or services Also includes automated product alarms which meet the Severe Business Impact criteria as noted above. NOTE: requires End Customer to commit to a 24x7 resource (if so entitled, or 8x5 if not) until restoration/workaround.

Business Impact Service Request: Significant degradation to the system's operation, maintenance or administration: requires attention needed to mitigate a material or potential effect on system performance, the End Customers or on the business. Also includes automated product alarms which meet the Business Impact criteria as noted above.

Non-Service Impact Service Request: A question or problem that does not immediately impair the functioning of the product or system and which does not materially affect service to End Customers. If related to a problem, the problem has a tolerable workaround. Includes consultation, records corrections and administrative issues.

Class 1 Product Correction Notice: A major system failure due to product non-conformance with high probability of potential loss of system use or functionality and/or loss of End Customer information.

Class 2 Product Correction Notice: A moderate system failure with moderate probability of loss of system use or functionality and/or loss of End Customer information.

Class 3 Product Correction Notice: A minor system failure with low probability of potential loss of system use of functionality and/or loss of End Customer information.

Commercial Agreement: Means, as the context requires, a Reseller Agreement, a Value Added Reseller Agreement, a Distributor Agreement, a Systems Integrator or Service Provider Agreement.

Communications as a Service (CaaS): Cloud Enablement offers such as UCaaS (Unified Communications as a Service) and CCaaS (Contact Center as a Service)

End Customer: Means the end customer purchasing support services directly from the Partner (or the Partner purchasing service for its own internal use) for the Supported Products.

Feature Pack: A downloadable, quick and easy to install, software deliverable containing one or more features that may be enabled individually and/or optionally licensed. May also contain maintenance correction. Feature Packs are typically designated as a change in the digit to the right of the second decimal point (e.g., n.y.[z]).

Federated Model: The Partner's Concentrator Server reports back to the Avaya Service Center.

Implement and Maintain Product Authorization (IMPA): The Avaya training, and subsequent certification, the Partner undertakes to implement and maintain products for which they are certified to install and maintain. The Partner's associates who are IMPA certified are authorized to escalate troubles to the Avaya Backbone (Tier III) if the troubles can't be resolved at the Partner's Support Operations Center. Some products also require the Partner's associates to be trained as Avaya Certified Specialists (ACS).

Maintenance Per Incident: Time and material (T&M) support available for out-of-scope or break-fix related activity not included in this Service Description. Support may be remote and/or onsite based on the product being supported and the time of day.

Major Release: A major change to the software that introduces new optional features and functionality. Major Releases are typically designated as a change in the digit(s) to the left of the first decimal point (e.g., [n].y.z).

Minor Release: A change to the software that introduces a limited amount of new optional features and functionality and/or extension of existing features. Minor Releases are typically designated as a change in the digit to the right of the first decimal point (e.g., n.[y].z).

Order Closure: When an order is booked and closed within Avaya's billing system of record (SAP).

Partner: Means, as the context requires, an authorized Avaya reseller, value added reseller, distributor, service provider or systems integrator partner.

Partner Case Diagnostic Template: The Avaya-defined template that is used by the Partner to document troubleshooting and diagnostic results obtained by the Partner's ACS/ACSS accredited resource. The completed template is submitted by the Partner to Avaya when a service request is submitted for Avaya Backbone (Tier III) support.

Service Description: The Service Description may also be referred to as a Service Agreement Supplement (SAS), Service Description Document (SDD), Statement of Work (SoW), or Channel Service Agreement.

Software Update: Changes in the software that typically provide maintenance correction only. An Update is typically designated as a change in the digit to the right of the second decimal point (e.g., n.y.[z]), representing a re-release of the corrected software version, or an issue(s)-specific correction provided in the form of a patch, super patch, service pack, bug fix, etc.

Standard Business Hours: Monday through Friday (or any other local period of five (5) consecutive working days according to local custom) between the hours of 8:00 a.m. and 5:00 p.m. in the time zone where the Supported Products are located, excluding Avaya observed holidays (a list is available upon request).

Standard Operating Environment: The covered applications, databases and operating systems have been tested and certified by Avaya.

Support Operations Center: Provides Tier I and Tier II support, including the original receipt of a trouble call, the assessment and triage of that call, as well as the first attempt at resolving the trouble. For the Partner Co-Delivery Support offer, the Partner performs this task.

Supported Products: The software and hardware products manufactured by Avaya and included on a service order form. Support for products manufactured by independent third parties (OEM products) may be included as Supported Products under a separate Service Description. These products are often serviced by third parties and the levels of service coverage and response intervals are designated by the third party performing the service. The service levels and response times contained in this document will not apply to these third party products.

Tier I: The Partner's call receipt function that receives incoming calls from End Customers and creates Partner trouble tickets.

Tier II: The Partner's technical resource who troubleshoots issues of simple and moderate complexity for software and (where applicable) hardware Supported Products.

Update: A Product Correction Notice (PCN), minor software or firmware update or service pack.

Upgrade: A Major Release of software.

Title: Network Communication Switches Upgrade - Purchase Order
Contact: Matt Donaldson 916-774-5405 mdonaldson@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.12.

RECOMMENDATION TO COUNCIL

Authorize a purchase order with ConvergeOne, Inc. to purchase Cisco Meraki network switches. The total cost of this purchase order is not to exceed \$320,000.00 in fiscal year 2016/17. This purchase order will be funded through the Citywide Annual Rehab Network Infrastructure Upgrades/Replacement CIP. This purchase piggybacks the National Association of State Procurement Officials (NASPO) competitively bid contract AR233, Addendum for CA #7-14-70-04.

BACKGROUND

A project in FY2016/17 to upgrade the network communication switches in the City's data center. The network switches deployed throughout the rest of the City are between 6 to 10 years old. The age of these network switches increases the likelihood of device failure, which could interrupt network communication services. It also means that they will soon be approaching end-of-life when the vendor will no longer offer support. In addition, the bandwidth capacity of these devices is below what is often required by many of today's network applications. Finally, most of these devices lack power-over-ethernet (POE) capability, which is often required by current telecommunication and video solutions. Lack of POE capability is a barrier to implementing newer telecommunication and video solutions.

Upgrading these network switches will not only resolve these issues but it will also provide the City with a solution that is much easier to manage, significantly reducing the total cost-of-ownership. Authorization of this purchase order will fund the first phase of the Campus Switch Upgrade project. The second and final phase will take place in FY2017/18.

FISCAL IMPACT

Total cost of this purchase order is not to exceed \$320,000 in fiscal year 2016/17. Funding will come from the Citywide Annual Rehab Network Infrastructure Upgrades/Replacement CIP. Total cost of this service agreement is not to exceed \$320,000 in fiscal year 2016/17. Funding will come from the Citywide Annual Rehab Network Infrastructure Upgrades/Replacement CIP.

ECONOMIC DEVELOPMENT / JOBS CREATED

No jobs will be created by this purchase order.

ENVIRONMENTAL REVIEW

The California Environmental Review Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines 15061 (b)(3)).

Respectfully Submitted,

Matt Donaldson, IT Network Infrastructure Program Manager

Hong Sae, Chief Information Officer

COUNCIL COMMUNICATION

CC #: 8558
File #: 0203-05

Title: Radio Antenna System for 316 Vernon Street Building - Service Agreement
Contact: Matt Donaldson 916-774-5405 mdonaldson@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.13.

RECOMMENDATION TO COUNCIL

Staff recommends Council approve the service agreement with NRCI to install a radio antenna system at 316 Vernon and adopt a resolution authorizing the City Manager to sign it. The cost of this agreement is \$35,000.00.

BACKGROUND

With the sale of the City's building at 401 Oak Street to University Development Foundation, all of the City's technological infrastructure needs to be moved to other locations. Two applications used by the Parks department utilize a radio and antennae that is installed at 401 Oak: Calsense and Streetscapes. The radio will be moved to 316 Vernon and, consequently, a new antennae system needs to be installed at this location. The City issued the "316 Vernon Antenna System RFP" on February 3, 2017. NRCI submitted a proposal that is being recommended by staff.

FISCAL IMPACT

The total cost for this Service Agreement is \$35,000.00. Funding is included in the 316 Vernon Building Construction fund.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable. There are no jobs created by this agreement.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Consulting does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Title: Computers and Technology Equipment - Purchase Orders
Contact: Michael Sinor 916-774-5183 msinor@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.14.

RECOMMENDATION TO COUNCIL

Staff recommends City Council authorize the Information Technology Department to purchase computers and technology equipment from CDW Technologies, LLC using the National IPA contract #130733 and National Joint Powers Association (NJPA) contract #100614-CDW competitively bid contracts. The estimated total for fiscal year 2017/18 is \$575,000, not to exceed budgeted amounts and the total for fiscal year 2018/19 is \$575,000, pending Council approval of the budget.

BACKGROUND

IT maintains over 1,300 computers, 350 servers, 250 terabytes of data storage and 185 network switches across the City to support important business functions. Regular and prompt replacement of aging computers and technology equipment is critical to ensure the effective and efficient operation of City business.

Staff recommends City Council authorize the Information Technology Department to purchase computers and technology equipment from CDW Technologies, LLC using the National IPA contract #130733 and National Joint Powers Association (NJPA) contract #100614-CDW competitively bid contracts.

Staff would like to utilize both piggyback contracts to obtain the most cost-effective pricing available for the City. Each contract has expiration dates for pricing and staff recommends utilizing the National IPA contract through 7/1/18, and utilizing the NJPA contract through 7/1/19, pending Council approval of the budget.

FISCAL IMPACT

Total estimated cost in FY2017/18 is \$575,000, included in the IT budget and other departmental budgets. Total estimated cost in FY2018/19 is \$575,000, pending Council approval of the budget.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b) (3). These technology purchases do not include the potential for a significant environmental effect, and therefore are not subject to CEQA.

Respectfully Submitted,

Michael Sinor - IT Divisional Manager

Hong Sae - Chief Information Officer

Rob Jensen, City Manager

Description

NJPA Contract

NIPA Contract

Form C**EXCEPTIONS TO PROPOSAL, TERMS, CONDITIONS
AND SOLUTIONS REQUEST**Company Name: CDW Government LLCNote: **Original must be signed** and inserted in the inside front cover pouch.

Any exceptions to the Terms, Conditions, Specifications, or Proposal Forms contained herein shall be noted in writing and included with the proposal submittal. Proposer acknowledges that the exceptions listed may or may not be accepted by NJPA and may or may not be included in the final contract. NJPA may clarify exceptions listed here and document the results of those clarifications in the appropriate section below.

Section/page	Term, Condition, or Specification	Exception	NJPA ACCEPTS
3	J. TOTAL COST OF ACQUISITION The Total Cost of Acquisition for the equipment/products and related services being proposed is the cost of the proposed equipment/products and related services delivered and operational for its intended purpose in the end-user's location.	For section J, please remove the words, "for its intended purpose".	NJPA Accepts
7	3.23 Sole Source of Responsibility- NJPA desires a "Sole Source of Responsibility" Vendor. This means the Vendor will take sole responsibility for the performance of delivered equipment/products/ services.	CDW•G does not manufacture materials nor is it the provider of warranty support services. CDW•G is only selling commercial off-the-shelf products. As such, CDW•G does not believe this term applies to our offering and request its removal. All warranties reside with the manufacturer of the items, and CDW•G will assign its warranty rights to the extent allowable. NJPA and NJPA Members must look to either the manufacturer or publisher of the items and the third party service provider of the support services (as applicable) to address any performance and associated responsibility. CDW•G allows returns based on the policies of the original product manufacturer. Software is not returnable if the packaging has been opened. If software was distributed electronically, it is not returnable if the licenses were downloaded. Your dedicated CDW•G account manager can provide further details. For any on-site services performed under CDW•G's Statement of Work ("SOW Services"), CDW•G offers a standard warranty for performance/re-performance or a refund after receiving notice of any non-conformities within a defined period after original performance. CDW•G can agree to defend NJPA and NJPA Members for third party claims for death, bodily injury or damage to tangible personal property during the performance of SOW services that's subject to an approved and appropriate dollar cap and limited to direct damages.	NJPA Accepts
7	3.23.2 Vendor use of sub-contractors in sourcing or delivering equipment/ product/services: NJPA desires a single source of responsibility for equipment/ products and services proposed. Proposers are assumed to have sub-contractor relationships with all organizations and individuals whom are external to the Proposer and are involved in providing or delivering the equipment/ products/services being proposed. Vendor assumes all responsibility for the equipment/products/services and actions of any	Please delete in accordance with CDW•G's exception to section 3.23, as noted above.	NJPA Accepts

	such Sub-Contractor.		
9	3.31 Industry Standards: Except as contained herein, the specifications or solutions for this RFP shall be those accepted guidelines set forth by the TECHNOLOGY SOLUTIONS WITH RELATED EQUIPMENT AND ACCESSORIES industry, as they are generally understood and accepted within that industry across the nation. Submitted products/equipment, related services, and their warranties and assurances are required to meet and/or exceed all current, traditional and anticipated needs and requirements of NJPA and its Members.	Please delete in accordance with CDW•G's exception to section 3.23, as noted above.	NJPA Accepts
9	3.35 Warranty: The Proposer warrants that all products, equipment, supplies, and services delivered under this Contract shall be covered by the industry standard or better warranty. All products and equipment should carry a minimum industry standard manufacturer's warranty that includes materials and labor. The Proposer has the primary responsibility to submit product specific warranty as required and accepted by industry standards. Dealer/Distributors agree to assist the purchaser in reaching a solution in a dispute over warranty's terms with the manufacturer. Any manufacturer's warranty which is effective past the expiration of the warranty will be passed on to the NJPA member. Failure to submit a minimum warranty may result in non-award.	<u>Patent/Warranty:</u> The NJPA or NJPA Members understand that the Vendor is not the manufacturer of the products purchased by the NJPA or NJPA Members hereunder and the only warranties offered are those of the manufacturer, not Vendor or its affiliates. In purchasing the products, the NJPA or NJPA Members are relying on the manufacturer's specifications only and is not relying on any statements, specifications, photographs or other illustrations representing the products that may be provided by Vendor or its affiliates. VENDOR AND ITS AFFILIATES HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES EITHER EXPRESS OR IMPLIED, RELATED TO PRODUCTS, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF TITLE, ACCURACY, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WARRANTY OF NON-INFRINGEMENT, OR ANY WARRANTY RELATING TO THIRD PARTY SERVICES. THE DISCLAIMER CONTAINED IN THIS PARAGRAPH DOES NOT AFFECT THE TERMS OF ANY MANUFACTURER'S WARRANTY. The NJPA or NJPA Members expressly waives any claim that it may have against Vendor or its affiliates based on any product liability or infringement of any patent, copyright, trade secret or other intellectual property rights (each a "Claim") with respect to any product and also waives any right to indemnification from Vendor or its affiliates against any such Claim made against the NJPA or NJPA Members by a third party. The NJPA or NJPA Members acknowledge that no employee of Vendor or its affiliates is authorized to make any representation or warranty on behalf of Vendor or any of its affiliates that is not in this Agreement. Vendor will not be responsible for and no liability shall result to Vendor or any of its affiliates for any delays in delivery which result from any circumstances beyond Vendor's reasonable control, including, but not limited to, product unavailability, carrier delays, delays due to fire, severe weather conditions, failure of power, labor problems, acts of war, terrorism, embargo, acts of God or acts or laws of any government or agency. Any shipping dates provided by Vendor and any purported deadlines contained in any other document are estimates only. <u>Services Warranty:</u> Vendor warrants that the SOW Services will be performed in a good and workmanlike manner. The NJPA Member's sole and exclusive remedy with respect to this warranty will be, at the sole option of Seller, to either (a) use its reasonable commercial efforts to reperform any SOW Services not in substantial compliance with this warranty, or (b) refund amounts paid by the NJPA Member related to the portion of the SOW Services not in substantial compliance; provided, in each case, the NJPA Member notifies Vendor in writing within thirty (30) business days after performance of the applicable SOW Services. This warranty is voided if the SOW Services are altered by anyone other than Vendor or any of its affiliates or any of its or their personnel <u>Hold Harmless:</u> Vendor shall indemnify and hold harmless the NJPA or NJPA Members for any damages or losses to the NJPA or NJPA Members arising from Claims. "Claims" are defined as (i) claims brought by a third party for death or	NJPA Accepts

		personal injury to a third party, or (ii) damage to tangible personal property suffered or incurred by the NJPA or NJPA Members allegedly resulting from the grossly negligent or willful misconduct of the Vendor, its employees, agents, contractors, representatives or affiliates. However, notwithstanding the prior sentence, a claim for death or personal injury to a third party or damage to tangible personal property shall not be a Claim.	
9-10	3.36 Additional Warrants: The Proposer warrants all products/equipment and related services furnished hereunder will be free from liens and encumbrances; defects in design, materials, and workmanship; and will conform in all respects to the terms of this RFP including any specifications or standards. In addition, Proposer/ Vendor warrants the products/equipment and related services are suitable for and will perform in accordance with the ordinary use for which they are intended.	For section 3.36, please see Vendor's response in section 3.35 above.	NJPA Accepts
20	5.51 Delivered products/equipment must be properly packaged. Damaged equipment/products will not be accepted, or if the damage is not readily apparent at the time of delivery, the equipment/products shall be returned at no cost to NJPA or NJPA Member. NJPA and NJPA Members reserve the right to inspect the equipment/products at a reasonable time subsequent to delivery where circumstances or conditions prevent effective inspection of the equipment/products at the time of delivery.	Section 5.5.1 shall be governed by Vendor's return policy, as it is specified in Vendor's proposal response.	NJPA Accepts
20	5.53 NJPA reserves the right to declare a breach of Contract if the Vendor intentionally delivers substandard or inferior equipment/products which are not under Contract and described in its paper or electronic price lists or sourced upon request to any member under this Contract. In the event of the delivery of nonconforming equipment/products, NJPA Member will notify the Vendor as soon as possible and the Vendor will replace non-conforming equipment/products with conforming equipment/products acceptable to the NJPA member.	For section 5.5.3, please see Vendor's response in section 3.35 above. shall be governed by Vendor's return policy, as it is specified in Vendor's proposal response.	NJPA Accepts
20	5.54 Throughout the term of the Contract, Proposer agrees to pay for return shipment on equipment/products that arrives in a defective or inoperable condition. Proposer must arrange for the return shipment of damaged equipment/products.	Section 5.5.4 shall be governed by Vendor's return policy, as it is specified in Vendor's proposal response. Your dedicated Vendor account manager can provide further details, and has the ability to work with the NJPA Member, when requested, to pay for returns.	NJPA Accepts
24	G. CERTIFICATE OF INSURANCE 6.21 Vendors shall provide evidence of liability insurance coverage identified below in the form of a Certificate of Insurance or an ACCORD binder form with their proposal. Upon Award issued pursuant to this contract and prior to the execution of any commerce relating to such award, Vendor will be responsible for providing verification, in the form of a Certificate of Insurance identifying the coverage required below and identifying NJPA as a "Certificate Holder." Vendor will be responsible to maintain such insurance coverage at their own expense throughout the term of any contract resulting from this solicitation.	G. CERTIFICATE OF INSURANCE 6.21 Vendors shall provide evidence of liability insurance coverage identified below in the form of a Certificate of Insurance or on an ACCORD binder form with their proposal. Vendor will be responsible to maintain such insurance coverage at their own expense throughout the term of any contract resulting from this solicitation.	NJPA Accepts
25	6.26 Subcontractors: Vendors' certificate(s) shall include all subcontractors as additional insureds under its policies or Vendor shall furnish to NJPA separate certificates for each subcontractor. All coverage for subcontractors shall be subject to the minimum requirements identified above.	6.26 Subcontractors: Vendors' eertificate(s)-general <u>liability coverage</u> shall include all <u>coverage for its</u> subcontractors as additional insureds under its policies or Vendor shall furnish to NJPA separate certificates for each subcontractor. All coverage for subcontractors shall be subject to the minimum requirements identified above.	NJPA Accepts

28	D. AUDITS 7.8 No more than once per calendar year during the Contract term, Vendor may be required to make available to NJPA the invoice reports and/or invoice documents from Vendor pertaining to all invoices sent by Vendor and all payments made by NJPA members for all equipment/products and related services purchased under the awarded Contract. NJPA must provide written notice of exercise of this requirement with no less than fourteen (14) business days' notice. NJPA may employ an independent auditor or NJPA may choose to conduct such audit on its own behalf. Upon approval and after the auditor has executed an appropriate confidentiality agreement, Vendor will permit the auditor to review the relevant Vendor documents. NJPA shall be responsible for paying the auditor's fees. The parties will make every reasonable effort to fairly and equitably resolve discrepancies to the satisfaction of both parties. Vendor agrees that the NJPA may audit their records with a reasonable notice to establish total compliance and to verify prices charged under of the Contract are being met. Vendor agrees to provide verifiable documentation and tracking in a timely manner.	7.8 No more than once per calendar year during the Contract's term, Vendor may be required to make available to NJPA the invoice reports and/or invoice documents from Vendor pertaining to all invoices sent by Vendor and all payments made by NJPA members for all equipment/products and related services purchased under the awarded Contract. PROPOSER ASSURANCE OF COMPLIANCE

Proposal Affidavit Signature Page

PROPOSER'S AFFIDAVIT

The undersigned, representing the persons, firms and corporations joining in the submission of the foregoing proposal (such persons, firms and corporations hereinafter being referred to as the "Proposer"), being duly sworn on his/her oath, states to the best of his/her belief and knowledge:

1. The undersigned certifies the Proposer is submitting their proposal under their true and correct name, the Proposer has been properly originated and legally exists in good standing in its state of residence, that the Proposer possesses, or will possess prior to the delivery of any equipment/products and related services, all applicable licenses necessary for such delivery to NJPA members agencies nationally, and that they are authorized to act on behalf of, and encumber the "Proposer" in this Contract; and
2. To the best of my knowledge, no Proposer or Potential Proposer, nor any person duly representing the same, has directly or indirectly entered into any agreement or arrangement with any other Proposers, Potential Proposers, any official or employee of the NJPA, or any person, firm or corporation under contract with the NJPA in an effort to influence either the offering or non-offering of certain prices, terms, and conditions relating to this RFP which tends to, or does, lessen or destroy free competition of the Contract sought for by this RFP; and
3. The Proposer or any person on his/her behalf, has not agreed, connived or colluded to produce a deceptive show of competition in the manner of the proposal or award of the referenced contract; and
4. Neither the Proposer nor any officer, director, partner, member or associate of the Proposer, nor any of its employees directly involved in obtaining contracts with the NJPA or any subdivision of the NJPA, has been convicted of false pretenses, attempted false pretenses or conspiracy to commit false pretenses, bribery, attempted bribery or conspiracy to bribe under the laws of any state or federal government for acts or omissions after January 1, 1985; and
5. The Proposer has examined and understands the terms, conditions, scope, contract opportunity, specifications request and other documents of this solicitation and that any and all exceptions have been noted in writing and have been included with the proposal submittal; and
6. If awarded a contract, the Proposer will provide the equipment/products and/or services to qualifying members of the NJPA in accordance with the terms, conditions, scope of this RFP, Proposer offered specifications and other documents of this solicitation; and
7. The undersigned, being familiar with and understand the expectations requested and outlined in this RFP under consideration, hereby proposes to deliver through valid requests, Purchase Orders or other acceptable forms ordering and procurement by NJPA Members. Unless otherwise indicated, requested and agreed to on a valid purchase order per this RFP, only new, unused and first quality equipment/products and related services are to be transacted with NJPA Members relating to an awarded contract; and
8. The Proposer has carefully checked the accuracy of all proposed products/equipment and related services and listed total price per unit of purchase in this proposal to include shipping and delivery considerations. In addition, the Proposer accepts all general terms and conditions of this RFP, including all responsibilities of commitment as outlined and proposed; and

9. In submitting this proposal, it is understood that the right is reserved by the NJPA to reject any or all proposals and it is agreed by all parties that this proposal may not be withdrawn during a period of 90 days from the date proposals were opened regarding this RFP; and
10. The Proposer certifies that in performing this Contract they will comply with all applicable provisions of the federal, state, and local laws, regulations, rules, and orders; and
11. The Proposer understands that submitted proposals which are marked "confidential" in their entirety, or those in which a significant portion of the submitted proposal is marked "nonpublic" will not be accepted by NJPA. Pursuant to Minnesota Statute §13.37 only specific parts of the proposal may be labeled a "trade secret." All proposals are nonpublic until the contract is awarded; at which time, both successful and unsuccessful vendors' proposals become public information.
12. The Proposer understands and agrees that NJPA will not be responsible for any information contained within the proposal.
13. By signing below, the Proposer understands it is his or her responsibility as the Vendor to act in protection of labeled information and agree to defend and indemnify NJPA for honoring such designation. Proposer duly realizes failure to so act will constitute a complete waiver and all submitted information will become public information; additionally failure to label any information that is released by NJPA shall constitute a complete waiver of any and all claims for damages caused by the release of the information.

[The rest of this page has been left intentionally blank. Signature page below]

By signing below, Proposer is acknowledging that he or she has read, understands and agrees to comply with the terms and conditions specified above.

PROPOSER QUESTIONNAIRE

Payment Terms, Warranty, Products/Equipment/Services, Pricing and Delivery, Industry Specific

Proposer Name: CDW Government LLC

Questionnaire completed by: Mark Ellis and Larissa Newman

PAYMENT TERMS AND FINANCING OPTIONS

1) Identify your payment terms if applicable. (Net 30, etc.)

Our standard payment terms are Net 30, but we are flexible to our customers' needs. We will work with members to arrange other terms, when necessary and dependent on a few financial factors.

2) Identify any applicable leasing or other financing options as defined herein.

CDW•G's Leasing Team helps members navigate through all the available leasing providers to select the best option to fit the customer's needs. For members with a Master Lease Agreement established, we more than likely have a partnership in place with their provider, or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. We are a recognized force with many of our leasing partners, such as our 2014 HP PartnerOne Financial Services Partner of the Year Award. Often, we are able to leverage our relationship with our partners with more advantageous rates or terms. For Members that have diversity requirements to meet, we can recommend our WBE certified leasing partner, Commonwealth Capital Corporation.

Mark has been working diligently to get NJPA's preferred leasing partner, National Cooperative Leasing (NCL) on-boarded as one of our own leasing partners, to further support Members' financing needs. We are pleased to be able to highlight our partnership with NCL for this next contract reiteration. In response to the RFP leasing requirements, NCL details the options they have available to suit members' varying budgetary requirements. We've also included example documentation in the supplemental attachments.

Examples of such options include Tax Exempt Municipal Leases, Fair Market Value Leases, \$1 Buyout Leases, and customized programs as required by client. National Cooperative Leasing also offers government agencies purchasing on this contract a "Purchase Order Only" program. Under this program agencies merely issue a purchase order with leasing language (provided in attachment) included in the body of purchase order. No lease agreement is necessary. Leasing terms and conditions will be provided and reside in the contract between CDW•G and NJPA.

Additionally, CDW•G and National Cooperative Leasing will also offer member agencies the "FlexPlus" leasing plan. The FlexPlus plan offers agencies a Tax Exempt Municipal Lease plan along with a Technology Refresh Window whereby agencies can upgrade their equipment and walk away from their existing lease during the refresh window period. This plan provides a low monthly or annual cost along with the flexibility to return old technology for new technology.

5.43.1.1: National Cooperative Leasing will offer NJPA member agencies interest rates tied to the existing Libor Rate (Rate Index). The maximum rate to be charged will be Libor plus 7 percent for public agencies who qualify for tax exempt municipal financing. This is a ceiling rate. Rates can and will be lower depending on size of transaction, term

of transaction and risk associated with the transaction as determined by National Cooperative Leasing. Rates for Non-Profit (501 C 3) corporations may have a higher "risk adjusted" rate as determined by National Cooperative Leasing.

5.43.1.2: The index rate being adjusted is Libor.

5.43.1.3: The "Purchase Option" offered will depend upon the program being offered. Fair Market Value leases will contain a purchase option equal to the fair market value of the equipment at the termination of the lease. Tax Exempt Municipal Leases, FlexPlus leases and \$1 buy-out leases will have a purchase option of \$1 at the termination of the lease.

5.43.1.4: The available terms offered will be from 12 months to 84 months.

5.43.2: Lease Servicing Center, Inc. dba National Cooperative Leasing is the leasing provider offered. National Cooperative Leasing, headquartered in Alexandria, Minnesota, is an existing provider of NJPA and has had a Professional Services Agreement with NJPA since 2001.

5.43.2.1: Lease Servicing Center, Inc. dba National Cooperative Leasing
220 22nd Ave East
Suite 106
Alexandria, MN 56308

5.43.2.2: There is no ownership, common ownership, or control between CDW•G and National Cooperative Leasing.

3) Briefly describe your proposed order process for this proposal and contract award. (Note: order process may be modified or refined during an NJPA member's final Contract phase process).

- a. Please specify if you will be including your dealer network in this proposal. If so, please specify how involved they will be. (For example, will he Dealer accept the P.O.?), and how are we to verify the specific dealer is part of your network?**

CDW•G doesn't operate a dealer network the way capital or heavy equipment companies do.

We will be the only party accepting P.O.s and all contract management functions will continue to be handled by Mark and his team. When any of our partners are involved, CDW•G manages the relationship and liability involved. We do ask customers to mutually agree to and sign Statements of Work for all service engagements through CDW•G. This is to ensure we keep Members apprised of the responsibilities, timelines, and progress of the project.

In instances where customers would like to integrate their e-Pro applications with our own, CDW•G will provide the integration assistance. However, the relationship the member has with their e-Pro application vendor is their own, any applicable vendor fees resulting from the integration will be the responsibility of the member.

There are a number of other instances where a member may have an agreement directly with a manufacturer or service partner. Examples include, but not limited to, software licensing agreements, lease agreements, and cloud agreements.

We'll incorporate leasing into our sales team trainings for the contract, so that sales can recognize opportunities where leasing would benefit the members and to be able to speak to the different lease options available.

4) Do you accept the P-card procurement and payment process?

We do accept this form of procurement and payment process. We also accept ghost cards as well.

WARRANTY

5) Describe, in detail, your Manufacture Warranty Program including conditions and requirements to qualify, claims procedure, and overall structure.

CDW•G offers the standard manufacturer's warranty on all of the products which we provide. We actively support members in connecting with the right contact for their warranty coverage and assist them to reach a solution if there is a dispute with the OEM over the warranty terms.

We also offer the following value added services to NJPA members.

- **CDW•G provided 30 day warranty.** CDW•G offers a complimentary 30 day warranty for most products we sell. Once the 30 days have expired, CDW•G's technical support or the NJPA member's dedicated Account Manager assist in requesting the manufacturer warranty service.
- **Certified technician support.** We provide toll-free, email, and on-line chat technical support on all hardware and operating systems for up to two years after purchase from CDW•G. Our technical support technicians are US based, located in Eatontown, New Jersey, responding to about 60 calls a day. All technicians are CompTIA certified; hold, at minimum, A+ and Network+ certifications; and have an average tenure of 13 years. These technicians are available Monday – Friday, 7:00 am – 7:30 pm CST. Their expert assistance results in an average resolution time of 30 minutes for computers, and about 45 minutes of servers and server operating systems. For insight into technical issues members can monitor the frequency and type of technical support requests via their CDW•G Account Center site.
- **Extensive engineering support.** We have over 1,060 service-dedicated coworkers nationwide, aiding in pre- and post-sale questions. They provide assistance to NJPA members by phone, and we also offer on-site support. These experienced and certificated engineers provide consultation with configurations and infrastructure shifts.

If standard warranty does not meet the needs of members, CDW•G offers a breadth of warranty options, repair services, and maintenance agreements to provide the insurance of predictable costs and repair response times that a warranty agreement can provide. Included in our impressive portfolio:

- | | |
|------------------------------------|--------------------------------------|
| • Warranty extensions and upgrades | • Post-sale technical support |
| • Post warranty support | • Product and certification training |
| • Accidental damage protection | • Onsite repair |
| • Maintenance contract agreements | • Help desk services |

The variety of our portfolio allows us to offer effective problem diagnosis and resolution for every member need.

6) Do all warranties cover all products/equipment parts and labor?

The actual warranties will vary by manufacturer, but in general, they do cover all material and labor. We provide details on each warranty to the NJPA member at the time of quote to ensure members make an informed purchase. This information is also available at any time on cdwg.com.

7) Do warranties impose usage limit restrictions?

Warranty usage limits vary by manufacturer. We provide details on each warranty to the NJPA member at the time of quote to ensure members make an informed purchase.

8) Do warranties cover the expense of technicians travel time and mileage to perform warranty repairs?

Warranty coverage of travel time will vary by manufacturer. We provide details on each warranty to the NJPA member at the time of quote to ensure members make an informed purchase.

9) Please list any other limitations or circumstances that would not be covered under your warranty.

Warranty limitations and special circumstances will vary by manufacturer. We provide details on each warranty to the NJPA member at the time of quote to ensure members make an informed purchase.

- 10) Please list any geographic regions of the United States for which you cannot provide a certified technician to perform warranty repairs. How will NJPA Members in these regions be provided service for warranty repair? Warranty repairs are completed based on the warranty coverage. If the warranty was purchased through CDW•G, our Account Teams and Help Desk Coworkers can access warranty coverage information and get the member connected to the right person to assist.

EQUIPMENT/PRODUCT/SERVICES, PRICING, AND DELIVERY

- 11) Provide a general narrative description of the equipment/products and related services you are offering in your proposal.

We are truly technologically diverse, with a product portfolio that includes more than 100,000 products from more than 1,000 brands. We don't purport to offer "the kitchen sink," because we believe that our partner vetting process weeds out risky vendors and products, ultimately helping our clients. Our offerings range from discrete hardware and software products and services to complex integrated solutions that include one or more of these elements. We believe our customers increasingly view technology purchases as integrated solutions rather than discrete product and service categories and we estimate that approximately 51% of our net sales in 2013 came from sales of product categories and services typically associated with solutions. Our hardware products include notebooks/mobile devices (including tablets), network communications, enterprise and data storage, video monitors, printers, desktop computers and servers.

Our software products include application suites, security, virtualization, operating systems, network management and Software as a Service ("SaaS") offerings. We also provide a full suite of value-added-services, which range from basic installation, warranty and repair services to custom configuration, data center and network implementation services, as well as managed services that include Infrastructure as a Service ("IaaS") offerings.

We also offer a variety of integrated solutions, such as:

- **Mobility:** We assist our customers with the selection, procurement, and integration of mobile security software, hardware devices such as smartphones, tablets and notebooks, and cellular wireless activation systems. We also provide mobile device management applications with policy and security management capabilities across a variety of mobile operating systems and platforms.
- **Security:** We assess our customers' security needs and provide them with threat prevention tools in order to protect their networks, servers and applications, such as anti-virus, anti-spam, content filtering, intrusion prevention, firewall and virtual private network services, and network access control. We also design and implement data loss prevention solutions, using data monitoring and encryption across a wide array of devices to ensure the security of customer information, personal employee information, and research and development data.
- **Data Center Optimization:** We help our customers evaluate their data centers for convergence and optimization opportunities. Our data center optimization solutions consist of server virtualization, physical server consolidation, data storage management and energy-efficient power and cooling systems.
- **Cloud Computing:** Cloud computing is a combination of software and computing delivered on demand as a service. We provide SaaS and IaaS solutions that reside in the public cloud, meaning any person or organization interested in porting applications and resources to an external "public" cloud system can do so. Likewise, we provide similar private cloud-based solutions to our customers that prefer to avoid running their infrastructure on a shared public platform but want to obtain the flexibility, scalability and access offered by cloud computing and collaboration.
- **Virtualization:** We design and implement server, storage and desktop virtualization solutions. Virtualization enables our customers to efficiently utilize hardware resources by running multiple, independent, virtual operating systems on a single computer and multiple virtual servers simultaneously on a single server. Virtualization also can separate a desktop environment and associated application software from the hardware device that is used to access it, and provides employees with remote desktop access. Our

specialists assist customers with the steps of implementing virtualization solutions, including evaluating network environments, deploying shared storage options and licensing platform software.

- Collaboration: We provide our customers with communication tools that allow employees to share knowledge, ideas and information among each other and with clients and partners effectively and quickly. Our collaboration solutions unite communications and applications via the integration of products that facilitate the use of multiple enterprise communication methods including email, instant messaging, presence, social media, voice, video, hardware, software, and services. We also host cloud-based collaboration solutions.

We provide value to our customers by simplifying the complexities of technology across design, selection, procurement, integration, and management. Our goal is to have our customers, regardless of their size, view us as an indispensable extension of their IT staffs. We seek to achieve this goal by providing our customers with superior service through our large and experienced sales force and service delivery teams. Our multi-brand offering approach enables us to identify the products or combination of products that best address each customer's specific organizational IT requirements and to evolve our offerings as new technologies develop.

12) Provide a general narrative description of your pricing model identifying how the model works (line item and/or published catalog percentage discount).

Our proposed model is a discount off of our Nationally Advertised Price (NAP), just like the current contract model.

We think this model continues to be a competitive and advantageous price offer for NJPA Members. The dynamic price structure updates automatically as our advertised price updates to market conditions and benchmarking. This ensures that we aren't leaving additional savings on the table, as is the case when a customer has to wait for a contract to be manually updated. We conduct a quarterly analysis of our CDW•G advertised price compared to advertised pricing available from our competitors on a random market basket of over 20,000 products to ensure that we meet or beat the competition on average. This discipline means that a contract structure built from CDW•G advertised is inherently more competitive than one built from another reseller.

To further increase savings to Members, we propose our discounts that align to our own internal catalog categories. This helps us provide deeper discounts where we can, instead of blanketing our catalog with one, more conservative, discount. Our proposed discounts are communicated to our Sales Teams as a ceiling or "not to exceed" price. More often than not, our AMs are able to negotiate even further discounts for NJPA members.

For included Professional Services, we propose our 2014-2015 advertised rates. As with our catalog pricing, we will update these hourly rates as our advertised rates are updated.

13) Please quantify the discount range presented in this response pricing as a percentage discount from MSRP/published list.

The discount amount varies by product category, the range is 0-13%. Our proposed pricing compared to the current contract offering provides further discounts in 78% of the categories, or an average additional 1.01% discount *per category*.

14) Provide an overall proposed statement of method of pricing for individual line items, percentage discount off published product/equipment catalogs and/or category pricing percentage discount with regard to all equipment/products and related services and being proposed. Provide a SKU number for each item being proposed.

Due to the size of our catalog, we ask that NJPA refer to <http://www.cdwg.com/njpa100614> for proposed items SKUs. The price reflects the applicable proposed category discount for each product. We've included the proposed category discounts in the supplemental attachments.

The single most important factor in a price model for this contract is the reference point from which price is calculated.

Respondents, who propose discounts from MSRP, or a manufacturer's list price, are often not providing the best value for Members. Such MSRP lists are infrequently updated and completely irrelevant to market conditions. In an

ever changing market like IT, this can mean prices in the industry lower dramatically before your contract prices. To further complicate things, not all OEMs have price lists, which results in a limited catalog offer, or a vendor selecting a price list on their own.

The misleading point of price discounts from a MSRP list price is that proposed discounts can seem more aggressive at first glance, but when comparing at a line item level, a dynamic catalog offer (like CDW•G's) gets Members their technology for a lower cost.

There are two major factors in the discrepancy. 1) Resellers do not buy most products at a discount from list, as described above, we are opportunistic and buy based on market conditions and then apply a standard range mark-up to arrive at Advertised price. 2) Resellers are able to get far more advantageous pricing, due in large part to the quantity of product we source from manufacturers and/or distribution partners. Because of our many intimate OEM partnerships and our buying power, CDW•G's NAP is historically far lower than MSRP.

The chart we've included to the right display three products that have been compared using the MSRP vs. CDW•G NAP Models. These charts highlight the variance in the relationship between the two indices and the lack of savings which MSRP price models produce, as compared to that of a dynamic price list such as CDW•G NAP.

As you can see, the discounts we are proposing look lower than the 20% MSRP discount, but provide over \$314 more, or nearly double the savings at the line item level.

Figure 9: CDW•G's dynamic pricing model provides members the best value for their procurement dollar

The Xerox Phaser currently has an instant savings deals (until 10/31), which discounted the item \$200 more. We included this as an example because it demonstrates how we are able to incorporate further savings as they are available. This \$200 would not be recognized in an MSRP model.

As evidenced, selecting a partner like CDW•G that utilizes a dynamic price reference point allows for the extension of better pricing even with a lower discount number. Adding up all total discounts does not qualify savings unless NJPA is aware of where the prices originate. CDW•G's Nationally Advertised Price List, unlike an MSRP model, considers industry and buying trends and is automated. This benefits NJPA Members in many ways, including that price decreases are easily track-able and reportable by running a basic report. On the flip side, MSRP models require continuous monitoring and manual price adjustment entry for thousands of line items. With our model, we can simply query price changes, update the price index, and quickly and easily pass savings to NJPA members.

In summary, CDW•G's dynamic price model keeps NJPA's evaluation simple, and allows NJPA members to see more savings, faster. Even if a discount percentage is in the single digits (as noted in the CDW•G NAP Model above) it packs the offer with greater savings than that offered by the high discount, low realized savings MSRP model.

15) Propose a strategy, process, and specific method of facilitating “Sourced Equipment/Products and/or related Services” (AKA, “Open Market” items or “Non-Standard Options”).

Due to the routine partner reviews we perform, we rarely run into having to onboard new vendors or products. However, if a customer requests an item we, or our partners, do not carry, we'll follow the same set process we've described in response #45 in the Value Added section above. This defined process lowers our customers' exposure to the typical risks associated with such technology.

16) Describe your NJPA customer volume rebate programs, as applicable.

Under the contract, individual Members who purchase significantly larger amounts usually qualify for an additional discount on their purchase, nearly 65% of our prior four quarters of sales had adjustments for volume on at least one item on the order. We recommend Members work with their AM when expecting to make a large volume purchase. The Account Manager will work with manufacturer partners on behalf of his/her customer to achieve even greater than contract discounts. The discounts and effective savings are dependent on manufacturer support as well as the size and volume of the order. Depending on the product type the discounts can be anywhere from 2- 20% additional savings.

We're currently working with our vendor partners to secure contract specific discount programs. For example, Microsoft is compiling an NJPA discount program for their tablet line, which includes the same tablets you are using in your evaluation of our response. We'll continue collaborating with our partners throughout the contract duration to leverage the buying power of members and ensure the contract is still providing the best overall value.

17) Identify any Total Cost of Acquisition (as defined herein) cost(s) which is NOT included “Pricing” submitted with your proposal response. Identify to whom these charges are payable to and their relationship to Proposer.

Additional charges that may be applicable, which are not included in our submitted pricing include:

- Taxes – we will include applicable taxes as a separate itemized line on purchase orders of those customers for whom taxes apply
- CA Recycling Fee – California law requires us to fee certain products, such as monitors. Our systems are set up to have the fee tied to the applicable devices. This ensures the fee is automatically included, when required. Customers will see this fee included on their purchase orders as a separate line item from their devices.
- Late fees – Late fees will be charged in some instances of delayed payments past the agreed upon payment schedule. CDW•G collects the fee when resulting from a late payment to us. Our financing partners may have late fees as well; payments would be made directly to the financing company.
- Restocking fees – In certain instances we charge a restocking fee for returned items to offset a portion of these losses. For example, When CDW•G accepts a return on a BTO/CTO, our losses are significant- more than half the cost of the product is lost when we either b-stock or liquidate custom product. While these fees don't cover the loss of our returns, they help offset some of the deficit so we can continue to review out-of-policy returns for our customers.

While we believe this list includes all applicable costs, through the standard course of business there may be others that arise. In these instances, we will notify the customer prior to placing their order and will communicate to NJPA so that you can update the contract list as well.

18) If freight, delivery or shipping is an additional cost to the NJPA member, describe in detail the complete shipping and delivery program.

Shipping and handling will be included, for shipments/packages less than 70 pounds. All orders are subject to our standard shipping policies in place at the time of order placement. For orders that are larger than 70 pounds or call for express or overnight delivery, CDW•G pre-pays shipping costs and added to the customer invoice.

19) As an important part of the evaluation of your offer, indicate the level of pricing you are offering.

Prices offered in this proposal are:

- _____ a. Pricing is the same as typically offered to an individual municipality, Higher Ed or school

district.

_____ b. Pricing is the same as typically offered to GPOs, cooperative procurement organizations or state purchasing departments.

___X*___ c. Better than typically offered to GPOs, cooperative procurement organizations or state purchasing departments.

_____ d. Other; please describe.

*Generally and in aggregate, the pricing to NJPA members is lower than that offered to other cooperatives or state purchasing departments.

20) Do you offer quantity or volume discounts?

___X___ YES _____ NO Outline guidelines and program.

We offer a number of special pricing programs. In fact, we have more than 500 special pricing programs through our internal pricing registration requestor (the Bid Desk), the CDW Outlet, and the CDW Deal of the Week. We've outlined our approach to contract volume discounts in Question #16, above. Because of the variety of pricing opportunities we have available, guidelines are detailed by our Account Managers to Members at the time of inquiry.

In addition to the pricing programs noted above, we're working with our manufacturer partners to develop pricing programs specific to the NJPA contract, like the HP and Xerox programs available on the current contract.

21) Describe in detail your proposed exchange and return program(s) and policy(s).

We propose our standard return policy, which we've included in the supplemental materials.

22) Specifically identify those shipping and delivery and exchange and returns programs as they relate to Alaska and Hawaii and any related off shore delivery of contracted products/ equipment and related services

We provide these customers the same support we offer our customers in the continental US, there will be no differences in the programs. Even though the cost is greater to CDW•G for 2nd day air shipments, members will not be charged for these extra shipping charges. Palletization and large freight over 70 pounds are not included.

23) Please describe any self-audit process/program you plan to employ to verify compliance with your anticipated contract with NJPA. Please be as specific as possible.

Our account managers review and approve all orders before they send them on for processing. This helps eliminate potential errors made by purchasers. For orders placed online, only customers that are NJPA members can submit an order using the NJPA contract. Members and non-member both have access to NJPA pricing at <http://www.cdwg.com/njpa100614> and can add items to their cart. However, once the purchaser selects "checkout" they are promoted to login to their Account Center. Once logged in, if the customer is not an NJPA member, they cannot proceed to checkout with NJPA contract pricing. This automated audit process helps ensure contract users are also NJPA members. We've included screenshot walkthrough of this process in the supplemental attachments.

Mark and his team does a quarterly review of the NJPA sales report internally, before submitting to NJPA. Mark then works with Lindsey Meech to clarify any questions before he submits the administrative fee payment for processing. Once submitted, the payment request goes through about seven layers of review before it is approved and sent via ACH to NJPA. Mark and his team also conduct audits to review orders. These reviews make sure only members have access and are using the contract and to confirm contract pricing compliance.

INDUSTRY SPECIFIC ITEMS

24) If the Proposer is not a manufacturer, please describe your ability to provide letters of authorization to resell and/or provide services to support those products and services.

CDW•G is an authorized reseller for all items submitted in this offer. We can provide letters of authorization from both our OEMs and distribution partners, upon request. The 1,000+ manufacturer partners we boast are well established companies that we've negotiated additional benefits that we pass along to our customers. These benefits include incentives such as volume rebates, bid programs, price protection, and other programs. Through our distribution partners, we can provide nearly any available manufacturer. Our biggest manufacturer partners for the contract have provided letters of authorization to NJPA. In our supplementary documents, we include these and letters from our biggest distribution partners as proof of our abilities.

LW/lr
PRINCIPAL CONTRACT OFFICER: LLOYD B. WINDLE II

INFORMATION TECHNOLOGY SOLUTIONS INCLUDING DESKTOPS, SERVERS, SOFTWARE, PERIPHERALS, AND SERVICES

THIS CONTRACT IS AMENDED AS FOLLOWS:

ITEM ONE (1):

The parties agree any job orders, project agreements or maintenance agreements executed against Contract #130733 during the effective term may survive beyond the expiration of said Contract as established and agreed to in writing, by both parties.

ITEM TWO (2): PRICING

CDW-G Services and service pricing are clarified as follows:

- a. Cloud Services shall be priced at 1% off the manufacturer's list prices.
- b. Additional Services, performed by CDW-G, that do not have pricing specified in pricing Group 11, of Contract #130733 shall be priced at 1% off the Standard Rate.

ITEM THREE (3):

Participating Agencies may be required to sign a separate agreement, rider or End User Licensing Agreement ("EULA"), as required by manufacturers.

ITEM FOUR (4):

Participating Agencies may request that CDW-G sub-contract with a particular business(es) to provide certain products and services through Contract #130733.

In such cases, the business must be an authorized reseller of CDW-G to sell applicable products and services available through Contract #130733, directly to Participating Agencies ("Authorized Reseller"). A business' status as Authorized Reseller shall be at CDW-G's sole discretion. CDW-G will report all applicable invoiced sales to National IPA, in accordance with Contract #130733.

Negotiated Terms and Conditions

CDW-G hereby acknowledges that the terms and conditions contained within this document accurately reflect the terms and conditions that were negotiated and mutually agreed up by the City of Tucson and CDW-G. Further, CDW-G acknowledges that these terms and conditions will govern any contract that results from RFP #130733.

Concurrence:

CDW-G

10 May 2013
Date

Scope of Work

7. Except for certain products that are uniquely customized to City specifications, which shall be indicated at the time of Quote, all defective products shall be identified within thirty (30) days of receipt and will then be replaced and exchanged by the Contractor. The cost of transportation, unpacking, inspection, re-packing, re-shipping or other like expenses shall be paid by the Contractor. All replacement products must be received by the City within seven (7) days of initial notification.

Uniquely customized products are typically indicated by the inclusion of the designation "CTO," "BTO" or "Customer's Name" in the product description of the item. When providing a quote for products that are uniquely customized to City specifications, Contractor shall include the following statement on the quote: *"This quote contains a custom item. This item may not be able to be returned, depending on manufacturer restrictions."*

Special Terms and Conditions

1. COOPERATIVE PURCHASING: Any Contract resulting from this solicitation shall be for the use of the City of Tucson. In addition, public and nonprofit agencies that have entered into a Cooperative Purchasing Agreement with the City of Tucson's Department of Procurement are eligible to participate in any subsequent Contract. See http://www.tucsonprocurement.com/coop_partners.aspx and click on Cooperatives for a list of the public and nonprofit agencies that have currently entered into Cooperative Purchasing Agreements with the City of Tucson. Additionally, this contract is eligible for use by the Strategic Alliance for Volume Expenditures (SAVE) cooperative. See <http://www.maricopa.gov/Materials/PubDocuments/SAVE-members.pdf> for a listing of participating agencies. The parties agree that these lists are subject to change.

Any orders placed to, or services required from, the successful Contractor(s) will be requested by each participating agency. Payment for purchases made under this agreement will be the sole responsibility of each participating agency. The Contractor may negotiate additional expenses incurred as a result of participating agencies' usage of this contract (i.e., freight charges, travel related expenses, etc.). The City shall not be responsible for any disputes arising out of transactions made by others.

The Contractor(s) will provide an electronic copy of the complete Contract to the City of Tucson Department of Procurement upon receipt of the Notice of Intent to Award. At the City's request, the successful Contractor(s) may also be requested to provide an electronic copy of the complete Contract to a participating agency.

2. FOB DESTINATION FREIGHT PREPAID: Prices shall be FOB Destination Freight Prepaid to the delivery location designated. Contractor shall retain title and control of all goods until they are delivered and the Contract of coverage has been completed. All risk of transportation and all related charges shall be the responsibility of the Contractor. All claims for visible or concealed damage shall be filed by the Contractor. The City will assist the Contractor in arranging for inspection. If the City provides the Supplier with the City's carrier account number or selects a carrier other than a carrier that regularly ships for the Supplier, title to products and risk of loss or damage during shipment pass from the Supplier to the City upon delivery to the carrier and the customer shall pay for the shipping charges (F.O.B. Origin, freight collect). Notwithstanding the foregoing, title to software will remain with the applicable licensor(s) and the City's rights therein are contained in the license agreement between such licensor(s) and the City.

3. PAYMENTS: All payments made by the City of Tucson for goods or services will be made to the vendor named on the Offer and Acceptance form. If you do not wish payment to be made to that address, you must submit an attached sheet indicating the proper mailing address with this bid.

4. RIGHT TO TERMINATE FOR CHANGE IN OWNERSHIP OR MATERIAL RESTRUCTURE OF THE CONTRACTOR: In addition to Termination of Contract, in the Standard Terms and Conditions section of this solicitation and resulting contract, the City reserves the right to cancel the whole or part of this contract within 60 days written notice of the completion of any material change of ownership in the Contractor's company, including its sale, merger, consolidation or dissolution.

5. FEDERAL, STATE AND LOCAL TAXES, LICENSES AND PERMITS: The Supplier shall comply with all Federal, State, and local licenses and permits required for the operation of the business conducted by the Supplier as applicable to this Contract. The Supplier shall, at no expense to the City, National IPA, or other Participating Agencies, procure and keep in force during the entire period of the Agreement all such permits and licenses.

6. PRICE ADJUSTMENT: The City will review fully documented requests for price adjustment after any Contract has been in effect for one (1) year. Any price adjustment will only be made at the time of Contract renewal and/or extension and will be a factor in the extension review process. The City will determine whether the requested price adjustment or an alternate option, is in the best interest of the City. Any price adjustment will be effective upon the effective date of the Contract extension.

7. TERM AND RENEWAL: The term of the Contract shall commence upon award or August 18, 2013, whichever is later, and shall remain in effect for a period of one (1) year, unless terminated, canceled or extended as otherwise provided herein. The Contractor agrees that the City of Tucson shall have the right, at its sole option, to renew the Contract for four (4) additional one-year periods or portions thereof. In the event that the City exercises such rights, all terms, conditions and provisions of the original Contract shall remain the same and apply during the renewal period with the possible exception of price and minor scope additions and/or deletions.

Standard Terms and Conditions

- 1. ADVERTISING:** Contractor shall not advertise or publish information concerning this Contract without prior written consent of the City's Director of Procurement.
- 2. AFFIRMATIVE ACTION:** Contractor shall abide by the provisions of the Tucson Procurement Code Chapter 28, Article XII.
- 3. AMERICANS WITH DISABILITIES ACT:** The Contractor shall comply with all applicable provisions of the Americans with Disabilities Act (Public Law 101-336, 42 U.S.C. 12101, et seq.) and applicable Federal regulations under the Act.
- 4. APPLICABLE LAW:** This Contract shall be governed, and the City and Contractor shall have all remedies afforded to each, by the Tucson Procurement Code and the law of the State of Arizona. State law claims shall be brought only in Pima County Superior Court.
- 5. ASSIGNMENT-DELEGATION:** No right or interest in this Contract shall be assigned by the Contractor without prior written permission of the City, and no delegation of any duty of the Contractor shall be made without prior written permission of the City's Director of Procurement. The City shall not unreasonably withhold approval and shall notify the Contractor of the City's position by written notice.
- 6. CERTIFICATION OF COMPLIANCE WITH A.R.S. SEC. 35-393 ET SEQ.:** By signing this contract, the Contractor certifies that it does not have scrutinized business operations in Iran as required by A.R.S. sec. 35-393 et seq. If the City determines that the Contractor has submitted a false certification, the City may impose remedies as provided in the Tucson Procurement Code up to and including termination of this contract.
- 7. CHILD/SWEAT-FREE LABOR POLICY:** The Contractor shall comply with all applicable provisions of the United States Federal and State Child Labor and Worker's Right laws and agrees if called upon to affirm in writing, that they, and any subcontractor involved in the provision of goods to the City, are in compliance.
- 8. CLEAN UP:** The Contractor shall at all times keep the contract area, including storage areas used by the Contractor, free from accumulation of waste material or rubbish and, prior to completion of the work, remove any of its rubbish from the premises and all tools, scaffolding, equipment and materials that are the property of the Contractor. Upon completion of the repair, the Contractor shall leave the work and premises in the same condition as before the work began, excepting normal wear and tear.
- 9. COMMENCEMENT OF WORK:** The Contractor is cautioned not to commence any billable work or provide any material or service under this Contract until Contractor receives purchase order or is otherwise directed to do so, in writing, by the City.
- 10. CONFIDENTIALITY OF RECORDS:** The Contractor shall establish and maintain procedures and controls that are acceptable to the City for the purpose of assuring that no information contained in its records or obtained from the City or from others in carrying out its functions under the Contract shall be used by or disclosed by it, its agents, officers, or employees, except as required to efficiently perform duties under the Contract. Persons requesting such information should be referred to the City. Information pertaining to individual persons shall not be divulged other than to employees or officers of Contractor as needed for the performance of duties under the Contract, unless otherwise agreed to in writing by the City.

11. CONTRACT AMENDMENTS: The Procurement Department has the sole authority to:

- A. Amend the contract or enter into supplemental verbal or written agreements;
- B. Grant time extensions or contract renewals;
- C. Otherwise modify the scope or terms and provisions of the contract.

This Contract shall only be modified with the approval of the Department of Procurement. Except in the case of a documented emergency, approval must be granted prior to performance. Any contract modification not explicitly approved by the Procurement Department through a written contract amendment or change order is performed at the sole risk of the Contractor and may not be eligible for payment by the City.

12. CONTRACT: The Contract shall be based upon the Request for Proposal issued by the City and the Offer submitted by the Contractor in response to the Request for Proposal. The offer shall substantially conform to the terms, conditions, specifications and other requirements set forth within the text of the Request for Proposal. The City reserves the right to clarify any contractual terms with the concurrence of the Contractor; however, any substantial non-conformity in the offer, as determined by the City's Director of Procurement, shall be deemed non-responsive and the offer rejected. The Contract shall contain the entire agreement between the City of Tucson and the Contractor relating to this requirement and shall prevail over any and all previous agreements, contracts, proposals, negotiations, purchase orders, or master agreements in any form.

13. DEFAULT IN ONE INSTALLMENT TO CONSTITUTE TOTAL BREACH: Contractor shall deliver conforming materials in each installment or lot of this Contract and may not substitute nonconforming materials. Delivery of nonconforming materials, or default of any nature, may constitute breach of the Contract. Noncompliance may be deemed a cause for possible Contract termination.

14. DUPLEXED/RECYCLED PAPER: In accordance with efficient resource procurement and utilization policies adopted by the City of Tucson, the Contractor shall ensure that, whenever practicable, all printed materials produced by the Contractor in the performance of this Contract are duplexed (two-sided copies), printed on recycled paper and labeled as such.

15. EXCLUSIVE POSSESSION: Except as otherwise set forth in a Statement of Work for Services: (i) upon payment in full, Contractor assigns to the City of Tucson Contractor's entire right (including copyright), title and interest in and to the Deliverables (meaning any materials specifically and uniquely created and prepared by Contractor pursuant to this Agreement and identified by the capitalized term, Deliverable, in the applicable Statement of Work); and (ii) the City of Tucson grants to Contractor an exclusive (except as to the City of Tucson), royalty-free, perpetual, irrevocable and, fully paid license to create, develop, use, and distribute works that are based upon or derived from the Deliverables, including works that are similar in function, structure, sequence, or organization, so long as such works do not contain the City of Tucson's Confidential Information. As between the City of Tucson and Contractor, Contractor will retain all right, title and interest in and to Pre-existing Work (meaning materials and work product, including all intellectual property rights therein, that existed prior to the creation of the Deliverable(s) and that were not, prior to Contractor's commencement of the Services, already owned by the City of Tucson). The City of Tucson's sole right to Pre-existing Work will be, upon payment in full, a non-transferable, non-exclusive, royalty-free, perpetual, irrevocable and fully paid license to use the Pre-existing Work only for the City of Tucson's internal use and only to the extent that it is incorporated into the Deliverables. The foregoing license does not authorize the City of Tucson's to use Pre-existing Work separately from the Deliverables. The City of Tucson's further acknowledges and agrees that its right to

use the Deliverables containing any third party intellectual property rights may be subject to the rights of third parties and limited by agreements with such third parties.

16. FEDERAL IMMIGRATION LAWS AND REGULATIONS: Contractor warrants that it complies with all Federal Immigration laws and regulations that relate to its employees and complies with A.R.S. § 23-214(A) and that it requires the same compliance of all subcontractors under this Contract. Contractor acknowledges that pursuant to A.R.S. § 41-4401 and effective September 30, 2008, a breach of this warranty is a material breach of this Contract subject to penalties up to and including termination of this Contract. The City retains the legal right to audit the records of the Contractor and inspect the papers of any employee who works for the Contractor to ensure compliance with this warranty and the Contractor shall assist in any such audit. The Contractor shall include the requirements of this paragraph in each contract with subcontractors under this Contract.

If the Contractor or subcontractor warrants that it has complied with the employment verification provisions prescribed by sections 274(a) and 274(b) of the Federal Immigration and Nationality Act and the E-verify requirements prescribed by A.R.S. § 23-214(A), the Contractor or subcontractor shall be deemed to be in compliance with this provision. The City may request proof of such compliance at any time during the term of this Contract by the Contractor and any subcontractor.

17. FORCE MAJEURE: Except for payment of sums due, neither party shall be liable to the other nor deemed in default under this Contract if and to the extent that such party's performance of this Contract is prevented by reason of Force Majeure. The term "Force Majeure" means an occurrence that is beyond the control of the party affected and occurs without its fault or negligence. Force Majeure shall not include late performance by a subcontractor unless the delay arises out of a Force Majeure occurrence in accordance with this Force Majeure term and condition.

If either party is delayed at any time in the progress of the work by Force Majeure, the delayed party shall notify the other party in writing of such delay, as soon as is practical, of the commencement thereof and shall specify the causes of such delay in such notice. Such notice shall be hand-delivered or mailed certified-return receipt and shall make a specific reference to this article, thereby invoking its provisions. The delayed party shall cause such delay to cease as soon as practicable and shall notify the other party in writing when it has done so. The time of completion shall be extended by contract modification for a period of time equal to the time that results or effects of such delay prevent the delayed party from performing in accordance with this Contract.

18. GRATUITIES: The City may, by written notice to the Contractor, terminate this Contract if it is found that gratuities, in the form of entertainment, gifts, meals or otherwise, were offered or given by the Contractor or any agent or representative of the Contractor, to any officer or employee of the City amending, or the making of any determinations with respect to the performing of such Contract. In the event this Contract is terminated by the City pursuant to this provision, the City shall be entitled, in addition to any other rights and remedies, to recover or withhold from the Contractor the amount of the gratuity.

19. HUMAN RELATIONS: Contractor shall abide by the provisions of the Tucson City Code Chapter 28, Article XII.

20. INDEMNIFICATION: To the fullest extent permitted by law, Contractor, its successors, assigns and guarantors, shall pay, defend, indemnify and hold harmless City of Tucson, its agents, representatives, officers, directors, officials and employees from and against all allegations, demands, proceedings, suits, actions, claims, damages, losses, expenses, including but not limited to, attorney fees, court costs, and

the cost of appellate proceedings, and all claim adjusting and handling expense, related to, arising from or out of or resulting from any actions, acts, errors, mistakes or omissions caused in whole or part by Contractor relating to work, services and/or products provided in the performance of this Contract, including but not limited to, any Subcontractor or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable and any injury or damages claimed by any of Contractor's and Subcontractor's employees.

Infringement Indemnity by Contractor

To the extent a Party becomes aware, such Party shall promptly and fully notify the other Party of any Claim by any third party asserting that the Use by City or an Authorized User of the Licensed Material infringes or is likely to infringe the Intellectual Property Rights of such third party. Contractor will defend, indemnify and hold harmless City, Authorized Users, and City's directors, officers, employees and agents (collectively, "City Indemnified Parties") from any and all Losses arising from any such Claim, provided that Contractor shall have no obligations to City or City Indemnified Parties under this Paragraph 20 or otherwise, and in such cases,

Additional Obligation of Contractor

Subject to the forgoing provisions, in the event that any infringement Claim is initiated against Contractor or a City Indemnified Party, or in CDW-G's sole opinion is likely to be initiated for the Contractor is liable in terms of this Paragraph 20, then Contractor shall have the option, at its expense, to either:

(a) modify or replace the infringing part of the Licensed Material so that such part is no longer infringing, provided that the functionality and performance of the Licensed Material continues to perform and operate at least in an equivalent manner and with equivalent functionality; or

(b) procure for City, Permitted Affiliates, Authorized Users the right to continue using the infringing Licensed Material.

In either case, Contractor shall act as promptly as possible and in a manner which will avoid unreasonable disruption to City's operations. If neither of options (a) and (b) under Section 9.2 is reasonably possible or effective, Contractor shall accept the return of the Licensed Material and terminate all rights and licenses granted to City under this Agreement and refund to City an amount equal to the unamortized balance of the License Fee paid by City under this Agreement, calculated on a straight line basis over a period of five years commencing on the Effective Date of this Agreement. The provisions of this Paragraph 20 state Contractor's entire liability and City's sole remedies with respect to infringement.

21. INDEPENDENT CONTRACTOR: It is understood that each party shall act in its individual capacity and not as an agent, employee, partner, joint venturer, or associate of the other. An employee or agent of one party shall not be deemed or construed to be the employee or agent of the other party for any purpose.

The Contractor shall not be entitled to compensation in the form of salaries, paid vacation or sick days by the City.

The City of Tucson will not provide any insurance coverage to the Contractor, including Worker's Compensation coverage. The Contractor is advised that taxes, social security payments, and other withholdings shall not be withheld from a City payment issued under this Contract and that Contractor should make arrangements to directly pay such expenses.

22. INSPECTION AND ACCEPTANCE: All material or service is subject to final inspection; and acceptance by the City, except as noted in Defective Product, paragraph 7. Material or service failing to conform to the specifications of this Contract shall be held at the Contractor's risk and may be returned to the Contractor. Any material or service shall be considered accepted by the City unless the City notifies the Contractor in writing within thirty (30) business days of delivery of the applicable material or service. If returned, all costs are the responsibility of the Contractor. Noncompliance may be deemed a cause for possible Contract termination.

23. INTERPRETATION-PAROLE EVIDENCE: This Contract is intended by the parties to be a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of this agreement. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any term used in the Contract. Acceptance or consent in the course of performance under this Contract shall not be relevant to determine the meaning of this Contract even though the accepting or consenting party has knowledge of the nature of the performance and the opportunity to object.

24. LICENSES: Contractor shall maintain in current status all Federal, State, and local licenses and permits required for the operation of the business conducted by the Contractor as applicable to this Contract.

25. LIENS: All materials, services, and other deliverables supplied to the City under this Contract shall be free of all liens other than the security interest. Security interest shall extinguish upon full payment made by the City. Upon the City's request, the Contractor shall provide a formal release of all liens.

26. NO REPLACEMENT OF DEFECTIVE TENDER: Every tender of materials must fully comply with all provisions of this Contract. If a tender is made which does not fully comply, this shall conform to the termination clause set forth within this document.

27. NON-EXCLUSIVE CONTRACT: Any contract resulting from this solicitation shall be awarded with the understanding and agreement that it is for the sole convenience of the City of Tucson. The City reserves the right to obtain like goods or services from another source when necessary.

28. OVERCHARGES BY ANTITRUST VIOLATIONS: The City maintains that, in actual practice, overcharges resulting from antitrust violations are borne by the purchaser. Therefore, to the extent permitted by law, the Contractor hereby assigns to the City any and all claims for such overcharges as to the materials or services used to fulfill the Contract.

29. PAYMENT: The City's preferred method of payment is via credit card. The City will issue a Purchase Order and, in some cases, either provide a credit card for payment at the time of ordering or pay subsequent invoices by credit card upon receipt of goods or services in good order. However, not all City employees will possess a credit card and, therefore, the City reserves the right to make payment by check as it deems necessary.

Unless payment is made by credit card at time of order or point of sale, a separate invoice shall be issued for each shipment of material or service performed, and no payment shall be issued prior to receipt of material or service and correct invoice.

The City shall make every effort to process payment for the purchase of materials or services within twenty-one (21) calendar days after receipt of materials or services and a correct invoice. The Contractor's payment terms shall apply to all purchases and to all payment methods.

30. PROTECTION OF GOVERNMENT PROPERTY: The Contractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation (such as trees, shrubs, and grass) on City property. If the Contractor fails to do so and damages such property, the Contractor shall replace or repair the damage at no expense to the City, as determined and approved by the City's Director of Procurement. If the Contractor fails or refuses to make such repair or replacement, the City and the Contractor will determine a cost and the Contractor shall be liable for the cost thereof, which may be either reimbursed by the Contractor or deducted from the Contract price, at the option of the Contractor.

31. PROVISIONS REQUIRED BY LAW: Each and every provision of law and any clause required by law to be in the Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not correctly inserted, then upon the application of either party the Contract shall be amended to make such insertion or correction.

32. RECORDS: Internal control over all financial transactions related to this Contract shall be in accordance with sound fiscal policies. The City may, at reasonable times and places, audit the books and records of the Contractor. Said audit shall be limited to verifying Contractor's compliance with this Contract. In the event the audit is performed by an independent third party, the party must execute Contractor's Standard Non-Disclosure Agreement. Contractor is not required to keep original documents and copies of relevant documents will suffice for the purposes of this provision. The audit must be conducted during regular business hours at a mutually agreeable time and upon reasonable advanced notice.

33. RIGHT TO ASSURANCE: Whenever one party to this Contract has reason to question, in good faith, the other party's intent to perform, the former party may demand that the other party give a written assurance of this intent to perform. In the event that a demand is made and no written assurance is given within five (5) days, the demanding party may treat this failure as the other party's intent not to perform and as a cause for possible Contract termination.

34. RIGHT TO INSPECT: The City may, at reasonable times, and at the City's expense, inspect the place of business of a Contractor or subcontractor which is related to the performance of any Contract as awarded or to be awarded.

35. RIGHTS AND REMEDIES: No provision in this document or in the Contractor's proposal shall be construed, expressly or by implication, as a waiver by either party of any existing or future right and/or remedy available by law in the event of any claim, default or breach of contract. The failure of either party to insist upon the strict performance of any term or condition of the Contract, to exercise or delay the exercise of any right or remedy provided in the Contract or by law, or to accept materials or services required by this Contract or by law shall not be deemed a waiver of any right of either party to insist upon the strict performance of the Contract.

36. SEVERABILITY: The provisions of this Contract are severable to the extent that any provision or application held to be invalid shall not affect any other provision or application of the Contract which may remain in effect without the valid provision or application.

37. SHIPMENT UNDER RESERVATION PROHIBITED: No tender of a bill of lading shall operate as a tender of the materials. Non-compliance shall conform to the termination clause set forth within this document.

38. SUBCONTRACTS: No subcontract shall be entered into by the Contractor with any other party to furnish any of the material/service specified herein without the advance written approval of the City's Director of Procurement. All subcontracts shall comply with Federal and State laws and regulations which are applicable to the services covered by the subcontract and shall include all the terms and conditions set forth herein which shall apply with equal force to the subcontract, as if the subcontractor were the Contractor referred to herein. The Contractor is responsible for contract performance whether or not subcontractors are used.

39. SUBSEQUENT EMPLOYMENT: The City may terminate this Contract without penalty or further obligation pursuant to A.R.S. Section 38-511 if any person significantly involved in initiating, negotiating, securing, drafting, or creating the Contract, on behalf of the City, is or becomes, at any time while the Contract or any extension of the Contract is in effect, an employee of, or a contractor to, any other party to this Contract with respect to the subject matter of the Contract. Termination shall be effective when written notice from the City's Director of Procurement is received by the parties to this Contract, unless the notice specifies a later time.

40. TERMINATION OF CONTRACT: This Contract may be terminated at any time by mutual written consent, or by the City, with or without cause, upon giving thirty (30) days written notice. The City, at its convenience, by written notice, may terminate this Contract, in whole or in part. If this Contract is terminated, the City shall be liable only for payment under the payment provisions of this Contract for services rendered and accepted material received by the City before the effective date of termination.

The City reserves the right to terminate the whole or any part of this Contract due to the failure of the Contractor to carry out any term or condition of the Contract. The City will issue a written ten (10) day notice of default to the Contractor for acting or failing to act as specified in any of the following:

In the reasonable opinion of the City, the Contractor provides personnel that do not meet the requirements of the Contract;

In the reasonable opinion of the City, the Contractor fails to perform adequately the stipulations, conditions or services/specifications required in this Contract;

In the reasonable opinion of the City, the Contractor attempts to impose personnel, materials, products or workmanship of an unacceptable quality;

The Contractor fails to furnish the required service and/or product within the time stipulated in the Contract;

In the reasonable opinion of the City, the Contractor fails to make progress in the performance of the requirements of the Contract;

The Contractor gives the City a positive indication that the Contractor will not or cannot perform to the requirements of the Contract.

The Contractor shall have thirty (30) days from receipt of notice from the City to cure any default.

Each payment obligation of the City created by this Contract is conditioned upon the availability of City, State and Federal funds that are appropriated or allocated for the payment of such an obligation. If funds are not allocated by the City and available for the continued purchase of the services and/or materials provided under this Contract, this Contract may be terminated by the City at the end of the period for which funds are available. The City will endeavor to notify the Contractor in the event that continued service will or may be affected by non-appropriation. No penalty shall accrue to the City in the event this provision is exercised, and the City shall not be obligated or liable for any future payments due or for any damages as a result of termination under this paragraph.

41. TITLE AND RISK OF LOSS: The title and risk of loss of material or service shall not pass to the City until the City actually receives the material or service at the point of delivery, unless otherwise provided within this Contract.

42. WARRANTIES: The City understands that the Contractor is not the manufacturer of the products purchased by the City hereunder and the only warranties offered are those of the manufacturer, not the Contractor or its affiliates. In purchasing the products, the City is relying on the manufacturer's specifications only and is not relying on any statements, specifications, photographs or other illustrations representing the products that may be provided by the Contractor or its affiliates. THE CONTRACTOR AND ITS AFFILIATES HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES EITHER EXPRESS OR IMPLIED, RELATED TO PRODUCTS, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF TITLE, ACCURACY, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WARRANTY OF NONINFRINGEMENT, OR ANY WARRANTY RELATING TO THIRD PARTY SERVICES. THE DISCLAIMER CONTAINED IN THIS PARAGRAPH DOES NOT AFFECT THE TERMS OF ANY MANUFACTURER'S WARRANTY.

In connection with the products, certain services, such as extended warranty service by manufacturers, are sold by the Contractor as a distributor or sales agent ("Third Party Services"). In the case of Third Party Services, the third party will be the party responsible for providing the services to the City and the City will look solely to the third party for any loss, claims or damages arising from or related to the provision of such Third Party Services. The City hereby releases the Contractor and its affiliates from any and all claims arising from or relating to the purchase or provision of any such Third Party Services. Any amounts, including, but not limited to, taxes, associated with Third Party Services which may be collected by the Contractor will be collected solely in the capacity as an independent sales agent.

Contractor warrants that all material or service delivered under this Contract shall conform to the specifications of this Contract. Mere receipt of shipment of the material or service specified and any inspection incidental thereto by the City shall not alter or affect the obligations of the Contractor or the rights of the City under the foregoing warranties. Additional warranty requirements may be set forth in this document.

RE: CDW•G's response to Information Technology Solutions including desktops, notebooks, servers, software, peripherals and services

Dear Mr. Daou,

The City of Tucson (the City) and CDW Government (CDW•G) have a solid business relationship that spans more than 18 years. During this time, we have strengthened this relationship through our partnership with National IPA, making your contract one that holds nationwide recognition. The City's initial projection for the contract's sales was a mere \$25 million, annually. The contract currently generates sales nearly four times this forecast, totaling close to \$100 million in 2012. We feel a large part of this success is our mutual understanding of the level of commitment it takes to make a contract successful. We continue to meet the City's minimum qualifications in the following ways.

Full Range of IT Solution Products and Services. The City's contract is unique in its offering to member agencies in that our expansive portfolio provides a depth of product and services not often matched by a single manufacturer, resellers, or local vendors. We hold a long list of specializations, certifications, and awards from many of the 1,000 different manufacturers we work with. We also leverage our OEM relationships to gain pricing advantages for our customers, such as the **CDW•G-exclusive HP offering** included in our proposed pricing. We pair our complex product offering with a service portfolio that is just as impressive, with over 1,600 of our own engineers dedicated to performing services.

Strong National Presence. CDW•G serves our customers with 43 locations throughout the US and Canada, 33 of these locations added since the contract's inception in 2008. We have nationwide recognition, with over 250,000 customers in all areas of the public and private sector. Additionally, in 2012 CDW ranked no. 31 on *Forbes'* list of America's Largest Private Companies.

Nationwide Distribution Capabilities. Agencies using the City's contract receive their products in an average 3-5 days from our two strategically located distribution centers. We ship most of credit approved in-stock orders same day, with a 99.7% shipment accuracy.

Demonstrated Sales Presence. We have over 840 Account Managers dedicated to our CDW•G customers alone, with 65 Field Account Executives across the country providing personal, onsite support.

State of the Art Ordering and Billing Capabilities. Users of the City's contract place their orders in the way that best fits their needs. In addition to telephone, email, chat, and fax, purchasers can utilize their user-friendly, customized websites. Each site provides a plethora of tools, with their own CDW•G Extranet page giving them the ability to create custom reports, manage assets, and retrieve invoices, among many other functionalities.

We shall continue to surpass the City's expectations into the second term of our agreement, and look forward to continuing the successful trend of the contract. If you have any questions, please contact Proposal Specialist Larissa Newman at 866.259.0569 or larinew@cdw.com.

Sincerely,

Tara K. Barbieri
Director, Program Sales

REQUEST FOR PROPOSAL AMENDMENT

CITY OF TUCSON
DEPARTMENT OF PROCUREMENT
255 W. ALAMEDA, 6TH FLOOR, TUCSON, AZ 85701
P.O. BOX 27210, TUCSON, AZ 85726
ISSUE DATE: FEBRUARY 6, 2013

REQUEST FOR PROPOSAL NO. 130733
RFP AMENDMENT NO. 1 (ONE)
PAGE NO. 1 OF 3
RFP DUE DATE: FEBRUARY 19, 2013
RESPONSIBLE CONTRACT OFFICER: NATHAN DAOU

A SIGNED COPY OF THIS AMENDMENT MUST BE SUBMITTED WITH YOUR SEALED PROPOSAL.
THIS REQUEST FOR PROPOSAL IS AMENDED AS FOLLOWS:

INFORMATION TECHNOLOGY SOLUTIONS including DESKTOPS, NOTEBOOKS, SERVERS, SOFTWARE, PERIPHERALS, AND SERVICES

1. The Proposal Due Date is hereby changed to February 19, 2013 at 4:00 PM Local Arizona Time.
2. Representatives from the following firms were in attendance at the Pre-Proposal Conference on January 29, 2012:

Copper State Communications
Leeshanok Network Solutions
CDW Government
Office Depot/Tech Depot
Dell
World Wide Technology, Inc.

3. Requests have been made to have the RFP document in Microsoft Word format, as opposed to Adobe PDF format. Therefore, the RFP document in Microsoft Word format is hereby attached to this amendment.
4. The first sentence of the second paragraph of Paragraph 5 (Pricing) of the Scope of Work section is hereby replaced with the following sentence:

"Price discounts will be evaluated by applying the Vendor's discount to the prices listed on the verifiable price index."
5. Attachment A, the Revised Sample Items List is hereby replaced with the attached REVISED Attachment A. Offerors should fill out the REVISED Attachment A instead of the original Attachment A.
6. **CLARIFICATIONS:** The following questions have been received by the City. The questions, along with the City's responses are provided below:

Q: Is it acceptable to add lines to the price page under Group 11 (Services) to list hourly rates?

A: Yes.

REQUEST FOR PROPOSAL AMENDMENT

REQUEST FOR PROPOSAL NO. 130733
RFP AMENDMENT NO. 1 (ONE)
PAGE NO. 2 OF 3
RFP DUE DATE: FEBRUARY 19, 2013
RESPONSIBLE CONTRACT OFFICER: NATHAN DAOU

A SIGNED COPY OF THIS AMENDMENT MUST BE SUBMITTED WITH YOUR SEALED PROPOSAL.
THIS REQUEST FOR PROPOSAL IS AMENDED AS FOLLOWS:

- Q:** National IPA Exhibit A (“National IPA Response for National Cooperative Contract”), which is part of Attachment B to the RFP, states in Paragraph 3.3.B.iv that Supplier must provide a commitment to attend and participate with National IPA at national and supplier-specific trade shows, conferences and meetings. Do we have to participate in all meetings? If so, what are the event dates, details?
- A:** National IPA and the awarded supplier(s) will work together to develop a marketing and communication strategy that is mutually agreed upon by both parties. The strategy will include identification of trade shows, conferences, meetings that will be beneficial to promotion of the awarded agreement. It is the expectation of National IPA that the awarded supplier(s) trade show strategy plan will include attendance and exhibition at the NIGP Annual Forum and NPI Annual Conference throughout the term of the agreement. Regional conferences and industry-specific events will be discussed and agreed upon during marketing strategy planning after the award is made.

- Q:** National IPA Exhibit A (“National IPA Response for National Cooperative Contract”), which is part of Attachment B to the RFP, states in Paragraph 3.3.B.vi that the Supplier must provide a plan for the design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement. Please elaborate on what will minimally be expected of the Supplier in regards to this item.
- A:** National IPA and the awarded supplier(s) will work together to develop a marketing and communication strategy that is mutually agreed upon by both parties. The strategy will include identification of advertising opportunities that will be beneficial to promotion of the awarded agreement. It is the expectation of National IPA that the awarded supplier(s) will include advertising as part of the overall marketing strategy in order to promote the awarded agreement.

- Q:** National IPA Exhibit A (“National IPA Response for National Cooperative Contract”), which is part of Attachment B to the RFP, states in Paragraph 3.3.K that the Supplier must state the amount of your company’s Public Agency sales for the previous fiscal year, and that the Supplier must provide a list of your top 10 Public Agency customers. For this, is National IPA looking for any government client? What if a supplier does not have a way to segment our combined sales by vertical type?
- A:** If a supplier does not have a way to segment their combined sales by vertical type, then the supplier should provide a total sales amount for all public agencies combined. National IPA is trying to understand the supplier's current sales in the public agency sector.

PUBLISH DATE: JANUARY 22, 2013

INTRODUCTION

The City of Tucson (the "City") is requesting proposals from firms qualified to provide **Information Technology Solutions including desktops, notebooks, servers, software, peripherals and services**, to be delivered F.O.B. destination to various locations though out the City of Tucson.

Requirements and qualifications are defined in detail in the Scope of Work and Technical Requirements Section of this Request for Proposal (RFP).

NATIONAL CONTRACT REQUIREMENTS

The City, as the Principal Procurement Agency, as defined in Attachment B, has partnered with the National Intergovernmental Purchasing Alliance Company ("National IPA") to make the resultant contract ("Master Agreement") from this solicitation available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), through National IPA's cooperative purchasing program. The City is acting as the contracting agency for any other Public Agency that elects to utilize the resulting Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with National IPA as a Participating Public Agency in National IPA's cooperative purchasing program. Attachment I contains additional information on National IPA and the cooperative purchasing agreement.

With corporate, pricing and sales commitments from the Supplier, National IPA provides marketing and administrative support for the Supplier that directly promotes the Supplier's products and services to Participating Public Agencies though multiple channels, each designed to promote specific products and services to Public Agencies on a national basis. Public Agencies benefit from pricing based on aggregate spend and the convenience of a contract that has already been advertised and competed. The Supplier benefits from a contract that allows Participating Public Agencies to directly purchase goods and services without the Supplier's need to respond to additional competitive solicitations. As such, the Supplier must be able to accommodate a nationwide demand for services and to fulfill obligations as a nationwide Supplier and respond to the National IPA documents (Attachment B). The City, reserves the right to deem submissions that do not include a response to the National IPA documents as non-responsive.

The City anticipates spending approximately \$750,000 over the full potential Master Agreement term for Informational Technology Solutions. While no minimum volume is guaranteed to the Supplier, the estimated annual volume of Informational Technology Solutions purchased under the Master Agreement through National IPA is approximately \$100,000,000. This projection is based on the current annual volumes among the City, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through National IPA, and volume growth into other Public Agencies through a coordinated marketing approach between the Supplier and National IPA.

SCOPE OF WORK

1. **QUALIFIED VENDORS:** Offerors should meet the minimum qualifications:
 - a) A full range of information technology solution products and services to meet varying requirements of governmental agencies.
 - b) Have a strong national presence as a computer solutions provider.
 - c) Have a distribution model capable of delivering products, free of charge, in a timely manner on a nationwide basis.
 - d) Have a demonstrated sales presence.
 - e) Ability to provide a toll-free telephone and state of the art electronic facsimile and internet ordering and billing capabilities.

Be able to meet the minimum requirements of the cooperative purchasing program detailed herein.

2. **ORDERING:** Although the City is open to alternate ordering methods, the primary methods for customers placing orders with the Contractor is through the following:
 - a. Online
 - b. Telephone
 - c. Fax
 - d. Email
3. **DELIVERY REQUIREMENT:** Contractor agrees to deliver all products to the desktop of the ordering customer. In many cases within the City, the Contractor may be asked to deliver all goods to the front counter within a given department.
4. **SCOPE OF PRODUCTS:** The intent of this solicitation is to establish a contract with the ability to purchase a comprehensive, wide variety of Information Technology Solution Products including but not limited to the following categories:
 - a. Personal Computer Systems: National brand name desktop PCs, notebooks and laptops from Enterprise Tier and Middle Tier vendors that are business related computers, manufactured by companies, such as, Apple, COMPAQ, Dell, Gateway, Hewlett Packard, IBM / Lenovo and Toshiba.
 - b. Standard Business Workstation: These will be used for typical tasks, which will include word processing, spreadsheet analysis, database management, business graphics, statistical analysis, internet, and other office automation activities. Product will include the operating system license, software media and documentation in the hardware shipment.
 - c. High End Workstation: These will be used by application developers using GIS, CASE or other high level language development tools, Computer Aided Design and Drafting professional, Internet Application developers or other sophisticated application work. Product will include the operating system license, software media and documentation in the hardware shipment.
 - d. Laptop Computer or Notebook: These will be used by traveling or remote access user for typical office automation and business productivity use. With a port replicator or docking station, it may also be used as a standard desktop. Product will include the operating system license, software media and documentation in the hardware shipment.
 - e. Network Equipment: This includes equipment primarily used for communications over an IP network. This includes layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces (i.e serial, T1, T3, OC3) and fiber channel. Class of equipment should include home office, small and medium business, and enterprise. Vendors may include, but not limited to, Cisco Systems, Dell, Juniper Networks, HP, Extreme Networks, Enterasys Networks, D-Link, Netgear, and Brocade Communications Systems.

- f. **Monitors:** These will include plug and play compatible monitors that are manufactured for the above systems and/or any other brand that may be specifically called for by the ordering entity and which meet the most current UL and OSHA requirements.
- g. **Computer and Network Products and Peripherals:** Complete availability of major manufacturers product lines on items such as, but not limited to RAM, graphic accelerator cards, network interface cards, cables, printers, scanners, keyboards, drives, memory cards, cables, batteries, etc.
- h. **Services:** Services such as cloud computing, consulting, technical support, leasing/financing, trade-ins, repair, design, analysis, configuration, implementation, installation, training and maintenance, etc. In addition, services which are related to the design, use or operation of the products being purchased such as system configurations, testing, hardware/software installation, upgrades, imaging, etc..

Note: All hardware should come assembled. For example, if extra memory, additional drives or peripherals are ordered, the Vendor must install them.

- i. **Comprehensive Product Offering:** Offeror's complete catalog and services offered shall be available. Each offeror awarded a contract under this solicitation may offer their complete product and service offering. Pricing for products and services must be entered on the appropriate section of the Price Page. The City reserves the right to accept or reject any or all items offered.

5. PRICING: Vendors shall provide a price in the format of a percentage discount off a verifiable price index. Vendors may submit discounts for various manufacturers. Discounts will remain firm and will include all charges that may be incurred in fulfilling requirement(s) for the twelve-month period following contract award. However, pricing may fluctuate as the price for the product changes with the verifiable pricing standard. Also, the "technology marketplace" is one of rapid change, with new products and revisions coming into the marketplace on a regular basis, it is required that a verifiable pricing formula or guaranteed discount matrix be included with response. In addition to decreasing prices for the balance of the Contract term due to a change in market conditions, a Contractor may conduct sales promotions involving price reductions for a specified lesser period. In the event a product is discontinued, Vendor will provide a product of the same or greater functionality, utilizing the proposed discount structure. In addition, Vendor must notify the City in writing within 60 days of EOL (end of life) on all models.

Award will be determined by applying the Vendor's discount to the prices listed on the verifiable price index. The City has provided various sample items on the Sample Item List (See Attachment A) for pricing evaluation purposes. Vendors are required to fill out the Sample Items List.

It is the Vendor's responsibility to provide the City with an up-to-date price list for the duration of the contract.

- 6. AWARD:** It is the City's intention that a single or limited number of awards will be made under this solicitation.
- 7. DEFECTIVE PRODUCT:** All defective products shall be replaced and exchanged by the Contractor. The cost of transportation, unpacking, inspection, re-packing, re-shipping or other like expenses shall be paid by the Contractor. All replacement products must be received by the City within seven (7) days of initial notification.

INSTRUCTIONS TO OFFERORS

1. DEFINITION OF KEY WORDS USED IN THE SOLICITATION:

For purposes of this solicitation and subsequent contract, the following definitions shall apply:

City: The City of Tucson, Arizona

Contract: The legal agreement executed between the City and the Contractor/Consultant. The Contract shall include this RFP document incorporated herein by reference, all terms, conditions, specifications, scope of work, Amendments, the Contractor's offer and negotiated items as accepted by the City.

Contractor/Consultant: The individual, partnership, or corporation who, as a result of the competitive solicitation process, is awarded a contract by the City.

Contract Representative: The City employee or employees who have specifically been designated to act as a contact person or persons to the Contractor, and is responsible for monitoring and overseeing the Contractor's performance under this Contract.

Director of Procurement: The contracting authority for the City, authorized to sign contracts and amendments thereto on behalf of the City.

May: Indicates something that is not mandatory but permissible.

Offeror: The individual, partnership, or corporation who submits a proposal in response to a solicitation.

Shall, Will, Must: Indicates a mandatory requirement. Failure to meet these mandatory requirements, if they constitute a substantive requirement, may, at the City's sole discretion, result in the rejection of a proposal as non-responsive.

Should: Indicates something that is recommended but not mandatory. If the Offeror fails to provide recommended information, the City may, at its sole option, ask the Offeror to provide the information or evaluate the proposal without the information.

2. PRE-PROPOSAL CONFERENCE: If scheduled, the date and time of a Pre-Proposal conference is indicated on the cover page of this document. Attendance at this conference is not mandatory. Written minutes and/or notes will not be available, therefore attendance is encouraged. If an Offeror is unable to attend the Pre-Proposal Conference questions may be submitted in writing. Offerors are encouraged to submit written questions, via electronic mail or facsimile, at least five days prior to the Request for Proposal due date to the Contract Officer listed above. The purpose of this conference will be to clarify the contents of this Request for Proposal in order to prevent any misunderstanding of the City's position. Any doubt as to the requirements of this Request for Proposal or any apparent omission or discrepancy should be presented to the City at this conference. The City will then determine the appropriate action necessary, if any, and may issue a written amendment to the Request for Proposal. Oral statements or instructions will not constitute an amendment to this Request for Proposal.

3. INQUIRIES: Any question related to the Request for Proposal shall be directed to the Contract Officer whose name appears above. An offeror shall not contact or ask questions of the department for whom the requirement is being procured. The Contract Officer may require any and all questions be submitted in writing. Offerors are encouraged to submit written questions via electronic mail or facsimile, at least five days prior to the proposal due date. Any correspondence related to a solicitation should refer to the appropriate Request for Proposal number, page and paragraph number. An envelope containing questions should be identified as such, otherwise it may not be opened until after the official proposal due date and time. Oral interpretations or clarifications will be without legal effect. Only questions answered by a formal written amendment to the Request for Proposal will be binding.

4. AMENDMENT OF REQUEST FOR PROPOSAL: The Offeror shall acknowledge receipt of a Request for Proposal Amendment by signing and returning the document by the specified due date and time.

5. FAMILIARIZATION OF SCOPE OF WORK: Before submitting a proposal, each offeror shall familiarize itself with the Scope of Work, laws, regulations and other factors affecting contract performance. The Offeror shall be responsible for fully understanding the requirements of the subsequent Contract and otherwise satisfy itself as to the expense and difficulties accompanying the fulfillment of contract requirements. The submission of a proposal will constitute a representation of compliance by the Offeror. There will be no subsequent financial adjustment, other than that provided by the subsequent Contract, for lack of such familiarization.

6. PREPARATION OF PROPOSAL:

A. All proposals shall be on the forms provided in this Request for Proposal package. It is permissible to copy these forms as required. Facsimiles or electronic mail proposals shall not be considered.

B. At a minimum, your proposal should include the signed Offer and Acceptance form, signed copies of any solicitation amendments, completed Price Page and your response to all evaluation criteria.

C. The Offer and Acceptance page shall be signed by a person authorized to submit an offer. An authorized signature on the Offer and Acceptance page, Proposal Amendment(s), or cover letter accompanying the proposal documents shall constitute an irrevocable offer to sell the good and/or service specified herein. Offeror shall submit any additional requested documentation, signifying intent to be bound by the terms of the agreement.

- D. The authorized person signing the proposal shall initial erasure, interlineations or other modifications on the proposal.
 - E. In case of error in the extension of prices in the proposal, unit price shall govern when applicable.
 - F. Periods of time, stated as a number of days, shall be in calendar days.
 - G. It is the responsibility of all offerors to examine the entire Request for Proposal package and seek clarification of any requirement that may not be clear and to check all responses for accuracy before submitting a proposal. Negligence in preparing a proposal confers no right of withdrawal after due date and time.
 - H. The City shall not reimburse the cost of developing, presenting, submitting or providing any response to this solicitation.
 - I. Offeror must list any subcontractors to be utilized in the performance of the services specified herein. For each subcontractor, details on respective qualifications must be included.
7. **PAYMENT DISCOUNTS:** Payment discount periods shall be computed from the date of receipt of the material/service or correct invoice, whichever is later, to the date City's payment warrant is mailed. Unless freight and other charges are itemized, any discount provided shall be taken on full amount of invoice. Payment discounts of twenty-one calendar days or more shall be deducted from the proposed price in determining the price points. However, the City shall be entitled to take advantage of any payment discount offered by a vendor provided payment is made within the discount period. The payment discount shall apply to all purchases and to all payment methods.
8. **TAXES:** The City of Tucson is exempt from federal excise tax, including the federal transportation tax.
9. **PROPOSAL/SUBMITTAL FORMAT:** An original and 5 copies (6 total) of each proposal should be submitted on the forms and in the format specified in the RFP. Offerors shall also submit two electronic copies of the proposal on cd, disc or zip disc in MS Office 2003 or .pdf format. Any confidential information shall be submitted on a separate cd, disc or zip disc. The original copy of the proposal should be clearly labeled "Original" and shall be single-sided, three hole punched and in a binder. The material should be in sequence and related to the RFP. **The sections of the submittal should be tabbed, clearly identifiable and should include a minimum of the following sections: the completed Offer and Acceptance Form, all signed Amendments, a copy of this RFP document and the Offeror's response to the Evaluation Criteria including the completed Price Page.** Failure to include the requested information may have a negative impact on the evaluation of the offeror's proposal.
10. **EXCEPTIONS TO CONTRACT PROVISIONS:** A response to any Request for Proposal is an offer to contract with the City based upon the contract provisions contained in the City's Request for Proposal, including but not limited to, the specifications, scope of work and any terms and conditions. Offerors who wish to propose modifications to the contract provisions must clearly identify the proposed deviations and any proposed substitute language. The provisions of the Request for Proposal cannot be modified without the express written approval of the Director or his designee. If a proposal or offer is returned with modifications to the contract provisions that are not expressly approved in writing by the Director or his designee, the contract provisions contained in the City's Request for Proposal shall prevail.
11. **PUBLIC RECORD:** All proposals submitted in response to this Request for Proposal shall become the property of the City and shall become a matter of public record available for review subsequent to the award notification.
12. **CONFIDENTIAL INFORMATION:** The City of Tucson is obligated to abide by all public information laws. If an Offeror believes that any portion of a proposal, offer, specification, protest or correspondence contains information that should be withheld, a statement advising the Contract Officer of this fact should accompany the submission and the information shall be so identified wherever it appears. The City shall review all requests for confidentiality and may provide a written determination to designate specified documents confidential or the request may be denied. Price is not confidential and will not be withheld. If the confidential request is denied, such information shall be disclosed as public information, unless the offeror submits a formal written objection.
13. **CERTIFICATION:** By signature on the Offer and Acceptance page, solicitation Amendment(s), or cover letter accompanying the submittal documents, Offeror certifies:
- A. The submission of the offer did not involve collusion or other anti-competitive practices.
 - B. The Offeror shall not discriminate against any employee or applicant for employment in violation of Federal or State law.
 - C. The Offeror has not given, offered to give, nor intends to give at any time hereafter, any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, meal or service to a public servant in connection with the submitted offer.
 - D. The Offeror hereby certifies that the individual signing the submittal is an authorized agent for the Offeror and has the authority to bind the Offeror to the Contract.

- 14. WHERE TO SUBMIT PROPOSALS:** In order to be considered, the Offeror must complete and submit its proposal to the City of Tucson Department of Procurement at the location indicated, prior to or at the exact date and time indicated on the Notice of Request for Proposal page. The Offeror's proposal shall be submitted in a sealed envelope. The words "SEALED PROPOSAL" with the REQUEST FOR PROPOSAL TITLE, REQUEST FOR PROPOSAL NUMBER, PROPOSAL DUE DATE AND TIME and OFFEROR'S NAME AND ADDRESS shall be written on the envelope.
- 15. LATE PROPOSALS:** Late proposals will be rejected.
- 16. OFFER AND ACCEPTANCE PERIOD:** In order to allow for an adequate evaluation, the City requires an offer in response to this solicitation to be valid and irrevocable for ninety (90) days after the proposal due date and time.
- 17. WITHDRAWAL OF PROPOSAL:** At any time prior to the specified solicitation due date and time, an offeror may formally withdraw the proposal by a written letter, facsimile or electronic mail from the Offeror or a designated representative. Telephonic or oral withdrawals shall not be considered.
- 18. DISCUSSIONS:** The City reserves the right to conduct discussions with offerors for the purpose of eliminating minor irregularities, informalities, or apparent clerical mistakes in the proposal in order to clarify an offer and assure full understanding of, and responsiveness to, solicitation requirements.
- 19. CONTRACT NEGOTIATIONS:** Exclusive or concurrent negotiations may be conducted with responsible offeror(s) for the purpose of altering or otherwise changing the conditions, terms and price of the proposed contract unless prohibited. Offerors shall be accorded fair and equal treatment in conducting negotiations and there shall be no disclosure of any information derived from proposals submitted by competing offerors. Exclusive or concurrent negotiations shall not constitute a contract award nor shall it confer any property rights to the successful offeror. In the event the City deems that negotiations are not progressing, the City may formally terminate these negotiations and may enter into subsequent concurrent or exclusive negotiations with the next most qualified firm(s).
- 20. VENDOR APPLICATION:** Prior to the award of a Contract, the successful offeror shall register with the City's Department of Procurement. Registration can be completed at <http://www.tucsonprocurement.com/> by clicking on Vendor Services. Please note that email notifications of newly published solicitations and amendments will be provided to those vendors that select email as their preferred delivery method in their vendor record.
- 21. CITY OF TUCSON BUSINESS LICENSE:** It is the responsibility of the Contractor to have a City of Tucson Business License throughout the life of this contract or a written determination from the City's Business License Section that a license is not required. At any time during the contract, the City may request the Contractor to provide a valid copy of the business license or a written determination that a business license is not required. Application for a City Business License can be completed at <http://www.tucsonaz.gov/etax>. For questions contact the City's Business License Section at (520) 791-4566 or email at tax-license@tucsonaz.gov.
- 22. UPON NOTICE OF INTENT TO AWARD:** The apparent successful offeror shall sign and file with the City, within five (5) days after Notice of Intent to Award, all documents necessary to the successful execution of the Contract.
- 23. AWARD OF CONTRACT:** Notwithstanding any other provision of the Request for Proposal, the City reserves the right to:
- (1) waive any immaterial defect or informality; or
 - (2) reject any or all proposals, or portions thereof; or
 - (3) reissue the Request for Proposal.

A response to this Request for Proposal is an offer to contract with the City based upon the terms, conditions and Scope of Work contained in the City's Request for Proposal. Proposals do not become contracts unless and until they are executed by the City's Director of Procurement and the City Attorney. A contract has its inception in the award, eliminating a formal signing of a separate contract. All of the terms and conditions of the contract are contained in the Request for Proposal, unless any of the terms and conditions are modified by a Request for Proposal amendment, a Contract Amendment, or by mutually agreed terms and conditions in the Contract documents.

- 24. PROPOSAL RESULTS:** The name(s) of the successful offeror(s) will be posted on the Procurement Department's Internet site at <http://www.tucsonprocurement.com/> upon issuance of a Notice of Intent to Award or upon final contract execution.

25. PROTESTS: A protest shall be in writing and shall be filed with the Director of Procurement. A protest of a Request for Proposal shall be received at the Department of Procurement not less than five (5) working days before the Request for Proposal due date. A protest of a proposed award or of an award shall be filed within ten (10) days after issuance of notification of award or issuance of a notice of intent to award, as applicable. A protest shall include:

- A. The name, address, and telephone number of the protestant;
- B. The signature of the protestant or its representative;
- C. Identification of the Request for Proposal or Contract number;
- D. A detailed statement of the legal and factual grounds of protest including copies of relevant documents; and
- E. The form of relief requested.

PROPOSAL EVALUATION REQUIREMENTS

I. PROPOSAL EVALUATION CRITERIA – (listed in relative order of importance)

- A. Method of Approach
- B. Price
- C. Qualifications and Experience
- D. Technology

II. REQUIREMENTS SPECIFIC TO EVALUATION CRITERIA: The narrative portion and the materials presented in response to this Request for Proposal should be submitted in the same order as requested and must contain, at a minimum, the following:

A. Method of Approach

1. Provide a response to the national program.
 - a. Include a detailed response to Attachment B, Exhibit A, National IPA Response for National Cooperative contract. Responses should demonstrate a strong national presence, describe how offeror will educate its national sales force about the contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and reported to National IPA.
 - b. The successful offeror will be required to sign Attachment B, Exhibit B, National IPA Administration Agreement. Offerors should have any reviews required to sign the document prior to submitting a response. Offeror's response should include any proposed exceptions to the National IPA Administration Agreement.
2. Provide a description of the product lines that can be provided by your firm.
3. Provide a description of the services that can be provided by your firm.
4. Describe how your firm proposes to distribute the products/services nationwide.
5. Identify all other companies that will be involved in processing, handling or shipping the products/service to the Participating Agencies. Include any subsidiaries that may include product or service under the Contract.
6. Provide the number, size and location of your firm's distribution facilities, warehouses and retail network as applicable.
7. State any return and restocking policy, and any fees, if applicable associated with returns.
8. Describe your invoicing process. Is electronic invoicing available? Is summary invoicing available? Are there other options on how an agency receives an invoice?
9. Describe your delivery commitment:
 - a. What is your fill rate guarantee?
 - b. What are your delivery days?
 - c. Do you offer next day delivery?
 - d. How do you facilitate emergency orders?
 - e. Are shipping charges exempt for ALL who use this contract?
 - f. Describe how problems (such as a customer ordering a wrong product or a customer receiving a defective product; etc.) are resolved.
10. Describe the types of customer service available to agencies that use this contract:

- a. Is online support available?
 - b. Is phone support available?
 - c. Can agencies request a dedicated service representative and/or a dedicated service team? If a dedicated customer service representative and/or team are assigned, what types of services does the representative/team provide? How do you help the customer manage our account?
 - d. How are problems resolved?
 - e. What are the location and hours of your call centers?
 - f. What response time is guaranteed when a customer service request is made?
 - g. Do you measure/track the success of your customer service program? If so, how do you do this, and what are your findings?
11. Describe the warranty period of products. Submit information on your warranty program.
12. Describe how your firm will notify customers of new products.
13. Describe how your firm notifies customers of discontinued products?
14. Describe if technical support questions are handled the same way as a customer service request? If not, describe the type(s) of technical support available, the location of technical support, and the hours of technical support.
15. Describe the proposed verifiable pricing formula or guaranteed discount matrix for new products introduced.
16. Describe what other services you offer that would be applicable to this contract (e.g., leasing/financing, services, maintenance, implementation, design, analysis, training, repair, etc.)

B. Price Proposal

1. Provide price proposal as requested on the Price Page attached herein. In addition to indicating your proposed discounts on the Price Page, you must also apply those discounts to the sample items in the Sample Items List in Attachment A.
2. Propose and provide details of additional discounts or rebates for volume orders, special manufacturers' offers, free goods program, total annual spend, etc.
3. As stated in the Instructions to Offerors, 7. Discounts, the price(s) herein can be discounted by _____%, if payment is made within _____ days. These payment terms shall apply to all purchases and to all payment methods.
4. Will payment be accepted via commercial credit card? _____Yes _____No
 - a. If yes, can commercial payment(s) be made online? _____Yes _____No
 - b. Will a third party be processing the commercial credit card payment(s)? _____Yes _____No
 - c. If yes, indicate the flat fee per transaction \$_____ (as allowable, per Section 5.2.E of Visa Operating Regulations).
 - d. If "no" to above, will consideration be given to accept the card? _____Yes _____No
5. Does your firm have a City of Tucson Business License? _____Yes _____No
If yes, please provide a copy of your City of Tucson Business license.

C. Qualifications and Experience

1. Provide a brief history and description of your firm. Discuss firm's national presence in the IT solutions industry.
2. Provide the total number and location of sales persons employed by your firm.
3. Provide the number and location of support centers (if applicable).
4. Provide your firm's annual sales for 2009, 2010, and 2011.
5. Please submit your FEIN and Dunn & Bradstreet report.

6. Provide a summarization of your experience in performing work similar to that outlined in this solicitations. Provide a minimum of three references for which your firm has provided the same solution (please include company name, address, contact person, phone number, email address and dates of service). References from other public agencies, particularly municipal governments, are preferred.
7. Provide resumes and three references (preferably from the public sector) for the primary customer service representative(s). Resume(s) shall include their title within the organization, a description of the type of work they would perform, the individuals' credentials, background, years of experience and relevant experience, etc. References shall include the contact's name, phone number, email, position, organization, and the work which the Offeror performed for the reference.
8. Provide information regarding if your organization ever failed to complete any work awarded.
9. Provide information regarding if your firm, either presently or in the past, has been involved in any litigation, bankruptcy, or reorganization.

D. Technology

1. Describe your website and the ease-of-use for customers to perform the following types of tasks:
 - a. to search for products
 - b. to find alternate products (if a certain product is not available)
 - c. to perform side-by-side price comparison of products
 - d. to order products
 - e. to order products in advance (i.e., how far in advance of required delivery date can an order be placed?)
 - f. to track order status, to include backordered items
 - g. to determine when an item was received and who received it
 - h. to restrict/block the ordering of certain line items and to restrict/block the ordering of groups
 - i. to create approval paths/levels for orders, to include creating an approval path for restricted items
 - j. to create a "favorites" list or other personalized list of frequently ordered items
 - k. to create a "shared" list for an agency to use
 - l. to obtain online customer service
 - m. to receive online training
 - n. to accept credit card payment (and describe the level of data offered; also describe your security measures for credit card orders)
 - o. to track their budget for purchases
 - p. to generate reports
2. Describe additional functionality offered by your website. Provide screen shots, a demo "CD," a demo URL, a manual, etc., or any other format that will aid the City in our evaluation of your website.
3. Describe any national awards and/or other recognition that your website has received.
4. Describe the hours your website is available? What are your hours of downtime, such as for system maintenance?
5. Does your website offer real time product availability?
6. Does your website offer order size incentives? For example, if an order reaches a certain amount, is there a discount that is offered and, if so, how is that conveyed to the customer?
7. Describe the types of email confirmations that your website generates. What events trigger an email going to the customer?

8. Describe the registration process to set up new customers for your online ordering process. Is self-registration available? If an agency does not want self-registration, are you available to assist in the registration process?
9. Describe if your website can be customized for an agency's specific needs, such as placing our logo on your website, associating an agency blanket purchase order number on all orders, creating a bulletin board or other place to display customized messages, displaying approved configurations, naming certain fields (i.e., user defined fields), etc.
10. Describe the types of online reporting that are available. Is customized reporting available?
11. Describe your online return process (if available).
12. Describe any third-party integration that you have successfully implemented. For example, is your website integrated with any third-party procurement, financial, or purchasing/credit card systems?
13. Describe your strategic vision for your website – i.e., Is new functionality expected to be added? If so, describe the functionality and the timeline for implementation. How often is the web redesigned? As technology evolves (for example, new search engines are more robust), does your website evolve, too? Etc.

III. GENERAL

A. Shortlist:

The City reserves the right to shortlist the offerors on the stated criteria. However, the City may determine that shortlisting is not necessary.

B. Interviews:

The City reserves the right to conduct interviews with some or all of the offerors at any point during the evaluation process. However, the City may determine that interviews are not necessary. In the event interviews are conducted, information provided during the interview process shall be taken into consideration when evaluating the stated criteria. The City shall not reimburse the offeror for the costs associated with the interview process.

C. Additional Investigations:

The City reserves the right to make such additional investigations as it deems necessary to establish the competence and financial stability of any offeror submitting a proposal.

D. Prior Experience:

Experiences with the City and entities that evaluation committee members represent and that are not specifically mentioned in the solicitation response may be taken into consideration when evaluating offers.

E. Multiple Awards:

To provide adequate contract coverage, at the City's sole discretion, multiple awards may be made.

SPECIAL TERMS AND CONDITIONS

- 1. COOPERATIVE PURCHASING:** Any Contract resulting from this solicitation shall be for the use of the City of Tucson. In addition, public and nonprofit agencies that have entered into a Cooperative Purchasing Agreement with the City of Tucson's Department of Procurement are eligible to participate in any subsequent Contract. See http://www.tucsonprocurement.com/coop_partners.aspx and click on Cooperatives for a list of the public and nonprofit agencies that have currently entered into Cooperative Purchasing Agreements with the City of Tucson. Additionally, this contract is eligible for use by the Strategic Alliance for Volume Expenditures (SAVE) cooperative. See <http://www.maricopa.gov/Materials/PubDocuments/SAVE-members.pdf> for a listing of participating agencies. The parties agree that these lists are subject to change.

Any orders placed to, or services required from, the successful Contractor(s) will be requested by each participating agency. Payment for purchases made under this agreement will be the sole responsibility of each participating agency. The Contractor may negotiate additional expenses incurred as a result of participating agencies' usage of this contract (i.e., freight charges, travel related expenses, etc.). The City shall not be responsible for any disputes arising out of transactions made by others.

The Contractor(s) will provide an electronic copy of the complete Contract to the City of Tucson Department of Procurement upon receipt of the Notice of Intent to Award. At the City's request, the successful Contractor(s) may also be requested to provide an electronic copy of the complete Contract to a participating agency.

- 2. FOB DESTINATION FREIGHT PREPAID:** Prices shall be FOB Destination Freight Prepaid to the delivery location designated. Contractor shall retain title and control of all goods until they are delivered and the Contract of coverage has been completed. All risk of transportation and all related charges shall be the responsibility of the Contractor. All claims for visible or concealed damage shall be filed by the Contractor. The City will assist the Contractor in arranging for inspection.
- 3. PAYMENTS:** All payments made by the City of Tucson for goods or services will be made to the vendor named on the Offer and Acceptance form. If you do not wish payment to be made to that address, you must submit an attached sheet indicating the proper mailing address with this bid.
- 4. RIGHT TO TERMINATE FOR CHANGE IN OWNERSHIP OR MATERIAL RESTRUCTURE OF THE CONTRACTOR:** In addition to Termination of Contract, in the Standard Terms and Conditions section of this solicitation and resulting contract, the City reserves the right to cancel the whole or part of this contract within 60 days written notice of the completion of any material change of ownership in the Contractor's company, including its sale, merger, consolidation or dissolution.
- 5. FEDERAL, STATE AND LOCAL TAXES, LICENSES AND PERMITS:** The Supplier shall comply with all Federal, State, and local licenses and permits required for the operation of the business conducted by the Supplier as applicable to this Contract. The Supplier shall, at no expense to the City, National IPA, or other Participating Agencies, procure and keep in force during the entire period of the Agreement all such permits and licenses.
- 6. PRICE ADJUSTMENT:** The City will review fully documented requests for price adjustment after any Contract has been in effect for one (1) year. Any price adjustment will only be made at the time of Contract renewal and/or extension and will be a factor in the extension review process. The City will determine whether the requested price adjustment or an alternate option, is in the best interest of the City. Any price adjustment will be effective upon the effective date of the Contract extension.

- 7. TERM AND RENEWAL:** The term of the Contract shall commence upon award or August 18, 2013, whichever is later, and shall remain in effect for a period of one (1) year, unless terminated, canceled or extended as otherwise provided herein. The Contractor agrees that the City of Tucson shall have the right, at its sole option, to renew the Contract for four (4) additional one-year periods or portions thereof. In the event that the City exercises such rights, all terms, conditions and provisions of the original Contract shall remain the same and apply during the renewal period with the possible exception of price and minor scope additions and/or deletions.

STANDARD TERMS AND CONDITIONS

- 1. ADVERTISING:** Contractor shall not advertise or publish information concerning this Contract without prior written consent of the City's Director of Procurement.
- 2. AFFIRMATIVE ACTION:** Contractor shall abide by the provisions of the Tucson Procurement Code Chapter 28, Article XII.
- 3. AMERICANS WITH DISABILITIES ACT:** The Contractor shall comply with all applicable provisions of the Americans with Disabilities Act (Public Law 101-336, 42 U.S.C. 12101, et seq.) and applicable Federal regulations under the Act.
- 4. APPLICABLE LAW:** This Contract shall be governed, and the City and Contractor shall have all remedies afforded to each, by the Tucson Procurement Code and the law of the State of Arizona. State law claims shall be brought only in Pima County Superior Court.
- 5. ASSIGNMENT-DELEGATION:** No right or interest in this Contract shall be assigned by the Contractor without prior written permission of the City, and no delegation of any duty of the Contractor shall be made without prior written permission of the City's Director of Procurement. The City shall not unreasonably withhold approval and shall notify the Contractor of the City's position by written notice.
- 6. CERTIFICATION OF COMPLIANCE WITH A.R.S. SEC. 35-393 ET SEQ.:** By signing this contract, the Contractor certifies that it does not have scrutinized business operations in Iran as required by A.R.S. sec. 35-393 et seq. If the City determines that the Contractor has submitted a false certification, the City may impose remedies as provided in the Tucson Procurement Code up to and including termination of this contract.
- 7. CHILD/SWEAT-FREE LABOR POLICY:** The Contractor shall comply with all applicable provisions of the United States Federal and State Child Labor and Worker's Right laws and agrees if called upon to affirm in writing, that they, and any subcontractor involved in the provision of goods to the City, are in compliance.
- 8. CLEAN UP:** The Contractor shall at all times keep the contract area, including storage areas used by the Contractor, free from accumulation of waste material or rubbish and, prior to completion of the work, remove any rubbish from the premises and all tools, scaffolding, equipment and materials not property of the City. Upon completion of the repair, the Contractor shall leave the work and premises in clean, neat and workmanlike condition.
- 9. COMMENCEMENT OF WORK:** The Contractor is cautioned not to commence any billable work or provide any material or service under this Contract until Contractor receives purchase order or is otherwise directed to do so, in writing, by the City.
- 10. CONFIDENTIALITY OF RECORDS:** The Contractor shall establish and maintain procedures and controls that are acceptable to the City for the purpose of assuring that no information contained in its records or obtained from the City or from others in carrying out its functions under the Contract shall be used by or disclosed by it, its agents, officers, or employees, except as required to efficiently perform duties under the Contract. Persons requesting such information should be referred to the City. Information pertaining to individual persons shall not be divulged other than to employees or officers of Contractor as needed for the performance of duties under the Contract, unless otherwise agreed to in writing by the City.
- 11. CONTRACT AMENDMENTS:** The Procurement Department has the sole authority to:
 - A. Amend the contract or enter into supplemental verbal or written agreements;
 - B. Grant time extensions or contract renewals;
 - C. Otherwise modify the scope or terms and provisions of the contract.

This Contract shall only be modified with the approval of the Department of Procurement. Except in the case of a documented emergency, approval must be granted prior to performance. Any contract modification not explicitly approved by the Procurement Department through a written contract amendment or change order is performed at the sole risk of the Contractor and may not be eligible for payment by the City.

- 12. CONTRACT:** The Contract shall be based upon the Request for Proposal issued by the City and the Offer submitted by the Contractor in response to the Request for Proposal. The offer shall substantially conform to the terms, conditions, specifications and other requirements set forth within the text of the Request for Proposal. The City reserves the right to clarify any contractual terms with the concurrence of the Contractor; however, any substantial non-conformity in the offer, as determined by the City's Director of Procurement, shall be deemed non-responsive and the offer rejected. The Contract shall contain the entire agreement between the City of Tucson and the Contractor relating to this requirement and shall

prevail over any and all previous agreements, contracts, proposals, negotiations, purchase orders, or master agreements in any form.

- 13. DEFAULT IN ONE INSTALLMENT TO CONSTITUTE TOTAL BREACH:** Contractor shall deliver conforming materials in each installment or lot of this Contract and may not substitute nonconforming materials. Delivery of nonconforming materials, or default of any nature, may constitute breach of the Contract. Noncompliance may be deemed a cause for possible Contract termination.
- 14. DUPLEXED/RECYCLED PAPER:** In accordance with efficient resource procurement and utilization policies adopted by the City of Tucson, the Contractor shall ensure that, whenever practicable, all printed materials produced by the Contractor in the performance of this Contract are duplexed (two-sided copies), printed on recycled paper and labeled as such.
- 15. EXCLUSIVE POSSESSION:** All services, information, computer program elements, reports and other deliverables created under this Contract are the sole property of the City of Tucson and shall not be used or released by the Contractor or any other person except with prior written permission by the City.
- 16. FEDERAL IMMIGRATION LAWS AND REGULATIONS:** Contractor warrants that it complies with all Federal Immigration laws and regulations that relate to its employees and complies with A.R.S. § 23-214(A) and that it requires the same compliance of all subcontractors under this Contract. Contractor acknowledges that pursuant to A.R.S. § 41-4401 and effective September 30, 2008, a breach of this warranty is a material breach of this Contract subject to penalties up to and including termination of this Contract. The City retains the legal right to audit the records of the Contractor and inspect the papers of any employee who works for the Contractor to ensure compliance with this warranty and the Contractor shall assist in any such audit. The Contractor shall include the requirements of this paragraph in each contract with subcontractors under this Contract.

If the Contractor or subcontractor warrants that it has complied with the employment verification provisions prescribed by sections 274(a) and 274(b) of the Federal Immigration and Nationality Act and the E-verify requirements prescribed by A.R.S. § 23-214(A), the Contractor or subcontractor shall be deemed to be in compliance with this provision. The City may request proof of such compliance at any time during the term of this Contract by the Contractor and any subcontractor.

- 17. FORCE MAJEURE:** Except for payment of sums due, neither party shall be liable to the other nor deemed in default under this Contract if and to the extent that such party's performance of this Contract is prevented by reason of Force Majeure. The term "Force Majeure" means an occurrence that is beyond the control of the party affected and occurs without its fault or negligence. Force Majeure shall not include late performance by a subcontractor unless the delay arises out of a Force Majeure occurrence in accordance with this Force Majeure term and condition.

If either party is delayed at any time in the progress of the work by Force Majeure, the delayed party shall notify the other party in writing of such delay, as soon as is practical, of the commencement thereof and shall specify the causes of such delay in such notice. Such notice shall be hand-delivered or mailed certified-return receipt and shall make a specific reference to this article, thereby invoking its provisions. The delayed party shall cause such delay to cease as soon as practicable and shall notify the other party in writing when it has done so. The time of completion shall be extended by contract modification for a period of time equal to the time that results or effects of such delay prevent the delayed party from performing in accordance with this Contract.

- 18. GRATUITIES:** The City may, by written notice to the Contractor, terminate this Contract if it is found that gratuities, in the form of entertainment, gifts, meals or otherwise, were offered or given by the Contractor or any agent or representative of the Contractor, to any officer or employee of the City amending, or the making of any determinations with respect to the performing of such Contract. In the event this Contract is terminated by the City pursuant to this provision, the City shall be entitled, in addition to any other rights and remedies, to recover or withhold from the Contractor the amount of the gratuity.

- 19. HUMAN RELATIONS:** Contractor shall abide by the provisions of the Tucson City Code Chapter 28, Article XII.

- 20. INDEMNIFICATION:** To the fullest extent permitted by law, Contractor, its successors, assigns and guarantors, shall pay, defend, indemnify and hold harmless the City of Tucson, its agents, representatives, officers, directors, officials and employees from and against all allegations, demands, proceedings, suits, actions, claims, including claims of patent or copyright infringement, damages, losses, expenses, including but not limited to, attorney fees, court costs, and the cost of appellate proceedings, and all claim adjusting and handling expense, related to, arising from or out of or resulting from any actions, acts, errors, mistakes or omissions caused in whole or part by Contractor relating to work, services and/or products provided in the performance of this Contract, including but not limited to, any Subcontractor or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable and any injury or damages claimed by any of Contractor's and Subcontractor's employees.

- 21. INDEPENDENT CONTRACTOR:** It is understood that each party shall act in its individual capacity and not as an agent, employee, partner, joint venturer, or associate of the other. An employee or agent of one party shall not be deemed or construed to be the employee or agent of the other party for any purpose.

The Contractor shall not be entitled to compensation in the form of salaries, paid vacation or sick days by the City.

The City of Tucson will not provide any insurance coverage to the Contractor, including Worker's Compensation coverage. The Contractor is advised that taxes, social security payments, and other withholdings shall not be withheld from a City payment issued under this Contract and that Contractor should make arrangements to directly pay such expenses.

- 22. INSPECTION AND ACCEPTANCE:** All material or service is subject to final inspection and acceptance by the City. Material or service failing to conform to the specifications of this Contract shall be held at the Contractor's risk and may be returned to the Contractor. If returned, all costs are the responsibility of the Contractor. Noncompliance may be deemed a cause for possible Contract termination.

- 23. INTERPRETATION-PAROLE EVIDENCE:** This Contract is intended by the parties to be a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of this agreement. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any term used in the Contract. Acceptance or consent in the course of performance under this Contract shall not be relevant to determine the meaning of this Contract even though the accepting or consenting party has knowledge of the nature of the performance and the opportunity to object.

- 24. LICENSES:** Contractor shall maintain in current status all Federal, State, and local licenses and permits required for the operation of the business conducted by the Contractor as applicable to this Contract.

- 25. LIENS:** All materials, services, and other deliverables supplied to the City under this Contract shall be free of all liens other than the security interest. Security interest shall extinguish upon full payment made by the City. Upon the City's request, the Contractor shall provide a formal release of all liens.

- 26. NO REPLACEMENT OF DEFECTIVE TENDER:** Every tender of materials must fully comply with all provisions of this Contract. If a tender is made which does not fully comply, this shall conform to the termination clause set forth within this document.

- 27. NON-EXCLUSIVE CONTRACT:** Any contract resulting from this solicitation shall be awarded with the understanding and agreement that it is for the sole convenience of the City of Tucson. The City reserves the right to obtain like goods or services from another source when necessary.

- 28. OVERCHARGES BY ANTITRUST VIOLATIONS:** The City maintains that, in actual practice, overcharges resulting from antitrust violations are borne by the purchaser. Therefore, to the extent permitted by law, the Contractor hereby assigns to the City any and all claims for such overcharges as to the materials or services used to fulfill the Contract.

- 29. PAYMENT:** The City's preferred method of payment is via credit card. The City will issue a Purchase Order and, in some cases, either provide a credit card for payment at the time of ordering or pay subsequent invoices by credit card upon receipt of goods or services in good order. However, not all City employees will possess a credit card and, therefore, the City reserves the right to make payment by check as it deems necessary.

Unless payment is made by credit card at time of order or point of sale, a separate invoice shall be issued for each shipment of material or service performed, and no payment shall be issued prior to receipt of material or service and correct invoice.

The City shall make every effort to process payment for the purchase of materials or services within twenty-one (21) calendar days after receipt of materials or services and a correct invoice.

The Contractor's payment terms shall apply to all purchases and to all payment methods.

- 30. PROTECTION OF GOVERNMENT PROPERTY:** The Contractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation (such as trees, shrubs, and grass) on City property. If the Contractor fails to do so and damages such property, the Contractor shall replace or repair the damage at no expense to the City, as determined and approved by the City's Director of Procurement. If the Contractor fails or refuses to make such repair or replacement, the City will determine a cost and the Contractor shall be liable for the cost thereof, which may be deducted from the Contract price.

- 31. PROVISIONS REQUIRED BY LAW:** Each and every provision of law and any clause required by law to be in the Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not correctly inserted, then upon the application of either party the Contract shall be amended to make such insertion or correction.
- 32. RECORDS:** Internal control over all financial transactions related to this Contract shall be in accordance with sound fiscal policies. The City may, at reasonable times and places, audit the books and records of the Contractor and/or any subcontractors. Said audit shall be limited to this Contract.
- 33. RIGHT TO ASSURANCE:** Whenever one party to this Contract has reason to question, in good faith, the other party's intent to perform, the former party may demand that the other party give a written assurance of this intent to perform. In the event that a demand is made and no written assurance is given within five (5) days, the demanding party may treat this failure as the other party's intent not to perform and as a cause for possible Contract termination.
- 34. RIGHT TO INSPECT:** The City may, at reasonable times, and at the City's expense, inspect the place of business of a Contractor or subcontractor which is related to the performance of any Contract as awarded or to be awarded.
- 35. RIGHTS AND REMEDIES:** No provision in this document or in the Contractor's proposal shall be construed, expressly or by implication, as a waiver by either party of any existing or future right and/or remedy available by law in the event of any claim, default or breach of contract. The failure of either party to insist upon the strict performance of any term or condition of the Contract, to exercise or delay the exercise of any right or remedy provided in the Contract or by law, or to accept materials or services required by this Contract or by law shall not be deemed a waiver of any right of either party to insist upon the strict performance of the Contract.
- 36. SEVERABILITY:** The provisions of this Contract are severable to the extent that any provision or application held to be invalid shall not affect any other provision or application of the Contract which may remain in effect without the valid provision or application.
- 37. SHIPMENT UNDER RESERVATION PROHIBITED:** No tender of a bill of lading shall operate as a tender of the materials. Non-compliance shall conform to the termination clause set forth within this document.
- 38. SUBCONTRACTS:** No subcontract shall be entered into by the Contractor with any other party to furnish any of the material/service specified herein without the advance written approval of the City's Director of Procurement. All subcontracts shall comply with Federal and State laws and regulations which are applicable to the services covered by the subcontract and shall include all the terms and conditions set forth herein which shall apply with equal force to the subcontract, as if the subcontractor were the Contractor referred to herein. The Contractor is responsible for contract performance whether or not subcontractors are used.
- 39. SUBSEQUENT EMPLOYMENT:** The City may terminate this Contract without penalty or further obligation pursuant to A.R.S. Section 38-511 if any person significantly involved in initiating, negotiating, securing, drafting, or creating the Contract, on behalf of the City, is or becomes, at any time while the Contract or any extension of the Contract is in effect, an employee of, or a contractor to, any other party to this Contract with respect to the subject matter of the Contract. Termination shall be effective when written notice from the City's Director of Procurement is received by the parties to this Contract, unless the notice specifies a later time.
- 40. TERMINATION OF CONTRACT:** This Contract may be terminated at any time by mutual written consent, or by the City, with or without cause, upon giving thirty (30) days written notice. The City, at its convenience, by written notice, may terminate this Contract, in whole or in part. If this Contract is terminated, the City shall be liable only for payment under the payment provisions of this Contract for services rendered and accepted material received by the City before the effective date of termination.

The City reserves the right to terminate the whole or any part of this Contract due to the failure of the Contractor to carry out any term or condition of the Contract. The City will issue a written ten (10) day notice of default to the Contractor for acting or failing to act as specified in any of the following:

In the opinion of the City, the Contractor provides personnel that do not meet the requirements of the Contract;

In the opinion of the City, the Contractor fails to perform adequately the stipulations, conditions or services/specifications required in this Contract;

In the opinion of the City, the Contractor attempts to impose personnel, materials, products or workmanship of an unacceptable quality;

The Contractor fails to furnish the required service and/or product within the time stipulated in the Contract;

In the opinion of the City, the Contractor fails to make progress in the performance of the requirements of the Contract;

The Contractor gives the City a positive indication that the Contractor will not or cannot perform to the requirements of the Contract.

Each payment obligation of the City created by this Contract is conditioned upon the availability of City, State and Federal funds that are appropriated or allocated for the payment of such an obligation. If funds are not allocated by the City and available for the continued purchase of the services and/or materials provided under this Contract, this Contract may be terminated by the City at the end of the period for which funds are available. The City will endeavor to notify the Contractor in the event that continued service will or may be affected by non-appropriation. No penalty shall accrue to the City in the event this provision is exercised, and the City shall not be obligated or liable for any future payments due or for any damages as a result of termination under this paragraph.

41. TITLE AND RISK OF LOSS: The title and risk of loss of material or service shall not pass to the City until the City actually receives the material or service at the point of delivery, unless otherwise provided within this Contract.

42. WARRANTIES: Contractor warrants that all material or service delivered under this Contract shall conform to the specifications of this Contract. Mere receipt of shipment of the material or service specified and any inspection incidental thereto by the City shall not alter or affect the obligations of the Contractor or the rights of the City under the foregoing warranties. Additional warranty requirements may be set forth in this document.

PRICE PAGE

For each item listed on the Price Pages, Offerors are encouraged to offer a discount off of a verifiable price list by all manufacturers that they choose to propose. For example, Group 2, Item 4 is Keyboards. An offeror may wish to propose more than one manufacturer of keyboards, such as Logitech, Fellows, Belkin, Kensington, Tripplite, etc. Offerors should provide a separate discount for each manufacturer that they propose. Offerors should add additional rows to the price page in order to accommodate additional manufacturers' discounts.

THIS PAGE LEFT BLANK INTENTIONALLY

ATTACHMENT A: SAMPLE ITEMS LIST

NOTE: For each item listed below, offeror should fill in the yellow cells only. In the "Unit Price Before Discount" column, offeror should enter the unit price for the specified item before their discount is applied. In the "Discount" column, offeror should enter the discount that they are proposing to offer for the specified item. The discount entered in the "Discount" column should match the discount that offeror identified on the Price Page. The "Unit Price After Discount" column will autopopulate based on the entries in the two preceding columns.

Note: For the sole purpose of helping to identify the sample items below, the CDW-G Part # is also being provided for each item.

Requirements for National Cooperative Contract To be Administered by National Intergovernmental Purchasing Alliance Company

The following documents are used in evaluating and administering national cooperative contracts and are included for Supplier's review and response.

National IPA Exhibit A – NATIONAL IPA RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

National IPA Exhibit B – NATIONAL IPA ADMINISTRATION AGREEMENT, EXAMPLE

National IPA Exhibit C – NATIONAL IPA MASTER INTERGOVERNMENTAL COOPERATIVE PURCHASING AGREEMENT, EXAMPLE

National IPA Exhibit D – NATIONAL IPA PRINCIPAL PROCUREMENT AGENCY CERTIFICATE, EXAMPLE

National IPA Exhibit E – NATIONAL IPA CONTRACT SALES REPORTING TEMPLATE

National IPA Exhibit F – NATIONAL IPA ADVERTISING COMPLIANCE REQUIREMENT

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT A- RESPONSE FOR NATIONAL COOPERATIVE CONTRACT**

1.0 Scope of National Cooperative Contract

1.1 Requirement

The City of Tucson (hereinafter defined and referred to as “Principal Procurement Agency”), on behalf of itself and the National Intergovernmental Purchasing Alliance Company (“National IPA”), is requesting proposals for Informational Technology Solutions. The intent of this Request for Proposal is that any contract between Principal Procurement Agency and Supplier resulting from this Request for Proposal (hereinafter defined and referred to as the “Master Agreement”) be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (“Public Agencies”), through National IPA’s cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with National IPA (an example of which is included as Exhibit D) and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency, including the Principal Procurement Agency, will be preceded by their registration with National IPA as a Participating Public Agency in National IPA’s cooperative purchasing program. Registration with National IPA as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C. The terms and pricing established in the resulting Master Agreement between the Supplier and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through National IPA.

All transactions, purchase orders, etc., will occur directly between the Supplier and each Participating Public Agency individually, and neither National IPA, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Supplier for any acts, liabilities, damages, etc. incurred by any other Participating Public Agency.

This Exhibit A defines the expectations for qualifying Suppliers based on National IPA’s requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Suppliers on a national level in order to serve Participating Public Agencies through National IPA.

These requirements are incorporated into and are considered an integral part of this RFP. National IPA reserves the right to determine whether or not to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies.

1.2 Marketing and Administrative Support

During the term of the Master Agreement National IPA intends to provide marketing and administrative support for Supplier pursuant to this section 1.2 that directly promotes the Supplier’s products and services to Participating Public Agencies

NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT A- NATIONAL IPA RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis.

The National IPA marketing team will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

- A. Marketing collateral (print, email, presentations)
- B. Website support
- C. Trade shows/conferences/meetings
- D. Advertising

The National IPA sales teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

- A. Individual sales calls
- B. Joint sales calls
- C. Communications/customer service
- D. Training sessions for Public Agency teams
- E. Training sessions for Supplier teams

The National IPA contracting teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies prospective Public Agencies through:

- A. Serving as the subject matter expert for questions regarding joint powers authority and state statutes and regulations for cooperative purchasing
- B. Training sessions for Public Agency teams
- C. Training sessions for Supplier teams
- D. Regular business reviews to monitor program success
- E. General contract administration

Suppliers are required to pay an administrative fee of 1.5% of the greater of the Contract Sales under the Master Agreement and guaranteed Contract Sales under this Request for Proposal. Supplier will be required to execute the National IPA Administration Agreement (refer to Exhibit B).

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the National Intergovernmental Purchasing Alliance Company Administration Agreement between Supplier and National IPA (the "National IPA Administration Agreement")

1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately \$100,000,000 annually. While no minimum volume is guaranteed to Supplier, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through National IPA, and volume growth into other Public Agencies through a coordinated marketing approach between Supplier and National IPA.

1.4 Award Basis

The basis of any contract award resulting from this RFP made by Principal Procurement Agency will be the basis of award on a national level through National IPA. If multiple suppliers are awarded by Principal Procurement Agency under the Master Agreement, those same suppliers will be required to extend the Master Agreement to Participating Public Agencies through National IPA. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency are subject to modification for each Participating Public Agency as Supplier, such Participating Public Agency and National IPA shall agree.

1.5 Objectives of Cooperative Program

This RFP is intended to achieve the following objectives regarding availability through National IPA's cooperative program:

- A. Provide a comprehensive competitively solicited and awarded national agreement offering the Products covered by this solicitation to Participating Public Agencies;
- B. Establish the Master Agreement as the Supplier's primary go to market strategy to Public Agencies nationwide;
- C. Achieve cost savings for Supplier and Public Agencies through a single solicitation process that will reduce the Supplier's need to respond to multiple solicitations;
- D. Combine the aggregate purchasing volumes of Participating Public Agencies to achieve cost effective pricing.

2.0 REPRESENTATIONS AND COVENANTS

As a condition to Supplier entering into the Master Agreement, which would be available to all Public Agencies, Supplier must make certain representations, warranties and covenants to both the Principal Procurement Agency and National IPA designed to ensure the success of the Master Agreement for all Participating Public Agencies as well as the Supplier.

2.1 Corporate Commitment

Supplier commits that (1) the Master Agreement has received all necessary corporate authorizations and support of the Supplier's executive management, (2) the Master Agreement is Supplier's primary "go to market" strategy for Public Agencies, (3) the Master Agreement will be promoted to all Public Agencies, including any existing customers, and Supplier will transition existing customers, upon their request, to the Master Agreement, and (4) that the Supplier has read and agrees to the terms and conditions of the Administration Agreement with National IPA and will execute such agreement concurrent with and as a condition of its execution of the Master Agreement with the Principal Procurement Agency. Supplier will identify an executive corporate sponsor and a separate national account manager within the RFP response that will be responsible for the overall management of the Master Agreement.

2.2 Pricing Commitment

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT A- NATIONAL IPA RESPONSE FOR NATIONAL COOPERATIVE CONTRACT**

Supplier commits that the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, that the Supplier will match such lower pricing to that Participating Public Agency under the Master Agreement.

2.3 Sales Commitment

Supplier commits to aggressively market the Master Agreement as its go to market strategy in this defined sector and that its sales force will be trained, engaged and committed to offering the Master Agreement to Public Agencies through National IPA nationwide. Supplier commits that all Master Agreement sales will be accurately and timely reported to National IPA in accordance with the National IPA Administration Agreement. Supplier also commits that its sales force will be compensated, including sales incentives, for sales to Public Agencies under the Master Agreement in a consistent or better manner compared to sales to Public Agencies if the Supplier were not awarded the Master Agreement.

3.0 SUPPLIER QUALIFICATIONS

Supplier must supply the following information in order for the Principal Procurement Agency to determine Supplier's qualifications to extend the resulting Master Agreement to Participating Public Agencies through National IPA.

3.1 Company

- A. Brief history and description of your company.
- B. Total number and location of sales persons employed by your company.
- C. Number and location of support centers (if applicable).
- D. Annual sales for the three previous fiscal years.
- E. Submit your FEIN and Dunn & Bradstreet report.

3.2 Distribution, Logistics

- A. Describe how your company proposes to distribute the products/service nationwide.
- B. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.
- C. Provide the number, size and location of your company's distribution facilities, warehouses and retail network as applicable.
- D. State any return and restocking policy and fees, if applicable, associated with returns.

3.3 Marketing and Sales

- A. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as your company's primary go to market strategy for Public Agencies to your teams nationwide, to include, but not limited to:
 - i. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days
 - ii. Training and education of your national sales force with participation from the executive leadership of your company, along with the National IPA team within first 90 days

NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT A- NATIONAL IPA RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

- B. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:
- i. Creation and distribution of a co-branded press release to trade publications within first 10 days
 - ii. Announcement, contract details and contact information published on the company website within first 30 days
 - iii. Design, publication and distribution of co-branded marketing materials within first 90 days
 - iv. Commitment to attendance and participation with National IPA at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement
 - v. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by National IPA for partner suppliers. Booth space will be purchased and staffed by your company. In addition, you commit to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by National IPA.
 - vi. Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement
 - vii. Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, etc.)
 - viii. Dedicated National IPA internet web-based homepage with:
 - National IPA standard logo;
 - Copy of original Request for Proposal;
 - Copy of contract and amendments between Principal Procurement Agency and Supplier;
 - Summary of Products and pricing;
 - Marketing Materials
 - Electronic link to National IPA's online registration page;
 - A dedicated toll free number and email address for National IPA
- C. Describe how your company will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through National IPA. Include a list of current cooperative contracts (regional and national) your company holds and describe how the Master Agreement will be positioned among the other cooperative agreements.
- D. Acknowledge that your company agrees to provide its company/corporate logo(s) to National IPA and agrees to provide permission for reproduction of such logo in marketing communications and promotions.
- E. Supplier is responsible for proactive direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by National IPA. All sales materials are to use the National IPA logo. At a minimum, the Supplier's sales initiatives should communicate:
- i. Master Agreement was competitively solicited by a Principal Procurement Agency
 - ii. Best government pricing
 - iii. No cost to participate

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT A- NATIONAL IPA RESPONSE FOR NATIONAL COOPERATIVE CONTRACT**

- iv. Non-exclusive contract
- F. Supplier is responsible for the training of its national sales force on the Master Agreement. At a minimum, sales training should include:
 - i. Key features of Master Agreement
 - ii. Working knowledge of the solicitation process
 - iii. Awareness of the range of Public Agencies that can utilize the Master Agreement through National IPA
- G. Provide contact information for the person(s), who will be responsible for:
 - i. Marketing
 - ii. Sales
 - iii. Sales Support
 - iv. Financial Reporting
 - v. Contracts
- H. Describe in detail how your company's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.
- I. Explain in detail how the sales teams will work with the National IPA team to implement, grow and service the national program.
- J. Explain in detail how your organization will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, etc.
- K. State the amount of your company's Public Agency sales for the previous fiscal year. Provide a list of your top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.
- L. Describe your company's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.
- M. Provide the Contract Sales (as defined in Section 10 of the National Intergovernmental Purchasing Alliance Company Administration Agreement) that your company will guarantee each year under the Master Agreement for the initial three years of the Master Agreement.

\$_____.00 in year one

\$_____.00 in year two

\$_____.00 in year three

- N. Even though it is anticipated that many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation that is for Products covered under the Master Agreement.
 - i. Respond with Master Agreement pricing (Contract Sales reported to National IPA).
 - ii. If competitive conditions require pricing lower than the standard Master Agreement pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to National IPA under the Master Agreement.

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT A- NATIONAL IPA RESPONSE FOR NATIONAL COOPERATIVE CONTRACT**

- iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement.
- iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Detail your strategies under these options when responding to a solicitation.

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT B-NATIONAL IPA ADMINISTRATION AGREEMENT**

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY
ADMINISTRATION AGREEMENT**

This ADMINISTRATION AGREEMENT is made this ____ day of _____ 20____, between National Intergovernmental Purchasing Alliance Company ("National IPA"), and _____ (herein "Supplier").

RECITALS

WHEREAS, the _____ (herein "Principal Procurement Agency") has entered into a Master Agreement dated _____, Agreement No _____, by and between the Principal Procurement Agency and Supplier, (as may be amended from time to time in accordance with the terms thereof, the "Master Agreement"), for the purchase of _____ (herein "Product");

WHEREAS, said Master Agreement provides that any or all public agencies, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), that register with National IPA or otherwise execute a Master Intergovernmental Cooperative Purchasing Agreement (hereinafter referred to as a "Participating Public Agency") may purchase Product at prices stated in the Master Agreement;

WHEREAS, National IPA serves as the contract administrator for Principal Procurement Agency with regard to the Master Agreement, which is offered through National IPA to Public Agencies;

WHEREAS, Principal Procurement Agency desires National IPA to proceed with administration of the Master Agreement; and

WHEREAS, National IPA and Supplier desire to enter into this Agreement to make available the Master Agreement to Participating Public Agencies on a national basis and to set forth certain terms and conditions governing the relationship between National IPA and Supplier.

NOW, THEREFORE, in consideration of the payments to be made hereunder and the mutual covenants contained in this Agreement, National IPA and Supplier hereby agree as follows:

DEFINITIONS

1. Capitalized terms used in this Agreement and not otherwise defined herein shall have the meanings given to them in the Master Agreement.

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT B- NATIONAL IPA ADMINISTRATION AGREEMENT
TERMS AND CONDITIONS**

2. The Master Agreement, as attached hereto as Exhibit A and incorporated herein by reference as though fully set forth herein, and the terms and conditions contained therein shall apply to this Agreement except as expressly changed or modified by this Agreement. In the event of any conflict between the provisions of this Agreement and the Master Agreement, as between National IPA and Supplier the provisions of this Agreement shall prevail. Supplier acknowledges and agrees that the covenants and agreements of Supplier set forth in the solicitation resulting in the Master Agreement are incorporated herein and are an integral part hereof.

3. National IPA shall be afforded all of the rights, privileges and indemnifications afforded to Principal Procurement Agency under the Master Agreement, and such rights, privileges and indemnifications shall accrue and apply with equal effect to National IPA, its agents, employees, directors, and representatives under this Agreement including, but not limited to, the Supplier's obligation to provide appropriate insurance.

4. National IPA shall perform all of its duties, responsibilities and obligations as contract administrator under the Master Agreement as set forth herein, and Supplier hereby acknowledges and agrees that National IPA shall act in the capacity of contract administrator under the Master Agreement.

5. With respect to any purchases by Principal Procurement Agency or any Participating Public Agency pursuant to the Master Agreement, National IPA: (i) shall not be construed as a dealer, re-marketer, representative, partner or agent of any type of the Supplier, Principal Procurement Agency or such Participating Public Agency; (ii) shall not be obligated, liable or responsible for any order made by Principal Procurement Agency or any Participating Public Agency or any employee thereof under the Master Agreement or for any payment required to be made with respect to such order; and (iii) shall not be obligated, liable or responsible for any failure by Principal Procurement Agency or any Participating Public Agency to comply with procedures or requirements of applicable law or the Master Agreement or to obtain the due authorization and approval necessary to purchase under the Master Agreement. National IPA makes no representation or guaranty with respect to any minimum purchases by Principal Procurement Agency or any Participating Public Agency or any employee thereof under this Agreement or the Master Agreement.

TERM OF AGREEMENT

6. This Agreement shall be in effect so long as the Master Agreement remains in effect, provided, however, that the provisions of paragraphs 3, 4 and 5 hereof and the indemnifications afforded by the Supplier to National IPA herein and in the Master Agreement shall survive the term of this Agreement.

NATIONAL PROMOTION

7. National IPA and Supplier shall publicize and promote the availability of the Master Agreement's products and services to Public Agencies and such agencies' employees. Supplier's failure to maintain its covenants and commitments contained in this Agreement or any action of the Supplier which gives rise to a right by Principal Procurement Agency to terminate the Master Agreement shall constitute a material breach of this Agreement and if not cured within thirty (30)

NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS

EXHIBIT B- NATIONAL IPA ADMINISTRATION AGREEMENT

days of written notice to Supplier shall be deemed a cause for termination of the Master Agreement at Principal Procurement Agency's sole discretion or this Agreement at National IPA's sole discretion.

8. A copy of the Principal Procurement Agency Certificate executed by Principal Procurement Agency and an example of the Master Intergovernmental Cooperative Purchasing Agreement that is agreed to by each Participating Public Agency, which set forth the terms for their respective participation with National IPA, are attached hereto as Exhibit B and C, respectively. Supplier shall require each Participating Public Agency to register its participation in the National IPA program using the electronic registration feature at www.nationalipa.org prior to processing the Participating Public Agency's first sales order.

9. Upon request, Supplier shall make available to interested Public Agencies a copy of the Master Agreement and such price lists or quotes as may be necessary for such Public Agencies to evaluate potential purchases. In addition, Supplier shall provide the marketing and administrative support set forth in the solicitation resulting in the Master Agreement, including assisting in development of marketing materials as reasonably requested by Principal Procurement Agency and National IPA. Supplier and National IPA shall provide each respective party with its logo and the standard terms of use for their general use in marketing the Master Agreement. Both parties shall obtain approval from the other party prior to use of such logo.

MONTHLY REPORTING & FEES

10. Supplier shall pay National IPA an administrative fee in the amount of __% of the total purchase price paid to Supplier, less refunds, credits on returns, rebates and discounts, for the sale of products and/or services pursuant to the Master Agreement (as amended from time to time and including any renewal thereof) ("Contract Sales"). Supplier shall provide National IPA with an electronic accounting report, in Microsoft Excel, in the format prescribed by National IPA, on a monthly basis summarizing all Contract Sales for such month. A sample of the Contract Sales reporting format is provided as Exhibit D, attached hereto and incorporated herein by reference.

To the extent Supplier has guaranteed minimum Contract Sales pursuant to the terms of the Master Agreement in accordance with the terms of its proposal, the administrative fee shall be calculated based on the greater of the Contract Sales and the guaranteed Contract Sales set forth in Supplier's proposal.

11. Supplier shall maintain an accounting of all purchases made by Participating Public Agencies under the Master Agreement. National IPA and Principal Procurement Agency reserve the right to audit the accounting for a period of four (4) years from the date National IPA receives the accounting. In the event of such an audit, Supplier shall provide all materials reasonably requested relating to such audit by Principal Procurement Agency or National IPA at the location designated by Principal Procurement Agency or National IPA. In the event such audit reveals an underreporting of Contract Sales and a resulting underpayment of administrative fees, Supplier shall promptly pay National IPA the amount of such underpayment, together with interest on such amount in accordance with paragraph 12, and shall be obligated to reimburse National IPA's costs and expenses for such audit.

12. Reports of Contract Sales for Principal Procurement Agency and Participating Public Agencies in each calendar month shall be provided by Supplier to National IPA by the 10th day of

NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS

EXHIBIT B- NATIONAL IPA ADMINISTRATION AGREEMENT

the following month. Such reports shall be accompanied by an administrative fee payment in the amount indicated on the report as being due. Administrative fee payments are to be paid by the Supplier to National IPA via Automated Clearing House (ACH) to the National IPA designated financial institution identified in Exhibit E. Failure to provide a monthly report or payment of the administrative fees within the time and manner specified shall be regarded as a material breach under this Agreement and if not cured within thirty (30) days of written notice to Supplier shall be deemed a cause for termination of the Master Agreement at Principal Procurement Agency's sole discretion or this Agreement at National IPA's sole discretion. All administrative fees not paid when due shall bear interest at a rate equal to the lesser of 1 1/2% per month or the maximum rate permitted by law until paid in full.

13. National IPA or its designee may, in National IPA's sole discretion, compare Participating Public Agency records with monthly reports submitted by Supplier. If there is a discrepancy, National IPA will notify the Supplier in writing. Supplier will have thirty (30) days from the date of such notice to resolve the discrepancy to National IPA's reasonable satisfaction, including paying any administrative fee due and owing. If the Supplier does not so resolve the discrepancy, National IPA shall have the right to engage a third party to conduct an independent audit of Supplier's monthly reports and Supplier shall be obligated to reimburse National IPA's costs and expenses for such audit. Should any audit reveal an underreporting of Contract Sales and a resulting underpayment of administrative fees, Supplier shall promptly pay National IPA the amount of such underpayment together with interest on such amount in accordance with paragraph 12.

GENERAL PROVISIONS

14. This Agreement, the Master Agreement and the exhibits referenced herein supersede any and all other agreements, either oral or in writing, between the parties hereto with respect to the subject matter hereto and no other agreement, statement, or promise relating to the subject matter of this Agreement which is not contained or incorporated herein shall be valid or binding.

15. If any action at law or in equity is brought to enforce or interpret the provisions of this Agreement or to recover any administrative fee and accrued interest, the prevailing party shall be entitled to reasonable attorney's fees and costs in addition to any other relief to which it may be entitled.

16. This Agreement and National IPA's rights and obligations hereunder may be assigned at National IPA's sole discretion, to an existing or newly established legal entity that has the authority and capacity to perform National IPA's obligations hereunder. Supplier may not assign its obligations hereunder without the prior written consent of National IPA.

17. All written communications given hereunder shall be delivered by first-class mail, postage prepaid, or overnight delivery on receipt to the addresses as set forth below.

18. If any provision of this Agreement shall be deemed to be, or shall in fact be, illegal, inoperative or unenforceable, the same shall not affect any other provision or provisions herein contained or render the same invalid, inoperative or unenforceable to any extent whatever.

19. This Agreement may not be effectively amended, changed, modified, or altered without the prior written consent of the parties hereto.

20. This Agreement shall inure to the benefit of and shall be binding upon National IPA, the Supplier and any successor and assign thereto; subject, however, to the limitations contained herein.

AGREEMENT**

MASTER INTERGOVERNMENTAL COOPERATIVE PURCHASING AGREEMENT

This Agreement is made between certain government agencies that execute a Principal Procurement Agency Certificate (“Principal Procurement Agencies”) to be appended and made a part hereof and other public agencies (“Participating Public Agencies”) that register electronically with National Intergovernmental Purchasing Alliance Company (“National IPA”) or otherwise execute a Participating Public Agency Certificate to be appended and made a part hereof.

RECITALS

WHEREAS, after a competitive solicitation and selection process by Principal Procurement Agencies, a number of Suppliers have entered into Master Agreements to provide a variety of goods, products and services based on national volumes (herein “Products”);

WHEREAS, Master Agreements are made available by Principal Procurement Agencies through National IPA and provide that Participating Public Agencies may purchase Products on the same terms, conditions and pricing as the Principal Procurement Agency, subject to any applicable local purchasing ordinances and the laws of the State of purchase;

NOW, THEREFORE, in consideration of the mutual promises contained in this agreement, and of the mutual benefits to result, the parties agree as follows:

1. That each party will facilitate the cooperative procurement of Products.
2. That the procurement of Products subject to this agreement shall be conducted in accordance with and subject to the relevant statutes, ordinances, rules and regulations that govern each party’s procurement practices.
3. That the cooperative use of solicitations obtained by a party to this agreement shall be in accordance with the terms and conditions of the solicitation, except as modification of those terms and conditions is otherwise allowed or required by applicable law.
4. That the Principal Procurement Agencies will make available, upon reasonable request and subject to convenience, information which may assist in improving the procurement of products by the Participating Public Agencies.
5. That a procuring party will make timely payments to the Supplier for Products received in accordance with the terms and conditions of the procurement. Payment for Products and inspections and acceptance of Products ordered by the procuring party shall be the exclusive obligation of such procuring party. Disputes between procuring party and Supplier are to be resolved in accord with the law and venue rules of the State of purchase.
6. The procuring party shall not use this agreement as a method for obtaining additional concessions or reduced prices for similar products or services.

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT C- NATIONAL IPA MASTER INTERGOVERNMENTAL COOPERATIVE PURCHASING
AGREEMENT**

7. The procuring party shall be responsible for the ordering of Products under this agreement. A non-procuring party shall not be liable in any fashion for any violation by a procuring party, and the procuring party shall hold non-procuring party harmless from any liability that may arise from action or inaction of the procuring party.
8. This agreement shall remain in effect until termination by a party giving 30 days written notice to the other party. The provisions of paragraphs 5, 6 and 7 hereof shall survive any such termination.
9. This agreement shall take effect after execution of the Principal Procurement Agency Certificate or Participating Public Agency Registration, as applicable.

EXAMPLE

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT D – PRINCIPAL PROCUREMENT AGENCY CERTIFICATE**

PRINCIPAL PROCUREMENT AGENCY CERTIFICATE

I hereby acknowledge, on behalf of NAME OF PPA (“Principal Procurement Agency”), that I have read and agree to the general terms and conditions set forth in the enclosed Master Intergovernmental Cooperative Purchasing Agreement regulating the use of the Master Agreements and purchase of Products that from time to time are made available by Principal Procurement Agencies to Participating Public Agencies nationwide through National Intergovernmental Purchasing Alliance Company (“National IPA”).

I understand that the purchase of one or more Products under the provisions of the Master Intergovernmental Cooperative Purchasing Agreement is at the sole and complete discretion of the Participating Public Agency.

In its capacity as Principal Procurement Agency for National IPA, NAME OF PPA agrees to pursue Master Agreements for Products as specified in the attached exhibits to this agreement.

A. Method of Approach

Response to National IPA Cooperative Contract

A. Method of Approach

Response to National IPA Cooperative Contract

1. Provide a response to the national program.
- A. Include a detailed response to Attachment B, Exhibit A, National IPA Response for National Cooperative contract. Responses should demonstrate a strong national presence, describe how offeror will educate its national sales force about the contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and reported to National IPA.

3.0 SUPPLIER QUALIFICATIONS

Supplier must supply the following information in order for the Principal Procurement Agency to determine Supplier's qualifications to extend the resulting Master Agreement to Participating Public Agencies through National IPA.

3.1 Company

- A. Brief history and description of your company.

Founded in 1984, CDW is a leading provider of technology solutions to over 250,000 customers composed of small-, medium-, and large-sized public and private entities. CDW Government LLC (CDW•G) is a wholly owned subsidiary of CDW Corporation, incorporated in 1998 to address the specific needs of our government, education, and healthcare customers. Our unique company structure provides our customers products and services only a large national reseller can provide, combined with a local presence typical of a small business. We have a large manufacturer presence in our offices across the country and blanketed in the field with our field account executives. Account Teams are further segmented by agency type, education (K12/High Ed) or government, which allows us to provide each customer with one contact who is knowledgeable of every nuance of their organization.

CDW•G is one of the largest direct marketing resellers in the U.S., currently carrying more than 100,000 name-brand technology products from over 1,000 leading IT manufacturers. Our two state – of – the – art distribution centers are capable of handling 141,000 shipments daily, out of a combined area of almost one square mile. We utilize a just-in-time inventory system to ensure we have the products in stock and ready to ship, and send them out to our customers with a 99.7% shipping accuracy.

We launched our e-commerce website in 1995, as an additional avenue to service our customers. In May 2012, CDW•G was ranked No. 10 on the list of America's largest e-retailers by Internet Retailer's Top 500 Retail Web Sites Guide for the third consecutive year.

Though our selection of product is very wide, CDW•G delivers more than just product; we also deliver IT solutions. We offer a full spectrum of technology services including cloud computing, consulting, system configurations, implementation, and training. CDW•G designs and implements complete business solutions that address a full range of complex issues including, but not limited to Business Continuity, Infrastructure Optimization, Networking, Security Management, and Unified Communications.

Our intricate offering coupled with our customer-centric business model, is the reason for our success. A testament to this success is our continued upward sales trend, combined sales of products and services to both public agencies and commercial business totaled over ten billion dollars in 2012.

B. Total number and location of sales persons employed by your company.

CDW•G currently employs more than 1,360 coworkers, part of our larger organization of 6,900 employees nationwide and in Canada, with 43 different locations. More than 840 of our CDW•G dedicated sales force are Account Managers, in addition to 65 Field Account Executives placed throughout communities across the nation.

C. Number and location of support centers (if applicable)

When CDW•G was awarded the City's contract in 2008 we had offices in five states and Canada. Since this time, we have drastically expanded our location portfolio across 20 additional states, and have added second/multiple offices in a number of our original five states and Canada. Currently, we have 43 separate locations. Speaking specifically to the benefit of this contract, seven of the states with new locations are also in the ten states with the highest historical spend on the contract.

Impressive Growth. CDW•G locations span across 25 different states, nationwide

D. Annual sales for the three previous fiscal years.

Below you can see evidence of CDW Corporation's sales growth, and our growth on the contract as well. You will note that since the recession of 2009, CDW•G consistently drives compounding growth in both areas, and anticipates these upward trends to continue. Also notable, the growth rates of National IPA exceeding the standard rate for CDW•G, verifying our good faith effort to promote the contract within our existing client base.

Explosive Sales Growth						
Year	Annual Revenues			YOY Growth		
	National IPA (\$ Millions)	CDW•G (\$ Billions)	CDW (\$ Billions)	National IPA	CDW•G	CDW
2009	21.7	3	7.2	443%	3.5%	-11.1%
2010	44.1	3.6	8.8	103%	20.0%	22.2%
2011	83.3	3.8	9.6	89%	5.6%	9.1%
2012	99.4	4.0	10.1	19%	7.1%	5.5%

E. Submit your FEIN and Dunn & Bradstreet report.

CDW•G FEIN: 36-4230110

Dun & Bradstreet numbers:

CDW Corporation

107627952

CDW Government, Inc.

026157235

We include our reports in a separate, confidential file.

3.2 Distribution, Logistics

A. Describe how your company proposes to distribute the products/service nationwide.

We have access to more than 100,000 brand-name products from over 1,000 leading manufacturers. We carry over \$200 million in inventory, and ship most in-stock products the same day they are ordered. The result is that contract purchasers receive a shipment from CDW•G in just **3-5 days**, far surpassing our competitor's capabilities.

In order to provide contract members with new technology as it becomes available, it is important for CDW•G to keep a large breadth of products and fresh inventory on hand. We constantly monitor trends within the IT industry to ensure that we are offering our customers the latest technology and "best of breed" solutions. Using a just-in-time inventory management system, our purchasing department excels at keeping a one- to four-week supply of products in our distribution centers (depending on current sales volume trends for each product). Overall, our inventory turns an impressive 24-26 times per year.

Unmatchable Ship Times. Customers receive orders in just 3-5 days with CDW•G.

The distribution centers' automated system scans bar-code labels on each product, pick list, and shipping label, resulting in increased delivery speed and accuracy. Some of our smaller items require coworker assembly; "Ready Ship" products (items that ship in their original carton) move through the system even faster. Once the order shipment is ready for loading, a final scan determines the correct truck (for instance, FedEx overnight) and sends it down the designated conveyor into the truck. The automated systems even help to load the trucks in ways that optimize shipment-processing speeds.

In fact, nearly every step of CDW•G's distribution process is automated and ISO 9001:2000 quality certified. Combined with experienced administration in our Program Management, warehouse, and financial departments, these systems are essential in providing the efficient service needed to keep pace with the volume we experience, as we ship up to 54,000 boxes daily. Contract members benefit from these automations through lower prices and faster service.

CDW•G's strategic relationships with industry leading original equipment manufacturer (OEM) technology partners, such as HP, Cisco, Lenovo, and Apple, means not just product discounts, but greater access to products and a more efficient procurement processes.

CDW•G's status as the largest partner of many of our manufactures influences our OEM partners, resulting in direct benefits to our customers. We receive timely notification regarding product changes, including advance notification of product shortages, and products nearing end of life. When there is a product shortage and other vendors do not have access to these products, we can often procure them from another source. Many times when CDW•G receives notification of an upcoming stock outage, we utilize our distribution centers' large capacity for volume purchases, keeping stock on hand for our customer's present and future needs.

B. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.

CDW•G believes another important step in successful order fulfillment is utilizing shipping partners that are as focused on customer service excellence as we are. As one of the largest direct marketing resellers in the U.S., CDW•G has positioned ourselves very closely with the major carriers, in order to provide a wide range of delivery options to meet our customers' varying needs. We ship the majority of our products via UPS and FedEx, due to their extensive service capabilities, excellent record for on-time delivery and competitive pricing. In fact, both companies have employees on site at our warehouses, individuals with a long history of supporting CDW•G. We can also leverage the carrier's intermodal transport options. Additionally, we have contracts with truckload (TL) and less than truckload (LTL) carriers for large orders and heavy products. If a carrier is not meeting our on-time delivery requirements, we remove the carrier from our preferred shipper list.

C. Provide the number, size and location of your company's distribution facilities, warehouses and retail network as applicable.

Large Inventory Capabilities. Two warehouses shipping 135,000 units daily

CDW•G's two strategically located distribution centers have a combined size of almost one million square feet. Our Central Distribution Center in Vernon Hills, IL, ships primarily to customers in the eastern half of the U.S. Our Western Distribution Center, in Northern Las Vegas, NV, ships primarily to customers in the western half of the U.S. However, each distribution center serves

as backup for the other. They receive inventory valued at about \$21.0 million per day, or between 78 to 80 truckloads a day, processing a combined average of 135,000 units daily. A state-of-the-art Warehouse Management System (WMS) controls both of these centers, ensuring speed and accuracy throughout the order fulfillment and distribution processes.

In addition to working with OEM partners to supplement our direct purchasing model, CDW•G has developed strong affiliations with principal distributors. Like our OEM partners, they send us daily electronic data interchange (EDI) downloads, giving us visibility to inventory at their locations. Further, our top three distribution partners provide real time inventory information. Using this multi-layered procurement structure, we secure out-of-stock product(s) within as little as 24-48 hours, depending on customer requirements.

D. State any return and restocking policy and fees, if applicable, associated with returns.

CDW•G offers a 30-day return policy on most products sold. Of the returns we accept, a minimum 15% restocking fee applies for non-defective product returns. For our complete return policy, please see Tab 10, Appendix of this response. Customers may also obtain additional information by contacting their Account Manager or CDW customer relations at 866.SVC.4CDW, returns@cdw.com.

3.3 Marketing and Sales

- A. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as your company's primary go to market strategy for Public Agencies to your teams nationwide, to include, but not limited to:
- I. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days

David Hutchins, CDW•G's VP of State Sales, is an executive sponsor of the City's contract. He continues to focus sales teams on the success of the contract, and continually collaborates with manufacturer partners, allowing CDW•G to provide contract users even deeper discounts than the established contractual rates. ***This includes the HP discount, negotiated by CDW•G for the benefit of National IPA members utilizing the City's contract,*** as detailed further in our price offering.

Tara Barbieri, CDW•G's Director of Contracts, is also an executive sponsor for the contract. She has endorsed and sponsored this contract since the inception in 2008, and shall continue this role upon award. In her position, she is dedicated exclusively to our company's contractual sales, and leads with the knowledge and experience in cooperative purchasing contracts.

CDW•G already holds a myriad of public agreements, some with mandatory use requirements within individual states. We cannot agree to market the City's contract as our *primary public sector go-to-market strategy*; however, we have included an appropriate marketing plan and pledge to continue focusing on the contract's success and awareness. We believe this pledge should not be viewed lightly, as with our support, this contract's spend has surpassed the City's initial \$25 Million yearly projection **four fold** under CDW•G's management. In fact, this rate even exceeds our own growth as a company.

CDW•G takes our commitments very seriously, we do not mince words with our partners, and Tucson is our partner in delivering on the accompanying National IPA Agreement. We anticipate some respondents may gloss over this section's requirement, giving the impression they will dedicate themselves solely to the success of this contract when in fact they too hold a number of contracts, including contracts with similar requirements such as this. A simple internet search returns the following contracts for responding vendors.

Dell	Insight	Tech Depot	WWT	GovConnection
National Cooperative Purchasing Alliance (NCPA)	US Communities	US Communities	Michigan Master Computing Contract (MMCC)	Educational & Institutional Cooperative Purchasing (E&I)
Western States Contracting Alliance (WSCA)	Texas DIR DBITS	The Cooperative Purchasing Network (TCPN)	State of MO PC Prime Vendor Contract	The Cooperative Purchasing Network (TCPN)
Midwestern Higher Ed Compact (MHEC)	CA CMAS	NY State Consortium of Independent Schools (NYSAIS)	SEWP	National Cooperative Purchasing Alliance (NCPA)
Public Sourcing Solutions (PSS)	Wisconsin Intel Computer Hardware Contract	MICTA	ITES-2H	TIPS/TAPS
Tri-County Communications Cooperative (TCC)	State of MO WSCA Software	Resource Training & Solutions Cooperative	SPAWAR (2)	Public Sourcing Solutions (PSS)

We will not belabor the point throughout our response as this theme of “primary” offering is repeated in several questions, we will simply detail our response with precisely the commitment that CDW•G makes to the City and by extension, National IPA for each question. You can be confident we will deliver on those promises.

II. Training and education of your national sales force with participation from the executive leadership of your company, along with the National IPA team within first 90 days

CDW•G will exceed this requirement. Our Public Sector Account Managers are actively marketing the contract to their customers (presently tracking over \$74.38 million in potential opportunities under the National IPA pipeline) and are very familiar with the nuances of the contract. This is an enormous benefit to the City, National IPA, and the immediate momentum of the new contract.

With CDW•G, there is no need to start from scratch, familiarizing a completely new management team and educating a new group of Account Managers to a foreign contract. Even after training is complete, other vendors are likely to experience a period of growing pains as they acclimate their sales staff to the offering. This ramp-up time will undoubtedly have a negative effect on contract sales. As National IPA and the City are aware, this is often the case with new contracts. The current contract saw success atypical of most, quickly achieving 4 million dollars in purchases within the first

four months from inception. We believe this success was due in large part to CDW•G's experience in managing contracts, and the City's commitment to sound procurement practices. The contract is now supporting close to **five times** its 2009 purchases (the first full year of the contract). While we would not expect sales to dip to the original 2009 numbers with a new vendor, we believe CDW•G is uniquely positioned to deliver growth over \$99 million in 2013.

With CDW•G, all aspects of transitioning to the new contract will be seamless. The City and National IPA does not have to worry about member confusion or orders lost during training and setup time. Instead, business continues as usual and training time is used as a refresher, providing contract updates and focusing on strategies to increase business.

- B. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:
 - I. Creation and distribution of a co-branded press release to trade publications within first 10 days

CDW•G's Marketing contact will work with National IPA to create and distribute this announcement at the transition of the new award.

- II. Announcement, contract details and contact information published on the company website within first 30 days

CDW•G will exceed this requirement. As this site is presently live for the current contract, CDW•G can reload the new contract pricing within a matter of minutes and will have our website operational on the **1st day** of the new contract. In fact, should the City decide to continue your partnership with CDW•G for this contract, we propose to amend the current contract with the newly agreed upon contract rates, giving purchasers access to additional savings months in advance of the award date, and during the May-June flurry of buying activity.

- III. Design, publication and distribution of co-branded marketing materials within first 90 days

CDW•G already has much of this material. We are pleased to perform updates to the material and shall accomplish this well within the 90-day time frame. We propose a marketing strategy meeting with National IPA to discuss a refreshed approach and specific goals/targets for the new contract. CDW•G is eager to share our current marketing processes for the contract, including our quarterly "Plays" aimed at increasing contract awareness; our SharePoint site, giving account teams easy access to marketing strategy and materials; and our monthly email campaigns to all National IPA members.

Additionally, we look forward to discussing our ideas to gain contract awareness, with increased focus in the K12 sector and our top OEM partners.

The screenshot shows the CDW•G National IPA website. At the top, there's a header with "CONTRACT OFFERINGS" and the National IPA logo. Below this, a section titled "GET SOFTWARE THAT DOES MORE." describes the value of the contract. A "CHECK OUT THESE PARTNER SOLUTIONS" section features four product cards: Symantec Backup Exec 2012 (\$397.99), Microsoft Windows Server 2012 Standard (\$698.24), Adobe Acrobat X Suite (\$1050.36), and Adobe Creative Suite 6 Design & Web Premium (\$1754.59). Each card includes a "Buy Now" button. At the bottom, there's a "STAY IN TOUCH" section with social media icons and contact information.

Blended Marketing. Pairing marketing material with live – touch campaigns.

- IV. Commitment to attendance and participation with National IPA at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement

In 2013 CDW•G's schedule includes over 100 regional and nearly as many national events. In past years, we have attended many events in which we promoted the contract, including NIGP, NASPO, CAPPO, and FAPPO. We shall continue this practice new agreement as well. For 2013, we are already committed to attend NIGP events, NASPO, and the National IPA Partner Summit.

Additionally, we are such a committed vendor; we are willing to share our best practices with other non-competing National IPA vendors. Sales Manager Pat O'Brien has agreed to share some of these practices with other National IPA vendors at the Partner Summit, helping increase the success of all National IPA's contracts.

- V. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by National IPA for partner suppliers. Booth space will be purchased and staffed by your company. In addition, you commit to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by National IPA.

CDW•G has enjoyed participating in the NIGP Annual Forum and will continue to do so. We believe in the theme "Better Together" and look forward to sharing our best practices with other National IPA vendors.

- VI. Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement

CDW•G advertises the contract in our own highly viewed publications and our contract specific email campaign. We will continue to promote the contract via avenues such as our EdTech and StateTech publication sites, while continuing to penetrate the market with a live-touch approach.

- VII. Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, etc.)

CDW•G continues to market and promote the contract, through various avenues such as announcements in our publications, email campaigns, as well as on the contract's CDW•G premium page. We look forward to working with National IPA to develop our marketing strategies even further.

Announcements and events

Catch up on current CDW•G happenings.

IT needs on one agreement - CDW•G and National IPA

CDW•G is pleased to be awarded by the City of Tucson, AZ, through public competitive solicitation, a cooperative purchasing contract for Information Technology Solutions (contract # 083052). This agreement features a comprehensive range of technology solutions and is available to public agencies nationwide via National Intergovernmental Purchasing Alliance (National IPA).

To simplify the purchasing process, CDW•G offers National IPA participating agencies special pricing on technology solutions across a breadth of vendors. Through National IPA, find discounts in software, software licensing and maintenance, hardware and peripherals, and more. From CDW•G, receive unmatched levels of service, advice and support from expert teams.

We encourage you to visit the Information Technology Solutions Agreement online at CDWG.com/nationalipasolutions for a complete list of products and services available. Search by keyword or browse by product category, and use the resource links to access National IPA websites.

Contract #083052 

High Visibility. Spreading awareness through a variety of publications.

- VIII. Dedicated National IPA internet web-based homepage with:
- National IPA standard logo;
 - Copy of original Request for Proposal;
 - Copy of contract and amendments between Principal Procurement Agency and Supplier;
 - Summary of Products and pricing;
 - Marketing Materials
 - Electronic link to National IPA's online registration page;
 - A dedicated toll free number and email address for National IPA

CDW•G exceeds this requirement, as our current National IPA Premium Page, www.cdwg.com/nationalipasolutions presently includes these elements. The page includes the National IPA logo and a description of the contract, with multiple direct links to National IPA's Home Page and Registration Page. We provide members with categories that mirror the contract, easily allowing them to locate the product or service they are looking for. We include "featured products" highlighting solutions that we select for their excellent value or popularity among purchasers.

Additionally, we not only have a toll-free number and address for National IPA members, and feature a dedicated Account Team included on the website, which highlights when they are available for customers. In conjunction with National IPA, we will continue to develop this site, increasing functionalities and promotion of the contract.

- C. Describe how your company will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through National IPA. Include a list of current cooperative contracts (regional and national) your company holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

CDW•G prides itself on keeping the commitments we make to every one of our customers and partners. As the City and National IPA are both well aware, CDW•G currently holds a significant number of cooperative purchasing contracts including National Intergovernmental Purchasing Agency (National IPA) such as, Association of Educational Purchasing Agencies (AEPA), National Joint Powers Alliance (NJPA), and The Cooperative Purchasing Network (TCPN). CDW•G is solutions focused; just as we are vendor agnostic and provide consultation assist the client to choose the best laptop to meet their needs, we provide benefits of the program, and allow the customer to select the contract best suited for their specific procurement needs. Therefore, for all of our national contracts, we have maintained transparency of our contract portfolio to our customer and negotiated the removal of language such as "most favored customer" and requirements such as this.

CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our portfolio of offerings.

We have transitioned a number of customers and their solicitation opportunities to this contract, in the form of piggyback contracts. Some of these customers include the City of Phoenix, City of Atlanta, University of Colorado, and DeKalb County. Moving forward, we will continue to loop new members in to the contract and sustain the growth.

- D. Acknowledge that your company agrees to provide its company/corporate logo(s) to National IPA and agrees to provide permission for reproduction of such logo in marketing communications and promotions.

National IPA has several CDW•G logos at their disposal under our general guidelines for intended use, they are included here for ease of evaluation.

Logos & Guidelines

CDW welcomes customers, media and other entities to use our corporate logo, as needed. The core component of CDW's brand identity is its corporate logo; therefore, we ask that you carefully consider the following guidelines when using it.

Logo Usage Guidelines

When using the CDW logo, you agree to the following:

1. You may use the logo(s) only in the exact form provided by CDW and only to accurately and actively link from a website that is under your control to the home page of CDW.com (or another address provided by CDW) and for no other purpose.
2. You may not incorporate the logo(s) into any other logo or design.
3. You may not to use the logo(s) in a way that suggests that you or your company or products are affiliated with CDW or its products or services in any way.
4. You may not display the logo(s) on any website that disparages CDW or its products or services, infringes any CDW intellectual property or other rights, or violates any law or regulation.
5. No other logo or design element should appear within 0.5 inches of the CDW logo.
6. You may not frame or alter the CDW website in any way.

7. At CDW's direction, you will immediately remove the logo(s).
 8. Your limited right to use the logo(s) does not constitute a grant of any other right or license. All other rights are reserved by CDW.
 9. CDW disclaims all warranties, express and implied, regarding the logo(s), including warranties against infringement. You agree to indemnify CDW from and against any and all claims and liabilities arising out of your use of the logo(s).
- E. Supplier is responsible for proactive direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by National IPA. All sales materials are to use the National IPA logo. At a minimum, the Supplier's sales initiatives should communicate:
- I. Master Agreement was competitively solicited by a Principal Procurement Agency
 - II. Best government pricing
 - III. No cost to participate
 - IV. Non-exclusive contract

We are happy to update our current National IPA flyer with the new contract information. We would like to further discuss the inclusion of II and IV, and will revise our marketing pieces to include mutually agreeable message that best represents the value of the contract.

ALL YOUR I.T. NEEDS ON ONE AGREEMENT

From people who get it – CDW·G and National IPA.

CDW·G and National IPA offer a competitively solicited and awarded cooperative purchasing agreement for Information Technology Solutions. Awarded by the City of Tucson, Ariz., this agreement features a comprehensive range of technology solutions including:

- Systems
- Input Devices
- Printers
- Projectors
- Storage Devices
- Network Equipment
- Software
- Software Licensing
- Media Supplies
- Services

To simplify the purchasing process, CDW·G offers National IPA participating agencies special pricing on technology solutions across a breadth of vendors. CDW·G also brings unmatched levels of service, advice and support from expert team. Visit CDWG.com/nationalipasolutions for a complete list of products and services available. To simplify your purchase, search by keyword or browse by product category and use the resource links to access other valuable information.

Information Technology Solutions Contract # 083052

The National IPA contract portfolio, including the CDW·G agreement, is available to public agencies, educational institutions and agencies for public benefit. There is no fee to participate and no minimum purchase requirements. Register at nationalipa.org. Let National IPA and CDW·G solve your resource problems and technology requirements with one agreement.

**For more information, contact your CDW·G account manager
or National IPA representative today.**

- F. Supplier is responsible for the training of its national sales force on the Master Agreement. At a minimum, sales training should include:
- I. Key features of Master Agreement
 - II. Working knowledge of the solicitation process
 - III. Awareness of the range of Public Agencies that can utilize the Master Agreement through National IPA

As noted above, CDW•G's sales force training shall include contract updates, which incorporates the requirements listed. We provide our current contract training slide deck in Tab 10, appendix.

- G. Provide contact information for the person(s), who will be responsible for:
- I. Marketing
 - II. Sales
 - III. Sales Support
 - IV. Financial Reporting
 - V. Contracts

CDW•G provides familiar faces for contract support, each of them subject matter experts in the noted areas of the City's contract.

Marketing	Sales & Support	Financial Reporting	Contracts
Denise Cushmaney Sr. Manager – Segment Marketing denicus@cdw.com	Pat O'Brien Sales Manager patobri@cdwg.com	Wilson Garcia Program Manager wilsgar@cdw.com	Tara Barbieri Director, Program Sales tara@cdwg.com
			

- H. Describe in detail how your company's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

We structure our sales force on the philosophy that everything we do revolves around our customer. In order to completely support our customers, CDW•G feels it is our duty to provide one connection to all of their IT solution needs. This one connection is the customer's Account Manager. Much like our customer-centric mindset, we focus on providing our Account Managers 360 degrees of expertise, so each National IPA member knows that there are many authorities at play in providing the customer service they are accustomed to with CDW•G.

CDW•G currently provides our customers with over 840 Account Managers, each supporting customers in a specific region and industry, and serving only customers exclusively within their assigned boundaries.

CDW•G divides our Account Teams by the following segments:

- State and Local Government
- K-12 Education
- Higher Education
- Federal Government
- Healthcare

Pairing this structure with regionalization leads to an Account Manager fully vested in their customers and giving them the ability to provide industry and region insight and facilitate relationships with local vendors, developing a higher level of specialization for their customers' unique needs.

- I. Explain in detail how the sales teams will work with the National IPA team to implement, grow and service the national program.

Implement: CDW•G is eager to continue working with the National IPA team to develop the national program. We have joined forces for customer presentations, such as with the Illinois Community College System Foundation, San Mateo County, and the City of New York, among others. We will continue collaborating and remaining in the sights of our customers. Additionally, we will continue keeping Account Managers engaged and trained. State and Local Sales VP David Hutchins and Sales Manager Pat O'Brien will continue working with National IPA to develop strategies to implement best practices with our CDW•G Account Managers, such as our successful Play campaign.

Grow: We look forward to increasing our market presence with National IPA for the next contract. While we believe we have had great success with the contract, we realize there is always room for improvement. We would like to expand our collaboration efforts with the National IPA team, such as increasing our presence at customer sites. Moreover, we believe there is potential for an increase in efforts to drive potential opportunities by ensuring our front line, CDW•G Account Managers, continue to work in cadence with the National IPA team. Finally, we know that sharing best practices benefits everyone, and happily agree to help grow National IPA's national portfolio by sharing some of our best practices with other vendors at the National IPA partner summit.

Service: We shall continue providing a fully engaged and enthusiastic team to service this contract. Program Manager Wilson Garcia will continue providing detailed reports and Quarterly Business Reviews. These allow CDW•G and National IPA to define potential areas of growth to continue to increase sales on the City's contract, such we did with the K12 market. Sr. Segment Marketing Manager Denise Cushmaney will continue working with the National IPA team and the City to develop custom marketing pieces and marketing initiatives to increase contract visibility. David Hutchins will continue collaborate to develop ways to drive the business by leading account teams and negotiating with manufacturers.

- J. Explain in detail how your organization will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account setup, etc.

Since CDW•G is the incumbent of this contract, we expect our management strategy varies greatly from that of any other potential awardee. Working with the City and National IPA for five years, we have already uncovered and resolved roadblocks to the mutual satisfaction of all contract stakeholders; tackled the typical growing pains associated with a new contract; and fine-tuned the contract management process. Examples of this problem resolution include adding and implementing services rates to the

contract and adding nonprofit agencies to the contract user group. This familiarity allows us to improve upon processes where other vendors would be starting from scratch.

As detailed previously, we continue to participate and collaborate marketing efforts. CDW•G's marketing and sales coordination includes more than just glossy marketing flyers. We know customers are more likely to respond to live contact, and therefore focus our marketing campaign on this mindset, complimented by publications and advertisement. We work with our partners to keep our account managers trained on our available contracts. For this contract, we pair internal training with that provided by National IPA, such as teaching Account Managers how to enroll customers and pointing out the contract documents allowing customers to ensure compliance with their procurement regulations. Often, when a CDW•G customer utilizes the City's contract, it is a direct result of their Account Manager informing them of the benefits of the agreement.

Additionally, as part of our internal Sales Enablement drive, CDW•G initiated a quarterly "PLAY" campaign, which targets low spend member accounts. This campaign, is developed and maintained internally by a team of CDW•G leaders from sales enablement, product partner management, sales, business intelligence, and marketing. The program provides Account Managers insight to the specific contract benefits to their targeted customers. Information Account Managers are armed with includes an overview of the customer target; the contract details to discuss; a guide on how to create the conversation, including how to start the conversation, talking points, qualifying questions, and overcoming objectives; a product guide; supporting documents; and a contact list of subject matter experts and internal resources who can provide assistance.

The results for the City's contract are substantially higher than company average, as highlighted in the graph below from the November campaign. Account Managers see a 40% quote response rate, and 25% order response rate. This resulted in over \$160,000 additional sales orders from this November campaign alone.

Play	Plays Served	AM Utilization	Quote Response Rate	Qualified Quote Dollars	Total Quote Dollars	Order Response Rate	Qualified Order Dollars	Total Order Dollars
SLG: National IPA Contract Penetration	560	84%	40%	\$656,385	\$656,385	25%	\$160,428	\$160,428
CDW Totals for November	54,112	85%	18%	\$55,711,501	\$65,608,112	10%	\$19,066,332	\$22,088,241

Furthering Sales Reach. Successful Play campaign increased contract sales over \$160,000 in November alone.

In the same timeframe that Plays are scheduled to be initiated, customers receive complimentary marketing collateral such as direct mailers, whitepapers, email, and catalogs, related to the contract.

CDW•G also continues to effectively set up new customer accounts. Wilson Garcia, your dedicated Program Manager, adds new members to the contract typically within a week of receiving a new member

list from National IPA. Should a new member need immediate access to the contract, CDW•G Account Managers have been trained to request that the new member forward the confirmation they receive from National IPA. The Account Manager then provides this confirmation and the customer's CDW•G account number to Wilson, who immediately adds them to the system for contract access.

- K. State the amount of your company's Public Agency sales for the previous fiscal year. Provide a list of your top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

CDW•G sales for 2012 totaled \$4.02 Billion, an increase of 7.1% from the previous year. While we cannot provide the

\$4.02 Billion
2012 CDW•G Sales

requested top 10 Public Agency customers, we provide the top customers from the current contract, based on spend since January 2011. We respect the privacy of our customers, and thus provided spend and contact information separately in a confidential file for those customers willing to be utilized as a reference.

Nationwide recognition. Continued YOY sales increase, proof CDW•G is a recognized industry leader.

Customer	Spend (in Millions)	Contact	Contact Info
Clark County, NV			
Hillsborough County, FL			
Orange County, CA

Lee County, FL			
Loyola University, IL			
Atlanta, GA			
Miami Dade County, FL			

Provided separately in a confidential file

- L. Describe your company's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

CDW•G accepts payment through:

- Credit Cards* (American Express, Diner's Club, Discover, MasterCard, Visa)
- Checks
- EDI
- EFT (Electronic Funds Transfer)
- Procurement Cards

*With a credit card order, CDW•G requires the credit card information at the time you place the order. Please note that we do not accept credit cards for term accounts.

CDW•G supports EFT formats including CTX, CPT and CCD. We can also send data as a CIF and CSV.

M. Provide the Contract Sales (as defined in Section 10 of the National Intergovernmental Purchasing Alliance Company Administration Agreement) that your company will guarantee each year under the Master Agreement for the initial three years of the Master Agreement.

\$_____.00 in year one
\$_____.00 in year two
\$_____.00 in year three.

CDW•G does not guarantee sales, but for comparison purposes, we project the following sales for the next three years on the City's contract, based on the present trajectory of the contract.

\$ 125.19 Million in year one
\$ 167.19 Million in year two
\$ 193.02 Million in year three

Commitment to Success. CDW•G continues to drive contract sales, increasing YOY.

N. Even though it is anticipated that many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation that is for Products covered under the Master Agreement.

- I. Respond with Master Agreement pricing (Contract Sales reported to National IPA).
- II. If competitive conditions require pricing lower than the standard Master Agreement pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to National IPA under the Master Agreement.
- III. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Detail your strategies under these options when responding to a solicitation.

CDW•G currently practices both I and II of this requirement and shall continue to do so. As we treat the agreed-upon discounts as a "not-to-exceed" price, we frequently respond to solicitation with the contract while providing even deeper discounts. However, in a highly competitive market, this is not always possible. Occasionally a customer solicitation triggers lower OEM pricing, based on size of deal and commit to buy, the terms of sale and/or the current competitive initiatives of the manufacturer. In these cases, where the terms of the sale have been altered and we know responding with higher than the Master Agreement price will not lead to winning the business, we must offer the lower price that is not available on the Master Agreement. Following requirement III in these instances would be detrimental to the health of our company, and as a result, our ability to service the contract.

We pledge to continue working with manufacturer partners to negotiate even lower pricing for contract users, such as the contact exclusive HP pricing, offered only through CDW•G.

- b. The successful offeror will be required to sign Attachment B, Exhibit B, National IPA Administration Agreement. Offerors should have any reviews required to sign the document prior to submitting a response. Offeror's response should include any proposed exceptions to the National IPA Administration Agreement.

CDW•G provides our proposed alternative language to the agreement in Tab Nine of this response.

Tab Five

A. Method of Approach

(Continued)

A. Method of Approach (Continued)

2. Provide a description of the product lines that can be provided by your firm.

When working directly with a manufacturer, customers often receive only the best of *their* product. These OEMs often couple their portfolio with a weak offering of other OEMs in an effort to drive more business to their products. CDW•G provides our customers the best of all manufacturers with a technology catalog that few can match. Our complex portfolio includes over 100,000 different products from more than 1,000 manufacturer partners. One of the many benefits of providing technology solutions with more than 1,000 leading brands is that it helps insulate us from events at any one company. Whereas a business-altering event such as the recent one at Dell can mean uncertainty for future contract success, our wide range of manufacture relationships ensures stability, even in the case of losing one of our top partners.

We are the largest direct reseller in channels in the US for many of our OEM partners including, HP, Cisco, Lenovo, Adobe, and Panasonic, among others. Our role in our partners success means that CDW•G can offer even more than a wide product offering, we provide our customers deeper discounts, newer technology, faster procurement, and a more multifaceted OEM support than any vendor that is merely authorized to sell these manufacturers' products.

For a more in-depth look into our catalog, we provide the City our Product line cards, presented by product category and manufacturer name on the following pages.

CDW•G recognizes we work in an industry that is ever changing, and realize the next product generation may come from a new vendor we do not currently have a relationship with. Therefore, we constantly review new brands to add to our offering. We evaluate not only the products but also our customers' needs and the operatibility of the solution within our customers' current environments, keeping our customers on the leading edge without increasing risk.

1,000⁺

Manufacturer Portfolio

Balanced Approach. We offer the best of industry, not just the best of one manufacturer.

NEED CUSTOMIZED TECHNOLOGY? WE HAVE A PARTNER FOR THAT.

**What you get from partnering
with CDW-G:**

- Work with an account team dedicated to knowing your organization and anticipating your needs
- Experience unmatched levels of service, advice and technical support
- Take advantage of around-the-clock access to customized online tools and resources
- Get the best technology for your organization — fast!

3. Provide a description of the services that can be provided by your firm.

CDW pioneered the business model that melds personalized business – to – business technology distribution with advanced technology services. We provide our customers a deep services portfolio to pair with our immense product catalog. Our services strategy utilizes our own stable of 1,600 highly certified engineers staffed in 43 locations across the country, a national services traveling team, leading manufacturers' technicians, and local service providers. This structure

Wide service coverage. Whether in an office or in the field, our engineers provide a local feel with nationwide experience.

offers the City of Tucson and qualified National IPA participants the best range of services in the industry. Our full scope of standard and specialized services includes:

Cloud Computing

CDW•G understands how important cloud computing is to our customer base, and are determined to lead the industry in mastering this complex and highly customizable service. Our internal cloud campaign is teaching our Account Managers how to assist their customers in determining the best – valued cloud option for their needs, while our technicians continue training to master the solution, and working with our manufacturer partners to expand our portfolio.

CDW•G offers a cafeteria-style set of cloud solutions. Our portfolio includes public, private, community, and hybrid deployment options. Our broad cloud offering currently includes over thirty different manufacturers, and we continue investigating other manufacturer solutions to add to this portfolio. Our cloud computing solutions; Software as a Service (SaaS), Infrastructure as a Service (IaaS), and Platform as a Service (PaaS), cater to the specific needs of the span of our entire customer makeup.

Over 20 different SaaS solutions allow our customers to access many of their applications via the cloud. With our IaaS solutions, or private cloud services, our customers can rely on CDW•G to expertly manage infrastructure, removing the need to deploy new data center equipment. Our five different PaaS solutions allow organizations to deploy acquired or custom applications without incurring a range of upfront and ongoing costs associated with the underlying infrastructure, including provisioning, maintenance, and management.

Industry leaders in Cloud Solutions. 30+ OEM cloud offerings, allowing CDW•G to provide a perfectly customized solution for every customer

Additionally, we provide four different types of managed services, supported by over 200 engineers and project managers. Hosting our customers' solutions since 1997, our offering now includes six different types hosting services in a data center makeup of five different enterprise - class data centers and two network operations centers.

Consulting/Analysis

Most of our projects begin with either an assessment or planning and design session. CDW•G technical specialists and field solution architects are experts in many areas including unified communications, networking, wireless, network and physical security and server/storage solutions. CDW•G will save contract members staff time and effort because our experts have already initiated the due diligence process. We share our knowledge of the latest technologies as well as our expertise regarding the pros and cons of each potential solution. We also offer a variety of more complex consulting/analysis solutions for those customers who need a more in-depth evaluation of their systems.

Technical Support

CDW•G's Staff Augmentation services offering includes assisting customers with onsite help desk and technical support services. This service provides skilled, temporary staffing to assist with IT challenges.

Leasing/Financing

CDW•G has a department dedicated solely to assisting our customers with their leasing needs. Much like our product offering, we take a vendor agnostic approach and focus on providing the best options in the industry, and not the latest solutions from a single provider. CDW•G's leasing team can work with the City to find the best leasing option that fits within the unique budget constraints the City may be experiencing.

Leasing allows the City to procure needed equipment now, so you do not have to wait years down the road when your budget allows a large- scale purchase. With leasing and financing, the City also has the ability to bundle costs. Therefore, if you are also working with outdated software, you can purchase it with your products, and even services, all in one fell swoop. Budgeting for leasing is easier than purchasing outright, as your monthly payments are agreed upon upfront. Finally, you can protect the City from advancing technology. With a lease, you can choose to add to your lease term; and once you choose to end the lease you often have the option between purchasing or returning the equipment.

Trade-ins

CDW•G coordinates with our manufacturer partners to provide trade-in services to our customers.

Repair

In addition to offering onsite repair, we have our own repair center. CDW's Repair Center offers fast turnaround time and low cost out-of-warranty repair prices, as well as great in-warranty service. Our factory certified repair technicians complete typical repairs on an average of 7-10 business days. We are an authorized Service Center for the following Manufacturers:

- | | | |
|-----------|----------|---------------|
| • Acer | • HP | • Service Net |
| • Apple | • IBM | • Sony |
| • Fujitsu | • Lenovo | • Toshiba |

Please note: due to manufacturer policies, limitations, and agreements, CDW may not be able to service all computer models or lines made by these manufacturers.

Design

Most of our projects begin with either an assessment or planning and design session. Our architects review your needs and perform an evaluation of your existing environment to develop a comprehensive solution to meet your particular project objectives.

Configuration/System Configurations

While onsite configuration services are available, CDW•G often recommends our in-house configuration services. CDW•G builds preconfigured technology solutions in our two ISO 2008-certified configuration centers, so they arrive at their correct location(s) ready to plug and play. We have a 25,000-square-foot configuration center in our North Las Vegas distribution center and a 24,000-square-foot configuration center in our Vernon Hills, IL distribution center, including an 8,000-square-foot enclosed area for enterprise configurations. To complement this space, CDW•G has more than 150 configuration technicians, providing a spectrum of customized configuration services. In fact, we can complete 2,500 configurations in a 24-hour timeframe. Typical turnaround for most of CDW•G's configuration center services is 2 to 3 days, depending on the project.

CDW•G's configuration services include:

- Hardware and software installation and configuration
- Customized imaging
- Asset tagging, custom labeling, and laser etching
- Router/switch configuration
- Server rack configuration

Our configuration centers also perform image burn-ins, according to customer specifications. In an effort to reduce the number of items that fail after a short period of use, CDW•G offers a variety of burn-ins, available length of up to twelve hours. In a recent procurement opportunity, CDW•G's configuration center technicians completed an eight hour burn-in on a single order of 15,700 devices. Upon delivery at the customer's location, just three of these 15,700 devices experienced technical issues.

Implementation

Our national footprint is expansive, with over 600 engineers on staff in more than 15 service offices, complimented by a national traveling team. Additionally, we have capabilities to ship 3,000+ custom-configured systems daily; we configure over 750,000 custom solutions in our two state-of-the art distribution centers annually. Our large number of engineers, paired with our configuration capabilities, allows CDW•G to handle any rollout project that contract members may have.

Training

CDW•G's project methodology ensures technicians and project managers work with the mindset of being an extension of the customer's IT staff. Throughout the project our team not only focus on designing bullet-proof solutions, but continually engaging the IT staff; sharing knowledge, and ensuring the staff knows how to navigate the solution in which the customer vested their resources. Should a customer require training outside of this transfer of knowledge, we have a blended solution of CDW•G offerings, manufacturer standard trainings, and technology training companies.

Maintenance

CDW•G recognizes that maintenance/support contracts are of great importance to many customers because uptime is vital to their success. Our strong partnerships with the industry's top technology manufacturers, paired with our own maintenance solutions, offers a variety of viable options to our customers. Our maintenance options include the following:

- Warranty extensions and upgrades
- Post warranty support
- Accidental damage protection
- Maintenance contract agreements (conterminous, break/fix, and retainer)

- Post-sale technical support
- Product and certification training
- Help desk services

Hardware/Software Installation

Our installation services encompass the following solutions. Installation services can include installing and deploying new systems; moving existing equipment; assessing systems and testing installed equipment; and advanced IT support. We also offer staging options, should a customer need to complete their installation in numerous rollouts.

- Client Computing Installation
- Data Center Installation
- Network Installation
- Security Installation
- Microsoft Configuration and Installation
- Microsoft Accelerators
- Visual Solutions Installation

System Testing

All of CDW•G service projects incorporates testing every aspect of the final solution, ensuring all acceptance criteria is met.

Upgrades

Many products offer a variety of system upgrades. Our dedicated Account Managers work with their customers to explain the benefits of each upgrade, and help determine if these upgrades would be a wise purchase for the customer's needs. The Account Manager then collaborates with CDW•G dedicated manufacturer partner specialists to incorporate the upgrades into the final product build. Additionally, CDW•G performs a number of upgrades, such as asset tagging and laser etching, in house in our configuration center.

Imaging

In addition to our configuration services, CDW•G performs imaging services in house in our configuration centers as well. Our A+ certified imaging technicians routinely image the following products:

- Laptops
- Desktops
- Workstations
- Flash Drives
- Servers
- Hard drives
- Apple products including iPods and iPads

State of the art configuration center. Our A+ certified imaging technicians and state of the art configuration center allow us to ship configured products in as little as 3-5 days.

Customers can provide their own image or CDW•G can create one for them. As with all services completed in our configuration centers, each piece of equipment goes through a comprehensive quality assurance check prior to shipping to ensure the unit is function properly. CDW•G also stores images on our secure server, completely isolated from other networks, and only accessible to a few authorized

individuals. Many times customers choose to have us store their images as it allows CDW•G to load custom configured images quickly on their machines.

4. Describe how your firm proposes to distribute the products/services nationwide.

As detailed previously in our response, we have access to more than 100,000 top brand-name products from more than 1,000 leading manufacturers. We carry over \$200 million in inventory, and utilizing an ISO 9001:2000 quality certified distribution process, we ship most in-stock products the same day they are ordered. The result is that contract purchasers receive a shipment from CDW•G in just **3-5 days**, far surpassing our competitor's capabilities.

Specific to the City's distribution needs, we utilize our 513,000 square foot distribution center, located in neighboring Las Vegas, NV. This center operates Monday-Friday, from 2:00 am until 11:00 pm PST, shipping up to 17,000 boxes a day.

We provide the City services through our own engineers, or local service partners, dependent on the best value to the City of the project at hand. We add to our depth of local presence in the City's region with our Chandler, AZ office. This office not only provides over 200 local jobs, it allows CDW•G to provide an even more personal level of support to the City.

Products Locally Held. Our LV distribution center gets the City their products even faster than average timeframes.

5. Identify all other companies that will be involved in processing, handling or shipping the products/service to the Participating Agencies. Include any subsidiaries that may include product or service under the Contract.

CDW•G believes another important step in successful order fulfillment is utilizing shipping partners that are as focused on customer service excellence as we are. As one of the largest direct marketing resellers in the U.S., CDW•G has positioned ourselves very closely with the major carriers, in order to provide a wide range of delivery options to meet our customers' varying needs. We ship the majority of our products via UPS and FedEx, due to their extensive service capabilities, excellent record for on-time delivery and competitive pricing. In fact, both companies have employees on site at our warehouses. These individuals have a long history of supporting CDW•G. We can also leverage the carrier's intermodal transport options. Additionally, we have contracts with truck load (TL) and less than truck load (LTL) carriers for large orders and heavy products. If a carrier is not meeting our on-time delivery requirements, we remove the carrier from our preferred shipper list.

6. Provide the number, size and location of your firm's distribution facilities, warehouses and retail network as applicable.

CDW•G's two strategically located distribution centers have a combined size of almost one million square feet. Our Central Distribution Center in Vernon Hills, IL, ships primarily to customers in the eastern half of the U.S. Our Western Distribution Center, in Northern Las Vegas, NV, ships primarily to customers in the western half of the U.S. However, each distribution center serves as backup for the other. They receive

about \$21.0 million of inventory per day, or between 78 to 80 truckloads a day, processing a combined average of 135,000 units daily. A state-of-the-art Warehouse Management System (WMS) controls both of these centers, ensuring speed and accuracy throughout the order fulfillment and distribution processes.

Own Distribution Centers. Our strategically placed distribution centers simplify the supply chain to customers and ships products faster.

In addition to working with OEM partners to supplement our direct purchasing model, CDW•G has developed strong affiliations with principal distributors. Like our OEM partners, they send us daily EDI downloads, giving us visibility to inventory locations. Further, our top three distribution partners provide real time inventory information. Using this multi-layered procurement structure, we secure out-of-stock product(s) within as little as 24-48 hours, depending on customer requirements.

7. State any return and restocking policy, and any fees, if applicable associated with returns.

CDW•G offers a 30-day return policy on most products. Of the returns we accept, a minimum 15% restocking fee applies for non-defective product returns. For our complete return policy, please see Tab 10 of this response. Customers may also obtain additional information by contacting their Account Manager or CDW customer relations at 866.SVC.4CDW, returns@cdw.com.

8. Describe your invoicing process. Is electronic invoicing available? Is summary invoicing available? Are there other options on how an agency receives an invoice?

CDW•G mails invoices the day after the product(s) is shipped out of one of our distribution centers. Or, if a customer prefers an electronic invoice, they can request that invoices be sent via PDF instead. We send the PDF the same day that the system generates the invoice. When a product is drop-shipped from a vendor, CDW•G invoices the customer once we receive the invoice from the vendor. As an added convenience to our customers, they can also print copies of original invoices via their CDW•G Extranet. Our standard invoices include the information listed below.

- | | |
|-------------------------------------|---|
| • CDW•G remit to address | • CDW•G part number |
| • Invoice date | • Description of product |
| • Invoice number | • Quantity ordered/shipped |
| • PO number affiliated with invoice | • Unit price (based off of pricing structure agreed to in the contract) |
| • Payment due date | • Extended price |
| • Order date | • Ship to address |
| • Shipping method | |

All of the information pertaining to the customer's specific requirements is included on the invoice as well. CDW•G supports many EDI formats and can customize invoices to reflect customers' required data fields. For more information regarding our EDI capabilities, we encourage the City to visit www.cdwg.com/edi. At this time, CDW•G does not offer consolidated invoicing or consolidated billing.

9. Describe your delivery commitment:

a. What is your fill rate guarantee?

CDW•G's same-day fill rate is between 97-99% for credit-approved orders and in-stock product, depending on the complexity of the order. Should an item be out of stock, it typically takes 2-10 days, after receipt of order, to receive the product (subject to availability). We receive timely notification regarding product changes, including advance notification of product shortages, and products nearing end of life. When there is a product shortage and other vendors do not have access to these products, we can often procure them from another source. Many times when CDW•G receives notification of an upcoming stock outage, we utilize our distribution center's large capacity for volume purchases, keeping stock on hand for our customer's present and future needs.

b. What are your delivery days?

CDW•G's standard delivery is M-F excluding Thanksgiving, Christmas, and New Year's Day. Arrangements can be made based on need to fulfill orders on weekends and holidays for an additional fee. Customers should provide at least a 48-hour notice in order to allow time to properly set up any weekend or holiday deliveries.

c. Do you offer next day delivery?

Yes, CDW•G can ship same day, overnight, 2nd day, 3rd day, and ground. An expedited freight charge may be added for this service.

d. How do you facilitate emergency orders?

Whenever a contract member's order requires expediting, CDW•G treats it with priority. We direct all customers to contact their dedicated Account Manager if an emergency situation arises. They focus on placing the order and arranging for expedited delivery. Due to our very large inventory at our two distribution centers, we usually have the products in stock and available for immediate shipping.

e. Are shipping charges exempt for ALL who use this contract?

Prices include lowest ground freight for shipments/packages less than 70 pounds within the 48 contiguous United States when referencing this Agreement. All orders are subject to Seller's standard shipping policies in effect at the time of order placement. In those instances that are larger than 70 pounds or call for express or overnight delivery, shipping costs will be pre-paid by Seller and added to the customer invoice.

f. Describe how problems (such as a customer ordering a wrong product or a customer receiving a defective product; etc.) are resolved.

CDW•G encourages customers to contact their Account Manager to assist with any such issues. If the Account Manager evaluates the issue and if they cannot personally assist the customer, they will engage and collaborate with our Customer Relations Department to assist. Customer may also reach out to Customer Relations directly.

If a wrong product is ordered, the customer's dedicated CDW•G Account Manager will work with the customer to determine the best solution to resolve the issue. For any products returned, whether defective or incorrect item, CDW•G requires customers to provide a Return Merchandise Authorization (RMA) number before shipping back any product. This process allows us to expedite the process and helps ensure the proper action or credit, upon processing. Customers can get the RMA request form from their Account Manager, online via their CDW•G Extranet Account, or by contacting Customer Relations.

CDW•G tracks the reason for all returns, allowing us to make appropriate changes, as necessary. For example, a high volume of returns damaged in shipment would lead us to audit the carrier and review product packaging. CDW•G also monitors how quickly and efficiently the Customer Relations staff handles RMA requests, aiming to respond to requests within 24 hours or less.

10. Describe the types of customer service available to agencies that use this contract:

CDW•G provides post sales customer support Monday – Friday from 6am – 6pm Mountain Standard Time. All customer support is based in the United States. All Help Desk technicians are CompTIA certified; hold at a minimum A+ and Network+ certifications, and many are accredited in various engineering and manufacturing training courses. Our customer service team assists customers to ensure the product is working as the manufacturer intended. CDW•G provides this value added support, at no charge, for up to two years or manufacturers end of life, whichever comes first.

Personal Touch. With CDW•G, each customer has one point of contact for all their procurement needs.

a. Is online support available?

Yes, CDW•G's online technical support services include live chat and E-support, and remote support.

Live chat and E-support

To supplement our industry leading toll-free technical support, we provide access to online live chat, accessible through the customers CDWG@Work Extranet site. We staff this support by our trained technicians from 6am to 5pm MST. This site also provides support case management.

Remote Login

Our technicians have access to LogMeIn, a remote login utility, which allows them to connect to the end users computer for more in-depth troubleshooting and quicker resolution.

b. Is phone support available?

Customers can use our toll free phone number 800.383.4239, Monday – Friday from 6 am – 6 pm MST, to reach our dedicated technical support team.

- c. Can agencies request a dedicated service representative and/or a dedicated service team? If a dedicated customer service representative and/or team are assigned, what types of services does the representative/team provide? How do you help the customer manage our account?

With CDW•G every customer is automatically provided one single point of contact, their Account Manager, from the very first inquiry for service. Account Managers are assigned to customers based on a specific segment (State and Local government, Higher Education, K12, etc.), as well as a specific region in the country.

From hire, CDW•G Account Managers attend onboarding training, known as the “Account Manager Academy,” for three months before they begin interacting with customers on their own. This intensive training program focuses on sales consulting, product training, operational systems, and customer service. This process is much longer than industry standard practices, providing a higher level of support that our customers are quick to notice.

Account managers focus on learning their customers’ processes, requirements, needs, and challenges. This allows them to provide expertly the following services to agencies:

- Registration assistance to participate in National IPA
- Contacting customers and notifying them of the benefits of the contract
- Pre-sales consultation, including providing product and system compatibility information
- Providing industry - specific insight on technology solutions
- Acting as a quality control check by reviewing and approving all quote requests
- Keeping customers abreast of availability issues and assisting with any needed alternative sourcing options
- Coordinating any special delivery requests, including emergency orders
- Working with available CDW•G resources, and coordinating contact for any needed subject matter expert insight
- Keeping updated and available to assist in developing a service solution
- Facilitating communication between the customer and National IPA, as needed

In-depth Training. CDW•G Account Managers spend months training before assisting customers.

CDW•G ensures Account Managers are supported by an intricate network of subject matter experts. Account Managers utilize these resources to provide complete guidance to their customers. This network includes:

Sales Manager

Sales Managers lead a team of Account Managers and Account Specialists to provide comprehensive solutions and outstanding sales support. They visit customer site(s) for business planning and discussions of future projects, as needed. They also assist Account Managers with expedited orders and problem remediation.

Business Development Manager

Our Higher Education sector also has Business Development Managers, focusing on aligning with our customers. Their main role is to work with customers’ procurement teams to review current contracts,

align with strategic initiatives that the procurement team is looking to roll out, act as project manager for B2B integrations and a main point of contact to help resolve issues.

Field Account Executive

Field Account Executives (“FAE”) work in tandem with Account Managers and Account Specialists to provide comprehensive solutions and outstanding sales support. Each FAE is dedicated to a specific region and industry, and provide onsite visits to customers in communities across the country. Their site visits include usually business reviews and other meetings, as needed. FAEs also work with System Engineers to provide onsite road mapping, project development, and technical expertise.

Solution Architects

Customers also have dedicated Solution Architects (SA) for each of their service solution needs. Solution Architects are dedicated to specific Account Teams, and is the expert in aligning customers with the appropriate service resources and tools including deployment technicians, project management and implementation engineers. The Solution Architect works closely with CDW•G customers to accurately scope project requirements and create a Statement of Work, making certain we provide the specific skills, proper staff and solution needed to fully service the customer. Upon agreement to move forward with the service offering, the Solution Architect hands off the service delivery to the customer’s dedicated CDW•G Project Coordinator and/or Project Manager to ensure successful execution.

OEM Specific Resources

For manufacturer specific information, Account Managers utilize an integrated network of both internal and external sales force. Many OEMs have pre-sales engineers and channel account managers (often onsite at CDW•G) providing consultation and immediate support to Account Managers. Additionally,

CDW•G badged Brand Managers, Field Solution Architects, and Partner Business managers work with both Account Managers and the external teams mentioned, providing further support.

360 Degrees of Support. CDW•G back our Customers’ one point of contact by the full scope of subject matter experts.

Proposal/Bid Response Team

If a customer’s solicitation would be a viable opportunity for CDW•G, Account Managers can request assistance in response from the Proposal/Bid Response team. This allows CDW•G to mitigate some of the risks that come with contractual sales and to quickly create a polished, well-crafted response. Additionally, this team allows CDW•G to increase not only the volume of solicitations we respond to, but to increase the likelihood of winning as well.

Program Manager

Program Managers set up and manage contracts once awarded. They are a valuable resource to Account Managers, as they assist with training Account Managers in the contracts scope and guidelines, provide contract information and updates, and assist with Extranet/Premium page issues.

d. How are problems resolved?

CDW•G Account Managers assist their customers in resolving any issues. If a problem is in regards to an Account Manager, we encourage customers to contact the Account Managers Sales Manager.

e. What are the location and hours of your call centers?

CDW•G provides post-sales customer support Monday – Friday from 6am – 6pm Mountain Standard Time. All customer support is based in the United States. All Help Desk technicians are CompTIA certified; hold at a minimum A+ and Network+ certifications, and many are accredited in various engineering and manufacturing training courses. Our customer service team assists customers to ensure the product is working as the manufacturer intended. CDW•G provides this value added support, at no charge, for up to two years or manufacturers end of life, whichever comes first

f. What response time is guaranteed when a customer service request is made?

Response time is dependent on the request made. CDW•G strives to resolve all Customer Service Requests within 24 hours. However, because problems involving carriers typically take up to five days, the average time for problem resolution is approximately 2.5 days.

Measured Success. Our continued focus on our customer services attributed to our Forrester Groundswell Award for B2B Listening

CDW•G understands some requests are more urgent than others, and utilizes a detailed incident management process for critical systems. Severity level dictates the response time of this practice and employed for issues with our own network services, co-located systems, hosted solutions, websites, or our Internet services.

We constantly monitor our customer service process, ensuring we are continuing to meet the

needs of our customers. The Customer Relations Supervisor reviews all CSRs at the end of the day to ensure that each CSR is being handled promptly. Additionally, Customer Relations Quality Analysts audit 30 cases per Customer Relations Representative per month to ensure representatives meet quality standards and that we provide proper training. We make adjustments and evaluate process changes as needed when we see high volumes for particular types of Customer Service Requests (CSRs).

g. Do you measure/track the success of your customer service program? If so, how do you do this, and what are your findings?

Always focused on continually improving our ability to provide the best service and products in the industry to our customers, CDW•G has a number of corrective processes in place. Some of these processes include:

- Our Purchasing Department monitors return rates on purchased products to look for quality issues.
- We aim to respond to Return Merchandise Authorization (RMA) requests within 24 hours.
- When we see high volumes for particular types of Customer Service Requests (CSRs), or RMAs we make adjustments and evaluate process changes, as needed.
- The Customer Relations Supervisor reviews all CSRs at the end of the day to ensure that we handle each CSR right away.
- Customer Relations Quality Analysts audit 30 cases per Customer Relations Representative each month to ensure our representatives are meeting quality standards and that we are providing proper training.

Additionally, CDW•G conducts monthly loyalty surveys to measure the customer's perception of CDW•G. We utilize these surveys to collect information for several internal departments including shipping, billing, and customer relations. We select customers on a random basis to participate in the surveys. If a customer ranks us "poor" or "fair", then the appropriate CDW•G department contacts the customer to determine the reason for their unsatisfactory response and offer additional action to rectify the problem. This fortunately is rare, as the majority of end-users express favorable survey comments. The positive comment that we receive most often is "*CDW•G is extremely customer focused*". As a testament to our dedication to customer service, CDW won the 2010 Forrester Groundswell Award for B2B Listening.

11. Describe the warranty period of products. Submit information on your warranty program.

While products sold by CDW•G come with the manufacturer's standard warranty, City of Tucson customers can contact our Technical Support Department for technical support on hardware purchased from CDW•G. We provide technical support on the products that we sell for up to two years from the date of purchase. If the Technical Support representative determines the customer needs warranty support, they connect them to the manufacturer's warranty department.

CDW•G offers a number of product lifecycle support options in addition to manufacturer warranties. This suite includes:

- | | |
|------------------------------------|--------------------------------------|
| • Warranty extensions and upgrades | • Product and certification training |
| • Post warranty support | • Onsite repair |
| • Accidental damage protection | • Depot repair |
| • Maintenance contract agreements | • Help desk services |
| • Post-sale technical support | |

We send warranty expiration emails to our Account Managers, who then inform their customers when their hardware protection is about to expire. Account Managers assist their customers in determining the best warranty and coverage solutions to keep IT investments up and running, or finding a best-valued replacement.

12. Describe how your firm will notify customers of new products.

CDW•G prides ourselves on being on the forefront of technical development in the IT industry and our relationships with top manufacturers often results in advanced notification of upcoming releases of new products. In fact, we act as beta testing and product development for some of our vendor partners such as Cisco and Microsoft. Some of our engineers work closely with these vendor partners and learn the strengths, weaknesses, bugs and fixes of new products as many as 18 months before product release.

We utilize a number of avenues to keep contract purchasers informed of these new products. We highlight products on cdwg.com, and the contract Premium Page, and are open to suggestions by the City and National IPA. However, since Account Managers keep up to date with their customers' systems and processes, they are often the notification touch-point for new products that fit these customers' needs. Account Managers receive regular new product and technology training from our manufacturer partners, an average of 4-8 hours a month.

Knowledgeable Insight. CDW•G Account Managers focus on providing an expert viewpoint on our product portfolio.

Often times, Account Managers complete additional training on their own, receiving OEM certifications as sales certified experts. This training allows them to provide insight to their customers atypical of what you receive with most resellers. They utilize this knowledge in working with their customers to determine if new products are the best solutions for the customer's needs. Additionally, our industry leading Solution Architects and Engineers act as resources to our Account teams and customers for consultation and evaluation of new products and technologies and for help with strategic planning for our customers' environments.

13. Describe how your firm notifies customers of discontinued products?

As detailed in the previous response, we often receive advance notification from manufacturers when a product is nearing end of life, and we make every attempt to communicate these changes to customers who may be affected. One of the essential functions of an account team is to make users aware of the availability of a given product or product line. Using powerful proprietary tools, each account manager has complete visibility in real time to our distribution centers. Each account team also has visibility into our distribution partners' warehouses through EDI feeds updated at least twice daily. As part of their value-added service, they assist customers in finding substitute products that will help customers achieve the same business results. Since this information comes directly from Account Managers, we always encourage our customers to call for assistance when making large or essential purchases.

14. Describe if technical support questions are handled the same way as a customer service request? If not, describe the type(s) of technical support available, the location of technical support, and the hours of technical support.

We encourage customers to contact their Account Manager when technical support is necessary. If the Account Manager is unable to assist, he/she determine the best next steps. They may work with the customer and dedicated manufacturer support coworker to resolve the issues, solicit assistance from their Sales Manager, or connect the customer to our help desk. CDW•G customers can also contact our technical support team directly from our website or their Extranet site, in a variety of ways including email, chat, and telephone. Our technical support team is available Monday – Friday from 6am – 6pm Mountain Standard Time. All customer support is based in the United States. All Help Desk technicians are CompTIA certified; hold at a minimum A+ and Network+ certifications, and many are accredited in various engineering and manufacturing training courses. Our customer service team assists customers to ensure the product is working as the manufacturer intended. CDW•G provides this value added support, at no charge, for up to two years or manufacturers end of life, whichever comes first.

15. Describe the proposed verifiable pricing formula or guaranteed discount matrix for new products introduced.

CDW•G is proposing a percentage off our nationally advertised pricing. We will apply the contract discount applicable to the new products introduced. We propose our discounts by categories that line up with our own internal catalog categories, so that when we add these new products to the CDW•G catalog, the City's contract catalog updates immediately as well.

With the discussion of discounting from MSRP at the Pre-proposal Meeting, CDW•G feels it is important for us to explain to the City the benefits of a discount from CDW•G's Nationally Advertised Price (NAP). The single most important parameter in a price model for this contract is the reference point from which price is calculated. Respondents, which derive discounts from MSRP, are often times leaving substantial customer savings on the table. For instance, the evaluation of the sum of an overall discount percentage does not always yield deeper savings. A seemingly "low" initial price, derived as a discount from a static reference like a Manufacturer's Suggested Retail Price (MSRP) may not be as advantageous as a "higher" price derived from a dynamic reference point. Resellers are able to obtain pricing which far exceeds MSRP-level pricing, due in large part to the quantity of product which they source from manufacturers and/or distribution partners and CDW•G's NAP is historically far lower than MSRP.

The charts below display three relevant computer peripherals products which have been compared using the MSRP vs. CDW•G NAP Models. These charts display the lack of savings which MSRP price models produce, as compared to that of a dynamic price list such as CDW•G NAP:

As evidenced in the preceding charts, partnering with a contractor that utilizes a dynamic price reference point allows for the extension of more advantageous pricing even with a lower discount number. Simply arriving at a sum of all total discounts does not qualify savings unless the City is aware of where the prices originate. Often times we see competitors simulate MSRP pricing in order to show large discounts, however as the table above illustrates, even discounts which originate from standard MSRP cannot compete with discounts originating from CDW•G Nationally Advertised Pricing.

CDW•G's Nationally Advertised Price List, unlike an MSRP model, considers industry and buying trends and is fully automated. This benefits the City in that price decreases can be reported and tracked by running a basic report, while MSRP models require continuous monitoring, as well as manual price

adjustment entry for thousands of line items. CDW•G, on the contrary, is able to simply query price changes, update the price index, and report discrepancies to the City in a timely fashion.

In conclusion, continuing to utilize a dynamic price model such a discount from CDW•G's NAP keeps the City's evaluation an apples and oranges comparison, and allows the City to see more savings, faster. Even if a discount percentage is in the single digits (as noted in the CDW•G NAP Model above) it packs the offer with greater savings than that offered by the high discount, low realized savings MSRP model.

We commend the City for continuing sound procurement practices, such as requiring vendors to complete the Attachment A market basket. This deliverable provides the City a realistic price comparison, evaluating actual savings, as compared to perceived savings. However, as this market basket covers only a minimal portion of the discount categories requested, we encourage you to bear in mind our explanation above when considering each vendor's overall price offering.

16. Describe what other services you offer that would be applicable to this contract (e.g., leasing/financing, services, maintenance, implementation, design, analysis, training, repair, etc.)

Leasing/Financing

CDW•G has a department dedicated solely to assisting our customers with their leasing needs. Much like our product offering, we take a vendor agnostic approach and focus on providing the best options in the industry, and not simply the latest solutions from a single provider. CDW•G's leasing team can work with the City to find the best leasing option that fits within any unique budget constraints the City may be experiencing.

Leasing allows the City to procure needed equipment now, so you do not have to wait years down the road when your budget allows a large- scale purchase. With leasing and financing, the City also has the ability to bundle costs. Therefore, if you are also working with outdated software, you can purchase it with your products, and even services, all in one fell swoop. Budgeting for leasing is easier than purchasing outright, as your monthly payments are agreed upon upfront. Finally, you can protect the City from advancing technology. With a lease, you can choose to add to your lease term; and once you choose to end the lease you often have the option between purchasing or returning the equipment.

Maintenance

CDW•G recognizes that maintenance/support contracts are of great importance to many customers because uptime is vital to their success. Our strong partnerships with the industry's top technology manufacturers, paired with our own maintenance solutions, offers a variety of viable options to our customers. Our maintenance options include the following:

- Warranty extensions and upgrades
- Post warranty support
- Accidental damage protection
- Maintenance contract agreements (conterminous, break/fix, and retainer)
- Post-sale technical support
- Product and certification training
- Help desk services

Implementation

Our national footprint is expansive, with over 600 engineers on staff in more than 15 service offices, complimented by a national traveling team. Additionally, we have capabilities to ship 3,000+ custom-

configured systems daily; we configure over 750,000 custom solutions in our two state-of-the-art distribution centers annually. Our large number of engineers, paired with our configuration capabilities, allows CDW•G to handle any rollout project that contract members may have.

Design

Most of our projects begin with either an assessment or planning and design session. Our architects review your needs and can perform an evaluation of your existing environment to develop a comprehensive solution to meet your particular project objectives.

Consulting/Analysis

Most of our projects begin with either an assessment or planning and design session. CDW•G technical specialists and field solution architects are experts in many areas including unified communications, networking, wireless, network and physical security and server/storage solutions. CDW•G will save contract members staff time and effort because our experts have already initiated the due diligence process. We share our knowledge of the latest technologies as well as our expertise regarding the pros and cons of each potential solution. We also offer a variety of more complex consulting/analysis solutions for those customers who need a more in-depth evaluation of their systems.

Training

CDW•G's project methodology ensures technicians and project managers work with the mindset of being an extension of the customer's IT staff. Throughout the project our team not only focuses on designing bullet-proof solutions, but continually engaging the IT staff; sharing knowledge, and ensuring the staff knows how to navigate the solution in which the customer vested their resources. Should a customer require training outside of this transfer of knowledge, we have a blended solution of CDW•G offerings, manufacturer standard trainings, and technology training companies.

Repair

In addition to offering onsite repair, we have our own repair center. CDW's Repair Center offers fast turnaround time and low cost out-of-warranty repair prices, as well as great in-warranty service. Our factory certified repair technicians complete typical repairs on an average of 7-10 business days. We are an authorized Service Center for the following Manufacturers:

- | | | |
|-----------|----------|---------------|
| • Acer | • HP | • Service Net |
| • Apple | • IBM | • Sony |
| • Fujitsu | • Lenovo | • Toshiba |

Please note: due to manufacturer policies, limitations, and agreements, CDW may not be able to service all computer models or lines made by these manufacturers.

Tab Six

B. Price Proposal

B. Price Proposal

1. Provide price proposal as requested on the Price Page attached herein. In addition to indicating your proposed discounts on the Price Page, you must also apply those discounts to the sample items in the Sample Items List in Attachment A.

CDW•G offers an additional 2% discount beyond the applicable category discounts for all HP products.

REVISED ATTACHMENT A: SAMPLE ITEMS LIST

NOTE: For each item listed below, offeror should fill in the yellow cells only. In the "Unit Price Before Discount" column, offeror should enter the unit price for the specified item before their discount is applied. In the "Discount" column, offeror should enter the discount that they are proposing to offer for the specified item. The discount entered in the "Discount" column should match the discount that offeror identified on the Price Page. The "Unit Price After Discount" column will autopopulate based on the entries in the two preceding columns.

Note: For the sole purpose of helping to identify the sample items below, the CDW-G Part # is also being provided for each item.

Item #	Description	Brand	Manufacturer's Part Number	CDW-G Part Number	UNIT PRICE BEFORE DISCOUNT	DISCOUNT	UNIT PRICE AFTER DISCOUNT

2. Propose and provide details of additional discounts or rebates for volume orders, special manufacturers' offers, free goods program, total annual spend, etc.

Under the contract, individual clients who purchase significantly larger amounts may qualify for an additional discount on individual purchases. Additionally, as a partner on the contract, CDW-G will be leveraging its influence on manufacturer partners for additional cost saving programs based on contract spend.

CDW•G Exclusive Savings. CDW•G offers contract purchasers an additional 2% discount for all HP products.

One of the updates to our price offering to the City that we are most excited to offer contract purchasers, is deep additional HP discounts. CDW•G recognized on the current contract, HP products are what agencies continue to purchase the most. In fact, HP sales are almost three times higher than the second highest OEM sales. We realized this was a potential for even greater savings for our customers, and as an HP Premier Partner, CDW•G negotiated an even lower discount

for the new contract. At present, we will be offering all HP branded items at an additional 2% discount over and above the standard contract discount. This discount is only for CDW•G customers, and is exclusive to the City's contract.

With our dedicated Account manager model, CDW•G Account Managers are tasked with providing exceptional customer service and excellent value to each customer who purchases from National IPA. With that goal in mind, if a customer were to forecast larger quantities, the Account manager will work with manufacturer partners on behalf of his/her customer to achieve greater than contract discounts. The discounts and effective savings will be dependent on manufacturer support as well as the size and volume of the order. Depending on the product type the discounts can be anywhere from 2- 20% additional savings.

3. As stated in the Instructions to Offerors, 7. Discounts, the price(s) herein can be discounted by _____%, if payment is made within _____ days. These payment terms shall apply to all purchases and to all payment methods.

CDW•G does not offer prompt payment discounts.

4. Will payment be accepted via commercial credit card? _____Yes _____No

Yes, we accept commercial credit card payments.

- a. If yes, can commercial payment(s) be made online? _____Yes _____No
- b. Will a third party be processing the commercial credit card payment(s)? _____Yes _____No
- c. If yes, indicate the flat fee per transaction \$_____ (as allowable, per Section 5.2.E of Visa Operating Regulations).
- d. If "no" to above, will consideration be given to accept the card? _____Yes _____No

Yes, customers can make online commercial payments. We have trading partnerships with credit card processing companies; our customers do not directly incur any fees associated with these transactions.

5. Does your firm have a City of Tucson Business License? _____Yes _____No

CDW•G does not currently have a City of Tucson Business License, but we have applied for one. We will happily provide this to the City once we receive.

Tab Seven

C. Qualifications and Experience

C. Qualifications and Experience

1. Provide a brief history and description of your firm. Discuss firm's national presence in the IT solutions industry.

Founded in 1984, CDW is a leading provider of technology solutions to over 250,000 customers composed of small-, medium-, and large-sized public and private entities. CDW Government LLC (CDW•G) is a wholly owned subsidiary of CDW Corporation, incorporated in 1998 to address the specific needs of our government, education, and healthcare customers. Our unique company structure provides our customers products and services only a large national reseller can provide, combined with a local presence typical of a small business. We have a large manufacturer presence in our offices across the country and blanketed in the field with our field account executives. Account Teams are segmented by sector, which allows us to provide our each customer with one contact who is knowledgeable of every nuance of their organization.

CDW•G is one of the largest direct marketing resellers in the U.S., currently carrying more than 100,000 top name-brand technology products from more than 1,000 leading IT manufacturers. Our two state of the art distribution centers are capable of handling 141,000 shipments daily, out of a combined area of almost one square mile. We utilize a just-in-time inventory system to ensure we have the products in stock and ready to ship, and send them out to our customers with a 99.7% shipping accuracy.

We launched our e-commerce website in 1995, as an additional avenue to service our customers. In May 2012, CDW•G was ranked No. 10 on the list of America's largest e-retailers by Internet Retailer's Top 500 Retail Web Sites Guide for the third consecutive year.

Though our selection of product is very wide, CDW•G delivers more than just product; we also deliver IT solutions. We offer a full spectrum of technology services including cloud computing, consulting, system configurations, implementation, and training. CDW•G designs and implements complete business solutions that address a full range of complex issues including, but not limited to Business Continuity, Infrastructure Optimization, Networking, Security Management, and Unified Communications.

Our intricate offering coupled with our customer-centric business model, is the reason for our success. A testament to this success is our continued upward sales trend, totaling over ten billion in 2012.

2. Provide the total number and location of sales persons employed by your firm.

CDW•G currently employs more than 1,360 coworkers, part of our larger organization of 6,900 employees nationwide and in Canada, with 43 different locations. More than 840 of our CDW•G dedicated sales force are Account Managers, in addition to 65 Field Account Executives placed throughout communities across the nation.

3. Provide the number and location of support centers (if applicable).

When CDW•G was awarded the City's contract in 2008 we had offices in five states and Canada. Since this time, we have drastically expanded our location

Nationwide Coverage. 1,360 CDW•G coworkers serving our customers

portfolio across 20 additional states, and have added second/multiple offices in a number of our original five states and Canada. Currently, we have 43 separate locations. Speaking specifically to the benefit of this contract, seven of the states with new locations are also in the ten states with the highest historical spend on the contract.

4. Provide your firm's annual sales for 2009, 2010, and 2011.

Below you can see evidence of CDW Corporation's sales growth, and our growth on the contract as well. You will note that since the recession of 2009, CDW•G consistently drives compounding growth in both areas, and anticipates these upward trends to continue. Also notable, the growth rates of National IPA exceeding the standard rate for CDW•G, verifying our good faith effort to promote the contract within our existing client base.

Explosive Sales Growth						
Year	Annual Revenues			YOY Growth		
	National IPA (\$ Millions)	CDW•G (\$ Billions)	CDW (\$ Billions)	National IPA	CDW•G	CDW
2009	21.7	3	7.2	443%	3.5%	-11.1%
2010	44.1	3.6	8.8	103%	20.0%	22.2%
2011	83.3	3.8	9.6	89%	5.6%	9.1%
2012	99.4	4.0	10.1	19%	7.1%	5.5%

5. Please submit your FEIN and Dunn & Bradstreet report.

CDW•G FEIN: 36-4230110

Dun & Bradstreet numbers:

CDW Corporation 107627952

CDW Government, Inc. 026157235

We include our reports in a separate, confidential file.

6. Provide a summarization of your experience in performing work similar to that outlined in this solicitations. Provide a minimum of three references for which your firm has provided the same solution (please include company name, address, contact person, phone number, email address and dates of service). References from other public agencies, particularly municipal governments, are preferred.

As detailed previously, CDW•G holds a number of similarly structured contracts, including AEPA, NJPA, and TCPN, among others. These are contracts we not only currently held, but have held simultaneously while managing the City's current contract. For our references we provide customers that can attest to our abilities of both managing this contract, and to addressing and meeting their needs as our customer. We provide contact information for these customers in a separate, confidential file.

University of Arizona

Address: The University of AZ Purchasing USA Building 300A, 5th Floor Tucson, AZ 85721

Dates of Service: July 1989 – present

Summary of Service: Currently one of the top purchasers of the City's contract, the University relies on their CDW•G Account Manager to help find the contract's best solutions for many of their technology needs.

Hillsborough County

Address: 601 E. Kennedy Blvd. Tampa, FL 33602

Dates of Service: November 1996 – present

Summary of Service: Hillsborough County has a number of mandatory statewide contracts they must use for their IT purchases. For most other purchases, they turn to the City's contract.

Lee County

Address: 1825 Hendry St Fort Myers, FL 33901

Dates of Service: August 1993 – present

Summary of Service: Like Hillsborough, Lee County only cooperative contract they purchase from is the City's. They utilize the full scope of the contract offering.

7. Provide resumes and three references (preferably from the public sector) for the primary customer service representative(s). Resume(s) shall include their title within the organization, a description of the type of work they would perform, the individuals' credentials, background, years of experience and relevant experience, etc. References shall include the contact's name, phone number, email, position, organization, and the work which the Offeror performed for the reference.

CDW•G's customer service structure is beneficial to contract purchasers, in that each agency has its own dedicated Account Manager acting as the primary service representative. However, due to the large number of Account Managers dedicated to this contract, it is not feasible to provide the requested information for each. Therefore, we provide the credentials for your lead customer service representative for the contract, your point of contact for contract management, and the City's own dedicated Account Manager.

Pat O'Brien, Sales Manager

Phone: 877.898.2997

Email: patobri@cdwg.com

Organization: Reports to David Hutchins, VP of State and Local Government Sales

Contract Role and Experience: Pat acts as the City's main point of contact for all customer related aspects of this contract. He assists in driving contract opportunities by meeting with customers, attending conferences, assisting with marketing initiatives, and training his sales team on the contract. Additionally, he acts as the point, should any customer issues need escalated.

Pat has supported our customers for over 11 years, seven years within a manager capacity. Within his eleven years, he has supported government, education, and healthcare customers, allowing him to provide adept assistance to any customer utilizing the contract. Pat has also led this contract from a sales perspective since day one.

Wilson Garcia, Program Manager

Phone: 877.898.2997

Email: wilsgar@cdw.com

Organization: Reports to Amanda Ewertowski, Sr. Program Manager, who reports to Tara Barbieri, Director of Program Sales

Contract Role and Experience: Wilson acts as the City's main point of contact for all contract management related aspects of this contract. He assists Account Managers with new member set-up, contract page issues, and assists with Account Manager training. Additionally, he provides the City and National IPA contract reports and Quarterly Business Reviews.

Wilson has acted in a Program Manager capacity with CDW•G since 2005. He utilizes his Masters of Public Administration degree and background in the government sector to continue to provide our customers the level of service and compliance their contracts both need and deserve. Like Pat, Wilson has supported the City's contract since its inception.

Derrick Graff, Sr. Account Manager

Phone: 866.339.7079

Email: derrgra@cdwg.com

Organization: Reports to Pat O'Brien, Sales Manager

Contract Role and Experience: Derrick is the City of Tucson's own dedicated Account Manager. He assists the City with any of your technology procurement needs, whether utilizing your own contract, or not. He promptly responds to orders, acts as a subject matter expert for the City's specific technology needs, and collaborates with manufacturer support to provide you the best-valued solutions.

Derrick has assisted CDW•G's government customers for over five years. Derrick knows the importance of providing knowledgeable insight to his customers, and thus continually focuses on Manufacturer training, acquiring certifications in HP, Cisco, Microsoft, Panasonic, VMware, NetApp, EMC, and Symantec. He combines this knowledge and experience to provide the City a high level of support for your contract.

City of Peoria Information Technology

Address: 8401 W. Monroe St. Peoria, AZ 85345

Dates of Service: December 1998 – present

Summary of Service: The City of Peoria recently placed a large purchase of Toughbooks through CDW•G on the National IPA Panasonic contract, a contract which we partner with Panasonic. This purchase was a refresh project. The City purchased the same products from CDW•G three years prior and were highly satisfied with both the Panasonic products, and the service they receive from CDW•G.

Navajo County

Address: 100 E Code Talkers Drive South HWY 77 Holbrook, AZ 86025

Dates of Service: May 1992 – present

Summary of Service: Navajo County is a National IPA member and frequently uses the City's contract for their technology needs.

Mohave County

Address: 700 W Beale St Kingman, AZ 86402

Dates of Service: September 1993 – present

Summary of Service: Mohave County utilizes a number of cooperative contracts, including National IPA. Derrick assists them in determining which of these contracts fits the needs of each project the best.

8. Provide information regarding if your organization ever failed to complete any work awarded.

At the time of submission and to the best of our knowledge, CDW•G has never had a contract terminated for cause.

9. Provide information regarding if your firm, either presently or in the past, has been involved in any litigation, bankruptcy, or reorganization.

Though CDW•G has been involved in litigation none has or is expected to impact our ability to provide products and services on this agreement. We have not filed any bankruptcies. We reorganized with new ownership in August 2007, resulting in transition from a publically traded company to a return to the private sector.

Tab Eight

D. Technology

D. Technology

1. Describe your website and the ease-of-use for customers to perform the following types of tasks:
 - a. to search for products
 - b. to find alternate products (if a certain product is not available)
 - c. to perform side-by-side price comparison of products
 - d. to order products
 - e. to order products in advance (i.e., how far in advance of required delivery date can an order be placed?)
 - f. to track order status, to include backordered items
 - g. to determine when an item was received and who received it
 - h. to restrict/block the ordering of certain line items and to restrict/block the ordering of groups
 - i. to create approval paths/levels for orders, to include creating an approval path for restricted items
 - j. to create a "favorites" list or other personalized list of frequently ordered items
 - k. to create a "shared" list for an agency to use
 - l. to obtain online customer service
 - m. to receive online training
 - n. to accept credit card payment (and describe the level of data offered; also describe your security measures for credit card orders)
 - o. to track their budget for purchases
 - p. to generate reports

Each Agency utilizing the contract has their own customized CDWG@work extranet that is available to users 24 hours per day, seven days a week. This value-added tool makes working with CDW•G easy, convenient and efficient. We have been the pioneers in tapping the power of the web – and we continue to develop enhancements based on customer feedback. Our extensive suite of extranet tools is provided to contract users at no additional cost.

We have enabled more interactive information about updates to the website via <http://www.cdwsiteinfo.com/>. In January 2013 we released a CDW•G Specific Site BLOG via <http://www.cdwsiteinfo.com/category/about-our-site/blog/cdw-g/>.

This BLOG includes a site overview as a movie and PDFs describing all the value added features, including:

- Streamline the ordering process
- Facilitate product standardization
- Automate purchase approvals and control rogue purchasing
- Communicate standards to all users

- Maintain customized catalog(s)
- Reduce time spent researching and purchasing IT products
- Maintain consistent pricing across the organization
- Create quotes right from your shopping cart
- Provide up-to-date order and delivery status including backorders
- Track purchases by each subsidiary and affiliate
- Simplify software licensing and ensure compliance that minimizes costly fees
- Track your IT assets across your organization
- Provide flexible reporting capabilities using pivot table technology
- Track up to three years of purchase history
- Upload reports in Excel format
- Access online chat support

Our web capabilities provide an extra level of convenience, customization, and efficiency for all users. Our award-winning e-Procurement tool brings customers:

Speed — Customers can research, purchase and track technology easier and faster than ever. CDW•G makes the buying process simple and more efficient. With one click, authorized purchasers can procure the best solutions at the best price from one of the industry's largest inventories of brand-name products. Consolidating purchases through our "one-stop shop" saves customers both time and money.

Information — Our extranets provide the industry's most comprehensive suite of e-Procurement tools to gather the breadth and depth of detail to help make the right purchasing decisions. The site puts customers in direct contact with their Account Manager who can personally guide with suggestions and recommendations to help make informed purchase decisions.

Reporting — As a rich source of detail on purchase history, license agreements, and asset tracking, CDWG@work lightens the burden of report generation. This customizable extranet is a productivity-enhancing tool, giving the exact detail customers require whenever they need it. As detailed in Question #10 of this section, customers can also download reports into a variety of formats, including Microsoft Excel, CSV and tab-delimited files.

The value-added benefit of a customized extranet is the ability to manage data and information that will enable customers to make more cost-effective decisions. It also reduces the administrative and purchasing costs involved in procurement.

Extranet Features

We provide specific features of a customized extranet below:

Contract Pricing — View Negotiated Contracts in Real-Time, Receive Bids Quickly

Agencies can view the City's contract pricing, right from their extranet. City of Tucson contract users can view all eligible contract pricing as they shop. Their extranet automatically provides their special pre-qualified pricing and discounts on tens of thousands of products. Authorized users can access contract and/or special pricing in real-time, as the site is constantly updated to reflect the latest status. Buyers from any location can view approved contract pricing to ensure this pricing structure holds true throughout the entire organization.

Account Team — Access Expert Support with a Personal Touch

CDWG@work allows customers to work directly with your dedicated Account Manager and team of sales support, as well as customer service professionals and certified technicians during every step of the purchasing cycle. CDWG@work displays pictures of the customer's Account Team, view their contact information and check their availability in and out of the office.

Online Quotes — Create, Review and Place Orders in Minutes

Purchasers can review quotes online just moments after their Account Manager create it. From here, users can print it, forward it to colleagues or manager for pre-authorization, or convert it to a live order. This feature also lets customers create their own quote right from their shopping cart, in addition to viewing contracts, volume and bid pricing online.

Company Solutions — Compare and Buy Single or Bundled Products with One Click

This CDWG@work capability enables agencies to customize their extranet home page to show the products and configurations their organization uses, and to streamline standard product orders. They can choose a variety of formats to view products individually, in bundles, by manufacturer or even in side-by-side comparisons. By grouping products into bundles, there is no guesswork when making repeat purchases on your standardized solutions. CDWG@work also allows customers to perform quick product searches and to “comparison shop” by viewing side-by-side, detailed product descriptions before they even place an order. This takes the hassle out of downloading data from multiple manufacturer websites.

Catalogs and Custom Catalogs – Limit Product Purchase Rights

Compare Products. Easily compare products to find the best product for your needs.

The catalog feature allows agencies to create customized catalogs. Customized catalogs can be used to limit the purchasing ability of end-users based on: Purchase History, Corporate Solutions, Contract(s), Manufacturer Part Number, the CDW•G EDC, and through the Search function. The same engine and keywords that drive the Search Engine are also available to search for product. This allows purchasers to refine items listed before making them a part of their agency's custom catalog for one or multiple users. These rules can be used to add product to a catalog or exclude items from one as

well. Once applied to a group or PAS workflow, they can really help control the spending habits of end users and help keep IT budgets on only the standard of items approved.

Asset Management — Follow Asset-Tagged Hardware throughout Agencies

CDWG@work provides an online asset management tool to track asset tagged products. Products are searchable by serial number, order number, date of purchase, product description, warranty length, invoice number, or location. Users can even create their own custom fields and add or enter products purchased from other vendors. This extranet feature also allows customers to modify their records to reflect the transfer of equipment from one location to another, a real plus for customers with multiple locations. Asset Management then lets the user create and download a detailed report of their hardware assets.

Manage Assets. Track all your products, even those not purchased at CDW•G

Account Linking — View, Place and Track Orders from Multiple Addresses

Account Linking lets customers view, place and track orders, including historical purchases across multiple bill-to addresses. A single login gives authorized users a way to efficiently access their order status from across the enterprise to anywhere in the world. This eases the challenge of multiple purchases from disparate locations by centralizing the purchasing process, yet offering the flexibility to place and track orders by address and location.

My Purchases — Track Order Status and Purchasing History Instantly

Status	Actions
Not yet shipped	Track Order
All items shipped	Track Order View Invoice
All items shipped	Track Order View Invoice
All items shipped	Track Order View Invoice

Track Purchases. Track order and view invoices conveniently from one location.

This feature offers a full breadth of tools to track order status, purchasing history and financing options. Original invoices can be printed; giving a view into outstanding balances and invoices, credits, adjustments and/or payments. Agencies can download their purchasing history in preferred time increments (such as month-to-date, last six months, prior year, etc.) in any number of formats. The system lets users automatically save this data in spreadsheet or database applications. Authorized users can readily search their order, get a tracking number, check shipping status, and request a Return

Merchandise Authorization (RMA).

Purchasing Authorization System (PAS) — Streamline Purchasing Approvals

CDWG@work also automates the approval process. PAS enables customers to restrict their employees' purchasing power and to automate required approvals before they place any order. PAS bypasses the laborious step of having a purchasing administrator personally place each order. This process allows for multiple levels of approval, as well as multiple approval systems, which can all function independently for many departments/locations within the procurement process. This system also allows for reporting that is specific to orders which have moved through the requisition process setup through PAS. All reporting is as dynamic and editable as the other tools on their extranet.

Monitor Purchases. PSA removes the need for a purchasing admin to personally place each order.

Product Finders — Easily Find the Right Accessories and Supplies

CDWG@work and CDWG.com now offer Product Finders to make it even easier to find supplies for printers, fax machines, copiers, multi-functions, and other devices. Customers can also search for desktops and notebooks. Product Finders guides to the technology solutions that fit agencies needs and will even help find information for discontinued models. These Finders were designed to ensure compatibility for product categories including cables, desktops, ink and toner, memory, notebooks, power protection, and cases and bags.

2. Describe additional functionality offered by your website. Provide screen shots, a demo “CD”, a demo URL, a manual, etc., or any other format that will aid the City in our evaluation of your website.

The City can review the current contract's CDW•G Premium Page at www.cdwg.com/nationalipasolutions. When placing an order, agency members log into their own personal CDW•G Extranet to complete the procurement. This account is available twenty-four hours a day, seven days a week. On this site, agencies can compare products, quickly find compatible accessories, and select from a number of shipping options. However, this account offers more than just ordering functions. Agencies can track spend history, manage assets, and create customized reports. If they are in need of customer service assistance, they can reach their account manager, chat with or email a representative, and even place an RMA request. For an Extranet tour, visit <http://www.cdwsiteinfo.com/extranet-video/>.

The Extranet is not the only site we offer helpful tools to our customers, our main page, [cdwg.com](http://www.cdwg.com) has a plethora as well. For a tour of this site's functionalities, visit <http://www.cdwsiteinfo.com/cdw-site-tour/>.

CDW•G will continue to build new e-Procurement solutions and feature enhancements based on customer feedback. We strive to regularly incorporate new features and capabilities that ease inventory headaches.

3. Describe any national awards and/or other recognition that your website has received.

In May 2012, CDW•G was ranked No. 10 on the list of America's 500 largest e-retailers by Internet Retailer's Top 500 Retail Web Sites Guide for the third consecutive year.

4. Describe the hours your website is available? What are your hours of downtime, such as for system maintenance?

CDW•G does not have any scheduled extranet down time. Our website's availability is above 99.95%. We are constantly imaging and activating revisions while the site is fully operational. CDW•G works to ensure that there is redundancy in place to minimize any risk of downtime for contract purchasers.

We typically inform our customers of scheduled extranet outages 24-48 hours in advance. When these outages must occur, which is not often, we tend to schedule them on weekends when there is the least impact on the customer. In 2012, our site was only down for maintenance Sunday during the week of 4th of July and Sunday before Labor Day in September. We are capable of advising customers of any significant change (SSL Certificate Update, Change in IP block being used, major look and feel update) 45 days ahead of the scheduled change. Customers can let their Account team know if they would like to be added to this notification list.

5. Does your website offer real time product availability?

Yes, most manufacturers send us daily Electronic Data Interchange (EDI) downloads with pricing and product availability information. Our channel distributor partners send us daily EDI downloads, which allows us visibility to inventory items and pricing broken down by local or remote facilities. Furthermore, our top three distribution partners provide real time inventory information.

Using a Just-In-Time inventory management system, our purchasing department excels at keeping a one-to four-week supply of products in our distribution centers (depending on current sales volume trends for each product). We scan inventory as it enters the distribution center, as it moves through the fulfillment

process, and before it leaves the centers. This allows us to maintain near perfect inventory accuracy. The system processes and transmits each scan in real-time, providing immediate inventory updates.

6. Does your website offer order size incentives? For example, if an order reaches a certain amount, is there a discount that is offered and, if so, how is that conveyed to the customer?

No, our site does not currently offer order size incentives. However, due to the relationships our Account Managers have with their customers, they are often engaged in large purchases from the onset, and work with our Manufacturer partners to gain further cost savings. In rare instances where an Account Manager not be engaged in the process prior to the order being placed, they review all orders that would potentially fall within this category, and would address the potential savings at that time.

7. Describe the types of email confirmations that your website generates. What events trigger an email going to the customer?

The CDW•G website generates customer email confirmations for events including quote and order confirmations, notification of back orders, as well as shipment notifications. Customers can enroll in paperless billing to receive all invoices via email, and they can schedule an email reminder to order the products frequently used. Additionally, order status information is available 24 hours a day on the customer's CDW•G Extranet.

8. Describe the registration process to set up new customers for your online ordering process. Is self-registration available? If an agency does not want self-registration, are you available to assist in the registration process?

Wilson Garcia, your dedicated Program Manager, adds new members to the contract typically within a week of receiving a new member list from National IPA. Should a new member need immediate access to the contract, CDW•G Account Managers have been trained to request the new member forward them the confirmation they receive from National IPA. The Account Manager then provides this confirmation and the customer's CDW•G account number to Wilson, who immediately adds them to the system for contract access. If the agency does not already have an Extranet account, there are a few short steps for them to create an account. Once the customer creates their account, they simply log on to access the contract. Account Managers provide any registration assistance.

9. Describe if your website can be customized for an agency's specific needs, such as placing our logo on your website, associating an agency blanket purchase order number on all orders, creating a bulletin board or other place to display customized messages, displaying approved configurations, naming certain fields (i.e., user defined fields), etc.

Your Program Manager, Wilson Garcia, works with the City and National IPA to customize the contract site as detailed in this requirement. As detailed previously, the site currently displays the National IPA logo, displays a customized message, highlights appropriate products, and has fields named as specified by the City.

Agencies customized extranet home page will provide authorized users with quick and easy access to the following features:

Quick Cart – Enables users to add items directly to their cart by typing in the CDW part number.

Account Team – Displays the “In/Out” status of your dedicated Account Manager and provides immediate and direct access to your dedicated Account Manager via phone fax and email. Also, provides a link to your entire dedicated Account Team.

News – Provides additional information on extranet tools and enhanced features.

Promotions and Updates - Shows current promotions and updates to technology solutions.

Featured Products – Highlights specific products and solutions.

Recent Orders – Displays information for orders for the past 45 days including order status, purchase date, purchase order number, purchaser, and sub-total.

Contracts – Provides details of pricing contracts for your organization and enables you to download pricing for your contracts.

Bundles – Takes the guesswork out of repeat purchases. Administrators can create custom bundles containing their company’s standardized solutions.

Individual Products – Allows administrators to highlight products for quick and easy access.

Comparison Charts – Helps users to compare the features and prices of multiple products during the shopping process and save those comparisons for future reference.

Links – Lets users maintain easy access to manufacturer websites and other helpful online destinations.

There are links to additional extranet features that are only a click away. These features include:

My Purchases – Offers a full breadth of tools to track order status, purchase history, and financial information.

Security Settings – Enables administrators to restrict users’ access to specific functions.

Asset Management – Enables you to create and download a detailed report of your organization’s hardware assets that have been asset tagged.

Software License Tracker – Simplifies software license management and reduces the risk of non-compliance.

Quotes – Enables you to create your own quote right from your shopping cart, forward it for pre-authorization, and convert it to a live order.

Purchase Authorization – Automates approval process and manages users’ purchasing power.

Custom Catalogs – Displays only products approved for purchase by your organization.

Online Chat – Puts users in direct contact with customer relations, technical support, and e-support team representatives.

10. Describe the types of online reporting that are available. Is customized reporting available?

CDW•G's reporting capabilities are extremely flexible and comprehensive. CDW•G Extranet provides access to real-time information in a way that is convenient and easy to use. This is one of the most used areas of our site and we made some significant look and feel changes to the reporting sections in December 2012.

The City of Tucson authorized users have access to your extranet 24 hours per day, 7 days per week. Authorized users have the ability to generate a variety of reports via their agency's extranet.

Data fields include, but are not limited to:

- Product name
- Item description
- Part number
- Cost per unit
- Order quantity
- Delivery location
- Date ordered
- Purchase Order#
- Purchased by

Customer #	Order #	Order Date	Total
	Order # : 189XNDH		Total: \$
	Order # : 189XNPD		Total: \$
	Order # : 189XQXW		Total: \$
	Order # : 189YF1D		Total: \$

User – Friendly Reporting.

Customers can customize their own reports in their extranet.

Agencies can view standard reports, and create and save custom reports. Reports can also be generated for a variety of timeframes; differentiated by site, division, department, buyer, city, state, product, etc. Users can select from Microsoft Excel, CSV and tab-delimited files for report downloading.

11. Describe your online return process (if available).

In order to return any product to CDW•G, including damaged or defective products, contract users must request a Return Merchandise Authorization (RMA) number.

The most efficient way to request an RMA number is via the customer's CDW•G Extranet. When an RMA request is entered, the system automatically checks several factors to see if the RMA can be automatically approved. If the return meets these factors, the RMA number is emailed directly to the customer. Should the auto-approval criteria not be met, the RMA will route to Customer Relations for processing. The benefit of our automated system is faster turnaround time on most RMA approvals.

Once CDW•G has processed the request, the customer receives an email with the RMA number. The approved RMA number must be clearly noted on the shipping label of each box.

12. Describe any third-party integration that you have successfully implemented. For example, is your website integrated with any third-party procurement, financial, or purchasing/credit card systems?

CDW•G has implemented ecommerce solutions with over five thousand customers on most of the major purchasing platforms (78 identified for customer integrations as of January 2013). We likewise provide level III/tier 3 credit card reporting and provide financial reports (invoices and histories) in different

automated formats for compatibility with financial systems. While our website is compatible with third party e-commerce solutions, the CDW•G is owned and managed in-house without reliance on third party support for our key web systems.

Below are examples of ecommerce methods CDW•G currently supports with our customers:

FTP (File Transfer Protocol)

CDW•G's FTP processing is flexible; we can exchange fixed length, wrapped or unwrapped files, with or without CR/LF. We can also exchange stream files – one continuous stream of data (variable length). Naming conventions for files and the number of files exchanged are flexible.

CDW•G or the customer can host the FTP site. UserID and Password are required to access our FTP site. CDW can delete files that have been retrieved. Partners will be expected to delete files after they are retrieved.

CDW•G uses PGP to encrypt data exchanged FTP. PGP (Pretty Good Privacy) is widely available and uses public-key cryptography to exchange files, with both privacy and authentication, over all kinds of networks. CDW•G can also support FTP using SSH or SSL session encryption.

EDIINT-AS1

This communication method uses the e-mail system to transfer encrypted data over the internet. The partner needs to have an AS1 compliant software package that can encrypt and decrypt EDIINT AS1 data.

EDIINT-AS2

This method uses the internet to exchange data. This communication method uses an HTTP post (language of web sites) to transfer encrypted data over the internet. The partner needs to have an AS2 compliant software package that can encrypt and decrypt EDIINT AS2 data.

HTTPS (HyperText Transmission Protocol, Secure)

This method allows CDW to send and receive data through a Web Server using HTTP/S. HTTP is traditionally used for displaying interactive Web pages, but can also be used as a communication method.

VAN (Value Added Network)

A VAN is the least desirable method due to the fees incurred for this third-party service. CDW•G will be happy to work with you in any capacity to eliminate the use of VANs as a communication method. If necessary, we can establish a secure connection to a VAN and the VAN should exchange in a secure fashion as well.

13. Describe your strategic vision for your website – i.e., Is new functionality expected to be added? If so, describe the functionality and the timeline for implementation. How often is the web redesigned? As technology evolves (for example, new search engines are more robust), does your website evolve, too? Etc.

The CDW•G website is the 10th largest website in the world measured by revenue volume. While we no longer release specific website sales numbers, past numbers indicate that our website is now processing over \$2 billion per year in transactions. Additionally, the website is estimated to assist with another \$4 billion in sales that are finalized on the phone or via purchase order.

The extreme volume and business-critical nature of the CDW•G website means we must focus on usability and uptime at all times. CDW•G employs over 200 in house IT personnel to keep the website accurate and running; their success is reflected in the less than 6 minutes of unplanned downtime last year - an uptime exceeding 99.997%.

Because the website processes such volume, new functionality is constantly in the works but never fully implemented until we have conducted rigorous testing for usability, compatibility and perceived value to our customers. In February 2012 CDW•G rolled out a new look to our website that changed the colors and locations of some of the features, but did not constitute an underlying significant change to the website core or hardware. We made these changes so that the site would be more intuitive, and so that there was more continuity across all the pages/features/tools located on the site. We redesigned our FAQ area and made it interactive via <http://www.cdwg.com/explore> and added PDF and streaming content. We have also added a new Solutions & Services section, which contains streaming content and white papers that cover all the comprehensive categories where our software and hardware solutions pair with best in class support and advanced technology services.

As a world-leading website, the CDW•G site has the functionality to be compatible with our most advanced customer needs, including advanced security, multi-level approvals, asset tracking and others. Our staff of 200 will always be expanding these capabilities as advancements in technology and customer needs dictate.

Proposed Alternative Contract Language

CDW•G proposes the following changes and alternative language, which are identical to those found previously acceptable by the City for the current agreement. As requested, our payment address is as follows.

Remit address:
75 Remittance Drive, Suite #1515
Chicago, IL 60675-1515

RFP

Page 4 of 25,

2.2 Pricing Commitment

Supplier commits that the Master Agreement pricing is its lowest available (net to buyer) ~~to~~ Public Agencies nationwide and further commits that if a Participating Public Agency ~~is eligible~~ for lower pricing ~~through a national, state, regional or local or cooperative contract, that the~~ Supplier will match such lower pricing to that Participating Public ~~Agency under the Master Agreement.~~

Page 5 of 25,

2.3 Sales Commitment

Supplier ~~commits to aggressively market the Master Agreement as its go to market strategy in~~ this defined sector and that its sales force will be trained, engaged and committed to offering the Master Agreement to Public Agencies through National IPA nationwide. Supplier commits that all Master Agreement sales will be accurately and timely reported to National IPA in accordance with the National IPA Administration Agreement. Supplier also commits that its sales force will be compensated, including sales incentives, for sales to Public Agencies under the Master Agreement in a consistent or better manner compared to sales to Public Agencies if the Supplier were not awarded the Master Agreement.

Pages 6 - 7 of 25,

E. Supplier is responsible for proactive direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by National IPA. All sales materials are to use the National IPA logo. At a minimum, the Supplier's sales initiatives should communicate:

- i. Master Agreement was competitively solicited by a Principal Procurement Agency
- ~~ii. Best government pricing~~
- ~~iii.ii. No cost to participate~~
- ~~iv.iii. Non-exclusive contract~~

Page 11 of 25,

MONTHLY REPORTING & FEES

10. Supplier shall pay National IPA ~~an a quarterly~~ administrative fee in the amount of ___% of the total purchase price paid to Supplier, less refunds, credits on returns, rebates and discounts, for the sale of products and/or services pursuant to the Master Agreement (as amended from time to time and including any renewal thereof) ("Contract Sales"). Supplier shall provide National IPA with an electronic accounting report, in Microsoft Excel, in the format prescribed by National IPA, on a monthly basis summarizing all Contract Sales for such month. A sample of the Contract Sales reporting format is provided as Exhibit D, attached hereto and incorporated herein by reference.

11. Supplier shall maintain an accounting of all purchases made by Participating Public Agencies. National IPA and Principal Procurement Agency reserve the right to audit the accounting for a period of four (4) years from the date National IPA receives the accounting. In the event of such an audit, the requested materials shall be provided at the location designated by ~~Principal Procurement Agency or National IPA Supplier~~. Monthly reports and the quarterly administrative fee applicable to each quarter are due within 30 days of the end of each calendar quarter as set forth above. Auditing is solely for the purpose of verifying Supplier's compliance with this Agreement. The audit must be pursuant to a signed Supplier's Confidentiality Agreement. An audit can be done only once a year and no auditing can be done for the same time period more than once. No audit may be conducted for any period which begins more than twelve months prior to the date the audit is requested. Supplier is not required to keep original documents and copies of relevant documents will suffice for the purposes of this provision. The sole right for damages determined by the audit is limited to the actual discrepancies. The audit must be conducted during regular business hours at a mutually agreeable time and upon reasonable advanced notice.

Page 12 of 25,

National IPA or its designee may, at National IPA's sole discretion, compare public agency records with Monthly reports submitted by Supplier. If there is a discrepancy, National IPA will notify the Supplier in writing. Supplier will have 30 days from the date of such notice to resolve the discrepancy to National IPA's reasonable satisfaction. If the Supplier does not so resolve the discrepancy, National IPA shall have the right to engage outside services to conduct an independent audit of Supplier's Monthly reports ~~and Supplier shall be obligated to reimburse National IPA's costs and expenses for such audit at National IPA's expense.~~

NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY ADMINISTRATION AGREEMENT

SCOPE OF WORK

~~7. **DEFECTIVE PRODUCT:** All defective products shall be replaced and exchanged by the Contractor. The cost of transportation, unpacking, inspection, re-packing, re-shipping or other like expenses shall be paid by the Contractor. All replacement products must be received by the City within seven (7) days of initial notification. All defective products shall be replaced in accordance with Vendor's then-current return policy which may be modified by Vendor from time to time. To obtain Vendor's current return policy, the City~~

should contact CDW Customer Relations at 866.SVC.4CDW or via email at CustomerRelations@cdw.com. The City must notify CDW Customer Relations of any damaged products within ten (10) days of receipt.

SPECIAL TERMS AND CONDITIONS

2. ~~FOB DESTINATION FREIGHT PREPAID:~~ Prices shall be FOB Destination Freight Prepaid to the delivery location designated. ~~Contractor shall retain title and control of all goods until they are delivered and the Contract of coverage has been completed. All risk of transportation and all related charges shall be the responsibility of the Contractor. All claims for visible or concealed damage shall be filed by the Contractor. The City will assist the Contractor in arranging for inspection. If the City provides the Supplier with the City's carrier account number or selects a carrier other than a carrier that regularly ships for the Supplier, title to products and risk of loss or damage during shipment pass from the Supplier to the City upon delivery to the carrier (F.O.B. Origin, freight collect). For all other shipments, title to products and risk of loss or damage during shipment passes from the Supplier to the City upon delivery to the specified destination (F.O.B. Destination, freight prepaid and added). Notwithstanding the foregoing, title to software will remain with the applicable licensor(s) and the City's rights therein are contained in the license agreement between such licensor(s) and the City. A purchase money security interest is retained in the products to secure payment in full. The City authorizes the Supplier to file a financing statement reflecting such security interest and, if requested, the City will record such purchase money security interest on its books~~

5. FEDERAL, STATE AND LOCAL TAXES, LICENSES AND PERMITS: The Supplier shall comply with all Federal, and State, ~~and local~~ licenses and permits required for the operation of the business conducted by the Supplier as applicable to this Contract. The Supplier shall, at no expense to the City, National IPA, or other Participating Agencies, procure and keep in force during the entire period of the Agreement all such permits and licenses.

STANDARD TERMS AND CONDITIONS

2. AFFIRMATIVE ACTION: Contractor shall abide by ~~the provisions of the Tucson Procurement Code Chapter 28, Article XII all applicable federal and state laws.~~

8. CLEAN UP: The Contractor shall at all times keep the contract area, including storage areas used by the Contractor, free from accumulation of waste material or rubbish and, prior to completion of the work, remove any of its rubbish from the premises and all tools, scaffolding, equipment and materials ~~not that are the~~ property of the ~~City~~ Contractor. Upon completion of the repair, the Contractor shall leave the work and premises in clean, neat and workmanlike the same condition as before the work began, excepting normal wear and tear.

10. CONFIDENTIALITY OF RECORDS: The Contractor shall establish and maintain procedures and controls ~~that are acceptable to the City~~ for the purpose of assuring that no information contained in its records or obtained from the City or from others in carrying out its functions under the Contract shall be used by or disclosed by it, its agents, officers, or employees, except as required to efficiently perform duties under the Contract. Persons requesting such information should be referred to the City. Information pertaining to individual persons shall not be divulged other than to employees or officers of Contractor as needed for the performance of duties under the Contract, unless otherwise agreed to in writing by the City.

15. EXCLUSIVE POSSESSION: All services, information, computer program elements, reports and other deliverables created under this Contract are the sole property of the City of Tucson and shall not be used or released by the Contractor or any other person except with prior written permission by the City. The City's sole rights to the work product, materials and other deliverables to be provided or created (individually or jointly) in connection with the services, including but not limited to, all inventions, discoveries, methods, processes, formulae, ideas, concepts, techniques, know-how, data, designs, models, prototypes, works of authorship, computer programs, proprietary tools, methods of analysis and other information (whether or not capable of protection by patent, copyright, trade secret, confidentiality, or other proprietary rights) or discovered in the course of performance of this Contract that are embodied in such work or materials ("Work Product") will be, upon payment in full, a non-transferable, non-exclusive, royalty-free license to use such Work Product solely for the City's internal use. The City will have no ownership or other property rights thereto, and the City shall have no right to use any such Work Product for any other purpose whatsoever. The City acknowledges that the Contractor may incorporate intellectual property created by third parties into the Work Product ("Third Party Intellectual Property"). The City agrees that its right to use Work Product containing Third Party Intellectual Property may be subject to the rights of third parties and limited by agreements with such third parties

19. HUMAN RELATIONS: Contractor shall abide by ~~the provisions of the Tucson City Code Chapter 28, Article X~~ all applicable federal and state laws.

20. INDEMNIFICATION: To the fullest extent permitted by law, Contractor, its successors, assigns and guarantors, shall pay, defend, indemnify and hold harmless the City of Tucson, its agents, representatives, officers, directors, officials and employees from and against all claims brought by a third party for death or personal injury to a third party, or damage to tangible personal property suffered or incurred by the City allegedly resulting from the grossly negligent or willful misconduct of the Contractor, its employees, agents, contractors, representatives or affiliates. However, notwithstanding the prior sentence, a claim for death or personal injury to a third party or damage to tangible personal property shall not be an indemnified claim if such claim or damage was caused in whole or in part by the actions of the City, its employees, agents, contractors or representatives. Indemnified claims also do not include any damages or liability excluded in this bid. In addition, the Contractor will not be liable, through indemnification or otherwise, for any loss, damage, expense, liability, action, suit or proceeding allegedly arising out of loss or damage to software or the data processed by such software or hardware, or loss of use of hardware. allegations, demands, proceedings, suits, actions, claims, including claims of patent or copyright infringement, damages, losses, expenses, including but not limited to, attorney fees, court costs, and the cost of appellate proceedings, and all claim adjusting and handling expense, related to, arising from or out of or resulting from any actions, acts, errors, mistakes or omissions caused in whole or part by Contractor relating to work, services and/or products provided in the performance of this Contract, including but not limited to, any Subcontractor or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable and any injury or damages claimed by any of Contractor's and Subcontractor's employees. The obligation of the Contractor to indemnify and hold the City harmless is contingent upon the City providing the Contractor with (i) prompt written notice of and description of each claim, (ii) sole authority to defend or settle any such action, suit or proceeding, and (iii) all reasonable assistance in any such defense.

22. INSPECTION AND ACCEPTANCE: ~~All material or service is subject to final inspection and acceptance by the City. Material or service failing to conform to the specifications of this Contract shall be held at the Contractor's risk and may be returned to the Contractor. If returned, all costs are the responsibility of the Contractor. Noncompliance may be deemed a cause for possible Contract termination. Acceptance occurs on the date that products are delivered subject to Contractor's standard return policy. Contractor offers a thirty (30) day return policy on most of the products that Contractor sells to its customers. Some manufacturer restrictions apply. Please refer Contractor's return policy which is available through your account representative or at www.cdwg.com~~

24. LICENSES: Contractor shall maintain in current status all Federal and, State, ~~and local~~ licenses and permits required for the operation of the business conducted by the Contractor as applicable to this Contract.

26. NO REPLACEMENT OF DEFECTIVE TENDER: Every tender of materials must fully-substantially comply with all provisions of this Contract. If a tender is made which does not fully-substantially comply, this shall conform to the termination clause set forth within this document.

30. PROTECTION OF GOVERNMENT PROPERTY: The Contractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation (such as trees, shrubs, and grass) on City property. If the Contractor fails to do so and damages such property, the Contractor shall replace or repair the damage at no expense to the City, as determined and approved by the City's Director of Procurement. ~~If the Contractor fails or refuses to make such repair or replacement, the City will determine a cost and the Contractor shall be liable for the cost thereof, which may be deducted from the Contract price.~~

32. RECORDS: Internal control over all financial transactions related to this Contract shall be in accordance with sound fiscal policies. The City may, at reasonable times and places, audit the books and records of the Contractor and/or any subcontractors. Said audit shall be limited to verifying Contractor's compliance with this Contract. Any Contract audits must be pursuant to a signed Contractor's Confidentiality Agreement. An audit can be done only once a year and no auditing can be done for the same time period more than once. No audit may be conducted for any period which begins more than twelve months prior to the date the audit is requested. Contractor is not required to keep original documents and copies of relevant documents will suffice for the purposes of this provision. The sole right for damages determined by the audit is limited to the actual discrepancies. The audit must be conducted during regular business hours at a mutually agreeable time and upon reasonable advanced notice.

~~**34. RIGHT TO INSPECT:** The City may, at reasonable times, and at the City's expense, inspect the place of business of a Contractor or subcontractor which is related to the performance of any Contract as awarded or to be awarded.~~

40. TERMINATION OF CONTRACT: This Contract may be terminated at any time by mutual written consent, or by the City, with or without cause, upon giving thirty (30) days written notice. The City, at its convenience, by written notice, may terminate this Contract, in whole or in part. If this Contract is terminated, the City shall be liable only for payment under the payment provisions of this Contract for services rendered and accepted material received by the City before the effective date of termination.

The City reserves the right to terminate the whole or any part of this Contract due to the failure of the Contractor to carry out any material term or condition of the Contract. The City will issue a written ten (10) day notice of default to the Contractor for acting or failing to act as specified in any of the following:

In the reasonable opinion of the City, the Contractor provides personnel that do not meet the requirements of the Contract;

In the reasonable opinion of the City, the Contractor fails to perform adequately the stipulations, conditions or services/specifications required in this Contract;

In the reasonable opinion of the City, the Contractor attempts to impose personnel, materials, products or workmanship of an unacceptable quality;

The Contractor fails to furnish the required service and/or product within the time stipulated in the Contract;

In the reasonable opinion of the City, the Contractor fails to make progress in the performance of the requirements of the Contract;

The Contractor gives the City a positive indication that the Contractor will not or cannot perform to the requirements of the Contract.

The Contractor shall have thirty (30) days from receipt of notice from the City to cure any default.

Each payment obligation of the City created by this Contract is conditioned upon the availability of City, State and Federal funds that are appropriated or allocated for the payment of such an obligation. If funds are not allocated by the City and available for the continued purchase of the services and/or materials provided under this Contract, this Contract may be terminated by the City at the end of the period for which funds are available. The City will endeavor to notify the Contractor in the event that continued service will or may be affected by non-appropriation. No penalty shall accrue to the City in the event this provision is exercised, and the City shall not be obligated or liable for any future payments due or for any damages as a result of termination under this paragraph.

42. WARRANTIES: Contractor warrants that all material or service delivered under this Contract shall conform to the specifications of this Contract. Mere receipt of shipment of the material or service specified and any inspection incidental thereto by the City shall not alter or affect the obligations of the Contractor or the rights of the City under the foregoing warranties. Additional warranty requirements may be set forth in this document.

The City understands that the Contractor is not the manufacturer of the products purchased by the City hereunder and the only warranties offered are those of the manufacturer, not the Contractor or its affiliates. In purchasing the products, the City is relying on the manufacturer's specifications only and is not relying on any statements, specifications, photographs or other illustrations representing the products that may be provided by the Contractor or its affiliates. THE CONTRACTOR AND ITS AFFILIATES HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES EITHER EXPRESS OR IMPLIED, RELATED TO PRODUCTS, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF TITLE, ACCURACY, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WARRANTY OF NONINFRINGEMENT, OR ANY WARRANTY RELATING TO THIRD PARTY SERVICES. THE DISCLAIMER CONTAINED IN THIS PARAGRAPH DOES NOT AFFECT THE TERMS OF ANY MANUFACTURER'S WARRANTY.

The City expressly waives any claim that it may have against the Contractor or its affiliates based on any product liability or infringement or alleged infringement of any patent, copyright, trade secret or other intellectual property rights (each a "Claim") with respect to any product and also waives any right to indemnification from the Contractor or its affiliates against any such Claim made against the City by a third party. The City acknowledges that no employee of the Contractor or its affiliates is authorized to make any representation or warranty on behalf of the Contractor or any of its affiliates that is not in this Contract.

In connection with the products, certain services, such as extended warranty service by manufacturers, are sold by the Contractor as a distributor or sales agent ("Third Party Services"). In the case of Third Party Services, the third party will be the party responsible for providing the services to the City and the City will look solely to the third party for any loss, claims or damages arising from or related to the provision of such Third Party Services. The City hereby releases the Contractor and its affiliates from any and all claims arising from or relating to the purchase or provision of any such Third Party Services. Any amounts, including, but not limited to, taxes, associated with Third Party Services which may be collected by the Contractor will be collected solely in the capacity as an independent sales agent.

If in connection with the provision of products, the City desires to have the Contractor provide installation of custom software images, the City will be required to execute an Installation Indemnity Agreement, a form of which is provided at <http://www.cdw.com/forms/indemnity/app.asp>.

UNDER NO CIRCUMSTANCES AND NOTWITHSTANDING THE FAILURE OF ESSENTIAL PURPOSE OF ANY REMEDY SET FORTH HEREIN, WILL THE CONTRACTOR, ITS AFFILIATES OR ITS OR THEIR SUPPLIERS, SUBCONTRACTORS OR AGENTS BE LIABLE FOR: (A) ANY INCIDENTAL, INDIRECT, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, BUSINESS, REVENUES OR SAVINGS, EVEN IF THE CONTRACTOR HAS BEEN ADVISED OF THE POSSIBILITIES OF SUCH DAMAGES OR IF SUCH DAMAGES ARE OTHERWISE FORESEEABLE, IN EACH CASE, WHETHER A CLAIM FOR ANY SUCH LIABILITY IS PREMISED UPON BREACH OF CONTRACT, WARRANTY, NEGLIGENCE, STRICT LIABILITY OR OTHER THEORY OF LIABILITY; (B) ANY CLAIMS, DEMANDS OR ACTIONS AGAINST THE CITY BY ANY THIRD PARTY; (C) ANY LOSS OR CLAIM ARISING OUT OF OR IN CONNECTION WITH THE CITY'S IMPLEMENTATION OF ANY CONCLUSIONS OR RECOMMENDATIONS BY THE CONTRACTOR OR ITS AFFILIATES BASED ON, RESULTING FROM, ARISING OUT OF OR OTHERWISE RELATED TO THE PRODUCTS; OR (D) ANY UNAVAILABILITY OF THE PRODUCT FOR USE OR ANY LOST, DAMAGED OR CORRUPTED DATA OR SOFTWARE. IN THE EVENT OF ANY LIABILITY INCURRED BY THE CONTRACTOR OR ANY OF ITS AFFILIATES, THE ENTIRE LIABILITY OF THE CONTRACTOR AND ITS AFFILIATES FOR DAMAGES FROM ANY CAUSE WHATSOEVER WILL NOT EXCEED THE LESSER OF: (A) THE DOLLAR AMOUNT PAID BY THE CITY FOR THE PRODUCT(S) GIVING RISE TO THE CLAIM; OR (B) \$50,000.00.

Appendix

CDW PRODUCT RETURN POLICY

Seller offers a 30-day return policy on most products sold. Manufacturer restrictions apply to certain merchandise, as detailed below and as updated from time to time. Customer may obtain additional details and any applicable updates from the dedicated Seller account manager and may obtain manufacturer contact information by contacting CDW Customer Relations, which may be reached by calling 866.SVC.4CDW or by emailing returns@cdw.com.

1. Return Restrictions.

- Defective Product Returns. Customer may return most *defective* Products directly to Seller within fifteen (15) days of invoice date and receive, at Seller's option, credit, replacement, exchange, or repair. After fifteen (15) days, only the manufacturer warranty applies.
- Non-Defective Product Returns. Customer may return most *non-defective* Products directly to Seller within thirty (30) days of invoice date and receive, at Customer's option, credit or exchange, except that an automatic Seller restocking charge will reduce the value of any such credit or exchange by a minimum of fifteen percent (15%).
- Restricted, Repair-Only Returns. Certain Products can only be returned for repair—not for exchange, replacement or credit—based on current manufacturer requirements. Such Products should be returned to Seller, shipped directly to the manufacturer, or taken to an authorized service center in Customer's vicinity. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.
- Restricted, Manufacturer-Only Assistance. Certain Products cannot be returned to Seller for any reason—without exception—and Customer must contact the manufacturer directly for any needed assistance. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.
- Special Orders. Products that are specially ordered may be non-returnable or may have unique return restrictions provided at the time of sale. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.

- Return of Software or DVDs. Seller offers refunds only for unopened, undamaged software and DVD movies that are returned within 30 days of invoice date. Seller offers *only replacement* for software products and DVD movies that either: (i) are defective but are returned *within* thirty (30) days of invoice date; or (ii) are unopened and undamaged, but are returned *more than* 30 days after invoice date; such replaceable merchandise may be exchanged only for the same software or DVD movie title. Multiple software licenses may be returned for refund or exchange *only* (i) if specifically authorized in advance by the manufacturer; *and* (ii) if returned *within* thirty (30) days of invoice date.

2. **Customer Shipment of Returned Merchandise.**

- Return Merchandise Authorization (RMA) Number. No returns of any type will be accepted by Seller unless accompanied by a unique RMA number, which Customer may obtain by providing the following information to CDW Customer Relations: customer name, applicable invoice number, product serial number, and details of Customer's issue with the product. Customer has five (5) days to return a Product after the applicable RMA is issued. CDW reserves the right to refuse any UNAUTHORIZED returns: those that occur after the five (5) day period or those involving Products that are unaccompanied by valid RMA's.
- Returned Products Must Be Complete. All Products *MUST BE* returned one hundred percent (100%) complete, including all original boxes, packing materials, manuals, blank warranty cards, and other accessories provided by the manufacturer. CDW reserves the right to refuse the return of incomplete Products. In addition, CDW will charge a minimum fifteen percent (15%) restocking fee for returns that are accepted.
- Responsibility for Shipping Costs. Customer is responsible for the cost of shipping returned items; Seller is responsible for the cost of shipping replacements or exchanges of returned items and will match Customer's shipping method.
- Customer Shipping Insurance. Customer is strongly advised to purchase full insurance to cover loss and damage in transit for shipments of returned items and to use a carrier and shipping method that provide proof of delivery. Seller is not responsible for loss during such shipment.

3. Merchandise Damaged in Transit.

- Refusal/Receipt of Damaged Products. If a package containing items purchased from Seller arrives at Customer's address *DAMAGED*, Customer should *REFUSE* to accept delivery from the carrier. If Customer *does* accept delivery of such a package, Customer must: (i) note the damage on the carrier's delivery record so that Seller may file a claim; (ii) save, as is, the merchandise *AND* the original box and packaging it arrived in; and (iii) promptly notify Seller either by calling CDW Customer Relations or by contacting the Seller account manager to arrange for carrier's inspection and pickup of the damaged merchandise. If Customer does not so note the damage and save the received merchandise and does not so notify Seller within fifteen (15) days of delivery acceptance, Customer will be deemed to have accepted the merchandise as if it had arrived undamaged, and Seller's regular return policy, as described in sections 1 and 2 above, and all current manufacturer warranties and restrictions will apply.

4. Credits

Any credit issued by Seller to Customer under this return policy must be used within two (2) years from the date that the credit was issued and may only be used for future purchases of Product and/or Services. Any credit or portion thereof not used within the two (2) year period will automatically expire.

COUNCIL COMMUNICATION

CC #: 8532
File #: 0800-06

Title: Blue Oaks Commerce Center - Phase 2 - Certificate of Completion
Contact: Orville Chatterton 916-774-5576 ochatterton@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.15.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council take the following action:

1. Adopt the attached resolution accepting CA 65 Blue Oaks On - Ramp Intersection (Blue Oaks Commerce Center - Phase 2), CWJ# 160037, as complete.
2. Authorize the City Engineer to execute the Certificate of Completion.

BACKGROUND

The Engineering Division has made a final inspection of the above project and has found the roadway infrastructure work complete in accordance with the improvement plans and City Specifications.

FISCAL IMPACT

The actions requested as part of this action have no impact to the City's General Fund. Construction costs were paid by the developer.

ECONOMIC DEVELOPMENT / JOBS CREATED

Accepting the project as complete will not directly create jobs but rather maintain current employee levels of the developer until such a time the project is fully built out.

ENVIRONMENTAL REVIEW

The Council action of accepting CA 65 Blue Oaks On - Ramp Intersection (Blue Oaks Commerce Center - Phase 2), as complete will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guideline 15060(c)(2). Adoption of this project does not include the potential for a significant environmental effect and therefore is not

subject to CEQA.

Respectfully Submitted,

Orville Chatterton, Construction Inspector

Kevin Payne, Development Services Director

Rob Jensen, City Manager

COUNCIL COMMUNICATION

CC #: 8550

File #: 0400-04-03-1

Title: Foothill American Dream - Reimbursement Agreement

Contact: Matt Todd 916-774-5562 mtodd@roseville.ca.us

Meeting Date: 6/21/2017

Item #: 7.16.

RECOMMENDATION TO COUNCIL

It is recommended that the Council approve the execution of a reimbursement agreement between the City and John Mourier Construction, Inc. for the construction of public improvements beyond the scope of this project and adopt a resolution authorizing the City Manager to sign it.

BACKGROUND

On January 22, 2015, the Planning Commission approved the Tentative Subdivision Map (PL 14-0297) for NWRSP – Parcel 47, also known as Foothill American Dream, located at 4051 Foothills Boulevard. The conditions of approval required the developer to install public improvements which are subject to reimbursement in the amount of \$357,417.64.

These improvements include the part of the widening of Foothill Boulevard fronting the project and the resulting traffic signal and striping modifications. These improvements are beyond the scope of responsibility for the Developer and this project and therefore are subject to reimbursement through our Capital Improvement Program.

FISCAL IMPACT

The actions requested as part of this item will have no impact to the City's General Fund. This project request is funded through the Traffic Mitigation Fund fees collected over time and specifically from the Developer Reimbursement Account.

ECONOMIC DEVELOPMENT / JOBS CREATED

Note a national economic development study has shown that 1 job is created for every \$92,000.00 invested in public projects.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The action of approving a reimbursement agreement for the Foothills American Dream project does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Matthew Todd, Associate Engineer

Kevin Payne, Development Services Director

Rob Jensen, City Manager

Foothill American Dream Reimbursement Agreement

RESOLUTION NO. 17-252

APPROVING A CITY/DEVELOPER REIMBURSEMENT AGREEMENT BY AND
BETWEEN THE CITY OF ROSEVILLE AND JOHN MOURIER CONSTRUCTION, INC.,
AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF
THE CITY OF ROSEVILLE

WHEREAS, a City/Developer Reimbursement Agreement regarding Foothills American Dream located at 4051 Foothills Boulevard, by and between the City of Roseville, John Mourier Construction, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville; and

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20__, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

CITY/DEVELOPER
REIMBURSEMENT AGREEMENT

(Project: Foothills American Dream)

THIS AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation, ("CITY") and John Mourier Construction, Inc., a California corporation ("DEVELOPER"); and

W I T N E S S E T H:

A. DEVELOPER is the owner of a certain parcel of real property under development within the City of Roseville, located at: 4051 Foothills Boulevard and described as Assessor's Parcels Number 475-050-019 (the "Foothills American Dream Subdivision Property").

B. DEVELOPER has agreed to construct and install certain Public Improvements as shown within Exhibit "A" and described within Exhibit "B," attached hereto and made part of this agreement ("Public Improvements").

C. DEVELOPER and CITY will substantially benefit from the construction and installation of the Public Improvements as described in paragraph B above.

D. The total cost of constructing the Public Improvements as estimated using current prevailing wages and in accordance with the Improvement Plans is estimated as approximately three hundred fifty-seven thousand, four hundred seventeen dollars and sixty-four cents (\$357,417.64) ("Improvement Costs"), as more particularly set out in the breakdown of costs ("Breakdown of Costs"), Exhibit "C," attached and incorporated by this reference.

E. Pursuant to the Breakdown of Costs, the parties have determined that the obligation of Improvement Costs will be allocated between CITY, and DEVELOPER as follows:

DEVELOPER	\$ <u>0</u>
CITY	\$ <u>357,417.64</u>
TOTAL	\$ <u>357,417.64</u>

F. DEVELOPER and CITY desire to enter into this Agreement providing for the direct installation by DEVELOPER of the Public Improvements in accordance with the approved Improvement Plans, for subsequent reimbursement of the total Improvement Costs by CITY directly to DEVELOPER.

NOW, THEREFORE, in consideration of the covenants set forth herein, CITY and DEVELOPER hereby agree as follows:

1. Construction of the Public Improvements. DEVELOPER shall cause the Public Improvements to be constructed and installed in accordance with the approved Improvement Plans. DEVELOPER is also required, and the specifications and bid and contract documents shall require all contractors and subcontractors, to pay prevailing wages and to otherwise comply with applicable provisions of the California Labor Code, Government Code, and Public Contracts Code relating to public works projects of cities and/or as may be required by CITY standards and procedures.

2. Contractor Registration. No contractor or subcontractor may be listed on a bid proposal for the Public Improvements or work on the Public Improvements unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5.

DEVELOPER shall be responsible for ensuring that these contractor registration requirements are adhered to since this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

3. Reimbursement of the Costs of the Public Improvements. In consideration of the satisfactory completion of the Public Improvements, CITY shall reimburse DEVELOPER for those portions of the Improvement Costs attributable to CITY as set forth in Recital E, hereof (the "Reimbursable Costs"). CITY and DEVELOPER acknowledge that the actual Reimbursable Costs may vary from the estimated costs, depending upon the actual costs of constructing and installing the Public Improvements. Any variation in costs shall be agreed to by the parties.

The Reimbursable Costs shall include the contract bid amount for the Public Improvements as reflected on the Breakdown of Costs and reasonable change orders, as approved by CITY.

4. Timing of Reimbursements. CITY shall reimburse DEVELOPER for the total Reimbursable Costs following acceptance by CITY of the Public Improvements and within thirty (30) days after submission by DEVELOPER and approval by CITY of itemized invoices evidencing the costs for which reimbursement is to be provided in accordance with this Agreement.

5. Permits. DEVELOPER shall be responsible for obtaining all necessary permits. CITY shall approve all plans prior to issuing any permit.

6. Changes in the Scope of Work. If during the course of construction field conditions require a change of scope different than contemplated in either Exhibit "A," "B" or

“C” as referenced above, and prior to making any changes that will effect the scope of this Agreement, the DEVELOPER shall contact CITY and get approval by CITY for those changes.

7. Prior To Commencement of Work. Prior to commencement of Work, DEVELOPER shall comply with the following: (1) obtain pre-approval from CITY of DEVELOPER’s construction documents; (2) cause its contractor to obtain an encroachment permit from City prior to commencement of construction activities in CITY’s right of way (and adjacent thereto); and, (3) cause its contractor to provide insurance and related documentation to CITY in accordance with Paragraph 9 of this Agreement. In addition, as required by California Labor Code Section 1773.3, DEVELOPER shall notify the Department of Industrial Relations of the project within five (5) days of the award of a contract to a contractor for the Public Improvements.

8. Indemnification. To the fullest extent allowed by law, DEVELOPER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of DEVELOPER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

DEVELOPER’s responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The

defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Insurance. Prior to the issuance of an encroachment permit and commencement of any field construction for those certain improvements as shown on Exhibit "A," the DEVELOPER shall, or shall cause its contractor to, have on file with CITY throughout the duration of construction and maintain in full force the following policies of insurance:

<u>POLICY</u>	<u>LIMITS OF LIABILITY</u>
Commercial General Liability, Including endorsements for comprehensive form, premises operations, products/completed operations, broad form property damage, independent contractors, contractual, personal injury, explosion/collapse and underground hazard	Bodily Injury: \$2,000,000 each occurrence \$3,000,000 aggregate Property Damage: \$2,000,000 each occurrence Personal Injury: \$2,000,000 each occurrence \$3,000,000 aggregate
Workers' Compensation	Statutory
Automobile Liability	\$1,000,000 combined single limit

a. Form. DEVELOPER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. DEVELOPER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, prior to undertaking any work hereunder. Such insurance shall specifically cover the contractual liability of DEVELOPER. The additional insured coverage under the DEVELOPER's policy shall be primary and

noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01

Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. DEVELOPER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Contractors. DEVELOPER agrees to include in its contracts with all contractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the contractor's work. Furthermore, DEVELOPER shall require its contractors to agree to be bound to DEVELOPER and CITY in the same manner and to the same extent as DEVELOPER is bound to CITY under this Agreement. Additionally, DEVELOPER shall obligate its contractors to comply with these same provisions with respect to any subcontractor, regardless of tier. A copy of CITY's

indemnity and insurance provisions will be furnished to the contractor or any subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. DEVELOPER hereby agrees to waive subrogation which any insurer of DEVELOPER may acquire from DEVELOPER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by DEVELOPER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve DEVELOPER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

10. Obligations Arising From Agreement. Neither the General Fund, nor any other fund or monies of CITY, except for Roseville Traffic Mitigation Fees or similar traffic mitigation funds or accounts, shall be utilized for payment of any obligations arising from this Agreement. Neither the credit nor the taxing power of CITY is pledged for the payment of any

obligations arising from this Agreement. CITY's obligations arising from this Agreement are not a debt of CITY, or a legal or equitable pledge, charge, lien or encumbrance upon any of its property, or upon any of its income, receipts or revenues.

11. Successors and Assigns. Each and every provision of this Agreement shall be binding and inure to the benefit of the successors and assigns of the parties hereto.

12. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

13. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

14. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

15. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

RECOMMENDATION TO COUNCIL

Staff recommends the City Council adopt the attached resolution approving the Investment Policy for the City of Roseville effective July 1, 2017.

BACKGROUND

The purpose of the Investment Policy is to establish cash management and investment guidelines for the Chief Financial Officer, who is responsible for the stewardship of the City of Roseville's investment program. Each transaction and the entire portfolio must comply with the California Government Code Sections 53600 and 53635 et seq. and the Investment Policy. The Investment Policy conforms to the customary standards of prudent investment management and any changes to the policy must be adopted by the Council.

As a result of staff's interest in continually improving policies, as well as an effort to incorporate any new industry best practices, the policy was submitted to the California Municipal Treasurers Association (CMTA) through their Investment Policy Certification Program. The CMTA reviewed the City's policy and made some recommendations as identified below. The policy has been updated to include the recommended sections and the CMTA has now certified the City's investment policy. Here are the highlights of the changes that were made:

Summary of changes:

- A table at the end of section 8 was added for clarification
- Section 9 was added to clarify who is responsible for reviewing the portfolio
- Section 10 was added to specify the guidelines when investing in an investment pool
- While collateralization is mentioned throughout the policy, CMTA recommended Section 11 be added as a standalone section
- Section 13 was added on diversification to further clarify Section 8 permitted investments
- Section 15 was added on internal controls to ensure the investment policy is reviewed

FISCAL IMPACT

Adoption of the Investment Policy has no fiscal impact to the City General Fund.

ECONOMIC DEVELOPMENT / JOBS CREATED

Adoption of the Investment Policy will not have an impact on economic development or job creation.

ENVIRONMENTAL REVIEW

The Investment Policy is not considered a “project” as defined by the California Environmental Quality Act (CEQA) based on Section 15273 of the CEQA Guidelines. No other CEQA action is required.

Respectfully Submitted,

Jacquie Clarizio, Financial Analyst

Jay Panzica, Chief Financial Officer

Rob Jensen, City Manager

City of Roseville
Investment Policy

Effective July 1, 2017

1. Introduction

The purpose of this document is to identify various policies and procedures that enhance opportunities for a prudent and systematic investment policy and to organize and formalize investment-related activities.

The investment policies and practices of the City of Roseville (City) are based on state law and prudent money management. All funds will be invested in accordance with this investment policy and Article 2 of Chapter 4 of the California Government Code. This policy is in compliance with the provisions of the California Government Code, Sections 53600 through 53659, and the authority governing investments for municipal governments.

2. Scope

The investment policy applies to all financial assets of the City as accounted for in the Comprehensive Annual Financial Report (CAFR). Policy statements outlined in this document focus on the City's pooled funds, but will also apply to all other funds under the City's Chief Financial Officer's span of control unless specifically exempted by statute or ordinance.

Proceeds of debt issuance shall be invested in accordance with the permitted investment provisions of their specific bond indentures. If in the opinion of the City Chief Financial Officer matching the segregated investment portfolio of the bond reserve fund with the maturity schedule of an individual bond issue is prudent given current economic analysis, the investment policy authorizes beyond the five year maturity limitation as outlined in this document. The intent to invest in securities with longer maturities shall be disclosed in the permitted investment language authorized by the City Council in an indenture of trust.

The policy does not cover funds held by the Public Employees Retirement System nor funds of the Deferred Compensation program or the Other Post Employment Benefit Trust.

3. Prudence

The standard of prudence to be used by investment officials shall be the "prudent investor" standard and shall be applied in the context of managing an overall portfolio. The "prudent investor" standard states that:

When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic

conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency.

Investment officers acting in accordance with written procedures and the investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

4. Objectives

The primary objectives, in priority order, of the investment activities of the City shall be:

- a. **Safety**. Safety of principal is the foremost objective of the investment program. Investments of the City shall be undertaken in a manner that seeks to ensure preservation of capital in the portfolio. To further achieve the objective of safety the amount invested in all investment categories is limited to a percentage of the portfolio as defined in section VIII “Permitted Investment Instruments”.
- b. **Liquidity**. The investment portfolio of the City will remain sufficiently liquid to enable the City to meet its cash flow requirements.
- c. **Return on Investment**. The investment portfolio of the City shall be designed with the objective of attaining a market rate of return on its investments consistent with the constraints imposed by its safety objective and cash flow considerations.

5. Delegation of Authority

The City Council hereby delegates management responsibility of the investment program to the Chief Financial Officer. The Chief Financial Officer shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials. The Chief Financial Officer may delegate investment decision making and execution to the Finance Director or the Controller in absence of the Finance Director. No person may engage in an investment transaction except as provided under the limits of this policy unless specifically exempted by statute or ordinance.

6. Ethics and Conflict of Interest

Officers and employees involved in the investment process shall refrain from personal business activities that could conflict with proper execution of the investment program, or which could impair their ability to make impartial decisions.

7. Authorized Financial Dealers and Institutions

The Chief Financial Officer and/or his/her designee will maintain a list of approved financial institutions authorized to provide investment services to the City in the State of California. These may include “primary” dealers or regional dealers that qualify under Securities & Exchange Commission Rule 15C3-1. A determination should be made to

insure that all approved Broker/dealer firms, and individuals covering the public agency, are reputable and trustworthy. In addition, the broker/dealer firms should have the ability to meet all of their financial obligations in dealing with the Public Agency. The firms, and individuals covering the agency, should be knowledgeable and experienced in Public Agency investing and the investment products involved. No public deposit shall be made except in a qualified public depository as established by the established state laws. All financial institutions and broker/dealers who desire to conduct investment transactions with the public agency must supply the Chief Financial Officer with a completed broker/dealer questionnaire and certification of having read the City's investment policy. In addition, broker/dealers must certify annually of having read the City's investment policy.

8. Permitted Investment Instruments

The City shall limit investments in any one non-government issuer, except investment pools, to no more than 5% regardless of security type.

- a. U.S. Treasury obligations** for which the full faith and credit of the United States are pledged for the payment of principal and interest. Up to 100 percent of the City's investment portfolio may be invested in government obligations.
- b. Federal agency or United States government-sponsored enterprise obligations, participations, or other instruments, including those issued by or fully guaranteed as to principal and interest by federal agencies or United States government-sponsored enterprises.** This shall include any mortgage pass through security issued and guaranteed by a Federal Agency with a maximum final maturity of five years. Purchase of Federal Agency issued mortgage-backed securities authorized by this subdivision may not exceed 20 percent of the City's surplus money; all other investments in Federal Agency securities are unrestricted.
- c. Obligations of the State of California or any local agency within the state,** including bonds payable solely out of revenues from a revenue producing property owned, controlled or operated by the state or any local agency or by a department, board, agency or authority of the state or any local agency, provided that the obligations are rated in one of the two highest categories by a NRSRO. Up to 100 percent of the City's investment portfolio may be invested in California municipal obligations.
- d. Registered treasury notes or bonds of any of the other 49 states** in addition to California, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of any of these states.
- e. Repurchase Agreements** used solely as short-term investments not to exceed 30 days. Up to 100 percent of the City's investment portfolio may be invested in repurchase agreements.

The following collateral restrictions will be observed:

1. Only U.S. Treasury securities or Federal Agency securities, as described in 8a and 8b will be acceptable collateral. All securities underlying Repurchase Agreements must be delivered to the City's custodian bank by book entry, physical delivery, or by a third party custodial agreement. The total of all collateral for each Repurchase Agreement must equal or exceed, on the basis of market value, 102 percent of the funds borrowed against those securities. For any Repurchase Agreement with a term of more than one day, the value of the underlying securities must be reviewed on a weekly basis and the value of the underlying securities brought back up to 102 percent no later than the next business day.
 2. Market value must be calculated each time there is a substitution of collateral.
 3. The City or its trustee shall have a perfected first security interest under the Uniform Commercial Code in all securities subject to Repurchase Agreement.
 4. The City may enter into Repurchase Agreements only with primary dealers of the Federal Reserve Bank of New York.
 5. The City will have specific written agreements with each firm with which it enters into Repurchase Agreements.
 6. Reverse repurchase agreements will not be allowed.
- f. Bankers' Acceptances**, otherwise known as bills of exchange or time drafts that are drawn on and accepted by a commercial bank.
- Purchases of Banker's Acceptances may not exceed 180 days maturity or 40 percent of the City's investment portfolio.
- g. Commercial paper** of "prime" quality of the highest ranking or of the highest letter and number rating as provided for by a nationally recognized statistical-rating organization (NRSRO). The entity that issues the commercial paper shall meet all of the following conditions in either paragraph (8g1) or paragraph (8g2):
1. The entity meets the following criteria:
 - a. Is organized and operating in the United States as a general corporation.
 - b. Has total assets in excess of five hundred million dollars (\$500,000,000).
 - c. Has debt other than commercial paper, if any, that is rated "A" or higher by a nationally recognized statistical-rating organization (NRSRO).

2. The entity meets the following criteria:
 - a. Is organized within the United States as a special purpose corporation, trust, or limited liability company.
 - b. Has program wide credit enhancements including, but not limited to, over collateralizations, letters of credit, or surety bond.
 - c. Has commercial paper that is rated “A-1” or higher, or the equivalent, by a nationally recognized statistical-rating organization (NRSRO).

Purchases of eligible commercial paper may not exceed 270 days maturity nor represent more than 10 percent of the outstanding paper of an issuing corporation.

Purchases of commercial paper may not exceed 25 percent of the City’s investment portfolio.

- h. Medium-term corporate notes** issued by corporations organized and operating within the United States or by depository institutions licensed by the U.S. or any state and operating within the U.S. Medium-term corporate notes shall be rated in a rating category "A" or its equivalent or better by a nationally recognized rating service.

Purchase of medium-term corporate notes may not exceed 30 percent of the City’s investment portfolio.

- i. FDIC insured or fully collateralized time certificates of deposit.** Purchases of time certificates of deposit in combination with negotiable certificates of deposit may not exceed 30 percent of the City’s investment portfolio.
- j. Negotiable certificates of deposit or deposit notes** issued by a nationally or state-chartered bank, a state or federal savings and loan association, a state or federal credit union, or a federally-licensed or state-licensed branch of a foreign bank provided that the senior debt obligations of the issuing institution are rated "A" or better by an NRSRO.

The legislative body of a local agency and the treasurer or other official of the local agency having legal custody of the money are prohibited from investing local agency funds, or funds in the custody of the local agency, in negotiable certificates of deposit issued by a state or federal credit union if a member of the legislative body of the local agency or any person with investment decision making authority in the administrative office manager’s office, budget office, auditor-controller’s office, or treasurer’s office of the local agency also serves on the board of directors, or any committee appointed by the board of directors, or the credit committee or the supervisory committee of the state or federal credit union issuing the negotiable certificates of deposits.

All certificates of deposit must be properly collateralized in accordance with Section 53652 of the California Government Code or fully insured by the Federal Deposit Insurance Corporation (FDIC).

Purchase of time certificates of deposit in combination with negotiable certificates of deposit may not exceed 30 percent of the City's investment portfolio.

k. State of California's Local Agency Investment Fund (LAIF).

The LAIF portfolio should be reviewed periodically. Investment in LAIF may not exceed the legally authorized limits.

l. Shares of beneficial interest issued by diversified management companies that are money market funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940 (15 U.S.C. Sec. 80a-1, et seq.). To be eligible for investment pursuant to this subdivision these companies shall either: (1) have attained the highest ranking or the highest letter and numerical rating provided by not less than two nationally recognized statistical rating organizations or (2) have an investment advisor registered or exempt from registration with the Securities and Exchange Commission with not less than five years' experience managing money market mutual funds and with assets under management in excess of \$500,000,000.

The purchase price of shares of beneficial interest purchased shall not include any commission that the companies may charge and shall not exceed 20 percent of the City's investment portfolio. Further, no more than 10 percent of the City's investment portfolio may be invested in shares of beneficial interest of any one money market fund.

m. Shares in a California common law trust established pursuant to Title 1, Division 7, Chapter 5 of the Government Code of the State of California that invests exclusively in investments permitted by Section 53635 of Title 5, Division 2, Chapter 4 of the Government Code of the State of California, as it may be amended. Up to 100 percent of the City's investment portfolio may be invested in this investment type.

n. Supranationals which are United States dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development (IBRD), International Finance Corporation (IFC), or Inter-American Development Bank (IADB), with a maximum remaining maturity of five years or less, and eligible for purchase and sale within the United States. Investments under this subdivision shall be rated "AA-", its equivalent, or better by an NRSRO.

Purchases of supranationals shall not exceed 30 percent of the investment portfolio of the City. Supranationals are permitted by California Government Code § 53601 (q) effective January 1, 2015.

o. Any mortgage pass-through security, collateralized mortgage obligation, mortgage-backed or other pay-through bond, equipment lease-back certificate, consumer receivable pass-through certificate, or consumer receivable-backed bond of a maximum of five years maturity. Eligible securities must be rated, by a nationally recognized rating service, as "AA" or higher, and the issuer of the security must have an "A" or higher rating for its debt as provided by a nationally recognized

rating service. No more than 20 percent of the City's surplus funds may be invested in this type of security.

Where this section specifies a percentage limitation for a particular category of investment, that percentage is applicable only at the date of purchase. Credit criteria listed in this section refers to the credit of the issuing organization at the time the security is purchased. If an investment falls below the minimum purchase rating, the Investment Review Committee will perform a timely review to sell or hold the investment.

p. Prohibited Investments

For purposes of this policy, a derivative is defined as any security where the value is linked to or derived from an underlying asset or benchmark. Any security type or structure not specifically approved by this policy is hereby specifically prohibited. The City will not use such derivatives as range notes, dual index notes, inverse floating rate notes, deleveraged notes, or notes linked to lagging indices or to long term indices, nor will the City invest in reverse repurchase agreements, interest-only strips that are derived from a pool of mortgages, or any security that could result in zero interest accrual if held to maturity. This policy does not preclude the use of repurchase agreements and callable securities, as they do not fall within the definition of a derivative as described herein.

Summary of Maximum Percentage Limitations of Investments by Investment Type

<u>Authorized Investment Type</u>	<u>Maximum Maturity</u>	<u>Minimum Credit Quality at Time of Purchase</u>	<u>Maximum Percentage Allowed</u>	<u>Maximum Investment In One Issuer</u>
U.S. Treasury Obligations	5 Years	None	None	None
U.S. Agency Securities	5 Years	None	None	None
Forward Delivery Agreements	N/A	A	None	None
Local Agency Bonds	5 Years	None	None	None
Repurchase Agreements	30 days	None	None	None
Bankers' Acceptances	180 days	None	40%	30%
Commercial Paper	270 days	A-1	25%	10%
Medium-Term Notes	5 Years	A	30%	5%
Collateralized Time Deposits	5 Years	None	30%	None
Negotiable Certificates of Deposit	5 Years	A	30%	None
Local Agency Investment Fund (LAIF)	N/A	None	None	\$65 million/account
Insured Saving Accounts	N/A	None	None	None
Money Market Mutual Funds	N/A	None	20%	10%
Shares in a California Common	N/A	None	None	None

Law Trust				
Interest Rate Swaps	N/A	None	None	None
Supranationals	5 Years	AA-	30%	None
Mortgage Pass-Through Securities	5 Years	AA	20%	None

9. Review of Investment Portfolio

The securities held by the City must be in compliance with Permitted Investments at the time of purchase. Because some securities may not comply subsequent to the date of purchase, the Chief Financial Officer shall at least annually review the portfolio to identify those securities that do not comply. The Chief Financial Officer shall report major and critical incidences of noncompliance identified through the review of the portfolio.

10. Investment Pools

A thorough investigation of any investment pool is required prior to investing and should be monitored on an ongoing basis. The following information should be obtained and analyzed.

- a. A description of eligible of investment securities
- b. A written statement of investment policies and objectives.
- c. A description of interest calculations and their distribution, and the treatment of gains and losses.
- d. A description of how the securities are safeguarded (including the settlement processes), and how often the securities are priced and the program audited.
- e. A description of who may invest in the program, how often, and what size of deposits and withdraws are allowed.

11. Collateralization

Collateral for Non-negotiable Certificates of Deposit and Negotiable Certificates of Deposit must comply with California Government Code section 53652. In addition, if the Certificate of Deposit is not FDIC insured, collateral is required equal to 110 percent of principal.

12. Safekeeping and Custody

The City shall take from such financial institution a receipt for securities so deposited. All security transactions, including collateral for repurchase agreements, entered into the city shall be conducted on a delivery-versus-payment (DVP) basis pursuant to the approved custodial safekeeping agreements. The authority of the legislative body to deposit for safekeeping may be delegated by the legislative body to the Chief Financial Officer of the City; the treasurer shall not be responsible for securities delivered to and receipted for by a financial institution until they are withdrawn from the financial institution by the treasurer.

13. Diversification

The City's investment pool will be diversified to avoid incurring unreasonable and avoidable risks. The investments will be diversified by security type, maturities of those investments, and institutions in which those investments are made.

14. Maximum Maturity

Investment maturities shall be based on a review of cash flow forecasts. Maturities will be scheduled so as to permit the City to meet all projected obligations while minimizing interest rate risk and maximizing earnings. Unless specified below, the maximum maturity will be no more than five years from purchase date to maturity date.

City Council has granted permission to invest the following fund accounts where liquidity is not the primary investment objective, in Federal Treasury or Agency securities with maturities up to ten years. The specified fund accounts include:

- The City's Pooled Fund, limited to 25% of the total pool
- Citizens' Benefit Trust
- North Central Wetlands Endowment
- Aquatics Complex Maintenance
- Woodcreek West Endowment

15. Internal Controls

The Chief Financial Officer is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, fraud or misuse. An analysis by an external independent accounting firm shall be conducted annually to review internal controls, account activity, and compliance with the investment policies.

16. Performance Benchmark

The investment portfolio will be designed to obtain a market rate of return during budgetary and economic cycles, taking into account the City's investment risk constraints and cash flow needs. The Investment Review Committee has elected to use for its performance standard the Constant Maturity Treasury (CMT) Index. For the Pooled Portfolio the 12 month moving average yield on 3Yr CMT will be used and for Citizens' Benefit Trust portfolio the 12 month moving average yield on 5Yr CMT will be used. All other City portfolios will follow the 2Yr CMT.

17. Reporting Requirements

The Chief Financial Officer shall submit monthly investment reports to the City Manager and make these reports available to the City Council in the Finance Department offices. The reports shall include, at a minimum, the following information for each individual investment:

- Description of investment instrument
- Issuer name
- Yield on cost
- Purchase date
- Maturity date
- Book Value
- Par Value

- Current market value
- Transaction Activity
- Interest Earnings Summary

18. Investment Policy Adoption

The City's investment policy shall be adopted by resolution by the City Council. The policy shall be reviewed annually by the Chief Financial Officer and/or his/her designee and any modifications made thereto must be approved by the City Council.

19. Glossary

Agencies - Federal agency and instrumentality securities.

Asked - The price at which securities are offered.

Bid - The price offered by a buyer of securities (when one sells securities, one asks for a bid). See “Offer”.

Benchmark - A comparative base for measuring the performance or risk tolerance of the investment portfolio. A benchmark should represent a close correlation to the level of risk and the average duration of the portfolio’s investments.

Broker-Dealer – a person or a firm who can act as a broker or a dealer depending on the transaction. A broker brings buyers and sellers together for a commission. They do not take a position. A dealer acts as a principal in all transactions, buying and selling for his own account.

Certificate of Deposit (CD) – A time deposit with a specific maturity evidenced by a Certificate. Large-denomination CDs are typically negotiable.

Collateral – Securities, evidence of deposit or other property, which a borrower pledges to secure repayment of a loan. Also refers to securities pledged by a bank to secure deposits of public monies.

Custody – Safekeeping services offered by a bank, financial institution or trust company, referred to as the “custodian.” Service normally includes the holding and reporting of the customer’s securities, the collection and disbursement of income, securities settlement and market values.

Delivery Versus Payment –A type of securities transaction in which the purchaser pays for the securities when they are delivered either to the purchaser or custodian. It ensures that securities are deposited in an eligible financial institution prior to the release of funds. Securities should be held by a third-party custodian as evidenced by safekeeping receipts.

Diversification – Dividing investment funds among a variety of securities offering independent returns.

Federal Agency Obligation – A debt instrument issued by one of the federal agencies. Federal agencies are considered second in credit quality and liquidity only to U.S. Treasuries.

Investment Review Committee – The committee meets quarterly to discuss the investments in the City’s portfolios. The investment review committee consists of the City Manager, Chief Financial Officer and members of the Finance Department.

Liquidity – An investment that can be converted easily and rapidly into cash without a substantial loss of value.

Local Agency Investment Fund (LAIF) – The aggregate of all funds from political subdivisions that are placed in the custody of the State Treasurer for investment and reinvestment.

Market Value – The price at which a security is trading and could presumably be purchased or sold on a specific date.

Maturity – The date upon which the principal or stated value of an investment becomes due and payable.

Money Market Fund – a type of safe investment comprising a variety of short-term securities with high quality and high liquidity. The fund provides interest to shareholders and must maintain a stable net asset value (NAV) of \$1 per share.

Offer - The price asked by a seller of securities (when one buys securities, one asks for an offer). See “*Asked*” and “*Bid*”.

Portfolio – Collection of securities held by an investor,

Principal – the original cost of a security. It represents the amount of capital or money that the investor pays for the investment.

Prudent Investor Standard – An investment standard that all investments should be made with care, skill, prudence and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency.

Rate of Return - The yield obtainable on a security based on its purchase price or its current market price. This may be the amortized yield to maturity on a bond the current income return.

U.S. Treasury – Government debt issued by the United States Department of the Treasury through the Bureau of the Public Debt. Treasury securities are the debt financing instruments of the United States federal government, and they are often referred to simply as Treasuries. There are four types of marketable treasury securities: Treasury bills, Treasury notes, Treasury bonds, and Treasury Inflation Protected Securities (TIPS). All of the marketable Treasury securities are very liquid and are heavily traded on the secondary market.

Yield - The rate of annual income return on an investment, expressed as a percentage.

Yield-To-Call (YTC) - The rate of return an investor earns from a bond assuming the bond is redeemed (called) prior to its nominal maturity date.

Yield-To-Maturity - The current income yield minus any premium above par or plus any discount from par in purchase price, with the adjustment spread over the period from the date of purchase to the date of maturity.

CALIFORNIA MUNICIPAL TREASURERS ASSOCIATION

Investment Policy Certification

Issued on 4/18/2017

City of Roseville

The California Municipal Treasurers Association certifies that the investment policy of the City of Roseville complies with the current State statutes governing the investment practices of local government entities located within the State of California.

Title: Transmission Service Agreement - Portland General Electric
Contact: Petra Wallace 916-774-5510 pwallace@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.18.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council authorize the City Manager to execute a Service Agreement for Short-Term Firm and Non-Firm Point-To-Point Transmission Service with Portland General Electric Co.

The Transmission Service Agreement is an industry standard contract for transmission of physical power between parties. There is no fiscal impact associated with the execution of the agreement as it is an enabling agreement.

BACKGROUND

Roseville Electric Utility purchases energy from various markets defined in the Electric Risk Policies. On February 1, 2017, City Council approved the updated Energy Trading Authority Policy adding three new trading locations in the Pacific Northwest. In order to transfer procured energy, Roseville purchases transmission from various transmission owners. Currently, Roseville has only one transmission owner agreement with PacifiCorp that connects to these new trading locations.

Transmission is transacted as either Firm, or Non-Firm, which defines the level of priority of the energy delivered under the transmission in the event of contingencies that reduce transmission capacity. The following enabling agreement will allow Roseville to transact this transmission with Portland General Electric Co.:

- Short-Term Firm Point-To-Point Transmission Service provides the highest quality (priority) service offered to customers with no planned interruptions.
- Non-Firm Point-To-Point Transmission Service is reserved on an as-needed basis and it is subject to interruption.

The agreement is standard form, and similar to Roseville's existing Firm and Non-Firm transmission agreements with Western Area Power Administration, the Transmission Agency of Northern California, and the Sacramento Municipal Utility District and PacifiCorp. Executing this agreement will provide the ability to purchase transmission from Portland General Electric Co. to transfer energy from the Pacific Northwest markets.

FISCAL IMPACT

There is no fiscal impact associated with the execution of the Transmission Service Agreement with Portland General Electric Co. as it is an enabling agreement. There are no transactions currently pending under the proposed Transmission Service Agreement. The City Council approved Electric Utility Risk Management Policies include authorities necessary to execute and maintain any transactions. Transactions facilitated by the attached agreement will conform to those policies.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The Transmission Service Agreement is not considered a "project" as defined by the California Environmental Quality Act ("CEQA") (CEQA Guidelines § 15378). Consequently, no CEQA action is required.

Respectfully Submitted,

Petra Wallace, Electric Resources Analyst

Michelle Bertolino, Electric Utility Director

Rob Jensen, City Manager

W I T N E S S E T H

WHEREAS, the Transmission Provider provides Short-Term Firm Point-to-Point Transmission Service and Non-Firm Point-to-Point Transmission Service over its Transmission System under Transmission Provider's Open Access Transmission Tariff; and

WHEREAS, the Transmission Customer desires to obtain Short-Term Firm Point-to-Point Transmission Service and Non-Firm Point-to-Point Transmission Service over Transmission Provider's Transmission System from time to time.

NOW THEREFORE, the Parties agree as follows:

Section 1 – Definitions

Unless otherwise defined herein, all capitalized terms shall have their respective meanings as set forth in Transmission Provider's Open Access Transmission Tariff, FERC Electric Tariff Volume No. 8 ("Tariff"). [Transmission Customer] shall be the Transmission Customer as such term is used in the Tariff and PGE shall be the Transmission Provider as such term is used in the Tariff.

Section 2 - Standard Provisions

- 2.1 Terms and Conditions: The terms and conditions under which short-term firm and non-firm Transmission Service is offered and accepted are pursuant to this Service Agreement and to the Tariff. The Tariff is hereby incorporated by this reference and made a part of this Service Agreement as Exhibit 1. Transmission Provider may change the terms and conditions of the Tariff upon, and only upon, approval by the Commission pursuant to a filing by Transmission Provider.
- 2.2 This Service Agreement shall be made effective upon execution and shall continue in effect until terminated. Either Party to this Service Agreement may terminate the Service Agreement by giving the other Party thirty (30) calendar days' advance written notice, except that neither Party can terminate this Service Agreement at a time when the Transmission Customer has an active Short Term Firm Point-to-Point or Non-Firm Point-to-Point Transmission Service reservation pursuant to this Service Agreement. If either Party provides written notice of termination to the other Party at a time when the Transmission Customer has an active reservation under this Service Agreement, termination of this Agreement shall become effective on the later of: (1) thirty (30) calendar days following the date of the written notice, or (2) the calendar day following the end of the active reservation. Transmission Customer shall not submit any new reservation under this Service Agreement after the time that it has submitted notice of termination to the Transmission Provider.
- 2.3 Eligible Customer: Transmission Customer represents that it is an Eligible Customer under the Tariff.

Section 3 - Point-to-Point Transmission Service

- 3.1 The Transmission Provider shall provide Short-Term Firm Point-to-Point Transmission Service and Non-Firm Point-to-Point Transmission Service upon request by an authorized representative of the Transmission Customer.
- 3.2 The Transmission Customer agrees to supply information which the Transmission Provider deems reasonably necessary in accordance with Good Utility Practice in order for it to provide the requested service.
- 3.3 The Transmission Provider shall provide, and the Transmission Customer shall take and pay for, Short-Term Firm Point-to-Point Transmission Service and Non-Firm Point-to-Point Transmission Service pursuant to the provisions of Part II of the Tariff and this Service Agreement.
- 3.4 The applicable charges for Short-Term Firm Point-to-Point Transmission Service shall be pursuant to Schedule 7 of the Tariff and shall be agreed upon by the Parties at the time such service is reserved.

- 3.5 The applicable charges for Non-Firm Point-to-Point Transmission Service shall be pursuant to Schedule 8 of the Tariff and shall be agreed upon by the Parties at the time such service is reserved.

Section 4 - Billing and Payment

Billing and payment for all services provided under this Service Agreement shall be pursuant to Section 7 of the Tariff. Bills sent to the Transmission Customer shall be sent to:

Attention: *settlements@roseville.ca.us*
◇ *City of Roseville*
◇ *2090 Hilltop circle*
◇ *Roseville, CA 95747*

All payments to the Transmission Provider shall be wire transferred to:

◇
ABA # 123000220 for credit to
Portland General Electric Co General Fund
Account No. 153695256682

Section 5 - Miscellaneous Provisions

- 5.1 Waivers: Any waiver at any time by either Party hereto of its rights with respect to the other Party or with respect to any matter arising in connection with this Service Agreement shall not be considered a waiver with respect to any other default of the same or any other matter.
- 5.2 Effect of Section Headings: Section headings appearing in this Service Agreement are inserted for convenience of reference only and shall not be construed to be interpretations of the text of this Service Agreement.
- 5.3 Notices: Any written notice or request made to the Transmission Provider under this Service Agreement shall be directed to:
Attention: Director, Transmission & Reliability Services
Portland General Electric Company
121 SW Salmon St., 3WTC0402
Portland, Oregon 97204

Any written notice or request made to the Transmission Customer under this Service Agreement shall be directed to:

Attention: ◇ Petra Wallace
◇ City of Roseville
◇ 2090 Hilltop Circle
◇ Roseville, CA 95747

IN WITNESS WHEREOF, the Parties hereto have caused this Service Agreement to be executed in their respective names by their duly authorized representatives as of the date first noted above.

COUNCIL COMMUNICATION

CC #: 8563
File #: 0800-03

Title: Transmission Service Agreements - Puget Sound Energy
Contact: Petra Wallace 916-774-5510 pwallace@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.19.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council authorize the City Manager to execute three Service Agreements with Puget Sound Energy Inc.:

- Short-Term Firm Point-To-Point Transmission Service Agreement
- Non-Firm Point-To-Point Transmission Service Agreement
- Resale, Reassignment or Transfer of Point-To-Point Transmission Service Agreement

The Transmission Service Agreements are industry standard contracts for transmission of physical power between parties. There is no fiscal impact associated with the execution of these agreements as they are only enabling agreements.

BACKGROUND

Roseville Electric Utility purchases energy from various markets defined in the Electric Risk Policies. On February 1, 2017, City Council approved the updated Energy Trading Authority Policy adding three new trading locations in the Pacific Northwest. In order to transfer procured energy, Roseville purchases transmission from various transmission owners. Currently, Roseville has only one transmission owner agreement with PacifiCorp that connects to these new trading locations.

Transmission is transacted as either Firm, or Non-Firm, which defines the level of priority of the energy delivered under the transmission in the event of contingencies that reduce transmission capacity. The following enabling agreements will allow Roseville to transact this transmission with Puget Sound Energy Inc.:

- Short-Term Firm Point-To-Point Transmission Service provides the highest quality (priority) service offered to customers with no planned interruptions
- Non-Firm Point-To-Point Transmission Service is reserved on an as-needed basis and it is subject to interruption
- Resale, Reassignment or Transfer of Point-To-Point Transmission Service Agreement to resell any firm transmission to another entity in case Roseville does not need it.

These agreements are standard form, and similar to Roseville's existing Firm and Non-Firm transmission agreements with Western Area Power Administration, the Transmission Agency of Northern California, the Sacramento Municipal Utility District, and PacifiCorp. Executing these agreements will provide the ability to purchase transmission from Puget Sound Energy Inc. to transfer energy from the Pacific Northwest markets.

FISCAL IMPACT

There is no fiscal impact associated with the execution of the Transmission Service Agreements with Puget Sound Energy Inc. as they are only enabling agreements. There are no transactions currently pending under the proposed Transmission Service Agreements. The City Council approved Electric Utility Risk Management Policies include authorities necessary to execute and maintain any transactions. Transactions facilitated by the attached agreements will conform to those policies.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The Transmission Service Agreements are not considered a "project" as defined by the California Environmental Quality Act ("CEQA") (CEQA Guidelines § 15378). Consequently, no CEQA action is required.

Respectfully Submitted,

Petra Wallace, Electric Resource Analyst

Michelle Bertolino, Electric Utility Director

Rob Jensen, City Manager

Form Of Service Agreement For Firm Point-To-Point Transmission Service

- 1.0 This Service Agreement, dated as of June 1, 2017, is entered into, by and between Puget Sound Energy, Inc. (the Transmission Provider), and the City of Roseville ("Transmission Customer").
- 2.0 The Transmission Customer has been determined by the Transmission Provider to have a Completed Application for Firm Point-To-Point Transmission Service under the Tariff.
- 3.0 The Transmission Customer has provided to the Transmission Provider an Application deposit in accordance with the provisions of Section 17.3 of the Tariff.
- 4.0 Transmission Customers requesting Short-Term Firm Point-to-Point Transmission Service shall consider this agreement as a blanket authorizing agreement for such service. Requests for specific Short-Term Firm Point-to-Point Transmission Service transactions must be submitted on the Transmission Provider's OASIS.
- 5.0 Transmission Customers requesting Long-Term Firm Point-to-Point Transmission Service shall complete the Specifications sheet attached hereto.
- 6.0 Service under this agreement shall commence on the later of (1) the requested service commencement date, or (2) the date on which construction of any Direct Assignment Facilities and/or Network Upgrades are completed, or (3) such other date as it is permitted to become effective by the Commission. With respect to requests for blanket authorization for Short-Term Firm Point-to-Point Transmission Service, the term of this agreement shall be three (3) years from the date referenced in Section 1.0, at which time Transmission Customer must provide notice to Transmission Provider that Transmission Customer would like to renew this agreement for an additional three (3) year term. With respect to Long-Term Firm Point-to-Point Transmission Service, the term of this agreement shall be mutually agreed to between the parties and included in the Specifications sheet attached hereto. Notwithstanding the foregoing, service under this agreement may be terminated on such other date as mutually agreed upon by the parties.
- 7.0 The Transmission Provider agrees to provide and the Transmission Customer agrees to take and pay for Firm Point-To-Point Transmission Service in accordance with the provisions of Part II of the Tariff and this Service Agreement.

- 8.0 Any notice or request made to or by either Party regarding this Service Agreement shall be made to the representative of the other Party as indicated below.

Form Of Service Agreement For The Resale, Reassignment Or Transfer Of Point-To-Point Transmission Service

- 1.0 This Service Agreement, dated as of June 1, 2017, is entered into, by and between Puget Sound Energy, Inc. (the Transmission Provider), and City of Roseville (the Assignee).
- 2.0 The Assignee has been determined by the Transmission Provider to be an Eligible Customer under the Tariff pursuant to which the transmission service rights to be transferred were originally obtained. Assignees requesting Short-Term Firm Point-to-Point Transmission Service shall consider this agreement as a blanket authorizing agreement for such service. Requests for specific Short-Term Firm Point-to-Point Transmission Service transactions must be submitted on the Transmission Provider's OASIS. Each Assignee shall complete the Specifications sheet attached hereto.
- 3.0 The terms and conditions for the transaction entered into under this Service Agreement shall be subject to the terms and conditions of Part II of the Transmission Provider's Tariff, except for those terms and conditions negotiated by the Reseller of the reassigned transfer capability (pursuant to Section 23.1 of this Tariff) and the Assignee to include: contract effective and termination dates, the amount of reassigned capacity or energy, point(s) of receipt and delivery. Changes by the Assignee to the Reseller's Points of Receipt and Points of Delivery will be subject to the provisions of Section 23.2 of this Tariff.
- 4.0 The Transmission Provider shall credit the Reseller for the price reflected in the Assignee's Service Agreement or the associated OASIS schedule.
- 5.0 With respect to requests for blanket authorization for Short-Term Firm Point-to-Point Transmission Service, the term of this agreement shall be three (3) years from the date referenced in Section 1.0, at which time Assignee must provide notice to Transmission Provider that Assignee would like to renew this agreement for an additional three (3) year term. With respect to other Firm Point-to-Point Transmission Service, the term of this agreement shall be mutually agreed to between the parties and included in the Specifications sheet attached hereto.
- 6.0 Any notice or request made to or by either Party regarding this Service Agreement shall be made to the representative of the other Party as indicated below.

COUNCIL COMMUNICATION

CC #: 8551

File #: 0708

Title: Fire VHF Communications - Service Agreement Amendment

Contact: Chris Baker 916-774-5833 cbaker@roseville.ca.us

Meeting Date: 6/21/2017

Item #: 7.20.

RECOMMENDATION TO COUNCIL

The Fire Department recommends that City Council approve a \$150,000 service agreement amendment no. 1 with Silke Communications (June 30, 2017 - June 30, 2019) for services related to repair, modification, integration and specialized equipment required for the completion of the public safety interoperable radio system and adopt a resolution authorizing the City Manager to sign it.

BACKGROUND

Existing VHF communications systems utilized for communications with Placer County local agencies and State of California systems for both law enforcement and fire service were upgraded with grant funding between 2010 and 2015. During those upgrades, additional system modifications and maintenance needs were identified including replacing aged antenna systems, re-engineering and modification of outdated filters, modifications required to allow proper communication with local agencies frequencies, and fixes to address coverage and capability for public safety communications. The Fire Department is currently working on a 10 year plan targeted to upgrade such radio systems. While addressing repairs and re-engineering, it is necessary to have the current service provider (Silke Communications) continue such work since all is engineered by this vendor, all components must be installed by one vendor to maintain warranty status, and the vendor must also be a factory-certified dealer of such equipment already installed and to be added. For this reason, staff requests the existing vendor be granted approval to continue such work under sole-source approval.

FISCAL IMPACT

The service agreement total value is \$150,000 and will be allocated over three fiscal years. FY 2016/17 anticipated expenditures (\$76,024) includes funding from CIP Rehab (\$72,400) and existing Fire Department approved funds (\$3,624). Fiscal Year 2017/18 has \$15,000 included in the General Fund annual budget pending approval by Council. The balance of the agreement (\$58,976) will be requested as part of the FY 2018/19 General Fund budget.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The proposed project involves communication equipment maintenance, repair and upgrade at existing facilities. This activity is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section 15301). The Exemption has been prepared and no further CEQA action is required.

Respectfully Submitted,

Chris Baker, Battalion Chief

Rick Bartee, Fire Chief

Rob Jensen, City Manager

Attached is a copy of a service agreement for your review and acceptance. Please review the company name, address, and contact information and notify me via email if any corrections need to be made. I will update the agreement prior to you signing the document.

Sign the agreement using the below signature guidelines. Alterations or modifications to the agreement are not allowed. Mail **two signed original** copies of the agreement to the address noted below. Faxes, photocopies, and electronic transmittals will not be accepted. Upon receipt of all necessary documents, the City will sign the agreements and return a fully executed original copy to you. Receipt of the signed copy will be your notice to proceed with the work in accordance with the terms and conditions of the service agreement. Work must not begin until the contract has been fully executed.

The following guidelines must be followed for the signature block on the Service Agreement:

Sole proprietorship - By owner

Partnership - Any general partner

Corporation - Two options:

(1) A signature from the President and the corporate seal; or

(2) One signature from the Chairman of the Board, President, or any Vice President AND one signature from the Secretary, any Assistant Secretary, Chief Financial Officer, Treasurer, or any Assistant Treasurer of the corporation

*General Manager, Office Manager and/or Sales Manager are **not** Corporate officer titles. The service agreement will be rejected if not signed in accordance with these guidelines.

Insurance requirements:

The City's insurance requirements are referenced on Attachment A in this service agreement packet. The service agreement will not be considered active or valid until the necessary insurance documents have been received by Roseville's insurance compliance contractor, EBIX. Please contact EBIX customer service at (951) 652-4239 or roseville@ebix.com for any insurance related questions.

CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Contractor is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances

may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. If the project referenced on this service agreement is a Public Works project, then the following paragraph 17 shall apply. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

<i>City reserves the right to withhold any payments to Contractor in the event of noncompliance with insurance requirements or if required by law.</i>

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

City of Roseville Fire Department Scope of Work
for Silke Communications
7/29/15

Silke Communications will provide the following services on an as needed basis for the City's Fire Department:

- Repair, installation, and engineering support of radio antenna systems
- Engineering to support VHF and other radio systems
- Maintenance of VHF radio systems
- Radio system installation
- Radio system interference support

Asbestos-Containing Materials in City-Owned Buildings

California Health and Safety Code Section 25915 requires that all City of Roseville employees, contractors and lessees be notified annually of the presence of asbestos in City-owned buildings constructed prior to 1979. Please post this notice in an area(s) accessible to all employees, contractors and lessees. Contact Facility Maintenance & Operations at (916) 774-5740 for more information about Asbestos Containing Materials (ACMs) in specific City-owned buildings. For more information about asbestos refer to the OSHA website.

The City of Roseville is committed to maintaining a safe and healthy work environment. The City's Facility Maintenance & Operations staff conducts ongoing inspections to identify and safely manage previously installed asbestos-containing products. Renovation of City-owned buildings **MUST** be reviewed in advance by Facility Maintenance & Operations to ensure the City is in compliance with building codes, Americans with Disabilities Act and that no ACMs are disturbed without proper safeguards. Work that requires removal or repair of ACMs is restricted to trained and qualified persons only. **Facility Maintenance & Operations will need to approve the qualified contractors.**

Use the following measures to protect you and others from exposure to airborne asbestos:

- Presume all building materials contain asbestos until determined otherwise by Facility Maintenance & Operations.
- Do not install walls, closets, cabinets, ceilings.
- Do not remove, cut, drill, sand, grind or otherwise disturb any material in the buildings, including carpet and tile.
- Do not paint (this includes any walls, ceilings, floors and electrostatic painting of office furniture).
- Do not remove any items nailed or screwed to the walls (this includes pictures, cabinets, electrical, etc.).
- Do not go above ceilings, behind walls or into building spaces such as attics and crawlspaces unless these areas have been inspected and cleared by Facility Maintenance & Operations.
- Do not pull cable or wiring through above-ceiling spaces with asbestos.
- Do not install screws, pins, nails or hangers into asbestos ceiling or wall plaster.
- Be careful not to damage walls, ceilings or floors when moving furniture or equipment. It is recommended that Facility Maintenance & Operations be contacted prior to moving furniture or equipment.
- Do not brush, sweep or vacuum textured asbestos ceiling plaster or plaster debris.
- Immediately report any damage or deterioration of suspect building materials to Facility Maintenance & Operations or Risk Management.

It is important to note that the presence of asbestos does not mean you have been exposed. Exposure results when friable asbestos particles are inhaled or ingested. Asbestos becomes friable when material containing asbestos is drilled, sanded or disturbed by remodeling or demolition work or when the ACM has deteriorated. Intact, bonded, sealed or undisturbed asbestos does not pose a hazard.

Employees may review the asbestos survey reports, results of bulk sampling or air monitoring conducted in City-owned buildings. All asbestos data will be available by appointment with Facility Maintenance & Operations.

COUNCIL COMMUNICATION

CC #: 8540

File #: 0704

Title: 2017 Parks Construction Standards Update
Contact: Tara Gee 916-774-5253 tgee@roseville.ca.us

Meeting Date: 6/21/2017

Item #: 7.21.

RECOMMENDATION TO COUNCIL

Staff requests that City Council adopt a resolution approving the revisions of the Parks Construction Standards for release effective July 1, 2017.

BACKGROUND

The Parks Construction Standards is a guiding document that outlines design and construction standards applied to parks (neighborhood and city-wide), and streetscapes. This document is updated every two years in order to ensure new codes, regulations and requirements are updated or added, to correct typographical errors, to provide clarity in areas that may cause multiple misinterpretations, and to ensure the latest technology in irrigation, lighting and other systems.

The revisions included in the July 2017 update include:

1. Correction of typographical errors and minor clarifications;
2. Better definition of the close-out process;
3. Updated irrigation water audit requirements;
4. Updated standards for drip and subsurface irrigation;
5. Updated recommended tree list;
6. Added detail for bench and picnic table information to ensure compliance with required codes; and
7. Modification of the establishment period to identify the duration based on seeded turf, sod or streetscapes.

Feedback from contractors and staff is collected over each two year period which provides the basis for updates/revisions.

A complete copy of the 2017 Parks Constructions Standards is available for review in the City Clerk's office.

FISCAL IMPACT

The changes described above will have no fiscal impact to projects and could potentially reduce costs related to irrigation by identifying equipment and materials that are less labor intensive to install and maintain. There is no General Fund impact.

ECONOMIC DEVELOPMENT / JOBS CREATED

No impacts are anticipated with the update/revision.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The Park Construction Standards update does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Tara L. Gee, Park Planning & Development Superintendent

Dion Louthan, Parks, Recreation & Libraries Director

Rob Jensen, City Manager

Title: Street Closure Request - Rods-N-Ribs Event - August 5, 2017
Contact: Jamie Hazen 916-774-5978 jhazen@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.22.

RECOMMENDATION TO COUNCIL

Recommend Council adopt the resolution authorizing the City Manager or his designee to sign the agreement with Water for a Warrior non-profit group for the following street closures from 5:30 a.m. – 3:00 p.m., on Saturday, August 5, 2017 for the Rods-N-Ribs event:

- Vernon Street between E. Washington and Taylor Streets
- S. Grant Street between Oak and Atlantic Streets

BACKGROUND

The Water for a Warrior non-profit group from Roseville has submitted a special event application to host their second annual Rods-N-Ribs charity fundraiser event in Downtown Roseville and the Vernon Street Town Square.

Water for a Warrior is a local non-profit whose mission is to provide combat wounded veterans who would benefit from hydro-therapy and aquatic fitness with pools, hot tubs and other aquatic related products and services to help aid in their therapy, recovery and well-being.

The event will feature a car show, vendor fair and rib cook-off. This is the second year for this event but its first time to be held in Roseville. In 2016 the event was held in Citrus Heights and was so successful that it outgrew its original space. Previously ten teams competed in the rib "cook-off" event; this year the group is expecting 20 – 25 teams and hopes to make this an annual event in Roseville.

The event coordinators made a presentation to the Downtown Roseville Merchants (DRM) and have personally talked with many merchants on Vernon Street. City staff received an email from the DRM president supporting this event. Several Vernon Street businesses, including Monk's Cellar and Roseville Cyclery will be participating in the event as vendors.

In addition to notifying businesses directly impacted, we will continue to notify business and

property owners of street closures in the "Downtown Roseville Area Street Closures" e-newsletter.

FISCAL IMPACT

There will be no fiscal impact to City budgets for this event. The applicant will reimburse the City for staff time and resources.

ECONOMIC DEVELOPMENT / JOBS CREATED

Although there are no jobs created as a result of this event, the exposure could have a positive impact to the businesses in the downtown area, and supports the Council goal of having a vibrant downtown.

ENVIRONMENTAL REVIEW

The proposed Street Closure Agreement outlines applicant and City responsibilities for proposed temporary street closures required to safely accommodate the event. The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Because the request for approval of the Temporary Street Closure Agreement does not include the potential for a significant environmental effect, it is not subject to CEQA and no further action is required.

Respectfully Submitted,

Jamie Hazen, Community Relations Analyst

Dion Louthan, Parks, Recreation & Libraries Director

Rob Jensen, City Manager

AGREEMENT FOR SPECIAL EVENT AND

TEMPORARY STREET CLOSURE

Event: Water for a Warrior Rods-N-Ribs

THIS AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and Water for a Warrior, a California nonprofit corporation ("PROMOTER"), and

W I T N E S S E T H:

WHEREAS, PROMOTER has requested the closure of certain public streets for the Water for a Warrior Rods-N-Ribs ("Event") to be held on Saturday, August 5, 2017; and

WHEREAS, CITY approves said request subject to the following terms and conditions.

NOW, THEREFORE, the parties agree as follows:

1. PROMOTER shall comply with all applicable provisions of the Roseville Municipal Code.
2. The following streets may be closed to traffic between 5:00 a.m. and 3:00 p.m. on Saturday, August 5, 2017:
 - a. Vernon Street, between East Washington and Taylor Streets; and
 - b. South Grant Street, between Oak and Atlantic Streets.
3. Adequate barriers and warning signs, as requested by the Public Works Director/City Engineer, shall be placed by City personnel at all street entrances and alleys leading into the closed area. No markings of any kind will be permitted on the street, street lights, or electrical poles.

4. All debris, booths, exhibits, or other materials resulting from the Event shall be completely removed and all streets and alleyways shall be reopened to traffic by 3:00 p.m. on the date of the Event.

5. PROMOTER shall notify in writing all businesses, located on the streets to be closed, of the Event and planned street closure not later than five (5) days in advance of the Event.

6. To the fullest extent allowed by law, PROMOTER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from, arising out of or in connection with the Event or the attendant street and/or garage closures, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

PROMOTER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

7. The PROMOTER shall obtain insurance covering the Event in accordance with the attached insurance requirements, which are incorporated herein by this reference.

8. CITY reserves the right to cancel this Agreement if PROMOTER has knowingly made a false statement of material fact or has knowingly omitted to state a material fact to CITY.

9. PROMOTER shall reimburse CITY for all staff costs incurred relating to the Event including, but not limited to, street closure costs.

10. PROMOTER shall obtain security services for the Event as required by the Roseville Police Department. In the event PROMOTER desires to retain Roseville Police Officers (instead of a private security provider) for provision of security for the Event, PROMOTER shall, prior to the Event, enter into a Supplemental Law Enforcement Services Agreement with CITY.

11. Either party may terminate this Agreement by giving the other party ten (10) days advance written notice.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and PROMOTER has caused this Agreement to be executed.

Title: Maya Bowhunters Archery Club - Lease Agreement
Contact: Devin Whittington 916-774-5783 dwhittington@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.23.

RECOMMENDATION TO COUNCIL

Adopt a resolution for the lease agreement between the Maya Bowhunters Archery Club and the City for a five-year term for the continued use of property located at the closed City of Roseville Sanitary Landfill. The Maya Bowhunters will pay the City \$2,171.58 on an annual basis with an annual inflationary adjustment of two percent for each subsequent year.

BACKGROUND

The Maya Bowhunter Archery Club has leased a portion of the closed City of Roseville Sanitary Landfill since 1980. The Club uses the property for archery practice and tournaments. The attached lease agreement is for a five-year term and is in the amount of \$2,171.58 per year with an annual inflationary adjustment of two percent for each subsequent year paid to the City by Maya Bowhunters Archery Club.

The only potential issue during this lease agreement is the Placer County Antelope Creek Flood Control Project. The Placer County Flood Control District has already opened dialogue with the Maya Bowhunters to reduce any impact to the Club during construction the project.

FISCAL IMPACT

The fiscal impact from this lease will be a positive \$2,171.58 per year with an annual inflationary adjustment of two percent for each subsequent year paid to the City by Maya Bowhunter's Archery Club.

ECONOMIC DEVELOPMENT / JOBS CREATED

No new jobs were created as a part of this lease.

ENVIRONMENTAL REVIEW

The proposed project involves the leasing of an existing facility. This activity is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section 15301). The Exemption has been prepared and no further CEQA action is required.

LEASE AGREEMENT

(Maya Bowhunters)

This Lease Agreement ("Agreement") is made and entered into on this ____ day of _____, 2017, by and between City of Roseville, a municipal corporation ("LESSOR"), and Maya Bowhunters of Roseville, Inc., a California corporation ("LESSEE"); and

WITNESSETH:

WHEREAS, LESSOR owns certain real property depicted in Exhibit "A", attached hereto and incorporated herein by this reference, which is no longer required for active sanitary landfill purposes; and

WHEREAS, portions of such City-owned property are designated in Exhibit "A" as Lease Area 1A and Lease Area 1B and such lease areas may be collectively referred to herein as the "Subject Property"; and

WHEREAS, LESSEE desires to develop and maintain certain temporary public recreational uses on the Subject Property; and

WHEREAS, the parties have previously entered into leases for portions of the landfill property dated February 6, 1980, December 4, 1985, March 9, 1989, March 17, 1993, November 6, 1996, February 5, 2002, January 19, 2005, May 7, 2008 and March 7, 2012; and

NOW, THEREFORE, the parties agree as follows:

1. Subject Property. With regard to the Subject Property, Lease Area 1A presently contains the clubhouse area, practice range, and archery range. LESSEE is hereby authorized to

use Lease Area 1A at all times. Lease Area 1B may only be used during identified training sessions and special events and is subject to prior approval by LESSOR as provided in Sections 15 and 16 of this Lease. LESSEE hereby acknowledges and is aware that a public bike trail runs through and nearby the Subject Property, as depicted on Exhibit "A". Use of the Subject Property is hereby deemed exclusive of any City-owned public improvements (e.g., Roseville Parkway). LESSOR shall not install any additional improvements or structures within the Subject Property, except as may be approved by City in its sole discretion.

2. Term. LESSOR does hereby lease the Subject Property to LESSEE, for a period of five (5) years commencing from the date of this Lease.

3. Rent. LESSEE agrees to pay LESSOR the sum of two thousand, one hundred seventy-one dollars and fifty-eight cents (\$2,171.58) annually (rent), with an annual inflationary adjustment/increase to the rent of 2% for each subsequent year, and with the first rental payment due and payable upon full execution of this Lease, no later than July 1, 2017

4. Use of Subject Property. The Subject Property is leased to LESSEE for the sole purpose of developing and maintaining public recreational use of the property as an archery range. LESSEE shall not use or permit the use of the Subject Property, or any part thereof, for any other purpose. LESSEE shall not store or permit the storage of toxic or hazardous chemicals within the Subject Property.

5. Access to Subject Property. Ingress and egress to the Subject Property shall be over the landfill access road from its intersection with Galleria Boulevard. Access to the landfill access road shall be controlled by a locked gate, for which LESSOR and LESSEE shall have identical keys. LESSEE shall exercise reasonable control over access through the gate by members of the public so as to limit safety hazards in the use of the Subject Property.

6. Location of Targets. The location of the targets shall be as set forth in Exhibit "A". LESSEE may not relocate any targets without the prior written consent of LESSOR.

7. Signage. No Trespassing signs will be posted or erected per State of California Penal Code Section 602(k). LESSEE will be responsible for maintaining the signage provided by LESSOR. At LESSOR's option, a barrier or fence in respect to Roseville Parkway may be installed to prevent pedestrian or vehicular traffic on the property at the expense of LESSEE. Placement of said barrier or fence will to be determined and coordinated by LESSOR.

LESSEE shall post and maintain at all times signage at each target informing of the existence of the nearby bike trail, as directed by the City's Public Works Director or his/her designee.

8. Hours of Operation. The Subject Property shall be closed for use as an archery range from sunset until sunrise except that LESSEE may hold one annual night shooting event each year provided that LESSEE complies with the notification requirements and bike trail closure requirements set forth in Section 15 of this Lease. This section does not prohibit LESSEE from using the clubhouse after sunset.

9. Alcohol Prohibited. No person shall consume any alcoholic beverage on the Subject Property. Notwithstanding Section 29 below, a violation of this provision by a member of LESSEE shall be grounds for immediate termination of this Lease at LESSOR's option.

10. Operation of the Range. LESSEE shall furnish all labor, equipment and expenses for the operation and maintenance of the archery range.

11. Safety Manual. During the duration of this Lease, LESSEE shall maintain in full force and effect a Safety Manual, a copy of which is set forth in Exhibit "B", which Exhibit is

attached hereto and incorporated herein by reference. Any amendments to the Safety Manual require the prior written consent of LESSOR.

12. Meetings. During the duration of this Lease, LESSEE and LESSOR shall meet as necessary to discuss the status of the operation of the archery range, including any safety issues and any issues associated with the public bike trail.

13. Improvements. LESSEE shall not erect or construct paved areas or any other improvements or structures upon the Subject Property without LESSOR's prior written approval. Existing improvements and structures, described in Exhibit "A" may remain on the property during the term of the lease, provided, however that LESSOR may require LESSEE to permanently or temporarily remove any improvements or structures, at LESSEE's sole cost and expense, if such improvement or structure conflicts in any way with any City project, program or activity. LESSOR shall provide LESSEE with at least sixty (60) days prior written notice of such required removal or relocation.

14. Sanitary Facilities. LESSEE shall maintain the restroom facilities described in Exhibit "A."

15. Special Events. No less than thirty (30) days prior to LESSEE hosting the Around the World event, the Stickbow Classic, and any other special event, LESSEE shall request permission from the City's Public Works Director or his/her designee. If the LESSOR approves of the special event, LESSOR shall close the public bike trail on the Subject Property during the event, as required by the City. LESSEE shall be responsible for reimbursing LESSOR for the staff time incurred in closing the bike trail in the amount of one hundred and fifty dollars (\$150). LESSEE shall also be responsible for monitoring the bike trail during the

special event. If the special event requires trail closure, at a minimum, this monitoring shall consist of posting one person at each location where the bike trail has been closed.

During the special event, LESSEE will be allowed to use Lease Area 1B of the Subject Property.

16. Training Session. LESSEE is permitted to use Lease Area 1B once a week for a consecutive twelve (12) week training session each year. Prior to conducting such training session, LESSEE shall do the following: (1) notify LESSOR of the dates and times the training session will be conducted; (2) post signage for the duration of the training session at the bike trail, per the direction of the City's Public Works Director or his/her designee; (3) provide training session participants range safety training, a copy of the Maya safety manual and notification that the bike trail shall remain open to the public during the training session; and (4) obtain training session participants' written confirmation that they attended the training session, received a copy of the Maya safety manual, and are aware that the bike trail is open to the public during the training session. During the training session, LESSEE shall be required to do the following: (1) set up and remove target course markers in Lease Area 1B on a daily basis; and (2) the range president or range manager shall be present during each training session. During the training session, the bike trail shall not be closed to the public.

17. Use of Other Areas. If LESSEE desires to use any area other than Lease Area 1A and 1B, LESSEE shall request permission from the City's Public Works Director or his/her designee no less than thirty (30) days prior to the desired use. CITY shall act on LESSEE's request no later than fifteen (15) days prior to the desired use. Any such authorized use shall be approved by means of a "Permission to Enter City Property" agreement.

18. Oak Trees. LESSEE shall fully comply with the City's Oak Tree Preservation Ordinance, Roseville Municipal Code Chapter 19.66.

19. Compliance with Laws. No use of the Subject Property shall be made or permitted which is in any manner contrary to the statutes, ordinances, regulations, and other requirements of law in effect during the term that regulate the use of the Subject Property.

20. Nuisances Prohibited. LESSEE shall not commit or permit to be committed any waste on or of the Subject Property, and LESSEE shall not do or permit to be done any act in or about the Subject Property which shall be a nuisance or which may endanger the Subject Property or adjoining properties.

21. Removal of Property. Upon termination of this Lease, LESSEE shall remove all its buildings, property and materials from the Subject Property and return it to the condition it was in prior to LESSEE's use of the Subject Property within sixty (60) days of termination.

22. Assignment. LESSEE shall not assign this Lease or any interest therein, without the prior written consent of LESSOR. Any assignment without such consent shall be void, and shall, at the option of LESSOR, terminate this Lease.

23. Indemnification. This lease is made upon the express condition that LESSOR shall be kept free from all liability and claim for damages or other relief by reason of injury to any person or persons, including death, or property of any kind regardless of to whom it belongs, while in, upon or in any way connected with the Subject Property and/or exercise of rights and obligations under this Lease during the term of this Lease or any occupancy under it. Accordingly, LESSEE shall defend, indemnify, and save and hold harmless LESSOR, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but

not limited to workers and the public), or damage to property, resulting from or arising out of LESSEE's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from LESSOR's sole or active negligence. The parties intend that this provision shall be broadly construed.

24. Insurance. LESSEE agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE

Comprehensive General Liability

LIMITS OF LIABILITY

\$1,000,000 each occurrence
\$2,000,000 aggregate
Personal Injury:
\$1,000,000 each occurrence
\$2,000,000 aggregate

LESSEE shall submit a certificate evidencing such coverage in a form satisfactory to the Roseville City Attorney, prior to occupying the Subject Property. LESSEE shall also provide a separate endorsement form or section of the policy showing LESSOR, its officers, agents and employees as additional named insureds. Such insurance shall specifically cover the contractual liability of LESSEE. The coverage shall be primary as to such additional insureds and no coverage of the LESSOR shall be called upon to contribute to a loss. In addition, the insurance policy may not contain language which prohibits additional insureds or other insurers from satisfying the self-insured retention or deductible. LESSEE shall provide thirty (30) days written notice to LESSOR prior to cancellation or modification of any insurance required by this Agreement. LESSEE shall furnish a certificate for the period covered by this Agreement. Any insurance written on a claims made basis is subject to the approval of the Roseville City

Attorney. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve LESSEE of liability in excess of such coverage, nor shall it preclude LESSOR from taking such other actions as are available to it under any other provisions of this Agreement or law. Any deductibles or self-insured retentions must be declared on the certificate of insurance and approved by LESSOR in writing. Failure of LESSEE to maintain such insurance or to indemnify LESSOR as specified shall be grounds for immediate termination of this Lease at LESSOR's option.

25. Taxes. LESSEE understands that its leasehold interest in the Subject Property may be subject to a possible possessory interest tax that the City or County may impose on such interest, and that such tax payment shall not reduce any sum due the LESSOR hereunder, and that any such tax shall be the sole liability and responsibility of LESSEE.

26. No Holding Over. This Lease shall not be subject to any holding over, and shall not convert into either a month to month or year to year tenancy upon its termination.

27. Notices. Any notices required by this Agreement shall be delivered or sent by first class mail, United States postage prepaid, addressed as follows:

CITY

Rob Jensen, City Manager
311 Vernon Street
Roseville, CA 95678

Robert R. Schmitt, City Attorney
311 Vernon Street
Roseville, CA 95678

MAYA BOWHUNTERS

Carlos Rodriguez, Club President
7622 Bierston Street
Citrus Heights, CA 95621

Either party may amend its address for notice by giving notice to the other party. In addition, in the event a new Club President is appointed during the term of this Lease, LESSEE shall so notify LESSOR in writing.

28. Attorney's Fees; Venue; Governing Law. In the event of any action brought to enforce this Lease, or in any unlawful detainer action, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

29. Termination of Lease. LESSOR may terminate LESSEE's use of the Subject Property without cause by giving LESSEE seventy-two (72) hours advance written notice. Thereafter, this Lease may be terminated by LESSOR within sixty (60) days upon advance written notice and LESSEE shall remove all its buildings, property and materials from the Subject Property and return it to the condition it was in prior to LESSEE's use of the Subject Property within these sixty (60) days.

LESSOR may terminate this Agreement at any time upon giving thirty (30) days advance written notice to LESSOR.

30. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

31. Severability. If any of the provisions contained in this Agreement is for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

32. Integrated Agreement. This is an integrated Agreement, and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement, in duplicate, by its City Manager and attest to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____ day of _____, 2012, and LESSEE has caused this Agreement to be executed.

MAYA

SAFETY MANUAL

SECTION I - Safety Policy and Assignment of Responsibility

SAFETY POLICY STATEMENT

It is the policy Maya Archers that accident prevention shall be considered of primary importance in all phases of operation and administration.

It is the intention of the club's officers to provide safe and healthy archery facility conditions and to enforce safe practices by all members.

The prevention of accidents is an objective affecting all levels of the organization and its activities. It is therefore, a basic requirement that each officer make the safety of members an integral part of his or her regular management function. It is equally the duty of each member to accept and follow established safety regulations and procedures.

Every effort will be made to provide adequate training to members. However, if a member is ever in doubt how to do a use the facility safely, it is their duty to ask a qualified member for assistance.

Members are expected to assist management in accident prevention activities.

Unsafe conditions must be reported. Fellow members that need help should be assisted. Everyone is responsible to insure members' safe enjoyment of the facility.

Any injury that occurs on the facility, even a slight cut or strain, must be reported to management as soon as possible. In no circumstance, except an emergency should a member leave without reporting an injury that occurred.

Carlos Rodriquez

President

5/2/2017

Date

ASSIGNMENT OF RESPONSIBILITY

The Club President is responsible for implementing, administering, and enforcing compliance with the Safety Program. The president's office is located in the club house. In addition to maintaining certain records required by this manual, the president is the person with whom you are required to communicate concerning member safety and any facility hazards.

In addition, the Range Manager and club officers will be responsible for seeing that all club rules and policies are adhered to by all members. This may include member incentives, retraining, and disciplinary actions.

However, every member has a responsibility to immediately notify the president and/or range manager of any facility hazard they discover so that it may be examined and appropriate action taken.

Carlos Rodriguez

Carlos Rodriguez

President

5/2/2017

Date

SECTION II -Member Compliance Policy

MEMBERS COMPLIANCE POLICY

We consider the safety of our members to be very important. Therefore, to prevent accidents, it is our policy to strictly enforce club safety rules. Infractions of safety rules will result in the following.

1st Infraction –Verbal Warning

2nd Infraction – Written Warning

3rd Infraction – Suspension

4th Infraction -Termination

Based upon the severity of the violation the club may forego the disciplinary action prescribed above and proceed with more severe action, up to and including termination of membership.

CODE OF SAFE PRACTICES

Maya Archers

All members shall comply with this minimum code.

1. All members shall comply with Club Regulations. (see pages 6 and 7 attached)
2. All safety literature shall be disseminated to the members and posted on club bulletin boards.
3. All work parties shall begin with a "Safety Meeting" and a record of same shall be made and given to the Range Manager. Range Manager shall insist on members observing and obeying every rule, regulation, and order as is necessary to the safe conduct of the work, and shall take such action as is necessary to obtain compliance.
4. The following information shall be posted on the Bulletin Board:
 - a. Club Safety Regulations.
 - b. Contact Information for Medical Treatment Facilities, Fire Station, Police Department
 - c. Range Managers Name and contact number
 - d. Code of Safe Practices
5. All accidents must be reported to the Range Manager.
6. All tools and equipment shall be maintained in proper working order and in safe condition.
7. Members of work parties should be alert to see that all equipment guards and other protective devices are in their proper places and that they are adjusted, and shall report deficiencies promptly to the Range Manager.
8. Any equipment not meeting safety standards must be set aside, red tagged and not used until repaired or replaced.
9. Inappropriate conduct and other behavior that may have an adverse effect on the safety and/or well being of other club members or the public is prohibited. Members should contact the Range Manager immediately regarding any observed safety or conduct violations.
10. Observe safety rules at all times.

MAYA ARCHERS CLUB REGULATIONS

HISTORY:

Maya Bowhunters of Roseville Inc, dba MAYA ARCHERS, has operated in the City of Roseville for over fifty years. We have been at our present location for the last thirty years. Our facility is leased from the City of Roseville and occupies a portion of the old land fill site that has been closed and is being monitored and maintained by the City. Our facility shares a portion of this City property with the Antelope Creek Bike Trail.

Over the last thirty years we have seen many changes in the rural nature of our facility as development of the "Galleria Mall" and Roseville Parkway has urbanized our neighborhood. The construction of the Roseville Parkway and the Antelope Creek Bike Trail are the most recent additions and have required us to implement many changes in our use of "MAYA".

The following Club Regulations are necessary for the safe enjoyment of our archery use of the club facilities and deviance from these regulations may result in dismissal from the club as detailed in the "MAYA SAFETY MANUAL".

General Membership Rules:

1. Entrance gate to the range is to remain locked at all times, except during club meetings, work parties, or club functions open to the public (Leagues, Invitational Shoots and Club Events). Gate combination is not to be disclosed to anyone!
2. Club use requires sign-in / sign-out on the form maintained near the club house front door. Use your club ID # and completely fill out the requested information.

3. Members are required to have their 'Membership Card' visible while using club facilities.
4. Driving off the main roads is prohibited. Park in established area only.
5. Please remember the bike trail may have riders at any time. Never point or appear to point an arrow in the direction of the bike trail or Roseville Parkway. Nock an arrow and draw your bow only while pointing AT THE TARGET.
6. No shooting at a target or target butt outside of an established target lane and sight-in range.
7. Broadheads are never to be shot into targets butts. Broadheads are only allowed in sand pits and established broadhead lanes outside of the target course lanes.
8. Continuous practice or shooting on a single target lane (target course) is prohibited. The Sight-In Range (practice butts, located next to the clubhouse) is used for sighting in your equipment or yardage practice. The target course is designed for shooting 4 arrows per target and moving on to the next target to allow other shooters to shoot the course.
9. No littering or dumping on the range. The dumpster or trashcans are for club use only.
10. Alcoholic beverages are **not allowed** on club property. This is a City of Roseville lease requirement and violations may result in termination of our lease.
11. Any member observed to be under the influence of drugs, alcohol, or other intoxicating substances is to be reported to the president and/or range manager immediately so that appropriate action can be taken to remove the member from the club facilities.
12. Smoking is strictly prohibited at any time and not allowed in any building or on the range. Please observe all fire safety precautions while in the field.
13. Profanity and inappropriate behavior is prohibited. Remember our range is adjacent to a public recreational facility (the Antelope Bike Trail).
14. To hunt, harass or discharge an arrow at any animals or birds on the range is strictly prohibited.

15. Use of pesticides and/or weed killers is prohibited as these may adversely impact the monitoring program the City is performing on the closed landfill.
16. Cutting of trees and vegetation is prohibited. Target lane cleanup consisting of mowing of grass and "weed eating" is acceptable.
17. Members are allowed to invite a guest(s) onto the range once, if the guest wishes to join the club, the guest must submit a membership application during a General Membership meeting. Members are responsible for insuring that their guests are aware of the range rules and strictly adheres to club regulations. They must accompany their guests at all times. Guests with no experience are limited to the use of the practice range only and guests that belong to other clubs or have organized archery experience may use the field range, all under the supervision of member.

SECTION IV – TRAINING

TRAINING

Another important part of this Safety Manual is the regular training of members in safe practices. All who are currently members when the program is implemented will receive such training. New members to the club will be provided with safety training at the time of induction in the club.

All training will include a general review of safety issues, health hazards, and accident prevention while using the Club facilities as detailed in the Code of Safe Practices. Refresher training will be provided on a regularly scheduled basis and Members will be required to attend.

Safety Training is mandatory and will be documented.

The Club president will maintain a separate record of safety training for each member. Records will be kept for a reasonable period of time.

SAFETY TRAINING RECORD

This report is to be completed by the Range Manager and the new member within 30 days after he/she joins the club and prior to obtaining access to the club facilities. The completed report will then be filed with the Club President.

NAME: _____ JOIN DATE: _____

The Range Manager is to go over the following safety items with the new member:

1. The importance of safety as a club member.
 - ☐ Archery Safety/Shooting Precautions (addendum).
2. MAYA SAFETY MANUAL. (attached and made a part hereof)
3. Fire extinguisher(s) located _____ in club house
4. First-aid kits(s) located _____ in club house
5. Hospital or clinic locations for emergency treatment
6. Report all injuries immediately to range manager
7. Report unsafe conditions immediately to range manager.
8. Disciplinary actions for violating club safety regulations and policies.

The above safety items have been presented to me and I understand them and I agree to comply with the MAYA SAFETY MANUAL, club rules and policies.

SECTION V - Inspection & Corrections of Hazards

INSPECTION AND CORRECTION OF HAZARDS

An important part of this manual is the scheduled periodic inspection of club house areas and the field range to identify possible hazards and potential causes of accidents or injuries. The inspections will be held on a monthly basis or more frequently if the need arises, to determine if members are in compliance with the MAYA SAFETY MANUAL. Written reports will be made of the inspections and hazards that are found will be corrected as soon as possible. The president or a designated representative will conduct the inspections of accident sites and hazards or other unusual occurrences reported to the Range Manager. Records of these inspections and action taken will be kept by the President.

SECTION VI - Accident & Injury Investigation

ACCIDENT AND INJURY INVESTIGATION

The purpose of accident investigation is to determine what factors condition, and / or practices contributed to the accident, so that proper action can be taken to prevent recurrence. All accidents and/or injuries should be investigated as soon as practical by the president or range manager.

SECTION VIII - Member Accident Procedures & Forms

MEMBER ACCIDENT

In the event a member is injured on site, please follow the following procedures:

MINOR INJURY NO MEDICAL ATTENTION REQUIRED

1. Complete Range Manager report of accident form.
2. Verify with member a second time that they are okay and do not require medical attention.

INJURY REQUIRING MEDICAL ATTENTION

1. Notify 1st contact on club emergency contact list.
2. Advise member of the nearest medical facilities.
3. Complete Range Manager report of accident form.
4. Fax copy of accident form to City of Roseville Risk Management Division at:
riskmanagement@roseville.ca.us Fax copies can be sent to 916-774-5350.

SERIOUS INJURY

1. Call 911
2. Contact member's personal emergency contact.
3. Complete Range Manager report of accident form.
4. Notify contacts on club emergency contact list.
5. Fax copy of accident form to City of Roseville Risk Management Division at:
riskmanagement@roseville.ca.us Fax copies can be sent to 916-774-5350.

COUNCIL COMMUNICATION

CC #: 8560

File #: 0201

Title: Bond Trustee Services - Professional Services Agreement Amendment

Contact: Jacquelyn Flickinger 916-774-5516 jflickinger@roseville.ca.us

Meeting Date: 6/21/2017

Item #: 7.24.

RECOMMENDATION TO COUNCIL

Staff recommends City Council adopt a resolution to approve the first amendment to extend the term of the professional services agreement for Bond Trustee Services with the Bank of New York Mellon from July 1, 2017 to June 30, 2018, and authorize the City Manager to execute it.

BACKGROUND

The City's Bond Trustee relationship is currently maintained with the Bank of New York Mellon. Given the ongoing changes occurring within the banking industry and evolving technologies, the City determined that a review of the services offered by all qualifying institutions was appropriate last year. A request for proposals was issued and the contract was awarded to the Bank of New York Mellon for a one year term with five additional one year extensions. This contract amendment extends the term of services for a second year from July 1, 2017 to June 30, 2018.

FISCAL IMPACT

This will be a yearly contract extending the term to July 1, 2017 through June 30, 2018. The contract amendment for the second year of services will not exceed \$75,000. The annual fee of approximately \$1,800 per series is paid by each outstanding bond series.

ECONOMIC DEVELOPMENT / JOBS CREATED

Adoption of the first amendment to the Bond Trustee Services will not have an impact on economic development or job creation.

ENVIRONMENTAL REVIEW

This contract amendment is not considered a "project" as defined by the California Environmental Quality Act (CEQA) based on Section 15273 of the CEQA Guidelines. No other CEQA action is required.

Respectfully Submitted,

Jacquelyn Flickinger, Controller

Jay Panzica, Chief Financial Officer

A handwritten signature in blue ink, appearing to read 'Rob Jensen', with a long horizontal flourish extending to the right.

Rob Jensen, City Manager

**FIRST AMENDMENT TO
PROFESSIONAL SERVICES AGREEMENT**

Project: Bond Trustee Services

THIS FIRST AMENDMENT TO AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and The Bank of New York Mellon Trust Company, N.A., a national banking association ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated August 3, 2016 ("Agreement") regarding Bond Trustee Services ("Project"); and

WHEREAS, CITY desires to amend the Agreement to extend the term by one year; and

WHEREAS, CONSULTANT is willing and able to continue providing bond trustee services for an additional year.

NOW, THEREFORE, the parties agree as follows:

1. Paragraph 1 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY exercises its first option to renew the contract for one additional year.

Therefore, the term of the Agreement is hereby extended to June 30, 2018."

2. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and CONSULTANT has caused this First Amendment to Agreement to be executed.

Title: Transit System Services Agreements Extension
Contact: Eileen Bruggeman 916-774-5449 ebruggeman@roseville.ca.us

Meeting Date: 6/21/2017
Item #: 7.25.

RECOMMENDATION TO COUNCIL

Staff recommends that City Council approve the Seventh Amendment to the Transit System Management and Operations Services Agreement and the Third Amendment to Agreement for Operation of the South Placer Transit Information Call Center with MV Transportation. Staff also requests City Council adopt resolutions for these two agreements, authorizing the City Manager to execute them on behalf of the City. These Amendments temporarily extend the Agreements for up to a maximum of three (3) months following their expiration on June 30, 2017.

BACKGROUND

Pursuant to the existing Agreements with the City, MV Transportation manages and operates Roseville Transit and the South Placer County Transportation Information Center ("Call Center"). The Agreement between the City and MV Transportation was originally approved on June 17, 2009, and has since been amended six times to update and extend the agreement. A separate agreement for the current agreements ends June 30, 2017. The Roseville Transit Agreement provides that the City at its sole discretion may extend the term of the Agreement on a month-to-month basis for a maximum of three (3) months beyond the Agreement end date of June 30, 2017 (Section 12.3).

The City is currently in the Request for Proposals (RFP) process to select a transit and call center operator. Staff had planned to have a new long term (4 to 8 year) contract to the Council prior to June 30, 2017. However, the selection process including negotiations will not be complete by June 30, 2017 due to a variety of reasons, including the initiation of the new Game Day Express service this past fall and the requirement to meet federal procurement and contracting requirements. As a result, staff is requesting that we utilize the 3-month extension option provided in the current transit contract and implement a similar extension to the call center agreement.

The proposed action would authorize staff to execute up to three month-to-month extensions up to a final agreement end date of September 30, 2017. A recommendation for a new long term transit and call center contract will be submitted to the City Council prior to that date.

FISCAL IMPACT

The budget for FY2017/2018 anticipated continued provision of transit and call center services by a third party. Continued use of the current billing rates would be within the FY2017/2018 budget. The maximum obligation for the Transit System Management and Operations Services Agreement will increase by a maximum of \$900,000 based on current fiscal year average of \$300,000 per month, which is inclusive of a five percent (5%) contingency for special service requests. The maximum obligation for the Agreement for the South Placer Transit Information Call Center will increase by a maximum of \$76,255.29 based on a similar five percent (5%) contingency for additional staff hours (approximately \$25,418.43 per month).

Funding of Transit services is provided through the Local Transportation Fund. The Transit Operations and Improvement Fund (440) is used for operation of Roseville Transit and the Consolidated Transportation Services Agency (CTSA) Fund (443) is used for the Call Center, both without use of any General Fund monies.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable given extension of the Agreements continue to fund existing jobs for MV Transportation employees without creation of new jobs

ENVIRONMENTAL REVIEW

Exempt from environmental review as this is not a project defined by the California Environmental Quality Act (CEQA).

SEVENTH AMENDMENT TO
AGREEMENT FOR CITY OF ROSEVILLE TRANSIT SYSTEM
MANAGEMENT AND OPERATIONS SERVICES

THIS SEVENTH AMENDMENT TO AGREEMENT, is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and MV Transportation, Inc., a California corporation (“CONTRACTOR”); and

W I T N E S S E T H:

WHEREAS, CITY and CONTRACTOR previously entered into an Agreement for City of Roseville Transit System Management and Operations Services dated June 17, 2009 and amended on November 18, 2009, April 6, 2011, September 19, 2012, June 18, 2014, and July 15, 2015, and July 6, 2016 (“AGREEMENT”); and

WHEREAS, CITY desires to amend the AGREEMENT to extend the term of the AGREEMENT on a month-to-month basis for up to a maximum of three (3) months.

NOW, THEREFORE, the parties agree as follows:

1. Paragraph 1 of Section 10 of the AGREEMENT is hereby amended to read as follows:

“Notwithstanding any provisions of this AGREEMENT to the contrary, CITY and CONTRACTOR mutually agree that CITY’S maximum cumulative obligation is limited to twenty-six million, sixty-eight thousand, five hundred forty-seven dollars and fifty-three cents (\$26,068,547.53) including amounts payable to CONTRACTOR for leases, materials, and costs arising from or due to, termination of this AGREEMENT. It is the intent of the parties hereto

that said maximum obligation shall be sufficient to compensate CONTRACTOR for services performed for five (5) years plus all three optional one (1) year terms.”

2. Section 12.3 of the AGREEMENT is hereby amended to add the following sentence:

“Upon completion of the full term of this AGREEMENT on June 30, 2017, CITY exercises its option to extend the term of this AGREEMENT on month-to month basis thereafter for up to a maximum of three (3) months. The FY2017 Fixed Hourly and Monthly compensation rates as set forth in Exhibit “C” to this AGREEMENT, as amended July 6, 2016, shall remain in effect during this month-to-month extension.”

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Seventh Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and CONSULTANT has caused this Seventh Amendment to Agreement to be executed.

**THIRD AMENDMENT TO AGREEMENT FOR OPERATION OF THE
SOUTH PLACER TRANSIT INFORMATION CALL CENTER**

THIS THIRD AMENDMENT TO AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and MV Transportation, Inc., a California corporation ("CONTRACTOR"); and

W I T N E S S E T H:

WHEREAS, CITY and CONTRACTOR previously entered into an Agreement for management and operation of the South Placer Transit Call Center dated August 20, 2014 and amended on July 15, 2015 and July 6, 2016 ("AGREEMENT"); and

WHEREAS, CITY desires to amend the AGREEMENT to extend the term of the AGREEMENT on a month-to-month basis for up to a maximum of three (3) months.

NOW, THEREFORE, the parties agree as follows:

1. Section 2 of the AGREEMENT is hereby amended to read as follows:

"Compensation. For its services provided hereunder, CONTRACTOR shall be compensated on a monthly basis for a maximum monthly obligation of twenty-five thousand, four hundred eighteen dollars and forty-three cents (\$25,418.43) as described in EXHIBIT "1" to this Third Amendment to AGREEMENT, attached hereto and incorporated herein by this reference. This brings the total not to exceed contract amount to eight hundred thirty-four thousand, four hundred forty-two dollars and twenty-five cents (\$834,442.25)."

CONTRACTOR shall submit monthly invoices for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one-tenth (1/10) hours. CITY shall pay invoices within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed. Payments during the month-to-month extension(s) after June 30, 2017 will conform to the rates as indicated in EXHIBIT "1" of the Third Amendment to AGREEMENT."

2. Section 21 of the AGREEMENT is hereby amended to add the following sentence:

"Upon completion of the full term of this AGREEMENT on June 30, 2017, the parties agree to extend the term of this AGREEMENT on a month-to month basis thereafter for up to a maximum of three (3) months."

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Third Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and CONTRACTOR has caused this Third Amendment to Agreement to be executed.

Title: Finance Authority - Stone Point Community Facilities District No. 1 and No. 5 -
Special Tax Refunding Bonds, Series 2017B

Contact: Vanessa Lieberman 916-774-5189 vlieberman@roseville.ca.us

Meeting Date: 6/21/2017

Item #: 7.26.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt the Resolutions authorizing the issuance of refunding special tax bonds, and authorize the City Manager, or his designee, to approve and authorize the related documents and agreements to complete the bond sale and include the Refunding Bonds for Stone Point Facilities District No. 1 (SP CFD No. 1) and Stone Point Community Facilities District No. 5 (SP CFD No. 5).

Of the two resolutions: one resolution will be of the Roseville Finance Authority (RFA); the other a City resolution.

The attached resolutions authorize the execution and delivery of the following documents required for the refunding for the Roseville Finance Authority and SP CFD No. 1 and SP CFD No.5:

- City Resolution;
- Authority Resolution;
- Indenture of Trust;
- Fiscal Agent Agreement;
- Escrow Agreement;
- City/Authority Bond Purchase Agreement;
- Preliminary Official Statement;

BACKGROUND

Stone Point Community Facilities District (CFD) No.1 was formed on February 19, 2003 by resolution number 03-84 with an original par amount of \$11,285,000. The current outstanding bond amount is \$6,120,000 with an average interest rate of 6.35% and a final maturity of September 1, 2028. The new refunding principal amount will be \$5,285,000 with an estimated average interest rate of 4.47%. The net present value (NPV) savings for SP CFD No. 1 will be approximately \$892,000 or 16.8% of the refunding bonds.

Stone Point CFD No. 5 was formed August 16, 2006 by resolution number 06-16 with an original par amount of \$5,310,000. The current outstanding bond amount is \$4,915,000 at an average interest rate of 5.23% and a final maturity date of September 1, 2036. The new refunding principal for SP CFD No. 5 will be \$4,660,000 with an estimated average interest rate of 4.07%. The net present value (NPV) savings for the SP CFD No. 5 will be approximately \$582,000 or 12.50% of the refunding bonds.

The City has determined that in the current bond market, the outstanding bonds can be refunded for a true interest cost of 3.56% and an issue size of \$9,945,000 (approximately \$5,285,000 for the SP CFD No. 1 and \$4,660,000 for the SP CFD No. 5) which will result in a substantial savings in debt service and reduced annual tax bills to the property owners within the districts. The refunding will not increase the principal amount or the term of outstanding bonds and has a do not exceed amount of \$11,500,000.

FISCAL IMPACT

There will be no fiscal impact to the City of Roseville as all bond issuance costs will be paid from bond proceeds. Property owners will experience a reduction in annual special tax assessments.

ECONOMIC DEVELOPMENT / JOBS CREATED

There will be no fiscal impact to the City of Roseville as all bond issuance costs will be paid from bond proceeds. Property owners will experience a reduction in annual special tax assessments.

ENVIRONMENTAL REVIEW

Approval of the Roseville Finance Authority Special Tax Refunding Bonds is considered statutorily exempt from CEQA (State CEQA Guidelines Section 15273). The project involves the issuance and sale of special tax refunding bonds to obtain funds for capital projects necessary to maintain services within existing service areas. Therefore, no further CEQA action is required.

Preliminary Official Statement

RESOLUTION NO. 17-270

RESOLUTION AUTHORIZING THE ISSUANCE AND SALE OF SPECIAL TAX REFUNDING BONDS FOR COMMUNITY FACILITIES DISTRICTS AND APPROVING AND AUTHORIZING RELATED DOCUMENTS AND ACTIONS

WHEREAS, the City Council of the City of Roseville (the "City") has conducted proceedings under and pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code (the "Mello-Roos Act"), to form Stone Point Community Facilities District No. 1 and Stone Point Community Facilities District No. 5 (together, the "CFDs"), to authorize the levy of special taxes upon the land within the CFDs, and to issue bonds secured by said special taxes the proceeds of which special taxes and which bonds were to be used to finance certain public improvements (the "Prior Facilities"), all as described in those proceedings; and

WHEREAS, under the provisions of the Mello-Roos Act, on behalf of the CFDs, the City has previously issued the following bonds (collectively, the "Prior CFD Bonds") for each respective CFD:

- (a) \$11,285,000 original principal amount of Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003; and
- (b) \$5,310,000 original principal amount of Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Bonds, Series 2006;

WHEREAS, the City has determined that it is in the best financial interests of the City to refinance all or a portion of the Prior CFD Bonds; and to that end, the City has determined to issue (i) the City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017, and (ii) the City of Roseville Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Refunding Bonds, Series 2017 (together, the "2017 CFD Bonds") pursuant to the Mello-Roos Act; and

WHEREAS, this Council wishes to sell the 2017 CFD Bonds to the Roseville Finance Authority (the "Authority"); and

WHEREAS, the Authority wishes to issue special tax revenue refunding bonds (the "Authority Bonds") pursuant to Article 4 of Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (the "Authority Bond Law") for the purpose of purchasing the 2017 CFD Bonds from the City; and

WHEREAS, there have been submitted to this Council certain documents described below providing for the issuance of the 2017 CFD Bonds, the use of the proceeds of the 2017 CFD Bonds, issuance of the Authority Bonds, and this Council with the aid of its staff, has reviewed the documents and found them to be in proper order; and

WHEREAS, there has also been submitted to this Council a form of preliminary Official Statement in connection with the marketing of the Authority Bonds, and the Council, with the aid of its staff, has reviewed the preliminary Official Statement to assure proper disclosure of all material facts relating to such Authority Bonds that are in the personal knowledge of the members of this Council and the City staff; and

WHEREAS, all conditions, things and acts required to exist, to have happened and to have been performed precedent to and in the issuance of the 2017 CFD Bonds and the Authority Bonds and the levy of the special taxes as contemplated by this resolution and the documents referred to herein exist, have happened and have been performed in due time, form and manner as required by the laws of the State of California, including the Mello-Roos Act and the Authority Bond Law;

NOW, THEREFORE, BE IT RESOLVED, as follows:

Section 1. Bonds Authorized. Pursuant to the Mello-Roos Act, this Resolution and the Fiscal Agent Agreements (as defined in Section 3 hereof), this Council authorizes the issuance of the 2017 CFD Bonds in an aggregate principal amount not in excess of the principal amount of the Authority Bonds.

The City hereby finds that, as to each series of 2017 CFD Bonds, each constitutes a series of respective "refunding bonds" within the meaning of the Mello-Roos Act because the proceeds thereof will be used to refund the respective series of Prior CFD Bonds. For the purposes of these proceedings for the issuance of each series of 2017 CFD Bonds, the City hereby determines that (i) the total net interest cost to maturity of each series of 2017 CFD Bonds plus the principal amount of the refunding component of each series of 2017 CFD Bonds is less than (ii) the total net interest cost to maturity of each respective series of Prior CFD Bonds plus the principal amount of each respective series of Prior CFD Bonds to be refunded. The City further finds and determines that it would be prudent in the management of its fiscal affairs to issue each series of 2017 CFD Bonds to refund the respective Prior CFD Bonds.

Section 2. Authorities Granted. The City Manager, Chief Financial Executive, Treasurer, Finance Director or such other person or persons as either of them may designate (each, an "Authorized Officer") is hereby authorized and directed to execute and deliver the documents approved herein in substantially the form on file with the City Clerk, together with such additions or changes as are approved by such Authorized Officer upon consultation with the City Attorney and the City's municipal advisor and bond counsel, including such additions or changes as are necessary or advisable to permit the timely issuance, sale and delivery of the 2017 CFD Bonds. The approval of such additions or changes shall be conclusively evidenced by the execution and delivery by an Authorized Officer of the documents herein specified.

Each Authorized Officer is authorized to determine that all or any portion of the 2017 CFD Bonds shall be refunded. In the event that only a portion of the 2017 CFD Bonds are to be refunded, each Authorized Officer is additionally authorized to execute and deliver any of the documents with such additions or changes as are approved by such Authorized Officer upon consultation with the City Attorney and the City's municipal advisor and bond counsel, as are necessary or advisable to permit the timely issuance, sale and delivery of a portion of the 2017 CFD Bonds, with the non-refunded portion remaining outstanding. Such changes may include substituting a Fiscal Agent Agreement (described herein) with a supplement to a previously executed Fiscal Agent Agreement, in such form as determined appropriate by an Authorized Officer.

Section 3. Fiscal Agent Agreements. The Council hereby approves the form of the Fiscal Agent Agreement by and between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (each, a “Fiscal Agent Agreement”) with respect to the respective 2017 CFD Bonds, in substantially the forms on file with the City Clerk. The date, manner of payment, principal amount, interest rate or rates, interest payment dates, denominations, form, registration privileges, manner of execution, place of payment, terms of redemption, costs of issuing and other terms of the 2017 CFD Bonds shall be as provided in the respective Fiscal Agent Agreement as finally executed and delivered. The terms and provisions of the Fiscal Agent Agreements, as executed, are incorporated herein by this reference as if fully set forth herein. An Authorized Officer is hereby authorized and directed to execute the Fiscal Agent Agreements on behalf of the City and the City Clerk is hereby authorized and directed to attest thereto.

Section 4. Escrow Agreement. The form of Escrow Agreement between the City and The Bank of New York Mellon Trust Company, N.A., as escrow holder, in the form presented to this Council at this meeting is hereby approved. An Authorized Officer is hereby authorized and directed to execute the Escrow Agreement on behalf of the City and the City Clerk is hereby authorized and directed to attest thereto. For the purposes hereof, the “Escrow Fund” established under the Escrow Agreement shall constitute the “refunding fund” under the Mello-Roos Act and the “designated costs of issuing the refunding bonds” under the Mello-Roos Act shall include the Costs of Issuance as defined in the Fiscal Agent Agreement. The Prior CFD Bonds will be redeemed on the dates specified in the Escrow Agreement.

Section 5. Official Statement. The Council hereby approves the preliminary Official Statement prepared in connection with the Authority Bonds and the 2017 CFD Bonds in substantially the form submitted to the Council, together with any changes therein or additions thereto deemed advisable by an Authorized Officer. The Council hereby approves and authorizes the distribution by Piper Jaffray & Co., as underwriter of the Authority Bonds, of the preliminary Official Statement to prospective purchasers of the Authority Bonds, and authorizes and directs an Authorized Officer on behalf of the City to deem the preliminary Official Statement “final” pursuant to Rule 15c2-12 under the Securities Exchange Act of 1934 (the “Rule”) prior to its distribution to prospective purchasers of the Authority Bonds. The execution of the final Official Statement, which shall include then current financial information regarding the City and the CFDs and such other changes and additions thereto deemed advisable by an Authorized Officer and such information permitted to be excluded from the preliminary version of the Official Statement pursuant to the Rule, shall be conclusive evidence of the approval of the Official Statement by the City.

Section 6. Continuing Disclosure. The Council hereby approves the form of the Continuing Disclosure Certificate with respect to the Authority Bonds and the 2017 CFD Bonds in substantially the form thereof attached to the Official Statement on file with the City Clerk. An Authorized Officer is hereby authorized and directed to complete and execute the Continuing Disclosure Certificate on behalf of the City with such changes, additions or deletions as may be approved by the Authorized Officer in consultation with the City’s bond counsel.

Section 7. Sale of Bonds; 2017 CFD Bonds Purchase Agreement. The form of the 2017 CFD Bonds Purchase Agreement, providing for the sale of the 2017 CFD Bonds by the City to the Authority presented at this meeting is hereby approved and each of the Authorized Officers is hereby authorized to execute the 2017 CFD Bonds Purchase Agreement in the form so approved, with such additions thereto and changes therein as are necessary to conform the

2017 CFD Bonds Purchase Agreement to the dates, amounts and interest rates applicable to the 2017 CFD Bonds as of the sale date or to cure any defect or ambiguity therein. Approval of such additions and changes shall be conclusively evidenced by the execution and delivery of the 2017 CFD Bonds Purchase Agreement by one or more of such officers. The City Council hereby finds that sale of the 2017 CFD Bonds to the Authority at a private sale pursuant to the 2017 CFD Bonds Purchase Agreement will result in a lower overall cost than would be achieved by selling the 2017 CFD Bonds at a public sale utilizing competitive bidding.

Section 8. Actions Authorized. All actions heretofore taken by the officers and agents of the City with respect to the establishment of the CFDs and the sale and issuance of the 2017 CFD Bonds and the Authority Bonds are hereby approved, confirmed and ratified, and the appropriate officers of the City are hereby authorized and directed to do any and all things and take any and all actions and execute any and all certificates, agreements and other documents, which they, or any of them, may deem necessary or advisable in order to consummate the lawful issuance and delivery of the 2017 CFD Bonds and the Authority Bonds in accordance with this resolution, and any certificate, agreement, and other document described in the documents herein approved. All actions to be taken by an Authorized Officer, as defined herein, may be taken by such Authorized Officer or any designee, with the same force and effect as if taken by the Authorized Officer.

Section 9. Effectiveness. This resolution shall take effect from and after its adoption. The provisions of any previous resolutions relating to issuance of the 2017 CFD Bonds and the Authority Bonds as herein described in any way inconsistent with the provisions hereof are hereby repealed.

* * * * *

I hereby certify that the foregoing Resolution was duly adopted by the City Council of the City of Roseville, California, at a regularly scheduled meeting thereof, held on the ____ day of _____, 2017, by the following vote of the City Council:

AYES: COUNCILMEMBERS
NOES: COUNCILMEMBERS

FINANCE AUTHORITY OF THE CITY OF ROSEVILLE

RESOLUTION NO. 4-17

AUTHORIZING THE ISSUANCE AND SALE OF ITS SPECIAL TAX REVENUE REFUNDING BONDS AND APPROVING RELATED AGREEMENTS AND ACTIONS

WHEREAS, the Roseville Finance Authority (the "Authority") is a joint exercise of powers authority duly organized and existing under the provisions of Articles 1 through 4 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (the "Act"), and is authorized pursuant to Article 4 of the Act (the "Bond Law") to borrow money for the purpose of financing the acquisition of bonds, notes and other obligations and for financing and refinancing public capital improvements of member entities of the Authority and other local agencies; and

WHEREAS, the City Council of the City of Roseville (the "City") has conducted proceedings under and pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code (the "Mello-Roos Act"), to form Stone Point Community Facilities District No. 1 and Stone Point Community Facilities District No. 5 (together, the "CFDs"), to authorize the levy of special taxes upon the land within the CFDs; and

WHEREAS, under the provisions of the Mello-Roos Act, on behalf of the CFDs, the City has previously issued the following bonds (collectively, the "Prior CFD Bonds") for each respective CFD:

- (i) \$11,285,000 original principal amount of Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003; and
- (ii) \$5,310,000 original principal amount of Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Bonds, Series 2006;

WHEREAS, the City has determined that it is in the best financial interests of the City to refinance all or a portion of the Prior CFD Bonds; and to that end, the City has determined to issue (i) the City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017, (ii) the City of Roseville Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Refunding Bonds, Series 2017 (together, the "2017 CFD Bonds") pursuant to the Mello-Roos Act; and

WHEREAS, the City wishes to sell the 2017 CFD Bonds to the Authority; and

WHEREAS, for the purpose of purchasing the 2017 CFD Bonds and thereby facilitating the refinancing of the Prior CFD Bonds, the Authority has determined to issue its Special Tax Revenue Refunding Bonds, Series 2017B (the "Bonds") pursuant to the Bond Law; and

WHEREAS, for the proposed refinancing, there has been filed with the Secretary of the Board of Directors of the Authority the forms of the following documents to be executed by the Authority with respect to the issuance of the Bonds, which the Board desires to approve for execution as described herein (together, the “Financing Documents”):

- (1) The Indenture of Trust (the “Indenture”), between the Authority and The Bank of New York Trust Company, N.A., as trustee (the “Trustee”);
- (2) The Preliminary Official Statement for the Bonds (the “Preliminary Official Statement”);
- (3) The 2017 CFD Bonds Purchase Agreement relating to the sale of the 2017 CFD Bonds by the City to the Authority, to be dated the date of sale, between the City and the Authority (the “2017 CFD Bonds Purchase Agreement”);
- (4) The Bond Purchase Agreement relating to the sale of the Bonds to Piper Jaffray & Co. (the “Underwriter”) to be dated the date of sale, between the Authority and the Underwriter (the “Bond Purchase Agreement”); and
- (5) The Escrow Agreement relating to the prepayment of the Prior CFD Bonds and the redemption of the Prior CFD Bonds between the City and The Bank of New York Trust Company, N.A., as escrow agent.

WHEREAS, the Authority has determined and hereby finds that the issuance of the Bonds and the acquisition of the 2017 CFD Bonds will result in significant public benefits of the type described in Section 6586 of the Bond Law;

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Roseville Finance Authority as follows:

Section 1. Recitals. Each of the above recitals is true and correct and is adopted by the Board of Directors.

Section 2. Bond Issuance. The Bonds shall be issued in an aggregate principal amount not to exceed \$11,500,000 with the number of series, the exact principal amount, the interest rates and the maturity to be determined by the sale of the Bonds as described in Section 4 below. The Bonds shall be executed on behalf of the Authority by the manual or facsimile signature of the Executive Director, President, Vice President or Treasurer or such other person or persons as either of them may designate (each, an “Authorized Officer”), and the seal of the Authority, or a facsimile thereof, may be impressed or imprinted thereon and attested with the manual or facsimile signature of the Secretary of the Authority.

Section 3. Trustee. The Bank of New York Mellon Trust Company, N.A. is hereby appointed to act as the trustee for the Bonds under the Indenture. If an Authorized Officer determines at any time while the Bonds are outstanding that another bank should be selected to act as trustee for the Bonds, in order to ensure the efficient administration of the Bonds, then such Authorized Officer, or a designee, is hereby authorized and directed to select and engage a bank or trust company meeting the requirements set forth in the Indenture to act as the trustee for the Bonds under the terms of the Indenture.

Section 4. Sale of the Bonds. The Board hereby approves the sale of the Bonds by negotiation with the Underwriter pursuant to the Bond Purchase Agreement. The Bond Purchase Agreement shall be executed in the name and on behalf of the Authority by an Authorized Officer upon submission of a proposal by the Underwriter to purchase the Bonds, which offer is consistent with the following requirements: the amount of Underwriter's discount shall be not more than 1.00% of the par amount thereof (not taking into account any original issue discount on the sale thereof), the true interest cost shall not be in excess of 5.00% and the aggregate principal amount of the Bonds shall not be in excess of \$11,500,000.

Section 5. Financing Documents. The Bonds shall be issued under the terms of the Indenture, the form of which is on file with the Secretary of the Board of Directors. The Board of Directors hereby approves the Indenture and other Financing Documents in substantially the forms on file with the Secretary, together with any changes therein or additions thereto approved by, and the execution thereof by an Authorized Officer shall be conclusive evidence of such approval of any such changes or additions. The Board of Directors hereby authorizes and directs an Authorized Officer to execute, and the Secretary to attest and affix the seal of the Authority to, the final forms of the Financing Documents for and in the name of the Authority. The Board of Directors hereby authorizes the delivery and performance of the Financing Documents.

Section 6. Official Statement. The form of the Preliminary Official Statement presented at this meeting is hereby approved and the Underwriter is hereby authorized to distribute the Preliminary Official Statement to prospective purchasers of the Bonds in the form hereby approved, together with such additions thereto and changes therein as are determined necessary by the Treasurer of the Authority, or his written designee, to make such Preliminary Official Statement final as of its date for purposes of Rule 15c2-12 of the Securities and Exchange Commission, including, but not limited to, such additions and changes as are necessary to incorporate the terms of any municipal bond insurance for the Bonds and make the information therein accurate and not misleading. Each Authorized Officer is hereby authorized to execute a final Official Statement in the form of the Preliminary Official Statement, together with such changes as are determined necessary by the Treasurer of the Authority, or his written designee, to make such Official Statement complete and accurate as of its date. The Underwriter is further authorized to distribute the final Official Statement for the Bonds and any supplement thereto to the purchasers thereof upon its execution on behalf of the Authority as described above.

Section 7. Official Actions. Each Authorized Officer and any and all other officers of the Authority are hereby authorized and directed, for and in the name and on behalf of the Authority, to do any and all things and take any and all actions, including execution and delivery of the Financing Documents, any and all assignments, certificates, requisitions, agreements, notices, consents, instruments of conveyance, warrants and other documents, which they, or any of them, may deem necessary or advisable in order to consummate the issuance and sale of the Bonds and any of the other transactions contemplated by the documents approved pursuant to this Resolution. Whenever in this Resolution any officer of the Authority is authorized to execute or countersign any document or take any action, such execution, countersigning or action may be taken on behalf of such officer by any person designated by such officer to act on his or her behalf in the case such officer shall be absent or unavailable.

Section 8. Effective Date. This Resolution shall take effect from and after the date of its passage and adoption.

Exhibit A Form of Bond

Exhibit B Provisions Relating to Bond Insurance Policy

INDENTURE OF TRUST

THIS INDENTURE OF TRUST (this "Indenture"), dated as of _____ 1, 2017, is between the ROSEVILLE FINANCE AUTHORITY, a joint powers authority organized and existing under the laws of the State of California (the "Authority") and THE BANK OF NEW YORK MELLON TRUST COMPANY, N.A., a national banking association organized and existing under the laws of the United States of America (the "Trustee").

BACKGROUND:

1. The Authority is a joint exercise of powers authority duly organized and existing under the provisions of Articles 1 through 4 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (the "Act"), and is authorized pursuant to Article 4 of the Act (the "Bond Law") to (i) purchase, with the proceeds of its bonds, bonds issued by a local agency and to hold such bonds and (ii) issue bonds to pay the cost of any public capital improvement.

2. Pursuant to the Mello-Roos Community Facilities Act of 1982, as amended (the "CFD Act") the City of Roseville (the "City") previously issued the following bonds (collectively, the "Prior CFD Bonds"):

- (i) \$11,285,000 original principal amount of Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003; and
- (ii) \$5,310,000 original principal amount of Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Bonds, Series 2006;

3. The City has determined that it is in the best financial interests of the City to refinance the Prior CFD Bonds.

4. Accordingly, the City has determined to issue (i) the City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017, and (ii) the City of Roseville Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Refunding Bonds, Series 2017 (together, the "CFD Bonds") pursuant to the CFD Act.

5. The Authority wishes to assist the City with the refinancing of the Prior CFD Bonds by purchasing the CFD Bonds.

6. For the purpose of facilitating the refinancing of the Prior CFD Bonds, the Authority has determined to issue its Special Tax Revenue Refunding Bonds, Series 2017B in the aggregate principal amount of \$_____ (the "Bonds") pursuant to and secured by this Indenture in the manner provided herein.

7. In order to provide for the authentication and delivery of the Bonds, to establish and declare the terms and conditions upon which the Bonds are to be issued and to secure the payment of the principal thereof and interest thereon, the Authority has authorized the execution and delivery of this Indenture.

8. The Authority hereby certifies that all acts and proceedings required by law necessary to make the Bonds, when executed by the Authority, authenticated and delivered by the Trustee and duly issued, the valid, binding and legal special obligations of the Authority, and

to constitute this Indenture a valid and binding agreement for the uses and purposes herein set forth in accordance with its terms, have been done and taken, and the execution and delivery of the Indenture have been in all respects duly authorized.

NOW, THEREFORE, THIS INDENTURE WITNESSETH, that in order to secure the payment of the principal of and the interest and premium (if any) on all Bonds at any time issued and Outstanding under this Indenture, according to their tenor, and to secure the performance and observance of all the covenants and conditions therein and herein set forth, and to declare the terms and conditions upon and subject to which the Bonds are to be issued and received, and in consideration of the premises and of the mutual covenants herein contained and of the purchase and acceptance of the Bonds by the Owners thereof, and for other valuable considerations, the receipt and sufficiency of which is hereby acknowledged, the Authority does hereby covenant and agree with the Trustee, for the benefit of the respective Owners from time to time of the Bonds, as follows:

ARTICLE I

DEFINITIONS; AUTHORIZATION AND PURPOSE OF BONDS; EQUAL SECURITY

Section 1.1. Definitions. Unless the context otherwise requires, the terms defined in this Section will for all purposes of this Indenture and of any Supplemental Indenture and of the Bonds and of any certificate, opinion, request or other documents herein mentioned have the meanings herein specified.

“Act” means Articles 1 through 4 (commencing with Section 6500) of Chapter 5, Division 7, Title 1 of the Government Code of the State, as it may hereafter be amended from time to time.

“Additional Bonds” has the meaning given that term in Section 5.6.

“Annual Debt Service” means, for each Bond Year, the sum of (a) the interest payable on the Outstanding Bonds of a Series in such Bond Year, and (b) the principal amount of the Outstanding Bonds of a Series scheduled to be paid in such Bond Year.

“Authority” means the Roseville Finance Authority, a joint powers authority established under Sections 6500 et seq. of the California Government Code and a Joint Exercise of Powers Agreement originally entered into as of July 1, 1989 and amended and restated as of July 1, 1997, by and between the City and the Redevelopment Agency of the City of Roseville.

“Authority Administrative Expenses” means the fees and expenses of the Trustee, including legal fees and expenses (including fees and expenses of outside counsel and the allocated costs of internal attorneys) and the out of pocket expenses incurred by the Trustee, the City and the Authority in carrying out their duties hereunder including payment of amounts payable to the United States pursuant to Sections 5.7 and 5.8.

“Authorized Officer” means (i) with respect to the Authority, Executive Director, President, Vice President or Treasurer or such other person or persons as either of them may designate or any other Person authorized by the Authority to perform an act or sign a document on behalf of the Authority for purposes of this Indenture and (ii) with respect to the City, its City Manager, Chief Financial Executive, Treasurer, Finance Director or such other person or persons as either of them may designate, or any other Person authorized by the City to perform an act or sign a document on behalf of the City for purposes of this Indenture.

“Beneficial Owners” means the actual purchasers of the Bonds whose ownership interests are recorded on the books of the DTC Participants.

“Bond Counsel” means Jones Hall, A Professional Law Corporation, and its successors; or any other attorney at law or firm of attorneys selected by the Authority, of nationally recognized standing in matters pertaining to the federal tax exemption of interest on bonds issued by states and political subdivisions, and duly admitted to practice law before the highest court of any state of the United States of America.

“Bond Law” means the Marks Roos Local Bond Pooling Act of 1985, constituting Article 4 of the Act (commencing with Section 6584), as it may hereafter be amended from time to time.

“Bond Register” means the registration books for the Bonds maintained by the Trustee in accordance with Section 2.8.

“Bonds” means the Authority’s Special Tax Revenue Refunding Bonds, Series 2017B authorized by and at any time Outstanding pursuant to the Bond Law and this Indenture, and any Additional Bonds issued hereunder.

“Bond Year” means each twelve month period extending from September 2 in one calendar year to September 1 of the succeeding calendar year, except in the case of the initial Bond Year which will be the period from the Closing Date to September 1, 2017, both dates inclusive.

“Business Day” means a day which is not a Saturday or Sunday or a day of the year on which the New York Stock Exchange or banks in New York, New York or Los Angeles, California, or where the Trust Office is located, are not required or authorized to remain closed.

“Certificate of the Authority” means a certificate in writing signed by an Authorized Officer of the Authority.

“CFD Act” means the Mello-Roos Community Facilities Act of 1982, constituting Chapter 2.5 (commencing with Section 53311), Article 1 of Division 2 of Title 5 of the Government Code of that State of California, as amended from time to time.

“CFD Bonds” means the Stone Point CFD No. 1 Bonds and the Stone Point CFD No. 5 Bonds.

“CFD Bonds Fiscal Agent” means the fiscal agent under the CFD Fiscal Agent Agreements.

“CFD Fiscal Agent Agreements” means the Stone Point CFD No. 1 CFD Fiscal Agent Agreement and the Stone Point CFD No. 5 Fiscal Agent Agreement.

“City” means the City of Roseville, a municipal corporation and charter city duly established and existing under the Constitution and laws of the State of California.

“Closing Date” means _____, 2017.

“Code” means the Internal Revenue Code of 1986 as in effect on the Closing Date or (except as otherwise referenced herein) as it may be amended to apply to obligations issued on the Closing Date, together with applicable temporary and final regulations promulgated, and applicable official guidance published, under the Code.

“Community Facilities District” or “CFD” means Stone Point CFD No. 1 or Stone Point CFD No. 5, as applicable.

“Costs of Issuance” means the costs and expenses incurred in connection with the issuance and sale of the Bonds and the CFD Bonds, and the acquisition of the CFD Bonds by the Authority, including the acceptance and initial annual fees and expenses (including legal fees and expenses) of the Trustee, legal fees and expenses, costs of printing the Bonds and the preliminary and final Official Statements, fees of financial consultants, and other fees and expenses set forth in a Request of the Authority.

“Costs of Issuance Fund” means the fund by that name established in Section 3.4.

“Dated Date” means the Closing Date.

“DTC” means The Depository Trust Company, New York, New York, and its successors and assigns.

“DTC Participants” means securities brokers and dealers, banks, trust companies, clearing corporations and other organizations maintaining accounts with DTC.

“Event of Default” means any of the events described in Section 8.1.

“Fair Market Value” means, with respect to any investment, the price at which a willing buyer would purchase such investment from a willing seller in a bona fide, arm's length transaction (determined as of the date the contract to purchase or sell the investment becomes binding) if the investment is traded on an established securities market (within the meaning of Section 1273 of the Code) and, otherwise, the term “Fair Market Value” means the acquisition price in a bona fide arm's length transaction (as described above) if (i) the investment is a certificate of deposit that is acquired in accordance with applicable regulations under the Code, (ii) the investment is an agreement with specifically negotiated withdrawal or reinvestment provisions and a specifically negotiated interest rate (for example, a guaranteed investment contract, a forward supply contract or other investment agreement) that is acquired in accordance with applicable regulations under the Code, (iii) the investment is a United States Treasury Security - State and Local Government Series that is acquired in accordance with applicable regulations of the United States Bureau of Public Debt, or (iv) any commingled investment fund in which the Authority and related parties do not own more than a ten percent (10%) beneficial interest therein if the return paid by the fund is without regard to the source of the investment.

“Federal Securities” means any of the following:

- (a) Cash (insured at all times by the Federal Deposit Insurance Corporation).
- (b) Obligations of, or obligations guaranteed as to principal and interest by, the U.S. or any agency or instrumentality thereof, when such obligations are backed by the full faith and credit of the U.S. including:
 - U.S. treasury obligations
 - All direct or fully guaranteed obligations
 - Farmers Home Administration
 - General Services Administration
 - Guaranteed Title XI financing
 - Government National Mortgage Association (GNMA)
 - State and Local Government Series

“Fiscal Year” means any twelve month period extending from July 1 in one calendar year to June 30 of the succeeding calendar year, both dates inclusive, or any other twelve month period selected and designated by the Authority as its official fiscal year period.

“Indenture” means this Indenture of Trust, as originally executed or as it may from time to time be supplemented, modified or amended by any Supplemental Indenture pursuant to the provisions.

“Independent Accountant” means any accountant or firm of such accountants appointed and paid by the Authority, and who, or each of whom –

- (a) is in fact independent and not under domination of the Authority or the City;
- (b) does not have any substantial interest, direct or indirect, in the Authority or the City; and
- (c) is not an officer or employee of the Authority, or the City, but who may be regularly retained to make annual or other audits of the books of or reports to the Authority or the City.

“Independent Financial Consultant” means any financial consultant or firm of such consultants appointed and paid by the Authority, and who, or each of whom –

- (a) is in fact independent and not under domination of the Authority or the City;
- (b) does not have any substantial interest, direct or indirect, in the Authority or the City; and
- (c) is not an officer or employee of the Authority or the City, but who may be regularly retained to make annual or other audits of the books of or reports to the Authority or the City.

“Interest Account” means the account by that name established and held by the Trustee pursuant to Section 4.2(a).

“Interest Payment Date” means March 1 and September 1 in each year, beginning March 1, 2018, and continuing thereafter so long as any Bonds remain Outstanding.

“Maximum Annual Debt Service” means, as of the date of any calculation, the largest Annual Debt Service on a Series during the current or any future Bond Year.

“Original Purchaser” means, with respect to the Bonds, Piper Jaffray & Co.

“Outstanding”, when used as of any particular time with reference to Bonds, means (subject to the provisions of Section 9.7) all Bonds theretofore executed and issued by the Authority and authenticated and delivered by the Trustee under this Indenture except –

- (a) Bonds theretofore cancelled by the Trustee or surrendered to the Trustee for cancellation pursuant to Section 2.9;
- (b) Bonds paid or deemed to have been paid within the meaning of Section 9.3 or Bonds called for redemption for which funds have been provided as described in Section 2.2(g); and

(c) Bonds in lieu of or in substitution for which other Bonds will have been executed, issued and delivered pursuant to this Indenture or any Supplemental Indenture.

“Owner” or “Bond Owner”, when used with respect to any Bond, means the person in whose name the ownership of such Bond will be registered on the Bond Register.

“Permitted Investments” means any of the following which at the time of investment are legal investments under the laws of the State of California for the moneys proposed to be invested therein, but only to the extent that the same are acquired at Fair Market Value:

(a) Federal Securities;

(b) any of the following direct or indirect obligations of the following agencies of the United States of America: (i) direct obligations of the Export-Import Bank; (ii) certificates of beneficial ownership issued by the Farmers Home Administration; (iii) participation certificates issued by the General Services Administration; (iv) mortgage-backed bonds or pass-through obligations issued and guaranteed by the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation or the Federal Housing Administration; (v) project notes issued by the United States Department of Housing and Urban Development; and (vi) public housing notes and bonds guaranteed by the United States of America;

(c) interest-bearing demand or time deposits (including certificates of deposit) or deposit accounts in federal or state chartered savings and loan associations or in federal or State of California banks (including the Trustee and its affiliates), provided that (i) the unsecured short-term obligations of such commercial bank or savings and loan association will be rated in the highest short-term rating category by any Rating Agency or (ii) such demand or time deposits will be fully insured by the Federal Deposit Insurance Corporation;

(d) commercial paper rated at the time of purchase in the highest short-term rating category by any Rating Agency, issued by corporations which are organized and operating within the United States of America, and which matures not more than 180 days following the date of investment therein;

(e) bankers acceptances, consisting of bills of exchange or time drafts drawn on and accepted by a commercial bank whose short-term obligations are rated in the highest short-term rating category by any Rating Agency or whose long-term obligations are rated A or better by each such Rating Agency, which mature not more than 270 days following the date of investment therein;

(f) obligations the interest on which is excludable from gross income pursuant to Section 103 of the Tax Code and which are either (a) rated A or better by any Rating Agency or (b) fully secured as to the payment of principal and interest by Federal Securities;

(g) obligations issued by any corporation organized and operating within the United States of America having assets in excess of Five Hundred Million

Dollars (\$500,000,000), which obligations are rated A or better by any Rating Agency;

(h) money market funds (including money market funds for which the Trustee, its affiliates or subsidiaries provide investment advisory or other management services) which invest in Federal Securities or which are rated in the highest rating category by any Rating Agency;

(i) any investment agreement, repurchase agreement or other investment instrument which represents the general unsecured obligations of a bank, investment banking firm or other financial institution whose long-term obligations are rated at the time of delivery of the investment agreement, repurchase agreement or other investment instrument A or better by any Rating Agency;

(j) shares in a California common law trust established pursuant to Title 1, Division 7, Chapter 5 of the Government Code of the State of California that invests exclusively in investments permitted by Section 53601 of Title 5, Division 2, Chapter 4 of the California Government Code, as it may be amended (California Asset Management Program); and

(k) the Local Agency Investment Fund of the State, created pursuant to Section 16429.1 of the California Government Code.

“Principal Account” means the account by that name established and held by the Trustee pursuant to Section 4.2(a).

“Prior CFD Bonds” means, collectively, the Prior Stone Point CFD No. 1 Bonds and the Prior Stone Point CFD No. 5 Bonds.

“Prior CFD Bonds Fiscal Agent” means The Bank of New York Mellon Trust Company, N.A., as trustee with respect to the Prior CFD Bonds.

“Prior Stone Point CFD No. 1 Bonds” means the \$11,285,000 original principal amount of City of Roseville Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003.

“Prior Stone Point CFD No. 5 Bonds” means the \$5,310,000 original principal amount of City of Roseville Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Bonds, Series 2006.

“Purchase Fund” means the fund by that name established and held by the Trustee pursuant to Section 3.5 of this Indenture.

“Rating Agency” means Standard & Poor’s or, in the event that Standard & Poor’s no longer maintains a rating on the Bonds, any other nationally recognized bond rating agency then maintaining a rating on the Bonds, but, in each instance, only so long as Standard & Poor’s or other nationally recognized rating agency then maintains a rating on the Bonds.

“Rebate Fund” means the fund by that name established pursuant to Section 5.8.

“Record Date” means, with respect to any Interest Payment Date, the fifteenth calendar day of the month preceding the month in which such Interest Payment Date occurs, whether or not such day is a Business Day.

“Request of the Authority” means a written request executed by an Authorized Officer of the Authority.

“Request of the City” means a written certificate or request executed by an Authorized Officer of the City.

“Representation Letter” means the representation letter dated as of the Closing Date for the Bonds among the Authority, the Trustee and DTC.

“Responsible Officer” means any officer of the Trustee assigned to administer the Trustee’s duties under this Indenture.

“Revenue Fund” means the fund by that name established and held by the Trustee pursuant to Sections 3.3 and 4.2.

“Revenues” means: (a) all amounts received from the CFD Bonds; (b) any proceeds of the Bonds originally deposited with the Trustee and all moneys deposited and held from time to time by the Trustee in the funds and accounts established hereunder with respect to the Bonds (other than the Rebate Fund and the Surplus Fund); and (c) investment income with respect to any moneys held by the Trustee in the funds and accounts established hereunder with respect to the Bonds (other than investment income on moneys held in the Rebate Fund and the Surplus Fund).

“Securities Depositories” means DTC, and, in accordance with then current guidelines of the Securities and Exchange Commission, such other securities depositories as the Authority designates in a written notice filed with the Trustee.

“Series” means a series of bonds Outstanding hereunder.

“Special Taxes” means the taxes authorized to be levied by each CFD on parcels within the CFD, which have been pledged to repay the applicable CFD Bonds pursuant to the CFD Act.

“Standard & Poor’s” and “S&P” means S&P Global Ratings, a Standard & Poor’s Financial Services LLC business, its successors and assigns.

“State” means the State of California.

“Stone Point CFD No. 1” means City of Roseville Stone Point Community Facilities District No. 1, a community facilities district formed pursuant to the CFD Act.

“Stone Point CFD No. 1 Bonds” means the City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017

“Stone Point CFD No. 1 Fiscal Agent Agreement” pursuant to which the Stone Point CFD No. 1 Bonds are issued, between the City, for and on behalf of Stone Point CFD No. 1, and the CFD Bonds Fiscal Agent.

“Stone Point CFD No. 5” means City of Roseville Stone Point Community Facilities District No. 5 (Public Facilities), a community facilities district formed pursuant to the CFD Act.

“Stone Point CFD No. 5 Bonds” means the City of Roseville Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Refunding Bonds, Series 2017

“Stone Point CFD No. 5 Fiscal Agent Agreement” pursuant to which the Stone Point CFD No. 5 Bonds are issued, between the City, for and on behalf of Stone Point CFD No. 1, and the CFD Bonds Fiscal Agent.

“Supplemental Indenture” means any indenture, agreement or other instrument hereafter duly executed by the Authority in accordance with the provisions of Article 7 of this Indenture.

“Surplus Fund” means the fund by that name established pursuant to Section 3.8.

“Trust Office” means the office of the Trustee at which at any particular time its corporate trust business with respect to this Indenture will be principally administered, which office at the date hereof is located in Los Angeles, California, or such other place as designated by the Trustee except that with respect to presentation of Bonds for payment or for registration of transfer and exchange, such term will mean the office or agency of the Trustee at which, at any particular time, its corporate trust agency business will be conducted.

“Trustee” means The Bank of New York Mellon Trust Company, N.A., and its successors and assigns, and any other corporation or association which may at any time be substituted in its place as provided in Article VI.

Section 1.2. Rules of Construction. All references in this Indenture to “Articles,” “Sections,” and other subdivisions are to the corresponding Articles, Sections or subdivisions of this Indenture; and the words “herein,” “hereof,” “hereunder,” and other words of similar import refer to this Indenture as a whole and not to any particular Article, Section or subdivision.

Section 1.3. Authorization and Purpose of Bonds. The Authority has reviewed all proceedings heretofore taken relative to the authorization of the Bonds and has found, as a result of such review, and hereby finds and determines, that all things, conditions and acts required by law to exist, happen and/or be performed precedent to and in the issuance of the Bonds do exist, have happened and have been performed in due time, form and manner as required by law, and the Authority is now authorized under the Bond Law and each and every requirement of law, to issue the Bonds in the manner and form provided in this Indenture. Accordingly, the Authority hereby authorizes the issuance of the Bonds pursuant to the Bond Law and this Indenture for the purpose of providing funds to acquire the CFD Bonds and pay Costs of Issuance for the Bonds.

Section 1.4. Equal Security. In consideration of the acceptance of the Bonds by the Owners thereof, this Indenture will be deemed to be and will constitute a contract between the Authority and the Owners from time to time of the Bonds; and the covenants and agreements herein set forth to be performed on behalf of the Authority will be for the equal and proportionate benefit, security and protection of all Owners of the Bonds without preference, priority or

distinction as to security or otherwise of any of the Bonds over other Bonds by reason of the number or date thereof or the time of sale, execution or delivery thereof, or otherwise for any cause whatsoever, except as expressly provided therein or herein.

ARTICLE II

ISSUANCE OF BONDS

Section 2.1. Terms of Bonds. The Bonds authorized to be issued by the Authority under and subject to the Bond Law and the terms of this Indenture will be dated the Closing Date and be designated as follows the "Roseville Finance Authority Special Tax Revenue Refunding Bonds, Series 2017B," which will be issued in the original aggregate principal amount of _____ million _____ thousand dollars (\$_____).

The Bonds will be issued in fully registered form without coupons in denominations of \$5,000 or any integral multiple thereof, so long as no Bond will have more than one maturity date. The Bonds will mature on September 1 in each of the years and in the amounts, and will bear interest (calculated on the basis of a 360-day year of twelve 30-day months) at the rates, as follows:

<u>Maturity Date</u> <u>(September 1)</u>	<u>Principal Amount</u>	<u>Interest Rate Per Annum</u>
--	-------------------------	--------------------------------

Interest on the Bonds will be payable on each Interest Payment Date to the person whose name appears on the Bond Register as the Owner thereof as of the Record Date immediately preceding each such Interest Payment Date, such interest to be paid by check of the Trustee mailed on such Interest Payment Date by first class mail, postage prepaid, to the Owner at the address of such Owner as it appears on the Bond Register or by wire transfer to an account in the United States of America made on such Interest Payment Date upon instructions of any Owner of \$1,000,000 or more in aggregate principal amount of Bonds of a Series provided to the Trustee in writing at least five (5) Business Days before the Record Date

for such Interest Payment Date. Principal of and premium (if any) on any Bond will be paid upon presentation and surrender thereof, at maturity or the prior redemption thereof, at the Trust Office of the Trustee. The principal of and interest and premium (if any) on the Bonds will be payable in lawful money of the United States of America.

Each Bond will bear interest from the Interest Payment Date next preceding the date of authentication thereof, unless (a) it is authenticated after a Record Date and on or before the following Interest Payment Date, in which event it will bear interest from such Interest Payment Date; or (b) it is authenticated on or before _____, 2017, in which event it will bear interest from the Closing Date; provided, however, that if, as of the date of authentication of any Bond, interest thereon is in default, such Bond will bear interest from the Interest Payment Date to which interest has previously been paid or made available for payment thereon, or from the Closing Date if no interest has been paid or made available for payment.

Section 2.2. Redemption of Bonds.

(a) Optional Redemption. The Bonds maturing on or before September 1, _____, are not subject to optional redemption prior to maturity. The Bonds maturing on and after September 1, _____, may be redeemed at the option of the Authority, from any source of available funds, prior to maturity on any date on or after September 1, _____, as a whole, or in part from maturities corresponding proportionately to the maturities of the CFD Bonds simultaneously redeemed, if any redemption of CFD Bonds is being accomplished in conjunction with such optional redemption, and otherwise from such maturities as are selected by the Authority, and by lot within a maturity, at a redemption price equal to principal amount of the Bonds to be redeemed, plus accrued interest thereon to the date of redemption, without premium.

The Authority will deliver to the Trustee a certificate of an Independent Financial Consultant verifying that, following such optional prepayment of the CFD Bonds and redemption of the Bonds, the principal and interest generated from the remaining CFD Bonds is adequate to make the timely payment of principal and interest due on the Bonds that will remain Outstanding hereunder following such optional redemption.

(b) Mandatory Special Redemption. The Bonds are subject to mandatory special redemption on any Interest Payment Date from proceeds of early redemption of CFD Bonds from prepayment of Special Taxes, in whole or in part, from maturities corresponding proportionately to the maturities of the CFD Bonds simultaneously redeemed, at the principal amount thereof, plus a premium expressed below as a percentage of the principal amount so redeemed, plus accrued interest to the date of redemption thereof:

<u>Redemption Date</u>	<u>Redemption Premium</u>
On or after _____, through _____	3%
September 1, _____ and March 1, _____	2
September 1, _____ and March 1, _____	1
September 1, _____ and thereafter	0

The Authority will deliver to the Trustee a certificate of an Independent Financial Consultant verifying that, following such mandatory special prepayment of the CFD Bonds and redemption of the Bonds, the principal and interest generated from the remaining CFD Bonds is adequate to make the timely payment of principal and interest due on the Bonds that will remain Outstanding hereunder following such redemption.

(c) Mandatory Sinking Fund Redemption of Bonds. The Bonds maturing on September 1, _____, are subject to redemption prior to their stated maturity, in part, by lot from amounts deposited into the Principal Account in the following amounts and on the following dates, at the principal amount thereof on the date fixed for redemption, without premium, but which amounts will be proportionately reduced by the principal amount of all Bonds optionally redeemed:

Mandatory Redemption Dates (September 1)	Principal Amount
---	---------------------

* Maturity

(d) Notice of Redemption. Written notice of any such redemption will be given by the Authority to the Trustee at least forty-five (45) days prior to the date of redemption (unless a shorter time will be acceptable to the Trustee in its sole discretion for its convenience). The Trustee on behalf, and at the expense, of the Authority will mail (by first class mail, postage prepaid) notice of any redemption to the respective Owners of any Bonds designated for redemption at their respective addresses appearing on the Bond Register, and to the Securities Depositories and to the Municipal Securities Rulemaking Board, at least thirty (30) but not more than sixty (60) days prior to the date fixed for redemption. Neither failure to receive any such notice so mailed nor any defect therein will affect the validity of the proceedings for the redemption of such Bonds or the cessation of the accrual of interest thereon. Such notice will state the date of the notice, the redemption date, the redemption place and the redemption price and will designate the CUSIP numbers, the Bond numbers and the maturity or maturities (in the event of redemption of all of the Bonds of such maturity or maturities in whole) of the Bonds to be redeemed, and will require that such Bonds be then surrendered at the Trust Office of the Trustee for redemption at the redemption price, giving notice also that further interest on such Bonds will not accrue from and after the redemption date. Any such notice of optional redemption may specify that redemption on the specified date will be subject to receipt by the Authority of moneys sufficient to cause such redemption (and will specify the proposed source of such moneys), and neither the Authority nor the Trustee will have any liability to the Owners or any other party as a result of its failure to redeem the Bonds as a result of insufficient moneys.

The Authority has the right to rescind any redemption by written notice to the Trustee on or prior to the date fixed for redemption. Any notice of optional redemption will be cancelled and annulled if for any reason funds are not available on the date fixed for redemption for the payment in full of the Bonds then called for redemption, and such cancellation will not constitute an Event of Default hereunder. The Trustee will mail notice of rescission of redemption in the same manner notice of redemption was originally provided.

In addition to the foregoing notice, further notice will be given by the Trustee in said form by first class mail to any Bondowner whose Bond has been called for redemption but who has failed to submit his Bond for payment by the date which is sixty days after the redemption date, but no defect in said further notice nor any failure to give or receive all or any portion of such further notice will in any manner defeat the effectiveness of a call for redemption.

Upon the payment by the Trustee from the applicable account in the Revenue Fund of the redemption price of the Bond being redeemed, each check or other transfer of funds issued

for such purpose will, to the extent practicable, bear the CUSIP number identifying, by issue and maturity, the Bonds being redeemed with the proceeds of such check or other transfer.

(e) Selection of Bonds of a Maturity for Redemption. Unless otherwise provided hereunder, whenever provision is made in this Indenture or in the applicable Supplemental Indenture for the redemption of fewer than all of the Bonds of a maturity of a Series of the Bonds, the Trustee will select the Bonds to be redeemed from all Bonds of such maturity not previously called for redemption, by lot in any manner which the Trustee in its sole discretion will deem appropriate and fair. For purposes of such selection, all Bonds will be deemed to be comprised of separate \$5,000 authorized denominations, and such separate authorized denominations will be treated as separate Bonds that may be separately redeemed.

(f) Partial Redemption of Bonds. In the event only a portion of any Bond is called for redemption, then upon surrender of such Bond the Authority will execute and the Trustee will authenticate and deliver to the Owner thereof, at the expense of the Authority, a new Bond or Bonds of the same maturity date, of authorized denominations in aggregate principal amount equal to the unredeemed portion of the Bond to be redeemed.

(g) Effect of Redemption. From and after the date fixed for redemption, if funds available for the payment of the principal of and interest (and premium, if any) on the Bonds so called for redemption will have been duly provided, such Bonds so called will cease to be entitled to any benefit under this Indenture other than the right to receive payment of the redemption price, and no interest will accrue thereon from and after the redemption date specified in such notice. All Bonds redeemed pursuant to this Section 2.2 will be cancelled and destroyed.

Section 2.3. Form of Bonds. The Bonds, the form of Trustee's certificate of authentication, and the form of assignment to appear thereon, will be substantially in the form set forth in Exhibit A attached hereto and by this reference incorporated herein, with necessary or appropriate variations, omissions and insertions, as permitted or required by this Indenture.

Section 2.4. Execution of Bonds. All the Bonds will, from time to time, be executed on behalf of the Authority by, or bear the manual or facsimile signature of, one of the members of the Board of Directors of the Authority and be attested by the manual or facsimile signature of the Secretary or by any deputy thereof. If any of the directors or officers who will have signed or sealed any of the Bonds or whose facsimile signature will be upon the Bonds will cease to be such officer of the Authority before the Bond so signed and sealed will have been actually authenticated by the Trustee or delivered, such Bonds nevertheless may be authenticated, issued and delivered with the same force and effect as though the person or persons who signed or sealed such Bonds or whose facsimile signature will be upon the Bonds had not ceased to be such officer of the Authority; and any such Bond may be signed and sealed on behalf of the Authority by those persons who, at the actual date of the execution of such Bonds, will be the proper officers of the Authority, although at the date of such Bond any such person will not have been such officer of the Authority.

Only such of the Bonds as will bear thereon a certificate of authentication in substantially the form set forth in Exhibit A, manually executed by the Trustee, will be valid or obligatory for any purpose or entitled to the benefits of this Indenture, and such certificate of the Trustee will be conclusive evidence that the Bonds so authenticated have been duly authenticated and delivered hereunder and are entitled to the benefits of this Indenture.

Section 2.5. Transfer of Bonds. Subject to Section 2.10, any Bond may in accordance with its terms, be transferred, upon the Bond Register, by the person in whose name it is registered, in person or by his duly authorized attorney, upon surrender of such Bond for cancellation, accompanied by delivery of a written instrument of transfer in a form approved by the Trustee, duly executed. Whenever any Bond will be surrendered for transfer, the Authority will execute and the Trustee will thereupon authenticate and deliver to the transferee a new Bond or Bonds of like Series, tenor, maturity and aggregate principal amount. No Bonds selected for redemption will be subject to transfer pursuant to this Section nor will any Bond be subject to transfer during the fifteen days prior to the selection of Bonds for redemption.

The cost of printing any Bonds and any services rendered or any expenses incurred by the Trustee in connection with any transfer or exchange will be paid by the Authority. However, the Owners of the Bonds will be required to pay any tax or other governmental charge required to be paid for any exchange or registration of transfer and the Owners of the Bonds will be required to pay the reasonable fees and expenses of the Trustee and Authority in connection with the replacement of any mutilated, lost or stolen Bonds.

Section 2.6. Exchange of Bonds. Subject to Section 2.10, Bonds may be exchanged at the Trust Office of the Trustee for Bonds of the same Series, tenor and maturity and of other authorized denominations. No Bonds selected for redemption will be subject to exchange pursuant to this Section, nor will any Bond be subject to exchange during the fifteen days prior to the selection of Bonds for redemption. The Owners of the Bonds will be required to pay any tax or other governmental charge required to be paid for any exchange and the Owners of the Bonds will be required to pay the reasonable fees and expenses of the Trustee and Authority in connection with the exchange of any Bonds.

Section 2.7. Temporary Bonds. The Bonds may be issued initially in temporary form exchangeable for definitive Bonds when ready for delivery. The temporary Bonds may be printed, lithographed or typewritten, will be of such denominations as may be determined by the Authority and may contain such reference to any of the provisions of this Indenture as may be appropriate. Every temporary Bond will be executed by the Authority and be registered and authenticated by the Trustee upon the same conditions and in substantially the same manner as the definitive Bonds. If the Authority issues temporary Bonds, it will execute and furnish definitive Bonds without delay, and thereupon the temporary Bonds may be surrendered for cancellation, in exchange therefor at the Trust Office of the Trustee, and the Trustee will authenticate and deliver in exchange for such temporary Bonds an equal aggregate principal amount of definitive Bonds of authorized denominations. Until so exchanged, the temporary Bonds will be entitled to the same benefits under this Indenture as definitive Bonds authenticated and delivered hereunder.

Section 2.8. Bond Register. The Trustee will keep or cause to be kept at its Trust Office sufficient records for the registration and transfer of the Bonds, which will be the Bond Register and will at all times during regular business hours be open to inspection by the Authority upon reasonable notice; and, upon presentation for such purpose, the Trustee will, under such reasonable regulations as it may prescribe, register or transfer or cause to be registered or transferred, on said records, Bonds as hereinbefore provided.

Section 2.9. Bonds Mutilated, Lost, Destroyed or Stolen. If any Bond will become mutilated, the Authority, at the expense of the Owner of said Bond, will execute, and the Trustee will thereupon authenticate and deliver, a new Bond of like Series, tenor and authorized denomination in exchange and substitution for the Bond so mutilated, but only upon surrender

to the Trustee of the Bond so mutilated. Every mutilated Bond so surrendered to the Trustee will be cancelled by it and destroyed in accordance with the retention policy of the Trustee then in effect. If any Bond issued hereunder will be lost, destroyed or stolen, evidence of such loss, destruction or theft may be submitted to the Trustee and, if such evidence be satisfactory to it and indemnity satisfactory to it will be given, at the expense of the Bond Owner, the Authority will execute, and the Trustee will thereupon authenticate and deliver, a new Bond of like series and tenor in lieu of and in substitution for the Bond so lost, destroyed or stolen (or if any such Bond will have matured or will have been called for redemption, instead of issuing a substitute Bond the Trustee may pay the same without surrender thereof upon receipt of indemnity satisfactory to the Trustee). The Trustee may require payment of a reasonable fee for each new Bond issued under this Section and of the expenses which may be incurred by the Authority and the Trustee. Any Bond issued under the provisions of this Section in lieu of any Bond alleged to be lost, destroyed or stolen will constitute an original contractual obligation on the part of the Authority whether or not the Bond alleged to be lost, destroyed or stolen be at any time enforceable by anyone, and will be equally and proportionately entitled to the benefits of this Indenture with all other Bonds secured by this Indenture.

Section 2.10. Book-Entry System.

(a) All Bonds will be initially issued in the form of a separate single certificated fully registered Bond for each maturity date of the Bonds. Upon initial issuance, the ownership of each Bond will be registered in the Bond Register in the name of Cede & Co., as nominee of DTC. Except as provided in Section 2.10(d), all Outstanding Bonds will be registered in the Bond Register in the name of Cede & Co., as nominee of DTC.

(b) With respect to Bonds registered in the Bond Register in the name of Cede & Co., as nominee of DTC, the Authority and the Trustee will have no responsibility or obligation with respect to (i) the accuracy of the records of DTC, Cede & Co. or any DTC Participant with respect to any ownership interest in the Bonds, (ii) the delivery to any DTC Participant or any other person, other than an Owner, as shown in the Bond Register, of any notice with respect to the Bonds, including any notice of redemption, or (iii) the payment to any DTC Participant or any other person, other than an Owner, as shown in the Bond Register, of any amount with respect to principal of, premium, if any, or interest on the Bonds. The City and the Trustee may treat and consider the person in whose name each Bond is registered in the Bond Register as the holder and absolute owner of such Bond for the purpose of payment of principal, premium, if any, and interest on such Bond, for the purpose of giving notices of redemption and other matters with respect to such Bond, for the purpose of registering transfers with respect to such Bond, and for all other purposes whatsoever. The Trustee will pay all principal of, premium, if any, and interest on the Bonds only to or upon the order of the respective Owners, as shown in the Bond Register, as provided in Section 2.8, or their respective attorneys duly authorized in writing, and all such payments will be valid and effective to fully satisfy and discharge the Authority's obligations with respect to payment of principal of, premium, if any, and interest on the Bonds to the extent of the sum or sums so paid. No person other than an Owner, as shown in the Bond Register, will receive a certificated Bond evidencing the obligation of the Authority to make payments of principal, premium, if any, and interest pursuant to this Indenture. Upon delivery by DTC to the Trustee of written notice to the effect that DTC has determined to substitute a new nominee in place of Cede & Co., and subject to the provisions herein with respect to record dates, the word "Cede & Co." in this Indenture will refer to such new nominee of DTC.

(c) The delivery of the Representation Letter and the Trustee will not in any way limit the provisions of Section 2.10(b) or in any other way impose upon the Authority or the Trustee any obligation whatsoever with respect to persons having interests in the Bonds other than the Owners, as shown on the Bond Register. The Trustee will take all action necessary for all representations in the Representation Letter with respect to the Trustee to be complied with at all times.

(d) DTC may determine to discontinue providing its services with respect to the Bonds at any time by giving written notice to the Authority and the Trustee and discharging its responsibilities with respect thereto under applicable law.

(i) The Authority, in its sole discretion and without the consent of any other person, may terminate the services of DTC with respect to the Bonds if the Authority determines that:

(A) DTC is unable to discharge its responsibilities with respect to the Bonds, or

(B) a continuation of the requirement that all Outstanding Bonds be registered in the Bond Register in the name of Cede & Co., or any other nominee of DTC, is not in the best interest of the beneficial owners of such Bonds.

(ii) Upon the termination of the services of DTC with respect to the Bonds pursuant to subsection 2.10(d)(i)(B), or upon the discontinuance or termination of the services of DTC with respect to the Bonds pursuant to subsection 2.10(d)(i)(A) after which no substitute securities depository willing to undertake the functions of DTC hereunder can be found which, in the opinion of the Authority, is willing and able to undertake such functions upon reasonable and customary terms, the Authority is obligated to deliver Bond certificates, as described in this Indenture and the Bonds will no longer be restricted to being registered in the Bond Register in the name of Cede & Co. as nominee of DTC, but may be registered in whatever name or names DTC will designate to the Trustee in writing, in accordance with the provisions of this Indenture.

(e) Notwithstanding any other provisions of this Indenture to the contrary, as long as any Bond is registered in the name of Cede & Co., as nominee of DTC, all payments with respect to principal or, premium, if any, and interest on such Bond and all notices with respect to such Bond will be made and given, respectively, in the manner provided in the Representation Letter.

Section 2.11. Validity of Bonds. The validity of the authorization and issuance of the Bonds will not be affected in any way by any proceedings taken by the Authority or the City with respect to the application of the proceeds of the Bonds, and the recital contained in the Bonds that the same are issued pursuant to the Bond Law will be conclusive evidence of their validity and of the regularity of their issuance.

ARTICLE III

DEPOSIT AND APPLICATION OF PROCEEDS

Section 3.1. Issuance of Bonds. Upon the execution and delivery of this Indenture, the Authority will execute and deliver the Bonds in the principal amounts set forth in Section 2.1 to the Trustee for authentication and delivery to the Original Purchaser thereof upon the Request of the Authority.

Section 3.2. Application of Proceeds of Sale of Bonds. On the Closing Date, the Trustee will apply moneys received by it as set forth below (the Trustee may, in its discretion, establish one or more temporary funds or accounts to account for or facilitate the following transfers and deposits).

The Trustee will apply the proceeds of the sale of the Bonds received or deemed to have been received from the Original Purchaser on the Closing Date, being an amount equal to the purchase price of the Bonds of \$_____ (being 100% of the aggregate principal amount thereof (\$_____) plus a net original issue premium of \$_____ and less Original Purchaser's discount of \$_____), as follows:

(i) \$_____ of the proceeds of the Bonds will be deposited in the Purchase Fund for the acquisition of the Stone Point CFD No. 1 Bonds in accordance with Section 3.5 below. The purchase price for the Stone Point CFD No. 1 Bonds being calculated as follows: the par amount of the Stone Point CFD No. 1 Bonds of \$_____ plus the Stone Point CFD No. 1 Bonds allocable share of premium of \$_____, less the allocable share of Original Purchaser's discount of \$_____, less the allocable share of Costs of Issuance of \$_____.

(ii) \$_____ of the proceeds of the Bonds will be deposited in the Purchase Fund for the acquisition of the Stone Point CFD No. 5 Bonds in accordance with Section 3.5 below. The purchase price for the Stone Point CFD No. 5 Bonds being calculated as follows: the par amount of the Stone Point CFD No. 5 Bonds of \$_____ plus the Stone Point CFD No. 5 Bonds allocable share of premium of \$_____, less the allocable share of Original Purchaser's discount of \$_____, less the allocable share of Costs of Issuance of \$_____.

(iii) \$_____ designated for Costs of Issuance will be deposited into the Costs of Issuance Fund in accordance with Section 3.4 below.

Section 3.3. Revenue Fund. The Trustee will establish and maintain a separate fund to be known as the "Revenue Fund" and the following separate accounts therein: Interest Account and Principal Account. Except as otherwise provided herein, the Trustee will deposit all Revenues received after the Closing Date to the Revenue Fund and will apply amounts in the Revenue Fund as described in Section 4.2 below.

Section 3.4. Costs of Issuance Fund. The Trustee will establish and maintain a fund known as the "Costs of Issuance Fund" into which will be deposited the amounts set forth in Section 3.2 above. The moneys in the Costs of Issuance Fund will be used to pay Costs of Issuance from time to time upon receipt by the Trustee of a Request of the Authority. On the date which is one hundred twenty (120) days following the Closing Date, or upon the earlier receipt by the Trustee of a Request of the Authority stating that all Costs of Issuance have been

paid, the Trustee will transfer all remaining amounts in the Costs of Issuance Fund to the Revenue Fund. Upon such transfer, the Costs of Issuance Fund will be closed and the Trustee will no longer be obligated to make payments for Costs of Issuance. The Authority may at any time file a Request of the Authority requesting that the Trustee retain a specified amount in the Costs of Issuance Fund and transfer to the Revenue Fund all remaining amounts, and upon receipt of such request by the Trustee, the Trustee will comply with such request.

Section 3.5. Purchase Fund. The Trustee will establish and maintain a separate fund to be known as the “Purchase Fund” into which will be deposited a portion of the proceeds of sale of the Bonds pursuant to Section 3.2. The Trustee will use the proceeds of the Bonds to purchase CFD Bonds on the Closing Date; provided, however, that such CFD Bonds may be purchased only if the Trustee has received a certificate of the Original Purchaser of the Bonds or an Independent Financial Consultant stating that the Revenues to be available to the Trustee, assuming timely payment of the CFD Bonds, will be sufficient to permit the timely payment of the principal of and interest on all Outstanding Bonds.

Section 3.6. Reserved.

Section 3.7. Rebate Fund. The Trustee will establish and maintain a separate fund to be known as the “Rebate Fund”. The Rebate Fund will be administered as described in Section 5.8.

Section 3.8. Surplus Fund. The Trustee will establish and maintain a separate fund to be known as the “Surplus Fund” which will be administered as described in Section 4.4.

Section 3.9. Administrative Expense Fund. The Trustee will establish and maintain a separate fund to be held by the Trustee and known as the “Administrative Expense Fund” into which will be deposited amounts transferred from the Surplus Fund pursuant to Section 4.4. The moneys in the Administrative Expense Fund will be used to pay Authority Administrative Expenses upon receipt of a Request of the Authority for the payment thereof.

ARTICLE IV

REVENUES; FLOW OF FUNDS

Section 4.1. Pledge of Revenues; Assignment of Rights. Subject to the provisions of Sections 6.3 and 9.3, the Bonds will be secured by a first lien on and pledge (which will be effected in the manner and to the extent hereinafter provided) of all of the Revenues. The Bonds will be equally secured by a pledge, charge and lien upon the Revenues without priority for any Bond over any other Bond; and the payment of the interest on and principal of the Bonds and any premiums upon the redemption of any Bonds will be and are secured by an exclusive pledge, charge and lien upon the Revenues. So long as any of the Bonds are Outstanding, the Revenues will not be used for any purpose except as is expressly permitted by this Indenture.

The Authority hereby transfers in trust, grants a security interest in and assigns to the Trustee, for the benefit of the Owners from time to time of the Bonds all of the Revenues and all of the right, title and interest of the Authority in the CFD Bonds, subject to the terms of this Indenture. The Trustee will be entitled to and will collect and receive all of the Revenues, and any Revenues collected or received by the Authority will be deemed to be held, and to have been collected or received, by the Authority as the agent of the Trustee and will forthwith be paid by the Authority to the Trustee. Subject to the provisions of Section 8.2, the Trustee also will be entitled to and will take all steps, actions and proceedings reasonably necessary in its judgment to enforce, either jointly with the Authority or separately, all of the rights of the Authority and all of the obligations of the City under the CFD Bonds.

Upon the deposit with the Trustee of moneys sufficient to pay all principal of, premium, if any, and interest on the Bonds and upon satisfaction of all claims against the Authority hereunder with respect to the Bonds, including all fees, charges and expenses of the Trustee and the Authority which are properly payable hereunder, or upon the making of adequate provisions for the payment of such amounts as permitted hereby, all moneys remaining in all funds and accounts pertaining to such Bonds, (except any amounts on deposit in the Rebate Fund and the Surplus Fund and except moneys necessary to pay principal of, premium, if any, and interest on such series of Bonds, which moneys will be held by the Trustee pursuant to Section 9.3), will on an annual basis no longer be considered Revenues and are not pledged to repay the Bonds. Such amounts will be transferred to the fiscal agent for the then outstanding CFD Bonds. In the event that the CFD Bonds have been paid or defeased, then any such amounts will be paid by the Trustee to the Authority to be used by the Authority for any lawful purpose.

Section 4.2. Receipt, Deposit and Application of Revenues; Revenue Fund.

(a) All Revenues described in clause (a) of the definition thereof in Section 1.1 will be promptly deposited by the Trustee upon receipt thereof in the Revenue Fund.

On each Interest Payment Date and date for redemption of the Bonds, the Trustee will transfer from the Revenue Fund, and deposit into the following respective accounts for the Bonds, the following amounts in the following order of priority, the requirements of each such account (including the making up of any deficiencies in any such account resulting from lack of Revenues sufficient to make any earlier required deposit) at the time of deposit to be satisfied before any transfer is made to any account subsequent in priority:

(i) Interest Account. On or before each Interest Payment Date and redemption date, the Trustee will deposit in the Interest Account an amount required to cause the aggregate amount on deposit in the Interest Account to equal the amount of interest becoming due and payable on such Interest Payment Date on all Outstanding Bonds or to be paid on the Bonds being redeemed on such date. No deposit need be made into the Interest Account if the amount contained therein is at least equal to the interest becoming due and payable upon all Outstanding Bonds on the next succeeding Interest Payment Date or redemption date, as applicable. All moneys in the Interest Account will be used and withdrawn by the Trustee solely for the purpose of paying interest on the Bonds as it will become due and payable (including accrued interest on any Bonds redeemed prior to maturity). In the event that the amounts on deposit in the Interest Account on any Interest Payment Date or redemption date are insufficient for any reason to pay the aggregate amount of interest then coming due and payable on the Outstanding Bonds, the Trustee will apply such amounts to the payment of interest on each of the Outstanding Bonds on a pro rata basis.

(ii) Principal Account. On or before each Interest Payment Date and redemption date on which the principal of the Bonds will be payable, the Trustee will deposit in the Principal Account an amount required to cause the aggregate amount on deposit in the Principal Account to equal the principal amount of, and premium (if any) on, the Bonds coming due and payable on such Interest Payment Date, or required to be redeemed on such date pursuant to Section 2.2; provided, however, that no amount will be deposited to effect a redemption pursuant to Section 2.2(a) or 2.2(b) unless the Trustee has first received a certificate of an Independent Accountant certifying that such deposit to effect an optional redemption of the Bonds will not impair the ability of the Authority to make timely payment of the principal of and interest on the Bonds, assuming for such purposes that the City continues to make timely payments on all CFD Bonds not then in default. All moneys in the Principal Account will be used and withdrawn by the Trustee solely for the purpose of (i) paying the principal of the Bonds at the maturity thereof or (ii) paying the principal of and premium (if any) on any Bonds upon the redemption thereof pursuant to Section 2.2.

(b) If on any Interest Payment Date or date for redemption the amount on deposit in the Revenue Fund is inadequate to make the transfers described in subsection (a) above as a result of a payment default on an issue of CFD Bonds, the Trustee will notify the City of the amount needed to make the required deposits under subsection (a) above. In the event that within 5 Business Days of delivering such notice the Trustee receives additional payments from the City to cure such shortfall, the Trustee will deposit such amounts to the account designated in writing by the City.

(c) On each Interest Payment Date after making the transfers required under subsections (a) and (b) above, upon receipt of a Request of the Authority to do so, the Trustee will transfer from the Revenue Fund to the Rebate Fund for deposit therein the amounts specified in such Request.

(d) On September 2 of each year, after making the deposits required under subsections (a), (b) and (c) above, the Trustee will transfer all amounts remaining on deposit in the Revenue Fund to the Surplus Fund, or, to the extent specified in a Request of the Authority, to the Administrative Expense Fund.

Section 4.3. Reserved.

Section 4.4. Surplus Fund.

(a) Any amounts transferred to the Surplus Fund pursuant to Section 4.2 will no longer be considered Revenues and are not pledged to repay the Bonds.

(b) So long as CFD Bonds are outstanding, on September 3 of each year, after setting aside any amount specified in a Request of the Authority to be transferred to the Administrative Expense Fund for payment of Authority Administrative Expenses or to the Revenue Fund for payment of the Bonds, any moneys remaining in the Surplus Fund will be transferred to the City for any lawful purpose.

Section 4.5. Investments. All moneys in any of the funds or accounts established with the Trustee pursuant to this Indenture will be invested by the Trustee solely in Permitted Investments, as directed pursuant to the Request of the Authority filed with the Trustee at least two (2) Business Days in advance of the making of such investments. The Trustee will be entitled to conclusively rely on any such Request of the Authority and will be fully protected in relying thereon. In the absence of any such Request of the Authority the Trustee will invest any such moneys in Permitted Investments described in clause (h) of the definition thereof provided, however, that any such investment will be made by the Trustee only if, prior to the date on which such investment is to be made, the Trustee will have received a Request of the Authority specifying a specific money market fund and, if no such Request of the Authority is so received, the Trustee will hold such moneys uninvested. The Trustee will be entitled to rely upon any investment directions from the Authority as conclusive certification to the Trustee that the investments described therein are so authorized under the laws of the State of California and qualify as Permitted Investments. Permitted Investments purchased as an investment of moneys in any fund or account established pursuant to this Indenture will be deemed to be part of such fund or account.

All interest or gain derived from the investment of amounts in any of the funds or accounts established hereunder will be deposited in the fund or account from which such investment was made.

For purposes of acquiring any investments hereunder, the Trustee may commingle moneys held by it in any of the funds and accounts held by it hereunder. The Trustee and its affiliates may act as advisor, sponsor, principal or agent in the acquisition or disposition of any investment and may impose its customary charges therefor. The Trustee and its affiliates may make any and all investments permitted herein through its own investment department. The Trustee will incur no liability for losses arising from any investments made pursuant to this Section 4.5.

The Authority acknowledges that, to the extent regulations of the Comptroller of the Currency or other applicable regulatory entity grant the Authority the right to receive brokerage confirmations of security transactions as they occur, the Authority specifically waives receipt of such confirmations to the extent permitted by law. The Trustee will furnish the Authority periodic cash transaction statements which include detail for all investment transactions made by the Trustee hereunder.

Section 4.6. Valuation and Disposition of Investments.

(a) Except as otherwise provided in subsection (b) of this Section, the Authority covenants that all investments of amounts deposited in any fund or account created by or pursuant to this Indenture, or otherwise containing gross proceeds of the Bonds (within the meaning of section 148 of the Code) will be acquired, disposed of, and valued by the Authority (as of the date that valuation is required by this Indenture or the Code) at Fair Market Value.

(b) Investments in funds or accounts (or portions thereof) that are subject to a yield restriction under applicable provisions of the Code will be valued by the Authority at their present value (within the meaning of section 148 of the Code).

ARTICLE V

COVENANTS OF THE AUTHORITY

Section 5.1. Punctual Payment. The Authority will punctually pay or cause to be paid the principal and interest and premium (if any) to become due in respect of all the Bonds, in strict conformity with the terms of the Bonds and of this Indenture, according to the true intent and meaning thereof, but only out of Revenues and other assets pledged for such payment as provided in this Indenture.

Section 5.2. Extension of Payment of Bonds. The Authority will not directly or indirectly extend or assent to the extension of the maturity of any of the Bonds or the time of payment of any claims for interest by the purchase of such Bonds or by any other arrangement, and in case the maturity of any of the Bonds or the time of payment of any such claims for interest will be extended, such Bonds or claims for interest will not be entitled, in case of any default hereunder, to the benefits of this Indenture, except subject to the prior payment in full of the principal of all of the Bonds then Outstanding and of all claims for interest thereon which will have been so extended. Nothing in this Section will be deemed to limit the right of the Authority to issue Bonds for the purpose of refunding any Outstanding Bonds, and such issuance will not be deemed to constitute an extension of maturity of the Bonds.

Section 5.3. Against Encumbrances. The Authority will not create, or permit the creation of, any pledge, lien, charge or other encumbrance upon the Revenues and other assets pledged or assigned under this Indenture while any of the Bonds are Outstanding, except the pledge and assignment created by this Indenture and except as otherwise permitted by Section 5.6 of this Indenture. Subject to this limitation, the Authority expressly reserves the right to enter into one or more other indentures for any of its corporate purposes, including other programs under the Bond Law, and reserves the right to issue other obligations for such purposes.

Section 5.4. Power to Issue Bonds and Make Pledge and Assignment. The Authority is duly authorized pursuant to law to issue the Bonds and to enter into this Indenture and to pledge and assign the Revenues, the CFD Bonds and other assets purported to be pledged and assigned, respectively, under this Indenture. The Bonds and the provisions of this Indenture are and will be the legal, valid and binding limited, special obligations of the Authority in accordance with their terms, and the Authority and the Trustee will at all times, subject to the provisions of Article VI and to the extent permitted by law, defend, preserve and protect said pledge and assignment of the Revenues, the CFD Bonds and other assets and all the rights of the Bond Owners under this Indenture against all claims and demands of all persons whomsoever.

Section 5.5. Accounting Records and Financial Statements. The Trustee will at all times keep, or cause to be kept, proper books of record and account, prepared in accordance with corporate trust industry standards in which complete and accurate entries will be made of transactions made by it relating to the proceeds of Bonds, the Revenues, the CFD Bonds and all funds and accounts established pursuant to this Indenture. Such books of record and account will be available for inspection by the Authority and the City upon reasonable prior notice during regular business hours and under reasonable circumstances, in each case as agreed to by the Trustee.

Not later than 45 days following each Interest Payment Date, the Trustee will prepare and file with the Authority a report setting forth: (i) amounts withdrawn from and deposited into each fund and account maintained by the Trustee under this Indenture; (ii) the balance on

deposit in each fund and account as of the date for which such report is prepared; and (iii) a brief description of all obligations held as investments in each fund and account. Copies of such reports may be mailed to any Owner upon the Owner's written request to the Trustee at the expense of such Owner at a cost not to exceed the Trustee's actual costs of duplication and mailing.

Section 5.6. Conditions to Issuance of Additional Bonds. Except as set forth in this Section 5.6, the Authority covenants that no additional bonds, notes or other indebtedness will be issued or incurred which are payable out of Revenues in whole or in part.

The Authority may issue Additional Bonds secured on a parity with the Bonds ("Additional Bonds"), in such principal amount as will be determined by the Authority, pursuant to a Supplemental Indenture adopted or entered into by the Authority. Such Additional Bonds may be issued only to refund all or a portion of the Bonds. Issuance of Additional Bonds is subject to the following conditions:

(a) The Supplemental Indenture providing for the issuance of such Additional Bonds will provide that interest thereon will be payable on March 1 and September 1, and principal thereof will be payable on September 1 in any year in which principal is payable.

(b) The Supplemental Indenture providing for the issuance of such Additional Bonds may provide for the establishment of separate funds and accounts.

(c) No Event of Default will have occurred and be continuing with respect to the Bonds or any of the CFD Bonds.

Section 5.7. Tax Covenants.

(a) Private Activity Bond Limitation. The Authority will assure that the proceeds of the Bonds are not used so as to cause the Bonds to satisfy the private business tests of Section 141(b) of the Code or the private loan financing test of Section 141(c) of the Code.

(b) Federal Guarantee Prohibition. The Authority will not take any action or permit or suffer any action to be taken if the result of the same would be to cause the Bonds to be "federally guaranteed" within the meaning of Section 149(b) of the Code.

(c) No Arbitrage. The Authority will not take, or permit or suffer to be taken by the Trustee or otherwise, any action with respect to the Bond proceeds which, if such action had been reasonably expected to have been taken, or had been deliberately and intentionally taken, on the Closing Date, would have caused the Bonds to be "arbitrage bonds" within the meaning of Section 148 of the Code.

(d) Rebate of Excess Investment Earnings to United States. The Authority will calculate or cause to be calculated excess investment earnings with respect to the Bonds which are required to be rebated to the United States of America pursuant to Section 148(f) of the Code, and will pay the full amount of such excess investment earnings to the United States of America in such amounts, at such times and in such manner as may be required pursuant to the Code. Such payments will be made by the Authority from any source of legally available funds of the Authority, including amounts deposited into the Rebate Fund, if any. The Authority will keep or cause to be kept, and retain or cause to be retained for a period of six (6) years following the final payment of the Bonds, records of the determinations made pursuant to this

subsection (d). In order to provide for the administration of this subsection (d), the Authority may provide for the employment of independent attorneys, accountants and consultants compensated on such reasonable basis as the Authority may deem appropriate.

(e) Maintenance of Tax Exemption. The Authority will take all actions necessary to assure the exclusion of interest on the Bonds from the gross income of the Owners thereof to the same extent as such interest is permitted to be excluded from gross income under the Code as in effect on the date of issuance of the Bonds.

(f) Record Retention. The Authority will retain its records of all accounting and monitoring it carries out with respect to the Bonds for at least 3 years after the Bonds mature or are redeemed (whichever is earlier); however, if the Bonds are redeemed and refunded, the Authority will retain its records of accounting and monitoring at least 3 years after the earlier of the maturity or redemption of the obligations that refunded the Bonds.

(g) Compliance with Tax Certificate. The Authority will comply with the provisions of the Tax Certificate and the Use of Proceeds Certificate with respect to the Bonds, which are incorporated herein as if fully set forth herein. The covenants of this Section will survive payment in full or defeasance of the Bonds.

Section 5.8. Rebate Fund.

(a) Establishment. The Trustee will establish a Rebate Fund pursuant to Section 3.7. Absent an opinion of Bond Counsel that the exclusion from gross income for federal income tax purposes of interest on the Bonds will not be adversely affected, the Authority will cause to be deposited in the Rebate Fund such amounts as are required to be deposited therein pursuant to this Section, Section 5.7(d) and the Code. All money at any time deposited in the Rebate Fund will be held by the Trustee in trust for payment to the United States Treasury in accordance with written instructions given by the Authority to the Trustee, upon which the Trustee may conclusively rely.

(b) Disposition of Unexpended Funds. Any funds remaining in the Rebate Fund after redemption and payment of the Bonds and after payment of all the amounts payable to the United States Treasury from the Rebate Fund, including accrued interest and payment of all applicable fees to the Trustee, may be withdrawn by the Trustee and remitted to the Authority and utilized in any manner by the Authority.

Section 5.9. CFD Bonds. Subject to the provisions of this Indenture (including Article VI), the Authority and the Trustee will use reasonable efforts to collect all amounts due from the City pursuant to the CFD Bonds and will enforce, and take all steps, actions and proceedings which the Authority and Trustee determine to be reasonably necessary for the enforcement of all of the rights of the Authority thereunder and for the enforcement of all of the obligations and covenants of the City. The Authority will instruct the City to authenticate and deliver to the Trustee the CFD Bonds registered in the name of the Trustee.

The Authority, the Trustee, and the City may at any time consent to, amend or modify any of the CFD Bonds pursuant to the terms thereof, (a) with the prior consent of the Owners of a majority in aggregate principal amount of the Bonds then Outstanding, or (b) without the consent of any of the Owners, if such amendment or modification is for any one or more of the following purposes

(a) to add to the covenants and agreements of the City contained in such CFD Bonds, other covenants and agreements thereafter to be observed, or to limit or surrender any rights or power therein reserved to or conferred upon the City; or

(b) to make such provisions for the purpose of curing any ambiguity, or of curing, correcting or supplementing any defective provision contained in such CFD Bonds, or in any other respect whatsoever as the City may deem necessary or desirable, provided under any circumstances that such modifications or amendments will not materially adversely affect the interests of the Owners of the Bonds in the opinion of nationally- recognized bond counsel filed with the Trustee; or

(c) to amend any provision thereof to the extent necessary to comply with the Code, but only if and to the extent such amendment will not, in and of itself, adversely affect the exclusion from gross income of the interest on any of the Bonds under the Code, in the opinion of Bond Counsel filed with the Trustee.

Section 5.10. Sale of CFD Bonds. Notwithstanding anything in this Indenture to the contrary, the Authority may cause the Trustee to sell, from time to time, all or a portion of an issue of CFD Bonds, provided that the Authority will deliver to the Trustee:

(a) a certificate of an Independent Accountant certifying that, following the sale of such CFD Bonds, the Revenues to be paid to the Authority (assuming the timely payment of amounts due thereon with respect to any CFD Bonds not then in default), together with interest and principal due on any noncallable Federal Securities pledged to the repayment of the Bonds and the Revenues then on deposit in the funds and accounts established hereunder (valuing any Permitted Investments held hereunder at the then Fair Market Value thereof), will be sufficient to pay the principal of and interest on the Bonds when due;

(b) if any Bonds are then rated by Standard & Poor's, a notification from Standard & Poor's to the effect that such rating will not be withdrawn or reduced as a result of such sale of CFD Bonds; and

(c) an opinion of Bond Counsel that such sale of CFD Bonds is authorized under the provisions of this Indenture and will not adversely affect the exclusion of interest on the Bonds from gross income for purposes of federal income taxation.

Upon compliance with the foregoing conditions by the Authority, the Trustee will sell such CFD Bonds in accordance with the Request of the Authority and disburse the proceeds of the sale of such CFD Bonds to the Authority or upon the receipt of a Request of the Authority will deposit such proceeds in the Revenue Fund.

Section 5.11. Further Assurances. The Authority will adopt, make, execute and deliver any and all such further resolutions, instruments and assurances as may be reasonably necessary or proper to carry out the intention or to facilitate the performance of this Indenture, and for the better assuring and confirming unto the Owners of the Bonds the rights and benefits provided in this Indenture.

Section 5.12. Continuing Disclosure. The Authority hereby covenants and agrees that it will cause the City to comply with and carry out all of the provisions of the Continuing Disclosure Certificate. Notwithstanding any other provision of this Indenture, failure of the City to comply with the Continuing Disclosure Certificate will not be considered an Event of Default; however,

any Participating Underwriter or any holder or beneficial owner of the Bonds may, take such actions as may be necessary and appropriate to compel performance, including seeking mandate or specific performance by court order.

Section 5.13. Compliance with Reporting Requirements of Bond Law. The Authority hereby covenants and agrees that it will comply with and carry out all of the reporting requirements of the Bond Law, including, but not limited to, Section 6599.1 thereof.

ARTICLE VI

THE TRUSTEE

Section 6.1. Appointment of Trustee. The Bank of New York Mellon Trust Company, N.A., with its corporate trust office presently located in Los Angeles, California, a national banking association organized and existing under and by virtue of the laws of the United States of America, is hereby appointed Trustee by the Authority for the purpose of receiving all moneys required to be deposited with the Trustee hereunder and to allocate, use and apply the same as provided in this Indenture. The Authority agrees that it shall maintain a Trustee which is a trust company, national banking association or bank of good standing located in or incorporated under the laws of the State, duly authorized to exercise trust powers, with a combined capital and surplus of at least Seventy-five Million Dollars (\$75,000,000), subject to supervision or examination by federal or state authority. If such bank, national banking association or trust company publishes a report of condition at least annually pursuant to law or to the requirements of any supervising or examining authority above referred to, then for the purpose of this Section 6.1, the combined capital and surplus shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published.

The Trustee is hereby authorized to pay the principal of and interest and redemption premium (if any) on the Bonds when duly presented for payment at maturity, or on redemption or purchase prior to maturity, to make regularly scheduled interest payments, and to cancel any Bond upon payment thereof.

Section 6.2. Acceptance of Trusts. The Trustee hereby accepts the trusts imposed upon it by this Indenture, and agrees to perform said trusts, but only upon and subject to the following express terms and conditions:

(a) The Trustee undertakes to perform such duties and only such duties as are specifically set forth in this Indenture. In case an Event of Default hereunder has occurred (which has not been cured or waived), the Trustee may exercise such of the rights and powers vested in it by this Indenture and shall use the same degree of care and skill and diligence in their exercise, as a reasonable person would exercise or use under the circumstances in the conduct of his own affairs.

(b) The Trustee may execute any of the trusts or powers hereof and perform the duties required of it hereunder by or through attorneys, agents, or receivers, but shall not be responsible for the acts of any agents, attorneys or receivers appointed by it unless such appointment was the result of negligence or willful misconduct. The Trustee may consult with and act upon the advice of counsel (which may be counsel to the Authority) concerning all matters of trust and its duty hereunder and shall be wholly protected in reliance upon the advice or opinion of such counsel in respect of any action taken or omitted by it in good faith and in accordance herewith.

(c) The Trustee shall not be responsible for any recital herein, or for any of the supplements thereto or instruments of further assurance, or for the validity, effectiveness or the sufficiency of the security for the Bonds issued hereunder or intended to be secured hereby and the Trustee shall not be bound to ascertain or inquire as to the observance or performance of any covenants, conditions or agreements on the part of the Authority hereunder. The Trustee shall have no responsibility, opinion, or liability with respect to any information, statement, or

recital in any offering memorandum, official statement, or other disclosure material prepared or distributed with respect to the issuance of the Bonds.

(d) Except as provided in Section 3.2, the Trustee shall not be accountable for the use of any proceeds of sale of the Bonds delivered hereunder. The Trustee may become the Owner of Bonds secured hereby with the same rights which it would have if not the Trustee; may acquire and dispose of other bonds or evidences of indebtedness of the Authority with the same rights it would have if it were not the Trustee; and may act as a depositary for and permit any of its officers or directors to act as a member of, or in any other capacity with respect to, any committee formed to protect the rights of Owners of Bonds, whether or not such committee shall represent the Owners of the majority in aggregate principal amount of the Bonds then Outstanding.

(e) The Trustee shall be protected and shall incur no liability in acting, or refraining from acting in good faith and without negligence, in reliance upon any notice, request, consent, certificate, order, affidavit, letter, telegram, facsimile transmission, electronic mail, or other paper or document believed by it to be genuine and correct and to have been signed or sent by the proper person or persons. Any action taken or omitted to be taken by the Trustee in good faith and without negligence pursuant to this Indenture upon the request or authority or consent of any person who at the time of making such request or giving such authority or consent is the Owner of any Bond, shall be conclusive and binding upon all future Owners of the same Bond and upon Bonds issued in exchange therefor or in place thereof. The Trustee shall not be bound to recognize any person as an Owner of any Bond or to take any action at such person's request unless the ownership of such Bond by such person shall be reflected on the Bond Register.

(f) As to the existence or non existence of any fact or as to the sufficiency or validity of any instrument, paper or proceeding, the Trustee shall be entitled to rely upon a Certificate of the Authority as sufficient evidence of the facts therein contained and prior to the occurrence of an Event of Default hereunder of which the Trustee has been given notice or is deemed to have notice, as provided in Section 6.2(h), shall also be at liberty to accept a Certificate of the Authority to the effect that any particular dealing, transaction or action is necessary or expedient, and shall be fully protected in relying thereon, but may at its discretion secure such further evidence deemed by it to be necessary or advisable, but shall in no case be bound to secure the same.

(g) The permissive right of the Trustee to do things enumerated in this Indenture shall not be construed as a duty and notwithstanding any other provision of this Indenture, the Trustee shall not be answerable for other than its negligence or willful misconduct. The immunities and exceptions from liability of the Trustee shall extend to its officers, directors, employees and agents.

(h) The Trustee shall not be required to take notice or be deemed to have notice of any Event of Default hereunder except where a Responsible Officer has actual knowledge of such Event of Default and except for the failure by the Authority to make any of the payments to the Trustee required to be made by the Authority pursuant hereto, including payments on the CFD Bonds, or failure by the Authority to file with the Trustee any document required by this Indenture to be so filed subsequent to the issuance of the Bonds, unless a Responsible Officer shall be specifically notified in writing of such default by the Authority or by the Owners of at least twenty five percent (25%) in aggregate principal amount of the Bonds then Outstanding and all notices or other instruments required by this Indenture to be delivered to the Trustee

must, in order to be effective, be delivered to a Responsible Officer at the Trust Office of the Trustee, and in the absence of such notice so delivered the Trustee may conclusively assume there is no Event of Default hereunder except as aforesaid. Delivery of a notice to the officer and address for the Trustee set forth in Section 9.12, as updated by the Trustee from time to time, shall be deemed notice to a Responsible Officer.

(i) At any and all reasonable times the Trustee, and its duly authorized agents, attorneys, experts, accountants and representatives, shall have the right fully to inspect all books, papers and records of the Authority pertaining to the Bonds, and to make copies of any of such books, papers and records such as may be desired but which is not privileged by statute or by law.

(j) The Trustee shall not be required to give any bond or surety in respect of the execution of the said trusts and powers or otherwise in respect of the performance of its duties hereunder.

(k) Notwithstanding anything elsewhere in this Indenture with respect to the execution of any Bonds, the withdrawal of any cash, the release of any property, or any action whatsoever within the purview of this Indenture, the Trustee shall have the right, but shall not be required, to demand any showings, certificates, opinions, appraisals or other information, or corporate action or evidence thereof, as may be deemed desirable by the Trustee in its sole discretion for the purpose of establishing the right of the Authority to the execution of any Bonds, the withdrawal of any cash, or the taking of any other action by the Trustee.

(l) Before taking the action referred to in Sections 5.9, 8.2 or this Article VI, the Trustee may require that an indemnity bond satisfactory to it be furnished for the reimbursement of all expenses to which it may be put and to protect it against all liability, except liability which is adjudicated to have resulted from its negligence or willful misconduct in connection with any such action.

(m) All moneys received by the Trustee shall, until used or applied or invested as herein provided, be held in trust for the purposes for which they were received but need not be segregated from other funds.

(n) Whether or not expressly so provided, every provision of this Indenture relating to the conduct or affecting the liability of, or affording protection to, the Trustee shall be subject to the provisions of this Article VI.

(o) The Trustee shall not be considered in breach of or in default in its obligations hereunder or progress in respect thereto in the event of delay in the performance of such obligations due to unforeseeable causes beyond its control and without its fault or negligence, including, but not limited to, acts of God or of the public enemy or terrorists, acts of a government, acts of the other party, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, earthquakes, explosion, mob violence, riot, inability to procure or general sabotage or rationing of labor, equipment, facilities, sources or energy, material or supplies in the open market, litigation or arbitration involving a party or others relating to zoning or other governmental action or inaction pertaining to the project, malicious mischief, condemnation, and unusually severe weather or delays of suppliers or subcontractors due to such causes or any similar event and/or occurrences beyond the control of the Trustee.

(p) The Trustee shall have the right to accept and act upon instructions, including funds transfer instructions ("Instructions") given pursuant to this Indenture and delivered using Electronic Means ("Electronic Means" shall mean the following communications methods: e-mail, facsimile transmission, secure electronic transmission containing applicable authorization codes, passwords and/or authentication keys issued by the Trustee, or another method or system specified by the Trustee as available for use in connection with its services hereunder); provided, however, that the Authority shall provide to the Trustee an incumbency certificate listing officers with the authority to provide such Instructions ("Authorized Officers") and containing specimen signatures of such Authorized Officers, which incumbency certificate shall be amended by the Authority whenever a person is to be added or deleted from the listing. If the Authority elects to give the Trustee Instructions using Electronic Means and the Trustee in its discretion elects to act upon such Instructions, the Trustee's understanding of such Instructions shall be deemed controlling. The Authority understands and agrees that the Trustee cannot determine the identity of the actual sender of such Instructions and that the Trustee shall conclusively presume that directions that purport to have been sent by an Authorized Officer listed on the incumbency certificate provided to the Trustee have been sent by such Authorized Officer. The Authority shall be responsible for ensuring that only Authorized Officers transmit such Instructions to the Trustee and that the Authority and all Authorized Officers are solely responsible to safeguard the use and confidentiality of applicable user and authorization codes, passwords and/or authentication keys upon receipt by the Authority. The Trustee shall not be liable for any losses, costs or expenses arising directly or indirectly from the Trustee's reliance upon and compliance with such Instructions notwithstanding such directions conflict or are inconsistent with a subsequent written instruction. The Authority agrees: (i) to assume all risks arising out of the use of Electronic Means to submit Instructions to the Trustee, including without limitation the risk of the Trustee acting on unauthorized Instructions, and the risk of interception and misuse by third parties; (ii) that it is fully informed of the protections and risks associated with the various methods of transmitting Instructions to the Trustee and that there may be more secure methods of transmitting Instructions than the method(s) selected by the Authority; (iii) that the security procedures (if any) to be followed in connection with its transmission of Instructions provide to it a commercially reasonable degree of protection in light of its particular needs and circumstances; and (iv) to notify the Trustee immediately upon learning of any compromise or unauthorized use of the security procedures.

(q) Whenever in the administration of the trusts imposed upon it by this Indenture the Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action hereunder, such matter (unless other evidence in respect thereof be herein specifically prescribed) may be deemed to be conclusively proved and established by a certificate of the Authority, and such certificate shall be full warrant to the Trustee for any action taken or suffered in good faith under the provisions of this Indenture in reliance upon such certificate, but in its discretion the Trustee may, in lieu thereof, accept other evidence of such matter or may require such additional evidence as it may deem reasonable.

Section 6.3. Fees, Charges and Expenses of Trustee. The Trustee shall be entitled to payment and reimbursement by the Authority for reasonable fees for its services rendered hereunder and all advances (including any interest on advances), counsel fees and expenses (including fees and expenses of outside counsel and the allocated costs of internal attorneys) and other expenses reasonably and necessarily made or incurred by the Trustee in connection with such services. Upon the occurrence of an Event of Default hereunder, but only upon an Event of Default, the Trustee shall have a first lien with right of payment prior to payment of any Bond upon the amounts held in funds and accounts hereunder for the foregoing fees, charges and expenses incurred by it respectively. The Trustee's right to payment of its fees and

expenses shall survive the discharge and payment or defeasance of the Bonds and termination of this Indenture, and the resignation or removal of the Trustee.

Section 6.4. Notice to Bond Owners of Default. If an Event of Default hereunder occurs with respect to any Bonds of which the Trustee has been given, or is deemed to have notice, as provided in Section 6.2(h), then the Trustee shall promptly give written notice thereof by first class mail to the Owner of each such Bond, unless such Event of Default shall have been cured before the giving of such notice.

Section 6.5. Intervention by Trustee. In any judicial proceeding to which the Authority is a party which, in the opinion of the Trustee and its counsel, has a substantial bearing on the interests of Owners of any of the Bonds, the Trustee may intervene on behalf of such Bond Owners, and subject to Section 6.2(l), shall do so if requested in writing by the Owners of at least twenty five percent (25%) in aggregate principal amount of such Bonds then Outstanding.

Section 6.6. Removal of Trustee. The Owners of a majority in aggregate principal amount of the Outstanding Bonds may and the Authority may, so long as no Event of Default then exists, upon 30 days' prior written notice to the Trustee, remove the Trustee initially appointed, and any successor thereto, by an instrument or concurrent instruments in writing delivered to the Trustee. Upon any such removal, the Authority or the City shall appoint a successor or successors thereto; provided that any such successor shall be a national banking association meeting the requirements set forth in Section 6.1. Notwithstanding any other provision of this Indenture, no removal of the Trustee shall be effective until a successor is appointed.

Section 6.7. Resignation by Trustee. The Trustee and any successor Trustee may at any time give prior written notice of its intention to resign as Trustee hereunder, to the Authority and the City by registered or certified mail. Upon receiving such notice of resignation, the Authority or the City shall promptly appoint a successor Trustee. Any resignation or removal of the Trustee and appointment of a successor Trustee shall become effective only upon acceptance of appointment by the successor Trustee. Upon such acceptance, the Authority shall cause notice thereof to be given by first class mail, postage prepaid, to the Bond Owners at their respective addresses set forth on the Bond Register.

Section 6.8. Appointment of Successor Trustee. In the event of the removal or resignation of the Trustee pursuant to Sections 6.6 or 6.7, respectively, the Authority or the City shall promptly appoint a successor Trustee. In the event the Authority shall for any reason whatsoever fail to appoint a successor Trustee within thirty (30) days following the delivery to the Trustee of the instrument described in Section 6.6 or within thirty (30) days following the receipt of notice by the Authority and the City pursuant to Section 6.7, the Trustee may petition any court of competent jurisdiction for the appointment of a successor Trustee meeting the requirements of Section 6.1. Any such successor Trustee appointed by such court shall become the successor Trustee hereunder notwithstanding any action by the Authority or the City purporting to appoint a successor Trustee following the expiration of such thirty day period.

Section 6.9. Merger or Consolidation. Any company into which the Trustee may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which the Trustee may sell or transfer all or substantially all of its corporate trust business, provided that such company shall meet the requirements set forth in Section 6.1, shall be the successor to the Trustee and vested with all of the title to the trust estate and all of the trusts, powers,

discretions, immunities, privileges and all other matters as was its predecessor, without the execution or filing of any paper or further act, anything herein to the contrary notwithstanding. The Trustee may assign its rights, duties and obligations hereunder in whole or in part, to an affiliate or subsidiary thereof, provided such Corporation, affiliate or subsidiary shall meet the requirements set forth in Section 6.1.

Section 6.10. Concerning any Successor Trustee. The Authority or the City may appoint a successor Trustee hereunder without additional action of the Board of Directors or City Council. Every successor Trustee appointed hereunder shall execute, acknowledge and deliver to its predecessor and also to the Authority and the City an instrument in writing accepting such appointment hereunder and to the predecessor Trustee an instrument indemnifying the predecessor Trustee for any costs or claims arising during the time the successor Trustee serves as Trustee hereunder and thereupon such successor, without any further act, deed or conveyance, shall become fully vested with all the estates, properties, rights, powers, trusts, duties and obligations of its predecessors; but such predecessor shall, nevertheless, on the Request of the Authority, or of the Trustee's successor, execute and deliver an instrument transferring to such successor all the estates, properties, rights, powers and trusts of such predecessor hereunder; and every predecessor Trustee shall deliver all securities and moneys held by it as the Trustee hereunder to its successor. Should any instrument in writing from the Authority be required by any successor Trustee for more fully and certainly vesting in such successor the estate, rights, powers and duties hereby vested or intended to be vested in the predecessor Trustee, any and all such instruments in writing shall, on request, be executed, acknowledged and delivered by the Authority.

Section 6.11. Appointment of Co Trustee. It is the purpose of this Indenture that there shall be no violation of any law of any jurisdiction (including particularly the law of the State) denying or restricting the right of banking corporations or associations to transact business as a trustee in such jurisdiction. It is recognized that in the case of litigation under this Indenture, and in particular in case of the enforcement of the rights of the Trustee on default, or in the case the Trustee deems that by reason of any present or future law of any jurisdiction it may not exercise any of the powers, rights or remedies herein granted to the Trustee or hold title to the properties, in trust, as herein granted, or take any other action which may be desirable or necessary in connection therewith, it may be necessary that the Trustee appoint an additional individual or institution as a separate co-trustee. The following provisions of this Section 6.11 are adopted to these ends.

In the event that the Trustee or the Authority appoints an additional individual or institution as a separate or co-trustee, each and every remedy, power, right, claim, demand, cause of action, immunity, estate, title, interest and lien expressed or intended by this Indenture to be exercised by or vested in or conveyed to the Trustee with respect thereto shall be exercisable by and vest in such separate or co-trustee but only to the extent necessary to enable such separate or co-trustee to exercise such powers, rights and remedies, and every covenant and obligation necessary to the exercise thereof by such separate or co-trustee shall run to and be enforceable by either of the Trustee or separate or co-Trustee.

Should any instrument in writing from the Authority be required by the separate trustee or co-trustee so appointed by the Trustee or the Authority for more fully and certainly vesting in and confirming to it such properties, rights, powers, trusts, duties and obligations, any and all such instruments in writing shall, on request, be executed, acknowledged and delivered by the Authority. In case any separate trustee or co-trustee, or a successor to either, shall become incapable of acting, resign or be removed, all the estates, properties, rights, powers, trusts,

duties and obligations of such separate trustee or co-trustee, so far as permitted by law, shall vest in and be exercised by the Trustee until the appointment of a new trustee or successor to such separate trustee or co-trustee.

Section 6.12. Indemnification; Limited Liability of Trustee. The Authority further covenants and agrees to indemnify and save the Trustee and its officers, officials, directors, agents and employees, harmless against any loss, expense (including legal fees and expenses) and liabilities which it may incur arising out of or in the exercise and performance of its powers and duties hereunder, including the costs and expenses of defending against any claim of liability, but excluding any and all losses, expenses and liabilities which are due to the negligence or intentional misconduct of the Trustee, its officers, directors, agents or employees. No provision in this Indenture shall require the Trustee to risk or expend its own funds or otherwise incur any financial liability hereunder unless indemnity reasonably satisfactory to it against such liability or risk is provided to it. The Trustee shall not be liable for any action taken or omitted to be taken by it in accordance with the direction of a majority (or any lesser amount that may direct the Trustee in accordance with the provisions of this Indenture) of the Owners of the principal amount of Bonds Outstanding relating to the time, method and place of conducting any proceeding or remedy available to the Trustee under this Indenture. The rights of the Trustee and the obligations of the Authority under this Section 6.12 shall survive termination of this Indenture, discharge of the Bonds and resignation or removal of the Trustee.

ARTICLE VII

MODIFICATION AND AMENDMENT OF THE INDENTURE

Section 7.1. Amendment. This Indenture and the rights and obligations of the Authority and of the Owners of the Bonds may, with prior written notice to Standard & Poor's, be modified or amended at any time by a Supplemental Indenture which will become binding when the prior written consent of the Owners of a majority in aggregate principal amount of the Bonds then Outstanding are filed with the Trustee. No such modification or amendment will (a) extend the maturity of or reduce the interest rate on any Bond or otherwise alter or impair the obligation of the Authority to pay the principal, interest or redemption premiums at the time and place and at the rate and in the currency provided therein of any Bond without the express written consent of the Owner of such Bond, (b) reduce the percentage of Bonds required for the written consent to any such amendment or modification, or (c) without written consent of the Trustee, modify any of the rights or obligations of the Trustee.

This Indenture and the rights and obligations of the Authority and of the Owners of the Bonds may, with prior written notice to Standard & Poor's, also be modified or amended at any time by a Supplemental Indenture which will become binding upon adoption, without consent of any Bond Owners, to the extent permitted by law but only for any one or more of the following purposes

(a) to add to the covenants and agreements of the Authority contained in this Indenture, other covenants and agreements thereafter to be observed, or to limit or surrender any rights or powers herein reserved to or conferred upon the Authority so long as such addition, limitation or surrender of such rights or powers will not materially adversely affect the Owners of the Bonds; or

(b) to make such provisions for the purpose of curing any ambiguity, or of curing, correcting or supplementing any defective provision contained in this Indenture, or in any other respect whatsoever as the Authority may deem necessary or desirable, provided under any circumstances that such modifications or amendments will not materially adversely affect the interests of the Owners of the Bonds; or

(c) to amend any provision relating to the Code as may be necessary or appropriate to assure compliance with the Code and the exclusion from gross income of interest on the Bonds; or

(d) to amend any provision to place any Additional Bonds on a parity with the Bonds for all purposes of this Indenture, including, but not limited to, for the purpose of exercising all rights and remedies hereunder; or

(e) to amend the provisions of Section 4.4.

The Trustee will be furnished with an opinion of Bond Counsel that any such Supplemental Indenture entered into by the Authority and the Trustee complies with the provisions of this Article VII and the Trustee may conclusively rely upon such opinion and will be fully protected in relying thereon.

Section 7.2. Effect of Supplemental Indenture. From and after the time any Supplemental Indenture becomes effective pursuant to this Article VII, this Indenture will be

deemed to be modified and amended in accordance therewith, the respective rights, duties and obligations of the parties hereto or thereto and all Owners of Outstanding Bonds, as the case may be, will thereafter be determined, exercised and enforced hereunder subject in all respects to such modification and amendment, and all the terms and conditions of this Indenture for any and all purposes.

Section 7.3. Endorsement or Replacement of Bonds After Amendment. After the effective date of any action taken as hereinabove provided, the Authority may determine that any affected Bonds will bear a notation, by endorsement in form approved by the Authority, as to such action, and in that case upon demand of the Owner of any Bond Outstanding at such effective date and presentation of its Bond for that purpose at the Trust Office of the Trustee, a suitable notation as to such action will be made on such Bond. If the Authority will so determine, new Bonds so modified as, in the opinion of the Authority, will be necessary to conform to such Bond Owners' action will be prepared and executed, and in that case upon demand of the Owner of any Bond Outstanding at such effective date such new Bonds will be exchanged at the Trust Office of the Trustee, without cost to each Bond Owner, for Bonds then Outstanding, upon surrender of such Outstanding Bonds.

Section 7.4. Amendment by Mutual Consent. The provisions of this Article VII will not prevent any Bond Owner from accepting any amendment as to the particular Bond held by such Owner, provided that due notation thereof is made on such Bond.

ARTICLE VIII

EVENTS OF DEFAULT AND REMEDIES

Section 8.1. Events of Default. The following events will be Events of Default hereunder.

(a) Default in the due and punctual payment of the principal of any Bond when and as the same will become due and payable, whether at maturity as therein expressed, by proceedings for redemption, by declaration or otherwise.

(b) Default in the due and punctual payment of any installment of interest on any Bond when and as such interest installment will become due and payable.

(c) Default by the Authority in the observance of any of the other covenants, agreements or conditions on its part in this Indenture or in the Bonds contained, if such default will have continued for a period of sixty (60) days after written notice thereof, specifying such default and requiring the same to be remedied, will have been given to the Authority by the Trustee, or to the Authority and the Trustee by the Owners of not less than twenty five percent (25%) in aggregate principal amount of the Bonds at the time Outstanding; provided that such default (other than a default arising from nonpayment of the Trustee's fees and expenses, which must be cured within such 60 day period unless waived by the Trustee) will not constitute an Event of Default hereunder if the Authority will commence to cure such default within said sixty (60) day period and thereafter diligently and in good faith will cure such default within a reasonable period of time; or

(d) Default under the any CFD Fiscal Agent Agreement.

Section 8.2. Remedies; Rights of Bond Owners. Upon the occurrence of an Event of Default, the Trustee may pursue any available remedy at law or in equity to enforce the payment of the principal of, premium, if any, and interest on the Outstanding Bonds, and to enforce any rights of the Trustee under or with respect to this Indenture. In the event of an Event of Default arising out of a nonpayment of Trustee's fees and expenses, the Trustee may sue the Authority to seek recovery of its fees and expenses; provided, however, that such recovery may be made only from Revenues.

If an Event of Default will have occurred and be continuing and if requested to do so by the Owners of at least twenty five percent (25%) in aggregate principal amount of Outstanding Bonds, and, in each case, if indemnified as provided in Section 6.2(I), the Trustee will be obligated to exercise such one or more of the rights and powers conferred by this Article VIII and, as applicable, under the CFD Bonds, as the Trustee, being advised by counsel, will deem most expedient in the interests of the Bond Owners.

No remedy by the terms of this Indenture conferred upon or reserved to the Trustee (or to the Bond Owners) is intended to be exclusive of any other remedy, but each and every such remedy will be cumulative and will be in addition to any other remedy given to the Trustee or to the Bond Owners hereunder or now or hereafter existing at law or in equity.

No delay or omission to exercise any right or power accruing upon any Event of Default will impair any such right or power or will be construed to be a waiver of any such Event of

Default or acquiescence therein; such right or power may be exercised from time to time as often as may be deemed expedient.

Section 8.3. Application of Revenues and Other Funds After Event of Default. All amounts received by the Trustee with respect to the Bonds pursuant to any right given or action taken by the Trustee under the provisions of this Indenture relating to the Bonds will be applied by the Trustee in the following order upon presentation of the several Bonds, and the stamping thereon of the amount of the payment if only partially paid, or upon the surrender thereof if fully paid –

First, to the payment of the fees, costs and expenses of the Trustee in declaring such Event of Default and in carrying out the provisions of this Article VIII, including reasonable compensation to its agents, attorneys and counsel (including outside counsel and the allocated costs of internal attorneys), and to the payment of all other outstanding fees and expenses of the Trustee; and

Second, to the payment of the whole amount of interest on and principal of the Bonds then due and unpaid, with interest on overdue installments of principal and interest to the extent permitted by law at the net effective rate of interest then borne by the Outstanding Bonds; provided, however, that in the event such amounts will be insufficient to pay in full the full amount of such interest and principal, then such amounts will be applied in the following order of priority.

(a) first to the payment of all installments of interest on the Bonds then due and unpaid,

(b) second, to the payment of all installments of principal of the Bonds then due and unpaid, and

(c) third, to the payment of interest on overdue installments of principal and interest on Bonds.

Section 8.4. Power of Trustee to Control Proceedings. In the event that the Trustee, upon the happening of an Event of Default, will have taken any action, by judicial proceedings or otherwise, pursuant to its duties hereunder, whether upon its own discretion or upon the request of the Owners of a majority in aggregate principal amount of the Bonds then Outstanding, it may, in the exercise of its discretion for the best interests of the Owners of the Bonds, with respect to the continuance, discontinuance, withdrawal, compromise, settlement or other disposal of such action; provided, however, that the Trustee will not, unless there no longer continues an Event of Default, discontinue, withdraw, compromise or settle, or otherwise dispose of any litigation pending at law or in equity, if there has been filed with it a written request signed by the Owners of a majority in aggregate principal amount of the Outstanding Bonds hereunder opposing such discontinuance, withdrawal, compromise, settlement or other such litigation and provided further that the Trustee will have the right to decline to comply with such written request unless indemnification satisfactory to it has been provided. Any suit, action or proceeding which any Owner of Bonds will have the right to bring to enforce any right or remedy hereunder may be brought by the Trustee for the equal benefit and protection of all Owners of Bonds similarly situated and the Trustee is hereby appointed (and the successive respective Owners of the Bonds issued hereunder, by taking and holding the same, will be conclusively deemed so to have appointed it) the true and lawful attorney in fact of the respective Owners of the Bonds for the purposes of bringing any such suit, action or proceeding

and to do and perform any and all acts and things for and on behalf of the respective Owners of the Bonds as a class or classes, as may be necessary or advisable in the opinion of the Trustee as such attorney in fact.

Section 8.5. Appointment of Receivers. Upon the occurrence of an Event of Default hereunder, and upon the filing of a suit or other commencement of judicial proceedings to enforce the rights of the Trustee and of the Bond Owners under this Indenture, the Trustee will be entitled, as a matter of right, to the appointment of a receiver or receivers of the Revenues and other amounts pledged hereunder, pending such proceedings, with such powers as the court making such appointment will confer.

Section 8.6. Non Waiver. Nothing in this Article VIII or in any other provision of this Indenture, or in the Bonds, will affect or impair the obligation of the Authority, which is absolute and unconditional, to pay the interest on and principal of the Bonds to the respective Owners of the Bonds at the respective dates of maturity, as herein provided, out of the Revenues and other moneys herein pledged for such payment.

A waiver of any default or breach of duty or contract by the Trustee or any Bond Owners will not affect any subsequent default or breach of duty or contract, or impair any rights or remedies on any such subsequent default or breach. No delay or omission of the Trustee or any Owner of any of the Bonds to exercise any right or power accruing upon any default will impair any such right or power or will be construed to be a waiver of any such default or an acquiescence therein; and every power and remedy conferred upon the Trustee or Bond Owners by the Bond Law or by this Article VIII may be enforced and exercised from time to time and as often as will be deemed expedient by the Trustee or the Bond Owners, as the case may be.

Section 8.7. Rights and Remedies of Bond Owners. No Owner of any Bond issued hereunder will have the right to institute any suit, action or proceeding at law or in equity, for any remedy under or upon this Indenture, unless (a) such Owner will have previously given to the Trustee written notice of the occurrence of an Event of Default; (b) the Owners of a majority in aggregate principal amount of all the Bonds then Outstanding will have made written request upon the Trustee to exercise the powers hereinbefore granted or to institute such action, suit or proceeding in its own name; (c) said Owners will have tendered to the Trustee indemnity reasonably acceptable to the Trustee against the costs, expenses and liabilities to be incurred in compliance with such request; and (d) the Trustee will have refused or omitted to comply with such request for a period of sixty (60) days after such written request will have been received by, and said tender of indemnity will have been made to, the Trustee.

Such notification, request, tender of indemnity and refusal or omission are hereby declared, in every case, to be conditions precedent to the exercise by any Owner of Bonds of any remedy hereunder; it being understood and intended that no one or more Owners of Bonds will have any right in any manner whatever by his or their action to enforce any right under this Indenture, except in the manner herein provided, and that all proceedings at law or in equity to enforce any provision of this Indenture will be instituted, had and maintained in the manner herein provided and for the equal benefit of all Owners of the Outstanding.

The right of any Owner of any Bond to receive payment of the principal of and interest and premium (if any) on such Bond as herein provided or to institute suit for the enforcement of any such payment, will not be impaired or affected without the written consent of such Owner, notwithstanding the foregoing provisions of this Section or any other provision of this Indenture.

Section 8.8. Termination of Proceedings. In case the Trustee will have proceeded to enforce any right under this Indenture by the appointment of a receiver or otherwise, and such proceedings will have been discontinued or abandoned for any reason, or will have been determined adversely, then and in every such case, the Authority, the Trustee and the Bond Owners will be restored to their former positions and rights hereunder, respectively, with regard to the property subject to this Indenture, and all rights, remedies and powers of the Trustee will continue as if no such proceedings had been taken.

ARTICLE IX

MISCELLANEOUS

Section 9.1. Limited Liability of Authority. Notwithstanding anything in this Indenture contained, the Authority will not be required to advance any moneys derived from any source of income other than the Revenues for the payment of the principal of or interest on the Bonds, or any premiums upon the redemption thereof, or for the performance of any covenants herein contained (except to the extent any such covenants are expressly payable hereunder from the Revenues). The Authority may, however, advance funds for any such purpose, provided that such funds are derived from a source legally available for such purpose and may be used by the Authority for such purpose without incurring indebtedness.

The Bonds will be revenue bonds, payable exclusively from the Revenues and other funds as in this Indenture provided. The general fund of the Authority is not liable, and the credit of the Authority is not pledged, for the payment of the interest and premium (if any) on or principal of the Bonds. The Owners of the Bonds will never have the right to compel the forfeiture of any property of the Authority. The principal of and interest on the Bonds, respectively, and any premiums upon the redemption of any thereof, will not be a legal or equitable pledge, charge, lien or encumbrance upon any property of the Authority or upon any of its income, receipts or revenues except the Revenues and other funds pledged to the payment thereof as in this Indenture provided.

Section 9.2. Benefits of Indenture Limited to Parties. Nothing in this Indenture, expressed or implied, is intended to give to any person other than the Authority, the Trustee and the Owners of the Bonds, any right, remedy or claim under or by reason of this Indenture. Any covenants, stipulations, promises or agreements in this Indenture contained by and on behalf of the Authority will be for the sole and exclusive benefit of the Trustee and the Owners of the Bonds.

Section 9.3. Discharge of Indenture. If the Authority will pay and discharge any or all of the Outstanding Bonds in any one or more of the following ways:

- (a) by well and truly paying or causing to be paid the principal of and interest and premium (if any) on such Bonds, as and when the same become due and payable;
- (b) by irrevocably depositing with the Trustee, in trust, at or before maturity, money which, together with the available amounts then on deposit in the funds and accounts established with the Trustee pursuant to this Indenture and available for such purpose, is fully sufficient to pay such Bonds, including all principal, interest and redemption premiums; or
- (c) by irrevocably depositing with the Trustee or any other fiduciary, in trust, Federal Securities in such amount as an Independent Accountant determines will, together with the interest to accrue thereon and available moneys then on deposit in the funds and accounts established with the Trustee pursuant to this Indenture and available for such purpose, be fully sufficient to pay and discharge the indebtedness on such Bonds (including all principal, interest and redemption premiums) at or before their respective maturity dates;

then any such Outstanding Bond or Bonds will be deemed to have been paid and discharged; provided, however, that any such Outstanding Bond or Bonds will be deemed to have been paid under paragraph (c) above only if (i) in the case of Bonds to be redeemed prior to the maturity thereof, notice of such redemption will have been mailed pursuant to Section 2.2(d) or provision satisfactory to the Trustee will have been made for the mailing of such notice, (ii) a verification report of an Independent Accountant will be delivered to the Trustee, and (iii) an opinion of Bond Counsel will be delivered to the Trustee in the case of a defeasance of Bonds, to the effect that the requirements of this Indenture have been satisfied with respect to such discharge of such Bonds. Upon a discharge of one or more Bonds as described above, and notwithstanding that any of such Bonds will not have been surrendered for payment, the pledge of the Revenues, and other funds provided for in this Indenture with respect to such Bonds, and all other pecuniary obligations of the Authority under this Indenture with respect to such Bonds, as applicable, will cease and terminate, except only the obligation of the Authority to comply with the covenants contained in Sections 5.7 and 6.12, to pay or cause to be paid to the Owners of such Bonds not so surrendered and paid all sums due thereon from amounts set aside for such purpose, to pay all expenses and costs of the Trustee and to comply with the covenants contained in Section 5.7. Any funds thereafter held by the Trustee, which are not required for said purposes, will be paid over to the Authority or upon a Request of the Authority to the City.

Defeasance will be accomplished only with an irrevocable deposit in escrow of certain investments referred to in this section. Further substitutions of securities in the escrow are not permitted. The deposit in the escrow must be sufficient, without reinvestment, to pay all principal and interest as scheduled on the Bonds to and including the date of redemption. Any security used for defeasance must provide for the timely payment of principal and interest and cannot be callable or prepayable prior to maturity or earlier redemption of the rated debt (excluding securities that do not have a fixed par value and/or whose terms do not promise a fixed dollar amount at maturity or call date).

Section 9.4. Successor is Deemed Included in All References to Predecessor. Whenever in this Indenture or any Supplemental Indenture either the Authority is named or referred to, such reference will be deemed to include the successor to the powers, duties and functions, with respect to the management, administration and control of the affairs of the Authority, that are presently vested in the Authority, and all the covenants, agreements and provisions contained in this Indenture by or on behalf of the Authority will bind and inure to the benefit of its successors whether so expressed or not.

Section 9.5. Content of Certificates. Every certificate by or on behalf of the Authority with respect to compliance with a condition or covenant provided for in this Indenture will include (a) a statement that the person or persons making or giving such certificate have read such covenant or condition and the definitions herein relating thereto; (b) a brief statement as to the nature and scope of the examination or investigation upon which the statements or opinions contained in such certificate are based; (c) a statement that, in the opinion of the signers, they have made or caused to be made such examination or investigation as is necessary to enable them to express an informed opinion as to whether or not such covenant or condition has been complied with; and (d) a statement as to whether, in the opinion of the signers, such condition or covenant has been complied with.

Any such certificate made or given by an officer of the Authority may be based, insofar as it relates to legal matters, upon a certificate or opinion of or representations by counsel, unless such officer knows that the certificate or opinion or representations with respect to the

matters upon which his certificate may be based, as aforesaid, are erroneous, or in the exercise of reasonable care should have known that the same were erroneous. Any such certificate or opinion or representation made or given by counsel may be based, insofar as it relates to factual matters, on information with respect to which is in the possession of the Authority, or upon the certificate or opinion of or representations by an officer or officers of the Authority, unless such counsel knows that the certificate or opinion or representations with respect to the matters upon which his certificate, opinion or representation may be based, as aforesaid, are erroneous, or in the exercise of reasonable care should have known that the same were erroneous.

Section 9.6. Execution of Documents by Bond Owners. Any request, consent or other instrument required by this Indenture to be signed and executed by Bond Owners may be in any number of concurrent writings of substantially similar tenor and may be signed or executed by such Bond Owners in person or by agent or agents duly appointed in writing. Proof of the execution of any such request, consent or other instrument or of a writing appointing any such agent, will be sufficient for any purpose of this Indenture and will be conclusive in favor of the Trustee and of the Authority if made in the manner provided in this Section 9.6.

The fact and date of the execution by any person of any such request, consent or other instrument or writing may be proved by the affidavit of a witness of such execution or by the certificate of any notary public or other officer of any jurisdiction, authorized by the laws thereof to take acknowledgements of deeds, certifying that the person signing such request, consent or other instrument or writing acknowledged to him the execution thereof.

The ownership of Bonds will be conclusively proved by the Bond Register. Any request, consent or vote of the Owner of any Bond will bind every future Owner of the same Bond and the Owner of any Bond issued in exchange therefor or in lieu thereof, in respect of anything done or suffered to be done by the Trustee or the Authority in pursuance of such request, consent or vote. In lieu of obtaining any demand, request, direction, consent or waiver in writing, the Trustee may call and hold a meeting of the Bond Owners upon such notice and in accordance with such rules and obligation as the Trustee considers fair and reasonable for the purpose of obtaining any such action.

Section 9.7. Disqualified Bonds. In determining whether the Owners of the requisite aggregate principal amount of Bonds have concurred in any demand, request, direction, consent or waiver under this Indenture, Bonds which are owned or held by or for the account of the Authority or the City (but excluding Bonds held in any employees' or retirement fund) will be disregarded and deemed not to be Outstanding for the purpose of any such determination, provided, however, that for the purpose of determining whether the Trustee will be protected in relying on any such demand, request, direction, consent or waiver, only Bonds which the Trustee knows to be so owned or held will be disregarded. Upon request, the Authority and the City will specify to the Trustee those Bonds disqualified pursuant to this Section 9.7.

Section 9.8. Waiver of Personal Liability. No officer, agent or employee of the Authority will be individually or personally liable for the payment of the interest on or principal of the Bonds; but nothing herein contained will relieve any such officer, agent or employee from the performance of any official duty provided by law.

Section 9.9. Partial Invalidity. If any one or more of the covenants or agreements, or portions thereof, provided in this Indenture on the part of the Authority (or of the Trustee) to be performed should be contrary to law, then such covenant or covenants, such agreement or

agreements, or such portions thereof, will be null and void and will be deemed separable from the remaining covenants and agreements or portions thereof and will in no way affect the validity of this Indenture or of the Bonds; but the Bond Owners will retain all rights and benefits accorded to them under the Bond Law or any other applicable provisions of law. The Authority hereby declares that it would have entered into this Indenture and each and every other section, paragraph, subdivision, sentence, clause and phrase and would have authorized the issuance of the Bonds pursuant hereto irrespective of the fact that any or more sections, paragraphs, subdivisions, sentences, clauses or phrases of this Indenture or the application thereof to any person or circumstance may be held to be unconstitutional, unenforceable or invalid.

Section 9.10. Destruction of Cancelled Bonds. Whenever in this Indenture provision is made for the surrender to the Authority or the Trustee of any Bonds which have been paid or cancelled pursuant to the provisions of this Indenture, the Trustee will destroy such Bonds in accordance with the retention policy of the Trustee then in effect.

Section 9.11. Funds and Accounts. Any fund or account required by this Indenture to be established and maintained by the Authority or the Trustee may be established and maintained in the accounting records of the Authority or the Trustee, as the case may be, either as a fund or an account, and may, for the purpose of such records, any audits thereof and any reports or statements with respect thereto, be treated either as a fund or as an account. All such records with respect to all such funds and accounts held by the Authority will at all times be maintained in accordance with generally accepted accounting principles and all such records with respect to all such funds and accounts held by the Trustee will be at all times maintained in accordance with corporate trust industry practices; in each case with due regard for the protection of the security of the Bonds and the rights of every Owner thereof.

Section 9.12. Notices. Any notice, request, complaint, demand, communication or other paper will be sufficiently given and will be deemed given when delivered or mailed by registered or certified mail, postage prepaid, or sent by telegram, addressed as follows:

If to the Authority:	Roseville Finance Authority c/o City of Roseville 311 Vernon Street Roseville, California 95678 Attention: Treasurer
----------------------	--

If to the Trustee:	The Bank of New York Mellon Trust Company, N.A. 400 South Hope Street, Suite 500 Los Angeles, California 90071 Attention: Corporate Trust Department Fax: (213) 630-6285
--------------------	--

The Authority, the City and the Trustee may designate any further or different addresses to which subsequent notices, certificates or other communications will be sent.

Section 9.13. Unclaimed Moneys. Anything in this Indenture to the contrary notwithstanding, any moneys held by the Trustee in trust for the payment and discharge of any of the Bonds which remain unclaimed for two (2) years after the date when such Bonds have become due and payable, either at their stated maturity dates or by call for earlier redemption, if such moneys were held by the Trustee at such date, or for two (2) years after the date of deposit of such moneys if deposited with the Trustee after said date when such Bonds become

due and payable, will be repaid by the Trustee to the Authority, as its absolute property and free from trust, and the Trustee will thereupon be released and discharged with respect thereto and the Bond Owners will look only to the Authority for the payment of such Bonds; provided, however, that before being required to make such payment to the Authority, the Trustee will, at the expense of Authority, cause to be mailed to the Owners of all such Bonds, at their respective addresses appearing on the Bond Register, a notice that said moneys remain unclaimed and that, after a date in said notice, which date will not be fewer than thirty (30) days after the date of mailing such notice, the balance of such moneys then unclaimed will be returned to the Authority.

Section 9.14. Payment Due on Other than a Business Day. If the date for making any payment or the last date for performance of any act or the exercising of any right, as provided in the Indenture, is not a Business Day, such payment, with no interest accruing for the period after such nominal date, may be made or act performed or right exercised on the next succeeding Business Day with the same force and effect as if done on the nominal date provided in this Indenture.

IN WITNESS WHEREOF, the Authority has caused this Indenture to be executed by the Treasurer of the Authority, attested by its Secretary, and the Trustee has caused this Indenture to be executed by one of its corporate trust officers, all as of the day and year first above written.

ROSEVILLE FINANCE AUTHORITY
SPECIAL TAX REVENUE REFUNDING BOND, SERIES 2017B

INTEREST RATE:	MATURITY DATE:	DATED DATE:	CUSIP:
%	September 1, _____	_____, 2017	

REGISTERED OWNER:

PRINCIPAL AMOUNT: AND NO/100 DOLLARS

The ROSEVILLE FINANCE AUTHORITY, a joint powers authority organized and existing under the laws of the State of California (the "Authority"), for value received, hereby promises to pay (but only out of the Revenues and other funds hereinafter referred to) to the Registered Owner identified above or registered assigns (the "Registered Owner"), on the Maturity Date identified above (subject to any right of prior redemption hereinafter mentioned), the Principal Amount identified above in lawful money of the United States of America; and to pay interest thereon at the Interest Rate identified above in like money from the Interest Payment Date (as hereinafter defined) next preceding the date of authentication of this Bond (unless this Bond is authenticated on or before an Interest Payment Date and after the fifteenth calendar day of the month preceding the month in which such Interest Payment Date occurs, in which event it will bear interest from such Interest Payment Date, or unless this Bond is authenticated on or prior to _____, 2017, in which event it will bear interest from the Dated Date identified above; provided, however, that if, at the time of authentication of this Bond, interest is in default on this Bond, this Bond will bear interest from the Interest Payment Date to which interest hereon has previously been paid or made available for payment), payable semiannually on March 1 and September 1 in each year, commencing March 1, 2018 (each, an "Interest Payment Date") until the Maturity Date stated above or date of redemption of this Bond. The Principal Amount is payable upon presentation and surrender at the Trust Office (as defined in the Indenture) of The Bank of New York Mellon Trust Company, N.A. (the "Trustee"). Interest hereon is payable by check of the Trustee mailed by first class mail, postage prepaid, on each Interest Payment Date to the Registered Owner at the address of the Registered Owner as it appears on the registration books of the Trustee as of the fifteenth calendar day of the month preceding the month in which such Interest Payment Date occurs; provided, however, that payment of interest may be made by wire transfer to an account in the United States of America to any registered owner of Bonds in the aggregate principal amount of \$1,000,000 or more upon written instructions of any such registered owner filed with the Trustee for that purpose as of the close of business on the fifteenth calendar day of the month preceding the month in which such Interest Payment Date occurs.

This Bond is a limited obligation of the Authority, payable solely from the Revenues and funds pledged under the Indenture (as defined herein). This Bond is not a debt of the City of Roseville (the "City") or the State of California or any of its political subdivisions (except the

Authority and only to the extent set forth in the Indenture), and none of said City, said State or any of its political subdivisions is liable hereon. The Authority has no taxing power.

This Bond is one of a duly authorized series of bonds of the Authority designated the "Roseville Finance Authority Special Tax Revenue Refunding Bonds, Series 2017B" (the "Bonds"), limited in principal amount to \$_____, secured by an Indenture of Trust dated as of _____, 2017 (the "Indenture"), between the Authority and the Trustee. Reference is hereby made to the Indenture and all indentures supplemental thereto for a description of the rights thereunder of the owners of the Bonds, of the nature and extent of the Revenues (as that term is defined in the Indenture), of the rights, duties and immunities of the Trustee and of the rights and obligations of the Authority thereunder; and all of the terms of the Indenture are hereby incorporated herein and constitute a contract between the Authority and the Registered Owner, and to all of the provisions of which Indenture the Registered Owner, by acceptance, assents and agrees.

The Bonds are authorized to be issued pursuant to the provisions of the Marks Roos Local Bond Pooling Act of 1985, as amended, constituting Article 4 (commencing with Section 6584) of Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (the "Act"). The Bonds are limited obligations of the Authority and, as and to the extent set forth in the Indenture, are payable solely from and secured by a first lien on and pledge of the Revenues and certain other funds held by the Trustee as provided in the Indenture. The Revenues and such other funds constitute a trust fund for the security and payment of the principal of and interest on the Bonds, except to the extent otherwise provided in the Indenture. The full faith and credit of the Authority is not pledged to the payment of the principal of or interest or redemption premiums (if any) on the Bonds. The Bonds are not secured by a legal or equitable pledge of, or charge, lien or encumbrance upon, any of the property of the Authority or any of its income or receipts, except the Revenues and such other funds as provided in the Indenture.

The Bonds have been issued to provide funds to purchase certain obligations of the City (the "CFD Bonds"). The City will take the proceeds that it receives from the sale of the CFD Bonds to the Authority to refund certain outstanding indebtedness of the City and to finance certain public capital improvements in the CFDs, all as more particularly described in the Indenture. The obligations of the City to make payments of principal and interest on the CFD Bonds are limited obligations secured only as set forth therein.

The Bonds maturing on or before September 1, _____, are not subject to optional redemption prior to maturity. The Bonds maturing on and after September 1, _____, may be redeemed at the option of the Authority, from any source of available funds, prior to maturity on any date on or after September 1, _____, as a whole, or in part from maturities corresponding proportionately to the maturities of the CFD Bonds simultaneously redeemed, if any redemption of CFD Bonds is being accomplished in conjunction with such optional redemption, and otherwise from such maturities as are selected by the Authority, and by lot within a maturity, at a redemption price equal to principal amount of the Bonds to be redeemed, plus accrued interest thereon to the date of redemption, without premium.

The Bonds are subject to mandatory special redemption on any Interest Payment Date from proceeds of early redemption of CFD Bonds from prepayment of Special Taxes, in whole or in part, from maturities corresponding proportionately to the maturities of the CFD Bonds simultaneously redeemed, at the principal amount thereof, plus a premium expressed below as a percentage of the principal amount so redeemed, plus accrued interest to the date of redemption thereof:

<u>Redemption Date</u>	<u>Redemption Premium</u>
On or after _____, through _____	3%
September 1, _____ and March 1, _____	2
September 1, _____ and March 1, _____	1
September 1, _____ and thereafter	0

The Bonds maturing on September 1, _____, are subject to redemption prior to their stated maturity, in part, by lot from amounts deposited into the Principal Account in the following amounts and on the following dates, at the principal amount thereof on the date fixed for redemption, without premium, but which amounts will be proportionately reduced by the principal amount of all Bonds optionally redeemed:

<u>Mandatory Redemption Dates</u> <u>(September 1)</u>	<u>Principal</u> <u>Amount</u>
---	-----------------------------------

* Maturity

The Trustee on behalf and at the expense of the Authority will mail by first class mail, postage prepaid, notice of any redemption to the respective owners of any Bonds designated for redemption, at their respective addresses appearing on the registration books maintained by the Trustee and to the Securities Depositories and to the Municipal Securities Rulemaking Board (as such terms are defined in the Indenture), at least thirty (30) but not more than sixty (60) days prior to the redemption date; provided, however, that neither failure to receive any such notice so mailed nor any defect therein will affect the validity of the proceedings for the redemption of such Bonds or the cessation of the accrual of interest thereon. The Authority has the right to rescind any redemption by written notice to the Trustee on or prior to the date fixed for redemption.

If this Bond is called for redemption and payment is duly provided therefor as specified in the Indenture, interest will cease to accrue hereon from and after the date fixed for redemption.

The Bonds are issuable as fully registered Bonds without coupons in denominations of \$5,000 or any integral multiple thereof. Subject to the limitations and upon payment of the charges, if any, provided in the Indenture, fully registered Bonds may be exchanged at the Trust Office of the Trustee for a like aggregate principal amount and maturity of fully registered Bonds of other authorized denominations.

This Bond is transferable by the Registered Owner, in person or by its attorney duly authorized in writing, at the Trust Office of the Trustee, but only in the manner, subject to the limitations and upon payment of the charges provided in the Indenture, and upon surrender and cancellation of this Bond. Upon such transfer a new fully registered Bond or Bonds, of authorized denomination or denominations, for the same aggregate principal amount will be issued to the transferee in exchange herefor. The Trustee will not be required to register the

transfer or exchange of any Bond (i) during 15 days prior to selection of Bonds for redemption, or (ii) selected for redemption.

The Authority and the Trustee may treat the Registered Owner as the absolute owner for all purposes, and the Authority and the Trustee will not be affected by any notice to the contrary. The Indenture and the rights and obligations of the Authority and of the owners of the Bonds and of the Trustee may be modified or amended from time to time and at any time in the manner, to the extent, and upon the terms provided in the Indenture; provided that no such modification or amendment will (a) extend the maturity of or reduce the interest rate on any Bond or otherwise alter or impair the obligation of the Authority to pay the principal, interest or redemption premiums at the time and place and at the rate and in the currency provided therein of any Bond without the express written consent of the owner of such Bond, (b) reduce the percentage of Bonds required for the written consent to any such amendment or modification, or (c) without its written consent thereto, modify any of the rights or obligations of the Trustee, all as more fully set forth in the Indenture.

It is hereby certified by the Authority that all things, conditions and acts required to exist, to have happened and to have been performed precedent to and in the issuance of this Bond do exist, have happened and have been performed in due time, form and manner as required by the Constitution and statutes of the State of California and by the Act, and that the amount of this Bond, together with all other indebtedness of the Authority, does not exceed any limit prescribed by the Constitution or statutes of the State of California or by the Act.

This Bond will not be entitled to any benefit under the Indenture, or become valid or obligatory for any purpose, until the certificate of authentication hereon will have been signed by the Trustee.

IN WITNESS WHEREOF, the ROSEVILLE FINANCE AUTHORITY has caused this Bond to be executed in its name and on its behalf by the facsimile signature of its Treasurer and attested by the facsimile signature of its Secretary, all as of the date set forth above.

EXHIBIT A FORM OF SPECIAL TAX BOND, SERIES 2017

FISCAL AGENT AGREEMENT

THIS FISCAL AGENT AGREEMENT (this "Fiscal Agent Agreement") is made and entered into as of _____ 1, 2017, between the City of Roseville, a charter city organized and existing under and by virtue of the Constitution and laws of the State of California (the "City"), for and on behalf of the City's Stone Point Community Facilities District No. 1 (the "CFD"), and The Bank of New York Mellon Trust Company, N.A., a national banking association organized and existing under the laws of the United States of America, as fiscal agent (the "Fiscal Agent"), and governs the terms of the City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017 (the "Bonds") issued in accordance herewith from time to time.

BACKGROUND :

1. The City Council of the City has conducted proceedings under and pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code (the "Act"), to form the CFD, to authorize the levy of special taxes upon the land within the CFD, and to issue bonds secured by said special taxes the proceeds of which special taxes and which bonds were to be used to finance certain public improvements, all as described in those proceedings.

2. Under the provisions of the Act, on behalf of the CFD, the City has previously issued \$11,285,000 original principal amount of Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003 (the "Prior Bonds") pursuant to a Fiscal Agent Agreement, dated as of March 1, 2003, between the City and The Bank of New York Mellon Trust Company, N.A. (the "Prior Bonds Fiscal Agent").

3. The City wishes to refinance the Prior Bonds to take advantage of current interest rates, which refinancing will result in the redemption on a current basis all of the remaining outstanding Prior Bonds.

4. The Prior Bonds are subject to redemption on September 1, 2017, in whole or in part, at a redemption price equal to 100% of the principal amount of the Prior Bonds to be redeemed, plus accrued interest to the date fixed for redemption.

5. On _____, 2017, for the purpose of refinancing the Prior Bonds, the City Council adopted Resolution No. _____ (the "Resolution") authorizing the issuance and sale of the Bonds by the City for and on behalf of the CFD pursuant to this Fiscal Agent Agreement, which Special Tax Refunding Bonds will be issued in a single series.

6. The City has determined that it is in the public interest and for the benefit of the City, the persons responsible for the payment of special taxes and the owners of the Bonds that the City enter into this Fiscal Agent Agreement to provide for the issuance of the Bonds, the disbursement of proceeds of the Bonds, the disposition of the special taxes securing the bonds, and the administration and payment of the Bonds.

7. The Roseville Finance Authority wishes to assist the City with the refinancing of the Prior Bonds by purchasing the Bonds.

8. The City has determined that all things necessary to cause the bonds, when authenticated by the Fiscal Agent and issued as provided in the Act, the Resolution and this Fiscal Agent Agreement, to be legal, valid and binding and limited obligations in accordance with their terms, and all things necessary to cause the creation, authorization, execution and delivery of this Fiscal Agent Agreement and the creation, authorization, execution and issuance of the Bonds, subject to the terms, have in all respects been duly authorized.

NOW, THEREFORE, in order to establish the terms and conditions upon and subject to which the Bonds are to be issued, and in consideration of the premises and of the mutual covenants contained herein and of the purchase and acceptance of the Bonds by the Owners thereof, and for other valuable consideration, the receipt of which is hereby acknowledged, the City does hereby covenant and agree, for the benefit of the Owners of the Bonds as follows:

ARTICLE I

DEFINITIONS

Section 1.1. Definitions. Unless the context otherwise requires, the following terms will have the following meanings:

“Account” means any account created pursuant to this Fiscal Agent Agreement.

“Act” means the Mello-Roos Community Facilities Act of 1982, as amended, Sections 53311 et seq. of the California Government Code.

“Administrative Expenses” means any or all of the following:

(a) the expenses directly related to the administration of the CFD, including, but not limited to, the costs of computing the Special Taxes and preparing the annual Special Tax collection schedules (whether by the City or a designee thereof or both); the costs of collecting the Special Taxes (whether by the County, the City or otherwise); the costs of remitting the Special Taxes to the Fiscal Agent; the costs associated with preparing Special Tax disclosure statements and responding to the public inquiries regarding the Special Taxes; the costs of the City, the CFD or any designee thereof related to an appeal of the Special Tax;

(b) the costs of the Fiscal Agent (including its legal counsel) in the discharge of the duties of the Fiscal Agent pertaining to the Bonds required under this Fiscal Agent Agreement and any Supplemental Agreement;

(c) the costs of the City or any designee thereof of complying with the City, the CFD or the Authority disclosure requirements associated with applicable federal or state securities laws of the Act pertaining to the bonds;

(d) the Authority Administrative Expenses (as defined in the Authority Indenture);

(e) any amounts required to be rebated to the federal government; and

(f) all other costs and expenses of the City (including, but not limited to, an allocable share of the salaries of the City staff directly related to the foregoing, a proportionate amount of City general administrative overhead related to the foregoing, and amounts advanced by the City for any administrative purpose of the CFD, including costs related to prepayments of Special Taxes, recordings related to such prepayments and satisfaction of Special Taxes, amounts advanced to ensure maintenance of tax exemption, and the costs of prosecuting foreclosure of delinquent Special Taxes, which amounts advanced are subject to reimbursement from other sources, including proceeds of foreclosure) and the Fiscal Agent incurred in connection with the discharge of their respective duties hereunder and in any way related to the administration of the CFD and all actual costs and expenses incurred in connection with the administration of the Bonds.

“Administrative Expenses Cap” means (i) for fiscal year 2017-18, \$35,000 and (ii) for each subsequent year, an amount equal to the preceding fiscal year's Administrative Expenses Cap plus an additional 2% of such amount.

“Annual Debt Service” means the principal amount of any Outstanding Bonds payable in a Bond Year either at maturity or pursuant to a Sinking Fund Payment and any interest payable on any Outstanding Bonds in such Bond Year, if the Bonds are retired as scheduled.

“Authority” means the Roseville Finance Authority.

“Authority Bonds” means any bonds outstanding under the Authority Indenture, which are secured in part by payments made on the Bonds.

“Authority Indenture” means that certain Indenture of Trust, dated as of _____ 1, 2017, between the Authority and the Authority Trustee, pursuant to which the Authority Bonds are issued.

“Authority Trustee” means The Bank of New York Mellon Trust Company, N.A. or any successor thereto appointed pursuant to the Authority Indenture.

“Authorized Investments” means any of the following which at the time of investment are legal investments under the laws of the State of California for the moneys proposed to be invested therein, but only to the extent that the same are acquired at Fair Market Value:

(a) Federal Securities;

(b) any of the following direct or indirect obligations of the following agencies of the United States of America: (i) direct obligations of the Export-Import Bank; (ii) certificates of beneficial ownership issued by the Farmers Home Administration; (iii) participation certificates issued by the General Services Administration; (iv) mortgage-backed bonds or pass-through obligations issued and guaranteed by the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation or the Federal Housing Administration; (v) project notes issued by the United States Department of Housing and Urban Development; and (vi) public housing notes and bonds guaranteed by the United States of America;

(c) interest-bearing demand or time deposits (including certificates of deposit) or deposit accounts in federal or state chartered savings and loan associations or in federal or State of California banks (including the Fiscal Agent and its affiliates), provided that (i) the unsecured short-term obligations of such commercial bank or savings and loan association will be rated in the highest short-term rating category by any Rating Agency or (ii) such demand or time deposits will be fully insured by the Federal Deposit Insurance Corporation;

(d) commercial paper rated at the time of purchase in the highest short-term rating category by any Rating Agency, issued by corporations which are organized and operating within the United States of America, and which matures not more than 180 days following the date of investment therein;

(e) bankers acceptances, consisting of bills of exchange or time drafts drawn on and accepted by a commercial bank whose short-term obligations are rated in the highest short-term rating category by any Rating Agency or whose long-term obligations are rated A or better by each such Rating Agency, which mature not more than 270 days following the date of investment therein;

(f) obligations the interest on which is excludable from gross income pursuant to Section 103 of the Tax Code and which are either (a) rated A or better by any Rating Agency or (b) fully secured as to the payment of principal and interest by Federal Securities;

(g) obligations issued by any corporation organized and operating within the United States of America having assets in excess of Five Hundred Million Dollars (\$500,000,000), which obligations are rated A or better by any Rating Agency;

(h) money market funds (including money market funds for which the Fiscal Agent, its affiliates or subsidiaries provide investment advisory or other management services) which invest in Federal Securities or which are rated in the highest rating category by any Rating Agency;

(i) any investment agreement, repurchase agreement or other investment instrument which represents the general unsecured obligations of a bank, investment banking firm or other financial institution whose long-term obligations are rated at the time of the delivery of the investment agreement, repurchase agreement or other investment instrument A or better by any Rating Agency; and

(j) shares in a California common law trust established pursuant to Title 1, Division 7, Chapter 5 of the Government Code of the State of California that invests exclusively in investments permitted by Section 53601 of Title 5, Division 2, Chapter 4 of the California Government Code, as it may be amended (California Asset Management Program); and

(k) the Local Agency Investment Fund of the State, created pursuant to Section 16429.1 of the California Government Code.

“Authorized Representative of the City” means the Mayor, City Manager, Chief Financial Executive, Treasurer, Finance Director, City Attorney or City Clerk, or any other person or persons designated by a written certificate signed on behalf of the City by the City Manager or Finance Director of the City and containing the specimen signature of each such person.

“Authorizing Documents” means this Fiscal Agent Agreement, the Bonds and any additional or supplemental agreement executed in connection with the Bonds.

“Bond Counsel” means Jones Hall, A Professional Law Corporation, and its successors; or any other attorney at law or firm of attorneys selected by the Authority, of nationally recognized standing in matters pertaining to the federal tax exemption of interest on bonds issued by states and political subdivisions, and duly admitted to practice law before the highest court of any state of the United States of America.

“Bond Register” means the books which the Fiscal Agent will keep or cause to be kept on which the registration and transfer of the Bonds will be recorded.

“Bondowner” or “Owner” means the person or persons in whose name or names any Bond is registered.

“Bonds” means the Bonds issued hereunder, including the \$_____ City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017.

“Bond Year” means each twelve month period extending from September 2 in one calendar year to September 1 of the succeeding calendar year, except in the case of the initial Bond Year which will be the period from the Closing Date to September 1, 2017, both dates inclusive.

“Business Day” means a day which is not a Saturday or Sunday or a day of the year on which the New York Stock Exchange or banks in New York, New York or Los Angeles, California, or the city where the corporate trust office of the Fiscal Agent is located, are not required or authorized to remain closed.

“Certificate of an Authorized Representative” means a written certificate or warrant request executed by an Authorized Representative of the City.

“CFD” means City of Roseville Stone Point Community Facilities District No. 1 established pursuant to the Act and the Resolution of Formation.

“City” means the City of Roseville, a municipal corporation and general law city duly established and existing under the Constitution and laws of the State of California.

“Closing Date” means the date upon which there is a physical delivery of the Bonds in exchange for the amount representing the purchase price of the Bonds by the Original Purchaser, being _____, 2017.

“Code” means the Internal Revenue Code of 1986 as in effect on the date of issuance of the Bonds or (except as otherwise referenced herein) as it may be amended to apply to obligations issued on the Closing Date, together with applicable temporary and final regulations promulgated, and applicable official guidance published, under the Code.

“Costs of Issuance” will have the meaning set forth in the Authority Indenture.

“Costs of Issuance Fund” will have the meaning set forth in the Authority Indenture.

“Delivery Date” means the date on which the bonds of such issue were issued and delivered to the initial purchasers thereof.

“Escrow Agent” means The Bank of New York Mellon Trust Company, N.A.

“Escrow Agreement” means the Escrow Agreement dated as of _____ 1, 2017, among the City, the Authority and the Escrow Agent.

"Escrow Fund" means the CFD 1 Escrow Account established pursuant to the Escrow Agreement.

"Fair Market Value" means, with respect to any investment, the price at which a willing buyer would purchase such investment from a willing seller in a bona fide, arm's length transaction (determined as of the date the contract to purchase or sell the investment becomes binding) if the investment is traded on an established securities market (within the meaning of Section 1273 of the Code) and, otherwise, the term "Fair Market Value" means the acquisition price in a bona fide arm's length transaction (as described above) if (i) the investment is a certificate of deposit that is acquired in accordance with applicable regulations under the Code, (ii) the investment is an agreement with specifically negotiated withdrawal or reinvestment provisions and a specifically negotiated interest rate (for example, a guaranteed investment contract, a forward supply contract or other investment agreement) that is acquired in accordance with applicable regulations under the Code, (iii) the investment is a United States Treasury Security - State and Local Government Series that is acquired in accordance with applicable regulations of the United States Bureau of Public Debt, or (iv) any commingled investment fund in which the Authority and related parties do not own more than a ten percent (10%) beneficial interest therein if the return paid by the fund is without regard to the source of the investment.

"Federal Securities" means any of the following:

- (a) Cash (insured at all times by the Federal Deposit Insurance Corporation).
- (b) Obligations of, or obligations guaranteed as to principal and interest by, the U.S. or any agency or instrumentality thereof, when such obligations are backed by the full faith and credit of the U.S. including:
 - U.S. treasury obligations
 - All direct or fully guaranteed obligations
 - Farmers Home Administration
 - General Services Administration
 - Guaranteed Title XI financing
 - Government National Mortgage Association (GNMA)
 - State and Local Government Series

"Finance Director" means the official of the City, or such official's designee, who acts in the capacity as the chief financial officer of the City, including the controller or other financial officer.

"Fiscal Agent" means The Bank of New York Mellon Trust Company, N.A., a national banking association organized and existing under the laws of the United States of America, at its principal corporate trust office in Seattle, Washington, and its successors or assigns, or any other bank or trust company which may at any time be substituted in its place as provided in Sections 7.2 or 7.3 and any successor thereto.

"Fiscal Agent Agreement" means this Fiscal Agent Agreement, together with any Supplemental Agreement approved pursuant to Article 6.

“Fiscal Year” means the period beginning on _____ 1 of each year and ending on the next following June 30.

“Gross Taxes” means the proceeds of the Special Taxes received by the City, including any scheduled payments and any prepayments thereof, interest thereon and proceeds of the redemption or sale of property sold as a result of foreclosure of the lien of the Special Taxes to the amount of said lien and interest thereon. “Gross Taxes” does not include any penalties collected in connection with delinquent Special Taxes or any interest in excess of the interest due on the Bonds.

“Independent Financial Consultant” means a financial consultant or firm of such consultants generally recognized to be well qualified in the financial consulting field, appointed and paid by the City, who, or each of whom:

- (1) is in fact independent and not under the domination of the City;
- (2) does not have any substantial interest, direct or indirect, in the City; and
- (3) is not connected with the City as a member, officer or employee of the City, but who may be regularly retained to make annual or other reports to the City.

“Interest Payment Date” means each March 1 and September 1, commencing March 1, 2018; provided, however, that, if any such day is not a Business Day, interest up to the Interest Payment Date will be paid on the Business Day next preceding such date.

“Maximum Annual Debt Service” means the maximum sum obtained for any Bond Year prior to the final maturity of the Bonds by adding the following for each Bond Year:

- (1) the principal amount of all Outstanding Bonds payable in such Bond Year either at maturity or pursuant to a Sinking Fund Payment; and
- (2) the interest payable on the aggregate principal amount of all Bonds Outstanding in such Bond Year if the Bonds are retired as scheduled.

“Net Taxes” means Gross Taxes minus the Administrative Expenses in an amount not to exceed the Administrative Expenses Cap.

“Original Purchaser” means the first purchaser of the Bonds from the City.

“Outstanding” or “Outstanding Bonds” means all Bonds theretofore issued by the City, except:

- (1) Bonds theretofore cancelled or surrendered for cancellation in accordance with Section 9.4;
- (2) Bonds for payment or redemption of which monies will have been theretofore deposited in trust (whether upon or prior to the maturity or the redemption date of such Bonds), provided that, if such Bonds are to be redeemed prior to the maturity thereof, notice of such redemption will have been given as provided in this Fiscal Agent Agreement or any applicable Supplemental Agreement; and

(3) Bonds which have been surrendered to the Fiscal Agent for transfer or exchange pursuant to Section 2.9 or for which a replacement has been issued pursuant to Section 2.10.

"Person" means natural persons, firms, corporations, partnerships, associations, trusts, public bodies and other entities.

"Prepayments" means any amounts paid by the City to the Fiscal Agent and designated by the City as a prepayment of Special Taxes for one or more parcels in the CFD made in accordance with the Rate and Method of Apportionment of Special Taxes attached to the Resolution of Formation.

"Principal Office of the Fiscal Agent" means the office of the Fiscal Agent located in located in Seattle, Washington, or such other office or offices as the Fiscal Agent may designate from time to time, or the office of any successor Fiscal Agent where it principally conducts its business of serving as trustee under indentures pursuant to which municipal or governmental obligations are issued.

"Prior Bonds" means the City of Roseville Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003 issued in the original principal amount of \$11,285,000.

"Prior Bonds Fiscal Agent" means The Bank of New York Mellon Trust Company, N.A., as fiscal agent with respect to the Prior Bonds under the Prior Bonds Fiscal Agent Agreement.

"Project" means those items described as "Facilities" in the Resolution of Formation.

"Rating Agency" means Standard & Poor's or, in the event that Standard & Poor's no longer maintains a rating on the Bonds, any other nationally recognized bond rating agency then maintaining a rating on the Bonds, but, in each instance, only so long as Standard & Poor's or other nationally recognized rating agency then maintains a rating on the Bonds.

"Record Date" means the fifteenth day of the month preceding an Interest Payment Date, regardless of whether such day is a Business Day.

"Reserve Account" means the account by that name created and established in the Special Tax Fund pursuant to Section 3.1.

"Reserve Account Credit Instrument" means an irrevocable standby or direct-pay letter of credit or surety bond issued by a commercial bank or insurance company, provided that all of the following requirements are met:

(a) the long-term credit rating of such bank or insurance company from either Moody's Ratings Services or Standard & Poor's is "AA" category or better at the time of purchase (without regard to numerical or other modification);

(b) such letter of credit or surety bond has a term of at least 12 months;

(c) such letter of credit or surety bond has a stated amount at least equal to the portion of the Reserve Requirement with respect to which funds are proposed to be released pursuant to Section 3.6; and

(d) the Fiscal Agent is authorized under such letter of credit or surety bond to draw thereunder an amount equal to any deficiencies which may exist from time to time in the Interest Account or the Principal Account for the purpose of making payments required hereunder.

“Reserve Requirement” means as of any date of calculation, an amount equal to the least of: (i) Maximum Annual Debt Service on the Outstanding Bonds; (ii) 10% of the initial principal amount of the Bonds, or (iii) 125% of average Annual Debt Service on the Outstanding Bonds; provided that, if the Reserve Account is funded with cash, the “Reserve Requirement” may not exceed an amount that, pursuant to the Code, may be borrowed and invested at an unrestricted yield when all debt service reserve accounts maintained with respect to all bonds (including the Bonds) issued in conjunction with the Authority Bonds are taken into consideration and, in such event, the “Reserve Requirement” shall automatically be adjusted downward to the level that meets the requirements of the Code.

“Resolution of Formation” means Resolution No. 03-84, adopted by the City Council of the City on February 19, 2003, establishing the CFD for the purpose of providing for the financing of certain public facilities in and for the CFD.

“Sinking Fund Payment” means the annual payment to be deposited in the Redemption Account to redeem a portion of the Term Bonds in accordance with the schedule set forth in Section 4.1(b).

“Special Tax Fund” means the fund by that name created and established pursuant to Section 3.1.

“Special Taxes” means the taxes authorized to be levied by the City on property within the CFD in accordance with the Resolution of Formation, the Act and the voter approval obtained at an election in the CFD.

“Standard & Poor’s” means S&P Global Ratings, a Standard & Poor’s Financial Services LLC business, its successors and assigns.

“Supplemental Agreement” means any Supplemental Agreement amending or supplementing this Fiscal Agent Agreement.

“Surplus Fund” means the fund by that name created and established pursuant to Section 3.1.

“Term Bonds” means the Bonds subject to mandatory sinking fund redemption.

ARTICLE II

GENERAL AUTHORIZATION AND BOND TERMS

Section 2.1. Amount, Issuance and Purpose of Bonds. Under and pursuant to the Act, the City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017 in the aggregate principal amount of \$ _____ will be issued for the purposes of refunding and defeasing the Prior Bonds, funding a reserve fund and funding a portion of the Costs of Issuance.

Section 2.2. Type and Nature of Bonds. Subject to the provisions of Section 8.1, the Bonds will be secured by a first lien on and pledge of all the Net Taxes and amounts in the Special Tax Fund. Neither the faith and credit nor the taxing power of the City, the State of California or any political subdivision thereof other than the City is pledged to the payment of the Bonds. Except for the Net Taxes, no other taxes are pledged to the payment of the Bonds. The Bonds are not general obligations of the City, but are limited obligations of the City payable solely from certain amounts deposited by the City in the Special Tax Fund, as more fully described herein. The City's limited obligation to pay the principal of, premium, if any, and interest on the Bonds from amounts in the Special Tax Fund is absolute and unconditional, free of deductions and without any abatement, offset, recoupment, diminution or set-off whatsoever. No Owner of the Bonds may compel the exercise of the taxing power by the City (except the Special Taxes) or the forfeiture of any of its property. The principal of and interest on the Bonds and premiums upon the redemption thereof, if any, are not a debt of the City, the State of California or any of its political subdivisions within the meaning of any constitutional or statutory limitation or restriction. The Bonds are not a legal or equitable pledge, charge, lien, or encumbrance upon any of the City's property, or upon any of its income, receipts or revenues, except the Net Taxes and other amounts in the Special Tax Fund which are, under the terms of this Fiscal Agent Agreement and the Act, set aside for the payment of the Bonds and interest thereon and neither the members of the City Council of the City nor any persons executing the Bonds are liable personally on the Bonds by reason of their issuance.

Notwithstanding anything to the contrary contained in this Fiscal Agent Agreement, the City will not be required to advance any money derived from any source of income other than the Net Taxes for the payment of the interest on or the principal of the Bonds, or for the performance of any covenants contained herein. The City may, however, advance funds for any such purpose, provided that such funds are derived from a source legally available for such purpose.

Section 2.3. Equality of Bonds and Pledge of Net Taxes. Pursuant to the Act and this Fiscal Agent Agreement, the Bonds will be equally secured by a pledge of and payable from the Net Taxes and other amounts in the Special Tax Fund, without priority for number, date of the Bonds, date of sale, date of execution, or date of delivery, and the payment of the interest on and principal of the Bonds and premiums upon the redemption thereof, will be exclusively paid from the Net Taxes and other amounts in the Special Tax Fund, which are hereby set aside for the payment of the Bonds. Amounts in the Special Tax Fund will constitute a trust fund held for the benefit of the Owners to be applied to the payment of the interest on and principal of the Bonds and so long as any of the Bonds or interest thereon remain Outstanding will not be used for any other purpose, except as permitted by this Fiscal Agent Agreement or any Supplemental Agreement. Notwithstanding any provision contained in this Fiscal Agent Agreement to the contrary, Net Taxes deposited in the Surplus Fund will no longer be considered to be pledged to

the Bonds, and none of the Surplus Fund, or amounts for Administrative Expenses retained by the City will be construed as a trust fund held for the benefit of the Owners.

Nothing in this Fiscal Agent Agreement or any Supplemental Agreement will preclude; (a) the redemption prior to maturity of any Bonds subject to call and redemption and payment of said Bonds from proceeds of refunding bonds issued under the Act as the same now exists or as hereafter amended, or under any other law of the State of California; or (b) the issuance, subject to the limitations contained herein, of bonds to refund a portion of the Bonds with bonds payable from Net Taxes on parity to Bonds remaining outstanding.

Section 2.4. Description of Bonds; Interest Rates. The Bonds will be issued in fully registered form in denominations of \$5,000 or any integral multiple thereof. The Bonds of each issue will be numbered as desired by the Fiscal Agent.

The Bonds will be designated "CITY OF ROSEVILLE STONE POINT COMMUNITY FACILITIES DISTRICT NO. 1 SPECIAL TAX REFUNDING BONDS, SERIES 2017." The Bonds will be dated as of their Delivery Date and will mature and be payable on September 1 in the years and in the aggregate principal amounts and will be subject to and will bear interest at the rates set forth in the table below, payable on March 1, 2018 and each Interest Payment Date thereafter:

<u>Maturity Date</u> <u>(September 1)</u>	<u>Principal</u> <u>Amount</u>	<u>Interest Rate</u> <u>Per Annum</u>
--	-----------------------------------	--

Interest will be payable on each Bond from the date established in accordance with Section 2.5 below on each Interest Payment Date thereafter until the principal sum of that Bond has been paid; provided, however, that if at the maturity date of any Bond funds are available for the payment or redemption thereof in full, in accordance with the terms of this Fiscal Agent

Agreement, such Bonds will then cease to bear interest. Interest due on the Bonds will be calculated on the basis of a 360-day year comprised of twelve 30-day months.

Section 2.5. Place and Form of Payment. The Bonds will be payable both as to principal and interest, and as to any premiums upon the redemption thereof, in lawful money of the United States of America. The principal of the Bonds and any premiums due upon the redemption thereof will be payable upon presentation and surrender thereof at the Principal Office of the Fiscal Agent, or at the designated office of any successor Fiscal Agent. Interest on any Bond will be payable from the Interest Payment Date next preceding the date of authentication of that Bond, unless (i) such date of authentication is an Interest Payment Date in which event interest will be payable from such date of authentication, (ii) the date of authentication is after a Record Date but prior to the immediately succeeding Interest Payment Date, in which event interest will be payable from the Interest Payment Date immediately succeeding the date of authentication, or (iii) the date of authentication is prior to the close of business on the first Record Date occurring after the issuance of such Bond, in which event interest will be payable from the dated date of such Bond; provided, however, that if at the time of authentication of such Bond, interest is in default, interest on that Bond will be payable from the last Interest Payment Date to which the interest has been paid or made available for payment or, if no interest has been paid or made available for payment on that Bond, interest on that Bond will be payable from its dated date. Interest on any Bond will be paid to the person whose name will appear in the Bond Register as the Owner of such Bond as of the close of business on the Record Date. Such interest will be paid by check of the Fiscal Agent mailed by first class mail, postage prepaid, to such Bondowner at his or her address as it appears on the Bond Register. In addition, upon a request in writing received by the Fiscal Agent on or before the applicable Record Date from an Owner of \$1,000,000 or more in principal amount of the Bonds, payment will be made on the Interest Payment Date by wire transfer in immediately available funds to an account designated by such Owner.

Section 2.6. Form of Bonds. The Bonds and the certificate of authentication will be substantially in the form attached hereto as Exhibit A, which forms are hereby approved and adopted as the forms of such Bonds and of the certificate of authentication.

Notwithstanding any provision in this Fiscal Agent Agreement to the contrary, the City may, in its sole discretion, elect to issue the Bonds in book entry form.

Until definitive Bonds will be prepared, the City may cause to be executed and delivered in lieu of such definitive Bonds temporary bonds in fully registered form, subject to the same provisions, limitations and conditions as are applicable in the case of definitive Bonds, except that they may be in any denominations authorized by the City. Until exchanged for definitive Bonds, any temporary bond will be entitled and subject to the same benefits and provisions of this Fiscal Agent Agreement as definitive Bonds. If the City issues temporary Bonds, it will execute and furnish definitive Bonds without unnecessary delay and thereupon any temporary Bond may be surrendered to the Fiscal Agent at its office, without expense to the Owner, in exchange for a definitive Bond of the same issue, maturity, interest rate and principal amount in any authorized denomination. All temporary Bonds so surrendered will be cancelled by the Fiscal Agent and will not be reissued.

Section 2.7. Execution and Authentication. The Bonds will be signed on behalf of the City by the manual or facsimile signature of the Finance Director and by the manual or facsimile signature of the City Clerk, or any duly appointed deputy City Clerk, in their capacity as officers of the City, and the seal of the City (or a facsimile thereof) will be impressed, imprinted,

engraved or otherwise reproduced thereon, and attested by the signature of the City Clerk. In case any one or more of the officers who will have signed or sealed any of the Bonds will cease to be such officer before the Bonds so signed and sealed have been authenticated and delivered by the Fiscal Agent (including new Bonds delivered pursuant to the provisions with reference to the transfer and exchange of Bonds or to lost, stolen, destroyed or mutilated Bonds), such Bonds will nevertheless be valid and may be authenticated and delivered as herein provided, and may be issued as if the person who signed or sealed such Bonds had not ceased to hold such office.

Only the Bonds as will bear thereon such certificate of authentication in the form set forth in Exhibit A attached hereto will be entitled to any right or benefit under this Fiscal Agent Agreement, and no Bond will be valid or obligatory for any purpose until such certificate of authentication will have been duly executed by the Fiscal Agent.

Section 2.8. Bond Register. The Fiscal Agent will keep or cause to be kept, at its office, sufficient books for the registration and transfer of the Bonds which will upon reasonable prior notice be open to inspection by the City during all regular business hours, and, subject to the limitations set forth in Section 2.9 below, upon presentation for such purpose, the Fiscal Agent will, under such reasonable regulations as it may prescribe, register or transfer or cause to be transferred on said Bond Register, Bonds as herein provided.

The City and the Fiscal Agent may treat the Owner of any Bond whose name appears on the Bond Register as the absolute Owner of that Bond for any and all purposes, and the City and the Fiscal Agent will not be affected by any notice to the contrary. The City and the Fiscal Agent may rely on the address of the Bondowner as it appears in the Bond Register for any and all purposes. It will be the duty of the Bondowner to give written notice to the Fiscal Agent of any change in the Bondowner's address so that the Bond Register may be revised accordingly.

Section 2.9. Registration of Exchange or Transfer. Subject to the limitations set forth in the following paragraph, the registration of any Bond may, in accordance with its terms, be transferred upon the Bond Register by the person in whose name it is registered, in person or by his or her duly authorized attorney, upon surrender of such Bond for cancellation at the office of the Fiscal Agent, accompanied by delivery of written instrument of transfer in a form acceptable to the Fiscal Agent and duly executed by the Bondowner or his or her duly authorized attorney.

Bonds may be exchanged at the office of the Fiscal Agent for a like aggregate principal amount of Bonds for other authorized denominations of the same maturity and issue. The Fiscal Agent will not collect from the Owner any charge for any new Bond issued upon any exchange or transfer, but will require the Bondowner requesting such exchange or transfer to pay any tax or other governmental charge required to be paid with respect to such exchange or transfer. Whenever any Bonds will be surrendered for registration of transfer or exchange, the City will execute and the Fiscal Agent will authenticate and deliver a new Bond or Bonds of the same issue and maturity, for a like aggregate principal amount; provided that the Fiscal Agent will not be required to register transfers or make exchanges of (i) Bonds for a period of 15 days next preceding any selection of the Bonds to be redeemed, or (ii) any Bonds chosen for redemption.

Section 2.10. Mutilated, Lost, Destroyed or Stolen Bonds. If any Bond will become mutilated, the City will execute, and the Fiscal Agent will authenticate and deliver, a new Bond of like tenor, date, issue and maturity in exchange and substitution for the Bond so mutilated,

but only upon surrender to the Fiscal Agent of the Bond so mutilated. Every mutilated Bond so surrendered to the Fiscal Agent will be cancelled by the Fiscal Agent pursuant to Section 9.4. If any Bond will be lost, destroyed or stolen, evidence of such loss, destruction or theft may be submitted to the Fiscal Agent and, if such evidence is satisfactory to the Fiscal Agent and, if any indemnity satisfactory to the Fiscal Agent will be given, the City will execute and the Fiscal Agent will authenticate and deliver, a new Bond of like tenor, maturity and issue, numbered and dated as the Fiscal Agent will determine in lieu of and in substitution for the Bond so lost, destroyed or stolen. Any Bond issued in lieu of any Bond alleged to be mutilated, lost, destroyed or stolen, will be equally and proportionately entitled to the benefits with all other Bonds issued hereunder. The Fiscal Agent will not treat both the original Bond and any replacement Bond as being Outstanding for the purpose of determining the principal amount of Bonds which may be executed, authenticated and delivered hereunder or for the purpose of determining any percentage of Bonds Outstanding hereunder, but both the original and replacement Bond will be treated as one and the same. Notwithstanding any other provision of this Section, in lieu of delivering a new Bond which has been mutilated, lost, destroyed or stolen, and which has matured, the Fiscal Agent may make payment with respect to such Bonds

Section 2.11. Validity of Bonds. The validity of the authorization and issuance of the Bonds will not be affected in any way by any defect in any proceedings taken by the City for the refunding of the Prior Bonds, and the recital contained in the Bonds that the same are issued pursuant to the Act and other applicable laws of the State will be conclusive evidence of their validity and of the regularity of their issuance.

ARTICLE III

CREATION OF FUNDS AND APPLICATION OF PROCEEDS

Section 3.1. Creation of Funds; Application of Proceeds.

(a) Creation of Funds. There is hereby created and established and will be maintained by the Fiscal Agent the following funds and accounts:

- (1) The Community Facilities District No. 1 Special Tax Fund (the "Special Tax Fund") (in which there will be established and created an Interest Account, a Principal Account, a Redemption Account, and a Reserve Account); and
- (2) The Community Facilities District No. 1 Surplus Fund (the "Surplus Fund").

The amounts on deposit in the foregoing funds, accounts and subaccounts will be held by the Fiscal Agent and the Fiscal Agent will invest and disburse the amounts in such funds, accounts and subaccounts in accordance with the provisions of this Article 3 and will disburse investment earnings thereon in accordance with the provisions of Section 3.8.

(b) Application of Proceeds. Proceeds received from the Authority Trustee or deemed to have been received from the Authority Trustee from the sale of the Bonds to the Authority Trustee in the amount of \$_____ (being 100% of the aggregate principal amount thereof (\$_____) plus a net original issue premium of \$_____), which includes the amount of \$_____ (which is the amount of the compensation to be paid from proceeds of the Bonds to the underwriter of the Authority Bonds, which will be deemed to have been received from the Authority Trustee), will be deposited or transferred on the Delivery Date as follows:

(i) \$_____ of the proceeds of the sale of the Bonds will be received by the Fiscal Agent and deposited into the Escrow Fund to be used to redeem the Prior Bonds pursuant to the terms of the Escrow Agreement.

(ii) \$_____ of the proceeds of the sale of the Bonds will be received by the Fiscal Agent and deposited into the Reserve Account of the Special Tax Fund.

(iii) \$_____ of the proceeds of the sale of the Bonds representing the portion of the Costs of Issuance allocable to the Bonds will be deemed to have been received from the Authority Trustee and will be deposited by the Authority Trustee into the Cost of Issuance Fund.

(iv) \$_____ will be deemed to have been received from the Authority Trustee and paid by the City to the underwriter of the Authority Bonds.

The Fiscal Agent may, in its discretion, establish a temporary fund or account in its books and records to facilitate such transfers.

Section 3.2. Deposits to and Disbursements from Special Tax Fund.

(a) Except for the portion of any Prepayment to be deposited to the Redemption Account as specified in a Certificate of an Authorized Representative of the City, and the Fiscal Agent will, on each date on which the Net Taxes are received from the City (pursuant to Section 5.2(a)), deposit the Net Taxes in the Special Tax Fund to be held in trust for the Owners. The Fiscal Agent will transfer the Net Taxes on deposit in the Special Tax Fund on the dates and in the amounts set forth in the following Sections, in the following order of priority, to:

- (1) The Interest Account of the Special Tax Fund;
- (2) The Principal Account of the Special Tax Fund;
- (3) The Redemption Account of the Special Tax Fund;
- (4) The Reserve Account of the Special Tax Fund; and
- (5) The Surplus Fund.

Section 3.3. [Reserved]

Section 3.4. Interest Account and Principal Account of the Special Tax Fund. The principal of and interest due on the Bonds until maturity, other than principal due upon redemption, will be paid by the Fiscal Agent from the Principal Account and the Interest Account of the Special Tax Fund, respectively. For the purpose of assuring that the payment of principal of and interest on the Bonds will be made when due, at least three Business Days prior to each March 1 and September 1, the Fiscal Agent will transfer from the Special Tax Fund, first to the Interest Account and then to the Principal Account, the amount required to pay interest on and principal of the Bonds on the immediately succeeding March 1 or September 1; provided, however, that to the extent that deposits have been made in the Interest Account or the Principal Account from the proceeds of the sale of an issue of the Bonds, or otherwise, the transfer from the Special Tax Fund need not be made; and provided, further, that, if amounts in the Special Tax Fund (exclusive of the Reserve Account) are inadequate to make the foregoing transfers, then the Fiscal Agent shall give notice to the Authority Trustee at least three Business Days prior to such applicable Interest Payment Date and any deficiency shall be made up by transfers from the Reserve Account to the extent available.

Section 3.5. Redemption Account of the Special Tax Fund.

(a) With respect to each September 1 on which a Sinking Fund Payment is due, after the deposits have been made to the Interest Account and the Principal Account of the Special Tax Fund as required by Section 3.4, the Fiscal Agent will next transfer into the Redemption Account of the Special Tax Fund from the Special Tax Fund the amount needed to make the balance in the Redemption Account equal the amount of Sinking Fund Payments due on the Bonds on the next September 1. For the purpose of assuring that the payment of Sinking Fund Payments on the Bonds will be made when due, at least three Business Days prior to each September 1, the Fiscal Agent will transfer from the Special Tax Fund to the Redemption Account, the amount required to pay the Sinking Fund Payment on the immediately succeeding September 1; provided, however, that to the extent that deposits have been made in the Redemption Account from other sources, the transfer from the Special Tax Fund need not

be made and provided, further, that, if amounts in the Redemption Account (exclusive of the Reserve Account) are inadequate to make the foregoing transfer, then the Fiscal Agent shall give notice to the Authority Trustee at least three Business Days prior to such applicable September 1 and any deficiency shall be made up by transfers from the Reserve Account to the extent available. Moneys so deposited in the Redemption Account will be used and applied by the Fiscal Agent to call and redeem Term Bonds in accordance with the Sinking Fund Payment schedule set forth in Section 4.1(b).

(b) After making the deposits to the Interest Account and the Principal Account of the Special Tax Fund pursuant to Section 3.4 above and to the Redemption Account for Sinking Fund Payments then due pursuant to subparagraph (a) of this Section, and in accordance with the City's election to call Bonds for optional redemption as set forth in Section 4.1(a), the Fiscal Agent will transfer from the Special Tax Fund and deposit in the Redemption Account moneys available for the purpose and sufficient to pay the principal and the premiums, if any, payable on the Bonds called for optional redemption; provided, however, that amounts in the Special Tax Fund may be applied to optionally redeem Bonds only if immediately following such redemption the amount in the Reserve Account will equal the Reserve Requirement.

(c) Prepayments of Special Taxes deposited to the Redemption Account will be applied on the redemption date established pursuant to Section 4.1(c) for the use of such Prepayments to the payment of the principal of, premium, and interest on the Bonds to be redeemed with such Prepayments.

(d) Moneys set aside in the Redemption Account will be used solely for the purpose of redeeming Bonds and will be applied on or after the redemption date to the payment of principal of and premium, if any, on the Bonds to be redeemed upon presentation and surrender of such Bonds and in the case of an optional redemption or an extraordinary redemption from Prepayments to pay the interest thereon; provided, however, that in lieu or partially in lieu of such call and redemption, moneys deposited in the Redemption Account, other than Prepayments, may be used to purchase Outstanding Bonds in the manner hereinafter provided. Purchases of Outstanding Bonds may be made by the City at public or private sale as and when and at such prices as the City may in its discretion determine but only at prices (including brokerage or other expenses) not more than par plus accrued interest, plus, in the case of moneys set aside for an optional redemption, the premium applicable at the next following call date according to the premium schedule established pursuant to Section 4.1(a). Any accrued interest payable upon the purchase of Bonds may be paid from the amount reserved in the Interest Account of the Special Tax Fund for the payment of interest on the next following Interest Payment Date.

Section 3.6. Reserve Account of the Special Tax Fund. There will be maintained in the Reserve Account of the Special Tax Fund an amount equal to the Reserve Requirement, which may be in the form of a Reserve Account Credit Instrument. Amounts in the Reserve Account (or draws on a Reserve Account Credit Instrument) will be applied as follows:

(a) Moneys in the Reserve Account will be used solely for the purpose of paying the principal of, including Sinking Fund Payments, and interest on the Bonds when due in the event that the moneys in the Interest Account and the Principal Account of the Special Tax Fund are insufficient therefor or moneys in the Redemption Account of the Special Tax Fund are insufficient to make a Sinking Fund Payment when due. If the amounts in the Interest Account, the Principal Account or the Redemption Account of the Special Tax Fund are insufficient to pay the principal of, including Sinking Fund Payments, or interest on any Bonds when due, the

Fiscal Agent will withdraw from the Reserve Account for deposit in the Interest Account, the Principal Account or the Redemption Account of the Special Tax Fund, as applicable, moneys necessary for such purposes.

(b) Whenever moneys are withdrawn from the Reserve Account, after making the required transfers referred to in Sections 3.4 and 3.5 above, the Fiscal Agent will transfer to the Reserve Account from available moneys in the Special Tax Fund, or from any other legally available funds which the City elects to apply to such purpose, the amount needed to restore the amount of such Reserve Account to the Reserve Requirement. Moneys in the Special Tax Fund will be deemed available for transfer to the Reserve Account only if the Fiscal Agent determines that such amounts will not be needed to make the deposits required to be made to the Interest Account, the Principal Account or the Redemption Account of the Special Tax Fund on or before the next September 1. If amounts in the Special Tax Fund together with any other amounts transferred to replenish the Reserve Account are inadequate to restore the Reserve Account to the Reserve Requirement, then the City will include the amount necessary fully to restore the Reserve Account to the Reserve Requirement in the next annual Special Tax levy to the extent of the maximum permitted Special Tax rates.

(c) In connection with a redemption of Bonds pursuant to Section 4.1(a) or (c), or a partial defeasance of Bonds in accordance with Section 8.1, amounts in the Reserve Account may be applied to such redemption or partial defeasance so long as the amount on deposit in the Reserve Account following such redemption or partial defeasance equals the Reserve Requirement. The City will set forth in a Certificate of an Authorized Representative the amount in the Reserve Account to be transferred to the Redemption Account on a redemption date or to be transferred pursuant to Section 8.1(c) to partially defease Bonds, and the Fiscal Agent will make such transfer on the applicable redemption or defeasance date, subject to the limitation in the preceding sentence.

(d) To the extent that the Reserve Account is at the Reserve Requirement as of the first day of the final Bond Year for the Bonds, amounts in the Reserve Account may be applied to pay the principal of and interest due on the Bonds in the final Bond Year for such issue.

(e) If the Reserve Account is at any time funded in whole or in part with cash, the City may at any time release any cash or investments on deposit from the Reserve Account, in whole or in part, by tendering to the Fiscal Agent: (1) a Reserve Account Credit Instrument, and (2) an opinion of Bond Counsel stating that such release will not, of itself, cause the interest on the Bonds or the Authority Bonds to become includable in gross income for purposes of federal income taxation. Upon tender of such items to the Fiscal Agent, the Fiscal Agent will transfer such funds from the Reserve Account to or upon the direction of the City.

If the Reserve Account is funded with a combination of cash and a Reserve Account Credit Instrument, the Fiscal Agent will deplete all cash balances before drawing on the Reserve Account Credit Instrument. With regard to replenishment, any available moneys provided by the City will be used first to reinstate the Reserve Account Credit Instrument and second, to replenish the cash in the Reserve Account.

Section 3.7. Surplus Fund. After making the transfers required by Sections 3.4, 3.5 and 3.6, as soon as practicable after each September 1, and in any event prior to each October 1, the Fiscal Agent will transfer all remaining amounts in the Special Tax Fund to the Surplus Fund, unless on or prior to such date, it has received a Certificate of an Authorized Representative of the City directing that certain amounts be retained in the Special Tax Fund

because the City has assumed such amounts would be available in the Special Tax Fund in calculating the amount of the levy of Special Taxes for such Fiscal Year pursuant to Section 5.2(b).

Moneys deposited in the Surplus Fund will be transferred by the Fiscal Agent at the direction of an Authorized Representative of the City as follows:

- (i) to the Interest Account, the Principal Account or the Redemption Account of the Special Tax Fund to pay the principal of, including Sinking Fund Payments, premium, if any, and interest on the Bonds when due in the event that moneys in the Special Tax Fund and the Reserve Account are insufficient therefor,

- (ii) to the Reserve Account in order to replenish the Reserve Account to the Reserve Requirement,

- (iii) to the City to pay additional Administrative Expenses, and

- (iv) for any other lawful purpose of the City.

The amounts in the Surplus Fund are not pledged to the repayment of the Bonds and may be used by the City for any lawful purpose.

Section 3.8. Investments. Moneys held in any of the Funds, Accounts and Subaccounts under this Fiscal Agent Agreement will be invested at the written direction of the City in accordance with the limitations set forth below only in Authorized Investments which will be deemed at all times to be a part of such Funds, Accounts and Subaccounts. Any loss resulting from such Authorized Investments will be credited or charged to the Fund, Account or Subaccount from which such investment was made, and any investment earnings on amounts deposited in the Special Tax Fund and the Surplus Fund, and each Account therein, will be deposited in those respective Funds and Accounts.

Moneys in the Funds, Accounts and Subaccounts held under this Fiscal Agent Agreement may be invested by the Fiscal Agent as directed in writing by the City, from time to time, in Authorized Investments subject to the following restrictions:

- (a) Moneys in the Interest Account, the Principal Account, and the Redemption Account of the Special Tax Fund will be invested only in Authorized Investments which will by their terms mature, or in the case of an Investment Agreement are available for withdrawal without penalty, on such dates so as to ensure the payment of principal of, premium, if any, and interest on the Bonds as the same become due.

- (b) Monies in the Reserve Account of the Special Tax Fund may be invested only in Authorized Investments which are available for withdrawal without penalty, on such dates so as to ensure the payment of principal of, premium, if any, and interest on the Bonds as the same become due.

- (c) In the absence of written investment directions from the City, the Fiscal Agent will invest solely in Authorized Investments specified in clause (h) of the definition thereof. The Fiscal Agent will be entitled to rely upon any investment directions from the Authority as conclusive certification to the Fiscal Agent that the investments described therein are so authorized under the laws of the State of California and qualify as Authorized Investments.

The Fiscal Agent will sell, or present for redemption, any Authorized Investment whenever it may be necessary to do so in order to provide moneys to meet any payment or transfer to such Funds and Accounts or from such Funds and Accounts. For the purpose of determining at any given time the balance in any such Funds and Accounts, any such investments constituting a part of such Funds and Accounts will be valued at their cost. In making any valuations hereunder, the Fiscal Agent may utilize such computerized securities pricing services as may be available to it, including, without limitation, those available through its regular accounting system, and conclusively rely thereon. Notwithstanding anything herein to the contrary, the Fiscal Agent will not be responsible for any loss from investments, sales or transfers undertaken in accordance with the provisions of this Fiscal Agent Agreement.

The Fiscal Agent may act as principal or agent in the making or disposing of any investment. The Fiscal Agent may sell, or present for redemption, any Authorized Investment so purchased whenever it will be necessary to provide moneys to meet any required payment, transfer, withdrawal or disbursement from the fund or account to which such Authorized Investment is credited, and, subject to the provisions of Section 7.4, the Fiscal Agent will not be liable or responsible for any loss resulting from such investment. For investment purposes, the Fiscal Agent may commingle the funds and accounts established hereunder, but will account for each separately.

The City acknowledges that, to the extent regulations of the Comptroller of the Currency or other applicable regulatory entity grant the City the right to receive brokerage confirmations of security transactions as they occur, the City specifically waives receipt of such confirmations to the extent permitted by law. The Fiscal Agent will furnish the City periodic cash transaction statements which include detail for all investment transactions made by the Fiscal Agent hereunder.

Section 3.9. Valuation and Disposition of Investments.

(a) Except as otherwise provided in subsection (b) of this Section, the City covenants that all investments of amounts deposited in any fund or account created by or pursuant to this Agreement, or otherwise containing gross proceeds of the Bonds (within the meaning of section 148 of the Code) shall be acquired, disposed of, and valued (as of the date that valuation is required by this Agreement or the Code) at Fair Market Value. The Fiscal Agent has no duty in connection with the determination of Fair Market Value other than to follow the investment directions of the City. For purposes of this Section 3.9, the term "Fair Market Value" shall mean the price at which a willing buyer would purchase the investment from a willing seller in a bona fide, arm's length transaction (determined as of the date the contract to purchase or sell the investment becomes binding) if the investment is traded on an established securities market (within the meaning of Section 1273 of the Code) and, otherwise, the term "Fair Market Value" means the acquisition price in a bona fide arm's length transaction (as referenced above) if (i) the investment is a certificate of deposit that is acquired in accordance with applicable regulations under the Code, (ii) the investment is an agreement with specifically negotiated withdrawal or reinvestment provisions and a specifically negotiated interest rate (for example, a guaranteed investment contract, a forward supply contract or other investment agreement) that is acquired in accordance with applicable regulations under the Code, or (iii) the investment is a United States Treasury Security -- State and Local Government Series which is acquired in accordance with applicable regulations of the United States Bureau of Public Debt.

(b) Investments in funds or accounts (or portions thereof) that are subject to a yield restriction under applicable provisions of the Code and (unless valuation is undertaken at least annually) investments in the Reserve Account will be valued at their present value (within the meaning of section 148 of the Code).

ARTICLE IV

REDEMPTION OF BONDS

Section 4.1. Redemption of Bonds.

(a) Optional Redemption.

The Bonds maturing on and before September 1, _____, are not subject to optional redemption prior to maturity. The Bonds maturing on and after September 1, _____, may be redeemed, at the option of the City, from any source of funds on any date on or after September 1, _____, in whole, or in part and by lot, at a redemption price equal to the principal amount to be redeemed, plus accrued interest thereon to the date of redemption, without premium.

Notwithstanding the foregoing, with the redemption price may include a premium if necessary, based on the certificate of an Independent Financial Consultant as set forth in Section 4.6, to redeem the corresponding portion of the Authority Bonds.

In the event the City elects to redeem Bonds as provided above, the City will give written notice to the Fiscal Agent of its election to so redeem, the redemption date and the principal amount of the Bonds to be redeemed. The notice to the Fiscal Agent will be given at least 45 but no more than 90 days prior to the redemption date, or by such later date as is acceptable to the Fiscal Agent, in its sole discretion.

(b) Mandatory Sinking Fund Redemption. The Term Bonds maturing on September 1, _____, are subject to redemption prior to their stated maturity, in part, by lot from amounts deposited into the Redemption Account in the following amounts and on the following dates, at the principal amount thereof on the date fixed for redemption, without premium, but which amounts will be proportionately reduced by the principal amount of all Term Bonds optionally redeemed:

Mandatory Redemption Dates
(September 1)

Sinking Fund
Payment

* Maturity

(c) Extraordinary Redemption. The Bonds are subject to extraordinary redemption as a whole, or in part on a pro rata basis among maturities, on any Interest Payment Date, and will be redeemed by the Fiscal Agent, from Prepayments deposited to the Redemption Account, plus amounts transferred from the Reserve Account, at a redemption price equal to the principal amount to be redeemed, plus a premium expressed below as a percentage of the principal amount so redeemed, plus accrued interest thereon to the date of redemption.

<u>Redemption Date</u>	<u>Redemption Premium</u>
On or after _____, through _____	3%
September 1, _____ and March 1, _____	2
September 1, _____ and March 1, _____	1
September 1, _____ and thereafter	0

Notwithstanding the foregoing, with the redemption price may include an additional premium if necessary, based on the certificate of an Independent Financial Consultant as set forth in Section 4.6, to redeem the corresponding portion of the Authority Bonds.

The provisions of Section 3.5(d) will govern the City's right to use moneys in the Redemption Account to purchase Bonds rather than redeem Bonds.

Section 4.2. Selection of Bonds for Redemption. If fewer than all of the Bonds Outstanding are to be redeemed, the portion of any Bond of a denomination of more than \$5,000 to be redeemed will be in the principal amount of \$5,000 or an integral multiple thereof. In selecting portions of such Bonds for redemption, the Fiscal Agent will treat such Bonds as representing that number of Bonds of \$5,000 denominations which is obtained by dividing the principal amount of such Bonds to be redeemed in part by \$5,000. The Fiscal Agent will promptly notify the City in writing of the Bonds, or portions thereof, selected for redemption.

Section 4.3. Notice of Redemption. When Bonds are due for redemption under Section 4.1 above, the Fiscal Agent will give notice, in the name of the City, of the redemption of such Bonds. The City may instruct the Fiscal Agent to specify in the redemption notice that such redemption may be subject to receipt of funds sufficient to accomplish the redemption. Such notice of redemption will (a) specify the CUSIP numbers (if any), the bond numbers and the maturity date or dates of the Bonds selected for redemption, except that where all of the Bonds are subject to redemption, or all the Bonds of one maturity, are to be redeemed, the bond numbers of such issue need not be specified; (b) state the date fixed for redemption and surrender of the Bonds to be redeemed; (c) state the redemption price; (d) state the place or places where the Bonds are to be redeemed; (e) in the case of Bonds to be redeemed only in part, state the portion of such Bond which is to be redeemed; (f) state the date of issue of the Bonds as originally issued; (g) state the rate of interest borne by each Bond being redeemed; and (h) state any other descriptive information needed to identify accurately the Bonds being redeemed as will be specified by the Fiscal Agent. Such notice will further state that on the date fixed for redemption, there will become due and payable on each Bond, or portion thereof called for redemption, the principal thereof, together with any premium, and interest accrued to the redemption date, and that from and after such date, interest thereon will cease to accrue and be payable. At least 30 days but no more than 45 days prior to the redemption date, the Fiscal Agent will mail a copy of such notice, by first class mail, postage prepaid, to the respective Owners thereof at their addresses appearing on the Bond Register. The actual receipt by the Owner of any Bond of notice of such redemption will not be a condition precedent to redemption, and neither the failure to receive nor any defect in such notice will affect the validity of the proceedings for the redemption of such Bonds, or the cessation of interest on the redemption date. A certificate by the Fiscal Agent that notice of such redemption has been given as herein provided will be conclusive as against all parties and the Owner will not be entitled to show that he or she failed to receive notice of such redemption.

Any such redemption notice may specify that redemption on the specified date will be subject to receipt by the City of moneys sufficient to cause such redemption, and neither the City nor the Fiscal Agent will have any liability to the Owners or any other party as a result of its failure to redeem the Bonds as a result of insufficient moneys.

In addition to the foregoing notice, further notice will be given by the Fiscal Agent as set out below, but only if the Bonds are not owned by the Authority at the time the notice of redemption is given pursuant to this Section 4.3, provided that no defect in said further notice

nor any failure to give all or any portion of such further notice will in any manner defeat the effectiveness of a call for redemption if notice thereof is given as above prescribed.

At such time as the Bonds are not owned by the Authority, notice of redemption will be sent at least two days before notice of redemption is mailed to the Bondowners pursuant to the first paragraph of this Section by registered or certified mail or overnight delivery service to the Municipal Securities Rulemaking Board.

Upon the payment of the redemption price of any Bonds being redeemed, each check or other transfer of funds issued for such purpose will to the extent practicable bear the CUSIP number identifying, by issue and maturity, the Bonds being redeemed with the proceeds of such check or other transfer.

Section 4.4. Partial Redemption of Bonds. Upon surrender of any Bond to be redeemed in part only, the City will execute and the Fiscal Agent will authenticate and deliver to the Bondowner, at the expense of the City, a new Bond or Bonds of authorized denominations equal in aggregate principal amount to the unredeemed portion of the Bonds surrendered, with the same interest rate and the same maturity.

Section 4.5. Effect of Notice and Availability of Redemption Money. Notice of redemption having been duly given, as provided in Section 4.3, and the amount necessary for the redemption having been made available for that purpose and being available therefor on the date fixed for such redemption:

(a) The Bonds, or portions thereof, designated for redemption will, on the date fixed for redemption, become due and payable at the redemption price thereof as provided in this Fiscal Agent Agreement, anything in this Fiscal Agent Agreement or in the Bonds to the contrary notwithstanding;

(b) Upon presentation and surrender thereof at the office of the Fiscal Agent, the redemption price of such Bonds will be paid to the Owners thereof;

(c) As of the redemption date the Bonds, or portions thereof so designated for redemption will be deemed to be no longer Outstanding and such Bonds, or portions thereof, will cease to bear further interest; and

(d) As of the date fixed for redemption no Owner of any of the Bonds or portions thereof so designated for redemption will be entitled to any of the benefits of this Fiscal Agent Agreement, or to any other rights, except with respect to payment of the redemption price and interest accrued to the redemption date from the amounts so made available.

Section 4.6. Certification of Independent Financial Consultant. The City will not be authorized to redeem Bonds pursuant to Section 4.1(a) or 4.1(c) unless it has provided the Fiscal Agent with a certificate of an Independent Financial Consultant to the effect that the proposed redemption, assuming a corresponding redemption of the Authority Bonds, and assuming continuing payment of Special Taxes by property owners not then in default (and non-payment of property owners then in default), will not adversely impact the availability of Revenues (as defined in the Authority Indenture) in an amount sufficient to pay debt service on the Authority Bonds, as scheduled. In the event the Independent Financial Consultant is unable to provide such certificate, the redemption premium will be the amount that will be sufficient to enable the Independent Financial Consultant to deliver the required certificate.

ARTICLE V

COVENANTS AND WARRANTY

Section 5.1. Warranty. The City will preserve and protect the security pledged hereunder to the Bonds against all claims and demands of all persons.

Section 5.2. Covenants. So long as any of the Bonds issued hereunder are Outstanding and unpaid, the City makes the following covenants with the Bondowners under the provisions of the Act and this Fiscal Agent Agreement (to be performed by the City or its proper officers, agents or employees), which covenants are necessary and desirable to secure the Bonds and tend to make them more marketable; provided, however, that said covenants do not require the City to expend any funds or moneys other than the Special Taxes and other amounts deposited to the Special Tax Fund.

(a) Punctual Payment; Against Encumbrances. The City covenants that it will receive all Special Taxes in trust for the Owners and will instruct the Finance Director to deposit all Special Taxes in a distinct account of the City immediately upon their apportionment to the City, and the City will have no beneficial right or interest in the amounts so deposited except as provided by this Fiscal Agent Agreement. All such Special Taxes will be disbursed, allocated and applied solely to the uses and purposes set forth herein, and will be accounted for separately and apart from all other money, funds, accounts or other resources of the City. The City may semi-annually transfer from the Special Taxes so held an amount equal to one-half of the Administrative Expenses Cap as necessary to make timely payment of Administrative Expenses.

Not later than three (3) Business Days prior to each Interest Payment Date, the Finance Director shall withdraw an amount of Net Taxes from the account in which they are held and transfer: (i) to the Fiscal Agent for deposit in the respective accounts of the Special Tax Fund an amount, taking into account any amounts then on deposit in the respective accounts of the Special Tax Fund, such that the amount in the Interest Account, Principal Account and Redemption Account equals the principal, premium, if any, and interest due, and sinking fund payments, if any, on the Bonds on the next Interest Payment Date and (ii) to the Fiscal Agent for deposit in the Reserve Account, an amount which when added to the amount then on deposit therein is equal to the Reserve Requirement. At such time as deposits to the Special Tax Fund equal the principal, premium, sinking fund payments, if any, and interest becoming due on the Bonds for the current Bond Year and the amount needed to restore the Reserve Account balance to the Reserve Requirement, the amount in the Special Tax Fund in excess of such amount shall be available to the City to pay Administrative Expenses in excess of the Administrative Expense Cap; provided, however, that as soon as practicable after the receipt by the City of any prepayments of Special Taxes, but no later than ten (10) Business Days after such receipt, the City shall transfer such prepayments to the Fiscal Agent for deposit into the respective accounts of the Special Tax Fund to be used for the redemption of Bonds.

The City covenants that it will duly and punctually pay or cause to be paid the principal of and interest on every Bond issued hereunder, together with the premium, if any, thereon on the date, at the place and in the manner set forth in the Bonds and in accordance with this Fiscal Agent Agreement to the extent that Net Taxes and other amounts pledged hereunder are available therefor, and that the payments into the Funds and Accounts created hereunder will be made, all in strict conformity with the terms of the Bonds and this Fiscal Agent Agreement,

and that it will faithfully observe and perform all of the conditions, covenants and requirements of this Fiscal Agent Agreement and of the Bonds issued hereunder.

The City will not mortgage or otherwise encumber, pledge or place any charge upon any of the Net Taxes except as provided in this Fiscal Agent Agreement, and will not issue any obligation or security having a lien or charge upon the Net Taxes superior to or on a parity with the Bonds (except parity bonds may be issued to refund a portion of the Bonds). Nothing herein will prevent the City from issuing or incurring indebtedness which is payable from a pledge of Net Taxes which is subordinate in all respects, including security and payment, to the pledge and payment of Net Taxes to (i) repay the Bonds, and (ii) replenish the Reserve Account.

(b) Levy of Special Tax. The City will comply with all requirements of the Act so as to assure the timely collection of Gross Taxes, including without limitation, the enforcement of delinquent Special Taxes.

(i) *Processing.* On or within five (5) Business Days of each June 1, the Fiscal Agent will provide the Finance Director with a notice stating the amount then on deposit in the Special Tax Fund and the other funds and accounts held by the Fiscal Agent under the Fiscal Agent Agreement, whether or not amounts need to be deposited into the Reserve Account to increase the amounts on deposit therein to the Reserve Requirement, and informing the City that the Special Taxes need to be levied under the Ordinance as necessary to provide for the Special Tax Requirement (as defined in clause (iv) below). The receipt of or failure to receive such notice by the Finance Director will in no way affect the obligations of the Finance Director under the following two paragraphs and the Fiscal Agent will not be liable for failure to provide such notice to the Finance Director. Upon receipt of such notice, the Finance Director will communicate with the Auditor to ascertain the relevant parcels on which the Special Taxes are to be levied, taking into account any parcel splits or combinations during the preceding and then current year.

(ii) *Levy.* The Finance Director will effect the levy of the Special Taxes each Fiscal Year in accordance with the Ordinance by each August 1 that the Bonds are outstanding, or otherwise such that the computation of the levy is complete before the final date on which the Auditor will accept the transmission of the Special Tax amounts for the parcels within the CFD for inclusion on the next real property tax roll. Upon the completion of the computation of the amounts of the levy, the Finance Director will prepare or cause to be prepared, and will transmit to the Auditor, such data as the Auditor requires to include the levy of the Special Taxes on the next real property tax roll.

(iii) *Computation.* The Finance Director will fix and levy the amount of Special Taxes within the CFD in an amount sufficient, together with other amounts on deposit in the Special Tax Fund and available for such purpose, to pay (A) the principal of and interest on the Bonds when due, (B) the Administrative Expenses, including amounts necessary to discharge any rebate obligation, during such year and (C) any amounts required to replenish the Reserve Account to the Reserve Requirement (the “**Special Tax Requirement**”), taking into account the balances in such funds and in the Special Tax Fund. The Special Taxes so levied will not exceed the authorized amounts as provided in the proceedings under the Resolution of Formation.

(iv) *Collection.* The Special Taxes will be payable and be collected in the same manner and at the same time and in the same installment as the general taxes on real property are payable, and have the same priority, become delinquent at the same time and in the same proportionate amounts and bear the same proportionate penalties and interest after delinquency as do the ad valorem taxes on real property.

(c) Commence Foreclosure Proceedings. Under the Act, the City hereby covenants with and for the benefit of the Owners of the Bonds that it will order, and cause to be commenced as hereinafter provided, and thereafter diligently prosecute to judgment (unless such delinquency is theretofore brought current), an action in the superior court to foreclose the lien of any Special Tax or installment thereof not paid when due as provided in the following two paragraphs. The Finance Director will notify the City Attorney of any such delinquency of which the Finance Director is aware, and the City Attorney will commence, or cause to be commenced, such proceedings.

On or about October 1 of each Fiscal Year, the Finance Director will compare the amount of Special Taxes theretofore levied in the prior Fiscal Year in the CFD to the amount of Gross Taxes theretofore received by the City, and:

(i) *Individual Delinquencies.* If the Finance Director determines that any single parcel subject to the Special Tax in the CFD is delinquent in the payment of Special Taxes cumulatively by more than \$2,000 or more, then the Finance Director will send or cause to be sent a notice of delinquency (and a demand for immediate payment thereof) to the property owner within 60 days of such determination, and (if the delinquency remains uncured) foreclosure proceedings will be commenced by the City within 120 days of such determination. [**For Stone Point CFD No. 5: \$2,500**]

(ii) *Aggregate Delinquencies.* If the Finance Director determines that the total amount of delinquent Special Tax for the prior Fiscal Year for the entire CFD (including the total of delinquencies under subsection (i) above), exceeds 5% of the total Special Tax due and payable for the prior Fiscal Year, the City will notify or cause to be notified property owners who are then delinquent in the payment of Special Taxes (and demand immediate payment of the delinquency) within 60 days of such determination, and will commence foreclosure proceedings within 120 days of such determination against each parcel of land in the CFD with a Special Tax delinquency.

Notwithstanding the foregoing, the City may determine not to initiate foreclosure proceedings if (a) the amount in the Reserve Account is equal to the Reserve Requirement, and (b) there have been no defaults in the payment of debt service on the Bonds.

(d) Payment of Claims. The City will pay and discharge any and all lawful claims for labor, materials or supplies which, if unpaid, might become a lien or charge upon the Net Taxes or other funds in the Special Tax Fund, or which might impair the security of the Bonds then Outstanding; provided that nothing herein contained will require the City to make any such payments so long as the City in good faith will contest the validity of any such claims.

(e) Books and Accounts. The City will keep proper books of records and accounts, separate from all other records and accounts of the City, in which complete and correct entries will be made of all transactions relating to the Project, the levy of the Special Tax and the deposits to the Special Tax Fund. Such books of records and accounts will at all times during business hours be subject to the inspection of the Fiscal Agent or of the Owners of not less than

10% of the principal amount of the Bonds then Outstanding or their representatives authorized in writing.

(f) Maintenance of Special Taxes. The City covenants and agrees to not consent to or conduct proceedings with respect to a reduction in the Special Taxes that may be levied in the CFD below an amount, for any Fiscal Year, equal to 110% of the aggregate of the debt service due and payable with respect to the Bonds in such Fiscal Year, plus 100% of the City's reasonable estimate of Administrative Expenses for such Fiscal Year; provided, however, that the City may at any time reduce the Special Taxes to the extent that the amount of Special Taxes that would result from levying the Special Taxes at such maximum amounts would result in an amount of Special Taxes in excess of the amount required to comply with such covenant.

(g) Covenants to Defend. The City covenants that, in the event that any initiative is adopted by the qualified electors in the CFD which purports to reduce the minimum or the maximum Special Tax below the levels specified in Section 5.2(f) above or to limit the power of the City to levy the Special Taxes for the purposes set forth in Section 5.2(b) above, it will commence and pursue legal action in order to preserve its ability to comply with such covenants.

(i) Limitation on Right to Tender Bonds. The City hereby covenants that it will not adopt any policy pursuant to Section 53341.1 of the Act permitting the tender of Bonds in full payment or partial payment of any Special Taxes unless the City will have first received a certificate from an Independent Financial Consultant that the acceptance of such a tender will not result in the City having insufficient Net Taxes to pay the principal of and interest on the Bonds when due.

(j) Further Assurances. The City will make, execute and deliver any and all such further agreements, instruments and assurances as may be reasonably necessary or proper to carry out the intention or to facilitate the performance of this Fiscal Agent Agreement and for the better assuring and confirming unto the Owners of the Bonds of the rights and benefits provided in this Fiscal Agent Agreement.

(k) Tax Covenants. The City covenants as follows:

(i) *Private Activity Bond Limitation.* The City will assure that the proceeds of the Bonds are not so used as to cause the Authority Bonds to satisfy the private business tests of section 141(b) of the Code or the private loan financing test of section 141(c) of the Code.

(ii) *Federal Guarantee Prohibition.* The City will not take any action or permit or suffer any action to be taken if the result of the same would be to cause any of the Authority Bonds to be "federally guaranteed" within the meaning of section 149(b) of the Code.

(iii) *Rebate Requirement.* The City will take any and all actions necessary to assure compliance with section 148(f) of the Code, relating to the rebate of excess investment earnings, if any, to the federal government, to the extent that such section is applicable to the Authority Bonds.

(iv) *No Arbitrage.* The City will not take, or permit or suffer to be taken by the Fiscal Agent or otherwise, any action with respect to the proceeds of the Bonds which, if

such action had been reasonably expected to have been taken, or had been deliberately and intentionally taken, on the date of issuance of the Bonds would have caused the Authority Bonds to be "arbitrage bonds" within the meaning of section 148 of the Code.

(v) *Maintenance of Tax-Exemption.* The City will take all actions necessary to assure the exclusion of interest on the Authority Bonds from the gross income of the Owners of the Authority Bonds to the same extent as such interest is permitted to be excluded from gross income under the Code as in effect on the date of issuance of the Authority Bonds. In addition, the City will not take any action or fail to take any action if the action or failure adversely affect the exclusion of interest on the Prior Bonds from the gross income of the owners of the Prior Bonds to the same extent as such interest was permitted to be excluded from gross income for federal income tax purposes on the date of issuance of the Prior Bonds.

(vi) *Record Retention.* The City will retain its records of all accounting and monitoring it carries out with respect to the Bonds for at least 3 years after the Bonds mature or are redeemed (whichever is earlier); however, if the Bonds are redeemed and refunded, the City will retain its records of accounting and monitoring at least 3 years after the earlier of the maturity or redemption of the obligations that refunded the Bonds.

(vii) *Compliance with Tax Certificate.* The City will comply with the provisions of the Tax Certificate and the Use of Proceeds Certificate with respect to the Bonds, which are incorporated herein as if fully set forth herein. The covenants of this Section will survive payment in full or defeasance of the Bonds.

(l) Continuing Disclosure. The City hereby covenants and agrees that it will comply with and carry out all of the provisions of the Continuing Disclosure Certificate. Notwithstanding any other provision of this Fiscal Agent Agreement, failure of the City to comply with the Continuing Disclosure Certificate will not be considered an Event of Default; however, the Original Purchaser of the Authority Bonds and any holder or beneficial owner of the Bonds may, take such actions as may be necessary and appropriate to compel performance, including seeking mandate or specific performance by court order.

(m) State Reporting Requirements. The following requirements will apply to the Bonds, in addition to those requirements under the preceding clause (l):

(i) *Annual Reporting.* Not later than October 30 of each calendar year, beginning with the October 30 first succeeding the date of the Bonds, and in each calendar year thereafter until the October 30 following the final maturity of the Bonds, the Finance Director will cause the following information to be supplied to CDIAC: (i) the principal amount of the Bonds Outstanding; (ii) the balance in the Reserve Account; (iii) the amount of any capitalized interest funded from the proceeds of the Bonds and the amount thereof used for payment of the Bonds; (iv) the number of parcels in the CFD which are delinquent in the payment of Special Taxes, the amount of each delinquency, the length of time delinquent and when foreclosure was commenced for each delinquent parcel; (v) the balance in any improvement fund, if applicable; and (vi) the assessed value of all parcels in the CFD subject to the levy of the Special Taxes as shown in the most recent equalized roll. The annual reporting will be made using such form or forms as may be prescribed by CDIAC.

(ii) *Other Reporting.* If at any time the Fiscal Agent fails to pay principal and interest due on any scheduled payment date for the Bonds, or if funds are withdrawn from the Reserve Account to pay principal and interest on the Bonds, the Fiscal Agent will notify the Finance Director of such failure or withdrawal in writing. The Finance Director will notify CDIAC and the Original Purchaser of the Authority Bonds of such failure or withdrawal within 10 days of such failure or withdrawal.

(iii) *Amendment.* The reporting requirements of this clause (m) may be amended from time to time, without action by the City or the Fiscal Agent, to reflect any amendments to Section 53359.5(b) or Section 53359.5(c) of the Act. The Finance Director will provide the Fiscal Agent with a copy of any such amendment. Notwithstanding the foregoing, any such amendment will not, in itself, affect the City's obligations under Section 4 of the Continuing Disclosure Certificate.

(iv) *No Liability.* None of the City and its officers, agents and employees, the Finance Director or the Fiscal Agent will be liable for any inadvertent error in reporting the information required by this clause (m).

ARTICLE VI

AMENDMENTS TO FISCAL AGENT AGREEMENT

Section 6.1. Supplemental Agreements or Orders Not Requiring Bondowner Consent. The City may from time to time, and at any time, without notice to or consent of any of the Bondowners, adopt Supplemental Agreements for any of the following purposes:

(a) to cure any ambiguity, to correct or supplement any provisions herein which may be inconsistent with any other provision herein, or to make any other provision with respect to matters or questions arising under this Fiscal Agent Agreement or in any additional resolution or order, provided that such action is not materially adverse to the interests of the Bondowners;

(b) to add to the covenants and agreements of and the limitations and the restrictions upon the City contained in this Fiscal Agent Agreement, other covenants, agreements, limitations and restrictions to be observed by the City which are not contrary to or inconsistent with this Fiscal Agent Agreement as theretofore in effect or which further secure Bond payments;

(c) to provide for the issuance of any parity bonds to refund a portion of the Bonds, and to provide the terms and conditions under which such bond may be issued, subject to and in accordance with the provisions of this Fiscal Agent Agreement;

(d) to modify, amend or supplement this Fiscal Agent Agreement in such manner as to permit the qualification under the Trust Indenture Act of 1939, as amended, or any similar federal statute hereafter in effect, and to add such other terms, conditions and provisions as may be permitted by said act or similar federal statute, and which will not materially adversely affect the interests of the Owners of the Bonds then Outstanding; or

(e) to modify, alter or amend the rate and method of apportionment of the Special Taxes in any manner so long as such changes do not reduce the maximum Special Taxes that may be levied in each year on property within the CFD to an amount which is less than 110% of the principal and interest due in each corresponding future Bond Year plus Administrative Expenses with respect to the Bonds Outstanding as of the date of such amendment; or

(f) to modify, alter, amend or supplement this Fiscal Agent Agreement in any other respect which is not materially adverse to the Bondowners; or

(g) to make such additions, deletions or modifications as may be necessary or desirable to assure exemption from federal income taxation of interest on the Authority Bonds.

Section 6.2. Supplemental Agreements or Orders Requiring Bondowner Consent. Exclusive of the Supplemental Agreements described in Section 6.1, the Owners of not less than a majority in aggregate principal amount of the Bonds Outstanding will have the right to consent to and approve the adoption by the City of such Supplemental Agreements as will be deemed necessary or desirable by the City for the purpose of waiving, modifying, altering, amending, adding to or rescinding, in any particular, any of the terms or provisions contained in this Fiscal Agent Agreement; provided, however, that nothing herein will permit, or be construed as permitting, (a) an extension of the maturity date of the principal, or the payment date of interest on, any Bond, (b) a reduction in the principal amount of, or redemption premium on, any

Bond or the rate of interest thereon, (c) a preference or priority of any Bond over any other Bond, or (d) a reduction in the aggregate principal amount of the Bonds the Owners of which are required to consent to such Supplemental Agreement, without the consent of the Owners of all Bonds then Outstanding.

If at any time the City will desire to adopt a Supplemental Agreement, which pursuant to the terms of this Section will require the consent of the Bondowners, the City will so notify the Fiscal Agent and will deliver to the Fiscal Agent a copy of the proposed Supplemental Agreement. The Fiscal Agent will, at the expense of the City, cause notice of the proposed Supplemental Agreement to be mailed, by first class mail, postage prepaid, to all Bondowners at their addresses as they appear in the Bond Register. Such notice will briefly set forth the nature of the proposed Supplemental Agreement and will state that a copy thereof is on file at the office of the Fiscal Agent for inspection by all Bondowners. The failure of any Bondowners to receive such notice will not affect the validity of such Supplemental Agreement when consented to and approved by the Owners of not less than a majority in aggregate principal amount of the Bonds Outstanding as required by this Section. Whenever at any time within one year after the date of the first mailing of such notice, the Fiscal Agent will receive an instrument or instruments purporting to be executed by the Owners of not less than a majority in aggregate principal amount of the Bonds Outstanding, which instrument or instruments will refer to the proposed Supplemental Agreement described in such notice, and will specifically consent to and approve the adoption thereof by the City substantially in the form of the copy referred to in such notice as on file with the Fiscal Agent, such proposed Supplemental Agreement, when duly adopted by the City, will thereafter become a part of the proceedings for the issuance of the Bonds. In determining whether the Owners of a majority of the aggregate principal amount of the Bonds have consented to the adoption of any Supplemental Agreement, Bonds which are owned by the City or by any person directly or indirectly controlling or controlled by or under the direct or indirect common control with the City, will be disregarded and will be treated as though they were not Outstanding for the purpose of any such determination.

Upon the adoption of any Supplemental Agreement and the receipt of consent to any such Supplemental Agreement from the Owners of not less than a majority in aggregate principal amount of the Outstanding Bonds in instances where such consent is required pursuant to the provisions of this section, this Fiscal Agent Agreement will be, and will be deemed to be, modified and amended in accordance therewith, and the respective rights, duties and obligations under this Fiscal Agent Agreement of the City and all Owners of Outstanding Bonds will thereafter be determined, exercised and enforced hereunder, subject in all respects to such modifications and amendments.

Section 6.3. Notation of Bonds; Delivery of Amended Bonds. After the effective date of any action taken as hereinabove provided, the City may determine that the Bonds may bear a notation, by endorsement in form approved by the City, as to such action, and in that case upon demand of the Owner of any Outstanding Bond at such effective date and presentation of his Bond for the purpose at the office of the Fiscal Agent or at such additional offices as the Fiscal Agent may select and designate for that purpose, a suitable notation as to such action will be made on such Bonds. If the City will so determine, new Bonds so modified as, in the opinion of the City, will be necessary to conform to such action will be prepared and executed, and in that case upon demand of the Owner of any Outstanding Bond at such effective date such new Bonds will be exchanged at the office of the Fiscal Agent or at such additional offices as the Fiscal Agent may select and designate for that purpose, without cost to each Owner of Outstanding Bonds, upon surrender of such Outstanding Bonds.

ARTICLE VII

FISCAL AGENT

Section 7.1. Fiscal Agent. The Bank of New York Mellon Trust Company, N.A. will be the Fiscal Agent for the Bonds unless and until another Fiscal Agent is appointed by the City hereunder. The City may, at any time, appoint a successor Fiscal Agent satisfying the requirements of Section 7.2 below for the purpose of receiving all money which the City is required to deposit with the Fiscal Agent hereunder and to allocate, use and apply the same as provided in this Fiscal Agent Agreement.

The Fiscal Agent is hereby authorized to and will mail by first class mail, postage prepaid, or wire transfer in accordance with Section 2.5 above, interest payments to the Bondowners, to select Bonds for redemption, and to maintain the Bond Register. The Fiscal Agent is hereby authorized to pay the principal of and premium, if any, on the Bonds when the same are duly presented to it for payment at maturity or on call and redemption, to provide for the registration of transfer and exchange of Bonds presented to it for such purposes, to provide for the cancellation of Bonds all as provided in this Fiscal Agent Agreement, and to provide for the authentication of Bonds, and will perform all other duties assigned to or imposed on it as provided in this Fiscal Agent Agreement. The Fiscal Agent will keep accurate records of all funds administered by it and all Bonds paid, discharged and cancelled by it.

The Fiscal Agent is hereby authorized to redeem the Bonds when duly presented for payment at maturity, or on redemption prior to maturity. The Fiscal Agent will cancel all Bonds upon payment thereof in accordance with the provisions of Section 9.4.

The City will from time to time, subject to any agreement between the City and the Fiscal Agent then in force, pay to the Fiscal Agent compensation for its services, reimburse the Fiscal Agent for all its advances and expenditures, including, but not limited to, advances to and fees and expenses of independent accountants or counsel employed by it in the exercise and performance of its powers and duties hereunder, and indemnify and save the Fiscal Agent, its officers, directors, employees and agents, harmless against costs, claims, expenses (including legal fees and expenses) and liabilities, including, without limitation, fees and expenses of its attorneys, not arising from its own negligence or willful misconduct which it may incur in the exercise and performance of its powers and duties hereunder. The foregoing obligation of the City to indemnify the Fiscal Agent will survive the removal or resignation of the Fiscal Agent or the discharge of the Bonds.

Section 7.2. Removal of Fiscal Agent. The City may at any time at its sole discretion remove the Fiscal Agent initially appointed, and any successor thereto, by delivering to the Fiscal Agent a written notice of its decision to remove the Fiscal Agent and may appoint a successor or successors thereto; provided that any such successor will be a bank, national banking association or trust company having a combined capital (exclusive of borrowed capital) and surplus of at least \$75,000,000, and subject to supervision or examination by federal or state authority. Any removal will become effective only upon acceptance of appointment by the successor Fiscal Agent. If any bank, national banking association or trust company appointed as a successor publishes a report of condition at least annually, pursuant to law or to the requirements of any supervising or examining authority above referred to, then for the purposes of this section the combined capital and surplus of such bank, national banking association or trust company will be deemed to be its combined capital and surplus as set forth in its most

recent report of condition so published. Any removal of the Fiscal Agent and appointment of a successor Fiscal Agent will become effective only upon acceptance of appointment by the successor Fiscal Agent and notice being sent by the successor Fiscal Agent to the Bondowners of the successor Fiscal Agent's identity and address.

Section 7.3. Resignation of Fiscal Agent. The Fiscal Agent may at any time resign by giving written notice to the City and by giving to the Owners notice of such resignation, which notice will be mailed to the Owners at their addresses appearing in the registration books in the office of the Fiscal Agent. Upon receiving such notice of resignation, the City will promptly appoint a successor Fiscal Agent satisfying the criteria in Section 7.2 above by an instrument in writing. Any resignation or removal of the Fiscal Agent and appointment of a successor Fiscal Agent will become effective only upon acceptance of appointment by the successor Fiscal Agent.

If no appointment of a successor Fiscal Agent will be made pursuant to the foregoing provisions of this Section within forty-five (45) days after the Fiscal Agent will have given to the City written notice or after a vacancy in the office of the Fiscal Agent will have occurred by reason of its inability to act, the Fiscal Agent or any Bond Owner may apply to any court of competent jurisdiction to appoint a successor Fiscal Agent. Said court may thereupon, after such notice, if any, as such court may deem proper, appoint a successor Fiscal Agent.

Section 7.4. Liability of Fiscal Agent. The recitals of fact and all promises, covenants and agreements contained herein and in the Bonds will be taken as statements, promises, covenants and agreements of the City, and the Fiscal Agent assumes no responsibility for the correctness of the same and makes no representations as to the validity or sufficiency of this Fiscal Agent Agreement, the Bonds, and will incur no responsibility in respect thereof, other than in connection with its duties or obligations specifically set forth herein, in the Bonds, or in the certificate of authentication assigned to or imposed upon the Fiscal Agent. The Fiscal Agent will be under no responsibility or duty with respect to the issuance of the Bonds for value. The Fiscal Agent will not be liable in connection with the performance of its duties hereunder, except for its own negligence or willful misconduct.

The Fiscal Agent will be protected in acting upon any notice, resolution, request, consent, order, certificate, facsimile transmission, electronic mail, report, Bond, or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties. The Fiscal Agent may consult with counsel, who may be counsel to the City, with regard to legal questions, and the opinion of such counsel will be full and complete authorization and protection in respect of any action taken or suffered hereunder in good faith and in accordance therewith.

The Fiscal Agent will not be bound to recognize any person as the Owner of a Bond unless and until such Bond is submitted for inspection, if required, and his title thereto satisfactorily established, if disputed.

Whenever in the administration of its duties under this Fiscal Agent Agreement the Fiscal Agent will deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action hereunder, such matter (unless other evidence in respect thereof be herein specifically prescribed) may, in the absence of bad faith on the part of the Fiscal Agent, be deemed to be conclusively proved and established by a written certificate of the City, and such certificate will be full warrant to the Fiscal Agent for any action taken or suffered under the provisions of this Fiscal Agent Agreement upon the faith thereof, but in its discretion the

Fiscal Agent may, in lieu thereof, accept other evidence of such matter or may require such additional evidence as to it may seem reasonable.

The Fiscal Agent will have no duty or obligation whatsoever to enforce the collection of Special Taxes or other funds to be deposited with it hereunder, or as to the correctness of any amounts received, but its liability will be limited to the proper accounting for such funds as it will actually receive. No provision in this Fiscal Agent Agreement will require the Fiscal Agent to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of its rights or powers.

The Fiscal Agent will not be deemed to have knowledge of any default or event of default until an officer at the Fiscal Agent's corporate trust office responsible for the administration of its duties hereunder will have actual knowledge thereof or the Fiscal Agent will have received written notice thereof at its corporate trust office.

The Fiscal Agent will not be considered in breach of or in default in its obligations hereunder or progress in respect thereto in the event of delay in the performance of such obligations due to unforeseeable causes beyond its control and without its fault or negligence, including, but not limited to, Acts of God or of the public enemy or terrorists, acts of a government, acts of the other party, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, earthquakes, explosion, mob violence, riot, inability to procure or general sabotage or rationing of labor, equipment, facilities, sources of energy, material or supplies in the open market, litigation or arbitration involving a party or others relating to zoning or other governmental action or inaction pertaining to the project, malicious mischief, condemnation, and unusually severe weather or delays of suppliers or subcontractors due to such causes or any similar event and/or occurrences beyond the control of the Fiscal Agent.

The Fiscal Agent agrees to accept and act upon instructions or directions pursuant to this Fiscal Agent Agreement sent by unsecured e-mail, facsimile transmission or other similar unsecured electronic methods, provided, however, that, the Fiscal Agent will have received an incumbency certificate listing persons designated to give such instructions or directions and containing specimen signatures of such designated persons, which such incumbency certificate will be amended and replaced whenever a person is to be added or deleted from the listing. If the Authority or the City elects to give the Fiscal Agent e-mail or facsimile instructions (or instructions by a similar electronic method) and the Fiscal Agent acts upon such instructions, the Fiscal Agent's understanding of such instructions will be deemed controlling. The Fiscal Agent will not be liable for any losses, costs or expenses arising directly or indirectly from the Fiscal Agent's reliance upon and compliance with such instructions notwithstanding such instructions conflict or are inconsistent with a subsequent written instruction.

The permissive right of the Fiscal Agent to do things enumerated in this Fiscal Agent Agreement will not be construed as a duty and it will not be answerable for other than its negligence or willful misconduct.

The Fiscal Agent may execute any of the trusts or powers and perform the duties required of it hereunder either directly or by or through attorneys or agents and will not be liable for the acts or omissions of such attorneys or agents appointed with due care.

The Fiscal Agent will not be concerned with or accountable to anyone for the subsequent use or application of any moneys which will be released or withdrawn in accordance with the provisions.

The Fiscal Agent will have no responsibility or liability with respect to any information, statements or recital in any offering memorandum or other disclosure material prepared or distributed with respect to the issuance of these Bonds.

The Fiscal Agent will be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request, order or direction of any of the Owners pursuant to the provisions of this Indenture unless such Owners will have offered to the Fiscal Agent reasonable security or indemnity against the costs, expenses and liabilities which may be incurred therein or thereby.

Section 7.5. Merger or Consolidation. Any company into which the Fiscal Agent may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it will be a party or any company to which the Fiscal Agent may sell or transfer all or substantially all of its corporate trust business, will be the successor to the Fiscal Agent without the execution or filing of any paper or further act, anything herein to the contrary notwithstanding.

ARTICLE VIII

DEFEASANCE AND ADDITIONAL BONDS

Section 8.1. Defeasance. If the City will pay or cause to be paid, or there will otherwise be paid, to the Owner of an Outstanding Bond the interest due thereon and the principal thereof, at the times and in the manner stipulated in this Fiscal Agent Agreement or any Supplemental Agreement, then the Owner of such Bond will cease to be entitled to the pledge of Net Taxes, and, other than as set forth below, all covenants, agreements and other obligations of the City to the Owner of such Bond under this Fiscal Agent Agreement will thereupon cease, terminate and become void and be discharged and satisfied. In the event of a defeasance of all Outstanding Bonds pursuant to this Section, the Fiscal Agent will execute and deliver to the City all such instruments as may be desirable to evidence such discharge and satisfaction, and the Fiscal Agent will pay over or deliver to the City's general fund all money or securities held by it pursuant to this Fiscal Agent Agreement which are not required for the payment of the principal of, premium, if any, and interest due on such Bonds.

Any Outstanding Bond will be deemed to have been paid within the meaning expressed in the first paragraph of this Section if such Bond is paid in any one or more of the following ways:

(a) by paying or causing to be paid the principal of, premium, if any, and interest on such Bond, as and when the same become due and payable;

(b) by depositing with the Fiscal Agent, in trust, at or before maturity, money which, together with the amounts then on deposit in the Special Tax Fund and available for such purpose, is fully sufficient to pay the principal of, premium, if any, and interest on such Bond, as and when the same will become due and payable; or

(c) by depositing with the Fiscal Agent or another escrow bank appointed by the City, in trust, Federal Securities, in which the City may lawfully invest its money, in such amount as will be sufficient, together with the interest to accrue thereon and moneys then on deposit in the Special Tax Fund and available for such purpose, together with the interest to accrue thereon, to pay and discharge the principal of, premium, if any, and interest on such Bond, as and when the same will become due and payable;

then, at the election of the City, and notwithstanding that any Outstanding Bonds will not have been surrendered for payment, all obligations of the City under this Fiscal Agent Agreement and any Supplemental Agreement with respect to such Bond will cease and terminate, except for the obligation of the Fiscal Agent to pay or cause to be paid to the Owners of any such Bond not so surrendered and paid, all sums due thereon. Notice of such election will be filed with the Fiscal Agent not fewer than ten days prior to the proposed defeasance date, or such shorter period of time as may be acceptable to the Fiscal Agent. In connection with a defeasance under (b) or (c) above, there will be provided to the City a verification report from an independent nationally recognized certified public accountant stating its opinion as to the sufficiency of the moneys or securities deposited with the Fiscal Agent or the escrow bank to pay and discharge the principal of, premium, if any, and interest on all Outstanding Bonds to be defeased in accordance with this Section, as and when the same will become due and payable, and an opinion of Bond Counsel (which may rely upon the opinion of the certified public accountant) to the effect that

the Bonds being defeased have been legally defeased in accordance with this Fiscal Agent Agreement and any applicable Supplemental Agreement.

Upon a defeasance, the Fiscal Agent, upon request of the City, will release the rights of the Owners of such Bonds which have been defeased under this Fiscal Agent Agreement and any Supplemental Agreement and execute and deliver to the City all such instruments as may be desirable to evidence such release, discharge and satisfaction. In the case of a defeasance hereunder of all Outstanding Bonds, the Fiscal Agent will pay over or deliver to the City any funds held by the Fiscal Agent at the time of a defeasance, which are not required for the purpose of paying and discharging the principal of or interest on the Bonds when due. The Fiscal Agent will, at the written direction of the City, mail, first class, postage prepaid, a notice to the Bondowners whose Bonds have been defeased, in the form directed by the City, stating that the defeasance has occurred.

Defeasance will be accomplished only with an irrevocable deposit in escrow of certain investments referred to in this section. Further substitutions of securities in the escrow are not permitted. The deposit in the escrow must be sufficient, without reinvestment, to pay all principal and interest as scheduled on the Bonds to and including the date of redemption. Any security used for defeasance must provide for the timely payment of principal and interest and cannot be callable or prepayable prior to maturity or earlier redemption of the rated debt (excluding securities that do not have a fixed par value and/or whose terms do not promise a fixed dollar amount at maturity or call date).

Section 8.2. No Additional Indebtedness. The City covenants not to issue additional obligations secured by a pledge of the Net Revenues equally and ratably with Bonds, except that the City may issue bonds secured on parity with the Bonds to refund a portion of the Bonds.

ARTICLE IX

MISCELLANEOUS

Section 9.1. Remedies of Bondowners. Any Bondowner shall have the right for the equal benefit and protection of the all Bondowners similarly situated:

(a) by mandamus or other suit or proceeding at law or in equity to enforce its rights against the City, or any of the officers or employees of the City, and to compel the City, or any such officers or employees to perform and carry out their duties under the Act and the agreements and covenants with the Bondowners contained herein;

(b) by suit in equity to enjoin any acts or things which are unlawful or violate the rights of the Bondowners; or;

(c) by suit in equity upon the nonpayment of the Bonds to require the City or its officers and employees to account as the trustee of an express trust.

Section 9.2. Non-Waiver. Nothing herein or in the Bonds shall affect or impair the obligation of the City, which is absolute and unconditional, to pay the interest on and principal of and redemption premiums, if any, on the Bonds to the respective Bondowners of the Bonds at the respective dates of maturity or upon redemption prior to maturity as provided herein from the proceeds of the Special Tax and the other funds as provided herein, or shall affect or impair the right of such Bondowners, which is also absolute and unconditional, to institute suit to enforce such payment by virtue of the contract embodied herein and in the Bonds.

A waiver of any default or breach of duty or contract by any Bondowner shall not affect any subsequent default or breach of duty or contract and shall not impair any rights or remedies on any such subsequent default or breach of duty or contract. No delay or omission by any Bondowner to exercise any right or remedy accruing upon any default or breach of duty or contract shall impair any such right or remedy or shall be construed to be a waiver of any such default or breach of duty or contract or an acquiescence therein, and every right and remedy conferred upon the Bondowners by the Act or hereby may be enforced and exercised from time to time and as often as shall be deemed expedient by the Bondowners.

If any action, proceeding or suit to enforce any right or exercise any remedy is abandoned or determined adversely to any Bondowner, the City and such Bondowner shall be restored to their former positions, rights and remedies as if such action, proceeding or suit had not been brought or taken.

Section 9.3. Remedies Not Exclusive. No remedy herein conferred upon or reserved to the Bondowners is intended to be exclusive of any other remedy, and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise, and may be exercised without exhausting and without regard to any other remedy conferred by the Act or any other law.

Section 9.4. Cancellation of Bonds. All Bonds surrendered to the Fiscal Agent for payment upon maturity or for redemption will be upon payment therefor, and any Bond purchased by the City as authorized herein and delivered to the Fiscal Agent for such purpose will be, cancelled forthwith and will not be reissued. The Fiscal Agent will destroy such Bonds,

as provided by law, and, upon request of the City, furnish to the City a certificate of such destruction.

Section 9.5. Execution of Documents and Proof of Ownership. Any request, direction, consent, revocation of consent, or other instrument in writing required or permitted by this Fiscal Agent Agreement to be signed or executed by Bondowners may be in any number of concurrent instruments of similar tenor may be signed or executed by such Owners in person or by their attorneys appointed by an instrument in writing for that purpose, or by the bank, trust company or other depository for such Bonds. Proof of the execution of any such instrument, or of any instrument appointing any such attorney, and of the ownership of Bonds will be sufficient for the purposes of this Fiscal Agent Agreement (except as otherwise herein provided), if made in the following manner:

(a) The fact and date of the execution by any Owner or his or her attorney of any such instrument and of any instrument appointing any such attorney, may be proved by a signature guarantee of any bank or trust company located within the United States of America. Where any such instrument is executed by an officer of a corporation or association or a member of a partnership on behalf of such corporation, association or partnership, such signature guarantee will also constitute sufficient proof of his authority.

(b) As to any Bond, the person in whose name the same will be registered in the Bond Register will be deemed and regarded as the absolute owner thereof for all purposes, and payment of or on account of the principal of any such Bond, and the interest thereon, will be made only to or upon the order of the registered Owner thereof or his or her legal representative. All such payments will be valid and effectual to satisfy and discharge the liability upon such Bond and the interest thereon to the extent of the sum or sums to be paid. Neither the City nor the Fiscal Agent will be affected by any notice to the contrary.

Nothing contained in this Fiscal Agent Agreement will be construed as limiting the Fiscal Agent or the City to such proof, it being intended that the Fiscal Agent or the City may accept any other evidence of the matters herein stated which the Fiscal Agent or the City may deem sufficient. Any request or consent of the Owner of any Bond will bind every future Owner of the same Bond in respect of anything done or suffered to be done by the Fiscal Agent or the City in pursuance of such request or consent.

Section 9.6. Unclaimed Moneys. Anything in this Fiscal Agent Agreement to the contrary notwithstanding, any money held by the Fiscal Agent or the Fiscal Agent in trust for the payment and discharge of any of the Outstanding Bonds which remain unclaimed for two years after the date when such Outstanding Bonds have become due and payable, if such money was held by the Fiscal Agent or the Fiscal Agent at such date, or for two years after the date of deposit of such money if deposited with the Fiscal Agent or the Fiscal Agent after the date when such Outstanding Bonds become due and payable, will be repaid by the Fiscal Agent or the Fiscal Agent to the City, as its absolute property and free from trust, and the Fiscal Agent or the Fiscal Agent will thereupon be released and discharged with respect thereto and the Owners will look only to the City for the payment of such Outstanding Bonds; provided, however, that, before being required to make any such payment to the City, the Fiscal Agent at the written request of the City or the Fiscal Agent will, at the expense of the City, cause to be mailed by first-class mail, postage prepaid, to the registered Owners of such Outstanding Bonds at their addresses as they appear on the registration books of the Fiscal Agent a notice that said money remains unclaimed and that, after a date named in said notice, which date will not be fewer than

30 days after the date of the mailing of such notice, the balance of such money then unclaimed will be returned to the City.

Section 9.7. Provisions Constitute Contract. The provisions of this Fiscal Agent Agreement will constitute a contract between the City and the Bondowners and the provisions will be construed in accordance with the laws of the State of California.

In case any suit, action or proceeding to enforce any right or exercise any remedy will be brought or taken and, should said suit, action or proceeding be abandoned, or be determined adversely to the Bondowners or the Fiscal Agent, then the City, the Fiscal Agent and the Bondowners will be restored to their former positions, rights and remedies as if such suit, action or proceeding had not been brought or taken.

After the issuance and delivery of the Bonds this Fiscal Agent Agreement will be irrevocable, but will be subject to modifications to the extent and in the manner provided in this Fiscal Agent Agreement, but to no greater extent and in no other manner.

Section 9.8. Future Contracts. Nothing herein contained will be deemed to restrict or prohibit the City from making contracts or creating bonded or other indebtedness payable from a pledge of the Net Taxes which is subordinate to the pledge hereunder, or which is payable from the general fund of the City or from taxes or any source other than the Net Taxes and other amounts pledged hereunder.

Section 9.9. Further Assurances. The City will adopt, make, execute and deliver any and all such further resolutions, instruments and assurances as may be reasonably necessary or proper to carry out the intention or to facilitate the performance of this Fiscal Agent Agreement, and for the better assuring and confirming unto the Owners of the Bonds the rights and benefits provided in this Fiscal Agent Agreement.

Section 9.10. Severability. If any covenant, agreement or provision, or any portion thereof, contained in this Fiscal Agent Agreement, or the application thereof to any person or circumstance, is held to be unconstitutional, invalid or unenforceable, the remainder of this Fiscal Agent Agreement and the application of any such covenant, agreement or provision, or portion thereof, to other persons or circumstances, will be deemed severable and will not be affected thereby, and this Fiscal Agent Agreement, the Bonds issued pursuant hereto will remain valid and the Bondowners will retain all valid rights and benefits accorded to them under the laws of the State of California.

Section 9.11. Notices. . Any notice or demand which by any provision of this Agreement is required or permitted to be given or served by the Fiscal Agent to or on the City may be given or served by being deposited postage prepaid in a post office letter box, by overnight courier or electronic means (with receipt confirmed by telephone) addressed (until another address is filed by the City with the Fiscal Agent) as follows:

City of Roseville
311 Vernon Street
Roseville, California 95678
Attention: Treasurer or Finance Director

Any notice or demand which by any provision of this Agreement is required or permitted to be given or served by the City to or on the Fiscal Agent may be given or served by being

deposited postage prepaid in a post office letter box, by overnight courier or electronic means (with receipt confirmed by telephone) addressed (until another address is filed by the Fiscal Agent with the City) as follows:

The Bank of New York Mellon Trust Company, N.A.
400 South Hope Street, Suite 500
Los Angeles, CA 90071
Attention: Corporate Trust Administration
Fax: (213) 630-6480

IN WITNESS WHEREOF, THE CITY OF ROSEVILLE, for and on behalf of its Stone Point Community Facilities District No. 1, has caused this Fiscal Agent Agreement to be signed by its Chief Financial Executive and City Clerk, and The Bank of New York Mellon Trust Company, N.A., in token of its acceptance of the duties hereunder, has caused this Fiscal Agent Agreement to be signed in its corporate name by its officers identified below, all as of the day and year first above written.

FORM OF SPECIAL TAX BOND, SERIES 2017

R-__

\$_____

UNITED STATES OF AMERICA
STATE OF CALIFORNIA
CITY OF ROSEVILLE
STONE POINT COMMUNITY FACILITIES DISTRICT NO.1
SPECIAL TAX BOND, SERIES 2017

INTEREST RATE: _____% **MATURITY DATE:** SEPTEMBER 1, _____, 2017 **DATED DATE:** _____, 2017 **CUSIP:** N/A

REGISTERED OWNER: THE BANK OF NEW YORK MELLON TRUST COMPANY, N.A., as Trustee under that certain Indenture of Trust dated as of _____ 1, 2017 between the Roseville Finance Authority and The Bank of New York Mellon Trust Company, N.A.

PRINCIPAL AMOUNT: _____ AND NO/100 DOLLARS

THE CITY OF ROSEVILLE (the "City"), for and on behalf of City of Roseville Stone Point Community Facilities District No. 1 (the "CFD"), FOR VALUE RECEIVED, hereby promises to pay, solely from certain amounts held under the Fiscal Agent Agreement (as hereinafter defined), to the Registered Owner named above, or registered assigns, on the Maturity Date set forth above, unless redeemed prior thereto as hereinafter provided, the Principal Amount set forth above, and to pay interest on such Principal Amount from the Interest Payment Date (as hereinafter defined) next preceding the date of authentication, unless (i) the date of authentication is an Interest Payment Date in which event interest will be payable from such date of authentication, (ii) the date of authentication is after a Record Date (as hereinafter defined) but prior to the immediately succeeding Interest Payment Date, in which event interest will be payable from the Interest Payment Date immediately succeeding the date of authentication, or (iii) the date of authentication is prior to the close of business on the first Record Date in which event interest will be payable from the Dated Date set forth above. Notwithstanding the foregoing, if at the time of authentication of this Bond interest is in default, interest on this Bond will be payable from the last Interest Payment Date to which the interest has been paid or made available for payment or, if no interest has been paid or made available for payment, interest on this Bond will be payable from the Dated Date set forth above. Interest will be paid semiannually on March 1 and September 1 (each an "Interest Payment Date"), commencing _____ 1, 2017, at the Interest Rate set forth above, until the Principal Amount is paid or made available for payment.

The principal of and premium, if any, on this Bond are payable to the Registered Owner in lawful money of the United States of America upon presentation and surrender of this Bond at the Principal Office of the Fiscal Agent (as such term is defined in the Fiscal Agent Agreement), initially The Bank of New York Mellon Trust Company, N.A. (the "Fiscal Agent"). Interest on this

Bond will be paid by check of the Fiscal Agent mailed, by first class mail, postage prepaid, or in certain circumstances described in the Fiscal Agent Agreement by wire transfer to an account within the United States of America, to the Registered Owner as of the close of business on the fifteenth day of the month preceding the month in which the Interest Payment Date occurs (the "Record Date") at such Registered Owner's address as it appears on the registration books maintained by the Fiscal Agent.

This Bond is one of a duly authorized issue of "City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017" (the "Bonds") issued in the aggregate principal amount of \$_____ pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, being Sections 53311, et seq., of the California Government Code (the "Act") for the purpose of refinancing outstanding Special Tax Refunding Bonds of the City and paying certain costs related to the issuance of the Bonds. The issuance of the Bonds and the terms and conditions thereof are provided for by a resolution adopted by the City Council of the City acting in its capacity as the legislative body of the CFD (the "Legislative Body") on June 24, 2017 and a Fiscal Agent Agreement executed in connection therewith (the "Fiscal Agent Agreement"), and this reference incorporates the Fiscal Agent Agreement herein, and by acceptance the Registered Owner of this Bond assents to said terms and conditions. The Fiscal Agent Agreement is adopted under and this Bond is issued under, and both are to be construed in accordance with, the laws of the State of California.

Pursuant to the Act and the Fiscal Agent Agreement, the principal of, premium, if any, and interest on this Bond are payable solely from the portion of the annual special taxes authorized under the Act to be levied and collected within the CFD (the "Special Taxes") and certain other amounts pledged to the repayment of the Bonds as set forth in the Fiscal Agent Agreement. Any amounts for the payment will be limited to the Special Taxes pledged and collected or foreclosure proceeds received following a default in payment of the Special Taxes and other amounts deposited to the Special Tax Fund established under the Fiscal Agent Agreement, except to the extent that other provision for payment has been made by the Legislative Body, as may be permitted by law. The City has covenanted for the benefit of the owners of the Bonds that under certain circumstances described in the Fiscal Agent Agreement it will commence and diligently pursue to completion appropriate foreclosure proceedings in the event of delinquencies of Special Tax installments levied for payment of principal and interest on the Bonds.

Optional Redemption. The Bonds maturing on and before September 1, _____, are not subject to optional redemption prior to maturity. The Bonds maturing on and after September 1, _____, may be redeemed, at the option of the City, from any source of funds on any date on or after September 1, _____, in whole, or in part and by lot, at a redemption price equal to the principal amount to be redeemed, plus accrued interest thereon to the date of redemption, without premium.

Notwithstanding the foregoing, with the redemption price may include a premium if necessary, based on the certificate of an Independent Financial Consultant, to redeem the corresponding portion of the Authority Bonds.

Mandatory Sinking Fund Redemption. The Term Bonds maturing on September 1, _____, are subject to redemption prior to their stated maturity, in part, by lot from amounts deposited into the Redemption Account in the following amounts and on the following dates, at the principal amount thereof on the date fixed for redemption, without premium, but which

amounts will be proportionately reduced by the principal amount of all Term Bonds optionally redeemed:

Mandatory Redemption Dates (September 1)	Sinking Fund Payment
---	-------------------------

* Maturity

Extraordinary Redemption. The Bonds are subject to extraordinary redemption as a whole, or in part on a pro rata basis among maturities, on any Interest Payment Date, and will be redeemed by the Fiscal Agent, from Prepayments deposited to the Redemption Account, plus amounts transferred from the Reserve Account, at a redemption price equal to the principal amount to be redeemed, plus a premium expressed below as a percentage of the principal amount so redeemed, plus accrued interest thereon to the date of redemption.

<u>Redemption Date</u>	<u>Redemption Premium</u>
On or after _____, through _____	3%
September 1, _____ and March 1, _____	2
September 1, _____ and March 1, _____	1
September 1, _____ and thereafter	0

Notwithstanding the foregoing, with the redemption price may include an additional premium if necessary, based on the certificate of an Independent Financial Consultant, to redeem the corresponding portion of the Authority Bonds.

In lieu of applying amounts in the Redemption Account to redeem Bonds, an Authorized Representative of the City may instruct the Fiscal Agent to apply such amounts to purchase Bonds as set forth in the Fiscal Agent Agreement.

Notice of redemption with respect to the Bonds to be redeemed will be mailed to the registered owners thereof not fewer than 30 nor more than 45 days prior to the redemption date by first class mail, postage prepaid, to the addresses set forth in the registration books. Neither a failure of the Registered Owner to receive such notice nor any defect therein will affect the validity of the proceedings for redemption. All Bonds or portions thereof so called for redemption will cease to accrue interest on the specified redemption date; provided that funds for the redemption are on deposit with the Fiscal Agent on the redemption date. Thereafter, the registered owners of such Bonds will have no rights except to receive payment of the redemption price upon the surrender of the Bonds.

This Bond will be registered in the name of the Registered Owner, as to both principal and interest, and the City and the Fiscal Agent may treat the Registered Owner as the absolute owner for all purposes and will not be affected by any notice to the contrary.

The Bonds are issuable only in fully registered form in the denomination of \$5,000 or any integral multiple thereof and may be exchanged for a like aggregate principal amount of Bonds of other authorized denominations of the same issue and maturity, all as more fully set forth in the Fiscal Agent Agreement. This Bond is transferable by the Registered Owner, in person or by his attorney duly authorized in writing, at the Principal Office of the Fiscal Agent, but only in the manner, subject to the limitations and upon payment of the charges provided in the Fiscal Agent Agreement, upon surrender and cancellation of this Bond. Upon such transfer, a new

registered Bond of authorized denomination or denominations for the same aggregate principal amount of the same issue and maturity will be issued to the transferee in exchange therefor.

The Fiscal Agent will not be required to register transfers or make exchanges of (i) any Bonds for a period of 15 days next preceding any selection of the Bonds to be redeemed, or (ii) any Bonds chosen for redemption.

The rights and obligations of the City and of the registered owners of the Bonds may be amended at any time, and in certain cases without notice to or the consent of the registered owners, to the extent and upon the terms provided in the Fiscal Agent Agreement.

THE BONDS DO NOT CONSTITUTE OBLIGATIONS OF THE CITY OR THE CFD FOR WHICH THE CITY OR THE CFD IS OBLIGATED TO LEVY OR PLEDGE, OR HAS LEVIED OR PLEDGED, GENERAL OR SPECIAL TAXES, OTHER THAN THE SPECIAL TAXES REFERENCED HEREIN. THE BONDS ARE LIMITED OBLIGATIONS OF THE CITY PAYABLE FROM THE PORTION OF THE SPECIAL TAXES AND OTHER AMOUNTS PLEDGED UNDER THE FISCAL AGENT AGREEMENT BUT ARE NOT A DEBT OF THE CITY, THE STATE OF CALIFORNIA OR ANY OF ITS POLITICAL SUBDIVISIONS WITHIN THE MEANING OF ANY CONSTITUTIONAL OR STATUTORY LIMITATION OR RESTRICTION.

This Bond will not become valid or obligatory for any purpose until the certificate of authentication and registration hereon endorsed will have been dated and signed by the Fiscal Agent.

IT IS HEREBY CERTIFIED, RECITED AND DECLARED that all acts, conditions and things required by law to exist, happen and be performed precedent to and in the issuance of this Bond do exist, have happened and have been performed in due time, form and manner as required by law, and that the amount of this Bond, together with all other indebtedness of the City, does not exceed any debt limit prescribed by the laws or Constitution of the State of California.

IN WITNESS WHEREOF, the City of Roseville, for and on behalf of its City of Roseville Stone Point Community Facilities District No. 1 has caused this Bond to be dated as of _____, 2017, to be signed on behalf of the City by the Mayor by his facsimile signature and attested by the facsimile signature of the City Clerk.

ESCROW AGREEMENT

\$11,285,000
Stone Point Community Facilities District No. 1 Special Tax
Bonds, Series 2003

This ESCROW AGREEMENT (this “**Agreement**”) is made and entered into as of July 1, 2017, by and between the CITY OF ROSEVILLE, a municipal corporation and charter city organized and existing under the laws of the State of California (the “**City**”), and THE BANK OF NEW YORK MELLON TRUST COMPANY, N.A., a national banking association organized and existing under the laws of the United States of America, acting as fiscal agent for the Prior Bonds hereinafter referred to (the “**Prior Bonds Fiscal Agent**”), and acting as escrow agent hereunder (the “**Escrow Bank**”);

W I T N E S S E T H :

WHEREAS, pursuant to provisions of the Mello-Roos Community Facilities Act of 1982, as amended and a Fiscal Agent Agreement, dated as of March 1, 2003 (the “**Prior Bonds Fiscal Agent Agreement**”), by and between the Prior Bonds Fiscal Agent and the City, the City issued its \$11,285,000 original principal amount of Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003 (the “**Prior Bonds**”); and

WHEREAS, the City has determined that it is in the best financial interests of the City to refund, at this time, the Prior Bonds prior to their scheduled maturity date; and

WHEREAS, in order to provide funds for such purpose, the City is issuing its \$_____ aggregate principal amount of City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017 (the “**2017 Bonds**”), pursuant to a Fiscal Agent Agreement, dated as of _____ 1, 2017 (the “**2017 Fiscal Agent Agreement**”), by and between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (the “**2017 Fiscal Agent**”); and

WHEREAS, the City desires to enter into this Agreement with the Escrow Bank for the purpose of providing the terms and conditions relating to the deposit and application of moneys to provide for the redemption prior to maturity of the Prior Bonds;

NOW, THEREFORE, in consideration of the above premises and of the mutual promises and covenants herein contained and for other valuable consideration, the parties hereto do hereby agree as follows:

Section 1. Appointment of Escrow Bank; Creation of Escrow Fund. The City hereby appoints the Escrow Bank to act as escrow agent for purposes of administering the funds required to pay and redeem the Prior Bonds in full in accordance with the Prior Bonds Fiscal Agent Agreement.

The Escrow Bank is hereby directed to establish an escrow fund (the “**Escrow Fund**”) to be held by the Escrow Bank in trust as an irrevocable escrow securing the payment and redemption of the Prior Bonds in accordance with the Prior Bonds Fiscal Agent Agreement and the terms hereof. If at any time the Escrow Bank receives actual knowledge that the cash and securities in the Escrow Fund will not be sufficient to make any payment required by Section 3,

the Escrow Bank shall notify the City of such fact and the City shall immediately cure such deficiency from any source of legally available funds. The Escrow Bank has no liability for any such insufficiency.

Section 2. Deposit into Escrow Fund; Investment of Amounts.

(a) Concurrently with delivery of the 2017 Bonds and the purchase of the 2017 Bonds as set forth in the 2017 Fiscal Agent Agreement:

(i) the City will cause to be transferred to the Escrow Bank (from proceeds of the 2017 Bonds) for deposit into the Escrow Fund, the amount of \$_____, and

(ii) the City will transfer to the Escrow Bank (from special tax revenues related to the Prior Bonds on hand) for deposit into the Escrow Fund, the amount of \$_____, and

(iii) the Prior Bonds Fiscal Agent will cause to be transferred to the Escrow Bank (from amounts it holds with respect to the Prior Bonds) for deposit into the Escrow Fund, the amount of \$_____.

(b) With respect to the aggregate \$_____ deposited into the Escrow Fund, the Escrow Bank will:

(i) invest \$_____ of the moneys deposited in the securities described in Exhibit A hereto (the "**Escrow Securities**"), and

(ii) hold the remaining \$_____ in cash uninvested.

The Escrow Bank may conclusively rely upon the verification report by _____, dated _____, 2017 as to the sufficiency of the funds to make the payments required for a full redemption of the outstanding Prior Bonds. The Escrow Securities and cash will be deposited with and held by the Escrow Bank in the Escrow Fund solely for the uses and purposes set forth herein. The Escrow Bank will have no lien upon or right of set off against the Escrow Securities and cash at any time on deposit in the Escrow Fund.

(c) If the Escrow Bank learns that the Department of the Treasury or the Bureau of Public Debt will not, for any reason, accept a subscription of state and local government series securities ("SLGS") that is to be submitted pursuant to this Agreement, the Escrow Bank shall promptly request alternative written investment instructions from the City with respect to funds which were to be invested in SLGS. The Escrow Bank shall follow such instructions and, upon the maturity of any such alternative investment, the Escrow Bank shall hold such funds uninvested and without liability for interest until receipt of further written instructions from the City. In the absence of investment instructions from the City, the Escrow Bank shall not be responsible for the investment of such funds or interest thereon. The Escrow Bank may conclusively rely upon the City's selection of an alternative investment as a determination of the alternative investment's legality and suitability, and shall not be liable for any losses related to the alternative investments or for compliance with any yield restriction applicable thereto.

(d) Upon redemption in full of the Prior Bonds, the Prior Bonds Fiscal Agent shall transfer any moneys remaining in funds and accounts created under the Prior Bonds Fiscal Agent Agreement to the 2017 Fiscal Agent for deposit into the Bond Fund created under the

2017 Fiscal Agent Agreement and the funds and accounts created under the Prior Bonds Fiscal Agent Agreement shall be closed.

Section 3. Application of Amounts in Escrow Fund. The total amount of Escrow Securities and cash deposited in the Escrow Fund pursuant to Section 2 will be applied by the Escrow Bank to the payment and prepayment of the Prior Bonds on the dates and in the amounts set forth on Exhibit B hereto. Any amounts remaining in the Escrow Fund following the full payment and prepayment of the Prior Bonds will be transferred by the Escrow Bank to the 2017 Fiscal Agent, for deposit to the Bond Fund for the 2017 Bonds established under the 2017 Fiscal Agent Agreement.

Section 4. Irrevocable Election to Redeem; Notices. The City hereby irrevocably elects to redeem the Prior Bonds maturing on and after September 1, 2018 on September 1, 2017, all in accordance with the provisions of the Prior Bonds Fiscal Agent Agreement. The Escrow Bank is hereby directed to give notice of such redemption in accordance with the Prior Bonds Fiscal Agent Agreement, at the expense of the City, in a form deemed suitable by the Prior Bonds Fiscal Agent and substantially containing the information shown in Exhibit C hereto.

In addition, the Escrow Bank is directed to give a Notice of Defeasance of all of the Prior Bonds, substantially in the form of Exhibit D hereto, on the issuance date of the 2017 Bonds, to the Municipal Securities Rulemaking Board Electronic Municipal Market Access (EMMA) system accessible at the emma.msrb.org website.

Section 5. Compensation to Escrow Bank. From proceeds of the 2017 Bonds or other lawfully available sources, the City will pay the Escrow Bank full compensation for its duties under this Agreement, including out-of-pocket costs such as publication costs, prepayment expenses, legal fees and other costs and expenses relating hereto and, in addition, all fees, costs and expenses relating to the purchase of any Escrow Securities after the date hereof. Under no circumstances will amounts deposited in or credited to the Escrow Fund be deemed to be available for said purposes.

Section 6. Immunities and Liabilities of Escrow Bank.

(i) The Escrow Bank undertakes to perform only such duties as are expressly and specifically set forth in this Agreement and no implied duties or obligations will be read into this Agreement against the Escrow Bank.

(ii) The Escrow Bank will not have any liability hereunder except to the extent of its own gross negligence or willful misconduct. The Escrow Bank will have no duty or responsibility under this Agreement in the case of any default in the performance of the covenants or agreements contained in the Prior Bonds Fiscal Agent Agreement.

(iii) The Escrow Bank may consult with counsel of its own choice (which may be counsel to the City) and the opinion of such counsel will be full and complete authorization to take or suffer in good faith any action in accordance with such opinion of counsel.

(iv) The Escrow Bank will not be responsible for any of the recitals or representations contained herein.

(v) The Escrow Bank will not be liable for the accuracy of any calculations provided as to the sufficiency of the moneys or Escrow Securities deposited with it to pay the principal of, and interest, or premiums, if any, on the Prior Bonds.

(vi) The Escrow Bank will not be liable for any action or omission of the City under this Agreement or the Prior Bonds Fiscal Agent Agreement.

(vii) Whenever in the administration of this Agreement the Escrow Bank deems it necessary or desirable that a matter be proved or established prior to taking or suffering any action hereunder, such matter (unless other evidence in respect thereof be herein specifically prescribed) may, in the absence of negligence or willful misconduct on the part of the Escrow Bank, be deemed to be conclusively proved and established by a certificate of an authorized representative of the City, and such certificate will, in the absence of negligence or willful misconduct on the part of the Escrow Bank, be full warrant to the Escrow Bank for any action taken or suffered by it under the provisions of this Agreement upon the faith thereof.

(viii) The Escrow Bank may conclusively rely, as to the truth and accuracy of the statements and correctness of the opinions and the calculations provided, and will be protected and indemnified, in acting, or refraining from acting, upon any written notice, instruction, request, certificate, document or opinion furnished to the Escrow Bank signed or presented by the proper party, and it need not investigate any fact or matter stated in such notice, instruction, request, certificate or opinion.

(ix) The Escrow Bank may at any time resign by giving written notice to the City of such resignation. The City will promptly appoint a successor Escrow Bank by the resignation date. Resignation of the Escrow Bank will be effective upon acceptance of appointment by a successor Escrow Bank. If the City does not promptly appoint a successor, the Escrow Bank may petition any court of competent jurisdiction for the appointment of a successor Escrow Bank, which court may thereupon, after such notice, if any, as it may deem proper and prescribe and as may be required by law, appoint a successor Escrow Bank. After receiving a notice of resignation of an Escrow Bank, the City may appoint a temporary Escrow Bank to replace the resigning Escrow Bank until the City appoints a successor Escrow Bank. Any such temporary Escrow Bank so appointed by the City will immediately and without further act be superseded by the successor Escrow Bank so appointed.

(x) The City covenants to indemnify and hold harmless the Escrow Bank against any loss, liability or expense, including legal fees, in connection with the performance of any of its duties hereunder, except the Escrow Bank will not be indemnified against any loss, liability or expense resulting from its gross negligence or willful misconduct.

(xi) In no event shall the Escrow Bank be liable for any special indirect or consequential damages.

(xii) The Escrow Bank shall incur no liability for losses arising from any investment made pursuant to this Agreement.

(xiii) Any company into which the Escrow Bank may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which the Escrow Bank may sell or transfer all or substantially all of its corporate trust business shall be the successor to the

Escrow Bank without the execution or filing of any paper or further act, anything herein to the contrary notwithstanding.

(xiii) The liability of the Escrow Bank to make the payments shall be limited to the moneys and Escrow Securities in the Escrow Fund.

(xiv) The Escrow Bank's rights to indemnification hereunder shall survive its resignation or removal and the termination of the Agreement.

(xv) The Escrow Bank may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents, attorneys, custodians or nominees appointed with due care, and shall not be responsible for any willful misconduct or negligence on the part of any agent, attorney, custodian or nominee so appointed.

(xvi) The City acknowledges that to the extent regulations of the Comptroller of the Currency or other applicable regulatory entity grant the Authority the right to receive brokerage confirmations of security transactions as they occur, the City specifically waives receipt of such confirmations to the extent permitted by law. The Escrow Bank will furnish the City periodic cash transaction statements which include detail for all investment transactions made by the Escrow Bank hereunder.

(xvii) No provision of this Agreement shall require the Escrow Bank to expend or risk its own funds or otherwise incur any financial liability in the performance or exercise of any of its duties hereunder, or in the exercise of its rights or powers, if it shall have reasonable grounds for believing that repayment of such funds or adequate indemnity against such risk or liability is not reasonably assured to it.

Section 7. Electronic Communications. The Escrow Bank shall have the right to accept and act upon instructions, including funds transfer instructions ("Instructions") given pursuant to this Agreement and delivered using Electronic Means ("Electronic Means" shall mean the following communications methods: e-mail, facsimile transmission, secure electronic transmission containing applicable authorization codes, passwords and/or authentication keys issued by the Escrow Bank, or another method or system specified by the Escrow Bank as available for use in connection with its services hereunder); provided, however, that the City shall provide to the Escrow Bank an incumbency certificate listing officers with the authority to provide such Instructions and containing specimen signatures of such authorized officers, which incumbency certificate shall be amended by the City whenever a person is to be added or deleted from the listing. If the City elects to give the Escrow Bank Instructions using Electronic Means and the Escrow Bank in its discretion elects to act upon such Instructions, the Escrow Bank's understanding of such Instructions shall be deemed controlling. The City understands and agrees that the Escrow Bank cannot determine the identity of the actual sender of such Instructions and that the Escrow Bank shall conclusively presume that directions that purport to have been sent by an Authorized Officer listed on the incumbency certificate provided to the Escrow Bank have been sent by such Authorized Officer. The City shall be responsible for ensuring that only authorized officers transmit such Instructions to the Escrow Bank and that the City and all authorized officers are solely responsible to safeguard the use and confidentiality of applicable user and authorization codes, passwords and/or authentication keys upon receipt by the City. The Escrow Bank shall not be liable for any losses, costs or expenses arising directly or indirectly from the Escrow Bank's reliance upon and compliance with such Instructions notwithstanding such directions conflict or are inconsistent with a subsequent written instruction. The City agrees: (i) to assume all risks arising out of the use of Electronic Means to submit

Instructions to the Escrow Bank, including without limitation the risk of the Escrow Bank acting on unauthorized Instructions, and the risk of interception and misuse by third parties; (ii) that it is fully informed of the protections and risks associated with the various methods of transmitting Instructions to the Escrow Bank and that there may be more secure methods of transmitting Instructions than the method(s) selected by the City; (iii) that the security procedures (if any) to be followed in connection with its transmission of Instructions provide to it a commercially reasonable degree of protection in light of its particular needs and circumstances; and (iv) to notify the Escrow Bank immediately upon learning of any compromise or unauthorized use of the security procedures.

Section 8. Amendment. This Agreement may be amended by the parties hereto, (i) without the consent of the owners of the Prior Bonds, but only if such amendment is made (a) to cure, correct or supplement any ambiguous or defective provision contained herein, (b) to pledge additional security to the payment of the principal, premium, if any, and interest represented by the Prior Bonds, or (c) to deposit additional monies for the purposes of this Agreement, or (ii) with the consent of 100% of the owners of the Prior Bonds outstanding, and only if there will have been filed with the City and the Escrow Bank a written opinion of Bond Counsel stating that any such amendment will not materially adversely affect the interests of the owners of the Prior Bonds, and that any such amendment will not cause interest on the Prior Bonds to become includable in the gross income of the owners thereof for federal income tax purposes.

Section 9. Termination. Upon prepayment in full of the Prior Bonds, and upon payment of all fees, expenses and charges of the Escrow Bank as described above, this Agreement shall terminate and the Escrow Bank shall be discharged from any further obligation or responsibility hereunder.

Section 10. Execution in Counterparts. This Agreement may be executed in several counterparts, each of which will be an original and all of which will constitute but one and the same instrument.

Section 11. Applicable Law. This Agreement will be governed by and construed in accordance with the laws of the State of California.

Section 12. Severability. In the event any provision of this Agreement will be held invalid or unenforceable by any court of competent jurisdiction, such holding will not invalidate or render unenforceable any other provision hereof.

IN WITNESS WHEREOF, the parties hereto have each caused this Agreement to be executed by their duly authorized officers all as of the date first above written.

CFD BONDS PURCHASE AGREEMENT

This CFD BONDS PURCHASE AGREEMENT (this “**Purchase Agreement**”), dated as of _____, 2017, is between the Roseville Finance Authority (the “**Authority**”), a joint powers authority organized and existing under the laws of the State of California and the City of Roseville (the “**City**”), a charter city and municipal corporation organized and existing under and by virtue of the Constitution and laws of the State of California, for and on behalf of Stone Point Community Facilities District No. 1 and Stone Point Community Facilities District No. 5.

BACKGROUND:

1. The Authority is a joint exercise of powers authority duly organized and existing under the provisions of Articles 1 through 4 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (the “**Act**”), and is authorized pursuant to Article 4 of the Act (the “**Bond Law**”) to borrow money for the purpose of financing the acquisition of bonds, notes and other obligations to provide financing or refinancing for public capital improvements of local agencies within the State of California.

2. The City is issuing (i) the City of Roseville Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017 and (ii) the City of Roseville Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Refunding Bonds, Series 2017 (the “**CFD Bonds**”) to refund the following outstanding bonds (collectively, the “**Prior Bonds**”):

- (i) \$11,285,000 original principal amount of Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003; and
- (i) \$5,310,000 original principal amount of Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Bonds, Series 2006;

3. The Authority has authorized the issuance of its Special Tax Revenue Refunding Bonds, Series 2017B in the aggregate principal amount of \$ _____ (the “**Authority Bonds**”), under an Indenture of Trust dated as of _____ 1, 2017 (the “**Authority Bond**”).

Indenture”), by and between the Authority and The Bank of New York Mellon Trust Company, N.A., as trustee (the “Trustee”), and under the Bond Law for the purpose of providing the funds required to acquire the CFD Bonds.

4. The Authority and the City desire to enter into this CFD Bonds Purchase Agreement providing for the purchase and sale of the CFD Bonds by the City to the Authority and containing the other agreements herein set forth.

NOW, THEREFORE, in consideration of the mutual agreements herein contained, and for other good and valuable consideration, the receipt of which is hereby acknowledged, the Authority and the City agree as follows:

1. Upon the terms and conditions and upon the basis of the representations, warranties and agreements hereinafter set forth, the City hereby commits to sell to the Authority and does hereby sell to the Authority, and the Authority hereby commits to purchase from the City and does hereby purchase from the City with the proceeds of the Authority Bonds all of the \$_____ combined aggregate principal amount of the CFD Bonds. The CFD Bonds will bear the annual interest rates and mature at the times set forth in Exhibit A attached hereto and hereby made a part hereof. The aggregate purchase price of the CFD Bonds is set forth below and the individual purchase price of each issue of the CFD Bonds will be as set forth in Exhibit A.

2. All terms not herein defined will have the meanings given such terms in the Indenture of Trust authorizing the issuance of the Authority Bonds.

3. The City confirms that there are no substantial conditions precedent to the issuance by the City and to the sale (as provided herein) and the delivery to the Authority of the CFD Bonds.

4. The parties hereto hereby specify _____, 2017, as the date of closing of the purchase of the CFD Bonds hereunder (the “**Closing Date**”). The CFD Bonds will be registered in the name of the Trustee, as assignee of the Authority. On the Closing Date, the City will issue and deliver the CFD Bonds to the Trustee upon payment by the Trustee of the purchase price of the CFD Bonds in the aggregate amount of \$_____, being the aggregate principal amount of the CFD Bonds. Said purchase price will be paid from the proceeds of sale of the Authority Bonds, and will be paid by the Trustee from the Purchase Fund established under the Authority Bond Indenture.

5. The CFD Bonds will be as described in the Official Statement dated as of the date hereof, relating to the Authority Bonds (the “**Official Statement**”) and will be issued and secured under the provisions of the resolution adopted by the City on _____, 2017 (the “**Resolution**”) and the Fiscal Agent Agreements with respect to each series of CFD Bonds, each dated as of _____ 1, 2017 (the “**Fiscal Agent Agreements**”), and each between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent. The CFD Bonds and interest thereon will be payable from Special Taxes levied and collected in accordance with the Resolution and the Fiscal Agent Agreements.

6. Any action under this Purchase Agreement taken by the Authority, including payment for and acceptance of the CFD Bonds, and delivery and execution of any receipt for the CFD Bonds and any other instruments in connection with the closing on the Closing Date, will be valid and sufficient for all purposes and binding upon the Authority, provided that any

such action will not impose any obligation or liability upon the Authority other than as may arise as expressly set forth in this Purchase Agreement.

7. It is a condition to the City's sale and delivery of the CFD Bonds to the Authority, and to the Authority's purchase of the CFD Bonds and the obligations of the Authority to accept delivery of and to pay for the CFD Bonds, that the entire aggregate principal amount of the CFD Bonds authorized by the Resolutions and the Fiscal Agent Agreements will be delivered by the City, and accepted and paid for by the Authority, on the Closing Date.

8. The City has furnished some, but not all, of the information contained in the Official Statement and hereby authorizes the use of that information by the Authority in connection with the public offering and sale of the Authority Bonds.

9. The City represents and warrants to the Authority that:

(a) The City is a general law city and municipal corporation organized and existing under the Constitution and laws of the State of California, and has, and on the Closing Date will have, full legal right, power and authority (i) to enter into this Purchase Agreement, the Continuing Disclosure Certificate relating to the Bonds and the CFD Bonds (the "**Continuing Disclosure Certificate**") and the Fiscal Agent Agreements (collectively, the "**City Documents**"), (ii) to adopt the Resolution, (iii) to issue, sell and deliver the CFD Bonds to the Authority as provided herein, and (iv) to carry out and consummate the transactions contemplated by the Resolution, the City Documents and the Official Statement;

(b) By all necessary official action of the City, the City has duly authorized and approved the execution and delivery of, and the performance by the City of the obligations contained in, the City Documents and as of the date hereof, such authorizations and approvals are in full force and effect and have not been amended, modified or rescinded. When executed and delivered, the City Documents will constitute the legally valid and binding obligations of the City enforceable in accordance with their respective terms, except as enforcement may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws or equitable principles relating to or affecting creditors' rights generally;

(c) The City has complied, and will at the Closing be in compliance in all respects, with the terms of the City Documents;

(d) The execution and delivery of City Documents and the CFD Bonds, the adoption of the Resolutions and compliance with the provisions of each thereof, and the carrying out and consummation of the transactions contemplated by the Official Statement, will not conflict with or constitute a breach of or a default under any applicable law or administrative regulation of the State of California or the United States, or any applicable judgment, decree, agreement or other instrument to which the City is a party or is otherwise subject;

(e) To the knowledge of the City, at the time of the City's acceptance hereof and at all times subsequent thereto up to and including the Closing Date, with respect to information describing the City, the CFDs, the City Documents and the Resolution and other resolutions relating to the CFDs, the Official Statement does not and will not contain any untrue statement of a material fact or omit to state a material fact required to

be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(f) Except as described in the Official Statement, there is no action, suit, proceeding or investigation before or by any court, public board or body pending or, to the knowledge of the City, threatened, wherein an unfavorable decision, ruling or finding would: (i) affect the creation, organization, existence or powers of the City or the titles of its members and officers to their respective offices, (ii) enjoin or restrain the issuance, sale and delivery of the CFD Bonds, the levy and receipt of the Special Taxes which secure the CFD Bonds, or the pledge thereof, (iii) in any way question or affect any of the rights, powers, duties or obligations of the City with respect to the moneys pledged or to be pledged to pay the principal of, premium, if any, or interest on the CFD Bonds, (iv) in any way question or affect any authority for the issuance of the CFD Bonds, or the validity or enforceability of the CFD Bonds, the Resolution or the City Documents, or (v) in any way question or affect the City Documents or the transactions contemplated by the City Documents, the Official Statement, the Resolution, the other documents referred to in the Official Statement, or any other agreement or instrument to which the City is a party relating to the CFD Bonds;

(g) The City will furnish such information, execute such instruments and take such other action in cooperation with the Authority, as the Authority may reasonably request, to qualify the Authority Bonds for offer and sale under the Blue Sky or other securities laws and regulations of such states and other jurisdictions of the United States as the Authority may designate, and will assist, if necessary therefor, in the continuance of such qualifications in effect as long as required for the distribution of the Authority Bonds; provided, however, that the City will not be required to qualify as a foreign corporation or to file any general consents to service of process under the laws of any state;

(h) The issuance and sale of the CFD Bonds is not subject to any transfer or other documentary stamp taxes of the State of California or any political subdivision thereof;

(i) The City has not failed to comply with a continuing disclosure undertaking pursuant to Rule 15c2-12 other than as disclosed in the Official Statement; and

(j) Any certificate signed by any official of the City authorized to do so will be deemed a representation and warranty by the City to the Authority as to the statements made therein.

10. If between the date of this Purchase Agreement and the date twenty five (25) days after the Closing Date an event occurs which is materially adverse to the purpose for which the Official Statement is to be used which is not disclosed in the Official Statement, the City will notify the Authority of such fact.

11. At 9:00 a.m., Pacific Time, on the Closing Date, or at such other time or on such other date as is mutually agreed by the City and the Authority, (a) the City will deliver the CFD Bonds to the Trustee in definitive form, duly executed, together with the other documents hereinafter mentioned, (b) subject to the terms and conditions hereof, the Trustee solely from moneys held under the Authority Bond Indenture will accept such delivery and pay the purchase price of the CFD Bonds as referenced in paragraph 1 hereof by wire transfer or other funds

which are good funds on the Closing Date, (c) the Trustee will deposit into the funds established under the Fiscal Agent Agreements the amounts described in the Fiscal Agent Agreements. Delivery and payment, as aforesaid, will be made at such place as will have been mutually agreed upon by the City, the Trustee and the Authority.

12. The Authority has entered into this Purchase Agreement in reliance upon the representations, warranties and agreements of the City contained herein and to be contained in the documents and instruments to be delivered on the Closing Date, and upon the performance by the City of its obligations hereunder, both as of the date hereof and as of the Closing Date. Accordingly, the Authority's obligations under this Purchase Agreement to purchase, to accept delivery of and to pay for the CFD Bonds will be subject to the performance by the City of its obligations to be performed hereunder and under such documents and instruments at or prior to the Closing Date, and will also be subject to the following conditions:

(a) The representations and warranties of the City contained herein will be true, complete and correct on the date hereof and on and as of the Closing Date, as if made on the Closing Date;

(b) On the Closing Date the Resolution and the City Documents will be in full force and effect, and will not have been amended, modified or supplemented, and the Official Statement will not have been amended, modified or supplemented, except in either case as may have been agreed to by both the Authority and the Underwriter;

(c) As of the Closing Date, all official action of the City relating to the CFD Bonds, including but not limited to the Resolution, will be in full force and effect, and there will have been taken all such actions as, in the opinion of Jones Hall, A Professional Law Corporation ("**Bond Counsel**"), will be necessary or appropriate in connection therewith, with the issuance of the Authority Bonds and the CFD Bonds, and with the transactions contemplated hereby, all as described in the Official Statement;

(d) The Authority will have the right to terminate the Authority's obligations under this Purchase Agreement to purchase, to accept delivery of and to pay for the CFD Bonds by notifying the City of its election to do so if, after the execution hereof and prior to the Closing: (i) either the marketability of the Authority Bonds or the market price of the Authority Bonds, in the opinion of the Authority, has been materially and adversely affected by any decision issued by a court of the United States (including the United States Tax Court) or of the State of California, by any ruling or regulation (final, temporary or proposed) issued by or on behalf of the Department of the Treasury of the United States, the Internal Revenue Service, or other governmental agency of the United States, or any governmental agency of the State of California, or by a tentative decision with respect to legislation reached by a committee of the House of Representatives or the Senate of the Congress of the United States, or by legislation enacted by, pending in, or favorably reported to either the House of Representatives or the Senate of the Congress of the United States or either house of the Legislature of the State of California, or formally proposed to the Congress of the United States by the President of the United States or to the Legislature of the State of California by the Governor of the State of California in an executive communication, affecting the tax status of the Authority or the City, their property or income, their bonds (including the Authority Bonds) or the interest thereon, or any tax exemption granted or authorized by the Bond Law; (ii) the United States will have become engaged in: hostilities which have resulted in a declaration of war or national emergency, or there will have occurred any other

outbreak of hostilities, or a local, national or international calamity or crisis, financial or otherwise, the effect of such outbreak, calamity or crisis being such as, in the reasonable opinion of the Authority, would affect materially and adversely the ability of the Authority to market the Authority Bonds (it being agreed by the Authority that there is no outbreak, calamity or crisis of such a character as of the date hereof); (iii) there will have occurred a general suspension of trading on the New York Stock Exchange or the declaration of a general banking moratorium by the United States, New York State or California State authorities; (iv) there will have occurred a withdrawal or downgrading of any rating assigned to any securities of the City by a national municipal bond rating agency; or (v) an event described in paragraph 12 hereof occurs which in the opinion of the Authority requires a supplement or amendment to the Official Statement, and such supplement or amendment is not agreed to by the City; and

(e) On or prior to the Closing Date, the Authority will have received each of the following documents:

(1) All documents and opinions required to be received by the Trustee prior to the application of proceeds of the Authority Bonds to the purchase of the CFD Bonds;

(2) Opinions, in form and substance satisfactory to the City and the Authority, dated as of the Closing Date, of Bond Counsel, approving, without qualification, the validity of the CFD Bonds;

(3) A letter of Bond Counsel, dated the date of the Closing and addressed to the Authority and the Underwriter, to the effect that the opinion referred to in the preceding subparagraph (2) may be relied upon by the Authority to the same extent as if such opinion were addressed to it;

(4) A supplemental opinion, dated the date of the Closing and addressed to the Authority and the Underwriter, of Bond Counsel to the effect that this Purchase Agreement has been duly authorized, executed and delivered by, and, assuming due authorization, execution and delivery by the Authority, constitutes a legal, valid and binding agreement of the City enforceable in accordance with its terms, except as such enforceability may be limited by the application of equitable principles if equitable remedies are sought, and that the statements contained in the Official Statement (including the cover page and the Appendices thereto), insofar as such statements purport to summarize certain provisions of the CFD Bonds, the City Documents or the Resolution, accurately summarize the information presented therein;

(5) A certificate dated the Closing Date, addressed to the Authority and the Underwriter, signed by a City official having knowledge of the facts to the effect that:

(i) The representations and warranties of the City contained herein are true and correct in all material respects on and as of the Closing Date as if made on the Closing Date;

(ii) Except as described in the Official Statement, there is no action, suit, proceeding or investigation before or by any court, public

board or body pending or threatened, wherein an unfavorable decision, ruling or finding would: (A) affect the creation, organization, existence or powers of the City, or the titles of its members and officers to their respective offices, (B) enjoin or restrain the issuance, sale and delivery of the CFD Bonds, the levy or collection of the Special Taxes or any other moneys or property pledged or to be pledged under the Resolution or the Fiscal Agent Agreements, or the pledge thereof, (C) in any way question or affect any of the rights, powers, duties or obligations of the City with respect to the moneys and assets pledged or to be pledged to pay the principal of, premium, if any, or interest on the CFD Bonds, (D) in any way question or affect any authority for the issuance of the CFD Bonds, or the validity or enforceability of the CFD Bonds, the Resolution or the City Documents, or (E) in any way question or affect this Purchase Agreement or the transactions contemplated by the City Documents, the Resolution, the Official Statement or the documents referred to in the Official Statement;

(iii) The City has complied with all agreements, covenants and arrangements, and satisfied all conditions, on its part to be complied with or satisfied on or prior to the Closing Date; and

(iv) To the best of its knowledge, no event affecting the City has occurred since the date of the Official Statement which should be disclosed in the Official Statement for the purposes for which it is necessary to disclose therein in order to make the statements not misleading in any respect;

(6) An opinion, dated the date of Closing and addressed to the Authority and the Underwriter, of the City Attorney, to the effect that (A) the City Documents have been duly authorized, executed and delivered by, and, assuming due authorization, execution and delivery, constitute the legal, valid and binding agreement of the City enforceable in accordance with their terms, except as such enforceability may be limited by the application of equitable principles if equitable remedies are sought, (B) the Resolution has been duly adopted, is in full force and effect and has not been modified, amended or rescinded, and (C) except as described in the Official Statement, there is no action, suit, proceeding or investigation before or by any court, public board or body pending or threatened, wherein an unfavorable decision, ruling or finding would: (i) affect the creation, organization, existence or powers of the City, or the CFDs; (ii) enjoin or restrain the issuance, sale and delivery of the CFD Bonds, the receipt of any other moneys or property pledged or to be pledged under the Indentures or the pledge thereof; (iii) in any way question or affect any of the rights, powers, duties or obligations of the City with respect to the moneys and assets pledged or to be pledged to pay the principal of, premium, if any, or interest on the CFD Bonds; (iv) in any way question or affect any authority for the issuance of the CFD Bonds, or the validity or enforceability of the CFD Bonds, the Resolution or the CFD Documents; (v) in any way question or affect this Purchase Agreement or the transactions contemplated by the City Documents, the Official Statement or the documents referred to in the Official Statement and (vi) the statements in the Official Statements relating to the City are true and accurate;

(7) Such additional legal opinions, certificates, instruments and documents as the Authority may reasonably request to evidence the truth and accuracy, as of the date hereof and as of the Closing Date, of the City's representations and warranties contained herein and of the statements and information contained in the Official Statement; and

(8) Executed copies of the Fiscal Agent Agreements.

(9) The Resolution, certified by authorized officers as a true copy and/or as having been adopted or executed (as applicable), with only such amendments, modifications or supplements as may have been agreed to by the Authority and the Underwriter.

All of the opinions, letters, certificates, instruments and other documents mentioned above or elsewhere in this Purchase Agreement will be deemed to be in compliance with the provisions hereof if, but only if, they are in form and substance satisfactory to the Authority, but the approval of the Authority will not be unreasonably withheld. Receipt of, and payment for, the CFD Bonds will constitute evidence of the satisfactory nature of such as to the Authority. The performance of any and all obligations of the City hereunder and the performance of any and all conditions contained herein for the benefit of the Authority may be waived by the Authority in its sole discretion.

If the City will be unable to satisfy the conditions to the obligations of the Authority to purchase, accept delivery of and pay for the CFD Bonds contained in this Purchase Agreement, or if the obligations of the Authority to purchase, accept delivery of and pay for the CFD Bonds will be terminated for any reason permitted by this Purchase Agreement, this Purchase Agreement will terminate, and neither the Authority nor the City will be under further obligation hereunder, except that the respective obligations of the City and the Authority set forth in paragraphs 15 and 16 hereof will continue in full force and effect.

14. The Authority and the City will determine which portion of expenses incurred in connection with issuance of the Authority Bonds and the CFD Bonds will be paid by each respective entity, in such proportion as is in compliance with all applicable laws.

15. To the extent permitted by law, the City will indemnify and hold harmless the Authority and the Trustee, and their respective officers, directors, employees and agents, against any and all losses, claims, damages, liabilities, costs and expenses (including without limitation fees and disbursements of counsel and other expenses) incurred by them or any of them in connection with investigating or defending any loss, claim, damages, liability or any suit, action or proceeding, joint or several, to which they or any of them may become subject under the laws of the State of California or under federal tax law, insofar as such losses, claims, damages, liabilities, costs and expenses (or any suit, action or proceeding in respect thereof) arise out of or are based upon the issuance and sale of the CFD Bonds or any untrue statement or alleged untrue statement of a material fact contained in the Official Statement or in any amendment or supplement thereto, or any omission or alleged omission to state therein a material fact relating to the City, the CFDs or the CFD Bonds which is required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading. This indemnity agreement will be in addition to any liability which the City or the CFDs may otherwise have.

16. This Purchase Agreement is made solely for the benefit of the City and the Authority (including their successors and assigns), and no other person will acquire or have any right hereunder or by virtue hereof. All of the City's representations, warranties and agreements contained in this Purchase Agreement will remain operative and in full force and effect regardless of: (i) any investigations made by or on behalf of the Authority or (ii) delivery of and payment for the CFD Bonds pursuant to this Purchase Agreement. The agreements contained in this paragraph and in paragraph 15 will survive any termination of this Purchase Agreement.

17. This Purchase Agreement may be executed by the parties hereto in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute but one and the same instrument.

18. In case any one or more of the provisions contained herein will for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provision hereof.

19. The validity, interpretation and performance of this Purchase Agreement will be governed by the laws of the State of California.

IN WITNESS WHEREOF, the Authority and the City have caused this Purchase Agreement to be executed by their duly authorized officers all as of the date first above written.

PURCHASE CONTRACT

§ _____
**ROSEVILLE FINANCE AUTHORITY
SPECIAL TAX REVENUE REFUNDING BONDS
SERIES 2017B**

_____, 2017

Roseville Finance Authority
311 Vernon Street
Roseville, California 95678
Attention: Chair

Ladies and Gentlemen:

The undersigned, Piper Jaffray & Co. (the "Underwriter") offers to enter into this purchase contract (this "Purchase Contract") with the Roseville Finance Authority (the "Authority") which, upon the acceptance of the Authority of this offer, will be binding upon the Authority and the Underwriter. This offer is made subject to the Authority's written acceptance hereof on or before 11:59 p.m. Pacific time, on the date hereof, and, if not so accepted, will be subject to withdrawal by the Underwriter upon notice delivered to the Authority at any time prior to the acceptance hereof by the Authority. Terms not otherwise defined in this Purchase Contract shall have the same meanings set forth in the Indenture (as defined herein) or in the Official Statement (as defined herein).

1. **Purchase and Sale of the Bonds.** Subject to the terms and conditions and in reliance upon the representations and agreements set forth herein, the Underwriter hereby agrees to purchase from the Authority, and the Authority hereby agrees to sell and deliver to the Underwriter, all, but not less than all, of the Authority's Special Tax Revenue Refunding Bonds, Series 2017B (the "Bonds").

The principal amount of the Bonds to be issued, the dated date therefor, the maturities, mandatory sinking fund redemption provisions and interest rates per annum are set forth in Exhibit A hereto and as further described in the Official Statement (as defined herein). The Bonds shall be as described in, and shall be issued and secured under and pursuant to the provisions of the resolution adopted by the Authority on _____, 2017 (the "Resolution") and an Indenture of Trust, dated as of _____ 1, 2017 (the "Indenture"), between the Authority and The Bank of New York Trust Company, N.A., as trustee (the "Trustee"). The Bonds are being issued pursuant to the Indenture and the provisions of Articles 10 and 11 of Chapter 3 of Part 1 of Division 2 of Title 5 of the California Government Code, commencing with Section 53570 of said Code.

The Underwriter has agreed to purchase all (but not less than all) of the Bonds from the Authority at a purchase price of \$_____ (being 100% of the aggregate principal amount

thereof, plus a net original issue premium of \$ _____ and less an Underwriter's discount of \$ _____).

Proceeds of the Bonds are to be used to purchase from the City of Roseville (the "City") two series of special tax refunding bonds which will be issued by the City concurrently with the issuance of the Bonds: (i) Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017 and (ii) Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Refunding Bonds, Series 2017 (together, the "CFD Bonds"). The CFD Bonds are being issued by the City to refund the (i) \$11,285,000 original principal amount of Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003 and (ii) \$5,310,000 original principal amount of Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Bonds, Series 2006 (together, the "Prior CFD Bonds"), fund a reserve account for each series of CFD Bonds and pay costs of issuance. The Prior CFD Bonds were issued to finance improvements for the City's Stone Point Community Facilities District No. 1 and Stone Point Community Facilities District No. 5 (Public Facilities) (together, the "Districts") related to original development in the Districts.

A portion of the proceeds of the Bonds will be transferred to The Bank of New York Mellon Trust Company, N.A., acting as escrow agent under an Escrow Agreement dated as of _____ 1, 2017 (the "Escrow Agreement"), by and between the City and The Bank of New York Mellon Trust Company, N.A. on the Closing Date for the Bonds.

2. **Public Offering.** The Underwriter agrees to make a bona fide public offering of all of the Bonds at a price not to exceed the public offering price set forth on the inside cover of the Official Statement (as defined herein) and as set forth in Exhibit A.

The Underwriter has been duly authorized to execute this Purchase Contract and to act hereunder. Inasmuch as this purchase and sale represents a negotiated transaction, the Authority acknowledges and agrees that (i) the transaction contemplated by this Purchase Contract is an arm's length, commercial transaction between the Authority and the Underwriter in which the Underwriter is acting solely as a principal and is not acting as a municipal advisor, financial advisor or fiduciary to the Authority and the Underwriter has financial interests that differ from those of the Authority; (ii) the Underwriter has not assumed any advisory or fiduciary responsibility to the Authority with respect to the transaction contemplated hereby and the discussions, undertakings and procedures leading thereto (irrespective of whether the Underwriter has provided other services or is currently providing other services to the Authority on other matters); (iii) the Underwriter is acting solely in its capacity as Underwriter for its own account, (iv) the only contractual obligations the Underwriter has to the Authority with respect to the transaction contemplated hereby expressly are set forth in this Purchase Contract or otherwise imposed by law; and (v) the Authority has consulted its own legal, accounting, tax, financial and other advisors, as applicable, to the extent it has deemed appropriate. Nothing in the foregoing paragraph is intended to limit the Underwriter's obligations of fair dealing under MSRB Rule G-17 of the MSRB. The Authority acknowledges that it has previously provided the Underwriter with an acknowledgement of receipt of the required Underwriter disclosure under Rule G-17 of the MSRB and acknowledges that it has engaged FirstSouthwest, a Division of Hilltop Securities Inc., as its municipal advisor (as defined in Securities and Exchange

Commission Rule 15Ba1) (the “Municipal Advisor”) and will rely solely on the Municipal Advisor for financial advice with respect to the Bonds.

3. The Official Statement.

(a) The Authority hereby ratifies, confirms and approves of the use and distribution by the Underwriter prior to the date hereof of the preliminary official statement relating to the Bonds, dated _____, 2017 (including the cover page, all appendices thereto, the “Preliminary Official Statement”). The Authority hereby confirms that the Authority has deemed final the Preliminary Official Statement for purposes of Rule 15c2-12 promulgated under the Securities Exchange Act of 1934 (“Rule 15c2-12”). The Authority hereby agrees to deliver or cause to be delivered to the Underwriter, within seven (7) business days of the date hereof, copies of the final official statement, dated the date hereof, relating to the Bonds (including all information previously permitted to have been omitted by Rule 15c2-12 and any amendments or supplements as have been approved by the Authority and the Underwriter) (the “Official Statement”) in such quantity as the Underwriter shall request in order to permit the Underwriter to comply with Rule 15c2-12. The Authority hereby approves of the use and distribution by the Underwriter of the Official Statement in connection with the offer and sale of the Bonds.

(b) The Underwriter hereby agrees to file the Official Statement with the MSRB.

4. Representations and Agreements of the Authority. The Authority hereby represents to and agrees with the Underwriter that:

(a) The Authority is a joint powers agency organized and existing under the laws of the State of California and has full power and authority to adopt the Resolution and to enter into and to perform its obligations under the Indenture, the Continuing Disclosure Certificate, the CFD Bonds Purchase Agreement relating to the sale of the CFD Bonds by the City to the Authority, dated the date hereof, between the City and the Authority (the “CFD Bonds Purchase Agreement”) and this Purchase Contract (collectively, the “Authority Documents”); and when executed and delivered by the respective parties thereto, the Authority Documents will constitute the legal, valid and binding obligations of the Authority enforceable in accordance with their respective terms, except as the enforcement thereof may be limited by bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases and to the limitations on legal remedies against joint powers agencies in the State of California;

(b) By official action of the Authority prior to or concurrently with the acceptance hereof, the Authority has approved and authorized the distribution of the Preliminary Official Statement and the Official Statement and authorized and approved the execution and delivery of the Authority Documents and the consummation by the Authority of the transactions contemplated thereby;

(c) To the knowledge of the Authority, there is no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, governmental agency, public board or body pending against the Authority seeking to restrain or enjoin the sale or issuance of the

Bonds, or in any way contesting or affecting any proceedings of the Authority taken concerning the sale thereof, the pledge or application of any moneys or security provided for the payment of the Bonds, in any way contesting the validity or enforceability of the Authority Documents or contesting in any way the completeness or accuracy of the Preliminary Official Statement or the Official Statement or the existence or powers of the Authority relating to the sale of the Bonds;

(d) As of the date thereof, the Preliminary Official Statement did not contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(e) To the knowledge of the Authority, the statements and information relating to the Authority and the Districts contained in the Official Statement are true and correct in all material respects, and the information relating to the Authority and the Districts contained in the Official Statement does not contain an untrue statement of a material fact or omit any statement or information relating to the Authority and the Districts which is necessary to make such statements and information therein, in the light of the circumstances under which they were made, not misleading in any material respect;

(f) The Authority will furnish such information, execute such instruments and take such other action in cooperation with the Underwriter, at the expense of the Underwriter as the Underwriter may reasonably request in endeavoring (i) to qualify the Bonds for offer and sale under the Blue Sky or other securities laws and regulations of such states and other jurisdictions of the United States as the Underwriter may designate and (ii) to determine the eligibility of the Bonds for investment under the laws of such states and other jurisdictions, and will use its best efforts to continue such qualification in effect so long as required for distribution of the Bonds; provided, however, that in no event shall the Authority be required to take any action which would subject it to general or unlimited service of process in any jurisdiction in which it is not now so subject;

(g) The financial statements of, and other financial information regarding, the Authority in the Official Statement fairly present the financial position and results of the Authority as of the dates and for the periods therein set forth. Except as may otherwise be described in the Official Statement, the Authority is not a party to any litigation or other proceeding pending or, to its knowledge, threatened which, if decided adversely to the Authority, would have a materially adverse effect on the financial condition of the Authority;

(h) To the knowledge of the Authority, the execution and delivery by the Authority of the Authority Documents and compliance with the provisions on the Authority's part contained therein will not conflict with or constitute a material breach of or default under any law, administrative regulation, judgment, decree, loan agreement, indenture, bond, note, resolution, agreement or other instrument to which the Authority is a party or is otherwise subject, nor will any such execution, delivery, adoption or compliance result in the creation or imposition of any lien, charge or other security interest or encumbrance of any nature whatsoever upon any of the properties or assets of the Authority under the terms of any such law, administrative regulation, judgment, decree, loan agreement, indenture, bond, note, resolution, agreement or other instrument, except as provided by the Authority Documents;

(i) If before the earlier of the date 25 days from the “end of the underwriting period” (as defined in S.E.C. Rule 15c2-12) or the date all of the Bonds are sold (which the Authority may assume is the closing date unless otherwise informed in writing by the Underwriter), an event occurs which, in the reasonable opinion of the Underwriter or its counsel, might or would cause the information contained in the Official Statement as then supplemented or amended, to contain an untrue statement of a material fact or to omit to state a material fact necessary to make such information therein, in the light of the circumstances under which it was presented, not misleading, the Authority, if requested by the Underwriter, or if the Authority is informed of need to amend or supplement the Official Statement by the City, the Authority will cooperate in amending or supplementing the Official Statement in a form and in a manner approved by the Underwriter.

(j) The Revenues constituting the security for the Bonds have been duly and lawfully authorized and may be pledged under the Act and the Constitution and the applicable laws of the State.

(k) Between the date of this Purchase Contract and the Closing Date, the Authority will not offer or issue any bonds, notes or other obligations of the Authority for borrowed money not previously disclosed to the Underwriter.

(l) The Authority has covenanted to comply with the Internal Revenue Code of 1986, as amended, with respect to the Bonds; and the Authority shall not knowingly take or omit to take any action that, under existing law, may adversely affect the exclusion from gross income for federal income tax purposes, or the exemption from any applicable State tax, of the interest on the Bonds.

(m) The Authority will apply the proceeds of the Bonds in accordance with the Indenture and as described in the Official Statement.

(n) Except as disclosed in the Official Statement, to the knowledge of the officer of the Authority executing this Purchase Contract and without investigation of any kind, no other public debt secured by an *ad valorem* tax, a special tax or a benefit assessment levied by the Authority, the City, or the Districts on the land in the Districts is in the process of being authorized by the City or the Districts and no *ad valorem* tax, assessment districts or community facilities districts have been or are in the process of being formed by the Authority or the City which include any portion of the land within the Districts. All outstanding debt secured by special taxes, benefit assessment or *ad valorem* levies for general obligation bonds of the Authority and all authorized but unissued debt secured by special taxes, benefit assessment or *ad valorem* levies for general obligation bonds of the City, or the City, on behalf of the Districts, which is applicable to the property within the Districts, as applicable, is accurately described in the Official Statement.

(o) Except as described in the Preliminary Official Statement, based on a review of its previous undertakings and except as described in the Official Statement, during the past five years, the Authority has never failed to materially comply with the provisions of Rule 15c2-12(b)(5).

(p) During the period described in the preceding paragraph 4(i), the Authority will not participate in the issuance of any amendment of or supplement to the Official Statement to which, after being furnished with a copy, the Underwriter shall reasonably object in writing or which shall be disapproved by any of their respective counsel and (ii) if any event relating to or affecting the Authority shall occur as a result of which it is necessary, in the opinion of counsel for the Underwriter, to amend or supplement the Official Statement in order to make the Official Statement not misleading in the light of the circumstances existing at the time it is delivered to a purchaser, the Authority will cooperate with the Underwriter to prepare and furnish to the Underwriter a reasonable number of copies of an amendment of or supplement to the Official Statement (in form and substance satisfactory to counsel for the Underwriter) which will amend or supplement the Official Statement so that it will not contain an untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in light of the circumstances existing at the time the Official Statement is delivered to a purchaser, not misleading.

The execution and delivery of this Purchase Contract by the Authority shall constitute a representation by the Authority to the Underwriter that the representations and agreements contained in this Section are true as of the date hereof; provided, however, that as to all matters of law the Authority is relying on the advice of bond counsel to the Authority; and provided further, that no member, officer, agent or employee of the governing body of the Authority shall be individually liable for the breach of any representation, warranty or agreement contained herein.

5. Establishment of Issue Price.

(a) The Underwriter agrees to assist the Authority in establishing the issue price of the Bonds and shall execute and deliver to the Authority at Closing an “issue price” or similar certificate, together with the supporting pricing wires or equivalent communications, substantially in the form attached hereto as Exhibit C, with such modifications as may be appropriate or necessary, in the reasonable judgment of the Underwriter, the Authority and Bond Counsel, to accurately reflect, as applicable, the sales price or prices or the initial offering price or prices to the public of the Bonds. [All actions to be taken by the Authority under this section to establish the issue price of the Bonds may be taken on behalf of the Authority by the Authority’s Municipal Advisor identified herein and any notice or report to be provided to the Authority may be provided to the Authority’s Municipal Advisor.]

(b) [Except as otherwise set forth in Schedule [I] attached hereto,] the Authority will treat the first price at which 10% of each maturity of the Bonds (the “**10% test**”) is sold to the public as the issue price of that maturity (if different interest rates apply within a maturity, each separate CUSIP number within that maturity will be subject to the 10% test). At or promptly after the execution of this Purchase Contract, the Underwriter shall report to the Authority the price or prices at which it has sold to the public each maturity of Bonds. If at that time [the Authority notifies the Underwriter that] the 10% test has not been satisfied as to any maturity of the Bonds, the Underwriter agrees to promptly report to the Authority the prices at which it sells the unsold Bonds of that maturity to the public. That reporting obligation shall continue, whether or not the

Closing Date has occurred, until [the Authority notifies the Underwriter] that the 10% test has been satisfied as to the Bonds of that maturity or until all Bonds of that maturity have been sold [by the Underwriter or any broker dealer with whom it has a retail distribution agreement] to the public.

[Schedule [I] and subsection (c) shall apply only if the Underwriter agrees to apply the hold-the-offering-price rule, as described below.]

(c) The Underwriter confirms that it has offered the Bonds to the public on or before the date of this Purchase Contract at the offering price or prices (the “**initial offering price**”), or at the corresponding yield or yields, set forth in Schedule [I] attached hereto, except as otherwise set forth therein. Schedule [I] also sets forth, as of the date of this Purchase Contract, the maturities, if any, of the Bonds for which the 10% test has not been satisfied and for which the Authority and the Underwriter agree that the restrictions set forth in the next sentence shall apply, which will allow the Authority to treat the initial offering price to the public of each such maturity as of the sale date as the issue price of that maturity (the “**hold-the-offering-price rule**”). So long as the hold-the-offering-price rule remains applicable to any maturity of the Bonds, the Underwriter will neither offer nor sell unsold Bonds of that maturity to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

- (1) the close of the fifth (5th) business day after the sale date; or
- (2) the date on which the Underwriter has sold at least 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

The Underwriter shall promptly advise the Authority when it has sold 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public, if that occurs prior to the close of the fifth (5th) business day after the sale date.

(d) The Underwriter confirms that any selling group agreement and any retail distribution agreement relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each dealer who is a member of the selling group and each broker-dealer that is a party to such retail distribution agreement, as applicable, to (A) report the prices at which it sells to the public the unsold Bonds of each maturity allotted to it until it is notified by the Underwriter that either the 10% test has been satisfied as to the Bonds of that maturity or all Bonds of that maturity have been sold to the public and (B) comply with the hold-the-offering-price rule, if applicable, in each case if and for so long as directed by the Underwriter. The Authority acknowledges that, in making the representation set forth in this subsection, the Underwriter will rely on (i) in the event a selling group has been created in connection with the initial sale of the Bonds to the public, the agreement of each dealer who is a member of the selling group to comply with the hold-the-offering-price rule, if applicable, as set forth in a selling group agreement and the related pricing

wires, and (ii) in the event that a retail distribution agreement was employed in connection with the initial sale of the Bonds to the public, the agreement of each broker-dealer that is a party to such agreement to comply with the hold-the-offering-price rule, if applicable, as set forth in the retail distribution agreement and the related pricing wires. The Authority further acknowledges that the Underwriter shall not be liable for the failure of any dealer who is a member of a selling group, or of any broker-dealer that is a party to a retail distribution agreement, to comply with its corresponding agreement regarding the hold-the-offering-price rule as applicable to the Bonds.

(e) The Underwriter acknowledges that sales of any Bonds to any person that is a related party to the Underwriter shall not constitute sales to the public for purposes of this section. Further, for purposes of this section:

(i) “public” means any person other than an underwriter or a related party,

(ii) “underwriter” means (A) any person that agrees pursuant to a written contract with the Authority (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the public and (B) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (A) to participate in the initial sale of the Bonds to the public (including a member of a selling group or a party to a retail distribution agreement participating in the initial sale of the Bonds to the public),

(iii) a purchaser of any of the Bonds is a “related party” to an underwriter if the underwriter and the purchaser are subject, directly or indirectly, to (i) at least 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (ii) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (iii) more than 50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other), and

(iv) “sale date” means the date of execution of this Purchase Contract by all parties.

6. **Closing.** At 8:00 a.m., California time, on _____, 2017, (the "Closing Date") or at such other time and date as shall have been mutually agreed upon by the Authority and the Underwriter (the "Closing"), the Authority will, subject to the terms and conditions hereof, deliver to the Underwriter at the office of The Depository Trust Company ("DTC") in New York, New York, or at such other place as the Authority and the Underwriter may mutually agree upon, the Bonds in definitive fully registered form, bearing CUSIP numbers without coupons, with one Bond for each maturity of the Bonds, registered in the name of Cede & Co., as nominee of DTC, and subject to the terms and conditions hereof and as provided in the Indenture, the Underwriter will accept such delivery and pay the purchase price of the Bonds by wire transfer payable in

immediately available Federal funds. The Bonds shall be made available for inspection by the Underwriter and DTC (or its agent) at least one business day before the Closing.

7. **Closing Conditions.** The Underwriter has entered into this Purchase Contract in reliance upon the representations, warranties and agreements of the Authority contained herein, and in reliance upon the representations, warranties and agreements to be contained in the documents and instruments to be delivered at the Closing and upon the performance by the Authority of its obligations hereunder, both as of the date hereof and as of the date of the Closing. Accordingly, the Underwriter's obligations under this Purchase Contract to purchase, to accept delivery of and to pay for the Bonds shall be conditioned upon the performance by the Authority of its obligations to be performed hereunder and under such documents and instruments at or prior to the Closing, and shall also be subject to the following additional conditions, including the delivery by the Authority of such documents as are enumerated herein, in form and substance reasonably satisfactory to the Underwriter:

(a) The Authority shall be in compliance with each of the agreements made by it in this Purchase Contract (unless such agreements are waived by the Underwriter); there shall not have occurred an adverse change in the financial position, results of operations or financial condition of the Authority or the Districts which materially adversely affects the ability of the Authority to levy the Special Taxes, to pay principal and interest with respect to the Bonds when due or otherwise perform any of its obligations under the Indenture or any related agreement;

(b) The Authority Documents shall be in full force and effect, and shall not have been amended, modified or supplemented in any material respect from the forms of such documents which have been provided to the Underwriter as of the date hereof (except as may be agreed to by the Underwriter); all actions which, in the opinion of Jones Hall, a Professional Law Corporation ("Bond Counsel") shall be necessary in connection with the transactions contemplated hereby shall have been duly taken and shall be in full force and effect; and the Authority shall perform or shall have performed its obligations required under or specified in this Purchase Contract to be performed at or prior to the Closing;

(c) At the time of the Closing, the Official Statement (as amended and supplemented) shall be true and correct in all material respects, and shall not contain any untrue statement of a material fact or omit any statement or information necessary to make the statements therein, in the light of circumstances under which they were made, not misleading;

(d) Except as disclosed in the Official Statement, no decision, ruling or finding shall have been entered by any court or governmental entity since the date of this Purchase Contract (and not reversed on appeal or otherwise set aside) which in the reasonable opinion of the Underwriter materially adversely affects the market for the Bonds;

(e) The representations and covenants of the Authority contained herein shall be true and correct at the date hereof and at the time of the Closing, as if made on the Closing Date.

(f) (i) No default by the Authority shall have occurred and be continuing in the payment of the principal of or premium, if any, or interest on the Bonds, and (ii) no bankruptcy, insolvency or other similar proceeding in respect of the Authority shall be pending nor to the knowledge of the Authority, contemplated;

(g) At or prior to the Closing, the Underwriter shall receive the following documents:

(1) Bond Counsel Opinions. The opinion of Bond Counsel, dated the Closing Date, in substantially the form included in the Official Statement as Appendix E, addressed to the Authority, together with a reliance letter, dated the Closing Date, addressed to the Underwriter stating that foregoing opinions of Bond Counsel may be relied upon by the Underwriter to the same extent as if such opinion was addressed to it;

(2) Supplemental Opinion. A supplemental opinion of Bond Counsel, substantially in the form attached hereto as Exhibit B.

(3) Opinion of Authority Counsel. An opinion of counsel to the Authority, in form and substance satisfactory to the Underwriter dated the Closing Date, addressed to the Underwriter, substantially to the effect that:

(i) the Authority is a joint powers agency duly organized and validly existing under the laws of the State;

(ii) the Resolution was duly adopted at a meeting of the governing body of the Authority, and the Resolution is in full force and effect, and has not been modified, amended or superseded;

(iii) the Authority Documents have been duly authorized, executed and delivered by the Authority and constitute the legal, valid and binding obligation of the Authority enforceable in accordance with their terms, except as enforcement thereof may be limited by bankruptcy, insolvency or other laws affecting the enforcement of creditors' rights generally and by the application of equitable principles, if equitable remedies are sought;

(iv) except as otherwise disclosed in the Official Statement, there is no litigation, proceeding, action, suit, or investigation at law or in equity before or by any court, governmental authority or body, pending or, to the best knowledge of such counsel after due inquiry, threatened against the Authority, challenging the creation, organization or existence of the Authority, or the validity of the Authority Documents or seeking to restrain or enjoin the repayment of the Bonds or in any way contesting or

affecting the validity of the Authority Documents or contesting the authority of the Authority to enter into or perform its obligations under any of the Authority Documents, or under which a determination adverse to the Authority would have a material adverse effect upon the financial condition or the revenues of the Authority, or which, in any manner, questions the right of the Authority to pledge the Revenues to the payment of the Bonds.

(4) Disclosure Counsel Letter. A letter of Jones Hall, A Professional Law Corporation, Disclosure Counsel, dated the Closing Date and addressed to the Authority and the Underwriter, to the effect that, without having undertaken to determine independently the accuracy or completeness of the statements contained in the Preliminary Official Statement and the Final Official Statement, but on the basis of their participation in conferences with representatives of the Authority, the City, the Underwriter and others, and their examination of certain documents, nothing has come to their attention which has led them to believe that the Preliminary Official Statement as of its date, and the Final Official Statement as of its date and as of the Closing Date, contained any untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading (except that no opinion or belief need be expressed as to any financial or statistical data or information regarding DTC and the book-entry only system);

(5) Defeasance Opinion. An opinion of Bond Counsel dated the Closing Date and addressed to the Underwriter and the Authority, to the effect that the Authority has taken all actions required to defease the Prior CFD Bonds to be refunded by the Bonds, and that such Prior CFD Bonds are no longer outstanding.

(6) Closing Certificate of Authority. A certificate of the Authority, dated the date of the Closing, signed on behalf of the Authority by a duly authorized representative of the Authority to the effect that, such representative's knowledge, (i) the representations contained in Section 4 of this Purchase Contract are true and correct in all material respects as of the date of the Closing, (ii) the Resolutions and the Authority Documents are in full force and effect and have not been amended, modified or supplemented, (iii) except as described in the Official Statement, there is no action, suit, proceeding, inquiry or investigation at law or in equity, or by any court or regulatory agency, public board or body pending, with respect to which the Authority has been served with process, or threatened wherein an unfavorable decision, ruling or finding would: (a) affect the creation, organization, existence or powers of the Authority, or the titles of its officers to their respective offices, (b) enjoin or restrain the issuance, sale and delivery of the Bonds, the CFD Bonds, the levy or collection of the Special Taxes or any other moneys or property pledged or to be pledged under the Indenture, (c) in any way question or affect any of the rights, powers, duties or obligations of the Authority with respect to the Revenues, of the Districts with respect to the

Special Taxes, or the Authority or the Districts with respect to moneys and assets pledged or to be pledged to pay the principal of, premium, if any, or interest on the Bonds or the CFD Bonds, (d) in any way question or affect any authority for the issuance of the Bonds, or the validity or enforceability of the Bonds or the proceedings relating to the issuance of the Bonds, or (e) in any way question or affect this Purchase Contract or the transactions contemplated hereby, the Official Statement or the Authority Documents, (iv) the information regarding the Authority in the Official Statement is true and correct and does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they are made, not misleading; (v) the Authority has complied with all agreements and covenants, and satisfied all conditions, on its part to be complied with or satisfied under the Purchase Contract and under the Authority Documents at or prior to the date hereof; (vi) no event affecting the Authority has occurred since the date of the Official Statement which should be disclosed in the Official Statement in order to make the statements therein with respect to the Authority not misleading in any material respect, and (vii) the use of and distribution by the Underwriter of the Preliminary Official Statement and the Official Statement in connection with the offer and sale of the Bonds is hereby ratified.

(7) 15c2-12 Certificate. A certificate, dated the date of the Preliminary Official Statement, from the Authority deeming the Preliminary Official Statement final for purposes of the Rule;

(8) Certificate of Trustee. A certificate, dated the Closing Date, signed by a duly authorized officer of the Trustee, to the effect that (i) the Trustee is a national banking association, duly organized and validly existing and in good standing under the laws of the United States, having full power and being qualified to enter, accept and administer the trust created under the Indenture and, (ii) all approvals, consents and orders of any governmental authority or agency having jurisdiction in the matter that would constitute a condition precedent to the performance by the Trustee of its duties and obligations under the Indenture and Escrow Agreement have been obtained and are in full force and effect, and (iii) the acceptance of the duties and obligations of the Trustee under the Indenture, and the consummation of the transactions on the part of the Trustee contemplated therein, and the compliance by the Trustee with the terms, conditions and provisions of such documents do not contravene any provisions of applicable law of regulation or any order or decree, writ or injunction of the Articles of Incorporation or Bylaws of the Trustee, and, to the best of such officer's knowledge, will not require the consent under, or result in a breach of or default under, any resolution, agreement or other instrument to which the Trustee is a party or by which it may be bound;

(9) Opinion of Counsel to Trustee. An opinion of counsel to the Trustee, dated the Closing Date, addressed to the Underwriter and the Authority, to the effect that (i) the Trustee is duly organized and validly existing under the laws of the United States of America, having full power and being qualified to

enter into, accept and agree to the provisions of the Indenture and Escrow Agreement and (ii) the Indenture and Escrow Agreement have been duly authorized, executed and delivered by the Trustee and, assuming due authorization, execution and delivery by the other respective parties thereto, constitute the valid and binding obligations of the Trustee enforceable in accordance with their respective terms, subject to laws relating to bankruptcy, insolvency, moratorium, reorganization or other similar laws affecting creditors' rights generally, to the application of equitable principles and to the exercise of judicial discretion in appropriate cases;

(10) Resolution. A certified copy of the Resolution and a resolution of the Trustee authorizing the execution and delivery of the Indenture and Escrow Agreement;

(11) Authority Documents. The Authority Documents and the Official Statement, duly executed and delivered by the respective parties thereto;

(12) Tax Certificate. Tax Certificate of the Authority, in form satisfactory to Bond Counsel;

(13) Continuing Disclosure Certificate. The Continuing Disclosure properly executed by the City for and on behalf of the Authority substantially in the form presented in the Official Statement.

(14) Issue Price Certificate. Executed copy of the Issue Price Certificate of the Underwriter in the form presented in Exhibit C hereto;

(15) Property Owner Continuing Disclosure Certificate. Executed copy of the Continuing Disclosure Certificate from Adventist Health System/West (the "Property Owner") as set forth under Appendix F-2 of the Official Statement;

(16) Property Owner Certificate. Prior to and in connection with printing and distribution of the Preliminary Official Statement an executed certificate of the Property Owner in the form presented in Exhibit D hereto;

(17) Bring-Down Certificate of the Property Owner. An executed bring-down certificate from the Property Owner, dated as of the Closing Date, in the form presented in Exhibit D hereto;

(18) Property Owner Counsel Opinion. The opinion of counsel to the Property Owner dated the Closing Date and addressed to the Authority and the Underwriter in the form presented in Exhibit E hereto.

(19) Appraiser Certificate. A certificate from Seevers Jordan Ziegenmeyer (the "Appraiser") consenting to the inclusion of their appraisal report (the "Appraisal") in the Preliminary Official Statement and the Official Statement and certifying that (i) the information in the Official Statement relating to the Appraisal does not contain an untrue statement of a material fact or omit to

state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading and (ii) since the date of the Appraisal they are not aware of any facts that would materially affect the conclusions of value set forth therein;

(20) Verification Report. A Verification Report verifying the sufficiency of the escrowed funds for the redemption of the Prior CFD Bonds;

(21) CDIAC Statements. Copies of the Notices of Sale required to be delivered to the California Debt and Investment Advisory Commission pursuant to Section 53583 of the California Government Code and Section 8855(g) of the California Government Code;

(22) Special Tax Administrator Certificate. A certificate for each District, dated the Closing Date from Willdan Financial Services addressed to the Authority and the Underwriter to the effect that (i) the amount of the Special Taxes that could be levied in each Fiscal Year on all parcels subject to the Special Tax (as defined in the Rate and Method of Apportionment of Special Tax for the applicable District) is at least one hundred ten percent (110%) of the total Annual Debt Service for each such Fiscal Year on the Bonds, and (ii) all information supplied by them for use in the Official Statement is true and correct as of the date of the Official Statement and as of the Closing Date;

(23) Joint Powers Agreement. A copy of the Joint Exercise of Powers Agreement entered into in 2005 by and between the City of Roseville and the Roseville Parking Authority;

(24) Form 8038-G. An Information Return for Tax-Exempt Bond Issues (Internal Revenue Service Form 8038-G), in a form satisfactory to Bond Counsel for filing, executed by a duly authorized officer of the Authority;

(25) Underwriter's Counsel Opinion. An opinion of Nossaman LLP, counsel for the Underwriter, dated the date of the Closing, addressed to the Underwriter in form and substance acceptable to the Underwriter;

(26) Letter of Representations. A copy of the Blanket Issuer Letter of Representations to DTC relating to the Bonds signed by the Authority; and

(27) Other Items Requested by Counsel. Such additional certificates, instruments and other documents as the Underwriter or its counsel or Bond Counsel may reasonably deem necessary to evidence the truth and accuracy as of the time of the Closing of the representations of the Authority under this Purchase Contract and the due performance or satisfaction by the Authority at or prior to such time of all agreements then to be performed and all conditions then to be satisfied by the Authority.

8. **Condition to the Obligations of the Authority.**

(1) The Indenture, the Continuing Disclosure Certificate, applicable appendices to the Tax Certificate, the CFD Bonds Purchase Agreement, and this Purchase Contract shall have been executed and delivered by the other parties thereto.

(2) No order, decree, injunction, ruling or regulation of any court, regulatory agency, public board or body shall have been issued nor shall any legislation have been enacted with the purpose of effect, directly or indirectly, of prohibiting the offering, sale or issuance of the Bonds as contemplated hereby or by the Official Statement.

(3) The Authority's closing fee and the fee of its special counsel shall have been paid by wire transfer or in other immediately available funds or arrangements reasonably satisfactory to the Authority and its special counsel shall have been made to pay such fees from proceeds of the Bonds or otherwise.

(4) The Underwriter shall provide information to which it has access in its ordinary course of business that is requested by the Authority for purposes of its compliance with California Government Code Section 8855.

9. **Termination.** The Underwriter shall have the right to cancel its obligation to purchase the Bonds if, between the date of this Purchase Contract and the Closing, the market price or marketability of the Bonds or the ability of the Underwriter to enforce contracts for the sale of the Bonds shall be materially adversely affected, in the reasonable judgment of the Underwriter, by the occurrence of any of the following:

(a) Legislation shall be enacted by or introduced in the Congress of the United States or recommended to the Congress for passage by the President of the United States, or the Treasury Department of the United States or the Internal Revenue Service or any member of the Congress or the Legislature of the State or favorably reported for passage to either House of the Congress by any committee of such House to which such legislation has been referred for consideration, a decision by a court of the United States or of the State or the United States Tax Court shall be rendered, or an order, ruling, regulation (final, temporary or proposed), press release, statement or other form of notice by or on behalf of the Treasury Department of the United States, the Internal Revenue Service or other governmental agency shall be made or proposed, the effect of any or all of which would be to impose, directly or indirectly, federal income taxation or state income taxation upon interest received on obligations of the general character of the Bonds or, with respect to state taxation, of the interest on the Bonds as described in the Official Statement, or other action or events shall have transpired which may have the purpose or effect, directly or indirectly, of changing the federal income tax consequences or state income tax consequences of any of the transactions contemplated herein;

(b) Legislation introduced in or enacted (or resolution passed) by the Congress or an order, decree, or injunction issued by any court of competent jurisdiction, or an order, ruling, regulation (final, temporary, or proposed), press release or other form of notice issued or made by or on behalf of the Securities and Exchange Commission, or any other governmental agency having jurisdiction of the subject matter, to the effect that obligations of the general character of the Bonds, including any or all underlying arrangements, are not exempt from registration under or other requirements of the 1933 Act, or that the Indenture is not exempt from qualification

under or other requirements of the Trust Indenture Act, or that the issuance, offering, or sale of obligations of the general character of the Bonds, including any or all underlying arrangements, as contemplated hereby or by the Official Statement or otherwise, is or would be in violation of the federal securities law as amended and then in effect;

(c) Any state Blue Sky or securities commission or other governmental agency or body shall have withheld registration, exemption or clearance of the offering of the Bonds as described herein, or issued a stop order or similar ruling relating thereto;

(d) A general suspension of trading in securities on the New York Stock Exchange or the American Stock Exchange or other major exchange, the establishment of minimum prices on either such exchange, the establishment of material restrictions (not in force as of the date hereof) upon trading securities generally by any governmental authority or any national securities exchange, a general banking moratorium declared by federal, State of New York, or State officials authorized to do so;

(e) The New York Stock Exchange or other national securities exchange or any governmental authority, shall impose, as to the Bonds or as to obligations of the general character of the Bonds, any material restrictions not now in force, or increase materially those now in force, with respect to the extension of credit by, or the charge to the net capital requirements of, Underwriter;

(f) Any amendment to the federal or State Constitution or action by any federal or state court, legislative body, regulatory body, or other authority materially adversely affecting the tax status of the Authority, its property, income securities (or interest thereon), or the validity or enforceability of the special taxes to pay principal of and interest on the Bonds;

(g) Any event occurring, or information becoming known which, in the reasonable judgment of the Underwriter, makes untrue in any material respect any statement or information contained in the Official Statement, or has the effect that the Official Statement contains any untrue statement of material fact or omits to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(h) There shall have occurred any materially adverse change in the affairs or financial condition of the Authority, the City or the Districts;

(i) The United States shall have become engaged in hostilities which have resulted in a declaration of war or a national emergency or there shall have occurred any other outbreak or escalation of hostilities;

(j) There shall have occurred any national or international calamity or crisis in the financial markets or otherwise of the United States or elsewhere;

(k) Any fact or event shall exist or have existed that, in the Underwriter's reasonable judgment, requires or has required an amendment of or supplement to the Official Statement;

(l) The purchase of and payment for the Bonds by the Underwriter, or the resale of the Bonds by the Underwriter, on the terms and conditions herein provided shall be prohibited by any applicable law, governmental authority, board, agency or commission;

(m) A material disruption in securities settlement, payment or clearance services affecting the Bonds shall have occurred;

(n) A decision by a court of the United States of America shall be rendered, or a stop order, release, regulation or no-action letter by or on behalf of the SEC or any other governmental agency having jurisdiction of the subject matter shall have been issued or made, to the effect that the issuance, offering or sale of the Bonds, including the underlying obligations as contemplated by this Purchase Contract or by the Official Statement, or any document relating to the issuance, offering or sale of the Bonds, is or would be in violation of any provision of the federal securities laws at the Closing Date, including the Securities Act, the Exchange Act and the Trust Indenture Act;

(o) Any new restriction on transactions in securities materially affecting the market for securities (including the imposition of any limitation or interest rates) or the extension of credit by, or a charge to the net capital requirements of credit by, or a charge to net capital requirements of, underwriters shall have been established by the New York Stock Exchange, the SEC, any other federal or State agency or the Congress of the United States of America, or by Executive Order;

(p) Any proceeding is pending or threatened by the Securities and Exchange Commission against the Authority or the City;

(q) There shall have occurred or any notice shall have been given of any intended review, downgrading, suspension, withdrawal, or negative change in credit watch status by any national rating service to any of the Authority's obligations secured in a like manner; and

(r) The debt ceiling of the United States is such that the Government Obligations (as defined in the Escrow Agreement), if any, required to fund the Escrow Agreement are not available for delivery on the date of the delivery of the Bonds.

10. **Expenses.**

Expenses. The costs and expenses incurred by the parties hereto with respect to the Bonds and the proceedings for the sale and issuance thereof shall be paid as follows:

(a) Authority. The Authority acknowledges that it has had an opportunity, in consultation with such advisors as it may deem appropriate, if any, to evaluate and consider the fees and expenses being incurred as part of the issuance of the Bonds. The Authority shall pay or cause to be paid (but solely from the proceeds of the Bonds and not otherwise) the expenses incident to the performance of the obligations of the Authority hereunder, including but not limited to:

(1) the cost of preparation and printing of the Preliminary Official Statement and the final Official Statement in reasonable quantities and all other

documents (other than as set forth in subsection (b) below) prepared in connection with the transactions contemplated hereby;

(2) the fees and disbursements of the Trustee and counsel to the Trustee in connection with the issuance of the Bonds;

(3) the fees and disbursements of Bond Counsel and any other experts or consultants retained by the Authority in connection with the transactions contemplated hereby;

(4) the fees and expenses of disclosure counsel in connection with its preparation of the Official Statement and the rendering of its opinion;

(5) all expenses incurred by it or the Underwriter in connection with the preparation of the Official Statement, including expenses of obtaining information from information suppliers; and

(6) the Authority shall also pay for any expenses (by means of its being included in the expense component of the Underwriter's discount) incurred by the Underwriters which are incidental to implementing this Purchase Contract and the issuance of the Bonds, including, but not limited to meals, transportation and lodging, if any, and any other miscellaneous closing costs.

(b) Underwriter. The Underwriter shall pay:

(1) the cost of preparation and printing of Blue Sky and Legal Investment Memoranda if any, to be used by it;

(2) the fees and disbursements of counsel to the Underwriter; and

(3) all advertising expenses in connection with the public offering of the Bonds.

11. **Notices.** Any notice or other communication to be given under this Purchase Contract to the Authority or the Underwriter may be given by delivering the same in writing at the addresses set forth below:

If to the Authority: Roseville Finance Authority
 311 Vernon Street
 Roseville, California 95678
 Attention: Treasurer

If to the Underwriter: Piper Jaffray & Co.
 2321 Rosecrans Ave., Suite 3200
 El Segundo, California 90245
 Attention: Public Finance

12. **Entire Agreement.** This Purchase Contract, when accepted by the Authority, shall constitute the entire agreement among the Authority and the Underwriter and is made solely for the benefit of the Authority and the Underwriter (including the successors or assigns of any Underwriter). Except for Bond Counsel, no other person shall acquire or have any right hereunder by virtue hereof. All the Authority's representations, warranties and agreements in this Purchase Contract shall remain operative and in full force and effect, regardless of (a) any investigation made by or on behalf of the Underwriter, (b) delivery of and payment for the Bonds hereunder, and (c) any termination of this Purchase Contract.

13. **Counterparts.** This Purchase Contract may be executed by the parties hereto in separate counterparts, each of which when so executed and delivered shall be an original, but all such counterparts shall together constitute but one and the same instrument.

14. **Reliance on Representations and Warranties.** The Authority hereby acknowledges that the Underwriter, in executing this Purchase Contract and in paying for the Bonds as provided herein, is relying upon the representations and warranties of the Authority set forth herein.

15. **Severability.** In case any one or more of the provisions contained herein shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provision hereof, but this Purchase Contract shall be construed as if such invalid or illegal or unenforceable provision had never been contained herein.

16. **State of California Law Governs.** The validity, interpretation and performance of this Purchase Contract shall be governed by the laws of the State of California.

Very truly yours,

FORM OF SUPPLEMENTAL OPINION OF BOND COUNSEL

[Closing Date]

Piper Jaffray & Co.
El Segundo, California

Roseville Finance Authority
Special Tax Revenue Refunding Bonds
Series 2017B
(Supplemental Opinion)

Ladies and Gentlemen:

This letter is addressed to you, as Underwriter, pursuant to Section 7(f)(2) of the Purchase Contract, dated _____, 2017 (the "Purchase Contract"), between you and the Roseville Finance Authority (the "Issuer"), providing for the purchase of \$_____ principal amount of its Special Tax Revenue Refunding Bonds, Series 2017B (the "Bonds"). The Bonds are being issued pursuant to an Indenture of Trust, dated as of _____ 1, 2017 (the "Indenture"), by and between the Authority and The Bank of New York Mellon Trust Company, N.A., as trustee (the "Trustee"). Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Indenture or, if not defined in the Indenture, in the Purchase Contract.

We have delivered our final legal opinion (the "Bond Opinion") as bond counsel to the Authority concerning the validity of the Bonds and certain other matters, dated the date hereof and addressed to the Authority. You may rely on such opinion as though the same were addressed to you.

In connection with our role as bond counsel and disclosure counsel to the Authority, we have reviewed the Purchase Contract, the Indenture, the Tax Certificate, opinions of counsel to the Authority and the Trustee, certificates of the Authority, the Trustee and others, and such other documents, opinions and matters to the extent we deemed necessary to provide the opinions or conclusions set forth herein.

The opinions and conclusions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions or conclusions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or any other matters come to our attention after the date hereof. We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and validity against, any parties other than the Authority. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents, and of the legal conclusions contained in the opinions, referred to in the third paragraph hereof. We have further assumed compliance with all covenants and

agreements contained in such documents. In addition, we call attention to the fact that the rights and obligations under the Bonds, the Indenture, the Tax Certificate and the Purchase Contract and their enforceability may be subject to bankruptcy, insolvency, reorganization, receivership, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases and to the limitations on legal remedies against joint powers agencies in the State of California. We express no opinion with respect to any indemnification, contribution, liquidated damages, penalty (including any remedy deemed to constitute a penalty), right of set-off arbitration, judicial reference, choice of law, choice of forum, choice of venue, non-exclusivity of remedies, waiver or severability provisions contained in the foregoing documents, nor do we express any opinions with respect to the state or quality of title to or interest in any real or personal property described in or as subject to the lien of the Indenture or the accuracy or sufficiency of the description contained therein of, or the remedies available to enforce liens on, any such property.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions or conclusions:

(i) the Bonds are not subject to registration requirements of the Securities Act of 1933, as amended, and the Indenture is exempt from qualification pursuant to the Trust Indenture Act of 1939, as amended.

(ii) The Purchase Contract has been duly executed and delivered by the Authority and is a valid and binding agreement of the Authority.

(iii) The statements contained in the Official Statement under the captions "THE BONDS," "SECURITY FOR THE BONDS AND SOURCES OF PAYMENT THEREFOR," "SECURITY FOR THE CFD BONDS," "LEGAL MATTERS - Tax Matters," "APPENDIX E - FORM OF BOND COUNSEL OPINION" and "APPENDIX A – SUMMARY OF CERTAIN PROVISIONS OF PRINCIPAL LEGAL DOCUMENTS," excluding any material that may be treated as included under such captions by cross reference or reference to other documents or sources, insofar as such statements expressly summarize certain provisions of the Indenture and the form and content of our Bond Opinion, are accurate in all material respects.

This letter is furnished by us as bond counsel to the Authority. No attorney-client relationship has existed or exists between our firm and you in connection with the Bonds or by virtue of this letter. We disclaim any obligation to update this letter. This letter is delivered to you as Underwriter of the Bonds, is solely for your benefit as such Underwriter and is not to be used, circulated, quoted or otherwise referred to or relied upon for any other purpose or by any other person. This letter is not intended to, and may not, be relied upon by owners of Bonds or by any other party to whom it is not specifically addressed.

Very truly yours,

JONES HALL, A PROFESSIONAL LAW
CORPORATION

FORM OF ISSUE PRICE CERTIFICATE
[TO COME]

EXHIBIT D

FORM OF CERTIFICATE OF PROPERTY OWNER

ROSEVILLE FINANCE AUTHORITY SPECIAL TAX REVENUE REFUNDING BONDS SERIES 2017B

CERTIFICATE OF PROPERTY OWNER

The Undersigned hereby certifies and represents that he or she is duly authorized to execute and deliver this certificate (this “Certificate”) on behalf of Adventist Health System/ West, a California corporation (the “Owner”) in connection with the issuance, sale and delivery by the Roseville Finance Authority (the “Authority”) of the bonds captioned above (the “Bonds”). Capitalized terms used but not defined in this Certificate have the same meaning as is set forth in the Purchase Contract with respect to the Bonds between Piper Jaffray & Co., as underwriter (the “Underwriter”), and the Authority.

As used in this Certificate, the term “Actual Knowledge of the Undersigned” means the knowledge that the undersigned currently has as of the date of this Certificate or has obtained through (i) interviews with such officers and responsible employees of the Owner as the undersigned has reasonably determined are likely, in the ordinary course of his or her respective duties, to have knowledge of the matters set forth in this Certificate, and (ii) reviews of documents reasonably available to the undersigned and which the undersigned reasonably deemed necessary for the undersigned to execute this Certificate. The undersigned has not conducted any extraordinary inspection or inquiry other than such inspections or inquiries as are prudent and customary in connection with the ordinary course of the Owner’s current business and operations.

As used in this Certificate, the term “Relevant Entity” of the Owner means any person presently directly or indirectly through one or more intermediaries controlling, controlled by or under common control with the Owner, and about whom information could be material to potential investors in their investment decision regarding the Bonds (including without limitation information relevant to the ownership of the property in the Districts (defined herein), or to the Owner’s ability to pay the Special Taxes prior to delinquency).

As used in this Certificate, the term “Property” means the property currently owned by the Owner within the City of Roseville Community Facilities District No. 1 and the City of Roseville Stone Point Community Facilities District No. 5 (collectively, the “Districts”), as further described in the Preliminary Official Statement.

The undersigned parties certify and represent that they are familiar with the facts set forth in this Certificate, and further hereby certify to the Actual Knowledge of the Undersigned as follows on behalf of the Owner:

(1) The Owner has been duly organized under the laws of the State of California and validly exists in good standing under the laws of the State of California and has or will have prior to the Closing, as required, all requisite corporate right, power and authority:

(i) to execute and deliver this Certificate,

(ii) to own the Property, as described in the Preliminary Official Statement,

(iii) to carry on its business as described in the Preliminary Official Statement, and

(iv) to perform its obligations under the Owner Continuing Disclosure Certificate.

(2) The Owner agrees to execute at Closing, the Owner Continuing Disclosure Certificate substantially in the form attached to the Preliminary Official Statement under Appendix F-2, with such additional changes as may be agreed upon by the Owner.

(3) Except as disclosed in the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, the Owner is not aware of any material failures by it or any entity under managerial control of the Owner to comply in all material respects with previous continuing disclosure undertakings in a written certificate or agreement executed by it or its Relevant Entities to provide periodic continuing disclosure reports or notices of material events respecting securities offerings in California within the past five years.

(4) To the Actual Knowledge of the Undersigned on behalf of the Owner, execution and delivery of the Owner Continuing Disclosure Certificate, and the performance by the Owner of its obligations under the Owner Continuing Disclosure Certificate, will not conflict with or constitute a breach of or default under any loans, lines of credit, agreements, or other contractual or financial obligations of the Owner, or any applicable law, regulation, judgment or decree.

(5) To the Actual Knowledge of the Undersigned, neither the Owner nor any of its Relevant Entities is currently in material default on any loans, lines of credit, agreements, or other contractual or financial obligations, or in breach of any applicable law, regulation, judgment or decree, and no event has occurred and is continuing that would constitute such a default or breach, the result of which could materially adversely affect the ability of the Owner:

(i) to own the Property as described in the Preliminary Official Statement,

(ii) to pay Special Taxes on the Property prior to delinquency,

(iii) to carry on its business as described in the Preliminary Official Statement, or

(iv) to perform its obligations under the Owner Continuing Disclosure Certificate.

(6) Except as disclosed in the Preliminary Official Statement, the Owner has not assumed any obligations under any loans, lines of credit, agreements, or other contractual or financial arrangements, or any applicable judgment or decree, which could materially adversely affect the ability of the Owner:

(i) to own the Property as described in the Preliminary Official Statement,

(ii) to pay Special Taxes on the Property prior to delinquency,

(iii) to carry on its business as described in the Preliminary Official Statement, or

(iv) to perform its obligations under the Owner Continuing Disclosure Certificate.

(7) Except as described in the Preliminary Official Statement, the Owner does not have any loans outstanding and unpaid and no lines of credit that are secured by the Property.

(8) Except as disclosed in the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, neither the Owner nor any of its Relevant Entities is currently in default in, or, in the last five years, has ever defaulted to any material extent in, the payment of special taxes or assessments in connection with the Districts or any other community facilities districts or assessment districts in California that was not cured prior to the institution of any enforcement action with a court of law.

(9) Except as disclosed in the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, there is no litigation, inquiry, investigation or administrative proceeding of any nature pending against the Owner (with service of process to the Owner having been accomplished), or to the Actual Knowledge of the Undersigned, overtly threatened in writing against the Owner, or to the Actual Knowledge of the Undersigned, pending or overtly threatened in writing against any Relevant Entity of the Owner, in each case which, if successful, could:

(i) materially adversely affect the ability of the Owner to own the Property as described in the Preliminary Official Statement,

(ii) materially adversely affect the ability of the Owner to pay Special Taxes on the Property prior to delinquency,

(iii) materially adversely affect the ability of the Owner to carry on its business as described in the Preliminary Official Statement,

(iv) materially adversely affect the ability of the Owner to perform its obligations under the Owner Continuing Disclosure Certificate,

(v) challenge, question the validity or enforceability of, or restrain or enjoin the performance of, the Special Taxes, the Bonds, the Resolution, the Fiscal Agent Agreement, the Owner Continuing Disclosure Certificate or the Purchase Contract, or

(vi) restrain or enjoin collection of Special Taxes or other sums to be pledged to pay the principal of and interest on the Bonds.

(10) Except as disclosed in the Preliminary Official Statement:

(i) the Owner and, to the Actual Knowledge of the Undersigned, its Relevant Entities, are solvent;

(ii) neither the Owner nor, to the Actual Knowledge of the Undersigned, any of its Relevant Entities, has filed for bankruptcy or been declared bankrupt in the last 10 years; and

(iii) to the Actual Knowledge of the Undersigned, there are no proceedings pending (with service of process to the Owner having been accomplished) or overtly threatened in writing in which the Owner or any of its Relevant Entities may be adjudicated as bankrupt, become the debtor in a bankruptcy proceeding, be discharged from any or all of its respective debts or obligations, be granted an extension of time to pay its respective debts or obligations, or be granted a reorganization or readjustment of its respective debts or obligations.

(11) As of the date hereof, the information in the sections of the Preliminary Official Statement entitled "OWNERSHIP OF PROPERTY WITHIN THE DISTRICTS," and "CONTINUING DISCLOSURE," concerning the Owner and its Relevant Entities, and the Property, is true and correct in all material respects, and contains no untrue statement of a material fact and does not omit any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

(12) To the Actual Knowledge of the Undersigned, all information submitted by, or on behalf of, the Owner to (i) the Appraiser, as such information is set forth in the Appraisal, was, at the time of submission, and, except as modified by later information submitted by the Owner, is, as of the date of this Certificate, true and correct in all material respects, and (ii) the Authority, the City, the Districts, Bond Counsel, Disclosure Counsel, or the Underwriter in connection with the issuance of the Bonds was, at the time of submission and, except as modified by later information submitted by the Owner, is as of the date of this Certificate, true and correct in all material respects.

(13) The Owner covenants that, while the Bonds or any refunding obligations related thereto are outstanding, the Owner will not bring any action, suit, proceeding, inquiry or investigation at law or in equity, before any court, regulatory agency, public board or body, that in any way:

(i) seeks to challenge or overturn the formation of the Districts,

(ii) seeks to challenge the adoption of the ordinance levying Special Taxes within the Districts,

(iii) seeks to invalidate the Districts or any of the Bonds or any refunding obligations, or

(iv) seeks to invalidate the special tax liens imposed under Section 3115.5 of the Streets and Highways Code based on recordation of the notices of special tax lien relating thereto.

The foregoing covenant shall not prevent the Owner in any way from bringing any other action, suit, proceeding, inquiry or investigation at law or in equity relating to the following:

(a) a claim that the Special Tax has not been levied in accordance with the Rate and Method,

(b) the application or use of the Special Taxes levied and collected, or

(c) the enforcement of the obligations of the s Districts under each Fiscal Agent Agreement or any agreements between the Owner and the City or the Districts or under which the Owner is a beneficiary.

(14) The Owner consents to the issuance of the Bonds. The Owner acknowledges and agrees that the proceeds of such Bonds will be used as described in the Preliminary Official Statement.

(15) During the period between the date of this Certificate and the Closing Date, if the Owner has actual knowledge of any event relating to or affecting the Owner, its Relevant Entities, or the ownership of the Property which could cause the information under the captions of the Preliminary Official Statement indicated in Section 11 of this Certificate (and subject to the limitations and exclusions contained in Section 11 of this Certificate) to contain an untrue statement of a material fact or to omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, the Owner shall notify the Authority and the Underwriter and if, in the opinion of counsel to the Authority or the Underwriter, such event requires the preparation and publication of a supplement or amendment to the Preliminary Official Statement, the Owner shall reasonably cooperate with the Authority in the preparation of an amendment or supplement to the Preliminary Official Statement in form and substance satisfactory to counsel to the Authority and to the Underwriter.

(16) For a period of 90 days after the Closing Date, if the Owner has actual knowledge of any event relating to or affecting the Owner, its Relevant Entities, or the ownership of the Property which could cause the information under the captions of the Final Official Statement indicated in Section 11 of this Certificate (and subject to the limitations and exclusions contained in Section 11 of this Certificate) to contain an untrue statement of a material fact or to omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not

misleading, the Owner shall notify the Authority and the Underwriter and if, in the opinion of counsel to the Authority or the Underwriter, such event requires the preparation and publication of a supplement or amendment to the Final Official Statement, the Owner shall reasonably cooperate with the Authority in the preparation of an amendment or supplement to the Final Official Statement in form and substance satisfactory to counsel to the Authority and to the Underwriter.

(17) As a condition to the issuance of the Bonds, the Owner agrees to deliver a bring-down certificate, dated the Closing Date, in substantially the form attached as an appendix to the Purchase Contract, to affirm and restate the Owner's certifications, representations and covenants made in this Certificate. If any event related to or affecting the Owner, its Relevant Entities or the ownership of the Property occurs, as a result of which it is necessary to modify the bring-down certificate, the Owner agrees to deliver a new bring-down certificate revised to reflect such event.

On behalf of the Owner, I have reviewed the contents of this Certificate and the Owner has consulted with counsel regarding the meaning of its contents. The Owner acknowledges and understands that a variety of state and federal laws, including but not limited to the Securities Act of 1933, as amended, and Rule 10b-5 promulgated under the Securities Exchange Act of 1934, as amended, may apply to the Owner, and that under some circumstances certification as to the matters set forth in this Certificate, without additional disclosures or other action, may not fully discharge all duties and obligations of the Owner under such laws.

BRING-DOWN CERTIFICATE OF PROPERTY OWNER

The Undersigned hereby certifies and represents that he or she is duly authorized to execute and deliver this certificate (this “Bring-Down Certificate”) on behalf of Adventist Health System/West, a California corporation (the “Owner”) in connection with the issuance, sale and delivery by the Roseville Finance Authority of the bonds captioned above (the “Bonds”).

This Bring-Down Certificate is delivered pursuant to the Purchase Contract with respect to the Bonds dated _____, 2016, between Piper Jaffray & Co., as underwriter, and the Authority (the “Purchase Contract”).

In connection with the distribution of the Preliminary Official Statement relating to the Bonds, the Owner executed a Certificate of Property Owner dated _____, 2017 (the “Certificate”).

Capitalized terms used but not defined in this Bring-Down Certificate have the same meanings as set forth in the Purchase Contract and the Certificate.

The undersigned, on behalf of the Owner, further certifies as follows:

(1) The undersigned is familiar with the facts certified in the Certificate and this Bring-Down Certificate, and are authorized and qualified to certify the same as an authorized officer of the Owner.

(2) Each statement made in the Certificate is affirmed and restated as if made on the date hereof; provided that each statement made in the Certificate referring to the Preliminary Official Statement is affirmed as it relates to the Final Official Statement.

(3) To the Actual Knowledge of the Undersigned (as defined in the Certificate), no event has occurred since the date of the Preliminary Official Statement that has, in any material way, adversely affected

(i) the business, properties, operations, prospects or financial condition of the Owner;

(ii) the Owner’s ability to own the Property, or

(iii) the Owner’s ability to pay Special Taxes on the Property prior to delinquency.

(4) The Owner has duly executed and delivered the Owner Continuing Disclosure Certificate, and the Owner Continuing Disclosure Certificate constitutes the legal, valid and

binding obligation of the Owner, enforceable against the Owner in accordance with its terms, except as such enforcement is limited by bankruptcy, insolvency, reorganization, arrangement, moratorium, fraudulent conveyance, and other similar laws relating to or affecting the rights of creditors and certain equitable, legal, or statutory principles affecting the enforcement of contractual rights generally, regardless of whether such enforcement is considered in a proceeding in equity or at law.

§ _____ ROSEVILLE FINANCE AUTHORITY SPECIAL TAX REVENUE REFUNDING BONDS SERIES 2017B

FORM OF PROPERTY OWNER'S COUNSEL OPINION

A. One or more letters of counsel to Adventist Health System/West, a California corporation (the "Property Owner"), which may be in-house counsel or an outside law firm engaged by the Developer in connection with the issuance of the Bonds, or both, collectively to the effect that:

1. The Property Owner has been duly organized as a California corporation and validly exists in good standing under the laws of the State of California.

2. The Property Owner has the corporate power to execute, deliver, and perform its obligations under the Continuing Disclosure Certificate.

3. The Continuing Disclosure Certificate has been duly authorized, executed, and delivered by the Property Owner, and, assuming due authorization and execution by the other parties thereto, constitutes valid and binding obligation of the Property Owner, enforceable against the Property Owner in accordance with its terms.

4. No information came to the attention of the lawyers in such counsel's firm or office rendering legal services in connection with its representation of the Developer that caused such counsel to believe that, as of the date of the Official Statement and as of the date of such letter, the information in the sections of the Preliminary Official Statement entitled "OWNERSHIP OF PROPERTY WITHIN THE DISTRICTS," and "CONTINUING DISCLOSURE" concerning the Property Owner and its Relevant Entities, the Property, the Property Owner's development and financing plans, and the Property Owner's contractual arrangements (but excluding any information cited as coming from a source other than the Property Owner) (except that no belief is expressed as to (a) any financial statements and other financial, statistical, economic, or engineering data or forecasts, estimates, projections, assumptions, or expressions of opinion, or (b) any information about valuation, appraisals, market absorption, archaeological, or environmental matters), contained or contain any untrue statement of a material fact or omitted or omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading.

B. A certification letter of counsel to the Property Owner, which may be in-house counsel whose responsibilities include oversight of litigation concerning the Property Owner, to the following effect:

1. Except as set forth in the Official Statement, no litigation is pending against the Property Owner (with service of process to the Property Owner having been accomplished) or, to the actual knowledge of such counsel, threatened in writing against the Property Owner which would materially and adversely affect

(a) the ability of the Property Owner to complete the planned acquisition, development and sale of the property in the Districts described in the Official Statement, or

(b) the ability of the Developer to pay special taxes or *ad valorem* property taxes prior to delinquency on the property it owns in the Districts.

PRELIMINARY OFFICIAL STATEMENT DATED _____, 2017**NEW ISSUE-FULL BOOK ENTRY****NOT RATED**

In the opinion of Jones Hall, A Professional Law Corporation, San Francisco, California, Bond Counsel, under existing statutes, regulations, rulings and judicial decisions, and assuming certain representations and compliance with certain covenants and requirements described herein, interest on the Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of calculating the federal alternative minimum tax imposed on individuals and corporations; although for the purpose of computing the alternative minimum tax imposed on certain corporations, such interest is taken into account in determining certain income and earnings. In the further opinion of Bond Counsel, interest on the Bonds is exempt from State of California personal income tax. See "LEGAL MATTERS — Tax Matters" herein.

\$ _____ *

ROSEVILLE FINANCE AUTHORITY
SPECIAL TAX REVENUE REFUNDING BONDS
SERIES 2017B

Dated: Date of Delivery**Due: September 1, as shown on inside cover**

General. The Special Tax Revenue Refunding Bonds, Series 2017B (the "Bonds") are being issued by the Roseville Finance Authority (the "Authority") to provide funds for the Authority to purchase from the City of Roseville (the "City") two series of special tax refunding bonds which will be issued by the City concurrently with the issuance of the Bonds: (i) Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017 and (ii) Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Refunding Bonds, Series 2017 (together, the "CFD Bonds"). The CFD Bonds are being issued by the City to refund the (i) \$11,285,000 original principal amount of Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003 and (ii) \$5,310,000 original principal amount of Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Bonds, Series 2006 (together, the "Prior CFD Bonds"), fund a reserve account for each series of CFD Bonds and pay costs of issuance. The Prior CFD Bonds were issued by the City to finance improvements for its Stone Point Community Facilities District No. 1 and Stone Point Community Facilities District No. 5 (Public Facilities) pursuant to the Mello-Roos Community Facilities Act of 1982, as amended (the "Act").

Security and Sources of Payment for the Bonds and CFD Bonds. The Bonds are payable solely from "Revenues" pledged by the Authority under the Indenture (described herein), which consist primarily of payments received by the Authority from the City from the CFD Bonds. Each respective series of CFD Bonds is payable from special taxes (net of priority administration expenses up to a cap each year) levied within the respective District and paid to the Authority as debt service on the respective CFD Bonds. Installments of principal and interest sufficient to meet annual CFD Bonds debt service are included on the regular county tax bills sent to owners of property against which there are unpaid special taxes. Scheduled payments under the CFD Bonds collectively are sufficient to permit the Authority to pay the principal of and interest on the Bonds when due. In addition, a reserve account will be established and available under the Fiscal Agent Agreement pursuant to which each series of CFD Bonds will be issued, if there are insufficient special taxes to make payment on the applicable series of CFD Bonds. See "SECURITY FOR THE CFD BONDS – Reserve Account."

Bond Terms. The Bonds will be issued in denominations of \$5,000 or any integral multiple of \$5,000. Interest is payable semiannually on each March 1 and September 1, commencing _____ 1, 20___. The Bonds will be initially issued only in book-entry form and registered to Cede & Co. as nominee of The Depository Trust Company ("DTC"), which will act as securities depository of the Bonds. Principal and interest (and premium, if any) on the Bonds is payable by the Trustee to DTC, which remits such payments to its Participants for subsequent distribution to the registered owners as shown on the Trustee's books. See "THE BONDS – General Provisions" and "– Book-Entry Only System."

Redemption. The Bonds are subject to redemption prior to maturity as described herein. See "THE BONDS – Redemption."

Risk Factors. The Bonds may not be appropriate investments for certain individuals. See "RISK FACTORS" for a discussion of the risk factors that should be considered in evaluating the investment quality of the Bonds.

THE BONDS ARE SPECIAL OBLIGATIONS OF THE AUTHORITY PAYABLE SOLELY FROM AND SECURED SOLELY BY THE REVENUES AND FUNDS PLEDGED THEREFOR IN THE INDENTURE. THE BONDS ARE NOT A DEBT OR LIABILITY OF THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISIONS THEREOF OTHER THAN THE AUTHORITY TO THE LIMITED EXTENT DESCRIBED HEREIN, AND NEITHER THE FAITH AND CREDIT OF THE AUTHORITY, THE CITY, THE STATE OR ANY OF ITS POLITICAL SUBDIVISIONS ARE PLEDGED TO THE PAYMENT OF PRINCIPAL OF, PREMIUM, IF ANY, OR INTEREST ON THE BONDS AND NEITHER THE AUTHORITY (EXCEPT TO THE LIMITED EXTENT DESCRIBED HEREIN), THE CITY, THE STATE NOR ANY OF ITS POLITICAL SUBDIVISIONS IS LIABLE THEREFOR, NOR IN ANY EVENT SHALL THE BONDS OR ANY INTEREST THEREON BE PAYABLE OUT OF ANY FUNDS OR PROPERTIES OTHER THAN THOSE OF THE AUTHORITY AS SET FORTH IN THE INDENTURE. NEITHER THE BONDS NOR THE OBLIGATION TO MAKE PAYMENTS ON THE CFD BONDS CONSTITUTES AN INDEBTEDNESS OF THE AUTHORITY, THE CITY, THE STATE OR ANY OF ITS POLITICAL SUBDIVISIONS WITHIN THE MEANING OF ANY CONSTITUTIONAL OR STATUTORY DEBT LIMITATION OR RESTRICTION. THE AUTHORITY HAS NO TAXING POWER.

Maturity Schedule
(see inside cover)

This Preliminary Official Statement and the information contained herein are subject to completion or amendment. These securities may not be sold nor may offers to buy be accepted prior to the time the Official Statement is delivered in final form. Under no circumstances will this Preliminary Official Statement constitute an offer to sell or a solicitation of an offer to buy nor will there be any sale of these securities in any jurisdiction in which such offer solicitation or sale would be unlawful.

The Bonds will be offered when, as and if issued and received by Piper Jaffray & Co., as underwriter, subject to the approval as to their legality by Jones Hall, A Professional Law Corporation, San Francisco, California, as Bond Counsel. Certain legal matters will be passed upon for the Authority and the City by the City Attorney. Jones Hall is also acting as Disclosure Counsel to the Authority. Nossaman LLP, Irvine, California, is acting as counsel to the Underwriter. It is anticipated that the Bonds in definitive form will be available for delivery through the facilities of DTC on or about _____, 2017.

GENERAL INFORMATION ABOUT THIS OFFICIAL STATEMENT

No Offering May Be Made Except by this Official Statement. No dealer, broker, salesperson or other person has been authorized by the Authority, the City or the Underwriter to give any information or to make any representations with respect to the Bonds or the CFD Bonds other than as contained in this Official Statement, and if given or made, such other information or representation must not be relied upon as having been authorized by the Authority, the City or the Underwriter. This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy in any state in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

Effective Date. This Official Statement speaks only as of its date, and the information and expressions of opinion contained in this Official Statement are subject to change without notice. Neither the delivery of this Official Statement nor any sale of the Bonds will, under any circumstances, create any implication that there has been no change in the affairs of the Authority, the City, the Districts or any other parties described in this Official Statement, or in the condition of property within the Districts since the date of this Official Statement.

Use of this Official Statement. This Official Statement is submitted in connection with the sale of the Bonds referred to herein and may not be reproduced or used, in whole or in part, for any other purpose. This Official Statement is not a contract with the purchasers of the Bonds.

Preparation of this Official Statement. The information contained in this Official Statement has been obtained from sources that are believed to be reliable, but this information is not guaranteed as to accuracy or completeness. The Underwriter has provided the following sentence for inclusion in this Official Statement: The Underwriter has reviewed the information in this Official Statement in accordance with, and as part of, its responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriter does not guarantee the accuracy or completeness of such information.

Document References and Summaries. All references to and summaries of the Indenture or other documents contained in this Official Statement are subject to the provisions of those documents and do not purport to be complete statements of those documents.

Stabilization of and Changes to Offering Prices. The Underwriter may overallocate or take other steps that stabilize or maintain the market price of the Bonds at a level above that which might otherwise prevail in the open market. If commenced, the Underwriter may discontinue such market stabilization at any time. The Underwriter may offer and sell the Bonds to certain dealers, dealer banks and banks acting as agent at prices lower than the public offering prices stated on the cover page of this Official Statement, and those public offering prices may be changed from time to time by the Underwriter.

Bonds are Exempt from Securities Laws Registration. The issuance and sale of the Bonds have not been registered under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, in reliance upon exemptions for the issuance and sale of municipal securities provided under Section 3(a)(2) of the Securities Act of 1933 and Section 3(a)(12) of the Securities Exchange Act of 1934.

Estimates and Projections. Certain statements included or incorporated by reference in this Official Statement constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995, Section 21E of the United States Securities Exchange Act of 1934, as amended, and Section 27A of the United States Securities Act of 1933, as amended. Such statements are generally identifiable by the terminology used such as "plan," "expect," "estimate," "budget" or other similar words.

THE ACHIEVEMENT OF CERTAIN RESULTS OR OTHER EXPECTATIONS CONTAINED IN SUCH FORWARD-LOOKING STATEMENTS INVOLVE KNOWN AND UNKNOWN RISKS, UNCERTAINTIES AND OTHER FACTORS WHICH MAY CAUSE ACTUAL RESULTS, PERFORMANCE OR ACHIEVEMENTS DESCRIBED TO BE MATERIALLY DIFFERENT FROM ANY FUTURE RESULTS, PERFORMANCE OR ACHIEVEMENTS EXPRESSED OR IMPLIED BY SUCH FORWARD-LOOKING STATEMENTS. THE AUTHORITY AND THE CITY DO NOT PLAN TO ISSUE ANY UPDATES OR REVISIONS TO THOSE FORWARD-LOOKING STATEMENTS IF OR WHEN ANY EXPECTATIONS, OR EVENTS, CONDITIONS OR CIRCUMSTANCES ON WHICH SUCH STATEMENTS ARE BASED OCCUR.

Internet Site. The City maintains an Internet website, but the information that it contains is not incorporated in this Official Statement.

**ROSEVILLE FINANCE AUTHORITY
SPECIAL TAX REVENUE REFUNDING BONDS
SERIES 2017B**

This Official Statement, including the cover page and the appendices hereto, is provided to furnish information regarding the issuance by the Roseville Finance Authority (the “**Authority**”) of its Special Tax Revenue Refunding Bonds, Series 2017B (the “**Bonds**”) in the aggregate principal amount set forth above.

Any statements made in this Official Statement involving matters of opinion or of estimates, whether or not so expressly stated, are set forth as such and not as representations of fact, and no representation is made that any of the estimates will be realized. Definitions of certain terms used herein and not defined herein have the meaning set forth in the Indenture or the respective Fiscal Agent Agreements described herein.

INTRODUCTION

This Introduction is not a summary of this Official Statement. It is only a brief description of and guide to, and is qualified by, more complete and detailed information contained in the entire Official Statement, including the cover page and appendices hereto, and the documents summarized or described herein. A full review should be made of the entire Official Statement. The offering of the Bonds to potential investors is made only by means of the entire Official Statement. Capitalized terms used but not defined in this Official Statement have the meanings set forth in the Indenture (as defined below). See “APPENDIX A – Summary of Certain Provisions of Principal Legal Documents.”

Financing Plan. The Bonds are being issued by the Authority to provide funds for the Authority to purchase from the City of Roseville (the “**City**”) two series of special tax refunding bonds (together, the “**CFD Bonds**”), which will be issued by the City concurrently with the issuance of the Bonds:

- (i) Stone Point Community Facilities District No. 1 Special Tax Refunding Bonds, Series 2017, and
- (ii) Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Refunding Bonds, Series 2017.

The CFD Bonds are being issued by the City to refund the (i) \$11,285,000 original principal amount of Stone Point Community Facilities District No. 1 Special Tax Bonds, Series 2003 and (ii) \$5,310,000 original principal amount of Stone Point Community Facilities District No. 5 (Public Facilities) Special Tax Bonds, Series 2006 (together, the “**Prior CFD Bonds**”), fund a reserve account for each series of CFD Bonds and pay costs of issuance. The Prior

* Preliminary; subject to change.

CFD Bonds were issued by the City to finance improvements for its Stone Point Community Facilities District No. 1 (“**Stone Point CFD No. 1**”) and Stone Point Community Facilities District No. 5 (Public Facilities) (“**Stone Point CFD No. 5**” and together, the “**Districts**”) pursuant to the Mello-Roos Community Facilities Act of 1982, as amended (the “**Act**”). See “FINANCING PLAN” herein.

Authority for Issuance. The Bonds are issued under the provisions of Article 4 of Chapter 5 of Division 7 of Title 1 of the California Government Code (the “**Bond Law**”), and the terms of an Indenture dated as of _____ 1, 2017 (the “**Indenture**”) by and between the Authority and The Bank of New York Mellon Trust Company, N.A., as trustee (the “**Trustee**”). The CFD Bonds are issued by the City under Act, and two separate Fiscal Agent Agreements (each, a “**Fiscal Agent Agreement**”), dated as of _____ 1, 2017, by and between the City and The Bank of New York Mellon Trust Company, N.A., as fiscal agent (the “**CFD Bonds Fiscal Agent**”).

The Authority and the City. The Authority is a joint exercise of powers authority duly organized and existing under the laws of the State of California (the “**State**”). The City is a charter city duly organized and existing under the laws of the State, located within Placer County (the “**County**”). For more information about the City and the County, see “APPENDIX B - General Information about the City of Roseville and Placer County.”

Security for the Bonds and CFD Bonds. The Bonds are special obligations of the Authority, payable from and secured by “**Revenues**” (as defined herein) of the Authority consisting primarily of payments received by the Authority from the City in connection with the CFD Bonds. *No series of CFD Bonds or the pledge of special taxes to pay such CFD Bonds is cross-collateralized to the other series. Accordingly, debt service on one issue of CFD Bonds may not be used to make up any shortfall in the debt service on the other issue of CFD Bonds.* Scheduled payments under the CFD Bonds collectively are sufficient to provide the Authority with money to pay the principal of and interest on the Bonds when due. See “SECURITY FOR THE BONDS AND SOURCES OF PAYMENT THEREFOR” and “SECURITY FOR THE CFD BONDS” below.

The Bonds are secured by a lien on and security interest in all of the Revenues and any other amounts (including proceeds of the sale of the Bonds) held in certain funds established under the Indenture. See “SECURITY FOR THE BONDS AND SOURCES OF PAYMENT THEREFOR – Revenues and Flow of Funds.”

The CFD Bonds were issued upon and are secured by special taxes (the “**Special Tax**” or “**Special Taxes**”) levied against taxable property in each respective District, and such unpaid Special Taxes constitute a trust fund for the redemption and payment of the principal of the respective CFD Bonds and the interest thereon.

The Special Taxes are levied by the City on taxable real property within the boundaries of each District. The Special Tax applicable to each taxable parcel is levied and collected according to the tax liability determined by the City Council through the application of a rate and method of apportionment of Special Tax for each respective District (each, a “**Special Tax Formula**”), which was approved by the City in connection with the formation of each District. The Special Tax Formulas for the Districts are set forth in APPENDIX C and APPENDIX D, respectively. The Special Taxes represent liens on the parcels of land subject to a Special Tax, and failure to pay the Special Taxes could result in proceedings to foreclose the delinquent property. See “SECURITY FOR THE CFD BONDS – Special Tax Methodology.”

Unpaid Special Taxes do not constitute a personal indebtedness of the owners of the parcels within the Districts, and the owners have made no commitment to pay the principal of or interest on the CFD Bonds or the Bonds or to support payment of the Bonds in any manner. In the event of delinquency, proceedings may be conducted only against the particular parcel securing the delinquent Special Tax.

No series of CFD Bonds or the pledge of special taxes to pay such CFD Bonds is cross-collateralized to any other series of CFD Bonds. Accordingly, debt service on one issue of CFD Bonds may not be used to make up any shortfall in the debt service on the other issue of CFD Bonds.

Each series of CFD Bonds is further secured by a Reserve Account, which will be held by the CFD Fiscal Agent under the applicable Fiscal Agent Agreement, and which will be funded to the Reserve Requirement (as defined herein) for the particular series of CFD Bonds. *There is no cross-collateralization of each Reserve Account.* See "SECURITY FOR THE BONDS AND SOURCES OF PAYMENT THEREFOR – Reserve Account."

Additional Bonds and CFD Bonds for Refunding Purposes Only. Additional Bonds and CFD Bonds secured on parity with the Bonds and CFD Bonds, respectively, may be issued but only for refunding purposes. See "SECURITY FOR THE BONDS AND SOURCES OF PAYMENT THEREFOR – Additional Bonds and CFD Bonds for Refunding Purposes Only."

The Districts and Value of Land in the Districts. Each District is comprised of land located within the City and was formed to finance a portion of certain infrastructure improvements of benefit to such District. Stone Point CFD No. 1 was formed in 2002 and currently consists of 200 levied parcels. Stone Point CFD No. 5 was formed in 2006 and currently consists of 188 levied parcels. To date, 185 homes have been built and 29.2 acres of commercial/professional office have been developed within Stone Point CFD No. 1; 185 homes have been built within Stone Point CFD No. 5. Additional subdivision of parcels is expected in the future, as development continues within both Districts.

The land within Stone Point CFD No. 5 constitutes a subset of the land within Stone Point CFD No. 1; as such, all of the parcels located within Stone Point CFD No. 5 are also located within Stone Point CFD No. 1 but not all parcels within the boundaries of Stone Point CFD No. 1 are within the boundaries of Stone Point CFD No. 5.

Taxable property in each District is security for the respective Special Taxes. In connection with valuing property in the Districts, the City has obtained the 2016-17 County assessed valuation (the "**Assessed Valuation**") of the taxable property in the Districts. The Assessed Valuation of taxable property in Stone Point CFD No. 1 was \$_____, and the Assessed Valuation of taxable property in Stone Point CFD No. 5 was \$_____. To better estimate the value of certain parcels in the Districts, the City commissioned an appraisal of such parcels. The appraisal sets forth an estimate of the market value of the appraisal parcels as of the March 29, 2017 date of value. The estimate of value of the ___ parcels appraised in Stone Point CFD No. 1 was \$_____, and the estimate of value of the ___ parcels appraised in Stone Point CFD No. 5 was \$_____.

Overlapping Debt Value to Lien Ratios.

The aggregate estimate of value of taxable property in Stone Point CFD No. 1 is \$171,737,016. This is the sum of the \$52,363,000 estimate of the appraised value of the parcels appraised, together with the \$119,374,016 Assessed Value of all other parcels in the District. This aggregate value of taxable property of \$171,737,016 is approximately 14.92* times the \$11,511,487* total direct and overlapping debt in Stone Point CFD No. 1 as of April 1, 2017 (giving effect to the issuance of \$5,700,000* of CFD Bonds for Stone Point CFD No. 1).

The aggregate estimate of value of taxable property in Stone Point CFD No. 5 is \$82,813,713. This is the sum of the \$38,463,000 estimate of the appraised value of the parcels appraised, together with the \$44,350,713 Assessed Value of all other parcels in the District. This aggregate value of taxable property of \$82,813,713 is approximately 11.55 times the \$7,169,858 total direct and overlapping debt in Stone Point CFD No. 5 as of April 1, 2017 (giving effect to the issuance of \$5,000,000* of CFD Bonds for Stone Point CFD No. 5).

Risks of Investment. See the section of this Official Statement entitled “RISK FACTORS” for a discussion of special factors that should be considered, in addition to the other matters set forth herein, in considering the investment quality of the Bonds. **The Bonds are limited obligations of the Authority. Payments received by the Authority from the City in connection with the CFD Bonds is the primary security and source of payment for the Bonds. The general fund of the City is not liable and the full faith and credit of the City is not pledged for the payment of the interest on, or principal of or redemption premiums, if any, on the CFD Bonds. The CFD Bonds and the Bonds are not secured by a legal or equitable pledge of or charge, lien or encumbrance upon any property of the City or any of its income or receipts, except the money in the Special Tax Fund (described herein) established under the respective Fiscal Agent Agreements, and neither the payment of the interest on nor principal of or redemption premiums, if any, on the CFD Bonds or the Bonds is a general debt, liability or obligation of the City or the Authority.**

Limited Scope of Official Statement. There follow in this Official Statement descriptions of the Authority, the Bonds, the Indenture, the City, the CFD Bonds, the Fiscal Agent Agreements, and certain other documents. The descriptions and summaries of documents herein do not purport to be comprehensive or definitive, and reference is made to each such document for the complete details of all its respective terms and conditions. All statements herein with respect to such documents are qualified in their entirety by reference to each such document for the complete details of all of their respective terms and conditions. All statements herein with respect to certain rights and remedies are qualified by reference to laws and principles of equity relating to or affecting creditors’ rights generally. Terms not defined herein shall have the meanings set forth in the Indenture or the Fiscal Agent Agreements, as applicable. See APPENDIX A.

The information and expressions of opinion herein speak only as of the date of this Official Statement and are subject to change without notice. Neither delivery of this Official Statement nor any sale made hereunder nor any future use of this Official Statement shall, under any circumstances, create any implication that there has been no change in the affairs of the Authority, the City or the Districts since the date hereof.

All financial and other information presented in this Official Statement has been provided by the Authority and the City from their records, except for information expressly attributed to other sources. The presentation of information is intended to show recent historic information

*Preliminary; subject to change.

and is not intended to indicate future or continuing trends in the financial or other affairs of the Authority, the City or the Districts. No representation is made that past experience, as it might be shown by such financial and other information, will necessarily continue or be repeated in the future.

FINANCING PLAN

Refunding of Prior CFD Bonds

The Bonds are being issued by the Authority to provide funds to the Authority to purchase the CFD Bonds from the City, and to pay costs of issuance. The CFD Bonds are being issued by the City for the City to defease and refund the Prior CFD Bonds previously issued by the City, and to fund a Reserve Account for each series of CFD Bonds.

The Prior CFD Bonds consist of the following:

- (i) \$11,285,000 original principal amount of Stone Point CFD No. 1 Special Tax Bonds, Series 2003; and
- (ii) \$5,310,000 original principal amount of Stone Point CFD No. 5 (Public Facilities) Special Tax Bonds, Series 2006.

The CFD Bonds consist of the following:

- (i) \$5,700,000* principal amount of Stone Point CFD No. 1 Special Tax Refunding Bonds, Series 2017; and
- (ii) \$5,000,000* principal amount of Stone Point CFD No. 5 (Public Facilities) Special Tax Refunding Bonds, Series 2017.

The Prior CFD Bonds will be redeemed in full on September 1, 2017 (the “**Redemption Date**”), at a redemption price equal to 100% of the principal amount thereof, together with accrued interest to the redemption date, without premium. A portion of the proceeds of the Bonds will be transferred to The Bank of New York Mellon Trust Company, N.A., acting as escrow agent (the “**Escrow Bank**”) under an Escrow Agreement dated as of _____ 1, 2017 (the “**Escrow Agreement**”), by and between the City and the Escrow Bank on the closing date for the Bonds. These funds, together with certain amounts held by the fiscal agent for each of the Prior CFD Bonds, which will also be transferred to the Escrow Bank, will be sufficient to pay and redeem the Prior CFD Bonds in full on the Redemption Date. See “MISCELLANEOUS – Verification of Mathematical Computations.”

The moneys held by the Escrow Bank under the Escrow Agreement are pledged to the payment of the Prior CFD Bonds, and will not be available for the payment of the Bonds or the CFD Bonds.

* Preliminary; subject to change.

Estimated Sources and Uses of Funds

The sources and uses of funds relating to the Bonds and CFD Bonds, and certain amounts held by the fiscal agent for each series of Prior CFD Bonds, are anticipated to be as follows:

Sources and Uses of Bonds

<u>Sources:</u>	
Principal Amount of the Bonds	\$
Plus/Less: Net Original Issue Premium/Discount	
Total Sources	\$
<u>Uses:</u>	
Purchase of CFD Bonds	
Costs of Issuance ⁽¹⁾	
Total Uses	\$

Sources and Uses of CFD Bonds

<u>Sources:</u>	
Principal Amount of the CFD Bonds	\$
Amounts Related to Prior CFD Bonds	
Total Sources	\$
<u>Uses:</u>	
Deposit to Escrow Fund ⁽²⁾	\$
Deposit to Reserve Accounts ⁽³⁾	
Total Uses	\$

- (1) Costs of issuance include Underwriter's Discount, fees and expenses of the Fiscal Agent, Escrow Bank, Verification Agent, Bond Counsel, Disclosure Counsel and other professionals involved in the offering, printing costs, and other related costs of issuing the Bonds.
- (2) To be used to defease and redeem the Prior CFD Bonds.
- (3) The Reserve Account for each series of CFD Bonds will be funded to the Reserve Requirement applicable thereto.

THE BONDS

This section provides summaries of the Bonds and certain provisions of the Indenture. See "APPENDIX A – Summary of Certain Provisions of Principal Legal Documents" for a more complete summary of the Indenture. Capitalized terms used but not defined in this section have the meanings given in APPENDIX A.

General Provisions

The Bonds will be dated their date of delivery, and will be issued in the aggregate principal amounts set forth on the inside cover page hereof. The Bonds will bear interest from their dated date at the rates per annum set forth on the inside cover page hereof, payable semiannually on each March 1 and September 1, commencing _____ 1, 20__ (each, an "**Interest Payment Date**"), and will mature in the amounts and on the dates set forth on the inside cover page hereof. The Bonds will be issued in fully registered form in denominations of \$5,000 each or any integral multiple thereof.

Interest calculated on the basis of a 360-day year of twelve 30-day months on the Bonds will be payable on each Interest Payment Date to the person whose name appears on the Bond Register as the Owner of such Bond as of the fifteenth calendar day of the month preceding the month in which such Interest Payment Date occurs, whether or not such day is a Business Day (the "**Record Date**") immediately preceding each such Interest Payment Date, such interest to be paid by check of the Trustee mailed on such Interest Payment Date by first class mail, postage prepaid, to the Owner at the address of such Owner as it appears on the Bond Register or by wire transfer to an account in the United States of America made on such Interest Payment Date upon instructions of any Owner of \$1,000,000 or more in aggregate principal amount of Bonds of a Series provided to the Trustee in writing at least 5 Business Days before the Record Date for such Interest Payment Date.

Principal of and premium (if any) on any Bond will be paid upon presentation and surrender of such Bond, at maturity or the prior redemption of such Bond, at the Trust Office of the Trustee.

Each Bond will bear interest from the Interest Payment Date next preceding the date of authentication thereof, unless (a) it is authenticated after a Record Date and on or before the following Interest Payment Date, in which event it will bear interest from such Interest Payment Date; or (b) it is authenticated on or before February 15, 2018, in which event it will bear interest from the Closing Date; provided, however, that if, as of the date of authentication of any Bond, interest on such Bond is in default, such Bond will bear interest from the Interest Payment Date to which interest has previously been paid or made available for payment on such Bond, or from the Closing Date if no interest has been paid or made available for payment.

Redemption*

Optional Redemption. The Bonds maturing on or before September 1, _____, are not subject to optional redemption prior to maturity. The Bonds maturing on and after September 1, _____, may be redeemed at the option of the Authority, from any source of available funds, prior to maturity on any date on or after September 1, _____, as a whole, or in part from maturities corresponding proportionately to the maturities of the CFD Bonds simultaneously redeemed, if any redemption of CFD Bonds is being accomplished in conjunction with such optional redemption, and otherwise from such maturities as are selected by the Authority, and by lot within a maturity, at a redemption price equal to principal amount of the Bonds to be redeemed, plus accrued interest thereon to the date of redemption, without premium.

Mandatory Special Redemption from Prepayments. The Bonds are subject to mandatory special redemption on any Interest Payment Date from proceeds of early redemption of the CFD Bonds from prepayment of Special Taxes, in whole or in part, from maturities corresponding proportionately to the maturities of the CFD Bonds simultaneously redeemed, at the principal amount thereof, plus a premium expressed below as a percentage of the principal amount so redeemed, plus accrued interest to the date of redemption thereof:

<u>Redemption Date</u>	<u>Redemption Premium</u>
On or after _____, through _____	3%
September 1, _____ and March 1, _____	2
September 1, _____ and March 1, _____	1
September 1, _____ and thereafter	0

* Preliminary; subject to change.

Mandatory Sinking Fund Redemption. The Bonds maturing on September 1, _____ (the “**Term Bonds**”), are subject to redemption prior to their stated maturity, in part, by lot from amounts deposited into the Principal Account in the following amounts and on the following dates, at the principal amount thereof on the date fixed for redemption, without premium, but which amounts will be proportionately reduced by the principal amount of all Bonds optionally redeemed:

Mandatory Redemption Dates <u>(September 1)</u>	Principal <u>Amount</u>
20__	
20__(maturity)	

For a description of the redemption provisions of the CFD Bonds, see “APPENDIX A – Summary of Certain Provisions of Principal Legal Documents.”
