**1. CALL TO ORDER**

**2. ROLL CALL**

**Vice Mayor:** Bonnie Gore  
**Councilmember:** Scott Alvord  
**Councilmember:** Tim Herman  
**Councilmember:** John Allard  
**Mayor:** Susan Rohan

**3. PLEDGE OF ALLEGIANCE**

**4. MEETING PROCEDURES**

**NOTICE TO THE PUBLIC**

All Items on the agenda will be open for the public comment before final action is

taken. Speakers are requested to restrict comments to the item as it appears on the agenda and stay within a five (5) - minute time limit. The Mayor has the discretion of limiting the total discussion time for an item.

## **5. PRESENTATIONS**

### **5.1. Kathryn McClary Award**

Presentation of the Kathryn McClary Operator of the Year Award to Francis Hernandez, MV Transportation bus operator.

CONTACT: Eileen Bruggeman 916-774-5449 ebruggeman@roseville.ca.us

## **6. PUBLIC COMMENTS**

### **NOTICE TO THE PUBLIC**

Persons may address the City Council on items not on this agenda. Please complete a "Speaker Information Card" and present it to the City Clerk prior to the start of the meeting. Speakers shall restrict their comments to issues that are within the subject jurisdiction of the City Council and limit their comments to three (3) minutes per person. The total time allocated for Public Comment is 25 minutes. The Brown Act, with certain exceptions, does not permit the City Council to discuss or take action on issues that are not listed on the agenda.

## **7. CONSENT CALENDAR**

### **NOTICE TO THE PUBLIC**

All matters listed under Consent Calendar are considered to be routine and all will be passed by one motion. There will be no discussion of these items unless members of the City Council or the public request specific items be removed from the Consent Calendar for separate discussion. Any member of the public may address the City Council on items on the Consent Calendar. Public comments on any item or items on the Consent Calendar are limited to five (5) minutes per speaker

### **BEGINNING OF CONSENT CALENDAR**

## **Resolutions**

### **7.17. Legal Services Agreement**

Memo from Paralegal Gretchen Hakala and City Attorney Robert Schmitt recommending Council adopt RESOLUTION NO. 18-231 APPROVING AN AGREEMENT FOR LEGAL SERVICES, BY AND BETWEEN THE CITY OF ROSEVILLE AND SPINELLI, DONALD & NOTT AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. The City of Roseville requires outside legal services from time to time to advise, assist, and represent the City as co-counsel with the City Attorney with respect to litigation, and to assist the City with respect to transaction matters. Spinelli, Donald & Nott will assist the Human Resources Department with impartial workplace investigations on an as-needed basis. Legal services provided by this contract will be dependent upon needs as they occur during the year and thus cannot be forecast. All expenses will be paid from the Human Resources Department operations budget as needed.

7.25. On-Call Landscape Architectural Services - Professional Design Services Agreements Amendments

Memo from Park Planning & Development Superintendent Tara L. Gee and Parks, Recreation & Libraries Director Dion Louthan recommending Council adopt RESOLUTION NO. 18-228 APPROVING A FIRST AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND QUADRIGA LANDSCAPE ARCHITECTURE & PLANNING, INC., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 18-229 APPROVING A FIRST AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND VERDE DESIGN, INC., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 18-230 APPROVING A FIRST AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND SCHMIDT DESIGN GROUP, INC., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. The agreements include a one year base term with the option of two additional one year extensions for each firm. Funding for professional services is provided through Capital Improvement Projects as approved during the fiscal year budgets, an approved professional services budget, or developer reimbursements. Project specific quotes are obtained prior to the start of any work. There will be no net impact to the General Fund. The original three year contract total was a not-to-exceed amount of \$150,000.00 per firm. During the first base year of work, all three firms were assigned several projects totaling close to the original contract amount.

7.26. Downtown Bridges and Trail Project - Second Amendment of Professional Design Services Agreement

Memo from Alternative Transportation Manager Michael Dour and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 18-234 APPROVING A SECOND AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND MARK THOMAS & COMPANY, INC., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON

BEHALF OF THE CITY OF ROSEVILLE. The professional design services agreement with Mark Thomas and Company (MTCO) is for construction support and lighting assessment for the Downtown Bridges and Trail Project. As a result of scope changes to the project, staff expects there will be additional costs associated with construction engineering support services. MTCO has prepared a scope of work for the anticipated additional construction support services with a not to exceed amount of \$118,255.00. Funding is provided through various grants, Public Facilities Fund, and Local Transportation Fund. There is no impact to the General Fund.

7.27. Environmental Compliance Support Services - On-Call Professional Services Agreements

Memo from Associate Engineer Hossein Naghibzadeh and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 18-232 APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND ECorp Consulting, Inc., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 18-233 APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND ICF Jones & Stokes, Inc., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. These professional service agreements are for on-call environmental design and construction support services. For City owned projects to be successful, cost efficient, and to comply with State and Federal environmental regulations, City staff requires the assistance of professionals in the environmental field. The not to exceed cost for the requested services provided by the combination of the two agreements over the next three years is \$900,000.00. There is no guaranteed minimum amount of work provided in the contracts, and payment will only be made for work completed. The agreements will be funded by various Council approved Capital Improvement Projects budgets at no cost to General Fund.

7.29. Environmental and Planning Services - On-Call Professional Services Agreement, Citywide Qualified Climate Action Plan General Plan Update and Associated Environmental Impact Report - Professional Services Agreement Amendment, and Budget Adjustments

Memo from Senior Planner Tricia Stewart and Acting Development Services Director Mike Isom recommending Council adopt ORDINANCE NO. 5982 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE; and adopt ORDINANCE NO. 5983 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE; and adopt RESOLUTION NO. 18-235 APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND ANALYTICAL ENVIRONMENTAL SERVICES, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 18-236 APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND AECOM TECHNICAL SERVICES, INC., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. This item requests approval of budget adjustments totaling \$118,000.00, approval of an On-Call Professional Services Agreement with Analytical Environmental Services, and approval of a Professional Services Agreement Amendment with AECOM. These contracts will allow the long range planning projects to continue moving forward without delay. Funds utilized will be a combination of revenue from the General Plan Maintenance Fee, General Fund Contingency, and developer reimbursement.

7.30. Parks Maintenance - Budget Adjustment

Memo from Parks Superintendent Eric Dexter and Parks, Recreation & Libraries Director Dion Louthan recommending Council adopt ORDINANCE NO. 5978 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY

EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approval of a budget adjustment in the amount of \$14,700.00 for increased expenses in the Park Maintenance Budget within the Parks, Recreation & Libraries Department. This request is fully funded with offsetting revenue, so there is no impact to the General Fund FY2017-18 budget.

CONTACT: Eric Dexter 916-746-1769 edexter@roseville.ca.us

#### 7.31. Fuel Costs - Budget Adjustment

Memo from Fleet Manager Brian Craighead and Public Works Director Rhon Herndon recommending Council adopt ORDINANCE NO. 5980 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests approval of a budget adjustment of \$142,894.00 to the FY2017-18 Fleet Services fuel budget to cover increased fuel costs for City vehicles and equipment. The action requested will have an approximate impact of \$38,581.00 to the General Fund. The remainder will come from various enterprise funds throughout the City.

#### 7.37. Out of State Travel Request - Police Department

Memo from Department Public Information Officer Rob Baquera and Police Chief James Maccoun requesting Council approval for two police sergeants to travel to Chicago, Illinois and Birmingham, Alabama for Procedural Justice and Implicit Bias training. The Chicago training is scheduled for June 2-6 and the Birmingham training is scheduled for June 18-21. Funding for the travel costs are being provided by a state grant designated for mental health, trust-building, and de-escalation training, and is included in the community services/social services unit budget. The cost of travel, lodging, and per diem for the two sergeants will amount to approximately \$5,444.00. Funding for these site visits is coming from the community services/social service unit FY2017-18 travel and training budget, and provided by a state grant.

## **8. ORDINANCES**

### 8.1. General Municipal Election - November 6, 2018

Memo from City Clerk Sonia Orozco and City Attorney Robert Schmitt recommending Council adopt RESOLUTION NO. 18-192 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE DECLARING A GENERAL MUNICIPAL ELECTION BE HELD ON TUESDAY, NOVEMBER 6, 2018 AND REQUESTING THE PLACER COUNTY BOARD OF SUPERVISORS CONSOLIDATE THE ELECTION WITH ANY OTHER ELECTION CONDUCTED ON SAID DATE, AND REQUESTING THE

PLACER COUNTY BOARD OF SUPERVISORS DIRECT THE PLACER COUNTY CLERK TO PROVIDE ELECTION SERVICES TO FILL TWO CITY COUNCIL VACANCIES AND TO SUBMIT A TRANSACTIONS AND USE TAX MEASURE TO THE VOTERS; and adopt RESOLUTION NO. 18-193 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE SUBMITTING BALLOT TEXT FOR THE CITY OF ROSEVILLE 1/2 CENT TRANSACTIONS AND USE TAX MEASURE TO THE VOTERS AT THE NOVEMBER 6, 2018 GENERAL MUNICIPAL ELECTION; and adopt RESOLUTION NO. 18-194 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE DIRECTING THE CITY ATTORNEY TO PREPARE AN IMPARTIAL ANALYSIS AND DIRECTING THE CITY CLERK TO ESTABLISH REQUIREMENTS FOR FILING PRIMARY ARGUMENTS AND REBUTTALS ARGUMENTS REGARDING THE CITY OF ROSEVILLE 1/2 CENT TRANSACTIONS AND USE TAX MEASURE; and adopt "PROTECTING ROSEVILLE'S PUBLIC SAFETY, ROADS, AND ESSENTIAL SERVICES MEASURE" ORDINANCE NO. 5977 AN ORDINANCE OF THE PEOPLE OF THE CITY OF ROSEVILLE IMPOSING A TRANSACTIONS AND USE TAX BY ADDING CHAPTER 4.22, "PROTECTING ROSEVILLE'S PUBLIC SAFETY, ROADS, AND ESSENTIAL SERVICES MEASURE" TO TITLE 4 OF THE ROSEVILLE MUNICIPAL CODE TO BE ADMINISTERED BY THE CALIFORNIA DEPARTMENT OF TAX AND FEE ADMINISTRATION. At the November 6, 2018 General Municipal Election, voters will be voting on filling two City Council vacancies, and the approval or disapproval of a 1/2¢ Transactions and Use Tax. California Revenue & Taxation Code §7285.9 authorizes the City Council to levy a Transactions and Use Tax, if the ordinance proposing the tax is approved by a two-thirds vote of all members of the Roseville City Council, and the tax is approved by a simple majority (50%+1) vote of the qualified voters of the city voting in an election on the issue on November 6, 2018. Anticipated costs for the election are \$189,500.00 and funds are included in the 2018/2019 City Clerk Department Election budget.

## 8.2. Transportation Capital Improvement Program / Traffic Mitigation Fee Update

Memo from Engineering Manager Chris Kraft and Acting Development Services Director Mike Isom recommending Council introduce for first reading ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS 4.44.020 AND 4.44.050 OF CHAPTER 4.44 OF TITLE 4 OF THE ROSEVILLE MUNICIPAL CODE REGARDING TRAFFIC MITIGATION FEES; and adopt RESOLUTION NO. 18-224 APPROVING THE TRANSPORTATION SYSTEM CAPITAL IMPROVEMENT PROGRAM AND TRAFFIC MITIGATION FEE UPDATE TO BE EFFECTIVE SEPTEMBER 1, 2018. The proposed update to the City's Transportation System Capital Improvement Program and associated Traffic Mitigation Fees includes updated development levels throughout the city, updated projects and project costs, and a consolidation of certain fee districts

no longer subject to Development Agreements into the infill fee district. Overall, the average proposed City Traffic Mitigation Fee as compared to the existing average fee increases by 29%, which is 5% lower than the historic city average, with several fee districts experiencing fee decreases. There will be no fiscal impact to the City's general fund by the proposed action. Adoption of this update will provide the City with the fiscal means to fund needed roadway improvements.

### 8.3. Sierra Vista Specific Plan Mitigation Fee Program Update

Memo from Engineering Manager Chris Kraft and Acting Development Services Director Mike Isom recommending Council introduce for first reading ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS 4.47.040, 4.47.070, 4.47.080, 4.47.090, 4.47.100, 4.47.110, 4.47.120, 4.47.130, 4.47.140 AND 4.47.150 OF CHAPTER 4.47 OF TITLE 4 OF THE ROSEVILLE MUNICIPAL CODE REGARDING SIERRA VISTA SPECIFIC PLAN MITIGATION FEE; and adopt RESOLUTION NO. 18-222 APPROVING A FORM OF INFRASTRUCTURE FEE CREDIT/FEE REIMBURSEMENT AGREEMENT, AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE AND AUTHORIZING THE CITY ATTORNEY TO MODIFY THE FORM AS NECESSARY. This item updates the original nexus study that developed the initial fee schedule, adjusts the fee, and amends the municipal code to set forth the fee program. The updated Sierra Vista Specific Plan Mitigation Fees will become effective on September 1, 2018. This is a private developer fee program, all associated costs for the administration of this program are fully paid for by the fee program, and there will be no fiscal impact to the City's general fund by the proposed action.

## 9. PUBLIC HEARING

### **NOTICE TO THE PUBLIC**

City Council, when considering the matter scheduled for hearing, will take the following actions:

1. Open the Public Hearing
2. Presentation by Staff
3. Presentation by applicant or Appellant
4. Accept Public Testimony
5. Appellant or Applicant Rebuttal Period
6. Close the Public Hearing
7. City Council Comments and Questions

## 8. City Council Action

In the future, if you wish to challenge in court any of the matters on this agenda for which a public hearing is to be conducted, you may be limited to raising only those issues, which you, or someone else raised orally at the Public Hearing or in written correspondence received by the City or before the hearing

Public Hearings listed for continuance will be continued as noted and posting of this agenda serves as notice of continuation.

### 9.1. Roseville Junction Crossing Project - Appeal of Planning Commission Decision

Memo from Associate Planner Gina McColl and Acting Development Services Director Mike Isom recommending Council adopt RESOLUTION NO. 18-226 DENYING THE APPEAL FROM THE APRIL 26, 2018 APPROVAL BY THE PLANNING COMMISSION; ADOPTING THE TWO FINDINGS OF FACT FOR THE MINOR DESIGN REVIEW PERMIT; APPROVING THE MINOR DESIGN REVIEW PERMIT; ADOPTING THE THREE FINDINGS OF FACT FOR THE TENTATIVE SUBDIVISION MAP AND APPROVING THE TENTATIVE SUBDIVISION MAP. This will uphold the Planning Commission's approval of a Minor Design Review Permit to allow a four-story, approximately 80,460 square foot, 80-unit affordable multi-family residential building, with associated parking and a Tentative Subdivision Map to allow the merging and resubdivision of 11 parcels, totaling approximately 1.38 acres, into two parcels (Parcel 1 = 0.07 acres, Parcel 2 = 1.31 acres), with right-of-way abandonment's and dedications, consistent with Government Code Section 66499.20.2, for the Roseville Junction Crossing project. The project is required to pay all applicable impact fees, therefore there will be no significant fiscal impact to the City.

Present: Allard, Gore, Rohan, Alvord  
Absent: Herman

**3. PLEDGE OF ALLEGIANCE**

The Pledge of Allegiance was led by Chief Information Officer Jay Panzica.

**4. MEETING PROCEDURES**

City Manager Rob Jensen and Mayor Susan Rohan announced the procedures for addressing Council.

**5. PRESENTATIONS**

## 5.1. FY2018-19 Budget Workshop

Staff recommends the City Council take the following action:

1. Receive a report from staff that provides an update on the budget process and shares recommendations.
2. Provide feedback and direction to staff on potential service level reductions and funding strategies for the FY2018-19 Budget.

Development of the FY2018-19 budget includes increased revenues from user fees consistent with the recommendations from EngageRoseville, but does not include increased tax revenues as those would require voter approval. Even with the increased user fee revenue, combined with expected increases in our property tax and sales tax revenue, a shortfall exists in matching our expenses with our revenues. As such, strategies need to be adopted, including service level reductions, to provide Council with a budget that conforms to the City Charter and Council policies. At the workshop, staff will present more detailed budgetary information along with proposed service level reductions for Council consideration. Staff will also request policy direction from the Council to utilize one-time monies for one-time costs related to previous underfunding, in an effort to lessen the depth of potential reductions. The proposed service level reductions would affect all of the General Fund operational departments including Public Safety, Parks, Recreation and Libraries, Public Works and Development Services.

CONTACT: Rob Jensen 916-774-5362 [rjensen@roseville.ca.us](mailto:rjensen@roseville.ca.us)

City Manager Rob Jensen introduced the budget overview presentation to Council.

Fiscal Year 2018/19 Budget:

Purpose for budget:

- City Policy Document
- Operationalizes Council Goals

Goals for budget:

- Balanced budget
- Revenues = Expenses (Not able to do during recession)
- No use of reserve funds
- Implement policies to fund long term liabilities (OPEB, CIPs)
- Preserve core service levels
- Consider EngageRoseville recommendations (increasing user fees, reducing service levels, reducing management oversight)

Budget Realities & Trends:

- Revenues up, but revenue growth slowing
- Costs increasing faster than revenue
  - Minimum wage
  - PERS costs (within PERS rules-employee share)
  - State/Federal Mandates

- Material and Supplies (Fuel)
- Jail Fees (Bookings)
- Golf Courses (Debt Service)
- Internal funds significantly underfunded
  - Building Internal Service Funds
  - Information Technologies Internal Service Funds
- Need to evaluate service levels

#### Past Service Level Reductions:

- As a service organization, people, not products drive our costs. To meet targets since 2010 the City has:
  - Reduced per capita staffing by 32%
  - Eliminated programs and reduced facility hours
  - Implemented memorandums of understanding with labor groups to reduce long term liabilities
  - Moved to contract services where appropriate
  - Complete efficiency audits in all departments

#### Service Level Reductions 2017/18:

- Eliminated goat grazing in General Fund
- Closed libraries and museum on Fridays
- Eliminated special events, such as 4th of July Fireworks
- Eliminated (6) vacant positions:
  - Community Services Officer
  - Recreation Leader
  - Parks Maintenance Worker
  - Associate Engineers (2)
  - Several part-time positions

#### Deferred Costs in FY2017/18 Budget:

- Building ISF (\$1.0 M)
- Technology ISF (\$1.7 M)
- Equipment Replacement (\$0.3 M)
- Parks, Recreation, Libraries CIP (\$1.2 M)
- Road Maintenance (\$5.0 M)
- Total Deferments = \$9.5 M

#### Delayed hiring of needed positions:

- Police, Public Works, Parks, IT, and Building Maintenance

Chief Information Officer Jay Panzica made the Fiscal Update presentation to Council.

#### Balancing the Budget:

- What is the shortfall?
- Balancing act between needs/wants/revenue
  - Must fund vs. Should fund vs. Would like to fund
- Revenue and Expense forecast independently
- Targets provided to departments for budgeting purposes
- Service level reductions were required to meet the targets
  - Example: reductions in park fertilizations

- Certain necessary costs were added to the budget
- Resulted in further reductions to balance the General Fund budget
- Understand and reaching consensus

#### FY 2018/19 Budget Development:

- Increases in revenue
  - \$2.2 M - Sales Tax
    - Continued growth, but continued slower growth
  - \$1.6 M - Property Tax
    - Continued strong growth
  - \$0.2 M - User Fees
    - EngageRoseville recommendation
  - \$2.0 M - Use of One Time Money
    - \$0.5 M forecasted plus \$1.5 M accumulated balance
    - General Fund contribution by developers
    - One time contribution to cover potential West Roseville Specific Plan shortfall in initial years
    - Unrestricted - can be used for any General Fund needs
  - \$0.7 M - Other revenue
  - \$6.7 M Total Revenue
- Increases in Expenses:
  - \$1.3 M - PERS
  - \$1.1 M - Salaries
    - Partial Year impact - Step increases
  - Council Policies
    - \$0.6 M - OPEB
    - \$0.5 M - CIPs
  - \$4.5 M - Cost Increases
  - (\$0.19 M) - Other
  - \$7.81 M Total

#### Cost Increases to Budget:

- \$100 K - Fire Staffing Audit recommended by Community Priorities Advisory Committee
- \$125 K - Labor negotiations consultant/compensation study
- \$100 K - Executive recruitments for retiring staff
- \$171 K - New parking garage operating costs
- \$ 22 K - Increased utility and facility costs at leased properties
- \$ 50 K - Additional police dispatcher (partial funds from re-class)
- \$326 K - Fire Department turnouts
- \$947 K - Eliminate Fire Operations vacancy factor
- \$500 K - Increase Fire Operations overtime
- \$2.20 M - Subsidize Golf Operations fund \$1.5 M estimated through June 2018 and and \$700 K for FY 2018/19 (\$2.0 M from West Roseville Specific Plan Development Agreement fund)
- \$4.5 M - Total

#### General Fund Contingency:

- \$1.2 M - Base Level
- \$0.675 M - Salaries

- Potential costs as a result of any adjustments due to goal of being at median
- Actual amount will be identified in the fall
- \$1.9 M = Total Contingency

FY 2017/28 Budget Development:

- Increased Revenue = \$6.07 M
- Increased Expenses = \$7.81 M
- Contingency Increase=\$0.68 M
  - Total= (\$1.79 M)

Additional Service Level Reductions Required = \$1.79 M

Wendy Gerig - spoke on CPAC recommendations and on questions on fire department overtime containment.

John Mason - spoke on consideration of conducting research on least cost method on delivery EMS service.

John Speight - spoke on revenue shortfalls and on service level reduction forecasting.

Bruce Houdesheldt - spoke to dynamic nature of budget and on nine recommendations made by CPAC and in support of a smaller version of CPAC members be kept to go forward.

Assistant City Manager Dominick Casey made the Level of Service Impacts presentation to Council.

Additional Proposed Service Level Reductions:

\$750 K - Fire Operational Changes

\$220 K - Elimination of Central Services Director

\$110 K - Eliminate vacant Executive Assistant in City Manager's Office

\$130 K - Youth School Office (Either new revenue or eliminate and move Police Officer to patrol)

\$130 K - Maidu Museum Reductions

\$450 K - Parks, Recreation, Libraries restructure/defunding (reductions = playground maintenance, pruning schedule, turf maintenance, Library Data Base, removal of portable restrooms, increased user fees, staff and service level reductions)

\$1.79 M Reductions

Other General Fund Departments:

- Reduced service levels in all departments
- Reduced safety consultant contract
- Adjusted employee recognition program and reduced from 2 to 1 employee appreciations lunches

Unfunded Needs 2018/19:

- No net increase in General Fund positions
  - Result: Continued reduction in service levels

- Deferred Maintenance in FY2019 = \$9.2 M
  - Carry Over funded \$4.0 M
  - Net FY 2017 Deferred Maintenance = \$5.2 M
- Deferred Maintenance in FY2018 = \$5.7 M
  - Reduced \$3.0 M from FY2017 due to Senate Bill 1 funding
  - Reduced \$0.5 M from FY2017 due to Council policy to increase CIP rehab fund
- Total deferred in FY2017 and FY2018 = \$10.9 M

Budget Development Schedule:

- Week of May 21, 2018 - City Council Receives budget
- June 4 & 5, 2018 - Budget hearings
- June 20, 2018 - Budget adoption

City Manager Rob Jensen concluded the presentation to Council.

Council direction requested:

- Approve the used on one time monies to fund golf course debt service
- Approve service level reductions as proposed by staff to balance FY2018/19 budget

Erica Crumley - thanked Council for their part in making Roseville a great place to live and spoke to development of botanical garden as revenue source.

Mike Garabidi - spoke to public safety culture and inquired in City has adopted a "public safety culture."

Bruce Houdesheldt - spoke to service levels and inquired on what's at stake if City doesn't meeting budget goals.

Mayor Susan Rohan stated the special budget workshop is being held to give staff direction and clarity on the development of the budget.

City Manager Rob Jensen stated very visible service level reductions will appear in the upcoming budget. Staff will continue to look for opportunities for reductions and revenues over the next five years.

Councilmembers made inquiries and comments on the following:

- Thanks to Community Priorities Advisory Committee
- Probable that new revenue options are needed
- Cuts to service levels are forthcoming
- Costs for annual new parking garage costs including security (utilities, graffiti abatement, painting)
- Golf course remedies due to declining revenues and debt service
- Restoration of revenue reserves (helpful if list is provided on reserve account balances)
- Examine selling parcels of the golf course that would not interfere with the operation of the golf course (much of property around the golf course is designated as preserve areas)
- Concern on further cutting Parks, Recreations and Libraries budgets
- Look to costs of public safety systems

- Look to sell other city owned properties rather than selling parcels around golf course

City Council consensus to move forward with level of service reductions as presented.

## **6. PUBLIC COMMENTS**

No additional public comments received.

## **7. COUNCIL / STAFF / REPORTS/ COMMENTS**

No Council/Staff/Reports made.

## **8. ADJOURNMENT**

Motion by Bonnie Gore, seconded by Tim Herman, to adjourn the meeting at 6:24 p.m. The Motion Passed.

Roll call vote: Ayes: Allard, Alvord, Gore, Herman, Rohan

---

Susan Rohan, Mayor

---

Sonia Orozco, City Clerk

## **Bids / Purchases / Services**

### **7.2. Sierra Crossing (W-50A) Park Project - Approval of Plans and Specifications and Authorize Staff to Call for Bids**

Memo from Park Development Analyst Joel De Jong and Parks, Recreation & Libraries Director Dion Louthan recommending Council approve the plans and specifications for the Sierra Crossing (W-50A) Park Project and authorize staff to call for bids. The project will include installation of multi-use turf, children's play area, swings, extension of the adjacent school parking lot, picnic area, landscaping and irrigation. The estimate for construction is \$1,246,915.00. Funds collected through the West Roseville Neighborhood Park Fund have been allocated for this park in FY2017-18. Maintenance costs will be approximately \$10,000/year/acre. The funding source for maintenance is provided through the West Roseville Community Facilities District for Service. There will be no General Fund impact.

## **Resolutions**

7.4. Regional Water Authority Drought Measures Project - Grant Agreement

Memo from Water Conservation Administrator Bobby Alvarez and Environmental Utilities Director Richard Plecker recommending Council adopt RESOLUTION NO. 18-108 APPROVING THE REGIONAL WATER AUTHORITY PROJECT AGREEMENT FOR REGIONAL WATER AUTHORITY DROUGHT MEASURES PROJECT. Staff recommends Council adopt a resolution ratifying the Regional Water Authority Project Agreement for the Regional Water Efficiency Drought Measures Project. The parties originally intended to execute the agreement in 2015, but due to personnel changes, the agreement was never taken to City Council for formal execution by the City. The Environmental Utilities – Water Efficiency Division has been actively receiving grant funding under this agreement since 2015 and the parties now seek to formally ratify the agreement.

7.5. Supervisory Control and Data Acquisition Systems Replacement Project – Professional Services Agreement Amendment

Memo from EIM Systems Coordinator Charles Aycock and Environmental Utilities Director Richard Plecker recommending Council adopt RESOLUTION NO. 18-101 APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND CH2M HILL ENGINEERS, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. This item requests that Council approve the First Amendment to the Professional Services Agreement with CH2M Hill Engineers Inc., for the Supervisory Control and Data Acquisition Systems Replacement Project, as required to complete final acceptance testing, integration services, and development of cyber policies and procedures for the Environmental Utilities Department. Total cost of the Agreement Amendment is \$280,150.00, with funds available in the Capital Improvement Project.

File #: 0800-02

CONTACT: Charles Aycock 916-746-1887 caycock@roseville.ca.us

7.6. Community Priorities Advisory Committee - Formal Dissolution

Memo from Development Services Manager Mike Isom and Assistant City Manager Dominick Casey recommending Council adopt RESOLUTION NO. 18-109 APPROVING THE DISSOLUTION OF THE COMMUNITY PRIORITIES ADVISORY COMMITTEE. The 20-member Community Priorities Advisory Committee (CPAC) was empaneled by the City Council on June 12, 2017. The CPAC meetings commenced in July 2017, and concluded on March 14, 2018. The Council accepted the CPAC Recommendations Report at its April 4, 2018 meeting. Now that the CPAC has successfully fulfilled the charge outlined in its guiding principles, it is recommended that the committee be formally dissolved.

7.7. Transportation Development Act Claim for FY2017-18

Memo from Financial Analyst Elizabeth Haydu and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 18-102 APPROVING AND AUTHORIZING EXECUTION OF THE 2017/18 TRANSPORTATION DEVELOPMENT ACT CLAIMS TO THE PLACER COUNTY TRANSPORTATION PLANNING AGENCY. This is a request of Council to authorize the City Manager or his designee to sign and submit the annual Transportation Development Act claim for FY2017-18 to the Placer County Transportation Planning Agency in an amount not to exceed \$8,709,204.00.

CC #: 9156

File #: 0721

CONTACT: Elizabeth Haydu 916-746-1302 ehaydu@roseville.ca.us

7.8. 2019 Residential Resurfacing Project - Road Maintenance and Rehabilitation Account Project Identification

Memo from Assistant Engineer Noah Siviglia and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 18-103 ADOPTING THE 2019 RESIDENTIAL RESURFACING PROJECT FUNDED BY SENATE BILL 1: THE ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017. Local agencies are required to list all proposed projects scheduled to receive Senate Bill 1 funding by resolution prior to receiving an apportionment of Road Maintenance and Rehabilitation funds in a fiscal year. This item identifies the City's 2019 Residential Resurfacing Project for use of the 2019 funding allotment from the fund. The project will apply a maintenance surface treatment to various residential streets within the Woodcreek Oaks, Foothills Junction, Los Cerritos, Roseville Heights, South Cirby, and Maidu neighborhoods. The project is fully funded by \$2.25 million from the RMRA Fund with the remaining costs covered by Highway Users Tax and Roadway Funds. No General Funds will be used on this project.

CC #: 9161

File #: 0900-04-01

CONTACT: Noah Siviglia 916-746-1379 nsiviglia@roseville.ca.us

7.9. Grant Authorization for Transit Fleet Replacement

Memo from Financial Analyst Elizabeth Haydu and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 18-100 AUTHORIZING CITY MANAGER OR HIS DESIGNEE TO SUBMIT LOW CARBON TRANSIT OPERATIONS PROGRAM GRANT APPLICATIONS AND TO EXECUTE THE RELATED GRANT APPLICATIONS, FORMS AND AGREEMENTS. Staff recommends Council approve a resolution authorizing the City to apply for FY2017-18 Low Carbon Transit Operations Program grant funds in the amount of \$142,494.00 to fund the purchase of up to four zero-emission

electric transit buses, and to execute the related forms and agreements. Matching funds for the project will be provided through the Local Transit Fund. General Fund monies will not be used for this project.

CC #: 9150

File #: 0214

CONTACT: Elizabeth Haydu 916-746-1302 ehaydu@roseville.ca.us

7.10.Dry Creek Greenway Multi-use Trail - Professional Design Services Agreement Amendment

Memo from Alternative Transportation Manager Michael Dour and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 18-99 APPROVING A FIRST AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND PSOMAS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff is requesting Council approve the First Amendment to the Professional Design Services Agreement with PSOMAS for the Dry Creek Greenway Multi-use Trail Project. The amendment would fund additional environmental services and project management services totaling \$76,095.00. This cost is funded with Transportation Development Act funds already budgeted for the project. No General Funds are involved.

CC #: 9149

File #: 0721-05

CONTACT: Michael Dour 916-746-1304 mdour@roseville.ca.us

7.11.North Central Roseville Specific Plan Parcel 44 Broadstone Senior Apartments Transit Bus Shelter - Construction Fee Agreement

Memo from Administrative Technician Anita Giordano and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 18-106 APPROVING A TRANSIT BUS SHELTER CONSTRUCTION FEE AGREEMENT BETWEEN CITY OF ROSEVILLE AND CORDOVA 83 PROPERTIES, LLC, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. The construction fee agreement is for the construction of bus shelter #241 on Gibson Drive. A condition of approval of the tentative map for the Broadstone Senior Apartments located at 1035 Roseville Parkway requires the developer to install or fund the installation of one bus shelter on Gibson Drive. The construction fee of \$10,000.00 provides security for bus shelter #241 to be installed with no fiscal impact to the City's General fund or the Alternative Transportation Division's Transportation Development Act funds.

**Ordinances (for introduction and adoption - appropriation/urgency measures)**

#### 7.12.Fire Department Strike Team - Budget Adjustment

Memo from Administrative Analyst Katrina Rostam and Fire Chief Rick Bartee recommending Council adopt ORDINANCE NO. 5949 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. The Fire Department sends resources to assist in the management and control of large emergency incidents that occur throughout the region every year. The requested budget adjustment in the amount of \$631,724.00 is reimbursement for staff, vehicles, and overhead associated with expenses incurred for this fiscal year to date. Since the expenses are reimbursed, there is no net effect on the General Fund.

CC #: 9148

File #: 0324 & 0201-01

#### 7.15.RG Phillips (F-52) Park Master Plan Approval

Memo from the Park Planning & Development Superintendent Tara Gee and Parks, Recreation & Libraries Director Dion Louthan recommending Council approve the RG Phillips (F-52) Park Master Plan. This 6-acre park site is located in the West Roseville area off of Fiddymont Road and Old Coach. The master plan proposes a design that includes a children's play and swing area, shaded picnic, two half courts for basketball a horseshoe court and a bocce ball court. A multi-use turf area is in the middle of the park and a perimeter walkway that connects to the existing bike trail is also integrated. The budget for the construction of the park is approximately \$1.1 M. The Estimate of Probable Costs for the proposed design meets the budget. Maintenance costs would be approximately \$10,000.00 an acre per year. The funding source for maintenance is provided through the West Roseville Community Facilities District for Service. There is no General Fund impact.

## **8. RESOLUTIONS**

### **8.1. Housing Successor and City Council - Homeless Prevention and Rapid Rehousing Funding Allocations**

Memo from Housing Manager Danielle Foster and Acting Economic Development Director Laura Matteoli recommending Council adopt RESOLUTION NO. 18-105 APPROVING FUNDING RECOMMENDATIONS AND AUTHORIZING THE CITY MANAGER OR DESIGNEE TO EXECUTE GRANT AGREEMENTS ON BEHALF OF THE CITY OF ROSEVILLE. This item will allocate \$250,000.00 of City low/moderate housing funds and any funding awarded by Sutter Health to be used for Homeless Prevention and Rapid Rehousing services. The budget for these grants is comprised of service-specific funding and already budgeted for this purpose.

CC #: 9163

File #: 0709-05 & 0214

CONTACT: Danielle Foster 916-774-5446 dfoster@roseville.ca.us

Housing Manager Danielle Foster made the presentation to Council.

Keith Diederich, CEO of the Gathering Inn - spoke in support of collaboration and on ranking grants based on out-comes.

Barbara Besana, Executive Director of Kids First - spoke in support of funding and thanked the City Council.

Jenny Davidson, Executive Director of Stand-Up Placer, thanked Council for award and spoke in support of funding the organizations in the community serving a large percentage of citizens.

Following Council discussion, consensus was reached to have staff report back with a procedure to measure grant outcomes with simple metrics to evaluate effectiveness of award.

Motion by Tim Herman, seconded by John Allard, to adopt RESOLUTION NO. 18-105 APPROVING FUNDING RECOMMENDATIONS AND AUTHORIZING THE CITY MANAGER OR DESIGNEE TO EXECUTE GRANT AGREEMENTS ON BEHALF OF THE CITY OF ROSEVILLE. The Motion Passed.

Roll call vote: Ayes: Allard, Alvord, Gore, Herman, Rohan

## **9. ORDINANCES**

### **9.1. Chief Financial Officer Compensation**

Memo from Human Resources Director Gayle Satchwell recommending Council adopt RESOLUTION NO. 18-107 APPROVING THE REVISED MEMORANDUM OF TERMS, CONDITIONS AND UNDERSTANDINGS REGARDING MANAGEMENT AND CONFIDENTIAL EMPLOYEES; and adopt ORDINANCE NO. 5951 OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING ORDINANCE NO. 5942, THE SALARY ORDINANCE FOR MANAGEMENT EMPLOYEES, AS AMENDED BY APPENDIX "S" TO BE EFFECTIVE APRIL 14, 2018, AS AN URGENCY MEASURE. Staff recommends the approval of the Management salary schedules to reflect an increase in the salary range for the Chief Financial Officer (CFO) to be comparable to the Acting City Manager salary range in order to support continuity during the transition of a new City Manager. This increase is an interim action and the salary will return to its current level upon the retirement of the incumbent. Staff also recommends the approval of an amended Management and Confidential Terms, Conditions and Understanding to include a one-time allocation of 65 hours of management leave for the CFO. The temporary increase of the CFO compensation will result in an annual cost of \$13,066.97 and \$3,015.46 for FY2017-18. The cost will be funded through the General Fund Contingency Fund.

## **12. COUNCIL / STAFF / REPORTS/ COMMENTS**

Stand Up and Dance 2018/Stand Up Placer - Councilmember Scott Alvord spoke on learning to dance for a competition program and fundraising event for survivors of domestic violence, sexual assault and human trafficking in Placer County.

Senate Bill 54 - Vice Mayor Bonnie Gore requested Council consider and take a position on an item requesting Roseville comply with Federal immigration laws declaring the City does not constitute itself as a sanctuary state/jurisdiction. No consensus was reached for a future agenda item. City Manager was directed to check with local law enforcement agencies on challenges they face related to Senate Bill 54 and to hear from the City Attorney on any legal sanctuary issues in neighboring jurisdictions.

Community Priorities Advisory Committee - Councilmember John Allard expressed appreciation.

City Manager Rob Jensen Last City Council Meeting - City Manager Rob Jensen was applauded for his contributions and an announcement was made that it would be his last City Council meeting as Acting City Manager Dominick Casey would be taking all future meetings.

## **13. ADJOURNMENT**

#### **6.2. Utility Rebate Processing, Payment, and Reporting System - Service Agreement**

Memo from Electric Business Analyst Renee Laffey and Electric Utility Director Michelle Bertolino recommending Council adopt RESOLUTION NO. 18-115 APPROVING A SERVICE AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND CRMORBIT, INC. DBA ENERGY ORBIT, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON

BEHALF OF THE CITY OF ROSEVILLE (S1904014). EnergyOrbit is a cloud hosted process flow software designed to support the utility rebate tracking, payment and reporting system for utility energy efficiency and water conservation rebates. The cost of the hosted database, development work and customer support will not exceed \$260,700.00 over a three-year period. Annual funding for this agreement will be included in the Roseville Electric and Environmental Utilities FY2018-19, FY2019-20 and FY2020-21 budget requests and is expressly contingent upon the adoption of these budgets by the City Council.

#### 6.3. Extrication Equipment - Purchase Order

Memo from Assistant Fire Chief Brian Diemer and Fire Chief Rick Bartee recommending Council approve the purchase of two pieces of extrication equipment, more commonly known as the Jaws of Life for \$169,006.78. The purchase from Holmatro Rescue Tools will be through the use of the Master Price Agreement as a qualified government member (M-5690891) of National Purchasing Partners under Oregon Chapter 190 (Contract #PS107007). This is a publicly solicited contract established through an RFP (RFP #1605) process conducted by a Lead Public Agency. The funds for purchase were allocated and approved on December 20, 2017, by Council as part of the FY2017 ending fund balance budget adjustment at \$200,000.00.

Removed by Councilmember Tim Herman for clarification.

Fire Chief Rick Bartee made the presentation to Council.

No public comment received.

Motion by Tim Herman, seconded by Bonnie Gore, to approve the purchase of fourteen thermal imaging cameras for \$60,690.63. The Motion Passed.

Roll call vote: Ayes: Allard, Alvord, Gore, Herman, Rohan

6.5. Maidu Covered Soccer Arena Artificial Turf Replacement - Service Agreement

Memo from Park Development Analyst Rjahja Canlas and Parks, Recreation & Libraries Director Dion Louthan recommending Council adopt RESOLUTION NO. 18-124 APPROVING A SERVICE AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND FIELDTURF USA, INC., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (S1809351). This is a request of Council to approve a service agreement with FieldTurf USA in the amount of \$131,607.59 and authorize the Parks, Recreation & Libraries Director to approve change order requests in an amount not to exceed 10% of the contract amount. The scope of work includes removal and replacement of the artificial turf at the covered soccer arena at Maidu Park. The project was approved in FY2017-18 using funds from the Parks, Recreation & Libraries Capital (Rehab) Fund. Ongoing maintenance costs are anticipated to stay the same, and are already included in the FY2017-18 Parks, Recreation & Libraries budget.

## **Resolutions**

### **6.8. Survey of Registered Voters - First Amendment to Professional Services Agreement**

Memo from Acting City Manager Dominick Casey recommending Council adopt RESOLUTION NO. 18-157 APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND GODBE CORPORATION, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. On April 19, 2017, the City Council directed staff to proceed with a broad community engagement effort known as "Engage Roseville" to involve residents, businesses, and others who have a stake in Roseville's quality of life, in prioritizing city services and developing options to align service levels with revenues. Engage Roseville was designed as a multi-faceted engagement and education program. As a result of the report out on March 14, 2018 City Council's meeting staff was provided direction to conduct further research and implementation of revenue strategies, including scientific public opinion polling. This project will be funded out of the Strategic Improvement Fund and will require an additional \$21,450.00 for a total of \$37,050.00.

### **6.9. On-Call Material Testing Services - Second Amendment to Professional Services Agreement**

Memo from Senior Engineer Jose Lopez and Development Services Director Kevin Payne recommending Council adopt RESOLUTION NO. 18-118 APPROVING A SECOND AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND BLACKBURN CONSULTING, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. This item requests approval of a second amendment to extend the professional services agreement with Blackburn Consulting for an additional year of on-call materials testing services. The not-to-exceed amount of \$800,000.00 approved by Council On October 4, 2017, remains unchanged. There is no impact to the General Fund as work to be performed is reimbursable through private parties or capital improvement budgets.

6.15. Laurel T. Stizzo (F-50) Park Project - Notice of Completion

Memo from Park Development Analyst Rjahja Canlas and Parks, Recreation & Libraries Director Dion Louthan recommending Council adopt RESOLUTION NO. 18-111 ACCEPTING THE PUBLIC WORK KNOWN AS THE LAUREL T.

STIZZO (F-50) PARK PROJECT, APPROVING THE "NOTICE OF COMPLETION", AND AUTHORIZING THE PARKS, RECREATION & LIBRARIES DIRECTOR TO EXECUTE SAID NOTICE ON BEHALF OF THE CITY OF ROSEVILLE. The Parks, Recreation & Libraries Department has made a final inspection of the Laurel T. Stizzo (F-50) Park Project and has found that all contract work has been completed in accordance with the improvement plans and specifications. The project is now ready for acceptance. The project scope of work included installation of multi-use turf, children's play area, swings, adult fitness equipment, parking lot, picnic area, landscaping and irrigation. In accordance with City specifications, the contractor shall guarantee the installation of these improvements for a period of twelve (12) months from the date of this Notice of Completion. The project was funded with monies from the West Roseville Specific Plan Park Development Fund. Funding for maintenance will be through the Westpark Community Facilities District for Services. There is no impact to the General Fund.

## **Ordinances (for introduction and adoption - appropriation/urgency measures)**

### **6.20. On-Call Material Testing Services - First Amendment to Professional Services Agreement and Budget Adjustment**

Memo from Senior Engineer Jose Lopez and Development Services Director Kevin Payne recommending Council adopt RESOLUTION NO. 18-117 APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND ENGEO, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt ORDINANCE NO. 5959 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. This item requests approval of a first amendment to the professional services agreement with EnGeo and recommends Council adopt an ordinance to approve a budget adjustment for \$500,000.00 to continue receiving on-call materials testing services for an additional year. Funding is provided by Full Cost Consolidated Billing.

### **6.21. Hazardous Materials Classes and Supplies - Budget Adjustment**

Memo from Battalion Chief Matt Lauchner and Fire Chief Rick Bartee recommending Council adopt ORDINANCE. NO. 5953 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. The budget adjustment is for a combined revenue of \$139,800.00 with an equivalent amount of \$139,800.00 in expenses directly related to teaching specialized hazardous materials classes, creating/maintaining related props, and replenishing disposable supplies. There is no impact on the General Fund.

6.25. Miner's Ravine Bike Trail Creek Bank Erosion Repair Project: Budget Adjustment, Contract Award and Execution of Agreement

Memo from Assistant Engineer Cathy Gosalvez and Public Works Director Rhon Herndon recommending Council adopt RESOLUTION NO. 18-129 APPROVING AN AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND DLB, INC., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt ORDINANCE NO. 5962 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY

EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council award the Miner's Ravine Bike Trail Creek Bank Erosion Repair Project to the lowest responsive bidder, DLB, Inc. in the amount of \$170,950.00, adopt a resolution to authorize the Acting City Manager to execute and authorize the Public Works Director a 15% change order authority, and adopt an ordinance to approve a \$200,000.00 budget adjustment from the Transportation Fund to the project account. The project will restore the creek bank with rock filled gabions and rock slope protection to prevent structural damage to the bike trail. The cost of the project is \$170,950.00 and will be paid for with local transportation funds.

Councilmember Scott Alvord left the dais due to potential conflict of interest with Roseville Coalition of Neighborhood Associations and Roseville Police Activities League and did not participate in the vote for the two entities.

Motion by Tim Herman, seconded by John Allard, to approve the Roseville Grants Advisory Commission's recommendation to award funding in the amount of \$4,025.00 to Roseville Coalition of Neighborhood Associations and \$14,166.67 to Roseville Police Activities League. The Motion Passed.

Roll call vote: Ayes: Allard, Gore, Herman, Rohan

Absent: Alvord

Councilmember Scott Alvord returned to the dais.

Motion by Tim Herman, seconded by Susan Rohan, to approve the Roseville Grants Advisory Commission's recommendation for funding of the remaining agencies as presented and include \$415,500.00 in the FY2018-2019 City of Roseville Budget along with the list of grant recipients; and remove Roseville Home Start from the approved list of recipients holding off funding until staff can report back with additional information on capacity issues; and to approve recommendation of proposed adjustments for future funding cycles with Council consensus for staff to report back with information on possible fee allocation to be

implemented to recoup staff time/work on the grants process. The Motion Passed.

Roll call vote: Ayes: Allard, Alvord, Gore, Herman, Rohan

## **9. PUBLIC HEARING**

### **9.1. 2018 Weed Abatement - Public Hearing**

Memo from Fire Inspection Supervisor Rob Arnett and Fire Chief Rick Bartee recommending Council adopt RESOLUTION NO. 18-110 ORDERING THE DESTRUCTION OR REMOVAL OF ALL WEEDS, DIRT, RUBBISH AND RANK GROWTHS IN THE CITY OF ROSEVILLE, AND OVERRULING ANY AND ALL OBJECTIONS THERETO. On March 21, 2018, the City Council approved a resolution declaring all weeds, rubbish, dirt and/or rank growths a public nuisance. It also set the date, time, and place for the required public hearing. This resolution is the second and final step necessary to initiate the 2018 Weed Abatement Program. Owners of private parcels that are abated by the City are responsible for the costs associated with providing abatement services. A bill is sent to each property owner detailing the abatement costs, as well as an administrative fee. If the property owner fails to pay the bill, the City places a lien on the subject property and the monies owed are reimbursed through the property tax collection process.

Roll call vote: Ayes: Allard, Alvord, Gore, Herman, Rohan

### **9.2. Adoption of Master Schedule of User and Regulatory Fees**

Memo from Administrative Analyst Jeannine Thrash and Finance Director Dennis Kauffman recommending Council adopt RESOLUTION NO. 18-116 ADOPTING A MASTER SCHEDULE OF USER AND REGULATORY FEES, EFFECTIVE

JULY 1, 2018 THROUGH JUNE 30, 2019. The proposed fee schedule, effective July 1, 2018, through June 30, 2019, is based on the results of a user and regulatory fee study completed in April 2018. The report is included as an attachment to this City Council communication. There are proposed increases of more than five percent for Minor Special Event Application Fee, Major Special Event Application Fee, Banner Hanging Fee, and Non-Residential Development Impact Fee. The new fees proposed are Development Agreement Review/Compliance Fee, Fee for Environment Utilities Review of Tenant Improvements, Fire Prevention Fees to Distinguish Between Fees for Services Provided Directly by City Staff v. Fees for Services Provided by City Staff in Conjunction with a City-Approved Contractor, and Fire Prevention Fee for Underground Storage Tank System Cold Start. The fiscal impact of the proposed fee schedule is approximately \$175,000.00 in additional revenue. It is important to note that while adjusting fees will provide a fiscal impact in the form of additional revenue, the revenue is not intended to be used to fund new services, rather the revenue is intended to offset the costs of providing existing services that are recoverable from fees. Consequently, while fees may rise annually, typically labor costs (the primary driver of fee-related costs) also rise annually. Recalibration of these fees simply provides an offset of existing expenditures/needs rather than a source of funding for expanded service levels.

9.3. Resolution of Formation - Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities)

Memo from Administrative Analyst Jeannine Thrash and Finance Director Dennis Kauffman recommending Council adopt RESOLUTION NO. 18-119 OF FORMATION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE TO

FORM VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES) AND FUTURE ANNEXATION AREA; and adopt RESOLUTION NO. 18-120 DETERMINING NECESSITY TO INCUR BONDED INDEBTEDNESS OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE FOR VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES); and adopt RESOLUTION NO. 18-121 CALLING SPECIAL ELECTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE REGARDING VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES); and adopt RESOLUTION NO. 18-122 DECLARING RESULTS OF SPECIAL ELECTION AND DIRECTING RECORDING OF NOTICE OF SPECIAL TAX LIEN REGARDING VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES); and adopt ORDINANCE NO. 5960 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE LEVYING SPECIAL TAXES WITHIN CITY OF ROSEVILLE VILLAGES AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES). On March 21, 2018, the City Council adopted Resolution of Intention 18-86, to Form a Community Facilities District (CFD) and Levy a Special Tax in Villages at Sierra Vista Community Facilities District No. 1 (Public Facilities), and set Wednesday, May 2, 2018 at 7:00p.m as the time and place to conduct the public hearing. The CFD will generate special taxes that will be paid by the property owners sufficient to pay the costs for debt service, CFD administration, and any authorized pay-as-you-go facilities. The purpose of the Public Hearing for Villages at Sierra Vista CFD No. 1 (Public Facilities) and these proceedings are to: 1) hear all interested persons on matters pertaining to the formation of the CFD; 2) set the maximum amount of bonds that can be sold over the life of the CFD; 3) call a special election of the eligible voters in the CFD (landowners); and 4) declare the election results and direct the City Clerk to record a Notice of Special Tax Lien at the County of Placer. The formation and administration of the CFD will not impact the City's General Fund.

## COUNCIL COMMUNICATION

**CC #: 9291**  
**File #: 0203-04**

**Title:** Copy and Printing Services - Service Agreement Amendment  
**Contact:** Michael Sinor 916-774-5183 msinor@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.2.**

### RECOMMENDATION TO COUNCIL

Staff recommends City Council adopt a resolution approving a second amendment to the service agreement with Ray Morgan, Inc. for copy and printing services, and authorizing the Acting City Manager to execute it. Ray Morgan Company currently provides copy and printing services to all City departments. The contract amendment will allow the City to extend the contract on a month to month basis, with an expiration date not to exceed December 31, 2018. The total amount of the amended contract over 31 months is \$675,000.

### BACKGROUND

The City requires the use of copiers and printers to carryout daily business functions. However, it is cost prohibitive for the City to own and maintain this equipment. The City began a competitive Request for Proposals (RFP) process in 2018 to select a new vendor for these services. The City intends to enter into contract negotiations with the top ranked vendor in June 2018. However, City staff will require additional time to complete the RFP and contract negotiation process. Staff recommends addressing the City's immediate needs by amending the current agreement to include month to month payment terms and an expiration date not to exceed December 31, 2018. This will allow the City to subsequently complete a competitive procurement process and select a vendor to provide copying and printing services that align with the City's current business needs.

### FISCAL IMPACT

Total estimated cost for this service is \$675,000. Funding is provided by the operating budgets for all City departments.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

## ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). This amendment does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Michael Sinor, Assistant Information Technology Director

Hong Sae, Chief Information Officer

## COUNCIL COMMUNICATION

**CC #: 9310**  
**File #: 0203-06**

**Title:** Utility Billing Integrated Voice Response System - Service Agreement Renewal  
**Contact:** Duke Arakaki 916-774-5212 darakaki@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.3.**

### RECOMMENDATION TO COUNCIL

Staff recommends City Council authorize a sole source service agreement renewal with Selectron Technologies, Inc. for technical support of Utility Billing's Integrated Voice Response (IVR) system in the amount of \$26,725.00. The IVR software provided by Selectron Technologies, Inc. will continue to be the IVR used for Utility Billing into the foreseeable future. Therefore, staff requests authorization for three additional one-year renewals without further Council approval, subject to approval of the budget for this item for each fiscal year, or until staff determines it is no longer in the best interest of the City to continue with this vendor.

### BACKGROUND

Selectron's VoiceUtility is the Integrated Voice Response (IVR) solution for the City. The VoiceUtility is used by utility billing customers to check account balances and pay via the phone. Selectron will provide software and technical support to keep the IVR current.

### FISCAL IMPACT

Total estimated cost for this service is \$26,725.00. Sufficient funds for this purchase are included in IT Department's FY2017/18 fiscal year ISF-Internal Service Fund budget. Estimated yearly expenditures are \$27,525.00 for FY 2018/19, \$28,350.00 for FY2019/20 and \$29,200.00 for FY2019/20, and are all contingent upon budget approvals.

### ECONOMIC DEVELOPMENT / JOBS CREATED

There is no economic development or job creation from this service agreement.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Approval of a service agreement for an integrated voice response system does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Rob Jensen, City Manager  
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Consultant agrees to indemnify, including the cost to defend City, and its officers, agents, employees and volunteers from any and all claims, demands, costs or liability that arise out of, or pertain to, or relate to the negligence, recklessness, or willful misconduct of Consultant and its agents in the performance of services under this contract, but this indemnity does not apply to liability for damages for death or bodily injury to persons, injury to property, or other loss, arising from the sole negligence, willful misconduct or defects in design by City or the agents, servants, or independent contractors who are directly responsible to City, or arising from the active negligence of City. Consultant's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Consultant is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Consultant either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Consultant is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Consultant has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Consultant shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Consultant shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Consultant shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of Consultant. The additional insured coverage under the Consultant's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:

- (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Consultant shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subconsultants. Consultant agrees to include in its contracts with all subconsultants the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subconsultant's work. Furthermore, Consultant shall require its subconsultants to agree to be bound to Consultant and City in the same manner and to the same extent as Consultant is bound to City under this Agreement. Additionally, Consultant shall obligate its subconsultants to comply with these same provisions with respect to any tertiary subconsultant, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subconsultant or tertiary subconsultant upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Consultant hereby agrees to waive subrogation which any insurer of Consultant may acquire from Consultant by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Consultant, its employees, agents and sub consultants.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Consultant of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Consultant shall comply with all federal, state, local laws, ordinances and policies as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement.
12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California,

regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor" and "Consultant" are used interchangeably.
18. Consultant agrees that any and all information furnished by City shall be deemed proprietary and confidential. All such information, to the extent previously, presently or subsequently disclosed to Consultant and/or processed and derived by Consultant services is the property of City and such property shall be deemed and treated as "Confidential Information" of City. Consultant acknowledges that such Confidential Information may contain information provided and/or generated by third-parties. Consultant agrees that such Confidential Information shall not be disclosed to any third party without written permission from City, except as required by law. Consultant shall not use the Confidential Information except to perform Consultant's services as directed by City.
19. All facilities, devices, networks and services used to store, deliver, process, backup or purge Confidential Information will employ administrative, physical, technical, and procedural safeguards and best practices at a level sufficient to secure Confidential Information from unauthorized access, destruction, use, modification, or disclosure. Such measures will be no less protective than those used to secure Consultant's own information of a similar type, and in no event less than reasonable in view of the type and nature of the information involved. It is the City's expectation that Consultant, at its own expense, shall perform annual audits for any data centers that house Confidential Information, using an independent third-party audit that meets industry standards applicable to the services under this Agreement, and provide the audit report or certification upon request to City.
20. Consultant will retain Confidential Information until deleted by City or City-authorized third party, or for a time period mutually agreed upon by the parties to this Agreement.
21. Upon termination or expiration of this Agreement, Consultant will ensure that all Confidential Information is securely transferred to City within thirty (30) calendar days. Consultant will ensure that any transfer of Confidential Information is accomplished by methods that are compatible with the relevant City systems, and that City will have access to all Confidential Information during any such transfer. Consultant shall securely dispose of all Confidential Information when requested by City and Consultant will provide written notification to City once all Confidential Information has been securely disposed of.
22. Consultant shall report to City any data compromise or unauthorized access to Confidential Information within twenty four (24) hours after Consultant discovers such data compromise or unauthorized access. Consultant will take commercially reasonable measures to address any such data compromise or unauthorized access in a timely manner. Except as otherwise required by law, Consultant will not provide notice to end users or other entities of any such data compromise or unauthorized access without written permission from City. Consultant will promptly reimburse City in full for all fees and costs incurred by City in any investigation, remediation or litigation resulting from any such data compromise or unauthorized access, including identity protection and restoration services for each person, who in the City's sole discretion, could be impacted by identity theft.
23. Consultant may not advertise that City is a client, list City as a reference or otherwise use City's name, logos, trademarks, or service marks without prior written permission from City.

24. Consultant acknowledges that services rendered under this agreement (including but not limited to service levels and operational levels) shall be performed in accordance with industry standards.
25. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
26. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

|                                                                                                                                                        |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>City reserves the right to withhold any payments to Consultant in the event of noncompliance with insurance requirements or if required by law.</p> |

## PremierPro Support and Maintenance Agreement

This Support and Maintenance Agreement (this "Agreement") is entered into upon commencement of the Service Date between Selectron Technologies, Inc. ("Company") and the City of Roseville ("Customer").

For the fees specified below, Company will provide to Customer support and maintenance for the Products, as outlined below and as set forth in Exhibit A, for the term of the Agreement.

### 1. Term:

a) The Term of this Agreement shall be twelve months. A list of the Products is attached as Exhibit A.

### 2. Renewal:

a) The Term of this Agreement will automatically renew for successive terms of one year each unless either party gives written notice of non-renewal prior to thirty (30) days before the end of the then-current term.

b) The Customer shall maintain continuous coverage of its support contracts in order to be eligible for telephone support, and other services provided hereunder. If this Agreement is not renewed and the Customer later decides to reinstate support services, the Customer must pay all fees that would otherwise have been paid had this Agreement been renewed without interruption.

c) The Customer may request concurrent expiration dates for support agreements purchased at different times of the year. The Customer must work directly with Company to adjust (prorate) their support coverage so the terms of all such agreements expire concurrently.

### 3. Termination:

This Agreement may be terminated by either party upon ninety (90) days written notice to the other party. Upon termination by Company without cause or by Customer for material breach, Company will refund any fees paid for months subsequent to termination.

### 4. Fees:

The Customer shall prepay Company an annual fee for the support services as set forth in Exhibit A.

### 5. Support Services:

Company shall provide customer support for technical problems that occur when using the Products. This Agreement does not include support of the following items:

- a) Altered or modified Software not performed by Company.
- b) Errors caused by the Customer's negligence, or other causes beyond Company's reasonable control.

- c) Version Upgrades of Host or backend database software.
- d) Direct support for the required Application Program Interface either purchased or procured as part of the integrated solution.
- e) Enhancements, replacements, or modifications to current versions performed at the Customer's request and not intended to resolve a product failure.
- f) Services, support, and configuration of passive fail-over server (unless expressly purchased and listed in Exhibit A).

These professional services may be provided based on current published rates for Time and Material or fixed bid quote. Customers with Support Agreements in which all fees are current receive preferred rates for both standard and after hours professional services.

Company will directly handle the Customer Issues outlined in the following levels of support.

### 6. Support and Maintenance:

The fee for PremierPro Support Includes:

- a. Telephone Support for general use questions during normal business hours (6:00 a.m. to 5:00 p.m. Pacific Time, Monday through Friday).
- b. Use of Company's Toll Free Number
- c. On-Line technical diagnostic support
- d. Software correction upgrades
- e. 1 business day relief goal
- f. 24 Hours, 7 days per week, 365 days per year support for emergency (system down or inoperable) calls
- g. Development work necessary to support standard updates to your Host database (i.e. land management software, utility billing software, etc...) and back-end database. This requires two (2) weeks notice prior to planned system upgrade in order to accommodate scheduling of resources. Please contact support@STIgov.com to schedule.
- h. Quarterly Proactive System Review. Selectron will perform the following system diagnostics and create a history file and notify the primary

Customer contact with the results of these actions:

1. Assess the current machine resources including memory, processor, and disk-space utilization
  2. Examine log files including error logs to identify any anomalous entries
  3. Apply current validated software updates to the operating system, device drivers, and database server software.
- i. 'Out-of-cycle' critical updates. Updates that meet these criteria are failures that might be likely to cause hardware damage, system unavailability, data corruption, or severe data vulnerability.

Non-emergency calls made after normal business hours will be billed at an hourly rate of 1.5 times the current day labor rate, with a two hour minimum charge.

#### **7. Hardware Maintenance:**

Company, at its sole discretion, may use new or refurbished parts for the repair of any Company provided Hardware.

#### **8. Customer Warranty:**

Customer shall perform all necessary preventative maintenance as outlined in Company's Administrative Guide. If Customer's failure to perform the required preventative maintenance is determined, in Company's reasonable discretion, to be the cause of any support call, Customer will be billed at the current hourly rate.

#### **9. Response Times:**

Non-emergency support calls will be responded to within one business day, however most calls are handled within two hours of receipt. For Premier Support during non-business hours, an answering service takes all support calls. Calls that are placed as an emergency (system down or inoperable) will be dispatched to the on-call support staff for response within four hours. Non-emergency calls will be directed to support personnel, and will be responded to the next business day.

#### **10. Customer Contacts:**

Three customer support contacts are allowed. Additional contacts may be added at any time for an additional \$500.00 per contact. Only Customer's customer support contacts may contact Company for support services.

Customer's customer support contacts are as set forth on Exhibit A. Customer may change its customer support contacts upon 30 days written notice to Company.

#### **11. Warranty Disclaimer:**

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE PRODUCTS AND SERVICES PROVIDED HEREUNDER ARE PROVIDED TO CUSTOMER "AS IS" AND COMPANY AND ITS SUPPLIERS DISCLAIM ALL OTHER

WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. No employee, agent, dealer or distributor of Company is authorized to modify this limited warranty, or make any additional warranties.

#### **12. Limitation of Liability:**

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT WILL COMPANY BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, EXEMPLARY, SPECIAL OR INCIDENTAL DAMAGES, INCLUDING ANY LOST DATA AND LOST PROFITS, ARISING FROM OR RELATING TO THIS AGREEMENT. COMPANY'S TOTAL CUMULATIVE LIABILITY IN CONNECTION WITH THIS AGREEMENT AND THE SERVICES PROVIDED HEREUNDER, WHETHER IN CONTRACT OR TORT OR OTHERWISE, WILL NOT EXCEED THE AMOUNT OF FEES PAID TO COMPANY HEREUNDER. CUSTOMER ACKNOWLEDGES THAT THE FEES REFLECT THE ALLOCATION OF RISK SET FORTH IN THIS AGREEMENT AND THAT COMPANY WOULD NOT ENTER INTO THIS AGREEMENT WITHOUT THESE LIMITATIONS ON ITS LIABILITY.

#### **13. Customer Remedies:**

If Company materially fails to perform its obligations under this Agreement, and such failure results in downtime of the relevant hardware and software that exceeds 48 hours, Customer's remedy, and Company's liability, shall be a pro rata refund for the services ("Downtime Credit"). In no event shall any Downtime Credit or the total cumulative damages for a breach of this Agreement by Company be more than the amounts previously paid by Customer under this Agreement in the 12 month period immediately preceding the Downtime Credit or breach.

#### **14. Severability:**

If any provision of this Agreement is unenforceable, such provision will be changed and interpreted to accomplish the objectives of such provision to the greatest extent possible under applicable law and the remaining provisions will continue in full force and effect. Without limiting the generality of the foregoing, Customer agrees that Sections 12 and 13 will remain in effect notwithstanding the unenforceability of any provision in Section 11.

#### **15. Force Majeure:**

Any delay in the performance of any duties or obligations of either party (except the payment of money owed) will not be considered a breach of this Agreement if such delay is caused by a labor dispute, shortage of materials, fire, earthquake, flood, or any other event beyond the control of such party, provided that such party uses reasonable efforts, under the circumstances, to notify the other party of the circumstances causing the delay and to resume performance as soon as possible.

#### **16. Independent Contractors:**

The relationship between Customer and Company is that of an independent contractor, and neither party is an agent or partner of the other. Customer or Company will not have, and will not represent to any third party that it has, any authority to act on behalf of either party.

**17. Governing Law and Venue:**

This Agreement will be governed by the laws of the State of California. The United Nations Convention on Contracts for the International Sale of Goods does not apply to this Agreement. Any action or proceeding arising from or relating to this Agreement must be brought in the federal or state court located in Placer County, California.

**18. Attorney's Fees:**

In the event of litigation between Customer and Company concerning this Agreement, the prevailing party in the

litigation shall be entitled to recover attorneys' fees and expenses from the losing party.

**19. Survival.**

Sections 11, 12, 13, 14, 16, 17, 18, 19 and 20 will survive expiration or termination of this Agreement

**20. Entire Agreement:**

This Agreement and the attached Exhibit A, which are incorporated herein by reference, constitute the entire agreement between the parties regarding the subject hereof and supersedes all prior maintenance agreements, understandings, and communication, whether written or oral. This Agreement may be amended only by a written document signed by both parties. The terms on any purchase order or similar document submitted by Customer to Company will have no effect.

In Witness Whereof, the parties have caused this Professional Services Agreement to be executed by their duly authorized representative.

**Insurance Submission Process**

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

**How It Works**

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to [roseville@ebix.com](mailto:roseville@ebix.com) or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

**Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239**  
**Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202**

## COUNCIL COMMUNICATION

**CC #: 9282**  
**File #: 0203-04**

**Title:** Citywide Special Events Services - Service Agreement  
**Contact:** Kristi LaRoche 916-774-5962 klaroche@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.4.**

### RECOMMENDATION TO COUNCIL

Recommend City Council adopt a resolution to approve a service agreement for \$30,000.00 with Extreme Productions Pro DJ Entertainment, LLC for citywide special event services, and authorize the Acting City Manager to execute it on behalf of the City. Additionally, staff requests authority for four optional one-year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until City staff determines that continuing with the same vendor is not in the City's best interest.

### BACKGROUND

In February 2018, the City of Roseville issued a Request for Proposal (RFP) for event production, design, lighting and DJ/emcee services for city-wide special events. Only one proposal was submitted for review. Based on the scope of services, experience and ability to meet the requirements, staff is recommending Extreme Productions.

The RFP contained service requirements for seven special events, ranging from large scale event production, to smaller events needing only sound services. Extreme Productions Pro DJ Entertainment, LLC has been a long time service provider at many of the city-wide events.

### FISCAL IMPACT

Funding for this project has been included in the proposed FY2018/19 Parks, Recreation & Libraries budget. The cost for this project is not to exceed \$30,000.00 per fiscal year, with an option to renew annually for up to four additional years provided that the applicable budget is approved by the City Council, or until City staff determines that continuing with the same vendor is not in the City's best interest.

### ECONOMIC DEVELOPMENT / JOBS CREATED

There is no economic development impact with this project.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Approval of a service agreement for special event services does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Kristi LaRoche, Recreation Supervisor

Dion Louthan, Park, Recreation & Libraries Director

RESOLUTION NO. 18-198

APPROVING A SERVICE AGREEMENT BETWEEN CITY OF ROSEVILLE AND  
EXTREME PRODUCTIONS PRO DJ ENTERTAINMENT, LLC, AND AUTHORIZING THE  
ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE  
CITY OF ROSEVILLE

WHEREAS, a service agreement (S180966) for citywide special events services, between City of Roseville and Extreme Productions Pro DJ Entertainment, LLC, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said service agreement is approved and that the Acting City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his or her designee is authorized to execute four additional one-year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until City staff determines that continuing with the same vendor is not in the City's best interest.

Dominick Casey, Acting City Manager  
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Contractor is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may

result in monetary fines and cancellation of this Agreement. Refer to [www.roseville.ca.us/stormwater](http://www.roseville.ca.us/stormwater) for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
18. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

*City reserves the right to withhold any payments to Contractor in the event of noncompliance with insurance requirements or if required by law.*

## COUNCIL COMMUNICATION

**CC #: 9286**

**File #: 0704**

**Title:** Sports Officiating Services - Service Agreement Renewal

**Contact:** Chris Pelzman 916-774-5977 cpelzman@roseville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 7.5.**

### RECOMMENDATION TO COUNCIL

Recommend Council adopt a resolution approving a Service Agreement for Sunrise Officials Association (SOA) in the amount of \$55,000.00 for Adult Sports Officiating Services, and authorizing the Acting City Manager to execute it.

### BACKGROUND

In August 2014, the City Council approved a two year service agreement with Sunrise Officials Association to provide softball officiating services for the Parks, Recreation & Libraries Department. The agreement included the option to extend the contract for three (3) additional one year terms before being required to issue a new Request For Proposal. Staff is requesting a third and final extension for FY2018/19.

Sunrise Officials Association has proven to be a good partner for the City of Roseville for many years, as is evident from both internal and external evaluation of their services. SOA understands the City of Roseville's expectation of providing exceptional service to our customers and has demonstrated this to date with the current agreements.

### FISCAL IMPACT

The funds for these Service Agreements have been allocated through the Parks, Recreation & Libraries FY2018/19 operating budget. Fees are collected from participating teams/players to offset 100% of the costs associated with this agreement.

### ECONOMIC DEVELOPMENT / JOBS CREATED

The adult softball program provides opportunities for independent contractors to officiate within the region.

## ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines 15061(b)(3)). Sports Officiating Services does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Christopher Pelzman, Recreation Coordinator

Dion Louthan, Parks, Recreation & Libraries Director

Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may

result in monetary fines and cancellation of this Agreement. Refer to [www.roseville.ca.us/stormwater](http://www.roseville.ca.us/stormwater) for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
18. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

*City reserves the right to withhold any payments to Contractor in the event of noncompliance with insurance requirements or if required by law.*

## COUNCIL COMMUNICATION

**CC #: 9287**

**File #: 0704**

**Title:** Sports Officiating Services - Service Agreement Renewal

**Contact:** Chris Pelzman 916-774-5977 cpelzman@roseville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 7.6.**

### RECOMMENDATION TO COUNCIL

Recommend Council adopt two resolutions approving Service Agreements with Hawkins Officiating Services (HOS) in the amount of \$45,000.00 (volleyball & flag football) and \$40,000.00 (basketball) for Adult Sports Officiating Services, and authorizing the Acting City Manager to execute them.

### BACKGROUND

In August 2014, the City Council approved a two year service agreement with Hawkins Officiating Service to provide basketball, volleyball and flag football officiating services for the Parks, Recreation & Libraries Department beginning FY2014/15 and running through the end of FY2015/16. The agreement included the option to extend the contract for three (3) additional one-year terms. Staff is requesting the third and final extension for FY2018/19.

Hawkins Officiating Service has proven to be a good partner for the City of Roseville for many years, as is evident from both internal and external evaluation of their services. HOS understands the City of Roseville's expectation of providing exceptional service to our customers and has demonstrated this to date with the current agreements.

### FISCAL IMPACT

The funds for these service agreements have been included in the proposed Parks, Recreation & Libraries FY2018/19 operating budget. Fees are collected from participating teams/players to offset 100% of the costs associated with this agreement.

### ECONOMIC DEVELOPMENT / JOBS CREATED

The adult basketball, volleyball and flag football programs provide opportunities for contract officials to work within the region.

## ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines 15061(b)(3)). Sports Officiating Services do not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Christopher Pelzman, Recreation Coordinator

Dion Louthan, Parks, Recreation & Libraries Director

Dominick Casey, Acting City Manager  
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Contractor is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may

result in monetary fines and cancellation of this Agreement. Refer to [www.roseville.ca.us/stormwater](http://www.roseville.ca.us/stormwater) for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
18. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

**Insurance Submission Process**

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

**How It Works**

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to [roseville@ebix.com](mailto:roseville@ebix.com) or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

**Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239**  
**Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202**

Dominick Casey, Acting City Manager  
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Contractor is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may

result in monetary fines and cancellation of this Agreement. Refer to [www.roseville.ca.us/stormwater](http://www.roseville.ca.us/stormwater) for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
18. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

**Insurance Submission Process**

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

**How It Works**

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to [roseville@ebix.com](mailto:roseville@ebix.com) or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

**Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239**  
**Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202**

## COUNCIL COMMUNICATION

**CC #: 9270**

**File #: 0203-10 & 0704-01**

**Title:** Ferretti Park Play Structure Replacement - Service Agreement

**Contact:** Tara L. Gee 916-774-5253 tgee@roseville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 7.7.**

### RECOMMENDATION TO COUNCIL

Adopt a resolution to approve a service agreement (S1804328) with Landscape Structures, Inc. for \$77,379.55 to remove and replace the play structure at Ferretti Park, authorize the Acting City Manager to execute the agreement, and authorize the Parks, Recreation & Libraries or his designee to approve change order requests in the amount not to exceed 10% of the contract amount.

### BACKGROUND

The play structure at Ferretti Park is more than twenty years old and has reached the end of its useful life. Staff recommends approval of service agreement number S1804328 with Landscape Structures, Inc. for \$77,379.55 to remove and replace the play structure. The service agreement piggybacks the Houston Galveston Area Council (HGACBuy) contract PR 11-16.

#### Contingency

During the course of a construction project, it is common to encounter unanticipated or changed conditions in the field which necessitate additions or other changes to the project and the contract. For this project, staff requests authorization to approve change order requests in an amount not to exceed 10% of the contract price in accordance with the terms and conditions of the contract.

### FISCAL IMPACT

This project was approved in FY2017/18 using funds from the Parks, Recreation & Libraries Capital Fund (Fund 315). Ongoing maintenance costs are anticipated to stay the same and are included in the proposed FY2018/19 Parks, Recreation & Libraries budget.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Based on Federal guidelines, there is one job created for every \$92,000 in direct government

spending. Based on that guideline, this project is forecast to create one new job.

### ENVIRONMENTAL REVIEW

The proposed project involves the replacement of existing structures and facilities. This activity is categorically exempt from CEQA as a Class 2 Exemption (State CEQA Guidelines Section 15302). The Exemption has been prepared and no further CEQA action is required.

Respectfully Submitted,

Tara L. Gee, Park Planning & Development Superintendent

Dion Louthan, Parks, Recreation & Libraries Director

---

Dominick Casey, Acting City Manager

#### **Description**

Resolution No. 18-191

Service Agreement (1804328)

RESOLUTION NO. 18-191

APPROVING A SERVICE AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND  
LANDSCAPE STRUCTURES, INC., AND AUTHORIZING THE ACTING CITY MANAGER  
TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a service agreement (S1804328) for the Ferretti Park play structure replacement, between the City of Roseville and Landscape Structures, Inc., has been reviewed by the Council;

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said service agreement is approved and that the Acting City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED that the Parks, Recreation & Libraries Director or his designee is authorized to approve change orders for the project, consistent with the contract terms, provided that the net cost of all change orders shall not exceed ten percent (10%) of the contract price.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 2018, by the following vote on roll call:

AYES COUNCILMEMBERS:

Dominick Casey, Acting City Manager  
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Contractor is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage (except Workers' Compensation) and for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to [www.roseville.ca.us/stormwater](http://www.roseville.ca.us/stormwater) for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
18. Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

*City reserves the right to withhold any payments to Contractor in the event of noncompliance with insurance requirements or if required by law.*

**Insurance Submission Process**

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

**How It Works**

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to [roseville@ebix.com](mailto:roseville@ebix.com) or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

**Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239**  
**Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202**

Title \_\_\_\_\_

Date \_\_\_\_\_

Thank you for the opportunity to quote your upcoming project. PLEASE NOTE: quote does not include engineering calculations, security, storage or permits unless otherwise noted.

\*\*\*Does not include refurbishment or replacement of existing drains. Per Tara Gee drains meet city requirements.

If ordering or shipping materials in 2019, please add 3-6% to materials for anticipated price increase. If this is for a BID, it is the responsibility of the General Contractor bidding to adjust their bid to accommodate anticipated pricing. Please also note that sales tax will be based on the current rate at the time of shipping, not order date. Customer will be expected to cover these taxes.

## COUNCIL COMMUNICATION

**CC #: 9299**

**File #: 0704**

**Title:** On-Call Inspection Services - Service Agreement Renewal

**Contact:** Rjahja Canlas 916-774-5342 rcanlas@roseville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 7.8.**

### RECOMMENDATION TO COUNCIL

Adopt a resolution approving a service agreement renewal for on-call inspection services with 4Leaf, Inc., authorizing the Acting City Manager to execute the agreement renewal, and authorizing the City Manager to execute the remaining service agreement renewal without further Council approval.

### BACKGROUND

The Parks, Recreation & Libraries Department is projecting a number of Capital Improvement Projects, including new park design and construction and major rehabilitation projects over the next few years. In February 2017, a Request for Qualifications/Proposals was issued seeking experienced inspection firms to submit to the Parks, Recreation & Libraries Department for on-call inspection services. In anticipation of a busy construction season, the intent of this service agreement is to utilize these services when demand exceeds in-house capacity. This will allow for more responsiveness to contractor and developer needs along with greater quality control during this time.

This is the first renewal of two optional one-year renewals.

### FISCAL IMPACT

The cost of the one-year agreement will not exceed \$100,000.00. The on-call services does not guarantee an annual amount of work and is in place on an "as needed" basis. Work performed under this service agreement will utilize developer fees and/or capital improvement project accounts. There will be no General Fund impact.

### ECONOMIC DEVELOPMENT / JOBS CREATED

No new jobs will be created through this service agreement.

## ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Renewal of a Service Agreement for on-call inspection services does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Rjahja Canlas, Park Development Analyst

Dion Louthan, Parks, Recreation & Libraries Director

Resolution No. 18-227

Service Agreement Renewal

RESOLUTION NO. 18-227

APPROVING A SERVICE AGREEMENT RENEWAL BETWEEN THE CITY OF  
ROSEVILLE AND 4LEAF, INC., AND AUTHORIZING THE ACTING CITY MANAGER TO  
EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a service agreement renewal (S1909079) for on-call inspection services,  
between the City of Roseville and 4Leaf, Inc., has been reviewed by the Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that  
said service agreement renewal is approved and the Acting City Manager or his designee is  
authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his or her designee is  
authorized to execute one additional one-year renewal without further City Council approval,  
provided that the applicable budget is approved by the City Council.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of  
\_\_\_\_\_, 2018, by the following vote on roll call:

Dominick Casey, Acting City Manager  
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Contractor is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage (except Workers' Compensation) and for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to [www.roseville.ca.us/stormwater](http://www.roseville.ca.us/stormwater) for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
18. Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

*City reserves the right to withhold any payments to Contractor in the event of noncompliance with insurance requirements or if required by law.*

**Insurance Submission Process**

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

**How It Works**

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to [roseville@ebix.com](mailto:roseville@ebix.com) or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

**Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239**  
**Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202**

Attached is a copy of a service agreement for your review and acceptance. Please review the company name, address, and contact information and notify me via email if any corrections need to be made. I will update the agreement prior to you signing the document.

Sign the agreement using the below signature guidelines. Alterations or modifications to the agreement are not allowed. Mail **two signed original** copies of the agreement to the address noted below. Faxes, photocopies, and electronic transmittals will not be accepted. Upon receipt of all necessary documents and City Council approval, the City will sign the agreements and return a fully executed original copy to you. Receipt of the signed copy will be your notice to proceed with the work in accordance with the terms and conditions of the service agreement. Work must not begin until the contract has been fully executed.

The following guidelines must be followed for the signature block on the Service Agreement:

**Sole proprietorship** - **By owner**

**Partnership** - **Any general partner**

**Corporation** - **Two options:**

**(1) A signature from the President and the corporate seal; or**

**(2) One signature from the Chairman of the Board, President, or any Vice President AND one signature from the Secretary, any Assistant Secretary, Chief Financial Officer, Treasurer, or any Assistant Treasurer of the corporation**

\*General Manager, Office Manager and/or Sales Manager are **not** corporate officer titles. The service agreement will be rejected if not signed in accordance with these guidelines.

**Insurance requirements:**

The City's insurance requirements are referenced on Attachment A in this service agreement packet. The service agreement will not be considered active or valid until the necessary insurance documents have been received by Roseville's insurance compliance contractor, EBIX. Please contact EBIX customer service at (951) 652-4239 or [roseville@ebix.com](mailto:roseville@ebix.com) for any insurance related questions.

**Service Agreement Return Address:  
Purchasing, Loni Countryman  
2005 Hilltop Circle

## COUNCIL COMMUNICATION

**CC #: 9293**

**File #: 0704-01 & 0201-01**

**Title:** Sierra Crossing (W-50A) Park Project - Contract Award and Budget Adjustment

**Contact:** Joel De Jong 916-774-5924 [jdejong@roseville.ca.us](mailto:jdejong@roseville.ca.us)

**Meeting Date: 6/6/2018**

**Item #: 7.9.**

### RECOMMENDATION TO COUNCIL

Adopt an ordinance to approve a budget adjustment of \$130,000.00, award the Sierra Crossing (W-50A) Park Project to apparent low bidder, Sierra Valley Construction, Inc., adopt a resolution authorizing the Acting City Manager to execute the agreement with Sierra Valley Construction, Inc. in the amount of \$1,309,868.00, and authorize staff to approve change order requests in an amount not to exceed 10% of the contract amount.

### BACKGROUND

Sierra Crossing Park is a 6.5 acre neighborhood park site adjacent to the Orchard Ranch Elementary School in the West Roseville Specific Plan Area, off of Westbrook Boulevard and Brookstone Drive. The project will include installation of multi-use turf, children's play area and swings, extension of the adjacent school parking lot, a picnic area, landscaping and irrigation. City Council approved the project plans, specifications and bid advertisement at the April 11, 2018 meeting. A total of 4 bids were received on May 1, 2018. The bid results and engineer's estimate are as follows:

Bidder Total (including additive alternatives) Lump Sum:

Sierra Valley Construction, Inc. \$1,331,022.00

JM Slover, Inc. \$1,336,365.00

Jensen Landscape \$1,352,474.69

Procida Landscape \$1,377,848.00

Engineer's Estimate \$1,280,239.00

Staff recommends award of the project to Sierra Valley Construction, Inc. in the amount of \$1,309,868.00. This includes the base bid of \$1,198,051.00 plus the following additive alternatives: shade structure at the picnic area (Add Alt #1 - \$51,334.00), water misting play feature (Add Alt #3 - \$15,062.00), and adult fitness equipment (Add Alt #4 - \$30,421.00) and \$15,000.00 for the Winter Construction Suspension Allowance.

#### Contingency:

During the course of a construction project, it is common to encounter unanticipated or changed conditions in the field which necessitate additions or other changes to the project and the contract. For this project, staff requests authorization to approve change order requests in an amount not to exceed 10% of the contract price in accordance with the terms and conditions of the contract.

#### FISCAL IMPACT

Funding is allocated through the West Roseville Specific Plan Neighborhood Park Development Fund (Fund 243). Approval of the budget adjustment will transfer an additional \$130,000.00 from the same Neighborhood Park Development Fund (Fund 243) to the CIP account (Project 175003) in order to fully fund the project. Funding for maintenance will be through the Westpark Community Facilities District for Services. There will be no impact to the General Fund.

#### ECONOMIC DEVELOPMENT / JOBS CREATED

Based on Federal guidelines, there is one job created for every \$92,000 in direct government spending. Based on that guideline, this project is forecast to create 14 new jobs.

#### ENVIRONMENTAL REVIEW

Development of WRSP park sites is identified in the approved WRSP and was previously evaluated at "a project level" in the WRSP Final EIR (Certified February 2004 – SCH# 2002082057). In June 2013 as part of the Westpark Phase 4 and City Parcel Adjustments Specific Plan Amendment project, WRSP Park Site W-50 was reconfigured as WRSP Park Site W-50A and W-50B. Environmental impacts associated with this amendment were evaluated in an Addendum to the original 2004 WRSP EIR (Initial Study dated June 18, 2013). The 2013 Initial Study/Addendum concluded that the proposed Westpark Phase 4 specific plan amendment project would not have a significant effect on the environment. Because Park Site W-50A is consistent with the WRSP EIR 2013 Addendum, no additional CEQA documentation or Council action is required.

Respectfully Submitted,

Joel De Jong, Park Development Analyst

agreement

Ordinance No. 5981

Sierra Crossing Budget Adjustment

RESOLUTION NO. 18-223

APPROVING AN AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND SIERRA VALLEY CONSTRUCTION, INC., AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an Agreement for the Sierra Crossing (W-50A) Park project, between the City of Roseville and Sierra Valley Construction, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved and that the Acting City Manager is authorized to execute it on behalf of the City of Roseville; and

BE IT FURTHER RESOLVED that the Parks, Recreation & Libraries Director or his designee is authorized to approve change orders for the project, consistent with the contract terms, provided that the net cost of all change orders shall not exceed ten percent (10%) of the contract price.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

\_\_\_\_\_  
MAYOR

ATTEST:

City Clerk

A G R E E M E N T

THIS AGREEMENT, is made and entered into this \_\_\_\_ day of \_\_\_\_\_,  
20\_\_\_\_, by and between the City of Roseville, a municipal corporation, ("CITY"), and  
Sierra Valley Construction, Inc., a California Corporation,  
("CONTRACTOR"); and

W I T N E S S E T H:

WHEREAS, the City Council of the CITY, at a meeting held on the 11th day of  
April, 2018, approved plans and specifications for the \_\_\_\_\_  
Sierra Crossing (W-50A) Park Project  
and directed the City Clerk to advertise for sealed proposals for doing said work and providing  
that bids be submitted on the 1st day of May, 2018; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published  
in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid  
with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is  
hereby referred to and by this reference made a part hereof as fully as if set forth at length herein;  
and

WHEREAS, all bids received pursuant to said notice were opened and examined and  
publicly declared at the time specified in said advertisement for bids and at a meeting of the City  
Council held on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, the Council found and

declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the \_\_\_\_\_  
Sierra Crossing (W-50A) Park Project

in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR One million three hundred nine thousand eight hundred sixty-eight dollars (\$ 1,309,868.00 ) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

- a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);
- b. The accepted bid;
- c. Plans and specifications (including standard construction specifications, special provisions and construction details);
- d. Bonds and insurance required by the specifications; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of \$ 800 per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within 100 Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE

Joel De Jong  
316 Vernon St., Suite 400  
Roseville, CA 95678

CONTRACTOR

Sierra Valley Construction, Inc.  
2723 Penny Lane  
Lincoln, CA 95648  
(916) 772-0800

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISISON PERTAINING TO STRUCUTRAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, and CONTRACTOR has caused this Agreement to be duly executed.

ORDINANCE NO. 5981

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE  
AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18  
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY  
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2017-18, is hereby amended by transferring appropriation to and from the activities indicated below:

Appropriate funds for Sierra Crossing (W-50A) Park project at the request of the Parks, Recreation & Libraries Department, as listed on the attached Request for Budget Adjustment in the amount of \$130,000.00.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

## COUNCIL COMMUNICATION

**CC #: 9285**

**File #: 0900-04-03**

**Title:** Junction and Park Regency Traffic Signal Project - Approval of Plans and Specifications and Authorization to Call for Bids

**Contact:** Jerome Pastor 916-746-1300 jpastor@roseville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 7.10.**

### RECOMMENDATION TO COUNCIL

Staff recommends the City Council approve the plans and specifications for the Junction Boulevard and Park Regency Drive Signalization Project and authorize staff to call for bids.

### BACKGROUND

The Junction Boulevard and Park Regency Drive Traffic Signal Project will provide right-of-way controls for the orderly movement of traffic and improve pedestrian and bicycle safety at this intersection by creating a connection across Junction Boulevard for the multi-use path that runs from Baseline Road to the Green Belt area near Mahany Park. This connection comes in the form of a unique, high-visibility crosswalk that will be the first of its kind to be used in the City. The additional width of the crossing, when compared to typical crosswalks throughout the City, will allow for its simultaneous use by pedestrians and bicyclists while still providing separate pedestrian and bicyclist crossing activations. The distinct activations will guarantee that each user type is allocated enough time to cross Junction Boulevard while minimizing delay at the intersection.

Public Works anticipates construction to begin in September 2018, with completion by October 2018.

Construction plans and specifications for the project are available at the City Clerk's Office for Council's review.

### Public Outreach

Public Works Staff will be working with the Public Works Marketing & Communications Analyst to develop a public outreach campaign to keep the community informed of the project's progress and traffic impacts during the construction phase of the project. This includes disseminating project information on the City's web page, traffic alerts, social media, and informative signage located at the project site both prior to and during construction.

## FISCAL IMPACT

The engineer's estimate for this project is \$499,100. The project will be fully funded by Transportation Development Act Funds as a bike trail improvement. No General Funds will be used for this project.

The estimate breakdown is as follows:

Traffic Signal Construction Contract - \$291,800  
ITS Communications - \$76,000  
Bike trail modifications, signing and striping - \$47,000  
City supplied equipment - \$59,300  
Inspection - \$25,000

## ECONOMIC DEVELOPMENT / JOBS CREATED

Federal guidelines suggest that there is one job created for every \$92,000 in direct government spending. Based on that figure, this project will create 5.4 jobs.

## ENVIRONMENTAL REVIEW

Development of the Junction Boulevard and Park Regency Drive Signalization Project was previously evaluated in the Amoruso Ranch Specific Plan Final EIR (certified May 2016 - SCH 2013102057), and identified in the associated Amoruso Ranch Specific Plan. Construction of the Junction Boulevard and Park Regency Drive Signalization Project is found to be within the scope of the project covered by the Amoruso Ranch Specific Plan Final EIR, and is therefore exempt from CEQA pursuant to Section 15182. As discussed in the Specific Plan EIR, the EIR provides environmental analysis of community infrastructure and facilities, including residential subdivisions. Because the project is consistent with the Amoruso Ranch Specific Plan Final EIR and Specific Plan, no new effects would be expected to occur and all applicable mitigation measures from the Amoruso Ranch Specific Plan EIR will be implemented during the design and construction of the Junction Boulevard and Park Regency Drive Signalization Project. As such, no additional environmental documentation is required.

Respectfully Submitted,

Jerome Pastor, Assistant Engineer

Rhon Herndon, Public Works Director

## COUNCIL COMMUNICATION

CC #: 9294  
File #: 0203-01

**Title:** Vehicle Purchase  
**Contact:** Brian Craighead 916-774-5731 bcraighead@roseville.ca.us

Meeting Date: 6/6/2018  
Item #: 7.11.

### RECOMMENDATION TO COUNCIL

Staff recommends City Council approve a purchase order to Dobbs Heavy Duty Holdings, LLC dba Western Truck Parts & Equipment for one compressed natural gas (CNG) roll-off refuse truck utilizing RFQ 01-3173 as an addition to the fleet approved in the FY2017-18 Auto Replacement Budget. The total cost including sales tax is \$251,522.70.

### BACKGROUND

The Environmental Utilities Solid Waste Division is purchasing one CNG roll-off refuse truck with an AutoCar cab/chassis and AMREP roll-off body. The roll-off refuse collection vehicle is necessary to service the City's commercial and residential customers for solid waste collection up to seven days per week. The workload in the roll-off line of business has increased over the past few years and requires additional resources for work to be completed on schedule.

A formal bid was issued with the following vendor response:

| <u>Vendor</u>                          | <u>Unit Price (CNG roll-off refuse truck)</u> |
|----------------------------------------|-----------------------------------------------|
| <b>Western Truck Parts &amp; Equip</b> | <b>\$251,522.70</b>                           |
| <b>West Sacramento, CA</b>             |                                               |

### FISCAL IMPACT

The total cost of one CNG roll-off refuse truck including sales tax is \$251,522.70. Funding is included in the FY2017-18 Auto Replacement Budget.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

## ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The purchase of a vehicle does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Brian Craighead, Fleet Manager

Rhon Herndon, Public Works Director

## COUNCIL COMMUNICATION

**CC #: 9289**  
**File #: 0203-04**

**Title:** Access / Security Controls - Service Agreement Renewal  
**Contact:** Dan Allen 916-774-5741 dallen@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.12.**

### RECOMMENDATION TO COUNCIL

Recommend Council adopt a resolution approving a renewal to the service agreement with Johnson Controls and authorizing the Acting City Manager to execute it. Staff requests authorization to utilize the final optional one-year renewal of the bid contract without further Council approval, provided that the applicable budget is approved.

### BACKGROUND

On May 2015, City Council authorized a service agreement with Johnson Controls to provide maintenance, repair, installation of hardware, and for the software programming of Access and Security Control Systems. This was a five year agreement with two one year renewals. This is the first of two one year renewals of a five year agreement.

### FISCAL IMPACT

The value of this service agreement is \$350,000.00 and will not to exceed annual budgeted amounts. Funding for this agreement is included in the Facility Services Division, and Facility Rehabilitation FY2017-18 and proposed FY2018-19 budgets.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

The purchase of Access and Security Control Systems services is not considered a "project" as defined by the California Environmental Quality Act (CEQA) (CEQA Guidelines §15378).

Consequently no CEQA action is required.

Respectfully Submitted,

Dan Allen, Facility Manager

Rhon Herndon, Public Works Director

Dominick Casey, Acting City Manager  
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Contractor is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may

result in monetary fines and cancellation of this Agreement. Refer to [www.roseville.ca.us/stormwater](http://www.roseville.ca.us/stormwater) for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
18. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

*City reserves the right to withhold any payments to Contractor in the event of noncompliance with insurance requirements or if required by law.*

## COUNCIL COMMUNICATION

**CC #: 9290**  
**File #: 0203-04**

**Title:** Building Controls - Service Agreement Renewal  
**Contact:** Dan Allen 916-774-5741 dallen@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.13.**

### RECOMMENDATION TO COUNCIL

Recommend Council adopt a resolution approving a renewal to the service agreement with L&H Airco, and authorizing the Acting City Manager to execute it. The total value of the one year renewal is \$350,000.00, not to exceed annual budgeted amounts. Staff requests authorization to utilize the optional one-year renewal of the bid contract without further Council approval, contingent upon approval of the applicable budget.

### BACKGROUND

In May of 2015, City Council authorized a service agreement with L&H Airco to provide maintenance, repair, installation of hardware and for the software programming of Building Control Systems. This was a five year agreement with two one year renewals. This is the first of two one year renewals of a five year agreement.

### FISCAL IMPACT

The value of this service agreement is \$350,000.00 and will not to exceed annual budgeted amounts. Funding for this agreement is included in the Facility Services Division, and Facility Rehabilitation FY2017-18 and proposed FY2018-19 budgets.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

The purchase of Building Control Systems services is not considered a "project" as defined by

the California Environmental Quality Act (CEQA) (CEQA Guidelines §15378). Consequently no CEQA action is required.

Respectfully Submitted,

Dan Allen, Facility Manager

Rhon Herndon, Public Works Director

Dominick Casey, Acting City Manager  
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Contractor is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may

result in monetary fines and cancellation of this Agreement. Refer to [www.roseville.ca.us/stormwater](http://www.roseville.ca.us/stormwater) for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
18. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

## COUNCIL COMMUNICATION

CC #: 9284  
File #: 0203-04

**Title:** Citywide Painting Services (RFQ 01-3168) - Service Agreement  
**Contact:** Tiffany Valdez 916-774-5708 tvaldez@roseville.ca.us

Meeting Date: 6/6/2018  
Item #: 7.14.

### RECOMMENDATION TO COUNCIL

Recommend City Council adopt a resolution to approve a service agreement to Affordable Painting Services, Inc. for the materials and labor to paint specific areas at the Roseville Police Department, Civic Center, Maidu Community Center and the Placer Society for the Prevention of Cruelty to Animals (Placer SPCA), and authorize the Acting City Manager to execute it.

### BACKGROUND

The Roseville Police Department, Civic Center, Maidu Community Center and the SPCA are in need of patch and paint repairs because all of the properties are showing cracked, peeling paint and in some cases, excessive wear and tear. They are being painted to protect the weatherproofing and maintain their outward appearance to the public and tenants.

A formal bid was issued with the following vendor responses:

| <u>Bidder</u>                                                      | <u>Lump Sum Total</u> |
|--------------------------------------------------------------------|-----------------------|
| <b>Affordable Painting Services, Inc.</b><br><b>Sacramento, CA</b> | <b>\$186,000.00</b>   |
| Tiber Painting, LLC<br>Sunnyvale, CA                               | \$252,800.00          |
| Color New Company<br>Woodland Hills, CA                            | \$413,000.00          |
| River City Painting, Inc.<br>Sacramento, CA                        | \$432,123.00          |

### FISCAL IMPACT

The total amount of the award is \$186,000.00. Funding is included in the Facility Rehabilitation Fund FY2017-18 budget.

ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

ENVIRONMENTAL REVIEW

The proposed project involves the repair of existing facilities. This activity is categorically exempt from the California Environmental Quality Act (CEQA) as a Class 1 Exemption (State CEQA Guidelines Section 15301). The exemption has been prepared and no further CEQA action is required.

Respectfully Submitted,

Tiffany Valdez, Buyer

**Title:** Roof Recoating and Repairs - Service Agreement  
**Contact:** Charlie Fralick 916-774-5706 cfralick@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.16.**

### RECOMMENDATION TO COUNCIL

Recommend City Council adopt a resolution authorizing the Acting City Manager to execute a service agreement with Weatherproofing Technologies Inc. dba Tremco Roofing & Building Maintenance to provide roof recoating and repairs at the Society for the Prevention of Cruelty to Animals (SPCA) and Carnegie Museum in the amount of \$86,880.00. Funding for this agreement is included in the Facility Rehabilitation Fund FY2017-18 budget.

### BACKGROUND

Both SPCA and Carnegie Museum are in critical need of roof repair in order to protect their structural and internal integrities. These properties both show signs of wear that is consistent with a roof at the end of its lifecycle. This agreement is a "piggyback" on to a National IPA approved contract, contract # R132205-CA-15641.

### FISCAL IMPACT

The total value of the agreement with Weatherproofing Technologies Inc. is \$86,880.00. Funding for this agreement is included in the Facility Rehabilitation Fund FY2017-18 budget.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

The proposed project involves the maintenance/repair of existing facilities. This activity is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section

15301). The Exemption has been prepared and no further CEQA action is required.

Respectfully Submitted,

Charlie Fralick, Project Coordinator

Rhon Herndon, Public Works Director

Rob Jensen, City Manager  
CITY OF ROSEVILLE, A MUNICIPAL CORPORATION

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement. Notwithstanding anything to the contrary herein, in no event shall either party be liable for any special, incidental, consequential or punitive damages arising out of or related to this Agreement or the work performed hereunder, whether asserted in contract, tort, or any other theory of liability.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement provided Contractor is given a thirty (30) day notice.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
- 10a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
- 10b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- 10c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- 10d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- 10e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- 10f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- 10g. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- 10h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
- 10i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to [www.roseville.ca.us/stormwater](http://www.roseville.ca.us/stormwater) for links to more information on the City's storm water regulations.
12. In the event that the terms of any attachment or exhibit conflict with any terms of this Service Agreement, the terms of this Service Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. If the project referenced on this service agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
18. If the project referenced on this service agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

*City reserves the right to withhold any payments to Contractor in the event of noncompliance with insurance requirements or if required by law.*

**Insurance Submission Process**

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

**How It Works**

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to [roseville@ebix.com](mailto:roseville@ebix.com) or by fax to (770) 325-5727. After faxing or emailing the certificate, please **DO NOT** send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

**Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239**  
**Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202**

## Asbestos-Containing Materials in City-Owned Buildings

California Health and Safety Code Section 25915 requires that all City of Roseville employees, contractors and lessees be notified annually of the presence of asbestos in City-owned buildings constructed prior to 1979. Please post this notice in an area(s) accessible to all employees, contractors and lessees. Contact Facility Maintenance & Operations at (916) 774-5740 for more information about Asbestos Containing Materials (ACMs) in specific City-owned buildings. For more information about asbestos refer to the OSHA website.

The City of Roseville is committed to maintaining a safe and healthy work environment. The City's Facility Maintenance & Operations staff conducts ongoing inspections to identify and safely manage previously installed asbestos-containing products. Renovation of City-owned buildings **MUST** be reviewed in advance by Facility Maintenance & Operations to ensure the City is in compliance with building codes, Americans with Disabilities Act and that no ACMs are disturbed without proper safeguards. Work that requires removal or repair of ACMs is restricted to trained and qualified persons only. **Facility Maintenance & Operations will need to approve the qualified contractors.**

Use the following measures to protect you and others from exposure to airborne asbestos:

- Presume all building materials contain asbestos until determined otherwise by Facility Maintenance & Operations.
- Do not install walls, closets, cabinets, ceilings.
- Do not remove, cut, drill, sand, grind or otherwise disturb any material in the buildings, including carpet and tile.
- Do not paint (this includes any walls, ceilings, floors and electrostatic painting of office furniture).
- Do not remove any items nailed or screwed to the walls (this includes pictures, cabinets, electrical, etc.).
- Do not go above ceilings, behind walls or into building spaces such as attics and crawlspaces unless these areas have been inspected and cleared by Facility Maintenance & Operations.
- Do not pull cable or wiring through above-ceiling spaces with asbestos.
- Do not install screws, pins, nails or hangers into asbestos ceiling or wall plaster.
- Be careful not to damage walls, ceilings or floors when moving furniture or equipment. It is recommended that Facility Maintenance & Operations be contacted prior to moving furniture or equipment.
- Do not brush, sweep or vacuum textured asbestos ceiling plaster or plaster debris.
- Immediately report any damage or deterioration of suspect building materials to Facility Maintenance & Operations or Risk Management.

It is important to note that the presence of asbestos does not mean you have been exposed. Exposure results when friable asbestos particles are inhaled or ingested. Asbestos becomes friable when material containing asbestos is drilled, sanded or disturbed by remodeling or demolition work or when the ACM has deteriorated. Intact, bonded, sealed or undisturbed asbestos does not pose a hazard.

Employees may review the asbestos survey reports, results of bulk sampling or air monitoring conducted in City-owned buildings. All asbestos data will be available by appointment with Facility Maintenance & Operations.

|                  |                                                                                                                                                |  |           |                                      |                      |

## COUNCIL COMMUNICATION

**CC #: 9263**  
**File #: 0500-01**

**Title:** Legal Services Agreement  
**Contact:** Gretchen Hakala 916-774-5325 ghakala@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.17.**

### RECOMMENDATION TO COUNCIL

Recommend City Council adopt a resolution approving the Agreement for Legal Services with Spinelli, Donald & Nott and authorize the Acting City Manager to execute said agreement.

### BACKGROUND

The City of Roseville requires outside legal services from time to time to advise, assist, and represent the City as co-counsel with the City Attorney with respect to litigation, and to assist the City with respect to transaction matters. Spinelli, Donald & Nott will assist the Human Resources Department with impartial workplace investigations on an as-needed basis.

### FISCAL IMPACT

Legal services provided by this contract will be dependent upon needs as they occur during the year and thus cannot be forecast. All expenses will be paid from the Human Resources Department operations budget as needed.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Approving the proposed legal services agreement does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Gretchen Hakala, Paralegal

Robert Schmitt, City Attorney

---

Dominick Casey, Acting City Manager

## AGREEMENT FOR LEGAL SERVICES

THIS AGREEMENT is made and entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between the City of Roseville, a municipal corporation ("CITY"), and the law firm of Spinelli, Donald & Nott, a California professional corporation ("ATTORNEY"); and

### WITNESSETH:

WHEREAS, CITY desires legal services consisting of impartial workplace investigations on an as-needed basis; and

WHEREAS, ATTORNEY has prepared a proposal which describes the scope of work to be performed by ATTORNEY; and

WHEREAS, ATTORNEY is willing to provide such representation on an hourly and non-contingency fee basis.

NOW, THEREFORE, the parties agree as follows:

1. Scope of Services and Duties. CITY employs and retains ATTORNEY to provide legal services from time to time upon the request of the City Attorney. The scope of services to be performed by ATTORNEY is described in EXHIBIT "A," attached hereto and incorporated herein by this reference.

Services shall also include an annual audit letter provided by ATTORNEY at no charge to CITY.

2. Specific Work Assignments. ATTORNEY shall receive work assignments from the City Attorney or the Human Resources Director. The work assignments shall generally be communicated by written notice from the City Attorney or the Human Resources Director to ATTORNEY. If a work assignment is communicated orally, ATTORNEY shall provide a written confirmation to the City Attorney or Human Resources Director describing the work assignment.

ATTORNEY shall take reasonable steps to keep CITY (and City Attorney) informed in writing of progress and immediately following any significant developments and/or meetings, and to respond to CITY inquiries. The City Attorney's Office shall be promptly provided a copy of all research work product, pleadings, briefs, documents and correspondence.

Work performed for CITY shall be performed by and/or supervised by attorneys who are approved by the City Attorney and experienced in the practice area in which the services are being performed.

3. Attorney-Client Relationship. This Agreement creates an attorney-client relationship between CITY and ATTORNEY. Accordingly, the legal services performed pursuant to this Agreement will be protected by the attorney-client privilege unless the CITY waives the privilege or a court determines that the legal services are not subject to the privilege.

4. Fees for Services. For legal services performed under this Agreement, CITY shall pay ATTORNEY in accordance with the following rates:

|                      |                   |
|----------------------|-------------------|
| Of Counsel/Partner:  | \$275.00 per hour |
| Senior Counsel:      | \$250.00 per hour |
| Associate Attorneys: | \$225.00 per hour |

Any proposed increase in the effective rates for future cases or matters must be preceded by at least a 90-day written notice to the City Attorney.

5. Costs and Expenses. In addition to compensation for fees, the CITY shall reimburse ATTORNEY for out-of-pocket costs and expenses actually incurred by ATTORNEY in connection with the legal services provided by ATTORNEY. Out-of-pocket costs and expenses, including, but not limited to, reasonable travel expenses, costs of serving pleadings, filing fees, other charges assessed by courts and other public agencies, court reporter's fees, jury and witness fees, computer-assisted research charges, consultant and expert witness fees.

Per Exhibit "A", CITY shall reimburse ATTORNEY for a secondary substantive review of the investigation report by an attorney at the firm at a maximum rate of \$275.00, and not to exceed 5 hours.

Research exceeding one hour and multiple revisions of documents relating to single topics, although understandably necessary in situations that are unique or extremely complex, must be avoided and are subject to being disallowed for payment unless approved in advance by the City Attorney.

6. Statements and Payments. ATTORNEY shall provide monthly invoices to the CITY for all fees and expenses. The invoice shall be itemized to include, at a minimum, the time spent by each service provider, the total time spent by each service provider, and a description of services performed during the itemization period. ATTORNEY shall keep time in 1/10<sup>th</sup> of an hour increments. Invoices shall be considered due and payable upon receipt, and shall be overdue thirty (30) calendar days after receipt.

7. Term; Termination; Amendments. This Agreement shall be effective upon approval by the Roseville City Council and shall continue in effect until terminated by either party. This Agreement may be terminated by CITY, with or without cause, at any time upon written notice. However, ATTORNEY may terminate this Agreement only upon the consent of CITY or upon sixty (60) calendar days' written notice. Upon termination, ATTORNEY shall turn over all client files to CITY.

There shall be no amendment or modification to this Agreement except by written agreement between the parties.

8. Certifications. ATTORNEY certifies that ATTORNEY accepts this employment because ATTORNEY has the time, energy and ability necessary to perform the duties required in an efficient, trustworthy and business-like manner. ATTORNEY certifies that ATTORNEY will do its utmost to serve CITY effectively and represent CITY's interests vigorously and efficiently. ATTORNEY certifies that neither ATTORNEY nor any of its personnel assigned under this Agreement has personal or financial interest in, nor any connection with, the matter or litigation which is the subject of this agreement, or with any of the personnel, officers, agents or employees of the parties to such matter or litigation.

9. Independent Contractor. ATTORNEY is and shall be considered an independent contractor with respect to the performance of legal services under this Agreement.

10. Insurance. ATTORNEY agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

| <u>COVERAGE</u>                               | <u>LIMITS OF LIABILITY</u>                                                                                                       |
|-----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Workers' Compensation                         | Statutory                                                                                                                        |
| Commercial General Liability                  | \$2,000,000 each occurrence<br>\$2,000,000 aggregate<br>Personal Injury:<br>\$2,000,000 each occurrence<br>\$2,000,000 aggregate |
| Automobile Liability                          | \$1,000,000 combined single limit                                                                                                |
| Professional Liability (errors and omissions) | \$1,000,000 per claim                                                                                                            |

a. Form. ATTORNEY shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. ATTORNEY shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of ATTORNEY. The additional insured coverage under the ATTORNEY's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall

not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. ATTORNEY shall provide ten (10) days' written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subconsultants. ATTORNEY agrees to include in its contracts with all subconsultants the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subconsultant's work. Furthermore, ATTORNEY shall require its subconsultants to agree to be bound to ATTORNEY and CITY in the same manner and to the same extent as ATTORNEY is bound to CITY under this Agreement. Additionally, ATTORNEY shall obligate its subconsultants to comply with these same provisions with respect to any tertiary subconsultant, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subconsultant or tertiary subconsultant upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. ATTORNEY hereby agrees to waive subrogation which any insurer of ATTORNEY may acquire from ATTORNEY by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by ATTORNEY, its employees, agents and subconsultants.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve ATTORNEY of liability in excess of such coverage, nor

shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Indemnification. To the fullest extent allowed by law, ATTORNEY shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of ATTORNEY's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

ATTORNEY's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Notice. All notices, invoices, reports or other communication required by this Agreement shall be properly given if delivered in person, or sent by first class mail, facsimile, or overnight delivery to the following addresses:

CITY:

Roseville City Attorney  
311 Vernon Street  
Roseville, CA 95678  
Facsimile: (916) 773-7348

ATTORNEY:

Scott Donald, Esq.  
Spinelli, Donald & Nott  
601 University Ave., Suite 225  
Sacramento, CA 95825

Either party may amend its address for notice by giving notice to the other party.

13. Disclaimer of Guarantee. ATTORNEY has made no promises or guarantees to CITY about the outcome of CITY's matter, and nothing in this Agreement shall be construed as such a promise or guarantee. ATTORNEY's comments about the outcome of CITY's matter are expressions of opinion only.

14. Assignment. Neither party to this Agreement shall assign any of its rights or obligations under this Agreement, except with the prior written consent of the other party. No assignment of this Agreement shall relieve the assigning party of any of its obligations under this Agreement until such obligations have been assumed by the assignee. Any assignment in violation of this paragraph shall be void.

15. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's

fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

16. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

17. Integrated Agreement. This is an integrated Agreement and contains all of the terms, considerations, understandings and promises of the parties. It shall be read as whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, and ATTORNEY has caused this Agreement to be executed.

**Re: Limited Scope Legal Services Agreement**

Dear Ms. Satchwell:

On behalf of the City of Roseville you have requested our legal services as outside counsel for the limited purpose of performing an impartial workplace investigation. In order to confirm this engagement, we require a signed Legal Services Agreement. Below you will find the general nature of the legal services we will provide to the City of Roseville, as well as the manner in which we will charge for our time and out-of-pocket costs.

**SCOPE OF LEGAL SERVICES:**

The scope of legal services we will provide City of Roseville under this Agreement may include the following:

- Initial communication concerning the background of the complaint(s);
- Interview the complainant(s), the subject(s) of the investigation, and all necessary parties/witnesses;
- Review pertinent documents and evidence;
- Conduct legal research if required;
- Correspondence, communications and meetings concerning the status of the investigation, and its further handling;
- Draft and submit a written report on interviews conducted and information gathered;
- Time spent preparing for and testifying in a deposition, court, administrative or other proceeding, arising out of this investigation or agreement (including travel time).

The legal services performed pursuant to this agreement will be protected by the attorney-client privilege unless the client chooses to waive that privilege.

City of Roseville  
Re: Legal Services Agreement  
March 20, 2018  
Page 2 of 2

FEES FOR LEGAL SERVICES RENDERED:

Fees for legal services rendered will be charged on an hourly basis, in six-minute units of time. The following rates will apply to the investigation:

- Of Counsel/Partner: \$275.00 per hour
- Senior Counsel: \$250.00 per hour
- Associates: \$225.00 per hour

An attorney in this firm, other than the undersigned, will provide a substantive review of the investigation report; the time billed for this review will not exceed 5 hours at a maximum rate of \$275.00 per hour.

We bill for travel time, review of documents, drafting of documents, telephone conferences and meetings concerning the investigation, as well as attendance at and preparation for all meetings and interviews. In addition, we charge for incidental out-of-pocket expenses should they apply. These expenses include mileage, reasonable meal expenses, travel costs and lodging if overnight stay is required and pre-approved, photocopying, parking, tolls, research fees and postage, including express mail, delivery and courier service.

We bill our clients on a monthly basis. All bills are due and payable upon receipt. We will provide a bill which is itemized by date, time spent and description of services provided. Any out-of-pocket costs will be itemized and a receipt provided. Please be sure to contact me with any questions you may have regarding a bill.

Pursuant to the Rules of Professional Conduct of the State Bar of California and the Business and Professions Code, each attorney in this firm is insured for malpractice through Darwin Select Insurance Company (Allied World) Policy Number 0311-0651, effective, 12/01/17 through 12/01/18, with liability limits of \$1,000,000.00 per claim and \$1,000,000.00 in the aggregate with deductible of \$25,000.

If this Agreement meets your approval, and on behalf of the City of Roseville, you accept its terms and conditions, please sign below and return a copy of the executed Agreement to me. I look forward to working with you in this matter.

Very truly yours,

SPINELLI | DONALD | NOTT

## COUNCIL COMMUNICATION

**CC #: 9268**

**File #: 0400-04-12-1**

**Title:** Westbrook Phase 1, Village 7A - Certificate of Completion

**Contact:** Keith Litts 916-517-7598 klitts@roseville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 7.18.**

### RECOMMENDATION TO COUNCIL

Staff recommends that the City Council take adopt the attached resolution accepting Westbrook Phase 1, Village 7A, CWJ# 170103, as complete, and authorize the City Engineer to execute the Certificate of Completion.

### BACKGROUND

The Engineering Division has made a final inspection of the above project and has found the roadway infrastructure work complete in accordance with the improvement plans and City Specifications.

### FISCAL IMPACT

The actions requested as part of this action have no impact to the City's General Fund. Construction costs were paid by the developer.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Accepting the project as complete will not directly create jobs but rather maintain current employee levels of the developer until such a time the project is fully built out.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guideline 15061(b)(3)). Accepting the Certification of Completion for the Westbrook - Phase 1, Village 7A project does not include the potential for a significant environmental effect and therefore is not

subject to CEQA.

Respectfully Submitted,

Keith Litts, Construction Inspector

Mike Isom, Acting Development Services Director

### FISCAL IMPACT

The actions requested as part of this action have no impact to the City's General Fund. Construction costs were paid by the developer.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Accepting the project as complete will not directly create jobs but rather maintain current employee levels of the developer until such a time the project is fully built out.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guideline 15061(b)(3)). Accepting the Certification of Completion for the Westbrook - Phase 2, Village 1B project does not include the potential for a significant environmental effect and therefore is not

subject to CEQA.

### RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt the attached resolution accepting Westpark - Phase 4 - Village 18A, CWJ# 150161 as complete and authorizing the City Engineer to execute the Certificate of Completion.

### BACKGROUND

The Engineering Division has made a final inspection of the above project and has found the roadway infrastructure work complete in accordance with the improvement plans and City Specifications.

### FISCAL IMPACT

The actions requested as part of this action have no impact to the City's General Fund. Construction costs were paid by the developer.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Accepting the project as complete will not directly create jobs but rather maintain current employee levels of the developer until such a time the project is fully built out.

## City of Roseville Westpark - Phase 4 - Village 18A

## COUNCIL COMMUNICATION

**CC #: 9296**  
**File #: 0900-02**

**Title:** West Side Tank and Pump Station Phase 1 Project - Notice of Completion  
**Contact:** Jonathan Cummings 916-774-5566 jcummings@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.23.**

### RECOMMENDATION TO COUNCIL

Staff recommends that City Council adopt a resolution to accept the West Side Tank and Pump Station Phase 1 Project (#063001) as complete and authorize the Director of Environmental Utilities to execute the Notice of Completion.

### BACKGROUND

On August 16, 2017, City Council awarded a construction contract to Gabe Mendez, Incorporated for the West Side Tank and Pump Station Phase 1 Project. The limits of the project are shown in the Notice of Completion (Attachment A). The City's Environmental Utilities Department (EUD) completed final inspection of the project in November 2017 and found the work to be completed in accordance with the improvement plans and specifications and is now ready for acceptance. No stop payment notices or preliminary notices were filed with the City Clerk during the project. In accordance with the specifications and Faithful Performance bond, the contractor shall guarantee the installation of all improvements for a period of twelve months from the date of Council acceptance.

### FISCAL IMPACT

A construction contract for \$220,000.00 was awarded to Gabe Mendez, Incorporated for the West Side Tank and Pump Station Phase 1 Project. Council also approved an allowance to pay construction contract change orders of up to 10% (\$22,000.00) of the award price, for a not to exceed total cost of \$242,000.00. The total amount for completing the construction was \$207,308.11. This amount was less than the original contract award since the actual quantity of soil excavated and hauled off site, was less than the quantity estimated in the original bid. The project was funded under the Water Construction Fund.

### ECONOMIC DEVELOPMENT / JOBS CREATED

The funding for this project allowed the contractor to maintain the staffing levels required to complete the work.

## ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The action of accepting the West Side Tank and Pump Station Project Phase 1 improvements does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Jonathan Cummings, Assistant Engineer

Richard Plecker, Environmental Utilities Director

## COUNCIL COMMUNICATION

**CC #: 9279**  
**File #: 0109-02**

**Title:** Street Closure Request - Rods-n-Ribs - August 4, 2018  
**Contact:** Jeff Nereson 916-774-5974 jnereson@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.24.**

### RECOMMENDATION TO COUNCIL

Recommend Council adopt a resolution approving an Agreement for Special Event and Temporary Street Closure with Water for a Warrior and authorizing the Acting City Manager to execute it. Additionally, approve the following street closures from 5 a.m. – 5 p.m. on Saturday August 4th, 2018 for the Water for a Warrior Rods-n-Ribs Cook-Off event.

- Vernon Street between Taylor Street and East Washington Street
- South Grant Street between Oaks Street and Atlantic Street

### BACKGROUND

The Water for a Warrior non-profit group from Roseville has submitted a special event application to host their third annual Rods-N-Ribs charity fundraiser event in Downtown Roseville and the Vernon Street Town Square on Saturday August 4, 2018. The event runs 9:00am – 3:00pm.

Water for a Warrior is a local non-profit whose mission is to provide combat wounded veterans who would benefit from hydro-therapy and aquatic fitness with pools, hot tubs and other aquatic related products and services to help aid in their therapy, recovery and well-being.

The event will feature a car show, vendor fair and rib cook-off with approximately 20 teams competing.

In addition to notifying businesses directly impacted, we will continue to notify business and property owners of street closures in the "Downtown Roseville Area Street Closures" e-newsletter.

### FISCAL IMPACT

There will be no fiscal impact to the City budgets for this event. The applicant has agreed to reimburse the City for staff time and resources.

## ECONOMIC DEVELOPMENT / JOBS CREATED

Exposure could potentially have a positive impact to the business in the downtown area, and supports the Council goal of having a vibrant downtown.

## ENVIRONMENTAL REVIEW

The proposed Street Closure Agreement outlines applicant and City responsibilities for proposed temporary street closures required to safely accommodate the event. The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Because the request for approval of the Temporary Street Closure Agreement does not include the potential for a significant environmental effect, it is not subject to CEQA and no further action is required.

Respectfully Submitted,

Jeff Nereson, Recreation Superintendent

Dion Louthan, Park, Recreation & Libraries Director

AGREEMENT FOR SPECIAL EVENT AND

TEMPORARY STREET CLOSURE

Event: Water for a Warrior Rods – n – Ribs Cook Off

THIS AGREEMENT is made and entered into this 4 day of August, 2018 by and between the City of Roseville, a municipal corporation ("CITY"), and Water for a Warrior, a California nonprofit corporation ("PROMOTER"); and

W I T N E S S E T H:

WHEREAS, PROMOTER has requested the closure of certain public streets for the Water for a Warrior Rods – n – Ribs Cook Off ("Event") to be held on Saturday, August 4, 2018; and

WHEREAS, CITY approves said request subject to the following terms and conditions.

NOW, THEREFORE, the parties agree as follows:

1. PROMOTER shall comply with all applicable provisions of the Roseville Municipal Code.
2. The following streets may be closed to traffic between 5:00 a.m. and 5:00 p.m. on Saturday, August 4<sup>th</sup>, 2018:
  - a. Vernon Street, between Taylor and East Washington Streets; and
  - b. S. Grant Street, between Oak and Atlantic Streets.
3. Adequate barriers and warning signs, as requested by the Public Works Director/City Engineer, shall be placed by City personnel at all street entrances and alleys leading into the closed area. No markings of any kind will be permitted on the street, street lights, or electrical poles.

4. All debris, booths, exhibits, or other materials resulting from the Event shall be completely removed and all streets and alleyways shall be reopened to traffic by 5:00 p.m. on the date of the Event.

5. PROMOTER shall notify in writing all businesses, located on the streets to be closed, of the Event and planned street closure not later than five (5) days in advance of the Event.

6. To the fullest extent allowed by law, PROMOTER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from, arising out of or in connection with the Event or the attendant street and/or garage closures, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

PROMOTER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

7. The PROMOTER shall obtain insurance covering the Event in accordance with the attached insurance requirements, which are incorporated herein by this reference.

8. CITY reserves the right to cancel this Agreement if PROMOTER has knowingly made a false statement of material fact or has knowingly omitted to state a material fact to CITY.

9. PROMOTER shall reimburse CITY for all staff costs incurred relating to the Event including, but not limited to, street closure costs.

10. PROMOTER shall obtain security services for the Event as required by the Roseville Police Department. In the event PROMOTER desires to retain Roseville Police Officers (instead of a private security provider) for provision of security for the Event, PROMOTER shall, prior to the Event, enter into a Supplemental Law Enforcement Services Agreement with CITY.

11. Either party may terminate this Agreement by giving the other party ten (10) days advance written notice.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, and PROMOTER has caused this Agreement to be executed.

## COUNCIL COMMUNICATION

**CC #: 9300**

**File #: 0704**

**Title:** On-Call Landscape Architectural Services - Professional Design Services  
Agreements Amendments

**Contact:** Tara Gee 916-774-5253 tgee@roseville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 7.25.**

### RECOMMENDATION TO COUNCIL

Adopt resolutions to approve the first amendment to professional design services agreements for on-call landscape architectural services with three firms, Verde Design, Schmidt Design Group and Quadriga Landscape Architecture, authorize the Acting City Manager to execute the agreement amendments, and authorize the City Manager to execute the remaining renewal of the agreements without further Council approval, contingent upon budget approval.

### BACKGROUND

The Parks, Recreation & Libraries Department is projecting a number of Capital Improvement Projects, including new park design and construction and major rehabilitation projects over the next few years.

In March 2017, the Parks, Recreation, & Libraries Department issued a Request for Qualifications/Proposals (RFQ/P) to provide on-call Landscape Architectural Design Services. Eleven (11) firms submitted a Response to the RFQ/P. Verde Design, Schmidt Design Group and Quadriga Landscape Architecture ranked as the top three. Given the forecasted volume of work, contract awards included agreements with the top three firms in order to allow for a variety of services, an ability to match the type of project to the firm's expertise, the ability to respond in a timely manner and to allow for equitable distribution of work. Additionally, these firms would be available to provide plan review services for private development projects should the demand and volume require additional resources.

The agreements included a one year base term with the option of two – additional one year extensions for each firm.

### FISCAL IMPACT

Funding for professional services is provided through: 1) Capital Improvement Projects as

approved during the fiscal year budgets, 2) an approved professional services budget, or 3) developer reimbursements. Project specific quotes are obtained prior to the start of any work. There will be no net impact to the General Fund. The original three year total is a not-to-exceed \$150,000.00 per firm. During the first base year of work, all three firms were assigned several projects totaling close to the original contract total of \$150,000.00. Approval of the increased total contract authorization up to \$450,000.00, not to exceed \$150,000.00 per year, per firm, will allow the Department to meet on going demands for additional on-call services during the renewals years.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Design and construction document preparation services are the first step toward construction of park improvements. Both the construction and maintenance of the park will include contractors. This job opportunity will help stimulate the local economy in two related but separate sectors, the construction industry as well as the landscape maintenance industry.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Approval of the Professional Design Services Agreement does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Tara L. Gee, Park Planning & Development Superintendent

Dion Louthan, Parks, Recreation & Libraries Director

**FIRST AMENDMENT TO  
PROFESSIONAL DESIGN SERVICES AGREEMENT**

**On-Call Landscape Architectural Services**

THIS FIRST AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT is made and entered into this 7 day of May, 2018, by and between the City of Roseville, a municipal corporation ("CITY"), and Quadriga Landscape Architecture & Planning, a California corporation ("CONSULTANT"); and

**W I T N E S S E T H:**

WHEREAS, CITY and CONSULTANT previously entered into a Professional Design Services Agreement dated July 5, 2017 ("Agreement") regarding on-call landscape architectural services ("Project");

WHEREAS, CITY desires to amend the term for an additional year as outlined in Paragraph 1 of the Agreement; and

NOW, THEREFORE, the parties agree as follows:

1. Paragraph 1 of the Agreement is amended to read as follows:

"The term of this Agreement shall commence upon execution and expire on June 30, 2019. CITY may, in its sole discretion through its City Manager or designee, elect to

extend the Agreement for a final year by giving CONSULTANT thirty (30) days advance written notice.”

2. Paragraph 3 of the Agreement is amended by adding an additional paragraph to read as follows:

“For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the compensation rates as described in Exhibit “B”, attached hereto and incorporated herein by this reference. Total compensation shall not exceed four hundred fifty thousand dollars (\$450,000.00). Total annual compensation shall not exceed one hundred fifty thousand (\$150,000.00) per year.

3. Paragraph 16 of the Agreement is amended by adding an additional paragraph to read as follows:

“CONSULTANT understands that continuation of this Agreement past June 30<sup>th</sup> of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council.

4. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its Acting City Manager and attested to by its City Clerk under the authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, and CONSULTANT has caused this First Amendment to Agreement to be executed.

RESOLUTION NO. 18-229

APPROVING A FIRST AMENDMENT TO PROFESSIONAL DESIGN SERVICES  
AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND VERDE DESIGN, INC., AND  
AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE  
CITY OF ROSEVILLE

WHEREAS, a first amendment to professional design services agreement for on-call landscape architectural services, by and between the City of Roseville and Verde Design, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said first amendment is hereby approved and that the Acting City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his or her designee is authorized to execute one additional one-year renewal without further City Council approval, provided that the applicable budget is approved by the City Council.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by the following vote on roll call:

**FIRST AMENDMENT TO  
PROFESSIONAL DESIGN SERVICES AGREEMENT**

**On-Call Landscape Architectural Services**

THIS FIRST AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT is made and entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by and between the City of Roseville, a municipal corporation ("CITY"), and Verde Design, Inc., a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Design Services Agreement dated July 5, 2017 ("Agreement") regarding on-call landscape architectural services ("Project");

WHEREAS, CITY desires to amend the term for an additional year as outlined in Paragraph 1 of the Agreement; and

NOW, THEREFORE, the parties agree as follows:

1. Paragraph 1 of the Agreement is amended to read as follows:

"The term of this Agreement shall commence upon execution and expire on June 30, 2019. CITY may, in its sole discretion through its City Manager or designee, elect to

extend the Agreement for a final year by giving CONSULTANT thirty (30) days advance written notice.”

2. Paragraph 3 of the Agreement is amended by adding an additional paragraph to read as follows:

“For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the compensation rates as described in Exhibit “B”, attached hereto and incorporated herein by this reference. Total compensation shall not exceed four hundred fifty thousand dollars (\$450,000.00). Total annual compensation shall not exceed one hundred fifty thousand (\$150,000.00) per year.

3. Paragraph 16 of the Agreement is amended by adding an additional paragraph to read as follows:

“CONSULTANT understands that continuation of this Agreement past June 30<sup>th</sup> of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council.

4. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its Acting City Manager and attested to by its City Clerk under the authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, and CONSULTANT has caused this First Amendment to Agreement to be executed.

Fees will be charged for technical work, consultation, and additional services. Charges will be made for typing, as in the preparation of reports, and for time and costs of printing. No direct charges will be made for normal secretarial services, office management, or general accounting.

### Hourly Rates

|                                                          |            |
|----------------------------------------------------------|------------|
| Principal Landscape Architect/President .....            | \$225/hour |
| Principal Landscape Architect .....                      | \$185/hour |
| Senior Associate Landscape Architect .....               | \$155/hour |
| Associate Landscape Architect .....                      | \$140/hour |
| Senior Project Manager/Licensed Landscape Architect..... | \$120/hour |
| Project Manager .....                                    | \$95/hour  |
| Landscape Designer .....                                 | \$85/hour  |
| Landscape Drafter .....                                  | \$75/hour  |
| Clerical/Typist.....                                     | \$65/hour  |

### Reimbursable Expenses

Reimbursable expenses such as reproduction printing, delivery service, soils testing, permits, parking, project specific supplies, etc., will be marked up by 15%. In-house plotting will be charged between \$.75 and \$7.75 per square-foot depending on color and paper type.

### Sub-consultants

Expenses for consultants employed by Schmidt Design Group, Inc. will be marked up by 15%.

### Mileage

Mileage in the interest of the client will be charged at the current GSA Mileage Reimbursement Rates.

### Travel

Time spent in travel in the interest of the client will be charged at hourly rates. A minimum of one hour will be charged for any site visit.

## COUNCIL COMMUNICATION

**CC #: 9306**  
**File #: 0721-05**

**Title:** Downtown Bridges and Trail Project - Second Amendment of Professional Design Services Agreement  
**Contact:** Michael Dour 916-746-1304 mdour@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.26.**

### RECOMMENDATION TO COUNCIL

Staff is requesting that City Council adopt the resolution approving the second amendment to the Professional Design Services Agreement with Mark Thomas and Company (MTCO) for construction support and lighting assessment for the Downtown Bridges and Trail Project, and authorize the Acting City Manager to execute the agreement between MTCO and the City of Roseville.

### BACKGROUND

On May 2, 2018, the City Council adopted a budget adjustment and awarded a construction contract to MCM for construction of Phase 2 of the Downtown Bridges and Trail project. The project includes:

- Rotation and refurbishment of the Rube Nelson "Icehouse" bridge;
- Construction of the new "Downtown Pedestrian Bridge", which is a landmark bridge providing a direct connection between Royer Park and the Vernon Street Town Square;
- Construction of the Taylor Street (Library) bridge replacement;
- Continuation of the Miners Ravine Class I Trail into Royer Park; and
- Modifications to the Oak Street, Royer Park and Library parking lots.

Mark Thomas and Company (MTCO) is the design engineer for the project. The City has an existing Professional Design Services Agreement (PDSA) with Mark Thomas and Company (MTCO) for construction support services and lighting assessment. Construction support services are needed if/when the selected contractor has questions for the design engineer. Since the Downtown Bridges and Trail Project includes 1 existing and 2 new bridges, we anticipate that MCM will have questions for MTCO during construction.

The existing PDSA includes construction support services. However, since the adoption of the first amendment to the PDSA, the project was split into two phases (with the first phase construction of hydraulic mitigation work conducted in summer-fall 2017), and the project plans

were updated to include the 3rd bridge. As a result, staff expects there will be additional costs associated with construction engineering support services. MTCO has prepared the attached scope of work for the anticipated additional construction support services with a not to exceed amount of \$118,255.

### FISCAL IMPACT

On May 2, 2018, the City Council approved a budget adjustment for the project that included sufficient funds for the proposed construction support work. As a result, a budget adjustment is not needed.

As a reminder, the source of funds for the project is

| <b>Source of Funds</b>                  | <b>Amount</b>       |
|-----------------------------------------|---------------------|
| Congestion Mitigation Air Quality Grant | \$6,369,000         |
| Active Transportation Grant             | \$1,144,000         |
| Bicycle Transportation Account Grant    | \$101,000           |
| Public Facilities Fund                  | \$456,000           |
| Local Transportation Fund               | \$3,713,100         |
| <b>Total:</b>                           | <b>\$11,783,100</b> |

General fund monies will not be used for this project.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Based on Federal guidelines, there is one job created for every \$92,000.00 in direct government spending. As a result, this PDSA amendment will create 1 job.

### ENVIRONMENTAL REVIEW

The proposed project was previously evaluated in the Downtown Specific Plan Environmental Impact Report (SCH#2007102090)) (Certified by City Council April 1, 2009) and Addendum (March 20, 2013). The improvement plans included in the construction contract are consistent with the project evaluated in the certified Final EIR and consequently no additional CEQA action is required for construction contract approval.

Respectfully Submitted,

Michael Dour, Alternative Transportation Manager

Rhon Herndon, Public Works Director

**SECOND AMENDMENT TO  
PROFESSIONAL DESIGN SERVICES AGREEMENT**

Project: Downtown Bridges Construction Support and Lighting Assessment

THIS SECOND AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT is made and entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by and between the City of Roseville, a municipal corporation ("CITY"), and Mark Thomas & Company, Inc., a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Design Services Agreement dated February 17, 2016 and amended on November 15, 2017 ("Agreement") regarding Downtown Bridges Construction Support and Lighting Assessment ("Project");

WHEREAS, CITY desires to amend the Agreement to include additional services as described in CONSULTANT's letter/proposal dated April 4, 2018, which is attached hereto as Exhibit "A" and incorporated herein by reference; and

WHEREAS, CONSULTANT is willing and able to provide such additional services; and

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall provide additional services as described in Exhibit "A" of this Second Amendment to Agreement.

2. Paragraph 2 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY shall pay one hundred eighteen thousand, two hundred fifty five dollars (\$118,255.00), in consideration of the additional services as set forth in Exhibit "A" to the Second Amendment to Agreement. This brings the total not to exceed contract amount to four hundred fourteen thousand, three hundred seven dollars (\$414,307.00)."

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Second Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, and CONSULTANT has caused this Second Amendment to Agreement to be executed.

## EXHIBIT "A"

## Scope of Services

Mark Thomas will provide professional services for design support during construction as identified below.

Since the scope of bidding support is difficult to determine at this time, Mark Thomas has provided a “budget” amount to be used on a time and materials basis. The estimated budget will be monitored during the construction duration. If the construction support work exceeds the assumed scope and the budget is exhausted, Mark Thomas will discuss whether additional budget is needed based on the current progress of the work.

Mark Thomas will serve as the primary point of contact for RFIs requiring responses from the design team. Mark Thomas will provide clarification and interpretation of the plans and specifications as needed. Mark Thomas will distribute and facilitate review of shop drawings and product submittals among the design team.

## COUNCIL COMMUNICATION

**CC #: 9305**  
**File #: 0800-04**

**Title:** Environmental Compliance Support Services - On-Call Professional Services Agreements  
**Contact:** Hossein N. 916-746-1300 hnaghibzadeh@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.27.**

### RECOMMENDATION TO COUNCIL

Staff recommends the City Council adopt two resolutions to approve On-Call Professional Services Agreements with ICF Jones & Stokes and ECORP Consulting for design and construction project on-call environmental support, and authorize the Acting City Manager to execute them.

### BACKGROUND

The Public Works Engineering Division is responsible for the design and construction of various City infrastructure improvements such as roads, bridges, drainage facilities, traffic signals, and municipal buildings. For these projects to be successful, cost efficient, and to comply with State and Federal environmental regulations, City staff requires the assistance of professionals in the environmental field. The most cost effective and time efficient method of obtaining these additional resources is through multiple on-call Professional Services Agreements following an open request for proposals.

Staff recently released a Request for Proposals (RFP) for on-call environmental compliance support services for design and construction projects and received a total of 16 proposals in response to the RFP. After evaluation of the 16 proposals, a selection committee composed of Engineering staff members selected ICF Jones and Stokes Inc. and ECORP Consulting Inc. to provide the requested services. The selection of these two firms was based on their extensive experience with the requested services for projects similar to those that the Public Works Department anticipates to design or construct over the next three years.

### FISCAL IMPACT

The not to exceed cost for the requested services provided by the combination of the two agreements over the next three years is \$900,000.00. There is no guaranteed minimum amount of work provided in the contracts, and payment will only be made for work completed. The

agreements will be funded by various Council approved CIP budgets at no cost to General Fund.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Federal guidelines suggest that there is one job created for every \$92,000.00 in direct government spending. Based on that figure, these agreements would create 9.8 jobs.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines 15061(b)(3)). These professional services agreements do not include the potential for a significant environmental effects, and therefore are not subject to CEQA.

Respectfully Submitted,

Hossein Naghibzadeh, Associate Engineer

Rhon Herndon, Public Works Director

## ON-CALL PROFESSIONAL SERVICES AGREEMENT

Services: Environmental Compliance Support Services for Design and Construction

THIS AGREEMENT is made and entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_,  
by and between the City of Roseville, a municipal corporation ("CITY"), and ECORP  
Consulting, Inc., a California corporation ("CONSULTANT"); and

### W I T N E S S E T H:

WHEREAS, CITY issued Request for Proposal #15-58 for professional services  
consisting of on-call environmental compliance support services for design and construction; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated  
October 19, 2017, which describes the scope of services to be performed by CONSULTANT,  
and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional  
environmental compliance support services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on  
June 6, 2021. The City Manager may, in his or her discretion, elect to extend the Agreement in  
one (1) year increments for up to an additional two (2) years by giving CONSULTANT thirty  
(30) days advance written notice of each optional one (1) year renewal. Such extensions shall be  
memorialized by a written amendment to this Agreement.

2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of

the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may assign work to one, or more than one CONSULTANT from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single CONSULTANT. In addition, the inclusion of any CONSULTANT on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed one hundred fifty thousand dollars per year (\$150,000) for an overall total compensation for the initial term not to exceed four hundred fifty thousand (\$450,000). Total compensation for optional renewal years of this Agreement shall not exceed one hundred fifty thousand dollars per year (\$150,000). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council.

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

| <u>COVERAGE</u>                               | <u>LIMITS OF LIABILITY</u>                                                                                                       |
|-----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Workers' Compensation                         | Statutory                                                                                                                        |
| Commercial General Liability                  | \$1,000,000 each occurrence<br>\$2,000,000 aggregate<br>Personal Injury:<br>\$1,000,000 each occurrence<br>\$2,000,000 aggregate |
| Automobile Liability                          | \$1,000,000 combined single limit                                                                                                |
| Professional Liability (errors and omissions) | \$1,000,000 per claim<br>\$2,000,000 aggregate                                                                                   |

a. Form. CONSULTANT shall submit a certificate evidencing such

coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage,

nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. CONSULTANT shall include this provisions in its contracts with all subcontractors.

7. Time is of the Essence. Time is of the essence of this Agreement.

8. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

9. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

10. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

11. Assignment. CONSULTANT is employed to perform unique personal services.

CONSULTANT shall not assign this Agreement without the prior written consent of CITY.

CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

12. Independent Contractor. CONSULTANT shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

13. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

14. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

15. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including

computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

16. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30<sup>th</sup> of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any Material, notwithstanding any termination or any dispute regarding the amount to be paid.

17. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's

fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

18. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

19. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

20. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE

Rhon Herndon  
Public Works Director  
311 Vernon Street  
Roseville, CA 95678

CONSULTANT

Chris Stabenfeldt  
Project Manager  
2525 Warren Drive  
Rocklin, CA 95677

Either party may amend its address for notice by giving notice to the other party in writing.

21. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, and CONSULTANT has caused this Agreement to be executed.

## EXHIBIT “A”

## TAB D: PROJECT UNDERSTANDING

ECORP has considerable experience and has managed on-call environmental services contracts for more than 50 clients. Because on-call contracts require varied responses to a number of different kinds of tasks, ECORP has developed a management process for efficient initiation, performance, and completion of contract task orders and projects. ECORP's combination of small business efficiency, technical expertise, experience with state and federal environmental regulations, and our local knowledge of the City will ensure that our project managers provide the City with the expertise needed to complete the projects by assisting the City in compliance with all environmental regulations.

ECORP has conducted environmental services for more than 500 projects in the City, an average of more than 16 projects per year since the company's inception. ECORP has multiple Senior Project Managers with extensive knowledge of local conditions, CEQA/NEPA and regulatory permitting available to serve the City.

The Program Manager, Project Managers, and supporting technical staff have managed the preparation of dozens of EIRs, IS/MNDs, EAs, and CEs supported by technical studies for a full range of project types. Key team members have conducted regulatory permitting with the USACE (Regulatory and 408 Divisions), USFWS, NMFS, CDFW, RWQCB, and SHPO. Our experience with the local resources and local representatives of agencies likely to be involved in City projects will enable us to efficiently guide the City through the environmental process for its projects. Please see Tab C. Qualifications of Team and the resume section of this submittal for a more detailed description of this experience.

ECORP's experience and successful completion of task orders under numerous on-call contracts with public agencies provides us with a keen understanding of the importance of the project initiation process. Beginning at the initial project planning level, ECORP staff will work closely with City staff to determine the environmental constraints for the project so that they may be identified and addressed early in the process, if possible. We will provide assistance to the City in the development of practical and effective mitigation measures. The ECORP assigned Project Manager will maintain frequent contact with key City staff member(s) to make sure project descriptions have not changed significantly and to coordinate any changes that are required. We have used this methodology successfully on all ECORP on-call contracts, as well as individual projects.

*ECORP's local experience includes the Placer Vineyards project, for which ECORP has provided a variety of environmental services*

## **TAB E: PROJECT PLAN**

ECORP's experience and successful completion of task orders under numerous on-call contracts with public agencies provide us with a keen understanding of the importance of the project initiation process. For example, Mr. Stabenfeldt managed our recent three-year California Department of General Services on-call services contract under which we completed more than 40 task orders.

For each on-call contract task order, ECORP will hold a kick-off meeting with City staff to discuss the project scope, required tasks, estimated project budget, and the proposed agreement; outcomes of these meetings will be summarized and distributed to all parties working on the task order. Once the project is underway in its earliest stages, the ECORP project manager will maintain daily contact with the key City staff member(s) to make sure the project description has not changed significantly and to coordinate any changes that are required. We have used this methodology successfully on all ECORP on-call contracts, as well as individual projects.

ECORP typically schedules project kickoff meetings with the client within 5 to 10 working days of an executed task order and notice to proceed (NTP). Field work is typically completed within 4 weeks, depending on the specific species protocol and the time of year since many biological surveys must be scheduled during appropriate survey periods. MNDs are typically completed within 3 to 6 months and EIRs are typically completed within 9 to 12 months. Recognizing that many of the City's upcoming projects will utilize federal funding, ECORP understands and can implement the Caltrans Local Assistance process. We have prepared CE/CEs, EA), joint IS/EAs, and MND/FONSIs for a series of projects with Caltrans involvement. In addition, ECORP has prepared technical studies in support of the PES and NEPA/CEQA documents per the requirements from Caltrans' SER and FHWA. These include, but are not limited to: Section 106 NHPA compliance, Natural Environment Studies (NES), Biological Assessments (BA), Community Impact Assessments, Section 4f analyses, and Clean Air Act compliance. Based on our experience with similar projects with Caltrans involvement and federal funding, ECORP understands the added level of effort for NEPA documentation and coordination, including public participation, which needs to be factored into the overall schedule and budget for a successful project.

### **RATE SCHEDULE FOR PROFESSIONAL SERVICES<sup>1</sup>**

#### **ECORP's Team Key Personnel:**

|                                                                                    |          |
|------------------------------------------------------------------------------------|----------|
| Chris D. Stabenfeldt, AICP, Program Manager, CEQA/NEPA Task Manager .....          | \$200.00 |
| Lisa Westwood, RPA, Cultural Resources Task Manager.....                           | \$260.00 |
| Shawn Munger, CHG, Environmental Due Diligence Task Manager (ENGEO) .....          | \$260.00 |
| Jeffrey K. Meyer, P.E. Water Resources Task Manager.....                           | \$220.00 |
| Jeff Swager, GIS Task Manager .....                                                | \$150.00 |
| Kenneth D. Anderson, P.E., Traffic Task Manager (KDA).....                         | \$150.00 |
| Krissy walker-Berry, Biological Resources/ Regulatory Permitting Task Manager..... | \$145.00 |
| Seth Myers, Air Quality/Noise Task Manager.....                                    | \$145.00 |

#### **Other:**

|                                                                             |                 |
|-----------------------------------------------------------------------------|-----------------|
| Project Principal .....                                                     | \$150.00-250.00 |
| Project Managers .....                                                      | \$80.00-250.00  |
| Cultural Resources .....                                                    | \$60.00-260.00  |
| Engineer/Biologist/ Ecologist/Scientist.....                                | \$95.00-220.00  |
| Environmental Specialist/Planner .....                                      | \$55.00-190.00  |
| Construction Monitoring .....                                               | \$70.00-190.00  |
| CAD / GIS / <i>Software Specialist</i> .....                                | \$70.00-190.00  |
| QAQC/Technical Editor .....                                                 | \$90.00-150.00  |
| Air Quality/GHG/Noise Analyst.....                                          | \$90.00-145.00  |
| Staff Engineer/Biologist/Ecologist/Scientist .....                          | \$65.00-135.00  |
| Assistant/Associate/Staff Project Manager .....                             | \$45.00-135.00  |
| Project Assistant/Project Administrator/Project Accountant/Controller ..... | \$45.00-175.00  |
| Lab Technician.....                                                         | \$45.00-90.00   |
| Word Processing / Production Coordinator .....                              | \$45.00-100.00  |

| Project Assistant.....                         | \$121.00 per hour      |

\* Two-hour minimum portal to portal.

\* **OVERTIME RATES:** Rates increased by factor of 1.5 for all hours worked in excess of eight (8) Monday through Friday, and the first eight (8) hours worked on Saturday. Rates increased by factor of 2.0 for all hours worked in excess of twelve (12) Monday through Friday, all hours worked in excess of eight (8) on Saturday and all hours worked on Sunday and holidays.

\*\* For Prevailing Wage projects, increase the hourly rate by \$15.

\*\* Rates increased by factor of 1.25 for night shift hours (hours commencing after 4:00 p.m. or before 4:00 a.m.); rates increased by factor of 1.875 (an additional factor of 1.5) for all night shift hours in excess of eight (8).

## ADDITIONAL SERVICES OFFERED

In addition to our core services of geotechnical, hydrologic and environmental engineering, including construction-phase testing and observation, ENGEO provides clients with services for establishment and management of Geologic Hazard Abatement Districts (GHAD) and for Entitlement and Permitting Support (EPS). For more information about these services and associated pricing, please contact ENGEO at (925) 866-9000.

## OTHER FEES

- Equipment and materials will be charged in addition to the above hourly rates.
- Outside Consultants, Subcontracted Services and Equipment Rental .....Cost plus 20%
- Deposition, Mediation, Arbitration, or Court Appearance (Minimum Charge)..... \$2,000.00 half day, \$4,000.00 full day

## TERMS

Invoices will be submitted at completion of work or at approximately four week intervals and are due and payable upon receipt. Statements will be issued at monthly intervals. Charges not paid within 30 days of invoice date will accrue a late charge at a rate of 1.5 percent per month. In the event it becomes necessary to commence suit to collect amount due, Client agrees to pay attorney's fees and costs, as the court may deem reasonable until amount is paid. Fees will be applicable for one year from the effective date above; thereafter, fees will be adjusted annually. Our fees will be billed using an invoice format produced by a standardized accounting software package. A more customized itemization of charges and backup data will be provided upon Client's requests, but at additional fees. Final reports may be withheld until outstanding invoices are paid in full.

Many risks potentially affect ENGEO by virtue of entering into this agreement to perform services on behalf of client. A principal risk is the potential for human error by ENGEO. For client to obtain the benefit of a fee that includes a nominal allowance for dealing with our liability, client agree to limit ENGEO's liability to Client and all other parties for claims arising out of our performance of the services described in the agreement. The aggregate liability will not exceed \$50,000 (ENGEO's fee, whichever is greater, but not more than \$1,000,000) for professional acts, errors, or omissions, including attorney's fees and costs that may be awarded to the prevailing party and client agrees to indemnify and hold harmless ENGEO from and against all liabilities in excess of the monetary limit established above.

## EQUIPMENT AND MATERIALS CHARGES

| DESCRIPTION                                                              | COST PER UNIT (\$) | UNIT        |
|--------------------------------------------------------------------------|--------------------|-------------|
| Air Content Meter                                                        | 7.00               | hour        |

RESOLUTION NO. 18-233

APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT BY AND  
BETWEEN THE CITY OF ROSEVILLE AND ICF JONES & STOKES, INC., AND  
AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE  
CITY OF ROSEVILLE

WHEREAS, an on-call professional services agreement regarding on-call environmental compliance support services for design and construction, by and between the City of Roseville and ICF Jones & Stokes, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved and that the Acting City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 2018, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

\_\_\_\_\_  
MAYOR

ATTEST:

\_\_\_\_\_  
City Clerk

## **ON-CALL PROFESSIONAL SERVICES AGREEMENT**

Services: Environmental Compliance Support Services for Design and Construction

THIS AGREEMENT is made and entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_,  
by and between the City of Roseville, a municipal corporation ("CITY"), and ICF Jones &  
Stokes, Inc., a Delaware corporation ("CONSULTANT"); and

### **W I T N E S S E T H:**

WHEREAS, CITY issued Request for Proposal #15-58 for professional services  
consisting of on-call environmental compliance support services for design and construction; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated  
October 19, 2017, which describes the scope of services to be performed by CONSULTANT,  
and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional  
environmental compliance support services for design and construction on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on  
June 6, 2021. The City Manager may, in his or her discretion, elect to extend the Agreement in  
one (1) year increments for up to an additional two (2) years by giving CONSULTANT thirty  
(30) days advance written notice of each optional one (1) year renewal. Such extensions shall be  
memorialized by a written amendment to this Agreement.

2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may assign work to one, or more than one CONSULTANT from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single CONSULTANT. In addition, the inclusion of any CONSULTANT on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed one hundred fifty thousand dollars per year (\$150,000) for an overall total compensation for the initial term not to exceed four hundred fifty thousand (\$450,000). Total compensation for optional renewal years of this Agreement shall not exceed one hundred fifty thousand dollars per year (\$150,000). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council.

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one quarter (1/4) of an hour. CITY shall pay invoices

within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

| <u>COVERAGE</u>              | <u>LIMITS OF LIABILITY</u>                                                                                                       |
|------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Workers' Compensation        | Statutory                                                                                                                        |
| Commercial General Liability | \$1,000,000 each occurrence<br>\$2,000,000 aggregate<br>Personal Injury:<br>\$1,000,000 each occurrence<br>\$2,000,000 aggregate |
| Automobile Liability         | \$1,000,000 combined single limit                                                                                                |

Professional Liability (errors and omissions)

\$1,000,000 per claim  
\$2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this

Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and

Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars (\$200)

for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal, and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor

Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Time is of the Essence. Time is of the essence of this Agreement.

CONSULTANT is not liable for delay in performance or nonperformance caused by Acts of God, war, civil disturbance, government action, labor dispute, computer virus, pandemic illness, inadequate access to CITY's site or data, or for other causes beyond CONSULTANT's reasonable control.

10. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

11. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

12. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

13. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

14. Independent Contractor. CONSULTANT shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither

hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

15. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

16. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

17. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment.

In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

In addition to the rights granted under the preceding paragraphs, CONSULTANT may also provide "Consultant Property," which shall mean all material existing and within the possession of CONSULTANT prior to entering into this Agreement, including, but not limited to, any products, software, materials and methodologies proprietary to CONSULTANT or provided by its suppliers and any trade secrets, know-how, methodologies and processes related to CONSULTANT's products or services, all of which shall remain the sole and exclusive property of CONSULTANT or its suppliers. Subject to the terms of this Agreement, CONSULTANT grants CITY a non-exclusive, non-transferable, irrevocable license to use the Consultant Property contained in the deliverables provided hereunder for the purpose of this Agreement only.

18. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30<sup>th</sup> of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material

hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any Material, notwithstanding any termination or any dispute regarding the amount to be paid.

19. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

22. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE

Rhon Herndon  
Public Works Director  
311 Vernon Street  
Roseville, CA 95678

CONSULTANT

Susan Bushnell-Bergfalk  
Project Manager  
630 K Street, Suite 400  
Sacramento, CA 95814

Either party may amend its address for notice by giving notice to the other party in writing.

23. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, and CONSULTANT has caused this Agreement to be executed.

## TAB D: PROJECT UNDERSTANDING

---

Based on the information presented in the RFP and our experience working on City Capital Improvement Program (CIP) projects, we understand the Public Works Engineering Division's need to have an environmental consulting team available and ready to respond to services related to design and construction of projects. The ICF team understands that successful compliance with environmental laws and regulations requires having qualified consultants who understand the City's guidelines and processes; know the local resources and agencies; and are available, responsive, flexible, and trustworthy.

Our team has a proven history of helping the City avoid permit triggers by providing on-the-ground guidance for avoiding such triggers (e.g., placement of fill below creek ordinary high water marks) or providing guidance on how best to obtain permits and deal with regulatory agencies given project schedule and design constraints. This requires not only an in-depth understanding of environmental and public issues, but also an understanding of the regulatory, engineering/design, and construction requirements of a particular project.

### General Approach

The ICF team's general approach to managing task orders under this on-call contract involves the following:

- ▶ Providing a single point of contact (Susan Bushnell-Bergfalk), who has the proven ability to assemble a technical team and respond quickly to City requests, and a team of local subconsultants that have worked in the City and understand City processes and expectations
- ▶ Being available to respond rapidly to task orders and provide unbiased results in a timely fashion
- ▶ Providing a diverse and experienced in-house and subconsultant team of technical specialists who are accustomed to working together to meet tight schedules
- ▶ Conducting thorough and defensible biological, wetland, and cultural resource evaluations
- ▶ Staying current with Caltrans guidelines and having a close working relationship with Caltrans District 3.
- ▶ Identifying constraints early to assist in avoiding significant impacts and costly mitigation
- ▶ Providing up-front and proactive regulatory guidance to help the City develop strategies for the CIP
- ▶ Providing complete, edited, and peer-reviewed deliverables to minimize errors and City review time

### Issues for Special Consideration

Based on our review of existing information and experience with similar projects, we believe the primary issues for special consideration will be:

- ▶ **Permitting and Regulatory Issues.** Avoiding and minimizing effects on biological, cultural, and tribal resources to avoid lengthy permitting processes is critical. A variety of sensitive cultural resources and federally and state-listed species occur in the City and could be affected as part of CIP projects. We will work with the City to identify these sensitive resources and help develop engineering, timing, and construction measures to avoid potential effects and associated permits and fees, if feasible.
- ▶ **AB 52 and Native American Tribal Coordination.** As the City is aware, local tribes are becoming more involved in reviewing projects as part of the CEQA process. Assisting with AB 52 consultation and supporting tribal monitoring requests will be key services we can provide to support the City in your efforts to comply with state requirements and local tribe requests. Our team includes cultural resource specialists that have strong relationships with the local tribes (United Auburn Indian Community) and tribal monitors that will be available if needed.
- ▶ **Caltrans NEPA Technical Studies and Appropriate Level of Documentation.** Understanding the Caltrans process and providing the appropriate level of documentation will be important for expediting project review. We know from experience on other local assistance projects that understanding Caltrans current guidance is

important in preparing the appropriate level of documentation. This reduces Caltrans review times and ensures the NEPA process is completed in a timely manner.

- ▶ **Current Regulatory Processes.** Providing guidance to the City on new and evolving regulatory processes, including new CDFW 1602 LSAA requirements and State Water Resources Control Board definitions of waters of the state, will be important for CIP projects that cross waterways. A thorough understanding of the current regulatory environment and knowledge of what to permit or not permit will be key to saving time and permit costs.
- ▶ **State-of-the-Practice Transportation Analysis Tools and Techniques.** Having access to the most current transportation system evaluations will be important to provide guidance to the City on engineering approaches. Our team includes Fehr & Peers, which developed the City's 2035 CIP travel demand model and analyzed operations at all signalized intersections throughout the City. Fehr & Peers routinely uses micro-simulation models to analyze traffic operations, estimate the trip generation of proposed land developments using the Mixed-Use Trip Generation (MXD+) WebApp, and analyze bicycle and pedestrian facilities using advanced methods such as BikeScore+ and Streetscore+.
- ▶ **Hydraulic and Floodplain Issues.** The most challenging hydraulic/floodplain issue related to bridge and bike trail projects along creeks is to identify and mitigate potential increases in water surface elevations. In some special cases, modifications to existing flood protection measures, such as floodwalls, may be required and therefore would also need to be addressed. The first step in evaluating a project from a flood impact perspective is to determine if the project may impact a Federal Emergency Management Agency regulatory floodway and if it is possible to avoid it. Additionally, to address City requirements, any potential rise in water surface elevation must be addressed. Furthermore, designated floodways in Title 23 of the California Code of Regulations must address specific requirements of the Central Valley Flood Protection Board. Wood Rodgers will apply its detailed knowledge of the Dry Creek and Pleasant Grove Creek watersheds to identify the specific issues and requirements that need to be addressed for each project.

## TAB E: PROJECT PLAN

To support City staff with environmental services related to design, construction, and post-construction phases of capital improvement projects, our team understands the importance of having working knowledge of the full range of CEQA, NEPA, and permit requirements that could be involved with the various environment tasks. The ICF team will work closely with the City to prepare the required technical studies to support NEPA (Caltrans/Federal Highway Administration [FHWA]), CEQA, and associated state and federal permit applications. We believe that any one or a combination of the following services may be required to support the City from design to construction of projects under the CIP. The following discussion provides our team's approach to delivering services described in the RFP.

**Task 1: Identify Environmental Scope and Strategy.** Our scope of work and strategy approach is to provide comprehensive assessment of the regulatory requirements balanced with pragmatic delivery of services to help the City implement your projects efficiently. When the City identifies a project, the ICF team (led by Susan Bushnell-Bergfalk) will work closely with you to identify the appropriate level of services and best regulatory strategy for accomplishing your project goals and schedule. We understand that the work will be provided on an "as-needed" basis and under a task order system. For each potential task, the City will request a proposal that will include a description of work, name of person(s) to perform services, not-to-exceed cost, and schedule for completion. After reviewing the proposal, the City will authorize the task by issuing a task order.

**Task 2: Prepare Project Description.** Preparing a detailed project description that contains all the required elements to support the NEPA technical studies, CEQA document, and permit applications is key to expediting the schedule and developing feasible project alternatives for any project. ICF will work with the project team to prepare appropriate project descriptions for each type of compliance document.

**Task 3: Prepare Caltrans' Preliminary Environmental Study to Support the Caltrans NEPA Process.** For CIP projects that involve federal funds, the ICF team will work closely with the City and Caltrans to complete the Caltrans' Preliminary Environmental Study (PES) form using the Caltrans Local Assistance Procedures Manual Chapter 6, Environmental Procedures.

**Task 4: Prepare Caltrans' Technical Studies.** Based on the Caltrans PES requirements, the ICF team will prepare the Caltrans technical studies, which may include noise and air quality studies (ICF), water quality studies (JJ&A), NESs (including wetland delineation, BAs, and arborist reports) (ICF), historic preservation and archaeological study reports (ICF), traffic study reports (Fehr & Peers), floodplain/hydraulic study reports (Wood Rodgers), community impact assessments (ICF), Phase I and II studies/ADL screening investigations (Blackburn Consulting), and visual impact assessment and Section 4(f) resource reports (ICF). In addition, we have the staff and expertise to support Native American tribal coordination and tribal monitoring (Aerotek), if required.

ICF will implement several levels of quality control during the preparation of the environmental documentation. Our in-house technical editors will edit the various documents and permit applications for internal consistency and clarity and to ensure that references and citations are supported.

**Sub-task 4a: Biological Resource Studies (NES, Wetland Delineation, BA, Arborist Survey).** As part of this subtask, the ICF biological team (consisting of a botanist/wetland ecologist/arborist and wildlife biologist) will conduct the appropriate levels of surveys and prepare an NES report, wetland delineation report, arborist report, and U.S. Fish and Wildlife Service BA (if necessary) that will be used to support the NEPA CE, CEQA biological resources section, and state and federal permit applications. All surveys and reports will conform to Caltrans' Guidance for Consultants Procedures for Completing the Natural Environmental Study and Related Biological Reports (1997 and April 30, 2002, memorandum).

**Sub-task 4b: Cultural Resource Studies (HPSR, Archeological Survey Report, and HRER).** A team of ICF archeologists and historians will conduct cultural resource studies consistent with the guidelines and recommended procedures outlined in Caltrans' Standard Environmental Reference, Volume 2: Cultural Resources and in

accordance with Section 106 of the National Historic Preservation Act. The cultural resource staff will follow methods outlined in the Caltrans Programmatic Agreement and any reasonable additional methods requested by Caltrans at the time the project is initiated. ICF will provide support for the City on consultation and documentation of tribal cultural resources as required under CEQA by AB 52.

**Sub-task 4c: Noise Study Report.** ICF noise specialists will conduct noise studies in accordance with procedures specified by the Caltrans Traffic Noise Analysis Protocol and by the FHWA in Title 23, Section 772 of the Code of Federal Regulations (CFR) (23 CFR 772).

**Sub-task 4d: Air Quality Reports.** ICF air quality specialists will prepare the analyses and documentation to support the NEPA document and CEQA air quality and GHG analysis. The Caltrans technical reports may include an air quality study report, air quality conformity analysis, and air quality conformity checklist.

**Sub-task 4e: Visual Impact Assessment.** An ICF visual resource specialist will prepare a visual impact analysis. The level of visual impact analysis will be determined by completing the Caltrans' Visual Impact Assessment Guide. For most of the CIP projects, we anticipate that a minimal visual impact analysis will be sufficient for evaluating project impacts. We will perform the analysis using methods and protocol developed by FHWA and adopted by Caltrans.

**Sub-task 4f: Section 4(f) Study.** Depending on the types of impacts associated with a particular project, Section 4(f) compliance may be required by Caltrans. ICF's Section 4(f) specialist Kim Stevens will prepare a Section 4(f) analysis and documentation that is consistent with Caltrans' Standard Environmental Reference (SER) and FHWA guidance.

**Sub-task 4g: Land Use and Community Impact Assessment.** Some CIP projects may trigger the need for a community impact assessment. We will prepare the community impact assessment in accordance with Caltrans Environmental Handbook Volume 4: Community Impact Assessment.

**Sub-task 4h: Hydraulic Study Report.** Wood Rodgers will prepare a location hydraulic study, summary floodplain encroachment report, and, if necessary for encroachments, a floodplain evaluation report in accordance with described in the Caltrans Highway Design Manual and Caltrans SER.

**Sub-task 4i: Traffic Study.** Fehr & Peers, overseen by ICF, will prepare a traffic impact study in accordance with the Caltrans Guide for the Preparation of Traffic Impact Studies. We will prepare traffic memoranda or other similar supporting analyses as applicable to the project.

**Sub-task 4j: Phase I/II Study and ADL Investigation Screening.** Blackburn Consulting, overseen by ICF will prepare a Phase I initial site assessment, Phase II site investigation, and ADL investigation screening in accordance with Chapter 10 – Hazardous Materials, Hazardous Waste, and Contamination of Caltrans' SER.

**Sub-task 4k: Water Quality Study.** JJ&A, overseen by ICF, will prepare a water quality assessment report, water quality technical memorandum, or similar water quality studies in accordance with guidance in Caltrans' SER.

**Task 5: Complete NEPA Categorical Exclusion Form.** We anticipate that if NEPA is triggered for the CIP projects, the projects will likely qualify for a CE under NEPA. ICF will support the City and Caltrans in their efforts to complete the continuation page of the CE Determination Form listing all environmental commitments identified for the project.

**Task 6: Prepare CEQA Document.** Preparation and processing of the CEQA document will be conducted consistent with the City of Roseville CEQA Implementing Procedures for the Preparation, Processing, and Review of Environmental Documents, dated 2008. In most cases, preparation of the CEQA document will occur on a parallel path with the NEPA technical studies (if NEPA is triggered through federal funding). We will use the information used to prepare the technical studies to prepare the impact analyses for the CEQA document. We will draw upon the resources of our in-house CEQA expert (Terry Rivasplata, AICP) to help develop the project objectives and overall strategic approach for the CEQA document.

**Task 7: Prepare Permit Applications and Secure Permits.** If the project cannot be designed to avoid a permit trigger, the ICF team (ICF, JJ&A, and Wood Rodgers) will assist the City in acquiring the required permits. Our team has the expertise in and experience on other City CIP projects to support the acquisition of permits listed in the RFP.

**Task 8: Conduct Environmental Compliance Monitoring (Biological, Cultural, and Tribal)**

ICF has provided construction and post-construction monitoring services to the City for several years on a variety of projects (as listed in TAB D: Project Understanding). Our team includes CDFW-approved designated biologists (Angela Alcala and John Howe), cultural monitors with Roseville experience, tribal monitors (**Aerotek**), local SWPPP QSP/QSD monitors (**JJ&A**), and ICF restoration specialists. Services under this task will include the following:

- ▶ Review environmental documents and permits and identify monitoring and reporting tasks
- ▶ Provide preconstruction and post-construction notifications to the resource agencies, if requested
- ▶ Assist the City in identifying and securing mitigation bank credits
- ▶ Attend start-up meeting with the City, contractor, and inspectors.
- ▶ Conduct preconstruction surveys and support in compliance with various permit conditions
- ▶ Provide on-site biological (wildlife/fish), cultural, SWPPP, and tribal monitoring and training
- ▶ Prepare restoration plans and conduct annual monitoring and reporting
- ▶ Provide post-construction documentation to the City, including photographs, daily monitoring logs, environmental training sign-in sheets, and agency coordination.

City of Roseville On-Call Fee Schedule\*

| Labor Classification/Lead Staff           | Per Hour              |
|-------------------------------------------|-----------------------|
| <b>Project Director</b>                   |                       |
| ▪ Steven Centerwall                       | \$215                 |

**Title:** 316 Vernon Retail Lease Broker Commission - Budget Adjustment

**Contact:** Mike Isom 916-774-5527 misom@roseville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 7.28.**

### RECOMMENDATION TO COUNCIL

Staff recommends that the Council adopt an ordinance authorizing a budget adjustment of \$16,000 from the Strategic Improvement Fund for payment of the broker commission relating to the recently executed 316 Vernon retail space lease with Goose Port Inc.

### BACKGROUND

On August 16, 2017, the City executed an exclusive listing agreement with the commercial broker CBRE, Inc. to market and lease the ±5,200 s.f. retail space (known as "Retail 1") directly fronting Vernon Street on the City's behalf. Shortly after executing the listing agreement, CBRE presented the City with a prospective restaurant tenant doing business as "Goose Port Public House" to occupy approximately 2,641 s.f. of Retail 1. The lease with Goose Port was approved by the Council at its May 23, 2018 meeting.

The listing agreement provides a commission schedule upon which commissions are to be calculated. Commissions shall be earned and payable when the lease is executed by both parties, in accordance with the following rate: 5% of the total base rental for the first 60 months in which rent is to be paid, plus 3% of the total base rental for the remainder of the term. In the event a cooperating broker is involved, the commission shall be 6% of the total base rental for the first 60 months in which rent is to be paid, plus 3% of the total base rental for the remainder of the term. Payment shall be 50% upon a mutually executed lease agreement and 50% when the tenant has opened for business and has commenced paying rent.

In this case, a cooperating broker was involved, thus the 6% commission scenario applies. The total commission due to CBRE for the Goose Port lease is approximately \$30,424 (subject to final invoice). Half of the commission is due now; the other half will be due later this year once the tenant is open for business, which is expected sometime during the 2nd quarter of FY2018-19. A second budget adjustment will be required at that time for the balance.

### FISCAL IMPACT

Approval of the budget adjustment would result in a short term impact of \$16,000 to the strategic improvement fund. However, the Goose Port lease will generate \$35,654 (inclusive of six months free rent), growing to \$83,984 annually by the end of the initial term. The total projected revenue from the initial 126-month term is \$770,115.

#### ECONOMIC DEVELOPMENT / JOBS CREATED

Approval of the budget adjustment for payment of the broker commission is not expected to result in measurable economic development activity or job creation.

#### ENVIRONMENTAL REVIEW

The proposed project involves an activity associated with the leasing of an existing facility. This activity is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section 15301).

Respectfully Submitted,

Mike Isom, Acting Development Services Director

Ordinance No. 5979

Budget Adjustment Form

ORDINANCE NO. 5979

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE  
AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18  
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY  
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2017-18, is hereby amended by transferring appropriation to and from the activities indicated below:

Appropriate funds for broker commission relating to the recently executed 316 Vernon retail space lease with Goose Port, Inc., per request of the Development Services Department, as listed on the attached Request for Budget Adjustment in the amount of \$16,000.00.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this \_\_\_\_\_ day of \_\_\_\_\_, 2018, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

\_\_\_\_\_  
MAYOR

ATTEST:

**Justification for Budget Adjustment\*:**

Per exclusive listing agreement with CBRE approved by City Council on August 16, 2017, City shall pay a 6% commission upon execution of a lease agreement for the 316 Vernon retail space. Half is due upon lease execution, the other half upon tenant occupancy. Lease execution scheduled for May 23rd. Occupancy won't occur until 2nd quarter FY2018-19, at which time a second BA will be required for the balance.

**Meeting Date: 6/6/2018**

**Item #: 7.29.**

### RECOMMENDATION TO COUNCIL

The Development Services Department, Planning Division, requests that the City Council take the following actions:

- A. Adopt an Ordinance approving a Budget Adjustment in the amount of \$87,000 for services related to the General Plan Update and Climate Action Plan Project.
- B. Adopt an Ordinance approving a Budget Adjustment in the amount of \$31,000 for services related to technical assistance and environmental review of projects related to long range and regional planning.
- C. Adopt a resolution authorizing the Acting City Manager to execute an On-Call Professional Services Agreement with Analytical Environmental Services Consultants.
- D. Adopt a resolution authorizing the Acting City Manager to execute a first amendment to the Professional Services Agreement with AECOM for changes to the scope of work with sub-consultant Fehr & Peers for the General Plan Update and Climate Action Plan Project.

### BACKGROUND

Due to recent organizational changes (retirements and promotions), the Development Services Department is facing a shortage of experienced staff in the Long Range Planning section. Two significant projects currently underway in Long Range Planning include the General Plan Update/Climate Action Plan and the City's review of the County's Sunset Area and Placer Ranch projects. In order to keep these important projects moving forward, in addition to other long range workload, staff proposes to retain Analytical Environmental Services (AES) under an On-call Professional Services Agreement for assistance with peer review of documents and technical expertise related to these projects.

Additionally, as part of the City's General Plan Update and Climate Action Plan Project, City staff has identified changes to the project scope related to traffic analysis (as described below). Based on these changes, the sub-consultant for the project, Fehr & Peers, has amended their scope to address the additional traffic analysis that is needed for the project.

## Evaluation

### *Professional Services Agreement with AES*

AES staff has recent experience with two of Long Range Planning's major efforts, the General Plan Update/Climate Action Plan and Placer County's Sunset Area and Placer Ranch Specific Plan projects. As needed, and at City staff's direction, AES would provide peer review of various documents and provide staff with technical expertise related to these projects. As described in the scope of work, this could include review and comment of technical studies, environmental impact reports, specific plan documents, and comment letters. Additional work could include peer review of the Amoroso Ranch Specific Plan (ARSP) Environmental Impact Statement (EIS) associated with the project's 404 (wetland) permit and other miscellaneous assistance related to regional coordination such as the Metropolitan Transportation Plan/Sustainable Communities Strategy and the State's upcoming Regional Housing Needs Allocation. City staff would continue to manage these projects, and any work performed by AES would be on a time and materials basis and performed at the City's direction as needed. Staff anticipates an 18-24 month term for this contract, which will allow long range planning projects to keep moving forward, while workload is redistributed and less-tenured staff gets fully up to speed with long range planning projects.

### *Professional Services Agreement Amendment with AECOM*

In January 2017, the Council approved a PSA with AECOM for the General Plan Update and Climate Action Plan Project. Since that time, City staff has identified changes to the land use assumptions as they relate to Traffic Area Zones that need to be included in the traffic analysis. This work was not included in the original scope of the project. The project's sub-consultant, Fehr & Peers, has provided an amended scope of work for this additional task. With this action, the term of the contract will be extended from December 2018 to December 2019.

### *Budget Adjustment*

As shown in the attached Budget Adjustments, these work efforts will be fully funded through various funding sources. The following is a breakdown of proposed work and funding sources:

| <i>Firm</i>                                    | <i>Project</i>                                | <i>Amount</i> | <i>Funding Source</i>                     |
|------------------------------------------------|-----------------------------------------------|---------------|-------------------------------------------|
| <b>AES</b>                                     | GPU/CAP                                       | \$50,000      | Revenue from General Plan Maintenance Fee |
|                                                | SAP/PRSP & Other                              | \$21,000      | General Fund Contingency                  |
|                                                | Legal consultation for Draft EIR for SAP/PRSP | \$10,000      | General Fund Contingency                  |
| <b>Shute, Mihaly &amp; Weinberger</b>          |                                               |               |                                           |
| <b>AECOM (Fehr &amp; Peers Sub-consultant)</b> |                                               |               |                                           |
|                                                | GPU/CAP - Traffic Scope Amendment             | \$37,000      | Revenue from General Plan Maintenance Fee |

As indicated in the table above, a budget adjustment of \$10,000 is proposed for legal counsel with Shute, Mihaly & Weinberger. The City Attorney's Office currently has an On-Call PSA with this firm to provide supplemental legal counsel on various projects. Shute, Mihaly & Weinberger will be retained to peer review the SAP/PRSP Draft EIR and provide legal guidance as needed as part of City staff's review of the project.

The contract with AES, identifies the potential for peer review of the ARSP EIS related to the applicant's 404 permit. The \$22,000 estimated for work related to this future review is not reflected in the Budget Adjustment. Funding for this review would be provided by the developer through full cost billing.

### FISCAL IMPACT

As described above under Budget Adjustment, funds utilized will be a combination of revenue from the General Plan Maintenance Fee, General Fund Contingency, and developer reimbursement. These contracts will allow the long range planning projects to continue moving forward without delay which is of benefit to the City.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable

### ENVIRONMENTAL REVIEW

Budget adjustments and professional service agreements are not considered a "project" defined by the California Environmental Quality Act (CEQA) (CEQA Guidelines 15061 (b) (3). Consequently, no CEQA action is required.

Respectfully Submitted,

Tricia Stewart, Senior Planner

Mike Isom, Acting Development Services Director

---

Dominick Casey, Acting City Manager

## ON-CALL PROFESSIONAL SERVICES AGREEMENT

### Master Services Agreement for On-Call Environmental and Planning Services

THIS AGREEMENT is made and entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_,  
by and between the City of Roseville, a municipal corporation ("CITY"), and Analytical  
Environmental Services, a California corporation ("CONSULTANT"); and

### W I T N E S S E T H:

WHEREAS, CITY desires professional services consisting of on-call environmental and  
planning services; and

WHEREAS, CONSULTANT has prepared a proposal dated April 28, 2018, which  
describes the scope of services to be performed by CONSULTANT, and the hourly rates for  
performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional  
environmental and planning services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on  
June 30, 2020.
2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of  
the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by  
this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may

assign work to one, or more than one CONSULTANT from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single CONSULTANT. In addition, the inclusion of any CONSULTANT on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed ninety three thousand dollars (\$93,000.00).

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful

misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

| <u>COVERAGE</u>                               | <u>LIMITS OF LIABILITY</u>                                                                                                       |
|-----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Workers' Compensation                         | Statutory                                                                                                                        |
| Commercial General Liability                  | \$1,000,000 each occurrence<br>\$2,000,000 aggregate<br>Personal Injury:<br>\$1,000,000 each occurrence<br>\$2,000,000 aggregate |
| Automobile Liability                          | \$1,000,000 combined single limit                                                                                                |
| Professional Liability (errors and omissions) | \$1,000,000 per claim<br>\$2,000,000 aggregate                                                                                   |

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate

endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work.

Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. CONSULTANT shall include this provisions in its contracts with all subcontractors.

7. Prevailing Wages. For purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars (\$200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was

paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal, and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Time is of the Essence. Time is of the essence of this Agreement.

10. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

11. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

12. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

13. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

14. Independent Contractor. CONSULTANT shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

15. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the

Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

16. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

17. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment.<sup>1</sup> In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

18. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days

advance written notice. CONSULTANT understands that continuation of this Agreement past June 30<sup>th</sup> of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any MATERIAL, notwithstanding any termination or any dispute regarding the amount to be paid.

19. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

22. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE

## MEMORANDUM

**TO:** City of Roseville

**FROM:** Analytical Environmental Services

**DATE:** 4/28/2018

**RE:** Master Services Agreement for On-Call Environmental and Planning Services

AES understands that the City is interested in entering into a master services agreement with AES for on-call services related to environmental compliance and planning. The following outlines the anticipated scope of services that could be completed under an on-call contract and associated billing rates for AES staff.

### Proposed Project Team

Analytical Environmental Services (AES) is a multidisciplinary environmental consulting firm specializing in compliance with CEQA, NEPA and related regulatory requirements, as well as City planning. Our staff includes approximately 25 full time-professionals in a range of disciplines, including biology, cultural resources, geology, hydrology, toxicology, air quality, socioeconomics, land use planning, and GIS.

Staff at the Project Director level would be the primary point of contact for the City. Additional technical staff would be utilized on an as needed basis by the professional staff at AES. Additional information regarding the qualifications of the AES team is available upon request.

### Scope of Services

AES shall provide services for specific projects as may be requested by the City.

Services would include providing peer review of technical studies and documents for the projects listed below as well as providing technical expertise to City staff on an as needed basis. City staff will continue to function as the project manager on these projects. All work would be on a time and materials basis and performed at the City's direction.

### Work Product:

AES will assist in performing professional planning work to assist the City of Roseville in completing its work program including:

#### 1. General Plan, Climate Action Plan and Environmental Review.

### ***General Plan***

The planned General Plan update is a major undertaking in order to bring the document up to existing and proposed state of California Office of Planning and Research General Plan Guidelines. AES would assist City staff in peer review of proposed consultant and City edits and provide guidance related to these items, along with associated tasks deemed necessary by the City.

### ***Climate Action Plan***

In order to provide existing development with legally defensible coverage for greenhouse gas (GHG) emissions a Climate Action Plan is being developed. AES would provide assistance to Roseville staff in the review of the CAP to make sure it meets the City's objectives. AES would assist City staff in peer review of proposed consultant and City edits and provide guidance related to the CAP, along with other tasks deemed necessary by the City.

### ***Environmental Review***

An Environmental Impact Report (EIR) will be prepared to cover both the General Plan update and CAP. In addition, a vehicle miles traveled (VMT) analysis will be prepared to cover new recommendations by the state of California Office of Planning and Research which is moving away from level of services analysis for CEQA traffic analysis. AES staff will work closely with the Engineering Division and Planning Division staff to make sure that any new VMT threshold makes sense for the City of Roseville, at the same time insulating approved development to the extent feasible. AES staff would review technical reports for adequacy including the VMT traffic report and greenhouse gas report, and review draft EIR and Final EIR for adequacy. In addition to peer review of the EIR, AES staff would be available to assist with tasks such as review of the mitigation monitoring report, assistance with preparation of staff reports, and public outreach as deemed necessary by the City.

## **2. Amoruso Ranch Specific Plan (ARSP)**

The ARSP is pending annexation through LAFCO. In addition, the Army Corps of Engineers is processing the Applicant's request for a federal 404 Clean Water Act permit to fill wetlands and an associated National Environmental Policy Act (NEPA) Environmental Impact Report (EIS). AES would assist City staff in peer review of the EIS. AES would also provide guidance related to potential impacts to the City's approved specific plan associated with the permit, along with other tasks deemed necessary by the City.

## **3. Other miscellaneous Planning assistance.**

### **Placer County's proposed Placer Ranch Specific Plan and Sunset Area Plan.**

Placer County's proposed Placer Ranch Specific Plan and Sunset Area Plan are important regional projects, but because of their size, scale and immediate proximity to the City of Roseville's border, these projects have the potential to significantly impact Roseville's traffic, utilities, and public services. AES staff would assist Roseville staff in the continuing review of planning documents, technical reports, review of the Environmental Impact Report, peer review staff's comment letters, and provide technical expertise to City staff, as needed.

## **Other**

As needed, City staff may consult with AES staff for technical expertise and assistance related to: regional coordination, Regional Housing Needs Allocation (RHNA) update, gearing up for the next Housing Element update due in 2021, and review and comment on the City's review and response to the Metropolitan Transportation Plan/Sustainable Communities Strategy. AES staff would be available to assist Roseville staff in the review of documents, preparation of comments, attendance at meetings, and other planning assistance, as needed.

AES will prepare, as directed, all compliance documents in accordance with applicable regulatory and agency requirements. Documents will be prepared consistent with the City or other applicable lead agency document templates and preferred style format. If requested, AES will attend meetings with City staff and consultants and public hearings on draft and/or final documents.

## **Billing Rates**

AES's current rate schedule for on-call services is provided in Attachment A.

**2018 FULLY BURDENED BILLING RATES**

| <b>EMPLOYEE<br/>POSITION</b> | <b>HOURLY<br/>BILLING RATE</b> |
|------------------------------|--------------------------------|
| Principal                    | \$290                          |
| Project Director             | \$220                          |
| Sr. Project Manager          | \$210                          |
| Project Manager              | \$205                          |
| Analyst III                  | \$175                          |
| Analyst II                   | \$150                          |
| Analyst I                    | \$135                          |
| Archeologist III             | \$175                          |
| Archeologist II              | \$150                          |
| Archeologist I               | \$135                          |

RESOLUTION NO. 18-235

APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT BY AND  
BETWEEN THE CITY OF ROSEVILLE AND ANALYTICAL ENVIRONMENTAL  
SERVICES, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON  
BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an on-call professional services agreement regarding on-call environmental and planning services, by and between the City of Roseville and Analytical Environmental Services, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved and that the Acting City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 2018, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

\_\_\_\_\_  
MAYOR

City Clerk

**FIRST AMENDMENT TO  
PROFESSIONAL SERVICES AGREEMENT**

Project: Citywide Qualified Climate Action Plan,  
General Plan Update and Associated Environmental Impact Report

THIS FIRST AMENDMENT TO AGREEMENT is made and entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by and between the City of Roseville, a municipal corporation ("CITY"), and AECOM Technical Services, Inc., a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated February 15, 2017, ("Agreement") regarding the preparation of a Citywide Qualified Climate Action Plan, General Plan Update and Associated Environmental Impact Report ("Project"); and

WHEREAS, CITY desires to amend the Agreement to include additional services as described in CONSULTANT's letter/proposal dated April 27, 2018 which is attached hereto as Exhibit "A" and incorporated herein by reference; and

WHEREAS, CONSULTANT is willing and able to provide such additional services.

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall provide additional services as described in Exhibit "A" of this First Amendment to Agreement.

2. CITY wishes to extend the term of the Agreement for an additional year.

Paragraph 1 of the Agreement is amended by adding an additional paragraph to read as follows:

“CITY wishes to extend the term of the Agreement to December 31, 2019.”

3. Paragraph 3 of the Agreement is amended by adding an additional paragraph to read as follows:

“CITY shall pay thirty-six thousand, seven hundred eighty-six dollars (\$36,786.00), in consideration of the additional services as set forth in Exhibit “A” to the First Amendment to Agreement. This brings the total not to exceed contract amount to six hundred seventy-three thousand and thirty-two dollars (\$673,032.00).”

4. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, and CONSULTANT has caused this First Amendment to Agreement to be executed.

Tricia Stewart, Senior Planner  
City of Roseville Development Services Department  
311 Vernon Street  
Roseville, CA 95678

**Subject: General Plan Contract Amendment, Fehr & Peers**

Dear Ms. Stewart:

During meetings thus far on the General Plan, some changes to the approach have been discussed for land use and transportation. AECOM can absorb any changes related to land use and the overall General Plan, EIR, and Climate Action Plan.

I have included a proposal to amend Fehr & Peers' scope to cover additional services related to:

- ▶ New land use changes, which creates the need to update the City of Roseville model and the SACSIM model.
- ▶ Updating all LOS analysis to HCM 6th Edition methodology.
- ▶ Develop a VMT sketch planning tool for project level analysis.

If you approve of the changes, please let me know and I'll draw up amendment paperwork straightaway.

If you have any questions, please contact Ron Milam at 916-262-7400 or by email at [r.milam@fehrandpeers.com](mailto:r.milam@fehrandpeers.com) or me at (916) 414-5892 or [matthew.gerken@aecom.com](mailto:matthew.gerken@aecom.com).

Sincerely,

J. Matthew Gerken  
Environmental Planning Department Manager  
Greater Northern California

## **CITY OF ROSEVILLE GENERAL PLAN TRANSPORTATION ANALYSIS**

### **SUPPLEMENTAL AGREEMENT NO. 1**

Fehr & Peers will complete the following tasks for the City of Roseville General Plan transportation analysis. These services are in addition to the original agreement and will be referred to below as Supplemental Agreement No 1.

#### **Scope of Work**

##### ***Task SA1.0 - Travel Forecasting Models Update***

The City of Roseville has developed new 2035 land use inputs for the following areas, which were submitted to Fehr & Peers by email from Scott Gandler on November 7, 2017.

- ▶ HP/NEC Foothills
- ▶ Foothills N/O Blue Oaks
- ▶ Gibson Drive
- ▶ Parcel 49/Freedom Way
- ▶ Fiddymont/Blue Oaks
- ▶ Gallilee/Industrial Ave
- ▶ Industrial Ave/ N/O Blue Oaks

The original scope of work did not include any land use changes. The transportation analysis was going to rely on the 2035 CIP Plus Project Model from the Amoruso Specific Plan EIR and the SACSIM model used for the SACOG MTP/SCS. For this task, Fehr & Peers will update both models.

The 2035 CIP Plus Project Model from the Amoruso Specific Plan EIR will be updated with the land use changes prescribed in Scott Gandler's email. The transportation network contained in the 2035 CIP Plus Project Model from the Amoruso Specific Plan EIR will be used without changes. This new version of the model will represent the updated City of Roseville General Plan under 2035 conditions. One preliminary run will be conducted with the new land uses to check the production/attraction balance and to verify the reasonableness of the traffic volume forecasts. If necessary, one set of refinements will be made and then a final model run will be produced. Outputs from the final run will include a.m. peak hour and p.m. peak-hour traffic volume forecasts for use in the traffic operations analysis to calculate intersection LOS.

For the SACSIM model, Fehr & Peers will also update the model with the land use changes prescribed in Scott Gandler's email. Since SACSIM is an activity based model (ABM), the land use changes also influence the synthetic population generation of the model. Fehr & Peers will modify both elements of the model and update the VMT forecasts that were previously generated for the General Plan transportation analysis. These previous runs will be retained and used to represent the no project alternative or current General Plan.

**Task SA2.0 – Update LOS Analysis to HCM 6th Edition**

The traffic operations analysis that generated the LOS results contained in the Amoruso Specific Plan EIR was based on the 2010 HCM. The 6th Edition has superseded the 2010 HCM, so the general plan traffic operations analysis will rely on the latest method. This change requires updating the previous Amoruso Specific Plan EIR 'Existing' and '2035 Plus Project' LOS analysis. The '2035 Plus Project' will now represent no project conditions for the General Plan Update. Fehr & Peers will also develop updated Synchro and SimTraffic models for the new General Plan scenario.

A preliminary set of LOS results will be produced for the no project scenario so that the results can be reviewed for reasonableness and to check for anomalies involving substantial differences from the original Amoruso analysis. These results will be shared with City staff and after staff approval, the analysis for the updated General Plan 'Plus Project' scenario will be developed. A similar preliminary set of LOS results will be reviewed with City staff prior to incorporating the results into The General Plan Circulation Element and EIR.

**Task SA3.0 – Develop a VMT Sketch Planning Tool**

For land use projects submitted after General Plan adoption, the City may require project-level VMT analysis, if the project generates vehicle trips in excess of City targets or is inconsistent with the General Plan. Fehr & Peers will create a VMT sketch planning tool that will allow the City to quickly evaluate the project generated VMT for these types of projects. The model will include a trip generation component with sensitivity to built-environment variables and trip lengths derived from the SACSIM model. Fehr & Peers will work closely with City staff on preferred VMT outputs, which could include Total VMT, VMT per capita, or VMT per service population.

**Fehr and Peers' Cost Estimate**

The cost to perform the work described in Tasks SA1-3 above is provided below.

|              |                                        |                 |
|--------------|----------------------------------------|-----------------|
| Task SA1.0   | Travel Forecasting Models Update       | \$18,950        |
| Task SA2.0   | Update LOS Analysis to HCM 6th Edition | \$9,795         |
| Task SA3.0   | Develop a VMT Sketch Planning Tool     | \$6,970         |
|              | Direct Costs                           | \$1,071         |
| <b>Total</b> |                                        | <b>\$36,786</b> |

RESOLUTION NO. 18-236

APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT  
BETWEEN THE CITY OF ROSEVILLE AND AECOM TECHNICAL SERVICES, INC.,  
AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT  
ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a first amendment to professional services agreement regarding citywide qualified climate action plan, general plan update and associated environmental impact report, by and between the City of Roseville and AECOM Technical Services, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said first amendment is hereby approved and that the Acting City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by the following vote on roll call:

ORDINANCE NO. 5982

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE  
AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18  
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY  
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2017-18, is hereby amended by transferring appropriation to and from the activities indicated below:

Appropriate funds for services related to the general plan update and climate action plan update per request of the Development Services Department, as listed on the attached Request for Budget Adjustment in the amount of \$87,000.00.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this \_\_\_\_\_ day of \_\_\_\_\_, 2018, by the following vote on roll call:

## COUNCIL COMMUNICATION

CC #: 9278

File #: 0201-01 & 0704

**Title:** Parks Maintenance - Budget Adjustment  
**Contact:** Eric Dexter 916-746-1769 edexter@roseville.ca.us

Meeting Date: 6/6/2018

Item #: 7.30.

### RECOMMENDATION TO COUNCIL

Recommend that City Council adopt an ordinance to approve a budget adjustment in the amount of \$14,700.00 for increased expenses in the Park Maintenance Budget (08555). The adjustment is fully funded with offsetting revenue, so there is no net impact to the General Fund in the FY 2017/18 budget.

### BACKGROUND

The Parks Maintenance Division has received revenue in excess of budget due to donations for park bench dedications as well as through accident subrogation. This excess revenue reimburses the City for expenses incurred for park bench installation as well as for repairs made due to auto accidents. The revenue and expenses were not included in the FY2017/18 budget.

The Parks, Recreation & Libraries Department is requesting a budget adjustment of \$14,700.00 to cover the increased expenses. There is no net impact to the General Fund as the expenditure of the funds is fully offset by donations received and funds remitted from funded accident repairs.

### FISCAL IMPACT

There is no net impact to the City's General Fund.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Approval of this request will not create any new jobs.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in

a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). This budget adjustment does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Eric Dexter, Parks Superintendent

Dion Louthan, Parks, Recreation & Libraries Director

## Justification for Budget Adjustment\*:

The Parks, Recreation & Libraries Parks Maintenance division is requesting to increase budgeted appropriations by \$14,700. The increase in expenses is completely offset by an increase in revenue. The revenue increase is primarily due to accident expense recovery through subrogation as well as donations received for park bench dedications. There is no impact to the General Fund.

### RECOMMENDATION TO COUNCIL

Staff recommends the Council adopt an ordinance to approve a budget adjustment of \$142,894.00 to the FY2017-18 Fleet Services fuel budget to cover increased fuel costs for City vehicles and equipment.

### BACKGROUND

On November 1, 2017 California's fuel tax was raised 12 cents per gallon for gasoline and 20 cents per gallon for diesel, expectedly we have seen dramatic price increases since then. Requesting authorization to increase the FY2017-18 Fleet Services fuel expense budget by 7%. The increased expense will be offset by fuel revenues in the same fund.

### FISCAL IMPACT

The actions requested will have an approximate impact of \$38,581.00 to the general fund. The remainder will come from various enterprise funds throughout the City.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). A budget adjustment does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Brian Craighead, Fleet Manager

Rhon Herndon, Public Works Director

Ordinance No. 5980

Budget Adjustment

ORDINANCE NO. 5980

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE  
AUTHORIZING CERTAIN AMENDMENTS TO THE 2017-18  
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY  
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2017-18, is hereby amended by transferring appropriation to and from the activities indicated below:

Appropriate funds for fleet services fuel costs per request of the Public Works Department, as listed on the attached Request for Budget Adjustment in the amount of \$142,894.00.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this \_\_\_\_\_ day of \_\_\_\_\_, 2018, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

\_\_\_\_\_  
MAYOR

ATTEST:

\_\_\_\_\_  
City Clerk

### RECOMMENDATION TO COUNCIL

ORDINANCE NO. 5974 OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS 14.08.026 AND 14.08.105 OF CHAPTER 14.08, AMENDING SECTION 14.12.020 OF CHAPTER 14.12, AMENDING SECTION 14.16.010 OF CHAPTER 14.16 OF TITLE 14, AMENDING SECTIONS 19.08.030 AND 19.08.080 OF CHAPTER 19.08, AMENDING SECTIONS 19.10.020 AND 19.10.030 OF CHAPTER 19.10, AMENDING SECTION 19.12.020 OF CHAPTER 19.12, AMENDING SECTIONS 19.26.030 AND 19.26.040 OF CHAPTER 19.26, AMENDING SECTION 19.46.010 OF CHAPTER 19.46, REPEALING AND REPLACING CHAPTER 19.60, AMENDING SECTION 19.72.020 OF CHAPTER 19.72, AND AMENDING SECTION 19.95.030 OF CHAPTER 19.95 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ACCESSORY DWELLING UNITS for second reading adoption; and re-adopt RESOLUTION NO. 18-185 APPROVING AN ACCESSORY DWELLING UNITS FEE POLICY due to noticing error.

### BACKGROUND

Not applicable.

### FISCAL IMPACT

Not applicable.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

Consistent with California Environmental Quality Act (CEQA) Guidelines Section 15282(h) and

pursuant to Public Resources Code Section 21080.17, adoption of ordinances regarding accessory dwelling units are considered exempt. In addition, the California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The adoption of the Accessory Dwelling Units Fee Policy does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Tricia Stewart, Senior Planner

Mike Isom, Acting Development Services Director

Ordinance No. 5974

Resolution No. 18-185 (re-adopted)

ORDINANCE NO. 5974

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS 14.08.026 AND 14.08.105 OF CHAPTER 14.08, AMENDING SECTION 14.12.020 OF CHAPTER 14.12, AMENDING SECTION 14.16.010 OF CHAPTER 14.16 OF TITLE 14, AMENDING SECTIONS 19.08.030 AND 19.08.080 OF CHAPTER 19.08, AMENDING SECTIONS 19.10.020 AND 19.10.030 OF CHAPTER 19.10, AMENDING SECTION 19.12.020 OF CHAPTER 19.12, AMENDING SECTIONS 19.26.030 AND 19.26.040 OF CHAPTER 19.26, AMENDING SECTION 19.46.010 OF CHAPTER 19.46, REPEALING AND REPLACING CHAPTER 19.60, AMENDING SECTION 19.72.020 OF CHAPTER 19.72, AND AMENDING SECTION 19.95.030 OF CHAPTER 19.95 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ACCESSORY DWELLING UNITS

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 14.08.026 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

**14.08.026 Standard connection fee.**

A. The standard connection fee for various types of service and applicable DUEs are based upon water service sizes required by the Uniform Plumbing Code and DUEs as shown in Section 14.08.029 for nonresidential connections and upon large lot use density categories for residential connections as defined herein. The standard connection fee shall be calculated as follows:

For all dwellings, as defined in Roseville Municipal Code Section 19.08.080(F), the connection fee shall be based upon the large lot land use density as defined within the Land Use Element of the city's general plan, the water service size as required by the Uniform Plumbing Code, and the equivalent DUEs as shown in Section 14.08.029. The minimum connection fee shall be based on a three-quarter-inch service size and the equivalent dwelling unit shall be one DUE if zoned low density residential; 60 percent of the cost of one DUE for each dwelling unit if zoned medium density residential; and, 40 percent of the costs of one DUE for each dwelling unit if zoned high density residential. Fees shall not be based on the size of the master meter to a multifamily dwelling. Multifamily dwellings shall also pay an irrigation connection fee as defined in Roseville Municipal Code Section 19.08.027.

B. For all dwellings, as defined in Roseville Municipal Code Section 19.08.080(F), that require automatic fire protection systems pursuant to Roseville Municipal Code Section 16.16.120, the increased service size will not be assessed an additional fee associated with the fire protection system requirement. Connection fees shall be based on a three-quarter inch service size and the equivalent dwelling units required by subsection A without consideration for any fire protection system required by Roseville Municipal Code Section 16.16.120.

C. No additional water connection fee shall be charged for facilities located within a multifamily dwelling complex that are appurtenant to the general function of the multifamily

dwelling complex. Such facilities include, but shall not be limited to, community centers, recreational centers, rental offices, maintenance offices and fire systems.

D. Pursuant to the fee policy identified in Roseville Municipal Code Section 19.60.100, no water connection fee shall be charged for accessory dwelling units developed within existing structures.

SECTION 2. Section 14.08.105 of Chapter 14.08 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

**14.08.105 Installation of water meters.**

A. New Construction. Except as otherwise provided in Chapter 19.60 of the Roseville Municipal Code, a water meter shall be required for all residential dwelling units for which a building permit was issued after January 1, 1992.

B. Installation and Location.

1. All water meters and metering equipment will be supplied and installed by the city upon the service premises at a location approved by the environmental utilities director.

2. The following charges for water meter installation shall be made:

a. A \$75.00 labor charge for installation shall be paid by the applicant for service prior to installation. The labor charge shall be increased by the finance director as labor costs increase, as reflected in the adoption of the city's salary ordinances.

b. A meter supply charge shall be paid by the applicant for service prior to installation. The meter supply charge shall be equal to the per meter amount of the most recent water meter bid awarded by the city.

c. In addition to the direct meter supply charge, additional charges may apply for meter appurtenances as required by the environmental utilities director. This includes, but is not limited to, features required to make meter ready for remote reading.

d. A \$75.00 water quantity charge per unit for water use during construction of residential units shall be paid by the applicant prior to meter installation. The water quantity charge shall be increased by the environmental utilities director to reflect increases in water supply rates.

3. All water meters shall be safely accessible to authorized employees of the city at all times for inspection, testing and reading.

4. The city may require a customer to relocate a metering installation, at customer's expense, if any existing water meter location becomes inaccessible or for other operational needs.

5. Property owners of condominium and apartment complexes are liable for costs to install meters on their property upon receipt of bill for such services.

C. Rights of Access.

1. The city shall have the right of access to the customer's premises, at all reasonable hours for any purpose related to the furnishing of water service including, but not limited to, meter reading, testing, inspection, construction, maintenance and repair of meter.

2. Service may be refused or disconnected if permanent safe accessibility is not provided by the customer.

3. Upon termination of service, the city shall have the right of access to the service premises to remove the water meter.

D. Customer Responsibilities. It shall be the duty of each customer upon whose premises the city has installed a water meter to ensure that such meters are not damaged, destroyed or interfered with and, in the case of any defect in any such meter, to notify the city. The customer is also responsible for keeping the meter box clear and accessible for reading and maintenance by keeping landscape and other improvements from covering or encroaching over the meter box.

E. Metered Water Rate. New services installed after January 1, 2002 will be placed on a metered water rate.

SECTION 3. Section 14.12.020 of Chapter 14.12 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

**14.12.020 Use of public sewers required.**

A. It is unlawful for any person to place, deposit or permit to be deposited in any unsanitary manner on public or private property within the city, any human or animal excrement, garbage or other objectionable waste.

B. Except as hereinafter provided, it is unlawful to construct or maintain any privy, privy vault, septic tank, cesspool, or other facility intended or used for the disposal of sewage.

C. It is unlawful for any person to construct or use a graywater system or discharge graywater on public or private property within the city.

D. Except as otherwise provided in Chapter 19.60 of the Roseville Municipal Code, the owner of any house, building or property used for human occupancy, employment, recreation, or other purposes, situated within the city, adjacent to which there is located a public sanitary sewer, is required, at the owner's expense, to install suitable toilet facilities therein and to connect such facilities directly with the public sewer in accordance with the provisions of this chapter.

SECTION 4. Section 14.16.010 of Chapter 14.16 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

**14.16.010 Sewer connection fee established.**

Except as otherwise provided by this chapter or the fee policy identified in Roseville Municipal Code Section 19.60.100, for each connection to the city-owned public sewer connection fees shall be paid as provided in this article.

SECTION 5. Section 19.08.030 of Chapter 19.08 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

**19.08.030 Listing of use classifications.**

All primary uses are classified into the following use types. The following primary use types are more fully described in Sections 19.08.060 through 19.08.110, inclusive.

**A. Agricultural and Open Space Use Types**

- Agricultural
- Animal Keeping
- Resource Protection and Restoration
- Resource Related Recreation

SECTION 6. Section 19.08.080 of Chapter 19.08 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

**19.08.080 Residential use types.**

Residential use types include the occupancy of living accommodations on a wholly or primarily non-transient basis and includes uses which are typically associated with and provide support to residential areas, but exclude institutional living arrangements providing 24-hour skilled nursing or medical care and those providing forced residence, such as asylums and prisons. Transitional housing and supportive housing are considered residential uses. Specific residential use types referred to in this title are:

**A. Accessory Dwelling Unit.** An accessory dwelling unit shall be as defined by Government Code Section 65852.2, as it now exists or may hereafter be amended, and means an attached or a detached residential dwelling unit which provides complete independent living facilities for one or more persons. The unit shall be located on a permanent foundation, have an independent exterior access, and shall include permanent provisions or infrastructure to support permanent provisions (such as stubbing gas, water or sewer lines) for living, sleeping, eating, cooking, and sanitation on the same parcel as where a single-family dwelling is situated or proposed to be situated. Accessory dwelling units can also include efficiency units, as defined in Section 17958.1 of the Health and Safety Code, manufactured homes, as defined in Section 18007 of the Health and Safety Code, second dwelling units, granny flats, in-law quarters,

carriage units, and tiny houses as long as such units otherwise meet this definition. (Also see Chapter 19.60.)

**B. Caretaker/employee housing**, includes permanent or temporary housing that is secondary or accessory to the primary use of the property. Such housing is used for caretakers employed on the site of a non-residential use where a caretaker is needed for security or to provide 24-hour care or monitoring of facilities, equipment, or other conditions on the site.

**C. Community Care Facility, Small.** A dwelling where non-medical care is provided to six or fewer persons on a 24-hour basis. Small community care facilities shall be licensed by the State Department of Social Services.

**D. Community Care Facility, Large.** A dwelling where non-medical care is provided to no less than seven and no more than 12 persons on a 24-hour basis and which is operated and occupied by the owners. Large community care facilities shall be licensed by the State Department of Social Services, shall permit no more than two persons per bedroom and shall be designed so as to be compatible with the residential character of the neighborhood.

**E. Efficiency units**, includes a room or group of internally connected rooms that have independent sleeping, cooking, eating and sanitation facilities, which constitutes an independent housekeeping unit, occupied by or intended for one household on a long-term basis.

**F. Dwelling**, includes a room or group of internally connected rooms that have sleeping, cooking, eating, and sanitation facilities, but not more than one kitchen, which constitutes an independent housekeeping unit, occupied by or intended for one household on a long-term basis. Types of dwellings include single-family dwellings, duplexes, accessory dwelling units, multi-family dwellings, mobile homes, condominiums, and townhouses, all of which are separately defined.

**1. Multi-family**, includes a building designed and intended for occupancy by three or more families living independently of each other, each in a separate dwelling unit, which may be owned individually or by a single landlord. Includes apartments, condominiums, rowhouses, triplexes and fourplexes.

**2. Single-family**, includes an attached or detached building designed exclusively for occupancy by one family. Includes houses, half-plexes and townhomes.

**3. Two-family**, includes a duplex, or other buildings designed for occupancy by two families living independently of each other, where both dwellings are located on a single lot.

**G. Family day care homes, small**, includes a private single-family dwelling where care, protection and supervision of seven or fewer minor children is provided for periods of less than 24 hours or as otherwise provided by state law.

**H. Family day care homes, large**, includes a private single-family dwelling where care, protection and supervision of eight and up to, and including, 14 children is provided for periods of less than 24 hours or as otherwise provided by state law. (Also see Chapter 19.46.)

**I. Live/work**, includes units that are occupied by business operators who live in the same structure that contains commercial activity. The units functions primarily as a workspace with incidental residential accommodations.

**J. Mobile home park**, includes any site that is planned and improved to accommodate two or more mobile homes used for residential purposes, or on which two or more mobile home lots are rented, leased, or held out for rent or lease, or were formerly held out for

rent or lease and later converted to a subdivision, cooperative, condominium, or other form of resident ownership, to accommodate mobile homes used for residential purposes. (Also see Chapter 19.48.)

**K. Rooming and boarding houses.** includes the renting of individual bedrooms within a dwelling by a property owner or other manager in residence to three or more people, whether or not meals are provided; or a single-family dwelling occupied by six or more unrelated people, living together as a single housekeeping unit; by prearrangement for definite periods, with compensation.

**L. Single Room Occupant.** Lodging establishments providing a room(s) which does not include a kitchen or bathroom. These establishments include a communal bathroom and may have a communal kitchen and/or living area. This is not a temporary or transitional housing type and is typically found on the second story above a retail use.

**M. Supportive Housing.** Housing with no limit on length of stay, that is occupied by the target population as defined in Health and Safety Code Section 53260(d), and that is linked to on- or off-site services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live, and when possible, work in the community. (California Health and Safety Section 50675.14(b).)

**1. Target Population.** Adults with low-income having one or more disabilities, including mental illness, HIV or AIDS, substance abuse, or other chronic health conditions, or individuals eligible for services provided under the Lanterman Developmental Disabilities Services Act and may, among other populations, include families with children, elderly persons, young adults aging out of the foster care system, individuals exiting from institutional settings, veterans, or homeless people. (California Health and Safety Section 53260(d).)

**N. Transitional Housing and Transitional Housing Development.** Buildings configured as rental housing developments, but operated under program requirements that call for the termination of assistance and recirculation of the assisted unit to another eligible program recipient at some predetermined future point in time, which shall be no less than six months. (California Health and Safety Section 50675.2(h).)

**SECTION 7.** Section 19.10.020 of Chapter 19.10 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

**19.10.020 Permitted use types.**

Primary uses are permitted in residential zones subject to the requirements of this title as designated below:

- A.** Principally permitted use, designated as “P”;
- B.** Conditionally permitted use, designated as “CUP”; and
- C.** Administratively permitted use, designated as “A.”

Primary use types not listed or designated by a dash (-) are not permitted in that zone district.

Notes:

- (1) Accessory dwelling units are only permitted within areas zoned to allow single-family or multifamily use and must be located on a lot that contains an existing or proposed single-family dwelling unit as defined in Section 19.08.080(F)(2) (Residential Use Types). See Chapter 19.60 for additional accessory dwelling unit regulations.
- (2) See Chapter 19.46 for large family day care home regulations.
- (3) See Chapter 19.55 for power generating facilities requirements.
- (4) See Chapter 19.34 for antennas and communications facilities requirements.
- (5) Transitional housing and supportive housing are considered residential use types.

**SECTION 8.** Section 19.10.030 of Chapter 19.10 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

**19.10.030 Residential zone general development standards.**

**A. Residential Development Standards.** Permitted uses and associated structures shall comply with the following development standards, in addition to any other applicable requirements of this title:

**RESIDENTIAL ZONE GENERAL DEVELOPMENT STANDARDS**

|                     | Requirement by Zoning District |                                                    |                                                              |                            |                   |                     |

Notes:

- (1) Attached or detached. Detached dwelling units must maintain a minimum 10-foot building separation.
- (2) The general development standards for the R3 district may be modified through approval of a Design Review Permit.
- (3) On corner lots, the minimum rear setback may be determined by using an average of three measurements taken at the ends of the structure and a point midway between the ends of the structure. The measurements shall be made perpendicular to the rear lot line.

- (4) The rear and side yards may be utilized to meet the minimum usable open space provided the minimum dimension, measured perpendicular to the applicable rear or side yard is 10 feet. Maximum coverage is a function of lot size, required setbacks and usable open space. A minimum usable open space of 500 square feet may be applied where a front porch is provided with minimum dimensions of six feet by 10 feet exclusive of entry way.
- (5) Except for units immediately adjacent to the R1 and RS zone districts, where the height limit shall be 35 feet.
- (6) Minimum driveway depth of 18 feet requires a roll-up garage door.
- (7) As provided in development standard overlay or special area overlay district.
- (8) Sidewalk separated from back of curb by five-foot planter strip.
- (9) Front setback (and side setback where adjacent to street) measured from back of walk. Fence side yard setback is five feet from back of walk where facing a street. In the absence of sidewalk, setbacks measured from the edge of right-of-way.
- (10) Variations to the standards and other housing product types may be permitted subject to processing of a Design Review Permit for Residential Subdivision (DRRS) concurrent with the approval of a tentative subdivision map and review of product type.
- (11) One accessory dwelling unit is permitted within areas zoned to allow single-family or multifamily use provided the lot contains an existing or proposed single-family dwelling unit as defined in Section 19.08.080(F)(2) (Residential Use Types) and the accessory dwelling unit complies with the standards identified in Chapter 19.60 (Accessory Dwelling Units). For purposes of density, accessory dwelling units shall be deemed to be an accessory use or an accessory building or structure and shall not be considered to exceed the allowable density for the lot upon which it is located.
- (12) Excludes accessory dwelling units complying with the standards identified in Chapter 19.60 (Accessory Dwelling Units).

**B. Clear Vision Triangle, Residential.** The following standards shall apply to the installation of structures on corner parcels:

**1.** On a corner parcel, no fence, wall, sign or other structure, mounds of earth, or other visual obstruction over 36 inches in height above the top of the existing or planned curb elevation shall be erected or placed within a residential clear vision triangle (see Chapter 19.95 Definitions).

**2.** The foregoing provision shall not apply to public utility poles; trees trimmed (to the trunk) to a line at least eight feet above the elevation of the intersection; saplings or plant species of open growth habits and not planted in the form of a hedge, which are so planted and trimmed as to leave, at all seasons, a clear and unobstructed cross view; supporting members of appurtenances to permanent structures existing on the date that the ordinance codified in this section becomes effective; and official warning signs or signals.

**C. Exceptions to Height Limits.** Notwithstanding the requirements of subsection A, the following structures are permitted to exceed the maximum height limits, as follows:

Architectural features, mechanical equipment. Chimneys, vents, and other architectural or mechanical appurtenances on buildings may be a maximum of 15 percent higher than the height limit of the applicable zone.

**D. Exceptions to Setbacks.** Notwithstanding the requirements of subsection A, the following structures are permitted to encroach into the required development setbacks, as follows:

**1.** Architectural features, such as but not limited to: cornices, eaves, canopies

fireplaces and similar features, but not any flat wall or addition creating living space, may encroach up to two feet into any required setback.

2. Covered, unenclosed projections attached to the primary structure may encroach up to six feet into any front yard setback.

E. Manufactured Homes. Manufactured homes are permitted in residential zones provided they meet the following architectural standards:

1. The manufactured home shall be covered with exterior material customarily used on conventional dwellings within the subdivision. The exterior covering material shall extend to the ground as close to grade as allowed by the manufacturer's recommendation;

2. The manufactured home shall have a minimum of 16-inch roof overhangs and roofing material on the manufactured home shall be compatible with other dwellings existing in the area and shall consist of materials customarily used on conventional dwellings. The roof shall have a minimum 2 1/2 in 12 pitch.

**F. Landscaping Requirements in Setback Areas.**

**1. Single-Family and Two-Family Dwellings—Front-Yard and Street Side-Yard Setbacks.**

a. Setback Area Paving Restrictions. A maximum of 50 percent of the required front-yard setback may be paved for off-street parking, driveways, walkways, or uncovered patio use. A maximum of 50 percent of the required street side-yard setback may be paved for off-street parking, driveways, walkways, or uncovered patio use; however, this maximum limitation does not apply to that portion of the street side-yard located behind a fence that is in compliance with the street side fence requirements set forth in Chapter 19.22 of this code. These requirements may be modified with approval of a Design Review Permit for Residential Subdivision (DRRS), as provided for in Article V of this title.

b. Landscape and Maintenance Requirements. The unpaved portion of a front-yard setback and street side-yard setback shall be landscaped, irrigated, and maintained. The landscape shall include grass, annuals, perennials, groundcover, shrubs, trees, or other living vegetation. Synthetic grass or artificial turf may be used if it is permeable and has a minimum pile height of 1.25 inches. Design elements like planters, rocks, mulch, or similar elements are permitted when integrated as part of the landscape. All landscaping materials shall be mowed, trimmed, and maintained as often as necessary to prevent overgrowth and blight. No junk, debris, or other similar materials shall be stored in the landscaped setback area.

c. Height Restrictions for Landscaping Located in the Clear Vision Triangle. All landscaping located within the clear vision triangle for driveways and corner lots, as defined in Section 19.95.030 of this code, shall not exceed two feet in height, except that trees exceeding two feet in height are allowed if the tree is maintained free of branches eight feet above the curb grade.

- d. **Vehicle Parking Requirements.** Vehicles, including without limitation, automobiles, boats, campers, trailers, and other recreational vehicles, must be parked on a paved surface, as provided for in Section 11.20.110 of this code. Vehicles shall not be parked within the landscaped setback area.

**2. Multi-Family Dwellings (Three or More Units)—Front-Yard and Street Side-Yard Setbacks.** All minimum front-yard and street side-yard setbacks shall be landscaped, irrigated and maintained with primarily low ground cover or turf. The landscape shall include grass, annuals, perennials, groundcover, shrubs, trees, or other living vegetation. Synthetic grass or artificial turf may be used if it is permeable and has a minimum pile height of 1.25 inches. Design elements like planters, rocks, mulch, or similar elements are permitted when integrated as part of the landscape. All landscaping materials shall be mowed, trimmed, and maintained as often as necessary to prevent overgrowth and blight. No junk, debris, or other similar materials shall be stored in the landscaped setback area. Driveways and uncovered walkways are permitted to cross over the required front-yard and street side-yard setback. The required front-yard and street side-yard setbacks may not be paved for parking or patio areas.

**SECTION 9.** Section 19.12.020 of Chapter 19.12 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

**19.12.020 Permitted use types.**

Primary uses are permitted in commercial zones subject to the requirements of this title as designated below:

- A.** Principally permitted use, designated as “P”;
- B.** Conditionally permitted use, designated as “CUP”;
- C.** Administratively permitted use, designated as “A.”

Refer to the Downtown Code for permitted uses within the CBD and HD zones.

**COMMERCIAL ZONE DISTRICTS PERMITTED USES**

Notes:

- (1) Dwellings or single room occupants are principally permitted on the second floor of buildings in the historic district and the central business district. In all other instances, dwellings in the historic district and the central business district require a Conditional Use Permit.
- (2) Additional requirements are contained in Chapter 19.32.
- (3) Additional requirements are contained in Chapter 19.40.
- (4) Additional requirements are contained in Chapter 19.39.
- (5) Additional requirements are contained in Chapter 19.38.
- (6) Additional requirements are contained in Chapter 19.49.
- (7) Additional requirements are contained in Chapter 19.34.
- (8) Additional requirements are contained in Chapter 19.36.
- (9) Additional requirements are contained in Chapter 19.55.
- (10) Transitional housing and supportive housing are considered residential use types.
- (11) Accessory dwelling units are only permitted within areas zoned to allow single-family or multifamily use and must be located on a lot that contains an existing or proposed single-family dwelling unit as defined in Section 19.08.080(F)(2) (Residential Use Types). See Chapter 19.60 for additional accessory dwelling unit regulations.

**SECTION 10.** Section 19.26.030 of Chapter 19.26 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

### **19.26.030 Parking space requirements by use type.**

The number of off-street parking spaces required for the land uses identified by Article II (Zoning Districts and Permitted Uses) shall be as provided by this section, except where parking requirements are established by Article IV (Special Area and Specific Use Requirements) for a particular use.

**A. Number of Spaces Required.** The number of off-street parking spaces required for new uses shall be based upon the use type, listed below.

**1. Terms Used in Tables.** The following terms are used throughout the tables and are defined below:

“Square feet” means the total gross building/tenant space area;

“Use area” means the total of gross building/tenant space area plus the gross area of any outdoor/storage/activity.

**2.** Civic use types shall provide off-street parking spaces as follows:

| <b>CIVIC USE TYPES</b>         | <b>NUMBER OF PARKING SPACES REQUIRED</b>                                                           |
|--------------------------------|----------------------------------------------------------------------------------------------------|
| Community Assembly             |                                                                                                    |
| Places of Worship              | 1 per 3 fixed seats or 1:50 sq. ft. for non-fixed seats in the assembly area, plus 1 per classroom |
| Club, Lodges, Meeting Halls    | 1 per 3 fixed seats or 1:50 sq. ft. for non-fixed seats in the assembly area                       |
| Public Community Facilities    | As determined as part of the design review approval                                                |
| Community Services             | As determined as part of the design review approval                                                |
| Essential Services             | None                                                                                               |
| Hospital Services              |                                                                                                    |
| General Hospital Services      | 1 per doctor, plus 1 per 3 employees for the largest shift, plus 1 per 3 beds                      |
| Psychiatric Hospital Services  | 1 per doctor, plus 1 per 3 employees for the largest shift, plus 1 per 3 beds                      |
| Intensive Public Facilities    | As determined as part of the design review approval                                                |
| Libraries and Museums, Private | 1 per 400 sq. ft.                                                                                  |
| Public Parking Services        | As determined as part of the design review approval                                                |
| Schools                        |                                                                                                    |
| College and Universities       | As determined as part of the design review approval                                                |

| <b>CIVIC USE TYPES</b>             | <b>NUMBER OF PARKING SPACES REQUIRED</b>                                                                 |
|------------------------------------|----------------------------------------------------------------------------------------------------------|
| Elementary, Middle and Junior High | 2 per classroom, plus 60 lineal feet of loading area for every 100 students                              |
| High Schools                       | 1 per classroom, plus 1 per every 4 students, plus 60 lineal feet of loading area for every 200 students |
| Social Services                    |                                                                                                          |
| Emergency Shelter                  | 1 per staff member, plus 1 per every 10 shelter residents                                                |
| Food Distribution                  | 1 per employee, plus 1 per every 500 sq. ft. of floor area                                               |
| Food Service Facility              | 1 per employee, plus 1 per every 4 seats within facility                                                 |

**3. Residential use types shall provide off-street parking spaces as follows:**

| <b>RESIDENTIAL USE TYPES</b>   | <b>NUMBER OF PARKING SPACES REQUIRED</b>                                                                  |
|--------------------------------|-----------------------------------------------------------------------------------------------------------|
| Accessory Dwelling Units       |                                                                                                           |
| Studios                        | None                                                                                                      |
| 1+ Bedrooms                    | 1 per dwelling. For exceptions, see Chapter 19.60 (Accessory Dwelling Units).                             |
| Caretaker/Employee Housing     | 2 per dwelling                                                                                            |
| Community Care Facility, Small | 2 per dwelling                                                                                            |
| Community Care Facility, Large | 2 per dwelling plus 0.5 per sleeping room (a maximum of 2 spaces may be located within the front setback) |
| Dwelling                       |                                                                                                           |
| Multi-Family                   |                                                                                                           |

| <b>RESIDENTIAL USE TYPES</b> | <b>NUMBER OF PARKING SPACES REQUIRED</b>                                                                                  |
|------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Studio                       | 1.5 per unit, plus guest parking (see below)                                                                              |
| 1 Bedroom                    | 1.5 per unit, plus guest parking (see below)                                                                              |
| 2+ Bedrooms                  | 2 per unit, plus guest parking (see below)                                                                                |
| Senior Citizen Apartments    | 1 per unit, plus guest parking (see below)                                                                                |
| Guest Parking                | Projects with 10 or more dwelling units shall provide 1 additional space for each 10 dwelling units or portion thereof    |
| Single-Family and Two-Family | 2 per dwelling                                                                                                            |
| Family Day Care Home, Small  | 2 per dwelling plus 1 space for loading                                                                                   |
| Family Day Care Home, Large  | 2 per dwelling plus 1 space per employee not residing in the home, plus loading areas as required by Section 19.46.020(B) |
| Mobile Home Park             | 2 per dwelling unit plus 1 guest space for each 10 dwelling units or portion thereof                                      |
| Rooming and Boarding Houses  | 2 per dwelling plus 0.5 per sleeping room (a maximum of 2 spaces may be located within the front setback)                 |
|                              |                                                                                                                           |
|                              |                                                                                                                           |
|                              |                                                                                                                           |

4. Commercial use types shall provide off-street parking spaces as follows, but no fewer than four spaces for each separate commercial use or tenant:

| <b>COMMERCIAL USE TYPES</b> | <b>NUMBER OF PARKING SPACES REQUIRED</b> |
|-----------------------------|------------------------------------------|
|-----------------------------|------------------------------------------|

| <b>COMMERCIAL USE TYPES</b>   | <b>NUMBER OF PARKING SPACES REQUIRED</b>                                                                                                                      |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Adult Business Establishments | 1 per 300 sq. ft.                                                                                                                                             |
| Animal Sales and Service      |                                                                                                                                                               |
| Grooming and Pet Stores       | 1 per 300 sq. ft.                                                                                                                                             |
| Kennels                       | Minimum 10 spaces                                                                                                                                             |
| Veterinary Clinic             | 1 per 150 sq. ft.                                                                                                                                             |
| Veterinary Hospital           | 1 per 150 sq. ft.                                                                                                                                             |
| Automotive and Equipment      |                                                                                                                                                               |
| Automotive Rentals            | 1 per 300 sq. ft. of office plus 1 per 1,000 sq. ft. of fleet or vehicle storage area                                                                         |
| Automotive Repairs            | 1 per 400 sq. ft. plus 1 per bay plus 1 for every company vehicle                                                                                             |
| Automotive Sales              | 1 per 1,000 sq. ft. of indoor and outdoor display area                                                                                                        |
| Car Wash and Detailing        |                                                                                                                                                               |
| Full Service                  | 10 spaces or 3 times internal washing capacity, whichever is greater; additional parking required for drying or vacuum areas and 100 lineal feet for stacking |
| Self-Service                  | 4 spaces; additional parking required for drying or vacuum areas and 20 lineal feet in front of each bay for stacking                                         |
| Automatic Car Wash Service    | 1 space per drying and vacuum areas plus 100 linear feet in front of car wash for stacking                                                                    |
| Commercial Parking            | As determined as part of the design review approval                                                                                                           |
| Equipment Rental and Sales    | 1 per 300 sq. ft. of office plus 1 per 1,000 sq. ft. of outdoor display area                                                                                  |

| <b>COMMERCIAL USE TYPES</b>           | <b>NUMBER OF PARKING SPACES REQUIRED</b>                                                                                                    |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Gasoline Sales                        |                                                                                                                                             |
| With Neighborhood Commercial Sales    | 1 per 300 sq. ft. of commercial sales area with a 5 space minimum                                                                           |
| Without Neighborhood Commercial Sales | 5 spaces                                                                                                                                    |
| With Repair                           | 1 per 300 sq. ft. of commercial sales area with a 5 space minimum plus 2 spaces per service bay                                             |

|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Enclosed                    | 1 per 250 sq. ft. of office area, plus 1 per 10,000 sq. ft. of yard area                                                                                                                                                              |
| Unenclosed                  |                                                                                                                                                                                                                                       |
| Research Services           | 1 per 3000 sq. ft., plus 1 per company vehicle                                                                                                                                                                                        |
| Specialized Industrial      | As determined as part of the design review approval                                                                                                                                                                                   |
| Wholesale and Distribution  |                                                                                                                                                                                                                                       |
| Light                       | 1 per 1,000 sq. ft.                                                                                                                                                                                                                   |
| Heavy                       | Where other uses exceed 10% of the gross floor area (e.g., office, warehouse, etc.) the parking requirement shall be the combined total for each use as outlined in this chapter or as otherwise determined by design review approval |

**6.** Transportation and communication use types shall provide off-street parking spaces as follows:

| <b>TRANSPORTATION AND COMMUNICATION USE TYPES</b> | <b>NUMBER OF PARKING SPACES REQUIRED</b>               |
|---------------------------------------------------|--------------------------------------------------------|
| Antennas and Communications Facilities            |                                                        |
| Developed Lot                                     | None, see parking requirements for applicable use type |
| Undeveloped Lot                                   | 1 per full-time employee                               |
| Bus Depots                                        | As required by Chapter 19.36                           |
| Heliports                                         | As determined as part of the design review approval    |
| Intermodal Facilities                             | As determined as part of the design review approval    |

**B. Special Parking Requirements.** The number of parking spaces required for uses not specifically listed in subsection A shall be determined by the Planning Manager based on common functional, product or compatibility characteristics and activities, as provided for in Section 19.08.050 (Classification of uses not specifically listed).

**1. Uses Not Listed.** The number of parking spaces required for uses not specifically listed in subsection A shall be determined by the Planning Manager based on common functional, product or compatibility characteristics and activities, as provided for in Section 19.08.050 (Classification of uses not specifically listed).

**2. New Buildings or Development Projects Without Known Tenants.** If the type of tenants that will occupy a non-residential building are not known at the time of the development entitlement or building permit approval, the amount of parking to be provided shall be:

The minimum number of parking spaces required by subsection A for any land use allowed on the site by the applicable zoning, provided that the Planning Manager determines the proposed building as designed can reasonably accommodate such use, and provided further a zoning clearance certification is obtained to authorize the use.

**3. Mixed Use Projects.** Where a project contains more than one major use classification (such as a residential and a commercial use), the amount of parking to be provided shall be the total of that required for each use, except as otherwise provided by subsection C (Adjustment to number of required parking spaces).

**4. Tenant Spaces with Multiple Functions.** When a tenant has several functions, such as sales and office, the amount of parking to be provided for the tenant shall be calculated as specified by subsection A for the primary use, using the gross floor area of the tenant space.

**5. Tenant Spaces with Accessory Storage.** When a tenant has enclosed accessory storage in excess of 2,000 square feet, the required parking for that portion of the tenant space dedicated to storage shall be calculated as specified by subsection (A)(5) for warehousing which is one parking space per 1,000 square feet of warehousing. The required parking for the remainder of the tenant space shall be calculated as specified in subsection A using the primary use.

**6. Changes in Use.** When an existing use is enlarged, increased or intensified, or a new use having greater parking requirements than the previous use is proposed, the required number of parking spaces for the new use or existing, enlarged, increased or intensified use shall be calculated as specified by subsection A.

**7. Rounding Off.** When the required number of parking spaces is other than a whole number, the total number of spaces shall be rounded to the nearest whole number (0.49 and below round down, 0.50 and above round up).

**8. Commercial Centers.** Commercial centers and building complexes shall provide parking which is the sum of all users within the commercial center or building complex as specified in subsection A, regardless of whether or not the parking is provided on a single or multiple parcels. Where parking is provided on multiple parcels, reciprocal parking and access agreements shall be recorded to provide equal use and access to parking for all users within the commercial center or building complex.

**9. Professional Office Uses.** Professional office projects shall calculate parking based on the net leasable square footage of the proposed office building(s). Net square footage shall be 90 percent of the total square footage of the proposed building(s). The net square footage shall be determined at original building shell approval and subsequent tenant improvements shall not be granted any additional reduction for net square footage.

**C. Adjustment to Number of Required Parking Spaces.** The number of parking spaces required by subsection A may be reduced as follows:

**1. Specific Plan Provisions.** Provisions may be made in a specific plan to allow reductions in the number of required parking spaces based upon special provisions, such as providing golf cart or electric car parking where special provisions are made for golf carts or electric cars.

**2. Parking Reductions for Shared Parking.** If an applicant believes the number of parking spaces required for their building complex as specified in subsection A (which is the sum of all the users within the building complex) is not applicable because the hours of operation of different tenants/uses within the building complex will effectively allow for dual use of the parking spaces then the applicant may request an Administrative Permit. The Approving Authority shall be the Planning Manager. The applicant shall have the burden of proof for requesting a reduction in the total number of required off-street parking spaces, and documentation shall be submitted substantiating this request. Shared parking reductions shall only be approved by the Approving Authority if:

- a. A sufficient number of spaces are provided to meet the greatest parking demand of the participating uses;
- b. Satisfactory evidence is provided describing the nature of the uses and the times when the uses operate so as to demonstrate the lack of potential conflict between them;
- c. Overflow parking will not impact any adjacent use; and
- d. Additional documents, covenants, deed restrictions, or other agreements as may be deemed necessary by the Planning Manager are executed to assure that the required parking spaces provided are maintained and uses with similar hours and parking requirements as those uses sharing the parking facilities remain for the life of the project.

**3. Parking Reductions for an Individual Use.** If an applicant for a proposed use believes the number of parking spaces required for their use as specified in subsection A is not applicable because their use functions differently than the generic use type and associated parking standards established in this title, then the applicant may request an Administrative Permit. The Approving Authority shall be the Planning Manager. The applicant shall have the burden of proof for requesting a reduction in the total number of required off-street parking spaces, and documentation shall be submitted substantiating the request. Such documentation may include, but is not limited to: a parking study of another facility of the same use which is similar in size and operation, calculating the required parking spaces with field data of peak parking usage. Reduced parking shall only be approved by the Approving Authority if:

- a. Satisfactory evidence is provided describing the nature of the use, the operation and data from other facilities or similar facilities so as to demonstrate that the required parking standards are excessive and the proposed parking standards are appropriate; and
- b. Overflow parking will not impact any adjacent use.

**4. Parking Reductions for Eating and Drinking Establishments.** The Approving Authority for any application for a parking reduction by an eating and drinking establishment as defined in Section 19.08.030(L) shall be the Planning Commission.

**D. Downtown/Old Town Parking Requirements.** All principally permitted uses within the historic district (HD) and central business district (CBD) zone districts, with the exception of community assembly, colleges and universities, and new uses requiring and discretionary permit shall be permitted in the HD and CBD zone districts without the need to provide additional off-street parking.

Community assembly, college and university uses and new uses which require a discretionary permit, shall comply with the parking standards specified in subsection A, or request approval of a parking reduction or variance from the parking standards.

SECTION 11. Section 19.26.040 of Chapter 19.26 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

**19.26.040 Design and improvement of parking.**

Parking spaces and areas shall be designed in accordance with this section.

**A. Parking Lot and Parking Space Design and Layout.** Except where otherwise provided by Section 19.26.030(C) (Adjustments to number of required parking spaces), parking spaces shall be designed as follows:

**1. Parking Space Design.** Except as provided below, all parking spaces shall be standard spaces, designed to accommodate full-sized passenger vehicles.

a. **Parking Space Sizes.** Standard spaces shall be a minimum of nine feet by 18 feet; compact car spaces shall be a minimum of nine feet by 16 feet; and parallel parking spaces shall be a minimum of 10 feet wide by 22 feet long. Accessible spaces shall be a minimum of nine feet by 18 feet with a five-foot loading area; an accessible van space shall be a minimum of nine feet by 18 feet with an eight-foot loading area.

b. **Compact Car Space Substitution.** Parking lots with a minimum of 20 parking spaces may substitute standard spaces with compact spaces for up to 30 percent of the total parking spaces required. Each compact space shall be labeled "COMPACT" or "C."

c. **Motorcycle Space Substitution.** Parking lots with a minimum of 40 parking spaces may substitute standard parking spaces with motorcycle spaces. One standard parking space may be replaced with a motorcycle space for each 40 required standard parking spaces. Motorcycle spaces shall be a minimum size of three by six feet.

d. **Bicycle Space Sizes.** Each bicycle space shall be a minimum of two feet by six feet to prevent encroachment into any walkway, parking space, landscape area or similar.

**2. Parking Lot Design.** The design and layout of parking lots shall conform to the following standards:

a. **Circulation Aisle Width with Parking.** The minimum width of a two-way drive aisle providing access to parking spaces shall be 24 feet. The minimum width of a one-way drive aisle providing access to parking spaces shall be as follows:

| ANGLE    | AISLE WIDTH |
|----------|-------------|
| 90°      | 24'         |
| 60°      | 18'         |
| 45°      | 14'         |
| PARALLEL | 12'         |

Other parking designs utilizing other parking angles may be approved upon securing an Administrative Permit.

b. **Circulation Aisle Width Without Parking.** The minimum width of a two-way drive aisle with no parking on either side of the drive aisle is 20 feet. The minimum width of a one-way drive aisle with no parking on either side of the drive aisle is 12 feet.

- c. Circulation Aisle for Emergency Access. The minimum width of a drive aisle needed for an emergency response vehicle shall be 20 feet.
- d. Vehicular Overhang. Vehicular overhang is permitted, provided no vehicle shall overhang into a sidewalk which would reduce the unencumbered width of a sidewalk to less than four feet. A vehicle is permitted to overhang into a landscaped area by two feet, provided that the required landscaped area is extended by two feet.
- e. Perimeter Landscaping. Where a parking lot is adjacent to a public right-of-way, a landscape planter shall be established and continuously maintained between the public right-of-way and the parking lot. The minimum width of the landscape planter shall be determined by the design guidelines or the applicable specific plan landscape guidelines. In addition, all unused right-of-way between the public street and the parking lot shall be landscaped and maintained by the property owner.
- f. Bicycle Racks and Lockers. When bicycle spaces are required, a bicycle rack or locker shall be installed. The bicycle rack shall be designed to allow a bicycle to be secured to the rack. The location of the bicycle rack or locker shall not encroach into the sidewalk which would reduce the unencumbered width of the sidewalk to less than four feet and shall provide adequate clearance surrounding the rack or locker such that bicycles shall not encroach into any walkway, parking space, landscape area or similar.
- g. Curb Stops. A permanent curb, bumper, wheel stop or similar device at least six inches in height shall be installed adjacent to sidewalks, planters and other landscaping areas, parking lot fixtures and buildings and walls to protect these improvements from vehicular damage. The stopping edge of such protected bumper shall be placed no closer than two feet from the above noted improvement.
- h. Parking Space Design. All parking spaces shall be delineated and separated by a painted divider (double stripe) as shown on the typical stall illustration below. The stripes shall be a four-inch solid line painted either white or yellow in color. The use of graphics or text in or around the striping is prohibited. The striping shall be maintained in a clear and visible manner.

However, existing parking areas with single striping, which require additional parking spaces or modified parking spaces due to building expansion, parking lot restriping or reconfiguration may maintain the single striping upon securing an Administrative Permit.

**B. Controlled Access Required.** All parking spaces (including garage spaces) required for any land use other than a single-family or two-family dwelling shall be designed and located to provide for vehicle maneuvering on the site so that vehicles will enter any adjacent public right-of-way or private road in a forward direction.

**C. Location of Parking on a Single-Family Lot.** Parking spaces may be located as needed on a site, provided that no required parking space shall be located within a front or street side setback required by Article II (Zoning Districts and Permitted Uses) except as provided in Chapter 19.60 (Accessory Dwelling Units), or other use types (community care facility, congregate residence and rooming and boarding house) according to Section 19.26.030. A driveway providing access to a street may be located within a front or street side setback.

**D. Surfacing of Parking Areas.** Required parking and circulation areas shall be surfaced with asphalt concrete or Portland cement concrete, or other approved all-weather, hard, non-eroding surface. It shall be the responsibility of the property owner to insure that the surface is maintained free from significant cracks or holes.

**E. Specialized Parking and Circulation.** The standards of this subsection apply to the design and construction of specialized parking and on-site circulation facilities. Additional information regarding stacking capacity for drive through facilities and other types of uses with stacking, are contained in the community design guidelines.

**1. Drive-Through Facilities.** The following requirements apply to any use with drive-through facilities:

a. Separation and Marking of Lanes. Drive-through aisles shall be a minimum of 12 feet wide and shall be separated from other circulation aisles necessary for ingress or egress, or aisles providing access to any parking space. Each such aisle shall be striped, marked, or otherwise distinctly delineated.

**F. Loading Requirements.** Loading shall be provided as identified below:

**1. No Maneuvering Within Public Rights-of-Way.** All site designs shall be designed so as to prevent truck back-up maneuvering within the public right-of-way.

**2. Design.** The location, number, size and access of the loading area shall be determined pursuant to design review.

SECTION 12. Section 19.46.010 of Chapter 19.46 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

**19.46.010 Purpose.**

This chapter establishes requirements and standards for the location and operation of large family day care homes, as defined in Section 19.08.080(H).

SECTION 13. Chapter 19.60 of Title 19 of the Roseville Municipal Code is hereby repealed and replaced with revised Chapter 19.60 to read as follows:

**Chapter 19.60**  
**ACCESSORY DWELLING UNITS**

**19.60.010 Purpose.**

This chapter provides criteria for the approval of accessory dwelling units. This chapter is adopted pursuant to the authority of Government Code Section 65852.2, as it now exists or may hereafter be amended.

**19.60.020 Findings.**

The City Council finds that accessory dwelling units are considered a residential use that is consistent with existing General Plan objectives and the zoning designation for the lot upon which the accessory dwelling unit is located. The City Council further finds that accessory dwelling units that comply with the requirements set forth in this chapter shall be deemed to be an accessory use or an accessory building or structure and shall not be considered to exceed the allowable density for the lot upon which the accessory dwelling unit is located.

**19.60.030 Definitions.**

For the purposes of this chapter, the following words and phrases shall have the meanings respectively ascribed to them by this section. Words and phrases not defined in this section, shall

have the meanings respectively ascribed to them in Chapter 19.95 (Definitions of Terms and Phrases).

**A.** “Accessory dwelling unit” shall be as defined by Government Code Section 65852.2, as it now exists or may hereafter be amended, and means an attached or a detached residential dwelling unit which provides complete independent living facilities for one or more persons. The unit shall be located on a permanent foundation, have an independent exterior access, and shall include permanent provisions or infrastructure to support permanent provisions (such as stubbing gas, water or sewer lines) for living, sleeping, eating, cooking, and sanitation on the same parcel as where a single-family dwelling is situated or proposed to be situated. Accessory dwelling units can also include efficiency units, as defined in Section 17958.1 of the Health and Safety Code, manufactured homes, as defined in Section 18007 of the Health and Safety Code, second dwelling units, granny flats, in-law quarters, carriage units, and tiny houses as long as such units otherwise meet this definition.

**B.** “Car share vehicle” means a vehicle that can be rented for short periods of time and is available 24-hours a day, 7 days a week at unattended self-service locations.

**C.** “Existing structure” for the purposes of defining an allowable space that can be converted to an accessory dwelling unit means within the four (4) walls and roofline of any structure existing on or after January 1, 2017 that can be made safely habitable under local building codes at the determination of the building official regardless of any non-compliance with zoning development standards.

**D.** “Living area” means the interior habitable area of a dwelling unit including basements and attics but does not include a garage or any accessory structure.

**E.** “Passageway” means a pathway that is unobstructed clear to the sky and extends from a street to one entrance of the accessory dwelling unit.

**F.** “Primary dwelling unit” means a proposed or existing single-family dwelling unit located on the lot where the accessory dwelling unit is proposed to be developed.

**G.** “Tandem parking” means that two (2) or more automobiles are parked on a driveway or in any other location on a lot, lined up behind one another.

**H.** “Within the existing space” includes areas within an existing primary dwelling unit or within an existing attached or detached accessory structure such as a garage, a carriage house, a pool house, studio, and similar enclosed structures. The addition of square footage including, but not limited to, the addition of another floor, is not considered to be “within the existing space.” Such situations are considered new construction.

#### **19.60.040 Permit requirements.**

Prior to the issuance of a building permit for an accessory dwelling unit, approval of a zoning clearance certification in accordance with Chapter 19.72 (Zoning Clearance Certification) is required.

#### **19.60.050 Designated areas.**

**A. Principally Permitted.** Accessory dwelling units are principally permitted in the commercial mixed use (CMU), single-family residential (R1), small lot residential (RS), two-family residential (R2), attached housing (R3), and residential mixed use (RMU) zoning districts, provided the lot contains an existing or proposed single-family dwelling unit as defined in

Section 19.08.080(F)(2) (Residential Use Types) and the accessory dwelling unit complies with the standards identified in this chapter. Only one accessory dwelling unit is permitted per lot.

**B. Conditionally Permitted.** Accessory dwelling units are conditionally permitted in the neighborhood commercial (NC), community commercial (CC), general commercial (GC), and highway commercial (HC) zoning districts, provided the lot contains an existing or proposed single-family dwelling unit as defined in Section 19.08.080(F)(2) (Residential Use Types) and the accessory dwelling unit complies with the standards identified in this chapter. Only one accessory dwelling unit is permitted per lot.

#### **19.60.060 Development standards for accessory dwelling units proposed within existing spaces or living areas.**

Accessory dwelling units are permitted to be developed within existing spaces or within the living area of an existing primary dwelling unit. Accessory dwelling units developed within existing spaces or living areas shall be allowed only in compliance with the following standards:

**A. Setbacks.** Accessory dwelling units developed within existing spaces shall have side and rear yard setbacks sufficient for fire safety, as required by the building division and the fire department. No setback shall be required for an existing garage that is converted to an accessory dwelling unit or to a portion of an accessory dwelling unit.

**B. Floor Area.** The total area of floorspace of an accessory dwelling unit developed within an existing living area shall not exceed fifty percent (50%) of the existing living area, with a maximum conversion in floor area not to exceed eight hundred (800) square feet. The total area of floorspace of an accessory dwelling unit developed within the existing space of a detached accessory structure, or within the existing non-living area attached to a dwelling unit (e.g., attached garage), shall not exceed the total area of floorspace as the existing space or existing non-living area.

**C. Minimum Unit Size.** An accessory dwelling unit shall not be less than the minimum size for an efficiency unit, as defined in Section 17958.1 of the Health and Safety Code, as it now exists or may hereafter be amended.

**D. Minimum Facilities.** Accessory dwelling units developed within existing spaces or living areas shall include permanent provisions for independent living, sleeping, eating, cooking, and sanitation within the unit and must include a separate exterior entrance from the primary dwelling unit.

**E. Appearance.** The accessory dwelling unit shall be designed and constructed so as to be compatible with the existing primary dwelling unit and neighborhood in terms of height, form, and materials, as determined by the Planning Manager, and the accessory dwelling unit shall be subordinate to the primary dwelling unit.

**F. Parking Requirements.** Accessory dwelling units developed within existing spaces or living areas shall not be required to provide parking except that when a garage, carport, or covered parking structure is converted to an accessory dwelling unit, the required off-street parking spaces for the primary dwelling unit, if eliminated, shall be replaced. The replacement spaces may be located in any configuration on the same lot as the accessory dwelling unit, including within the front yard or street side setback, and may be covered spaces subject to conformance with the applicable requirements set forth in Section 19.22.030(C)(2) (Permitted

Accessory Structures Single-Family and Two-Family) or Section 19.22.030(D)(3) (Permitted Accessory Structures Multi-Family), uncovered spaces or tandem spaces. All replacement parking shall comply with the requirements set forth in Section 11.20.110 (Parking on Private Property Prohibited) and Section 19.10.030(F) (Residential Zone General Development Standards).

**G. Passageways.** No passageways shall be required in conjunction with accessory dwelling units developed within existing spaces or living areas.

**H. Building and Fire Codes.** Except as otherwise provided in this chapter, accessory dwelling units developed within existing spaces or living areas shall comply with all local building and fire codes.

**I. Fire Sprinklers.** Accessory dwelling units developed within existing spaces or living areas shall not be required to provide fire sprinklers if fire sprinklers were not required for the primary dwelling unit.

**J. Utilities.** Accessory dwelling units developed within existing spaces or living areas shall not be required to install a new or separate utility connection directly between the accessory dwelling unit and the public utility infrastructure. However, if necessary utility infrastructure does not exist with capacity available to serve both the primary dwelling unit and the accessory dwelling unit, the property owner shall be responsible for all costs related to installation of necessary infrastructure or upsizing existing infrastructure. Property owners may install a new or separate utility connection directly between the accessory dwelling unit and the public utility infrastructure at the property owner's option and expense.

**K. Height.** An accessory dwelling unit shall not exceed the height limits prescribed in Section 19.10.030 (Residential Zone General Development Standards) for the district in which the accessory dwelling unit will be located.

#### **19.60.070 Development standards for accessory dwelling units proposed as new construction.**

Newly proposed accessory dwelling units are permitted to be attached to a proposed or existing primary dwelling unit or detached from a proposed or existing primary dwelling unit as long as the newly proposed accessory dwelling unit is located on the same lot as a proposed or existing primary dwelling unit. Newly proposed accessory dwelling units shall be allowed only in compliance with the following standards:

**A. Minimum Lot Area.** Five thousand (5,000) square feet.

**B. Maximum Lot Coverage.** The maximum combined building coverage shall not exceed the percentage prescribed in Section 19.10.030 (Residential Zone General Development Standards) for the district in which the accessory dwelling unit will be located.

**C. Setbacks.** An accessory dwelling unit shall maintain the setbacks required in the zoning district in which the accessory dwelling unit will be located and shall comply with all local building and fire codes. A setback of five (5) feet from the side and rear lot lines shall be required for an accessory dwelling unit that is constructed above an existing garage.

**D. Floor Area.** The total area of floorspace of an attached accessory dwelling unit shall not exceed fifty percent (50%) of the proposed or existing primary dwelling unit living

area, with a maximum increase in floor area not to exceed eight hundred (800) square feet. The total area of floorspace for a detached accessory dwelling unit shall not exceed eight hundred (800) square feet.

**E. Minimum Unit Size.** An accessory dwelling unit shall not be less than the minimum size for an efficiency unit, as defined in Section 17958.1 of the Health and Safety Code, as it now exists or may hereafter be amended.

**F. Minimum Facilities.** The accessory dwelling unit shall include permanent provisions for independent living, sleeping, eating, cooking, and sanitation within the unit and must include a separate exterior entrance from the primary dwelling unit.

**G. Appearance.** The accessory dwelling unit shall be designed and constructed so as to be compatible with the proposed or existing primary dwelling unit and neighborhood in terms of height, form, and materials, as determined by the Planning Manager, and the accessory dwelling unit shall be subordinate to the primary dwelling unit.

**H. Parking Requirements.** Except as otherwise provided by this chapter, the parking required by this section is in addition to that required for the primary dwelling unit located on the lot by Chapter 19.26 (Off-Street Parking and Loading).

**1.** Accessory dwelling units with one (1) or more bedrooms shall provide at least one off-street parking space. Studios shall not be required to provide any parking spaces. The parking requirement for accessory dwelling units with bedrooms can be met by providing the required parking space within the 20-foot front yard setback and may be located in tandem with other on-site parking as long as it complies with the requirements set forth in Section 11.20.110 (Parking on Private Property Prohibited) and Section 19.10.030(F) (Residential Zone General Development Standards).

**2.** When a garage, carport, or covered parking structure is demolished in conjunction with the construction of an accessory dwelling unit, the required off-street parking spaces for the primary dwelling unit, if eliminated, shall be replaced. The replacement spaces may be located in any configuration on the same lot as the accessory dwelling unit, including within the front yard or street side setback, and may be covered spaces subject to conformance with the applicable requirements set forth in Section 19.22.030(C)(2) (Permitted Accessory Structures Single-Family and Two-Family) or Section 19.22.030(D)(3) (Permitted Accessory Structures Multi-Family), uncovered spaces or tandem spaces. All replacement parking shall comply with the requirements set forth in Section 11.20.110 (Parking on Private Property Prohibited) and Section 19.10.030(F) (Residential Zone General Development Standards).

**3.** Notwithstanding the above, accessory dwelling units shall not be required to provide parking in any of the following circumstances:

a. When the accessory dwelling unit is located within one-half mile of a public bus stop, bus station or train station.

b. When the accessory dwelling unit is located within the Old Town Historic District or the Central Business District.

c. When the accessory dwelling unit is part of an existing or proposed primary dwelling unit or an existing accessory structure.

d. When on-street parking permits are required but not offered to the occupant of the accessory dwelling unit.

e. When there is a car share vehicle located within one block of the accessory dwelling unit.

**I. Passageways.** No passageways shall be required in conjunction with the construction of an accessory dwelling unit.

**J. Building and Fire Codes.** Except as otherwise provided in this chapter, newly proposed accessory dwelling units shall comply with all local building and fire codes.

**K. Fire Sprinklers.** Accessory dwelling units shall not be required to provide fire sprinklers if fire sprinklers were not required for the primary dwelling unit.

**L. Utilities.** New or separate utility connections directly between the accessory dwelling unit and the public utility infrastructure shall only be required if directed by the environmental utilities department or the electric department. In such cases, if necessary utility infrastructure does not exist with capacity available to serve both the primary dwelling unit and the accessory dwelling unit, the property owner shall be responsible for all costs related to installation of necessary infrastructure or upsizing existing infrastructure.

**M. Height.** An accessory dwelling unit shall not exceed the height limits prescribed in Section 19.10.030 (Residential Zone General Development Standards) for the district in which the accessory dwelling unit will be located.

#### **19.60.080 Use restrictions.**

**A. Sales Prohibited.** Accessory dwelling units shall not be sold independently of the primary dwelling unit on the lot.

**B. Owner Occupancy.** Applications for building permits for accessory dwelling units must be submitted by the owner of the property proposed for an accessory dwelling unit. The owner of the property proposed for an accessory dwelling unit shall occupy as a principal residence either the primary dwelling unit or the accessory dwelling unit.

**C. Rentals.** Accessory dwelling units may be rented as long as the rental term exceeds thirty (30) calendar days or complies with all city short-term rental regulations, policies and procedures.

**D. Deed Restriction.** Following final inspection approval of a building permit for an accessory dwelling unit, a deed restriction, in a form approved by the City Attorney, shall be recorded with the Placer County Recorder's Office, which shall include the applicable restrictions and limitations of an accessory dwelling unit identified in this chapter. Said deed restriction shall run with the land, and shall be binding upon any future owners, heirs, or assigns. A copy of the recorded deed restriction shall be filed with the City stating that:

1. The accessory dwelling unit shall not be sold separately from the primary dwelling unit.

2. The accessory dwelling unit is restricted to the maximum size allowed per the development standards identified in this chapter.

3. The accessory dwelling unit shall be considered legal only so long as either the primary dwelling unit, or the accessory dwelling unit, is occupied by the owner of record of the property.

4. The restrictions shall be binding upon any successor in ownership of the property and lack of compliance with this provision may result in legal action against the property owner, including revocation of any right to maintain an accessory dwelling unit on the property.

#### **19.60.090 Accessory dwelling units with nonconforming primary dwelling unit.**

When the primary dwelling unit is nonconforming, an accessory dwelling unit in compliance with the above standards is still permitted, providing that the accessory dwelling unit does not increase the nonconformity.

#### **19.60.100 Fees.**

All fees and charges, including but not limited to, mitigation fees, development impact fees, and connection fees and capacity charges for water, sewer, and electric services, will be charged in accordance with the Accessory Dwelling Units Fee Policy adopted by the City Council on May 23, 2018 by Resolution No. 18-185, as amended from time to time.

#### **19.60.110 Administrative permit requirements.**

An accessory dwelling unit which does not meet the standards set forth in this chapter, shall be required to obtain an Administrative Permit pursuant to Chapter 19.74 (Permit and Variance Requirements). The provisions of this chapter do not apply to junior accessory dwelling units as defined in Government Code Section 65852.22, as it now exists or may hereafter be amended. Junior accessory dwelling units shall also be required to obtain an Administrative Permit pursuant to Chapter 19.74.

SECTION 14. Section 19.72.020 of Chapter 19.72 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

#### **19.72.020 Zoning clearance required.**

A zoning clearance certification shall be required prior to the issuance of a building permit for a parcel, prior to the initiation of a home occupation as provided in Chapter 19.42 (Home Occupations), or prior to the issuance of a building permit for an accessory dwelling unit as provided in Chapter 19.60 (Accessory Dwelling Units). In addition, any person may request and the Planning Division shall issue a zoning clearance certification stating the zoning standards for any parcel located within the City.

SECTION 15. Section 19.95.030 of Chapter 19.95 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

#### **19.95.030 Definitions.**

A. 1. **Accessory Building or Structure:** (See Building, Accessory).

2. **Act:** The Fair Housing Amendments Act of 1988.

3. **Amendment:** Any change, modification, deletion, or addition to the wording, text or substance of this title or any change, modification, deletion, or addition to the application of this title to property within the City of Roseville, including any alteration in the boundaries of a zone district, when adopted by ordinance passed by the City Council in the manner prescribed by law.

4. **Antenna:** A device used in communications which transmits or receives radio signals. Common forms of antennae are panel arrays and whip antennas. Panel arrays are designed to concentrate a radio signal in a particular area and are typically flat and rectangular in design. Whip antennas transmit a signal 360 degrees and are cylindrical with an 18-foot height limit.

a. **Co-Location.** Locating wireless communications equipment from more than one provider on a single site.

b. **Telecommunication Facility.** A land use facility supporting antennas and microwave dishes that sends and/or receives radio-frequency signals. Communication facilities include structures (aka monopole, towers) and accessory buildings.

c. **Dish Antenna.** A dish-like antenna used to link communication sites together by wireless transmission of voices or data. Also called microwave antenna or microwave dish antenna.

d. **Equipment Building, Shelter or Cabinet.** A structure designed and used to house equipment used by telecommunication providers at a facility.

e. **Monopole.** A structure of a single spire used to support communications equipment.

f. **Related Equipment.** All equipment ancillary to the transmission and reception of voice and data via radio frequencies. Such equipment may include, but is not limited to, cable, conduit and connectors.

g. **Satellite Antennas.** A satellite antenna is a dish like antenna used to link communications sites together by wireless transmission of voice or data. Also called microwave antenna or microwave dish antenna.

h. **Stealth Facility.** Any communications facility which is designed to blend into the surrounding environment. Examples of stealth facilities may include architecturally screened roof-mounted antennas, building mounted antennas painted to match the existing structure, antennas integrated into architectural elements, and antenna structures designed to look like light poles. Also called concealed antennas.

i. **Telecommunication Tower.** A mast, pole, monopole or guyed or lattice, free-standing tower designed and primarily used to support antennas, to include dishes, arrays and similar devices.

5. **Appellate Approving Authority:** As designated in Section 19.80.020, it is either the Planning Commission or the City Council that is authorized to hear and act on appeals to actions and decisions provided by this title.

6. **Approving Authority:** As designed in Section 19.80.020, it means one of the following depending on the nature of the application: City Council, Planning Commission, Design Review Commission, Planning Manager, Community Development Manager or designee.

B. 1. **Building:** Any structure having a roof supported by columns and/or walls and intended for the shelter, housing and enclosure of any individual, animal, process, equipment, vehicles, goods or materials of any kind or nature.

2. **Building or Structure, Accessory:** A building or structure detached from a principal building on the same lot and incidental to the principal building.

3. **Building or Structure, Nonconforming:** A building or structure, or portion thereof, which was lawfully erected, altered or maintained, prior to the effective date of the ordinance codified in this title, but which, because of the application of this title to it, no longer conforms to the specific regulations applicable to the zoning district in which it is located.

4. **Building Coverage:** The land area covered by all primary buildings on a lot.

5. **Building, Primary:** A building devoted primarily to the principal or conditionally permitted use of the lot or building site on which it is situated, as permitted by this title.

6. **Bus Depot or Station:** A place of business serving as a point of arrival or departure for passengers traveling by intercity or interstate bus, except those buses operated by a governmental entity.

C. 1. **City:** The City of Roseville, California.

2. **City Council:** The City Council of the City of Roseville.

3. **Clear Vision Triangle, Commercial:** That portion of both private property and public right-of-way located at any corner defined by the triangular area created by the diagonal connection of two points measured 30 feet back from the intersection of the prolongation of points measures along the front and corner street side back of curb (see figure below). The dimensions of the clear vision triangle may be required to be increased if the Director of Public Works determines that additional area is needed to ensure that a potential traffic hazard is not created.

**CLEAR VISION TRIANGLE - COMMERCIAL**  
NO SCALE

4. **Clear Vision Triangle, Residential:** That portion of both private property and public right-of-way located at any corner defined by the triangular area created by the diagonal connection of two points measured 25 feet along the front and 75 feet along the side of a property measured from the back of curb. The third side of the clear vision triangle shall be the hypotenuse of the triangle described connecting the other two sides (see figure below). The dimensions of the clear vision triangle may be required to be increased if the Director of Public Works determines that additional area is needed to ensure that a potential traffic hazard is not created.

**CLEAR VISION TRIANGLE - RESIDENTIAL**  
NO SCALE

5. **Compact Residential Development:** Attached or detached single-family housing units on a parcel or parcels with a General Plan land use designation of medium density residential or higher (seven dwelling units per acre or higher, as depicted on the General Plan Land Use Map).

6. **Condominium:** An estate in real property consisting of an undivided interest in common in portions of a parcel of real property together with a separate interest in a dwelling, industrial or commercial building on such real property, such as an apartment, office, warehouse or store. A condominium may include, in addition, a separate interest in other portions of such real property.

**7. Condominium Conversion:** Condominium conversion occurs whenever a multiple residential dwelling unit building or a residential housing project containing three or more dwelling units under the same ownership, or such a project that has been granted an occupancy permit is subdivided so that individual dwelling units are available for sale as condominiums within the meaning of Civil Code Section 783.

**8. Cooking:** As referred to in Section 19.08.080 and Chapter 19.60, “cooking” means that the unit will contain a residential stove/oven/cooktop requiring dedicated utility connections such as large amperage wiring or a dedicated gas connection.

**9. Council, or City Council:** The City Council of the City of Roseville, California.

**10. Construction Trailer:** A trailer used as an on-site office only during actual construction of an approved building site.

**D. 1. Density:** The number of dwelling units per gross acre excluding accessory dwelling units pursuant to Government Code Section 65852.2.

**2. Department:** The planning and redevelopment department of the City of Roseville.

**3. Design Guidelines:** A set of guidelines adopted by the City of Roseville, defining elements and dimensions to be followed in site, building design, landscaping and development.

**4. Development:** Shall be as defined by California Government Code Section 65927.

**5. Development Standard:** Those parts of a zone district and any other regulation of this title which regulates aspects of physical development, including, but not limited to, density, lot area, lot width, lot coverage, building height, and setbacks.

**6. Disabled Person:** Any person who has a physical or mental impairment that substantially limits one or more major life activities; anyone who is regarded as having such impairment; or anyone who has record of such impairment. People who are currently using illegal substances are not covered under the Act unless they have a separate disability or otherwise qualify.

**7. Distance between Structures:** The shortest horizontal distance measured between two vertical walls of two structures.

**E. 1. Expansion, Building or Structure:** An alteration of a building/structure that results in an increase in its size, either in extent or bulk, or an increase in its area or volume.

**2. Expansion, Use:** An alteration of a use that results in an increase in its size, either in extent, intensity or in the nature of the activities conducted.

**F. 1. Family:** An individual or group of two or more persons occupying a dwelling and living together as a single housekeeping unit in which each resident has access to all parts of the dwelling and where the adult residents share expenses for food or rent.

**2. Fence:** An artificially constructed barrier of any material or combination of materials erected to enclose, screen, or separate areas.

**G. 1. Garage Sale:** The temporary sale of used household or personal articles held on the seller’s own residential premises, also referred to as a yard sale or rummage sale.

2. **General Plan:** As used in this title, the term General Plan means the City of Roseville General Plan, and all revisions and amendments to the Plan.

3. **“Group Home”** shall mean those uses or facilities identified with Sections 19.08.070(J)(3), 19.08.080(C), 19.08.080(D) and such other sections of this title, which provide for the care of disabled or supervised individual(s).

H. 1. **Height, Building and Other Structures:** The vertical distance from the highest point of the building or structure to the average of the highest and lowest points where the exterior walls or supports touch the natural grade.

**BUILDING HEIGHT FROM AVERAGE GRADE**  
NO SCALE

2. **Height, Fence or Wall:** The height of a fence or wall shall be determined from the highest finished grade adjacent to the fence or wall.

3. **Home, Model Complex:** One or more dwelling units or one temporary trailer temporarily used for display purposes as an example of dwelling units available or to be available for sale or rental for the first time in a particular subdivision or residential development which may be comprised of single detached, semi-detached, or multiple unit dwellings, or a combination thereof. It also includes one sales office and associated parking.

I. **Reserved.**

J. 1. **Junk Yard:** Any area of 200 square feet or more used for the storage of junk, scrap materials, materials, salvaged from wrecked or demolished buildings, machinery or equipment; or used for the wrecking or demolishing of automobiles, other vehicles, or machinery.

K. **Reserved.**

L. 1. **Landscaped Area:** An area devoted to lawn, groundcover, trees, or shrubs or hardscape, and as specified in this title, the Design Guidelines, any applicable specific plan or by other City requirement.

2. **Loading Space:** An area, other than a street, alley, or driving aisle, on the same lot with a building or a group of buildings which is permanently reserved and maintained for the temporary parking of commercial vehicles while loading or unloading merchandise or materials.

3. **Lot:** A legally created parcel of land used or capable of being used under the regulations of this title.

4. **Lot, Corner:** A lot located at the intersection of two or more streets, with one property boundary bordering on each street frontage (see figure).

5. **Lot, Developed:** A lot with buildings or structures.

6. **Lot, Flag:** A lot having access to a public or private street by a narrow strip of land (see figure under Lot, Corner).

7. **Lot, Frontage:** That portion of the lot contiguous to the street.

8. **Lot, Interior:** A lot, other than a corner lot, abutting only one street (see figure under Lot, Corner).

9. **Lot, Key:** A lot with a side line that abuts the rear line of any one or more adjoining lots (see figure under Lot, Corner).

10. **Lot Line, Front:** The lot line separating a lot from a street right-of-way. The front lot line of a corner lot may face either street frontage, at the option of the owner, provided that the required rear yard setback is obtainable opposite from the front lot line.

11. **Lot Line, Rear:** That lot line, not intersecting a front lot line, which is most distant from and most closely parallel to the front lot line. In the case of an irregularly shaped lot or a lot bounded by only three lot lines, a line within the lot having a length of 30 feet parallel to

and most distant from the front lot line shall be interpreted as the rear lot line for the purpose of determining required yards, setbacks, and other provisions of this title (see figures below).

12. **Lot Line, Side:** Any lot line which is not a front or rear lot line.
  13. **Lot, Reversed Corner:** A corner lot, the rear of which abuts the side of another lot (see figure under Lot, Corner).
  14. **Lot, Area:** The area contained within the boundary lines of a lot.
  15. **Lot, Through:** A lot having frontage on two generally parallel streets (see figure under Lot, Corner).
  16. **Lot, Width:** The horizontal distance between the side lot lines, measured at the front setback line.
- M.**
1. **Manager:** The Planning Manager of the City of Roseville or the Manager's designee.
  2. **Manufactured Home:** A factory built or manufactured home permitted by State of California and federal laws.
  3. **Mobile Home:** Same as manufactured home, but subject to the National Manufactured Housing Construction and Safety Act of 1974.
  4. **Mobile Home Park:** Any area or tract of land where one or more mobile home lots are rented or leased or held out for rent or lease to accommodate mobile homes used for human habitation. The rental paid for any such mobile home shall be deemed to include rental for the lot it occupies.
  5. **Model Home Complex:** One or more dwellings used for the display and sale of units and lots within a subdivision.
- N.**
1. **Nonconforming Structure or Building:** A structure or building, the size, dimensions, or location of which was lawful prior to the adoption, revision, or amendment to the

Zoning Ordinance but that fails by reason of such adoption, revision, or amendment to comply to the present requirements of the zoning district.

**2. Nonconforming Use:** A use or activity that was lawful prior to the adoption, revision or amendment of the Zoning Ordinance but that fails by reason of such adoption, revision, or amendment to comply to the present requirements of the zoning district.

**O. 1. Open Air Vending Facilities:** The sale of prepared food, fresh cut flowers or plants, or the sale of items determined by the Planning Manager to be consistent with this type of use, from a stand or non-motorized non-stationary cart or pushcart.

**2. Outdoor Sales Area:** An outdoor area located on the same lot as the principal business used for merchandise display or storage as allowed under this title.

**P. 1. Parcel:** Means an area of land.

**2. Parcel, Nonconforming:** A parcel of land having less area, frontage, or dimensions than required in the zoning district in which it is located.

**3. Parking Lot:** An area of land, a yard or other open space on a lot legally used for or designed for parking motor vehicles.

**4. Parking Space:** An unobstructed space or area other than a street or alley which is permanently reserved and maintained for the parking of one motor vehicle.

**5. Peak Load:** The generation of electricity during the highest electrical demand within a particular period of time. Daily electric peaks on weekdays occur in late afternoon and early evening. Annual peaks occur on hot summer days.

**6. Permitted:** Means any use or activity allowed by the provisions of this title, and subject to the applicable regulations contained within this title.

**7. Person:** An individual, firm, co-partnership, joint venture, association, social club, fraternal organization, corporation, estate, trust, receiver, syndicate, City, local agency, or any other group or combination acting as an entity.

**8. Planning Commission:** The Planning Commission of the City of Roseville.

**9. Property Owner:** A person or persons having a possessory interest in the property, other than a periodic tenancy, estate at will, or sufferance, or a person having a contractual right which will ripen into such a possessory interest in the property.

**Q. Reserved.**

**R. Reserved.**

**S. 1. Sale, Fundraising:** The temporary sale of new or used merchandise conducted by a charitable, eleemosynary, or non-profit organization or by groups associated with churches, schools and clubs.

**2. Seating Capacity:** The actual seating capacity of an area based upon the number of seats of one seat per 18 inches of bench or pew length. For other areas where seats are not fixed, the seating capacity shall be determined as indicated by the Uniform Building Code.

**3. Secondary Use:** A purpose for which land or a building is or may be intended, occupied, maintained, arranged, or designed, which is less visible, prominent, or important than the primary use(s) on the same lot or parcel.

4. **Setback:** The required distance that a building, parking lot or other designated item must be located from a lot line.

5. **Setback, Front:** The front setback is an area formed by a line parallel to a front lot line. The front setback is measured at right angles to the front lot line.

6. **Setback, Rear:** The rear setback is an area formed by a line parallel to the rear lot line. Rear setbacks are measured at right angles to the rear lot lines.

7. **Setback, Side:** The side setback is an area formed by a line parallel to the side lot line, that extends between front and rear setback areas. Side setbacks are measured at right angles to the side lot lines.

8. **Shopping Center:** Two or more contiguous or separate retail commercial stores that share access and/or parking, which function by design, or ultimately function, as a single entity.

9. **Street:** A public or permanent private way 30 feet or more in width, which affords a primary means of access to property.

10. **Structural Alterations:** Any change in the supporting members of a building such as foundations, bearing walls, columns, beams, floor or roof joints, girders or rafters, or changes in roof or exterior lines.

11. **Structure:** Anything constructed or erected which requires location on the ground or attachment to something having a permanent location on the ground, including but not limited to antennas, signs and billboards, but not including outdoor areas such as paved areas, tennis courts, driveways, parking spaces where the area is unobstructed from the ground up.

T. 1. **“Theater”** means a building or structure used for the purpose of conducting live dramatic, comedic or musical performances, the showing of motion pictures or similar recorded media, or other live performing arts.

U. 1. **Uniform Building Code:** The Uniform Building Code currently in use and adopted by the City of Roseville.

2. **Usable Open Space:** One or more open areas adjacent to residential uses, the purpose of which is to provide an outdoor area designed for outdoor living and recreation, and which is located at, below, or above grade. This space is typically accommodated within side and rear yard areas.

3. **Use:** The purpose of which land or a building is arranged, designed, or intended, or for which either land or a building is or may be occupied or maintained.

4. **Use, Accessory:** See Accessory Uses, Article III, Chapter 19.22.

5. **Use, Conditionally Permitted:** A use type subject to a Conditional Use Permit, which use may be essential or desirable to the public convenience or welfare in one or more zones but which may also impair the integrity and character of the zone or adjoining zone or be detrimental to the public health, safety or welfare unless additional restrictions on location and extent of use are imposed and enforced. Such use shall be permitted when all specific additional restrictions are completed and permanently satisfied in conformance with an approved Conditional Use Permit. Should such restrictions be of a continuing nature, the use will remain conditional so long as the restrictions are complied with, but shall become an illegal use whenever and so long as the restrictions are not complied with.

6. **Use, Primary:** The primary use or uses for which land or a building is or may be intended, occupied, maintained, arranged or designed and includes principally, conditionally and administratively permitted uses.

7. **Use, Principally Permitted:** The primary use of land or of a main building which use is compatible with the purpose of the zone and which is permitted in the zone. If a use is listed in a specific zone as a principally permitted use, it means that the owner, lessee or other person who has legal right to use the land, has right to conduct such principally permitted use subject to the regulations and procedural requirements of this title.

8. **Use, Temporary:** See Temporary Uses, Article IV, Chapter 19.64.

9. **Use Type:** A category or class of land uses which share common functional, product or compatibility characteristics and which have been classified under a discreet use type in these regulations, commencing at Article II of this title.

V. **Reserved.**

W. **Reserved.**

X. **Reserved.**

Y. **Reserved.**

Z. 1. **Zoning District:** A designated/mapped portion of the City within which a uniform set of regulations apply.

SECTION 16. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 17. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

RESOLUTION NO. 18-185

APPROVING AN ACCESSORY DWELLING UNITS FEE POLICY

WHEREAS, an internal fee policy was established in the 1990s to set clear expectations regarding the application of fees related specifically to accessory dwelling units (formerly second dwelling units); and

WHEREAS, in addition to periodic updates, recent changes to requirements mandated by the State have resulted in an update to that policy; and

WHEREAS, the Accessory Dwelling Units Fee Policy has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that the Accessory Dwelling Units Fee Policy is hereby approved.

## COUNCIL COMMUNICATION

**CC #: 9259**  
**File #: 0800-06**

**Title:** Second Reading - Downtown Code Amendment - Regulations Related to Allowed Uses in the Dry Creek Mixed Use (D-7) District  
**Contact:** Greg Bitter 916-774-5294 gbitter@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.33.**

### RECOMMENDATION TO COUNCIL

ORDINANCE NO. 5973 OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION 2.3.2 OF CHAPTER 2 OF THE ROSEVILLE DOWNTOWN CODE REGARDING ALLOWED LAND USES WITHIN THE DRY CREEK MIXED-USE (DT-7) DISTRICT for second reading adoption.

### BACKGROUND

Not applicable.

### FISCAL IMPACT

Not applicable.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

This action is not a project subject to the California Environmental Quality Act (CEQA) because it involves only general policy and procedure making and does not have the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment (CEQA Guidelines, Sections 15002(d), 15378, 15061(b)(3).).

Respectfully Submitted,

Greg Bitter, Planning Manager

Mike Isom, Acting Development Services Director

Description

Ordinance No. 5973

ORDINANCE NO. 5973

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION  
2.3.2 OF CHAPTER 2 OF THE ROSEVILLE DOWNTOWN CODE REGARDING  
ALLOWED LAND USES WITHIN THE DRY CREEK MIXED-USE (DT-7) DISTRICT

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Background and Purpose. In 2009, the City Council, by Ordinance No. 4728, added Chapter 19.31 to the Roseville Municipal Code which adopted and incorporated by reference the Downtown Code. The proposed amendment of the Downtown Code would allow the College and University, Vocational School and Specialty School land use types as principally permitted uses within the Dry Creek Mixed-Use (DT-7) District, as shown in attached Exhibit A.

SECTION 2. Amendment of Downtown Code. Section 2.3.2 is hereby amended as shown in Exhibit A.

SECTION 3. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 4. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Downtown Code a certificate or notation stating the time and place of said publication by posting. The Planning Manager is directed to replace pages 2-14 and 2-16 of the Downtown Code with new pages 2-14 and 2-16 as shown in Exhibit A.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by the following vote on roll call:

## COUNCIL COMMUNICATION

**CC #: 9261**  
**File #: 0800-06**

**Title:** Second Reading - Wireless Telecommunications in the Public Right-Of-Way - Ordinance Amendment  
**Contact:** Derek Ogden 916-746-1348 dogden@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.34.**

### RECOMMENDATION TO COUNCIL

ORDINANCE NO. 5975 OF THE COUNCIL OF THE CITY OF ROSEVILLE ADDING CHAPTER 13.30 TO TITLE 13 OF THE ROSEVILLE MUNICIPAL CODE REGARDING WIRELESS TELECOMMUNICATIONS FACILITIES IN THE PUBLIC RIGHT-OF-WAY AND AMENDING SECTION 19.34.010 OF CHAPTER 19.34 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ANTENNAS AND COMMUNICATIONS FACILITIES for second reading adoption.

### BACKGROUND

Not applicable.

### FISCAL IMPACT

Not applicable.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

The proposed RMC revisions to accommodate wireless telecommunication facilities would allow for the installation of new utility poles and installation of related ground equipment to support "small cell" facilities within public right-of-way. These activities are categorically exempt from CEQA under Classes 3 (New Construction or Conversion of Small Structures), and 4 (Minor Alterations to Land). The Exemption(s) has been prepared and no further CEQA action is required.

Respectfully Submitted,

Derek Ogden, Senior Planner

Mike Isom, Acting Development Services Director

---

Dominick Casey, Acting City Manager

**ATTACHMENTS:**

Description

Ordinance No. 5975

ORDINANCE NO. 5975

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE ADDING CHAPTER 13.30 TO TITLE 13 OF THE ROSEVILLE MUNICIPAL CODE REGARDING WIRELESS TELECOMMUNICATIONS FACILITIES IN THE PUBLIC RIGHT-OF-WAY AND AMENDING SECTION 19.34.010 OF CHAPTER 19.34 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ANTENNAS AND COMMUNICATIONS FACILITIES

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Chapter 13.30 of Title 13 is hereby added to the Roseville Municipal Code and shall read as follows:

**Chapter 13.30**

**WIRELESS TELECOMMUNICATIONS FACILITIES IN THE  
PUBLIC RIGHT-OF-WAY**

**13.30.010 Purpose.**

The purpose and intent of this chapter is to provide a uniform and comprehensive set of regulations and standards for the permitting, development, siting, installation, design, operation, and maintenance of wireless telecommunications facilities in the city's public right-of-way. These regulations are intended to prescribe clear and reasonable criteria to assess and process applications in a consistent and expeditious manner, while reducing the impacts associated with wireless telecommunications facilities. This chapter provides standards necessary:

- A. For the preservation of the public right-of-way in the city for the maximum benefit and use of the public;
- B. To promote and protect public health and safety, community welfare, visual resources, and the aesthetic quality of the city consistent with the goals, objectives and policies of the general plan; and
- C. To provide for the orderly, managed and efficient development of wireless telecommunications facilities in accordance with state and federal laws, rules and regulations.

**13.30.020 Definitions.**

For the purposes of this chapter, the following words and phrases shall have the meanings respectively ascribed to them by this section:

"Accessory equipment" means any equipment associated with the installation of a wireless telecommunications facility, including but not limited to cabling, generators, fans, air conditioning units, electrical panels, equipment shelters, equipment cabinets, equipment

buildings, pedestals, meters, vaults, splice boxes, uninterruptible power supplies, and surface location markers.

"Antenna" means that part of a wireless telecommunications facility which is designed to radiate or receive radio frequency signals.

"Base station" means a structure or equipment at a fixed location that enables Federal Communications Commission's ("FCC") licensed or authorized wireless communications between user equipment and a communications network.

"Cellular" means an analog or digital wireless telecommunications technology that is based on a system of interconnected neighboring cell sites.

"City" means the City of Roseville or a designated agent of the City of Roseville.

"City-owned property" means any property owned, rented or leased by the city, or in which the city has the right to use or occupancy by virtue of an easement or other similar interest, excluding the public right-of-way. For purposes of this definition, "property" includes real property or improvements thereon, and personal property, fixtures or equipment.

"Code" means the Roseville Municipal Code.

"Co-Location" means the mounting or installation of transmission equipment on an eligible support structure which is for the purpose of transmitting and/or receiving radio frequency signal for communication purposes.

"COW" means a "cell on wheels," which is a wireless telecommunications facility temporarily rolled in or temporarily installed.

"Director" means the director of development services, or his or her designee.

"Eligible facilities" means the modification of an existing wireless tower or base station that involves the co-location of new transmission equipment, the removal of transmission equipment, or the replacement of transmission equipment as defined in 47 U.S.C. § 1455 or its successor statute.

"Eligible support structure" means any tower or base station provided that it is existing at the time the application is filed with the city.

"Facility(ies)" means wireless telecommunications facilities.

"Ground-mounted" means placed directly on the ground.

"Located within the public right-of-way" includes any facility which in whole or in part, itself or as part of another structure, rests upon, in, over, or under the public right-of-way.

"Modification" means a change to an existing wireless telecommunications facility that involves any of the following: co-location, expansion, alteration, enlargement, intensification, reduction, augmentation, removal of transmission equipment, or replacement of transmission equipment, including, but not limited to, changes in size, shape, color, visual design, or exterior material. "Modification" does not include repair, replacement (excluding replacement of transmission equipment) or maintenance if those actions do not involve a change to the existing facility involving any of the following: co-location, expansion, alteration, enlargement, intensification, reduction, or augmentation.

"Monopole" means a structure composed of a pole or tower used to support antennas or related equipment. A monopole also includes a monopine, monopalm and similar monopoles camouflaged to resemble faux trees or other faux objects attached on a monopole (e.g., water tower).

"Mounted" means attached or supported.

"Permittee" shall include the applicant and all successors in interest to the wireless telecommunications facilities permit.

"Pole" means a single shaft of wood, steel, concrete or other material capable of supporting the equipment mounted thereon in a safe and adequate manner and as required by provisions of this code.

"Public right-of-way" means the area on, below, or above a public roadway, highway, street, or alley that is owned by the city, publicly held by the city or dedicated to the city for public use and over which the city has jurisdiction and control and may lawfully grant access pursuant to applicable law. "Public right-of-way" shall also include: (1) public utility easements adjacent to public roadways, highways, streets, or alleys that are under the jurisdiction and control of the city wherein the city now or hereafter acquires the right to locate or permit the location of wireless telecommunications facilities, provided that the terms and conditions of any such easement expressly allow, or any restrictions thereon do not expressly prohibit, the use of the particular easement for purposes other than which it was conveyed, dedicated or condemned; and (2) all landscape corridors adjacent to public roadways, highways, streets, or alleys that are owned by the city, publicly held by the city or dedicated to the city for public use and over which the city has jurisdiction and control and may lawfully grant access pursuant to applicable law.

"Public right-of-way" shall not include: (1) county, state or federal rights-of-way; (2) property owned by any person other than the city; (3) service entrances or driveways leading from the road or street onto adjoining property; or (4) except as described above, any real or personal property of the city, such as, but not limited to, bike trails, city parks, buildings, fixtures, poles, conduits, sewer lines, facilities, or other structures or improvements, regardless of whether they are situated in the public right-of-way.

"Street light pole" means a pole located on the edge of the public right-of-way containing a raised source of light whose main purpose is to light the public right-of-way.

"Substantial evidence" means such relevant evidence as a reasonable mind might accept as adequate to support a conclusion.

"Telecommunications tower" means a freestanding structure designed and primarily used to support wireless telecommunications facility antennas.

"Tower" means any structure built for the sole or primary purpose of supporting any FCC licensed or authorized antennas and their associated facilities, including structures that are constructed for wireless communications services including, but not limited to, private, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless services such as microwave backhaul, and the associated site.

"Traffic signal pole" means a pole containing signaling devices positioned at road intersections, pedestrian crossings, and other locations to control the flow of traffic.

"Utility pole" means any pole or tower owned by any utility company that is primarily used to support wires or cables necessary to the provision of electrical or other utility services.

"Wireless telecommunications facility," "facility" or "facilities" mean any facility that transmits and/or receives electromagnetic waves. It includes, but is not limited to, antennas and/or other types of equipment for the transmission or receipt of such signals, telecommunications towers or similar structures supporting such equipment, related accessory equipment, equipment buildings, parking areas, fences, and other accessory development.

The term "wireless telecommunications facility" does not apply to the following:

- A. Government owned and operated telecommunications facilities.
- B. Emergency medical care provider-owned and operated telecommunications facilities.
- C. A mobile wireless telecommunications facility operated by the media on a temporary basis at various locations in the city to provide public information coverage of news events.
- D. Any wireless telecommunications facilities exempted from this code by state or federal law.

"Wireless telecommunications services" means the provision of services using a wireless telecommunications facility or a wireless telecommunications co-location facility, and shall include, but is not limited to, the following services: personal wireless services as defined in the federal Telecommunications Act of 1996 at 47 U.S.C. § 332(c)(7)(C) or its successor statute, cellular service, personal communication service, and/or data radio telecommunications.

### **13.30.030      Applicability.**

- A. This chapter applies to the siting, construction or modification of any and all wireless telecommunications facilities proposed to be located in the public right-of-way.
- B. This chapter does not apply to the following:
  - 1. Wireless telecommunication facilities not located within the public right-of-way. These facilities are regulated by Chapter 19.34 of the Roseville Municipal Code.
  - 2. Amateur radio facilities.
  - 3. Over the air reception devices ("OTARD") antennas.
  - 4. Facilities owned and operated by the city for its use.
  - 5. Any entity legally entitled to an exemption pursuant to state or federal law or governing franchise agreement.
  - 6. Wireless telecommunications facilities proposed to be located on city-owned property.
  - 7. Wireless telecommunications facilities proposed to be located on city-owned street light poles, traffic signal poles, and utility poles located in the public right-of-way.

8. Like-kind replacements of antennas or accessory equipment.

#### **13.30.040 Wireless telecommunications facility permit requirements.**

##### **A. Wireless Telecommunications Facilities Permit.**

1. A wireless telecommunications facilities permit, subject to the director's approval, may be issued for new facilities or co-locations or modifications to existing facilities that comply with all applicable provisions in this chapter without need for an exception pursuant to Section 13.30.160 (Exceptions).

##### **B. Master Wireless Telecommunications Facilities Permit.**

1. Any applicant that seeks approval for five (5) or more wireless telecommunications facilities located within a one (1) mile radius (including new facilities and co-locations to existing facilities) may elect to submit an application for a master wireless telecommunications facilities permit subject to the director's approval. The proposed facilities in a master plan shall be reviewed together at the same time and subject to the same requirements and procedures applicable to a wireless telecommunications facilities permit.

2. A master wireless telecommunications facilities permit shall be deemed an approval for all wireless telecommunications facilities within the master plan; provided, however, that an individual encroachment permit shall be required for each wireless telecommunications facility.

3. After the director approves a master wireless telecommunications facilities permit, any deviations or alterations from the approved master plan for an individual wireless telecommunications facility shall require a new wireless telecommunications facilities permit.

**C. Other Permits Required.** In addition to any permit that may be required under this chapter, the applicant must obtain all other required prior permits or other approvals from other city departments, or state or federal agencies, including but not limited to building and encroachment permits. Any permit granted under this chapter is subject to the conditions and/or requirements of other required prior permits or other approvals from other city departments, state or federal agencies.

**D. Eligible Applicants.** Only applicants who have been granted the right to enter the public right-of-way pursuant to state or federal law shall be eligible for a permit to install or modify a wireless telecommunications facility or a wireless telecommunications co-location facility in the public right-of-way.

**E. Speculative Equipment Prohibited.** The city finds that the practice of pre-approving wireless equipment or other improvements that the applicant does not presently intend to install but may wish to install at some undetermined future time does not serve the public's best interest. The city shall not approve any equipment or other improvements in connection with a wireless telecommunications facility permit when the applicant does not actually and presently intend to install such equipment or construct such improvements.

#### **13.30.050 Application for wireless telecommunications facility permits.**

A. Application. In addition to the information required of an applicant for an encroachment permit or any other permit required by this code, each applicant requesting approval of the installation or modification of a wireless telecommunications facility in the public right-of-way shall fully and completely submit to the city a written application on a form prepared by the director.

B. Application Contents. The director shall develop an application form and make it available to applicants upon request. The application form for new wireless telecommunications facilities to be installed in the public right-of-way, or for modifications to existing wireless telecommunications facilities, shall require the following information, in addition to all other information determined necessary by the director:

1. The name, address and telephone number of the applicant, owner and the operator of the proposed or modified facility.

2. If the applicant is an agent, the applicant shall provide a duly executed letter of authorization from the owner of the facility. If the owner will not directly provide wireless telecommunications services, the applicant shall provide a duly executed letter of authorization from the person(s) or entity(ies) that will provide those services.

3. If the facility will be located on or in the property of someone other than city owned infrastructure or the owner of the facility (e.g., non-city owned utility pole, utility cabinet, vault, or cable conduit), the applicant shall provide a duly executed written authorization from the property owner(s) authorizing the placement of the facility on or in the property owner's property.

4. A list of applicant's existing facilities located in the city and any pending applications with the city.

5. Detailed engineering plans of the proposed facility and related report documenting the following:

a. Height, length, diameter and design of the facility, including technical engineering specifications, together with evidence that demonstrates that the proposed facility has been designed to be the least visible equipment within the particular technology the carrier chooses to deploy. A layout plan, section and elevation of the tower structure shall be included.

b. A photograph and model name and number of each piece of equipment included.

c. Power output and operating frequency for the proposed antenna.

d. Total anticipated capacity of the structure, indicating the number, types, power, and frequency ranges of applicant's antennas, which can be accommodated.

e. Sufficient evidence to the city's satisfaction of the structural integrity of the pole or other supporting structure as required by the city.

f. Electric service requirements to include metered service pedestal location, pedestal manufacturer and cut sheet, main bussing size of service in amps, voltage requested, service entrance conductor quantity and size, and load calculations.

g. Structural load calculations if planning on attaching antennae on existing poles or towers that shows the existing structure and base can support the new load without being replaced.

6. Site plan(s) to scale, specifying and depicting the exact proposed location of the pole, pole diameter, antennas, accessory equipment, public right-of-way, access or utility easements, landscaped areas, existing utilities, adjacent land uses, sidewalk, curb, road, street signs, traffic control devices, and showing compliance with Section 13.30.070 (Requirements for Facilities within the Public Right-of-Way).

7. Scaled elevation plans of proposed poles, antennas, accessory equipment, and related landscaping and screening.

8. If the applicant requests an exception to the requirements of this chapter (in accordance with Section 13.30.160 (Exceptions)), the applicant shall provide all information and studies necessary for the city to evaluate that request except that for eligible facilities, the city may only require the applicant to provide documentation or information only to the extent reasonably related to determining whether the request for an exception meets the requirements of this chapter.

9. An accurate visual impact analysis showing the maximum silhouette, color and finish palette and proposed screening for the facility, including scaled photo simulations from at least three (3) different angles. A visual impact analysis shall not be required for eligible facilities or for any application that will not impact appearance, such as a modification to equipment behind existing screening.

10. Completion of the radio frequency ("RF") emissions exposure guidelines checklist contained in Appendix A to the FCC's "Local Government Official's Guide to Transmitting Antenna RF Emission Safety" to determine whether the facility will be "categorically excluded" as that term is used by the FCC.

11. For a facility that is not categorically excluded under the FCC regulations for RF emissions, the applicant shall submit an RF exposure compliance report prepared and certified by an RF engineer acceptable to the city that certifies that the proposed facility will comply with applicable federal RF exposure standards and exposure limits. The RF report must include the actual frequency and power levels (in watts effective radio power "ERP") for all existing and proposed antennas at the site and exhibits that show the location and orientation of all transmitting antennas and the boundaries of areas with RF exposures in excess of the uncontrolled/general population limit (as that term is defined by the FCC) and also the boundaries of areas with RF exposures in excess of the controlled/occupational limit (as that term is defined by the FCC). Each such boundary shall be clearly marked and identified for every transmitting antenna at the project site.

12. A traffic control plan for any work or staging of work within the traveled way including streets and sidewalks.

13. Copies of any documents that the applicant is required to file pursuant to Federal Aviation Administration ("FAA") regulations for the facility.

14. A noise study prepared by a qualified acoustic engineer documenting that the level of noise to be emitted by the proposed wireless telecommunications facility will comply

with this code including Section 13.30.070(A)(16)(b), if requested by the director. In lieu of a noise study, the applicant may submit manufacturer specifications demonstrating no noise emissions. No noise study shall be required for modifications that will not introduce new noise-generating equipment.

15. Except for eligible facilities, a scaled conceptual landscape plan shall be prepared by a licensed landscape architect showing existing trees and vegetation and all proposed landscaping, concealment, screening and proposed irrigation with a discussion of how the chosen material at maturity will screen the site. Plans shall include repairs of any irrigation and plant replacements impacted by the proposed wireless telecommunications facility consistent with the city's parks construction standards.

16. A written description identifying the geographic service area for the subject installation including geographic maps, that identifies the location of the proposed facility in relation to all existing and planned facilities maintained within the city by each of the applicant, operator, and owner, if different entities. This requirement shall not apply to eligible facilities. In addition, applicant shall not be required to identify the location of its proposed facility in relation to existing and planned facilities of other entities.

17. Certification that applicant, owner, or operator is a telephone corporation or a statement providing the basis for its claimed right to enter the public right-of-way. If the applicant has a certificate of public convenience and necessity ("CPCN") issued by the California Public Utilities Commission, it shall provide a copy of its CPCN.

18. An application fee as established by resolution adopted by the city council, as amended from time to time.

19. Any other information and/or studies determined necessary by the director.

C. Effect of State or Federal Law Change. In the event a subsequent state or federal law prohibits the collection of any information required by Section 13.30.050(B), the director is authorized to omit, modify or add to that request from the city's application form. Nonetheless, for requests for eligible facilities, the director shall not require the applicant to submit information beyond what is necessary to determine whether the proposed facility qualifies as an eligible facility which must be approved by law.

### **13.30.060 Review procedure.**

A. Pre-submittal Conference. Prior to application submittal, the city strongly encourages all applicants to schedule and attend a pre-submittal conference with applicable city staff to receive informal feedback on the proposed location, design and application materials. The pre-submittal conference is intended to identify potential concerns and streamline the formal application review process after submittal. Development services department staff will endeavor to provide applicants with an appointment within approximately seven (7) calendar days after receipt of a written request and include other city departments as necessary.

B. Notice; Decisions. The provisions in this section describe the procedures for approval and any required notice for an application.

1. Director's Decision Notice; Public Hearings. The director may approve, or conditionally approve, an application only after he or she makes the findings required in Section 13.30.080 (Findings). Notice of an intent to approve a wireless telecommunications facilities permit shall be mailed or delivered at least ten (10) calendar days prior to an action to the applicant, the property owner, all property owners, as shown on the most recent secured assessor's roll, within three hundred (300) feet of the location where the wireless telecommunications facility is proposed to be located, and all persons who have requested notice. No public hearing shall be required unless a public hearing is requested in writing by anyone wanting to comment on the project prior to the scheduled approval date. Alternatively, if the director determines that because of the location, size or design of the wireless telecommunications facility that a public hearing should be required, the director shall refer the project for a public hearing within the applicable shot clock period. If a public hearing is requested or required, the director shall schedule and notice the project for public hearing by the planning commission. If no public hearing is requested or required, within five (5) calendar days after the director approves or conditionally approves an application under this chapter, the director shall mail a notice of the decision to the applicant at the address appearing on the application.

2. Notice of Shot Clock Expiration. The city acknowledges there are federal and state shot clocks which may be applicable to a proposed wireless telecommunications facility. That is, federal and state law provide time periods in which the city must approve or deny a proposed wireless telecommunications facility. As such, the applicant is required to provide the city written notice of the expiration of any shot clock, which the applicant shall ensure is received by the city (e.g., overnight mail) no later than twenty (20) calendar days prior to the expiration.

3. Written Decision Required. All final decisions made pursuant to this chapter shall be in writing and based on substantial evidence in the written administrative record. The written decision shall include the reasons for the decision.

C. Appeals. Any aggrieved person or entity may appeal a decision by the director to the planning commission in accordance with the provisions set forth in Chapter 19.80 (Appeals). Any aggrieved person or entity may appeal a decision by the planning commission to the city council in accordance with the provisions set forth in Chapter 19.80 (Appeals). All noticing and public hearing requirements shall be as set forth in Chapter 19.80 (Appeals).

### **13.30.070 Requirements for facilities within the public right-of-way.**

A. Design and Development Standards. All wireless telecommunications facilities that are located within the public right-of-way shall be designed and maintained as to minimize visual, noise and other impacts on the surrounding community and shall be planned, designed, located, and erected in accordance with the city's design and construction standards and the following:

1. General Guidelines.

a. The applicant shall employ screening, undergrounding and camouflage design techniques in the design and placement of wireless telecommunications facilities in order to

ensure that the facility is as visually screened as possible. Site lines for vehicular safety should be considered when adding screening.

b. All wireless telecommunications facilities that are located within the public right-of-way shall not obstruct vehicular travel, pedestrian travel, or any public utility.

c. Screening shall be designed to be architecturally compatible with surrounding structures using appropriate techniques to camouflage, disguise, and/or blend into the environment, including landscaping, color, and other techniques to minimize the facility's visual impact as well as be compatible with the architectural character of the surrounding buildings or structures in terms of color, size, proportion, style, and quality.

d. Screening of the metered service pedestal shall meet the minimum clear working space requirements per Section 10 of Roseville Electric's Specification for Commercial Construction, as amended from time to time.

e. All proposed equipment shall meet the minimum street light clear area per Section 10 of Roseville Electric's Specification for Commercial Construction, as amended from time to time.

f. If feasible, wireless telecommunications facilities shall not be installed directly in front of a residence. In locations where homes are only along one side of a street, it is the city's preference that such facilities be installed along the side of the street with no homes.

g. All network communications and power shall have a means of disconnection at the pole so that utility workers can turn off the antennae and accessory equipment while working on the pole.

2. Metered Service Pedestal. All power required shall come from an approved metered service location. The metered power pedestal shall meet the requirements of Roseville Electric's Metered Service Pedestal Requirements and the Roseville Electric approved pages of the Electric Utility Service Entrance Requirements Committee ("EUSERC"). All metered pedestals or any other above ground equipment shall be located a minimum of 3' from the edge of any existing joint utility trench. The owner or permittee is responsible for providing and paying for their own power. Any service pedestal with backup generation provisions must be disconnected from the utility service prior to operating any backup generation so that it does not back feed onto the utility system when in use. Any permanently installed backup generation will require a break-before-make automatic transfer switch.

3. Traffic Safety. All facilities shall be designed and located in such a manner as to avoid adverse impacts on traffic safety including sight distance requirements, traffic control and sign visibility, Americans with Disabilities Act ("ADA") requirements, and minimum road clearances.

4. Blending Methods. All facilities shall have subdued colors and non-reflective materials that blend with the materials and colors of the surrounding area and structures.

5. Equipment. It is the city's preference that antenna elements be flush mounted or top mounted, to the extent feasible. All antenna mounts shall be designed so as not to preclude possible future co-location by the same or other operators or carriers.

6. New Poles in the Public Right-of-Way. If new poles are proposed in the public right-of-way the following requirements shall apply:

a. Such new poles shall be designed to resemble existing poles in the public right-of-way near that location, including size, height, color, materials and style, with the exception of any existing pole designs that are scheduled to be removed and not replaced.

b. Except for eligible facilities, the maximum height of any antenna shall not exceed ten (10) feet above the average height of any nearby poles.

c. Such new poles shall be located at least twenty-five (25) feet from any existing pole to the extent feasible.

d. Such new poles shall be located to the extent feasible in an area where there is an existing natural or other feature that obscures the view of the pole. The applicant shall further employ concealment techniques to blend the pole with said features including but not limited to the addition of vegetation if appropriate.

e. Except for eligible facilities, a new pole justification analysis shall be submitted to demonstrate why existing infrastructure cannot be utilized and demonstrating the new pole is the least intrusive means possible including a demonstration that the new pole is designed to be the minimum functional height and width required to support the proposed facility.

f. All new poles and structures shall meet the minimum clearances to electric and other utility facilities per California Public Utilities Commission General Orders 95 and 128, as may be revised or superseded.

g. The owner must provide an engineered study demonstrating the minimum safe working distance from owner's active equipment. In addition, the minimum safe working distance must be clearly posted on the equipment. The owner shall also provide a method and procedure of disabling that same equipment if work closer than the minimum safe working distance is required.

h. All new poles shall be located such that there will be a minimum of 3' of native soil between the edge of any existing joint utility trench and the edge of the new pole or base.

i. All cables, including, but not limited to, electrical and utility cables, shall be run within the interior of the pole and shall be camouflaged or hidden to the fullest extent feasible. For all wooden poles wherein interior installation is infeasible, conduit and cables attached to the exterior of poles shall be mounted flush thereto and painted to match the pole.

7. Space. It is the city's preference that each facility shall be designed to occupy the least amount of space in the public right-of-way that is technically feasible.

8. Wind Loads. Each facility shall be properly engineered to withstand wind loads as required by this code or any duly adopted or incorporated code. An evaluation of high wind load capacity shall include the impact of modification of an existing facility.

9. Obstructions. Each component part of a facility shall be located so as not to cause any physical or visual obstruction to pedestrian or vehicular traffic, incommode the public's use of the public right-of-way, or safety hazards to pedestrians and motorists and in compliance with Sections 19.95.030(C)(3) and (C)(4) (Zoning Ordinance Definitions) so as not to obstruct the clear vision triangle.

10. Public Facilities. A facility shall not be located within any portion of the public right-of-way interfering with access to a fire hydrant, fire station, police station, fire escape, water valve, underground and pad mount utility vaults and structures, valve housing structure, bus stop, transportation facility, or any other public health or safety facility.

11. Screening. All ground-mounted facilities, pole-mounted equipment, or walls, fences, landscaping or other screening methods shall be installed at least eighteen (18) inches from the face of curb.

12. Accessory Equipment. Not including the electric meter, it is the city's preference that all accessory equipment be located underground if feasible.

a. If accessory equipment will be ground-mounted, such accessory equipment shall: (i) be enclosed within a structure; (ii) be located in adjacent landscape corridors if feasible; (iii) not exceed a height of five (5) feet and a total footprint of fifteen (15) square feet; and (iv) be fully screened and/or camouflaged, including the use of landscaping, architectural treatment, or acceptable alternate screening. Required electrical meter cabinets shall be screened and/or camouflaged and located in adjacent landscape corridors if feasible. Screening of the metered service pedestal shall meet the minimum clear working space requirements of Roseville Electric's Specifications for Commercial Construction, as amended from time to time.

b. If feasible, above-ground accessory equipment shall not be installed directly in front of a residence. In locations where homes are only along one side of a street, it is city's preference that such above-ground accessory equipment be installed along the side of the street with no homes.

13. Landscaping. Except for eligible facilities and where appropriate, each facility shall be installed so as to maintain and enhance existing landscaping on the site, including trees, foliage and shrubs. Additional landscaping shall be planted, irrigated and maintained at applicant's expense where such landscaping is deemed necessary by the city to provide screening or to conceal the facility.

14. Signage. No facility shall bear any signs or advertising devices other than certification, warning or other signage required by law or permitted by the city.

15. Lighting.

a. No facility may be illuminated unless specifically required by the FAA or other government agency. Beacon lights are not permitted unless required by the FAA or other government agency.

b. Legally required lightning arresters and beacons shall be included when calculating the height of facilities such as towers, lattice towers and monopoles.

c. Any required lighting shall be shielded to eliminate, to the maximum extent possible, impacts on the surrounding neighborhoods.

d. Unless otherwise required under FAA or FCC regulations, applicants may install only timed or motion-sensitive light controllers and lights, and must install such lights so as to avoid illumination impacts to adjacent properties to the maximum extent feasible. The city may, in its discretion, exempt an applicant from the foregoing requirement when the applicant demonstrates a substantial public safety need.

e. The applicant shall submit a lighting study which shall be prepared by a qualified lighting professional to evaluate potential impacts to adjacent properties. Should no lighting be proposed, no lighting study shall be required.

16. Noise.

a. Backup generators shall only be operated during periods of power outages, and shall not be tested on weekends or holidays, or between the hours of 7:00 p.m. and 7:00 a.m.

b. At no time shall equipment noise from any facility exceed the exterior noise levels set forth in Chapter 9.24 (Noise Regulation).

17. Security. Each facility shall be designed to be resistant to, and minimize opportunities for, unauthorized access, climbing, vandalism, graffiti and other conditions that would result in hazardous situations, visual blight or attractive nuisances. The director may require the provision of warning signs, fencing, anti-climbing devices, or other techniques to prevent unauthorized access and vandalism when, because of their location and/or accessibility, a facility has the potential to become an attractive nuisance. Additionally, no lethal devices or elements or electric fences shall be installed as a security device.

18. Timeframe to Construct. The installation and construction approved by a wireless telecommunication facility permit shall begin within one (1) year after its approval or it will expire without further action by the city.

B. Conditions of Approval. In addition to compliance with the design and development standards outlined in this section, all facilities shall be subject to the following conditions of approval (approval may be by operation of law), as well as any modification of these conditions or additional conditions of approval deemed necessary by the director:

1. The permittee shall submit an as-built drawing within ninety (90) calendar days after installation of the facility. As-builts shall be in an electronic format acceptable to the city which can be linked to the city's GIS.

2. The permittee shall submit and maintain current at all times basic contact and site information on a form to be supplied by the city. The permittee shall notify the city of any changes to the information submitted within thirty (30) calendar days of any change, including change of the name or legal status of the owner or operator. This information shall include, but is not limited to, the following:

a. Identity, including the name, address and 24-hour local or toll free contact phone number of the permittee, the owner, the operator, and the agent or person responsible for the maintenance of the facility.

b. The legal status of the owner of the wireless telecommunications facility.

3. The permittee shall notify the city in writing at least ninety (90) calendar days prior to any transfer or assignment of the permit. The written notice required in this section must include:

a. The transferee's legal name;

b. The transferee's full contact information; and

c. A statement signed by the transferee that the transferee shall accept all permit terms and conditions.

The director may require the transferor and/or the transferee to submit any materials or documentation necessary to determine that the proposed transfer complies with the existing permit and all its conditions of approval, if any. Such materials or documentation may include, but shall not be limited to: federal, state and/or local approvals, licenses, certificates or franchise agreements; statements; photographs; site plans and/or as-built drawings; and/or an analysis by a qualified radio frequency engineer demonstrating compliance with all applicable regulations and standards of the FCC. Noncompliance with the permit and all its conditions of approval, if any, or failure to submit the materials required by the director shall be a cause for the city to revoke the applicable permits pursuant to and following the procedure set on in Section 13.30.150 (Removal and Restoration—Permit Expiration, Revocation or Abandonment).

4. At all times, all required notices and/or signs shall be posted on the site as required by the FCC, California Public Utilities Commission, any applicable licenses or laws, and as approved by the city. The location and dimensions of a sign bearing the emergency contact name and telephone number shall be posted pursuant to the approved plans.

5. Permittee shall pay for and provide a performance bond or other form of security approved by the city attorney's office, which shall be in effect until the facilities are fully and completely removed and the site reasonably returned to its original condition, to cover permittee's obligations under these conditions of approval and this code. The security instrument coverage shall include, but not be limited to, removal of the facility. The amount of the security instrument shall be calculated by the applicant in its submittal documents in an amount rationally related to the obligations covered by the bond and shall be specified in the conditions of approval. Before issuance of any building permit, permittee must submit said security instrument.

6. If a nearby property owner or tenant registers a noise complaint, the city shall forward the same to the permittee. Said complaint shall be reviewed and evaluated by the permittee. The permittee shall have fourteen (14) calendar days to file a written response regarding the complaint which shall include any applicable remedial measures. If the city determines the complaint is valid and the permittee has not taken any steps to minimize the noise, the city may hire a consultant to study, examine and evaluate the noise complaint and the permittee shall pay the fee for the consultant. The matter shall be reviewed by the director. If the director determines sound proofing or other sound attenuation measures should be required to bring the project into compliance with the code, the director may impose conditions on the facility to achieve said objective pursuant to Section 13.30.070(B)(8). In addition, violations of the city's noise ordinance may result in the enforcement proceedings, penalties, and remedies authorized by Chapters 2.50 and 2.52 of the Roseville Municipal Code.

7. A condition setting forth the permit expiration date in accordance with Section 13.30.130 (Permit Term and Renewals) shall be included in the conditions of approval.

8. The wireless telecommunications facility shall be subject to such conditions, changes or limitations as are from time to time deemed necessary by the director for the purpose of: (a) protecting the public health, safety, and welfare; (b) preventing interference with pedestrian and vehicular traffic; and/or (c) preventing damage to the public right-of-way or any

adjacent property. The city may modify the permit to reflect such conditions, changes or limitations by following the same notice requirements as are applicable to the underlying permit for similarly located facilities, except the permittee shall be given notice by personal service or by registered or certified mail at the last address provided to the city by the permittee.

9. The permittee shall not transfer the permit to any person prior to the completion of the construction of the facility covered by the permit, unless and until the transferee of the permit has submitted the security instrument required by Section 13.30.070(B)(5).

10. The permittee shall not move, alter, temporarily relocate, change, or interfere with any existing structure, improvement or property without the prior consent of the owner of that structure, improvement or property. No structure, improvement or property owned by the city shall be moved to accommodate a wireless telecommunications facility unless the city determines that such movement will not adversely affect the city or any surrounding businesses or residents, and the permittee pays all costs and expenses related to the relocation of the city's structure, improvement or property. Prior to commencement of any work pursuant to an encroachment permit issued for any facility within the public right-of-way, the permittee shall provide the city with documentation establishing to the city's satisfaction that the permittee has the legal right to use or interfere with any other structure, improvement or property within the public right-of-way to be affected by applicant's facilities.

11. To the fullest extent allowed by law and except for those matters caused by the city's sole negligence or willful misconduct, the permittee shall assume full liability for any damages or injuries caused to any property or person by the facility which resulted from or arose out of permittee's willful misconduct or negligent act.

12. The permittee shall repair, at its sole cost and expense, any damage including, but not limited to subsidence, cracking, erosion, collapse, weakening, or loss of lateral support to city streets, sidewalks, walks, curbs, gutters, landscaping, irrigation, parkways, street lights, traffic signals, improvements of any kind or nature, or utility poles, lines and systems, underground utility line and systems, or sewer systems and sewer lines that result from any activities performed in connection with the installation and/or maintenance of a wireless telecommunications facility in the public right-of-way. The permittee shall restore such areas, structures and systems to the condition in which they existed prior to the installation or maintenance that necessitated the repairs. Such time period for correction shall be based on the facts and circumstances, danger to the community and severity of the disrepair. Should the permittee not make said correction within the time period allotted, the city shall cause such repair to be completed at permittee's sole cost and expense.

13. No facility shall be permitted to be installed in the drip line of any tree in the public right-of-way or in the minimum street light clear area of any publicly owned street light per Section 10 of Roseville Electric's Specifications for Commercial Construction, as amended from time to time.

14. Insurance. The permittee shall obtain, pay for and maintain, in full force and effect until the facility approved by the permit is removed in its entirety from the public right-of-way, an insurance policy or policies of commercial general liability insurance, with minimum limits of \$2,000,000 for each occurrence and \$4,000,000 in the aggregate, that fully protects the city from claims and suits for bodily injury and property damage. Alternatively, the permittee may self-insure under these same terms. The insurance must name the city and its elected and

appointed council members, boards, commissions, officers, officials, agents, employees, and volunteers as additional named insureds, be issued by an insurer admitted in the State of California with a rating of at least a A:VII in the latest edition of A.M. Best's Insurance Guide, and include an endorsement providing that the policies cannot be canceled or reduced except with thirty (30) calendar days prior written notice to the city, except for cancellation due to nonpayment of premium. The insurance provided by permittee shall be primary to any coverage available to the city, and any insurance or self-insurance maintained by the city and its elected and appointed council members, boards, commissions, officers, officials, agents, employees, and volunteers shall be excess of permittee's insurance and shall not contribute with it. The policies of insurance required by this permit shall include provisions for waiver of subrogation. In accepting the benefits of this permit, permittee hereby waives all rights of subrogation against the city and its elected and appointed council members, boards, commissions, officers, officials, agents, employees, and volunteers. The insurance must afford coverage for the permittee's and the wireless provider's use, operation and activity, representatives, agents, and employees, as determined by the city's risk manager. Before issuance of any building permit for the facility, the permittee shall furnish to the city's risk manager certificates of insurance and endorsements, in the form satisfactory to the city attorney or the risk manager, evidencing the coverage required by the city.

15. To the fullest extent allowed by law and except for those matters caused by the city's sole negligence or willful misconduct, permittee shall defend, indemnify, protect and hold harmless city, its elected and appointed council members, boards, commissions, officers, officials, agents, employees, and volunteers from and against any and all claims, actions, or proceedings against the city, and its elected and appointed council members, boards, commissions, officers, officials, agents, employees, and volunteers to attack, set aside, void or annul, an approval of the city, planning commission or city council concerning this permit and the project. Such indemnification shall include damages of any type, judgments, awards, penalties, fines, defensive costs, or expenses, including, but not limited to, interest, reasonable attorneys' fees and expert witness fees, or liability of any kind related to or arising from such claim, action, or proceeding. The city shall promptly notify the permittee of any claim, action, or proceeding. Nothing contained herein shall prohibit city from participating in a defense of any claim, action or proceeding.

16. Additionally, to the fullest extent permitted by law, the permittee, and every permittee and person in a shared permit, jointly and severally, shall defend, indemnify, protect and hold the city and its elected and appointed council members, boards, commissions, officers, officials, agents, employees, and volunteers harmless from and against all claims, suits, demands, actions, losses, liabilities, judgments, settlements, costs (including, but not limited to, attorney's fees, interest and expert witness fees), or damages claimed by third parties against the city for any injury claim, and for property damage sustained by any person, arising out of or resulting from operation of the wireless telecommunications facility, or to any work done by or use of the public right-of-way by the permittee, owner or operator of the wireless telecommunications facility, or their agents, excepting only liability arising out of the sole negligence or willful misconduct of the city and its elected and appointed council members, boards, commissions, officers, officials, agents, employees, and volunteers.

17. Removal of Meter Cabinets. Should Roseville Electric not require the use of an above ground meter cabinet, the permittee shall at its sole cost and expense remove the meter

cabinet and any related foundation within ninety (90) calendar days of electrical services being offered and reasonably restore the area to its prior condition. An extension by Roseville Electric may be granted if circumstances arise outside of the control of the permittee.

18. Relocation. The permittee shall modify, remove, or relocate its facility, or portion thereof, without cost or expense to city, if and when made necessary by: (a) any public improvement project, including, but not limited to, the construction, maintenance, or operation of any underground or above ground facilities including but not limited to traffic signals, sewers, storm drains, conduits, gas, water, electric or other utility systems, or pipes owned by the city or any other public agency; (b) any abandonment of any street, sidewalk or other public facility; (c) any change of grade, alignment or width of any street, sidewalk or other public facility; or (d) a determination by the director or the public works director that the wireless telecommunications facility has become incompatible with public health, safety or welfare or the public's use of the public right-of-way. Such modification, removal, or relocation of the facility shall be completed within ninety (90) calendar days of notification by city unless exigencies dictate a shorter period for removal or relocation. Modification or relocation of the facility shall require submittal, review and approval of a modified permit pursuant to the code including applicable notice requirements. In the event the facility is not modified, removed, or relocated within said period of time, city may cause the same to be done at the sole cost and expense of permittee. Further, due to exigent circumstances including those of immediate or imminent threat to the public's health and safety, the city may modify, remove, or relocate wireless telecommunications facilities without prior notice to permittee provided permittee is notified within a reasonable period thereafter.

19. Permittee shall agree in writing that the permittee is aware of, and agrees to abide by, all conditions of approval imposed by the wireless telecommunications facility permit within thirty (30) calendar days of permit issuance. The permit shall be void and of no force or effect unless such written consent is received by the city within said 30-day period.

C. Other Permits Required. In addition to any permit that may be required under this chapter, the applicant must obtain all other required prior permits or other approvals from other city departments, or state or federal agencies, including but not limited to building and encroachment permits. Any permit granted under this chapter is subject to the conditions and/or requirements of other required prior permits or other approvals from other city departments, state or federal agencies.

### **13.30.080 Findings.**

No permit shall be granted for a wireless telecommunications facility unless all of the following findings are made by the director:

- A. All notices required for the proposed installation have been given.
- B. The proposed facility has been designed and located in compliance with all applicable provisions of this chapter.
- C. If applicable, the applicant has demonstrated its inability to locate on existing infrastructure.

D. The applicant has provided sufficient evidence supporting the applicant's claim that it has the right to enter the public right-of-way pursuant to state or federal law.

E. The applicant has demonstrated the proposed installation is supported by factual evidence and a meaningful comparative analysis to show that all alternative locations in the public right-of-way and designs identified in the application review process were technically infeasible or not available.

F. All applicable fees have been paid.

G. The applicant has obtained any approvals that may be required under the California Environmental Quality Act (California Public Resources Code Section 21000 et seq.) to construct, install, and maintain the proposed wireless telecommunications facility.

### **13.30.090 Nonexclusive grant.**

No permit or approval granted under this chapter shall confer any exclusive right, privilege, license or franchise to occupy or use the public right-of-way of the city for any purpose whatsoever. Further, no approval shall be construed as any warranty of title.

### **13.30.100 Temporary wireless telecommunications facilities in the public right-of-way.**

A COW or other temporary wireless telecommunications facility shall be permitted for the duration of an emergency declared by the city or at the discretion of the director.

### **13.30.110 Operation and maintenance standards.**

All wireless telecommunications facilities must comply at all times with the following operation and maintenance standards:

A. Unless otherwise provided herein, all necessary repairs and maintenance shall be completed by the permittee, owner, operator or any designated maintenance agent within forty-eight (48) hours:

1. After discovery of the need by the permittee, owner, operator or any designated maintenance agent; or

2. After permittee, owner, operator or any designated maintenance agent receives notification from the city.

B. Each permittee of a wireless telecommunications facility shall provide the director with the name, address and 24-hour local or toll free contact phone number of the permittee, the owner, the operator and the agent responsible for the maintenance of the facility ("contact information"). Contact information shall be updated within seven (7) calendar days of any change.

C. All facilities, including, but not limited to, telecommunication towers, poles, accessory equipment, lighting, fences, walls, shields, cabinets, artificial foliage or camouflage,

and the facility site shall be maintained by the permittee, owner, or operator in good condition, including ensuring the facilities are reasonably free of:

1. General dirt and grease;
2. Chipped, faded, peeling, and cracked paint;
3. Rust and corrosion;
4. Cracks, dents, and discoloration;
5. Missing, discolored or damaged artificial foliage or other camouflage;
6. Graffiti, bills, stickers, advertisements, litter, and debris;
7. Broken and misshapen structural parts;
8. Exposed wires;
9. Missing pull box or hand hole lids or covers; and
10. Any damage from any cause including, but not limited to, vandalism.

D. All trees, foliage or other landscaping elements approved as part of the facility shall be maintained by the permittee, owner, or operator in good condition at all times, and the permittee, owner and operator of the facility shall be responsible for replacing any damaged, dead or decayed landscaping. No amendment to any approved landscaping plan may be made until it is submitted to and approved by the director.

E. The permittee shall replace its facilities, after obtaining all required permits, if maintenance or repair is not sufficient to return the facility to the condition it was in at the time of installation.

F. Each facility shall be operated and maintained to comply with all conditions of approval. Each permittee, owner, or operator of a facility shall routinely inspect each site to ensure compliance with the same and the standards set forth in this chapter.

G. Any damage to city owned utility, traffic signal or street light poles that is repaired or replaced by the city will be at the owner's expense.

H. Any damage to city owned equipment that is repaired or replaced by the city will be at the owner's expense.

I. The permittee, owner, operator, or their agents, must have in their possession at all times a city approved traffic control plan for any maintenance or repair work staged within the vehicle travel way, bicycle lanes, or sidewalks.

### **13.30.120 No dangerous condition or obstructions allowed.**

No person shall install, use or maintain any facility which in whole or in part rests upon, in or over any public right-of-way, when such installation, use or maintenance violates the ADA or endangers or is reasonably likely to endanger the safety of persons or property, or when such site or location is used for public utility purposes, public transportation purposes or other governmental use, or when such facility unreasonably interferes with or unreasonably impedes the flow of pedestrian or vehicular traffic including any legally parked or stopped vehicle, the

ingress into or egress from any residence or place of business, the use of poles, posts, traffic signs or signals, hydrants, mailboxes, permitted sidewalk dining, permitted street furniture or other objects permitted at or near said location.

#### **13.30.130 Permit term and renewals.**

A. Initial Term of Permit. Unless Government Code Section 65964, as may be amended, authorizes the city to issue a permit with a shorter term, a permit for any wireless telecommunications facility shall be valid for a period of ten (10) years, unless pursuant to another provision of this code it lapses sooner or is revoked.

B. Renewals. At the end of the initial ten (10) year term set forth in subsection A above, the director may renew a wireless telecommunications facility permit for an additional ten (10) year term provided that permittee is in compliance with the provisions of this chapter and further provided that permittee does not seek modifications to the permit. A wireless telecommunications facility permit that has been renewed once under this subsection may not be renewed for a second time. Instead, permittee may file a new application for a wireless telecommunications facility permit for the permitted wireless telecommunications facility at the same location.

C. Modifications. Permittees seeking modifications to expiring permits must file a new application for a wireless telecommunications facility permit for the permitted wireless telecommunications facility at the same location.

D. Applications. Applications for renewals or new permits must be filed within one hundred and eighty (180) calendar days prior to expiration. Such applications shall comply with the city's current code requirements for wireless telecommunications facilities and will be processed in accordance with the procedures set forth in this chapter.

#### **13.30.140 Cessation of use or abandonment.**

A. A wireless telecommunications facility is considered abandoned and shall be promptly removed as provided herein if it ceases to provide wireless telecommunications services for ninety (90) or more consecutive calendar days unless the permittee has obtained prior written approval from the director which shall not be unreasonably denied. If there are two (2) or more users of a single facility, then this provision shall not become effective until all users cease using the facility.

B. The operator of a facility shall notify the city in writing of its intent to abandon or cease use of a permitted site or a nonconforming site (including unpermitted sites) within ten (10) calendar days of ceasing or abandoning use. Notwithstanding any other provision herein, the operator of the facility shall provide written notice to the director of any discontinuation of operations of thirty (30) calendar days or more.

C. Failure to inform the director of cessation or discontinuation of operations of any existing facility as required by this section shall constitute a violation of any approvals and be grounds for:

1. Litigation;
2. Revocation or modification of the permit;
3. Acting on any bond or other assurance required by this chapter or conditions of approval of the permit;
4. Removal of the facilities by the city in accordance with the procedures established under this code for abatement of a public nuisance at the owner's expense; and/or
5. Any other remedies permitted under this code or state or federal law.

**13.30.150 Removal and restoration—Permit expiration, revocation or abandonment.**

A. Upon the expiration date of the permit, including any extensions, earlier termination or revocation of the permit or abandonment of the facility, the permittee, owner or operator shall remove its wireless telecommunications facility and restore the site to its natural condition except for retaining the landscaping improvements and any other improvements at the discretion of the city. Removal shall be in accordance with proper health and safety requirements and all ordinances, rules, and regulations of the city. The facility shall be removed from the property, at no cost or expense to the city.

B. Failure of the permittee, owner or operator to promptly remove its facility and restore the property to a condition satisfactory to the director within ninety (90) calendar days after expiration, earlier termination or revocation of the permit, or abandonment of the facility, shall be a violation of this code. Upon a showing of good cause, an extension may be granted by the director where circumstances are beyond the control of the permittee after expiration. Further failure to abide by the timeline provided in this section shall be grounds for:

1. Prosecution;
2. Acting on any security instrument required by this chapter or conditions of approval of permit;
3. Removal of the facilities by the city in accordance with the procedures established under this code for abatement of a public nuisance at the owner's expense; and/or
4. Any other remedies permitted under this code or state or federal law.

C. Summary Removal. In the event the director or public works director determines that the condition or placement of a wireless telecommunications facility located in the public right-of-way constitutes a dangerous condition, obstruction of the public right-of-way, or an imminent threat to public safety, or determines other exigent circumstances require immediate corrective action (collectively, "exigent circumstances"), the director or public works director may cause the facility to be removed summarily and immediately without advance notice or a hearing. Written notice of the removal shall include the basis for the removal and shall be served upon the permittee and person who owns the facility within seven (7) calendar days of removal and all property removed shall be preserved for the owner's pick-up as feasible. If the owner cannot be identified following reasonable effort or if the owner fails to pick-up the property within sixty (60) calendar days, the facility shall be treated as abandoned property and disposed of at the city's discretion without compensation to the owner.

D. Removal of Facilities by City. In the event the city removes a facility in accordance with nuisance abatement procedures or summary removal, any such removal shall be without any liability to the city for any damage to such facility that may result from reasonable efforts of removal. In addition to the procedures for recovering costs of nuisance abatement, the city may collect such costs from the performance bond posted and to the extent such costs exceed the amount of the performance bond, collect those excess costs in accordance with this code. Unless otherwise provided herein, the city has no obligation to store such facility. Neither the permittee, owner nor operator shall have any claim if the city destroys any such facility not timely removed by the permittee, owner or operator after notice, or removed by the city due to exigent circumstances.

### **13.30.160 Exceptions.**

A. The city council recognizes that federal law prohibits a permit denial when it would effectively prohibit the provision of personal wireless services and the applicant proposes the least intrusive means to provide such services. The city council finds that, due to wide variation among wireless facilities, technical service objectives and changed circumstances over time, a limited exemption for proposals in which strict compliance with this chapter would effectively prohibit personal wireless services serves the public interest. The city council further finds that circumstances in which an effective prohibition may occur are extremely difficult to discern, and that specified findings to guide the analysis promotes clarity and the city's legitimate interest in well-planned wireless facilities deployment. Therefore, in the event that any applicant asserts that strict compliance with any provision in this chapter, as applied to a specific proposed personal wireless services facility, would effectively prohibit the provision of personal wireless services, the director may grant an exception from strict compliance subject to the provisions in this section.

B. Required Findings. The director shall not grant any exception unless the applicant demonstrates all the following:

1. The proposed wireless facility qualifies as a "personal wireless services facility" as defined in United States Code, Title 47, Section 332(c)(7)(C)(ii);
2. There is a "significant gap" in service coverage as that term is defined by federal law;
3. The applicant has provided the city with a clearly defined potential site search area; and
4. The applicant has provided the city with a meaningful comparative analysis that demonstrates the lack of available and technologically feasible alternative facilities or site locations.

C. Scope. The director shall limit its exception to the extent to which the applicant demonstrates such exception is necessary to reasonably achieve its reasonable technical service objectives. The director may adopt conditions of approval as reasonably necessary to promote the purposes in this chapter and protect the public health, safety and welfare.

D. Independent Consultant. The city shall have the right to hire, at the applicant's reasonable expense, an independent consultant to evaluate issues raised by the exception and to submit recommendations and evidence in response to the application.

**13.30.170 Location preferences.**

Wireless telecommunications facilities located within the public right-of-way of local streets as identified in the general plan, if within a residential zone, are the least-preferred location.

**13.30.180 Effect on other ordinances.**

Compliance with the provisions of this chapter shall not relieve a person from complying with any other applicable provision of this code. In the event of a conflict between any provision of this chapter and other sections of this code, this chapter shall control.

**13.30.190 State or federal law.**

A. In the event it is determined by the city that state or federal law prohibits discretionary permitting requirements for certain wireless telecommunications facilities, such requirements shall be deemed severable and all remaining regulations shall remain in full force and effect. For those facilities, a ministerial permit shall be required prior to installation or modification of a wireless telecommunications facility, and all provisions of this chapter shall be applicable to any such facility with the exception that the required permit shall be reviewed and administered as a ministerial permit by the director rather than as a discretionary permit. Any conditions of approval set forth in this chapter or deemed necessary by the director shall be imposed and administered as reasonable time, place and manner rules.

B. If subsequent to the city's determination pursuant to subsection A above, the city determines that the law has changed and that discretionary permitting is permissible, all discretionary permitting requirements shall be reinstated.

C. All installations permitted pursuant to this chapter shall comply with all federal and state laws including but not limited to the ADA.

**13.30.200 Nonconforming wireless telecommunications facilities in the public right-of-way.**

A. Nonconforming wireless telecommunications facilities are those facilities that do not conform to this chapter.

B. Nonconforming wireless telecommunications facilities shall, within ten (10) years from the date such facility becomes nonconforming, be brought into conformity with all requirements of this chapter; provided, however, that should the owner desire to expand or

modify the facility, intensify the use, or make some other change in a conditional use, the owner shall comply with all applicable provisions of this code at such time, to the extent the city can require such compliance under federal and state law.

C. An aggrieved person may file an appeal to the city council of any decision of the director made pursuant to this section. In the event of an appeal alleging that the ten (10) year amortization period is not reasonable as applied to a particular property, the city council may consider the amount of investment or original cost, present actual or depreciated value, dates of construction, amortization for tax purposes, salvage value, remaining useful life, the length and remaining term of the lease under which it is maintained (if any), and the harm to the public if the structure remains standing beyond the prescribed amortization period, and set an amortization period accordingly for the specific property.

D. This section shall not apply to applications for eligible facilities.

### **13.30.210 Severability.**

The provisions of this chapter are hereby declared to be severable. If any provision, clause, word, sentence, or paragraph of this chapter or the application thereof to any person, establishment, or circumstances shall be held invalid, such invalidity shall not affect the other provisions or application of this chapter.

SECTION 2. Section 19.34.010 of Chapter 19.34 of Title 19 of the Roseville Municipal Code is hereby amended to read as follows:

### **19.34.010 Purpose.**

This chapter establishes standards for the placement of telecommunication facilities on private property in all zoning districts and on public property not otherwise governed by Chapter 13.30 (Wireless Telecommunications Facilities in the Public Right-of-Way). It is the intent of this chapter to minimize the adverse impacts of such equipment and structures on neighborhoods and surrounding developments by limiting the height, number, and location of such devices.

SECTION 3. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 4. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by the following vote on roll call:

## COUNCIL COMMUNICATION

**CC #: 9304**  
**File #: 0102-12**

**Title:** Appointment of Councilmember to Local Agency Formation Commission  
**Contact:** Sonia Orozco 916-774-5269 sorozco@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.35.**

### RECOMMENDATION TO COUNCIL

Recommendation to City Council to appoint Councilmember Scott Alvord to serve as an alternate member on the Placer County Local Agency Formation Commission, effective May 2018 through May 2020.

### BACKGROUND

Placer County LAFCO was created in 1963 for the purpose of encouraging orderly growth and development. LAFCO exists to protect agricultural resources and open space, discourage urban sprawl, and insure efficient and effective municipal agency services. LAFCO also regulates boundaries and boundary changes for public agencies and special districts.

### FISCAL IMPACT

There is no fiscal impact associated with this item.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not-applicable.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The appointment of an alternate member to Local Agency Formation Commission does not include the potential for the significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Sonia Orozco, City Clerk

Dominick Casey, Acting City Manager

## COUNCIL COMMUNICATION

**CC #: 9303**  
**File #: 0400-07**

**Title:** North Central Roseville Specific Plan Parcel 44 (Broadstone) Parcel Map  
**Contact:** Kerry Andrews 916-774-5346 kandrews@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.36.**

### RECOMMENDATION TO COUNCIL

It is recommended that the City Council approve the parcel map on file with the City Clerk and accept on behalf of the public, subject to improvement, the right of way and easements offered thereon.

### BACKGROUND

The Development Services - Engineering section has reviewed the subject parcel map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance and all conditions of the tentative map have been met.

This map will be creating two parcels.

### FISCAL IMPACT

No fiscal impact to the General Fund.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

The Planning Manager has determined that the project will not have a significant effect on the environment and proposed that a Negative Declaration be adopted. This determination has been based upon an Initial Study, which has concluded that there will be no significant environmental impacts. The City Council considered the Initial Study and adopted the Negative Declaration on November 15, 2017,

Respectfully Submitted,

Kerry Andrews, Assistant Engineer

Kevin Payne, Development Services Director

## COUNCIL COMMUNICATION

**CC #: 9309**  
**File #: 0600-02**

**Title:** Out of State Travel Request - Police Department  
**Contact:** Marc Glynn 916-774-5095 mglynn@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 7.37.**

### RECOMMENDATION TO COUNCIL

1. Ratify travel for Sgt. Jeff Beigh and Sgt. Mark Brazeal to Chicago, IL, which took place June 2-6, 2018. The sergeants met with Chicago Police Department trainers to learn about their procedural justice initiative.
2. Approve Sgt. Jeff Beigh and Sgt. Mark Brazeal to travel to Birmingham, AL, June 18-21, 2018. The sergeants will meet with Birmingham Police Department instructors to learn about their procedural justice and implicit bias training and community reconciliation efforts.

### BACKGROUND

The police department has a strategic goal to train the department in principles of procedural justice and implicit bias. Procedural justice is the way police interact with the public, and how those interactions shape the public's views of the police. Implicit bias is the automatic associations individuals make between groups and the influence it has on policing. The Chicago Police Department and the Birmingham Police Departments both have been designated as national pilot programs by the National Initiative for Building Community Trust & Justice. The department was invited to send key personnel to visit these two programs and learn from their instructors.

Approval for the Chicago, IL site visit is presented post-travel because Sgt. Jeff Beigh and Sgt. Mark Brazeal were invited to attend the training very recently, and the host instructor is going on furlough the week after the training. If our sergeants didn't attend this session, it's unknown when the next session offering would take place.

The police department intends to use the train-the-trainer concept with this curriculum. The knowledge gained at these two site visits will provide the police department the tools necessary to bring this information back to all staff.

### FISCAL IMPACT

Funding for these site visits is coming from the community services/social service unit FY 17/18

travel and training budget, and provided by a state grant. The estimated total cost for both site visits is not to exceed \$5,444.00.

#### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable to this request for out of state travel.

#### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). Out of state travel does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Rob Baquera, Department Public Information Officer

James Maccoun, Police Chief

---

Dominick Casey, Acting City Manager

## 2017 INTERIM STATUS REPORT

**BIRMINGHAM, ALABAMA IS ONE OF SIX PILOT SITES FOR THE NATIONAL INITIATIVE FOR BUILDING Community Trust and Justice (NI)**, a project designed to improve relationships and increase trust between communities and the criminal justice system, while also advancing public understanding of the issues contributing to those relationships. In collaboration with the U.S. Department of Justice, the National Initiative is coordinated by the **National Network for Safe Communities at John Jay College of Criminal Justice**, in partnership with the **Justice Collaboratory at Yale Law School**, the **Center for Policing Equity at John Jay College and UCLA**, and the **Urban Institute**.

The National Initiative's work involves trust-building interventions with police departments and communities based on three pillars:

- Enhancing **procedural justice**: the way police interact with the public, and how those interactions shape the public's views of the police, their willingness to obey the law, and their engagement in co-producing public safety in their neighborhoods.
- Reducing the impact of **implicit bias**: the automatic associations individuals make between groups of people and stereotypes about those groups, and the influence it has in policing.
- Fostering **reconciliation**: frank engagements between marginalized communities and law enforcement to address historical tensions, grievances, and misconceptions that contribute to mutual mistrust and misunderstanding and prevent police and communities from working together.

### At a Glance: Key highlights for Birmingham, Alabama

#### Procedural Justice

- All 940 sworn officers of BPD have received procedural justice training ("PJ1" and "PJ2").

#### Implicit Bias

- All 940 BPD officers have also received implicit bias training ("PJ3").
- On September 9, 2017, BPD launched a community-facing implicit bias training, known as "PJ3—Community".

#### Reconciliation

- BPD kicked off a series of listening sessions with representatives from various groups, including the LGBTQ community, survivors of intimate partner violence, and the Woodlawn neighborhood.
- BPD's Council of Captains facilitate listening sessions with officers under their commands, helping to build in participation from members of BPD's rank-and-file.

Birmingham was selected as a pilot site for its demonstrated willingness and capacity to engage in the National Initiative's research, intervention, and evaluation process, as well as its jurisdiction size and demographic composition. The National Initiative partners with public safety officials to develop, implement, and assess each intervention, which is tailored to the needs of the Birmingham community. The successes and lessons learned in Birmingham and each pilot site will set the city on a trajectory beyond the project's formal end date and help to build a base of knowledge, policy, and practice to transform communities everywhere.

This status report comes as Birmingham moves into a fourth year of work with the National Initiative: moving forward, the Birmingham Police Department will take steps to institutionalize each component of the NI to ensure sustainability and longevity.

### **Enhancing Procedural Justice**

The Justice Collaboratory at Yale Law School and the Chicago Police Department created a comprehensive curriculum on procedural justice (PJ) that was adapted by the National Initiative and the Birmingham Police Department (BPD) to address Birmingham's unique history and police practices. Research demonstrates that procedural justice can increase public willingness to obey and cooperate with the police ("police legitimacy") and ultimately lead to stronger police-community relationships, increased safety, and reduced crime.

The PJ curriculum includes several modules that do the following:

- Define the concept of legitimacy and highlight ways to increase police legitimacy;
- Explain procedural justice and how it is necessary for advancing public safety goals;
- Review the present-day relationship between the police and the community; and
- Help BPD officers understand the role that history has played—from the Fugitive Slave Act of 1793 through the Civil Rights Movement—in hindering legitimacy in some communities.

It also features modules that thoroughly explore the real-life application of procedurally just policing principles, thus helping officers to recognize when, where, and how those principles should be applied.

All 940 of BPD's sworn officers have undergone both 8-hour trainings on the theory and framework of procedural justice ("PJ1") as well as operational techniques on how to apply this framework in practice ("PJ2").

The NI is working closely with PBP leadership to institutionalize the PJ curriculum and sustain it as a core part of PBP's future policies. These efforts

include working with Chief Roper to create a full-time PJ training unit and framework that will weave the NI pillars throughout the department, plus ongoing efforts to centralize PJ training as a core BPD Academy function moving forward.

### **Reducing Implicit Bias**

As part of the National Initiative's work to address and reduce implicit bias, Birmingham police trainers worked with NI staff to adapt the implicit bias training developed by the Center for Policing Equity. This training works to ensure that law enforcement is aware of implicit biases Americans hold and how they form, and the circumstances under which implicit biases are most likely to manifest in ways that jeopardize good judgment and safety. With this information in hand, officers and departments are far better equipped to work through police training, policy, and practice to identify and mitigate the scenarios in which implicit bias has significant negative impacts.

Birmingham was the third NI site to deliver implicit bias training ("PJ3") to its officers. All 940 of BPD's sworn officers have undergone the 8-hour training on implicit bias, and all new recruits will be cycled through as well.

Recently, on September 9, 2017, BPD launched a community-facing implicit bias training ("PJ3—Community"). PJ3—Community is designed to be co-facilitated by police and members of the public; as such, it provides a crucial forum for police and members of communities with low levels of confidence in the police to discuss issues of legitimacy, trust, bias, and history with greater nuance and common ground. The PJ3—Community kickoff meeting included representatives from a wide range of community-based organizations and advocates who will be co-facilitating the training, including

Growing Kings, the Birmingham Community Foundation, Magic City Acceptance Center, and others.

*If you're interested in attending a training or becoming a facilitator, please reach out to NI Site Liaison Jerry Wiley at [jerry.wiley@birminghamal.gov](mailto:jerry.wiley@birminghamal.gov).*

### **Fostering Reconciliation and Building Trust**

In an effort to encourage open communication between community members and the police, acknowledge historical harms, and build trust in neighborhoods where it has been sorely lacking for decades, the BPD has worked with the NI to design and begin implementing a robust reconciliation framework that prioritizes active listening and collaborative public safety.

Birmingham began its on-the-ground reconciliation work in August 2016 through facilitated meetings ("listening sessions") between Chief A.C. Roper and influential leaders from a variety of communities with histories of tension with the police, including the African American, youth, and LGBTQIA communities.

These sessions began with BPD representatives acknowledging historical harm on behalf of the department—a legacy that is very rarely considered by police seeking to build trust. This acknowledgment and rejection of the police role in America's legacy of government-sponsored racial oppression is a powerful statement intended to form common ground with community members who are asked to contribute their experiences, time, and effort to the process.

In an effort to try a more intensive process of police-community listening, the National Initiative partnered with [Sustainable Equity, LLC](#)—a consulting firm with significant expertise in racial reconciliation and community building work—to support the development of public safety circles premised on their "Welcome Table" model. The model, which provides a small group of community members and police officers with a safe space for honest, open, and compassionate narrative sharing, included 18 participants who either reside or police on Birmingham's East and West sides. The resultant group, Birmingham Equally United, has met weekly for the last year.

In parallel, the National Initiative has worked with BPD to expand listening sessions with marginalized communities. This effort began with separate sessions with members of the LGBTQ community, survivors of intimate partner violence, and the Woodlawn community. Chief Roper has worked to build infrastructure and buy-in to sustain the reconciliation process by tasking BPD's Council of Captains facilitate listening sessions under their commands, and to build in participation from members of BPD's rank-and-file.

### **Reconciliation Guiding Policy Change**

Over time, the lessons learned from community narratives shared throughout these sessions will be converted to changes in policy and practice that build community trust. As a result of these initial listening sessions, some policy changes are already underway—from departmental policy directing officers to use community members' preferred pronouns to changes designed to avoid triggering the trauma of domestic violence survivors during investigations.

These efforts also contribute to a larger process of collaborative police-community policy review. Using an analysis by the Center for Policing Equity and Yale Law School's "Model Policies for Procedurally Just Policing," BPD command staff have been carefully considering dozens of departmental policies for revision—some of which get to the very heart of the most pressing issues in policing, including a recent commitment to "de-prioritize the number of investigatory stops and low-level arrests made by officers and prioritize community policing by including measures of community policing performance in assessment." These efforts will continue to be shepherded by Lt. Lynda Woods in partnership with the NNSC technical assistance team.

Lessons learned from the reconciliation process as it's been implemented in Birmingham were shared nationally at the National Network for Safe Communities' 2017 practitioner's conference, where Chief Roper [participated in a panel discussion](#) titled "Police-Community Reconciliation: Framework and Practice." For more information and to see the panel, please visit [www.nnscommunities.org](http://www.nnscommunities.org).

## Improving Public Safety

The National Network for Safe Communities (NNSC) has been working with BPD to implement the Birmingham Violence Reduction Intervention (BVRI), a strategy designed to reduce gun violence by focusing on the people at highest risk for violent victimization and offending. A three-pronged approach involving law enforcement, community partners, and social service providers, BVRI aims to improve public safety, minimize arrest and incarceration, foster police-community collaboration, and change the narrative in neighborhoods that may have felt over-policed and under-protected.

To learn more about how BVRI works, [please visit NNSC's website](#) or contact Birmingham's GVI Project Manager Jarralynne Agee at [Jarralynne.agee@birminghamal.gov](mailto:Jarralynne.agee@birminghamal.gov).

## Evaluating Progress

In order to assess whether the National Initiative is affecting community member perceptions of and attitudes towards crime and police, the Urban Institute has been surveying residents in Birmingham neighborhoods that have a high incidence of crime.

Their latest round of community surveys will be a follow-up from the baseline survey they conducted in Fall 2015, during which residents expressed support for obeying the law and willingness to partner with police to solve crime, but only 29% said that they trust the police.

The Urban Institute completed its second round of surveys in September 2017. Data from those surveys will feed into Urban's final report, which will be a comprehensive assessment of the implementation and impact of the NI and broader trust-building work.

## Looking to the Future

The National Initiative commends BPD's leadership and commitment to a new way of doing business, which has been essential to the significant progress detailed in this status report. Additionally, we would like to extend our thanks to Chief A.C. Roper, who has ensured the sustainability of the NI in Birmingham through our continued partnership and beyond.

Over the remainder of the project, the National Initiative will continue the rollout and institutionalization of its new curricula; facilitate trust-building efforts through listening sessions; raise public awareness of its activities and increase public engagement; measure the impact of its interventions; and continue to develop local partnerships to sustain and institutionalize this collaborative effort.

If you are interested in getting involved, or have suggestions, questions, or comments about the National Initiative, please reach out to us at [info@trustandjustice.org](mailto:info@trustandjustice.org) or the National Initiative's Birmingham Site Liaison Jerry Wiley at [Jerry.Wiley@birminghamal.gov](mailto:Jerry.Wiley@birminghamal.gov). We look forward to hearing from you.

Procedural justice focuses on the way police and other legal authorities interact with the public, and how the characteristics of those interactions shape the public's views of the police, their willingness to obey the law, and actual crime rates. Mounting evidence shows that community perceptions of procedural justice can have a significant impact on public safety.

Procedural justice is based on four central principles: "treating people with dignity and respect, giving citizens 'voice' during encounters, being neutral in decision making, and conveying trustworthy motives." Research demonstrates that these principles contribute to relationships between authorities and the community in which 1) the community has trust and confidence in the police as honest, unbiased, benevolent, and lawful; 2) the community feels obligated to follow the law and the dictates of legal authorities, and 3) the community feels that it shares a common set of interests and values with the police.

Procedurally just policing is essential to the development of good will between police and communities and is closely linked to improving community perceptions of police legitimacy, the belief that authorities have the right to dictate proper behavior. Research shows that when communities view police authority as legitimate, they are more likely to cooperate with police and obey the law. Establishing and maintaining police legitimacy promotes the acceptance of police decisions, correlates with high levels of law abidingness, and makes it more likely that police and communities will collaborate to combat crime.

A key component of the research is that the public is especially concerned that the conduct of authorities be fair, and this factor matters more to them than whether outcomes of particular interactions favor them. This means that procedurally just policing is not consonant with traditional enforcement-focused policing, which typically assumes compliance is a function primarily of emphasizing to the public the consequences—usually formal punishment—of failing to follow the law. Policing based on formal deterrence encourages the public's association of policing primarily with enforcement and punitive outcomes. Procedurally just policing, on the other hand, emphasizes values that police and communities share—shared values based upon a common conception of what social order is and how it should be maintained—and encourages the collaborative, voluntary maintenance of a law-abiding community. Research indicates that this latter approach is far more effective at producing law-abiding

ARTICLES

&amp;

citizens than the former. This makes intuitive sense—people welcome being treated as equals with a stake in keeping their communities safe, as opposed to being treated as subjects of a capricious justice system enforced by police who punish them for ambiguous, if not arbitrary, reasons.

Taking measures to enhance procedural justice within law enforcement agencies is becoming increasingly possible. Professor Tracey Meares and Professor Tom Tyler of Yale Law School have worked with the Chicago Police Department and others to create a one-day training for line officers and command staff that teaches them how to apply powerful procedural justice principles to their routine contacts with the public. The officers reportedly like it and evaluate it positively, as it improves not only public safety but their own. Indeed, there are many good reasons to cultivate a respectful relationship between police and communities, but the most important is that communities in which police are considered legitimate are safer and more law-abiding.

## Procedural justice and pretextual stops

One focus of procedural justice is how police act when they engage with the community, but why they engage could matter even more. Jonathan Blanks, writing in the Case Western Reserve Law Review, argues that certain types of legal police engagement, no matter how friendly or polite, may still undermine procedural justice. Blanks explains this concept through the example of the pretextual stop, which he says fundamentally violates trust and good faith between police and community.

## Principled Policing

Stockton Chief of Police Eric Jones published his thoughts on what he calls "principled policing" and how the Stockton Police Department is using that concept to build trust with its community and enhance public safety. [Read More](#)

## COUNCIL COMMUNICATION

CC #: 9302  
File #: 0102-10

**Title:** Resolution of Commendation and Appreciation to Scott Byrnes  
**Contact:** Lupe Nelson 916-774-5281 LNelson@roseville.ca.us

Meeting Date: 6/6/2018  
Item #: 7.38.

### RECOMMENDATION TO COUNCIL

Recommend Scott Byrnes be commended for his 21 years of outstanding service and dedication to the City of Roseville, congratulated for his many accomplishments, and wished a long, healthy, and enjoyable retirement.

### BACKGROUND

Not applicable.

### FISCAL IMPACT

Not applicable.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Not applicable.

### ENVIRONMENTAL REVIEW

Resolutions are not considered a project as defined by the California Environment Quality Act (CEQA) (CEQA guidelines Section 5378). Consequently, no CEQA action is required.

Respectfully Submitted,

Lupe Nelson, Administrative Assistant

Mike Isom, Acting Development Services Director

# CITY OF ROSEVILLE

OF

## COMMENDATION AND APPRECIATION

**WHEREAS**, Scott Byrnes began his distinguished career with the City of Roseville Public Works Building Division on December 22, 1997 as a Building Inspector; and

**WHEREAS**, during his career, Scott promoted to Senior Building Inspector in 2002, promoted to Chief Building Inspector in 2006, reclassified to Building Inspection Supervisor in 2007, reclassified to Development Services Coordinator in 2014, and promoted to Building Official in 2016; and

**WHEREAS**, Scott played an instrumental role in the issuance of over 101,560 building permits with a total building valuation of \$11,461,473,000; and

**WHEREAS**, Scott's tenure has insured the safe construction of 20,400 new residential units and 18,686,000 square feet of commercial development within the City; and

**WHEREAS**, Scott's oversight of significant project's; including building plan check and building inspection services contributed to the safe development of the Roseville Automall, CenterPointe Marketplace, Hewlett Packard, NEC, McKesson, Fed-X, the FBI buildings, the Galleria Mall, Creekside Town Center, The Fountains, two City Parking Structures, Martha Riley Library, Mahany Recreation facility, Mike Shellito Pool, Top Golf, four City Fire Stations, Sutter Hospital, Kaiser Hospital, Adventist Health Corporate offices, Sutter Hospital expansion, and Kaiser Medical Office Building expansion; and

**WHEREAS**, on October 21, 2010, the Galleria Mall fire destroyed 20 stores with an estimated \$55 million in damages prompting the Governor to declare a state of emergency and positioning Scott as a valuable contributor to the successful recovery in getting 40 stores reopened in a week after the fire, 80 stores opened by Thanksgiving, and the remaining 40 stores opened less than a year after the fire; and

**WHEREAS**, Scott represented the City regionally as President of the Sacramento Valley Association of Building Officials (SVABO) and as the California Building officials Association Chairman of the SVABO Scholarship Committee; and

**WHEREAS**, Scott's leadership in the building safety industry was key in the City of Roseville obtaining Building Division Accreditation in 2008 and receiving Building Department of the Year Award in 2010; and

**WHEREAS**, Scott's 21 year career in the Building Division gave him the opportunity to develop, train, and coach numerous people, thereby imparting his professional knowledge, experience, and passion to generations of building safety professionals.

**NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA**, that **SCOTT BYRNES** be commended for his 21 years of outstanding service and dedication to the City of Roseville, congratulated for his many accomplishments, and wished a long, healthy, and enjoyable retirement.

**SIGNED AND APPROVED** this 6<sup>th</sup> day of June, 2018.

Robert Schmitt 916-774-5325 rschmitt@roseville.ca.us

**Meeting Date: 6/6/2018**  
**Item #: 8.1.**

### RECOMMENDATION TO COUNCIL

Recommend City Council adopt:

- A. Resolution declaring a General Municipal Election be held on Tuesday, November 6, 2018, requesting the Placer County Board of Supervisors consolidate the election with any other election conducted on said date, and requesting the Placer County Board of Supervisors direct the Placer County Clerk/Elections Division to provide election services to fill two City Council vacancies and to submit the City of Roseville 1/2¢ Transactions and Use Tax Measure to the voters; and
- B. Ordinance, subject to voter approval, directing a City of Roseville 1/2¢ Transactions and Use Tax Measure be placed on the November 6, 2018 General Municipal Election ballot; and
- C. Resolution submitting the ballot text for the City of Roseville 1/2¢ Transactions and Use Tax Measure to the voters at the November 6, 2018 General Municipal Election; and
- D. Resolution directing the City Attorney to prepare an impartial analysis, and directing the City Clerk to establish requirements for filing primary and rebuttal arguments regarding the City of Roseville 1/2¢ Transactions and Use Tax Measure.

### BACKGROUND

#### A. Calling Election, Consolidation and Election of Councilmembers:

Roseville Charter Section 6.01 requires municipal elections for the selection of officers and for such other purposes as the Council may prescribe, and states such elections shall be held in the city on the date specified by the Elections Code of the State of California. The election scheduled for November 6, 2018, is in part, being held to fill vacancies for two seats on the City Council.

In accordance with California Elections Code §10403 and the Roseville City Charter, the city is requesting the Placer County Board of Supervisors consolidate the General Municipal Election with the statewide General Election to be held on November 6, 2018. The resolution requesting

consolidation authorizes reimbursement to the Placer County Clerk and Elections Division for the costs associated with election services provided to the city. This long-standing partnership is cost effective, reducing duplicity in both effort and costs.

Two seats expire in 2018:

- Susan Rohan - served two terms of four years each - termed out and not eligible for 2018 election
- Tim Herman - served two terms of four years each - termed out and not eligible for 2018 election

On Monday, July 16, 2018, the City Clerk Department will make materials available for Roseville residents interested in running for City Council. A candidate for City Council must be at least 18 years of age, a full-time resident of Roseville, and a registered voter at the time nomination papers and materials are issued. The deadline to file election materials in order to be considered a candidate is Friday, August 10, 2018 at 5:00 p.m. All materials must be submitted to the Roseville City Clerk. No post-dated materials will be accepted after the deadline.

Before accepting any campaign contributions, a candidate must file the 2018 Statement of Acceptance or Rejection of Limit on Campaign Expenditures with the City Clerk, either accepting or rejecting the campaign expenditure limit. The expenditure limit for the November 2018 election is \$113,211. The amount is based on the number of registered voters in Roseville as certified by the California Secretary of State (75,474) multiplied by \$1.50. A candidate who accepts the expenditure limit may accept contributions of up to \$500 from any single source. A candidate who rejects the expenditure limit may only accept contributions of up to \$250 from any single source.

**B. Measure to Be Submitted to the Voters:**

In response to a continued trend of slowing revenues and increasing costs, the City Council formally adopted policies in 2016 to ensure the adopted budget matches revenues with expenses and forces payment of long term debt. During the recession, Roseville, like most cities in the state, borrowed from other funds to maintain service levels. While this strategy allowed Roseville to minimize service level reductions temporarily, it deferred obligations and needs that are now coming due. For Roseville, the annual deficit if we were to fund all of our obligations would be \$14 million.

In FY2017-18, the Council held a budget workshop to identify approximately \$2 million in service level reductions to balance the budget. As forecasts indicated this trend would continue, Council also directed staff to engage the community in identifying citywide priorities to guide the development of the FY2018-19 budget. The EngageRoseville effort brought together Roseville residents and businesses to address specific general fund city services and programs, and provide policy level recommendations to prioritize what Roseville citizens value as a community. Thousands of residents participated in the process providing feedback at the Community Advisory Priorities Committee meetings, by sharing input electronically on Flash Vote surveys, and by reworking the budget with Balancing Act. Additional information was also received from residents at the Community Conversation Workshop, and by phone and email. An informational mailer regarding Roseville's budget was also sent to every household in the city. The EngageRoseville effort was recently completed and identified value statements for City services. Those included reducing and/or eliminating services that the city provides, and enhancing revenues through increased fees or voter-approved sources of revenue.

The City Council, at its meeting on April 4, 2018, directed staff to consider those recommendations in the development of the FY2018-19 budget. The General Information Memorandum attached to this report entitled "*10 Year Reductions Citywide*" provides additional information on service level reductions and policy changes that have occurred over time to

address the current fiscal imbalance. The changes outlined include a significant reduction in work force, changes to employee compensation and service level reductions.

In an effort to provide and preserve services valued by Roseville residents, the City of Roseville is submitting a measure to the voters for the City of Roseville 1/2¢ Transaction and Use Tax (sales tax) in order to provide locally-controlled funding for essential, necessary and appropriate general City services including:

- Maintaining neighborhood police patrols, fire protection, 9-1-1 emergency response;
- Maintaining crime suppression and investigation;
- Maintaining city streets and roads and pothole repair;
- Parks and Recreation;
- Job creation and economic improvement programs;
- Senior and youth services; and
- Other essential services

The measure is being proposed to provide funding that cannot be taken by the State of California, with funding to be used only for local city services. The measure proposes a general tax and requires a majority (50%+1) of votes cast by Roseville's qualified voters to approve the measure.

The measure is as follows:

**PROTECTING ROSEVILLE’S PUBLIC SAFETY, ROADS, AND ESSENTIAL SERVICES MEASURE**

Shall the measure to ensure essential City services including neighborhood police patrols, fire protection, 9-1-1 emergency response; crime suppression/investigation; street and pothole repair; libraries, parks and recreation; job creation and economic improvement programs; and unrestricted general revenue purposes by establishing a 1/2¢ Transactions and Use (“sales”) tax, providing an estimated \$18.4M annually, until ended by voters, with independent citizens' oversight, regular audits, no money for the state, and all funds spent locally, be adopted?

|     |  |
|-----|--|
| YES |  |
| NO  |  |

**C. Submitting Text For Placement on Ballot:**

Per California Elections Code § 10403, the City of Roseville must set forth the exact form of the question or measure as it is to appear on the ballot in Resolution form. The ballot measure wording provided on said Resolution conforms to the California Elections Code and the Revenue & Taxation Code §7285.9.

**D. Impartial Analysis and Methods for Submitting Arguments:**

Per California Elections Code § 9280, the City Attorney shall prepare an impartial analysis of the measure showing the effect of the measure on the existing laws and the operation of the measure. The analysis shall include a statement indicating the measure was placed on the ballot by the Roseville City Council. The analysis shall not exceed 500 words in length. The analysis shall be printed on the ballot preceding the arguments for or against the measure.

Per California Elections Code §9282 and 9283, when a measure is placed on the ballot by the legislative body, the legislative body or a member of the legislative body, authorized by the body, or any voter who is eligible to vote on the measure, or a bona fide association of citizens, or a combination of voters and associations, may file a written argument for or against a measure. The

City Council, collectively or individually, may authorize or appoint members of the City Council, to submit an argument in favor of the measure. By adoption of the Resolution regarding submitting arguments, the Mayor is authorized to appoint members of the City Council to author and submit an argument in favor of the measure.

The argument shall not exceed 300 words in length. Once filed, the City Clerk shall include the following statement on the argument "Arguments in support or opposition of the proposed laws are the opinions of the authors."

A ballot argument may not be accepted unless accompanied by the printed name and signature, or printed names and signatures of the author or authors submitting it, or, if submitted on behalf of an organization, the name of the organization and the printed name and signature of at least one of its principal officers, who is the author of the argument. No more than five signatures shall appear with any argument submitted. In case any argument is signed by more than five authors, the signatures of the first five individuals shall be printed.

When an argument in favor and an argument against a measure have been selected by the City Clerk, the City Clerk shall send a copy of the argument in favor of the measure to the authors of the argument against the measure and a copy of an argument against the measure to the authors of the argument in favor of the measure. The author, or a majority of the authors of an argument relating to a city measure may prepare and submit a rebuttal argument or may authorize in writing another person or persons to prepare, submit, or sign the rebuttal argument.

A rebuttal argument shall not exceed 250 words. The rebuttal argument relating to a city measure shall be filed with the City Clerk no later than 10 days after the final filing for primary arguments. The rebuttal argument shall not be signed by more than five persons and shall be printed in the same manner as a primary argument.

Based on the time reasonably necessary to prepare and print the arguments and voter information guides, and to permit the 10 calendar day public examination period per California Elections Code §9295, the City Clerk shall make available the analysis prepared by the City Attorney and the arguments submitted for a period of 10 calendar days immediately following the filing deadline for submission of the analysis and the arguments.

Deadlines for materials are as follows:

|                        |                                                                           |
|------------------------|---------------------------------------------------------------------------|
| June 21, 2018          | City Attorney Impartial Analysis Due                                      |
| June 22-July 2, 2018   | Public Examination Period                                                 |
| July 3, 2018           | Resolutions and Ordinance to Placer County Elections for Ballot Placement |
| July 3-July 13, 2018   | Primary Arguments For or Against Measure                                  |
| July 14-July 24, 2018  | Public Examination Period                                                 |
| July 14-July 24, 2018  | Deadline for Rebuttal Arguments                                           |
| July 25-August 3, 2018 | Public Examination Period                                                 |

## FISCAL IMPACT

Cost estimates for the 2018 election and associated services is \$189,000. This amount is only an estimate as the city will pay a cost equal to the amount Placer County charges depending on the amount of items on the ballot for all state, district and jurisdictions within Placer County. The amount is also dependent on the number of Roseville candidates appearing on the ballot. Costs for the election are included in the City Clerk Elections 2018/2019 budget, set for adoption prior to July 1, 2018. If the qualified voters of the City of Roseville approve the measure it would provide \$18.4 million in revenue to preserve services valued by residents.

### ECONOMIC DEVELOPMENT / JOBS CREATED

Adoption of the resolution calling for an election will not have a significant impact on economic development. However, during election day, many poll workers are hired including students from area high schools.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The adoption of a resolution regarding the November 6, 2018 election does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

Respectfully Submitted,

Sonia Orozco, City Clerk

Robert Schmitt, City Attorney

## RESOLUTION NO. 18-192

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE DECLARING A GENERAL MUNICIPAL ELECTION BE HELD ON TUESDAY, NOVEMBER 6, 2018 AND REQUESTING THE PLACER COUNTY BOARD OF SUPERVISORS CONSOLIDATE THE ELECTION WITH ANY OTHER ELECTION CONDUCTED ON SAID DATE, AND REQUESTING THE PLACER COUNTY BOARD OF SUPERVISORS DIRECT THE PLACER COUNTY CLERK TO PROVIDE ELECTION SERVICES TO FILL TWO CITY COUNCIL VACANCIES AND TO SUBMIT A TRANSACTIONS AND USE TAX MEASURE TO THE VOTERS

Notice of City Officer Election and Notice to Submit a Transactions and Use Tax Measure to the Voters

**WHEREAS**, under laws of the State of California relating to municipal elections and the Charter of the City of Roseville, there is hereby called and ordered an election to be held in the City of Roseville, County of Placer, State of California, on Tuesday, the 6th day of November, 2018. The General Municipal Election of the qualified electors of the City of Roseville, at which election issues to be presented to the voters, shall be:

### **Nomination of Candidates:**

1. The election shall be to fill a vacancy for two City Council seats for the following officers whose terms are set to expire:

| Name        | Position      | Term of Office                                    | Regular/Short Term |
|-------------|---------------|---------------------------------------------------|--------------------|
| Susan Rohan | Councilmember | Term Expired/Not Eligible for re-election in 2018 | Regular            |
| Tim Herman  | Councilmember | Term Expired/Not Eligible for re-election in 2018 | Regular            |

2. Roseville City Councilmembers are elected in the following manner:
  - At Large –All voters within the city vote for all candidates.
3. If by the close of candidate filing, the number of qualified candidates does not exceed the number of seats to be filled in a particular office, the City Council shall in accordance with Elections Code §10229(a):
  - Appoint to the office the person(s) who have been nominated and/or appoint to the office any eligible elector if no one has been nominated.
4. Notwithstanding the section above, item 3 shall not apply if (a) the number of nominees for a city office exceeds the number of seats to be filled, or (b) a city measure has qualified and is to be submitted to the voters at the municipal election.
5. The City of Roseville has determined the following election particulars:
  - The length of the Candidate Statement shall not exceed 200 words.
  - The cost of the Candidate Statement shall be paid by the Candidate.

6. The City of Roseville has also determined the following election particulars:
  - In the case of a tie vote, the election shall be determined by lot.
7. There have been no City boundary changes since the last election. The City understands that the Placer County Mapping Division will verify City boundary lines prior to the election.

**Measure Submitted to Voters:**

The following City of Roseville 1/2¢ Transactions and Use (sales) Tax Measure as shown on Exhibit A attached to this report, shall be submitted to the voters of the City of Roseville on November 6, 2018 along with arguments and rebuttals submitted in the timeframe prescribed by the California Elections Code:

**PROTECTING ROSEVILLE’S PUBLIC SAFETY, ROADS, AND ESSENTIAL SERVICES  
MEASURE**

Shall the measure to ensure essential City services including neighborhood police patrols, fire protection, 9-1-1 emergency response; crime suppression/investigation; street and pothole repair; libraries, parks and recreation; job creation and economic improvement programs; and unrestricted general revenue purposes by establishing a 1/2¢ Transaction and Use (“sales”) tax, providing an estimated \$18.4M annually, until ended by voters, with independent citizens’ oversight, regular audits, no money for the state, and all funds spent locally, be adopted?

|     |  |
|-----|--|
| YES |  |
| NO  |  |

**WHEREAS**, the Council of the City of Roseville requests the Placer County Clerk to provide election services for the General Municipal Election to be held on Tuesday, November 6, 2018.

**Placer County to Render Specified Services:**

1. Provide copies of all precinct maps and additional maps the city requires;
2. Provide one set of voter lists (precinct/street order) at the close of registration;
3. Print and mail sample ballots and official ballots;
4. Provide and deliver all precinct supplies;
5. Provide information for publication of polls and central counting;
6. Issue absentee ballots;
7. Publish all required election notices;
8. Count ballots;
9. Provide statement of vote;
10. Verify nomination signatures

**City of Roseville to Render Specified Services:**

The Roseville City Clerk, as the Elections Official for the City of Roseville per Charter Section 2.13, will conduct all aspects of election not specified above, including, but not limited to:

1. Issue and accept candidate nomination papers;
2. Proof sample/official ballots;
3. Prepare and submit Resolution canvassing votes to be adopted by Council.

**WHEREAS**, pursuant to services provided by Placer County, the City of Roseville shall reimburse the County of Placer for services performed when the work is complete and upon presentation to the City of a properly approved bill; and

**WHEREAS**, this Resolution shall be considered a Notice of Election and Specification of Election Order if applicable; and

**WHEREAS**, in all particulars not recited by the Resolution, said election shall be held and conducted as provided by law for the conduct of general municipal elections.

**NOW, THEREFORE, BE IT RESOLVED** by the Council of the City of Roseville that the Board of Supervisors of the County of Placer is hereby requested to:

1. Consolidate the election with any other applicable election conducted on the same day.
2. Authorize and direct the County Clerk, at City expense, to provide all necessary election services.

**PASSED AND ADOPTED** by the Council of the City of Roseville, on the 6th day of June, 2018, by the following vote on roll call:

## **RESOLUTION NO. 18-193**

### **RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE SUBMITTING BALLOT TEXT FOR THE CITY OF ROSEVILLE 1/2¢ TRANSACTIONS AND USE TAX MEASURE TO THE VOTERS AT THE NOVEMBER 6, 2018 GENERAL MUNICIPAL ELECTION**

**WHEREAS**, Revenue & Taxation Code §7285.9 authorizes the City Council to levy a Transactions and Use Tax, if the ordinance proposing the tax is approved by a two-thirds vote of all members of the Roseville City Council, and the tax is approved by a simple majority (50%+1) vote of the qualified voters of the city voting in an election on the issue; and

**WHEREAS**, the Ordinance attached as Exhibit A imposes a City of Roseville 1/2¢ Transactions and Use tax to fund city services including the following:

- Maintaining neighborhood police patrols, fire protection, 9-1-1 emergency response;
- Maintaining crime suppression and investigation;
- City streets and pothole repair;
- Parks and Recreation;
- Job creation and economic improvement programs;
- Senior and youth services; and
- Other essential services

**WHEREAS**, the City of Roseville will be holding a General Municipal Election on November 6, 2018; and

**WHEREAS**, it is fiscally responsible to ensure the City's streets, roads and potholes are repaired now so they will not further deteriorate and become more costly to fix in the future; and

**WHEREAS**, Roseville must ensure police and fire protection services no matter what happens with the State budget or economy; and

**WHEREAS**, fire emergency response times have been increasing and the City of Roseville needs to protect lives and property in every neighborhood; and

**WHEREAS**, ensuring rapid emergency and medical response requires adequately staffed and trained police and fire departments; and

**WHEREAS**, well maintained city streets, roads, libraries, and parks and recreation centers are important to ensuring Roseville's quality of life and property values; and

**WHEREAS**, residents want to maintain neighborhood police patrols, fire protection, 9-1-1 emergency response, crime suppression and investigation, city streets and pothole repair, parks and recreation, and job creation and economic improvement programs, and

**WHEREAS**, the City has reduced staffing, including cuts to police and fire services; and

**WHEREAS**, additional cuts to service will further impact quality of life; and

**WHEREAS**, this measure includes comprehensive fiscal accountability provisions, such as annual independent financial audits and citizen's oversight of all expenditures to enhance accountability and transparency; and

**WHEREAS**, the City Council desires to submit the City of Roseville 1/2¢ Transactions and Use (sales) Tax Measure to the electorate at the November 6, 2018 General Municipal Election; and

**WHEREAS**, the tax must be approved by the electorate to be effective; and

**NOW, THEREFORE, BE IT RESOLVED** by the City Council of the City of Roseville, as follows:

The City Clerk is hereby directed to submit the ballot text to the qualified voters of the City of Roseville at the November 6, 2018 General Municipal Election as follows:

**PROTECTING ROSEVILLE'S PUBLIC SAFETY, ROADS, AND ESSENTIAL SERVICES  
MEASURE**

Shall the measure to ensure essential City services including neighborhood police patrols, fire protection, 9-1-1 emergency response; crime suppression/investigation; street and pothole repair; libraries, parks and recreation; job creation and economic improvement programs; and unrestricted general revenue purposes by establishing a 1/2¢ Transaction and Use ("sales") tax, providing an estimated \$18.4M annually, until ended by voters, with independent citizens' oversight, regular audits, no money for the state, and all funds spent locally, be adopted?

|     |  |
|-----|--|
| YES |  |
| NO  |  |

1. The City Clerk shall file a certified copy of this Resolution with the Placer County Clerk; and
2. The City Clerk is further directed to take all other administrative actions necessary to accomplish the orders set forth in the Resolution.

**BE IT FURTHER RESOLVED**, that in all particulars not recited by the Resolution, said election shall be held and conducted as provided by law for the conduct of general municipal elections.

**PASSED AND ADOPTED** by the Council of the City of Roseville, on the 6th day of June, 2018, by the following vote on roll call:

AYES: COUNCILMEMBERS:

NOES: COUNCILMEMBERS:

ABSENT: COUNCILMEMBERS:

## RESOLUTION NO. 18-194

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE DIRECTING THE CITY ATTORNEY TO PREPARE AN IMPARTIAL ANALYSIS AND DIRECTING THE CITY CLERK TO ESTABLISH REQUIREMENTS FOR FILING PRIMARY ARGUMENTS AND REBUTTAL ARGUMENTS REGARDING THE CITY OF ROSEVILLE 1/2¢ TRANSACTIONS AND USE TAX MEASURE

**WHEREAS**, a General Municipal Election is to be held in the City of Roseville, California on Tuesday, November 6, 2018, at which time there will be a ballot measure submitted to the voters; and

**WHEREAS**, the ballot measure is being proposed to provide funding that cannot be taken by the State of California for local city services including;

- Maintaining neighborhood police patrols, fire protection, 9-1-1 emergency response times;
- Maintaining crime suppression and investigation;
- City streets and pothole repair;
- Parks and Recreation;
- Job creation and economic improvement programs;
- Senior and youth services; and
- Other essential services

The measure is as follows:

### **PROTECTING ROSEVILLE'S PUBLIC SAFETY, ROADS, AND ESSENTIAL SERVICES MEASURE**

Shall the measure to ensure essential City services including neighborhood police patrols, fire protection, 9-1-1 emergency response; crime suppression/investigation; street and pothole repair; libraries, parks and recreation; job creation and economic improvement programs; and unrestricted general revenue purposes by establishing a 1/2¢ Transactions and Use ("sales") tax, providing an estimated \$18.4M annually, until ended by voters, with independent citizens' oversight, regular audits, no money for the state, and all funds spent locally, be adopted?

Full text of the City of Roseville 1/2¢ Transactions and Use Tax Measure Ordinance is attached as Exhibit A.

**WHEREAS**, whenever a municipal ballot measure is authorized, California Elections Code § 9280 provides that the City Council direct the City Attorney to prepare an impartial analysis of the measure and the City Clerk to provide filing requirements for primary arguments for and against a measure and for rebuttal arguments.

**WHEREAS**, the City Council of the City of Roseville orders the following particulars regarding the completion of an impartial analysis and submittal of ballot arguments:

#### **Primary Arguments:**

**Section 1.** The City Council directs the City Attorney to prepare an impartial analysis of the City of Roseville 1/2¢ Transaction and Use Tax Measure showing the effect of the measure on the existing law and the operation of the measure. The analysis shall not exceed 500 words in length. The impartial analysis shall be filed within fifteen

(15) days of the adoption of this Resolution. The analysis shall include a statement indicating the governing body placed the measure on the ballot.

**Section 2.** The City Council authorizes members of the City Council, collectively or individually, to file written arguments in favor of the City of Roseville 1/2¢ Transactions and Use Tax Measure, accompanied by the printed name(s) and signature(s) of the author(s). The argument can be changed until and including the date fixed by the City Clerk after which no arguments for or against the City measure may be submitted to the City Clerk. The City Clerk shall follow California Elections Code § 9281 through 9287 in determining the printing of all arguments in favor and against.

**Section 3.** Any individual voter who is eligible to vote on the measure, or bona fide association of citizens, or a combination of voters and associations, may file a written argument in favor or against any city measure.

**Section 4.** A primary argument shall not exceed 300 words in length.

**Section 5.** A ballot argument will not be accepted unless accompanied by the printed name and signature or printed name(s) and signature(s) of the author or author(s) submitting it, or, if submitted on behalf of an organization, the name of the organization and the printed name and signature of a least one of its principal officers who is the author of the argument.

**Section 6.** No more than five signatures shall appear with any argument submitted. In case any argument is signed by more than five authors, the signatures of the first five shall be printed.

**Section 7.** The City Clerk shall include the following statement on the front cover, or if none, on the heading of the first page of the printed arguments: "Arguments in support or opposition to the proposed laws are the opinion of the authors."

**Section 8.** Printed arguments submitted to voters shall be titled either "Argument in Favor of Measure" or "Argument Against Measure" accordingly, the letter or number, if any, designating the measure shall also be printed on the argument.

#### **Rebuttal Arguments:**

**Section 9.** When an argument in favor and an argument against a measure have been selected by the City Clerk to be printed in the voter information guide, the City Clerk shall send a copy of the argument in favor of the measure to the authors of the argument against the measure and a copy of an argument against the measure to the authors of the argument in favor of the measure.

**Section 10.** The author or a majority of the author(s) of an argument relating to a city measure may prepare and submit a rebuttal argument or may authorize in writing another person or person(s) to prepare, submit, or sign the rebuttal argument.

**Section 11.** A rebuttal argument shall not exceed 250 words.

**Section 12.** A rebuttal argument relating to a city measure shall be filed with the City Clerk no later than 10 days after the final filing date for primary arguments.

**Section 13.** A rebuttal argument relating to a city measure shall not be signed by more than five authors or persons, shall be printed in the same manner as a direct argument, and shall immediately follow the direct argument which it seeks to rebut.

**WHEREAS**, if more than one argument for or more than one argument against any city measure is submitted to the City Clerk within the time prescribed, the City Clerk shall select one of the arguments in favor and one of the arguments against the measure for printing and distribution to the voters. In selecting the argument, the City Clerk shall give preference and priority, in the order named, to the arguments of the following:

- a) The legislative body, or member or members of the legislative body authorized by that body;
- b) The individual voter, or bona fide association of citizens, or combination of voters and associations, who are the bona fide sponsors or proponents of the measure;
- c) Bona fide association of citizens;
- d) Individual voters who are eligible to vote on the measure.

**WHEREAS**, the City Council has first priority to file and submit arguments for City Council sponsored ballot measures, whereby the Mayor and/or others selected by the Mayor who are qualified to sign arguments under the Elections Code to file written arguments regarding the ballot measures sponsored by the City Council: and

**WHEREAS**, in order to enable the City Clerk to determine whether an argument is from a bona fide association of citizens, an organization or association submitting an argument for or against a city measure shall submit with the argument a copy of one of the following:

- a) Its articles of incorporation, articles of association, partnership documents, bylaws, or similar documents;
- b) Letterhead containing the names of the organization and its principal officers;
- c) If the organization or association is a primarily formed committee established to support or oppose the measure, its statement or organization filed pursuant to Section 84101 of the California Government Code;
- d) In selecting argument from among bona fide associations of citizens, the City Clerk shall not consider the type of documentation submitted pursuant to subdivision (b) or the form of the association.

**WHEREAS**, based on the time necessary to prepare the City Attorney impartial analysis, permitting the 10-calendar-day public examination and the timing of the arguments and rebuttals, as provided in Article 6 (commencing with Section 9295) for the November 6, 2018 election, the City of Roseville adopts the following deadlines in concert with the Placer County Office of Elections:

|                        |                                                                |
|------------------------|----------------------------------------------------------------|
| June 21, 2018          | City Attorney Impartial Analysis Due                           |
| June 22-July 2, 2018   | Public Examination Period                                      |
| July 3, 2018           | Resolutions to Placer County Elections for Placement on Ballot |
| July 3-July 13, 2018   | Primary Arguments For or Against Measure                       |
| July 14-July 24, 2018  | Public Examination Period                                      |
| July 14-July 24, 2018  | Deadline for Rebuttal Arguments                                |
| July 25-August 3, 2018 | Public Examination Period                                      |

**NOW, THEREFORE, BE IT RESOLVED** by the Council of the City of Roseville that the provisions and sections of this resolution shall apply only to the General Municipal Election to be held on November 6, 2018.

**PASSED AND ADOPTED** by the Council of the City of Roseville, on the 6<sup>th</sup> day of June, 2018, by the following vote on roll call:

AYES: COUNCILMEMBERS:

NOES: COUNCILMEMBERS:

ABENST: COUNCILMEMBERS

\_\_\_\_\_

SONIA OROZCO, CITY CLERK

## GENERAL INFORMATION MEMORANDUM

**TO:** Honorable Mayor Susan Rohan and Members of the City Council

**FROM:** Rob Jensen, City Manager 

**APPROVED BY:** Dominick Casey, Acting City Manager

**DATE:** May 3, 2018

**SUBJECT:** 10 Year Reductions Citywide

---

### Purpose

At the Council's budget workshop on April 12<sup>th</sup>, the Council requested additional information on service level reductions and policy changes that have occurred over time to address the current fiscal imbalance. Over the past ten years, the City has made significant strides to address the changing economic and fiscal climate. Those efforts included a significant reduction in work force, changes to employee compensation and service level reductions. In addition, Roseville, like most cities in California depleted reserve funding to weather the recession and deferred maintenance for City facilities and public buildings including our police and fire stations, our three libraries, parks, pools, roadways and IT infrastructure. This deferral added additional cost pressures to the General Fund as it balanced these long term obligations with current operational needs. All the while, a constantly changing statewide legislative and regulatory environment continues to add unfunded mandates and significant costs to the City's operations, such as public-safety realignment, open space management, and the State moving responsibility for stormwater management from the State to local government, all adding millions in expenses to the City's General Fund. The purpose for this memorandum is to provide details in each of these areas.

### REDUCTION IN WORKFORCE:

The City began reducing its General Fund staffing levels in 2007 as a result of the recession. Over the past 10 years, the City has reduced General Fund staffing from 778 full time employees to 665 full time employees in 2018. During the same period, the City's population grew from 109,154 to 138,150. This resulted in a per capita reduction in employees of 32 percent.

The majority of the positions eliminated in the early years were directly related to new development as growth levels were a fraction of what they were in previous years. However, as the recession continued, the City looked for opportunities to improve efficiencies and further reduced staffing levels across all areas. As the economy improved and development levels increased, new staffing has not been brought in to keep pace with the growth. This has resulted in service level reductions in all General Fund City departments.

## **EMPLOYEE COMPENSATION:**

As a service provider, the City's highest General Fund cost is labor. With one of Council's goals being fiscal soundness, the City and its labor groups, including management, partnered over the past several years to manage labor costs. The changes we've made together still allow the City of Roseville to attract and retain competent, dedicated people to serve our community. It's an important undertaking given that labor-related costs account for almost 75 percent of the City's General Fund budget, which pays for a variety of services including fire, police, parks, recreation, library, and public works.

Ensuring consistency among labor groups within our workforce and developing strategies to contain costs have been key focus areas. It is important to remember that current State law hinders the City's ability to make significant changes to retirement benefits until the court system rules on this issue. That said, in partnership with our labor groups, we have taken proactive steps where we could to reduce long term costs, which included:

- Controlling pension costs by transferring the responsibility to employees to fund 100 percent of the employees' share of pension costs. This has significantly reduced pressure on the City's budget.
- Capping liability for retiree health benefits: A defined-contribution plan is offered to new employees instead of the defined-benefit plan that previously existed. This means that employees, along with the City, contribute to saving for their retiree-medical benefits; and that the City's cost associated with the defined-benefit plan will eventually be zero.
- Setting salary-level targets at median levels in labor-market comparison: Salary schedules for new employees have been reduced up to 21 percent in some cases to reflect median salaries in the labor market, instead of upper-end levels.
- Reducing the rate of increases within each salary range: The previous pay scales allowed for 5 percent increases between each step in a salary range. Now, new employees are eligible for increases no greater than 2.5 percent between each step in the range. This extends the time it takes to reach the highest level in the pay range, which can now be up to 15 years; slowing the growth rate of this expense.

## **POLICE DEPARTMENT SERVICE LEVEL REDUCTIONS:**

Since 2007, the total number of sworn officers has been reduced from 136 to 130. During this same period, the size of the city in square miles, calls for service, and both daytime and nighttime populations have all dramatically increased. For example, our residential population increased by 30,000 since 2007, a 28 percent increase. The staffing level of the Department's Professional Staff has also been reduced significantly with volunteers providing many of the job assignments previously handled by employees.

With staffing levels decreasing on a per capita basis, service level reductions have been reduced including longer response times to calls and less time for officers to conduct problem oriented and proactive work. The department goal and best practice in policing is for officers to spend 60 percent of their time handling calls, and 40 percent of their time on proactive policing activities. With the department unable to maintain this standard, the quality of the service provided to our community has been reduced.

#### Overall Department Sworn Staffing Levels

|                | 2007 | 2018 | Percent Change per Capita |
|----------------|------|------|---------------------------|
| Sworn Officers | 136  | 130  | - 26 percent              |

Patrol Unit - The Patrol Unit comprises the front line officers that the community sees on a regular basis patrolling and enforcing laws. In order to preserve essential staffing in front-line patrol, the department has eliminated or shrunk specialty units to maintain patrol staffing at 66 officers and 10 sergeants, consistent with the 2007 levels. As the city has grown in both area and population, the patrol division has needed to strategically size beats to best utilize the resources available. This has resulted in less than optimum staffing in all areas and corresponding decreases in effectiveness.

#### Patrol Unit Staffing

|           | 2007 | 2017 | Percent Change per Capita |
|-----------|------|------|---------------------------|
| Sergeants | 9    | 10   | -14 percent               |
| Officers  | 70   | 66   | -27 percent               |

Crime Suppression Unit / Vice and Narcotics Enforcement Team - Ten years ago, the department had a Vice and Narcotics Enforcement Team (VNET), staffed by a sergeant and three officers. VNET focused on street-level drug activity, problem drug houses in neighborhoods and narcotics activity. The department had a separate Crime Suppression Unit (CSU), staffed by a sergeant and six officers. CSU focused on monitoring known gang members, parolees and other known offenders in our city, as well as ad hoc crime trends and nuisance locations. They maintained a high presence and conducted regular patrols in neighborhoods with high levels of gang and criminal activity. Today, VNET and CSU have been combined into one unit with a sergeant and five detectives. This is a reduction of one sergeant and four detectives over 2007 staffing levels. The impact on the community includes fewer narcotics investigations, fewer "problem location" investigations, and no time for random patrols and high visibility in the neighborhoods that need it.

#### CSU / VNET Staffing

|           | 2007 | 2017 | Percent Change per Capita |
|-----------|------|------|---------------------------|
| Sergeants | 2    | 1    | -61 percent               |
| Officers  | 9    | 4    | - 65 percent              |

K9 Unit - K9 staffing has been reduced over the past decade from six dogs to four. This has reduced the ability of K9s to assist patrol and other officers with suspect searches, drug searches and other situations where a police K9 would be helpful. K9 coverage has also shrunk from 24 hours a day to 18 hours a day, and we've increased our dependence on neighboring agencies when we have a need for a K9.

#### K9 Unit Staffing

|                    | 2007 | 2017 | Percent Change per Capita |
|--------------------|------|------|---------------------------|
| Canines            | 6    | 4    | -48 percent               |
| Hours of Operation | 24   | 18   | -25 percent **            |

**\*\*Note – Change in hours of operation not calculated on a per capita basis, as number of hours in a day are constant.**

Youth Services - At one time, the department had seven full time dedicated youth service officers: four in the high schools, two in the middle schools and one officer who focused on truancy and runaways.

Even farther back in time, the department had two DARE officers assigned to elementary schools. Today we have officers assigned only to the three comprehensive high schools, and one officer assigned to Adelante High School on an overtime basis. Coverage to the high schools is spread thinner, as there are no extra officers to cover when an assigned officer is sick or on vacation. There are no officers assigned to increase security and build positive relationships at the City's five middle schools.

Youth Services Staffing

|                         | 2007 | 2017 | Percent Change per Capita |
|-------------------------|------|------|---------------------------|
| Youth Services Officers | 7    | 4    | -56 percent               |

Traffic Enforcement Unit - At one time the traffic unit was staffed by two sergeants, ten motor officers, two DUI officers, two community service officers and a full time parking enforcement officer. Currently there is one Sergeant and four motor officers assigned to Traffic and no dedicated DUI officers. We have a position slotted for one DUI officer, however due to staffing levels in Patrol, it has not been filled for over a year. As a result, DUI enforcement is left for patrol officers as time permits. We now have far fewer DUI offenders arrested than when we had dedicated DUI officers; this means more DUI drivers are going undetected, and this decreases safety on our roadways. Because traffic officers are often reassigned to cover shortages in patrol, there are fewer of them available to make traffic stops and address citizen complaints and traffic safety issues in the city. The department no longer has parking enforcement officers, so the police department no longer provides proactive parking enforcement in the downtown area. Patrol officers and community service officers respond to parking issues only when the public calls to complain.

Traffic Enforcement Staffing

|                             | 2007 | 2017 | Percent Change per Capita |
|-----------------------------|------|------|---------------------------|
| Sergeants                   | 2    | 1    | -60 percent               |
| Motor Officers              | 10   | 4    | -69 percent               |
| DUI Officers                | 2    | 1    | -60 percent               |
| Community Services Officer  | 2    | 2    | -28 percent               |
| Parking Enforcement Officer | 1    | 0    | -100 percent              |

Investigations Unit - While staffing has remained consistent over the ten year window, the amount and complexity of cases being assigned to detectives has greatly increased while being handled by the same number of detectives. As a result, cases take longer to close, the threshold of what kinds of cases assigned to a detective is higher, and caseloads per detective are higher. So while staffing has remained constant, the workload has dramatically increased which has the effect of being a service reduction to the community.

Communications Unit - Dispatcher staffing has not kept up with the population growth of the city. Since 2007, 911 calls increased from 31,076 to 44,853, a 31 percent increase. The unit lost one "off-line" dispatch supervisor position. The loss of this position created many challenges for the unit in managing shift schedules, coordinating and scheduling training, and addressing personnel issues in a timely manner.

Police Records Unit - The department has eliminated four records clerks, resulting in a redistribution of essential and legally mandated duties among the remaining clerks. To compensate, the department reduced the hours the public counter is open and available to the public. The reduced staffing has created more backlogs in less critical but important records tasks, like archiving and purging of old records. Records clerks were eliminated from Administration (1), Community Services (1), and Investigations (2). Clerks assigned to Records have remained constant at eight.

Animal Control Officers - Our ACO's are some of the hardest working people in the Police Department. And like Patrol and Investigations, while their staffing has remained constant over the years, the call load has risen as the city has grown and calls for service for Animal Control pend considerably longer than in the past. This has the result of being a service reduction since staffing has not kept pace with the increase in population and calls for service.

Police Vehicles Fleet - The department used to have a "car-per-officer" program, providing each officer who lived in or close to the city with a personally assigned take-home vehicle. This was something the City highlighted in recruitment messages to prospective officers, and it also increased the perceived presence of police in the City, since patrol cars were parked in front of officers' homes throughout the City. Officers called out for SWAT and other emergencies could respond directly to the location of the emergency, rather than first coming to the department to pick up their cars and equipment. Our officers now share cars.

Administration - The administrative side of the Office of the Chief of Police was reduced by almost half with the loss of an Administrative Analyst and a Records Clerk. These positions were assigned to training, workers compensation claims, and the recruitment/hiring process. All of these assignments were then spread out amongst other employees. While this had no visible reduction in service levels to the community, it affected our administrative ability to train and hire officers and staff which does project outward to how we provide service to the community.

Training - The department has greatly reduced the amount of travel and training provided by the General Fund. Most mandated in-service training is now conducted in-house with qualified in-house instructors. Fewer police staff attend professional conferences, where they used to network with other professionals in the same disciplines, learn about new trends, and bring that knowledge and expertise back to the City.

## **FIRE DEPARTMENT SERVICE LEVEL REDUCTIONS:**

### **Fire Administration**

- Eliminated one and a half positons in the front office and reclassification of other positions has increased the wait times for counter service, records requests, and incident reports.

### **Fire Operations**

- Eliminated three (3) Shift Battalion Chiefs beginning in 2011 which doubled the managerial span of control and reduced incident management capabilities. This change created longer response times for the Battalion Chief to arrive and assume Incident Command. First arriving Engines are pushed into a command role until the Battalion Chief arrives.
- The closure of Fire Station 8 and relocation of that company to open Station 9 created extended response times to district 8. Response reliability continues to increase in districts 2, 5, and 9 while call volumes continue to increase in all districts including district 8. While funding to construct a new station to balance response time, no funding is available to operate the new fire station at an estimated cost of \$2.5 million annually.

- In 2010 the Dive Rescue program was eliminated. We are no longer able to perform rescues for submerged vehicles into bodies of water.
- In 2013, watercraft were eliminated reducing our ability to perform flood and swift water rescues.
- In 2013, the Bike Team was eliminated. Although the equipment is still available for special call out, there is no longer an organized team, training, or scheduled event calendar.
- In 2014, the Tower Rescue program was eliminated. We are no longer able to perform rescues on elevated towers, power line towers, or cell towers.

#### Fire and Life Safety

- Reductions and reclassification of positions has increased work load and turnaround time for Inspections, Plan Review, and follow up. Fees were increased to offset rising costs.
- Public Education position reduced to part time. This reduction has decreased the amount and frequency of in school programs and public events
- No longer providing Hands-Only CPR demonstrations at community events
- Discontinued Smoke Detector Program
- Car Seat technician Inspection/Installations have been significantly reduced. These were done by on duty crews at every fire station. Today they are done by-appointment only by our on part-time Pub-Ed Technician.

#### Fire Support Services

- Reductions in the Fire Investigation program has increased the time to complete reports and the ability to fully investigate possible Arson Fires.

#### Fire Emergency Preparedness

- The loss of a full time Emergency Preparedness Manager in 2007 has reduced abilities to prepare and educate the community.

### **PARKS, RECREATION, AND LIBRARIES SERVICE LEVEL REDUCTIONS:**

Over the past decade, there has been significant growth in the Parks, Recreation & Libraries Department. We have added 22 Parks, over 1,000 acres of open space, Martha Riley Community Library, Mike Shellito Indoor Pool and increased from 13 to 60 annual events with the opening of Vernon Street Town Square. In this same period, we reduced 29 General Fund positions. Where funding was available and where it made sense, portions of work in Parks and open space, including landscape maintenance and tree trimming, were contracted out to further reduce costs. While contract services made fiscal sense in years past, recent City salary and benefit reductions, along with increased private costs due to minimum wage increases and the Affordable Care Act, have eroded those savings. In addition, reduced oversight of contract services have resulted in limitations in project flexibility, increased response times, lower standards and in some cases additional cost. The Department has been increasingly reliant on temporary employees to fill critical roles and functions. Increased turnover in temporary positions continues to cause challenges with consistency and hinders appropriate redundancy for important functions. The items below do not represent each and every service level reduction, but instead attempt to represent those from a more global perspective.

| Parks, Recreation & Libraries<br>10 year service level reductions |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Action                                                            | Service Level Impacts                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## **DEVELOPMENT SERVICES SERVICE LEVEL REDUCTIONS:**

Planning Division - While changes to Planning's service levels tend to be less measurable quantitatively than other departments given the nature of work, changes over the last 8 years have resulted in doing more with less including:

- Reduced planning staff by 48 percent. Fewer staff to share the workload can result in service level reductions such as longer entitlement processing times, longer response times (i.e., calls, letters, emails, research), longer scheduling timeframes (i.e., meetings, inspections), phone customers not getting a live person right away and rolling to voicemail.
- Eliminated dedicated plan checker position. Not having this position requires planners to do both plan check and entitlement processing, creating delays in both.
- Reduced administrative staff from four to one. Now Planning shares one dedicated admin staff (there are 3.5 Admins that share workload for all of DS).
- Technical staffing levels have remained constant but work levels have increased to assume responsibility for other divisions within Development Services. This affects Planning functions including the elimination of Development Activities Reports, longer times for updating base planning documents, and increases response times for providing mapping and data services.
- Planning technicians have assume dual roles as permit and planning techs. This has resulted in longer response time to customers, fewer planning "experts" at the front counter and more reliance on planners for general information which is less time planners spend on processing entitlements.

Business Services - The following factors over the past ten years have contributed to an upward trend in Business:

- Reduced business services staffing by 50 percent.
- Increased work level to include implementation and maintenance of the City's permitting system, providing support services to Engineering, Planning and Building Divisions, and assumed responsibility to update and maintain GIS landbase and addressing data bases.

Although Business Services has largely adapted to doing more with less and has become better at supplementing peaks in workload demands with temporary and contract staff, the following service level reductions are a direct result of the items noted above:

- With fewer resources to share the workload, staff is often forced to be more reactive than proactive in many instances, including responding to Accela issues and enhancements, providing GIS, mapping, and data services, and updating procedures.
- The division is no longer able to provide custom mapping or reporting services to the public.
- Increased response times in the timely post-approval of administrative updates (i.e., text, tables, figures) to the General Plan, and Specific Plan documents.
- No longer able to re-create and provide the Monthly and Quarterly Development Activity Reports.
- Delays in the timely updating and maintenance of key GIS infrastructure datasets (i.e., parcels, street centerlines, addresses, etc.).
- Impedes the division's ability/opportunity to provide innovative public facing or civic engagement solutions that better serve the needs of staff and the public. Staff often doesn't have time to effectively create processes, products, and tools to increase efficiencies and streamline business processes.

Engineering Division - Service level reductions to the Engineering Division have not been that dramatic over the last 8 years, as staff has learned to do more with less and supplement workloads with contract staff. Specific changes have included:

- Reduced engineering staff by 33 percent.
- Reduced level of Engineering's support staff. Not having this support results in engineers being responsible to respond to general information and document requests from customers, both at the counter and over the phone. The turnaround time on these generalized requests has been delayed due to the reduction in staffing.
- With less staff, division staff is often forced to be more reactive than proactive in some instances (i.e., updating procedures, standards, etc.)
- Plan Check and Inspection Service Levels have NOT dropped off:
  - Engineering's plan check staff has actually made the Civil review process more efficient. In 2008/2009 turnaround times for Civil plan review was 6/4/2 weeks for the first three plan checks respectively. These same plan reviews are now completed in 4/3/2 weeks respectively. The ability to bring in contract plan services to supplement heavy workloads aids in allowing staff to meet these accelerated turnaround times.
  - Engineering's plan check staff now offers an expedited civil plan review for "pad ready projects". This review is completed within 10 days and was not offered 8 years ago.

- Inspection service levels have not changed in the past 8 years. Supplementing with contract staff has allowed this service to remain constant.

### **PUBLIC WORKS DEPARTMENT SERVICE LEVEL REDUCTIONS:**

Engineering Division – The division eliminated two Assistant Engineering positions resulting in the following service level reductions:

- Longer response times to public requests.
- Responding to public concerns rather than proactively preventing concerns before they occur.
- Plan check is being rushed, items are being missed, and contractor and developer complaints are increasing due to last minute changes being required in the field during construction.
- Projects delayed and being pushed to the next year. This is often blamed on a tough bidding climate but is also partially due to projects bidding too late into the construction season. The public has to keep waiting for the key road and safety improvements including storm drain improvements for drainage issues, pavement resurfacing reducing wear and tear on vehicles, and capacity improvements to shorten commute times.
- The City's Intelligent Transportation System (ITS) is not being used to its full capabilities resulting in increased travel times and delay on City roadways.
- Increased time to public floodplain determinations delaying real estate transactions and development applications.

Streets Division – In addition to reductions in general funding for materials and supplies, the division eliminated six street maintenance workers resulting in the following service level reductions:

- Reduced linear feet of crack sealing in roads causing roads to fail faster.
- Reduced amount of asphalt patching of roads causing them to fail faster.
- Reduced number of replacement pavement markers in streets.
- Reduced number of square feet of thermo plastic and paint markings that get updated each year resulting in poor visibility for crosswalks, stop bars, and edge lines.
- Reduced number of signs that get replaced each year resulting in poor visibility on street signs for the public, fire and police.
- Reduced number of sidewalk/curb/gutter repairs for failed concrete and trip hazards resulting in the potential for more safety issues for public until a permanent repair can be completed.
- Reduced number of storm drain inlet replacements resulting in more localized flooding on streets.

## **INFORMATION TECHNOLOGY DEPARTMENT SERVICE LEVEL REDUCTIONS:**

All Technology Services - The City maintains approximately \$100M of information technology hardware and software. These assets support every City department and all City services. Funding for rehab and replacement of these systems was eliminated or dramatically reduced starting in 2007. There is no ability today to fully fund technology rehabilitation and replacement. Currently, the City is funding these at a 30 percent level. The Council recently adopted a policy to increase funding in this area by \$500,000 per year annually until it reaches the required funding level of \$5.0 million annually. This will further reduce funding that is available for other City services including police and fire.

Additionally, growth of technology infusion and cloud applications have resulted in increased security responsibilities within the business units. Administrative and customer support service levels have been reduced in many areas due to competing demands for new technologies and projects. Administrative, cross-functional leadership and onboarding tasks have been reassigned to IT-Managers, potentially jeopardizing the primary IT functions performed by the City.

Administrative Support Services - Eliminated Administrative Assistant position and replaced with temporary part-time position.

Business Applications - More than 50 percent of the City's business applications have moved to the Cloud over the past 10 years, resulting in cost savings and increased efficiencies for City departments. This trend has also caused an exponential increase in the complexity of data integration and decision support tools. The City has not added staff or technology to deal with this complexity. Executive dashboards and decision support requires significant manual effort to integrate database & application outside of the City network.

## **CENTRAL SERVICES DEPARTMENT SERVICE LEVEL REDUCTIONS:**

Administration – Staff is proposing that this Department be consolidated into the Finance and Public Works Department and the Department Head position eliminated.

Central Stores and Courier Service – Eliminated one warehouse worker position resulting in the following service level reductions:

- Receiving hours reduced to four days a week
- Deliveries to customers reduced from five to two days a week
- Customer hours reduced by five hours a week
- Surplus pickup/drop off times reduced to three hours a week

Purchasing – Eliminated one buyer position resulting in the following service level reductions:

- Average turnaround time to process purchase requests has increased from 3 days to 5 days
- Citywide training on purchasing processes not conducted on a regular basis
- Minimal vendor outreach efforts

Building Maintenance – Eliminated three building maintenance positions resulting in the following service level reductions:

- Longer wait times for service requests
- Same day / next day service limited to urgent and emergency requests only

Custodial – Eliminated twelve custodial positions and offset with contract services. This division is currently understaffed resulting in the following service level reductions:

- Buildings not cleaned at the same high level they once where
- Floor care/maintenance was deferred for a few years and is now performed only on an annual basis
- Many non-public spaces now cleaned on a reduced schedule

### CITY LONG TERM OBLIGATIONS AND POLICIES:

The City's long term obligations include PERS, Retiree Health (OPEB), and deferred maintenance (CIP Rehab and Street Maintenance). Each of those areas is discussed below;

**PERS** - While the City continues to pay its PERS obligations as required, those costs continue to increase. As noted earlier in this memorandum, the City's ability to control those costs going forward will be decided by the Court system. To date the City has implemented all of the options currently available to control those obligations. However, even with those changes, PERS costs are expected to grow. Over the next 5 years those increase will total \$10-\$15 million adding additional burden to the General Fund and requiring additional service level reductions. The following chart shows the City's expected future payments increasing based on CalPERS projections.

Costs for the employee pension plan are related to the:

- Particular retirement plans the City participates in,
- Annual contribution made by the City and the employees, and
- Returns experienced in the stock market.

The latest actuarial report identifies a \$221 million unfunded liability for "miscellaneous" (non-public safety) employees and a \$102 million unfunded liability for public safety employees for a total of \$323 million. The annual payment to PERS for pension costs is calculated by PERS and sent to its member agencies. As has been the case in previous years, the FY2018-19 proposed budget will fully fund the payment due to PERS for the fiscal year. Looking forward, in order to reduce, and ultimately eliminate, the unfunded liabilities that cities currently have, PERS has developed an accelerated payment plan that is expected to

eliminate the unfunded liability in approximately 25 years. The actions taken by PERS to correct the unfunded liability will result in cities being required to fund higher annual costs as PERS recalculates the requirements each year. As an example, the increased cost for the City of Roseville for FY2018-19 totals \$1.9 million, which includes \$1.1 million for the General Fund.

**Retiree Health or “Other Post-Employment Benefits (OPEB)”** - Costs for those employees who will receive City funded retiree health benefits are continuing to grow as healthcare premiums and Medicare costs increase. In an effort to reduce the City’s long term obligations, the Council, along with our labor groups, have revised their retiree health program for employees hired after 2013. These new employees are required to contribute into a Retirement Health Savings account that can be used for future medical, dental, and vision expenses after retirement. These expenses will now be funded by the retiree as opposed to the City.

To provide long-term sustainability for retiree medical expenses, the City created an OPEB trust in February 2011 with an initial contribution of \$34 million. Since that time, the City has been committed to funding this obligation by directing a certain percentage of annual salary costs to the fund. That percentage had been about three percent of total salary for the General Fund for several years. Since the current required payment to meet a fully funded status is approximately eight percent of salary, a new policy has been put in place to increase the funding of this obligation each year. Beginning in FY2016-17, the Council-adopted policy directs the annual General Fund payment to the trust to increase by one percent of salary each year until the annual funding level is equal to the actuarially determined contribution (ADC, formerly known as the annual required contribution (ARC)).

As discussed earlier, to reduce the City’s long term obligations, it eliminated this benefit for new employees hired after 2013. However the latest available actuarial report as of June 30, 2017, for those employees who receive this benefit, shows a total Actuarial Accrued Liability (AAL) of \$215 million. Taking into account the OPEB trust fund balance of \$71 million invested to fund this liability, the City has a citywide total unfunded liability of \$144 million. The General Fund portion of the unfunded liability is approximately \$95 million. The proposed FY2018-19 budget will fund \$13.8 million toward this liability.

**Deferred Maintenance** - Although the City’s General Fund budget is balanced for FY2018-19, it does not address all of our long-term liabilities, it does not provide the funding necessary to maintain City assets such as playgrounds, police and fire stations, libraries, roadways, or IT infrastructure. In the three expense areas of CIP rehab (capital-improvement plan and rehabilitation of assets), road maintenance, and OPEB (other post-employment benefits such as retiree healthcare), if the City were to fully fund its long-term liabilities and the deferred maintenance that occurred since the recession, the budget would be upside down by almost \$14 million per year. As a result of the slowing revenue growth, we’re continuing to look for ways to close this gap, including reducing expenses, bringing in additional revenues, and changing service levels.

In an effort to balance the budget during the recession, several categories of operating expenses were underfunded. As the economy has improved, City Council has made significant progress towards reversing this trend and attaining long-term fiscal soundness. As a result, the City has successfully implemented several long-term solutions. Among these solutions is the policy to fully fund the Workers’ Compensation internal service fund (ISF), the Vehicle Replacement ISF, the General Liability ISF, and the Litigation Reserve Fund. The City Council has also implemented policies to annually increase funding for OPEB and the General Fund Capital Improvement Plan Rehabilitation program until they are fully funded.

**Capital Improvement Plan (CIP) and Rehabilitation of Assets** - Costs for infrastructure maintenance and replacement is increasing in all areas— from building maintenance to technology to capital improvements and rehabilitation. The 10-year capital improvement plan has identified approximately \$56 million of underfunded needs or about \$5.6 million per year. For several years the General Fund had been funding about \$1 million per year when the actual funding level should have been closer to \$5 million. This has resulted in deferred maintenance occurring throughout the City. The adopted FY2017-18 budget funded \$1.5 million of deferred maintenance, plus an additional \$4 million was later invested into high priority deferred maintenance, such as two new Jaws of Life for the Fire Department, funded by FY2016-17 year-end budget savings. In alignment with Council policy, the proposed FY2018-19 budget will increase this funding level to \$2 million, an increase of \$500,000. Future budgets will continue to increase this funding by \$500,000 per year until fully funded. This increase in funding will reduce the amount of General Funds available for services further reducing service levels.

**Streets and Roadways** - Funding challenges for roadway infrastructure have caused the City to fall behind on its maintenance schedule for streets. The passing of SB1 by the State Legislature in April 2017 is enhancing our ability to maintain our roadways but doesn't completely close the gap. Prior to SB1, roadway maintenance was \$50 million underfunded. SB1 closed about half of the funding gap bringing the maintenance funding deficit down to about \$25 million.

The gas tax is the primary funding source for streets and roadways. Gas tax rates, accrued on a per-gallon basis, were developed without an adjustment for inflation, minimizing their purchasing power with every year that passes. Gas tax revenues have also fallen due to more fuel-efficient and electric vehicles being on the road, reducing the demand for gasoline. The City has identified an average, annual ongoing need of \$9- 10 million per year. The City annually funds \$6.5 to \$7.5 million per year from Gas Tax, Local Transportation, Utility Impact Reimbursement, SB1, and Federal Regional Surface Transportation program funds, leaving a shortfall of \$2.5 million per year, or \$25 million over the next 10 years. It will be determined by the voters later this year whether SB1 remains in place. If it is rejected by the voters, we will fall even further behind in our road maintenance.

## Summary

As noted above, over the past ten years the City has made considerable efforts to reduce costs while maintaining services. In addition to the Departments noted in this report, all administrative departments have reduced staffing and operating budgets as well. Recent Department audits found that all of the departments were operating efficiently and at capacity. As such, there is no capacity to further reduce service levels without significantly impacting the community. This was apparent in FY17 where the Council reduced library hours to balance the budget. Absent a positive change in revenues, continued reductions with increasing impacts on the community are expected to continue. The information gathered through the EngageRoseville process will be used as a guide to prioritize what services remain, however, as noted through that process, every service is important to someone. Based on current trends, it is expected that the City would need to reduce service levels by \$2-3 million dollars annually.

**4.22.010     Short title.**

This chapter shall be known as the City of Roseville transactions and use tax ordinance.

**4.22.020     Purpose.**

Pursuant to the requirements of the California Department of Tax and Fee Administration, this chapter is adopted to achieve the following, among other purposes, and directs that the provisions of this chapter be interpreted in order to accomplish those purposes:

A.     To impose a retail transactions and use tax to be applied throughout the entire territory of the city to the fullest extent permitted by law and in accordance with the provisions of Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code and Section 7285.9 of Part 1.7 of Division 2 of the Revenue and Taxation Code, which authorizes the city to adopt this chapter if a majority of the electors voting on the measure vote to approve the imposition of the tax at an election called for that purpose.

B.     To adopt a retail transactions and use tax ordinance that incorporates provisions

identical to those of the sales and use tax law of the State of California insofar as those provisions are not inconsistent with the requirements and limitations contained in Part 1.6 of Division 2 of the Revenue and Taxation Code.

C. To adopt a retail transactions and use tax ordinance that imposes a tax and provides a measure therefor that can be administered and collected by the California Department of Tax and Fee Administration in a manner that adapts itself as fully as practicable to, and requires the least possible deviation from, the existing statutory and administrative procedures followed by the California Department of Tax and Fee Administration in administering and collecting the California State sales and use taxes.

D. To adopt a retail transactions and use tax ordinance that can be administered in a manner that will be, to the greatest degree possible, consistent with the provisions of Part 1.6 of Division 2 of the Revenue and Taxation Code, minimize the cost of collecting the transactions and use taxes, and at the same time, minimize the burden of record keeping upon persons subject to taxation under the provisions of this chapter.

E. To provide transactions and use tax revenue to the city to be used to fund city services including, but not limited to: maintaining neighborhood police patrols, fire protection, 911 emergency response times, maintaining crime suppression and investigation, city streets and pothole repair, parks and recreation, job creation and economic improvement programs, senior and youth services, and with any transactions and use tax revenue received being placed into the city's general fund.

F. To provide transaction and use tax revenue to the city that can be spent for unrestricted general revenue purposes.

**4.22.030      Operative date.**

This chapter shall be operative on the first day of the first calendar quarter commencing at least one hundred and ten (110) days after the adoption of the ordinance codified in this chapter by vote of the electorate on November 6, 2018. Based on a November 6, 2018 election, the operative date for the general transactions and use tax imposed hereunder shall be April 1, 2019 (“operative date”).

**4.22.040      Contract with state.**

Prior to the operative date, the city shall contract with the California Department of Tax and Fee Administration to perform all functions incident to the administration and operation of this transactions and use tax ordinance; provided, that if the city shall not have contracted with the California Department of Tax and Fee Administration prior to the operative date, it shall nevertheless so contract and in such a case the operative date shall be the first day of the first calendar quarter following the execution of such contract.

**4.22.050      Transactions and sales tax rate.**

For the privilege of selling tangible personal property at retail, a tax is hereby imposed upon all retailers in the incorporated territory of the city at the rate of one-half of one percent (0.50%) of the gross receipts of any retailers for the sale of all tangible personal property sold at retail in said territory on and after the operative date of this chapter.

**4.22.060 Place of sale.**

For the purposes of this chapter, all retail sales are consummated at the place of business of the retailer unless the tangible personal property sold is delivered by the retailer, or his or her agent, to an out-of-state destination or to a common carrier for delivery to an out-of-state destination. The gross receipts from such sales shall include delivery charges, when such charges are subject to the state sales and use tax, regardless of the place to which delivery is made. In the event a retailer has no permanent place of business in the state, or has more than one place of business, the place or places at which the retail sales are consummated shall be determined under rules and regulations to be prescribed and adopted by the California Department of Tax and Fee Administration.

**4.22.070 Use tax rate.**

An excise tax is hereby imposed on the storage, use, or other consumption in the city of tangible personal property purchased from any retailer on and after the operative date of this chapter for storage, use, or other consumption in said territory at the rate of one-half of one percent (0.50%) of the sales price of the property. The sales price shall include delivery charges when such charges are subject to state sales or use tax regardless of the place to which delivery is made.

**4.22.080 Adoption of provisions of state law.**

Except as otherwise provided in this chapter and except insofar as they are inconsistent with the provisions of Part 1.6 of Division 2 of the Revenue and Taxation Code, all of the

provisions of Part 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation Code are hereby adopted and made a part of this chapter as though fully set forth herein.

**4.22.090      Limitation on adoption of state law and collection of use taxes.**

In adopting the provisions of Part 1 of Division 2 of the Revenue and Taxation Code:

A.      Wherever the State of California is named or referred to as the taxing agency, the name of this city shall be substituted. The substitution, however, shall not be made when:

1.      The word “state” is used as a part of the title of the State Controller, State Treasurer, State Board of Control, California Department of Tax and Fee Administration, State Treasury, or the Constitution of the State of California.

2.      The result of that substitution would require action to be taken by or against this city or any agency, officer, or employee thereof rather than by or against the California Department of Tax and Fee Administration, in performing the functions incident to the administration or operation of this chapter.

3.      In those sections, including, but not necessarily limited to, sections referring to the exterior boundaries of the State of California, where the result of the substitution would be to:

a.      Provide an exemption from this tax with respect to certain sales, storage, use or other consumption of tangible personal property which would not otherwise be exempt from this tax while such sales, storage, use or other consumption remain subject to tax by the state under the provisions of Part 1 of Division 2 of the Revenue and Taxation Code; or

b. Impose this tax with respect to certain sales, storage, use or other consumption of tangible personal property which would not be subject to tax by the state under the said provision of that code.

4. In Sections 6701, 6702 (except in the last sentence thereof), 6711, 6715, 6737, 6797 or 6828 of the Revenue and Taxation Code.

B. The word “city” shall be substituted for the word “state” in the phrase “retailer engaged in business in this state” in Section 6203 and in the definition of that phrase in Section 6203 of the Revenue and Taxation Code.

**4.22.100 Permit not required.**

If a seller’s permit has been issued to a retailer under Section 6067 of the Revenue and Taxation Code, an additional seller’s permit shall not be required by this chapter.

**4.22.110 Exemptions and exclusions.**

A. There shall be excluded from the measure of the transactions and the use tax the amount of any sales tax or use tax imposed by the State of California or by any city, city and county, or county pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law or the amount of any state-administered transactions or use tax.

B. There are exempted from the computation of the amount of transactions tax the gross receipts from:

1. Sales of tangible personal property, other than fuel or petroleum products, to operators of aircraft to be used or consumed principally outside the county in which the sale is made and directly and exclusively in the use of such aircraft as common carriers of persons or

property under the authority of the laws of this state, the United States, or any foreign government.

2. Sales of property to be used outside the city which is shipped to a point outside the city, pursuant to the contract of sale, by delivery to such point by the retailer or his or her agent, or by delivery by the retailer to a carrier for shipment to a consignee at such point. For the purposes of this paragraph, delivery to a point outside the city shall be satisfied:

a. With respect to vehicles (other than commercial vehicles) subject to registration pursuant to Chapter 1 (commencing with Section 4000) of Division 3 of the Vehicle Code, aircraft licensed in compliance with Section 21411 of the Public Utilities Code, and undocumented vessels registered under Division 3.5 (commencing with Section 9840) of the Vehicle Code by registration to an out-of-city address and by a declaration under penalty of perjury, signed by the buyer, stating that such address is, in fact, his or her principal place of residence; and

b. With respect to commercial vehicles, by registration to a place of business out-of-city and declaration under penalty of perjury, signed by the buyer, that the vehicle will be operated from that address.

3. The sale of tangible personal property if the seller is obligated to furnish the property for a fixed price pursuant to a contract entered into prior to the operative date of the ordinance codified in this chapter.

4. A lease of tangible personal property which is a continuing sale of such property, for any period of time for which the lessor is obligated to lease the property for an amount fixed by the lease prior to the operative date of the ordinance codified in this chapter.

5. For the purposes of subsections (B)(3) and (B)(4) of this section, the sale or lease of tangible personal property shall be deemed not to be obligated pursuant to a contract or lease for any period of time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not such right is exercised.

C. There are exempted from the use tax imposed by this chapter, the storage, use or other consumption in this city of tangible personal property:

1. The gross receipts from the sale of which have been subject to a transactions tax under any state-administered transactions and use tax ordinance.

2. Other than fuel or petroleum products purchased by operators of aircraft and used or consumed by such operators directly and exclusively in the use of such aircraft as common carriers of persons or property for hire or compensation under a certificate of public convenience and necessity issued pursuant to the laws of this state, the United States, or any foreign government. This exemption is in addition to the exemptions provided in Sections 6366 and 6366.1 of the Revenue and Taxation Code of the State of California.

3. If the purchaser is obligated to purchase the property for a fixed price pursuant to a contract entered into prior to the operative date of this chapter.

4. If the possession of, or the exercise of any right or power over, the tangible personal property arises under a lease which is a continuing purchase of such property for any period of time for which the lessee is obligated to lease the property for an amount fixed by a lease prior to the operative date of this chapter.

5. For the purposes of subsections (C)(3) and (C)(4) of this section, storage, use, or other consumption, or possession of, or exercise of any right or power over, tangible personal property shall be deemed not to be obligated pursuant to a contract or lease for any period of

time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not such right is exercised.

6. Except as provided in subsection (C)(7) of this section, a retailer engaged in business in the city shall not be required to collect use tax from the purchaser of tangible personal property, unless the retailer ships or delivers the property into the city or participates within the city in making the sale of the property, including, but not limited to, soliciting or receiving the order, either directly or indirectly, at a place of business of the retailer in the city or through any representative, agent, canvasser, solicitor, subsidiary, or person in the city under the authority of the retailer.

7. “A retailer engaged in business in the city” shall also include any retailer of any of the following: vehicles subject to registration pursuant to Chapter 1 (commencing with Section 4000) of Division 3 of the Vehicle Code, aircraft licensed in compliance with Section 21411 of the Public Utilities Code, or undocumented vessels registered under Division 3.5 (commencing with Section 9840) of the Vehicle Code. That retailer shall be required to collect use tax from any purchaser who registers or licenses the vehicle, vessel, or aircraft at an address in the city.

D. Any person subject to use tax under this chapter may credit against that tax any transactions tax or reimbursement for transactions tax paid to a district imposing, or retailer liable for a transactions tax pursuant to Part 1.6 of Division 2 of the Revenue and Taxation Code with respect to the sale to the person of the property the storage, use or other consumption of which is subject to the use tax.

E. Nothing in this chapter shall be construed as imposing a tax upon any person or service when the imposition of such tax upon such person or service would be in violation of a

federal or state statute, the Constitution of the United States, or the Constitution of the State of California.

**4.22.120 Amendments.**

A. All amendments subsequent to the effective date of this chapter to Part 1 of Division 2 of the Revenue and Taxation Code relating to sales and use taxes and which are not inconsistent with Part 1.6 and Part 1.7 of Division 2 of the Revenue and Taxation Code, and all amendments to Part 1.6 and Part 1.7 of Division 2 of the Revenue and Taxation Code, shall automatically become a part of this chapter, provided however, that no such amendment shall operate so as to affect the rate of tax imposed by this chapter.

B. The city council may amend this chapter without voter approval to make minor technical adjustments consistent with the purposes set forth in this chapter and applicable laws or as necessary to comply with the law.

C. Notwithstanding any provision to the contrary, any proposed change to the tax rate imposed under this chapter shall be submitted to the vote of the people.

**4.22.130 Enjoining collection forbidden.**

No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action, or proceeding in any court against the state or the city, or against any officer of the state or the city, to prevent or enjoin the collection under this chapter, or Part 1.6 of Division 2 of the Revenue and Taxation Code, of any tax or any amount of tax required to be collected.

#### **4.22.140 Independent annual audit.**

The proceeds resulting from this transactions and use tax shall be deposited into the city's general fund and become subject to the same independent annual audit requirements as other general fund revenue. The independent auditor's report, which shall include an accounting of the revenues received and expenditures made from the transactions and use tax, will be presented annually to the city council and made available for public review.

#### **4.22.150 Citizens' oversight committee.**

Although not otherwise required by law, the city council shall, by resolution adopted before the operative date of this chapter, establish a citizens' oversight committee to review the revenue and expenditure of funds from the tax adopted by this chapter. The members' terms and qualifications, and duties and scope of the committee, shall be as established by the resolution.

SECTION 2. This Ordinance relates to the levying and collecting of the City transactions and use tax and, pursuant to California Elections Code Section 9217, shall be in full force and effect ten (10) days after the certification by the City Council of the election returns indicating passage of the Ordinance by the voters casting votes in the election. However, the collection of the transaction and use tax shall be in accordance with Section 4.22.030 of the Roseville Municipal Code as the operative date.

SECTION 3. If any section, subsection, subdivision, sentence, clause, phrase, or portion of this Ordinance, is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining

portions of this Ordinance. The People of the City of Roseville hereby declare that they would have adopted this Ordinance, and each section, subsection, subdivision, sentence, clause, phrase, or portion thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, sentences, clauses, phrases, or portions thereof be declared invalid or unconstitutional.

SECTION 4. The City Clerk is hereby directed to publish a synopsis of the measure in accordance with California Elections Code section 12111 at least one time not later than one week before the election in a newspaper of general circulation in the city. The City Clerk is further directed to cause this Ordinance to be published in full at least once within fourteen (14) days after approval by the voters in a newspaper of general circulation in the city.

I hereby certify that the foregoing Ordinance was approved by the voters of the City of Roseville by a vote of \_\_\_\_\_ at a General Municipal Election on the 6<sup>th</sup> day of November, 2018 and by the City Council of the City of Roseville at a regular general meeting of the Council held on June 6, 2018 by the following vote:

AYES:

NOES:

ABSENT:

\_\_\_\_\_  
MAYOR

ATTEST:

## COUNCIL COMMUNICATION

**CC #: 9295**

**File #: 0800-06 & 0215-06**

**Title:** Transportation Capital Improvement Program / Traffic Mitigation Fee Update

**Contact:** Chris Kraft 916-774-5373 ckraft@rosville.ca.us  
Mark Johnson 916-774-5481 mjohnson@rosville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 8.2.**

### RECOMMENDATION TO COUNCIL

Staff recommends that the City Council take the following actions:

- A. Introduce for first reading the attached ordinance amending Chapter 4.44 of the Roseville Municipal Code entitled Traffic Mitigation Fee.
- B. Adopt a resolution to approve the Transportation System Capital Improvement Program and Traffic Mitigation Fee update.

### BACKGROUND

Approximately every five years, or as major development projects are approved, City Staff updates the City's Transportation System Capital Improvement Program (CIP) and associated Traffic Mitigation Fees (TMF). This update reflects actual development levels, actual project costs for completed projects, and best available estimates for all remaining undeveloped land uses and projects. The last comprehensive update occurred in 2015.

The City's CIP and associated fee program provides a fair share cost of the necessary improvements to mitigate traffic impacts resulting from new development. The CIP and the resulting TMF is the result of a complex equation consisting of: build-out conditions within the City with approved land uses; anticipated growth within the region to the horizon year (2035 for this update); the identification of nearly 400 roadway, intersection and signal projects needed to mitigate future traffic demands; a nexus calculation of each fee area's use of the roadways based on the City's travel demand model; tracking of fees paid, specific plan contributions, developer reimbursements, and credits for work already completed; and other sources of revenue to the program such as state and federal funds. The mitigation fees can be simplified in terms of the total project costs divided by the total Dwelling Unit Equivalents (DUE's). As DUE's and project costs fluctuate, the associated fees are adjusted to reflect the changes. Payment of the TMF's at time of building permit issuance serves as the CEQA mitigation for traffic impacts caused by development projects.

This proposed CIP/TMF update amends portions of the Roseville Municipal Code Chapter 4.44, entitled Traffic Mitigation Fee. This update follows the approval of the Amoruso Ranch Specific Plan in 2015, but does not include the Amoruso Ranch Specific Plan pending its annexation into the City.

Staff spent a considerable effort refining the scope and estimated construction cost of each CIP project. This was done with the assistance of several outside consultants, other City departments, and developer information to ensure that the resulting fees are as accurate as possible. Several large projects including the Andora Underpass, Taylor Road Extension, Blue Oaks Bridge and the Roseville Parkway Extension had significant adjustments. As a result of better defined CIP projects and more refined cost estimating, the overall CIP budget is increasing by 14%, from \$442 million to \$503 million.

One of the objectives with this CIP update was to balance the rising cost of the infill fee. Several nexus based iterations to adjust the methodology of fair share costs of the program were assessed. After exhaustive review and discussions with our consultant, management team, and the development community, staff recommends a consolidation of those fee districts no longer subject to Development Agreements into a broader “infill” fee district. This broader infill district consolidates the remaining cost obligations across the remaining DUE’s within the district, resulting in a more uniform fee throughout the City. Exhibit A depicts the resulting fee districts. The technical report and nexus study that supports the changes to the program entitled Transportation System Capital Improvement Program Traffic Mitigation Fee Update, dated May, 2018 is included as Attachment A.

Overall, the average proposed City TMF as compared to the existing average fee increases by 41%, which is roughly equivalent to the historic city average, with several fee districts experiencing fee decreases, including the historic infill fee district that is decreasing by 25%, and others experiencing increases that fluctuate depending on location and how much they use particular high valued projects. When compared to other local jurisdictions, the proposed average City fee is half of the average regional fee. The resulting proposed fees for all fee districts, a comparison of average historical City fees, and average fees from other jurisdictions is shown on Exhibit B.

The update accomplishes the following;

- Refines the scope of individual CIP projects: in consultation with outside consultants, the City’s Public Works Department, and reference to Specific Plan requirements, staff identified the improvement requirements of each of the remaining CIP projects.
- Updates individual project cost estimates: cost estimate updates included a collaborative effort with outside consultants, the City’s Public Works Department, and actual construction costs of recent projects to more accurately estimate overall project costs.
- Consolidates Fee Districts: this update consolidates those fee districts with minimal remaining DUE’s that are no longer subject to active Development Agreements into the “Infill” fee district. This redefinition of the infill fee district consolidates the fair share obligation of the remaining projects within the district to stabilize fees throughout the City.
- Maintains Level of Service Policy: the update maintains the Council’s commitment to the General Plan traffic level-of-service (LOS) policy, which is to maintain LOS C during the p.m. peak hour at a minimum of 70% of our signalized intersections.
- Supports the following City Council Goals;
  - o Public Safety – by providing safe and consistent roadways that minimize congestion and maximize efficiencies;

- o Fiscal Soundness – by adjusting project costs to ensure that sufficient monies are collected for future roadway construction, this update provides for a fully funded CIP, without reliance on General Fund or other outside dollars;
- o Economic Development – by constructing roadway capacity projects that facilitate the free flow of goods and services, and;
- o A Great Downtown – by stabilizing the historical infill fee, the update encourages investment into the downtown areas.

Public Outreach – Staff presented this update to the BIA and in a Stakeholders Group/Public Workshop on several occasions. Both the BIA and the Stakeholders group were satisfied with the results, the vast majority of which offer their support for this final update. Staff also reached out to the Chamber of Commerce, who declined to receive a presentation.

If approved, the updated Traffic Mitigation Fees would become effective on September 1, 2018.

### FISCAL IMPACT

There will be no fiscal impact to the City's general fund by the proposed action. Adoption of this update will provide the City with the fiscal means to fund needed roadway improvements.

### ECONOMIC DEVELOPMENT / JOBS CREATED

No jobs will be provided by this action. However, jobs will be created when contracts are let for consultant services and construction services for CIP projects.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) requires that the road and intersection improvements called for in the Transportation System Capital Improvement Program Update be evaluated for environmental impact. The Amoruso Ranch Specific Plan EIR contained a city-wide transportation system intersection level of service and policy analysis that updated the City's travel demand model to a horizon year of 2035. The Environmental Impact Report (EIR) was certified on August 2016 and serves as the basis for this CIP/TMF update. No further CEQA action is required at this time.

Respectfully Submitted,

Chris Kraft, Engineering Manager

Mike Isom, Acting Development Services Director

---

Dominick Casey, Acting City Manager

## Introduction

The City of Roseville updates its Capital Improvement Program (CIP) and associated Traffic Mitigation Fee (TMF) periodically to respond to changing conditions, and to assure that adequate fees are collected to support the transportation infrastructure improvement costs necessary to mitigate the traffic impacts resulting from the build-out and construction of new and existing development projects within the City. This developer mitigation program ensures that the City's obligations and responsibility, as assumed in the mitigation program, established by City Ordinance in 1989, are being met and that the program is fully funded.

This memorandum documents the technical analysis for the City's CIP update. The resulting proposed updated fees are summarized in **Table 1**.

Similar to previous CIP updates, the basic fee structure and fee allocation methodology for future TMF's has remained the same. However, beginning with this update, the designation of the "infill" fee district has been expanded to include those fee districts that have little remaining growth potential and no longer have active Development Agreements associated with them. The update utilizes the Council approved 2035 CIP Travel Demand Model as a basis of revised land use forecasts for the City and the region.

This CIP update involves the following:

- Compiling a comprehensive and updated CIP project list that supports the 2035 CIP Travel Demand Model and project specific Environmental Impact Reports for each new growth area, which incorporates roadway, intersection, and signal improvements identified as mitigation measures.
- Updated the list of completed projects and actual costs for CIP improvements constructed since the 2015 update and updated construction cost estimates for all CIP improvements yet to be constructed.
- Updating the remaining "dwelling unit equivalences" (DUEs) and base year development assumptions for projects yet to be developed.
- Expansion of the Infill fee district to include all surrounding districts that are nearly built out and/or no longer have active Development Agreements with the City
- Fair-Share Nexus Calculations, Select link analysis – Nexus Study to determine each districts percent share of the total CIP projects.
- Fee Calculation – Update Nexus based fee schedule.
- Assessment of a near term (five-year) sensitivity and cost/benefit analysis to determine highest value CIP projects and best TMF investment.

## Development of the CIP Project List

The roadway and intersection improvement lists within the CIP Update are based on the build-out of the current 2035 CIP travel demand model. The identified improvements have been sized to accommodate the future build-out scenario, and to meet the objectives of the City's General Plan which states that 70% of the signalized intersections within the City will operate at a level of service of C or better in both the AM and PM peak hours of operation. The project list is adjusted for new project infrastructure as well as feasible mitigations to existing facilities as a result of land use changes and new projects.

## Updating CIP Project Costs

The total cost of the CIP improvements within the project list are updated. Actual costs of completed CIP projects are recorded as a fixed number. This includes projects that the City's Public Works Department has completed as well as reimbursements to developers who have completed portions of the project list improvements. The remaining unconstructed project cost estimates have been updated to reflect current construction costs. Combined, these two project cost components make up the total obligation and cost of the CIP.

## Base Year Development Assumptions

The analysis begins with a "base" month/year development scenario. This snapshot in time includes all projects that have been issued building permits as complete, as they have already paid their TMF. Build-out assumptions of the 2035 travel demand model are updated to reflect all approved developments. **Table 2** shows the DUE (dwelling unit equivalency) rates for all of the land use categories in the travel demand model. **Table 3** shows the base year (July 2016) and future year (2035) DUE totals by fee district.

## Expansion of Infill Fee District

The Infill fee district has traditionally represented the extents of development within the City of Roseville when the fee program was first implemented in 1989. Additional fee districts have been added to the program as new plan areas were adopted. Over time, the cumulative traffic impacts of these additional plan areas resulted in the need for additional roadway capacity improvements in or adjacent to the historic Infill district to maintain the City's Level of Service Policy. Due to inherent constraints within the Infill fee district such as existing structures, limited right of way, railyards, interstate interchanges and creek crossings, many of the new capacity improvements became high cost construction projects. This has resulted in a steadily increasing fee/DUE for development within the Infill district.

In 2010, the City began offsetting Infill fees by applying outside funding (grant funds) to reduce the Infill fair share obligation in an attempt to keep the Infill fees at a reasonable level and inline with the other fee districts. However, as development and inflation continue, the number of remaining DUE's in the Infill district are reduced as the estimated project costs increase over time causing the fee/DUE to continue to escalate despite application of the available offsets. DKS was tasked to research additional methods of managing the escalating Infill fees.

A number of fee districts adjacent to the traditional Infill district are now largely built out and no longer have active Development Agreements with the City. Identifying these older fee districts as part of the combined infill fee district stabilizes fees throughout the City. As a result of an expanded infill area, new development within that area shares the burden of the remaining projects more equitably. This achieves the goal of managing the infill fee while maintaining a fair share nexus-based fee program. Previous fee districts being consolidated into the newly combined Infill district include the following:

- Infill/ Redevelopment
- Del Webb
- Highland Reserve North
- North Central
- Northeast
- North Roseville – Phase 1
- Northwest
- Southeast
- Stoneridge (East and West)

The revised methodologies decrease the current city-wide minimum Traffic Mitigation fee from \$1,458 to \$1,022 and the expanded Infill district fee decreases to \$4,865 per dwelling unit equivalent.

## Fair-Share Nexus Calculations – Select Link Analysis

The fee program provides an equitable means of assessing construction costs and fair-share contributions for roadway improvements identified in the 2035 travel demand model, which supports the City's General Plan policies. Additionally, it serves as a mitigation program for development project impacts, allowing development to occur without specifically requiring high-cost roadway improvements on or off-site, but rather, by paying a fair-share mitigation fee. In turn, the City takes on the obligation and responsibility to ensure that the necessary improvements are constructed in a timely manner. The fee allocation process is designed to draw a clear nexus between the usage of a new or improved roadway/intersection and the traffic demand created by new development within the City. The fees are calculated on a "district" basis and are differentiated by land use and type of development in relationship to their relative traffic impacts.

As shown in **Figure 1**, the City is divided into 6 plan areas. Some of these plan areas are further divided into subareas for a total of 9 "fee districts". Fees are distributed equitably based on the use of each roadway and intersection in the CIP project list. **Figure 2** shows the locations of all intersection and roadway

projects in the CIP, some of these improvements have been completed and are included in the CIP as actual costs and the yet to be constructed improvements are included as estimated costs. **Figure 3** shows the resultant fees per DUE by district and how they compare to current fees as of July 2017.

The City's 2035 travel demand model uses a "select link" analysis to determine the fair share cost allocation to each Fee District for each roadway, intersection, and signal project identified in the CIP project list. This process determines the origin and destination of each vehicle trip utilizing a particular model network link. The capacity needs of the roadways and intersections are based on PM peak hour traffic volumes, therefore origins and destinations of PM peak hour trips (as opposed to daily trips) are used to determine who benefits from each improvement in the allocation process.

For roadway projects, volumes on each directional link of the selected link are included. For intersection and signal projects, all directional links entering the intersection are included. The select link process not only summarizes the vehicles on selected links traveling to or from each Fee District, but also summarizes vehicles traveling to or from outside of the City of Roseville. In addition, because growth in each Fee District should not be accountable for existing volume already on City roadways, existing volumes are excluded from the fee obligation of the Fee Districts.

Regional growth outside of the City influences traffic impacts within the City. This regional growth is outside the review and jurisdiction of City and therefore the CIP does not assess a mitigation fee to projects beyond City control. As a result the CIP addresses regional traffic demands as "thru trips" (that have both ends of the trip outside the City) and as a cost responsibility of future growth within the City. The following procedures were used to allocate fees based on the estimated percentage of use:

- The **growth** in "through trips" using a roadway or intersection in the project list was allocated to a plan area based on the percentage use of the project by that plan area, including trips from both existing and new developments.
- The **growth** in local trips (those having at least one end of the trip within the City) was allocated to a plan area based on the percentage use of a project by new development only.

Each Fee District is therefore responsible for its fair share of growth on City roadways and intersections based on the following equations:

- 100% of vehicle growth where trip begins and ends in Fee District
- 100% of vehicle growth where one trip end is within the Fee District and the other trip end is outside the City of Roseville
- 50% of vehicle growth where one trip end is within the Fee District and the other end of the trip is in another Roseville Fee District
- 0% of "through" traffic neither beginning nor ending within the City of Roseville
- 0% of vehicles on project attributed to existing City of Roseville development

Fair share calculations are summarized for each roadway, intersection, and signal project in **Table 9**, **Table 10**, and **Table 11**, respectively. These three tables show the percent use of each project and also include the percentage of traffic attributed to through trips and existing development in the City. In these tables, projects are sorted by CIP cost of project, from highest to lowest.

## Fee Calculation Methodology

The fee estimation model contains three general sections; Funding Obligations, Funding Contributions, and Fee Calculations. **Table 4** summarizes the updated fees, as well as other key supporting data.

### Funding Obligations

**Roadway Obligation.** This is the total cost of roadway projects - allocated to each fee district for the entire program. The percentage of trips allocated to a fee district for each roadway improvement project is determined using the City's travel demand model. The appropriate proportion of the total project costs are used to identify the districts funding obligation for each roadway project in the roadway project listing. Individual roadway project costs are listed in **Table 6**.

**Intersection Obligation.** This is the total cost of intersection projects allocated to each fee district for the entire program. The percentage of trips allocated to a fee district for each intersection improvement project is estimated using the City's travel demand model. The appropriate proportion of the total intersection project cost are used to identify the fee districts funding obligation for each intersection project in the intersection project listing. Individual intersection project costs are listed in **Table 7**.

**Signals + ITS Obligation.** This is the total cost of signals plus ITS improvements and administrative costs. Unlike the allocation of roadway and intersection improvements identified above, the cost of these improvements are shared equally City-wide on a per DUE basis since they provide city-wide benefits. Individual signal and ITS project costs are listed in **Table 8**.

**Total Obligation.** This is the sum of the fee districts obligation for roadway, intersection, signal and ITS projects.

### Funding Contributions

**TMF Fees Paid.** This is the total Traffic Mitigation Fees paid by each fee district thru July 01, 2016, which corresponds with the land use data used in this update. Fees paid are applied to all projects listed in the CIP, both already constructed and future projects, based on each area's obligation to the projects.

**Construction Surcharge Paid.** This is the Total Construction Surcharge paid by each fee district through July 01, 2016. The construction surcharge represents fees that were paid as a building permit fee prior to the City's adoption of its current fee program in 1988.

**Offsets Received.** Previously, the City used discretionary funds to provide offsets to various fee districts to reduce their total obligation. The funding sources for these contributions include gas tax and State and Federal Funds. Discretionary funds are now being applied to offset the costs of large-scale regionally significant projects that benefit the City as a whole.

**Plan Area Contribution.** This reflects the cost of Capital Improvement Projects included within the Fee Program that were constructed as a condition of development of a fee district and were beyond the plan area's obligation. This advance construction is reflected as a fee credit to the individual fee district to reduce the district's funding obligation.

**Remaining Plan Area Obligation.** This is the total remaining fee district obligation and is reflective of the total obligation less TMF fees paid, construction surcharge paid, and offsets received.

### **Fee Calculations**

**Growth in DUE's.** This is the total growth in DUE's per fee district based on forecast development from July 01, 2016 through 2035. The 2016 (existing) DUE's, 2035 (future) DUE's and the growth in DUE's (future minus existing) is shown in **Table 3**. The July 01, 2016 and 2035 DUE's and the associated growth in DUEs were calculated by applying the DUE rates shown in **Table 2** to the Roseville land use estimates and forecasts shown in **Table 5**.

**Gross Fee per DUE.** This is the fee district's gross funding obligation to the CIP. It is calculated by dividing the remaining plan area obligation by the growth in DUE's.

**Final Net Fee Per DUE.** The net fee/DUE is calculated by combining the Base Fee (Total CIP Signal-ITS cost + Total CIP Extra-ordinary cost / total CIP Growth DUE's) with a district's Gross Fee/DUE (fee district Adjusted Remaining Obligation / fee district Growth DUE's). This is the fee/DUE, by district, to be paid at issuance of a building permit.

### **Project Specific Fee Calculations**

Once the net fee/DUE is established for each fee district, the actual assessed fees are calculated based on a specific project's impact to the roadway system utilizing more specific land use descriptions and Dwelling Unit Equivalency rates (DUE rates). For example, a fast food restaurant has a different roadway impact than a shopping center or most other types of retail development. Therefore a detailed DUE rate is applied. DUE rates are developed by comparing the Institute of Transportation Engineers (ITE) 9<sup>th</sup> Edition trip generation rate and trip length characteristics of various development types to those of a typical single-family dwelling unit. Peak hour trip generation rates are adjusted to discount for "pass-by" trips. Average trip lengths for the

remaining "primary" trips generated by development projects are utilized to better reflect overall impact of longer trips on the City's roadway system.

The DUE rates are thus based on estimates of the average vehicle-miles of travel (VMT) generated during the PM peak hour for each general land use type. To illustrate the functionality of DUEs, 1,000 square feet of fast food restaurant development is estimated to have on average the same peak hour impact on the City's roadway system as 5.4 single family dwelling units.

The City maintains a detailed DUE rate table that provides adequate information to define the DUE rate for most development types in the City. However, there will be special cases that will require professional judgments and/or collection of new data. For such cases the City staff would determine the appropriate DUE rates based on available data and/or acceptable data provided by a developer. In rare cases where no data is available and can't be collected, fees may be charged based on more general land use categories such as retail, Office, industrial, etc.

District-based fair share percentage calculations for each roadway and intersection project are summarized in **Table 9** and **Table 10**, respectively.

District-based percentage of roadway and intersection costs allocated to each district are summarized in **Table 11** and **Table 12**, respectively. It should be noted that these percentages look similar to the preceeding three tables, however these tables exclude trips attributed to "through" trips not beginning or ending within the City of Roseville and also exclude trips attributed to existing development.

Resultant district-based costs allocated to each roadway and intersection project are summarized in **Table 13** and **Table 14**, respectively.

**Table 1**  
**Summary of Updated Fees**

| Plan Area                    | Roadway<br>Obligation | Intersection<br>Obligation | Signal + ITS<br>Obligation | TMF<br>Fees<br>Paid   | Plan Area<br>Contribution | Growth<br>in DUEs | Transportation<br>Mitigation Fee<br>per DUE |
|------------------------------|-----------------------|----------------------------|----------------------------|-----------------------|---------------------------|-------------------|---------------------------------------------|

## Five Year CIP Project Prioritization

In an effort to prioritize CIP roadway and intersection improvements, City staff and DKS Associates have completed a “near term” sensitivity analysis that looks approximately five years in the future to determine the roadway and intersection projects that should be prioritized within the CIP. The concept for this effort was to define the best estimate of the total amount of development and its location within the next five years, forecast the change in traffic volumes based on that development scenario, test the effectiveness of alternative roadway improvement scenarios at reducing congestion under the five-year growth scenario and recommend improvement scenarios that maximize the congestion relieving benefits for the amount of money available from fees collected in five years. City staff estimates that the City of Roseville will have approximately \$19 million in Traffic Mitigation fee funds available in the next five years to pay for near term roadway improvements.

The five-year scenario was based on land use development and roadway improvements assumed to be in place within a five-year time horizon. Land uses added to existing conditions include approximately 4,100 dwelling units, 1.7 million square feet of non-residential development, and just over 200 hotel rooms. Roadway projects assumed to be in place (some already under construction) included widening of major roadways including portions of Washington Boulevard, Blue Oaks Boulevard, Woodcreek Oaks Boulevard, and Fiddymont Road, as well as new facilities such as a roadway in the Campus Oaks development and auxiliary lanes on SR 65.

The Travel Demand Model has been utilized to estimate total PM peak hour vehicle hours of delay on roadways and at major intersections within the City of Roseville. Results show that with the addition of five year’s worth of land use and roadway improvements, total hours of PM peak hour vehicle delay would increase by approximately 18% on roadways west of I-80 and approximately 11% on roadways east of I-80.

In order to determine which projects most effectively reduce traffic delay on City roadways in the short term, City staff identified a number of roadway projects (and combinations of roadway projects) for testing purposes. Reductions in delay were ranked for these roadway projects, along with their potential capital costs. Also identified were the ten intersections Citywide with the highest total vehicular delay during the PM peak hour. Of these, feasible improvements at six intersections are identified in the City’s CIP. Reduction in delay based on these intersection improvements was also ranked, along with their capital costs.

Of the nine roadway projects tested, two rose to the top in terms of potential near term reduction in vehicle delay on City roadways. The widening of the Blue Oaks Bridge over the UPRR tracks and the extension of Roseville Parkway from Washington Boulevard to Foothills Boulevard (also crossing over the UPRR tracks) resulted in a decrease in network peak hour delay on roadways west of I-80 of 14% and 12%, respectively. No other individual projects resulted in reductions close to 10%. Preliminary cost estimates for all of the projects were prepared to assist in ranking of priority projects. The cost for the widening of the Blue Oaks bridge was estimated at approximately \$17.4 million, while the cost for the Roseville Parkway extension was estimated at approximately \$33.7 million. Cost estimates for Intersections ranged from \$139,000 to \$761,000. Based on the City’s anticipated CIP revenue of approximately \$19 million over the next five years and the fact that the Roseville Parkway extension would exceed the assumed five

year funding, a combination of the Blue Oaks bridge widening and improvements at six intersections has been identified as priority improvements over the next five years.

Results of the roadway segment costs and benefits are shown in **Figure 4**. In this figure, the lines to the left of center show reduction in delay anticipated compared to the five year base scenario, while lines to the right of center show relative cost of each project. The vertical dashed red line shows the City's anticipated five year CIP revenue and shows which projects (and combinations of projects tested) have costs that exceed the City's anticipated five year CIP revenue.

**Figure 4: Summary of Segment Improvement Costs and Benefits**

Results of the intersection costs and benefits are shown in **Figure 5**. As with the previous figure, the lines to the left of center show reduction in delay anticipated compared to the five year base scenario, while lines to the right of center show relative cost of each project.

**Figure 5: Summary of Intersection Improvement Costs and Benefits**

**Table 15** shows the costs associated with each of the recommended five-year roadway and intersection improvements identified during the Sensitivity Analysis.

**Table 15: Recommended Five-Year Roadway and Intersection Improvements**

| Project                                                      | Estimated Cost      |
|--------------------------------------------------------------|---------------------|
| Blue Oaks Blvd. Bridge Widening                              | \$17,400,000        |
| Galleria Blvd./Roseville Parkway Intersection Improvements   | \$761,000           |
| Douglas Bl. & Roseville Pkwy. Intersection Improvements      | \$584,000           |
| Foothills Bl. & Pleasant Grove Bl. Intersection Improvements | \$538,000           |
| Sunrise Av. & Cirby Way Intersection Improvements            | \$345,000           |
| Vernon St. & Cirby Way Intersection Improvements             | \$173,000           |
| Sierra College Bl. & Douglas Bl. Intersection Improvements   | \$139,000           |
| <b>Estimated Total Cost</b>                                  | <b>\$19,940,000</b> |

Source: DKS Associates, 2017

The results of this 5-year horizon study were presented to the City Council in January 2018. The discussion focused on the completion of either the Blues Oaks bridge or the Roseville Parkway extension. Council directed staff to extend the analysis to a 10-year horizon and to include an economic analysis that provides opinion on which of the two completing projects would provide more favorable overall economic growth. This study continues and will be brought back to Council for additional discussion upon completion.

ORDINANCE NO. \_\_\_\_

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS  
4.44.020 AND 4.44.050 OF CHAPTER 4.44 OF TITLE 4 OF THE ROSEVILLE MUNICIPAL  
CODE REGARDING TRAFFIC MITIGATION FEES

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 4.44.020 of Chapter 4.44 of Title 4 of the Roseville Municipal  
Code is hereby amended to read as follows:

**4.44.020 Definitions.**

The following words are defined for purposes of this chapter as follows:

- A. “Building permit” means the permit issued or required by the city for the construction of any structure pursuant to and as defined by the building code.
- B. “Capital improvement program” means that list of traffic and circulation facilities, improvements, or infrastructure for year 2005 consistent with that identified in the general plan and listed in that document entitled “Technical Report for Update of the City of Roseville’s Traffic Mitigation Fee,” dated January 3, 2005. Said capital improvement program is on file in the office of the director and the city clerk.
- C. “Department” means the department of development services.

D. “Director” means the director of the department.

E. “Dwelling unit equivalents” or “D.U.E.s” mean the number of single-family dwellings to which a particular type of development or use is equivalent in terms of expected or estimated p.m. peak hour traffic impact.

F. “Dwelling unit equivalent rates or D.U.E. rates” mean multiplication factors used to convert a particular type of development or use to dwelling unit equivalents. D.U.E. rates shall be expressed as the number of D.U.E.s per unit of a particular use.

G. “Facilities” mean those public traffic and circulation facilities, improvements or infrastructure shown and included on the capital improvement program.

H. “Improvement plan” means a site plan of property proposed for development showing all required improvements that must be approved by the city prior to the issuance of a building permit for the property.

I. “Fee” or “traffic mitigation fee” means the fee established by this chapter. The fee shall be collected prior to the approval and issuance of any building permit, or as provided otherwise in this chapter. The fee shall be used solely to finance the capital improvement program.

J. “Traffic mitigation fund” means that special interest-bearing fund established pursuant to Section 4.44.030.

K. “Study” means that certain document entitled “City of Roseville 2018~~5~~ Capital Improvement Program and Traffic Impact Fees,” dated ~~March, 2000~~[May, 2018](#). The study is on file in the offices of the director and city clerk.

L. “Infill area” means that portion of the city not within the ~~Northeast, Northcentral, Northwest, Highland Reserve North~~[Creekview, West Roseville, Sierra Vista](#), North Roseville 1, North Roseville 2 North, North Roseville 2 South, Stoneridge or Southeast Roseville specific plan areas, nor within ~~the Del Webb specific plan area or~~ the North Industrial Area.

SECTION 2. Section 4.44.050 of Chapter 4.44 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

**4.44.050 Traffic mitigation fee per dwelling unit equivalent by area.**

The traffic mitigation fee for the various areas within the city, as defined in the general plan, shall be:

| Area                                                                | Amount of Fee<br>(per D.U.E.)                  |
|---------------------------------------------------------------------|------------------------------------------------|
| Southeast Roseville Specific Plan Area <a href="#">(Infill)</a>     | <del>\$3,668.00</del> <a href="#">4,865.00</a> |
| Northeast Roseville Specific Plan Area <a href="#">(Infill)</a>     | <del>\$3,646.00</del> <a href="#">4,865.00</a> |
| North Central Roseville Specific Plan Area <a href="#">(Infill)</a> | <del>\$3,049.00</del> <a href="#">4,865.00</a> |
| Northwest Roseville Specific Plan Area <a href="#">(Infill)</a>     | <del>\$1,381.00</del> <a href="#">4,865.00</a> |
| North Industrial Plan Area                                          | <del>\$5,899.00</del> <a href="#">7,715.00</a> |
| Infill Areas                                                        | <del>\$6,110.00</del> <a href="#">4,865.00</a> |

**Area****Amount of Fee  
(per D.U.E.)**

Del Webb Specific Plan Area [\(Infill\)](#) ~~\$1,381.00~~ [4,865.00](#)

Highland Reserve North Specific Plan Area [\(Infill\)](#) ~~\$1,381.00~~ [4,865.00](#)

North Roseville Specific Plan Phase 1 [\(Infill\)](#) ~~\$1,381.00~~ [4,865.00](#)

North Roseville Specific Plan Phase 2 North ~~\$1,381.00~~ [1,022.00](#)

North Roseville Specific Plan Phase 2 South (Woodcreek  
West) ~~\$1,381.00~~ [1,022.00](#)

North Roseville Specific Plan Phase 3 ~~\$3,411.00~~ [5,864.00](#)

Stoneridge East Specific Plan Area [\(Infill\)](#) ~~\$1,381.00~~ [4,865.00](#)

Stoneridge West Specific Plan Area [\(Infill\)](#) ~~\$4,726.00~~ [4,865.00](#)

Redevelopment Area [\(Infill\)](#) ~~\$4,280.00~~ [4,865.00](#)

West Roseville Specific Plan—Fiddymment Ranch ~~\$4,306.00~~ [5,394.00](#)

West Roseville Specific Plan—Westpark ~~\$2,675.00~~ [4,595.00](#)

Sierra Vista Specific Plan (includes Westbrook) ~~\$4,451.00~~ [4,963.00](#)

Creekview Specific Plan ~~\$6,711.00~~ [8,835.00](#)

SECTION 3. This ordinance shall be effective as of September 1, 2018.

SECTION 4. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by the following vote on roll call:

RESOLUTION NO. 18-224

APPROVING THE TRANSPORTATION SYSTEM CAPITAL IMPROVEMENT PROGRAM  
AND TRAFFIC MITIGATION FEE UPDATE TO BE EFFECTIVE SEPTEMBER 1, 2018

WHEREAS, approximately every five years, staff updates the City's Transportation System Capital Improvement Program and associated Traffic Mitigation Fees; and

WHEREAS, the last update occurred in 2015, which updated the costs of constructed projects and updated the fee program; and

WHEREAS, this proposed update includes updated development levels throughout the city, updated projects and project costs, and a consolidation of certain fee districts no longer subject to Development Agreements into the "infill" fee district; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that the Transportation System Capital Improvement Program Update and Traffic Mitigation Fee Update is hereby approved and will become effective September 1, 2018.

## COUNCIL COMMUNICATION

**CC #: 9292**

**File #: 0400-04-12 & 0800-06**

**Title:** Sierra Vista Specific Plan Mitigation Fee Program Update

**Contact:** Chris Kraft 916-774-5373 ckraft@rosville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 8.3.**

### RECOMMENDATION TO COUNCIL

Staff recommends that the City Council take the following actions:

1. Introduce for first reading the attached ordinance amending Chapter 4.47 of the Roseville Municipal Code entitled Sierra Vista Specific Plan Mitigation Fee.
2. Adopt a resolution approving a form Sierra Vista Specific Plan Infrastructure Fee Program Infrastructure Fee Credit/Fee Reimbursement Agreement (Reimbursement Agreement), authorizing the Acting City Manager to execute these form Reimbursement Agreements administratively, and authorizing the City Attorney to modify the form agreement as necessary. The form of the Reimbursement Agreement is attached as Exhibit A.

### BACKGROUND

On April 20, 2011, the Council approved an Ordinance to add Chapter 4.47 to Title 4 of the Roseville Municipal Code relating to the Sierra Vista Specific Plan (SVSP) Mitigation Fee. This fee program provides City oversight of a private developer fee agreement intended to equitably share the costs of the infrastructure and public land dedications within the specific plan area. The municipal code defines the responsibilities of an outside program administrator to perform the routine tasks of program administration which minimizes City involvement. All costs associated with the administration of the fee program are the responsibility of the private interests.

This update accomplishes three important tasks:

- 1) Updates the nexus study and adjusts the fee. The firm of Economic & Planning Systems, Inc. (EPS) has been involved as the designated program administrator from the program's inception. They were instrumental in the original nexus study that developed the initial fee schedule. With this update EPS used the services of an outside land appraiser to evaluate the current value of lands to be publically dedicated and applied a construction cost index (CCI) adjustment to account for the inflationary increases on the infrastructure construction costs. The nexus study also accounted for land use and average changes that have occurred since its inception. Combined, these elements make up the bulk of the updated nexus study (Attachment A) and the resulting fee adjustment.

2) Amends the municipal code. Chapter 4.47 of the City's Municipal Code sets forth the fee program. Several amendments to the muni-code are required with this update. A minor adjustment to Section 4.47.040 clarifies when each of the three components of the fee are due and payable. Others sections of Chapter 4.47 reflect the changes to the fee tables. Exhibit A provides a redline version of the amendments.

3) Approves the form of the program Reimbursement Agreement (RA) and authorizes the City Manager to administratively approve the RA's. The adoption of Chapter 4.47 of the Municipal Code included a draft program RA. The preparation of the RA, and the tracking and disbursement of private monies collected by the City, is the responsibility of the program administrator. Staff worked with the administrator and the private interests to update the form of the RA. In an effort to streamline the implementation of the fee program process, staff is seeking Council approval to allow staff the authority to accept the RA's, the City Manager the authority to execute said form agreements, and to provide the City Attorney the authority to modify the form as necessary to conform to any new legal requirements or for project specific reasons. Any and all substantial changes to the form agreement will require subsequent Council approval. Exhibit A provides a copy of the amended program RA.

The SVSP Mitigation Fee program is specific to the SVSP and has no relation to any other development interests outside of the SVSP. Throughout the update process, staff has worked in conjunction with the private development interests associated with the SVSP who are in full support of the nexus study and resulting fee adjustments.

The updated Sierra Vista Specific Plan Mitigation Fees will become effective on September 1, 2018.

### FISCAL IMPACT

This is a private developer fee program, all associated costs for the administration of this program are fully paid for by the fee program, and there will be no fiscal impact to the City's general fund by the proposed action.

### ECONOMIC DEVELOPMENT / JOBS CREATED

No jobs are directly provided by this action. However, jobs will be created with the administrative contracts for consultant services and City staff cost offsets attributed to time spent in the administration of the program, fully funded by private developer obligations.

### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment. (CEQA Guidelines § 15061(b)(3)). Amendments to Chapter 4.47 and approval of a form Reimbursement Agreement do not include the potential for a significant environmental effect, and therefore are not subject to CEQA.

Respectfully Submitted,

Chris Kraft, Engineering Manager

Mike Isom, Acting Development Services Director

# 1. INTRODUCTION AND BACKGROUND

---

This report serves as the nexus study for the Sierra Vista Specific Plan (SVSP) Fee Program for the City of Roseville (City). This report includes current estimates of costs, land use, and other fee program information required to determine the nexus between required infrastructure, open space, right-of-way, and City park land and new development that will benefit from the facilities and land dedications.

Property owners in the SVSP requested the City consider a plan area-specific fee program to equalize the allocation of costs for SVSP Fee Program facilities and land dedications amongst benefit properties. In 2011, the SVSP Fee Program was adopted as the City's mechanism to accommodate the property owners' request.

This report proposes an update to the SVSP Fee Program to reflect the most current land use plan as well as updated costs. As described herein, the proposed SVSP Fee Program Update will be adopted by the City pursuant to the provisions set forth in the Mitigation Fee Act found in Government Code Section 66000 et seq.

## **Purpose of the SVSP Fee Program Nexus Study**

The purpose of this SVSP Fee Program Nexus Study Update (SVSP Nexus Study Update) is to document the required nexus findings for the City to update the SVSP Fee Program. This nexus study also describes implementation and administration of the proposed SVSP Fee Program. As described herein, this SVSP Fee Program Update accounts for cost and land use changes since the SVSP Fee Program was adopted in 2011. The SVSP Fee Program will continue to be updated periodically to reflect changes in costs, land uses (in limited cases), and other fee program information over time. The implementation chapter of this document addresses how the SVSP Fee Program will be administered and updated.

## **Supporting Documents**

The following documents produced by or for the City are used to inform this analysis:

- Sierra Vista Specific Plan Fee Program Nexus Study (SVSP Nexus Study), dated March 2011.
- Sierra Vista Specific Plan, dated March 19, 2010.
- Sierra Vista Preliminary Estimates, prepared by MacKay & Soms, dated August 6, 2010, as supplemented with updated information in December 2010 (Preliminary Estimates).
- Development Agreements By and Between the City and Certain Developers Relative to the Sierra Vista Specific Plan, May–June 2010 (each agreement is specific to each property owner).
- Exhibit JJ of the Development Agreement (appended to this report as **Appendix G**).

## SVSP Fee Program

The SVSP Fee Program is a City-implemented plan area-specific development impact fee program applicable only to SVSP land uses. The SVSP Fee Program contains these components: a City Park Land Fee, an Infrastructure Fee, and an Administration Fee.

Each of these components is described in detail throughout this nexus study document.

SVSP Fee Program fees vary by land use type. Because the SVSP Infrastructure Fee is subject to Public Land Fee adjustments, the SVSP Infrastructure Fee also varies for each property ownership entity (defined as "Ownership Entity or Entities"). While the City Park Land Fee and the Administration Fee vary by land use type, these fee components are the same for a given land use type across all Ownership Entities.

For each land use, **Table 1** shows the baseline gross Infrastructure Fee by improvement type and in total, the Administration Fee, and the City Park Land Fee. The Administration Fee is calculated as two percent of the total gross Infrastructure Fee. Calculation of the City Park Land Fee is detailed in **Chapter 5**.

**Table 1** does not show the net Infrastructure Fee for each Ownership Entity. Each Ownership Entity will have a separate land acquisition adjustment made to the gross Infrastructure Fee to reflect land dedications by the Ownership Entity. The land acquisition adjustments and resulting net Infrastructure Fee vary by Ownership Entity, depending on the amount of the Ownership Entity's land dedication. **Tables A-1 through A-9 in Appendix A** detail each Ownership Entity's proposed SVSP fees by developable land use.

## Authority

This study serves as the basis for requiring development impact fees under Assembly Bill (AB) 1600 legislation, as codified by the Mitigation Fee Act (California Government Code sections 66000 et seq.). This section of the Mitigation Fee Act sets forth the procedural requirements for establishing and collecting development impact fees. These procedures require that a reasonable relationship, or nexus, must exist between a governmental exaction and the purpose of the condition.

### Required Nexus Findings

- ✓ Identify the purpose of the fee.
- ✓ Identify how the fee is to be used.
- ✓ Determine how a reasonable relationship exists between the fee's use and the type of development project on which the fee is imposed.
- ✓ Determine how a reasonable relationship exists between the need for the public facility and the type of development project on which the fee is imposed.
- ✓ Demonstrate a reasonable relationship between the amount of the fee and the cost of the public facility attributable to the development on which the fee is imposed.

**Table 1**  
**Sierra Vista Specific Plan Fee Program**  
**Summary of Gross Infrastructure Fees, Administration Fees, and City Park Land Fee (2017 \$)**

| Land Use                                      | Roadway            | Sanitary Sewer     | Potable Water      | Recycled Water     | Storm Drainage     | Paseos Construct.  | Park/Ride Facilities | Total Gross Infrastructure Fee [1] | Admin. Fee    | City Park Land Fee | Total Gross Inf., Admin., & Park Fees |
|-----------------------------------------------|--------------------|--------------------|--------------------|--------------------|--------------------|--------------------|----------------------|------------------------------------|---------------|--------------------|---------------------------------------|
| <i>Percentage of Gross Infrastructure Fee</i> |                    |                    |                    |                    |                    |                    |                      |                                    | 2%            |                    |                                       |

[1] Open Space and Public Land are handled as adjustments to the gross infrastructure fee shown in this table.

fee\_summ

## **SVSP Fee Program Implementation and Administration**

### **Implementation**

The SVSP Fee Program presented in this report is based on the best infrastructure improvement cost estimates, funding source information, administrative cost estimates, and land use information available at this time. The cost estimates presented in this report are in constant 2017 dollars. The fees presented in this report are being updated by the City to reflect updated costs and land uses. The City will conduct periodic reviews of infrastructure improvement costs and other assumptions used to establish the fees in the SVSP Fee Program. Based on these reviews, the City may make necessary adjustments to the fee program through subsequent fee program adjustments. As costs, land uses, and other fee program information changes over time, the SVSP Fee Program will be updated to account for these changes.

The proposed SVSP Fee Program Update will be adopted by the City through one or more ordinances establishing and authorizing collection of the updated fee. The updated fees will be effective 60 days following the City's final action on the ordinance authorizing the fee.

### **Administration**

The specific provisions regarding SVSP Fee Program administration were identified in Appendix JJ of the Development Agreement, which was entitled "Sierra Vista Specific Plan Infrastructure Fee Terms and Conditions." Currently, it is anticipated that Fee Program Administrator activities will include the following tasks:

- Updating project cost estimates and fees and assisting with fee calculations.
- Providing recommended fee amounts to the City.
- Recommending to the City the amount and timing of when the fees are due.
- Providing instructions to the City regarding payment of cash reimbursements to constructing entities.
- Assisting the City with updates to the SVSP Fee Program.
- Assisting the City with preparing draft fee credit/reimbursement agreements for City Council consideration.
- Tracking all SVSP Fee Program payments and assignment of fee credits/reimbursements.
- Tracking the progress of construction contracts for SVSP Fee Program improvements.

Examples of each of these tasks and related duties of the Fee Program Administrator are outlined in the Development Agreement. The City and Administrator will continue to refine the roles of each party during implementation of the SVSP Fee Program.

*Finally, using its authority to implement the SVSP Fee Program, the City reserves the right to refer to the Development Agreement and to use other means to make interpretations, clarifications, or other modifications to the SVSP Fee Program administration provisions summarized in this nexus study.*

## **Organization of Report**

The SVSP Fee Program Nexus Study is organized into the following chapters:

- **Chapter 1** summarizes the proposed SVSP Fee Program.
- **Chapter 2** provides an overview of the SVSP Fee Program and describes the terminology used in this nexus study.
- **Chapter 3** identifies the land uses that would be subject to the SVSP Fee Program.
- **Chapter 4** describes the facilities, land dedications, and other costs included in the SVSP Fee Program.
- **Chapter 5** describes in detail the nexus study methodology used to determine each SVSP Fee Program component.
- **Chapter 6** summarizes the nexus findings for each SVSP Fee Program component.
- **Chapter 7** describes SVSP Fee Program implementation and administration.

In addition, the nexus study includes the following appendices:

- **Appendix A** summarizes the proposed SVSP Fees by Ownership Entity.
- **Appendix B** provides backup land use summary tables for the SVSP Fee Program.
- **Appendix C** includes the infrastructure cost estimates from MacKay & Soms Engineers, Inc.
- **Appendix D** provides the right-of-way cost allocation detail for each SVSP Ownership Entity.
- **Appendix E** provides the open space cost allocation detail for each SVSP Ownership Entity.
- **Appendix F** includes a sample of the SVSP fee payment tracking for each SVSP Ownership Entity.
- **Appendix G** includes the original Exhibit JJ from the Development Agreement.
- **Appendix H** includes a sample SVSP Fee Credit and Reimbursement Agreement.

## 2. SVSP FEE PROGRAM

---

### Overview

The SVSP Fee Program is a City-implemented plan area-specific development impact fee program applicable only to SVSP land uses. As shown in **Figure 1**, the SVSP Fee Program is independent and separate from all other City, Placer County (County), other agency, or regional development impact fees presently collected by the City. The provisions for development and implementation of the SVSP Fee Program are contained in the Development Agreement, specifically, Exhibit JJ of the Development Agreement, which is appended to this report as **Appendix G**.

### SVSP Nomenclature and Terminology

Calculating and presenting the SVSP Fee Program includes references to various types of SVSP land uses and ownership entities. **Figure 2** is intended to define the terminology used in this nexus study. Each of these land use terms are used throughout this document. In addition, **Figure 2** also defines several impact fee terms that are included in this document. In general, the SVSP Fee Program refers to the entire fee program, which is composed of several fee components. Each of the SVSP fee components are described below.

### SVSP Fee Components

The SVSP Fee Program contains the following components:

- City Park Land Fee
- Infrastructure Fee
- Administration Fee

#### City Park Land Fee Component

One SVSP property owner is anticipated to dedicate land to the City for a 40-acre City park. The City Park Land Fee Component provides funding for the SVSP land that is intended to be dedicated for a City park. This fee component does not cover neighborhood parks.

#### Infrastructure Fee Component

As shown in **Figure 3**, the SVSP Infrastructure Fee Component contains several types of infrastructure, other public facilities, and open space and right-of-way dedications. The purpose of the SVSP Infrastructure Fee Component is to provide funding for the design and completion of the improvements and to provide funding for open space and right-of-way dedications (excluding the City park land referenced above). As noted in **Figure 3** and discussed later in this document, each original SVSP Fee Program owner may elect to combine properties under the same ownership group for purposes of equalizing the SVSP Infrastructure Fee Component by land use type for all properties under that given ownership group.

**Figure 1**  
**Sierra Vista Specific Plan Nexus Study**  
**Proposed Fee Program**

**Note:** Cash reimbursements for over-sizing of developer-installed infrastructure will accrue interest at 4.0 percent per annum. An allowance for this interest cost will be included once the first reimbursement agreement is executed.

**Figure 2**  
**Sierra Vista Specific Plan Nexus Study**  
**Definition of Terminology**

## LAND USE TERMINOLOGY

- 1. Specific Plan:** Refers to all land included in the formal Sierra Vista Specific Plan Area.
- 2. Ownership Entity:** Refers to each of the major nine defined ownership entities originally participating in the Specific Plan planning.
- 3. Parcel:** Refers to the parcels comprising each major parcel. May be synonymous with the term "large-lot".
- 4. Land Use:** Refers to the total proposed mix of residential (single-family and multifamily) and nonresidential land uses at the tentative map stage. Synonymous with the term "small lot".

## IMPACT FEE TERMINOLOGY

- 1. SVSP Fee Program:** Refers to entire fee program created to equitably allocate the cost of infrastructure within the Sierra Vista Specific Plan Area.
- 2. SVSP Fees:** Refers to three specific fees included in the SVSP Fee Program:  
 (a) City Park Land; (b) Infrastructure Fee; and (c) Administration Fee
- 3. Fee Components** Refers to individual infrastructure component included in the SVSP Infrastructure Fee.

**Figure 3**  
**Sierra Vista Specific Plan Nexus Study**  
**SVSP Infrastructure Fee Components**

**Note:** Adjustments for public land dedications, excluding City park land, can be made both within a given ownership entity or across multiple parcels owned by the same ownership entity. Density transfers between parcels could also effect the fees that may be due.

The SVSP Infrastructure Fee Component contains the following categories of improvements and costs:

- Roadway facilities
- Sanitary sewer facilities
- Potable water facilities
- Recycled water facilities
- Storm drainage facilities
- Paseos
- Park and ride facilities
- Open space land
- Right-of-way land

Each of these categories of improvements and costs are explained in greater detail in **Chapter 4**.

### **Administration Fee Component**

The purpose of the SVSP Administration Fee Component is to provide funding to the City for annual administration of the SVSP Fee Program. This fee component is intended to cover the annual costs of administering the program, as well as the costs of any major updates that may be required periodically.

### 3. SVSP LAND USES

---

The entire SVSP area comprises approximately 2,100 acres in the south portion of the County, bordered by Baseline Road to the south, Fiddymont Road to the east, on the north by the West Roseville Specific Plan and Santucci Boulevard, with a small portion extending west of Santucci Boulevard. **Exhibit 1** shows the SVSP in its regional context.

The SVSP provides for a mix of land uses to achieve the desired community form and plan area objectives. The land use designations include low-, medium- and high-density residential uses; commercial and office uses, which in some cases are sited with one another or with residential uses; public/quasi-public uses for schools and civic facilities; parks and open space uses; and an urban reserve land use, which functions as a transition along a portion of the western boundary of the plan area.<sup>1</sup>

The SVSP was adopted in 2010 and amended in 2012 to entitle land uses on the Westbrook property in the north of the SVSP area. Prior to the 2012 amendment, the approximately 392-acre Westbrook property was designated as Urban Reserve land. In 2012, the SVSP was amended to designate a mixture of residential, commercial, public, quasi-public, and open space uses for this property. The Westbrook property is not included in the SVSP Fee Program and, therefore, will not be further addressed in this report.

In addition to the 2012 amendment, the SVSP was also amended in 2017 to reflect zoning changes on the property owned by Westpark/Federico LLC (Federico). The zoning changes resulted in the elimination of a public/quasi-public property originally planned for a church, an addition of low density residential acres and dwelling units, a reduction of medium density residential acres and units, a slight reduction in high density residential acres, and minor changes in open space and public use acres. **Exhibit 2** shows the current SVSP land use map that reflects the approved land uses after accounting for all zoning amendments to date. **Exhibit A** in **Appendix A** shows the areas associated with each ownership entity.

At buildout, the SVSP will provide for approximately 6,650 dwelling units, accommodate approximately 16,900 residents, add approximately 2.1 million square feet of retail and office uses, and provide in excess of 7,500 jobs (excluding the Westbrook property).<sup>2</sup>

#### SVSP Fee Program Land Uses

The SVSP Fee Program land uses are obtained from the 2010 Specific Plan and subsequent 2012 and 2017 Specific Plan amendments (see discussion above). Tables 4-1 and 4-2 in the Specific Plan summarize the land uses, zoning, acreage, and dwelling units by Specific Plan Parcel. The City has updated these tables to reflect zoning amendments and mapping changes through March 2018. The values in those tables have been updated in this report to reflect these

Subject to change as development occurs.

EXHIBIT 2 **LAND USE PLAN**

changes. All SVSP properties are included in the SVSP Fee Program except for the urban reserve area and the Westbrook property. Because the infrastructure and public facility needs of the urban reserve area and the Westbrook property are not included in the cost estimates, those properties have been excluded from the cost allocation.

**Table 2** summarizes the SVSP land uses included in the SVSP Fee Program. The land use categories shown in **Table 2** are the developable categories that will be subject to the SVSP Fee Program. Parcels planned for schools and other public/quasi-public land uses are not allocated costs and therefore are not be subject to the SVSP Fee Program. At this time there are two parcels for which a portion of the land is determined to be non-developable for vertical development. These parcels are Parcel JM-41 and Parcel FD-40. The SVSP Fee Program only includes the areas that are assumed to be developable at this time at an assumed level of development intensity. If, in the future, land uses on either of these two parcels becomes more intense than originally planned, those new developable land uses will be subject to the SVSP Fee Program fees. As contemplated in the SVSP Fee Program, land use information is anticipated to change over time as more detailed information becomes available.

## SVSP Fee Program Land Use Detail

For purposes of fee program formation and administration, the land use information for each SVSP Fee Program Specific Plan Parcel is included in **Table B-6** in **Appendix B**. This database of Specific Plan Parcels has been updated through 2017 and will serve as a reference point for all future land use changes.

**Tables B-1** through **B-5** in **Appendix B** summarize the detailed land use information by ownership entity, including the following items:

- Developable acreage, units, and building square feet.
- Developable units and building square feet by land use type.
- Public land dedication summaries.
- Open space land dedication detail.
- Public/quasi-public land dedication detail.

The land uses are used in the calculation of the fees in the SVSP Fee Program.

**Table 2**  
**Sierra Vista Specific Plan Fee Program**  
**SVSP Land Use Summary**

| Item                           | Developable<br>Acres | Dwelling<br>Units | Building<br>Sq. Ft. |
|--------------------------------|----------------------|-------------------|---------------------|
| <i>FAR = 0.25</i>              |                      |                   |                     |
| <b>Residential</b>             |                      |                   |                     |

Source: SVSP, MacKay & Somps, and City of Roseville

[1] Acreage and units from SVSP. Includes units designated as CMU/SA.

[2] Includes all land designated as CC anticipated to be Regional Commercial and the Mini Storage acreage considered regional that is developable.

[3] Includes Office.

[4] Includes CMU/SA uses that also have residential units planned.

## 4. SVSP FEE PROGRAM FACILITIES AND COST ESTIMATES

---

### Overview

The SVSP Fee Program facilities requirements and cost estimates are based on the facilities and costs from the 2011 SVSP Nexus Study and have been updated to reflect current dollars. The costs in the 2011 SVSP Nexus Study were expressed in 2010 dollars and were based on information contained in the SVSP Financing Plan, dated April 23, 2010, and on information provided in the Sierra Vista Preliminary Estimates, dated August 6, 2010, prepared by MacKay & Soms Engineers (McKay & Soms). Additional supplemental land use and cost data from December 2010 was obtained from MacKay & Soms and included in the cost estimates.

For all infrastructure improvements except habitat mitigation, the previous cost estimates were increased to reflect current dollars based on the percentage change in the average of the San Francisco Construction Cost Index (CCI) and 20-City CCI, as reported by Engineering News Record from May 2010 to May 2017. As such, the costs reflected herein are in 2017 dollars. For habitat construction, a survey of recent habitat mitigation costs in the region was conducted to estimate the costs in current dollars of creating and preserving Swainson's Hawk and wetland habitat.

The land values used for the SVSP City Park Fee Component and for the open space and right-of-way categories are based on an appraisal completed by Integra Realty Resources, dated December 2017.

Both the cost estimates and the appraised land values are anticipated to be updated over time as necessary through administration of the SVSP Fee Program.

### SVSP City Park Land Fee Component

The SVSP City Park Land Fee Component cost equals the City park acreage to be dedicated multiplied by the applicable value per acre for park land. The value for park land of \$337,963 per acre was determined by the City's 2017 appraisal. The table below shows the total SVSP City Park Fee Component cost.

| Item                                                  | Base Year<br>2017-18 |
|-------------------------------------------------------|----------------------|
| City Park Land Value per Acre                         | \$337,963            |
| City Park Acres                                       | 39.9                 |
| <b>SVSP City Park Fee Component Cost</b><br>(rounded) | <b>\$13,485,000</b>  |

## SVSP Infrastructure Fee Component

As shown in **Figure 3**, the SVSP Infrastructure Fee Component includes several categories of infrastructure and land acquisition costs. This section describes the basis for each cost included in the SVSP Infrastructure Fee Component. Because the infrastructure costs and land acquisition costs are based on different information and sources, each are discussed separately.

### Infrastructure Cost Estimates

As described above, the cost estimates in this report for all improvements excluding habitat construction are based on the costs in the 2011 SVSP Nexus Study, as adjusted for inflation, while the habitat cost estimates are based on a survey of current habitat mitigation costs in the region. All infrastructure cost estimates from the 2011 SVSP Nexus Study were prepared by MacKay & Soms and were based on the cost information contained in the Sierra Vista Preliminary Estimates, dated August 6, 2010. The infrastructure cost estimates were based on planning-level cost estimates and, as such, included adequate contingencies. A summary of the detailed planning-level cost estimates used in the 2011 SVSP Nexus Study is included in **Appendix C**.

The 2011 SVSP Nexus Study cost estimates for all improvements except habitat mitigation were updated to current dollars using the percentage change in the average of the San Francisco and 20-City CCIs from May 2010 through May 2017. The habitat construction cost estimates in this report are based on a survey of recent habitat mitigation costs in the region. **Table 3** compares the infrastructure cost estimates from the 2011 SVSP Nexus Study Update with the current infrastructure cost estimates assumed in this SVSP Nexus Study Update. As shown in **Table 3**, for all infrastructure except habitat mitigation, the current cost estimates reflect an increase of approximately 20 percent over the 2011 cost estimates. **Table 4** shows the calculation of this percentage increase based on CCI data. The following sections briefly describe each of the infrastructure costs.

### Roadway Facilities

The total roadway facilities cost estimates include the costs of roadway infrastructure, as well as of habitat construction. The roadway facilities costs included in the SVSP Fee Program total an estimated \$83.7 million, with \$68.5 million for infrastructure and \$15.2 for habitat mitigation.

#### Roadway Infrastructure

The SVSP Fee Program includes major arterial and collector roadways in the SVSP. As an exception, the SVSP Fee Program also contains a portion of Sierra Glen Drive, although it is not an arterial or collector street. In addition, the roadway facilities include roadway frontage along public/quasi-public sites whether or not the frontage of these roadways are arterials or collectors.

Cost estimates include roadway frontage adjacent to private development but do not include or overlap with City Capital Improvement Program (CIP) roadways, lanes, or costs funded through the City's Traffic Mitigation Fee Program. Intract subdivision roadways will be the responsibility of individual landowners and are consequently not included in the SVSP Fee Program.

**Table 3**  
**Sierra Vista Specific Plan Fee Program**  
**Summary of Infrastructure Costs**

| Item                                           | Estimated Costs                 |                             |
|------------------------------------------------|---------------------------------|-----------------------------|
|                                                | 2011 SVSP Nexus Study (2010 \$) | Current Estimates (2017 \$) |
| <b>Percent Increase (2010-2017) [1]</b>        |                                 | <b>20.03%</b>               |
| <b>Roadways</b>                                |                                 |                             |
| <b>Infrastructure</b>                          |                                 |                             |
| Streetwork and Concrete                        | \$33,975,211                    | \$40,781,789                |
| Dry Utilities                                  | \$20,183,983                    | \$24,227,634                |
| Miscellaneous [2] [3]                          | \$2,904,437                     | \$3,486,310                 |
| <b>Subtotal Roadway Infrastructure</b>         | <b>\$57,063,631</b>             | <b>\$68,495,734</b>         |
| <b>Habitat Mitigation</b>                      |                                 |                             |
| Wetland Mitigation [2]                         | \$2,853,183                     | \$12,617,233                |
| Swainson's Hawk Mitigation [2]                 | \$2,583,681                     | \$2,600,640                 |
| <b>Subtotal Habitat Mitigation</b>             | <b>\$5,436,864</b>              | <b>\$15,217,873</b>         |
| <b>Subtotal Roadways</b>                       | <b>\$62,500,495</b>             | <b>\$83,713,607</b>         |
| <b>Other Infrastructure</b>                    |                                 |                             |
| <b>Sanitary Sewer</b>                          | <b>\$5,763,125</b>              | <b>\$6,917,707</b>          |
| <b>Potable Water</b>                           | <b>\$12,045,938</b>             | <b>\$14,459,216</b>         |
| <b>Recycled Water Facilities</b>               |                                 |                             |
| Recycled Water Facilities                      | \$5,173,358                     | \$6,209,787                 |
| Recycled Water Storage/Pump Station            | Note [4]                        |                             |
| <b>Subtotal Recycled Water</b>                 | <b>\$5,173,358</b>              | <b>\$6,209,787</b>          |
| <b>Storm Drainage Facilities</b>               |                                 |                             |
| Storm Drainage Facilities                      | \$15,650,820                    | \$18,786,298                |
| Preserve Area Earthwork                        | \$4,298,400                     | \$5,159,540                 |
| <b>Subtotal Storm Drainage</b>                 | <b>\$19,949,220</b>             | <b>\$23,945,838</b>         |
| <b>Paseo Costs (Additional Easement Areas)</b> | <b>\$1,755,950</b>              | <b>\$2,107,736</b>          |
| <b>Park and Ride Facilities [5]</b>            | <b>\$758,335</b>                | <b>\$697,744</b>            |
| <b>Subtotal Other Infrastructure</b>           | <b>\$45,445,926</b>             | <b>\$54,338,027</b>         |
| <b>Total All Costs</b>                         | <b>\$107,946,421</b>            | <b>\$138,051,634</b>        |

cost sum 17

Source: Engineering News Record

Roadway facility cost estimates include the following types of improvements:

- Streetwork and concrete
- Grading (excluding rough/mass grading of the roadway area).<sup>3</sup>
- Dry utilities and street lights
- Landscape medians
- Signalization conduits

**Exhibit 3** shows the locations of the following roadway facilities included in the SVSP Fee Program:

- Fiddymment Road
- Upland Drive
- Market Street
- Westbrook Boulevard
- Santucci Boulevard
- Baseline Road
- Vista Grande Boulevard
- Federico Drive

#### Habitat Mitigation

Habitat mitigation is included in the roadways facilities costs. Swainson's Hawk mitigation and wetland mitigation are required to mitigate for habitat that is impacted by the construction of new roadway infrastructure in the SVSP. Different mitigation is required for different habitat types.

#### **Swainson's Hawk Mitigation**

Swainson's Hawk mitigation requires the acquisition of land to be used for Swainson's Hawk habitat and, possibly, some minor improvements on the land. The construction of roadway infrastructure impacts habitat in the surrounding area. For each impacted habitat acre within a one-mile radius of a Swainson's Hawk nest site, one acre of Swainson's Hawk habitat must be provided. For each impacted habitat acre farther than one mile from a Swainson's Hawk nest site, three-quarters of an acre of Swainson's Hawk habitat must be provided. **Table 5** details the estimated Swainson's Hawk mitigation costs included in the SVSP Fee Program, which total \$2.6 million.

#### **Wetland Mitigation**

Wetland mitigation requirements differ depending on the type of wetland that is impacted by the infrastructure construction. For each acre of impacted vernal pools or other wetlands that provide habitat for endangered species, one acre of similar habitat must be created and an additional two acres of habitat must be preserved. For each acre of impacted marshes and streams that do not provide habitat for endangered species, one acre of habitat must be created, but there is no preservation requirement. The creation acres requirements are included in

---

<sup>3</sup> Please refer to the cost estimate detail for assumed grading quantities per roadway segment. Roadway costs include only costs of grading associated with the structural section of the road plus a foot and a half of depth and do not include rough/mass grading that is the obligation of the property owner as it would be for the balance of the developable area of his or her project site.

[1] Includes improvements on San Fernando and Bramblewood, a public street and private drive.

Section 404 of the Clean Water Act and are regulated by the United States Army Corps of Engineers (ACOE). The preservation acres requirements are included in the Endangered Species Act and are regulated by the United States Fish and Wildlife Service.

**Table 6** details the wetland acres by habitat type impacted by infrastructure construction.

**Table 7** summarizes the required habitat creation and preservation acres to mitigate for the infrastructure construction and shows the calculation of the estimated costs of creating and preserving those acres. Based on the survey of current creation and preservation costs in the region, the following costs per acre were applied to the required creation and preservation acres:

- Habitat Wetlands Creation           \$275,000 per acre
- Habitat Wetlands Preservation       \$325,000 per acre
- Other Wetlands Creation            \$150,000 per acre

In addition to the wetland creation and preservation costs described above, **Table 7** also shows the cost of wetland mitigation funded by the City that is the obligation of the SVSP developers and, thus, included in the SVSP Fee Program. Wetland mitigation costs included in the SVSP Fee Program total an estimated \$12.6 million.

#### **Sanitary Sewer Facilities**

For purposes of the SVSP Fee Program, sanitary sewer facilities include a sewer collection system composed of gravity sewer mains, one force main, and one sewer lift station. **Exhibit 4** shows the backbone sanitary sewer facilities included in the SVSP Fee Program, which include the following types of improvements:

- Sewer lines 8" and larger
- Sewer force main
- Sewer manholes
- Sewer lift station
- Connections to existing sewer mains

Sanitary sewer facilities in the SVSP Fee Program total approximately \$6.9 million.

#### **Potable Water Facilities**

**Exhibit 5** shows the location of potable water facility improvements included in the SVSP Fee Program, which include the following water system facilities:

- Water storage tank and pumping station
- Water transmission mains
- Ground water wells
- Connections to existing water systems

The ground water well costs exclude "topside" improvement costs, which are funded through the City's water utility rate structure.

Potable water facilities in the SVSP Fee Program total approximately \$14.5 million.

EXHIBIT 5

### **Recycled Water Facilities**

Recycled water facilities will be used to irrigate landscaping for high-density residential projects, nonresidential projects, landscaped medians, parks, paseos, and school sites. The recycled water distribution system will connect to existing or planned recycled water facilities located in the West Roseville Specific Plan. In addition, the SVSP is required to contribute to the expansion of the recycled water storage facility and pumping station located in the West Roseville Specific Plan. The cost of the latter improvements will be funded through Mello-Roos Community Facilities District (CFD) financing and through a rate surcharge on the rate-payer's bill. If the CFD or rate-surcharge financing options are not implemented, the City will use another mechanism, separate from the SVSP Fee Program, to fund the recycled water storage facility and pumping station expansion.

**Exhibit 6** shows the location of recycled water facility improvements included in the SVSP Fee Program, which include the following facilities:

- Recycled water transmission/distribution mains.
- Connections to existing system.

Recycled water facilities in the SVSP Fee Program total approximately \$6.2 million.

### **Storm Drainage Facilities**

The storm drainage facilities will include a series of drainage pipelines, drainage outfall structures, detention basins, and other facilities consistent with the SVSP Drainage and Stormwater Master Plan. **Exhibit 7** shows the location of the storm drainage facility improvements included in the SVSP Fee Program, which include the following facilities:

- Storm drainage pipelines
- Junction structures
- Storm drainage manholes
- Grassy swale outfalls
- Culverts
- Detention/created wetlands
- Preserve area grading

Storm drainage facilities in the SVSP Fee Program total approximately \$23.9 million.

### **Paseos**

The SVSP document identifies several paseo corridors that generally follow Upland Drive, Market Street, and Federico Drive. The paseo features are located in residential neighborhoods or along roadways and provide pedestrian and bikeway linkages from the residential neighborhoods to the parks, school, and open space areas. Paseo widths vary depending on location and may include water-conserving landscaping, multiple-use pathways, and other features.<sup>3</sup>

EXHIBIT 7

**Exhibit 8** shows the location of paseos included in the SVSP Fee Program, which include the following facilities:

- Finish grading
- Irrigation facilities
- Concrete sidewalks/paths
- Seeding and planting
- Benches and trash receptacles

Paseo facilities total approximately \$2.1 million in the SVSP Fee Program.

### ***Park and Ride Facilities***

Park and ride facilities in the SVSP provide parking for commuters to leave their vehicles to meet carpools, vanpools, or to access transit. The SVSP has 2 park and ride lots near major roadway intersections on the Baseline Road, Fiddymment Road, and Santucci Boulevard corridors. Each park and ride location requires 50 park and ride spaces. In the SVSP Fee Program, the park and ride facilities category also includes a bus transfer station planned near the intersection of Baseline Road and Fiddymment Road. The bus transfer station will include queuing space for buses and a location for pedestrian shelters.

**Exhibit 9** shows the location of park and ride facilities and the bus transfer station. Park and ride facilities in the SVSP Fee Program total approximately \$0.7 million.

### ***Interest Costs for SVSP Reimbursement Obligations***

Developers or property owners who are awaiting cash reimbursement from the City for eligible SVSP Fee Program costs will earn interest on the outstanding cash reimbursement at an annual rate of 4 percent. Based on the terms identified in the Development Agreement, the interest cost to be included in the SVSP Fee Program will be included at such time as the first reimbursement obligation is determined and will then be applicable from that point forward. Interest will be determined on an annual basis and will be calculated from the date of the reimbursement agreement.

### ***Public Land Fee Adjustments***

The SVSP Infrastructure Fee Component will be adjusted based on an Ownership Entity's dedication of open space and other public land relative to that Ownership Entity's obligation to provide for such land dedications.

### ***Open Space***

The SVSP document and wetlands permits require dedication of certain areas as open space in the SVSP. Open space areas include the following categories of land use:

- General Open Space (with and without detention basin function).
- Open Space in the Western Area Power Authority (WAPA) corridor (with and without detention).
- Army Corps of Engineers (ACOE) Open Space.

Reflects infrastructure required by development agreements; however, some infrastructure segments may be excluded from the SVSP Fee Program.

EXHIBIT 9

The values used to determine the open space obligations and related Public Land Fee Adjustments are based on the appraisal prepared for the City park acreage. The values for each category of open space will equal the total City park acreage appraisal amount multiplied by the following percentages:

- ACOE open space = 50 percent of City park land value.
- General open space = 20 percent of City park land value.
- WAPA open space = 10 percent of City park land value.

As described later in this document, values will be updated in the future with updated appraisals prepared for the City park land.

### **Public Land Dedications**

In addition to the open space requirements, the SVSP Fee Program includes public land dedication requirements that include the following categories of land use:

- Roadway and landscape corridor right-of-way.
- Public/quasi-public land (includes church, electrical substation, recycle center, wastewater treatment plant, fire station, well, and sewer lift station site).
- Paseos.

All public land dedications identified above will be valued at 100 percent of the value determined for the City park land as periodically updated for the SVSP Fee Program.

## **SVSP Administration Fee Component**

The SVSP Administration Fee Component will be collected to fund the administration, oversight, implementation, and updates of the SVSP Fee Program. The SVSP Administration Fee Component will include adequate funding to cover all City costs, including those of outside consultants, to administer the SVSP Fee Program.

Initially, SVSP Fee Program administration costs will be advance-funded by the SVSP Owners' Group until such time as the City determines the SVSP Administration Fee Component has sufficient funding for Fee Program administration.

While the SVSP Administration Fee Component is required to cover actual costs of administering the program on an annual basis, this fee component also must collect adequate funding to cover periodic updates to the program that are above and beyond the annual fee program monitoring and maintenance. To account for these circumstances, the SVSP Administration Fee Component was established as two percent of the gross SVSP Infrastructure Fee Component.

## 5. NEXUS STUDY METHODOLOGY

---

This chapter describes the nexus study methodology used in the SVSP Fee Program. The nexus study methodology was derived from Exhibit JJ from the Development Agreement, which was entitled "Sierra Vista Specific Plan Infrastructure Fee Terms and Conditions."

### SVSP City Park Fee Component

The SVSP City Park Fee Component is collected from SVSP development to fund the acquisition cost of City park land in the SVSP. The City Park is approximately 39.9 acres. The SVSP City Park Fee Component is only applicable to the 39.9-acre parcel determined to be the City Park in the SVSP—labeled as Parcel KT-50 in **Appendix B**.

**Figure 4** shows the methodology for determining the SVSP City Park Fee Component, which is calculated using the following steps:

1. Determine the value of the City Park land by multiplying the City Park acreage by the value per acre for City Park land. Note that the City Park Land value per acre was recently updated to reflect a December 2017 appraisal (see **Chapter 4** for details).
2. Determine the total amount of new residential development that will benefit from the City Park Land.
3. Determine the proportionate impact and the appropriate share of costs attributable to each land use:
  - Determine the appropriate allocation factor to allocate the cost of City Park Land (persons per dwelling unit).
  - Apply the appropriate allocation factor to the anticipated land uses to determine the total number of equivalent dwelling units (EDUs) (see **Table 8**).
  - Determine the percentage of total EDUs by land use category (**Table 8**).
  - Multiply the percentage of EDUs by land use category by the total City Park Land Cost (**Table 8**).
  - Divide the allocated cost by land use type by the number of units by land use type to determine the justifiable fee per unit for residential land uses.

The steps described are used to determine the proposed SVSP City Park Fee Component. In future years, new appraisals will be completed and the SVSP City Park Fee Component will be updated by the percentage change in appraised value for the current year as compared to the prior year.

## SVSP Infrastructure Fee Component

The SVSP Infrastructure Fee Component will fund the following costs:

- Design and construction of backbone infrastructure.
- The value of public lands dedicated for open space and right-of-way.

As illustrated in **Figure 3**, the SVSP Infrastructure Fee Component begins with calculation of the Gross Infrastructure Fee and then, in a given Ownership Entity, is adjusted for Public Land Fee adjustments to derive the net SVSP Infrastructure Fee Component.

### Gross Infrastructure Fee

As described in the previous chapter, the Gross Infrastructure Fee comprises the design and construction costs for the following facilities:

- Roadway facilities
- Sanitary sewer facilities
- Potable water facilities
- Recycled water facilities
- Storm drainage facilities
- Paseos
- Park and ride facilities

The following steps describe the methodology for determining the Gross Infrastructure Fee:

1. Determine the total amount of land uses that will benefit from the infrastructure improvements (discussed in **Chapter 3**).
2. Determine the infrastructure needed to serve new development (identified by the SVSP, City, and Preliminary Estimates, and discussed in **Chapter 4**).
3. Determine the net cost of infrastructure to be funded by the SVSP Fee Program after accounting for other funding sources, if applicable (described in **Chapter 4**).
4. Determine the proportionate impact and the appropriate share of costs attributable to each land use:
  - a. Determine the appropriate allocation factor to allocate the cost of required infrastructure improvements by improvement type (presented in this chapter).
  - b. Apply the appropriate allocation factor to the anticipated land uses to determine the total number of EDUs (see **Tables 9** through **15**).
  - c. Determine the percentage of total EDUs by land use category (**Tables 9** through **15**).

**Table 9**  
**Sierra Vista Specific Plan Fee Program**  
**Roadway Costs and Cost Allocation (2017 \$)**

| Land Use                       | Land Uses         |                  | Cost Allocation Factors |                       |               | Allocated Costs     |            |                     |

[1] As stated in the Development Agreement, nonresidential land uses are allocated 1/7 of total costs.

- d. Multiply the percentage of EDUs by land use category by the total infrastructure cost by improvement type (**Tables 9 through 15**).
- e. Divide the allocated cost by land use type by the number of units by land use type to determine the justifiable fee per unit (for residential) or by building square feet to determine the justifiable fee per building square feet (for nonresidential).

**Table 16** summarizes the cost allocation factors used for each infrastructure category included in the Gross Infrastructure Fee. **Tables 9 through 15** show the cost allocations for each infrastructure category.

### **Public Land Fee Adjustments**

The Public Land Fee adjustments, which are calculated on a per-unit or per-building-square-foot basis, are applied to the Gross Infrastructure Fee to determine the net SVSP Infrastructure Fee Component. Again, this concept is illustrated in **Figure 5**.

The methodology to determine the Public Land Fee Adjustments differs by type of public land. The following sections describe the methodology for each type of public land.

#### **Public Land Dedications—Cost Allocation Methodology**

The public land cost allocations are completed using the two-phase process illustrated in **Figure 5**. The first phase of allocation is described by the following steps:

1. Determine the total amount of SVSP developable acreage that will benefit from public land dedications and the amount of developable acreage by SVSP Ownership Entity.
2. Determine the percentage of developable acreage by SVSP Ownership Entity by dividing the amount per SVSP Ownership Entity by the total amount of SVSP developable acreage.
3. Determine the total amount of public land dedication required to serve new development in the SVSP.
4. Determine the required public land dedication acreage by SVSP Ownership Entity by multiplying the percentage derived in Step 2 by the total acreage determined in Step 3.
5. For each SVSP Ownership Entity, determine the total amount of public land being dedicated by that SVSP Ownership Entity.
6. For each SVSP Ownership Entity, compare the required public land acreage determined in Step 4 with the actual amount of public land to be dedicated in Step 5 to determine public land acreage difference (positive or negative).
7. For each SVSP Ownership Entity, multiply the acreage difference determined in Step 6 by the per-acre value for public land (equal to 100 percent of the City park land value, as discussed in **Chapter 4**). A positive result means payment is owed for public land costs, and a negative result means the SVSP Ownership Entity over-dedicated public land relative to his or her obligation.

**Table 16**  
**Sierra Vista Specific Plan Fee Program**  
**Allocation Factors Summary**

| Land Use                       | Land Uses         |                  | ROW & Open Space    | Parks/ Other Facilities  | Roadway Facilities                | Sewer Facilities | Potable & Recycled Water Facilities | Storm Drainage Facilities | Paseo Construction Costs | Park & Ride/ Bus Transfer Station Fac. | Open Space            | Public Land                       |

"alloc\_factors"

[1] From the City of Roseville Traffic Mitigation Fee Program.

[2] Water allocation factors changed to be consistent with City of Roseville Water Connection Fee Adjustment Analysis from 2014.

[3] "NR adj" = Nonresidential adjustment, which assumes 1/7th of costs are allocated to nonresidential.

[4] Acreage totals may not sum because of rounding.

**Figure 5**  
**Sierra Vista Specific Plan Nexus Study**  
**Calculation of Public Land Adjustment**

**Table 17** shows the results of completing these steps for each of the original SVSP Ownership Entities. The results shown equate to the net public land dedication obligation by SVSP Ownership Entity. In total, the value/cost shown as positives and negatives by SVSP Ownership Entity sum to zero for the entire SVSP.

**Table 17** and other SVSP Fee Program tables include reference to the Placer 2780 ownership. Although the Placer 2780 is not an original SVSP Ownership Entity, nor is their land in the SVSP, there is some off-site land owned by Placer 2780 that is required for SVSP development. The Placer 2780 reference is included as the eventual recipient of reimbursement for acquisition of public land required for the SVSP.

The second phase of the public land allocation process involves allocating the net public land obligation to the land uses in a given SVSP Ownership Entity. Because the largest component of the public land dedications relates to roadway right-of-way, public land costs are allocated in a given SVSP Ownership Entity by the same allocation factors used for roadways—peak hour trip factors per unit or per thousand building square feet. **Tables D-1** through **D-6** in **Appendix D** show the net public land obligation allocation by original SVSP Ownership Entity.

As described above, the per-unit or per-building-square-foot right-of-way adjustment amounts shown will be used to adjust the Gross Infrastructure Fee in a given SVSP Ownership Entity. In addition, as described later, adjustments may be permitted between various SVSP Ownership Entities that are controlled by the same ownership group.

#### ***Open Space Land—Cost Allocation Methodology***

Similar to the public land allocation, there are multiple steps to determine the net open space allocation by SVSP Ownership Entity and then to allocate that cost or fee adjustment to land uses in a given SVSP Ownership Entity. As shown in **Figure 6**, there are three types of open space land included in determining the net open space obligation by SVSP Ownership Entity:

- Open space without detention.
- Open space with detention.
- ACOE open space.

#### ACOE Open Space

As shown in **Figure 6**, the steps to determine the net ACOE open space obligation by SVSP Ownership Entity are exactly the same as those used to determine the net public land obligation. The amount of ACOE land required by SVSP Ownership Entity (as determined by the percentage of total developable acreage) is compared with the amount of ACOE land being dedicated by a given SVSP Ownership Entity. The difference applied to the land value per ACOE acre determines each SVSP Ownership Entity's net dollar ACOE obligation. As discussed in **Chapter 4**, the ACOE open space land value per acre is assumed to be equal to 50 percent of the value per acre used for City park land.

**Table 17**  
**Sierra Vista Specific Plan Fee Program**  
**Public Land Allocations**

| Ownership Entity                     | Required Dedications |                   |              |                      |             |                   |              | Expected Dedications |                      |             |                   |              | Acreage Difference | Present Year Value/Cost |

Source: Sierra Vista Specific Plan

[1] Excludes approximately 5.3 acres of ROW/Landscape Corridors in the SVSP Urban Reserve.

[2] Excludes open space areas designated as paseos and school sites.

[3] Amount shown is a credit against total obligations. Therefore a positive number indicates an increase in fee obligation, while a negative number indicates a reduction in total fee obligation.

[4] Amount includes acreage for Placer 2780 (Offsite), which is not an ownership entity of the SVSP.

**Calculation of Open Space Adjustment**

[1] ACOE = Army Corps of Engineers.

[2] EDU = Equivalent Dwelling Units

### Open Space with and without Detention

Open space with and without detention is divided into the following two categories:

- General open space.
- WAPA open space.

The reason these two categories were created is because the SVSP Ownership Group and City have agreed that each of these open space land categories should have a different land valuation assigned to it.

Consequently, the first step in allocating the open space land with and without detention is to determine the cost of each type of open space land. **Table 18** shows this calculation where the total acreage of open space land, both general and WAPA open space, is multiplied by the applicable value per acre. As discussed in **Chapter 4**, the WAPA corridor land is valued at 10 percent of the total value used for City park land, and the general open space land is valued at 20 percent of that same value.

#### **Open Space without Detention**

The open space without detention costs are allocated 100 percent to residential development. Based on the appraisal values used in the SVSP Fee Program, the total open space without detention costs allocated to residential development equals approximately \$1.5 million.

#### **Open Space with Detention**

The open space with detention areas benefit both residential and nonresidential land uses as the areas provide detention for stormwater runoff from both residential and nonresidential land uses. As shown in **Table 18**, the land costs for open space areas with detention total approximately \$10.8 million and are allocated 50 percent to residential land uses and 50 percent to a combination of residential and nonresidential land uses.

#### **Allocation of Open Space Land Cost to Parcels and SVSP Ownership Entities**

The costs of open space lands derived above are subsequently allocated on a per-unit or per-building-square-foot basis using the cost allocation factors summarized below.

| <b>Item</b>                                       | <b>Allocation Methodology</b> |
|---------------------------------------------------|-------------------------------|
| Costs to Residential Land Uses                    | Persons per Household         |
| Costs to Residential and Nonresidential Land Uses | Runoff coefficient            |

**Tables 19** and **20** show these allocations on a per-unit and per-nonresidential-building-square-foot basis for the open space costs.

In a given SVSP Ownership Entity, the per-unit/per-square-foot amounts calculated for open space with detention and open space without detention can be multiplied by the units or building square foot totals for each SVSP Ownership Entity parcel to determine that owner's total open space dedication requirement. **Table 21** shows these calculations for each original SVSP Ownership Entity.

"os\_oblig"

The open space dedication requirement by SVSP Ownership Entity is compared to the value of open space being dedicated by that SVSP Ownership Entity (**Table 22**) to determine an amount owed (positive dollars) or an over-dedication of open space land (negative amount).

The net open space dedication obligation by SVSP Ownership Entity is determined by summing the net ACOE land obligation with the net open space with and without detention obligation.

**Table 23** shows this calculation for each original SVSP Ownership Entity. **Table 24** details the ACOE net obligation by Ownership Entity used in **Table 23**.

The final step in the allocation process is to allocate the net open space obligation derived in **Table 23** to the individual land uses in an SVSP Ownership Group. The EDU factors used in this final allocation are determined using persons per household for residential land uses and square feet per employee for nonresidential uses. **Tables E-1** through **E-6** in **Appendix E** show the open space allocations in each original SVSP Ownership Entity.

As described above, the per-unit or per-building-square-foot open space adjustment amounts shown will be used to adjust the Gross Infrastructure Fee in a given SVSP Ownership Entity. In addition, as described later, adjustments may be permitted between various SVSP Ownership Entities that are controlled by the same operator.

## 6. NEXUS FINDINGS

---

### Authority

This report has been prepared to establish the SVSP Fee Program in accordance with the procedural guidelines established in AB1600, which is codified in California Government Section 66000 et. seq. This code section sets forth the procedural requirements for establishing and collecting development impact fees. The procedures require that a “reasonable relationship or nexus must exist between a governmental exaction and the purpose of the condition.”<sup>4</sup> Specifically, each local agency imposing a fee must:

- Identify the purpose of the fee.
- Identify how the fee is to be used.
- Determine how a reasonable relationship exists between the fee’s use and the type of development project on which the fee is imposed.
- Determine how a reasonable relationship exists between the need for the public facility and the type of development project on which the fee is imposed.
- Demonstrate a reasonable relationship between the amount of the fee and the cost of the public facility or portion of the public facility attributable to the development on which the fee is imposed.

### Summary of Nexus Findings

The development impact fee to be collected for each land use is calculated based on the proportionate share of the total facility use that each land use represents. With this approach, the following findings are made regarding each SVSP Fee Program component.

#### SVSP City Park Fee Component

##### ***Purpose of Fee***

The City Park Fee will be collected to fund the acquisition of a 39.9-acre citywide park in the SVSP. This park land dedication helps new SVSP residential development towards meeting the City’s General Plan Requirement of 3.0 acres of citywide park land per 1,000 new residents.

---

<sup>4</sup> *Public Needs & Private Dollars*; (July 1993), William Abbott, Marian E. Moe, and Marilee Hanson, page 109.

### ***Use of the Fee***

The City will use City Park Fee revenue to pay for the acquisition of the 39.9-acre citywide park. Payment for the acquisition for the citywide park land will be done on a pay-as-you-go basis as revenues are collected.

### ***Relationship between the Use of the Fee and the Type of Development***

The development of new SVSP residential land uses in the City will generate additional demand for citywide park and recreation facilities. The acquisition of citywide park land will enable the City to develop that park land to meet the increased demands placed on citywide parks resulting from new SVSP residential development.

### ***Relationship between the Need for a Facility and the Type of Project***

Each new SVSP residential unit will generate additional demand for park and recreation services and an associated need for park and recreation facilities. The City presently provides at least 3.0 acres of City park land per 1,000 residents. To maintain the desired City requirement of 3.0 acres of citywide park acres per 1,000 residents in the future, the City must acquire new City park land to serve the population generated by new development.

### ***Relationship between the Amount of the Fee and the Cost Portion Attributed to New Development***

Citywide park facilities will serve new residential development in the SVSP. The cost of the citywide park land to be funded by new SVSP residential development is allocated to each benefiting land use using appropriate EDU factors to measure the relative benefit received by each land use. The park land costs are allocated to residential development using persons per household factors. The result is a maximum justifiable fee for each new residential unit that reflects the relative impact of each residential land use.

## **SVSP Infrastructure Fee Component**

### ***Roadway Facilities***

#### Purpose of Fee

The purpose of the SVSP fee is to provide a funding mechanism to help the City maintain adequate levels of service (LOS) on its roadway system by funding the construction of new roadways and other transportation improvements and widening or improving existing roadway improvements as identified in the City's traffic model and capital improvement program.

#### Use of Fees

The roadway component of the SVSP fee charged to new development will be used to fund needed additions and improvements to roadways to accommodate future traffic volumes projected as a result of new development. Roadway additions and improvements include, but are not limited to, road widening and construction, intersection improvements, and signalization improvements.

#### Relationship between Use of Fees and Type of Development

Development of new residential, office, commercial, and other land uses in the SVSP will generate additional vehicular trips and the need for roadway capacity to maintain LOS standards contained in the City's General Plan for the arterial street and collector system. The fees will be used to expand capacity, which will facilitate traffic flow in a manner designed to meet those goals established in the Specific Plan and the City's General Plan.

#### Relationship between Need for Facility and Type of Project

Each new SVSP residential and nonresidential development project will add to the incremental need for roadway capacity, and each new SVSP project will benefit from the new roadway capacity. For new development to occur during the planning horizon of the City's current General Plan, roadway improvements identified by the City's traffic model will be necessary to maintain an acceptable LOS.

#### Relationship between Amount of Fees and Cost of or Portion of Facility Attributed to Development on which Fee is Imposed

The City's traffic model identified transportation improvements necessary to serve new SVSP development. Construction of the roadway, intersection, and related improvements will serve new development in the SVSP. The cost of these improvements to be funded by new SVSP development are allocated to each benefiting land use using appropriate EDU factors to measure the relative benefit received by each land use. The roadway costs are allocated using peak hour trip generation factors, which is an acceptable methodology to allocate traffic-related costs. The result is a maximum justifiable fee for each unit of new residential development and for each 1,000 square feet of new nonresidential development that reflects the relative traffic impact of each residential and nonresidential land use on the roadway system.

### **Sanitary Sewer Facilities**

#### Purpose of Fee

The sanitary sewer fee component developed through this nexus study would fund sanitary sewer improvements necessary to serve new residential and nonresidential development in the SVSP based on the City's design standards for such facilities.

#### Use of Fees

The sanitary sewer component of the SVSP fee will be used to design and develop required improvements or expansions to sanitary sewer facilities to accommodate future demands from new SVSP development.

#### Relationship between Use of Fees and Type of Development

Development of new residential, office, commercial, and other land uses in the SVSP will generate additional demand for sanitary sewer capacity. Additional facilities will be required for the City to maintain adequate LOS standards for new SVSP development.

#### Relationship between Need for Facility and Type of Project

Each new SVSP residential and nonresidential development project will add to the incremental need for sanitary sewer capacity, and each new project will benefit from the new capacity in proportion to their estimated use for such facilities.

#### Relationship between Amount of Fees and Cost of or Portion of Facility Attributed to Development on which Fee is Imposed

Construction of the sanitary sewer facilities will serve new development in the SVSP. The cost of these improvements to be funded by new SVSP development are allocated to each benefiting land use using appropriate EDU factors to measure the relative benefit received by each land use. The costs are allocated using gallons per day demand on a per-unit or per-1,000-building-square-foot basis. The result is a maximum justifiable fee for each new residential unit or for each 1,000 square feet of new nonresidential development that reflects the relative impact of each residential and nonresidential land use on the sanitary sewer system.

### **Potable Water Facilities**

#### Purpose of Fee

The potable water fee component developed through this nexus study would fund potable water improvements necessary to serve new residential and nonresidential development in the SVSP based on the City's design standards for such facilities.

#### Use of Fees

The potable water component of the SVSP fee will be used to design and develop required improvements or expansions to potable water facilities to accommodate future demands from new SVSP development.

#### Relationship between Use of Fees and Type of Development

Development of new residential, office, commercial, and other land uses in the SVSP will generate additional demand for potable water capacity. Additional facilities will be required for the City to maintain adequate LOS standards for new SVSP development.

#### Relationship between Need for Facility and Type of Project

Each new SVSP residential and nonresidential development project will add to the incremental need for potable water capacity, and each new project will benefit from the new capacity in proportion to their estimated use for such facilities.

#### Relationship between Amount of Fees and Cost of or Portion of Facility Attributed to Development on which Fee is Imposed

Construction of the potable water facilities will serve new development in the SVSP. The cost of these improvements to be funded by new SVSP development are allocated to each benefiting land use using appropriate EDU factors to measure the relative benefit received by each land use. The potable water facilities costs are allocated using gallons per day demand factors. The result is a maximum justifiable fee for each new residential unit or for each building square foot of new nonresidential development that reflects the relative impact of each residential and nonresidential land use on the potable water system.

## **Recycled Water Facilities**

### Purpose of Fee

The recycled water fee component developed through this nexus study would fund recycled water improvements necessary to serve new residential and nonresidential development in the SVSP based on the City's design standards for such facilities.

### Use of Fees

The recycled water component of the SVSP fee will be used to design and develop required improvements or expansions to recycled water facilities to accommodate future demands from new SVSP development.

### Relationship between Use of Fees and Type of Development

Development of new residential, office, commercial, and other land uses in the SVSP will generate additional demand for recycled water capacity. Additional facilities will be required for the City to maintain adequate LOS standards for new SVSP development.

### Relationship between Need for Facility and Type of Project

Each new SVSP residential and nonresidential development project will add to the incremental need for recycled water capacity, and each new project will benefit from the new capacity in proportion to their estimated use for such facilities.

### Relationship between Amount of Fees and Cost of or Portion of Facility Attributed to Development on which Fee is Imposed

Construction of the recycled water facilities will serve new development in the SVSP. The cost of these improvements to be funded by new SVSP development are allocated to each benefiting land use using appropriate EDU factors to measure the relative benefit received by each land use. The recycled water facilities costs are allocated using gallons per day demand factors. The result is a maximum justifiable fee for each new residential unit or for each building square foot of new nonresidential development that reflects the relative impact of each residential and nonresidential land use on the recycled water system.

## **Storm Drainage Facilities**

### Purpose of Fee

The storm drainage fee component developed through this nexus study would fund storm drainage improvements necessary to serve new residential and nonresidential development in the SVSP based on the City's design standards for such facilities.

### Use of Fees

The storm drainage component of the SVSP fee will be used to design and develop required improvements or expansions to storm drainage facilities to accommodate future demands from new SVSP development.

#### Relationship between Use of Fees and Type of Development

Development of new residential, office, commercial, and other land uses in the SVSP will generate additional demand for storm drainage collection and conveyance capacity. Additional facilities will be required for the City to maintain adequate LOS standards for new SVSP development.

#### Relationship between Need for Facility and Type of Project

Each new SVSP residential and nonresidential development project will add to the incremental need for storm drainage collection and conveyance capacity, and each new project will benefit from the new capacity in proportion to their estimated use for such facilities.

#### Relationship between Amount of Fees and Cost of or Portion of Facility Attributed to Development on which Fee is Imposed

Construction of the storm drainage facilities will serve new development in the SVSP. The cost of these improvements to be funded by new SVSP development are allocated to each benefiting land use using appropriate EDU factors to measure the relative benefit received by each land use. The costs are allocated using impervious surface area factors measured as storm drainage runoff coefficients per acre for residential and nonresidential development. The result is a maximum justifiable fee for each new residential unit or for each building square foot of new nonresidential development that reflects the relative impact of each residential and nonresidential land use on the storm drainage system.

#### **Paseo Facilities**

Paseo facilities included in the SVSP Fee Program (shown in **Exhibit 8**) include only those paseo facilities that are in addition to the normal landscape corridor right-of-way that would typically be dedicated to the City.

#### Purpose of Fee

The paseo fee component developed through this nexus study would fund paseo improvements necessary to serve new residential and nonresidential development in the SVSP based on the design standards in the Specific Plan for such facilities.

#### Use of Fees

The paseo component of the SVSP fee will be used to design and develop required paseo improvements to accommodate future demands from new SVSP development.

#### Relationship between Use of Fees and Type of Development

Development of new residential, office, commercial, and other land uses in the SVSP will be required by the City to meet the design standards in the Specific Plan.

#### Relationship between Need for Facility and Type of Project

Each new SVSP residential and nonresidential development project will add to the incremental need for paseo capacity in the SVSP, and each new project will benefit from the new capacity in proportion to their estimated use for such facilities.

Relationship between Amount of Fees and Cost of or Portion of Facility Attributed to Development on which Fee is Imposed

Construction of the paseo facilities will serve new development in the SVSP. The cost of these improvements to be funded by new SVSP development are allocated to each benefiting land use using appropriate EDU factors to measure the relative benefit received by each land use. The costs are allocated using estimated persons per household or persons per 1,000 building square feet factors. The result is a maximum justifiable fee for each new residential unit or for each building square foot of new nonresidential development that reflects the relative impact of each residential and nonresidential land use on the paseo system.

**Park and Ride Facilities**

Purpose of Fee

The park and ride facilities fee component developed through this nexus study would fund park and ride improvements necessary to serve new residential and nonresidential development in the SVSP based on the Specific Plan's design standards for such facilities.

Use of Fees

The park and ride component of the SVSP fee will be used to design and develop required improvements or expansions to park and ride facilities to accommodate future demands from new SVSP development.

Relationship between Use of Fees and Type of Development

Development of new residential, office, commercial, and other land uses in the SVSP will generate additional demand for park and ride capacity. Additional facilities will be required for the City to maintain adequate LOS standards for new SVSP development.

Relationship between Need for Facility and Type of Project

Each new SVSP residential and nonresidential development project will add to the incremental need for park and ride capacity, and each new project will benefit from the new capacity in proportion to their estimated use for such facilities.

Relationship between Amount of Fees and Cost of or Portion of Facility Attributed to Development on which Fee is Imposed

Construction of the park and ride facilities will serve new development in the SVSP. The cost of these improvements to be funded by new SVSP development are allocated to each benefiting land use using appropriate EDU factors to measure the relative benefit received by each land use. The costs were allocated with 1/7 of the total cost allocated to nonresidential development and 6/7 of the costs allocated to residential development. This allocation is similar to the distribution of developable acreage between nonresidential and residential development. The result is a maximum justifiable fee for each new residential unit or for each building square foot of new nonresidential development that reflects the relative impact of each residential and nonresidential land use on the park and ride system.

## **Open Space and Public Land Dedication Adjustments**

### Purpose of Fee Component

The open space and public land adjustment component developed through this nexus study is intended to balance the burden of dedicating the open space and public lands required to develop the Specific Plan between the ownership groups. Instead of balancing such dedication burdens through a separate open space and public land dedication fee, the balancing adjustments are incorporated into the Infrastructure Fee component.

### Use of Fee Component

The open space and public land adjustment component of the SVSP fee will be used to reduce the Infrastructure Fee for those ownership groups whose actual dedications exceed their fair share of such dedications (as such fair share is determined based on land use and type of dedicated open space and public land) and will be used to increase the Infrastructure Fee for those ownership groups whose actual dedications fall short of their fair share thereof.

### Relationship between Fee Component and Type of Development

Development of new residential, office, commercial, and other land uses in the SVSP will generate additional demand for open space, recreation, and public facilities. Open space and public land dedications will be required for the City to provide and maintain adequate amenities and facilities for new SVSP development.

### Relationship between Need for Open Space and Public Land and Type of Project

Each new SVSP residential development project will add to the incremental need for open space amenities, and each new SVSP residential and nonresidential development project will add to the incremental need for adequate habitat mitigation and public facilities. Each new project will benefit from the new amenities and capacity in reasonable proportion to their estimated use derived from and supported by such open space and public facilities.

### Relationship between Amount of Land Adjustments and Cost of or Portion of Facility Attributed to Development on which Adjustment is Allocated

The open space and public land adjustments to the infrastructure fee have been allocated to benefiting land uses using a cost allocation method (described in **Chapter 5**) that measures the relative benefit for each land use and the type of amenity or public facility to be supported by such dedications.

As described in **Chapter 5**, the open space and public land dedication adjustments reflect over- and under-dedications of open space and public land by ownership group. These over- and under-dedication adjustments are then applied to the Gross Infrastructure Fee to determine the Net Infrastructure Fee after adjustments.

Also, although calculated separately, the estimated interest cost will be included in the SVSP Fee Program for cash reimbursements owed for one or more of the facilities described above. Finally, the SVSP Administration Fee Component is required to implement and administer the SVSP Fee Program.

## 7. SVSP FEE PROGRAM IMPLEMENTATION

---

The SVSP Fee Program presented in this report is based on the best infrastructure improvement cost estimates, funding source information, administrative cost estimates, and land use information available at this time. As costs, land uses, and other fee program information changes over time, the SVSP Fee Program will be updated to account for these changes.

After the fees presented in this report are established, the City will conduct periodic reviews of infrastructure improvement costs and other assumptions used as the basis of this nexus study. Based on these reviews, the City may make necessary adjustments to the Fee Program through subsequent Fee Program adjustments.

The cost estimates presented in this report are in constant 2017 dollars. As described in more detail in the remainder of this chapter, the SVSP Fee Program will include provisions for automatic and other adjustments for inflation and changes in costs of infrastructure facilities and of right-of-way acquisition costs.

### **Implementing Ordinances / Resolutions**

The proposed fee update would be adopted by the City through an updated ordinance establishing and authorizing collection of the updated fee.

### **Timing of SVSP Fee Payment**

The timing of SVSP fee payment varies by SVSP Fee Program component.

#### **City Park Fee Component and Administration Fee Component**

The City Park Fee Component and the Administration Fee Component both will be due at the issuance of a building permit. The City Park Fee Component applies only to residential development, while the Administration Fee Component applies to residential and nonresidential development.

#### **Infrastructure Fee Component**

The SVSP Infrastructure Fee will be collected from new development in the SVSP at the time of final small lot map or at building permit issuance. For single-family residential property, Infrastructure Fees will be payable at the issuance of a building permit unless, as defined in the Development Agreement, outstanding reimbursements are owed. If outstanding reimbursements are owed, then Infrastructure Fee payment for single-family residential development will be required before recordation of a final small lot map. In this case, Infrastructure Fees for all units in the final small lot map will be payable at one time. For nonresidential property and multifamily property, the Infrastructure Fees will be payable at the issuance of a building permit.

## Fee Program Administration

The specific provisions regarding SVSP Fee Program administration were identified in Appendix JJ of the Development Agreement, which was entitled "Sierra Vista Specific Plan Infrastructure Fee Terms and Conditions." At the outset of the SVSP Fee Program, it is anticipated that Fee Program Administrator activities will include the following tasks:

- Updating project cost estimates and fees and assisting with fee calculations.
- Providing recommended fee amounts to the City.
- Recommending to the City the amount and timing of when the fees are due.
- Providing instructions to the City regarding payment of cash reimbursements to constructing entities.
- Assisting the City with updates to the SVSP Fee Program.
- Assisting the City with preparing draft fee credit/reimbursement agreements for City Council consideration.
- Tracking all SVSP Fee Program payments and assignment of fee credits/reimbursements.
- Tracking the progress of construction contracts for SVSP Fee Program improvements.

Examples of each of these tasks and related duties of the Fee Program Administrator are outlined in the Development Agreement (see **Appendix G**). The City and Administrator will continue to refine the roles of each party during implementation of the SVSP Fee Program.

*Finally, using its authority to implement the SVSP Fee Program, the City reserves the right to refer to the Development Agreement and to use other means to make interpretations, clarifications, or other modifications to the SVSP Fee Program administration provisions summarized in this nexus study.*

## SVSP Fee Program Exemptions

### Exemptions from the Fee

The SVSP fee may be reduced under certain circumstances. Any exemptions or reduction in fees will be based on the City's independent analysis and review of the subject property. All determinations regarding the exemptions provided in this section shall be made by the City Finance Director or his/her designee. The following entities will be exempted from payment of the SVSP fees.

#### **Public Parcels**

Development of properties originally planned for public use, including public schools, parks, park and ride facilities, public utilities (including water, sewer, electrical, and recycling), church, and fire station, will be exempt from the SVSP fee. Development by the City or other public entity of any property originally planned for private use (such as residential, retail, or commercial) shall be subject to payment of the SVSP fee, unless otherwise prohibited by law or unless a

corresponding transfer of development rights is made from the property being developed to an originally planned public parcel to preserve the total amount of SVSP fees anticipated to be generated by development of the SVSP.

### **Replacement/Reconstruction**

1. Any replacement or reconstruction (no change in use) of any residential unit that is damaged or destroyed as a result of fire, flood, explosion, wind, earthquake, riot, or other calamity, or act of God shall be exempt from the SVSP fee. However, if the residential unit(s) replaced or reconstructed exceeds the documented total number of units of the damaged/destroyed residential structure, the excess units are subject to the SVSP fee. If a residential structure has been vacant for more than 5 years, the exemption will not apply.
2. Any replacement or reconstruction (no change in use) of any nonresidential structure that is damaged or destroyed as a result of fire, flood, explosion, wind, earthquake, riot, or other calamity, or act of God shall be exempt from the SVSP fee. However, if the building replaced or reconstructed exceeds the documented total floor area of the damaged/destroyed building, the excess square footage is subject to the SVSP fee. If a structure has been vacant for more than 5 years, the exemption will not apply.

If a residential or nonresidential structure is replaced with an alternative land use, such as replacing an office building with a retail building, then City staff will determine the appropriate SVSP fee adjustment to reflect the different EDU factors of the original and new land uses.

### **Additions/Alterations/Modifications/Temporary Facilities**

1. Additions to single-family residential structures, provided no change in use occurs and a second full kitchen is not added.
2. Additions to multifamily residential structures that are not part of a mixed use-type project, provided no change in use occurs and no additional units result.
3. Supporting use square footage in multifamily projects, such as the office and recreation areas required to directly serve the multifamily project. The residential unit fee will provide the full mitigation required in multifamily projects.
4. Non-habitable residential structures such as decks, pools, pool cabanas, sheds, garages, etc.
5. Construction of carriage houses/expanded living spaces pursuant to the terms identified in the Design Criteria of the Specific Plan (page A-9 in Specific Plan Appendix A).
6. Mobile or manufactured homes with no permanent foundation.

### **Required Fees**

Below are examples of instances in which the SVSP fee may be required for land uses that potentially could be classified as exempt from the fees:

1. Any project listed as exempt but which nonetheless, in the opinion of the City Council, increases the demand on City facilities funded by the SVSP fee in excess of that originally

anticipated by the City. The City Council may pro rate the amount of the fee based on the project's anticipated impact on the subject facility or facilities.

2. Illegal facilities and buildings, constructed before the adoption of the SVSP fee, which consequently obtain a building permit to legitimize the facility or building, may be subject to the applicable fee.
3. Shell buildings:
  - a. The full SVSP fee can be made payable at the time the building permit for the shell building is obtained.
  - b. The incremental difference between the intended and actual use of any shell building may be collected on any building permit for tenant improvements.
4. Accessory residential structures that are converted to a separate residential dwelling unit may be subject to the SVSP fee as long the primary residence remains on the property.
5. Temporary buildings that are authorized for more than 30 days in any calendar year may be subject to the fee when converted to permanent use.
6. The reconstruction of a building destroyed as a result of fire, flood, explosion, wind, earthquake, riot, or other calamity, or act of God, which has been vacant for more than 5 years.
7. That portion of the reconstruction of a building destroyed as a result of fire, flood, explosion, wind, earthquake, riot, or other calamity, or act of God, which is greater than the documented total number of units or square footage that was or would have been previously subject to the City's SVSP Fee Program.

### **Other Land Uses**

The SVSP Fee Program identifies SVSP fees for the major land use categories identified by the Specific Plan. Specialized land uses may have unique EDU characteristics, and in these cases, the City may require a project-specific analysis or will calculate the appropriate fee based on information derived from the existing City information. For specialized development projects, the City Finance Director or his/her designee, in conjunction with the City Engineer, will review EDU factors applicable to the specialized development and decide on an applicable fee, if necessary.

### **SVSP Infrastructure Fee Component Adjustments by Original Owners**

At their discretion, each original SVSP Ownership Entity may elect to treat all or a portion of its SVSP properties in the same ownership group as a single property for purposes of equalizing the SVSP Infrastructure Fee Component (including Public Land Adjustments) by land use type for all properties in that same original ownership group. An original owner shall exercise this right by providing a written request to the Administrator before the first SVSP Infrastructure Fee Component payment being made (either in cash or through the application of fee credits) on any of the parcels in that original ownership group.

## **SVSP Fee Program Capacity Use and Target Revenues**

As described more completely in Exhibit JJ of the Development Agreement, the SVSP Fee Program has identified a certain amount of land use capacity (e.g., units or nonresidential building square footage) that is anticipated for each Specific Plan parcel. The SVSP Fee Program fees have been calculated using these land use capacity allocations. To avoid potential shortfalls in SVSP Fee Program funding related to actual development densities falling below permitted densities, the SVSP Fee Program has target revenues for each Specific Plan parcel. Below is an overview of how such cases will be treated. Please refer to Exhibit JJ of the Development Agreement for a more complete description of the capacity use provisions.

The target revenue for a parcel is calculated based on the applicable SVSP fees (City Parks, Infrastructure, and Administration) and the land uses allocated to that parcel. In the event that the actual density of a parcel will be less than the allocated density, unless offset by a transfer of density from another parcel, the owner of the parcel will pay the amount required so that the parcel yields the same revenue as the target revenue. Although exactly the same, the Development Agreement uses the term "shortfall payment" for the difference between the target revenue and the "adjusted" revenue based on the fees multiplied by the reduced development yield. For example, if the total fee obligation for a parcel was equal to \$1,000,000 for 100 units (\$10,000 per unit) and the parcel actually only yielded 90 units, the shortfall payment would have equaled \$100,000. This provision has no effect on the timing of when the SVSP fees are due and payable. In the event of a "shortfall payment" the Development Agreement stipulates that the entire "shortfall" amount be paid at recordation of small-lot final map for single family development or building permit for multifamily residential or nonresidential development, as may be allowed to be phased by the Administrator based on phased development of the applicable parcel.

Surplus fee credits (i.e., the amount, if any, by which fee credits previously allocated to an owner associated with development of the parcel exceeds the fee revenue anticipated to be derived from the parcel based on actual density) or fee reimbursements can be used to apply towards payment of the target revenue for a given parcel. Provided, however, only surplus fee credits or fee reimbursements generated by a Fee Credit and Reimbursement Agreement associated with development of an ownership property that includes such parcel may be applied to supplement the target revenue for such parcel; fee credits or reimbursements generated by a Fee Credit and Reimbursement Agreement related to development of a different ownership property may not be applied against the target revenue for a parcel in another ownership property. Any property owner for which the target revenue provisions applied shall continue to own the development rights to the units that were not developed but for which fees were paid (e.g., 10 units in the prior example). That owner may transfer that unused development capacity (e.g., units) to another parcel or may be reimbursed from SVSP fees resulting from an overutilization of development on a different parcel.

Any development (units or building square feet) that exceed the allocated land uses for a given parcel shall pay the applicable SVSP fees per unit. Such circumstances will yield more SVSP Fee Program revenue than originally anticipated. Unless that "extra" fee revenue is used to offset an underutilization of development in another parcel, that extra fee revenue shall be used to reimburse a developer where that developer paid the target revenue for a parcel that exceeded the original unadjusted SVSP fee amount (e.g., original fee rate per unit multiplied by the actual

number of units on a parcel). In the above example, the developer who yielded only 90 units but paid SVSP Fees based on the original 100 unit total would be eligible for reimbursement. Such reimbursements will be handled on a first-in first-out basis.

Finally, the Development Agreement allows for density transfers between properties owned by the same ownership group. In the event of a density transfer, the Development Agreement permits that the SVSP fees for the transferred units may remain as they were before the transfer or may be recalculated for the transferred units and all other units in the parcel subject to the density transfer (i.e., recipient parcel). Any SVSP Fees related to a transfer shall not be payable on transfer but rather would be payable when otherwise applicable by development of the property receiving the density transfer.

## **SVSP Fee Program Reimbursements and Credits**

As is typical with development impact fee programs, many of the public infrastructure facilities are needed up-front, before adequate revenue from the fee collection would be available to fund such improvements. Consequently, some type of private funding may be necessary to pay for the public improvements when they are needed. This private financing may be in the form of land-secured bonds, developer equity, or other form of private financing. As stated in the Development Agreement, there shall be no adjustment to the SVSP Infrastructure Fee Component based on the method by which a constructing party funds or constructs eligible project costs.

### **Reimbursement for Eligible Project Improvements**

In cases where a private party (e.g., developer) has advance-funded an eligible SVSP Fee Program facility, the party will be due a reimbursement from the SVSP Fee Program and such reimbursements would be in the form of fee credits or cash reimbursements. Reimbursements will be provided under the following conditions:

- Developer-installed improvements shall be considered for reimbursement. Only funds collected from the SVSP fee shall be used to reimburse a developer who installed eligible infrastructure improvements identified in this report. Reimbursements are an obligation of the SVSP Fee Program and not an obligation of the City General Fund or other operating funds.
- All bidding and contracting for construction work shall be done so as to allow for the project improvements to be eligible for acquisition or construction through a CFD or to enable the SVSP Infrastructure Fee Component to be financed by a CFD.

The total amount of reimbursement for completed infrastructure will be based on actual costs incurred for eligible hard costs based on a properly bid construction contract. Soft costs will be calculated as a fixed percentage (20 percent) of hard costs. All hard costs will be subject to verification by the SVSP Fee Program Administrator and by the City.

Reimbursements shall be controlled by a fully executed SVSP Fee Program Credit/Reimbursement Agreement. A template for such agreements was included in Appendix JJ of the Development Agreements. The City and SVSP property owners have subsequently modified the

SVSP Fee Program Credit/Reimbursement Agreement – a copy of which is located in **Appendix H** of this document. Depending on circumstances, SVSP Fee Program reimbursements may be in the form of fee credits or cash reimbursements as described in more detail below.

## **Fee Credits and Cash Reimbursements**

### **Fee Credits**

The first priority for reimbursement of eligible costs identified in a fee credit agreement will be through the use of fee credits. Once all criteria have been met, fee credits may be taken against fees when payable at either final map or at building permit issuance, as applicable. To obtain fee credits, developers must obtain an executed Fee Credit and Reimbursement Agreement with the City. An updated Fee Credit and Reimbursement Agreement Template is included as **Appendix H**.

Fee credits will be expressed as a dollar amount to be used to offset the SVSP Infrastructure Fee Component and may be used as a credit against fees for any property located in the SVSP. The amount of the fee credit will be determined using a two-step process as defined in Exhibit JJ to the Development Agreement. Initially, the fee credit amount will be based on the estimated cost of eligible improvements included in the construction contract for eligible facilities. This amount shall also include amounts for eligible soft costs.

The final amount of fee credits/reimbursement in a given agreement will be reconciled once all project costs are incurred. The final credit/reimbursement amount may be adjusted upward or downward depending on the final costs. In the event of an upward adjustment, the City Engineer in consultation with the Administrator shall review all project documentation and shall determine how much of the actual construction costs should be included in an increase to the credit/reimbursement amount. In the case of a downward adjustment, the developer may be obligated to refund the amount of any credits applied in excess of the final adjusted amount. All fee credits provided pursuant to credit/reimbursement agreements shall be adjusted annually based on the annual change to the SVSP Fee Program (i.e., Construction Cost Index adjustment) as described in this chapter.

Fee credits do not run with the land and are transferable and may be applied by the constructing party in any manner to a given parcel or project in the SVSP. It is the constructing party's responsibility to inform the City how fee credits will be applied to development projects. Exhibits B, C, and D in Exhibit JJ of the Development Agreement are template forms to be used by developers when using SVSP Fee Program fee credits. In no event will a party be granted fee credits against the Administrative Fee Component.

**Appendix F** provides examples of how fee credits will be tracked by a fee credit/reimbursement agreement for each Ownership Entity. As shown in this appendix, the tracking mechanism will accommodate a variety of ways in which an Ownership Entity may wish to allocate fee credits amongst the various parcels in that Ownership Entity's property holdings.

### **Cash Reimbursements**

Cash reimbursements will be due to developers who have advance funded a facility (or facilities) in excess of their total SVSP Infrastructure Fee Component obligation. Cash reimbursements will repay a developer for the difference between the total reimbursement amount (i.e., total cost of

eligible project) and that amount repaid through the use of fee credits. In these circumstances, developers would first obtain fee credits, up to their fair share requirement for SVSP infrastructure, and then await cash reimbursement from fee revenue collections from other fee payers.

To obtain reimbursements, developers would have had to enter into a credit/reimbursement agreement with the City. Cash reimbursements will be paid on City Public Works Department approval of "satisfactory completion" of the improvements associated with that agreement. Cash reimbursements will be paid on a first-in first-out basis based on the effective date of the credit/reimbursement agreement in any given calendar week. If two agreements have an effective date in the same calendar week, each will be given equal priority for reimbursement. Cash reimbursements will be paid no less than quarterly by the City. Outstanding cash reimbursement amounts subject to future payment will be increased annually on the annual fee adjustment date by 4 percent. Cash reimbursement balances are not convertible to fee credits unless the amounts are in the first reimbursement priority position.

Based on the terms identified in the Development Agreement, the interest cost to be included in the SVSP Fee Program will be included at such time as the first reimbursement obligation is determined and will then be applicable from that point forward. Interest will be determined on an annual basis and will be calculated from the date of the reimbursement agreement.

### **Other Reimbursements**

Any third party reimbursements shall be treated according to the provisions of the Development Agreement. Because such third party reimbursements do not affect the SVSP fees, they are not accounted for in this nexus study.

### **Reimbursements for Public Land Dedications**

#### ***City Park Land***

Reimbursement for City Park Land shall be made only to the owner who dedicated land for the City Park as identified in this nexus study. Cash reimbursements shall commence once the City has received to its satisfaction one of these:

- Fee title to the park land.
- An irrevocable offer to dedicate the land.
- Another instrument that guarantees transfer of free and clear title of the park land to the City.

#### ***SVSP Right-of-Way, Open Space, and Other Public Lands***

Because the right-of-way and open space land dedications and obligations are being handled as adjustments to the SVSP Infrastructure Fee Component, no cash reimbursements should be payable to an original Ownership Entity. However, there will be a cash payment to one property owner who is required to dedicate right-of-way land, although that land is not in the SVSP.

This land is identified in the SVSP Fee Program as the Placer 2780 property (3 parcels) located outside the SVSP boundaries. The acreage to be acquired from Placer 2780 has been included in

the right-of-way and open space land requirements to ensure adequate funding will be provided to acquire the land as necessary.

## **Fee Program Adjustments and Update**

The SVSP Fee Program is subject to automatic annual inflation adjustments, periodic updates, and a 5-year review requirement. The purpose of each update is described in this section.

### **Fee Program Adjustments and Updates**

The proposed fee shall be adjusted annually, effective as of July 1 of each year. The annual adjustments vary by SVSP Fee Program Component.

#### **SVSP Fee Program Land Value Adjustments**

Annual adjustments to the City Park Land Fee Component and to the Public Land Fee adjustments will be based on the change in the City Park Land Value as determined by an annual appraisal or an updated appraisal the City shall cause to be completed. The appraisal should be completed early enough in a given calendar year to support the fee adjustment as of July 1 in that year.

The Public Land Fee adjustment in a given Ownership Entity shall be adjusted on a per-unit or per-building-square-foot basis based on the percentage change in City Park Land Value for the current year as compared to the previous year. For example, if the City Park Land appraised value increased by 5 percent in given year, then the Public Land Fee adjustment would be increased by 5 percent in that year.

#### **SVSP Infrastructure Fee Adjustments**

Annually, the costs on which the SVSP Infrastructure Fee is based shall be updated by actual costs (using unit price and other cost data from completed projects) or using a construction cost index such as the Engineering News Record Construction Cost Index (CCI). In the event that an index is used, the nexus study recommends that in April of each calendar year, using the procedures set forth in California Government Code Section 66017, the SVSP Infrastructure Fee should be adjusted by the average of the change in the San Francisco CCI and the change in the 20-city CCI as reported in the Engineering News Record for the 12-month period ending May of each calendar year.

As indicated in Exhibit JJ to the Development Agreement, the SVSP Infrastructure Fee adjustment shall be based on the remaining costs of eligible improvements as calculated above, the costs of any outstanding fee credit and cash reimbursement obligations including interest expenses, and the number of undeveloped or unpermitted fee-paying units (EDUs) in the SVSP Fee Program.

#### **SVSP Infrastructure Fee Updates**

The proposed SVSP fee is subject to periodic update based on changes in developable land, cost estimates, or other changes in the data on which the fee is based. During periodic updates, the City will analyze these items:

- Changes in facility costs greater than inflation.
- Use of actual costs for completed facility improvements to “true up” the Fee Program.
- Changes in land use.
- Changes in the amount of ACOE open space required (for Public Land Fee adjustments).
- Changes in other funding sources.
- Inclusion of interest costs for outstanding cash reimbursement obligations (after the first reimbursement agreement is executed).
- Changes in the cost to update or administer the fee.

In addition, a new infrastructure project may be included in the Fee Program to the extent that the project has unanimous approval of the SVSP Owners’ Group and the City concurs. Any changes to the fee based on the periodic update will be presented to the City Council for approval before an increase or decrease in the fee.

### **Five-Year Review**

Fees will be collected from new development in the City immediately; use of these funds, however, may need to wait until a sufficient fund balance can be accrued. According to Government Code Section 66006, the City is required to deposit, invest, account for, and expend the fees in a prescribed manner. The fifth fiscal year following the first deposit into the fee account or fund and every 5 years thereafter, the City is required to make all of the following findings with respect to that portion of the account or fund remaining unexpended:

- Identify the purpose for which the fee is to be put.
- Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.
- Identify all sources and amounts of funding anticipated to complete financing in incomplete plan area improvements.
- Designate the approximate dates on which the funding referred to in the above paragraph is expected to be deposited in the appropriate account or fund.

The City must refund the unexpended or uncommitted revenue portion of the fee for which a need could not be demonstrated in the above findings, unless the administrative costs exceed the amount of the refund.

## APPENDICES:

- Appendix A: SVSP Fees by Land Use Type and Ownership Entity
- Appendix B: Detailed and Summary SVSP Land Use Tables
- Appendix C: SVSP Fee Program Cost Detail Tables
- Appendix D: SVSP Fee Program Public Land Requirement Allocation Tables
- Appendix E: SVSP Fee Program Open Space Cost Allocation Tables
- Appendix F: SVSP Fee Program Fee Credit Tracking
- Appendix G: Development Agreement Exhibit JJ
- Appendix H: SVSP Fee Credit and Reimbursement Agreement (Template)

[1] Includes \$25,000 Segmentation Cost for all roadway Segments

[2] \$317,264.58 of CIP/TMF is included within the CIP Value

NOTE: The costs shown herein are a summary of the costs, based upon more detailed analysis of a preliminary Opinion of Construction Costs outlined in the Sierra Vista Preliminary Estimates dated August 6, 2010, incorporated herein by reference. The Sierra Vista Preliminary Estimates are on file with the City of Roseville Public Works Department.

"summ\_CGB"

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.

[2] Infrastructure Fee net of credits for constructed facilities. All credits will be controlled by credit and reimbursement agreements.

[3] Residential fees rounded to nearest dollar; nonresidential fees rounded to nearest cent.

"summ\_MI"

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.  
[2] Infrastructure Fee net of credits for constructed facilities. All credits will be controlled by credit and reimbursement agreements.  
[3] Residential fees rounded to nearest dollar; nonresidential fees rounded to nearest cent.

"summ\_DF"

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.

[2] Infrastructure Fee net of credits for constructed facilities. All credits will be controlled by credit and reimbursement agreements.

[3] Residential fees rounded to nearest dollar; nonresidential fees rounded to nearest cent.

\*summ\_FED\*

[1] Equals unadjusted gross infrastructure fee amount because this ownership entity does not currently have any of this type of land use within its area. Amounts would be adjusted if necessary because of land use changes.  
[2] Infrastructure Fee net of credits for constructed facilities. All credits will be controlled by credit and reimbursement agreements.  
[3] Residential fees rounded to nearest dollar; nonresidential fees rounded to nearest cent.

## APPENDIX G:

### Development Agreement Exhibit JJ

## EXHIBIT JJ

**SIERRA VISTA SPECIFIC PLAN FEE PROGRAM  
DRAFT POLICIES & PROCEDURES OUTLINE**

The provisions for development and implementation of the Owner-sponsored Sierra Vista Specific Plan Fee Program are set forth in this Exhibit. Although ultimately implemented and enforced by the City, this Fee Program is intended to be independent of and in addition to all other City and County fees required to be paid in connection with development of the area affected by the Sierra Vista Specific Plan (“**Plan Area**”), including without limitation, other fees collected by the City or County (such as the City’s TMF Fee), and shall affect only those properties lying within the Plan Area.

References to an “**Original Owner**” herein shall refer to each of those entities identified as “Landowner” in the Development Agreements entered into in connection with the approval of the Specific Plan, as of the date of execution thereof, excluding, however, each entity identified as an owner who is under contract to sell the Property to the other entity(ies) comprising such “Landowner.” References to an “**Original Owner’s Property**” or “**Property**” shall refer to the portion of the Plan Area owned or controlled (i.e., by way of option or other right to acquire the property) by the Original Owner as of the date of recordation of the Development Agreement for such Property.

**1. Overview of Fee Program.** The Specific Plan Fee Program (the “**Fee Program**”) will consist of three fees (each a “**Fee**”, and collectively, the “**Fees**”), which are initially calculated by a third party administrator and recommended to the City for imposition and collection by the City, credits (“**Fee Credits**”) awarded to the Dedicating Owner dedicating the City Park Land (as defined herein) and the Constructing Owners (as defined herein) to be applied towards Fees, and reimbursements (“**Fee Reimbursements**”) paid to Original Owners or Constructing Owners from Fees paid to the City.

A. Types of Fees. The Fees are comprised of the following:

(1) City Park Land Fee: to fund the fair share contributions towards the dedication of a portion of the Plan Area to be dedicated for the City Park identified as Parcel KT-50 on Exhibit BB of the Project Development Agreements (the “**City Park Land**”);

(2) Infrastructure Fee: to fund and/or reimburse the fair share of the costs of the design and construction of the Project Improvements and dedication of Public Lands (excluding the City Park Land); and

(3) Administration Fee: to fund the fair share of the costs for the City to administer, oversee, implement and enforce the Fee Program.

The Fees are independent of each other and Fee Credits generated against one Fee (through dedications, construction, or payments) shall not be creditable against the other Fees.

B. Fee Administrator. The Fee Program will be organized and monitored regularly by an administrator (the “**Administrator**”). The Original Owners will be

responsible for retaining the Administrator, unless and until the City decides, in its sole discretion, to assume the obligation to retain the Administrator. The Original Owners will advance the costs of the Administrator until such time that the City determines, in consultation with the Administrator, that sufficient funds have been and will continue to be generated by the Administration Fee to fund all future costs of the Administrator, in addition to all other costs associated with the administration of the Fee Program. Thereafter, until the City elects, in its sole discretion, to assume the responsibility for retaining the Administrator, the City shall make funds available from the Administration Fee account to reimburse the Original Owners for the cost of their continued retention of the Administrator. The Administrator will work with the City and the Original Owners to facilitate the administration and implementation of the Fee Program. To minimize the role of the City in administering this Fee Program, the City will rely, to the fullest extent legally possible, on the Administrator to obtain, maintain, process and prepare the information and reports required by this Program to calculate and re-calculate the Fees in accordance with the terms of this Fee Program. The Administrator's roles and responsibilities are more particularly described in Section 9.B below.

C. Fee Credits; Fee Reimbursements.

(1) City Park Land Fee Credits and Fee Reimbursements. The Original Owner dedicating the City Park Land (the **"Dedicating Owner"**) will receive Fee Credits (the **"City Park Land Fee Credits"**) and Fee Reimbursements (**"City Park Land Fee Reimbursements,"**) in consideration of such dedication.

(2) Infrastructure Fee Credits and Fee Reimbursements.

a. Infrastructure Fee Credits. If a person or entity electing to develop a portion of property within the Specific Plan (a **"Constructing Owner"**) is required to install any Project Improvements in connection with its development of such portion of property (which portion shall be referred to as the **"Developing Property"**), such Constructing Owner will receive an amount (in dollars) of Fee Credits against the Infrastructure Fee for the Eligible Project Improvement Costs (as defined herein) paid by the Constructing Owner. The amount of such Fee Credits shall be up to, but not in excess of, the total amount of Infrastructure Fees anticipated to be generated by development of the Constructing Owner's Developing Property (a **"Developing Property's Infrastructure Fee Obligation"**). For example, if a Constructing Owner's tentative subdivision map for 100 tentative single family lots requires the construction of certain Project Improvements, then, for purposes of determining the maximum amount of Fee Credits that can be allocated to the Constructing Owner for its construction of the required Project Improvements, the Developing Property's Infrastructure Fee Obligation would be equal to 100 times the Infrastructure Fee payable by the Developing Property.

b. Infrastructure Fee Reimbursements. If the Eligible Project Improvement Costs paid by the Constructing Owner exceeds the corresponding Developing Property's Infrastructure Fee Obligation related thereto, the Constructing Owner will receive Fee Reimbursements from Infrastructure Fees for the amount of such excess.

(3) No Administrative Fee Credits. No credits or reimbursements shall be provided to the Original Owners with respect to their advance funding of the costs of the Administrator and/or the City to develop, administer, monitor and enforce the Fee Program. By not allowing for credits against the Administration Fee, the Original Owners intend to generate a reliable flow of Administration Fees during development to enable the City to pay the costs of the administration of the Fee Program and eliminate the Original Owners' continuing obligation to advance the costs thereof.

D. Annual Adjustments to Fees, Credits and Reimbursements. The Fees, and corresponding Fee Credit and Fee Reimbursement balances related thereto, shall be adjusted annually, effective as of July 1st of each year (the "**Annual Adjustment Date**"). If for some reason adjustments cannot be made on such date, the adjustments will be made as soon as possible thereafter. The annual adjustments for each Fee shall be made in accordance with the adjustment methods described below for each Fee.

## **2. City Park Land Fee; City Park Land Fee Credits; City Park Land Fee Reimbursements.**

A. General. The City Park Land shall be identified and offered for dedication to the City, as and when required by the City pursuant to the applicable Development Agreement. The City Park Land Fee will be used to compensate the Dedicating Owner for its required dedication of the City Park Land. The City Park Land Fee will be allocated only to residential development within the Specific Plan, in proportion to relative equivalent dwelling units ("**EDUs**") set forth in the Specific Plan Finance Plan (the "**Finance Plan**") for each Original Owner's Property in the Plan Area.

B. Calculation of City Park Land Fee. The City Park Land Fee shall be determined on a residential EDU basis by dividing the value of the City Park Land by the total number of residential EDUs described by the Finance Plan for the land uses shown on the Specific Plan initially approved by the City.

(1) Initial Valuation. Consistent with the appraisal prepared at the request of the City (the "**City Appraisal**"), the initial value of the City Park Land shall be established at \$135,000 per acre.

(2) Updated Valuations of City Park Land. The value of the City Park Land shall be revisited and updated beginning on the Annual Adjustment Date for the year when residential building permits are first anticipated to be issued within the Plan Area, and annually thereafter. The new value shall be based upon a reappraisal or updated appraisal of the City Park Land, as of the pertinent Annual Adjustment Date, obtained by the Administrator. Such reappraisal or updated appraisal shall be based upon similar assumptions and methodology used by the City in the initial City Appraisal, unless the City determines that extenuating circumstances require the use of alternative methodologies, provided that such alternative methodologies shall nevertheless meet applicable MAI appraisal standards.

(3) Adjustments to City Park Land Fee and City Park Land Fee Credit. The City Park Land Fee and City Park Land Fee Credit shall be adjusted based on the percentage change between the reappraised/updated valuation and the immediately preceding valuation for the City Park Land (the “**Land Value Percentage Change**”). Once the City Park Land Fee has been paid with respect to a particular building permit, the residential unit(s) which was the subject of the particular building permit shall not be subject to subsequent increases or decreases in the City Park Land Fee.

C. Timing of Payment of Fee. The City Park Land Fee for a residential building shall be due upon the issuance of a building permit for that building.

D. Park Fee Reimbursements. Once the Dedicating Owner has granted the City an irrevocable offer of dedication for the City Park Land in form acceptable to the City, City Park Land Fee Reimbursements shall be paid to the Dedicating Owner quarterly, as and when the City collects City Park Land Fees from residential development within the Plan Area, whether or not the City has then accepted such dedication.

### 3. Infrastructure Fee, Fee Credits and Fee Reimbursements.

A. General. The Infrastructure Fee will fund (i) the costs for design and construction of backbone public improvements required for the development of the Plan Area (the “**Project**”), as such public improvements are more particularly identified on Schedule JJ-1 (the “**Project Improvements**”), and (ii) the value of the public lands to be dedicated for (a) storm water detention, drainageways, creek corridors, wetland mitigation, and open space, which lands are designated as “Open Space” on the Specific Plan or otherwise depicted as Open Space on Schedule JJ-2 (collectively, “**Open Space**”) and (b) road right-of-way, sewer lift stations, water tanks, paseos and other specifically identified public uses, other than Open Space, the City Park Land and neighborhood park land (collectively, “**Public/Quasi-Public Land**”), as such Open Space and Public/Quasi-Public Land are more particularly shown and described on Schedule JJ-2 (collectively, the “**Public Lands**”). Except to the limited extent described in Section 3.C(2) below, the Project Improvements specifically exclude any required backbone public improvements that would typically be funded by Other Public Infrastructure Programs (as defined herein). The Public Lands exclude the City Park Land due to the separate City Park Land Fee established therefor, and also exclude the neighborhood park lands because the land uses within the Specific Plan have been designed so that each Original Owner’s Property provides its required share of neighborhood park land.

B. Calculation of Infrastructure Fee. The Infrastructure Fee shall be determined for each Property first by allocating the aggregate costs of the Project Improvements (the “**Project Costs**”) shown on the most recent “Project Cost Estimation” (as hereinafter defined) for the Plan Area among the various land use categories in the Plan Area, and then, with respect to each Property within the Plan Area, allocating such Property, by land use, its share of the Estimated Project Costs based upon the land uses

shown for such Property on the Specific Plan initially approved by the City, and then making the “Public Land Fee Adjustment” (as hereinafter defined) applicable to such Property, all as set forth in this Section 3.B. As a result of this methodology, the amount of the Infrastructure Fee is likely to vary among different Properties.

(1) Determination of Fair Share Per EDU. First, each land use in the Plan Area will receive a “fair share” allocation of the costs of the Project Improvement in accordance with this Section 3.B(1), which reflects the cost-spreading methodologies contained in the Finance Plan (which are, in turn, based on generally accepted engineering principles). The initial “fair share” allocation, as shown on **Schedule JJ-3** attached hereto, was and shall be determined by:

a. Designating separate categories of Project Improvements (each, an “**Improvement Category**”) for those Project Improvements whose Project Costs are allocated to the Plan Area land uses on the same EDU basis (including, by way of example rather than limitation, a category for traffic improvements, the costs of which are allocated to land uses on a traffic EDU basis, and a category for storm drain improvements, the costs of which are allocated to land uses on a drainage run off coefficient basis). Each Improvement Category will necessarily involve a different set of underlying Plan Area EDUs;

b. Determining the total estimated costs of the Project Improvements within each Improvement Category based on the most recent Project Cost Estimation; and

c. Dividing the total estimated costs of the Project Improvements within each Improvement Category by the total number of EDUs participating in such Improvement Category to determine the cost-per-EDU within such Improvement Category.

(2) Determination of Fair Share of Project Costs on a Per Property Basis. The total “fair share” of Project Costs for each Property by land use category shall be determined by:

a. Multiplying the cost-per-EDU for each Improvement Category by the number of EDUs on such Property for each corresponding land use category; and

b. Totaling the costs determined under Section 3.B(2)(a) for each land use category on such Property.

(3) Public Land Fee Adjustment. The “fair share” of Project Costs applicable to a Property shall then be adjusted by the difference between the value of Public Lands to be dedicated within the Property and the Property’s allocable share of the value of all Public Lands to be dedicated within the Plan Area (the “**Property Fair-Share Land Obligation**”). Such difference is referred to as the “**Public Land Fee Adjustment.**”

a. Methodology. The Property Fair-Share Land Obligation is equal to the amount of Public Land that must be dedicated for that Property as a result of the number and type of land uses shown for that Property on the Specific Plan, based on the following allocations:

(i) For Public/Quasi-Public land (consisting of road right-of-way, sewer lift stations, water tanks, and paseos, but excluding City Park Land, neighborhood park land, and Open Space), each Property's fair share is calculated on a proportionate gross acreage basis (i.e., each Property's fair share of Public/Quasi-Public acreage is based on its gross acreage divided by total Plan Area gross acreage). The value of the City Park Land is applied to the Public/Quasi-Public Land to determine the amount of each Property's shortfall or overage. Shortfall/overage related to Public/Quasi-Public land is then allocated to the land uses within each Property based on such Property's relative traffic EDUs and then added or deducted, as applicable, from the subtotal of all of the other Improvement Categories within the Infrastructure Fee for each land use within such Property;

(ii) No adjustments are made for neighborhood park land, on the basis that each subdivision is self-sufficient in its dedication of neighborhood park land; and

(iii) For Open Space, Open Space with detention is allocated 50% to residential (on a persons per household ("**PPH**") basis) and 50% to all uses (on a run-off coefficient basis); Open Space without detention is allocated solely to residential (on a PPH basis). Open Space values are based on the following percentages of the City Park Land valuation: 50% for Open Space otherwise developable but required for the Corps 404 permit, 10% for Open Space land within the WAPA corridor, and 20% for all other Open Space. Land within the WAPA corridor designated by the Specific Plan for commercial use are not included in or credited as Open Space. Using these allocations, each Property's fair share requirement for Open Space is determined and the resulting shortfall/overage is then allocated to the land uses in each Property on a PPH basis for residential uses and employee-per-square-foot basis for non-residential uses and then added or deducted, as applicable, from the subtotal of all of the other Improvement Categories within the Infrastructure Fee for each land use within such Property.

b. Adjustments Reflected in Schedule JJ-3. The Public Land Fee Adjustment is incorporated in the Infrastructure Fee for each Original Owner's Property described in Schedule JJ-3 attached hereto. The methodology for determining the Public Land Fee Adjustment is described above to assist in any recalculation of the Public Land Fee Adjustment that may be required by Section 3.D(2) below in connection with the 404 Approvals.

(4) Multiple Properties. Each Original Owner shall have the right to treat all of the Properties within the Plan Area owned by the same named ownership entity as a single Property, aggregating such Properties' shares of Project Costs and Public Land Fee Adjustments in such a manner as to have the same amount of Infrastructure Fee on each Property for the same land use category. An Original Owner shall exercise this right, if at all, by giving the Administrator written notice of such Original Owner's election as and when required by the Administrator.
